

Bullets Fell Mayor of Garden City

Recording Blasts Starlings From One Tree to Another

By GEORGE T. TRUMBULL, JR.
(Press Starlings Editor)

Starlings took it on the lam last night—from one tree to another. But Parks and Recreation Dept. officials aren't discouraged. They believe their new Bird-E-Vict machine will do the trick. But some residents of the city wonder.

"What's worse," one asked, "those starlings or that blasted machine?"

That "blasted machine" is a small amplified magnetic tape recording drummed up by two Penn-

sylvania doctors which pours forth a racket of thousands of starlings in distress. Its purpose: Drive starlings from their roosts.

The starling inhabitants of Jessie, Cherokee, Menominee, Iroquois, Ottawa and nearby streets couldn't be fooled last night.

They took to the wing as the department truck, blaring the infernal racket, cruised along the streets. But they didn't go far. Usually just one block away was their goal.

Not only did the experiment move the birds, it brought residents to their doorsteps. "My gracious," one Cherokee resident exclaimed, "I thought a dog had been run over."

Other residents were ready to call the police. They stared with looks of bewilderment as the yellow truck passed them. Almost all plugged their ears. Kids kept a safe distance from the contraption.

David R. Ewalt, director of the city department, proclaimed the machine a success. "It disturbed them from their roosts, didn't it?" he asked spectators rather dubiously.

"Yeah!" remarked a man, "right over to a roost on my street."

Regardless, Ewalt, undaunted by the criticism, promised the "blasted machine" will be back tonight and Saturday.

Residents are puzzled. Who will suffer the most? They or the starlings.

WHAT A RACKET! — The usual quiet of a Thursday evening was shattered last night for residents of Jessie, Cherokee, Menominee, Iroquois, Ottawa and neighboring streets. Cause of the disturbance was the Parks and Recreation Dept.'s attempt to drive starlings from the city. In the top photo, William Aho, parks supervisor, braces himself as a recording blares, a deafening blast of thousands of starlings in distress. Youngsters on Jessie street (bottom photo) show their opinion of the racket.

Universities Will Probe Southeastern Michigan

Southeastern Michigan will soon be put under a microscope by government experts from the state's four major universities.

Plans for a gigantic research project to explore problems facing the area were revealed yesterday by Paul M. Reid, executive director of the Regional Planning Commission of the Detroit metropolitan area at a meeting of the Supervisors Inter-County Committee at Northwood Inn.

The committee consists of delegates from Oakland, Wayne, Macomb, Monroe, Washtenaw and St. Clair counties.

Representatives of Wayne State University, Michigan State University, the University of Detroit and the University of Michigan met with officials of the six counties and the Regional Planning Commission last weekend on the campus of MSU to map out a tentative program, Reid stated.

Although the major part of the project has still not been formulated, the project would attempt to develop accurate descriptions of social, economic, political and physical aspects of the southeastern section of the state.

Close attention would be given to aspects undergoing rapid change. Future trends would be indicated.

Wants and desires of the citizens (Continued on Page 2, Col. 3)

Earnings Zoom for Chrysler

First Half Net Exceeds
\$89 Million as Against
18 in '56 Period

DETROIT (AP) — Chrysler Corp. reports net earnings of \$89,740,757 for the first six months of 1957 compared with net of \$18,671,471 in the like period of last year.

The figures emphasize one of the most phenomenal comebacks in American automotive history.

The earnings for this year's January-June half were equal to \$16.28 per share; for the same period last year they amounted to \$2.14 per share.

Over-all dollar sales of the corporation and all its wholly-owned subsidiaries for the first six months of 1957 were \$2,061,047,392 compared with \$1,428,779,603 in the same period last year.

The statement noted that car and truck shipments from Chrysler plants in this year's first six months totaled 317,501 units compared with 392,501 units shipped during the first half of 1956.

Both dollar sales and net earnings for this year's first six months were the highest for any first half in the company's history.

A dividend of 75 cents per share payable Sept. 13 to stock of record Aug. 13, was declared by the board of directors. A similar dividend was paid on May 13 for the first quarter.

Violent Storm Lashes Japan; 253 Are Killed

800 Missing, Believe
Death Toll May Run
Into Thousands

TOKYO (AP) — A violent storm which in 24 hours dumped 29 inches of rain on low-lying, thickly populated areas of Japan's southernmost major island left at least 253 persons dead today and more than 800 missing or unaccounted for.

There were 106 known injured.

Relief workers in the area said the government casualty figures were conservative. They predicted the death toll would run into the thousands.

Tokyo newspaper correspondents radioed from the flood area on Kyushu Island that at least 1,000 persons died in the city of Isahaya, 15 miles northeast of Nagasaki, and that scores may have perished in Omura, a port a few miles away.

A reporter who flew over the area said Isahaya, a mountain-ringed city of 57,000, looked "like a new sea" with only a few high points and roofs visible above the water.

"It seemed like someone had dumped the contents of a lake on us from a giant barrel," said one Isahaya survivor who was dragged to safety from the debris-choked river that flooded and poured over the city.

Railroads were washed out or blocked by landslides. Highways were closed. Thousands of homes were washed away or flooded.

ONE OF WORST

The 29-inch rainfall was one of the worst rainstorms in Japan's recorded weather. The rain and accompanying violent lightning disrupted communications, leaving many areas isolated except for intermittent radio contact.

The storm began Thursday morning, let up for a few hours late in the day, and then—in the words of one survivor at Isahaya:

"Suddenly an angry bolt of lightning cut the sky. Pounding thunder followed. Then the rains came. Not just by buckets full. It seemed like someone had dumped the contents of a lake on us from a giant barrel."

As the rain increased, floodwaters began pouring through Isahaya. Yasujiro Tachikawa said he (Continued on Page 2, Col. 1)

Warmer Weather, Showers Promised

Showers will dominate the weather scene in this area, says the U. S. Weather Bureau.

Cloudy and somewhat warmer with widely scattered light showers is the prediction for tonight. The low will average 66 to 70 degrees.

Tomorrow will be partly cloudy and a little warmer with a high of 82 to 86. The outlook for Sunday is partly cloudy and warm with scattered thundershowers.

In downtown Pontiac the lowest temperature recorded preceding 8 a.m. was 65. At 1 p.m. the mercury registered 80.

Lions Train on Lemonade!

BIG SALE — When the Detroit Lions' rookies opened football training camp at Cranbrook yesterday they found a couple young business men setting up shop with a lemonade stand. The youngsters, Louis Heavenrich of Cranbrook and Bruce Coulter of Lone Pine Road, ring up a sale made to halfback Gordon Malloy and end Lamoine, Holland. Business was "fair" said the youngsters. (See sports page for football training camp stories.)

Auto Blast Also Claims Girl, Injures 7

Expert Kills Wife and Self

PITTSBURGH (AP) — An explosives expert blasted himself and his estranged wife to death in their parked auto last night. The explosion also claimed the life of an 8-year-old girl happily licking an ice cream bar.

Seven other passers-by were injured in the blast, which rocked the North Side business section about one mile from midtown.

The dead are Arthur DePew, 29, his wife Elaine, 18, and Linda Kraus.

Linda's 11-year-old sister Joan was hurled through a store window and suffered multiple cuts. The children's grandfather Frank Penza, 55, suffered a hip laceration. He and Joan were the only persons admitted to a hospital and officials said both are expected to recover.

The blast knocked pedestrians over and broke windows in a wide area.

DePew, a blaster for a construction firm on a sewage tunnel project here, parked his car just a few minutes before he met his wife in a prearranged reconciliation attempt. The couple talked a few minutes, entered the car and then came the blast.

Asst. Police Supt. Lawrence Maloney said, "There's no question about it — it's a clear case of murder and suicide."

The DePews were married only about six months ago. Police said DePew formerly had lived in Norwich, N.Y.

A week ago, Constable Louis Braundstein said, Mrs. DePew filed a very nervous and asked to see a surety of the peace charge about getting an attorney.

The constable quoted DePew as allegedly threatening to kill her, saying: "I'll get a divorce if that's the way she wants it — but this night," Braundstein said, "He was will not be the end of it."

Few Seconds May Bring \$200 for Weather Guess

How'd you like to carry off the honors for August's Hottest Moment of the Month contest?

Just a post card, pencil and a few seconds of your time can put you in line for the easiest money you've ever made.

Our savings bond award has been doubled, you know. August's top weather forecaster will receive \$200 in U. S. Savings Bonds, instead of the usual \$100.

Why not send us your forecast of the day, hour, and minute (a.m. or p.m.) of August's hottest moment, tonight?

Don't bother to name the temperature.

Deadline is 5:30 p.m. Wednesday, July 31. That address again is:

Weather Man
Pontiac Press
P. O. Box 40

Incidentally, you college students might lend your forecasting talents. Fall books and tuition fees burdens certainly would be lightened with an extra \$200 on hand.

Doctors Giving James Tierney a 50-50 Chance

Police Hold Contractor
Identified as Gunman
in City Hall Shooting

DETROIT (AP) — Blazing gunfire cut down the mayor of suburban Garden City in his city hall last night. Critically wounded, he was given only a 50-50 chance to live today.

Police held a wealthy Garden City contractor who had been feuding with the mayor since 1946 for investigation in the shooting.

Shot six times while some 50 city officials and spectators stood by too horrified to act, was Mayor James Tierney, 52. City Attorney Russell L. Swarthout gashed his hand on sights of the assailant's pistol while fighting off the gunman.

Tierney was hit by 22 pistol slugs in the chest, abdomen and groin.

Police Chief Arthur Nagle identified the gunman as Lester Ellerhorst, 52, board chairman of the Gypsum Constructors, Inc., of Garden City. He was held in a neighboring jail because Nagle feared possible violence against him.

Nagle said the shooting apparently was an outgrowth of Wednesday night's City Council meeting where Swarthout accused Ellerhorst's firm of shoddy work on the suburb's new police station and said he would sue.

Ellerhorst was not present. He

MAYOR JAMES TIERNEY

read an account of Council action in a newspaper.

But Ellerhorst showed up at last night's City Planning Commission meeting and sat quietly in the rear of the City Council room until a recess was taken.

CHANGED HIS MIND

Nagle said Ellerhorst apparently intended to shoot Swarthout, but changed his mind. While Tierney and Swarthout were standing, talking, Ellerhorst pushed his way toward them, grabbed the city attorney and punched him.

Shouting, "You've called me a thief for the last time, I never stole anything in my life," Nagle said Ellerhorst drew a pistol and aimed pointblank at Swarthout.

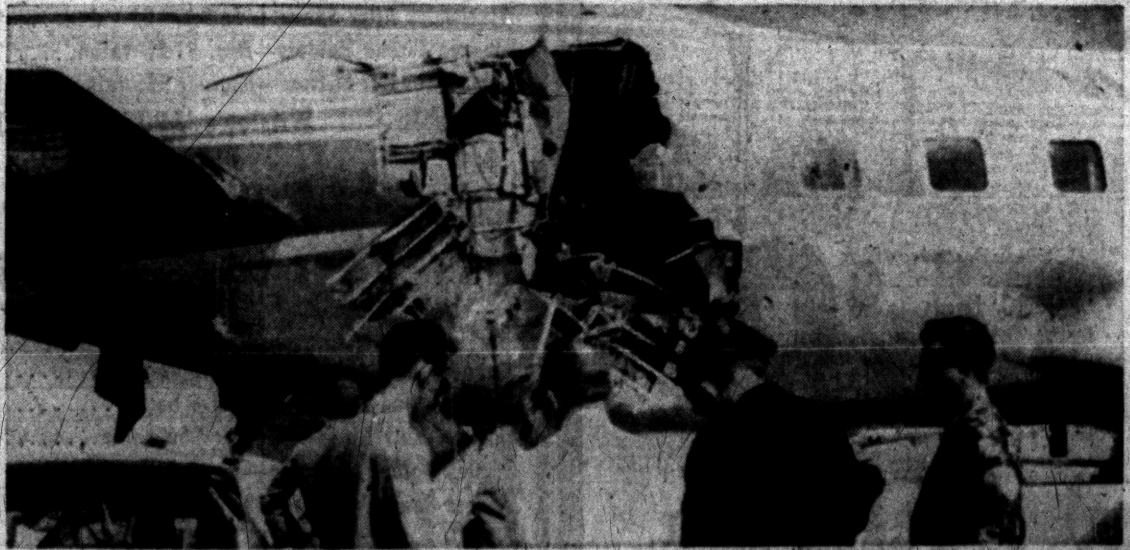

"He fired right at me," Swarthout said, "but it missed. Then he was shooting right into Jim at point blank range."

Swarthout and Planning Commissioner Paul Champagnon grappled with Ellerhorst and twisted the .22 caliber revolver from his grip.

The stunned crowd stood back and watched as Ellerhorst walked City.

Inspect Hole Blown in Side of Airliner

AT AIR FORCE BASE — Newsmen interview Western Airline officials in front of plane in which a mysterious explosion ripped a hole while the craft was in flight. The plane landed safely at the George Air Force Base in California. One passenger, who was in the washroom at the time of the blast, is missing.

12,985 Enter — No Winner \$1,800 Bulges Pot-O-Gold

Although not one of the 12,985 entries won the big money that's overflowing old Pot-O-Gold, every one gains, because another \$100 is added to the pot. That brings the total to \$1,800 for puzzle No. 60, and you still have until Tuesday to submit your entry.

To help you decide which of the answers are right in future puzzles, take a look at the explanations given for the right answers to last week's puzzle. You'll find them on page 13. This week's puzzle is on page 25.

ONE COLOR

New Auto Club Building Begun

Break Ground Today for Structure to House Pontiac Office

Automobile Club of Michigan today broke ground for its new \$125,000 Pontiac division office building on the northwest corner of Williams and Pike streets.

The one-story, face brick building, with its crab orchard stone front, will house offices of both the Auto Club and the Detroit Automobile Inter-Insurance Exchange. It is expected to be ready for occupancy by Dec. 1.

Taking part in ground-breaking ceremonies were Mayor William W. Donaldson, Auto Club President Charles L. Wilson and members of his board of directors, E. S. Matheson, Club general manager, and Robert G. Jamieson, Exchange general manager.

Designed by the architectural firm of Arthur Greig and Associates, the new building, with 10,900 square feet of floor space, will feature ground floor offices, a full basement, complete air conditioning, acoustic ceilings and tile floors.

A depressed parking lot on the north and west sides of the building will offer space for 45 cars. Builder is Frank Stewart and Son of Pontiac.

Staffed by 33 employees and managed by Arthur Bogue, the office will serve more than 18,000 Auto Club members in the Pontiac area.

Formed as the Oakland County Automobile Club, the Pontiac office joined with other small clubs throughout the state in 1927 to form the Auto Club of Michigan.

Offices were formerly in the Pontiac Hotel until moving into their present offices at 63 N. Perry in 1947.

253 Reported Killed as Storm Rips Japan

(Continued From Page One)

watched "the dim outlines of broken houses and buses drifting by like a procession of ghosts."

Chikara Imasato, 25, the first evacuee brought to Nagasaki, said "I lived through hell. The flood reached the ceilings of my house in a few moments. Cascading rain mingled with deafening thunder and the screams of the dying. I don't know how I managed to swim in the swirling waters."

A fisherman picked up Yoko Komori, 20, clinging to a piece of lumber at sea 15 miles from shore. "I don't remember anything except that the water snatched me away all of a sudden," she told rescuers.

The Japanese navy and coast guard sent 19 fast patrol boats and landing vessels to the area to speed rescue work.

The U.S. Navy sent a helicopter to Kyushu and the U.S. Air Force ordered two more to the flood area.

Seriously Injures Foot in Mower Accident

Carl Schaefer, 63, of 242 Anders St., Waterford Township, was mowing his lawn last night when he accidentally ran the electric rotary mower over his right foot.

He was taken to Pontiac General Hospital with serious injury to two toes and multiple lacerations of the foot. His condition was reported good today.

Restrict Reds to Tokyo

TOKYO (AP)—The Japanese government has restricted travel by Soviet diplomats in Japan to a radius 25 miles from the heart of Tokyo in retaliation for similar curbs put on Japanese in Moscow.

Child Survives Despite Needle Lodged in Brain

HOBOKEN, N. J.—Mariam Montanez is as happy as any other 16-month-old toddler in her neighborhood. No one would suspect that the child has a sewing needle deeply imbedded in her brain, as shown by the accompanying X-ray photograph.

The needle probably will remain there all Mariam's life, doctors say because an operation to remove it might be fatal. It was a year ago that a picture frame fell on the child. Doctors at that time predicted that the needle, which had been stuck in the frame, would not interfere with her life. So far they've been right.

Garden City Mayor Felled by 6 Bullets

(Continued From Page One)

down a back stairway from the Council chamber to his car.

He drove to the home of a friend and called police.

Ellerhorst's differences with Tierney date to 1946, when the two opposed each other in a non-partisan race for Council. Ellerhorst lost. Mutual friends said resentment between the two has smoldered through the years.

At the Wednesday night Council meeting, Swarthout said Ellerhorst's company used inferior materials and deviated from architectural specifications. Swarthout also accused the firm, without mentioning Ellerhorst's name, of overcharging the city \$45,000 on the \$108,000 structure.

A team of eight doctors and three nurses worked four hours today seeking to save the mayor's life. Dr. Douglas McDowell, assistant superintendent at the hospital, said he was struck by six bullets.

Ellerhorst, estimated to be worth a half million dollars, is the father of five children, four of them married.

Tierney, a native of Jackson, also has five children. Last May he was convicted of assault and battery and fined \$25 after a scuffle with the city's justice of the peace.

Confidential to 60 Show People in Libel Defense

LOS ANGELES (AP)—The defense says it will call 60 or more Hollywood personalities as witnesses in the criminal libel trial, scheduled to start Monday, of two alleged representatives of Confidential and Whisper magazines.

The prosecution quickly labeled the defense move "window dressing."

Defense Attorney Arthur J. Crowley said yesterday that subpoenas have been served so far on Gary Cooper, Scott Brady, Walter Pidgeon, Corinne Calvet, Rory Calhoun, Lana Turner, Sonny Tufts, Buddy Baer, producer Paul Gregory, writer Louella O. Parsons and Josephine Dillon, Clark Gable's first wife.

Crowley said the calling of such witnesses would be "to establish the truth of various articles published in the two magazines."

The actual defendants in this phase of the case are Fred and Marjorie Meade and their company, Hollywood Research, Inc., identified as Pacific Coast representatives of the magazines.

Man Pulled Through Hole

Investigators Seek Cause of Explosion in Airliner

VICTORVILLE, Calif. (AP)—Investigators searched the forbidding Mojave Desert today for clues to an aerial mystery.

What ripped the jagged hole through which a heavily insured passenger vanished from an airliner?

The airline and government officials said they hoped that if they found the passenger's body and plane fragments they might solve the puzzle.

Missing was S. F. Binstock, 62, a retired North Hollywood, Calif. jeweler, last seen when he entered the plane's washroom early yesterday.

He had boarded the Los Angeles bound plane earlier at Las Vegas, Nev. Binstock was insured for \$125,000.

Other passengers on Western Airlines twin-engine Convair were frightened by a loud noise about 45 minutes later, as the plane cruised at 10,000 feet over the California desert.

One man said it sounded like an explosion—"A hell of a noise." The aircraft safely made an emergency landing at George Air Force Base, near here. The FBI and other agencies quickly stepped in.

What really happened? Officials frankly don't know. Not yet. Some, who declined to be quoted, offered this speculation:

1. It was an explosive decomposition of the plane's pressurized cabin, possibly caused by bullets fired through the fuselage.
2. Structural failure might have opened up the lavatory wall, spewing Binstock into the night.
3. It was a blast from a detonated device.

Civil Aeronautics Board investigators today began putting together the plane fragments found in the rugged old mountains about 50 miles northwest of here. It was in this same general area Air Force helicopters searched for Binstock's body.

"When we recover the body and piece together the wreckage we should have a good idea what caused the explosion," a government man said.

On Wednesday, before he flew from southern California to Las Vegas, Binstock purchased two \$62,500 insurance policies, naming his wife beneficiary. He entered the lavatory shortly after the Convair took off for the return trip from Las Vegas and was never seen again.

Novi Township Group Starts Incorporation

A committee of five Novi Township business men and residents took the first step last night toward the incorporation of the township as a chartered village. The group set Aug. 1 for a second public meeting, to be held in the Community Building at Novi.

Universities under the plan would develop an adult extension program concerning local problems that would be available on a voluntary basis to any group of citizens.

This would bring research findings to the attention of the public and facilitate discussion on the implications of the group's findings for community action.

Rossellini Shuns Press Comments at Film Confab

NEW DELHI (AP)—Italian movie director Roberto Rossellini conferred with Indian film executives here today but refused to see reporters.

Rossellini, whose name has been linked romantically with a married Indian script writer, Sonali Das Gupta, flew here Wednesday night. Sonali, who has been working with Rossellini on documentary films he is making for the Indian government, was last reported in Bombay.

All reporters who called at Rossellini's hotel were told he was out.

An Italian Embassy spokesman said Rossellini is here on film business and that he did not know how long he would remain.

Boy, 6, Loses Cancer Battle

Richard E. Ramsey Jr. dies after two-year fight against disease.

WALLED LAKE (AP)—Little Richard E. (Ricky) Ramsey Jr., 6, died in his home at 1202 Sigma Dr. today, after a two-year battle with cancer.

Ricky and his parents, Richard E. and Betty Cutler Ramsey, along with helpful neighbors and friends, had fought desperately to ward off the consuming disease.

Last year, in November, Ricky had been taken to a New York hospital where experts gave special treatment, which they said increased Ricky's life expectancy from two months to a year. Doctors said the boy had two types of cancer in his body, one of them leukemia.

There will be a private service for Ricky Saturday at the Richardson-Bird Funeral Home. The Rev. Louis Toller will officiate and his body will be laid to rest in Oakland Hills Memorial Gardens.

Surviving besides his parents are his sister, Christine at home, and his grandparents Mr. and Mrs. Arthur Ramsey of Wixom and Mr. and Mrs. Russell Cutler of Grand Blanc.

The parents have asked that memorial donations be made to the American Cancer Society.

Tunisia Takes Place as Republic Today

TUNIS (INS)—Tunisia took its place among Africa's new republics today following a parliamentary revolution that ended the 252-year reign of the Beys of Tunis.

The Constituent Assembly, which yesterday deposed the monarchy, unanimously elected Habib Bourguiba president. He has been premier for the 16 months since Tunisia gained its independence from France.

The Bey, 76-year-old Sidi Mohammed Lamine, had been practically without power since the French, who put him on the throne in 1953, withdrew from Tunisia. So the change from monarchy to republic is expected to have little effect on Tunisia's current policies.

Committee Puts Final Ax to Hell's Canyon Bill

WASHINGTON (INS)—The House Interior Committee voted today to postpone consideration of a bill to build a high federal dam at Hell's Canyon on the Snake River in Idaho.

The vote means that the committee will retain jurisdiction over Hell's Canyon proposals until Feb. 1, 1958, and no other committee can consider the project.

About 150 cities of 10,000 or more population lie in the Ohio valley.

Death of School Bill Laid to Ike

But Republican Says President 'Did All He Could' for Measure

WASHINGTON (AP)—Rep. Augustine B. Kelley (D-Pa.), author of the 1½-billion-dollar school aid bill killed by the House, blamed President Eisenhower today for its defeat.

On the other side, Rep. Frelinghuysen (R-N.J.), a strong backer of the bill, said, "I think the President did all he reasonably could."

Eisenhower has made a federal school aid program a major plank in his legislative platform for several years. But he let it be known earlier this week he was "not entirely satisfied" with the bill the House was considering, although he would sign the measure if Congress passed it.

By a 208-203 roll call vote, the House adopted a motion by Rep. Howard W. Smith (D-Va.) to strike out the enacting clause of the bill—in effect, kill it.

That vote confirmed an earlier tentative vote, 153-126, to kill the bill.

The House sealed the measure's doom earlier by attaching an anti-segregation amendment offered by Rep. Wainwright (R-N.Y.). This came by a 136-105 standing vote. It would have denied the proposed federal aid to any school district operating segregated schools in violation of the Supreme Court's integration ruling.

Here is how Michigan congressmen voted on the school aid bill: No Michigan Democrats voted for the motion to kill the measure. Republicans for: Bentley, Cederberg, Hoffman, Johansen, Meader. Democrats against: Diggs, Dingle, Griffiths, Lesinski, Machrowicz, Rabaut.

Republicans against: Bennett, Broomfield, Chamberlain, Ford, Griffin, McIntosh.

Six congressmen were absent or not voting.

Condition Now Poor

Kathleen Carringer, 29-year-old nurse aide who was injured July 18 when her auto collided with a train, is reported in poor condition today at Pontiac General Hospital. When first admitted to the hospital, her condition was described as fair.

The Day in Birmingham Discuss Parcel of Land for Training of Drivers

BIRMINGHAM (AP)—The driver training course sponsored by the Board of Education came up for broad discussion by city commissioners this week.

The discussion centered around a parcel of land which the school desires as a practice driving area. The question of expenses brought forth a commission suggestion that the land approximately six acres on the west Lincoln-Cranbrook area be leased to the school board for the sum of \$1 per year.

It was also suggested that in view of this fee the Board of Education would be expected to assume all maintenance expenses. This would include the problem of snow removal and surface repairs. Commissioners also pointed out that presumably some parts of the program would need to be conducted on city streets in order that learning drivers might have supervised instruction in driving in traffic.

The vacation of an alley extending west from Edgewood avenue between Bird avenue and 14 Mile road has been approved. There will, however, be an easement reversion to utility crews may enter the property to make any necessary repairs.

An area resident expressed the thanks of neighbors for the vacation saying that this will give them an opportunity to improve the property and have a more slightly area at the rear of their homes.

Elaine Jones and Charles Harris have been named to represent the Birmingham YMCA Young Adults at the National YMCA Young Adult assembly at Blue Ridge, N. C. Monday through August 2.

They will be joined by 22 other Michigan representatives who are traveling through the Smoky

Police Capture Gun Fugitive

Bullet Wounds Stop Man Who Eluded Law More Than a Week

NEW YORK (AP)—George Larned, the fugitive gunman who had been sought by Long Island police for more than a week, was critically wounded and captured here today in a running gun battle with two policemen.

The desperate fugitive, who had been shot in the back in a gun fight with Long Island police 16 days ago, was plugged today in the chest and wrist. He was taken to Knickerbocker Hospital.

Larned, 32—called "The Eel" because of the way he had eluded police dragnets—was captured in a three-block chase which began as he fled after holding up a restaurant at 103rd Street and Broadway, Manhattan, at 4:45 a.m. Four times during the chase Larned wheeled around and aimed his gun at the two pursuing policemen. He fired twice without effect, and it misfired twice, police said.

Larned was hit in the back by a police bullet July 10 when he fought a gun duel with police after being surprised in a house burglary at Baldwin on Long Island.

So far as is known he had no medical treatment for the wound. Posses of hundreds of heavily armed state troopers, local police, sheriffs' deputies and district attorney's men combed the countryside of Suffolk County on Long Island. Bloodhounds were used, but they lost the scent.

Appeals to Larned to give himself up were carried in newspapers, over radio and television, and broadcast from an Air Force helicopter.

They urged him to give up for the sake of his pregnant wife, his unborn child and his 75-year-old mother.

Hawaii's Governor King Resigns Post

HONOLULU (AP)—Hawaii's Republican governor, Samuel Wilder King, has resigned "effective at the pleasure of the President."

King announced his resignation yesterday. His first four-year term expired in February. The administration failed to reappoint him, although the 70-year-old veteran of Hawaiian politics fought hard for it. He refused to elaborate on the bare statement of his resignation.

The 1952 appointment of King, a Taft Republican, was regarded as a gesture toward party harmony by the new Eisenhower administration.

Last night the FBI was reported making the routine check which customarily precedes a federal appointment into the character and court conduct of William F. Quinn, a local Republican lawyer. Quinn, 38, now is in Washington, where he was invited by Interior Department officials who have been studying the question of King's successor.

Waterford Firemen Extinguish Car Blaze

Waterford Township firemen extinguished a car blaze this morning that had apparently been smoldering all night.

The car's owner, Paul Davis, of 511 Crescent Lake Rd., told the firemen that the fire had probably been started by a cigarette after he left the car parked in his yard last night.

Damages were estimated at \$150 which was not covered by fire insurance.

Girl's Car Hits Tree When Forced Off Road

Marilyn Arnett, 17, of 2881 Mann Rd., told sheriff's deputies last night that her car had been forced off Clintonville road just north of Maybee road, Independence Township, by an unidentified car. Her car struck a tree.

She was treated for minor injuries at St. Joseph Mercy Hospital and released.

CHECKING COMMITTEES.—Mrs. James Taylor of 254 S. Johnson Ave., (left to right) Mrs. James Overton of 274 Rockwell St., Mrs. Luella Fultz of 88 Crawford St. and Mrs. Luther Coleman of 175 Bassett St. are shown going over arrangements for the annual Mother-Daughter Banquet to be held at 7:30 p. m. Saturday in Trinity Baptist Church. Mothers and daughters of the community have been invited.

Road Plans Go to Communities

Inter-County Highway Group Recommends Future Building

The long-range highway plans of the Inter-County Highway Commission will be submitted to local communities for study and suggestions, John McKie, executive secretary of the commission said yesterday.

The preliminary plans of the commission were briefly outlined yesterday at a meeting of the Supervisors Inter-County Committee.

The Inter-County Highway Commission is made up of road commission members of Oakland, Wayne, Macomb, Washtenaw, Monroe and St. Clair counties.

The road plan calls for construction of some new roads and for

widening of all or parts of existing highways.

Although the commission is empowered to draw up recommendations, each county and its communities involved must pass on the proposed roads.

Basically, the commission hopes by outlining long-range highways plans to eliminate excessive costs in later years to secure necessary rights of way.

Reappoint Whitlow Head of Osteopathic Hospital

Harry H. Whitlow has been re-appointed to a five-year term as administrator of Pontiac Osteopathic Hospital, the Board of Incorporators of the hospital announced today.

Whitlow, 52, of Wyandotte, has directed the Perry street hospital (the former Hotel Pontiac) since its opening in February of last year. He also headed the old Auburn Avenue hospital since February of 1953.

Seven members of the Board of Incorporators passed a resolution praising Whitlow for his service to the hospital.

Governor Asks Prayers for Rain

Massachusetts Drought Continues, With Curbs on Water Ahead

BOSTON (AP)—Residents of Massachusetts were asked today to pray for rain in a proclamation by Gov. Foster Furcolo, who described a two-month drought as "increasing in alarming proportions."

At the same time, the Most Rev. Richard J. Cushing, Catholic archbishop of Boston, directed priests in his jurisdiction to recite a prayer for rain in their daily Masses. With no appreciable rain forecast, drastic water restrictions were expected to be imposed on 2½ million persons in the 27 cities and towns in metropolitan Boston as the only means of protecting public health and safety.

The curbs would stop car washing, the filling of swimming pools and limit all forms of outdoor use of water.

The State Department of Public Health has declared a water shortage emergency in 32 other Bay State cities and towns. This permits local water boards to shut off the supply of persons who disregard conservative directives.

Gov. Furcolo also directed the extension of rain-making operations to 11 drought-stricken sectors. At present cloud-seeding apparatus is set up only in Bristol and Plymouth counties.

Proportion of persons 65 years old or older was 8.2 per cent in 1950.

Pays for Headache After Selling Relief

LEXINGTON, Ky. (AP)—Two young men walked into a drugstore yesterday, ordered "something for a headache," then gave

the drugstore a headache instead. One struck the druggist, Edward Hutchinson, over the head with a wrench and the pair made off with \$30 from the cash register. Hutchinson was treated for a cut on his forehead.

OVERWEIGHT?

NEW SWEDISH WAY TO

BE SLIM

WITHOUT HUNGER

LARSON'S NEW CHOCOLATE SWEDISH MILK DIET

It's Fortified! If you are overweight from overeating... if you want to reduce without hunger... quickly, easily, safely... then try the new, fortified, chocolate flavored Larson's Swedish Milk Diet.

Diet Only 3 Days a Week. Larson's is so easy. Four days a week you don't diet at all... you eat your normal meals. Then, on Monday, Wednesday and Friday... you mix new, chocolate flavored Larson's S.M.D. with milk and drink... that's all there is to it. You take off pounds and inches faster than you ever dreamed possible. Your scale becomes your friend.

Reduce Without Hunger. Larson's is not a "fad" diet; but one of the world's healthiest reducers. There's no underfeeding. This new chocolate flavored, creamy milk diet is a complete fortified food that supplies full daily requirements of minerals, necessary vitamins, calcium, protein, carbohydrates, iron, phosphorus and energy elements. Safe to use, contains no drugs.

Extra Filling. Larson's fortified S.M.D. is tasty... just like a milk shake! And it's extra filling with hunger-satisfying bulk. The new Larson's S.M.D. is so strongly fortified it actually is double strength! You start losing pounds and inches the very first day... it's guaranteed! So don't be overweight... be slim again. And for really easy reducing... start the Swedish Milk Diet today.

Slate Comedy, 'Boy Friend,' at Farmington

"The Boy Friend," a musical comedy satirizing the roaring twenties, will be the next presentation of Music Circle Theater in Farmington Township, July 30-Aug. 4. Sally Knapp will star as the heroine, opposite Phil Greene, with Jim Moore, Ruth Webb and

Greta Aldine featured. Judy Gayll, favorite of Music Circle followers, will portray Dulcie. The theater is located on the grounds of Botsford Inn, Grand River at 8 Mile Roads.

Largest U. S. post office serves Manhattan and the Bronx, two of New York's five boroughs. It earns one-tenth of the total U. S. postal revenue and handles 17 million pieces daily.

Poor Centavo — It Won't Buy a Thing in Mexico

MEXICO CITY (AP)—The soaring cost of living and devaluation of the peso have put the centavo out of business. It won't buy a thing. A Mexican peso is 100 centavos. These centavos are made of copper the size of shirt buttons. Each is worth less than a tenth of a U. S. penny.

The government coined centavos

to accommodate stores wanting to make change for articles sold at 1.98 pesos. Today few stores handle the centavo. To make change they give small squares of chewing gum. Nobody complains.

Red Skelton rode in a locomotive underneath N. Y. C. recently, with the conductor explaining, "Now we're underneath 42nd St. . . Now we're underneath Park Ave. . . Now we're under Grand Central Station. . . 'I tell you,' said Red, 'this is the only way to see New York!'" —Earl Wilson

Million Trucks Built

CHICAGO — The United States produced 1,107,796 trucks and 4,206 motor buses in 1956 — 45 per cent of the world output. The wholesale value of trucks and buses built in the United States and sold dur-

ing the year exceeded two billion dollars.

In the general election in Denmark in 1957, the Communists polled only 72,312 votes opposed to a vote cast of 2,137,545 for all opposi-

Corn Tops Cool Output

LINCOLN, Neb.—American corn fields annually produce more wealth than the nation's metal mines or coal fields. Farmers in three states — Iowa, Nebraska,

and Kansas — produce almost the country's total corn crop.

Nantucket Island, Mass., has a population of 3,500 people. Nevertheless, there are 4,100 bicycles on the island. Any questions?

Elm Disease Up Slightly in City

Ewalt Urges Residents to Have Trees Sprayed at First Symptom

A slight increase in Dutch Elm disease in Pontiac has been discovered this summer, according to David R. Ewalt, director of the Parks and Recreation Dept.

He said 13 specimens from elm on both city and private lots were sent to Michigan State University this week for testing.

"This doesn't necessarily mean that all these will come back positive," Ewalt said, "but might mean that quite a few more trees will have to come down."

Ewalt urged residents to have all elms sprayed. If leaves are turning yellow at the top, the first symptom of the disease, submit a six-inch branch specimen to the department to be sent to MSU for testing, he said.

"This summer forestry personnel in the city have removed 12 diseased elms. Last year 150 elms were lost to

the disease caused by a beetle which carries an infectious fungus into the tree and clogs up the water and food vessels of the tree. To date there is no known cure for the disease, forestry experts say.

After 41 Years Weds Spouse's Best Man

HUTCHINSON, Kan. (AP) — Mrs. Marion S. Hedrick and E. W. Stillwell, who was best man at her first wedding 41 years ago, were married at Grace Episcopal church last night.

Mrs. Hedrick, 67, is the widow of Carl Hedrick, who was president of the Hutchinson State Bank when he was killed in an automobile accident about three years ago. Stillwell, 76, is president of the Commercial National Bank in Kansas City, Kan. His first wife died last September.

Inforce Boating Rules

DETROIT (AP) — A drive on violators of boating safety rules on the Detroit River has been launched by Detroit harbor master police. Insp. Oliver Beresford said, "There have been too many drownings, collisions and general irresponsibility." Tickets for safety violations could bring a \$500 fine and 90 days in jail.

Sharp Polio Drop Creates New Hospital Problem

GRAND RAPIDS (AP) — A sharp drop in polio cases since introduction of Salk vaccine has created a new hospital problem in Grand Rapids.

Take for instance, Mary Free Bed Children's Hospital, which has geared itself to handle an influx of young polio patients starting about July of each year.

In the past, youngsters filled an entire section of the hospital. This year the polio ward is empty except for a few "holdover" cases.

Meanwhile, Mary Free Bed is using its polio patient room to expand three other programs:

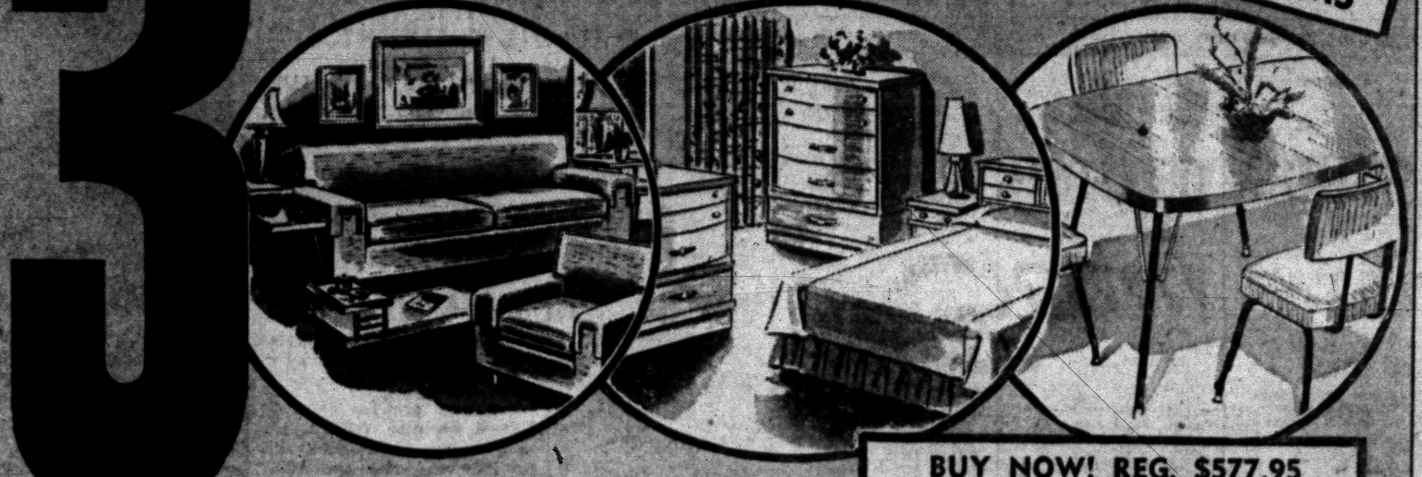

- 1) Helping young adult polio sufferers rehabilitate themselves.
- 2) Expanding cerebral palsy treatment and setting up a speech therapy program.
- 3) Helping child amputees learn to use artificial limbs.

"We're also taking in and caring for more rheumatic fever patients than ever, and many children who had plastic surgery because of burns are being sent here for therapy," said Nellie Koster, hospital director.
