

Nuclear Reactor Explosion Kills Three in Idaho

SITE OF EXPLOSION — In the basement of this building 40 miles from Idaho Falls, Idaho, a prototype of a small nuclear power plant blew up Tuesday night killing three military trainees, the only one in the building at the time. The blast was confined to the basement, and the area immediately surrounding it was filled with dangerous radiation. The Atomic Energy Commission has sealed off the area and says that neither the rest of the station or the town of Idaho Falls is in danger. The reactor involved is a forerunner of one planned for use by the Army in remote areas.

AEC Seals Off Area

IDAHO FALLS, Idaho — A new-style nuclear reactor blew up Tuesday night, killed three men and touched off a high level of deadly radiation in a building at one of America's major atomic testing stations.

The Atomic Energy Commission quickly sealed off the area and said there was no danger to other parts of

Rob Union Lake Bank of \$16,814

Deposit Box Rigged; Haul May Have Been Bigger if Wire Held

Sheriff's department detectives today theorized that burglars who robbed the Community National Bank at Union Lake of \$16,814 probably would have got a bigger haul if their simple but rather ingenious plan hadn't failed in part.

The burglars had rigged a wire across the back of the bottom panel on the mail box-type safety deposit box's outside door.

When depositors over the New Year holidays dropped their money bags through the door the wire would catch the bags and prevent them from sliding down the chute into the bank vault.

If any of the depositors had reopened the door, he would have found his money bag still sitting on the panel, just inside the door, within easy reach.

The burglars snared at least four deposit bags in this manner before the wire fell off, and landed in the vault below. One of the money bags was probably too heavy for the wire to hold, detectives said.

The burglars, who police believe may have had a key to the safety deposit box, evidently had stationed themselves near the box and risked it after each deposit.

Loss of the four money bags was discovered yesterday when the

Above-Freezing Temperatures Due Thursday

Sky will continue partly cloudy tonight with temperatures somewhat warmer, the weatherman said.

The low will drop to near 22 degrees. Thursday's high is expected to hit near 36. Saturday will be colder but Monday will find temperatures warming up again.

Light snow will fall on the Pontiac area about Friday and again Sunday.

Morning west to southwesterly winds at 5 miles per hour will become eight to 15 miles late this afternoon and tonight.

The thermometer reading dropped to 8 above zero at 6 a.m. today but had climbed to 19 at 2 p.m.

STUMBLING BLOCK

'Self-Respect' Forces U.S. to Sever Cuban Relations

1960 Car Production 2nd Best in History

FROM OUR NEWS WIRES

DETROIT — American automobile manufacturers reported Tuesday they built 6,694,327 passenger cars in 1960, a rise of about 20 per cent from the previous year and the second highest total in history.

The record production year was 1955 when 7.9 million cars were built. Four of the five companies bettered last year's figures.

General Motors and Ford had their best years since 1953 and American Motors set a company record. Chrysler's total was its best since 1957.

Compact car production in 1960 totaled 1,943,435 units or 29 per cent of all cars built. In 1959 the smaller cars numbered 755,435 or 11.5 per cent.

Strikers Stone Airliner Building

Violence Defies Report
Opposition to Belgian Program Subsiding

BRUSSELS, Belgium — Socialist strikers stoned Belgium's Sabena Airlines building in downtown Brussels today, attacked street cars, and clashed with police.

The violence came as the government maintained that the strike against Premier Gustaf Eyskens' economy program was ebbing and the nation returning to normal.

Troublemakers broke away from about 5,000 strikers who had marched through the heart of the capital chanting "Eyskens to the Gallows."

Aid to Depressed Areas No. 1 on Senate Agenda

WASHINGTON (AP)—Senate Democratic leaders have started a drive to get through Congress the first of the social welfare bills President-Elect John F. Kennedy has pledged to back.

No. 1 is the depressed areas bill. It was learned today that Senate Democratic leaders will give it the "S.1." ticket as the first Senate bill introduced this year.

JUST BOASTING AROUND — Sen. Vance Hartke, D-Ind., (left) jokingly presents Sen. Hubert Humphrey, D-Minn., with a pair of whips Tuesday to mark his election as assistant Democratic leader in the Senate. The job officially is designated as majority whip. Humphrey succeeds Sen. Mike Mansfield of Montana, newly-chosen leader. Humphrey is backing a control-filibustering bill.

Hamilton Held on First-Degree Murder Charge

Faces Examination in Slaying of His Wife's Brother William

Accused of slaying two of his wife's brothers, Keith I. Hamilton was held in Oakland County Jail today on a charge of first-degree murder.

The 25-year-old laborer and former preacher, who police say admitted the killings "on impulse," was arraigned yesterday before Pontiac Municipal Judge Cecil McCallum.

Don't Rush, Cuba Tells Americans

HAVANA (AP)—The U.S. Embassy today made arrangements for the speedy exodus of Americans from Cuba and urged all to depart in the wake of President Eisenhower's decision to break diplomatic relations with the Fidel Castro government.

The first wave of departing diplomats and other Americans was expected this afternoon.

An unusually courteous note from the Cuban government, however, suggested there was no need for haste. It pledged the "most absolute guarantees" of safety for all American citizens — residents, tourists and diplomats alike.

Offers Moving Aid

It further emphasized the amenities by offering "in concordance with the norms of international right, every kind of facility" for the removal of the embassy's office equipment and other property.

The Castro government said it in turn would withdraw its diplomatic personnel from the United States as speedily as possible and turn its representation in the United States over to Communist Czechoslovakia's diplomats.

Shell Oil Launches Newspaper Ad Drive

One of the biggest and most unusual advertising campaigns in newspaper history is just starting. Placed by Shell Oil Co., the advertising is appearing in The Pontiac Press.

Virtually all of the company's consumer advertising budget for 1961 has been allocated to daily newspapers. The petroleum industry has been for many years a heavy newspaper advertiser. However, this is the first time that an oil company has placed all its advertising in one medium.

Ike Breaks Off Diplomacy as 'Limit Reached'

Extends Sympathy to People Suffering Under 'Yoke of a Dictator'

WASHINGTON (AP)—President Eisenhower has broken U.S. diplomatic relations with Fidel Castro's Cuban regime, declaring "the limit has now been reached to what the United States in self-respect can endure."

The President said "our sympathy goes out to the people of Cuba now suffering under the yoke of a dictator."

White House Announces

The White House announcement at the breakfast Tuesday marked rock bottom in a downward plunge of U.S.-Cuban relations that started soon after Castro's capture of power two years ago.

Castro's anti-United States

attacks and his surge to the Communist camp have mounted over the months.

The bearded Cuban leader rejected Eisenhower's statement by saying, "We are alert." He called his Cabinet into emergency session, then sent a note to the U.S. Embassy guaranteeing safety of all remaining Americans.

Uproar Derails U.N. Meeting as Roa Speaks

UNITED NATIONS, N.Y. (AP)—An anti-Castro demonstration broke out in the public gallery of the U.N. Security Council today during a speech by Cuban Foreign Minister Raul Roa.

The outbreak forced a 10-minute recess in the council meeting.

U.N. guards quickly moved

on the demonstrators as they heckled Roa, but when the shouting persisted, Council President Ambassador Omar Lattuf of the United Arab Republic ordered a recess.

Roa had just begun presenting Cuba's charges that a U.S. invasion of Cuba is imminent. Roa said Tuesday night's break of U.S.-Cuban relations would contribute to the increasing tension.

Earlier the United States accused Cuban Prime Minister Fidel Castro of deliberately fomenting the brake of relations by a strategy of harassment.

Elliott, Mrs. Phillips Interested?

Eying 2 State Party Spots

By GEORGE T. TRUMBULL, Jr.
Two Oakland County political leaders, in line for top leadership jobs in their respective parties the next two years, are still weighing the offers.
Republican County Chairman Arthur G. Elliott Jr. left today for Pompano Beach, Fla., and two weeks in the sun. He headed there without word one way or another whether he'd be a candidate for state chairman at the Feb. 4 state convention in Detroit.
Becoming somewhat more definite on whether he'd bid for the vice chairmanship of the state Democrats was Mrs. Harriet Phillips.
The Huntington Woods housewife and veteran Democratic State Central member who on Nov. 25 said she was "interested but not a candidate" for the second party spot, yesterday said, "I am considering it very strongly."

And she apparently has the blessing of Gov. John B. Swainson for the post being vacated by Adelaide Hart.
TALKS ABOUT POST
"He indicated he would like me to consider it very strongly," Mrs. Phillips said upon returning from a six-hour conference with Swainson and other top party leaders in East Lansing Monday.
Should Elliott and Mrs. Phillips jump into the race, and win, Oakland County for the first time would have top state leaders with both parties.
Both jobs will be decided on by party delegates in convention in Grand Rapids for Democrats Feb. 4, and in Detroit the same time for Republicans.
Belleville, however, Oakland Democrats and Republicans will convene their own conventions at which time they should know in which direction their two prospective party leaders are going.

Before he left for Florida, Elliott said there was a "reasonable chance" he would announce his decision the day after he headed Jan. 16 north to Michigan. Oakland delegates meet Jan. 10 to name delegates and alternates to the state convention.

Elliott, 42, who has been chairman since 1957, gave three reasons bearing on his decision whether to seek the job now held by Lawrence B. Lindner, Lindenber, too, apparently is deciding whether to bid for another term.
"This kind of move involves a tremendous shift in my business interests," Elliott, a Royal Oak real estate broker and insurance man, said. "I want to be sure an affirmative decision wouldn't affect my business associates to any great extent."

"Then there is the responsibility of a state chairman to his family."
"Thirdly, I want to be very certain in my own mind that my candidacy will have the effect of strengthening the party. If I don't come to this conclusion there will be no candidacy."

Asked whether she had decided for the Democrats second spot, Mrs. Phillips said to her husband, James M. Ginn, county chairman.
Ginn said although he had discussed the possible shift with Mrs. Phillips, chairman of the State Central committee which screens legislative candidates, he didn't have any formal request from Mrs. Phillips for endorsement by the county committee.

It could come next Monday when the executive committee meets or at the county convention in Pontiac Jan. 25.
"If the governor supports her for the position," Ginn said, "certainly she would have support from me, and I'm sure from the county committee."

Legislative candidates, he didn't have any formal request from Mrs. Phillips for endorsement by the county committee.
It could come next Monday when the executive committee meets or at the county convention in Pontiac Jan. 25.

CHARGED WITH MURDER — With two sheriff's deputies beside her, Mrs. Sarah Sue Lawrence, former housewife from Berkley, walks into the courtroom where she was to be arraigned yesterday for the April 1959 murder of the wife of her former boy friend.

A legal motion, in which her attorney, James R. Renfrew, had said Mrs. Lawrence, 32, stood aside to the first-degree murder charge. Renfrew requested Circuit Court Judge Clark J. Adams to remand the case back before Independence Township Justice William H. Stamp.

Mrs. Lawrence, of 5652 Oxford Street, is accused of the fatal April 1959 shooting of Mrs. Donald Crenshaw in the Crenshaw home, 6239 Snow Apple Drive, in a fit of jealousy.

Independence Township police said Mrs. Lawrence once dated Crenshaw.

Renfrew said that Justice Adams was legally wrong Dec. 29 when he twice refused to allow the testimony of three psychiatrists who testified after the shooting that Mrs. Lawrence was mentally ill.

She was ordered then by Judge Adams to be committed to Loni State Hospital until cured. She was discharged in December to face the murder charge.

"This constitutes a deprivation of liberty without due process of law," Renfrew said of Stamp's denial of this testimony. He said Stamp also refused to allow an adjournment in the case so he could subpoena the doctors.

Renfrew said he hopes to prove Mrs. Lawrence insane at the time of the killing.

Judge Adams asked Renfrew and Prosecutor George F. Taylor to check the lower court transcript of Mrs. Lawrence's preliminary hearing. Renfrew said Stamp's decision was based on the transcript.

"It disturbs me a little bit that Judge Adams said he would hear again at 9 a.m. tomorrow," Judge Adams said.

He said the case would be heard again at 9 a.m. tomorrow.

Judge Adams again refused to allow Mrs. Lawrence to go free on bond as requested by Renfrew. First-degree murder charges in Michigan usually carry no opportunity for bail.

Hamilton's flight took him to Owosso, his home town, in a stolen car.

He surrendered to police there 3 1/2 hours after the shootings.

Stanley Smith, who also lives in the Lincoln Street home, discovered the body of William Smith after Hamilton threatened to shoot him as he fled the home.

Carver discovered the body of Melvin Smith.

The Day in Birmingham

Aim at July Starting Date for Bloomfield Hills Sewer

BIRMINGHAM — Construction of a Bloomfield Hills \$15 million internal sewer system is expected to begin in July with completion due a full working year later, City Clerk Robert Stadler said today.
"But those dates are tentative and depend on a lot of things," he explained, referring to the job being undertaken currently by the city to obtain easements where the sewer line has to cross private property.
"If any of the property owners whose property we have to cross in installing the lines refuse to sign the agreement, we would have to go into court for a condemnation award," added Stadler.
"And that could set us back several months at least."
The clerk said that easements to approximately 20 properties are needed before the sewer installation gets under way.
Property owners approved the bond issue by a 319 to 189 vote Dec. 13 with a 60 per cent majority needed for passage of the proposal carried by 14 votes.
The proposition was approved less than three months earlier by a two-vote margin but the election was later nullified when it was discovered that an election notice failed to appear in a weekly newspaper.
At the next meeting of the City Commission, Jan. 10, officials will set the date for the sale of the bond issue, probably in March, according to Stadler.
Stadler said it is expected that all but \$20,000 of the bonds will be sold at that time for immediate sewer construction in built-up areas.
The remaining \$10,000 in bonds would be sold at a later date as undeveloped areas become populated.

Some workable plan will have to be formulated by the commission, Stadler said, in cases where residents already have their own sewer system.

ALL TO BE ASSESSMENT
"All the residents in the city will be assessed but when they are already served by sewers in several subdivisions the commission will arrange to give them credit for the improvement," the clerk explained.

As it now stands it is estimated that property owners will be taxed an additional \$7.31 for each \$1,000 of assessed valuation.

If the commission goes ahead with its plan of issuing only a portion of the bonds immediately, the first year payment would be reduced to \$1 on each \$1,000.

Nearly 25 miles of sewer line will be installed before the job is completed, according to consulting engineer Fred Sytk of the Birmingham firm of Hubbell, Roth and Clark.

The majority of pipe will be eight inches in diameter, with some 16 and 18-inch segments.

When completed the gravity flow system will be connected to the Evergreen Interceptor Sewer.

Latta W. Porter
Service for Latta W. Porter, 31, of 807 Chestnut St., will be 2 p.m. tomorrow at the First Presbyterian Church. Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Porter died yesterday of a heart attack while visiting the Community House.

A Birmingham resident since 1923 he was a retired insurance broker.

He was an elder at the First Presbyterian Church and a member of the Purdue Alumni Association of Detroit and the Birmingham Golf Club.

He was a lay minister, Porter was instrumental in organizing the Troy Community Church.

Surviving are his wife Bessie; a daughter, Mrs. Edward M. Tyler of Huntington, L.I., N.Y.; a son, Robert H. of Birmingham; and two grandsons.

His body will be at the Bell Chapel of the William R. Hamilton Co. until noon tomorrow.

Senate Works on Bill for Depressed Areas
(Continued From Page One)
Humphrey, D-Minn., and Thomas H. Kuchel, R-Calif.

Southern senators spoke sharply against their state's change and prepared an arsenal of parliamentary moves to fight it. The new majority leader, Sen. Mike Mansfield of Montana, said he hoped the issue can be settled this week.

In the House, Speaker Sam Rayburn and other Democratic leaders are determined to curb the power of a Southern Democratic-Republican coalition in the Rules Committee that often has blocked liberal legislation.

"The only question," said one, "is whether it is done painlessly or the hard way. It is going to be done, one way or the other."

The hard way would be to remove Rep. William Colmer, D-Miss., from the committee and replace him with a liberal. He is one of the two Southerners who vote with Republicans on the committee.

Another way would be to increase the size of the committee and pack it with liberals. If something is not done, the leadership feels, much of the Kennedy program might get stuck in this bottleneck.

Bloomfield Man Dies of Injuries Suffered in Crash
The death of a Bloomfield Hills man, injured in a traffic accident over the New Year weekend, was reported yesterday to Detroit police.

Harold R. Carter, 39, of 1565 Lone Pine Road, died Monday in Redford General Hospital from injuries suffered Saturday when his car struck the rear of another near Seven Mile and Evergreen Roads.

Service for Carter will be held at 10:30 a.m. tomorrow at the William Wain Funeral Home, Royal Oak. Burial will be in Woodlawn Cemetery, Detroit.

A Navy veteran, Carter was a salesman for his father's firm, the Wain Co., a Detroit industrial contracting company.

Surviving are his wife, Geraldine, his father, a brother and two sisters.

Pontiac General Gets \$20,000

Grant From Detroit Foundation to Finance Psychiatric Unit

A gift of \$20,000 has been granted Pontiac General Hospital to finance a psychiatric unit.

The gift was announced today after the board of trustees authorized establishment of the unit—the first in any Oakland County general hospital.

The grant is the largest private donation ever received by the hospital.

It came from the Kohn Foundation in Detroit, headed by Marcus Freud, a Detroit lawyer who lives at 1455 Nakomis Drive, Lake Orion.

The same foundation gave Pontiac General \$5,000 last year to wards purchase of the Cobalt X-Ray therapy unit.

Establishment of the psychiatric unit will put to full utilization the added bed space gained through the five-year, \$3 million expansion program.

The 25-bed unit should be completed in about three months on the unused fifth floor of the east wing, putting the hospital's complement at 255 beds, said Harold B. Euler, hospital administrator.

The \$20,000 will cover all the costs of equipment furnishings and remodeling, said Euler.

The board of trustees approved the plan in a telephone poll today, Euler said. A psychiatric unit has been under consideration for several months, but financing was one of the obstacles.

Dr. John D. Marra, medical director of the hospital, said the unit would bring important new facilities to the Pontiac area.

He said the unit would provide facilities for care of patients with short-term disturbances, not requiring long-term treatment in a state institution.

The Kohn Foundation is based on the family fortune of the late Marcus Gregor of Detroit and his late daughter and son-in-law, Mr. and Mrs. Otto M. Kohn. It is founded mainly on land holdings, said Freud.

December production for Ford was 147,687 units compared with 156,827 in December 1959.

Chrysler Corp. reported total production of 1,089,600 cars and trucks of which 1,019,295 were passenger cars.

December production for Chrysler was 33,849 units compared with 30,996 in December 1959.

American Motors claimed a new auto record for independent auto makers with 1960 production of 668,745 units, up 11 per cent from the 1959 figure of 601,464, the previous record.

December production for American Motors was 42,532 units compared with 40,526 in December 1959.

Studebaker-Packard reported production of 105,902 passenger cars and 12,314 trucks for 1960 totals in the 18,218. S-P was the only auto firm reporting an over-all drop from 1959 when production hit 164,602 units.

December production for Studebaker-Packard was 5,168 units compared with 13,721 in December 1959.

Almost lost in the production totals was an announcement by Checker Motors which reported 1960 production of 1,003 units compared 8,705 in 1959.

Students Are Registering at MSU This Week
Students at Michigan State University Oakland are registering this week for the winter term which begins Thursday.

University officials expect a drop in the number of students enrolled for the fall term.

Delay Arraignment of Sue Lawrence

Grant From Detroit Foundation to Finance Psychiatric Unit

A legal motion, in which her attorney, James R. Renfrew, had said Mrs. Lawrence, 32, stood aside to the first-degree murder charge. Renfrew requested Circuit Court Judge Clark J. Adams to remand the case back before Independence Township Justice William H. Stamp.

Swainson Freets Over Youthful Image in Photos

LANSING (UPI) — Gov. John R. Swainson, a youthful 35, is worried about the image of immaturity he may present in pictures taken since he became Michigan's chief executive.

He thanked newsmen Tuesday at the first press conference

since he took office for the in-sinuous coverage.

"But some of the pictures made me look too young," said Swainson, who has crew-cut reddish hair and a boyish smile, and is Michigan's second youngest governor.

The total area of the Japanese islands is 142,500 square miles, less than that of Montana. Yet the islands have a population of 94 million, 140 times the population of Montana.

Highway's H. R. Puffer Is Being Buried Today

LANSING (UPI) — Funeral services were held today for Harold R. Puffer, 63, a State Highway Department official who supervised design of most of the interchanges on Detroit's Lodge and Ford freeways.

Puffer died Saturday of a heart ailment. He was director of the department's bridge and road design division.

REPUBLICANS STAY ON — Three senators re-elected to top posts by Senate Republicans get together at their party's caucus Tuesday.

From left: Everett Dirksen of Illinois, floor leader;

Leverett Saltonstall of Massachusetts, chairman of the conference of all Republican senators; and Styles Bridges of New Hampshire, chairman of the Senate GOP policy committee.

Waterford Keeps Good Thing

Popular Classes Return

Classes in dog obedience training, cake decoration and bridge instruction were so successful during the fall season at the Waterford Township Recreation Center, they are again being offered, according to Township Recreation Director Tom Belton.

Cosponsored by the township recreation board and the Southern Michigan Dog Obedience Training Club, the course will run for 12 weeks beginning at 8 p.m., next Wednesday.

Director of the course, Charles Barnes has asked that prospective dog trainers leave their pets at home the first night because only demonstrations will be given. Registrations will be scheduled.

A 10-week course in cake decorating for beginners will start from 7:30 to 9:30 p.m. Monday, according to Mrs. Audrey Hines instructor for the course.

Mrs. Gladys Kempf will direct a 10-week course in the fundamentals of bridge beginning Tuesday from 8 to 10 p.m.

Registration for additional activities are now being accepted at the recreation department offices and include Saturday morning gym and crafts for children 1 to 13 at Donelson school, Cray

Central Committee to Study Red Farms

MOSCOW (UPI) — The critical situation in Soviet agriculture will be taken up at next week's meeting of the Central Committee of the Communist party, says Premier Khrushchev.

He told newsmen of the decision at a reception Monday night. His announcement followed the transfer of Vladimir Maskaevich from the post of agriculture minister to the smaller but perhaps more critical job of raising production levels in the virgin lands of Kazakhstan.

This area, a new wheatland put under the plow by Khrushchev's orders, has suffered two successive failures to meet production goals.

The magazine, Communist, a theoretical journal, complained bitterly that the result of work on experimental farms "are not made available for dirt farmers on state and collective farms."

Name City Commissioner Mayor of Muskegon

MUSKEGON (UPI) — Alfred A. Meyers, a city commissioner Tuesday was named Muskegon's new mayor.

The commission appointed Meyers to the two-year post to succeed Don F. Seyferth. Meyers is at the halfway mark in his second four-year term as a commissioner.

Henry J. Klevering, another commissioner, was named vice mayor. George Liddle was reappointed Muskegon city manager.

Dr. Varner on Radio
Friday From 2-3 P.M.

Dr. D. B. Varner, chancellor of Michigan State University, will be interviewed Friday on Detroit radio station WJR's "Composite."

The program conducted by Dan Price will be broadcast from 2 to 3 p.m.
Varner will discuss the philosophy and goals of MSU.

Deaths in Pontiac and Nearby Areas

MARtha A. HERRING

Prayers will be offered at 8 o'clock at the Frank Carruthers Funeral Home for Martha A. Herring, infant daughter of Mr. and Mrs. Theodore Herring of 283 E. Wilson Ave. Burial will be in Oak Hill Cemetery.

Surviving besides her parents

are brothers and sisters Sidney, Gail, Rancy, Delancy and Glenn, all at home.

The baby died 12 hours after birth at Pontiac General Hospital Monday.

FRANK JAPPEL

Service for former Pontiac resident Frank Jappel will be held at 2 p.m. Saturday at the Jerome De Santa Funeral Home, 2670 Chadmont St., Detroit. Burial will be in White Chapel Memorial Cemetery.

Mr. Jappel, of Northridge, Calif., was an engineer at Pontiac Motor Division before moving to Detroit where he was employed at Chrysler Motor Corp.

At the time of his death he made his home with his son Frank Jr., 1000 E. 12th St., Detroit.

Other survivors include two grandchildren, and a sister Mrs. Helen Mather of Berkeley.

Mr. Jappel died Saturday in Northridge after an illness of several weeks.

THOMAS E. SHIPLEY

Thomas E. Shipley, 85, of 98 W. Tennyson Ave., died unexpectedly yesterday at his home.

A retired construction worker, he was a charter member of the Pike Street Church of God.

Surviving are a daughter Mrs. Dorothy Earnest of Pontiac; two sons, Howard of Pontiac and Herbert of Droyton Plains; 15 grandchildren; 15 great-grandchildren; three brothers, Isaac of Fowlerville, Lee and Charles, both of Northville.

Service will be held at 1:30 p.m. Thursday at the Pike Street Church of God with burial in Perry Mount Park Cemetery. His body is at the Vothsch-Siple Funeral Home.

MRS. ROBERT O. GIVENS

TROV — Service for Mrs. Robert O. (Esther M.) Givens, 63, of 1380 E. Big Beaver Road, will be held 1:30 p.m. Friday at the Price Funeral Home. Burial will be in White Chapel Memorial Cemetery.

Mrs. Givens died yesterday after a long illness.

She is survived by her husband, a sister and a niece.

MRS. JOHN MINES

HIGHLAND TOWNSHIP — Service for Mrs. John (Elizabeth L.) Mines, 88, of 2388 E. Highland Road will be at 1:30 p.m. tomorrow at the Richardson-Bird Funeral Home, 1000 E. 12th St., Pontiac.

Burial will be in Oakland Hills Memorial Gardens Cemetery.

Mrs. Mines died yesterday after an illness of two weeks.

Surviving are a daughter, Mrs. Orville Smith of Highland; four sons, Byrle of Highland, Lake and John, Edward and James, all of Highland; a sister; 24 grandchildren; and 45 great-grandchildren.

HOWARD L. LAPEER

LAPEER — Service for Howard L. Lapeer, 68, of 333 Washington St., will be at 2 p.m. tomorrow at the First Presbyterian Church with burial in Mount Hope Cemetery.

Masonic memorial service will be at 8 p.m. at the Baird Funeral Home. Mr. Lapeer, Lapeer Lodge No. 54, F&AM, the Rotary Club, the Eagles and the Bay City Consistory.

Surviving besides his wife Alice are a son, Clare of Birmingham; a sister, Mrs. S. T. McLean of Utica; and two grandchildren.

Ford of Brazil Plans to Build Automobile

RIO DE JANEIRO (UPI) — Ford Motor Co. of Brazil has announced plans to produce an automobile here to be known as the Ford Brazilero.

The company, which produces trucks and other vehicles here, asked the National Development Bank for permission to import the machinery necessary for the manufacture of the new car.

Willie Mays Moves Out, Will Ask for Divorce

NEW YORK — The World Telegram Tuesday reported that baseball star Willie Mays has moved out of his home in New

York and will start divorce proceedings against his wife Margaret Mays.

The standout center fielder of the San Francisco Giants, 33, was married on St. Valentine's Day, 1956. They have an adopted, 2-year-old son.

Dundee Names Execs.

Cuban Split Means Varied Side Effects

MIAMI, Fla. (AP) — Here's how the U.S. diplomatic break with Cuba will affect other relations between the two countries:

COMMUNICATIONS: "We have no notice to halt telephone calls in either direction, and we'll continue on the present basis," said Mead B. Ferris, divisional traffic manager for Southern Bell Telephone Co.

TRANSPORTATION: Pan American World Airways said it would add one flight to its regular two daily flights to Cuba "because reservations show there will be a need for it." National Airlines, which makes three weekend flights only, said it was undecided whether it would continue service.

FINANCE: "The break will mean little to the banks," said Conner Kimball, president of the First National Bank of Miami.

GOVERNMENT AFFAIRS: All Cuban embassies and consulates in this country will close. Among the first may be consulates in Tampa and Miami.

MAIL: Letters and packages travel between the United States and Cuba under the Pan American Union agreement and it is the practice for countries to continue an exchange even if diplomatic relations are broken.

REFUGEES: "It is impossible to tell at this early hour what our immigration service's attitude will be toward refugees fleeing Cuba," said Edward W. Ahrens, regional director of the Immigration and Naturalization Service. "Frankly, we are anxiously awaiting directives from Washington."

TRADE: The flow of truck farm produce from Cuba to the United States will be a first, victim of the break. United States ships have been carrying the crops, according to Joseph Fortier, supervising U.S. customs agent, and they will not take the chance because they have no protection in Cuban ports.

Hear Witnesses of Air Collision

7 Who Saw Crash Say Neither Plane Seemed to Take Evasive Action

NEW YORK (AP) — A Civil Aeronautics Board inquiry was told today that seven witnesses reported seeing the collision of a United Air Lines jet and a Trans World Airlines Super Constellation here on Dec. 16 and that neither plane appeared to be taking evasive action.

A report was read by George R. Baker, CAB air safety investigator, at the start of a CAB hearing into the plane collision over Staten Island that killed all 128 persons aboard the two planes and eight on the ground.

The TWA plane fell on Staten Island and the UAL plane in Brooklyn.

INTERVIEWS 125 Baker's report summarized interviews with 125 persons. The witnesses said both aircraft appeared to be in low-level flight and most of them reported that the UAL plane appeared to contact the right side of the TWA ship.

Except for the few witnesses who saw the two planes prior to the collision, the report said, most of them were attracted to the scene by the noise of the impact.

The report said most witnesses described the collision sound as being similar to that of a "jet breaking the sound barrier" and some said it was a grinding or crunching sound.

The report said that the Constellation "pitched up and the tail came off" following the collision and fire was seen to engulf the fuselage around the wing section. Most witnesses agreed that there was no explosion.

11 More Named to State Jobs

Swainson Adds to Line of Appointees Awaiting Senate Confirmation

LANSING (UPI)—Eleven more appointments to state jobs by Gov. George W. Swainson today resulted in a long line awaiting confirmation by the State Senate to 33 members. Swainson made 24 appointments Tuesday and said the total would reach "50 or 100" before he is through.

Included among today's appointments were Allan D. Chisholm, Detroit, chairman of the Labor Mediation Board, and William A. Caber, University of Michigan professor and nationally recognized expert on welfare, to the State Council of Health.

Other appointments today were: Mackinac Bridge Authority — Mrs. Elizabeth Briggs Fisher, Grosse Pointe Farms, and William J. Cochran, Birmingham, State Council of Health — Mrs. Katherine Reimann, Atlanta, Robert E. McCauley, Lansing, Dr. John Scott, Traverse City, and Mrs. Martha Reynolds, Grand Rapids.

Scott succeeds Dr. J. Maxwell Cook, Charlotte, whom the Senate refused to confirm last year. Michigan Historical Commission — Charles E. Feinberg, Detroit. Michigan State Board for Libraries — Mrs. Mary Daume, Monroe, and Mrs. Dorothy McAllister, Grand Rapids.

State Securities Woman Is Being Buried Today

DETROIT (UPI) — Miss Ruth Ruen, 61, "watchdog" of the Detroit securities and investment business for 25 years until her retirement in November, was buried in Brighton today.

The Lansing native started her career as a stenographer with the Michigan Corporation and Securities Commission in 1920. In 1933 she was named head of the regulatory agency and a year later was sent to Detroit to open the commission's office here. "The nationally prominent woman died in a Grosse Pointe hospital Sunday."

Faces Sentencing Jan. 16 in Burglary

A Dearborn man will be sentenced in Oakland County Circuit Court Jan. 16, following a plea of guilty yesterday to breaking into a Walled Lake pizzeria on Christmas.

Dale L. Swegles, 24, was remanded to the County Jail while the prosecution department prepared a presentence report for sentencing by Circuit Judge Clark J. Adams.

Walled Lake Police Chief James A. Decker said Swegles has admitted other burglaries in Farmington, Livonia, Detroit, Plymouth and Dearborn.

In photography's early days, a subject sat rigidly in the blazing sun for as long as 20 minutes, his face whitened with flour to reflect more light, for a single exposure.

Laotian Prince Gets Full Confidence Vote

VIENTIANE, Laos (UPI)—The Laotian national assembly voted full confidence in the pro-Western government of Prince Boun Oum today amid reports that pro-Communist troops had pushed to within 20 miles of the royal capital of Luang Prabang.

Government forces were reported to have lost considerable supplies of weapons and ammunition, including some 105 mm. howitzers.

C&O Pays \$4 Dividend for 4th Year; Eyes Future

CLEVELAND, Ohio (UPI)—The Chesapeake & Ohio Railway said business was good in 1960 and expected it to be better this year.

The railroad said net income for 1960 was \$42 million, equal to \$5.15 a share of common stock and marking the fourth straight year in which a dividend of \$4 was paid.

FINANCE CHIEF — Appointed chief financial officer of the Defense Department by President-Elect John Kennedy Tuesday, Charles J. Hitch of Los Angeles will be the biggest spender among the federal agencies. The budget is \$40 billion a year. Severing connections with the Rand Corp., Hitch, 50, says he will see how much he can get out of each and every dollar and avoid all the waste he can. He is the author of a book, "Economics of Defense in the Nuclear Age."

Theft Suspect Stands Mute at Arraignment

A 25-year-old Independence Township man, accused of stealing an array of power tools from a Pontiac Township hardware, yesterday stood mute to breaking and entering when arraigned before Circuit Court Judge Clark J. Adams.

Judge Adams ordered George Theobald, of 3445 Eastern Road, returned to the county jail under a \$5,000 bond while the prosecution studies a motion of Theobald's attorney that the bond be reduced to \$1,000.

The judge entered a plea of innocent for Theobald. A hearing on the motion to reduce the bail was set for 9 a.m. tomorrow.

Gen. David Sarnoff, head of the Radio Corp. of America, once was night operator of a lonely wireless station on Long Island. On a night in 1912 he picked up the first garbled SOS signals that the Titanic had struck an iceberg and was sinking.

ANY JOBS TODAY?—The girl with her back to the camera is only one of thousands who ask this question to Michigan Employment Security Commission workers every year. If she's fairly well qualified, Miss Leona Roach of 105 W. Russell St., staff member of the MESC Pontiac branch, will most likely find her a job. The local MESC staff usually has more trouble finding qualified job seekers than jobs.

Pontiac MESC Office Finds Jobs for Many

By DICK RAYNERS
Unemployment figures often tend to indicate only that people can't find jobs.

What usually gets lost in the mass of figures released by the Michigan Employment Security Commission each month is how many people are finding work.

The fact that Pontiac is blessed with one of the best-staffed MESC branch offices in the state is often buried under an avalanche of statistics about people out of work.

Actually, the local branch office is finding more jobs each year. And the service is free, both to the employer and the employee.

Paul Kimball, branch manager, said: "We placed more people in jobs in 1960 than any year since World War II," says Kimball.

"And we'll increase our number of placements in 1961," predicts Kimball.

"People are finding out about us. That means more are coming to us each year."

WORKERS COMPETENT
"Most of our people are veteran and at employment work, and everyone is extremely competent. The average for our staff is about 33 years experience per person."

"Many of our people have gained their experience in Pontiac and know the area and its employment trends well," Kimball says.

"We don't just get jobs for people. We get a type of employer for a type of employee and vice versa."

An unemployed person files a job application and an employer files a job order.

The prospective employee is interviewed briefly by an MESC worker and may be given a test to find what he or she is best suited for.

The employer's order lists specifications. He may want someone over 35, for example.

"Our purpose is to find the person that fits the employer's specifications. This way, both employer and employee can be custom made for each other," Kimball explains.

But what are the most important qualities that a job hunter can possess?

EDUCATION:
"Naturally, the more education the better, but without even a high school education the job seeker will very likely spend a life marked by long periods of unemployment."

According to figures compiled by Harold Truitt, chief of the placement division, the Pontiac branch

was head and shoulders above the state average for placement in 1960, creating a year ago.

From 1955 to 1956 the state average showed about a 58 per cent increase in the number of job placements made.

"Our increase was 75 per cent," says Truitt.

"This year's state percentage hasn't been compiled as yet, but in 1960 our office showed a 167 per cent increase over 1959 in placements."

"That all adds up to better than a 100 per cent increase in job placements in Pontiac in the past two years," Truitt asserts.

PLACED 7,346
The MESC annual tally is made Dec. 25 each year. In 1960 the Pontiac branch placed 7,346 people in jobs.

Two years ago only 3,596 job placements were made and last year the total was 6,291.

The best month this year was November, when more than 1,000 placements were made in the Pontiac area.

The average was approximately 600 placements per month this year and, according to Truitt, there were no "bad" months.

For those who plan to be job hunting in 1961, Kimball says, the outlook is bright in the "service industries."

"There has been a steady rise in recent years at our office in employer requests from nonmanufacturing industries," the branch manager asserts.

"This year we handled 16,783 job openings on orders from more than 1,000 different employers."

"Of this, roughly 85 to 90 per cent were in the nonmanufacturing classification of which about 35 per cent or more were service industries."

The number of employers serviced in 1960 does not include domestic jobs.

"If you include persons requesting employers for domestic jobs, the total would run over 1,500," Kimball estimates.

Employment officials also express the belief that a steady increase in service industry openings reflects improving economy in a given area.

It simply means that more people have the money to spend on services.

This vast classification includes, among other things, hotels, restaurants, all types of repair work, government positions,

educational and financial institutions, laundry service, advertising, entertainment and professional assistance.

"The trend is upward. We have no reason to doubt but that the percentage of service industry placements will continue to grow in 1961," Kimball explains.

As for reasons behind the increase in placements and job offers, Kimball turns to his staff.

"The Pontiac office, at 242 Oakland Ave., is a bustling concern. Sometimes the lines are long. Sometimes they're short."

Sometimes the faces are troubled. Sometimes they're happy, beaming with smiles of relief.

This year, the smiles are catching up with the frowns, thanks to Kimball and his staff.

Swanson Names Weeks in First Proclamations
LANSING (AP)—Gov. Swanson has issued his first two proclamations.

One names Thursday as George Washington Carver Day in Michigan to honor the noted Negro scientist. The other proclaims the week of May 8-14 as Industrial Engineering Week in Michigan.

Maurine Neuberger Is the Latest

Attractive Gals Add to Congress

WASHINGTON (UPI)—An array of new personalities, featuring an attractive female face, took its place Tuesday in the ever-changing ranks of Congress.

Seven new senators, among them Mrs. Maurine B. Neuberger, D-Ore., and a host of new House members were on hand for the opening of the 87th Congress.

If destiny follows its usual course some of them will with a place in history, others will drop into obscurity.

The active, 53-year-old Mrs. Neuberger, elected to the seat of her late husband, Sen. Richard L. Neuberger, becomes the second, current, woman senator.

She gives the Democrats a feminine member to balance Republican Sen. Margaret Chase Smith of Maine.

Another freshman who will be

unseated an incumbent senator, Rogg defeated Democratic Sen. J. Allen Frear Jr., a 12-year Senate veteran. Roggs served in the House and as Delaware governor before beating Frear.

LAST YEAR TERM
Mrs. Neuberger officially has been in office since Nov. 9 to serve out her husband's unexpired term. She also won a full six-year term in the November election.

Two other newcomers, Sens. Quentin Burdick, D-N.D., and Edward V. Long, D-Mo., also took their seats last year as the result of death.

A House graduate who will be watched in the Senate is Sen. Les Metcalf, D-Mont., who was elected to replace retiring Democratic Sen. James E. Murray-Metcalf, a studious, hard worker.

Miller is a 44-year-old law lawyer and former state legislator who upset outgoing Democratic Gov. Herschel C. Loveless for the Senate seat in November.

Mueller Metals to Quit Production, Will Design
GRAND RAPIDS (UPI)—Mueller Metals Corp., a firm headed by Frederick E. Mueller, son of Secretary of Commerce Frederick H. Mueller, has announced its intention to stop manufacturing furniture.

The firm said a change to design and sales was suggested by a committee of 141 of the firm's creditors. The firm employs 14 production workers here and in Greenville.

Mueller Metals will continue to design magnesium and wood office furniture and farm out production to other firms.

FEMININE SIDE OF SENATE—Sen. Margaret Chase Smith, R-Me., chats with Sen. Maurine Neuberger, D-Ore., (left) at the Capitol today. Sen. Neuberger was one of the new senators sworn in Tuesday as the 87th Congress opened sessions. They are the only women members of the Senate.

watched is Democratic Sen. Claiborne Pell of Rhode Island, a 41-year-old political newcomer who roused some well-established names to win the Democratic senatorial nomination and went on to capture the Senate seat in the November election.

He replaces 82-year-old Democratic Sen. Theodore Francis Green, who retired as the oldest man ever to serve in Congress.

Another newcomer, Sen. J. Caleb Boggs, R-Del., has the distinction of being the only 1961 freshman to

legislator, was the leader of the House liberal bloc.

Sen. Benjamin A. Smith II, D-Mass., who was appointed to succeed President-Elect John F. Kennedy, officially took his seat last week and thus gained a few days' seniority on some other newcomers.

But, like the other freshmen, he could not take his formal oath until today. Smith was a roommate of Kennedy at Harvard and was a Harvard football player.

Warns Against End of Electoral College

NEW YORK (AP)—Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People, warned Negroes Tuesday to beware of "any scheme to abolish the electoral college."

He told the annual NAACP meeting that past efforts to do away with the electoral college

had been "designed to cut down the voting strength of Negro citizens in large Northern cities."

Wilkins asserted that any proposal for changes in the electoral college "must be fair to all, including to disfranchised Negro citizens in the South."

He also said he considered the more vehement Southern segregation leaders as "allies of the NAACP," because they had "opposed school desegregation by awakening the country to the menace of extreme segregationists."

Grand Valley College Is Tentative Name

GREENVILLE (UPI) — A contest aimed at selecting a name for a new state college to serve an eight-county West Michigan area began Tuesday.

Dale Stafford, a Greenville newspaper editor and a member of the board of control of the planned school, said first entries in the contest were counted this morning. They totaled 25.

Stafford is former editor of the Detroit News and one-time Pontiac Press staffer.

The tentative name given the four-year institution by the legislature in Grand Valley College, it, Miller said the needs of Western Michigan would require "at least one new Montcalm, Barry, Allegan, New major construction start for each of the counties. It is of the immediate enacting years."

expected to be built in the Grand Rapids area.

Stafford, the board's name contest chairman, said the contest is open to anyone submitting a name for the school. Entries should be sent to "College," Box 133, Greenville, Mich.

The prize-winning name will win its originator a four-year scholarship to the new school, which can be used personally or given to someone else. The contest runs through Jan. 10.

Prexy Breaks Ground for Building at WMU

KALAMAZOO (UPI) — Dr. James W. Miller, newly installed president of Western Michigan University, broke ground Tuesday for the school's new \$3.6 million natural sciences building.

Miller said the needs of Western Michigan would require "at least one new Montcalm, Barry, Allegan, New major construction start for each of the counties. It is of the immediate enacting years."

2 Negroes 1st of Race to Enroll at U. of T.

KNOXVILLE, Tenn. (AP) — Two 18-year-old Knoxville Negroes today became the first members of their race to enroll for undergraduate study at the University of Tennessee.

Theodore Robinson, Jr., registered as a prelaw freshman in the college of liberal arts, Charles Edgar Blair enrolled as an accounting freshman in the college of business administration.

The Negroes are the first to be accepted for undergraduate work under a desegregation policy by the university adopted last November by the board of trustees. They registered routinely and without disturbance.

The university's graduate school and law college have been desegregated since 1952.

Average U. of T. is 961 square miles in area.

AP Photo: RELEASED—Fred Block, 67, leaves Los Angeles County Jail in Woodland, Calif., today after nearly nine years of contention.

Block, 67, was not just rather than make child-support payments to his ex-wife. County officials were glad to see the prisoner go, but Block was reluctant to return to "the outside."

'60 Traffic Toll at 4-Year High

State Lists 1,566 Dead Compared With 1,467 in Year 1959

EAST LANSING (UPI)—Michigan's highway death toll in 1960 was the highest in four years, figures released by state police show.

The provisional traffic toll for the state last year was placed at 1,566 compared with 1,467 highway deaths in 1959.

State police pointed out the 1960 toll could go higher because persons injured during the past year who die later of the injuries are considered 1960 victims.

While the toll for the year was up by 99 from 1959, December highway deaths dipped to the lowest mark since 1951.

Accidents claimed 133 lives on Michigan highways last month. In December 1951 the toll was 133.

State police said February was the only month in 1960 in which there were fewer than 100 traffic deaths. The February total was 76.

October was the deadliest month on state roads with 179 fatalities, the highest monthly toll since December 1955, when 190 deaths were recorded.

While the 1960 death toll was the highest in four years, it was still slightly below the average for the 28 years state police have been compiling records on highway deaths.

The average traffic toll since 1932 stands at 1,380.

Cost is the main problem in converting salt water into fresh say University of California engineers.

Chicago Paper Marks Birthday in New Home

CHICAGO (UPI) — The Chicago Daily News celebrated its 85th birthday Tuesday by publishing its mechanical and commercial staffs.

The huge television antenna first 1961 edition in its new home, moved in with the Chicago Sun-Times, after newspaper of Field Enterprises Inc., in a nine-story, modern publishing plant on the north bank of the Chicago River, million people reside.

MICHIGAN IS EVERYTHING FOR INDUSTRY

The people of Michigan are proud of their state's industrial accomplishments. Its manufacturing plants produce everything from automobiles to xylophones. One reason is that Michigan has so much of what industry needs.

Michigan has abundant sources of both raw and semi-finished materials. Michigan possesses unmatched production know-how in both management and labor. Michigan has great market advantages. Michigan has livability! Water? Michigan is rightly named the Water Wonderland.

This is the first in a series of advertisements to be printed as a public service by this newspaper, each advertisement to describe one of Michigan's advantages for industry. The series will show the attractions our state offers, what it personifies for industry; in reality, what MICHIGAN IS.

Help carry Michigan's message to the nation. Clip these ads and mail them to people in other states with your own comment. Let's talk up Michigan and its advantages for industry. Together, we can assure a greater future for all of us.

This ad is one of a series published as a public service by this newspaper in cooperation with the Michigan Press Association and the Michigan Economic Development Department.

The Pontiac Press

HONORARY CHIEF — John C. Mackie, state highway commissioner, was made an honorary chief of the Chippewa Indian Tribe recently during ceremonies marking the opening of a 13-mile section of the U.S. 27 freeway between Alma and Mt. Pleasant. Mackie was given the name "Chief Kechemecan," which means "Chief Big Wide Road." The honor was conferred on him by Chief Little Elk (left) who then helped Mackie clip a ribbon to open the freeway.

Breakdown by Party in 78th Congress

WASHINGTON (UPI) — Here is the Democratic-Republican division in the 78th Congress, which opened Tuesday.

HOUSE — 352 Democrats and 172 Republicans. (There were 283 Democrats and 133 Republicans at the opening of the 80th Congress.)

SENATE — 65 Democrats and 33 Republicans. (There were 64 Democrats and 34 Republicans at the opening of the 80th Congress.)

There are two more senators and one more House member than at the start of the last Congress because Hawaii has since been admitted as a state.

Lansing Race for Mayor Will Be Crowded Affair

LANSING (UPI) — The Feb. 20 primary election will find seven men in the race for mayor of the capital city. Veteran City Clerk Mille Brown said the primary next month will have the largest field for mayor in her memory.

Among the seven who filed for the right to run in the April 3 election were incumbent Mayor Ralph W. Crago, former State Rep. Willard I. Bowman Jr., Councilmen Max Murnighan, Horace Bradshaw and Robert Brooks, former Councilman Glenn Dean, and former school board member John T. Anis.

It is estimated that the human blood stream contains 35 trillion red cells.

Belgians Need Their Calories

Demonstrators Stop for Lunch

By EDDY GILMORE

BRUSSELS, BELGIUM (AP)—In Belgium, said one of the strike-bested country's citizens, "no revolutions start after lunchtime."

That comment is borne out by the current Socialist demonstration against the government's proposed austerity program of higher taxes and lower social benefits.

This capital city has erupted in violence three times in the past week.

Angry men have marched through the stately boulevards, shouting "to the gallows" with Prime Minister Gaston Eyskens.

Enough plate glass to fill the windows of 20 American main streets has been smashed.

EVERYTHING STOPS — Sub-machine gunned police men twice charged noisy mobs of demonstrators.

But everybody stopped for lunch.

Last Thursday, 15,000 strikers surged through the streets of this beautiful city. They hurled bricks, stones, and steel rods and bolts at hundreds of plate glass windows.

About noon the demonstration dispersed and everybody went home to lunch. A conservative newspaper said most of them drove away in their own automobiles.

The next day 5,000 or so charged through the streets. Many of them knocked off when the clock on the ancient town hall sounded the hour for feeding.

Several thousand hadn't had enough. They surged up to the Sabena Airlines terminal and began pecking away at the inviting plate glass windows. Police charged. A man was shot and \$28,417,000 in 1955.

fatally wounded by a bystander who said he got excited.

ENJOY THEMSELVES — The demonstration suddenly collapsed, and again everyone seemed to go home to lunch. A few hours later the cafes and bars near the scene of gunshot, blood and police saber charges were full of music and dancing couples.

Nine thousand strikers trudged through the old streets of Brussels Tuesday. They pitched a few stones at a branch bank and hurled some torpedoes at the cops. Then the main group broke up and went home.

Several hundred younger demonstrators hadn't had enough. They taunted the gendarmes with "Gestapo" and "SS." The police massaged the fleeing backs and heads with rubber truncheons.

Again it was lunchtime. The battlefield was deserted. Nobody ever comes back for battle after the midday meal.

Tuesday night the cafes were as full as ever. Nobody seemed interested in the strike.

"We're the bourgeoisie of the world," said one young man. "Examine our history. We revolted against the Dutch in 1830—but it was in broad daylight. And I'll bet you it was before lunch."

General Phone Plans \$18 Million Expansion

MUSKOGON — General Telephone Co. embarks this year on an \$18 million expansion and improvement program aimed at converting its entire system to direct dial service by 1962.

T. A. Saunders, president, announced the plans while reporting the firm's \$11.8 million outlay in 1960 provided for construction of 21 new buildings or additions.

The company, Michigan's largest independent telephone service, is headquartered in Muskegon where it employs approximately 600 persons. General Telephone serves 262,000 patrons.

In 1960, Saunders said, its total investment in plants and facilities reached \$105 million compared to \$28,417,000 in 1955.

In one recent year French gourmets ate 600 million snails.

Kennedy, McNamara Confer Today With Cuban Severance as Backdrop

PALM BEACH, Fla. (AP)—President-Elect John F. Kennedy will be his secretary of state, Dean Rusk, Rusk has been maintaining close liaison with the New York lawyer who served in 1957-60 State Department on both the Cuban and the Laotian situations. An aspect of the Cuban crisis likely to concern Kennedy and McNamara is the future of the big and strategically important American naval base at Guantanamo in Cuba. In Washington Tuesday night, White House press secretary James C. Hagerty declined to answer questions about the base.

In the campaign last year, Kennedy conferred at one point for several days with McNamara, McNamara, within and outside of Cuba, Republicans assailed this as an admission of responsibility. Kennedy said he had not meant intervention, only moral support.

The president-elect, ending his Palm Beach stay which began Jan. 16, arranged a mid-afternoon departure aboard a regularly scheduled commercial airline jet. In advance of the trip north, Kennedy filled two more Defense Department positions.

He announced today the appointment of Cyrus Roberts Vance as

AP Photos

IGNORE EACH OTHER — Dennis Crosby and Marilyn Miller Scott stare straight ahead — not even glancing at each other — during a recess in a support hearing in Los Angeles Tuesday. A jury previously ruled Dennis is the father of Marilyn's 3-year-old daughter, Denise. Crosby testified Tuesday his earnings last year were \$61,000 and his attorney said Crosby's net worth is more than half a million dollars. Marilyn Scott testified her income is \$57,600 a week.

Nixon Faces Last Week of Ruling Over Senate

WASHINGTON (UPI) — Vice President Richard M. Nixon Tuesday began the last short lap of his service in the nation's second highest office. He faces a memorable week.

The first task for the 47-year-old Nixon, who leaves office Jan. 20, was to gavel the Senate into session at noon Tuesday for the opening of the 87th Congress.

As the Senate's presiding officer, he plunged immediately into the thick of the fight over liberal efforts to curb filibusters.

On Friday the outgoing vice

Backs Liberal Immigration Bill

Kennedy Gives His Support to Measure of NY Representative

WASHINGTON (AP) — President-Elect John F. Kennedy has endorsed a bill to liberalize U.S. immigration quotas.

Rep. Alfred E. Santangelo, D-N.Y., plans to introduce the bill this week. Announcing the bill today Santangelo released an Oct. 8 letter from Kennedy which described the proposal as "a basic basis for legislative action."

The proposed bill would have four provisions:

1. To allow 42,000 persons now separated from their families in the United States to enter the country outside the quota system.
2. To base the national quota on 1950 or later. A country's quota now is in proportion to the percentage of Americans of that descent in the 1920 census.
3. To distribute the unused quotas of some nations to those countries with more prospective immigrants than their quotas.
4. To authorize the attorney general to admit up to 80,000 refugees a year.

Kennedy, in his letter, said he believed that the most important immediate objective of immigration reform is the reuniting of families.

French Fry Noodles for New Taste Treat

French-Fried Noodles — if you've never tried them they're a delightful addition to your menus; if you have eaten them, you've probably wondered how to prepare them. Here's how.

French-Fried Noodles
Heat fat in deep fryer to 375 degrees. Place about a cup of uncooked fine noodles in a fine mesh strainer and lower into the hot fat slowly. Fry the noodles until golden brown (about 2 minutes). Repeat until all the noodles (8 ounces, or more, if desired) are fried. Drain and sprinkle with 1 teaspoon salt. Use immediately or store in covered container. French-Fried Noodles will keep 2 to 3 weeks.

French-Fried Noodles are not a new idea, but certainly a very tasty and versatile one. The possible uses for these crunchy little noodles seem endless. They pair most obviously with saucy foods such as creamed chicken, turkey, ham and so forth. With Cantonese food or specialty dishes, such as Chop Suey, French-Fried Noodles give an excellent texture contrast. In fact, to add goodness to almost any casserole dish either blend them in or sprinkle on top.

For a unique salad, toss the noodles with crisp greens. They'll add color, flavor and appealing texture. Or eat them as a snack just plain or mixed with other snack tidbits. Add salt and a lit-

tle hot melted butter; they watch them disappear. Deep fry a handful of noodles to have on hand for all those purposes and for use with ideas of your own.

Here's a new recipe idea for French-Fried Noodles — Little Noodle Pizzas. They are little crunchy noodle rounds, topped with a rich tomato sauce and Mozzarella cheese.

Little Noodle Pizzas
8 cups cooked tomatoes (No. 3 can)
1 1/2 cups raw tomato paste (1/2 cup)
1/4 cup finely chopped green pepper
1/4 cup finely chopped onion
1 clove garlic, minced
2 teaspoons oregano
1/2 teaspoon basil
1/2 teaspoon salt
1/2 teaspoon pepper
1 tablespoon water
1 egg
8 ounces fine noodles, French-fried

1 1/2 ounces, packed Minestrone cheese or other cheese
Oven-baked Parmesan cheese
Mash tomatoes; add tomato paste, green pepper, onion, garlic, oregano, salt, and pepper. Cook over moderate heat until very thick about 1 1/2 hours. Meanwhile add water to egg and beat until frothy. Pour egg mixture over noodles and mix lightly. Shape into flat rounds about 2 inches in diameter, pressing together lightly.

Place rounds on well-greased baking sheet. Bake in slow oven (350 degrees) about 15 minutes, or until dry. Loosen from baking sheet immediately.

Spread tomato mixture on rounds, allowing one rounded tea-

spoonful for each. Cover sauce with Mozzarella cheese and sprinkle with Parmesan cheese. Bake in moderate oven (350 degrees) for 15 to 25 minutes, until cheese is lightly browned and bubbly. Makes about 3 1/2 dozen 2-inch pizzas.

Stirring Message

Next time you serve the youngsters cocoa, add special stirring sticks to the drink. To prepare, place 2 heaping teaspoons of ever-ready sweet milk cocoa in a cup and add hot water. For the stirrer, use a peppermint stick, cinnamon stick, or thread marshmallows on a toothpick.

You can freshen dried smoked fish by scalding with boiling water several times. Add fresh water, of course, each time.

Anchovy Egg Salad Good for Friday

Shrimp and salad lunch
Egg and Anchovy Salad
8 hard-boiled eggs
Browned or other salad greens
Flat anchovy fillets
1/4 cup mayonnaise
1/2 teaspoon yellow mustard
1/4 cup finely sliced white onion (optional)
1/2 teaspoon drained capers (optional)
Cut eggs in half lengthwise and arrange on salad greens. Cut the long anchovy fillets in half cross-wise and criss-cross one on each egg half. Mix together the mayonnaise and mustard; slice onions thin and add with capers. Serve dressing with salad. Makes 4 servings — 3 egg halves to each portion.

NOTE: If you open a 2-ounce can of anchovies for this salad, empty the remaining fillets with their oil into a small jar, cover tightly and refrigerate. When using, remove from refrigerator ahead of time so oil can rethicken.

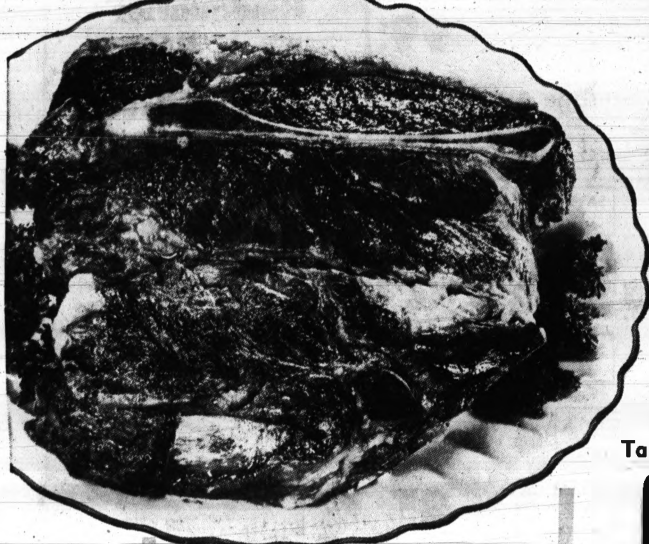

New Carrot Dish Uses Pineapple

Carrots And Pineapple
1 pound carrots
1 cup boiling water
1/2 teaspoon salt
1 can (13 1/2 ounces) pineapple chunks
1 tablespoon cornstarch
Pare carrots; cut crosswise, slanting knife, into thin ovals. Cook rapidly, covered, with boiling water and salt in a 10-inch skillet just until tender; drain, reserving liquid. Mix a little of the pineapple syrup with the cornstarch until smooth; add to drained carrots in skillet with remaining pineapple syrup and chunks. Cook and stir constantly over moderate low heat until thickened; add salt to taste. Makes 6 servings.

Deviled Ham Pastries Made in Two Forms

The best-tasting party-time pastries can be prepared simply with just three ingredients and you have variety, too. Roll out 1 recipe pastry dough into rectangle 1/4 inch thick. Cut in half. On half of dough, spread a mixture of deviled ham and minced onion. Roll and slice to make pinwheels. Bake in a hot oven.
Cut the rest of the dough into little rounds. Spread with same deviled ham mixture. Top with another round of pastry and bake until golden-brown.

After-Holiday Slump Affects All Cooks

By JANET ODELL
Pon-tiac Press Home Editor

Doldrums. Dullness: state of listlessness or boredom.

Does the above definition from Webster describe your state of mind right now? You're exhausted from the holiday season. You've had company until you never want to see a strange face again. You've cooked and cooked and cooked—then cleaned up the kitchen and started all over again. Horrible, isn't it?

Cheer up! You have lots of company, including your food editor, who hasn't an idea in her head of what to have for dinner at the moment.

It's the January slump and not even going shopping can help, anyway, who can't go shopping now, right after Christmas?

Have you given the refrigerator a good cleaning? Maybe you've forgotten some leftovers. If they're from Christmas, they're too old for anything but the disposal.

Better look in the freezer compartment to see if you put away any turkey. That you could use for hot turkey sandwiches, and creamed turkey or for turkey divan. The latter calls for broccoli and cheese sauce. Some of the more these snup will take care of the sauce.

What did you do with your

New Year's hors d'oeuvres that were left? Some you probably froze; the dips keep in the refrigerator; the crackers can be craped for another time. But the rest you just threw out. Good for you; you can't save everything.

Nothing for dinner, even after cleaning the refrigerator? Well, try the canned goods shelf. By now all the fancy foods will be gone, and you can see what basic foods you still have.

If you can find some canned beans, you can make this hearty casserole.

Lambert Beans

Can (1 lb.) red kidney beans
can (1 lb.) cut green beans
can (1 lb.) green lima beans
1/2 lb. sharp cheddar cheese

Put alternate layers of drained beans and grated cheese in a baking-dish. Cover and bake in a moderate oven (375 degrees) about 30 minutes. Eight servings.

If your shelves yield some canned chicken gravy and some mushrooms, look around for canned or frozen chicken or turkey. With these ingredients you have the makings of a main dish shortcake.

Golden Chicken Shortcake

1 can (3 ounces) sliced mushrooms
2 tablespoons chopped parsley
1/2 cup melted butter or margarine
1/2 cup (10% cream) chicken gravy
1/2 cup cubed cooked chicken
Canned

Cook mushrooms and parsley in butter a few minutes. Add chicken gravy and chicken. Heat, stirring now and then. Cut 4 cornbread squares into 2 layers. Cover with half of chicken mixture. Top with second layer; pour remaining mixture over. Makes 4 servings.

There must be some canned fruit you can use for a salad or dessert. Surely all the pickles and celery and carrots aren't gone. They furnish the crunchy texture every meal needs.

And for dessert? Well, there are still Christmas cookies and

coffee cakes in my freezer. Any in yours?

Well, then, make some Merguezies.

Beat one or two egg whites stiff, according to the size of your family. Add sugar to make a sweet meringue—about 1/2 cup for each egg white. Pile this meringue on plain saltines and put them under the broiler just long enough to brown the tops. They're good.

Almond Stuffed Olives

Let the guests spear their own appetizers! Stuff pitted ripe olives with blanched almond halves and past three years.

More Meat Forecast for 1961 Tables

The U.S. Department of Agriculture predicts more meat in 1961 than in 1960. Shoppers can expect about 185 pounds of meat per person or more pounds per capita than in 1960 states the Marketing Information Agent, Mrs. Josephine Sawyer.

More than half the meat supply and most of the increase over 1960 will be in beef because ranchers and farmers have been increasing their herds of beef cattle for the past three years.

The pork supply will be smaller during the first half of 1961 than it was in early 1960. By fall, pork supplies will increase so the total

amount for the year will be larger than in 1960.

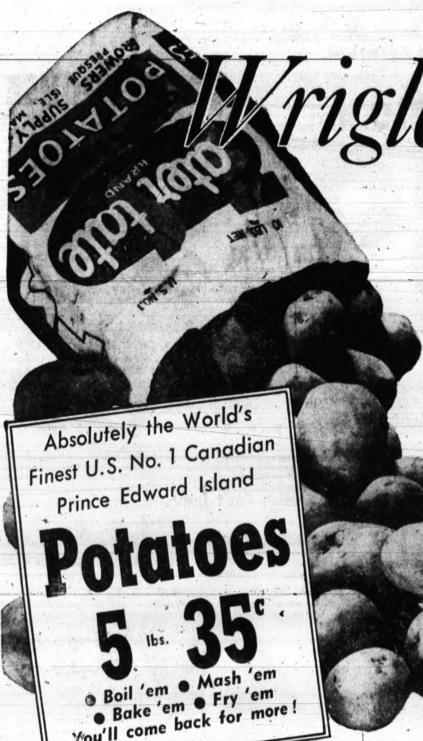

What about prices? The Department of Agriculture economists say prices will be lower in 1961. A bigger supply means lower prices.

Fowl Has Less Calories Than Most Meat

Here's a poser for the weight-watcher who wants a delicious but low-calorie dinner.

Q. What popular meat is lowest in calorie count?

A. Chicken. One average serving of a broiler-fryer is lower in calories than steak, hamburger, smoked ham. And because it can be prepared in so many spectacular ways, chicken makes weight-watchers a pleasure.

GET FINER GIFTS FASTER WITH GOLD BELL GIFT STAMPS

Olive Oil Tenderizes Cheaper Cuts of Beef

Tenderizing is not a modern in-olive oil. A good Spanish olive oil is preferred; it helps to soften the muscular tissues of the meat and points up the full meaty flavor without any perceptible taste of the olive oil remaining in the cooked meat.

When the meat is to be roasted, soon after purchase, add the olive oil at least an hour before roasting, several hours if possible. If you buy several steaks at a bargain price to keep in your freezer, give them the olive oil treatment before freezing.

Instead of the plain olive oil, variety you may want to blend herbs and seasonings with the oil.

plus a little vinegar or wine. However, the olive oil alone will do the trick.

To roast, insert a meat thermometer through the meaty portion without touching bone, set the oven at 300 degrees and roast until the desired degree of doneness is indicated on the thermometer or, without a thermometer, allow 25 minutes to the pound for rare. Yes, it can be served rare, and you will find the meat of the shank has even more flavor than round. What's more, the marrow in the bone melts down into the pan juices and this will give you simply superb gravy.

This method of turning a hind shank of beef into an even roast has been tested with shank cuts graded U.S. Good. For a shank of U.S. Choice grade the meat will be even more flavorful and tender. Naturally this is not in the same class with a rib roast—but then the price is about one-third that of a standing rib.

Chuck or Round Roasts can be tenderized in the same way, although some "bargain" meats, which are likely to be of Good or Commercial grade, need moist heat—that is, they must be pot roasted or cooked covered in the oven. A chuck roast or bottom

round of Choice grade can be successfully tenderized with olive oil, however, to be roasted just like a rolled rib in an open pan. Since these are usually boneless and rolled, they are easy to carve and virtually waste-free.

For a spent-up job, combine olive oil with powdered commercial meat tenderizer; the olive oil helps the powdered papaya to penetrate more deeply and more evenly into a roast, especially when you punch holes through the meat allowing the oil mixture to go down into the center.

Shank roasts have one disadvantage. They are small. In many cases, the roast will serve only two persons. But for a small household, this is an advantage. You can have a roast beef dinner every Sunday at a cost of about

30 cents. For the average-sized family of 4 or 5 persons, just buy two shank roasts, cook them at the same time, in the same pan.

Always slice these roasts diagonally across the grain of the meat, as this is possible, with a well-sharpened, long-bladed knife. Keep the shank bone for soup later—you can still have a soup out of it after the roast beef is finished.

Go Together

One delicious thing with pork chops or sausages is Glazed Pineapple Chunks. Heat one cup of the drained chunks in one tablespoon butter or margarine. Add two tablespoons each ketchup and brown sugar. Cook, stirring for about 15 minutes, until glazed.

Wheat Germ Steps Up Bread's Value

This quick bread has an interesting texture.

Date-Nut Health Loaf

1½ cups sifted flour
1½ cups whole wheat flour
1 cup dark brown sugar (firmly packed)
1 cup pre-sweetened wheat germ and dried dates
1 cup chopped walnuts (medium size)
1 egg
1 cup milk
1 tablespoon butter or margarine (melted)

Sift together the flour, baking powder, salt and brown sugar; stir in wheat germ, dates and nuts. Beat egg until thick and lemon colored; beat in milk; stir; preheat party platter.

In melted butter. Add four minutes; stir just until molten.

Turn into buttered 8 by 4 by 2½ inch loaf pan. Bake in moderate (350 degrees) oven 45 to 50 minutes or until cake tester inserted comes out clean. Turn out on wire rack to cool; to slice bread thin, wrap tightly in transparent plastic wrapping and leave overnight.

Quickly Made Dip

A party-type deviled ham dip can be made up in no time by adding lively-flavored deviled ham to cottage cheese, beaten up, moistened and seasoned with a quarter cup mayonnaise and just a little mustard. Serve with fresh, crisp crackers on your

Business on Sunday Means Jail in Mobile

MOBILE, Ala. (AP) — Starting next Sunday, the Mobile County grand jury has ordered arrest of any businessman who violates the state's Sunday closing law. The law exempts drugstores, service stations, delicatessens and some other businesses. Some grocers have said this was not fair in view of the wide variety of items carried by some of the exempt businesses. The grocers said they plan to remain open as long as such businesses do.

Likes Work After Dark

Night People Are His Kind

By HAL BOYLE
NEW YORK (AP)—Night people know a kinship rare to day people.

As our civilization grows more complex, more and more people have to work odd hours to keep it operating.

BOYLE
To the sailor at sea, the pilot in the air, the life guard at the beach, the professional athlete in the playboys of that era were sitting down to their lobster and champagne.

SENSE OF FREEDOM
But whoever works the lobster is known as a day person. The night worker has a sense of freedom that is different from other people.

For three years long ago I worked from midnight until 8 o'clock in the morning, and never in my life since have I known quite the same sense of freedom.

Night brings a mystic union to those who work through it together. They are knit by the bond of the unusual. They are separate from the rest of sleeping mankind. They are superior. They are aloof and aware. They belong to each other. And they know it.

There is small treason and little hurry. The job is there to do, and there is leisure to do it well.

No one leans over your shoulder. You are on your own. The big boss is at home adrift in drowse. The straw boss is just one of the boys. He has to be. Otherwise he would be impossibly lonely. No one likes to be lonely at night, even when he is working.

The man who works next to you by day may remain an unknown automation for years. But not the man who works next to you at night. He has to be. Otherwise he tells you about himself. You tell him about you. The barriers are down.

TAKE A NAP

The human clock runs low in all people—even night workers. But in most fields there is a decided difference—and a distinct advantage.

The advantage is comradeship

on the job. You get the feeling of unity a platoon enjoys in war. There is a freemasonry that doesn't quite exist on a day job.

In the newspaper world the overnight tour of duty is known as the "lobster trick." No one knows the sure how the term originated. One theory is that it was coined by a forgotten ironic newsmen in the Gay Nineties who had to arrive at his desk at midnight when the bright sunshine of the new day was shining down on their lobster and champagne.

The night worker has quelled one of mankind's oldest foes—the darkness. His duty behind him, he washes his face and hands, puts on his hat and coat and steps into the bright sunshine of the new day, as free and proud as a lark which has estimated 340 traffic fatalities for the extended week end, said probably 14,000 more motorists and pedestrians suffered

their face sideways on a bent forward for a 20- to 30-minute nap. But the dawn roasts them alive.

He is different from other people.

Fires claimed 66 lives from 8 p.m. last Friday to midnight Monday (local time), and miscellaneous accidents accounted for 78 deaths, more deaths, for an overall accidental death toll of 482.

The National Safety Council, which has estimated 340 traffic fatalities for the extended week end, said probably 14,000 more motorists and pedestrians suffered

blinding injuries during the holiday period.

The record toll for a three-day New Year's holiday is 374, set last year. During the recent three-day Christmas holiday, 488 persons were killed in traffic accidents.

Holiday Deaths Hit 8-Year Low

388 New Year's Toll in Traffic Also Two Below Estimate

CHICAGO (AP) — The New Year's weekend traffic accident toll claimed 338 lives, but the toll was the lowest for a three-day New Year's holiday since 1953, when 317 traffic deaths were counted.

Fires claimed 66 lives from 8 p.m. last Friday to midnight Monday (local time), and miscellaneous accidents accounted for 78 deaths, more deaths, for an overall accidental death toll of 482.

The National Safety Council, which has estimated 340 traffic fatalities for the extended week end, said probably 14,000 more motorists and pedestrians suffered

blinding injuries during the holiday period.

The record toll for a three-day New Year's holiday is 374, set last year. During the recent three-day Christmas holiday, 488 persons were killed in traffic accidents.

Firm Stand on Laos Asked by VFW Head

KANSAS CITY, Mo. (AP) — A firm U.S. stand on Laos and creation of a U.S. fleet in the Indian Ocean are advocated by Ted C. Connel, national commander of the Veterans of Foreign Wars.

Communist aggression in Laos cannot go unchallenged, he said in a statement Tuesday.

"We must recognize," said Connel, "that a vast power vacuum exists from Southeast Asia, the Philippine world and the U.S. do not take immediate steps to fill this vacuum, we can be sure that the forces of Communism will do so."

Says Killing Rattlers Is Poison to His Wallet
BRIGGS, Tex. (UPI) — R. B.

Skaggs has collected \$115.50 in bounty money for 231 rattlesnakes he has killed this year. Skaggs said he spent more than \$200 in his personal war on the snakes.

PET DOCTOR
By A. W. Moller, D.V.M.

Q. My dog fights every male dog he meets. He's a can I prevent this? George Leggett Parma, Ohio.

A. Fighting dogs are like fighting boys. They are doing what comes naturally. A dog who is ready and willing to fight is certainly a healthy dog.

I often feel that a fight between two equally matched dogs is enjoyed by both and have noticed that not too much damage seems to be done. It is only when a dog attacks a smaller or weaker dog that one sees horrible wounds.

The fighting instinct is inborn in every male dog. The only thing you can do to avoid disputes and arguments is to keep your dog confined.

'60 GM Auto Output Second Only to '55

DETROIT (UPI) — General Motors yesterday reported its 1960 production was second only to the 1955 record. GM turned out a total of 3,900,927 cars and trucks in the U.S. and Canada in 1960.

This included 3,360,221 cars compared with 2,765,426 in 1955.

December production totaled 326,339 cars and trucks, including 285,784 cars. Car production in December 1959 was 224,337.

Name Member Road Chairman

Pick Hiland Thatcher, 69, to Head Board of Commissioners

Fellow road commissioners yesterday named Hiland M. Thatcher, the newest member of the board of road commissioners, chairman for 1961.

The appointment of Thatcher, 69, former West Bloomfield Township supervisor, was expected because the roads and bridges committee of the board of supervisors recommended his appointment.

Named vice chairman for this

year was Hal D. Lonsman of 3285 Bold Mountain Road, Farmington.

Thatcher, named last January to fill the vacancy left by the resignation of Lee O. Brooks, succeeds Robert O. Felt, past chairman and the third commissioner.

His appointment means that Thatcher will be the recipient of the extra \$2,500 salary as chairman as approved last year by supervisors.

This will be in addition to his regular \$1,500 pay as commissioner.

His appointment is for one year.

Thatcher, of 3285 Lakepoint Road, West Bloomfield Township, was supervisor for 11 years and vice chairman of the board of supervisors three years.

Machine to Simulate Space Atmosphere

DUARTE, Calif. (UPI) — A machine is being devised here that will create on earth all at one time the swirling heat, bitter cold, rarefied atmosphere and vibrations encountered by missiles and rockets on their flights through space.

The machine, being built by the Air Force and Missions Research, will be used to take the guesswork out of designing space equipment and to reduce the testing time in preparing for space exploration.

When completed, the machine will occupy an entire hangar at Wright-Patterson Air Force Base, Dayton, Ohio.

Modern Inconvenience

BURLINGTON, Vt. (UPI) — The hot lunch program at a high school here was delayed for thousands of students because an automatic dishwasher had not been installed when the school year started.

Brotherhood to Be Ideal of International Festival

Two prominent women will head the community advisory committee for MSUO's International Festival. Mrs. Walter P. Reuther (left) holds a piece of the African sculpture she will lend the festival. President of the Rochester Council of PTA, active in Michigan Children's Aid Society and a board member of the Mental Health Society of Oakland County, Mrs. Reuther is the wife of UAW president Walter Reuther.

Sharing responsibility with her is Mrs. William T. Gossett whose activities at the new university include membership on the MSUO Foundation and the presentation of a scholarship named for her father, Charles Evans Hughes, who was Chief Justice of the United States. Mrs. Gossett is the wife of Ford Motor Company vice president, William T. Gossett.

Luncheon Is Slated by Club

Green Lake Women's Club members will gather for an "International Luncheon" at noon Monday in the Green Lake Community House.

Chairman of hostesses Mrs. William Fryer has named Mrs. Gene Mitchell chief hostess for the affair. Assisting will be Mrs. James Eary, Mrs. Richard McClure, Mrs. Harley Melzian, Mrs. John A. Rozier and Mrs. Watson Stringer. Mrs. Albert Stanker and Mrs. Otis Walton. Reservations should be made with Mrs. Mitchell by Friday.

Speaker for the program will be Mrs. N. D. Alk, representative of the American Field Service in West Bloomfield Township who will introduce five area exchange students. They are Jack Newton of West Bloomfield Township, High School, who attended classes in Denmark last summer; Anneteg Goss of Germany, West Bloomfield Township High student; Rusli Maist of Indonesia, Pontiac Central student; Marian Rosenfeld of Berkeley High School who attended school in Argentina in 1959; and Miko Murakami of Japan, Berkeley High School.

Guests are welcome to the meeting.

To Play in New York Friday

Harps Are Mildred's Babies

By FREDERICK M. WINSHIP
NEW YORK (UPI) — She shall make music wherever she goes.

Mildred Dilling doesn't have rings on her fingers or bells on her toes, but she keeps 90 harps around her apartment and takes a dozen or so with her when she travels.

Plucking on the harp nearest at hand is as natural to the world's foremost woman harpist as reaching for a cigarette is for a chain smoker.

"I always keep a harp by the telephone," she said seated in a golden forest of instruments in her Manhattan apartment, home of the world's largest private harp collection.

"Harps have to be played to keep them in good condition, and it takes a lot of time to baby my big family of instruments."

The gracious blonde matron will have 20 harps on the stage at Town Hall next Friday when she gives her annual recital here. She talks about them informally to her audience, a lecture-recital format she has used for audiences in 1,000 U.S. communities but never before in New York.

"The harp is a strange instrument to most people and they enjoy hearing about its history," said Miss Dilling. "I show them everything from a copy of the ivory harp found in King Tut's tomb to the latest plastic model, which is good for accompanying yourself while singing in the shower."

Many persons think the harp is played only with the hands, she said. But since 1810, harps have had pedals to make performance in all musical keys possible. There are seven pedals with three positions each on contemporary harps and the harpist often makes 150 pedal changes a minute.

Miss Dilling's largest harp, a seven-foot concert grand, belonged to Evangeline Booth. She has a large selection of gaily painted Irish harps, bizarre tribal harps from Africa, Minnesingers' harps from Scandinavia and a battery of modern Lyon & Healy harps which cost as much as \$4,500. She was browsing at Lyon & Healy's when she met her most famous pupil.

"I saw this young man watching me as I strummed my way through the show-room," she recalls. "Finally, he approached me and said, 'Lady, learn me that.' It was Harpo Marx. He already played, but he never had studied with anyone. I've even given him lessons in California by telephone from New York."

She has taught many of America's symphony harpists and has conducted classes for professionals here and in Europe, where she tours each fall. She was the first solo harpist to broadcast in Ireland and gave the first televised harp recital on the British Broadcasting Company's network.

"There wasn't a solo harpist in America when I started playing at receptions and parties — back home — in Marion, Ind.," she said. "New York

is played only with the hands, she said. But since 1810, harps have had pedals to make performance in all musical keys possible. There are seven pedals with three positions each on contemporary harps and the harpist often makes 150 pedal changes a minute.

"I saw this young man watching me as I strummed my way through the show-room," she recalls. "Finally, he approached me and said, 'Lady, learn me that.' It was Harpo Marx. He already played, but he never had studied with anyone. I've even given him lessons in California by telephone from New York."

She has taught many of America's symphony harpists and has conducted classes for professionals here and in Europe, where she tours each fall. She was the first solo harpist to broadcast in Ireland and gave the first televised harp recital on the British Broadcasting Company's network.

"There wasn't a solo harpist in America when I started playing at receptions and parties — back home — in Marion, Ind.," she said. "New York

agents laughed at me, but finally one of them signed me for a concert in Detroit and that was the beginning of a career that has taken me from Honolulu to Salzburg and seven times to the White House. Now I'm planning a tour of Africa and Asia."

The size and scarcity of harps make touring difficult. Miss Dilling must travel with her own instruments, which weigh as much as 250 pounds each when packed in special cases, in her own specially-designed station wagon. She is particularly cautious about chipping the gilt on her harps because a regilding job costs \$600.

"The harp is a pretty gaudy instrument and there has been a move on to promote plain ebony and mahogany models," she said. "I don't want anything to do with them. Give me gilt every time."

Round Table Club Meets

Mrs. George Wasserberger of Illinois Avenue opened her home to members of the Round Table Club for the January meeting Tuesday.

Mrs. Ernest Alder, major of the Salvation Army, spoke on the work of the Salvation Army Social Service Center at the afternoon affair.

Mrs. E. L. Guy, chairman of the tea, was assisted by Adah Shelly, Mrs. William A. Gordon and Mrs. V. H. Hancock.

Students and faculty at Michigan State University Oakland have joined to create an international festival to further the improvement of global relations.

The festival-Culture Internationale will be presented at MSUO Jan. 15.

Sponsored by MSUO's Association of Women Students, the festival is expected to draw more than 1,200 persons to its international cafe, art and book displays, entertainment programs and lecture-film series.

"Our goal," said Dr. Mary Ann Clasek, assistant dean of students and director of the festival, "is a contribution to world brotherhood by helping our students and the community better understand cultures other than their own."

"The affair may also enrich our Foreign Area Studies program at a time when understanding is so important."

Community leaders active on the festival advisory committee include Mrs. Walter Reuther, wife of the United Auto Workers president; Mrs. William Gossett, wife of the Ford Motor Company vice president; Harold Fitzgerald, publisher of The Pontiac Press, and foreign consuls at Detroit.

HONORARY CHAIRMEN

Serving as honorary chairmen are Mr. and Mrs. Alfred G. Wilson, on whose estate the campus is located.

Students on the committee include Barbara Osborne of Birmingham, who is Association of Women Students president, and Paul Allen of Lake Orion, who is student government president.

A week-long program of international speakers will precede the festival.

For Sunday, Jan. 15, designated Culture Internationale Day, the Student Center will become a "Little United Nations," with flags and posters from all countries on display; an international cafe where authentic food and beverages

will be served; art and book exhibits representing all areas of the globe.

For the exhibit many homes in the area, including that of Mrs. Reuther, will be stripped of art objects collected on world travels.

Another Sunday highlight will be an address by Alphonse Okuku, a student at Antioch College who is a brother of Tom Mboya, nationalist leader of Kenya, Africa. He will speak at 2 and again at 7 p.m.

LECTURE SCHEDULE

Lecture programs which are open to the public include: German Consul, the Hon. Norman Dancker, at 1 p.m. Jan. 9; the Consul of Lebanon, the Hon. George Bashara, at 1 p.m. Jan. 10; Italian Consul, the Hon. Giuseppe Della Croce, 1 p.m. Jan. 11; a faculty panel at 8 p.m. Jan. 11 and the Consul of Thailand, the Hon. Mark Stevens, at 1 p.m. Thursday.

Speakers on the faculty panel on problems in foreign affairs that will confront the new ad-

ministration will be Dr. Sheldon Applegate, on Asia; Dr. Samuel Shapiro, on Latin America; Dr. Gerald Straka, on Europe, and Dr. David Wilder, on the Middle East and Africa.

The Festival will wind up with a fashion show at 8:30 p.m. Jan. 18 in which costumes flown in from various parts of the world are to be modeled.

An exhibit of international art and art objects and the international book fair will be open from 1 to 9 p.m. Jan. 15.

Cosmopolitan cuisine will be served throughout the afternoon of Jan. 15 at Cafe Internationale.

A program of entertainment brought from many parts of the world will be staged in the round at 3 to 7 p.m.

MSUO Chancellor D. B. Varner extended an invitation to every member of the community to visit Culture Internationale and emphasized the need for a steady increase of international knowledge.

She Wants Memento of Friend

By The Ennly Post Institute

Question: A very dear friend of mine died recently. I would like very much to have something of hers to keep as a remembrance. Would it be proper to ask her husband for some small memento, or would this be considered high-handed on my part?

Answer: You may properly ask him if he has a photograph of his wife that you could have, but then if he does not give you one or offer you something of hers, you can do nothing further about it.

We knew only the immediate family and the rest of the sisters were strangers. My sister-in-law did not introduce us to any of the guests and we felt uncomfortably out of place. Shouldn't she have introduced us to some of the guests?

Answer: If she was free to move around she should certainly have seen that you met other guests. But if she was anchored in the doorway receiving other guests, she couldn't very well come to your assistance. You might, however, have introduced yourself as an aunt of the bride to anybody standing near you.

Abby Gives Wife Warning

Husband Feathers Nest

By ABIGAIL VAN BUREN

DEAR ABBY: I've been married to a good-looking truck driver for 10 years. I am not the suspicious type, but listen to this: The other night he came off the road with two long scratches on his left hip. They were not from a fairly deep scratches, yet neither his trousers were ripped.

When I asked him how it happened, he said it was probably from a feather in the bed. Now, Abby, I love my husband and I am not looking for any trouble, but do they still have feather beds in modern motels? And could anyone get scratched like this from a feather?

NOT STUPID

Airman Wed in Arkansas

At an informal family ceremony, Virgie Lee Vernon exchanged wedding vows with Airman 3C Edward S. Blum Jr. of Bytheville AFB Thursday in the home of the bride's parents, the W. McKinley Vernons of Bytheville, Ark.

The Rev. Roy Hanley of the Assembly of God in Steele, Mo., officiated.

Wearing a street-length dress of pale blue silk taffeta with matching accessories, the bride was attended by Mrs. Roy McKaye of Bytheville.

The bridegroom, son of Mr. and Mrs. Edward S. Blum of Des Moines, Bloomfield Township, had Roy McKaye for his best man.

Immediately following the ceremony, the newlyweds left for Pontiac and a visit with the bridegroom's parents.

DEAR NOT: It's unlikely that the scratches came from a feather. It was probably the whole chick. Keep your eyes open.

DEAR ABBY: What do you tell your friends and relatives when they ask you what your husband gave you for your 10th wedding anniversary? Her thoughtful type, but he's a swell guy.

OVERLOOKED

DEAR OVERLOOKED: Tell them he gave you ten wonderful years.

DEAR ABBY: I am the most heart-broken girl in the world. My mother gave away Snowball, my kitty, because she scratched my hand when I was putting a doll's diaper on her. It was an accident, I'm sure.

Please, Abby, tell my mother I'll do anything to get Snowball back. When I was in school yesterday she gave him to the egg man to take to his farm.

WET PILLOW (I am 10)

DEAR WET PILLOW: I am appealing to your mother to please get Snowball back. But, honey, Snowball scratched you on your pants. Never try to put a diaper over a fur coat.

DEAR ABBY: Recently, my husband, who is an executive with a large oil company, purchased a rather expensive gift for his private secretary. I found out about it when I intercepted the bill.

When I confronted him with it, he told me he had given the gift to his secretary as a "prize."

The company offers "prizes" occasionally to employees, but they are paid for out of company funds. Why should my husband have to give his secretary a "personal" prize?

"PRIZE FOOL!"

DEAR "PRIZE FOOL": Could it be that your husband is rewarding his secretary for services performed above and beyond the call of duty?

DEAR ABBY: I would like to

be an airline hostess. I have heard that one has to be a nurse first. I have also heard that one must be a certain height and weight and must remain unmarried. Is this true?

WANTS TO FLY

DEAR WANTS: Phone the local office of the airline for which you wish to fly. There you will learn where to write for the information you seek.

DEAR ABBY: Why is there so much fuss about Christmas parties for employees only? It doesn't hurt to let your hair down once a year with the folks you work with.

DEAR "GLADDY": Now if you can "let your hair down" without losing your head.

Class to Hear Missionary

The Tuesday afternoon meeting of the First Philthela Class of First Baptist Church featured a message from Rev. Paul Hanselman, missionary from Africa who will soon return with his family to the Congo.

Topic of Rev. Hanselman was "What It Costs to be a Christian."

Vocal solos by Kyle Wilson were accompanied by Mrs. Howard Barnett.

Serving refreshments was a committee headed by Mrs. Philip Adams.

Church Will Serve Ham-Fish Dinner

A family style ham and fish dinner will be served from 5 to 7:30 Friday by the organized Church of Jesus Christ of Latter Day Saints.

Set for the VWF Hall on Wilson Boulevard in Drayton Plains, the dinner has been planned with a special rate of \$1.50 for adults, half price for children and a family rate of \$5.00.

Sponsors Classes

The Style Stepper Square Dance Club is sponsoring intermediate square dance classes beginning Friday.

Instructor Ed Farr will lead the ten weekly sessions which will be held at the Pontiac Township Hall on Opdyke Road. Classes begin at 8 p.m.

The engagement of Norma Ann Greene, daughter of Mrs. Lucile Greene of Hudson Avenue and Alan B. Greene of West Beverly Avenue, to Richard W. Schmiel, son of the William Schmiels of Bloomfield Highlands is announced.

DONNA JEAN COOK

Fall vows are planned by Donna Jean Cook, daughter of Mrs. Richard Rodgers of Blaine Avenue and the late John D. Cook, and Larry F. Conger, son of Dr. Virgil F. Conger of South Paddock Street and Mrs. Mel Hocking of Royal Oak.

MARGARET COLE

The Leonard P. Coles of Augusta Avenue announce the engagement of their daughter Margaret to Pfc. Gerald R. Baker, son of Mrs. Esther Baker of Osburn Street and Eugene Baker of Columbiaville.

SHARON JEAN SMITH

August vows are planned by Sharon Jean Smith, daughter of the Ralph R. Smiths of Waterford Township and Jerry D. Choler, son of Vern Choler of Portage Street and the late Mrs. Choler.

About 77 per cent of all hospital care is given in federal, state, institutions.

Lack of It Can Cause Anemia

Have Enough Iron in Diet

Looks tempting: It's good for you, too. A green salad is rich in iron. Several conditions can cause anemia, but the most usual cause is an inadequate amount of iron in the diet.

By JOSEPHINE LOWMAN

Our diet is extremely important in maintaining the health of our blood. Several conditions can cause anemia, but the most usual cause is an inadequate amount of iron in the diet. This mineral is essential to the manufacture of hemoglobin. Small amounts of copper also are necessary for the proper utilization of the iron.

A deficiency in protein intake is a factor in certain types of anemia. Vitamin C deficiency also has been thought to play a part in anemia. NOT RARE A mild anemia is not rare during pregnancy. This is especially apt to happen if the prospective mother experiences nausea during the first few months of pregnancy. The mother's blood must carry oxygen and food for two instead of one. Therefore, an iron-rich diet is especially important during this time. If the future mother runs into anemia trouble, her physician probably will prescribe

some iron supplement, and advise her diet with iron-poor foods, proteins and vitamins. Babies usually come into the world with a supply of iron to last them for several months, but if the mother was anemic during pregnancy the baby may be anemic, too. These children are more susceptible to infections and should be treated early. So, we should take our diets seriously as to their health value as well as their pleasant taste. Iron intake is especially important during pregnancy, before and after an operation or when there has been any unusual loss of blood.

Many people go along for years feeling tired because of anemia and just take their condition for granted. This is why regular physical check-ups are so important. Such conditions are discovered. Anemia usually responds quickly to the right medication and diet. If you would like to have my "Vitamin in Your Diet," send a stamped, self-addressed envelope with your request for leaflet No. 38. Address: Josephine Lowman in care of The Pontiac Press.

Brave Teener Wears Braces

(NEA)—It takes a brave teenager to go through the misery of wearing braces on her teeth. They're unsightly, they ruin a smile and they never made any girl feel like a beauty. But it also takes a teenager with an eye to the future to wear them. She's the one who has seen older women with shelflike or crooked teeth. She knows that she doesn't want to look like this in her twenties and thirties. And she's grateful that someone invented braces to straighten teeth and pull them into the lines they should show. She knows that the shape of her mouth and face are affected by her teeth.

So she's willing to go through the period of wearing braces in order to finish up with even, pretty teeth.

Look for Lining

Despite the fact that few women look really well in shades, they sell like hot cakes. The reason? They're comfortable, of course. But when you buy your next pair, check to make sure that they're fully lined. It's a help to your figure.

DOWNTOWN AND DRAYTON PLAINS

Lowell Souslins Go West

Honeymooning in the western states en route to their home in Spokane, Wash., are the Lowell W. Souslins who were married Saturday afternoon in the Sunny Vale Chapel on Pontiac Lake Road.

The Rev. Albert S. Cooper of the Pontiac Evangelistic Center

performed the ceremony before some 200 guests.

Parents of the former Judith Anne Cooper, the Ray H. Coopers of Baxter Drive, were hosts at a reception in the chapel parlors.

Mr. and Mrs. George Souslin of Oster Drive are parents of the bridegroom. All live in Waterford Township.

PRINCESS LINES

Designed along princess lines, the bridal gown of white Chantilly-type lace featured a fitted bodice, scalloped square neckline and long tapered sleeves.

The Empire waistline extended into a peplum over the bouffant skirt of net over satin.

A wall-length veil fell from a scalin headband. White carnations and lilies of the valley completed the bridal cascade.

Sharon Lee Cooper was her sister's maid of honor. Bridesmaids were the bridegroom's sister Mrs. J. Ford Sutton Jr. and Viva Jean Ryden, both of Waterford, and Mrs. Bruce Lewis of Pontiac.

Their floor-length dresses of white silk organza with accordion-pleated skirts carried out the all-white wedding theme. They wore veiled net headbands and carried red roses.

Jamies Daniels of Waterford was best man for her brother, Edward Newsbom and Raymond Fishley of Charlotte assisted the guests with David Bratton of Pontiac.

Brown accessories accented the

bride's gold wool sheath dress selected for the honeymoon.

Her husband is a graduate of the Army's radar repair school.

Mrs. Cooper's dress of royal blue wool was worn with matching accessories. Mrs. Souslin appeared in black silk taffeta with touches of blue.

SEW SIMPLE

By Eunice Farmer

"Dear Eunice:

"The only part of a wool dress that bothers me is the facing at the neckline. My neck gets red and itchy from it. Can I use a different type of material for the facings? Also, when a dress is lined is it necessary to use interfacing also?"

Mrs. C.M.
You may make the facings for a wool dress out of taffeta, dull satin, or any firm fabric in a matching color.

I think interfacing is necessary in any type fabric to help retain the original shape of the neckline. I like a woven type, firm, interfacing. This would be applied to the wrong side of the garment itself, not to the facing. Then either your lining or your facing would be applied.

"Dear Eunice:

"The zipper just broke in a reversible skirt of my daughters. We have looked everywhere and there doesn't seem to be a zipper of this type at the store. Can you help us out?"

Mrs. E.W.G.
To my knowledge, there isn't a zipper of this type made. If you can't find a tailoring supply company, they will apply a separate "pull" to the wrong side of the zipper. That is actually the only difference between a zipper used in a reversible skirt and a regular zipper. Now it can be pulled up or down from either side. If you can't find a tailoring supply company, perhaps a tailor shop would have the tool necessary for this. Good luck.

"Dear Eunice:

"So many patterns call for sleeveless dresses to be worn with jackets. I don't look good in a sleeveless dress. Is it possible to make a cap sleeve out of a sleeveless pattern?"

Mrs. V.G.
This isn't too difficult to do. Pin a large piece of paper under your pattern so you can draw your new sleeve, before laying the pattern on your fabric.

Extend the shoulder line as illustrated. This line should curve down and extend about 3" past the armhole. The underarm seam will be about 1" deeper. Be sure to re-inforce the underarm curved seam.

If your sleeve flares out too much, you can always take it in a little at the lower edge. For the facing, cut a strip of your garment fabric about 2 1/2" wide. Since this lower edge of your sleeve is shaped, it would be better to cut the facing on the bias.

"Dear Eunice:

"Is there any way that we can tell what is the right side of wool? Both sides look alike in so many pieces of wool."

Mrs. C.S.
One hundred per cent wool is always folded with the right side inside. If you have wool combined with silk, linen, cotton, etc., you will have to examine the selvage edge. You can usually tell how it is woven at the selvage and determine which is the right side. It would be well to mark the wrong side of each piece of fabric you cut so you won't get it mixed up later.

Please send all questions and inquiries to Sew Simple, in care of The Pontiac Press.

It's a Sneaky Gift to Offer Mother

By RUTH MILLETT

Well, what do you know? Now they've got a tool kit designed especially for women — one so elegant and daintily feminine it is suggested as a bright gift idea.

With it the lady of the house is supposed to be able to do "a thousand and one jobs" and presumably enjoy being the family handy man because the tools, themselves, are so fetching.

What a sneaky idea for a gift! Give mama a tool chest of her very own and then expect her to hang pictures, fix leaky faucets, mend broken furniture and put up extra shelves in the kitchen.

Next they'll probably be making "how-to" shoe kits — so that mama can keep dad's shoes polished.

They're already advertising power mowers that are supposed to be so easy to run that the lady of the house can mow the lawn — while papa can lie in a hammock or watch a ball game on TV.

And every year there are more and more labor-saving devices for the house that enable mama to do jobs that once required a man's strength.

What it all adds up to is that every time a job is made easy enough for a woman to do — the woman inherits the job and then it is hers for keeps.

So let's not fall for that lady's tool kit. It may be a beauty — and all that — but the job of family handyman is just one too many for today's housewife who is already chief cook and bottle washer, chauffeur, par-chasing agent, gardener, cleaning woman and baby sitter.

We've got to draw the line some place and this seems like just the place to draw it. If anybody in the family is going to be surprised with a fancy tool kit let's make sure that it's you-know-who.

Hints for wives! Order your copy

Have You Tried This?

Use Can of Fruit Cocktail in Delicate Creamy Pie

By JANET ODELL

Pontiac Press Home Editor

Ever make a fruit cocktail pie? There's no better time to start than right now, using Mrs. R. M. Barber's recipe. She says this pie is perfectly delicious.

Mrs. Barber's hobbies are reading and music.

FRUIT COCKTAIL PIE

By Mrs. R. M. Barber

Graham cracker crust (the kind

you take in minutes) to large marshmallows in cup with 1 cup whipping cream. Drain fruit cocktail thoroughly. Whip cream very stiff. Fold into cooled marshmallow mixture. Fold in drained fruit.

Pour into cooled pie crust. Let chill at least 4 hours.

Lines Add Height

Horizontal lines in a dress design seem to add width to the figure. Home economists at Michigan State University call attention to another "illusion" point. If the horizontal lines or stripes are evenly spaced, they carry the eye upward—from one stripe to the next—and add height as well as width.

San Francisco, bounded on three sides by water, is among the few world cities with more than half of its perimeter washed daily by the ocean's tidal currents.

Many Still Suffer Victorian Hangover

By MURIEL LAWRENCE
Dear Mrs. Lawrence:
Our 16-year-old boy's Saturday morning chore is cleaning the cellar. Every Saturday morning his

father and he have an argument about it. * * * * *
Late as I listen to my husband preach about how hard he works

all week, I can't help feeling that he's more interested in making Jack do what he says than in getting the cellar cleaned. But I don't dare say this. However, my

husband reads your column and might listen to you . . .

ANSWER: "I find it impossible to get you out of 17 to help me paint potatoes or sweep windows although the same boys will spend hours mopping up motor engines, washing cars or making radio sets."

"The truth began to dawn on me one day when I was digging my brother's garden in Scotland. 'I didn't enjoy the job and it suddenly came to me that what was wrong was that I was digging a garden that meant nothing to me. And my garden means nothing to the boys whereas their bikes and radios mean a lot.'"

This is a quotation from a new book "Summerhill," the name of the now world-famous school operated by A. S. Neill, the Scotch schoolmaster whose teaching methods began by horrifying British educational authorities and have ended by earning their respect as "fascinating and valuable."

I have something to add to the honest, experienced and thoughtful words of Neill.
We Americans still suffer from Victorian hangover. Like the Puritans, the Victorians believed in the devil in the flesh. So they tried to subdue the devil by punishing the flesh he inhabits.

Any protest in children was promptly beaten out of them. They repressed women in crinolines to hide their devilish bodies.

In my great-grandfather's house you didn't laugh on Sundays but delighted the Lord who made the earth and the fullness thereof by drawing the shades against His sunshine.

We are not healed of this hate of pleasure as the devil's advocate. In our homes is the hangover certainly that work we hate is good for our souls.

So we push our 16-year-old son to cleaning the cellar instead of suggesting he wash the car instead.

No, he must hate his work. He must hate because work is still the punishment imposed on us for original sin.

Scholarship Chairman Mrs. Ralph Norvell of Wrennah Drive (right) and past president Mrs. Gordon Woolcock of Mohawk Drive look over the requirements of the newly announced

Pontiac Tuesday Musical Scholarship. The \$300 award is open to residents of the greater Pontiac area at the junior high, senior high or college level.

Announce Musicales Scholarship

The Past Presidents Assembly and the Scholarship Committee of Pontiac Tuesday Musicales have announced a \$300 award to be granted for either a summer course or school or college term of study.

Eligible are residents of the greater Pontiac area who have a serious interest in music leading to advanced education in that field. Applicants may be at the junior high school, high school or college level.

Requirements include a written application stating the applicant's need and including his aim in the musical field. Three compositions of standard repertory material played from memory, ready for recital and chosen from the classical, romantic and modern periods will be heard by qualified judges.

In addition, a test will be given in both theory and sight reading. Applications may be secured from scholarship chairman Mrs. Ralph Norvell. Date of audition and application deadline will be announced.

Stains May Stay

Wash-and-wear fabrics deserve your attention before they are tossed into the washing machine. Home economists suggest you first remove oil and grease spots, including those along the edges of collars and cuffs. These stains may combine with resins in the finish to become permanent.

Southpaw Shears

Left-handed folks don't have to "make do" with right-handed shears. A clothing specialist says manufacturers design special shears for left-handed use, and even "reverse" pinkie shears can be found. This could be a gift suggestion for a left-handed friend who likes to sew.

Correct Hanger

Take those coats and suits off wire hangers when they come from the dry cleaners. Home economists suggest coats and suits be put on shoulder-shaped wooden hangers which will support the weight and hold the shape of these garments.

One of the most critical problems for Minnesota pioneers was to get iron strong enough to build the plowshares that would turn the tough prairie soil.

Sheath Shimmers

Juniors who look good in the sheath can shine in the satin version this season. It's done in lilac, aqua and hot pink.

Right Combination

The jacket dress continues with an unabated popularity. Surprise combination for this dress is wool jersey with silk chiffon.

Three Divorce Actions Already Give New Year 'Split Personality'

HOLLYWOOD (AP) — Hollywood marriages, seldom ranked alongside Gibraltar as symbols of durability, will be about as turbulent as ever in 1961, if events of the new year are any indication. Tuesday alone, three well-known entertainment figures were involved in divorce actions.

Actress Joan Fontaine divorced film producer Collier Young after testifying "he drank a very great deal, was not warm or affectionate or attentive."

Miss Fontaine, 43, and Young, 52, married in 1952. Both had been married twice previously—she to actor Brian Aherne and producer William Dozier, and Young to actresses Valerie Young and Ida Lupino.

Singer Margaret Whifling, 35, separated for a year from John Richard Moore, sued him for divorce in Santa Monica, Moore, 34, executive of a motion picture equipment company, is charged with cruelty. The couple married in 1956.

Also in Santa Monica, singer Mel (the Velvet Fog) Torme's wife filed a cross-complaint in his petition for annulment or divorce. Phyllis Arlene Torme, 30, a former model, married the 35-year-old singer four years ago.

Torme, in his annulment petition, said his divorce from a previous wife, actress Candy Toyton, was invalid when he married Phyllis. He said Phyllis and another woman hit him on the head when he went home last week to pick up some personal effects. He asked that she be restrained from molesting him, and she asked the same thing in her complaint.

WASHINGTON (UPI)—President Eisenhower Tuesday saluted Philip McCallum, head of the Small Business Administration, for a "first rate" job as he accepted McCallum's resignation effective Jan. 20. The chief executive also congratulated several other administration officials in accepting their resignations for the same date.

Those who resigned Tuesday are: Bertha S. Atkins, undersecretary of health, education, and welfare; Perkins McGuire, assistant secretary of defense for supply and logistics; George M. Moore, assistant postmaster general, Bureau of Transportation.

Vance Brand, managing director of the Development Loan Fund; George W. Beadle, chairman of the biology division at California Institute of Technology, from the Science Advisory Committee.

AP Photos

GRANTED DIVORCE — Actress Joan Fontaine, displays the mink coat she says was "my Christmas present to myself," as she poses in Los Angeles Tuesday after being granted a divorce from film producer Collier Young. The 43-year-old actress charged Young, 52, with cruelty. They were married Nov. 12, 1952 and separated last May.

Asks for Suspension of AT&T Phone Plan

NEW YORK (AP) — The General Telephone & Electronics Corp. largest non-Bell telephone system, said today it had asked the federal communications commission to suspend effectiveness of a new long distance telephone service proposed last month by the American Telephone & Telegraph Co.

Twenty-five operating telephone companies of the General Telephone System filed a petition asking the FCC to establish a division of revenues for the service or "proper principles and procedures" for such a division.

The petition asked for a suspension until the revenue question is settled.

Wide area telephone service, as it is called by AT&T, would provide unlimited or limited calling with specified areas for a flat monthly rate. The service is designed for heavy long distance telephone users.

AT&T filed a revised tariff schedule with the FCC on Dec. 16 to be effective Jan. 15. It becomes effective unless suspended.

Tennessee rivers are navigable for a length of 902 miles.

Claims Violent Films Effective Safety Valve

CHICAGO (UPI) — Violent movies and lurid comic books can be useful in keeping society from blowing its top, Dr. L. A. Burch, clinical psychologist for the University of Illinois said Tuesday.

"These stories may represent fantasy expressions for these urges and make it unnecessary to express them in action."

About 45 per cent of the nation's annual corn crop is fed to hogs.

Antrim County Sheriff 1st New One Since '37

BELLAIRE (UPI) — Antrim County has its first new sheriff in more than 23 years.

Howard A. Tanner, 60, who first took the office of sheriff Nov. 11, 1937, finally stepped down New Year's Day. He was succeeded by Carlton L. Danson, 41.

The state name Wisconsin derives from a Chippewa Indian word meaning "grass place."

- THICK WOOL PILE PLAIN**
A final cleanup of an extra nice heavy wool pile plain. Dealers and decorators originally paid over \$8 yd. for this beauty. When the item was discontinued we bought all that remained at what we considered a terrific price—\$5.50 net. We have 1100 yds left in Ivory Beige, Silver, Turquoise, Aqua, Sand, Lido Pink. All remaining stock goes at less than we paid.
- THREE PLY TWIST**
Here's an excellent quality all wool pile three ply twist. Nubby and textured. 3500 yards remain in Champagne, Honey beige, Light Green, Aqua, Green. 12' widths at lots less than most dealers pay. All we have left goes at this sensational price.
- PLAIN OR TWEED BARK**
Masland has discontinued this fine quality all wool pile carpet. It's a beautiful texture in your choice of tweeds or plains. We bought 6400 yards in Champagne and Pink, Beige and Gold, Blue, Turquoise, Beige and Green, Gray and Green. All 12' wide. Dealers paid over \$6.00 as a running item. It's yours for only \$5 yd.
- 100% NYLON TWEED**
There are many nylon tweeds on the market in the \$5 price range. This is NOT one of them. We have 5200 yds. in beige, brown, black and white, clove, gold, blue left of a much higher priced nylon broadloom. All of it carries a five-year wear guarantee. You take your choice at only \$5 yd.
- ABSTRACT SCROLL WILTON**
An abstract patterned 100% wool pile scroll Wilton 12' wide. 2200 yds. in grey 12' to 15', beige 12' to 15'. A major purchase of a much higher priced broadloom. All remaining stock goes at only \$5 yd.

Bake Cherry Pie —Enter Contest

Two contestants from each their pies promptly at 9 a.m. in school and 4-H club in the county the homemaking department of Pontiac Northern High School.

By 10 a.m. it is expected some of the girls will be ready for their five-minute interviews by the judges who will rate them on their personal qualifications.

The pies will be judged on the texture, flavor and general appearance of the crust and appearance, fullness, consistency and flavor of the filling.

Also taken into consideration will be the method used in preparing

REV. HAROLD MONDUL

Temperance Official to Talk in Avon Twp.

AVON TOWNSHIP — A representative of the Michigan Temperance Foundation, the Rev. Harold Mondul, will speak at 11 a.m. Sunday, at the Avon Township Methodist Church at 11 a.m. Sunday, it was announced today.

Rev. Mondul's topic will be "Where There's Life."

Born in India where his parents are still serving as missionaries, he prepared for the ministry at Albion College, then Theological Seminary and Boston University School of Theology.

Currently Rev. Mondul is working on his doctorate degree in speech at Michigan State University. He has held pastorates in two Methodist Churches in Michigan and one in Massachusetts.

Rev. Mondul also will be present at the local church for evening services with a film called "Pay the Piper."

This is the first of four services beginning at 7:30 every Sunday evening in January, called School of Missions. There will be a class for every age.

Commerce PTA Slated to Show 2 Safety Films

COMMERCE TOWNSHIP — Two films stressing safety practices for children will be shown at the Commerce Elementary School Parents Teachers Association here at 8 p.m. Monday.

The movies, "The Dangerous Strangers" and "Strangers," depict the guile of safety-conscious burglars and how to observe when they are not under adult supervision.

Oakland County Sheriff Deputy Donald Kram will present the films.

During the half hour preceding the program parents will meet their children's teachers.

SHARON ANN SOUDER

The engagement of Sharon Ann Souder to William Gordon Eversline is announced by her parents, Mr. and Mrs. J. W. Souder of 32 Moyers Ave., Oxford. The prospective bridegroom's parents are Mr. and Mrs. Robert A. Eversline of 5555 Metamora Road, Metamora. No date has been set for the wedding.

JANICE RUTH McBRID

Mr. and Mrs. Kenneth McBride of 1165 Wabasha Road, Walled Lake, announce the engagement of their daughter Janice Ruth to Eric Clifford James Westerland, U.S.N.R. son of Mr. and Mrs. Harold L. Westerman of Ann Arbor. A late June wedding is planned.

WINTER'S FOR KIDS — While most folks shudder at the weary thought of winter's heavy snow and icy pavements, children look forward with enthusiasm to fun on snow-packed hills and frozen lakes. "Belly-snoochers" and "see how far you can go" on sleds makes for exciting fun — and healthy youngsters. This group, snapped on a steep hill at Morey's Golf Course in Olden Township, is only one example of how kids feel about Old Man Winter.

Good Beginning for State Traffic

Low Fatality Toll Over New Year Holidays

Stirs Hopes for '61

LANSING — The low fatality toll over the New Year holidays put Michigan off to a good start in its 1961 highway traffic safety campaign.

State Police Commissioner Joseph A. Childs reported the count of new highway deaths over the last holiday weekend was an unusual low. Delayed deaths resulting from weekend accidents raised the total later to 11. It compared with 35 killed in the same number of hours a year ago.

"It looks like we're starting off 1961 in good shape," commented Mr. Childs.

Childs said traffic conditions were about normal for the season. He attributed the sharp drop in increased safety consciousness by drivers and pedestrians.

January can be a very dangerous month for traffic fatalities, Childs warned. Last year, he said, there were 121 persons killed in traffic accidents in January, an increase of 61 over the same month a year earlier.

"This was mostly because open highways during the month last year encouraged fast driving," he said. "There may be more property damage accidents when highways are clogged with snow but there aren't likely to be as many fatalities."

State Highway Commissioner John E. Mack reported Michigan ended 1960 with about a four per cent increase in traffic.

There was a sharp increase in traffic about 12 per cent during the first two weeks of the year," he said. "Then there was a sharp drop."

Over Howell Natural Gas Owners Sue Panhandle

HOWELL, ON — Panhandle Eastern they all would share in any amount made by the courts.

The suit asked for an accounting of 22 1/2 billion cubic feet of natural gas it alleged Panhandle has taken from the field, and sets the value of the gas in excess of \$1,875,000. Another \$1,875,000 is asked for gas remaining in the ground.

Fletcher said Panhandle has been offering all property owners on the gas field a flat \$15 for the right to store gas under their land. He said only a "small percentage" of the owners received royalties on the wells while all claim mineral rights.

The suit claims the gas field has been depleted to about 45 per cent and that, if all the gas is removed, it will have no value as a storage field because of water seepage.

Pruntis named specifically in the suit were Ralph and Mary Yerkes, Lyle and Dorothy Schuckenberg and Coye Hoover.

Open Bids on Area Highway

Construction bids will be opened today by the Michigan State Highway Department in Lansing on the 2.6 mile Interstate 96 Bypass in Livingston County.

Included in the construction will be the Interstate 96 and U.S. 21 interchange, one of the largest in outstate Michigan.

The interchange will fill in the final link in a continuous 9.7 mile section of the U.S. 21 bypass from the intersection of the road to or under construction from Ann Arbor north to Kalamazoo, near Bay City.

The Brighton bypass lies into the Brighton Farmington Freeway, and east of the city, and east of the city will connect with a 3.7 mile stretch on which bids were opened last.

Completion of both the bypass and interchange is September 1962.

Mr. and Mrs. Robert Cummings of 3617 Crooks Road, Royal Oak, have announced the engagement of their daughter Elaine to George B. Mann, son of R. Arnold Mann of 7500 Holcomb Road, Independence Township. A summer wedding is planned.

New Administrator to Take Over Duties

SOUTHFIELD — Donald V. Smith, new administrator for this city, will take over his duties Monday.

Smith's first job will be to tackle the 1961-62 budget estimated to be about \$1,250,000.

Former city manager of Madison Heights, Smith gave up his post as assistant to the mayor of Trenton to accept a 1-year contract as Southfield administrator. His salary will be \$12,699 a year.

The new administrator will replace Robert J. McNitt, who resigned last August and is now city manager of Scottsdale, Ariz.

Smith is married and the father of three children.

Saddle Club to Settle Plans for Square Dance

FARMINGTON — The Shawassee Saddle Club of Farmington will meet Friday at 8 p.m. to formulate final plans for its fourth annual square dance Jan. 21.

The meeting, open to all horse and cowboys, will be at the Farmington Savings and Loan Building, 31500 W. 10-Mile Road.

Following the meeting, two sound films will be shown. They are "The American Cowboy" and "The Horse Farm." Refreshments will be served.

Rhubarb Queen Deadline Near

Candidates for Ulica Hothouse Fete Must File by Tomorrow

UTICA — Candidates for queen of the 1961 Michigan Hothouse Rhubarb Festival have only until tomorrow to file applications.

Competition will take place at 8 p.m. Tuesday in the Utica High School auditorium.

Contestants will meet in the auditorium at 5:30 p.m., where they will be met by the committee which will take them to dinner at Trinity Lutheran Church.

When they return to the auditorium they will be interviewed by a panel of judges. First they will appear on stage in street dress, later changing to formal attire for further interviews.

Each girl must be sponsored by a school or organization and must be able to participate in the many federal activities planned for her should she be named queen or maid of honor.

The winner will reign over the sixth annual Rhubarb Festival Feb. 26 at the new arena. Expenses are Ulica Rotary Club and the Michigan Hothouse Hothouse Association.

The queen will make numerous appearances on radio and television, in parades and at special events during her year-long reign.

Bannow may be contacted at 4189 Cass Ave.

Mayor Is Selected

MOUNT PLEASANT — The City Commission has appointed Robert F. Sweeney, 37, mayor.

The commission names the mayor from its membership.

The framed charter was draped in black in memory of two members who died last month, Mrs. Irene Mercer and Mrs. Adeline Groves.

The insurance post carries a \$12,000 annual salary. The compensation schedule is \$13,500 a year.

Other appointments are: Edward J. Ryan, Kalamazoo, to succeed himself as trustee of the Probate Judges Retirement Board for a term expiring May 3, 1963.

Sylvester C. Flarity, Manistee, to succeed Leon Parquette on the State Athletic Board of Control for a term expiring June 13, 1961.

Leslie Yerkes, Mount Clemens, to the Board of Examiners of Barbers, to succeed himself for a term expiring Sept. 30, 1961.

Lawrence W. Prudden, Ann Arbor, to the Ferris Institute Board of Control, to succeed himself for a term expiring June 30, 1963.

Board of Alcoholism—Mrs. Bernice B. Howell, Detroit, to succeed herself for a term expiring Sept. 30, 1962. Rev. F. Willard Kline, Eaton Rapids, to succeed Harlan Yelland, for a term expiring Sept. 30, 1962.

Apple Commission—Marion Carter, Bangor, to succeed himself for a term expiring Sept. 1, 1963.

Employment Security Appeal Board—Charles S. Brown, East Lansing, to succeed John F. Young, deceased, for a term expiring March 31, 1962. Kenneth A. Hull, Detroit, to succeed Herbert H. Emrick for a term expiring March 31, 1962.

Fair Employment Practices Commission—Rev. John F. Finigan, Detroit, to succeed himself for a term expiring Dec. 31, 1962.

Higher Education Assistance Authority—Prof. C. DeLade Crawford, Hillsdale College, for a term expiring April 24, 1961. Dr. C. W. Smith, Central Michigan University, for a term expiring April 24, 1962. Eugene B. Power, University of Michigan, for a term expiring April 24, 1962. Rev. Malcolm Carson, University of Detroit, for a term expiring April 24, 1962. Fred G. Secrest, Dearborn, for a term expiring April 24, 1963. Cornelius B. MacDonald, controller, Western Michigan University, for a term expiring April 24, 1963. E. J. A. Wunsch, Northwestern Michigan College, for a term expiring April 24, 1964. Mrs. Jean McKee, Grand Rapids, for a term expiring April 24, 1964.

Cahn, Schoof, Moskowitz Hold Posts Pending Action

Three area men were on a list of 24 appointments resubmitted to the State Senate for confirmation yesterday by Gov. Swainson.

All the appointments were previously submitted to the Senate by Gov. Williams but were not acted upon during the past legislative session. The appointees hold office until rejected by the Senate.

Swainson said the number of appointments would reach "50 or 100" before he is through.

The local appointees submitted by Swainson are Chester A. Cahn of 600 Westwood St., Birmingham, Michigan Employment Security Commission; Jerome E. Schoof of 7040 Camp Ground Road, Romeo, Michigan State Appellate Commission; and Jack Moskowitz of 32415 Warren St., Huntington Woods, Michigan Employment Security Appeal Board.

Heading the list of Swainson's appointments were Frank Blackford as State Insurance Commissioner and William S. Hart as director of the Workmen's Compensation Commission.

Blackford was first named to his post Jan. 1, 1959. Confirmation of his appointment previously ran into some opposition in the Republican-dominated Senate where he was described by some as "controversial."

Blackford was active in framing the Williams plan for reorganization of state government, opposed by many Senate Republicans.

Mention also was made at the time of the Michigan State House. Blackford asked for reversion of the surety firm but was overruled in a lengthy circuit court fight.

No. 3—Baseball's Most Unforgettable Games

Most Consistent Player of All, DiMag Hits Safely in 56 Straight

By JOE REICHLER and BEN OLAN

The most amazing of all hitting feats, the greatest hitting streak ever recorded, was achieved by Joe DiMaggio, the most consistent, most complete ball player of his time. As for virtually all spectacular performances, there was no warning that something big was on the way when Joe rapped out one hit in four tries on May 15, 1941, against Edgar Smith, stocky Chicago White Sox left-hander.

The day before, against Mel Harder of the Cleveland Indians, DiMaggio had been hitless in three official times at bat. The Yankees then were in fourth place, playing .500 ball.

It wasn't until two months and three days later that Joe went hitless again. Ironically, it was Cleveland pitching again that stopped him.

In between those two hitless days, Joe DiMaggio collected at least one safety in each of his 56 consecutive contests. This remarkable streak, longest in major league history, lasted over one-third of a normal league schedule of 154 games. In that 56-game span, the Yankees won 41 and lost 15 for a 73 per cent (two games ended in a tie).

The Yanks played .500 ball before DiMag's streak and .600 ball afterward.

The day after Joe began his streak, he collected two more hits against Thornton Lee and another the following afternoon. After Chicago, he hit safely in three games with the Browns and two with Detroit.

By the night of Decoration Day, he had hit safely in 16 straight games. It rose to 25 by June 10, with Schoolboy Rose, Bob Feller, Mel Harder, Dizzy Trout, Hal Newhouse and Lefty Grove among his victims. Baseball people were beginning to take notice.

The streak climbed to 30. The entire baseball world was becoming excited. Even Joe began to get deeply interested when he passed Rogers Hornsby's National League record of 33 games (since topped by Tommy Holmes' 37 straight). On June 27, against the Athletics, Joe boosted the string to 40 games, and interest in everything else in baseball—penalties included—was suspended. The Yankee Clipper now needed one more to tie George Sisler's "Hit-Em-Where-They-Ain't" Willie, 44 years before. The pressure was terrific.

In the forty-third game, on July 1, the opener of a double-header against the Red Sox, Joe got two hits. In the nightcap, with the crowd swelling Yankee Stadium at the seams, he equaled Willie Keeler's ancient record.

Fifty-two thousand fans turned out at Yankee Stadium on July 2 to see DiMaggio set a new record. He didn't disappoint them. With Heber Newsome pitching for the Red Sox, Joe connected in the first inning and drove what looked like a sure home run, but Stan Spence raced back to the left field barrier and caught the ball. In his next time at bat, he walloped a mark of 41 straight games with the St. Louis Browns of 1932.

Smith disposed of DiMaggio twice, thanks to fancy stops by third baseman Ken Keltner of wicked shots down the alley. Joe walked once in his last time at bat but he faced Bagby. It was the eighth inning. The bases were full, one out. The crowd, realizing it was his last chance, pleaded with Joe to get a hit. The count was one ball and one strike when he hit a sharp grounder toward the hole between second and third. Lou Boudreau raced over, scooped up the ball, and whipped to second, starting a double play.

A picture of power, Joe DiMaggio lashes out a hit.

DiMaggio skipped past that milestone on June 29 with a hit off Washington's Armand Anderson to make it 42 for himself.

DiMaggio now took dead aim on the all-time record of 44 straight games, which had been racked up by Wee Willie Keeler, the famed sure-fire hit man of the late 19th century. DiMaggio made a spectacular catch to rob his brother. Joe made sure that no one could rob him the next time he came to bat. In the fifth, he ended the strain by tagging Newsome for a home run and a new record. For the first time in the long streak, a grin was noticed on deadpan Joe's face.

THE STRING SNAPS

DiMaggio wasn't finished, however. The run rose to 50, to 55. On July 15, he rapped three hits off Cleveland pitcher Al Milnar and Joe Kraskauskas to make it 56 in a row. On the night of July 17, a tremendous thronging of 47,488 crowded into Cleveland Stadium. Most of them came to see Joe add one more to his string. But the string snapped. Lefty Al Smith and righty Jim Bagby were the stoppers.

It was the eighth inning. The bases were full, one out. The crowd, realizing it was his last chance, pleaded with Joe to get a hit. The count was one ball and one strike when he hit a sharp grounder toward the hole between second and third. Lou Boudreau raced over, scooped up the ball, and whipped to second, starting a double play.

The tension was over. The next day DiMaggio started another streak. This one lasted through 16 games. Just a little extra push to speed the Yankees to their quickest hit clinching.

Oaks Throttled as Chiefs Win Easily, 54-32

Central Cagers Breeze to Their 4th Victory in Six Tries

By BILL CORNWELL

ROYAL OAK — Art Van Rybin, Pontiac Central's veteran basketball coach, has always been a stickler for sound defensive work.

Until Tuesday night the astute PCH mentor had been anything but pleased with the defensive play of his West Huron Street cagers. He breathed a little easier yesterday, however.

Van Rybin even forced a smother or two after watching the Chiefs combine an alert defense with some solid team play for a relatively easy 54-32 triumph over the small Dondora court.

The Chiefs' tight defense limited their opposition to the lowest single-game total of the 1960-61 season as they chalked up victory No. 4 in six games in a non-conference encounter.

It was the 2d defeat in five contests for Ev Queen's Dondora, quiet.

Except for deficits of 2-0 and 4-2 in the last minute of the game, the Chiefs led the outclassed Oaks all the way.

Big Brad Pittchett's layup and corner jump shot by Clarence Douglas sent the Chiefs ahead, 8-4, midway through the first period and the Oaks never caught them again.

PCH enjoyed quarterly leads of 16-2, 28-16 and 42-16. Van Rybin, 48, and his bench in the final situation.

Pittchett, hustling all the way, was strong and tough on the backboards as he turned in his finest performance of the campaign. The muscular 6-foot-4 Pittchett grabbed 14 rebounds and scored nine points.

George Fred, Central's spectacular forward, wanted to be in the 2d minute of the 2d period and did not return to the floor until the end of the 4th quarter. Yet the 6-3 jumping jack made 10 points and collected 12 rebounds.

Central's scoring punch was a well-planned Douglas lashed 16 points, 14 of them in the 1st half, to set the pace. Andy Roach, getting better every game, haggled eight points and Paul Brown added six.

Forward Bill Pyles netted 14 points to spark the Oaks' losing cause.

There were still patches of slipshod effort by the Chiefs, but by and large this was their best all-around effort to date.

The Chiefs resume their Saginaw Valley warfare Friday against Bay City Central at Bay City.

With Rudy Ransom notching 13 points to spearhead a well-balanced attack, the PCH junior varsity blanketed the Dondora reserves a 71-3 thrashing in the preliminary contest.

PEWEE — PCH's 1960-61 season record: 10-10. Dondora: 10-10. Pontiac Central: 10-10. Saginaw Valley: 10-10. Bay City Central: 10-10.

Western Observers Scoff at 'Slow Footed' Gophers

NEW POST — Coach E. J. Studley, 32, was named head football coach at the University of Illinois last fall, he leaves as coach at U. of Massachusetts in accepting a three year contract.

LOS ANGELES (U-P)—Minnesota is Rose Bowl. It hardly can be denied the slowest team the Big Ten has had since the last time it was sent to the Rose Bowl in the last better game of it. For example, 15 years, a Los Angeles sports columnist said today.

Another columnist said the Big Ten would have been better off if it had sent Iowa.

Mel Durking of the Examiner had this comment on the Gophers' 13-7 loss to Washington.

"Watching Minnesota clomp ponderously about the grass last Monday, you had trouble envisioning this group as the top-ranked collegiate team in America."

"Some of its backers insisted lately that the Gophers at the state merely got left in their holes, but it's an immutable fact that even when they got to running, they didn't show enough speed to catch a porcupine."

Duby, Thomason Lead Winners in Waterford

Joe Duby pushed in 18 points to lead the Waterford team to a 35-15 victory over Tom Thumb in the Waterford slowest game. And if this club was Class A recreation league last night when this season's Midwest team, you passed to worry about the future of the Big Ten.

Falls Make Difference as Chiefs Gain 26-20 Wrestling Win

Winning by a fall is more important than gaining a decision in high school wrestling.

This was proved once again Tuesday night at Pontiac Central as the Chiefs won five of the last six matches, four by falls, to defeat Waterford, 26-20.

The Chiefs' wrestlers had started out fast by taking five the first six bouts. But the Skippers gained only one victory on a fall. Five points are awarded for a fall. Five points are awarded for a fall. Five points are awarded for a fall.

After what happened in the first round, the Chiefs gained only one victory on a fall. Five points are awarded for a fall. Five points are awarded for a fall.

Colavito Signs for '61; Tigers Also Name Scout

DETROIT (UPI) — Home run ace who receives the signed contract of 19-year-old Jerry Colavito, a switch to left field next season. Colavito has signed his 1961 Detroit Tiger contract, the club announced today.

Colavito, acquired from the Cleveland Indians in the exchange for Harvey Kuiper, last April, has played rightfield through his American League career.

Openings Still Available for Scuba Classes

Registrations are being accepted for the skin and scuba diving classes which will begin at Pontiac Y.M.C.A. Monday, January 16th, and continue for a six week period.

Shaw's Assistant Seen as Probable Coach of Eagles

PHILADELPHIA (AP) — Assistant Coach Nick Schiro, who emerged as the most likely candidate to succeed retired Buck Shaw as head coach of the Philadelphia Eagles after it was learned the club favored him, presumably because of experience and proven ability.

At the same time, it also was learned the Eagles plan to offer a contract to Norm Van Brocklin, who retired at the end of this season as a player, a record National Football League salary to return.

But the 34-year-old passing great who led the Eagles to their first world championship in 11 years this year said Tuesday he would turn down the offer and return to Oregon unless he gets a coaching job.

It was understood, however, that some Eagles' officials feel they can persuade Van Brocklin to return as a player or as a player assistant under Schiro.

ROY Shrine Victor, 31-43

Royal Oak Shrine, with John Seymour hitting for 17 points, scored a 61-43 victory over Dearborn Sacred Heart last night in the first round of the Shrine Invitational Seniors golf tournament.

Forward John Bradley scored 20 points last night to lead the Sacred Heart team. Bradley was a member of the Michigan State basketball team over at the University of Windsor, Ontario.

Changes Certain With Lane at KC

Fans' Reaction in Kansas City Favors Change

New General Manager of Athletics is Back With Gordon

KANSAS CITY (AP) — Kansas City baseball fans, who will stand a change, find themselves today an opponent of the status quo with the American League's lead. They're delighted.

Reaction of the main-theatre to the appointment of Frank Lane, the Cleveland Indians as president and general manager of the Kansas City Athletics was overwhelmingly favorable.

"This is indeed a joyous day," said Joe Coyle, one of 30 fans polled by the Kansas City Star.

Of those polled, 21 approved the appointment of Lane, and only three were against it. Two fans wouldn't take a stand either way, and the other, a visitor from Pittsburgh, was unmoved.

The Athletics finished in the American League's last place in 1960, but they haven't fiddled a good team since they transferred from Philadelphia in 1954. On top of this, the team's late owner, Arnold Johnson, demonstrated an irritating propensity to trade what other A's did have to the New York Yankees for second line personnel.

That the fans are receptive to any change that offers hope of improvement.

Speaking for the discontents, fan Frank A. Castleman said Lane "reversed the Cleveland club with trade."

But Ralph Rago said he's happy to get Lane because he will stand up the team and make the right trades.

Some of the fans tempered their enthusiasm with concern over the status of Joe Gordon, new field manager of the Athletics.

"How long will it take him to trade or fire Gordon?" asked fan Abe Rosenberg.

Lane and Gordon were associated at Cleveland. Whether they worked together was a subject upon which even they couldn't agree. Lane fired Gordon, rehired him, then last season traded him to Detroit for manager Jimmy Dykes.

Nevertheless, Gordon announced himself as development of Turk Lary's development said Lane "I have no worries about working with Lane. We can along real good."

Gordon was hired from Detroit last fall by Frank Carroll, the man replaced by Lane. But Lane indicated he would be happy to work with Gordon again.

By The Associated Press

Art Heyman, one New Yorker who Frank McGuire couldn't nail, continues to drive Duke's Blue Devils to a solid national rating. The Cleveland Indians as president and general manager of the Kansas City Athletics was overwhelmingly favorable.

A hero both on and off the court, the 19-year-old, 6-foot-5, 205-pound crew cut from Rockville Centre, N.Y., fired 28 points and boosted his season's average to 23.4 Tuesday night as eighth-ranked Duke won 78-63 for its 10th victory in 11 games.

Seven of those 28 were breakers reeled off in succession in the closing minutes by Heyman, who shamed Duke by McGuire's North Carolina Tar Heels and (by family custom) at other major schools to enroll at Duke after a whirlwind career at Long Island's Oyster Bay High School.

The 28 points represented a scoring record for the new Greenbelt, one of Heyman's awards as the game's outstanding player.

Awards are common to the tall young man, ending in 1959, implied the high school career scoring record for Long Island's Nassau County set in 1953 for Manassah, N.Y., High by a muscular fellow named Jimmy Brown.

Now a fullback of some note with the Cleveland Browns, Heyman also won a hero's medal for his help in saving a 21-month-old son from drowning. During the summer of 1959, before heading south to whistle Duke at Durham, he saved his son from drowning in a creek and applied artificial respiration until breathing was restored. Police later credited him.

Punger, who broke into North Carolina State's starting lineup last week, scored 25 points—18 in the first half—in the Wolfpack routed Virginia 94-71 in an Atlantic Coast Conference last Vanderbilt, one of only six surviving unbeatens major teams, made it 84 this season with an 80-57 rout over Sewanee, and 60-40-36 Smith fired 19 points and grabbed 26 rebounds as VPI made it 34 in 20 Southern Conference games.

In the 1960-61 season, the 19-year-old, 6-foot-5, 205-pound crew cut from Rockville Centre, N.Y., fired 28 points and boosted his season's average to 23.4 Tuesday night as eighth-ranked Duke won 78-63 for its 10th victory in 11 games.

Seven of those 28 were breakers reeled off in succession in the closing minutes by Heyman, who shamed Duke by McGuire's North Carolina Tar Heels and (by family custom) at other major schools to enroll at Duke after a whirlwind career at Long Island's Oyster Bay High School.

The 28 points represented a scoring record for the new Greenbelt, one of Heyman's awards as the game's outstanding player.

Awards are common to the tall young man, ending in 1959, implied the high school career scoring record for Long Island's Nassau County set in 1953 for Manassah, N.Y., High by a muscular fellow named Jimmy Brown.

Now a fullback of some note with the Cleveland Browns, Heyman also won a hero's medal for his help in saving a 21-month-old son from drowning. During the summer of 1959, before heading south to whistle Duke at Durham, he saved his son from drowning in a creek and applied artificial respiration until breathing was restored. Police later credited him.

Forge Skaters Nip PCH, 4-3

Jim Houston's counter in the 1st minute of the 2d overtime game Standard Forge a comeback 4-3 victory over the Pontiac Central Raiders Tuesday in an American Division City Junior Hockey League game at Northside Park.

Forge rallied from a 3-1 deficit, Houston clinched to settle the issue and keep Forge unbeaten. The count at 3-3 and four the overtime. After the two teams battled through one scoreless 15-minute session, Houston clinched to settle the issue and keep Forge unbeaten.

Forge's other goals were scored by Bob Reager, Doug Bergman and Jerry McCormick. Gene Tappano, Bob Alton and Dave Blinn called for the Bruins.

In a National goal game yesterday on the Northside ice rink the younger edition of Standard Forge exploded with four goals in the 3rd stanza to frounce the Pontiac Boys Club skaters, 7-2.

Bob Ealer and Terry Williams connected twice for the winners.

Two more games are slated tonight at Northside Park. Pontiac and the Union Lake Optimists meet in the American Division at 8 p.m., followed by 7-30 Northside credit game between the Dayton Spades and the Mountain View Rangers.

How to Finance Player Pension Is NFL Problem

Miami, Fla. (AP)—Financing a pension plan is the No. 1 problem for National Football League players assembling here today for their first full scale association meeting.

An informal golf tournament on the Hollywood Beach course was a festive prelude to business sessions of the 15 athletes.

In addition to providing a source of later-life income, the players insist on what can be done about extending their association to the Chicago Bears.

All-Stars, Trotters Win Class D Tilts

The All-Stars and Truck's Trotters posted Class D City League basketball victories Tuesday night at Lincoln Junior High.

With Paul Wilson leading the way on 19 points, the All-Stars won 34-28 over the Trotters. The Trotters had things a little easier as they downed McDonald's 46-35. Larry Buckner netted 23 points for the winners while Gary Holtz led McDonald's with 15 points.

Colavito Signs for '61; Tigers Also Name Scout

DETROIT (UPI) — Home run ace who receives the signed contract of 19-year-old Jerry Colavito, a switch to left field next season. Colavito has signed his 1961 Detroit Tiger contract, the club announced today.

Colavito, acquired from the Cleveland Indians in the exchange for Harvey Kuiper, last April, has played rightfield through his American League career.

Fox Hunters Oppose Payment of Bounties

By DON VOGEL
Outdoor Writer, Pontiac Press

If three fox hunting organizations have their way, bounty payments for foxes will be halted.

After taking a long look at the state's bounty system, members of the Michigan Fox Hunters Association, the Metamora Hunt Club and the Bloomfield Hunt have decided on a resolution asking an end to the \$5 payment for each dead fox.

This measure will be placed before the state meeting of the Michigan United Conservation Clubs in Lansing Jan. 29.

The resolution arrived at by the three groups during a joint meeting

last month cites the following reasons for calling a halt to a bounty on foxes:

1. The bounty system has not done any appreciable good in controlling the fox population.
2. Michigan's trapper-instructor system has proved effective in eliminating agricultural damage caused by the occasional destructive fox.
3. A total of \$1,497,580 has been spent for bounty fees. This money could be used for badly needed conservation projects.
4. Fox hunting is as much a sport as hunting any other game animal in Michigan.

The fox hunters plan to present these facts in support of their resolution at the MUCC meeting and to also contact state legislators who have the final say in the matter.

State's Deer Doing Well During Winter

LANSING (UP)—Michigan's deer herd has been helped by the mild winter, State Conservation Department game men report.

Deer still are ranging out of yarding areas for food, the game specialists said.

Some yarding was reported from the Lake Superior region where snow depths reached to "one and one half feet. Deer also took to cover in the northern Lower Peninsula where temperatures plunged but there was no real yarding.

Temperatures ranged from 12 below zero in the Upper Peninsula to 38 above in the northern Lower Peninsula during the past week. Only traces of snow were recorded in some southern areas above the straits. Most areas in the northern Lower Peninsula had snow depths of slightly above a foot.

Normally, game experts said, deer are forced to start yarding early in December above the straits and later in the month in the northern Lower Peninsula. Deer had been yarding for about five weeks last year at this time.

Along the Outdoor Trail

COLD FUN — Jess Toles, 54 S. Edith St., Pontiac, checks his tipup on Loon Lake. He was also fishing for bluegills and perch. The only thing biting was the strong wind sweeping across the lake. Toles said he planned to put out a shanty similar to the three in the background.

Dog Obedience Demonstrations Are Arranged

Two demonstrations will be given next week by dogs trained in obedience.

The first will be Wednesday at the C.I.A. building in Waterford. The next night a demonstration will take place at Daniel Whitfield School in Pontiac. Both programs start at 8 p.m.

Novice and advanced obedience work will be demonstrated by dogs trained at the Southern Michigan Obedience Training Club's classes. The club plans to begin training classes a week after the demonstrations.

People attending the two programs are cautioned not to take their own dogs.

LAKE TROUT — One of the prize catches of the ice fishing season for Hubert Marx of Farmington is this lake trout taken on Cass Lake. He also caught another one later in the day.

WARM SPOT — Many anglers prefer to fish while sitting in a stove-warmed shanty. Tony Messina of Pontiac Lake is fishing for bluegills. He saw two pike cruise by Tuesday, but there is no spear in the shanty.

VETERANS TAKE NOTICE — Lake Orion produced this nice string of pike for these young anglers. They are (left to right) Roy, 12, and Glenn Kolongowski, 10, of Lake Orion, their cousin, Sidney Kolongowski, 18, Detroit, and Mike Urm, 13, Lake Orion. The fish range in size from 25 to 31 inches and were caught on tipups.

Should've Been Here Yesterday

"You should have been here yesterday."

This was the general comment made by the few fishermen who braved Tuesday's wintry blasts to try their luck on area lakes. Good catches on many lakes were made Sunday and Monday.

Lake Orion continued to produce good catches of pike. Perch and bluegills were also being taken with regularity.

Perch have been biting on Pontiac Lake, and so have the pike. One angler counted 25 northerners on the ice Monday afternoon. Many of the fish went over five pounds, with one nine and a half being reported.

Some cars are being driven on Pontiac Lake. But the ice isn't thick enough for too many vehicles. This doesn't mean that other lakes are safe for cars.

Big bluegills were taken during the week end on Loon and Silver Lakes. But the catches have slowed the last couple of days. Square Lake is also producing bluegills. Pike are hitting on Middle Straits Lake.

Other lakes producing good panfish the last few days have been Elizabeth, Crochet, Spring, Union and Cass. Metropolitan Beach on Lake St. Clair will hold its annual Ice Fishing Derby Jan. 8. Perch have been hitting off the beach. Pike are still being taken in Anchor Bay.

Duck Count Planned

LANSING (UP)—The State Conservation Department and the U.S. Fish and Wildlife Service will conduct their annual joint survey of winter waterfowl in Michigan and other Mississippi flyway states Jan. 9.

GREEDY FISH — This northern pike couldn't resist a minnow dangling on a hook near the bottom of Pontiac Lake. Charles Branson, 585 Hillside, Pontiac, holds his catch. It was the only strike he had in three hours of fishing Tuesday.

Archery League Play to Begin at Waterford

The Waterford Township Recreation Department's annual Winter Archery League begins tomorrow night at the Community Activities Building on Williams Lake Road. The program will be conducted every Thursday evening for 14 weeks from 7:30 until 10 p.m.

This program is open to adults living in Waterford Township or the school district and persons living outside the township are welcome if there is room for them to participate. Teen-age participation must be approved by the recreation department office. Individuals as well as teams are invited to register for league competition. Interested persons are urged to register early because space is limited to 12 teams. Teams will consist of five members plus alternates.

For additional information, call the Waterford Township Recreation Department, OR 4-5376.

LANSING (UP)—The State Conservation Department offers this suggestion to parents who gave their youngsters firearms for Christmas: Enroll them in the young hunter safety program sponsored by the department.

Tax Revision May Be Answer

Money, Money...State Needs Cash

By DON MYERS

LANSING (UPI) — Michigan lawmakers haven't forgotten 1959. Even freshmen who weren't in office during the cash crisis which landed a very picky money matters as the chief problem facing the 1961 session.

A questionnaire survey of the men and women who will make the law showed fiscal and tax items at the top of the scale.

Taxation and a budget for the 1961-62 fiscal year were mentioned most often, among the five major problems facing Michigan.

Other problems cited often by the men and women who will make the law were the state's debt, the state's unemployment problem and the state's health care system.

Though many lawmakers commented on various aspects of the money questions, a consensus was "facing up to fiscal responsibility," as one freshman senator put it, at the top of the list.

"Economy — that is keeping to the expenditures of all state departments and agencies within anticipated revenues," was cited as the most important problem facing the state for higher education and state aid to school districts — reapportionment.

Republicans generally expressed a concern for holding state spending down, while Democrats tended to favor a tax revision — an item recommended by Democratic Gov. John B. Swainson — somewhat higher among the major issues.

"Over-all (tax) revision is certainly necessary in terms of eliminating inequities," said House Minority Leader Joseph J. Kowalski, D-Detroit.

Among Republicans who expressed concern over taxes was Farrell E. Roberts, R-Oakland County, who steps up this year from the House to the Senate.

He called for "taxation reform" as one of the chief problems of the next legislature.

The choice of fiscal matters, including problems of local taxation, as top concern for lawmakers came despite the penny hike in the sales and use taxes which took effect Jan. 1.

Even with the tax hike, the state deficit is forecast at more than \$40 million when the current fiscal year ends June 30.

Legislators called for the sales and use tax hikes when legislators gathered.

New Public Service

Michigan Is For Industry

The first of a new series of public service advertisements based on the theme "Michigan Is Everything for Industry" appears today in The Pontiac Press. Others will follow throughout the year.

Waterford Pythians to Install Officers

The Waterford Township Knights of Pythias Fellowship Lodge 277 will have its annual installation of officers at 8 p.m. tomorrow at the Pythias Hall on Voorsing Road near Telegraph Road.

Former Past Grand Chancellor of Oxford Edward Unger will install Chancellor Commander Eugene Allen, Vice Commander Commander George Givens and Past-Retiring Master Joseph Fleming will be installed master of work.

Also included in the ceremony will be Clyde Ruggs, secretary; Charles Lennon, financial secretary; Russell Hunt, treasurer; Dale Payne, master at arms; Harlan Groh, inner guard; Thomas Kretz, water guard; John Anstee, drum major; district department grand chancellor; and Lewis W. Ellis, lodge department grand chancellor.

Jack Lists Five-Point Package

WASHINGTON (UPI) — Here is the five-point legislative package President-elect John F. Kennedy will ask Congress to enact on a priority basis:

1. Aid to education — Federal grants which local communities could use to build public schools and pay teachers' salaries. (Opposition expected to teachers' salary aid.)
2. Housing — More federal funds for slum clearance and liberalization of other programs. (House conservatives may balk.)
3. Minimum wage — An increase in the hourly minimum from \$1 to \$1.25 and coverage for more workers. (Opponents likely to fight out for \$1.16 and oppose extensive additional coverage.)
4. Medical care for the aged — Benefits for elderly persons through the Social Security program. (May run into delaying move in the House Ways & Means Committee.)
5. Depressed areas — New federal programs to help communities suffering chronic unemployment. (Quick approval expected.)

Coleton Aircraft Starts Small Muskegon Plant

MUSKEGON — A production start next June is the goal of Coleton Aircraft Corp. which is setting up an aircraft assembly, parts and service organization at Muskegon.

Philip M. Coleman of Brearfield, Ill., president of the firm, says it will import foreign wings and tail assembly of the Martin-Bell "Bully" — an aircraft manufactured in Turbomec, France. The Muskegon-assembled light planes will be powered with Continental Motors Corp. engines.

Coleman indicated initial operations will employ 20 to 30 persons in plant space leased at Muskegon County Airport.

Luxury Cars Impossible for Average Argentinian

Buenos Aires (UPI) — The newspaper Correo de La Tarde, analyzing astronomical prices paid for cars at recent auctions here, calculated today that an average Argentine worker who banked 10 per cent of his pay each month would have to save for 686 years to buy a luxury automobile.

Prices paid at the auctions ranged from around \$4,000 for budget European "bubble cars" to nearly \$50,000 for a new Cadillac.

Grains Move Ahead on Strong Demand

CHICAGO (U.P.)—A strong demand for grains sent most futures contracts well ahead today on the Board of Trade while soybeans slipped sharply under general profit taking.

May wheat was up eight cents a bushel at the extreme on the opening but the demand at that price was very thin and within a few minutes the gain had been cut to less than two cents.

Brokers said the offerings, except in soybeans, were very light since shorts appeared to be forced to take the initiative. The strongest were related, dealers said, to international uncertainties.

Profit takers, however, lost no time in raking up some of the gains from Tuesday's strong run-up. They were down as much as three cents at the opening.

Will Get Money From City Bank

Community National Is Asking 1.5 Rate on Loan for Pontiac Renewal

City commissioners, as expected last night authorized borrowing of \$2,403,000 from Community National Bank for urban renewal land acquisition.

Security in the six-month loan at the \$3 million revolving fund the federal government has set aside to finance the \$6 million Pontiac project.

By taking advantage of the bank's bid-to-loan-the-funds-at-an interest rate of 1.5 per cent, the city is expected to save more than \$200,000 in interest.

If the city were to borrow the money from the revolving fund, the interest rate would be the standard 4 per cent.

The interest payments come out of the federal urban renewal budget.

HOGLUND was a GM vice president since 1949, and general manager of the Chevrolet Division and a member of GM's administrative committee since 1959.

Daum has been assistant general manager of the Chevrolet Division since June 1, 1960.

CASABLANCA, Morocco (UPI)—The little African summit conference was expected today to outline a policy calling for the return of deposed Premier Prince Laumumba to power in the Congo.

King Mohammed VI, in an opening keynote speech, informed sources said, likely would set tough terms for any future cooperation with the United Nations in the strife-torn Congo.

Speeches at the four-day conference also were scheduled by President Gamal Abdel Nasser of the Egyptian Provisional Government, Kwame Nkrumah of Ghana, President Sekou Touré of Guinea, President Modibo Keita of Mali and Premier Ferhat Abbas of the Algerian Provisional Government.

Representatives of Libya and Ceylon also were present.

They said after a White House meeting that they were ready and willing to cooperate in passing legislation in the national interest but would resist "reckless and irresponsible spending."

This outline of the GOP rule in the new Congress was given by Senate Republican leader Everett M. Dirksen, Ill., and House GOP leader Charles A. Halleck, Ind. after the party leadership in Congress held its first 1961 session with President Eisenhower.

Dirksen and Halleck breakfasted with the President before moving into the larger leadership conference.

Halleck told newsmen there were allegations that the Republican minority in Congress was out to wreck, obstruct and serve as a blind opposition to the new Democratic administration.

He said there would be differences in position between the two parties in Congress and the GOP "will be in opposition but it will be responsible, constructive opposition."

Dirksen agreed, but said also that Republicans would offer legislative proposals in line with their 1960 party platform.

Winter temperatures in New York are often more severe than in Reykjavik, the capital of Iceland. Thanks to a current extending from the warm Gulf Stream, the Reykjavik area's temperatures average 35 degrees in January compared to 30 degrees in New York.

Lewis said all this with a straight face, thus compelling one listener to remind him sternly that the dictionary defines a pun as "a play on words of the same sound but different meanings, or on different meanings of the same word, always for the sake of ludicrous effect."

"Agreed," said Lewis, and then he told a story about former Korean President Syngman Rhee's brother, who fell in love with a girl researcher for Life magazine, for which Rhee also worked.

Rhee disappeared and his sweetheart looked for him everywhere and finally they were reunited. "Ah, sweet Mr. Rhee of Life, at last I've found you," she said.

TRY THIS ONE
For those who consider that an unpuddy joke and a puny attempt at humor, the following story is offered:

A merchant named Chan, who dealt in teakwood figurines, one day hid out in his shop to learn who was stealing his wares. To his surprise a strange-looking bear walked in on foot that looked oddly human.

As the animal snatched up a figurine, Mr. Chan leaped forward and cried: "Stop you boyfod bear with leak of Chan!"

Lewis said he had to admit that most people groaned and quivered when they heard remarks like that, but that deep down they really appreciate a pun—good or otherwise.

This appreciation of the pun applied to everyone, Lewis said—psychiatrists ("mindweepers"), girls who like to drink

NEW YORK, Jan. 2 (UPI)—A band of hardy and embattled souls sought today to enlist the support of millions in their fight for a high-minded cause—saving the pun as a respectable form of humor.

"Upon my soul we'll do it," vowed the pun lovers' leader, George Q. Lewis, executive director of the National Association of Gaggerists.

"This is 'National Save the Pun Week,'" Lewis proclaimed. "Its purpose is to revive the pun and re-establish it in its proper place in humor."

Lewis said the highlight of the "national observance" would be a convention in New York tonight of the Society for the Revival and Preservation of the Pun as a Form of Humor (SRPHF), with comics Phil Ford and Mimi Hines as cochairmen.

"STAND SITTING DOWN"
"We punsters will take our stand sitting down," Lewis said solemnly. "Just like a girl who flirts with the butcher, we're playing for big steaks."

Lewis said he had to admit that most people groaned and quivered when they heard remarks like that, but that deep down they really appreciate a pun—good or otherwise.

This appreciation of the pun applied to everyone, Lewis said—psychiatrists ("mindweepers"), girls who like to drink

Hoglund Is Elected GM Director

NEW YORK — The board of directors of General Motors today elected GM Vice President Ellis S. Hoglund a director of the corporation, group executive in charge of Canadian and overseas operations, and a member of the executive committee.

The directors also elected Earl C. Daum a vice president of General Motors. Daum succeeds Hoglund as a general manager of the General Motors Overseas Division which has jurisdiction over assembly, manufacturing and warehousing facilities in 19 countries.

The actions were effective immediately.

Hoglund was a GM vice president since 1949, and general manager of the Chevrolet Division and a member of GM's administrative committee since 1959.

Daum has been assistant general manager of the Chevrolet Division since June 1, 1960.

Odd Things Happening Between Lucy, Desi

NEW YORK — Lucille Ball declined to pose for a picture with Desi Arnaz when they had a date at the Harwin—though she was willing—so I went backstage at "Bridget" to ask Lucille why. Desi was in her dressing room. Lucille was bending over her friendly-like straightening his tie. He was flying back to L.A. "Phone me when you get back to the ranch," she said. Desi was tired. "You shouldn't make those early appointments when you're going to stay out all night," he reminded her. Desi will return here soon to direct her in a TV show, "Lucy Goes to Broadway."

So I asked her, "Are you two getting back together?"
Lucille said, "We've never been apart." Now if you want to figure this one out, go right ahead.

When Steve McQueen, already father of a daughter, learned from the nurse that his wife, Nellie Adam, just had an 8-pound son, he shouted "Crazy, man!" and went out and set off some firecrackers.

Pretty Doris Wisla, actress and girl manager, is going to marry her client, Don Elliott. She and Don will honeymoon in Aruba where she lived for several years.

THE MIDNIGHT EARL...
Peggy King went on for ailing Sarah Vaughn, who hasn't been able to open at Basin Street—and got her self a booking for next summer.

Boy, are we going to have some swanky dinners at our house now! My wife had me get her an electric can opener for a present.

Dick Leahy, the gentleman journalist, was out riding on a slippery morning, and on a slippery horse. A friend happened along and said, "Well, imagine seeing you in the saddle so early in the morning." Leahy growled, "You and for about the seventh time, too."

EARL'S PEARLS: A Woman's A Woman! Laundry is suggested by Paul Evans: a place to wash the car and iron the fenders.

TODAY'S BEST LAUGH: "He's not as big a jerk as he used to be..." "Getting smarter?" "No, thinner."

WISH I'D SAID THAT: When the average girl says no, she means it. But when many girls are average? That's Earl, brother.

PONTIAC CITY AFFAIRS

Sunday Bowling Legal

Willman before budget time later this month.

In a routine move, the city's Department for maintenance of state trunklines was amended to reflect pay increases under the new pay plan.

The measure allows tournament play between 9 a.m. Sunday, and 1 a.m. Monday, reversing part of the old law that prohibited all Sunday bowling.

In spite of the law, the commission over the years has consistently granted special permission for tournament play on Sundays.

TRADITION NOW LAW
The new provision puts this tradition into the law books.

Furniture Mart Opens

Oh, my aching back!

Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation... with that restless uncomfortable feeling. If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys - tending to increase the output of the 15 miles of kidney tubes. So if nagging backache makes you feel dragged-out, miserable... with restless, sleepless nights... don't wait... try Doan's Pills... get the same happy relief millions have enjoyed for over 60 years. Ask for large, economy size and save money. Get Doan's Pills today!

MIRACLE MILE SHOPPING CENTER

Warns State Against Vending Machine Ad

LANSING (UPI)—Atty. Gen. Paul L. Adams today warned Michigan residents against a relatively new investment scheme being advertised in the state. Advertisements in Michigan newspapers offer to sell vending machine routes, which are owned by non-Michigan firms, for "a little money, a pleasant personality and some extra time," Adams said.

"We have found that despite the rosy picture painted by the ad, many people lose a great deal of money in this operation," the attorney general said.

Adams said investigations

showed people often invested their savings, time and energy in replenishing and publicizing the machines but were unable to get the company to fulfill its promise to supply and maintain the machines.

Adams warned readers of advertisements of this nature to "think twice before you invest—check into the agent's claims very carefully and check with the Michigan Corporation and Securities Commission to make sure that the company has a resident agent in Michigan."

The death rate among America's policyholders of ordinary life insurance for 1960 is estimated at 6 for every 1,000 persons. This is less by a small fraction than 1959, and represents a decrease of about one-fifth over the last 40 years.

Hamarskjold Talks to S. African Officials

UNITED NATIONS, N.Y. (UPI)—United Nations Secretary General Dag Hammarskjold flew to Africa Tuesday night for consultations with Union of South Africa government officials.

Hammarskjold will stop off in Leopoldville en route to South Africa to discuss the explosive Congo crisis with U.N. officials there.

The Secretary General also planned to visit Salisbury, Northern Rhodesia, Cairo, U.A.R., and Bombay, India, during his 19-day tour.

During his stay in Cairo, Hammarskjold said he would pay a visit to the United Nations emergency force in Gaza.

The U.N. official will discuss the racial situation in South Africa with government leaders during his week-long visit there.

'Serious Warning 131' Issued by Red China

TOKYO (AP)—Communist China issued its "131st serious warning" against the United States after charging that a U.S. warship intruded into China's territorial waters today.

A Peiping radio broadcast, quoting a foreign ministry spokesman, said the warship violated the waters south of Panghai Peninsula in Southern China's Kwangtung Province.

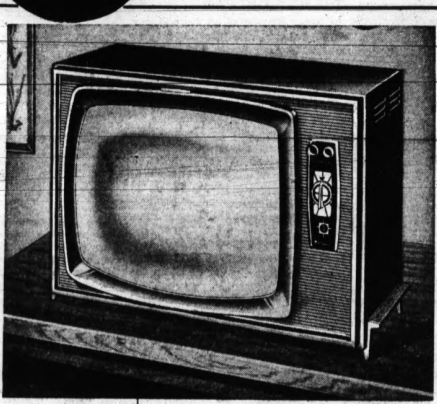

Stops Constipation Due to "Aging Colon"
New laxative discovery re-creates 3 essentials for normal regularity.

As you grow older, the internal muscles of your colon will also age, lose the strength that propels waste from the body. Stagnant bowel contents become so dry and shrunken that they fail to stimulate the urge to purge. Relief, doctors say, lies in a new laxative principle. Old-style bulks and moisteners may create gas, take 3 or 4 days for relief. Old-style salts and drugs cramp and gripe the entire system. Of all laxatives, only new Colomax gives you its special 3-way relief that works only on the lower colon (area of constipation).

(1) Colomax moisturizes dry, hardened waste for easy passage without pain or strain. (2) Colomax's unsualled rebulking action helps restore flabby colon muscles. (3) And Colomax acts gently on the nerve reflexes that stimulate the vital "mass movement" of your lower colon. Colomax relieves even chronic constipation overnight; is so gentle it was hospital proved safe even for expectant mothers. And Colomax won't interfere with absorption of vitamins or other food nutrients. Get Colomax today! **INTRODUCTORY SIZE 43¢**

3 Dead as Nuclear Reactor Blows Up in Idaho

Radioactivity Fills Building; Danger Curbed

AEC Seals Off Area;
Will Send Up Planes
to Test Atmosphere

IDAHO FALLS, Idaho (U)—A new-style nuclear reactor blew up Tuesday night, killed three men and touched off a high level of deadly radiation in a building at one of America's major atomic testing stations.

The Atomic Energy Commission quickly sealed off the area and said there was no danger to other parts of the station or Idaho Falls, a city of 34,000 persons 40 miles away.

"But the building itself was so 'radioactively hot' that only one of the three bodies could be recovered in the first nine hours after the blast.

A team of radiological experts, eerie looking in their baggy white suits with heavy protective shoes, gloves and mask, shuffled in and out of the building to inspect damage and test the radiation.

They went in one at a time and could stay only minutes. The AEC said it would send airplanes aloft to check the level and direction of radiation.

A southwesterly wind, however, was blowing at the time and could take any radiation over hazy mountains away from populated areas.

The three victims, identified only as military personnel, were trainees learning to operate the reactor, known as "Stationary Low-power reactor No. 1." It is a prototype of a small nuclear reactor being developed for use by the Army in remote areas.

The accident occurred at 9:30 p.m. The three men killed were the only ones in the building. At least 60 are on duty there in the daytime.

It was the first fatal accident in 11 years of operation at the National Reactor Testing Station, a major AEC installation.

It may be weeks before the AEC knows exactly what happened. But a spokesman said it apparently was a chemical explosion.

About 4,500 permanent employees work at the station west of here and the AEC said it planned to change their schedules today. The engine for America's first atomic submarine was developed at the site and tests are now being conducted there on a variety of projects, including the power plant for an atomic airplane.

Five years ago the nearby village of Arco, Idaho, was lighted for several hours on a July night by power from a station reactor in a demonstration in advance of an international atomic conference in Geneva.

Abowe-Freezing Temperatures Due Thursday

Skies will continue partly cloudy tonight with temperatures somewhat warmer, the weatherman said.

The low will drop to near 22 degrees. Thursday's high is expected to hit near 36. Saturday will be colder but Monday will find temperatures warming up again.

Light snow will fall on the Pontiac area about Friday and again Sunday.

Morning wind to southwesterly winds at 5 miles per hour will become eight to 15 miles late this afternoon and tonight.

The thermometer reading dropped to 4 above zero at 6 a.m. today but had climbed to 22 at 1 p.m.

Another proposal is to cut the requirement for a simple majority of 51 senators. That is backed by Sens. Hubert H. (Continued on Page 2, Col. 3)

Assistant Whipper-Snapper!

JUST HORSEING AROUND — Sen. Vance Hartke, D-Ind., (left) jokingly presents Sen. Hubert Humphrey, D-Minn., with a pair of whips. Tuesday to mark his election as assistant Democratic leader in the Senate. The job officially

designated as majority whip. Humphrey succeeds Sen. Mike Mansfield of Montana, newly chosen leader. Humphrey is backing a control-filibustering bill.

6,694,327 Passenger Models

1960 Car Output 2nd Best

From Our News Wires

DETROIT—American automobile manufacturers reported Tuesday they built 6,694,327 passenger cars in 1960, a rise of about 20 percent of all cars built. In 1959 the cent from the previous year and smaller cars numbered 755,435 or the second highest total in history. 115.5 percent.

The record production year was 1955 when 7.9 million cars were built.

Four of the five companies bettered last year's figures. General Motors and Ford had their best years since 1955 and American Motors set a company

record. Chrysler's total was its best since 1957.

Compact car production in 1960 totaled 1,943,142 units or 29 percent of all cars built. In 1959 the compact car production was 1,341,341 standard size cars. Last year Ford beat Chevrolet by about 4,000 units.

Chevrolet won the standard size production race with an edge of almost 100,000 units over second place Ford. Chevrolet built 1,614,341 standard size cars. Last year Ford beat Chevrolet by about 4,000 units.

Among the compacts, Ford displaced Rambler in the No. 1 spot with an edge of about 20,000. Rambler production totaled 365,426. Ford's was 385,426.

Rambler was second, Corvair a distant third followed by Valiant, Comet, Lark, Dodge Lancer, Oldsmobile, Buick Skylark and Pontiac Tempest.

December production for the industry was only slightly ahead of December 1959, with General Motors and American Motors the only companies to improve on year-ago figures. The total was 522,238 cars against 494,550 in December 1959.

GM IN LEAD

General Motors again led the production race with 1,960 totals for both cars and trucks of 3,900,929 units from United States and Canadian operations.

This included 3,368,227 passenger cars compared with 2,705,436 in 1959.

December production totaled 326,235 units of which 250,747 were passenger cars.

Ford Motor Co. reported total production for the year was 2,229,341 units.

(Continued on Page 2, Col. 3)

Aid to Depressed Areas No. 1 on Senate Agenda

WASHINGTON (U)—Senate Democratic leaders have started a drive to get through Congress the first of the social welfare bills President-Elect John F. Kennedy has pledged to back.

No. 1 is the depressed areas bill. It was learned today that Senate Democratic leaders will give it the "S. 1" ticket as the first Senate bill introduced this year.

The measure again will be offered by Sen. Paul Douglas, D-Ill., and will be similar to another bill of his in the last Congress, passed by the Senate, watered down by the House, and vetoed by President Eisenhower.

Among other measures on the Kennedy list sure to follow are medical care for the aged tied to Social Security, raising the minimum wage and federal aid to schools.

But before they buckle down to business both House and Senate were embroiled today in their perennial fight over matters pertaining to civil rights legislation.

FILIBUSTERING UP

In the Senate, the fight centered on a proposed rules change to make it easier to halt a filibuster—the ancient weapon of the Southerners to talk a civil rights bill to death.

Sen. Clinton P. Anderson, D-N.M., has proposed that three-fifths of the Senate—60 senators—could vote to cut off debate. At present a two-thirds majority of all present and voting is needed.

Another proposal is to cut the requirement for a simple majority of 51 senators. That is backed by Sens. Hubert H. (Continued on Page 2, Col. 3)

First-Degree Murder Charged to Hamilton

Accused of slaying two of his wife's brothers, Keith I. Hamilton was held in Oakland County Jail today on a charge of first-degree murder.

The 25-year-old laborer and former preacher, who police say admitted the killings "on impulse," was arraigned yesterday before Pontiac Municipal Judge Cecil McCallum.

Hamilton was ordered held without bond for examination Jan. 11.

He was charged specifically with the murder of his brother-in-law William R. Smith, 21, of 75 Lincoln St.

William R. Smith and his brother Melvin, 23, were killed instantly Monday night by single shots fired into their heads at close range with a deer rifle.

Melvin's body was found in the basement of the Lincoln Street home. William's was found in the kitchen after grappling with the assassin, where he shot Melvin.

But William tied up stairs to the kitchen while his brother was being shot, according to the confession.

Robert Temple, Jr., assistant prosecutor in charge of the case, said Hamilton was charged with the slaying of William Smith "because it indicates more clearly premeditation, an element of first-degree murder."

Temple said Hamilton admitted pursuing William up the stairs and shooting him in the kitchen after grappling with him momentarily over the rifle.

MOTIVE STILL PUZZLES

Temple said police were still puzzled over a motive in the slayings.

Detective Thomas Mitchell said Hamilton, a former mental patient at Pontiac State Hospital, had expressed repeated concern over the fact that he was charged to go on trial in Circuit Court this month or next on a charge of gross indecency with a 16-year-old boy.

"I just don't have the guts to face that," Mitchell quoted Hamilton as saying.

Hamilton had twice served sentences on morals charges involving minor children.

In September 1958 Judge McCallum sentenced him to a year in jail for molesting a minor.

Six months earlier, Hamilton had been charged with the same offense. (Continued on Page 2, Col. 7)

Mercury's High and Low

NEW YORK (UPI)—The highest temperature reported for the week ended Tuesday was the war office announced today, 74 degrees, at Thermal, Calif., and a spokesman said Protomo's tin.

The lowest reported today was 32 below zero, at Fraser, Colo.

WALTER ROUS
To Handle U.S. Affairs

Don't Rush, Cuba Tells Americans

HAVANA (UPI)—The U.S. Embassy today made arrangements for the speedy exodus of Americans from Cuba and urged all to depart in the wake of President Eisenhower's decision to break diplomatic relations with the Fidel Castro government.

The first wave of departing diplomats and other Americans was expected this afternoon.

An unusually cautious note from the Cuban government, however, suggested there was no need for haste. It pleaded the "most absolute guarantee" of safety for all American citizens—residents, tourists and diplomats alike.

The note, delivered after the Cabinet in an emergency meeting had considered the White House announcement of the break, also offered to extend the 24-hour period given all but 11 members of the embassy staff to get out of Cuba. The 24-hour period expires this afternoon.

OFFERS MOVING AID

It further emphasized the assistance by offering "in concurrence with the norms of international right, every kind of facility" for the removal of the embassy's office equipment and other property.

The Cuban government said it in turn would withdraw its diplomatic personnel from the United States as speedily as possible and turn its representation in the United States over to Communist Czechoslovakia's diplomats.

The American colony in Cuba is estimated at between 500 and 2,000. The embassy urged all to leave unless they have "compelling reasons" to remain.

Ike Breaks Off Diplomacy as 'Limit Reached'

Extends Sympathy to
People Suffering Under
'Yoke of a Dictator'

WASHINGTON (U)—President Eisenhower has broken U.S. diplomatic relations with Fidel Castro's Cuban regime, declaring "the limit has now been reached to what the United States in self respect can endure."

The President said "our sympathy goes out to the people of Cuba now suffering under the yoke of a dictator."

The White House announcement of the breakoff Tuesday night marked rock bottom in a downward plunge of U.S.-Cuban relations that started soon after Castro's capture of power last year.

HAVANA (U)—The U.S. Embassy's longtime receptionist, her mother and her sister were arrested last night by Cuban military agents. The three women are Cuban citizens. The receptionist had planned to leave for the United States today.

Embassy officials expressed fear that once the embassy is closed, Cuban officials will take advantage of the situation against its former Cuban employees.

Castro's anti-United States attacks and his surge to the Communist camp have mounted over the months.

The hardline Cuban leader reacted to Eisenhower's statement by saying, "We are alert." He called his Cabinet into emergency session, then sent a note to the U.S. Embassy guaranteeing safety of all remaining Americans.

A State Department spokesman said the break did not affect the U.S. naval base at Guantanamo Bay in Cuba. Castro has made threats against the base.

The United States says it holds an undeclared, no-time-limit lease on the installation.

Eisenhower served notice last Nov. 1 that the United States "will leave on Page 2, Col. 21"

Shell Oil Launches Newspaper Ad Drive

One of the biggest and most unusual advertising campaigns in newspaper history is just starting. Planned by Shell Oil Co. the advertising is appearing in The Pontiac Press.

Virtually all of the company's consumer advertising budget for 1961 has been allocated to daily newspapers. The petroleum industry has been for many years a heavy newspaper advertiser. However, this is the first time that an oil company has placed all its advertising in one medium.

As a result, Shell gasoline is expected to be the biggest single brand advertiser in newspapers this year.

The Shell campaign, on the general theme "Operation Top Performance," has been designed to reach consumers "the whole fascinating story" about gasoline. The ads will give detailed information about the ingredients and how they perform. "People will read long ads," the company stated, "if they're interesting and informative." The statement (Continued on Page 2, Col. 5)

STUMBLING BLOCK

RAYBURN SWORN IN TO LONG-HELD POST — Rep. Sam Rayburn, D-Tex., stands with raised hand at left Tuesday as he is sworn in as speaker of the House of Representatives by Rep. Carl Vinson, D-Ga., right. The 73-year-old Rayburn has held the post longer than any other man in the nation's history. Rayburn and other Dem leaders are determined to curb the power of a Southern Democratic Republican coalition in the Rules Committee that often has blocked liberal legislation. If not accomplished, the leadership feels much of the Kennedy program might get stuck in this bottleneck.

...from the committee, and place him with the liberals. It is the wish of the two Southerners who sit with Republicans on the committee.

Another way would be to increase the size of the committee and pack it with liberals. If something is not done, the leadership of the committee, much of the Kennedy people, might get stuck in this situation.

Bloomfield Man Dies of Injuries Suffered in Crash

The death of a Bloomfield man, injured in a traffic accident on the New Year weekend, was announced yesterday to Detroit police.

Harold R. Carter, 29, of 1985 Pine Road, died Monday at Rordford General Hospital from injuries suffered Saturday when he crashed the car he rented of another Bloomfield man.

Seven Mile and Evergreen roads were closed for an hour.

Service for Carter will be held at 11:30 a.m. tomorrow at the W. H. Mason Funeral Home, 1000 Oak. Burial will be in Woodland Cemetery, Detroit.

Navy veteran, Carter was a member of the Liberty's firm, the Liberty Carter Co., a Detroit independent contracting company.

Surviving are his wife, Gertrude, his father, a brother and two sisters.

Students Are Registering MSUO This Week

Students at Michigan State University Oakland are registering this week for the winter term which begins Thursday.

Officials expect a drop in the 308 students enrolled for fall term.

Reds Exploit Administration Shift

U.S. at Disadvantage in Laos Crisis

WASHINGTON (AP) — The United States held the door open today to a satisfactory political solution to the civil war in Laos, but maintained a posture of military readiness if called upon to defend the tiny Southeast Asian kingdom.

Authorities here said there is little doubt extensive Soviet and Communist North Vietnamese participation in military operations against the royal Laos government are timed to catch the United States at a period of maximum disadvantage.

The outgoing administration of President Eisenhower turns over responsibility to President-Elect John F. Kennedy in a scant 15 days. Officials believe the Communists are seeking to exploit any advantage they can find in the meantime.

The State Department Tuesday put on the record the Soviet and North Vietnamese airlift of arms to Communist forces in Laos. In a statement it cited 134 observed flights by Soviet transport planes carrying war material to rebel forces. The bulk of the arms deliveries went to Vang Vieng, a rebel concentration point about 60 miles north of Vientiane.

In addition, substantial numbers of North Vietnamese military personnel were said to have been parachuted into the area.

"If we are awaiting a political solution and the Soviets are taking military steps it does not bode well for the future of Laos," snapped Chairman Clement J. Zablocki, D-Wis., of the House Foreign Affairs subcommittee on the Far East. The congressional group was given a two-hour secret briefing by Acting Assistant Secretary of State John M. Stevens.

Zablocki predicted action by the Southwest Asia Treaty Organization (SEATO) if the situation worsened.

State Department press officer Joseph Roop said the recommitment of the International Control

mission for Laos is one of several possibilities which the United States had been discussing in cooperation with other governments. Indian diplomatic sources here reported some improvement in the cease-fire in Laos until 1958.

Detroit-Canada Tunnel Operation Profits Up

TORONTO, Ont. (AP)—Detroit and Canada Tunnel Corp. had net profit of \$726,336 or \$1.01 a share in the year ended Oct. 31, 1960, compared with \$612,185 and 85 cents in the corresponding period in 1959.

William S. Burton, president, said vehicles paying a toll through the company's tunnel between Detroit and Windsor, Ont., increased 11.6 per cent over 1959 and that

Toledo Official Named to Position in Monroe

MONROE, La.—Leonard E. Leis, 35-year-old director of public service for Toledo, was named city director by the Monroe City Commission Tuesday night.

Leis succeeds retiring Mark G. Dance, 65, next Monday to the \$10,750-a-year post for a one-year term.

A TOPSY-TURVY YEAR — Anyway you want to look at it, 1961 is a most unusual year. Misses Jeanne Balaban, Margie Williams, Jackie Beck and Sarah Becker, left to right from bottom, demonstrate in Bangor, Maine. The last time it happened was 1881, and it won't be until the year 6009 that this photo could be taken like this again.

Johnson Move Startles Dems

See Vice President Playing Powerful Role in New Congress

WASHINGTON (AP) — The prospect he will preside over Senate Democratic policy discussions appeared today to pave the way for Lyndon Baines Johnson to play a powerful political role in the new Congress.

Johnson, who resigned as a Texas senator Tuesday, passed along his majority leadership to Sen. Mike Mansfield of Montana. Johnson will become vice president Jan. 20.

Elected to the leadership post, Mansfield promptly started the Democratic senators by announcing he will invite Johnson at times to provide both Democratic caucuses and policy committee meetings.

Vice presidents, members of the executive branch, ordinarily don't sit in on such sessions. Vice President Richard M. Nixon rarely attended Senate Republican policy committee meetings and then only on special invitation. He never presided.

PASS PROPOSAL

An hour and a half of uproar in the closed-door Democratic caucus ended in a 46-17 vote in support of Mansfield's proposal. It left the action open to a variety of interpretations.

Sen. Paul Douglas, D-Ill., said "the decision means that Sen. Johnson will continue as majority leader of the Senate." Johnson did not comment publicly on the conference action. He has told friends he wants to participate as fully as possible in Democratic matters but has no intention of infringing on Mansfield's authority as majority leader.

Johnson regards the invitation to preside over meetings as a gracious gesture to an incoming vice president of the same party.

CALLS IT AN HONOR

Mansfield said the action was an honor for Johnson and recognition of past service. He noted Johnson won't have a vote in the meetings.

Sen. Hubert Humphrey of Minnesota, Mansfield's new assistant leader, said there was precedent for the action. He said the late Vice President Aiken Barkley had presided over similar sessions.

Metropolitan Detroit 5th in Population

WASHINGTON (AP) — Metropolitan Detroit is fifth in population in the nation, according to final 1960 figures released Tuesday by the census bureau.

The Detroit metropolitan area was listed as containing 3,782,308 persons, compared with 3,616,191 in the 1950 census.

Detroit followed the New York, Los Angeles-Long Beach, Chicago and Philadelphia metropolitan areas in that order.

Other Michigan metropolitan area populations were given by the bureau as:

Ann Arbor	(1960)	(1950)
Bay City	172,440	134,606
Flint	107,042	88,461
Grand Rapids	274,313	270,363
Jackson	263,187	228,292
Kalamazoo	131,994	107,325
Lansing	189,712	126,707
Marquette	278,350	224,717
Monroe	149,943	121,545
Saginaw	190,752	153,515

Sub for Pink Elephants

SAN RAFAEL, Calif. (UPI) — Police were summoned to a San Rafael bar after a donkey walked in with a dog on its back. J. B. Marshall told officers he brought the animals to the tavern "to provide some laughs for the boys."

Mother in Jail; Fights to Keep Her Two Children

CHICAGO (AP) — A young divorced mother of two remained in her jail cell today, her extradition to Florida held up pending a hearing Monday by the Illinois Supreme Court.

Mary Jane Jeffries, 22, says she'll stay in jail "the rest of my life" rather than surrender custody of her young son and daughter.

Justice Walter V. Schaefer of the state's high court ordered her removal to Florida delayed Tuesday, just one hour before Florida officials were to return her to Miami.

The slender, attractive brunette was divorced in Miami last month by her sailor-husband Richard T. Jeffries II. A court gave custody of the children, Richard II, 3½, and Kelly Lynn, 1½, to their father and his parents.

But Mrs. Jeffries brought the children to her parents' home in Chicago. She was charged with contempt of court and her extradition was sought. Chief Justice Richard Austin of Criminal Court sent her to jail, without bail, when she refused to bring the children into court.

Negro Clergy Urge Crime Group Talks

DETROIT (AP) — Detroit's Negro Baptist ministers have joined the local chapter of the National Association for the Advancement of Colored People in urging a community-wide committee be named to discuss Detroit's present crime wave.

The clergymen, members of the Baptist Ministers' Conference of Detroit, met here Tuesday.

The Rev. Louis Johnson, pastor of the 1,300-member Friendship Baptist Church, one of 250 Negro Baptist churches in Detroit, expressed concern over the tension created by Police Commissioner Herbert W. Harte's crackdown on crime.

He said the situation "is very explosive and grows worse daily." Meanwhile, the police crackdown jammed jail cells during the week end and brought a near-record rush of business to Recorder's Court Tuesday.

Judge Edwin L. Davenport arraigned a total of 63 persons on felonies, including 10 persons charged with carrying a concealed weapon.

Mackie Appoints Yarmy

LANSING — State Highway Commissioner John C. Mackie has announced the appointment of Art Yarmy, Lansing businessman, as chairman of his finance committee in Mackie's bid for re-election. Yarmy was active in Mackie's successful campaign for election four years ago.

No. 3—Baseball's Most Unforgettable Games

Most Consistent Player of All,
DiMaggio Hits Safely in 56 StraightBy JOE REICHEL and
BEN OLAN

The most amazing of all hitting feats, the greatest hitting streak ever recorded was achieved by Joe DiMaggio, the most consistent ball player of his time. As for virtually all spectacular performances, there was no warning that something big was on the way when Joe rapped out one hit in four tries on May 15, 1941, against Ed Smith, stocky Chicago White Sox left-hander.

The day before, against Mel Hoke of the Cleveland Indians DiMaggio had been hitless in three official times at bat. The Yankees then were in fourth place, playing 300 ball.

It wasn't until two months and three days later that Joe went hitless again. Ironically, it was Cleveland, pitching again that stopped him.

In between those two hitless slumps, Joe DiMaggio collected at least one safety in each of his 36 consecutive contests. This remarkable streak, longest in major league history, lasted over one-third of a normal league schedule of 154 games. In that 56-game span, the Yankees won 41 and lost 15 for a 73 per centage (two games ended in a tie).

The Yankees played 300 ball before DiMaggio's streak and 400 ball afterward.

The day after Joe began his streak, he collected two more hits against Thornton Lee and another the following afternoon. After Chicago, he hit safely in three games with the Browns and two with Detroit.

By the night of Decoration Day, he had hit safely in 16 straight games. It rose to 25 by June 10, with Schoolboy Rowe. Bob Feller, Mel Hardy, Dizzy Trout, Hal Newhouser and Lefty Grove among his victims. Baseball people were beginning to take notice now.

The streak climbed to 30. The entire baseball world was becoming excited. Even Joe began to get deeply interested when he passed Rogers Hornsby's National League record of 33 games (since topped by Tommy Holmes' 37 straight). On June 27, against the Athletics, Joe boosted the string to 40 games, and interest in everything else in baseball—penalty races included—was suspended. The Yankee Clipper now needed one more to tie George Selig's "Hit-Em-Where-They-Ain't" Willie Joe, 44 years before. The pressure was terrific.

In the forty-third game, on July 1, the opener of a double-

bender against the Red Sox, Joe got two hits. In the nightcap, with the crowd belting Yankee Stadium at the seams, he equaled Willie Keeler's ancient record.

Fifty-two thousand fans turned out at Yankee Stadium on July 2 to see DiMaggio set a new record. He didn't disappoint them. With Herb Newhouse pitching for the Red Sox, Joe connected in the first inning and drove what looked like a sure home run, but Stan Spencer raced back to the left field barrel and caught the ball. In his next time at bat, he walked a mark of 41 straight games with the St. Louis Browns of 1922.

DiMaggio shipped past that milestone on June 19 with a hit off Washington's Arnold Anderson to make it 42 for himself.

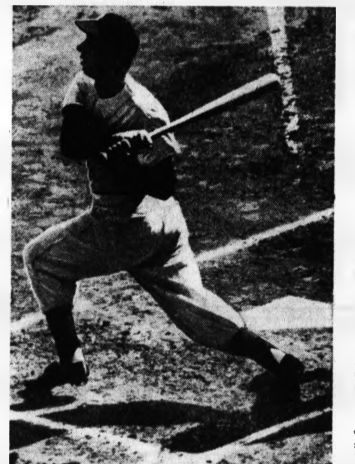

DiMaggio now took dead aim on the all-time record of 44 straight games, which had been marked up by Wally Piker, the famed sure-fire hit to left center, but a fellow named Don DiMaggio made a spectacular catch to rob his brother. Joe made sure that no one could rob him the next time he came to bat. In the fifth, he ended the strain by tagging Newhouse for a home run and a new record. For the first time in a long streak, a grin was noticed on dead-pan Joe's face.

THE STRING SNAPS

DiMaggio wasn't finished, however. The run rose to 50, to 55. On July 16, he rapped three hits off Cleveland pitcher Al Milnar and Joe Kralchuck to make it 56 in a row. On the night of July 17, a tremendous throng of 61,467 crowded into Cleveland Stadium. Most of them came to see Joe add one more to his streak. But the string snapped. Lefty Al Smith and righty Jim Bagby were the stoppers.

Smith disposed of DiMaggio twice, thanks to fancy stops by third baseman Ken Keltner of wicked twists down the alley. Joe walked once. In his last time at bat he faced Bagby. It was the right inning. The bases were full, one out. The crowd realized it was his last chance, pleaded with Joe to get a hit. The count was one ball and one strike when he hit a sharp grounder toward the hole between second and third. Lou Boudreau raced over, scooped up the ball, and whipped to second, starting a double play.

The tension was over. The next day DiMaggio started another streak. This one started through 16 games. Just a little extra push to speed the Yankees to their quickest flag-chasing.

A picture of power. Joe DiMaggio lashes out a hit.

PCH Defense Shines at Dondoro

LIONS WARMUP—In the warmth of the Miami sun, the Detroit Lions' backfield warmed up for the NFL's Rummage Bowl which will be played Saturday against the Cleveland Browns.

Oaks Throttled
as Chiefs Win
Easily, 54-32

Control Cagers Breeze to Their 4th Victory in Six Tries

By BILL CORNWELL

ROYAL OAK—Art Van Ryzin, Pontiac Central's veteran head basketball coach, has always been a stickler for sound defensive work.

Until Tuesday night the astute PCH mentor had been anything but pleased with the defensive play of his West Huron Street cagers. He breathed a little easier yesterday, however.

Van Ryzin even forced a similar error after watching the Chiefs combine an alert defense with some solid team play for a relatively easy 54-32 triumph over Royal Oak Dondoro last night on the small Dondoro court.

The Chiefs' tight defense limited their opposition to the lowest single-game total of the 1960-61 season as they chalked up victory No. 4 in six games in a non-conference encounter.

It was the 2nd defeat in five contests for Ev Zenen's Dondoro quintet. Except for deficits of 23 and 42 in the 1st minute of the game, the Chiefs led the outclassed Oaks all the way.

Big Brad Pittchett's layup and a corner jump shot by Clarence Douglas set the Chiefs ahead, 8-0, midway through the 1st period and the Oaks never caught them again. PCH opened quarterly leads of 16-7, 28-16 and 42-20. Van Ryzin emptied his bench in the final minutes.

Pritchett, hustling all the way, was strong and tough on the backboard as he turned in his finest performance of the campaign. The muscular 6-foot-4 Pritchett grabbed 14 rebounds and scored nine points.

George DeF. Central's spectacular backboard artist, went to the sidelines with his 4th personal foul in the 2nd minute of the 2nd period and did not return to the floor until the start of the 4th quarter. Yet the 63 jumping Jack managed to tally nine points and collect 12 rebounds.

Central's scoring punch was quite well balanced. Douglas tallied 16 points, 14 of them in the 1st half, to set the pace. Art Rouch getting better every game, bagged eight points and Paul Brown added five.

Forward Bill Pyles netted 11 points to spark the Oaks' losing cause. There were still patches of slipshod work by the Chiefs, but by and large they were their best all-around effort to date.

The Chiefs resume their Saginaw Valley warfare Friday against Bay City Central at Bay City.

With Rouch's ransom netting 13 points to spearhead a well-balanced attack, the PCH junior varsity handed the Dondoro reserves a 71-51 thrashing in the preliminary contest.

PHILADELPHIA (UPI)—Assistant Coach Nick Short today emerged as the most likely candidate to succeed retired Buck Shaw as head coach of the Philadelphia Eagles after the Phils learned the club favors him, presumably because of experience and proven ability.

At the same time, it also was learned the Eagles plan to offer quarterback Norm Van Brocklin, who retired at the end of this season as a player, a record National Football League salary to return.

But the 34-year-old passing great led the Eagles to their first title in 1958. In 11 years since this year, said Tuesday he would turn down the offer and return to Oregon unless he gets a coaching job.

It was understood however that some Eagles officials feel they can persuade Van Brocklin to return as a player or as a player-assistant under Storck.

Western Observers Scoff
at 'Slow Footed' Gophers

LOS ANGELES (AP)—Minnesota's slowest team the Big Ten has been sent to the Rose Bowl in the last better game of it. For example, 15 years, a Los Angeles sports columnist said today.

Another columnist said the Big Ten would have been better off if it had sent Iowa.

Met Dunsing of the Examiner had this comment on the Gophers' 177 loss to Washington.

"Watching Minnesota clomp ponderously about the grass last Monday, you had trouble envisioning this group as the top-ranked collegiate team in America."

"Some of its backers insisted lamely that the Gophers at the start merely got left in their holes, but it's an immutable fact that when they got to running they didn't show enough speed to catch a porcupine."

"Of all the Big Ten teams we have seen in the bowl the last 15 years, Minnesota is easily the slowest outfit. And if this club was able to take the measure this season of its Western kin, you would turn in the Big Ten."

Sports Editor Paul Zimmerman of the Times wrote:

"This department was castigated by Gopher grads for its temerity in suggesting the AAUW (Athletic Association of Western Universities) could do better in inviting the (Iowa) Hawkeyes... if they must turn in the Big Ten."

"After what happened in the Rose Bowl, it hardly can be denied the slowest team the Big Ten has been sent to the Rose Bowl in the last better game of it. For example, 15 years, a Los Angeles sports columnist said today.

Another columnist said the Big Ten would have been better off if it had sent Iowa.

Met Dunsing of the Examiner had this comment on the Gophers' 177 loss to Washington.

"Watching Minnesota clomp ponderously about the grass last Monday, you had trouble envisioning this group as the top-ranked collegiate team in America."

"Some of its backers insisted lamely that the Gophers at the start merely got left in their holes, but it's an immutable fact that when they got to running they didn't show enough speed to catch a porcupine."

"Of all the Big Ten teams we have seen in the bowl the last 15 years, Minnesota is easily the slowest outfit. And if this club was able to take the measure this season of its Western kin, you would turn in the Big Ten."

Sports Editor Paul Zimmerman of the Times wrote:

"This department was castigated by Gopher grads for its temerity in suggesting the AAUW (Athletic Association of Western Universities) could do better in inviting the (Iowa) Hawkeyes... if they must turn in the Big Ten."

"After what happened in the Rose Bowl, it hardly can be denied the slowest team the Big Ten has been sent to the Rose Bowl in the last better game of it. For example, 15 years, a Los Angeles sports columnist said today.

Another columnist said the Big Ten would have been better off if it had sent Iowa.

Met Dunsing of the Examiner had this comment on the Gophers' 177 loss to Washington.

New General Manager of Athletics Is Back With Gordon

By The Associated Press

Art Heyman, one New Yorker who Frank McGuire couldn't find, continues to drive Duke's Blue Devils to a solid national title, while establishing himself as one of the top managers of the college basketball season.

A hero both on and off the court, the 19-year-old, 6-foot-6, 205-pounder from Rockville Centre, N.Y., fired 28 points and boosted his season's average to 23.4 Tuesday night as eighth-ranked Duke whipped Navy 78-63 for its 10th victory in 11 games.

Seven of those 28 were game-breakers credited off a succession in the closing minutes by Heyman, who shunted back from McGuire's North Carolina Tar Heels and his family camped at other major schools to enroll at Duke after the two teams battled in the 1959-60 season.

The 28 points represented a season record for the new Green-Bay, N.C. Coliseum and earned Heyman an award as the game's outstanding player.

Awards are common to the top youngsters, who, ending in 1959, topped the high school career scoring record for Long Island's Nassau County set in 1943 for Mathias, N.Y. High by a muscular fellow named Jimmy Brown—now a future of some note with the Cleveland Browns.

Besides bagging all sorts of athletic trophies for his basketball and soccer ability in high school, Heyman also won a hero's medal for his help in saving a 21-month-old boy from drowning. During the summer of 1959, before heading south to whistle Dixie at Durham in double figures, he and a pal dragged the drowning child out of a creek and applied artificial respiration until breathing was restored. Police later credited Heyman.

Punger, who broke into North Carolina State's starting lineup last week, scored 22 points—19 in the first half—as the Wake Forest College Virginia 94-71 in an Atlantic Coast Conference tie. Vanderbilt, only one of six surviving unbeaten major teams, made it 5-0 this season with an 80-57 romp over Sewanee, and 6-foot-6 Chris Smith fired 18 points and grabbed 25 rebounds at VPI made it 2-0 in Southern Conference doings, 73-63 over the Citadel. The Citadel earlier whipped West Virginia, which has monopolized the conference championships for years. In another Southern Conference game, Jerry Smith's 24 points led Furman 62-50 over William and Mary.

Georgia Tech, runner-up to Auburn for the SEC title last year with most of its top line intact, which has monopolized the conference championships for years. In another Southern Conference game, Jerry Smith's 24 points led Furman 62-50 over William and Mary.

In scoring first in the South-eastern Conference race, Texas A&M got 29 points and 13 rebounds from Carroll Brumfield in an 82-69 triumph over TCU, and Del Ray Stinson, Georgia Tech's star, scored 13 points in a 73-68 upset of SMU, first Tech victory over Southern in 11 years. Moates had 21 points, 12 in the second half.

Temple (10) made it right in a row, 101-89 over Scranton, behind Bruce Drysdale's 31 points, and Fred Moore had 31 points and Larry Jones 28 as Oklahoma (14) thrashed West Texas State 87-74.

Frank Burgess of Gonzaga, the nation's No. 1 score with a 22-point average, managed only 17 in a 72-63 victory over Whitworth, and Houston, with Ted Luckenbill scoring 23, downed Lamar Tech 80-53.

Salt Lake (14) thrashed Colorado of the Pacific 73-38 in a West Coast Athletic Conference game. The Hornets are undefeated in four starts this season. Don Sweetman, Chuck Young and Joe Prince each scored two goals for the Orion skaters.

Duby, Thomson Lead
Winners in Waterford

Joe Duby pushed in 18 points to lead Pierce City to a 66-45 victory over Tom Thumb in the Waterford Class A recreation league last night at Cray School.

In the other Class A game, Bud Thomson had 23 as Lakeland defeated Johnson & Anderson 63-37.

John Pungor of North Carolina State—played a key role in Tuesday night's college activity that also saw Vanderbilt stretch its two-season win streak to 11, Virginia Tech establish itself as the team to beat in the West Virginia-dominated Southern Conference, and touted Georgia Tech right in the first round of the Southeastern Conference playoffs.

Punger, who broke into North Carolina State's starting lineup last week, scored 22 points—19 in the first half—as the Wake Forest College Virginia 94-71 in an Atlantic Coast Conference tie. Colavito Signs for '61;
Tigers Also Name Scout

DETROIT (UPI)—Home run slugger Rocky Colavito, slated for a switch to left field next season, has signed his 1961 Detroit Tigers contract, the club announced today.

Colavito, acquired from the Cleveland Indians in the celebrated trade for Harvey Kuiper last April, has played rightfield throughout his American League career.

But Manager Bob Schefling plans to move Colavito over to the left field post in order to make room for Al Kaline in right and newly-acquired Bill Bruton in center.

Colavito socked 33 homers for the Tigers in 1960, more than any other Detroit player in 20 years with the exception of Hank Greenberg's 44 in 1946.

The Tigers also announced that veteran baseball scout Louis B'Annunzio has been named as their scout in Detroit, Michigan and Northern Indiana.

Vice president James A. Campbell said B'Annunzio's return to the Tigers and said, "we are certainly happy to have him on our staff again—instead of competing with him for prospects in this area."

B'Annunzio patrolled the Detroit territory for the Baltimore Orioles during the 1954-60 seasons. He was in the Detroit Senior Hockey League game. The Hornets are undefeated in four starts this season. Don Sweetman, Chuck Young and Joe Prince each scored two goals for the Orion skaters.

Steels Progress in Mixed Market

NEW YORK (UPI)—Steels continued to make progress and some blue chips recovered in a mixed stock market early today. Trading was fairly active.

As the second session of 1961 got under way there seemed to be a recovery tendency from Tuesday's sharp loss on average. But some large blocks were sold at lower prices.

U.S. Steel was down 1 1/2 to 58 1/2, on a transaction of 12,000 shares and total volume was off at 34 1/2, on 10,000.

U.S. Steel and Jones & Laughlin were ahead about a point each while Youngstown Sheet rose more than that.

American Telephone, trimmed sharply Tuesday by profit taking, recovered about a point, Eastman Kodak, another victim Tuesday, made a similar recovery. Union Carbide slid fractionally.

Polaroid rebounded a couple of points. Texas Instruments dropped more than 2.

Aluminum was mainly steady, rails and oil narrowly mixed. Aircraft-missile stocks were unchanged to a bit higher, not much affected by the launch and the severing of U.S. diplomatic relations with Cuba.

Douglas Aircraft was up a fraction. General Dynamics gained a point.

American Machine & Foundry was up about a point at the start on overnight news of a stock split proposal, then slipped the gain to a fraction.

The company also plans a debt-lease issue.

News of a stock split proposal, then slipped the gain to a fraction.

Socialists Hold Out Elsewhere

BRUSSELS (AP)—The Belgian government today appeared to have broken the back of the 16-day-old strike in Brussels. But the Socialist-unions fought doggedly in many parts of the country.

Union efforts to close the capital's department stores flopped today this morning when determined policemen showed away between 200 and 300 pickets.

The pickets—about 40 per cent of them women—walked meekly away.

Postal deliveries also improved in the capital. Streets and buses seemed to be as plentiful as in normal times.

DIFFER ON DEMONSTRATORS The Socialist newspaper "Le Peuple" claimed that 200,000 persons demonstrated throughout Belgium Tuesday against Prime Minister Gaston Eyskens' austerity program of higher taxes and lower social security benefits. The government estimated the total at 75,000, a figure given credence by the 9,000 turnout in Brussels.

Parliament was to continue its debate on the austerity legislation today. With the government coalition parties—the Social Christians and Conservative Liberals—backing him, the Prime Minister would have votes on various motions Tuesday after the lawmakers returned from their Christmas recess.

Eyskens' backers considered their votes of confidence.

Antwerp, Belgium's biggest port, remained partially paralyzed but a department store strike faded also.

But in Southern, near the southern industrial city of Charleroi, police broke up rowdy demonstrations with bayonets. In Liege and at Namur most stores remained open and transport was at a near standstill.

At Ghent, police arrested 40 electric power plant employees who defied an order from the provincial government to return to work.

REFECTIONS: "It is impossible to tell at this early hour how our immigration service's attitude will be toward refugees fleeing Cuba," said Edward W. Ahrens, regional director of the Immigration and Naturalization Service. "Frankly, we are anxiously awaiting directives from Washington."

TRADE: The flow of truck farm produce from Cuba to the United States will be a first victim of the break in U.S. ships being carrying the crops, according to Joseph Fortner, supervising U.S. customs agent, and they "will not take the chance because they have no protection in Cuban ports."

City commissioners, as expected, have not approved borrowing of \$2,042,000 from Community National Bank for urban renewal and acquisition.

Security in the six-month bond fund is \$3 million revolving fund. The federal government has set aside \$3 million for the \$3 million Pontiac project.

By taking advantage of the bank's bid to loan the fund at an interest rate of 1.5 per cent, the city is expected to save more than \$30,000 in interest rates.

If the city were to borrow the money from the revolving fund, the interest rate would be the standard 4 1/2 per cent.

The interest payments come out of the federal urban renewal fund.

About \$1.5 million is to be used to continue property acquisition. The rest is to pay back the federal government for an initial loan to get acquisition started.

Latest statistics available indicate that slightly more than 460 million tons of high grade, direct shipment iron ore remains in northern Minnesota.

Cuban Split Means Varied Side Effects

MIAMI, Fla. (AP)—Here's how the U.S. diplomatic break with Cuba will affect other relations between the two countries:

COMMUNICATIONS: "We have no notice to halt telephone calls in either direction, and we'll continue on the present basis," said Fred B. Ferris, divisional telephone manager for Southern Bell Telephone Co.

TRANSPORTATION: Pan American World Airways said it would add one flight to its regular two daily flights to Cuba "because reservations show there will be a need for it." National Airlines, which makes these weekend flights only, said it was undecided whether it would continue service.

FINANCE: "The break will mean little to the banks," said Camer Kimball, president of the First National Bank of Miami.

GOVERNMENT AFFAIRS: All Cuban embassies and consulates in this country will close. American officials may be consulted in Tampa and Miami.

MAIL: Letters and packages travel between the United States and Cuba under the Pan American Union agreement and it is the practice for countries, including the United States, to continue an exchange even if diplomatic relations are broken.

REFUGES: "It is impossible to tell at this early hour how our immigration service's attitude will be toward refugees fleeing Cuba," said Edward W. Ahrens, regional director of the Immigration and Naturalization Service. "Frankly, we are anxiously awaiting directives from Washington."

TRADE: The flow of truck farm produce from Cuba to the United States will be a first victim of the break in U.S. ships being carrying the crops, according to Joseph Fortner, supervising U.S. customs agent, and they "will not take the chance because they have no protection in Cuban ports."

Shocker Pot Coming to a Boil

HOLLYWOOD (AP) — Will 1961 be the year of decision for Hollywood and its apparent determination to make movies more adult than ever?

High industry sources talk officially in cliché-coated terms. But unofficially they are seriously worried about charges of the Roman Catholic bishops and influential Protestant and Jewish executives.

One top studio executive area (1957) two pilots in a crippled plane flying over the ocean discover that Twentieth when the Party Abductee is the only one parachute landed almost killed off the then infant industry.

The shock appeal of such films as "Butterfield 8" and "The Apartment" have brought millions at the boxoffice, and now we have "Lolita" with "us," he says.

The producer isn't against sex per se but believes that Hollywood has tilted its accent on adultery, homosexuality, dope and other frank screen themes.

There are adult themes, but to go to a movie house and try to find adults. The theaters are filled with impressionable teenagers. They're the bulk of the audience.

The executive started in the

THEY'RE OUT OF LUCK — This is a portion of the crowd of Cuban nationals in front of the U.S. Embassy in Havana Tuesday where they came in hopes of obtaining visas to the United States. They flocked to the diplomatic mission's headquarters after Prime Minister Fidel Castro ordered a slash of the U.S. Embassy staff in the Cuban capital from 87 to 11 by tonight. The people weren't aware of it at the time but any chance they had for visas to the U.S. had already vanished. The visa section of the embassy which was closed when this photo was taken, permanently shut down Tuesday night following the severing of diplomatic relations by the United States with Cuba.

Swanson Confers With UP Leaders

ESCANABA (AP) — Gov. Swanson is in Escanaba today to consult with Upper Peninsula leaders on area economic and unemployment problems.

About 200 Upper Peninsula leaders were to meet with the new governor at the state building in Escanaba. Representatives from every Upper Peninsula county planned to attend, including county and city officials, legislators, labor, education and civic organizations.

Swanson will return to Lansing tonight.

Turns Down Probe of Stock Best Seller

NEW YORK (AP) — A Judge Tuesday turned thumbs down on the state attorney general's proposed probe of the best-selling book, "How I Made Two Million Dollars in the Stock Market," by Nicholas Darvas.

State Supreme Court Justice Henry Kipke said the attorney general's move constituted "an unwarranted invasion of the free press."

Atty. Gen. Louis J. Lefkowitz had contended that the author, by profession a dancer, misrepresented his earnings from the stock market and also how he made them.

Odd Things Happening Between Lucy, Desi

NEW YORK — Lucille Ball declined to pose for a picture with Desi Arnaz when they had a date at the Harwyn—though Desi was willing—so I went backstage at "Wildcat" to ask Lucille why Desi was in her dressing room, Lucille was bending over him friendly-like straightening his tie. He was flying back to L.A. "Phone me when you get back to the ranch," she said. Desi was tired. "You shouldn't make those early appointments when you're going to stay out all night," she reminded him. Desi will return here soon to direct her in a TV show, "Lucy Goes to Broadway."

So I asked her, "Are you two getting back together?"

Lucille said, "We've never been apart." Now if you want to figure this one out, go right ahead . . .

When Steve McQueen, already father of a daughter, learned from the papers that his wife, Nellie Adam, just had an 8-pound son, he shouted "Crazy, man!" and went out and set off some firecrackers . . .

Pretty Doris Wain, actress and girl manager, is going to marry her client, Don Elliott. She and Don will honeymoon in Aruba where she lived for several years.

THE MIDNIGHT EARL . . .

Peggy King went on for ailing Sarah Vaughn, who hasn't been able to open at Basin Street—and got herself a booking there for next summer.

Boy, are we going to have some swanky dinners at our house now! My wife had me get her an electric can opener for a present.

Dick Leahy, the gentleman journalist, was out riding on a slippery morning, and on a slippery horse. A friend happened along and said, "Well, imagine seeing you in the saddle so early in the morning." Leahy groaned, "Yes, and for about the seventh time, too."

EARL'S PEARLS: A Woman's Auto Laundry is suggested by Paul Evans: a place to wash the car and iron the fenders.

TODAY'S BEST LAUGH: "He's not as big a jerk as he used to be . . . Getting smarter?" . . . No, thinner."

WISH I'D SAID THAT: "When the average girl says no, she means it. But how many girls are average?"

The new El Morocco will be so swanky that Tommy Manville will never spend any of his honeymoons anywhere else . . . That's earl, brother.

Will Select Top Man in Waterford

IT-WILL SELECT Selection of Waterford Township's "Outstanding Man of the Year" will get under way tonight, according to W. C. Robinson, chairman of the Junior Chamber of Commerce project.

The winner will be announced at the annual Bonuses Night dinner 7 p.m. Tuesday at the CAT Building.

Nine applications have been received from various organizations and churches throughout the area. The winner will be judged on his contribution to his church, family and community.

A surprise program has been lined up by Chairman Donald Beale for Junior Chamber members, wives, bosses and their wives.

Last year's outstanding young man was Waterford Township High School basketball star, Gerald Wallace of 4107 Silver Birch Drive, Drayton Plains.

C&O Pays \$4 Dividend for 4th Year; Eyes Future

CLEVELAND, Ohio (UPI) — The Chesapeake & Ohio Railway said business was good in 1960 and expected it to be better this year.

The railroad said net income for 1960 was \$42 million, equal to \$5.15 a share of common stock and making the fourth straight year in which a dividend of \$4 was paid.

"Secretary of the Treasury was given to banker Douglas Dillon, former assistant secretary of state in the Eisenhower government."

"The Middle West monopolistic group maintains the post of secretary of defense. Instead of General Motors' Wall, the secretary is headed by the president of Ford Motors, Robert McNamara."

"Monopolists of the southern U.S. are represented by Luther Hodges (former North Carolina governor) who was given the post of secretary of commerce."

Detroit Architectural Firm Names Youngest Prexy

DETROIT (AP)—Robert F. Hastings, 46, is the sixth and youngest president in the 57-year history of Smith, Hinchman and Grylls, Inc., Detroit architectural and engineering firm.

Hastings succeeds Amedeo Leone, who was named to the newly created post of chairman of the board of directors.

TV News and Reviews

Writer Finds Diamonds in the Television Rough

By FRED DANNELO
NEW YORK (UPI) — Considered by some of TV's less publicized commentators, this syndicated half-hour filmed series which put out so many networkwork hours. After starting at a number of these offerings I've concluded that some of them didn't get into prime time network slots, with national exposure, because they tried to be a little different.

I give them credit for at least making the effort.

For example, there is "Talladega 700," a series that has been on the air since last night. Walter Matthau stars as a special agent for the Florida Sheriff's Bureau.

Filmed in Florida, the program takes a try at filming the action outdoors — even if one actor has to say, "Step outside. Let's talk out there." This gives the actors a chance to squint in the sun and speak against a fading, breezy back ground of traffic-and-noise.

The difference is that the main effort is not in dancing the action down with a flashy, impossible story but in zinging in on the stresses and strains felt by the principals — by the law officers, the fugitive killer, his step-sister, wife and her boy friend.

Matthew, a disarming sort, fits the get Friday mold — sincerity, plus competence — but adds the believably dimwitted element. There also was a solo acting job by an actress named as a mayor.

Another syndicated show that I occasionally dig is "Blue Angels." It amuses and sometimes amuses me with its camera striving for "way out" images.

I believe the cameramen spend most of their time filming the action from under tables. After this series, despite the excessive attempt to be art, comes up with a better-than-average feeling for the interplay of its characters' personalities.

And then we have the stiffs. "Coronado 9" is one. A paladim imitation of imitations, it aims Rod Cameron in scripts that were stiffs a few seasons ago — hairy-fisted violence. "Manhunt," starring Victor Jory and Patrick McVey, moves along as good written and directed by automation.

DIALING AND FILING: "The Tom Swell Show" on CBS-TV is at its best when Swell is given a room. He has been a good host but last night again found himself stitched into a routine situation comedy tack.

"Dobie Gillis" star Rayway Hickman has been fooling around with a guitar and rock 'n' roll turns on the Tuesday night half-hour, but so matter how hard they try, they'll never succeed in making this series a numbing "Garde and Harrier."

"Expedition" on ABC-TV last night offered some shot footage of a hostile Brazilian jungle tribe meeting with emissaries from "civilization." The show was topped up with some commentary about grave dangers but, frankly, I had the feeling that this particular expedition was a piece of cake.

THE CHANNEL SWINE: Red Skelton's doctors have notified CBS-TV that the comedian, who under-

Soviets Say They Have Earthquake Predictor

LONDON (AP) — Soviet scientists claim to have invented an instrument called a "Polodscope" that can tell the location and strength of an earthquake in advance, Tass reported today.

By measuring stresses in various sections of the earth's crust it can foretell quakes, the Soviet agency said.
