Radio Magnate Predicts Upsurge of Spiritual Light

By BRIG. GEN. DAVID SARNOFF

Chairman of the Board, Radio Corporation of America

Whatever man conceives in his heart or mind can become a reality.

Here is an example of what I mean. At the 45th anniversary of our organization I asked our scientists for three gifts for our 50th birthday: a magnetic tape recorder for both black and white and color television, an electronic amplifier of light, an electronic air conditioner without any moving parts.

One startled scientist said: "It's a wonderful thing to have an imagination unrestrained by a knowledge of the facts." But in five years they developed all three.

Their strength gives me courage to stick my neck out again, and predict what they, and others, will achieve in the next 20 years:

Nuclear energy will be used in industry, planes, ships, trains, automobiles. Direct conversion of atomic energy into electricity, a principle already demonstrated, will be a fact.

Solar energy will be effectively harnessed and in world-wide use. In under-developed areas this will prove a miraculous blessing.

In communications, color television will be completely global. Individuals will be able to hold two-way private telephone conversations and see each other as they talk. And the beginnings will be made in instantaneous translation of languages, so people will finally understand each other across the barriers of Babel.

In transportation, jet-propelled and rocket vehicles, powered with nuclear fuels, will travel at 5,000 miles an hour with greater safety and comfort than today's aircraft. Many of the world's leading cities will be within commuting distance of one another.

NO MORE FAMINE

Famine will be eliminated practically everywhere. Through striking developments in solar energy and electronics, through new biological and chemical discoveries, irrigation, and flood control men will enrich the land and "farm" the oceans.

In health the new tools of electronics and atomics will bring an avalanche of improvements in preventive medicine, diagnosis and treatment of human ills. Man's life span will be further expanded, probably within hailing distance of the century mark.

All these developments will create an era of economic abundance without past parallel, and end much of the wretchedness now covering the earth. The most pressing problem will not be the use of labor, but the intelligent and beneficent use of leisure.

HUNGER FOR GOD

As a reaction against current cynicism and materialism there will be an upsurge of spiritual vitality. The gradual elimination of physical hunger will deepen the more elemental hunger for faith and salvation, for age-old values beyond the material and temporal, that gnaws at the heart of man.

Man will discover that the bridge to this great new day will be his ability to substitute faith for fear.

Our atomic age is like a knife: in the hands of a surgeon it can cut out disease, in the hands of a madman it can destroy the world.

(Continued on Page 2, Col. 2)

County Dems to Push Plan for Constitution Revision

Oakland County Democrats at the State Convention in Grand Rapids tomorrow and Saturday will try to drum up some support for another try at revision of the state constitution as suggested by Mrs. Irene Murphy, University of Michigan regent from Birmingham.

Local Democrats at their county convention in Pontiac last week endorsed such a revision.

However, in hopes of winning support from her party, which at its last convention turned thumbs down on a constitutional convention.

Thermometer Takes Nosedive to 1 Below Zero

Pontiac shivered along with the rest of the state today as temperatures tumbled from a high of 16 degrees at midnight to 1 below zero at 7 a.m.

A subzero wave whipped across most of Michigan dropping temperatures to 23 below at Grand Marais and 22 below at Pellston.

The "hot" spots in the state were Ypsilanti with 4 above; Detroit and Jackson with a low of 2 above.

Dynamite was used to clear ice that piled high near the Monroe city limits. Officials said additional blasts may be scheduled today on jams five miles west of the city.

Flooding as far west as Dundee was feared if the ice jams are not eased soon.

Threatening ice jams in the River Raisin were cleared Wednesday after three days of blasting. Flood threats on other ice-choked rivers appeared ended temporarily.

The weatherman reports the cold will continue tonight with the mercury hitting zero to 6 above. The outlook for Friday is a little warmer, the high from 22-28.

The thermometer reading at 1 p.m. was 9.

MSUO to Stress More Russian, Less English

BULLETIN

In Salute to MSUO

LANSING (AP)—In a split decision, the Michigan Supreme Court today upheld plans of the Oakland County Board of Supervisors to go ahead with construction of a two-million-dollar courthouse. However, the court majority ruled it will be necessary to have a new vote on annexation of a portion of the proposed site to the City of Pontiac. The vote was 4 to 3.

Sales Tax Hike Hangs on Edge of Destruction

Some Sort of Trade With Dems Seems Only Way for Revival

LANSING (AP)—The Republican four-cent sales tax proposal teetered today at the brink of a legislative grave after a first passage try in the House fell 22 votes short.

Its only hope for a new lease on life appeared to be a trade that would assure adoption of a solution to the state's cash emergency acceptable to Democrats. Whether such a deal was in the cards nobody seemed to know.

Surprising no one, the sales tax increase plan received just 32 favorable votes, all Republican, as against 74 needed on a passage roll call yesterday. Fifty negative votes were cast by Democrats.

Two Republicans and four Democrats were absent. Rep. Rollo G. Conlin (R-Tipton), critical of the resolution but unwilling to oppose it, skipped his vote.

Afterward, Rep. James F. Warner (R-Ypsilanti) served notice he will seek a second passage vote Tuesday or later next week.

Asked what would change the outcome then, Rep. Allison Green of Kingston, GOP floor leader, mentioned two items of "trading stock" but declined to speculate on whether a swap would be arranged.

One was Gov. Williams' Veterans Trust Fund mortgage bill. The other was a constitutional debt limit hike that would open the way to 50 million dollars in state borrowing, or a suitable substitute.

The sales tax proposal would hike the existing three-cent levy to four provided it clears the Legislature and wins approval in a statewide referendum April 6.

"This is the reason why the Democratic party dragged its feet at the last convention," said Mrs. Murphy, who will be a delegate from Birmingham and a county delegate-at-large at the state convention.

Oakland will send 125 delegates to the two-day convention—second only to Wayne's 16th Congressional district in delegate size.

Democrats from throughout the state undoubtedly will criticize Republicans for backing away from taking a definite stand on Michigan. (Continued on Page 2, Col. 2)

BANQUET PRINCIPALS — Grouped at last night's Pontiac Area Chamber of Commerce salute to MSUO are (from left) Edward A. Maier, 1959 chamber president; D. B. Varner, MSUO chancellor; and John A. Riley, outgoing chamber president. Maier was installed as president and Varner disclosed MSUO plans at the chamber's annual banquet at Elks Temple.

Straley Job Hearing Brings Threat Against Eastman

Despite an anonymous phone call threatening harm to Public Safety Director George D. Eastman, the Civil Service Commission last night began its hearing into ouster charges against Police Chief Herbert W. Straley.

Visibly disturbed and nervous when he entered the City Commission chambers for the start of the hearing, Commission Chairman Stuart A. Austin told the other two members of the Commission of the threat he received at his home before he left for City Hall.

Speaking in what Austin described as a "low voice," the unidentified caller warned, "If Straley is fired, they're going to carry Eastman out of this town feet first."

In a hurried conference, Austin and the two other commissioners considered disarming the approximately 25 police officers attending the hearing in the jammed room, but decided against it.

LAUGHS OFF THREAT

Eastman laughed off the threat as the work of a "crackpot."

Three police officers were stationed at the doors to keep order as the first session of what is expected to be a lengthy hearing got under way.

Straley's attorney, Clarence L. Smith, asked the commission to dismiss charges against the suspended chief on grounds Eastman was never legally public safety director.

Eastman's charges against Straley were filed by City Manager

Walter K. Willman with the Civil Service Commission Feb. 9.

Under the city charter, Smith contended, the city manager holds the title of public safety director unless otherwise spelled out by the City Commission.

"Neither by resolution or ordinance has the Commission ever separated the two posts," Smith said.

SEES NO POWER

Smith also said the Commission had no power to hear the charges against the chief.

Again citing the city charter, Smith said that all charges

against Straley had to be made by Willman.

City Attorney William A. Ewart argued the charges against Straley were drawn up by Eastman in accordance with the State Civil Service Act which, he asserted, nullifies various provisions of the charter.

"If the city charter conflicts with state law, then the state law is supreme," Ewart said.

As for Eastman, Ewart said that Willman clearly had the right to hire a safety director.

"The City Commission clearly recognizes this fact and has acknowledged it by considering ouster resolutions several times," Ewart declared.

FOUR ATTEMPTS

Four attempts to fire Eastman have been made in recent weeks by Commissioners Milton R. Henry and Robert A. Landry.

"They (the commissioners) wouldn't consider firing someone who never had the job," Ewart said.

Smith's motion to dismiss the charges was referred to the Civil Service Commission's attorney, James G. Hartwick, for study.

Hartwick will offer legal advice on the motion when the hearing continues at 7:30 p.m. tomorrow.

Smith also objected to Straley's suspension by Willman on grounds that only the Civil Service Commission has the power to suspend officers for an indefinite period.

"Under the Civil Service Act the manager can suspend an officer for (Continued on Page 2, Col. 3)

News Flashes

LANSING (AP)—Neil Staebler, Democratic state chairman since June 1950, formally announced today he will seek another two-year term at the Democratic State Convention in Grand Rapids tomorrow and Saturday. This will be his fifth.

TOLEDO (AP)—Lawrence N. Steinberg, president of Teamsters Local 20, has outlined a \$300,000-a-year organizing program designed to bring an estimated 20,000 unorganized workers in Northwest Ohio into the Teamsters.

CHICAGO (AP)—A special Department of Justice crime investigating unit intends to spread its activity into Kansas City, Cleveland, Detroit and St. Louis. The date for inquiries is indefinite.

Chancellor D. B. Varner Outlines New Approach

By PETE LOCHBILER

Less English and more Russian will be emphasized when Michigan State University Oakland opens this fall.

The 600 students expected in the initial class probably will not be required to take freshman English composition, said D. B. Varner, MSUO chancellor, to the Pontiac Area Chamber of Commerce annual banquet last night.

"I know this would be a radical departure from traditional college curricula, and perhaps is a controversial step," Varner told 400 persons at Pontiac Elks Temple.

"But if the students don't know their native tongue after using it for 18 years, it's too late for us in college to teach it to them."

The cost angle has been figured in, too, Varner said.

"Educational dollars are scarce nowadays. We don't want to spend them teaching students what they should have learned before they came to us."

What about the student who didn't do too well in high school English?

"All freshmen will be given English entrance tests. Those who pass them won't have to worry about beginning English.

"Those who don't pass will be required to take a special remedial English course, for which there will be a special fee so that the course is not an added expense to the school."

AT C. OF C. SALUTE

Varner was principal speaker at the Chamber of Commerce salute to the new university, now under construction a mile east of Pontiac on property donated to MSU two years ago by Mr. and Mrs. Alfred G. Wilson.

Also speaking were three members of Varner's staff: George Karas, director of the physical plant; Roy Alexander, director of student services; and Herbert Stoutenburg, director of applications and admissions.

It was announced that Oakland County banks, working in cooperation with the MSUO Foundation, were promising \$30,000 a year for MSUO scholarships.

Commitments for the first \$24,620 for this year were presented to Varner last night.

Another important announcement came from Karas, who said that Feb. 22 is the date for groundbreaking ceremonies for the university's second building, a student center.

Varner gave the first hints of what the MSUO curriculum will be like in a report entitled "Plans, Progress and Problems."

He said that curriculum plans (Continued on Page 2, Col. 1)

What's a Little Ice Compared to Bread Crumbs

DETROIT (AP)—A sparrow, dallying over a meal of bread crumbs, found its feet frozen in a puddle.

Cass Kulsea, a bird watcher, noticed its predicament.

Kulsea said he chipped the bird loose with his pocket knife but there was so much ice around its feet it couldn't move.

Kulsea took the bird in his home, held it under a faucet and ran warm water over the ice until it melted. Then he released the sparrow.

It went back to the bread crumbs.

Didn't Play Their Game

SAN DIEGO, Calif. (UPI)—Mrs. Earl Rhodes, 65, who grabbed a gun and chased two would-be robbers from her store yesterday told police they were wearing western-style bandanas as masks. "I just wasn't in the mood to play cowboy," she said.

Aha, There's the Reason

ROCKFORD, Ill. (UPI)—A roadblock set up yesterday to catch license plate violators netted only violators traveling south. Police found a resident around the corner was warning violators traveling north to take a bypass.

Install Maier C. of C. Head at Banquet

Edward A. Maier took over the reins of the Pontiac Area Chamber of Commerce last night at the colorful 49th annual banquet in Elks Temple.

The 1959 president was given the gavel and congratulations by John A. Riley, outgoing 1958 president.

Maier, vice president and manager of Abstract & Title Guaranty Co., promised an active year ahead for the chamber.

Riley, assistant advertising director of The Pontiac Press, thanked chamber members for their support in accomplishing 1958's many objectives.

Adding enthusiastically-received harmonies to the banquet was the Michigan State University Men's Glee Club. Directed by Edward L. Richmond, the 46 young men won rounds of applause.

Toastmaster was Carl Rogers, plant manager of GMC Truck & Coach Division.

Others speaking included John W. Hirlinger, chamber manager; Stuart A. Whitfield, vice president of Pontiac State Bank; and Harold A. Fitzgerald, publisher of The Pontiac Press.

Whitfield, 1958 treasurer for the chamber, presented Riley with a gift of photographic equipment.

Fitzgerald spoke as chairman of the MSUO Foundation.

634 Million Net, Reports GM

But \$2.22 Per Share Dips From \$2.99 for Year Previous

DETROIT (AP)—General Motors Corp., the world's largest industrial organization, had net profit last year of 634 million dollars. The financial statement reflected substantial improvement in the final quarter of 1958.

Of the year's total income, \$235,000,000 was earned in the final quarter of the year.

The earnings for the full year, equivalent to \$2.22 per share, compared with \$2.99 for 1957.

Earnings for 1958 came from net dollar sales of \$9,522,000,000 compared with \$10,990,000,000 in 1957. Sales of defense products accounted for five per cent of total sales, the same proportion as in each of the preceding two years.

The statement, issued by Frederick G. Donner, chairman, and John F. Gordon, president, said demand for cars and trucks began to reflect generally improved business conditions during the fourth quarter of 1958.

"Over-all, the outlook for 1959 is encouraging," they said. "With the economy expanding and opportunities for business increasing, there appears to be a sound basis for the belief that confidence of businessmen and consumers should continue to rise.

As this occurs, the upward trend in industrial activity and employment should continue, making 1959 a year of good business generally and an improved year for the automobile industry."

The report said factory sales of (Continued on Page 2, Col. 1)

MSUO Will Stress Russian Language

(Continued From Page One)

took into account the advice of experts who participated in seminars at the school's Meadow Brook Hall last fall.

Students, he said, will frankly be encouraged to study Russian as a foreign language.

"Speaking realistically, the study of Russian must be emphasized if we are to make a real attempt to equip our college youth for the years ahead."

WORLD PERSPECTIVE

Other required classes will reflect the university's accent on world-orientation, Varner said.

Background classes in the history, art and culture of such areas as Russia, China and India will be labeled a must for all students.

"We recognize that the non-Western areas of the world are, in many ways, the most significant portion in terms of world peace and stability.

"Our students must know about these areas, if they are to become leaders in years ahead."

The engineering curriculum is going to be affected also by the university's policy of keeping abreast of the times, Varner indicated.

Time spent on study of engineering itself will be cut in half, he said, and more time devoted to such basics as mathematics, physics and chemistry.

"It is probably foolish to teach students engineering specialties nowadays," Varner explained. "Technological developments are so swift that the specialties a student learns in college are obsolete by the time he graduates."

A more thorough study of the basics will give engineering students a better foundation to cope with advances in their field, he believed.

Varner said that a new look is planned for the university's two other four-year courses: education and business administration.

"We plan to adopt whatever is new and promising in education," he said, "not just because it is new, however, but because it promises to be good."

Varner was introduced by Harold A. Fitzgerald, chairman of the MSUO Foundation.

GM Shows Earnings of 634 Million in '58

(Continued From Page One)

cars and trucks from GM plants throughout the world totaled 3,310,000 units in 1958 compared with 3,885,000 in 1957.

Of the 1958 total 3,326,000 factory unit sales came from GM plants in the United States; 186,000 from Canadian factories and 598,000 from GM overseas plants.

The corporation's total tax bill for 1958, the statement said, amounted to 760 million dollars. This included 482 million for United States and foreign income taxes and 278 million for state and local taxes and social security taxes, and other taxes.

The statement included the comment by Donner and Gordon that sales of imported cars, generally smaller than those made in the United States, continued to rise, accounting for more than 8 percent of the total domestic market.

General Motors participates in the small car field with cars produced by its Vauxhall plant in England and its Opel plant in Germany.

What's the Use?

LITTLE CHUTE, Wis. (UPI)—Town Board members complained today that corner fire alarm boxes were a nuisance. They have been used only for false alarms for the past two years, the board said.

To Probe Vote Irregularities at White Lake

A hearing will be held tomorrow before the Oakland County Board of Canvassers to look into alleged "irregularities" arising out of Monday's primary election in White Lake Township.

An attempt will be made to find out how judicial candidate Verne C. Hampton received 114 votes in one of the township's voting precincts when the total voter turnout there was but 89 persons.

Daniel T. Murphy Jr., county clerk-register, called the hearing to look into what he said appeared "to be some irregularities in the White Lake Township election."

The discrepancy in votes, Murphy said, was caught by a Democratic challenger in the township, Jack Gillow, who reportedly noticed it as election workers were recording the election returns after the polls closed Monday night.

Murphy theorized that the particular machine where the difference was noted probably had not been cleared from last November's election, and the votes left on it automatically were added to Hampton's total.

Hampton, a county Circuit Court commissioner, was one of 10 candidates nominated for five circuit judgeships to be voted on April 6.

Murphy foresaw a little chance that results of tomorrow's hearing would change the nominations.

Constitution Plan Eyed by Democrats

(Continued From Page One)

gan's money woes at their convention last weekend.

Although Republicans called for an April 6 referendum on a four-cent sales tax, they ignored the plea of their titular leader, Paul D. Bagwell, to support a flat rate income tax and new business levies in the probable event there is no referendum.

Republicans are expected to be watching closely whether Democrats take a stand on a constitutional convention this time.

Varner was introduced by Harold A. Fitzgerald, chairman of the MSUO Foundation.

LONG RANGE ANSWER

Republicans gathered in Detroit felt this was the "long-range" answer "because many of our basic tax problems stem from the inadequacies of the present constitution."

If Mrs. Murphy has her say Democrats will be asked to support her new plan. She said she will address the Oakland delegation at its caucus Friday night to suggest that the plan be advanced to the convention's resolutions committee.

"I will certainly push for it," Mrs. Murphy said. "There is absolute equity in it the way our initiative petition based on House representation would operate."

"If the Republicans don't buy it this way," she went on, "it would indicate they want the convention slanted."

Oakland Democrats at the convention will urge the nomination of Joseph S. Radom and Albert W. Marble, both of Orchard Lake, for positions on the new Wayne State University Board of governors.

Primary purpose of the convention is to nominate 14 for state positions to be voted on April 6.

Radio Executive Sees New Spiritual Upsurge

(Continued From Page One)

geon it can save a life; in the hands of an assassin it can take one. But to blame the knife is ridiculous.

It just doesn't make sense that God created the earth and peopled it only to destroy it. Nor do I believe that He wanted to make it so ideal that we would have nothing to do.

He has always put challenges before us, compelling us to use our brain and brawn. He makes some land fertile, others arid. He hides coal and oil deep in the rocks, and fish in the sea. He makes the electron and atom infinitesimal, and the radio wave invisible.

OPPORTUNITY, PROMISE

As we meet each challenge, and move on to another there is always menace, but also opportunity and promise. Will the promise be fulfilled? The answer depends entirely on whether the Divine prevails over the mortal in man.

Science provides no substitute for the lessons of unity in the universe, an electron, a flower. On the contrary, it makes it clear that material progress is a delusion, unless it is put at the service of eternal spiritual values.

With each new truth discovered, many of the great men of science have become more humble, not less; more reverent, not less. The man who discovered the relationships between electricity and magnetism, Hans Christian Oersted, once said:

"The universe is a manifestation of an Infinite Reason, and the laws of Nature are the thoughts of God."

That's as near as any man of science has come to explaining the energies and materials with which he works his mundane miracles.

Every age has its destined duty. Perhaps ours is to develop an awareness of the divine attributes we were given, and a sense of responsibility in giving them expression.

Perhaps we are living at a period in time when a new man is being born, the man of true morality.

We may be a privileged generation who, by taming our fears, our hungers, our terrible weapons, are asked to pay the price of the transition to a golden hour.

Primary Total Only 43,352

14.7 Pct. Vote in County

Only 14.70 per cent of Oakland County's 294,803 registered voters went to the polls in Monday's judicial and township primary election.

Voter turnout in Michigan's second largest county was 43,352.

Daniel T. Murphy Jr., county clerk-register disclosed these figures yesterday as the three-member Board of Canvassers was still canvassing election returns from the county's 285 voting precincts.

Pontiac—the largest city in the county — had the smallest voter turnout among the county's six legislative districts. This was 3,205. There are more than 38,000 registered voters in the city.

Other districts recorded these turnouts: District 1—7,843; District 3—10,764; District 4—10,175; District 5—6,695; and District 6—4,670.

Murphy, who has assigned a clerk the task of determining how much per ballot the election cost the county, described the turnout as "worse than horrible."

Eastman Threatened If Straley Loses Job

(Continued From Page One)

no longer than 30 days and then only for disciplinary reasons," Smith said.

When the hearing resumes, the Commission will rule on Smith's motion to dismiss charges and consider his objections to the order suspending Straley.

The hearing of testimony is expected to begin tomorrow if Smith's motion is denied.

Straley is charged with insubordination, incompetence, inefficiency, disobedience, neglect of duty and personal misconduct. He has denied all charges again him.

COULD GO BACK

The Civil Service Commission, after airing the charges, must decide whether to uphold the suspension, Straley can appeal to Circuit Court and then the State Supreme Court.

If Straley is acquitted of the charges, he will be put back on the job.

If the Commission upholds the suspension, Straley can appeal to Circuit Court and then the State Supreme Court.

The Day in Birmingham

Community House Drive for Funds Announced

BIRMINGHAM — Letters have gone out this week to Birmingham area residents announcing the annual fund-raising campaign of the Community House.

This year's operational goal for the Community Activities center is \$60,000, according to Ralph E. Hunt, campaign chairman.

Used by more than 150,000 persons in 1958, the Community House is in its 36th year.

In addition to being headquarters for numerous social and civic groups, the house sponsors several projects for the community at large. Last year 400 persons borrowed such items as hospital beds, crutches, wheel chairs and other sickroom supplies from the emergency cupboard.

More than 4,000 applications for house and garden workers were processed by its free employment office.

Senior citizens' groups meet at the center weekly for work sessions such as making cancer pads and social activities. An outdoor area constructed especially for the senior men provides shuffle board courts and an area for horse shoe pitching.

To save the time of volunteer solicitors, Hunt is asking residents to mail their contributions to the Community House. He reminds donors that their gifts are tax deductible.

Sealed bids are being accepted at the Municipal Building for seven city-owned lots. The property is located on 14-Mile road near Pierce street.

Clark Hagstrom, city assessor, has indicated that \$100 per front foot is an acceptable bid.

There will be no Saturday morning swimming class at either the Birmingham High School or Derby Junior High School pools this week, Robert Girardin, recreation director, announced today.

Registrations for the late spring swimming classes will be held March 16-20. Applicants are asked to mail their registration form and a \$2.50 fee to the City Recreation Office, where forms are available.

Girardin said that elementary basketball will end this week at

Senator Threatens to Investigate TV

WASHINGTON (AP)—Sen. John Marshall Butler (R-Md.) says television and TV advertisers must clean house or face the possibility of Congress doing it for them.

The network, Butler said, are digging their own graves by offering programs which he contended are devoted to wholesale murder and commercials "geared to know-nothings."

Butler said commercial TV and TV advertisers appear to have adopted an attitude of the "public be darned."

Winner of the \$12 pool? Dave Beck.

Royal Oak Youth Faces Hearing

Charged With Forgery, Passing Bogus Check in Area Store

A felony warrant charging forgery and the use of false identification to cash checks was issued yesterday against Preston Walker Smith, 19, of 6601 Castle Dr., Birmingham.

Smith stood mute at his arraignment before Royal Oak Municipal Judge Fletcher Renton yesterday.

He was released on a \$500 bond with a hearing set for Feb. 27. The youth was arrested Tuesday by Royal Oak Police when he tried to cash a \$60 check at Tom's Quality Market, 906 N. Woodward avenue. He is the son of Mrs. Charles Otto at the Castle drive address.

Det. Capt. Virgil Scott said Smith has admitted cashing over \$300 worth of fraudulent checks in the South Oakland County area.

The youth told police he quit two jobs recently and wanted money to go to Florida.

Birmingham Police who have questioned Smith since his arrest said he had admitted cashing three checks in Birmingham.

Postpone Board Meeting

The monthly meeting of the Waterford Township Board of Education scheduled tonight has been postponed until Tuesday due to the absence of Superintendent William Shunk and Board Member Lester Carlson. Irate Mob Seizes Panama City Hall

PANAMA (AP) — Several thousand demonstrators seized City Hall in the Panamanian capital Wednesday night after the beating of a radio commentator who had charged municipal funds were being mismanaged.

The crowd — which swelled to 5,000 — demanded the ouster of the 15 city councilors and set up a rump council to run municipal affairs.

They kept control of the building until President Ernesto de La Guardia Jr. pledged that the regular councilors would be barred from their offices pending an investigation.

The president ordered the National Guard to leave the demonstrators alone.

Launch Ore Carrier

DETROIT (AP) — A new 689-foot ore carrier—the Herbert C. Jackson—was to be launched into the River Rouge Thursday.

Medical Insurance Would Hike Tax

House Liberals Push Bill to Boost Social Security

WASHINGTON (UPI)—House liberals today kicked off a drive to pass a controversial labor-backed bill that would expand social security benefits to include medical care for old folks.

hospital and surgical insurance for life.

Bitterly opposed by the American Medical Association as a step toward socialized medicine, the measure is almost sure to stir up one of the hottest fights of the Democratic 86th Congress.

The bill, introduced today by Rep. Aime J. Forand (D-R.I.), is regarded as a "must" by the AFL-CIO and has wide popularity

among oldsters, to whom Congress often caters.

Eventually, it would require big increases in social security taxes on employees and employers to finance it.

TAX JUMPS YEARLY

If you are a worker making \$4,800 or more a year, you now pay \$120 in social security taxes. Under present law, your tax will jump \$24 next January and climb

gradually to a peak of \$216 in 1969.

On top of this, Forand's bill would add \$12 a year to pay for the medical benefits program—a smaller tax increase for those making less than \$4,800 a year.

Foes charge this would fall far short of meeting ultimate costs. Forand as much as conceded this, claiming only that his bill would match costs "for some time at least."

Forand last year sponsored a similar bill which would have raised more revenue to pay for the medical benefits. It would have applied social security taxes to the first \$5,000 in annual earnings, instead of the present \$4,800 limit. He omitted this from his new bill.

\$12 INCREASE

Any worker earning more than \$4,800 would immediately be hit with a tax increase of more than \$12 a year. This is because the bill would apply social security taxes to the first \$5,000 in annual earnings, instead of the present \$4,800.

As a result, workers earning \$5,000 or more would be required by 1969 to pay \$235 a year in social security taxes. The maximum tax for self-employed covered by the program would then be \$457.50 a year.

Some foes charge that even this tax boost would not be enough to cover long-run costs of the new medical benefits. Forand claimed only that his proposed increases would match costs "for some time at least."

There are nearly 2,000 manufacturing establishments in the nation's alcoholic-beverage industry plus 7,500 wholesalers and 300,000 retail liquor dealers.

PENSIONED PLANES — Lt. Cmdr. James Prady looks over a World War II vintage F7F Tigercat aging under Arizona sun. The plane and hundreds of others will eventually be sold or scrapped.

Old Planes Fade Away in Sun in Their Arizona Graveyard

SAN DIEGO, Calif. (U) — Old planes never die, they just fade away. The place Navy planes do their fading is a piece of desert called Litchfield Park, a Naval air facility 15 miles west of Phoenix, Ariz. Tigercats, Hellcats, Privateers, SNJs—World War II vintage craft—along with Korean-era jets like Panthers and Banshees and even a few of the more recent Douglas Skyknights, North American FJ Furies and Chance Vought F7U Cutlasses, all bask in the desert sun.

Douglas ADs, veterans of both World War II and Korean action, also enjoy a well earned retirement in the dry Arizona air. Stripped of every accessory the Navy can use in the spare parts bin. Buyers, many of them metal reclaiming companies and some individuals, bid on the salable aircraft. The bid forms are sent out from the Naval air station here. A single buyer may purchase an SNJ for \$600 and the facility has moved as many as 700 aircraft during one sale.

Some of the planes are put back in flying shape and flown off the Litchfield station by the Navy can use in the spare parts bin. Buyers, many of them metal reclaiming companies and some individuals, bid on the salable aircraft. The bid forms are sent out from the Naval air station here. A single buyer may purchase an SNJ for \$600 and the facility has moved as many as 700 aircraft during one sale.

Engines of the surplus aircraft are preserved with heavy adhesive lubricants and fuselages are coated with a sprayed-on preservative before the planes take their place in the lines stretching across the desert floor.

Oldest airplane at Litchfield, according to Lt. Cmdr. James Prady, production planning officer, is a PBV Catalina, built in the mid-1930s.

As the various types of aircraft become obsolete to the Navy, they are prepared for sale. Before the "for sale" sign goes up, however, government agencies and eligible foreign countries get a chance at the available planes.

The Civil Aeronautics Administration has acquired in this way several transport type aircraft for use in air traffic control research.

The U. S. Forest Service has taken several TBMs for aerial fire fighting, particularly in California, and for aerial seeding operations.

UP FOR SALE Finally, when all demands have been met, the planes are put up for sale. But even then the craft are

Faculty of Illinois School Includes 2 Sets of Twins

DWIGHT, Ill. (UPI) — The Dwight Elementary School has two sets of identical twins on its faculty.

Josephine and Catherine Wiegman both teach sixth-grade classes. They live together, dress alike and belong to the same professional and social organizations. They both graduated from Illinois State Normal University and earned masters' degrees from the University of Illinois.

Tom and Tim Hall are the other Dwight faculty twins. But they don't dress alike and they do not live together. Tom is married and has three children. Tim is a bachelor.

The brothers were graduated from Iowa Wesleyan but then each went his own way. Tom did his graduate work at Illinois Normal; Tim was awarded his master's degree from Southern Illinois University.

Tim is a coach, physical education instructor and eighth-grade social studies teacher at Dwight. Tom is principal of the school.

Plays Double Role

MILWAUKEE (UPI) — Outfielder Lee Maye, a farm-hand of the Milwaukee Braves, has recorded several rock 'n' roll ballads. Maye prefers baseball to singing, however. He batted .318 with Austin of the Texas League last season.

New Use for Cement

CHICAGO (UPI) — The Journal of the American Medical Association reports that surgical supply houses are selling cement for use by persons with protruding ears who want to paste them against their heads for short periods of time.

Dental Record Bad

NEW YORK (UPI) — Nine out of 10 Americans are dentally deficient, says Winslow Carlton, chairman of New York's Group Dental Health Insurance program, and the lower the income the greater the deficiency.

Pakistan has deposits of coal, oil and minerals.

No Fussfooting on Education

Bagwell Asks Bold Action by GOP April Candidates

LANSING (AP)—Paul D. Bagwell last night counseled Republican candidates for education offices not to pussyfoot in the April 6 election campaign.

"Our parents, grandparents and great grandparents sacrificed to build a great education system—our universities and colleges," he said.

"Let us not sacrifice the younger generation today so we can have two cars in our garage and four television sets in our home."

"We must have one main principle—equal opportunity for all our children and equal opportunity between generations."

At a dinner meeting with nominees chosen at the Republican State Convention, the 1958 governor nominee and titular party head said expenditures on education should be regarded not as an expense but as an investment in the nation's future.

"The future need for trained manpower is tremendous," he said. Citing population growth statistics, he added:

"By 1967 we will need almost half again as many doctors and engineers just to keep up our standard of living."

"More and more children are coming out of the high schools each year. What are we going to do—say we can't give them a higher education?"

He mentioned farm research as one kind of education activity that pays huge dividends to farmers through conquest of plant and animal diseases.

"This is a kind of thing Repub-

licans can fight for in a positive way," he said.

On the sales tax increase issue, Bagwell said his faith was in the people's judgement.

"If the people prefer to raise 100 million dollars in this way, then the people must be right," he said.

"I have always accepted the people's judgement. Even as a defeated candidate, I accepted the judgement of the people," he said with a chuckle.

Earlier in the day, the GOP nominees were told by Lawrence B. Lindemer, Republican state chairman, that \$50,000 was budgeted for the spring campaign.

Says Dems Balked Balanced Budget

WASHINGTON (AP)—The Democratic Congress already has balked President Eisenhower's efforts to balance a "house of cards" budget, Sen. Norris Cotton (R-NH) said today.

But he said the budget would be unbalanced anyhow because the 77-billion-dollar estimate of revenues in the budget depends partly on tax increases Cotton said Congress is not likely to pass.

Cotton pledged to fight as a member of the Senate Finance Committee against any increase in the debt limit. He said this would force the government to live within its income no matter what spending Congress author-

Collision Kills Man

JACKSON (AP)—Bernard Poole, 32, of Jackson was killed and his wife, Hazel, 45, was injured seriously Wednesday when their car and a truck collided on M60 five miles west of Jackson. Marvin Gorby, 30, of New London, Ohio, driver of the truck, suffered a back injury.

Leipprandt Given Vote of 188 in Primary

ORION TOWNSHIP—Waldo C. Leipprandt received 188 votes for the Democratic supervisor nomination in Monday's primary, not 18 as previously reported in error. Leipprandt will vie with the in-

cumbent, Ferris B. Clark (R) in the spring election April 6.

American motor vehicle producers spend between five and six million dollars a year on engineering research to increase automotive safety.

Veterans Slate Speaker

WASHINGTON (AP)—Dr. Charles L. Ansbach, president of Central Michigan College at Mt. Pleasant, Mich., was scheduled to be the principal speaker Wednesday night at the Veterans of World War I congressional banquet here.

United Press International em-photographers around the world plays some 5,000 staff and special to picture the news.

Only About Half Vote in 1st Nepal Election

KATMANDU, Nepal (AP)—Only about half of Katmandu's voters cast ballots Wednesday as the first election in the history of the kingdom of Nepal began.

A smaller turnout is expected in the rest of the mountainous country, where transportation is largely along mule tracks and mountain trails.

There will be 17 more voting days in various districts before April 4, when election of the House of Representatives will be completed. King Mahendra proclaimed a constitution last week changing Nepal from an absolute to a constitutional monarchy.

The constitution provided universal adult suffrage — men over 21 and women over 18 — and about half of the country's 8½ million people qualify. But Nepal's literacy rate is less than 6 per cent, and the voters had to choose from a bewildering variety of candidates.

It Wasn't Hard for Him to Fall Asleep Quickly

WALLACE, N.C. (AP) — Don Tucker, a husky disc jockey who talked, played and yawned his way to a new sleepless record, was well into his first slumber in 10 days today.

Tucker, his voice hoarse and eyes nearly closed, ended a 22-hour broadcast from a furniture store show window at 8 o'clock Wednesday night. The old mark, 225 hours, was claimed last month by a Jacksonville, Fla., disc jockey, Dave Hunter.

"I feel fine," Tucker, 21, whispered as he entered Duplin County Memorial Hospital. The 6-foot-5, 240-pounder received a brief examination and moments later was asleep.

Tucker, an announcer for station WLSE, drank gallons of orange juice to keep up his strength. He gained five pounds. Doctors examined him periodically during the broadcast stint that began at 9 a.m. Feb. 9.

"The first 200 hours was fun," Tucker said just before leaving his microphone. "But after that, what!"

Dog's Barking Saves Girl, 3, From Truck

FULTON, Ky. (AP)—Butch ran into the street and came back a hero.

Janie Fuller, 3, ran into the street and Butch, a neighbor's dog, followed at her heels and stood there barking until an approaching truck driver saw him and stopped.

The girl's mother also heard Butch and brought Janie back to safety.

Slate Public Report on Waterford Center

Waterford Township residents interested in knowing more about the proposed Cultural Center to be voted on in the April 6 election will have the opportunity to participate in a program scheduled for 8 p.m. Monday at the Pierce Junior High School.

Members of the Waterford Library Committee will publicly report results of a general survey made during the last two years, according to the Rev. Walter Teeuwissen Jr., chairman.

After retired industrialist Frank Steere of 4230 South Shore Rd. donated 17 scenic acres to the township in 1957, a group of 11 residents was appointed by supervisor Elmer Johnson and was authorized to obtain construction, operation and maintenance costs, along with other necessary statistics.

In donating the land, located on Highland and Pontiac Lake roads, Steere stipulated that the first section of the library building and equipment must cost not less than \$200,000.

In a summarized report, the

committee estimated that besides the building, it would cost \$50,000 for driveways, parking area and improvements to the grounds.

Also some \$20,000 for books and \$25,000 for the first year operation and maintenance, in 1962, would have to be raised.

Two propositions will be placed on the April 6 election ballot for the project. One will be for an additional one mill tax increase spread over a 10-year period and the other a one-half mill increase for operation and maintenance.

A move to form a new separate unit to be known as "Friends of the Library" will also be considered at the Monday meeting, the Rev. Teeuwissen said.

He added that the present Library Committee will not be discontinued until there is no further need of its efforts in promoting the idea of building a new library and cultural center in Waterford Township.

Aromatic oils used in making perfumes are said to have germ-killing properties.

In Texas it is illegal to "float or float" oysters. This means adding ice to make them weigh more than their true weight.

Allies Not Agreed on Routes to West Berlin in Emergency

BONN, Germany (AP) — Western Berlin if and when the Soviet Union military experts said today theon turns over control of access to West has the means to operate a its East German satellite.

Some western planners, particularly Britain, would prefer to supply the troops by air and avoid the risk of a direct clash. These experts pointed out, however, that no firm decision has yet been made on how to supply the Others, chiefly in Bonn and 10,000-man allied garrison in West Washington, lean more to the

idea of trying to get through on the ground.

Airlift backers argue that the Communists could not stop supply planes except by direct aggression, but could mess up round routes by blowing up bridges or barricading road and rail lines.

Some ground route supporters have suggested an airlift could not be operated as it was during the 1948-49 blockade because the Communists could mess up radar transmissions.

Thus, according to this argument, planes could make it to Berlin only in good clear daylight when instruments are not necessary.

Air Force officials said, however, radar jamming probably could not interrupt an airlift even at night or in fog.

Berlin is only 180 miles by air from the nearest West German airfield and 300 miles from the farthest. Jet transports could make the trip in a half hour or so.

These officials said that even the most alert radar jammers wouldn't be able to get their equipment working satisfactorily in that short a time, particularly if the ground-to-air communication kept switching beams.

What's more, they said, the supply problems would be far less acute now than in 1948-49 because it seemed unlikely the Communists would blockade the 2,200,000 civilians of West Berlin as they did before. They are posing as champions of the city's people in striving to end the postwar occupation.

Man Is Seized From Airliner

Arrested After Hoax on Bomb Leads to Finding of \$500,000 in Heroin

ATLANTA (AP)—A short chubby man was arrested aboard an airliner arriving here early today after a telephoned bomb threat uncovered heroin valued at about \$500,000 on the illicit drug market in luggage at a New York airport.

The man carried a New York driver's license issued to Richard Alston Jr., 44, of Jamaica, Long Island. He was held for investigation, Police Supt. J. L. Tuggle said.

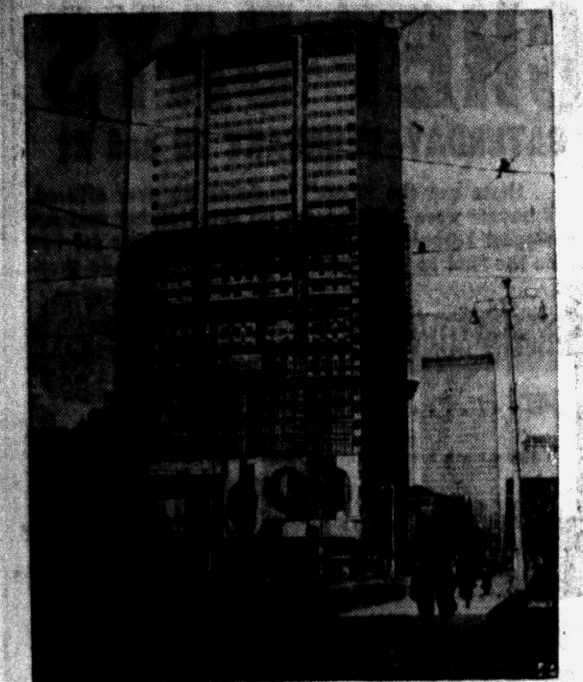

Federal narcotics agents and Atlanta detectives took Alston, a Negro, off the Capital Airlines Viscount when it arrived in Atlanta at 2:53 a.m. with 13 other passengers aboard.

Police were alerted after the narcotics were found in an unclaimed brown overnight bag taken off the plane at New York's La Guardia Airport as a result of the bomb hoax. Fifty-one packets of heroin were found in the bag.

The New York-Atlanta-New Orleans bound plane was one of four searched in New York.

Alston said he worked for a trucking firm and in addition to the Jamaica address maintained an apartment in Manhattan. His pockets contained several good luck charms, \$117 in cash and change and a switchblade knife.

An average adult human heart weighs from eight to 12 ounces.

ALTER VISTA — Ancient Italy adds to its modern look with the construction of 34-story and 30-story office buildings, the latest additions to the skyline in Milan.

MIRACLE MILE PENNEY STORE ONLY

'My Father Is an Alcoholic...' So Sue Belongs to an Alateen Group

WASHINGTON (UPI)—The girl was 17, blonde and pretty. She walked to the speakers rostrum with as much poise and dignity as if she were to deliver the valedictory at a high school commencement.

"My name is Sue J. . .," she began. "My father is an alcoholic."

The two dozen boys and girls in the audience didn't bat an eye. Any one of them could have be-

gun a speech the same way. This was an "Alateen" group, holding its weekly meeting.

Alateen is a young people's fellowship based on the principles of Alcoholics Anonymous. It tries to help boys and girls whose lives have been messed up by the uncontrollable drinking of one or both of their parents.

ORGANIZED IN 1956

The first Alateen group was or-

ganized in Pasadena, Calif., in 1956. Without benefit of much promotion or publicity, the idea has spread rapidly during the past two years.

Today there are 29 groups in operation and 32 more being organized. They are scattered all over the map from New York to New Mexico, and from Toronto to Texas.

Even with this mushroom growth, Alateen has barely scratched the surface of the problem it is trying to alleviate.

At a conservative estimate, there are upwards of 3,000,000 teenagers in America who are the indirect victims of the illness which now ranks as the nation's No. 4 health problem.

Alateen cannot give these young people sober parents and a normal home life. But it does help them to live with their problem, and to overcome the deep sense of shame, insecurity and resentment that haunts the children of alcoholics.

The first lesson brought home to a youth who attends an Alateen meeting is that alcoholism is an illness that can afflict anyone, even "nice" people.

"You are not alone in facing the problems alcoholism brings," says the little green pamphlet presented to each new member. "So don't waste time feeling ashamed."

WHAT CAN I DO?

The question that every new member asks is "how can I get my father (or my mother) to stop drinking?"

Alateen's answer is simple and realistic:

"Perhaps you cannot alone. But you can help immeasurably

by understanding the problem of alcoholism; by treating your parent as a sick person; and by adopting a tolerant attitude. You cannot scold, plead, reason or threaten anyone into sobriety. These tactics only make matters worse."

Alateen draws heavily on AA's experience (an AA member is usually present at each Alateen meeting as an adult adviser). And it has found that many of the

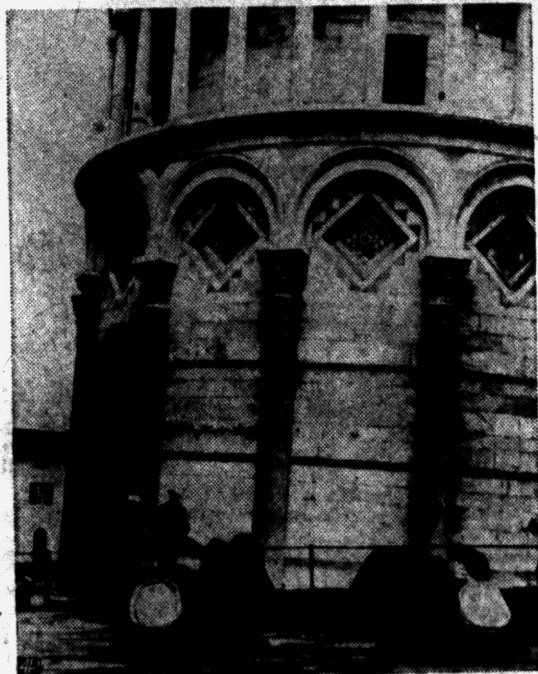

basic principles which have proved so effective in helping alcoholics cope with their illness can also be applied to helping their families bear their peculiarly heavy cross.

Alateen is the second non-alcoholic fellowship to grow up around AA. The first was the "Al-Anon Family Group" movement, organized several years ago to provide counsel and mutual sup-

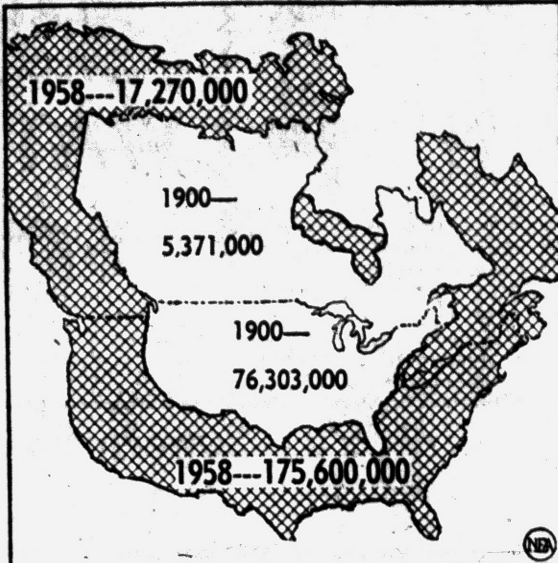

port for the husbands and wives of alcoholics.

Although each Alateen group is self-supporting and self-governing, with the teenagers themselves in full charge of all activities, the movement is under the general sponsorship of Al-Anon. Information about organizing groups

can be obtained from Al-Anon, Box 182, Madison Square Station, Group Headquarters, Inc., P. O. New York 10, N. Y.

SIGHT TO SEE — Pair of U.S. sailors, in effort to get new angle, lie on ground to photograph the upper portion of the Leaning Tower during visit to Pisa, Italy.

GROWING NEIGHBORS — Since the turn of the century the population of Canada has trebled, while that of the U.S. has more than doubled. Going into 1959, Canada added 3.3 million citizens since 1951—an annual increase of 2.8 per cent. The U.S. growth since the beginning of the decade has been 24½ million—an increase of 1.7 per cent annually.

Discharge McKean From Marine Corps

CHERRY POINT, N.C. (AP)—Marine Cpl. Matthew C. McKean, who led six recruits to their deaths in a tidal creek at the Parris Island, S.C., Marine Corps recruit depot three years ago, is being discharged because of a physical disability.

A spokesman at this Marine Corps air station, where McKean has been assigned since 1956, said a physical evaluation board had recommended the discharge because of a "ruptured intervertebra disc."

McKean's wife and their three children live in Worcester, Mass.

McKean was a drill instructor at Parris Island when he led his recruit platoon on a night march into the tidal creek where six were drowned.

McKean was convicted by a court martial in 1956 of negligent homicide and drinking on duty. He was sentenced to nine months in jail, reduction in rank to private, a \$270 fine and a bad conduct discharge.

The sentence later was reduced to three months in jail.

Enriched Corn Fritters May Be Frozen

Both the time and the money budget will be well in hand when corn fritters are on the menu. You see, they can be frozen and reheated in a hot oven in just 20 minutes. Hot appetizers can be served even to unexpected company.

Did you ever hear of such efficiency and organization? You're sure to be the talk of all your friends. Some of them might even suspect you of a special sinister type of magic!

Prepare a double recipe of Tiny Corn Fritters. That unusual nutlike flavor that blends so perfectly with

the corn is due to the whole wheat cereal, the kind with wheat germ added. Serve one recipe for supper with crisp bacon or nice juicy pork chops.

Now freeze the second batch to serve for that time when a few friends drop in. You'll be showing off, there's no doubt about it, but your guests will love it!

No, we won't be frittering our time this year, but they're so good, we'll probably be serving Tiny Corn Fritters any old time.

Tiny Corn Fritters

1/4 cup sifted enriched flour
1/4 teaspoon baking powder
1/4 teaspoon salt
1/4 cup instant or regular whole wheat cereal
1 tablespoon instant minced onion
1/4 cup milk
1/4 cups (1 No. 303 can) drained whole kernel corn
Shooting or oil for deep fat frying

Sift together flour, baking powder, salt, and pepper. Stir in whole wheat cereal and minced onion. Beat egg and milk together. Add to dry ingredients. Stir in corn. Mix thoroughly. Drop from teaspoon into deep, hot fat (375 degrees). Fry until brown, 2-3 minutes. Drain

on absorbent paper. Yield: 3 dozen 1 1/2-inch or 4 dozen 1-inch fritters.

Note: Fritters may be frozen. To thaw, unwrap and heat for 20 minutes in a 400 degree oven.

Chinese Mustard Sauce
2 tablespoons dry mustard
1/4 teaspoon salt
2 teaspoons salad oil
1 teaspoon cornstarch
1/4 cup water
Mix mustard, salt, and salad oil. Combine cornstarch and water. Boil until thickened and clear. Stir constantly. Gradually add to mustard mixture. Mix well. Add turmeric if a deeper color is desired. Yield: 1/2 cup.

Anything Goes for Breakfast

The urge or teeners to be off beat — yet not miss the beat — can lead them to choose a well-scored breakfast... one that does not drum out a set breakfast routine.

Teeners who miss the beat at breakfast may be bored with routine breakfast fare. So say scientists who have studied reactions same way, day after day. This is why teeners suddenly ban, at breakfast, foods liked since childhood.

Their rejection of these once-

liked foods is sharpened by a growing capacity for independent action. When your teener chooses an egg salad sandwich made with enriched bread, a bowl of tomato soup, and a wedge of cabbage, he may be unorthodox, but his breakfast contains the nutrients needed for good health. Or, maybe your teener has a yen for a breakfast the Greeks enjoy: Bread and cheese with a whole tomato or fruit.

If your teener is off beat about breakfast, he has the right beat as long as he is acting in the newer knowledge of nutrition. And his independent action is in harmony with the American way of trying the new, the different, the unorthodox.

Why not follow his lead? Recogn-

nize the fact that good nutrition is possible without set meal patterns. Nourish the urge to be off beat about meals, as long as you include these essential foods each day: Enriched or whole grain bread or cereal, fruits and vegetables, meat or an alternate, and milk.

Fleck Soup With Carrots

Golden specks of carrot float through this grand old soup... in 1939 style. Ladle it, piping hot, into soup plates or bowls. This is what you do: In a saucepan, combine 1 can (10 1/2 ounces) frozen condensed green pea with ham soup and 1 soup can water. Heat slowly stirring often. Before serving, stir in 1/2 cup finely grated carrot. Makes 2 to 3 servings.

Marinated Green Beans Delightful in Salad

Whole green beans which have been marinated in a piquant sauce of olive oil and tarragon vinegar are attractive for a salad or as an hors d'oeuvres offering. Cover cooked or canned blue lake green beans or tender young whole green beans with the following mixture: 1/2 cup tarragon vinegar, 3 tablespoons Spanish olive oil, 1 1/2 teaspoons sugar, 1 1/2 teaspoons salt and 1/2 teaspoon freshly-ground pepper.

To serve, drain beans, arrange bundles of the beans inside rings of thinly-sliced sweet onion, then place bundles on crisp salad greens, allowing 1 bundle of beans for each serving.

Scissor Cut Bread

To make uniform sandwiches for that gay party, use scissors to cut the outer crust of bread. Automatically the top and bottom slices will be even with no fuss or muss. Make your sandwiches with different colors and flavors of fillings for a decorative and tasty effect.

Let's Have a New Dessert

By JANET ODELL
Pontiac Press Home Editor

"Something's gotta give" may be the words of a song, but it can well apply to the way most of us feel right now. Weary of the in-

cessant snow, cold, and ice, we're beginning to fray around the edges of our good humor.

You have to stay home because you are afraid you'll fall on the ice? Use your extra time to

prepare a special dinner for your family and climax it with a scrumptious dessert.

Your menu sounds dull and uninteresting, but it's the best you can do tonight? Serve something different for dessert and perk up the whole menu.

Friends have agreed to brave the elements and come over for the evening? Ask them for dessert and make the evening an early one since everyone has to work the next day.

Anyway, who needs such excuses to serve dessert? Here's a trio of them which we hope will appeal to you.

Packaged pre-cooked rice now comes in a large economy size. It makes 7 cups of rice. Try some of it in this creamy dessert recipe.

Pineapple Cream Rice
1 1/2 cup packaged pre-cooked rice
1/2 cup pineapple juice
1/2 cup water
1/2 teaspoon salt
1/2 cup well-drained canned crushed pineapple
1/2 cup whipping cream
2 to 4 tablespoons sugar

Combine packaged pre-cooked rice, pineapple juice, water, and salt in saucepan. Mix just to moisten all rice. Bring quickly to a boil over high heat. Then cover and simmer 5 minutes. Remove from heat and let stand 5 minutes. Add pineapple, mixing lightly with a fork. Cool to room temperature.

Whip cream and add sugar. Then fold cream into rice mixture and chill about 1 hour. Makes 4 servings.

Some time during Lent the sap

starts to rise in the maple trees and the 1939 crop of maple syrup and maple sugar is produced. Pure maple syrup gives a distinctive flavor to many dishes. We think you'll like it in and on gingerbread.

Pure Maple Gingerbread
1/2 cup pure maple syrup
1/2 cup boiling water
1/2 cup sugar
1 1/2 cups all purpose flour
1 teaspoon soda
1 teaspoon ginger
1/2 teaspoon salt
4 tablespoons melted butter

Mix and sift dry ingredients. Add maple syrup and water. Add butter. Beat well. Spread mixture in buttered shallow pan. Bake about 35 minutes at 325 degrees.

Sauce:
1 1/2 cups pure maple syrup
1 tablespoon flour
1 tablespoon butter
1 egg

Let come to a boil, then pour over a well-beaten egg. Stir and serve on gingerbread. Serves 6.

Grapefruit Alaska is truly a glamorous dessert. The combination of hot and cold, sweet and sour, is found in no other recipe. Although it looks impressive and hard to make, it isn't.

Grapefruit Alaska
3 grapefruit
1/2 teaspoon salt
2 egg whites
6 tablespoons sugar
1/2 teaspoon vanilla
1 pint vanilla ice cream

Cut grapefruit in half; remove core. Cut around each section loosening fruit from membrane. Sprinkle lightly with sugar. Chill. When ready to serve, pre-heat oven to very hot (500 degrees F.).

Add salt to egg whites and beat until stiff; gradually add sugar and beat until very stiff. Add vanilla; reserve.

Remove grapefruit halves from refrigerator; place spoonful ice

cream in the center of each half. Cover with meringue. Place in pre-heated oven until lightly browned, about 1 minute. 4 servings.

NOTE: To make shells with a picot edge, trace a line around center of grapefruit. Insert small

bladed pointed knife in center of grapefruit at an angle to make one side of a point. Remove knife; insert to make opposite side of point. Continue around grapefruit following line to keep halves equal size. Pull apart. Follow directions for preparing shells.

Cocoa Whipped Cream

Fold a couple of tablespoons of sweetened cocoa mix and a tablespoon of sugar into a cup of whipped cream. Use as a topping for cake slices or a vanilla or orange chiffon pie.

Protect Disinfect

Use Roman Bleach to disinfect baby's washing. Also, toys, play pen, etc. Roman Bleach is safe, easy to use.

LEARNING NEW TRADE — Orville Hill, telephone lineman who lost use of his legs in fall from a pole, learns appliance repair at Okmulgee Tech training school. He plans to open a small repair shop in his home town of Eudora, Ark.

State Educates the Handicapped

Oklahoma Shows Heart
for Her Disabled Citizens

OKLAHOMA CITY (AP)—Oklahoma has football, Indians, oil — and a cold-eyed compassion for her handicapped citizens. The state is one of the most progressive in the nation in helping the disabled help themselves.

A man with no hands is never lucky, but an Oklahoman with no hands has a better chance than most others to again become a productive, self-sufficient member of the community.

One of the reasons for Oklahoma's record is the firm backing of Gov. Raymond Gary, who supplied from his contingency fund the \$15,000 that got the program moving two years ago.

The grant enabled the Governor's Committee on Employment of the Handicapped to hire a full-time director and office secretary for one year.

EFFORT PAYING OFF

Last year the Oklahoma Legislature demonstrated its support by giving the committee \$40,000 to retain the executive director for

two more years. Don Davis, the first man to fill the job, is still at it and the results are starting to roll in.

Oklahoma ranked sixth in the nation in hiring of the handicapped during 1957. Just under 12,000 jobs were filled by persons with some disability.

Davis' job is entirely one of co-ordination. He has no authority to tell anyone how to rehabilitate a handicapped person or how to arrange employment for one.

He conducts short and long range programs of public education. He makes or arranges for frequent speeches before civic, veterans and employer groups. He often makes contact with individual employers

on behalf of specific handicapped persons.

Another part of Oklahoma's attack on disability is the Vocational Rehabilitation Center at Oklahoma State University's School of Technical Training at Okmulgee.

Commonly called Okmulgee Tech, the school provides dozens of trade and technical courses ranging from greenhouse management to saddle-making.

Most of the students are able-bodied. About 300 per year are disabled to some extent. Combined with the school is a physical rehabilitation center which, since 1951, has treated more than 1,000 students.

Here the job of rebuilding bodies is the primary aim. But when a man has mastered his new legs or learned how to walk in braces, he often needs a new trade.

Unlike any other state, he can continue his physical training while taking vocational schooling and all under one roof.

Begin Working
on Odd Bridge

Houghton to Hancock
Span to Be 1st Vertical
Lift Setup in Michigan

LANSING (AP)—Highway Commissioner John C. Mackie has announced the start of work on the \$5,933,889 superstructure of the unique vertical lift Houghton-Hancock Bridge.

The span, linking the two cities along U.S. 41, runs across the Portage ship canal.

The bridge will be the first vertical lift bridge on the Michigan trunkline system and it will have two levels. The upper level will carry vehicular and pedestrian traffic and the lower portion will be used by railroads.

Over-all length of the bridge will be 1,310 feet. It will have a 253½-foot center lift span.

When not used by trains crossing the lower level train deck, the center lift span will be elevated and the train deck will become the vehicular deck. This will permit small craft to pass beneath the bridge without stopping traffic. The bridge is scheduled for completion by Dec. 15.
