School Vote to End Month's Hard Work

A month's labor by school officials and interested laymen will culminate in a vote tomorrow on renewal of the Pontiac school district's extra voted tax levy.

The vote will be restricted to property owners because of the 10-year term of the proposed millage. A state constitutional provision limits the vote to property owners on any millage for longer than five years.

Spurred by the 40-

member Pontiac School Study Committee, the intensive millage campaign began Labor Day.

School officials have emphasized that the millage proposition is merely a renewal of existing levies. The extra voted 8.75 mills was first passed by school district voters in 1954. The vote was 2,570 yes to 1,943 no.

APATHY FEARED

Although no organized opposi-

tion has appeared, school officials are concerned that voter apathy may hurt the proposition's chances at the polls.

However, the millage campaign received a boost this week with endorsements from two city groups.

Speaking from the City Commission table, Mayor William H. Taylor Jr., Tuesday urged residents to support the millage renewal.

The Pontiac Area Urban League's Board of Directors voted unanimously to back the ballot proposal.

STUDY MADE

Prior to the actual election drive, the Pontiac School Study Committee, a citizens group, studied school costs and finances.

After reviewing projected needs and costs, the committee recommended the millage proposal to go before voters tomorrow.

Lay persons have made some 25 speeches before service, fraternal and professional groups. In addition, board members and administrators have also appeared before local organizations.

A door-to-door informational drive has been conducted under the direction of the Pontiac Council of PTAs.

CAMPAIGN COSTS

Printed materials and other campaign costs have come from private contributions. About \$1,200 has financed the millage drive by a committee headed by Irving Steinman.

"We voted" cards, reminding parents to vote, will be taken home by school children tomorrow. Similar "I voted" tags will (Continued on Page 2, Col. 1)

Tail Section of Thresher Said Located

WASHINGTON (AP) — The Navy said today that underwater search operations this summer located the tail section of the sunken submarine Thresher and the sub's tail bearing her number, 593.

This was the most conclusive evidence yet of the location of the nuclear submarine, which went down with 129 men aboard in April 1963, during deep-dive tests off the New England coast.

The Thresher was lost in about 8,400 feet of water, some 220 miles east of Boston.

A year ago, after months of inspection and photographing of the ocean bottom by the bathyscaphe Trieste, the Navy produced a twisted pipe, which it said came from the Thresher, plus reports of sizable hunks of metal wreckage.

The hull of the sub was never pinpointed further until today.

Nab Area Man in Detroit Raid

Among 17 Arrested on Gambling Charge

A Commerce Township man was among 17 persons arrested yesterday as federal agents and state police staged 16 simultaneous gambling raids in Detroit and surrounding communities.

Louis "Rip" Koury, 61, 1515 Midwood, who had been named by former Detroit Police Commissioner George Edwards as a "Mafia lieutenant," was picked up in Detroit.

Police raided the Koury home in Commerce Township to arrest the suspect but he wasn't home. No gambling operations were uncovered at Koury's house.

Three others arrested had also been identified by Edwards as Mafia lieutenants. They are Dave Feldman and Joseph Triglia of Detroit and Anthony "Black Tony" Teramino of Grosse Pointe.

Lawrence Gubow, U.S. attorney for the eastern district said about \$6,000 was seized in the simultaneous raids in Detroit, St. Clair Shores, Redford Township and Roseville.

MANY RECORDS

Gubow also said "voluminous" gambling records and equipment were also found.

All of the arrested except Teramino were arraigned before Federal Court Commissioner Frederick Johnson Wednesday on charges of failing to obtain a federal gambling permit, Gubow said.

He said Teramino would be arraigned today.

Another person was sought in connection with the raids, Gubow said.

Gubow said the raid was the state's biggest since police and federal agents invaded Detroit's now razed Gotham Hotel in November, 1962.

In the Gubow raid, 42 were arrested and what authorities termed \$42,000 in gambling receipts was seized.

Atlantic, Gulf Ports Tied Up

Board Probing Dock Strike

Hurricane Now Packs Winds of 125 M.P.H.

Louisiana and Texas Are Likely Targets; Lowlands Cleared

NEW ORLEANS (AP) — Hilda became a severe hurricane packing winds of 125 miles an hour—as she plowed through the Gulf of Mexico today trying to make up her mind where to strike inland.

All along low-lying coastal areas, residents scurried inland to the safety of higher ground as they remembered previous killer hurricanes.

The Weather Bureau, in its 10 a.m. CST, advisory, upgrades Hilda to "severe status." There is still no indication when or where Hilda would push her howling winds inland; but Louisiana or possibly Texas appeared the prime targets.

The Weather Bureau continued to say that Hilda would veer from her present northwesterly course toward the north.

At 10 a.m., Hilda's eye—the deadly calm center of low pressure from which furious winds are spawned—was 350 miles south of New Orleans, or about 300 miles from the nearest land mass, near latitude 24.8, longitude 90.9.

The Weather Bureau said portions of low-lying coastal roads in Louisiana would probably be flooded tonight.

The Weather Bureau said a slight increase in Hilda's size and intensity was likely today.

NO GUESSES

Weather Bureau forecasters wouldn't hazard a guess as to when or where the hurricane might strike inland.

If Hilda doesn't veer to the north—as the Weather Bureau predicts—her present course would take her to the densely populated Texas Coast.

A turn to the north would send the hurricane hurtling toward the marshy Louisiana Coast.

The threat of Hilda caused the Atomic Energy Commission to postpone for the fifth time its scheduled underground nuclear detonation in the Tatum salt domes near Hattiesburg, Miss.

REPORT FROM SHIP

The New Orleans Coast Guard said it had radio reports from the motorship Cornelia B. III that it was being buffeted by winds and high waves north of Hilda's eye.

Baker Hearings Reopened With Illegal Payoff Charge

WASHINGTON (AP) — The once-closed Bobby Baker hearings reopen today for investigation of a Republican senator's charge of a \$35,000 political payoff on the District of Columbia Stadium contract.

Key figures in the probe are Baker, resigned secretary to the Senate's Democratic majority; Matthew McCloskey, Philadelphia contractor, Democratic fund raiser, and former ambassador to Ireland; and Don B. Reynolds, a local insurance agent.

Instead of plunging into the payoff charge, the Senate Rules Committee called District officials as the lead-off witnesses for testimony about details of the Stadium project, the letting of bids, subsequent changes in the contract and related matters.

Father Keeps Children

Happy Loses Custody Suit

WHITE PLAINS, N.Y. (AP)—Mrs. Nelson A. (Happy) Rockefeller lost her fight today for custody of the four children she gave up to marry the governor of New York.

State Supreme Court Justice Joseph F. Gagliardi, who heard the case behind closed doors earlier this month, refused to return custody of the children to Mrs. Rockefeller.

Gagliardi said he found no grounds for altering the Sun Valley, Idaho, divorce terms of April 1, 1963, awarding primary custody to the former husband, Dr. James S. Murphy, by mutual agreement.

Mrs. Rockefeller retained liberal visiting rights under the agreement.

"The court is of the opinion that the best interests of the children will be promoted by allowing them to remain in the custody of their father," the judge said.

Mrs. Rockefeller filed her suit after Murphy's remarriage June 10. She alleged that the custody arrangements were affecting the children's health.

Late Summer Will Continue

Indian summer weather will continue through Saturday. It'll be partly cloudy and warmer tonight with lows 43 to 50 expected.

Warmer weather is predicted for tomorrow with considerable cloudiness. Highs in the 70s are forecast. The outlook for Saturday is fair and mild.

Winds were light and variable this morning. They became southeasterly at 10 to 20 miles this afternoon, and will be southeasterly at 10 to 20 miles tonight and tomorrow.

Forty-two was the low mercury reading preceding 8 a.m. today. At 2 p.m., the thermometer read 72 in downtown Pontiac.

Longshoremen Term Walkout '100 Per Cent'

80-Day 'Cooling Off' Period to Be Asked Under Taft-Hartley

NEW YORK (AP) — A presidential fact-finding board started an inquiry today into the dock strike that tied up ships from Maine to Texas at midnight yesterday.

Some 60,000 longshoremen walked off their jobs in what their leader termed a 100 per cent effective strike.

Herbert Schmeitz, head of President Johnson's board of inquiry, talked for 45 minutes today with Alfred Giardino, attorney for the New York Shipping Association, the key management firm.

Giardino presented the shipper's side of the dispute. Union representatives were scheduled to appear later in the day.

Schmeitz said the three-man panel would meet before he goes to the President to deliver the board's report in person.

MUST BE EMERGENCY

"It must determine there is a national emergency before the government can obtain a Taft-Hartley Act injunction setting an 80-day cooling off period, during which longshoremen would return to work."

New York's Waterfront Commission reported that the port was "very quiet and without incident" during the night. The AFL-CIO International Longshoremen's Association has at least two pickets on each of the 100 piers, the commission said.

"Not even a raft is floating down the river," said IILA President Thomas W. Gleason.

However, two Transatlantic liners docked in New York City this morning — the Sylvania and the Leonardo Da Vinci. White collar workers helped the 1,800 passengers on the two vessels unload their luggage.

President Johnson named the three-man board of inquiry late yesterday, but too late to head off the midnight strike.

The board acted quickly today to report to the President before midnight.

Meantime, pickets walked on the piers.

ORDER EXPECTED

A return to work under a federal, court-injunction was expected by Monday or earlier.

Shipping circles estimated a loss of more than \$20 million in the nation's economy for each day the docks are idle.

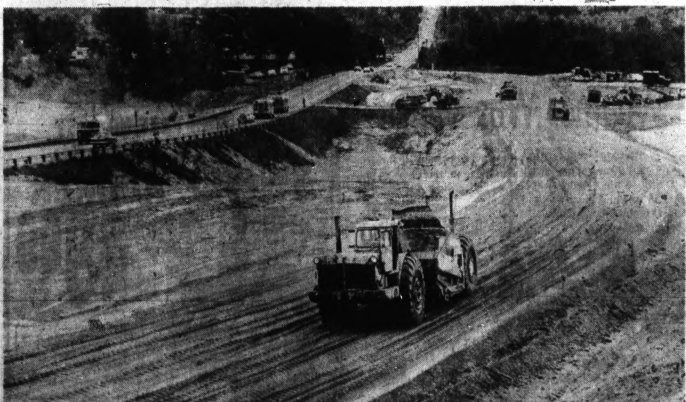

Threatened loss of jobs through automation of cargo handling was a major factor in the "no contract, no work" demand by the AFL-CIO International Longshoremen's Association which began a minute after midnight.

Some longshoremen jumped the gun in New York and began quitting work on the luxury liners as early as 5 p.m. Wednesday. Clerical employees were put to work handling passengers' luggage and three big ships — the British Queen Mary, the American Independence and the German Bremen — sailed during the night.

DATES ADVANCED

For the past few days shipping companies — especially in the vast port of New York — had advanced some sailing dates by the AFL-CIO International Longshoremen's Association which began a minute after midnight.

(Continued on Page 2, Col. 1)

GROUNDWORK FOR FREEWAY — Preliminary work for the \$11.5-million Pontiac-to-Utica M-59 freeway is well under way, as shown by this view of M-24 (Opdyke) south of Featherstone. Machinery in the foreground is building up the roadbed for temporary relocation of Opdyke. The short detour will carry traffic around construction of an overpass which will carry Opdyke over the new freeway.

Efforts Spurred for End to Strike

DETROIT (AP)—The United Auto Workers union moved efforts today to settle local demands at strikebound General Motors plants across the nation and reach agreement on a new labor contract.

UAW President Walter Reuther disclosed to newsmen after another day at the bargaining table Wednesday that 11 members of the union's national negotiating committee were going back to their home local.

These negotiators, Reuther

said, would do what they could to help settle more than 17,000 local at-the-plant demands which he described as the key to ending the nationwide walk-out.

Other members of the national negotiating team were remaining in Detroit to continue discussions with the company on over-all problems, Reuther said.

ON LOCAL LEVEL

Bargaining on the local level appeared to be picking up in momentum, he observed, but sending national negotiators back to their home locals might provide an extra psychological boost.

The UAW president said he expected the negotiators to return to Detroit in three or four days.

Asked if a settlement might come and the strike end on the day they returned, Reuther replied: "It's possible."

CALLED FRIDAY

The strike of some quarter-million GM workers was called last Friday when bargainers failed to reach agreement on national representation issues such as working conditions, union representation and subcontracting.

It has halted the production of 1965 models by the world's largest auto maker. GM makes Chevrolets, Buicks, Pontiacs, Cadillacs and Oldsmobiles.

Not all of the company's operation has been shut down. In its selective strike strategy, the UAW ordered workers to continue on the job at factories turning out parts and accessories which are bought by GM's chief competitors—Ford and Chrysler.

But layoffs were due to hit some parts plants today because of a cutback in production.

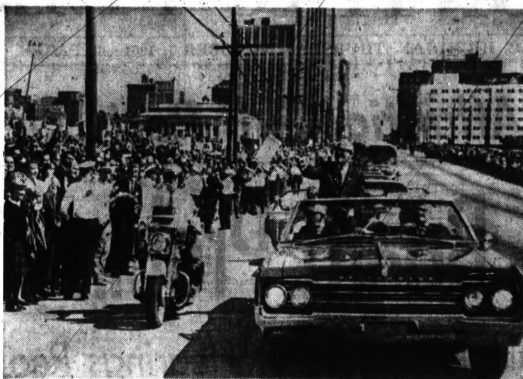

WORKERS RELEASED

GM announced it was releasing about 5,000 workers at its Harrison Radiator Division plants at Lockport and Buffalo, N.Y.

Another 4,300 layoffs were expected Friday night at the AC Sparkplug and Terntest Division operations in Flint, Mich., and about 100 workers were sent home from the Saginaw (Mich.) Steering Gear plant.

Strikers will become eligible for benefits from the UAW's \$67 million strike fund after the walkout has been in effect for a week, with first payments due on Oct. 9, a UAW spokesman said.

Benefits range from \$20 a week for a single worker to \$25 for one who is married and \$30 for a striker with children.

WAVES TO CROWD — Sen. Barry Goldwater, riding in an open car, waves to the crowd assembled along the streets of Columbus, Ohio, on his way to a speech at the Veterans Memorial. The Republican presidential nominee spoke last night in Toledo.

bus, Ohio, on his way to a speech at the Veterans Memorial. The Republican presidential nominee spoke last night in Toledo.

Barry Launches Indiana Drive

'U.S. Asia Position Virtually Collapsed'

WITH GOLDWATER IN INDIANA — Sen. Barry Goldwater launched a fighting drive for Indiana's 13 electoral votes today with the assertion that the U.S. position in Asia "has virtually collapsed" because of a "sleepwalker peace" maintained by President Johnson.

Goldwater, GOP presidential nominee, swung into action for a seven-step day of whistle-blowing with a morning appearance at Jeffersonville. Police estimated the crowd at 700.

In a speech prepared for Indianapolis at noon, Goldwater said without explanation that the Chinese Communists are "preparing to set off a nuclear bomb that might well be heard around the world."

In the face of such a prospect the Arizona senator said Johnson is giving more attention to politics than to foreign and domestic crises.

In Jeffersonville, Goldwater called for the election of a Republican Congress he said would be responsive to the wishes of the people rather than a Congress similar to the present one which he said takes orders.

REAL ENEMY

Goldwater called President Johnson "the real enemy of Social Security" because the President has advocated financing health care for the elderly through Social Security taxes. He said additional taxes of this kind would bankrupt the system.

The GOP nominee said the Senate's approval of the health care plan indicated it had become "the weak" house of Congress. He said the Senate originally was supposed to correct House mistakes, but now the roles had been reversed.

The crowd shouted "no" when Goldwater asked, "Do you want a government of one man?"

The Arizona senator spoke in eight Ohio cities Wednesday, and the large applauding crowds left him pleased with his prospects for carrying that politically vital state.

Goldwater said in an interview that Rep. Robert A. Taft Jr., candidate for Wednesday, from Ohio, and Rep. Oliver Bolton, candidate for Ohio congressman-at-large, "are running strong."

RUNNING STRONG

He added: "If they are running strong, I am running strong."

—He said former Vice President

Richard M. Nixon and former President Herbert Hoover had advised him to fire at Johnson the "soft-on-communism" charge he had made against the President in Ohio and was prepared to repeat in Indiana today.

In his last Ohio appearance, in the fieldhouse of the University of Toledo Wednesday night, Goldwater was heckled by an

organized group of students. He tried to quiet them by saying he believed most of them were ladies and gentlemen and would hear him out.

In his new attack on Johnson, the GOP nominee said there was a "sleepwalker peace" in which "Americans are asked to give their lives in Viet Nam, in return they are given double talk and evasion."

GOP Caravan Due in Oakland County

The "GOP Caravan," a parade of 20-30 cars and a sound truck, bearing national, state and local candidates running for election, will again be crisscrossing Oakland County starting on Friday.

Elly Peterson, Republican candidate for the U.S. Senate, will head the first caravan, and Gov. George Romney, seeking reelection, will lead the tour on Saturday.

Mrs. Peterson's schedule includes a handshaking tour at the Pontiac City Hall, 35 S. Parke, at 2:15 p. m.

OK Upgrading of Interchange to Kensington

A million-dollar interchange modernization project at the entrance to Kensington Park on I-96 has been approved by the State Highway Department.

Plans are to improve the ramp layout and add additional ramps to handle the heavy volume of traffic using the present interchange to enter Kensington Park during the summer months.

The bridge carrying I-96 over the mouth of Kent Lake just west of the interchange area will be widened from four to six lanes.

The department plans to widen 18.5 miles of I-96 between Novi and Brighton from four to six lanes.

The work is scheduled to begin next year, the Highway Department announced.

During September Weather Was Varied

True to the old adage, "If you don't like the weather, just wait a little while," there was weather to suit just about every individual preference in the Pontiac area last month.

September provided 14 sunny or fair days, and six mostly sunny. There were two cloudy days and four mostly cloudy.

It rained on eight different occasions, but only four of them could be called "rainy" days.

A total of 1.15 inches of rain fell, and it was nicely spread over the month so you didn't have to use the lawn sprinkler.

This compared with a rainfall of 2.85 inches in the previous month and 1.2 inches in September 1963.

The average rainfall for September in this area is 2.84 inches, according to the weather bureau.

There were four days of "hot" weather 88 to 92 degrees. The mercury hit 92 on Sept. 8.

The low was a chilly 39 degrees on the night of Sept. 28.

The mean temperature for the month was 63.7 degrees compared with 67.3 in August and an average or normal mean of 65.1 for this area for September over the years.

LITTLE COOLER

All in all, September was a little cooler and drier than normal, with a pleasant helping of sunshine.

Seeks Charges on Three Men

Were Released in Gambling Club Case

Oakland County Senior Assistant Prosecutor Robert L. Templin yesterday moved to have gambling charges reinstated against three men in connection with a police raid on the Stieren Assembly Club in Madison Heights a year ago.

In filing his request for review of the case with Circuit Court Judge Stanton G. Dondero, Templin also asked that the trio along with 21 others be bound over to Circuit Court on four charges of conspiracy and violation of state gaming laws.

On Sept. 18, Farmington Township Justice Allen C. Ingle dismissed charges against the three while binding over three others on four counts and the remaining 18 defendants on two counts.

Templin is also requesting that Dondero allow photographs to be admissible and to give a ruling on a state gaming law case which Ingle said was not applicable to this particular case.

During the justice court examination, Ingle ruled that the photographs, used by a witness to identify the defendants, could not be entered into the case.

At the same time, Ingle declared that Section 301 of the state statute was not applicable since it pertained only to "book-making" or a game that was not a dice game or blackjack game or a normal gambling operation, according to Templin.

The 24 men were arrested following a state police raid on the club last Oct. 11.

An equal number were arrested and charged with frequenting a gambling establishment.

They are waiting examination in the lower court pending the outcome of the Circuit Court trial of those charged with the more serious offense.

UAW Tells Schedule for Strike Benefits

The payment of strike benefits will begin Oct. 12 if the dispute between General Motors Corp. and the United Auto Workers is not settled by tomorrow, according to union officials.

Andy Wilson, UAW Local 594 president, announced the schedule today for the payment of benefits.

Registration for benefits will continue through tomorrow according to the last digit of social security number.

A similar schedule will be followed in paying strike benefits, he said. UAW members in good standing should report to the union hall at 525 S. East Boulevard.

Those with Social Security numbers ending in 6 or 7 can register today from 9 a. m. to 5 p. m., and numbers 8-9 can register tomorrow.

Wilson said that if anyone not laid off or on sick leave has not registered according to the digit schedule for earlier this week, they can register today or tomorrow.

Only Stopped to Clear His Throat

Steady Stream of Conversation From Bus Passenger

(EDITOR'S NOTE — Another report by a UPI correspondent who is touring the country by bus to take stock of moods and talk in this election year.)

By LOWRY BOWMAN

EN ROUTE TO KANSAS CITY (UPI) — There were four meaningless buttons on the lapel of his out-of-the-elbow coat. He talked to anyone who would listen, and if no one listened, he talked anyway. When he stopped, it was only to clear his throat.

He was the first to board the 8 p.m. bus in Chicago bound for Kansas City. He started his monologue as soon as the driver shut the door.

"I got a buddy in Kansas City said to look him up and he'd get me a job," he said.

"He was in the vet's hospital when they kept me in the vet's hospital 18 years. Wouldn't give me an operation until my sister wrote a letter to Washington. Then they went to work, boy. Being a veterinarian don't mean nothing to those people."

An elderly man across the aisle asked what kind of work he did.

USED TO WORK

"I used to work around Gary, Ind.," he said. "I was back there last week, and you know what they're doing now? They're bringing down workers from Canada, paying their way to come down there, and they won't even talk to Americans."

"A fellow in the hotel there where I stayed told me about it. That's how I come to find out about it. I said to hell with that."

The man across the aisle said he was going to try to sleep a little before the bus got to Peoria at midnight.

"You can't sleep on these buses," the talker said. "The minute you doze off they pull into some little jerkwater town, and the lights wake you up. I bet I don't sleep five minutes on a bus. It was the same way in the vet's hospital. They kept waking me up there for 18 years. They don't care nothing about a veteran."

CHICKEN FEED

"All they ever gave me was a little 10 per cent disability. That's chicken feed."

The bus made an unscheduled stop at a roadside settlement to pick up a woman and two children — all three waving handkerchiefs to catch the driver's attention. The talker bounded off before the driver could stop him. He said he had to get a pack of cigarettes.

The driver sat drumming his fingers on the wheel, and the other passengers all began talking about what a nuisance the man was.

"Ought to go off and leave him," one woman said. The driver said nothing.

SECONDS LATER

He came back seconds later carrying two hot dogs and a paper cup of coffee.

"You get for the night now?" the driver asked.

"I paid 65 cents for two hot dogs and a cup of coffee in Chicago," the man said. "Got 'em here for 25 cents."

He arranged his food on the seat beside him and resumed his speech.

BIG SIGN

"They had a big Goldwater sign in that restaurant," he said. "You know what I heard? I heard Goldwater is gonna repeal the income tax. The poor man won't have a chance in this country if they let the Republicans in."

The woman who had suggested the driver leave the man behind turned around. "Have you ever paid any income tax?" she asked.

"Income tax is the only thing kept this country going during the depression," he said. "Democrats or Republicans, you can't trust any politician. They're just looking out for themselves. Ain't a one of 'em gives a damn about the poor man except to get his vote."

You ought to see the way they run those vet's hospitals. I know. I was in one for 18 years."

FIT OF COUGHING

A fit of coughing shut him up for a while, and he had dropped off to sleep when the bus stopped at Quincy, Ill., at 3:30 a.m.

He woke up, looked around, and got off, apparently to go into the station restaurant. But he didn't come back when

it was time for the bus to leave. The driver waited an extra five minutes and tooted his horn several times, but the man was

nowhere around the station. "Did he have any baggage?" a woman asked.

"No, he didn't have a thing," the driver said. "Reckon he never did."

Humphrey Visit Tops State Political Events

By the Associated Press
Democratic vice presidential aspirant Hubert H. Humphrey paid his second campaign visit to Michigan Wednesday, top-

SPEAKS IN DETROIT — Sen. Hubert Humphrey of Minnesota, Democratic candidate for vice president, speaks to a noontime crowd in Kennedy Plaza in downtown Detroit yesterday. Mrs. Humphrey (left) smiled as the senator made a quip about a soft drink, "Gold Water," being taken off the market in Michigan.

ping the list of state political events. The Minnesota senator promised a National Guard convention the United States has "no intention of pulling out of Southeast Asia" and said his military audience could dispel "any doubts you may have over continuity" of the Guard.

Later he told a Detroit street rally that Republican presidential nominee Barry Goldwater's soft-on-communism charge against President Lyndon Johnson is the "last argument of a dying political man."

SEARCH FOR NOTES
Meanwhile Michigan's two major gubernatorial candidates continued to traverse the state in search of votes.

Republican incumbent George Romney concentrated on the Detroit area, touring shopping centers and shaking hands on street corners, while his Democratic rival, Neil Staebler, turned his attention to the Grand Rapids area, visiting plant gates and coffee hours.

Romney's schedule for today called for few campaign stops. The governor was to make an evening speech at a dinner of the National Guard Association of the United States, which is concluding its 86th general conference in Detroit.

Staebler, congressman and Ann Arbor business man, planned to spend the afternoon in Detroit, appearing at a

luncheon meeting of Hamtramck officials and two senior citizens groups before attending a pancake supper for Rep. Martha W. Griffiths and a voter registration rally at a Detroit church.

OAKLAND VISITS.
Staebler scheduled a number of appearances in Oakland and County for Friday, while Romney planned to concentrate again on the Detroit area.

Attack Fatal to Broker
DENVER, Colo. (AP) — John H. Maher, 72, a produce and fruit broker in the United States and Canada for many years, died Wednesday night. He had suffered from a heart ailment for a year. He had been in the produce brokerage business in Regina, Sask., Canada; Milwaukee, Wis., and Kansas City for 36 years.

The hands of convict labor granite that face the Scotland from Dartmoor Prison hewed Yard building up to the second and dressed the 2,500 tons of story.

NOTICE OF BID TAKING

Sealed bids will be received until 10:00 A.M., Wednesday, October 14, 1964 at the Michigan State Highway Department, 926 Featherstone, P.O. Box 3054, Pontiac Michigan, for the boarding of houses being acquired with the Right of Way for the construction of highways in the counties of Wayne, Oakland and Macomb. For information concerning the submission of bids, and boarding specifications, please contact the Property Manager, Ronald T. Piper, at the above address or phone Federal 3-7801 or 335-0224.

Elect Board for Boys' Club in Waterford

Glen Treadway, 2340 Terness, was elected president Tuesday night of the Boys' Club of Waterford Township board of directors.

Other newly elected officers are John Stefanski, 1157 W. Huron, vice president; Robert Smithson, 3441 Hanford, secretary; and Elmer Fangbender, 3327 Meinrad, treasurer.

Twelve new directors were elected for the 24-member board.

They are Judge Fred Ziem, James Clarkson, John McGrath, Harold Richardson, Darwin Richardson, Ralph Strohm, Waterford Police Sgt. Charles Griffith, Don LaMar, State Police Sgt. John Amthor, Captain Clayton Sconrainte of the Waterford Fire Department, William Bigler and Dr. William Crommett.

Kansas is said to be the geographic center of the United States.

Education Act Said Threat

WASHINGTON (AP) — Congressmen Robert Griffin of Michigan and four other House Republicans said Wednesday a bill to broaden and extend the National Defense Education Act threatens to involve the government in politically sensitive subjects.

The bill, agreed upon last week by House and Senate conferees, comes up for final action in the House today. The five said they would try to have it sent back to conference.

Reps. Peter Frelinghuysen, N.J.; Albert H. Quie, Minn.; Charles E. Goodell, N.Y.; Griffin, and Paul Findley, Ill., all are members of the House Education and Labor Committee.

The Education Act, as originally passed in 1958, was aimed at strengthening the teaching of mathematics, science and languages. The bill now being considered would extend federal aid also to the teaching of history, English, geography and civics.

To Coincide With '68 Olympics

San Antonio Is Planning Huge Fiesta

(EDITOR'S NOTE—The San Antonio business community has taken an idea from Rep. Henry B. Gonzalez, D-Tex., for a "Fair of the Americas" and turned it into a proposed \$85-million exposition for 1968, the 250th anniversary of the founding of the city. Thus far, it has met with enthusiasm.)

SAN ANTONIO, Tex. (AP)—Long noted for its fiestas, this Spanish-American city wants a fiesta to top all fiestas on its 250th anniversary in 1968.

Plans center on an \$85-million HemisFair — hemisphere fair — to salute all the Americas.

San Antonio, a city of 700,000 where the name Rodriguez appears as often as Smith, is a center of inter-American culture and trade.

Rep. Henry B. Gonzalez, D-Tex., said two years ago it would be fitting for the city to be host for the first "Fair of the Americas."

PAST TALKING

His idea now is well past the talking stage. Money has been raised and a staff hired.

Official Reminds
State of Coming
Vote Deadline

LANSING (AP)—Michigan residents have until next Monday to register for the Nov. 3 general election, says Secretary of State James Hare.

Those who must register are persons who have not voted or registered in the last two years or who have moved since they last voted.

Thousands of voters will disenfranchise themselves through their own negligence, he said. Many clerks have notified him registration rolls are down from two years ago, Hare said, due mainly to Michigan's new two-year registration law.

"The number of votes for governor in this year's primary is rather a graphic illustration of voter apathy," he said. "Our official canvass showed that 1,174,511 votes were cast. This is far short of the 1,436,546 record total cast in the gubernatorial primary in 1962."

To Finish Freeway
in Muskegon Area

LANSING (AP)—The final section of the U.S. 31 freeway from Muskegon to Montague will be completed and opened to traffic Tuesday, the State Highway Department reports.

The project will complete the 17-mile long, \$10 million freeway from Muskegon north to existing U.S. 31 north of the twin cities of Whitehall and Montague.

The more than three-mile section to be opened to traffic Tuesday extends from Colby Rd. north to existing U.S. 31 and includes an interchange and two overpasses.

Federal Judge Expires

NEW HAVEN, Conn. (AP)—Carroll C. Hincks, 74, who served 28 years as a federal judge after his appointment by President Herbert Hoover, died Wednesday. Hincks was a judge of the 2nd U.S. Court of Appeals when he retired in 1959.

DOWNTOWN PONTIAC

Backers want nothing short of the Seattle World's Fair of 1962. Ewin Dingwall, who directed the Seattle fair, has a \$40,000-a-year post to stage HemisFair.

Much of the enthusiasm may have been prompted by the picture painted by a research firm that said:

"HemisFair will create 40,000 man years of employment directly and indirectly.

RETAIL SALES
"During its construction, HemisFair will increase retail sales \$174 million.

"A total of \$86 million to \$112 million of new wholesale sales will be generated."

Earlier this year voters overwhelmingly approved the largest bond program in the city's history — a \$30-million issue geared mainly to support HemisFair.

A \$10-million convention center forming a hub of the fair was included.

FAST MONEY

It took Bill Sinkin, department store chain owner and president of the fair, and his group only five months to have \$7.5 million underwritten by businessmen.

The fair will spread over an 85-acre urban renewal area on the fringe of downtown. It is bordered on one side by the Alamo and on another by La Villita, a cluster of buildings of the original San Antonio.

Permanent buildings, to be used only temporarily by HemisFair, will be constructed when structures in the urban renewal area are demolished.

After a 184-day run, the fair will leave to the city the convention center, exhibit areas, an inter-American trade institute, stadium, military museum and library. Any profits go to the city.

RIVER DIVERSION

Architects have plans to divert part of the San Antonio River, which winds through downtown, through the fair grounds.

Dingwall said response from North and South America has been encouraging.

Each country in the western hemisphere with the exception of Cuba will be invited to build a pavilion or exhibit area.

The Olympics are in Mexico City in 1968. San Antonio will be the funneling point for tourists traveling to Mexico City. HemisFair will open before and close after the games.

Even the Best
Can Be Bad

ANCHORAGE, Alaska (AP)—The sound of off-key violin playing is pretty terrible even when the instrument is played by Isaac Stern.

The sour notes came when Stern, here for a concert tonight, met Lee Wilkins, 7, Anchorage violin student. Lee and Stern bowed their way through the scales. Stern asked for an encore and accompanied the boy — a half note off key.

Stern said the concert fulfills a lifetime desire — "to play my fiddle in all the states."

Nepal, U. S. Linked

KATMANDU, Nepal (AP)—King Mahendra of Nepal and President Johnson exchanged greetings Wednesday as the Himalayan kingdom inaugurated its first international telephone and telegraph service. The wireless equipment was built with U.S. aid.

Why Must Lions Take Back Seat to Tigers?

If ever-patient sports fans were told to go jump in the lake, it was in this area last weekend.

Professional football teams play Sunday afternoons, but on that day the uninspiring Tigers droned through their 155th game of the year before 4,170 apathetic spectators. The next evening the Lions were "allowed" to play their first home game of the season. They had been arbitrarily shunted aside to make way for the bleak, feckless Tigers and a dismal handful of yawning spectators.

Monday evening when the Lions were "permitted" to play, 59,203 fans broke all stadium records as they jammed their way into the stands. And a line a block long was regrettably shut out.

Why couldn't the 155th baseball game have been graciously and graciously sidestepped until Monday afternoon—or Monday evening—or even tossed into the ash can forever? The Lions only play seven scheduled home games a year and a team which can draw 59,900 instead of 4,000 and pays heavily for the privilege is an all star customer.

The Lions pay a quarter of a million-dollars annual rent for those seven games and if you had a customer like that in your business you'd bow through deference, respect and a tremendous secret joy. The receipts for the game the Tigers played that Sunday must have run a piddling few thousand dollars, whereas the rental for that single game from the Lions ran around \$30,000. Just to make the Tiger management look even worse, the baseball company gets all the rental from the concessions. And Monday was probably the biggest single day of the year. Few businesses anywhere manage to thumb their noses so completely at their biggest and best customer.

And the spectators?
Nuts to them.
They can like it or lump it.

France's Economy Hit by the Facts of Life

The economy of France is moving along pretty well these days, and the government has set up a balanced budget—the first in 38 years—and announced a tax cut. But if it isn't one darned thing, it's another. The social security system is faced with bankruptcy.

The French system is older than ours—founded in 1928—and faced with the same political pressures. That is, nobody likes the increased taxes they require, but everybody wants liberalized benefits.

Now, the Labor Minister says that "the financial breaking point is near. The solution cannot be found in the framework of the present system."

The French system has come unstruck on its medical care feature. Despite the fact that every French worker pays 6 per cent of his earnings into the fund and every French employer pays a whopping 18 per cent of his payroll, there just isn't enough money to cover the benefits.

It is admitted that taxes can't go any higher. The cost is nearly one franc of every four earned. Such taxes must go into the prices of French goods, which are already

priced so high as to be difficult to move in the world markets upon which France is dependent.

Despite the high taxes for Social Security, the medical benefits have been so costly that the government has not been able to pay livable old age pensions. So the prime objective of social security has had to give way to a secondary one—and even so the whole system is now threatened.

It's something to think about when there are strenuous efforts being made to add medical care to our own social security system. Our system is younger, our taxes still are less than those paid by the French, but we are moving in the same direction.

The future of our system can now be glimpsed in France, unless we demand an end to political tinkering in this important area.

Report Slapped Secret Service

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The U.S. Secret Service, whose job is protecting presidents, didn't come out of the Warren Commission's investigation smelling like a rose. Anything but.

After it got through investigating the assassination of President John F. Kennedy in Dallas, the seven-man commission headed by Chief Justice Earl Warren blamed the Secret Service for a number of short-comings.

This agency has had the task of protecting presidents since at least 1902. The picture of it which emerges from the commission's report makes it look unimaginative, understaffed and out-of-date.

It's no wonder, after reading the commission's criticism, that the Warren group raised this question: Should the Secret Service be further entrusted with protecting presidents or should some other agency be given the job?

The commission called the service "inadequate," which seems like a mild word under the circumstances—in its advance preparations for Kennedy's trip to Dallas; its plans for identifying and protecting against persons considered threats to a president; its rules for even determining who such persons are; and its plans for detecting an assassin in buildings a presidential motorcade passes.

At the time of Kennedy's trip to Dallas, the commission said, the Secret Service "as a matter of practice" did not investigate or cause to be checked any building along the motorcade route taken by the President.

FROM SIXTH FLOOR WINDOW
Lee Harvey Oswald, who worked in the Texas School Book Depository which the Kennedy motorcade passed, shot the President from a sixth floor window.

The commission complained that the Secret Service's protection was "too largely directed at the 'crank threat' and not enough toward other individuals or groups which could be considered a source of danger.

Oswald is an example. Although he had defected to the Soviet Union, then returned, distributed pro-Castro pamphlets, then tried to leave for Cuba and the Soviet Union again, and was investigated by the FBI, the Secret Service had no record of him in Dallas.

How did this happen? Because the Secret Service's main interest has been in persons making direct threat against the president, the FBI did not send it information on Oswald.

SEEMS UNFAIR

The commission criticized the FBI for not doing so, although to this writer it seems unfair criticism, and the commission itself said its conclusion may be "tinged with hindsight."

It's questionable that if the Secret Service had learned of Oswald from the FBI—since he had made no threat against Kennedy—it would have thought him dangerous enough, because of its limited manpower, to investigate him.

The commission has called for an overhaul of the Secret Service and more cooperation between investigative government agencies.

Slow Burn

David Lawrence Says:

Next 15 Years Key to N-Race

WASHINGTON — The news that Red China has completed and is about to test a bomb such as was dropped by the United States on Japan in 1945 comes as shock to most people in the world.

It has been often said that this development was in LAWRENCE'S view inevitable. Scientists everywhere have predicted that, given the necessary materials, any country could produce not only atomic bombs but also hydrogen bombs as well as intercontinental missiles.

The big question has always been—when?

Present estimates from authoritative sources indicate that five years hence Red China could have a stockpile somewhat like that currently possessed by France, and in 10 years from now hydrogen bombs and nuclear warheads that could be used on medium-range missiles relatively close to what Russia has today. In 15 years, Red China could have a full-fledged arsenal of intercontinental ballistic missiles capable of striking the United States.

But what happens within the next 15 years?

Is there to be a period of drifting, or will world opinion demand that the nuclear problem be given immediate consideration in an effort to find some way to avert a world catastrophe.

For the moment, the big danger lies in the Far East, where the possession of nuclear bombs by Red China will generate a wave of fear and apprehension in Japan, the Philippines and Southeast Asia.

For once the leaders of Red China make up their minds to dominate the Asian world by threatening to use nuclear weapons, they could apply a pressure to which the response might well be appeasement and continuous concessions.

Some diplomats are guessing that Peking would be tempted to threaten the use of the atomic bomb and to give an impression of growing strength.

But others think possession of

the bomb may make Red China more cautious and that the real reason for developing a nuclear capability is to gain a leverage in diplomacy which otherwise would be unavailable.

Certainly it isn't sensible for any nation with a limited supply of nuclear weapons to engage in a reckless attack and thus invite "massive retaliation."

The forthcoming test does not mean that Red China will

achieve immediately a position of commanding strength.

It does mean that the rest of the world is now being alerted by Secretary Rusk's announcement to the importance of dealing at once with the problems that the world must not allow to go unattended during the next 15 years while Red China is building up her nuclear strength.

Domestic Problems Top Fall Campaign in Britain

By PHIL NEWSOM

UPI Foreign News Analyst

LONDON — As both United States and British politicians come down to the wire in their national election campaigns, each provides evidence of how the world has turned.

Here there is little talk of South Viet Nam, nuclear weapons control, or whether the government attitude toward communism has been soft or hard.

Instead, both Laborites and Conservatives tacitly agree that the issue will be decided on the basis of domestic problems—rents, housing, cost of living and social advances.

It emphasizes the relatively new position of the United States in assuming responsibility for world affairs and the changed position of Britain, an island which still must trade to live but which no longer is the hearthstone of an empire upon which the sun never set.

On foreign policy, both Conservatives and Laborites support NATO and close association with the United States. Labor leader Harold Wilson says he would renegotiate the Nassau agreements by which the United States made its Polaris missiles available to Britain, but he does not say how.

PHASE OUT

He says he would phase out Britain's nuclear bombers, but he has tempered considerably an earlier promise to junk Britain's nuclear deterrent altogether.

Both parties seek to take advantage of social changes which are occurring within Britain itself.

The old-school tie influence which once sharply delineated British society is disappearing.

In its place is appearing a newly prosperous middle class and thousands of eager young experts in industry and science. Labor seeks this vote by promising action against soaring land prices and rents with all the vigor of a wartime operation. It seeks support of pensioners and fixed-income groups with promises of better social security benefits.

CENTRAL PLANNING

It frankly espouses central planning by government. Upon this program the Conservatives hope to pin an "extranist" tag and they accuse the Laborites of attempting to turn Britain into a wholly Socialist state.

But the truth of the matter is that both support a certain amount of central planning and, as of now, the British voter seems to see little difference between the two.

In Washington:

See Missile Future in New Glass

By RAY CROMLEY

WASHINGTON (NEA) — Recent discovery of a radical new glass material will make possible development of an undersea missile system superior to Polaris.

A successor to Polaris will be required in ten to 15 years. By then, military experts here estimate, the Soviet Union will be able to effectively hunt and kill even the improved Polaris-type submarines of the 1970s.

The answer, Navy research men believe, is depth. If U.S. missiles can be hidden five thousand to ten thousand feet under the sea — instead of a few hundred feet — then Russian hunter-killer subs may have a next-to-impossible task, even with the greatly improved detection techniques of the late 1970s and the early 1980s.

One study has indicated that a high-silicate glass — non-yielding, light in weight and high

Voice of the People:

Reader Asks Democrats to Defend Pres. Johnson

What kind of a man is Miller that he goes around the country telling that our President is beginning to "crack"? Who is writing his campaign speeches, some-one in Moscow or East Germany?

Is he the man we want for our Vice President? Does "Goldie" okay this kind of talk? He must or he would stop him.

Wake up, you Democrats, and make them back up what they are saying about a great man, L. B. Johnson. This is a great country—let's keep it that way.

MERRILL J. DEEM
UNION LAKE

Ambulance Siren Frightens Youngster

My two-year-old son isn't afraid of anything in this world except that horrible, nightmarish siren that a new ambulance inflicts upon the public.

It should be stopped by law, if indignation isn't sufficient. Frankly, I'm almost afraid of it myself and everyone I've talked to feels the same way.

This pretty normal and pretty wonderful youngster is terrified by it, and when he goes to bed he takes us over to the window and motions to have it closed.

B. V.

Gives Answers to Medicare Questions

As originally proposed, Medicare is hospital insurance under the Social Security system and is not "socialized medicine." The government would not provide any services whatsoever. Each person would choose his physician and hospital.

The program would provide the means through which the contribution of worker and employer—for an average worker, 25 cents per week each—would pay for hospital costs in retirement. Persons already retired would pay nothing but would share in the new program. Social Security benefits would not be affected.

Most of the 18 million people in the United States are 65 or over. They do not wish to be dependent on the beneficiaries of government, charity, or anyone else.

President Johnson's council on aging in 1963 found that 70 per cent of those over 65 or over, with income under \$2,000, have no hospital insurance. President Johnson urges Congress to adopt the Medicare Plan.

Congressman Broomfield's questionnaire revealed that 52.8 per cent are in favor of the Medicare program. Write Broomfield and Wilbur Mills, Chairman of the House Ways and Means Committee, and urge them to support the Medicare Plan.

'Cast Vote for School Millage Renewal'

The 8.75 school millage is up for renewal. If you vote "Yes," you are assuring the future citizens of our city, state and country of the best education possible.

Let us all go to the school in our area on Friday and vote "Yes." Keep our school system one of the best.

MRS. FRANKLIN D. WEBSTER
1475 GLENWOOD

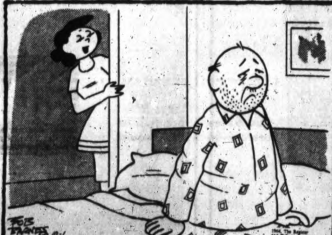

Property owners must know by now that approval of the 8.75 millage proposal will not increase their taxes. Brochures have been distributed by the Pontiac Council of PTA's and the excellent supplement in Monday's Pontiac Press added more information.

I believe we all want to continue the fine job that has been done in our school system for the past ten years. However, apparent lack of organized opposition to the school millage renewal does not guarantee voter approval.

If you don't have transportation to the polls, call your voting place. I feel sure they will provide transportation for such a worthy cause.

Still-Secret Version of A-11 Jet Reported in Operation

EDWARDS AIR FORCE BASE, Calif. (UPI) — A still-secret version of the 2,000-mile-an-hour A-11 jet plane has been built and put into operation by the U.S. government. It was reported today.

New information on the versatile twin-engine giant came to light as the Air Force continued to flight test a missile-armed interceptor version called the YF-12A.

Three of the bomber-destroyer YF-12As were demonstrated publicly for the first time yesterday for an audience of newsmen and Air Force officers.

What was revealed was an interceptor with its own search radar, computers and missile firing system which combined with great speed and range to give it at least four times the performance of jets presently defending North America.

A big unanswered question following the exhibitions, conducted with White House encouragement, was whether Defense Secretary Robert S. McNamara would decide to put the YF-12A into production.

BIG ACHIEVEMENT
He has called it a "magnificent technical achievement" but not indicated whether he believes the Russian bomber threat requires quantitative production.

There was far less question, apparently, about the need for the unpublished version of the basic A-11 airplane, which has a numerical designation known only to the few who need to know it.

The secret version was believed to be a reconnaissance aircraft, most nearly resembling the original design for the A-11. Though reported to have been built in some quantity, it has

been kept out of sight and the YF-12A interceptor version serves further to divert attention from it.

President Johnson created a sensation last February when he divulged that the A-11 had been under secret development since 1959 as an "advanced experimental aircraft" with a speed of more than 2,000 m.p.h. and an operating altitude exceeding 70,000 feet.

BEING TESTED
He said it was being tested as a possible interceptor and would help achieve "a number" of military and commercial needs.

Immediately the plane was regarded as having been once intended as successor to the U-2 spy jet. Almost as immediately the Pentagon dubbed the plane YF-12A to indicate a prototype fighter. A-11 had

been Lockheed Aircraft Corp's designation.

Later, Johnson announced development of the SR-71 as a new strategic reconnaissance craft for the Strategic Air Command (SAC). This was taken to be a further derivative of the basic A-11.

The YF-12As unveiled here yesterday were black-painted, sleek, carrying two-man crews and described as offering a "tremendous" increase in ability to defend the continent.

SUPERSONIC SPEEDS
Two were flown at supersonic speeds and a third was opened to limited inspection, enabling observers to estimate its length at 102 feet and the span of its modified delta wing at 52 feet.

The Hughes Aircraft Co. missiles, of which each plane appeared able to carry eight to twelve were, themselves huge and evidently able to strike down a bomber at great range.

The object would be to intercept bombers far from U.S. targets before they could launch either bombs or missiles. If they launched missiles of the guided, jet-propelled type the YF-12A could deal with them.

The Air Force said a single YF-12A, because of its 2,000-m.p.h. cruising speed and great range, could cover four times as much sky area as a present day F-106 interceptor in a given time.

FIRING SYSTEMS
The intricate, self-contained radar and missile firing systems would enable the YF-12A to cover "thousands of cubic miles" of air space and intercept a widely dispersed bomber fleet.

A spectacular achievement is that the YF-12A need not maneuver precisely as an F-106 must to get its target in reach.

It can cruise at optimum altitude, search out targets above or below it and eject its long range maneuverable missiles. The missiles ignite and head for their targets while the YF-12A searches out more invaders. The entire air situation, with relative positions of defenders and attackers, is portrayed to the interceptor crew on cockpit display maps.

Johnson Pledges His Support to Edward Kennedy

BOSTON (AP) — President Johnson's signature is included among 100,000 others signed in pledge of support for injured Sen. Edward M. Kennedy, D-Mass.

President Johnson signed a signature sheet during a visit with the senator at New England Baptist Hospital early Tuesday morning, following a campaign trip through New England.

Edward J. King, state director of the signature campaign, said Wednesday the campaign passed the 100,000 mark in less than 10 days.

Kennedy, who suffered a broken back in a plane crash last June, is unable to campaign for re-election this fall. The signature campaign was begun to recruit campaign workers for him.

The paperback book is being used more and more for educational and informal, on all levels. Many college courses now require paperback texts. One of that 75 per cent of all its sales are paperbacks.

Cypriot Gets Russia Arms Vow

MOSCOW (UPI)—Greek Cypriot Foreign Minister Spyros Kyprianou flew home today, carrying a "no strings attached" agreement for Soviet military aid to Cyprus.

Kyprianou concluded his four-day mission to Moscow when he took off for Nicosia aboard a regular Aeroflot flight.

"The Soviet Cypriot pact, signed yesterday, made formal Premier Nikita S. Khrushchev's promise to aid the regime of President Makarios of Cyprus. The pledge was made following Turkish air attacks on Cyprus last August.

Kyprianou refused to disclose the details of the agreement to newsmen at a reception last night.

However, he said "There were no strings attached and no conditions whatsoever."

"COMPLETELY SATISFIED" "We are completely satisfied with the outcome of our talks here and with the agreement we have reached," Kyprianou added. "We also have the complete support of the Soviet Union on the political aspects of the Cyprus problem."

The United States and Britain have been trying to keep Russia out of the Cyprus dispute. The West fears the pact could give the Communists more influence on the strategic Mediterranean island.

Diplomatic sources said no provision was made for Soviet military instructors to go to Cyprus, or for Greek Cypriots to get military training in Russia.

Authoritative sources had reported that the agreement provided for the shipment of Soviet anti-aircraft weapons to Cyprus. Kyprianou declined to comment on the report last night.

Brandt to Seek Allied Protest

Feels Sonic Booms Part of Red Strategy

BERLIN (AP)—West Berlin Mayor Willy Brandt is planning to ask the Western Allies to protest to the Soviets over the sonic booms caused by Communist jet fighters breaking the sound barrier over the divided city.

Brandt's government thinks the 30 or so earth-shaking booms on the average fair day and night are part of the Reds' psychological warfare.

Police officers register all damages caused by the booms. So far there have been no injuries from breaking windows and falling bricks. The city treasurer has paid "boom" damages in about 20 cases, none amounting to more than \$25. Most were broken windows.

NOT CONVINCED

Reliable informants say the Western Allies are not convinced that the Soviet or East German air forces are sending their jets over Berlin to annoy the citizens on the Western side of the Red wall.

"After all, the wall may keep East Berliners in East Berlin but it doesn't stop the booms from shaking East Berlin, too," one Allied official said.

The Allied arguments apparently haven't convinced Brandt's officials.

This reporter recently visited Dresden, in East Germany, for two days and found the sonic boom nuisance as bad there as in Berlin if not worse.

Magsaysay's Son Married in Manila

"MANILA (AP)—Ramon Magsaysay Jr., son of the late president of the Philippines, was married Wednesday in Manila to Isabel Delgado.

She is a member of a prominent family and until recently was a receptionist-guide at the Philippine Pavilion at the New York World's Fair.

Nearly 30 percent of eye injuries among children are caused by falls, reports the National Society for the Prevention of Blindness, Inc.

Trace Disease in New Jersey

State Testing 25 for Encephalitis; 2 Dead

TRENTON, N.J. (AP)—State health officials were conducting laboratory tests today to determine whether about 25 persons in South Jersey have encephalitis.

Two deaths in Camden have been blamed on encephalitis.

A State Health Department spokesman said, Wednesday about 25 residents of Camden and Burlington counties are suffering from a disease of the central nervous system resembling encephalitis. The spokesman said, however, health officials do not believe the cases will be identified as eastern encephalitis.

An outbreak of eastern encephalitis in New Jersey in 1959 caused 21 deaths. The disease is transmitted by mosquitoes.

Dr. Robert L. Breckenridge, pathologist and director of laboratories at Our Lady of Lourdes Hospital in Camden, said his laboratory reports indicated two Camden area women died of acute encephalitis, but that the state would have to confirm the finding.

Dr. Breckenridge said three patients now at the hospital have the disease and another who had the infection has been discharged.

Jefferson Hospital officials in Philadelphia said they were treating three cases from South Jersey that "appear to be a mild variety of a disease similar to encephalitis."

Encephalitis, or inflammation of the brain or brain covering, can result from measles, chicken pox, mumps, or lead poisoning among other things, the Health Department said.

72 Million to Vote if '60 Ratio Holds

WASHINGTON (AP)—About 72 million Americans will cast votes Nov. 3 if the same percentage of those of voting age take part as did in the 1960 election.

The Census Bureau, estimating that there will be almost 114 million Americans of voting age come Election Day, said the same 63 per cent turnout of 1960 would produce about 72 million votes.

The 88,838,000 votes cast four years ago is a record turnout for a presidential election.

The bureau's estimate is based on the number of persons of voting age, which is 21 in 46 states and the District of Columbia, 20 in Hawaii, 19 in Alaska, and 19 in Georgia and Kentucky.

In 1960, the number of age qualified Americans was 108 million. Since then more than 10 million Americans have grown old enough to vote.

Business Not Super at British Supermarket

OXFORD, England (UPI)—Oxford's first supermarket, opened in May 1961, will close down Saturday because of dwindling business.

Manager Brian Burtenshaw said, "I think the trend will be to mini-markets like the original small grocers where the housewife will get a sense of personal attention and not that cold feeling of a supermarket."

He's a Loser; So Call Him Another Name

TACOMA, Wash. (AP)—Attorney J. Bruce Burns has tried to be a good sport about losing his contest for a Superior Court judgeship here.

He appeared before his opponent, Judge Robert A. Jacques, yesterday and things were going fine until he began to cross-examine another attorney's client.

When the client continued to address Burros as "Your Honor," his lawyer cried out:

"No, no. It's the winner you address as 'Your Honor.' You can call the loser anything else."

Today's News From Washington

German Beauty, Hit of D.C. Parties, May Have Stolen Secrets

WASHINGTON (AP) — Iowa Republican H. R. Gross told the House Wednesday that German beauty Ely Rometsch, "the life of the party—any party, any place" in Washington, may have stolen missile secrets and "lent themselves ideally to the Senate Internal Security Committee should investigate."

A year ago, Gross said, "she was virtually shanghaied and rushed out of the country overnight when it was discovered she was traveling in high administration echelons and indulging in intimacies with important people."

The congressman described the woman as an East German divorcee who married a West German soldier after he had been assigned to duty in Washington. Once she was here, Gross said, Bobby Baker, former secretary to the Senate Democrats, "took over the management of her affairs" and "she was a visitor at the lavender-carpeted town house

which Baker purchased for his secretary, Carole Tyler, to live and entertain in."

Gross said Miss Rometsch attended parties given by Americans and by representatives of unfriendly governments. Citing newspaper and magazine articles, he said she once took a nude champagne bath at a party given by a defense contractor and attended by an executive of the federal space agency.

The Iowa said he had no information that the woman was a spy, but added her activities "lent themselves ideally to the theft of missile secrets."

WASHINGTON (AP) — Congress passed Wednesday and sent to President Johnson to sign into law a bill expanding the Reserve Officer Training Corps program in high schools and colleges.

The action amounted to a victory for Rep. F. Edward Hebert, Louisiana Democrat

who is a strong booster of the program, and a defeat for Secretary of Defense Robert S. McNamara, who proposed eliminating the high school program while expanding the college program.

The junior ROTC program will spread from 254 high schools to a maximum of 1,200; colleges will be permitted to have a two-year ROTC program if they prefer it to the current four-year course; college ROTC

students will be eligible for \$850 a year scholarships and \$500 a year monthly retainer pay and all upper class ROTC students will get monthly retainer pay of at least \$40 instead of the current \$27 a month.

WASHINGTON (AP) — Some 75 officials of veterans organizations were entertained at the White House Wednesday night and were told by President Johnson: "Our society was built on respect for law and order—and we mean to maintain that. But our society was built also on respect for rights and dignity—and we mean to strengthen them."

The President told the veterans that "at this hour the generation of your brothers and sons walks the ramparts of freedom from the Berlin Straits to the Brandenburg Gate. But there are vigils you and I must forever keep in the streets of home."

Then Johnson reminded the veterans of the challenges they face in their own communities. "There is work for us to do in all the places bypassed by our prosperity—in all the corners untouched by our compassion."

WASHINGTON (AP) — Senate Democratic Leader Mike Mansfield is sounding out his fellow senators on a recess until after the November election, a plan that the Montana said Wednesday is under serious consideration in the House.

"I had hoped that we could end the session by Saturday night," Mansfield said, "but it appears the prospects are we will be in session all of next week."

Scientists' Report Published

'Racial Superiority Claim Unjustifiable'

PARIS (AP) — A report by an international group of biologists, geneticists and anthropologists said today there is no justification for claiming one race is superior to another—either from a physical or intellectual viewpoint.

The report, by 2 experts from 17 countries was published today by UNESCO, the

United Nations Educational, Scientific and Cultural Organization. The experts met in Moscow Aug. 12-18 to discuss biological aspects of the race question.

One of a list of conclusions to which the experts agreed unanimously said: "Neither in the field of hereditary potentialities concerning the over-all intelli-

gence and the capacity for cultural development, nor in that of physical traits, is there any justification for the concept of 'inferior' and 'superior' races."

BIOLOGICAL DATA

The biological data given in the report "stand in open contradiction to the tenets of racism."

Other points made in the report included: "It has never been proved that interbreeding has biological disadvantages for mankind as a whole."

"On the contrary, it contributes to the maintenance of biological ties between human groups and thus to the unity of the species in its diversity."

"The biological consequences of a marriage depend only on the individual genetic makeup of the couple and not on their

race. Therefore, no biological justification exists for prohibiting intermarriage between persons of different races, or for advising against it on racial grounds."

Signers of the report included Prof. Jean Benoit, University of Montreal, and Prof. Carleton S. Coon, University of Pennsylvania.

Postage stamps

Honor John F. Kennedy

NEW YORK, Oct. 1 (EN) — A very unusual series of large diamond shaped postage stamps honoring John F. Kennedy was issued recently by the Kingdom of Yemen . . . half the stamp bears a striking portrait of JFK with appropriate inscription — the top section depicts American space craft in flight . . . This very unusual set of three stamps sold out day of issue and are now quite scarce. Because of the intense interest in JFK memorial stamps issued by foreign nations, Elmont has prepared a collection containing recently issued John F. Kennedy stamps from Columbia, Argentina, Chile, and Togo, plus the popular Yemen set mentioned above. Interested collectors may obtain this extraordinary collection of 9 different stamps memorializing John F. Kennedy by sending \$1.00 to Elmont Stamp Co., Queens Village 29, N.Y. Approvals and other offers included.

Solid-Fuel Motor Successfully Tested

REDLANDS, Calif. (AP) — A solid propellant rocket motor generating more than one million pounds of thrust has been successfully test-fired by the Air Force.

The 75-foot tall, 156-inch diameter rocket was fired at the

Lockheed Propulsion Co.'s nearby Pictro test center Wednesday in a two-minute static test.

Col. Harold Robbins, director of the large solid rocket motor program, said the test again proved the "reliability, power and flexibility" of such a motor.

AP Photos

QUARTET OF HEROES — Four holders of the nation's highest military award — the Congressional Medal of Honor — met in Philadelphia yesterday at a winners' convention.

Chicory, a favorite ingredient of tossed salads and coffee beans, hitchhiked to the United

States. Horticulturists believe seeds of the European wild flower came in earthen ballast

on ships. It now grows from Canada to the Carolinas and westward to Nebraska.

Chinese Chiefs Scorned Stalin, Mark 15th Year of Red Control

TOKYO (AP) — Stalin said their insurrection had no prospects, told them to disarm and return to politics. But today, the stubborn men who scorned the old Bolshevik's orders celebrate the 15th anniversary of Red China.

Some are bent by age, but the Chinese leaders taking the salute of a half million of their fellow countrymen in Peking's Square of Heavenly Peace have lost none of the shrewdness or imagination which made them masters of China in 1949.

Then, as now, four men occupy the chief places of power. They are Communist Chairman Mao Tse-tung, 70, the Chinese Stalin; President Liu Shao-chi, 66, white-haired one-time labor organizer; Premier Chou En-lai, 66, China's most skillful diplomat; and Marshal Chu Teh, 78, chairman of the standing committee of the National People's Congress.

Since Oct. 1, 1949, they have:
• Radically altered the way of life and thought of 700 million Chinese.

CHALLENGES TWO

• Challenged the two mightiest nations on earth, the United States and Soviet Union.
• Split international Communism into hostile camps and reasserted Chinese influence in Europe for the first time since the Mongol conquests of the 13th Century.

• Extended their philosophy of revolution and violence to Africa, Asia and South America,
• By threats, calculated show of force and diplomacy, achieved a dominant position in Asia based on a mixture of fear.

USDA Sees No Firm Trend on Cigarettes

WASHINGTON (AP) — The Agriculture Department says the long-range trend of cigarette smoking remains uncertain.

Smoking, which dropped earlier this year after issuance of the surgeon general's report which condemned smoking as a health hazard, has increased recently. The domestic output of cigarettes this year, however, is expected to be 532 billion — 3 per cent below last year.

The decline, which reached as much as 8 per cent in February-April, was 2 per cent in May-July.

"If cigarette use continues fairly near the level indicated for mid-1964," the department said Wednesday, "output and consumption might be up a little in 1965."

"The immediate and longer range trend of cigarette consumption, however, will remain somewhat uncertain for some time."

respect and, in some cases, admiration.

No other ruling group in the world has survived the vicissitudes of war and politics for so long.

This foursome began the climb to power more than 40 years ago, thrown together by their belief in Marxism and a common antagonism to the Kuomintang's Generalissimo Chiang Kai-shek.

Though they once again are confronted with internal dissension — party intellectuals who oppose Mao's doctrine of struggle and revolution — they appear to be as firmly in the saddle as ever. Only age and the frailties of human life seem likely to bring them down.

Under them is a dedicated, scrappy second team. Among these veterans are Teng Hsiao-ping, Mayor Peng Chen of Peking, defense minister Marshal Lin Piao and economic czar Chen Yun.

CHINESE ELITE

Up to 1958, the Chinese elite built solidly. They started transforming the old China of poverty, special privilege, militarism, recurrent famines and landlordism into a modern state. Heavy industry, particularly steel, made spectacular ad-

vances. Consumer production was up, wages comparatively high. Agriculture was pulling itself out of centuries old doldrum.

From this platform, Mao and associates launched their ambitious program for an industrial "Great Leap Forward." To top up this program, Mao forged the agricultural communes, herding the nation's 500 million peasants into thousands of communities centrally controlled and administered.

Natural disasters, Communist ineptitude and Soviet sabotage delivered crippling blows to all these plans.

The communes have been reduced to decentralized units.

Militarily, Mao possesses an army of considerable strength but, the experts say, of limited capability. Thanks to the Chinese leader's quarrel with Premier Khrushchev, it lacks a nuclear punch. His air force is small, his navy modest.

BETTER FED

Travelers report the Chinese are better fed than they have been since 1961, when floods, typhoons, drought and locusts coupled with the withdrawal of Soviet aid, left the country starving in some places and generally prostrate. Stalin's advice to the Chinese

to put away their guns came at the close of World War II after he had handed them Shanghai, gateway to the rich industrial region of Manchuria. Stalin's contemptuous estimate of their future prospects was made after Mao's forces had been defeated there by Chiang.

DISLIKE KHRUSHCHEV — Stalin's long dead and long forgiven. But Khrushchev is something else again. Neither time nor circumstances are likely to mellow him in the Chinese memory.

The Chinese accuse him of hitting below the belt with cancellation of a promise to deliver an atom bomb to Peking in 1959.

They complain about the withdrawal of Soviet aid, experts and blueprints in 1960 and the signing of a Nuclear Test Ban Treaty in 1963 aimed, the Chinese contend, at depriving them of the chance to build an atom bomb of their own.

Until recently, no one knew in detail how seriously Khrushchev's quarrel with Mao had hurt the Chinese in the early 1960s. On Aug. 5, 1963, the State Department released 29 issues of a secret Red Chinese military publication which gave a partial answer. It is full of reports of peasant rebellion, hunger, starvation and disarray in the civil-

ian population, depressed morale in the army, resentment and impatience with the Communist Party.

Mao set about shoring up the Red establishment. His answer was discipline, a purge of corrupt and weak elements in the army and the party and a campaign to salvage what was left of the wreckage.

STILL AN INVALID — Buffeted by his enemies both within and outside the Communist bloc, still plagued by deficiencies at home, Mao's People's Republic at 15 is still very much an invalid.

But the miracle is that it is alive at all.

The U.S. Federal Reserve during the administration of President Woodrow Wilson.

'Spy' on Barry Train Latest Antic

Dem Is Master of Political Sabotage

SACRAMENTO, Calif. (AP)—Planting a spy on Sen. Barry Goldwater's campaign train was the latest in a long series of such antics for Richard C. Tuck, political jack-of-all trades.

Dark, curly hair and a wide grin are the trademarks of the pint-sized Democratic handyman who has been described as a "political joltus expert," "court jester" and "campaign commando."

Tuck, 40, former aide to Democratic Gov. Edmund G. Brown of California and sometimes a state official, once tried to commandeer a Richard Nixon campaign train when the former vice president chanced Brown for the governorship in 1962. He almost succeeded.

Donning an engineer's cap, Tuck signaled the engineer to pull out just as Nixon was starting a speech at San Luis Obispo.

SHOWED UP

There was talk later of inviting him aboard the Nixon plane

since he showed up at each stop anyway.

It came as no surprise to California political observers to learn that Maura O'Connor, attractive 23-year-old Democratic worker, had been sneaked aboard the Goldwater GOP campaign train Tuesday at Tuck's suggestion.

At Republican rallies, he is on hand to make his own crowd estimates. Recently when police said 4,000 were on hand to see Barry Goldwater in Sacramento, Tuck told reporters there were about 200.

Earlier, he passed out "survival kits" to reporters traveling with the Republican presidential nominee. Included were a first aid kit and construction workers' hard hats.

'NIXONETTE'

Nixon departed from political tradition in 1962 to note Tuck's presence at a rally. He said

Tuck had worked behind the scenes at the 1960 GOP convention disguised as a telephone repairman, complete with proper badge and screwdriver.

"The last time I saw him," Nixon said, "he was disguised as a Nixonette."

Another time, Tuck paid handleaders at a Nixon rally to play the Democratic anthem, "Happy Days Are Here Again."

Born in Arizona, Tuck was graduated in public administration from the University of California at Santa Barbara. He worked as a coordinator for the California Senate in 1967, joined Brown's initial campaign for governor in 1958, then served as "travel, invitations and political" secretary on Brown's staff.

Tuck was appointed a deputy director of the State Motor Vehicles Department in 1960 and became something of a political issue when Republicans in the legislature challenged his expense accounts.

The deputy had turned in expenses of \$3,000 in less than a year. One trip, to Phoenix, Ariz., was listed only as "alignment for Gov. Brown."

He has worked off and on for political campaign organizations since he left the state post in 1961—taking up political associations and positions that embarrass rival candidates, recording speeches and offering on-the-spot rebuttal.

State to Modernize

Lake Leelanau Road

LANSING (AP)—The State Highway Department has approved an engineering report for the modernization of slightly more than three miles of M204 at Lake Leelanau in Leelanau County. The \$400,000 project is scheduled to be put under contract in mid-1967. A public hearing is scheduled Oct. 15 at the Leelanau School to explain the project.

Jesuit Leader Suffers Stroke in Vatican City

VATICAN CITY (U)—The Rev. Jean Baptiste Janssens, Belgian-born General of the Society of Jesus (Jesuits), has suffered a cerebral stroke, Vatican officials announced today.

The announcement was made in the Roman Catholic Ecumenical Council. The assembled prelates were asked to pray for the 74-year-old Belgian who has been head of the Jesuits for 13 years.

He was stricken last night.

Wyoming Awaiting Sister City Visitor

WYOMING (AP)—This Grand Rapids suburb awaits a visit Friday from a representative of its sister city, Manizales, Colombia. Felix Isaza Arango, dean of studies at University of Manizales, is scheduled to visit here as part of a foreign leaders program sponsored by the U. S. Department of State. Wyoming Mayor Edgar F. West visited Manizales earlier this year.

Last year was the 15th consecutive year in which juvenile arrests in the U.S. increased, according to FBI Director J. Edgar Hoover.

Search Mines for Missing British Teens

MOLD, North Wales (U)—A thousand troops and explorers searched the mountains and disused mines of North Wales today for two boys missing for four days.

David Oldfield, 17, and Lawrence Miles, 18, vanished Sunday after telling friends they intended to explore Pothole Valley, a 100-mile network of caves and old mine workings.

"Time is now running out," said Mike Hollingworth, 32-year-old cave explorer in charge of the underground search.

"A man can survive in the cold and dampness underground for seven days with good food and equipment."

"But without them I should think that four days is the maximum. If the boys are in the workings they must be found as soon as possible."

By last night, three-quarters of the area had been checked. Wrappers from food the boys carried were found near a mine entrance.

The U.S. Supreme Court up-held the constitutionality of the federal income tax law in January of 1916.

W. Berliners Apply for Visit to East

BERLIN (U)—About 10,000 West Berliners waited today to apply for permits that will allow them to visit relatives behind the Berlin wall.

Processing applications will take about 14 days for ordinary visits, but persons wishing to go to the east sector for urgent personal matters such as births, deaths, serious illnesses and marriages conceivably can receive a pass within 24 hours.

The 17 permit offices opened promptly at 10 a.m. in accordance with the agreement reached last week between the West Berlin city government and the East German Communist regime.

The situation at offices, located in schools and public buildings throughout West Berlin, was far more orderly than last December when the first wall-crossing agreement went into effect since the wall was built in 1961.

This time, the number of offices was increased from 12 to 17, one dealing only with applications for passes in connection with urgent personal matters.

STAFFS INCREASED

The staff of East German postal officials handling the applications was increased from 80 last year to 250, supplemented by another 250 West Berlin post office workers. Each side can increase their staffs to 300 if necessary.

To prevent a repeat of last year's crush, applications are accepted, in alphabetical order according to the applicant's name.

About 800,000 of West Berlin's 2.2 million residents are eligible for passes, which are restricted to visits of close relatives.

Woman Dies in Crash

MONROE (AP)—Mrs. Viola Davidson, 41, of Gibraltar, was killed Wednesday when a car driven by her husband, Andrew, 46, collided with a pickup truck on a rural road in northeastern Monroe County.

Court to Hear School Election Case Tuesday

Will the voters of Avondale School District have to return to the polls in a repeat performance of the June 8 school election?

The answer to this question as well as the political fate of two current board members and two former incumbents will be decided by a hearing in Oakland County Circuit Court Tuesday.

Lapeer Church Readies Drive

Home Visit Campaign Scheduled for Oct. 18

LAPEER — Preparations are being made this week at First Presbyterian Church for the launching of the church's new Building Fund Drive, to be eliminated by a one-day home visitation campaign Oct. 18.

The expansion plans call for the erecting and equipping of a new Christian Education building, the remodeling of the present gymnasium, kitchen and dining room and refurbishing of the sanctuary.

Most pressing in the problems faced by the building committee in planning the expansion program was the need for additional church school classrooms.

The new educational building will provide these needed rooms and allow for a 30 per cent increase in attendance, anticipated by 1970.

Included also in the new building will be space for the administrative functions of the church—a church office and pastor's study—and choir rooms.

VARIED ACTIVITIES

The erection of the new educational building will allow for the rearrangement of the present building to more adequately accommodate the many and varied activities and programs of the church.

Pledge cards were sent this week to nonresident members and friends, who were asked to complete and return them prior to Campaign Sunday.

Yule Program in Rochester

C. of C. Slates Event; Queen Contest Reset

ROCHESTER — The Rochester Area Chamber of Commerce has initiated plans for its annual Christmas program—and after trying it out last year, has eliminated the Miss Holiday pageant in favor of a later competition.

The contest to pick Miss Rochester has been rescheduled tentatively for next February to give girls more time to prepare a talent.

Talent was not a requirement in last year's judging, but in order to have Miss Rochester again represent the village in the Miss Michigan pageant in 1965, the chamber board said it should be incorporated in the local competition.

The Miss Holiday contest climaxed a special day-long chamber program, last Dec. 7 that also was highlighted by the traditional Christmas parade.

Date for the holiday parade this year is set for Dec. 5, according to William Toussaint, chamber president.

BLANKS AVAILABLE

Entry blanks for clubs, churches, merchants or individuals desiring to participate now are available at the chamber office.

The other pre-Christmas activities include Window Night set for Dec. 3 after which stores will remain open evenings for holiday shopping and Stag Night Dec. 14.

Even though the Miss Holiday Pageant has been rescheduled for a later date, it is not too early for girls to obtain entry blanks at the chamber office, 125 W. University.

To be eligible to compete candidates must be single, be residents of the Rochester Community School District and be between 18 and 23 years of age.

Dublin PTA to Hear Chief Psychologist

WHITE LAKE TOWNSHIP—Dr. Leon Hall, coordinator of psychological services for Oakland Schools, will speak at the Tuesday night meeting of the Dublin Elementary School PTA. The school's first PTA program of the fall season will begin at 8 p.m.

Big Pickup Set in Keego

KEEGO HARBOR — A heavy garbage pickup is scheduled for next week in the city.

Trash other than garbage and tin cans will be hauled away with the regular loads Wednesday and Thursday, according to Acting City Manager Mrs. Marge Billingsley.

She noted that a heavy garbage pickup every three months was provided for in the city's new contract with G. C. W. Disposal Service of Birmingham.

Students Prepare for Dedication

New Milford Field Is Almost Ready

MILFORD — Students have been bustling around the new Milford Memorial Field for weeks now—although it won't be officially theirs until tomorrow night.

They, assorted workmen and officials have been getting the athletic field ready for the dedication which will be made during halftime ceremonies in the

Milford-Brighton football game.

The \$85,000 stadium was built this summer behind the

high school. Its permanent seats are of steel construction and will hold up to 2,100 foot-

ball or track fans. There also is a new lighting system at the stadium.

The students have added their own personal touches to enliven Redskin home games.

A ticket booth and a refreshment stand topped by two totem poles are the projects of the Class of 1965 and the Drama Club. The varsity cheerleaders and the student council furnished the funds for a new flagpole.

OLD FIELD

Huron Valley School District's old athletic field was located at George and Union Streets in Milford, where a new junior high school is being built.

Members of the high school Dad's Club originated the idea of building a stadium near the school in October 1963.

Last December, \$60,000 designated for construction of the stadium was included in a \$2.2-million building bond issue. Another \$28,000 was allocated from the district's building and site fund.

At the dedication, Horace Lodge, board of education president, will be introduced by Schools Supt. Erwin Johnson.

Lodge will dedicate the field to the dead of World War II and present it to Robert Gorsline, Milford High School Student Council president.

But the student body will do its own bit of dedicating with the first Milford touchdown.

FINISHING TOUCHES — Dave Holmwood (left) and Dave Korte, both Milford High School seniors, help add a final coat of paint to the new refreshment stand at the Milford Memorial Field, which will be dedicated during the Brighton-Milford football game tomorrow night. The youths are members of a Class of 1965 and Drama Club work crew now completing the stand. Other student projects at the \$85,000 athletic facility include a ticket booth and flag pole.

Pontiac Press Photo

Firm to Buy Business in Commerce

COMMERCE TOWNSHIP — Michigan Precision Molded, Inc. is in the process of being sold to Garlock, Inc., of Detroit.

Presidents of the two firms announced yesterday that a tentative agreement had been reached whereby Garlock would buy all of the stock in the other company.

Purchase price was not revealed but was reported to be in excess of \$1 million.

Donald A. Boyd is president of Michigan Precision Molded Inc., 2175 W. Maple.

Garlock president A. J. McMullen said the same management would continue to operate the firm.

OIL SEALS

The local plant produces oil seals and other precision synthetic rubber products for the automotive industry. Its original equipment market sales have increased 70 per cent during the last five years, according to Boyd.

Garlock products include mechanical packings, gaskets, industrial rubber and plastic items and electronic and bearing products.

Commerce Twp. Post

Plans Chicken Dinner

COMMERCE TOWNSHIP — Members of L. A. Sims VFW Post No. 3853 will serve a family-style chicken dinner to area families Sunday afternoon.

The event is scheduled for 1 to 5 p.m. at the post home, 2652 Leona Lake.

Protest Lake Orion Sewer Plan

LAKE ORION — There's only one thing that might halt a \$1.25-million sewer system project before it gets started—the voice of the people.

And plans are being made for making that voice heard in Lansing very soon.

The Lake Orion Homeowners Association, already numbering 257 members, is conducting a telephone campaign for more members and for signatures on a petition and an appeal to the state.

Mrs. Charles Robbins of 822 Detroit, spokesman for the newly organized association and also president of the Lake Orion Women's League for Better Government, outlined the plans today.

The petition is intended for

Guild Planning Tea at Church in Rochester

ROCHESTER — The Allar Guild of St. Philip's Episcopal Church will hold its Silver Tea Wednesday at 1 p.m. in the undercroft of the church.

Speaker for the occasion will be Mrs. Albert Bird of Romeo, who will talk on "Braille for the Blind."

Mrs. Bird is a nationally recognized authority on the subject and has led many programs on the topic in other area communities.

Tea and refreshments will be served after the program. A free will offering will be taken to aid the work of the guild.

the village council, but its specific content is being kept under wraps at present.

RESOLUTION PASSED

The council passed a resolution Friday to accept a contract with Oakland County for construction, operation and maintenance of the proposed sewer system, which will serve the eastern half of the village.

Financing arrangements are not yet made, however, and will be discussed at a special council meeting Monday. The home owners' petition is connected with the association's opposition to financing plans now being considered.

Mrs. Robbins said that the general object of the association remains the defeat of a proposal to have the entire village assessed to pay for the system.

Inasmuch as the council has been rendered practically helpless on the issue by a lawsuit now in the courts, filed by Attorney General Frank J. Kelley, an appeal to the state is a key objective of the association.

SIMILAR CASES

Attorneys Dundero, Jones & Peterman of Royal Oak, retained by the association, have told the group that the state has in the past granted delays in similar cases upon receipt of such an appeal.

Mrs. Robbins says that the home owners "will appeal to the state to give us time to look over alternate methods of eliminating pollution of Paint Creek."

The project as planned is up-

necessarily large in scope, and the assessments being considered to pay for it will put an unnecessary heavy burden upon the people of the village," she added.

According to Mrs. Robbins, various engineers the association has consulted have suggested several less-expensive alternate methods of dealing with Paint Creek pollution.

EXPENSIVE SYSTEM

And she says that Oakland County Department of Public Works records show that the present proposal would result in the most expensive sewer system ever constructed in, and paid for by, a municipality the size of Lake Orion in the county.

The home owners will meet at 7:30 Sunday evening at the Lake Orion Youth Center on Broadway and Front.

Signatures for the appeal and petition will be collected and officers are to be elected.

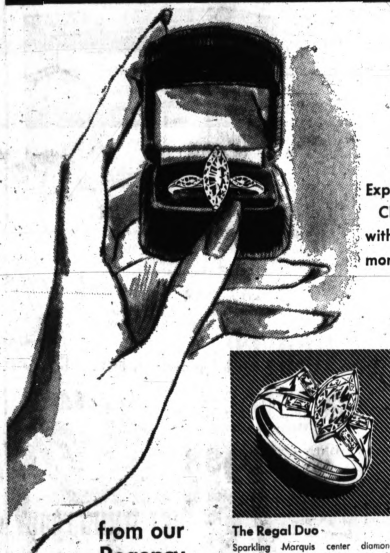

School Group Picks Official of County

Oakland County Supt. William J. Emerson has been elected president-elect of the Division of County and Intermediate Unit Superintendents of the Department of Rural Education.

EMERSON'S ELECTION

Emerson's election was announced last night at the closing banquet session of the department's annual meeting in Washington, D.C.

About 800 teachers and administrators took part in the conference which began Sunday.

Canada Prepares for Terror on Queen's Visit

LONDON (NEA) — Alarmed at threats made against the Queen's life, many Britons feel that Queen Elizabeth should cancel her visit to Canada which is due to start Oct. 6.

The threats come from a group of French Canadian separatists who would like the province of Quebec to secede from the rest of Canada. Although these separatists

are regarded as a fanatic fringe, their threats against the Queen's person are taken seriously enough for Canada to mount the biggest security operation ever in preparation for the Queen's visit.

The press in England has been full of stories concerning the French-Canadian terrorists to the point where the average Briton feels genuinely uneasy about the Queen's visit.

In particular, the Britons recall the statement of Marcel Chaput, one of the extremist leaders, that the Queen would be made "brutally aware" that she is not welcome in Quebec.

NOT TOO LATE

The Times of London feels that it is not yet too late to call off the visit. "An innocent life is at stake as well as the dignity of a great, if individual, nation," The Times reminds Lester Pearson, the Canadian prime minister.

"An unavoidable element of risk has to be borne by any royal personage or head of state," the editorial continues.

"Mr. Pearson's duty is to weigh whether this risk on this particular and important occasion has been augmented to the point at which it becomes unacceptable."

"It is no use balking the issue. The threats have been made, and the tragedy of President Kennedy is too recent in mem-

ory to expect the Queen's subjects in Britain, or Canada to disregard them."

SECURITY STEPS

Meanwhile, security preparations are going forward, according to reports received here. James Lemieux, deputy commissioner of the Mounties, is in command of a special force of

2,000 picked police charged with protecting the Queen.

Special attention is being given to Quebec City, a hotbed of the separatist movement which the Queen will visit on Oct. 10 and 11.

Mindful of the Dallas police failure to check buildings along President Kennedy's route, Lemieux's task force has even checked the cliffs and ramparts at Wolfe's Cove where the Queen will arrive aboard the royal yacht Britannia.

From the yacht she will travel in a bulletproof car. All private aircraft in the area will be grounded during the drive.

FLQ TERRORISTS

The terrorists are loosely banded into an organization called the Quebec Liberation Front (FLQ), which has exploded bombs and raided armories. A score of young men have already been convicted of terrorist activity and given prison sentences ranging up to 12 years.

A parallel situation arose in 1961 regarding a royal visit to Ghana. On that occasion, the threats were not directed against the Queen's life, but against the life of President Nkrumah.

But the risk was considered to be serious enough to cause Duncan Sankey, Commonwealth secretary, to visit Ghana in ad-

GUARDING ARMS—A Canadian Army sentry stands

duty outside an Ottawa armory. Earlier this year, terrorists raided the storage depot.

ever, almost challenges them to some forceful demonstration.

If the projected visit does go ahead as scheduled, the nation will breathe easier on Oct. 13, when the Queen leaves Canada for her native shore.

In Coming Election

Scandal Unlikely to Hurt LBJ

By BERT MILLS
WASHINGTON, D. C. — Scandal often sways the outcome of state and local elections, but the record does not show a recent instance where misconduct played an important part in deciding a presidential election.

The number one scandal of the Johnson administration is the Bobby Baker case, and the Republicans are making the most of it despite history's evidence that scandal does not serve to defeat an incumbent president.

Actually the Baker case pre-dates the assumption of the presidency by Lyndon Johnson. He was vice president when the initial disclosures were made and Senate majority leader when his protégé began the wheeling and dealing which led to Baker's downfall.

President Johnson has denied that Baker was his protégé, but the evidence is all on the other side. The fact is that Baker owed his position as secretary of the Senate majority almost solely to Johnson. Johnson was his boss, and all of Baker's power stemmed from his closeness to Johnson.

For a period of several years, anybody who wanted anything from Majority Leader Johnson

or Vice President Johnson had to clear it with Bobby. Newspapers, lobbyists, government officials knew this. Most of them knew Bobby personally, because he held the key to getting things done.

PERSONAL EXPERIENCE

A personal experience comes to mind. A publishing group was seeking to persuade Vice President Johnson to speak to its convention. All arrangements were made with Baker, who acted as the vice president's agent. Baker agreed that Johnson would appear and he did.

There is no evidence that Johnson profited personally from the business ventures of his protégé. Johnson did accept a stereo set which was paid for by an insurance man involved with Baker in numerous ways. However, this was a kickback on insurance policies bought by Johnson through arrangements made by Baker and was not linked to investments by Baker himself.

Baker was secretary to the Senate majority when Lyndon Johnson was majority leader. One of Baker's principal responsibilities was to line up Democratic votes in the Senate. He counted noses in advance of important votes and saw to it that

Democratic Senators were on the floor when it was time to vote.

At one point, Johnson said he regarded Baker as "one of my most trusted, most loyal and most competent friends." He termed Baker "my strong right arm, the last man I see at night, the first one I see in the morning."

NO PROOF

Some Democrats contend that there has been no proof that Baker violated any law, and nearly a year after the initial disclosures he is still a free man. The Department of Justice has brought no action against him, even after the Senate investigation was completed. It has since been reopened, following new disclosures by Sen. John J. Williams, R-Del.

However, Senate investigators charged Baker with "many gross improprieties" while holding public office, and the record contains evidence he forged his accountant's name on a tax return and obtained a large government loan on the basis of a fake bank deposit of \$100,000. Both offenses are crimes.

Baker had an opportunity to answer all the charges against him, but pleaded the Fifth and

other amendments and remained mute. Reliance on Constitutional guarantees is something less than an admission of guilt, but innocent witnesses have no reason to refuse to testify.

The Baker case is more important than the single man it centers around. The Senate's reputation has been badly tarnished by its handling of the whole affair. The Senate Rules Committee investigation was something less than thorough. Whenever the trail led to a Senator or to the White House, the probe was turned in another direction.

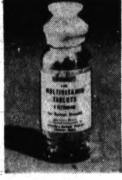

WAS CORRUPTION

After fully discounting the partisan motives of Republicans who are trying to make political hay out of the scandal, it is still obvious there was corruption in high places that has gone unpunished to date. If it had not been for Republican disclosures plus digging by newspapers, there would have been no investigation at all.

Possibly after election, the truth will out and steps will be taken to prevent this sort of influence peddling at the highest level. In the meantime, both the Senate and the President remain under a cloud.

See how much you can s-t-r-e-t-c-h your budget by choosing our 'Hudso' brand

SKY GIRL — Sharon Rae Wilson of Madison, Indiana, freshman at Purdue University, holds a model of a B50 Hustler in a class for the school's Air Force ROTC. The coed is the only girl in the program and attends all the military classes except drill.

Pert Coed Is Only Female in Purdue's ROTC Program

LAFAYETTE, Ind. (AP) — Sharon Rae Wilson, a red-haired freshman, is the only female in Purdue University's 2,500-member Air Force ROTC.

The pert and poised coed from Madison, Ind., says "the ratio isn't much different than it is in most of my engineering classes."

Sharon is outnumbered in the freshman section of the ROTC 1, 425 to 1. It was a reluctant Air Force that accepted her enrollment in Capt. Rex Bull's basic class.

She is a mathematics enthusiast and is considering going into aeronautical engineering. She thought the ROTC class would benefit her more than would women's physical education.

DOESN'T DRILL

Capt. Bull said the military class "isn't geared for female participation, but it's working out all right. She's taking just the classroom work. We won't let her drill, of course."

Bull said Miss Wilson won't be permitted to take advanced ROTC after her sophomore year. All male students at Purdue are required to undergo military training their first two years.

The officer said because Sharon is getting only two hours' classroom work a week and not the weekly hour-long drill, a special grading system will have to be devised for her.

In addition to being excused from drills, Miss Wilson wears no uniform. But in the classroom, Bull says, she's adapting well to her subjects.

REAL FINE STUDENT

"So far I think she'll be a real fine student. She's very personable, very levelheaded."

"And I believe some of the things she'll learn in the ROTC classroom will be beneficial to her in her chosen field of engineering."

Five Fire Fighters Perish Battling Blaze in Boston

BOSTON (AP) — Five fire fighters were killed early today when they were buried under tons of brick and mortar from a wall that collapsed as they fought a blaze in a vacant building.

The fire, in what once was a toy factory, claimed the greatest number of Boston fire fighters since 1942 when six were killed in an East Boston fire.

Among today's dead was Pvt. John Clougherty, 31, son of Acting Fire Chief John Clougherty, who was directing 200 fire fighters at the scene and saw the men killed.

"My God," he exclaimed in disbelief. "I've lost my son."

The others were Pvt. Frank Murphy, 44; Lt. John Geswell, 40; Lt. John McCorkle, 53, and Pvt. James B. Sheedy, 38.

Name Same; So's Surgery

PEORIA, Ill. (AP) — Two Illinois men born the same year with the same name are recovering in the same hospital room from the same type of surgery performed by the same doctor.

William L. Lynch of Havana and William E. Lynch of Peoria, both 31 and retired, are recovering from urological surgery at St. Francis Hospital.

The namesakes had never met before they were inadvertently assigned to hospital Room 245.

East German Premier Arrives in Moscow

MOSCOW — Willy Stoph arrived in Moscow today, a week after becoming premier of East Germany, to open an exhibition noting his Communist regime's 15th anniversary. Alexei Kosygin, a Soviet first deputy premier, received him.

UPPER FLOORS

Deputy Fire Chief John McCarthy said the fire was burning on the upper floor of the four-story brick building in the crowded south end when he arrived on the first of five alarms.

He said some hose lines were brought into the building but a short time later he ordered them withdrawn because of the rapid advance of flames.

French Actor's Wife Gives Birth to Son

HOLLYWOOD (AP) — French actor Alain Delon and his wife, Nathalie, had a baby boy. She gave birth to the 8-pound, 8-ounce baby Wednesday. They were married earlier this year.

Adenauer Feeling Well Despite Cracked Rib

CADENABIA, Italy (AP) — Konrad Adenauer, former West German chancellier, has tape protecting a rib he cracked in a fall three weeks ago. But the 88-year-old statesman is reported to be feeling well.

Elect Group President

SEATTLE (AP) — Frank H. Lee of Port Huron, Mich., was elected president of the National Fraternal Congress of America Wednesday at the closing session of its 78th annual meeting. Lee is general counsel of the Women's Benefit Association of Port Huron.

Actress, Novelist Wed

HOLLYWOOD (AP) — Actress Glynis Johns, 40, and novelist Elliott Arnold, 52, are to be married today at the home of a friend in Hollywood. It will be the fourth marriage for each.

On Day Kennedy Was Shot

Portrait of U.S. Secret Service Agent

(EDITOR'S NOTE — The Warren Commission sharply criticized the U.S. Secret Service for inadequate protective measures the day President John F. Kennedy was assassinated. In the following dispatch a veteran United Press International reporter who has covered the travels of five presidents, draws a word portrait of a Secret Service agent's life at the time Kennedy was shot.)

By MERRIMAN SMITH
WASHINGTON (UPI)—You're a Secret Service agent and it's midnight, Nov. 21, 1963, and you're in Fort Worth, Tex.

President John F. Kennedy has just gone to his suite in the Texas Hotel. Through a fog of fatigue, muscular aches and worry about your youngest kid back at home (he had an awful cold when you left), you realize that the work day finally is over.

You've been on duty since 8 a.m. and you must be on duty again at 8 a.m. Tomorrow, ready for the President's trip to Dallas. Parade through town, speech before a huge luncheon at the Merchandise Mart, and then over to Austin for a night at Vice President Lyndon B. Johnson's ranch.

These 16-hour days aren't too tough. But when they go to 18 and 20 hours, it begins to get sticky. They tell you to go out to the target range in Washington and shoot a 205 (out of 300) score every 30 days with either hand. Tonight, you're so bushed that you couldn't hit the side of a barn — unless the barn was very close.

Going into the hotel at midnight, you find the lobby jammed by a lot of screaming, clutching people. A lot of teenagers. Good excuse to stay up late.

OLD FELLOW
Watch that old fellow by the elevator. You yell at the agent in front of you, "By the elevator." He nods and shoulders through the people to block an odd-looking fellow holding some wilted flowers in his hands.

You battle to keep the President and his wife from being trampled by the crowd. The police have ropes strung through the place. But the ropes are slack and the crowd bulges out around the Kennedys. The President looks tired, but he lights up when he hears these signals.

You notice that the First Lady's hair is drooping. She's trying hard to smile. You know from past experience that this sort of bolting, snatching welcome is for the birds as far as she is concerned.

Shoving (Pardon me, lady) and pushing (would you please, sir), you finally get the man into the elevator and—whoa—you're off duty for about seven hours.

HAVEN'T EATEN
You haven't eaten since dawn when you said goodbye to your sick kid. She was half asleep when you left. As you walked out of the room she babbled something that sounded like "No, Daddy—don't go."

Well, you're in this hotel lobby, hungry and tired and a guy comes along and says there is chow and beer over at something called the Worth Club. Everybody's invited. The party, being given by the Fort Worth Press Club for the reporters traveling with us, was set to start two hours ago and the President came in just about two hours late. Why? Hand-shaking at airports along the way.

You don't want to go to a press club party. You want some sack time. You go to the hotel coffee shop and Texas political bigbigs by the dozen have the place overlanded. There's a waiting line. So you remember the thing about the Worth Club, ask a bellhop for

directions and walk a few blocks to the place.
No food. We got into town too late and the locals ate up everything. But they're nice people and you fall into a chair beside your buddies and a waiter brings you a beer. Man, that takes off some of the edge, doesn't it? You have a couple more and say to the guys that your gut is growling.

SMILING TOWNIE
Some smiling townie, awfully nice guy, says there's action all night at a place called the Cellar Coffee House, couple of blocks over there with some of the fellows.

You get a hamburger, some coffee and there is some woman whirling around the center of the place, pulling off her jacket and looking like an average stripper. Her husband finally pulls her down and the place subsides.

You sit at this little slick-topped table, talking with a local policeman and you wonder if you're getting anywhere.

When Kennedy travels, he moves like an arrow and he hits towns where there never is anything decent to eat late at night. It's okay when you're at the Carlyle in New York—good chow only a couple of blocks away. But once you're out of the big towns, you know that if you don't eat by 9 or 10 o'clock, you've had it. Hamburgers and gluey lemon pie at the bus station.

STRANGE PLACE
You sit around this strange place in Fort Worth. No drinks in this town, but you're curious about the way people at other tables are gulping from their coffee cups. You look at your watch — 2:30 a.m. Holy cow. Back to the sack.

You get up at seven. The hotel coffee shop is still crowded. You can a waitress for a quick cup of coffee and then hit the street. Big crowd. The President looks sleepy when he ducks out in the rain to address the people, then back into a ballroom for a Democratic party breakfast.

Air Force One—the big 707—is in the air. Not much time for breakfast aloft. You take out your small photo file and study for the millionth time a dozen pictures of the loose nuts — no address—who swear they'll kill Kennedy if given the chance.

Almost automatically, you feel for your revolver in its breakaway holster on your right hip. You feel for the little leather pouch that contains 10 extra rounds of ammunition.

WORK THE FENCE
Then you hit Love Field in Dallas. The President and the First Lady work the fence. He gets sore if you get between him and the people sticking out their hands. Looks like the fence is going over, so you and a Dallas cop put your shoulders against the cable fencing and hold it up until the President walks toward the car.

Then you run for the follow-up car. Thank heavens they flew out from Washington one of the big open jobs with running boards. You start wheeling toward the mart. Crowds in the center of town are friendly. A few goofs. Check that guy, Lem, the one on your right. The one with the sign saying "I Relect You" or is it "I Despise You"?

The procession clears the crowd and you're on a parkway.

You and your fellows crawl off the running boards and back into the car. Funny sign there—Texas School Book Depository. What do they do — make the kids put their books in a bank at night?

Pow. You know it came over your right shoulder from the rear. Pow. Damn. He's down. There goes Clint Hill (another agent) for the front car. Watch it, Buddy (Clint stumbles, then grabs a guard rail and pulls himself aboard the President's vehicle. Mrs. Kennedy helps him). You'd like to shoot, but at what? A park, an overpass? Which looks clear? The car now is moving at 80 miles an hour. The President has disappeared. By God, they got him.

SORT OF SILLY
You have that 38 in your hand and you feel sort of silly. No target. Those shots came from an elevation. Big caliber rifle. In the car ahead, Mrs. Kennedy has disappeared. She's

down on the floor. Clint is on the back of the seat. Man, he looks worried.

You can hear the shortwave radio from the front seat. Roy Kellerman, another agent, is saying "We've been hit." Then you sing into the driveway of a building. Big thing. Parkland Hospital.

"Cover the driveway," a guy yells from the lead car. And you race to the roadway to stop other vehicles from entering.

Ten months later, you're reading the Warren Commission report and about what a lousy job you did in Dallas. How you should have checked out the buildings along the way. You're only one small cog in a small unit of men who work around the clock to keep the President alive. How in God's name can you be responsible for buildings? You check 'em or have the locals do it and five minutes later some nut slips in the back door.

You can't close down an entire city. Everybody knows that, but somebody has to take the fall for it.

You sit at home with the wife and you read and listen to all the accounts of the Warren report. You figure that the White House detail of the Secret Service is getting the worst of it. Poor Chief Rowley. Spent most of his adulthood protecting one president or another. Now he's being chopped up by the report.

You holster revolver is hanging from the hat-tree just inside the front door. You're rightfully tired and a little sad. Who are you? You're an agent of the United States Secret Service. White House detail — and likely as not you'll have to be at the airport at 6 a.m. to go with the President some place. Speeches, handshaking, motorcades — and back at midnight, or later.

MISSILE MIGHT? — No, it's only a more than 400-foot-high smokestack at a Chillicothe, Ohio paper mill. The stack, tallest in the U.S. paper industry, was built at a rate of about 20 feet a day.

One-third of Canada's foreign trade moves on the St. Lawrence River.

Prof Sees 'Rewiring' Hope for Paraplegic

SALT LAKE CITY, Utah (AP) — A neurosurgeon at the University of Utah College of Medicine is working on a new "rewiring" technique that may offer hope to the paraplegic.

Dr. Theodore S. Roberts is cautious when he talks about the results.
Considerably more work must be done to develop and prove the technique, he said in an interview, "but I think we have to keep working away at improving our treatment of persons paralyzed by spinal cord damage."

The acting chairman of the college's division of neurosurgery works mostly with cats where the spinal cord is damaged and the nerve connections are cut off between the brain and the lower part of the body.

That can happen to a person in a car or industrial accident. He is paralyzed from the shoulder

down — no movement or feeling in his legs.

Dr. Roberts, a University of Wisconsin graduate, takes the nerves running along the ribs — the intercostal nerves — that are above the damaged spot and ties them up with the intercostals below the damaged spot. These intercostal nerves branching off from the cord thus are given the role of replacing, in part, the function of the nerve fibers which run down the cord — the ones which have been cut off.

Dr. Roberts tried this on a human patient who had been paralyzed by an accident seven years before and said the patient told him he is now able to feel more sensation in his legs and move them better.

PARTIALLY SUCCESSFUL
Dr. Roberts said the "necessarily cautious conclusion" is that this re-wiring technique has been at least partially successful.

Red Man's Burden—

Pennsylvania Dam Waters Will Cover Ancient Seneca Lands

(Editor's Note—Work on the Kinzua Dam speeds toward completion. And the Senecas who still are displaced by its waters prepare to leave the land which was granted to them "forever" by George Washington. This is the first article in a three-part series.)

SALAMANCA, N. Y. (NEA)—The year is 1794. Thomas Pickering, special envoy of President George Washington, travels to Seneca Indian country in the southwestern corner of what is one day to become New York state.

Pickering has a treaty for the chiefs of the Seneca nation. The treaty guarantees to the Indians

lands which they will be able to keep "as long as the moon rises, the grass is green, the river flows and the sun shines" if the Senecas remain friendly to the young United States.

Pickering signs the treaty. Seneca chiefs including Stinking Fish, Heap of Dogs, Little Beard and Broken Axe place their marks on it. It is the first treaty negotiated by America's first president.

The year is 1964, just 170 years later, the Kinzua Dam is speeding to completion in the wild forests and hills of the upper Allegheny River valley in Pennsylvania, not far from where the Treaty of 1794 was signed.

Once the dam is built, it will stop the water flowing southward and wipe out the homes and hunting and fishing places of more than 700 Senecas, descendants of the chiefs who signed Pickering's treaty.

LAND DESTROYED

The 12,000-acre reservoir caused by the dam will destroy 90 per cent of the habitable land left to the Indians on this 29,000-acre Allegheny reservation. The rest of the 2,100 Senecas live on the Allegheny and other reservations.

That solemn pledge which existed for 170 years has been broken, and in a few weeks the first of the Senecas must begin to move from the path of the rising waters.

The Indians' last stand has been long and tiresome, fought not only on the battleground (as it might have been a century ago), but in the committee rooms of the United States Congress and in the federal courts. And, as seems to be traditional with Indians, most of the battles were lost.

The Kinzua Dam, now nearing completion, was authorized by Congress in 1938. The dam, as the Senecas agree, is necessary to stop the occasional flooding of the Allegheny River in Pennsylvania which has,

through the years, caused millions of dollars of damage to residents of cities and towns along the river.

COURT DECISIONS

The Indians' case is more moral than strictly legal. In 1957, a U. S. district court upheld the government's right to condemn the Seneca land, despite the 1794 treaty. The Supreme Court in 1959 refused to hear the appeal, thus affirming the lower court's decision.

The Senecas hired engineers, including a former director of the Tennessee Valley Authority, to suggest other dam locations. The proposals, after much study, were rejected by the government.

So Kinzua (which, in Indian language, means "fish on a spear") was begun four years ago by the Army Corps of Engineers. President Kennedy was interested in the project. In 1961, he wrote to the president of the Seneca nation:

"I have concluded that it is not possible to halt the construction of the Kinzua Dam currently under way. I hope you will convey to the members of the Seneca nation the desire of the federal government to assist them in every proper way to make the adjustment as fair and orderly as possible. I pledge you our cooperation."

So with the original breaking of the treaty no longer in question, as far as the government was concerned, the Senecas concentrated on securing a reasonable compensation from the government for the taking of their lands and to relocate them on other areas of the reservation.

Even on this issue, where, presumably, Congress might want to atone for what many

observers call the questionable morality of unilaterally breaking the oldest U. S. treaty on the books, the Senecas ran into many stumbling blocks.

This October, many Indian families living in the path of the reservoir must move to escape backed-up water. But because of congressional delay, there are not many places for them to move to.

A bill prepared in the House of Representatives (H. R. 1794) sought to provide about \$20 million for indirect and direct damages and rehabilitation. It passed the House early this year.

SENATE VERSION

But the Senate version of the bill cut the amount to \$8.5 million. The entire issue sat in a House-Senate conference committee until August, when the

committee agreed on a \$15.5 million payment.

Until very recently, then, not a federal dime had been received and not a shovelful of dirt had been turned for the relocation of Seneca families.

George D. Heron, president of the Seneca nation, says his people "just can't understand why the government took so long to agree to the figure."

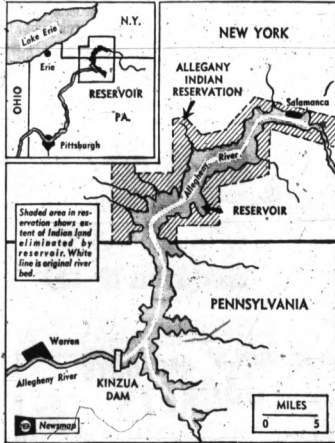

"Why, more than three years ago, the Pennsylvania Railroad received \$20 million for a few miles of right-of-way located in the flood area."

FOR REHABILITATION

Nearly \$15.5 million does seem, to the casual observer, a lot of money to spend on relocating some 700 Indians. The bulk of the money, about \$12.4 million, will be used for "rehabilitation."

This represents the estimated costs for moving, building new homes, roads, recreation facilities, small industries, schools and training centers.

The story of the Senecas and the Kinzua Dam is much more than cement and water, dollars and cents, committee meetings and court decisions. It is the story of a serene people who love their land.

SENECA NATION — Map shows Indian nation lands and surrounding area. Also shown is the location of Kinzua Dam and the territory which will eventually be submerged by its reservoir.

SAC Commander Affirms Power Is With President

WASHINGTON (AP) — Defense officials said today the commander of the nation's missile and bomber forces has affirmed to President Johnson that "the only authority I recognize for expending nuclear weapons is the President of the United States."

These officials said Gen. Thomas S. Power, chief of the Strategic Air Command, told this to Johnson Tuesday when the President was in SAC's underground command post at Offutt Air Force Base, Omaha, Neb.

While the president was inspecting the underground center, a briefing officer explained that the "red phone" could reach all SAC bases and command centers — about 86 around the world — directly and simultaneously.

In this way, the officer said, SAC's bombers on alert and loaded with nuclear weapons would get the word to take off and be in the air in 15 minutes, enough time for them to escape any enemy missile attack.

'ONLY PRESIDENT'

At this point, defense officials said, Power told the President: "The authority to order use of nuclear weapons rests only with you, Mr. President. The only authority I recognize for expending nuclear weapons is the President of the United States."

A group of six pool reporters observed Johnson trying out the "red phone," but apparently none heard Power say that.

The administration obviously was anxious to get Power's words — which officials said

had been verified by the general — into public view.

This is because the question of control of nuclear weapons has a major issue in the current presidential campaign.

BARRY ARGUES

Sen. Barry Goldwater, the Republican presidential candidate, has contended that the NATO commander should be given greater control of battlefield-size tactical nuclear weapons.

He has not proposed allowing anyone but the President to control use of the big retaliatory hydrogen weapons such as those carried by SAC bombers and missiles.

Russia, Britain OK Fishing Vessel Pact

MOSCOW (AP) — The Soviet Union and Britain today announced the conclusion of an agreement permitting Soviet fishing vessels inside the British 12-mile fishing limit near the Shetland Islands — but not to fish.

The agreement is connected with Britain's extension of its fishing limits to 12 miles. The extension came into effect yesterday.

The agreement permits Soviet fishing vessels and depot ships to anchor, navigate and transfer fish in certain areas near the Shetlands.

Nearly half the city of Hiroshima, with a population of 343,999, was killed or wounded when the first atomic bomb was dropped Aug. 6, 1945.

LBJ Plans for Europe—Talks Political—Miller

RENO, Nev., Oct. 1—The Republican candidate for vice president has fired a charge of "politics" at President Johnson's reported intention to meet in Europe with NATO leaders and, later, hold a summit conference with Soviet Premier Khrushchev.

Rep. William E. Miller of New York said in a statement Wednesday night that "the answer to this country's disintegrating alliances . . . is not a quick Lyndon Johnson summit conference with Khrushchev in order to let him know how accommodating we will be with the Communists."

Miller said, "The answer is the election of Barry Goldwater as president of the United States so that we can deal from a position of strength with the Soviet Union."

Miller said the President's "plan to go to Europe must be (Advertisement)

branded as purely a political play," Miller's comments were in a

statement released in Omaha, Neb., and in answers to reporters' questions during a national

television interview "Face the Nation," CBS—in the same city. He was asked in the interview

if Johnson's reported plans were not along the same lines as the 1952 pledge of the then-candidate Dwight D. Eisenhower that, if elected, he would go to Korea in an effort to end the military action in that country.

Miller replied that South Viet Nam was the leading trouble spot for the nation this year, as Korea was 12 years ago, and "I would be delighted" if Johnson announced his intentions of going to the Southeast Asia country.

Miller's latest attack on Johnson, who has been one of the GOP vice presidential nominee's chief targets during the campaign, came as Miller neared the end of a fast-moving, 12-day swing through the Midwest and West.

CAMPAIGN ACTIVITY
The New York congressman flew Wednesday night from Omaha to Reno for a round of campaign activity before flying to Los Angeles and then to Texas on Friday.

Miller was accompanied by his wife, Stephanie. Also traveling on the campaign plane were Mr. and Mrs. Raymond Lee from Miller's home city of Lock-

port, N.Y. Lee is president of the Lockport Felt Co. Miller is an assistant secretary and a director at a salary of \$7,500 a year in the same firm.

Lockport Felt has figured in allegations of conflict of interest against Miller as a result of his opposition on the floor of the House of Representatives to legislation that the Felt industry also had fought.

Miller said that he had been associated with Lockport Felt before entering Congress and had made no secret of that connection.

Ends Brief Voyage Along Chile Coast

Cannon Thunder to Greet De Gaulle

SANTIAGO, Chile (UPI)—President Charles de Gaulle, refreshed by a two-day sea voyage, steps ashore in nearby Valparaiso to the thunder of ceremonial cannon today to resume his 10-nation South American tour.

The Port Battery in Valparaiso, seven Chilean warships in the harbor and the French cruiser Colbert, in which de Gaulle is traveling, each was to fire a 21-gun salute.

The rumble of the 189 guns was the most worrisome sound the Chilean port had heard since it was bombed by the Spanish fleet in 1891.

President Jorge Alessandri was on hand to greet de Gaulle on his arrival and accompany him on the two-hour drive to Santiago.

Chile is the sixth nation visited by the 73-year-old chief of state. He is seeking to expand French influence in this hemisphere and to demonstrate his physical fitness for reelection in 1965.

EVENING MEETING
Most important event on his schedule today was an evening meeting in Santiago with President-elect Eduardo Frei, first Christian Democrat to ever win a presidential election in the new world.

De Gaulle boarded the Colbert yesterday at Arica in northernmost Chile. He flew to Arica from Cochabamba, Bolivia.

Earlier he visited Venezuela, Colombia, Ecuador and Peru. He received warm official and popular welcomes at all stops,

but his "neutralist" ideas appeared to have stirred little interest.

French and Chilean security agents had explored every inch of the route between Valparaiso and Santiago, and every point at which an assassin might conceal himself was under guard.

De Gaulle has been the target of several assassination attempts, and dozens of potential enemies along his South American route have been jailed or otherwise disposed of to keep them out of the way during the tour.

One Frenchman arrested some days ago on Argentina's Chilean border was sent to southern Chile at government expense on an enforced "vacation" which was to last as long as de Gaulle was in the country.

Senior Citizens Booklet

LANSING (AP)—A new booklet published by the Michigan Commission on Aging lists services available to the state's senior citizens. The 32-page booklet can be obtained free on request from the commission office at Lansing.

Over 100 Attend Osteopathic Guild Tea

Watching for early arrivals at the annual membership tea of Pontiac Osteopathic Hospital Guild are (from left) Mrs. M. D. Petrie, Chero-

okee Road; Mrs. Simon Simonian, Lake Crest Drive, the hostess; and Mrs. Verna Siller, director of nurses at the hospital.

Over a hundred women attended the annual membership tea of Pontiac Osteopathic Hospital Guild Wednesday afternoon. Mrs. Simon Simonian opened her home on Lake Crest Drive for the affair.

Cochairman with the hostess was Mrs. Franklin Mills. Presiding at the tea table were Mrs. M. D. Petrie, president of the guild; Mrs. L. E. Blodeau, past president; Mrs. Verna Siller; Mrs. Henry Larabee, president of Detroit Osteopathic Women's Club; and Mrs. William Taylor.

Other women working on the tea committees were Mrs. L. C. Johnson, Mrs. Charles Gates and Mrs. Joseph Quatto. Concluding the list are Mrs. Monroe Moore, Mrs. Paul Trimmer and Mrs. Ward W. Ross.

Women always admire a lovely silver service and these two are no exception. From the left are Mrs.

George L. Barker, Raven Court; and Mrs. Irwin Posner, Knollwood Circle, West Bloomfield Township.

Executive to Speak to Pilot Club

Earl J. Hill, a Consumers Power Company executive, will address the Pilot Club of

Pontiac, Inc. at 7:30 p.m. Monday in the Waldron Hotel for the international's 44th Founders' Day celebration. His talk, titled "Accent on Good Will," will be preceded by a dinner at 6:30 p.m. for which reservations are due Friday.

the Oakland County Juvenile Home.

Mrs. DeLata Wilson is chairman of the group's booth at the Bloomfield-Miracle Mile Shopping Center's fall festival celebration Friday and Saturday.

An area workshop will be held Oct. 11 in Ann Arbor. Mrs. Charles Moore of South Bend, Ind., chairman of the affair, will visit the Pontiac unit for the Oct. 15 business meeting 7:30 p.m. in the Waldron. She will conduct a governor's council following the meeting.

Using Both Her Names Is Correct

By the Emily Post Institute

Q: One of the young women executives in our office is married but uses her maiden name in business. The other evening my husband came up to the office to meet me and I introduced him to this young woman.

I used her maiden name in the introduction. Was I right or should I have introduced her by her marriage name?

A: In the office, you were right to use her maiden name but you should have added in explanation when introducing her to your husband, "Miss Smith, away from business, is Mrs. Henry Brown."

Q: My daughter was to have been married in two weeks. The invitations to the wedding were sent out and now she tells me that she and her fiance have decided to call it off.

This is a very embarrassing situation to be placed in and I would like to know how to notify the guests that the wedding will not take place.

A: If there is time, the following printed notice would be sent to all those who received invitations:

Mr. and Mrs. John Smith regret to inform you that the marriage of their daughter Mary Ellen

to Mr. Henry Greene will not take place. Otherwise they would be informed by telephone or telegram.

Q: When serving lunch on a bridge table, how is the cloth correctly placed on it? Is it put squarely on the table or placed four corners?

A: If it is put squarely on the table.

The Emily Post Institute cannot answer personal "call," but all questions of general interest are answered in this column.

Snap to Aid

James Hicks, manager of the Meadow Brook Festival, has put out an SOS to area amateur photographers. He needs color slides of the festival—any phase of it—for publicity in 1965. Dozens of slides taken by a member of the Detroit Symphony for this purpose were lost when the musician's car was stolen.

If you have any slides that Hicks might use, contact him at his office in the intramural building, Oakland University.

Leo Halfpennys to Host Dinner

The Leo M. Halfpennys of Lorena Drive will be hosts on Friday at the rehearsal dinner for their son Michael and his fiancée Janie Roberts, in the Waldron Hotel.

Among the guests at the dinner will be Mrs. Halfpenny's aunts, Mrs. J. H. Crisman and Mrs. A. A. Abraham of Chicago. Also visiting at the Halfpenny home is a cousin, Mrs. Charles Heyda of Kirkwood, Mo.

The Saturday wedding will be in the Sacred Heart Church, Auburn Heights.

Honeymoon in Mexico for Couple

The Derek Michael Ansons (Judith Florence Frost) left for a honeymoon in Mexico after recent vows in the Lutheran Church of the Redeemer, Birmingham.

The Jerald A. Frosts of Bloomfield Village, parents of the bride, were hosts to a dinner-reception in Bloomfield Hills Country Club.

With her gown of ivory Brussels lace and train of matching ottoman silk, the bride wore an imported illusion veil and held a sheaf of ivory roses.

SISTER ATTENDED Mrs. Mark Jung attended her sister as honor matron and Mr. Jung ushered at the small family ceremony performed by Rev. Theodore Wiggazzer.

Jerald A. Frost Jr. was best man for the bridegroom, son of Maj. Ellis Anson of Down, England and Mrs. A. M. Anson of Lyndington, England. The couple will reside in New York City.

Eva Adams, director of the U.S. Mint (center), spoke at a luncheon Wednesday, sponsored by "Women for Johnson" at Kingsley Inn. With Miss Adams at the preluceon re-

ception are Mrs. Robert Heilbrunn, Birmingham (left), chairman for the event; and Mrs. George Googoshian, East Iroquois Road.

WOMEN'S SECTION

Local Chapter Will Host Conference

Alpha Beta Chapter of Delta Kappa Gamma, a society for women educators, will host a region C conference Saturday in Central Methodist Church.

TO HELP OFFICERS This conference is designed to help chapter officers and

committee chairmen begin their work for the year. Some 150 are expected to attend Saturday's sessions.

Registration will begin at 9 a.m., followed by discussion and workshop groups.

Jane O'Connor, state president of Delta Kappa Gamma, will address the general session at 11 a.m. The conference will end with a 12:15 luncheon.

Mrs. Bernice Dondineau, who recently retired from her

position as consultant of the Wayne County Schools, will be keynote speaker at the luncheon.

PLAN CONFERENCE

The region C conference has been planned under the direction of Mrs. Emily Hicks, general chairman.

Committee heads assisting her are Mrs. William Gillow, Mrs. Elsie Welch, Mrs. Harvey Bidstrup, Aldene French, Mrs. Dorothy Myers, Mrs. George T. Yansen and Gladys Bohrer.

Club Members Will View Autumn Fashion Parade

"Fashions for Fall" is the theme selected by the women of Pine Lake Country Club for a fashion show Oct. 1.

Fashions by Four Corners

Imports will cover the range from sportswear to ball gowns. Acting as cochairmen for the event are Mrs. Gilbert Hauser and Mrs. Charles Moeller.

Luncheon at 12:30 will be followed by the fashion parade at 2 p.m. with music to be furnished by Bob Durant and his orchestra.

Modeling for the event will be Mesdames Andrew Seed, George Souter, F. William Dumont, Edward Rodgers, Donald Morrow and Charles Vandekerck.

Other models are Mrs. Charles Moeller, Mrs. Franklin Read, Mrs. Phillip Maxwell, Mrs. Harold Heffernan and Mrs. Albert Matise.

Commentator will be Mrs. Anita O'Malley, former fashion coordinator of Nieman Marcus in Dallas.

Alums to Hold Fund-Raising 'Candle Tea'

The North Suburban Alumnae of Alpha Phi sorority will sponsor its annual Candle Tea from 2 to 5 p.m. Oct. 8 in the home of Mrs. Carl F. Fischer on Lahser Road, Bloomfield Hills.

Assisting will be Mrs. Jack Putnam and Mrs. Robert Murdoch, both of Birmingham, with the former in charge of the candles and Mrs. Murdoch responsible for food details.

The Ball of Wax of Birmingham will make the candle arrangements to be sold at the tea, the group's annual fund-raising project.

Proceeds go to its national project, cardiac aid, and locally to Children's Hospital of Detroit and FAR (Friends and Relatives of Retarded Children).

Plan Future Vows

Mid-November vows are planned by Sandra Kay Rochon and Samuel Troutwine, son of the Willard Troutwines of Pine Street, Orion Township. The bride-elect attended Marygrove College, Detroit, and is the daughter of George W. Rochon of Lincoln Street, and the late Mrs. Rochon.

Calendar of Events

FRIDAY CRANBROOK'S GREEK THEATER: 8 p.m.; art films; movies of Italian works of art as photographed by local artist Clifford West.

SATURDAY SAN FRANCISCO BALLET: 8:15 p.m.; Pontiac Northern High School auditorium; opening of the Oakland University Community Arts Council series with "Ballet '64".

MONDAY PONTIAC PANNELLONIC: 8 p.m.; meeting of the Silverdale Drive home of Mrs. Robert C. Anderson.

MACEADY GARDENS EXTENSION STUDY GROUP: home of Mrs. Boyd Ball; Mrs. Jack White will cohostess; lesson on "Floral Arranging".

AMERICAN LEGION AUXILIARY, Cook-Nelson Unit No. 20: 8 p.m.; business meeting at the Legion hall on Auburn Avenue.

NORTH SUBURBAN ALUMNAE OF CHI OMEGA: Birmingham home of Mrs. Robert Ketchum; call Mrs. Kenneth Marsh or Mrs. John Gumaer for reservations; prospective members may contact Mrs. Donald Schoenhals.

This Man Really Pursued by Mother-in-Law Trouble

By ABIGAIL VAN BUREN

DEAR ABBY: What does a man do when he confirms his suspicions that his mother-in-law wants to be more than mother-in-law to him, if you know what I mean?

My wife and I have been married (happily) for nine years and have two children. I am 37, my wife is 34, and her mother is 56.

She certainly doesn't look like the type who would entertain the kind of ideas she has been trying to get across to me lately.

My father-in-law is a nice, easy-going, undersized yes-man. At family get-togethers, she sends him home early so she can ride home with my wife and me to drop the wife off and then drive our sister home. Then the battle to get away from my mother-in-law is on!

How do I get out of predicaments like this?

CHASED BUT CHASTE

DEAR "CHASED: Tell Grandma that you are not a BIG BAD WOLF and if she doesn't behave herself you will be forced to skip the family get-togethers. And then her daughter will wonder why.

That should do it. If it doesn't, you are the first 37-year-old man who can't run faster than a 56-year-old woman.

DEAR ABBY: A very good-looking girl who goes steady with my best buddy's steady told me through her girlfriend that she would like to go out with me.

To tell you the truth, I think I could go for her, but I don't want to ask her out while she is my buddy's steady girl. I'm afraid if I give her enough encouragement, she'll break up with him and then what if, after a few dates with her, I decide I don't like her that much?

How can this be worked? I

have never had a steady girl and I don't think I want one.

UNDECIDED

DEAR UNDECIDED: This girl apparently has a roving eye.

If she were the right kind of girl, she'd break off with her steady and be legitimately free to date others, because obviously that is what she wants to do.

But don't give her any encouragement while she is going steady with somebody else.

CONFIDENTIAL TO "BABY" AT CHEVSELER'S: Give him "EVERYTHING BUT LOVE, BABY."

Troubled? Write to Abby, in care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby, in care of The Pontiac Press.

Panel to Discuss Open Occupancy

HATT

BILLINGS

IRWIN

WIDDIFIELD

Crofoot Elementary School PTA will sponsor a panel discussion next Thursday evening on "Open Occupancy." Any interested person may attend the 8 p.m. meeting in the school's multipurpose room. Mrs. Robert Hatt of Birmingham

(far left) will moderate the discussion. On the panel will be Charles Billings, teacher; Rev. C. George Widdifield, minister; Robert Irwin, realtor and Pontiac City Commissioner; and Jerome Mulligan, attorney (not pictured).

Birmingham Town Hall

Stage Star to Talk

Kitty Carlisle, famous star of stage, screen and TV's "To Tell the Truth," will appear Oct. 8 and 9 under the auspices of the Birmingham Town Hall.

Born in New Orleans, she went to Switzerland at the age of 10 and was educated there and at a finishing school in Paris where she also studied voice and piano.

As the forthright Miss Carlisle puts it, "When the family fortunes declined, my studies

went into professional gear." These studies included work at the Theatre de l'Alelier in Paris and the Royal Academy of Dramatic Arts in London.

Returning to the United States, Kitty made her professional debut at the Capitol Theatre in New York in a condensed version of the musical "Rio Rita."

CAREER TRAVELS From there she moved to Broadway, the legitimate theater, a series of movies, and night club and hotel jaunts.

It was during a respite in New York before going on tour that her late husband, the playwright director Moss Hart, met her.

In her talk Miss Carlisle will reminisce about herself and her fabulous life in the entertainment world — "a subject on which I'm an expert," she quips.

Following the 11 a.m. performance in the Birmingham Theater there will be a 1:00 p.m. celebrity luncheon in the Village Woman's Club.

February vows are planned by Kathleen Marie Kalther, daughter of the Eugene C. Kalhers of Pacific Palisades, Calif., and Richard Homer Jackson, son of the Homer Jacksons of James K Boulevard.

The bride-elect attended Santa Monica City College. Her fiancé is an alumnus of University of Michigan where he was affiliated with Chi Psi, Tau Beta Pi and the Hecorian Society.

Local Youth to Be in Play Twenty-one students at the University of Michigan will appear in "Gideon," the University Players' first play of the season.

Curtain time for the play which is based on the Book of Kings, will be 8 p.m., from Oct. 7 through Oct. 10 in the Trueblood auditorium.

Stephen J. Wyman of Ottawa Drive will play Gideon.

Judson Lehman, son of the Gaylord Lehman of Eileen Drive, has been named a member of the Taylor University Marching Band, at Up-land, Ind.

Among some 323 University of Wyoming students who have

pledged campus social sororities and fraternities this semester are Donald R. Weyer and Jim K. Kimmel of Pontiac. They have pledged Sigma Alpha Epsilon.

Should Rest First A short period of rest or relaxation should precede baby's eating period. A tired child often will not eat.

Let Fabrics
Come Alive
With This!

There's a trick to caring for popular stretch fabrics. Although the new easy-care stretch fabrics can now be machine washed and dried, they often look limp and lifeless after several washings.

The secret to keeping them new-looking is a whisk of spray-on starch and a touch of the iron. Just spray the dry, freshly washed garment as you iron.

Dark colors and hard-to-finish weaves such as gabardine stretch fabrics should be sprayed - on starched and ironed on the wrong side to avoid iron shine.

Shower for
Miss Morgan

Mrs. William Davis and Mrs. Mary Heatherly honored Karyn Lee Morgan of Holly at a recent linen shower in the Heatherly home on Jefferson Street. Her fiancé, Morgan Taylor Moss, is the nephew of the hostesses.

Mrs. Clarence M. Morgan of Holly and Mrs. Milton A. Moss of Tripp Road, Groveland Township, mothers of the engaged couple, were present, also his grandmother, Mrs. Mabel Moss, also of Groveland Township.

The Oct. 10 wedding will be in First Baptist Church of Ortonville.

New Product
Eases Ironing

Now any home may have the flatbed type of ironer used by tailors and valets.

This permits spreading out pleated skirts—trousers—even household linens—then pulling down a 22x1-inch heated shoe for one-motion pressing.

Begin Fall and Christmas Knitting
Now. New Yarns for a New Season.
9:30 - 5 Daily

Y members may take the course for \$5 for ten lessons. A one year membership in the YWCA costs \$2.

BEGINS CAREER

Miss Dorn began her cheerleading career in the Romeo High School and continued at Central Michigan University where she served as captain of the cheerleading squad. She has taught under the direction of Pauline Hess of the physical education department of Michigan State University, for the United States Cheerleading Association at the All American Camps in Hartland, and the George Williams College Camp in Wisconsin.

Any teenager interested in

taking cheerleading lessons is asked to phone the YWCA.

SEWING COURSE

Sewing for beginners has also been added to the classes available in the evening at the YWCA. Mrs. Tom Hooper will teach sewing Wednesday from 7:30 to 9:30 p.m. for a ten-week term.

Cost of the course is \$7.50 for members.

Give Pockets of Surprises

The next time you give clothing to a child as a gift, fill the pockets with tiny surprises such as a few pennies, a small ball, balloons, or crayons.

Another way to please a small child with a gift of clothing is to tie the package with a jump rope.

MRS. J. L. PRIMMER

Large wooden drapery rings with the screws removed make nice napkin rings for your table.

Something to Cheer About . . .

Good grooming counts during the busy Fall and Winter days ahead. If you are conscientious about your appearance and want to look your best for every occasion follow the lead set by Pontiac's "more so" and let Fox Professional Drycleaners get your wardrobe looking its best!

Hunt Club Reception Follows Ceremony

The Bloomfield Open Hunt Club was the setting for a reception following the recent vows of Helen Ruth Ivory and John Leslie Primmer, in St. Hugo of the Hills Church.

Rev. Gerald Flanagan offered the nuptial high Mass. Parents of the bride couple are Mr. and Mrs. John F. Ivory II of Masfield Drive and the Leslie R. Primmers of St. Clair Shores.

PEARL EMBROIDERY

A bodice of Alencon lace, embroidered with pearls, highlighted the bride's gown and train of ivory candlelight satin. A silk pillow held her bouffant veil of illusion.

White Fuji chrysanthemums and ivory were arranged in a bridal cascade.

With Mary Patricia Ivory, her sister's honor maid, was bridesmaid, Mrs. William H. Hankins, East Lansing. Margaret Primmer and Janet Ivory were junior attendants.

On the esquire side, were William Clements, best man

and ushers William Hankins, Ronald Pascarelli, Robert Strang, William Ptasnik and Arthur Gage.

After a honeymoon in Florida, the couple will reside on Crooks Road.

An April wedding is being planned by Sheryl Lynne Jones whose engagement to Gary Edwin Bashore is announced by her parents, Mr. and Mrs. Du Wane Jones of Shaddick Road. Her fiancé is the son of the Max R. Bashores of St. Johns. Both attend Oakland University.

Poet to Speak at Conference

Conrad Hilberry, on the Oakland University campus tomorrow as a guest lecturer at the Writers' Conference, will give a program entitled "Poet and Poetry" 8 p.m. Friday in room 156 of North Foundation Hall.

A published poet, Hilberry is an associate professor of English at Kalamazoo College. His poems have appeared in Atlantic Monthly, The New Yorker, Saturday Review of Literature, College English, Beloit Poetry Journal, Christian Century, Epoch, Prairie Schooner and Carleton Miscellany.

He will read from his own work at the lecture and discuss "The Management of Tone in Contemporary Poetry," at the Writers' Conference Saturday.

Doctors Say Sneakers OK

NEW YORK (UPI) — The lowly sneaker isn't held in ill repute by medical experts who treat foot ailments.

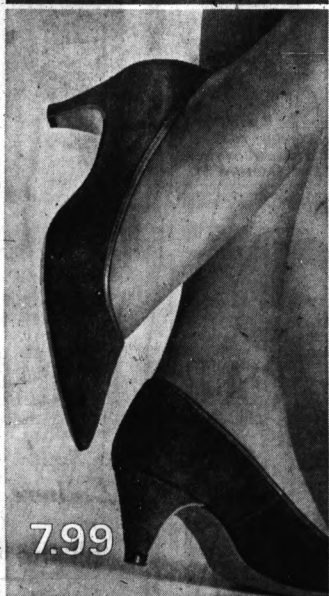

Replying to a questionnaire on sneaker wear, a substantial majority of more than 100 podiatrists from 15 states said they themselves wear sneakers, so do their children.

What's more, they're not opposed to anyone with normal feet wearing them. The results of the survey were reported at the 52nd annual meeting of the American Podiatry Association.

Moths Don't Disappear

Once the summer's over do you just toss your garments into a corner of the closet or stuff them into bureau drawers to be forgotten till next year?

Do you think that moths disappear, come fall, so you don't have to bother protecting your lightweight woollens?

You're not alone. From a recent survey, it was learned that 80 per cent of American housewives do not use moth preventives correctly and only a few bother to protect their summer wardrobe at all. Because of this mistaken be-

lief that moths disappear in the winter, the cost of clothing damage amounts to between one-half billion and one-billion dollars annually.

The fact is that summer garments need to be stored just as carefully as your winter clothes.

Summer suits and light woolen dresses hold up best if stored in airtight garment bags. Put para crystals or nuggets in the bag and replenish the preventive every few months for effective results. Cashmeres, woolen bathing

suits, lightweight blankets and smaller garments are best stored in separate airtight packages. First sprinkle these items generously with para nuggets or crystals and wrap carefully in a material such as aluminum foil. Then seal the folds and edges with masking tape to keep the para vapors from escaping and losing their moth-killing strength.

If you live in an area of high humidity or dampness, the combination of para crystals or nuggets used with foil and masking tape will also guard stored articles of clothing against mildew.

Mr. and Mrs. Donald Bechen of Oklahoma Court, Avon Township announce the marriage of their daughter Kathleen Denise to Joseph Howard Hammond, son of the Howard Hammonds of Crooks Road, Avon Township. The recent ceremony was performed in the Elmwood Methodist Church, Auburn Heights.

New Officers Start Season for WCTU Unit

Officers of the Pontiac unit of the Women's Christian Temperance Union (WCTU) began their year's duties with a meeting Tuesday night.

Mrs. Ray Fleming, president, conducted the meeting in her Cottage Street home. Assisting her as vice president is Mrs. Floyd Durnbaugh.

Other officers are Mrs. Roy Riley, recording secretary; Mrs. Allen Ebey, treasurer; and Mrs. Clifford Wright, corresponding secretary.

At their next meeting, the group will start sewing lap robes and slippers for servicemen.

Dillon on Assassination

Doubts Perfect Guard Possible for President

WASHINGTON (AP)—Secretary of the Treasury Douglas Dillon, senior member of a four-man committee studying ways to improve protection of presidents, says he does not think that the president "ever can be perfectly protected," from assassination.

Dillon and the other committee members met for an hour Wednesday with President Johnson, who established the

group Sunday and told it to follow up recommendations of the Warren Commission that investigated the assassination of President John F. Kennedy.

Dillon said the group would come up with its own recommendations in time for them to be included in the next budget and in legislative proposals to be submitted to the next Congress, which opens in January.

Besides Dillon, the committee is composed of acting Atty. Gen. Nicholas Katzenbach, Director John A. McCone of the Central Intelligence Agency and George Bundy, special assistant to the President for national security affairs.

UNEXPLORED AREAS

Dillon told newsmen that the committee would go into questions not explored by the War-

ren Commission, such as assuring adequate protection of presidents on trips abroad.

Asked whether Johnson and the committee discussed the President's practice of getting out of cars to mingle with crowds, Dillon said pages reports on it were discussed. He said the matter had also been taken up with the Secret Service which he said holds that "this is a normal thing; presidents have

always done it and it is something they have always handled and can handle.

Johnson repeatedly waded into throngs of admirers Monday on a campaign trip through New England.

Dillon said the Secret Service already has taken a number of steps to strengthen protection since Kennedy's assassination last Nov. 22 in Dallas. They include more advance prepara-

tion for trips, greater surveillance of buildings along the routes, and additional manpower, some of it borrowed FBI and Treasury agents.

The Warren Commission criti-

cized the Secret Service and to a lesser extent the FBI on grounds of inadequate preparation for presidential trips. Asked if any Secret Service agents had been disciplined, Dillon said, "We didn't think any was required."

Multicase American households have more than doubled in the last 10 years and totaled 8.7 million in 1963, Finance Facts reports.

The average 200-pound hog yields 16 pounds of bacon.

HUGHES HATCHER SUFFRIN SPOTLIGHTS BOTANY 500

The most remarkable thing is that Botany 500 can put so much quality into modestly priced clothing. No corner-cutting here. And no tailoring tricks. Just fine, clean-cut styling that follows the natural line without paring it to pieces. Tailoring that goes far deeper than just the details. And fabrics that state their luxury with gentle authority. This is the look, the feel, the taste, the quality of Botany 500 clothing, tailored by Daroff. See it in our current—and exciting—collection. In suits at \$75. In two-trouser suits at \$95. In outercoats from \$75. In sport coats at \$45. And in this case, good things come in large packages—for our Botany 500 collection covers a size range from 35 to 52, in all proportions.

OUR PONTIAC MALL STORE IS OPEN EVERY EVENING TO 9 P.M.

More Command Changes Expected in S. Viet Nam

SAIGON, South Viet Nam (AP)—Premier Nguyen Khanh is expected to make more changes in South Viet Nam's military command and government in the next few days, reliable sources said today.

Two officers reported under consideration for higher posts in the U.S.-backed regime are Brig. Gen. Cao Van Vien, and 8th-Brig. Gen. Nguyen Chanh Thi, one of the "Young Turk" generals who remained loyal to

Khanh during the attempted coup on Sept. 13.

Vien reportedly may be made defense minister; a post Khanh took away from Lt. Gen. Tran Thien Khiem earlier this month. This was reported in line for the job of military governor of Saigon, a post that has much to do with the success or failure of any attempt to overthrow the government.

During the past two days, a number of ranking Cabinet officials have been displaced in what appeared to be a power

struggle. The chief casualty was Khiem, a member of the ruling triumvirate and South Viet Nam's highest ranking officer. Khiem was to leave the country today, ostensibly on a goodwill mission to Europe. Scheduled to depart on the same plane was Col. Pham Ngoc Tho, Khanh's press aide, who was reassigned to South Viet Nam's embassy in Washington.

Khiem's ouster was demanded by Buddhist leaders and the Young Turks. Tho was a target of the leaders of the Sept. 13

coup attempt and was regarded as an enemy by several other factions.

Tho said in an interview that

his departure would mean that "there will be no one here to protect the premier" from the young generals.

"I believe they will try a coup in a couple of days," he added. Khanh scoffed at speculation of a new revolt and predicted

he would remain in power until the government is turned over to civilian rule. He has said this will take place Oct. 27.

Job Is Too Dangerous

LONDON (UPI)—Mrs. Joyce Hallamby, 40, said today she is quitting her job as a school crossing patrol officer because she has been hit by vehicles three times in six years and "I've had enough—I work in fear of my life."

HOUSE OF DAUGHTERS — Mr. and Mrs. Francis Bullis of Rensselaer, N. Y., hold a family meeting with Mr. Bullis the only male present. The couple has nine daughters, (from

left) Gladys, 2; Frances, 15; Susan, 7; Betty, 14; Patty, 10; Tracy Ann, 1 week; Linda, 8; Jackie, 5. The oldest daughter was not present for the meeting.

AP Wirephoto

One Man Revolts; Cuts Off Volts

SARK, Channel Islands (AP)—A one-man revolt raged today on the Channel island of Sark.

The rebel is Malcolm Robson, owner of the electricity plant that supplies the 600 residents of the little British island off the French coast. With a flick of a switch he plunged them all into darkness Wednesday night.

The blackout lasted 30 minutes. Islanders rushed to Sark's three stores and bought the entire supply of candles.

"That's just a taste of things to come," Robson warned. "If things don't get better I'll cut off the supply entirely."

WAR ON RULER

Robson is warring with the Chief Pleas, the advisory council to the island's hereditary ruler, Mary Hathaway, who has the title "La Dame."

Robson got angry, when the Chief Pleas ordered him to take down a tall electricity pole which the council said was on someone else's land.

He told the council: "I'm getting fed up with interference. And unless you order that no further action will be taken against me I shall shut down the plant."

That brought cries of "blackmail." But at 6 p.m., just as darkness was falling, Robson threw the switch, blacking out the island and cutting its communications with the outside world.

Harry Bell, chairman of a Pleas committee on electricity, said: "We are trying to decide whether the islanders should have some kind of control of the electricity supply — but not a nationalization scheme."

"The pole that caused the trouble is on somebody else's land and Mr. Robson has been told to take it down. I can see that his blackout will help his case."

'7th Fleet Defers Communist Plans'

KUALA LUMPUR, Malaysia (AP)—The commander of U.S. Naval Forces in the Philippines said today the presence of the U.S. 7th Fleet has acted as a deterrent to Communist plans for territorial expansion in Asia.

"The 7th Fleet, which is the biggest and most powerful operational fleet in the world, is mobile. The fleet sitting on someone's doorstep—in international waters of course—has a sobering effect on anyone doing the wrong thing," said Rear Adm. Jack P. Monroe.

He is here on a two-day familiarization visit and will meet the Malaysian armed forces chief, Maj. Gen. Tunku Osman Jiwa, he leaves for Australia on a similar mission Saturday.

Two Soviet Families Desperately Seeking Move to U. S.

MOSCOW (AP)—Two families unhappy with life in the Soviet Union, are making a desperate bid for permission to move to the United States.

They sold all their belongings and moved from Riga, Latvia, to Moscow to await action on their applications for exit permits. A Soviet official has given them a glimmer of hope but advised that they return to Riga to wait for a reply to their appeal.

Mrs. Natalia Berezine, 29, spokesman for the group of four adults and five children, said they arrived here Sept. 20 determined to leave the country. The U.S. Embassy has promised them visas to the

United States if they can obtain exit permits, she said.

Mrs. Berezine said she has half-brothers and other relatives in the United States. She emigrated to Russia from Red China 10 years ago on a dare from classmates at a Catholic school in Shanghai, she said.

With her are her husband, An-

atol, 30, their two children, Mrs. Klavdia Dubovtzeva, her divorced daughter and their three children. The adults all were born in China of Western and Oriental parentage.

With money to last only perhaps two weeks, they're living in a cheap hotel on the outskirts of Moscow. Mrs. Berezine said she and her husband are deter-

mined to stay here until the case is settled.

But she said the only encouragement so far had come from a Soviet official she did not identify. When asked whether permission to leave would be granted, she said he replied: "I think it will be granted."

Mrs. Berezine said the official

urged them to return to Riga, but she told him: "We don't trust you and we won't all go back to Riga because we are sure to be arrested." She said she told him her husband would return alone to submit the necessary papers there.

"What are you going to do here?" the official asked her. "You have no money and no

place to go. You can't live on the streets. What will you do, become beggars?"

POLICE REFUSED

Mrs. Berezine said Moscow police authorities refused to have anything to do with the case. She said Izvestia, the government newspaper, said it could not write about the case without permission.

The woman said after she told her story to Western newsmen in Moscow, an official of the Supreme Soviet, the Soviet parliament, told her: "You should be thankful you have not been arrested yet."

She said she asked him if they were in danger of arrest and he replied: "It depends on your behavior."

Junior Editors Quiz on THE BIBLE

QUESTION: Where did King Solomon get all his gold?

ANSWER: In the Bible, 1st Kings, chapter 6, the story is told of how King Solomon started to build the Temple of Jehovah. He wanted it to be a monument to the one true God and to be more magnificent than any heathen temple. He believed that the lavish use of gold was one way to express this idea.

The enormous amount of gold and silver used by King Solomon has been estimated, in our modern valuation, at about 4 billion dollars.

From the earliest times, man had valued gold above other metals. Many sources of gold were discovered in or near the lands spoken of in the Old Testament.

Gold was traded for and brought to the Jewish capital of Jerusalem from India, South Arabia and Ethiopia. Our illustration shows the queen of the country of Sheba, which was in southwestern Arabia, coming to pay a visit to King Solomon and bringing him many valuable presents, including gold worth nearly 3½ million dollars.

This queen had heard of the glory of King Solomon and had come to see for herself.

FOR YOU TO DO: Read chapter 10 of 1st Kings in the Bible and you will find a detailed report on King Solomon and the visiting Queen of Sheba.

17 Area Motorists Ordered Off Road

Seventeen area drivers recently had their driver's licenses either suspended or revoked by the Michigan Department of State.

Unsatisfactory driving records caused the following to be ordered off the road:

Terry L. Carrothers, 621 Sunnyside, and Patty Jo Ridgeway, 2536 Littlefield, both of West Bloomfield Township; Robert Cherry, 2485 W. Maple, and Richard Mattia, 2610 Cobly, both of Bloomfield Township; and John Wilson, 27900 W. Nine Mile, and Joseph Zink Jr., 21442 Hamilton, both of Farmington Township.

Also Howard Gustafson, 2523 Oakview, Wolverine Lake; Jimmie Hatley, 3030 Portman, Keego Harbor; Wesley Kage, 3640 Walton, Pontiac Township; and Arthur Wass Jr., 736 Elizabeth, Rochester.

Ordered to show proof of financial responsibility due to convictions of drunk driving were:

Charlie McBride, 216 Central; Joseph Setina, 733 Corwin; Arthur L. James, 1879 Cass Lake, Keego Harbor; Dewey Miracle,

21791 Waldron, Farmington Township; Robert Perkins, 1432 Rivona, Waterford Township; and Richard Werling, 153 Chamberlain, Orion Township.

Ordered off the road for driving with a revoked license was James Hudson, 999 Northfield.

Construction Unit Names Inspectors

LANSING (AP)—The appointment of seven safety inspectors has been announced by the State Construction Safety Commission.

Named were Clair Andrews of Leslie, David Donnell, Lansing; Richard Julin, Detroit; Robert North, Highland Park; W. H. Smyth, Saginaw; James Waldron, Hazel Park; and Albert Willette, Marquette.

The inspectors will evaluate safety practices on construction projects throughout the state and will assist contractors in providing and maintaining effective safety programs.

Ask Felony Charge in Youth Stabbings

DETROIT (AP) — Felony warrants were recommended against two teen-agers today in a schoolboy stabbing and a second stabbing at a dance hall.

Prosecutor Samuel Olsen said he would ask that Elliott Haskins, 15, be charged with assault with intent to murder and John McGhee, 16, be charged

with assault with intent to do great bodily harm.

Haskins, a junior high school student, is held in the stabbing of John Reese, 15. McGhee is accused of stabbing Wesley Sledge, 16, at a dance hall in an argument over a girl.

More than 96 percent of all farms in the United States have electricity.

Jackie Donates Deer to Central Park Zoo

NEW YORK (AP)—Mrs. John F. Kennedy has donated two Irish deer to the Children's Zoo in New York City's Central Park.

The deer arrived Wednesday from the Kennedy estate, "Wexford," in Virginia. They were given to her in 1963 by Eamon de Valera, president of Ireland.

GE, Union Avert Strike With Pact

SCHENECTADY, N.Y. (AP)

The General Electric Co. and a local of the International Union of Electrical Workers reached agreement early today in a dispute over a pay plan to avert a possible nationwide strike against GE by the union. Negotiators worked out the final details of a new pact about an hour after the midnight deadline set by the company. GE had threatened to cancel a \$6-million modernization program here if the IUE did not accept a new pay schedule for piece-work employees.

The union had charged that GE plan to switch about one-third of the plant's 9,000 employees from their piece-work rates to lesser straight-hourly wages violated GE-IUE contracts.

The company contended that the piece-work rates were pricing it out of competition with foreign manufacturers and other domestic firms.

HOURLY PAY

Under the new pact, all employees would be on a straight-hourly pay system. The former piece-rate workers would receive compensatory "transition allowances."

The company agreed to put at least 250 workers on piece-work rates on each anniversary of the signing of the agreement.

A GE spokesman said the future piece-work employees would be governed by "procedures designed to prevent the deterioration of incentive applications which occurred in the past."

The agreement, which must be approved by the international union, was hailed by local union and GE spokesmen as "a landmark" in company-labor relations.

STRIKE AUTHORIZED

The union's GE conference board had authorized a strike, saying that, if the Schenectady local were forced to strike, it would urge strikes at other GE plants and shops where the union has members.

Casseroles Suit Autumn Days

By JANET ODELL

Pontiac Press Food Editor

You're using that oven more now that the weather is cooler, aren't you? And with fall activities beginning, you're in the market for easy main dishes.

Most of the recipes given below can be prepared in the morning and refrigerated until time to get dinner.

Stew can be an oven dish, but here it is simmered. If you make this early in the day, or even the day before, don't add the frozen vegetables until serving time.

Autumn Beef Stew

3 pounds boneless beef chuck, round, rump meat cut into 1½ inch cubes

¼ cup flour

4 teaspoons salt

1½ teaspoons chili powder

¼ teaspoon pepper

1 cup shortening

1 cup coarsely chopped onion

¼ cup water

6 small white whole onions

2 cups thickly sliced carrots

3 medium-sized peeled tomatoes, cut into quarters or 1 can (1 pound) tomatoes, undrained

1 cup fresh cross-cut green beans or 1 package (9 ounces) frozen cut green beans

1½ cups fresh cut sweet corn or 1 can (1 pound) whole kernel corn, drained

Combine flour, 2 teaspoons salt, chili powder and pepper. Dredge meat cubes in flour mixture. Brown meat slowly in hot fat, turning meat pieces as needed to brown evenly. Add

STUFFED ONIONS

chopped onion and water. Cover and cook slowly until meat is tender, 2 to 2½ hours.

Add whole onions, carrot slices, tomatoes and remaining 2 teaspoons salt 30 minutes before end of cooking time. Add beans and corn 15 minutes later and allow to cook until tender. Yield: 8 servings.

Noodles and cheese come to the table in an attractive casserole, garnished with canned pineapple slices.

This is a good dish to take to a cooperative dinner. Wrap it in newspaper when you remove it from the oven and it will stay hot for some time.

Pineapple Noodles and Cheese

1 tablespoon salt

3 quarts boiling water

8 ounces medium egg noodles (about 4 cups)

¼ cup chopped celery

2 tablespoons chopped green pepper

1 tablespoon chopped onion

3 tablespoons butter

3 tablespoons flour

1 tablespoon brown sugar

¼ teaspoon salt

¼ teaspoon ginger

¼ cups milk

1 cup grated sharp Cheddar cheese

¼ cup pineapple syrup (reserved from canned pineapple)

1 tablespoon lemon juice

6 slices canned pineapple, halved

Paprika

Add 1 tablespoon salt to rapidly boiling water. Gradually add noodles so that water continues to boil. Cook uncovered, stirring occasionally, until tender. Drain in colander.

Meanwhile cook celery, green pepper and onion in butter 3 minutes. Combine flour, sugar, salt and ginger; blend into vegetable mixture. Gradually stir in milk. Bring to boil; boil 1 minute, stirring constantly. Add cheese; cook, stirring until cheese is melted.

Remove from heat; stir in syrup and lemon juice; combine noodles and sauce; turn half into 1½-quart casserole. Add half of the pineapple; top with remaining noodle mixture.

Dip edges of remaining pineapple into paprika; arrange on casserole. Sprinkle with additional diced cheese, if desired. Bake in 375 degree oven 15 to 20 minutes or until bubbling. Makes 4-6 servings.

Bake tamale pie in individual casseroles and your dinner will cook that much faster. Get the meat mixture ready in the morning, refrigerate it and add the corn bread topping at the dinner hour.

Tamale Pie

1 medium onion, chopped

1 medium green pepper, chopped

1 clove garlic, minced

2 tablespoons pure vegetable oil

1 pound lean ground beef

2 (8-oz.) cans tomato sauce

1 (15-oz.) can whole kernel corn, drained

¼ cup red wine

1 teaspoon salt

¼ teaspoon pepper

1½ tablespoons chili powder

1 cup corn bread mix

Water

1 cup grated Cheddar cheese

1 cup corn chips, crushed

Sauté onion, green pepper, and garlic in oil. Add beef and cook until it loses its redness. Remove excess fat. Add tomato sauce, corn, wine, salt, pepper and chili powder. Simmer for 20 minutes. Pour into 6 individual casseroles.

Combine corn bread mix with amount of water recommended on package. Add ¼

cup cheese. Top casseroles with mixture and bake at 400 degrees for 20 minutes.

Sprinkle remaining cheese and corn chips on top and bake 15 minutes longer.

For the quickest recipe of all, take a can of spaghetti with ground beef and fill cooked onions. If these are cooked early in the day, your baking time is just 20 minutes.

Spaghetti Stuffed Onions

6 large onions

2 (15½ oz.) cans spaghetti with ground beef

Cover onions with cold water and bring to a boil. Reduce heat and cook gently for 30 minutes. Drain. Cool. Cut off ends and peel. Scoop out center leaving shell.

TAMALE PIE

Chop half the onion pulp and add to the canned spaghetti and ground beef. (Save rest of onions for creamed onions or flavoring other dishes). Fill

the onions with the mixture. Place onions on shallow baking dish. Add ¼ cup water and bake, uncovered, for 20 minutes at 400 degrees.

Ever use a crust made from chocolate cookie crumbs as a base for cheese cake?

English Muffins for Sandwich

Election year makes everyone politically minded. Parades, rallies, and speeches are a part of the American scene. Campaigning homemakers welcome meals that are short on labor.

There's no end to the savory concoctions made with canned gravies. Rich and smooth beef, chicken, and mushroom gravies are sure winners. Perfect additions to skillet and casserole dishes, they get the votes every time when used for hot sandwiches.

Listen to the parade of comments when you serve Peppy Park Sandwiches. For this budget-saver, use leftover pork slices. Add canned mushroom gravy, horseradish, and mustard and serve on toasted English muffins. Garnish with spiced apple rings for a crowning touch.

Team this delectable sandwich with frozen French fries and cabbage-carrot slaw for a quick serving meal. Your family will have something to rave about.

Peppy Park Sandwiches: 1 can (10½ ounces) mushroom gravy, ¼ teaspoon prepared mustard, ¼ teaspoon horseradish, 2 servings sliced cooked pork, 3 English muffins, split and toasted, 2 spiced apple rings.

In saucepan, combine gravy, mustard, and horseradish; add pork, heat, stirring now and then. Serve over muffins. Garnish with apple rings. Makes 6 open-face sandwiches.

Rice Dish Is Colorful and Elegant

There is more than a slight touch of autumn in "Tokay Cheese Pilaf."

Tokay Cheese Pilaf

1½ cups Tokay grapes

1 can (10½ oz.) condensed onion soup

1 cup water

1 bay leaf, crushed

¼ teaspoon salt

¼ teaspoon seasoned pepper

1 cup long grain rice

2 tablespoons butter or margarine

4 oz. Cheddar cheese, cubed

Halve and seed Tokays. In saucepan with tight-fitting cover, mix undiluted soup with water, bay leaf, salt and seasoned pepper; bring to boil. Add rice, stir and bring back to boil. Cover pan and reduce heat to low. Cook 20 to 25 minutes; do not uncover.

When rice is cooked, lightly stir in butter, cheese and grapes. Heat 1 or 2 minutes longer to melt cheese slightly. Serve at once with chicken or pork chops as you wish. Makes 6 servings.

Blend Pickle Juice With Mayonnaise

Pickles add zest to this salad.

Chicken Salad Francaise

2 cups diced cooked chicken white meat

1 cup thin celery crescents

¼ cup diced drained sweet pickled cucumber slices

¼ cup mayonnaise

Lemon juice

Salt and pepper to taste

Salad greens and paprika

Toss together the chicken, celery and pickle. Add enough of the pickle liquid and lemon juice to the mayonnaise to suit your own taste; mix with chicken mixture; add salt and pepper. Heap on salad greens; sprinkle with paprika.

A large chicken breast, simmered in a little seasoned water, should give the amount of chicken meat needed. Makes 4 small servings.

Why Not at Dinner?

You've served creamed chicken, beef for breakfast or lunch, but have you thought about it for dinner? It's delicious spooned over fluffy baked potatoes. If you wish, add some peas to the creamed beef for color and flavor.

BANANA LAMB BROIL — American lamb . . . Saratoga lamb chops . . . and bananas from South and Central American

Versatile Fruit

Bananas Appear in Many Dishes

You, as a homemaker, should always have a menu or two in mind when planning to entertain very special guests. It doesn't have to be complicated but should consist of foods easily prepared so you can view more than the kitchen walls once friends arrive.

Perfect to present to them as an entree is a combination of Saratoga Lamb chops and broiled bananas.

This main course is unique because it can be broiled or grilled, and is therefore perfect for indoor or outdoor cooking.

The Saratoga lamb chops are made from a portion of meat inside the shoulder. They are boneless filets cut about 2 inches thick . . . what American man wouldn't welcome these . . . and each one takes approximately 12 to 15 minutes broiling on each side.

Marinated and basted with a honey-cherry-ginger sauce, the chops and bananas make perfect partners.

Banana Lamb Broil

1 cup salad oil
3 tablespoons honey
2 tablespoons dry sherry
2 tablespoons kumquat syrup
1 tablespoon soy sauce
1/4 teaspoon ground ginger
1/4 teaspoon monosodium glutamate
Dash pepper
4 (1 1/4- to 2-inch thick) Saratoga lamb chops
4 medium bananas, green-tipped
1/2 cup preserved kumquats

Mix together oil, honey, sherry, kumquat syrup, soy sauce and seasonings. Pour over lamb and marinate several hours, turning chops occasionally.

Broil or grill lamb 5 to 6 minutes on each side, or until

plantations combine in a spicy sauce for very elegant dining.

desired doneness, brushing occasionally with marinade. Place bananas and kumquats on aluminum foil; brush generously with marinade.

Seal and broil 10 minutes or until bananas are tender. Serve with lamb chops. Makes 4 servings.

Have you ever baked bananas? Try them using these tips. Bananas for baking should be green-tipped. At this stage of ripeness they are pale yellow with some green showing at the neck and tip ends. As they bake they will become

Aging Pork Has Tender Effect, Say Experts

EAST LANSING — Fresh pork chops may be on their way out of the supermarket — especially if consumers continue their demand for more tender meat.

Recent research conducted by Michigan State University scientists showed that pork loin chops became increasingly more tender when allowed to age 2 to 12 days.

Food scientist Lyman J. Bratzler and animal husbandry researcher William T. Magee reported that pork has been considered tender without aging, but some of this tenderness may have been lost during the development of the meat-type hog.

Aging pork may require carefully controlled coolers, since the fat becomes rancid quicker than beef and lamb fat. Control of oxygen in these rooms would minimize this condition besides reducing mold growth and discoloration, according to Bratzler and Magee.

Buttered Bread Tops a Cheese Dish

Let's try something new in main dishes — a tempting casserole in the Swiss style, featuring two natural flavor companions, onion and Swiss cheese. This Continental Cheese Casserole is hearty and appetizing, the kind of dish you'll relish on a crisp fall day. Its fragrance speaks of good things like onion soup and Swiss fondue.

Continental Cheese Casserole is a wonderful choice for meat-

less days, but the family will enjoy having it any time. Nut-sweet Swiss cheese and pungent onions blend harmoniously with creamy celery soup and hard-cooked eggs. Bits of green pepper and pimiento add confetti colors and extra zest.

For a finishing touch, slices of crusty French bread bake golden-brown atop the casserole.

There's plenty of protein in

this one-dish meal, thanks to the generous amount of shredded Swiss cheese and hard-cooked eggs. It's a study in contrast — mild and sharp flavors, creamy and crunchy textures. Slip the baking dish under the broiler just long enough to brown the bread slices at the end of the baking time.

Continental Cheese Casserole
2 tablespoons butter
2 cups sliced onions
5 hard-cooked eggs, sliced
2 cups shredded Swiss cheese
1 can (10 1/2-oz.) cream of celery soup

1/4 cup milk
2 tablespoons chopped green pepper
2 tablespoons chopped pimiento
1/4 teaspoon pepper
1 tablespoon butter, softened
8 thin slices French bread

In a skillet melt butter; add onions and saute until tender but not brown. Spread over bottom of casserole; top with layer of egg slices; then with Swiss cheese.

Combine soup, milk, green pepper, pimiento and pepper; stir until smooth. Pour over casserole. Butter bread; overlap slices on top of casserole. Bake 30 minutes in 350-degree oven. Place under broiler to brown bread. Makes 4 servings.

CHEESE CASSEROLE — Please your family these brisk fall days with Continental Cheese Casserole, a savory, creamy blend of Swiss cheese, onions and eggs. With a crisp green salad and milk to drink, it's a balanced, though meatless meal.

Chilled Farina Sliced, Fried

Vary your usual breakfast pattern by occasionally transforming the expected bowl of hot cereal into golden brown Farina Burgers.

To turn out this pleasant surprise rapidly on a busy day, prepare a bath of cereal a day ahead. Chill it overnight in an empty vegetable can.

Next morning cut the farina into slices, dip it in egg mixture, then fry till crisp and tipped with brown. Syrup and jam toppings are good accompaniments.

Farina Burgers

2 1/2 cups water
1/2 teaspoon salt
1/2 cup farina, plain or malt flavored
1 egg
1 tablespoon milk
3 tablespoons butter or margarine

Bring water to a rapid boil; add salt. Pour farina into boiling water slowly, stirring constantly. Keep stirring and let cook 1 minute. Pour into one well-oiled 1 pound 4 ounce can. Chill until firm.

Remove cereal from can in one piece; cut into 8 even slices. Combine egg and milk; beat with fork. Melt butter or margarine in fry pan.

Dip farina slices into egg mixture, drain and pan fry over moderate heat until crispy brown on first side; turn slices and brown on second side. Serve with butter and syrup or marmalade. Yield: 8 slices or 4 servings.

Saves Space

If the oranges to make the same amount of juice were shipped as oranges instead of as frozen juice — ten times the refrigerated shipping space would be needed . . . yet frozen concentrated orange juice, when reconstituted for serving, supplies the same amount of vitamin C and vitamin A in the diet that an equal amount of just-squeezed juice gives.

Haddock fillets are excellent to use in making fish chowder; for seasoning a Scandinavian way, add minced fresh dill.

Entire Breakfast Bakes While You Dress

When you hear the b-r-r-i-n-g of the alarm, are you a Turn-Over Topsy or do you hop out of bed with a smile? Let's share an important secret about this getting-up business. To make it easy, to make your grooming worthwhile and for a glowing you all morning, start the day with a well-balanced, nutritious breakfast.

There are many breakfast patterns which make meal planning fun and easy. One quick and easy pattern consists of fruit, cereal and milk; another, fruit, egg, coffee cake and milk. A third, fruit, cereal, sausage and egg, toast, milk.

Count the calories and any one of these can be fitted into the day's meals without exceeding the "calorie speed limit."

Here are some new and fun ideas to get started. Experiment with breakfast cooked in the oven, on top of the range, in the broiler or poured from a ready-to-eat cereal box. Breakfast can be speedy, varied and a treasure to begin the day's activities.

Let's start with oven breakfasts. Here's one that cooks itself while you're in the shower or getting dressed.

Orange Juice
Oven-Cooked/Oatmeal
Baked Sausage Links
Apricot-Raisin Coffee Cake
Milk

Oven-Cooked Oatmeal
2 cups quick or old fashioned oats

1 teaspoon salt
4 cups cold water

Place oats and salt in 2-quart casserole. Add water and stir slightly; cover and cook in preheated moderate oven (375 degrees) about 25 minutes. Stir before serving. Makes 6 servings.

Wine Is Liquid in Meat Loaf

The practice of marinating meat in wine and herbs to insure tenderness and added flavor was going on long before cook books were written. But it is still an effective method, and it has gained social status along with being downright practical.

When ground meat is used in a recipe, the tenderizing factor is not so important, but the seasoning needs special attention. This new recipe for meat loaf applies the marinating principle to ground meat because all ingredients are mixed long in advance of cooking and refrigerated for several hours or overnight to develop the very desirable flavor.

This thorough seasoning carries its own reward; the meat loaf is as good cold as it is hot. To accent its flavor — and to add style to the whole meal — serve glasses of a red dinner wine, such as California Bur-

Baked Sausage Links
Place 12 pork sausage links in shallow baking pan. Bake in preheated moderate oven (375 degrees) about 25 minutes. Turn occasionally. Makes 6 servings.

Apricot-Raisin Coffee Cake
One 10½-oz. pkg. coffee cake

gundy or Claret, as the meal-time beverage.

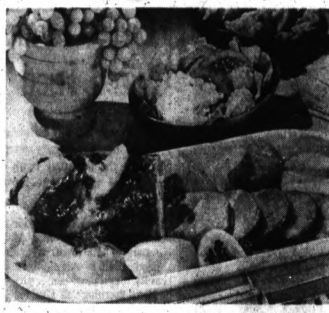

Marinated Meat Loaf
¾ cup California Rose, Sauterne or Chablis
2 cups soft, stale bread crumbs
1 egg, beaten
¼ cup milk
1½ pounds ground lean chuck or round
3 or 4 tablespoons finely chopped green or mild onion
1 teaspoon celery salt
1 teaspoon salt
1 teaspoon mustard
2 tablespoons chopped dill pickle
1½ cups grated American cheese

Combine all ingredients until well blended. Cover and refrigerate several hours or overnight to blend flavors. Pack mixture into a lightly greased bread loaf pan about 10x5x3 inches. Bake in a moderate oven (350 degrees F.) about 1½ hours. Makes 8 servings.

easy mix
1 egg, unbeaten
¼ cup milk
¼ cup chopped dried apricots
2 tablespoons raisins
Put egg, milk, apricots and raisins into large bag of mix. Squeeze upper part of bag to force air out. Close top of bag by holding lightly between thumb and index finger. With bag resting on table, mix by working bag vigorously with fingers. (Mix about 40 seconds or until egg is completely blended.)

Squeeze bag to empty batter into special aluminum foil pan contained in package. (Do not grease pan.) Sprinkle topping contained in smaller bag evenly over batter. Bake in preheated moderate oven (375 degrees) about 25 minutes.

Open corner folds of pan for easy cutting and serving. Makes 6 to 8 servings.

ORANGE-GLAZED — For fine fall and winter fare, serve orange-glazed smoked butt with sweet potatoes. It's budget-priced for family meals, delicious and attractive enough for company meals.

Wine With Melon

Chill a bottle of sauterne and pour some of the wine over cantaloupe balls just before serving. Serve the rest of the wine with the dessert.

Don't Overcook!

Scallops usually need no more than 4 to 5 minutes of simmering in order to be cooked through and tender; overcooking toughens this shellfish.

Glaze Pork Butt, Sweets

Smoked pork shoulder butt and sweets temptingly glazed with a spicy orange sauce is priced for family budget meals. It is so delicious and attractive, guests would have no idea it's budget-priced.

If you are not acquainted with boneless, smoked pork shoulder butt, you've been missing some tasty food. It is a shoulder cut which has been carefully cured, richly smoked, boned and rolled, weighing one to four pounds.

Orange-Glazed Smoked Shoulder Butt and Sweet Potatoes

1 (2 to 2½ pound) smoked boneless pork butt
1 cup orange juice
¼ cup honey or light corn syrup
¼ cup sugar
¼ teaspoon allspice
2 cans (1 pound, 10 ounces each) sweet potatoes in heavy syrup, drained
¼ cup orange sections

¾ cup light raisins
¼ cup butter or margarine
Bake smoked butt in slow oven (325 degrees) until done, about 40 minutes per pound or until roast meat thermometer reaches internal temperature of 170 degrees. (See label for weight.)

Combine orange juice, honey or corn syrup, sugar and allspice. Bring to boil; boil 5 minutes. Save ½ of the syrup and use to baste the smoked butt during the last 30 minutes cooking time.

Arrange sweet potatoes in 3½ quart casserole; top with orange sections and raisins. Add butter or margarine to remaining hot syrup; pour over sweet potatoes. Cover.

Bake in slow oven (325 degrees) until well heated, 30 minutes. Uncover. Spoon over potatoes if desired, and bake 15 minutes longer. Yield: 6 to 8 servings.

ROAD IMPROVEMENT STARTED—Sol D. Lomerson (right), chairman of the Oakland County Road Commission, looks over maps of the Bogie Lake Road resurfacing project with White Lake Township officials. Shown with Lomerson are (from left) Clerk

Ferdinand C. Vetter, Deputy Treasurer Margaret Linton, Trustee Walter H. Weinman and Supervisor Edward Cheyz. The \$174,000 project, which started recently after nearly 20 years of planning, will run from M-59 to Cooley Lake Road, a distance of 3.6 miles.

Pontiac Press Photo

Taylor Says Reds Far From Win

SAIGON, South Viet Nam (AP)—U.S. Ambassador Maxwell D. Taylor said today the Communist Viet Cong has never been so far from a military victory in South Viet Nam "and their men must know it."

Taylor told a news conference, however, that there is a serious government problem, and indicated that the question whether this crisis will be resolved still is open.

The ambassador said the elaborate developed with U.S. aid cannot be used effectively unless a strong government emerges, supported by the population. He said if it does, the military problem may take care of itself.

DENIES RUMORS

Taylor denied rumors that U.S. Special Forces officers working with mountain tribesmen had been behind the recent abortive revolt in the Ban Me Thout area of the central highlands.

Calling such rumors outright lies, Taylor said in fact a few American officers had been held captive by the rebels, despite long years of war and violence and heavy support given to them by their masters in Hanoi and Hanoi, today are militarily farther from success than ever and their men must know it.

Explaining this, the former chairman of the U.S. Joint Chiefs of Staff said there has been a great strengthening of government forces and that, while the Viet Cong is stronger too, their increase could not match the government upswing.

Who'll Translate Urdu

LONDON (AP)—The London tourist board without a great sense of loss said yesterday it has lost one of its employees, a girl who could translate from Urdu into Swiss German and from Urdu into German into Urdu. She married someone from Louisiana.

Doubles Bison Record

GILLETTE, Wyo. (AP)—You might call him Buffalo Bill-Basolo now. The Gillette rancher shot 134 bison in a single day—exactly twice the number Buffalo Bill Cody killed in a day to win his nickname. Basolo raises bison and sells the meat.

Managers Pick VP

CHICAGO (AP)—John M. Patriarche of East Lansing, Mich., was elected a regional vice president of the International City Managers Association Wednesday.

Refugee, Historian Dies

BALTIMORE, Md. (AP)—Dr. Adolf Katzenellenbogen, 63, an art historian who left Germany in 1939 as a refugee because of Nazi persecution, died Tuesday.

He was chairman of the Fine Arts Department at Johns Hopkins University and a former Vassar College faculty member.

The attorney general is the chief law enforcement officer of the United States.

College for Preschooler

WESTERVILLE, Ohio (AP)—Two dozen 4-year-olds will go to Otterbein College next fall. They'll attend special preschool classes to be offered by the college's education department.

World News Roundup

Sukarno Ends 'Successful' Russia Visit

MOSCOW (AP)—President Sukarno of Indonesia left for Geneva today after a two-day visit to Moscow which he said "ended in the greatest success."

Indonesian Defense Minister Gen. Abdul Harris Nasution remained behind, possibly to conclude an arms deal with the Soviet Union.

Indonesian sources said Wednesday they expected Sukarno's visit to lead to more Soviet arms sales for Indonesia's campaign against Malaysia.

Soviet President Nikita S. Khrushchev, who saw Sukarno off at the airport, said Sukarno's talks with Premier Khrushchev showed the two nations "have a great deal in common."

UNITED NATIONS (AP)—A U.N. subcommittee says the United States is moving American (Western) Samoa too slowly toward self-government and independence. It urged immediate steps to speed up the process.

The report to the General Assembly's 24-nation special committee on colonialism was adopted two weeks ago and made public Wednesday.

The subcommittee concluded that the United States had taken "insufficient measures" toward self-government and independence for the South Pacific islands.

VIENTIANE, Laos (AP)—The Laotian government is withdrawing its ambassador from North Viet Nam but says the move is not a diplomatic break with the Communist regime.

Prince Souvanna Phouma, the neutralist premier, told the National Assembly Wednesday that he would ask Ambassador Thao Peng, to return from Hanoi. Thao Peng is a member of the pro-Communist Pathet Lao. Souvanna said if he refused to return, he would be dismissed.

Souvanna's neutralist-right-wing coalition government has charged that North Vietnamese troops are fighting in Laos alongside the Pathet Lao. North Viet Nam has denied this.

ROME (AP)—Premier Aldo Moro's government converted a disputed decree boosting Italy's sales tax into a parliamentary bill Wednesday night to force balky legislators to act on the measure.

Moro received a setback last week when the Senate approved a Communist motion halting discussion of the decree raising the tax from 3.3 per cent to 4 per cent. Parliament's approval

Resembled Prince Charles

Sign on Pub Was a Flub

LONDON (AP)—A pub sign "Prince of Wales" has been beheaded because the pub sign prince looked too much like the real Prince of Wales.

The pub named the Prince of Wales recently put up a bright new sign outside its premises in suburban Thornton Heath.

Then someone walked that the sign resembled 15-year-old Prince Charles—with a Rolling Stones haircut.

The Rolling Stones are a British beat group with hair even shaggier than the Beatles.

Law and convention prohibit pub or other commercial concerns from using likenesses of living members of the royal family in advertising.

ORDERED IT DOWN

A spokesman for the brewery owning the pub said: "One of our directors visited the public house and decided that the sign might conceivably look to some persons—like the present Prince of Wales. So we ordered it down."

The old sign went back up. It has no picture, just the name.

"I'm really choked (addened)," said the publican, Harry North. "It was a wonderful sign and a credit to the pub."

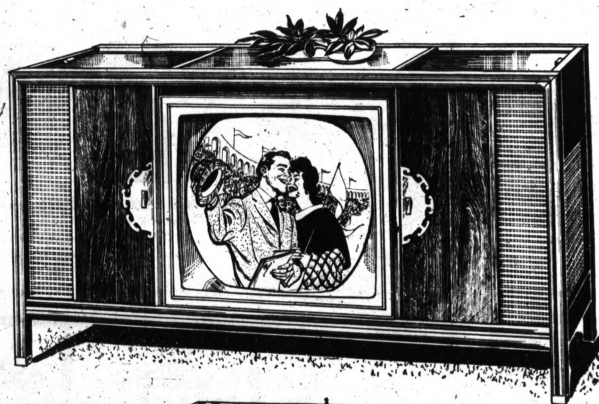

The new sign was painted by London artist David Porth.

POSTAGE STAMP

He said, "I painted the sign from a postage stamp miniature of King Edward VII which was done in 1880, and I don't think it bears any likeness to the present Prince of Wales."

Prince Charles does wear his hair long—but nothing like as long as the Rolling Stones.

Reports Fluctuate on India Disaster Toll as Army Rushes Aid

NEW DELHI, India (AP) — The Indian Army rushed food by helicopter and rescuers by road and boat today to the aid of an estimated 300,000 persons marooned by a dam burst that sent a 10-foot wall of water crashing down on the sleeping town of Machera, in southeast India.

Estimates of the dead fluctuated widely in the confusion and communications breakdown following the disaster, believed the worst of its kind in India.

Irrigation Ministry sources said that according to unofficial estimates reaching them, more than 1,000 persons perished when the wall of water surged through

the town of 25,000 in Andhra Pradesh State after a rain-swollen reservoir burst early Wednesday.

However, the Times of India reported a death toll of 200 for all of Andhra Pradesh. With six states of northern India already suffering from devastating floods, the southern state was hit by 18 inches of late monsoon rains in three days, flooding the Krishna and smaller rivers. At least 30 drownings outside of the

Machera area have been reported to New Delhi.

The chief minister of Andhra Pradesh, Brahmananda-Reddy, said he thought the death toll in Machera "may be 150 or thereabouts." He said that the state capital, Hyderabad, still was not in direct touch with the stricken city.

Army units were reported to have reached the stricken hill town 140 miles southeast of Hyderabad and were rescuing sur-

vivors from tree tops and the roofs of houses still standing.

Survivors told a tale of horror. At least one and possibly two large irrigation dams burst during the night. The water joined the flood waters of two overflowing rivers in the vicinity, and the combined waters swept down on Machera.

The huge wave hit about 3 a.m. It swept through the sleeping town, drowning people in

their beds, destroying flimsy huts and washing away cattle and bodies.

PARLIAMENT REPORTS

Before the Machera disaster, Irrigation Minister K. L. Rao told Parliament the floods in Northern India had killed 146 persons, washed away 2,800 head of cattle and affected 6.5 million inhabitants of 18,000 villages.

Rao said 3 million acres of

cropland were under water, a loss that has caused hunger in much of India, touched off food riots and caused a crisis for the government of Prime Minister Lal Bahadur Shastri.

Officials estimated that the floods have caused more than \$94 million in damage in the states of Andhra Pradesh, Uttar Pradesh, Punjab, Rajasthan, Delhi, Assam and Bihar.

Wednesday in villages north of Bombay where there are acute shortages of sugar and cooking oil.

SIGN AGREEMENT

The United States, which has been pouring \$60,000 tons of wheat a month into India, agreed Wednesday to keep the flow coming through next June. The United States signed an agreement to sell India 4 million tons of wheat, 300,000 tons

of rice and 75,000 tons of soybean oil for \$300 million under the Food-for-Peace program.

Along the Andhra Pradesh coast at Kakinada, there was still no word on the fate of 63 missing fishing boats with nearly 500 men aboard. An air-sea search in the Bay of Bengal so far had turned up only two boats of the fleet that was scheduled to return to Kakinada port last Monday.

See Plans Going Well for Election

LANSING (AP) — The State Elections Division reports it finally is becoming caught up after the confused primary and is getting on well with advance planning for the Nov. 3 general election.

"Our desks are finally getting cleared off and we seem to be in pretty good shape," said Robert Montgomery, state elections director.

Montgomery said 34 of the state's 83 counties have submitted proofs of their ballots, as required by law. Plans are going ahead, meanwhile, for some 30 to 50 election schools to be held throughout the state.

"We only found mostly minor errors in the ballot samples submitted so far," he said.

NAME PREFIXES

Several counties, he said submitted ballots with candidates on the Freedom Now party ticket incorrectly listed with the prefix of "Dr." or "Rev." before their names. These were ordered removed.

The election schools won't be as much of a chore as they were before the primary when 97 were conducted by the elections division. These are conducted at the request of county and city clerks and some of the larger townships.

Montgomery estimated his men traveled some 12,000 miles throughout the state to conduct the schools of instructions for local precinct workers and election officials before the primary.

Last Mayo to Leave Staff of Famed Clinic

MINNEAPOLIS, Minn. (UPI) — The famed Mayo Clinic will be without a Mayo beginning Jan. 1.

Dr. Charles H. Mayo II, 33, grandson of the clinic's co-founder and the only Mayo left on the staff, will leave to become an advanced surgery trainee at the University of Minnesota.

More Sophisticated Soldier Replacing Old Commando

By SAM MORTON
FT. BRAGG, N.C. (AP) — The U.S. Army is wedding out the old-fashioned commando-type soldier for Cold War duty and replacing him with a specially trained, more sophisticated individual.

"The new man is still a commando, a free-fall parachutist, a hand-to-hand fighter if necessary," says Maj. Gen. William F. Yarborough, who commands the John F. Kennedy Center for Special Warfare and its special school.

"But he is also a dedicated, sincere person with an intimate knowledge of the people in the country to which he is assigned. He's the type who reflects the best the Free World is trying to put across," added Yarborough.

This, said Yarborough, is the

major change that years of Cold War experience have made in training military personnel at the center for duty in Viet Nam.

Laos, Latin America and other places where Communism threatens. The center trains U.S. and

allied officers in counter-insurgency, psychological operations and special warfare, though many graduates are not assigned to special forces units.

The school has a special six-week course combining the three areas for officers and non-commissioned officers who advise frontline units in Viet Nam.

The school has graduated 10,000 U.S. officers and about 2,000 allied officers from 54 countries.

"With no officers, we stress the counterinsurgency course," said Yarborough, "because political and psychological insurgency is the biggest threat of Communism."

In cooperation with other service schools, a special forces training group prepares enlisted

men as medical, communications, weapons, demolition and intelligence specialists for the Army's seven Special Forces groups or 12-man detachments on special missions.

The center was renamed in June for the late president who said in a 1961 message to Congress:

"We need a greater ability to deal with guerrilla forces, insur-

rection, and subversion. We must be ready now to deal with any size of force, including small externally supported bands of men, and we must help train local forces to be equally effective."

DUTY VOLUNTARY

Special Forces duty is voluntary and the requirements rigid. An enlisted man must be 20 years old, Airborne qualified and must score high on physical, aptitude and Special Forces selection tests.

"We take a man's combat ability for granted," said Yarborough. "More important, he must be able to instruct, eat the food of the country and have genuine sympathy for its people."

Yarborough said the American's job is not just helping people like the Vietnamese catch and kill guerrillas, but helping the country improve its government, economics, and social conditions.

"The enemies are often abstract — hunger, anger. Our soldiers must understand this to help an emerging nation build itself," he said.

GUERRILLA LETHAL

"The guerrilla is lethal if he believes in what he's doing. He fights at his own time and place, using raids, intimidation and sabotage. He is a victim of false indoctrination, but he is not a criminal," Yarborough said.

"Naturally the best method to treat insurgency is to prevent it. So we stress good national programs geared to a people's needs. We don't say what is right or wrong for a government, but warn them of things that have crumbled past governments."

Men assigned to a difficult area are taught the language, customs and history of the country, as well as guerrilla tactics and survival.

A communications specialist not only sends 18 to 20 coded words per minute but can help civilians set up a communications system.

DEMOLITIONS EXPERT

A demolitions expert also is an engineer who can determine how to dig a well, repair a roof, or build a road.

All enlisted men are cross-trained in several specialties. All are taught ambush techniques, evasion and escape methods, and how to survive off the land.

The center's modern language school, headed by veteran instructor Nicholas A. Hall, teaches everything from Swahili to Burmese, and many dialects of a number of languages, including those of the hill tribes of Viet Nam.

The center employs a number of native language instructors and often teaches a language to an entire unit, from the truck driver to the commanding officer.

ANY LANGUAGE

"As long as a man can learn English," said Hall, "he can learn any other language. And we never flunk anyone."

"A soldier trained here," said Yarborough, "is the best we can find to begin with. Then we give him the benefit of the experience of people who've been in places like Viet Nam, Maylaia and Laos."

"We must understand that human aspirations form perhaps the most powerful force of all. We're trying to help these people realize these aspirations and guide them in the right direction."

Right of Actor to Be Sick Backed by Joseph Cotten

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD—Last May Joseph Cotten began work on a movie which he expected to last two months. He hopes to finish the job sometime this month.

The movie is called "Hush" and it is about a man who is a studio's punctuation, and I guess you've heard about it. That was the one which was supposed to repeat Bette Davis and Joan Crawford's success with "Whatever Happened to Baby Jane," only Miss Crawford got sick and had to be replaced by Olivia de Havilland.

Whatever happened to Joan Crawford? She has recovered enough to sign for another movie to start this month, "I Saw What You Did."

The man caught in the middle of the arrangement was amiable Joe Cotten, who doesn't seem bothered at all. True, he has been earning a pleasant paycheck through the whole distressing business. But he claims that is incidental.

RIGHT TO BE SICK
Cotten took time out from his nefarious doings — he and Olivia had just given Bette a knockout pill in a scene, before lunch was called. He paused to defend the actor's inherent right to get sick.

"I've never been able to understand this business about the show must go on," he declared. "It's absolute nonsense. People in other lines of work are allowed to be sick now and then. Why shouldn't actors?"

"If we owe anything to the theater — and I've never been convinced of that — it is to get well so we can give a good performance."

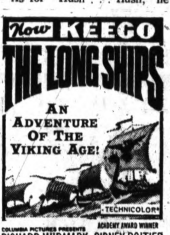

WIFE ILL
Cotten practices his preaching. Last year he and his wife, Patricia Medina, were playing in "Calculated Risk" on Broadway. She had a bad case of the flu, but still wanted to do the play.

"I wouldn't let her do it," he said. "And I can tell you this: I would much rather make love to her on the stage than to her understudy."

Knocking on the nearest wood, Cotten admitted that he himself has never missed a curtain although there have been nights when he didn't feel up to snuff. He has been absent on only one movie.

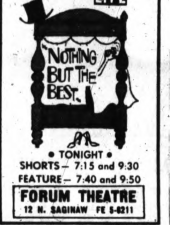

"That was a Western at Universal some years ago," he recalled. "I had a back injury in the middle of it and they had to suspend production for two or three weeks."

Holly at West Bloomfield

Falcons and Madison to Duel

Rochester opens its home football season Friday with a chance to stay on top in the Oakland A League.

The Falcons, who play Madison, may have to share first place with two other schools. Fitzgerald is favored to be the measure of Clawson on the Spartans field and Troy is favored in a home tilt with Cousino.

Madison, Rochester, Troy and Fitzgerald all have 1-0 league records.

Avondale will be seeking a top four Friday when the Yellow Jackets host Lake Orion.

Top game in the Wayne-Oakland sends Holly to West Bloomfield.

Bloomfield Hills is at Clarkston, Northville goes to Clarenceville and Milford plays at home for the first time this season, opposing Brighton.

STUMBLING BLOCK

Madison could prove to be a major stumbling block for Rochester. The Wildcats were given

the pre-season nod as title favorite and have lived up to the designation by knocking off a

Township Sets Grid Clinic

The Waterford Township Recreation Department is planning an elementary Touch Football Clinic for 9 a.m.-1 p.m. Saturday at Pierce Junior High.

Boys in the fifth through eighth grades of the township school district are eligible. They must provide their own equipment; cleated shoes are not permitted, however.

Fifth and sixth graders will be instructed 9 a.m. - 11:30 a.m., and seventh and eighth graders 11:30 a.m.-1 p.m.

Team coaches are still needed for the fifth and sixth grade level teams at Monticelli, Beaumont and Williams Lake school areas.

The clinic will include practice on fundamentals, practice games, and scheduling of league games for next week. Additional information is available at OR 4-8377.

good Tawas Area eleven and then tripping Clawson.

Rochester needed some last minute heroics to overcome Cousino, 14-13, last week. The Falcons will have to tighten their pass defense if they are to contain Madison.

Cousino couldn't run against Rochester but Ron Pishe almost passed the Falcons into defeat.

Avondale is favored to hand Lake Orion its third straight loss.

The Yellow Jackets upset Wayne-Oakland contender Milford in their opener and then gave Troy trouble before bowing last week.

"We beat ourselves against Troy," said coach Dick Bye. "There were too many mistakes. We can't afford to keep making them."

Lake Orion's problem is offense. The Dragons have failed to score against Kettering and Fitzgerald, both higher-rated teams.

The Orion defense, which couldn't contain Kettering's ground game, tightened during the first half against Fitzgerald, but then the Spartans pulled away for a 20-0 win.

West Bloomfield is the last place any team would go look-

ing for an opponent to take out its frustration on.

That's where Holly is headed and the Broncos are planning to atone for that rude jolt handed them in the rain last week by Milford. The loss came before the home folks.

West Bloomfield is not as strong as in the past, but the Lakers are known for hard-nosed play and they always play well when listed as the underdog.

Milford is favored to handle Brighton and the same goes for Northville at Clarenceville.

Bloomfield Hills and Clarkston are both winless in two outings.

The Barons are rebuilding and showed improvement in the 12-7 loss last week to West Bloomfield. Clarkston couldn't get its offense moving against Northville.

Deal for Quarterback

VANCOUVER (AP) — The British Columbia Lions, leaders in the western division of the Canadian Football League, announced Wednesday they had regained quarterback Pete Oler from the Winnipeg Blue Bombers. Oler is a graduate of the University of Washington.

Major Calls for Relief

By MAJOR AMOS B. HOOPLE
Original Man in Motion

Egad, friends—bowing to the demands of my many business interests, I've been obliged to assign my football forecasting duties for this week to my staff members.

The upward surge of the market in recent weeks requires I attend special board meetings of my oil, coal, gas and gum companies—hak-kaff! (Ed. Note: The Major is going to buy six packs of bubble gum.)

Your interests will be well taken care of despite my enforced absence from the foot-

In the leading intersectional engagement of the day, my staff members were unable to detect a shade of superiority for either Texas or Army. They unanimously forecast a 16-16 standoff—Um-hak!

Salary Increased

Chicago Keeps Lopez

CHICAGO (AP) — Manager Al Lopez of the Chicago White Sox, still holding a ghost of an American League pennant chance, will be back for two more seasons of sniping at the New York Yankees dynasty.

Lopez signed a second successive two-year contract Wednesday for his ninth and 10th White Sox managerial seasons extending through 1966.

The genial 56-year-old Lopez, hinting money was no object, had his salary upped to an estimated \$50,000 annually. He reportedly got \$40,000 per

year for 1963 and the current season, in which only an apparent miracle can enable the Sox to wrest the pennant from the Yankees.

General Manager Ed Short said at signing ceremony Lopez got a "well-deserved" pay hike. The amount was not disclosed.

"I didn't even read the financial terms," said Lopez. "My reasons for staying two more seasons are that the White Sox are a young club with promise and that I have had a happy front office situation here with Arthur Allyn (club owner) and Eddie Short."

Lopez sends his Sox against the Kansas City A's in a four-game season wrap-up series starting Friday night, with the prospect of achieving his win-nigst Chicago season in eight years — and possibly threatening the Yankees right to the finish wire Sunday.

The Sox will enter Friday night's twin bill with a 94-64 record. When his 1959 White Sox won the league flag, their season record was 94-60. Last year's second — finishing Pale Hose were 94-68.

PNH to Visit Tough Farmington

One of the press box visitors at the Kettering-Pontiac Northern game last Friday night was John F. Hayes, head football coach at Farmington.

At the PNH tilt, he spent his time taking notes while Kettering was taking Northern apart to the tune of 26-0.

Hayes was impressed, no doubt, with the Kettering machine. But with Northern? It's doubtful.

Coach Dave Schmidt and the Huskies took a licking in the contest and he and the squad will try to rebound in a 3:30 p.m. encounter tomorrow at Farmington. It's the opener for both teams in the Inter-Lakes League.

SLIM CHANCE

The Huskies' chances at Farmington are slim at best.

In compiling a 1-1 record, Northern's offense has produced only seven points, those markers coming in an unimpressive 7-0 victory over Troy in the season opener.

"Inexperience will prob-

ably hurt us more than anything else," Schmidt said before the season started.

The young mentor was right. Lack of experience along the defensive line was particularly

noticeable against Kettering. A similar performance against the Falcons could leave the Huskies on the short end of the score.

Northern has downed the Falcons in four of the previous

five meetings. Farmington's lone decision came by a 13-7 score in 1962.

TOP TEAM

Hayes, despite a lack of depth has one of his best squads in recent years in this season's edition of the Falcons.

Farmington has a rugged defensive crew, one that has given up only nine points in two outings.

The team stopped Livonia Bentley, 19-2, in opening the campaign and cracked Plymouth's 13-game winning streak last week, 13-7.

The other game on the I-L slate finds Waterford at Walled Lake.

The Skippers are 3-0 and will enter the game a slight underdog to the Vikings (1-1).

Senators Break Record for Team Strikeouts

BALTIMORE (AP) — The Washington Senators are the strikeout kings of all-time in major league baseball history.

In a two-night doubleheader against the Baltimore Orioles Wednesday night, 18 Senators went down on strikes.

That raised the 1964 team total for the season to 1,104, or two more than the previous high recorded by the Cleveland Indians last year.

Washington still has three more games in which to add to the record.

Southern Cal Squad Shifts to MSU

Navy Squad Has a 'Kick' for U-M 11

ANNAPOLIS, Md. (AP) — Navy may get a special kick Saturday out of the only Michigan player on the only Michigan team, but Coach Wayne Hardin had rather not call on him.

Tom Williams, 6-foot-188-pound junior from Shepherd, Mich., is Navy's punter. His specialty is booting the ball dead inside the opponent's 10-yard line. Chances are good he'll do it against Michigan at Ann Arbor this week.

In the Navy opener against Penn State, Williams punts rolled dead on the 5, 7 and 9-yard lines and was instrumental in a 21-8 victory.

SETS UP SAFETY

Last Saturday against William and Mary, a 44-yard Williams punt rolled into the Indian two and set up a Navy safety.

His average for nine punts is 36.6 yards, including his purposefully short kicks.

"Williams is a good 'poo' kicker," Hardin said. "It's like running that chip shot onto the green in golf. But we'd prefer not kicking when we're inside their 50. We had rather keep going and get a first down or a touchdown."

"Also, the odds are in favor of the ball rolling into the end zone and then they've got it on their 20."

But if you have to punt, Hardin conceded, it's nice to have a specialist like Williams doing the job.

Williams, a six-footer, also is an end on Navy's defensive team. He was a four-sports star at Shepherd High School where he was an all-state football player as end and fullback. He prepped for a year at New Mexico Military Institute before entering the academy.

Midland Golf Pro Among Candidates

Cliff Good, head pro at Midland Country Club, is one of 25 members of the Professional Golfers' Association who have been nominated for the 10th Golf Professional-of-the-Year award.

Winner of the award will be honored at the President's Dinner scheduled for Dec. 8 in Las Vegas.

The committee supervising the selection of the Professional-of-the-Year is headed by Don Soper of Royal Oak.

TROJAN HORSES — First string quarterback Craig Fertig (right) and halfback Mike Garrett are two members of the Southern California Trojans who will take on the Spartans of Michigan State University Saturday at East Lansing. Fertig was at the helm in the Trojans' 40-14 conquest of Oklahoma last week.

Cincinnati 11 to Test Titans

DETROIT — Kentucky's 27-21 victory over No. 1 rated Mississippi last week has given University of Detroit coach John Turk hope that the Titans may be better than what pre-season reports say.

U. of D. faces unbeaten Cincinnati in Titan Stadium Friday night, and what was once figured to be an easy win for the Bearcats has been listed by field selectors as an even contest.

The reason stems back two weeks ago to the game with Kentucky. U. of D. had the Wildcats tied 6-6 in the final three minutes and then lost 13-7, outplaying Kentucky and missing a chance for the winning TD in the last play of the game when an end zone pass was intercepted.

Cincinnati, which has been figured as a possibility to breaking into the top 20 teams in the country, had a sluggish start in winning over Dayton 28-10.

The Titans have a strong running game with Fred Beier, Mike Randall and Joe DeAngelo, but have been weak through the air.

Former quarterback Ron Bishop of Shrine hasn't been able to find the passing range, which was a key factor had he been able to connect against Kentucky. He had only one of 9 passes.

GOOD RUNNING

Last week in defeating Toledo, 22-6, the Titans displayed a strong defense to go with the running game, but again several key situations to score were lost because of poor passing accuracy.

Cincinnati has an outstanding quarterback in Brig Owens who accounted for 212 of his team's 284 yards last week by passing and running.

Game time in Detroit Friday night is 8-15 p.m.

OTHER STATE GAMES

The rest of the state colleges have Saturday grid encounters. Northern Michigan is at Hillsdale, John Carroll at Wayne State, St. Norbert at Ferris State, Albion at Adrian, Olivet at Alma, Hope at Kalamazoo, Defiance at Northwood, Central Michigan at Eastern Illinois, and Western Michigan at Miami of Ohio.

Quake Shakes Sailors

ENOSHIMA, Japan (AP)—An earthquake greeted U.S. Olympic yachtsmen who arrived here Wednesday. No damage was done to this seaside town—50 miles southwest of Tokyo, but at Thursday morning strong tremors shook the hotel where the 16-man team of U.S. Olympic sailors is staying.

Units Meeting Second Time

Trojans Took 13-10 Decision Last Year

LOS ANGELES (AP)—Southern California's Trojan football team, with what Coach John McKay calls his shifting T-attack, shifts to Michigan State Saturday for the second meeting between the two schools.

The previous meeting was last year in Los Angeles, when Southern Cal edged the Spartans, 13-10.

The Trojans lost a host of fine players from the 1963 squad, notably quarterback Pete Beathard, halfback Willie Brown, All-America linebacker Damon Bame and passing-catcher Hal Bedsole — the so-called B-boys.

But McKay apparently has come up with excellent replacements, and off the Trojans' two victories today, the current edition may approach his unbeaten, national champion 1962 machine.

SHOCKING WIN

Last Saturday's shocking 40-14 triumph over highly touted Oklahoma was no fluke, but McKay is quick to say that the score is not indicative of anything.

"The season will prove that Oklahoma is a fine team and we are not as good as that score," he says.

"The 21-0 win over Colorado was rather lackluster, and at the time the coaches were deep concerned with their defense."

They were encouraged with the defense after the Oklahoma rout.

The Trojans platoon as much as they can, but do not have the three-team units which performed in their 1963 campaign.

Their leading ball carrier is Mike Garrett, a durable 178-pounder.

Garrett was a sensation as a sophomore last year, and now leads the team in rushing with 182 yards and an average of 4.7 per carry.

MSU SHUFFLES

Football players are being shuffled as fast as cards in a gambler's deck at Michigan State this week.

The hope is some lineup changes will at least confuse Southern California, now rated second in the nation.

There's a good chance that sophomore Clint Jones will start at right half ahead of Harry Ammon. Jones had 83 yards rushing and a touchdown. Ammon only netted two yards in six carries.

In the last changes Wednesday evening, Gary Rugg, a sophomore from Battle Creek, was shifted from second man at fullback to No. 2 guard on offense.

Larry Mackey, a junior, was moved up to second spot at fullback. Ed Cotton, the starter at fullback, also only netted two yards.

Coaches hoped the changes would help both the offense and defense.

Olsen Postpones Bout

NEW YORK (UPI)—Bobo Olsen has postponed his middleweight contenders' bout with Jose Torres scheduled for Oct. 23 at Madison Square Garden because of influenza.

Syracuse Outfield Star Unanimous All-Star Pick

ROCHESTER, N.Y. (AP) — The makeup of an International League All-Star team chosen by sports writers was announced today with outfielder Mack Jones of Syracuse the only unanimous selection.

Rochester, winner of the league's Governors' Cup playoff, and Toronto were the only teams not represented on the 10-man All-Star squad picked by 17 writers in league cities.

Each writer selected a left-handed pitcher, right-handed pitcher, three outfielders, first baseman, second baseman, shortstop, third baseman and catcher.

Jones, who led the league in home runs, runs batted in and three other departments, was named by each writer. Shortstop Ray Oyler of Syracuse finished second in total votes with 16.

The other All-Stars with their total votes in parentheses: First baseman — Duke Carmel, Buffalo (15); second baseman — Jack Damaska, Jacksonville (12); third baseman — Joe Morgan, Jacksonville (15); outfielders — Rookie-of-the-Year Jim Northrup, Syracuse (13), and batting champion Sandy Valdespino, Atlanta (7); catcher — Ron Brand, Columbus (6); left-handed pitcher — Jim Merritt, Atlanta (14); right-handed pitcher — Mel Stottlemyre, Richmond (8).

Stottlemyre was called up by the New York Yankees several weeks before the end of the International League season. The All-Star selections were announced by the International League office.

Central Must Regain Form

PCH Prepares for Midland

Host Chemics Rate
Among Prep Top 10

Was it a recession or a depression that led to Pontiac Central's second half defeat last weekend?

Coch Paul Dellerba and his staff will be attempting to get the Chiefs back on their first half level of play as they prepare for Friday night's invasion of Midland.

PCH is now 0-2 in Saginaw Valley Conference play and faces back-to-back contests with Midland and Flint Central, both rated among the top ten Class A prep teams on the weekly Associated Press poll.

The Chiefs met No. 2 rated Bay City Central in their opener, and after an inept first half performance, rallied for a respectable second half effort in a 39-0 loss.

The improvement continued in the home opener Saturday as they outplayed ninth-ranked Saginaw Arthur Hill and led 7-6 at halftime. The lead easily could have been two touchdowns with a break or two.

But the second half was a different story as the blocking and tackling suffered. If Dellerba and his assistants can correct the ed, Midland may have its hands full.

MOMENTUM
The Chemics are returning to pre-1963 contender status and need a win over PCH to maintain the momentum of their bid. Midland has a 16-0 record for three years in the SVC, and five of the eight losses came last season when it tumbled (3-5) to sixth place.

The Chemics first SVC season saw them finish second with 7-1 in 1961, and the following year they were 6-2 and tied for the title.

Coch Bob Stoppert has a big offensive line built around 6-4, 220-pound senior center Jim Rutledge. Scoring punch has been provided by backs Bill Booth and Bill Anderson.

Central's defensive ends were fooled several times by Arthur Hill's bootleg tactics and will need to sharpen their moves if PCH is to contain the Chemics' offense.

Pirates' Pilot Gives Writers a Surprise

CINCINNATI (AP) — When the Pittsburgh Pirates announced at the start of the game with Cincinnati Wednesday night that Danny Murtaugh would have an announcement afterwards, no one was very excited.

The Crosley Field consensus was he would tell newsmen he had signed for his eleventh season as manager of the Pirates.

Instead, after a grueling four-hour game in which the six-place Pirates beat the Reds 1-0 with a 16th-inning squeeze bunt and knocked them out of the National League lead, Murtaugh told a few newsmen in the rubbin' room of the visitors' clubhouse:

"I am resigning because of my health."

"My health has not been up to par," the 47-year-old former infielder added. "The whole Murtaugh family helped me make the decision."

"I have spent seven pleasant years as manager of the Pittsburgh team."

The resignation becomes effective with the end of the season, but Murtaugh indicated he may not accompany the team to Milwaukee later this week.

Rudolph Defending Coast Golf Crown

FRESNO, Calif. (AP) — The \$35,000 Fresno PGA Open, one of the younger tournaments on the pro golf circuit, was scheduled to get under way today with clear skies and balmy 55 degree weather predicted for the four-day 72-hole event.

Defending champion Mason Rudolph, the bespectacled Clarksville, Tenn., native who fired an opening round 66 in last year's inaugural tournament, was the sentimental favorite of the local galleries to make a repeat performance while a host of other pros displayed winning form with sub-par scores in today's 18-hole pro-amateur preliminaries.

Williams Tops Daniels
HOUSTON, Tex. (AP) — Cleveland's Williams, one of the four fighters picked for the heavyweight championship elimination series, won a unanimous 10-round decision over Bill Daniels Wednesday night.

Williams, of Houston, is now the No. 2 ranking heavyweight while Daniels, of New York, is ranked No. 8. Williams weighed 214 and Daniels 194.

Canadians Dominate Wayfarers

Canadians dominated the top places in the Michigan Invitational Wayfarer Regatta last weekend on Lake Orion.

There were 36 boats entered and Pete Bassin of Kitchener, Canada took a pair of firsts and a second to win the title.

North American champion of 1964, Harry Jones of Toronto finished second, followed by G. Blanchard and T. Johansen, both of Toronto.

Stan Uzalec of Lake Orion was 8th and U.S. champ Don Healy of Rochester was in 8th place.

Winds of 20-25 knots and gusts up to 40 prevailed during the three races.

Vet Jumper Destroyed

NEW YORK (UPI) — Markham, a veteran jumper on the United States three-day equestrian team, was destroyed Wednesday when he went berserk on a plane en route to the Tokyo Olympics.

Williams Tops Daniels
HOUSTON, Tex. (AP) — Cleveland's Williams, one of the four fighters picked for the heavyweight championship elimination series, won a unanimous 10-round decision over Bill Daniels Wednesday night.

Williams, of Houston, is now the No. 2 ranking heavyweight while Daniels, of New York, is ranked No. 8. Williams weighed 214 and Daniels 194.

Friday Funeral Set for Ex-Olympic Star

WAKEFIELD, R.I. (AP) — Funeral services for Fred Tootell, 62, former track coach at the University of Rhode Island and 1924 Olympic gold medal winner, will be held at 3 p.m. Friday at the Kingston Congregational Church.

Tootell, whose track teams had 17 undefeated seasons and won seven straight Yankee Conference championships, died Tuesday night at South County Hospital.

Deaths in Pontiac Area

EARL F. BATES
Service for former Pontiac resident Earl F. Bates of Tucson, Ariz., will be Friday afternoon in Tucson. He died yesterday morning after a long illness.

Mr. Bates and his wife owned and operated a motel near Bowie, Ariz., before his illness. Before leaving Pontiac, he was a member of First Baptist Church and the Baraca Class of his church.

Mrs. Bates, the former Thelma Spencer, said any memorials may be made to the American Cancer Society.

MRS. ORVILLE J. KAID
Service for Mrs. Orville J. Kaid, 80, of 11 S. Jessie will be from the Gaskins Funeral Home in Harrisburg, Ill. Saturday. Her body will be at the Sparks-Griffin Funeral Home until 9 p.m. today.

Mrs. Kaid, a member of the Dorrisville Baptist Church of Harrisburg, died yesterday after a long illness.

Surviving are two sons, Emery O. of Pontiac and W. E.

Kaid of Harrisburg; and daughter, Mrs. Oma Futrell of Pontiac; eight grandchildren; five great-grandchildren; and a sister.

HAROLD T. BEAGLE
COMMERCIAL TOWNSHIP — Service for Harold T. Beagle, 65, of 1955 Cass Lake will be 1 p.m. Saturday at Richardson-Bird Funeral Home, Walled Lake. Burial will follow in Oak Grove Cemetery, Milford.

Mr. Beagle, a retired excavating contractor, died yesterday after a long illness. He was a member of the Multi-Lakes Conservation Club. Surviving are his wife, Irma, and five daughters, Mrs. Charles Palmieri of Ypsilanti, Mrs. Rhea Baird of Milford, Mrs. Ronald Koshorek of Washington, Mrs. George Wilson of Walled Lake and Phyllis at home.

Also surviving are five sons, Howard, Glenn and Gerald of Milford, and Richard and Robert of Walled Lake; four brothers, Clarence and William of Milford, Charles of Walled Lake and Albert; 27 grandchildren; and three great-grandchildren.

Enters Guilty Plea in Fatal Shooting

A Pontiac woman yesterday pleaded guilty to manslaughter in the fatal shooting of a man at her home on May 30.

Originally, Mrs. Mozelle K. Poe, 48, of 306 S. Edith was charged with second degree murder, but the lesser charge was accepted at her trial by Circuit Court Judge William J. Beer.

She told police that she shot Leon Cobb, 44, no known address, when he tried to reenter her house after she chased him out for beating up her husband, Joseph, 59.

She will be sentenced Oct. 16.

Jewish Prof Expires

LOS ANGELES (AP)—Rabbi Jacob Sanderling, 65, professor of Jewish thought and homiletics at the California School of the Hebrew Union College and a Zionist since 1897, died Tuesday of a heart attack.

'Put Hedges on Pledges'

DES MOINES, Iowa (UPI)—Gov. Harold E. Hughes of Iowa learned a valuable political lesson from his daughter—he is careful about making rash promises.

Hughes told a testimonial dinner last night that he felt guilty that he was unable to spend much time with his daughter, Phyllis, during the Democratic National Convention. So he promised to set aside a weekend to do anything she wanted.

She wanted to be taken to hear the Beatles. "All I'm saying friends," Hughes said, "is that you can press your luck too far."

Pick Chamber Head

CADILLAC (AP)—John F. Toeppe, a former Republican state legislator, has been appointed manager of the Cadillac Chamber of Commerce, it was announced Wednesday. Toeppe succeeds Robert Poissal.

CLEOPATRA AND QUADS — Cleopatra the lioness looks placid with her quartet of cubs at the Prospect Park Zoo in New York's borough of Brooklyn today. The youngsters, three females and a male, were born Aug. 28 and comprise the second litter that Cleo has produced.

Progress Report Due Waterford School Board

Robert Lawler, coordinator of the community school program in Waterford Township, will report to the school board tonight on the program's progress.

The community school concept was launched in Waterford last week at an all-day workshop at Drayton Plains Elementary School.

In other business at the meeting, board members will review preliminary plans for a bus garage and consider dates for the dedication of the school system's two new elementary schools.

Also slated for board attention are recommendations from the superintendent relative to staff appointments and collection of tuition for adults living out of the school district.

Student Sent Home Culottes Too Sporty

TORRANCE, Calif. (AP)—Sheila Warren, a 14-year-old model, left for junior high school chivaly clad in shining, midcalf boots, a leopard spotted blouse, and culottes.

Culottes? That's what her teacher said. That's what the girl's vice principal said, too, thumbing through the school's mimeographed circular of "Clothes Inappropriate for School Wear."

And there they were: inappropriate, said the arbiter of chic at Stephen M. White Junior High School, because they are "active sports apparel."

So Sheila, who came to school Wednesday in high fashion, went home in high dudgeon and early, by request. Vice Principal Clara Virona sent her home.

THEY'RE BREECHES
Culottes, it should be explained, are breeches. Short, full breeches, cut above the knee, hard to tell from a skirt—but, nevertheless, breeches.

"I wouldn't wear anything to school that was indecent," said Sheila, a slim, attractive brunette. "I think these are perfectly proper for school wear."

Sheila lives in Torrance, a seaside suburb south of Los Angeles. After school hours she models for a fashion shop in nearby Rolling Hills.

BOOTS PASS
The patent leather boots pass the requirements of Mrs. Virona's apparel guidelines, but Mrs. Virona asked Sheila's mother, Dolores Lant, to talk to her about the culottes.

Guess who won? Sheila will be going to school sans culottes.

"Sheila's mother was very cooperative, and promised Sheila would wear skirts," Mrs. Virona said.

3-Car Crash Kills Man
MIDLAND (AP)—Stanley Wisniewski, 75, of Midland was killed late Wednesday in a three-car accident. Police said Wisniewski turned in front of another car in front of his home, and the second vehicle was then struck by a third.

Youths Sentenced in Store Robbery
Two Pontiac youths were sentenced yesterday to serve 4 to 15 years each in the state prison at Jackson for the armed robbery of the J-J Food Store, 564 S. Telegraph, on Aug. 14.

Ordered to prison by Circuit Judge Philip Pratt were Oscar Rowie Jr., 18, of 187 Crystal Lake, and Thyrus Hugley, 18, of 265 Gung. They pleaded guilty on Aug. 30.

A third youth, Hugh Lance, 17, of 69 Clove on Monday pleaded guilty to assault with intent to rob while being armed in connection with the holdup and will be sentenced Oct. 28.

Man Is Guilty in Attempt to Kill Trooper

An Oakland County Circuit Court jury yesterday found a Detroit man guilty of assault with intent to murder a Michigan State police trooper.

Convicted following a three-day trial before Circuit Court Judge James S. Thorburn was Marvin James Jesse Jackson, 38. He will be sentenced Oct. 23.

Jackson was charged following a wild chase and gun battle with trooper Howard Kelly in Waterford Township on Aug. 15.

Shots were exchanged between the two after Kelly attempted to stop Jackson's car, reported to have been the one used in an armed robbery of a market in Flint earlier in the day.

Prosecutor Richard P. Condit said that Jackson will be taken to Flint prior to his sentencing so police there can complete their investigation of the armed robbery.

GOP Club Elects Chiefs

Leo Kampsen, 2738 Mereluis, has been elected president of the Waterford Township Republican Club for a one-year term. Other newly elected officers are Mrs. James Smith III, vice president; Mrs. Robert Bruce, secretary; and Frank Lane, treasurer.

The club will sponsor Elly Peterson's appearance in Waterford tomorrow evening, climaxing a day in Oakland County.

Mrs. Peterson will speak at 7:30 p.m. at Pierce Junior high school on "Issues in the Campaign."

Members of the arrangements committee for Mrs. Peterson's visit are Dean Salley, Mrs. Eugene Griffin, Mrs. Lillian Weber and Mrs. Charles Campbell.

Car Strikes Boy Riding Bicycle in Waterford Twp.

A Waterford Township boy, struck by a car yesterday while riding his bike across the street, is in fair condition today at Pontiac General Hospital with internal injuries.

Hospitalized following the 4:54 p.m. accident in front of 1390 Irwin, Waterford Township, was George Molner, 8, of 5610 Argyle. Police said the boy was struck by a northbound car driven by Aloys Caspers, 50, of 8895 Livingston, White Lake Township.

Caspers told police the boy rode into the path of his car. The boy said he didn't see the car coming.

Investors Plan Tour in County

A group of 25 New York investment bankers and syndicate bond buyers will spend most of the day in Oakland County tomorrow touring the county's public facilities.

Purpose of the tour is to show the financiers, most of whom have invested in Oakland County building, utility and school bond issues, the results of their investments.

Conducting them on a closely scheduled itinerary will be Dennis Hamlin, chairman of the board of supervisors; R. J. Alexander, director of the department of public works; and Louis H. Schimmel, financial consultant for the county.

The group will tour the county service center, as well as public works and school projects throughout the area.

A bright sun splashed on

LBJ Says It's Time for Higher Standard

BALTIMORE (AP)—President Johnson told a university audience today the times demand higher political standards in America and the building of bridges of aid and ideas to Iron Curtain countries looking toward freedom.

The President spoke in Keyser Quadrangle at the Johns Hopkins University. His prepared text, as the political season whirled into its last month and the President whirled into a heavy schedule of speeches, was about as non-political as any he has made lately.

After a bow to the North Atlantic Alliance, linking the United States and Western Europe, Johnson said:

"We must mobilize the vast strength of our communities to defend freedom, not only in Europe but where ever it might be attacked."

The President made no mention of military strength in this connection. He went on to urge that the world's great arsenal of industry and ideas strive to bring eastern European countries closer to the western nations.

"This we can do," he said, "by building bridges to these people—bridges of trade, of ideas, of visitors and of humanitarian aid."

MUST DEVELOP
Adopting the words of the late George C. Marshall, founder of the Marshall plan to aid Europe, Johnson said that "permanent peace requires European civilization to develop within its historic boundaries."

"This," he said, "is the real road to freedom for those behind the Iron Curtain."

The President's speech was part of a lecture series, one of a string of special events for which the university had earlier invited as speakers prominent politicians including Johnson's vice presidential running mate Sen. Hubert H. Humphrey, and Republicans Richard M. Nixon and Gov. Nelson Rockefeller of New York.

Republican presidential candidate Barry Goldwater has tentatively accepted an invitation for a later appearance.

2,000 VIEW
About 2,000 students, faculty members and university neighbors had gathered in the ell-shaped quadrangle under sunny skies nearly an hour before the President's scheduled 11 a.m. appearance.

A bright sun splashed on

the square as later arrivals streamed in.

In the times ahead, Johnson said, our political community must offer examples of excellence within itself, beginning within the NATO alliance "on which the hopes for freedom stand."

At home, the President urged that our campuses and country reach for "goals of excellence."

SEEK EXCELLENCE
He said we must seek excellence from government and demand it from politics.

This age of knowledge, reason and peril, he said, demand politics of understanding, restraint and unity.

"If our American politics is to serve the good of man," Johnson said, "I believe the performance of American government can and must be improved—and the standards of American politics can and must be raised."

He said, too, that unity is the essence and foundation of the American system:

UNITY FOR ALL
"Not the unity of states alone, but the greater unity of all our people. Our politics—and our politicians—must seek to widen our common agreement not to inflame our mutual mistrusts."

Already, the President said, the capacity of the American system for excellence has been proved with bipartisan support.

"The truth is clear," he said, "excellence is far too precious in our society to exclude it from our national endeavors on the basis of party alone."

Claims Youth Told Group He Killed School Teacher

KALAMAZOO (UPI)—Larry Lee Ranes, 18, accused killer of five persons, calmly told a group at a party before his arrest that he shot and killed Plymouth schoolteacher Gary Albert Smock; Kalamazoo County Prosecutor John L. Schwendener said Wednesday.

Schwendener declared he would rebut attempts by defense counsel to prove that Ranes, who reportedly confessed to four other slayings, was insane when he shot the 30-year-old schoolteacher.

Smock had given him a ride while he was hitch-hiking. Smock's body was tied and stuffed in the trunk of his car May 30 near Kalamazoo.

The prosecutor said that Ranes knew the difference between right and wrong when the crime was committed and that robbery was the motive.

According to the prosecutor Ranes told a group at a party in an apartment on Cobb Ave. that he was the one who had shot and killed the schoolteacher.

ARRESTED JUNE 5
Ranes was arrested June 5 on a tip from a friend to police.

A parade of witnesses, expected to exceed 50, will be presented in the case with the sanity question the principal issue.

Eugene Field, attorney for the defendant, said he didn't doubt the state could prove the slaying, killing and the question was whether Ranes was sane or insane at the time of the slaying.

Field contended that Ranes

boyhood was a "constant picture of rejection." First by a father who abandoned him and then by others... and this history of rejections brought acts of violence against himself and others."

He said after talking to members of the family and friends he came to the conclusion the act was committed by one of unsound mind who couldn't tell the difference between right and wrong.

TESTIFIES ON GUN
Terry Dare, 23, Richmond, Ind., farmer, testified Wednesday that the death weapon was a 22-caliber revolver he had stuffed in Ranes for a derring.

Dare said he picked up Ranes while Ranes was hitch-hiking April 29 and took him home as his overnight guest. The gun swap was made at his home, Dare said.

Pictures of Smock's car and the body and other details at the death scene were admitted as evidence after Circuit Court Judge Raymond W. Fox overruled the defense which claimed they were prejudicial and inflammatory.

The trial is expected to last several days before the jury of nine women and five men. Witnesses are expected to include psychiatrists who examined Ranes while his trial was pending.

Besides the Smock killing, Ranes also said he killed a gas station attendant at Elkhart, Ind., a Southfield, Mich., airman and two persons at Las Vegas, Nev., and in Kentucky.

Man Is Guilty in Attempt to Kill Trooper
An Oakland County Circuit Court jury yesterday found a Detroit man guilty of assault with intent to murder a Michigan State police trooper.

Convicted following a three-day trial before Circuit Court Judge James S. Thorburn was Marvin James Jesse Jackson, 38. He will be sentenced Oct. 23.

Jackson was charged following a wild chase and gun battle with trooper Howard Kelly in Waterford Township on Aug. 15.

Shots were exchanged between the two after Kelly attempted to stop Jackson's car, reported to have been the one used in an armed robbery of a market in Flint earlier in the day.

Prosecutor Richard P. Condit said that Jackson will be taken to Flint prior to his sentencing so police there can complete their investigation of the armed robbery.

Keating Name Boomed in N. Y.

GOP Rally Protests Nixon Support Plea

GARDEN CITY, N.Y. (AP)—Former Vice President Richard M. Nixon drew boos and catcalls from an audience of more than 2,000 Republicans at a rally on Wednesday night every time he urged support for reelection of Sen. Kenneth B. Keating, who has refused to endorse Sen. Barry Goldwater, Republican presidential candidate.

The boing at the Long Island rally began when Leonard Hall, former GOP national chairman, urged the crowd to give Goldwater "a real working arm in the U.S. Senate in Ken Keating."

Hall made the plea in introducing Nixon at the meeting sponsored by the Nassau County Republican Committee. Hall is an adviser in the Goldwater campaign.

Keating, who is backed by the Republican state organization, has been endorsed by Goldwater.

Nixon, who is backing Goldwater, as well as Keating, ignored the reaction to the mention of Keating's name except for a moment when he told the crowd: "Don't boo me. I've been boomed by experts."

There were a lot of signs boosting Goldwater and his running mate, Rep. William E. Miller of upstate New York. There were only a few signs boosting Keating, who is running against former Atty. Gen. Robert F. Kennedy.

Nixon's appearance was the start of a month-long, 36-state tour campaigning for Goldwater and other Republican candidates. He plans more than 150 speeches.

Nixon told the rally that an election victory for Kennedy, who has rented a Long Island home after living in Virginia and voting in his native Massachusetts for years—would open the doors of the Senate to anyone who "just wants a job."

Nixon said President Johnson is "a liberal one day, a conservative the next." He charged that the President "has given the green light to influence peddling in Washington."

Is It a Freeway? No, Airport Runway

HARLAN, Ky. (AP)—While visiting friends here, John Farmer volunteered to drive to the airport and pick up another man who was flying in on business.

He took along an acquaintance who furnished directions that sent them along narrow streets and roads. Suddenly, they came upon what seemed like a new, four-lane highway.

"Man alive," said Farmer, "you sure do have some roads up here!"

"Good roads!" the man riding with him exclaimed. "You're driving down the airport runway."

Killed on Freeway

ALLEGAN (AP)—Thomas E. Straznac, 21, of Grand Haven, was killed today when his truck veered off 136 and struck a large sign one mile south of the Douglas-Saugateak exit. He was a driver for a Grand Haven nursery.

Once Hot-Tempered Mates May Reunite in Film Role

By EARL WILSON

NEW YORK—Vittorio Gassman, who was once married to Shelley Winters but got over it, is here to talk about doing a film with her... feeling fearless, he's willing... "She's a very good girl," he says chivalrously.

Flying here from Rome for the opening of his movie, "Let's Talk About Women," he immediately visited Shelley and their 11-year-old daughter Vittoria Gassman, a ballet student at the Balanchine School.

"Shelley has been very loyal," Gassman said, in a way you don't quite expect of ex-husbands nowadays. "We were both too temperamental, I guess. Our marriage was very... uh... rapid... but we are good friends now."

Producer Joseph E. Levine wants to talk to him about playing Shelley's husband in "Harlow"... they'd portray the parents.

"It would probably be easier than some other actress," he said, while having dinner at Luchow's... "We dropped the subject right there, not wishing to be responsible for a reconciliation of these two whose battles a dozen years ago were a little like a war."

A Woman's Magazine planned a big story on Anthony Quinn, but vetoed it, explaining, "He is a family magazine." Quinn, who believes in family more than I do? I have two of them... After comedian Allan Drake and Chicago Playboy Bunny Wandu Owens were wed in the world's fastest ceremony (40 seconds) performed by Judge Saul Streit, there was a reception at Danny's Hideaway. Dom Perignon was bought for the guests by a quiet industrialist, Marion L. Roberts, of Madison, Wis., and El Paso... whose next enterprise is a 1-inch thick, 5-by-7 inch TV set which'll sell for \$99.50.

THE MIDNIGHT EARL...

Beautiful Lovie Joy Heatherbin, off on a tour for the picture, "Where Love Has Gone," will have something else to discuss: her date with Beatie George Harrison. Joey, just 20, doubts if she'd marry a Beatie. It seems the Beatles riots are wonderful to visit but you wouldn't want to live there... When the John Fields celebrated their 25th at the Volsin, Prop. Hy Uchitel gave them two cakes with 25 candles, one unit which he said he'd hold for the 50th.

When Gordon MacRae got laryngitis, young Jerry Holmes (only 22) subbed for him at the Waldorf with Sheila MacRae and was a smash... Jayne Mansfield's little brood of four children and numerous dogs is stashed with her at her fiancé Matt Cimber's parents' home in Floral Park. Jayne and Matt bought the wedding rings.

REMEMBERED QUOTE: "After you have heard two eyewitness accounts of an auto accident, you begin to wonder about authority."—Anon.

EARL'S PEARLS: "Show business is insecure," claims Jackie Mason. One day your name is up in lights—next day the fuse blows.

Soupy Sales says he tried to read Helen Gurley Brown's "Sex and the Single Girl"—but the book jacket kept slipping off... That's all, brother.

Rights Deaths Still Probed

BLOOM, Miss. (AP)—A federal grand jury continued its probe into the deaths of three civil rights workers today after its state counterpart at Philadelphia, Miss., quit with a slap at the federal government for "stymieing" its investigation.

A string of witnesses, including residents of the Philadelphia area Neshoba County officials and federal agents, have paraded before the 23-member federal panel, which includes one Negro.

Reliable sources said the federal panel would finish Friday. Any indictments would be on civil rights charges. Murder is a state offense.

At Philadelphia, Circuit Judge O. H. Barnett—a cousin of former Gov. Ross R. Barnett—said the Neshoba grand jury had been hampered because acting Atty. Gen. Nicholas Katzenbach had refused to allow FBI agents to testify.

BODIES FOUND

The three civil rights workers, Michael Schwerner, 24, and Andrew Goodman, 20, both white New Yorkers, and James Chaney, 22, a Meridian, Miss., Negro, disappeared June 21. Their bodies were found in an earthen dam near Philadelphia Aug. 4.

The county grand jury report charged that a number of Neshoba residents "have been unofficially accused by the FBI agents as having taken part in the homicides of the three civil rights workers."

The grand jury report said there was "more crime and violence committed on the streets of New York City in one night than has been in all of Neshoba County for the past 100 years."

AUTHENTICALLY
White Stag

Imagine! A whole wardrobe of cotton turtle pullovers. What luxury... but an un-luxurious price. For ski togs, for sweaters, for slacks, for skirts, for every conceivable thing you wear this fall. White Stag does the authentic skier's turtle tee in blue, red, navy, black, white, green, pink, purple, lilac and others... all in 100% knitted cotton. Don't pick a few... pick a drawer-full.

White Stag

THE SKIER'S TAILOR SINCE 1929

Lightweight nylon parka gives perfect warmth with Insuloft vertical quilting. A pert collar stands at attention to hide a pop-out hood. Sleek and slender chic—the look of authentic ski! S-M-L, 15.00.

Color coordinated Gold Medal stretch ski pants, 20.00.

High on a windswept
Alp—"Alpen Flower"

White Stag

THE SKIER'S TAILOR SINCE 1929

It's soft, warm and wooly. Pale pastel embroidery on a mountain bright background, all nubby and plush in acrylic and mohair. Wide ribbed cuffs and bottom band never loose their shape. From the White Stag "Ski Boutique," S-M-L, 20.00.

Color coordinated Gold Medal stretch ski pants, 20.00.

Park free and easy at
Miracle Mile nightly 'til 9 P.M.

Don't run around in those crazy stockings ...

till you get the shoes made to go with them.

The Stackerinos (with real stacked heels).

A wild buy at \$4.99. Where do you think those racy legs will get you, if your shoes don't swing with your stockings? To carry off the look, you need The Stackerinos. The shoes we've made to go like mad with all that crazy legwork. We've got all the right styles from jazzed-up classics to far-out strap tappers. All cozied up inside with cushioned insoles. And ready to go on swingin' stacked heels. (Who ever heard of getting the real thing in stacks for as little as \$4.99 or even \$5.99?) Just don't wait too long to get with The Stackerinos. At prices like these, they'll be going like crazy.

Thom McAn Five Way Fit

1 The length must be accurate to a fraction. 2 The width must be ample enough to prevent crowding. 3 The ball of the foot must match the ball of the shoe. 4 The heel must fit snugly for support, but without rubbing. 5 And there must be just enough room for growth.

You get a Five Way Fit Certificate, signed by our manager, only after your child's shoes have passed this test. It's our way of making sure children's feet grow properly and stay healthy. See our big selection of new styles and colors. Boys' shoes from 4.99. Girls' as low as 3.99.

In the big romance between clothes and the girl ...the newspaper is the go-between

Every woman loves clothes, period. She loves to look at the newspapers to see what's in, what's out, who's wearing what. When she reads the fashion ads, she feels she's in the store. And quicker than you can get there checking ad response, chances are she will be in the store. Because newspapers are the ideal medium to tell the clothes story; they tell where to buy, and in their detailed sketches or photographs, they can give a woman the essential buying information. (Just as true in foods, home furnishings, cars, and everything else.) No wonder newspapers are the No. 1 advertising medium, with more dollars invested than all other major media combined.

MILLAGE INFO — Election workers have been going door-to-door with information on the Pontiac school millage vote Friday. From left, Mrs. Ted Reynolds, of 509 First,

was visited by Mrs. Darrell Felts, of 699 E. Tenyson. Mrs. Felts is a member of the LeBaron School PTA ways and means committee.

60,000 Walk Out

Longshoremen Strike

'Hilda' Churns Slowly Toward the Gulf Coast

Lowland Residents Scurrying to Safety as Hurricane Nears

NEW ORLEANS (AP) — Hilda, a hurricane with howling 100-miles-an-hour winds, churned slowly through the Gulf of Mexico today, trying to make up her mind where she would strike inland.

Residents of low-lying Louisiana coastal areas — mindful of previous killer hurricanes — scurried inland to the safety of high ground.

A 7 a.m. CST. bulletin by the New Orleans Weather Bureau placed Hilda's eye 360 miles south of New Orleans, or about 310 miles from the nearest land mass.

Hilda moved at a snail's pace in a northwesterly direction throughout the night with the Weather Bureau saying "a slow turn to a more northerly course is indicated."

The Weather Bureau said a slight increase in Hilda's size and intensity was likely today.

NO GUESSES

Weather Bureau forecasters wouldn't hazard a guess as to when or where the hurricane might strike inland.

If Hilda doesn't veer to the north—as the Weather Bureau predicts—her present course would take her to the densely-populated Texas Coast.

A turn to the north would send the hurricane hurtling toward the marshy Louisiana Coast.

The threat of Hilda caused the Atomic Energy Commission to postpone for the fifth time its scheduled underground nuclear detonation in the Tatum salt domes near Hattiesburg, Miss.

REPORT FROM SHIP

The New Orleans Coast Guard said it had radio reports from the motorship Cornelia B III that it was being buffeted by winds and high waves north of Hilda's eye.

The ship said a 25-ton truck on its deck was washed overboard, but the ship reported no difficulty.

Red Cross and civil defense agencies mobilized quickly for Hilda.

Evacuation centers were established in inland areas and began receiving residents of the low-lying sections.

Baker Hearings Reopened With Illegal Payoff Charge

WASHINGTON (AP) — The once-closed Bobby Baker hearings reopened today for investigation of a Republican senator's charge of a \$35,000 political payoff on the District of Columbia Stadium contract.

Key figures in the probe are Baker, resigned secretary to the Senate's Democratic majority; Matthew McCloskey, Philadelphia contractor, Democratic fund raiser, and former ambassador to Ireland; and Don B. Reynolds, a local insurance agent.

Instead of plunging into the payoff charge, the Senate Rules Committee called district officials as the lead-off witnesses for testimony about details of the Stadium project, the letting of bids, subsequent changes in the contract and related matters.

Father Keeps Children

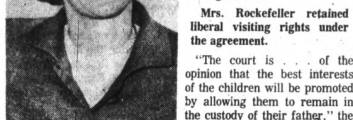

Happy Loses Custody Suit

WHITE PLAINS, N.Y. (AP) — Mrs. Nelson A. Rockefeller lost her fight today for custody of the four children she gave up to marry the governor of New York. State Supreme Court Justice Joseph F. Gagliardi, who heard the case behind closed doors earlier this month, refused to return custody of the children to Mrs. Rockefeller.

Gagliardi said he found no grounds for altering the Sun Valley, Idaho, divorce terms of April 1, 1963, awarding primary custody to the former husband, Dr. James S. Murphy, by mutual agreement.

Mrs. Rockefeller retained liberal visiting rights under the agreement.

"The court is of the opinion that the best interests of the children will be promoted by allowing them to remain in the custody of their father," the judge said.

'HAPPY' ROCKEFELLER

Mrs. Rockefeller filed her suit after Murphy's remarriage June 10. She alleged that the custody arrangements were affecting the children's health.

HEALTH OK

Gagliardi ruled in a 4½ page opinion:

"The court finds that neither the health nor the welfare of the children is being adversely affected by reason of the fact that the father has custody of them. He has succeeded very well in his role and the children, are normal, healthy and contented. The evidence adduced does not warrant a change in the custodial arrangement which the parties themselves concluded."

The children are Malinda, 4, who has been staying with Mrs. Rockefeller since Murphy married the former Victoria Thompson, and Cassel, 3; Margaretta, 11, and James, 15, who are with their father.

Winds were light and variable this morning. They became southeasterly at 10 to 20 miles this afternoon, and will be southwesterly at 10 to 20 miles tonight and tomorrow.

Forty-two was the low mercury reading preceding 8 a.m. today. At 1 p.m. the thermometer read 68 in downtown Pontiac.

Johnson Calls Panel to Force Return to Jobs

80-Day 'Cooling Off' Period to Be Asked Under Taft-Hartley

NEW YORK (AP) — Sixty thousand longshoremen struck ports from Maine to Texas today, tying up the nation's Atlantic and Gulf of Mexico shipping in what their leaders described as a 100 per cent effective walkout.

"As a presidential board prepared to open a fact-finding inquiry preparatory to obtaining a Taft-Hartley Act "cooling off" order, Thomas W. (Teddy) Gleason, president of the striking AFL-CIO International Longshoremen's Association, said: "Not even a raft is floating down the river."

However, two Transatlantic liners docked in New York early this morning — the Sylvania and the Leonardo Da Vinci. White collar workers helped the 1,300 passengers on the two vessels unload their luggage.

President Johnson named the three-man board of inquiry late yesterday, but too late to head off the midnight strike.

The board acted quickly today to report to the President before midnight.

Meantime, pickets walked on the piers.

ORDER EXPECTED

A return to work under a federal court injunction was expected by Monday or earlier.

Shipping circles estimated a loss of more than \$20 million in the nation's economy for each day the docks are idle.

Threatened loss of jobs through automation of cargo handling was a major factor in the "no contract, no work" walkout by the AFL-CIO International Longshoremen's Association which began a minute after midnight.

Some longshoremen jumped the gun in New York and began quitting work on the luxury liners as early as 5 p.m. Wednesday. Clerical employees were put to work handling passengers' luggage and their big ships — the British Queen Mary, the American Independence and the German Bremen — sailed during the night.

DATES ADVANCED

For the past few days shipping companies — especially in the vast port of New York — had advanced some sailing dates and rushed loading of passenger ships and freighters by hiring extra longshoremen in order to get the ships to sea before the strike deadline.

Joseph Curran, president of the 50,000-member AFL-CIO National Maritime Union, has promised support to the longshoremen. "Members of Curran's union are seamen, engine room and steward department workers and other ship personnel below officer rank."

President Johnson invoked the Taft-Hartley Act late Wednesday for the first time since he entered the White House.

His action was expected to lead to speedy issuance of a court injunction ordering the longshoremen back to work for an 80-day cooling-off period. During this time, his board of inquiry would investigate, report to the President and conduct a union membership vote on the latest offer by management.

The board was appointed by

(Continued on Page 2, Col. 1)

School Vote to End Month's Hard Work

A month's labor by school officials and interested laymen will culminate in a vote Friday on renewal of the Pontiac school district's extra voted tax levy.

The vote will be restricted to property owners because of the 10-year term of the proposed millage. A state constitutional provision limits the vote on any millage for longer than five years.

Spearheaded by the 40-member Pontiac School Study

Committee, the intensive millage campaign began Labor Day, Sept. 7.

School officials have emphasized that the millage proposition is merely a renewal of existing levies.

The extra voted 8.75 mills was first passed by school district voters in 1954. The vote was 2,570 yes to 1,943 no.

APATHY FEARED

Although no organized opposi-

tion has appeared, school officials are concerned that voter apathy may hurt the proposition's chances at the polls.

However, the millage campaign received a boost this week with endorsements from two city groups.

Speaking from the City Commission table, Mayor William H. Taylor Jr., Tuesday urged residents to support the millage renewal.

The Pontiac Area Urban League's Board of Directors voted unanimously to back the ballot proposal.

CAMPAIGN LEADERS

The campaign behind the 8.75 mills has been headed by the 40-member Pontiac School Study Committee. Prior to the actual election drive, the select citizens group studied school costs and finances.

After reviewing projected needs and costs, the study committee recommended the millage proposal to go before voters tomorrow.

25 persons have made some 15 speeches before service, fraternal and professional groups. In addition, board members and administrators have also appeared before local organizations.

A door-to-door informational drive has been conducted under the direction of the Pontiac Council of PTA's.

CAMPAIGN COSTS

Printed materials and other campaign costs have come from private contributions. About \$1,200 has financed the millage drive by a committee headed by Irving Steinman.

"We voted" cards, reminding parents to vote, will be taken home by school children tomorrow. (Continued on Page 2, Col. 1)

Lawrence Gubow, U.S. attorney for the eastern district said about \$6,000 was seized in the simultaneous raids in Detroit, St. Clair Shores, Redford Township and Roseville.

MANY RECORDS

Gubow also said "voluminous" gambling records and equipment were also found.

All of the arrested except Teramine were arraigned before Federal Court Commissioner Frederick Johnson Wednesday on charges of failing to obtain a federal gambling permit, Gubow said.

He said Teramine would be arraigned today.

Another person was sought in connection with the raids, Gubow said.

Gubow said the raid was the state's biggest since police and federal agents invaded Detroit's now razed Gotham Hotel in November, 1962.

In the Gotham raid, 42 were arrested and what authorities learned \$40,000 in gambling receipts was seized.

NY Bus Firm Halts Service to Schools

NEW YORK (AP) — A shutdown of the city's largest school bus company forced some parents today to form automobile shuttle services to get children to classes.

Other parents accompanied their children on sometimes long hikes to the schools.

The shut-down company, Children's Bus Service, Inc., normally carries about \$7,000 of the 92,000 public and parochial school students bused to schools.

A slowdown by the bus drivers, who asserted equipment was unsafe, prompted the bus company yesterday to suspend service. The company cited the "inconvenience and possible injury to school children resulting from the slowdown."

Last night, affected parents of one Bronx housing project formed an organization known as "J.A.M." — "Just Angry Moms."

GROUNDWORK FOR FREEWAY — Preliminary work for the \$11.5-million Pontiac-to-Orion M-59 freeway is well under way, as shown by this view of M-34 (Opdyke) south of Featherstone. Machinery in the foreground is building up the roadbed for temporary relocation of Opdyke. The short detour will carry traffic around construction of an overpass which will carry Opdyke over the new freeway.

Group on Power Picks Acting Chief Examiner

WASHINGTON (AP) — The Power Commission announced Wednesday appointment of Joseph Zwierdling as acting chief examiner.

In that capacity Zwierdling succeeds retiring chief examiner Edward B. Marsh.

Humphrey Visit Tops State Political Events

By the Associated Press
Democratic vice presidential
aspirant Hubert H. Humphrey
will his second campaign visit
to Michigan Wednesday, top-

ping the list of state political
events. The Minnesota senator prom-
ised a National Guard conven-
tion the United States has "no

intention of pulling out of South-
east Asia" and said his military
audience could dispel "any
doubts you may have over con-
tinuity" of the Guard.

Later he told a Detroit street
rally that Republican presiden-
tial nominee Barry Goldwater's
soft on communism charge
against President Lyndon John-
son is the "last argument of a
dying political man."

Humphrey, who flew into Det-
roit from Georgia in the morn-
ing, left a little after noon for
another scheduled appearance
in Iowa.

SEARCH FOR NOTES
Meanwhile Michigan's two
major gubernatorial candidates
continued to traverse the state
in search of votes.

Republican incumbent George
Romney concentrated on the
Detroit area, touring shopping
centers and shaking hands on
street corners, while his Demo-
cratic rival, Neil Staebl, turned
his attention to the Grand Rapids
area, visiting plant gates and coffee hours.

Romney's schedule for today
called for few campaign stops.
The governor was to make an
evening speech at a dinner of
the National Guard Association
of the United States, which is
concluding its 86th general con-
ference in Detroit.

Staebl, congressman and
Ann Arbor businessman, planned
to spend the afternoon in
Detroit, appearing at a

luncheon meeting of Ham-
tramck officials and two senior
citizens groups before attending
a pancake supper for Rep.
Martha W. Griffiths and a voter
registration rally at a Detroit
church.

OAKLAND VISITS
Staebl scheduled a number
of appearances in Oakland
County for Friday, while Rom-
ney planned to concentrate
again on the Detroit area.

As the two campaigned
Wednesday night, GOP State
Chairman Arthur Elliott spoke
in Marshall and charged that
Staebl is a "hitch hiker" can-
didate for office.

"Any gubernatorial candidate
who attempts to sneak into of-
fice as a stowaway on his
party's ticket is indulging in a

disgusting form of political
trickery," Elliott said.

"He said 'The hitch hike appeal
is being carried out on bump-
er stickers, posters and virtual-
ly all literature being distrib-
uted by his headquarters.'"

Elliott also hit the "labor
bosses" who he said "own and
run the Democratic Party in
this state."

Attack Fatal to Broker

DENVER, Colo. (AP) — John
H. Maher, 72, a produce and
fruit broker in the United States
and Canada for many years,
died Wednesday night. He had
suffered from a heart ailment
for a year. He had been in the
produce brokerage business in
Regina, Sask., Canada; Milwau-
kee, Wis., and Kansas City for
36 years.

NOTICE OF BID TAKING

Sealed bids will be received until
10:00 A.M., Wednesday, October
14, 1964 at the Michigan State
Highway Department, 926 Feather-
stone, P.O. Box 3054, Pontiac Mich-
igan, for the boarding of houses
being acquired with the Right of
Way for the construction of high-
ways in the counties of Wayne,
Oakland and Macomb. For infor-
mation concerning the submission
of bids, and boarding specifications,
please contact the Property Man-
ager, Ronald T. Piper, at the above
address or phone FEderal 3-7801 or
335-0224.

SPEAKS IN DETROIT — Sen. Hubert
Humphrey of Minnesota, Democratic candi-
date for vice president, speaks to a nontime
crowd in Kennedy Plaza in downtown Detroit

yesterday. Mrs. Humphrey (left) smiled as
the senator made a quip about a soft drink,
"Gold Water," being taken off the market in
Michigan.

Elect Board for Boys' Club in Waterford

Glen Treadway, 2340 Terness,
was elected president Tuesday
night of the Boys' Club of Wa-
terford Township board of di-
rectors.

Other newly elected officers
are John Stefanski, 1157 W.
Huron, vice president; Robert
Smithson, 3441 Hanford, secre-

tary; and Elmer Fangbner,
3327 Meinrad, treasurer.
Twelve new directors were
elected for the 24-member
board.
They are Judge Fred Ziem,
James Clarkson, John McGrath,
Harold Richardson, Darwin
Richardson, Ralph Strohm, Wa-
terford Police Sgt. Charles Grif-
fith, Don LaMarth, State Po-
lice Sgt. John Amthor, Captain
Clayton Sconrainte of the Wa-
terford Fire Department, Wil-
liam Bigler and Dr. William
Crommett.

Kansas is said to be the geo-
graphic center of the United
States.

Education Act Said Threat

WASHINGTON (AP) — Con-
gressman Robert Griffin of
Michigan and four other House
Republicans said Wednesday a
bill to broaden and extend the
National Defense Education Act
threatens to involve the govern-
ment in politically sensitive
subjects.

The bill, agreed upon last
week by House and Senate con-
ference, comes up for final action
in the House today. The five
said they would try to have it
sent back to conference.
Reps. — Peter Frelinghuysen,
N.J.; Albert H. Quie, Minn.;
Charles E. Goodell, N.Y.; Grif-
fin, and Paul Findley, Ill., all
are members of the House Edu-
cation and Labor Committee.

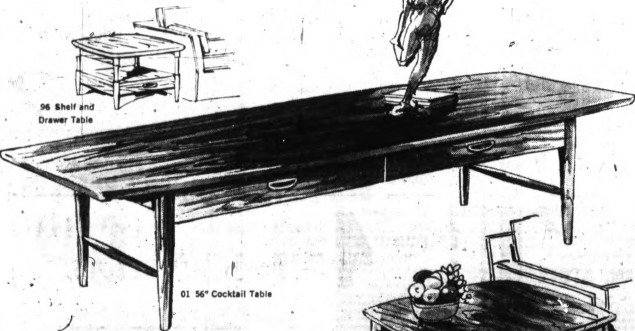

The Education Act, as origi-
nally passed in 1958, was aimed
at strengthening the teaching of
mathematics, science and lan-
guages. The bill now being con-
sidered would extend federal
aid also to the teaching of his-
tory, English, geography and
civics.

To Coincide With '68 Olympics

San Antonio Is Planning Huge Fiesta

(EDITOR'S NOTE—The San Antonio business community has taken an idea from Rep. Henry B. Gonzalez, D-Tex., for a "Fair of the Americas" and turned it into a proposed \$85-million exposition for 1968, the 250th anniversary of the founding of the city. Thus far, it has met with enthusiasm.)

SAN ANTONIO, Tex. (AP)—Long noted for its fiestas, this Spanish-American city wants a fiesta to top all others on its 250th anniversary in 1968.

Plans center on an \$85-million HemisFair—hemisphere fair—to salute all the Americas.

San Antonio, a city of 700,000 where the name Rodriguez appears as often as Smith, is a center of inter-American culture and trade.

Rep. Henry B. Gonzalez, D-Tex., said two years ago it would be fitting for the city to be host for the first "Fair of the Americas."

PAST TALKING

His idea now is well past the talking stage. Money has been raised and a staff hired.

Official Reminds
State of Coming
Vote Deadline

LANSING (AP)—Michigan residents have until next Monday to register for the Nov. 3 general election, says Secretary of State James Hare.

Those who must register are persons who have not voted or registered in the last two years or who have moved since they last voted.

Thousands of voters will disenfranchise themselves through their own negligence, he said.

Many clerks have notified him registration rolls are down from two years ago, Hare said, due mainly to Michigan's new two-year registration law.

"The number of votes for governor in this year's primary is rather a graphic illustration of voter apathy," he said. "Our official canvass showed that 1,174,511 votes were cast. This is far short of the 1,436,546 record total cast in the gubernatorial primary in 1952."

To Finish Freeway
in Muskegon Area

LANSING (AP)—The final section of the U.S. 31 freeway from Muskegon to Montague will be completed and opened to traffic Tuesday, the State Highway Department reports.

The project will complete the 17-mile long, \$10 million freeway from Muskegon north to existing U.S. 31 north of the twin cities of Whitehall and Montague.

The more than three-mile section to be opened to traffic Tuesday extends from Colby Rd. north to existing U.S. 31 and includes an interchange and two overpasses.

Federal Judge Expires

NEW HAVEN, Conn. (AP)—Carroll C. Hincks, 74, who served 28 years as a federal judge after his appointment by President Herbert Hoover, died Wednesday. Hincks was a judge of the 2nd U.S. Court of Appeals when he retired in 1959.

Even the Best
Can Be Bad

ANCHORAGE, Alaska (AP)—The sound of off-key violin playing is pretty terrible even when the instrument is played by Isaac Stern.

The four notes came when Stern, here for a concert to-night, met Lee Wilkins, 7, Anchorage violin student. Lee and Stern bowed their way through the scales. Stern asked for an encore and accompanied the boy—a half note off key.

Stern said the concert fulfills a lifetime desire—"to play my fiddle in all the states."

Nepal, U. S. Linked

KATMANDU, Nepal (AP)—King Mahendra of Nepal and President Johnson exchanged greetings Wednesday as the Himalayan kingdom inaugurated its first international telephone and telegraph service. The wireless equipment was built with U.S. aid.

After a 184-day run, the fair will leave to the city the convention center, exhibit areas, an inter-American trade institute, stadium, military museum and library. Any profits go to the city.

RIVER DIVERSION

Architects have plans to divert part of the San Antonio River, which winds through downtown, through the fairgrounds.

Dingwall said response from North and South America has been encouraging.

Each country in the western hemisphere with the exception of Cuba will be invited to build a pavilion or exhibit area.

The Olympics are in Mexico City in 1968. San Antonio will be the funneling point for tourists traveling to Mexico City. HemisFair will open before and close after the games.

Red Man's Burden—I

MAKE OPEN SPACE Pennsylvania Dam Waters Will Cover Ancient Seneca Lands

(Editor's Note—Work on the Kinzua Dam speeds toward completion, and the Senecas who will be displaced by its waters prepare to leave the land which was granted to them "forever" by George Washington. This is the first article in a three-part series.)

SALAMANCA, N. Y. (NEA)—The year is 1794. Thomas Pickering, special envoy of President George Washington, travels to Seneca Indian country in the southwestern corner of what is one day to become New York state.

Pickering has a treaty for the chiefs of the Seneca nation. The treaty guarantees to the Indians

lands which they will be able to keep "as long as the moon rises, the grass is green, the river flows and the sun shines" if the Senecas remain friendly to the young United States.

Pickering signs the treaty. Seneca chiefs including Stinking Fish, Heap of Dogs, Little Beard and Broken Ax place their marks on it. It is the first treaty negotiated by America's first president.

The year is 1964, just 170 years later, the Kinzua Dam is speeding to completion in the wild forests and hills of the upper Allegheny River valley in Pennsylvania, not far from where the Treaty of 1794 was signed.

Once the dam is built, it will stop the water flowing southward and wipe out the homes and hunting and fishing places of more than 700 Senecas, descendants of the chiefs who signed Pickering's treaty.

LAND DESTROYED

The 12,000-acre reservoir caused by the dam will destroy 90 per cent of the habitable land left to the Indians on this 29,800-acre Allegheny reservation. The rest of the 3,100 Senecas live on the Allegheny and other reservations.

That solemn pledge which existed for 170 years has been broken, and in a few weeks the first of the Senecas must begin to move from the path of the rising waters.

The Indians' last stand has been long and tiresome, fought not only on the battleground (as it might have been a century ago), but in the committee rooms of the United States Congress and in the federal courts. And, as seems to be traditional with Indians, most of the battles were lost.

The Kinzua Dam, now nearing completion, was authorized by Congress in 1936. The dam, as the Senecas agree, is necessary to stop the occasional flooding of the Allegheny River in Pennsylvania which has,

through the years, caused millions of dollars of damage to residents of cities and towns along the river.

COURT DECISIONS

The Indians' case is more moral than strictly legal. In 1957, a U. S. district court upheld the government's right to condemn the Seneca land, despite the 1794 treaty. The Supreme Court in 1959 refused to hear the appeal, thus affirming the lower court's decision.

The Senecas hired engineers, including a former director of the Tennessee Valley Authority, to suggest other dam locations. The proposals, after much study, were rejected by the government.

So Kinzua (which, in Indian language, means "fish on a spear") was begun four years ago by the Army Corps of Engineers. President Kennedy was interested in the project. In 1961, he wrote to the president of the Seneca nation:

"I have concluded that it is not possible to halt the construction of the Kinzua Dam currently under way. I hope you will convey to the members of the Seneca nation the desire of the federal government to assist them in every proper way to make the adjustment as fair and orderly as possible. I pledge you our cooperation."

So with the original breaking of the treaty no longer in question, as far as the government was concerned, the Senecas concentrated on securing a reasonable compensation from the government for the taking of their lands and to relocate them on other areas of the reservation.

Even on this issue, where, presumably, Congress might want to atone for what many

observers call the questionable morality of unilaterally breaking the oldest U. S. treaty on the books, the Senecas ran into many stumbling blocks.

This October, many Indian families living in the path of the reservoir must move to escape backed-up water. But because of congressional delay, there are not many places for them to move to.

A bill prepared in the House of Representatives (H. R. 1794) sought to provide about \$20 million for indirect and direct damages and rehabilitation. It passed the House early this year.

SENATE VERSION

But the Senate version of the bill cut the amount to \$8.5 million. The entire issue sat in a House-Senate conference committee until August, when the

committee agreed on a \$15.5 million payment.

Until very recently, then, not a federal dime had been received and not a shovelful of dirt had been turned for the relocation of Seneca families.

George D. Heron, president of the Seneca nation, says his people "just can't understand why the government took so long to agree to the figure."

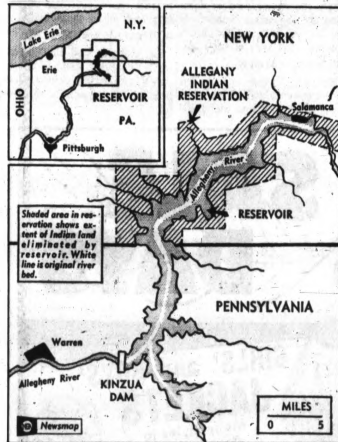

"Why, more than three years ago, the Pennsylvania Railroad received \$20 million for a few miles of right-of-way located in the flood area."

FOR REHABILITATION

Nearly \$15.5 million does seem, to the casual observer, a lot of money to spend on relocating some 700 Indians. The bulk of the money, about \$12.4 million, will be used for "rehabilitation."

This represents the estimated costs for moving, building new homes, roads, recreation facilities, small industries, schools and training centers.

The story of the Senecas and the Kinzua Dam is much more than cement and water, dollars and cents, committee meetings and court decisions. It is the story of a serene people who love their land.

SENECA NATION — Map shows Indian nation lands and surrounding area. Also shown is the location of Kinzua Dam and the territory which will eventually be submerged by its reservoir.

SAC Commander Affirms Power Is With President

WASHINGTON (AP) — Defense officials said today the commander of the nation's missile and bomber forces has affirmed to President Johnson that "the only authority I recognize for expending nuclear weapons is the President of the United States."

These officials said Gen. Thomas S. Power, chief of the Strategic Air Command, told this to Johnson Tuesday when the President was in SAC's underground command post at Offutt Air Force Base, Omaha, Neb.

While the president was inspecting the underground center a briefing officer explained that the "red phone" could reach all SAC bases and command centers — about 86 around the world — directly and simultaneously.

In this way, the officer said, SAC's bombers on alert and loaded with nuclear weapons would get the word to take off and be in the air in 15 minutes, enough time for them to escape any enemy missile attack.

ONLY PRESIDENT

At this point, defense officials said, Power told the President: "The authority to order use of nuclear weapons rests only with you, Mr. President. The only authority I recognize for expending nuclear weapons is the President of the United States."

A group of six pool reporters observed Johnson trying out the "red phone," but apparently none heard Power say that.

The administration obviously was anxious to get Power's words — which officials said

had been verified by the general — into public view.

This is because the question of control of nuclear weapons is a major issue in the current presidential campaign.

BARRY ARGUES

Sen. Barry Goldwater, the Republican presidential candidate, has contended that the NATO commander should be given greater control of battlefield-size tactical nuclear weapons.

He has not proposed allowing anyone but the President to control use of the big retaliatory hydrogen weapons such as those carried by SAC bombers and missiles.

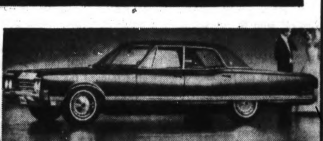

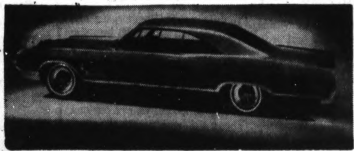

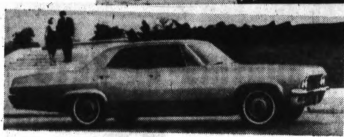

Russia, Britain OK Fishing Vessel Pact

MOSCOW (AP) — The Soviet Union and Britain today announced the conclusion of an agreement permitting Soviet fishing vessels inside the British 12-mile fishing limit near the Shetland Islands — but not to fish.

The agreement is connected with Britain's extension of its fishing limits to 12 miles. The extension came into effect yesterday.

The agreement permits Soviet fishing vessels and depot ships to anchor, navigate and transfer fish in certain areas near the Shetlands.

Nearly half the city of Hiroshima, with a population of 243,900, was killed or wounded when the first atomic bomb was dropped Aug. 6, 1945.

Entire Breakfast Bakes While You Dress

When you hear the b-r-i-n-g of the alarm, are you a Turn-Over Topsy or do you hop out of bed with a smile?

Laf's share an important secret about this getting-up business. To make it easy, to make your grooming worthwhile and for a glowing you all morning, start the day with a well-balanced, nutritious breakfast.

There are many breakfast patterns which make meal planning fun and easy. One quick and easy pattern consists of fruit, cereal and milk; another, fruit, egg, coffee cake and milk. A third, fruit, cereal, sausage and eggs, toast, milk.

Count the calories and any one of these can be fitted into the day's meals without exceeding the "calorie speed limit."

Here are some new and fun ideas to get started. Experiment with breakfast cooked in the oven, on top of the range, in the broiler or poured from a ready-to-eat cereal box. Breakfast can be speedy, varied and a treasured beginning to the day's activities.

Laf's start with oven breakfast. Here's one that cooks itself while you're in the shower or getting dressed.

Oven-Cooked Oatmeal
Baked Sausage Links
Apricot-Raisin Coffee Cake

Oven-Cooked Oatmeal
2 cups quick or old fashioned oats

1 teaspoon salt
4 cups cold water

Place oats and salt in 2-quart casserole. Add water and stir slightly. Cover and cook in preheated moderate oven (375 degrees) about 25 minutes. Stir before serving. Makes 6 servings.

Baked Sausage Links

Place 12 pork sausage links in shallow baking pan. Bake in preheated moderate oven (375 degrees) about 25 minutes. Turn occasionally. Makes 6 servings.

Apricot-Raisin Coffee Cake

One 10½-oz. pkg. coffee cake

Wine Is Liquid in Meat Loaf

The practice of marinating meat in wine and herbs to insure tenderness and added flavor was going on long before cook books were written. But it is still an effective method, and it has gained social status along with being downright practical.

When ground meat is used in a recipe, the tenderizing factor is not so important, but the seasoning needs special attention. This new recipe for meat loaf applies the marinating principle to ground meat because all ingredients are mixed long in advance of cooking and refrigerated for several hours or overnight to develop the very desirable flavor.

This thorough seasoning carries its own reward; the meat loaf is as good cold as it is hot. To accent its flavor — and to add style to the whole meal — serve glasses of a red dinner wine, such as California Bur-

gundy or Claret, as the mealtime beverage.

Marinated Meat Loaf

¾ cup California Rose, Sauterne or Chablis
2 cups soft, stale bread crumbs
1 egg, beaten
¾ cup milk
1½ pounds ground lean chuck or round
3 or 4 tablespoons finely chopped green or mild onion

1 teaspoon celery salt
1 teaspoon salt
1 teaspoon mustard
2 tablespoons chopped dill pickle
1½ cups grated American cheese

Combine all ingredients until well blended. Cover and refrigerate several hours or overnight to blend flavors. Pack mixture into a lightly greased bread loaf pan about 10x5x7 inches. Bake in a moderate oven (350 degrees F.) about 1½ hours. Makes 8 servings.

easy mix
1 egg, unbeat
¼ cup milk
¼ cup chopped dried apricots
2 tablespoons raisins

Put egg, milk, apricots and raisins into large bag of mix. Squeeze upper part of bag to force air out. Close top of bag by holding tightly between thumb and index finger. With bag resting on table, mix by working bag vigorously with fingers. (Mix about 40 seconds or until egg is completely blended.)

Squeeze bag to empty batter into special aluminum foil pan contained in package. (Do not grease pan.) Sprinkle topping contained in smaller bag evenly over batter. Bake in preheated moderate oven (375 degrees) about 25 minutes.

Open corner folds of pan for easy cutting and serving. Makes 6 to 8 servings.

ORANGE-GLAZED — For fine fall and winter fare, serve orange-glazed smoked butt with sweet potatoes. It's budget-priced for family meals, delicious and attractive enough for company meals.

Wine With Melon

Chill a bottle of sauterne and pour some of the wine over cantaloupe balls. Chill before serving. Serve the rest of the wine with the dessert.

Don't Overcook!

Scallops usually need no more than 4 to 5 minutes of simmering in order to be cooked through and tender; overcooking toughens this shellfish.

Glaze Pork Butt, Sweets

Smoked pork shoulder butt and sweets temptingly glazed with a spicy orange sauce is priced for family budget meals. It is so delicious and attractive, guests would have no idea it's budget-priced.

If you are not acquainted with boneless, smoked pork shoulder butt, you've been missing some tasty food. It is a shoulder cut which has been carefully cured, richly smoked, boned and rolled, weighing one to four pounds.

Orange-Glazed Smoked Shoulder Butt and Sweet Potatoes

1 (2 to 2½ pound) smoked boneless pork butt
1 cup orange juice
½ cup honey or light corn syrup
½ cup sugar
½ teaspoon allspice
2 cans (1 pound, 10 ounces each) sweet potatoes in heavy syrup, drained
½ cup orange sections

¾ cup light raisins
¼ cup butter or margarine
Bake smoked butt in slow oven (325 degrees) until done, about 40 minutes per pound or until roast meat thermometer reaches internal temperature of 170 degrees. (See label for weight.)

Combine orange juice, honey or corn syrup, sugar and allspice. Bring to boil; boil 5 minutes. Save ½ of the syrup and use to baste the smoked butt during the last 30 minutes cooking time.

Arrange sweet potatoes in 1½ quart casserole; top with orange sections and raisins. Add butter or margarine to remaining hot syrup; pour over sweet potatoes. Cover.

Bake in slow oven (325 degrees) until well heated, 30 minutes. Uncover. Spoon over potatoes if desired, and bake 15 minutes longer. Yield: 6 to 8 servings.

Holly at West Bloomfield

Falcons and Madison to Duel

Rochester opens its home football season Friday with a chance to stay on top in the Oakland A League.

The Falcons, who play Madison, may have to share first place with two other schools. Fitzgerald is favored to take the measure of Clawson on the Spartans field and Troy is favored in a home tilt with Cousin.

Madison, Rochester, Troy and Fitzgerald all have 14 league records.

Avondale will be seeking a top four Friday when the Yellow Jackets host Lake Orion.

Top game in the Wayne-Oakland sends Holly to West Bloomfield.

Bloomfield Hills is at Clarkston, Northville goes to Clarenceville and Milford plays at home for the first time this season, opposing Brighton.

STUMBLING BLOCK

Madison could prove to be a major stumbling block for Rochester. The Wildcats were given

the pre-season nod as title favorite and have lived up to the designation by knocking off a

Township Sets Grid Clinic

The Waterford Township Recreation Department is planning an elementary Touch Football Clinic for 9 a.m.-1 p.m. Saturday at Pierce Junior High.

Boys in the fifth through eighth grades of the township school district are eligible. They must provide their own equipment; cleated shoes are not permitted, however.

Fifth and sixth graders will be instructed 9 a.m. - 11:30 a.m., and seventh and eighth graders 11:30 a.m.-1 p.m.

Team coaches are still needed for the fifth and sixth grade level teams at Monticelli, Beaumont and Williams Lake school areas.

The clinic will include practice on fundamentals, practice games, and scheduling of league games for next week. Additional information is available at OR 4-8377.

good Tawas Area eleven and then tripping Clawson.

Rochester needed some last minute heroics to overcome Cousin, 14-13, last week. The Falcons will have to tighten their pass defense if they are to contain Madison.

Cousin couldn't run against Rochester but Ron Pliske almost passed the Falcons into defeat.

Avondale is favored to hand Lake Orion its third straight loss.

The Yellow Jackets upset Wayne-Oakland contender Milford in their opener and then gave Troy trouble before bowing last week.

"We beat ourselves against Troy," said coach Dick Bye. "There were too many mistakes. We can't afford to keep making them."

Lake Orion's problem is defense. The Dragons have failed to score against Kettering and Fitzgerald, both highly rated teams.

The Orion defense, which couldn't contain Kettering's ground game, tightened during the first half against Fitzgerald, but then the Spartans pulled away for a 20-0 win.

West Bloomfield is the last place any team would go look-

ing for an opponent to take out its frustration on.

That's where Holly is headed and the Broncos are planning to atone for that rude jolt handed them in the rain last week by Milford. The loss came before the home folks.

West Bloomfield is not as strong as in the past, but the Lakers are known for hard-nosed play and they always play well when listed as the underdog.

Milford is favored to handle Brighton and the same goes for Northville at Clarenceville.

Bloomfield Hills and Clarkston are both winless in two outings. The Barons are rebuilding and showed improvement in the 12-7 loss last week to West Bloomfield. Clarkston couldn't get its offense moving against Northville.

Deal for Quarterback

VANCOUVER (AP) — The British Columbia Lions, leaders in the western division of the Canadian Football League, announced Wednesday they had regained quarterback Pete Oler from the Winnipeg Blue Bombers. Oler is a graduate of the University of Washington.

Major Calls for Relief

By MAJOR AMOS B. HOOPLE

Original Man in Motion
Egad, friends—bowing to the demands of my many business interests, I've been obliged to assign my football forecasting duties for this week to my staff members.

The upward surge of the market in recent weeks requires I attend special board meetings of my oil, coal, gas and gum companies—hah-kaff! (Ed. Note: The Major is going to buy six packs of bubble gum.)

Your interests will be well taken care of despite my enforced absence from the foot-

In the leading intersectional engagement of the day, my staff members were unable to detect a shade of superiority for either Texas or Army. They unanimously forecast a 16-16 standoff—Um-hah!

Now on with the forecast:

ball wars. I have reviewed the findings of my regular assistants, Dr. Cleo Zlobotny and Hannibal Wottaburp, and concur in their selections for this weekend.

Dr. Zlobotny, noted fourth dimensional scientist, foresees a rude awakening for the Engineers of Georgia Tech as they play host to underdog Clemson. Zlobotny's calculations point to a 21-14 victory for the Tigers!

Not to be outdone, Hannibal Wottaburp, the "Show Me" man from Missouri who specializes in Midwest passes, grunts and fumbles, has pegged what may well be the year's biggest upset: Hannibal predicts a 10-9 upset victory for Northwestern over neighboring Illinois—har-rumph!

Salary Increased

Chicago Keeps Lopez

CHICAGO (AP) — Manager Al Lopez of the Chicago White Sox, still holding a ghost of an American League pennant chance, will be back for two more seasons of sniping at the New York Yankee dynasty.

Lopez signed a second successive two-year contract Wednesday for his ninth and 10th White Sox managerial seasons extending through 1966.

The genial 56-year-old Lopez, hinting money was no object, had his salary upped to an estimated \$50,000 annually.

He reportedly got \$40,000 per

year for 1963 and the current season, in which only an apparent miracle can enable the Sox to wrest the pennant from the Yankees.

General Manager Ed Short said at signing ceremony Lopez got a "well-deserved" pay hike. The amount was not disclosed.

"I didn't even read the financial terms," said Lopez.

"My reasons for staying two more seasons are that the White Sox are a young club with promise and that I have had a happy front office situation here with Arthur Allyn (club owner) and Eddie Short."

Lopez sends his Sox against the Kansas City A's in a four-game season wrap-up series starting Friday night, with the prospect of achieving his winniest Chicago season in eight years — and possibly threatening the Yankees right to the finish wire Sunday.

The Sox will enter Friday night's twin bill with a 94-64 record. When his 1959 White Sox won the league flag, their season record was 94-60. Last year's second — finishing Pale Hose were 94-68.

PNH to Visit Tough Farmington

One of the press box visitors at the Kettering-Pontiac North game last Friday night was John F. Hayes, head football coach at Farmington.

Hayes had spent the afternoon on the sidelines at Farmington directing the Falcons to a 13-7 triumph over Plymouth.

At the PNH tilt, he spent his time taking notes while Kettering was taking North apart to the tune of 26-0.

Hayes was impressed, no doubt, with the Kettering machine. But with Northern? It's doubtful.

Coach Dave Schmidt and the Huskies took a licking in the contest and he and the squad will try to rebound in a 3:30 p.m. encounter tomorrow at Farmington. It's the opener for both teams in the Inter-Lakes League.

SLIM CHANCE

The Huskies' chances at Farmington are slim at best.

In compiling a 1-1 record, Northern's offense has produced only seven points, those markers coming in an unimpressive 7-0 victory over Troy in the season opener.

"Inexperience will prob-

ably hurt us more than anything else," Schmidt said before the season started.

The young mentor was right.

Lack of experience along the defensive line was particularly noticeable against Kettering. A similar performance against the Falcons could leave the Huskies on the short end of the score.

Northern has dined the Falcons in four of the previous

five meetings. Farmington's lone decision came by, a 13-7 score in 1962.

TOP TEAM

Hayes, despite a lack of depth has one of his best squads in recent years in this season's edition of the Falcons.

Farmington has a rugged defensive crew, one that has given up only nine points in two outings.

The team stopped Livonia Bentley, 19-2, in opening the campaign and cracked Plymouth's 13-game winning streak last week, 13-7.

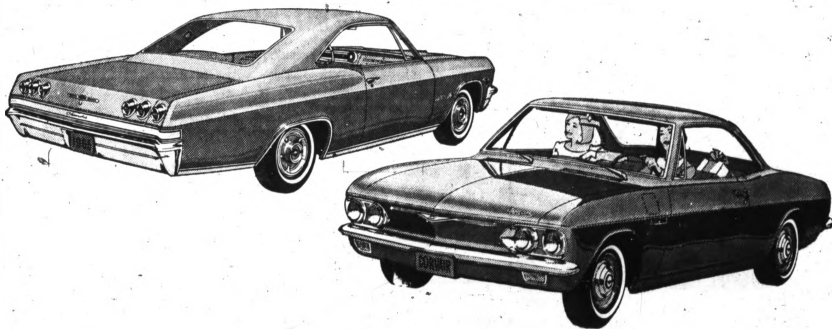

The other game on the I-L slate finds Waterford at Walled Lake.

The Skippers are 2-0 and will enter the game a slight underdog to the Vikings (1-1).

Chevrolet Corvair

Senators Break Record for Team Strikeouts

BALTIMORE (AP) — The Washington Senators are the strikeout kings of all-time in major league baseball history.

In a two-night doubleheader against the Baltimore Orioles Wednesday night, 18 Senators went down on strikes.

That raised the 1964 team total for the season to 1,104, or two more than the previous high recorded by the Cleveland Indians last year.

Washington still has three more games in which to add to the record.

Spending Seen Doubling

College Building Boom

By SAM DAWSON
AP Business News Analyst

NEW YORK—A construction boom is under way for new college and university buildings. The total spending for construction for higher education is expected to double in the years just ahead.

Needs and aims are changing, too.

"Now the emphasis is on new dormitories. And, educators say, will be a drive to build more science and research facilities. And despite the growing volume of postgraduate students, the stress will still be on taking care of the ever larger increase in the number of undergraduates.

On average, the schools spent \$2.9 million during the last 10 years on these science and research buildings. In the next 10 they plan to spend an average of \$6.1 million.

75% FOR UNDERGRADS
While 44 per cent of the higher education institutions are planning to build accommodations for growing graduate schools, more than 75 per cent will be building more facilities for undergraduates.

The rush for higher education is expected to gather speed in the coming decade. Part of this is due to the growing up of the big postwar baby crop. But part is due to increasing stress on the essential role of education in tackling the increased technology of industry, which is building up demand for higher skills.

At the same time the fields of employment open to the high school graduates are expanding only moderately at best, and scarcely as fast as the population growth. At the grade school dropout level, job hunting is becoming an ever harder task.

In the coming collegiate building boom, new architectural trends are developing. Too, in many other fields, college and universities are feeling a squeeze. Builders and architects report mounting interest in high-rise buildings to take care of more students on restricted ground space, and for multipurpose buildings, especially those offering flexibility as educational needs change.

Some 200 of the nation's leading colleges and universities say their building programs envision more than \$4 billion in outlays in the next 10 years. This is about twice what they spent in the last 10.

ALL TYPES
While more will be spent for science and research facilities, construction will continue for all types of campus building: classrooms, administration, dormitories.

The 200 reply to queries by Walter Kidde & Associates, Inc., New York, represent 45 states and Puerto Rico. Of these, 150 say they have or will apply for federal aid under the Higher Education Facilities Act of 1963. And 105 of the 200 plan to apply to other government sources for funds.

Some look for aid from other sources. Research and development facilities planned by 52 of the colleges and universities will be able to handle outside industrial contracts to help pay for themselves and perhaps

TOKYO (AP)—Communist China celebrated its 15th birthday today with the defiant cry: "revolution is the locomotive of history." It apparently did not choose to mark the occasion by touching off an atom bomb.

Peking's Mayor Peng Chen sounded the revolutionary key note, retreating the tough policy which Moscow deplores, before thousands of Chinese and foreign dignitaries massed in the Square of Celestial Peace in the Chinese capital.

Though there had been lively speculation that the Chinese might cap the day's festivities with an announcement that they had fired their first nuclear device, neither Peng nor Premier Liu Shao-chi even mentioned the word nuclear in anniversary addresses.

And the world is sure to march forward," Mayor Peng shouted in the day's major speech before 500,000 paraders began moving through the square.

"This is the law of historical development, which no one can alter. The people of the whole world should unite and persevere in struggle; our prospects are infinitely bright."

GOD HARVESTS
Peng said "this will be a year of pretty good harvests in China's history."

Business Notes

By ROGER E. SPEAR
Q: "I own 6 shares of Xerox. I have read recently that the way to accumulate a fortune is to save systematically and put money periodically into one stock. Would you advise purchasing 3 shares of Xerox semi-annually?" M.W.

A: I agree with you 100 per cent about saving systematically and investing periodically. I cannot, however, go along with the idea of putting money into only one stock—beyond a certain point.

I don't believe that anyone should invest more in any given situation than he can afford to lose. Diversification—spreading the risk—is one of the soundest investment principles and it should never be ignored.

Xerox is a fine growth stock, selling at one of the highest multiples on the Big Board—53 times my estimate of \$2 per share earnings for 1964.

Buy what you can afford and then turn to other good stocks as you find them. Xerox has also shown remarkable growth.

Q: "I have 100 shares of Halco Chemical. Would you suggest selling this stock? I would also like to invest in Treasury 4 1/2's. Could you tell me more about these bonds?" F.M.

A: I'm extremely sorry to tell you that your Halco Chemical shares are quoted at only 1/2, or 50¢ bid per share. At this level, it appears to me that the proceeds of a sale would be so small that you might as well hold on and hope for the best.

There are three issues of Treasury 4 1/2's due respectively in 1974, selling on a 4.19 per cent basis; 1985's callable in 1975, offered to yield 4.23 per cent to their call date; 1993's callable in 1987, on a 4.23 basis. So you figure the call date.

There are all exempt from state—but not Federal income taxes—and are traded actively by dealers and banks. They are subject to some fluctuations on money rates, but are relatively stable, offer the world's highest security, and I commend them to you.

Raises Issue of Succession

LBJ Said Eying Trip to Europe After Vote

WASHINGTON (AP)—President Johnson's reported plan to visit Europe after the presidential election raises once more the question of presidential succession.

Until Jan. 20, when a president and vice president—to be elected Nov. 3—are due to be sworn in, House Speaker John W. McCormack remains first in line of succession in the absence of a vice president.

But if Johnson wins the election, and then becomes incapacitated before Inauguration Day, who would become president?

It all depends on when the incapacity occurs.

NAME SUBSTITUTE
If a presidential nominee, or vice presidential nominee, dies before Election Day, the party's national committee would have the power to name a substitute. Each state would have the same number of votes as it had at the national convention.

If the nominee dies after the election but before the Electoral College meets—the first Monday after the second Wednesday in December—the electors would be free to vote for anyone regardless of the party's position.

If the president-designate dies during this period, there is no requirement that the vice president-elect be chosen.

If both the electors can vote for two persons.

VICE PRESIDENT-ELECT
If the president-elect dies after the Electoral College votes, the vice president-elect would become president on Inauguration Day.

If both die, the speaker of the House would become president.

Change Meeting Place for Senior Citizens

The first anniversary meeting of the Pontiac Senior Citizens Council, formerly scheduled to be held at Fisher Body UAW Local 60, will now be held in the GMTC Employees Federal Credit Union building, 939 Woodward, Pontiac.

The meeting, to be held Tuesday, 1-4 p.m. will start with a potluck dinner to be followed by entertainment and a talk by Leslie H. Hudson, mayor pro tem of Pontiac.

Markets, Business and Finance

Key Stocks Change Little

NEW YORK (AP)—The stock market put on a steady showing in early trading today.

Very little change was shown by most key stocks, but the preponderance lay in small plus signs.

The top steel makers nudged higher following hints of price increases.

General Motors lost another fraction as the strike against GM moved into its seventh day.

Opening prices included: GM, off 1/4 at 99 1/2 on 3,700, and AT&T, up 1/4 at 69 on 3,500.

Wednesday the Associated Press average of 60 stocks rose 1/2 to 326.4.

Prices were irregular on the American Stock Exchange.

AMERICAN TELEPHONE & ELECTRIC CO. edged to the upside following a report of record earnings.

General Motors lost another fraction as the strike against GM moved into its seventh day.
