

GMC Truck Will Build 682 Buses for NY

A contract for 682 city buses has been awarded to GMC Truck & Coach Division by the New York City Transit Authority, Martin J. Caserio, a vice president of General Motors and divisional general manager, announced today.

He said this contract, amount-

ing to more than \$23 million is the largest bus order ever received by the division.

"We are pleased to have our product merit the confidence of the New York City Transit Authority and to participate in its transportation plans," Caserio commented

after New York City Board of Estimates approved the contract award.

The buses will all be equipped with air conditioning. "This is a major step in the city's long-range plan to modernize our transportation system," Mayor John Lindsay was quoted as saying.

"The Transit Authority is to be congratulated for making possible this innovation."

TO BE BUILT HERE

All of the vehicles will be built here in GMC Truck & Coach Division's manufacturing complex. Production schedules call for deliveries to start late

this year, with all buses to be in service before next summer.

The model TDH530 transit coaches will have 42 seats.

Features include outside illuminated advertising signs stretching the length of the roof, wide picture windows, fluorescent lighting, stainless steel handgrips and diesel engines

that have a high degree of combustion efficiency.

Besides air conditioning, they will also be equipped for two-way radios.

Wiring and public address speakers will be installed here along with brackets to which received-transmitters may be

fixed for the two-way radio and public address systems.

Four hundred and eighty of the buses will be assigned to the Manhattan and Bronx Surface Transit Operating Authority, a subsidiary of the Transit Authority. The remainder will go directly into the Transit Authority's fleet.

Fear Tragedy in Haiti

Savage Inez Rips Cuba

MIAMI, Fla. (AP) — Hurricane Inez fell on Cuba with savage fury today and in her gray, soggy wake a communications blackout may have concealed a great human tragedy in Haiti's "Valley of Death."

The known death toll of the storm had reached 88 as Inez attacked Cuba's Oriente Province with a sustained blow of 138 miles an hour and possibly with gusts much more powerful than that.

"I don't see how Haiti could

have escaped a disaster," said Gordon Dunn, chief of the Miami Hurricane Center.

Reports dribbling in from the Barahona peninsula of the Dominican Republic, where fallen communications lines also had hidden the fate of its residents, said at least 55 were dead and almost all crops were destroyed.

Thirty-three were known to have been killed in the French islands of Guadeloupe, where Inez made her first landfall.

French authorities said it would take at least three months to repair damage and they asked for emergency aid as a bread shortage developed.

Weakened in her battle with the mountains of Haiti and the Dominican Republic, Inez regained much of her ferocity in the water crossing to Cuba.

Guantanamo City reported to the U.S. Weather Bureau that it was taking sustained winds of 138 miles. Normally,

peak gusts are considerably stronger than sustained velocities.

Fidel Castro's struggling economy faced an agricultural disaster as Inez moved into the ripening tobacco fields. Giant tides swept ashore as the storm screamed inland.

As dazed victims of the great hurricane poked through the rubble of thousands of homes on Caribbean islands, Floridians breathed more easily.

CURVING NORTH

Dunn said the storm was curving toward the north, on a track that would keep it clear of the U.S. mainland.

But the switch brought the Bahamas, a British island chain paralleling the Florida coast, into an area of immediate peril. Residents were warned to begin preparing for the storm.

Forecasters were unable to issue an "all clear" for Florida but Dunn said: "We have real cause to be optimistic. The chance that the hurricane will seriously affect the state appears remote at this time."

Kelley to Fight Gambling Bid

Fears Side Effects of Legalization

FRASER (UPI) — Atty. Gen. Frank J. Kelley said yesterday he would battle any attempt to legalize gambling in Michigan because he is convinced "questionable elements" are in control of the bulk of legalized gambling in Nevada.

Speaking to the membership of the Christ Methodist Church in the Macomb County Community of Fraser, Kelley said he had no "doubt" the same elements would move in to exercise similar control if gambling were legalized elsewhere in the country.

"We have enough of a fight on our hands against organized crime and against corruption without inviting them to ply their wares within a framework of legality and state approval," Kelley said.

He said he would be "unilaterally opposed" to either extending permissive betting to dog racing or to legalizing gambling — both of which have been proposed as solutions to what he called a "desperate search" for new tax revenues.

"The simple fact is that in the one state where gambling has been legalized generally, that is Nevada, the crime rate exceeds that of Michigan and almost every year exceeds that of every other state in the union," Kelley said.

Kelley said his opposition stemmed from the policy and law enforcement questions involved, although he said he was "well aware that to many there are moral and religious objections to those proposals."

Russian N-Test

UPPSALA, Sweden (AP) — A new Soviet underground nuclear test explosion in the Semipalatinsk area was recorded by the Seismological Institute here this morning.

L'I'ONES

"I know it's your electric broom, Mom, but I just gotta have a horse."

Bipartisan OK on Katzenbach

Approved by Senate for State Dept. Post

WASHINGTON (AP) — With the praise of both Republican and Democratic leaders, the Senate approved today Nicholas Katzenbach as No. 2 man in the State Department.

Now attorney general, Katzenbach becomes undersecretary of state, replacing George W. Ball, whose resignation becomes effective at midnight.

The Senate confirmed the nomination by voice vote.

The only announced opposition came from Sen. Strom Thurmond, R-S.C., who said word that he would have voted against confirmation.

Senate Democratic leader Mike Mansfield said the appointment of Katzenbach was "not only an excellent one but portends good for the country in the months ahead."

Republican leader Everett M. Dirksen of Illinois called Katzenbach a man of "extraordinary perception."

Dirksen said that Thurmond wanted himself announced as opposing the approval but gave no reason for Thurmond's position.

Earlier, Sen. Eugene J. McCarthy, D-Minn., had cleared the way for Senate action.

RICHARD D. KUHN

Vote Machine Check Denied by State Unit

The State Board of Canvassers yesterday denied the request of Richard D. Kuhn, defeated Republican candidate for Congress from the 19th District, for an expert to examine voting machines in the district.

The Pontiac attorney and businessman appealed to the board after a recount earlier this month revealed no substantial change in the Aug. 2 voting for him and the GOP winner, Jack H. McDonald.

Kuhn's petition contained several charges of voting machine and election irregularities in McDonald's home area of Redford Township.

The four-member board of canvassers rejected Kuhn's petition after hearing a report from Bernard Apol, assistant elections director, who said a recount had been taken and there were no changes in the outcome of the race.

Board member Alfred Fortino, after hearing Apol's report, said there appeared "nothing on the face of this petition to indicate the remotest possibility of fraud."

Holly Star Scores Again Over N. Viet

SAIGON (AP) — U.S. Air Force 1st Lt. Karl W. Richter, 23, son of Mr. and Mrs. Ludwig Richter, 11610 Dixie, is now a double threat man in the air war over North Viet Nam.

Richter, who starred on the football field for Holly High School, was credited today with leading a flight of F-105 Thunderchiefs which damaged three aircraft gun sites northwest of Dong Hoi in the Communist North yesterday.

Richter was one of two F-105 pilots who shot down two MIG 17s Sept. 11.

Pontiac Press Photo

READY FOR ACTION—Getting ready to launch the GM Industrial Campaign for the Pontiac Area Motor Division yesterday were chairman of the four units (from left), Edward F. Suda, manager of the Buick Warehouse; Norman F. Trost, factory manager of GMC Truck & Coach Division; John F.

Blamy, general manufacturing manager of Pontiac Motor Division; and Robert E. Schaffer, supervisor of employment at the Fisher Body plant. The division's goal of \$694,064 was announced at a kickoff luncheon at Bedell's Restaurant.

FBI Escapes Fund Cutback

Committee Clears Omnibus Money Bill

WASHINGTON (AP) — The Federal Bureau of Investigation was one of the few big agencies that escaped fund reductions in a \$234.6 million budget cut recommended today by the House Appropriations Committee in an omnibus money bill.

The \$2.36-billion measure provides financing for the State, Justice and Commerce departments and 13 smaller agencies for the fiscal year ending next June 30.

After hearing testimony from FBI Director J. Edgar Hoover, the committee approved the entire \$178,465,000 requested for the bureau. This would provide 100 new FBI agents and 65 clerks to help handle the growing volume of civil rights work.

The U.S. Information Agency fared almost as well. It was granted \$169.5 million of the \$184.7 million it requested.

The State Department's share of the funds in the bill, which the House will consider next week, was \$386.5 million, a cut of \$6.6 million.

SUNDAY — Chance of showers and cool.

Forecast will total one-tenth to four-tenths in showers after Saturday.

Fine Weather for Football on Weekend

Football fans had better put on heavy woollens and mittens tonight.

The weatherman forecasts skies clear with temperatures falling into the high 30s.

The official U.S. Weather Bureau report reads like this:

TODAY — Mostly cloudy, breezy and cool with a few brief showers mainly north portions. High 55 to 60. Clearing and a cold tonight, low 34 to 40. Westerly winds at 15 to 25 miles diminishing to 10 to 15 tonight.

SATURDAY — Partly sunny and continued cool, high 55 to 60.

SUNDAY — Chance of showers and cool.

Forecast will total one-tenth to four-tenths in showers after Saturday.

Steals Zolton's Thunder

Romney at LBJ Parley

By the Associated Press

Republican Gov. George Romney stole the spotlight from his Democratic gubernatorial opponent yesterday with a visit to the White House.

All Zolton Ferency could manage was getting equal time at a factory.

Meanwhile, G. Mennen Williams, running for the U.S. Senate seat held by Republican Robert Griffin, campaigned in the Detroit area while Griffin spoke at a testimonial dinner at Central Michigan University.

Romney, given a national forum at a Washington press conference, met, along with 18 other governors, with President Johnson to discuss economics.

The President asked the governors to help stem inflation. Romney said the governors asked the President to put what he wanted in writing.

Romney, often mentioned as a Republican presidential candi-

diate for 1968, didn't miss an opportunity to jab at Johnson's administration.

"FAR TOO LATE"

The Michigan governor said the administration has been far too late in recognizing the inflationary problem. He said the need for action now is partly the result of "unsound economic and fiscal policies."

But all 11 governors indicated they would try to trim spending wherever possible, as the President asked.

With Johnson standing nearby, Romney told newsmen "I indicated I was quite willing to go back and do that" — postpone, defer, impound and reduce spending along Johnson's guidelines.

Later, after Johnson had left, Romney said he told the President that if he, Romney, were asked what caused the need for measures of restraint now, he could say the war had

aggravated the problem of inflation, but would also blame "unsound economic and fiscal policies."

Asked if he favored a tax increase, Romney said: "I think we should have had one earlier, certainly in the early part of this year."

Meanwhile, Ferency's headquarters announced he had been granted the equal time he had asked for to match a Romney appearance with workers at GM's Fisher Body plant in Pontiac.

Thomas F. Weithorn, plant manager, sent a telegram to Ferency saying: "Mr. Romney given one hour 15 minutes to visit Pontiac plant. Be happy to extend exactly the same courtesy to Mr. Ferency."

A Ferency spokesman said a similar request to match a Romney appearance at the Buick plant in Flint was denied by Robert Kessler, plant manager.

Transit Dept. Creation Approved by Senate

WASHINGTON (AP) — President Johnson appears sure to have a 12th cabinet officer soon — a secretary of transportation with fewer powers than the President recommended.

The Senate approved creation of a department of transportation 64 to 2 yesterday.

The House passed similar legislation 336 to 42 on Aug. 30.

Leaders said they expect no difficulty in working out a compromise although the Senate version includes the Federal Maritime Administration in the department and the House bill does not.

The bill would bring into one department government policies, functions and operations now carried on by almost 100,000 employees in 35 separate units. At present levels, it would have a \$6.3 billion budget, fifth largest in the federal establishment.

The President has not indicated whom he might name to the expected new cabinet post.

A key authority for the secretary to carry out his responsibility of trying to coordinate the nation's tangled transportation policies was heavily watered down in the Senate. The House struck it completely.

Walkout Ends at Fisher Body

Unionist Ties Strike to Unsettled Grievances

The Fisher Body Plant in Pontiac resumed production yesterday afternoon after a wildcat strike involving 41 employees was settled by union and company officials.

The workers walked out of the trim shop Wednesday night and set up a picket line which an other 2,000 workers refused to cross when they reported to work yesterday morning.

Don Johnson, president of UAW Local 598, said the work stoppage stemmed from a number of unsettled grievances.

The Pontiac Motor assembly plant next to Fisher Body was affected for a short time by the unauthorized walkout.

Final assembly was closed four hours early and 1,500 workers sent home, according to a spokesman. The next shift, however, came in at the regular time.

AUTO BODY SHORTAGE

The spokesman said the walkout caused an auto body shortage at the adjacent plant.

The picket line was removed around Fisher Body prior to an early morning conference between union representatives and management.

A second meeting was held in the afternoon after the morning session failed to resolve the problems.

Nails Bring Jail

MELBOURNE, Australia (AP) — Raymond Mawson, 35, who locked and nailed his wife in a cupboard to keep her from leaving him, was sentenced today to 4 1/2 years imprisonment for assault and false imprisonment.

Charged With Propagandizing

Soviets Expel Yank Student

MOSCOW (AP) — Soviet authorities said today they have expelled an American student for spreading anti-Soviet propaganda.

The Soviet labor paper *Truth* said Nicholas H. Riegg of the University of Pennsylvania was ousted this month after authorities accused him of working for the American Central Intelligence Agency and engaging in "hostile activities."

Trud said that Donald R. Lesh, a U.S. Embassy secretary who was expelled Sept. 14, had served as a contact man for Riegg. It charged that Lesh also worked for the CIA and subverted African students in Moscow.

The report said Riegg had signed a statement admitting the charges against him.

"We should like to draw the

attention of the foreign public, and particularly the American public, to the generosity of the Soviet people," Trud said. "In our country we use extreme measures of punishment only in the rare cases, particularly when foreigners are involved."

An American Peace Corps member, Thomas R. Dawson, is being held by Soviet authorities for possible trial as a border violator.

The last American taken to court on such a charge was Newcomb Mott, got an 18-month sentence. He committed suicide last Jan. 20, according to the official Soviet version.

The U.S. State Department was angered by the treatment given Mott and warned American tourists about the dangers of coming to this country.

The U.S. Embassy had no immediate comment on the Lesh and Riegg cases.

Trud said Riegg had tried twice to come to the Soviet Union as a student, once to Leningrad and once to Minsk. Failing this, he visited the country as a tourist in 1964 and 1966, the paper continued.

It said he had been trained for his work by CIA agents in Stockholm, Sweden, and had brought in anti-Soviet literature. But it said the Soviet people would not listen to his slanders against the country.

Trud said Riegg signed a statement before his expulsion which said: "In addition to the

dark affairs I have busied myself in during this trip, I also behaved myself criminally two years ago the first time I was here."

"I understand that my fate depends entirely upon the generosity of the Soviet people."

Trud asserted that Lesh had prepared for his work in the Soviet Union by studying intelligence in the U.S. Navy and then joined the State Department to get the protection of diplomatic immunity.

Ramadan, ninth month of the Islamic lunar year, is set aside each year by Muslims for fasting.

JAMES A. BERESFORD

Country Club Head Named

James A. Beresford, 411 Lane Pine, Bloomfield Hills, has been elected president of Bloomfield Hills Country Club. He succeeds Hanley Dawson Jr.

Beresford will be assisted by Frederick Colombo, vice president; George Russell, treasurer; and Robert VanderKloot, secretary.

Other members of the board of governors are Robert E. Pife, Robert C. Fisher, Thomas D. Adams, Rinehart P. Bright and Ben D. Mills.

Beresford is a director of the Cranbrook Institute of Science, president of the Detroit Zoological Society, a member of the advisory board of the University of Michigan, and a director of the Booth Newspapers.

Most-Wanted Escapee Gets Out of Trap

LACHUTE, Que. (AP) — Escaped convict Andre Daoust, 24, shot his way out of a police trap Thursday night and disappeared as his friends fought encircling police off with gun fire.

Daoust, Quebec's most-wanted man, blasted his way out of a police trap last month at La Tuque, 250 miles north of Montreal.

He escaped from Montreal's St. Luc Hospital in June, was arrested by Royal Canadian Mounted Police in July and escaped from jail by hitting a jailer over the head with a lead pipe.

Daoust had been serving a four-year term for an \$11,000 credit union robbery when he was transferred to the hospital, for treatment of an injured hand.

Police captured the three other men in the cottage after the gun battle. One of them, who was wounded, told police "Daoust got it worse than I did." Officers, who did not identify the wounded man, brought a police dog in in hopes of tracking down the apparently wounded escape artist.

State Legionnaires at Fall Convention

KALAMAZOO (UPI) — Plans for recruiting new members from veterans of the war in Viet Nam will be considered this weekend at the annual fall convention of the American Legion of Michigan.

A bill signed by President Johnson Sept. 1 makes Viet Nam veterans eligible for Legion membership and plans will be made for the increase in membership, a legion spokesman said.

State Commander Edwin J. Schnitens of Holland will preside over the three-day meeting.

Grant to Detroit

WASHINGTON (UPI) — The Office of Economic Opportunity yesterday approved a \$2.5 million grant to Detroit's "Total Action Against Poverty" program.

Orion Twp. Lad Fights for Life

Ham-Radio Men Aid Family in Crisis

ORION TOWNSHIP — Ronnie Nebel, 6-year-old son of Mr. and Mrs. William Nebel of 900 W. Clarkson, has a tough job ahead.

He had surgery for a malignant brain tumor in August and is now taking cobalt treatments which may give him one chance in 20 of surviving his ordeal, according to his parents.

The cobalt treatments are administered daily at Pontiac General Hospital. They'll continue for another week.

Ronnie's operation relieved some of the brain pressure and he felt quite well, according to his mother, until about a week ago when the pressure started up again.

A kindergarten last year at Webber Elementary School, Ronnie may never attend school again.

FAMILY DOGS
He has a German shepherd pup, "Fang," which has been farmed out for training and a family Chihuahua named "Ponchu."

There's a younger brother, John, 2.

With all their problems the Nebels are learning there are nice people in the world.

The father is a citizens' band radio operator and his fellow radio men have come to the rescue in the area of finances.

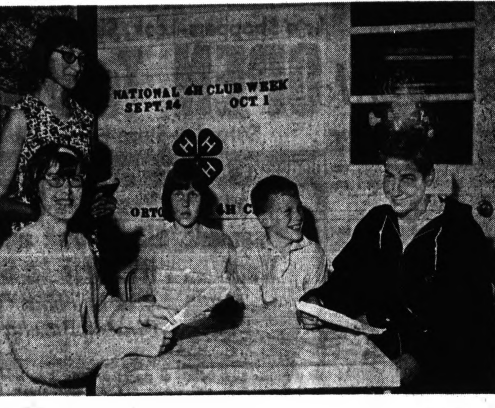

MONEY RAISED
The Walled Lake group two weeks ago raised \$700 for Ronnie and openhouse coffees are scheduled tomorrow by the Utica and Port Huron groups.

The coffee in Utica will be from 3 to midnight at the Utica Community Hall, 47450 Concord. Music is being furnished by the "Guns Jammers" and "Those Guys."

For members, it's a matter of putting their hearts behind their voices — all for a small blond boy who should be in the first grade this year.

RONNIE AND FANG

"VALUE OF 4-H" — Ortonville 4-H Club members practice for a play to be presented at 8 p.m. tomorrow in Brandon Grange Hall. Seated around the table are Connie McKay, 7424 Groveland; Joanne Davis, 5120 Grange Hall; Ken McKay, 7424 Groveland,

all of Groveland Township; and Randy Iid, 355 Hadley, Brandon Township. The moderator, Gail Kilbourn, 152 Mill, Ortonville, stands behind them. It's part of their observance of National 4-H Week.

In Lake Orion

Adult Program Enlarged

LAKE ORION — An expanded adult education program will get under way in Lake Orion schools Tuesday.

Registrations will be accepted from 3:30 to 4:30 and 7 to 8:30 p.m., and also at an organizational meeting at 7:30 p.m. Oct. 10 in the Lake Orion Junior High School.

In addition to noncredit courses, the program is offering many others through Oakland Community College.

Noncredit subjects include such items as auto mechanics, upholstery, typing, drafting, driver training, bookkeeping, square dancing, fiberglass techniques and cake decorating.

Others are stocks and bonds, bridge, flower arranging, rug hooking, algebra, oil painting, reading and study skills, modern math, silmastics, men's gym and first aid.

RUN 10 WEEKS
Courses run 10 weeks with the exception of the stocks and

Break-In at Firm Is Probed in Troy

TROY — Detective George Reed is investigating this week's breaking and entering of a safe at the B. W. Controller Corp., 2200 E. Maple.

Entry to the building was gained through a window and the safe was entered by removing a cinderblock portion of the wall near the door.

Records were strewn about the safe, and as yet company officials do not know how much money was taken, according to Reed.

Playlet Scheduled by Ortonville 4-H

BRANDON TOWNSHIP — In observance of National 4-H Club Week, this week Ortonville 4-H Club will present an original playlet at 8 p.m. tomorrow in Brandon Grange Hall.

Entitled "The Values of 4-H," the playlet was written by Mrs. Ralph McKay, 7424 Groveland, Holly.

Mrs. W. G. Kilbourn, 152 Mill, Ortonville, general program chairman, is assisted by Mrs. Ralph Smith, Mrs. Glen Mills and Mrs. Anne Murphy.

Demonstrations will be presented by Sigrid Medlen of the Seymour Lake Club, Rosemary Theriot and Sue Vascasseno of the Oak Hill Club, and Connie Leece, Sheila Mills and Steven Krantz of the Ortonville Club.

Mrs. Vernon Hutchings, 1825 Hadley, is general leader of the Ortonville Club.

PTA Meetings to Air Bond Issue in Walled Lake

WALLED LAKE — The bond issue proposal to be voted on next Wednesday will be explained at two PTA meetings Monday.

The Walled Lake Elementary PTA will meet at 8 p.m. in the school's multipurpose room.

Commerce Elementary PTA will also meet at 8 p.m. in the Commerce multipurpose room. In addition, a film entitled "To Touch a Child" will be shown.

Countywide Water System

Lapeer Utilities Plan Urged

LAPEER — City Manager Arnold Whitney is currently engaged in a project of selling the idea of a Lapeer County Utilities Authority to eight smaller governmental units in the county.

A meeting Oct. 20 at the Imlay City village hall will largely determine the success of his efforts.

The villages of Almont and Imlay City with the townships of Elba, Mayfield, Oregon, Lapeer, Imlay and Almont have expressed interest in the plan, according to Whitney.

Whitney says the only directly involved townships which have so far expressed no interest are Arcadia and Attica which lie directly in the path of the Detroit water main.

Study on an authority began almost a year ago. Whitney feels the formation of a Lapeer County Study Committee to determine the best possible procedure for updating water and sewer service in the rapidly growing communities.

WATER LINE ARM
Impetus for the study was Detroit's announced intention of

building one arm of its Port Huron water line through Lapeer County to Flint.

Whitney said that while the county has plenty of water, there is a high iron content and in some areas a high saline and sulphur ratio.

Where the conditions occur in the same area the result is a smell of "rotten eggs" issuing from the home taps, he says.

Since the Detroit water from Port Huron is soft, there would be no need for treatment or for home water softeners, residents feel.

PETITIONS
Home owners of Lapeer petitioned to have Detroit water brought into the area and to do away with the city-owned well system.

Whitney said the question then arose how best to negotiate and finance such a move.

Formation of a county department of public works was considered but was turned down because a relatively small portion of the county is close enough to the proposed Detroit main to take advantage of it.

Planners then turned to an

authority which could help small governmental units bond, but which would not involve the whole county.

TRASH DISPOSAL

Whitney said the idea comes from Oakland County's South-eastern Incinerator Authority which has provided trash disposal for a large area.

While the committee was studying water, various pollution and sewage problems in the county made it seem worthwhile to extend the authority's power to include sewers, according to Whitney.

Whitney says that for such improvements an authority can provide financing on a contract basis to individual governmental units without endangering their bonding limitations, and that it can perform any actions necessary to get the service requested.

Lapeer currently has its own sewage treatment plant which Whitney says could take double its present load and with alterations and additions could quadruple the current capacity.

SEWAGE PROBLEMS

He relates that all of the townships have sewage problems,

while few have any means of financing their correction.

The villages of Almont and Imlay City are the exception, both having their own water and sewage systems.

One of the reasons for action at this time, according to Whitney, is the state highway department's announced intention of making Lapeer a major intersection for state highways.

Whitney says plans are to create an expressway of M21 and to widen M24 which intersect within the city.

He believes there will be an inflow of people once the job is complete, and reports that about one-third of Lapeer County residents now hold jobs to the south in Pontiac and Detroit.

To Charge 3 With Break-In

BLOOMFIELD TOWNSHIP — Three Pontiac youths are to be arraigned this morning on charges of breaking and entering the Miracle Mile Drive-In Theater concession stand.

Arthur Garza, 18 and Porfido Acosta, 18, both of 281 Midway, Pontiac were caught in the building at 2:45 a.m. today while Patrolman Edward Quintal and Barne Rueff were making a routine check.

The third youth, Paul Rodriguez, 17, of the same address, was picked up later at his home by Pontiac police and turned over to township police.

Youth Hit by Car Crossing Street

TROY — David Russell Chick, 14, 612 Wimbeldon, Birmingham, is in fair condition at St. Joseph's Mercy Hospital, Pontiac, as a result of injuries sustained when he was struck by a car at the Der-Johnson intersection.

Troy police say the boy was crossing against the light when he was hit by a car driven by Joseph H. Kavanagh, 26, 807 North Adams, Birmingham. Kavanagh was not ticketed.

Meeting Scheduled by Pine Knob PTA

INDEPENDENCE TOWNSHIP — Robert J. James, executive director of Family Service of Oakland County, will be the speaker at 7:30 p.m. Monday when the Pine Knob School PTA holds its first meeting of the school year.

James will speak on the subject, "Understanding Our Children." Refreshments will be served following the meeting.

The Pine Knob PTA has adopted a four-way theme for 1966-67: "The Eyes of Pine Knob Are Upon Child, Parent, School and Teacher."

Those interested in joining the PTA can contact Mrs. Charles DeClerck, 5254 Frankwill.

Expectant Parents Classes Set

Robert Page and Mrs. George Fetherolf.

The Oakland County Health Department has made films and tapes available to the class. 14, 612 Wimbeldon, Birmingham, is in fair condition at St. Joseph's Mercy Hospital, Pontiac, as a result of injuries sustained when he was struck by a car at the Der-Johnson intersection.

Troy police say the boy was crossing against the light when he was hit by a car driven by Joseph H. Kavanagh, 26, 807 North Adams, Birmingham. Kavanagh was not ticketed.

Classes meet in room 68 at West Junior High School on Old Perch Road.

One sip and you can write your own Soft Whiskey ad.

Dean Appointed

ANN ARBOR (AP)—Appointment of E. Jack Petokey, director of orientation in the University of Michigan registrar's office, as dean-elect of Alpena Community College has been announced. He will succeed Dean Stanley Van Lare, who is retiring.

Puerto Rico elects its own governor.

Police Drag Laundry Sump for Clues to Murder of Suspect

BLUE POINT, N.Y. (AP)—Police dragged a dank laundry sump for clues today in the murder of a platinum blonde bank teller and discotheque dancer, named by the FBI as a suspect in a \$21,000 Long Island bank embezzlement.

The body of Irene Brandt, 20, bound hand and foot and

weighted with an iron bar, was found Thursday in the murky water of the sump by a laundry worker making a routine inspection. Her throat had been slashed and her head beaten open with a blunt instrument.

A federal arrest warrant was issued for the girl Wednesday.

two days after she had disappeared from her job at the North Merrick branch of the Hempstead Bank. When she did not return from lunch Monday, bank officials found \$21,109 missing from her cash drawer.

'NO SUSPECTS' Suffolk County police said

they had "no suspects at this time," but were questioning "many of the acquaintances" Irene made as she worked part time as a go-go dancer in two Long Island clubs.

James Watson, 28, named with Irene in the warrant issued by U.S. Commissioner Max

Schiffman, was reported to have been questioned by the FBI and released.

A spokesman for the FBI in Manhattan said agents assigned to the case were concentrating on the embezzlement and would not enter the murder investigation unless requested by Suffolk County officials.

Wrong Move

MEMPHIS, Tenn. (AP)—Mrs. C. R. Newell and her 9-month-old daughter jumped out of the frying pan and into the fire when lightning struck their home here.

The two scurried across the street to the home of Mr. and Mrs. Victor Allen. About two hours later, the Allen home caught fire — apparently the result of the lightning.

Faith Is the Currency of Democracy

Almost daily, statistical figures of one kind or another are produced in Washington and presented to the Nation as fact. Emphasizing the old adage that figures can be made to prove most anything, U.S. Senator EVERETT DIRKSEN, R-Ill., recently declared that some Administration statistics are "pure sleight of hand . . . others are hallucinatory." He warned that some of the statistics "essential to the formation of sound national policy reflect not facts but a mirage."

Dirksen pointedly revealed errors and fallacies in Federal figures on budgets, poverty, foreign affairs, national debt, unemployment, U. S. balance of international payments and the Gross

National Product; and he indicted Washington bureaucrats for such "political chicanery" to influence the American public.

People have long accepted Washington figures as fact, because they view government as an unbiased protector of the public interest. The fact is, however, that such figures are often no more unbiased than the people who produce them.

Such tyrants as HITLER, MUSSOLINI and STALIN have proven that governments which manipulate facts can manipulate people. Moreover, as concisely put by DIRKSEN, "A democracy can keep its freedom only as long as it is allowed to base its decisions on facts."

Indonesia a Land Beseet by Chronic Crisis

A Communist coup that misfired in Indonesia just one year ago today, inspired bloody reprisals that still have not run their course. Mass executions ended this summer after claiming the lives of perhaps 500,000 Communists, Chinese merchants, fellow-travelers, and totally innocent folk. But the killing continues on a casual basis in some areas, and emotion-firing trials of leaders of the old SUKARNO regime are getting underway.

The Communist bid for power started in Jakarta when certain military units and armed youths tried to kidnap and kill the entire anti-Communist army general staff. With these officers removed, the Reds figured that President SUKARNO would have no choice but to rely on them to manage the country.

But the coup was incomplete.

Although anti-Communist army generals were brutally murdered, the surviving generals were able to maintain power and launch reprisals.

Indonesia now is trying to find its way back from the brink. The military regime of Gen. SUHARTO has called off the confrontation with Malaysia, rejoined the United Nations, sought international help for its economic woes (which include a \$2.7 billion foreign debt), and reduced President SUKARNO to figurehead status.

But the shifty international playboy is still a popular figure in some regions of Java and conspiracy tactics to return him to his former seat of power could easily renew civil war in a land of chronic confusion and upheaval.

Teen Driver Training Seen as Safety Hope

Young people, with young eyes and young reflexes that will never be as sharp again, ought to be the best drivers in the world.

Yet teen-age drivers have the highest accident rate of any age group and the second highest fatality rate.

Indeed, if these rates continue, by the time this year's newly licensed teen drivers reach 25, they will have been involved in 15,000 fatal accidents, more than half a million serious injury accidents and will have been responsible for accident expenses of more than \$2.5 billion.

The figures originate with the National Safe Driving Auto Road-E-O. Initiated by the U.S. Junior Chamber of Commerce in 1952, more than 3 million teen-age drivers have participated in its competitive safe-driving programs.

This year, 400,000 youngsters in more than 2,500 communities demonstrated their driving knowledge and ability in local and state Road-E-O contests. These included a comprehensive written examination on the rules of the road, obstacle courses, parking and other exercises. Driving courtesy also weighed heavily in the scoring.

Nobody knows how many lives may have been saved as a result of the safety knowledge imparted to young drivers preparing for these contests.

Statisticians are confident, however, that given the native ability of teen-agers, the grim prediction of future deaths and injuries can be considerably changed by the expansion of similar programs into every community in America.

Hustling Hubert Man on a Spot

By JAMES MARLOW

Associated Press News Analyst
WASHINGTON — President Calvin Coolidge said the way he got exercise was having his picture taken.

Picture-taking is just a rest period for President Johnson and Vice President Hubert H. Humphrey, the two most energetic men in their jobs ever.

But even though they have made a career of action—by talking or running, not walking, to get things done—both are now running down hill in the public opinion polls to a degree which must shock them. Humphrey is at a disadvantage in public opinion.

In describing his vice presidential seal as different from the President's, he said his own eagle has his wings down. He said "you're the kind of vice president the President wants to be."

And Johnson, in a position to shout the commands, wants Humphrey to be a little Sir Echo, which is what any president would want. Me-loolam goes with the job.

Humphrey wholeheartedly endorses it.

preaching and practicing 100 per cent loyalty to his boss.

Right now he can only hope Johnson will reward his devotion and endless efforts for the presidency and his party by wanting him as his running-mate again in 1968. But that's by no means sure.

And it puts Humphrey in a lonely and uncertain spot, yet, there has always been a lonely look about him.

His sensitive, bird-like expression and his endless Boy Scout clichés about America the beautiful give the impression of trying to please, a search for acceptance. Johnson has the same expression in public, and even more clichés.

NO ONE LONELIER

Probably no one was ever lonelier than Johnson when he was vice president under President John F. Kennedy who kept him in the background, never making full use of his talents.

Johnson has made so much use of Humphrey, and in so many different ways, it's a wonder the vice president can stand up under the activity, like bunches of speeches a day, hopping from state to state, and still bouncing around after 18 hours on his feet. He had better not disagree in public or be critical if he hopes Johnson will want him for a second term, for if he can achieve that, then in 1972 he can hope for a try at the presidency himself.

Capital Offense!

David Lawrence Says:

Wirtz Talk Has Pro-Labor Ring

WASHINGTON — Who speaks for whom in Washington? Is the secretary of labor a spokesman for the administration or a partisan of union labor?

These questions are prompted by a reading of the speech just made by Secretary of Labor Willard Wirtz to the 800 delegates at a convention of the AFL-CIO's Committee on Political Education.

He told them, in effect, that there really isn't any "inflation" today. He said inflation is "possible" but isn't here yet and that using the word is comparable to what happened in the days of the New Deal when the legislative program was sometimes called "communism."

Maybe the critics were talking about "socialistic" programs, just as some of them are using the synonym today.

Wirtz may have had in mind as "possible inflation" what is commonly called "runaway inflation." Obviously in the United States today inflation isn't as bad as it is in Brazil, where the monetary unit has shrunk to almost nothing.

But if it is wrong to speak of inflation, why is President Johnson talking about a tax increase, and why did he recently ask Congress to suspend the investment credit for business and certain depreciation allowances in corporate taxes?

SPENDING OPPONENTS
The secretary of labor gives the impression that people who talk of inflation as being here already are merely trying to out down government spending for necessary programs of social welfare.

He admits, of course, that there has been some increase in the cost of living and that inflation could come someday, but he apparently feels that it hasn't done any harm so far.

Yet on Capitol Hill the leaders of both the Democratic and Republican party have used the argument that certain measures must be passed right away "to curb inflation."

If it is only a possibility and doesn't really exist at present, then much of what has been said on the floor of the House

and Senate in the current session is meaningless.

Naturally, in speaking to a meeting of the group which is primarily the political-action arm of the AFL-CIO, a member of the Cabinet of President Johnson — who wants to retain the political support of labor unions — can hardly denounce those who have helped to force prices up by demanding big increases in wages.

There are, however, many

more millions of voters, especially housewives, who know how painful the current inflation happens to be.

The President himself will be announcing shortly after the election, if not before, his recommendation to Congress for a tax increase and other measures to meet the growing economic crisis.

All this wouldn't be necessary if "inflation," as Secretary Wirtz says, is just a "loaded word."

Bob Considine Says:

Viet Nam Hard to Enter . . . Lot Harder to Leave

HOMEBOUND — Saigon is a nice place to live, but I'd sure hate to visit there. The Vietnamese people may love us in November as well as in May. But their airport officials apparently suspect us all of being active or incipient VC.

Tough getting into the country; tougher getting out. The Saigon airport, Tan Son Nhut, originally built by the Japanese as a military strip, has become the world's busiest.

Work around the control tower must approximate what things were like on the upper floors of the Tower of Babel the day everybody turned double-talker.

The terminal itself is the ground floor and cellar of the latter tower. Nobody behind any grille speaks your language.

All they do is shove forms at you to fill out — how much money are you bringing in? What was your father's name? — and in triplicate. No carbon paper.

GOING GETS TOUGH

Leaving was tougher. I hitched a ride to Tan Son Nhut with Jack Steele, who was going out to meet his renowned relief man, Jim Lucas.

We got as far as the entrance to the airport. A young Vietnamese cop with a burp gun stopped the little car we had picked up at the hotel. The Vietnamese driver showed his airport pass.

"Hail!" said the cop, in pure Vietnamese, and pushed it back at him.

Jack whipped out a much more impressive Vietnamese document which attested that he was a correspondent for "Cripps-Howard."

SEE THE BOSS

The cop handed it back and fingered his gun.

With much reluctance, the cop let us talk to his boss.

The boss's gestures, also

made with a gun, indicated that the field was closed except to military personnel.

I showed him my pass — a ticket on the Pan Am plane that was due to shove off in an hour. It must have contained some secret message from Juan Trippe to Nguyen Cao Ky. We made it.

Well, now, how much money did you spend in Viet Nam, the triplicate forms wanted to know. And cough up, now, what was your mother's given name.

A pretty airline girl said, "Hurry, your plane is here."

I hurried. There was no plane that looked like mine, among the dozens parked or purring on the field.

"Did you get your complimentary lunch slip?" another pretty airline girl asked. "Your plane will be two hours late."

Good Old Days?

Construction Digest

In the days of yore, heaven protected the working girl. Nowadays it takes a union, a wage hour law, unemployment compensation, social security, health insurance and a pension.

Soaring
Los Angeles Times

Medical and hospital costs were rising faster than consumer prices for many years before the advent of Medicare and Medicaid. Such charges have gone up 25 per cent since 1960. In the past year the increase has been 5 per cent. But the truly disturbing figure is the reported 7 per cent increase in the past month.

It was welcome news, therefore, that President Johnson has ordered John W. Gardner, secretary of health, education and welfare, to make an immediate investigation of the situation.

Even the most ardent advocates of the federal

Voice of the People:

Disappointed in Replies Given 'Disgusted Teen'

I get the impression that people are interested in teens only to have them help with household chores. The teen-ager asked for a building with four sides and a roof where they could say and do what normal kids would like to do. Instead, they were told to grow up, etc.

Too many teens are trying to act like grown-ups too soon. They quit school and take full-time jobs to prove their adulthood. More than a few are desperately seeking parenthood.

These kids need and want understanding and the person who answered as "A Reader" showed he/she didn't want any part of it.

Ferency's Politticking Causes Party Switch

Zolton Ferency has shown his true colors. The only thing he forgot was his black leather jacket and chain. How could Michigan condone a character such as he for any office? Another good Democrat just converted to Republican ranks.

FRANCIS PETERSON
UNION LAKE

'Public Housing Greater Need Than Stores'

At the recent City Commission hearing, the most eloquent argument was made by a wife and mother whose children have been refused enrollment in Pontiac schools because they have no permanent address — they live in a tent. Whether we are considering the Taubman plan or the U. of D. plan, the plight of this woman and the fifty-seven other families who, she claims, live in similar conditions, raises a question of priorities.

The integrity of A. Alfred Taubman or his ability to, in the mayor's words, "produce and deliver" are not in question. The question should be, do the commissioners believe that the men, women and children of Pontiac can afford a new batch of stores?

I doubt that the people still living in WWII shacks can wait long for improved public housing. Remember that when you vote in the next city election.

R. WILLIAM ROTSEL
71 FRANKLIN BOULEVARD

'Dublin Uninformed About Merger Facts'

After hearing unpleased different versions of the Dublin-Walled Lake merger, I am wondering why the people aren't given all the facts. How many Dublin taxpayers think their taxes will do? According to a story in The Pontiac Press, Walled Lake will ask for 6 mills from Dublin. Where will it come from? Is Dublin supposed to cut operating expenses?

Have the people been told that Walled Lake can annex any time they want?

It seems to me White Lake Township is big enough to have its own school system instead of depending on outside districts for the education of its children.

WONDERING

Art of Self Defense to Be Taught at YWCA

While the YWCA of Pontiac does not offer Judo classes, we do have a class starting October 15th in the Art of Self Defense. This class will be limited to an enrollment of 16. Anyone interested can call the YW for further information.

EVA L. TERRELL
PROGRAM DIRECTOR

Question and Answer

Why doesn't Oakland County add a sealer to their asphalt roads as many private contractors do? Which way is most beneficial to the life of the asphalt?

JUST CURIOUS

REPLY

Mr. Daly of Oakland County Road Commission says sealer helps prevent deterioration from gasoline dripping and for this reason is used in private drives and parking lots. However, he says it is relatively expensive and would have to be used on roads several times a year, while private users can afford it because they need a sealer only every few years.

Reviewing Other Editorial Pages

quile possible that hospital charges might reach \$100 a day by 1976.

Obviously some brakes have to be applied somewhere along the line. It would be unfair to place all the blame on the federal programs yet, very plainly, those programs and how they are administered loom as a major factor in spiraling costs.

Premature . . .

American Opinion

Little Sally was determined to give her hero full credit for his achievements, so she wrote in her history examination: "Abraham Lincoln was born on Feb. 12, 1809, in a log cabin he built himself."

Start Slow and Easy as an Adult Student

By LESLIE J. NASON, ED. D.

Dear Dr. Nason:

All I think about lately is the education I could have had when I went to high school for four years. Unfortunately, this was during the war years and everything was quite hectic.

Now that my four children are well along in school, I have some time on my hands. DR. NASON would like very much to go back to school. But I don't have the time nor the patience a teenager has to go through seven math and minoring in physics or eight subjects. Neither do I know what courses are best to take.

I would appreciate any advice you can give me on how to further my education.

N. D., North Bergen, N. J.

Answer:

Returning to school looms up as a major undertaking when thought of in terms of "seven or eight subjects."

Somewhere in your area, there is probably a high school or junior college offering courses for adults. Telephone for an appointment with a counselor. With his help, you can choose one subject and make it your first goal to master just this one.

Your success in a well chosen first course will help determine the course to follow. Your long-term plans will unfold in due time.

Dear Dr. Nason:

Our daughter started life in a Spanish-speaking family. Although she has always known herself to be an American and therefore feels that she knows English, she lacks just enough command of the language to be an efficient reader.

To understand what she reads takes a good deal of conscious effort. At present, she seems unprepared to make such an effort.

I would be extremely grateful for any suggestions.

C.J.C., Wayne, Pa.

Answer:

For your daughter, English is a second language. Although she has the advantage of using this language daily in school and in play with other children, she must learn to think in English.

Encourage her to work toward

thinking in English while reading. Have her try this exercise: After studying a page of reading matter in a homework assignment, she could reread the material with conscious effort to eliminate Spanish entirely from her thoughts and see in her mind the ideas presented on the page while reading the English words.

Sometimes, two or three readings of the same page will help. The exercise should be repeated at least once a day for an extended period.

Dear Dr. Nason:

We have a son in his fourth year of college, majoring in math and minoring in physics or eight subjects. Neither do I know what courses are best to take.

He asked his adviser what the job potential is in this field and was told there are many opportunities, but was given no specific information.

Can you offer any advice? Are there any pamphlets on this?

N.E. Fairbank, Iowa

Answer:

Your son should find ample literature on job opportunities in the college library. For example, the U.S. Department of Labor issues Occupational Outlook bulletins.

Openings for graduates in the math and physics fields are too numerous to be listed in this column.

Father of 11

Held in Death

NAUQUET, N.Y. (AP) — A

father of 11 was held today in the rifle-slaying of his wife, police reported.

Charged with first-degree murder was James Kelly, 43, his wife Florence, 39, was killed in their home during an argument Thursday night.

The couple's children range in age from 20 months to 20 years. Police said they were notified of the shooting by a telephone call from one of the children.

GOTTA HAND IT TO HIM—Gov. Edmund G. Brown of California is greeted by a show of hands at a grammar school in Daly City. Brown is fighting a tough battle against GOP foe Ronald Reagan and battling his own party's opposition to him getting a third term.

California Governor Race Heats Up

(EDITOR'S NOTE — "We've turned the corner," Gov. Edmund G. Brown says of his fight for a third term in California. "But California being California, many problems await Brown around the corner and among the worst are fellow Democrats.")

By **RELMAN MORIN**
AP Special Correspondent
SAN FRANCISCO — A current gag in California's gubernatorial fight has a prominent Democrat saying: "We have met the enemy and they are us."

The joke can be no joke to Gov. Edmund G. Brown. Internal strife among his fellow Democrats ranks high among the hurdles he must clear to win a third term in a campaign drawing national attention.

If he wins, Brown will be the first Democrat to get a third term in the California Governor's Mansion. Chief Justice Earl Warren, a Republican, held the office for three terms, but Warren was a "two-party governor," who regularly received support from the Democrats as well. Brown enjoys no such advantage.

STRONG OPPONENT
The third term, party dissension, a potential "white backlash," a personable opponent who is putting on a strong campaign add adds up to a tight race. At this point, Brown appears to be running slightly behind the GOP candidate, Ronald Reagan, former actor and television personality.

A Republican candidate must win Democratic support for victory in California where registered Democrats outnumber Republicans 3 to 2.

In seeking another four-year term, Brown is aware that he is swimming against a rip tide of "time-for-a-change" sentiment. The feeling is often formless and ill defined, but you hear it on all sides in California. Indeed, it may be the critical factor.

For example, campaigning in the agriculturally rich Central Valley recently, the governor listened to a farmer's long tale of woe. Finally, he asked, "Well, do you think Ronnie Reagan could do any better?" "I don't know," the farmer replied, "but a lot of people want a change."

Brown is getting much outside help. The President's wife was here last week. No political implications were attached to Mrs. Johnson's trip, the White House said, but then she did find some kind words for Brown in her speeches.

Earlier this month, the President gave Brown a pat on the back after the governor had a nationally televised confrontation with Reagan.

Next, Secretary of the Interior Stewart Udall came to attend ceremonies opening a new water purification plant. At a Democratic breakfast with 37, and "don't know" 15.

Brown, he more or less echoed the governor's words about the importance of this election. The governor says Reagan will be more difficult to beat than his two previous GOP gubernatorial opponents, former Sen. William F. Knowland in 1960 and former Vice President Richard M. Nixon in 1962. Nonetheless, Brown exudes confidence. "We've turned the corner now," he says, "and we're on the way."

A recent survey indicated he may be right. The State Poll showed Brown gaining on Reagan but still behind. In percentages, the poll rated Reagan 45, Brown 41, and "don't know" 14. The comparable June figures were Reagan 48, Brown 37, and "don't know" 15.

Poor Spelling Plus Bad Math Equals Best Seller

By HAL BOYLE
NEW YORK (AP) — Jacqueline Susann, who admits she is a poor speller, also made a slight error in arithmetic early this year.

She estimated then that her first novel, "Valley of the Dolls," might earn as much as a million dollars.

"Now I figure it will gross at least \$2 million and it should go much higher than that," said the pretty, dark-haired actress turned author.

Jackie's spicy tale of the price paid for success by four lovely ladies in the entertainment jungles of television,

Broadway and Hollywood has been a runaway literary sensation as well as a personal bonanza.

SOLD TO MOVIES
Printing orders for the hardcover edition of the novel have gone past the 350,000 mark. The book has been sold to the movies, 15 foreign editions have been arranged, and 14 million paperback copies will be distributed in 1968.

But Jackie is proudest of the fact that her novel has been No. 1 for 22 consecutive weeks on a best seller list.

"I am the only girl who has been up there that long whose book wasn't a selection by a major book club."

Her nearest rival, "Peyton Place," by Grace Metalious, also dived by the book clubs.

never was first on the list for more than 18 straight weeks.

Miss Susann has a ready explanation as to why the book clubs ignored her maiden fiction production. She thinks they are a bit stuffy, if not assy.

"Book clubs don't go in for violence or sex unless they're in a spy story," she said.

ONE-WOMAN CAMPAIGN
Aided by the promotional skill of her husband, Irving Mansfield, a television producer, Jackie has put on perhaps the most extraordinary one-woman publicity campaigns in literary history.

She figures she has made 100 radio and television appearances, and like the jacket of her book she's easy to look at.

off the ground because they aren't publicized," she said. "But you can't cram a dull or uninteresting book down the public's throat."

"Some of the professional critics sneer at my writing. They say it is too simple and lacks style."

"They don't know the back-breaking labor I went to for three years to cut out adjectives and make my writing simple. Nobody can sit down and write a description of a beautiful sunset, but to write terse dialogue, to create lifelike characters that isn't easy for anyone."

STORYTELLER
"I am really only a storyteller, but that's what the public seems to want most — a good story."

Jackie expects to have her second novel, "The Love Machine," which deals with the

taste of a handsome television tycoon, ready by spring, and is planning a third novel.

"I believe in living every second, every hour, every day as it happens," she said. "I am amazed at people who worry about what they may be doing 10 years from now. How can they do that when a flower pot might fall on their head tomorrow — or somebody at the Pentagon may push the wrong button?"

Jackie is amused when people ask whether success has changed her.

"The money has made no difference. My husband and I have always believed in living well — as if we had six oil wells coming in."

"To keep success from ruining you all you have to do is to be a good person — laugh at it."

FEMININE MYSTIQUE — The Francis Farris of Clio finally did it—they have a son after a string of nine daughters. Leaving the hospital with Mrs. Farris and newborn Ronald

Smokers Shun Caution Note

Per Capita Estimate in '66 Near Record

WASHINGTON (UPI) — American cigarette smokers who reacted sharply to the surgeon general's cancer report in January, 1964, apparently are ignoring even the new "caution" note which started to appear on each pack this year.

A new tobacco situation report by the Agriculture Department yesterday estimated per capita consumption among persons 15 years and over at nearly 215 packs of cigarettes this year, a rate second only to the record 217 packs in 1963.

In 1964, the rate dropped to 200 packs but it climbed back up to 215 the following year.

The Agriculture Department attributed the anticipated increase in the use of cigarettes this year to "more people of smoking age, high levels of consumer income and larger shipments to overseas armed forces."

The department expects these factors to result in still further increases in cigarette smoking in 1967.

MILITARY UNITS

Of the 570 billion cigarettes expected to be produced this year, American military forces overseas are slated to receive 21 billion, nearly 4 billion more than last year, the report said.

Even the higher prices this year are not keeping smokers from lighting up.

Between March and June, prices increased about 2 percent, continuing hikes reflecting higher taxes in more than half the states since 1965.

This year, Massachusetts increased its rate from 8 to 10 cents per pack, New Jersey went from 8 to 11 cents, and Oregon, with a new four-cent rate last month, became the 49th state to levy a cigarette tax.

The only state not taxing cigarette is North Carolina.

While cigarette smoking is expected to increase this year, the reverse is true for cigars and cigarettes, the report said.

Verdict on Ruby Appeal May Come Wednesday

AUSTIN, Tex. (AP) — Texas court. The court previously denied a writ of habeas corpus, sought on the ground that Judge Joe B. Brown of Dallas allegedly decided, while he still had jurisdiction in the case, to write a book about the trial.

Ruby was sentenced to death for slaying Lee Harvey Oswald, named by the Warren Commission as the assassin of President John F. Kennedy. Oswald was shot Nov. 24, 1963, two days after Kennedy was slain.

The Texas Court of Criminal Appeals reconvenes Monday after a summer recess of nearly three months. Its decisions usually are announced on Wednesday.

The court heard arguments in the Ruby case June 24, two weeks before it recessed.

It took more than two years for Ruby's appeal to reach the

Fall Foliage in U. P. Due to Reach Peak

LANSING (UPI)—Michigan's spectacular autumn color show is expected to be at its best this weekend in the Upper Peninsula the Tourist Council said today.

Tourist Council observers at Houghton, Ironwood, Sault Ste. Marie, Marquette and Manistowish saw trees throughout their area.

The fall color spectacular is expected to reach a peak in Northern Lower Michigan next week, the council said.

Burning tree colors are expected to burst in their full splendor in Southern Michigan by late October.

In a supplemental brief, Ruby's lawyers cited a recent U.S. Supreme Court decision overturning the Cleveland, Ohio, conviction of Dr. Samuel Sheppard on charges of murdering his wife. Sheppard was a new trial because, the court said, excessive publicity inflamed Cleveland against him.

The prosecution replied that defense attorneys should have asked for a continuance — as Sheppard repeatedly did in vain — if they thought Dallas had been inflamed against Ruby.

The brief, by Asst. Dist. Atty. James M. Williamson, also depicted Judge Brown's denial of a change of venue. Such matters are in the judge's discretion, the brief said.

The defense also contends that 11 of the 12 jurors were witnesses to the crime because they saw it on television, and gave their verdicts on the basis of what they saw on television.

"The question is then posed," Defense Attorney Phil Bureson said, "that if the television film of the shooting was not material, as the state claims, they why did the state offer into evidence the very same television film during the trial for the jury's consideration?"

Now, during your Pure Oil dealers' Trade-in Days

Your bald tire is worth \$2 in trade

...plus \$1 more for every 1/32nd inch of tread remaining.

Visit your Pure Oil dealer displaying the "PURE's Tire Trade-in Days" sign. He'll measure your tread accurately and tell you how many extra dollars each tire will bring you in trade. (This is an honest offer for useful passenger car tires in recappable condition. Cupped, unevenly worn tires will be measured at point of greatest wear. Used snow tires and other specialty tires not applicable for trade-in.)

Now's the time to trade, while your old tires have bonus value.

Our best long-mileage tire—the

PURE Pride—Super-traction. Longer wear—tests prove it. New round-shoulder design makes cornering, steering easier. Actually puts more tread on the road. 100% nylon cord. Tough polybutadiene rubber. Wider, deeper tread. It adds up to exceptional value on the beautiful PURE Pride tire. A tire you can trust at a price you can afford.

FROM \$21.50 plus \$1.56 Fed. tax*

suffering from amnesia. Peterson holds a newspaper photo that helped him to identify his son.

Space Age Product May Pave Roads

By SCIENCE SERVICE.
PASADENA, Calif. — Space age research is leading to progress on earth. In the future roads may be paved, swimming pools lined and houses roofed with a new thermoplastic rubber that is the by-product of a search for a powerful rocket fuel.

The new compound, a mixture of asphalt, oil and ordinary plastic, has a rubbery consistency and is more resilient and durable than asphalt alone.

It apparently can withstand Alaska's cold and California's heat for it was not damaged by laboratory temperatures ranging from 100 degrees below zero to 150 degrees above.

Samples tested for over a year also seem to be resistant to the wear of remarkable rubbers. It would also be less likely to be split by earthquakes than asphalt or concrete. Moreover, it is strong enough to be produced in sheets, like paper.

MENDS CRACKS

In the immediate future, however, it could be used to mend cracks in asphalt or concrete roads. By laying down a half-inch-thick carpet of thermoplastic rubber over the cracked surface of a highway, complete or partial replacement of the surface might be unnecessary.

The one major handicap to mass production of thermoplastic rubber is expense. It costs 20 cents a pound, or \$400 a ton, compared to \$1.50 for the type of asphalt commonly used to pave streets and driveways.

Dr. Hendel discovered thermoplastic rubber when he was mixing polymers in experiments to find solid propellant fuel binders at Caltech's Jet Propulsion Laboratory for the National Space Administration.

Significance of Manila Talks Depends on What Comes After

By STEWART HENSLEY
United Press International
WASHINGTON (UPI) — The allied "summit" conference on Viet Nam to be held in mid-October in the Philippines could be a landmark in the new thermoplastic rubber that is the by-product of a search for a powerful rocket fuel.

Or, it could slip into oblivion as a meeting whose only result was to save the ego's of small-plastic nations desiring greater recognition of their role in anti-Communist conflict.

The eventual significance of the meeting of President Johnson and the leaders of the six other nations actively participating in military action against the Communists will become apparent only in the light of the developments that follow it.

Much will depend on whether Peking and Hanoi persist in their refusal to consider peace talks on any terms other than the surrender of South Viet Nam.

Continued Communist intransigence in the months ahead could lead to the eventual formation of a broad new anti-Communist alliance to take the place of the Southeast Asia Treaty Organization (SEATO).

SEATO has been rendered impotent by the refusal of France and Pakistan to oppose Communist policy and actions.

The United States has no intention or desire at this time to create a new alliance of this sort. But the actions of the Communists could bring the participants in the Philippine conference together again at some future date for such a purpose.

This possibility also will be apparent to the Communists who will be watching the gathering with much interest.

Considered against the backdrop of the National Space Administration's standing offer of a massive economic aid program for Southeast Asia if and when peace is secured in Viet Nam, the deliberations at Manila cannot help but indicate the long-term possibility of a broadly based Asian alliance, supported by American money and power.

Housing Funds

WASHINGTON (AP) — A \$35,000 loan to Ann Arbor, Mich. for preliminary planning of 200 low-rent homes was approved Wednesday, the Department of Housing and Urban Development said.

Disease-Caused Early Births Eyed

By Science Service

CHICAGO — Mumps, hepatitis, ordinary measles — even chickenpox in some unusual cases — in addition to German measles can cause prematurity. If acquired by the mother during pregnancy.

A preliminary study involving 1,652 mothers in New York City compares the effects of the various diseases on premature babies, who will be followed up with hearing and mental development tests when they reached the age of five.

With ordinary measles a significant number of premature babies were born but the stage of pregnancy at which they got the disease had little effect on prematurity.

With hepatitis there was an increase in premature births and infant death, but limited to mothers who had it late in pregnancy.

With mumps there was an increase in early-pregnancy fetal deaths but few other ill effects.

CHICKEN POX

With chickenpox there were few complications except in unusual cases.

German measles caused the greatest number of stillbirths, birth defects, premature births and underweight births. Prematurity was limited to those mothers infected in the first 12 weeks of pregnancy.

Western Allies Face a Crisis

Questions Are Many
Over Europe Defense

LONDON (AP) — A crisis is shaping up for the West over the defense of Europe and West Germany's role in it. A series of related developments threaten withdrawals of Allied forces from the heartland of the Continent.

In the view of British authorities, this could bring instability to West Germany where Chancellor Ludwig Erhard's government already is in difficulties. It also could eventually shift West German policies closer to those of President Charles de Gaulle of France.

Senior officials in Prime Minister Harold Wilson's administration are looking to President Johnson, who has called for an armistice, and to British and West German reappraisal of her son, Marine Pfc. Gary Parsons, in Viet Nam.

A SUBSTITUTE? They fear smaller member states of the North Atlantic Treaty Organization may see it as a substitute for those organs of the alliance such as Supreme Headquarters Allied Powers Europe, (SHAPE).

Wilson has advised the President of British readiness to take part in the three-power talks. A precise American proposal is awaited on the time, place and scope for them.

Among difficulties facing NATO are these factors:

The British insist they will cut back their 51,000-strong Rhine army by 1967 unless the West Germans supply the whole \$250 million foreign exchange cost of maintaining that force. This does not mean Bonn paying Britain's bills, but arranging somehow for the British to earn enough money in Germany to ease the strain on foreign money resources. The Germans thus far have declined to offset more than about 40 per cent of the bill. If this is their final word, the British vow the Rhine army will be cut so that it uses up no more than about \$100 million in German marks a year.

GRAVE EFFECTS

Such a British cutback would weaken NATO's trans-European barricades. Its political effects could be far-reaching.

As Allied diplomats see it, such an action would add to congressional pressures in the United States to reduce the 400,000 to 450,000 American servicemen in Europe.

SMALL BREAKTHROUGH — Batteries are getting smaller and smaller. This one, compared in size with a model's eye, has just been introduced by Mallory. It will lead to even more concealment for hearing aids and is the smallest in the world so far.

Marine's Final Letter Is Prefaced by Tears

TOPEKA, Kan. (AP) — Mrs. Jack Parsons sorted through the casualties, "Lately we've had quite a few," Gary's letter went to the top of the pile. "I don't think we have much to worry about."

Gary wrote about packing his seabag, and how happy he was to be getting out of Viet Nam. He was to be shipped home soon.

"All we can do is wait," his letter concluded. "I've run out of words, so I'll say goodbye for now. Your son, Gary."

Mrs. Parsons burst into tears. It was her son's last letter. The Parsons were informed Monday that Gary, 18, had been killed on patrol near Da Nang.

Briton Encouraged by Soviet Awareness of Viet Peril

LONDON (AP) — Britain's new foreign secretary, George Brown, views Soviet leaders as deeply aware of dangers involved in further intensification of the Viet Nam war, and says this "is one of the most encouraging aspects of the situation."

Brown's estimate was offered this week in an interview marking his first public statement on world issues since Prime Minister Harold Wilson named him foreign secretary Aug. 10.

In this office he is co-chairman with Soviet Foreign Minister Andrei A. Gromyko of the Geneva conference peace machinery set up in 1954 after the defeat of France in Indochina.

Brown said it was possible that the Viet Nam war might be permitted to fade out eventually by mutual tacit consent of both sides, but "there is no sign of it doing so any more than there is a sign of the North Vietnamese softening their opposition to negotiations."

"There is always a danger of escalation in a conflict as serious as that in Viet Nam," the foreign secretary said, "which is why negotiations are urgent and essential."

"If there is escalation in any direction it will be a direct result of the continuing warfare waged by the Viet Cong and the North Vietnamese, and no one can guess how far they will press their activities before accepting that a peaceful settlement must be reached."

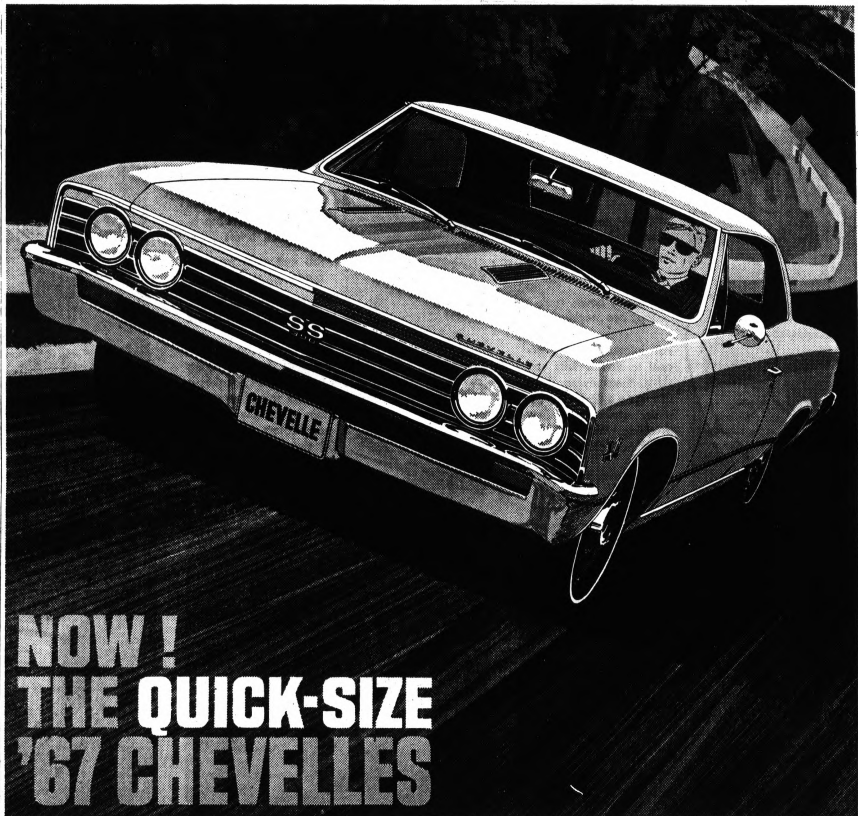

"But the U.S. government has made it clear many times that it seeks no wider war, and their repeatedly declared readiness for unconditional negotiations is firm evidence of this."

"The U.S. government is, I know, deeply conscious of the dangers of escalation. So, we believe, are the Soviet leaders. This is one of the most encouraging aspects in the present situation."

PONTIAC SCRAP

Chevelle SS 396 Sport Coupe

NOW, as many kinds as there are kinds of drivers to enjoy them—from the SS 396 (the Chevelle for the DRIVING MAN) to the brand new Concours Custom Wagon!

Long live Chevelle! And its trim dimensions, sharp performance and great maneuverability.

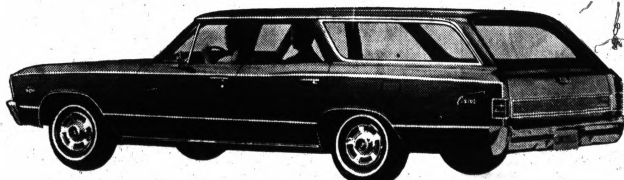

For '67, there's a new grille, new wraparound taillights and distinctive sheet-metal changes. The effect is a newer, more contemporary look for all models.

As for specific models, one is completely new: the sumptuous Concours Custom Wagon shown below, featuring the rich look of wood outside. Then there's the SS 396 with a 396-cubic-inch Turbo-Jet V8, special suspension and an even more remarkable capacity for delighting the stout of heart. Other models, too: Malibu, 300 Deluxe and 300, all with Body by Fisher.

In addition, every '67 Chevelle carries a multitude of new safety features such as a GM-developed energy-absorbing steering column, four-way hazard warning flasher, dual master cylinder brake system with warning light (and more). Try a Quick-Size Chevelle at your Chevrolet dealer's now.

For '67, everything new that could happen... happened! Now at your Chevrolet dealer's

Officers Have Plan to Defoliate Viet Neutral Zone

DONG HA, South Viet Nam (AP) — Senior American military officers want to defoliate the demilitarized zone between North and South Viet Nam, but they are encountering obstacles.

The high-ranking officers want to use chemicals to kill the leaves of trees and other plants along the zone, depriving North Vietnamese infiltrators of natural cover.

The advocates apparently have not cleared the hurdle of Pentagon permission.

The United States now estimates 6,000 men a month are

moving into South Viet Nam from the Communist north. Many use the direct route across the demilitarized zone. Others take a longer, more difficult journey through Laos and Cambodia.

KEEP WATCH

Reconnaissance teams working from observation posts on the ground try to keep a watch on the demilitarized zone's traffic, but lack of mobility and need for concealment hamper them.

The argument is that if all the leaves were killed, small air-

planes could take over the job in the daytime. If equipped with infrared spotter scopes, they could even do it at night.

The 1954 Geneva convention which divided Viet Nam into two countries made the demilitarized zone a no man's land where no military activity was supposed to take place.

Last July 31, the United States began using B52 bombers from Guam to strike the zone, explaining this was necessary to stop Communist infiltration to the south. The clandestine

movements did not stop, and the bombings continue.

The men running the war are hesitant to approve defoliation of the zone itself because of international criticism such a move is likely to evoke.

MOVE DENIED

Word leaked out recently that such an operation had actually started, but the U.S. Command in Viet Nam denied it. The command did acknowledge limited defoliation of areas south of the zone.

An alternate plan, known to be popular with top U.S. officers

in Viet Nam, is to defoliate a wide strip of countryside just south of the zone's southern boundary. A buffer strip flanks the river which is the actual border between the two Viet Nams.

Men in a position to recommend defoliation estimate such a project would require 2,000 airplane loads of chemicals. Near the eastern coast, where rice paddies supplant trees, defoliation would be skipped.

Plant leaves are among the hardest creations of nature.

In the densest jungles, it takes repeated applications of defoliants to show any worthwhile results. Some of the area along the demilitarized zone has trees which lower more than 100 feet and have double or triple canopies. High canopies must be sprayed and allowed to die before more chemicals can be dumped on the lower leaves.

Often leaves treated with defoliant don't fall. They just shrivel up. This could block the spray intended for the second and third canopies.

Additionally, the leaves are replaced by new growth unless the trees themselves are killed. It is conceivable that the top layer of leaves would be growing again before defoliant ever reaches the lower levels.

Then there are problems which aerial application of chemicals can create. Wind may blow the defoliant away from the target zone, and rain may wash the chemical off the tree leaves before it has time to do its job.

The demilitarized zone is in the area where daily monsoon rains should begin any day.

Youth Beat

THE NATIONAL REPORT ON WHAT'S HAPPENING

DON'T WASH THAT DRESS. Throw away! Rumors are running wild that paper is in, laundering is out. Printed shifts made of disposable paper already are being worn on some city streets. This fall, stores will stock such fall paper items as a slinky, kooky silver foil dress that crinkles but does not wrinkle, short-length dresses and at-home hostess gowns . . . a white paper dress with a package of colors to splash on your own design . . . and a football shirt with team numbers for both girls and guys. Heavy accent is on young adult tastes, though items also come in children's and mommas' sizes. Styles feature prints (plum, Paisley, stripes and tweeds) . . . materials are colorfast, water-resistant . . . each can be worn about five or six times. . . . Maybe the future will bring paper pants that can be snipped into cutoffs, then into bathing trunks? A 1967 line is in the works for beach wear, including super-extra (we hope) waterproofed men's swim trunks. So don't throw out your family washing machine yet.

NUDES IN THE NEWS: From Hollywood comes word that more nude scenes are coming up in movies being released. The clothesless trend started with the Swedes a decade ago . . . then, naturally, the French followed with Brigitte Bardot . . . next the Italians. Hollywood finds of what's to come in the "reveals all" (or "almost all") undress sweepstakes—Jane Fonda, who protested earlier exposures, will in "La Cures" . . . Ursula Andress, already expert in this area, does it again in "The Blue Max" . . . Princess Ira Furstenberg (a real Austrian princess) falls into the no-clothes line in her film debut in "Matchless" . . . and even no-sexpot Audrey Hepburn displays her without duds in "Two on the Road." What does this new high (or low?) really mean? Guys like to look at girls. So, what is new?

ROME REPORTS ON YOUNG AMERICA: Here's the inside scoop on U.S. teenagers, as reported recently in the Roman magazine, L'Europeo, by their U.S. correspondent: American teen men and girls are "fat and spend most of their money on snacks and cosmetics"; the basic snack is the hamburger, which is an insipid ball of meat enclosed in a gummy roll; girls' chief concern is "their hair, on which they put milk, mayonnaise, pineapple, orange or lemon juice." The magazine wonders if "the incorruptible Italian teen-ager will copy these American habits."

NO VENDING MACHINES ARE STALKING YOU: Operators of vending machines, who annually sell tons of quickie merchandise with their pop-a-corn, pop-a-go-go-ing (or similar item)-out . . . are eying you hungrily. Up until now the vending machines concentrated on 4- to 10-year-olds. While they want to hold these, now they plan to pull you in by the millions (with your disposable cash in billions) to slip a coin in for such goodies as . . . decals to decorate fingernails, toes, elbows, and even slap an eye patch in weird designs. To find (or fend off) this vending vendomaniac ammunition, watch out for machines which will be aimed at you in spots like . . . chain and dime stores, supermarkets, highway terminals, services organizations (YMCA, etc.), and "neighborhood teen hangouts." The vending machine marketers have high hopes about you because "older guys and even parents pick up teen-age fads and become customers, too."

SCHOOL STUDYING TIP: To whip up that studying heat, try a cool. Turn to an advantage the chiller days now . . . this can help your studying. Laboratory research shows the human mind works best at not over 70 degrees . . . with the optimum range for most of you between 65 and 70 degrees. If the going gets gummy on those textbook pages, check the room temperature. You may well find you do better after you edge the thermostat down . . . or simply open a window.

Junior Editors Quiz on CRICKETS

QUESTION: How can a cricket chirp?

ANSWER: Many of us, including the young folks in our picture, agree that the cricket's chirp is not music, but some find it a cheerful sound.

It is only the male crickets who do the chirping. They have a kind of bow-and-fiddle arrangement to make the sound.

Crickets have two pairs of wings, upper and lower, which lie flat on the back folded one back the other. Each of the upper wings has a file, which is an enlarged vein with a row of points on it, and a scraper, a hard place on the wing with a set of raised ridges.

When he feels like singing, the cricket raises his upper wings so they cross over against each other and then rubs them together.

A file on one of the wings will rub over a scraper on the other to produce the chirping.

Crickets are quite often kept as pets and are sometimes considered as a kind of thermometer, for the more the temperature rises, the faster the cricket chirps.

FOR YOU TO DO: Crickets and grasshoppers are related. Catch one of each and compare them.

Citations Await Teens in the War on 'Slobbery'

By TOM NOLAN
Newspaper Enterprise Assn.

WASHINGTON — Can you do 100 sprints, 12 overhead pulls and make a standing broad jump of 7 feet, 11 inches? Can you run 50 yards in 6.2 seconds, 500 yards in a minute and 37 seconds, and throw a softball 213 feet?

If so, you're a pretty good physical specimen no matter what your age. But if you're a 16-year-old boy and can meet these standards, you qualify for a presidential citation.

They're not easy to meet, however. Only 15 out of every 100 16-year-olds will be able to qualify, predicts the American Association for Health, Physical Education and Recreation (AAHPER), an organization which has spent six years designing the test norms for the Presidential Physical Fitness Awards.

Part of President Johnson's campaign for fitness — dubbed the War on Slobbery by irreverent observers — the award is

the latest approach to a problem which has been of increasing concern to every president since Grover Cleveland — how to keep Americans from growing soft in the middle before their time.

Though limited by the demands of his job to a semiregular dip in the White House swimming pool, Johnson is pretty much a "physical fitness nut" himself.

PLAYGROUND

His first paycheck (as a high school principal) went for the purchase of a volleyball and net for the playground use of his pupils.

Many approaches to the "Flab Gap" have been tried since 1885, when AAHPER was created.

None seems to have worked too well, since most recent surveys have shown that the average American is slowly growing softer and lazier.

The President's Council on Physical Fitness hopes this year's award program — aimed at the roughly 35 million students in the 6th through the 12th grades — will reverse the trend.

ELIGIBILITY

Any boy or girl between 10 and 17 is eligible to compete in the tests, which will be administered by his school.

To win the award — a certificate signed by the President and a greater emblem — the youth will have to better the AAHPER standards in each of seven fitness tests in his age group.

Standards for girls, of course, are slightly less exacting than those for boys.

A 16-year-old girl, for example, would only have to do 50 sprints, run 50 yards in 7.5 seconds and throw a softball 104 feet.

Though the award program is aimed at the nation's teenagers, adults are being recruited into the campaign.

HEAVY DEMAND

Parade magazine reports that its recent booklet, "Fitness is a Family Affair" — an exercise program for the entire family — is in heavy demand today.

Fortunately for most of us adults, however, AAHPER has not yet set formal standards for anybody older than 17.

But for a while, Carolyn pursued her dream. "There was a time when I felt I had to keep up with Lorraine," she explains. "But that passed. I found I really liked all my classes. I especially liked to study the subjects I wasn't so good in, like math and physics, because there seemed to be more challenge in them."

Both girls had time, too, for extra-curriculars. In a high school, Lorraine was a photographer for her school newspaper, was a member of the debate team, and of the Student Cabinet.

Carolyn was a member of the All-City High School Orchestra and was a delegate to Girls' State, as well as editor of the high school paper.

As far as getting parental help for their home work is concerned, the girls' father says "Helping them was out of the question. They were way ahead of me."

Teens Can Ease 'Pain' of Growing

Gilbert Youth Service "Growing pains" are often a reality to teenagers. The pains are more apt to be emotional than muscular.

Teens agonize over being too thin, too fat, too tall, or not tall enough.

The boys are humiliated because their voices are changing, and they don't know when they start a sentence whether it will wind up bass or falsetto.

To be the focus of public attention, even in class, can be frightening.

The shy are afraid of being laughed at, and some counter with an over-aggressive attitude as defense.

BEFORE CROWD

You can work off your own shyness by deliberately involving yourself in activities that put you before an audience.

Get into a debating club or audition for a minor play role. Learn to play a musical instrument and join the band or the school orchestra.

Get into a singing group. If you're afraid your voice will crack when you audition, practice first with a group in your own home.

Do something for those less fortunate than you. Candy Stripes in hospitals around the country don't have time to feel sorry for themselves when they are helping the sick.

DOOR-TO-DOOR

For a baptism of fire, try door-to-door selling — magazine subscriptions, Girl Scout cookies.

Before the first round, write down an opening speech and memorize it. You won't then go blank when the door is opened.

Even if it seems insincere, work on a good smile. And, simultaneously, inject some warmth into your voice, even if you're scared to death. Later on, it will all come about naturally.

And for a big boost to morale, observe how much you stand and walk, and imitate it.

If you're walking with pride, you'll forget those growing pains.

Festival Prize

to State Soprano

WORCHESTER, Mass. (AP)—Miss Noel Rogers, 24, of Ann Arbor, Mich., a lyric soprano, won the first prize in the Worcester Music Festival competition for young artists Thursday night.

She received \$1,500 and the chance to appear with the Detroit Symphony Orchestra in a concert it will give Oct. 28, as part of the annual Worcester Music Festival.

Thar's Coal Dust in Those Duds

CUMBERLAND, Ky. (AP)—The proprietor of a laundrette in this coal mining community has segregated his machines according to the coal dust content of the customer's clothing.

One group of machines is used for women's dresses, baby diapers, etc. The other group of machines is labeled "Miners' Clothes Only."

BATTLE LOOMS — The Volkswagen, in the U.S., faces a real challenge this year from the restyled French Renault.

Revamped Renault Will Challenge VW

By BOB COGINAR and DAVE BURGIN
Newspaper Enterprise Assn.

NEW YORK — Volkswagen, that longtime leader of the little car market, finally may be getting some competition from a firm which several years ago was almost ready to call it quits in the United States.

The company is Renault. It sullied its honorable name in the late '50s by thrusting upon an unsuspecting American public the old, unlamented Dauphine which more than a few people have called a hunk of junk with some justification.

Recently, VW and Renault presented their new models — in Detroit, of all places — to the automotive press. The German entry was comforting because it is always comforting to know that some things are changeless (externally anyway) in an ever-changing world.

Renault introduced its R-10, a sleeker, less boxy version of the old R-4 with a bunch of improvements which should, if Renault goes about it in the right way, make the burghers of Wolfsburg take close notice.

No firm, of course, can ever take away from Volkswagen the reputation it has earned by producing dependable, economical machines.

MADE MISTAKE

Renault made the mistake of once attempting to sell Americans a car that was fine for French driving conditions but hopelessly inadequate on U.S. roads.

So in the years when Americans began to turn to foreign cars, Volkswagen had the product and the means to sell it; Renault did not. Renault now has a vehicle of which it should be proud.

While the R-10 was not specifically designed with the U.S. driver in mind — Renault sells a lot of cars in Europe — it nevertheless acquits itself admirably on city streets and the super-highways.

According to a Canadian motor magazine, the "handling of this car is excellent in our books and one becomes completely confident in throwing the car through corners."

A FUN CAR

It is definitely a fun car to drive with its peppy acceleration, but at the same time this four-door, five-passenger automobile becomes a practical buy for anyone in the market for the smaller-type vehicle.

A fifth listed transportation school as a reason, and a tenth spoke of basic transportation and errands. As might be expected, two thirds mentioned having fun.

By Gilbert Youth Service

If there are those among you who feel that today's teenagers hit the highways in brand new cars given them by indulgent parents, our survey this week may set the record straight.

In the first place, only 21 per cent of the 1,095 young people questioned said they had the use of a car at all.

Of these, 17 per cent reported that they bought it with their own money, 34 per cent were driving cars purchased for them by parents, and 49 per cent had access to the family automobile.

Their reasons for wanting to drive were substantial. More than half said they needed a car to get to work.

Mechanical excellence at 47 per cent was the third most important consideration. The teens were very emphatic about this.

In general, comfort and horsepower were minor considerations in the thinking of those polled.

Wheeling it

For 1967, the Volkswagen sports a new electrical system and generator, a dual braking system and a gusher new engine which gives the car faster acceleration on level ground and better all-around performance on hills with less need for downshifting than in the past. Top speed is 78 m.p.h.

SPINOFFS: There are evil rumors circulating that 1967 is the last year for the Corvair. General Motors denies it but all the bad publicity Corvair received from Ralph Nader, the U.S. Senate and a number of court cases may be too much for even GM to handle. It would be a shame, for the car, by and large, is a sweet little machine and in a class by itself. . . . One of the reasons auto racing is the No. 2 spectator sport (after horse racing) is the pleasant social sidelines. At Watkins Glen, N.Y., for example, a weekend of racing means partying, camping out and having a swinging good time. The races are also fun to watch.

Both cars are well-made

OTHER OPTIONS

The R-10 also offers prospective buyers comfortable bucket seats, plus optional automatic transmission, a sensible idea given the fact that a whole generation of Americans aren't interested in messing with a three- or four-speed manual shift.

Both cars are well-made

Teen Survey Shows They're Not Car Crazy

The total exceeds 100 per cent because many had more than one reason in mind.

Price was the determining feature when teens went car-shopping, 57 per cent of them giving this consideration first place.

But appearance was not far behind, with 48 per cent mentioning this factor.

"I wouldn't like an ugly car," commented Butch Kabb, 16, of Beachwood, Ohio.

Gary Single, 17, of Camden, N.J., qualified his views by saying, "I like sharp-looking cars, but I want one that's in good shape."

Mechanical excellence at 47 per cent was the third most important consideration. The teens were very emphatic about this.

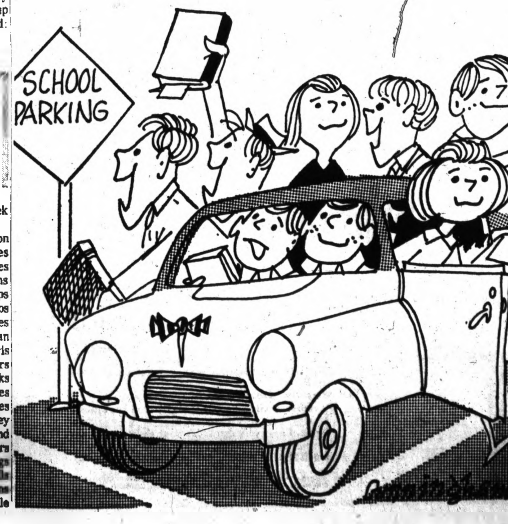

In general, comfort and horsepower were minor considerations in the thinking of those polled.

Marchers Walk Again in St. Louis

ST. LOUIS, Mo. (AP)—Young Negro demonstrators shouting "black power!" and "police brutality!" marched on St. Louis police headquarters again Thursday night, then dispersed. One Negro youth was arrested for throwing rocks. There was no vandalism.

It was the fifth straight night of demonstrations in St. Louis. The crowds have never exceeded 100 persons, police said. A cordon of officers surrounded headquarters and detoured traffic around the vicinity in anticipation of Thursday night's march.

The fatal shooting last Saturday of a Negro youth by a detective touched off the protest marches. On Wednesday, cars were damaged and store windows shattered. Two policemen and a fireman were struck by thrown objects.

MORE MARCHES

Raymond Howard, chairman of the St. Louis chapter of the Congress of Racial Equality, said CORE would sponsor another demonstration tonight.

He said, however, that no one would be allowed to participate unless he attended a session an hour before the planned march in which he said demonstrators would be "oriented to the nonviolent tradition" of CORE.

He said vandalism and violence would not be tolerated and that CORE members would supervise the march. He said it also was agreed to have several police squad cars accompany the march.

Hay Fever-Free Park May Close; Protests Made

MACKINAC CITY (UPI)—Hay fever sufferers who for years have used the 62-year-old public campground here as an almost pollen-free refuge, may have to go some place else next year.

Dr. Eugene Petersen, director of the seven-man Mackinaw Island State Park Commission, has proposed closing the park.

Area residents have put up a squawk. They claim thousands of visitors go to the park for its historic and scenic value plus the relief from hay fever.

Kent Teyson of Mackinaw City, a member of the commission, said the commission will not decide until a meeting this fall or winter on a final decision in view of the protests.

DAMAGED AUTO—A California highway patrolman stands guard last night over an auto damaged by a fire bomb. Roving bands of Negroes created sporadic incidents in

various areas of San Francisco but there was not the riot situation that prevailed the previous night.

Negroes Assist

Riot Area Patrolled

SAN FRANCISCO (AP)—Volunteer Negro patrols, wearing armbands provided by police, walked the streets of riot-shaken Hunters Point today in an experiment to prevent a racial truce from erupting into renewed violence.

City police confined their augmented patrols to the community's commercial street.

City officials had the cooperation of federal authorities in their move to eliminate what they call the cause of the riots—Negro unemployment.

San Francisco Mayor John Shelley, saying he realized he may be jeopardizing his public career, blamed racial discrimination by labor unions and "archaic attitudes" of employer and management groups.

MAKES APPEAL

Shelley appealed to all San Franciscans to get home by 10 p.m. and stay there until 6 a.m. He stressed that he was not placing a curfew on the entire city but asking that all streets be cleared "so that at that inspirational time of dawn we can start work on a creative and exciting program to cure our illness."

The mayor said: "I fully realize that I may be placing in jeopardy my entire public career. Nevertheless, I wish to state with complete candor that, in my opinion, the medieval practice of discrimination by some

labor unions is just as sorrowful and just as unfair as the archaic attitudes expressed by some members of employer or management groups."

The mayor met with San Francisco Negro leaders and promised to talk with both labor leaders and private businessmen in an effort to increase minority opportunities in the city's economic structure.

FEDERAL FUNDS

Shelley's telegram to President Johnson in which he asked for federal funds to attack the "critical unemployment situation" in the Negro areas, resulted in swift action.

President Johnson ordered White House assistant Joseph A. Califano to work on Shelley's request with Secretary of Labor W. Willard Wirtz and Sargent Shriver, director of the Office of Economic Opportunity.

The weather, which had been in the 90s since rioting broke out Tuesday, was expected to be cooler today.

About 1,200 National Guardsmen remained on alert in encampments set up in two San Francisco sports arenas, Kezar Stadium and Candlestick Park, although only sporadic violence was reported overnight.

About 10 leaders of the peace patrol gathered in an evening meeting at the headquarters of the local anti-poverty program and reported that there had

Ford Shuns Donation by Bircher

WASHINGTON (UPI)—House Republican leader Gerald R. Ford yesterday renounced a \$1,000 political contribution from a John Birch Society because of the strings attached.

Ford mailed back the \$1,000 donation to the Republican National Committee sent him by J. Edward Martin of Los Angeles, Calif., a county Republican Central Committee member of the ultraconservative Birch Society.

During a news conference, Ford showed a copy of a letter from Martin, stating that Martin was making a \$1,000 contribution to the GOP National Committee through Ford.

The letter also revealed that Martin and his wife had their \$5,000 returned from the President's Club—an arm of the Democratic party which enrolls political contributors of at least \$1,000.

Ford returned the contribution, he said because the letter contained unacceptable conditions.

During questioning, Ford said that the Republican party will accept, however, any contributions as long as there were no terms attached.

Poverty Bill Vote Splits State Solons

WASHINGTON (UPI)—Michigan's congressmen split their votes strictly along party lines yesterday when the House passed, on a 210-156 roll call vote, the War on Poverty bill.

Of the state's 12 Democrats, all voted in favor of the bill except Lucien B. Nedzi, 14th District, whose name was recorded as paired for the bill.

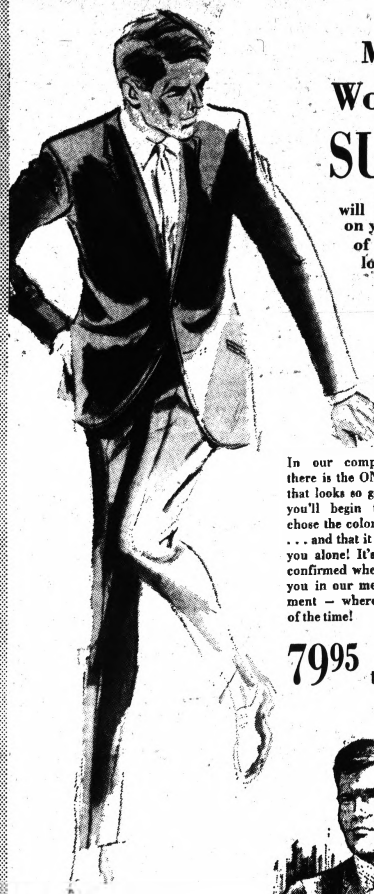

Michigan's six Republicans opposed the measure.

Damascus, the capital of Syria, has been inhabited continuously since around 2,000 B.C. making it the oldest capital in the world.

Lion Look Great

Men's Worsteds SUITS

will look good on you... one of them will look GREAT on you!

In our complete collection there is the ONE Worsteds suit that looks so good on you... you'll begin to believe you chose the color and the model... and that it was tailored for you alone! It's a nice feeling, confirmed when it happens to you in our men's suit department—where it happens all of the time!

79⁹⁵ to \$135

U. of M. Group Holds Sleep-In

Protests Against Use of Police on Campus

ANN ARBOR (UPI) — Members of the Voice Political party, the local chapter of Students for a Democratic Society, staged an all-night sleep-in last night protesting the University of Michigan's policy of using Ann Arbor Police Department plainclothesmen during political demonstrations.

The student protesters, who kept the night-long vigil at the office of Wilbur K. Pierpont, U-M vice president and chief financial officer, said the plainclothesmen "harassed and intimidated" VPP members.

Pierpont, who refused to meet with the students, would not answer charges that the policemen have taken photographs of the students during political demonstrations.

Cutter said the group's protest should be channeled through his office or the student relations subcommittee of the faculty assembly rather than through Pierpont's office.

N. Y. Grows Trees, but Not Very Long

NEW YORK (AP) — A combination of drought, air pollution, hot pavements in the summer and rock salt in the winter has caused the death of 10,000 trees on New York City streets during the last 12 months.

A city tree usually lives 40 to 50 years, compared with more than 100 for a tree in the country. But the chief horticulturist for the New York Department of Parks, Carl Schiff, says they are living far less than that now.

About 5,000 trees a year are planted on the New York sidewalks, with the present total more than half a million, which does not include about two million in the parks.

AP Wirephoto

DOING THE LINDY HOP?—Despite the way it looks, Prince Philip of England (right) and Enrique Butti, chairman of the Buenos Aires, Argentina, electric services, are not doing the Lindy. They are merely clearing a chain in their way as Butti explains the workings of a plant to the prince during his visit yesterday.

Bloody Glove Key Link to Valerie Percy Killer

KENILWORTH, Ill. (AP) — A black, leather-faced blood-stained glove is a chief link to the identity of the intruder who murdered Valerie Percy in her bed Sept. 18.

The crime laboratory reported yesterday that wool from the glove matched fibers found in Valerie's bedroom and on the screen cut by the killer when he entered the home of Charles H. Percy, the Republican candidate for U.S. Senate.

Police searched the grounds of the Percy home again yesterday in an attempt to recover the mate to the right hand glove which police said the killer may have worn to protect his hand.

The slayer chopped a square in the screen and the glass panel of a French door, then reached in to untouch the door and gain entry to the home.

The glove was found in a gully near the home a few hours after the murder was discovered.

The glove was wet, police said, and initially discounted as a clue because there had been no rain the night of the murder.

Police said if the killer wore a glove on each hand, the finger and palm prints found in the house that have not been identified may be of little importance.

Red China, Soviets in Uneasy 'Hi'

MOSCOW (UPI) — Russia and Red China have exchanged greetings on one of the lowest possible levels.

In one of the few remaining contacts between the two Communist giants, low level delegations from Peking and Moscow met yesterday to exchange greetings in honor of the 17th anniversary of Communist rule in China.

With the freeze in relations between the two countries symbolized by the extended absence of Russia's ambassador to Peking and recent ideological blunts by the Chinese against the Russians, the meeting of Moscow's Soviet-Chinese friendship society was considered perfunctory at best.

Viktor Gorshkov, first vice chairman of a Soviet organization for friendship with foreign countries, underlined the uneasy state of Moscow-Peking relations when he wished China success in its "socialist construction."

Mental Disorders Face Tax Cheaters

CHAMPAIGN, Ill. (AP) — Mental illness can stem from cheating on income tax or "anything that one has done and is afraid of being found out."

This is the view of Dr. O. Hobart Mower who said there "is going to be a certain amount of personality disorder in every society no matter how good it is... because the person involved has decided to cheat on his society."

Such a person, according to Dr. Mower, "is afraid of external detection and his conscience bothers him."

B52s Hit Near Buffer Zone

SAIGON, South Viet Nam (AP) — B52 bombers delivered a one-two punch today in two raids against North Vietnamese forces fighting U.S. Marines just south of the demilitarized zone.

The B52s unloaded tons of bombs on infiltration routes, and supply and assembly areas for the Communists fighting on the southern edge of the zone. The Marines occupied the post and found 51 North Vietnamese bodies.

One raid hit 20 miles southwest of Dong Ha, now a major base for Marines battling North Viet Nam's 324th division in Operation Prairie. The other

bombing attack was made 18 miles northwest of Dong Ha. The two raids came less than 12 hours after Marine artillery, mortars and napalm rained down on a Communist command post in a valley a mile and a half below the demilitarized zone. The Marines occupied the post and found 51 North Vietnamese bodies.

U.S. forces in Viet Nam rose to 317,500 today with the arrival of 2,500 more men — most of them support units — of the 4th Infantry Division. U.S. forces in Viet Nam now outnumber the 317,000 men which South Viet

Nam's regular army claims by 500, although the South Vietnamese also claim to have nearly 400,000 militiamen, local forces and the like.

The 4th Division now has about 6,500 men in Viet Nam, and the rest of the division is to arrive within the next few weeks.

U.S. planes flew 126 bombing missions over North Viet Nam Thursday, and pilots claimed damage or destruction to 52 barges, 13 bridges, nine anti-aircraft sites and eight buildings.

Three of the anti-aircraft sites gained through a broken front-door glass.

Pontiac police said entry was gained through a broken front-door glass.

The Firestone store at 146 W. Huron was broken into this morning, the intruders escaping with two portable television sets valued at \$238.

2 From Nuernberg Trials Freed; Only Hess Remains

BERLIN (AP) — Two more of the Nuernberg trial war criminals go free at midnight tonight, leaving Rudolf Hess the only Nazi prisoner in West Berlin's Spandau Prison.

Baldur von Schirach, the first leader of the Hitler youth movement and later the Nazi gauleiter of Vienna, completes a 20-year sentence for complicity in the murder of 50,000 Austrian Jews and providing slave labor for the German war effort.

Albert Speer, a brilliant architect who ran the Third Reich's armament industry, has served the same term for using slave labor and prisoners of war in the Nazi production machine.

As they walk out of the sprawling prison into the glare of television and camera lights, Hess, Hitler's onetime deputy fuhrer, will become the only inmate of the fortress-like prison built by the Prussians to hold more than 600.

SERVING LIFE

Hess, 72, is serving a life term for initiating and carrying out aggressive war and plotting against peace. The British, French and Americans have asked the Soviets to agree to his transfer to a smaller jail, but the Soviets have shown no sign of agreeing. In one of the last remnants of four-power occupation cooperation, the four World War II allies run Spandau at a cost of \$100,000 annually to the West Germany government.

Von Schirach, 59, lost the sight of one eye in prison and was divorced by his wife in 1950. His mother was an American. He claims to be the descendant of three signers of the Declaration of Independence, and he has a sizable inheritance in the United States. It has been held by the U.S. government.

He is expected to live near Munich and write his memoirs.

MODEL PRISONER

Speer, 61, has been described as a model prisoner.

He kept himself fit by working in the prison's spacious garden. He will live with his wife in Heidelberg and plans to resume his career in architecture, specializing in house design, his lawyer said.

The two men spent 7,305 days in prison following the collapse of Hitler's reich. Their work was a prison cell, sparsely furnished with bed, table, chair and toilet, a walled plot to garden and an exercise courtyard.

While in prison Speer read Shakespeare, Mozart, Kleist and the latest architectural magazines. Von Schirach studied philosophy, Latin and French, wrote poetry and worked crossword puzzles.

The prisoners were allowed to read German newspapers, but any mention of their names was deleted.

Federal Share Is \$2.3 Million for Youth Corps

DETROIT (UPI) — The Michigan economy is richer by \$2,378,614 as a result of the 14 Neighborhood Youth Corps projects operating in the state, the U.S. Department of Labor reported yesterday.

The figure represents the federal share of operating costs allocated to local sponsors of the Youth Corps projects, principally wages for 5,440 young people recruited from impoverished areas of the state.

These enrollees, ranging in age from 16 through 21, worked in projects designed to fight the local war on poverty. In most cases, the money earned by the youths enabled them to return to school in the fall.

SENTENCED IN HUNGARY—This picture, taken earlier, shows Volker B. Lemme, German-born Canadian, and his wife, Janet, of Seattle. Lemme has been sentenced to eight months in prison and his wife to six months after being found guilty of attempting to cross the Hungarian frontier illegally and trying to smuggle Lemme's East German sister and brother-in-law out of Hungary. Attorneys are appealing the sentence. The three months they spent in jail will be included in the term.

Speedy Spray of Water Seen as Mining Advance

ANN ARBOR (UPI) — A new machine which squirted a jet of water faster than the speed of sound may provide a breakthrough for copper mining in the Upper Peninsula, a University of Michigan professor said today.

The jet shoots a stream of water five-thousandths of an inch thick, can cut through any material and is now economically feasible, Prof. Norman C. Franks of the wood technology department said.

It could be a possible breakthrough for Upper Peninsula mining by providing a concept for continuous hard rock mining," he said.

"In copper mining currently, they must drill and blast and then re crush the rock to get at the ore."

He said no mechanical device such as is used in coal mines has been developed to work a copper mine face on a continuous basis. The rock is too hard and the tool wear is too great.

LBJ Gets a Hand for Cultural Endeavors

WASHINGTON (AP) — President Johnson, who makes no claim to being a culture buff, has been told by two experts on the subject that his administration has done more than any other to advance the arts and humanities.

Johnson, who sometimes appears self-conscious about his naturally folksy manner, has yearned for wider recognition of his contributions to culture. He

Then came another testimonial, from Dr. Barnaby C. Keeney, chairman of the National Foundation for the Humanities and former president of Brown University. He said no administration ever did more for the humanities in general and education in particular.

Lead Poison Still No Threat

By Science Service

LOS ANGELES — Americans are not threatened with chronic lead poisoning despite the fact that we live in a highly leaded environment.

This is the conclusion of Dr. Thomas J. Haley, toxicologist at the University of California at Los Angeles Laboratory of Nuclear Medicine, who has recently made a survey of the lead problem.

Some scientists have expressed fear of chronic lead poisoning from an atmosphere polluted with exhaust from engines burning leaded gasoline. The use of leaded gasoline has increased 250 per cent in recent years.

By coincidence, both John Adams and Thomas Jefferson died on July 4, 1826.

got twofold recognition Thursday night.

Roger L. Stevens, chairman of the National Council for the Arts, called on Johnson and asserted that to administration ever did as much for the arts and humanities.

When Stevens and Keeney—both Johnson appointees—later reported all this to newsmen, they were asked about Johnson's reaction.

SEE NEWSMEN

"He was delighted," said Stevens.

A former Broadway producer, Stevens said Johnson's position as a promoter of culture has been made secure by at least two developments.

State College to Be Dedicated

MACKINAC ISLAND (UPI) — Michigan's newest four-year college, Mackinac College, will be dedicated and its first president, Dr. S. Douglas Cornell, installed at ceremonies tomorrow.

About 150 representatives from colleges and universities and state and local officials are expected for the ceremonies.

U.S. Public Losing Economic Optimism

ANN ARBOR (AP) — Most American consumers still view the nation's economic future with optimism—but many feel a recession is likely to happen again.

These findings were reported by the University of Michigan Survey Research Center, citing its latest quarterly survey of 600 consumers attitudes and inclinations to buy.

Widespread awareness of rising prices and high interest rates have caused many people to doubt whether prosperity will continue, according to the survey, which was conducted in August. "American consumers have more than one-third expect become much less optimistic price increases of more than since the first of the year," it said.

The survey added that with the economy in its sixth year of continuous expansion, the proportion of families reporting a high increase remained very high in August.

The survey is based on personal interviews with the heads of some 1,250 families, representative of all families in the continental United States.

A recession was thought, "likely to happen again" by 32 per cent of all families. A year ago, only 20 per cent felt this way.

Relatively few people, however, believe that a recession will come soon. The consumer's greatest worry is in the field of price increases, the survey found. Nine out of 10 people indicated they expect prices to go up during the coming year, and more than one-third expect price increases of more than five per cent in 12 months. The report added:

"Since late in 1965, the majority of consumers have believed that the war in Viet Nam has a favorable influence on domestic business."

"But a further increase in the cost of the war is viewed in a different light. Of those people with an opinion in August, three in five foresee that such an increase would have an adverse effect on business at home."

CIVILIANS WATCHED—Women and children, rounded up when U.S. Marines moved into a Viet Cong-controlled village about 1,000 yards south of Viet Nam's demilitarized zone, look up as they are interrogated. Marines captured the hamlet after a short fight with snipers. All civilians were later released.

Ike: Viet War 'One of Meanest'

CHICAGO (AP) — Former President Dwight D. Eisenhower says the Viet Nam conflict is "one of the meanest wars we've ever been in."

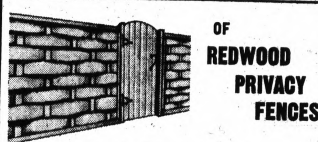

Eisenhower told newsmen Thursday night personal contacts with American military and civilian personnel in Viet Nam indicated optimism on their part.

The former president arrived by plane from his Gettysburg, Pa., farm to speak at a Republican fund raising dinner today. His brother, Earl, is the GOP candidate for treasurer of Cook County. Speaking of the November election, Eisenhower predicted

License Sales Start Saturday

Commercial Plates
Date Is Moved Up

LANSING (UPI) — New license plates for trucks, vans and other commercial vehicles will go on sale starting tomorrow, the secretary of state reported today.

Secretary of State James Hare said the new sales date for commercial license plates is aimed at alleviating a last-minute rush for the plates in February.

Deadline for getting commercial plates is Jan. 31.

All other license plates for regular passenger cars, motorcycles and others will go on sale at the regular time, Nov. 1.

Hare said civil service branches of his office will not be open tomorrow.

He added prepared applications have been sent to owners of commercial and A-trailers to make the job of obtaining the new plates easier.

Debts Piled Up . . . Snow Didn't

HOLLAND (UPI) — Holland's Carousel Motel and winter ski resort, plagued by debts and a lack of snow last year, has tossed in the sponge and will cease operations Saturday, it was disclosed today.

Roger Giles, executive vice president of the Holland Chamber of Commerce, said Larry Phillips, representative of the United Insurance Co. of Chicago, informed him this week that the 3-year-old resort, about a half mile southwest of Holland in Laketown Township, will close Saturday.

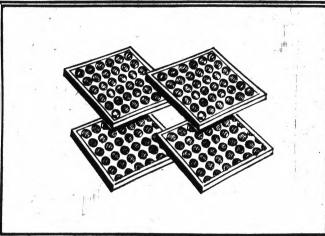

Snow Time Is First

TORONTO (AP) — Snow Time, a filly owned by Hugh Grant of Bradford, Pa., won the Ajax Friendship Purse at Woodbine race track Thursday.

Science Tries to Drive the Animals to Drink

NEW BRUNSWICK, N.J. (UPI) — In contrast to people and despite many opportunities no rat or mouse has yet become addicted to strong drink on its own.

Even monkeys, which are much closer to people on the evolutionary scale, seem able to avoid the alcoholic state.

Dr. David Lester of the Rutgers University Center of Alcohol Studies was taking notes of a fact rather than drawing invidious comparisons. He is a scientist dedicated to getting at the basic biological causes of human alcoholism.

For some years now he and other scientists of like mind have been providing an assortment of laboratory animals with free access to alcohol, hoping to produce an animal "model" of the human alcoholic.

Lester said all these experimental efforts have failed so far but may eventually succeed. **DRIVE TO INTOXICATION**

To be such a "model," an animal whether rat, mouse, hamster or porcupine, must develop loss of control and a drive to reach the intoxicated state," said Lester.

But when given free choice between watered alcohol and pure water, many animals go only for the latter, while those who sample the alcohol take no more than their bodies can handle with full sobriety.

To get animals drunk, it has been necessary to give them nothing else to drink but watered alcohol.

The experiments have run into other troubles, continued Lester.

Some hamsters will take up to 88 per cent of their daily fluids in the form of a 10 per cent alcohol solution.

ANIMALS DIFFER

The limit for porcupines has been 36 per cent. But the porcupines rather than the hamsters "seem slightly intoxicated at times."

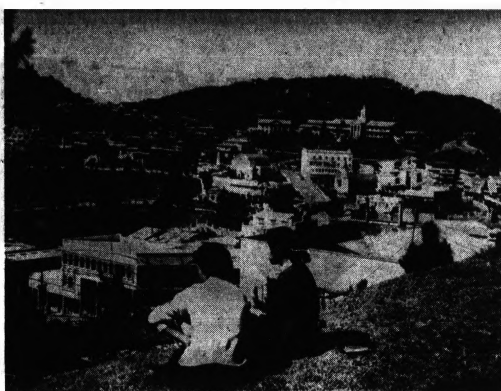

This goes to show there are wide differences among species in the biochemical ability to break down alcohol and dispose of it without being overwhelmed in drunkenness. The sought-for animal "model" of the human alcoholic would have to metabolize alcohol at about the human rate.

If science had such a "model" it could seek out a biochemical basis of alcohol addiction. When found it might be correctable with drugs. If it could be, science would have a chemical cure for human alcoholism.

The only present cure is psychological. The cure rate is admittedly low.

Alcoholics Anonymous, more successful in curing than any other group, has always maintained the alcoholic is biologically different from other human beings. Only in him is alcohol in any amount inevitably poisonous.

Lester and his colleagues want to prove that, with an animal "model."

AP Wirephoto

AMERICAN LEGACY—Two girls sit on a hill and look out over Baguio, mile-high mountain resort just 30 minutes flying time from Manila. An American governor of the Philippines, W. Cameron Forbes, discovered Baguio in 1901 and decided to make it a

summer retreat. He laid out plans for the city. Baguio, likely site of the summit conference on the Viet Nam war next month, is one American legacy that Filipinos are happy to boast about.

Summit Site Pride of the Philippines

MANILA (AP) — There is an old saying among Filipinos: Magellan discovered the Philippines but the Americans discovered Baguio.

The mile-high mountain resort, likely site of the Oct. 18 summit conference on the Viet Nam war, is one legacy of American rule that Filipinos are happy to boast about.

Just over 30 minutes' flying time from Manila — or five hours by car — Baguio is the unofficial summer capital of the Philippines.

It is one of the favorite tourist resorts in Southeast Asia. Visiting foreign dignitaries are usu-

ally whisked up to the government guest houses for a day or two among the pines in the brisk mountain air.

PRESIDENTIAL FAVORITE

Baguio also has a sentimental value for President Ferdinand E. Marcos, because his wife, Imelda, accepted his marriage proposal there. Then, as now, Baguio had a shortage of hotel rooms and the future president had to move in with a newsman friend while he courted his wife.

It makes a change from the sweltering 90-degree heat of Manila. Before the war, when the Philippines was governed by the United States, the whole government moved to Baguio every year for two months.

This tradition was started by W. Cameron Forbes, governor of the Philippines. A Massachusetts man, discovered Baguio during a riding trip in the mountains in 1901 and decided to make it a summer retreat. He laid out plans for the city and built a mountain home called Ipsydis.

The Japanese occupied Baguio for nearly three years during World War II. Gen. Tomoyuki Yamashita, the "Tiger of Malaya," surrendered the last Japanese forces there. Much of the city was de-

Lake Levels to Dip More

DETROIT (UPI) — The levels of Lakes Michigan, Superior, Huron and Erie are expected to drop two to four inches during the next month, the U.S. Army Corps of Engineers said today.

Superior, Huron and Michigan, which are now three to four inches lower than they were 30 days ago, will fall another two inches, the weekly report said.

Erie, four inches lower than one month ago, is expected to

be destroyed in fierce fighting, in which President Marcos played a prominent part. Baguio has been rebuilt into a quiet resort town of some 60,000 people.

It has two golf courses, one at the lush Baguio Country Club and the other at the U.S. recreation camp John Hay.

American servicemen from the three U.S. military bases in Luzon take their families to John Hay to escape the withering heat and humidity of the plains.

TIGHT SQUEEZE Authorities in Manila say they expect more than 1,000 officials, observers and newsmen for the summit conference. It will be attended by the leaders of Australia, New Zealand, the United States, South Korea, Thailand, South Viet Nam and the Philippines.

Accommodation will be taxed. Baguio has only one good hotel, the Pines, with 100 rooms.

According to the presidential palace, correspondents will stay at the hotel, observers in government cottages and the visiting heads of states in luxury mansions.

The private homes, owned by wealthy Filipinos and Americans, are generally lavish affairs similar to Swiss chalets.

The meeting of the seven leaders will take place at Mansion House, a gracious Spanish-style government residence which stands among pine trees and landscaped gardens. Philippine residents often use Mansion House as a weekend retreat.

Officials recognize some difficulties, including a shortage of accommodation and a lack of international communications facilities.

The landing strip, some 10 minutes drive from Baguio, is atop a mountain. It can handle only twin-engine commercial aircraft. At this time of the year it is also frequently closed because of monsoon rains.

DATLINE: VIET NAM, by Jim G. Lucas (Crown \$4.95). A war correspondent Lucas conveys the horror of war in remarkably few words.

The 35-year-old correspondent for the Scripps-Herald Newspapers, who covered World War II as a marine combat correspondent, and won a Pulitzer Prize for his reporting of the Korean War, seldom chose a Saigon dateline for his dispatches in nearly two years in Viet Nam.

He prefers the action in such remote spots as That San, Hue, Quang, and Phung Hiep.

His subjects most often were the enlisted men from Indiana or Arkansas or Texas — men who knew him as "Jim" and of men versus war.

THE GREAT ROGUE: The Life and Adventures of Captain John Smith. By Paul Lewis. McKay, \$5.95.

The man who is remembered mainly for a very dubious incident involving Pocahontas was one of the greatest adventurers in the age of adventure.

No more than a youngster when he became a mercenary soldier, he quickly became a military leader. He fought three prodigious duels in a siege against the Turks, later was captured and sold into slavery.

Escaping into Russia, he was one of the first travelers to visit Russia and Moscow.

At Jamestown he was a supporter, but in that hickering settlement, he finally became the only man who could keep it operating.

Among other things he was a CWA Talks With Bell Resume

DETROIT (UPI) — Contract negotiations between Michigan Bell Telephone Co. and the Communications Workers of America resumed yesterday.

The negotiations were broken Sunday night after the contract expired last Friday night.

The union is in the process of taking a strike vote but a spokesman said results of the vote would not be known for another week.

Bell said 539 employees were laid off in the Pontiac area and 47 were off the job at one garage in Detroit but all of the employees had returned to work in Royal Oak.

Exiles Admit Raid

Cuba Sugar Site Bombed

MIAMI, Fla. (AP) — Cuba reports that a "pirate plane" apparently from the United States dropped bombs on one of its important sugar shipping centers. Cuban broadcasts monitored in Miami said no damage was inflicted.

Millant-Castro groups in Miami with a record of previous raids on Cuba said they did it. A spokesman said substantial damage was done.

Residents of Nuevitas, on the north coast of central Cuba, where the bombs fell early yesterday, massed last night for protest.

Havana Radio, reported this, said the rally was called "to condemn the piracy act committed by imperialism."

A Cuban armed forces ministry communique said only one of three bombs exploded.

MISSISSIPPI POWER PLANT

The military said the bomb landed more than 1,500 feet from its apparent target, an electric power plant under construction.

The other two, the communique said, were recovered at nearby Port Tarara. They were reported found near warehouses, presumably sugar storage buildings.

In Miami, spokesman for two allied organizations — the Insurreccional Movement for Revolutionary Recovery and Comandos L — said it was their commandos who dropped the bombs.

The groups called a news conference for this afternoon to give details of the action.

MIR, alone and together with Comandos L, has made repeated raids on Cuban sugar installations.

In a 1964 raid on a sugar mill in Las Villas Province, a plane was shot down. The pilot was killed and his two companions were later executed.

Truman Is Still Sidelined by Intestinal Disturbance

INDEPENDENCE, Mo. (AP) — Former President Harry S. Truman has been confined to his home since his return from his hospital where he was taken July 30 suffering from severe intestinal colitis.

Truman's long-time secretary, Rose Conway, said the 85-year-old former president presumes to return to his office "any day now."

But friends say Truman suffers daily spells, especially when he attempts to move about as little as possible, they say.

The intestinal disturbance two months ago kept Truman in the search hospital, Kansas City, for six days. Four days later, he was released to his home in Independence, Mo., where he was taken to his office in Kansas City for a speech.

NEAR LIBRARY

The Truman Library, where the former president has a large office, is about a half mile from his home. In recent weeks, Truman has arrived there at 7:30 a.m. — before the office help and returned home for the day at 11 a.m.

Two years ago, he fell again in the bathroom in his home and was in the hospital for nine days with two rib fractures and cuts and bruises about the face. The year before, he had a hernia operation and close friends say he never fully recovered his strength from that.

Truman says daily to the Truman home in Independence, Mo., where he is still recovering from his intestinal trouble.

Turnabout Time, Teachers Graded

Chrysler Plant in Ohio Idled

DAYTON, Ohio (AP) — It's turnabout time at the University of Dayton, with students grading the teachers, instead of the other way around.

Alpha Kappa Psi business fraternity is sponsoring a project operation at Chrysler's stamping plant, stopped yesterday when some 4,000 members of the United Auto Workers Local 122 went on strike.

Negotiations for both sides met through the night, and early yesterday were still in session when the 1,800 - member day still walked off the job and set no picket lines at 10 a.m.

Train Recused

The talks, concerning health, safety and production standards, were recused shortly after the strike started. Resumption of negotiations were scheduled today.

The strike could affect plans to nearby Detroit, run out of Chrysler's 1967 mid-size fuel and had to remain in the plant in this Sun County, which is a truck freight hub. County commission chairman 300 gallons of diesel parts for most Chrysler cars.

Wallace: Both Parties Slipping

BIRMINGHAM, Ala. (AP) — Gov. George C. Wallace, campaigning for his wife for governor, says people across the nation have turned sour on both major political parties.

Still appearing in the role of a "maybe" presidential candidate, Wallace nevertheless promised thousands of cheering, banner-waving followers last night that he will "keep on fighting Lyndon B. Johnson" and do it "in the states where it counts."

It was the formal kickoff of Lurleen Wallace's race for governor against a Republican and an independent, and it brought loud and frequent rebel yells from a crowd estimated by Police Capt. George Wall at 8,000 to 10,000.

Hundreds unable to get into the city auditorium got a glimpse of the governor and his wife when they spoke briefly outside after the rally.

Wallace divided his criticism between Johnson and for-

mer Vice President Richard M. Nixon, choice of many Southern Republicans for president in 1968.

MORE THAN EVER

Wallace said more people than ever before are listening to him now when he deplores the trends toward centralized government which he said are prevalent in the nation.

He pointed to segregationist Lester G. Maddox's victory in the Democratic gubernatorial runoff primary in Georgia as evidence the states rights movement is gaining momentum "day by day, hour by hour, across these United States."

"We shall continue until our Constitution is restored," he said.

"We shall continue until the debris is swept clean from our streets and our civilization is secure and bright and promising for our children."

GEORGE WALLACE

Hanoi: Talks Are Cover-Up for Escalation

TOKYO (UPI) — North Viet Nam denounced the forthcoming Manila conference on Viet Nam as a "smokescreen of peace" today and charged the United States with escalating the war by sending Marines into the demilitarized zone.

U.S. officials in Saigon flatly denied the Communist charges.

Although American bombers have hit Communist concentrations in the international buffer zone between North and South Viet Nam on several occasions, no U.S. ground troops

have been in the neutral area, a spokesman said.

Radio Hanoi said the North Vietnamese Army high command filed a protest with the International Control Commission charging that U.S. Marines were airlifted into the DMZ on Sept. 15 and "conducted ferocious raiding operations there."

The U.S. command in Saigon says North Viet Nam has been infiltrating substantial numbers of troops into the zone and using it as a staging area to mount attacks on South Viet Nam's northern provinces.

Marine units have been fighting just south of the demilitarized zone — sometimes as close as 100 yards — for more than a week in a series of sweeps against North Vietnamese units.

Bonus at Fair

GREELEY, Colo. (AP) — Visitors to the Harvest Fair in Island Grove Park had an added attraction — a 300-pound black bear in a tree. The animal has escaped from a nearby zoo. Firemen in tower equipment hauled the bear down

Control Measures Are Listed to Prevent Invasion by Ants in the Home

2 Killed in Viet

WASHINGTON (AP) — The Defense Department announced Thursday that two Michigan Marines have been killed in action in Viet Nam. They were Lance Cpl. Hermon E. Fuller Jr., son of Mr. and Mrs. Hermon E. Fuller of Ypsilanti and Pfc. David R. Wargo, son of Mr. and Mrs. Steve Wargo of St. Charles.

Common household and lawn ants, as well as their larger cousins, carpenter ants, are common Michigan insects. However, there is one important difference between them, notes Mrs. Carol C. Kurth, home economist for the Cooperative Extension Service in Oakland, Wayne, and Macomb counties.

Carpenter ants are wood destroyers while smaller house and lawn varieties do not damage wood.

Carpenter ants should not be confused with termites. Carpenter ants often restrict their travel in houses to a door jam, window sill, or corner section of a foundation plate. They do little damage to structural timbers compared to termites.

In addition the tunnelings made by carpenter ants are clean and almost polished appearing and are cut across the grain of the wood. Sawdust produced by these ants is coarse and stringy.

TERMITES

Termites leave no sawdust and their tunnels follow the grain of the wood and tend to be rough and tooth-notched.

Dark brown to black in color, carpenter ants range from one-fourth to one-half inch in length. They often nest in rotten parts of trees in the yard and travel from these nests into houses during the summer.

Common household and lawn ants look like carpenter ants but must be much smaller. They may be black, brown, red, or yellowish in color.

These smaller ants invade your home in search of food, mainly sweets and fats, and to establish nests. Once they are established in a building, it may be hard to get rid of them, Mrs. Kurth warns.

Ant control in buildings is not easy, but she suggests the following control measures. With carpenter ants the best solution is to find the nest if possible. Nothing where the ants come from and where they return is the best clue.

Once the nest has been found, one of the following solutions may be injected into it:

- 2 per cent chlordane oil solution.
- 1 per cent lindane dust.
- 10 per cent dieldrin oil solution.
- 5 per cent pentachlorophenol oil solution.

For treating carpenter ant-

well established runways. Applying an insecticide, such as rotenone dust, to their run-

ways helps control or even eliminate them.

Elimination of household and

Lawn, Garden News

lawn ants follows the same procedure as for carpenter ants. Since some of these ants infest lawns as well as buildings, control should begin with the lawn, progress to the foundations and porches, and end up inside the building.

For more information on ant

control, write the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C.

Ask for Home and Garden Bulletin No. 23 entitled, "Ants in the Home and Garden — How to Control Them." Price is 10 cents.

Michigan State University Cooperative Extension Service has printed a bulletin No. E497, entitled "Wood Damaging Insects in the Home."

This may be obtained from the local extension office, 155 North Saginaw Street, Pontiac, Michigan 48058, without charge.

Lawn and Garden News

ONE A DAY—Thirty blossoms hath this sunflower, one for each day in September. Admiring his floristic specimen is Rolf Weeks, 16, of 2130 Lakeshire, West Bloomfield Township. Rolf is the son of Mr. and Mrs. Elmer Weeks.

Sunset Wins Gold Medal

Gold Medal awards for new flowers are seldom given. Since before the second world war, 1939, only two have received this honor until Cosmos 'Sunset' merits it with 1966 release for introduction.

In 1950, the breeding achievement in the first really red petunia 'Fire Chief' won a gold medal award, parent forerunner of the fine red hybrid petunias of today. In 1963 came the next achievement in the popular extra dwarf zinnias of only 6 to 7 inch height, called 'Thumbelina'.

Now for 1966 comes the first scarlet red Klondyke cosmos 'Sunset'. With a few extra petals, it is termed semi-double, but its novelty is in its overall red color. Previous Klondyke or sulphureus cosmos have been yellow or gold.

Sunset opens a brilliant vermilion red and later shows an orange underlay. An early free bloomer, Sunset continues to grow and bloom through the summer.

Sunset cosmos is another Japanese innovation and it happens to be the first All-American trial entry by its breeder, Masayuki Hashimoto of Iwate-ken, Japan.

COLOR BREAK

Unique as it is, it may well be the color break needed for further breeding of this easily grown, early flowering cosmos.

Amateur gardeners, as well as plant breeders, may find such important color or type mutations or "sports" in their gardens. They may need to be "fixed" or trueed up by continued selections or in-breeding before release but seeds of interesting sports should be saved and reported whenever found.

The valuable Sensation cosmos was found and entered in the All-American trials by an amateur gardener. An amateur breeder originated the 1965 winning delphinium 'Connecticut Yankee' and another amateur produced the 'McKana Giant' columbines.

A preacher on vacation discovered the first chrysanthemum-flowered marigold 'Daisy Sunshine'. That and several others, because of its use as a parent, have won awards. 'Spun Yellow' of 1966 is the newest of these refined chrysanthemum-flowered marigolds.

Gardening is deservedly the greatest of all hobbies and most rewarding. Anyone might be a benefactor with discovery or breeding of a new variety.

Decorative Touches Transform Garden

No matter how beautifully your garden grows, it can be made even more distinctive with the help of a few decorative touches that combine style with utility.

Your neighborhood hardware or garden supply store carries a wide variety of outdoor aids to keep your lawn and garden neatly landscaped with a minimum of effort so that you can take full advantage of summer-time leisure.

Aids include such items as lawn edging to keep your grass trim, props to help small plants grow straight and heavy-duty curbing to keep gravel where it belongs—in your driveway away from the lawn.

Lawn edging comes in several basic forms and a variety of sizes, according to the Aluminum Association.

One popular type comes in straight lengths and is installed flush with the ground.

NEAT EDGE

It gives grass and flower beds a smooth, neat edge and works much the same as the molding on your kitchen counters.

Another type of edging comes in the form of a roll of flexible aluminum fencing, four to eight inches high.

It can be used as lawn edging or to protect flower beds against the feet of unwitting tramps.

The flexibility and easy installation of lawn fencing lets the adventurous gardener experiment with a variety of differently shaped flower and shrubbery beds throughout his garden.

A special kind of heavy-duty lawn edging is often used to protect grass and flowers from the crush of auto wheels.

Installed between driveway and lawn, it is strong enough to support the weight of an auto that strays from its path.

Aluminum is most commonly used for lawn edging and fencing because it does not corrode in outdoor weather and never needs painting.

EASY TO CLEAN

The only cleaning is needs is a hosing, easily taken care of while watering the lawn.

If you have young trees in your garden, it's a good idea to use guy wire or a plant prop to keep them growing straight and tall.

Use a material that adds to

Harvest Crop in Autumn

The first, or summer crop, of autumn-fruiting raspberries is borne on canes developed the previous season.

The fall crop grows on the tips of the current season's shoots.

Cornell University researchers report that American horticulturists have known about autumn-fruiting raspberries since 1896.

The Ohio everbearing black raspberry was discovered in 1832 and cultivated a bit.

In the past 40 years, a few polyploid autumn-fruiting varieties were grown occasionally in gardens but most were small, crumbly, dark red and tart. Many crosses followed, English varieties included.

Researchers, reporting progress, believe that it will be possible within a few years to have home-grown red raspberries from about June 20 to Oct. 20.

Sow Sparsely

If thinning out seedlings and throwing them away hurts your conscience and pocketbook, plant the seed as sparsely as possible and you won't have to thin so much later.

Soil Chemicals

Harmful to Hands

Don't fret about garden hands. Before working in flower or vegetable garden, be sure to slip on a pair of gloves.

The chemicals in the soil that are so helpful to flowers are harmful to your skin.

As an extra precaution, make up some hand lotion out of two ounces of glycerine, three ounces of good quality witch hazel and two ounces of rose water.

Many Varieties

Bananas, the largest of the tree-like herbs, have more than 60 species and over 200 varieties in their native habitats of tropical Asia, Africa, Australia, and adjacent islands.

Plant Biennials for Next Year's Beauty

Foxgloves, canterbury bells, the time to sow hollyhocks, Ice-sweet williams and other biennials with attractive flowers fill the summer lull in your garden when few other plants may be in bloom.

Tulips were through by late May. Anemones and perennials put on their show in mid and late summer.

Biennials bridge the gap between spring flowers and those coming in late summer. A Pennsylvania State University correspondence course tells you how.

Biennials need two growing seasons to produce flowers. So you plant seeds the summer before the year of bloom. Seeding time for foxgloves and sweet williams is late June.

Learn more about biennial Canterbury bells, delphiniums flowers. Study the Penn State and wall flowers are planted correspondence course. Send in mid-July. Early August is your name and address with

\$2.75 to Biennials, Box 5000, University Park, Pennsylvania 16802. A course copy will come to you by mail.

Tall Pole Beans

Bush beans are harder than the upward-trained pole beans and may be planted earlier in the season.

Don't plant pole beans until after the soil has warmed and the weather settled.

Bent grasses should be treated with fungicide to protect it against snow mold.

Showy, bright yellow blossoms atop the much branched stems of yellow wild indigo.

Convention in Boston Features Make-Believe World, Real Food

By JANET ODELL
The Pontiac Press
Women's Editor

BOSTON — Between make-believe airplane flights around the world and make-believe sea voyages, it's a wonder we aren't seasick. But it's all in good fun and we food editors appreciate the efforts made by our hosts to give us a pleasant time.

Thursday morning the National Association of Frozen Food Packers gave us a look at what we might eat if we were in four other parts of the world at that time. Frozen foods were the basic ingredients of all the dishes.

On the American table were frozen pancakes, waffles and French toast. For a brunch in Switzerland there was creamed chicken and spinach.

OLD VIENNA

In Vienna it was coffee time and the assortment of coffee cakes and pastries was bewildering. Dinner in India was a vegetable curry and gingered melon balls.

Down under in Australia, a beef dish, "Toad in the Hole" with wine flavored gravy was the special offering along with hot fresh bread and a crock of butter.

It was the first morning this week that I could choose a normal breakfast, one of reasonable size.

There's a new Chinese noodle snack just going into national distribution — Klay Noodles "I, Not I" in name. They come in flavors like chicken, barbecue, herb and spice, bacon and cheese.

Another new assortment of food comes from the Duffy-Mott Company. In addition to their regular apple juice, they now bottle it combined with cherry, berry, orange or apricot. They also put out a line of canned vegetables. In an effort to be different, they were serving green bean fritters which had an interesting taste.

The other new product on display was the M Company's no-rust "Rescue" soap pads. One side is sponge, the other a tough nylon. It's supposed to be kinder on fingers, harder on dirt.

Back to the Sheraton-Plaza for "hunchon at the Captain's Table" with Anderson, Clayton

& Co. Foods Division, the makers of Chiffon Margarine and Seven Seas Salad dressings.

It was our first salad luncheon. After hot consomme, we went to the buffet table for a beef and bean salad, chicken and white grapes with green vegetables. The newest pourable dressing was used on all three.

Snappy cheddar cheese, red wine and just a hint of blue cheese go into this tangy mixture.

It began to rain shortly before we boarded buses for a trip down the coast to Plymouth where we were to have a tour of Pilmoth plantation.

Many Pontiac Press readers will have seen this replica of the first village built in the new world by the pilgrims. It was nearly dark by the time we arrived and the houses have no lights. Our hosts, Gen-

Election Is Slated

The annual meeting and election of officers will take place Monday for the Avenue Chapter No. 583, Order of Eastern Star at 8 p.m. at the Masonic temple on State Street.

ROBERTA JEANNE SOMMER

May vows are planned by Roberta Jeanne Sommer and Samuel Lawrence Chappell. Their parents are Mrs. Robert F. Sommer, and Mr. and Mrs. Kenneth Wise of Taylor. They are both students at the University of Michigan.

Mrs. Harold A. Fitzgerald of Ottawa Drive (left) serves Mrs. Milo J. Cross of North Hammond Lake Drive during the reception honoring Mrs. Virginia Jackson, new executive director of the YWCA Thursday evening. Mrs. Fitzgerald is a charter member of the organization, and former member of the YWCA Board of Trustees. Mrs. Eva Terrell of Clove Street, new program director, was also honored.

Pontiac Press Photos

Registering members and friends as they arrive at the reception, is Mrs. Allan H. Monroe of Cherokee Road (left). Mrs. Fred J. Haushalter of Scott Lake Road stops to add her name to the guest book.

WOMEN'S SECTION

Would You Try Test for Wives?

By ELIZABETH L. POST

This is a quiz for married or about-to-be-married gals. Next time you have a group in for coffee try it on your friends and see which of you rates as the best wife!

Give yourself 10 points for each question you can answer "yes" to honestly. Ninety or one hundred points, you're an ideal couple; seventy to eighty, you get along as well as most people; and below seventy you're on the way to Reno right now!

Do you change your clothes and wash up before your husband gets home from work?

Do you refrain from blurt-ing out the problems you must tell him about until after he's had a chance to sit down and relax for a few minutes?

Do you listen to his office problems with a reasonable show of interest?

Do you try to keep petty complaints about neighbors or shopping to yourself?

Do you give him a little extra T.L.C. (tender loving care) when he comes home grouchy and tired from a particularly hard day at work?

Do you, at least once a week, prepare one of his favorite meals?

Do you manage to do your beauty treatments — shampoo, facials, etc. when he is safely out of sight, rather than at night?

Do you consult him before making social engagements, unless you are absolutely certain it is something he would enjoy?

Do you cheerfully let him go out for an occasional evening with his friends?

Do you back him up one hundred per cent when he lays down the law to the children?

"How to Plan and Budget Your Wedding" by Elizabeth L. Post, is now available to readers of this paper. Ideal for brides-to-be, their fiancés and parents, this brand new, 16-page booklet will help in preparing for the "perfect" wedding.

To get your copy, send twenty-five cents to cover booklet and shipping expenses, to Elizabeth L. Post, in care of The Pontiac Press.

Special Ceremony for Mrs. Farrant

A special initiation will take place Tuesday evening in Bedford, Bloomfield Hills at a banquet of the Zeta Xi Chapter of Delta Omicron International Music Fraternity.

Mrs. Eugene Farrant of Royal Oak will be initiated. Members in attendance from the Pontiac Area will be Mrs. Harmon Gillen, Mrs. Harold James, Mrs. J. K. Rosenthal and a guest Mrs. Robert Schadel.

Wants Taller Date

She's Short on Good Sense

By ABIGAIL VAN BUREN

DEAR ABBY: What is a gal supposed to do when a real nice guy calls and asks her for a date to a big party and she has to accept on the spot because she's hoping someone more interesting will ask her?

Please understand, Abby, this guy who asked me is a very fine person. He's smart, has a good reputation, and is a gentleman, but he is short. I'm afraid if I accept him, and a taller guy asks me later I'll be sorry.

But how can a girl tell a fellow she would like a few days before giving him her answer?

NOT SURE

DEAR NOT: She can't. And if she's smart she won't pull any of those, "call-me-in-a-few-days" capers. The "guy" may be short, but the gal who puts him off waiting for a taller proposition is shorter than he is, in the common sense department.

DEAR ABBY: I am married to a wonderful woman and we have two nice kids, which the wife really raised up fine. That I will say for her. But here is my problem: She doesn't know how to put things back when she has used them.

She leaves dresser drawers and cabinet doors open, clothes on the floor and makeup all over the house. She leaves dinner dishes on the table overnight and the place is generally always a mess unless I clean it up.

I have tried to tell her to keep things straightened up better but all I get is, "Sorry, I'll try to do better." But she never does. Abby, she doesn't drink smoke or run around. I love her and would do anything for her, but I shouldn't have to do the housework.

She is 30 years old and in good health, so there isn't any excuse for her sloppiness. What is your advice?

TIRE D OF IT

DEAR TIRE D: You say you love her and "would do anything for her." That's good, because you may have to. You have two choices, if your wife is unwilling (or unable) to learn to keep house properly. (1) Do it for her. (2) Overlook it.

DEAR ABBY: First let me say I am not a silly kid who is trying to hang on to her "daddy." I am a happily-mar-

ried, 27-year-old woman. My mother died two years ago and my father started seeing a 45-year-old widow. (He is 52). She's a bright gal and secretary to a prominent business man.

One evening when dad and his lady friend were here I went into the kitchen to make coffee and when I came out I found them locked in a passionate embrace the likes of which I haven't seen outside the movies.

I love my father and it made me sick to see him carrying on like a teen-ager. My mother was such a dignified, modest person, Abby. She never would have been caught in a situation like that.

Should I try to break this thing up? My husband says to stay out of it. I liked this woman at first, but now I can't look at her. What should I do?

SICK AT HEART

DEAR SICK: Stay out of it. Why should you be "sick" because your father was able to find happiness again? Would you rather have him lonely and grieving the rest of his life? If you really "love" father, accept his lady friend.

DEAR ABBY: I am a shoe salesman with a pet peeve. Why don't women who come in to buy shoes wear hose? I have very little money. Do you know of a home for unwed mothers near Hammond, Ind., that would take me in?

ALONE

DEAR ALONE: Yes. Please send me your name and address and I will help you immediately.

DEAR ABBY: I am a shoe salesman with a pet peeve. Why don't women who come in to buy shoes wear hose? I have very little money. Do you know of a home for unwed mothers near Hammond, Ind., that would take me in?

Oakland Writers Conference Is Slated

More than 500 beginning and established writers are expected to attend a fifth Writer's Conference, Oct. 15, at Oakland University.

Cosponsors are the university's Division of Continuing Education and the professional Detroit Women Writers.

Registration and coffee hour will be at 8:30 a.m. The conference will close at 4:30 p.m. Forty-three writers, all solid professionals in their respective fields, will talk in depth about as many facets of creative writing.

Margaret Hendrix, editorial associate of Writers Digest, will be available in the lounge for personal consultation on marketing both before and after the conference.

The assembly will be welcomed at 8:45 a.m. by Priscilla (Mrs. Walter) Jackson, director of conferences, and Mrs. Joseph B. Smith, president of the Detroit Women Writers.

Four round tables will follow on poetry, short story,

article, book, drama, plus editors and market divisions. Others will cover juvenile interests. Each lasts slightly over an hour.

PANEL ON POETRY

Discussing "Poetry as a Psychological Outlet" in Period I, will be Louis J. Cantoni, Sheila Pritchard, Eugene McNamara, Aileen Fitzpatrick and Elinor K. Rose, with Dudley Randall as moderator. Joyce Carol Oates, Virginia M. Gillette and Mrs. Jackson will talk about the "Quality Short Story."

The session on the article will have three sub-topics led by Karl F. Zeisler, Fred McClement and Mrs. Smith. Four

kinds of books will be discussed by Elmore Leonard, Dawson Taylor, Victor Ullman and Joan Elwart.

James L. Limbacher will explain playwriting basics and Miss Hendrix, Elizabeth Graham and Ben East will confer with those interested in markets and editors.

Poetry round-tables for Period II will be led by Thomas Fitzsimmons and Margaret Hillert; with Mary Augusta Rodgers (Schoen) and Vera Henry, the short story; Joe Clark, Peggy Cameron King and Jean Pitrore, the article.

DISCUSSION OF BOOKS

Dan MacIowe, Daniel Keyes and Allan Seager will lead a

discussion on books; Gladys Leinhausen and Lois Breitmeyer, writing for juveniles; Richard Burgwin and Bruce Millan, drama; David Mandall, Mrs. Rose, Eugene McNamara and Lella Pepper.

Presiding at the poetry panel in Period III will be Allen Fitzpatrick, Joseph Cherwinick, Dudley Randall, Mrs. Rose, Eugene McNamara and Lella Pepper.

Daniel Keyes, David Madden, Allen Seager and Mrs. Jackson will discuss the short story; Elmore Leonard, Dawson Taylor, S. L. A. Marshall, books; Joan Elwart, children's picture books; Bruce E. Millan and James L. Limbacher, drama; Elizabeth Graham and Ben East, editors and marketing.

New panelists in Period IV are Gertrude White and Margaret Secrist, poetry; John Quirk, books and Josephine Wunsch, writing for the modern teen.

Some 25 of the published authors are former conference leaders and most of the 43 are from Michigan.

Gov. George W. Romney has proclaimed the week of Oct. 9 through the 15th as "Michigan Writers' Week."

Polish Coins

If you are a coin collector, you can keep your collection shining by rubbing well with a common lead pencil eraser.

MRS. PHILIP L. BAKER

Judith Ann Patterson of Oskaloosa, Iowa, daughter of the John H. Pattersons, West Tienken Road, and Philip L. Baker of Oskaloosa, son of the Phil Bakers of Bristol, Maine, were wed recently in the First Congregational Church, Oskaloosa.

Philip L. Bakers Take Nuptial Vows in Iowa

The First Congregational Church in Oskaloosa, Iowa, was the setting for the recent marriage of Judith Ann Patterson to Philip L. Baker, both of Oskaloosa.

Their parents are the John H. Pattersons, West Tienken Road, Avon Township, and the Phil Bakers of Bristol, Maine.

With her Empire sheath gown and train of white satin, the bride wore a short veil of silk illusion with pearl tiera.

Gardenias centered her spray bouquet of white carnations. Attendants at the double ring ceremony were honor maid Vicki Bram of Oskaloosa, and Mrs. Ernest Phillips of Ottumwa, Iowa.

Carl Holstrom of Chicago was best man and Ernest Phillips of Hartford, Conn. was groomsmen and usher.

A reception in the home of the Jake Brans followed the rite. The bride is an alumna of William Penn College, Oskaloosa, where her husband is a senior.

Granny Sitter Likes Job

ABILENE, Tex. (AP) — Don Mayfield, a football player at Southern Methodist University, Dallas, got a part-time job as the result of a call to the Athletic department from a couple who needed a sitter three or four evenings a week. They preferred an athlete who needed extra time for study. Don took it. The "sitter" is well behaved, pleasant and no trouble at all. She is 92 and has convinced Don that "Granny sitting" is an ideal job.

Taken Over by Women

NEW YORK (UPI) — Women, it turns out, have just as much endurance as the man who sells insurance. More than 5,000 women nationwide are making a living selling insurance, putting a big dent in the once male stronghold. The Institute of Life Insurance says the female writers of policies like the idea of working close to their homes and of choosing hours that dovetail with their homemaking schedules.

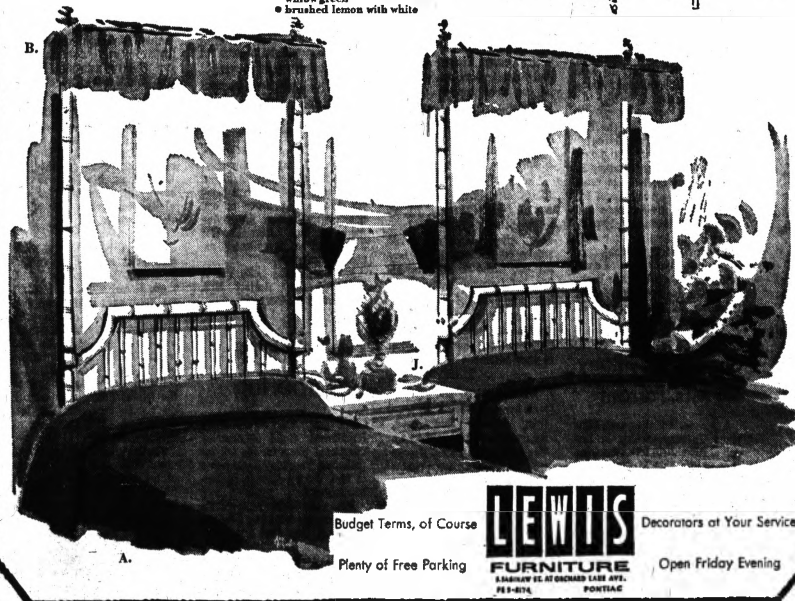

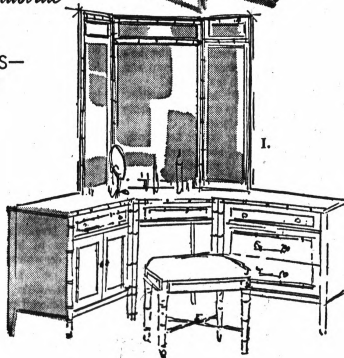

Bamboo-inspired—finished in pastels—Thomasville's exciting "Allegro"

Ever since the 18th Century furniture designers have been charmed by the bamboo motif (Mr. Chippendale loved it). Now Thomasville makes it fresh and fashionable today in enchanting new furniture for your bedroom. Each piece is a work of elegance—and even the drawer pulls are designed to look like bamboo. Those beautifully brushed pastel finishes! They're accented with contrasting colors. Perfect for a teen-ager's bedroom, a country house or elegant guest room. They have to be seen! Matching brushed white plastic tops are impervious to stains, burns or wear. And at Allegro's amazing prices you can redo your whole bedroom—right away!

They Investigate

Animals Are Curious

By Dr. GEORGE W. CRANE

CASE A-508: When I was a boy, I would spend my summers on my grandmother's farm.

And one of my chores was to round up the cows for milking.

They might be at the far end of a 40-acre pasture field.

And they would ignore my presence in the field unless I tricked them as follows.

I would walk out toward the middle of the pasture, whistling to make sure they were aware of my presence.

Then I would lie down motionless on the grass and wait. Cows are like human beings in that their curiosity would get the best of them.

They couldn't figure out why I was lying still in the middle of their field.

So they would walk up to where I lay and surround me in a circle, with their noses sniffing at my hands and feet.

Then I would stand up and drive them on toward the barn!

And cows are no more curious than antelopes or even fish.

When our pioneer ancestors on the western plains hunted antelope, they might sight a distant herd.

Then they would try to approach as near as possible on the leeward side, so their scent would not be carried to the antelope.

But when the hunters crawled as close as they dared, without frightening the deer, they would lie still in the tall buffalo grass.

Next, they'd tie a piece of red flannel cloth on the end of the long ramrod that was used for their muzzle loading rifles.

Then they'd raise the ramrod high above the buffalo grass and wave the red flag back and forth.

Immediately, the antelope would take to flight.

But when they found that the red object didn't follow,

they would soon stop and apparently go into a modern football huddle to consider the strange object.

Next, they would reverse their direction and draw nearer to the waving flag.

Maybe they would dance away again for a few yards but always they would keep approaching closer and closer.

When they were within easy rifle range of the hiding hunters, the men would then spring up and take a shot, thereby getting their game.

So the curiosity of those antelope led to their doom.

Even fish show the same curiosity.

In our private little farm lake, we have some bass. In spring I would sit on a stump, trying to lasso one with a small copper wire loop.

One nice two-pound bass would cruise within 10 feet and look at the copper loop; then glide away as if he wasn't interested.

But within a half minute he'd come right back, approaching maybe one foot closer. Then with feigned disinterest he would back away and cruise out into deeper water.

But he'd be back again in about 30 seconds, always getting closer with each trip.

Popping Up All Over

It's crazy daisy time. Daisies are popping up in sportswear, sleepwear, dress prints and jewelry.

They're even climbing the walls in new wallpaper patterns. Keeping in step, the cosmetic folk introduce lipsticks in warm "painted-daisy" pink to complement summer complexions, with some frosted and others a pinkish lip gloss for extra shine.

Line Drapes

If you line home-made draperies, they will look better from the outside, hang better, and be protected from strong sunlight.

Camp Oakland Is Inspected

Taking a closer look at the community in which they live and serve Wednesday, were some 13 representatives of the Birmingham Junior League.

Members in training and transfer members toured the 330-acre grounds of Camp Oakland, Oakland County Juvenile Court and Children's Service Center. They were Mesdames: Robert Appleford, Noel Cook, Henry Flint, Robert Foster, John Maddox, Ralph Polk, Loren Riley and Lawrence Wills.

Provisional chairman, Mrs. Robert Woodruff and two committee members, Mesdames James Taylor and Bret Williams also attended. Others on tour were transfer chairman Mrs. Robert Campbell and member Mrs. W. DeWayne France.

Probate Judge Norman Bar-

nard of the Juvenile Court addressed the group.

A luncheon was served in the Camp Oakland dining hall followed by a tour of the grounds conducted by camp director, William J. Matius.

Gentle Hint Gets Results

HOUSTON, Tex. (AP) — Washateria operators have plenty of troubles, but their pet peeve is the customers who let facial tissues get mixed in with the laundry. One operator called this problem to his customers' attention with a sign:

PLEASE DO NOT WASH YOUR FACIAL TISSUES! WE WILL BE GLAD TO GIVE YOU A NEW ONE.

Give A Jewelry Gift This Christmas and Read The Following Message From Connolly's...

We Urge You To Come In Soon And Look Over Our Fine Selection Of Diamonds, Rings, Watches, Silver, etc. But Most Important Of All, Make Your Decision On What You Want Early And Put It In Lay-Away. We Feel It Is Our Obligation To You To Make Known The Fact That...

There Is An Extreme Shortage Of Skilled Labor In The Jewelry Industry!

We Do Not Want To Disappoint You In Promising A Definite Date On Delivery Of A Most Important Gift... And We Do Not Want To Be "Out-Of-Stock" Of The Item You Want For Your Christmas Gift Giving! So We Urge You To Make Your Selection As Soon As Possible. We Do Know There Is Going To Be A Shortage Of Many Fine Jewelry Items This Year.

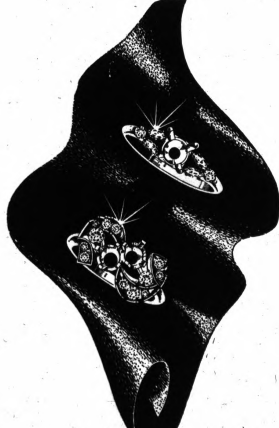

Note:

We have placed a large order of Accutron watches... and we will be fortunate if we receive 75% of our order!

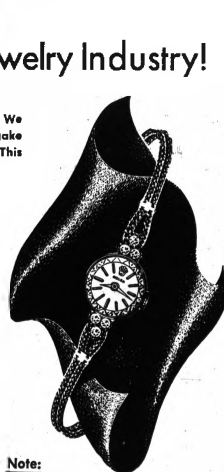

Note:

One of the finest lines of diamond rings is already oversold! We have them now... don't be disappointed... make your selection early.

Note:

Special orders, re-mountings and special designing will be extremely difficult to process this Christmas. Make your plans now and we can process your selection and put it in Lay-Away.

Note:

Rolex and all fine watches are in great demand. Put yours in Lay-Away now!

Note:

A national publication has already predicted the Pearl yield this year will be extremely short!

Birmingham Women Hosting Federation

Hostess for the Twentieth Annual Fall convention of the Michigan State Federation of Junior Woman's Clubs will be the Birmingham Junior Woman's Club. The event will take place Saturday in the Village Woman's Club, Bloomfield Hills.

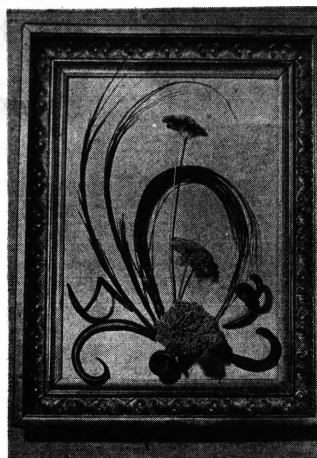

Guest speaker is Mrs. William Vaxler, Chairman of the Board of Girltown in Belleville. The Jills of the Hills, a Bloomfield Hills high school singing group will entertain.

Awards will be given for the Club woman of the Year, and for special club achievements. An award will also be given

to the club whose historian has compiled the most complete and artistic scrapbook. Judges of entries are Carolyn Hall, Bruce Beal and Mrs. Max Keenan.

Mrs. William Fath and Mrs. Richard Stone are co-chairmen for convention planning. Their committee heads are Mrs. Donald Johnstone, Mrs. Thomas Burnstead, Mrs. Jack Berk and Mrs. Otto Rosenbusch.

Entomologists estimate there are more than two million living species of insects in the world, according to Encyclopaedia Britannica.

Scotch broom, disjuncted antique catalpa pods and yarrow form a contemporary composition for a framed wall hanging done by Mrs. Fred Trickey of Osage branch, Woman's National Farm and Garden Association. She resides on Old Orchard Drive.

An inverted container of washed copper and pewter holds Mrs. N. A. Thureson's blue-ribbon arrangement of dried Allium, beach leaves, swamp trumpet and dried Baptista. A member of the Franklin branch, WNFGA, she resides on Old Colony Road, Farmington Township, and was among the judges for The Mall Flower Show.

Don't Ignore Your Neck

Your complexion includes your neck so give it the same conscientious care and cleansing that you give to your face.

When you cream your face, extend the cleansing cream over the neck, leaving it there for a few minutes to soften the skin.

Distinguish Keys

To identify keys quickly, mark each with a different shade of fingernail polish.

Handy Ice Cap

To make an ice cap, place crushed ice in a plastic vegetable bag and cover with a towel. Tape the bag shut.

The "Cookskin Library" was formed in Marietta, Ohio, in 1894 when a group of settlers sent cookskins to Boston in exchange for books.

Last Chance to View 'Mall' Flower Show

By MADELINE DOEREN

The Pontiac Mall Flower Show "Accent on Elegance" will close the six-day event with demonstrations this evening and Saturday.

Mrs. William Sanderson will demonstrate corsage-making at 3:30 and 7:00 p.m. today, and Mrs. Boris Osojnik will make dried arrangements at the same hours on Saturday, also at 11:30 a.m.

JUDGES

Judges for the first three days' entries under the Horticultural Division were Mesdames Frank Carlee, Donald R. Conrad, Arthur Cox, William S. Dehm, G. C. Horn, Boris Osojnik, Parker Rockwell, Stewart Schultze, Arthur Stiller, N. A. Thureson, Ralph Whitmill and Paul Zielbauer.

All are members of the Michigan Division, Woman's National Farm and Garden Association of Graduate Judges and Teachers. Student judge, Mrs. G. M. Duke, assisted.

Highlighting the unjudged Ikebana International exhibit are two bonsai (planted dwarfed trees) 18 and 21 years old entered by Mrs. Harvey

Bumgardner of Bloomfield Hills.

Other entries were Mrs. Marvin L. Kalke's 'Humphrey's Pride Juniper' and Mrs. W. D. Sexauer's bonsai plants.

Other Ikebana exhibits were entered by Mrs. James Shimmura, Mrs. Taro Suzuki, Mrs. Gregor Affleck, Mrs. P. N. Askounas, Mrs. George Bender, Mrs. Lewis C. Dibble, Mrs. J. C. Calhoun, Mrs. Lee Carter, Mrs. W. R. O'Neill, Mrs. John Abbott, Mrs. Leslie Hoxemiller, Mrs. James Oshika, and Mrs. Glenn C. Bedell.

Mall Show on TV

Segments from The Pontiac Mall Flower Show "Accent on Elegance" will be presented at 6:10 p.m. today over Channel 4.

Billy the Kid, born William H. Bonney, killed his first man before he had reached his teens, and has ever since been a symbol of the lawless West.

This Dress Well-Worn

CLARENDON, N.C. — When Gayle Annette Long was married to David Russell Ward, she was the youngest of five sisters to wear the same wedding dress of Chantilly lace and tulle. It has never been necessary to alter the floor-length dress, worn for the first time in 1952.

"Always a bridesmaid and never a bride" did not hold true for Gayle. She served first as a flower girl, and then as a bridesmaid in the weddings of her sisters.

Kitchen Carpeting Is Here

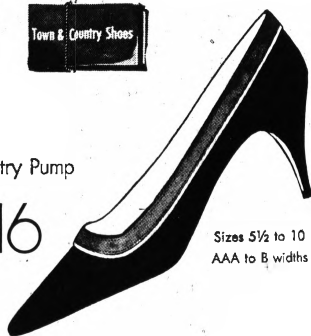

With the kitchen often divided from the adjacent family room by only an imaginary line in many newer homes, the use of washable nylon carpeting in both areas is finding increasing acceptance. While this gives comfort un-

derfoot and adds visual appeal, homemakers find it no more difficult to keep clean than to scrub, wax, and buff hard floor surfaces. The carpeting requires only occasional shampooing with dense suds.

Polly's Pointers

A Proud Grandma

DEAR POLLY — I am a grandmother with an increasing number of grandchildren who have frequent new pictures. I slip the latest picture next to the glass and just in front of the previous one which stays in the back of the frame.

It is fun to flick the back panel off a frame and compare a child's pictures at different ages. They also stay bright and clean this way. — KATHRYN

DEAR POLLY — We have some heavy captain's chairs that scratched my waxed floor every time someone pushed one back instead of lifting it. I cro-

cheted round rugs, one to fit under each chair.

I tell everyone to slide the rug and the chair together so there are no more scratches on my tile floor. My rugs are 28 inches in diameter. — Mrs. O. U.

DEAR GIRLS — These rugs could be made of yarn that matches the floor color and be quite inconspicuous.—POLLY

DEAR POLLY — A net did not come with our badminton set. My mother solve this problem by making one of nylon net and stringing it up. It works fine and this net could also be used on table tennis tables.—JAN

By MURIEL LAWRENCE
When he was seven a friend of mine had a thing about fishing. His father was a physician in a town which fronted on a 9-mile-wide inlet of the Atlantic Ocean and supported a small colony of commercial fishermen.

Every moment my friend could spare he spent down at their wharf. Sometimes they let him help unload a catch or hose down a deck.

Then, one morning of all summer mornings, a fisherman friend invited him aboard. Sometime within the next two hours fate put a big flounder on his hook.

Apparently no moment before of since has ever equalled the moment when he reeled in the flopping flounder. Ashore, the fish wrapped in newspaper and clutched to his chest, he ran the-mile home in an ecstasy of anticipated approval to get it there in time for his father's lunch.

He succeeded — but the very next day his father drove to the wharf and paid the fisherman \$15 to take his 11-year-old son out so he could catch himself a flounder too.

My friend never visited the wharf again and never went fishing again.

This is my answer to a mother who writes: "My husband has given permission to our 14-year-old boy to spend his Christmas and birthday savings on a second-hand bicycle. His younger brother is green with jealousy over it. As I don't think it should be encouraged, I think he should be given one of his own. But my husband says he is not going to put any money into a junior-sized bike that the child will outgrow. He can't see how unfair it is to show favor to our older son at the cost of our younger one..."

What do you mean "favor?" You haven't shown any favor to your older child. He bought that bicycle himself. He earned it by denying himself other attractive possessions in order to save the money that paid for it.

If your younger boy is so mad for a bicycle, let him save for his money to buy one.

Our money cannot buy idleness.

tical achievements for children. That fishing achievement of my friend's childhood could no more be bought for his brother than the moon could be bought for him. The glow of joy over that flounder was my friend's by reason of his own interest and efforts. Your cash cannot purchase his friend's joy for your younger son the joy his brother takes in the bicycle he earned himself.

Resourcefulness in Husbands Is Often Mistaken for Stinginess

By **MARY FEELEY**
Consultant in
Money Management

"Stingy" is a favorite fighting word to throw at husbands, judging by the remarks of a cross-section of discontented wives. Why can't a man ever take his hands out of his pockets, they ask bitterly, and toss a few dollars around for fun?

In a recent column, a Midwest wife spoke her mind on the "stingy rascal."

MARY FEELEY
But it seems this tight-fisted character is not entirely without support. A sadder and wiser

wife in New York City comes to his defense:

"A Midwest wife complained about her husband's stinginess, whereby you commented on the husband's opposite number — the man who overspends, gambles, and runs into loads of debt. I'm unfortunately now married to the man of the opposite number!"

"Previously I was married to what I considered the stingy type and believe me, after this experience, I'd take the stingy one back. It's always a comfort to know that, if an emergency

should occur, the money is available.

At the present time, I am constantly worrying when the rent will be paid. Our mail consists mainly of late bill notices.

"My advice to Midwest Wife is to take a good look at what she has, add a dash of patience, thank God, and remember it could be much, much worse."

According to A.H., a Chicago man, "stinginess" is simply a woman's word to justify her "unrealistic" wants:

"Yes, Midwest Wife is en-

titled to a night out now and then. But the whole thing is that women and their needs and wants are often unrealistic, and way in excess of their husbands' incomes. True money is to be spent — but judiciously, and this will automatically smack of stinginess to a wife.

"Another thing that makes a man act this way is that they

never can gauge the end and endlessness of a family's wants and needs. And he sees it extending beyond the day when he will have the same income.

Once a person gets used to the luxuries of life, it is unbearable (especially for a woman) to come down and have to get along without them.

"Our laws also decree that in divorce settlements, the wife is entitled to live as before — so that if she has mansions, Cadillacs and mink coats, she is entitled to them 'till death do us part'."

"This threat, constantly hanging over the head of every married man in the land, can be a cause of many unpredictable actions on his part besides 'stinginess'!"

Well, I doubt if the fear of imminent divorce is hanging over the head of every husband in the land. But a tight hand on the money reins is not all bad. What is all bad is the lack of effort, between husband and wife, to comprehend each other's motivations.

A tense resentful attitude toward the handling of family income has never resulted in a profit for either contestant. Unless a couple works determinedly and endlessly toward a compromise, the cost in cash and tears is too high.

It's hard for anybody to be all right or wrong.

(For Mary Feeley's booklet, "Make Every Dollar Count," send \$1.00 to her in care of The Pontiac Press.

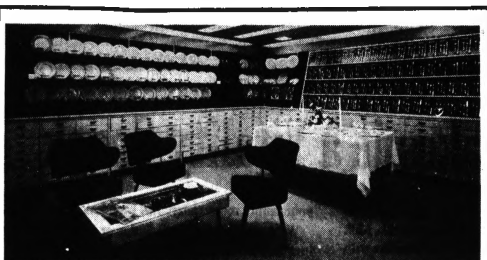

A bib for baby's first birthday party crocheted in sturdy "Knit-Cro-Sheen" has a picot edge and is tied with satin streamers. A pert little decorative touch is added with three satin hearts which can be stitched on. No. C-341.

Baby's first stroll with mommy will be a memorable one especially when the carriage has this soft and lovely basketweave cover. Made with Baby Wool or Nylon, satin ribbon for the border and your choice of pastel colors such as Nile green, baby pink, yellow or white, baby will be proud to cuddle up in his carriage and be taken on a tour of the outside world. No. C-329.

Who stole baby's bottle, nobody! It is only hiding under these unique bottle covers. Now these cumbersome bottles can be kept in baby's room disguised as puppies or kittens. The puppy nursing bottle cover is knitted with "Orlon Sayelle," the kitten nursing bottle is crocheted with knitting worsted and each comes in a variety of colors to match baby's room or the kitchen. No. PK 2855. Free instructions are available by sending a self-addressed, stamped envelope to the Needlework Editor, care of The Pontiac Press, Box 9, Pontiac, Mich. 48056.

Be Seeing a Lot of You

NEW YORK (UPI) — Dress cut-outs in the back, front, side and often down the legs are in.

To keep skin exposed via the peek-a-boo fashion trend, beauty experts suggest this: after bathing, reshower with baby powder, smoothing it all over, especially the cut-out areas.

This is supposed to make skin shimmer and give one a feeling of "satiny comfort."

Montana is bounded on the north by three Canadian provinces — Alberta, British Columbia and Saskatchewan.

Hijackers' Return Agreed On

BUENOS AIRES, Argentina (AP)—The Argentine government and the British ambassador agreed in principle Thursday night on the return of 48 Argentine citizens aboard an airliner which Argentine nationalists hijacked and forced to land in Britain's Falkland Islands.

Reports from Rio Gallegos, on the mainland across from the disputed islands, said several Argentine military planes had arrived there with a platoon of police.

ARREST LIKELY

It was believed the police would arrest the 18 hijackers on their return to the mainland. An Argentine navy seaplane left Rio Gallegos Thursday, prompting speculation it was headed

for the islands 300 miles to the east to get the hijackers.

President Juan Carlos Onganía said Thursday the hijackers would be put on trial. He disavowed the raiders who said they wanted to occupy the islands for Argentina. Onganía said their action had damaged the country's international prestige, but he reasserted his country's claim to the Falklands.

The Argentine government apologized to the British ambassador Thursday night for at-

tacks on the British Consulate in Rosario City and the ambassador's residence in Buenos Aires. Several shots were fired at the residence as Prince Philip, husband of Queen Elizabeth II, was dressing for dinner Wednesday night.

The first national champion in the sport of archery was Will H. Thompson, a Confederate veteran who had learned to use bows and arrows for hunting because it was illegal for ex-Rebels to carry guns.

Police Seize Drug Cache

MONTREAL (AP) — Police threw an 80-man dragnet across Montreal's North End Thursday night and seized drugs worth \$3 million to \$5 million on the black market, officials said today.

Police said a number of arrests were made and more were expected. They said the narcotics ring specialized in heroin. The haul was one of the biggest in Montreal's history.

Split Over Reserve Call Still Unresolved

WASHINGTON (AP)—The Senate and House still don't agree on how much additional authority the President should have to call up military reserves.

Their dispute sent the \$58-billion defense appropriation bill back toward a House-Senate conference after the Senate rejected it yesterday because the House-passed compromise left out the Reserves question.

The Senate's Reserves plan was tacked onto the money bill but the House turned it down and passed its own Reserves measure as a separate bill.

The President has not asked for any of the authority the two chambers are arguing about.

The Senate plan, authored by Sen. Rich-

ard B. Russell, D-Ga., would give the President authority to mobilize about 467,000 Reservists without declaring a national emergency.

A man could be activated for 24 months, minus any time he already had served on active duty.

Under present law, a national emergency must be declared before Reservists can be called to active duty.

This has not been done since the 1961 Berlin crisis, when President John F. Kennedy summoned Reservists.

The House plan, now in Russell's armed services committee, would give the President 24-month call-up power over about 197,000 reserves.

Freberg Assault on Politics Brings Down Ban Edict

By BOB THOMAS

AP Movie-Television Writer
HOLLYWOOD — Puckish Stan Freberg is feeling good these days. The reason: He has been banned again.

"Extremism in the pursuit of comedy is no vice," said Freberg, who wears the perennial air of a small-town kid who has just dumped a box of detergent in the city hall fountain.

THOMAS

items of one sort or another. I straightened out Betty Grable in that one. Of course, it's important that a governor has a sense of humor, too. Did you catch me in "Bedtime for Bonzo"?"

Q. "Bedtime for Bonzo"? These are 'violent times, Mr. Reagan.' How are you equipped to handle a major crisis?

Reagan doesn't get all the kumps from Freberg, whose approach to the campaign is more of a sledge-hammer rather than stiletto technique. He depicts incumbent Edmund G. Brown as an unsmiling drudge who explains: "You'd look crabby too, if you were governor of a state full of kooks like this one."

TOWARD BROWN
At his baronial office on the Sunset Strip, Freberg admitted

that he leaned toward Brown in the election, but ever so slightly. "What a choice!" he complained. "It's like choosing between Guy Lombardo and Lawrence Welk for governor of California."

"Freberg Underground" is the satirist's first album in four years, the last being his monumental "Stan Freberg Presents the United States of America."

'Cities in U.S. Getting Better

Expert Says They're More Livable Today

By Science Service
WASHINGTON — "American cities are more livable today than they have ever been. To say they are about to collapse is nonsense," said Dr. Daniel Patrick Moynihan, former secretary of labor and now director of the Harvard-Massachusetts Institute of Technology Joint Center for Urban Studies in Bos-

Dr. Moynihan also said that \$250 billion in federal aid to cities over the next 10 years is "not a crazy figure, it is almost modest," in view of this country's increasing wealth.

Detroit's Mayor Jerome Cavanagh told a recent Senate subcommittee hearing that American cities will need at least \$250 billion by 1976 to "spark" their "rebirth."

Cities do have some pressing problems, but Dr. Moynihan believes they are primarily social rather than physical. And the nation is financially capable of handling them, he said in a telephone interview with Science Service.

He said that by 1975, the gross national product should be about one trillion dollars. Between now and then the nation will realize a yearly increase of a quarter billion dollars.

INCREASE
All told, Dr. Moynihan said, that comes to an increase of 2,500 to 3,000 billion dollars in the next 10 years.

To spend a tenth of that or \$250 billion in cities where 70 per cent of the people now live is therefore not so amazing, he said.

Although Dr. Moynihan believes cities are getting better, not worse, he pointed out three areas where money is needed to solve pressing problems.

★ ★ ★
The first is integrating the American Negro, he said. This means improving schools.

'PROFITABLE MOVE'
 "It will take whites a long time to see there is profit in sending their children to school with Negroes," said Dr. Moynihan. "We are not going to bring about integration unless we improve the schools available to everyone, whites as well as Negroes."

The second problem is an old one — providing a stable family structure within the urban environment.

The United States is the only industrial democracy in the world not to provide a monthly income supplement to its families, Dr. Moynihan said.

In Canada a three-child family receives a supplement of about \$36 to \$40 each month — a program which has been instrumental in reducing Canada's school dropout problem.

The third problem is urban ugliness. "It is almost certain that cities will face the fact they have become needlessly ugly, with a jumble of signs and such," Dr. Moynihan remarked.

Why has his record output "But at least I got mine to fly," been limited? Another deterrent is Frey's "Because I make albums the berg's advertising business," way Howard Hughes makes ply-wood seaplanes," he explained \$500,000 a year.

Dr. Wayne G. Brandstadt Says:

Rat Poison Has Legitimate Medical Use

Q—Do doctors ever give warfarin to human beings to dissolve blood clots? Isn't this a rat poison?

A—Warfarin will prevent clotting but will not dissolve clots.

It is used as a rat poison but it has its legitimate uses in human medical treatment in BRANDSTADT carefully regulated doses.

Anyone who is taking this, or any other anticoagulant, should have weekly checks of his blood-clotting time.

Q—Is it possible to perform a hysterectomy and leave part or all of the cervix in place? If so, what are the advantages?

A—When a partial hysterectomy is done, the advantages are less risk of damage to the bladder and rectum, less risk of infection of the abdominal cavity (peritonitis) and hence a lower death rate.

With improved techniques, however, these considerations are no longer very important and most specially trained gynecologists prefer the complete removal of the uterus.

With the latter operation there is less danger of prolapse of the uterus stump and less danger of subsequent cervical cancer.

Q—My doctor says I have atrophy of the cervix. Is this serious? What is the usual treatment?

A—With advancing age after the menopause there may be some shrinking of the entire uterus. This is a normal process and requires no treatment.

Q—What are the five classes of the Pap test for women? Are all five considered to be cancer?

A—The five classes of the Pap test are: Class I is considered benign with no abnormal cells; repeat in one year. Class 2 is benign with a few abnormal cells; repeat in 6 months. Class 3 is benign with many abnormal cells; repeat in one week. Class 4 shows cells suggestive of cancer but not definitely so; a biopsy specimen should be taken. Class 5 shows cells that are definitely malignant; a biopsy specimen should be taken unless other findings confirm a diagnosis of cancer in which case the uterus should be removed without delay.

Q—My doctor is giving me Arlidin for my dizziness. I have been taking it for three months but no improvement. What are the pills for and are they harmful?

A—Nydridin (Arlidin) is given to dilate the arteries in persons with hardening of the arteries, Reynaud's disease, Burger's disease, leg cramps and vascular complications of diabetes.

Blue Cross to Serve Plan

LANSING (AP) — Michigan Hospital Service (Blue Cross) has signed a contract making it a financial go-between under the state's new Medicaid Program. The State Social Services Department said similar contracts may be signed with Blue Shield and Travelers Insurance Co.

Blue Cross will have billings from hospitals. Blue Shield will handle medical payments and Travelers will take care of billings for extended care services. Medicaid, which takes effect Saturday, will provide hospital and medical care to persons with incomes below legally established levels.

Eligible are single persons earning less than \$1,000 a year, couples making under \$2,700 and families which earn less than \$2,700 plus \$400 for each of their children.

An estimated 42,000 dental hygienists will be required in the nation by 1975, a federal survey disclosed. To meet this need, 500 will have to be graduated annually compared with the 1,470 receiving degrees a year ago.

Opening lead—♠ Q

By Oswald and James Jacoby

When both partners bid the limit of their hands, the chances are that the final contract will need a little support from Lady Luck if it is to be successful.

With 18 high card points and no five-card suit, South has the absolute minimum for a jump to two no-trump following his opening bid.

Astrological Forecast

BY SYDNEY OMARR
For Saturday

"The stars seem to point the way." Astrology points the way.

ARIES (Mar. 21-Apr. 19): No time to discover yourself concerning various positions. See situations, persons and their activities. Avoid waste of time. Determine true objective. — H.M.

TAURUS (Apr. 20-May 20): Cycle moves up. You can get attention and required. Realize you do have allies. Remember in losing confidence. — L.M.

GEMINI (May 21-June 20): Look beyond the horizon. Be skeptical. Don't accept secondhand reports. Find out for yourself. — S.M.

CANCER (June 21-July 21): New friends could give you constructive. Be cooperative. Keep mind open to new ideas. Don't be afraid to express your thoughts. — C.M.

LEO (July 22-Aug. 23): Solid results indicated from last endeavor. You begin to realize potential. Fine for an evening. — S.M.

VIRGO (Aug. 24-Sept. 23): Favorable later. Aspects brighten. Improve communications from afar. Day to push get things done. — C.M.

LIBRA (Sept. 24-Oct. 23): Check accounts. Be sure of credit and debts. Individual you trust. Have frank talk. Exchange suggestions. — S.M.

SCORPIO (Oct. 24-Nov. 21): Strive for partnerships, public recognition. Be sure of credit and debts. Individual you trust. Have frank talk. Exchange suggestions. — S.M.

SAGITTARIUS (Nov. 22-Dec. 21): Attract to yourself. Don't create useless, angry desire. Promote. Praise co-workers. — C.M.

Kansas Beagle Adopts Family of Two Ducks

FORT SCOTT, Kan. (AP)—Cleo, a female beagle, has adopted a family of two ducks.

Bought for the children of the R. L. Morton family when they were ducklings, Cleo took them over and guarded them as she would her own puppies.

Thursday a youth described by Mrs. Morton as about 15 entered the family's back yard and grabbed one of the ducks. Cleo dashed out from under the back porch, locked onto the youth's hand and wouldn't let go.

Mrs. Norton says when the dog barks with a certain tone the ducks, now full grown, come running. If there is any apparent danger, Cleo herds them under the porch and stands guard, she said.

S. Viets to Study Vote Challenges

SAIGON, South Viet Nam (AP)—The Constituent Assembly elected to draw up a new constitution for South Viet Nam held another session today devoted to parliamentary details.

The assembly appointed two committees to study election challenges and draw up its by-laws. The 117-member body was elected Sept. 11 and is not expected to take up proposals for a new constitution until late next week.

Informed sources said several members of the assembly probably will attend the seven-nation summit conference on the Viet Nam war in Manila next month.

While a free's roots may be mired in humus swarming with bacteria, its sap is germ free.

Youth Jailed, Charged in Coed's Death

TEMPE, Ariz. (AP)—An 18-year-old Tempe youth was arrested today in connection with the knife slaying Sept. 21 of Arizona State University coed Laura E. Bernstein, 20, of Fair Lawn, N.J., police said.

Chief of Police Walter Farley said David Mumbaugh was booked for suspicion of homicide.

Farley said it was Mumbaugh who told police that he found the body of Miss Bernstein lying near a downtown Tempe hotel. She had been stabbed twice in the head and four times in the back.

Police earlier reported they had no murder weapon, no clues and no motive in the slaying.

Miss Bernstein transferred to ASU from Bradley University in Peoria, Ill., at the start of the fall semester. She was an art major.

CHARD Sense

Q—The bidding has been: West North East South
Pass 1 N.T. Pass 2 N.T. Pass 3 N.T. Pass 4 N.T.
You, South, hold:
♠ 7 3 ♠ A K Q 5 ♦ A J 9 8 ♣ A 4 2
A—Pass. Assume that your partner knows what he is doing.

TODAY'S QUESTION
Instead of bidding one no-trump your partner raises you to two spades. What do you do now?

Answer Tomorrow

A. G. Hill, who won the 800-meter and 1,500-meter races in the Olympic Games at Antwerp in 1920 as a member of the British team, was 36 years old, an "ancient" age for a competitor in those events.

MSU Average 'M' at Illinois; 'M' Secondary to Get Challenge

No. Ranked Spartans Get Big Ten Test

Illini Always Tough at Home as Indicated by Past Contests

EAST LANSING (AP)—No. 1 ranked Michigan State, with backfield which averages six yards a carry, will not get Saturday to see what it can do in a football stadium where it is averaging zero victories per game.

It is Illinois' Memorial Stadium, and MSU indeed has memories there—such as a 1965 visit. The Spartans were unbeaten in four starts and No. 1 ranked. The Illini had won only one of their four games. But they upset MSU 20-13.

GOOD WEEK

The Spartans, who had to overcome a 12-0 deficit in the last quarter to beat the Illini at East Lansing last year, are starting their battle to become the first team since 1954-55 to win the straight Big Ten titles.

"We had a good week of practice," said MSU Coach Duffy Daugherty. "The boys worked hard and there was a lot of excitement. I hope it is indicative of how we'll play Saturday."

But he said, "We have to realize that Illinois, although it has an 8-2 record, still is a real good football team and we will have to be at our best."

Illinois will not be at its best, at least in health. An injury last Saturday sidelined a leading ground gainer Cyril Pinder, who had picked up 147 of Illinois' 303 rushing yards in 16 carries.

"We are going to have a balance in our attack between passing and running," said Illinois Coach Pete Elliott. "This loss appears to knock it right in the head, although we plan to shore up our ground game and continue to try to make it go."

NOT AS BIG

Illinois scout Gene Stauber reports that MSU's defense "may not be quite as big as last year (when MSU had a 10-0 regular season) record, but I believe they change better."

Opponents have gained 317 yards against MSU, 214 of them by passing.

MSU scouts report that the Illini defense has been "lousy" against wide runs, a 300-yard favorite so far this season, because of quarterback Jimmy Ray's roll-out abilities.

Despite its losses, Illinois has outgained its opponents 600 yards to 530 in two games, with passing accounting for 300 yards. End John Wright has caught 14 passes for 176 yards.

Speedy Spartan end Gene Washington can almost match that yardage—he has 143—but because of tight coverage, he has been able to snag only four passes. Two of those a 36-yard throw and a 50-yard bomb—were for touchdowns.

Most of the Spartans yardage has been gained on the ground, with passing accounting for just 185 of the total 781.

OLSM Scores

X-Country Win

Orchard Lake St. Mary stands 2-0 in cross country after defeating Ann Arbor St. Thomas, 24-34 yesterday at Ann Arbor.

Bob Przyslawski of OLSM won in 11:40 with Andy Jung running in 11:40.

Next Monday OLSM is home against St. Anthony.

Cards Lose Two

ST. LOUIS (UPI)—Cornerback Pat Fischer and offensive tackle John McDowell were placed on the injured reserve list Thursday by the St. Louis Cardinals and will be lost to the National Football League team for at least four weeks.

Koufax' Arm 'Ice Packed'

By the Associated Press
Sandy Koufax' golden arm is back in cold storage today, but the Los Angeles Dodgers have plenty of ice left over for the champagne.

Koufax, the Dodgers' arthritic, knuckleball ace, landed St. Louis 2-1 Thursday night and set another strikeout record as Los Angeles inched a step closer to its second straight National League pennant.

The Dodgers lead second-place Pittsburgh by two games.

SPORTS

Red Wings Lose Opener in Exhibition

HAMILTON, Ont. (AP)—Boston beat the Detroit Red Wings 4-2 Thursday night in their first National Hockey League exhibition game of the season.

Alex Delvecchio gave Detroit a 1-0 lead at 2:16 of the first period. The Bruins forged ahead by 3-1 at the end of the second period on goals by Bobby Orr, Marty Pletzer and Pat Marlin.

Dean Prentice fired in Detroit's second goal in the third period. Wayne Connolly gave Boston its final goal in the last period.

Center Norm Ullman left the ice with a pulled groin muscle in the second period.

He is expected to return to action when the Wings meet Montreal Saturday night in Montreal.

Officials called 24 penalties against the Wings and Bruins.

Speedy Spartan end Gene Washington can almost match that yardage—he has 143—but because of tight coverage, he has been able to snag only four passes. Two of those a 36-yard throw and a 50-yard bomb—were for touchdowns.

Most of the Spartans yardage has been gained on the ground, with passing accounting for just 185 of the total 781.

with three to play, and can nail the flag tonight if they win at Philadelphia while the Pirates stumble against San Francisco.

Koufax turned what could be his last regular-season appearance into an historic triumph, checking the Cardinals on four hits and fanning 13 to become the first pitcher ever to hit the 300-strikeout mark in three different seasons.

ICY ROUTINE
The 28-game winner then dipped his pitching arm in ice—his regular post-game routine—and said he'll be available to pitch with two days rest against the Phillies Sunday if the pennant hasn't been wrapped up by then.

Koufax struck out the first two men he faced in the ninth before Curt Flood, who had put the Cards on the scoreboard with a seventh-inning homer, lashed a double to center. Alston then conferred with Koufax and it was decided to walk Orlando Cepeda intentionally, putting the potential winning run on base.

The strategy paid off when Mike Shannon fled to center for the game-ending out.

The Dodgers open their final three-game set at Philadelphia tonight, with Claude Osteen, 17-13, scheduled to pitch against the Phils' Chris Short, 18-11. The Pirates, who were idle Thursday, will send rookie Woody Fryman, 12-9, against San Francisco ace Juan Marichal, 24-6, in the opener of their three-game win-and-out at Pittsburgh.

In Thursday's only other action, Houston nipped Cincinnati 3-2 on homers by rookies Chuck Harrison and Aaron Pritchett. The Kansas City-Baltimore and New York-Washington doubleheaders in the American League were canceled because of rain.

Red Wings Lose Opener in Exhibition

PENNANT PRACTICE—The Baltimore Orioles, 1966 American League champions, went indoors at the Naval Academy field house yesterday to timber up as rain kept them from the playing field. Left to right are Sam Bowen, Luis Aparicio and Frank Robinson.

Final Series With K. C.

Tigers Still Must Clinch Second Place

DETROIT (AP)—Only three more games remain and the Tigers haven't yet clinched second place but a lot of off-season talk might well concern itself with what might have been.

Earl Wilson was scheduled to go after his 19th victory tonight as the Tigers open the season-ending weekend series against Kansas City. The Athletics have named John (Blue Moon) Odom.

The collapse of 26-game winner Denny McLain immediately after the All-Star game, Al Kaline's batting slump in July and August and having to play under three different managers

may all be brought out in discussions as to why the Tigers didn't finish any closer.

Kansas City Manager Alvin Dark is considered by some to be the odds-on choice for "Manager of the Year" honors despite the job turned in by pennant-winning Hank Bauer.

Should the Tigers clinch second before Sunday—and they'll need any combination of three victories or Minnesota defeats to turn the trick—Manager Frank Skiff is expected to make a few changes for Sunday's finale and start some of the younger players.

McLain is slated to start Sunday but Skiff might decide to go with a youngster like Bill to clinch seventh place which

would be their best finish since 1959.

North Carolina Has ACC Player of '65

ANN ARBOR (AP)—Michigan's pass defense will face its stiffest challenge of the young football season when the Wolverines play host to North Carolina Saturday.

The Tarheels will be led by quarterback Danny Talbot, the Atlantic Coast Conference's "Player of the Year" in 1965.

Talbot and Jeff Beaver completed 24 passes in 41 attempts against the Wolverines last year but lost, 31-24.

Michigan defenders have limited their first two opponents to 17 pass completions in 40 tries and have intercepted three enemy arials.

The Wolverines received a setback earlier this week when three ends were sidelined, one of them for the remainder of the season.

Clayton White will miss the game because of a shoulder injury, Roger (Rocky) Roseman has been sidelined indefinitely by a virus infection and Tom Pullen was to undergo knee surgery today.

But quarterback Dick Vidmer and end Jack Clancy are much of the Wolverines' offensive burden as the team goes after its third straight triumph.

TIGHT DEFENSE
North Carolina, however, has displayed a tight defense in splitting its first two games. The Tarheels dropped a 10-0 decision to Kentucky, then bounced back to nip North Carolina State, 10-7.

Clancy leads the Wolverines in yards gained with 290 on 18 passes receptions. Vidmer has completed 22 of 33 passes for 364 yards.

Dave Fisher and Carl Ward continue to be the workhorses of the Michigan ground game. Fisher has gained 129 yards in 38 rushes while Ward has 107 in 28 tries. Each has scored three touchdowns.

Ernie Sharpe, working as a replacement to Jim Detwiler, ranks third with 75 yards in 24 carries.

Improvement
Hickey said there had been definite improvement in his Carolina team since the opening game.

"Our blocking has improved as well as our throwing and our catching. We didn't chew State ranks third with 75 yards in 24 carries."

Pistons Rally to Beat Bulls

Detroit 5 Gains Fifth Exhibition Win

HOLLAND (AP)—The Detroit Pistons overcame an early shooting slump by Guy Rodgers to wallop the Chicago Bulls 128-109 Thursday night in a National Basketball Association exhibition.

Rodgers, scoring his team's first seven points, speared the Bulls to a 41-20 lead before the Pistons rallied to close the gap to one point, 54-53, at halftime.

The Pistons, posting their fifth victory in six exhibition games, took the lead on Ray Scott's field goal at the outset of the second half and never trailed again. Chicago, playing its first game in the NBA, cut a 21-point Pistons lead to 12 points late in the third quarter but three successive baskets by Eddie Miles put the game out of reach.

Rodgers led all scorers with 29 points. Miles had 21 for Detroit, with Charlie Vaughan adding 18 and Scott 15. Reggie Harding, playing his best game so far, collected 14 points and nine rebounds for Detroit.

The two teams meet again Saturday night at Archbold, Ohio.

Alma Given Forfeit Win
BLUFFTON, Ohio (AP)—The athletic director and football coach at Bluffton College said Thursday the school had forfeited its 21-30 victory over Alma last Saturday because of an ineligible player.

Robert Warren, who made the announcement, said the Bluffton star fullback, David Janssen, was not eligible because he had not passed 24 semester hours in the two previous semesters.

Unknown Touring Pro Leads Canadian Open

VANCOUVER (AP)—Hugh Royer, a little-known touring professional from Columbus, Ga., carded a three-under-par 68 Thursday to take the lead after the first 18 holes of the Canadian Open Golf Tournament.

But the big winner was the sprawling Shaughnessy Golf and Country Club course, a 6,907-yard layout made twice as dangerous by two days of rain.

No. 2 Rating for UCLA in Jeopardy

Bruins Face Missouri Saturday in National TV Contest

By the Associated Press

UCLA's hard-won No. 2 spot in the Associated Press college football poll could be in jeopardy Saturday when the Bruins face Missouri in a nationally televised contest.

Despite impressive victories over Pitt and Syracuse, UCLA is only a slight favorite over Missouri, which boasts early season triumphs over two Big 10 opponents, Minnesota and Illinois.

Most of the rest of the Top Ten teams in the AP poll ought to have little trouble in dispatching their opposition Saturday, although Alabama, the No. 1 team, could have problems with an unbeaten Mississippi team.

Georgia Tech, the ninth-ranked team, meets high-scoring Clemson, which won its opener last week from Virginia, 40-35.

India Leads, 1-0

TOKYO (AP) — India held a 1-0 lead in its Davis Cup Eastern Zone finals competition against Japan today after a second singles match between Japan's Koji Watanabe and Premjit Lal of India was called off on account of darkness.

Cager Given Release

ROSEBURG, Ore. (AP) — Jim Jarvis, former Oregon State star, was released Thursday by the San Francisco Warriors in the National Basketball Association.

Bruins Pick Captain

LONDON, Ont. (AP) — Left wing John Bucyk was named captain of the Boston Bruins at the team's practice session Thursday. Bucyk, 31, is starting his 10th season with the Bruins in the National Hockey League.

Has Jinx on Dodgers

Jaster Is Mystified

ST. LOUIS (AP) — Larry Jaster, unable to post a winning season, was 2-4 at Tulsa earlier in the season and said that if his record didn't look particularly good his earned run average "wasn't too hot either."

"But I always had it rough in the minors," he added. "I just couldn't get any breaks."

He got one when the Cardinals brought him up. And he responded with some strong pitching. But nothing calculated to explain his mastery over the Dodgers.

His earned run average against the rest of the league is 4.63 but he has allowed the Dodgers just 24 hits in the five games — all singles.

But while no one can really explain it, all agreed he's doing it merely by throwing his fast ball over the plate.

"I can't see any reason why we can't hit him," said Jim Leibold, the Dodgers' second baseman. "It's weird. He has trouble against everybody else in the league. Skipper told us to lay off his high fast ball, but that didn't help either. It's hard to believe."

Chiefs Hoping to Slice Vikings' Edge in Series

The Chiefs of Pontiac Central are on the short end of the worst record in their long football series with Flint Northern, but there are a few telltale signs that indicate the local crew is no longer a pushover.

The two Saginaw Valley Conference foes will square off this evening at Wisner Stadium in their 36th meeting of a series which opened back in 1931. Game time is 8 o'clock.

The Vikings captured that initial contest, 12-0, and went on to pile up a 26-9 advantage in 35 meetings.

As of late, however, things have been different.

Football fortunes at PCH have taken an upward surge in the past few seasons, part of which is reflected in the Chiefs last five meetings with Flint Northern — Central has won four of the five.

TWO STRAIGHT

PCH has taken two in a row from the Vikings, 7-4 in 1964 and 21-0 last year on the Vikings' turf.

The Vikings have won a pair of squeakers, 16-13 over Bay City Handy and 7-4 over Saginaw Central, on the other hand, has dropped a pair of close ones — 7-4 to Saginaw Arthur Hill and 13-4 to Midland.

Central finds itself in a must situation early in the SVC race where another loss could lead to a finish among the league also-rans.

In other games on the SVC schedule, Bay City Central (2-4) has a nonleague home date with Alpena, Bay City Handy (1-1) visits Saginaw (0-2) and Saginaw Arthur Hill (1-1) journeys to Flint Central (0-1).

Midland, sharing the league lead with Bay City Central and Flint Northern, travels to Flint Northwestern (1-1) Saturday night.

Oxford Harriers Win

Oxford took the top two places plus fourth, sixth and seventh to defeat Kettering in a cross country meet yesterday at Kettering. Oxford's Dennis Clock won in a time of 11:38 with Bud Gerow finishing second.

DOGGONE GOOD HELP—Bob Wallace (28) Texas Western end is trapped between Billy Woods (28) of North Texas State and a four-legged participant on the field of play who dashed onto the field to get in on the play. North Texas State won the game 12-9 last weekend and the dog was benched.

WMU Faces Miami State Slate Is Heavy

By The Associated Press
One Michigan team can all but lock up a second straight league title and another begins its quest for its first championship ever in a full slate of action on the college football front Saturday.

Michigan Tech, defending champion of the Northern Intercollegiate Conference, can take a giant step towards repeating when it faces Moorhead State of Minnesota in a night game.

Western Michigan, which has never won the Mid-American crown, starts the league season against 1965 co-champion Miami at the Ohio State's home field.

Albion opens defense of its MIAA title at home against Alma. Adrian is at Hope and Olivet at Kalamazoo in other MIAA clashes.

Kentucky State is at Eastern Michigan in the only other afternoon action in the state while Northern Michigan is at Hillsdale and St. Norbert of Wisconsin at Ferris State under the lights.

Central Michigan travels to Northern Illinois, Wayne State is at Washington and St. Louis Northwood at St. Louis. In other games involving state schools.

Western Michigan, which scored 31 points against Central last week for its best offensive showing since 1960, may have to face the Bobcats without starting center John Kouris, who suffered a back sprain last week.

Braves Rehire Bill Hitchcock

ATLANTA (UPI) — The Atlanta Braves Thursday rehired manager Billy Hitchcock for the 1967 season with the conviction he will make the team a contender for the National League pennant.

"I don't want to appear to be putting any pressure on Billy, but the way this club has come around under his direction, I really think he'll give us a contender next year," said John McHale, president and general manager of the Braves.

Hitchcock, who received a one-year contract, took over from Bobby Bragan on Aug. 5 when the Braves were in eighth place with little indication of improving.

Obviously in a personality conflict with Bragan, the Braves became a changed club under the soft-spoken Hitchcock.

Hitchcock, 50, an Opelika, Ala., native who broke into professional baseball as an infielder in 1939 and spent nine years in the majors, said Atlanta "will be in there all the way" in 1967 if the Braves can develop bullpen strength.

Rejuvenated LA Rams to Face 49ers Tonight

LOS ANGELES (AP) — The rejuvenated Los Angeles Rams, sidetracked last week by the champion Green Bay Packers in Wisconsin, hope to regain their winning ways tonight against the winless San Francisco 49ers.

A crowd of 45,000 is expected for the 8:05 p.m. (PDT) National Football League contest in Memorial Coliseum.

New 2-1 in the title race, against the 49ers' 0-1 record, the Rams are favored to win and avenge two regular season losses to San Francisco in the 1965 campaign.

Quarterback Roman Gabriel and the Rams defeated the 49ers in their pre-season encounter, 29-9, and in title play won their first two games from the Atlanta Falcons and the Chicago Bears.

John Brodie, the 49ers' ex-quarterback, managed to tie the Minnesota Vikings and then lost to the Baltimore Colts. They drew a bye last week.

While the Rams obviously have shown marked improvement under new coach George Allen, the 49ers have been somewhat of a puzzle. They dominated most departments on offense with their 7-4-1 record last year but thus far the spark is missing.

Gabriel, however, will be confronted with an alert pass-defense in throwing to such favorable receivers as Tommy McDonald, Tom Moore and tight end Billy Truax.

Baltimore's Johnny Unitas and Minnesota's Fran Tarkenton, two of the finer NFL passers, completed only a combined 24 passes against the 49ers.

Coach Jack Christiansen says he has not been able to pinpoint the 49ers' problems but feels the talent is there.

Play in the NFL continues Sunday with Detroit at Green Bay, St. Louis at Philadelphia, Dallas at Atlanta, Cleveland at New York, Chicago at Minnesota and Pittsburgh at Washington.

Pirates in Last Desperate Bid Tonight

PITTSBURGH (AP) — With a prayer and a band-aid, the Pittsburgh Pirates begin their final desperate bid for the National League pennant tonight against San Francisco.

The prayer—for the Philadelphia Phillies to rise up and belt the Los Angeles Dodgers—and unfailing confidence are about all the Pirates have going for them as they head into this final weekend.

Los Angeles extended its league lead to two games Thursday night, defeating St. Louis 2-1 behind Sandy Koufax.

The band-aid represents ailing as often as this bunch has. Walker said Thursday while enjoying a rare day off in the pennant struggle.

"This is the thing that has made them so popular throughout America. Everywhere we go, people are pulling for them."

The final weekend of the season presents identical three-game series: the Pirates and the Giants meet in Pittsburgh, and the Dodgers meet the Phillies in Philadelphia.

"I've never seen a club that could bounce back as well and Pittsburgh must sweep the

Glants to have a chance, and then look to the Phillies for help.

The loss of either Law for his final start, or Stargell, for this final weekend, could by itself be fatal. The loss of both presents Walker with a monumental headache, and he's planning no further ahead than tonight.

"We'll go with Woody Fryman, a rookie lefthander who has won 12 games tonight and be ready to come in with anyone else we need," says Walker, talking like

a manager who knows the next game could be the last as far as his team's pennant hopes are concerned.

"I don't really know what we'll do past that, but we'll go right down the line battling for it," Walker added. "I don't know who we'll have to use."

Left-hander Bob Veale, if he's not needed before then, will go in the Sunday finale. Laws scheduled turn is Saturday and if he isn't ready, it could be Billy O'Dell, Tommie Sisk, Steve Blass, or any of several others.

San Francisco's pitching lined up with Juan Marichal tonight, Bob Bolin on Saturday and Gaylord Perry Sunday.

As for Stargell, "We hope he'll be ready but I won't know until I get to the ballpark. They were taking him off his knee (Thursday) and we'll have to see how it is."

SOFT AS A KISS

Ladies Grid Class for 'Prof' Duffy

EAST LANSING (AP) — Duffy Daugherty—Prof. Duffy Daugherty, that is—is ready to make Thursday-morning quarterbacks out of Lansing-area women who don't understand football.

Daugherty, better known as Michigan State University football coach than as a professor of physical education, has been assigned to an MSU college course called "Understanding Football."

The class meets Thursday morning, starting Oct. 6 — two days before the MSU-Michigan football game.

Hills Harriers Triumph
Gloomfield Hills took the first four places to defeat Brighton, 17-43 in a cross country meet yesterday. Winner was Bruce Evans in 10:42.

Professional bowling has become so attractive for the better bowlers that the Bowling Proprietors Association of America has postponed until further notice its National Men's Team Match Game championship.

The annual event was slated for the first week of December in Waukegan, Ill.

The fact that the leading men were joining the Professional Bowlers' Association Tournament tour and not members of sanctioned league teams any longer was costing the BPAFA tournament too much of its glamor.

So, the association has its tourney committee studying new formats for the match game competition, hoping to increase interest in the affair.

Unless something is formulated in a hurry, however, it's very unlikely there'll be any national team tournament this year.

Fairgrounds Bowling owner Mel Moore is answering the Milford establishment telephone again though his doctor has prescribed at least one more week's recuperation.

PCH Team Wins No. 4

Pontiac Central's cross country team ran away from two Saginaw Valley Conference foes at Beaudette Park yesterday.

The Chiefs scored 18 points to Arthur Hills' 47 and Saginaw's 72 to up their SVF record to 4-0 and set the stage for a showdown with Flint Central and Midland next Thursday at Beaudette.

Harold Boone (10-32), Joe Dickie, Bob Dickie and Jon Costello finished 1-4 yesterday and Arlester Johnson was eighth. Harold's brother, Erle, led the PCH reserves to a 2-1 win over Arthur Hill.

Larry Hurst, the Chiefs' No. 2 runner who was injured last week, probably will be out for the season.

OCC Highlanders Win in X-Country

Highland Lakes Campus of OCC stayed undefeated in cross country by winning a triangular meet against Jackson JC and Flint JC 28-45-51.

Winner was Dave Johnson in 16:42 with other OCC runners Bill Hollis finishing 4th, Don Balkwell 5th and Dave Kay 6th.

Highland has won over 11 different schools in dual and triangular competition for a 5-4 record.

NEW CONTRACT — Hank Bauer (right) who directed the Baltimore Orioles to the 1966 American League pennant, received a new two-year contract yesterday and attended a press conference with Harry Dalton, vice-president of the Orioles.

BOWLING

A 700 series and the downfall of North Hill Lanes' team highlighted Monday's West Side Lanes Classic League action.

The Friday night Huron Bowl Classic had a new team high single game total by Felix Quality Market; and two men tied for high game honors with 275 in the Howe's Senior Classic last week.

At West Side, Art Newby pounded out a 220-289-229 — 711 as Dale Cook Construction won eight points, while Sport Center Trophies swept previously unbeaten North Hill out of the lead as Joe Roerich hit 241-215-671.

The Huron Bowl team has moved four points in front in the week. Monday's only other sweep went to K Falls Lanes.

In last week's action, Bob Murphy had 218-379-694 as Police won eight points aided by a 1073 high game in the Huron Classic. The marketmen and Herk's Auto Supply are tied for first place.

Frank's Restaurant, Jim's Standard Service and the Lake Orion Furniture and Appliances teams all swept their opposition. Don Martell posted 216-243-655.

At Howe's, Joe Frederick (680) and Dick Childress (620) each had 275 in the Friday Classic loop. Tom McDermott fired a 225.

A nine-week fall swimming program has been scheduled by the Pontiac Parks and Recreation Department for youngsters beginning and advanced classes at the Central and Northern high school pools.

There will be classes Monday and Wednesday nights from 6:30 to 7:30, and the same time Thursday nights 6:30-7:30 and 8:30-9:00.

Open swimming will be 8-9 p.m. Mondays and Wednesdays, and 7-8:30 p.m. Tuesdays. The Monday and Wednesday sessions will be at Central. All Tuesday and Thursday swimming will be at Northern.

Those nonswimmers attending the PCH classes must be 54 inches tall; while PNH sessions are open to nonswimmers 54 inches tall.

The registration fee is \$2 for youngsters. Advance signups for the classes are being taken at the Detroit Race Course earlier this month.

2-Year Contract

Bauer Gets Hefty Boost

BALTIMORE (AP) — Hank Bauer, who learned managerial strategy under double-talking Casey Stengel, has signed a new two-year contract to manage the pennant-winning Baltimore Orioles at a hefty increase in salary.

"Just say I'm in the higher echelon as far as manager's salaries go," Bauer said Thursday after signing for close to \$50,000 a year — less than a week before leading Baltimore into the World Series.

Being as cool as a tough-looking ex-Marine can, Bauer thrust aside inquiries about his pay scale. Political retorts from the former star outfielder who earned \$70 a month during his first professional season included:

"I got what I wanted — a very sizable increase."

"I'm going to pay a helluva lot of taxes."

"Not too many managers are ahead of me."

Bauer, who made an estimated \$32,000 this season during the second year of a two-year contract, was asked if he had received a 50 per cent increase.

He gazed toward the ceiling, as if doing mental gymnastics, and said, "No."

"How about 40 per cent?" "You're close," came the quick reply.

TOKYO — Takenori Paul Felt, 34, has been named as the new manager of the Philadelphia Phillies. Felt was born in Philadelphia and played for the Phillies from 1958 to 1964. He was a first baseman and outfielder. He was married and has two children. He was a member of the Phillies Hall of Fame.

Track Groom Stands Mute
DETROIT (AP) — Ronald B. Brown, 23, a groom accused of doping a horse at the Detroit Race Course earlier this month, stood mute Thursday at his arraignment before Circuit Judge Thomas J. Murphy.

Track stewards charged that Brown made a statement to them about giving a drug to the horse, Comes-the-Groom. No date was set for examination.

Tourist Group Reelects Head

W. Michigan Council Adds Five to Board

HOLLAND (UPI)—The West Michigan Tourist Association re-elected all officers at its annual meeting yesterday and voted to hold its 1967 meeting in South Haven.

Robert Webster of Grand Rapids was reelected president for a third term.

Don Stewart, cit. manager of Benton Harbor and Carl Montglos, Grand Rapids drug company executive, were re-elected as vice presidents and Marie Letz, regional chamber of commerce director of Pe-taskey, was reelected treasurer.

Five new members were elected to the 15-member executive committee.

They are Harless Feagans, Marquette; Leslie Grossi, Whitefish; Carl Haradine, Three Rivers; William Phillips, Traverse City; and Russell Spooner of Grand Rapids.

15 RESOLUTIONS
The association approved 15 resolutions and added another not on the agenda.

The new resolution urged that resort operators be exempt from new federal minimum wage increases during the 13 week training period for employees because the tourist industry is a seasonal operation.

Other resolutions recommended an expanded promotional budget for Michigan tourism, transfer of highway tourist information lodges from the Highway Department to the Michigan Tourist Council and establishment of a department of travel as a major department of state government.

3 Teen-Agers Are Injured in City Collision

Three Pontiac Township teen-agers were injured yesterday afternoon in a two-car collision at Clara and Fuller.

Listed in fair condition in Pontiac Osteopathic Hospital is Nancy Bowman, 17, of 940 Collier, driver of one of the cars.

Two of Miss Bowman's passengers, Regina Leinonen, 17, and Larry Leinonen, 15, both of 1084 Sterling, were admitted to Pontiac General Hospital.

Miss Leinonen is listed in fair condition, while Larry was to have been discharged from the hospital today.

Two other passengers were treated and released from hospitals, as was Wayne A. Batte, 18, of 571 First, driver of the other car.

Area Educator Elected to Post

Superintendent of Waterford Township Schools, Dr. Don O. Tatroe was elected president of Region Nine at the annual meeting of the Michigan Association of School Administrators held recently at Mackinac Island.

Region Nine encompasses school districts in Oakland, Macomb and Wayne counties. All superintendents and their first line assistants in the more than 80 school districts in the region are eligible to join the organization.

Also elected to office in Region Nine were Supt. of Utica Schools Philip E. Runkel, secretary; and Supt. of Allen Park Schools William Harris, vice president.

just finished a sharp engagement with North Vietnamese troops just south of Viet Nam's demilitarized zone.

20 Seeking New Trial

Oakland County Circuit Judge Frederick C. Ziem will rule Tuesday if 20 men convicted in the Madison Heights Steren-Asmussen Club gambling case will get a new trial.

Ziem took the matter under advisement after defense attorney Carlton Rooser argued five hours yesterday and three hours

Wednesday why his clients should be tried again.

Chief Assistant Prosecutor Thomas Plunkett took 20 minutes to oppose the motion for the new trial.

The 20 men were among 49

persons arrested Oct. 11, 1963, when state police raided the club. Charges against the others have since been dismissed.

Their three-week trial was preceded by a preliminary examination in justice court that took 11 months to complete before the case was bound over to Circuit Court.

IN MANISTEE

The trial was held in Manistee in northern Michigan after Rooser asked for a change of venue on the grounds the defendants could not get a fair trial locally because of the publicity the case had received.

Pretrial news coverage is one of the 80 reasons cited by Rooser in his motion for a new trial. The motion is 52 pages long.

Since being sentenced Sept. 10, 1965, a month after their convictions, the 16 who received prison terms have been free on bond pending their appeal for a new trial. The other four were placed on probation.

Rooser said he is prepared to go to the Michigan State Supreme Court and, if necessary, the U.S. Supreme Court.

PATROLMAN DENTON

Veteran City Patrolman Is Feted by 50

Some fifty policemen, city officials and municipal employees attended a retirement party yesterday for Patrolman Ray E. Denton, 37-year veteran of the Pontiac Police Department.

Denton, 90, of 4795 Elizabeth Lake, Waterford Township, held badge No. 1 as the policeman with the most years service on the force.

At the time of his retirement, he was serving as a plain-clothesman assigned to the city attorney's office.

A portable television set with an engraved plaque was among several gifts presented to Denton at the gathering in the squad room of the police department at 110 E. Pike.

Offers Free Health Test

Phony Doctor Appears Again

A middle-aged man, passing himself off as a health officer, approached a housewife at a West/West Street home yesterday morning, telling her he was there to give her children tuberculin and polio tests.

Wearing glasses and a mustache, the impersonator had with him a small black bag

Parke-Davis Loses Lawsuit

\$500,000 Awarded Boy in Drug Case

FARGO, N.D. (UPI)—A federal judge has awarded \$500,000 to a 7-year-old Grand Forks, N.D., boy whose parents claimed the drug Quadrigen, manufactured by the Parke-Davis Co., Detroit, caused the boy to be mentally retarded.

Judge Ronald N. Davies made the award to Shane Stromstedt, son of Mr. and Mrs. Robert Stromstedt, last Wednesday.

The parents had originally filed suit for \$750,000. They claimed the drug triggered encephalitis or some other form of the disease.

Davies ruled that Parke-Davis had "breached an implied warranty" and also had been guilty of tortious negligence.

"The evidence justifies the conclusion that the plaintiff's injuries and damages were caused by a defect in the Quadrigen and that such defect constitutes a breach of the implied warranty of merchantability," the judge said.

UNDUE REACTION

He said undue reaction had been found during the field testing of the drug and it appeared that no effort had been made to check on the reaction.

Quadrigen, which was used to inoculate children against whooping cough, diphtheria, tetanus and polio, was taken off the market in 1962. The drug company, however, claimed the drug was not defective, but too expensive.

The boy's attorney, Melvin Bell of San Francisco, said the boy had taken injections of Quadrigen in August and October of 1959.

The boy allegedly suffered no violent reaction from the first injection, but the parents claimed a rash appeared on Shane's face immediately after the October, 1959 injection.

They said the rash spread to the rest of the body by the next morning and he suffered convulsions.

\$130,000 in Rust

MADRAS, India (U)—Steel imported from the United States at a cost of \$130,000 was ruined by being left in the open for 12 months. The steel was intended for use at a hydro electric project, and another shipment had to be ordered.

Deaths in Pontiac Area

Samuel Azoian

Service for Samuel Azoian, 59, of 44 Dwight will be 2:30 p.m. tomorrow at Sparks - Griffin Chapel with burial in Oak Hill Cemetery.

Attic Fire Causes \$1,400 in Damages

An attic fire erupted in a Waterford Township home yesterday afternoon, causing an estimated \$1,400 in damages.

Township firemen, who used three pieces of equipment to battle the 14-hour blaze, estimated damages at \$400 to the building and \$1,000 to the contents of the home. The fire was caused by a two-story frame home is valued at \$20,000.

Cause of the fire is being investigated.

Deserted Wife Fired Up for Double-Barrel Payoff

By EARL WILSON
NEW YORK — Producer David Merrick's attractive wife Jennie Gilbert, who's from West Virginia, told her lawyer, "Let go with both barrels," charging David walked out on her and her dir., who's almost 3, in January. . . . to live at the Ritz Towers. . . . "Have you received any settlement?" I asked Jennie who said he's left her staffless. . . . "Mr. Wilson," she said, plaintively, "all I have in the whole world is Roy Cohen."

El Morocco's smash success, and Angelo, Madame's dir., will wear white-tie & tails nightly. Trouble with that, he says, is NO POCKETS! Very big the other night, with the Fords and opera lovers. Maurice, Jay and Jack Uchitel are knocking off the cover charge for diners & dancers till 10:30.

Bravo, Bravo to Tony Martin. His new show at the Americana Royal Box brings out America's only expert accompanist, pianist-harpist-artist Cory Hale, a doll of a trumpet from Hollywood. Trust Tony Martin to get a sexy-looking piano player who looks like she's in a negligee.

Maureen O'Sullivan, Mama of Mia, went into NY Hospital for "a week's checkup and that's all" after flouncing around town on a date with George Abbott. They saw a preview of "Help Stamp Out Marriage." Maureen goes back into "The Subject Was Roses" in California in a week.

All the stars were hovering around busty Donna Michelle, 1941 Playmate of the Year, at a big McCall's party at Arthur for Roddy McDowall's article and books, "Double Exposure." They claim that Donna, who's often double-exposed and prettily, too, will be a star in two years, the new Raquel Welch. She's off to Spain to film a western, "Belle Star."

THE MIDNIGHT EARL . . .

Actress Maureen Stapleton, who's dropped 60 pounds and a husband (David Rayfield), announced at Arthur that she's going to drop 20 pounds more. . . . following which she expects to have a new husband. . . . The authors of the special menu for Tony Martin's Royal Box premiere show labeled it in big type: "OPENING DINNER OF TONY MARTIN" . . .

Glad to see the book critics agree with my vast enthusiasm for the Derek Marlowe book: "A Dandy In Aspic" . . . Melina Mercouri at the Ground Floor looking very young said she'll rehearse privately a month with Oona White for "Never on Sunday" dancing and singing.

WISH I'D SAID THAT: An optimist (claims Ray Fine) is a bridegroom who thinks he has no habits that need changing.

REMEMBERED QUOTE: "An appeaser is one who feeds a crocodile—hoping it will eat him last."—Sir Winston Churchill.

EARL'S PEARLS: This is the difference between a regular diet and a crash diet: On a regular diet you don't take seconds. On a crash diet you don't take firsts.

Joe E. Lewis, a hit at Fred Waring's 50th show business ann'y party, said he went to Johns Hopkins for a checkup: "They went over me from stem to stern—which is fine . . . if you happen to be a ship." . . . That's earl, brother.

(The Hall Syndicate, Inc.)

Clio Man Killed Hearing on Wells Set

FLINT (AP)—Wayne Blakeley LANSING (AP)—The State 34, of Clio, was killed on 175 Health Department has scheduled trial Thursday when used a public hearing in Lansing his car collided head-on with a Oct. 17 on proposed statewide tractor-trailer loaded with food rules governing construction of supplies for a restaurant chain, water wells.

U.S. Pays \$5,650 in Compensation for S. Vietnamese Killed in Misdirected Attacks

WASHINGTON (AP) — The Department of State statistics showed United States has paid about \$5,650 in compensation to the near-est relatives of 168 Vietnamese civilians killed by 11 misdirected U.S. attacks since July 1 — a rate of \$34 per death, Defense

statistics covered incidents caused by inaccurate strikes and those resulting from the accurate bombing of villages incorrectly believed to be harboring enemy troops. The figures were learned fol-

lowing the mistaken bombing of a northern hamlet Tuesday that resulted in 35 deaths and injuries to at least 17 persons. Officials said the incident was caused when two Marine pilots

apparently overshot nearby targets, missed their targets or been dropped under mistaken as-

sumptions, killing 155 persons and wounding 228. * * *

U.S. jet crashed shortly after Aug. 9 when 53 civilians were killed and 43 wounded after two F100s attacked a hamlet in the Mekong River Delta southwest of Saigon in the mistaken belief Viet Cong were there.

The largest loss took place Aug. 9 when 53 civilians were killed and 43 wounded after two F100s attacked a hamlet in the Mekong River Delta southwest of Saigon in the mistaken belief Viet Cong were there.

GMC Truck Will Build 682 Buses for **MAKE OVER RATES**

A contract for 682 city buses has been awarded to GMC Truck & Coach Division by the New York City Transit Authority, Martin J. Caserio, a vice president of General Motors and divisional general manager, announced today.

He said this contract, amount-

ing to more than \$23 million is the largest bus order ever received by the division.

"We are pleased to have our product merit the confidence of the New York City Transit Authority and to participate in its transportation plans," Caserio commented

after New York City Board of Estimates approved the contract award.

The buses will all be equipped with air conditioning. "This is a major step in the city's long-range plan to modernize our transportation system," Mayor John Lindsay was quoted as saying.

"The Transit Authority is to be congratulated for making possible this innovation."

TO BE BUILT HERE

All of the vehicles will be built here in GMC Truck & Coach Division's manufacturing complex. Production schedules call for deliveries to start late

this year, with all buses to be in service before next summer.

The model TDH302 transit coaches will have 42 seats.

Features include outside illuminated advertising signs stretching the length of the roof, wide picture windows, fluorescent lighting, stainless steel handgrips and diesel engines

that have a high degree of combustion efficiency.

Besides air conditioning, they will also be equipped for two-way radios.

Wiring and public address speakers will be installed here along with brackets to which receiver-transmitters may be

fixed for the two-way radio and public address systems.

Four hundred and eighty of the buses will be assigned to the Manhattan and Bronx Surface Transit Operating Authority, a subsidiary of the Transit Authority. The remainder will go directly into the Transit Authority's fleet.

Republican Gov. George Romney stole the spotlight from his Democratic gubernatorial opponent yesterday with a visit to the White House.

Walkout Ends at Fisher Body

Unionist Ties Strike to Unsettled Grievances

The Fisher Body Plant in Pontiac resumed production yesterday afternoon after a wildcat strike involving 41 employees was settled by union and company officials.

The workers walked out of the trim shop Wednesday night and set up a picket line which another 2,000 workers refused to cross when they reported to work yesterday morning.

Don Johnson, president of UAW Local 596, said the work stoppage stemmed from a number of unsettled grievances.

The Pontiac Motor assembly plant next to Fisher Body was affected for a short time by the unauthorized walkout.

Final assembly was closed four hours early and 1,500 workers sent home, according to a spokesman. The next shift, however, came in at the regular time.

AUTO BODY SHORTAGE

The spokesman said the walkout caused an auto body shortage at the adjacent plant.

The picket line was removed around Fisher Body prior to an early morning conference between union representatives and management.

A second meeting was held in the afternoon after the morning session failed to resolve the problems.

Senate OKs Cabinet-Level Transit Dept.

Measure Similar to House-OK'd Bill, Less Than Sought by LBJ

WASHINGTON (AP) — President Johnson appears sure to have a 12th cabinet officer soon — a secretary of transportation with fewer powers than the President recommended.

The Senate approved creation of a department of transportation 64 to 2 yesterday.

The House passed similar legislation 336 to 42 on Aug. 30.

Leaders said they expect no difficulty in working out a compromise although the Senate version includes the Federal Maritime Administration in the department and the House bill does not.

The bill would bring into one department government policies, functions and operations now carried on by almost 100,000 employees in 35 separate units. At present levels, it would have a \$6.3 billion budget, fifth largest in the federal establishment.

The President has not indicated whom he might name to the expected new cabinet post.

WATERED DOWN

A key authority for the secretary to carry out his responsibility of trying to coordinate the nation's tangled transportation policies was heavily watered down in the Senate. The House struck it completely.

The section asked by Johnson would allow the secretary to fix standards and criteria for federal spending on transportation facilities.

The Senate Government Operations Committee wrote five exemptions from this authority into the bill and the Senate added a far-reaching sixth yesterday covering all federal grant-in-aid programs. Sen. Jennings Randolph, D-N.Y., said he was concerned particularly about highway funds.

The bill also leaves the secretary little power to influence spending on big waterways projects, long of special concern to Congress.

Thant Weighs Council Wish for 2nd Term

UNITED NATIONS, N.Y. (AP)—U Thant said last night he would give "serious consideration" to the Security Council's desire for him to take a second term as secretary general of the United Nations.

"That means he will stay," one diplomat remarked. "I think he will not," said another.

The council after a 35-minute private meeting yesterday issued a communique saying U Thant "should express willingness to serve as other terms, it would fully meet the desires of the members of the council."

A spokesman for Thant said (Continued on Page 2, Col. 6)

READY FOR ACTION—Getting ready to launch the GM Industrial Campaign for the Pontiac Area United Fund yesterday were chairman of the four units (from left), Edward F. Suda, manager of the Buick Warehouse; Norman F. Trost, factory manager of GMC Truck & Coach Division; John F.

Blamy, general manufacturing manager of Pontiac Motor Division; and Robert E. Schaffer, supervisor of employment at the Fisher Body plant. The division's goal of \$694,064 was announced at a kickoff luncheon at Beede's Restaurant.

Fine Weather --for Football

Football fans had better put on heavy woolens and mittens tonight.

The weatherman forecasts skies clear with temperatures falling into the high 30s.

The official U.S. Weather Bureau report reads like this:

TODAY — Mostly cloudy, breezy and cool with a few brief showers mainly north portions. Highs 35 to 40. Clearing and cold tonight, low 34 to 40. Westerly winds at 15 to 25 miles diminishing to 10 to 15 tonight.

SATURDAY — Partly sunny and continued cool, high 55 to 60.

SUNDAY — Chance of showers and cool.

Precipitation will total one-tenth to four-tenths in showers after Saturday.

Kelley Vows to Fight Legalized Gambling

FRASER (UPI)—Atty. Gen. Frank J. Kelley said yesterday he would battle any attempt to legalize gambling in Michigan because he is convinced "questionable elements" are in control of the bulk of legalized gambling in Nevada.

Speaking to the membership of the Christ Methodist Church in the Macomb County Community of Fraser, Kelley said he had "no doubt" the same elements would move in to exercise similar control if gambling were legalized elsewhere in the country.

Nails Bring Jail

MELBOURNE, Australia (AP) — Raymond Mawson, 26, who locked and nailed his wife in a cupboard to keep her from leaving him, was sentenced today to 4½ years imprisonment for assault and false imprisonment.

On Machine Check

Election Appeal Denied

The State Board of Canvassers yesterday denied the request of Richard D. Kuhn, defeated Republican candidate for Congress from the 19th District, for an expert to examine voting machines in the district.

The Pontiac attorney and businessman appealed to the board after a recount earlier this month revealed no substantial change in the Aug. 2 voting for him and the GOP winner, Jack H. McDonald.

Kuhn's petition contained several charges of voting machine and election irregularities in McDonald's home area of Redford Township.

The four-member board of canvassers rejected Kuhn's petition after hearing a report from Bernard Apol, assistant elections director, who said a recount had been taken and there were no changes in the outcome of the race.

Board member Alfred Fortino, after hearing Apol's report, said there appeared "nothing on the face of this petition to indicate the remotest possibility of fraud."

RICHARD D. KUHN

Fear Disaster as Inez Whips Through Haiti

Blackout May Hide Possible Tragedy in the 'Valley of Death'

MIAMI, Fla. (AP) — Hurricane Inez screamed into eastern Cuba today with 127-mile fury, and in her wet, gloomy wake a blackout of communications concealed a possible human tragedy in Haiti's "Valley of Death."

"I don't see how Haiti could have escaped a disaster," said Gordon Dunn, chief of the Miami Hurricane Center.

Weakened in her battle with the mountains of Haiti and the Dominican Republic, Inez had regained much of her ferocity in the water crossing to Cuba.

The U.S. Navy base at Guantanamo Bay was hammered by sustained winds of 127-mile velocity as the great storm crossed the coast of Cuba's Oriente Province, and Fidel Castro's struggling economy faced a disastrous blow.

Haiti's "Valley of Death" is a deep trough between mountain ranges, reaching from the coastal town of Barahona on the southern peninsula to Port au Prince, the capital, 150 miles away.

FULL FORCE

Straight into this trough, Inez hurled the full force of her wind and main. Funnelling between the mountains, the winds may have built up well beyond the 160-mile velocity the storm then possessed.

And Dunn said gigantic floods surely raced down the steep slopes into the valleys and among the tin and thatched-roof homes of the natives in this poverty-ridden nation.

The known death toll reached 39 in the French islands of Guadeloupe and the Dominican Republic, but hundreds of others may lie dead along the way.

Bill on Poverty Goes to Senate

WASHINGTON (AP) — The fight over the anti-poverty program shifts to the Senate today where debate opens on a \$2.5-billion budget request.

The House authorization bill that is \$750 million above the administration's budget.

The Senate action follows House passage last night of a bill tailored to the \$17.75-billion budget request.

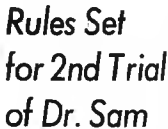

But tightening controls over how the money could be spent. The House vote was 210 to 156.

No votes are expected in the Senate before next week when the House returns to the anti-poverty program, Sargent Shriver.

JAMES A. BERESFORD

Country Club Head Named

James A. Beresford, 411 Lone Pine, Bloomfield Hills, has been elected president of Bloomfield Hills Country Club. He succeeds Hanley Dawson Jr.

Beresford will be assisted by Frederick Colombo, vice president; George Russell, treasurer; and Robert VanderKloot, secretary.

Other members of the board of governors are Robert E. Fife, Robert C. Fisher, Thomas D. Adams, Rinehart F. Bright and Ben D. Mills.

Beresford is a director of the Cranbrook Institute of Science, president of the Detroit Zoological Society, a member of the advisory board of the Salvation Army in Detroit and a director of the Booth Newspapers.

Most-Wanted Escapee Gets Out of Trap

LACHUTE, Que. (AP) — Escaped convict Andre Daoust, 24, shot his way out of a police trap Thursday night and disappeared with his friends fought encircling police off with gun fire.

Daoust, Quebec's most-wanted man, blasted his way out of another police trap last month at La Tuque, 250 miles north of Montreal.

He escaped from Montreal's St. Luc Hospital in June, was arrested by Royal Canadian Mounted Police in July and escaped from jail by hitting a jailer over the head with a lead pipe.

Daoust had been serving a four-year term for an \$11,000 credit union robbery when he was transferred to the hospital for treatment of an injured hand.

Police captured the three other men in the cottage after the gun battle. One of them, who was wounded, told police "Daoust got it worse than I did." Officers, who did not identify the wounded man, brought a police dog in in hopes of tracking down the apparently wounded escape artist.

State Legionnaires at Fall Convention

KALAMAZOO (UPI) — Plans for recruiting new members from veterans of the war in Viet Nam will be considered this weekend at the annual fall convention of the American Legion of Michigan.

A bill signed by President Johnson Sept. 1 makes Viet Nam veterans eligible for Legion membership and plans will be made for the increase in membership, a legion spokesman said.

State Commander Edwin J. Schnitman of Holland will preside over the three-day meeting.

Grant to Detroit

Soviets Expel Yank Student

MOSCOW (AP) — Soviet authorities said today they have expelled an American student for spreading anti-Soviet propaganda.

The Soviet labor paper Trud said Nicholas H. Riegg of the University of Pennsylvania was ousted this month after authorities accused him of working for the American Central Intelligence Agency and engaging in "hostile activities."

Trud said that Donald R. Lesh, a U.S. Embassy secretary who was expelled Sept. 14, had served as a contact man for Riegg. It charged that Lesh also worked for the CIA and subverted African students in Moscow.

The report said Riegg had signed a statement admitting the charges against him.

"We should like to draw the

attention of the foreign public, and particularly the American public, to the generosity of the Soviet people," Trud said. "In our country we use extreme measures of punishment only in rare cases, particularly when foreigners are involved."

An American Peace Corps member, Thomas R. Dawson, is being held by Soviet authorities for possible trial as a border violator.

The last American taken to court on such a charge was expelled Sept. 14, had served a 18-month sentence. He committed suicide last Jan. 20, according to the official Soviet version.

The U.S. State Department was angered by the treatment given Mott and warned American tourists about the dangers of coming to this country.

The U.S. Embassy had no immediate comment on the Lesh and Riegg cases.

Trud said Riegg had tried twice to come to the Soviet Union as a student, once to Leningrad and once to Minsk. Failing this, he visited the country in 1964 and 1966, the paper continued.

It said he had been trained for his work by CIA agents in Stockholm, Sweden, and had brought in anti-Soviet literature. But it said the Soviet people would not listen to his slanders against the country.

Trud said Riegg signed a statement before his expulsion each year by Muslims for fast which said: "In addition to the

dark affairs I have busted myself in during this trip, I also behaved myself criminally two years ago the first time I was here.

"I understand that my fate depends entirely on the generosity of the Soviet people."

Trud asserted that Lesh had prepared for his work in the Soviet Union by studying intelligence in the U.S. Navy and then joined the State Department to get the protection of diplomatic immunity.

Ramadan, ninth month of the Islamic lunar year, is set aside each year by Muslims for fast which said: "In addition to the

Birmingham Women Hosting Federation

Hostess for the Twentieth Annual Fall convention of the Michigan State Federation of Junior Woman's Clubs will be the Birmingham Junior Woman's Club. The event will take place Saturday in the Village Woman's Club, Bloomfield Hills.

Guest speaker is Mrs. William Vaxier, Chairman of the Board of Girltown in Belleville. The Jills of the Hills, a Bloomfield Hills high school singing group will entertain.

Awards will be given for the Club woman of the Year, and for special club achievements. An award will also be given

to the club whose historian has compiled the most complete and artistic scrapbook. Judges of entries are Carolyn Hall, Bruce Beal and Mrs. Max Keenan.

Mrs. William Fath and Mrs. Richard Stone are co-chairmen for convention planning. Their committee heads are Mrs. Donald Johnstone, Mrs. Thomas Burnstead, Mrs. Jack Berka and Mrs. Otto Rosenbusch.

Entomologists estimate there are more than two million living species of insects in the world, according to Encyclopaedia Britannica.

Pontiac Press Photos by Edward R. Noble

Baying hounds and mixed greens create a hunt scene for a large terrarium designed by Mrs. Earle Heft of Birmingham, member of Westchester branch, Woman's National Farm and Garden Association.

Don't Ignore Your Neck

Your complexion includes your neck so give it the same conscientious care and cleansing that you give to your face.

When you cream your face, extend the cleansing cream over the neck, leaving it there for a few minutes to soften the skin.

Mall Show on TV
Segments from The Pontiac Mall Flower Show "Accent on Elegance" will be presented at 6:10 p.m. today over Channel 4.

Handy Ice Cap

To make an ice cap, place crushed ice in a plastic vegetable bag and cover with a towel. Tape the bag shut.

The "Consign Library" was formed in Marietta, Ohio, in 1804 when a group of settlers sent cookskins to Boston in exchange for books.

Last Chance to View 'Mall' Flower Show

By MADELEINE DOREN

The Pontiac Mall Flower Show "Accent on Elegance" will close the six-day event with demonstrations this evening and Saturday.

Mrs. William Sanderson will demonstrate corsage-making at 3:30 and 7:00 p.m. today, and Mrs. Boris Ososnak will make dried arrangements at the same hours on Saturday, also at 11:30 a.m.

JUDGES

Judges for the first three days' entries under the Horticultural Division were Mesdames Frank Carlee, Donald R. Conrad, Arthur Cox, William S. Dehm, G. C. Horn, Boris Ososnak, Parker Rockwell, Stewart Schultze, Arthur Stillier, N. A. Thureson, Ralph Whitmill and Paul Ziebauer.

All are members of the Michigan Division, Woman's National Farm and Garden Association of Graduate Judges and Teachers. Student judge, Mrs. G. M. Duke, assisted.

Highlighting the unjudged Ikebana International exhibit are two bonsai (planted dwarfed trees) 18 and 21 years old entered by Mrs. Harvey

Bumgardner of Bloomfield Hills.

Other entries were Mrs. Marvin L. Kadke's 'Humphrey's Pride Juniper' and Mrs. W. D. Sexauer's bonsai plants.

Other Ikebana exhibits were entered by Mrs. James Shi. Other entries were Mrs. Marvin L. Kadke's 'Humphrey's Pride Juniper' and Mrs. W. D. Sexauer's bonsai plants. Mrs. Taro Suzuki, Mrs. Gregor Affleck, Mrs. P. N. Askounas, Mrs. George Bender, Mrs. Lewis C. Dibble, Mrs. J. C. Calhoun, Mrs. Lee Carter, Mrs. W. R. O'Neill, Mrs. John Abbott, Mrs. Leslie Haskemper, Mrs. James Oshika, and Mrs. Glenn C. Bedell.

Distinguish Keys

To identify keys quickly, mark each with a different shade of fingernail polish.

Billy the Kid, born William H. Bonney, killed his first man before he had reached his teens, and has ever since been a symbol of the lawless West.

An inverted container of washed copper and pewter holds Mrs. N. A. Thureson's blue-ribbon arrangement of dried Allium, beach leaves, swamp trumpet and dried Baptisia. A member of the Franklin branch, WNFCA, she resides on Old Colony Road, Farmington Township, and was among the judges for The Mall Flower Show.

The three arrangements shown were among some 40 blue ribbon-winners at The Pontiac Mall Flower Show which closes Saturday evening.

This Dress Well-Worn

CLARENDON, N.C. — When Gayle Annette Long was married to David Russell Ward, she was the youngest of five sisters to wear the same wedding dress of Chantilly lace and tulle. It has never been necessary to alter the floor-length dress, worn for the first time in 1952.

"Always a bridesmaid and never a bride" did not hold true for Gayle. She served first as a flower girl, and then as a bridesmaid in the weddings of her sisters.

Kitchen Carpeting Is Here

With the kitchen often divided from the adjacent family room by only an imaginary line in many newer homes, the use of washable nylon carpeting in both areas is finding increasing acceptance.

While this gives comfort un-

derfoot and adds visual appeal, homemakers find it no more difficult to keep clean than to scrub, wax, and buff hard floor surfaces. The carpeting requires only occasional shampooing with dense suds.

Wall Street Holding Breath

Mart Hovering Near '66 Lows

NEW YORK (AP)—The stock market early today hovered near the 1966 lows made on Aug. 29 and Wall Street held its breath waiting to see whether stocks would rally again from that level or sink below it.

Trading was moderate, prices were mixed and the industrial average was off very slightly as trading got under way.

Among major groups, however, there was no decided trend either way. All Big Three

motors were up fractionally. Steel stockmakers were virtually unchanged. Nonferrous metals were mostly a little lower. Airlines gained a bit, with American and Pan American up about a point each.

SCRAMBLED SHOWING

The showing by glamor stocks also was scrambled. Xerox lost more than a point. IBM lost more than a point. Electronics were mostly higher by fractions. Aerospace issues were a little lower on balance.

Burroughs slid 2 1/2 to 73 1/2 on an opening block of 11,500 shares.

Opening blocks included Polaroid, up 1/4 at 134 1/4 on 6,000 shares; American Telephone, off 1/4 at 51 1/4 on 6,800; and General Motors, off 1/4 at 74 1/4 on 3,200.

Thursday the Associated Press Average of 60 Stocks fell 3 1/2 to 779.2.

Prices were irregularly lower on the American Stock Exchange.

Proposed Levy Called Illegal

By JOHN CUNIFF
AP Business News Analyst

NEW YORK — Early next year we will have completed six years of superbloom, 72

which Americans made a couple of centuries.

This progress comes after a century of industrial revolution and refinement of the basic change of which has been to make Americans urban dwellers and office and factory workers rather than rural farmers.

The added millage levy will raise taxes to pay the \$236,500 due the County Building Authority on the new courthouse and \$54,500 for drain assessments.

County Corporation Counsel Robert J. Allen said that Article 9, Section 6 of the State Constitution permits a levy over the allocated amount.

The committee cited Allen's opinion in answering Melchert's allegation.

Melchert was the lone dissenter to appear at the hearing, but Ferndale assessor Roy Goodspeed phoned during the hearing to claim that money to pay for building bonds should be in the capital improvement classification rather than debt retirement.

County Treasurer James E. Gesterlin told the committee that the board of supervisors members will likely have questions on the levy at Wednesday's meeting on the 1967 budget.

He suggested that the committee be well prepared to answer these inquiries.

County Treasurer James E. Gesterlin told the committee that the board of supervisors members will likely have questions on the levy at Wednesday's meeting on the 1967 budget.

Where Has It Taken Us?

6th Year Superbloom

By JOHN CUNIFF
AP Business News Analyst

NEW YORK — Early next year we will have completed six years of superbloom, 72

which Americans made a couple of centuries.

This progress comes after a century of industrial revolution and refinement of the basic change of which has been to make Americans urban dwellers and office and factory workers rather than rural farmers.

The added millage levy will raise taxes to pay the \$236,500 due the County Building Authority on the new courthouse and \$54,500 for drain assessments.

County Corporation Counsel Robert J. Allen said that Article 9, Section 6 of the State Constitution permits a levy over the allocated amount.

The committee cited Allen's opinion in answering Melchert's allegation.

Melchert was the lone dissenter to appear at the hearing, but Ferndale assessor Roy Goodspeed phoned during the hearing to claim that money to pay for building bonds should be in the capital improvement classification rather than debt retirement.

County Treasurer James E. Gesterlin told the committee that the board of supervisors members will likely have questions on the levy at Wednesday's meeting on the 1967 budget.

U.S. Pays \$5,650 in Compensation for S. Vietnamese Killed in Misdirected Attacks

WASHINGTON (AP) — The Department of State today announced that the United States has paid about \$5,650 in compensation to the near-est relatives of 106 Vietnamese civilians killed by 11 misdirected U.S. attacks since July 1 — a rate of \$34 per death, Defense officials said.

The statistics covered incidents caused by inaccurate strikes and those resulting from the accurate bombing of villages incorrectly believed to be harboring enemy troops. The figures were learned following the mistaken bombing of a northern hamlet Tuesday that resulted in 33 deaths and injuries to at least 17 persons. Officials said the incident was caused when two Marine pilots apparently overshot nearby targets.

Airplane incidents have been the chief cause of the mistaken killings and injuries, the statistics showed.

Eight times in the past three months bombs have either missed their targets or been dropped under mistaken assumptions, killing 158 persons and wounding 229.

U.S. jet crashed shortly after takeoff Aug. 17 in Quang Nam Province, killing 30 persons and wounding 15. Those victims also received U.S. retribution payments.

The largest loss took place Aug. 9 when 63 civilians were killed and 13 wounded after two F100s attacked a hamlet in the Mekong River Delta, southwest of Saigon in the mistaken belief Viet Cong were there.
