

Arrest Resident on Arson Charge

Addison Township Man Mute Upon Examination in Justice Court

The owner of an Addison Township farm home which burned Wednesday was arrested on suspicion of arson when he returned from a vacation yesterday.

Taken into custody was Marvin B. Lee, 25, who operates his own dairy business from the farm at 2345 Taylor Road, where the fire occurred.

He was to be arraigned today before township justice of the peace Raymond Snyder.

Detective Alphonse Anderson said Lee's arrest was prompted by the statements of James L. Spencer, 28, of 1825 Main St., Lakeville, Spencer, employed by Lee as a milkman, has admitted setting the \$6,500 farm home ablaze at the direction of the owner, said Anderson.

Collection of insurance was the motive, according to Anderson, who said Spencer admitted he was to be paid \$600 by Lee for burning down his home.

Lee and his wife and four children left Saturday for a vacation in Virginia. Anderson said his house had been destroyed by fire. Lee apparently did not know that authorities were waiting to arrest him when he returned.

The fire apparently was started by lighting newspapers stuffed into a foot hole in a hall wall, detectives said.

Spencer was questioned immediately following the blaze that consumed the eight-room, frame home.

A neighbor of Lee's reported the fire but too late for township firemen to save the building.

Spencer stood mute when arraigned on an arson charge yesterday before Justice of the Peace Snyder. A plea of innocent was entered by Snyder who scheduled an examination in his court for 10 a.m. Aug. 8 and set personal bond at \$2,000.

Space Agency to Fire Satellites for Private Firm

WASHINGTON (UPI) — The Federal Space agency said today it will launch two and perhaps four communications satellites next year for the American Telephone and Telegraph Company.

AT & T will build the satellites at its own expense and will reimburse the National Aeronautics and Space Administration (NASA) for launching and tracking costs. The cost per launching is estimated at about \$6 million.

NASA also plans to launch in 1962 a communications satellite of its own which is being built under contract by Radio Corporation of America.

Both programs are aimed at developing a worldwide satellite communication system which would be privately operated and owned.

To Stand In for JFK

WASHINGTON (UPI) — Atty. Gen. Robert F. Kennedy will fly to Africa to represent President Kennedy Aug. 6 and 7 at independence anniversary ceremonies for the Republic of the Ivory Coast, the White House announced today.

The Weather

Full U.S. Weather Bureau Report

Piano Tuner Shortage Strikes a Serious Note

By JOE LEWIS

LOS ANGELES (AP)—Although no one is seeking federal aid, or checking to see how many the Soviet Union is turning out, this nation is confronted with a serious shortage of piano tuners.

The Piano Technicians Guild, Inc., which is to tuners what the AMA is to doctors, reports: We have only about 4,000 fully qualified tuners for 12 million pianos—and, heavens to Liberace, about 60 to 70 per cent are untuned.

The guild, ending a four-day convention Thursday night, says that without more tuners we'll all wake up someday with tin ears from faulty pianos.

The profession—which takes years to learn and has top pay of about \$10,000 a year—just isn't attracting new blood.

Allan E. Pollard, the guild's executive secretary, can't understand why.

CLOSE TO FAMILY

"No one, except a doctor or a minister, is closer to a family than a tuner—if he's the man he's supposed to be," Pollard declared.

Noticing a skeptical gleam in his listener's eye, he said, "The man he's supposed to be," Pollard declared.

Simms Brothers

88 N. Saginaw—Main Floor

with 51 years' tuning experience, admonished: "This is a serious business. A tiny piano puts a family on edge. A good tuner is a friend of the family. I've been consulted by mothers worried about daughters forgetting piano playing to go out with boys."

A good tuner, he said, must have manual dexterity, good hearing, acute sense of tone and

pitch, a liking for people and honesty.

The job requires such a delicate touch, he said, he can't tune on a full stomach—it affects his audio perception.

Pollard also had these tips for piano lovers: Get tuneups about four times a year (they cost about \$12.50 each), keep your piano clean and in a room with even temperature.

Don't let moths breed on the felt key cushions, don't oil the keys, or try to move it yourself.

Quebec women were granted the vote in Provincial elections in 1940.

Senators Vote Funds for New Buildings

WASHINGTON (AP) — The Senate Appropriations Committee has voted \$194,658,500 for construction of federal buildings and \$25 million for acquisition of sites for new federal buildings.

The House is included in the independent office appropriation bill, approved by the committee earlier in the week. The House has passed a similar bill. Following Senate action, House and Senate will compromise the differences. The Senate committee's recommendation of construction of federal projects was \$22,856,300 more than the \$171,800,000 voted by the House.

The Senate committee approved the House's appropriations for projects including Wyandotte, Mich., post office, \$402,800.

Senate Votes to Cut Duty-Free Limit to \$100

WASHINGTON (AP) — The Senate Thursday passed the compromise version of the bill cutting from \$500 to \$100 the amount of foreign goods an American tourist can bring into the United States duty-free.

The only exception to the new \$100 limit would be the Virgin Islands, for which a \$300 limit would be allowed.

The bill was sent to the House for final congressional action.

The cut in the tourist allowance would be in effect through June 30, 1962.

President Kennedy asked for the

WHIP FOR KENNEDY — Miguel Angel de la Torre (left) head of a delegation of Argentine ranchers, brings a gift for President Kennedy to the White House Thursday. The gold and silver riding whip is accepted by Cmdr. Tazewell Shepard, the President's naval aide (right). The smiling face in the center belongs to Francisco Bello, minister of the Argentine Embassy in Washington.

AP Photo

legislation as a part of his program to reduce the U.S. balance of payments deficit. Treasury officials said this tourist allowance change alone might reduce by \$150 million the prospective \$1.9 billion balance of payments deficit for this year.

There are 679 windows in the Washington Capitol.

Ex-GOP Publicist Levin Joins Panhandle Staff

LANESBURG (AP) — Arnold J. Levin, 41, who recently resigned as public relations director of the Republican State Central Committee, has joined the public and community relations staff of Panhandle Eastern Pipeline Co. Levin will take over his new

post Aug. 1 and will work out of Lansing. He had been with the state Republican party since 1961 and previously worked for the Detroit News and the Associated Press in Michigan.

Most Are Avoidable Through Common Sense

300 Drownings Predicted for Michigan

By TOM SHAWVER
 LANSING — If the early summer trend continues, more than 300 persons will drown in Michigan lakes and rivers this year, most by the middle of September.

Year after year, the total is about the same, ranging from 250 to 317 in the last decade, excluding the usual quota of 30 or 40 suicides. In one sense, safety authorities are heartened by the regularity of the drowning toll.

The number of swimmers is growing steadily and the number of boats is leaping upward; yet the total of water deaths is fairly steady.

Those concerned with water safety point out, however, that most drownings could have been avoided by simple common sense

and a little extra caution. They say the total could be reduced substantially with more comprehensive legislation and more water safety education programs for youngsters.

DEVELOP PICTURE
 State police, who have been keeping detailed records of all drownings in Michigan since 1954, are developing a comprehensive picture of how they happen and what kind of people are most likely to become victims.

By law, sheriffs and local law enforcement men must send in reports of each water accident that causes more than \$50 damage.

Each includes a diagram of the accident and such information as the boat owner's experience, the weather, wind and visibility at

the time of the accident, safety devices on the boat and what the operator was doing when the accident occurred.

Lawmen also are cooperating in furnishing detailed information on all drownings, whether boats are involved or not.

Summaries and analyses compiled each year are expected to serve as a guide for writing new legislation.

Rep. Charles A. Boyer, R-Manistee, chairman of the House Committee on Marine Affairs, says his group plans to start work on a new state water safety code next year.

Cpl. William Carter, a water safety and underwater recovery specialist for state police, says the

new reporting system has revealed that drinking boat drivers are, in proportion, almost as much a menace on waterways as they are on highways.

In response to a state police request for information on whether intoxicated persons were involved, the statistics "definitely obviously had been drinking" is turning up more frequently on reports.

"Drinking drivers, teen-age 'hot rod' drivers and parents who permit their little kids to wander off unattended are three of the biggest problem areas in drownings," he said.

The overwhelming majority of drowning victims are male, even among toddlers. Last year only one in 25 of the victims was

female; the year before it was one in five.

Last year, only two of the 47 children under 10 who drowned were girls. Young boys, usually unsure of their swimming ability but wanting to show off or join in water antics, are frequent victims.

Overloaded boats and small boats swamped by wakes of other craft often lead to drownings.

TRAGIC EXPERIENCE
 "They wanted to get in the same boat because it would be more fun," explained a grief-ridden Leonard Larson of Skandia after his 10 children, wife and a relative drowned when their 14-foot boat overturned on Lake McKeever near Munising in September 1959.

It was Michigan's worst small boat tragedy.

Carter thinks lectures and brief training courses given by state police and others in schools, supplementing Red

Cross and YWCA and YMCA water safety instruction, would cut the drowning toll.

Water safety laws, he said, could be strengthened by extending Coast Guard regulations to inland lakes.

These include required lifesaving devices and fire extinguishers on motorboats.

The only boating law enacted this year requires at least two persons or a wide-angle rear-view mirror in a boat towing a water skier.

New Foreign Aid Plan Suggested by Brazil

A new foreign aid idea that has been somewhat obscured because of other news comes from Brazil. Any program that is in contrast to our present giveaway aid setup deserves study.

One of the new bright young men (age 36) in the Brazilian government is **CAESIO FURTADO** and his proposed plan involves a \$900 million development plan for Brazil.

Instead of coming right out and asking the U.S. for the whole amount he suggests a financing plan as follows: Brazil itself would ante up \$500 million. The cost to the U.S. would be \$75 million, plus some surplus food, U.S. technicians, Peace Corps, etc. The rest would come from private sources in Brazil and the U.S.

Right now the hot bed for Communists is northeast Brazil. Currently 30 million peasants are living in poverty and squalor in this section. They are all crowded into the coastal cities and might well be called ripe for the Commies.

In the first year under the plan suggested by FURTADO, 125,000 peasants will be moved inland to fertile plains. Here they could live off the soil. New roads would be started, agricultural towns begun and towns carved out of the new land. At first it would be necessary to feed the people and later on they could earn their own way.

This seems to make a lot of sense and is not just a handout. The Brazilian government would be participating in a big way. We would be helping out with some technicians and money. Low cost loans could be arranged through the Inter American Banks and the food given to the people as wages could come from Food for Peace.

Some Washington observers seem to think this is the most important step since the Marshall Plan, with the added advantage of only costing us in dollars a fraction of what the Marshall Plan cost the taxpayers.

Turkish Government Is Being Reorganized

News reports indicate that another step in the reorganization of the Turkish Government has passed with the voters favoring a new constitution.

A little over a year ago the military tossed out Premier MENDERES, and his entire cabinet. The charges against them were primarily violating the constitution and attempting to set up a dictatorship.

Recent figures of the High Electoral Council show that of the 12,487,000 eligible voters, 62 per cent favored the new constitution and 38 per cent voted against it.

In his radio speech to the nation, General GUNSK, Head of State and Government, expressed his satisfaction over the enthusiastic participation in this national event.

It seems reasonable to believe that Turkey is now on the road to recovery. All indications are that the new constitution will be a fair instrument with which to guide their country.

The new constitution was drawn up by 35 professors and jurists who found over 200 laws which were anti-democratic and anti-constitutional under the old regulations set up by the MENDERES government.

The one ticklish point to be solved for the new government is the trials of former President Bayar, and Premier Mendere.

The prosecutor for the trials has asked the death penalty for them along with 105 defendants who worked closely with them.

These two men still have a large following and the outcome of the trial could well stir up another revolution. Either way the trial goes, one side or the other may revolt. Until this decision is made by the Supreme Tribunal of Justice, Turkey is sitting on a powder keg.

The Man About Town

Paying Preacher

How It Was Done in the Early Times in Pontiac

Space age: When everybody's looking for a parking space.

Granddaughter of the pastor of a prominent Pontiac church of the last century.

Mrs. Flora Brownlee of Ann Arbor writes me that his family got most of their living from an annual "donation day," when people brought in all kinds of foodstuffs.

Then quite largely a farmers' town, most of the donations were in the shape of produce. On this day each year they received many barrels of apples, untold bushels of potatoes and other vegetables, several slabs of bacon, many smoked hams and countless cans of fruit.

So many onions were received that Mrs. Brownlee reports her grandfather as saying that if he ate his portion of them his breath from the pulp would be so strong that it would drive more people out of the church than his sermons.

After taking out all that the family could use, the remainder was sold at auction each year at a "white elephant" sale, the proceeds going to the pastor's family for their Christmas and other spending money.

At these sales the loyal members of the church often brought back what they had donated, and outsiders gathered to get staple products at bargain prices.

Another joke on the preacher told by Mrs. Brownlee was when the donations of grapes ran into several bushels, most of which were put up at the sale, and were bought by a representative of a Pontiac grog shop, who converted them into wine.

A potato found by Chauncey M. Berdan of 847 Sarasota St. got so anxious to grow above ground that it put out sprouts nearly a foot long, some bearing the tomato-resembling "fruit" that is claimed to be the original potato seed.

The date for this column's annual Freckle Contest has been set. It will be on Tuesday evening, Aug. 8, at the Oakland County 4-H Club Fair.

This column is quite in agreement with the sentiments expressed in a letter from Mrs. Amy Morrisfield of Rochester. She says that the principal cause of juvenile and parental delinquency is that too many fathers are crazy about guns, and pass the dementia along to their children. The crime and casualty columns are running over with the sequel.

Baseball mania reaches its peak in the case of a Pontiac professional man who wishes to be called

"Man With Two Loves," whose daughter had picked her wedding date at the same time as the World Series. He persuaded her to change it because he wanted to be present at the wedding.

"If you see a Pontiac deer running around with only one horn, I have the other," writes

Harvey Ellington of Ponton. A deer jumped in front of his car near the viaduct on Oakland Ave. late the other night, but was able to run away. The next day Ellington found an antler wedged between the hood and a fender.

Verbal Orsids to—

—But Rock, There's So Little Water in Arizona

David Lawrence Says:

Britain Waking Up to Red Menace

IN EUROPE—They are beginning to wake up in Britain to Communist infiltration—a trend that regrettably has not yet been paralleled in continental countries such as France and Italy. The British Labor party's national executive committee, including Hugh Gaitskell, the party's leader—has decided to inquire into the possible expulsion of the Electrical Trades Union from the Labor party because it has several Communist officers.

The 170,000 members of the ETU pay annually about \$170,000 in political contributions to the Labor party. The action of the executive committee follows the step also taken this week by the Trades Union Congress of Britain, which sent an ultimatum to the same electrical union demanding that it get rid of Communist officers at once or face suspension from the national trades union organization.

Here is an important union, with men in key jobs in the electricity mechanism of a whole country, and up to now nothing has been done to tackle in earnest the problem of its Communist officials.

A letter published by the London Daily Telegraph says on this point: "We are spending millions of pounds on defense, yet our security can be destroyed if such services as power, water, railways can be disrupted by the plots of a small caucus of union leaders who in their blind devotion to Marxism would have no hesitation at the bidding of their Communist masters in destroying democracy in their own country."

CONSTANT MENACE

Fortunately, the largest unions in Britain are not dominated by Communists, though they have made steady efforts at infiltration. The Telegraph, in an editorial, insists that apathy among the rank and file of the members and their failure to vote in union elections have been a basic reason why the Communists get control. It adds:

"Action sterner than has been expected has finally been taken by the Trades Union Congress against the Communist-controlled executives of the Electrical Trades Union. . . . The challenge doubtless came all the more of a shock to the Communist leaders of the ETU in view of their past disposition to play upon the reluctance of the Trades Union Congress to intervene in union affairs."

"With only one abstention, the general council has voted in support of a move to break the grip of the Communists on the ETU's affairs."

"This means among other things

that the union's executive (committee) was given 10 days of grace in which to rescind their decision which nullify the powers of the new anti-Communist general secretary, Mr. Byrne."

But this is not the only significant step taken against Communist activities in Britain. The national executive committee of the British Labor party—although clearing one of the party's members of Parliament who took part in a so-called "disarmament conference" at Oslo, Norway, sponsored by Communists—has just issued a warning against being taken in by so-called international conferences which ostensibly claim high motives but which are, in reality, Communist-inspired.

A report on the investigation made by a committee of officers of the British Labor party has found that most of the members of the organizing committee of the Oslo conference were also members of the World Peace Council, which is one of the organizations on the blacklist of the British Labor party.

Practically painless injection (ambulant, office) treatment for internal hemorrhoids (piles), which details the patient only a few minutes, once or twice a week, for four to eight times, is far more satisfactory than the crude 19th century clamp and cautery operation, which hospitalizes the victim from one to two weeks and is generally attended with or followed by a good deal of pain.

This is the consensus of the many correspondents who have reported their experience. I hope no reader will assume that injection treatment is the case of hemorrhoids (piles). In my judgment it is the method of choice for internal (bleeding) piles—at least it would be if I were the patient. But injection treatment is not applicable to external (the most painful) piles.

External piles demand surgery—the surgery may be done in the doctor's office, perhaps under local anesthesia. But there is no alternative, to the best of my knowledge.

A great deal of popular misunderstanding of the question of treatment of piles is due to the fact that a so-called "attack" of piles—that is, a cessation of or discomfort of great pain and discomfort—naturally subsides in the course of a week, more or less, no matter whether any remedy or treatment has been used or not.

It is difficult to give in a newspaper detailed instructions in hypnosis, prevention, alleviation of the "attack" etc., but on request I'll send a pamphlet on "Piles." If you will pay the freight, that is, provide stamped envelope bearing your address.

Many old timers still in practice will growl or sneer at you if or when you venture to ask about this ambulant, or injection treatment you have heard about and if they tell you the method was tried long ago and discarded as "no good" or too dangerous or doesn't cure, that is all true.

Members of the Labor party were advised to check hereafter with the general secretary before accepting such invitations, so that there would be an opportunity to determine whether the meetings are bona fide.

IN AMERICA, TOO

In this instance, one of the initiators of the conference was Ilya Ehrenburg, a leading Soviet "peace" propagandist.

Those naive persons who are often asked to sign advertisements in the American press for various organizations—usually taking the Communist side of the argument in international policies—might profit by accepting the same kind of advice as that now given in Britain.

Indeed, all the democracies are suffering from a lack of investigative machinery for the effective exposure of the intrigues of the Communists, who set up all sorts of international conferences to sway public opinion toward their point of view.

(Copyright 1961)

Dr. William Brady Says:

Injection Treatment Best for Internal Hemorrhoids

Practically painless injection (ambulant, office) treatment for internal hemorrhoids (piles), which details the patient only a few minutes, once or twice a week, for four to eight times, is far more satisfactory than the crude 19th century clamp and cautery operation, which hospitalizes the victim from one to two weeks and is generally attended with or followed by a good deal of pain.

This is the consensus of the many correspondents who have reported their experience. I hope no reader will assume that injection treatment is the case of hemorrhoids (piles). In my judgment it is the method of choice for internal (bleeding) piles—at least it would be if I were the patient. But injection treatment is not applicable to external (the most painful) piles.

External piles demand surgery—the surgery may be done in the doctor's office, perhaps under local anesthesia. But there is no alternative, to the best of my knowledge.

A great deal of popular misunderstanding of the question of treatment of piles is due to the fact that a so-called "attack" of piles—that is, a cessation of or discomfort of great pain and discomfort—naturally subsides in the course of a week, more or less, no matter whether any remedy or treatment has been used or not.

It is difficult to give in a newspaper detailed instructions in hypnosis, prevention, alleviation of the "attack" etc., but on request I'll send a pamphlet on "Piles." If you will pay the freight, that is, provide stamped envelope bearing your address.

Many old timers still in practice will growl or sneer at you if or when you venture to ask about this ambulant, or injection treatment you have heard about and if they tell you the method was tried long ago and discarded as "no good" or too dangerous or doesn't cure, that is all true.

The same objections apply to radical surgery, except that, as I have tried to explain, the modern injection method is worth trying first, unless you are a stoic.

Significant, but more than one page or 100 words long pertaining to hemorrhoids and piles, and disease diagnosis or treatment, will be sent only if the name, address, and stamp, self-addressed envelope, is sent to The Pontiac Press, Pontiac, Michigan.

Case Records of a Psychologist:

Apology Leads to Happy Results

By DR. GEORGE W. CRANE

CASE J-453: Martha M., aged 58, is the attractive mother who was described yesterday as having divorced her husband 25 years ago.

Two weeks after my address before her daughter's Women's Club, Martha came to Chicago to see me.

"Dr. Crane," she began rather timidly, "I am sure I could have salvaged our marriage if I had only known the modern medical and psychological facts which you told my daughter's club."

"For I was a very prudish type of wife. Indeed, I would never even survive in the same room with my husband."

"And I argued with him almost constantly, since I believed married relations were only for the sake of children."

"He was an ardent but devoted husband, I am sure he was a very good man, though I grew so incensed over his disloyalty when I found he was running around with his secretary, that I forced him to divorce."

"He pleaded that he loved me more than anybody else, but I could not believe it."

Pontiac, Nearby Area Deaths

MRS. GEORGE CARTIER

Mrs. George (Evelyn S.) Cartier, 66, of 2580 Embarras, Waterford Township died yesterday at St. Joseph Mercy Hospital after an illness of two months.

She was a member of St. Michael's Catholic church.

Mrs. Cartier leaves six sons, James of Drayton Plains, Airman 2C David Cartier at Maxwell Air Force Base in Alabama, Gerald of Van Nuys, Calif., Robert of Panarama City, Calif., William of Buena Park, Calif. and Donald in California.

Also surviving are four daughters, Mrs. Arvo Janssen of Ashburnham, Mass., Mrs. Jeanne Dell of Las Vegas, Nev., Mrs. James Lyons and Mrs. William Peckham, both of Pontiac; three sisters and two brothers.

The Rosary will be recited at 8 p.m. Sunday at the Purseley Funeral Home. Service will be held

at 10 a.m. Monday at St. Michael's Church with burial following in White Chapel Memorial Cemetery.

MRS. MILTON F. STEPHENS

Mrs. Milton F. (Edith E.) Stephens, 57, of 56 Summit St. died yesterday at St. Joseph Mercy Hospital. She had been ill seven months.

A former employee of Birmingham Cleaners in Birmingham, she leaves her husband; a daughter, Mrs. Charles E. Hubbard of Pontiac; a son, Clifford D. Baumgardner of Clarkston; six grandchildren; four brothers, Ezra Bennett of Pontiac, Herman of Mundy, Ill., Edgar of Harrisburg, Ill. and Dr. Harley B. Bennett of Llano, Tex.

Other survivors include six sisters, Mrs. Frank Poole of Pontiac, Mrs. Dora Simpson of Ypsilanti, Mrs. Hillis Swaney of Harrison, Mrs. Orville Reed of Harrisburg, and Mrs. Elmer Shaw of Carriers

Mills, Ill. and Miss Alta Bennett of Lake Orion.

Service will be held at 11 a.m. Monday at the Voorhees - Siple Chapel with burial in Oakland Hills Memorial Cemetery.

FRANK BUTTS

ROCHESTER — Service for Frank Butts, 91, of 112 Walnut Blvd., will be at 2 p.m. Monday at the Pixley Funeral Home. Burial will be in Mount Avon Cemetery.

Mr. Butts, one of the last manufacturers of handmade cigars in this area, operated a shop in Rochester for over 50 years. He died today after a brief illness at St. Joseph Mercy Hospital, Pontiac.

He also was a charter member of the Rochester Fire Department, a life member of Rochester Lodge No. 5, F&AM, and a member of the Rochester Senior Citizens Club. He is survived by several nieces and nephews.

NANCY L. ESSIAMBRE

WEST BLOOMFIELD TOWNSHIP — A Mass of the Angels will be sung at 10 a.m. Monday at Our Lady of Refuge Catholic Church for Nancy L. Essiambre, 6-year-old daughter of Mr. and Mrs. Louis J. Essiambre of 2634 Penna St.

The child, a student at Our Lady of Refuge Elementary School, drowned yesterday in Hammond Lake. Her body will be at the C. J. Goehardt Funeral Home, Keego Harbor, after 7 p.m. today.

Surviving besides her parents are four sisters, Kathleen, Karen, Georgette and Rena; two brothers, James and George, all at home; and her grandparents, Mr. and Mrs. James J. McBride and Mr. and Mrs. Joseph Essiambre, all of Detroit.

WILLIE N. SHAHAN

SHELBY TOWNSHIP — Willie N. Shahan, 61, of 4619 Waco St., N. Shahan, died yesterday at C. J. Goehardt Funeral Home, Ford Hospital, Detroit, of a heart attack. His body is at the William R. Potere Funeral Home, Rochester.

DOGS . . . VACCINATION AND LICENSE . . .

The majority of reported cases of Rabies in Michigan in the past few years has been in wildlife, which might be a mouse, rat or squirrel in your yard. If your dog is four (4) months of age it must be vaccinated and by taking your dog to your veterinarian or any of the clinics listed below, you will protect him and do your part in controlling Rabies in your Community.

Wixom City Hall, 49045 Pontiac Trail July 29, 1961
Clinics Will Be Held from One to Four P.M.

Vaccination (12 Months) \$2.00
Licenses: Male \$2.00 Female \$4.00 Unsexed \$2.00

If you have received a notice for an unlicensed dog, bring the notice with you to the clinic so that your name can be removed from our file.

Pontiac Man Badly Beaten

Hold Trio in Possible Robbery Try in Which Victim Was Kicked

Sheriff's detectives today were investigating a robbery complaint in which the victim was savagely beaten and kicked in the face.

Erwin H. Mullen, 21, of 185 W. Howard St. may have to undergo plastic surgery as the result of the beating. He has a severely lacerated face and possible fractures of the jaw and nose.

His condition was reported as satisfactory at Pontiac General Hospital.

Being held as suspects are James H. Hudson, 21, of 99 Northfield St.; Charles D. Voll, 23, 52 Norton St.; and Nathaniel C. Moore, 35, of 234 Wesson St.

Moore said he was at a beer party in a trailer at Pontiac Lake Trailer Court, White Lake Township, early this morning when the beating occurred.

According to Mullen, the trio started beating him and demanding his wallet. He said he managed to hide the wallet when he was knocked to the floor and kicked in the face by Hudson.

Mullen told officers he then feigned unconsciousness and two other men at the party, Gary Law, 27, 26, of 3130 Dixie Highway, Waterford Township, and Wade Johnson, 21, of 5231 Westview Road, Independence Township, took him to the hospital.

'Old Brimstone' Real Whiz at Cleaning Snow

BANGOR, Maine (AP) — "Old Brimstone" moves as much snow from railroad yard switches in four minutes as a man can in 45.

That's why Bangor & Arnoctook Railroad officials figure the self-propelled, flame-belching monster is a \$23,000 investment—will pay for itself in about four years.

The B & A bought "Old Brimstone" to burn weeds along its right-of-way.

Five nozzles, fed by diesel fuel at the rate of 180 gallons an hour, belch fire onto the ground.

It was tried out on snow-clogged, ice-bound yard switches, and worked so well the railroad figures it will cut appreciably its normal \$20,000 a week snow removal charge.

Teacher's Order Leads to Trouble

OKLAHOMA CITY (AP)—A pupil at an Oklahoma City elementary school brought to the teacher on playground duty an empty whiskey bottle tossed by some imber on the grounds.

The teacher told the pupil to take it to a waste basket. She had in mind the large refuse box of the janitor in the basement.

A short time later consternation reigned and explanations were in order. Pupils spotted the bottle in the waste basket of the first grade teacher.

LITTLE OLD HIRDDOG — A 7-week-old puppy, Hercules, as a compassionate eye for the plight of a baby English sparrow as he watches over it at the George Adams home in Des Moines, Iowa. The Adams family bought the dog a week ago Tuesday and daughter Cecilia, 12, found the bird on the lawn the next day.

Sen. Hart Says Migrant Laborer 'Forgotten Man'

WASHINGTON (AP) — "The migrant farm laborer is God's forgotten man," Sen. Philip A. Hart, D-Mich., said Thursday. Hart said he will offer a bill to require farmers to offer jobs to domestic workers before importing Mexican labor.

He told a news conference he will offer his bill as an amendment to the Mexican farm labor act.

Hart and four other senators filed a minority report when the Senate Agriculture Committee approved extension of the Mexican labor program.

Michigan is one of the largest users of migrant farm labor, he said.

Accidental Deaths Down From '60 Toll

CHICAGO (UPI) — Fewer Americans were killed accidentally in the first five months of this year than in the corresponding months of 1960, the National Safety Council has reported.

Accidental deaths through May of 1961 totaled 35,200, a 4 per cent drop from the 36,700 fatalities in the same period a year ago, the council said in a report Thursday.

The major drop in accidental fatalities occurred at home, where 11,400 persons died in the first five months of the year, 9 per cent fewer than a year ago.

U.S. Loans \$2.3 Million

NEW DEHLI (U.S.) — The U.S. government Thursday made available to a private Indian firm two loans totaling \$2.3 million for completion and equipping of a 350-room air-conditioned hotel.

In 1958 approximately 87 per cent of all new motor vehicles were shipped by road and only 9.9 per cent by rail, but railroad officials expect to increase their share of the market as a result of more efficient auto-carrying flatcars.

CUBAN SIGN OF TIMES—A huge sign "paz y socialismo" which translated meant peace and socialism spans eight stories of the Agrarian Reform building in Havana. At right in front of the building is the Jose Marti statue and monument. Cuban Prime Minister Fidel Castro said he eventually intends to transform his nation's political structure into a single Socialist organization. AP Photos

GOP Candidates Will Be Briefed on Convention

LANSING (AP) — Republican constitutional convention candidates elected in the July 25 primary have been invited by the GOP State Central Committee to attend a workshop conference Aug. 4 and 5 at Michigan State University.

State Chairman George M. Van Puseur will act as host at the session.

Candidates will be briefed and

given a chance to discuss all phases of the October convention.

Van Puseur said subjects covered will include the convention site, accommodations and facilities and organizational and procedural practices to be followed after the convention is called to order.

Featured speaker will be New Jersey State Sen. Wesley L. Lance, a delegate to the New Jersey constitutional convention of 1947.

During courtship he talked and she listened; now they both talk and the whole neighborhood listens. A local dad tells us he just got something unusual for Father's Day—the bills for Mother's Day.—Earl Wilson.

Burglars Should Believe in Signs on Strongboxes

MOBILE, Ala. (AP)—Burglars who broke into a safe in a food broker's office at Mobile could have saved themselves some trouble if they had just read a sign on the strongbox. The sign said, "Notice: There is no money in this safe. Go elsewhere."

Polio Reports Mark Nation's Record Low

ATLANTA (AP)—Although it is well into the traditional polio season, the U.S. Public Health Service says reports of the disease continue at a record low throughout the nation.

The weekly morbidity and mortality report from the Communicable Disease Center in Atlanta today listed eleven cases of polio, six paralytic, for the week ended July 22. This compared with 28 cases, 18 of them paralytic, reported during the previous week. For the past six weeks there have been 96 polio cases, including 53 paralytic, compared with 274 cases, 275 paralytic, during the same six weeks of 1960.

Actor Dies at 85

CHARDON, Ohio (AP)—William Cullen Hodges, 85, a stage and screen actor who had appeared in several Broadway shows, died Thursday in a rest home near here.

Wife Divorces Wealthy Realtor and Dem Leader

LOS ANGELES (AP)—The wife of Mark Boyar, 38, wealthy real estate developer and Democratic party leader, obtained a divorce on testimony that he locked her out of their bedroom and later tossed out her clothing.

Boyar was chief fund raiser for the 1960 Democratic National Convention.

The divorce hearing Thursday was marked by assertions that Boyar had gambled and lost \$1 million at Las Vegas, Nev. Counsel for Boyar denied it.

Under terms of a property settlement, Ruth Boyar, 30, waived alimony in exchange for stocks having a minimum value of \$175,000.

Now that this county's got plenty of television, says a neighbor of ours, why doesn't it get a little vision. We came upon this old saying which still seems good, "Pray to God, but row to shore." —Earl Wilson.

EAST LANSING (AP) — The Michigan State University Museum is looking for old manuscripts — land deeds, diaries of pioneer settlers and other writings of historical value.

Marvin R. Cain, museum curator, said the emphasis is on old manuscripts, to be stored in a safe place and made available to students, historians and the public.

He urged Michigan citizens to search their attics or family records for possible contributions.

ON THE BEACH — Princess Soraya, former empress of Iran, wears a bathing suit and beach shirt for the beach at Rapallo, Italy. On other occasions this week, she has been seen with Actor Hugh O'Brian, an old friend.

Rejects Charges Tiro III Spying Over Russia

WASHINGTON (UPI) — Space Administrator James E. Webb has rejected Soviet newspaper charges that the Tiro III weather satellite is engaged in espionage over Russia.

Webb told a Senate government operations subcommittee Thursday the Soviet Union has lodged no formal protest and that the only charges were in a Soviet publication.

The Russian newspaper said both Tiro III, launched by Webb's civilian agency, and Midas, the Air Force's missile warning satellite, were spy devices.

Webb said Tiro carries no espionage cameras. Its equipment, he said, is designed to photograph cloud cover and relay weather information back to earth.

GOP Fights Finance Plan for Long-Term Foreign Aid

WASHINGTON (AP) — Republicans have laid plans for an attack on the way President Kennedy proposes to finance his long-term foreign aid program.

The Republicans plan to launch their attack on the Senate floor, where the program faces a close vote. They hope to turn it back, or at least to curtail it sharply.

The program may face even rougher going in the House, where debate probably will start next week.

The administration seeks authority to make up the \$8.8 billion in loan commitments over a five-year period. Of this total, Kennedy wants to borrow \$7.3 billion from the Treasury without

Lumumbists Expect to Name Premier

LEOPOLDVILLE, the Congo (UPI) — The followers of the late Premier Patrice Lumumba were reported confident today they would wield enough power in Parliament to name the premier of a new Congo government.

Parliament was entering its third day of sessions today behind the locked and heavily guarded doors of Livanium University.

The leftist leader of Stanleyville, Antoine Gizenga, self-styled political heir of Lumumba, was said to have complained that the security precautions were not enough.

Gary Crosby Gives Up One of His Four Dogs

HOLLYWOOD (AP) — Singer Gary Crosby has given up one of his four dogs.

Neighbors complained that his canine brood was "a detriment to the neighborhood and a nuisance."

A zoning restriction in Crosby's suburban Encino neighborhood prohibits issuance of a kennel permit, required for persons with more than three dogs.

3 Members of Family Die in Quick Succession

KANSAS CITY, Mo. (AP) — Tragedy has hit the Pablo Mon-

toys household three times in 12 days.

Pablo, a track worker for the Kansas City Southern Railroad, was killed by a train on July 10.

Juan Montoya, 70, Pablo's father, died in a hospital Wednesday. Late Wednesday night two bicycles collided and Ralph Montoya, 15, a son, was killed when his head hit the pavement.

Eichmann to Testify in German Court

JERUSALEM, Israeli Sector — Adolf Eichmann will testify once more — this time as a witness in connection with several forthcoming war-crime trials against former SS men before a court in Germany, a reliable source said Thursday.

Eichmann, released from the witness stand last Tuesday after 25 days of cross examination in his own case, will answer questions put to him here by Dr. Dietrich Zeig, a West German prosecutor.

Dr. Zeig has been in Israel under a mutual legal-aid program between this country and West Germany.

Red China to Allow Tibetan Elections

TOKYO (UPI) — Communist monks, were impressed into slave labor gangs. The Peiping regime was accused of genocide.

The Communist new China news agency, in a Lhasa-dated dispatch distributed this week said the Panchen Lama issued a directive announcing that "local elections should be held experimentally in a certain part of Tibet as one of the main items of work to be accomplished during the third quarter of this year."

Observers said this apparently meant that if Tibetans respond dutifully and elect Communist or Communist-supported candidates to the most important posts, there may be other "elections" until Peiping's entire reform program is completed. Otherwise, there will be more "industrialization" of Tibetans, they said.

The Panchen Lama is acting chairman of the Chinese Communist party's so-called "preparatory committee" for Tibet.

Peiping's decision to hold the limited local elections was disclosed by the Panchen Lama, its puppet leader in the ancient Buddhist kingdom. The Dalai Lama, spiritual and temporal ruler of Tibet, fled into refuge in India when the revolt against the Chinese Communists exploded in his capital city of Lhasa.

Thousands of Tibetans were reported killed by the Red soldiers. Thousands of others, including

Report Rash of Rabies Strikes State's Skunks

LANSING — A rash of cases of rabies in skunks during the first half of the year is reported by the state health department. There were 31 cases of rabid skunks reported in the first six months of 1961, seven more than during the same period of 1960. The total of cases of rabies in wild and domestic animals also is running ahead of last year, the department said, with 47 during the six-month period, six more than last year.

The United States spends more than \$16 million a year on fireworks of which about 35 per cent are imported from Japan, Hong Kong and Macao.

Don't Blame Reds for Our Weather—Yet

By RUTH MONTGOMERY
WASHINGTON—It is probably too soon to blame the Russians for this year's off-beat weather, but the time may not be too far distant when we can.

Our cold war enemies are working on a crash weather program which in years to come could conceivably turn our North American continent into a big-shrouded icebox, or a Sahara-like desert of blistering heat.

ology, declared: "I think the Russians must be experimenting with the weather now, because they have a crash program to train meteorologists, and you can be sure they are not wasting their time."

In the event of war, they could have a tremendous advantage by creating fog and bad weather in the United States to disrupt our air defenses. They enjoy this advantage because the air currents flow southward from the Gulf of Alaska and Bering Sea area.

DAM BERING STRAITS?
Dr. Edward P. Todd, associate program director for the atmospheric science department of the National Science Foundation recalled that a couple of years ago, leading Soviet scientists began talking about building a vast dam across the Bering Straits.

The "dream" plan called for using atomic power to pump warm Pacific waters into the Bering Straits, and vice versa. This would change the currents and circulation pattern of the Arctic Ocean, and ameliorate the icy climate of Siberia.

Unfortunately, according to Dr. Todd, it would probably also turn the southern part of the United States into an arid desert, with unbearable heat. "No one is willing to risk his professional reputation with an exact prediction of the results," he smiled, "but it's rather risky to tinker with the weather on a massive scale, because we only have one atmosphere to lose."

Agreeing, Sen. Magnusson reminded that in Washington state four years ago, wheat farmers on the plateau hired an expert to sail the clouds and produce rain. The rains came, but the wind shifted and ruined the cherry crop in the valleys. The cherry growers are now suing the wheat farmers.

Weather Bureau Chief Francis W. Reichelderfer said we have no reason to believe that Russia is presently changing our weather. He said people used to blame frost: weather on radio waves, later on nuclear tests, and now on the Russians.

He added that "although obviously no one can be sure what the Russians are doing, I think they are behind us in weather modification work."

Enjoys Killing Baby Daughter

Air Policeman Tosses Infant 6 or 7 Feet on Couch for Crying

FORT WORTH, Tex. (AP)—"I sort of enjoy seeing things hurt," Charles Croley Jr., 19, air policeman at Carswell Air Force Base, told newsmen in admitting he killed his 4-month-old daughter.

Croley was charged with murder Thursday after telling police he snatched the infant by the feet and pitched her "six or seven feet on the couch" to make her stop crying.

"I was sort of in a world of my own," he told newsmen. "I didn't care where it (the infant) landed. In a way, I enjoyed it." Croley said the baby, Rhonda, began crying and he got out of bed and took her from his 11-year-old wife's arms and threw her on the couch.

"I went over and spanked her," he said. "I didn't mean to hurt her then. My wife came over screaming at me. She snatched the baby up. It made me a little more mad than I was." Croley said that when he yanked the baby from his wife's arms, "she came down and hit the floor on her head."

Croley is from Perryton, Tex. his wife, also named Rhonda, formerly lived in Hugoton, Kan.

Tennessee was the last of the Confederate states to secede and the first to be readmitted to the Union.

Bid to Strengthen U.S. Force Cause to Eye Air Bases

WASHINGTON (AP)—President Kennedy's call for a strengthening of U.S. defenses is causing the Pentagon to take another look at plans to close some air bases in the United States and abroad.

A Defense Department spokesman said Thursday in reply to questions.

"In light of the decision to delay deactivation of B-70s and to increase tactical airpower as announced by the President, we are making studies to determine whether adjustments here or overseas may be necessary to support these operations."

The Pentagon did not identify any of the bases or say what shifts may be in prospect.

Admit Chandler Will

LOS ANGELES (AP)—The will of screen actor Jeff Chandler, leaving a gross estate of \$800,000 in trust for two daughters, has been admitted to probate.

Says TV Taught Son How to Kill

**11-Year-Old Set Death
Trap for Mailman, 37,
Shot Him With Rifle**

GUNTERVILLE, Ala. (AP) — A grieving man says his 11-year-old son learned to kill from television.

"I can't think of any other answer," said Junior Franks, the father.

William Earl Franks told his father at the Marshall County jail how he waylaid a rural mail carrier and shot him to death with a rifle.

Joseph R. Thompson, 37, the postman, was killed Wednesday about 300 yards from the house near the Grant community where William Earl lived with his divorced father and grandmother.

LIED WESTERNS

"I think the main cause is TV," the father said in a telephone interview. "He liked the war pictures and Westerns."

Franks described his son as normal and said he made better than average grades at the grammar school at Grant, where he had been promoted to the sixth grade.

Franks said he gave his son the rifle for Christmas two years ago.

Sheriff Warren Jones said the boy gave a statement Thursday describing how he raised the flag on a rural mail box, causing the postman to stop, and then shot him to death.

The sheriff said he used the mail in the car to set the vehicle on fire.

The boy was held in Marshall County jail but no charges were filed immediately.

UAW Feels Chrysler Stand Won't Change

DETROIT (AP) — Norman Matthews, head of the United Auto Workers contract negotiators with Chrysler Corp., said today he felt Chrysler's changes in presidents would have little effect on the bargaining.

Chrysler Thursday named Lynn A. Townsend its new president as successor to L. L. Colbert, resigned.

Matthews added, "It is to be hoped that this change will bring about a greater degree of stability to the internal structure of Chrysler Corp. and that this will result in greater sales of Chrysler products, thereby creating greater employment opportunities and job securities for Chrysler workers."

Marcia Coordinates Instruments

Blonde, 28, Works on Satellites

PASADENA, Calif. (AP) — Guess who's worried about solar winds? A blonde named Marcia, that's who.

Ranger 1—an unmanned space explorer—is poised to blast off from Cape Canaveral.

One of the instrument assemblies aboard is called an electrostatic analyzer. One of its jobs is to probe solar winds.

That's where Marcia Neugebauer comes in.

"I'm a co-experimenter with the electrostatic analyzer," says Marcia, 28. She looks like a well-scrubbed, freckle-faced college freshman. But she's a senior scientist who is among the key personnel responsible for Ranger's complex machinery.

Marcia works at the California Institute of Technology's Jet Propulsion Laboratory here. She is in charge of coordinating the various experiments being performed by instruments on Ranger.

"I'm the only one that worries

MARCIA NEUGEBAUER

about the scientific aspects all together," she said.

She said it's up to her division

—the division of the space sciences at JPL — to determine where the scientific instruments are placed in the spacecraft and how often a reading is taken from each.

Marcia received a bachelor of arts degree in physics from Cornell University in 1954 and master of science degree, also in physics, from the University of Illinois two years later.

She is married to Dr. Gerry Neugebauer, 28, JPL project scientist for Mariner 2, a proposed 1964 unmanned expedition to Mars. The couple, who met at Cornell and have been married for five years, live in Altadena.

Marcia said she and her husband do not work on the same projects.

"They try to keep us separate. It's a matter of policy," she said.

There are only seven other women scientists or engineers working among the 850 men at the Jet Propulsion Laboratory.

Beauty Judges Pick a Winner on Coast Tonight

LONG BEACH, Calif. (AP) — Judges at the International Beauty Congress, dazzled all week by lovely faces and shapely figures, face their toughest task tonight—picking the winner.

Besides the honor, the girl chosen as Miss International Beauty receives a \$10,000 cash prize.

For many of the 52 contestants, the final night of the annual beauty pageant will be an anticlimax. Thirty-seven of the girls, eliminated in Thursday night's semifinals, will view the proceedings from the sidelines.

The 15 semifinalists, still very much in the running, are:

Miss Brazil, Vera Marie Braun; Miss Canada, Edna MacVicar; Miss Ceylon, Kamala Athauda; Miss China, Dolly Ma; Miss Finland, Marja Ryona; Miss Germany, Renate Moller; Miss Hol-

land, Starn van Baer; Miss Iceland, Signur Ragnarsson; Miss Ireland, Irene Ruth Kane; Miss Israel, Dalia Lion; Miss Malaysia, Helen Tan Hong Lean; Miss Norway, Anse-Marie Schmedding; Miss Panama, Angela Above; Miss Spain, Carmen Corvera; and Miss Paraguay, Gladys Fernandez.

Fallout Shelters Illegal? Unit to Ponder Problem

LOUISVILLE, Ky. (AP) — Is it illegal to build bomb or fallout shelters in Louisville or Jefferson County?

Planning and zoning chief Charles Walle told radio station WHAS he doesn't know if bomb shelters are legal, because there is no provision for them in present planning and zoning regulations.

The Jefferson County Planning and Zoning Commission will consider the problem at a meeting Monday morning.

Florida Orders Ban on Hunting of Alligators

TALLAHASSEE, Fla. (AP) — The Florida Game Commission Thursday ordered a ban on alligator hunting throughout the entire state.

Dr. O. Erle Erye, assistant director, told the commission the prohibition was necessary to save the alligator, one of Florida's most valuable tourist lures, from extinction.

In the past, commercial hunters were allowed to take alligators more than six feet long for their hides, except in the Everglades region and a few other counties.

But, Frye said, many hunters have been taking alligators under six feet in their greed for hides and the reptiles are fast disappearing.

CORVAIR WINS AGAIN

LADIES PRIZE-4,200-MILE TRANS-CANADA RALLY!

CORVAIR BY CHEVROLET

The smiling lady you see at left is Denise McCluggage. With navigator Starr Hammen, she's just driven over 4,200 miles in seven days. One reason Denise is wearing the smile is that she and Starr won the coveted Coupe des Dames in this rugged Trans-Canada Rally, topping every other women's team entered. Another reason is that they beat some 90% of all the men's teams entered. In a rally, of course, you're

given specific speeds (within legal limits) at which to complete each portion of the route. A minute early, a minute late—and you're penalized. Total penalties for Denise and Starr (remember, this event was 4,200 miles long): four minutes. Four.

Their car was a rally-equipped Corvair Monza Four-Door. This Trans-Canada Rally, competitors told us, was one of the most searing tests of car and crew in the world. They fought snow and dust, mountains and lonely plains, all the way from Montreal to Vancouver, British Columbia.

The Corvairs won the respect of everybody. And "everybody" includes some of Europe's finest rallyists, not to mention a goodly portion of Canada's population. But then, winning respect is an old habit of Corvair's. If you don't believe it, try a drive in one at your Chevrolet dealer's. You'll soon be a true believer.

See the new Corvair at your local authorized Chevrolet dealer's

Lone Occupant Flees Sinking Cabin Cruiser

TRAVERSE CITY—A 35-foot cabin cruiser sprang a leak 12 miles out on Grand Traverse Bay of Lake Michigan Thursday night and started to sink.

The Grand Traverse County sheriff's office said the boat's lone occupant, Steve Korson, 40, Traverse City, went overboard and swam to shore with life preserver aid, arriving tired but unharmed. Sheriff's men said Korson told them the last he saw of the boat was "the cabin just barely above water."

ORDINANCE NO. 47
Regulations for public shows and exhibitions.
An Ordinance to regulate and license Public Shows and Exhibitions to provide for the health, safety and welfare of the citizens of the Township of White Lake, County of Oakland, State of Michigan.

Section 1—Operation.
No person, firm, individual, corporation, association, partnership, society, or otherwise shall, after the effective date hereof, set up, promote, conduct, operate, or otherwise aid and/or assist in the operation, promotion, building and public show or exhibition to which admission is given, or to which the public is invited, on the premises and within the limits of the Township of White Lake, County of Oakland, State of Michigan, without first obtaining a license from the Township of White Lake, County of Oakland, State of Michigan.

Section 2—Application.
Before any license, as required by Section 1, is granted, the applicant shall be made to the White Lake Township Clerk, by the applicant, said application shall be in writing, and shall contain the following information:

A. A drawing, diagram, blueprint or sketch of the building or structure to be erected, showing the site of all buildings on the premises, and the proposed location of the building or structure, and the location and type of parking facilities.

B. The seating arrangement, if any, for spectators, including engineering and building plans therefor.

C. The location and type of fencing on the property.

D. The location and type of sanitary facilities available.

E. The zoning designation of the premises.

F. The applicant shall be accompanied by a deposit of the required license fee in cash or certified check, which fee, in the event that the application shall be denied, shall be returned by the Clerk to the said applicant.

Section 3—Police Protection.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 4—Insurance.
In the event the Public Show or Exhibition is held on the premises of the applicant, no license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 5—Sanitary Facilities.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 6—First Aid.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 7—Fire Protection.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 8—Public Liability Insurance.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 9—Public Safety.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 10—Public Order.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 11—Public Health.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 12—Public Safety.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 13—Public Order.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 14—Public Health.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Section 15—Public Safety.
No license shall be granted unless the applicant has provided for the protection of the public, and the protection is provided by the Township of White Lake, County of Oakland, State of Michigan.

Space Hazards Were Overrated, Scientists Say

BALTIMORE (UPI)—Scientists said Thursday many of the hazards of space flight are not as dangerous as they first seemed.

They said spacecrafts, as a result, can be built much more simply and cheaply than once thought.

These conclusions stemmed from four years of research by the Martin Co., including a study for the National Aeronautics and Space Administration on Project Apollo, the program for sending men to the moon.

The hazards defied by the studies are weightlessness, radiation zones around the earth, solar flares and meteors.

Delegates See a Need for Uniting Malaysia
SINGAPORE (U)—Delegates from Malaysia, Singapore and three British colonies agreed Thursday a United States of Malaysia is necessary.

The representatives, including those of North Borneo, Sarawak and Brunei, issued the statement at the end of a conference of the Commonwealth Parliamentary Association.

It backed up a recent proposal by Malaysian Prime Minister Tunku Abdul Rahman for a federation of Malaysia, Singapore and the three Borneo states.

'Freedom Ride' by Bob Kennedy, Powell Urged
SAN FRANCISCO (UPI)—The International Longshoremen's & Warehousemen's Union has suggested that Atty. Gen. Robert Kennedy and Rep. Adam Clayton Powell, D-N.Y., ride a "freedom bus" together to Jackson, Miss.

Michael Johnson, secretary of the ILWU district council here, said the suggestion was made in telegrams to both men "to determine if state authorities would arrest you."

Johnson said it was the council's idea that the ride be made by "a highly-placed Negro and white."

Brazil President to Visit Kennedy in December
RIO DE JANEIRO, Brazil (UPI)—President Janio Quadros plans to visit Washington in December, government sources disclosed Thursday.

They said Quadros was invited by President Kennedy last week. Quadros will visit all South American countries during the latter part of October and early November, according to Foreign Minister Alfonso Arnes.

Keyes Action Delayed Till Fall

Vacations and Length of Exams Are Cited in Petition Fraud Case

LANSING (U)—Court action against Dr. Eugene C. Keyes and a River Rouge woman notary public involved in his primary election campaign petition fraud case has been delayed until September.

Keyes, 60, Dearborn doctor-dentist-attorney, was scheduled to be examined in Ingham County Circuit Court here today. Mrs. Lulu Abram, charged with perjury, was scheduled for examination Thursday.

The office of Ingham County Prosecutor Leo A. Farhat said both examinations will be delayed until September and a date has not yet been set.

Two of the three county circuit judges will be vacationing in August, the prosecutor's office said, and the examinations are expected to take considerable time. There also is a backlog of criminal cases.

Keyes was indicted on 13 counts of conspiracy by Circuit Judge Marvin J. Salmon, sitting as a one-man grand jury.

Keyes was charged with conspiracy to violate the state election code after it was alleged that some of the petition signatures were fraudulent.

A two-term former Republican lieutenant governor, Keyes was once mayor of Detroit and was disqualified from the primary race as a Democratic aspirant for the job.

Mrs. Abram was charged with perjury after the grand jury found she gave false evidence on the legality of signatures.

No decision has been made as yet in the case of Rep. Maxine Young, D-Detroit, accused of misfeasance and malfeasance.

The Soviet Union production of cheese has increased from 25,000 to 130,000 metric tons since before World War II.

Dynamite Wrecks Two Negro Homes

ATLANTA (AP) — A dynamite blast damaged two Negro frame homes in southeast Atlanta Thursday night only three blocks from a section where blasts damaged a restaurant and an oil company office July 3 and 4.

Police said the charges exploded in an alleyway between two houses, smashing windows, ripping planks from the sides of the homes and damaging part of a brick foundation.

Two persons were showered with broken plaster but no injuries were reported.

Joe Paul Strong, who lives in one of the houses, said the blast knocked him out of bed.

Revealing Clothing Denounced by Bishop

NEWARK, N.J. (UPI)—A leading New Jersey bishop has denounced the "pagan influence" of too-revealing summer clothing and asked Catholics to strive for greater modesty.

He singled out men who appear in public with bare chests and women who wear short shorts.

Auxiliary Bishop Walter Curtis of the Newark Catholic Archdiocese issued his appeal Thursday in a front-page "open letter to Catholics on modesty" in the Advocate, the official publication of the Newark Archdiocese and the Paterson, N.J. Diocese.

A two-million-watt radio station is being built that can talk under water to submarines all over the world.

General Ridiculed President Lincoln

McClellan Letters Show Power Idea

By TOM HENSHAW
AP Staff Writer

A thoughtful army encourages its soldiers to write letters home. It's good for morale.

But the letters Gen. George B. McClellan wrote to his adoring wife, Nell, back in 1861 might have given a thoughtful army second thoughts had it known about them at the time.

McClellan, called up to command the Union Army after the Bull Run disaster, openly ridiculed the President of the United States and toyed with the idea of becoming a dictator.

"Our George," or "Little Mac" as his soldiers called him, turned out to be a failure on the battlefield, and in a way, it was a good thing. One big victory conceivably might have turned the trick for him.

McClellan, born to wealth in Philadelphia, a top scholar at West Point and a railroad president at 32, was summoned to command after a minor success against the Confederates in western Virginia.

Arriving in Washington with the Bull Run panic still hanging heavy in the air, he wrote to his wife: "I find myself in a new and strange position here; President, cabinet, Gen. Scott (the general-in-chief) and all deferring to me. I seem to have become the power of the land."

Adulation did nothing to dispel his day dreams.

He had barely arrived on the scene when Democratic politicians began sounding him out as presidential timber for 1864 to run against Lincoln — the "Original Gorilla," he called him in letters to his wife.

Admirers dubbed him "Little Napoleon" and when photographers trained their crude cameras on him, he took to posing with one hand tucked inside his jacket indicating the comparison wasn't odious to him.

"I receive letter after letter," he wrote to his faithful Nell, "calling on me to save the nation, alluding to the presidency,

GEN. GEORGE B. MCCLELLAN

dictatorship, etc. I have no such aspiration."

"I would cheerfully take the dictatorship and agree to lay down my life when the country is saved."

"I almost think," he continued, "that were I to win some small success now I could become Dictator or anything else that might please me—but nothing of that kind would please me—therefore

Lansing Couple Finds Nudism Cool Way of Life

SYCAMORE HOLLOW, Kan. (AP)—Paul Arnold and his wife are stopping at Sycamore Hollow on their vacation because they find it comfortable and relaxing to go without clothes and enjoy renewing acquaintances with old friends who do.

"We also think it's a wholesome and healthy way to bring up children," said Arnold, 30, a graduate student from Lansing, Mich.

"Since nudism became an organized activity in this country around 1920 or 1930, there hasn't been a case of sexual delinquency among us. The divorce rates are significantly lower, too."

Mr. and Mrs. Arnold and their 2-year-old son are at the annual convention of the Midwest Sunbathing Association. They will be at San Bernardino, Calif., next week for the national convention and plan to visit Berkeley, where he was born and reared.

I won't be dictator. Admirable self-denial."

McClellan's letters hint that his self-denial might have become something less than admirable had not things began to go wrong for him for the first time in his life.

When he finally took the field he ran into a deft new Confederate commander, Robert E. Lee, and for the better part of a year they wallowed around eastern Virginia in a bloody stalemate.

Relieved of command and then restored, he stopped Lee at the Battle of Antietam but refused to follow up his advantage (during was not his forte) and Lincoln fired him again.

Nevertheless, McClellan mustered enough popularity to run against Lincoln for the presidency in 1864. Lincoln trounced him soundly, 212-21, in the electoral college.

In fact, the defeat so rankled him that the man who toyed with the idea of being dictator left the country for Europe and didn't return for four years.

5-Year-Old Boy Loses Leg to Wash Machine

PHILADELPHIA (AP) — Daniel Hughes, 5, lost his left leg Thursday after his foot got caught in the family washing machine. The boy was playing alone in the basement when his parents, John and Patricia, heard him scream. The father freed the boy. At Nazareth Hospital it was decided that the leg had to be removed below the knee.

Civil Defense Interest Stirred by Kennedy

President Kennedy's concern over civil defense has awakened interest in Pontiac.

A number of inquiries have been received at City Hall since the President touched on civil defense needs in his nationwide address Tuesday night, according to Robert A. Stierer, assistant city manager.

People are mostly interested in protection at home, he said.

City Hall has a wealth of information material on the subject, all available on request.

It's easy to become acquainted with the family fallout shelter program in Pontiac, Stierer pointed out, since there is a prototype shelter on display here the past year.

Build under the auspices of the Office of Civil and Defense Mobilization (OCDM), the shelter is in the basement of Mr. and Mrs. Clarence H. Dolan, 88 W. Walton Blvd.

Viewing hours are on Saturdays and Sundays, 10 a.m. to noon and 2-4 p.m.

Cost was \$60.13 for a cement block shelter 5 1/2 feet by 7 1/2 feet, designed for nearly perfect protection against radio-active fallout.

A pamphlet, available at City Hall, tells how to construct shelters like this. It also has many variations on the basic design.

Two other pamphlets from the OCDM give advice about how to stock a fallout shelter with food and water and with first aid equipment.

First Aid Handy

The first aid booklet is handy around the house in any emergency, since it contains first aid instructions in common mishaps.

Another OCDM booklet available at City Hall contains a layman's explanation of radioactive fallout — the tiny dust particles coated with radioactive materials floating down from the sky after a nuclear explosion.

A wall-sized card, printed for the OCDM, is a quick reference to the meaning of the two types of blasts that come from the city's civil defense sirens.

The card says that steady blast of 5-5 minutes means there's an alert. In such an alert, civil defense instructions and messages are broadcast over the Conelrad frequencies — 680 or 1240 on your AM radio.

Take Cover

A walling tone or short blasts for three minutes means an attack is believed to be imminent. The thing to do then is take cover immediately in the best available shelter.

The card also lists some basic rules for civil defense preparedness for your family. Here they are:

1. Prepare: "Your family shelter and equip with two-week supply of food and water, first aid kit, battery radio."

2. "Evacuation kit for your automobile with food, water, first aid kit, battery or car radio, blankets."

3. Learn: "1. Warning siren signals and what they mean."

2. "Your community plan for emergency action."

3. "Protection for radioactive fallout."

4. "First aid and home emergency preparedness."

5. "Use of Conelrad."

A mimeographed sheet has been prepared by Pontiac civil defense officials, giving a cost breakdown of the Dolan family shelter, a list of seven Pontiac area contractors who've expressed interest in fall-out shelter construction and the names of three companies that sell pre-built shelters.

Network Heads Hit by Producer for TV Violence

WASHINGTON (AP) — A television show producer said today the three major networks are responsible for what he considers excessive crime and violence on TV.

He testified the networks write letters asking for less violence, but make telephone calls urging more sex, more violence, and blacker villains so we can kill them off in one big climax."

The witness, Maurice J. Unger, Hollywood manager for Ziv United Artists, Inc., said there would be less crime and violence on shows seen by children if Congress "reduced the excessive power of the three men who head the big networks."

He said the three have a stranglehold on programs and have "more power than the Constitution gives Congress or the Supreme Court."

He added that if the Senate Juvenile Delinquency subcommittee, headed by Sen. Thomas J. Dodd, D-Conn., wants to improve shows, "it can convince the seven men on the Federal Communications commission to curb the powers of the three men in the network."

Shelby Twp. Woman Injured in Car Crash

A Shelby Township woman was hospitalized in Pontiac following a two-car crash at Auburn and Livonia in Avon Township yesterday.

Listed in fair condition today at St. Joseph Mercy Hospital was Mrs. Eugene Hart, 32, of 4738 Ladd Road. She has chest injuries and a lacerated foot.

She was alone in her car and failed to see a stop sign before colliding with another vehicle driven by Oscar Moyer, 48, of 267 State St.

Both Moyer and his passenger, Lorn Austin, 18, of 880 Kier Road, Independence Township, were treated at the hospital for minor injuries and released.

Moscow's Krasnyaya Zvezda said the speech showed "with utmost clarity on what a dangerous scale the Pentagon is again embarking."

"Shamelessly specializing on the allegations about the so-called Communist menace, the United States rolling quarters want to make another step on the road of the country's militarism."

However, Polish newspaper Zycie Warszawy said Kennedy indicated that "East-West negotiations on Germany and Berlin are necessary."

While calling Kennedy's speech an intentional prelude to a program of intensified armament, Zycie Warszawy stressed the U.S. President's statement that the West is ready to remove all points of irritation in West Berlin.

13 Educators Named to Set Con-Con Stage

LANSING — Three university professors were named today to direct preparations for the forthcoming constitutional convention.

Dr. William H. Combs, dean of the University Services Division at Michigan State University, was chosen as staff director.

Chosen as associate directors were Charles Weyliffe Joiner, law professor at the University of Michigan, and Alfred H. Kelly, chairman of the history department at Wayne State University.

The three were named by the Governor's Preparatory Commission, which is handling advance planning for the constitutional convention delegates who will convene at Lansing Oct. 3.

Reports Soviets Have Over 500 Modern Subs

WASHINGTON — Sen. Warren G. Magnuson, D-Wash., told the Senate today that Soviet Russia now has more than 500 modern submarines, many of which could fire missiles into this country from the 12,283 miles of U.S. coastline.

Magnuson quoted Navy anti-aircraft commander on this threat as he urged Senate approval of a vast program of undersea research and exploration.

15 Auto Plants End '61 Model Production

DETROIT — Ward's Automotive Reports said today 15 auto assembly plants ended their 1961 model production this week, trimming over-all industry output to 75,911 passenger cars.

Last week 102,855 cars were built and in the similar week of 1960 the total was 107,015. Truck production was estimated at 22,777 compared with 23,630 last week and 21,896 last year.

U.S. Spacemen Reject Invitation to Meet Gagarin

ST. LOUIS — America's two spacemen, Alan B. Shepard and Virgil I. Grissom, today turned down an invitation from industrialist Yuri Gagarin of Russia.

Col. John Povers, information officer for Project Mercury and official spokesman for the astronauts, said the spacemen are too busy.

He said a wire had been sent to Gagarin saying, "The pressure of work in connection with America's Man in Space program precludes such a visit."

Gagarin, who left Cuba today for Brazil, will visit Eaton Wednesday and Thursday at the Cleveland millionaire's home in Halifax, Nova Scotia.

Contractors Sought to Sign Nonbias Pact

WASHINGTON (AP) — President Kennedy's committee on equal employment opportunity said today it is seeking to get the nation's top 50 defense contractors signed up on Plans for Progress nondiscrimination pledges. Such

agreements with nine of the 50 Dress Manufacturing Co., Walterboro, S.C., and Youngsweater, Inc., Smales, S.C.

The National Association for the Advancement of Colored People filed complaints alleging racial discrimination against the U.S. naval shipyard at Charleston, S.C., and five private concerns.

The firms are the General Electric Co. plant at Dover, Ohio; Joseph Schlitz Brewing Co., Tampa, Fla.; Shell Oil Co. refinery at Wood River, Ill.; Walterboro

Materials Purchased

HOUGHTON — The Ishpeming Steel Co. has purchased all salvageable materials of the Atlas Powder Co., which closed down its explosives plant last fall. A Houghton man, Leonard Christopher, bought 1,800 acres of Atlas land.

Alleges Affair With Film Star

Trial Witness Claims Mrs. Cooley Named Roy Rogers

BAKERSFIELD, Calif. (UPI) — Former cowboy-musician Spade Cooley's slain wife once disclosed she had an affair with movie star Roy Rogers, according to a witness at Cooley's murder trial.

Rogers' wife, actress Dale Evans, called the idea "ridiculous."

Mrs. Cooley, 37, was killed last April 3 at her Willow Springs ranch home. Cooley, 50, is charged with torturing her to death.

Dorothy B. Davis, North Hollywood, Calif., a registered nurse and a friend of the Cooleys for 13 years, brought Rogers into her testimony Thursday under cross-examination by defense attorney F. Basil Lambros.

Miss Davis said Cooley, once a stand-in for Roy, accused his wife of having an affair with Rogers and that Cooley and a North Hollywood detective went to Texas to bring her home.

Lambros asked Miss Davis if Mrs. Ella Mae Cooley had ever confessed to the affair. "She told me she did," the witness answered.

"But I didn't believe it then, I don't believe it now and I never will believe it," she said.

Roy Scoops

Located to Tonopah, Nev., where he is on vacation, Rogers scoffed at the testimony.

"It simply isn't true."

"I hardly knew Spade's wife. I have never been in their home except on occasions when Spade was there, too."

"Spade and I were like brothers — I thought of him like a brother."

Miss Evans, who has starred in many cowboy movies with her husband, said, "I just don't believe it."

"I don't believe it just as Miss Davis didn't believe it and doesn't believe it now."

"Personally, I don't feel that Mrs. Cooley ever had an affair with anybody. She wasn't the type."

According to the U.S. Geological Survey, the Great Salt Lake contains 40 million tons of salt.

Car Owner Should Ask Guest Riders

By The Emily Post Institute
Q: My husband and I were invited to a 25th wedding anniversary party in the suburbs. As we are without a car at the present time, we took the train. When we arrived, two of the guests who live near us had just driven up to the hostess's house. When we got on the train, they said, "Why didn't you call and ask to drive out with us?"

I replied that they knew we had no car and it was up to them to invite us to go with them. She said they had no way of knowing what arrangements we made for getting to the party and it was up to me to telephone her.

I disagree with her entirely. When we had our car I always did the inviting. Please tell me who is right?

A: You are right, but you should not have answered that it was "up to them" to invite you to drive with them, as though you resented their not having done so.

Q: My nephew was married recently. His mother (my sister) died several years ago. The bridegroom's father has been seeing a woman friend quite steadily for the past six months.

They are not engaged, but I do believe they will marry some day. At the wedding, she was seated in the front pew beside my brother-in-law, and at the reception she was seated next to him at the family table.

I thought she had no right to be at these places and that it showed very bad taste. I would very much like to have your opinion on this.

A: If their engagement had been announced, her proper place would have been beside your brother-in-law, but as it was not announced she should have been seated with the other guests.

Q: I am going to give my fiancé gold cuff links for his birthday. I would like to have these marked but am not sure of the correct way to do it. My fiancé is a junior and I have been wondering if it is necessary to include the suffix after his initial. Will you please advise me?

A: Correctly, the Jr. is included, and if he has only two initials there is no reason to omit it, but if you find that two initials and Jr. will look too crowded, you may leave it off.

Q: My son is not engaged but he sees a good deal of one particular young woman who lives in the town where he is now working.

She has been home with him to spend two weekends and both times has written me very nice letters afterward.

I would like to write a letter to her, and wondered how I should sign my name to this letter and what to call my husband when I refer to him or send his best regards to her?

A: You sign your letter Mary and you refer to your husband as "John's father."

Newly elected president of the National Federation of Business and Professional Women is Mrs. Katherine Peden (at right) of Hopkinsville, Ky. She took office in Chicago this week at the organization's annual convention.

succeeding Fannie Hardy (at left) of Little Rock, Ark., who touched off a tempest at the convention by having Arkansas Gov. Orval Faubus address the group.

AP Photos

Business Women Convene

Urge Firm U. S. Stand

Three thousand delegates of Business and Professional Women's clubs from 50 states, the District of Columbia, Puerto Rico and the Virgin Islands convening in the Chicago called upon the government to "stand firm against further Communist aggression while reaffirming belief in our principles of liberty and justice upon which this nation was founded."

Representing Pontiac's Business and Professional Women at the four-day annual affair

were Vera Bassett and Mrs. Raymond L. Cole.

The convention theme "Focus on the Future" was sparked by a discussion panel Monday evening on "America's Goals in World Affairs." Panel members included United Nations correspondent P. A. L. Fredericks, Assistant Secretary of State for African Affairs G. Mennen Williams and president of the People-to-People Health

Foundation Dr. William B. Walsh.

FAUBUS SPEAKS
The election of officers, adoption of a budget and legislation and statement of position on pressing national and global affairs followed the opening session at which Gov. Orval Faubus of Arkansas was a principal speaker.

Honored by delegates from her state at a Michigan Breakfast Wednesday was Virginia Allen of Wyandotte, who was elected second vice president of the national organization.

At the formal banquet last night which climaxed the convention, Arthur H. Mottley, president of the Chamber of Commerce of the United States and publisher of "Parade" Magazine addressed the delegates. Entertainment was provided by the U.S. Navy Blue-jacket Choir.

Tenor, Pianist to Get Together for a Recital

Donald Wennsten, tenor, and Richard J. Meier, pianist, will present a combined recital at Grace Lutheran Church Tuesday at 8:15 p.m.

Songs in German, Swedish, Italian and English will be presented by Mr. Wennsten. Folk songs will include "Over the Mountains," Quilter; "Rolling Down to Rio," Edward German; "The Ash Grove," Benjamin Britten; and "The Song of the Open Road," Malotie.

Mr. Meier will play "Fugue in D Major," by Bach; the Brahms' "Rhapsody in G Minor;" two "Scherzi," Chopin; and "Reflections in the Water," by Debussy.

The public is invited to the program. Tickets may be purchased at the door.

Mr. Meier, former choral director at Waterford Township High School, will return to school as a piano major. Mr. Wennsten will study applied voice with Clifford Toren at Northwestern University School of Music in the fall.

Girl Stars for Boys' Ball Team

WAYLAND — Gail Hoffman, a freckled eighth grader, leads the Wayland midgeet league with a whopping .600 batting average.

And this 90-pounder, captain of the team, is a sure-handed second baseman who has made only four errors in 10 games. Some of the other youngsters are jealous of Gail's success and many of the opposing teams are clamoring to have the league's top hitter thrown out of the league.

You see, Gail is a girl — the only one in the league.

She was not placed on the Wayland state police-sponsored team as a gimmick. There are no concessions on either side for this perky blonde who enjoys such feminine activity as cooking, knitting and sewing.

"Gail is one of the best players in the league," says Recreation Director John Wild. "She can run, field, hit and throw almost as well as any boy her age in Wayland."

ENJOYS GAME

Gail, who has nearly a dozen extra base hits to her credit, took up baseball because "it seemed like fun."

"About two and a half years ago," she explained, "I was watching a gang of kids play baseball down in back of the school. They were having a lot of fun and I wasn't doing anything. So I said, 'Why not?'"

Wild believes he knows why the boys are upset.

"I suspect that the other teams don't mind playing against a girl — they just don't like getting beat by one," he said.

Gail figures she'll have to give up baseball after this season, since rules in most advanced leagues forbid female participation.

"I'd like to play baseball next year," said Gail, "but I'll probably have to join a girl's softball team. Anyway, my hitting isn't too good. I'm down to a .600 batting average now."

AP Photos

Only girl player in the Wayland midgeet league is blonde, freckled eighth-grader Gail Hoffman. A sure second baseman, she has a whopping

.600 batting average. Gail figures this is her last season in the game since advanced league rules forbid girls.

Women's Section

Stick -- or Return to City

Abby Says Take Definite Step

By ANIGAIL VAN BUREN
DEAR ABBY: When we bought this house in the country, the real estate dealer said it was a "fashionable suburban district."

The people next door to us must think they are living 100 miles from nowhere. Every morning, when the husband is running for the bus, his wife

yells after him what to bring home from the store. And at midnight their 6-year-old boy is still up playing with his guns.

I was criticized for keeping my screen door latched. I was told that people who live in the suburbs "trust" each other.

Yet I can't leave the milk money in the milk bottles because somebody always gets it before my milkman. Have you any advice for a disgusted suburbanite?

DISGUSTED

Warmth Unstylish? Not by a Fur Piece

PARIS (UPI) — Madame Jacques Revillon today displayed new fur styles designed to make women "feminine, fine and feline."

Double-fur coats, cozy and warm with "caskino" or pixie hoods and the "widest" look yet were offered by Revillon. There was even a mink jacket worked on the hips to match latest Paris fashion trends.

New campus and winter-sports styles were called "Revillon 20 ans" (Revillon 20 years).

While garments for juniors, made of cozy but modest pelts, ranged in price from \$100 up, some of the coats, combining two furs or made of rare and precious furs, were nearer the \$10,000 tag.

Revillon used printed pony skin for reversible three-quarter length jackets lined and bordered by shaggy, uncurled Mongolian lamb. The first pony-fur side was printed in a zebra or a giraffe pattern. They were shown with streamlined black velvet slacks.

FOR RESORTS

For winter resorts, Revillon's fur ponchos were equally exciting. Named "ruglies," these ponchos reversed from the shaggy deerskin lamb side to smooth squirrel fur. One oval "ruglie" reversed from white Mongolian lamb side to lemon-yellow squirrel fur.

On sporty fur jackets, "caskino hoods" could be unbuttoned to become wide deep sailor collars. Pointed pelt hoods topped fur-lined jackets.

A "tortoise panther" turned up worked into a jacket with its spots shaped like the pattern on tortoise shell.

Mme. Revillon also showed "glutton," a deep brown soft-sluring fur.

For women past 20, Revillon suggested fur to line fur. A Brezil outer coat was lined in blue fox. Nutria came with ivory-tinted half-sail as lining.

ing. A spotty jaguar coat was lined in black seal.

For women who remained faithful to mink, Revillon offered a black mink jacket "on the bias" with the pelts worked in diagonal lines and the buttonless front worn crossed over.

Revillon was the first of today's four scheduled showings. Chanel and Lanvin-Castillo were showing their wares in the afternoon.

DIOR SETS PACE

The house of Dior was the pace-setter of the Paris fashion style show Thursday with a new "charm" line which emphasized a slender silhouette with a tight-fitting bodice and a high narrow bosom.

The first show today was by Madame Revillon. The old and famous house of Revillon is known the world over for quality and workmanship of its furs.

"Coco" Chanel opened her Oriental-looking salons to show the latest version of the famed little "Chanel suit." Since all "best-dressed" women on earth own and wear Chanel styles, details on these practical garments were eagerly awaited.

Lanvin Castillo, best known for his perfume business, had some scintillating numbers ready for his showing. Ever since Barbara Hutton first bought an entire Lanvin Castillo collection to replenish her wardrobe, Lanvin clothes have become style-setters for millionaires and rich little girls.

A newcomer to the Paris fashion scene is Miguel Ferreras of New York, who has taken on the difficult task of trying to compete with French fashion designers by opening a salon in Paris and showing his version of the new look.

Girls and women now spending their holidays at the beach will have to start slenderizing so they can take advantage of the new Paris "charm" look during the next fashion season.

DEAR DISGUSTED: Tell your neighbors to keep the noise down. Pay your milkman by the month. Lock your door and enjoy the country — or else, move back to the city!

DEAR ABBY: Our daughter eloped hastily, and we have succeeded in getting her marriage annulled. The whole thing was a nightmare, and we do not care to talk about it. What should we tell people who ask for the details?

PARENTS IN A DILEMMA
DEAR PARENTS: Don't tell them anything. Your friends won't ask you, and your enemies won't believe you anyway.

DEAR ABBY: I have a little boy four years old. I've taught him to ask me when he wants candy, chewing gum, etc. (I have seen so many children go into the drawers and help themselves without asking permission.)

It has gotten so that my son now asks my permission for everything. Such as, "May I take off my sweater?" Or, "Should I ride my tricycle or play with my dump-truck?"

Do you think I have been too strict about insisting that he ask for my permission? Will my strictness cause him to be unable to decide anything for himself?

DEAR CONCERNED: You were wise to have trained your son to ask for permission for any "goodies." He wanted, but you should have told him WHY he must have your permission to eat sweets. When he seeks approval on a decision that is of no consequence, explain that he may do as he wishes. He'll soon learn what requires permission and what doesn't.

DEAR ABBY: What, exactly does it mean when a girl wears a boy's school ring on the third finger of her right hand?

DEAR INQUISITIVE: It means she has him wrapped around her finger.

CONFIDENTIAL TO RUTH: If the shoe fits, put it on. Take a long walk and think it over.

What's bothering you? For a personal reply, write to Abby, The Pontiac Press, Pontiac, Mich. Include a stamped, self-addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send 50 cents to Abby, The Pontiac Press, Pontiac, Mich.

Never Use Knife

Toware should be washed in hot soap or detergent suds, taking care to "dig" food and grease from all seams. For this purpose, use a stiff brush or a toothbrush — never a sharp knife.

Swiss Men Add Insult to Injury

BERN, Switzerland (UPI)—Swiss men, who take a dim view of the equality of woman and have steadfastly refused her political rights, recently added insult to injury by deciding that she should continue to receive less pay than a man doing the same work.

The all-male Upper Chamber of Parliament (Ständerat) refused, by 22 to 16 votes, to ratify Switzerland's adherence to International Labor Conference Agreement Number 100 which sets forth the principle of equal pay to men and women doing the same work.

The decision means that female workers in many industries will go on drawing only about 70 per cent of the wages paid to men in the same jobs.

The Lower Chamber of Parliament (Nationalrat) — also all-male — has approved the agreement already three times, trying to force the hand of the more conservative-minded Upper Chamber.

But the negative vote was the third time the Senate has said no — the probably marked the last time for many years that parliament will be asked for a decision on the matter.

IT'S CUSTOMARY

In industry, it has been a custom in most parts of the country to pay women less than men.

In politics, Swiss women had no rights whatsoever until last year when the French-speaking cantons of Vaud, Neuchâtel and Geneva gave them the right to vote and to be elected in cantonal elections.

Other cantons may follow soon. But a majority of Swiss voters still firmly believe that women should keep out of politics — and "stick to family, church and kitchen," as one slogan puts it.

Most observers agree that it will be many years before male voters are ready to grant females voting rights on a federal basis.

Like all other changes in the federal constitution, such a change would have to be approved by a majority of voters as well as cantons in a popular referendum.

Give Shower in Honor of Bride-Elect

Ann Louise Hamilton, bride-elect of Lawrence E. Ouliffe of Clarkston, was honored at a personal shower Thursday evening at the home of Sandra Sommerville of Sylvan Lake. Sharing hostess honors were Sophia Skinner and Julie Blank.

Mrs. Kenneth M. Hamilton of North Hillside Drive attended the party for her daughter with Mrs. Joseph Kosik, Kay Hamilton, Mrs. Virginia Sommerville, Mrs. Andrew Skinner, Mrs. Joseph Blank and Mrs. Harry King.

Completing the guest list were Gail Sedrick, Sharon Daniels, Judy Duncan, Gail Blum, Marie Hickey, Joyce Reynolds, Shirley Haase, Mrs. Thomas Reeling, Mrs. Thomas Bergman, Susan Sommerville, Rosemary Fellows and Lynne Benter.

What is more refreshing on a hot summer day than ice cream! Members of Job's Daughter Bethel 40 have invited the public to an old fashioned ice cream social Sunday between 3 and 7 p.m., at the Riviera Street home of Mrs. Eugene Perko, Nancy Neucomb

of Ogema Road (at right) dishes up a mouth-watering preview to members (from left) Sandy Triestich of East Yale Avenue and Barbara Flore of Elizabeth Lake Road.

High or mid heels and flats. Assorted colors.

Raising and lowering legs in this position is one of the abdominal exercises in Josephine Lowman's leaflet No. 2 which is free. Send a stamped, self-

addressed envelope with your request to Josephine Lowman in care of The Pontiac Press.

Don't Fear Exercise

Bulge Worries Youngster

By JOSEPHINE LOWMAN
 Q. "I am 12 years old, 5 feet 5. I want to get rid of my bulging tummy. Please print some exer-

cises for girls my age that will not make me taller."
 A. Exercise will not make you taller except that it can improve posture. A girl or a woman 5 feet 6 or 7 or more, who has beautiful posture, is much more attractive than one much shorter who slumps.

I have given abdominal exercises in this column fairly recently so if you or any of my readers would like to have some, send a stamped, self-addressed envelope with your request for leaflet No. 2, "Abdominal Exercises." Address me in care of The Pontiac Press.

HAIR ON ARMS
 Q. "In two weeks I am going to a teen dance and I will be wearing a semi-formal. This means that my arms will show. Could you write in your column a remedy for this terrible dark-hair I have on my arms?"

A. Remove it with a depilatory or shave it. I think the depilatory is better because the hairs are less stubby when they grow out again.

Q. "In magazines I read about a powder which can be mixed with water or milk and which will make you gain weight. Should I take

this? To help you a little, I am 5 feet 6 1/2 and weigh 120 pounds. I have a medium frame."
 A. I do not know to what powder you refer. There are powdered products on the market which have a good flavor and which are high in calorie count and nutrients. However, mix it with milk rather than water. Ask your doctor about it.

The simple procedure of drinking a glass of milk at midmorning and before going to sleep at night has added pounds to many would-be gainers.

Use whole milk and then add a little cream to your glass. You can also afford caloricwise, to add some chocolate syrup and a dash of vanilla.

Q. "I am 49 years old. I have a large frame and am 5 feet, 6 1/2 inches tall. I weigh 162 pounds. My measurements are: bust, 38 inches; waist, 31 1/2 inches, and hips, 40 inches. How much overweight am I and what should my measurements be? I hope you answer in print soon."

A. You should weigh about 145 pounds. Your bust and hip measurements are in good proportion. When you count calories, concentrate on waist slimming exercises.

Good Shoe Wardrobe Changes

NEW YORK (NEA)—Unmistakably, our notions about shoe fashions are changing. Black, brown and navy no longer make up an adequate shoe wardrobe. But it isn't just color that has changed.

Ideas about heel heights are shifting, too. Low and medium heels can go dancing these days. Rigid rules about leather have given way to more flexible ones. Reptile is the new evening; patent leather, once a spring lecher, is worn the year around.

BASIC COLORS

Colors once considered special have become wardrobe basics. The red shoe, for instance, is basic with many colors; black, navy, white, pink, gray, orange, beige, off-white, and the light, bright shades of brown are all basic; so is yellow.

This is a season when heels contrast in color with the rest of the shoe. As for height, the prettiest new heel is the two-inch Louis which curves way in, then flares out again.

The elongated toe trips in to another year but with this variation: some toes are slightly squared off as in an 18th century shoe. And in some shoes, this air is heightened by a flattened vamp to produce a very delicate, elegant look.

NEEDLE AT NIGHT

For evening, the needle toe is queen. This produces a shoe whose total effect is very slender and light and therefore, very feminine.

Color explodes in shoes just as in every other field of fashion. Clear reds, yellows, Monets blues and leaf greens are attention-getters. But so are the reptile shoes done in clear citrus colors and the fresh and subtle look of white patent combined with peanut shades.

About two-fifths of U. S. hospital beds are occupied by mental patients and the ratio is increasing.

Have You Tried This?

Tuna Noodle Casserole Assembled in Layers

By JANET ODELL
 Pontiac Press Home Editor

Friends who tasted this casserole at a recent cooperative luncheon of the Waterford Book Club were enthusiastic in their praise. It's a little variation from the same old tuna and noodles.

Mrs. F. L. Kinkie, today's cook, likes to crochet. She enjoys visits from her 4 grandchildren.

TUNA CASSEROLE
 By Mrs. F. L. Kinkie

1 can tuna
 1 can cream of mushroom soup
 1 package frozen peas
 1 egg cooked noodles
 1/2 cup cheddar cheese

Heat soup. Place noodles in bottom of greased casserole. Add layer of tuna, then peas, then heated undrained soup. Top with cornflakes. Bake 45-60 minutes at 350 degrees, or until top is brown. Serves 6.

Tight Lips Make Woman Look Grim

(NEA)—The woman of any age who looks grim and forbidding is the one who compresses her mouth into a thin line. Look at yourself in the mirror right now. Are you do-

ing this? If you are, it's time to call a halt. For thin, compressed lips can turn any woman from a beauty into a shrew. Try putting out your cheeks to counteract this habit. Just close your lips and blow. This causes up tension around your mouth and makes you feel like smiling. Try it!

But Owns No Stock

'She Runs Firm in Owosso'

OWOSSO (UPI)—"A woman's place is where she fits in best," according to Jacqueline Shaw, who fits in best in business.

Jackie Shaw is a pretty and poised 28-year-old businesswoman who rose from book-

keeper to vice president in three years at Kreuger Manufacturing Co., an Owosso firm which turns aluminum into camping trailers and window frames.

DOUBLES AS MODEL

She doubled as a model and occasionally travels about with a camping trailer on promotion trips. She made one such trip to Walton Lake for the summer meeting of the Michigan Outdoor Writers Association.

Jackie makes a most favorable impression. But her real impact on the Kreuger operation is at the office and the plant.

"Frankly," said Kreuger President John Ivanovich, "she runs the place."

She started with the firm five years ago as a bookkeeper, a talent she picked up at Flint Junior College. Within three years she was vice president of a company which has about 40 employees and last year had sales of about 1.2 million.

OWNS NO STOCK

Jackie, who owns no stock in the company, said her work gives her "a feeling of accomplishment."

She's a booster of Michigan as a place to live, work and play.

She sees a good future for Michigan's tourist industry and for the camping trailer business.

"Camping is a great way to get away from it all," she said.

But Jackie apparently has no urge to get away from her work. She's not the outdoorsy type. As of early summer, she had not been camping.

A photographer taking a picture of Jackie and her product in a wooded resort area suggested slacks might be more appropriate than the chic black dress she was wearing.

"I didn't bring any," she said.

Jackie Shaw believes a woman's place is where she fits in best. For her, it's an office in Owosso.

Women's Unit Meets at Home

The Junior Women's Aide Society of Oakland County's July meeting was at the home of Mrs. Olen R. Oates on Nancywood Drive.

Arrangements were completed for the presentation of clocks, purchased by the club, to the Oakland County Medical Care Facility which will benefit from the group's future projects.

Plans for the third annual rummage sale Aug. 25 and 26 at the Baldwin Rubber Union Hall on West Pike Street are under way. Mrs. Robert Watros was a guest at the Tuesday meeting. Cohostess was Mrs. Charles Abair.

Permissiveness Becomes Laziness

By MRS. MURIEL LAWRENCE
Newspaper Enterprise Assn.

Dear Mrs. Lawrence:
You like modern kids so much I wish you had mine. The this, last fall I bought my 14-year-old girl a winter coat. She chose it. Nothing would do but that she should have an off-white, fuzzy number she found on a rack. I warned her that it would shed and soil easily.

No, she had to have it. Now I'm told that she'll die before she wears it again next winter. As a kid myself, I wore a winter coat three years.

ANSWER: But your mother didn't just stand around while

you chose one she knew wouldn't wear for three years.

Why did you permit this purchase?
Now I am going to tell you what I would do in your place. I would face my own irresponsibility in allowing my daughter to make a decision she hadn't the experience to make. I would accept the consequences of that irresponsibility.

I'D DECIDE
Instead of trying to force her to wear this coat next winter, of fussing at her mistaken choice, I would agree to buy her a new one—and this time claim the decision on its practicality.

We teach responsibility to children by demonstrating it.

Many of us don't. We let Johnny order a rich ice cream sundae—and then say "I told you so" when he gets sick in the bus going home. We let him evade his homework—and then blow up when he brings home a falling mark.

We let a daughter buy a coat that we know is impractical—and then accuse her of extravagance when she comes around to agree with what we know.

What is it but irresponsibility in us that stands by when bad decisions are made—and then goes all virtuous and indignant when we are involved in the bad results?

"Permissiveness"—that starchy-eyed doctrine of child training—has

provided American parents with a lovely lazy holiday from responsibility. It's got us off the hook of caring about what happens, of the hard job of judging a child's capacities for ourselves, of incurring disagreeable resentments at a firm and lonely "No." It's time the vacation was over.

Because children can be given too many decisions. They can be allowed to make so many bad ones that they become afraid of decision.

In adolescence and early adulthood, they can start running away from responsibility that has been made too punishing, too humiliating by over-responsible childhoods.

Grandma Gets Diploma; She's Now Auctioneer

WASHINGTON, Kan. (UPI)—Mrs. Nell McLeod, 51, and a grandmother of three, is believed to be the first woman in Kansas' 100 years to become an auctioneer.

"You can hear her for a full mile," said her husband after his wife was graduated from auctioneer school. A former telephone operator, she was the only woman in a class of 17.

Mrs. McLeod also is a hog caller, and has called on the family farm for 18 years. She practices her auctioneer chants two hours every day without fail, she said. Auctions fascinated her and she has attended between 400 and 500 since she moved from her native Texas to Kansas 18 years ago.

Her one aim: to bring to auctioneering chants which the audience can understand.

Musical Reducing Plan

INTERLOCHEN (UPI)—The director of the National Music Camp—Dr. Joseph Maddy—offered today a new and unique way for weight-reducing Americans to reduce.

Maddy recommended the playing of the string bass as a musical way to scale down.

Why the string bass?
Because, the man who founded the camp 34 years ago said, the calisthenics involved a re good for the waistline. And, in addition, juggling the brush in instrument around all the time will chop off a few more pounds.

Maddy's advice came as the result of a survey taken at the camp to see if the diets of the faculty and 1,600 students were different than most because of their musical involvement.

One speedily debunked proposition was that a musician's aesthetic

interests hold him back at the feeding board.

"They eat like lumberjacks," said Mrs. Mmerva Turner, who with her husband Wendell, has fed the campers every day for the past 15 summers.

Another fact pointed out by the Turners was that the size of the instrument has little to do with the size of the appetite.

"It's definitely a fallacy that tuba players have the biggest appetites," Mrs. Turner said. "Obesity, flutists and fiddle players eat just as much, if not more."

LAUGH OFF GOOF
The faculty in general concurred that brass players are the most relaxed musicians while wind and string players tend to the tense and nervous side.

Said one faculty member, "A horn player who makes a goof with Toscanini can laugh it off, but a violinist broods about it."

What about conductors?
Paul Paray, conductor of the Detroit Symphony Orchestra, is rumored to have a peculiar regime of dining only once a day—at midnight on steaks and salads.

But Maynard Kleis, professor of choral music at the University of Michigan and conductor of Interlochen's 400-voice festival choir, said a conductor's appetite depends upon whether he's an eggbeater or cake-hipster type.

"The cake-hipster, who swings his baton airily, expends less physical energy than the eggbeater conductor who goes at it like a prizefighter," Kleis said.

Kleis classifies himself as an eggbeater type, explaining, "The domeback of a tremendous crescendo attack should have as much physical impact as a knockout blow in the ring. This makes a man hungry and it also explains his biliousness—not willowy—waistline."

Almost 90 per cent of all forest fires are man-made.

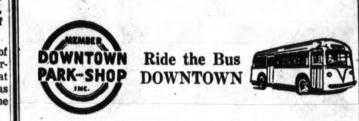

Long on fashion in fall jewelry is the jewel that's long in length. This three-strander (at left) by Laguna is iridescent crystal and pearl with matching chandelier earrings and coil brace-

let. The high mounded circle pin of crystals (at right) gives a sparkling look to a suit. A smaller matching pin and button earrings complete the jewel ensemble.

Smart and Different

our diamond engagement and wedding ring set for the bride-to-be who like to be different. When worn together, they give the effect of a beautifully brilliant fancy ring—yet all the sentiment of one of life's most important occasions is retained.

BUSES DO A THOROUGH JOB — This map shows how Pontiac Transit Corp. buses spread out over the city, bringing 90 per cent of the city's homes within a quarter-mile of a bus line. Prepared by the bus company, the map shows the city of Pontiac and environs, with bus lines indicated by heavy black lines. Nonshaded areas are within a quarter-mile of a bus line. Shaded areas are more than a quarter-mile away from buses, but in many of these areas there are few if any homes.

ated by heavy black lines. Nonshaded areas are within a quarter-mile of a bus line. Shaded areas are more than a quarter-mile away from buses, but in many of these areas there are few if any homes.

No Profit Yet This Year

Slump in Bus Usage Puzzles Transit Firm

Pontiac's not the best town for bus companies.

Slumping patronage and service cutbacks demonstrated this in the late 1950s.

The long bus strike of 1959-1960 drove the point home.

The city was busless after Pontiac City Lines, Inc., pulled out during the strike.

When Pontiac Transit Corp. came to town 13 months ago, nobody thought the road to success would be easy. It was acknowledged that building up patronage would be a hard job for a new bus company.

It came almost as a pleasant surprise that patronage built up quickly, from 62,570 during July 1960, the first full month of operation, to 75,974 in October.

Patronage was still 74,906 in November and reached 76,485 in December.

LOOKED GOOD

"Things looked good," says Neil B. Pilson, general manager for Pontiac Transit.

"We were averaging around 17,500 passengers a week and figured we needed at least that to make money."

"We anticipated January and February would be slack months but thought things would bounce back in the spring."

The company was only half right. January and February were slack. But there was no bounce back.

"Right now," said Pilson, "we've been averaging around 16,000 passengers a week since the first of the year."

"In other words, we haven't made any money so far this year and won't if we don't see an upsurge in patronage between now and December."

Patronage in January was 76,618, February 63,761, March 72,546, April 64,317, May 71,091 and June 69,339.

Pilson figures nearly 76,000 a month is needed to reach the 17,500-a-week mark.

Pontiac Transit Corp.'s fiscal year is July 1 through June 30. Final figures for the fiscal year just completed aren't available as yet, said Pilson.

TO KEEP TRYING

From June 9 of last year, when Pontiac Transit buses first rolled through Dec. 31, the company realized \$109,000 in operating income over expenses, Pilson said.

What will the company do if no money comes in this year?

Pilson says it's his company's policy to dodge answering questions like that directly.

"We don't like to sound ominous or make threats," he said.

"We'll just go along trying to increase patronage, trying to work things out. But, of course, there'll have to be a reckoning some day."

Meanwhile, Pilson says he remains puzzled over lack of patronage. Citing statistics from the American Transit Association, Pilson says patronage should hit 20,000 a week in a city the size of Pontiac.

According to figures from the association, the average urban

transit system in the United States hauls between one and two times as many passengers a month as the population it serves.

In Pontiac, though, monthly patronage figures have never topped December's mark of 76,485, although the population was 82,233 in last year's census.

Economic conditions might be a factor in this year's doldrums, Pilson agrees. But he thinks Pontiac Transit's record of good service should outweigh this.

The company has provided new GMC buses and its routes put 98 per cent of the city's homes within a quarter-mile of a bus to downtown, he says.

"In these two respects, Pontiac has an excellent bus system, much better probably than it normally would have as a city with a poorer-than-average record for patronage."

The third important factor in service—more frequent buses—would readily become a reality if patronage justified it, Pilson said.

Townsend graduated from the University of Michigan in 1940, worked as an accountant briefly before entering the Navy for a World War II hitch as a disbursing officer aboard an aircraft carrier in the Pacific, and after the war joined the accounting firm that audited Chrysler's books.

Townsend was married in 1948 to a college classmate, the former Ruth Laing. They live in a \$40,000 home at 2991 Orchard Road, Bloomfield Hills, with three sons, James, Charles and Richard, and pet poodle named Beau Chien.

Townsend likes to water ski, belongs to an exclusive country club but does not golf because it would take him away from home on weekends, and likes to read ancient history.

The problem was simple, says Townsend. The corporation was operating on the basis of getting

A Clarkson man has been named aquatic director for the Pontiac YMCA Family Camp scheduled for the Labor Day weekend at Camp Mahn-Go-Tah-See.

He is Don Masto, 37, of 6940 Laurenton St., a Michigan Bell Telephone Co. employee. He has been a "Y" swimming and scuba instructor for two years, and is the father of two children.

Family camp dates are Aug. 31-Sept. 4. All meals are prepared, with each family assigned a cabin. Further information may be obtained at the "Y," 131 Mt. Clemens St.

The camp is on Loon Lake near Hale.

Syrian Sirens Warn of Israeli 'Raid Planes'

DAMASCUS, Syria (AP)—Air raid sirens wailed at Damascus was blacked out Thursday night for what the army said was an attempted raid by two Israeli planes.

The army said the planes were forced back by antiaircraft fire. It was the first time air raid sirens had sounded in Damascus since the Suez fighting in 1956.

Memories of present and past feuds over municipal parking lots were awakened last night when the City Commission heard that Stolorow wants permission to park his home in downtown Pontiac, wants the city to do him a favor.

According to a letter to the commission from Elmer R. Johnson, Waterford Township supervisor, Stolorow wants permission to park his home in downtown Pontiac, wants the city to do him a favor.

Stolorow's home at 422 Shore View Drive, Waterford Township, is only a stone's throw outside the boundaries of the Pontiac service area. Only the City Commission can add to the service area.

Johnson said that the soil in the area of Stolorow's home has already ruled that the city's doing business so inadequate for septic nothing wrong.

At present, the city's methods of financing new parking lots is being challenged in behalf of Stolorow in the State Supreme Court. Oakland County Circuit Court has already ruled that the city's doing

business so inadequate for septic nothing wrong.

At present, the city's methods of financing new parking lots is being challenged in behalf of Stolorow in the State Supreme Court. Oakland County Circuit Court has already ruled that the city's doing

Owner of Store Gets Sentence

Ignored Food Inspector by Selling Brine That Was High in Bacteria

The owner of a Pontiac health foods store Thursday was sentenced to two days in the Oakland County Jail for selling a seasoning product against orders of a State Department of Agriculture food inspector.

Municipal Judge Cecil McCallum imposed the sentence on Champ W. Hoenstine, 50, owner of the Vital Health Foods Store, 690 W. Huron St.

He had pleaded guilty earlier to hindering a food inspector by selling a product he was ordered to keep in his custody.

James McCollum, county food inspector, said he had ordered sales of "Sea Brine," a seasoning produced by Florida Sea Brine Laboratories, Inc., halted in May after laboratory analysis showed too high a content of bacteria.

Since then, he charged, Hoenstine pasted new labels on the product and sold 50 more bottles of the product.

Leader Proves to Girls He's a Good Scout

AKRON, Ohio (U) — To 18 young women in Akron, 42-year-old Fred B. Ressler stands as an example of a real good scout.

Ressler became head of Girl Scout Troop 387 when it appeared that the Litchfield Junior High School troop would disband for lack of adult leadership.

His oldest daughter is a member of the troop, and Ressler's wife, with a brand new son — wasn't able to become troop leader immediately.

The Akron father is assisted by Mrs. Thomas E. McQuay. He admits he sometimes is kidded about his work with the troop, but adds: "As long as I can believe in myself accomplishing a purpose . . . knowing these girls will be better citizens . . . let them laugh."

EMU - SING FACE — A wild pony tail-type hairdo was styled by mother nature for this emu chick at the zoo in London, England.

Driver Pays \$100 Fine

Izer Hawkins, 43, of 272 Elm St., yesterday was fined \$100 after being found guilty of drunken driving before Municipal Judge Cecil McCallum.

Get Borrowing Okay

ORTONVILLE — The Brandon Community School District has received authority from the State Department of Public Instruction to borrow \$100,000 against 1961-62 state aid.

New Chrysler Head Cut Millions in Costs

By United Press International

Lynn Alfred Townsend, the lanky 42-year-old new president of Chrysler Corp., is a former accountant who swings a big axe when it comes to cutting costs.

Townsend came to Chrysler as comptroller only in 1957 but by last December he had risen to administrative vice president and in just eight months since then he has lopped millions of dollars from Chrysler's costs.

The problem was simple, says Townsend. The corporation was operating on the basis of getting

A Clarkson man has been named aquatic director for the Pontiac YMCA Family Camp scheduled for the Labor Day weekend at Camp Mahn-Go-Tah-See.

He is Don Masto, 37, of 6940 Laurenton St., a Michigan Bell Telephone Co. employee. He has been a "Y" swimming and scuba instructor for two years, and is the father of two children.

Syrian Sirens Warn of Israeli 'Raid Planes'

DAMASCUS, Syria (AP)—Air raid sirens wailed at Damascus was blacked out Thursday night for what the army said was an attempted raid by two Israeli planes.

The army said the planes were forced back by antiaircraft fire. It was the first time air raid sirens had sounded in Damascus since the Suez fighting in 1956.

Memories of present and past feuds over municipal parking lots were awakened last night when the City Commission heard that Stolorow wants permission to park his home in downtown Pontiac, wants the city to do him a favor.

According to a letter to the commission from Elmer R. Johnson, Waterford Township supervisor, Stolorow wants permission to park his home in downtown Pontiac, wants the city to do him a favor.

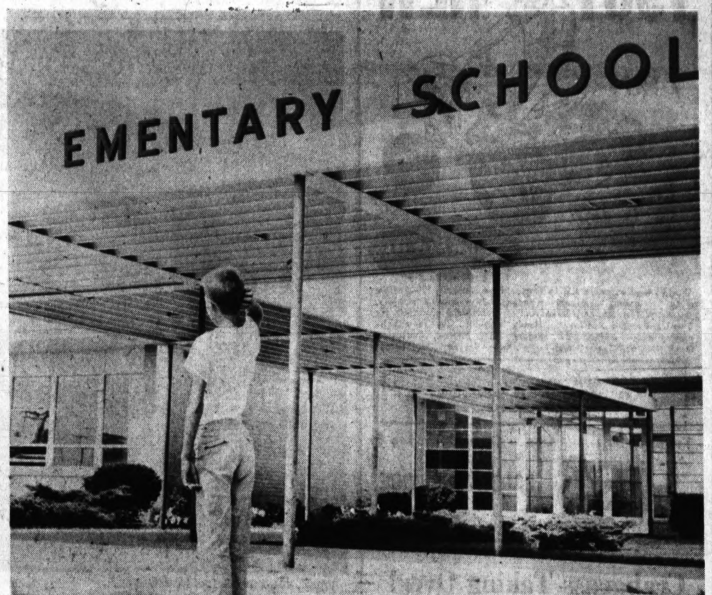

Stolorow's home at 422 Shore View Drive, Waterford Township, is only a stone's throw outside the boundaries of the Pontiac service area. Only the City Commission can add to the service area.

Johnson said that the soil in the area of Stolorow's home has already ruled that the city's doing business so inadequate for septic nothing wrong.

At present, the city's methods of financing new parking lots is being challenged in behalf of Stolorow in the State Supreme Court. Oakland County Circuit Court has already ruled that the city's doing

business so inadequate for septic nothing wrong.

At present, the city's methods of financing new parking lots is being challenged in behalf of Stolorow in the State Supreme Court. Oakland County Circuit Court has already ruled that the city's doing

SOMETHING MISSING—There's more missing from Herrington Elementary School this summer than pupils. Recently, vandals knocked the "EL" out of Elementary on a deck at the school. The whole thing is a little confusing to Kenneth Jahneke, 11, of

1246 Maurer St., who stops to wonder if his spelling has become a little rusty since classes let out in June. School maintenance men have the missing letters and promise they'll be back in place before classes resume in September.

Hurricane Toll Listed

TEGUCIGALPA, Honduras (UPI)—At least 300 houses were destroyed and one death was caused by Hurricane Anna when it ripped through Northwest Honduras earlier this week, it was reported Thursday.

FOR SUMMER PARTIES—A festive centerpiece for summertime celebrations. Use 2 empty tin cans of same diameter—place one on top of the other and secure with masking tape or floral clay. Cover both cans with a

sheet of red paper and fill the top can with 2 saturated Oasis foam flower holders. Insert geranium leaves. Complete the arrangement with a large red candle for atmosphere.

Chlordane Helps Battle of Insects and Crabgrass

Gardeners are caught between two foes—insects and crabgrass. Chlordane, acting with equal efficiency as an insecticide and a herbicide, provides a powerful one-two punch in the pest control fight.

This versatile garden chemical will knock out an especially wide range of insects which attack lawn grasses, shrubs, and ornamentals. It doubles as a crabgrass weed killer when used just before crabgrass seedlings emerge.

Chlordane is one of the newest insecticides. Available in six percent ready-to-use dust, or 72 percent liquid to be diluted with water, it kills insects after they touch it or eat it. This means fast, efficient kill when the material is applied. Then its residual effect provides long-lasting protection against future infestation.

Lawn pests controlled by chlordane are the familiar insects like the common ant, chiggers which burrow under human skin, white grubs that feed on grass roots, slight prowling earwigs which invade homes and gardens, chinch bugs which suck juices from plants and grasses, sod webworms or lawn moths feeding on tender grass shoots, and mole crickets whose burrows often corrugate lawns.

Household pests for which the six percent chlordane dust is recommended include such menaces as crickets, fleas, roaches, scorpions, ticks, and destructive subterranean termites.

Advantages of chlordane include its wide-range killing power and residual activity in the soil for long periods of time. Chlordane is easy to apply and will not damage plants when used as directed.

Nurserymen, Gardeners Attend MSU Conference

EAST LANSING—The construction and use of fences, walls and patios in home landscapes was a major topic for discussion at the 15th annual Nursery and Landscape Conference July 25-26 at Michigan State University.

Also highlighted at the two-day conference were reports and recommendations from the Michigan State research laboratories. Such topics as Bent in Blue Grass Lawns, Plants in Packages, Annuals for Shade and Azaleas and Hardy Shrubs for Michigan were on the agenda. In addition to the nursery and landscape hints, the program also featured sessions related to investment and insurance, business management and promotion and the use of the telephone in marketing.

More than 150 nursery and garden store owners and operators and commercial landscapers participated in the conference at MSU's Kellogg Center for Continuing Education.

Sponsoring the event was the MSU Department of Horticulture, in cooperation with the Michigan Association of Nurserymen.

Wedding Gift

To keep floral memories of the wedding day alive in the hearts and homes of newlyweds, starter gifts of indoor or outdoor planters, hanging baskets or window boxes with living plants in clay pots are grand homecoming gifts for bridal couples. More than half of this year's brides and grooms will move into unfurnished residences and a starter gift of clay-potted plants will make a welcome and long-lasting addition to their first homes.

If cut worms are around and endangering the tender stalks of seedlings, a tar-paper collar, an inch in the soil, will protect them. More than 40,000 board feet of lumber can be saved from one Douglas fir tree in California.

IMPORTANT NEW BENEFITS

for owners of U.S. Savings Bonds bought before June, 1949

A new Treasury ruling gives your E Bonds an extra ten year earning privilege at the highest interest rate they've ever paid...

3 3/4%

New action by the Treasury now makes it profitable for you to hold on to your old Bonds ten more years. Under the new plan, a \$100 Bond that cost you only \$75 back in the 40's now keeps right on growing to return you as much as \$204.60!

Actually, the plan got its start ten years ago, when the first Series E Savings Bonds began to mature. At that time, the Treasury acted to keep them earning. This new Treasury ruling extends the earning period of these first Bonds again—but at 3.75% interest for every additional year you hold them.

Just hold on to your Bonds—Of course, you won't find the increased values actually printed on the Bonds. But the full 3.75% interest rate and the new ten year earning privilege go to work for you just the same. All you do is hold on to your Bonds. And here's what happens:

Growing values of 2 typical \$100 U.S. Savings Bonds

	Bought in May, 1941	Bought in May, 1949
Cost at purchase.....	\$75.00	\$75.00
Original maturity.....	\$100.00 (May, 1951)	\$100.00 (May, 1959)
End of first extended earning period.....	\$134.52 (May, 1961)	\$141.12 (May, 1969)
END OF NEW EARNING PERIOD.....	\$195.04 (May, 1971)	\$204.60 (May, 1979)

Old or new, they're guaranteed—U.S. Savings Bonds are always good investments because Uncle Sam guarantees them to grow in value. They're safe, too: even if you lose a Bond you don't lose your money, since the government keeps a record of it in your name. And you can get your money—with interest—any time you like.

A good way to get your Bonds is through the Payroll Savings Plan. You just sign a card and your company does the book-keeping, buys your Bonds and delivers them to you.

Remember—every Bond you buy, like every Bond you hold, is a share in a stronger America. Why not start today?

You save more than money with

For 50 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and this newspaper for their patriotic support.

Reich Seems Out of Reach

Teacher Eyed Europe but AF Talked Turkey and Tokyo—So . . .

INDEPENDENCE TOWNSHIP—A young schoolteacher's wish to visit Europe still is unfulfilled, but she has followed detours which have led her thousands of miles around the world.

By next summer Marilyn Taylor, 25, of 8781 Pine Knob Road, will have seen several countries in the Eastern Hemisphere.

She spent the past school year teaching in Japan, and while there she made side trips to such exotic spots as Singapore, The Philippines, Bangkok and Hong Kong.

Marilyn had hoped to be sent to Germany when she applied to the Air Force for an overseas teaching job in December 1959.

TOKYO INSTEAD—However, she was sent to metropolitan Tokyo last fall where she taught the children of American servicemen and embassy officials.

The Japanese teaching assignment wasn't her original choice but Marilyn said today she enjoyed being able to visit the Orient.

"It was a different kind of challenge—one that I'd never experienced before," said Marilyn of her work in Japan.

However, still intent on visiting Europe, specifically Germany, she applied again this year to teach overseas.

Her assignment this year: Turkey.

Marilyn will leave in about two weeks for McGuire AFB, N. J., on the first leg of her journey to Turkey. She will travel by car to New Jersey with her parents Mr. and Mrs. Howard Taylor.

A former first and second grade teacher in the Rochester Community School District, Marilyn was graduated with a degree in education from Michigan State University in 1952.

She will relate some of her experiences in Japan at 8 p.m. Monday at a dinner at the Seymour Lake Methodist Church.

While in Turkey she plans to visit the Holy Land, but doesn't expect to be able to get as far as Germany.

"My goal when I started out was to visit Europe," she said. "But I'm becoming quite a globetrotter." Does she expect she will ever reach her original destination? "Well, maybe next year," she replied.

Would Test Con-Con \$110,000 for Space

LANSING (AP)—The governing body of the Constitutional Convention Commission was told today it probably will cost \$110,000 to rent part of Lansing's Civic Center for the forthcoming convention.

The commission, which is trying to smooth the way in advance, learned that Civic Center directors recommended the \$110,000 figure for use of the small auditorium and several other rooms for a nine-month period.

Delegates to the convention have the final word on where they will hold their meetings to rewrite or revise the state basic law. But they are expected to go along with most of the commission's recommendations.

Area Couple Is Wed

Honeymoon in Manhattan

WHITE LAKE TOWNSHIP—Honeymooning in New York City following their recent exchange of vows at St. Mary Catholic Church, Milford, are newlyweds Mr. and Mrs. Gerard M. Van Rossum.

Officiating at the Nuptial Mass was Rev. John Galvin.

The bride, the former Bonnie J. Becker, is the daughter of Mr. and Mrs. Arlie C. Becker of 6375 Jackson Blvd.

The bride wore a floor-length gown of silk organza over tulle for the nuptial ceremony. It featured a fitted bodice, a basque waistline, short cap lace sleeves and a lavishly neckline trimmed with gauze d'ange lace and seed pearls.

WHITE ROSES—A crown encrusted with seed pearls and silk flowers held her veil of illusion. The bride wore a cascade arrangement of white roses on a white tulle.

"Mrs. William Phillip of Milford Township, a sister of the bridegroom, was matron of honor. Sisters of the bride, Mrs. Donald Colcher and Patricia Ann Becker, served as bridesmaids with another of the bridegroom's sisters, Christine Van Rossum of Milford Township.

Best man for his cousin was Edward Van Rossum of Detroit. The guests were seated by usher Gerald Osborn, Ronald McCormick and William Huffman, all of Milford.

A reception was held at the home of the bride's parents following the ceremony. The couple will reside in Hollywood, Fla.

MADE IN FRANCE—Dominating feature of the chapel in the new First Congregational Church, Rochester, is this stained glass window, which was designed in Detroit and executed in France. It is based on the theme of the Good Shepherd.

NEWS OF THE AREA

Ortonville Teen in Israel for Boy Scout Jamboree

ORTONVILLE—A 17-year-old Ortonville boy scout is a member of a delegation of 97 American Boy Scouts, explorers and leaders who will represent the nation at the Israeli National Scout Jamboree next Monday through Friday.

Life Scout Charles L. Stewart of 556 Allen St. was in the group that departed by air Monday from New York City for Mount Carmel, outside Jerusalem, where the jamboree will be held.

He is the son of Mr. and Mrs. Charles M. Stewart and a senior at Lakeville High School in Lakeview County.

A member of Ortonville Troop 133, Charles also is assistant scoutmaster under his father who directs the activities of the troop.

The scouts attending the jamboree range in age from 11 to 18 years of age and come from 25 states. The group, which represents very religious faith, completed three days of pre-jamboree training in Mendham, N. J., prior to departure.

ACCOMPANY GROUP—Three staff members of the National Council, Boy Scouts of America, are accompanying the group.

In commenting on the jamboree, Joseph A. Brunton, chief scout executive, said, "This will be a fine opportunity to develop friendship with scouts of other lands."

"It will give greater meaning to the fact that scouting is indeed a world brotherhood," he asserted.

For several days before and after the jamboree, which is celebrating the 13th anniversary of the State of Israel, the group will tour the Biblical landmarks in the area.

The delegates from America then will spend 13 days visiting Athens, Rome, Paris and London before flying back Aug. 24.

City Manager May Be Picked

WALLED LAKE—The selection of a city manager may be made by the City Council here Tuesday, Mayor Marshall Taylor said today.

Fourteen applicants have been screened and seven of them have shown the qualifications for the \$6,500-\$7,000 position, according to Taylor.

The names of those seeking the job have been withheld by the council, however, since most of the applicants are holding positions in other communities.

"The consensus of the council is that someone young but with experience should be hired," said the mayor.

The council is seeking a successor to George A. Shaw who resigned this month to take over the managerial duties in Three Rivers.

Until a replacement is named, City Clerk-Treasurer Harold Milspough is acting as manager.

Al Blaylock of Alberta Is Charlevoix Nominee

CHARLEVOIX—Allen Blaylock of Alberta is the Democratic nominee from the Charlevoix District to the constitutional convention after all.

Following an official canvass of the four-county district, Blaylock was declared the winner, 480 votes to 486 for Robert Garthe of Empire. Unofficial returns gave Garthe the nod, for two votes.

To Join Celebration

Blue and Grey Units to Invade Davisburg

DAVISBURG—Twenty units of soldiers wearing the blue and grey of 100 years ago will "invade" this community next month.

The maneuver will be part of the 125th anniversary celebration of the unincorporated village in Springfield Township.

The units, 14 Northern and 4 Southern, of eight men each are members of the Inter-Regional North-South Skirmish Association, who do "battle" against one another in shooting contests.

The skirmish is being sponsored by 8th Michigan Cavalry Civil War Unit with headquarters in Troy and the Davisburg Area Junior Chamber of Commerce.

Most of the 160 soldiers will arrive the evening of Aug. 18 and will camp out on the grounds of the Davisburg Park.

Individual shooting competition will be held the following day, the first day of 125th observance, and a Blue-Grey Ball will be held in the evening.

OLD VEHICLE PARADE—At noon a parade of antique vehicles and colorful floats will pass through the village heralding the festivities.

On Sunday the skirmish units will participate in rifle and cannon matches. Six contests are scheduled for the combined units.

The shooting events include clay pigeons at 50 yards; swing-lead canisters at 50 yards; and 16-inch dinner plates at 100 yards.

Marksmanship will also be tested on balloons at 50 yards and the splitting of 2-by-6-inch stakes from the same distance.

The ancient ramming gun of the period will be used in each event.

DAY'S BIG EVENT—The big event of the day will be the test of accuracy of replicas of Civil War cannons. Each unit will fire 10 rounds at a 12-inch bullseye from 100 yards.

Preceding the Aug. 19-20 weekend activities which include an ox roast and beard growing contest will be a coronation dance Aug. 12. It will feature the selection of Miss Davisburg, who will reign over the observance.

Five finalists for the title of queen have already been chosen. They are Carolyn Bumpas, Mary Ann and Barbara Redburn, Fay Vollett and Mary Ellen Land.

One of the finalists, Cheryl Walls, had to drop out of the queen competition because she will be attending the National Music Camp at Interlochen during the celebration.

The three judges then selected Miss Land to fill the vacancy.

The queen will be selected on the basis of penny votes. She will be named at the 8 p.m. dance at the township hall by Joyce President Marian Hillman.

The queen contest is sponsored by the Women's Auxiliary of the local Jaycees.

WOMAN FILES SUIT IN RAILROAD DEATHS—BAY CITY (AP)—Charging that a New York Central railroad train did not sound a warning and was traveling too fast, a Bay City woman has filed a \$750,000 damage suit against the railroad in the car-train deaths of her husband and two children.

Stanley Matuzewski, his daughter Arline, 13, and son Thomas, 8, were killed Aug. 1, 1958, in a collision at an Ardenue crossing.

Mrs. Clara Matuzewski, who filed the suit Thursday in U.S. District Court here, asked \$250,000 each for her husband and two children.

Clyde School Reunion—CLYDE—The 36th annual Clyde School Reunion will take place tomorrow on the school grounds. A potluck dinner will be served at noon, and persons attending are asked to bring their own table service.

Striking Window Graces Chapel—ROCHESTER—When parishioners of the First Congregational Church here attend the first services in their new church Sunday, many of them will get their first look at a colorful artistic achievement.

It is the large stained glass window which is the focal point of the chapel and is based on the theme of the Good Shepherd.

Over 15 feet high and eight feet wide, it was designed by Robert Rother Studio, Detroit. The actual work was done by Jacques Le Chevalier, dean of the School for Religious Art in Paris, France.

Le Chevalier won first prize for stained glass at the 1950 Brussels World's Fair and a similar award in Milan, Italy, the year before.

Of particular interest is the way the artist designed the window so that the top panes are directed, like rays of the sun toward the Savior.

Forty different colors were used with brilliant blue dominating and red employed only once—for Christ's robe.

Complementing the main window which is at the east end of the chapel are the side chapel windows which depict Galilean landscapes.

The new church is at 1315 N. Pine St., between Winzies and Glendale streets. First services were held at 9:30 and 11 a.m. Sunday.

Michigan Guard Could Be Ready in 60-90 Days

LANSING (UPI)—The Michigan National Guard could be ready to go to war after 60 to 90 days of training, Maj. Gen. Ronald McDonald, the adjutant general of Michigan, said yesterday.

"That's if we were called on emergency status," he said. "If we had more time, we could, of course, train down to a finer edge of sharpness."

McDonald said the annual two-week training camp for the guard at Camp Grayling, completed this year July 23, put Michigan units in good shape as far as platoon-level training is concerned.

"The Army inspection team that was up there said we are ready for company and unit training," the Michigan military boss said.

"Our field training was very successful this year and I like to think that at least part of the reason for this is that the people National Guard are doing more complicated jobs in civilian life than those in many other state guard units," he said.

Overrule Mayor of Southfield

Councilmen Block Move to Oust Eastlick From Assessor Capacity

SOUTHFIELD—Gerald Eastlick, former city assessor, is still on the payroll despite the protests of Mayor S. James Clarkson.

City councilmen have overruled Clarkson's veto of their move that returned Eastlick after he had been fired by the mayor.

Clarkson fired Eastlick in June because they couldn't agree on assessment practices and later appointed Myron Greenfield, a realtor, to the post.

The council, however, refused to confirm the mayor's choice for the job and appointed Eastlick an assessing consultant at a monthly fee of \$800.

Council President C. Hugh Dobary said today that because of certain charges made by Clarkson regarding "malfunction in the assessing department" he will appoint a citizens committee to review the city's assessing procedures.

A special joint meeting will be held Tuesday evening by the council and a highway consulting firm to discuss expressways.

Southfield, Dobary said, has many miles of expressway than any city in Michigan with the exception of Detroit.

He explained that unless plans of future expressways are discussed now there is a danger that the city could become landlocked.

Some State Farmers to Get More for Milk—DETROIT (AP)—Some Michigan farmers will get 25 cents more per hundred pounds of milk starting Aug. 1.

The Michigan Milk Producers Association and about 60 dairies in Southeastern Michigan agreed Thursday on the price change. Major dairies said no definite price increase to consumers has been decided upon.

Wool Estimate—WASHINGTON (AP)—Production of wool in Michigan will be about 2,700,000 pounds, the Agriculture Department estimates.

Strike Enters Second Day

No Milk for Chicagoans Again

CHICAGO (AP)—Prospects of another milkless day loomed for Chicago area parents today but it sweetened many of their children.

"I never realized how the power to paralyze a city and disrupt our routine is centered in so few hands," commented Judy McGregor of suburban Hazel Crest. As she spoke, representatives of the Associated Milk Dealers and two striking dairy workers' locals labored to end the wage dispute which has shut off 90 per cent of the city's fresh milk supply.

Some 2 million quarts of milk are sold daily in the Chicago metropolitan area. But not one quart was available today. Slopes reported heavy sales of canned and powdered milk. Sales of soft drinks and iced teas spurted.

DRINK ICED TEA
Mrs. McGregor, mother of

three young boys, said: "My husband and I quit drinking milk and cream. The boys need what little we have left. My husband and I are drinking iced tea."

In suburban Glenview, Paula Pasaich commented: "The milk was all gone at our store so we're using frozen malted

milk." Mrs. Fassnacht said her daughter, Laurie, 4, "just loves the stuff and always preferred it to regular milk."

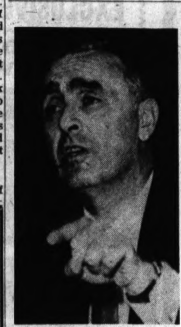

Mrs. Saxon, mother of six children including two sets of twins, said "The kids are just having a little picnic drinking fruit juices, except the young twins who prefer milk. If milk doesn't come in soon, I'll have to drive out of town to get some."

A North Side resident, Mrs. Saxon added the second set of twins, James and Matthew, "are hoping the strike continues so they can drink pop."

The succinct attitude of Mrs. Kelly Crump, a Des Plaines wife with two young daughters: "My kids like orange juice. To hell with the cows."

The strike began Tuesday night. Some 3,200 inside dairy employees walked off their jobs in the 40 area dairies. Dairies shut down but deliveries of previously processed fresh milk continued for 24 hours when 5,200 milk drivers joined the strike.

Issues involved in the strike include wages, automation and fringe benefits. Inside workers now average \$110 weekly; the drivers average \$127. Old contracts expired May 1.

AP Photo

GET TOUGH!—This was the advice Welfare Secretary Abraham Ribicoff had for parents in testimony Thursday before a Senate subcommittee investigating juvenile delinquency. Ribicoff urged parents to take a firm hand in preventing children from absorbing a diet of crime and violence on television.

Report Antony May Have Hand in Fixing Nursery

LONDON (AP)—Thirty yards of cherub chintz were delivered to Kensington Palace today, starting speculation that do-it-yourselfer Antony Armstrong-Jones is personally decorating the nursery.

Princess Margaret is expecting their first baby in the fall.

Victor Affa, manager of a store near the palace, said Armstrong-Jones visited his shop Wednesday and asked for chintz samples.

"He said he wanted the material for a spare room," Affa reported. "Personally, I think the material is for a nursery."

Chances Good for Reservists

About One in 10 Will Be Called to Active Duty Under JFK's Plan

WASHINGTON (UPD)—A military reservist theoretically has about one chance in 10 of being called to active duty under President Kennedy's preparedness plan.

Under the sweeping mobilization authority the administration has asked, no more than 250,000 reservists of all services are likely to be called. The number probably will be smaller.

They will be drawn from a ready reserve force of more than 2.4 million men who have had active military training and now participate actively in reserve activities.

The call-up will not be distributed evenly among the services. Plans explained to Congress indicate that the Army and Navy reservist's chance is far less than one in 10, and no Marines will be called.

The Air Force will bear the brunt, with about one in eight reservists expected to get the call.

Defense Secretary Robert S. McNamara said the two-week annual training periods of selective reserve units and individuals might be extended two to four weeks beyond normal.

McNamara told Congress these reservists would face call-up: C-130 transport squadrons from the Air National Guard and C-124 transport squadrons from the Air Force Reserve; air national guard fighter plane squadrons and tactical aircraft control groups; certain selected individuals and small units of the Army National Guard and organized reserve; and some naval reservists.

87-Year-Old Cardinal in Grave Condition

VATICAN CITY (AP)—Nicola Cardinal Canali, 87, was reported in "very grave" condition today. He is suffering from bronchial pneumonia and a circulatory condition that his doctors said prevented his speaking.

Cardinal Canali is president of the Administration Commission of Vatican City.

State Highway Deaths; 44 Each Billion Miles

LANSING (AP)—National Safety Council figures show Michigan's 1961 highway fatality rate to be 44 deaths per one billion miles of highway travel.

Major industrial states with better record include Illinois and New York with 37 deaths per one billion miles, Ohio with 38 and Pennsylvania with 30.

Those with worse records include Indiana with 45, California with 61, Wisconsin with 54, and Nevada with 59, the secretary of state's office said.

CAB Reopens Case of New Orient Routes

WASHINGTON (UPI)—With the approval of President Kennedy, the Civil Aeronautics Board (CAB) is reopening a case which may expand U.S.-flag air service across the Pacific and eventually help curb the stiff competition U.S. carriers are meeting in the transatlantic market.

The board Thursday ordered

new hearings in the trans-Pacific case.

It said it wanted to take evidence to help it determine whether new routes to Tokyo for Pan American World Airways and Northwest Airlines would hurt the profits of Japan Air Lines, Japan's only air carrier to the United States.

Former President Eisenhower last January vetoed a CAB decision to give the two carriers additional routes to Tokyo from the West Coast, the mid-West and the East Coast.

Town's Lights Back On
After It Pays Part of Bill
 GIRARDVILLE, Pa. (AP)—The town didn't shine bright in this tiny northeastern Pennsylvania community Thursday night but the street lights did once again. The Pennsylvania Power and Light Co. turned on the 135 lights after having shut them off Wednesday night, claiming the borough had failed to pay a bill which had grown to \$9,678. The firm took the action after the Girardville Council Thursday voted to borrow \$2,000 to pay part of the bill.

Crime Up in Britain
 LONDON (AP)—The crime rate in Britain rose sharply last year, paced by a 10 per cent increase in crimes of violence, the government reported today.

Train Germans in Britain? Intended Hosts Fight Plans

By PHIL NEWSOM
 UPI Foreign News Analyst
 Sir Winston Churchill sat in silence in the House of Commons earlier this month and heard a silence an announcement that German paratrooper battalions soon would be training in Britain. Whatever his feelings on the matter, he scarcely could have failed to reflect on the changes wrought by history. For it was in this same House of Commons 21 years ago that with these words he rallied his people against what seemed an imminent German invasion from across the channel:

"We may show mercy. We shall ask for none. We shall fight in the fields and in the streets. We shall never surrender."

But, if Churchill was silent, others were not. Lord Beaverbrook's mass circulation newspapers, the Sunday Express, the Daily Express and the Evening Standard attacked the plan fiercely.

NATIONAL PETITION

A nationally circulated petition to be presented to Prime Minister

Harold Macmillan demands that the plans be cancelled. A protest rally in Farnborough, Wiltshire, passed a resolution expressing determination "that no German troops shall come to Wales or any part of Britain."

South Wales miners promised a "mighty demonstration" in September, the month scheduled for the German battalions' arrival.

The German troops will come to Britain under NATO auspices for a three-week firing exercise at the Castelemaert tank range in Wales.

The growing German army crowded up against the Iron Curtain border, is hard put for training grounds.

War Secretary John Profumo

told British territorial troops camped at Castelemaert that Britain has an obligation to help her NATO allies, in this case West Germany.

Others have stressed that there can be no "second class" NATO allies.

The independent Manchester Guardian admitted that "a certain degree of anti-German feeling would exist in this country whatever policy the West German government pursued. The memories of two world wars cannot be expected to evaporate overnight."

But the Guardian also linked opposition to the training program to the same forces which opposed the agreement to permit U.S. Polaris submarines at Holy Loch in Scotland and to the left wing forces which have been demanding that Britain disarm unilaterally.

Britons have reacted coolly to German visitors before, and many say frankly now that they do not want to go to war over Berlin.

That is one of the reasons why the British government is not moving with the same haste as the United States in the present threatening crisis.

Negro Named to Rights Unit
 Law School Dean Has Represented NAACP; 2 Others Confirmed

WASHINGTON (AP) — Despite spirited Southern opposition, the Senate has approved appointment of a Negro integrationist to the Commission on Civil Rights.

The Negro, Spottwood W. Robinson III, won confirmation in the Senate Thursday on a 73-17 roll call vote. Robinson is dean of the Howard University Law School here. He has represented the National Association for the Advancement of Colored People in civil rights litigation.

Sen. Spessard L. Holland, D-Fla., said that appointing Robinson "is like taking a man out of the counsel's box and putting him in the judge's seat."

The Senate also confirmed, by voice vote, two other nominees by President Kennedy—Irwin N. Griswold, dean of the Harvard Law School, as a commission member, and Bert I. Bernhard as staff director.

Burns of Michigan PSC Possibility for U.S. Job
 LANSING (AP) — Thomas M. Burns of the Michigan Public Service Commission is reported under consideration for appointment by President Kennedy to the Federal Power Commission.

Burns, a Saginaw Republican, is a former state representative.

NO POLICE POWERS
 The commission investigates reports of civil rights violations. It has no police or judicial powers, but makes periodic reports to the President and Congress.

Besides opposing Robinson's nomination, several Southerners demanded that the commission, which meets only on call, be abolished.

The commission, created in 1957, will die Nov. 8 unless its life is extended. Legislation to keep going has been introduced but is tied up in a Senate Judiciary subcommittee headed by Sen. Sam J. Ervin Jr., D-N.C.

Presidential Problems Monkey on Kennedy's Back

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — Presidential problems ride John F. Kennedy's back like a monkey gorging itself on a fresh supply of calories every day.

Kennedy knew he would have problems, but didn't realize how quickly they would build up.

While he was still a candidate, asking for the problems, he told the National Press Club Jan. 14, 1960:

"We will need in the 60s a president... willing and able to summon his constituency to its

finest hours, to alert the people to our dangers and opportunities, to demand of them the sacrifices that will be necessary."

The word "sacrifices" is a permanent part of his vocabulary. He used it later in his inaugural address and again in his TV talk last Tuesday night.

TIME FOR LEADERSHIP

On that day in 1960 he also said:

"The time has come... again for the 'moral' leadership of a Wilson, Lincoln, Truman, or Franklin D. Roosevelt who 'led the people as well as the government

(and) fought for great ideals as well as bills."

But Tuesday night after only six months in office he said:

"When I ran for the presidency, I knew that this country faced serious challenges, but I didn't realize how many of them would be so heavy and constant as these burdens."

His burdens are not the same as the early presidents—they were mostly administrative, political and domestic—when the

United States was isolated and remote from Europe. Yet Alexis de Tocqueville could see when that would change.

"It is chiefly in its foreign relations that the executive power of a nation finds occasion to exert its skill and its strength. If the existence of the union were perpetually threatened... the executive government would assume an increased importance in proportion to the measures expected of it and to those which it could execute."

NO LONGER ISOLATED

Those days came when America was no longer isolated and the presidency, under Wilson and Roosevelt, assumed increasing importance as the existence of the Union was threatened in two world wars.

But while Kennedy's problems are similar to theirs in a very real sense, they are extremely different. Now the existence of the Union, as De Tocqueville anticipated is "perpetually threatened," by communism.

Where Wilson and Roosevelt

had the burden of fighting a war, Kennedy must not only be ready for it but, through whatever skill he has, try to prevent it without losing in troubled peace either suddenly or bit by bit by attrition.

It was put another way by James MacGregor Burns, biographer of both Roosevelt and Kennedy, in making a distinction between their problems.

He said: "It was enough for Roosevelt to cope with crises but it will be essential for Kennedy to head them off."

But it isn't clear what's bothering Kennedy, why his problems now seem greater than he anticipated. In the engine of government he needs to be an expert administrative engineer. But that was to be expected, and he knew it.

Roosevelt didn't consider administrative chores overwhelming. He said they were "the least part" of the presidency which "is pre-eminently a place of moral leadership."

FELT RESTRAINED

But even Roosevelt felt restrained in leadership in a way which sometimes seemed self-imposed, as in his early neutrality and avoidance of a part in the Spanish Civil War.

But in his firestorm chats Roosevelt sought to provide leadership

by educating the public to national support. This is what Kennedy did Tuesday night on the Berlin problem—but he's been slow starting.

Strangely the two Roosevelt presidents seemed to consider themselves preachers. Franklin said "I want to be a preaching President" and Theodore called the White House a "bally pulpit."

4 of 5 Road Fatalities Involve Lawbreaking

LANSING (U) — There is a direct relationship between driving law violations and automobile accidents, reports the Protective Driving Quest of Michigan.

The group campaigning for improved highway safety cited figures provided by Secretary of State James M. Hare and recent insurance studies.

Hare said some type of vio-

lation is involved in four out of five fatal accidents.

Insurance studies show, he said, the probability of having an accident ranges from one in 10 for a driver with no violations in a three-year period to a better than even chance for a driver with five violations in three years.

NUMBER ON RISE

"It is significant," Hare said, "that the number of violations among the two million drivers who have moving conviction records has increased 12 per cent in the last two years."

This is only part of the problem, Hare said.

"Ordinarily responsible drivers are slipping into bad habits or carelessness," he said.

"This is borne out by the fact that about 10 per cent of Michigan cars were involved in accidents last year."

The picture could change fast, Hare said, if the large number of responsible drivers who are lapsing into faults can be made to realize the consequences they are inviting.

Wants Judges' Salaries Set by Civil Service

MACKINAC ISLAND (U) — Salaries of state court judges should be set by the State Civil Service Commission rather than the legislature, says State Supreme Court Justice Thomas M. Kavanagh.

The constitutional convention should relieve the legislature of the duty of fixing the salaries of judges of record, said Kavanagh in remarks prepared for delivery before the Prosecuting Attorney Association of Michigan at Mackinac Island this afternoon.

The convention also should specify that there be no question about the ability of the courts to obtain personnel and physical necessities for their reasonable operation, Kavanagh said.

During the past several years, Kavanagh said, increasing pressure has been applied by the legislature with a tendency to influence the decisions of the court.

Iraqi Claims Britons Were on Espionage

DAMASCUS (AP) — Abdul Karim Altai, Iraqi Consul General, charged today three British soldiers seized inside Iraq's southern border were "carrying out espionage" on orders of the British command in Kuwait.

Altai said in a statement that a preliminary investigation had shown the Britons carried maps "of the utmost importance."

Baghdad Radio said earlier this week the three would be tried by an Iraqi court martial but did not disclose the charges against them.

Says Chief Ignores Standards of FCC

WASHINGTON (UPI) — Rep. Robert H. Michel, R-Ill., Thursday accused chairman Newton N. Minow of the Federal Communications Commission (FCC) of ignoring the commission's announced standards, due to a conflict of interest.

Minow had no immediate comment.

Michel made the charge in a speech inserted in the Congressional Record. His accusation was based on a tentative FCC decision of last June 28 proposing to grant Channel 8 to W. Moline, Ill., Television Corp. (MTC).

Michel said this action, which overruled the recommendation of FCC hearing examiner Charles J. Frederick, violated the standards and policies outlined in an FCC ruling issued the same day.

An Englishman has discovered 20 Twopenny Blue stamps in an envelope tucked away 120 years ago. Their catalogue value now is \$252 each.

No Present Plan to Cut Demands, Reuther Says

DETROIT (UPI) — United Auto Workers President Walter P. Reuther said Thursday night his union has no present plans to modify its new contract demands in view of the Berlin crisis.

"We as good Americans will meet our obligations," Reuther said.

"I think the members of our union will stand with the President in the present crisis."

Asked if the UAW might soften its demands on the auto industry because of the international situation, Reuther said: "I believe there is no value in speculating what might happen. We will cross that bridge when we come to it."

Reuther also promised to do everything possible to avert a strike in the industry this year.

Chrysler Picks New President

Offers Job to 4 Others Prior to Its Going to Lynn A. Townsend

DETROIT (UPI) — At least four executives outside Chrysler were offered the job of Chrysler president by a committee of directors before the job went to Lynn A. Townsend, Chrysler administrative vice president, Thursday.

Sources close to the effort to find a replacement for L. L. (Tex) Colbert as president of the nation's eighth largest manufacturing company said the job was offered to:

James O. Wright, head of Ford Motor Co.'s car and truck group; Edward N. Cole, head of Chevrolet Division of General Motors; a third unnamed vice president of a competing auto firm, and a vice president of Sylvania Corp.

Four of the members of a committee which made an effort to find a new president are on the executive committee named Thursday to run the company along with Townsend. They are directors George H. Love, Juan T. Trippie, L. F. McCollum and R. E. McNeill Jr.

Reaction of Chrysler Corp. dealers, the United Auto Workers and minority stockholders to Colbert's resignation was that it would help the company.

Crash Kills Detroit

WILLIAMSTON (U) — Michael Milojkic, 44, of Detroit, was killed Thursday when his car collided with a truck on U. S. 36 a mile west of this Ingham County village.

S-P Loss for Quarter Is Cut to \$2.3 Million

SOUTH BEND, Ind. (U) — Studebaker-Packard's losses for the second quarter of 1961 amounted to \$2.3 million, compared with \$6.5 million in the first quarter of the year.

President Sherwood H. Egbert calls it "a noteworthy improvement" despite the fact that this is the fourth straight quarter in which the firm has reported in red ink.

The second-quarter losses are equal to 15 cents a share.

**Harrity Wins Boys C,
Ladies Relay Team 2nd
in Big Meet**

Special to The Pontiac Press
FORT WORTH, Tex. — Scott

He won the juvenile C boys division last night over one-sixth of a mile.

Pontiac's ladies relay team, composed of Carol Pantel, Mary Jo Kurk, Janet Ford and Ernestine Watts, finished second. Cecilia Darimont was third in senior ladies figures and Jim Bell and Carol White combined for third in

The Wichita (Kan.) Skating Club won another speed crown Thursday night and completed a "grand slam" in the relay events in the American Roller Skating championships.

★ ★ ★

The mixed relay team of Rich-

ard Edwards, Pat Carter, Cindy Rodick and Barbara Solter won the event. The men's and women's relay team from Wichita won Wednesday night.

Edwards also won the men's 440 and placed second in the mile, which had to be re-run because of a miscout on lane Wednesday.

**Williams Back
at Park Where**

History Lies

throw out the first ball for the second All Star contest in which the American League will try to even matters following a 5-4, 10th inning loss to the Nationals earlier this month.

On July 9, 1946 the AL bombarded the senior circuit 12-0 when the major league luminaries laid

played at Fenway Park. Williams hit two homers, two singles, walked, drove in five runs and scored four.

For the "topper," the dynamic batmaster starred in one of recorded Athletics' greatest moments of muscle vs. inertia.

Mimi Arnold Beaten

HILVERSUM, The Netherlands (AP) — Mimi Arnold of Santa

Rosa, Calif., was eliminated in the quarter-finals of the International Tennis Tournament Thursday by Robina Ebberen of Australia 6-2, 6-4.

GROUNDED CARDINAL—Jimmy Schaffer of the St. Louis Cardinals is tagged out at home by Chicago Cubs' catcher Sam Taylor in the ninth inning Thursday. Schaffer tried to score third on an infield grounder. The Cubs won, 3-2.

County Stadium Fine for Cincinnati

Redlegs Jolt Braves

By The Associated Press
There was nothing wrong with the Cincinnati Reds that a trip to Milwaukee wouldn't cure. The only trouble is, the Reds are fresh out of trips to Milwaukee.

In their final game of the season at County Stadium, where they won nine of 11 starts, the Reds joined a game loose from the Braves in the ninth inning. Yada Pinson, breaking from third base with the bases loaded, knocked the ball out of catcher Sammy White's glove Thursday for a 2-1 victory.

As a result of that triumph, Cincinnati still holds a one-game edge on the Los Angeles Dodgers, who thumped Philadelphia 11-6 with an 18-hit attack.

San Francisco's Juan Marichal blanked Pittsburgh on five hits 2-0, the 10th shutout for the defending National League champion. Chicago knocked off St. Louis again 3-2, using the same

combination that won Wednesday, pinch hitter Bob Will and relief pitcher Barney Schultz.

The season series between the Reds and Braves now stands 14-7 in favor of Cincinnati with only one game to go. That will be one game to go. That will be one game to go.

Pinson opened the ninth with a single and took second on Frank Robinson's single. After both men moved up on an infield out, Carl Willey walked Gus Bell intentionally, loading the bases. When Willey took the full wind-up on the first two pitches to pinch hitter Jerry Lynch, Pinson broke for the plate on what started to be a triple steal. Umpire Frank Dascoli called Pinson out as White took the pitch and changed it when the runner's slide dislodged the ball.

Billesdon Fans 15

Jets Defeat Talbott, 5-2

The Joy Boy Jets got another standout pitching performance to trip Talbott Lumber 5-2 Thursday. Andy Billesdon hurled a three-hitter and fanned 15. The strike-out matched a season high set by teammate John York.

Dave Simmons and Gene Cox had three hits apiece including big blows in a two-run fifth which broke a tie and clinched the decision. Tom Demrick homered for the Jets in a 14-hit attack.

CJO will meet Don Nicholli tonight at 8 at Jaycoo No. 2 in a Class A-B makeup contest.

Pontiac Northern thumped West Suburban Boys Club 5-1 in a Class D American game breaking up a scoreless duel in the 4th. Winner Don Glowatz had a homer and two doubles for PNTI. He allowed four hits and shifted 15 batters.

Norridge Outliners, walloped Coca Cola 14-3 and the Great Lakes Giants outlasted Pontiac Boys Club 14-12 in "E" National. Tied 3-3, Norridge exploded for 11 in the 7th. Mike Kerr threw a two-hitter and Paul Knowles had three bingles. Boys Club had leads of 10-7 and 12-11 but Great Lakes

scored three times in the 6th sparked by Frank Williams' 2nd home run to pull it out.

In Class F, Roger Hayward of Auburn Boys Club one-hit the Bears 5-1 and Pontiac Boys Club won a forfeit over Moose in the A's. The Devil Bats slipped the Cubs 10-9 and the Hudson Hornets held off a late St. Benedict rally to win, 7-4.

The Class E American Moose team belted Huron Bowl 12-2 as Dean Soudan allowed only one hit while getting a pair himself. Ken Mixkin had a double and two singles. Northside Dodgers hammered out a 14-4 romp over Bultman's Hardware as Lynn Johnson went with a homer and two triples.

A Widget National tilt resulted in a 2-1 victory for the Tigers over the Optimists. The Yanks nipped the Dodgers 1-0 in the International. The Yanks got their only hit and run in the 7th. Dodgers got two hits. Dan Soloway of the Dodgers pitched six innings and nipped the Dodgers 1-0 in the International. The Yanks gave up one in the same time but both had to be removed of having too many innings.

SCHOOLCRAFT AT MIDDLEBURY**Injury Jinx May Hurt
Maris' Bid for Mark**

BEN GLAN
Associated Press Sports Writer
NEW YORK (AP)—Both Roger Maris and Mickey Mantle concede they have a chance of bettering Babe Ruth's home run record of 60. Each thinks the other is in a better position to do it this year.

But Maris has to beat the injury jinx first. He had to pull out of Thursday night's game against the Chicago White Sox after having a single and double in his two trips to the plate. He aggravated a pulled muscle in his left leg when he slid into second with his run-scoring double in the third inning. The Yanks scored twice in the third to clinch their 4-3 win.

"I think I'll be able to play against Baltimore tonight," he said.

Mantle didn't get a homer, either, so Maris still leads in the home run derby with 40 to Mantle's 39. Maris is 22 games ahead of Ruth's record pace. Mantle is 20 games ahead of the pace.

"The important thing for me is to stay healthy," said Maris. "I think this leg will be okay. In the past few years I was out with rib injuries twice and then had an appendicitis operation just when I was going good."

"I'm not doing anything differently this year. You have to be lucky to connect with the fat part of the bat. Only an inch or two can be the difference between a home run and a single."

Why does Roger think Mickey has a better chance at the record? "For one thing, Mickey is a left-handed batter. There are certain left-handed pitchers who give me plenty of trouble. Mickey can turn around against them. Then, Mickey has more experience. He's been through this thing before when he hit 52 home runs in 1960. The most I hit before was 39 last year."

"Roger is ahead of me so you have to give him the edge right now," said Mantle. "As the season goes on, I feel they are going

to walk me a lot more. I'd have a better crack at the record if Maris batted behind me instead of the other way around. This way Roger doesn't get many walks."

Maris bats third and Mantle fourth in the Yankee lineup.

PLANE CRASH SITE—Police stand guard at the wreckage of an Air France Boeing 707 jet at a construction site at the Hamburg, Germany, airport after it crashed on take-off Thursday. The plane, with 61 persons aboard, was on the way to Tokyo. No one was killed, but five passengers and three crewmen were reported slightly injured in scrambling out.

Majority of Firms Show Declines in 1st 2 Quarters

Business Looks for Better 2nd Half

By SAM DAWSON
AP Business News Analyst

NEW YORK — Wait until the second half is the cry today of a growing number of companies reporting on their profits in the first six months of 1961.

A majority of nearly 600 reporting so far have shown declines from their net income in the first half of 1960. Combined the declines comes to 11.5 per cent.

But a sizable number have shown increases in the April-June quarter from the earnings in the first three months. Even more have shown gains in sales, while profits lagged. And a majority of those making predictions say they expect earnings to look better during the final six months of the year.

Although the majority show the lingering effects of the recession in their first half statements, there have been some striking gains.

And Wall Street—which divides its attention between the flood of earnings reports and the Berlin crisis—has taken heart from the pleasant number of those who have been able to set records. For these the recession was only something the other fellow felt.

330 SHOW DROPS

Of 563 nonfinancial corporations recorded so far, 263 report 1961 profits higher than the 1960 first half, and 330 show declines. This year 39 report net losses, compared to 30 a year ago.

Leading the parade of those with increasing profits were American Telephone & Telegraph, International Business Machines, Douglas Aircraft, Gulf Oil, Socony Mobil, American Tobacco, Reynolds Tobacco, Republic Aviation, Borden, American Can, Colgate Palmolive, Maytag, United Air Lines.

But more than offsetting these gains were the declining profits

reported by General Motors, General Electric, Du Pont, U.S. Steel, Westinghouse, Allied Chemical, RCA, Eastman Kodak, Goodrich, Firestone, Union Carbide, International Harvester, Swift and Armour.

A disappointing number of Eastern Railroads reported net losses for the period. Railroad earnings as a whole were trailing last year by about 50 per cent.

The steel industry, with the tally nearing an end, was 48 per cent behind the 1960 figures. All the big companies trailed, although for many second quarter results called for first quarter setbacks.

UTILITIES CLIMB

Offsetting this most utilities pulled ahead of a year ago and early returns from the oil industry show 1961 profits higher by 15 per cent. Makers of containers are running 11.3 per cent ahead of their 1960 returns. Brewers and soft drink makers are up 4.3 per cent. Makers of electrical appliances report a 2.3 per cent rise.

Other leading industries don't show up so well. With most of the chemical companies recording declines, the industry dip is 13.3 per cent. Six of the 10 drug firms were on the downside, with the combined decline 10 per cent.

The electronics industry is off 21 per cent. Paper and pulp products trail 1960 results by 11.6 per cent. Glass makers are down 27 per cent.

Building materials providers as a whole are off 8.4 per cent, with the cement segment of the industry off 4.8 per cent.

Meat packers' earnings fell 45.6 per cent, although other companies in the food industry show 14 ahead and 5 declining, with the total figures just about even with last year.

As many textile firms gained pantes,

over last year as fell behind, but the declines were heavier dollar-wise and the industry dipped 41 per cent.

Four out of five rubber companies declined for an industry drop ahead and 5 declining, with the total figures just about even with last year.

But we're in the second half now, and the outlook is much better for a growing number of companies.

Britain Faces Ire of Workers

Austerity Plan Okayed by Parliament; Wage Hikes to Be Sought

LONDON (AP) — The British government's new austerity program cleared the hurdle of parliamentary approval Thursday night as expected but still faced the rising anger of wage earners today.

Prime Minister Harold Macmillan won an overwhelming vote of confidence in the House of Commons while groups of schoolteachers, miners, engineers and telephone operators made plans to press for pay raises despite government pleas to hold the line.

Macmillan told Commons that the tax increases and other curbs on spending—felt in nearly every household in the land—are vital for the nation's prosperity.

CONSERVATIVES HOLD

Opposition Laborites shouted for his resignation. But the Conservative majority held together, beat down a censure motion and voted 345-226 to approve the government program.

In London, Bristol, Hertfordshire and Kent nearly 300 teachers at nine schools staged one-day strikes to protest government cancellation of a promised pay boost. The National Association of Schoolmasters, representing 25,000 teachers, threatened to pull out hundreds of faculties when school resumes next fall if the government doesn't yield.

Miners assailed the government's plans and decided to press their claims for more pay and shorter hours.

Phone, repairs, radio and television programs were threatened as post office engineers mapped plans for a nationwide three-week ban on overtime work to protest a deadlock on their pay claims.

Prices on the London Stock Exchange fell for a loss of millions of pounds. It was the market's worst tumble since 1957, when the government also jacked up the interest rate.

"Well, at least I know he can't get into any mischief up there!"

MY WORD, IF NEWS OF THIS FIASCO SHOULD LEAK OUT I'D BE THE LAUGHING STOCK OF THE CITY! THOSE DRAUGHT BOARDERS WOULD BE SURE TO MISINTERPRET THIS MASS TRANCE, AND BLAME MY RECORDING! I'LL HAVE TO TELL EVERYONE ABOUT THE HEAT TO PREVENT MISUNDERSTANDINGS!

SEEN TH' BULL O' TH' MOON'S AROUND ANYWHERE, FELLERS? NO, JUST HAVE A SEAT AND HE'LL BE HERE ANY MINUTE! HA-HA! THAT'S NO JOKE EITHER! JUST SIT DOWN FOR A MINUTE AN' HE'LL BE RIGHT HERE! HE'S LIKE A CORN COB IN A MAT TRESS—HE BOBS UP WHEN YOU LAY DOWN! IT'S UNCANNY! I HUNTED TWO HOURS FOR HIM ONE DAY. ALL WORE OUT. I SAT DOWN TREST AN' LO AN' BEHOLD! HE WAS SITTING ON HIM! I DON'T HUNT ANY MORE, I JUST SIT DOWN AN' THERE HE IS!

Change of Command

SHAKE HANDS AT AIRPORT—Lynn A. Townsend (left), newly elected president of Chrysler Corp., shakes hands with his predecessor, L. L. (Tex) Colbert as they posed at New York's LaGuardia Field Thursday before leaving for Detroit. In company meetings earlier, Townsend was elected to the president's post, replacing Colbert who resigned.

Townsend Follows Colbert as President of Chrysler

DETROIT — Lynn A. Townsend, an accountant with a reputation for swinging a big economy axe, took over today from L. L. (Tex) Colbert as president of the troubled Chrysler Corp.

Colbert, under heavy attack for more than a year from angry stockholders who blamed him for huge corporate losses and alleged top level executive irregularities, resigned Thursday as president and board chairman of the nation's third largest auto maker.

Townsend, 42, who joined Chrysler in 1957 as controller after a career in accountancy, was named president, with the post of board chairman left vacant.

To handle the board chairman duties, the directors elected a new executive committee headed by George H. Love, 63, a Pittsburgh coal executive.

Following a meeting in New York Thursday the corporation announced the resignation of Colbert.

GEORGE H. LOVE

Mercury to Dip Into 50s During Next Five Nights

High temperatures will continue in the low 80s and low temperatures will dip to the high 50s for the next five days in the Pontiac area. Tonight's low will be near 68.

Saturday and Sunday will be warm, the high tomorrow about 86. Temperatures will be cooler Monday through Wednesday.

Variable but mostly southeasterly winds at 3 to 10 miles per hour today and tonight will become southerly at 10-15 m.p.h. Saturday.

Temperatures before 8 a.m. dropped to 69 in the Pontiac downtown area. At 1 p.m. the reading was 85.

Probe for Arson in 3 Fires

Area Girl, 6, Elderly Couple Are Drowned

Child, Pair Victims of Separate Mishaps in Oakland County Lakes

Two separate tragedies in Oakland County lakes yesterday added three more victims to the area's drowning toll which already has soared at an alarming rate to 18 since the beginning of the year.

At this time last year there were eight drowning victims in the county.

The latest victims were a 6-year-old West Bloomfield Township girl and an elderly Utica area couple.

The girl, Nancy L. Essamine, of 2634 Penna Drive was using a slide in Hammond Lake when she disappeared unnoticed.

Her mother, Mrs. Louis Essamine had taken her eyes off the slide only briefly.

Sheriff's skin divers recovered the girl from 18 feet of water. They said the lake bottom dropped suddenly from 2 1/2 feet at the foot of the slide to the depths where the body was found.

Mr. and Mrs. Francis E. Ward of 7595 Daisy Ave. drowned while boating on Pontiac Lake. There were no witnesses to the actual drowning or events leading up to it.

Other boaters equipped with outboard motors clipped past the scene without realizing what was happening, the sheriff's department reported.

In a cottage on Gale Island, Joseph Henig, 17, of Warren heard a woman's cries for help.

He looked out a window to see Mrs. Ward thrashing frantically in the water, but seeing the other boats, he thought that she would be rescued.

Minutes later, he said, he heard her cries again and dashed to his boat on the shore.

By the time he had rowed out to the scene, Mrs. Ward's body was floating face down. Not realizing that she was accompanied in the rowboat by her husband, Henig brought her body and the couple's rowed rowboat to shore and notified the sheriff's department.

When the boat was returned to the livery, it was learned that 67-year-old Ward was missing. Skin divers recovered his body in about 10 feet of water.

The couple had been fishing alone from the boat. Neither wore lifejackets.

GUTTED BOWLING ALLEY — This rack of charred bowling balls stands as evidence of the fire that swept Westside Recreation, 189 Orchard Lake Ave., last night. The stubborn blaze left much of the bowling alley gutted. The establishment was closed at the time. Residents of apartments over the bowling alley reported the fire when they heard "noises downstairs that sounded like dishes breaking."

McNamara Testifies to Committee

WASHINGTON — Defense Secretary Robert S. McNamara said today that President Kennedy's military build-up is aimed at discouraging Russia from pressing the Berlin crisis to the point of war and at preparing U.S. forces if fighting should come.

McNamara spelled out the goals in closed door testimony before the House Armed Services Committee which began action on two key parts of the President's preparedness program.

The senate was expected to pass both bills later in the day.

The defense secretary said that the United States must build up its nonnuclear fighting strength because Soviet leaders are counting on the fact that the free world would not use nuclear weapons except to meet a direct threat to its survival.

He said this was one reason the Russians are hoping to create a split within the free world ranks by "carefully measured" threats to Berlin.

One bill would give Kennedy authority to buy an additional \$958 million worth of planes, ships and missiles.

The other would empower him to call as many as 250,000 reservists to active duty, retain other military personnel in service for an additional year and stretch out reserve training periods.

McNamara said the build-up had a two-fold purpose: "To deter the Soviets from pressing a Berlin crisis to a point of conflict and to become better able to deal with any conflict which might nevertheless occur."

Aside from these specific measures, the Kennedy administration is reportedly holding in reserve a wide range of military and diplomatic actions which may be taken by the United States and its European allies as the Berlin crisis develops.

Secretary of State Dean Rusk will try in Paris next week to get firm agreements with allied foreign ministers on a succession of steps designed in part, at least, to give the Western powers some initiative in dealing with the Soviet Union on the Berlin problem.

Administration informants said Kennedy's Berlin action program laid before the nation Tuesday night was only a starter.

They said that what Kennedy and Rusk contemplate is a series of steps which will be put into effect as the maneuvering between the Western powers and the Soviet Union over the future of Berlin takes its shape in coming months.

Aim Build-Up at Balking Reds

WASHINGTON — Defense Secretary Robert S. McNamara said today that President Kennedy's military build-up is aimed at discouraging Russia from pressing the Berlin crisis to the point of war and at preparing U.S. forces if fighting should come.

McNamara spelled out the goals in closed door testimony before the House Armed Services Committee which began action on two key parts of the President's preparedness program.

All Blazes Strike Southwest Side

Evidence of an arsonist's work in three blazes on Pontiac's southwest side last night was mounting as fire officials began an official investigation today.

The three fires were reported within an hour. Every piece of equipment from the city's five fire stations was in action at one time.

Fires were reported at West Side Recreation, a bowling alley at 199 Orchard Lake Ave.; Pontiac Mills Inc., 31 Jackson St.; and a storage shack of the Blaylock Coal and Builders Supply Co. at Orchard Lake Avenue and Congress Street.

An alarm on the bowling alley fire was turned in at 8:49 p.m. The second fire, at the plant on Jackson, which manufactures fertilizer and sells grass seed, was reported at 9:23.

Fire Chief James R. White radioed in the third blaze after spotting flames at 9:39 p.m. while driving from the first fire to the second.

No official estimates were made of damages. Firemen said, however, that automatic pinetting machines installed in the 15-lane bowling alley at a cost of \$165,000 were destroyed.

Damage at the fertilizer plant was negligible. The storage shack's interior was completely ruined.

State Police Sgt. Oramel O'Farrell, head of the Redford Post arson squad, was called in to assist local authorities.

The Pontiac Mills and Blaylock storage shack fires were purposely set," said Pontiac Fire Chief James R. White.

Firemen found debris had been ignited at both places.

"We don't know what caused the bowling alley fire," White said. However, evidence that this fire was also started by a firebug was coming to light this morning.

A rag smoldering of lacquer thinner was found in one corner of the building.

In two corners of the building were pieces of cardboard and lacquer thinner soaked in what officials say may be a flammable substance.

Seats were also soaked with some substance placed where it would be most easy to ignite a fire, authorities said.

"You draw your own conclusions from what we're finding," O'Farrell said.

"It's too early in our investigation to make any conclusion. Pontiac firemen said that (Continued on Page 2, Col. 3)

PHILADELPHIA (AP) — An ex-convict who testified against three men convicted of a bizarre burglary was killed in gangland style Thursday by an explosion which ripped through his auto when he turned on the ignition.

Police later questioned and today released two of the convicted men and a shapely woman nightclub owner awaiting trial. Police Capt. David Brown said Lillian Reis, 33, owner of the Celebrity Room, Ralph Staine Jr., 27, and John C. Berkery, 30, were questioned and released after accounting for all of their activities Thursday and Wednesday night.

The three voluntarily surrendered for questioning Thursday night some six hours after ex-convict Richard Blaney was killed outside his home on his 57th birthday when his automobile was ripped by an explosion as he turned on the ignition.

Last August, Richard's brother Vincent, 27, who had been expected to be a prosecution witness in the burglary case, was slain in gangland style.

Brown said Mrs. Reis, an attractive divorcee who at one time danced in chorus lines; Staine, who at one time managed her night club, and Berkery denied any connection with the slaying of Richard Blaney.

NASA also plans to launch in 1962 a communications satellite of its own which is being built under contract by Radio Corporation of America.

Both programs are aimed at developing a worldwide satellite communication system which would be privately operated and owned.

WASHINGTON (UPI) — The Federal Space agency said today it will launch two and perhaps four communications satellites next year for the American Telephone and Telegraph Company.

AT & T will lease the satellites at its own expense and will reimburse the National Aeronautics and Space Administration (NASA) for launching and tracking costs. The cost per launching is estimated at about \$6 million.

NASA also plans to launch in 1962 a communications satellite of its own which is being built under contract by Radio Corporation of America.

Both programs are aimed at developing a worldwide satellite communication system which would be privately operated and owned.

Evenings 25 South Saginaw Between Penney's & Gimbel's

Hijacked Plane Reply Expected

Rusk Waits for Word From Cuba on Request to Return Airliner

WASHINGTON (AP) — Secretary of State Dean Rusk expects a reply from Cuba today or Saturday to the U.S. request for return of the Eastern Air Lines plane which was hijacked and flown to Havana with its passengers and crew last Monday.

All aboard the aircraft have been returned to the United States except the hijacker. He took refuge with the Castro government.

Rusk told a news conference Thursday that the request for return of the plane had been made to the government at Havana through the Swiss Embassy, Switzerland, being the nation which has represented the U.S. interests in Cuba since this country broke relations last January.

CASTRO CONDITION

Rusk said he was aware of news dispatches from Cuba quoting Prime Minister Fidel Castro as saying that he would return the stolen aircraft only if the U.S. government "promises from now on to return every plane hijacked from Cuba."

To this Rusk replied that in the United States the executive branch of the government cannot interfere with judicial procedures when a Cuban plane has been attached by court order in a case involving a claim for payment by an American citizen of debts owed by Cuba.

What the State Department can do, however, is notify the court in which a case is pending of a claim made by Cuba that the aircraft in dispute comes under "sovereign immunity" because it is owned by the Cuban government. In such a case the court may rule that the airplane is not subject to sale for settlement of any debt.

Rusk said that 25 Cuban aircraft have been involved in such cases since 1959. He said that 18 of those were hijacked and seven others were seized by the authorities here under court order. Of the 25, he said, 14 have been returned to Cuba while some others have been sold under orders of the court.

LA Judge Indicted on Leniency Charge

LOS ANGELES (AP) — Municipal Judge Lynn W. Johnston, 42, of Downey, has been indicted by the county grand jury. He is accused of offering leniency to four young women in prison in return for intimacies.

The jury indicted Johnston on Thursday on four counts of bribery. If convicted, he could be disbarred and sentenced to a prison term of 1 to 40 years.

Johnston, married and the father of three children, was arrested July 20 after registering at a beach motel. Police acted on a tip from Miss Vida Dolphus, 26, of Anaheim, who awaited sentence by Johnston on a bad check charge.

Three other women, all in their 20s, made similar accusations against the judge. He has been in office since 1957.

Sales of jewelry have been gaining. The volume last year was about three per cent higher than in 1959, topping \$1,500 million.

NATO Would Try to Contain Hostilities

MILWAUKEE, Wis. (AP) — If at keeping any clash small at the shooting starts on account of Berlin, the United States and its NATO allies will try to keep the area of hostilities as small as possible.

"However," he adds, "my own observations of our field forces lead me to doubt that any prolonged period of conventional war would follow a major clash between Russian and West European or American military forces."

"In the European area the Communist conventional forces are more than seven times as large as ours. In general they are better equipped and enjoy the priceless advantage of central direction and control."

"The best-possible the only-way to keep the Russians from massing tanks and artillery, or even the infantry would be atomic attack on Russian concentration points."

To meet this situation the U.S. Army in Germany, some 200,000-plus strong, keeps its atomic weapons at the ready. Where a missile or an airplane is described as nuclear capable, it nearly always means they are nuclear armed.

U.S. strategy is based on maintaining forward positions, dispersing relatively small units possessing high mobility over hundreds of miles in depth. They are equipped with nuclear weapons of battlefield size designed to give a relatively small force a chance to cope with a massive enemy advance.

Nuclear weapons are regarded as equals in the U.S. arsenal in Germany.

These include the Honest John, a free-flight rocket, unguided, with a range of 12 miles. Peace speculated its atomic punch can clear a square mile of significant enemy resistance no matter how the enemy might be protected.

There is Corporal, a true guided missile capable of delivering a 1,500 pound payload on a target 60 miles from its launch pad. A highly trained mobile crew can get it ready in 10 minutes, and it takes a 15 minute countdown before firing.

The giant is the mighty Redstone missile, which can hurl a nuclear warhead almost as big as an automobile 230 miles, by conservative estimate.

In civilian life the Redstone launched the first American satellite and the Mercury capsules that carried spacemen Alan Shepard and Virgil Grissom.

At Cape Canaveral preparations for a launching takes weeks. But the mobile "scoot and shoot" units in Germany can have a Redstone ready to go in a few hours. It is highly flexible, movable by road 100 miles in any direction. On that basis it can land the equivalent of a 1,000 plane World War II air raid anywhere within a quarter of a million square miles.

CAN HIT ALL TARGETS

As for air power, Pease says its adequacy cannot be judged without information now held secret. But he quotes Maj. Gen. H. R. Spicer, commander of the 17th Air Force at Ramstein: "I have enough aircraft to strike all of the first objectives and double up on the key ones."

First word that the Russians are on the move could come from a routine two-jump Army patrol in the Bohemian forest

Pease tells the story of a non-com new on patrol being quizzed by an officer. The noncom failed to respond in a manner satisfactory to the officer. The latter, exasperated, said: "Show me what you would do if two Czech tanks crossed the border right there."

The noncom picked up his microphone and spoke into it: "Two Czech tanks just crossed the border at—"

The hair trigger chain alerting system moved so fast that the denial took more than an hour to catch up.

Alleges Affair With Roy Rogers

Witness Says Wife of Spade Cooley Admitted It; Denials Pour In

BAKERSFIELD, Calif. (UPI) — Former cowboy-musician Spade Cooley's slain wife once disclosed she had had an affair with movie star Roy Rogers, according to a witness at Cooley's murder trial.

Rogers' wife, actress Dale Evans, called the idea "ridiculous."

Mrs. Cooley, 37, was killed last April 3 at her Willow Springs ranch home. Cooley, 50, is charged with torturing her to death.

Dorothy B. Davis, North Hollywood, Calif., a registered nurse and a friend of the Cooleys for 15 years, brought Rogers into her testimony Thursday under cross-examination by defense attorney P. Basil Lambros.

Miss Davis said Cooley, once a stand-in for Roy, accused his wife of having an affair with Rogers and that Cooley and a North Hollywood detective went to Texas to bring her home.

Lambros asked Miss Davis if Mrs. Ella Mae Cooley had confessed to the affair. "She told me she did," the witness answered. "But I didn't believe it then, I don't believe it now and I never will believe it," she said.

ROY SCOFFS

Located to Tonopah, Nev., where he is on vacation, Rogers scoffed at the testimony.

"It simply isn't true."

"I hardly knew Spade's wife. I have never been in their home except on occasions when Spade was there, too."

"Spade and I were like brothers—I thought of him like a brother," Miss Evans, who has starred in many cowboy movies with her husband, said, "I just don't believe it."

"I don't believe it just as Miss Davis didn't believe it and doesn't believe it now."

"Personally, I don't feel that Mrs. Cooley ever had an affair—with anybody. She wasn't the type."

According to the U.S. Geological Survey, the Great Salt Lake contains 400 million tons of salt.

FRIDAY, JULY 28, 1961

PONTIAC, MICHIGAN.

BUSES DO A THOROUGH JOB—This map shows how Pontiac Transit Corp. buses spread out over the city, bringing 90 per cent of the city's homes within a quarter-mile of a bus line. Prepared by the bus company, the map shows the city of Pontiac and environs, with bus lines indi-

cated by heavy black lines. Nonshaded areas inside the shaded areas are within a quarter-mile of a bus line. Shaded areas are more than a quarter mile away from buses, but in many of these areas there are few if any homes.

No Profit Yet This Year

Slump in Bus Usage Puzzles Transit Firm

Pontiac's not the best town for bus companies.

Shrinking patronage and service cutbacks demonstrated this in the late 1950s.

The long bus strike of 1959-1960 drove the point home.

The city was busless after Pontiac City Lines, Inc., pulled out during the strike.

When Pontiac Transit Corp. came to town 13 months ago, nobody thought the road to success would be easy. It was acknowledged that building up patronage would be a hard job for a new bus company.

It came almost as a pleasant surprise that patronage built up quickly, from 62,570 during July 1960, the first full month of operation, to 75,974 in October.

Patronage was still 74,506 in November and reached 76,465 in December.

LOOKED GOOD "Things looked good," says Neil B. Pilson, general manager for Pontiac Transit.

"We were averaging around 17,500 passengers a week and figured we needed at least that to make money."

"We anticipated January and February would be slack months but thought things would bounce back in the spring."

The company was only half right. January and February were slack. But there was no bounce back.

"Right now," said Pilson, "we're being averaging around 16,000 passengers a week since the first of the year."

"In other words, we haven't made any money so far this year and won't if there isn't any upsurge in patronage between now and December."

Patronage in January was 76,018, February 65,701, March 72,840, April 64,317, May 71,081 and June 69,320.

Pilson figures nearly 76,000 a month is needed to reach the 17,500-a-week mark.

Pontiac Transit Corp.'s fiscal year is July 1 through June 30. Final figures for the fiscal year just completed aren't available as yet, said Pilson.

TO KEEP TRYING From June 9 of last year, when Pontiac Transit buses first rolled through Dec. 31, the company realized \$100,000 in operating income over expenses, Pilson said.

What will the company do if no money comes in this year? Pilson says it's his company's policy to dodge answering questions like that directly.

"We don't like to sound ominous or make threats," he said.

transit system in the United States hauls between one and two times as many passengers a month as the population it serves.

In Pontiac, though, monthly patronage figures have never topped December's mark of 76,465, although the population was 82,525 in last year's census.

Economic conditions might be a factor in this year's doldrums, Pilson agrees. But he thinks Pontiac Transit's record of good service should outweigh this.

The company has provided new GMC buses and its routes put 90 per cent of the city's homes within a quarter-mile of a bus to downtown, he says.

"In these two respects, Pontiac has an excellent bus system, much better probably than it normally would have as a city with a poorer-than-average record for patronage."

The third important factor in service—more frequent buses—would readily become a reality if patronage justified it, Pilson said.

Townsend graduated from the University of Michigan in 1940, worked as an accountant briefly before entering the Navy for a World War II hitch as a disbursing officer aboard an aircraft carrier in the Pacific, and after the war joined the accounting firm that audited Chrysler's books.

Townsend was married in 1940 to a college classmate, the former Ruth Laing. They live in a \$6,000 home at 2091 Orchard Road, Bloomfield Hills, with three sons, James, Charles and Richard, and pet poodle named Beau Chien.

Townsend likes to water ski, belongs to an exclusive country club but does not golf because it would take him away from home on weekends, and likes to read an agent history.

Memories of present and past feuds over municipal parking lots were awakened last night when the City Commission heard that Sam Stolorow, owner of private parking lots in downtown Pontiac, wants the city to do him a favor.

According to a letter to the commission from Elmer R. Johnson, Waterford Township supervisor, Stolorow wants permission to turn his home to that portion of the township's sewer system which is served by the city's sewage disposal system.

Stolorow's home at 425 Shore View Drive, Waterford Township, is only a stone's throw outside the boundaries of the Pontiac sewer area. Only the City Commission can add to the service area.

Johnson said that the soil in the area of Stolorow's home has become so inadequate for septic treatment.

At present, the city's methods of financing new parking lots is being challenged in behalf of Stolorow in the State Supreme Court. Oakland County Circuit Court has already ruled that the city's doing nothing wrong.

Owner of Store Gets Sentence

Ignored Food Inspector by Selling Brine That Was High in Bacteria

The owner of a Pontiac health foods store Thursday was sentenced to two days in the Oakland County Jail for selling a seasoning product against orders of a State Department of Agriculture food inspector.

Municipal Judge Cecil McCallum imposed the sentence on Champ W. Hoenstine, 50, owner of the Vital Health Foods Store, 690 W. Huron St.

He had pleaded guilty earlier to hindering a food inspector by selling a product he was ordered to keep in his custody.

James McCallum, county food inspector, said he had ordered sales of "Sea Brine," a seasoning produced by Florida Sea Brine Laboratories, Inc., halted in May after laboratory analysis showed too high a content of bacteria.

Since then, he charged, Hoenstine pasted new labels on the product and sold 59 more bottles of the product.

Leader Proves to Girls He's a Good Scout

AKRON, Ohio (U)—To 18 young women in Akron, 43-year-old Fred B. Resler stands as an example of a real good scout.

Resler became head of Girl Scout Troop 287 when it appeared that the Littlefield Junior High School troop would disband for lack of adult leadership.

His oldest daughter is a member of the troop, and Resler's wife, with a brand new son—wasn't able to become troop leader immediately.

The Akron father is assisted by Mrs. Thomas E. McQuay. He admits he sometimes is kidded about his work with the troop, but adds: "As long as I can believe in myself accomplishing a purpose, knowing these girls will be better citizens... let them laugh."

"In these two respects, Pontiac has an excellent bus system, much better probably than it normally would have as a city with a poorer-than-average record for patronage."

The third important factor in service—more frequent buses—would readily become a reality if patronage justified it, Pilson said.

SOMETHING MISSING—There's more missing from Herrington Elementary School this summer than pupils. Recently, vandals knocked the "EL" out of Elementary on a deck at the school. The whole thing is a little confusing to Kenneth Jahanke, 11, of

1246 Maurer St., who stops to wonder if his spelling has become a little rusty since classes let out in June. School maintenance men have the missing letters and promise they'll be back in place before classes resume in September.

Hurricane Toll Listed

TEGUCIGALPA, Honduras (UPI)—At least 300 houses were destroyed and one death was caused by Hurricane Anna when it ripped through Northwest Honduras earlier this week, it was reported Thursday.

UAW After 200,000

DETROIT (U)—Recruiting 200,000 white collar workers, mostly at General Motors and Ford,

an aim of the United Auto Workers Union. The UAW said Thursday it will launch the drive in September.

Kuwait Aids Tunisia

CAIRO (U)—Kuwait has donated \$1 million to Tunisia. Abdel Latif Shamlan, director of the Kuwait House in Cairo, said his government also has decided to send Tunisia a medical mission to assist victims of the Bizerte fighting.

State Police Nab 17,659

LANSING (AP)—State Police report they made 17,659 arrests in June, 16,107 for traffic offenses and 1,552 on criminal complaints. Police report they drove more than 1.8 million miles during the month.

Asphyxiated in Blaze

GRAND RAPIDS (U)—Edward M. Zeigler, 22, was asphyxiated

today in a fire at his trailer home in suburban Wyoming. Cause of the blaze was not determined immediately.

Wise One Checks Meter

MEMPHIS, Tenn. (UPI)—David A. Vance watched a woman pull up to a parking meter. The woman found some meter time left, but before she walked off, she put her ear to the meter to see if she could hear it ticking.

Comfort Station Finally Closed

City Commission Acts
to Clear Up Question
on Courthouse Site

City Commissioners, meeting last night, decided to take action on the Oakland County Courthouse in downtown Pontiac.

Not on the \$370,000 price tag placed on the site of the courthouse and prosecutor's office next door.

But action closing once and for all the adjacent public comfort station on West Huron Street.

The move will be taken Tuesday night and it won't mean much to the comfort station's been closed down for at least the past 15 years, if Mayor Philip E. Rowson's memory serves him correctly.

But some 43 years ago — on March 13, 1918 — the city agreed with the county to maintain the underground facilities "forever."

Despite its unmistakable time guarantee, eventually the agreement was tacitly forgotten by both parties after the comfort station had fallen into disrepair. Now the county wants the property but not officially dissolved so a prospective buyer won't be wondering if there has to be a public comfort station on the land.

As for the \$370,000 appraisal of the big site in the heart of downtown, commissioners heard City Manager Walter K. Williams review the figures but postponed any serious discussion.

It has been an off-the-record suggestion in a number of quarters that the city buy the land and hold it in event a welcome developer wants it someday.

The only official recommendation to this effect to date has come from the Downtown Development Group, the organization that is footling half the bill of the upcoming \$400,000 master plan for downtown redevelopment.

In off-the-record moments, City Hall leaders appear inclined to hold off doing anything about the courthouse until they see what the completed master plan has to say about the site.

Con-Con Dems Oft to Lansing to Plan Strategy

Most of the seven Oakland County Democratic constitutional convention delegates will travel to Lansing tomorrow morning for a party strategy session.

At the invitation of State Chairman John J. (Joe) Collins, the men, who will square off against a like number of Republicans Sept. 12, will gather at the Lansing Civic Center to get campaign material and listen to staff ideas.

Confirmed as attending the session of three sessions — the first one is in Detroit tonight for Wayne County nominees — are William A. O'Brien Jr., 12th District senatorial nominee; Avera Conn, 5th District state representative candidate; Hudson N. Tichen, 3rd District; Leo Walker, 6th District.

Leslie H. Ashton, the city's 2nd District nominee, said he had a previous engagement.

Candidates John C. Coleman, 1st District; and Thomas G. Kavanagh, 4th District, could not be contacted.

Bryant is accused of firing a 20-gauge shotgun three times at his brother-in-law, Mayor Bry.

Accused of shooting his brother during the course of an argument at the home of the accused.

Wounded in both legs and thigh, the victim later was reported in satisfactory condition at Highland Park General Hospital.

He was scheduled for amputation July 2. Bond of \$500 was continued.

Ex-Music Prof Dies

SAN FRANCISCO (AP) — Helene Faget, 96, a former professor of French and music at the University of Nice, France, died Thursday.

Business and Finance

Grains Ease Some in Slow Trading

CHICAGO — Most grain futures prices eased slightly today in slow early dealings on the board of trade. Settlements generally were within small fractions during the first several minutes although rice and soybeans were off about a cent in spots. Corn was steady in firm.

Dealers said there apparently were no new market factors to influence trade for the weekend and that the activity consisted of a limited commercial demand and probably some evening up of commitments.

MARKETS

The following are top prices covering sales of locally grown produce by growers and sold by them in wholesale package lots.

Quotations are furnished by the Detroit Bureau of Markets, as of Tuesday.

Detroit Produce

Changes of most key stocks were fractional, some going to a point or so.

Wall Streeters felt the pace of the three-day rally was to be strong to be maintained, especially in view of preweekend uncertainties.

Chrysler was heavily traded and up more than a point as it responded to overnight news that a new president had been chosen and that, although earnings were below a year ago, there was a report that the company was planning to raise its price.

American Tobacco and Metcalf-Wright also rose more than a point. Metcalf-Wright was about a point higher.

The general tone was irregular among metals, steel, nonferrous metals, utilities and electronics. Oil was lower and rails continued to edge higher.

AVCO continued active, opening unchanged at 25 on a large block of 10,000 shares.

Jersey Standard, although it reported higher earnings, was easy. Texaco was off about a point.

Small gains were made by Republic, American, and U.S. Steel. Eastern Air Lines, Raytheon and U.S. Rubber. Du Pont added a point.

Edgely was Consolidated. Edison Allied Chemical, United Aircraft, Radio Corp. and American Smelting.

American stock exchange prices were irregular. Gainers included Colson Industries, Syntex, Cenco Instruments and Anken Chemical. Among losers were Moylem-

er, Kaiser Industries, Arkansas Louisiana Gas and Loral Electronics.

Demolition Won't Harm Famed Horse's Grave

ST. PAUL, Minn. (UPI) — A demolition of a span of mules hitched to a wagon, taking high barriers, and jumping through a flaming bonfire.

The "old soldier" will continue to rest in peace here, even though this modern age is demolishing his beloved Ft. Snelling.

Whiskey arrived at the fort in 1921 with a consignment of Army horses from Montana, and caught the eye of young Lt. William B. Hazelrigg, 2nd Infantry.

A Kentucky gentleman and expert judge of horseflesh, the lieutenant recognized in the horse the makings of a fine mount.

Hazelrigg dubbed the animal Whiskey because of his drunken capers.

Under Hazelrigg's gentle hand, Whiskey became one of the most famous jumping and trick horses in the country, performing at military functions, fairs and other exhibitions.

Whiskey's repertoire grew through the years until it included:

Historic old buildings were razed and other landmarks cut away, but the engineers spared the grassy knoll under which Whiskey lies.

Four articles were adorning the headstone, a tribute from some unknown admirer.

Plans now call for a super highway to cut through the pass, so where Whiskey roamed for so many years.

Building Boom Being Bypassed

HONG KONG BUSINESS

Missing Out on Largest Deal in Local History

HONG KONG (UPI) — Hong Kong is missing out on the biggest home-grown deal of its life — that of putting building materials for its own construction boom.

A government report said recently that Hong Kong spent \$64 million on private construction last year and that this did not include the cost of building materials.

Oddly enough, local industrialists responsible for the building boom are getting the smallest taste of this pie.

The weekly Far Eastern Economic Review said a survey showed that Hong Kong industrialists were the slowest to take advantage of the market to build in supplying building materials.

OUTSIDER GAINS

The survey showed that the outsider is reaping the harvest and that this was how:

—Cement. Hong Kong needs about 500,000 tons of cement annually, and the single local cement factory produces about 150,000 tons. One-third is exported, and the remainder is supplied by outsiders.

—Reinforcing bars. These are reinforced locally. But imports of reinforcing bars by the end of this year will reach a record figure of nearly \$5 million.

—Window glass. Britain supplies the bulk. Japan is the second largest supplier. Other countries are Czechoslovakia and Poland.

Local sources can supply steel window frames but there is no competition from British and Belgian manufacturers, strongly represented locally.

The Review expressed surprise that Hong Kong, with plenty of available capital, was not taking advantage of the building boom.

Chain Supermarkets

Increase by 4 Per Cent

NEW YORK (UPI) — The latest news report by Chain Store Association shows a 4 per cent increase since last year in the number of U.S. chain-operated supermarkets.

The publication lists 3,387 food stores in the chain-operated supermarkets, 22,609 of them supermarkets. This compares with 28,375 stores a year ago of which 21,396 were supermarkets.

Chain Supermarkets

Increase by 4 Per Cent

NEW YORK (UPI) — The latest news report by Chain Store Association shows a 4 per cent increase since last year in
