Jury OKs Habel Property Ownership

But Cites Need of Extra Parking for Shoppers

Judge Sees Verdict as Inconsistent, Will Study Its Acceptability

An Oakland County Circuit Court jury returned a verdict of "no necessity" to condemn property at 11-49 Parke St. for a city municipal parking lot late Tuesday, but Judge George B. Hartrick called the verdict "inconsistent."

He received the verdict subject to review and said he will probably submit a written opinion on it shortly.

The suit brought by the city to condemn the property, owned by the Jack Habel Chevrolet Co., lasted more than three weeks.

The jurors filled in a ballot agreeing the city needed the proposed improvement, but said it was not necessary to condemn Habel's property for use as a municipal parking lot.

Judge Hartrick said the "proposed improvement" listed on the ballot meant the condemnation of Habel's property and did not refer to the need for municipal parking.

"The only question was whether the property should be condemned," Judge Hartrick told the jury. "The verdict is contrary to the law."

"Your decision is a criticism of city commissioners who declared the property necessary for city use."

Jury foreman Mrs. Irene Gase of 1825 W. 12 Mile Rd., Southfield Township, said all jurors agreed that the first part of the ballot referred to the need for municipal parking.

"We all decided that the city needed such parking, but decided that the Habel property was just too far away from the downtown shopping center to serve effectively for short-term parking."

"We took into consideration where Pontiac's shopping area is located and decided Habel's property was too far a walk from that area for shoppers," Mrs. Gase said.

"Our verdict was not based on sympathy but on fact," she continued, "and all of us agreed after walking the distance more than six times that we wouldn't park there if we came to Pontiac to shop."

A motion by defense attorney William J. Beer to accept the verdict and another motion to set the verdict aside, submitted by City Attorney William A. Ewart, were taken under advisement by Judge Hartrick.

Rep. Bentley Taken From Critical List This Morning

WASHINGTON — Rep. Bentley (R-Mich.), one of five congressmen wounded in the House chamber Monday, was removed today from the critical list at Casualty Hospital.

Dr. Joseph R. Young, chief of staff at the hospital, told reporters that while Bentley still is not out of danger, he thinks "it is safe" to remove him from the critical list. "However," Dr. Young said, "we must still consider him as seriously ill."

Bentley was wounded in the chest, stomach and liver when fanatic Puerto Ricans sprayed pistol bullets from the gallery into the House chamber.

Dr. Young said Bentley had an elevation of temperature and a slight decrease in pulse rate. His respiration, the doctor said, is easier although he is still confined to an oxygen tent.

The doctor reported Bentley spent "a fairly restful night" and quoted the congressman as saying he feels "no great discomfort this morning."

The doctor said Bentley's blood pressure is being maintained at a satisfactory level. "His morale is excellent," Dr. Young said, "and he is very cooperative."

Meanwhile government investigating and law enforcement agencies pushed all-out probes today into the Puerto Rican Nationalist Party in the wake of Monday's wild shooting attack.

The case of four fanatics, led by a woman, who are charged with attempting the first massacre of legislators in U. S. history, goes before a Federal grand jury in Washington.

U. S. Attorney Leo A. Rover said the grand jury hearing on the charges of fanatics may be wound up in one day.

Family Prayers Each Day Will Bring Love, Kindness

By FATHER PATRICK PEYTON
The people who want love can have it through prayer. And the renewal of family prayer is my life work, because I know the miracles it accomplishes.

By family prayer I mean the gathering together at a given time each evening of those in the household who wish to join in regulated prayer said aloud. To sit in a circle, or kneel and lift their voices in unison has a magic power.

President Raps Sen. McCarthy

Charges Fair Play Is Ignored in Row With Army Secretary

WASHINGTON (INS) — President Eisenhower by unmistakable implication today accused Sen. Joseph R. McCarthy of "disregard of the standards of fair play recognized by the American people" in the Senator's row with Army Secretary Robert T. Stevens over handling of witnesses.

The Chief Executive read to his news conference a stinging statement on the McCarthy-Stevens controversy. This action permitted direct quotation of Mr. Eisenhower's remarks, which were emphasized by his stern demeanor.

The President did not mention McCarthy by name in the statement but he left no doubt of whom he was speaking. It was the Chief Executive's strongest pronouncement since taking office on what GOP National Chairman Leonard Hall termed the "McCarthy situation" yesterday.

The President declared in his statement that in his long years of military service he never knew any Army member to fail to render complete respect to members of Congress.

He asserted, biting off his words angrily:

"I regard it as unfortunate when we are diverted from these grave problems (facing the nation) of which one is vigilance against any kind of internal subversion — through disregard of the standards of fair play recognized by the American people."

Mr. Eisenhower stressed at the start of his statement that the Army had made "serious errors" in handling the case of Maj. Irving Peres and noted that Stevens had stated this publicly a month ago.

Cars and Trucks Stand in Rubble After Roof Falls

SNOW COVERS DEBRIS—Firemen are still battling the fire from the roof of a portion of the Jack Habel Chevrolet Building (upper left) after the roof fell over the service department in this morning's fire. Snow soon coated the damaged cars and truck and rubble left by the blaze and blast from a truck fuel tank.

About 1,350 bus riding students in the Pontiac Public School System will be taken home early this afternoon for fear drifting snow will block bus routes later today. Meanwhile, parents of the 700 St. Michael School students have been told to pick up their children at once.

At least 54 schools remained closed today and some 30,000 students stayed home as the third storm in three days swept into Oakland County.

The late-winter blizzard, which promised 4 to 6 inches of snow by tonight, had dumped three inches of new snow on the Pontiac area by late morning. Fifty-mile-an-hour gusts were drifting snow across county roads.

The storm left Chicago buried in a foot of snow with air and auto travel almost at a standstill. Michigan Auto Club warned state motorists not to travel, saying most side roads in southeastern Michigan are closed and the others were full of drifting snow.

opened schools this morning but closed shortly before noon.

Many Oakland County Road Commission workers who returned home exhausted Tuesday after two days of storm, were called again about 4:30 a. m. today when snow started.

Lewis Ranshaw, road commission radio dispatcher, called the past three days "the worst three-day stretch of weather in about five years." Some 80 men were working 45 salt trucks and snowplows early this morning, with the full 220-man crew taking every usable truck and snow plow onto the road at 7 a. m.

Pontiac Department of Public Works at 7 a. m. with four salt trucks jumped into the battle at 7 a. m. with four salt trucks and eight snowplows.

Both the DFW and road commission struggled to salt all the hills at once this morning as slippery grades sent cars skidding into traffic jams.

Icy hills tied up traffic on Woodward avenue in Bloomfield Hills; Telegraph below Long Lake road; M-59 at Elizabeth Lake road; East Boulevard from Mt. Clemens to Pike streets and on Perry and Paddock streets.

\$700,000 Loss Suffered Early This Morning

Welding Torch Starts Blaze, Spreads When Gas Tank Explodes

By JOSEPH K. SPAIN

Flames fanned by high winds destroyed the garage and parts department of Jack Habel Chevrolet Co., 22-34 N. Mill St., this morning, causing an estimated \$700,000 damage and injuring seven firemen.

Two of the firemen were treated for face and hand burns, while the other five were either scorched or had their hair singed.

Those requiring medical care at Pontiac General Hospital were Kenneth Eggert, 24, of 584 Kenilworth St., and Harold Lloyd, 27, of 236 S. Edith St.

One hundred fifty firemen from Pontiac, Waterford and Birmingham battled the fire for three hours before bringing it under control.

The fire broke out at about 3 a. m. today when sparks from an acetylene torch ignited gasoline spilled on the garage floor.

All seven of the injured firemen were inside the flaming building when a truck gas tank exploded, showering them with flaming gasoline.

One of them, Orville Woodworth, 28 N. Anderson St., drove the pumping truck outside through blinding smoke. The others crawled to safety.

Eighteen cars were destroyed and 100 damaged. Equipment in offices and display rooms also was destroyed.

A fire wall between the building and a four-story storage section was credited with keeping the fire from spreading even farther.

A night watchman, Houston Butler, 25, of 204 State St., repairing a cab over tractor, said he and several other employees failed in an attempt to extinguish the blaze while the Pontiac Fire Department was summoned.

Firemen also were unable to stop the spreading blaze after acetylene gas dispersed flames to other parts of the building.

The fire roared out of control about two hours, threatening another explosion of an underground storage tank containing 1,200 gallons of gasoline in the adjoining four-story storage building.

According to firemen and police, flames shot over 100 feet high and billowed across Mill street. An undetermined amount of oil, piped into the garage, caused the blaze to rage out of hand.

Sparks were carried across Saginaw street, two blocks away, for a time threatening other buildings in the downtown section. Workers were able to save six (Continued on Page 2, Col. 6)

"That's Just Our Job"

Seven Firemen Scorched Under Flaming Gas Spray

Seven firemen were knocked down by an explosion and showered with flaming gasoline today because they stuck to their posts as flames licked at a gas tank only 15 feet away.

All seven were scorched and two required treatment at Pontiac General Hospital.

"We knew there was gas in the tank," said one of the men, Lt. Howard White. "But we had to stay up there to put out the fire."

"Don't make heroes of us. That's just our job."

The firemen were summoned from Pontiac Fire Station No. 1 to fight the fire in the garage of the Jack Habel Chevrolet Co.

They are Lt. White, 78 S. Shirley Ave.; Kenneth Eggert, 684 Kenilworth St.; Harold Lloyd, 236 S. Edith St.; George D. Burklow, 22 E. Strathmore Ave.; Robert H. Gaylord, 163 W. Hopkins St.; Capt. John J. Morrissey, 263 Ransom Ave.; and Orville Woodworth, 28 N. Anderson St.

Eggert and Lloyd were treated for face and hand burns, while the others were either scorched or had singed hair.

Lt. White said all of them were inside the flaming garage with a pumping truck from station 1. The truck had been driven inside so water could be sprayed directly on the flames.

"Ken and Hal were spraying water on the flames and George and Bob were helping them," said N. Anderson St. (Continued on Page 2, Col. 4)

MAKE OVER PAPER

Contractor Buys Mercier Land for Over \$1 Million, to Construct 600 Homes

From Our Birmingham Bureau
BIRMINGHAM — Officials of the Garling Construction Co. of Dearborn have announced the purchase of the former Mercier Farm in Bloomfield Township, and plans for an \$18,000,000 development of 600 homes there over a six year period.

The 323 acres of wooded rolling countryside bounded by Lahser road, West Maple avenue, Cranbrook road and the extension of Lincoln avenue, was bought for in excess of one million dollars, according to Fred C. Garling Jr.

Haggar Arneson, Ann Arbor designer, has been retained to draw up the plans for the initial homes. Garling said today that construction of three or four model structures may begin within 60 days.

"Slow, careful development is planned over a period of six years, to keep abreast of the latest innovations and improvements in building products and design," Garling said.

Extensive landscaping is planned, and a community water system, sewers, and hard surfaced winding streets will be included in the undisclosed purchase price of the homes.

Garling added that three different ways to eliminate the sewage problem were being considered, and that sewers rather than septic tanks would be sought.

A smaller development at the southwest corner of Maple and Cranbrook has been halted, by court action with Birmingham officials claiming the development is adding to the city's sewage treatment problem by using an illegal drain.

Harrelson Jr. Before Judge

Youth in Auto Death Case States Mrs. Coon Stepped in Path of Car

Leam W. Harrelson Jr., 18, of 26 Delaware Dr., testified yesterday in a suit charging him with negligent homicide in the auto death of Mrs. Veda N. Coon, 37, of 49 Dwight Ave., last Oct. 8.

He told Circuit Judge George B. Hartrick he was traveling west on Huron street at about 35 miles per hour when Mrs. Coon stepped backwards into the path of his car at Dwight avenue.

"I was about 50 feet from the intersection when I first saw her and when I got about 13 feet away she stepped in front of me," Harrelson testified.

Mr. and Mrs. Clarence Brown of 3840 Elizabeth Lake Rd., said they saw Mrs. Coon standing between the two yellow lines in the middle of Huron street as they traveled east toward her.

Brown said he saw another car (Harrelson's) approaching from the other direction and that he didn't see Mrs. Coon move.

Skid marks at the accident scene indicated Harrelson's auto traveled in a straight line and never crossed the yellow line, according to police.

The non-jury trial is expected to end today, according to Chief Assistant Prosecutor George F. Taylor.

Find Liquor Quicker

WHITEVILLE, N. C. (AP)—Deputies sheriff are becoming experts in the art of finding liquor caches. On one raid they had to move a dresser and raise a board in the

Bob Considine Says:

Itinerant Evangelists Find Los Angeles an Open Ear

LOS ANGELES (INS)—Southern California is a preachers' paradise. Itinerant evangelists seek out this area in droves and find ready-made congregations among old folks who have chosen this land of smoggy sunshine as the best possible place to live with their complaints.

A lot of them do well enough to take large ads in the Saturday papers and buy radio time, though none has ever hit the ecclesiastical jackpot won by Aimee Semple McPherson, a phenomenon of what Pegler called "the era of wonderful nonsense." But they try, and there are many pretenders to her empty throne.

"Fire—power—glory," read a recent ad featuring the picture of an attractive looking young woman named Paul Hensche.

"God falling is the salvation. Healing revival now in its fourth week at the Belmont Theater."

"Evangelist Paula Hensche. Called by many as the 'Aimee' of yesterday. One of the nation's leading women evangelists with the deliverance message of hope for the sick."

Last Sunday evening found her "preaching and praying for the sick." Her sermon subject was billed as "an important question answered after 6,000 years. The prophet Job asked this question."

In the same paper, one A. Lewis Kelton offered:

"Lecture—the subtle power of the super-conscious mind and the pyramid triangle system for individual success."

A. Earl Lee modestly offered a "miracle service" at 2:30 p.m., Sunday. Bob Herald, who bills himself as "Holy Spirit anointed evangelist," advertised a bargain for Sunday evening which many Angelenos must have found irresistible: "I saw God destroy the world—colored slides of Japan and China."

Fire and brimstone were scheduled also at the First Church of Mystic Christianity, wherein Dr. Edwin J. Dingle preached a sermon entitled "Your own atomic power—its chain action in God's eternal truth."

Two "world renowned mediums," Reva, Walter and Lula Taber held forth at the First Spiritualist Church of Hollywood, with an 8 p.m. "Message service—Trumpet—Materialization—Readings."

But the big news in preaching circles over the past weekend in the Los Angeles area was the appearance at "The World Church on the Hill-top" of Marjoe "The Miracle Boy."

Marjoe, a wisp of a boy in long pants and jug ears, is 10 years old. Boy and boy, he has spent half of his life preaching, having made his professional debut at five. He has been written up in national magazines and been in the news-reels.

The Miracle Boy, the big ad said, "... has packed the greatest auditoriums in America."

"Marjoe was a master preacher at the age of 5. 'Plays 120 bass piano accordion."

"Plays the electric organ and other musical instruments."

"Prays for the sick."

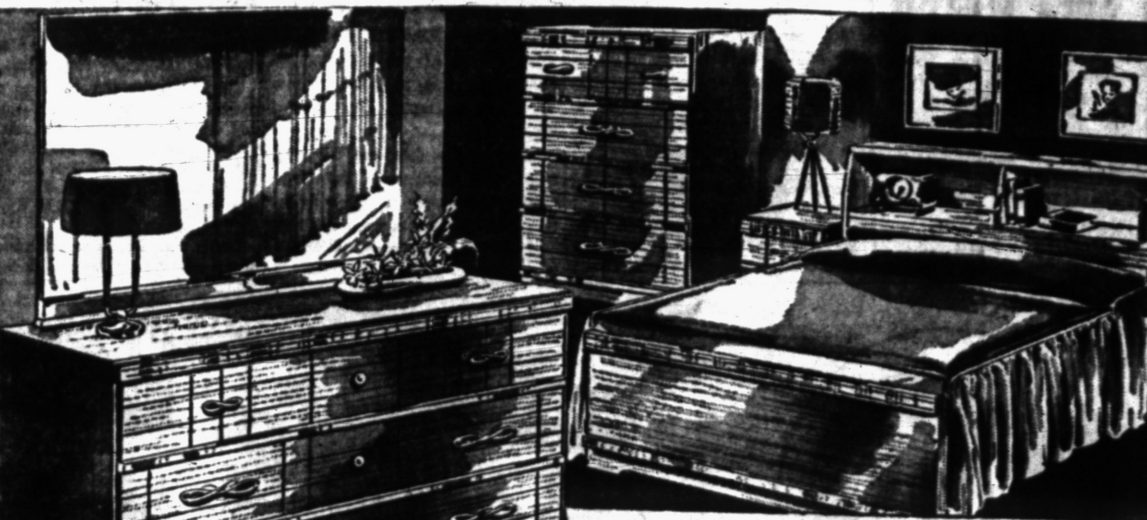

"Also see the youngest song director in the world who travels with Marjoe."

Sure hated to miss that one.

City Accepts Low Bid on Paving

A & A Asphalt Will Do Work

\$130,717 Job Covers Work on Sections of 41 Streets This Spring

A low bid of \$130,717 was accepted by Pontiac City Commission last night from the A & A Asphalt Paving Co., of Birmingham for construction of the two-inch black-top paving planned for city streets in 1954.

Sections of 41 streets are scheduled for paving by the firm. Work will start on April 15 if weather conditions permit, according to City Engineer Lewis M. Wrenn. Completion date is May 25.

In other action Commissioner Benjamin M. Gates said he thought "some sort of action should be taken to label property that has been declared sub-standard."

Gates said the move was needed for "protection of people buying property in Pontiac" so they will know when property is below par. Commissioners referred the request to the city attorney for a report next week.

City Manager Walter K. Willman was asked to meet with representatives of the Michigan Animal Rescue League. The league is seeking to acquire city-owned lots 12 of assessor's plat 147 for construction of an animal shelter.

A communication was referred to Willman from the city of Berkley asking Pontiac to support a State House of Representatives bill providing for a water source and drainage survey to include this area.

Public hearings were held and assessment rolls ordered for March 16 on proposed construction of curb, gutter, drainage and related work on:

First from Joslyn to Barkell, Jackson from Joslyn to the east end of the street.
Second from Joslyn to Fulton, Webster from Joslyn to the east end of the street.
Willard from Center to Fiddock.

A communication from Green Brothers Builders was referred to the city manager regarding the proposed replat of all of Linda Vista Subdivision except lot 106.

An engineer's cost estimate of \$2,556 was accepted for proposed construction of a water main in Corwin from Kiley to lot 37 of assessor's plat 101.

Public hearings were set for March 9 on special assessment rolls for planning construction of curb, gutter, drainage and related work on:

E. Beverly from Joslyn to Fulton, Fiddock from Joslyn to the east end of the street.
Wilson from Joslyn to E. Boulevard, Irwin from Joslyn to E. Boulevard.
E. Ferguson from Baldwin to University.

Commissioners declared a public necessity on construction of curb, gutter and drainage on First from Barkell to Fulton.

A bid of \$688 was accepted for purchase of lots 881 and 882, Perry Park Subdivision No. 1, from A. A. Lee to 881 Mt. Clemens St.

Public hearings were held and confirmation deferred on special assessment rolls for curb, gutter, drainage and related work on:

Harrison from Franklin to Bagley, Martin from Joslyn to the east end of the street.
Going from Center to Whittemore.

Indict Puerto Rican on Ike Death Threat

NEW HAVEN, Conn. (U-P)—A 24-year-old Puerto Rican was indicted here yesterday on a charge of threatening to kill President Eisenhower.

Pedro Oroco Sanchez, alias Pedro S. Oroco, of Hartford, was scheduled for arraignment in U.S. District Court today.

The alleged threats came, police said, when Sanchez became riled while being fingerprinted Monday in police headquarters where he was being booked on a charge of nonsupport of his wife.

Sanchez denied making the threats.

Gladwin and Beaverton Get Dials This Thursday

MIDLAND (UP)—Dial telephone service will begin Thursday at Gladwin and Beaverton, the Michigan Bell Telephone Co. announced today.

DETROIT (UP)—David L. Schneider pleaded guilty to an arson charge and asked the judge to give him the maximum prison term.

The judge complied with Schneider's request Tuesday and sentenced him to 10 to 20 years in prison—the maximum.

"Thank you," Schneider said.

County Diseases Show Decrease

Mumps Drops to Nearly 50 Per Cent; Sickness Climbs in City

Oakland County had a marked decrease in mumps cases and less of other "catching" diseases last week than the week before.

Oakland County Health Department's weekly report, released by Dr. John D. Monroe, department director, showed 50 new cases of mumps last week—only about half as many as the previous week's 98 cases.

Chicken pox, measles and scarlet fever also showed slight drops, but a few more cases of tuberculosis and Rubella (German measles) were reported.

The department's complete report, covering the entire county except for Pontiac, follows:

	Past Week	Week Ending
Chicken pox	98	50
Measles	100	170
Pneumonia (all forms)	3	1
Scarlet fever	10	10
Tuberculosis (all forms)	7	3
Whooping cough	10	0
Mumps	98	50
Rubella	0	0
German measles	0	0
Diarrhea	0	0
Hepatitis	0	0

Pontiac had twice as many cases of chicken pox last week as the week before, Pontiac City Health Department reports showed.

The city report, also released by Dr. Monroe, showed 22 new cases of chicken pox, compared with 11 the week before. Increases in mumps, tuberculosis and whooping cough also were shown on the report, which follows in full:

	Past Week	Week Ending
Chicken pox	22	11
Measles	10	10
Mumps	10	10
Whooping cough	10	10

TV Program Given Official State Okay

ALBANY, N. Y. (U-P)—The state legislative committee probing charity rackets today handed a clean bill of health to the radio and television program Strike It Rich.

The chairman and vice chairman said a thorough checkup had shown that money donated by listeners and viewers to the program's "Heart Fund" went to needy persons appearing on the show "at an administrative cost of less than 2 per cent."

It is not within the province of the committee "to pass on the good taste or bad taste of a radio or television program," Sen. Bernard Tompkins and Assemblyman Samuel Rabin of the Joint Legislative Committee on Charitable and Philanthropic Agencies said in a joint statement.

3rd Swedish Ship Line Will Serve Great Lakes

The firm, known as Scanlake, will carry commerce between Great Lakes ports, including Detroit, and the ports of Copenhagen, Denmark; Gothenburg, Malmo and Stockholm in Sweden, Germany and Helsinki, Finland.

The group will produce the play Thursday, Friday and Saturday at 8 p. m. in the Elks Temple ballroom. Members of the cast shown here, from left, are James Lafnear of 177 E. George Assails Defeat in Senate

Claims 'Little Cabinet' Lobby Tactics Doomed Treaty Curb Bill

WASHINGTON (INS)—Sen. Walter F. George (D-Ga.), hit back today at what some senators termed administration "lobbying" in connection with the Upper Chamber's defeat of the treaty-curb amendment last Friday.

A GOP official confirmed that the White House was busy, just before the showdown ballot lining up opposition to the constitutional amendment as proposed by George, which lost by a single vote.

Some Democrats said the Senate cloakrooms at the time had a sizeable representation of sub-cabinet officials from the White House, the State and Justice Departments, who, they reported, were lobbying against the George amendment.

With pronounced irony, George said: "The next time we have a vote on the issue, I shall ask that it come late in the day so it will not interfere with the working hours of the little cabinet at the White House, Justice and State Departments."

Triplets Kill Pop, 75

TEHRAN, Iran (U-P)—Tehran newspapers reported today that 75-year-old Abdullah Akhbarzadeh died of shock when his young wife gave birth to triplets in the tiny Khorasan village of Tabas. Two of the triplets also failed to survive.

Children on Wrong Side of River Get 3 R's at Home

BUFFALO, S. D. (INS)—A "Solomon's judgment" has settled—temporarily at least—the problem of the three Oliver children who couldn't go to school.

They're now getting their three R's at their mother's knee.

National attention was riveted on the plight of South Dakota farmer Louis S. Oliver and his children last fall when International News Service columnist Laura Z. Hobson told the story.

Oliver, whose case was taken up by the American Civil Liberties Union, wrote that he had tried in vain to get some help in his problem from state and local authorities.

The farmer explained that he lived on the Little Missouri River in the northwest corner of the state and that his farm was on the west bank of the river. His children, aged 11, 8, and 6, were assigned to school on the east bank.

"The nearest bridge," Oliver stated, "is some 20 miles away and no commerce of any kind is held over this stream." The river could be forded sometimes, the father said, but in winter, "with foam ice and snow," he feared for his children's lives if they tried to cross.

In New York, Clifford Forster, special counsel of the ACLU, wrote Gov. Sigurd R. Anderson, and the governor promised to see what could be done. A special lawyer, John T. Millek of Sturgis, S. D., took up the legal cudgels for Oliver and his wife.

Oliver wanted a bridge built. Court action was instituted, but it dragged on.

Today, the American Civil Liberties Union, through Forster and Millek, disclosed the compromise solution—though a final court decision may yet be sought.

Two weeks ago, on the Little Missouri, the sons of Harding County, where the Oliver farm is located, got together with the father and mother.

A number of possibilities were considered, but not the building of a bridge.

One suggestion was that Oliver drive his children four miles daily to a spot where a neighbor would pick them up and drive them another 11 miles to another district's school. This would involve \$30 a month tuition for the young Olivers, plus \$3 transportation.

The Olivers were not happy about this arrangement, having previously claimed that one of their problems was that they could not pay for special schooling.

Then came the "Solomon's" compromise. Mrs. Oliver would be appointed as a teacher, textbooks would be supplied and—if they could pass their normal tests—the children would receive full school credit.

Mrs. Oliver now is teaching her parent snag remains. The school children at home and only one superintendent has declined to make the mother's teacher appointment formal, despite the okay of the school board, and possibility of eventual court settlement of the entire affair remains.

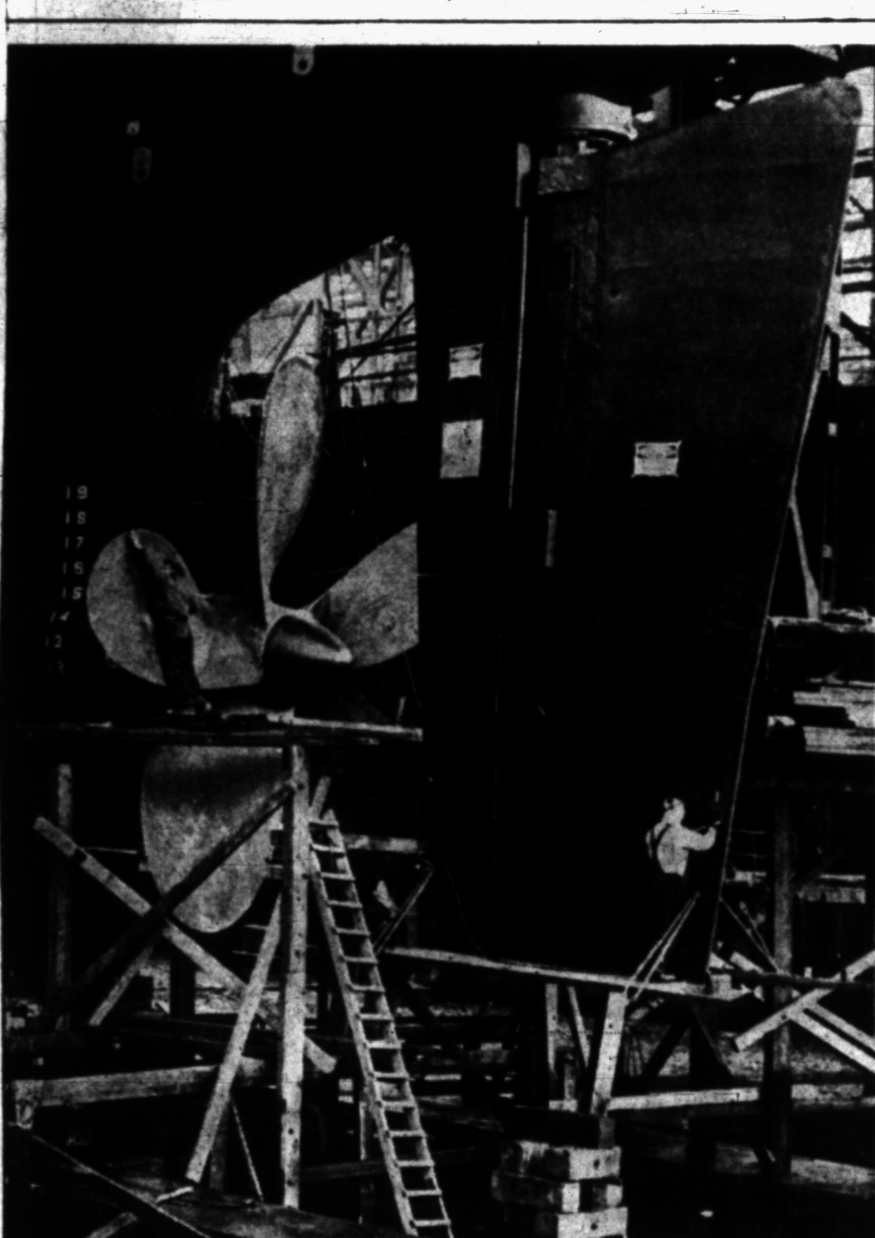

NEW YORK (INS)—Fire damaged or destroyed an estimated \$903,400,000 worth of property in the United States last year, the National Board of Fire Underwriters reports. This is 15.1 per cent higher than in 1952.

Fire Damage Increases

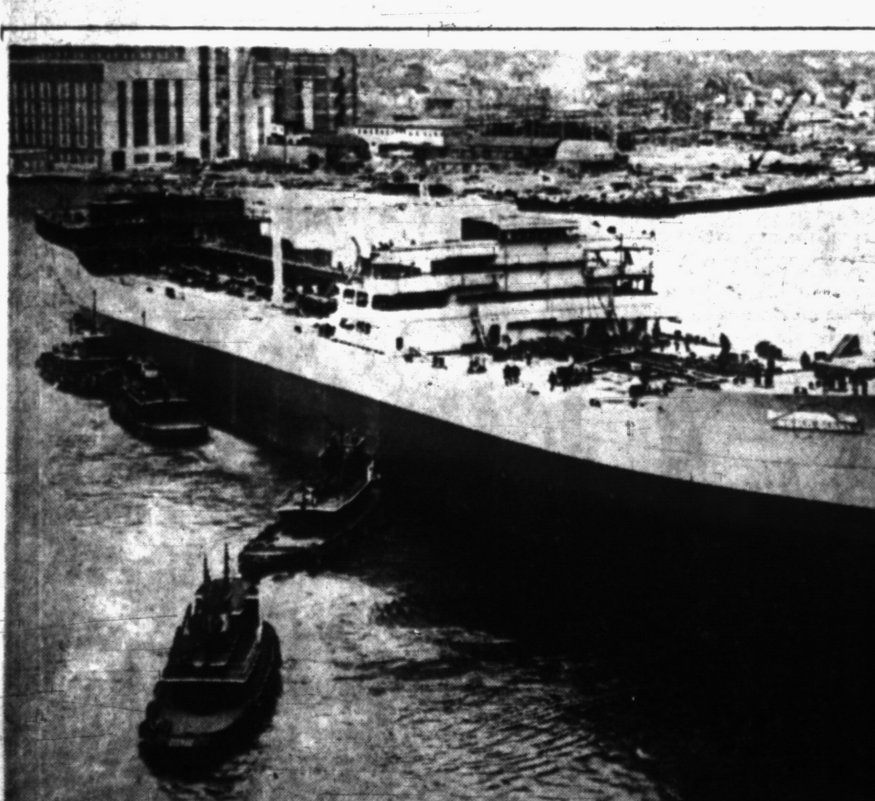

NEW YORK (INS)—Fire damaged or destroyed an estimated \$903,400,000 worth of property in the United States last year, the National Board of Fire Underwriters reports. This is 15.1 per cent higher than in 1952.

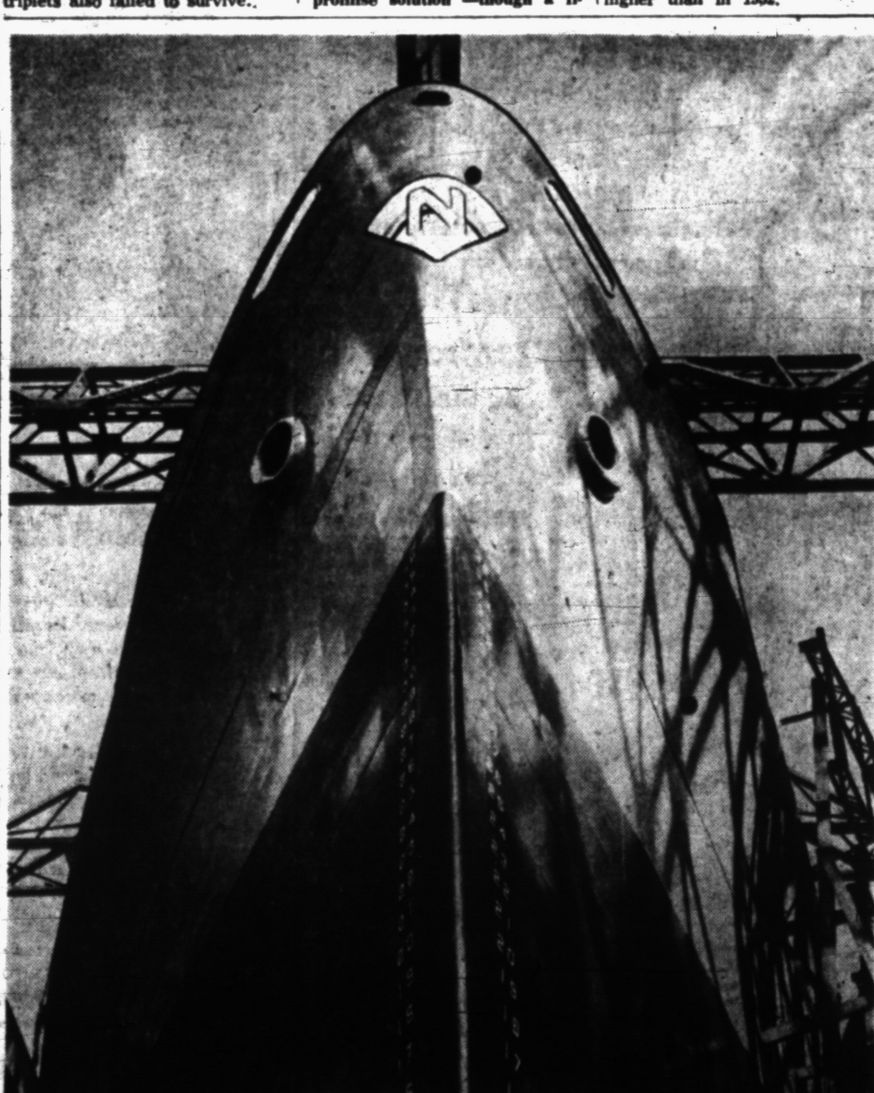

WASHINGTON WARRIORS—Mapping plans for the coming semester are the new elected officers of Washington Junior High School. Already hard at work is Judy Elwell of 221 Dick St., who was named secretary-treasurer. Vice President Jack Hemming (center) who lives at 727 Menominee Rd., offers advice to President Dick Singleton (right) of 19 Mohawk Rd.

HUGE SCREW—Workmen are shown putting finishing touches on the huge 70,000-pound screw which will drive the recently launched "World Glory," the world's largest tanker. The screw, which will propel the ship at a 20-knot clip, measures 22 1/2 feet in diameter. Built by the Bethlehem Steel Co., the ship will join the Niarchos cargo fleet in April.

AFLOAT—Tugs gather around the new tanker after she made a safe glide down the ways to her first meeting with the sea. Efforts for 2:30 p. m. and operations beneath the 45,100-ton hull kept crews busy until 2:28. The job started at 5 a. m.

POISED—Tilting her nose proudly to the sky is World Glory as she waits for launching at the Fore River Shipyard, Quincy, Mass. Like an opera or movie, the launching of a ship calls for skilled efforts of hundreds of technicians along with many long hours of expert, often dangerous labor. The tanker will carry 16,500,000 gallons of oil—enough to fill a million American passenger cars.

Clarkston Community Voters Recalled to Polls Thursday

Voters Approve School Tax Hike

500-Vote Margin OKs Five Mill Increase in Hazel Park

HAZEL PARK—Voters here yesterday stamped their approval on a proposal to boost school taxes by five mills by a 500 vote margin. The five mill increase will raise taxes from \$33.28 per thousand dollars of assessed valuation to approximately \$40.

The proposal was rejected by the voters last December.

In yesterday's voting 1,341 were in favor of the increase, while 840 voted against it.

The increase will be used to cover increased operating expenses brought about by a 40 per cent increase in school enrollments during the past 13 years without an increase in revenues, according to school officials.

With four other special tax increases expiring within a year, the tax rate is expected to drop back to about \$34.75 per thousand dollars of assessed valuation in 1955.

Only 50 years ago, all the hard-surfaced roads in the United States would reach not much farther than from New York to Boston.

Chief among the causes of township fires were carelessness, overheated heating devices, fuel oil burners, and defective chimneys, appliances, stove pipes and wiring, according to Bosa.

The 40 members of the fire department—33 volunteers and seven paid—hardly had a chance to polish their equipment in April, when 69 fires kept them hopping. June, with 18, registered the fewest number of runs for a month.

In the odd facts department, the greatest number of fire alarms were received at the hour of 1 p. m. throughout the year. Ranking behind the 57 calls turned in at that hour were the 48 at 2 p. m. The fewest—two—were turned in at 1 a. m.

Area-wise, Dixie highway residents sent in the most calls (48), with Elizabeth Lake road rating second with 39.

Must Validate Bond Issue Vote

New Ballot Required on Proposal Affecting School Funds

CLARKSTON—A call to the Clarkston Community School electorate to return to the polls Thursday has been issued by the Board of Education of the district.

In order to validate the Feb. 2 school building bond issue which the voters approved then by a more than four to one total, one portion of the issue will have to be voted upon again.

Due to an error in the printing on the ballots, the new election is necessary. Omission of the word "not" on the Feb. 2 ballot prevents the complete legality of the bond issue.

Only a vote on the tax limitation proposition is necessary, the bond issue proposal is intact and requires its companion's approval to legalize the sale of the bonds.

The new election, said Superintendent Leslie F. Greene, in no way changes the intent of the ballot. Polls will be open Thursday from 7 a. m. to 8 p. m. in the Clarkston Elementary school.

The \$600,000 school building proposal, when legalized, will enable the district to build an addition to the present high school and additions to three elementary schools.

Special Board Meetings Set

Education Group to Talk to Architects on New School Buildings

WATERFORD TOWNSHIP—Last week's approval by the electors of Waterford Township School District of a special school improvement program has sent the Board of Education into a series of special meetings.

Thursday night they will interview several architects for the four new elementary school buildings the voters approved.

At recent special meeting following the election, the board named the following architects for the four elementary additions: William Zimmerman, Pontiac architect, will do the addition to the Jayne Adams School and the Williams Lake School. He did the original Jayne Adams design.

The George D. Mason Company of Detroit was granted the contract for the addition to the Waterford and the Four Towns School. This firm was the architect for the other additions at these schools.

The board of education announced they will take action on the new teachers' salary schedule, part of the special school election proposal approved by the electorate.

Parking Plans Offered to City

**Paul A. Kern Proposes
Wayne, Warren Lands
Be Acquired**

A new plan for developing two municipal short-term parking lots in downtown Pontiac was presented to Pontiac City Commission last night by Commissioner Paul A. Kern.

Kern said he had been waiting the outcome of the city's suit to acquire land at 11-49 Parke St. for parking purposes before submitting his proposal.

(An Oakland County Circuit Court jury yesterday found no necessity for Pontiac to have the land in question, but Judge George B. Hartwick said the legality of the verdict is questionable, because of its inconsistency.)

Kern proposed the city purchase or condemn two sites in the following order:

1. All the land fronting on Wayne street and West Alley and lying between the Consumers Power Office Bldg. and the Oakland County Court House property.

2. All the frontage on Warren street from West Alley to Wayne street and the frontage on Wayne street from Warren to the Michigan Employment Security Commission building.

Kern said he thought the buildings could be "developed as an open ramp garage of not less than two floors, subject to proper engineering recommendations."

He estimated the locations could be outfitted to hold about 300 cars each.

Kern's plan calls for the sites "to be paid for by revenue bond issue only."

Commissioners agreed to study the plan, while waiting more developments in the present condemnation suit.

FIGHTING SNOW AND FIRE—This picture looks like someone is tossing snowballs at Pontiac firemen. Actually, the white blobs are snowflakes falling close to the camera lens as firemen are pictured pouring water into the burning Habel Chevrolet Building this morning. A 30-mile wind, snow and cold weather added to the firemen's task in battling the costly blaze.

Mrs. Panduren discovered the fire at 7 p.m. The house is owned by Earl Delano of Oxford.

Damage was confined to the upstairs and a portion of the roof of the house which was covered by insurance. Firemen from Metamora were also called to fight the blaze.

from the eighth grade through higher theology.

And when he told this to me, I said: "Tom, I should have started five years ago, God forgive me. Let's do it together." We started the long years of incessant study, working on the side.

Perhaps because of strain and long hours, my health broke. I contracted tuberculosis when I was only two years away from my goal. The doctors gave me less than a year to live.

But I would not take that verdict. I started to pray as I never had before.

I did not know it then, but my family in Ireland was conducting a concerted effort of prayer, too. My mother prayed she might have my illness instead of me because "Pat can do more for souls than I." She soon died of it. My sister Nellie vowed not to marry if I might be saved for God's work.

And I was cured. I knew it. I asked the doctors to X-Ray my lungs again, but considering me hopeless they paid no heed. And then one doctor who knew of my campaign of prayer offered to do it just to see for himself how justified my faith was. He did it almost as if darning me.

Verdict? My lungs were whole. In a few weeks I was pronounced well and released.

I was a year behind in my studies, but I wanted to be ordained with my brother Tom. Once again I prayed fervently and by special order from Rome it came to pass.

In answer to prayer the two healthy Peyton boys received Holy Orders together—and I was permitted to finish my studies and take my examinations afterwards.

In gratitude, I vowed to make prayer popular again. I went to Hollywood and 50 of the greatest names in radio and motion pictures agreed to help me popularize family prayer.

Money came from sources which we hadn't contacted or counted on and which would amaze you as it did us. But I know much of it was simple concrete answer to prayer. And the result, "The Family Theater," a program of prayer for all faiths, has been marked with blessing. It has brought miracle after miracle of love.

There was the sophisticated couple who heard a program "Flight From Home" in their Reno-bound car and drove back home to try again; the couple who listened on their wedding night and knelt together pledging family prayer even though they were of different religions; and the father who, after one of our programs, prayed for his condemned son—the boy, pardoned a week later, now prays with him.
