1 Man Missing, 51 Are Injured as Floor Falls

Part of New York Hall Collapses as Workers Pour Concrete

NEW YORK (AP) — Fresh crews of rescue workers today relieved weary searchers who dug all night into tons of rubble for a cement worker missing in the collapse of the main exhibition floor of New York's Coliseum.

A force of 150 construction men, aided by at least 20 firemen and 33 police, took over the search and cleanup jobs.

Three nephews of the missing man watched intently as the rescuers cut through huge slabs of concrete and twisted steel in their search for Joseph Lombardi, 55. The relatives were Louis and John Lombardi and Louis Leone.

The floor gave way while concrete was being poured. The collapse injured 51 workers, 23 of whom were hospitalized.

More than 100 workers scrambled for their lives as concrete, steel and wood plunged 22 feet to the street-level floor of the project being built at Columbus Circle.

"Something started to give," said one worker. "Then there was a terrible noise. It was like an earthquake. I just went down."

Another worker said it was like a "terrific explosion—like a big boiler exploding."

"I ran and ran like a mad dog trying to get up those boards," said still another. "I thought I'd never get out."

The 35-million-dollar project, started a year ago, is half completed.

A 22-story office building being built as part of the project was unaffected by the cave-in of the 180-by-180 foot floor section.

Just what caused the collapse remained a mystery.

Preliminary investigation showed no break or weakening in the structural steel framework.

Builders employed on the project were "of the highest type in the construction business," Mayor Robert F. Wagner said.

The floor was supported by wooden and steel jacks. The jacks were spaced about every three feet.

AT NEW YORK COLISEUM — Police, firemen and construction workers hunt through wreckage that crashed 22 feet when center section of exhibit floor of New York Coliseum collapsed during construction yesterday. Of 1,000 at work on the building when the collapse occurred, one is missing and at least 51 injured. About 100 workers were in immediate danger when the accident happened.

Lower County Tax Rate Seen

New Figure Deceptive Since Oakland Budget Is Higher in '56

Announcement yesterday of a $222,300,000 boost in Oakland County's state equalized property valuation will probably mean a lower 1956 county tax rate.

This results from a State Supreme Court ruling last year that counties such as Oakland with fractional school districts overlapping county boundaries must assess local taxes on the state equalized value, said County Treasurer Charles A. Sparks.

The Oakland rate previously has been computed on the lower county equalization. Last year's county rate was $5.14 per $1,000 of property valuation. If this rate were continued on the higher state equalized figure this year, more money would come in than the $6,063,512 the county asks to run itself in 1956, said Sparks.

The lower rate will be deceptive, however, since the county budget is higher for 1956 than it was this year and property owners still will be required to supply more tax money than for 1955, the treasurer explained. Thus, actual cash payments generally will be slightly higher.

The new setup may make it possible to allow some hard-pressed county school districts a rate which will bring them more money than they would have received under the county equalized system, Sparks explained.

It will be up to the County Tax Allocation Board to set the tax rates. The board must await the county equalization committee's report before proceeding.

CIO-UAW Bolsters Stand, Asks GM, Ford Strike Vote

DETROIT (AP)—The CIO United Auto Workers sought today to bolster its hand in its bid for a guaranteed annual wage by setting up strike votes among some 465,000 Ford and General Motors employes.

Union President Walter P. Reuther said a solid vote for strike authorization "is the best insurance against a strike."

The strike votes were ordered, he said, because of a "lack of progress" in contract talks which began a month ago.

Negotiations are expected to become more intense when they resume tomorrow between the UAW and Ford. General Motors and the union resume next Monday after a week-long layoff. Reuther said he will rejoin the Ford talks and take a more active role in the sessions now that they are nearing the showdown stage.

The Ford-UAW contract, covering 140,000 workers, expires June 1. General Motors' pact with the union, covering 325,000 employes, runs until June 7 because of a union delay in filing contract termination notice. It had been scheduled to expire May 29.

The calls for strike votes went out from separate meetings yesterday of the UAW's national Ford and General Motors councils. These are made up of delegates from 119 General Motors plants and 83 Ford plants and parts depots. Each delegate represents about 1,000 workers on the average.

Local unions will conduct the strike votes. If a strike is authorized, a walkout could be called by the negotiating committees any time after the contracts expire.

A strike vote is not required by federal or state law, but is mandatory under the UAW constitution.

Accident Fatal to Pontiac Man

Nicholas Gotch Dies After Crash Sunday East of City

Nicholas E. Gotch, 36, of 38 Delaware Dr., died last night in St. Joseph Mercy Hospital of injuries suffered in a 2-car collision Sunday that injured six others, including two children.

Gotch's death brings the Oakland County auto accident toll to 11 for this year.

Gotch suffered a broken pelvis and head injuries when his car collided with one being driven by Mrs. Ann Burgess, 39, of Rochester, at Adams road and East South Boulevard, about three miles east of Pontiac.

Mrs. Burgess suffered only minor injuries but two of her children, William, 9, and Carol, 4, were hospitalized with a broken arm and leg respectively. Another child, Gail, was treated for shock and cuts.

Mrs. Pearl Anderson, 34, of the Square Lake Trailer Park, a passenger with Gotch, was hospitalized with broken ribs. Another passenger, Paul Badger, 40, 1018 Boston St., was treated for a cut hand.

Hospital authorities said Gotch died at about 9:30.

Lad, 5, Follows Bus for Home—Wrong Direction

Resourcefulness is not a virtue that needs cultivation in 5-year-old Wayne Walli, but his sense of direction could use an overhauling.

The son of Mr. and Mrs. Simon Walli of 3401 26 Mile Road missed the school bus when it left Woodward Elementary School in Rochester at 3:15 p.m. yesterday.

What could be simpler than following that big yellow school bus home?

This logical maneuver sent the youngster off in a southwestern direction, while his parents at home northeast of Rochester spent an anxious three hours.

The slippery bus gave him a wrong start. It headed west to circle the school and begin its delivery.

At 6:30 p.m. with Romeo State Police troopers and Rochester police searching the area, George Cage, 3840 Pontiac Rd., saw a small boy trudging along Pontiac Road.

Romeo Trooper Gordon Hurley and Zane Gray answered Cage's call, and returned the youngster home.

A classmate of Wayne's had missed the bus too. He just returned to the classroom and hollered for help!

Committee Kills 'Any Deer' Bill

LANSING (AP) — The House Conservation Committee today killed a bill extending the authority of the Conservation Commission to set special "any deer" seasons.

The committee's action apparently would end chances for House passage of the bill, already approved by the Senate.

The bill to extend the commission's discretionary power over the deer herd for another two years was a hotly-disputed issue among sportsmen and conservationists.

The legislature gave the commission discretionary power three years ago, but it expires this year.

Committee members defeated the bill by a 9-6 vote after a heated half hour discussion.

President Asks Soviet Premier to Big 4 Parley

Eden, Faure Also Invite Bulganin; Time, Place Not Disclosed

MOSCOW (AP) — President Eisenhower today invited Soviet Premier Bulganin to meet him, British Prime Minister Eden and French Premier Faure for an informal discussion of world problems. Similar invitations were delivered by France and Britain from their heads of government.

U. S. Charge d'Affaires Walter W. Walmsley delivered the invitation at the Soviet Foreign Ministry.

Walmsley declined to disclose contents of the note. The time and place suggested are not yet disclosed to Moscow.

When the invitation arrived, Premier Bulganin was en route to Warsaw by airplane with Foreign Minister V. M. Molotov.

They will attend the Warsaw conference, which is expected to set up an Eastern NATO of Russia and its East European Communist allies.

Consequently, there was no immediate Soviet reaction to the invitation, but it is believed that it will certainly be accepted.

Bulganin has expressed repeatedly his desire for talks with Eisenhower, Eden and Faure. He repeated this wish last night in a conversation with an Associated Press correspondent at a Moscow dinner party.

Just what happens from here on is the question. The Western bloc and Western European Union have been formed. As a counterweight Bulganin and Molotov are masterminding a parley beginning in Warsaw tomorrow to form an armed Eastern bloc under the command of a Russian marshal.

Meantime, Soviet officials are claiming parity and even superiority over the United States in hydrogen weapons.

However, even the Moscow censor will permit correspondents to say that the Russians are probably whistling in the dark on this question.

Grandpappy's Picture Goes Back on the Wall

OMAHA (AP)—Hang that old picture of Grandfather back on the wall?

Go ahead and you'll be in style, Frank Pechman, well-known Kaukauna, Wis., photographer, said here yesterday in a talk to a Nebraska photographers organization.

He said that about 1915 people began stuffing pictures of relatives into trunks. Now they're going back on the walls in a sudden switch that he said he can't explain.

"I guess the trunks got full," he said.

Double Check

U. S. Starts Vaccine Test in Detroit on Wednesday

WASHINGTON (INS)—The government announced today that its lot-by-lot tests of manufacturers' supplies of Salk polio vaccine will begin tomorrow in Detroit.

The Public Health Service said that a scientific team will leave Washington today for the Parke-Davis Company's laboratories in Detroit to begin the first phase of the government's "reappraisal."

The announcement came as U. S. Surgeon General Leonard A. Scheele reemphasized that the Salk vaccine "is very safe and can give immunity to our children." He called it a "wonderful vaccine."

Scheele, in an interview today, said that the double checks on the vaccine are being made to insure that the final product will be as perfect as possible.

The surgeon general said that lots of the vaccine from at least one company should be released for public use by the end of the week.

Parke-Davis was the first firm to begin producing the Salk vaccine. Government scientists will visit plants of the other producers in the order of their entrance into the production field.

In that order, the firms are: Eli Lilly, Indianapolis; Wyeth Laboratories, Marietta, Pa.; Pitman-More, Zionville, Ind., and Sharpe and Dohme, Philadelphia.

Health officials explained that time-consuming new tests of the vaccine probably will not be necessary. They declared that their "reappraisal" should cause little, if any, delay in future output.

This element of time is a vital

Burro Bessie Finally Headed for State Owner

PORT HURON (UP)—A Mexican burro which was stranded in Rochester, N.Y., last week when another burro ate its shipping tag will be delivered to 7-year-old Lynne Henderson of Sandusky tomorrow.

The burro, which Lynne will name "Bessie" after the wife of former President Harry Truman, was one of two shipped from Laredo, Tex., last week.

The animals arrived at Rochester last Wednesday and Bessie stayed right there because railroad employes discovered the other burro had chewed up its shipping tag.

A check with railroad officials at Laredo determined that Bessie had been bought by Eldon H. Henderson of Sandusky and was to be delivered to his daughter, Lynne.

Hearing Tonight on Turnpike Bill

Foes of 'Veto Power' Measure Will Speak Against Proposal

Opponents of a bill giving municipalities veto power over toll road routes within their boundaries will be allowed to speak at a public hearing scheduled tonight in Lansing by Chairman of the Senate Highways Committee Haskell Nichols (R-Jackson).

The measure, introduced by Rep. Lucille McCollough (D-Dearborn), was passed by the House and Nichols' committee is now considering whether to report it onto the Senate floor for debate.

Nichols said his committee has already heard arguments favoring the measure in a public hearing April 20 on a bill to abolish the Michigan Turnpike Authority completely, which the highway committee killed.

Passage of the McCollough bill would make construction of the proposed north-south toll road virtually impossible along the route as now planned.

LANSING (AP)—Atty. Gen. Thomas M. Kavanagh said today he would invite officials of major oil companies to his office this week to explain the recently announced increase in gasoline prices in Michigan.

12-16 Red Ships Launch Dogfight With 8 Sabres

Another Commie Plane Probably Destroyed in Yellow Sea Action

TOKYO (AP) — American Sabre Jets, jumped by Communist MIGs between North Korea and Red China, shot down two of the Russian-built jets and probably destroyed another this morning, the Air Force announced.

The dogfight started over international waters of the Yellow Sea, the Air Force said, when "eight Sabres were attacked by 12 to 16 Communist fighters." All the Sabres, on a patrol mission, returned later to their Korean bases.

The fight area was about 50 miles southwest of the mouth of the Yalu River, boundary between North Korea and Red China. Communist China has a large air base at Antung, and North Korea at Sinuiju, on opposite banks of the Yalu.

The Air Force gave no clue on the nationality of the MIGs, used by the air forces of North Korea, Communist China and Soviet Russia.

An Air Force announcement said the MIGs fired first. It said the Sabres, from the 35th Squadron of the 8th Fighter-Bomber Wing, returned the fire. Two Communist pilots bailed out and "the third plane was last seen diving straight down trailing smoke."

American pilots who scored were Capt. R. V. Fulton, Bernardsville, N. J.; Lt. B. C. Phythyon, Wadsworth, Ohio, and Lt. J. E. McInerney, Garden City, N. Y., the Air Force announced.

It was the third almost identical incident in the same general Yellow Sea area in 16 months.

On Jan. 22, 1954, American Sabres escorting an RB45 jet reconnaissance bomber shot down one MIG15 when a flight of Red planes attacked off the west coast of North Korea.

Feb. 5, Sabres escorting another RB45 jet shot down two more MIGs in a similar battle.

Pontiac Area UF Officers Named

Hartman Is Re-elected President, Gives Annual Report

Re-elected president of the Pontiac Area United Fund at yesterday's annual board meeting was William B. Hartman.

Robert M. Critchfield, General Motors vice president and general manager of Pontiac Motor Division, was named campaign chairman for the 1955 drive next fall. He also will be board vice president.

Alfred C. Girard was renamed secretary-treasurer.

Five members of the board were also re-elected for a three-year term. They are Leonard T. Lewis, Harold J. Muldowney, Marvin J. Olson, Goodloe H. Rogers and Girard.

The new UF Executive Committee will consist of Hartman, Critchfield, Lewis and Girard plus Harold A. Fitzgerald, Milo J. Cross and Fred V. Haggard.

Hartman, in his annual report, cited the growing success of the UF in the six years since its organization.

He said it has increased from a $257,000 goal for 45 agencies to one of $530,800 for greatly expanded community services making Pontiac compare favorably with other midwest cities of similar size.

The board discussed and adopted a new form of Community Chest budget agreement which will take immediate effect, relaxing somewhat former rigid budget controls.

"Its aim," Hartman explained, "is to place greater responsibility upon the voluntary boards of citizens operating the UF member agencies."

The president also highlighted work of the personnel and budget committees. Dwight S. Adams, UF executive director, reported on the year's administrative accomplishments.

Weather's Spring Nip-Ups to Continue This Week

Michigan's famous inconsistent weather will continue its spring nip-ups through the rest of this week, the weatherman predicted today.

After last week's blazing hot days, temperatures for the next few days are slated to average below normal for this time of year.

Immediate forecast is for mostly cloudy tonight with light rain or drizzle and a low of 44 to 48 degrees. Tomorrow it is to be cloudy and a little warmer, with the high near 65.

Mostly fair and somewhat cooler is the prediction for tomorrow night, with a possibility of scattered light frost accompanying a low of 38 to 42 degrees.

Yesterday's high was 42, low 32. A slight rainfall was recorded. At 8 a. m. today the mercury in downtown Pontiac stood at 46, rising to 51 at 2 p. m.

Bloc of 80 Solons to Decide Fate of Statehood Bill

WASHINGTON (AP)—The fate of a bill to confer statehood on Alaska and Hawaii apparently rested today with a bloc of 80 or so reportedly undecided House members.

With a final House vote expected by nightfall, statehood supporters said a poll showed 176 votes for the statehood bill and 172 against—with about 80-odd representatives still on the fence.

Before the showdown, both backers and opponents of statehood for the two territories hoped to win over the bulk of the undecided. The prospect was for a close final count.

Statehood supporters planned one major parliamentary move in an effort to enlist more votes and to make the bill acceptable to President Eisenhower.

They readied a motion to send the bill back to the House Insular Affairs Committee with instructions to return it immediately with these two changes:

1. A new provision to give the President authority to designate as a military reservation a vast sparsely populated area of northern and western Alaska.

2. A section to limit Hawaii to one representative, instead of two, in the House pending a reapportionment of House seats based on the 1960 census.

Eisenhower has urged statehood for Hawaii, but has made no such recommendation on behalf of Alaska.

However, he wrote Sen. Jackson (D-Wash) earlier this year saying he would give earnest consideration to legislation which embodied a proposal by Secretary of the Interior McKay to set aside 283,000 square miles — nearly half of Alaska's total land mass—as an area of exclusive federal jurisdiction.

The McKay plan would take in the Aleutian Islands. Jackson is chairman of a Senate Territories subcommittee which has held hearings on statehood.

The bill before the House would authorize the President to set aside not more than 40 per cent of northern Alaska for military purposes. This is a smaller area than that proposed by the interior secretary.

The suggestion that Hawaii be limited to one House member, at least until after the 1960 census, was aimed at picking up additional House votes. The House two years ago passed a Hawaii statehood bill after a similar amendment was adopted.

The House took up the Alaska-Hawaii statehood bill yesterday and by a 322-66 vote agreed to a procedure barring any amendments. Both sides claimed this procedural vote as a victory.

Kidnap, Rape Trial Starts

Four Men Are Charged With Attacking Young Pontiac Mother

The trial of four men, charged with kidnapping and raping a 21-year-old Pontiac mother March 6, began today before Oakland County Circuit Judge H. Russel Holland.

Accused are Oscar Chavers, 26, of Gary, Ind., his brother, Richard, 23, of 38 Lake St., Joe Williams Jr., 22, of 38 Lake and Winston Johnson, 25, of 312 Hughes St.

They are charged with forcing the mother of three into a car after dragging her from a mud-mired auto near South Blvd. while her escort was absent summoning a tow truck.

The women testified at a lower court examination that the four criminally assaulted her during a 1½-hour ride through Bloomfield Hills and Pontiac before they were cornered by Sylvan Lake and Bloomfield Hills police.

Court action this morning was confined to picking a jury Prosecutor Frederick C. Ziem and his chief assistant, George F. Taylor, were expected to begin presenting their case this afternoon.

The defense attorneys are Jack Krasman and William Brustar, of Detroit.

Two Hurt Slightly in Auto Accident

A 26-year-old Holly motorist and his 17-year-old passenger sustained only minor injuries last night when their car sideswiped another on M87 and careened 450 feet after ramming a utility pole and a mailbox.

The driver, William L. Baugham and his passenger, Daniel M. Thompson, 17, were treated for minor cuts and bruises at Pontiac General Hospital.

Oakland County Sheriff's deputies said Baugham's car sideswiped one being driven by Loren E. Richards, 19, of Holly.

Richards, who was not injured said Baugham sideswiped his westbound car as he passed. The car swerved across the roadway and careened along a ditch, recrossing the road at a curve.

5 Grandmothers Equal One Pampered Baby

CHICAGO (INS) — Nine-month-old Sharron Southwell of Chicago undoubtedly is one of the most pampered children in the nation. She has five grandmothers.

Sharron, daughter of Mr. and Mrs. E. B. Southwell had a maternal grandmother, great-grandmother and great-great grandmother. On her father's side she has a grandmother and great-grandmother.

Plan Group to Meet

The Oakland County Plan Commission will hold its regular monthly meeting tomorrow at 1:30 p.m. in the office building, 1 Lafayette St., at 1:30 p.m., according to J. Walter F. Swanson, chairman.

Inspect 1,126 Cars First Day of Week's Drive

A total of 1,126 cars underwent inspections yesterday during the first day of the city-wide vehicle maintenance program, sponsored by the Pontiac Chamber of Commerce Safety Committee, Auto Dealers Assn. and the Police Dept.

Assisted by civic organizations this year, the committee is attempting to inspect 20,000 cars within a week, as compared with 10,000 autos in past years when the program ran a month.

Five reserved lanes throughout the city are handling the inspections each day.

The Pontiac Optimist Club and the Pontiac Police Reserve Officers are conducting the inspections in the downtown lane next to the courthouse.

Clyle R. Haskill, committee chairman, reported that 918 "OK" stickers were issued to motorists with autos having safety features yesterday. Majority of defects were found mainly in rear and front lights and brakes, he said. The program will continue through Friday.

Pontiac Guardsmen Seek 50 Members

Spokesmen for the 107th Ordnance Company, Michigan National Guard, today announced a drive to recruit 50 new members before the unit leaves for summer training in August.

Capt. Carl G. Yarling, unit commander, said there are openings for veterans and men without previous service. Men with previous ratings can enlist at the rank held when discharged and in many cases higher.

Members of the local unit, which meets Tuesday evenings at the Armory at 57 E. Water St., learn such skills as automotive mechanics, welding, machine operation, body repair and many others. During encampment, learned skills are put to test at the camp near Grayling on Lake Margarethe.

Driver Gets Probation in Negligent Homicide

In Oakland County Circuit Court yesterday, William Cheeks, 20, of 20848 A Court, Ferndale, was placed on two-year probation and assessed $150 court costs by Judge H. Russel Holland.

Cheeks pleaded guilty April 27 to negligent homicide. He admitted driving a car which ran a stop sign at Eight Mile and Southfield Rds. last Feb. 21 causing an accident which resulted in the death of Mrs. Ella Rhodes, 62, wife of former Pontiac police chief, Charles F. Rhodes.

Bus Driver Saves Baby

NIAGARA FALLS, N. Y. (UP)—A woman passenger on the bus screamed suddenly that her baby was not breathing. Driver Albert P. Mezhir, 30, glanced at the baby, turned off his route and drove several blocks to fire headquarters. The 5-month-old boy was revived with oxygen. A hospital reported later that Addison Reeder, son of Mrs. Hilda Reeder, had suffered a convulsion but was all right now.

Senate Handed Postal Pay Bill

OK Expected After Big House Majority Passes 8.8 Per Cent Increase

WASHINGTON (UP)—The Senate is expected to give its approval tomorrow to an average 8.8 per cent pay increase for postal workers, voted yesterday by the House 328-66.

President Eisenhower has said he would view with grave concern any increase of more than 7.6 per cent. Some Republicans have said he would veto anything higher.

* * *

Democratic leaders said the Senate would take up the bill tomorrow. It would add 179 million dollars a year to the annual payroll for 500,000 post office employes.

Here is how Michigan congressmen voted yesterday:

Democrats for—Diggs, Dingell, Griffiths, Lesinski, Machrowicz, Rabaut.

Republicans for—Bennett, Johansen, Thompson.

Republicans against — Bentley, Cederberg, Ford, Hoffman, Meader, Wolcott.

Republican paired against—Dondero.

Absent or not voting—Hayworth, Democrat, and Knox, Republican.

3 Sons Die Violently, Detroiter Kills Self

DETROIT (UP) — The body of a 67-year-old retired machinist, whose three sons died violent deaths within the last 10 years, was found hanging from a rafter in his basement last night.

The body of Stephen Cecot was found by his son-in-law, Police Sgt. Paul Sollars, who said Cecot had been in ill health and despondent.

Lt. Walter Cecot, 22 was killed when his Air Force plane was shot down near Iwo Jima in July, 1945. PFC Robert Cecot, also 22 at the time, was killed in action in Korea in February, 1951. Alfred Cecot, 27, a civil engineer, drowned in Alaska last July while working on an army installation.

Survivors include Cecot's widow, Justine, and two daughters, one an Air Force civilian employe now in Tokyo.

Legislative Conference Slated at MSC May 12

EAST LANSING (UP) — Students and faculty members from 12 Michigan colleges will attend a bipartisan legislative conference at Michigan State College May 12.

Legislators will discuss such issues as fair employment practices (FEPC), educational legislation and politico-legislative relationships to encourage students to participate in political life.

Delegates are expected from the University of Detroit, University of Michigan, Calvin College, Hope College, Marygrove College, Central Michigan College, Western Michigan College, Wayne University, Ferris Institute, Alma College, Jackson Junior College and Michigan State.

Gets 2-Year Probation

After pleading guilty April 29 to bad check passing, William Maffett, 26, of 21391 Creston Lane, Farmington, yesterday was placed on two-year probation and assessed $150 court costs by Oakland County Circuit Judge H. Russel Holland. He admitted cashing a bogus $30 check in Ferndale last Dec. 24.

Drayton Man Jailed

Gordon Blanchard, 38, of 4760 Midland, Drayton Plains, yesterday was sentenced to six months in Oakland County Jail by Circuit Judge H. Russel Holland. Blanchard admitted to a drunk and disorderly third offense April 28.

Placed on Probation

Thomas Tripp, 18, of 8751 Bessemer, Detroit, yesterday was placed on two-year probation and assessed $100 court costs by Oakland County Circuit Judge H. Russel Holland.

Tripp admitted April 28 to entering a Ferndale market without permission last Jan. 11.

6 High School Boys Injured in Smashup

PORT HURON (UP) — Six high school boys were injured seriously in an auto accident last night.

Their car hit an abutment and caught fire on M19 about 18 miles west of Port Huron. All are students at Memphis, Mich., High.

Most seriously injured were Thomas Santos, 18, and Gerald Lindsay, 16. Their condition was listed as "only fair" at Port Huron Hospital today.

Four others, who suffered broken bones, were taken to the hospital at Yale. They are: Marvin Powers, 16; Bernard Martin, 17; James Moran, 15, and Glenn Nash, 16.

The boys were believed to have been on their way to join a hayride in Capac.

Vaccine Test Starts Wednesday in State

one, since the polio season is rapidly drawing closer throughout the nation.

Another aspect of the situation —the question of whether the federal government should take over distribution of the vaccine—was likely to come up at today's White House meeting between President Eisenhower and Republican congressional leaders.

But most eyes were focused on the more pressing problem of when the U.S. would okay continuation of the nation's mass inoculation programs with the Salk vaccine.

Scheele will make a full, public report on the vaccine situation before the House Banking Committee tomorrow morning. Welfare Secretary Oveta Culp Hobby has been asked to testify at the same time.

Meanwhile, the Senate Commerce Committee also decided to investigate what Chairman Warren G. Magnuson (D-Wash) called the "muddled" vaccine situation.

Gambling House Operator Fined

Twelve Others Nabbed in Raid Are Sentenced by Justice

After pleading guilty to operating an illegal gambling house, Robert Landon, 30, of 2965 Orchard Lake Ave., Keego Harbor, paid a $100 fine and $25 costs assessed Monday by Springfield Township Justice Emmett J. Leib.

Another man, Jack Bigelow, 52, of 48 Auburn Ave., nabbed with 11 others in a raid early Sunday morning by Oakland County Sheriff's officers and Pontiac Police, paid a similar fine for aiding and abetting a gambling place.

Nine men paid $25 fines and $25 costs for loitering while two others paid $15 fines and $10 costs.

The raiders, led by Sheriff Frank Irons, said they confiscated 26 decks of cards and a pair of dice in the basement of the Keego Harbor home. Gambling tables and other equipment were smashed, they said.

Joan Crawford Takes 4th Mate

Elopes to Las Vegas With Alfred N. Steele, Head of Pepsi-Cola

LAS VEGAS, Nev. (INS)—Ageless Joan Crawford, who once confessed that she had always hoped her married life would be "as beautiful as a movie script", but whose marriage to three actors ended in divorce, took a fourth husband today.

She eloped to Las Vegas, not with an actor, but with Alfred N. Steele, president of the Pepsi Cola Company, with whom she has been friends for three years.

The spur-of-the-moment elopement came as a complete surprise to her friends in Hollywood. As late as three days ago she had denied persistent rumors that she and Steele would wed.

The couple flew to Las Vegas from Hollywood in Steele's private plane. They arrived in the desert gambling spa shortly after midnight and were married at the Flamingo Hotel at 2 a.m. before Justice of the Peace John Mendoza.

Miss Crawford, who had been married to Douglas Fairbanks Jr., Franchot Tone and Philip Terry, wore a black and gold dinner dress and Steele was dressed in a blue business suit.

They said they decided over dinner in Hollywood to elope and left for Las Vegas as soon as Steele's private plane could be warmed up.

Present at the swank penthouse suite at the Flamingo for the wedding were Steele's assistant, Bert Knighton, who was best man, Mr. and Mrs. Andrew Fuller of Fort Worth, Tex., and Mr. and Mrs. Ben Goffstein of Las Vegas and Abe Schiller, Las Vegas publicist.

Joan, who has been a film star for 29 years, gave her age as 47. Steele gave his age as 52.

After the ceremony, the bride bubbled:

"I've never been so happy in all my life."

The couple presided at a champagne breakfast this morning and are expected to honeymoon for a time at Las Vegas.

One of the ironies of Joan's long career as a Hollywood glamour queen is that she has been unable to find happiness in her marriages.

Once, when asked why her marriages ended in failure, she answered with a typical burst of self-reproach:

"Obviously, it was my fault—all my fault."

She explained only by saying:

"Each time I expected the marriage would last forever, be as beautiful as a movie script about love. But life isn't like that."

In spite of her broken marriages, she has had a great deal of domestic life from her four adopted children, three girls and one boy.

Steele, who divorced his first wife, Lillian Nelson, in March, is the father of two children.

Joan's film career is possibly the most enduring in Hollywood for she was a star back in the 20s and remained at the top for a quarter of a century or more as other film personalities came and passed. In 1945 she won an Academy Award for the film "Mildred Pierce."

Fine Pastor for Halting Knife Fight With Auto

DETROIT (UP) — The Rev. Thomas Gardner, 48, was fined $175 for breaking up a fight between two knife-wielding men.

The pastor was fined for reckless driving yesterday after he admitted driving his auto into two men who were arguing with drawn knives on a street corner.

Pontiac Man Sentenced

Dunbar Gay Jr., 25, of 174 Lake St., yesterday was placed on one-year probation and assessed $150 court costs by Oakland County Circuit Judge H. Russel Holland. Gay admitted May 2 to carrying an illegal pistol in Pontiac April 1.

The Day in Birmingham

See Troy Zoning Move as Start of Controversy

BIRMINGHAM — A controversy over commercial zoning of property adjacent to the site for a new school in the Birmingham district appeared to be brewing today.

The Troy Township Board last night went along with recommendation of its zoning appeal board that property north of Derby between Adams and the Grand Trunk railroad be zoned commercial.

Owners of the site have plans for a shopping center.

City officials and Dr. Dwight Ireland of the Board of Education were not immediately available for comment.

Diem Forms New Cabinet

South Viet Nam Chief Says General Elections First Government Goal

SAIGON, South Viet Nam (UP) — Premier Ngo Dinh Diem tonight announced formation of a new government with the immediate goal of calling free South Viet Nam's first general elections.

Diem said in forming his new Cabinet, he had followed the wishes of two national congresses which met last week. But his announcement made no mention of the future of Chief of State Bao Dai.

Sponsor of one of the congresses, the National Revolutionary Committee, has been increasing pressure on the premier to depose the absentee Bao Dai. Diem reportedly wants to leave Bao Dai's fate to the National Assembly for which his government is pledged to arrange elections.

To his new 14-man cabinet the South Viet Nam, three from his Premier named seven men from native Central Viet Nam and four refugees from the Communist-held North. Four former ministers were included. Five political parties or groups were represented.

Southerners were given the largest representation to counter criticism that Diem in his previous government had favored his native Central Viet Nam or Northern members of his own Roman Catholic Church.

The major change was the replacement of Foreign Minister Tran Van Do by Vo Van Mau, an independent and president of the Vietnamese Court of Appeals. Sources close to Diem said he had ousted Do because the minister had not supported him fully in the recent political-military crisis which culminated in the unsuccessful rebellion of the Binh Xuyen private army.

Patrolman Tackles Fleeing Suspect

Two Pontiac patrolmen who said they saw Roy Ray Jr., 22, of 117 Center St., molesting a woman in front of 67 S. Saginaw St. last night, arrested the suspect after a brief chase.

Patrolman Albert W. Foster Jr. finally tackled Ray at Walter and Saginaw Sts. after the officers said the suspect attempted to flee when he saw the two policemen. The other officer was Billy F. Jones.

The woman was quoted by police as saying Ray had followed her a short distance and "then grabbed me when I tried to run away." The woman said she had never known Ray, who was to be further questioned by detectives today.

Chief, Policemen Attend Conference

Accompanied by Pontiac Police Chief Herbert W. Straley, 11 policemen are attending a conference on methods for combating bank robberies today, sponsored by the Detroit FBI office in the Veterans' Memorial Bldg.

Headed by Special Agent Fred H. McIntire, in charge of the FBI in Michigan, the law enforcement groups from throughout the state are attending the conference, designed to coordinate better police work in bank robbery attempts.

McIntire explained in a letter to Straley that the conference was decided upon after a marked increase in robberies, larcenies and thefts were reported in a 1954 annual report.

Votes to Extend Draft Two Years for Doctors

WASHINGTON (UP)—The House Armed Services Committee today voted 24-0 for a two-year extension of the controversial military draft for physicians and dentists.

The measure, which now goes to the House, continues until mid-1957 the present law which makes all physicians, dentists and veterinarians subject to military service until they are 51 years old.

UAW Asking Vote on GM, Ford Strikes

(Continued From Page One)

The union looks to such votes as a demonstration of solidarity behind union demands.

Union leaders said they will "do everything humanly possible" to avoid a strike. But they have rejected proposals made to date by GM and Ford. Reuther said these were "essentially non-economic."

While the union councils were meeting, the director of the Federal Mediation and Conciliation service made it plain that the government will not rush to intervene in the auto industry negotiations.

Joseph F. Finnegan told members of the Economic Club of Detroit that "government involvement in labor-management affairs should be held to the barest minimum."

Meeting Slated Thursday for Urban League Guild

Merrill Capers, Cleveland City Councilman and attorney, will speak Thursday at the Urban League Guild's annual dinner and meeting, 6:30 p.m., in the First Baptist Church, 300 Willits St., Birmingham.

Co-chairmen for the dinner are Mrs. Wilbur Johnstone and Mrs. Charles Williams. Vocal music will be provided by Phyllis Smith. Tickets for the dinner may be purchased at the Urban League office in the Riggs Building, Orchard Lake avenue.

Youth Is Sentenced

Jerry Belisle, 18, of 608 W. Eleven Mile Rd., yesterday was placed on three-year probation and assessed $200 court costs by Oakland County Circuit Judge H. Russel Holland. Belisle admitted April 28 breaking into a Berkley market Jan. 2.

Bulganin Goes to Warsaw for Birth of Red Alliance

MOSCOW (UP) — Premier Nikolai Bulganin led a Soviet delegation to Warsaw today for the birth of the Communist version of NATO. The Moscow radio announced the delegation's arrival by plane in the Polish capital.

Foreign Minister V. M. Molotov and Defense Minister Georgi Zhukov accompanied the Premier for the Soviet bloc security conference, which opens tomorrow. The delegation also included a number of top officials from various Soviet republics.

The conference was called to pool the armed forces of the Soviet Union and its seven East European allies under a joint command.

The eight nations had pledged in Moscow last Dec. 2 to take that action if West Germany were rearmed.

The Paris treaties, granting sovereignty to the Bonn Republic and enrolling it in the North Atlantic Alliance, went into effect last week. When that was assured, the Communists on May 3 announced their plans for the meeting in the Polish capital.

The Soviets will be joined in the unified Eastern command by East Germany, Czechoslovakia, Poland, Hungary, Romania, Bulgaria, and Albania. Red China will be represented at Warsaw by an observer.

The meeting also is expected to make provision for an East German army.

Two in Probe Commit Suicide

New Jersey Officials Quizzed on Gambling Are Found Dead

ELIZABETH, N.J. (AP) — Two Elizabeth officials, who testified before a Union County grand jury probing alleged laxity in connection with gambling, committed suicide yesterday.

A bullet in the head ended the life of 65-year-old Police Capt. August F. Winkelmann, who had been on terminal leave and was due to retire next month.

Fire Commissioner Francis De Stephan, 39, waded fully clothed into Raritan Bay and was drowned.

* * *

Both deaths were listed officially as suicides. Both men were found in Monmouth County, about 25 miles apart. De Stephan's body was removed from marshland in Matawan Township. Winklemann was still alive when found near the Manasquan River inlet. He died later in Point Pleasant hospital.

Neither man left suicide notes, police said.

* * *

Union County Prosecutor H. Russel Morss Jr. told newsmen he "couldn't say whether there was any connection" between the deaths of Winklemann and De Stephan. Morss also declined comment on whether either man had been scheduled to appear again before the grand jury.

Winklemann had refused to honor his first grand jury subpoena, but finally testified April 26. De Stephan had been called before the panel March 2 but didn't testify until 19 days later.

The fire commissioner's brother Dr. Joseph L. DeStephan, a dentist, said Francis had been worried about his appearance before the grand jury and also was concerned over debts.

The grand jury probe began 11 weeks ago, and indictments have been returned against three persons.

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

"FULTON'S FOLLY"

The First Steamboat Voyage

At first, people called Robert Fulton's steamboat invention "Fulton's Folly." They just didn't believe it would work. But the crowds watched in amazement on Aug. 17, 1807, when the Clermont chugged up the Hudson River from New York to Albany. It took 32 hours, at about five miles an hour.

The Clermont was not the first steamboat ever made. John Fitch built one in 1787. But it made the first successful voyage, an event which revolutionized travel.

Fulton was born in 1765 on a farm near Lancaster, Pa. He was often punished by his teacher for daydreaming, but he really was working on original ideas for inventions. As a boy, he invented household utensils for his mother, a lead pencil and skyrockets.

A British prisoner taught him to draw, and when Robert was only 17 he painted portraits. But he soon gave up this career to spend all his time inventing. An important invention—which no one was interested in at the time—was a workable submarine with torpedoes. He died in 1815.

Fulton's motto was: "If you see a need, find out how to supply it." Color the drawing of the Clermont so you will remember this important event.

Tomorrow: The Miracle of Kitty Hawk.

Dog Works Electric Eye

CLEVELAND (AP) — A dog of no discernable breed discovered that an electric eye which opens a grocery store door worked for canines as well as people, and made periodic visits on which she looted the baked goods counter. Clerk Larry Hirsch finally solved the problem by adopting the dog, naming her "Lucky" and feeding her well at home.

Plan A-Blast Under Pacific

U. S. Scientists Seek New Defense Against Sub Attack

WASHINGTON (AP)—Seeking new tactics for defense against submarine attack, U.S. military scientists will set off in the Pacific within a few days the second known underwater atomic blast.

A terse announcement yesterday said only that a "small yield nuclear device" will be exploded in a few days in the eastern Pacific "several hundred miles" from the closest land area off the West Coast.

* * *

The explosion location will be "completely clear of fishing grounds and shipping lanes," said the announcement from the Atomic Energy Commission and the Defense Department. It added there will be no hazard to persons on the mainland or any islands in the eastern Pacific.

The test will be conducted by Task Force 7, a special organization including representatives of the various armed forces and headed by Rear Adm. C. B. Momsen, a specialist on submarine warfare.

* * *

Nearly nine years ago an atomic bomb of about the same destructive power as that used against Hiroshima and Nagasaki was exploded underwater in the first series of postwar nuclear tests at Bikini in the west central Pacific. The explosion of that bomb, suspended from a floating platform, sank nine ships, including three submerged submarines within half a mile of the detonation point.

The emphasis then was on finding out what an underwater explosion would do to ships anchored in comparatively shallow water.

* * *

Now the Navy, conscious of Russia's growing submarine fleet, seeks to apply the techniques of atomic destruction to combatting a submarine threat in another war.

83 Friends, Four Cats to Split Teacher's Estate

DETROIT (AP) — Miss Dora H. Pitts, a retired school teacher who died at 83, split her estate among her friends and four cats.

Her will filed for probate yesterday left $100 to each of her cats.

The rest of the estate, valued at nearly $20,000, was divided among 83 friends. She had no close kin.

Report Dirt Eating Practiced in Texas

CHICAGO (AP)—Texans eat dirt? Yes! Drs. R. S. Clayton and Paul H. Goodman, Dallas radiologists, say dirt-eating apparently is a fairly widespread practice in some areas of north and east Texas. The habit, called geophagia, can be detected by x-ray, they say.

They report their discovery in the medical magazine, Radiology. They are associated with the Southern Medical School of the University of Texas and say they have interviewed many patients who eat dirt or have eaten it at some times during their lives.

Earth's total land surface is estimated as 36,480 million acres.

Blondes Need Brunette Personality

By PHYLLIS BATTELLE

NEW YORK (INS)—Ever since Anita Loos indicated, in a kidding sort of way, that "Gentlemen Prefer Blondes," peroxide stocks have gone up steadily Truth to tell, there are probably more dark roots than grass roots in America by now.

This is not only a shoddy state of affairs for natural born blondes, but it is also a serious predicament for pale-heads to the bleach bred. There are simply too many blondes around. And too many blondes spoil the stew a man might ordinarily be in these lovely, lovey spring nights.

After all, even diamonds lose their efficiacy in a diamond mine.

"But, Cherie, you are crazee," chirped Mlle. Fernanda Montel, an unnatural platinum blonde, as she draped herself and one of her mink coats over an office chair. "Blondes are here to stay. Zey will continue preferred. Zey must, however, have one important asset beside zeir pale hair . . ."

Mlle. Motel winked, a sizzling French type wink.

"Zey must be blonde on top of ze head—but brunette inside ze head!"

In other words, said this shrewd chanteuse from Paris, the way to attract attention is to have the pastel appearance of a blonde, coupled with the vivid personality of a brunette.

"I have found zis ze ideal pattern for success," she proceeded, "probably because it takes men by shock. Zey see you are blonde and think, ah, here is a sweet little thing—I will stamp all over her.

"Zen suddenly you hit zem in ze face with your hot, sparkling brunette personality and ztttts (French for wham)—zey are gone."

So then?

"Voila. You are adored for looking pale and willowy, and feared and respected for acting gay and exciting. You are a lady who attracts men with big ideas and big titles and big money. You are a lady who gets her own way!"

Mlle. Montel, a 34-year-old singer who left an apartment and a garageful of sports cars to do a little U. S. nightclub chanteusing, differentiates this way between blonde and brunette personalities.

Blondes, she says, are cool, clinging and "pastel."

Brunettes, on the other hand, "have got peps and ambition."

It is too bad, she went on, eyeing me with sympathy, that natural blondes can never achieve her heights of success. We of the pastel libido are too pliable for our own good, she said. Our birthrights are the sweet pea, instead of the orchid; and the sweet man, instead of the big-spender.

Brunettes who do not bleach are in just as bad a spot, according to this reasoning. Their plight is to be dynamic, forceful, ambitious and forever frustrated — because men cannot see beyond the color of a coif.

To prove that she knows whereof she is speaking on this topic, Mlle. Montel pointed out that since she became a combination blonde-brunette six years ago she has acquired four mink coats, one panther coat and some real nice cruising cars.

"You," she challenged, "how many minks have you got?"

Following a brief skirmish, during which the personality point was well made, Mlle. Montel departed on the road to success. Like I said, there're too many (by one, anyway) blondes in this world for comfort.

New Debt Free City Hall Result of Wise Planning

Pontiac this week is taking a long step forward municipally speaking.

On Monday with all departments safely moved from the old building, our municipal government took over its new home, the beautifully designed and equipped $1,200,000 City Hall. For the first time tonight our seven member City Commission will hold a regular meeting in the impressive commission chamber.

WILLMAN

Considerable work remains to be done on the grounds of the three story stone structure at Parke, Pike and Hill Streets. But already it is possible to visualize how imposing the building will be when landscaping is completed.

The hill top site affords an excellent setting for the new City Hall which dominates the near East Side skyline. There, thanks to the vision of former City Manager Bean, City Manager Willman and succeeding city commissions, a dream of civic progress has materialized.

★ ★ ★

That dream was more than of a modern city hall that would serve the needs of this growing automotive center. It was of such a building paid for before occupancy with funds set aside over the years for that purpose.

That is the kind of new city hall we have. The credit belongs to those men who had the foresight and capacity for good management to give the city this debt free municipal edifice.

Shrewd Japanese Expect Little Trade From China

Economically depressed Japan naturally looks longingly toward Red China in the hope of finding new trade opportunities there.

Like the United Kingdom, Japan has to export its finished goods to live. Despite its huge population two facts prevent Red China from being a rich market for Japan.

★ ★ ★

One of these is the Chinese people's lack of buying power. The other is the unlikelihood that Red China's government willingly will do anything to help a former enemy.

At the moment Red China's economy is closely geared to that of Soviet Russia. Another important and obstinate fact is that China still couldn't get along without the support that is coming from Moscow. It wouldn't be reasonable to expect that this situation will be changed by the Mao Tze-tung regime to accommodate Japan.

★ ★ ★

Before the war Japan's trade with China amounted to only a fraction of her dealings with the United States. It is not so surprising, therefore, that the current discussions have revealed nothing promising Japan a trade bonanza in China.

Safety Tests for Cars

For the first time since the annual safety tests were inaugurated four years ago, it is hoped to check 20,000 cars here this week.

This is the goal announced by the Safety Committee of Pontiac's Chamber of Commerce. As in former years the chamber is co-sponsoring the tests with the Police Department and local automobile dealers.

★ ★ ★

Heretofore the aim has been the free testing of 10,000 cars. The number was doubled this year in the hope of doubling the value of the tests' contribution to highway safety.

To facilitate the week long campaign, more special lanes have been set aside than in former years. These are located on Johnson Ave. near Elizabeth Lake Road, Hillside Drive at Lincoln Junior High and East Boulevard near Whittemore. Others are Pike at the City's Parking lot and on West Huron at the Court House.

★ ★ ★

We urge all motorists of the area to co-operate in this life-saving, accident preventing program. Drivers whose cars are in perfect operating condition are less likely to figure in accidents.

Do your part and make sure your brakes, lights, windshield wipers, etc., are functioning properly by stopping at one of these free checkup lanes.

National Hospital Week

National Hospital Week, May 8 to 14, offers a fine opportunity to recall the great progress these institutions have made in the last 50 years.

Back in 1873 the Nation could boast only 178 hospitals with a total capacity of 34,000 beds. Now the country is fortunate in having 7,000 hospitals with a total of 1,500,000 beds.

★ ★ ★

Much more impressive than these growth figures is the progress made in the treatment and care of patients. Thanks to medical advances and better equipment the average patient's hospital stay has been reduced from 14 days in 1935 to 9 days now.

Since the turn of the century each stride forward in technological procedures and medical science has increased the people's demand for hospital care. As a result these once feared institutions have come to be relied on increasingly as community health centers.

★ ★ ★

Mayor Donaldson's proclamation and observance of the week at Pontiac General and St. Joseph Mercy Hospitals are timely salutes to hospital staffs.

Society indeed owes a debt of gratitude to the nurses, orderlies, technicians and other workers who have done so much to raise the standards of hospital care.

The Man About Town

Our County Yields Material for Turtle Steaks and Soup

Cold shoulder: What every man should give his wife—buy her a strapless gown.

Turtles again are being taken from Oakland County lake regions, put in barrels, and shipped to Detroit and Chicago for steaks and soup. They are caught in traps, but some of the big ones are getting away from the trappers, as reported by

Mrs. Alvin Caverly

of Drayton Plains, who recently picked up a 12-pounder on a farm near Davisburg, where her parents,

Mr. and Mrs. W. H. Sommers,

live. She says, "It was a vicious snapper." The snapping kind are the most edible. Other reports of turtles almost as large have been received.

From the Pontiac area comes

Duane (Duke) Maas,

Detroit Tiger rookie hurler, who hails from Utica. Immediately after he won his first game, his engagement to

Nancy Seeman

was announced. She was the 1953 Romeo peach queen, also from Utica.

This is poison ivy time, and our readers are urged to abide by

"Leaves three, leave it be."

Just to show what can be done in the Pontiac area,

Joseph Ehrmann

of Auburn Heights raises tulips that have twin blossoms on each stalk.

Next week, May 15 to 21, has been designated as

"Michigan Week,"

when we are urged to do a little extra boosting for our state. Let's also make it

"Oakland County Week,"

and put in some heavy plugging for our home area.

A Star to Steer By

Hal Boyle Says:

AF Publicity Man Bosses Air War With Typewriter

NEW YORK (AP)—I supposed that now, 10 years after the war, it is fair to start passing out memoir medals.

Lt. Col. Jay Vessels of the U.S. Air Force is my first candidate.

Jay never piloted a plane. But a dozen years or so ago he ruled the skies over Tunisia with his typewriter just as the British navy shortly before had bossed the Mediterranean with a couple of cruisers, a few destroyers and an agile battery of mimeograph machines.

* * *

Ordinarily a newspaperman goes into the public relations business for financial reasons, such as the desire to earn enough money to send his sons through college.

Jay was an exception. He left his secure newspaper post in Minneapolis to join the Army because he was a rip-roaring patriot.

He had been an enlisted infantryman in the first world war, and somewhat to his own confusion they made him an officer in the second world war. He rose from lieutenant to lieutenant colonel but never lost his fear of sergeants.

I don't know what gave him that sense of rank claustrophobia, but a guy with three stripes always frightened him more than a guy with three stars.

* * *

He was a guerrilla operator and he operated a guerrilla press camp. As a public relations officer, he ran certainly the most unorthodox press camp of the war.

Jay lost his heart at the start to the P40 pilots, guys who fought the better equipped German fliers to a draw with a slower, low-altitude but heavier armored plane.

His heroes at that time were Col. Phil Cochran and Capt. Levi Chase of New York. Both were men of high courage, both were great leaders. Capt. Chase was also a great teacher. It was his stern duty to teach his high-spirited pilots that in terms of speed and climb they were one plane behind the Germans, but by using the P40 within its limits they could compete with the enemy.

* * *

Capt. Chase proved his leadership himself. He became the leading ace of the North African theater by shooting down 10 Germans. A quiet man, he never jumped, he stayed low, kept turning into the German, and when the German finally made a mistake he used his firepower to knock him from the sky. But always in retreat.

* * *

Jay Vessels became the unofficial biographer of the P40 boys. When they had a good day he bragged, when one of them died he cried. He knew every single one of them.

He dragooned Ernie Pyle and every other correspondent into meeting his boys, writing about his boys and sometimes flying with his boys.

* * *

Everything he did was unorthodox. To keep his gypsy press camp rolling from Tunisia through Sicily, Italy and France he lied, sweated, bragged and stole supplies. But although this skinny, black-eyed little former doughboy was frightened by any sergeant he woud go in and bawl out any general to get what he felt was needed to do his job.

* * *

And the man knew what his job was. It was to tell the combat story of the close-up combat airmen. If they ever give a medal for morale in the Air Force, the first one should go to Lt. Col. Jay Vessels.

The last I heard from Jay he was down in Texas running a place called "No Horse Ranch." But I'm sure that whenever a plane throbs overhead he looks up and remembers the days in Tunisia when stubborn courage shored up a falling sky.

Portraits

By JAMES J. METCALFE

When I was just a little child . . . I thought the world was mine . . . That everything was beautiful . . . And everyone benign . . . That life on earth was wonderful . . . With everybody good . . . And peace and joy a natural part . . . Of every neighborhood . . . And then I learned there was sin . . . And people who did wrong . . . And never any life on earth . . . Could be a perfect song . . . And so I found eventually . . . That I was human too . . . And I must face temptation's war . . . As others have to do . . . It was a disappointment but . . . I am much older now . . . And by the grace of God I still . . . May keep my every vow.

Smiles

His Wish

A boy was sent by his parents to a big public school.

He had been strictly enjoined to write home regularly and tell them all about himself and his new life.

"There are 370 boys here," he wrote. "I wish there were 369."

Troubles

"You're looking terrible. What's the trouble?"

"Domestic."

"But you always said your wife was a pearl."

"She is. It's the mother-of-pearl that's the trouble."

He'll Wait

A man stepped up to a front door, knocked, and the door was opened by a beautiful blonde.

"May I speak to your husband for a moment?" asked the caller.

"I'm sorry," she said, "but my husband is away on business. He won't be back for a few days."

The man took another look at the blonde, "That's all right," he murmured, "I'll wait!"

Voice of the People

Club Woman Requests Organizations to Donate Money for Pontiac Foundation

Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.

I'd like to call the attention of women who belong to clubs, sororities and other associations to the fact that Pontiac Foundation is attempting to build a civic center. They need our help.

Won't you vote a sum from your treasury, or put on a special project, such as a candy sale or rummage sale?

Our sorority sponsored a dance in March and cleared $85 which we donated. The address is Pontiac Foundation, 153 W. Lawrence St.

When the civic center is finished, wouldn't you like to know you helped?

Harry F. Crain Answers Sundquist's Letter on Tax

In answer to Carl T. Sundquist's letter of April 30. He doesn't think $378 is high taxes for a home with no city utilities. I failed to see how much your taxes are or that you are willing to pay $378 per year.

If you were assessed anywhere near that amount, we would all see a number of letters from Mr. Sundquist.

My wife said nothing in regard to paying our city upkeep, policemen or firemen. I am the first to agree as to their pay. We only want our experience to be a lesson to others. We didn't realize such taxes existed and have found no one in the city of Pontiac paying such an exhorbitant tax, have you? Or in Waterford or Bloomfield, for a house of comparable size and valuation. They are paying only about one-third of what they are assessing my home.

What's the difference in 10 mills or 50 mills if the city raises the assessed valuation to offset the mill?

Why don't you ask every home owner if they are willing to pay such a tax.

'Theater, Comic Critics Should Attend Church'

Some teenage girl wrote that she thinks people should go to church. I certainly agree and especially those who want capital punishment for criminals or perhaps write critical letters blaming the theater, comic book publishers, etc., for crimes.

I wish they could see all those bed-ridden patients in hospitals (children especially) who enjoy looking at comics. I understand Mayor Jeffries was in the hospital and he readily told the nurses what his favorite comics were.

Some people may not care to go inside a church, but they at least chauffeur others there and are doing a good deed that way.

Perhaps there are many who don't have to go to church to be good or do good, but it is sure a good place to think, say or read a silent prayer. When there is a service, you can listen to a good sermon, organ music, perhaps a choir, and the voice of God.

It seems to me anyone who would condemn a theater or its people would be insulting some great musical artists.

THOUGHTS FOR TODAY

How beautiful are thy feet with shoes, O prince's daughter! the joints of thy thighs are like jewels, the work of the hands of a cunning workman.—Song of Solomon 7:1.

Let the church come to God in the strength of a perfect weakness, in the power of a felt helplessness and a childlike confidence, and then, either she has no strength, and has no right to be, or she has a strength that is infinite.—Hopkins.

David Lawrence Says:

Whom Would Soviet Send to Top Level Conference?

PARIS — They keep talking here about a four-power conference "at the summit." But, it may be asked, "Where is the summit, or who is the summit in Soviet Russia?"

For the conversation at the sessions of the foreign ministers is aimed at satisfying the British and French desires to have some kind of conference with the Communists. While nobody knows exactly what can be accomplished, if anything, the pressure from public opinion seems to be that some sort of talk should be held.

The latest suggestion being bandied about is that it isn't necessary to have an agenda or program or list of items to discuss, and it isn't necessary to make binding decisions, either. All this is being offered as a means of making it easier for President Eisenhower to say "yes."

Among the American officials here there is a disposition to ask questions such as, "Who is the summit in Soviet Russia." All the information available from Moscow is that nobody has really taken Stalin's place and that a sort of committee government exists in the Kremlin. It is uncertain, therefore, what good there is in talking to someone who cannot commit anyone else to the agreements he might make or the viewpoints he might express.

President Eisenhower referred in a recent press conference to the doubt that exists in the American government concerning the status of the men high up in the Soviet regime.

It is not certain, for instance, that Bulganin or Khrushchev represent the "summit." The truth is that there never has been any election in which the free choice of the people of Soviet Russia could be made known, hence, three democratic governments duly elected in Britain, France and the United States are asked to send their chief executives to negotiate with an unknown quantity.

It is unfortunate that so many people have overlooked this basic weakness and are crying out for a conference with the Soviets "at the summit" without realizing that merely to wish for peace does not bring peace and that a four-power conference is not a magic device that can bring understanding where there has been none before. The opportunities both "at the summit" and at levels very near the summit have been numerous ever since 1945.

The pressure which is nevertheless being exerted on every side to persuade American officials to urge President Eisenhower to agree to come to a four-power conference is indescribable. It seems to be mounting constantly, and, of course, it is exactly what the Communists want and need.

The best information available here is that the Soviet regime desires something to bolster its prestige internally, and to remove the worries that are growing up inside Soviet Russia about tension in the atomic world.

At the same time, the Soviet officials are known not to be in any mood to make important concessions. They have been accumulating trump cards such as their ten-year refusal to sign a peace treaty with Austria and the imprisonment of Americans and the nationals of other countries held for many years, plus the resort to such unlawful measures as the blockade by excessive taxation of trucks going from West Germany to Berlin.

The Soviet strategists are hammering away through their stooges in foreign countries with a propaganda that holds out to Germans the hope of reunification if they will abandon the North Atlantic Treaty Organization and agree to a neutral status as between the East and the West.

Inside Germany there is some sympathy with the idea, and two former Nazis high up in the diplomatic service of the West German government are busily engaged in strategems looking toward an eventual detachment of Germany from the West.

The maneuvers behind the scenes do not augur well for a four-power conference that can mean anything but a defeat for the West. The Russians are behaving like Hitler did. They think they have the democracies on the run, and they are pressing the advantage as they see defeatism developing under the guise of a so-called "peace" conference.

Case Records of a Psychologist

Many Worthwhile Projects Can Occupy Wife With Too Much Time on Her Hands

Edith has a problem common to millions of housewives, so scrapbook this case record. Discuss it in your church women's society. For the talents of you housewives, if harnessed properly, could zoom civilization so fast it would surprise everybody. Invest your spare time as shown below.

By DR. GEORGE W. CRANE

Case O-326: Edith M., aged 29, is the attractive wife of a funeral director in a small town.

"Dr. Crane, I act as general secretary for my husband, answering the telephone and performing all such minor duties," she began, with a smile.

"But I still don't have enough to keep me busy, so could you please suggest some constructive things for a wife to do.

"Why, in a couple of hours my household duties are finished for the day. Since I must stay close to the phone, I can't be out very long at a time.

"And I get so frustrated just feeling that I am not accomplishing enough with my life. So what else can I do to be an asset to my community?"

Edith deserves praise for her wholesome desire to do good. She is typical of most wives, for women are the chief custodians of culture and morality, music and altrustic socities.

A talented woman like Edith should develop several helpful hobbies. For example, she could assist the clergyman of her church by making telephone calls to all absentee members each week.

In small towns, the householder is not limited to a certain number of telephone calls each month, for telephone service is unlimited, so Edith could easily contact 30 to 50 families every week at no extra cost and tactfully prod them into getting to church next Sunday.

Included in her telephoning hobby could be calls to chronic invalids in the town. Many folks will visit the sick at the outset of an illness but after the first week or two, they quit calling. So chronic invalids get very lonely.

Another good investment for Edith's spare time would be to serve as local correspondent for the daily or weekly newspaper of her choice.

This would return her a little cash, too, and could easily be combined with her telephone calls for the church.

Dr. Karl T. Waugh, one of the foremost American psychologists once launched a project with one of his classes in psychology.

"The League of the Golden Pen" was its title. Each student was to write at least one cheery, complimentary letter per week to somebody who had performed a generous act or unselfish deed or who needed cheering.

This letter could go to a total stranger or to one's mother or other relatives and friends.

"The words from your pen will then be golden in their wholesome effect," Dr. Waugh explained to his college students. And that's why he called the organization "The League of the Golden Pen."

Well, that is also an ideal project for Edith and for all you housewives who have a little spare time.

It is a dandy project, too, for Scouts, Sunday school classes, etc.

It is really a first cousin to my "Compliment Club" in which I ask you to pay a sincere compliment to three deserving people every day and keep up the process for at least 30 days without a break.

Edith could thus sponsor both the Compliment Club as well as Dr. Waugh's League of the Golden Pen.

She could also act as editor of a 4-page monthly church mimeographed magazine and thereby further stimulate interest in church attendance.

Moreover, she could also become a prize contest fan and enter many of the current contests that are both zestful for your mind and often lucrative moneywise.

Send for my booklet "How to Write Salable Copy," enclosing a stamped return envelope, plus a dime. It will offer more advice about writing and prize contesting.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and a dime to cover typing and printing costs when you send for one of his psychological charts.

Health Adviser Grateful for Writers' Blessings

By DR. WILLIAM BRADY, M.D.

Seems as though there are a million letters waiting here for me to answer. Sometimes I feel guilty sneaking off to the bowling green while the pile grows higher and higher. But I tell you quite seriously, folks, that without three afternoons a week in Elysium—nine hours off, that is—I'd be so crabbed and cantankerous that . . . I know of no other preventative so good for high blood pressure, peptic ulcer, angina pectoris, coronary thrombosis, apoplexy et cetera, unless it be three or four miles of oxygen on the hoof six days a week.

And You, Too, Ma'am.

After a sore throat my brother's ear started running in November. He was under the doctor's care, using ear drops and penicillin. Nothing did any good until he started using the ear drops you suggest. His ear stopped running about two weeks ago. We shall be eternally grateful to you. God bless you.

(Miss....., Montreal)

Whether the ear drops I suggest had anything to do with the young man's recovery is doubtful. In the first place, the drops I suggest are for chronic running ear—that is, only when the trouble has been present months or years.

More likely the ear trouble in this instance responded to the doctor's treatment—or perhaps the trouble ran its course and recovery occurred naturally as though there had been no treatment at all.

Be that as it may, I'm grateful to the Montreal correspondent for her report and I pray God will bless her, too. Not one in a thousand who write to me merely report that my suggestion proved helpful or didn't prove helpful. Not one in a hundred who says God bless you fails to add a rider asking for further advice. This is the purpose of Personal Health Service, of course. But I mention the Montreal exception here to show why I am grateful.

On written request accompanied with a stamped, self-addressed envelope I'll send a pamphlet or leaflet which tells how to prepare and use the drops I suggest for chronic running ear. Written and signed, of course. I'm not stuffy about this—handling letters from many states, provinces and countries, it is difficult to avoid errors if requests bear no name and address.

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady if a stamped, self-addressed envelope is sent to the Pontiac Press, Pontiac, Mich.

New England Leads Opposition to Tariff Cutting

(Editor's Note: Many of America's smaller industries already are hard-pressed by competition from cheaper, foreign-produced goods. Here's how they view the new bill, passed by the Senate, permitting gradual reduction in tariffs, and what the government plans to do to protect them from undue hardships, second of five stories.)

By STERLING F. GREEN

PROVIDENCE, R. I. (AP)—Ask a New Englander about the state of the world or the weather or the best route to Bar Harbor, and he's apt to brush you off with two or three words.

But ask him about reducing tariffs, he may sound off with 2,000 or 3,000 words, not all of them temperately chosen.

Traditionally the seat of "protectionist" sympathy, New England has been even more vocal in recent months in its opposition to talk of reducing tariffs. This is understandable. New England has the continuing problem of "sick" industries, many of which blame their troubles on low-wage foreign competition in varying degrees.

Thus, the tariff cutting bill which passed the Senate last week, ran into considerable Yankee opposition. Of the 155 witnesses who battled the bill when it was before the House Ways and Means Committee, the majority were from the Northeast and New England.

This is not to say that all industries, or even a majority, in New England oppose tariff cuts. In fact, a poll of 800 businessmen taken by the New England Council last year showed 63 per cent favoring such cuts. But the remaining opposition is strong and loud.

The textile industry aches in several limbs, notably woolens, carpets, lace, twine and cordage. By now the names of Lawrence, Fall River and Lowell are familiar symptoms for unemployment hardship and mill shutdowns. The CIO Textile Workers Union estimates that 300,000 are jobless in Massachusetts, Rhode Island and other textile areas.

Most of these troubles can not be directly laid to foreign competition but more often are blamed on the industry's march South, the drop in military demand, antiquated plants, new synthetic fibers.

But both management and labor feel the industry is too shaky to withstand assault from the growing industries of Japan, India and Britain—the three nations which now surpass us as textile exporters—and of other nations coming up fast.

* * *

On the other hand, government figures showed overall textile production last month was 7 per cent above a year ago. Wool was still sadly off pace but cotton in February was up 5 per cent from a year ago and synthetics were up 38 per cent. Senate testimony showed that cotton imports added up to only one-half of 1 per cent of U.S. production.

The carpet industry is troubled by other problems — inefficient plants, high costs, invasion of its markets by other floor-coverings.

Imports were only about 6 per cent of U. S. production last year but domestic earnings averaged below 2 per cent. "They've taken the profit edge," said one manufacturer.

* * *

There's a special irony in the American lace-making industry which, centered largely around Rhode Island, employs about 10,000 and does about 50 million dollars a year. The industry was born here as the result of a tariff barrier being removed.

The machines are made only in England. There were just a handful in this country until 1909. Then, we desperately needed mosquito netting to fight malaria; we temporarily repealed the 45 per cent tariff on lace machines. Thus, the craft became a domestic industry.

Lace-making demands highly skilled operators called "twist-hands." In this country they average $3 an hour. Abroad, they earn 40 to 60 cents an hour. French, German, Swiss, British and other European lace now is reaching the U. S. in volume approaching a million dollars a month.

The jewelry business has some striking examples of foreign under-selling. For example, in 1950 a Providence plant spent $17,000 on tooling and hired 75 people to turn out a small cigaret lighter, retailing at $2. Nine months later an exact Japanese copy arrived selling for 79 cents. In another three months the U.S. plant closed down.

The foreign trade bill which passed the Senate last week has been described by President Eisenhower as a key measure in the effort to bolster the free world against communism by stimulating world commerce.

The bill extends the reciprocal trade agreements law three years and gives the President new power to cut tariffs 15 per cent in three successive stages. He may use this authority to win trade concessions from other nations.

Release Cabbie in Serge Case

Man Held as Witness Is Freed; Faces Charge of Possessing Weapons

NEW YORK (AP)—Herman Scholz, 50-year-old chauffeur, has been freed as a material witness in the unsolved murder of financier Serge Rubinstein.

But he was called into court today to face a charge of illegal possession of weapons.

Scholz had been held since Feb. 15 in lieu of $25,000 bail The release order was signed by General Sessions Judge Jonah Goldstein.

Bail was cancelled with the understanding that Scholz could be called at any time for questioning in the Jan. 27 Rubinstein murder.

Scholz then was taken to a cell in Queens for arraignment there. Police said they found an arsenal, including a machine gun, in his home at Whitestone, Queens.

At one time, authorities described Scholz as a "very important witness" in the murder of the multimillionaire playboy and World War II draft dodger who was strangled in a bedroom of his 5th Avenue mansion.

Police said Scholz told them that he and another man had planned several years ago to kidnap Rubinstein for ransom, but that the plot never developed into action.

Dorothy Dandridge Drops $375 at Cannes' Casino

CANNES, France (AP) — Actress Dorothy Dandridge visited Cannes' famous casino last night — her first in town—and lost 300,000 francs ($357) in half an hour at the roulette wheel.

After her run of bad luck, the American film and night club star returned to her hotel and passed up a reception given by British film producer Alexander Korda.

Miss Dandridge is here for the showing tomorrow night of the all-Negro American movie "Carmen Jones," in which she stars.

Khrushchev Dodges Questions on Rank

MOSCOW (AP)—Soviet Communist party chief Nikita Khrushchev last night ducked a direct question whether he is the real power behind the scenes in Russia. The query didn't raise his blood pressure either.

"Let's have a drink and ask me another time," he said with a smile to an Associated Press correspondent who posed the question during a Czech Embassy party. Khrushchev is generally regarded in the West as the top man in Soviet Russia.

Also at the party was Premier Nikolai Bulganin, who succeeded ex-Premier Georgi Malenkov last February on Khrushchev's nomination.

More Fine-Car Features than any other car priced so low!

FINE-CAR POWER!

Pontiac's husky 200-horsepower Strato-Streak V-8 with four-barrel carburetor, optional at low extra cost, delivers more power than any car within hundreds of dollars of its price. And road records are proving that all this extra power is teamed with the greatest economy in Pontiac history. There is no more modern, more advanced power plant in the industry.

FINE-CAR STYLE!

No car at any price is so beautifully distinctive. Pontiac's future-fashioned Twin-Streak styling and Vogue Two-Toning set it apart from all other cars—point the way to tomorrow's trend with the freshest fashion on the road.

FINE-CAR SIZE!

Pontiac is a big car *where it counts*—with a long, road-hugging 122" or 124" wheelbase. On any road, at any speed, you enjoy the extra feeling of safety and security that can come only with genuine fine-car size and heft.

FINE-CAR COMFORT!

Pontiac's extra size means big-car comfort—room to stretch out and relax. Wide-stance rear springs and Shock-Proof chassis float you along in luxury style. And interior appointments and convenience are straight from the fine-car book.

IF you were to guess Pontiac's price on the basis of its style, performance and size, you'd surely guess hundreds of dollars higher than its actual cost. Pontiac measures up with the finest on every count.

It's a simple matter of fact that *you can buy a big, powerful Pontiac for less than many models of the lowest-priced cars and much less than stripped economy models of higher-priced makes!* That's why buyers from both ends of the price scale are switching to Pontiac in record-breaking numbers—why so many former high-price buyers are learning that to pay more than Pontiac's modest price is sheer extravagance—why former lowest-priced buyers are now enjoying big-car pride and pleasure.

All this is very easy to prove with a close inspection of Pontiac's luxury and quality and a few miles commanding its mighty 200-horsepower Strato-Streak V-8. Come in soon for the clinching facts and figures. You'll make the very pleasant discovery that if you can afford any new car, you can afford a Pontiac—and *step directly into the fine-car class!*

Can you see, steer, stop safely? Check your car—check accidents.

Travel Abroad Will Hit New Peak

By SAM DAWSON

NEW YORK (AP)—more than half a million Americans will swarm over Europe this year in search of culture or fun.

Other thousands will go to Latin America and the Far East.

It looks like the biggest travel year ever.

Heavy bookings are reported by the transatlantic steamship lines. Every airline flying the Atlantic predicts this year's travel totals will top last year by at least 10 per cent. Many lines are adding new equipment for the peak summer season.

American spending for transportation, travel and various services will be 200 million dollars dollars higher this year, the Nati nal Foreign Trade Council predicts, bringing the total spending by Americans traveling outside the United States to nearly three billion dollars.

The American Express Co. expects a record-breaking year on the basis of a survey of 25 principal tourist centers in Europe. The cities were expecting from 3 to 33 per cent more American visitors than last year.

Hotel reservations for April and May were up 10 to 25 per cent in 15 cities, and all reported summer bookings running 10 to 30 per cent ahead of a year ago.

The American Automobile Assn. predicts 80,000 American vacationists will drive through a part of Europe this summer.

* * *

There will be 65 surface ships in regular Atlantic service at the peak of the tourist season, and shipping companies say they may call upon some "austerity vessels" to handle the overflow of tourists. For the entire year the shipping companies expect to carry one million passengers—not all tourists, of course—across the Atlantic in one direction or the other.

Twenty airlines fly the Atlantic regularly. Last year they caried 486,000 across the Atlantic to and from the United States, twothirds of them tourist class.

* * *

This summer Pan American will increase its flight frequency by 38 per cent through new equipment. Its average weekly seating capacity will be 2,650 at the peak, compared with 1,100 last month.

Trans World Airlines now has 78 weekly flights across the Atlantic and says it will increase that to 92 flights this summer, with a seating capacity of 2,500 each way.

Suggests More Foreign Trade

Seaway Backer Urges Lake Towns to Try to Attract Exporters

PORT HURON, Mich. (AP)—Industrial development, primarily by firms interested in foreign trade, will hold the key to greater prosperity for southeastern Michigan when the St. Lawrence Seaway is completed, one of the seaway's leading backers said last night.

Great Lakes traffic will pass through three phases as construction of the seaway progresses and port cities should prepare for them accordingly, said Dr. N. R. Danielian, president of the Great Lakes-St. Lawrence Assn. He addressed a dinner given by the Port Huron-Marysville Industrial Development Corp. launching a campaign to collect $150,000 for attracting new industry to the area.

During the first phases, between now and 1954, Dr. Danielian said, Michigan port cities should develop new water traffic, convincing operators of smaller ships which already ply the Great Lakes to make stops at their ports.

Meanwhile, he said, new cargo and dock facilities should be built so that when the seaway is opened to larger ships, probably by 1962, cities will be prepared to handle them.

"You can get that sort of thing if you can build the wealth producing capacity of this area," Dr. Danielian said, "and the best way to do that," he added, "is through industrial development."

If port cities keep pace with these first two phases, they will be ready for the third phase when the Welland Canal is opened, permitting large ocean-going vessels to travel the Great Lakes, Dr. Danielian said.

All three phases call for the area's "devoted enterprise and labor," he said. He urged that business and industrial leaders try to attract industries which are interested in foreign trade.

Baby, Pups Thrive on Same Formula

WOOD RIVER, Ill. (AP) — A 3-month-old baby and six cocker spaniel pups, all bottle-fed, are thriving on the same milk formula.

The arrangement started two weeks ago when the dog that gave birth to the pups a week before was killed by a car.

Mr. and Mrs. Alfred Calvin decided if their son John was doing all right on the milk formula the pups would too. Now Mrs. Calvin makes an extra batch of formula each day. The pups are fed every four hours, just like John.

The pups have put on a total of nine pounds while the baby gained two.

Political Sword Again Wielded by Sir Winston

LONDON (AP) — Sir Winston Churchill returned to the political wars today with the assured backing of the Conservative party organization in nearby Woodford. He has represented the district in Parliament for 30 years.

Local party officials last night once more endorsed the 80-year-old former Prime Minister as their candidate for the House of Commons in the general election May 26.

* * *

Churchill stomped up to the platform to tell his supporters that "immense harm would be done to the interests of everybody on this island if, by our carelessness, we allowed the Socialists to be returned. That would be a disaster far above the level of party struggle."

It was the first public speech Churchill has made since he resigned the prime ministership early last month.

Oil Worker Quizzed in Murder of Wife

FORT MORGAN, Colo. (AP)—A 6-foot, 200-pound oil worker was questioned today about the brutal slaying of his 16-year-old wife, found dead beside a country road southeast of here.

The victim was Mabel L. Wilson. Deputy Coroner Bert Freziers said her face had been mutilated by a .22 rifle shot fired at close range. It first was believed she had been beaten to death.

Her body was found last night by two schoolchildren. A few hours later her 34-year-old husband John Wilson was arrested at Joes, Colo., about 75 miles southeast of here.

He was held without charge.

Will 1955 Be the Year That Changes the World?

A strange man in Los Angeles, known as "The Voice of Two Worlds," is offering, free of charge to the public, an astounding 64 page booklet analyzing famous world prophecies covering these times. It shows that four of the greatest prophecies could not come true until the present time. But now they can, and the years that change the world are at hand. Great dangers but still greater opportunities, confront forward looking people in 1955.

"The Voice of Two Worlds," a well known explorer and geographer, tells of a remarkable system that often leads to almost unbelievable improvement in power of mind, achievement of brilliant business and professional success and new happiness. Others tell of increased bodily strength, magnetic personality, courage and poise.

These strange methods were found in far-off and mysterious Tibet, often called the land of miracles by the few travelers permitted to visit it. He discloses how he learned rare wisdom and long hidden practices, closely guarded for three thousand years by the sages, which enabled many to perform amazing feats. He maintains that these immense powers are latent in all of us, and that methods for using them are now simplified so that they can be used by almost any person with ordinary intelligence.

The 64 page booklet he is now offering free to the public gives guidance for those who wish to prepare themselves for the momentous days ahead. It gives details of what to expect, and when. Its title is "Beware of These Days!"

The book formerly sold for a dollar, but as long as the supply lasts, it is offered free to readers of this notice. This liberal offer is made because he expects that many readers will later become interested in the entire system of mind power he learned in the Far East and which is now ready to be disclosed to the western world.

For your free copy of the astonishing prophecies covering these momentous times, as revealed in this 64-page book, address the Institute of Mentalphysics, 213 South Hobart Blvd., Dept. R-137, Los Angeles, 4, Calif. Send no money. Just your name and address on a postcard or in an envelope will do. No obligation. Readers are urged to write promptly, as only a limited number of the free books have been printed.

Russians Stall Austrian Treaty

Demand That Promised Economic Concessions Be Omitted

VIENNA, Austria (AP)—The West went ahead today with plans for signing the Austrian independence treaty this weekend despite a new monkey wrench from the Soviets.

In the continuing talks here on the treaty draft, Russian Ambassador I. I. Ilyichev demanded yesterday that economic concessions Moscow promised last month to the Austrians be left out of the pact.

Instead, Ilyichev insisted that the original draft treaty's provisions for reparations to Russia remain as written in 1949. He said the reductions Soviet Foreign Minister V. M. Molotov had agreed to in March should be covered in a separate pact to be signed later only by the Russians and the Austrians.

Discussion of the issue was to be renewed today by Ilyichev and the British, French and U.S. ambassadors to Austria, who have been working out a final treaty draft since May 2. The envoys have agreed on most other questions.

In Moscow, Austrian Ambassador Norbert Bischoff said Molotov had told him at a reception last night he is ready to sign the treaty in Vienna next Sunday.

Reports from Paris said U. S. Secretary of State Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay planned to fly to Vienna Thursday after conclusion of the NATO Council meeting.

Police Combing Island for 'Crazy Occupant'

FERNDALE, Md. (AP)—Police of Anne Arundel County on Chesapeake Bay have given up looking for a "crazy occupant" on St. Helena Island.

They combed the small island over the weekend after someone found a note in a pickle jar on a beach. Dated April 7, 1955, it read:

"Help. Am on St. Helena Island, Severn River. Am being chased by crazy occupant who eats people alive. Get police and come quick. "Arthur Smite."

Tower to Rise at Bridge Site

Main Southern Support Soon to Appear Above Waters at Mackinaw

ST. IGNACE (AP) — Like a first birthday candle, the first tower of the Straits of Macinac Bridge will emerge above the waters in a few weeks.

Just a year ago Saturday, dignitaries signaled the start of the 100 million dollar span linking Michigan's two peninsulas. But actual construction did not begin until two months later.

Four of six main foundations were almost completed before winter ice halted construction until this spring.

Crews now are working around the clock to assure its completion on schedule by 1957. Three weeks ago Merritt-Chapman & Scott Corp., the subfoundation contractors, started 750 men working three shifts.

Now they are pouring tons of concrete into a circular caisson, 116 feet in diameter, that will be the foundation for the main south tower of the bridge's 8,614-foot center span.

Eight feet below the water's surface, the steel tower will be anchored to the caisson. The tower will soar 552 feet above the water —the height of a 46-story office building.

Steel for this and the other towers already has been shipped to St. Ignace.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

Old Women Gaining Control of America

WASHINGTON (UP) — If your mother-in-law upsets you, you'd better learn to grin and bear it.

The Population Reference Bureau reports that the United States is on the road toward geronotomatriarchy, or control by aging females.

Since 1900, the bureau said, the proportion of persons over 65 has doubled in this country from 4 to 8 per cent, with a steady increase in the proportion of women.

Another report released today by the Public Affairs Institute substantiates the growing number of aged persons in the nation. It deals with the job problem.

Within the next 15 years, the institute said, the United States will witness a struggle for jobs between young and old workers which it will be unprepared to handle, unless it undertakes an immediate, careful study of the problem.

Peppery Yeggs Make Robbery Victim Cry

DETROIT (AP)—Charles Rappaport, 58, cried yesterday when two men robbed him of $5,000.

He couldn't help it. The robbers threw pepper into his eyes. They grabbed from under his arm a box containing the money. Then they jumped into a car and fled.

More than 100,000 automobiles are ferried annually across the English channel.

Emperor and Empress of Japan Attend Fair

TOKYO (AP)—The Emperor and Empress today attended Tokyo's gigantic International Trade Fair.

More than 20 nations are participating. The United States and West Germany have the largest displays.

Butter use in the U. S. fell from 18.2 pounds per person in 1932 to 8.7 pounds in 1953. At the same time the use of oleomargarine increased from 1.6 pounds to 8.2 pounds.

Dog Gets a Paint Job

POTTSTOWN, Pa. (AP) — People thought they were seeing things when a dog colored a strange shade of yellow sauntered down the street. He had been present during fruit tree spraying in a nearby orchard. Workmen said the mixture of copper sulfate clings for days.

Buck deer shed their antlers every year. The antlers seldom are found in the woods because small rodents rapidly eat them for their high mineral content.

Find Missing Boy Dead

BILLERICA, Mass. (AP) — The weeklong search for 2-year-old Jackie Colby has ended. His body was found yesterday in underbrush along the bank of the Concord River two miles from his home. Police Chief John F. Trainor said he believes the youngster toppled from the bridge as he peered through the railing 15 feet above the water.

Population of the U.S. increased by six times between 1850 and 1950 —from 23 million to more than 151 million.

Gorillas Get Soft Floor

SAN DIEGO, Calif. (AP) — The zoo is doing something about its gorillas' aching feet, says Dr. Charles S. Schroeder, director. A resilient rubber floor has been installed in the cage on top of cement which, Schroeder says, was hard on the flat feet of the shoeless gorillas.

Farmers in the U. S. came out of the World War II period with a smaller debt than when the war began, contrary to most of the war-time trends.

Test A-Drugs on Hopeless Cancer Victims

(This is the second of four articles telling what you should know about cancer, its causes, symptoms and treatments, written by a distinguished American surgeon and authority on cancer.)

By DR. CHARLES S. CAMERON
Medical and Scientific Director, American Cancer Society

NEW YORK (INS)—Human life starts from a single cell. It is generally believed too that the second greatest destroyer of life, cancer, has its origins in one cell.

The terrible problem facing medicine today is that cancer does not stay within a single cell, or a single tissue. It's a lawless wanderer that roams widely, spreading its evil consequences to other parts of the body.

Still, the statement can be made that cancer is curable. This wonderful hope exists today because the general practitioner is learning to diagnose cancer earlier; because the surgeon has discovered better means of removing growths from nearly every part of the body; because the radiologist has developed vastly more powerful and effective X-rays.

In principal, though, there has been little change in the fact that cancer can be cured only if it is removed before the cells start their fatal journeying.

One out of every four who has cancer is being saved today. But the other three die. Death comes to them because the beginning of their disease was too remote to detect in time — or they waited too long before seeking help.

Different cancers do not spread at the same rate of speed. Nor do they grow as rapidly in some patients as they do in others. Eventually though, if neglected, cancer writes its own fatal diagnosis.

Cancer cells spread through the lymph fluid and blood to vital organs such as the lungs, brain, or liver where they colonize and reproduce their kind. When these secondary cancers are examined under the microscope, they resemble the tissue of their origin. For instance, cancer of the stomach, spread to the liver, has the same cell structure as the stomach from which it started.

The foremost method of curing cancer is surgery. Localized cancer is one of the most curable of diseases by this method. If confined to one area which is available to the surgeon, cancer has an excellent chance of being completely cured.

Progress in surgery has taken tremendous strides in the last decade due mainly to better anesthesia, greatly improved methods of blood and plasma transfusion, and acceptance of methods of radical surgery that are now almost commonplace.

The second method of cure is radiation. This destroys the cancer cells by bombarding them with X-rays. Radium too is frequently used when the cancer is on or near the surface of the skin or inside one of the body cavities which can be easily reached.

New ways of employing more powerful X-rays have come into vogue. Turning the patient about in a revolving chair while concentrating several million volts of radiation on the cancer site is sometimes used.

Radioactive cobalt, "baked" in atomic ovens, powers some units which revolve around the patient. The advantage of these methods is that surrounding tissues receive less of the rays than the tumor.

The dream of research is to find other means of damaging cancer cells so that the most widespread, and hard to reach tumors can be eradicated.

Radioactive chemicals and compounds that poison or "fool" cancer cells are being tried in hopeless cases with some success. They slow down the progress of the cancer, reduce pain, and keep the patient living for a time.

So far researchers have found no marked differences between the chemical composition of cancer cells and normal cells. Since differences should exist, there may be a distinct variation between the appetites of these two kinds of cells.

If this can be verified through research, eventually it would be possible to devise a specific poison that would be consumed only by the cancer cell no matter to which remote corner it may have fled.

In the meantime, our best weapon is alertness on the part of every potential victim of cancer, which means any one of us.

(Tomorrow: Cancer's "seven danger signals."

Bitterns Are Bitter at St. Louis Folks

ST. LOUIS (UP)—Three bitterns have nothing but bitter memories of St. Louis.

The bitterns, large birds of the heron family, were peaceably flying south for the winter when they encountered a violent hail storm and were forced down.

They were picked up by three residents who didn't know a bittern when they saw one and the St. Louis zoo had to supply the introductions.

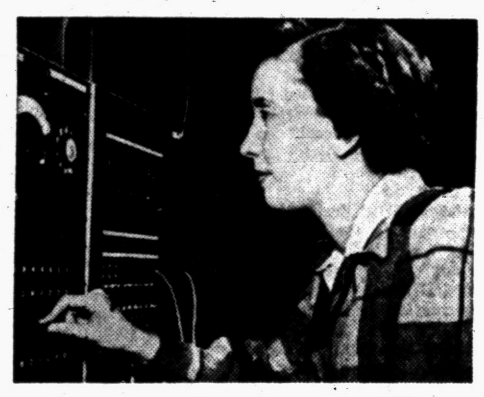
One of the bitterns had to spend the night in a car when a housewife refused to let her husband "bring that bird into the house."

Bicarb Baked in Cake

BUFFALO, N. Y. (UP) — Even the modern drug makers haven't figured out a more convenient way to take care of acid indigestion than the ancient Greeks. Pharmaceutical researchers (of the Arner Co.) here say Grecian wedding cakes contained baked-in ingredients supposed to reduce indigestion caused by over-indulgence.

Meet a Michigan Bell Family

He knows job security. Paul Ruimveld, Kalamazoo telephone repairman, has worked steadily for Michigan Bell for 29 years. At 60, he can retire with a pension. If he works until he's 65, the pension will be greater. Michigan Bell's Pension and Benefit Plan also provides for payments in the event of sickness, accident, or death. Five Ruimvelds have followed their father into telephone work.



Promoted recently. The first of Mr. Ruimveld's daughters to join Michigan Bell, Mrs. Leona M. Boje, is now a supervisor. Her recent promotion is evidence of the advancement opportunities in telephone work. Leona's two sisters used to work for Michigan Bell, now have their own families.

Up in the world. Both Paul Ruimveld, Jr., above, and his brother, William, are now linemen. Regular increases, vacations with pay, steady employment, and the emphasis on safe working conditions are some of the reasons they chose telephone work. A younger brother plans to become a telephone man.

Michigan Bell is proud of telephone families like the Ruimvelds. Sons and daughters choose their father's career. What finer endorsement of a place to work. Good jobs attract good people. That is the simple secret behind good telephone service.

It's people who make telephone service good

Berlin Remains Occupied Land

Divided City Could Be Gobbled Up by Russia if Allies Pulled Out

BERLIN (AP)—Berlin, a city of many "firsts" in its nine centuries of history, now racks up a new "last." It is the last big piece of German territory to be thoroughly occupied by the conquerors of 1945.

West Germany's 50 million gained sovereignty four days ago. Communist East Germany proclaimed a limited sovereignty for its 18 million in March 1954.

Only Berlin's 2,200,000 in the West sectors and one million in the Soviet area are "occupied" and they will continue to be until some formula is found for unifying the nation.

* * *

The patient Berliner regards himself as the middle span of the German bridge. He figures that at the right time the project will be completed and he will again bear the weight of Germany's destiny. Until then, as the West Berlin editorial pages pointed out, it is "discreet," "proper" and "wise" to be occupied. One independent newspaper which is often quick to find something wrong with occupation commented:

"The security of Berlin is an Allied matter and it is only proper that the Allies hold themselves responsible for it."

The divided and surrounded city knows that without the Western symbol of protection it could soon be gobbled up by the Soviet zone Reds.

* * *

Nevertheless, West Berlin Mayor Otto Suhr said in Hamburg last week that West Berlin is an "essential part" of the Federal Republic and should be governed by it rather than by the Allies.

The Americans, British and French have relaxed many occupation controls over the years. And they told City Hall they are ready to consider some more relaxations. But, the West makes clear, they must retain occupation rights and have the final decisions on security, international relations and above all, any dealings with the Russians.

John Ringling North Will Marry Actress

SEATTLE (AP)—Circus owner John Ringling North and actress Dody Heath will wed at Carmel, Calif., this summer, her parents Mr. and Mrs. W. Paul Heath said yesterday.

The engagement notice for Miss Heath, 26, and the 51-year-old multimillionaire specified no date for the wedding. It will be the third trip to the altar for North, owner of the Ringling Bros. and Barnum and Bailey Circus, and the first for Miss Heath.

She appeared in the movie "Brigadoon" opposite Van Johnson and in a number of top Broadway plays.

World's Smallest Paper Is Going to Be Enlarged

TRYON, N.C. (AP) — The Tryon Daily Bulletin, which for 27 years has called itself the world's smallest daily newspaper, will be enlarged.

The title may hold good, however. The new size will be 8½ by 11 inches—the size of a business letterhead. The paper has been 4¼ by 7½ inches.

Seth M. Vining, editor and owner, established the Bulletin Jan. 21, 1928, "with a shirttail full of type and an old broken-down job press."

Selfridge Is Planning AF Day Celebration

MT. CLEMENS (UP)—Selfridge Air Force Base today completed arrangements for the biggest Air Force Day celebration ever staged in Michigan.

Demonstrations of aerial firepower, including nepalm bombing, will highlight the air portion of the show May 21-22, which will be open to the public.

Last years crowd of more than 125,000 spectators for the two days is expected to be exceeded this year, Air Force officials said.

A greater number of static displays have already been procured by Lt. Col. Warren Patterson, project officer. Industry from the Detroit area concerned with defense items will also sponsor exhibits.

The infantry National Guard will stage a demonstration of combat-tank operations, and a moving tank will run down and crush a moving automobile.

The Navy will demonstrate aircraft carrier take-offs and landings.

On display for the first time will be an F-89-D jet fighter plane capable of firing 104 rockets from its two wing pods.

Farm production of the U. S. has increased by about one-third in the past 10 years because of improved methods, but the cropland area is about the same.

City Hall Employes Go Through Moving Day With the Greatest of Ease

Equivalent to the housewife putting away dishes in her new home, Mrs. Olga Barkeley of Lenox avenue, and Mrs. Helen Brosted, of South Francis street, begin filling the drawers of the filing cabinets in City Clerk Ada R. Evans' office in the new City Hall. Mrs. Barkeley (left) is handing Mrs. Brosted license application forms. The mammoth moving job took place over the weekend and required 16 moving men and 12 trips of the big vans. The new building went into operation Monday morning.

Pontiac Press Photos

"How about over there?" suggests Miss Jean Sheridan, of Ottawa drive, who works in the city water billing department. Miss Sheridan and her fellow workers had a field day yesterday as they shuttled and shifted office equipment in their new location at City Hall.

But Hitches Do Develop---in Muscles

By ARNOLD S. HIRSCH

Any housewife who has ever changed residences knows the problems that moving poses. Yet, last weekend the biggest moving operation Pontiac has seen in years was carried off with nary a hitch.

That is, nary a hitch in moving the city government equipment and furnishings from the old City Hall to the new one a block away at E. Pike and Parke Sts.

There were plenty of hitches in the backs and muscles of the city employes — mostly female — who pitched in on their own time to help the 16 moving men.

You couldn't exactly detect the odor of liniment in the new City Hall yesterday, but many employes seemed to be walking more slowly than usual.

Yet, as one clerk summed it up: "It wasn't bad at all."

Henry P. Gaukler, general manager of the moving company which handled the operation, agreed.

"It was the nicest job we've ever run thanks to the excellent cooperation of the city and the employes," he said.

Gaukler explained that the employes had carefully labeled each chair, desk, filing cabinet and waste basket beforehand. The labels were colored tags denoting the floor the article was bound for and bearing a notation of the office or department where it belonged.

Housewives can understand the immensity of the moving chore by the fact it required 12 van loads and as many hours to transfer the goods.

Besides the equipment, the movers shifted 365 special fiberboard boxes packed to the brim with records, files and necessary papers.

"We expected the tires to burst on some trips," Gaukler chuckled.

As for the women City Hall personnel, Gaukler, said, "they were wonderful." He had expected them to act like prima donnas, each wanting her department taken care of first.

But it didn't turn out that way. The gals were patient until the time for the moving and

"It was just lik a housholdteta **placing of the equipment in their particular office arrived, he said.**

One point of difficulty cropped up in one office — which shall remain unnamed — when a couple of strong-armed moving men began to feel their muscles sag as the female clerks tried to decide where to set a 250-pound filing cabinet the men were holding.

"It was just like a household job where the woman can't decide and the men have to shuffle the article back and forth. Only this thing weighed 250 pounds," Gaukler recalled. "I had to step in kind of tactfully at that point."

After the movers left each office, the women took over, just as they do in a household situation.

What they didn't push and tug into a slightly different location Saturday, they did yesterday morning.

The desks were generally too heavy to move, and besides, the telephone installations made their locations rather permanent. But the light files and chairs and tables the women shifted around until they were sure they were placed just right . . . until they looked again.

The moving is over, but the job of getting settled is still ahead. Nobody is complaining, though. Everybody is so happy to be out of the old City Hall, that straightening out the new one is a mighty pleasant task.

Mrs. Charles G. Cook, of Oneida drive, loads books onto the shelves in the white oak paneled office of her boss, City Manager Walter K. Willman at the new City Hall. All offices in the swank administrative suite which fills the eastern portion of the top floor are done in ripsawn white oak, with wheat-colored wooden desks and furnishings.

In the accounting department on the top floor of Pontiac's new City Hall, Miss Edwina Bennett, of Palmer street, (left) and Mrs. Josephine Gamester, of Harper street, debate the placing of record files. The files have wheels, so the gals can always change their minds about location.

Emerson PTA Will Install Officers on Wednesday

An installation of officers will highlight the Wednesday evening meeting of Emerson School PTA.

Mrs. Clifford Christenson will install Mrs. Ira Lewis as president and Mrs. Anton Koenig as vice president.

Jesse Gammey will be father vice - president; Mrs. Evelyn Woodworth, teacher vice-president; Mrs. Stephen Kives, secretary; Mrs. Fred Henry, treasurer and Mrs. Keith Mortimore, historian.

Mrs. L. D. McLauchlin will be installed as parliamentarian and serving as council delegates will be Mrs. Eugene Affolder, Mrs. Gilbert Williams, Mrs. Charles Collison and Mrs. Stuart Kramp is an alternate.

Entertainment will be presented by the "Seven Sireens" through dance routines bringing back scenes of the roaring twenties.

Lois Coan and Maxine Hartlin have been asked to preside at the new silver tea service purchased by the PTA through its money making projects.

Mr. McLauchlin was master of ceremonies at a recent father and son banquet held at the school. William Wesch was honored as the oldest father, Harry King as the youngest father, and Keith Mortimore for having the most sons present at the banquet.

Mrs. Ruth Wait, principal, announced that June 8 has been set as the date for the graduation ceremonies at Emerson and an annual school picnic will be held June 9.

Owen

Owen School PTA will meet Wednesday at 2:30 p.m. in the all purpose room at the school for the last regular meeting of the school year. The program planned is one of variety.

The main feature of the afternoon will consist of musical rhythm games and choral readings by Mrs. Charles Murphey's and Mrs. William Sturgeon's first and second grade students.

Students of Jack Huffman's physical education classes will perform acrobatic stunts. The school band will play several numbers under the direction of Raymond R. Fixel.

MR. and MRS. HERBERT J. SAMPSON

Celebrating their golden wedding anniversary Sunday afternoon and evening at an open house in their South Marshall street home will be Mr. and Mrs. Herbert J. Sampson. They were married May 14, 1905 on her father's farm in Lapeer county and have spent most of their lives in the Pontiac vicinity. They have two children, Raymond Sampson of Watkins Lake and Mrs. E. J. Redding of Empire street, and two grandchildren.

Nancy Irene Burgess Feted at Many Bridal Showers

Nancy Irene Burgess, daughter of Mrs. M. M. Burgess of Bloomfield Hills and the late Mr. Burgess, has been entertained by numerous friends at bridal showers and parties.

She will exchange her nuptial vows on June 25 with Dr. Thomas Stedman Torgerson of Ann Arbor. He is the son of Mr. and Mrs. Thomas Emil Torgerson of St. Petersburg, Fla.

Mrs. James A. Thompson, Mrs. Thomas H. Keating, Mrs. Richard E. Krafve and Mrs. Roy T. Mitchell have been among the hostesses honoring Nancy.

A luncheon has been given at the Detroit Boat Club by Mrs. Carl J. Snyder.

This afternoon Mrs. Lester L. Colbert held a luncheon at her Bloomfield Hills residence. Mrs. Charles E. Davy of Detroit, Nancy's godmother, will give a tea with Mrs. Walker T. Wright.

The Detroit Athletic Club will be the scene of a May 25 luncheon and miscellaneous shower given by Mrs. Daniel F. Hulgrave and Mrs. Ramond A. Vogel.

A his and hers party will be held May 29 at the home of Dr. and Mrs. John M. Wakevainen, with Mrs. Stuart A. Cogsdill entertaining at a luncheon and linen shower June 1 at Bloomfield Hills Country Club.

Hosts for a June 4 dinner dance at the Detroit Athletic Club will be Mr. and Mrs. Lloyd H. Diehl, Mr. and Mrs. Edward W. Diehl, Mr. and Mrs. Walter E. Ritter and Mr. and Mrs. William J. Ulrich.

Nancy's aunt and uncle, Mr. and Mrs. Alfred J. Macksey and their son, Jim, of Birmingham, have planned a supper party for June 19.

The spinster dinner will be given by Joan Gruschow. Hosts for the rehearsal dinner to be held at the Bloomfield Hills Country Club, will be announced later.

Parish Seeks Playground Equipment

Members of St. Benedict Parish are busy making final plans for a benefit card party to be held Wednesday at 8 p.m. in the parish hall.

Wayne Miller and Mrs. Frank Houston Secoy are serving as co-chairmen of the event.

They are being assisted by Mrs. William J. Janecek and Mrs. Donald Raymond on the ticket committee. Refreshments are being taken care of by St. Theresa Unit under the direction of Mrs. Herman Charbonneau. The serving of coffee will be supervised by Ralph Colcher.

Patrons have been invited by the Mens' Club with Michael Daniels as chairman.

Other members of the church serving on committees are Mrs. John Lindgren, Mrs. Albert Shoenemann, Mrs. S. J. Coleman, Joseph Zeleznik, Mrs. James Clark, Darwin Simpson and Mrs. Walter Hiller.

Proceeds from the card party will be used to purchase playground equipment for the newly graded school grounds.

Young Democrats Meet Tonight

Young Democrats of Northern Oakland County will gather this evening at 8 p. m. in room 105 of Pontiac High School.

Featured on the program will be a panel discussion on the 18-year-old vote. Members of the Pontiac Toastmaster's Club will comprise the panel.

A business meeting to be conducted by the chairman David Simmons will take place before the serving of refreshments.

Group Plans May 21 Dance

Falling into place are preparations for the annual Beta Ball, planned for May 21 at Hotel Pontiac, and sponsored by the Beta Chapter of Beta Theta Phi Sorority.

Members tied the loose string-ends together with the completion of orchestra arrangements — a Detroit leader will supply the melodies — at a meeting held at the Gateway drive residence of Mrs. Corwin Woodard.

Mrs. M. C. Worster is chairman for the event which will be open to the public from 9:30 p. m. to 1:30 a. m. Serving on committees will be Mrs. George Zannoth, Mrs. William Hutchinson, Mrs. Norman Mack, Mrs. Ward Rohs and Mrs. Joseph Burgdorf.

Others include Mrs. Walter Terry, Mrs. Ida Hiltz, Mrs. Norman Haldane, Mrs. Donald White, Mrs. Kenneth Madsen, Mrs. Duane Hamilton, Mrs. John Sinclair, Mrs. John Allen, Mrs. Ralph Bergemann and Mrs. Woodard.

Reports were given at the recent gathering by Mrs. Robert Tedcastle, Mrs. Burgdorf, Mrs. Madsen and Mrs. Terry, on the workshop at Pontiac State Hospital, a project of members.

PTA Activities

Emerson

Emerson School PTA will meet Wednesday at 7:30 p.m. New officers will be installed.

Lincoln Junior High

Lincoln Junior High School PTA will meet Tuesday at 7:30 p.m. in the school cafeteria. Film on teenagers, "Age of Turmoil," will be shown.

Spring Dance Slated Friday

Arrangements were completed for an annual "Spring Dance of All Nations" when the board of the New Citizen's League of Pontiac met recently at the home of Mr. and Mrs. Harold Dean on Alberta Drive.

The dance will be held Friday evening at Elks Temple on Orchard Lake avenue from 9 until 12.

The League will sponsor a subscription toward the Civic Auditorium.

Sew on Costumes

Mothers of the Longfellow School area gathered this afternoon in the school gymnasium to sew costumes for the spring festival.

Mrs. Clark Is Guest of Flora Shelly Group

Mrs. Earl Clark was a guest of Flora Shelly Group of First Presbyterian Church when members gathered at Rotunda Inn for a birthday dinner.

Hostesses for the occasion were Isabel Goodson and Ethel St. Clair.

Lulu McGregor, program chairman, introduced Florence Day who read an original poem, "History of the Flora Shelly Group," in which she had cleverly woven the name of each member.

Fun raising projects were discussed at the recent meeting and a report of the Women's Association was given by Mrs. Allan Monroe.

Pontiac Press Photo

The annual meeting of the Pontiac Federation of Women's Clubs was held Monday at the Ottawa drive home of Mrs. George Wyman. Photographed as she presided at the tea table was Mrs. Arnold A. Hillerman of Chamberlain street. She is serving Mrs. Forrest E. Brown (right) of Osceola drive, new president of the Federation. Others photographed from left to right are Mrs. Charles Crawford of Williams street, and Mrs. Socrates V. Sekles of Ottawa drive.

Federation Elects New Officers

The president's gavel passed from the hands of Mrs. Paul Gorman to those of Mrs. Forrest Brown Monday afternoon as the Pontiac Federation of Women's Clubs, (this city's largest women's organization representing a majority of the groups here) ended its season with installation of officers.

In turnabout fashion, the outgoing president received an orchid from the newly-installed Mrs. Brown, in appreciation for her efforts.

Mrs. George Wyman opened her home on Ottawa drive to the large gathering. Hostesses were members of the Soroptimist Club, with Mrs. Richard Paschke, Mrs. Clifford Todd, Mrs. Frank A. Anderson and Mrs. Karl Schultz as chairmen.

In addition to Mrs. Brown, Mrs. Clifford Mossey who took charge of this portion of the proceedings, installed Mrs. Socrates V. Sekles as first vice president; Mrs. Arnold Hillerman as second vice president; Mrs. Robert Nelson as corresponding secretary and Mrs. Dale Moats as treasurer.

Committee appointments added the names of Mrs. Hillerman and Mrs. Charles Wait, program; Mrs. E. M. Evans, membership, and Mrs. J. A. Rammes and Mrs. Max Coleman, publicity.

Others are Mrs. William McClure, Mrs. Russell French and Mrs. Donald Fillmore, ways and means; Mrs. Richard Paschke and Mrs. William B. Dean, house; Mrs. Erickson Lewis and Mrs. Ray Caughill, hospitality; and Mrs. D. L. Foxman, Vera Bassett, Mrs. Peter Tsatsanis and Mrs. Aleck Capsalis, telephone.

Still more are Mrs. William Gordon, resolutions; Mrs. B. B. Roush, public affairs; Mrs. Ora Magnus, United Fund; Mrs. Clarke Kimball, USO; Mrs. Floyd H. Smith, education and Mrs. M. E. Baldwin and Mrs. Harry Riggins, welfare.

Rounding out the list are Mrs. Adrian C. Ish and Mrs. Raymond Sampson, fine arts; Mrs. E. D. Moessner, historian; Mrs. John Wilson, custodian; Mrs. George Wyman, health; Mrs. Harry Vernon, youth, and Mrs. Gorman, Mrs. Brown, Mrs. Moats, Mrs. Sekles and Mrs. William McClure, budget.

Mrs. Rammes and Mrs. Lewis reported on the success of the "Know Thy Neighbor" sale. The co-chairmen announced that proceeds totaling $1,184 will be turned into Pontiac Foundation, a project which will bring about construction of a civic center.

Mrs. Rammes was also in charge of the program. She introduced Mrs. Herman Dickstein, Mrs. Schultz, Mrs. Everett L. Reese, Mrs. J. Harry Baker, Mrs. Ish and Lauretta Paul, who gave the history and activities of their respective clubs.

New members of the Federation were announced by Mrs. E. M. Evans, who listed the Chamber of Commerce Auxiliary and the Ladies Auxiliary of St. George Greek Orthodox Church.

When refreshments were served at the close of the meeting, Mrs. Frank A. Anderson and Mrs. Schultz presided at the tea table.

Babes in Arms Make Granny Profit

By ANNE HEYWOOD

Mrs. G. is one of those women who cannot pass a baby carriage without peeking in.

She adores babies, especially tiny ones, and always has. "I had five of my own," she told me, "but they're all grown and married.

"At first the grandchildren kept me busy, but now they're school age. I do miss having babies around."

And Mrs. G. is the type who goes after what she wants. "I intended to have babies all my life, one way or another," she announced, "and—I have!"

Here is what Mrs. G. did, and at sixty-one years old, too!

At first, she tried to get a job selling in a baby shop, or in the infants' wear department of a big store.

"But nobody would hire me, because of my age," she snorted.

So to pass the time, she began making adorable bassinets out of very inexpensive materials, and presenting them to mothers of new babies.

"After a while," she said, "I started getting orders from an occasional friend of my daughter's, or a friend of one of the women I'd give a bassinet to.

"Because I use inexpensive materials, I can make them for a very low price. I use all kinds of charming fabrics, and get my simple baskets wholesale and very cheap.

"Before long," Mrs. G. told me, "I had quite a few customers. Then I approached one of the stores, showing them my samples.

"They offered to take orders for me, and the orders began to snowball. So I lined up some women to help me out, on an hourly basis, and make the bassinets according to my design.

"Now the store sells dozens of them every week, and I make a very nice living.

"And the funny part of it is," Mrs. G. said with a gleam in her eye, "the store that handles my merchandise is the same one that wouldn't hire me because I was too old.

"Too old indeed!"

June Graduate Worried Over Autograph Hounds

Written Sayings Label Person for Life, So Choose Quotes Wisely, Warns Author

By ELIZABETH WOODWARD

"Dear Miss Woodward: I'm graduating in June from the eighth grade and I'd like to find a booklet containing sayings for autograph books.

"We'll all be having them and passing them around for our classmates to sign. Have you some suggestions that I can write above my name?"

There are famous quotations galore, and sayings, serious and witty, that you can write in autograph books. Just remember that what you write over your name will label you for the life of the book you write in. And some cracks written lightly now will sound mighty silly later on.

* * *

But here are some meaty words that you can combine with your best wishes:

"Nothing great was ever achieved without enthusiasm."—Emerson. "Be silent and safe—silence never betrays you."—O'Reilly. "It is better to have one friend of great value than many friends who are good for nothing."

"It's difficult to know one's self; it's easy to advise another." "The secret of success is constancy to purpose."—Disraeli. "It is much easier to be critical than to be correct." — Disraeli.

"One thorn of experience is worth a whole wilderness of warning." "There's no good in arguing with the inevitable."

A surreptitous look at a friend's autograph book (he was in eighth grade last year) turns up these gems which also might come in handy:

"Way down south where bananas grow,

A mouse stepped on an elephant's toe.

The elephant said with tears in his eyes,

'Why don't you pick on someone your size?' "

"Roses are green and violets are blue,

If you'd just been hit on the head, you'd think so to."

* * *

"Get on a local, change to an express,

Don't get off 'til you reach success!"

"Can't think, Brain numb.
Inspiration won't come.
Poor ink, Bad pen.
Good luck! Amen."

"When you read this greeting and the best wishes that I send, Don't say 'another autograph,' but say 'another friend.' "

"I'd like to write my name in gold, but ink is all my pen will hold."

"Never B sharp (draw a little musical clef with the note and sign). Never B flat.

Always B natural."

"Don't make love at the garden gate.

Love may be blind, but the neighbors ain't!"

Charcoal Bricks Now on Market

CHICAGO (INS) — Charcoal, which hovers between grey and black, seems assured of a permanent place as a distinctive color label in the U.S.

Charcoal appeared first in women's fashions, then in interior decoration and men's clothes, and now is showing up in a definitely permanent material—bricks.

A Chicago firm has introduced charcoal grey face bricks for home building and a spokesman said acceptance of the new color has been overwhelming.

The new shade in bricks is the most costly of the various colors in which they are offered.

May Breakfast Served to Group

A May breakfast was enjoyed by members of the Wayside Gleaners of First Baptist Church who gathered recently in the church.

Mrs. Evart Ewing of Flint was speaker for the affair. Her talk on "Qualities of Christian Motherhood," challenged members of her audience to so live their lives that their children might see Christ in them.

Musical numbers on the program were sung by Mrs. William E. Hakes and Mrs. Ewing. The devotions were given by Mrs. Herbert Flemington of Birmingham.

Mrs. Elsie Farmer of Oxford was not present at the affair, but was honored for being the oldest member of the group.

Naomi Circle Plans Banquet May 24

Mrs. Marvin Fauss opened her home on Joslyn road to members of the Naomi Circle of WGMS of Joslyn Avenue United Presbyterian Church.

Plans were discussed at the recent meeting for a mother and son banquet to be held at the church on May 24.

Leona Fletcher, missionary from Santiago, Bolivia, was the speaker. She showed colored slides and told of her work in that country among the Indians.

Students Entertain Sunset Club

Second grade students of Wilson School entertained members of the Sunset Club when they gathered recently at the school.

Mrs. L. W. Shafer, Mrs. A. W. Neelands and Mrs. Jenny Taylor gave readings pertaining to Mother's Day and Robert Cox entertained the members with true life stories.

Mrs. Charles Little led the group in singing the new club song. Mrs. Margaret Bass and Charles Rigdon were guests of the group. The next meeting will be held at the school May 19.

Coming Events

Sunshine Group, Dames of Malta will meet Wednesday at noon in Malta Temple, 82 Perkins St. Mrs. James Schram will be hostess.

Owen-Wever Community Club will co-sponsor a meeting Thursday at 7:30 p.m. in Owen School. Residents of the Kennett Gardens Subdivision will discuss improvements for their residential area. Floyd B. Miles, city commissioner of district 5, will be speaker.

Daughters of Pontiac 186 will meet this evening at 8 in Grotto Hall, 126 W. Pike St. State grand mistress will be guest.

Ladies Auxiliary 396, National Assn. of Letter Carriers will meet Wednesday at 7:30 p.m. with Mrs. MacHenry Cornell, 270 State St.

Guild 8, All Saints Episcopal Church will meet in the primary room of the church, Wednesday at 2 p.m.

Blue Star Mothers Chapter 4 will meet this evening at 8 p.m. in the YMCA on Mt. Clemens street.

Don't Mince, Make Plans With a Date

Give Girl an Idea Where She's Going Before You Arrive

By EMILY POST

A young boy writes me: "Last Saturday I had a date with a girl for the first time.

While not actually spoken about, she knew very well that we woud at least go to a movie. After arriving at her home and being invited to take off my coat, we sat talking to her mother and father.

Every minute I expected she would get her coat and hat. But we sat and talked and as a result the time came for me to go home instead of to the movies.

Wasn't it up to her, Mrs. Post, to make the move to go?

If you had a definite date to go to the movies, then she should have put on her hat and coat as soon as you arrived, and led the way to the front door.

But if you had no definite engagement to go to a movie she quite possibly thought that you should have explained you had come to take her out.

Dear Mrs. Post: May a hostess suggest playing cards for money, or must the suggestion come from her guests? I think playing cards for money makes the game so much more interesting, but am always hesitant about suggesting it to my guests.

I don't mean high stakes, of course, but just enough to keep the game from getting boring.

Answer: If it happens that she doesn't know, it is the duty of the hostess to ask, "What do you like to play for?"

Dear Mrs. Post: A friend and I were discussing the wearing of white shirts to the office. He said that a white shirt is the only proper one to wear, and that pastels or stripes were definitely not in best taste.

I, on the other hand, wear colored shirts quite often as I find that they stay fresher looking longer than a white shirt which after a few hours begins to look smudged. I would very much like to have your opinion on this matter.

Answer: I definitely agree with you.

Time We Consider Plight of Lowly Dandelion

By MARY MARGARET McBRIDE

That talk about choosing a national flower persists and I here and now nominate the dandelion, hardy, handsome, found all over the country—and as American as corn, for its seed was carried to the Pacific in the covered wagons of our ancestors.

I know the dandelion has a bad reputation with lawn growers, those fussy souls who feel that anything in a yard but grass is a blot on the landscape.

But against that, the other day a young mother remarked to me as her toddler crouched to pick the bloom, "Do you realize those are the only flowers children can gather without fear of an adult shrieking 'Don't!' "

Also on the plus side, the young leaves are fancied by many as salad and cooked up as a mess of greens. I can attest that nothing tastes better in spring.

I'll have to let others sing the virtues of dandelion wine, but I share with children a pleasure in the yellow bloom and the soaring seed, so graceful in the air.

My second choice for a national flower would be goldenrod, but I know I'd be outvoted, for goldenrod has been found guilty by association of contributing to the agonies of hay fever victims.

Ragweed is the real culprit, according to the plant pathologists, but because goldenrod often grows right alongside, its character is tarnished.

If there had been no other consideration but beauty and suitability, I would have long ago, with the whole flower world to choose from, selected the rose for our national flower.

I can see, however, that if there is to be peace among the flower lovers of the nation it would be a diplomatic and commercial error arbitrarily to lift any one popular species to peak position.

I can just imagine how the knees of our Washington representatives would knock together if they should plunge ahead with the rose and then the mail started boiling in from outraged dahlia, gladiola, chrysanthemum, begonia, azalea, tulip, lupine and camellia fanciers.

The situation would blow up easily into a nasty little political hassle.

So I think it's obvious if we are to have a national flower, it had better be a wild one, untainted by commercial interests.

While we're at it, we might as well pick a national tree, too. It's odd that while most states have adopted, officially or unofficially, not only a bird, but also a flower and a tree, the nation has only the bird—our most famous, the bald eagle.

For the national tree, both the pine and the oak have items in their favor. Some variety of each grows in all of our 48 states. The trees are tall, strong, handsome and useful. I'm inclined toward the pine, though. Why? Because it is an evergreen.

What do YOU think?

President Invited to Soo Centennial

WASHINGTON (UP)—President Eisenhower today was invited to Michigan this summer to participate in the 100th anniversary of the Soo locks.

The invitation was extended by R. D. Hollingworth of Sault Ste. Marie, chairman of the Centennial Commission.

The centennial runs from June 28 to Sept. 5. Hollingsworth said the President looked favorably on the invitation, but made no commitment.

"I really feel he's going to make this trip to the upper Midwest," Hollingsworth said.

Veteran Detroit Dentist Dies on Atlantic Voyage

OWOSSO (AP)—Dr. E. H. Wicks, 81, who practiced oral surgery in Detroit for more than 50 years, died in mid-Atlantic aboard the liner SS Silverstar, relatives here have learned.

His daughter, Mrs. Paul Ruggles of Owosso, said he was returning after a two-month tour of the Holy Land.

Dr. Wicks was a graduate of the Dental School at the old Detroit College of Medicine.

Youngster Gives Alarm That Saves His Family

PAWTUCKET, R. I. (UP)—Mrs. Albert Brizio was awakened by her 5-year-old son yesterday when he shouted, "Mamma, the house is on fire!"

"Go back to bed, you've been dreaming," the mother said.

Moments later she smelled smoke and led her family safely from their burning home.

Medic Says Middle Age Spread Means You Just Don't Get Enough Exercise

By ARTHUR EDSON

WASHINGTON (AP)—So your vitality has seeped away until it almost isn't. Your ambition sags. And you have developed — you'll excuse the expression — a middle age spread.

What's wrong with you?

Well, a University of Kentucky medical doctor suggested today these aren't so much signs that you're growing old. He said it may be more of an indication that you no longer take vigorous physical exercise.

Dr. Ernst Jokl teaches physical medicine and rehabilitation at Kentucky. And he gave his views in the magazine put out by the American Assn. for Health, Physical Education and Recreation. This is the muscle flexing branch of the National Education Assn.

People today live 3½ times as long as they did back in the Stone Age. But a long life is not an unmixed blessing.

* * *

Dr. Jokl uses two pictures of a man identified merely as "an internationally known wrestling champion" to show what happens to many of us.

In one picture the internationally known wrestling champion is 28 years old, all chest, muscles and fierce mustache. The other picture shows the I.K.W.C. at 63, without any serious exercise for 30 years.

His muscles droop, even his mustache is gone, and, alas, his middle!

* * *

The way the doctor puts it, in professional prose, makes it seem even more chilling.

"The ratio between chest and abdominal circumference is reversed," he said. "Body weight did not change, though specific gravity was down by 5 per cent."

Your specific gravity doesn't have to fall.

Jokl notes with approval that: Olympic winners show up at what once would have been thought middle age. A Dr. Savolaiken of Finland, for example, won a bronze medal in the 1952 gam s for excellence on the horizontal bars. He was 45.

Tennis is a young man's game, but Bill Tilden at 47 beat the 24-year-old champion, Don Budge.

A Swiss mountain climber named Chevalier went out and climbed himself a mountain at 74.

And to get away from sports, Jokl points to Toscanini and Bruno Walter who have shown a lively enthusiasm for work at an age when many are groping for a rocking chair.

* * *

Although we are living longer now, old age isn't a modern invention, as every student of Methuselah knows.

The Roman statesman, Cato, died at 85. Democritus, the so-called laughing philosopher, kept up the hilarity until he was 90. Hippocrates, the physician, lived to be 85. Isocrates, the Greek orator, lived to be 98.

Unfortunately, Dr. Jokl has no information on what happened to their centers of gravity. It's obvious, though, that he hopes they exercised enough to keep their chests out and their stomachs in to the end.

Tot Lost in Woods Found Alive, Well

McMINNVILLE, Ore. (AP)—A 2-year-old boy, lost 24 hours in the woods near here, was found alive and well yesterday.

Jess Davis told hospital attendants that he was hungry and wanted a banana. The boy, though covered with briar scratches and exhausted, was expected to recover quickly.

* * *

Jess, son of Mr. and Mrs. James F. Davis, of Dallas, Ore., wandered away from the home of his grandparents at nearby Gopher Valley Sunday. The family had gone there for a Mother's Day visit.

More than 100 persons had joined the search before the boy was found by two loggers. He had apparently walked five or six miles away.

IT'S ALL BUICK

—AND ALL YOURS

for only **$2267.00*** delivered locally!

You certainly *can* throw out your chest and call this Buick yours.

Because—as comparison shows—the dollar difference between this brawny beauty and the well-known smaller cars is virtually erased.

So if you've been thinking a Buick was out of reach—*let yourself go.* You *can* afford a Buick if you can afford *any* new car—and the price we show here proves it.

Buick Sales Soaring To New Highs

That's a major reason for the phenomenal success of Buick today. So much so, that production and sales are hitting new peaks to move Buick more firmly into the tight circle of America's best sellers.

And a companion reason for this soaring popularity is Buick's full line of cars to give you a choice in *any* price class—the bedrock-priced SPECIAL, the high-powered CENTURY, the extra-roomy SUPER, and the custom-built ROADMASTER.

But pure and simple, it's all the car you get for your money that's winning so many new owners to Buick.

It's the extra pride you feel, the extra room you enjoy, the extra comfort you get, the extra safety you sense—from Buick styling, Buick size, Buick ride-engineering, Buick solidity of structure.

It's the extra lift and snap and ginger you get from Buick high-compression V8 power—and the fun and thrill of bossing such eager might.

As we said—if you can afford any new car, you can afford a Buick—even with the spectacular performance of Variable Pitch Dynaflow† at modest extra cost.

So why settle for anything less than a Buick? Drop in on us, take the wheel, press that pedal, and see for yourself what a whale of an automobile—and a whale of a buy—today's Buick really is.

†*Dynaflow Drive is standard on Roadmaster, optional at extra cost on other Series*

*2-door, 6-passenger Buick SPECIAL Sedan, Model 48, illustrated. Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities. Even the factory-installed extras you may want are bargains, such as: Heater & Defroster—$81.70; Radio & Antenna—$92.50.

DID YOU KNOW—

★ —that the Buick SPECIAL is priced below any other car of 188 horsepower and 122-inch wheelbase?

★ —that the Buick SPECIAL is priced below some models of the three well-known smaller cars?

★ —that the Buick SPECIAL includes as standard equipment at no extra cost a long list of items usually charged for as "extras" by other cars—items such as direction signals, automatic lighting of glove compartment, variable speed windshield wipers with vacuum booster, and so on?

★ —that the Buick SPECIAL gives you more pounds of automobile than any other car at its low price?

August Fruehauf's Trailer Idea Revolutionized Trucking

August C. Fruehauf was a Detroit wagonmaker who proved that an automobile could learn something from a horse.

Wagons were invented, he knew, because a horse can pull a heavier load than it can carry on its back.

The same principle, he thought, should apply to gasoline engines: trucks should be able to pull more than they could carry.

So it was that in 1915 in his blacksmith shop on a dirt street in Detroit, August Fruehauf turned out the first truck-trailer ever made.

It was built for F. M. Sibley, a lumberman who wanted some sort of a wagon to carry a boat to Northern Michigan behind a Model-T roadster.

So well did Fruehauf build the trailer that it was in continuous use at the Sibley Lumber Co. yard in Detroit for 37 years.

What Fruehauf did—and even he, at first, apparently did not realize how his idea was to revolutionize the trade—was to build a more modern "wagon" and to couple it to a gasoline-powered "horse."

Today's trailers represent many changes over that first Fruehauf job. Most notable among the improvements has been the continuous reduction in the vehicle weight compared to the increase in carrying capacity.

The use of stainless steel and aluminum have been big factors in these improvements. Wooden trailers went out of existence in the 1930s, although plywood is used for linings and oak and other strong woods are used for floors.

After its start in 1915, the Fruehauf Trailer Co. moved to its present location on Harper avenue in 1920.

Expansion followed expansion, until now the firm operates seven factories, with an eighth just purchased in Waterford Township.

In 1950, Fruehauf, the world's largest manufacturer of freight-hauling trailers with some 85 factory sales and service branches across the nation, employed 6,000 workers.

President and acting chairman of the board is Roy Fruehauf, son of August Fruehauf. Another son, Harry R., is first vice president.

ROY FRUEHAUF

Roy was only six when his father built the first motor-drawn trailer. He spent most of his time as a boy hanging around the 10-man shop, running errands and learning to drive and demonstrate trailer-trucks.

When he was 20, he officially joined the organization. Beginning in the service department, he moved to the parts department, then to the machine shop, then to engineering.

After several years, Roy was sent to Chicago as a salesman at $100 a month and no expense account. There, he went down to the docks, sold first the trailer idea and then the trailer.

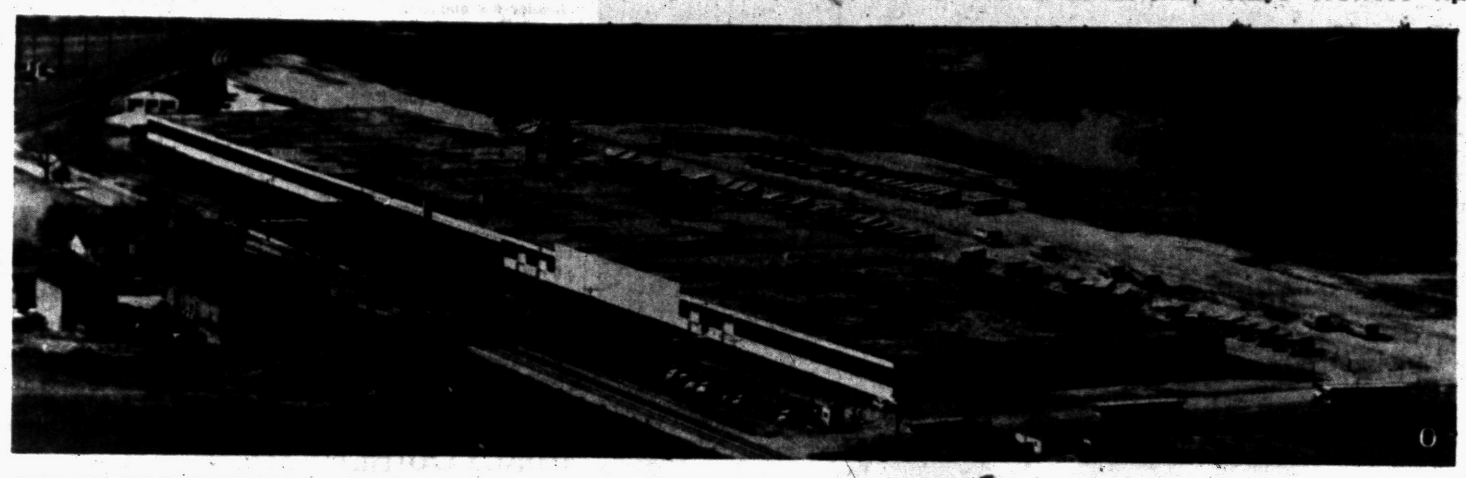
A 200-pounder who looks like a truck driver himself, Roy assumed the presidency in 1949.

In his six years at the helm, Fruehauf Trailer has upped its annual sales from $70,000,000 to roughly $200,000,000.

Last June, he was awarded the honorary degree of doctor of commercial science at the Tri-State College in Indiana. Recently he was elected a trustee at both Tri-State and Alma colleges.

Several months ago, he was honored as "Trucking's Man of the Year" by the Automotive Council of Los Angeles.

Fruehauf lives in Oakland County, not many miles from the 250,000-square-foot plant his company just purchased from the Pontiac Coach Co. in Waterford.



NEW TRAILER COMPANY PLANT — This is an aerial view of the Fruehauf Trailer Company's newest factory at Drayton Plains, six miles northwest of Pontiac. The plant —which becomes the 11th in Fruehauf's coast to coast plant setup—was built 14 months ago for The Pontiac Motor Coach Company and used only for a brief time by that firm. It is a one-story building with factory and office space. The property, which includes 90 acres of ground, is located on Williams Lake Road, just off Dixie Highway and on a spur of the Grand Trunk Railroad.

Veterans Urged Not to Pester Bonus Office

LANSING (AP)—**The state's bonus office said today it is still behind in handling Korean veterans' bonuses—but that it could go faster if veterans would leave it alone.**

Maj. Gen. George C. Moran, the adjutant general of Michigan, said his agency is processing more than 1,600 applications a day, but has a backlog of almost 100,000 claims.

"Our daily production could be increased still more," Gen. Moran said, "were it not for the large number of inquiries concerning applications already received. Our bonus staff spends approximately three hours per day in answering the written or oral inquiries."

Gen. Moran urged applicants not to write or telephone the bonus office about their claims unless they want to furnish a change of address.

He said that about 138,000 applications have been received so far and that 49,000 of these have been started through the processing machinery. Thirty thousand claims have been paid so far, the average being for $294.

Prison Population at 5-Month Low

LANSING (AP) — State officials said today Michigan's prison population is the lowest it has been in the weekly intake is the highest on record.

Gus Harrison, state director of corrections, said there are now 9,560 inmates in Michigan prisons. Weekly admissions so far this year have averaged 57, against 55 last year, he said.

Harrison said the transfer of 104 inmates to the state hospital for the criminally insane at Ionia plus a recent decision of the attorney general accounted for the population drop in the face of increasing admissions.

Inmates transferred to the Ionia institution were psychotics. Their transfer was made possible by completion of a 200-bed addition.

Clinton Valley Council Plans Meeting

Clinton Valley Council Boy Scouts and officials from two counties will hold their annual meeting in the dining room of the Pontiac Motor Engineering building at 6:45 p. m. Thursday.

About 250 persons are expected to attend the dinner and the program to follow in the auditorium. Guest speaker will be Harry K. Eby, director of school relations of the national staff, Boy Scouts of America.

The meeting will feature the presentation of three Silver Beaver Awards, election of council officers and board. The Northville Bell Ringers are one of the groups scheduled to entertain.

Edward Leland, council executive will give the annual report and outline future council objectives.

The program will open with a prologue given by Troop 244, Grace Lutheran Church. Their performance will be directed by Dr. Jack Bell.

Two members of the Pontiac district units, Dennis Jenks and Larry DeMilner, chosen from 700 explorers to attend the 1955 World Jamboree at Niagara-on-the-Lake in August, will be guests of honor at the dinner.

DeMilner, 3704 Lincolnshire, Lincoln Heights, is a member of Sea Scout Ship 5, sponsored by First Congregational Church. Jenks, 101½ Dwight, is a member of Troop 244, sponsored by Grace Lutheran Church.

Eby, guest speaker, has participated in Scouting professionally since 1923. He served twelve years on the executive staff of the Chicago Council and while with them was for seven years director of one of the council's Owasippe Camps at Whitehall, Mich.

HARRY K. EBY

Eby was selected by the Boy Scouts of America to represent them and the International Bureau in working with UNRRA in displaced persons camps in the U. S. Zone of Germany.

Minimum Height Cut for State Troopers

State troopers may be a trifle shorter in the future. Minimum height requirement of Michigan State Police has been reduced one inch, to five feet, nine inches, according to Sgt. Melvin Will, commanding officer of the Pontiac post. "The change, decided upon after careful study of physical standards of the force, is expected to open the ranks to many more young men who want to become members," Sgt. Will said. Recruits must be between the ages of 21 and 29.

Council Hears Report Tonight

Proposal to Increase Taxi Fares Here Also on Agenda

City Manager Walter K. Willman is slated to report to the City Commission tonight on the practicability of coating all unpaved streets in the city with a dust preventative.

Willman's report was prompted by a discussion at last week's meeting led by Commissioner Floyd P. Miles (District 3).

In other action, the Commission is due to consider final action on a new taxicab ordinance which provides for higher fares.

City Attorney William A. Ewart is scheduled to give a legal opinion on the State Veterans Preference Act as it relates to Pontiac's peddling ordinance.

The City Commission will convene in its new chamber on the second floor of the City Hall, E. Pike and Parke Sts., for the first time at 8 tonight.

Four reports are due from the City Plan Commission.

They concern rezoning acreage on North Perry street, three lots in Perry Farm Subdivision, several lots in Merrimac Subdivision and a lot at Lake and Houston Streets.

A public hearing is set for the Merrimac rezoning along with acceptance of a deed for adjacent land for alley purposes. An ordinance calling for the rezoning is also set.

The Commission also is scheduled to consider:

Application for a carnival license from AMVETS Post 16, on Baldwin avenue between Montcalm and Merrimac.

A request from Ward West and Lillian Archambeau for a new SDM license at 924-926 Joslyn Ave.

A request from Antonio Craparotta for transfer of an SDM license form Frank Rizzuto, 856 Oakland Ave.

First reading of Pontiac historical ordinance is also scheduled.

A special assessment roll is slated to be confirmed for curb, gutter and drainage on Tennyson avenue from Baldwin to Hollywood.

Public hearings are set for the following:

Intention to construct curb, gutter and drainage on Peggy avenue from Voorheis to Hazel.

Intention to construct curb, gutter and drainage on Gerdon avenue from Oakland to Corwin.

Intention to construct curb, gutter and drainage on Fourth avenue from Joslyn to Fuller.

Special assessment roll for curb, gutter, drainage and concrete pavement on Portland avenue from Montcalm to Owen.

Special assessment roll for curb, gutter, drainage and concrete pavement on Kennett road from Baldwin to Wing.

9 Draft Objectors Eat Radiated Food

DENVER (AP)—Nine conscientious objectors are eating food treated with atomic radiation so American soldiers of the future may pot have to battle the traditional tin can.

At Fitzsimons Army Hospital here they are experimenting to see how much nutrition is retained in food when it is preserved with radiation instead of stored in cans.

Maj. Gen. M. E. Griffin, Fitzsimons commandant, joined the nine volunteers in their first such meal yesterday with Lt. Col. Carl J. Koehn, head of the medical nutritional laboratory.

A hospital spokesman said there is no danger in eating the foods.

SUMMER CAMP EXPANDED — Employes of the C. B. DeVlieg company, Ferndale, work on one of two cabins they constructed this spring at Camp Oakland, near Oxford. The two-month summer camp for underprivileged children will open its two-month session July 1. The expanded facilities will allow some 800 youngsters a valuable camping experience this summer, which otherwise would be unavailable to them. Shown left to right are Jack McDermott, 4324 Mandaly St., William Corfield, 712 Lawson St., and A. L. Bricker, 123 S. Conn St., all of Royal Oak.

Plan Has Become Reality

Camp Oakland, Opening Again July 1, Result of Good Will and Good Deeds

By BURDETT C. STODDARD

Opening July 1 will be a summer camp which dramatically demonstrates what goodwill backed by good deeds can do toward giving underprivileged children a more even break in life.

Private individuals contributing money, materials and time have built Camp Oakland on East Drahner road near Oxford into a living institution. Many youngsters, without it, would never have known the character-building values and good honest fun of a camping experience.

Some 320 acres of land surrounding an excellent swimming and fishing lake were purchased in June 1953 by a group joined through the efforts of Oakland County Probate Judge Arthur E. Moore and Director of Juvenile Services James W. Hunt.

On the lake's south side was a large house which the two saw as a year-round home for certain wards of the Juvenile Court—boys who had gotten into trouble, but could be straightened out through providing them a good home life and without need of commitment to a harsher institution. This, they thought, could be supported mainly by the county.

Around the lake's northern shore was envisioned a summer camp to provide a selected group of needy youngsters a social experience helpful in aiding them to overcome adjustment troubles stemming from their everyday surroundings.

The camp would be a public institution supported by private funds. The plan seemed ambitious, but has become a reality in two short years.

The south-shore building was quickly termed the Boys Ranch Division and made the home of 20 court wards with such success that two other Michigan counties hope to establish similar projects, according to Camp Superintendent William Matus.

The boys lead a comparatively free, normal life, going to school in Oxford and join in church, club and other community activities. They do the camp maintenance work and many support themselves through part-time jobs.

Judge Moore has commended the Oxford citizens' reception of the boys saying they "have been accepted by the people of that highly respectable village as a good feature of community living."

Matus praised Oxford Superintendent of Schools R. A. Ambrose and Principal H. B. Johnson Jr. for "their understanding and cooperation in what we are trying to do."

"Although we don't coddle the boys, no physical punishment is involved. They come here voluntarily and understand there are certain things they can't do. We never ask a youth to do something without a reason. When they understand that reason, they comply without hesitation. Matus is aided by John Hamilton and Robert Runk, boys' counselors.

Several youths have left the camp and fitted themselves into outside activities. One is working on a county farm, another is a serviceman in Korea, a third is employed at a local factory.

Private donators have done much to furnish the home. Latest contribution is a recreation porch.

The summer camp project presented a stiffer problem. The basic physical requirements—lake and land—were provided, but cabins, a mess hall, a dock and other facilities had to be secured.

Service clubs and individuals rallied to the call. The West Pontiac Kiwanis Club built a cabin, the Ferndale and Royal Oak Kiwanis Clubs combined to construct another, a third was built from money supplied by over 50 service organizations.

This spring, C. B. DeVlieg, Ferndale industrialist, donated the lumber for a cabin which was constructed by his employes working voluntarily. The employes themselves built another structure. The Birmingham Lions Club plan to put up another this weekend. All six cabins hold 16 campers each. A $30,000 mess hall has been finished.

The camp will see 100 youngsters, 7 through 14 years old, engaging in its varied activities during each of 4 sessions, 2 weeks in duration this summer. Boys will attend the first month and girls the second.

"We hope to have the cabins winterized," said Matus, "so we can provide winter recreation for girl scouts, boy scouts and similar groups."

The youngsters who attend the camp sessions are recommended by social welfare agencies, churches, law enforcement agencies, service clubs and other groups, said Matus.

Nearly all adult workers at the camp, outside Matus' immediate staff, serve without compensation.

During last summer's two-month session only $2.70 worth of damage was done by the campers, which seems a good indication of their respect for the program.

You can become a member of the Camp Oakland community, now an incorporated organization, by contributing $100 or the equivalent in materials.

Tribe, Yanks Open 'Crucial' Series in Gotham

By THE ASSOCIATED PRESS

The calendar insists that it's just the second week in May, but the other seven clubs in the National League may be finding it's later than they thought.

And it isn't necessarily because of Brooklyn's incredible get-away. The Brooks, of course, are off on a romp, winning 21 of their 23 games. But what's made that record even more threatening is the fact only two other clubs are playing .500 ball or better.

There's the rub. Nobody's in position to catch the Dodgers right now even if somebody gets around to stopping them.

* * *

Milwaukee is second, but with a 12-11 record the Braves are just one game over .500. The New York Giants are right at .500 after 22 games, 9½ back of the Brooks and a half game behind the Braves.

The Dodgers are at Chicago this afternoon, with New York at Cincinnati, Philadelphia at St. Louis and Pittsburgh at Milwaukee in night games.

In the American League, idle as was the National Monday, Cleveland's Indians swing into New York's Yankee Stadium with a two-game first place bulge over the Yanks and the Chicago White Sox, who are at Boston in the lone day game. Detroit is at Washington with Kansas City at Baltimore.

* * *

It was Brooklyn, incidentally, that was the most successful road team in the NL last season, winning 47 of 77 for a .610 percentage. In the west, the Brooks were .636, taking 28 of 44 from the Cardinals, Braves, Cubs and Redlegs.

Vice President Buzzy Bavasi doesn't look for his Dodgers to come out of the West unbeaten. All he's asking is that they come home with a 27-5 record. He's willing to take a 6-3 record on the trip.

Manager Walt Alston, who isn't much for talking, said simply "You can't expect it to continue—but I'm hoping." Which just proves some guys are never satisfied. Here's a gent with a team winning at a .913 percentage rate, and he's still hoping.

* * *

The Brooks presently have a 10-game winning streak going, their second of the season after setting a major league mark by winning the first 10 of the schedule. It might be mentioned that Milwaukee had three 10-game winning strings last season, but wound up third, eight games behind.

The AL, apparently straightened out now with Cleveland, New York and Chicago claiming the top rungs, opens another one of those "crucial" series tonight at Yankee Stadium. The Indians will toss Bob Lemon, a real killer under the lights, while the Yanks counter with Don Larsen.

Larsen, the righthander who was 3-21 at Baltimore last season and 1-0 now, may have to be great to stay a Yankee. It's cut-down time and Manager Casey Stengel has four players too many with the deadline Wednesday midnight.

The Dodgers and Cubs, incidentally, were the only two clubs within the 25-man limit (plus service returnees) Monday.

'Pickle' for Dodgers

CHICAGO (AP) — Manager Walter Alston is to receive an award today—a hand carved pickle mounted on a trophy base—before unleashing his feverish Brooklyn Dodgers upon the Chicago Cubs.

Plans call for a member of the National Pickle Assn. to invade the Brooklyn dugout at Wrigley Field before game time to make the presentation to "the man who got himself out of the biggest pickle."

The pickle packers figure that Alston, the object of several player wrangles frequently referred to as club dissension, has gotten himself out of a pickle. They think he is deserving of the award now that the Dodgers have compiled their second 10-game winning streak within a month and have stampeded into a nine-game league lead with 21 victories in 23 starts.

Some baseball experts predict Brooklyn will be cooled off on its expedition in the West which opens with a two-game series with the Cubs. The Cubs returned home after losing five of their last six games for a 5-8 record on the road. But in their last three games they had 27 hits, including 7 homers, 2 triples and 4 doubles.

A repentant Don Newcombe, who was given a 1-day suspension last week for balking at pitching practice, was the Dodgers' mound choice to face the Cubs' Warren Hacker. Newcombe has not completed a game this season although he is credited with three victories.

Despite a miserable 4.95 earned-run average in 20 innings, the big Negro righthander may make the Cubs roll over and play dead with a voodoo sign. He has beaten them 10 straight times.

Hacker is 1-1 for the campaign and has a fine 1.17 ERA in 23 innings. He lost five of seven to the Dodgers last year.

Maas Named to Open Tiger Invasion of Eastern Clubs

WASHINGTON (AP)—The ambitious Detroit Tigers, checked for a time in Chicago, hope to resume their fun of kicking up a big fuss in the American League in a series opening tonight with Washington's 6th-place Senators.

For the opener of an eastern invasion which starts with a two-game series in the capital the Tigers have chosen young Duke Maas for the pitching. He'll be faced by Bob Porterfield, always a troublemaker.

Young Maas will be seeking his 2nd victory against no defeats as Detroit tries to rebound from the three tough Chicago setbacks which dumped them to 4th place. Porterfield has a 4-3 record.

The 3-of-4 loss in Chicago wasn't regarded as devastating, by any means. The games were too close. Three were decided by one run. As a result, Tigers only were irritated. They have vowed to make up for it.

On the strength of the early season evidence, manager Bucky Harris' team ought to make some hay in the East. Except for the Yankees, the Tigers will be playing 2nd division clubs entirely.

After tomorrow's series windup here Detroit moves on to New York and thence to Baltimore and Boston.

Tigers are 1-1 with the Yankees so far. With the others they are on the good long end 7-1. In the earlier series they beat Washington 3-0, Boston 2-1, and Baltimore 2-0.

In the East, among other things, will be tested the hitting streaks of the Kaline - Kuenn combination and the questionable knee of 1st baseman Ferris Fain.

Although the Tigers took some knocks in Chicago, no harm was done either Al Kaline or Harvey Kuenn.

The sensational rookie outfielder hiked his batting average to a cool .407 and shortstop Kuenn boosted his to .390. Kaline has hit safely in 23 of Detroit's 24 games. Kuenn has hit in every one but three.

HARD WAY TO MAKE LIVING — Billy McNeece of Islip, N. Y., takes a hard right to the jaw in the 7th round of Monday night's bout with Tony Johnson of New York in the Eastern Parkway Arena. Johnson followed with 2 more blows to the jaw at the bell, but McNeece rallied in the last 3 rounds to gain a draw.

Spies in Bullpen!

Boudreau Says Tribe Stole Catcher's Signs

KANSAS CITY (INS)—Manager Lou Boudreau of the Kansaes City Athletics charged today the Cleveland Indians stole his catchers' signs Sunday by means of a powerful telescope.

It was mounted, he asserted, behind an army jeep parked near the Indians' bull pen in Cleveland's Municipal Stadium where the Tribe took the doubleheader 9-6 and 2-1.

Ernie Mehl, sports editor of the Kansas City Star, quoted Boudreau as saying:

"Of course, we can't prove anything. If you accused them they wouldn't admit it. About all we could do is use a lie detector and they wouldn't submit to that either. But I know they were getting the signs and they had the greatest chance because with all that army equipment in center field and with all the field glasses out there it was a simple matter."

The army vehicles, on display back of a low screen fence in the Cleveland park, included trucks, tanks and jeeps. The telescope, Boudreau said, was mounted on a tripod hidden behind an army jeep.

Boudreau stopped the 2nd game and one of the umpires ran out to the bull pen. He said the telescope was placed on the jeep which was driven away.

After that, the Redskins stopped stepping confidently into Art Ceccarelli's curves.

Governor Gets Into Probe of 'Mystery KO'

Pennsylvania May Ban Boxing if Satisfactory Answer Is Lacking

PHILADELPHIA (AP) — Gov. George M. Leader of Pennsylvania today enters the investigation of Harold Johnson's sudden collapse in a nationally televised fight, reportedly ready to shut down boxing in the state if a satisfactory explanation is not found.

Leader summoned the state athletic commission to meet with him in the state capitol at Harrisburg to discuss last Friday's fight here in which Johnson, the No. 1 light-heavyweight contender, was unable to answer the bell for the third round of his encounter with heavyweight Julio Mederos

Meanwhile, medical tests continued on Johnson and an orange he ate prior to entering the ring, to determine if he had been drugged. And police began a probe of the fight betting odds.

Inspector John F. Driscoll said the probe was to ascertain if gamblers might have been involved in Johnson's collapse.

Driscoll said he did not know yet if the odds had fluctuated at the last minute. But Senator Benjamin R. Donolow of Philadelphia told the state Senate in Harrisburg Monday that 6-1 odds favoring Johnson had dropped to 2-1 by fight time.

Donolow, in renewing a demand of several months for an investigation of boxing, asserted that the state fight game is "run by hoodlums and racketeers."

The report that Leader might possibly halt Pennsylvania boxing was given Monday by State Senator John H. Dent after he conferred with the governor.

* * *

While Leader remained silent other than to issue the call for today's meeting, Dent told the Senate:

"If it (the explanation for the outcome of the fight) does not appeal to the governor as being an up-and-up answer to this incident . . . I am sure that the governor in his bold and forthright manner will close the sport down long enough for the people of Pennsylvania to again have confidence in those who participate in it."

Mikes Garner Share of Lead in SCL's Race

Fourth Inning Rally Produces 7-3 Victory Over Eaglets

Pontiac St. Michael's baseball team utilized six hits and five St. Mary errors to best advantage and racked up a 7-3 victory over the Eaglets Monday afternoon at Orchard Lake. The contest was a crucial Suburban Catholic League game.

Win enabled Coach Bob Mineweaser's Shamrocks to pull into a 1st-place deadlock with St. Mary. Each team now has a 4-1 record.

Dave Smith went the distance on the mound for the Mikes. He limited the opposition to four hits, two for extra bases. Smith struck out eight and walked five.

Four of his free tickets came in the last two innings when St. Mary loaded the sacks during threatening rallies. But in each case only minor damage resulted.

Pete Ziebron hurled the 1st six innings for the Eaglets, allowing all six of St. Michael's hits. Chojonowski pitched the 7th inning and held the Shamrocks scoreless.

St. Mike's scored its 1st run in the 2nd inning on a hit, a stolen base, and an error. Two more runs counted in the 3rd on two hits, a walk, and another error. Then, in the 4th, Shamrocks pulled away with a four-run outburst on three hits and two St. Mary misplays.

Orchard Lake's club scored single runs in the 2nd, 6th, and 7th innings. Included among their four hits were a triple and a double. Second baseman Bob Anderson led Mikes with two safeties in four trips.

Rams Shut Out by St. James

St. Frederick's Rams suffered their 5th consecutive defeat Monday afternoon on Columbia-Joslyn south field at the hands of St. James of Ferndale in a SCL baseball game. The score was 11-0.

McDonald tossed a neat three-hit shutout at the Rams, while his mates were combining eight hits with seven opposition errors to score almost at will.

St. James scored in four of the seven innings. Ferndale crew tallied four runs in the 1st inning, two in the 2nd frame, three in the 4th, and two in the 6th. McDonald aided his own cause by banging out two lusty triples.

Ed Kast started for St. Frederick and worked five full innings. "Red" Reed finished.

Wind and Cold Hit OCSC Trap Shoot

Oakland County Sportsmen's Club held its 1st registered trap shoot of the season Sunday afternoon, but scores were low and the crowd was small because of strong winds and chilly temperatures.

Dr. B. F. Bragg of Milford won the handicap event, shooting from 19 yards, with a score of 86-100. W. Baggett took 2nd place, while Milt Stevens and Ed Arnold tied for 3rd.

Herb Cutting of the Detroit Gun Club won the 16-yard event with a score of 90. Two others tied for 2nd at 87. Four squads of 20 men shot in this event.

OCSC will hold its next registered skeet shoot on Tuesday, June 21.

Forest Lakers Win First Pro-Amateur Event

Gajda, Eynon Fire 65 to Edge Fast Field in Test at Pine Lake

Firing a sharp 65 round, pro Bob Gajda and prexy Blaine Eynon of Forest Lake Country Club yesterday walked off with top honors in the Metropolitan Golf District's 1st pro-am tourney of the season. Play was over Pine Lake's tree-bordered fairways, and the general run of scores was unusually good.

The winners had a 31-34 card for the 18 holes.

Tied at 66 were Lou Powers, former Oakland county pro, now head of Detroit's municipal golf courses, his partner, Dick Bury, (33-33), and Eldon Briggs of Saginaw CC, and amateur Perry Byard who carded a 34-32. Briggs had low medal for the day with an individual 66. Gajda had 69 on five birdies and 9 pars. Powers fired a 73.

Pete Cooper, new Knollwood pro and Sherwin Ross, pro Joe Thacker and Art Rosenberg, all of Knollwood, tied for 3rd spot with 67.

The leading scorers:

Bob Gajda-Blaine Eynon	31-34—65
Lou Powers-Dick Bury	33-33—66
Eldon Briggs-Perry Byard	34-32—66

Tigers Buy Maxwell From Orioles' Club

WASHINGTON (UP)—Detroit Tigers purchased outfielder Charley Maxwell from the Baltimore Orioles yesterday for the $10,000 waiver price.

Maxwell, native of Lawton, Mich., is a left-handed hitter who was sold to the Orioles last winter by the Boston Red Sox.

He started playing professional baseball with Wellsville in the Pony League in 1947 and led the Piedmont League in hitting in 1949 with a .345 average while playing for Roanoke.

Southfield Golfers Outshoot Northville

Southfield High School's golfers, who have designs on the Pontiac Press Prep tourney trophy, held for 2 years by Birmingham, yesterday racked up a triangular meet victory at Plum Hollow with an excellent 327-stroke score.

Jim Bradley and Bruce Egerer each fired 80s as Southfield out-distanced Northville (369) and Waterford (373). Jack Reynolds had 91 for the Skippers.

Milford and Clarkston shot a 9-hole draw at Davisburg, each carding 195. Bob Murphy's 45 for Milford was low. Brighton defeated Howell, 189-200, with Larry Pearsall booking 43.

Shutout Games Mark Prep Play

Four of Five Monday Contests Wind Up in 'Whitewash' Wins

Shutouts were in style on the prep baseball front Monday, four of five games played resulting in whitewashings.

Clarenceville assumed a half-game lead over Clarkston in the Wayne-Oakland League race by blanking Brighton, 4-0, on the 3-hit pitching of Cliff Labrecque, who struck out 10. Another W-O shutout was posted by Northville's Aubrey King in a 7-0 decision over Holly. He gave 5 hits.

The other Wayne-Oakland test was an 8-inning battle between Milford and West Bloomfield which was called because of darkness with the score tied 3-3. Dan Lancaster and Bill Nicholson swapped 3-hitters, with Milford's Laneaster fanning 14 and Nicholson of Keego whiffing 12.

Roseville shut out Lake Orion in an Oakland-B game, 2-0, although Hutzman and Orion's Chuck Melchert each hurled 4-hit ball. A pinch-hit double by Nardone in the 4th gave Roseville its runs.

Dick Johnson collected one hit for Orion to boost his average to .429, while Dick Scribner's 2 hits hiked his mark to .363.

Oxford goose-egged Ortonville, 6-0, as Larry Spencer scattered 9 hits to keep the plate uncrossed.

Duke Maas to Wed Home Town (Utica) Girl

UTICA (AP)—Detroit Tiger rookie righthander Duane (Duke) Maas has announced his engagement to Nancy Seeman of Utica, who reigned as Romeo peach queen in 1953.

The announcement was made by the parents of the brown-eyed brunet, Mr. and Mrs. Paul Seeman.

The couple plan a winter wedding although no definite date has been set.

Qualifying Starts Saturday

Race Drivers Ready for 1st Assault on 140-Mile-Per-Hour Mark at Indianapolis

INDIANAPOLIS (AP)—On a track designed 45 years ago for 85 m.p.h., the nation's top drivers will try to hit 140 or better Saturday in opening time trials for the 500-mile Memorial Day auto race.

Jimmy Bryan of Phoenix, Ariz., the AAA national big car champion last year, said Monday he wouldn't feel comfortable with a qualifying speed of 139 m.p.h.

Cars with the 33 best speeds in four qualifying sessions will start. Theoretically, all of the first day's qualifiers could be bumped from the lineup if 33 others turn in better times in later trials. There are 57 entries but two were scratched.

The best time on opening day wins the pole position, the inside spot of the first three-car row, and the pole car never has been bumped.

Bryan, who won 100-mile races last year at Langhorne, Pa., Indianapolis, Sacramento, Phoenix and Las Vegas, finished second in the 500 and led 45 of the 200 laps.

Jack McGrath of Inglewood, Calif., who won the pole position last year at a record 141.066 m.p.h. for the 10-mile trial, was timed unofficially at 141.066 Monday in a practice run. Tony Bettenhausen, of Tinley Park, Ill., another speedway veteran, turned a lap at 139.3. Pat O'Connor of North Veron, Ind., Midwest AAA sprint champ the last two years, was clocked over 137 on several laps.

* * *

Bill Vukovich of Fresno, Calif., winner the last two years, "loafed" at 137. Sam Hanks of Burbank, Calif. the 1953 national champion, has been over 139 and Andy Linden of Manhattan Beach, Calif., hit 138 Monday.

Hanks turned laps over 144 m.p.h. on the speedway last summer in tire tests with an oversize engine, ineligible for the race.

New Englander Is Nation's 2nd Ring Fatality in '55

PROVIDENCE, R.I. (AP)—Middleweight Jose Contreras, a 28-year-old ring veteran from Taunton, Mass., today was listed as the nation's second boxing fatality of 1955.

Contreras died at Rhode Island Hospital Monday from injuries suffered when he was stopped by Bob Bolton in the eighth round of a scheduled 10 rounder in Providence May 2.

His death also marked the second ring fatality in New England in five months. Ed Sanders, 1952 Olympic heavyweight champion, died Dec. 12, less than 24 hours after collapsing in the 11th round of a 12-round New England title bout with Willie James in Boston Garden.

The nation's other fatality in 1955 resulted when Bryan Thompson, 23-year-old Philadelphia middleweight, died April 17. He suffered a head injury when knocked out in the second round of a fight with Jerry Luedee of New Haven, Conn., in Trenton, N.J., March 29.

Contreras regained consciousness briefly the day after the fight and talked with his wife, Mary, their daughter, Wanita, 3, and his step-son, Billy, 12. Later he lapsed back into a coma.

Bolton, 24-year-old Navy enlisted man stationed at Quonset Point Naval Air Station, was arrested on a technical manslaughter charge after Contreras' death. He pleaded innocent and was released in $1,000 bail for trial May 19.

Lopez Trying to Find Spot for Dave Pope

CLEVELAND (AP) — Manager Al Lopez, who remarks "it's nice to have so many good players around," is trying to find a place to fit Dave Pope into the Cleveland Indians lineup.

The Tribe opens a 12-game Eastern trip tonight against its arch rivals, the New York Yankees.

Pope, substituting for injured Lary Doby Sunday, belted his fourth home run in six games. And during those six, the young fielder knocked in the winning run three times.

"I'll try to keep him in the lineup somewhere," Lopez said. "He's hot and we might do some switching around to let Dave play. I don't know exactly what we'll do, though."

Panthers Lose 15

PITTSBURGH — Graduation this year will claim 15 of Pittsburgh's 1954 football veterans.

Penn Favorite for Eastern Boat Race

NEW YORK (AP)—The University of Pennsylvania, conqueror of once unbeatable Navy, is favored to win the Eastern sprint championship Saturday for heavyweight eight-oar shells.

The race will be staged on the Potomac River at Washington, D. C., with an even dozen entries. Penn and Navy will renew their rivalry as the first and second-seeded crews.

Penn ended Navy's record 31-race winning streak last Saturday.

Pollock Quits Leafs

TORONTO (AP) — Frank Pollock, general manager of the Toronto Maple Leafs in the International Baseball League, resigned today. His position was taken over by 43-year-old Rudie Schaffer, a former associate of Bill Veeck's in Milwaukee, Cleveland and St. Louis.

Pimlico Opens 18 Day Race Program

BALTIMORE (AP)—Pimlico Race Track, which will offer the $100,000 Preakness here May 28, today opens its 18-day spring meeting.

The opening-day feature will be the $5,000 Baltimore Spring Handicap in which Duke Singer's hangover is top weighted at 126 for the 5½ furlong event.

The 4-year-old winner of six races in Florida during the winter will carry nine pounds more than the second-weighted pair of Landsear and Jick Jimmie.

New York Commission Delays Ring Inquiry

NEW YORK (INS) — The New York State Athletic Commission has postponed its inquiry into alleged boycott practices of the powerful Boxing Managers' Guild until May 19.

The commission set that date yesterday because it will then be able to hear from James Norris, president of the International Boxing Club, who is currently on the West Coast for next Monday's title fight between Rocky Marciano and Don Cockell.

McNeece Battles Johnson to Draw; Logart Is Victor

NEW YORK (AP)—Wildcat Billy McNeece is a cinch not to win any boxing titles this year but he's a hot candidate today for "Television Fighter of 1955" honors.

The 23-year-old ex-paratrooper from Islip, N.Y., says he "loves to fight" and after watching him once there won't be any doubt in your mind about that.

The tall redhead wasn't in his best shape last night but he gave the 1,210 fans in the Eastern Parkway Arena and the network TV fans a load of thrills in battling lightheavyweight Tony Johnson, of New York, to a draw in an action-packed 10-rounder.

* * *

A 165-pounder, the Wildcat was nine pounds over that weight in his first outing since he was smashed up in an auto accident four months ago. The doctors required 34 stitches to patch up his head and face wounds that night.

* * *

Johnson, a muscular 172-pounder, was a 3-1 underdog against his more noted rival who has appeared on many TV fight shows. The brawny-armed, 24-year-old Johnson gained prestige with the draw. His impressive showing in the toe-to-toe slugfest should put him in line for more feature fights.

* * *

In another spirited scrap last night, Isaac Logart, a Cuban welterweight, stretched his winning streak to six by gaining a unanimous 10-round decision over Ludwick Lightburn, of British Honduras, at the St. Nicholas Arena.

Michigan Racing Association Drops Plan to Sell Livonia Track to Texas Millionaire's Charity Group

DETROIT (AP) — Project of the Michigan Racing Assn. to sell its track and interests to a Texas charity group for a reported five million dollars has been abandoned.

The MRA, opposed by church groups and others, gave up yesterday though, insofar as the record shows, not because of the opposition.

George Haggarty, association vice president, said the sales plan had been cancelled because there was not time to complete it between now and the May 20 race meeting opening.

The MRA had intended to sell its Detroit mile track and properties to Boys, Inc., the Texas charity racing group headed by oilmen Sid Richardson and Clint Murchison.

The proposal had caused a stir in Michigan.

The Michigan Council of Churches, representing 26,600 congregations, opposed it on what it called moral grounds.

* * *

Legislative opposition also developed. The state senate passed a bill last week to outlaw charity-organized racing.

* * *

In that connection the MRA is demanding a hearing before the house acts on the bill. The MRA says the bill would kill off any kind of charity racing programs in Michigan and that charity would suffer.

State racing commissioner James H. Inglis was among those who expressed regret at the failure of the sale to go through.

"I am sorry to see the plan withdrawn," Inglis said. "I felt that it would have been a forward step by the horse racing industry."

* * *

Haggarty, in making his announcement, said the MRA had withdrawn its request for a government tax ruling in the proposed sale to Boys, Inc. He said it was "unlikely" that the request would be renewed.

"There isn't enough time to complete the proposed sale before we open our racing season May 20," Haggarty said.

* * *

Haggarty denounced the bill before the legislature. He said it would cause charities to lose more than a half million dollars a year if enacted. He said this would be the revenue to charities from a series of racing "charity days."

Divorce May Pave Way for Ted's Return

MIAMI, Fla. (AP)—A Florida circuit judge may decide today whether Ted Williams returns to baseball.

Dade County Senior Circuit Judge George E. Holt, called Thumping Ted "out" at home Monday in granting a divorce to Mrs. Doris Soule Williams on her plea that she and the Boston Red Sox star "just couldn't get along."

But the Tennessee-born judge postponed until today a ruling on how much money Williams must pay the attractive, dark-haired woman he married 11 years ago. One of Mrs. Williams' attorneys indicated she had agreed to a lump settlement.

It was believed Williams would await the court's ruling on the size of the settlement before making up his mind whether to return to the game that made him famous and paid him as high as $100,000 a season.

* * *

"I'm not sure if I'll play baseball," Williams said after the 30-minute divorce hearing.

Williams attended the hearing but didn't take the stand and did not contest the action.

"Ted told me he didn't think he wanted to be married any more," Mrs. Williams told the court.

She testified Williams had been giving her $125 a week and had paid such extra expenses as new tires for her Cadillac. She said he paid her $12,500 since Jan. 1, 1954, and paid taxes and insurance on their $42,000 home in South Miami.

Williams' attorney asked the slugger's wife how much she would need to keep herself and their 7-year-old daughter, Barbara, in the style to which she was accustomed.

"I have no idea," she replied.

* * *

They were married May 4, 1944, in Pensacola, Fla., where she had been a hotel cashier and he was in the Navy. Mrs. Williams filed for separate maintenance on Jan. 19, 1954, charging "mental abuse, both private and public."

Attorneys for both sides attempted to bring about an out-of-court settlement but when these efforts failed, she filed for an outright divorce.

Williams operates a fishing tackle business in Miami with Sam Snead, the golf star, but spends most of his time fishing in the Florida Keys.

* * *

In Boston, Red Sox General Manager Joe Cronin said he didn't know any more about Williams' baseball plans than anyone else.

As usual, Williams wasn't talking.

However, Boston Sports Editor Ed Costello of the Herald, reported that Williams plans to join the Red Sox Friday. Williams, the Herald said, will be ready for pinch-hitting duty a week later and for full-time duty by May 27.

"He's confident he can be ready for limited duty after only a week of working out because he kept in excellent physical condition this winter," the newspaper reported.

Officials to Wait and See

Cards Won't Be Panicked Into Deals Despite Bad Pitching and Losing Streak

ST. LOUIS (AP)—St. Louis Cardinal officials have adopted a wait-and-see attitude about the ball club which is staggering under a seven-game losing streak with only two complete games by pitchers.

The Birds, 11½ games out in the National League chase, have just eight victories to show for their 20 games played this season.

Bill Walsingham, club vice president, indicated Monday nothing is planned "at this time" to help the club right itself but he didn't mean officials were satisfied with the performance to date.

* * *

"If we said we were," Walsingham said, "we'd be lying. But any decision we might rush into now could be premature. We really haven't seen enough of most of our pitchers to say they can't do the job."

Walsingham said the club won't be panicked into any possible deals and doesn't have any exchanges on the fire between farm clubs.

* * *

Manager Eddie Stanky insists "I'm not concerned at all about recent developments." Both Stanky and Walsingham agreed that "if we can get eight or 10 days of steady play the staff may find itself."

So far Rookie Larry Jackson and Brooks Lawrence own the only two complete games. Jackson, in his major league debut, downed the Chicago Cubs on four hits April 17 and Lawrence trimmed Milwaukee and Warren Spahn April 22.

* * *

A look at the earned-run-averages of the pre-season big four of the pitching staff quickly points to one of the trouble spots.

Harvey Haddix, lefty ace the past two seasons, has a 5.91 mark for 35 innings pitched and a 1-4 record. Lawrence has pitched in 20.2 innings for a 6.84 ERA and a 1-2 mark. Tom Poholsky is 0-1 after only four innings with a whopping 13.50 ERA and Gordon Jones stands 0-1 for 16.1.

Pontiac Quint Hits Day's Top Total in ABC

Huron Bowl Rolls 2,913 but Falls 100 Pins Short of Joining Leaders

Pontiac's Huron Bowl quintet rolled a 2,913 total Monday night for the day's top effort at the American Bowling Congress Tournament in Fort Wayne, Indiana. The tourney is now in its 45th day of competition.

Pontiac's representative made a drive to land among the team leaders last night, but fell short by 100 pins. The 2,913 series was highlighted by a 1,004 middle game.

Joe Bonfiglio's 03 sparked the Huron Bowl crew, which opened with a 924 and finished with 985. A score of 3,012 or better is necessary to land in the top ten of the standings.

Representing the Huron Bowl team at Fort Wayne are Les Rothbarth, Ron Rothbarth, Bill Bull, Ted Sutton, and Bonfiglio.

There were no changes in the standings of any the top spots, after yesterday's full day of bowling, according to wire reports of tourney activities.

Teen-Ager Sets Sights on Title

Southern Medalist Is a 16-Year-Old; Breaks Course Mark on 72

SHREVEPORT, La. (AP) — Match play began today in the Women's Southern Golf Tournament, and a 16-year-old high school girl set her sights on the title held by veteran Polly Riley.

The school girl is Clifford Ann Creed of Opelousas, La.

Miss Creed posted a par-72 that won her medalist honors in the qualifying round Monday and broke a course record set about 30 years ago. The old record was 73.

Par for women on the 6,284-yard Shreveport Country Club course usually is 76, but is lowered to 72 for the tournament.

Miss Riley, the Fort Worth sharpshooter who has held the title five times, qualified with a five-over-par 77, good for fifth in medal play.

Campy Regains Batting Form; Now Hits .353

Skowron, Power Still Lead AL, Despite Bad Muscle Strains

NEW YORK (AP)—Any doubt as to the condition of Roy Campanella's left hand is being dispelled by the Brooklyn catcher's batting exploits. He's regained his 1953 form.

Hampered by the injured left hand, Campanella wound up with an anemic .207 batting mark last season. But through Sunday's games, he was hitting .353, good for fourth place among the National League's batters, and was one of the main cogs in the Dodgers' amazing surge.

Campy gained 9 points in games last week with 9 hits in 24 times at bat. He is second in the runs batted in competition to teammate Duke Snider with 26 to the Duke's 29.

* * *

Associated Press statistics today showed Bill Virdon of the St. Louis Cardinals the National League batting leader with a .424 mark, although Don Mueller of the New York Giants is close on his heels with .421. Mueller has hit safely in his last 21 games. Rip Repulski of St. Louis is third with .367.

In the American League, Bill Skowron of New York and Vic Power of Kansas City, both out with pulled leg muscles, remained one-two in batting. Skowron is hitting .451 and Power .415.

Al Kaline of Detroit is third with .407 followed by Harvey Kuenn, also of the Tigers with .390.

Campanella was the National League's Most Valuable Player of 1953 when he batted .312, hit 41 home runs and drove in 142 runs.

Carl Erskine of Brooklyn and Bob Turley of the Yankees have the best won-lost records among the pitchers. Each has five victories and no defeats.

Broncs Win Triangular

BOWLING GREEN, O. (UP)—Western Michigan won six 1sts and piled up 70 points last night to win a triangular track meet here. Bowling Green, host school, finished 2nd with 58¼ points and the University of Cincinnati got 26¾ points.

Detroit is considering an outdoor lighted golf course.

Donovan and Erskine Lead Major Hurlers

Brooks' Ace Compiles a 1.44 Mark, Pale Hose Star Has 1.24 ERA

NEW YORK (AP)—Brooklyn' Carl Erskine, the veteran right-hander with 94 major league victories to his credit, and Dick Donovan, of the Chicago White Sox, who never had won a big league game until this season, topped the majors in earned run averages today.

Erskine, who has contributed five victories to the Dodgers' phenomenal surge, has given up only eight earned runs in 50 innings for an earned run mark of 1.44 to lead the National League. He has yet to lose.

Donovan, also a right-hander, has permitted four earned runs in 29 frames for a 1.2. ERA.

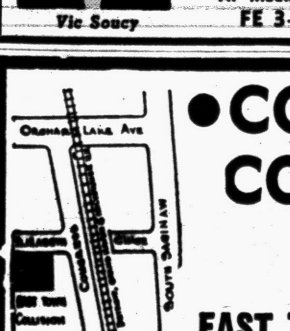
Johnny Antonelli of the New York Giants, the National League's earned run leader in 1954, is runner-up to Erskine with 1.69. Rookie right-hander Ronnie Kline of Pittsburgh is third with 1.80, followed by Murry Dickson, Philadelphia Phillies, 2.17; Joe Nuxhall, Cincinnati, 2.25; Jack Meyer, Phils, 2.33; and Nelson King, Pittsburgh 2.48.

Sandy Consuegra of the White Sox, who finished second to Cleveland's Mike Garcia, the American League leader last year, is in the same position this season. He trails Donovan with a 1.29 mark.

Bob Turley of the New York Yankees is third with 1.40, followed by Steve Gromek, Detroit, 1.84; Johnny Schmitz, Washington, also 1.84; Billy Hoeft, Detroit, 1.89; Mike Fornieles, Chicago, 1.93; and Frank Lary, Detroit, 2.30.

Sam Snead Golf School

As today's picture shows as you swing down your weight passes from right leg to left so that at impact your weight is forward. Then you are in position to deliver full, rhythmic power to the ball. Today's golfer is swinging into an



iron shot. At this moment—and position—his feet are flat on the ground, providing a firm base, and both arms fully extended. His shoulder is starting to rise. This permits his right shoulder to pivot under the chin, after the ball, in a full, sweet follow-through. You must be in a position to swing without losing your balance. This calls for a good, firm foot-grip on the ground.

Prep Grid Star Is Expelled for Beating Motorist

Center Line Youth Punches Driver for Honking Horn

DETROIT (AP)—Johnnie Dean, 17-year-old prep football star, was expelled from suburban Center Line High School yesterday following his conviction of beating up a motorist in a minor traffic argument.

Justice of the peace Raymond R. Grubba ordered the youth to spend the next six weekends in the Center Line jail. He also was fined $100 and placed on six months probation.

The 6-foot-3, 247-pound athlete was accused of beating up Earl Sheppard, 28, of Utica, a factory worker, who is 5-7 and weighs 150.

Sheppard charged that while driving on Van Dyke in Center Line Saturday night he blew his horn at the 16-year-old driver of a car in which Dean was a passenger. He testified the other car forced him to the curb and Dean got out and began punching him.

Johnnie won't get his diploma at his senior class commencement June 16. Principal Reginald Eldred said: "No one who brings discredit on the school can hope to be one of its graduates."

Phillie pitcher Robin Roberts was switched from 1st base to the mound while playing at Michigan State.

Lake Orion School District Approves Bonds, Tax Hike

4-1 Margin OKs $1,500,000 Loan

Begin Work on Plans for High School, Eight Elementary Rooms

LAKE ORION—Voters of the Lake Orion school district approved a $1,500,000 bond issue and a tax increase by a 4-1 margin in balloting yesterday.

In a heavy turnout, the bond proposition won, 913 to 227. The three mill tax boost for operating costs also was favored by a wide margin, 988 to 261.

This was the first election in the district since five smaller districts joined it in June, 1954.

The bond issue would finance a $1,250,000 high school, and eight additional elementary classrooms. Erected on a 40 acre site, the new high school will contain 30 teaching areas, in addition to general offices, conference rooms, a health clinic, and boiler and stock rooms.

The $3 per $1,000 of assessed valuation, as equalized, would be for the period of 1956-60.

The building program was approved and backed by the Citizens Advisory Committee, which will hold a meeting tonight.

The board of education met last night when the polls closed to canvass the votes. Architects are scheduled to begin work on detailed plans at once.

Superintendent of Schools Arlie Reed said "we hope to begin construction this fall, and have at least some class rooms ready by September, 1956.

Commercial Zoning Approved by Troy

TROY TOWNSHIP — The Troy Township board last night approved the recommendation of the township zoning board of appeals for a commercial zoning for a triangular tract of land adjoining Birmingham.

The property, owned by Arthur A. Nechman and Harold Merick, will be developed into a modern shopping center. It is located north of Derby Road, between Adams Road and the Grand Trunk and Western Railroad.

Owners will provide sewer and water facilities at their own expense. The stores will be developed back of the tracks, with the frontage used for parking facilities.

Birmingham residents have opposed the plan, which would bring the first shopping center to Troy Township. The Birmingham school district has acquired the land south of Derby for a new school.

The engagement of Eva M. Southard to James G. Scott III has been announced by her parents, Mr. and Mrs. Robert Southard of Commerce. Her fiance is the son of Mr. and Mrs. J. G. Scott Jr. of Twin Beach, Middle Straits Lake. No wedding date has been set.

Nurses Tea at Almont to Aid Area Hospital

ALMONT — The newly organized Tri-County Nurses Association will hold a benefit tea Thursday at the Bishop Hospital. Proceeds of the affair will go toward the proposed new hospital being planned for this area.

The tea will be an open house affair from 2-4 p.m. and 7-8:30 p.m. The May 12 date was selected because it is Florence Nightengale Day.

A tentative site between Almont and Romeo is being considered for the hospital, and actual fund raising is expected to begin early this fall, David Ross, hospital foundation president, has announced.

Charles Liscomb Weds Fern Reker in Utica Rite

ALMONT — Fern Carol Reker and Robert Charles Liscomb spoke their wedding vows recently at the First Methodist Church in Utica.

Fern is the daughter of Mrs. Kenneth Loomis of Almont. Robert is the son of Mrs. Dora Liscomb of Romeo.

The newlyweds spent their honeymoon in northern Canada. They are making their home at 253 Chandler St., Romeo.

U.S. Ships Load Anti-Red Refugees While Vietminh Moves Into Haiphong

HAIPHONG, North Viet Nam (AP) —A U.S. Navy task group loaded thousands of refugees from Red rule here today as Communist-led Vietminh troops moved in to take over this port city under terms of the Indochina armistice. The French will be out of the big port by Friday.

The American ships, commanded by Capt. A. R. St. Angelo, of Providence, R.I., were expected to carry some 80,000 more persons who want no part of Red rule to Western-allied South Viet Nam. There they will join 762,000 other North Vietnamese who fled earlier.

* * *

The flotilla stepped up operations yesterday when the vanguard of Ho Chi Minh's victorious Vietminh army rumbled into Haiphong's suburbs, continuing their treaty-arranged takeover of all North Viet Nam from French Union forces.

Only a small peninsula to the south of the city remains in full French control. It must be turned over by May 16, when the last of the 8,000 or more French troops in the territory must leave.

* * *

Although the bulk of the Vietminh advance units remained in the suburbs, special guards immediately took control of the city's administrative centers and services — city hall, police, post and telegraph, health and social services — in preparation for the full occupation scheduled Friday.

Embittered French troops, under the command of Gen. Rene Cogny, moved south to the Doson Peninsula as the Vietminh pulled in. Transport ships waited at the tip of the peninsula, 18 miles southeast of the city, to take them to Saigon and eventually to France.

* * *

The surrender of the 8,000 square miles of North Viet Nam, with its rich cities of Hanoi and Haiphong, was the price France agreed to pay at last July's Geneva conference for peace in Indochina. The settlement followed France's worst defeat since her collapse early in World War II—the fall of Dien Bien Phu fortress.

Haiphong's 236,000 people awaited the formal entry of the Vietminh forces in a grim, tomblike silence. Nearly every home and business establishment in this once bustling commercial hub was shuttered.

* * *

Haiphong's harbor — chief port of entry for the billions of dollars in war material which the United States poured in to help the French —was virtually lifeless except for the movement of refugee ships.

Three U. S. transports, the Marine Adder, the Marine Serpent and the General Brewster, are rushing to Saigon and returning. French ships picked up load after load of refugees from Haiphong's docks and carried them 40 miles east to board other American ships.

Avondale School Plans Carnival

Annual Event Slated for Friday Evening, Will Include Midway

AUBURN HEIGHTS — A midway, boxing bouts, a variety show, and a country store are some of the attractions planned for the Friday night annual spring carnival at the Avondale High School.

The high school faculty and the PTSA are planning the event.

Finale of the evening will be the crowning of the winning king and queen by Superintendent of Schools R. N. Baker. Winners will be determined by the class which sells the most penny votes.

Candidates representing the different classes are Elaine Moore and Marvin Hennin, seniors; Deanna Myhers and James Morgan, juniors; Sarah Jane Cooper and Fred Hyten, sophomores; and Nelda Hyten and Dennis Evans, freshmen.

Reds Wine, Dine 9 Visiting Yankees

MOSCOW (INS) — Nine one-time American GIs were the guests of honor last night at a traditional Russian-style banquet at Moscow's Red Army Club.

The U.S. veterans, in the Soviet capital for a reunion with Red army veterans of the Elbe River linkup of Allied armies in 1945, were wined and dined by Russian army officers.

A spokesman for the Americans, Joseph Polowsky of Chicago, said the banquet went off "wonderfully well."

Polowsky also said he would make an effort to persuade Russian veterans to agree to having their fingerprints taken, and thereby receive visas to enter the U.S.

A visit by a group of student editors was called off by Moscow because of the U.S. visa provision for fingerprinting.

MR. AND MRS. JAMES PETERS

James Peters and Bride Returning to Flint Home

LAKE ORION — Returning to Flint after a week's trip into northern Michigan are Mr. and Mrs. James Peters.

They spoke their wedding vows recently in an evening double ring ceremony at the St. Mary's-in-the-Hills Episcopal Church.

The bride is the daughter of Mr. and Mrs. Cecil Driver of Lake Orion. Mr. and Mrs. John Peters of Independence, W. Va., are the bridegroom's parents. The bridegroom lives in Flint.

The bride's choice for the wedding was a floor-length gown with a fitted lace bodice, full length sleeves, and a skirt of white tulle over satin. She carried a bouquet of white carnations centered by an orchid.

Mrs. James Hewitt of Lake Orion, sister of the bride, was the matron of honor. Lois Hopkins of Gingellville was the bridesmaid.

Attending the bridegroom was his brother, John Peters. Roy Driver and Raymond Peters, brothers of the bride and bridegroom, seated the guests.

Milford Council Approves Exchanging Mayor Smith

MILFORD—The village of Milford will exchange mayors with Mount Clemens next Monday, it was decided at the meeting of the council last night.

The visiting mayor will be Harold Lindsey, who will tour local plants. A special meeting has been called by the council for Monday night, to discuss the advantages and disadvantages of becoming a city.

Mount Clemens has been a city for more than 25 years.

A conducted tour of Mount Clemens industry has been planned for Bartlett B. Smith, Milford mayor. He will preside at a special council meeting there that night.

Bids on resurfacing Milford's part of General Motors Road has been asked by the council. This includes 1,000 feet of road west of Milford.

The new subdivision being built in the heart of Milford by Houston and Heatley was approved by the council members. The area under construction is just east of Commerce road.

Independents Filling Gap as Big Studios Cut Back

By BOB THOMAS

HOLLYWOOD (AP)—The trend in the movie industry continues away from big studio operations and toward more independent production.

Exhibitors have been wailing about not having enough new pictures to keep their theaters booked. The big studios have drastically cut production because run-of-the-mill pictures no longer pay off. Only the special attractions make money.

* * *

It's up to the independents to fill in the gap, and they are thriving as never before. United Artists, which finances and releases films for independents, plans to put out 45 pictures this year, compared to an average of 30 for the majors.

And now all of the major companies are releasing films for independents.

How does an independent operate?

Take the case of Robert Aldrich, who is now producing and directing "The Big Knife" with a cast that would give credit to any studio: Jack Palance, Ida Lupino, Shelley Winters, Wendell Corey, Rod Steiger, Jean Hagen, Ilka Chase and Everett Sloane.

* * *

The project started five years ago, when Aldrich was a successful movie production manager (he handles all the business details). Having worked on a number of John Garfield pictures, he was in New York when the late actor starred in Clifford Odets' play "The Big Knife." It was the story of a male star's temptations in Hollywood.

The play was a flop, but Aldrich saw film possibilities. Aldrich whipped up a script, which he wanted to direct in films.

"But though I was one of the most successful production managers in the business, I couldn't direct traffic," said the pudgy, affable Aldrich.

It took him a few years to remedy that. He started directing with a couple of small films, then jumped to "Apache" and "Vera Cruz" for Burt Lancaster. After producing and directing a Mickey Spillane film, he decided it was time to sharpen up "The Big Knife."

For $10,000 plus a percentage of the profits, he acquired the story rights from Odets and lined up the cast.

The budget came to $425,000 of which $263,000 was for the cast. This is amazingly low, considering the size of the cast. A similar project on a major lot would probably run a million and a half dollars.

Within three days of getting the green light from the backers, Aldrich was in production. He shaved costs by using an ancient but adequate studio near downtown Los Angeles.

He hopes to complete the film in 15 days, barring temperament—"that's one thing you can't budget."

Bandit Gets Lecture

BOSTON (UP) — A bandit who held up a Back Bay cleaning shop got $25 and some advice from his victim. The clerk, Mrs. Frances Lockhart, 56, told the bandit: "You're getting off on the wrong foot young man."

Huge B52 Jet Stars at Show

Boeing Stratofortress Makes 1st Public Bow at Florida Base

EGLIN AIR FORCE BASE, Fla. (AP) — The huge B52 Boeing jet Stratofortress was a star in the latest firepower show by the Air Force's Air Proving Ground Command.

The eight-jet-engine bomber, making its first appearance at a public air show in yesterday's demonstration, flew nonstop to Eglin from Seattle, Wash.

It arrived exactly as scheduled at 3:59 p.m. after a 2,200-mile flight. The average speed was not disclosed.

* * *

The big swept-wing ship was escorted by two F84F jet fighters as it swooped past bleachers containing 6,000 spectators.

The B52, designed to carry hydrogen bombs to distant targets, will use a six-man crew.

Its wing span is 185 feet and over-all length 156 feet. Speed has been officially announced as more than 600 m.p.h. and range more than 6,000 miles.

The Stratofortress is intended to replace the B36, combination jet and piston-engine heavy bomber.

* * *

The Eglin demonstration included rocket firing by an F89C Scorpion and an F84F Thunderstreak. A B27 Canberra light bomber also showed the first use of 500-pound incendiary bombs with parachutes.

A high point of the show was a demonstration of toss bombing, a comparatively new technique for delivery of an atomic bomb. An F84F fighter and a B57 bomber both tossed 1,000-pound bombs in an arc more than two miles long on targets.

* * *

The method allows aircraft delivering atomic bombs to get some distance away before the explosion.

Miss Michigan Contest Entrants Sought by Group

MUSKEGON (UP)—The Muskegon Junior Chamber of Commerce has issued a call for girls to participate in the annual Miss Michigan contest here June 29.

The contest committee said girls who have won community and college beauty contests are eligible to take part in the Miss Michigan pageant if they are between the age of 18 and 28 and are either high school graduates or a high school senior.

Contest officials said they expect about 20 girls to take part in the contest. The winner will represent Michigan in the Miss America contest at Atlantic City, N. J., in September.

Last year's winner — Jan Somers of Michigan State College—will be on hand to crown the winner and Lee Ann Merriweather, Miss America of 1955, will be mistress of ceremonies.

Jan won her title in the second Miss Michigan contest last year after the winner of the first event—Delores Susin of Bloomfield Hills—was stripped of her title when contest officials discovered two judges had padded their ballots and Jan went on to finish fourth in the Miss America contest.

Contest officials said they are taking every precaution to insure there will be no ballot padding this year.

Ike's Recipe for Chili Doesn't Need Tomatoes

By EARL WILSON

NEW YORK—The shocking discovery that President Eisenhower cooks chili con carne without tomatoes may cause a lot of Republicans to vote Democratic next year.

Ike's snooting of the tomato was called to my attention by my mother-in-law who'd just been reading his recipe in Merriman Smith's book, "Meet Mister Eisenhower."

★ ★ ★ ★

"He's heavy on the garlic . . . but how can a President of the United States not like tomatoes?" said my mother-in-law, who learned chili-making in St. Louis, Kansas City, Wilkes-Barre and other old Spanish capitals.

TOMATOES TABOO

"Still," she added, "I've heard rumors of other people not using tomatoes. Maybe it's an underground movement of some kind."

★ ★ ★ ★

I decided to ask an expert whether Ike was really making chili or just some low-grade substitute. Maybe the poor man had just never learned the right way.

After all, many of us are kept in ignorance of the better things of life through lack of proper communication. Some Milwaukee friends, here vacationing, switched to Manhattans because the New York bartenders don't make martinis with anchovy olives. The New York bartenders allege they never heard of anchovy olives, they said.

★ ★ ★ ★

So I talked to the boss of El Charro, a fine Spanish-Mexican restaurant at 4 Charles St. in Greenwich Village, often visited by my womenfolk.

"Use tomatoes?" echoed the boss lady, who has a nice Spanish name, Maria Garcia. "Of course I use tomatoes. That is, tomato paste. It's very important. Of course, some people don't like tomatoes."

★ ★ ★ ★

"What kind of people?" I asked loftily.

"Texans," she whispered, with a quick glance around to see if anybody had heard.

"Oh, so **that's** why Ike doesn't use tomatoes! It's the Texas school of cooking," I said.

★ ★ ★ ★

Maria Garcia had one other slight criticism of Ike's chili con carne. Where he adds water, she adds chicken broth or beef broth and she also prefers pink beans to red beans.

"Thank you, Maria Garcia," I said to her, "for setting the President of the U. S. A. right on his chili-making. It's nice to have talked to an authentic Spanish-Mexican lady about the subject. Which country are you from . . . Spain or Mexico?"

★ ★ ★ ★

"Neither one," the authentic Spanish-Mexican lady replied. "I'm from Brooklyn . . . Red Hook."

THE MIDNIGHT EARL . . .

Joe DiMaggio has said farewell to the N. Y. scene (he announces from California); he'll stay there, and golf, get the sun, and relax . . . Seeing Conn McCreary in Toots Shor's, Mrs. Bullets Durgom asked, "Isn't he awfully small to be a jockey?"

★ ★ ★ ★

Jackie Gleason refuses to enter into the time-slot fight with Perry Como being promoted by the networks; he'll do his Saturday night "Honeymooners" at 8:30-9 as it stands now.

VIKKI

Dennis King—who'll be replaced in "Lunatics and Lovers" by Jerome Cowan—says, "The only thing I'll miss will be Sheilah Bond's bathtub scene" . . . Howard Hughes reserved a table for six at the Las Vegas Sahara, then sat through the show alone . . . Father Divine's banned a picture mag from his "heavens" . . . Vikki Carol and Joe Derise are the attractions at The Metronome.

Set Education Meet at Lansing May 18

LANSING (AP) — Fifteen hundred invitations have been mailed for Michigan's White House Conference on Education, to be held in Lansing May 18.

The conference will be attended by teachers, school administrators and civil leaders from throughout the state.

President John A. Hannah of Michigan State College will deliver the keynote address. Also scheduled to speak are Gov. Williams, Clair L. Taylor, state superintendent of public instruction, James A. Lewis, vice president of the University of Michigan, and Neil H. McElroy, president of Proctor & Gamble Co. and chairman of the National White House Conference.

Canada, Brazil and Sweden consume more than one ton of fuel wood per capita each year because of a supply abundance.

Selling Sends Wheat Lower

CHICAGO (AP)—A small amount of selling sent new crop wheat futures lower in moderately active dealings on the Board of Trade today.

Other grains opened steady, but the tendency was to drift lower in sympathy with new crop wheat. Even May wheat backed down after getting off to a steady start. Rye held up better than anything else.

Wheat near the end of the first hour was ⅝ to ⅞ lower, May $2.17¾; corn unchanged to ¼ lower, May $1.45¼; oats unchanged to ⅜ lower, May 78⅜; rye ¾ to 1¾ higher, May $1.02¼; soybeans ¾ lower to ½ higher, May $2.54½; and lard unchanged to 5 cents a hundred pounds lower, May $12.60.

Girl in Good Condition After 3-Car Collision

Miss Barbara Sauvage, 17, of Ortonville, injured in a 3-car crash Sunday night which took the life of a Detroit man and injured six others, was reported in good condition today by Pontiac General Hospital authorities.

The girl, a passenger in a car driven by Leon J. Weeks, 24, of Ortonville, sustained a broken hip, elbow and ankle, in the M15 collision.

Other injury victims were treated and released from the hospital or are reported in good condition.

Stocks Develop Lower Trend

NEW YORK (AP) — The stock market was mixed today in early dealings. There was a lower tendency apparent.

Prices ran from around 2 points lower to a point higher. Trading was moderate.

Montgomery Ward, yesterday's most active issue up 4½, opened today on a block of 5,000 shares up ⅜ at 80⅜. Interest in the stock developed following the resignation of Sewell Avery as chairman of the board.

American Telephone opened today on 2,300 shares off 1½ at 183½, Zenith radio lost 2 points, and Union Pacific and Westinghouse Electric were down around a point.

Most changes were small either way, and there was no pronounced trend in any major division.

That was much the situation yesterday. The market was higher most of the day and then sold off toward the close to end quite mixed. The Associated Press average of 60 stocks ended unchanged at $164.30.

Higher were Dow Chemical, Du Pont, General Electric, American Tobacco, Sante Fe Railroad, and United Aircraft.

Junior Colleges May Get Funds

Michigan Senate Opens Debate on Bill to Grant Extra Revenue

LANSING (AP)—The Senate has opened debate on a bill giving junior colleges their first taste of State General Fund money for operating purposes.

The chamber took its first look last night at a bill appropriating $500,000 to the junior colleges to supplement the $1,500,000 they get from the state school aid grant.

The Senate moved up for a final vote today a bill allowing $37,000 to give token approval to a proposed University of Michigan branch at Flint.

The chamber planned to begin debating nine budget bills this afternoon.

The Senate passed a bill shifting the inspection of marine vessels from the Labor Department to the Waterways Commission, but it must go back to the House for concurrence in an amendment eliminating the necessity for appointing an experienced ship master or engineer to do the inspecting.

The Senate was asked last night to urge Congress to investigate an increase in Michigan gasoline prices.

The request for the investigation was sponsored by Sen. William S. Broomfield (R-Royal Oak), who as a representative in 1951 was chairman of a House committee which investigated a price rise then.

Barr Assumes Ward's Control

Wolfson Views Avery, Krider Retirements as Personal Victory

CHICAGO (AP)—John A. Barr, 47, today took over the reins of Montgomery Ward and Co.—the first day in 24 years that the firm has not been under the leadership of Sewell Avery, 81.

Barr, formerly vice president and secretary, was elected chairman of the company at a special meeting of the Board of Directors yesterday. Avery resigned but will continue as a director.

Edmund A. Krider, 42, Ward's president since 1952, also resigned. No successor was named immediately.

* * *

Barr had no comment on his plans for the company—specifically if he would start using some of Ward's 327 million dollars of liquid assets for expansion.

Louis Wolfson, 43, Florida financier who failed in efforts to seize control of the company, has urged Ward's to start building 24 new stores within the next year.

While Wolfson won't control the company, he will be a new director. He has said he will urge the directors to carry out his program. He said Krider's resignation "is the first fulfillment of the Wolfson program."

He added that "Mr. Avery's decision to retire must also be interpreted as a victory for the Wolfson-Montgomery Ward Stockholders Committee, which now has succeeded in infusing new blood into the Ward management."

Sam Bases Hope on Appeal Hearing

CLEVELAND (AP)—Twice loser in moves to win a new trial from the judge who sentenced him, Dr. Samuel H. Sheppard today based his hope of freedom from life in prison on an appeals court hearing scheduled for May 23.

Judge Edward S. Blythin, in whose court a jury convicted Sheppard last Dec. 21 of clubbing his wife to death, rejected late yesterday a motion for a new trial on the basis of newly discovered evidence.

Sheppard remained in county jail, where he was taken last July 30, charged with bludgeoning his pregnant wife Marilyn in her bedroom at their Bay Village home July 4. He had no comment on Judge Blythin's ruling.

The new evidence in the defense case boiled down mainly to a 50-page affidavit by Dr. Paul L. Kirk, University of California professor of criminalistics. Hired by Corrigan, Kirk came here in January for several days of investigation.

Repeat Offender Travels to Jail Instead of South

DETROIT (UP) — Traffic Judge John D. Watts said today James Watkins, 32, may be on his way to a new record.

Watts sentenced Watkins to 10 days in jail yesterday for driving without a license. Police ticketed him for the violation after he drove over a curb just two days after he had been released from jail for the first time since last November.

Watts said Watkins will have completed 370 days in jail since 1950 by the time he completes his latest sentence.

Watkins said he was on his way to Georgia when he was stopped for his latest violation.

"I want to get out of this city," he said.

He Opens His Mouth, Stretches Jail Term

CHARLOTTE (AP) — Earl C. Hicks, 38, is in Eaton County Jail today, no doubt wondering why he didn't keep his mouth shut.

Hicks, of Lansing, pleaded guilty to a non-support charge yesterday before Circuit Judge Archie D. McDonald.

When McDonald sentenced him to 30 days in jail, Hicks, in disgust, snapped, "Why don't you make it a year?"

"Just as you say," said the judge, smiling, and extended the sentence by 11 months.

Proper School PTA to Give Tea Thursday

GINGELLVILLE — A tea for mothers of kindergarten students entering school this fall will be held at 1 p.m. Thursday at the school, sponsored by the Proper School PTA.

Tires of Future Put on Display at Pontiac Firm

Motorists can get a peek at what tires of the future — tubeless, in shades of blue, brown and green—will look like at an exhibit this week at Don R. MacDonald, Inc., 370 S. Saginaw.

Tires on display will include those which give 25 to 30 per cent more mileage without squeal or hum. Called the "Cavalcade of Tire Progress," the exhibit was developed jointly by United States Rubber Company and MacDonald.

The tire industry has become style conscious, due to automobile manufacturers' emphasis on color and line, MacDonald said.

"First there was the trend toward narrower white sidewalls, then came smooth lines that eliminated the cluttered effect, and now we have the most recent and startling innovation — colored tires to blend with the hues of today's automobiles," MacDonald remarked.

Nylon tubeless tires, featuring five tread rows instead of the usual seven, are experimental MacDonald said. Named the XP-140, the nylon tire has been successfully run at 140 miles per hour on a laboratory test wheel.

Due to the tire's safety factor, U.S. Rubber's total tire output is now more than 75 per cent tubeless, MacDonald said.

Senator Elected by Hamtramck

Dem Rozycki Will Fill State Seat Refused to Wilkowski

HAMTRAMCK (INS)—The second state senatorial district, including Hamtramck and several districts in Detroit, yesterday elected Democrat Stanley F. Rozycki to replace Anthony J. Wilkowski, whom the Senate twice refused to seat.

Hamtramck voters also rejected by margins of up to 2-1 all three proposals on the city ballot.

The proposals called for salary increases for top city officials, longer terms of office and an $875,000 bond issue for off-street parking.

More than a third of Hamtramck's 19,000 voters were joined by only a handful of Detroiters in choosing Rozycki nearly 4 to 1 over the Republican candidate, Frank J. Skierski. The Socialist-Labor candidate, Nicola Kouzoff, was an inconsequential third.

While voting was in progress, Wilkowski was in Washington making a final plea to the U. S. Supreme Court to reverse a Michigan high court decision. The State Supreme Court refused to compel the Senate to seat him.

Wilkowski was rejected in 1951 and again last fall on the basis of a 1936 vote fraud conviction for which he served 26 months in prison.

Balanced Budget, Tax Cuts Forecast

WASHINGTON (INS) — Budget Director Rowland Hughes declared today that a balanced federal budget and some lower tax rates are just around the corner.

However, he did not predict how long it would take to make the turn.

Hughes said the answer to the "64 billion" question of whether and when the budget can be balanced is that "it can be — and in the near future."

He said the "when" depends primarily on public support for government economies and on the global situation.

Pennsylvania Railroad Stockholders in Session

PHILADELPHIA (INS) — Stockholders of the Pennsylvania Railroad assemble in Philadelphia today and indications are that the meeting may be the prelude to an all-out proxy battle for control of the $3,000,000,000 transit system.

A group of dissident stockholders, lead by New York Financial Consultant Randolph Phillips, is expected to challenge the "stagger" system of electing directors.

Briton, Chou Discuss the Formosa Situation

LONDON (AP)—The Foreign Office announced today that British Charge d'Affaires Humphrey Trevelyan discussed the Formosa situation in Peiping yesterday with Communist Chinese Premier Chou En-lai. The announcement did not go into any detail.

The British government had instructed Trevelyan to ask Chou to elaborate "still further" on his recent statement that he was prepared to negotiate with the United States on the Formosa issue.

Magnate's Son Held in Slaying

Writer Julian Hammer Charged With Murder of Old Pal at Reunion

VAN NUYS, Calif. (AP)—The son of a New York millionaire faces arraignment on a murder charge today in the slaying of an old friend at a reunion party where the flip of a coin failed to settle an argument.

Julian Hammer, 26, a technical writer and son of Dr. Armand Hammer, of New York, was arrested Sunday after the death of Bruce Whitlock, 28.

* * *

Police said Hammer shot Whitlock in an argument over a 10-year-old debt after a party at which Whitlock, a recently discharged soldier, helped Hammer and his pregnant wife Sue, 23, celebrate the technical writer's birthday.

Hammer's father flew here to stand by his son.

The millionaire's son told detectives he shot in self-defense. He said Whitlock picked up a beer bottle and threatened to kill him. "I reached into the night table and got my revolver," police quoted him as saying. "He was still coming toward me, and I shot him."

* * *

Hammer told police the argument was over a $200 gambling debt dating back to when they were roommates together in Huntington, W. Va., 10 years ago.

The elder Hammer is president of United Distillers of America, Inc., and of the Hammer Art Galleries in New York City.

People Plucked From Car Tops in Texas Flood

ODESSA, Tex. (AP) —People were plucked from car tops last night after a flash storm flooded a 21-block stretch of this west Texas city.

But water drained off swiftly, and damage was slight. No injuries were reported.

Rains of 2 to 3 inches which pounded Odessa fell from widespread storms that have soothed drought-hurt west Texas several days.

* * *

Police said the minor flood here caused more of a spectacle than damage. However, several cars were stranded and occupants rescued from the tops of them by boats.

At its highest, the water lay 2 to 3 feet deep on a line about 21 blocks long in the low-lying residential section.

Police said water didn't get into any homes or businesses, but Jim Scott, managing editor of the Odessa American, said a little seeped into some homes.

* * *

Policeman Claude Henry estimated damage at $1,000 and said most of it was to flood drainage construction work.

He said, "Everybody got very excited," and sightseers gathered around the flooded area "so you couldn't hardly do anything."

County Voting Tabulation Is Due on Friday

LANSING (AP) — Continued "correction" of county election returns has moved the Board of State Canvassers to delay certifying the results of the April 4 spring election until Friday.

Sec. of State James M. Hare, board chairman, said Friday is the last date upon which the certification may be made legally.

Hare said the corrections result from his recent letter to all county clerks asking them to expand their official reports to show the election returns by precincts. Normally these are not included in the reports of the state board.

He said 35 counties have responded and that small errors had been detected in 12 precincts.

Hare said the board would close the books on the April election Friday whether all counties have sent the precinct-by-precinct figures or not.

49 Killed in Taipei Blast

TAIPEI, Formosa (AP)—Forty-nine persons were killed in an explosion yesterday aboard a small military ship at Kaohsiung, in southern Formosa, Chinese Nationalist newspapers said today. World War II Japanese shells were being loaded aboard the 100-ton craft for dumping at sea when the blast shattered the vessel.

Virginia Nabs 2 Judges From Faraway Places

RICHMOND, Va. (AP)—Two judges who came a long way to Richmond for the annual conference of the National Council of Juvenile Court Judges got a first-hand look at Virginia law enforcement en route.

They were caught in the state police radar net for trapping speedsters.

Judge Maurice Sapienza came from Hilo, Hawaii, by way of Detroit, where he bought a new car. He got as far as Hanover County before the "whammy" clocked him at 64 miles an hour. He posted bond of $10.25.

* * *

Judge Paul A. Martineau of Corpus Christi, Tex., was nabbed in Fluvanna County. Radar caught him "between 70 and 80 miles an hour" and he posted bond of $15.25. Explained the judge:

"It was the first stretch of wide open road I'd seen since Texas."

To Get $25,000 Per Program

Beloved Star to Work 5 Years, Then Collect Regardless of Activity

By JACK O'BRIAN

NEW YORK (INS) — Martha Raye just signed a fancy 10-year contract with NBC to rival any now in existence.

She will work the next five years at $25,000 per program . . . next season the endearing bigmouth does 13 . . . the second five years she may sit back and collect cash high up in the five-figure category even if she can't work and after the ten years have run out, she gets a retirement bundle.

Martha just canceled plans for a European trip after she finishes a Las Vegas date at the usual fancy Nevada salary. "My manager Uncle Sam canceled my trip," said Martha Saturday night, "because I gotta get some tax money. I'll work for Uncle Sam at the Beachcomber in Miami. I'm not too disappointed. At least I'll be near my sisters."

By the latter Martha means the Franciscan Nuns who helped save her life at St. Francis Hospital in Miami Beach; they're the ones she addresses her customary TV "good night, sisters," at the finish of her Tuesday telecasts.

Her show Tuesday night is a reunion for the first time in 21 years of Martha and Thomas Mitchell, her very first acting coach.

When Martha was in Lew Brown's "Calling All Stars" in 1934, Thomas Mitchell was summoned to spruce up the rough edges, including the suddenly discovered comedy technique of the very young Miss Raye.

Mitchell helped head Martha down her immediately explosive road to low comedy success . . . their paths crossed neither professionally nor socially since and Martha and Mitchell held an affectionate reunion at TV rehearsals during which her old coach rejoiced a little extra when he asked Martha after all these years if it were true as he recently heard that the comedienne is Irish.

"Only on my mother's and father's side," Martha replied.

Martha, born in Butte, Mont., was christened "Maggie Theresa O'Reed" by her Mom and Pop, who had come from County Mayo a few years before.

She has come to such high estate in the celebrity world that —and this is honest-to-Fort Knox— the Gabor family Friday gave Martha a very pretty bracelet!

It's not quite a diamond wristlet, just zircons or rhinestones.

Holes or eyes in what is called Swiss cheese are produced by bacterial action during the process of fermentation.

Byrd's Eskimo Assistant on Polar Trip Dies at 80

COPENHAGEN, Denmark (AP)—The Greenland Department of the Danish government has announced the death of Ootah, an Eskimo who accompanied Rear Adm. Robert E. Peary to the North Pole in 1909.

Ootah's name also has been spelled "Odaq." His exact age is unknown, but he generally was believed to be about 80.

Fallout Throws Off Fossil Age Testing

ANN ARBOR (AP) — It's getting harder and harder to tell the age of a rock. Scientists once used Geiger counters to measure the age of some rocks and fossils — by testing their radioactivity. But the readings were thrown off by as much as 10,000 years because of fall-out from atomic bomb tests.

Now the scientists burn samples in a closed container. Then they draw off the carbon dioxide gas, purify it and measure the radioactivity of the residue.

"We had to make the change," said Prof. H. R. Crane, supervisor of the Phoenix Radiocarbon Dating Laboratory at the University of Michigan. "We've had a light fall-out in our area, throwing off our calculations."

Cowboy, Cowpuncher Difference Explained

DALLAS, Tex. (AP) — Know the difference between a cowboy and a cowpuncher? Brand inspector C. F. Barby of Kansas City explained it at a cattlemen's meeting.

"In the days when men riding the train with cattle carried a lantern and a prod, they punched the cattle back to their feet with the prod when the stock lay down or fell."

Consequently, the men who rode the cattle cars became known as cowpunchers. A cowboy, then and now, herded cattle on the range.

Lyons Wants to Find Out Who Owns Town Bridge

LYONS, Mich (AP)—This village wants to repair a 74-year-old bridge, but can't find out who owns it. To determine ownership village president James Kistler started friendly lawsuits against the village, county and state.

School buses have been ordered to stop on one side of the weakened structure, let the children walk across the bridge and pick them up on the other side.

The bridge was built in 1881, repaired in 1901 and again in 1930. But a search of records has failed to show who built the bridge and who's going to pay for repairs.

Spur to Phone Agreement Seen in Rail Strike End

WASHINTON (AP)—The government is likely to step up efforts to settle the South's two-month-old telephone strike now that an agreement has been reached to end Dixie's big rail walkout.

Federal mediators expressed hope today that the "psychological effect" of the rail settlement might spur similar efforts toward peace pacts in prolonged phone and bus strikes.

An agreement was reached here yesterday to end the eight-week-old Louisville and Nashville Railroad strike tomorrow morning and to send the unresolved issues to arbitration. A neutral referee was to be named today.

Clyde Mills, assistant director of the Federal Meditation and Counciliation Service, went to Atlanta to try to pump new life into talks between the striking CIO Communications Workers of American and the Southern Bell Telephone Co.

The phone walkout, now in its 58th day, has been marked by frequent violence. This has complicated negotiations efforts. The main issues in the phone strike are management insistence on curbing strikes during the contract and a union demand for arbitrating grievances.

CWA President Joseph A. Beirne said in a statement today that Southern Bell "fears" arbitration because he said this would "bring to light the medieval antiunion views of Bell system management." Beirne some time ago asked President Eisenhower to propose full public arbitration of the dispute.

Beirne referred to a Southern Bell statement terming his proposal "a calculated attempt to gain from an arbiter what the union has not been able to justify through the processes of collective bargaining . . ." The CWA chief said this comment is "significant of company contempt for collective bargaining based upon the facts."

He accused the company of "introducing jungle law into labor-management relations."

The three-week-old bus strike, involving the Atlantic Coast Greyhound Lines and the AFL Motor Coach Employes Union, has idled 1,200 drivers in 10 states. The union is seeking an initial contract after recently winning bargaining rights.

The pact to end the L&N strike focused new attention on other railroad labor situations nearing the strike stage, with possibly nationwide implications.

The Order of Railway Conductors, renewing a dispute dating back to 1949, has exhausted the Railway Labor Act's fact-finding provisions and may call a nationwide strike at any time. Its main demand calls for changing the present daily pay arrangement to a graduated pay system based on the size of locomotives.

Three other operating unions, whose members man the moving trains, also are involved in major disputes.

Takes Nuptials Literally

CHARLOTTE, N. C. (AP)—William Stacy Moore's will filed here yesterday reads: "My will is as follows: When I married my wife Minnie Lou West I vowed at the altar, and sealed the vow with a ring upon her finger, with all my worldly goods I thee endow, and as much as it has always been, at the altar I made my will, and much as it is now, to my wife all I have I do bequeath."

England's population density is about 756 persons per square mile. Oakland County's is 566.

New Diamond Field Paying Off in Africa

JOHANNESBURG, South Africa (AP)—Riches have come to diamond diggers working a new field at Bellsbank, in remote bush country northwest of Kimberley, South Africa's fabulous diamond center.

Professional diggers, unemployed and businessmen have staked 25-yard-square claims in the newly proclaimed field. Some are earning $2,000 a week.

Thousands of milky white diamonds have been found. They sell at an average $36 a carat. The biggest find so far was a 44½-caret diamond which sold for $14,952.

Mitchum Claims Story Untrue, Sues for Million

SANTA MONICA, Calif. (AP)—Robert Mitchum says that an article which called him the "Nude Who Came to Dinner" was "false and untrue."

He's asking Confidential magazine — which printed the story — for a million dollars. He brought suit yesterday. Here's what the article claimed:

That at a party to celebrate completion of a movie, Mitchum appeared nude, lathered himself with catsup, and told a roomful of mixed guests, "This is a masquerade party, isn't it? Well, I'm a hamburger — well done."

Mitchum's complaint charged that the story was "completely false and untrue" and was published with intent to "defame and ridicule" him.

Named as defendants were a Charles Jordan, whose byline appeared on the article; Publisher Robert Harrison, Editor Howard Rushmore, Managing Editor A. P. Govoni, Associate Editors Jay Breen and Edward Gibbons and the magazine itself, Confidential, Inc., of New York City.

The article said the party was at producer Paul Gregory's home in Santa Monica last February. It said that Mitchum had been drinking earlier in the evening.
