Rally Follows Latest Setback to MacArthur

Internal Bleeding Is Being Controlled After 3rd Operation

WASHINGTON (AP) — Gen. Douglas MacArthur, fighting for his life, developed a kidney condition of "grave concern" during the night but was reported rallying today. Army Surgeon Gen. Leonard D. Heaton said he showed a slight improvement.

The surgeon general, one of the chief surgeons in all three of MacArthur's major operations the latest yesterday—said that some improvement had been made even since a medical bulletin was issued by the hospital at approximately 9:45 a.m. (Pontiac time) today.

But Gen. Heaton indicated that MacArthur's condition still was considered critical.

Heaton told a newsman that bleeding from the esophagus, which recurred during the night, was being "a little more effectively controlled" by 10:30 a.m.

★ ★ ★

He added that there had also been "a very modest return of urine output" during at least the last hour or so.

ISSUES STATEMENT

At 12:45 p.m. (EST) Gen. Heaton issued the following statement:

"Gen. MacArthur's condition continues to be critical. However, since the first bulletin at 9:45 a.m. today, there has been a slight improvement in the functioning of the kidney and some reduction in the bleeding from the esophagus."

The official bulletin at 9:45 a.m. had reported a decrease in kidney action and said steps were being taken to control it.

Heaton said that this complication is still considered a matter of "grave concern."

★ ★ ★

With regard to the bleeding from the esophagus—a condition that prompted the second of the three major surgical operations performed on MacArthur in 24 days—Heaton said that MacArthur "may have developed a stress ulcer in the stomach, complicating this picture."

He said that to combat the bleeding and the possible presence of a stress ulcer in the stomach "ice water is being used as irrigation through the tube" which had been inserted in MacArthur's esophagus, the passage that carries food to the stomach.

"The bleeding is subsiding somewhat . . . and the urine output is coming back slowly," he said.

WHAT A MESS!—A store owner in Anchorage stacks up what's left of his stock as the city begins digging out after Friday's earthquake. This section of downtown Anchorage was particularly hard hit. Cleanup operations were well under way today, spurred by promise of massive federal aid.

Alaska Toll Might Top 100; Damage Hits $350 Million

ANCHORAGE, Alaska (AP)— As Alaskans toiled to dig out from the rubble of Friday's great earthquake, Civil Defense officials listed new casualty figures today of 21 known dead and 83 missing and presumed dead.

See Stories, Pages A-2, B-5

Fifty-five were reported to have been injured.

This means if those presumed dead — most were washed to sea by tidal waves following the quake—are indeed dead the toll will be more than 100.

Before this morning's report, an estimated 70 had been listed as dead or presumed so.

★ ★ ★

Gov. William A. Egan made a new damage estimate Sunday night of $350 million for this far north state, where industry in several south-central coastal towns was virtually obliterated.

Civil Defense officials gave this breakdown on casualties:

CASUALTY REPORT

Anchorage, with a metropolitan population of 100,000 and the state's largest city, 8 dead and 2 presumed dead, 50 injured.

Kodiak, 7 dead, 14 presumed dead, 2 injured.

Valdez, 1 dead, 30 presumed dead, 2 injured.

Seward, 2 dead, 20 presumed dead, 2 injured.

Whittier, 1 dead, 12 presumed dead, 1 injured.

Cordova, 1 dead, 5 presumed dead, injured unknown.

Port Ashton, 1 dead, 5 presumed dead, injured unknown.

The death toll in Alaska was certain to climb—many still are missing—but most state officials expected the final total to stay below 100.

A stunned population began to realize the economic ruin carried by the quake. In some communities, industry was as much as 95 per cent wiped out.

Egan said his estimate of property damage was conservative. Other unofficial estimates were higher.

★ ★ ★

Egan had increased the figure after visiting Valdez, his home town.

TIDAL WAVE

Information from many of the heavily hit areas was sketchy at best. In Kodiak, where a tidal wave washed out the waterfront, one report said martial law had been proclaimed. Police refused to confirm or deny the report.

In Washington, President Johnson said after studying reports on Alaska damage that "everything necessary must be done." Aides said this probably will require new legislation.

Edward A. McDermott, head of the office of emergency planning, told the President after surveying wrecked communities that the present disaster relief program would not be enough.

★ ★ ★

Johnson told McDermott to develop a relief plan for both immediate and long range help.

Sen. E. L. Bartlett, Alaska Democrat, said he will urge a special federal program to provide several hundred million dollars to restore shattered cities and towns, government-owned railroads, and the vital fishing industry.

Ex-Astronaut Ends His Bid for Senate Seat

Still Not Recovered From Fall at Home; Remains in Hospital

SAN ANTONIO, Tex. (AP) — Former astronaut John H. Glenn Jr. withdrew today from the U.S. Senate race in Ohio because he is too ill to campaign — and because, he said, he does not have the right to ask for election just because he was the first American to orbit the earth.

It is too late for Glenn's name to be removed from the Ohio Primary ballot, but he said that even if the voters should go ahead and nominate him, he would not run for the Senate—"when you withdraw, you withdraw; that terminates it."

Glenn damaged his inner ear in a fall in his bathroom in Columbus on Feb. 26. The injury affected his balance. Glenn shifted his eyes from side to side without turning his head today as he announced his withdrawal sitting in a hospital bed. He was pale.

Glenn, a Marine lieutenant colonel, said he will remain in the Marine Corps until he is fully recovered — and that, his doctors said, might take many months.

★ ★ ★

Glenn said he could not endorse his Democratic primary opponent, U. S. Sen. Stephen M. Young of Ohio, because the Marine Corps prohibits political statements by a man on active duty.

INTENDED TO RETIRE

The 42-year-old former astronaut had intended to retire from the Marine Corps on March 1.

His injury, suffered when he fell in his bathroom and cracked his head against the tub, prevented that. Then he was expected to retire April 1. Still he could not.

The Marine Corps requires that a retiring officer must be fit for duty and can retire only on the first day of the month.

★ ★ ★

If Glenn had been able to retire May 1, he would have been able to campaign only four days before the Ohio Primary May 5.

Glenn made his announcement at Wilford Hall Hospital at Lackland Air Force Base, where he was brought on March 6.

Despite Snow and Cold

Area Churches Full for Easter

By MARY ANGLEMIER

The Pontiac Press

Thousands of worshipers heard the story of Christ's Resurrection in song and sermon as they filled city and county churches to overflowing Easter Sunday morning.

Although some snow was on the ground and the air a bit brisk the sun climbed over the horizon in a blaze of glory.

The joyous services began in Roman Catholic churches with parishioners attending Midnight Mass.

Just about dawn worshipers arrived for sunrise services.

★ ★ ★

Young people of Trinity Methodist Church, Waterford, presented a play, "Because He Lives" in an outdoor sunrise service on the site of the future new church, 6440 Maceday Lake Road.

CHURCH BELLS

Throughout the morning church bells rang out from all sections of Pontiac announcing the Easter services in celebration of the Resurrection of Jesus Christ centuries ago.

Before altars banked with gleaming white lilies and other floral decorations sent by members and friends in memory of loved ones, there were baptisms and reception of members.

Senior, Junior and Children's Choirs were heard in well loved anthems they had been practicing for weeks.

SERMONS

Sermons in both Protestant and Catholic churches dealt with Christ's rising from the tomb with His promise of life everlasting.

David Trapp presented the trumpet descant "Jesus Christ Is Risen Today, Hallelujah" before services at Grace Lutheran Church.

A brass ensemble composed of Dale Carlson, George Fetter, trumpets; and Jay Young and Jack Payne, trombones, heralded morning worship at All Saints Episcopal Church.

★ ★ ★

Speaking of Easter at St. Michael Catholic Church Rev. David Britz said "The whole meaning of Easter message is that we have a part in Christ's resurrection and that we suffer with Him in order that we might rise as He did.

Bill to Start Ball Moving on Congressional Districts

LANSING — Senate Judiciary Chairman Farrell E. Roberts, R-Oakland County, said today a congressional reapportionment bill will enter the legislature Wednesday, but will not be what legislators intend to pass.

"We'll put in a vehicle bill with the understanding it's not the bill we'll go with," Roberts said after an emergency meeting of his committee.

As a "vehicle" bill, the measure would set legislative procedures in motion but will be subject to amendment.

A federal court panel ruled Friday that districts passed by the Republican-controlled legislature last year can not be used because they're too unequal in population to be constitutional.

Redistricting because of the court ruling is expected to include revision of Oakland County's 18th and 19th districts.

In fact, the office of Democratic Lt. Gov. T. John Lesinski disclosed that a plan he will submit this week would put the county's southeastern corner into a district with part of Wayne County. The rest of the county would form a second district.

Roberts agreed that such a move may be necessary. "I'm pretty sure that to get very close to equal-population districts in southeastern Michigan, we'll have to cross county lines," Roberts said.

Detour in City Will Be Lifted

Section of Saginaw to Open Tomorrow

Barricades around the Saginaw-Auburn-Orchard Lake intersection will be lifted at midmorning tomorrow and all three thoroughfares reopened to traffic.

City Traffic Engineer Joseph Koren said that pavement was poured Friday over the completed Clinton River drain tunnel, which runs under the intersection.

City officials were happy and a little surprised at the announcement, since original construction schedules had placed completion of the work well into April.

The major downtown intersection had been closed to traffic since Feb. 19.

Koren said that all three streets will be returned to full utilization.

Minister's Sermon Is 'Arresting'

DETROIT (UPI) — The Rev. Theron Spurr of the Gilead Baptist Church wanted to show his Easter Sunday parishioners what it is like to live in a totalitarian state.

His lesson was a dramatic success, almost as chilling as Orson Welles' famous radio show about a fictitious Mars invasion in the 1930's.

As the congregation sat listening intently to the Rev. Mr. Spurr's sermon, two men dressed as police officers walked up to the pulpit, grabbed the minister and slapped handcuffs on him.

The shocked congregation of about 1,000 then watched as Spurr was dragged off, protesting "but I haven't finished my sermon yet."

"I don't care — the church is closed," one of the uniformed men snapped. Then the Rev. Mr. Spurr was led outside and driven off in a squad car.

Report 81 County Families Qualify for ADC-U Funds

An initial 81 general relief cases in Oakland County are among the first in Michigan that apparently have qualified for federal aid to dependent children of the unemployed (ADC-U), County Welfare Director George Williams said today.

* * *

Shifting this number of cases largely from general relief rolls to ADC-U would save the county about $96,000 a year, according to Williams.

First payment of the fereral funds is expected here next month.

The county would supplement the ADC-U funds for the 81 cases to the tune of about $48,000 annually, the local director added. Otherwise the county would continue to pay the full shot under general relief.

* * *

Williams said he understood that, out of the first 90 cases referred from Oakland County to the State Welfare Department, 81 were immediately qualified for ADC-U.

SECOND LIST

County officials are hoping that many more cases will qualify when a second list is sent to Lansing within a couple weeks.

Generally those families whose breadwinners were put out of work through no fault of their own are eligible for ADC-U.

The amount of federal funds administered to them by state officials will depend on the number of children in each family.

* * *

Williams said the nine cases rejected so far will be re-evaluated here to learn of they might still qualify with further documentation as to why they are unemployed.

BETTER IDEA

"We will have a better idea of what information is required in Lansing after we receive our initial list back," he stated.

State officials still haven't established a specific policy on qualifications.

Once more information on policy is made available, the county welfare department hopes to transfer some 200 relief cases to ADC-U, at a total savings of about $200,000 to the county.

* * *

"The big question," said Williams, "still is how many cases they (in Lansing) will accept."

He said getting the initial list to Lansing so quickly required a crash work program for his department and the state's local Bureau of Social Aid.

Evidence Shows Kennedy's Killer Was Not Aided

WASHINGTON (AP) — With most of the information in, the commission investigating President John F. Kennedy's assassination has found no evidence the crime was anything but the irrational act of an individual.

This assessment came Sunday from sources close to the commission which has been studying the case behind closed doors.

* * *

Two of the seven doctors who treated Mr. Kennedy after he was shot were scheduled as witnesses today.

They are Dr. Charles J. Carrico, 28, the first physician to see the president afer the shooting; and Dr. Malcolm O. Perry, 34.

arrest had been a stunt, about 150 members of the congregation rushed outside and began flooding the Detroit Police Department with complaints.

Panic and confusion was rampant for nearly a half-hour.

Lt. Paul H. Pitzer Jr. of the Fourth Precinct, who related the incident, said the Rev. Mr. Spurr hired two private patrol watchmen to make the arrest.

"The only trouble was, the reverend apparently neglected to tell anybody what he was about to do." The police department, Pitzer added, wasn't exactly happy about the stunt.

Pitzer said one of the irate complainants was a woman.

"Imagine," she said, "I go to church for the first time in three years and the minister is kidnaped right before my eyes!

as ill health, war or death in the family."

Those attending services at Central Methodist Church heard Dr. Milton H. Bank say "Easter is a dawn to remember, first of all because it proves what you know in your own heart is true. We are here today to witness to the greatest phenomenon of history, the Resurrection of Jesus Christ who said 'Because I live you shall live also.'

"Secondly because it is a festival of great expectation. Easter bades us look forward, onward, upward and Godward. Easter has its fulfillment in human hearts."

* * *

Rev. Francis Dietz of Sacred Heart Catholic Church, Auburn Heights made this comment, "The great significance of Easter is that for the first time in mankind's history someone went through the portals of death to return to tell us what was on the other side."

* * *

Rev. G. J. Bersche of Missionary Alliance Church told his adult Sunday School Class "Easter means conversion, consolation, continuation and coronation.

* * *

"Since Christ defeated death the Christian has no fear of death. The Christ who arose that Sunday morning will one day come again."

The festive Easter Day with its triumphant music, pageants, plays and pantomimes drew to a close with cantatas and concerts of sacred music.

Fault Slows Reader Down

BY THE READING LABORATORY, INC.
Written for Newspaper Enterprise Association

(EDITOR'S NOTE — Time your reading of this column and compare your speed with that indicated at the end. The expected speed assumes a daily 5 per cent improvement.)

* * *

Have you met the fellow who loathes social science because his text is too heavy? You eventually will. And the cute coed who just can't stand geometry because of the terrible color of the book's cover? She's around too.

Oh, you're not that way? You just love all kinds of books and reading and have no problems at all with them?

Well then, we haven't met you yet. In fact, we have never heard of you.

Assuming he has most of his marbles, just why should a high school or college student ever read 20 articles about reading in his native language? There's a very simple reason: to read faster and better.

It's the same reason that has brought a lot of professional people and business executives to The Reading Laboratory program — after they've become successful. You can get a jump on them.

* * *

But we'd better get straight on what's in this for you right now. Will you settle for understanding instead of aggravation in your assigned reading? Will you take speed instead of plodding misery?

TWICE AS FAST

Well, that's what's in this for you, and we'll do it this way. We'll take your reading in the subjects for which you can spare little affection. Follow along with us and you'll get through your work twice as fast and with far better understanding.

•

See that circle right above this line? Poke a hole through it. Ask one of your buddies or one of the family to read the next paragraph while you observe his eyes through the hole.

You have to look very closely. Here's what you see. The eyes stop . . . go . . . stop . . . go. They move across the lines in jerks (fixations is a nicer word). The eyes can work no other way, so we have no plans of changing that.

What we will do is cut to an abolute minimum the number of eye fixations required in reading. In that way we add speed.

READ PARAGRAPH

Now let your friend look at your eyes through the hole as you read the next paragraph. Tell him to count the number of fixations it takes you to read the next paragraph.

There will be 66 words, so if you require 66 fixations, you're a word - by - word reader. And that's not good.

* * *

It's a safe bet that you have many times found yourself staring at a word, line or paragraph, yet read nothing.

* * *

Your eyes are on page 14; your mind is off on Cloud 9 with a girl or a guy. Unless both the eyes and the mind work together there's no reading, no understanding. That's just something we have to live with — the eye-mind relationship.

FINAL POINT

The final point we have to agree on before we outline our program in the next article is that you must have clear purposes in reading. And the purposes must be yours, not your dad's, not your teacher's — yours.

Some people can be motivated by what's ahead for them 10 years from now and they'll get plenty from their reading. But that's not generally true: most people want to know what they will get for themselves here and now.

* * *

We'll show you how to read with just such purposes in mind and get more than you ever got from, say, world history. And you'll save plenty of time in the process.

(You should have completed this reading in 100 seconds.)

Debate Starts on Rights Bill

Filibuster Expected in All-Out Struggle

WASHINGTON (AP) — Sen. Hubert H. Humphrey leads off with a challenge today as Senate backers of the civil rights bill launch an all-out campaign aimed at winning passage of the controversial measure.

The Senate battle is expected to last for weeks. Although today is the first day the bill is before the Senate, opponents have been talking against it for almost a month.

The subject of the civil rights bill was brought up by newsmen late Saturday at a news conference President Johnson held at his Texas ranch home.

* * *

In reply to a request for his views on school boycotts, the President said, "We believe in the right of petition as given under the constitution," but he said he believed the civil rights bill would be a long step toward solving problems that result in petitions.

CLOTURE VOTE

Asked if he thought it would be possible to get a cloture vote to cut off the expected Senate filibuster against the bill, Johnson said: "I haven't gone into that. I think that will have to be determined after the debate. I don't know whether it will be necessary or not."

In his prepared Senate speech today, Humphrey said bipartisan backers of the civil rights bill are anxious for "full and fair debate."

* * *

The Minnesotan, assistant Democratic leader and floor manager for the bill, said, "We are also willing to come to a decision on each title of the bill and on the bill itself.

ALLOW MAJORITY

"We are willing to let a majority of the Senate say 'yea' or 'nay' on voting rights, public accommodations, school desegregation, equal employment opportunity and the other provisions of this legislation," he said.

* * *

Then in a direct challenge to the bill's opponents, led by Sen. Richard B. Russell, D-Ga., Humphrey expressed hope that they "will be equally willing to permit the Senate to work its will, after an opportunity for a searching examination and analysis of each and every provision."

Russell, conceding that his relatively small group of Southerners had been bested in the preliminary skirmishes, has announced that they had just begun to fight.

School Board to Tell Fund Requirements

BIRMINGHAM — The board of education will tell district taxpayers tomorrow night how much money they will be asked to invest in their schools.

The board has called a special meeting to announce the amount of additional building and operating funds it will require during the next three to five years.

The figures are expected to be included in requests for a building bond issue and additional operational millage on the June 8 ballot.

Tomorrow night's board of education meeting will culminate several months of study by school administrators.

* * *

During the last month they have been presenting their proposals to a 30-member citizens advisory committee organized to give the board advice on the shape and scope of the proposed fund requests.

READIED AT MEETING

The package will be put together at the 8 p.m. meeting tomorrow.

School district property owners now are paying a total of 21.3 mills for operations, consisting of 8.4 mills allocated by the county and 12.9 mills extra voted.

They also are financing retirement of building bond issues to the tune of five mills.

Kenneth R. Cook, social studies teacher at Wylie E. Groves High School, has been awarded a John Hay summer fellowship.

Cook is one of 173 public senior high school teachers and 85 school administrators granted fellowships under the Ford Foundation program.

fic. Some work on curbing must be finished before the perimeter road can be permanently opened from South Saginaw to East Pike.

Pavement must be laid over the river culvert near East Huron and Union before the East Pike-to-Mount Clemens section can open to traffic.

"Reopening of the intersection tomorrow will also result in the resumption of two-way traffic on Perry from Water to Auburn and on Water from Saginaw to Perry," Koren said.

Both had been one way during the detour.

NO CHANGE

There will be no change, however, in the present one-way westbound pattern on East Pike west of the perimeter road crossing.

This is because drain work will move to the point where the river flows under East Pike just east of Mill in the near future.

City officials feel less confusion would result if the present one-way movement is retained, since traffic movement in that area will have to be changed within a few weeks anyway.

214 Contact Red Cross on Alaska Kin

Anxious to know if relatives in Alaska were safe after the earthquake, 214 Pontiac area residents contacted the local Red Cross office over the weekend for help in obtaining information.

Their phone calls concerned 189 families in the Alaskan disaster area and inquiries were immediately teletyped to Washington and Seattle, according to Donald M. Millar, executive director of the Oakland County chapter of Red Cross.

Thirty-nine regarding servicemen went to Washington and the rest to American Red Cross disaster headquarters in Seattle, Millar said.

No replies have yet been received, he said.

One family received a phone call directly from a relative, Millar said, but added that phone lines or other communications probably are not readily available in the disaster area.

Clean Up Tidal Wave Wreckage

CRESCENT CITY, Calif. (AP) —There was work to do, Easter Sunday or not.

Dozens of men, after sharing in Christendom's most triumphant anniversary, went home and exchanged their church finery for the grimiest clothes they could find.

Then they went out to the rubble-strewn, tortured places hit by the tidal wave from Friday's terrible Alaska earthquake and started cleaning up. A grim kind of spirit marked their toil.

They knew the record — 11 dead and 15 missing and about 17 hurt. More than 300 buildings four streets deep on 29 blocks had been demolished. And an estimated total of $50 million in damages lost to the water-borne horror.

RUSH OF WATER

Four waves, propelled across the sea from Alaska at hundreds of miles an hour, struck the city starting at 12:09 a.m. The first was mild. The town of 3,000 figured that was all.

"They went back to sleep," said a civil defense worker.

The second wave, also moderate, struck at 12:30 a.m. and then a third wave at 12:45. Still not bad.

* * *

The time was 1:40.

The fourth wave arrived.

SPEED INCREASED

First slowly, then with increasing speed, the sea advanced and then roared on in a frothing torrent across U.S. Highway 101 south of the city.

* * *

The battering-ram force of the advancing and receding tidal wave wrought havoc that tossed cars over like toys, breached concrete walls, wiped out complete inventories in a wink, and left some 150 businesses as worthless as so much garbage. About 350 persons were left homeless, but the Red Cross found temporary homes for them.

HOME FOR EASTER — Mr. and Mrs. Milo J. Cross of 1975 N. Hammond Lake, Bloomfield Township (left) are happy to have their son's family home for Easter. They are just leaving the Cross home for services at First Presbyterian Church. Mr. and Mrs. Thomas Cross of Southfield have two sons, baby Bobbie, held by his grandfather, and three-year-old Tommy.

Dr. Wayne G. Brandstadt Says:

Thyroid Ill Common With Older Women

BRANDSTADT

Hasimoto's disease is a chronic inflammation of the thyroid.

Although inflammation may cause some changes in thyroid function, this is quite different from the myxedema and the goiters which I have already described.

It may be due to an infection. But often the cause is unknown.

It is most common in middle-aged women and is characterized by a painful swelling of the thyroid.

Your doctor may have to take a small piece of the gland (needle biopsy) for microscopic examination in order to make to make the diagnosis.

* * *

In the more acute from, cortisone may be given, X-ray treatments also help most victims.

CHRONIC FORM

In the chronic from, thyroid substances or one of its derivatives is often given if the thyroid function is found to be decreased. Complete cure is the rule.

There is no relationship between this disease and cancer of the throild which is relatively rare.

Q—You recently said that cancer was not hereditary, but my father, my uncle and three of my brothers all died of cancer. How could this happen if cancer is not hereditary?

* * *

A—There is a growing belief that most cancers are caused by as yet unidentified viruses.

While cancer does not appear to be contagious in the ordinary sense, there is no reason why several members of a family could not become infected with one or more varieties of these viruses.

Tuberculosis, another infectious disease, also may afflict several members of a single family. It was also once considered to be inherited but this is no longer true.

Q—In a breech delivery, are the baby's feet or its buttocks born first?

* * *

Why is this more dangerous than a head first delivery? Could a doctor turn the baby and make him come head first?

* * *

A—The buttocks are usually born first, although sometimes it is a foot or a knee.

This type of birth has dangers for both the mother and the child.

When the head comes first, there is a gradual dilation of the birth canal to allow the passage of the head, which is the largest part.

* * *

There is no stimulation of the baby's respiration until the head is born.

REST FOLLOWS

The rest of the baby follows promptly.

When the breech comes first the delivery of the head is difficult because the birth canal has not fully dilated.

If the head is not delivered quickly the baby, whose breathing has been stimulated, may suffocate.

* * *

On the other hand, too rapid a delivery of the after-coming head may injure the mother.

* * *

For these reasons a doctor will make every effort to turn the baby so that it will be born head first.

Q—I take Amytal every day for nervousness. My doctor says it is habit-forming. Does it also have any bad side effects?

A—Amobarbital (Amytal) like all barbiturates, is habit-forming. Side effects may include extreme excitement, dizziness, headache, nausea and a skin rash.

Does BLADDER IRRITATION MAKE YOU NERVOUS?

After 21, common Kidney or Bladder Irritations affect twice as many women as men and may make you tense and nervous from too frequent, burning or itching urination both day and night. Secondarily, you may lose sleep and suffer from Headaches, Backache and feel old, tired, depressed. In such irritation, CYSTEX usually brings fast, relaxing comfort by curbing irritating germs in strong, acid urine and by analgesic pain relief. Get CYSTEX at druggists. Feel better fast.

Achievement Day: High Point for 4-H

Some 1,500 Oakland County 4-H'ers are looking forward to Saturday as the high point of their winter activities.

Just as the five-day fair gives them the opportunity to be recognized for their efforts during the summer, Achievement Day Saturday serves a like purpose this time of year.

Of particular interest will be the selection of the overall achievement boy and girl — the pair whose projects, leadership and service are deserving of special merit this season.

Another outstanding feature of the day-long event to be held at Pontiac Northern High School is the annual Dress Revue.

★ ★ ★

Young seamstresses will be showing off aprons, towels, dresses and complete outfits they have made to judges who will pick the best in several categories.

WINNING ACTS

Interspersed throughout the revue will be winning acts of two earlier "Share the Fun" contests.

The format has been

AREA NEWS

changed this year to permit the younger performers, speakers and seamstresses to appear in the afternoon.

Their program will be from 3 to 5 p.m. The older contestants will parade before the judges from 8 to 10 p.m.

Winners for all areas in the day's events will be announced shortly before 10 p.m.

OTHER PROJECTS

Some of the other projects to be judged include photography, indoor gardening, gun safety, basic conservation, child care, first aid and woodworking.

Also to be judged are conservation — rocks and minerals, automotive, electrical, tractor and leathercraft.

★ ★ ★

In addition to ribbon winners, those deserving of state show representation will be picked in certain categories. The balance of categories will be judged at the fair in August.

★ ★ ★

There are some 1,500 4-H club members enrolled in winter projects in the more than 80 clubs in the county.

'ONE FOR YOU'—Little Connie McEvers, 2½, gets an extra egg from an Easter Bunny after she and a couple hundred young friends braved the cold yesterday to hunt for eggs in Avon Township Park, Rochester. The Rochester Jaycees were just one of several Junior Chambers of Commerce in the area to conduct similar hunts over the weekend.

Pontiac Press Photo

'OH, YOU'RE MY DADDY!' — It wasn't until Donald Edwards raised his mask that his son Dion, 5, realized his daddy had been masquerading as an Easter Bunny at yesterday's Easter Egg Hunt in Avon Township Park, Rochester. Edwards is a member of the Rochester Jaycees that traditionally sponsor the holiday event.

Wolverine Lake Will Vote on Frequency of Elections

WOLVERINE LAKE—If voters here approve a charter amendment April 6 they will be going to the polls every other year rather than annually.

They are being asked to require village elections only on the first Monday in April in odd-numbered years.

Also requested in the same proposition are changes in the charter section regarding village officers and their terms. The alterations would facilitate the time change.

The amendment provides that four of the seven village councilmen be elected every two years on an at-large basis.

★ ★ ★

The three candidates receiving the highest number of votes would win four-year terms and the fourth a two-year term.

FIVE NEW COUNCILMEN

Besides considering the voting procedure, electors will pick five new councilmen from a slate of 10 this year.

Should the amendment be approved, the three top vote-getters would be awarded three-year terms and the next two one-year terms.

Candidates include all of the incumbents, Oscar Fritz, Walter L. Dawes, Russell J. Garland, Mrs. Clara M. Miller and Joseph W. Katona.

★ ★ ★

Others are Clyde W. Johanson of 2104 Glencove, Gordon R. Breeding of 890 Wolverine, Arthur C. Richards of 2113 Shankin, Mrs. Mary A. Franklin of 550 Wolverine and David R. Kay of 2570 Roselawn.

★ ★ ★

Second proposition on the ballot seeks the annexation of 20 acres of property from Commerce Township. Addition of the property would square off Penny Lake Estates subdivision.

Millage Vote in District of Walled Lake

WALLED LAKE—The fate of a 3-mill increase in operational funds is being decided today by voters in the Walled Lake Consolidated School District.

The board of education is asking that the 4-mill levy which is about to expire be rescinded and replaced by one for 7 mills.

The board wants to raise salaries in the school system, hire additional personnel and equip libraries being constructed at five elementary schools.

All registered electors in the district are eligible to vote on the proposition.

★ ★ ★

Polls will be open until 8 p.m. at Walled Lake Junior High, Union Lake Elementary, Commerce Elementary, Wixom Elementary, Walled Lake High and Twin Beach Elementary schools.

Women's Society Plans an Evening of Games

WEST BLOOMFIELD TOWNSHIP — A social evening of games has been scheduled for Friday by members of the Elizabeth Russell Women's Society of Christian Service.

Name Area Youth Future Farmer VP

ALMONT — Brian Glover, president of the local Future Farmers of American chapter, has been elected a vice president of the state organization.

The 18-year-old Almont High School senior is one of eight vice presidents elected, all of whom will head their respective state regions.

Brian, son of Mr. and Mrs. John Glover, 8158 Dryden, Almont Township, is president of his school's senior class. His new position in FFA is effective July 1, for one year.

After graduation the youth intends to take the farmer short-course for two years at Michigan State University and then join his father in livestock production.

White Lake Officer Injured in Collision

WHITE LAKE TOWNSHIP — An off-duty township police officer was seriously injured in a head-on collision on Elizabeth Lake Road late Saturday afternoon.

★ ★ ★

Melvin VanGordon, 37, of 735 Ranveen remained in critical condition this morning at Pontiac General Hospital. He is being treated for internal injuries and a broken leg.

In satisfactory condition were the driver of the other car, Robert E. Larsen of 3518 Union Lake, Commerce Township, and VanGordon's wife, Betty Lou.

Larsen, 51, sustained broken ribs and facial bones in the accident while Mrs. VanGordon, 31, was admitted to the hospital with possible internal injuries.

The accident occurred on a curve just west of Oxbow Lake Road about 5:50 p.m.

★ ★ ★

White Lake Township police, who are continuing their investigation of the accident, said Larsen's eastbound auto apparently swerved across a double yellow line into the westbound lane. Charges are pending, they said.

PTA to See Space Film at Meeting

COMMERCE TOWNSHIP—A film entitled "Other Worlds in Space" will be shown at the Thursday night PTA meeting at Clifford H. Smart Junior High School.

★ ★ ★

Presenting the film will be Emil Gaverluck, president of International Television Productions.

The meeting will start at 7:30 p.m. so that students, accompanied by their parents, can attend.

Newly-elected PTA officers will be installed by Mrs. Watson Stringer, Walled Lake PTA Council president.

★ ★ ★

Mrs. Don Norburn will assume her duties as president. Vice presidents are Mrs. Robert Giroux, mother; Robert Alexander, father; and William Honey, teacher.

2 Women Killed After Church

Weekend Traffic Toll 14 in State

By The Associated Press

Two Grand Rapids women en route home after attending Easter night church services were killed, and 12 others died in Michigan traffic accidents during the weekend.

★ ★ ★

Mrs. Julia Bennett, 56, and Mrs. Christine Cooper, 53, died when their car was struck by an auto which ran a red light, Grand Rapids police said. Four persons in the second car were injured, none critically, officers said. The two women were returning home after church observances, police said.

Police were investigating to determine who was driving the second car after one man ran from the scene, officers said.

WEEKEND COUNT

The 14 Easter weekend fatalities were counted by the Associated Press from 6 p.m. Friday until midnight Sunday.

Other victims included:

Stella Armstrong, 75, of Kalamazoo was injured fatally Sunday when a car driven by her husband, Ernest, 79, collided with another auto at the intersection of U.S. 131 and M60 near Three Rivers in St. Joseph County.

TWO-CAR CRASH

Dora Fedewa, 70, of St. Johns was killed Sunday in a two-car collision at an intersection near Battle Creek.

Fred J. Dubiel, 21, of Cross Village was killed Sunday when his car ran off U.S. 31 and struck two trees in Emmett County.

★ ★ ★

John G. Alward, 33, of Bath was killed Sunday when the car in which he was riding struck the rear of a car parked on the shoulder of M78 in Delta Township of Eaton County.

Kenneth W. Burkhardt, 20, of Detroit was killed Sunday when he lost control of his car and it rolled over on I-696 two miles west of Farmington.

HEAD-ON CRASH

Edward M. Ervin, 31, of Flint was killed Sunday in a head-on collision in Flint.

Michael Dorf, 23, of Detroit was injured fatally Saturday when the car in which he was riding ran off East Outer Drive in Detroit and hit a tree.

★ ★ ★

August Warup, 27, of Lapeer was killed Saturday when his car ran off M21 in Lapeer County and struck a tree.

Ray Faurot, 20, of Grant was killed Saturday when the car in which he was a passenger ran off Peach Ridge Road in Kent County and struck a tree.

WOMAN RUN OVER

Cora May Tournier, 22 of Ypsilanti, was run over by her own car Saturday after she was thrown from the car when another auto struck it in the rear on Michigan Avenue, two miles east of Ypsilanti.

John F. Trappen, 21, of Portland was killed Saturday when his car went out of control on I-96 and struck a bridge support two miles east of Portland.

★ ★ ★

A car collided with a bus at a Detroit intersection and careened over a curb Friday night, killing a pedestrian, Roman Tenecelski, 72, of Detroit.

CAROL J. MARTIN

The engagement of Carol June Martin to Leslie D. Kowalsky is announced by her parents, Mr. and Mrs. Lawrence E. Martin of 1130 State Park, Brandon Township. Parents of the prospective bridegroom are Mr. and Mrs. Robert E. Kowalsky of 3115 Hummer Lake, Brandon Township. A September wedding is planned.

Chicago Is White on Easter

CHICAGO (AP) — A heavy snowstorm left a blanket of white across the Chicago area Easter Sunday and the wintry weather scene made the 10th day of spring look like Christmas.

The Weather Bureau, along with the city's millions, was surprised by the freak storm.

★ ★ ★

Up to 9 inches of snow fell in some areas. The official depth of 7 inches of Midway Airport was the heaviest on record for Easter, topping the previous high of 6.4 inches set on Easter Sunday, April 4, 1920.

The usual Easter parades were missing. Women, anxious to show their Easter finery, had little chance to do so except at churches and parties. Heavy winter coats, boots, umbrellas and rain scarves were in style and necessary to ward off the blowing and drifting snow.

CHRISTMAS GREETING

"Merry Christmas" was the facetious greeting heard as thousands trudged through the deep snow to Easter church services. The snow started shortly after sunrise and continued until late in the day.

The snowstorm concentrated chiefly on the Chicago area before moving into the Ohio Valley. Snow fell in other parts of Illinois and in Midwestern sections but Chicago's accumulation was the largest.

The Weather Bureau said the heavy snow was unexpected since there was little moisture in the lower atmosphere, where the snow and rain usually originate.

The storm halted many families from making visits on the holiday. Driving conditions were hazardous and police said traffic accidents were 10 times greater than on an average Sunday. Traffic in some areas was backed up as far as 1½ miles.

Detroit Dock Firm to Extend Facilities

DETROIT (AP)—A $4-million expansion program, expected to more than double the handling capacity of the Nicholson Terminal and Dock Co., was announced Saturday by the firm's executive vice president, Joseph R. Deane.

Deane said the final phase of the expansion program will start in 1967 and be completed by 1969. The program includes provision of up to eight general cargo ship berths at the firm's suburban River Rouge location by 1969, he said.

★ ★ ★

Installation of two giant gantry cranes and construction of another warehouse also was planned.

Police Hunt Church Fund

KALAMAZOO (AP)—Police today sought to trace the $750 which they said a runaway 14-year-old boy took from a church Good Friday night and then divided up about $500 of it among other boys.

On their success or failure hinged a New York trip by a young people's group at Bethany Reformed Church.

They had raised the money to finance a visit to the church's national headquarters.

Police said the boy admitted breaking into the church in looking for money to buy food.

He found the $750 in a desk.

Envoy to Japan Is Okay After Bleeding

TOKYO (AP)—U.S. Ambassador Edwin O. Reischauer was reported "doing fine" today after an attack of gastro-intestinal bleeding and diarrhea.

Doctors said the 53-year-old ambassador's condition was "satisfactory in all respects." Reischauer is recovering from a stab wound in the right thigh, inflicted by a mentally deranged Japanese a week ago, but there was no explanation for the intestinal flareup Sunday.

BEIRUT, Lebanon AP)—Ailing King Saud is reported to have agreed after a long power struggle to turn over virtually full rule to his ambitious younger brother, Premier Crown Prince Faisal.

Informants said the 62-year-old monarch soon will take a long leave from his oil-rich domain, retaining in name only the crown he has worn since Nov. 9, 1953.

The sources said Saud, faced with the threat of civil war that could have cost him his crown, accepted a compromise plan which strips him of authority, abolishes his royal court and cuts his personal income from oil revenues that brought him an estimated $40 million a year.

PARIS AP) — Half a dozen casting Corporation, doesn't carmasked bandits carrying submachine guns and pistols held up a private gambling club early today, then set it afire.

The last club members had left. The bandits made the employes lie on the floor and cleaned out the cash registers and two safes. Then they poured gasoline on the floor, set it afire and fled.

LONDON (AP) — The Home Office has warned Britain's government employes again of the security risk in contacts with Communist envoys.

A circular ordered civil servants to report all contacts arising outside normal business. It warned them to interpret the term "official" widely "since most Sino-Soviet bloc nationals serving or traveling abroad are officials of one kind or another."

The warning followed the expulsion from Britain of Vladimir Solomatin, a member of the permanent Soviet trade delegation in London.

LONDON (AP)—A pirate radio station went into action today from a 702-ton ship anchored in international waters nine miles off the English east coast.

Radio Caroline, aboard the former passenger ferry Caroline, broadcast pop music and commercials. Britain's radio monopoly, the British Broadry commercials.

The Coast Guard station at Deal said the station's frequency was close to one it used to contact lightships.

Rohan O'Rahilly, managing director of the radio company, said the station was operating on frequencies assigned to entertainment broadcasting by the 1959 Geneva convention.

The Caroline is operated by a company with headquarters in the Irish Republic. She carries a crew of 10, two disc jockeys and 3,000 records.

★ ★ ★

Europe has two other pirate stations operating at sea. Radio Sud (South) is off Sweden and Denmark and Radio Veronica is off the Netherlands.

Detroit Doctor Dies; From Noted Family

DETROIT (AP) — Funeral services for Dr. Henry W. Cadieux, prominent Detroit physician and a member of an old Detroit family, will be held Wednesday in suburban Grosse Pointe Park.

It Seems to Me . . . .

Easter Sunday Brings Forth 'Twice-a-Year Christians'

Easter has come and gone.

And so have the two-timing Christians.

I refer to those pious souls that parade bravely to church on Easter morn; and then go home, take off their shoes and rest their ecclesiastical dogs until Christmas. On Christ's birthday they methodically stage the second of their two public displays, and duly call it "a year of devotion." I wonder just how Those Up Above rate these biannual, God-fearing pilgrimages to our various houses of worship?

★ ★ ★

The Pontiac Ministerial Association may unsheath a few tomahawks at this indictment and start for my unprotected scalp. Shaming backsliders may cut into two big, open-offering collection days. But Christianity could get along on a little less and rest in the arms of the honest believers. The Catholic Church refuses to countenance this sanctimonious hypocrisy and simply announces: "You come every Sunday or explain it to the Head Man—if you can."

★ ★ ★

Perhaps regular church attendants should stay home on these two "festive" occasions and let the backsliders look freely into each other's guilty faces, aware that the balance of the "worshipers" are as big a fraud as they are themselves. A host of these twice-a-year Christians may awaken in horror some time to find themselves: "unwept, unhonored and unsung" in a Place Where It Counts. This opinion is unsought, unsolicited, and unlike a recent State official I have "no pipe line to God."

★ ★ ★

And here's a word of warning.

Don't write The Press in haughty grandeur and say: "It isn't going to church that counts—it's the life you live." Many of these self-deceiving disciples "live a life" that would horrify case-hardened prison officials and the balance kid no one but themselves in this pathetic attempt to salve a guilty and comprehending conscience.

★ ★ ★

Three resounding cheers for that resolute church that bravely displayed this sign yesterday: "We're Open Next Sunday, Too."

As the Rev. Charles E. Sturm told his Episcopalians yesterday: "Going to church on Christmas and Easter suggests the college student who cuts all classes and then shows up for the final examination — and hopes."

More Responses . . . .

As a dream, "C Plus" University persists.

While I was gone, many letters came and I sent the editorial to the Presidents of five Big Ten Universities who are personal friends. Four responded and one wrote: "I've been told to be nice to the "A" and "B" students as some of them will produce a new professor. And I'm advised to be nice to the "C" students, as some of them will produce a new science building."

★ ★ ★

A Chicago friend sent a copy to the Mayor of Chicago who said the "subject should be received with an enthusiastic response." And it ran in The Chicago *Tribune* and many other papers.

One letter asked: "How about integration?"

The answer is simple. We'd take "Eskimos, Mongolians, Caucasians, Indians, Pgymies, illegitimates and the sons of kings and queens and assorted royalty—but they'd have to qualify. We'd have no place for atheists, Communists or professional do-gooders. And we'd bar sociologists who weep over murderers, rapists, thugs and their unfortunate mothers—instead of crying for those who were actually murdered, raped and the mothers of those who suffered the outrages.

Once, two-thirds of the sons of wealth and social position in New York went to Harvard, Yale and Princeton. Today more than half of them "can't get in." They're "C" students. Their places are taken by the more brilliant youngsters and this is quite O. K.

"C Plus" U. will love 'em all.

★ ★ ★

And later we'll welcome their science buildings, auditoriums, athletic stadiums, scholarships, libraries, et cetera. Ultimately "C" U. will have enough funds to decline the tax dollar.

We'll be self-supporting.

★ ★ ★

Those grand, glorious, efficient, reliable, loveable "C" and "C Plus" students will "have the whole world in their hands."

Just a Suggestion . . . .

Down in Santo Domingo at the Inter American Press Association meeting, one of the top publishers in this hemisphere (who, incidentally, hailed from South America) said:

★ ★ ★

"Instead of sending Ruby to the electric chair, why doesn't the United States give him a loaded revolver and land him in Cuba?"

★ ★ ★

The speaker suggested that he remain anonymous.

And in Conclusion . . .

Jottings from the well-thumbed notebook of your peripatetic reporter:

Some of the more hysterical statesmen are now trying to whip up a campaign for JACQUELINE as Vice-President. And how about CAROLINE for the cabinet? . . . . . The Philadelphia *Bulletin* says a simple solution to the school drop-out problem would be the requirement of a diploma for a driver's license. . . . . It looks again as though the Tigers were going to prove the ancient adage that "you can't beat somebody with nobody." . . . . . Overheard: "Thank heaven this is a country where every man can do exactly as his wife pleases."

JUDI

Purely personal nomination for an especially attractive young lady: Judi Soule. . . . . Last summer when we were parched, West Cameroun (Africa) had 49.4 inches of rain in 29 consecutive days. . . . . Here's a new one: Florida Atlantic College is for juniors, seniors and graduate students only. It expects 2,500 the first year and 10,000 by 1970. It's especially designed for junior college graduates. . . . . Gov. Rockefeller says he expects to see $2 billion spent in the years directly ahead, modernizing retail New York. . . . . When Seeing Is Believing

David Lawrence Says:

Fulbright Doesn't Speak for U.S.

WASHINGTON—President Johnson, wisely though belatedly, decided to let it be known on Saturday that the speech last Wednesday by Sen. J. W. Fulbright, chairman of the foreign relations committee, must not be regarded abroad as the viewpoint and LAWRENCE policy of the United States.

Although there had been previous intimations from the White House that Fulbright expressed solely his own views, much of the press of France and Great Britain promptly interpreted the speech as meaning that America might stop bothering about Cuba.

But Secretary of State Rusk, at a news conference two days after the Fulbright speech was delivered, negated the idea that the administration policy of economic isolation of Cuba has been a "failure," as charged by the Arkansas senator.

Fulbright has insisted that he is not condemning the use of the boycott against Cuba but is merely arguing that the United States must concede it has failed to make such a policy effective.

He recommends that the United States should "come to terms, at last, with the realities of a world in which neither good nor evil is absolute and in which those who move events and make history are those who have understood not how much but how little it is within our power to change."

"Our efforts to persuade our allies to terminate their trade with Cuba have been generally rebuffed.

"The prevailing attitude was perhaps best expressed by a British manufacturer who, in response to American criticisms of the sale of British buses to Cuba, said: 'If America has a surplus of wheat, we have a surplus of buses.'"

Sen. Fulbright argues that he is not "against the desirability of an economic boycott against the Castro regime but against its feasibility."

He notes merely that the effort has been made and that the United States should admit and concede that the boycott policy has been a "failure."

★ ★ ★

While Sen. Fulbright is willing to dismiss Castro as a "distasteful nuisance," Secretary Rusk has told the press that the Cuban dictator "is more than a nuisance—he is a threat to the hemisphere."

★ ★ ★

Although, as Sen. Fulbright says, the United States is not "omnipotent," it is also a fact that the United States is not without considerable influence and power in the world.

Bob Considine Says:

Stassen Had His Chance; He Blew It to Tom Dewey

WASHINGTON — Anybody who might have made it to the White House can never stop wanting to try again.

From San Francisco, Harold Stassen informs us that he has selected the 86 Republicans "who will be the California delegation to the Republican National Convention in San Francisco if our movement attains the largest number of votes of the three in the June 2 primary."

CONSIDINE

The one-time Boy Wonder of politics has now compiled a losing streak which will make us forget Tommy Farr's and even Tommy Manville's.

But as long as he lives he'll know in his heart of hearts that he just might have gone all the way to 1600 Pennsylvania Ave., back there in 1948.

Childe Harold, as he was called, swept the early primaries "like a prairie fire," as one commentator put it.

DEWEY STIRRED

He looked as if he'd win in Oregon, too, at which point Tom Dewey stirred himself and went after him.

Their big showdown was a radio debate on whether the American Communist party should be outlawed.

Stassen was so confident he let Dewey have the choice of sides and dictate the staging.

★ ★ ★

Dewey moved the debate out of a hall (where Stassen's sheer height and bulk might have swung the tide) and into a small radio studio with an extremely limited number of "seconds."

CASE LARYNGITIS

The night before the debate, Dewey came down with a bad case of laryngitis.

There wasn't time for his regular throat doctor to fly out from New York.

If he bowed out of the debate, Stassen would win in a walk — and go on from there.

An Oregon doctor performed wonders on his throat, and he made it to the microphone in time to clobber Stassen — who had chosen to argue for the outlawing of the Communist party.

★ ★ ★

Stassen's political fortunes slowly and steadily went down from that lone setback. But he's still around.

Hope springs eternal . . . etc.

Writer Comments on Woman Politician

A woman is a lovely thing in a home as a housewife and mother, but not in politics. What has Elly Peterson got to offer Michigan as a senator? She says Nov. 3 will shape the destiny of the nation. The destiny of our nation lies in the home with children. Phil Hart has seven children and he has something to be a senator for. Phil Hart is a great humanitarian and knows what the people want. Why doesn't Elly turn that big home in Charlotte into an orphans' home? That would give her something to do.

'How Will Court Classify Abernathy?'

I am going to wait and see what the conclusion will be in the Morris-Abernathy case. Here is a fellow who was a known mental patient but according to doctors at the hospital was said to be sane. Will he be tried as sane or again classed as insane?

★ ★ ★

In the Davis-Topp case, Topp was an escaped mental patient (still sick). After killing a white man he was declared sane, after so-called extensive tests, and was tried and sentenced as such.

★ ★ ★

The point which I am trying to stress is that I believe the laws are a farce. It differs in cases where a Negro commits a crime against a white person or vice-versa. It differs in a case of a white man against a white man in similar financial or social status. It differs and is tailor-made to fit the situation.

Songwriters Mad

Chicago's American

We didn't roll on the floor at any of the parodies on popular songs which Mad magazine wrote and published, but we're glad just the same that the United States Court of Appeals in New York has ruled that Mad has a legal right to publish them.

This is, as Mad's editor said, "a victory for freedom of expression," and while we often find Mad's expressions unfunny, Mad's still a publication and we're against having it denied the right to say what it wants to, within the laws of libel.

★ ★ ★

It wasn't libel Mad was charged with; it was accused of infringement of copyrights by the Music Publishers Protective Association and Irving Berlin.

While the magazine's parodies made lots of song writers mad, the maddest was the generally equable Irving Berlin—not mad like Mad magazine, which means far out and zany, but mad with sparks coming out of the eyes.

★ ★ ★

Anyway, the court said there wasn't any infringement of copyright because the parodies were too unlike the originals, but Berlin and the music publishers still think there was and are planning to ask the United States Supreme Court about it.

This is their privilege, but we sort of wish they had let the whole thing blow by in the first place. Everybody else gets kidded, why shouldn't song writers?

East River Pollyanna

The New York Daily News

Pollyanna was the heroine of an oldtime novel by a gal named Eleanor H. Porter. Pollyanna insisted on being glad, glad, glad, no matter what happened.

We were reminded of all this by Adlai Stevenson's speech recently at Princeton. The U.S. Ambassador to the United Nations spoke in memory of Dag Hammarskjold, lamented U.N. Secretary General killed in a plane crash in Northern Rhodesia.

According to Adlai, the world has slipped into a new era of "limited peace," "violence without war," "of peaceful settlement of disputes — or at least an era of cease-fires while disputes are pursued by other than military means."

Adlai can feel this way while Soviet jet fighters shoot down U.S. planes straying over Red territory . . . while Khrushchev sends the U.N.'s Geneva trade conference a blast of hatred and threats against the free world . . . while Fidel Castro makes threatening passes at Guantanamo . . . and while Panama's Reds find Panama's President cooperative in using riots to blackmail us into giving up the Canal.

Adlai's euphoria is all very well for Adlai. But how safe is the United States in being represented by this self-kidder in the big glass house on the East River?

Senate Gets Spending Bill

LANSING (AP) — A House-passed measure requiring a governor to keep close tabs on state spending in hopes of preventing "payless paydays" such as that of 1959 is on its way to the Senate.

The bill, sponsored by Rep. Wilfred Bassett, R-Jackson, is aimed at implementing a provision of the constitution. It makes a governor's failure to keep spending within income in a given year "grounds for removal from office."

REQUIRED TO CUT

The constitution requires the governor to cut state spending "whenever it appears actual revenues will fall below estimates on which appropriations were based."

The bill would require the governor to call a meeting of the House and Senate budget committees in such a situation, and to recommend budget cuts, except for appropriations from constitutionally earmarked funds.

Waitress Killed in Cafe Shooting

SAGINAW (AP) — A waitress was shot and killed and a patron wounded at a restaurant Sunday. Police arrested a man whom they identified as a former boy friend of the waitress, Dorothy Pinson, 22.

Witnesses said the man came into the North Sixth Street restaurant firing a gun. Miss Pinson was shot three times.

One of the bullets struck Sam Collier, 24, a patron. Collier, shot in the neck, was hospitalized.

35,000 Turn Out

Graham Rally Called Success

BIRMINGHAM, Ala. (AP)—Evangelist Billy Graham's Easter appearance before an integrated audience of more than 35,000 was hailed as a tremendous inspirational success by Negroes and white persons.

* * *

The gathering at Legion Field, a football stadium in Birmingham, was the largest integrated audience in Alabama's history. It also was the largest religious gathering in the state.

Rigid security precautions were in force, but there were no incidents. The city has been the scene of racial violence in the past.

"Billy Graham has brought out the best in us," said Mayor Albert Boutwell.

MOVED BY OUTPOURING

A white minister, Dr. John Turner, said, "After waiting some 15 years for such a visitation as Billy Graham and his team, I am moved almost beyond expression to the outpouring of confidence in our fellow man as seen today."

A Negro minister, the Rev. J. L. Ware, said, "It is my candid opinion that this great Christian service will prove to be the turning point in changing the outlook and image of Birmingham into a city of peace and tranquility and prosperity for all people."

* * *

Negroes and white persons appeared evenly divided.

Walter Smyth, an associate of Graham, said Police Chief Jamie Moore estimated the crowd at between 35,000 and 40,000.

About 4,000, both white and Negro, responded at the close of Graham's sermon when he called for the penitent to come forward.

PLANET IN REBELLION

Graham said in his sermon that the world is "a planet in rebellion," but that the answer to its social, moral and spiritual ills can be found in the crucifixion and resurrection of Jesus Christ.

* * *

"What causes school children to attack teachers in New York? What causes bombs to be thrown against innocent people?" he asked.

Seven persons were killed in racial unrest in Birmingham last summer, including four Negro girls who died when a church was dynamited.

In Holy Week Speeches

Pope Paul Takes Tough Stand on Reds

By GERALD MILLER

VATICAN CITY (AP) — The framework of a tough new Vatican policy toward communism stood out today after the first Holy Week of Pope Paul VI's reign.

The hardening emerged in speeches delivered by the pontiff during the week. He also again stressed the search for Christian unity and closer ties between Roman Catholics and other Christians.

* * *

After a Good Friday procession in which the 66-year-old pontiff carried a cross, he condemned Communist treatment of Roman Catholics as another crucifixion.

In his first Easter speech as Pope, Paul urged atheists and those who oppose religion to accept God.

CONDEMNS REDS

His Good Friday speech was the strongest papal condemnation of communism since the reign of Pope Pius XII, who died in 1958.

Paul's Easter speech from the loggia of St. Peter's Basilica was taken as both an appeal and a demand to Communists to mend their ways.

* * *

His predecessor, Pope John XXIII, never wavered on doctrinal opposition to Communist philosophy and dictatorial methods. But John sought to ease world tension and improve the situation of Catholics in Iron Curtain countries by showing patience and charity in dealing with communism.

John almost never used the term "church of silence," which Pius used to refer to Roman Catholics behind the Iron Curtain. Pope Paul used the term Good Friday.

NEW MEASURES

There was some speculation in Vatican circles that new measures against Catholicism by Red regimes were responsible for the Pope's attitude.

Some Vatican sources considered that the Pope's speeches, particularly his words on atheism, were aimed against a new Soviet campaign to promote atheism.

* * *

Other sources thought the Pope might be reacting to setbacks that may have arisen in negotiations to settle the cases of Joseph Cardinal Mindszenty of Hungary and Archbishop Josef Beran of Czechoslovakia. The two prelates cannot perform pastoral duties because of conflict with the Communist regimes.

Other sources thought the Pope's new hard-line policy might be more concerned with halting the growth of Italy's flourishing Communist party, largest in Western Europe. Italian Communists gained a million votes in last year's general election and many conservatives blamed Pope John.

* * *

His encyclical "Pacem in Terris"—peace on earth—said it was possible for Catholics and Communists to work together.

JOHNSON CITY, Tex. (AP) — Malcolm Kilduff is the No. 2 man in the White House press office now by unannounced promotion.

A former State Department information officer, Kilduff was the only survivor of the three-man press secretariat of the Kennedy administration when Pierre Salinger resigned the top spot and Andrew T. Hatcher quit as the second man.

George Reedy, a veteran in the service of President Johnson, received the post of press secretary. For the time being, he is figuring on getting along with only himself and Kilduff in the press office.

LBJ Extends Holiday but Works Anyway

JOHNSON CITY, Tex. (AP) — President Johnson is extending the Easter holiday he says is no vacation into another day or two of lounging and laboring around the LBJ ranch.

Again today no appointments were announced for the Chief Executive. That's been the pattern for his stay here, now in its fifth day.

But Johnson has been getting in some work — a President always does. And he sort of grumbled, "haven't had one," when asked yesterday how he was enjoying his Easter vacation.

Over the weekend, the President speedily proclaimed earthquake ravaged Alaska a disaster area and mustered federal help for the state as reports flowed in from the scene and from Washington.

* * *

Among other things, Johnson got in some paper work, announced some appointments and granted a bid to Congress to set up a committee to find out why farmers are getting less for food and housewives are paying more.

STRONG INSTRUCTIONS

In the aftermath of the shooting down of two straying American planes over East Germany in recent weeks, Johnson said that "I have given very strong instructions" for American airmen to observe the boundaries of corridors assigned to Allied aviation.

Some of these items were the product of another Saturday news conference over which Johnson presided in a beige Western ensemble in the combination library and office in the ranch house. (The phone rang twice but went unanswered.)

The President skirted political questions, said he intends to take a look in person at areas of poverty and unemployment at a time not yet determined, announced appointments of four women to high level government posts, and said he respects the opinions of the chairman of the Senate Foreign Relations Committee but disagrees with his views on Cuba and Panama.

* * *

The chairman is Sen. J. W. Fulbright, D - Ark., who took some swings at administration policy toward those Latin trouble spots in a Senate speech last week.

The presidential work has been tempered and intermixed with let-up interludes.

* * *

Johnson has been off by car or helicopter to visit neighbors. He has been out often looking over his 400 acres along the Pedernales River and other property he owns around the area.

He and Mrs. Johnson conduct tours of the home place at the drop of a 10-gallon hat.

Death rates from motor vehicle accidents are highest in the western and southwestern sections of the country.

India War Toll Estimated 300

More Feared Dead in Hindu-Moslem Clash

NEW DELHI (UPI) — Indian officials said yesterday that two weeks of Hindu-Moslem religious warfare has cost nearly 300 lives in Eastern India. Unofficial estimates put the toll much higher.

Since the wave of stabbings, bow and arrow shootings, burning, and plundering began March 16, wide areas of Orissa and Bihar states have been unsafe, and Americans have been forced to flee the area.

Swedish engineer Magnus Lettius, who spent 18 months in eastern India before leaving last week, said in Stockholm yesterday that "the losses in dead amounted to at least 1,000 if not 1,500."

It was feared that the fighting might take a higher toll of death and destruction than the Hindu-Moslem massacres of 1961, in which 500 were known to have died.

The fighting can be traced to three causes — one of them 1,200 years old. The immediate cause was the theft late last year of a Moslem holy relic, a hair from the beard of the Moslem prophet Mohammed.

That started communal fighting in December and January.

The second cause grew out of the 16-year-old partition of the Indian subcontinent into predominantly Hindu India and predominantly Moslem Pakistan.

It was thought that partition would soften the religious antagonism. But 40 million Moslems stayed in India and 9 million Hindus stayed in East Pakistan. Both became minorities and victims of religious hatred.

When Hindu refugees began arriving in the Orissa and Bihar areas this month from East Pakistan, they brought tales of persecution by the Moslem government. Enraged Hindus turned on the Moslem minority in their area and the fighting flared anew.

The third cause of the fighting is the old antagonisms that date back to the establishment of the Moslem religion in India by Arab invaders in the 8th century. Ever since then, the two religions have been warring.

Bodies Found in Italy Crash

45 Persons Killed Near Naples Field

NAPLES, Italy (AP) — The bodies of 45 persons killed in an Easter Eve airliner crash on Mt. Vesuvius lay in a Naples morgue today as three investigations sought the cause of the tragedy.

Officials said it would take some days before identification could be completed. Most of the bodies were too burned and mangled to be identified except with the help of dental charts.

The 40 passengers included 8 Americans, 20 French, 7 Italians, 4 Swiss and an Englishwoman. All five crew members were Italian.

The plane, an Alitalia four jet-prop Viscount, crashed and burned 90 minutes before midnight Saturday. It was coming in for a landing at Naples after a flight south from Turin, Milan and Rome.

★ ★ ★

Flying through fog and rain, the plane hit a high lava hump jutting out halfway up the side of the 3,700-foot volcano.

MORE ALTITUDE

Rescue teams said that if the plane had been just 100 feet higher it would have cleared.

Pilots familiar with the Naples airport wondered how the plane got close to the volcano. They said that normally the landing approach is over the Bay of Naples.

The Americans aboard included a family of four, Army Maj. Lawrence H. Mancini, 38, from the Defense Medical Supply Center in Brooklyn, his wife and their two children, Jill, 10, and Steven, 9; Navy Lt. Robert I. Adkinson, Pensacola, Fla.; J. H. McFadden, Navy Receiving Station, Brooklyn, N.Y.; Thomas Vendur, Norfolk, Va., and a Mr. Hamilton, who carried a U.S. passport and boarded the plane in Milan.

Arkansas Checks Spa for Gaming

HOT SPRINGS, Ark. (AP)—Police start checking today to see that this mountain resort city's biggest industry, illegal gambling, is really dead.

Roulette wheels, dice, card tables and slot machines were stilled Sunday by order of Gov. Orval E. Faubus.

★ ★ ★

Whether the closing is permanent is a question. One club operator predicted the casinos would be in full swing next year. A move is under way to legalize gambling through an initiated act in the November general election.

A city official estimated that 25 per cent of the city's 28,377 residents would be affected immediately by the shutdown.

PART OF ECONOMY

Mayor Dan Wolf said gambling has been a steady part of the city's economy. "You can't just yank it out, like a bad tooth," he said.

Almost 1,000 casino employes will be without jobs. One of the largest casinos had a payroll of $1.5 million a year.

Hot Springs will lose $140,000 in taxes it collects each year on gambling.

Estimates of the amount spent here annually on illegal gambling run to more than $50 million. The amount spent on housing, food and services probably would double that.

★ ★ ★

Hot Springs also is the site of Oaklawn Park, a legal horse race track. With six days left in the 43-day race meeting, the park's mutuel machines have handled $22.6 million.

★ ★ ★

Police also will visit bars, restaurants, service stations and other businesses to see that slot machines are removed.

Many clubs will remain open, at least temporarily. Sale of mixed drinks, also illegal in Arkansas, apparently was not affected by Faubus' order.

What Does Stripper's Helper Do?

Job Program Brings Raise in Eyebrows

By DICK WEST

WASHINGTON (UPI) — The government's job training program, designed to teach new skills to the unemployed and the underemployed, has caught on fast.

WEST

During the past six months, projects were approved to provide training for 61,231 persons. The Labor Department is now seeking a $55-million supplemental appropriation with which to provide training for 60,000 more.

★ ★ ★

What impresses me about the program is the wide variety of skills that the trainees are learning. A list of projects recently published by a House subcommittee included about 500 occupations, some of which I never knew existed.

Two persons, for instance, are training to become "barking machine" operators. I assume this has something to do with creating sound effects. Possibly they can get a job operating the machine on the "Lassie" program.

Two trainees are acquiring the skills of a "stripper assistant" and four others the skills of a "stripper junior helper." I would be afraid to guess at what they do.

★ ★ ★

The job titles of 100 trainees who are learning to be "crab pickers" and one who expects to become a "pill machine operator" are self-explanatory. I was, however, a little puzzled by the ratio.

BIG OPPORTUNITY

Considering all of the capsules and tablets that Americans swallow each year, I would think that pill machine operators would have many more employment opportunities than crab pickers do.

The program has three persons in training as "ladle tilt operators" and twice that many learning to be "ladle liners." Presumably they work in concert, one group tilting the ladle while the other lines it.

There are training projects for two would-be "warpers," 10 would-be "springers" and one would-be "pickler." With all of the warping, springing and pickling that is going on these days, they should have no trouble finding jobs.

I am not so optimistic, however, about the 10 in training as "hot air balloonists." They will have a lot of competition.

Six persons are learning to be "gold leaf stampers." The country can never have too many of them. Others are enrolled as "skivers," "grooversand "turners," "case framers" and "cold headers."

I cannot imagine what any of them do except the case framers, who possibly work for shyster lawyers.

When the program is completed, there will be 10 new "blemish removers," four new "dove tail machine operators," 11 new "gill-box tenders" and one new "twister-in."

Everyone knows what a gill-box is. It's a box youp keep gills in.

Crash Kills 10 in Helicopter

MANILA (UPI) — Search teams today reached the wreckage of a U.S. Marine helicopter in a mountain area north of Manila and reported that all 10 Americans aboard were killed in the crash.

★ ★ ★

The aircraft carried three crewmen and seven passengers. The names of the dead will not be released until relatives have been notified.

★ ★ ★

The aircraft attached to Marine Helicopter Squadron 261 based aboard the U.S.S. Iwo Jima, was reported missing Friday morning while on a flight from Basa Air Base, about 60 miles north of Manila, to Cubi Point Air Base near Manila.

★ ★ ★

The crash scene was in the Zambales mountains, which are thickly forested. Rescue planes searched three days before spotting it.

Delay Packing of Art Piece for Trip to NY Fair

VATICAN CITY (AP) — The packing of Michelangelo's Pieta for its trip to the New York World's Fair was delayed today, apparently by a disagreement over the method to use.

The three-ton marble sculpture of the Virgin Mary and the dead Christ was to move the first few inches toward its packing crate today. At midmorning it still stood on its pedestal in St. Peter's Basilica.

★ ★ ★

Workmen talked in loud, excited tones behind the wooden screen covering the Pieta chapel entrance as thousands of Easter tourists walked through the basilica.

★ ★ ★

Francesco Vacchini, chief engineer of St. Peter's, indicated packing details were unsettled but he insisted the Pieta would be aboard the Cristoforo Colombo when the liner sails from Naples next Sunday.

Accord Fails on Detroit Tax

Romney, Cavanagh Still Miles Apart

DETROIT (AP) — Gov. George W. Romney and Detroit Mayor Jerome Cavanagh wrote letters to each other last week about Detroit's income tax set-up, but wound up still miles apart on a proposal to cut the tax on nonresidents by 50 per cent.

★ ★ ★

Cavanagh made public Saturday the letter exchange which pointed up the differences in their views.

The suburban income tax relief bill was passed by the House last Thursday and waits Senate action.

VEXING PROBLEM

Romney said the proposal to cut the Detroit income tax on nonresidents to one-half per cent, instead of the present 1 per cent, would be "a fair solution to an admittedly vexing problem."

The governor pointed out that Detroit's income tax law already provides that the tax on nonresidents would be reduced by 50 per cent if the nonresident's own community adopted an income tax.

★ ★ ★

"Therefore, it is only a matter of time, in my opinion, before Detroit will lose the income from Detroit residents working in Royal Oak, Berkley and other suburban communities," Romney wrote.

He added:

MORE OPPOSITION

"Because of approaching elections—both state and local—suburbanite and rural opposition to being taxed in Detroit or elsewhere as residents is very likely to intensify."

Romney concluded, "In short, I believe your position which does benefit Detroit's short range interest, will lead to a voter or legislative reaction which will be harmful to your city in the long run."

★ ★ ★

Cavanagh said the proposed cutback would cost Detroit $5 million a year and that he would resist it "as a primary obligation of the office I hold."

Cavanagh's reply to Romney said Detroit "provides for approximately 230,000 nonresidents a place to earn their living and taxes them only on the income earned in Detroit."

MANY SERVICES

The Mayor cited the many municipal services which are available to nonresidents and said, "The economic well being of the city of Detroit is in a very real sense a sort of job insurance for if decay should beset the city...job opportunities would decline sharply."

Indonesia's Rice Crop Cut by Long Drought

JAKARTA (AP) — Indonesia expects to harvest only 9.5 million tons of rice this year due to a long drought—short of its originally anticipated 10.25 million tons, the official Antara news agency reported Sunday.

★ ★ ★

This would force importation of about 1.8 million tons of rice to meet domestic demands and would cost the government a substantial cut in its foreign exchange reserves.

Honor May Bride at Showers

By SIGNE KARLSTROM

Lois Fredericks, daughter of Mr. and Mrs. Norman Fredericks of South Lahser Road is being feted at many parties, prior to her marriage to Michael Arthur Thornbury, son of the Arthur S. Thornburys of Birmingham, May 16.

On Easter Sunday, Mary Jo Pauli, Caroline Kroha and Sheila Rogan gave a cocktail and supper party in Sheila's parents' home (the Harry N. Rogans) in Detroit.

★ ★ ★

Today, Mrs. Clyde P. Craine and daughter, Susan, are entertaining for luncheon in their home on Brookwood Drive.

Thomas Platten will be host at a bar accessories shower for Michael.

On April 16, Mrs. William Newberg and Mrs. John Longley will be joint hostesses for a luncheon and closet shower in the Newberg home.

On the following Saturday (April 18) Mrs. John R. Annas and her daughters, Mrs. Gerald F. Fitzgerald (coming from Milwaukee for the party) and Mrs. Thomas P. Feely of Birmingham, will give a luncheon and kitchen shower in the Annas home on Covington Road.

Lois' sister, Marcia, will come from Newton College, Boston, for this party.

Mrs. Peter J. Monaghan of Lone Pine Road is entertaining at a tea and paper shower April 23 and Mrs. Philip J. Monaghan has scheduled a linen shower for April 28.

BENEFIT CONCERT

On Wednesday the Croatian Board of Trade is sponsoring a benefit concert in Ford Auditorium.

The renowned Metropolitan singer, Zinka Milanov and her pianist brother, Bozidar Kunc, will be featured with the Detroit Symphony Orchestra, Sixten Ehrling conducting.

During intermission John Prepolic will present to John Semple, president of Detroit Symphony, a check in excess of $10,000.

Prepolic, chairman of this benefit concert, is deputy chairman of the initial gifts committee for the golden anniversary of Detroit Symphony Orchestra.

Following the concert, the Prepolics are entertaining at the Detroit Athletic Club in honor of the artists and Mr. Ehrling.

Among the guests will be the Henry Sandrocks, Mr. and Mrs. Joseph Sladovich, the Herman Drazicks, the Frank Perhays, the Charles Bauervics, the Clarence Cukors, Mr. and Mrs. Harold Vogt and Mrs. Carl Zuber.

Dr. and Mrs. Anthony Miltich and the Ronald Warners will come from Flint, bringing a busload of friends to the concert.

Bulb Plants Light Up New Spring

A bright flowering bulb plant indoors is today's best reminder that winter's leaden skies, the cold, and the snow are about finished for this season.

★ ★ ★

Of all the lovely aspects of the coming spring, none is lovelier than gay tulips, brilliant yellow daffodils, and fragrant hyacinths. These flowering bulb plants, in a riot of refreshing colors and indescribable beauty, can complement the decor of any room.

★ ★ ★

Flowering bulb plants serve a double purpose. They are in bloom now as beautiful indoor decorations to brighten our homes and remind us that spring is not far away.

SYMBOLS OF SPRING

Secondly, these living symbols of spring have a future in our gardens. These plants were forced to bloom at this time for indoor enjoyment ahead of their natural blooming periods. As a result, the bulbs need a long rest. They may be undersized plants or may not even bloom in the garden the first year. But, watch for them the second year. They'll be well rested and will come back in their full glory.

Local Club Observes Bird Nests

The summer nesting ground of the great blue heron will be visited by members of the Waterford branch of the Woman's National Farm and Garden Association at their Thursday meeting.

★ ★ ★

The first part of the meeting will be held at 11:30 a.m. in the C.A.I. building with a bring-your-own luncheon.

★ ★ ★

Mrs. William Baer as chairman of the day will introduce Mrs. Eugene Cleland to talk on the growing of trees to attract birds.

★ ★ ★

The rest of the meeting will be held on the Albert Mitchell farm near Holly, on a part of the grounds called the "Rookery."

★ ★ ★

This summer nesting ground for the blue heron will be watched in the hope of seeing the birds refurbish their nests.

Area Women Named Concert Chairmen

The Oakland University-Community Arts Council board of directors announced area representatives for the 1964-5 concert series this week.

They will be guests of the board at a coffee Friday, in the university, when plans for the ticket sales for next year's concert series will be completed.

LEADERS

Area chairmen include Mrs. Howard Wilson, Rochester; Mrs. Robert Vogel, Troy; Mrs. Martin Parker, Lake Orion and Mrs. Donald Austin of Milford, White Lake Township.

Others are Mrs. Ralph Curtin, Oxford; Mrs. Edmund L. Windeler, Waterford; Mrs. Milton Cooney, Clarkston; Mrs. W. G. Wibby, Berkley; Mrs. Henry Rhinehardt, Utica.

Salt Away Trouble

To take out rust stains, wet the spot then apply mixture of equal parts of cream of tartar and table salt. Place material in the sun for a short while and the spot will come out.

Calling All Brides

If you've said "yes" to him and haven't told us, do it now.

We want to have your engagement announcement at least two months before the wedding, if you want pictures both times. No engagements are announced within a month of the wedding date.

The Pontiac Press has printed forms for both engagement and wedding announcements. But you may send in the details, giving full names and addresses (husband's name for a married woman) and other pertinent details. Please include a telephone number so that we may check, if necessary.

We prefer to receive bridal pictures and stories before the wedding. The deadline for bridal pictures is two days after the ceremony (that is, no later than Tuesday a.m. for Saturday weddings).

If the wedding takes place out of town, this deadline is extended.

BEST PICTURES

Pictures should be black and white, preferably glossy prints. Snapshots will not reproduce well. Color and tinted pictures are not acceptable.

While The Press makes no promise to use every picture submitted, some printed mention of the event will be made.

There is no charge for editorial space, but it cannot be reserved, nor can we promise the size of a picture or its position.

Engagement and wedding pictures are kept for two months, then discarded. They may be called for any time after publication.

Soft Curl Back in Style

Hairstyles for 1964 will show the return of the romantic look with more curl, soft waves and gentle curves. These "curls" of 1964 are not the tight ones of the past, but gently curving loops.

★ ★ ★

According to the Toni Hairstyling Center, the prediction of "more curls in '64" is based on the word from Paris and New York.

★ ★ ★

The new romantic look in clothes brings a softer, curlier look to hairstyles. The severely straight hairdos will give way to cherub curls for short hair, and long hair swept high in a soft pouf of curls.

WELCOME CURLS

Women over twenty-five will welcome the return of waves and some curl because this softer frame for the face is much more becoming than straight hair.

Hairdos that call for curves and slight waves in the hair need a new type of permanent, one that gives plenty of body for holding power, but no curl. Those who want firmer curls should consider a standard permanent that gives both body and curl.

★ ★ ★

The upswept coifs are being seen more and more both at home and abroad. These hairstyles show off a pretty profile and are perfect toppers for ruffled blouses, the longer formal gowns and glamorous at-home clothes.

★ ★ ★

The hair is almost shoulder length, brushed up and back to the crown, caught with a barrette, circle clip or rubber band, with the ends furled forward on top and sides.

SLEEK LOOK GOOD

The smooth and sleek look continues high in favor, for not every one will give up her smooth hairdo for curls. One short, smooth hairstyle features a free floating curl winging out on one side, with a cheek curl on the other. The crown hair is silky and shining.

★ ★ ★

The younger set still likes and will continue to wear medium to long hair with curving ends. But they will add more definite lines to these simple, young hairstyles, very different from the straight - as-a-stick hairstyles popular with teens last year.

★ ★ ★

Some hairdos feature a point of interest at the back with crown hair captured with a barrette and ends forming a winged top-knot.

Any way a girl wears her hair — from smooth 'n sleek to really curly — she'll find a home permanent to help her achieve the new look for '64.

Soapsuds Never 'Harmed Anything

Women worry more about cleaning furniture than any other housekeeping detail, according to Home Furnishings Specialists at the University of Illinois.

These experts advise homemakers to stop worrying and start washing — because almost all important furniture finish priducers recommend soap or detergent suds for keeping wood pieces clean.

Orchids Grace Wedding

MRS. DAVID L. HOCKEY

Barnett Chapel of the First Baptist Church was the setting for the Saturday nuptials of Vondah Sue Smith and U.S.N. Fireman Appren. David Lee Hockey.

For the informal ceremony performed by Rev. Robert Shelton, the bride chose a suit of pale orchid wool, with matching flower hat and short veil. She pinned a white cymbidium orchid to her shoulder.

Rebecca Durso attended the bride and Clarence Durnen was best man for his brother-in-law, son of the Charles H. Hockeys of Stirling Avenue.

* * *

Following a reception in the home of the bride's parents, Mr. and Mrs. Lyle J. Smith of East Madison Avenue, the newlyweds left for a brief northern honeymoon.

The bridegroom is currently stationed in Norfolk, Va.

Freshen Up With Starch for Spring

Homes . . . like people . . . can look winter-weary, too. By this time, slipcovers, curtains and other household washables deserve a fresh, new look.

The best spring tonic for these is a session in the automatic washer, followed by starching, right in the washer itself.

* * *

Starching will revive fabrics, giving them a smooth, like-new feel and appearance.

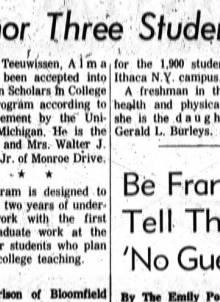
According to home economists, automatic washer starching is the easiest, most economical way to starch a group of washables.

In addition, it permits the starch to penetrate the fabric uniformly.

BEST METHOD

To washer-starch these instructions are recommended and tested:

Run your laundry through the full wash, rinse and spin cycles.



A June wedding is planned by Linda Dawn Spring, daughter of the Carl J. Baileys of Hudson Avenue, and Gary Warren Parsons, son of Mr. and Mrs. Warren Parsons of Falcon Street.

Bill Ott will be author's advocate in the forum conducted by Kay Rector and Mrs. Arnold Simson.

Be Frank; Tell Them 'No Guests'

By The Emily Post Institute

Q: A couple of days ago I received a letter from a relative living in a distant city saying that she and her husband were planning to visit the World's Fair.

I live not too far from the fairgrounds and she has hinted very broadly that they would like to stay at our house.

They know we have plenty of room. I have no help and having people stay here means so much extra work for me and, frankly, I am not up to it.

Furthermore, if I make an exception to them, I'm sure other out-of-town relatives and friends who will also be coming to the fair will expect me to put them up too.

How can I tactfully refuse these people?

* * *

A: The only thing you can do is to write very frankly to this relative and to any others who may ask to stay with you that you sincerely wish you could invite them to stay with you but you have not been too well of late and without a maid you simply are not up to having any house guests.

* * *

Q: Will you please tell me, if it is proper to use a family crest on anything other than writing paper, and if so, where may it be used?

* * *

A: In addition to writing paper, a crest may be used on wedding invitations, silver, a man's seal ring, his cuff links and on the rear doors of the family's chauffeur-driven car.

* * *

How and when to introduce people seems to puzzle many. The Emily Post Institute booklet entitled, "Introductions," gives helpful information on this subject.

* * *

Mrs. James T. Slayden is directing the play with the assistance of Mrs. Henry. Earl Wilson has designed the scenery and Mrs. Loud is in charge of props. Costumes are being handled by Mrs. Michael Remondino.

Include Containers

Most hospitals today are somewhat understaffed. In view of this, make certain when taking flowers to hospitalized patients that appropriate containers are included with the remembrance, the Society of American Florists advises.

Polly's Pointers

No Idle Table Chatter

By POLLY CRAMER

DEAR POLLY — My grandchildren are ages 15, 12 and 10. Early each morning a topic is decided upon that will be the subject discussed at the dinner table that evening.

* * *

Everyone has all day to "bone up" on the subject. It provides interesting dinner conversation and the kids learn about current events in a painless way. — Mrs. P. L. G.

DEAR POLLY — Do not throw away old powder puffs. Open them up, take out the stuffing and insert a bar or scraps of soap.

* * *

Sew up the seam, use puff in the tub for hard to clean spots such as knees and elbows. —H.H.

DEAR POLLY — When wrapping a gift, I often do not have a gift card that matches the paper so I cut a piece of the gift wrapping paper to about 3 to 5 inches and fold it.

* * *

This serves as a tag and offers plenty of room inside for a written message.

Also, mothers of small children will find it more practical to wear "pop-it" beads since these will only come apart and not scatter all over the floor and then have to be restrung. Little ones always seem fascinated by beads. — Mrs. M. W.

DEAR POLLY — Recently it was necessary for me to spend several days in the hospital with a sick relative. I needed to make frequent calls home to check on things.

* * *

A friend brought me an envelope containing a large number of dimes. It was wonderful to always have the correct change to make those calls home.

If this wins a Polly Dollar I shall convert it into dimes to pass on to someone else for the same use.

— Salome

DEAR POLLY — My mother-in-law uses curtain rods for extra - long towel racks in the bathroom.

They can be covered with that colorful adhesive - backed paper to prevent rusting caused by wet washcloths. — Janet

Cleanly Caution for Table Silver

If you use a stand with compartments to hold table silver upright, be sure to insert the clean spoons, forks, and knives with handles up.

Otherwise, the eating surfaces will be contaminated by handling. Also, make it a point to wash the holder with hot soap or detergent suds and rinses often in order to keep it sanitary enough for storing eating utensils.

Bath for Brass Brightens Shine

To polish a large brass piece, set it on a kitchen counter and fill the sink with hot soap or detergent suds. Then squeeze a sponge in the suds, douse it with brass polish, and use it to rub the metal surfaces with firm strokes.

★ ★ ★

Rinse the sponge in clear hot water, wipe off the brass, then buff the metal with a clean dry cloth and see it shine!

When dying a garment run several long lengths of thread through the underside of a hem. Remove it after the job is completed and you will have thread the same shade for later mending.

Save While Young; Avoid Being Burden

By Mary Feeley
Consultant in Money Management

MARY FEELEY

An almost insurmountable problem in a lot of families can be simply stated, if not simply solved:

The young ones can't save for their own future, because they have to support the older ones, too.

Let's not gloss over the fact that Social Security isn't, and wasn't intended to be, a completely livable income. Additional funds must somehow be supplied in most cases.

Such a situation is hard on everybody concerned. In fact, it's often harder to have to receive than to have to give.

If more young people would observe the plight of hard-pressed elders, maybe the incentive to save would take hold. Maybe if parents were less indulgent with their children while young, they could afford to give them freedom from financial obligation in later life, when it is most important.

Then such complicated and trying situations as the following letter describes might not have to happen.

★ ★ ★

Dear Miss Feeley: Would you please help us work out a fair amount of allowance to be given my mother-in-law? Here are the facts. She is 76 years old and will be a widow in a short time. Her husband is in the hospital dying.

My husband owns their small home which he helped them build eight years ago, and which is now paid up. He gives them about $140 a month including the taxes which he pays.

They also receive about $140 Social Security. She drives an old Buick which we will soon have to replace. She is also very active with her many friends, and I know will not want to give up her home.

★ ★ ★

We are also constantly responding to gentle hints of an air conditioner, television, painting, repairing, etc. My husband and I were married three years ago and although he makes a fair salary, we have had to go into our savings about $1,500 per year.

NO SAVINGS

Since they have no insurance or savings, we will also have to pay the hospital and burial costs for the old man and eventually for her.

We have wanted to build on to our present home, but I am worried about being left in the same position they are in now. I feel that her allowance could be substantially reduced but still want to be fair.

Could you give us an idea of how much it costs a lone old woman to live in a small town?

I am prepared to put my foot down gently but firmly.

M. L., Dallas

Dear M. L.: For your own sake, and for the sake of your relationship with your husband, I trust you'll hold your foot suspended for a while at least.

Your mother-in-law has enough anguish to endure at the moment, with her husband in a dying condition.

She couldn't possibly take a rational view toward any plan you might propose.

However, I agree that the present set-up isn't fair. With your mother-in-law a constant reminder that you, too, can reach that age with nothing to lean on except your children's income or your relatives' generosity, you're bound to be worried and resentful.

Of course, she does have Social Security. But keep in mind that it will be only 82½ per cent of her husband's original amount. However, Social Security benefits can be obtained to help pay her husband's funeral expenses.

A claim can be put in for this aid, equal to three times the husband's primary insurance but not exceeding $255.

As I see it, you have three choices in this situation. You can bring your mother-in-law into your own home; you can sell her house and use some of the money toward rent for smaller quarters for her; or you can make it clear she will have to live on Social Security, with a little help from you.

To consider each of these moves: you could board her for $12 a week in your home, with the arrangement that she would pay for her clothes and personal expenses out of her widow's Social Security benefits. She would also be liable for health insurance and her medical costs.

This would cut your expenses about $80 a month.

If you sell the house and help her find inexpensive quarters, you could pay only the rent. Or perhaps you could rent the home and use the income for her expenses, keeping the house as a future investment.

Her living expenses in a small town could be as low as $180 a month, figured this way:

Rent, $65; household operating costs, $10; food, $40; clothing, $10; personal allowance, $15; medical costs, $10; recreation, $10; miscellaneous, $20. Total, $180.

If she remains where she now lives, in the house you own, her basic living costs could be cut to $115 a month — assuming she would live rent free.

Any way you handle it, be prepared for rough going emotionally. It will be truly a wrench for your mother-in-law at her age, and she will need sympathetic understanding. If you can manage it, let the final decision be your husband's.

Easter Lilies on Altar Backdrop for Wedding

MRS. DAVID ODDEN

Before an altar background of Easter lilies, Saturday, in the Gloria Dei Lutheran Church, Ann Kathryn Walter became the bride of David Arnold Odden.

Rev. Charles A. Colberg performed the afternoon ceremony in the presence of the immediate families.

Mr. and Mrs. Harry B. Walter of Highfield Street were hosts at a dinner honoring their daughter and son-in-law who chose northern Michigan for their wedding-trip.

★ ★ ★

With her street-length gown of white Rochelle lace over satin, the bride wore a short veil of silk illusion. She carried white carnations and roses.

Mrs. Frank Walter was matron of honor.

Arthur Odden stood as best man for his brother. They are the sons of the Elmer C. Oddens of Virginia Avenue.

Overnight Fruit Salad Is Rich and Smooth

By JANET ODELL
Pontiac Press Food Editor

Honestly, spring should come almost any day now! And when it does, you'll be in a wonderful mood for parties. There are all kinds of occasions which call for celebration.

Making your salad-dessert a day ahead of time frees you for last-minute chores the day of the party. This salad is an old favorite with many people, but may be brand new to some.

Mrs. Rose Krause says her recipe is 50 years old (that predates miniature marshmallows, one of today's convenience foods).

Mrs. Krause is an active church worker and member of the "Fifty and Up" club at St. Patrick's Church, White Lake Township.

TWENTY-FOUR HOUR SALAD
By Mrs. Rose Krause

1 large can diced pineapple, drained
½ pound miniature marshmallows
½ pound blanched chopped almonds
1 small bottle maraschino cherries
4 egg yolks beaten
¼ cup cream
Dash of salt
Juice of one lemon
1 tablespoon sugar
1 cup cream whipped

Mix first four ingredients and let stand.

Mix yolks, cream, salt, lemon juice and sugar. Let come to a boil in a double boiler. Cook until thick and smooth. Cool. Fold in whipped cream.

Fold in fruit mixture and let stand 24 hours in the refrigerator in a covered bowl. Serve on lettuce for salad or plain as a dessert. Makes 6-8 servings.

Communism Proves Disillusioning

Africans Fleeing Red Universities for West

BACKGROUND OF THE NEWS — SPECIAL REPORT

By JOHN WEYLAND

WICKRATH, Germany (AP) —"Communism only looks good from the outside," says Balogun O'Neill.

He is from Sierra Leone, in Africa, and is one of about 600 students from developing countries who have fled to West Germany from the Communist bloc in the past few years.

* * *

O'Neill was put up at the reception center for these students maintained at Wickrath, a small town near the Rhine city of Duesseldorf. After an average stay of six weeks, they are placed in special preparatory courses or directly in West German universities to continue their education.

* * *

The foreign ministry foots the bill, which runs about $500,000 annually.

REFUGEE PROGRAM

West Germany is the only European country that carries out a program like this for the young refugees—average age 23—from Communist higher education. Some get here on the pretext of taking a vacation. Others are allowed to leave Eastern Europe after making clear their disillusionment.

Of the total, three quarters come from Africa. Ghana is the leading contributor, with 145. Kenya is next with 44. A handful are sent on to the United States, but few show interest in this because of what they have heard about the race problems there.

The students' own governments are often less than keen about the switch. Communist scholarships are valued as a way of getting an education that will help develop the home country. The ideological risk is accepted as part of the bargain.

Ghana, Kenya, Guinea, Sudan and Ethiopia all have attempted to keep their students put, but without great success.

Chancellor Ludwig Erhard's government expects the students to render valuable services in keeping Africa from going Communist, since they are likely to become influential men after their return home.

The defectors in West Germany, like the estimated 35,000 students from developing countries still studying in the Communist bloc, come predominantly from the poor families.

O'Neill, an earnest agricultural student, is typical of young men who pass through the Wickrath reception center. He went to Moscow three years ago impressed by sputniks and Communist propaganda. He left Moscow's Patrice Lumumba University in disgust after the demonstrations of Africans in January against their treatment by Soviet authorities.

Interviewed here, O'Neill spoke of lack of freedom, a dreary life, and prejudice among Soviets.

NO CRITICISM

"It got me down that public criticism of the government and system was never allowed," O'Neill said. "Then there was so little to buy, to do. If we ever got a chance to go out with a girl, the Russians would stare at us and make nasty remarks. And when it came to dealing with the authorities, they refused to treat us like grownups."

The West German Federal Students Federation says the dark-skinned students sit side by side with West Germans in classrooms and mix freely with them socially.

The long presence of American troops has accustomed the West German people to Negroes.

"Dr. Crane," her husband began, "Lola has been a very good wife and mother to our four children.

* * *

"But the last six months she has grown moody and restless.

DR. CRANE

"She says I never want to go out to movies or dances. So I have learned recently that she hires a baby sitter in the afternoons and visits taverns, all by herself.

This is so different from her past background that I wonder if she is losing her mind!

"I even caught her parked with another man on a lover's lane!"

THE '29 PANIC

When women reach the age of 29, they often grow restless and inclined to be flirtatious.

For the next birthday is Number 30, which seems terrifying to many women.

* * *

For they think that the decade of the thirties will mean they are old and on the shelf.

This is doubly frightening to a wife who married young, as Lola did.

EARLY MARRIAGE

For Lola was barely 18 on her wedding day and her first baby arrived before she was 19.

So she was washing diapers and cooking, cleaning house and fretting over other domestic chores while the usual girl of 19 is in college or working in an office or factory, with free time for romance.

* * *

Lola was so preoccupied with her home duties that she didn't get into the '29 panic until now.

Meanwhile, three of her four children are all in grammar school, so she now has a little more time to think.

TYPICAL IDEA

"I'm too young to be a senile old grandmother," is the typical idea that flits across her mind.

"Besides, I married so young that I have been cheated out of much fun which other girls enjoy.

"Before I am too old for romantic thrills, I'd at least like to have a last fling at life."

* * *

That is the usual attitude of women at the age of 29, so I have designated it the typical '29 panic of females.

Even unmarried spinsters of 29, such as school teachers, nurses and private secretaries, also entertain such thoughts, though maybe not as intensely as the wife who married young.

COMMON STATEMENT

"Doctor, I feel as if I am choking," is a common statement of such young wives when they enter mental sanitariums.

And the "choking" in the throat, of which they complain, is often a symbolical choking.

* * *

For they fear that they have been stifled or choked off from youthful thrills and romantic excitement, due to a stodgy marriage and too early slavery to diapers, cooking and domestic chores.

If you husbands want to combat this '29 panic most quickly, send for the booklet "Sex Problems in Marriage," enclosing a long stamped, return envelope, plus 20 cents.

Beware, for romantic starvation in wives is usually due to inadequate sexual techniques by the husband!

* *

Write to Dr. George W. Crane in care of the Pontiac Press, Pontiac, Michigan, enclosing a long, 5 cent stamped, self-addressed envelope and 20 cents to cover typing and printing costs when you send for one of his booklets.

Spirits Amazingly High

Alaskans Weary but Willing

By JULES LOH

ANCHORAGE, Alaska (AP)—The melancholy quiet of disaster's aftermath has settled over this pitifully scarred city.

Soldiers guard deserted streets. Weary people line up with bottles, buckets, jars, coffee tins, at big water-tank trucks. Others line up at a school building for typhoid shots, others at the city park for soup in steaming vats.

SPIRITS HIGH

Eyes are dull from shock and fatigue, but if voices are low, spirits seem amazingly high. The crucible of common misfortune has brought out the best in nearly everyone, and selflessness has become contagious, though the struggle simply to keep ones own family warm and fed is exhausting.

★ ★ ★

At the home of construction worker Victor Paal, seven children, five of them neighbors, huddle before the fireplace. For them Good Friday's wicked earthquake has brought only grand adventure.

★ ★ ★

They melt snow in a big yellow plastic trash basket on the hearth, eat lunch from olive drab tins, spend the night together in sleeping bags. A neighbor, Frank Reed, has an electric stove, so Mrs. Paal is able to cook one hot meal a day.

TYPHOID SHOTS

At the Airport Heights School families were receiving typhoid shots from four registered nurses dressed in pants and sweaters.

It was the first chance many of the neighbors had had to see one another since the quake.

★ ★ ★

"Hi, Marshall, how's all your family?" the tone of voice, and the reply, indicated it was not just a perfunctory remark.

"Fine, thank God. Yours?"

As neighbors swapped experiences, it became more clear what it was like during the awful minutes that began at 5:36 p.m. Friday.

"Are you sure it was only minutes?" said Clarence Colbert, an engineer. "I'd swear that damn thing lasted at least a half hour. We were all at home. At first I thought it was just another small quake—we get 'em all the time here.

"Then I heard a sound, like rolling drums, and I knew it was big. I hollered 'Let's get out of here!'—and we did."

★ ★ ★

Strangely, few others recall hearing any sound at all other than glass breaking and furniture tumbling. Jean Miller, for instance, was at the doctor's office with two of her seven children and didn't even feel the earth shake at first.

"I started to lean against the wall to talk with Dr. Mills," Mrs. Miller said, "and the wall moved away from me. The doctor pushed me and the children to the floor and fell down on top of us. When it first happened, I thought it was just a truck going by."

SILENCE FOLLOWS

Nearly everyone spoke of an overpowering silence immediately after the quake.

Les Callan, a New Zealander turned Alaskan, said he had with eight other persons when things began to shake and he saw the huge J. C. Penney Building heave and sway.

★ ★ ★

"After it was over we went outside, and it was deathly quiet," Callan said. "Nobody dived under a pool table along was saying much, but you could hear voices from a long distance. 'Are you all right? Are you all right?' We stood there and looked at each other for the longest time. The miracle is that so many people were all right."

Science Shrinks Piles
New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations.

Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months!

In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®)—the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository or ointment form* called *Preparation H®*. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.

Fifth Avenue Clogged for Easter Parade

NEW YORK AP)—Nearly a million strollers clogged an 11-block stretch of New York's Fifth Avenue Sunday for the annual Easter parade in which they were the star attractions.

★ ★ ★

There are no floats for the parade—just people, walking, talking, taking pictures of one another and showing off Easter finery.

There was a monkey, too, in an Easter bonnet. And a tiny French poodle bedecked in pink sweater and hat.

VARIETY OF HATS

The millinery included toppers made of flowers, tissue paper, artificial fruit, cookies, ice cream cones and, in one instance, photographs of the Beatles.

The temperature went to 52 degrees shortly after the parade began, then got colder under partly cloudy skies.

Lapeer Twp. Crash Kills Father of Two

LAPEER TOWNSHIP — A 27-year-old father of two was killed here Saturday when he lost control of his car on M21 and it crashed into a tree.

August Warpup of 162 Suppi, Mayfield Township, was dead on arrival at Hurley Hospital, Flint, about 5 p.m.

★ ★ ★

The mishap occurred about two miles east of Lapeer.

Warpup, unemployed, was the father of two sons. Police were unable to determine the cause of the accident.

Easter Bunny Presents Gift to Santa Claus

RICHMOND, Va. (AP)—H. F. Sharp of Richmond was window-shopping downtown yesterday when a stranger approached.

"I'm the Easter bunny," the stranger said to Sharp.

"I'm Santa Claus," Sharp replied.

The stranger stuck a $1 bill in Sharp's pocket and meandered away.

★ ★ ★

Sharp said he saw the "Easter bunny" hand out bills to several other persons before he finally disappeared up the street.

Integrationists Face Hearings

Students, Chaplain Arrested in Florida

ST. AUGUSTINE, Fla. (AP) —Thirty-seven young persons, including a Yale University chaplain, face court hearings today on charges stemming from weekend integration demonstrations in St. Augustine, the nation's oldest city.

Police feared more demonstrations. Among those who have announced plans to protest segregation was Mrs. Malcolm Peabody, 72, mother of Gov. Endicott Peabody of Massachusetts.

Mrs. Peabody was accompanied by Mrs. Donald Campbell, wife of the dean of the Episcopal Theological Seminary at Cambridge, and Mrs. John Burgess, wife of the first Negro ever elected an Episcopal bishop. Mrs. Peabody said they would protest like "three nice peaceful women."

27 ARRESTED

Twenty-seven demonstrators, 18 of them from out of state and mostly New England students, were arrested on charges of trespassing during sit-in demonstrations at three downtown lunch counters Saturday.

Six pickets were arrested Sunday during an Easter parade, including Winston Davidson, Yale University chaplain, who was charged with failure to obey a police officer. Four persons, all in their early 20s, were arrested Sunday night for refusing to leave a restaurant which refused to serve them.

There were no incidents, but Police Chief Virgil Stuart said Negroes were turned away from Easter services at Grace Methodist and the Ancient Baptist churches.

Some of the students arrested arrived in St. Augustine a week ago. They have been distributing handbills urging tourists to leave the city to protest segregation.

Police in Area Plan Class in Fingerprints

Identification officers from seven Oakland County police departments will begin an advanced FBI course in latent fingerprints April 6.

In all, 25 officers from throughout the state will attend the five-day session at the Lightguard Armory, 4400 E. Eight Mile, Detroit.

The instructor will be Deemer E. Hippensteel, a latent fingerprint expert from the single fingerprint section of the Identification Division of the FBI in Washington.

The local officers are Robert Phillips, sheriff's department; Karl Kilmer, Pontiac; Ray Major, Troy; detective Henry Holser, Clawson; detective Phillip Deckenbach, Royal Oak; Donald E. Peters, Oak Park; and detective William G. Kohler, Harper Woods.

* * *

A graduation banquet for the men will be held April 10.

Lone Polio Case Shows Need for Mass Program

DETROIT (AP) — Discovery of a lone case of polio virus—unusually early in the year — underscores the importance of an upcoming mass immunization program against polio, Detroit health officials said Saturday.

Dr. C. P. Anderson, Detroit health commissioner, said tests by his office and the State Department of Health uncovered the polio case. He said most polio cases do not occur until May or June.

All of the more than 4 million residents of Wayne, Oakland and Macomb counties have been urged to receive oral polio vaccine April 1 and June 14 whether they previously have received polio shots or not.

It Only Takes Technique

Memory Is a Tool Waiting to Be Used

By DR. LESLIE J. NASON

Is your 12-cylinder memory running on one cylinder? Don't blame your memory, blame yourself.

Our memories can operate in such an astounding manner they baffle the world's top computer scientists.

Contrary to popular belief, memories do not have to be developed. The complex mechanism is already there ready for use.

DR. NASON

Skill in its full use is the key to a good memory. Too many people go through school and go through life depending on one small part. For example, one hears the remark, "I have to write it down and see it in writing before I can remember it."

Bill was trying to learn anatomy by memorizing the words of definitions and descriptions. He depended on this one system. It failed to work. He got the lowest grade in class on the first test — blamed it on his poor memory. It wasn't his memory, as subsequent events proved.

Three days before the next test on bone structure, Bill began associating the name of each bone with the mental picture of its shape and its location in his own body. He now made the highest test grade in class.

It wasn't that Bill's memory had improved but that he was learning to use it! He had at least three cylinders operating.

* * *

June improved her memory in physiology by adding still other facets. In addition to visualizing each part in its place, she thought of its function and associated it with the parts nearest it. She, too, improved her test grades.

MORE CYLINDERS

Joe used even more cylinders. He visualized the body part in place, associated it with the adjacent parts, considered the function and, in addition, practiced sketching the part.

Joe was applying a sound memory technique. When anything is so well understood that the mind can direct the hand in producing a sketch, the actual motions involved appear to strengthen memory.

For best results, combine several facets of memory. For instance, to master new vocabulary words: Study their meanings. Hold these meanings in mind as you write the words and pronounce them aloud.

Practice recall. Study the new words the last thing at night. Recall their meanings the first thing in the morning. Associate each new word with as many of its uses as possible.

IS OPERATING

A person studying in this manner is operating his memory on several cylinders.

When you are declarer if you will just think of the key word "Arch" the moment dummy hits the table and then follow the code letters you will find yourself making many more contracts than before.

JACOBY

"A" is analyze the lead. "R" is review the bidding. "C" is count your winners and losers. I am indebted to my friend George Gooden, the great California teacher, for the ARC.

"H" is my own addition and stands for "How can I make the contract?"

Suppose you are South. You analyze the lead, noting that the deuce of spades is almost surely a fourth best lead.

There is no bidding to review. Your partner raised you to three-no-trump and that was that. You count seven winners in spades, hearts and diamonds. You need two more for your contract.

You ask yourself, "How can I make this hand?" The answer is that you need two club tricks. You will attack clubs as soon as you gain the lead.

Should you win the first trick? Yes! You can afford to lose two clubs and two spades, but you can't afford to lose one spade and have an unfriendly opponent shift to hearts.

You win the first trick with your ace of spades and lead the jack of clubs. East wins with the queen and leads another spade.

You duck this time on general principles. You don't fear a heart shift any more and the spade is a sure loser anyway. A spade continuation sets up another trick for the opposition, but you can afford it. You are going to make your contract.

What do you do?

A—Bid five hearts. You expect to make this contract.

TODAY'S QUESTION

You bid five hearts. West and North pass and East doubles. What do you do now?

Astrological Forecast

By SYDNEY OMARR
For Tuesday

"The wise man controls his destiny . . . Astrology points the way."

ARIES (Mar. 21-Apr. 19): Review resolutions which concern budget, new projects. You gain most by taking DIRECT ACTION. Avoid needless delay, worry. Check with partner. Then full steam ahead!

TAURUS (Apr. 20-May 20): Cycle indicates caution is best course. Dealings involving public reaction need special attention. If you are careless, your "image" could be tarnished. Stress OBJECTIVE APPROACH.

GEMINI (May 21-June 21): Fine for meeting new people. Reach out — with CONFIDENCE. Display talent, abilities, humor. Be gracious. Highlight versatility. Smile wins the day — and points to future benefits.

CANCER (June 22-July 21): Favorable lunar aspect spotlights romance, opportunity for creative endeavors. Fine also for dealing with children, planning entertainment program. Greater happiness in store!

LEO (July 22-Aug. 21): Obtain hint from Cancer message. Be alive to opportunities. There will be obstacles, but you are capable of overcoming them. Attend to details concerning security, home, family.

VIRGO (Aug. 22-Sept. 22): Catch up on correspondence. Express yourself. Don't be in too much of a hurry. Applies especially to driving, making notes. One due to offer hand of friendship is sincere.

LIBRA (Sept. 23-Oct. 22): Money question will require attention, but not necessarily immediate action. Base decision on combination of factors. Don't be overly impressed by only one indication.

SCORPIO (Oct. 23-Nov. 21): Cycle high. You can now prove abilities. Excellent for investments, planning for future enterprises. You can make this a banner day! EXUDE CONFIDENCE. Stress efficient methods.

SAGITTARIUS (Nov. 22-Dec. 21): Look behind the scenes. Also means don't believe what appears to be "obvious." Do a bit of detective work! Examine various angles, methods. Find out the WHY of recent events.

CAPRICORN (Dec. 23-Jan. 20): Time when your dormant talents may display themselves. Includes ability to guess shrewdly needs of persons close to you. Day when you can "make your mark."

AQUARIUS (Jan. 21-Feb. 19): Sense of accomplishment comes to fore. You will want recognition. Especially from loved ones. Could be interpreted as siege of temperament. Remember to laugh — even at yourself!

PISCES (Feb. 20-Mar. 20): Obtain hint from GEMINI message. There are those who appreciate your wisdom, humor. What happens as result is largely up to YOU. Press for education, added knowledge.

* * *

IF MONDAY IS YOUR BIRTHDAY . . . exciting times ahead. You want to lead, but do not want to appear "bossy." This is dilemma you must solve within yourself.

Youngsters Stay Behind

Kennedys Leave Resort

STOWE, Vt. (AP)—The adult Kennedys went home but left a group of the young fry at this ski resort today, ready for more fun on the snowy slopes.

The family plane, Caroline, took off Sunday night from Burlington Airport with Mrs. John F. Kennedy, Atty. Gen. Robert F. Kennedy and his wife, Ethel; Sen. Edward M. Kennedy, D-Mass., and his wife, Joan, and Eunice Shriver, wife of the Peace Corps director, Sargent Shriver.

They had spent a long Easter weekend skiing on Mt. Mansfield.

FIRST TRY

It was the former First Lady's first try at the winter sport, although she is an adept water skier.

It was the first time on skis, too, for her children, Caroline, 6, and John F. Kennedy Jr. They remained with a number of young Kennedys and Shrivers in the care of some family employes.

Africans Wage Border Battle

ADDIS ABABA, Ethiopia (UPI) — Ethiopian and Somali troops battled at four disputed border points today while political negotiators were announcing agreement on a cease-fire and a joint military withdrawal.

★ ★ ★

Ethiopian officials said new fighting broke out early today at the frontier village of Tug Washale and was continuing at three other places including Debegorialle where they said 130 Somalis were killed yesterday and 215 wounded.

NO FIGURES

No Ethiopian casualty figures were given here in the border clashes raging despite week-long peace talks concluded today in Khartoum, Sudan.

There, Ethiopian and Somali negotiators issued a joint communique announcing "determination to maintain a cease-fire."

Junior Editors Quiz on HISTORY

QUESTION: Some of the Louisiana Territory once extended into Canada. What happened to this land?

★ ★ ★

ANSWER: The United States bought the Louisiana Territory in 1803 from France for $27 million. In the years following the purchase, disputes arose about the northern border of the area between the United States and Britain, which then controlled Canada.

Finally, in 1818 the two countries agreed to the 49th parallel as a border line. The part of the Louisiana Territory extending into Canada then became Canadian land (shaded area to the left).

The Louisiana Territory had belonged to several countries before it finally became part of the United States.

Originally, the part of the Territory west of the Mississippi belonged to France. But France was losing power and in 1762 ceded the land to Spain.

When Napoleon Bonaparte came to power in France and the country once again gained strength, he convinced the Spanish to give back the Louisiana area.

This caused great concern to President Thomas Jefferson because U. S. settlers (white arrow) were expanding west and shipped their goods down the Mississippi to New Orleans where they were sent many places.

If France, in control of New Orleans, were to close the port, it would be disastrous for America.

Jefferson sent envoys to France and after many diplomatic talks, the treaty of the Louisiana Purchase was drawn up.

★ ★ ★

FOR YOU TO DO: The shaded area to the right shows Canadian land given to the U. S. while straightening the boundary. Take an atlas then trace the Louisiana Purchase on it. Think of what this enormously valuable area has meant to us as a nation!

Hangs Up Axe for the Last Time on 91st Birthday

CHEZZETCOOK, N. S. (AP) — William LaPierre, who celebrated his 91st birthday Jan. 6, has decided to hang up his axe.

The lumberjack who first went into the woods around Portland, Maine, in the 1880s, until recently cut and carried home his own firewood.

Still robust, he now spends most of his time in the garden or watching television.

He recalls that when he first went to work in Maine he drove a three-horse team — one lead animal and two paired behind — working seven days a week for $30 a month.

★

He moved to Nova Scotia in 1902 and spent many years in lumbering and logging operations around this community 20 miles east of Halifax.

Fishermen's Sons Prefer the Shore

GLOUCHESTER, Mass. (AP) —Glouchester fishing trawls are facing severe crew shortages due to the fact that the sons of the fisherman prefer shore jobs to following in their fathers' footsteps.

★ ★ ★

The Glouchester Fisheries Commission reported trawlers, normally carrying a crew of 12, have been forced to sail with only seven or eight men.

Each crew member usually earns between $500 and $600 for each 11- or 12-day trip.

★ ★ ★

The members of younger generation however, are better educated and prefer shore jobs which pay good salaries and give them more time to spend with their families.

Ah, So - - Cowboy From West Japan

DODGE CITY, Kan. (AP) — A group of Japanese officials touring Kansas were presented souvenirs at a civic luncheon here.

★ ★ ★

The souvenirs — statuettes of a Dodge City cowboy—carried the inscription, "Dodge City, Cowboy Capitol of The World." On the back of each was the inscription, "Made in Japan."

Brazilian Reds Charge: Rightists Plan Overthrow

RIO DE JANEIRO (AP)— Brazil's Communist - dominated labor leadership charged today that conservative military men are planning to overthrow left-leaning President Joao Goulart.

Leaders of the General Confederation of Workers vowed to oppose any attempted coup with a general strike and "any methods of fighting which the moment demands."

★ ★ ★

In a public statement, they urged Brazil's unions and workers to be prepared for a general strike.

The labor leaders issued the warning amid a growing crisis over Goulart's attempts to institute sweeping social reforms and strengthen his power to circumvent a recalcitrant Congress. The trouble came to a head last week with a sit-in strike by 1,400 sailors against alleged political discrimination and poor conditions in the navy.

NOT PUNISHED

The sailors surrendered after 40 hours Friday when the General Confederation won a promise from the government that they would not be punished. The rebellion took place in the headquarters of a union affiliated with the labor command.

★ ★ ★

The navy's officers, including 30 admirals, charged the sailors' revolt had been directed by a group with "clearly Communist characteristics" and called upon the nation to oppose the "communization" of Brazil.

★ ★ ★

The president of the influential military club, Marshal Augusto Magessi, said Sunday night the army joined with the navy leadership in repudiating Goulart for failing to discipline the strikers.

"The army cannot and must not remain with arms crossed before the degrading spectacle which we are seeing," Magessi told reporters.

OPPOSE REDS

The Roman Catholic Church also made clear its concern about political developments. At Easter services throughout the country, priests urged Catholics to demonstrate in the streets Thursday to show their opposition to communism.

★ ★ ★

More than a million persons attended a Mass in a public park in Sao Paulo. Archbishop Carlos Cardinal Carmelo de Vasconcelos Mota described the turnout as evidence of Brazilian Catholics' "repudiation of communism." As the crowd grew, officials broadcast appeals for people to remain home.

★ ★ ★

The labor command said the rightists had prepared their insurrection and planned to install Marshal Eurico Dutra at the helm. Dutra, a former president who revived representative democracy after a 15-year dictatorship, recently broke a long silence with warning to Brazilians to unite "while there is still time" to save democracy.

★ ★ ★

Dutra forced dictator Getulio Vargas to hold elections in 1945 and was himself elected president. Goulart, often described as Vargas' protege and political heir, has been frequently accused of dickering with the Communists in an effort to establish himself as a dictator.

★ ★ ★

Goulart denies he has any such plans.

Two weeks ago Goulart signed decrees expropriating private land for distribution among Brazil's impoverished peasants and seizing private oil refineries. He also has indicated he favors legalization of the Communist party.

TENEMENT FIRE—Six children and one adult died yesterday when a fire engulfed this old New Orleans home converted into an apartment house. Four others received serious burns. The adult, a 42-year-old woman, was draped protectively over the body of her 2-year-old son. The five other children, all under 6 years old, were in two other apartments, four in one, the other alone. Three adults were charged with criminal negligence.

Gas Poisoning Kills 8 in Japanese Coal Mine

TOKYO (AP) — Eight Japanese workers died of gas poisoning today when a gas explosion trapped them 3,000 yards inside a coal mine they were closing.

The explosion occurred at a colliery in Northern Kyushu Island. The workers were removing equipment.

Overwhelmed by Fanfare

Natalie Wood Carved in Wax

By JAMES BACON
AP Movie-Television Writer

HOLLYWOOD — People from all over the world flock to Buena Park to see movie stars in wax.

But to get the Hollywood crowd to take the 45 minute freeway trip, it takes a personal invitation from Natalie Wood, a champagne buffet and a premiere complete with exploding fireworks in the sky.

★ ★ ★

Natalie invited two busloads of her friends to attend the unveiling of her likeness the other night at the movieland wax museum.

Even Natalie was overwhelmed when the Buena Park police department met the bus, escorted her into a gold Rolls Royce to the museum—where she was greeted by the mayor and a couple of thousand fans, plus fireworks.

GOOD LIKENESS

She was happy with her likeness, set in the mock wedding scene from "West Side Story," but a little sad when she glanced nearby and saw James Dean in a scene from "Rebel Without a Cause."

Natalie, at 16, costarred with the late teen-age idol in that picture. It made her a star. It got her the first of three Oscar nominations.

Some of the exhibits in the museum are so lifelike they are eerie. Gary Cooper, in a scene from "High Noon," looks as if he is about to holler "hi" at his old friends.

Cooper's 90-year-old mother, a museum spokesman reports, has made a number of visits to the exhibit, sitting there by the hour.

Alan Ladd in "Shane" and Humphrey Bogart in "The African Queen" are especially lifelike. So are Laurel and Hardy and the first Negro Oscar winner, Hattie McDaniels, in "Gone With the Wind."

There are disappointments. The wax sculptor has caught every curve of Marilyn Monroe's fabulous figure but missed the sad, soft beauty of her face.

Neutral Nations Set Cairo Meeting

COLOMBO, Ceylon (AP)—A worldwide summit conference of nonaligned nations has been scheduled for Cairo during the first week of October.

★ ★ ★

Participants in a week-long 25-nation planning meeting announced today that the heads of 69 countries would be invited.

★ ★ ★

A communique said the purpose of the conference would be to "safeguard peace and assist peoples of the world in attainment of their aspirations for independence, relaxation of international tension and progress."

Family Operation

4 Get Same Surgery

DETROIT (AP) — Charles Lewis, 4, had a persistent cold. A medical checkup showed he had a heart malformation.

Then his two sisters, Joyce, 9, and Donna, 8, were checked. They had the same congenital heart malformation.

A cousin, Karen Brown, 7, was discovered to have the condition, too.

All four will undergo identical heart surgery today. Physicians at Harper Hospital said the operations are serious, but not hazardous.

★ ★ ★

The malformation is caused by failure of a blood vessel connecting the aorta and the pulmonary artery shortly after birth. It leaves the children vulnerable to infections, such as Charles' persistent cold.

★ ★ ★

The family physician, Dr. Lulu Belle Stewart, said of the condition:

"The disorder itself is not rare. But I've never heard of it occurring more than twice in the same family."

She said the mortality rate is less than 1 per cent.

U. S. Traffic Deaths Set February Mark

CHICAGO (AP) — Traffic accidents killed 3,310 motorists and pedestrians in the United States last month, a record toll for a February, the National Safety Council said today.

It was the 26th month in the last 28 that the spiraling toll has reached new highs.

★ ★ ★

The number of traffic deaths reported last month was 24 per cent greater than the February 1963 toll of 2,670, the previous record.

It also was the first time that February traffic fatalities totaled above 3,000.

Many Names for April Fools'

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Ice is more slippery when wet.

April Fools' day is called Cuckoo Day in Scotland, Fish Day in France, Doll Day in Japan, and Boob Day in Spain.

There is a shoe repair man on Long Island who calls himself a "bootician."

Man has never been able to make a pearl that comes up to an oyster's standard of workmanship. American women prefer creamy pink pearls, European women those with a bluish tint.

About four per cent of the nation's television sets now show living color so that the ketchup on a wounded outlaw looks real.

"Hearts that are delicate and kind and tongues that are neither, these make the finest company in the world" — Logan Pearsall Sith.

If you tattle to the Internal Revenue Service on someone's hidden income, you may receive up to 10 per cent of the tax money it recovers. The informers are usually disgruntled employes, low-aid accountants, or ladies scored in love.

The rooster, man's first alarm clock, in ancient Greece was a symbol of light and health. In Christian art the rooster is a symbol of the resurrection.

When your worries threaten to get you down, it might help you to remember that, after all each of us is only a number of diverse cells gathered into organs subsisting in a salty fluid within a disposable container.

With credit unions...
Loan costs lower than "bank rates"

Right now more than 50,000 residents of Oakland County are benefiting from personal loans at low rates (usually the lowest obtainable anywhere), taking advantage of the fine financial services offered by their credit unions.

The *maximum* credit union loan rate, just 1% per month on the unpaid balance, is lower than usual, so-called "bank rates"—far below most credit sources—and the advantages just start there!

Most credit union members receive an interest refund—often saving 10-20% more on their loan cost. While paying off loans, they're covered by life and disability insurance *at no extra cost!*

With credit unions you *know* the interest you're paying, and you pay interest *only*—no fees, fines or hidden charges, no penalty for paying up a loan in advance. And most credit unions charge *just one rate* to all members—there's no sliding scale, based on your credit rating or assets.

These are some of the reasons why, 99 times in 100, a credit union loan will save you money.

If you are not a member, you may be able to qualify in your community, place of employment, church or organization. Now is a good time to ask about eligibility, for we'll also send you—

FREE, *without obligation, a year's subscription to EVERYBODY'S MONEY—interesting, authoritative national magazine showing many everyday ways to get the most out of your money. It's yours for the asking. Just write to:*

Hardwick 'Big' in Pontiac

Young Bowler Rolls Strong to Win PBA

Corporation Shares Victory, Assets of 22-Year-Old Ace

By JERE CRAIG

Billy Hardwick, Inc. increased its assets by $4,000 Saturday in Pontiac.

The San Mateo, Calif., concern's founder personally conducted the four-day negotiations at Pontiac's 300 Bowl and he drove a hard bargain.

The 22-year-old Hardwick used a 215 average as his lever the first three days (40 games) and then hit his final three opposing bidders with a 238 figure that easily eliminated them.

* * *

That raised his overall average (43 games) for the North American Open championships to 216, six pins over his Professional Bowlers' Association leading tempo of 210.

Hardwick, who along with two West Coast friends is sponsored by his own corporation, became the second man to win two PBA tournaments this winter.

He won at Birmingham, Ala. Last year, his second on the PBA tour, he captured four tournaments—including the PBA's National Invitational title—and topped the money winning list with $33,365.

He had a larger group backing him then, however, and his cut out of the profits wasn't spectacular. The 1962 season was a complete flop when he won no money at all.

MONEY BACK

But things are different now. His 1964 backers have already received their original $3,000 investment out of the $12,310 he has won this winter.

Hardwick now gets 75 per cent of all he wins, and the cool youngster seems certain to be near the top of the PBA prize list all season.

Saturday he was in complete command of the situation. He started the afternoon in fourth place, but quickly overcame his opposing semifinalists, Bill Allen and Fred Lening, by 61 and 53 pins, respectively.

Against the slightly nervous Lening from Fairless Hills, Pa., Hardwick closed with five strikes for a 234. The weary Allen, defending Pontiac PBA champion from Orlando, Fla., couldn't withstand eight in a row by Hardwick (for a 268).

The left-hander also lost to Lening by 63 pins and settled for the $1300 fourth prize, raising his winter earnings to $12,378. He has won the New Orleans, La., and Mobile, Ala., championships this winter.

* * *

In the championship round against Ed Bourdase, Fresno, Calif., Hardwick started slowly and only led by seven pins with four frames to go.

But, again, he connected for big strikes in the clutch, getting

(Continued on Page C-5, Col. 1)

THE SPOILS — Along with his $4,000 first place check, Billy Hardwick had to make room for this huge trophy as he headed from Pontiac to Denver to another PBA tournament this week. The young pro bowler was the 1963 leading money winner and was rookie of the year of the PBA.

PBA Leaves Successful, but Doubtful

Professional bowling leaves Pontiac after its most successful tournament in three years, with some question as to whether it will return next season.

The 300 Bowl, host of the PBA event for three years, holds the option to bring the big event back to Michigan. If it fails to accept the option for 1965, another city in the state could get the event which made over 100 per cent gain in competitors and crowds since 1963.

* * *

This year, North American Van Lines co-sponsored the tournament with 300 Bowl.

The number of pro-am entries jumped from 75 to 160 as houses throughout the state took part in the qualifying, and the daily average of crowds jumped from 400 to 1,150.

* * *

Capacity crowds packed into 300 Bowl for the Pro-am Tuesday, the semi-finals Friday and the TV finals Saturday. The morning-afternoon sessions also drew surprisingly well.

Interest in the nationally televised finals was remarkable. By 1:45 p.m. all seats were gone and the crowd was content to buy standing room only spots as all tickets each day sold for $1.00.

A fast phone survey of 21 homes in the Pontiac area immediately after Saturday's televised finale, showed 19 persons answered their calls, and 17 indicated they had watched the PBA tournament won by Billy Hardwick.

* * *

Will the tournament leave Pontiac at its most successful peak?

"We have made no commitment of decision; nor have we talked to North American Van Lines or any sponsor for 1965," said 300 Bowl owner Joe Puertas.

"I certainly hope we come back to Pontiac," said a PBA official, "the bowlers think this is one of the finest stops on the tour and it would be a shame for Pontiac or the 300 Bowl to give up its option. We make no other stop in Michigan."

West Coast Keglers 3rd in ABC Tourney

OAKLAND, Calif. (AP)— The Belaire Merchants team from Napa, Calif., broke the Easter week scoring drought at the American Bowling Congress tournament Sunday night with a 3013 series for third place in the regular division title race.

Only a rash of splits in the final two frames kept the Belaire Club from grabbing the team lead from the all-coast Vancouver Club of Seattle, pacesetter since March 1 with a 3055 outing.

* * *

The 3013 series, on games of 988-1018-997, was the first regular division score over 3000 since the Dunes Heating Club of Gary, Ind. made a run for the lead on a 3053 total on March 10.

NO. 5 STARS

Anchor man Bob Trosin was the star of the Belaire Merchants with a 650 series. He had games of 199-227-224. Other 600 shooters included Douglas Hartlip, 629, and Bill Trosin, Bob's brother, with a 607. Lloyd Cox added 575 and Harold Brooking 552.

In Sunday's early ABC play, a 22-year-old college student, working his way through school as a rock and roll singer, was the standout performer. Lloyd Brent, a senior at Long Beach State College had a 662 series in regular singles.

U. of M. Gymnasts Settle for Third

PHOENIX, Airz. (UPI) — The sun burned too hot out West for the University of Michigan Wolverines this weekend.

The Arizona State Sun Devils rode the crest of a red-hot hitting streak Saturday and took a doubleheader from the Wolverines, 15-5 and 9-1.

Arizona pounded out 30 hits in the twin-bill, including two homers, in scoring its 14th and 15th consecutive wins of the year. The Sun Devils upped their record to 16-2 while the double loss dropped Michigan to 4-8.

'M' Swimmer Cracks Mark

Farley Still Second in Long Freestyle

NEW HAVEN, Conn. (AP) — Michigan's William Farley cracked the NCAA 1,650-yard freestyle swimming record by nearly half a minute Saturday night, but still finished second in the NCAA national championships.

Farley led most of the way, but finished five yards behind Southern California's Roy Saari, who was clocked in 16:49.5 for the distance — just 110 yards short of a mile.

* * *

Farley's time was 16:56.1, still much faster than the 17:24.0 record set last year by Southern Cal's Jon Konrads. Two other swimmers beat the 17:24.0 time.

Ed Boothman, in the three-meter dive, also scored a second as Michigan placed fourth overall. The Wolverines had 30 points, while winner Southern Cal scored 96 and runnerup Indiana had 91.

* * *

Two other Michigan divers qualified with Boothman for t three-meter dive finals, but did not place in the finals. In the qualifying, Boothman was third, Bruce Brown fifth and John Candler seventh.

Michigan's Edward Bartsch finished fifth in the 100-yard backstroke in :54.2. Southern Cal's Robert Bennett won it in a record :53.1.

Sprint Star Weds Detroit Schoolmate

DETROIT (AP) — Arizona State University sprint star Henry Carr and his high school sweetheart were married in their hometown Sunday.

* * *

Carr, 21, holder of the 20.3 seconds world record for the 220-yard dash, and Glenda F. Mixon, 20, Michigan State University coed, were married at Hartford Avenue Baptist Church.

* * *

Glenda, a Detroit girl, and Carr were schoolmates at Northwestern High School in Detroit.

10-10 Tie in Hockey

CHATHAM (AP) — The Chatham Maroons and Muskegon Zephyrs finished the International Hockey League season Sunday night battling to a 10-10 overtime tie.

UNCONCERNED — Three-year-old Wes Pollett and his dad Bill found the only available seat (atop the candy machine) at 300 Bowl to watch the PBA tournament last week but he became unconcerned at the proceedings by falling asleep in the cramped quarters.

FRONT LINER — Billy Hardwick appears to be in serious concentration as he awaits his turn on the alleys in the finals of the nationally televised PBA Open at 300 Bowl Saturday afternoon. Hardwick defeated Ed Bourdase in the finals before a standing room only crowd at 300 Bowl. The tournament set crowd records all last week.

New Wings' Goalie Helps 5-4 Victory

CHICAGO (AP)—Bob Champoux' first National Hockey League appearance came in a Stanley Cup game and it probably will be his last, at least for this season.

Despite the fact that the 21-year-old native of Montreal came out of the stands to inspire Detroit to a 5-4 victory over the Chicago Black Hawks, Champoux will be no more than a spare goalie for the rest of the playoffs.

Regular Terry Sawchuk was forced to leave Sunday night's game with a pinched nerve in his left shoulder after five minutes of the first period.

Champoux, who turned pro late last November and played with Cincinnati of the Central League where he allowed an average of 5.34 goals a game, was pressed into service.

EIGHT SHOTS

When Champoux came on the ice, the Hawks had already taken eight shots at the Detroit goal while not allowing the Wings a crack at Glenn Hall.

But Champoux' presence changed all of that. With an untried rookie at the nets, the Wings went all out for the youngster. Through the rest of the first period, they allowed the Hawks only three more shots and then held them to an unbelievable two through the first 15 minutes of the second period.

* * *

Meanwhile, Norm Ullman picked up two goals and Andre Pronovost scored a third while Detroit was short handed for a 3-0 lead.

Bill Hay scored twice for the Hawks within a minute in the second period to cut Detroit's lead to a goal but Gordie Howe canned one with three seconds left for a 4-2 lead. Ullman completed his hat trick at 2:59 of the third period to offset goals by Eric Nesternko at 4:01 and 4:34.

From then on the Hawks tried desperately to tie the score but were turned back by the fired-up Red Wings and their novice goalie.

NO QUESTION

There was no question that Champoux' appearance gave the Red Wings the boost they needed to tie the best-of-seven semifinal series at one game each.

But Sid Abel, manager-coach of the Wings, proved to be no sentimentalist. Abel said after the game that if Sawchuk had felt better he would have used him to finish the game.

"Champoux did a fine job but I will not use him again," said Abel. "We can't take the chance. I expect Sawchuk to be ready by Tuesday and if not we will have to call up Roger Crozier from Pittsburgh."

* * *

"What an experience," Champoux kept repeating. "Playing your first major league game in the Stanley Cup Playoffs. Yes, I was worried, nervous and scared.

"But the players gave me confidence. Gordie Howe came up to me and told me 'do your best' and that gave me a lift. Then I saw the way they played. I never knew a goalie could get such protection. After Chicago scored two quick goals in the second period, the players told me not to worry. They said I didn't really have a chance on the shots."

NOT IMPRESSED

The Hawks weren't especially impressed with Champoux who said, "you pronounce it shampoo, like the stuff you put in your hair."

"I guess he did a pretty good job for them under the circumstances," said Hawk Coach Billy Reay. "But we had our chances. We had 15 minutes to tie it up and couldn't do it. Detroit should get full credit for the victory. Their defense played well and they skated well."

While the Hawks and Wings resume their series in Detroit Tuesday night, the semifinal series between Montreal and Toronto shifts to Toronto the same night.

Montreal won its opener 2-0 Thursday but Toronto came back to tie it up Saturday with a 2-1 victory. The Hawks opened with a 4-1 decision over Detroit Thursday and appeared ready to pick up from there in the first five minutes Sunday night before Champoux showed up.

EASTER PUCK HUNT—Detroit and Chicago spent a few brief moments looking for the puck in their Stanley Cup semifinal game last night. Red Wings' goalie Bob Champoux, right, peeks into the net looking for the puck which is resting on the ice behind net. Equally in doubt as to the whereabouts of the puck are Ken Wharram (17) of Chicago and Marcel Pronovost (3) of Detroit. Wings won, 5-4.

Losing Coach Picks Celts in Playoffs

By The Associated Press

"I think Boston will take it." Cincinnati had just knocked his club out of the National Basketball Association playoffs but Philadelphia 76ers Coach Dolph Schayes saw nothing but trouble ahead for the Royals.

* * *

"If Jerry Lucas' back doesn't come around it should be Boston in five or six games," Schayes said.

Cincinnati earned a shot at the formidable Celtics by outgunning Philadelphia 130-124 Sunday night in the decisive game of a best-of-five series. But Lucas' aching back may cripple the Royals' board game when they open a best-of-seven Eastern Division final set Tuesday in Boston.

SHOWDOWN CAME

The pairings for the Western Division finals will be determined tonight when St. Louis and Los Angeles tangle in the last of their five-game series. The survivor plays San Francisco.

Lucas was sub-par in the Philadelphia series, although the rookie star pulled down 11 rebounds and scored 15 points Sunday. He reinjured his back a week ago and has been playing part-time since.

The Royals hit on seven of their first eight shots in the second half and turned a 59-59 deadlock into a 74-61 bulge.

Man Outruns Lame Beast, Machine Foe

Laurel Race Track Tries Again to Hold Racing Event

LAUREL, Md. (AP)—They're taking another whirl at matching men, machine and beast at Laurel today.

Eight days ago, the proud proprietors of this track staged a race pitting a 1911 Ford Torpedo against a horse against a college track star against a speed walker.

★ ★ ★

It was all part of an open house program to acquaint innocent passersby with the delights of visiting Laurel Race Course, which was about to open a 29-day horse race meeting.

The handicappers for this strange event developed an acute case of red face, however, when:

The ancient auto, assigned ¾ of a mile, bogged down on a track left gooey by rain and snow all the previous day.

PULLED UP

The horse, a stable pony assigned the same distance, also pulled up lame.

The walker, 53-year-old Charlie Pindell, complained about the traction on the wet grass over which he covered 3-16 of a mile.

Dick Smith, University of Maryland track star who covered ¾ of a mile, won the race but still complained that he wasn't in good enough shape.

Today's rematch was set as a preliminary to regular nine-race all-horse, regular program featuring the $22,000-added Maryland Derby.

Repeating, Eli Whitney and Chanann, who finished one-two-three in both the Prince George's and Annapolis Stakes at Bowie are all back in this one, with Repeating assigned 124 pounds, Chanann 119 and Eli Whiteney 112 in the one-mile allowance test for Maryland breds.

Horton Real Tiger in Bid for Berth

LAKELAND, Fla. (AP)—Willie Horton is making it extremely difficult for manager Charley Dressen to consider him for anything less than a starting assignment in the Detroit Tigers' outfield.

The youngster is the hottest-hitting Tiger of the spring. He leads the team in home runs and runs batted in.

★ ★ ★

Horton had a home run in each of Sunday's games against the Chicago White Sox as the Tigers snapped a four-game losing streak with 2-1 and 3-0 victories. The second game lasted only seven innings.

The Tigers picked up only one hit in eight innings off Chicago's Ray Herbert and John Buzhardt in the first game.

DOOR OPENED

Then, Bill Freehan was safe on an error by shortstop Ron Hanson to open the ninth and Horton, batting for pitcher Hal Koch, powered a low outside pitch over the right-field wall for the game-winning homer.

★ ★ ★

Horton got his fifth home run of the exhibition season in the third inning of the second game off Joel Horlen. This clout cleared the center-field fence, marking the third time he has marking the third time he has hit for the circuit in the deepest part of the park. The run batted in was his 14th, six more than his closest competitor.

★ ★ ★

Dressen has been talking in terms of platooning Horton with Billy Bruton in left field. But the soft-spoken Horton has been doing his talking with his bat and it wouldn't be surprising to see him start there when the Tigers open two weeks from Tuesday.

Horton's heroics overshadowed fine pitching performances by three members of the Detroit staff.

PITCHING GOOD

Hank Aguirre pitched the first seven innings of the opener and gave up just five hits, three of them singles by Hanson.

★ ★ ★

Aguirre walked just one man, Dave Nicholson. That second inning walk was followed by singles by Joe Cunningham and Hanson and produced Chicago's only run of the afternoon.

Koch relieved Aguirre in the eighth and Hanson got his fourth single of the game in the ninth for the only hit of the lanky right-hander. It was the first hit off Koch in 7 2-3 innings of relief.

Ailing Mantle Lifts N.Y. With Homers

Slugger Paces Yanks' Victory

Sore Knee Hampers Mick on Defense

By The Associated Press

Report No. 2 is in on Mickey Mantle, whose fate apparently hinges on tape.

Last Thursday, Mantle's case history had an expenditure for tape—to bandage his legs. Sunday, Mantle's case history had an expenditure for tape — to measure his homers.

★ ★ ★

Mantle, the New York Yankees' $100,000-a-year slugger with the dime store legs, raised his batting average to .318 Sunday by lifting two long drives over the fences at Tampa, Fla., in a 6-4 exhibition baseball victory over the Cincinnati Reds.

The homers were the first of the spring training grind for Mantle, who had been forced into a four-day layoff by his ailing legs. He had complained about his left knee—operated on during the winter for torn cartilage.

EASY JOG

He concentrated on trotting against the Reds. Both homers were hit with Mantle batting right-handed against southpaw Joe Nuxhall, the first with a man on in the first inning traveling 350 feet and the second in the fifth with the bases empty rocketing 430 feet.

★ ★ ★

Report No. 2, however, still left doubts about the condition of Mantle's taped legs. In the field, he ran without any indication of lameness, but he let one hit fall in front of him instead of charging it in the Mantle manner.

While the American League champion Yankees were getting a boost from their No. 1 product, Sandy Koufax of the world champion Los Angeles Dodgers turned in his sharpest pitching performance in a 3-1 loss to Minnesota.

★ ★ ★

Koufax became the first pitcher to go all the way this spring as he limited the Twins to five hits. Jimmie Hall ruined Koufax' effort with a two-run homer in the fourth and the Twins added an unearned run in the fifth.

OTHERS SHINE

Joining Hall as the day's hitting stars were Julio Gotay of Pittsburgh, Tim Harkness of the New York Mets and Tony Conigliaro, a rookie with the Boston Red Sox who may be compiling one of the oddest hitting records ever produced.

★ ★ ★

Gotay collected two homers and two singles for five runs batted in as the Pirates walloped Philadelphia 13-4 while Harkness broke a hitless string that had extended to 16 at-bats by slamming a homer, double and single in the Mets' 8-3 belting of Washington.

★ ★ ★

Conigliaro led the Red Sox to a 6-4, 13-inning victory over the Los Angeles Angeles with a homer, two triples and a double. The 19-year-old outfielder now has collected 15 hits—13 for extra bases. His batting average is .288; his slugging average .750.

Boxing Probers Eye Underworld Figures

WASHINGTON (AP)—Senate investigators ask more questions today about reports underworld figures hung around while Sonny Liston trained for his heavyweight championship fight with Cassius Clay.

They also want to know why Liston gave away stock, which brought $100,000 in profits from the Clay fight, to a man identified as a former associate of mobster Frank (Blinky) Palermo.

These questions came up as the Senate antitrust and monopoly subcommittee sought to wind up its hearings into circumstances surrounding the Feb. 25 fight won by Clay when Liston failed to come out for the seventh round.

★ ★ ★

In the new development, Sen. Kenneth B. Keating, R-N.Y., asked the Senate investigators to find out whether associates of Frankie Carbo had been in Clay's and Liston's Florida training camps. Carbo, now in prison, is former underworld czar of boxing.

SIX YEARS AGO

Keating, a member of the subcommittee making the boxing inquiry, said he had information about a Washington meeting six years ago between Carbo and fight world figures.

Keating said he had been told there was evidence stemming from New York investigations linking figures in the Clay-Liston fight with the Carbo combine. He added:

★ ★ ★

"It is most essential that we discover whether Frank Carbo has reached out from behind prison bars and placed his cohorts in both the Liston and Clay camps."

The subcommittee met three days last week and only heard three of seven scheduled witnesses. Still remaining to be heard are:

Bob Nilon, brother of Liston's financial adviser, Jack, who was executive vice president of Inter-Contential Promotions Inc. a firm organized to promote Liston's championship fights.

WITH PALERMO

Sam Margolis, Philadelphia vending machine operator identified by the subcommittee as once owning an apartment house with Palermo.

Witnesses last week testified that Liston signed over, apparently getting nothing in return, 275 of his 500 share, 50 per cent stock control in Inter-Contental to Margolis.

Margolis has said he got the stock for helping Liston set up the deal to get a share of the fight's promotional profits, something fighters normally don't get.

Salvatore Avena, Philadelphia attorney who figured in organizing Inter-Continental and who later got 50 of the 275 shares of stock transferred to Margolis.

Edward Lassman, Miami Beach, Fla., president of the World Boxing Association.

Margolis was identified last week as a close friend of Liston, one the former heavyweight champion grusted greatly.

Margolis also was identified as a former associate of Palermo, and as having owned a restaurant with Palermo's son-in-law. Margolis told a reporter in Philadelphia he had sold a restaurant to Palermo's son.

Palermo, John Vitale, and Joe (Pep) Barone, all identified as underworld figures in previous testimony before the subcommittee, once reportedly controlled Liston's contract.

Cranes' Nine Heading South

Nothing could be finah than to be in Carolina in the Michigan springtime is the thinking of Cranbrook's baseball team.

★ ★ ★

It isn't just wishful thinking either, for the Cranes depart this week for their 15th annual southern spring training trip.

They'll train for a week around Chapel Hill and Greensboro, N.C., before swinging through Cincinnati, Ohio for five games in four days on the way home.

Dave Barnef has assumed the diamond coaching duties for the Bloomfield Hills preparatory school. He has five letter winners returning from the squad that posted a 16-6 record last season.

Included in that is a 3-2 mark on the 1963 southern tour.

Co-captains Bill Estes and Dale Bosley join Bob Heavenrich, Larry Willey and Guy Bramble as the experienced performers. Estes will only be eligible for Inter-State Prep League action.

★ ★ ★

The Cranes will open their regular season schedule Apr. 13 by playing host to Pontiac Central.

Michigan Drops 2 to Arizona Squad

LOS ANGELES (AP)—Southern Illinois University wrested the NCAA gymnastics championship away from defending titlist Michigan Saturday night with spectacular performances in the final events — still rings and tumbling.

★ ★ ★

Southern Illinois collected a total of 84½ points. Southern California edged Michigan for second, 69½ to 65.

All-round honors in the meet went to the Trojans' Ron Barak with a total of 54.85. Pen State's Ed Isabelle was second with 53-72 and Michigan State's James Curzi third with 52.30. The Spartans finished eighth in the team totals with 23½.

2 Top '500' Racers Hurt in Sprint Cars

READING, Pa. (AP)—Roger McCluskey, of Tucson, Ariz., and Don Branson, of Champagne, Ill., appear questionable starters in the Indianapolis 500 on Memorial Day after being hurt in a sprint car race here.

A. J. Foyt, of Houston, Tex., won the 30-lap Reading Inaugural U.S. Auto Club Race Sunday in which nine laps were run under the caution flag. Two other drivers were injured and one escaped injury. Foyt's time was 13:24.69, and he won by a half-lap over Jim Maguire, of Dunellen, N.J.

★ ★ ★

McCluskey was injured when his car flipped over just as he had finished his second qualifying round. The accident occurred at the same spot where his car had spun out of control on the first qualifying round.

He suffered a compound fracture of the left forearm, bruises of the right shoulder and hand, a cut right forehead and a concussion.

FLYING DIRT

Branson, Jim Hurtubise, of North Tonawanda, N.Y., and Bob Harkey, of Indianapolis, all were injured when they were hit by flying dirt during the afternoon's program.

★ ★ ★

Branson suffered a compound fracture of the right forearm and was hospitalized along with McCluskey. Both were reported in satisfactory condition today. Hurtubise and Harkey suffered bruises and cut eyes.

Bobby Marshman, of Pottstown, Pa., escaped injury in the feature race when his car crashed through an inside wooden retaining fence about a foot high.

Kidd Gains New Title in Alpine Meet

CRESTED BUTTE, Colo., (AP)—Bill Kidd of Stowe, Vt., won his new title of North American Alpine combined ski champion the easy way.

Because unmanageably heavy snow made it impossible to hold a downhill race, Kidd had to make top showings in only two events instead of the usual three to win the title. And that he did handily, winning the giant slalom Friday and scoring a comfortable second place in the slalom Sunday.

Kidd, a silver medal winner in the 1964 Winter Olympics, lost the slalom race Sunday to Bill Marolt of Aspen, Colo., who made the two runs in 111.0 seconds compared to 111.7 for Kidd.

LADY CHAMP

Tammy Dix, Spokane, Wash., won the women's combined title by placing third in the slalom. She, too, won Friday's giant slalom.

Pia Riva, Milan, Italy, her country's giant slalom and downhill champion, won the slalom Sunday but, as a non-North American, was ineligible for a title. The slalom championship on the books will be in the name of Linda Meyers, Mammoth Lakes, Calif., whose time of 111.2 seconds was three-tenths of a second behind Miss Riva's.

New York Skating Pair Wins Senior Ice Titles

BUFFALO, N.Y. (UPI)—Bob Fenn and Edith Johnson won the senior titles Sunday in the first U.S. Open indoor speed skating champions.

Fenn, 20, of Flushing Meadows, N.Y., scored 20 points out of a possible 25. Miss Johnson, 19, of Buffalo, recorded a perfect score of 20 in the women's division.

Victory Drought Nears End for Leader in Azalea Open

WILMINGTON, N.C. (AP)—It's been almost seven years years since Al Besselink won a regular PGA circuit golf tournament. Not since the 1957 Kansas City Open has the big blond from Merchantville, N.J., won on the tour.

★ ★ ★

But he was 18 holes away from victory today as the final round of the $20,000 Azalea Open started. Besselink's par 72 Sunday after earlier rounds of 70-65 gave him a 207 total, nine under par, and a two-shot edge over Joe Campbell, the first round leader.

Besselink picked up $400 in bonus money for leading after 54 holes to go along with $1,000 he pocketed Saturday for leading the second round and also shooting its low score.

ONE BIRDIE

He made only one birdie Sunday, but an eagle on the 565-yard third hole gave him his big push. He used his driver twice and then needed only a five-foot putt for the eagle.

Two traps and a hooked shot into the woods cost him three bogies.

Campbell, first day leader with 67, had slumped to 73 in the next round, but charged back with 69 for second place.

★ ★ ★

The 69 was the day's low score, tied by Dutch Harrison, celebrating his 54th birthday, and Rod Funseth. The three divided $600 in bonus money.

Sharing third place at 210 were Tommy Jacobs, Lionel Hebert and Larry Mowry.

Bob Gajda, who held second place in each of the first two rounds with a pair of 68s, slumped to 75 for a four-way sixth place tie at 211. A triple bogey seven on the 17th, where he hit a ball out of bounds, cost him second place.

Kenyans Pace Nairobi Race With Cortina

NAIROBI, Kenya (AP) — A mudcaked Ford Cortina with Kenyans Peter Hughes and Bill Young aboard drove into Nairobi today, the first car to complete this year's gruelling East African Safari.

The car was seven points ahead of the nearest challenger and is an almost certain winner of the 3,190-mile event, the world's toughest auto ride.

★ ★ ★

Clerk of the course Douglas Scholey, meanwhile, announced he was satisfied the leading car complied with entry conditions of the Rally which virtually sealed the Cortina's victory.

Until the last moment threat of disqualification hung over the Ford entry. At the initial scrutineering it was discovered the Cortinas were fitted with an extra leaf spring which did not appear on their homologation certificate.

★ ★ ★

Scholey said Sunday he would be forced to disqualify them unless he was presented with evidence that this was a standard fitting.

The homologation certificate is a document proving that more than 1,000 cars of this type have been offered for sale to the public, an essential qualification for competitors.

Des Moines Skaters Whip Windsor, 14-3

DES MOINES, Iowa (AP) — Des Moines finished the International Hockey League season Sunday by whipping Windsor 14-3.

The victory, triggered by Patty Ginnell's four goals, was Des Moines' 13th in its last 16 games, and left the Leafs only one point back of Windsor, which finished fourth and won a spot in the playoffs.

Hardwick Winner of PBA Open

(Continued from Page C-1)

three out of four to pull away to a 213-196 win.

The defeat was a hard blow to the colorful, confident Bourdase. He has been in the televised finals the past three weekends, only to miss out each time in his bid for that elusive first PBA crown.

"I'll be on television next week," he vowed looking ahead to Denver, Colo., the 11th stop on the 13-city winter circuit.

NOTES

While admitting it may be a disadvantage to bowl only one game in the television finals, Bourdase noted it is comforting to know that you've won $2,000 which is what he collected for his one-game effort Saturday.

It is embarrassing to roll a gutter ball anytime, and countless fans saw Lening do just that on his second ball. The ball hit his ankle on the delivery.

Hardwick Friday had bowled a 290 game on the same lanes that were used for Saturday's finals.

Tardy Dodger Wants to Play

Frank Howard Eyes Regular Outfield Job

VERO BEACH, Fla. (AP)—After hitting 59 homers and driving in 183 runs in the last two seasons, Frank Howard thinks it is high time he became the regular right fielder for the world champion Los Angeles Dodgers.

★ ★ ★

"I'll never be content until I have a chance to play a full season—I want to see what I can do," the 6-foot-7-inch slugger said Sunday while trying to make up for missing the first four weeks of spring training.

Howard refuses to discuss the personal problems that caused him to announce three weeks ago that he was quitting baseball, but he is, however, willing to discuss his concern over not playing regularly.

ONLY NINE

"I've never criticized Walter Alston (the Dodger manager)," said Howard. "He has 25 players and he can only use nine of them at a time. He has a tough job, but I thought I proved I could do the job in 1962. I didn't play much more than half a season that year, but I hit 31 home runs, drove in 119 and averaged .296.

"I knew I was the underdog. If I didn't do real good nobody expected me to. I was a little disappointed I didn't hit better than .224.

NOT MINORS

"Hitting against fellows like Don Drysdale and Sandy Koufax awed me a little. But then I would dig in and bear down. I would tell myself this was not Class B, C or D but the majors. This is it and you sink or swim."

Incidentally, Staub hit a home run off Drysdale with one on to win a 2-1 game from the Los Angeles Dodgers—his first homer.

★ ★ ★

"You wonder can you do it?" he explained. "Are you a big leaguer? Sometimes you do as good as the others. Sometimes you do better. Sometimes you get into a slump like when I went 0 for 27 but still I came back pretty good.

★ ★ ★

"Everybody asks if being overpublicized hurt me. Not that much. It was a great year for me. The experience you can't buy. I was tickled to stay up here. Definitely, you learn more up here than you would in the minors. I made a lot of lousy, stupid plays but the mistakes stick with you. When you make a mistake up here, you remember it and don't do it again if you can help it."

CONSISTENT HITTER

Harry Craft, Houston manager, said Staub hit the ball more consistently than any player on the club. As Craft had Mickey Mantle at 17 and 18 in the minors he was asked to compare them.

"Mantle had more speed and more power, of course," he said. "This kid is a more consistent hitter and won't strike out so much. Of course, Mantle was a superior fielder, too. Rusty is just learning the trade at first base and in the outfield."

Outlook Bright for Fishermen

Lake Michigan Scene of Early Activity

ST. JOSEPH (UPI)—The fish are biting in Lake Michigan.

With they dying, Arctic gasps of winter echoing in the ears of most Michigan residents, commercial fisherman Lloyd Mollhagen Jr., of St. Joseph has good news for sportsmen.

"It looks like a good year for the pole and line fisherman," he said.

Mollhagen said perch fishing in Lake Michigan near St. Joseph is so good that it has attracted nine tugs from ports all over the Great Lakes. At this time last year, he said, there were only three tugs operating here and they belonged to local residents.

Along with the boats, he said, there are 48 to 50 fishermen in the area.

His father, Lloyd Mollhagen Sr., said it has been at least 35 years since he has seen so much fishing activity in the area.

The extra fishermen have come from Holland, Saugatuck, Fairport, Manistique, Oscoda and Racine, Wis.

Aussie Wins Good Neighbor Tennis Crown

MIAMI BEACH, Fla. (AP)—Roy Emerson of Australia exhibited a powerful service and accurate ground strokes in defeating Manuel Santana of Spain Sunday for the Good Neighbor Tennis Tournament title.

Emerson, who has not lost a singles match in the Good Neighbor since 1960, fought off a Santana rally in the first set, then assumed command for the match, 7-5, 6-4, 6-2.

Emerson and countryman Ken Fletcher won the doubles crown from Boro Javanovic and Nicola Pilic, Yugoslavia, 6-3, 6-8, 6-4.

Nancy Richey of Dallas, third-ranked U.S. woman player, defeated Stephanie de Fina of Hollywood for the women's crown, 6-4, 6-2.

18 Plead Guilty in City Court

Caught in Gambling and Liquor Raids

Eighteen of 30 persons arrested in gambling and liquor raids early Saturday pleaded guilty to charges in Municipal Court. The rest pleaded innocent and demanded examinations, which were scheduled for April 8.

All appeared before Municipal Court Judge Maurice Finnegan later that day.

Carmon Green, 38, of 186 Victory was fined $100 for maintaining and operating a poker game at 15 W. Howard, and Paul Palace, 57, of 15 W. Howard and Walter J. Stafford, 48, of 14 Putnam were fined $50 each for aiding and abetting.

The nine loiterers arrested at the Howard address in the 3:15 a.m. raid were fined $25 each.

They are Arnold Clark, 47, 125 N. Perry; Claude Irby, 43, 39 Tacoma; John Touleyrou, 49, 2053 Willowbeach, Keego Harbor; Casey L. Harrod, 35, 30 Fairgrove; George H. Kreilach, 51, 66 Fiddis; Peter Margosian, 26, 571 Second; Jack W. Clement, 37, 5410 Sarvis; Alex MacLeod, 61, of Detroit; and Raymond L. Russell, 39, of 405 N. Perry.

PLEAD GUILTY

Six of 12 arrested at 241 Wilson for loitering in an alleged illegal liquor establishment pleaded guilty and were fined $15 each.

They are Freeman Gulley, 37, 265 Hughes; Thomas Gamble, 31, 256 Crystal Lake; Walter Wright Jr., 23, 260 Bondale; Robert Johnson, 20, 523 Colorado; Chales E. Gamble, 26, 221 Rockwell; and John Irving, 42, 252 Harrison.

To appear April 8 on charges resulting from the 2 a.m. raid on 241 Wilson are James Taylor 46, of that address on a charge of maintaining and operating an illegal liquor establishment and six charged with loitering.

Arrested at the Southwest Community Center, 100 Franklin Road, and pleading innocent to charges of illegal sale of liquor were A. J. Simpson, 30, 256 S. Sanford; Cleotha Miller, 36, 910 Gladstone, Detroit; and David M. Simmons, 44, 490 Fildew.

Matthew A. Hill, 63, 121 South Boulevard, was arrested at 4 a.m. on a charge of illegal sale of liquor at the Joy Boys, a private club at 467 Franklin.

BLANKET TOSS — This crowd of vacationing college students use a blanket to toss a girl high in the air during their fun yesterday at Daytona Beach. Police later ended the fun when they moved in and ordered the crowd to disperse. Many of the students were arrested.

City Marine Beaten, Killed

No Motive Revealed by Okinawa Officials

A 19-year-old Marine from Pontiac was beaten to death early yesterday near his barracks at Camp Hansen in central Okinawa.

★ ★ ★

Pfc. George A. Kovacik was assaulted as he returned to barracks from the enlisted men's club at the camp.

Marine authorities said an investigation showed Kovacik's assailants killed him with their fists. He was dead on arrival at the camp dispensary.

Authorities declined to comment on whether suspects were being held. Nor was any motive revealed.

The victim was the son of Mrs. Elizabeth Kovacik, 43 City Line, and Vincent Kovacik, 43 Sanford.

ENLISTED IN 1962

Their son enlisted in the Marine Corps in May 1962 after attending St. Michael High School, Mrs. Kovacik said.

He was assigned to Okinawa last November.

His recent letters gave no indication of any trouble, and he was looking forward to a leave at home in November, his mother said.

She received a telegram at 1 a.m. yesterday from the Corps, informing her of her son's death.

ANOTHER SON

The Kovacik's have another son in the Marines, Corp. Vincent Kovacik Jr., stationed at El Toro, Cal.

Also surviving are another brother, David, 8, and a sister, Ruth, 22, both living with their mother.

The Soviet Union imported about $3 million worth of farm products from the United States in fiscal 1963.

Police Ask Help

Students Leave Daytona

DAYTONA BEACH, Fla. (AP) — Many of the estimated 75,000 college students that packed this resort city on their annual Easter vacation started moving north today, leaving some behind to face police charges.

City police, working 12-hour shifts seven days a week since the students started arriving two weeks ago, had to call for state highway patrol reinforcements yesterday to quell a blanket tossing party.

An undetermined number of students were arrested on disorderly charges when they failed to move on quickly enough to suit officers.

The disturbance resulted when a small blanket tossing party, where someone — preferably a girl — is tossed high in the air from a blanket held by several boys, got out of hand.

A witness said the party attracted students up and down the beach and police started moving in to disperse the crowd.

WANT POLICE

Some of the students, the witness said, suggested offering a police officer a "toss or two."

They surrounded a patrol car, chanting: "We want a cop. We want a cop," the witness said. It was then that police called for reinforcements.

Police Chief A. O. Folsom Jr. said 1,400 students have been arrested since the invasion began, an average of about 100 a day mostly on drinking charges.

However, there were no incidents resembling the riots and mass arrests that occurred at Fort Lauderdale in 1961.

Police in Fort Lauderdale said the 6,000 college students there were "very quiet."

Newspaper President Rescued

MIAMI, Fla. (AP) — James L. Knight, president of the Miami Herald, and four other persons were rescued Sunday when Knight's yacht, Jimiana, sank about 40 miles east of Miami off Cat Cay, the Coast Guard reported.

The 60-foot yacht sprung a leak and the Coast Guard sent a plane to the scene and dropped a pump, but the craft could not be saved.

Knight, a member of the Knight newspaper family, and friends had been fishing in the Bahamas during the past week and he landed a world record blue marlin in the 50-pound test line class. The fish weighed 585 pounds and was landed in only six minutes aboard the yacht Rerun, on which Knight and his party had been fishing.

The Coast Guard said that after the Jimiana began sinking, Knight and his party were taken aboard the Miami Marlin and that two or three other boats were in the area.

Knight, his wife, 13-year-old daughter and the two crew members were rescued. The Coast Guard gave no reason for the boat sinking.

Doesn't Want to Part With Metal in Heart

MOSTAR, Yugoslavia (AP) — Old soldier Veljko Bulut carries his war souvenir in his heart.

It is a piece of Italian hand grenade which lodged in his heart during fighting 22 years ago.

Doctors after the war advised him to undergo an operation to remove the sliver of grenade.

But he refused to part with his "war souvenir" which he says "actually doesn't bother me too much."

Suffers Cuts in Car Crash

A Farmington Township man is in satisfactory condition at Pontiac General Hospital after his car went in a ditch in Commerce Township last night.

Thomas F. Isley, 28, of 33224 Oakland suffered facial lacerations in the 8:23 p.m. accident on Union Lake Road near Commerce Road.

Two Area Youths Beaten and Robbed

Two youths were beaten and robbed of a total of $105 early yesterday morning at the rear of the 88 Club, 88 Bagley.

The 19-year-olds, Theodore Owen, 5534 Donn's Drive, Waterford Township, and Thomas Clark, 101 Edge Lake, Union Lake, told Pontiac police they were threatened with a knife in the 12:15 a.m. assault.

Detroit Driver Dies in Novi Accident

A young Detroiter was killed early yesterday morning when his foreign sports car rolled over several times after going out of control on I-696 in Novi.

Oakland Highway Toll in '64

That's Called One-Upmanship

FORT WORTH, Tex. (AP)—A grocery clerk thwarted a would-be robber by yelling the first thing that came into her mind.

Mrs. Dorothy Lee Kingry, a clerk in Walkers Grocery Store, said a young gunman came in and demanded all the money in the cash register.

Mrs. Kingy said she shouted at the top of her voice: "Turn the machine gun on him, Mr. Walker."

The gunman fled without any money.

"It was the only thing I could think of," Mrs. Kingy said.

He Smiled After Fire

GILLETTE, Wyo. (AP) — A $200,000 fire which destroyed an apartment house and surrounding buildings did its bright moment for Tyson.

When firemen allowed people to reenter the building, Tyson ran into his charred apartment and came out smiling.

His false teeth, left on the bathroom sink, were unharmed.

Death Toll Hits 315

EAST LANSING (AP)—Traffic accidents have killed 471 persons in Michigan so far this year, provisional figures compiled by state police showed today. The highway death toll at this date last year was 315.

SEA DUTY — Special versions of GMC Truck & Coach Division's four-cycle V6 engine are being marketed for use in single and twin-screw pleasure cruisers or commercial vessels. This completed unit, for which General Motors provides basic components, will be the division's first entry into the marine engine field.

New GMC Diesel Adapts for Boat Use

GMC Truck & Coach Division will be a name for power on the water just as it is over the nation's roads.

GMC has announced that for the first time it is marketing an engine that can be adapted for use in pleasure and commercial boats, besides powering trucks or stationary power plants.

Basic unit is the four-cycle V6 "Toro - Flow" diesel engine, developed and put into production late last year.

It will be provided in two types to marine engine manufacturers who will adapt them for use on the water. One is the standard counter-clockwise rotation unit, while the other delivers power clockwise for twin-engine installations.

* * *

Fuel costs will be lower than with gasoline - power engines, says GMC, while increasing cruising range and being a safer power unit because diesel fuel is less volatile than gas.

STRONG BACKBONE

Structural backbone of the diesel is a strong and rigid integrally cast cylinder block and crankcase. The block is cast from fine - grained, chromium-nickel alloy iron.

The name Toro-Flow refers to a three - dimensional motion of air when fuel in injected due to the form of the combustion chamber.

Engine displacement is 478 cubic inches. Coming in 170 and 150 horsepower versions both develop maximum horsepower at 3,200 rpm.

All bores are surrounded by coolant, allowing for expansion, heat transfer and longer life. The crankshaft is statically and dynamically balanced.

Widen Search for Lost Plane

SAN FRANCISCO (AP) — "There's somebody out there in a liferaft, we're sure of that," a Coast Guard spokesman declared today as search widened for a transport plane with nine men aboard that vanished off the California coast Saturday.

"Faint radio signals picked up late Saturday on two international distress channels came from the Gibson Girl type of emergency transmitter carried in a ditching operation," the Coast Guardsman added. "And they came from the area where the DEC4 was last reported.

Long-range search planes, Coast Guard cutters and Navy vessels criss-crossed a vast ocean area of some 18,000 square miles Sunday, however, without sighting aircraft wreckage or raft. The search area was widened some 8,400 additional square miles today.

Despite Rising Sugar Prices

Cuba Economy Continues Drop

By LEWIS GULICK

WASHINGTON — Reports reaching Washington indicate Cuba's foreign exchange fortunes have climbed but its general economy continues to slide downhill.

* * *

Official sources estimate that because of soaring sugar prices, Havana's foreign exchange holdings have risen from about $10 million at the end of 1962 to some $70 million now.

They predict another $50 million enrichment of Castro's coffers during 1964, but said this was not enough to meet much of Cuba's large needs to keep up a faltering industry.

These sources expect that the foreign exchange tide will turn against Cuba with a drop in sugar prices late this year or early in 1965. Meanwhile the Cuban living standards have continued to decline under pressure from the U.S. boycott, they said.

Cuba's gross national product was estimated down 10 to 15 per cent from 1958, the year before Fidel Castro took power. Accounting for the island's population increase, that amounts to a drop in average living standards estimated at 15 to 20 per cent.

As for the current attitude of Cuba's seven million inhabitants toward the Castro regime, the official sources figured that perhaps 10 per cent are fanatically pro-Castro, 15 per cent are favorably disposed, the great bulk —around half—are disenchanted but passive about it, maybe 15 to 20 per cent are prepared to be actively opposed if the occasion should arise and 5 per cent are in active opposition.

The official sources said that while Castro may not be toppled directly because of economic difficulties, weakening Cuba's economy helps chances for internal opposition and reduces his ability to export communism to other Latin-American countries.

To end the boycott policy, they contended, would be to give Castro the best of two worlds — he would have open access to free world markets and could draw on aid from the Communist bloc.

Sugar, Cuba's main income producer, was seen as a key element in the effort to reduce non-Communist trade with the island.

With a worldwide shortage last year, the sources said non-Communist countries like Japan Italy, Spain, Holland and Morocco had to buy Cuban sugar and most felt obliged to balance the trade by selling to Cuba.

* * *

Total non-Communist sales to Cuba during 1964 were expected to increase some from the $10-million level of the past two years. In face of the U.S. boycott, calls at Cuban ports by non-Communist ships were reported down 60 per cent in 1963 with a moderate decline in sight this year.

Cuba's sugar harvest was reported down to 3.8 million tons last year. The 1964 forecast was about the same.

PROPOSED FIREMEN'S 56 HOUR WORK WEEK ORDINANCE

To the Electors of the City of Pontiac, Michigan:

Notice is hereby given that there shall be submitted to the electors of the City of Pontiac at the General Municipal Election to be held Monday, April 20, 1964, the following Work Week Ordinance. The following is proposed ordinance to be submitted:

FIREMEN'S 56 HOUR WORK WEEK ORDINANCE

"An Ordinance to reduce the work week of the uniformed members of the Fire Fighting Division of the Fire Department of the City of Pontiac from 63 hours to 56 hours."

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF PONTIAC:

Section 1. Hereafter the leave of absence of the uniformed members of the Fire Fighting Division of the Fire Department shall have for each member, one day of twenty-four hours off duty in every forty-eight hours and an additional twenty-four consecutive hours off duty in each six-day period (said additional twenty-four consecutive hours to be joined with proximate regular leave days so as to afford a leave period of seventy-two consecutive hours) and a furlough of fifteen days in each year. Section 2. That the uniformed members of the Fire Fighting Division of the Fire Department of the City of Pontiac remain and be maintained under a two-platoon system.

Section 3. All ordinances or parts of ordinances in conflict herewith are hereby repealed only to the extent necessary to give this ordinance full force and effect.

Section 4. This ordinance shall be operative and effective from and after July 1, 1964, at 12:01 a.m.

☐ For the Ordinance
☐ Against the Ordinance

Be It Further Resolved, that said Ordinance shall be published in The Pontiac Press, a daily newspaper published and circulated in said city once each week for three successive weeks immediately preceding said election.

Card of Thanks 1

WE WISH TO EXPRESS OUR heartfelt thanks, in appreciation for the many acts of kindness and messages of sympathy and floral offerings, also for the lovely dinner from church and neighbors, our relatives, friends and the Rev. James Hickling and the Sparks-Griffin Funeral Home during our bereavement in the loss of our dear husband and father, Bernard B. Johnson. From the family of Minnie Johnson and children.

In Memoriam 2

IN LOVING MEMORY OF OUR dear son and brother, James Stafford who left us March 30, 1963. Gone but never forgotten, sadly missed by Mother, Dad, brothers, sisters and families.

IN LOVING MEMORY OF OUR son, Mark William Shefter, who passed away March 30, 1963.
Sweet little flower of heavenly Birth,
He was too fair to bloom on earth.
—Sadly missed by Dad, Mother and Sister.

IN MEMORY OF TODD J. MARKS, JR., who was killed March 30, 1963. Our hearts still ache with sadness, Our eyes shed many tears;
Only God knows how much we miss you.
As this ends the first sad year,
Sadly missed by sister Phyllis and family.

IN LOVING MEMORY OF OUR dear brother and uncle, Todd J. Marks, who went home one year ago today.
All his toils and conflicts o'er,
Lo, he dwells with Christ above;
Oh what glories he's discovered,
In the Savior whom he loved.
Sadly missed but happily remembered by: Zona, Glenn, Glenda, Bruce, and Lynn.

IN LOVING MEMORY OF AIRMAN 3-C Todd Jay Marks.
It was one year ago today,
That your name was suddenly called away;
Though we know you are safe in that great beyond,
We still remember you as time goes on.
Oh, why did God take you so suddenly away,
And leave us to grieve day after day?
Sadly missed by Mom and Dad, Phyllis, Zona, Dawn and Garrett, Jr.

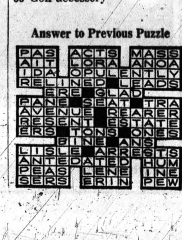
Answer to Previous Puzzle



Darned White of Those Mice

SYDNEY, Australia (AP)—Foreman-electrician Tom Taylor had to thread a telephone line through an 80 foot pipe, 1¼ inches in diameter.

The pipe, with four bends and embedded in concrete was in a new 13-story building.

The usual methods of pliable wire, water and compressed air didn't work.

So Taylor went down to the local pet shop and bought Henry and Henrietta.

★ ★ ★

He took Henry to one end of the pipe and tied a piece of cotton to his tail.

OTHER END

An assistant had Henrietta at the other end.

He gave her a gentle squeeze; she squeaked; Henry moved down the pipe. Fifteen minutes later he joined Henrietta.

Electricians used the cotton to pull string through, and string to pull the wire.

★ ★ ★

Henry and Henrietta? They were a pair of white mice.

SAD MOUSE

Henrietta later escaped from her cardboard box and was never seen again.

At last report Taylor was trying to decide what to do with Henry.

Clam Object of Research

VICTORIA, B. C. (AP)—The blood pressure of the common clam is being measured here in the interest of research.

The project was started Dr. L. S. Smith, University of Victoria biology-zoology lecturer.

Using a delicate steel hypodermic needle and other modern medical aids, Dr. Smith and his students are able to measure the clam's blood pressure, which is from 1 to 5 per cent of human blood pressure.

"We are working on blood pressure in clams and salmon to discover how the heart works," Dr. Smith said.

★ ★ ★

"If we discover the circulatory systems of these animals, it may have some application at a later time."

Bandits Rob Gas Station at Gun Point

Two bandits robbed the Laflin Brother's Marathon Service, 807 E. South Boulevard, of $60-$80 Saturday night.

The attendant, Alfred Pearson, 20, of 574 Tex told Pontiac police that the pair entered the station shortly after 9 p.m. on the pretext of buying gasoline.

One of the robbers had a .22-caliber pistol and had a large bandage on the left side of his face. His companion wore a nylon stocking over his head.

Two customers, Matthew Evans, 52, of 307 Prospect, and Donald Sergeant, 27, 176 W. South Boulevard, were ordered to lie on the floor while Pearson was forced to empty the cash register.

★ ★ ★

The bandits fled in a car that was hidden nearby behind a truck. It was believed to have been a light brown or cream 1958 Buick.

Roaches Reveal Secrets of Age

CHARLOTTESVILLE, Va. (AP) — Worried about growing old? Some of your problems may be solved by cockroaches if experiments by Dr. Dietrich Bodenstein, biology professor at the University of Virginia, are an indication.

He has discovered that the hormones of a young cockroach will rejuvenate an old one and cause it to start growing again.

He can make giant cockroaches by stimulating their growth with hormones.

Dwarfs can be created by removing certain glands from larvae, causing premature metamorphosis.

Some of the craters on the moon are estimated to be 140 miles across.

News of Area Service Personnel

Airman First Class James H. Truxton, son of Mr. and Mrs. Harold S. Truxton of 945 E. Maple in Troy, has been selected "Outstanding Airman of the Month" at Elelson Air Force Base, Alaska.

Airman Truxton, a United States Air Force freight traffic specialist, in the 5010th Transportation Squadron, was chosen in recognition of his exemplary conduct and performance of duty.

The airman is a graduate of Holly Area High School.

★ ★ ★

John R. Ratliff Jr., son of Mr. and Mrs. M. L. Hayslett of 20832 Tuck Road, Farmington Township, has been promoted to airman second class in the Air Force.

Airman Ratliff, a jet engine mechanic, is assigned to the 325th Organizational Maintenance Squadron at McChord AFB, Wash.

The airman is a graduate of Clarenceville High School, Livonia.

Chief Musician Paul F. Allen, son of Mr. and Mrs. Paul J. Allen of 52 Oliver Street, is the solo cornetist with the United States Navy Band, led by Lt. Col. Anthony A. Mitchell.

ALLEN

They are on a coast to coast concert tour for the months of April and May.

Chief Allen graduated from Pontiac Northern High School before enlisting in the Navy.

Second Lt. Robert K. McLeod, son of Mr. and Mrs. Robert M. McLeod of 1675 Ashtan, Walled Lake, has received a regular United States Air Force commission.

Lt. McLeod previously held a USAF reserve commission awarded him as an Officer Training School graduate. He was selected for regular status in competition with other reserve officers on the basis of his performance of duty, educational background and potential as an Air Force officer.

He is assigned to Itazuke Air Base, Japan as an administrative officer.

The lieutenant, who received his B. S. degree from Central Michigan University, is a member of Sigma Phi Epsilon.

Airman 1st Class Larry W. Landon, son of Mr. and Mrs. Ernest T. Landon of 6445 Snow Apple Drive, Independence Township, has graduated from the Noncommissioned Officer Preparatory School at McConnel AFB., Kan.

FLETCHER

Airman Fletcher, who enlisted in the Air Force a short time ago, has completed his initial basic military training at Lackland AFB, Tex.

The airman attended Waterford High School.

Capt. J. Thomas Nott, son of Dr. and Mrs. John C. Nott of 130 Bradley, Romeo, has been given recognition for his part in helping the Homestead Dental Clinic win honors as the most outstanding clinic of the year in the Eighth Air Force.

Capt. Nott is a dental officer at Homestead AFB, Fla., a Strategic Air Command bomber base.

Capt. Nott, a member of Delta Sigma Delta, received his D.D.S. degree from the University of Michigan and was commissioned by direct appointment in 1962.

★ ★ ★

Airman 1st Class Lance E. Haywood, was a guest at the recent sixth annual Greater Anchorage Chamber of Commerce Pal Day dinner near Elmendorf AFB, Alaska.

Airman Haywood is an Air Force dental laboratory specialist on duty with a unit of the Alaskan Air Command.

He was one of 125 enlisted men hosted by businessmen of the Anchorage area for the dinner and a USO show at an Anchorage hotel.

The airman is a graduate of Cooley High School, Detroit.

He is the son of Mr. and Mrs. Harold H. Haywood of 6023 Indianwood Trail, Bloomfield Township.

Easygoing Youths Toughen as Adults

BERKELEY, Calif. (UPI)—A University of California psychology study has turned up the subject of personality.

For one thing, human beings seem to be mentally tougher in facing life's strains than current theories expect.

For another, a large number of young people who grew up leading easy, confident lives changed into brittle discontented adults.

★ ★ ★

The UC study was based on who were observed and tested from infancy to age 18, and again at 30.

SPAN 35 YEARS

The studies spanned 35 years and were carried out by the Institute of Human Development at UC's Berkeley campus.

Dr. Jean W. MacFarlane, research psychologist, said many of those persons in the UC studies led strained, unhappy or erratic lives in their younger years. Yet a high proportion of these surprised researchers by working out their problems and developing into stable productive and self-accepting parents and jobholders.

Among them were chronic rebels who had been expelled from high school; academic failures; unhappy, withdrawn schizoids, and one socially inept girl with extremely high blood pressure, which later became normal.

★ ★ ★

But others failed to achieve their potential after excelling during childhood. "Included were boys who were school leaders and athletes, and good-looking, socially skillful girls," Dr. MacFarlane said.

EARLY SUCCESS

Perhaps, she explained, they had too much success too soon.

This might lead to unreal expectations about life, or they may not have had enough stress in growing up "to temper strength or force thoughtfullness and maturity."

Dr. MacFarland and her fellow researchers are trying to pinpoint the combination of factors — family, environmental and biological — that shape the mature and immature individuals.

They also want to know what patterns of personality development that carry over from one generation ot the next are modified or reversed.

Seek Information on 2 Presidents

BELFAST, Northern Ireland (AP) — Know anything about the forebears of President Chester Arthur or Woodrow Wilson?

If you do, Kenneth Darwin, deputy keeper at the Public Record Office of Northern Ireland, would like to hear from you.

★ ★ ★

He is seeking information about the ancestors of the two presidents — both of Northern Ireland extraction — in connection with efforts being made to preserve the houses in Ulster associated with their ancestors—President Arthur's at Cullybackey, Co. Antrim, and President Wilson's at Degalt, Co. Tyrone.

His Life Once in Pieces, Payne's Outlook Changed

By EARL WILSON

NEW YORK — "I believe there's something else for me to do . . . some other reason I'm alive," John Payne said, rubbing the deep scar in his chin that remains a reminder of the accident that could have killed him.

WILSON

"Because there are two doctors who look at me with question marks in their eyes as though asking, 'What are you still doing here on earth?' "

Payne's back acting again — the last steel pin, bolt and screw that held him together for three years has been removed.

"They screw bones together now as though you were a jeep," he said. "When everything's healed, they slit the surface and pull out the steel pin.

"So," he added "I'm normal. I can run, but I can never sneak up on anybody. I've got the noisiest kneecap. I have a special technique of getting into bed. But listen, my chin was off, I'd been scalped. They put me all back together one night.

★ ★ ★

"And now I see things in a different focus. I see too many people cracking on the rack of ambition. There's no need for all that strain. I don't even ask myself any more, 'Will I get that? Can I do that?' That grueling rat race isn't important any more."

Tax Tips

(EDITOR'S NOTE — The following income tax information is furnished by the Internal Revenue Service as a public service.)

Q: I retired in July, 1963 and I am receiving a pension from my employer of $300 per month. My investment in this pension plan was about $8,000. How should this income be reported on my federal tax return?

A: If you will recover your cost in your pension plan within three years from the day you receive the first payment, you are not taxed on the proceeds until you fully recover your cost. After your cost is recovered, all future payments are taxed in full. From the facts you have set forth, you will obviously recover your investment within this three-year period. You will therefore not be taxed on the first $8,000 received. The amounts received should be reported on Part III of Supplemental Schedule B of Form 1040.

For the answer to YOUR question, call your local Internal Revenue Service Office.

TV Newsman Hurt in Leap During Fire

WASHINGTON (AP) — Blocked by flames in his burning home, NBC news commentator Martin Agronsky jumped from a second-floor porch and broke his left heel as he tried to reach a son's room.

★ ★ ★

The jump proved to be needless—the son, Jonathan, 18, was not home at the time.

Agronsky and his wife found their bedroom filled with smoke when a loud crash awakened them early yesterday. Unable to get through a flame-filled hallway, Agronsky jumped from the porch in an effort to reach the son's room another way.

Mrs. Agronsky called firemen from a phone on the porch and was taken down a ladder to safety. Their other three children were also away at the time.

★ ★ ★

Agronsky, 49, was taken to Washington Hospital, where his condition was described as satisfactory. Damage to the home was estimated at $35,000.

After 6,000 Cracks

Winner With Hardest Egg

ELIZABETHTON, Tenn. (AP) — It took over six hours and more that 5,000 eggs, but Freeman Taylor emerged the winner yesterday in the annual Easter egg fight held in the Peters Hollow community near here.

The event, thought to be over 100 years old, is a contest to see whose brightly colored hard-boiled eggshells are the hardest.

* * *

One contestant approaches another, holds out his egg and says, "See if you can crack this one," and the battle is on — a contestant must crack the other's egg with his own.

Taylor came armed with 32 dozen eggs.

They Trusted Him, He Doesn't Drink

NASHVILLE, Tenn. (AP) — The defendant in city court denied a charge of possessing whisky for resale. He said he was holding the three half pints found on him for some friends.

"Do you drink?" asked Judge Andrew Doyle.

"No, sir," he replied. "That's why they had me holding the whisky."

Whale steaks and stew, rich in protein, are considered a delicacy by the Japanese.

Escapes Death in Fall

NIAGARA FALLS, Ont. (AP) — A 5-year-old boy, who fell part way down the sheer side of the Niagara River gorge and clung to a tree for an hour, today has only a chipped tooth, scratches and bruises to show for it.

Wayne Stadnyk climbed a retaining wall yesterday and plunged 150 feet down the gorge three miles downriver from Niagara Falls.

He grabbed a tree growing out of the cliff and saved himself from another 100 feet to the bottom.

A police officer summoned by residents who had seen Wayne go over the wall heard his cries.

A volunteer rescue worker climbed up to the tree, clasped Wayne and fashioned a rope seat.

Other rescue workers, including the boy's father, hauled them to the top.

20,000 Ask Red Cross About Quake Victims

WASHINGTON (AP) — The American Red Cross says about 20,000 inquiries about the health and welfare of persons in the Alaskan earthquake zone had been received at national headquarters and at various Red Cross chapters.

* * *

The Red Cross said Sunday the inquiries have been sent to the Seattle office for handling, but that replies might be slow because of communications problems.

Despite Snow and Cold

Area Churches Full for Easter

By MARY ANGLEMIER
Church Editor,
The Pontiac Press

Thousands of worshipers heard the story of Christ's Resurrection in song and sermon as they filled city and county churches to overflowing Easter Sunday morning.

Although some snow was on the ground and the air a bit brisk the sun climbed over the horizon in a blaze of glory.

The joyous services began in Roman Catholic churches with parishioners attending Midnight Mass.

Just about dawn worshipers arrived for sunrise services.

★ ★ ★

Young people of Trinity Methodist Church, Waterford presented a play, "Because He Lives" in an outdoor sunrise service on the site of the future new church, 6440 Maceday Lake Road.

CHURCH BELLS

Throughout the morning church bells rang out from all sections of Pontiac announcing the Easter services in celebration of the Resurrection of Jesus Christ centuries ago.

Before altars banked with gleaming white lilies and other floral decorations sent by members and friends in memory of loved ones, there

were baptisms and reception of members.

Senior, Junior and Children's Choirs were heard in well loved anthems they had been practicing for weeks.

SERMONS

Sermons in both Protestant and Catholic churches dealt with Christ's rising from the tomb with His promise of life everlasting.

David Trapp presented the trumpet descant "Jesus Christ Is Risen Today, Hallelujah" before services at Grace Lutheran Church.

A brass ensemble composed of Dale Carlson, George Fetter, trumpets; and Jay Young and Jack Payne, trombones, heralded morning worship at A++ Saints Episcopal Church.

★ ★ ★

Speaking of Easter at St. Michael Catholic Church Rev. David Britz said "The whole meaning of Easter message is that we have a part in Christ's resurrection and that we suffer with Him in order that we might rise as He did.

LIVE IN HOPE

"The Christian lives in the hope of the resurrection. He does not perish with the world. For this reason he rejoices even in the midst of suffering such

EGGS-CITING — Pardon the yoke, but it really was a thrill for four-year-old Terry Jo Bennett to meet an Easter Bunny at the Rochester Jaycees' Easter Egg Hunt at Avon Township Park yesterday. Evidence — bro-a-d smile that reveals the absence of two front teeth.

John Glenn Withdraws From Ohio Senate Race

SAN ANTONIO, Tex. (AP)—Former Astronaut John H. Glenn Jr., withdrew today from the Ohio U.S. Senate campaign because of injuries suffered in a bathroom fall last month.

"No man has a right to ask for a seat in either branch of the Congress merely because of a specific event such as orbiting the earth in a space craft," Glenn told newsmen after one of his physicians said participation in the campaign would be detrimental to his health and recovery.

His statement was made at the Air Force hospital where he was brought March 6 to recover from inner ear damage.

Glenn's announcement ended weeks of speculation on how the injury would affect the future of the spaceman turned politician.

The ear injury impaired Glenn's sense of balance and curtailed his plans to retire from the Marine Corps March 1 to enter the Ohio senate race.

Glenn said he sent a telegram to Ohio Secretary of State Ted Brown requesting that his name be taken off the Democratic ballot.

TO GO HOME

The Marine Corps lieutenant colonel said he might return to his home near the National Aeronautics Space Administration center at Houston within a week or so.

As to his future plans, Glenn said:

"Perhaps there will be other opportunities for service to our country or be a later time when I can conduct the type of campaign I think every candidate could conduct."

Digging Out From Alaska Quake Ruins

Death Toll Near 70 in Shattered Zone; After-Shocks Go On

ANCHORAGE, Alaska (AP) — Shattered Alaska, weary and jittery amid repeated after-shocks, dug through a jackstraw heap of wrecked cities and towns today tallying the results of a tragic earthquake.

Approximately 70 deaths had been counted in the quake zone, a surprisingly low figure, with at least 16 others dead in California and Oregon from resultant seismic wave action.

Some of the Alaska deaths were not confirmed.

The death toll in Alaska was certain to climb — many still are missing — but most state

officials expected the final total to stay below 100.

A stunned population — bolstered by a high-level recommendation for massive federal aid — began to realize the economic ruin carried by the quake. In some communities, industry was as much as 95 per cent wiped out.

TIME TO REBUILD

"It might take a year and a half to two years to rebuild," said Mayor Bruce Woodford of smashed Valdez, "but we'll make it."

Gov. William A. Egan revised his estimate of property damage upward to $360 million and admitted he was being conservative. Other unofficial estimates were higher.

Egan increased his figure after visiting Valdez, his hometown, where 32 died.

Information from many of the heavy-hit areas was sketchy at best. In Kodiak, where a tidal wave washed out the waterfront, one report said martial law had been proclaimed. Police refused to confirm or deny the report.

BONE WEARY — A civil defense worker in Anchorage, exhausted from long hours of helping the victims of the earthquake, finally succumbs to fatigue at civil defense headquarters. He was back helping the people of that city a short while later.

California City Mops Up Wreckage of Tidal Wave

CRESCENT CITY, Calif. (AP) —There was work to do, Easter Sunday or not.

Dozens of men, after sharing in Christendom's most triumphant anniversary, went home and exchanged their church finery for the grimiest clothes they could find.

Then they went out to the rubble-strewn, tortured places hit by the tidal wave from Friday's terrible Alaska earthquake and started cleaning up. A grim kind of spirit marked their toil.

They knew the record — 11 dead and 15 missing and about 17 hurt. More than 300 buildings four streets deep on 29 blocks had been demolished. And an estimated total of $50 million in damages lost to the water-borne horror.

A 25-ton tetrapod, used in construction of seawalls, was lifted off its cement base and dropped six feet away. That was the power of the thing that slammed the city early Saturday morning.

RUSH OF WATER

Four waves, propelled across the sea from Alaska at hundreds of miles an hour, struck the city starting at 12:09 a.m. The first was mild. The town of 3,000 figured that was all.

"They went back to sleep," said a civil defense worker.

The second wave, also moderate, struck at 12:30 a.m. and then a third wave at 12:45. Still **not bad.**

★ ★ ★

The time was 1:40.

The fourth wave arrived.

SPEED INCREASED

First slowly, then with increasing speed, the sea advanced and then roared on in a frothing torrent across U.S. Highway 101 south of the city.

On surged the waters from Front Street to Fourth Street. East, at Elk Creek, a wall of water some said was as high as 15 feet overwhelmed a fishing fleet and moved landward.

Back toward town buildings were ripped from their foundations and tossed many blocks away.

★ ★ ★

The battering-ram force of the advancing and receding tidal wave wrought havoc that tossed cars over like toys, breached concrete walls, wiped out complete inventories in a wink, and left some 150 businesses as worthless as so much garbage. About 350 persons were left homeless, but the Red Cross found temporary homes for them.

★ ★ ★

Most of the businessmen were wiped out financially. A few were self-insured against tidal waves.

Noted General Hit by Setback After Surgery

Condition Is Critical as Kidney Ailment, Bleeding Develop

WASHINGTON (AP) — Gen. Douglas MacArthur, fighting for his life, developed a kidney condition of "grave concern" during the night, doctors at Walter Reed Hospital reported today. They said his condition remained critical.

The doctors also reported that the 84-year-old general had "unfortunately" developed a recurrence of intermittent bleeding from his esophagus, the condition that prompted his second operation more than a week ago.

In a bulletin issued at 9:45 a.m. EST today, the hospital reported: "General MacArthur's condition remains critical. His heart action remains strong. His blood pressure is stabilized around 120/55 and his pulse at 80.

"There has been decreased kidney action since last evening.

★ ★ ★

"This is a matter of grave concern and appropriate measure to correct it are being pursued.

MORE BLEEDING

"Unfortunately, there has been a recurrence of intermittent bleeding from the esophagus which is being controlled by the sengstaken tube (a tube inserted into the esophagus) . . ."

There was no immediate word as to what the "appropriate measures" to correct the decreased kidney action were.

The bulletin read by Lt. Col. Edward Costello, chief of public information for the Walter Reed Army Medical Center, was the first issued since 9:45 p.m. EST last night.

★ ★ ★

The hero of two world wars presumably still was in the recovery room of the hospital where he had been taken yesterday morning following a six-hour major operation—his third in 24 days and his second emergency operation within a week.

INTESTINE REMOVED

In yesterday's surgery some of his small intestine had to be removed after a portion of it became trapped in an old hernia.

Detour in City Will Be Lifted

Section of Saginaw to Open Tomorrow

Barricades around the Saginaw-Auburn-Orchard Lake intersection will be lifted at midmorning tomorrow and all three thoroughfares reopened to traffic.

City Traffic Engineer Joseph Koren said that pavement was poured Friday over the completed Clinton River drain tunnel, which runs under the intersection.

City officials were happy and a little surprised at the announcement, since original construction schedules had placed completion of the work well into April.

The major downtown intersection had been closed to traffic since Feb. 19.

★ ★ ★

Koren said that all three streets will be returned to full utilization.

CLOSE LOOP ROAD

A section of the east leg of the perimeter road, used as a detour during tunnel construction, will again be closed to traffic. Some work on curbing must be finished before the perimeter road can be permanently opened from South Saginaw to East Pike.

Pavement must be laid over the river culvert near East Huron and Union before the East Pike-to-Mount Clemens section can open to traffic.

Forecast Sees Temperatures as Subnormal

This is progress?

Last year at this time, temperatures were basking comfortably in the 70's. For the next five days temperatures will average 4 to 8 degrees below normal.

The normal highs are 47 to 52; lows, 28 to 32.

Temperatures will become milder during the latter part of the week.

Precipitation will total one quarter inch or less in scattered snow flurries tomorrow and scattered showers Friday or Saturday. Weekend precipitation totaled .15 inches.

Temperatures dropped to 18 before 8 a.m. this morning but by 1 p.m. had climbed to 26.

Made His Point Too Well

Reverend's Sermon 'Arresting'

DETROIT (UPI) — The Rev. Theron Spurr of the Gilead Baptist Church wanted to show his Easter Sunday parishioners what it is like to live in a totalitarian state.

His lesson was a dramatic success, almost as chilling as Orson Welles' famous radio show about a fictitious Mars invasion in the 1930's.

As the congregation sat listening intently to the Rev. Mr. Spurr's sermon, two men dressed as police officers walked up to the pulpit, grabbed the minister and slapped handcuffs on him.

The shocked congregation of about 1,000 then watched as Spurr was dragged off, protesting "but I haven't finished my sermon yet."

★ ★ ★

"I don't care — the church is closed," one of the uniformed men snapped. Then the Rev. Mr. Spurr was led outside and driven off in a squad car.

150 PHONE CALLS

Before anyone inside the church was informed that the arrest had been a stunt, about 150 members of the congregation rushed outside and began flooding the Detroit Police Department with complaints.

Panic and confusion was rampant for nearly a half-hour.

Lt. Paul H. Pitzer Jr. of the Fourth Precinct, who related the incident, said the Rev. Mr. Spurr hired two private patrol watchmen to make the arrest.

★ ★ ★

"The only trouble was, the reverend apparently neglected to tell anybody what he was about to do." The police department, Pitzer added, wasn't exactly happy about the stunt.

★ ★ ★

Pitzer said one of the irate complainants was a woman.

★ ★ ★

"Imagine," she said, "I go to church for the first time in three years and the minister is kidnaped right before my eyes!

Report 81 County Families Qualify for ADC-U Funds

An initial 81 general relief cases in Oakland County are among the first in Michigan that apparently have qualified for federal aid to dependent children of the unemployed (ADC-U), County Welfare Director George Williams said today.

Shifting this number of cases largely from general relief rolls to ADC-U would save the county about $96,000 a year, according to Williams.

First payment of the fereral funds is expected here next month.

The county would supplement the ADC-U funds for the 81 cases to the tune of about $48,000 annually, the local director added. Otherwise the county would continue to pay the full shot under general relief.

★ ★ ★

Williams said he understood that, out of the first 90 cases referred from Oakland County to the State Welfare Department, 81 were immediately qualified for ADC-U.

SECOND LIST

County officials are hoping that many more cases will qualify when a second list is sent to Lansing within a couple weeks.

Generally those families whose breadwinners were put out of work through no fault of their own are eligible for ADC-U.

The amount of federal funds administered to them by state officials will depend on the number of children in each family.

★ ★ ★

Williams said the nine cases rejected so far will be re-evaluated here to learn of they might still qualify with further documentation as to why they are unemployed.

BETTER IDEA

"We will have a better idea of what information is required in Lansing after we receive our initial list back," he stated.

State officials still haven't established a specific policy on qualifications.

Once more information on policy is made available, the county welfare department hopes to transfer some 200 relief cases to ADC-U, at a total savings of about $200,000 to the county.

★ ★ ★

"The big question," said Williams, "still is how many cases they (in Lansing) will accept."

He said getting the initial list to Lansing so quickly required a crash work program for his department and the state's local Bureau of Social Aid.

Debate Starts on Rights Bill

Filibuster Expected in All-Out Struggle

WASHINGTON (AP) — Sen. Hubert H. Humphrey leads off with a challenge today as Senate backers of the civil rights bill launch an all-out campaign aimed at winning passage of the controversial measure.

The Senate battle is expected to last for weeks. Although today is the first day the bill is before the Senate, opponents have been talking against it for almost a month.

The subject of the civil rights bill was brought up by newsmen late Saturday at a news conference President Johnson held at his Texas ranch home.

★ ★ ★

In reply to a request for his views on school boycotts, the President said, "We believe in the right of petition as given under the constitution," but he said he believed the civil rights bill would be a long step toward solving problems that result in petitions.

CLOTURE VOTE

Asked if he thought it would be possible to get a cloture vote to cut off the expected Senate filibuster against the bill, Johnson said: "I haven't gone into that. I think that will have to be determined after the debate. I don't know whether it will be necessary or not."

In his prepared Senate speech today, Humphrey said bipartisan backers of the civil rights bill are anxious for "full and fair debate."

★ ★ ★

The Minnesotan, assistant Democratic leader and floor manager for the bill, said, "We are also willing to come to a decision on each title of the bill and on the bill itself.

ALLOW MAJORITY

"We are willing to let a majority of the Senate say 'yea' or 'nay' on voting rights, public accommodations, school desegregation, equal employment opportunity and the other provisions of this legislation," he said.

★ ★ ★

Then in a direct challenge to the bill's opponents, led by Sen. Richard B. Russell, D-Ga., Humphrey expressed hope that they "will be equally willing to permit the Senate to work its will, after an opportunity for a searching examination and analysis of each and every provision."

Russell, conceding that his relatively small group of Southerners had been bested in the preliminary skirmishes, has announced that they had just begun to fight.

School Board to Tell Fund Requirements

BIRMINGHAM — The board of education will tell district taxpayers tomorrow night how much money they will be asked to invest in their schools.

The board has called a special meeting to announce the amount of additional building and operating funds it will require during the next three to five years.

The figures are expected to be included in requests for a building bond issue and additional operational millage on the June 8 ballot.

Tomorrow night's board of education meeting will culminate several months of study by school administrators.

★ ★ ★

During the last month they have been presenting their proposals to a 30-member citizens advisory committee organized to give the board advice on the shape and scope of the proposed fund requests.

READIED AT MEETING

The package will be put together at the 8 p.m. meeting tomorrow.

School district property owners now are paying a total of 21.3 mills for operations, consisting of 8.4 mills allocated by the county and 12.9 mills extra voted.

They also are financing retirement of building bond issues to the tune of five mills.

Kenneth R. Cook, social studies teacher at Wylie E. Groves High School, has been awarded a John Hay summer fellowship.

Cook is one of 173 public senior high school teachers and 85 school administrators granted fellowships under the Ford Foundation program.

Winners will attend four summer institutes in the humanities July 2 to Aug. 1 at Bennington College, Colorado College, the University of Oregon and Williams College.

relief effort that ultimately could reach several hundred million dollars in federal funds.

The President already has declared the 49th state a major disaster area. McDermott said it was obvious the full disaster relief program permitted under present law would not be enough.

At best, he said, it would take two to four months to get Alaskan economy into any workable shape.

Alaska Senators Ernest Gruening and E. L. (Bob) Bartlett, also Washington-bound, indicated they would press for an immediate aid grant in Congress.

"Please make it simple, with no red tape," pleaded James W. Harrison, city manager of the shattered city of Seward.

"This town is not going to fold up, but we couldn't float a bond issue on peanut butter right now."

Typically, Seward, 60 miles south of Anchorage, had only two known dead, but its business was 95 per cent destroyed and few of its men still had jobs.

The Alaskan Railroad, vital route from Seward to the interior, was a jumble of wrecked cars and twisted rails. A mile-long waterfront area collapsed into the sea.

All along the ring of the Gulf of Alaska where the great quake struck in fury at 5:36 p.m. Friday it was a similar story of low casualties but mighty ruin.

BACK TO BUSINESS

Anchorage, center of the Alaskan recovery effort, went soberly about its business, flinching at successive after-shocks.

One shake, felt strongly in Anchorage Easter evening, was rated at 7.3 on the Richter scale of energy by the University of Washington at Seattle, 1,500 miles away.

University scientists said it was a separate quake, in the Aleutian trench 600 miles northwest of Friday's epicenter, but Anchorage felt it with jittery apprehension.

Probe Finds JFK Killer Acted Alone

WASHINGTON (AP) — With most of the information in, the commission investigating President John F. Kennedy's assassination has found no evidence the crime was anything but the irrational act of an individual.

This assessment came Sunday from sources close to the commission which has been studying the case behind closed doors.

★ ★ ★

Two of the seven doctors who treated Mr. Kennedy after he was shot were scheduled as witnesses today.

They are Dr. Charles J. Carrico, 28, the first physician to see the president after the shooting; and Dr. Malcolm O. Perry, 34.

RESIDENTS AT HOSPITAL

The doctors were residents at Parkland Hospital in Dallas, where the President was rushed after a sniper's bullets felled him during a motorcade last Nov. 22.

All of the doctors who worked desperately for half an hour on the President already had written statements for the Texas State Journal of Medicine.

★ ★ ★

The doctors are the 39th and 40th witnesses the commission has called for testimony since it was created by President Johnson almost four months ago.

Fault Slows Reader Down

BY THE READING LABORATORY, INC.
Written for Newspaper Enterprise Association

(EDITOR'S NOTE — Time your reading of this column and compare your speed with that indicated at the end. The expected speed assumes a daily 5 per cent improvement.)

★ ★ ★

Have you met the fellow who loathes social science because his text is too heavy? You eventually will. And the cute coed who just can't stand geometry because of the terrible color of the book's cover? She's around too.

Oh, you're not that way? You just love all kinds of books and reading and have no problems at all with them?

Well then, we haven't met you yet. In fact, we have never heard of you.

Assuming he has most of his marbles, just why should a high school or college student ever read 20 articles about reading in his native language? There's a very simple reason: to read faster and better.

It's the same reason that has brought a lot of professional people and business executives to The Reading Laboratory program — after they've become successful. You can get a jump on them.

★ ★ ★

But we'd better get straight on what's in this for you right now. Will you settle for understanding instead of aggravation in your assigned reading? Will you take speed instead of plodding misery?

TWICE AS FAST

Well, that's what's in this for you, and we'll do it this way. We'll take your reading in the subjects for which you can spare little affection. Follow along with us and you'll get through your work twice as fast and with far better understanding.

●

See that circle right above this line? Poke a hole through it. Ask one of your buddies or one of the family to read the next paragraph while you observe his eyes through the hole.

You have to look very closely. Here's what you see. The eyes stop . . . go . . . stop . . . go. They move across the lines in jerks (fixations is a nicer word). The eyes can work no other way, so we have no plans of changing that.

What we will do is cut to an absolute minimum the number of eye fixations required in reading. In that way we add speed.

READ PARAGRAPH

Now let your friend look at your eyes through the hole as you read the next paragraph. Tell him to count the number of fixations it takes you to read the next paragraph.

There will be 66 words, so if you require 66 fixations, you're a word - by - word reader. And that's not good.

★ ★ ★

It's a safe bet that you have many times found yourself staring at a word, line or paragraph, yet read nothing.

★ ★ ★

Your eyes are on page 14; your mind is off on Cloud 9 with a girl or a guy. Unless both the eyes and the mind work together there's no reading, no understanding. That's just something we have to live with — the eye-mind relationship.

FINAL POINT

The final point we have to agree on before we outline our program in the next article is that you must have clear purposes in reading. And the purposes must be yours, not your dad's, not your teacher's — yours.

Some people can be motivated by what's ahead for them 10 years from now and they'll get plenty from their reading. But that's not generally true: most people want to know what they will get for themselves here and now.

★ ★ ★

We'll show you how to read with just such purposes in mind and get more than you ever got from, say, world history. And you'll save plenty of time in the process.

(You should have completed this reading in 100 seconds.)

214 Contact Red Cross on Alaska Kin

Anxious to know if relatives in Alaska were safe after the earthquake, 214 Pontiac area residents contacted the local Red Cross office over the weekend for help in obtaining information.

Their phone calls concerned 189 families in the Alaskan disaster area and inquiries were immediately teletyped to Washington and Seattle, according to Donald M. Millar, executive director of the Oakland County chapter of Red Cross.

Thirty-nine regarding servicemen went to Washington and the rest to American Red Cross disaster headquarters in Seattle, Millar said.

No replies have yet been received, he said.

One family received a phone call directly from a relative, Millar said, but added that phone lines or other communications probably are not readily available in the disaster area.

NO CHANGE

There will be no change, however, in the present one-way westbound pattern on East Pike west of the perimeter road crossing.

This is because drain work will move to the point where the river flows under East Pike just east of Mill in the near future.

City officials feel less confusion would result if the present one-way movement is retained, since traffic movement in that area will have to be changed within a few weeks anyway.

BUDAPEST, Hungary (AP — Premier Khrushchev is due in Budapest tomorrow for talks with Hungarian leaders on the Soviet-Chinese split, the continued presence of Russian troops in Hungary and other key issues.

Sources in the Hungarian capital said Khrushchev and his hosts would give "considerable" time to the ideological feud that has divided the Communist world.

HOME FOR EASTER — Mr. and Mrs. Milo J. Cross of 1975 N. Hammond Lake, Bloomfield Township (left) are happy to have their son's family home for Easter. They are just leaving the Cross home for services at First Presbyterian Church. Mr. and Mrs. Thomas Cross of Southfield have two sons, baby Bobbie, held by his grandfather, and three-year-old Tommy.

...s Grace Wedding

MRS. DAVID L. HOCKEY

Barnett Chapel of the First Baptist Church was the setting for the Saturday nuptials of Vondah Sue Smith and U.S.N. Fireman Appren. David Lee Hockey.

For the informal ceremony performed by Rev. Robert Shelton, the bride chose a suit of pale orchid wool, with matching flower hat and short veil. She pinned a white cymbidium orchid to her shoulder.

Rebecca Durso attended the bride and Clarence Durnen was best man for his brother-in-law, son of the Charles H. Hockeys of Stirling Avenue.

* * *

Following a reception in the home of the bride's parents, Mr. and Mrs. Lyle J. Smith of East Madison Avenue, the newlyweds left for a brief northern honeymoon.

The bridegroom is currently stationed in Norfolk, Va.

A June wedding is planned by Linda Dawn Spring, daughter of the Carl J. Baileys of Hudson Avenue, and Gary Warren Parsons, son of Mr. and Mrs. Warren Parsons of Falcon Street.

Honor Three Students

Walter J. Teeuwissen, Alma senior, has been accepted into the Michigan Scholars in College Teaching program according to an announcement by the University of Michigan. He is the son of Rev. and Mrs. Walter J. Teeuwissen Jr. of Monroe Drive.

* * *

This program is designed to link the last two years of undergraduate work with the first year of graduate work at the U. of M. for students who plan careers in college teaching.

INDIANA

Don Carlson of Bloomfield Hills has been selected as a member of the student athletic board at Indiana University. The board promotes interest and participation in inter-collegiate athletic programs carried on by the university.

ITHACA COLLEGE

Vicki Burley of Clarkston has been elected a representative to the Ithaca College Student Council, the governing organization for the 1,900 students on the Ithaca N.Y. campus.

A freshman in the school of health and physical education, she is the daughter of the Gerald L. Burleys.

Be Frank; Tell Them 'No Guests'

By The Emily Post Institute

Q: A couple of days ago I received a letter from a relative living in a distant city saying that she and her husband were planning to visit the World's Fair.

I live not too far from the fairgrounds and she has hinted very broadly that they would like to stay at our house.

They know we have plenty of room. I have no help and having people stay here means so much extra work for me and, frankly, I am not up to it.

Furthermore, if I make an exception to them, I'm sure other out-of-town relatives and friends who will also be coming to the fair will expect me to put them up too.

How can I tactfully refuse these people?

* * *

A: The only thing you can do is to write very frankly to this relative and to any others who may ask to stay with you that you sincerely wish you could invite them to stay with you but you have not been too well of late and without a maid you simply are not up to having any house guests.

* * *

Q: Will you please tell me if it is proper to use a family crest on anything other than writing paper, and if so, where may it be used?

* * *

A: In addition to writing paper, a crest may be used on wedding invitations, silver, a man's seal ring, his cuff links and on the rear doors of the family's chauffeur-driven car.

How and when to introduce people seems to puzzle many. The Emily Post Institute booklet entitled, "Introductions," gives helpful information on this subject.

To obtain a copy, send 10 cents in coin and a self-addressed, stamped, envelope to Emily Post Institute, in care of The Pontiac Press.

Probe Thoughts of Philosopher

Jean - Jacques Rousseau's "On the Origin of Inequality" will be discussed at the 8 p.m. Friday meeting of the Great Books club in the CAI building.

Rousseau, an 18th century philosopher, promulgated ideas incorporated in the revolutionary cry: "Liberty, equality, and fraternity."

Bill Ott will be author's advocate in the forum conducted by Kay Rector and Mrs. Arnold Simson.

Eight Pairs Participate in New Play

Eight married couples are among those participating in the new production of The Birmingham Village Players, "Monique" will be presented at 9 p.m. April 3, 4, and 5.

* * *

Tickets for the play involving a psychological murder mystery can be purchased from Mrs. Robert Henry in Birmingham or at the box office the evenings of April 3 and 4. The Birmingham Women's Club has already purchased all the tickets to the April 5 production.

* * *

Francis Matousek, Mrs. John Street, Mrs. Matousek and Mrs. James Hodges are members of the cast which also includes Edna Crookston, William Kegel, Dane Winnie, Stewart N. Loud, Dwight Presser, and Mrs. Henry.

* * *

Mrs. James T. Slayden is directing the play with the assistance of Mrs. Henry. Earl Wilson has designed the scenery and Mrs. Loud is in charge of props. Costumes are being handled by Mrs. Michael Remondino.

Special Problem Runs Into Money

Freshen Up With Starch for Spring

Homes . . . like people . . . can look winter-weary, too. By this time, slipcovers, curtains and other household washables deserve a fresh, new look.

The best spring tonic for these is a session in the automatic washer, followed by starching, right in the washer itself.

* * *

Starching will revive fabrics, giving them a smooth, like-new feel and appearance.

According to home economists, automatic washer starching is the easiest, most economical way to starch a group of washables.

In addition, it permits the starch to penetrate the fabric uniformly.

BEST METHOD

To washer-starch these instructions are recommended and tested:

Run your laundry through the full wash, rinse and spin cycles.

No Idle Table Chatter

By POLLY CRAMER

DEAR POLLY — My grandchildren are ages 15, 12 and 10. Early each morning a topic is decided upon that will be the subject discussed at the dinner table that evening.

* * *

Everyone has all day to "bone up" on the subject. It provides interesting dinner conversation and the kids learn about current events in a painless way. — Mrs. P. L. G.

DEAR POLLY — Do not throw away old powder puffs. Open them up, take out the stuffing and insert a bar or scraps of soap.

* * *

Sew up the seam, use puff in the tub for hard to clean spots such as knees and elbows. —H.H.

DEAR POLLY — When wrapping a gift, I often do not have a gift card that matches the paper so I cut a piece of the gift wrapping paper to about 3 to 5 inches and fold it.

* * *

This serves as a tag and offers plenty of room inside for a written message.

Also, mothers of small children will find it more practical to wear "pop-it" beads since these will only come apart and not scatter all over the floor and then have to be restrung. Little ones always seem fascinated by beads. — Mrs. M. W.

DEAR POLLY — Recently it was necessary for me to spend several days in the hospital with a sick relative. I needed to make frequent calls home to check on things.

* * *

A friend brought me an envelope containing a large number of dimes. It was wonderful to always have the correct change to make those calls home.

If this wins a Polly Dollar I shall convert it into dimes to pass on to someone else for the same use.

— Salome

DEAR POLLY — My mother-in-law uses curtain rods for extra - long towel racks in the bathroom.

They can be covered with that colorful adhesive - backed paper to prevent rusting caused by wet washcloths. — Janet

Hardwick Winner of PBA Open

three out of four to pull away to a 213-196 win.

The defeat was a hard blow to the colorful, confident Bourdase. He has been in the televised finals the past three weekends, only to miss out each time in his bid for that elusive first PBA crown.

"I'll be on television next week," he vowed looking ahead to Denver, Colo., the 11th stop on the 13-city winter circuit.

NOTES

While admitting it may be a disadvantage to bowl only one game in the television finals, Bourdase noted it is comforting to know that you've won $2,000 which is what he collected for his one-game effort Saturday.

It is embarrassing to roll a gutter ball anytime, and countless fans saw Lening do just that on his second ball. The ball hit his ankle on the delivery.

Hardwick Friday had bowled a 290 game on the same lanes that were used for Saturday's finals.

SPORTS FANS!

I BET YOU DIDN'T KNOW

Of all the big league baseball players active today, see if you can guess which one has hit the most home runs . . . The correct answer is not Mickey Mantle or Willie Mays or Hank Aaron . . . The home run champ of baseball today is Eddie Mathews . . . He's hit more than anyone else playing today, 422 . . . Mantle comes next, by the way, with 419, then Mays with 406.

Western Michigan Ace Helps Win Over UCLA

EVANSVILLE, Ind. (AP) — Western Michigan's Manny Newsome was one of the big guns in a rally that pulled a collegiate Olympic tryout team ahead for keeps in a 76-59 victory over UCLA Saturday night.

Newsome and Xavier's Steve Thomas led the way as the all-stars began pulling ahead 54-52 with 9:46 to go. Newsome finished with 10 points, well below the 32 he had averaged all season.

Homer Beats Drysdale

Teen-Ager Big League Regular

COCOA, Fla. (AP) — What is it like for a 19-year-old kid whirling around the majors as a regular? Rusty Staub of the Houston Colts tells an interesting story of his experiences last season.

★ ★ ★

"The first time I would see some of those established stars I would say to myself 'gee whiz, what am I doing here?' After the game started it was like playing any game.

"I knew I was the underdog. If I didn't do real good nobody expected me to. I was a little disappointed I didn't hit better than .224.

NOT MINORS

"Hitting against fellows like Don Drysdale and Sandy Koufax awed me a little. But then I would dig in and bear down. I would tell myself this was not Class B, C or D but the majors. This is it and you sink or swim."

Incidentally, Staub hit a home run off Drysdale with one on to win a 2-1 game from the Los Angeles Dodgers—his first homer.

★ ★ ★

"You wonder can you do it?" he explained. "Are you a big leaguer? Sometimes you do as good as the others. Sometimes you do better. Sometimes you get into a slump like when I went 0 for 27 but still I came back pretty good.

★ ★ ★

"Everybody asks if being overpublicized hurt me. Not that much. It was a great year for me. The experience you can't buy. I was tickled to stay up here. Definitely, you learn more up here than you would in the minors. I made a lot of lousy, stupid plays but the mistakes stick with you. When you make a mistake up here, you remember it and don't do it again if you can help it."

CONSISTENT HITTER

Harry Craft, Houston manager, said Staub hit the ball more consistently than any player on the club. As Craft had Mickey Mantle at 17 and 18 in the minors he was asked to compare them.

"Mantle had more speed and more power, of course," he said. "This kid is a more consistent hitter and won't strike out so much. Of course, Mantle was a superior fielder, too. Rusty is just learning the trade at first base and in the outfield."

Outlook Bright for Fishermen

Lake Michigan Scene of Early Activity

ST. JOSEPH (UPI)—The fish are biting in Lake Michigan.

With they dying, Arctic gasps of winter echoing in the ears of most Michigan residents, commercial fisherman Lloyd Mollhagen Jr., of St. Joseph has good news for sportsmen.

"It looks like a good year for the pole and line fisherman," he said.

Mollhagen said perch fishing in Lake Michigan near St. Joseph is so good that it has attracted nine tugs from ports all over the Great Lakes. At this time last year, he said, there were only three tugs operating here and they belonged to local residents.

Along with the boats, he said, there are 48 to 50 fishermen in the area.

His father, Lloyd Mollhagen Sr., said it has been at least 35 years since he has seen so much fishing activity in the area.

The extra fishermen have come from Holland, Saugatuck, Fairport, Manistique, Oscoda and Racine, Wis.

Aussie Wins Good Neighbor Tennis Crown

MIAMI BEACH, Fla. (AP)—Roy Emerson of Australia exhibited a powerful service and accurate ground strokes in defeating Manuel Santana of Spain Sunday for the Good Neighbor Tennis Tournament title.

Emerson, who has not lost a singles match in the Good Neighbor since 1960, fought off a Santana rally in the first set, then assumed command for the match, 7-5, 6-4, 6-2.

Emerson and countryman Ken Fletcher won the doubles crown from Boro Javanovic and Nicola Pilic, Yugoslavia, 6-3, 6-8, 6-4.

Nancy Richey of Dallas, third-ranked U.S. woman player, defeated Stephanie de Fina of Hollywood for the women's crown, 6-4, 6-2.

Tardy Dodger Wants to Play

Frank Howard Eyes Regular Outfield Job

VERO BEACH, Fla. (AP)—After hitting 59 homers and driving in 183 runs in the last two seasons, Frank Howard thinks it is high time he became the regular right fielder for the world champion Los Angeles Dodgers.

★ ★ ★

"I'll never be content until I have a chance to play a full season—I want to see what I can do," the 6-foot-7-inch slugger said Sunday while trying to make up for missing the first four weeks of spring training.

Howard refuses to discuss the personal problems that caused him to announce three weeks ago that he was quitting baseball, but he is, however, willing to discuss his concern over not playing regularly.

ONLY NINE

"I've never criticized Walter Alston (the Dodger manager)," said Howard. "He has 25 players and he can only use nine of them at a time. He has a tough job, but I thought I proved I could do the job in 1962. I didn't play much more than half a season that year, but I hit 31 home runs, drove in 119 and averaged .296.

City Marine Beaten, Killed

No Motive Revealed by Okinawa Officials

A 19-year-old Marine from Pontiac was beaten to death early yesterday near his barracks at Camp Hansen in central Okinawa.

★ ★ ★

Pfc. George A. Kovacik was assaulted as he returned to barracks from the enlisted men's club at the camp.

Marine authorities said an investigation showed Kovacik's assailants killed him with their fists. He was dead on arrival at the camp dispensary.

Authorities declined to comment on whether suspects were being held. Nor was any motive revealed.

The victim was the son of Mrs. Elizabeth Kovacik, 43 City Line, and Vincent Kovacik, 43 Sanford.

ENLISTED IN 1962

Their son enlisted in the Marine Corps in May 1962 after attending St. Michael High School, Mrs. Kovacik said.

He was assigned to Okinawa last November.

His recent letters gave no indication of any trouble, and he was looking forward to a leave at home in November, his mother said.

She received a telegram at 1 a.m. yesterday from the Corps, informing her of her son's death.

ANOTHER SON

The Kovacik's have another son in the Marines, Corp. Vincent Kovacik Jr., stationed at El Toro, Cal.

Also surviving are another brother, David, 8, and a sister, Ruth, 22, both living with their mother.

The Soviet Union imported about $3 million worth of farm products from the United States in fiscal 1963.

Police Ask Help

Students Leave Daytona

CLACTON, England (UPI) — Teen-age violence flared again today in this British seaside resort whose jail cells were bursting with leather-jacketed youths arrested in a week-end rampage of wrecking, pillaging and fighting with police.

★ ★ ★

Fighting broke out today when about 20 or 30 teen-agers, both boys and girls, were refused service when they demanded breakfast at a seafront cafeteria. Police rushed to the palce and the gang dispersed. Two youths were arrested.

A taxi driver said the invasion by an estimated 1,000 youths, many of whom came from London on motor scooters, was "unbelievable." A hotel manager said it was "mob rule."

By last midnight police had aarrested 97 persons.

★ ★ ★

Several persons were reported injured in the near riots.

POLICE DOGS

With today a bank holiday extending the Easter weekend in England, police reinforcements were called in from nearby towns, and big German police dogs were put on beach patrol to guard against further violence.

The youths wrecked bars and dance halls, turned over cars, looted beach houses and shops, and fought with police and civilians.

The teen-agers began pouring into Clacton, whose motto is "light, health and happiness," Friday and Saturday. By yesterday morning beer and youthful zeal had turned the holiday into a shambles.

★ ★ ★

Taxi driver Hugh Howe said, "It was unbelievable. About 500 young thugs swaggered down the sea front, destroying everything in their path.

★ ★ ★

Cars were tipped over and chairs and litter baskets hurled on to the beaches. Anyone who got in their way was beaten up."

★ ★ ★

"It was murder out there," Howe said. "The police did their best, but they were outnumbered. The mobs just walked into shops — 15 or 20 of them at a time — and helped themselves to whatever they fancied."

Newspaper President Rescued

MIAMI, Fla. (AP) — James L. Knight, president of the Miami Herald, and four other persons were rescued Sunday when Knight's yacht, Jimiana, sank about 40 miles east of Miami off Cat Cay, the Coast Guard reported.

The 60-foot yacht sprung a leak and the Coast Guard sent a plane to the scene and dropped a pump, but the craft could not be saved.

Knight, a member of the Knight newspaper family, and friends had been fishing in the Bahamas during the past week and he landed a world record blue marlin in the 50-pound test line class. The fish weighed 585 pounds and was landed in only six minutes aboard the yacht Rerun, on which Knight and his party had been fishing.

The Coast Guard said that after the Jimiana began sinking, Knight and his party were taken aboard the Miami Marlin and that two or three other boats were in the area.

Knight, his wife, 13-year-old daughter and the two crew members were rescued. The Coast Guard gave no reason for the boat sinking.

Suffers Cuts in Car Crash

A Farmington Township man is in satisfactory condition at Pontiac General Hospital after his car went in a ditch in Commerce Township last night.

Thomas F. Isley, 28, of 33224 Oakland suffered facial lacerations in the 8:23 p.m. accident on Union Lake Road near Commerce Road.

Two Area Youths Beaten and Robbed

Two youths were beaten and robbed of a total of $105 early yesterday morning at the rear of the 88 Club, 88 Bagley.

The 19-year-olds, Theodore Owen, 5534 Donn's Drive, Waterford Township, and Thomas Clark, 101 Edge Lake, Union Lake, told Pontiac police they were threatened with a knife in the 12:15 a.m. assault.

Detroit Driver Dies in Novi Accident

A young Detroiter was killed early yesterday morning when his foreign sports car rolled over several times after going out of control on I-96 in Novi.

Michigan State Police at the Redford post said the westbound car driven by Kenneth Burkhardt II, 20, rolled about 140 feet after leaving the freeway at the Haggarty Road overpass.

Court Rules Act Applies to Attorneys

WASHINGTON (AP) — The Supreme Court ruled unanimously today that attorneys representing a foreign government in legal matters must register under the Foreign Agents Registration Act of 1938.

The tribunal, in an opinion by Justice Arthur J. Goldberg, ruled against Victor Rabinowitz and Leonard B. Boudin, New York attorneys, who were retained by the Republic of Cuba in 1960.

* * *

Atty. Gen. Robert F. Kennedy called in 1961 for their registration under the law which requires detailed information about a registrant's work.

Rabinowitz and Boudin, however, sued in U.S. Court of Appeals here, asking a declaration that they were not subject to registration. The lower court dismissed their complaint, holding it amounted to a suit against the United States to which the government had not given its consent. The attorneys then appealed to the Supreme Court.

* * *

Today's decision upheld the lower court's dismissal of the complaint, and further stated that the Foreign Agents Registration Act "plainly and unquestionably requires petitioners to register."

Market Nudges Upward

Coppers, Cigarettes Advance

NEW YORK (AP) — Coppers and cigarette issues advanced while steels and motors were mixed in a stock market which nudged to the upside on balance early today. Trading was moderately active.

* * *

Movements of most key stocks were fractional, some going to a point or so.

Coppers were bolstered by strength in the copper commodity futures market and reports that producer prices may be increased again.

CONTINUE RESPONSE

The cigarette stocks continued to respond to reports that cigarette sales, which plunged on the government smoking report, have been recovering.

* * *

Steels were spotty following strength last week. A published report noted the first sign of a leveling-off in steel demand.

On Thursday the Associated Press average of 60 stocks rose 1.0 to 301.7.

Prices were generally higher on the American Stock Exchange although many issues were unchanged.

Cypriots Fire at U.N. Soldier

Shots Exchanged at Suburb Truce Area

NICOSIA, Cyprus (AP) — A U.N. soldier came under fire and shot back during a clash between Greek and Turkish Cypriots this morning in a Nicosia suburb, a U.N. spokesman announced.

It was the first time a U.N. soldier has been involved in an incident since the peace force became operational Friday.

The United Nations declined to give details of the shooting except to say the soldier was British. A unit of the Sherwood Foresters was stationed in Omorphita suburb, where the shooting began in predawn darkness.

U.N. officials said the firing across the "green line" separating the rival communities lasted about 10 minutes.

Others said it lasted about 20 minutes, with rifle and machine gun fire heard throughout much of this capital city.

NOT CANADIANS

Canadian troops who moved into No Man's Land between the Greek and Turkish Cypriots Friday apparently were not involved in the new incident.

But U.N. soldiers are under orders not to talk with reporters and they referred all questions to the U.N. Information Office.

The Greek-controlled police claimed the flurries fired first, but the Turks said the opposite. The Greeks said the Turks opened up when they began moving into a vacant house on the green line.

Turkish sources laughed at this, saying "Why would the Turks want to fire at all to attract attention when they are sneaking into a house?"

NO BLAME FIXED

The United Nations did not fix the blame on either side, or say who fired at the U.N. soldier.

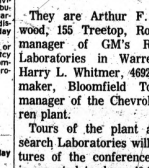
Its statement said U.N. officers visited the area and were able to bring about a ceasefire.

"On two occasions when fire was directed at a soldier of the force (peace force) the soldier opened fire in self defense. A total of 17 rounds was fired on these two occasions," the statement said.

No casualties were reported.

2 GM Execs Are Appointed to Committee

Two area General Motors executives have been named to the sponsoring committee of American Society of Tool and Manufacturing Engineers conference and exposition to be held April 20-24 at Detroit's Cobo Hall.



UNDERWOOD WHITMER

They are Arthur F. Underwood, 155 Treetop, Rochester, manager of GM's Research Laboratories in Warren, and Harry L. Whitmer, 4692 Coachmaker, Bloomfield Township, manager of the Chevrolet Warren plant.

Edward Drummond, 6457 Lotus, Waterford Township, told police Saturday that fishing equipment valued at $60 was stolen from his garage.

Wage, Price Policy Nears the Acid Test

MAKE-OVER PAGES

By SAM DAWSON
AP Business News Analyst

NEW YORK—Government-set guidelines for wages and prices are moving toward an acid test. Keeping labor and management within limits the government thinks best for the public interest looks more chancy with each stop toward auto contract negotiations and with business assaying the probability of, and the strength of, a predicted boom.

DAWSON

Most labor leaders and business executives have never really cottoned to the idea of government guidelines. The aim, as first set forth by President John F. Kennedy, was to prevent inflation by keeping wage rises and price boosts within the rate of the increase in productivity, so that all would come out about the same in the end. Productivity measures unit cost in terms of man-hours of labor.

* * *

When labor and management first were urged to keep wages and prices in line with the rise in productivity, the economy was lazing along. There was little chance of winning big wage increases because business profits were sluggish and unemployment was high and rising. Making sizable price boosts stick was almost impossible because of keen competition and excess productive capacity.

HIGHER WAGES

But this year labor sees a good chance of winning higher wages. Profits have been rising and the unions figure that management can afford to slip a bigger share to the workers.

Profits have been rising because production and sales have gone up with a revival of the once-sluggish business cycle's upward swing. Earnings also have been helped by cost-cutting devices and by the completion of new and more efficient plants or the modernization of old ones.

* * *

Labor and management feel that this trend will continue. The unions are calling for a larger share of the gains.

Management is looking on price policies differently, too. Much of the excess capacity has been put to work. New orders offer many factories the prospect of good business for some time to come. The federal income tax cut is supposed to provide great stimulus to consumer buying. If the economy booms, the old brakes on price increases will be released.

EXPANDED FACILITIES

Management also wants to expand its plants and activities and this costs a great deal more now than 10 or 15 years back. The money, officials say, will have to come from higher prices because the present profit margin—the relations of earnings to sales or assets—is too low to make new investments attractive.

The government's guidelines are that wages shouldn't rise more than 3.2 per cent because that is supposed to be the current annual rate for the rise in productivity. The administration wants price increases to be held down, too. It has even suggested that rising profit totals might justify some price cutting.

Many labor leaders, smelling a coming boom, want wage boosts now. And more business executives are saying that if costs go up, prices must, too. They hold this won't hurt the public because the whole economy will be climbing, with people having more money to pay higher prices.

Getting labor and management to accept guidelines for themselves will be tough this summer. The argument will be that government guidelines are not in the spirit of private enterprise. Only an unexpected downturn in the economy could put off the approaching test.

Businessmen Ask Curbs on Power of Labor Unions

WASHINGTON (AP)—A committee of businessmen called Sunday for strong curbs on the power of unions and a halt to "increasing government intervention in the settlement of labor disputes."

The research and policy committee of the Committee for Economic Development (CED) said its recommendations are "an attempt to reach a balance of power between unions and employers."

* * *

The No. 1 recommendation in the policy committee's statement was an endorsement of the principle of right-to-work legislation.

"Every worker should have the right to decide freely to belong or not to belong to a union," the statement said.

NOT SPECIFIC

William C. Stolk, chairman of the American Can Co. and head of the labor policy subcommittee which drew up the statement, said it was decided after "endless" discussions not specifically to recommend a federal right-to-work law.

Federal law now permits union shop contracts under which all employes of a firm must join the union, but allows the states to override this by banning the union shop. Twenty states have right-to-work laws.

* * *

The CED's research and policy committee includes the heads of many large corporations and is advised by a research board of 12 prominent educators.

Theodore O. Yntema, chairman of Ford Motor Co.'s finance committee and head of the CED's policy committee, said the group tried not to speak solely from a business viewpoint although "we may have our biases."

Probably the only one of the committee's 10 recommendations that will find wide endorsement by organized labor is one to eliminate racial discrimination by both unions and employers.

Other recommendations are to authorize federal courts to halt a strike that violates a labor agreement; preservation of "the right of employers, singly or collectively, to use the lockout in the bargaining process;" and state legislation "limiting the use of union resources for political purposes."

* * *

The committee urged also clarification of federal law banning secondary boycotts by unions; enforcement of laws against violence in labor disputes; and clarification of the federal requirement to bargain "in good faith."

NELLIS

Theodore R. Nellis, general supervisor of the accounts payable department, will retire tomorrow after 32 years with Pontiac Motor Division.

Nellis, who lives at 76 Chippewa, joined General Motors in 1930, and was general auditor and accounts payable supervisor for Chevrolet Motor Division in Indianapolis before coming to Pontiac.

Before taking his present post he was an accounts payable supervisor, and general supervisor of communications, telephone and accounts payable departments.

It Makes Sense

Language of Space

HOUSTON (UPI) — "PERT," "SCATS" and "MET" sound like the nicknames of a jazz combo, but they are parts of the alphabetized language of the space age.

* * *

So are LOR, NASA, EOR, REP, LEM and MODS.

The stylized jargon of spacemen has a world of phrases knocked down to initials that everyone connected with space exploration plans knows.

* * *

The words sprinkle reports and discussions and are sure to be a big part of conversation among the teams that will man the two-spaceman orbital flights of the coming sapce series.

THE DEFINITIONS

The phrases are:

PERT — Program Evaluation and Review Technique.

SCATS—Simulation, Check-out and Training Technique.

MET — Mission Elapse Time.

* * *

LOR — Lunar Orbit Rendezvous.

NASA — National Aeronautics and Space Administration.

EOR — Earth Orbit Rendezvous.

REP — Request for Proposal.

LEM — Lunar Excursion Module.

* * *

MODS — Manned Orbital Developmental Station.

DOD — Department of Defense.

Toss a few of these names into a conversation between astronauts, and you may get:

"NASA has asked for a REP on the LEM to fit in with the LOR plans that the DOD has its eye on."

Crash Kills Driver

PORTLAND (AP) — Darrel Greenhoe, 22, of Mulliken in Eaton County, was killed today when his car missed a curve and hit a tree on the Charlotte Highway three miles south of Portland.

After 6,000 Cracks

Winner With Hardest Egg

ELIZABETHTON, Tenn. (AP) — It took over six hours and more that 5,000 eggs, but Freeman Taylor emerged the winner yesterday in the annual Easter egg fight held in the Peters Hollow community near here.

The event, thought to be over 100 years old, is a contest to see whose brightly colored hard-boiled eggshells are the hardest.

★ ★ ★

One contestant approaches another, holds out his egg and says, "See if you can crack this one," and the battle is on — a contestant must crack the other's egg with his own.

Taylor came armed with 32 dozen eggs.

They Trusted Him; He Doesn't Drink

NASHVILLE, Tenn. (AP) — The defendant in city court denied a charge of possessing whisky for resale. He said he was holding the three half pints found on him for some friends.

"Do you drink?" asked Judge Andrew Doyle.

"No, sir," he replied. "That's why they had me holding the whisky."

Whale steaks and stew, rich in protein, are considered a delicacy by the Japanese.

Escapes Death in Fall

NIAGARA FALLS, Ont. (AP) — A 5-year-old boy, who fell part way down the sheer side of the Niagara River gorge and clung to a tree for an hour, today has only a chipped tooth, scratches and bruises to show for it.

Wayne Stadnyk climbed a retaining wall yesterday and plunged 150 feet down the gorge three miles downrivet from Niagara Falls.

He grabbed a tree growing out of the cliff and saved himself from another 100 feet to the bottom.

A police officer summoned by residents who had seen Wayne go over the wall heard his cries.

A volunteer rescue worker climbed up to the tree, clasped Wayne and fashioned a rope seat.

Others rescue workers, including the boy's father, hauled them to the top.

20,000 Ask Red Cross About Quake Victims

WASHINGTON (AP) — The American Red Cross says about 20,000 inquiries about the health and welfare of persons in the Alaskan earthquake zone had been received at national headquarters and at various Red Cross chapters.

★ ★ ★

The Red Cross said Sunday the inquiries have been sent to the Seattle office for handling, but that replies might be slow because of communications problems.
