Shof-Putters Just Wonderful

Grand Old Flag Has New Glory

By HAROLD A. FITZGERALD
Publisher, The Pontiac Press

ROME—We saw a sight yesterday that would have produced thrills and chills anywhere in the world. In the shot-put, our strong men finished one, two, three against the best around the globe.

Therefore, when it came time for the victory ceremony, 100,000 people witnessed a spectacle that will be equaled very few times by very few nations over the balance of Olympic history.

Three fine athletes from the same nation stepped onto the victory platform together. Three beautiful American flags were raised in the brilliant Italian sunshine as the band played our National Anthem.

The entire audience applauded respectfully while the American contingent yelled like wild Indians.

You would have, too. The breeze stretched the Stars and Stripes full length and the sight brought me one of the great thrills I'll get from these Olympic games.

THE MOST BEAUTIFUL

It's the most beautiful flag in the world, anyway. And I'd say that if I were a Chinaman or Maltese. Old Glory was never more magnificent or spectacular.

Bull Nider, Parry O'Brien and Dallas Long stood smartly at attention on the three victory steps and each of the trio is a veritable giant. Their collective victory gives us a clear-cut claim to the title of world's strong men.

Old Glory was truly Old Glory. Three American flags have gone up before a few times in the Olympics, but world competition is becoming so fierce and so intense that this spectacle will only happen infrequently for anyone over the years ahead.

Every one of the three Americans broke the Olympic record, making the happenings even more impressive. It was a magnificent performance and will resound down the corridors of time in athletic annals.

Nikita Will Lead Russians to U.S.

He'll Be in NY for U.N. Talks September 20

All Heads of Communist Nations in Europe May Consider Attending

MOSCOW (AP)—Premier Nikita Khrushchev will lead the Soviet delegation to the United Nations general assembly session in New York on Sept. 20, it was announced today.

Khrushchev previously had said he would like to head the Soviet delegation to the meeting. Today's announcement was more definite.

A meeting of the heads of all the Communist states in Eastern Europe may be shaping up for the Assembly session. It was announced Wednesday that George Gheorgiu-Dej, the chief of Rumania's Communists, will attend.

This will be Khrushchev's second visit to the United States. He traveled across the nation last year at the invitation of President Eisenhower.

No invitation will be involved in the trip coming up, since heads of all states with U.N. membership have the privilege of going to U.N. headquarters at any time.

Khrushchev has said he expects the General Assembly to be largely concerned with problems of disarmament.

The official Soviet News agency said other delegations of the Soviet delegation will be Foreign Minister Andrei Gromyko, disarmament expert Valerian Zorin, and the ambassadors to Britain and France, Alexander Soldatov and Sergei Vinogradov.

On his first U.S. visit, Khrushchev appeared before the United Nations and put forward his plan for total world disarmament to be achieved within three years.

This plan was rejected by the West as unrealistic.

German Victor in Dash

From Our News Wires

ROME — Germany's rocketing Armin Hary ended United States supremacy in the 100-meter dash today by winning the Olympic crown despite a lunging finish by Dave Sime, the Duke finish.

It was the first time since 1923 that the United States had failed

ROME (UPI) — John Thomas of Boston University, the world record holder and favorite in the Olympic high jump, was eliminated at 7 feet 1 inch tonight, leaving victory to be fought over by two Russians — Valeriy Brumel and Robert Shevchenko — who had cleared the height.

to win the 100-meter event. Three Americans had qualified for the six-man final.

The crowd of 50,000 watching in the sun-drenched stadium roared when the officials declared Hary the winner after a 15-second dash. Sime was given the same time as the winner, 13.2.

In other events, the powerful Russian team today toyed with Uruguay as it rolled to an impressive 85-53 victory in the semifinal pool of the Olympic basketball tournament.

Russia, as expected, gobbled up two more gold medals in women's track to increase its total for the games to 11 and remain in front in the unofficial team race.

Elvira Ozolina of the powerful Soviet squad broke the Olympic record in the women's javelin final with a toss of 115 feet, 3 inches, and from France

a dark-haired Russian girl, won the final of the 80-meter hurdles. U.S. hopes also suffered a damaging blow in the semifinals of the 800-meter event when Tom Murphy of Brooklyn, one of the favorites, was eliminated. He finished sixth and last.

Glenn Davis of Columbus, Ohio, galloped to an easy 51.2 second victory in the 400-meter hurdles to lead the way into tomorrow's final.

Breaks U.S. Victory String

100-METER FINISH — Germany's Armin Hary, left, Olympic 100-meter gold medal winner, rushed across the finish line to take the semi-final run prior to his victory in the finals. Finishing second here, as he did in the finals, is Dave Sime of the United States, second from right. Both Hary and Sime were clocked at 13.2. Ray Norton of the United States, second from left, finished third. At right is D. Jones of Great Britain.

But Chevy Ready for Competition

Olds Line Bows Today

DETROIT — Oldsmobile's turn comes up today on the new model preview, heavy-go-round, bringing with it the first of the new General Motors luxury compact cars.

The Olds entry in the smaller car sweepstakes is the F35, powered by the industry's first aluminum V8 engine.

The F35 is larger than the Chevrolet Corvair, but smaller than any of the so-called standard size passenger cars.

Some observers have predicted the F35 and its companion—the Pontiac Tempest and the Buick Special—will fall in a price class with Chevrolet's middle line of standard cars, the Bel Air.

This would mean around \$2,500 delivered in Detroit.

Edward N. Cole, Chevrolet general manager, was asked last night if this might pose serious competition to his lines. He replied:

"If they start romancing our customers with their small car, we'll go after theirs with our big car."

Cole showed off his 1961 model Wednesday, including five new body types for the compact Corvair. One of the new ones is a Volkswagen-type nine-passenger.

(Cole obviously remains a firm believer in the value of his standard size line. He said 38 per cent of his 1960 model sales have been in the most expensive Impala series.)

"We're planning on 42 per cent

for Impala this next year," he said, however, he hinted the price gap between Corvair and the least expensive Ford Falcon which is cheaper now about \$72—might be narrowed.

In his formal presentation, Cole said Chevrolet hoped to hold its

prices steady for next year. Later, however, he hinted the price gap between Corvair and the least expensive Ford Falcon which is cheaper now about \$72—might be narrowed.

"I think you'll get quite a surprise about that," he told newsmen.

Fidel Grabs 3 Rubber Companies

HAVANA, Cuba (UPI)—Premier Fidel Castro's government seized the Goodyear, Firestone Rubber and United States Rubber companies' Cuban properties today. They had a total value of about \$30 million.

The Goodrich Rubber Company was not immediately seized, apparently because it is a subsidiary of the Mexico branch of Goodrich which in turn is a subsidiary of the U.S. firm.

Armed uniformed militia took control of the other three plants early this morning.

The U.S. Rubber installations are valued at \$10 million, and the other two at about \$5 or \$9 million each.

The intervention followed by only hours a blow-by-blow confrontation warning by East Coast, Fidel's brother and armed forces minister.

His remarks generally were interpreted as a flat announcement that the Castro regime plans to take every American investment or enterprise here no matter how small and not leave even "shoe nails."

Vow Vigilance on Labor Day

Local Officers Request Motorists to Help in Keeping Deaths Down

City police, sheriff's deputies and state police have pledged to do everything within their power to keep motorists and pedestrians alive through the approaching Labor Day weekend, when heavy traffic is expected to flood the surrounding highways and main arteries through Pontiac.

The departments will be out in full force patrolling the roads.

"Our men will not hesitate to issue tickets for the least offense in an effort to hold accidents to a minimum," Sgt. Lorenz Algrin, commander of the Pontiac State Police Post, stated flatly.

"We'll make every effort to limit the local traffic death toll to zero, asking only that you, the drivers and pedestrians, help us keep you from being killed or hurt," said Oakland County Sheriff Frank Iront.

Last year three persons were killed by Labor Day weekend traffic in Oakland County. And two died locally the Fourth of July holiday.

Then traffic across the nation claimed 442 lives.

In an effort to whittle down the tragic loss in Michigan, where 16 were killed, state police patrols will be lengthened to 10 hours per man and all passes will be canceled from noon Friday until mid-night Monday.

The troopers will be aided by some 200 National Guardsmen who will ride with them on patrol and assist at traffic control points.

In spite of these efforts, one person will lose his or her life every 3 hours and 40 minutes in Michigan if drivers run true to form, according to state police records for the past seven years.

Seventeen persons were killed in the state during last year's Labor Day weekend.

This year an estimated three million cars will hit Michigan's highways over the holidays.

City, County Offices Closing for Holidays

All city and county offices will be closed Saturday through Monday for the Labor Day weekend.

Banks will be open until noon Saturday.

Pontiac Motor, Fisher and GMC Truck & Coach plants will also cease operations for three days.

Rail Walkout Threatens City Auto Industry

Grand Trunk Shuts Off Commuter Service to Oakland County

The giant Pontiac automotive industry today was threatened by the Grand Trunk Western Railroad strike that brought rail service to a halt last night.

The strike over working conditions began at 11 a.m., but the rail company had shut off all operations earlier in anticipation of the scheduled walkout.

Taken pickets appeared in Pontiac, Birmingham, Royal Oak and Detroit after company-union negotiations broke off with what was

described as "a large avenue of disagreement" still to be resolved. Talks were to be resumed at 1 p.m. today.

Neither side would make any prediction on how long the strike might last.

Immediately affected were nearly all of the railroad's 6,600 employees, who the company said would be laid off in event of a strike by 1,000 switchmen, brakemen and baggage men of the Brotherhood of Railroad Trainmen.

About 1,500 railroad commuters from Pontiac and other Oakland County communities had no other means of transportation to jobs in Detroit this morning.

Officials of Pontiac Motor Division declined comment on the effect of a prolonged railroad strike on production.

But they said the record-concern expressed on Oakland Avenue that a continued shutdown might affect the import of heavy, important parts and the export of finished products in Michigan.

The company relies heavily on the railroad now and would have to try some other form of transportation for its shipments if the strike is not settled.

At the GMC Truck & Coach Division plant on South Boulevard, a spokesman said that "most immediate troubles" are expected because of the strike.

He said the company would turn to more truck deliveries to fill any gap in railroad shipments.

More than 60 per cent of the railroad's business in Michigan is with the automotive world.

The Pontiac Motor shop committee will ask management today or tomorrow for a meeting to discuss effect of the strike, said Bert Henson, financial secretary of UAW Local 633.

Pontiac Motor is scheduled to call back about 1,500 workers Wednesday to get the 1961 production year under way.

"We have been expecting things to start booming in Pontiac during the next 30 days," said Henson. "We hope the strike doesn't upset that trend."

Pontiac Motor's main import (Continued on Page 2, Col. 2)

2nd-Best Car Year Expected

DETROIT — A total of 3,957,004 new car registrations for the first seven months of 1960 indicate the year may turn out to be the second highest in sales in automotive history, according to R. L. Polk & Co.

Polk said Wednesday the 1960 period is only 5 per cent off the pace of the record year of 1955 when 4,165,000 registrations were recorded in the first seven months.

However, the statistical agency noted that new car registrations in July totaled 545,353, or 13.3 per cent under the same month in 1955.

New Role Is Studied for TB Sanatorium

Oakland County supervisors will take a long, hard look at a plan for drastic changes in the housing and classroom facilities for the county's neglected and delinquent children.

A report placed before three committees of the Board yesterday called for:

Family Sees Father Drown

Skin Divers Recover Body of Holly Man in Bush Lake

A 35-year-old father of four children drowned Wednesday in Bush Lake at Holly before the horrified eyes of his wife and family.

The victim, Keith Flynn of 307 P. K. St., Holly, suddenly went under about 50 yards from shore and failed to come up.

His body was retrieved 15 hours later by skin divers.

When he returned home from work at the Chevrolet Motor plant in Flint yesterday afternoon, Flynn suggested to his wife that they take the kids to the village park for a swim to escape the heat.

He hadn't been swimming for the past 15 years, Flynn's wife Wilma said.

Soon after they arrived at the beach, her husband swam out to one of two rafts on Bush Lake.

Another swimmer, resting on the raft, said Flynn looked tired when he grabbed hold of the raft. Asked if he wanted a hand up, Flynn said no and began swimming toward the second raft about 100 feet away.

He never made it.

His wife said he just went down all of a sudden and failed to come back up. No one heard him scream for help.

Other swimmers went to his rescue immediately, but were unable to locate the victim in the murky water.

Holly police were notified. They and sheriff's deputies arrived with minutes with four skin divers.

Five hours later, Flynn's body was recovered in 30 feet of water by Holly skin diver Dick Gillette of 1110 Manor Drive.

Mrs. Zucco's children are, from left: Mary, 4; Lynn, 3; and Brad, 1. The "Kennedy Girls" were at the Miracle Mile Shopping Center yesterday.

Bulletin

KANSAS CITY P.—The following severe weather forecast was issued today for parts of Michigan and Ohio.

"A few severe thunderstorms with hail and damaging winds are expected this Thursday afternoon from 1 p.m. to 7 p.m. in the approximate area 60 miles either side of a line from Cadillac, Mich., to Toledo, Ohio." (This includes the Pontiac area.)

CADILLAC (UPI)—A severe thunderstorm struck the Cadillac area today with a downpour of rain and furious winds, injuring at least two persons and causing extensive damage and flooding.

The U.S. Weather Bureau at Detroit reported a tornado hit in the vicinity of Cadillac, but state police and local weather watchers here were unable to confirm it. The Weather Bureau report said the tornado injured four persons.

Will Consider Three Requests to Slow Mixing

Supreme Court Gets Integration Fights

By The Associated Press

Three requests to halt or slow down public school integration were due to come before the U.S. Supreme Court today.

The Houston school board pinned its last hopes on the high court after Texas Gov. Price Daniel refused to intervene in a federal court order integrating the first grade next Wednesday.

Louisiana Gov. Jimmie Davis seeks to regain control of New Orleans schools, ordered to integrate.

Sulfur Mine Lies 7 Miles From Shore

NEW YORK (UPI) — The Freeport Sulfur Co. is building its Grand Isle mining plant on shifting sands that lie under 50 feet of water seven miles at sea in a hurricane zone.

The magazine "Steelways" reports that the steel "island," built on stilts above the Gulf of Mexico, will soon begin pumping sulfur to shore depots through a unique steel pipeline.

The magazine said it was business arithmetic that prompted construction of the \$30-million, half-mile-long Grand Isle project south of New Orleans.

Of the 26 known onshore sulfuriferous deposits, only 23 have been worked and abandoned, and the other 14 are now either in production or undergoing development.

So the sulfur industry pushed its search for new deposits offshore. Grand Isle turned out to be a promising site.

first grade Nov. 14. A three-judge federal court told Davis to keep hands off after he took case, the schools under a state law in an effort to forestall integration. Negro attorneys will seek to have the date speeded up to Sept. 8.

In the third case, Delaware is protesting an order to speed up the state's grade-year integration plan. The speedup, ordered by a lower federal court would integrate all grades by next fall.

INTEGRATE

Eight schools in Knoxville, Tenn., opened today with first grades integrated. Supt. Thomas N. Johnston reported no trouble when 28 Negroes enrolled in the formerly all-white schools Wednesday.

Dollarway school in Pine Bluff, Ark., has one 6-year-old Negro girl registered for first grade classes beginning next Tuesday.

One Negro student each is assigned to two North Miami Beach, Fla., schools, but the Dade County School Board turned down results to assign six more Negro children to white schools.

In Houston, the nation's largest segregated school system, three Negro children were refused enrollment in white schools despite a federal court's integration order. The Negroes were turned down under a School Board policy requiring all pupils from one family to attend the same school.

Parents of the three applicants have other children in Negro schools.

New York City's Board of Education announced a new policy aimed at breaking up racial seg-

Snakes Alive! Two Stray Ones Liven Up Mail

NEW YORK (AP)—The Greenwich Village post office had some excitement Wednesday.

Digging into a bin of letters, a mail sorter came up with two 18-inch green garden snakes.

Investigators determined that the snakes had escaped through air holes in a shipping box. The snakes came from the Tote-Em-In-Zoo at Wilmington, N.C., and were destined for a Greenwich Village pet shop.

Charcoal is made by heating wood in an enclosed space where there is a limited amount of air. The wood glows but does not burst into flame.

Well Liked by Lawyers

'Perry Mason' Attends Convention

By DICK WEST

WASHINGTON (UPI) — The American Bar Association is meeting here this week and the town is teeming with 15,000 lawyers and Perry Mason fans.

As conventions go, this one is unusually decorous. The business sessions are well attended and the delegates generally pay attention to the speakers.

But you ought to see the way that heads turn whenever an ambulance goes by.

In using me at the moment as the opportunity was wasted.

That being the case, I did the next best thing and ordered a consultation, as well as a cup of coffee, from Raymond Burr, a Hollywood actor who plays the role of attorney Perry Mason on television.

Burr has hung out his shingle here long enough to make a speech before one of the bar association groups and to participate in a panel discussion.

I consulted him in his hotel room where he was sipping coffee and working on his speech. He acted so much like a real

lawyer, I was afraid he would charge me a fee.

Since he began playing in the Perry Mason series, Burr has been getting about \$200 a week, mostly from television fans who are looking for a good attorney.

However tempted he might be to handle some of the cases himself, he always turns them over to the Legal Aid Society or some other such group.

Not only has his acting been convincing to the TV audience, but the legal profession also has tended to accept him as one of

its own. Already this year, he has been invited to 33 bar meetings, which is more than most practicing attorneys attend in their entire careers.

I asked Burr how he accounted for his popularity among lawyers. After all, the medical profession never exactly went overboard for Lee Remick when he was playing young Dr. Mudd.

Burr said he thought it was because he admired the legal profession and felt a responsibility to present it in a favorable light on his show. Oftentimes, he pointed out, criminal lawyers have been represented in books and plays as shysters or sharpies.

This may be so, but I suspect the real reason why lawyers like to identify themselves with Burr is because Perry Mason never loses a case.

Coffee 9 A.M. Friday at PCH

To Greet New Teachers

With classes only a week away, Mayor Philip E. Rowan, Fred P. Whitmer, superintendent of some 160 new teachers will be V. Haggard, president of the Oak-Land County AFL-CIO Council, and John Hirsinger, manager of the Pontiac Area Chamber of Commerce.

The first of three preschool meetings will take place at Pontiac Central High School.

Other meetings will be held next Tuesday and Wednesday, with returning teachers also attending.

Dr. Philip J. Proulx, assistant superintendent of schools in charge of personnel, will preside at the morning session.

This will be followed at 10 by a "welcome to our schools" program.

Mal Oswalt, president of the Pontiac Northern Student Council, will greet the teachers on behalf of student bodies at city schools.

Also greeting the teachers will be Mrs. Charles Coppernath, vice president of the PTA Council, Louis Schlumpf, president Pontiac, and Dr. Dana Day.

A luncheon will be held at noon by tours in which new teachers will be taken on a tour of their school building by their principals.

All teachers in the district will meet Tuesday at Pontiac Northern and report to their schools Wednesday.

That comes Thursday, Junior's

United States Best Bet With Cuba Is Firmness

The United States and the Organization of American States has taken just about all that is necessary from Cuba's Castro and Foreign Minister RAUL ROA.

We are dealing with nothing much better than a band of common thieves.

Last week the OAS was treated to a two hour diatribe against the United States by Foreign Minister Roa. Since then Castro himself has taken to the air with more of the same.

By both men this country has been accused of virtually every international crime known to man. On top of this they admit their undying love for Red Russia and Red China. Then they have the gall to offer to negotiate our differences.

There is absolutely nothing to negotiate.

Castro has stolen virtually all American owned property in Cuba, while swearing at us in every speech he makes. Also, he is doing his best to turn Cuba into a Soviet bridgehead in the Western Hemisphere.

If we were to negotiate with Castro and his pickpockets we would in effect okay their larcenies and repudiate the Monroe Doctrine.

Our only position with Castro and Co. should be to stand firm and not give in.

Splendid Opportunities for Adult Education

The back to school movement coming in the near future doesn't have to be limited to the younger generation.

Each year there are many adult education programs offered by Michigan State University, Oakland University, Wayne State University and the Pontiac school system in our area.

Not many communities can offer such a wealth of educational opportunity. But many of the courses will only be given if a certain number of registrations are made.

If you have the banking to join Junior and Sis when the school bell rings, begin to line up your program now.

Many Changes Due for 87th Congress

When the 87th Congress convenes in January, numerous new faces will be seen around the Capitol. Four Democrats and one Republican are retiring from the Senate. Fifteen Republicans and 11 Democrats are leaving the House.

Not all those retiring are going out of politics, however. One, Rep. BUNICK, D-N.D., has been elected to the Senate and four—BENTLEY, R-Mich.; METCALF, D-Mont.; McGOVERN, D-S.D.; and THOMAS, R-Wyo.—are in the running for the Senate. Rep. CORVIN, D-Maine, seeks the Maine governorship.

Of those leaving the Senate THOMAS F. GREEN, D-R.I., former chairman of foreign relations, is the oldest man to sit in the upper house. Two others are the widely known MURRAY, D-Mont., chairman of interior and insular affairs and MARTIN, R-Iowa, second ranking minority legislator on public works.

Among those retiring from the House are BARKEN, D-N.C., chairman of education and labor;

JACKSON, R-Calif., of the un-American activities committee; FORAND, D-R.I., and REESE, R-Kan., top Republican on post office and civil service.

Probably the most publicized retirement was that of Rep. CHESTER BOWLES, D-Conn., who withdrew to devote as much time as possible to Sen. KENNEDY's campaign for the presidency.

But Nov. 8 will decide the big question. Who gets the most important job in the world today—Vice President Nixon or Sen. Kennedy?

For not more than four or five times what they would cost at a grocery store, a non-farmer can raise his own tomatoes.

No matter how much money the typical American makes, he manages somehow to make his outgo exceed his income.

The Man About Town

Smaller Crowds At Recreational Resorts; Early Coolness to Blame

September: A month into which August appears to have boiled over.

This late warm weather is helping to overcome the 1960 drop in the attendance at most of the recreational areas in the Pontiac vicinity. If it continues, some of them may yet come close to their 1959 record.

Cool weather early in the season, especially on several weekends, caused greatly diminished crowds at all of them, of which Oakland County has more than any other county in the state. At many times the water was too cool for bathing.

The attendance at Cass Lake Dodge Park alone approaches a reduction of around 300,000 from last year. Other minor reasons also contributed to this in some measure.

However, if the high temperature maintains, it is expected to bring out record breaking crowds over the Labor Day weekend. This will particularly affect the number at Cass Lake, Pontiac Lake and Kennington Lake.

Spreading glory at the home of August Smith

at 263 Edson St., is a night blooming cereus plant.

A wonderful spectacle of blossoms and beans is growing in the yard of Mr. and Mrs. Robert Haslock

at Davisburg. English and Welsh style of premium runner beans are growing from 8 to 10 feet high—and still reaching for the sky. The pods are 8 to 12 inches long.

Topping most everything of the kind in Pontiac or its area in pioneering church work is St. Patrick's Chapel

at White Lake. Its 130th anniversary will be recognized on Saturday, Sept. 10, at 10 o'clock in a special mass for our pioneers and their descendants, to which the general public is invited.

Running true to form, the peaches raised in the Pontiac area are of a more delightful flavor than any of the shipped-in kinds—even more so than those from other parts of Michigan. Is there any grander fruit, not excepting anything from the south?

Tuberous begonia blooms six inches across are blooming in the garden of Mr. and Mrs. Ray D. Baker

at Green Lake, adding much to their already beautiful landscape.

Oakland County's new certified tree farmers.

Earl Barrett and Otto Brian of Highland, were among the 23 to be recognized at the eleventh annual state dedication ceremonies at Brown City recently.

Verbal Orchids to—

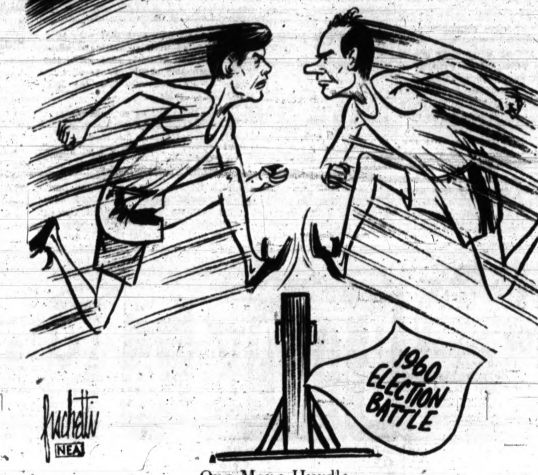

Mrs. Ada Meeky of 8415 Cooley Lake Road; 96th birthday.

Mr. and Mrs. John Guttenberg of Drayton Plains; 52nd wedding anniversary.

Mrs. Pearl Winterman of Waterford; 82nd birthday.

Mr. and Mrs. Jonathan Ormond of Rochester; 54th wedding anniversary.

Mrs. Pamela Marchetti of Metamora; 85th birthday.

David Lawrence Says:

It's About Time to Stress Loyalty

WASHINGTON—Is loyalty becoming out of date, or are the recent defections from the United States to Russia merely a group of frustrated individuals with perhaps a psychotic condition?

If there is a flood of complacency in America on the matter of internal subversion and a tendency to label all efforts to expose such subversion as just "McCarthyism."

These questions bother a good many people inside and outside the government nowadays. The latest piece of information that gives rise to the discussion comes in a document just released by the Department of State through Sen. Kenneth Keating of New York, a member of the Senate internal security subcommittee, who put it in the Subcommittee Record this week.

It tells about Dr. Maurice H. Halperin, a former Boston University professor and wartime intelligence officer, who now is behind the Iron Curtain working for the Soviet government.

He is one of the individuals who made the headlines in 1953 when he was fired from his job at Boston University for refusing to answer questions by a congressional committee about his connections with the Communists.

Prof. Halperin and his wife on July 15 asked the American Embassy at Moscow to renew their passports.

Congress has been so lax about passing the necessary legislation to regulate the issuance of passports that it is possible those passport renewals will have to be issued to the Halperins, and they then can travel in Europe and elsewhere as they please.

The State Department was advised that Prof. Halperin was an expert on Latin American affairs, told the embassy that he was doing "research" on underdeveloped countries for the Soviet Academy of Sciences, which is "directly subordinate to the Soviet Council of Ministers."

THOMAS N. HARRIS. The Halperins have been in Russia since December 1958 and went there by way of Mexico, where a case of deportation against them for alleged Communist activities had been under consideration by the Mexican government.

Incidentally, Prof. Halperin helped Mr. and Mrs. Alfred R. Stern to escape from Mexico after the latter had been indicted by a U.S. Federal Grand jury on a charge of conspiring to obtain and transmit security information from the United States to Russia.

The Country Parson

"Everybody expects my preaching to be practiced—I expect others to do it and they wish I would."

Previously, the State Department says, the Sterns had obtained fraudulent Paraguayan passports which had been declared void by that country's government.

The State Department document further reveals that Halperin in the 1940s had supplied a Russian espionage agent with information "including mimeographed bulletins and reports prepared by the U.S. Office of Strategic Services on a variety of topics as well as excerpts from State Department cables to which he had access."

As for the Sterns, they are university graduates and well-to-do. Mrs. Stern is the daughter of a former American ambassador to Germany.

Dr. William Brady Says:

Not Against Alcoholics but Alcoholism Instead

"You need not have acknowledged with such extreme candor that you are a rabid teetotaler. It is quite apparent in everything you say about alcohol or alcoholism. Recently you pleaded for a more sympathetic and practical understanding of mental derangement. Why are you so bitter and intolerant towards alcoholism? Isn't alcoholism a disease?" (R.W.)

First, I thank you, sir, for your courtesy.

The bitterness I feel is against alcohol, not against alcoholics.

When I entered private practice, so many of my patients were hard up because the wage earner of the family had to stop in at the saloon to pay his bill and keep his credit there before he arrived home with his week's pay. That left the family with no money for the doctor.

This wasn't so bad, for I still managed to get along on what non-drinking patients paid on their doctor bills. But the social, privation and unhappiness of the families of those alcoholic addicts worried my soul.

And there's no question about alcohol being the No. 1 narcotic.

Unfettered, unbridled youngsters are the cocaine, morphine, heroin, marijuana or other narcotic drug habit by "trying" the drug for what they are persuaded to believe is a harmless thrill, kick or wonderful feeling of exaltation.

If the after-effects of the first indulgence are not too unpleasant or the individual is not very intelligent, the indulgence is likely to be repeated; and presently the interval between bouts, which at first becomes so full of the depressing after-effects that the individual is impelled to repeat the dose of his or her favorite narcotic immediately, is this is addiction.

A young person with good intellectual condition, whose physical education has not been neglected, feels just fine and dandy. It would be difficult to imagine better feeling, but he or she is well being than he or she enjoys, thanks to vodka.

Vile, of course, means preservation of the characteristics of

DR. BRADY

Voice of the People

'Excellent County, Turnout for Tennis Tournament'

May 1 take this opportunity to thank The Pontiac Press for assistance given toward making our Oakland County Open Tennis Tournament successful and an enjoyable experience for all participants.

There seemed to be a wide range of abilities as well as areas of Oakland County present, so that competition proved quite interesting.

Since eight of the eleven winners or runners-up trophies stayed within the Pontiac area, we do feel another year with a date well cleared of recreation and private club tournaments will yield a more competitive and perhaps countywide representation in the final results.

It would be pointless not to run a better tournament next year. So we hope to improve the field, the physical plant, and the tournament administration.

Harry J. Wenzel
Parks and Recreation
Tennis Supervisor

'Library Book Tells How Kennedy Did It'

To the people who were asking how Sen. John Kennedy's father became a millionaire, I suggest they visit the library and read the book "John Kennedy" by Mrs. Chester Jansel.

108 East Beverly

Portraits

By JOHN C. METCALFE. There is in Washington, D.C., a place where you can eat and almost any time of day. Your rival by-line meet. This special rendezvous will be up at the Press Club Grill. Where many correspondents come. Each day to have their fill. Within this sacred crowded room, they serve what you may choose. With peppered gossip gravy on. A steak of latest news. Now you would surely think this place. Has no far-flung fame. Because exclusively it bears. The National Press Club name. But all its journalists will swear. This spot is most revered. Because no wife may step upon. This hallowed dining ground. (Copyright 1960)

Detroit Challenges Others to Good Citizenship Drive

DETROIT (UPI)—Mayor Louis C. Martin Wednesday challenged the mayors of 10 other large U.S. cities to compete with Detroit in a good citizenship drive to register voters for the November election. Mr. Martin sent telegrams containing the challenge to Mayors Robert F. Wagner of New York, Richard J. Daley of Chicago, Norris Poulson of Los Angeles, Anthony J. Cebrowski of Cleveland, George Christopher of San Francisco, Raymond Tucker of St. Louis, Harold Gray of Baltimore, Joseph M. Barr of Pittsburgh, John Collins of Boston, and Richardson Dilworth of Philadelphia.

He said the contest would be "strictly nonpartisan" and that Detroit would provide a trophy to be presented to the winning city.

The contest would be based on the percentage of voters registered. He asked the American Heritage Foundation to judge the contest. He proposed that the trophy be

presented at a dinner to be held in conjunction with the national conference of mayors, and that the menu be "steak and beans," will the last-place mayor in the contest eating beans and the others eating steak.

St. Martin proclaimed Sept. 12-Oct. 10 as Good Citizenship Month in Detroit and said he would name a committee of 50 persons to head the vote registration drive.

So I ask you not to let heart over what I am suffering for you which is your glory.—Ephesians 3:13

In those holy fields. Over whose acres walk'd those blessed feet which fourteen hundred years ago were nail'd For our advantage on the bitter cross. Shakespeare.

Case Records of a Psychologist:

Let Wife Handle Family Budget

Otto didn't know how to operate his home on a budget. Yet he insisted on handling the money. His wife was far more competent in this respect, as are most folks today. So, men, let your wives handle your pay checks.

By DR. GEORGE W. CRANE. CASE #438: Otto L., aged 35, is the father of three children.

"Dr. Crane, Otto earned \$4,000 last year," his wife protested, unhappily. "I never get to see any of it, for Otto insists on handling all the funds."

"He squandered \$38 on liquor, and over \$800 on cars, armoires, guns, fishing tackle and other personal items," she brought home DR. CRANE, candy bars or chewing gum for the children.

"We have been in debt ever since we were married. He acts as irresponsible as a child in money matters. He is now in debt to short term firms, and shorting their notes of overdue payments."

"Dr. Crane, if he wants to remain a little boy all his life and never learn how to handle money, then I am going to get a job and quit being bounded by bill collectors."

"I earned a good salary before marriage, and can do it again. I am too tired to argue with him tonight."

NKCN, WAKE UP. A smart husband should let his wife handle the funds, if she has any business ability at all.

There he can blame her if bills are unpaid, instead, Otto is getting all the blame, and do-

severely so, for his inability to serve as a good accountant and housekeeper.

His inability is further proved by his squandering \$38 annually on his own selfish pleasure, when his total income was \$4,000.

No intelligent man would be so selfish as to divert almost 25 percent of his annual income to himself, if he had any regard at all for his wife and family.

MARRIED TO A BABY

His wife made her first mistake years ago when she consented to marry this juvenile male.

I have often advised you girls to open your brains when you pick a mate. Check into his family background. Interview his family members. Get acquainted with his neighbors and friends.

And see how he handles money. Be sure you find out how his father acted in this regard, for sons tend to follow in the footsteps of their fathers.

Does he carry any life insurance? Is he planning to take out a new policy in your favor or transfer his present policy to you?

Has he any savings? What about his estate? Does he contribute generously to the church and other philanthropic causes? Was he a former newspaper hero? Newspaper boys get good business training.

Use your brains first and then surrender to your emotions. Stop your wishful thinking or vanity. Stop that God will make everything come out all right.

GOB GLAZES YOUR BRAIN

Go help those who help themselves. He has little respect for stupid people who refuse to use the excellent brains that he put into the skulls.

Once Otto didn't want his wife to go back to an office job, I

financial decisions are on her shoulders, so he is more relaxed and happy.

Send for your scientific "Budget Chart," enclosing a stamped return envelope, plus 25 cents.

And let your children help operate your home on a budget.

Give them a month's internship in this regard, for you parents owe it to them to teach them how to run a home on the efficient budget plan.

Address: Dr. George W. Crane, in care of the Pontiac Press, Pontiac, Michigan 48110. Enclose stamped envelope and ask for budgeting and saving charts. We send free psychological charts and pamphlets.

(Copyright 1960)

The Pontiac Press is delivered by carrier for 40 cents a week, where delivery is not possible, by mail for 50 cents a week. All other rates on application. All mail communications should be addressed to Pontiac Press, 11 West Huron Street, Pontiac, Michigan 48110.

Cuba Will Grab All Our Property

Raul Castro Predicts Even Guantanamo to Fall Eventually

HAVANA, Cuba (AP)—Raul Castro insisted early today that the seizure of the remaining American property in Cuba—estimated at a quarter of a billion dollars—was imminent.

But the fiery minister of armed forces told a midnight rally of sugar workers his brother's regime does not plan to confiscate the big U.S. naval base at Guantanamo "for now."

He described the base as "obsolete and predicted "It will come to be Cuban years sooner or years later."

Charging that "war criminals"—meaning anti-Castro forces—are training at Guantanamo, he declared: "We warn again any problem that rises there is the consequence of auto-provocation."

WY COME FRIDAY
The younger Castro left the impression that another grab of American properties might be announced at the giant rally Prime Minister Fidel Castro has called for Friday "to answer the declaration of San Jose."

Death Notices

WILLIAM B. ALEXANDER
William B. Alexander, 38, of 25 Bagley St., unexpectedly died yesterday at his home of a cerebral hemorrhage.

An employee of Pontiac Motor Division, he is survived by his wife, Edna, and his mother.

Service will be held at 1 p.m. Saturday at the Liberty Baptist Park Cemetery. His body is at the Frank Carruthers Funeral Home.

KEITH A. FLYNN
HOLLY—Keith A. Flynn, 32, of 107 Park Ave., drowned yesterday in Bush Lake. His body is at the Dryer Funeral Home.

Surviving are his wife Wilma; two sons, Keith and Bill; and two daughters, Nancy and Sheila, all at home. His mother, Mrs. Cara Flynn; a brother, and two sisters, all of Flint, also survive.

Quotes French Authority for Slam at Congress

WASHINGTON (UPI)—Rep. Sidney R. Yates, D-Ill., said today the results of the "botched" session of Congress could be viewed in much the same way Voltaire appraised a poem titled "to prosperity."

"It will never reach its destination," Yates quoted Voltaire.

Wants Chemical Names

SAN FRANCISCO (AP)—The American Hospital Assn. has recommended that physicians in its 3,600 member hospitals stop using brand names on prescriptions. Prescribing drugs by chemical identification will enable hospital pharmacists to buy the cheapest brand at a saving to patients, the AHA said.

Old-Maid Car Sales Routine Riddled

Points Up Need of Frequent Oil Changes

By BEN FRIEDMAN
AP Automotive Writer

DETROIT — If somebody offers you a car owned by an old-maid school teacher who never drove more or further than around the block, turn it down.

Assuming everything about the previous owner and her habits was true, you'd probably wind up with a real clunker. The car might look all right, but if you took it out and drove it at normal, highway speeds so that the engine warmed up you could be in deep trouble.

The American Petroleum Institute (API) says sludge formed in the crankcase during low speed, short trip driving would bake on the engine surfaces causing overheating, misfiring and finally piston failure. Continued use would ruin the engine completely.

"The old-maid routine is a good illustration of what we are trying to tell car owners," said Ralph Cubicciotti of New York, who heads cause of excessive engine wear.

the motor oil study panel of the API's lubrication committee.

"A lot of people seem to be confused if we suggest they change oil more frequently under severe driving conditions. They don't realize that stop-and-go short trips represent some of the most severe driving possible."

The API is trying to persuade motorists to change oil every 30 days during the winter, every 30 days during the summer, but never less frequently than 5,000 miles of driving.

"This is a lot easier to remember, and a lot more accurate, than just a flat mileage figure," Cubicciotti said in a recent interview. The API also would like to get the automobile manufacturers to specify such engine care in their new car owner's manuals. As yet there is no uniformity.

CHANGE ADVISED

In its early 1960 model cars, engine oil change is advised every 5,000 miles. Later, he said, Cubicciotti of New York, who heads cause of excessive engine wear.

this was dropped to 2,000 miles. Several other lines suggested 4,000 miles and at least one 100 car is said to have the oil change recommendation to 6,000 miles.

"But I think more of them are beginning to see it our way," Cubicciotti said. "We're not far apart at all with the engineering departments, but sometimes the engineers don't have the final say-so in the owner recommendations."

From a motor oil standpoint, Cubicciotti said, ideal driving conditions might represent 3,000 miles daily of Turnpike-style driving. "If you were going to drive from Detroit to California and back in one week (about 5,000 miles) there would be no real reason to change oil. But the average motorist doesn't drive that way."

Modern motor oil, if kept pure, will last a long time. But contaminants get into the engine and into the oil. Moisture condenses, especially when the car is driven only short distances, and water mophia, escaped without injury.

forms—a perfect invitation to rust. The API says that with stop-and-go driving, prolonged idling periods or dusty road travel you probably should change oil even more frequently than the 30-day rule.

Cubicciotti agrees that one problem is getting motorists to follow a set pattern in the time it takes in many places to get oil drained and refilled.

He looks forward to the future possibilities of specialized shops handling nothing but oil changes and chassis lubrication work. "It could be done in 10 or 15 minutes, just like the automatic car washes," he said, "and a lot more cars would be better maintained."

Wheel Misses Baby

MILWAUKEE, Wis. (AP)—A huge wheel flung from a dump truck smashed into a carriage in which a baby was sleeping, but the infant, Kathleen Radwell, 4 session ever further into the fall campaign months.

Congress Skirts Stronger Rights

Doesn't Want Filibuster by Southern Senators Prolonging Session

WASHINGTON (UPI)—Congress, which approved a Civil Rights bill early this year after a two-month debate, had little appetite for another fight on the issue at the post-convention session.

President Eisenhower and several Republican senators tried repeatedly to push another Civil Rights bill through the August session. The last attempt was made Wednesday.

Southern senators, who poured out millions of words of opposition during the February and March Civil Rights Donnybrook, remained mostly silent on the subject during the extra session.

But in this silence was an implied warning that any new Civil Rights action would bring a Southern filibuster that would block all other legislation and extend the session ever further into the fall campaign months.

Lawyers Keep Stiff Upper Lip While Wilting

British Have Hot Time in Washington

WASHINGTON (UPI) — The British, a plucky lot, absolutely refused to complain about the heat — at least to their American hosts.

More than 7,000 British attorneys and their wives attending the American Bar Association meeting here have found themselves in the steamy discomfort of Washington summer at its hottest.

But diplomats to the end, some of the Britishers even insist that the sun is wonderful after a more than usually gray, cool summer at home.

"A bit humid," others conceded, "a little difficult to walk around."

But observers noted that at Monday's sweltering White House lawn party, the British guests kept a stiff upper lip despite the dark, winter-weight suits many were wearing.

The visitors from Great Britain, Canada and Australia are having the usual tourist troubles and pleasures despite the hot spell.

DIFFICULT TO GET ABOUT

"Don't you find it difficult to get about?" a British wife asked another in the lobby of the Statler Hotel, which serves as

convention headquarters. "And expensive," she added.

But another British visitor, Miss F. M. Slack of Chesterfield, England, told a reporter she had

To Retire as Editor on New York Paper

NEW YORK (AP) — Roy W. Howard announced Wednesday his retirement from the editorship of the New York World-Telegram and Sun, a post he has held for 33 years.

Howard, who is 77, will continue as president and a director of the New York World-Telegram and Sun, a company which publishes the paper.

Succeeding Howard as editor will be Lee B. Wood, who currently holds the post of executive editor. The change takes place today.

Seven years ago Howard resigned as president of the Scripps-Howard group of 19 newspapers, including the World-Telegram and Sun, to become chairman of its executive committee. He continues in that position.

just one complaint about her stay in Washington.

"I'm so tired of trying to explain the difference between a solicitor and a barrister," she said.

The British legal profession is divided into two distinct types of practice, unlike the American. The solicitor works with clients. The barrister argues before the courts.

Miss Slack, a solicitor, said she had given up the fight and had simply ordered a book from home, entitled, "Brothers in Law."

The British attorneys constitute perhaps the largest group of their countrymen to gather in the United States since World War II. They are repaying a visit from the American Bar Association to London in 1957.

And they are taking in all the usual sights, including baseball. The District of Columbia Bar Association has been paying for tickets for the visitors to attend the Washington Senators' games here.

The most southern point in the United States is Kalahe on the island of Hawaii.

ACCUSED—Richard Lane of Los Angeles Wednesday night was accused by a Moscow news paper of recruiting two Soviet youths for an American spy network when he attended a 1957 world youth festival in Moscow.

Police Right on Job

BORGER, Tex. (UPI)—Patrolmen Paul Fisher and Arthur Wright believe they now hold the record for arriving at the scene of the accident. They were searching for a reported drunk driver when the man smashed his auto into the rear of their patrol car.

Calls Race Fight Peril to South

Business Leader Sees Peace as a Necessity Before Industry Spurts

JACKSONVILLE, Fla. (UPI)—Racial conflicts may become a serious obstacle to continued industrial growth in the South, a business leader warned Wednesday.

"There will be little value in discussing industrial development in any southern state unless an early end to our domestic conflict is found," said W. C. Windsor of Dallas, Tex., president of the Southern Association of Science and Industry.

"Capital investment and civil strife are incompatible," he said. "Can you conceive of putting your dollars in the Congo today?"

Windsor spoke before approximately 400 business and industrial leaders at a conference sponsored by the Florida State Chamber of Commerce.

He suggested Negro leaders re-examine the desirability of staging lunch counter sit-in demonstrations in view of the "serious economic consequences that must be expected from continued racial violence," he said.

He also proposed closer coordina-

tions at the community level between white and Negro leaders in an effort to settle racial problems.

Girl, 14, Says Conductor Put Her Off Train

DETROIT (AP) — A 14-year-old Detroit girl, claiming a conductor put her off a train outside Perryburg, Ohio, after she missed her stop, has filed a \$25,000 damage suit against the New York Central Railroad here.

A New York Central spokesman said the charge could not be true.

Miss D. Hornbush, daughter of Mrs. Mildred Shannon, said she bought a ticket for Cleveland July 13 and boarded the train in Detroit.

P. E. Hackett, NYC's assistant general attorney, said: "Since the last NYC train between Detroit and Toledo was operated on April 23, 1960, we do not understand how we can be involved."

The girl charged that when the train passed Perryburg, the conductor told her she should have changed trains at nearby Toledo.

Rose said the conductor ordered the train stopped and put her off in the countryside, telling her to walk to Toledo.

Indonesia Threatens Reprisals

Japanese on Spot Over Dutch Visit

By CHARLES R. SMITH
TOKYO (UPI) — The Japanese government, which only three months ago canceled an invitation for President Eisenhower to visit here, is in a diplomatic bind today over another international visit.

The visitor this time is not the president of a friendly country, it's a Dutch warship.

Japan is under tremendous pressure from Indonesia to withdraw permission for the Dutch aircraft carrier Hareld Doorman to visit Yokohama Sept. 8-12.

But, it appears Japan is not very likely to renege on her diplomatic agreement in this case.

It's a case where Japan has little to gain and much to lose.

The Indonesian government has made a number of strong protests and some influential Indonesians have made threats of reprisals—especially economic—if Japan permits the Dutch vessel to come as scheduled.

Indonesian President Sukarno said his nation would "feel slighted" at the very least if Japan permits the vessel to call at Yokohama.

It has been strongly implied that the Indonesian ambassador to Tokyo will be recalled as a protest measure if the Hareld Doorman calls at a Japanese port.

The Indonesians also have indicated that the recall of the Jakarta embassy would be a minimum step. There's talk in Jakarta of breaking all economic relations with Japan if she permits the vessel to visit.

It's known that the cabinet has discussed this possibility but this would be a difficult and drastic move for Indonesia and probably would hurt her more than it would Japan.

The Dutch haven't said what they would do if Japan should withdraw permission for the Hareld Doorman to visit as planned.

But Japanese Foreign Minister Zenaro Kozaka told the cabinet the other day in plain, simple economic language that the Netherlands is a member of the European Common Market and could hurt Japan economically if this should happen.

Why all the fuss over the call of a Dutch warship to Japan on a visit that's billed as a goodwill trip in commemoration of the 50th anniversary of Dutch-Japanese relations?

It's all part of Indonesia's bitter anti-Dutch campaign that centers around The Netherlands' continued control of Dutch New Guinea, which Indonesia calls West Irian and claims as her own territory.

The vessel arrived in New Guinea earlier this year with about 1,000 troop reinforcements for the Dutch forces there.

Indonesia said the presence of the warship in the disputed area was "an act of war provocation" and eventually led to the breaking off of all diplomatic relations with the Netherlands by Sukarno in an Independence Day speech Aug. 17.

Japan isn't the only country that has become embroiled in the controversy over the carrier. Indonesia asked all countries to deny the Dutch vessel access to port facilities.

But this campaign was only partially successful. The biggest victory for Jakarta was the refusal by the United Arab Republic to permit the vessel's passage through the Suez Canal.

The Indonesians suffered a setback, however, when they failed to persuade the Australian neighbors to reject the vessel's visit.

The foreign ministry here said the Dutch asked for approval of the ship's visit in early June and the request was approved in early August.

Since then the Indonesians have launched a vigorous drive to block the visit and the issue has become so delicate the foreign ministry said it is withholding all

comment on the subject for fear of making matters worse.

By taking such a strong stand on the matter, Indonesia may be forced to retaliatory action if Japan permits the visit. That's what Japanese are wary of.

Hearing Eyes Rates of UP Power Source

LANSING 4P—The State Public Service Commission today scheduled a public hearing for Sept. 20 to help adjust electric rates charged by the Upper Peninsula Power Co.

The utility's interrelated area, which includes Alger, Baraga, Delta, Houghton, Keweenaw, Mackinac, Marquette, Menominee, Ontonagon and Schoolcraft counties, will be affected.

In March, the commission called the attention of the utility to the fact that there are considerable differences in the rates charged in the various counties.

More than 800 different kinds of trees grow in the forest lands of the United States.

About 15,000 hotels in the United States provide meals for their guests and do about \$500 million worth of business per year.

Reds Moving Into Troubled Congo With Aid Excuse

By JOHN SCALI

WASHINGTON (AP)—U.S. officials fear the Soviet Union is trying to establish a Communist beachhead in the trouble-ridden Congo under the guise of helping the United Nations restore order there.

These officials said today this conclusion appeared inescapable in view of the amount of Communist military, technical and transport aid rushed outside U.N. channels to the African republic in the last two weeks.

The State Department has steadfastly declined to comment on the development. Officials said privately the problem is one for the United Nations—not just the United States—to handle.

U. N. Secretary-General Dag Hammarskjöld is aware of the situation and is reported to be assembling information on Soviet like activities.

But some U.S. officials, concerned over the speed of the Soviet actions, believe the U.N. must move soon and vigorously to assert its authority if the Congo is to be kept clear of the East-West cold war struggle.

These officials said the Soviet goal apparently is to make Premier Patrice Lumumba so heavily dependent on Soviet advisers and material help to keep his nation from collapsing that he will be a willing tool afterward for further Red penetration of Africa.

More than 200 Soviet bloc technicians—some of them military and intelligence officials—are reported to have moved into the Congo, many aboard planes ostensibly carrying relief supplies. Twin-engine Soviet IL14 transports with double crews are understood to have begun landing in Stanleyville Tuesday to back up five four-engine IL18s there.

Confidential dispatches also reported the Soviets have smuggled in small arms and ammunition along with 100 trucks and technicians landed from a Soviet ship eight days ago.

The Soviet Union role is expected by many to announce a big arms deal with Lumumba's government, similar to the big shipment being provided the Guinea government. Authorities believe this would be followed up with sizable economic credit.

In Fact, 200,000 Birds Over Turkey Crop This Year Equal to Big 1959 Output

WASHINGTON (UPI)—The 1960 turkey crop is rated by the Agriculture Department as equal, year for year, to the big 1959 output. Actually, this year's crop promises to be a little larger — by 200,000 birds.

The preliminary estimate by the Crop Reporting Board shows this year's turkey crop at 82.3 million birds. This compares with 1959 output of 82.1 million.

Growers expressed their intention to raise about 6 per cent more turkeys. The reduced number of breeding hens, however, limited the production of pouls and did not permit growers to meet their intention.

There also were warnings by the department that a hike in production might result in lower prices for producers.

The early season hatch—September through December 1959—was 3 per cent above a year earlier and 70 per cent above the same period

in 1957. The number of pouls hatched during January through July 1960, was 1 per cent below a year earlier.

The number of heavy, breed turkeys being raised this year is up 9 per cent from 1959 with heavy white breeds up 19 per cent and bronze and other heavy breeds up 5 per cent. Light breed turkeys, which account for only 12 per cent of the total raised this year, are down 37 per cent from 1959.

Heavy breed turkeys being raised total 72.6 million birds, compared with 66.6 million last year. Light breeds are expected to total 9.8 million.

Minnesota is the leading turkey producing state this year with 14.4 million birds. California is close behind with 14 million. Other big producing states are Iowa, 7.1 million; Virginia, 4.4 million; Missouri, 4.3 million; Wisconsin, 4 million; and Texas, 3.9 million.

LAZY AFTERNOON — Gazing skyward or more properly spaceward — is Miss 20X. She is one of five Rhesus monkeys being trained to be the first large animal sent into orbit by the United States. The Aero Space Medical Center in San Antonio, Tex., will place one of them into a capsule on the tip of a Discoverer satellite sometime this fall and wish her a speedy return.

AP Photos

More than 90 per cent of Nepal's 8.5 million people depend on farming for their livelihood. The ship canal which connects the famed Rialto Bridge, Cross Houston, Tex., with the Gulf of Mexico is 57 miles long.

Castro Repaints American Stations, Trucks

Russia Winning Cuban Oil Monopoly

By HAROLD K. MILKS

HAVANA, Cuba (AP) — Confident it has won its battle for oil, the Cuban government's petroleum monopoly is now trying to wipe out all physical signs of foreign ownership of the refineries it seized.

Tank trucks and filling stations of the former Esso Standard, Shell and Texaco refineries have lost their distinctive colors and well-advertised names and slogans.

All this has been replaced by the green and white sign of ICP — for Fidel Castro's Institute of Cuban Petroleum.

Station pumps and storage tanks throughout Cuba have been repainted to erase the markings of the multimillion-dollar American, Dutch and British oil holdings. Castro seized because the owners refused to process Soviet crude oil.

Unofficial reports say the Soviet Union's tankers are more than satisfying Cuba's immediate need for both crude oil and petroleum products. But the cost of long-distance operation — bringing Soviet oil from Black Sea ports to Cuba — has not been disclosed.

Thirteen tankers delivered nearly a million tons of crude oil to Cuba in July plus 125,000 tons of fuel oil and quantities of other products. The same delivery rate was maintained in August, officials claim.

Cuban sources said all three seized refineries are operating normally, although their top capacities have been reduced because Soviet crude is substantially lighter than the Venezuelan crude formerly used.

Announce Plans to Build Section of Freeway

LANSING (AP)—The State Highway Department has announced plans for the construction of another section of the 180-mile Indiana-to-Ludington freeway.

Construction will start early next year on a 7.7 mile section to extend from the Detroit-Chicago freeway near Benton Harbor north to the Berrien-Van Buren County Line. The stretch of highway is expected to cost \$5,600,000.

Legislature reapportionment is required by the constitutions of 42 states.

GM Names Head of Sea Operations

DETROIT (UPI)—Harold R. Boyer, General Motors vice president in charge of the Defense Systems Division, has announced the appointment of Dr. David S. Potter as head of the Sea Operations Division.

Potter will make his headquarters at the division's new research laboratory in Goleta (Santa Barbara County), California. As head of the research program Potter will also manage the lab.

A specialist in sonar and acoustics of sea water, Potter joined GM July 11. He was previously assistant technical director of the applied physics laboratory at the University of Washington.

Bobby Sittler Runs Wild on Long-Distance Calls

TOPEKA, Kan. (UPI)—Boyce Butcher of Topeka feels a close kinship with that woman in California whose daughter ran up the big telephone bill last Christmas.

Butcher, a widower, hired a 20-year-old baby sitter to keep his two children while he worked. Shortly after she quit, he got a telephone bill of \$26.07 for long distance calls she had made, most of them to a boyfriend in Washington.

Originally only the beet leaves were edible. Cultivation gradually increased the size of the root until it is a root rather than a leaf vegetable.

State Officials in Doubt Over Aged Care Action

LANSING UP — Prospects were growing today for a special legislative session on medical care for the aged but the picture still was cloudy.

What remained unclear is exactly what, if anything in law-making way, Michigan will have to do to take advantage of the federal legislation that cleared Congress last Monday.

However, two ranking Republican leaders Wednesday agreed with Democratic Gov. Williams that the state should act—if need be—rather than to pass up any available benefits.

Both of them, governor nominee Paul D. Bagwell and Rep. Allison Green of Kingston, GOP House floor leader, sidestepped questions on an emergency legislative meeting.

They, the Williams, were handicapped by gaps in information on precisely what the federal bill provided as finally passed.

Another straw in the wind showed up informal conferences between the governor and Sen. Frank D. Beadle of St. Clair, GOP majority leader, and Rep. Joseph J. Kowalski of Detroit, Williams' floor spokesman in the House.

Encountering Beadle in a Capitol corridor, the governor said that assuming a special session were decided on he then would want to go over beforehand the proposal he would present with legislative leaders of both parties.

Beadle said he thought Republicans would be agreeable.

Williams repeatedly was anxious to hold down the time consumed in Lansing by lawmakers—the time which would be subtracted from campaigning for the Nov. 8 election.

The governor hoped to remove procedural doubts from his mind at a huddle Friday with top level experts in social welfare legislation.

Some aides working on the problem said it appeared the legislature might have to write into the state statute standards for disbursement of medical assistance.

It also was possible a conflict might have to be resolved between residency provisions in existing state law and a clause in the federal enactment decreeing there must be no residency test.

And it was not clear how much state and federal money might be involved, whether additional state appropriations would be required before the 1961 legislative session in January and how much the federal government would be set up administratively to get the program going.

One part of the federal program would improve benefits received by about 61,000 old age pensioners.

A second phase would offer federal matching money for extension of medical assistance to needy aged persons not eligible for old age pensions.

Thief Gets Watch Mails to Owner the Pawn Ticket

SAN FRANCISCO (UPI) — Two men cornered William Gallagher, 40, found a "dirty scoundrel" who had stolen a watch from the back bar and escaped before Gallagher noticed the watch was gone. The next day Gallagher got a pawn ticket in the mail. He took it to the pawn shop and redeemed the watch for \$4.

"Is that all you will give on this watch?" Gallagher asked the pawn shop owner.

"No," was the reply. "I would have given him \$50, but he said \$4 was all he wanted. Said he just wanted to get a meal."

Police Take to Bikes to Nab Peeping Toms

WEST PALM BEACH, Fla. (UPI)—Police have taken to bicycles here in extra watchfulness and peeping toms and (Thief) Rob-ert Milburn is convinced the two-wheel mounted patrol is paying off.

A patrolman on a bike can move quickly and most important, quietly, in an area where a peeper has been reported.

Milburn explained Monday, he said bikes are relatively inexpensive to buy and maintain and need little maintenance.

The West Palm Beach police department owns two bicycles, but uses others found abandoned in the city when needed.

Old Gorilla Nests Provide Comfort in African Jungle

MADISON, Wis. (UPI)—If you ever have to spend a night in the African jungle, look around for an abandoned gorilla nest.

University of Wisconsin scientists John Kinies and George Schaller recently studied gorilla habits in the Belgian Congo and would rest in their nests after the gorillas had left.

The small, cup-shaped nests were the most comfortable resting places in the forests, the scientists reported.

Half Price Plate Tabs to Be for Sale Today

LANSING (UP) — Michigan's 1960 license plates and tabs went on sale at half price today. Secy. of State James M. Hare reported.

The special price applies to all vehicles except heavy trucks paying more than \$50 in weight taxes. The plates will be valid until Feb. 28, 1961.

The 1961 tabs will go on sale Nov. 1.

Major Railroads Asking Freight Rate Increases

CHICAGO (UPI) — The nation's major railroads Wednesday asked for a general, across-the-board increase on freight rates to meet increased railroad costs.

The boosts, if approved eventually by the Interstate Commerce Commission, would be the first general increase since Feb. 1, 1958.

Chief traffic officers of the na-

tion's class one railroads, who have been studying the problem of revenues for several weeks, said the increases sought would be the smallest ever asked.

They also said that the program differs from freight rate increases of the past in that it does not call for percentage increases.

The railroads' announcement

said that "relatively little opposition is expected" to the proposal.

The announcement said representatives of the industries' three territorial rate associations — east, west and south — were petitioning the ICC in Washington, D.C., today for permission to file a tariff.

If permission is granted, the

tariff will be filed within the next few days, the announcement added.

Airport to Open in Peru

LIMA, Peru (UPI) — A new international airport capable of handling the biggest jet aircraft will go into service this month, the government announced.

Bypassed U.S. 12 Motels Hope to Get the Business

LANSING (UPI) — Motel owners on old highway U.S. 12 in Van Buren and Berrien counties might get a boost in business by Labor Day if the highway department can complete plans to put food and lodging signs on a 31.5-mile section of new Interstate 94 by then.

The businessmen complained

that they lost business after the new road opened because nobody knew they were there.

"The Highway Department makes every effort to have food and lodging signs in place before a new section of freeway is open to traffic," a spokesman said.

He said an "apparent oversight" prevented the signs from going up before the road was opened Aug. 15.

The first admiral in the U.S. Navy was David Glasgow Farragut, who achieved the rank in 1865.

Better Outlook on Fall Crops

Warm Weather, Enough Moisture Account for Improvements

LANSING (UPI) — Warmer weather and adequate moisture in most areas of the state during the past week improved the outlook for corn and other fall crops, the Agricultural Marketing Service reports.

Corn and some of the fall crops are still a week or more behind normal maturity, the Service said. Out combining was reported finished in Southern Counties, past the two-thirds mark in the Northern Lower Peninsula and about one-fourth harvested in the Upper Peninsula. The Service said out yields in all areas were above the level that had been anticipated.

Prospects for the fall potato crop continued good, the Service said, with "light well controlled" in most fields.

The early potato harvest was reported practically completed in Bay County and the tempo was picking up in the other areas. Dry bean harvest was also under way with good yields reported.

Moisture supplies during the week were adequate in most sections. The Service said a few dry spots were starting to show up in the Eastern and Southeastern Counties and along Lake Superior.

Field checks during the week showed plowing and preparing ground for wheat continued and farmers in some areas were being straw and making second or third cuttings of hay.

The tempo picked up for fruit and vegetable harvest, especially in Southwest Michigan where Halehaven Peaches were at their peak and Elbertas were expected to reach volume movement this week.

Fresh market vegetables available in good volume included snap beans, carrots, celery, sweet corn, cucumbers, lettuce, melons, peppers and tomatoes.

House OKs \$100,000 for Colone's Invention

WASHINGTON (UPI) — The House has approved and sent to the White House a bill to pay Air Force Col. John A. Ryan Jr. \$100,000 for developing a low-altitude bombing system and apparatus outside of his working hours.

The Air Force said Ryan had been unable to protect domestic or foreign commercial rights to his invention because of U.S. security laws.

Canada had 2,383 fur-breeding farms in 1959, a decline of 1,100 since 1950.

Math Is Easy, Says Professor to Societies

EAST LANSING (UPI)—Mathematics is relatively easy, but it should not necessarily be "sold" as easy.

This was the opinion expressed by Dr. Mark Kac (pron. Kots), at a national meeting Tuesday of three mathematics societies.

The Cornell University professor said, learning to think abstractly

"is difficult at first...but mathematics can be learned by most people."

Kac said the trend toward making the learning of math look easy is an incorrect approach.

The fictitious billboard he described to make his point showed a beautiful girl relaxing in a bikini, sipping a martini, saying, "Calculus can be fun."

The oldest existing botanic gardens in America was established in Cambridge, Mass., in 1807.

Like Takes On Another Speech for Chicago Trip

WASHINGTON (UPI)—President Eisenhower has added another speaking engagement for his trip to Chicago late next month.

The President will fly to Chicago Sept. 29 to speak at one of a series of dinners being held across the country that night to raise funds for the Republican campaign.

White House Press Secretary James C. Hagerty announced

Temptation Too Strong

HOUSTON, Tex. (UPI)—John S. Brace reported to police recently he parked his tiny sports car beside a ditch and when he returned 30 minutes later he found somebody had been unable to resist temptation.

Wednesday that before Eisenhower leaves Chicago the following day, he will speak briefly at the fifth annual convention of the Polish-American Congress at the Sheraton Hotel.

Great Lakes Men Pick Bay City for Meeting

MILWAUKEE (UPI)—Bay City, Mich., has been chosen for the 1960 convention of the Great Lakes Harbor Association, Herbert Naskoska of Chicago, association president, has announced.

The meeting will be held Nov. 2-4 to the in with the Bay County Foreign Trade Exposition.

The highest mountain in Turkey is Mt. Ararat—16,956 feet.

Gets 20 Days in Jail for Curfew Violation

LANSING (AP)—A 20-year-old Lansing man has been sentenced to 20 days in jail for violation of the new state curfew law.

Larry D. Gilson of Lansing was given the sentence by Justice Raymond H. Tette of Delbi Township after Gilson pleaded guilty to a charge of aiding and abetting two juveniles to violate the law.

The law specifies that minors under 16 shall not idle at large between 12 midnight and 6 a.m.

Gilson and two minor boys, 13 and 14, were stopped by state police at 4 a.m. for driving a car with a faulty muffler. Police said they found an assortment of weapons and a gasoline siphoning hose in the car.

About 77 per cent of all hospital care is given in federal, state, county or municipally controlled institutions.

More Volkswagens Due This Fall at Toledo

TOLEDO, Ohio (U)—A total of 5,000 Volkswagen vehicles valued at \$10 million have been imported through the port of Toledo so far this year.

That's about half the total number of vehicles expected to arrive here before the Great Lakes close this winter, said Conrad Kolbow of the R. G. Hebelmann & Co., freight forwarders.

New Catholic School to Open in Waterford

By KERA HEINTZELMAN
Natural simplicity and functional planning have been woven into the construction of Waterford Township's first parochial high school.

Scheduled to open Sept. 12, Our Lady of the Lakes High School is located on a 16-acre site on Dixie Highway near Waterford. It is designed to accommodate pupils of the 9th, 10th and 11th grades. The school has an enrollment of some 400 pupils.

The \$420,000 needed to construct the first unit of the high school was raised by parishioners of the little church, situated just north of the new high school. Two additional units have been slated for construction at a future date.

Three years ago, rather than starting with a kindergarten and establish higher grades as needed, the church put the fifth, sixth and seventh grades into operation. As the pupils progressed to higher grades, another room was added to the present elementary school, and this year besides the 11th grade, there will be a fourth-grade kindergarten.

PLENTY OF LIGHT
Construction of sand-colored bricks, the attractive outside view of the two-story building features plate-glass-enclosed stairways from the roof to ground level. There is plenty of light on the wide, railed stairways to prevent accidents during class changes.

Pale pink and green are the predominant colors in the six first-floor classrooms that are ready for use. Nine other large classrooms on the second floor will be completed later, as funds become available, according to the Rev. Frederick J. Delaney, pastor of the church.

Solid light-colored oak doors, lined oak shelves and storage cabinets are of the simplest design, and the spacious cement-block-lined halls have been sprayed with a new type of enamel paint.

Acoustical tile on the ceilings for soundproofing, and rubber tile in the hall and classroom floors completes the picture.

Folding bleacher seats in the balconied auditorium - gymnasium will accommodate 1,000 spectators. The latest equipment has been installed in the chemistry and biology rooms, and one foresighted luxury item - installation for future television programs - has been included.

Rough construction of the second floor, scheduled for future completion, has saved the parish members some \$12,500, Father Delaney said.

"It has cost only \$32,000 for those nine upper rooms during construction of the school."

The gas-fed hot water boilers in the basement are large enough to accommodate a school three times the size of the present building.

Because final plans for transporting Waterford Township children attending Our Lady of the Lakes parochial schools have not been completed, the opening date has been delayed one week to Sept. 12, according to Rev. Frederick J. Delaney, pastor of the church.

Members of the parish have planned a joint meeting this week with officials of the Airport Service Lines, a new public transportation company in the township, with a possibility of chartering two buses for the schools.

Another factor in the delay of the schools opening date was due to the late arrival of chairs and desks. Although six rooms in the high school for 9, 10 and 11th graders are ready for use, there is no seating facilities available. Many 8th and 7th graders are also without desks.

For the first time, the parochial school will have its own athletic coach this year. He is Robert Mineweaver, former coach at St.

Man Seeks Water by Using Divining Rod
NEWTON, Miss. (UPI) — Robert McDaniel, 36, still uses a divining rod to locate water in Newton County.

He maintains he has never missed in 20 years of "water witching."

Schools Prevent Skinned Knees With Bark Mulch
MEDFORD, Ore. (UPI) — Local schools are using bark to help keep children from getting skinned knees.

Bark mulch, a forest industry by-product, is being used at six elementary schools to make playgrounds softer. It is piled to a thickness of four inches, and school officials said it was effectively cushioning the rough-and-tumble of boisterous children.

Jerry Lassmann, president of Kogap Lumber Industries, which supplied the material, said most of the bark is white fir "which has no splinters, no odor and doesn't track in."

Lassmann's firm makes the material from bark leftovers which go through the mill.

READY FOR CLASSES—This is an exterior view of the new Our Lady of the Lakes High School in Waterford. Recently completed, the building will house high school classes through the 11th grade.

School Opening Delayed for a Week, to Sept. 12

Michael's High School. He taught at St. Michael's for more than 15 years before coming to Waterford Township.

Other new subjects, besides those for the new 11th grade, include chemistry, biology, typing, shorthand, geography, drafting and ceramics.

Some 400 pupils have been enrolled, and on Sept. 12 there will be full day of all classes.

Sales Tax Intake Up 6.3 Pct. in State

LANSING (UPI)—Sales tax collections during the month of August increased about 6.3 per cent over the same month of 1959. State Revenue Commissioner Clarence W. Lock said yesterday.

The August collections, representing sales and use taxes paid in July, for this year totaled \$30,816,339 as compared to \$28,969,147 for the same period in 1959.

Lock said the increase indicated businesses and industries other than the auto industry enjoyed a hike in business during the period because collections from auto sales dropped while the entire figure went up.

Army's Brucker to Talk at the Soo Sunday

LANSING, Aug. 31—The Secretary of the Army, Wilber M. Brucker, will speak at dedication of a newly completed National Guard armory at Sault Ste. Marie Sunday.

State Adjutant General Maj. Gen. Ronald D. McDonald has announced that the ceremonies will also be attended by Atty. Gen. Paul L. Adams, a native and former mayor of Sault Ste. Marie, Congressman Victor A. Knox of Sault Ste. Marie and State Sen. William E. Miron of Escanaba.

U.S. Plans to Orbit the Moon

WASHINGTON (UPI) — The United States hopes to hang a 400-pound space station in orbit around the moon late this month.

Its job will be to make radiation, guidance, propulsion and communications studies vital to the future of space exploration.

For the first time in the history of U.S. spacecraft, the lunar orbiter will carry rockets to correct its course during the 26-day trip to the moon.

The intention, according to space experts, is to "anchor" the craft in orbit around the moon and leave it there for as long as the contending forces of gravity permit.

The lunar space lab will be launched by the National Aeronautics & Space Administration from Cape Canaveral, Fla.

A three-stage Atlas-Able rocket will fire it toward the moon. Rockets built into the spacecraft itself will correct its speed and course in such a way as to put into a polar orbit 3,000 to 4,000 miles above the moon.

About one-third of the nation's dairy cows two years old and over were bred artificially in 1959, an increase of 1.7 per cent over 1958.

Ex-U.S. Official Adviser for Reds

Headed Latin-American Unit During WW II, Now in Russia

WASHINGTON (AP)—The State Department reports a former U.S. official apparently is working in Moscow now as an adviser to the Kremlin in Latin-American affairs.

The department said Maurice H. Halperin had stated in a passport renewal application that he had been in the Soviet Union since December 1958. It said Halperin stated he is employed by the U.S.S.R. Academy of Sciences, doing research "relating to undeveloped countries."

Recalling that Halperin during the latter part of World War II was head of the Office of Strategic Services' Latin-American Division, the department said its information indicates he now is working in the field of Latin-American affairs for the Soviets.

The Soviet Academy of Sciences is directly subordinate to the Council of Ministers.

Halperin was an associate professor at Boston University after leaving government service. He was on the faculty of the University of Oklahoma before the war.

He was dismissed by Boston University in 1954 after Senate investigators received testimony linking him to a Soviet spy ring and he refused to answer questions as to whether he was a Communist.

Detectives Live on Lies—Those Told by Others
PHILADELPHIA (UPI) — Two former city detectives are living on lies these days: That is, other people's lies.

John J. Brown and Charles F. Kane, with a total of 19 years on the police force recently pooled their resources and set themselves up in business as Kane Associates.

The new firm will specialize in polygraph examinations—lie detecting, in short. The company already has a number of accounts from department and other stores as well as numerous types of business establishments.

Volunteers Will Assist Teachers

A teacher's aide plan is being projected in Waterford Township's Our Lady of the Lakes Parochial Schools, according to Sister Anthony, principal.

Similar to a nurse's aide, the teacher's helper will be a volunteer who will release the regular teacher from extra curricular activities and some curricular demands, so that she may devote more time to her primary job, teaching.

The aide will do clerical work, such as keeping student records, filing record tests and marks, typing tests for teachers and routine office duty.

Both the elementary and high school offices will require someone on duty all day to supervise lunch and playground periods, sell supplies, help check papers and help with library work.

The program will be unified by chairmen who will head groups and meet with faculty members.

Any mother or member of the parish who can volunteer as a teacher's aide without too much inconvenience to herself or to her family may contact Sister Anthony at the school.

Pilot Powers' Wife Denies Chiding U.S.

WASHINGTON (UPI)—The wife of U2 pilot Francis Gary Powers has denied she feels the State Department could do more for her husband.

Mrs. Barbara Powers, 25, met yesterday with John M. McSweeney, State Department Soviet affairs director.

She did not tell reporters the nature of the talk.

But she did say statements attributed to her that the State Department had not done enough for her husband were "not quite correct."

She added "it is more that I would like to see the State Department in a position where it could do more," she said.

Installment Plan Theft?
SYRACUSE, N. Y. (UPI) — Anthony Marino of nearby Mattydale reported to the sheriff's department that someone stole the wheel from his wheelbarrow but left the chassis behind.

TWU Head Witty, Determined Quill Has One-Track Mind

By RAY KOEN
NEW YORK (AP)—Michael J. Quill, head of the Transport Workers Union, is an individual of determination, abounding Irish wit and a propensity for getting in and out of trouble.

Quill, 55, is a caricaturist's dream with his heavy, dark, rimmed glasses, a fringe of hair around a bald pate, a round, cherubic face, a roly-poly frame, and blue eyes which twinkle or blaze.

Since he came here from Ireland when he was about 25, Quill worked at odd jobs, became a subway change maker, helped organize the TWU, and served three terms on the city council.

Early today he led workers out on a strike that shut down the Pennsylvania Railroad.

Behind his broad brow and colorful language lies a resourceful brain and a bull-like tenacity. He often has threatened strikes but, after a suitable interval, has compromised and praised the very companies and individuals which he attacked with vitriolic vigor.

Quill, who got some early support from Communists, decided in 1941 to clean them out of the TWU.

Going Communist one better, he sowed dissension among their ranks, planted misinformation which broke up their planned tactics, and ridiculed them.

Once he turned up at a meeting dominated by Communist union leaders and sat on the platform reading comic papers. When the Communist leaders voiced their protest, Quill, in his famous thick brogue, remarked: "And now we have thought control."

The laughter and shouts broke up the meeting.

Quill's own accounts of why and when he came to the United States have varied. He has told of coming to New York on St. Patrick's Day, limping from a hip wound caused by a British bullet fired during the Easter Day 1918 rebellion. That story would make him about 11 years old at the time.

Over the years the story has devolved to a bad fall on the hills of Kerry tending his father's sheep.

When he is not engaged on labor matters, Quill lives quietly in the Bronx with his wife, the former Mollie O'Neill. They have one son, John, 21.

Asteroids Go Calling

LOS ANGELES (AP)—Pieces of small planets, called asteroids, have hit the earth at least nine times, a scientist says. Dr. Robert S. Dietz told the Meteoritical Society that one of the largest made a 26-mile-wide crater in South Africa 350 to 600 million years ago.

Trujillo Bashful Jack, Dick to Debate About Returning

Thousands Cheer Him but Dominican Hero Is Confident of Leaders

CIUDAD TRUJILLO, D.R. (UPI)—A crowd of thousands gathered outside the "White House" here last night to urge Generalissimo Rafael L. Trujillo to resume the presidency of the Dominican Republic, but he appeared unwilling immediately to do so.

"The present government directed by President Joaquin Balaguer conforms perfectly to the needs of the moment," Trujillo said in a statement.

"In case of a true emergency for the country, I would return to power."

Through the night, crowds of Trujillo supporters circulated through the city, cheering his name.

"Several" persons were reported injured in street clashes between Trujillo supporters and members of the opposition MPD party.

Insurance Rates Change

TOPEKA, Kan. (UPI)—Major insurance companies are charging 5 to 20 per cent less for collision insurance in Kansas this year than last, and 1.5 per cent more for liability coverage.

Jack, Dick to Debate Sept. 26 for Nation

WASHINGTON (UPI)—Sen. John F. Kennedy and Vice President Richard M. Nixon will hold the first of their unprecedented radio-TV debates Sept. 26 and follow with two or three more electronic reconnoitering appearances.

The debates will be held at peak viewing hours and will be carried simultaneously on all major radio and television networks, leaving the public little choice but to hear "the two presidential candidates argue the issues for an hour each of the night."

Members of Congress have forecast the debates may revolutionize political campaigning, by substituting the living room for the county fairgrounds as the rear platform of a cross-country train as the setting for partisan oratory.

Nixon and Kennedy will discuss domestic affairs from Chicago, starting at 8:30 p.m. (Pacific time) Sept. 26.

They will battle it out over foreign policy in New York from 8 to 10 p.m. Oct. 21, and panel-type interviews are planned for

Would Reward J. Edgar

WASHINGTON (AP)—The House passed and sent to President Eisenhower today a bill which would give FBI Director J. Edgar Hoover his present \$23,000-a-year salary as a pension when he retires.

Red Production Model: 4 Months, 84 Baby Hares

TOKYO (UPI)—North Korea's "youngest" radio reported, proudly today that a certain rabbit was giving her all for the Communist regime.

The Red radio said the rabbit gave birth to 15 offspring in April, 4 in June, 24 in July and 27 in August.

North Carolina has more Indian residents than any other state lying east of the Mississippi river.

STEERS CLEAR OF POLICE — A Hereford steer that bolted for freedom en route to the slaughterhouse Wednesday pauses near a parking meter in front of the Milwaukee County Courthouse in Milwaukee downtown area during a merry chase with police officers and cattle men. Tranquilizer shots had little effect on the 1,200-pound animal and a police officer finally had to kill it with a rifle.

Williams Opposes Court Restriction

LANSING — Gov. Williams has urged the American Bar Association to go on record as favoring repeal of the Connally Amendment. The amendment, in effect, gives the United States the right to stay out of the International Court of Justice.

Williams wired John D. Randall, Bar Association president. "At a time when events in the Congo and elsewhere have put the prestige of the United Nations on trial, the American Bar Association can do a real service to the world community by advocating the repeal of the Connally Amendment, and announcing the world's willingness to accept the obligatory jurisdiction of the court."

Normal babies learn to walk between the ages of 9 and 15 months.

The seat of government of the United States was moved to the District of Columbia on Dec. 1, 1800.

Bomber Supply List Has Surprising Items

HAMPTON, Va. (UPI)—A list of essential items for a modern bomber and fighter includes: talcum powder, diapers, bicarbonate of soda, and castle soap.

Not so strange as it sounds, reported the Tactical Air Command at Langley Air Force Base.

The powder and soap are used as lubricants in installing rubber and plastic items, such as fuel cells. The diapers are the best lint-free cloths for polishing canopies, while the bicarb is used as a cleaning agent in the paint shop.

Nearly 2,000 planetoids or tiny planets have been discovered by astronomers.

CHANGES THEORIES—Measurements obtained with the dumbbell-shaped instrument held by Keith McGinnis, a research assistant at the University of Michigan, have resulted in the revision of theories about the earth's upper atmosphere. Designed by engineers at the U.

of M. Space Physics Laboratory, the instrument has been sent as high as 250 miles in rockets. The device records data about temperature and the density of ions (charged particles) in the atmosphere. Seven firings have been made.

Ecuador Minister Calls for Economic Advances

Labels Latin Intervention Intolerable

(Editor's Note: Marín is a noted Ecuadorian statesman and has been active in the Latin American movement for economic advancement. He is currently minister of foreign affairs in the government of Ecuador.)

By G. MARTINEZ MARQUEZ

QUITO, Ecuador — "Ecuador will defend the principle of non-intervention, both in inter-American and extra-hemispheric relations," the foreign minister of Ecuador, Dr. Carlos Tovar Zaldumbide, told me in an exclusive interview.

"He was commenting on the conference of the foreign ministers of the American nations completed earlier this week at San Jose, Costa Rica.

"The intervention of a state in the domestic or foreign affairs of other states," he continued, "must be absolutely eliminated in the Americas."

"But the Organization of American States must also face and oppose the threats of intervention by non-American states in affairs that are the sole and unique concern of the American continent."

"Both principles," he concluded, "are fully embodied in the Charter of Bogotá and in the Treaty of Reciprocity Assistance. It will be necessary to reaffirm and in the light of the international tensions we now see."

On the chaotic floods of communism in our hemisphere, Foreign Minister Tovar told me:

"Nothing will be more effective than the economic development of Latin-American areas. We must attack, with courage and vigor, the problem of a better and more just distribution of wealth."

"We must create new sources of income for the Latin American workingman. We must wage an all-out fight against poverty and backwardness."

"As long as the American democracies do not show that they can increase living standards rapidly, giving their people the progress and well-being which is their due, Communist propaganda and activity will find fertile ground for expansion and growth in our hemisphere."

Ecuador is on the eve of a change in government. Today,

Dr. Jose María Velasco Ibarra will be sworn in as president. It is therefore important to know the opinions of Dr. Jose Ricardo Chiriboga, presently Ecuadorian ambassador in Washington, but generally regarded as the foreign minister in the incoming government.

Dr. Chiriboga told me he is in total accord with the anti-interventionism expressed by Dr. Tovar.

"If we can give a warning to the dictatorship and preserve the sacred principle of nonintervention, the Americas will benefit from the meeting of foreign ministers."

"Nonintervention with all its far-reaching implications," he emphasized, "Nonintervention within the hemisphere and nonintervention from outside the hemisphere, nonintervention as a political principle, not just as an opportunistic maneuver."

NO CLAWS

Dr. Chiriboga thinks that the regional American system has some faults.

"We have a satisfactory judicial mechanism, but we lack the means to enforce its decisions. We do not have what I would call 'judicial claws.' Regulations seldom go beyond the paper on which they are written. This is why the OAS is something like an academic body without political weapons."

Its general secretary does not have even 10 per cent of the powers placed in the hands of the secretary-general of the United Nations. And the Council of the OAS cannot, by itself, take effective measures to correct injustices or to solve conflicts."

"Fortunately we also have within our regional system the Inter-American conferences," he continued. "These meetings have great power of action in the economic, legal and political fields. But the Inter-American conferences are held only every five years, and between each meeting there is a very large political lagoon."

"The difficulties between the United States and Latin America," Dr. Chiriboga told me in very specific terms, "have their origin in the still prevalent United States view of Latin America as solely an easy market for its industrial products

and as a supplier of raw materials at low prices.

"The United States has always given political and diplomatic priority to Europe. To avoid the consequences of a grave economic crisis immediately after World War II, the Marshall Plan was created. It was an act of foresight and generosity. But the United States has not been politically wise in Latin America."

"As a result, the traditional bonds that united the Americas have been weakened through lack of economic solidarity. Political solidarity cannot exist without economic solidarity. Both elements are inseparable and one complements the other."

"Fortunately, it seems that the United States, at last, has opened its eyes. And already concrete plans have been announced."

SEES HOPE.

I questioned both Foreign Min-

isters Tovar and Dr. Chiriboga about the so-called "Committee of 21" of the Organization of American States. This special committee has been set up to establish a program for inter-American economic cooperation. Dr. Tovar told me:

"If there is, on the part of the United States, an honest determination to cooperate with Latin America in far-reaching projects to finance economic growth, effective programs in education, production, technology, fair stabilization of prices of raw materials, and so forth then the 'Committee of 21' can make some far-reaching decisions."

"But if such determination is lacking, there is the risk of a new vigorous enough to regain the lost confidence they always in Latin America."

"To the 'Committee of 21,' Latin America will present a coordinated and complete plan. This plan will say how much, when and

what for. And this can be the first step toward a truly inter-American understanding and solidarity. The beginning of a new era."

And after a brief pause, he concluded: "I am optimistic about the new awakening that is coming to pass in United States policies toward Latin America."

Picks Committee to Study Royal Oak Twp. Troubles

The many problems plaguing Royal Oak Township will be delved into by a newly appointed committee of nine members. Everett Spurlock, executive director of the Pontiac Urban League, announced Tuesday.

He made the appointments at the request of various state and county agencies concerned with the welfare of the blighted Negro community.

One of the first problems facing the committee is the placing of 31 ninth graders from the township in an area high school.

Presently, the students have nowhere to attend classes. The township's Carver School District has no high school nor funds to build one.

Until this semester, township high school students have been attending classes in Detroit. But the Detroit Board of Education says it no longer has room to accept additional enrollees.

Attempts by the Carver School Board to have the children placed in Oak Park and Ferndale schools have been futile.

The over-all problem facing the slum-ridden township, branded as a breeding place for criminals, calls for a general upgrading in the education level of residents and an increase in their earning power, said Spurlock.

This is the major task with which the new committee will be immediately concerned, he added.

Named to the committee were: John Parker, former director of the Lakeland County Citizens' League.

Mrs. Edwin D. Clarke of Birmingham, County Citizens' League board member.

Ora Hinkley, director of the County Bureau of Social Aid.

Mrs. Mildred Bennett, director of the American Red Cross in Oakland County.

Mrs. Ruth Katzman, County Family Service Bureau case worker.

Frank Miles, secretary of the Carver School Board.

James Roberts, Oakland County assistant prosecutor.

San Fishman of Oak Park UAW representative for Local 36.

Arthur G. Elliott Jr., Oakland County Republican party chairman.

They will select a chairman at a meeting tentatively scheduled for sometime in September.

WMU Professor Dies in Kalamazoo Hospital

KALAMAZOO (UPI) — Dr. Edward H. Wilds, 72, a member of the Western Michigan University faculty for 33 years and director of graduate study for 16 years of that time, died Tuesday at Bronson Hospital after a short illness.

Wilds had taught at several schools in the West before coming to Western and his pupils included two U.S. senators, Clinton P. Anderson of New Mexico and Francis Case of South Dakota.

Sardines from Norway are usually young sprats or herrings, those from the Mediterranean are mostly mackerels.

ROCKING-CHAIR TIME—At 72, Maj. George Patton is finally retired from the Air Force. He was the country's oldest airman. Here he tries on a rocking chair and shippers for size and smiles approvingly at the efforts of Airman 2C, James Sherin, 19, of Kingston, Pa. Pop has served under such notables as 2nd Lts. Dwight Eisenhower, George Patton, George Marshall and Capt. Harry S. Truman.

Celebrates Birthday Paying Yearly Taxes

LINCOLN, Ill. — Bert Leonard celebrates two important events: South Australia, one of the six the same day each year. Australian states, includes Kalamazoo. On his 90th birthday, he stopped at the Logan County courthouse off the south coast.

Doctor May Have Found Defense Against Fallout

MONTREAL (AP)—Dr. Albert Sobel of the Brooklyn Jewish Hospital says he thinks he has found a way to build up an 80 per cent immunity to radioactive strontium.

Dr. Sobel, a specialist in bone metabolism, told a joint meeting Wednesday of the Canadian Society for Clinical Chemistry and the American Society for Clinical Chemistry that dosage with stable strontium, which is not radioactive, seems to be the answer.

"Bone crystals," he explained, "are composed of millions of tiny particles that have a terrific retentive power, so strong that otherwise highly soluble radioactive strontium is retained on the bone, bringing about a cancerous condition. To prevent this we fed animals stable strontium, which in the lungs requested by eight cost the bone crystals."

He said that in four such experiments an 80 per cent reduction in radioactive strontium was effected.

It seems that all we have to do is feed children regular quantities of harmless strontium to build up an 80 per cent immunity against radioactivity," he said, adding that the treatment next fall will be tested on a group of humans.

Wexford County Cuts Ux Goal to \$50,876

CADILLAC (UPI)—The Wexford County United Fund campaign goal for this fall was set at \$50,876, a decline from the 1959 goal of \$52,000.

A flat 10 per cent cut was made in the funds requested by eight agencies sharing in the fund.

Button Shoes Still Sell

HADDAM, Conn. (UPI)—C. F. Olson's Shoe reports there's still a market, though limited, for 35-year-old high buttoned shoes which it's selling for 50 cents a pair.

Alaska Fisheries Note
Poor Salmon Catch
ANCHORAGE, Alaska (UPI) — Figures released by the Bureau of Fisheries showed that the 1959 salmon catch was one of the poorest on record, down some 60 per cent from last year.
Close to 3,000,000 cases of salmon were packed in 1958, but the total for this year was only 1,770,755. A bureau spokesman attributed the decline to sloughy weather and an unusually poor run of fish.
A very fine oil for lubricating watches is obtained from the head and body of the common porcupine.

BONE-ANEA—Jill, a New Stalton, England, Dalmatian, guards what very well might be the biggest bone any dog ever had.

Guesses Abound on Reasons for Nikita's Visit to Finland

By A. E. PEDERSEN JR.
HELSINKI (UPI)—The field was open for guesses today on just why Soviet Premier Nikita Khrushchev decided to pay a visit to Finnish President Urho Kekkonen.
But it appeared fairly certain that he was not coming here to sign just to say "Happy Birth day" to Kekkonen, who turns 60 on Saturday.
Communist diplomats in London were saying that Khrushchev might make a major policy statement here, outlining his views on disarmament and the Cold War.
There was some belief here, too, that he might also be laying the groundwork for a swing through Scandinavia.
Khrushchev angrily called off a tour of Scandinavia last year when criticism greeted the news of his impending trip.
A good reception here could bring the 1959 program down off the shelf again and prompt Sweden, Norway and Denmark to renew their invitation to Khrushchev.
Northern Europe is a region that very much interests the Soviet government. Moscow would like to woo Norway and Denmark away from NATO, or at least get on closer terms with these states.
A neutral Scandinavia, it is ever come about, might be a check to West Germany, according to some views. The Soviet Union has never made a secret of its hopes that neutral Finland could somehow persuade Denmark and Norway to loosen their NATO ties.
The Finns have been wondering whether Khrushchev is bringing any gifts with him, along with the obligatory birthday presents for Kekkonen. But it appeared there was little he could offer.
Some Finns still entertain sentimental hopes that the lost Karelian Territory may someday be returned. But to give back territory which has now become an integral part of the Soviet Union would not be a dangerous precedent for the Kremlin. It could lead to Polish hopes for return of the Eastern provinces.
Khrushchev could conceivably give Finland the nod to affiliation with the European free trade area. But that is hardly his reason for coming here.
There was also some uncertainty

To Talk of Population Increase at MSUO

A meeting to discuss the effect of a population increase on employment over the next 10 years is expected to attract more than 100 Pontiac area officials to Michigan State University Oakland Sept. 13.
The program is being sponsored jointly by the Michigan Employment Security Commission, the Pontiac Area Chamber of Commerce, the Greater Pontiac Community Council and MSUO.
It will run from 2 to 4 p.m.
Featured speaker will be Max M. Harten, director of the Michigan Employment Security Commission.
Some 130 invitations are being mailed to area leaders in education, business, industry, government, and labor.
The theme for the program will be "Manpower in Michigan — A Look at the 1960s," the title of a booklet to be distributed at the meeting.
Delos Hamilton, a trustee of the MSUO Foundation and chairman of the Oakland County Board of Supervisors, is chairman of the meeting committee.
According to Paul Kimball, manager of the MSUO Pontiac Branch, "The expected dramatic change in population in this area in the next ten years will create a similar change in employment opportunities."
"New jobs must be created as the working population increases."
"We are attempting to face the future with new ideas and constructive planning so that it won't be a problem when it arrives," Kimball said.
Dirksen, Morse Swap 'Friendly' Jobs in Senate
WASHINGTON (UPI) — Senate Republican Leader Everett M. Dirksen of Illinois and Democratic Sen. Wayne Morse of Oregon exchanged acid "jabs" on the Senate floor Wednesday.
Dirksen called Morse "the most persistent illogical logical person" he knew. Morse said Dirksen was "the most delightful obstructionist" he had ever met.

The inch, a unit of measure, is equal to 1.25 centimeters in Austria. The American flag should not be displayed on days when the vote of less than 50 per cent of the total votes cast.

In Christ Lutheran Church

Audrey Maki Married

A wedding dinner in the Rotunda followed Saturday afternoon nuptials and a church reception for Audrey Amelia Maki and Ronald L. Klingler of Niles in Christ Lutheran Church.

The Rev. Arvid Anderson read the doubling ceremony before

branded English organ and overalls was styled with fitted bodice and long sleeves. A white dress skirt which swept into a chapel train.

Her crown of seed pearls and iridescent aqueduct with a crystal teardrop secured fingertip veiling of silk illusion. A purple-breasted white orchid with stephanotis streamers rested on the bride's white prayer book.

The bridegroom, son of the Elmer Klinglers of Niles, had Robert Klingler of Niles for best man. Seating guests were Gene Klingler of Edgemoor, with Dave Ross, James Snyder and Donald Pishkin, all of Niles.

Before leaving for Northern Michigan, the new Mrs. Klingler changed to a jacket dress of olive green with black check and pattern accessories.

She is a graduate of Ferris Institute, affiliated with Alpha Phi Beta Sorority. Her husband is enrolled for the fall semester at Ferris. His fraternity is Delta Tau Epsilon.

With her sheath dress of pink embroidered eyelid over organza, Mrs. Maki wore a small pink hat. Mrs. Klingler appeared in blue nylon lace over tulle, pearl gray accessories, and blue hat. Both mothers wore white orchids.

an altar decked with white carnations and gladioli.

Mr. and Mrs. Tolva Maki, parents of the bride, held an evening open house in their home on Southward Street, Waterford.

Bridal attendants in white embroidered eyelid over bouffant orchid tulle skirts wore matching picture hats. Honor matron Mrs. Charles Lloyd carried pale orchid carnations on a white satin fan.

Linda Klingler of Niles and Mrs. Frank Stoddard Jr., who were bridesmaids, carried yellow carnations on white fans.

Try These Exercises

Ever Have Pain in Neck?

By JOSEPHINE LOWMAN

It is a shame that all women do not know a few truly relaxing exercises to use when the muscles tense up from strain or fatigue. You do not have to spend hours doing these in order to benefit from them.

In fact, only a few minutes spent doing the right exercises correctly can rid you of muscular and nervous tension.

We so often feel fatigue like a ache at the back of the neck or through the shoulder region. The following exercises are especially effective for this very human ailment.

JUST LIE DOWN

If you have had a hard day and are dead tired when you arrive home, you may want to lie down for a few minutes before and after exercising.

If you do, lie flat on your back with your knees bent and your feet flat on the floor or bed. Do not use a pillow.

Then try these exercises. Lie on your back on the floor with your arms resting on the floor overhead. Push back with your right arm as you push forward with your left.

FLY TO CALIFORNIA

Meet Your Friends for Coffee

RIKER FOUNTAIN
Riker Building Lobby

The push comes from the hip slowly. Relax and repeat. You will find that this almost equals a massage of the back.

This time push back with your left arm and forward with your right leg. Neither the arm nor the leg leave the floor.

FOR YOUR BACK

The following is a wonder for relaxing tight muscles. Stand tall with your feet pointing straight forward. Clasp your hands behind your back, elbows straight. Pull DOWN toward the floor with your arms as you lift your ribs cage for chest. And lower your head backward.

Hold while you count to five and.

Choose Light Shade

White is a very pale tint is the best shade choice for a dressing table lamp shade. The shade color casts its glow on your face when you apply make-up and can inhibit you. Stronger colors can be used for shade trimmings.

The American Camping Association yearly prepared a directory of camps complying with its standards.

Romantically Right

for a memorable

Give Plenty of Reasons for Attitude

Most Teachers Against High School Frats

By EUGENE GILBERT
President of the Gilbert
Youth Research Co.

When the high school students go back to class soon, there'll be more on his mind than book work.

In many cases he will have a vital social question to resolve: Shall I join a school fraternity or sorority?

If he follows the advice of his teachers, he won't.

Interviewing them for a change instead of the youngsters, we heard in cities and small towns alike a great deal about the perils of "instilling snobishness," "creating an unhealthy caste system," and "encouraging low-grade politics."

The problem may be more of an academic than an actual one for only 31 per cent of the 196 teachers polled state there are fraternities and fraternities in their schools.

"Florida prohibits fraternities and sororities in high school," explains Mrs. Onissa Kingsbury of Winter Park, Fla., who goes on to say that if other clubs are school sponsored, "they can be helpful."

Dick Van Der Mark of Grand Haven comments succinctly: "They're harmful. Outlawed in Michigan."

Where fraternities and sororities exist, the schools maintain a hands off policy more often than not.

CREATES CASTE SYSTEM

On the harm fraternities and sororities cause, 43 per cent of the teachers feel the students are hurt by them; thirty-nine per cent say the school is hurt, and thirty-one per cent are convinced the community is injured.

The theme of social separation.

Use More Soap

(UPI) — Home economists specializing in laundry problems report that more washing complaints result from using insufficient soap or detergent than from using too much.

To Bake Faster

Oven temperatures should be about 25 degrees lower when baking in glass dishes since foods bake faster in glass than in metal pans.

"depends upon the leadership and attitude of the group."

The seeds of social separatism engendered by these clubs can be carried into all school activities, some teachers fear.

CAN LEAD TO GANGS

Mrs. Catherine Lampe of Iowa City, Iowa, comments: "They could attempt to dominate school activities. The frustration caused by not being accepted could result in discipline problems or general bad feeling toward the school."

No. School is overcrowded now and cannot do more baby-sitting."

After he had answered our questionnaire in great detail, a nonorganization teacher, Cyrus Wickerie of Sewickley, Pa., had this to say in summation: "I'm beginning to think all organizations are bad."

Candlelight Rites Read for Roger C. Pearsons

A new trivet home one Columbus Avenue awaits the Roger C. Pearsons who are honeymooning at Atlantic Island and in Northern Michigan.

Wedding vows and rings were exchanged in a candlelight ceremony, Saturday, in the First Methodist Church, Charleston, before the Rev. William J. Richards. After flowers were white gladioli, carnations and snapdragons.

The former Judy Lee, Laman is the daughter of the DeForest C. Laman of Knoxville Drive, Charleston. The Paul Pearsons of Trent Avenue are the bridegroom's parents.

Medallions of Alcon lace and seed pearls highlighted the bride's princess gown of candlelight attired with a chapel train. A pearl necklace, the bridegroom's gift, accented the modified sweetheart neckline.

Silk illusion veiling fell from a crown of pearls and crystals. The bride carried a spray of white phalaenopsis orchids and stephanotis.

Attending the bride were her sister, Mrs. Thomas W. Bergman, honor matron, the bridegroom's sister Carol, Mrs. Francis J. Tinku and Peggy Rose of Orono, her former roommate at Albion College.

Groomed alike in ballerina-lengths sapphire blue satin, they wore matching velvet bow hats with veils. Every fall, chrysanthemums and ivy comprised their crescent-shaped spray bouquets.

Brenda Starkweather, wore floor-length white organza, ruffled with pale pink, satin and lace. She held a pink and white bouquet of white rose petals. Her brother, Bradley, was ringbearer.

The bridegroom had Francis J. Tinku for best man. Kenneth Pearson seated guests at his brother's wedding, with Gerald Starkweather and Hollis Doberty.

To begin the honeymoon trip, the new Mrs. Pearson wore olive green pure silk, with brown leather hat and orchid corsage.

Avocado accessories sparkled Mrs. Laman's bouffant green and white silk print. Mother of the bridegroom appeared in a sheath-dress of Alice blue Chantilly lace over tulle with matching jacket. Their flowers were pink gladioli.

LEG CRAMPS?

One of the most common causes of painful muscle cramps is a prolonged deficiency of calcium.

So says a famous doctor and widely-read newspaper columnist, formerly with the Mayo Clinic, and other well-known health authorities.

When meals, consistently deficient in calcium, are fortified with DYNAL-CAL Calcium Tablets, terminating calcium deficiency muscle cramps can be promptly relieved. But don't confuse DYNAL-CAL Tablets with ordinary calcium-phosphate products. DYNAL-CAL Tablets contain no phosphorus which frequently interferes with the absorption of calcium. And DYNAL-CAL Tablets contain a special ingredient which helps to put calcium into the blood stream quicker—helping faster relief to cramping, osteoarthritis, osteoporosis.

Phosphorus-free DYNAL-CAL Tablets with calcium, glutamic acid hydrochloride, and vitamins D and C contain no drugs. They are safe, harmless, calcium food supplements. If you are suffering miserable muscle cramps, and suspect you are not getting enough calcium, ask for DYNAL-CAL Tablets, today. Bottles of 90 tablets, \$1.50.

*This name for muscle cramps is widely used in other languages.

PTA Plans for Year at Webster

Preparing children for a changing world will be the theme of the Webster School Parent Teachers Association for the coming year. Mrs. George W. Webster, president, opened her Murphy Street home Monday evening to 22 members of the board of executives planning the current year.

Ralph Merkowitz was chosen to act as chairman of the school fair slated for Oct. 13. Sept. 13 was set as the first meeting of the PTA, with an open house following the regular business meeting.

Mrs. Andrew Gulasch reported on the tentative program for the year, and Mrs. Russell Curtis discussed the annual book fair. Mrs. Alice Addison, finance chairman, read the proposed budget and

The James B. Holbels on Florida Honeymoon

Honeymooning at Daytona Beach, Fla., are James B. Holbel and his bride, the former Diane Barbara Erickson, who were married last night Saturday in Our Lady of the Lakes Church in Waterford.

Both wore watermelon pink organza tunics over matching sheer dresses of matching Cupson cotton Dior head bows and short white gloves completed their ensembles.

Paul R. Holbel of Detroit stood as his brother's best man. They are the sons of the Benjamin A. Holbels of Spokane Drive. Ushers were Ronald Murray of Flint and Carl Olson.

Receiving guests at the buffet luncheon in the church parlors, Mrs. Erickson appeared in a beautiful rose beige lace over tulle, matching hat and shoes. Gardenias were pinned

to her shoulder. A cottage of pink roses complemented Mrs. Holbel's dress of coral-lean blue lace over daisies. Graduates of Ferris University, the newbrides are affiliated with Omega Tau Omega and Tau Kappa Delta. They will live in Flint.

At Evening Ceremony

Speak Wedding Vows

Candlelight nuptials of Sharon A. was ballerina-length, with Sa-Lee Brantley and Bruce E. Mar-brina neckline. A Juliet cap of lace see of Washington Street were secured her fingertip veil of illuminated Saturday evening in Al-lon.

Trailing ivy fell from a cascade of orchids, and stephanotis on the bride's white Bible.

MRS. BRUCE E. MARSEE
after banded with white and yellow gladioli.

Parents of the couple are the Ernest E. Brantleys of East Brooklyn Avenue and James L. Marsee of Coldiron, Ky. The bride's princess-style dress of white Chantilly lace over tulle-

Mrs. Jack L. Pierson, in ballerina-length yellow Chantilly lace, attended her sister. She held a cascade of yellow roses.

Max Justus was best man for the bridegroom, with Wayne James and Jack Seiler seating the guests.

Leaving for Niagara Falls after the church reception, the new Mrs. Marsee changed to a sheath dress of white waffle-weave cotton and navy accessories.

"Pink accessories and matching courage of curtains accented Mrs. Brantley's dress of gray lace chosen for her daughter's wedding. Among out-of-town guests were Mr. and Mrs. Pearl Wellman and Mrs. John Maddle, all of Ashland, Ky.

topped with white cymbidium orchids.

Phyllis Carter of Grand Rapids was maid of honor for her former college roommate and Yvonne Tudey of Iron River, was her cousin's bridesmaid.

Both wore watermelon pink organza tunics over matching sheer dresses of matching Cupson cotton Dior head bows and short white gloves completed their ensembles.

Paul R. Holbel of Detroit stood as his brother's best man. They are the sons of the Benjamin A. Holbels of Spokane Drive. Ushers were Ronald Murray of Flint and Carl Olson.

to her shoulder. A cottage of pink roses complemented Mrs. Holbel's dress of coral-lean blue lace over daisies.

Graduates of Ferris University, the newbrides are affiliated with Omega Tau Omega and Tau Kappa Delta. They will live in Flint.

The small child is encouraged to dress himself with easy-to-manage clothing. Home economists at Michigan State University say front fasteners are best for little fingers.

Large buttons or easy-to-work zippers are better than snaps or hooks and eyes. Grippers are simple to handle but need care in washing to keep them from bending.

Needs Daily Care

(UPI)—Did you know that the skin normally gives off at least one or two pints of perspiration over the total body surface every day? This is just one important reason why lingerie should be washed daily in plenty of soap or detergent suds.

Line in Aluminum Tip on Starching

When painting with a roller line the roller tray with aluminum foil. The foil can be thrown away and there is no messy tray to clean.

(AP)—Put liquid starch in to your clothes sprayer and sprinkle on garments for quick and easy light starching.

Young Folks Shop — Lower Level

PEACHY PRESENTATION — Jo Ellen Schafer, pretty Romeo Peach Queen, presented a basket of peaches yesterday to House Speaker Sam Rayburn of Texas in Washington, D.C. Also on hand for the informal ceremony were Reps. William S. Broomfield, R-Oakland, left, and James G. O'Hara, D-Macomb. Ray-

burn kissed Jo Ellen—but not in front of the news cameras. The trip to Washington was one of the prizes she received when she was named queen Aug. 18. She represented Rochester in the annual competition.

Peach Queen a Smash Hit on Her Washington Trip

The Romeo Peach Queen made quite a hit in Washington, D.C., yesterday. She even got kissed by House Speaker Sam Rayburn, D-Tex.,—but not in front of news cameras.

When Jo Ellen Schafer was presented to the speaker at his office a suggestion that he kiss her was made by Rep. James G. O'Hara, D-Macomb.

"I will, but not in front of the camera," said Rayburn. After news pictures were taken of the group, Rayburn announced.

"Now I'll show you how I kiss the girls."

He took pretty Jo's cheeks in his hands and planted a kiss on her left cheek.

Also on the scene were Mrs. J. William Schafer, the queen's mother, Mrs. Janet Martell of Romeo, official chaperon; and Rep. William S. Broomfield, R-Oakland.

Besides presenting her cheek for a kiss, Queen Jo Ellen presented the speaker with a basket of Romeo peaches.

She spent the remainder of the day visiting the House gallery, and meeting Michigan Sens. Phil McNamara and Philip A. Hart, both Democrats.

The Democrats reaped a surprise dividend from Vice President Nixon's adorning a basket of peaches.

O'Hara had planned to have the Peach Queen give a basket of peaches to Nixon, Republican candidate for President.

"Now with the vice president confined to the hospital, we'll just have to give them to the Democrats," O'Hara said. Nixon has been confined.

The peach queen also holds the 1960 Miss Rochester title, having reigned over the Rochester Kiwanis "40-40-Rain" celebration on Independence Day. Her home is at 224 W. Auburn Road.

Jo Allen, her mother and chaperon arrived home early this morning. She will rest today, then ride tonight in the parade which opens the Michigan State Fair.

Her first official appearance as queen of the Romeo Peach Festival will be tomorrow night at the Queen's Ball at the Romeo Community Youth and Civic Center.

She and her escort will lead the grand march followed by members of her court and their dates.

She will be crowned Sunday at 8 a.m. in Romeo's Memorial Stadium by Rep. O'Hara. On Labor Day she will ride in the place of honor on the queen's float in the giant Floral Parade at 2 p.m.

The festival ends with a fireworks display at the Lions Community Field Monday night.

SHARON DAWN DREYER

Area Baton Champ to Judge at Fair

ORCHARD LAKE — Winner of A Junior at Wayne State University, Sharon heads the 100-piece Wayne State Marching Band, with her sister Sharon. Sharon is majoring in voice, radio and television.

Ten years of twirling competition across the United States and Canada has made Sharon a Class A judge. Her ability has led to being the solo judge for the state fair competition for the second straight year.

Some of the more outstanding awards she has received in her travels include the National Orange Bowl Grand Championship and Queens Crown, National George Washington Grand Championship and Queens Crown, National St. Paul Winter Carnival, where she represented Michigan five years and won.

Other awards include wins at the Chicago Music Festival, River-view Mardi Gras, Steel City Queen and Grand Championship, Michigan State Junior and Senior Championship for five years.

She was a member of the All-American Twirling Team for five years.

Mrs. and Mr. Donald P. Gavus of 720 Farmwood Road, White Lake Township, announce the engagement of their daughter Dorothy Jean to Walter A. Zahrt, son of Mr. and Mrs. Joseph Zahrt of Farmington. A November wedding is planned.

DOROTHY JEAN ZAHRT

At Club's State Show

Ralph Hoxie Gets 4-H Award Trip

A 17-year-old West Bloomfield Township youth has been chosen one of the top fourteen 4-H Club members at the club's statewide show in East Lansing.

Ralph A. Hoxie II, son of Mr. and Mrs. Ralph A. Hoxie of 300 Willow Valley Drive, has been awarded a free trip to the Canadian National Exhibition at Toronto, Ont.

He was recently named the show's most outstanding 4-H'er in southeastern Michigan for his achievement in club work.

Ralph also holds the title of Oakland County 4-H Club King.

A 1,000-pound Black Angus, which took top honors at the recent Armada Fair, was named grand champion in steer competition at the State 4-H Club show.

The championship steer was the entry of 15-year-old Raymond Battistelli of New Haven.

Four area girls also had winning entries in other divisions of the show, which is being held through tomorrow on the grounds of Michigan State University.

A dairy prize went to Helen Miller, 17, of Metamora, for her Ayshire.

Bill Greenwood, 15, of Rochester, had the best entry in the registered Arabian division of the stock horse competition.

Connie Coughlin, 17, of Lapeer, won with her entry in the registered or grade section of the saddle horse division.

Jackie George, 17, of Northville was a winner in her age group with a quarter horse entry.

An award for working class horse was won by C. S. Williams, D-Miss, as it would be "foolish" for the United Nations to grant full membership to all of the newly established African states.

Couple Say Vows

Wed in Keego Harbor

KEEGO HARBOR — Trinity Methodist Church here was the setting Saturday afternoon for the wedding of Carol Jean Larsen and Raymond W. Judy. The ceremony was performed by the Rev. Robert H. Benedict.

The bride is the daughter of Mr. and Mrs. George F. Larsen of 303 Norcott St., Keego Harbor. The bridegroom's parents are Mr. and Mrs. Raymond C. Judy of Eglon, W.Va.

For her wedding, the bride chose a gown of whisper taffeta. The bodice and long sleeves were of Chantilly lace. It was princess-styled with a chapel train. Scalloped lace with trident, coral and pearls edged the dress neckline.

Her finger tip, French illusion veil was attached to a cap of Chantilly lace, accented with pearls and tulle. The bride's sister, Betty Larsen, was the maid of honor. Bridesmaids were Rosemary du Four of Uniontown, Pa., and Suzanne Cerna of Rogers City.

Best man, Frank Laraway of Ann Arbor. Ushers were Max Rogers of Ypsilanti and Charles Winter of Ann Arbor.

A reception followed the wedding at the home of the bride's grandmother, Mrs. Albert H. Booth, 636 Orchard Lake Rd., Orchard Lake.

The couple will reside in Kalamazoo after returning from a two-week honeymoon.

Avondale School Loans OK'd at \$150,000

The Avondale School System has been given permission to borrow \$150,000 against anticipated school aid to cover the remainder of an accumulated operational debt. Permission was granted by the Department of Public Instruction.

LeRoy R. Watt, superintendent of the Avondale School System, said \$64,600 was paid on the debt last year. This lowered the debt to \$150,000, the amount which will be borrowed this year.

Truck a Wreck, Driver Is Safe

Cab Top Sheared Off, Yet Boy City Resident Needs Only First Aid

IMLAY CITY — A 24-year-old Bay City man miraculously escaped serious injury today in a collision between two semi-trailers at a curve on M-10 three miles south of here.

The driver of a large cement truck, Milton E. Shock, required only first aid at Almont Community Hospital although the top of his cab was sheared off when it rolled over.

Police said the truck struck a large car, which was completely demolished in the crash.

Harold Macdonell, 32, the other driver, also walked away from the accident. The two vehicles apparently adjoined when they came around the curve in opposite directions, police reported.

The accident caused a traffic tie-up for more than three hours.

Oakland County sheriff's deputies were routing traffic at the scene with the assistance of officers from the Romeo State Police Post.

This morning, police were awaiting the arrival of a crane to tow the demolished truck from the scene. The accident occurred before 6 a.m.

Garden Club to Hear Rochester Woman

ROYAL OAK — Mrs. Howard Rummel of Rochester will speak to members of the Royal Oak Garden Club and Fair Club at their meeting Sept. 8 in the First Baptist Church here.

She will use colored slides to illustrate her talk on the importance of using leaves in gardening.

A colored sound film on freezing fruits and vegetables also will be shown. It will be followed by short talks on the subject by Mrs. D. M. A. Zwick of Orchard Lake.

A public question and answer period will conclude the program.

Armada Man to Be Charged With Assault

ROMEO — An Armada Township man, who was stabbed in the chest by his wife yesterday, will be charged with assault and battery following his release from the hospital.

Asst. Prosecutor Gordon E. Haver brought charges against Oscar Murdock, 61, of 7365 Coon Creek Road, after questioning his wife, Katherine, 46, and a witness.

Haver decided that Murdock started the fight between himself and his wife behind the Thrift Shop at 218 N. Main St.

Romeo police reported that Mrs. Murdock stabbed her husband with a piece of glass in self defense after he attacked her with a board.

Murdock is recovering from a chest wound in Almont Community Hospital. He is expected to be released today or tomorrow.

His wife was released yesterday after treatment.

White Lake Youth Attends Convention

WHITE LAKE TOWNSHIP — Harry Davis of Cedar Crest Lane, White Lake, was among the 300 young people who attended the recent convention of the Michigan District Walther League of the Lutheran Church at Ferris Institute in Big Rapids.

Main features of the convention were business sessions, election of officers, topical workshops, a banquet and youth services.

Big Parade Opens State Fair Tonight

The 1960 Michigan State Fair opens tonight with a parade through downtown Detroit, a hand concert and a fireworks display.

Gov. G. Mennen Williams will be on hand to cut the ribbon at the opening parade has been held on Thursday night, instead of Friday.

The fairgrounds midway will be open tonight, but the exhibits do not open until Friday.

This year is the first time the opening parade has been held on Thursday night, instead of Friday.

Stated to start at 8 p.m., the parade will move up Woodward, from Jefferson to Vernor—a procession 2½ miles long with 25 floats, 30 horses and 33 beauty queens.

Quake Hits California

SAN BERNARDINO, Calif. — An earthquake rocked a large area of San Bernardino County early today. No damage was reported.

Couple Honeymoons in Northern Michigan

AUBURN HEIGHTS — The former Maryann Beatty and Sam R. Sheehy exchanged nuptial vows in a candlelight ceremony Saturday evening at Auburn Heights United Presbyterian Church.

The newlyweds, now on a Northern Michigan honeymoon, plan to reside at 2013 Auburn Road when they return.

For her wedding, the bride chose a gown of hand knitted Chantilly lace with a scalloped Sabrina neckline, long pointed sleeves, and a beauteous waistline. Scalloped lace edged the bodice and which extended into a chapel train.

The bridal bouquet of ivy and white stephanotis was carried on a white Bible. A veil of silk-illusion was held in place by a crown of Chantilly lace and seed pearls.

Officiating at the ceremony was the Rev. F. William Palmer.

Shelly Jean Lockamy was maid of honor. Bridesmaids were Joyce Moore, the bride's sister, and Carol Beatty and the bridegroom's sister, Ruth Sheehy.

Best man for his brother was Carl Sheehy. Ushers were John McKee, Robert Garner and Dale Yeager.

All attendants are from Auburn Heights.

The bride is the daughter of Mr. and Mrs. Ralph H. Beatty of 401 S. Squirrel Road. The bridegroom's parents are Mr. and Mrs. John C. Sheehy of 30 Churchill Road.

Two Gals Have Fun Diving Off to Alaska

To Alaska and back without a flat tire is the way two area women explained the ease in which they made the 11,000-mile trip to the 49th state.

Recently returned from an auto trip to Alaska are Mrs. Ethel Greenwood, 44, of 1545 S. Pontiac Trail, Walling Lake and Mrs. Myrtle Richards, 35, of 614 S. Lafayette St., South Lyon.

Less than \$200 was needed by the two widows to make the entire trip, and a fourth of that was used to buy gas and oil.

They made up their minds to go to Alaska in the Spring and by late June they were on their way in a compact car, complete with camping gear, cook stove and ice cooler.

Ironwood in the Upper Peninsula was their first camp stop. From there they continued through Wisconsin, into Canada, and on through Manitoba, Saskatchewan, Alberta, British Columbia, the Yukon and finally to Alaska.

The best part of the trip, they agreed, was camping out. Roadside parks along the Canadian and Alaskan Highway provided choice spots to pitch their tent and unroll their sleeping bags.

Viewing Mt. McKinley from a private plane was a highlight of the trip, the women said.

Any plans, however, for an extended stay in the new state were cut short because of heavy rain.

Tiny Depth Sounder Will Aid Fishermen

WALTHAM, Mass. (UP) — A tiny depth sounder has been developed which is designed to help fishermen land the big ones.

Six inches in diameter and weighing less than five pounds, the unit sends out ultrasonic signals.

When the boat passes over a large fish the dial flashes red, according to the manufacturer, Raytheon Co.

Republicans Get Advice

Ike Tells Congressional Candidates to Be Outgoing

Washington (UPI) — President Eisenhower, the Republican party's biggest vote winner, gave GOP candidates for Congress some fatherly advice Wednesday on how to win elections.

Eisenhower told a group of 150 Congressional candidates that his prescription for a successful campaign could be boiled down to: "Work, and knowing what you're working for."

The chief executive posed for individual pictures at the White House.

Daddy Says:

You Can Buy a
FORD FAIRLANE
2-Dr. "500"

FE 5-9204 WO 5-5273
2705 Orchard Lake Rd. #2
—Kearney Harbor

He warned that the candidates couldn't succeed by sitting inside an office and directing strategy. Eisenhower said they needed to meet every voter in their districts.

"You've got to do a lot of walking, wearing out of shoes, ringing of bells and things on your own," Eisenhower said.

He said that one of the chief qualifications for a successful candidate was "an outgoing personality."

"People have not to know you and they're going to like what they know," he said.

The President said that there was a "coincidence" about this year's presidential campaign. He said the last time that the four top candidates all came from Congress, or had experience there, was 1950.

"And that, I remind you, was a Republican year," Eisenhower said.

He also told the GOP Congressional aspirants:

"It is through people like you that we are going to keep this country secure, fiscally sound and on the straight, tough, middle way."

The armed forces of the United States last year included 32,078 women.

FAMILY OF LAWYERS—Admitted to practice before the U.S. Supreme Court with 1,886 others Tuesday was this entire family of lawyers. Mr. and Mrs. Anton Yngve are shown in front of the court building in Washington, D.C., flanked by their two sons John, 35, left, and Albert, 31, right.

Making of Decisions Unusual Study Topic

MEDFORD, Mass. (UPI)—An unusual study of the factors that influence the making of decisions will be undertaken soon at Tufts University.

The psychological project was made possible by a \$10,000 National Science Foundation grant.

"Little is known about the individuals involved in the making of decisions and whether the

person assigned to make a decision really is the right person," says Dr. Ezra Saul, one of the psychologists.

"We hope to find some new knowledge which will insure the selection of the best possible person for the making of decisions in all spheres of activity, especially in this new space and atomic era."

About 1,500,000 persons are employed in Japan's extensive fishing industries. More than 400 products of the sea are manufactured for food.

GOP Interested in South but Stick With Dems

LAUREL, Miss. (UPI)—Mississippi newspaper week noted today that the Republican party "has become interested in the South's problems lately."

But, said the Laurel Leader-Call in an editorial, "It must be remembered that those more intimate acquainted with the South's problems are lifetime Democrats."

"We must stand by our Democratic friends," the editorial added.

Livestock, Crop Prices Drop 2 Pct.

WASHINGTON (UPI)—Prices received by farmers for crops and livestock fell 2 per cent last month, the Agriculture Department reported Wednesday.

Prices of items used for farm family living were unchanged, however, and the department's index of prices paid dropped at the July level of 204 per cent.

As a result, the department's parity index averaged 79 per cent on August 13, compared with 80 per cent in mid-July and 80 per cent in mid-August a year ago.

Parity is a theoretical price needed to put the value of commodities sold by farmers on a par with the cost of things they must buy. When the parity index stands at 100, the farmer is said to be getting a fair return.

The July to August decline left farm prices 2 per cent below a year ago.

Multiplication Table Set to Music Aids Students

AUSTIN, Tex. (UPI)—A fourth grade teacher, Mrs. Rebecca Warden, has devised a new method of teaching multiplication to her students.

She has set the multiplication table to music. The idea is that if the children miss a combination, the rhythm of the song will remind them of the correct answer.

Cheese Braid Is Delicious

Barbecued Chicken

Select 2 to 2½ lb. broilers and cut into serving pieces. Place chicken in bowl, cover with Open Pit Barbecue Sauce and allow to stand several hours. Remove chicken from sauce and grill about 12 inches above glowing coals for 25 to 35 minutes. Turn frequently and brush with barbecue sauce. When browned, serve with heated Open Pit Barbecue Sauce.

Stores Offer Many Foods for Easy Holiday Meals

Labor Day closes the last three-day holiday of 1960. If all the family is to enjoy it, let's choose foods that are "easy on the cook," suggests the Marketing Information Agent, Mrs. Josephine Lawyer.

Pork, poultry and beef remain featured meats. And of course ground beef, hunchon meats and hot dogs will find their way into many shopping baskets.

What has to be bought may be confusing unless you read labels and ask questions. The regular ham with the aloch, shank and round bone will cost less per pound than the semi-boneless ham with the aitch and shank bone removed. You will need to decide whether the ease of slicing and the flavor difference of the semi-boneless ham is worth a few cents per pound to you.

Regular smoked hams weigh between 12 to 16 pounds. So a half ham weighs between 6 to 8 pounds. And a portion would

weigh less because the center slices are removed.

Barbecued spareribs are a big favorite in some families. Allow a pound per person. Pork ribs or the rib-and-ribs cut and country style ribs are fine for barbecue, have more lean meat per pound, and cost less to serve.

There are more broiler fryers than a year ago, and even though shoppers demand more in warm weather, prices remain very reasonable compared to many meats. If chickens are your choice, and if you are planning for a large group, you may wish to save 8 to 10 cents per bird by cutting them in your kitchen.

If weather doesn't cooperate as you do not wish to cook and dine, the oven makes preparation simple. Oven-fried, herb-battered or baked-in-cream are three ways to serve chickens.

Take your pick for the rubarbari or even. A check in local markets

shows that turkeys, duck, Cornish flower flowerets and this turnip hens and roasters are featured in some stores.

Looking for vegetables? Then cook on the cob in boiling water or cooked in the husks is a timely choice. Retailers report slightly heavier supplies of corn this week.

Beans give corn a special flavor. For corn in the husks, pull the husks back, remove the silk and rub the kernels with butter. Sprinkle with salt and pepper and pull the husks back over the corn. Cook in foil for about 15 minutes on the grill or in a 400 degree oven. Turn corn several times when cooking on a grill.

Patatoes baked in foil or cut into small cubes and cooked in oil for such good eating.

Sliced can be simple when you arrange a tray of sliced cucumbers and tomatoes, green onions, pepper rings, radishes, raw cauliflower

shows that turkeys, duck, Cornish flower flowerets and this turnip hens and roasters are featured in some stores.

Looking for vegetables? Then cook on the cob in boiling water or cooked in the husks is a timely choice. Retailers report slightly heavier supplies of corn this week.

Beans give corn a special flavor. For corn in the husks, pull the husks back, remove the silk and rub the kernels with butter. Sprinkle with salt and pepper and pull the husks back over the corn. Cook in foil for about 15 minutes on the grill or in a 400 degree oven. Turn corn several times when cooking on a grill.

Sliced can be simple when you arrange a tray of sliced cucumbers and tomatoes, green onions, pepper rings, radishes, raw cauliflower

Take your pick for the rubarbari or even. A check in local markets

to serve when you choose around and from home. Corned or frozen peas, canned corn, fruit juices and canned fruit are among the "easy" of the week.

Yes, holidays are to be enjoyed! Since this is the last three-day holiday of 1960, why not choose foods that are "easy on the cook."

Braise Sweet Peppers to Serve With Rice

When green and red sweet peppers are in abundance, try cooking them this Spanish way: wash the peppers, cut in quarters or large dice and place in a skillet with 2 or 3 tablespoons of Spanish olive oil and a split clove of garlic. Sprinkle with salt, cover, cook until tender, then remove garlic. To this add cooked rice (leftover rice can be used), stir to blend peppers through this rice and cook until rice is heated through. Serve this way as a vegetable or top each serving with a poached egg for an entrée.

CANTALOUPE PARTY SALAD — What to serve at the party? This delightful Cantaloupe Salad which is easy to make, economical and beautiful to behold. Assorted sandwiches would be an excellent accompaniment.

Mold Cantaloupe Balls in Citrus Gelatin Salad

If you've ever had the pleasure of prospecting in a melon patch, you will remember the thrill of finding that completely ripe, sweetly perfumed cantaloupe, no ready to eat that a gentle touch parts it from the vine. This luscious melon is graded "local choice" by growers and shippers and is the most delicious eating in the world!

"Full slip" is what melon men call the state of ripeness when the entire stem separates from the melon under slight pressure, though the melon may be still firm and yellow-green. Prompt chilling in cold water retards softening, readies the melon for its race to markets all over the country.

Cantaloupes at modern produce counters are sweet, but they may need two or three days at room temperature to develop fullness. Normal summer heat will soften them nicely. The smart thing is to anticipate your melon appetite and buy your melon supply several days before eating.

While the cantaloupe is only one member of the big muskmelon family, it's the most important, for we eat about 1 1/2 billion pounds of this small, heavily netted melon annually. Don't ever call your cantaloupe; you will lose some of its musky bouquet that way. As hear in the refrigerator is short enough, scrape seeds out, but don't rinse the melon because water floods away some of the sweet juice.

Cantaloupe is a treat at any time of the day—breakfast, lunch, dinner or a between-meal snack. It's marvelously healthful and very low in calories. It is a good source of vitamin A and vitamin C. Since a half cantaloupe is a natural bowl, heap it with fruit salad, ice cream or sherbet.

If you're planning refreshments for a summer party you'll want to keep the following recipe for Party Cantaloupe Salad. This salad will go beautifully with a plate of assorted sandwiches.

Cantaloupe Party Salad

1 cantaloupe, washed and peeled
1 cup granulated sugar
1 cup lemon juice
1 cup orange juice
1 cup cold water
1/2 cup fresh lime or lemon juice
2 drops green food coloring (optional)
1/2 cup fresh fruit (apples, grapes)
Soften gelatin in 1 cup of the grapefruit juice. Heat over hot water (not boiling) to melt gelatin. Add remaining grapefruit juice, sugar, salt, water, lime or lemon juice and food coloring, if used. Chill until the mixture begins to thicken. Fold in cantaloupe balls.

Rinse a 3 1/2-quart round pan or mold with cold water and fill each with the cantaloupe and mixture. Refrigerate until firm and ready to serve.

Just before serving unmold the larger salad onto a serving platter over which unmold the smaller salad, being sure to center it. Garnish as desired with soft cream cheese put through a cake decorator's tube.

Serve with mayonnaise or your favorite fruit salad dressing. Yields 25 to 30 servings.

Slaw Topping Goes on Corned Beef Bun

During one of the cooler summer days, cook a cut of corned beef large enough for several meals. Save some for use later as a picnic main dish. At picnic time, slice beef, place on half bun spread with butter and mustard. Smother with hot cabbage slaw.

Hot Cabbage Slaw

1 tablespoon sugar
2 tablespoons vinegar
1 cup water
1 teaspoon salt
1/2 teaspoon caraway seeds
1/2 cup cold water
1/2 cup chopped, shredded cabbage
1/2 cup sugar, vinegar, water, salt and caraway seeds in small saucepan. Add egg and cook until thickened, stirring constantly. Pour over cabbage and toss lightly. Makes 2 1/2 cups slaw.

Tips to Cops About to Can Fresh Peaches

When packed, canned peaches tend to rise from the bottom of the jar. This hurts the bottom of the canner, but not the peaches. Let jars stand about 12 hours, remove bands and press on lid to test seal.

If peaches have risen, you may if you like, lay jars on the side for several days. Turn jars over each day. When ready to store for winter, you may be pleasantly surprised to see how much the space between fruit and bottom of jar has been reduced.

If peaches are somewhat weak in natural flavor, add 1/4 teaspoon pure vanilla and 1/4 teaspoon pure almond extract to each quart just before sealing jar.

For something a bit on the fancy side, add a few drops of red food color to the sirup and 1/4 teaspoon almond extract to each quart of fruit.

For a spicy flavor, tie a few pieces of cinnamon bark, whole all spice, and cloves in a piece of cloth and drop into the sirup when you put it on to cook.

Quickest Method Known to Make Fudge Sauce

Just about everybody's favorite sauce, the year around is vanilla ice cream richly laden with hot fudge sauce.

To make a lustrous dark chocolatey sauce the quick and easy way, melt a six ounce package of semi-sweet chocolate pieces (1 cup) in a small can of evaporated milk (2/3 cup) over very low heat, then stir to blend. This hot fudge sauce is velvety smooth and of just-of-right consistency.

Chicken Salad

Chicken left over? Dice it and add it to a mixture of green peas and carrots. Dress with mayonnaise. Diced celery makes a crisp addition to this good combination.

13,000 Expected to Enroll

More Pupils in Waterford

Approximately 13,000 Waterford Township children — 825 more than last year — are expected to be enrolled in the school district this year, according to Supt. William A. Shuck.

Three new elementary schools will not open as scheduled. They are not quite ready for operation, Shuck said.

The schools, David Grayson on Walden Boulevard, the Carl Neuberg on Merry Road and the Della Lato on Pontiac Lake Road will open Sept. 14, one week later than expected.

Registration for all other elementary schools will begin at 8:30 a.m. next Wednesday for children with last names beginning with "A" through "N."

Those with last names from "L" through "Z" will register Thursday. The following day there will be regular class sessions for all grades.

Junior and senior high school pupils have completed their registration programs, and will begin full-day sessions Wednesday, Sept. 7.

They will attend school daily the following week, with the exception of Friday, Sept. 16, when there will be no school for any of the township students.

Hours for junior high pupils will be 8 a.m. to 3:15 p.m. 10th and 11th graders will be scheduled from 7:40 a.m. to 2:30 p.m. Seniors will attend classes from 7:40 a.m. to noon, or from noon until 4:30 p.m.

There will be no bus service Sept. 6 through 9, but they will be scheduled the following week.

House Wrecker Uses Army Tank for Speedier Job

BUFFALO, N.Y. (UPI) — John Kostoff employs a novel method of carrying out his house-wrecking business.

In addition to using a boom-and-bucket in demolition jobs, Kostoff uses an M24 Army surplus tank for wrecking purposes. It works fine.

Kostoff purchased the surplus tank for \$5,000. Driving one is nothing new to him. The 35-year-old house-wrecker was once a tank pilot in Gen. George S. Patton's Third Army in Europe.

Deaths Elsewhere

By THE ASSOCIATED PRESS. KUALA LUMPUR, Malaysia (AP) — Sir Hisamuddin Alim Shah, 82, the sultan of Selangor, chief of state of the Federation of Malaysia, died Thursday after a month's illness. He was named interim paramount ruler of Malaysia April 5 when the federation's first chief of state, Tunku Abdul Rahman, died. Sir Hisamuddin had ruled Selangor state for 22 years.

LAGUNA BEACH, Calif. (AP) — Phil Kerr, 53, composer of several hundred gospel songs, died Tuesday of a heart attack. He was manager of KFSG, Angelus Temple radio station in Los Angeles, for several years.

CLEARWATER, Fla. (AP) — Edgar Everett Martin, 82, creator of the comic strip "Boots and Her Buddies," died Tuesday after a short illness. He was an artist with the Scripps-Howard Newspapers in Cleveland in 1924 when he started the comic strip.

Display Famed Engine

SYRACUSE, N.Y. (UPI) — The New York Central Railroad's famed engine No. 999, the first man-made vehicle to travel faster than 100 miles an hour, was included in a display of vintage railroad equipment at the 1959 New York State Fair.

Colorado's first sugar factory was at Grand Junction, established in 1859. Sugar beets are a chief Colorado crop.

Don't be caught without a room for the night. You can call hotels or motels a day's drive away for about a dollar.

MICHIGAN BELL

Motel Owner OKs Guest With Copter

ODDEN, Utah (AP) — One of motel operator Lawrence Paulson's guests left Wednesday by helicopter for Lafayette, La.

Paulson was moving great Tuesday when he heard a whirling noise overhead, looked up and saw copter pilot Gene Wallace of Lafayette waving for permission to land.

"I motioned him in because I didn't care which direction my business comes from just so long as it comes, but I must admit I was somewhat startled," said Paulson. Wallace landed and spent the night.

He is an employee of Petroleum Helicopter Co. of Lafayette and had been in this area on a high-altitude job for the U.S. Coast and Geodetic Survey.

Police Ball Tickets Gone

GLASTONBURY, Conn. (UPI) — Police took special interest in a theft case. Someone swiped the tickets to the policemen's ball.

Tries to Reconcile Cuba and the U.S.

MEXICO CITY (AP) — President Adolfo Lopez Mateos pledged his government's good offices today to attempt a reconciliation between the United States and Cuba.

In a four-hour annual report prepared for delivery to Congress, Lopez Mateos said the mission of each of the American states "consists of keeping united in peace and harmony this great family in which Cuba rightfully holds a place of distinction."

"The preliminary approach did not have the immediate result we wished," he said. "Nevertheless, Mexico will not cease in its effort to serve unreservedly the need of friendship and harmony among the American republics."

Police Offer Advice

NEWARK, N.Y. (UPI) — When police here received a report that a pet skunk had been lost, the following entry was made on the log: "Fellows, don't try to pick it up because you may get hold of the wrong skunk."

Sea Elephant Too Lonely — Heart Breaks

MEMPHIS, Tenn. (AP) — A lonely sea elephant died of what some might call a broken heart just one month after his mate starved herself to an early grave.

The two were brought to the Memphis Zoo in April soon after their capture in Mexican waters. The female would not eat and wasted away.

The male seemed to be in perfect condition. The autopsy performed to determine the reason for his unexpected death disclosed a rupture of a large vein in the heart.

County Tax Assessor Sends 3,000 Yule Cards

COLUMBUS, Miss. (UPI) — Sophie Kilpatrick began signing her Christmas cards early — more than 3,000 of them.

In the 18 years Miss Kilpatrick has held office as county tax assessor, she has sent a personally signed yuletide greeting each year to every registered voter in the county.

K.C. 9 Enters State Tournament

The Knights of Columbus, Pontiac's city baseball champions, will wade into the Michigan Amateur baseball tournament at Battle Creek over the Labor Day weekend.

The Knights, City League champs for the last two years, open tournament competition Friday afternoon at 4 o'clock on Bailey Park's No. 3 diamond against the Northwestern League champs.

If the Knights win their opening game, they'll play again Saturday at 10 a.m. on the No. 1 Bailey diamond. If they lose the opener, they'll play at the same hour on Bailey's No. 5 diamond.

Sixteen teams from cities throughout the state are entered in the double-elimination tourney, including Wyandotte which is shooting for its 3rd consecutive Michigan Amateur crown.

The Knights, managed by Tony Stool and coached by Stan Slavinski, hope to make a better showing this time than they did a year ago. The K. of C. was eliminated in two games last year at Battle Creek.

The Knights' playing personnel for the holiday weekend in the cereal capital includes: Chuck Johnson, John York, Phil

Rabaja, Dick Goldsworthy, Andy Billeston, Jim Berg, Boyd Thompson, John Bankart, Al Barkley, Bud Hayward, Jerry Taylor, Fr. John Rakoczy, Mary Caswell, Stan Kropietzki, Jim Wagner, Stu Dell and Tom McCurnick.

Johnson, a catcher, and Goldsworthy and York, both pitchers, were added to the K. of C. roster from rival City League teams for the state tourney, giving the Knights a 17-man squad.

K. of C. turned up for the week-

end warfare Wednesday with an 11-5 victory over the Dearborn All-Stars.

The Knights spotted Dearborn a 40 lead, then roared from behind to win behind the booming bats of Barkley and Fr. Rakoczy. Barkley belted two homers and Fr. Rakoczy one.

The Michigan Amateur baseball event runs tomorrow through Monday. Eight games are scheduled tomorrow and another eight Saturday.

4 Water-Ski Exhibitions Feature Metro Program

Four water-ski shows will be presented at Metropolitan Beach on Lake St. Clair near Mt. Clemens on Monday, Sept. 5, Labor Day.

The shows will take place in the small boat basin at 11 a.m., 1 p.m., 3 p.m. and 5 p.m. There is no charge except for the usual 50-cent parking fee.

This was announced today by Joe Grimaldi, show director and three-time winner of the U.S. national mixed doubles water ski championship.

The acts will include precision

group skiing, synchronized ballet, barefoot skiing, jumping acts, pyramid formations, beautiful doubles exhibitions, plus acts on the "litter boards" and on the round, saucer-shaped boards called "dolls".

Performers will include Bob Carlson, Henry Brenkus, Laurie Fontana, Patricia Weston, Nancy Weston and Bill Weston in addition to Joe Grimaldi.

Eddie Arcego has won the Preakness six times, starting in 1941 with Whirlaway.

Ring Honors Moore

NEW YORK (AP)—World featherweight champion Davey Moore of Springfield, Ohio, was named "Fighter of the Month" in the semi-monthly ratings released today by Ring Magazine.

Moore won the honor by his successful defense against Japan's Kazuo Takayama, now ranked No. 9 in the division.

Senators Add Hurler

WASHINGTON (UPI)—The Washington Senators, bolstering their pitching staff in the hope of a possible fourth place finish, today purchased right-hander Ted Sadovnik from the Charleston, W. Va. farm club of the American Association.

Sadovnik, 24, pitched a five-inning no-hit game against the Cardinals last night. It was his fourth straight victory.

Orioles Narrow New York Lead to 1 Cards 2nd Again but Are 6½ Behind

MARIO \$15.95

By the Associated Press.

There's no longer any doubt the most improved club in the National League is the St. Louis Cardinals — and the most improved manager is the Redbirds' Billy Martin.

Only Pittsburgh's Danny Murtagh stands between the Cardinals and the covered honor of National League's "Manager of the Year."

In his first year as a big league manager, Martin last season piloted the Cardinals to an undisciplined seventh place finish. His team won only 71 games, losing 83.

With a full month still to go in the 1960 campaign, Martin's Cardinals already have won as many games as they did last year. They won their 71st against 55 defeats by squeezing out a 2-1 decision over Cincinnati Wednesday night.

The victory, coupled with Milwaukee's split in Chicago, boosted the Cards into second place, 8½ games behind league leading Pittsburgh.

The Pirates whipped San Francisco 7-4. The Braves, beaten 5-1 in 10 innings of the opener, won the second game from the Cubs 11-7. Los Angeles downed Philadelphia 3-1.

Left-hander rookie Ray Sadock and veteran outfielder Walt Moryn, a couple of fellows who weren't with the Cards at the start of the season, teamed up to defeat the Reds. The 19-year-old Sadock pitched a six-hitter for his eighth triumph and Moryn walked his 10th homer of the season, with one in the sixth, to second base.

When the Cards got off to a poor

start last April, and it began to appear they might duplicate last year's dismal showing, Martin got busy. Working with General Manager Bing Devine, the sophomore manager started changing lines and manipulating his lineup. Newcomers Julian Javier, Curt Simmons, Charley James, Bob Goss, Sadock and Moryn were added. Changes included switching Stan Musial to the outfield and planting Curt Flood in center field.

Wednesday's lineup showed only two players in the same position they held on opening day—Ken Boyer at third and Hal Smith behind the plate.

Robert Clemente's hot bat cooled off the Giants in San Francisco. The Pittsburgh outfielder rapped three hits, including his 12th homer, drove in two runs and scored two more as the Pirates overcame an early 3-0 deficit. Clem Laine, in relief, was credited with the victory, but it took a stout relief job by Elroy Face to preserve it. The little fireman fanned six in 2½ innings of scoreless pitching.

The Braves walked five home runs in their twin bill from San Diego, but a couple of clutch homers beat them in the opener. A four-bagger by Bob Will, off Lew Burdette in the 10th inning, was the decisive

blow. Another, by Don Zimmer in the ninth, had tied the score 6-4.

In the second game, three-run homers by Bill Bruton and Eddie Mathews (No. 11), featured a 13-hit Milwaukee attack against five pitchers. First game Milwaukee homers were hit by Del Crandall, Johnny Logan and Chuck Cottier.

Roger Craig buried a six-hitter and Junior Gilliam drove in all three Los Angeles runs against Philadelphia. It was Craig's sixth victory against one defeat, Johnny Buzard lost his eighth straight for the Phils. The Dodgers' Maury Wills stole his 35th and 36th bases.

Mickey Wright Has Seven-Stroke Edge

DILLSBURG, Pa. (AP)—Mickey Wright continued her par-busting assault at the Range End Country Club Wednesday for an almost insurmountable seven-stroke lead after two rounds of the 54-hole Eastern Women's Open Golf Tournament.

The 25-year-old blonde from San Diego, Calif., fired a two-under par 70 to go with a first-round 67 for a 137 that spread-eagled the field of 31 players after the first 36 holes.

What's more, she is only 70 strokes away from the 54-hole women's record of 208, set in June by Betsy Rawls, Spartanburg, S.C.

New Bowling Alley Going Up in County

Another new bowling alley is going up in Oakland County. Construction started this week on Collier's Lanes, 2½ miles north of Lake Orion on M24.

Wesley "Red" Collier, who has operated Red's Recreation in Oxford, will be proprietor of the new bowling house which is expected to be ready for business by January. Bowling will be discontinued at the previous site.

A \$350,000 building is being constructed by Frank Stewart & Sons of Pontiac. It will be owned by A. A. Case of Oxford and contains 12 alleys with room to add four more in the future.

Collier's sons Delwood and Dean will assist him when the new alleys go into business.

Defeat Indians as Yanks Split With Athletics

Big Weekend Battle for First Place Begins Friday at Baltimore.

By the Associated Press.

The most exciting and perhaps most wonderful weekend in Baltimore's baseball history since Ned Hanlon's champion Orioles of 1894-96 figures to get away winging Friday night when the youthful Birds engage the league leading New York Yankees in an all-important three-game series.

The season probably won't be decided in those games, but a sweep would lift the Orioles into first place in the American League and establish them as the team to beat for the flag.

Baltimore narrowed New York's lead to a single game Wednesday night, vanquishing Cleveland 6-3 after Kansas City had held the Yankees to a split in an afternoon doubleheader. The A's won the second game 6-0, after absorbing a 1-0 defeat in the opener.

Washington stunned third place Chicago with a 2-1 decision that dropped the White Sox four games off the pace. Detroit snapped Boston's five-game winning streak 4-2.

Two of the older Orioles—outfielder Gene Woodling and pitcher Skinny Brown—carried Baltimore to victory. Woodling, extending his hitting streak through 17 games, walked a grand slam home run off Dick Stenlin in the third inning. This offset a 3-0 lead Cleveland had up against Steve Barber in the first inning. Brown, a 35-year-old right-hander, took over and pitched eight shutout innings of six-hit relief for his 10th victory.

Yankee rookie Bill Stafford and A's veteran Ned Garver turned in the shutouts at New York. Stafford permitted four hits in the opener and walked off with his second major league victory on Mickey Mantle's sixth-inning gripe that scored Yogi Berra. Garver also hurled a four-hitter, in the nightcap, for only his seventh victory against New York in 28 lifetime decisions. Russ Snyder's base-loaded single off Ralph Terry in the sixth broke up a scoreless duel.

Southpaw rookie Jack Kralick of Washington out-pitched right-hander Bob Shaw of the White Sox. The Senators came up with the tie-breaking run in the ninth on catcher Earl Batley's sacrifice fly. The Senators had loaded the bases on singles by Julio Becquer and Jim Lemon and a walk to Reno Bertoia. Pinch hitter Elmer Valo forced a runner at the plate before Batley fled to deep left, scoring Lemon.

Surgery for Smith

DETROIT (AP)—Wayne State's head football coach, Herb Smith, was to undergo major surgery today.

Smith, 58, is expected to be out for at least a month. He has been head coach at Wayne for six years. Backfield coach Hal Willard will act as head coach until Smith returns.

Wings Start Workouts on Labor Day

DETROIT (AP)—Labor Day will be just that for the Detroit Red Wings this year.

The Detroit hockey club will assemble more than 70 players for training camp on that day at Olympia Stadium, the regular season home of the Red Wings.

"We moved up two notches last year," said general manager Jack Adams. "We came from last place in 1958. Our goal now is to move up another notch in the 1959-61 season. We have a lot of work to do and there's no sense in having a holiday to start with."

Adams and coach Sid Abel agreed, in a pre-camp huddle, that the 1960 Wings will be a rough-and-ready crew.

"We're gonna play it rough," said Adams. "We're taking the handouts off Pete Goggin on defense, and we expect the rest to follow his example. No one is going to push us around this year. Those teams aren't gonna walk in on our goaltender like they've been doing the past couple of seasons."

Adams was a roughhouse player in his days on the ice and always has admired players with a great amount of spirit. He's been disgusted with some members of his Detroit club in recent seasons for their meekness.

Abel has high hopes for several rookies. Howard Glover is a 25-year-old right winger who scored 35 goals for Buffalo last year, "and he's rough, too," Abel pointed out.

Al Johnson also is 25, and he scored 37 goals at Spokane last year. A returnee to the Red Wing

Area Politicians in Donkey Ball Tilt Friday Night

A donkey baseball game featuring Oakland County political personalities will be held Friday at 8 p.m. at the Waterford High School stadium.

The sponsoring Bake Oakland Heights Association will send a team called the "Donkey Dodgers" against the politicians. Included on the county team will be Congressman William S. Broomfield, State Senator Harvey Lodge, Rep. Lloyd Anderson, prosecutor George Taylor, sheriff Frank Irons, Jim Sesterlin, Donald Adams, Elmer Johnson, Pat Paley, Joe McGee, Lewis Rustle, John Verhey, John Coleman, George Fulkerson, James Kellif, Dan Murphy, Dan Barry, Roy Russell, Ken Squires, William Benson, Richard Lawson, Louis Goff, Harry Wornest and Eugene Fournier.

Boats May Be Improving Faster Than Boatmen

Many Careless in Protecting Prize Products

Good Mooring Lines, Anchors Are Required to Hold in Storms

DARLEN, Conn. (NEA) — A boat getting better than the boatmen?

This seems to be the case after viewing a Long Island Sound waterfront at Darlen following a brief late-season storm.

Many craft had broken mooring lines and sailed themselves ashore. Others dragged anchor.

The storm, fortunately, was minor and most of the boats beached themselves on soft sand so little damage was done. But a survey of the shore indicated that the boats had weathered the blow in spite of their skippers, not because of them.

Science has developed amazingly strong lines of nylon, dacron and neoprene, plus very efficient anchors.

Commander Bill Murphy and officers of the local boat club, all pilots up to help clean up debris, pointed out boats with broken strands of ordinary cotton chafe-lines hanging from their bows.

Boatmen. It seems, will spend many dollars on a fine new craft, and then secure it with line that might not keep a small dog in the backyard.

Good marine rope was chewed right through on other craft because no allowance had been made for protection from chafing. Even lines of proper size and strength can abrade quickly if bow chocks are allowed to rub on them.

Many boatmen deserve day-out canoes, judging from the way their boats are moored. Light anchors of great holding power have been invented, but along the beach examined boats with only a large rock or cement block tied to the anchor rope.

All right for the first cove, sailor who moored his fishing raft that way, but seamanship is supposed to have improved since then. Under blocks, such weights or scrap iron are no substitutes for a good anchor and lots of line to make it dig deep, especially in coastal waters where a storm brings in extra high tides.

A mushroom anchor or heavy weight, plus plenty of chain, can hold in mud, white sand, grass or rocky bottom may require a special hook.

In many parts of the country we find clubs or harbor masters recommending proper ground tackle for size of boat and type of bottom.

One craft broken loose from slip or mooring and cruising along through an anchorage can do more damage to other boats than a storm.

Tips for Underwater Movie Photo Fans

NEW YORK—Skin divers can take exciting and unusual pictures underwater even if they lack masterful technique and expensive equipment.

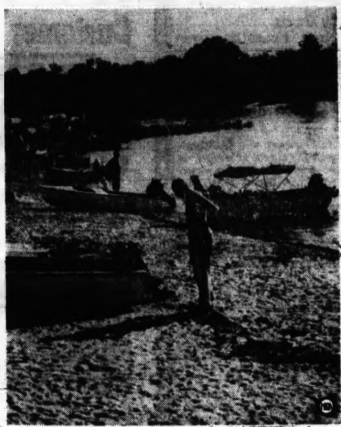

Suggestions are:

1. If you only want to take an occasional picture underwater, the soft plastic case is ideal. It will accept almost all 35 mm. 2 1/2 x 2 1/4, and 8 mm. cameras.
2. The 8 mm. camera will do all the 16 mm. will do at one-third the cost. If you intend showing your films to large audiences or to sell them, however, use a 16 mm. camera.

3. Electric eye cameras are excellent underwater. They do away with the problem of getting correct exposures each time the depth and bottom and surface conditions change.
4. If you want to take color pictures, use the faster speed films.
5. The best underwater pictures are taken on calm days and clear water.
6. Meter readings should be taken when you change your depth.
7. Get as close as possible to your subject for clear, sharp pictures.
8. Distances underwater appear one-quarter less than usual because of the refraction of light through water. Therefore, advise Popular Boating, set your focus for three-fourths of the actual distance.

The Mercury outboard people suggest that you set a row of ordinary brass cup hooks under each thwart in your fishing skiff. Multi-ple hook fishing lines and sinkers of various weights can be hung here, out of the way yet within easy reach.

SMART BOATS—Pleasure craft that chose this sandy beach to go aground in a storm were more intelligent than owners using clothes line for mooring and rock for anchor.

'Rules of Road' Should be Followed Closely

The "Rules of the Road" of boating are old hat to many skippers and many boating newcomers have read and studied them. But how many skippers fail to practice these safe-boating regulations?

These "Rules of the Road" were designed for all boatmen to follow—just as traffic regulations are set up for highway travel. The Evinsrud Boating Foundation reminds boatmen that these "Rules of the Road" and "Laws" help make boating safe for you and your family.

Every good skipper should know these basic rules of boating:

To avoid collision when meeting another boat, always bear in mind the right. A boat should always give way to another in its "danger zone" by altering course. (The danger zone is that area from dead ahead to two points abaft the starboard beam — in other words, a boat approaching from the right) By the same token, if a boat approaches from your left — or port — side, you have the right of way. However, it is advised that you slow speed until you know what the other skipper is going to do.

When overtaking and passing another boat, always stay clear of the boat being overtaken. If the boat doing the overtaking is a large vessel with a deep draft, it is good manners and sound seamanship for the skipper of the smaller boat to pull to the side of the waterway to let him pass. This is one situation in which it is not wise for the outboard skipper to insist on the right of way.

Sailboats always have the right of way over power boats except in the very likely possibility of a boat under sail overtaking one under power. Courtesy also requires that sailboats while racing be given a wide berth. If you have a sailboat, sail slowly and on the leeward side (the side on which it is carrying its main boom) so as to cause the least possible disturbance from your wake.

Fishing boats with nets, lines or trawls out, whether anchored or underway, should be passed with caution. However, fishermen should never anchor in a channel or fairway. Nobody has rights in these areas unless they are "just passing through."

When leaving slips, wharves or piers proceed with caution. Boats have no rights until they are in open water — entirely clear. Boats going downstream or down-current in moving waters have the right of way over boats proceeding upstream.

Tugs and barges should be given the right of way. Literally, power boats have rights over these vessels, but because of their poor maneuverability, tugs and barges should be given authority.

Should any mishap occur within the skipper's visibility it is always expected he will lend a hand whenever needed. Most of the time it

The Mercury outboard people suggest that you set a row of ordinary brass cup hooks under each thwart in your fishing skiff. Multi-ple hook fishing lines and sinkers of various weights can be hung here, out of the way yet within easy reach.

Safety on Water Is Common Sense

Safety is basically common body low. Tighten the lines on the boat before getting aboard or have someone hold the boat for you as the cause of a great deal of it doesn't "slip away." Keep your arms and hands free don't board loaded down with gear.

Before leaving the pier check to see that there is a life preserver either jacket, belt or cushion, for every boating member. Also make a complete check of the other safety devices — fire extinguisher, lights, emergency paddle and other gear necessary to make your boat a safe one. Make extra sure that your equipment is in operable condition.

If your craft is equipped with a conventional-type gas tank always remove the tank from the boat before filling and wipe clean before putting it back. If you have a pump-type tank make sure not to spill any gas over the side of the boat. Under no circumstances fill your tank near fire, especially a cigarette.

When taking your passengers aboard, don't overboard. An overloaded boat is easily swamped. Follow the load capacity limits that the boat builder has established. Also, power your boat according to the manufacturer's maximum horsepower specification. An

overpowered boat is hard to control and could be dangerous.

Never launch your boat in swift waters or near a dam or falls and always start your outboard before leaving the pier. If a trailer is used in launching your boat, block the wheels of both car and trailer, especially when launching on a slope.

All skippers should learn to be weathermen in order to keep tabs on cloud formations for signs of approaching storms or squalls. If rain or wind storm should hit while you're under way head for shore. If the waves are large, head into them — if they are small, "ride them in."

Bring your boat into harbors and docks at a slow speed and be careful when docking at another's pier. Should you have tin cans, bottles or food wastes aboard keep them in the water until you can throw them in a disposal ashore. Never litter the water with wastes.

Don't be a "boating cowboy." Rodeo contests are held on land not on the water. Boating cowboys are hazards to everyone on or in the water. Remember, your boat doesn't have brakes — use common sense.

Boats on Go at Local Lakes

Boating continues to be popular with visitors who use the facilities at Kensington Metropolitan Park near Millford and at Metropolitan Beach on Lake St. Clair near Mt. Clemens.

An estimated 4,000 small watercraft have been launched at Kent Lake in Kensington Metropolitan Park since the season opened in April.

The park, which has two boat launching sites. The park issues launching permits which are good the entire boating season. David O. Laidlaw, park superintendent, reports that this year sailing has increased in popularity on Kent Lake. This is due primarily to the lack of speed boat activity on the inland lake where speed limits are strictly enforced and water skiing is not permitted.

Kent Lake, a popular fishing site has 120 twelve-foot aluminum row boats which are available at the Boat Rental building, but motors, gasoline, fishing tackle or bait are not supplied at the park.

Motors can be used by park visitors and are limited to 7 1/2 horsepower unless special permission for larger motors is obtained. This is without charge.

On Future Weather Sky Is Reliable Check

Even if you don't hear the official weather reports before you go nature has a built in weather forecasting system which has proved to be pretty reliable and can be read from the sky.

If you look at the moon at night and see a misty haze around it, you can be pretty sure that bad weather is on the way.

A bright blue sky generally means that you will have a stretch of fair weather — a vivid red sunset usually means fair the following day, but a red sunrise warns of possible bad weather in the offing.

Usually, if the sky is gray at dawn, you count on foul weather the following day. If the sky is cloudless when the sun goes down, you can expect late and cool weather tomorrow.

Possible rain follows a low looking sun. When cirrus clouds blot out the sun, rain may be on the way. A sun setting in an aura of glowing white, generally means a storm. When the sun sets in dark clouds, bad nights usually follow, but when the sun rises from a gray horizon you can count on good weather.

When cloud streaks and patches increase on the horizon after a spell of good weather, a change, possibly with rain and wind, is coming.

Fair weather is usually indicated when fleecy, light-colored clouds can be seen. Rain is indicated when small, dark clouds are visible in the sky. High clouds moving in another direction than lower clouds is indicative of unsettled weather.

Routine Inspect Often

Before casting off, a wise skipper performs an inspection of his rig. He makes sure there is enough gas aboard, fuel and steering properly connected. He preservers accounts for, and emergency gear at hand. He makes a precautionary twist on each transom clamp screw. Your motor should be secured to the craft by a length of chain to prevent loss should it wrench free. For better, Mercury clamp brackets have elongated holes to accommodate transom through-holes which secure the motor to the transom independently of the clamp screw.

If your trailer has hot springs, use a paint-type oil squirt can and fill it with light oil. Before launching in salt or muddy water, all up the springs to repel water. This does much to prevent inter-lake rusting.

When your trailer has hot springs, use a paint-type oil squirt can and fill it with light oil. Before launching in salt or muddy water, all up the springs to repel water. This does much to prevent inter-lake rusting.

SAILING RIVALS—These eight skippers are competing this week for the North American Women's Sailing Championship. Left to right, first row, they are: Jocelyn Stevens, Quebec; Pat Mahan, Long Island, N.Y.; Rae Ramey,

Seattle, Wash.; Linda Youngs, Alexandria, Va. Left to right, second row: Jane Pegel, Wisconsin; Pat Duane, Florida; Nancy Mann and Michele Lally of Massachusetts.

Lights Mean Safety in Night Boating

Any boat operating between sunset and sunrise must show navigation lights. By color and arrangement these lights identify you to other boats and show the direction of your course. In most waters minimum equipment is as follows:

One bright white light, visible two miles in all directions, mounted as high as possible at the stern.

One combination light, visible one mile, mounted near the bow, showing red to port and green to starboard. Each color must be visible from dead ahead to two points abaft the beam (the correct arc of visibility, a little more than a right angle, is built into the light).

In mounting lights be sure that their visibility is not obstructed by other equipment. Always have a powerful flashlight aboard.

Metals Heavier Than Lead Not for Cup Boats

NEW YORK—(NEA)—After an inquiry by Alan Payne, the New York Yacht Club and the Royal Sydney Yacht Squadron ruled that metals heavier than lead are prohibited for keels of America's Cup boats.

Payne is the Australian designer of the prospective challenger in 1967.

The keel of a 12-meter weighs about 36,000 pounds. A keel of gold, which is a heavier metal, would cost in the neighborhood of 20 million.

Bob Grottkau of the Detroit Lions would make an ideal guest for a summer "cookout." He spent the offseason on football in the U.S. Army as a cook.

Lion Attacks Actor, Comes Off 2nd Best

ROME (AP) — A lion broke through a glass partition Wednesday and clamped its jaws on the arm of American actor Cornel Wilde during a studio set scene in the filming of "Constantin the Great."

Wilde suffered only slight scratches on the elbow and knee. He said he was willing to go on with the scene, but the directors said the lion wasn't. The animal was cut by glass and excited.

The scene was canceled as too dangerous.

Revolving Center in Dining Table Has Salt Handy

LANCASTER, Ohio (AP) — Floyd Rothman has made sure he'll have the salt and pepper shakers when he wants them at the table.

Rothman saved a circular hole in the center of the dining room table, put the wooden circle back in place and attached an electric motor to make it revolve.

He can throw a switch, when the shakers are out of reach, to bring them closer on the revolving centerpiece.

Warning to Motorists

757 Candidates Divide Support on Write-In Vote

SALEM, Ore. (AP) — When the official tally was made on vote for Republican Party chairman in Oregon, it was found that 757 candidates got votes.

It was strictly a write-in contest, no names being on the ballot. Three men made a race for the office and divided some 29,000 ballots. But 2,406 voters divided their support among 754 others.

Abyssinian Tea Puts Kick in Dreary Lives

When East Africans want to break the monotony of their lives they gather the leaves of the khut tree and boil them into Abyssinian tea, Dar-es-Salaam, Tanganyika, reports.

The drink provokes excitement and frenzied dreams and some natives have found that it is habit-forming. World Health Organization experts are studying the problem and will advise whether khut tree cultivation should be prohibited or controlled.

Liners Feature Leisure, Luxury Instead of Speed

By CAY VAN BROCKDORFF
HAMBURG, Germany (UPI) — In an age of fantastic speed, one kind of transportation hopes to keep up by slowing down.

Ocean liners, once the joy of travelers who wanted fast intercontinental travel, have been left in the vapor trails of jet airplanes, which make the Atlantic crossing in a little more than eight hours.

The ship lines are fighting back, though by junking their old claims on speed and emphasizing leisure and comfort instead.

Only one liner, the United States, still is billed in the number of the old-time fast steamers. The 52,300-ton vessel slices through the sea at a rate of 34 nautical miles an hour, cutting days from the standard cruise length.

But the United States was made fast for another purpose than passenger convenience. Built with U.S. Government aid, it can be transformed in two days to a troop transport carrying a fully equipped army division.

Last year, about 84,000 passengers crossed the Atlantic by ship, a drop of 10 per cent from the preceding year. At the same time airlines logged 1,650,000 passengers, an increase of 28 per cent.

The rapid rise in air traffic corresponded with the introduction of jets on the Atlantic run, and

airlines hope to top 2,000,000 this year.

NEW APPEAL
Owners of ocean liners aren't giving up, however. Their business rose slightly during the last half of 1959 and they hope to bring it up more by appealing to travelers who are interested in rest, comfort and relaxation rather than speed.

This prospect also is appealing to the owners because it is more economical to make a long, slow voyage than a short, fast one which burns up more oil to the mile.

Since fuel costs have gone up steadily while ticket prices have remained fairly steady, this is an important consideration.

North German Lloyd, which once prided itself on its quick crossing, now points with satisfaction to its new flagship, the Bremen which logs only 23 nautical miles per hour, and takes six to seven days for an Atlantic crossing.

Furnishings are the latest word in luxury, with tourist-class cabins fitted out more lavishly than most first-class ones were in the old days.

And instead of promising to get passengers across almost before they get their bags unpacked, the company holds out the lure of time for acquaintances and business meetings, and that eventuality once limited to the very wealthy — dinner at the captain's table.

Carver School Head Lists Facilities

'No Problem Handling Ninth Grade'

The superintendent of schools in Royal Oak Township today stated emphatically that the township is able to offer ninth grade classes and that "our problems have been greatly exaggerated."

Dr. Joseph Hudson, Carver School District superintendent, declared that "our ninth grade pupils have nowhere to go."

Hudson also said the school

board "has never threatened to send a student to another township."

Most of the trouble centered around 24 pupils who graduated from the eighth grade in George Washington Carver School last June.

This is the township's only school and it provides classes for children from kindergarten through the eighth grade.

Ninth-graders previously attended classes in Detroit on a tuition basis, but the Detroit Board of Education says it no longer has room to accept additional enrollees.

GMC Truck will show seven vehicles ranging from its compact Junior Van delivery truck to rugged die-hiway tractors. The exhibit will be manned by GMC factory branch and zone personnel from Detroit and Pontiac.

Highlights of the General Motors exhibit at the Michigan State Fair, that opens today, will be a big truck display sponsored by GMC Truck and Coach Division.

Output Up 36.3 Pct., Aided by 1961 Cars

DETROIT (UPI) — Production of 1961 model cars by American Motors and Ford-Motor Co. this week sparked a 36.3 per cent increase in the auto industry's output, Automotive News said today.

The trade paper said the industry was expected to increase output 36.3 per cent this week compared with 26.9 per cent last week.

With Chevrolet truck production down in the second straight week, the industry's output was expected to drop 10.3 per cent this week, Automotive News said. It estimated the week's output at 13,138 compared with 14,673 last week.

Mulberry leaves are the favorite food of silkworms.

Near \$100 Per Page in Congressional Record Last Speeches Costly for Taxpayers

By EDMUND L. BRETHERTON WASHINGTON (AP) — The Congressional Record, that cherished anthology of speeches both delivered and merely thought of by members of Congress, is becoming more costly for taxpayers.

Before the members of the House went home, so many of them asked for and got "unanimous consent to revise and extend remarks, and include extraneous matter" that some of the other members whittled out last.

Some of the most piercing whistles were provoked by the request, duly granted, of Rep. Adam Clayton Powell Jr., D-N.Y., to insert material notwithstanding a cost of \$1,323.

That meant Powell gets to fill about 13 pages of the Record, which the members can use up as much as two pages at a time with no questions of cost asked; beyond that they must include an estimate of their request. At latest count, the official price for printing a page was something under \$100.

Several members, including Rep. J. R. Gross, R-Iowa, want to know what valuable contributions accounted for the flood of insertion requests. They were especially interested in Powell's \$1,323 offering.

Powell wasn't there, and Democratic Leader John W. McCormack of Massachusetts said he couldn't be very enlightening.

Powell's office often told news-

men they didn't know, either, what the congressman wanted published.

McCormack's Republican counterpart, Rep. Charles A. Halleck of Indiana, laughed off a suggestion by Rep. Clare Hoffman, R-Mich., that he move time by just getting content for everybody in the House to put whatever he liked in the Record.

But Halleck volunteered to add Hoffman, and Gross too, to his list of members entitled to insert.

Rep. Paul C. Jones, D-Mo., a long-time campaigner for limitations on revising and extending, said Wednesday night's outpouring exceeded anything he could remember in his 12 years in Congress.

Harrelson Gets Probation, Fine

Admits Forging Sixty Signatures on Petitions for Judge Candidate

LESLIE W. Harrelson pleaded guilty yesterday to a charge of violating the state election law just prior to his scheduled trial in Municipal Court.

He was placed on 90 days probation by Judge Maurice E. Finnegan and paid \$100 costs.

Harrelson, 24, of 575 Decade Place, is the son of Louis Harrelson, president of Pontiac Teamsters Local 814.

He originally was ordered to stand trial Aug. 10, but failed to appear. A bench warrant issued at that time for his arrest was dismissed when he telephoned the court clerk and said he was in Chicago on business and would return for trial when it was rescheduled.

Young Harrelson admitted that he forged some 60 names on petitions submitted to Detroit attorney Donald Kaufman, unsuccessful candidate for the Oakland County probate judge nomination in the August primary election.

He originally pleaded not guilty of the misdemeanor at his arraignment.

Mute at Arraignment in Abduction Case

A 30-year-old Pontiac man charged with the statutory rape of a 15-year-old girl stood mute at his arraignment Wednesday in Independence Township before Justice of the Peace William H. Stamp.

Stamp scheduled examination of the charges against Kenneth L. Buckelman of 223 Victoria Drive for Sept. 8 in justice court.

Hits Connolly Amendment

Bar Still Against World Court Slap

By FRANK CORMIER WASHINGTON (AP) — The policy makers of the American Bar Association have decided by a vote of 114-107 that they still don't like the controversial Connolly amendment.

The ABA House of Delegates approved a resolution Wednesday urging the Senate to repeal the 14-year-old reservation which limits the United States' acceptance of the World Court's jurisdiction.

Under it, this country reserves the right to decide whether a court case against it involves a domestic matter and thus is exempt from World Court rulings.

While the ABA decision reaffirming one made 13 years ago was likely to stand, the issue still remained alive at the association's 83rd annual meeting. The question was scheduled for still another airing before the ABA Assembly, consisting of all 6,000 lawyers attending the annual meeting.

The assembly could take an opposite position, supporting repeal. Its action would be subject to review by the House of Delegates, which presumably would take the same stand it took Wednesday.

Since 23 members of the House did not vote, however, there remained a chance that the decision might be reversed.

In the U.S. Senate, opposition of some members prevented action this year on a resolution to repeal the limitation.

In opposing the reservation, the lawyers group took the position recommended by President Eisenhower in a talk to the association Monday.

GMC to Have Truck Display at State Fair

Let in Europe

But W. P. Lear Plans to Assemble Planes in United States

GENEVA (AP) — American aircraft manufacturer William P. Lear disclosed plans today for building a 500-mile-per-hour twin-jet touring plane in Europe for assembly in the United States.

Lear said the prototype is expected to take the air in January 1962. Lear himself is supervising the designing, and the Lear-owned Swiss-American Aviation Corp. will start producing the planes.

Lear said the plane, priced at \$300,000, has not yet been named because "we thought it was more important to get a good airplane and worry about the name later."

He said the Swiss-American Aviation Corp. has no connection with the Lear, Inc., aircraft plant at Grand Rapids, Mich., and he stressed that no decision has been taken where to the United States the plane will be assembled and fitted with American-built jet engines.

The decision is to be left in the hands of the American distributor, who has not yet been chosen.

Claims Luxury Compacts to Change Auto Industry

By JACK VANDENBERG UPI Automotive Editor

DETROIT — One of the nation's top automobile dealers says he feels the introduction of new luxury compact cars this fall will force a complete realignment of the auto industry.

Birkett Williams, president of the National Automotive Dealers Association, says he thinks the new luxury compacts will invade the area of the market now considered the exclusive domain of standard-sized low-priced cars.

Williams indicated this would leave the auto industry realigned on a compact-car basis, with the present compacts controlling the medium-priced field.

"I think half of the sales of automobiles will be compact within a year," Williams drew. "There is a definite change in the automobile picture. People want something different and that something different is smaller and more economical cars."

Williams said the auto industry currently is offering too many options to the car-buying public.

"All we need (in the low-price field) are eight models," he said.

"We should have two and four-door sedans in standard and deluxe, a two-door station wagon, a four-door station wagon, a convertible and a two-door hardtop."

"If I were running the factories, I would eliminate the four-door hardtop," he said. "We need it in the low-price class."

In the matter of four-door hardtops, Williams apparently would get support from American Motors President George Romney, who dropped the four-door hardtop from AM's model lineup this year.

But the Ford dealer with 40 years of experience in Cleveland contradicted the policies of both Ford and General Motors with his comments about the need for fewer models in the lower priced field.

BUT OPTIONS INCREASE Both GM and Ford are increasing engine and model options to the belief that the market is becoming more "segmented" and it is necessary to cater more to specific driving wishes of the motorists.

Williams said he felt two V8 engines and one six-cylinder engine was all that was needed in such make of the low-priced models.

He said the widespread selections currently offered by the auto companies forced dealers to keep unusually large stocks in their showrooms.

He estimated excessive inventories have cost the nation's new car dealers more than \$5 million already this year and said the figure probably would grow to about \$7 million by the end of the year.

"Automobile selling is going to be a rough and tumble business next year," he said. "Everybody will be competing with everybody else."

"We never seen anything like it in my 35 years in this business. Until now, the low, medium and high-price groups competed in their own price classes. But now it is a free-for-all."

These members while not whippersnappers on the defensive, he declared in a speech prepared for the International Congress on Nutrition.

"The world cup is close to being the melting of rockets. It listens from the slow but steady improvement in world health and nutrition," he said.

'Political' Session Criticized

By JACK BELL WASHINGTON (AP) — Both political candidates had critical goodbyes for the Congress, which is expected to wind up today its politically heated summer session.

Sen. John F. Kennedy of Massachusetts served notice that he will be around in January—either as president-elect or senator—bringing up again some of the things they didn't do.

Vice President Richard M. Nixon, his Republican rival, said Congress had been called back after the party conventions for political purposes and had failed to enact a program.

Nixon, hospitalized with an influenza, was said through Herbert H. Klein, his press secretary, that "certainly it is not surprising that the leaders of the Democratic party have not produced the type of program" President Eisenhower and he advocated.

Kennedy criticized Southern Democrats as well as Republicans, for blocking the passage of legislation keyed to his party's platform.

He told his colleagues Wednesday that if he had accepted a stripped-down House version of a minimum wage bill the action would have increased further progress in this field for several years.

Instead, he said, he chose to let the bill die so that it could be revived in a new Congress and with a new president.

Malnutrition on the Run, Claims Ike

WASHINGTON (AP) — President Eisenhower said today that for the first time in history mankind is able to "catch the scent of victory" over two ancient enemies—bunker and malnutrition.

These enemies while not whippersnappers on the defensive, he declared in a speech prepared for the International Congress on Nutrition.

"The world cup is close to being the melting of rockets. It listens from the slow but steady improvement in world health and nutrition," he said.

Carole Returns to Witness Box

Prosecution to Finish Examination in Finch Murder Retrial

LOS ANGELES (UPI)—Carole Tregelt returned to the witness stand today in defense of her life and prosecution attorneys indicated they would finish cross examination before day's end.

The 32-year-old suburban-haired mistress of Dr. Bernard Finch retained her composure during Wednesday's session and did not once appear to be in distress.

The cross-examination of the two previous days as she related her love affair with the wealthy physician in a hideaway apartment in Monterey Park.

Prosecutor Clifford Crall methodically questioned Carole Wednesday about what occurred on and before the night of July 13, 1959, when Mrs. Barbara Jean Finch was slain in the driveway of her killing home in suburban West Covina.

Rocking to and fro in a swivel chair, Crall passed after each answer, then read the transcript of her answers to similar questions from transcripts of the first murder trial and two police statements.

Many answers were not the same.

Discrepancies were pointed out in her testimony concerning time elements, what she and Finch did before Mrs. Finch arrived at the home, what they had planned to talk about and—among other things—Carole's knowledge of the contents of a brown attaché case, which a murder list by the prosecution.

Carole testified the differences, sometimes slight, sometimes more marked, were due to her ability to recall events more clearly now than at the previous sessions.

Monkey Business in Earnest at Space Center

SAN ANTONIO, Tex. (AP)—The first U.S. animal put in orbit around the earth will be a well-trained monkey munching on sliced apples.

Two of the five monkeys being trained for the trip were exhibited by the Air Force Wednesday. They are known as 20X and 21X.

The Air Force hopes to put one of the 4-pound monkeys into orbit using a modified Thor missile fired from Vandenberg, Calif., Air Force Base in late October. The health of females will make the trip and the Air Force believes it will survive. Its food during the trip will consist of sliced apples.

Valiant Yacht Wins Sea Fight

Heads for Honolulu With 9 Feet of Water Below Its Decks

HONOLULU (AP)—The crippled 136-foot Seattle motor yacht Wild Goose II—with nine feet of water in its hull—has won its battle for survival and is heading for Honolulu.

The Coast Guard cutter Matagorda reached the vessel Wednesday night, 250 miles southeast of here, and put aboard a repair party.

The yacht, carrying 18 persons including a 6-year-old Maori girl on her way for treatment of a heart defect, radioed the Coast Guard for help early Wednesday after a mysterious breach in the hull left the sea in.

The passengers pitched in for a continuous nine-hour fight to keep the boat afloat. At one point all below-deck compartments forward of the engine room were flooded. The Wild Goose II, owned by Seattle, Wash., lumberman Max Wyman, is skippered by James Blackburn of London, England.

Says Senators Strangle on Politics

By JAMES MARLOW

WASHINGTON (AP)—It was a big bust.

This 40-year-old summer session of Congress ended up with the taxpayers' money accomplishing practically nothing and strangled itself in politics, polemics, partisanship and poor performance.

Neither Democrats nor Republicans can claim a victory from what happened, for very little was done except to leave the voters with the impression that they were more confused than ever on what to expect from the November elections.

For weeks, voters' ears have been pounded with the leadership theme by the two presidential candidates—Vice President Richard M. Nixon and Sen. John F. Kennedy—each claiming he's the one to do the leading.

Each had a chance to do his stuff in this congressional session, Kennedy more than Nixon because Nixon, by the nature of the vice presidency, has to stay pretty much on the sidelines.

Both suffered dismal defeats. Each backed his own kind of mad, each a program more than the other wanted.

ROUGH ROAD AHEAD
This session of Congress showed anything it showed the frustration Nixon and Kennedy face in dealing with Congress next year, no matter which one wins the November election.

The Senate Democrats, outnumbering the Republicans 68-34, had

rough votes to run through any bill they wished they shrank together, but they didn't.

Nixon's two main weapons, the Senate, will be the power to veto what he doesn't like and the hope of getting enough Democrats to find along with enough Republicans to give him what he wants.

But what he'll get out of such an arrangement will pretty surely be conservative legislation since the conservatives of both parties in Congress are the dominating force and are likely to remain so. If Kennedy wins he will always have hanging over him the threat of a coalition of conservative Democrats and conservative Republicans.

ALL SEATS AT STAKE
In the House all 437 seats are at stake. But there the Democrats outnumber the Republicans 280 to 157, with five vacancies.

So, short of a Republican landslide, which no one is predicting, the Democrats don't expect to lose control in the House, either.

If Nixon wins the presidency he faces the prospect of dealing with a Democratic-run Congress, which can be a frustrating experience, as Kennedy ought to be able to tell him.

Kennedy, because he needs all the votes he can get and can't afford to split the party, won't be able in this election campaign to blame the Southern Democrats.

"Swing" districts where Republicans hope to defeat Democratic incumbents currently include those held by Reps. S. James Clark, D-Southfield; Raymond J. Apley, D-Mount Clemens; William C. Sterling, D-Montclair; P. Charles Rapp, D-Win Lake; Andrew H. Weiss, D-Hancock; Harvey Beale, D-Plymouth; and Joseph Giacchino, D-Iron Mountain.

22 Nationality Groups to Back Nixon and Lodge
WASHINGTON (UPI)—Leaders of 22 nationality groups have formed an American Nationalities for Nixon-Lodge Committee in support of the GOP ticket.

Vice President Richard Nixon's campaign headquarters announced that former Gov. Theodore R. McKeldin of Maryland and John Richardson Jr., president of the International Rescue Committee in New York, would be co-chairmen of the committee.

The Glitte Castle, at East Haddon, Conn., has granite walls four to five feet thick at the base.

Sen. Frank D. Bessie, R-St. Clair, Senate majority leader, said Republicans expected to pick up at least two Senate seats, pushing their majority to 24-10.

MAY GAIN 6 SEATS
Any of the three Upper Peninsula seats, all Democratic held, is likely to go to the GOP.

Sen. Frank D. Bessie, R-St. Clair, Senate majority leader, said Republicans expected to pick up at least two Senate seats, pushing their majority to 24-10.

22 Nationality Groups to Back Nixon and Lodge
WASHINGTON (UPI)—Leaders of 22 nationality groups have formed an American Nationalities for Nixon-Lodge Committee in support of the GOP ticket.

Vice President Richard Nixon's campaign headquarters announced that former Gov. Theodore R. McKeldin of Maryland and John Richardson Jr., president of the International Rescue Committee in New York, would be co-chairmen of the committee.

The Glitte Castle, at East Haddon, Conn., has granite walls four to five feet thick at the base.

Sen. Frank D. Bessie, R-St. Clair, Senate majority leader, said Republicans expected to pick up at least two Senate seats, pushing their majority to 24-10.

Sen. Frank D. Bessie, R-St. Clair, Senate majority leader, said Republicans expected to pick up at least two Senate seats, pushing their majority to 24-10.

Sen. Frank D. Bessie, R-St. Clair, Senate majority leader, said Republicans expected to pick up at least two Senate seats, pushing their majority to 24-10.

Both suffered dismal defeats. Each backed his own kind of mad, each a program more than the other wanted.

ROUGH ROAD AHEAD
This session of Congress showed anything it showed the frustration Nixon and Kennedy face in dealing with Congress next year, no matter which one wins the November election.

The Senate Democrats, outnumbering the Republicans 68-34, had

rough votes to run through any bill they wished they shrank together, but they didn't.

Nixon's two main weapons, the Senate, will be the power to veto what he doesn't like and the hope of getting enough Democrats to find along with enough Republicans to give him what he wants.

But what he'll get out of such an arrangement will pretty surely be conservative legislation since the conservatives of both parties in Congress are the dominating force and are likely to remain so. If Kennedy wins he will always have hanging over him the threat of a coalition of conservative Democrats and conservative Republicans.

ALL SEATS AT STAKE
In the House all 437 seats are at stake. But there the Democrats outnumber the Republicans 280 to 157, with five vacancies.

So, short of a Republican landslide, which no one is predicting, the Democrats don't expect to lose control in the House, either.

If Nixon wins the presidency he faces the prospect of dealing with a Democratic-run Congress, which can be a frustrating experience, as Kennedy ought to be able to tell him.

Kennedy, because he needs all the votes he can get and can't afford to split the party, won't be able in this election campaign to blame the Southern Democrats.

"Swing" districts where Republicans hope to defeat Democratic incumbents currently include those held by Reps. S. James Clark, D-Southfield; Raymond J. Apley, D-Mount Clemens; William C. Sterling, D-Montclair; P. Charles Rapp, D-Win Lake; Andrew H. Weiss, D-Hancock; Harvey Beale, D-Plymouth; and Joseph Giacchino, D-Iron Mountain.

Sue to Force Use of Sewer

Two Townships Want Farmington Interceptor in Operation

Two communities today filed suit in Circuit Court to force Oakland County and Detroit to start operating the \$6.7-million Farmington sewer interceptor system.

Five communities filed a similar suit last week to force the city and county to begin operating the \$7-million Evergreen interceptor sewer system.

In today's suit, Farmington and West Bloomfield townships ask specifically that a writ of mandamus be issued.

Circuit Judge Stanton G. Donders scheduled a show cause hearing for Sept. 19 for the county and city to show cause why they should not be ordered to open the right community project.

The suit was filed by A. Floyd Blakes, attorney for Farmington, through the action during the past week.

Both townships will be keeping a close eye on the suit filed by the five other communities—Birmingham, Bloomfield Hills, Troy, Southfield and Bloomfield Township.

A show-cause hearing in that suit will be held in Judge Donders' court Sept. 6. Should a writ be issued in the Evergreen suit, it would affect the deadlock over the Farmington Interceptor, since both systems funnel into Detroit through a common outlet.

Meanwhile, the county is negotiating with Detroit to open up two big interceptors. The board of supervisors last month authorized legal action against Detroit should the city fail to honor a December 1959 contract to treat the sewage gathered by the two systems.

Although the interceptors were ready for operation this summer, Detroit has not allowed the county to install the final hookup into the Detroit sewage disposal system.

Rocky, Nixon Confer Today

Ailing Vice President Has Most Comfortable Night in Hospital

WASHINGTON (UPI) — Ailing Vice President Richard M. Nixon arranged a conference today with New York Gov. Nelson A. Rockefeller in Nixon's hospital suite at Walter Reed Army Medical Center.

The appointment at 2:30 p.m. (Pacific time) would be the first face-to-face meeting between the two men since the GOP National Convention nominated Nixon for the presidency.

Nixon's press secretary, Herbert G. Klein, said the president had spent his most comfortable night since entering the hospital, Monday, for treatment of an infected left knee.

Klein said Nixon was continuing to improve on the treatment, although he complained of a sore arm from frequent injections of antibiotics.

TO DISCUSS ROLE
Nixon and Rockefeller were expected to discuss Rockefeller's role in the forthcoming campaign.

The Nixon camp has announced that Rockefeller will stump in several states for the Nixon-Lodge ticket.

Earlier, a former Republican congressman suggested that President Eisenhower pinch-hit for Nixon while the GOP nominee is hospitalized.

But it seemed unlikely that the Chief Executive would adopt the proposal by ex-Rep. Antonio N. Sedlak, R-Conn. Eisenhower has indicated he will play a limited role in the GOP presidential campaign.

Western Sawmills Find Use for Waste

PORTLAND, Ore. (AP) — The high-domed shapers that used to mark nearly every sawmill is continuing to vanish as more and more uses are being found for wood wastes, the Western Pine Assn. says.

Last year in the 12 western states, western pine sawmills had 5½ million tons of leftovers — sawdust, short ends and the like — and 3½ million tons was salvaged as fuel, pulp chips and other by-products.

Averaging 100 Per Month Boat, 3 Motors Stolen

Some people planning to spend Labor Day on area lakes are going about it the wrong way, the sheriff's department reported today.

Three outboard motors and boat have been reported missing in Commerce Township since Wednesday.

"Could be the culprits figure it's too hot to row," Sgt. Donald Kratt, head of the water patrol department, said. He is conducting the investigation.

William Ward of 316 Charlelt St., Royal Oak, found his boat and outboard motor, valued at \$100, missing from his cottage at Richardson's Park on Lower Strata Lake when he arrived there yesterday.

He also reported that his cottage had been broken into, but didn't know anything had been taken.

The theft of a 40-horsepower outboard motor from a boat docked in Commerce Lake was reported yesterday.

The percentage of recoveries is small because of the difficulty in tracing outboard motors, they noted.

Most of the stolen motors are removed from docked boats at night, often in spite of heavy chains or locks.

According to state police, thieves prefer the smaller, easy-to-carry models.

GM Employees Given Increases in Pay

Approximately 35,000 hourly-rated General Motors Corp. employees in Pontiac and 340,000 throughout the nation received pay hikes today under the company-union wage improvement factor.

The increases were six cents an hour or 2½ per cent of straight time, whichever was greater.

The pay of more than half a million auto workers was affected by increases provided for in union contracts with the auto industry's Big Three, American Motors and Studebaker-Packard.

Repressed individuals who are rigid-minded tend to dislike color in their wardrobes, psychologists have found.

Rail Strike Threatens Auto Industry

Shot-Putters Just Wonderful

Grand Old Flag Has New Glory

By HAROLD A. FITZGERALD
Publisher, The Pontiac Press

ROME—We saw a sight yesterday that would have produced thrills and chills anywhere in the world.

In the shot-put, our strong men finished one, two, three against the best around the globe.

Therefore, when it came time for the victory ceremony, 100,000 people witnessed a spectacle that will be equaled very few times by very few nations over the balance of Olympic history.

Three fine athletes from the same nation stepped onto the victory platform together. Three beautiful American flags were raised in the brilliant Italian sunshine as the band played our National Anthem.

The entire audience applauded respectfully while the American contingent yelled like wild Indians.

You would have, too. The breeze stretched the Stars and Stripes full length and the sight brought me one of the great thrills I'll get from these Olympic games.

THE MOST BEAUTIFUL

It's the most beautiful flag in the world, anyway. And I'd say that if I were a Chinaman or Maltese. Old Glory was never more magnificent or spectacular.

Bill Nieder, Parry O'Brien and Dallas Long stood smartly at attention on the three victory steps and each of the trio is a veritable giant. Their collective victory gives us a clear-cut claim to the title of world's strong men.

Old Glory was truly Old Glory. Three American flags have gone up before a few times in the Olympics, but world competition is becoming so fierce and so intense that this spectacle will only happen infrequently for anyone over the years ahead.

Every one of the three Americans broke the Olympic record, making the happenings even more impressive.

It was a magnificent performance and will resound down the corridors of time in athletic annals.

Walkout Halts Pennsy Trains for First Time

Each Hour Tightens Stranglehold on East's Transportation

From Our News Wire
PHILADELPHIA — On the 111th anniversary of its first train, the Pennsylvania Railroad shut down today for the first time in its history.

Not a train moved over the biggest U.S. transportation system, and every hour of the strike-caused stoppage heightened its impact on Eastern industry and the nation's commerce.

A midnight walkout by 20,000 maintenance workers halted all operations on the 13-state, 10,000-mile network stretching from Virginia to Missouri. At least 30 million Americans were affected directly or indirectly at the outset.

Big-city commuters in New York, Philadelphia, Pittsburgh and Washington were first to feel the impact of the cancellation of 72 daily passenger trains. More significant was the effect on the industrial triangle of coal, steel and automobiles if the strike continues.

In Newark, N.J., strikers picketing the Pennsylvania Railroad halted commuter service on the Jersey Central Railroad between the North Jersey coast and New York.

Cavernous Penn Station was a giant tomb in the heart of busy Manhattan today.

Figures gathered yesterday by about 200,000 people a day busy about the concourse.

The federal government was legally powerless to intervene further in a three-year-old work rules dispute between the PRR and the Transport Workers Union, a militant new entry into the railroad field which originally was organized in the New York subway.

ANGRY REPLY

Negotiators continued to work for a settlement until well past the 11:30 a.m. deadline. Then, with the deadline past, angry statements were issued by the company and union officials.

"They seemed to wipe out whatever progress had been made in several weeks of intense bargaining."

"The negotiations are back to scratch," said James R. Symes, board chairman of the railroad. "They are broken, not recessed."

"All we can do is play it by ear," a union spokesman said. (Continued on Page 2, Col. 2)

AINELY WAITING ROOM — A military commuter discovers that the Pontiac station Grand Trunk Western Railroad commuter train service ended last night as the company halted operations in anticipation of this morning's strike.

Operations Shut at Grand Trunk This Morning

Walkout Forces 1,500 County Commuters to Find Other Transit

The giant Pontiac automotive industry today was threatened by the Grand Trunk Western Railroad, strike that brought rail service to a halt last night.

The strike over working conditions began at 11 a.m., but the rail company had shut off all operations earlier in anticipation of the scheduled walkout.

Immediately affected were nearly all of the 1,500 daily commuters, who the company said would be laid off in event of a strike by 1,000 switchmen, trainmen and baggage men of the Brotherhood of Railroad Trainmen.

About 1,500 railroad commuters in Pontiac and other Grand Trunk Western communities had to find other means of transportation to jobs in Detroit this morning.

Officials of Pontiac Motor Division stressed comment on the effect of a prolonged railroad strike on production.

But there was off-the-record concern expressed on Oakland Avenue.

All the GMC Truck & Coach Division plants on South Boulevard, a spokesman said that "the immediate business" are expected because of the strike.

He said the company would turn to more truck deliveries to fill any gap in railroad shipments. More than 50 per cent of the railroad's business in Michigan is with the automotive world.

The Pontiac Motor ship committee will send representatives today or tomorrow for a meeting to discuss effect of the strike, said Bert Henon, financial secretary of UAW Local 653.

Pontiac Motor is scheduled to start its 1961 production Wednesday to get the 1961 production year under way.

"We have been expecting things to start booming in Pontiac during the next 30 days," said Henon. "We hope the strike doesn't upset that."

Pontiac Motor's main import by railroad is body frames, produced in Toledo.

The company has not kept much of a stockpile of frames in the past. Most steel comes into the plant by truck.

Spare parts are shipped out by train to Buick-Pontiac-Oldsmobile assembly plants.

The company switchyard was silent this morning after the Grand Trunk pullout. Trains are used by intercity distribution of many materials.

Negotiations in the railroad strike were scheduled to resume at 1 p.m. today.

Talks broke off at 1 p.m. yesterday, the company said.

At issue are 28 rule changes and working conditions. Francis A. Gidycz, Grand Trunk vice president and general manager, said all operations were halted in Michigan, Indiana and (Continued on Page 2, Col. 1)

Vow Vigilance on Labor Day

Local Officers Request Motorists to Help in Keeping Deaths Down

City police, sheriff's deputies and state police have pledged to do everything within their power to keep motorists and pedestrians alive through the approaching long Labor Day weekend, when heavy traffic is expected to flood the surrounding highways and main arteries through Pontiac.

The departments will be out in full force patrolling the roads.

"Our men will not hesitate to issue tickets for the least offense in an effort to hold accidents to a minimum," Sgt. Lorenz Ahlgrim, commander of the Pontiac State Police Post, stated flatly.

"We'll make every effort to limit the local traffic death toll to zero, making only that you, the drivers and pedestrians, help us keep you from being killed or hurt," said Oakland County Sheriff Frank Irons.

Last year three persons were killed by Labor Day weekend traffic in Oakland County, and two died locally the Fourth of July holiday.

Then traffic across the nation claimed 44 lives. In an effort to whittle down the tragic loss in Michigan, where 16 were killed, state police patrols will be lengthened to 10 hours per mile and all patrols will be canceled from noon Friday until midnight Monday.

The troopers will be aided by some 200 National Guardsmen who will ride with them in patrol and assist at traffic control points.

But Chevy Ready for Competition

Olds Line Bows Today

DETROIT — Oldsmobile's turn comes up today on the new model preview merry-go-round, bringing with it the first of the new General Motors luxury compact cars.

The Olds entry in the smaller car sweepstakes is the F85, powered with the industry's first aluminum V8 engine.

The F85 is larger than the Chevrolet Corvair, but smaller than any of the so-called standard size passenger cars.

Some observers have predicted the F85 and its companions—the Pontiac Tempest and the Buick Special—will fill in a price class with Chevrolet's middle line of standard cars, the Bel Air.

This would mean around \$1,500 delivered in Detroit.

Edward N. Cole, Chevrolet general manager, was asked last night if this might pose serious competition to his lines. He replied:

"If they start reminding our customers with their small car, we'll start theirs with our big car."

New Role Is Studied for TB Sanatorium

Oakland County supervisors will take a long, hard look at a plan for drastic changes in the housing and classroom facilities for the county's neglected and delinquent children.

A report placed before three committees of the Board yesterday called for:

1. Use of the tuberculosis sanatorium for all county youth services.
2. Shifting of a half of the patient load of the sanatorium to the new vacant contagious hospital, the remainder into outcounty institutions.

Supervisors decided to study the matter more deeply. Further reports on the proposal will be discussed early in 1961.

The county's two major child-care facilities presently are the children's home at the County Lake at Holly before the hospital, the children's home, formerly the annex to the TB sanatorium.

Park Ave. Holly, suddenly went under about 50 yards from shore and failed to come up.

His body was retrieved five hours later by skin divers.

When he returned home from work at the Chevrolet Motor plant in Flint yesterday afternoon, Flynn suggested to his wife that they take the kids to the village park for a swim to escape the heat.

He hadn't been swimming for the past 15 years, Flynn's wife Wilma said.

Soon after they arrived at the beach, her husband swam out to one of two rafts on Bush Lake.

Another swimmer, resting on the raft, said Flynn looked tired when he grabbed hold of the raft. Asked if he wanted a hand up, Flynn said (Continued on Page 2, Col. 1)

City, County Offices Closing for Holidays

All city and county offices will be closed Saturday through Monday for the Labor Day weekend.

Banks will be open until noon Saturday.

Pontiac Motor, Fisher and General Motors Truck and Coach plants will also close operations for three days.

Promoting Kennedy Visit

PASSING OUT HANDBILLS—Seventeen-year-old Rochelle Stollman (right) of 2675 N. Lake Avenue Rd., distributes handbills advertising the Pontiac appearance of Democratic presidential nominee John F. Kennedy on Labor Day.

Receiving the announcements are Mrs. Mary Anne Zucco of Berkley and her mother, Mrs. Della Evansovich of St. Petersburg, Fla.

Zucco's children are (from left) Mary, 4, Lynn, 3, and Brad, 1. The "Kennedy Girls" were at the Miracle Mile Shopping Center yesterday.

PONT OPTS FOR ENCASE

BOTH GM and Ford are increasing engine and model options in the belief that the market is becoming more "segmented" and it is necessary to cater more to specific driving wishes of the motorists.

News Flash

WASHINGTON (AP) — The House Agriculture Committee voted today to reject the Senate version of the controversial sugar bill and to stand on the House version. The action created a near deadlock between the House and Senate as Congress sought to adjourn.

"All we need in the low-priced field are eight models," he said. "We should have two and four-door sedans in standard and deluxe series, a two-door station wagon, a four-door station wagon, a convertible and a two-door hardtop."

"If I were running the factories, I would eliminate the four-door hardtop," he said. "We don't need it in the low-priced class."

In the matter of four-door hardtops, Williams apparently would get support from American Motors President George Romney, who dropped the four-door hardtops from AM's model lineups this year.

But the Ford dealer with 45 years of experience in Cleveland contradicted the policies of both Ford and General Motors with his comments about the need for fewer models in the lower price field.

Echo's Timetable

Here's tonight's Echo satellite viewing schedule for the Pontiac area. At 8:30 p.m., the satellite will be in the high north, moving southeast, and at 11:00 p.m. overhead south, moving southeast. Friday at 1:18 a.m. it will be in the low south, moving southeast.

Fair and Cooler Welcome Change Next Two Days

4 a.m. — 76 10 a.m. — 87
6 a.m. — 74 Noon — 89
8 a.m. — 77 1 p.m. — 91

September arrived this morning with a blazing sun and a predicted high temperature of 90. The weatherman says there's a chance of an isolated thunderstorm late today or tonight.

The low will be a warm 70 tonight.

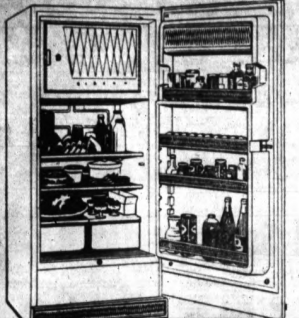

Mostly fair and cooler with a high of 80 is Friday's forecast. Saturday is expected to continue generally fair with seasonal temperatures. Showers are predicted sometime Sunday or Monday.

Fair and cooler is the forecast throughout the state for Friday and Saturday.

Southwesterly winds at 10 miles per hour this morning will diminish tonight and become northeasterly at 8 to 12 miles Friday.

Seventy-four was the lowest recording in downtown Pontiac preceding 8 a.m. The mercury had climbed to 91 at 1 p.m.

Will Consider Three Requests to Slow Mixing

Supreme Court Gets Integration Fights

By The Associated Press

Three requests to halt or slow down public school integration were due to come before the U.S. Supreme Court today.

The Houston school board pinned its last hopes on the high court after Texas Gov. Price Daniel refused to intervene in a federal court order integrating the first grade next Wednesday.

Louisiana Gov. Jimmie Davis seeks to regain control of New Orleans schools, ordered to integrate.

Sulfur Mine Lies 7 Miles From Shore

NEW YORK (UPI)—The Freeport Sulfur Co. is building its Grand Isle mining plant on shifting sands that lie under 50 feet of water seven miles at sea in a hurricane zone.

The magazine "Steelways" reports that the steel "island," built on stilts above the Gulf of Mexico, will soon begin pumping sulfur to shore depots through a unique steel pipeline.

The magazine said it was business arithmetic that prompted construction of the \$30-million, half-mile-long Grand Isle project south of New Orleans.

Of the 246 known onshore subterranean sulfur deposits, only 23 are commercially feasible. Nine have been worked and abandoned, and the other 14 are now either in production or undergoing development.

So the sulfur industry pushed its search for new deposits offshore. Grand Isle turned out to be a promising site.

first grade Nov. 14. A three-judge federal court told Davis to keep hands off after he took over the schools under a state law in an effort to forestall integration. Negro attorneys will seek to have the date speeded up to Sept. 8.

In the third case, Delaware is protesting an order to speed up the state's grade-a-year integration plan. The speedup, ordered by a lower federal court would integrate all grades by next fall.

INTEGRATE
Eight schools in Knoxville, Tenn., opened today with first grades integrated. Supt. Thomas N. Johnston reports no trouble when 28 Negroes enrolled in the formerly all-white schools Wednesday.

Dollarway school in Pine Bluff, Ark., has one 6-year-old Negro girl registered for first-grade classes beginning next Tuesday. One Negro student each is assigned to two North Miami Beach, Fla., schools, but the Dade County School Board turned down results to assign six more Negro children to white schools.

In Houston, the nation's largest segregated school system, three Negro children were refused enrollment in white schools despite a federal court's integration order. The Negroes were turned down under a School Board policy requiring all pupils from one family to attend the same school. Parents of the three applicants have other children in Negro schools.

New York City's Board of Education announced a new policy aimed at breaking up racial seg-

regation patterns in the schools. Pupils entering junior and senior high schools with a heavy concentration of Negro and Puerto Rican students will be given a chance to transfer to other schools with predominantly white enrollments.

Catholic spokesmen in New Orleans said parochial schools will not be integrated until public schools are. The chancellor of the archdiocese of New Orleans said the church schools, with 46,000 pupils, will go along with the public schools in integrating first grades Nov. 14 unless federal court action changes the situation before then. There are about 91,000 students in the city's public schools.

Baptist Bible Fellowship Rejects Catholic Kennedy

OKLAHOMA CITY, Okla. (AP)—The Baptist Bible Fellowship has turned thumbs down on Sen. John Kennedy as a presidential candidate because he is a Roman Catholic.

"The Roman Catholic Church is a totalitarian religio-political institution whose source of authority and government is the head of a foreign state," said the resolution unanimously adopted at the group's annual meeting here Wednesday.

AA to Advertise

HARTFORD, Conn. (AP)—Connecticut state troopers from now on will hand motorists arrested for drunken driving a packet of Alcoholics Anonymous literature.

Snakes Alive! Two Stray Ones Liven Up Mail

NEW YORK (AP)—The Greenwich Village post office had some excitement Wednesday.

Digging into a bin of letters, a mail sorter came up with two 18-inch green garden snakes.

Investigators determined that the snakes had escaped through air holes in a shipping box. The snakes came up with the Tote-Em-In-Zoo at Wilmington, N.C., and were destined for a Greenwich Village pet shop.

Charcoal is made by heating wood in an enclosed space where there is a limited amount of air. The wood glows but does not burst into flame.

Cuba Will Grab All Our Property

Raul Castro Predicts Even Guantanamo to Fall Eventually

HAVANA, Cuba (AP) — Raul Castro indicated early today that the seizure of the remaining American property in Cuba—estimated at a quarter of a billion dollars—is imminent.

But the fiery minister of armed forces told a midnight rally of sugar workers his brother's regime does not plan to confiscate the big U.S. naval base at Guantanamo "for now."

He described the base as obsolete and predicted "it will come to be Cuban years sooner or later."

Charging that "war criminals" meaning anti-Castro forces—are training at Guantanamo, he declared: "We want again any problem that rises there is the consequence of auto-provocation."

MAY COME FRIDAY
The younger Castro left the impression that another grab of American properties might be announced at the giant rally Prime Minister Fidel Castro has called for Friday "to answer the declaration of San Jose."

Tries to Reconcile Cuba and the U.S.

MEXICO CITY (AP) — President Adolfo Lopez Mateos pledged his government's good offices today to attempt a reconciliation between the United States and Cuba.

In a four-hour annual report prepared for delivery to Congress, Lopez Mateos said the mission of each of the American states "consists of keeping united in peace and harmony this great family in which Cuba rightfully holds a place of distinction."

"The preliminary approaches did not have the immediate result we wished," he said. "Nevertheless, Mexico will not cease in its effort to serve unreservedly the need of friendship and harmony among the American republics."

Quotes French Authority for Slam at Congress

WASHINGTON (UPI)—Rep. Sidney R. Yates, D-Ill., said today the results of the "botched" session of Congress could be viewed in much the same way Voltaire aspraised a poem titled "to prosperity."

"This will never reach its destination," Yates quoted Voltaire.

Wants Chemical Names

SAN FRANCISCO (AP) —The American Hospital Assn. has recommended that physicians in its 5,800 member hospitals stop using brand names on prescriptions. Prescribing drugs by chemical identification will enable hospital pharmacies to buy the cheapest brand at a saving to patients, the AHA said.

Old-Maid Car Sales Routine Riddled

Points Up Need of Frequent Oil Changes

By BEN FLEISCHER
AP Automotive Writer

DETROIT — If somebody offers you a car owned by an old-maid school teacher who never drives more or further than around the block, turn it down.

Assuming everything said about the previous owner and her habits was true, you'd probably wind up with a real climber. The car might look all right, but if you look it out and drive it at normal highway speeds so that the engine warmed up you could be in deep trouble.

The American Petroleum Institute (API) says slides forward in the crankcase during low speed, short trip driving would take on the engine seriously causing overheating, misfiring and finally piston failure. Continued use would ruin the engine completely.

"The old-maid routine is a good illustration of what we are trying to tell car owners," said Rudolph Cubicciotti of New York, who heads

the motor oil study panel of the API's lubrication committee.

"A lot of people seem to be confused if we suggest they change oil more frequently under severe driving conditions. They don't realize that stop-and-go short trips represent some of the most severe driving possible."

The API is trying to persuade motorists to change oil every 20 days during the winter, every 30 days during the summer, but never less frequently than 2,000 miles of driving.

"This is a lot easier to remember, and a lot more accurate, than just a flat mileage figure," Cubicciotti said in a recent interview. The API also would like to get the automobile manufacturers to specify such engine care in their new car owner's manuals. As yet there is no uniformity.

CHANGE ADVISED

In its early 1960 model cars, one company advised owners to change oil every 3,000 miles. Later, because of excessive engine wear,

this was dropped to 2,000 miles. Several other lines suggested 4,000 miles and at least one 1961 car is said to boost the oil change recommendation to 6,000 miles.

"But I think more of them are beginning to see it our way," Cubicciotti said. "We're not far apart at all with the engineering departments, but sometimes the engineers don't have the final say-so in the owner recommendation."

From a motor oil standpoint, Cubicciotti said, ideal driving conditions might represent 1,000 miles daily of Turnpike-style driving. "If you were going to drive from Detroit to California and back in one week (about 5,000 miles) there would be no real reason to change oil. But the average motorist doesn't drive that way."

Modern motor oil, if kept pure, will last a long time. But contaminants get into the engine and into the oil. Moisture condenses, especially when the car is driven only short distances, and water

forms—a perfect invitation to rust.

The API says that with stop-and-go driving, prolonged idling periods or dusty road travel you probably should change oil even more frequently than the 30-40 day guide.

Cubicciotti agrees that one problem is getting motorists to follow a set pattern in the time it takes in many places to get oil drained and refilled.

He looks forward to the future possibilities of specialized shops handling nothing but oil changes and chassis lubrication work. "It could be done in 10 or 15 minutes, just like the automatic car wash," he said, "and a lot more cars would be better maintained."

Wheel Misses Baby

MILWAUKEE, Wis. (AP)—A huge wheel flung from a dump truck smashed into a carriage in which a baby was sleeping, but the infant, Kathleen Caldwell, 4 months, escaped without injury.

Congress Skirts Stronger Rights

Doesn't Want Filibuster by Southern Senators Prolonging Session

WASHINGTON (UPI)—Congress, which approved a Civil Rights bill early this year after a two-month debate, had little appetite for another fight on the issue at the post-convention session.

President Eisenhower and several Republican senators tried repeatedly to push another Civil Rights bill through the August session. The last attempt was made Wednesday.

Southern senators, who poured out millions of words of opposition during the February and March Civil Rights demonstrations, remained mostly silent on the subject during the extra session.

But in this silence was an implied warning that any new Civil Rights action would bring a southern filibuster that would block all other legislation and extend the session even further into the fall campaign months.

Half Price Plate Tolls
to Be for Sale Today

LANSING UP — Michigan's 1960 license plates and toll went on sale at half price today, Secy. of State James M. Hare reported.

The special price applies to all vehicles except heavy trucks paying more than \$30 in weight taxes. The plates will be valid until Feb. 28, 1961.

The 1961 tolls will go on sale Nov. 1.

Major Railroads Asking Freight Rate Increases

CHICAGO (UPI) — The nation's major railroads Wednesday asked for a general, across-the-board increase on freight rates to meet increased railroad costs.

The boards, if approved, would be the first since Feb. 1, 1958.

Chief traffic officers of the na-

tion's class one railroads, who have been studying the problem of revenue for several weeks, said the increases sought would be the smallest ever asked.

They also said that the program differs from freight rate increases of the past in that it does not call for percentage increases.

The railroads' announcement

said that "relatively little opposition is expected" to the proposal.

The announcement said representatives of the industries (three territorial rate associations — east, west and south — were petitioning the ICC in Washington, D.C., today for permission to file a tariff).

If permission is granted, the tariff will be filed within the next few days, the announcement added.

Airport to Open in Peru

LIMA, Peru (UPI) — A new international airport capable of handling the biggest jet aircraft will go into service this month, the government announced.

Bypassed U.S. 12
Motels Hope to
Get the Business

LANSING (UPI) — Motel owners on old highway U.S. 12 in Van Buren and Berrien counties might get a boost in business by Labor Day if the highway department can complete plans to put a new section of freeway in place before the road was opened, Aug. 15.

The first admiral to the U. S. Navy was David Glasgow Farragut, who achieved the rank in 1868.

that the road opened because nobody knew they were there.

"The Highway Department makes every effort to have food and lodging signs in place before a new section of freeway is open to traffic," a spokesman said.

He said an "apparent oversight" prevented the signs from going up before the road was opened.

EDUCATOR DIES — Dr. Martin D. Whitaker, 56, president of Lehigh University and a leading nuclear physicist, died Wednesday in a hospital at Bethlehem, Pa. He had worked on the development of plutonium for use in the atomic bomb dropped on Hiroshima.

LANSING (UPI) — Warmer weather and adequate moisture in midwest areas of the state during the past week improved the outlook for corn and other fall crops, the Agricultural Marketing Service reports.

Corn and some of the fall crops are still a week or more behind normal maturity, the Service said. Out-planting was reported finished in Southern Counties, past the two-thirds mark in the Northern Lower Peninsula and about one-fourth harvested in the Upper Peninsula. The Service said out-yields in all areas were above the level that had been anticipated.

Prospects for the fall potato crop continued good, the Service said, with slight wet controlled in most fields.

The early potato harvest was reported practically completed in Bay County and the tempo was picking up in the other areas. Dry bean harvest was also under way with good yields reported.

Moisture supplies during the week were adequate in most sections. The Service said a few dry spots were starting to show up in the Eastern and Southeastern Counties and along Lake Superior.

Field chaffs during the week showed plowing and preparing ground for wheat continued and farmers in some areas were haying straw and making second or third cuttings of hay.

The tempo picked up for fruit and vegetable harvest, especially in Southwest Michigan, where Halloway Peaches were at their peak and Elbertas were expected to reach volume movement this week.

Fresh market vegetables available in good volume included snap beans, carrots, celery, sweet corn, cucumbers, lettuce, melons, peppers and tomatoes.

House OKs \$100,000 for Colonel's Invention

WASHINGTON (UPI) — The House has approved and sent to the White House a bill to pay Air Force Col. John A. Ryan Jr. \$100,000 for developing a low-altitude bombing system and apparatus outside of his working hours.

The Air Force said Ryan had been unable to protect domestic or foreign commercial rights in his invention because of U.S. security laws.

Canada had 2,383 fur-breeding farms in 1959, a decline of 1,100 since 1950.

STEERS CLEAR OF POLICE — A Hereford steer that bolted for freedom en route to the slaughterhouse Wednesday pauses near a parking meter in front of the Milwaukee County Courthouse in Milwaukee downtown area during a lull in a merry chase with police officers and cattle men. Tranquilizer shots had little effect on the 1,200-pound animal and a police officer finally had to kill it with a rifle.

Williams Opposes Court Restriction

LANSING (AP)—Gov. Williams has urged the American Bar Association to go on record as favoring repeal of the Connally Amendment. The amendment, in effect, gives the United States the right to stay out of the International Court of Justice.

Williams wired John D. Randall, Bar Association president. "At a time when events in the Congo and elsewhere have put the prestige of the United Nations on trial, the American Bar Association can do a real service to the world community by advocating the repeal of the Connally Amendment, and announcing the world our willingness to accept the obligatory jurisdiction of the court."

Normal babies learn to walk between the ages of 9 and 15 months.

Collection of Personal News Items

Michigan College alumna and her husband were dinner guests of the Robert A. Givens of Covington Road, Bloomfield Township, Wednesday evening. Later, they attended the performance of "A Comedy of Errors" by the Onondaga Players in the Village Playhouse, Bloomfield.

The guest list included the Lavon C. Tabor, the Francis C. McDonald, the junior George W. McDonald, Richard W. Bowles, G. Hart Webber, Harry O. Hoyt, the C. Grandville Ryans and Mr. and Mrs. John Albert.

Also present were the John Saffron, Mr. and Mrs. Vincent Hughes, the Stuart G. Wades, Lawrence S. Martens of Wing Lake, and Joseph Mennas of Detroit. Coming from Dearborn were the Richard Reingers.

Mrs. John Mitchell of Draper Avenue and her sister-in-law Florence Mitchell of North East Boulevard, have arrived in London, England, by jet flight.

After weekends in Scotland and Paris, they will be joined by their nephew William Mitchell of Pontiac, who is stationed near Paris with the U.S. Army Signal Corps.

Mr. and Mrs. John Combs of Midland Drive, Drayton Plains, honored the travelers Sunday at a bon voyage party.

The birth of a son, Thomas Michael, Aug. 18, in St. Joseph Mercy Hospital, is announced by Mr. and Mrs. Michael Wells (Norma Bader) of Mark Avenue.

Grandparents are the Frank Baders of Whittemore Street and Mr. and Mrs. Harold Wells of Prevost Avenue, Waterford Township.

Returned from a motor trip to St. Louis and the Lake of the Ozarks in Oklahoma are Mr. and Mrs. Paul E. Heber of Marion Street, and his mother Mrs. Earl Heber of Mechanics Street.

The Gilbert Palmgrens and Mrs. Sture Rohn have returned to their homes in Jamestown, N.Y., after visiting Mr. and Mrs. Elot Bergstrom of Silver Lake Road. They attended the recent wedding of Judith Ann Lester and S. George Bergstrom.

The Harry Staras of Oliver Street and Mr. and Mrs. Charles Hays of Frankford, Ind., have returned after visiting Niagara Falls, Toronto, Sault Ste. Marie and Macinac Island. While in St. Ignace, they were guests at the Park Wood Motel, owned and operated by the late Mrs. Vern Faust, formerly of Pontiac.

The Kenneth L. Richmonds (Judy Leavenworth) of West Grand Avenue announce the birth of a son, Kenneth Lloyd, Aug. 28, in Pontiac General Hospital.

Grandparents are the Thomas B. Leavenworths of East Highland Avenue and the Glenn W. Richmonds of Voorhees Road, Bloomfield Township.

Bloomfield Township treasurer and Mrs. Homer W. Case of Heiton Road, Bloomfield Township, with their sons Ronald and David, visited Washington, D.C. last week.

Mrs. Nellie Moore has returned to her home on Mt. Clemens Street after a two-month vacation in California. She visited her daughters, Mrs. Wilfred Mead of Pasadena and Mrs. Rosalind Hubbard of Hollywood.

The Daniel J. Kevelings (Shirley Carroll) of Kuhn Street, Pontiac Township, announce the birth of a son, Kelly Joseph, Aug. 24 in St. Joseph Mercy Hospital.

Grandparents are the John S. Kevelings of Montclair Street and the Kenneth Carrolls of Foster Street. The Clarence Jenkins of Peach Street and Mrs. Earl Carroll of Lewis Street are maternal great-grandparents.

A son born Aug. 20 to the Fred A. Voltraths of Mark Road, Waterford Township, in St. Joseph Mercy Hospital, has been named Jeffrey Fred. His mother is the former Mary Landon, daughter of the Clarence D. Landons of Voorhees Road. The Fred W. Voltraths.

"All wrapped up in a long gold choker is this London model. Inspired by African girls, her necklace may result in a pain in the neck."

of East Beverly Avenue are paternal grandparents.

Great-grandparents are the Reuben Barclays of Lake Orion, John Jackson of Oremus Street and Mrs. William A. Ebera of White Bear Lake, Minn.

Mrs. Kenneth Thayer of Mann Road is visiting her son-in-law and daughter, the Bruce D. Hall of Bellowood, Oak, and getting acquainted with a new granddaughter, Brenda Ann, born June 23.

Paternal grandparents of the baby are Mrs. Clayton Daugherty of Liberty Street and Lindall Hall of Phoenix, Ariz. Mrs. Lucy Hall of Oxford is paternal great-grandmother.

Returning in September by way of Kansas City, Mrs. Thayer will greet her grandson Paul Anthony, born Aug. 1 to Mr. and Mrs. Ronald L. Godecke (Nancy Thayer).

The Walter Godeckes of Franklin Street, Rochester, are the baby's paternal grandparents of the two new arrivals.

Announcing the birth of a

son, Craig Edward, Aug. 24, Mr. and Mrs. Edward Lankford (Nancy Lyle) of Lotus Lake.

Grandparents are Mr. and Mrs. Edwin B. Jove of Canby street, Waterford Township, and the Cecil Lankfords of North Seafood Street.

House guests of the DeForest C. Immas of Clarkson for their daughter Judy Lea's

marriage to Roger C. Pearson Saturday, are returning to their homes today.

They are Mrs. Eugene Root of Evansport, Ohio, and Alec Green of Toronto, great aunt and uncle of the bride. From California are the Peter C. Immas with their children, Gary, Peggy and Lerry, of Redondo Beach, and the bride's grandmother Mrs. H. W. Parsons of Venice.

membership in the National Association of Parliamentarians for the coming year. Mrs. Henry M. Simpson was admitted to membership.

Mrs. McNeely, retiring president, assisted Mrs. Hill at the tea following the meeting.

Twelve newly elected officers and committee chairmen completed plans for the club which opens in early October with a luncheon. Mrs. John McNeely, Mrs. James Hampton and Mrs. Robert Dorman were appointed to the luncheon committee to assist Mrs. J. J. Gouin, program chairman.

The group voted to renew

Members of the Women's Silver Lake Golf League held their Doe Day Tuesday morning at Sylvan Glen near Rochester with 37 present.

Winners for the day were Mrs. John McCallum and Mrs. Paul Castberry, low net and low putts; and Mrs. Edward Dalton and Mrs. Lorea Aris, second low net.

Following a luncheon at 1 p.m. trophies awarded for season golf went to Mrs. Elbert Looney, first place; Mrs. Dan Siple, second; Mrs. John Ehlers, most improved; Mrs. Looney, low average putts; and Mrs. Edwin Lally, low net traveling.

Mrs. Looney, Mrs. Floyd Form and Mrs. Earl Webber placed first, second and third respectively for the ringer sheet.

Shower Honors Janet English

Bride-to-be Janet English was honored Tuesday evening at a miscellaneous shower given by Mrs. Frank Polasek of Auburn Heights.

The 28 guests included Mrs. Charles English and Mrs. Justina Thomas, mothers of the prospective bride.

Mrs. English will wed Michael Thomas Sept. 3 at St. Michael Church.

DEAR ABBY: You have set women's rights to a new level. Your answer to "EMILY" advising her to "obey" her husband and not wear shorts in public was about as narrow-minded as any answer I've ever read from you.

ABBY: Since when do women let their husbands tell them how to dress? Emily said she was short before she was married and her husband didn't object, but as soon as they were married he put his foot down. Why the change of heart?

AGNES: A man feels "upset" by a wife wearing a skirt that he didn't feed toward a girlfriend. Giving up wearing shorts in public is a small sacrifice for a wife who really cares for her husband.

DEAR ABBY: Your answer to Emily in regard to her wearing shorts in public was a good one. A man who would allow his wife to display herself in public isn't much of a husband. I think most men feel the same but haven't the nerve to lay down the law.

THANKS, Abby, for letting people know that one husband doesn't want his wife wearing shorts in public, and also for agreeing with him.

ANOTHER HUSBAND

DEAR ABBY: My daughter is going to have her 15th birthday party and she has invited six girls. Do you know of any games they could play after dinner?

MRS. D.D.S.

DEAR MRS. S.: Invite six boys.

DEAR ABBY: I recently moved to a small town where everybody knows everybody

Study Club Gathers

Mrs. Lee Hill, president of the Parliamentary Study Club opened her Carter Street home Wednesday afternoon for the summer board meeting.

Twelve newly elected officers and committee chairmen completed plans for the club which opens in early October with a luncheon. Mrs. John McNeely, Mrs. James Hampton and Mrs. Robert Dorman were appointed to the luncheon committee to assist Mrs. J. J. Gouin, program chairman.

No Need to Thank Family

By EMILY POST
Dear Mrs. Post: My husband died recently. His two sisters and a brother sent beautiful flower pieces. I have written notes of thanks to all those who sent flowers, mass cards and showed other personal kindnesses. But I did not as I did not think it right, or write to his sisters and brothers necessary, to thank members of his own family. However, I have just learned that his sisters are very hurt because I did not write to them. Will you please tell me if I was wrong?

Answer: It was not necessary to write notes of thanks to them. However, if your husband's sisters and brothers could not be present at the funeral and you have not seen them since, you really should have written them notes telling them that their flowers arrived and they were beautiful.

Dear Mrs. Post: I was married 10 years when my husband died very suddenly. I loved him dearly and his death was a great shock to me. Now to add to my distress, a friend of mine tells me that I have to give up his name and also discontinue wearing my wedding ring—or at least wear it on my right hand—since I am no longer married. Will you please tell me if she is right?

Answer: I have never heard of such a ridiculous opinion. You certainly have the right to his name—meaning you call yourself Mrs. John, not Mrs. Mary, and the wedding ring is certainly yours for life—or until you remarry. The only reason for taking off your wedding ring and putting it on your right hand is to indicate that you are interested in finding another husband.

Dear Mrs. Post: When announcing the passing of a member of a family in the newspaper, is it good taste to state, "The family requests no flowers be sent, but so desired contributions may be made to such and such organization." Or is it best to say, "omit flowers" and let it go at that?

Answer: It is quite correct and not at all unusual to state, "In lieu of flowers, a contribution in her memory may be made to the Heart Fund."

Dear Mrs. Post: When taking the passing of a member of a family in the newspaper, is it necessary, or expected, that the operator be tipped after each treatment? I have been asked to tip the operator after each treatment. Is this usual? I have been asked to tip the operator after each treatment. Is this usual?

Answer: Yes, the operator should be tipped each time. Fifteen per cent would be a fair tip.

Nature Trips Being Planned at Cranbrook

Twenty-five years ago this month, when Walter P. Nickell joined the staff at Cranbrook Institute of Science, he organized adult nature trips for private groups, eight weekends in the fall and in the spring.

An orientation meeting at the Institute will open the fall schedule at 7:30 p.m. Sept. 7. The group studies nature in as many forms as possible—rocks, minerals, fossils, birds, caverns, insects, plants—in the Detroit and Ontario areas, plus overnight trips to such special spots as the Ohio cavern near Columbus.

There is a small fee for the eight trips, and each person or group furnishes his own transportation. The trips are open to any interested adult and to family groups, whether or not they are Institute members.

The Stanley E. Kellers of Alberta Blvd. announce the engagement of their daughter Sharon Lee to S.A. Thomas F. Hyatt son of the Clare D. Hyatts of Lake Angelus Drive. Her fiancé is stationed at Norfolk, Va.

SHARON LEE KELLER

MRS. HOUSHANG WEKILI

Glenna and Houshang, incidentally, were present at the wedding reception for the Shah and Farah in Tehran.

Traditional parent-arranged marriages still exist there, she said, although the two are not bound to wed. Divorces may be obtained only by men who are permitted to have four wives. Polygamy isn't very popular, however.

Touching again on family relationships, she said that intermarriage is a common prac-

During our interview at the Briggs Street, Drayton Plains, home of her sister Mrs. Carl Coster, Glenna wore a brilliant orange floral print hand-sewn dress. In Tehran, she told us, there are no dress shops—just one department store and a market place where women bargain for exquisite materials from which they make their own clothes.

ARE STYLE CONSCIOUS

"Most women are very 'fashion conscious,' she said. 'And everything is bought in Paris before it's being worn in Iran.'"

Although there are few recreational or entertainment centers, the Iranians are very "social," she said. Hospitality is a way of life with a great deal of entertaining within the home. Many houses have two living rooms, one in a central state of readiness for guests—even to convertively placed bowls of fruit and cookies.

In less imposing dwellings, however, guests would not receive so sumptuous a welcome. Kitchens are crude with no electricity or running water. Food must be purchased on a day-to-day basis because there are no refrigerators. Cooking is done over a make-shift apparatus above hot coals.

Even in the Wekili household some products are scarce or unavailable. "I once priced a jar of mayonnaise (an import) at \$3, so now I make my own!" She also makes peaches for jellies.

Currently she's been purchasing dinnerware, chin ornaments and other items to take back. "Unless you're attached to the embassy or have access to the commissary," she said, "there are many things you just do without."

"One plentiful commodity, however, is fruit. 'They eat pounds and pounds of it,' she exclaimed. "On a shopping trip I may buy five pounds of cherries and two or three pounds of apples or peaches."

Glenna's other relatives here are Mrs. John Guesher of Grooms Street and Mrs. John Jadin of Clarkson Street; her father Glen Miller of West Bloomfield Township and mother Mrs. Mabel Miller of Westland.

By her visit here drawing closer to Glenna, said she is anxious to return to her husband and new homeland.

Glenna and Houshang, incidentally, were present at the wedding reception for the Shah and Farah in Tehran.

Traditional parent-arranged marriages still exist there, she said, although the two are not bound to wed. Divorces may be obtained only by men who are permitted to have four wives. Polygamy isn't very popular, however.

PTA Plans for Year at Webster

Preparing children for a changing world will be the theme of the Webster School Parent Teachers Association for the coming year. Mrs. George Walters, president, opened her Murphy Street home Monday evening to 22 members of the board of executives planning the current year.

Ralph Merikowitz was chosen to act as chairman of the school fair slated for Oct. 13. Sept. 15 was set as the first meeting of the PTA, with an open house following the regular business meeting.

Mrs. A. D. Galsack reported on the tentative program for the year, and Mrs. Russell Curtis discussed the annual book fair. Mrs. Mike Andonian, finance chairman, read the proposed budget and

At Evening Ceremony

Speak Wedding Vows

Candlelight nuptials of Sharon Lee Brantley and Bruce E. Marsee of Washington Street were solemnized Thursday evening in Alldergate Methodist Church.

The Rev. Frank Brownson performed the ceremony before an

MRS. BRUCE E. MARSEE
 altar banked with white and yellow gladioli.

Parents of the couple are the Ernest E. Brantleys of East Brooklyn Avenue and the James L. Marsees of Coldiron, Ky.

The bride's princess-style dress of white Chantilly lace over taffeta.

The James B. Holbels on Florida Honeymoon

Honeymooning at Daytona Beach, Fla., are James B. Holbel and his bride, the former Diana Barbara Erickson, who were married at noon Saturday in Our Lady of the Lakes Church in Waterford. Altar flowers were white and watermelon pink gladioli.

The Rt. Rev. Mgr. Sylvester J. Holbel of Buffalo, director of parochial education for Western New York State, officiated at his nephew's wedding.

Daughter of the Leslie C. Ericksons of Monticello Drive, Drayton Plains, the bride wore opera-length white gloves with her gown of white Chantilly lace over taffeta. The overskirt of silk organza cascaded into a chapel train.

Her veil of silk illusion was attached to a crown of pearls and jeweled tulle. She held a white satin-covered missal topped with white cymbidium orchids.

Phyllis Carter of Grand Rapids was maid of honor for her former college roommate and Yvonne Tuley of Iron River, was her cousin's bridesmaid. Both wore watermelon pink organza tunics over matching sheath dresses of matching Capri cotton. Dior head bows and short white gloves completed their ensembles.

Paul R. Holbel of Detroit stood as his brother's best man. They are the sons of the Benjamin A. Holbels of Spokane Drive. Ushers were Ronald Murray of Flint and Carl Olson.

Receiving guests at the buffet luncheon in the church parlors, Mrs. Erickson appeared in bouffant rose beige lace over taffeta, matching hat and shoes. Gardenias were pinned to her shoulder. A corsage of pink roses complemented Mrs. Holbel's sheath dress of cerulean blue lace over taffeta.

Graduates of Ferris Institute, the newlyweds are affiliated with Omega Tau Omega and Tau Kappa Delta. They will live in Flint.

To Clothe Wee Folk
 The small child is encouraged to dress himself with easy-to-manage clothing. Home economists at Michigan State University say front fasteners are best for little fingers. Large buttons or easy-to-work zippers are better than snaps or hooks and eyes. Grippers are simple to handle but need care in washing to keep them from bending.

Needs Daily Care

(UPI) — Did you know that the skin normally gives off at least one or two pints of perspiration over the total body surface every day? This is just one important reason why lingerie should be washed daily in plenty of soap or detergent suds.

SMART SUB TEEN CHOLARS

Young and lively fashions for that very special age group for favorable classroom impressions.

SUB TEEN DRESSES ... 8.98

THOMAS W. VAUGHN

Recipient of the Vanderbilt Foundation Scholarship for law school at the university this fall is Thomas Wade Vaughn, son of the James R. Vaughns of Ascut Road. Mr. Vaughn won the Illinois State oratorical championship and the National Intercollegiate oratorical championship in 1959. An honor student at Eureka College in Eureka, Ill., for the past three years, he is married to the former Beverly Jean Hewitt of Auburn Heights.

Honored During Prenuptial Fete

Honoree Lois E. Hahn of Waterford was feted Monday evening with a prenuptial shower at the West Ann Arbor Avenue home of Mrs. Frank King. Cohostess for the event was Mrs. Gavin Morrison.

Miss Hahn will exchange wedding vows with John A. Sheaves Sept. 10 at St. Andrews Church in Drayton Plains.

Guests included Mrs. David Kramer, Mrs. Mary Allen Gravelly, Mrs. William R. Hahn, Mrs. Robert Hahn, Mrs. Harold Weston, Mrs. Charles Lennan, Anna Lennan and Mrs. Douglas Ellis, Mrs. Benjamin Armstrong, Mrs. John Kennedy, Mrs. Leon Kampen, Mrs. Edwin Waterbury, Mrs. Howard Hall, Mrs. John Remlin Robinson, Mrs. Nicholas Sessock and Mrs. Dean Corbin were also present.

Line in Aluminum Tip on Starching
 When painting with a roller line the roller tray with aluminum foil. The foil can be thrown away and there is no messy tray to clean.
 (AP) — Put liquid starch in to your clothes sprayer and sprinkle on garments for quick and easy light starching.

More Pupils in Waterford

Approximately 13,000 Waterford Township children — 825 more than last year — are expected to be enrolled in the school district this year, according to Supt. William A. Shuck.

Three new elementary schools will not open as scheduled. They are not quite ready for operation, Shuck said.

The schools, David Grayson on Walden Boulevard, the Carl Sandburg on Merry Road and the DeLoe Lutes on Pontiac Lake Road will open Sept. 14, one week later than expected.

Registration for all other elementary schools will begin at 8:30 a.m. next Wednesday for children with last names beginning with "A" through "K."

Those with last names from "L" through "Z" will register Thursday. The following day there will be regular class sessions for all grades.

Junior and senior high school pupils have completed their registration papers, and will begin full-day sessions Wednesday, Sept. 7.

They will attend school daily the following week, with the exception of Friday, Sept. 16, when there will be no school for any of the township students.

Hours for junior high pupils will be 8 a.m. to 3:15 p.m. 10th and 11th graders will be scheduled from 7:40 a.m. to 2:30 p.m. Seniors will attend classes from 7:40 a.m. to noon, or from noon until 4:30 p.m.

There will be no bus service Sept. 6 through 9, but they will be scheduled the following week.

House Wrecker Uses Army Tank for Speedier Job

BUFFALO, N.Y. (UPI) John Kostoff employs a novel method of carrying out his house-wrecking business.

In addition to using a boom-and-bucket in demolition jobs, Kostoff uses an M24 Army surplus tank for wrecking purposes. It works fine.

Kostoff purchased the surplus tank for \$5,000. Driving one is nothing new to him. The 35-year-old house-wrecker was once a tank pilot in Gen. George S. Patton's Third Army in Europe.

Deaths Elsewhere

By THE ASSOCIATED PRESS KUALA LUMPUR, Malaya (AP) — Sir Hisamuddin Alam Shah, 62, the sultan of Selangor, chief of state of the Federation of Malaya, died Thursday after a month's illness. He was named interim paramount ruler of Malaya April 5 when the federation's first chief of state, Tunku Abdul Rahman, died. Sir Hisamuddin had ruled Selangor state for 22 years.

LAGUNA BEACH, Calif. (AP) — Phil Kerr, 53, composer of several hundred gospel songs, died Tuesday of a heart attack. He was manager of KPSZ, Angeles Temple radio station in Los Angeles, for several years.

CLEARWATER, Fla. (AP) — Edgar Everett Martin, 62, creator of the comic strip "Boots and Her Buddies," died Tuesday after a short illness. He was an artist with the Scripps-Howard Newspapers in Cleveland in 1924 when he started the comic strip.

Display Famed Engine

SYRACUSE, N.Y. (UPI) — The New York Central Railroad's famed engine No. 999, the first man-made vehicle to travel faster than 100 miles an hour, was included in a display of vintage railroad equipment at the 1959 New York State Fair.

Colorado's first sugar factory was at Grand Junction, established in 1899. Sugar beets are a chief Colorado crop.

Motel Owner OKs Guest With Copter

OGDEN, Utah (AP) — One of motel operator Lawrence Paulson's guests left Wednesday by helicopter—for Lafayette, La.

Paulson was moving grass Tuesday when he heard a whining noise overhead, looked up and saw copter pilot Gene Wallace of Lafayette waving for permission to land.

"I motioned him in because I don't care which direction my business comes from, just so long as it comes, but I must admit I was somewhat startled," said Paulson. Wallace landed and spent the night.

He is an employee of Petroleum Helicopter Co. of Lafayette and had been in this area on a high-altitude job for the U.S. Coast and Geodetic Survey.

Police Ball Tickets Gone

GLASTONBURY, Conn. (UPI) — Police took special interest in a theft case. Someone swiped the tickets to the policemen's ball.

Death Notices

WILLIAM B. ALEXANDER William B. Alexander, 38, of 26 Bagley St., unexpectedly died yesterday at his home of a cerebral hemorrhage.

An employee of Pontiac Motor Division, he is survived by his wife, Edna, and his mother.

Service will be held at 1 p.m. Saturday at the Liberty Baptist Park Cemetery. His body is at the Frank Carruthers Funeral Home.

KEITH A. FLYNN

HOLLY — Keith A. Flynn, 32, of 107 Park Ave., drowned yesterday in Bush Lake. His body is at the Dryer Funeral Home.

Surviving are his wife Wilma; two sons, Keith and Bill; and two daughters, Nancy and Sheila, all at home. His mother, Mrs. Cara Flynn, a brother, and two sisters, all of Flint, also survive.

Police Offer Advice on Capturing Skunk

NEWARK, N.Y. (UPI) — When police here received a report that a pet skunk had been lost, the following entry was made on the log:

"Fellows, don't try to pick it up because you may get hold of the wrong skunk."

Sea Elephant Too Lonely —Heart Breaks

MEMPHIS, Tenn. (AP) — A lonely sea elephant died of what some might call a broken heart just one month after his mate starved herself to an early grave.

The two were brought to the Memphis Zoo in April soon after their capture in Mexican waters. The female would not eat and wasted away.

The male seemed to be in perfect condition. The autopsy performed to determine the reason for his unexpected death disclosed a rupture of a large vein in the heart.

County Tax Assessor Sends 3,000 Yule Cards

COLUMBUS, Miss. (UPI) — Sophie Kilpatrick began signing her Christmas cards early — more than 3,000 of them.

In the 18 years Miss Kilpatrick has held office as county tax assessor, she has sent a personally signed yuletide greeting each year to every registered voter in the county.

NOTICE OF PUBLIC HEARING

The Pontiac City Commission has scheduled public hearings for Tuesday, September 6, 1960 at 8 p.m., EST, in the Commission Chamber, City Hall on intention to Construct sidewalk and related work on

ASTOR STREET from Michigan Avenue to south line of Lot 110 Homestead Park No. 1 on the east side and from Michigan Avenue to Northway Drive on the west side.

WEST KENNETT STREET from a point 462.7 feet west of the west line of Assessor's Plot No. 144 to a point 290 feet further west.

For further information see legal notices. Interested property owners are urged to appear. By order of the City Commission. Dated Aug. 31, 1960

K.C. 9 Enters State Tournament

The Knights of Columbus, Pontiac's city baseball champions, will enter the Michigan Amateur baseball tournament at Battle Creek over the Labor Day week end.

The Knights, City League champions for the last two years, open tournament competition Friday afternoon at 4 o'clock on Bailey Park's No. 3 diamond against the Northwestern League champion.

If the Knights win their opening game, they'll play again Saturday at 10 a.m. on the No. 1 Bailey diamond. If they lose the opener, they'll play at the same hour on Bailey's No. 5 diamond.

Sixteen teams from cities throughout the state are entered in the double-elimination tourney, including Wyandotte which is shooting for its 3rd consecutive Michigan Amateur crown.

The Knights, managed by Tony Metel and coached by Stan Stivinski, hope to make a better showing this time than they did a year ago. The K. of C. was eliminated in two games last year at Battle Creek.

The Knights' playing personnel for the holiday weekend in the cereal capital includes: Chuck Johnson, John York, Phil

Rabaja, Dick Goldworthy, Andy Billendon, Jim Berg, Boyd Thompson, John Burkart, Al Barkley, Bud Hayward, Jerry Taylor, Fr. John Rakoczy, Mary Carvel, Stan Krowchick, Jim Wager, Stu Dell and Tom McCormick.

Johnson, a catcher, and Goldworthy and York, both pitchers, were added to the K. of C. roster from rival City League teams for the double games, giving the Knights a 17-man squad.

K. of C. turned up for the week-

end warfare Wednesday with an

11-4 victory over the Dearborn All-

Stars.

The Knights spotted Dearborn a 4-0 lead, then roared from behind to win behind the booming bats of Barkley and Fr. Rakoczy. Barkley belted two homers and Fr. Rakoczy one.

The Michigan Amateur baseball event runs tomorrow through Monday. Eight games are scheduled tomorrow and another eight Saturday.

group doing synchronized ballet, barefoot stilt jumping acts, pyramid formations, beautiful doubles exhibitions, plus acts on the "litter boards" and on the round, saucer-shaped boards called "discs."

Performers will include Bob Carlson, Henry Brenkus, Laurie Fontana, Patricia Weston, Nancy Weston and Bill Weston in addition to Joe Grimaldi.

Lion Attacks Actor, Comes Off 2nd Best

ROME (U) — A lion broke through a glass partition Wednesday and clamped American actor Curd Jurgens during a studio set scene in the filming of "Can Stanton the Great."

While suffering only slight scratches on the elbow and knee, he said he was willing to go on with the scene, but the directors said the lion wasn't. The animal was set by glass and excited.

The scene was canceled as too dangerous.

Revolving Center in Dining Table Has Salt Handy

LANCASTER, Ohio (U) — Floyd Roshon has made sure he'll have the salt and pepper shakers when he wants them at the table.

Roshon sawed a circular hole in the center of the dining room table, put the wooden circle back in place and attached an electric motor to make it revolve.

He can throw a switch, when the shakers are out of reach, to bring them closer on the revolving centerpiece.

HIGHEST HOT DOG — Robert McMillen was chairman of the refreshment committee for the Harrisburg, Pa., centennial. So he got to cook the world's biggest hot dog which was 65 feet long. Equals about 650 regular hot dogs.

757 Candidates Divide Support on Write-In Vote

SALEM, Ore. (U) — When the official tally was made on votes for Republican Party chairman in Oregon, it was found that 757 candidates got votes.

It was strictly a write-in contest, no names being on the ballot.

Three men made a race for the office and divided some 20,000 ballots. But 2,406 voters divided their support among 754 others.

Abyssinian Tea Puts Kick in Dreary Lives

When East Africans want to break the monotony of their lives they gather the leaves of the khat tree and boil them into Abyssinian tea, Dar-es-Salaam. Tanganyika reports.

The drink provokes excitement and frenzied dreams and some natives have found that it is habit-forming. World Health Organization experts are studying the problem and will advise whether khat tree cultivation should be prohibited or controlled.

Liners Feature Leisure, Luxury Instead of Speed

By CAY VAN BROSCHDORFF HAMBURG (UPI) — In an age of fantastic speed, one kind of transportation hopes to keep up by slowing down.

Ocean liners, once the joy of travelers who wanted fast international travel, have been left in the vapor trails of jet airliners, which make the Atlantic crossing in a little more than eight hours.

The ship lines are fighting back, though by junking their old claims on speed and emphasizing leisure and comfort instead.

Only one liner, the United States, still is billed in the manner of the old-time fast steamers. The 53,000-ton vessel slices through the sea at a rate of 32 nautical miles an hour, cutting days from the standard cruise length.

But the United States was made fast for another purpose than passenger convenience. Built with U.S. Government aid, it can be transformed in two days to a troop transport carrying a fully equipped army division.

Last year, about 881,000 passengers crossed the Atlantic by ship, a drop of 10 per cent from the preceding year. At the same time airlines logged 1,650,000 passengers, an increase of 28 per cent.

The rapid rise in air traffic corresponded with the introduction of jets on the Atlantic run, and

airlines hope to top 2,000,000 this year.

NEW APPEAL Owners of ocean liners aren't giving up, however. Their business rose slightly during the last half of 1959 and they hope to bring it up more by appealing to travelers who are interested in rest, comfort and relaxation rather than speed.

This prospect also is appealing to the owners because it is more economical to make a long, slow voyage than a short, fast one which burns up more oil to the mile.

Since fuel costs have gone up steadily while ticket prices have remained fairly steady, this is an important consideration.

North German Lloyd, which once prided itself on its quick crossing, now points with satisfaction to its new flagship, the Bremen which logs only 23 nautical miles per hour, and takes six to seven days for an Atlantic crossing.

Furnishings are the latest word in luxury, with tourist-class cabins fitted out more lavishly than most first-class ones were in the old days.

And instead of promising to get passengers across almost before they get their bags unpacked, the company holds out the lure of time for acquaintances and business meetings, and that event once limited to the very wealthy first-dinner at the captain's table.

Grain Futures Prices Somewhat Steadier

CHICAGO (AP)—Grain futures prices steadied somewhat today in early transactions on the Board of Trade after three consecutive days of general declines.

Most contracts were unchanged to a minimum fraction easier and some of the lower wheat more than a half cent. However, transactions were

Short interests in most pits appeared to have been somewhat encouraged by the liberal offers to deliver on September contracts. They showed no signs of taking the offensive anywhere to cover commitments.

HOT AND DRY? — According to this longrange weather forecast map, the next 30 days in the Pontiac area will bring little rain and above-normal temperatures. The area also is uncomfortably close to a hot belt stretching through the midsection of the eastern half of the nation.

Hits Connally Amendment

Bar Still Against World Court Slap

By FRANK CORMIER
WASHINGTON (AP)—The policy makers of the American Bar Association have decided by a vote of 114-107 that they still don't like the controversial Connally reservation.

The ABA House of Delegates approved a resolution Wednesday urging the Senate to repeal the 14-year-old reservation which limits the United States' acceptance of the World Court's jurisdiction.

Under it, this country reserves the right to decide whether a case against it involves a domestic matter and thus is exempt from World Court rulings.

While the ABA decision—reaffirming one made 13 years ago—was likely to stand, the issue remained alive at the association's 53rd annual meeting. The question was scheduled for still another airing before the ABA Assembly, consisting of all 6,000 lawyers attending the annual meeting.

The assembly could take an opposite position, supporting the action would be subject to review by the House of Delegates, which presumably would take the same stand it took Wednesday.

Since 28 members of the House did not vote, however, there remained a chance that the decision might be reversed.

In the U.S. Senate, opposition of some members prevented action this year on a resolution to repeal the limitation.

In opposing the reservation, the lawyers' group took the position recommended by President Eisenhower in a talk to the association Monday.

Eisenhower pictured the reservation as a stumbling block to the establishment of a world rule of law, inasmuch as it permits the United States to decide on a case-by-case basis whether it will be subject to the World Court's jurisdiction. Eisenhower saw this as a bad example for the rest of the world.

Former Sen. Tom Connally of Texas sponsored the original reservation.

Tour State of Texas

Democratic VIP Wives Talk to 2,500 Women

MIDLAND, Tex. (AP)—Three women Democrats fly from El Paso to the Midland-Culbuck Airport today for a reception ending their Texas tour in quest of votes.

Mrs. Lyndon Johnson, Mrs. Robert F. Kennedy and Mrs. Sargent Shriver began their visit to the state Monday at Houston.

Mrs. Kennedy said at El Paso that if her brother-in-law, Sen. John F. Kennedy, is elected president, labor leaders like James Hoffa of the Teamsters' Union will face the full power of a "strong Department of Justice."

"A strong Justice Department will see to it that strong proceedings are followed to bring to account those men who use their power in the labor movement to advance their own positions," Mrs. Kennedy said. She is the wife of the investigator who clashed with Hoffa during a Washington senatorial committee hearing.

TALKED TO 2,500

The women visited with more than 2,500 women from Texas, New Mexico and Juarez, Mexico, at a tea in their honor at El Paso Wednesday.

Mrs. Johnson, wife of Texas senior senator and the Democratic vice presidential candidate, and her companions encountered an embarrassing local situation in El Paso.

The hotel at which the team was held also is headquarters for the El Paso County Republican party.

The Republicans agreed, after a hurried conference with the hotel management and leaders of both parties, to clear GOP campaign material from the lobby. But a big Republican banner fluttered across the front of the hotel as the Democratic tea was held.

Nickel silver, an alloy containing nickel, zinc and copper, is used as a base metal for silver-plated silverware. It is also used for making keys and slide fasteners.
