

## Speaks in Birmingham

Pontiac Press Photo

**PROFESSOR ARRIVES**—About 150 persons were on hand last night at the Oakland County Republican Headquarters in Birmingham when Paul D. Bagwell, GOP candidate for governor this year, arrived. Bagwell, a Michigan State University professor, attacked the present governor for his "spend more and tax more" program.

## Bagwell Lists 3-Point Plan in Race for Governorship

By GEORGE T. TRUMBULL JR.

The professor and his pupil have made their assignment to Michigan Republicans this election year.

Here is the three-point homework for the state GOP.

- (1) Rebuild Michigan as an industrial empire.
- (2) Restore financial responsibility to Michigan government.
- (3) Revise the state's tax structure.

This assignment was passed out last night by Prof. Paul D. Bagwell, who has taken leave from his teaching chores at Michigan State University in an attempt to win a post not too distant from the campus—that of Michigan governor on the Republican ticket.

While the 44-year-old Bagwell spoke to area Republicans, his ex-pupil, and now his running mate stood in the corner himself.

This wasn't because Donald A. Brown, Royal Oak candidate for lieutenant governor, was a bad boy. He couldn't find room to sit at the crowded Oakland County GOP headquarters in Birmingham.

Bagwell told his audience, many of which stood outside and heard him via a public address system, that he once taught Brown two classes in the post-war days at Michigan State.

"I'll take those grades away from him if he doesn't do a good job on this assignment," the professor jokingly said.

**RAPS WILLIAMS, MACKIE**  
Bagwell, who has been on a 22-county, 10,000-mile political swing around the state since April 12, passed out "failing grades" to Gov. Williams in state management and to State Highway Commissioner John C. Mackie in "fiscal management" during his talk.

He promised a "let's ask the voters what Williams has done good" campaign to illustrate "that 10 years is enough."

"I'll let my entire campaign rest on one issue. If a survey were taken of 100 independent companies, it would show that they won't come or expand in Michigan as long as the governor fosters this unfriendly industrial climate."

Pointing up his second task of "restoring financial management to the state," Bagwell said Mackie had "bungled" the 25-million-dollar bond issue to finance the extension of Northwestern Highway.

**CHARGES POOR MANAGEMENT**  
"Not only has he bungled that deal," he said, "but he has demonstrated bad financial management in his 100-million-dollar highway construction bond issue."

It is costing taxpayers \$1,294 a day in interest, Bagwell pointed out, because of Mackie's "poor" reinvestment of bond monies at a lower interest rate than when

**Just Too Far Gone**  
DALLAS, Tex. (UPI)—A Dallas man was booked for drunken driving yesterday when he agreed to take a drunkometer test but couldn't even blow up the balloon used in the test.

**Googasian served as vice president of the student council, president of the Phalanx Club and the Pontiac YMCA when he attended high school.**

# Twister Kills 13 in Kansas

## East Germany Pledges Freeing of Nine GIs—'If'

Says U.S. Should Act in 'Normal, Reasonable Manner' to Negotiate

**BERLIN (U)—**East Germany today promised quick release of nine U.S. Army men and their helicopter if the United States acts in a "normal and reasonable manner."

The statement, an editorial in the East German newspaper Neues Deutschland, did not specify what the Communists would consider "normal and reasonable."

The conciliatory editorial, which carries the weight of an official pronouncement, appeared after Secretary of State Dulles told a news conference the United States would negotiate if necessary with the East Germans for release of the officers whose helicopter strayed into East Germany last Saturday and ran out of gas.

Neues Deutschland reported Dulles' statement in an 80-word dispatch including his contention that such negotiations would not imply diplomatic recognition of the satellite regime.

But the editorial made no mention of the secretary's observation that the men in a sense had been kidnapped, and that you must deal with the kidnappers when people are kidnapped.

**APPROVES BEHAVIOR**  
The Red newspaper conceded that the helicopter might have gotten over East Germany accidentally and said the men in the plane had behaved correctly after landing.

"But violation of the air space of the (East) German Democratic Republic remains," the editorial continued.

Previously, the Western Allies have insisted on dealing only with the Soviets as the occupiers of East Germany, contending that the East German government is an illegal regime which they do not recognize.

In another conciliatory move, the East German Ministry of Defense repudiated a suggestion by its army newspaper Volksarmee that the Americans might be tried as spies.

The ministry said the editor of the paper had been disciplined for his "wrong and misleading" suggestion, and that the men were guilty only of violating East German air space.

The East Germans also announced they were ready to negotiate for the "speedy return" of a Belgian pilot forced down by Communist fighters May 29.

**Yearbook . . . at Last!**  
CHICAGO (UPI)—The University of Chicago class of 1933 gets copies of its yearbook Friday, 25 years late. It wasn't printed in 1933 because of the depression.

## Anxious Gillands Await Killdeer's Blessed Event

The Joseph Gillands of 4333 Charing Way, Bloomfield Township, didn't want to use their garage anyway.

At least that is their story and they're stuck with it—thanks to a pair of killdeer birds. The feathered mother has laid her eggs in their gravel driveway and is willing to take on anyone or anything that tries to disturb them, even a car.

The Gillands have abandoned the use of their garage and are sweating out the blessed event—for the next 30 days.

With a month of pacing around the nest waiting for the new arrivals, Gilland doesn't know who is going to be in the worst shape, he or the papa killdeer.

## Student From Pontiac to Speak at U. of M. Rite

A University of Michigan student from Pontiac will be the student speaker for the university's 114th annual commencement exercises at the stadium Saturday.

He is George A. Googasian, son of Mr. and Mrs. Peter Googasian, 105 E. Iroquois Rd. Googasian, a pre-law student, will receive a Bachelor of Arts degree from the College of Literature, Science and Arts.

The Pontiac High School graduate was selected by the Senior Board of the class presidents to represent the senior classes of the various schools and colleges in the university.

During his senior year, Googasian served as chairman of the Student Activities Building which houses about 50 students organizations on campus and the office of the Dean of Men and Dean of Women. Here he coordinated the use of the building's facilities by the various student groups.

The guest speaker for the program will be Henry T. Heald, president of the Ford Foundation. More than 3,500 students are expected to graduate.

Googasian served as vice president of the student council, president of the Phalanx Club and the Pontiac YMCA when he attended high school.

## State Survives Tornado Jitters With No Damage

By THE ASSOCIATED PRESS  
Tornado-jittery Michigan got an overnight scare, but there were no reports of injuries or damage.

One twister funnel was sighted by Wexford County civil defense workers near Wellston in adjoining Manistee County. A tornado funnel also was reported over Mason County, but this one was not confirmed.

Neither funnel dipped to earth.

Cadillac's civil defense unit set off the city's air raid warning sirens and emptied theaters on the Wellston twister report.

A mass of cool air moved down from Canada across Michigan today, wiping out any tornado threats as it went, but thunderstorms and showers still were forecast for much of the state.

Hot, muggy thunderstorm weather has hovered over most of the state in recent days.

But the U. S. Weather Bureau said the Canadian air mass would drop temperatures materially and cooler weather could be expected for several days.

An ominous Michigan tornado forecast was issued by U. S. weather observers at 3:15 p.m. yesterday.

It said twisters were likely for 60 miles on either side of a line running from Frankfort through Mount Pleasant, Flint and Detroit. The warning was lifted at 8 p.m.

## UAW Serves Strike Threat

But Urges Workers to Stay on Job at Other Chrysler Plant

**DETROIT (UPI)—**The United Auto Workers yesterday found itself serving a strike threat on Chrysler Corp. at one plant and urging workers to stay on the job at another.

It was all part of the UAW's increasingly difficult task of keeping angry workers on the job until the union feels a strike will be effective.

UAW members started working without a contract when pacts with General Motors, Ford and Chrysler expired May 29-June 1. There has been little trouble except at Chrysler, where the company has made big changes in the working hours of union committeemen and stewards.

Chrysler, like the other companies, during the no-contract period has cut the number of hours which stewards could spend negotiating worker grievances on company time. Chrysler said its reduction of the grievance negotiating time of stewards merely puts it in line with the other companies.

Yesterday, there was labor action on three fronts at Chrysler plants. A wildcat walkout of about 400 employees at Dodge truck assembly, called in sympathy for 21 union stewards who were suspended by the company, shut down the truck plant, idling 1,400 to 1,800.

UAW Plymouth Local 51 got unanimous approval of its membership to take a strike vote. No date was taken for the vote and the UAW International emphasized any strike action should be held up until it can be effective.

The UAW is holding daily contract negotiations with all three auto firms. But there is no inkling of rapid progress. Informed sources reported a contract signing is hardly possible before July.

## Fair, Cooler Tonight; Warmer Tomorrow

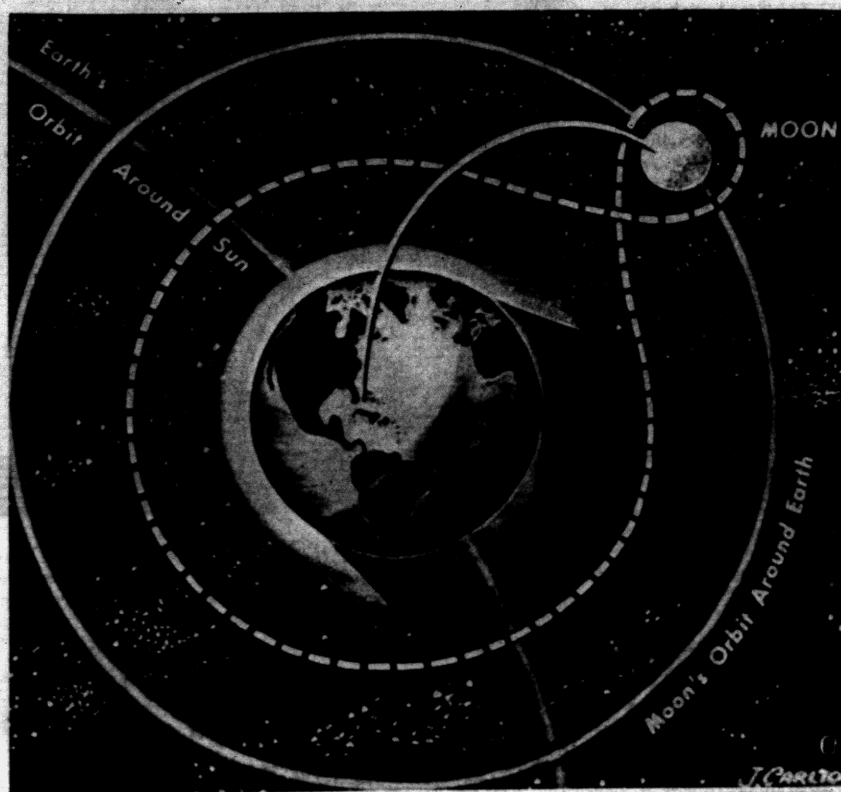

Fair and cooler is the outlook for Pontiac tonight with a low near 44-48. Tomorrow will be partly cloudy and a little warmer. The high will be around 70-74.

Today's northwest winds at 14-24 miles an hour will diminish tonight. Increasing cloudiness and somewhat warmer is the forecast for tomorrow night, low 54-58.

City residents welcomed the 1.83 inches of rain which fell in the downtown area from Monday noon until 6 p.m. Tuesday. Showers are promised again Friday or Saturday.

The lowest temperature in downtown Pontiac preceding 8 a.m. was 57. The thermometer registered 68 at 1 p.m.

## How Moon Rocket May Enter Orbit

**IN THE OFFING**—This drawing by AP artist John Carlton depicts what might happen when U. S. Air Force "shoots for the moon" later this year, as announced by Lt. Gen. S. E. Anderson of the research and development command. If the rocket misses the moon, it will become a satellite and might possibly orbit the moon and earth in a figure-eight course (broken line). A shot to the moon would cover a course of 278,000 miles and take two and one-half days. (See story on page 29.)

## Votes to Extend Program

# House Backs Ike on Trade

WASHINGTON (U)—The House overwhelmingly voted down a plan today to clip President Eisenhower's tariff-making power.

The vote represented a hard-won victory for the President in the first critical test on his demands for a free hand to continue the 24-year-old reciprocal trade

program another five years beyond June 30.

With most Democrats swinging behind the President, the House defeated a substitute proposal authored by Rep. Richard M. Simpson (D-Pa.).

It would have limited extension

of the trade agreements act to two years, and vested in the Tariff Commission and Congress the President's existing authority to ignore commission recommendations for duty increased where domestic industry faces injury.

In pleas to the House yesterday, Eisenhower called for defeat of the Simpson proposal.

He maintained it is essential for the President to retain authority over tariff decisions "in the best interests of the United States." House leaders teamed solidly behind Eisenhower.

House Speaker Sam Rayburn (D-Tex.) worked closely with Reps. John W. McCormack (D-Mass.) and Joseph W. Martin Jr. (R-Mass.), the respective party leaders, to overcome opposition within both parties.

The tide now is running definitely in favor of the President's appeal for the extension.

## He's Now College Vice President

# Former Pupil to Speak to PCH Class of '58

A Pontiac High School graduate will return to his alma mater tomorrow night to address the 1958 graduating class at the commencement exercises held at Wisner Memorial Stadium.

He is Laurence J. Taylor, vice president of Hillsdale College. Taylor will talk to the 407 graduates, their parents and friends, on "The Props of Life."

David Moreno, president of the class, will also speak at the program, which begins at 8 p.m.

The high school band, under the direction of Dale C. Harris, will play the processional, "Grand March from Tannhauser," by Wagner; excerpts from "Carousell," by Rogers; "Nobles of the Mystic Shrine," by Sousa and the "University Grand March," by Goldman, the recessional.

Glenn Griffin, president of the board of education, will preside throughout the program and the Rev. Myron Everett, pastor of Baldwin Avenue Evangelical Church, will deliver the invocation.

Dr. Darla P. Whitmer, superintendent. (Continued on Page 2, Col. 3)

## Elephant-Like Tornado Injures 49 in Odd Path

National Guard Called to Halt Looting After Supper-time Disaster

**EL DORADO, Kan. (U)—**A tornado turned its fury on a neighborhood of modest new homes late yesterday, killing 13 persons and injuring 49.

The twister, described by a witness as resembling a big gray elephant with a long trunk, cut through 40 square blocks along the southwest edge of the city.

City Manager Stanley Dial said 150 houses and an elementary school were destroyed or damaged.

El Dorado (pop. 12,000) is 35 miles northeast of Wichita. Principal industries are two refineries, neither of which was damaged.

The tornado swept away four main electric power lines, plunging the city into darkness. Telephone lines were severed and the municipal water mains were broken in several places.

**USE CANDLELIGHT**

While doctors worked feverishly by the feeble light of candles and flashlights at El Dorado's only hospital, National Guard troops from nearby Augusta and El Dorado's own unit were called to help civilian officers patrol the streets.

Looters swarmed into the stricken area as soon as darkness fell. At least three persons were arrested for rifling the debris.

As the tornado passed on its way, a reporter said, "A heavy black cloud hung to the eastern horizon. Over the city there was a fleecy cloud, white and beautiful."

"It looked like a shroud."

It was 5:45 p.m. when the tornado hit El Dorado. Trooper Bob Lemon of the Kansas highway patrol, on duty seven miles south of the city, saw it first.

"I followed it to El Dorado as fast as I could drive," he said. "I warned the El Dorado police by radio that the storm was coming. I don't imagine I gave them a five-minute advance warning if I gave them that much."

Another witness, Nancy Kerschner, a secretary employed at radio station KBTO, saw the tornado strike the city.

**ODD COLOR**

She said: "It hit the Oil Hill district southwest of town, then skipped into the thickly populated residential section."

"I didn't realize at first that (Continued on Page 2, Col. 6)

## Skillful Pilot Saves 24 Lives

Crash - Lands Airliner in Atlantic, Skids Onto Prison Island Beach

**RIO DE JANEIRO (UPI)—**Air experts said today that only the pilot's skill prevented yesterday's Argentine airline crash on the prison island of Ilha Grande from being a disaster.

The pilot, Fogelio E. Merelle, set his burning DC8 down in waist-deep water and skidded in onto the beach, making it possible for his passengers to land without even getting their feet wet.

Only one of the 16 passengers and 6 crewmen was hurt—an Argentine whose seat tore loose when the plane hit the water.

There were no Americans on the plane, which was returning from Europe.

Maj. Tulio Ribeiro, a veteran Brazilian airline pilot who flew over the scene of the crash, called the United Press International to express his admiration for Merelle.

"In 25 years of flying, I've never seen anything so extraordinary," Ribeiro said. "I want to tell the world that the Argentine pilot's skill saved the lives of his passengers."

Handsome gift! For Dad or Grad! Reasonably priced for easy giving! George's Newsprint, 74 N. E. Ave.

De Gaulle's cabinet went ahead with plans for the local elections in Algeria in the face of the committee criticism.

## Hal Boyle Says:

## Writer Wins Fame, Fortune Playing God

NEW YORK (AP) — Novelist Evan Hunter, a young man with a gift for controversy, is winning fame and fortune by playing God. "You have to do that when you are at the typewriter," he said. "And you have to be an egotist."

"You can have your own insecurities and doubts when you're not writing. But when you're in that room with just yourself, the machine and the paper—you have to play God. You have to feel in control, and you have to believe people want to hear what you have to say."

"If you begin to doubt this, you can't write."

Few doubts seem to have assailed Hunter. At 31, prolific beyond his years, he has produced 175 stories, some 30 novels and three plays, written under his own name and at least four pseudonyms. Total output has been more than three million words.

"I'm not really happy unless I am writing," said Hunter, who is dark-haired, blue-eyed, and stands in a slender 6 feet. "I feel guilty."

Evan, a former schoolteacher, is equally adept at writing science fiction, mysteries, sport sto-

ries and children's books. But his main recognition has come from problem novels.

\*\*\*

In 1934 he stirred up a literary storm with "The Blackboard Jungle," an 80,000-word portrayal of teen-age savagery in the schoolroom. He turned out the book in exactly two months. It has sold more than two million copies.

"I sold the movie rights for only \$35,000," he said ruefully, "and the picture earned more than eight million dollars."

Hollywood paid \$150,000 for his latest book, "Strangers When We

Meet." This novel, which blasts the lid off "the coffin of suburbia," already has gone into a second printing, and has drawn both huzzas and brickbats from commentators.

\*\*\*

Hunter sturdily defends his attack against the conformity which he feels blights the lives of thousands of American families living in new suburban housing developments.

Hunter himself has escaped that "60-by-100-foot green coffin" he complains about. He lives with his wife and three sons in a 10-room

house on a four-acre estate beyond the suburbs.

There he methodically turns out 5,000 words or so daily, and never waits for inspiration.

\*\*\*

"I don't believe there is any such thing," he said. "Inspiration is a kind of myth promoted by pseudo-artists who live in Greenwich Village. If writing is your profession, you sit down and write whether you are inspired or not."

Finland is smaller in area than the state of Montana.

## Army Will Surrender Percy Jones Hospital

BATTLE CREEK (UPI) — Rep. August E. Johansen (R-Mich.) has disclosed that Percy Jones Army Hospital will soon become the Battle Creek Federal Center.

The hospital property is being transferred from the Department of the Army to the General Services Administration.

The hospital was deactivated in 1953 but part of the building space has been used by the Federal Civil Defense Administration. The city of Battle Creek hopes to buy the gymnasium at the facility plus the outdoor swimming pool.

Four of five trucks sold replace trucks which were scrapped.

## TRUE FACTS ABOUT O-JIB-WA BITTERS

Mrs. Rena Russell, 31660 Five Mile Rd., Livonia reports: "Before I discovered O-JIB-WA BITTERS, I suffered for a long time with arthritis pains in my arms and shoulders. I am glad to tell you that the very first bottle stopped the suffering. O-JIB-WA helped my stomach too, as I no longer am bothered with gas or indigestion and my nerves are much more relaxed. Because this fine medicine helped my husband's arthritis also, I recommended it to a friend barely able to walk, who is all better now and teaching school. I sure recommend O-JIB-WA BITTERS to all of you who suffer from rheumatism or arthritis and have not yet found relief."

## Planning Final Mass Rally in San Francisco

## Billy Graham's Crusade...Assured One More Week

SAN FRANCISCO (AP)—There were skeptics at the start, but evangelist Billy Graham's option was picked up to add a week to

his San Francisco crusade in the massive Cow Palace arena—plus a final mass rally in Seals Stadium.

The seven-week run in the Cow Palace ends next Sunday. After six days rest, Graham will finish his San Francisco revival effort with an afternoon open air meeting Sunday, June 22, in the ball park of the San Francisco Giants.

The dynamic North Carolina preacher's total crusade attendance, including the ball park meeting, should near 750,000.

If the first five weeks' pace continues, the decisions for Christ in the Cow Palace revival meetings should run more than 25,000. Those making the decisions step forward on Graham's invitation and receive counseling to start active membership in a community church of their choice.

"A phenomenal success from every point of view," said Dr. W. Earle Smith, chairman of the crusade's executive committee.

In attendance the San Francisco crusade through its first four weeks reached 91.5 per cent of the 1957 Madison Square Garden revival in New York at a comparable point, the headquarters here reported.

The six meetings a week averaged 16,000 in the 16,500-seat Cow Palace.

In money contributions by major donors, however, the formally titled San Francisco Bay Cities Crusade has failed to match the Manhattan revival.

"The reaction quite likely is a factor," said Harry Smith, Bank of America vice president and treasurer of the executive committee representing 1,200 sponsoring Bay area churches and pastors.

"But more likely we were mistaken in our expectations in the preliminary budget," observed Smith. "After all, the only experience we had to go by was the New York crusade last year."

The advance budget estimated major contributions from individuals, corporations and foundations would produce \$227,000 of a total goal of \$431,000.

The contribution response thus far has been disappointing, said Smith. But he declared the offerings by the Cow Palace audiences had exceeded advance estimates and a surprising supply of volunteer manpower had cut staff and administration costs considerably below the budget predictions.

"We haven't measured in dollars the value of volunteer office work. If we could, maybe we

would come close to balancing out our original budget," Smith observed.

The audience offerings average \$6,000 a meeting. The first four weeks produced \$125,000 for the executive committee's budget. The advance estimate had been \$96,000, Smith reported.

"We are meeting current expenditures, and we'll come out all right and the added expenses for the two-week extension through June 22," he declared.

The Sunday offerings to the Billy Graham Evangelistic association pay Graham's salary and finance his national television and radio broadcasts.

Dr. Earle Smith, of Menlo Park, Calif., executive secretary of the San Francisco Bay Cities Baptist Union, says he expects Graham's crusading effort here will add many new permanent members to the congregations of the region's Protestant churches.

The crusade committee has planned an intensive four-day follow-through effort immediately after Graham's final meeting. A four-day visitation evangelism effort starting June 23 will send volunteers from 1,000 area churches into the homes of their unchurched neighbors to invite their faith.

Graham will continue his work in California through most of July.

**BRIEF RESPIRE** — Evangelist Billy Graham crowds a few moments of relaxation by taking a stroll between the many conferences and events that fill his day during the weeks-long Bay Area Crusade at the Cow Palace in San Francisco. He

is accompanied on his walk at Fort Point beneath the Golden Gate bridge by two members of his "team," long-time associate Grady Wilson, left, and choir leader Cliff Barrows, right.

## Russian Veto Feared in U.N.

Western Powers Press for Watching Team in Lebanon Strife

UNITED NATIONS, N. Y. (AP) — The Western powers pressed for urgent action today in the U. N. Security Council to send a U. N. watchdog team to strife-torn Lebanon. But they feared a Soviet veto.

Lebanon charged the United Arab Republic with aiding rebels fighting to overthrow pro-Western President Camille Chamoun.

Western diplomats felt the situation was so grave they already were consulting on what to do if the Soviets used the veto. They said they definitely would not drop the issue.

Informed quarters said as a last resort they might call for an emergency meeting of the veto-free General Assembly.

The Council met for more than seven hours yesterday and last night.

In the stormy session, the United States, Britain and France threw their support solidly behind Lebanon. Each declared its belief that the U. A. R. had violated the integrity of Lebanon by promoting civil strife.

The Soviet Union as usual stood firmly with President Nasser's U. A. R. and denounced the West-

ern powers as the real cause of Lebanon's trouble.

## LEG CRAMPS?

One of the most common causes of painful muscle cramps in the legs, feet, arms and hands is a prolonged deficiency of calcium. So says a famous doctor and widely-read magazine columnist, formerly with the New York Times, and other well-known health authorities.

When muscles are deficient in calcium, they are liable to contract spasmodically, resulting in painful cramps. But don't confuse DYNAL-CAL Tablets with ordinary calcium-phosphorus products. DYNAL-CAL Tablets contain no phosphorus which frequently interferes with the absorption of calcium. And DYNAL-CAL Tablets contain a special ingredient which helps to put calcium into the blood stream quickly—bringing faster relief to cramping, calcium-starved muscles. Pleasant-tasting DYNAL-CAL Tablets with calcium, beta-hydroxybutyrate, and vitamins B and C contain no drugs. They are safe, harmless, calcium food supplements. If you are suffering from muscle cramps, try DYNAL-CAL Tablets today. Bottles of 90 tablets, \$1.50.

Four cents for sample, or entire bottle in return.

## Crowley Out on Bail Today

**Awaits Trial in Tokyo for Fatal Beating of His Brother-in-Law**

TOKYO (AP)—Joseph P. Crowley was released from prison on bail today to await trial for the fatal beating of his brother-in-law, Connecticut socialist and businessman T. A. D. Jones Jr.

His lawyers posted the 300,000 yen—\$333.31—bail. Crowley, 48-year-old former Yale football star, eluded newsmen and photographers and left police headquarters in a heavy drizzle half an hour before his release was announced.

His Japanese attorney, Arthur Mori, refused to say where Crowley had gone but said he was in good physical condition and more than satisfied with his treatment by the police.

Crowley had been in jail since May 21. No date has been set for his trial on a charge of inflicting bodily injuries resulting in death, a charge equivalent to manslaughter in the United States.

The indictment charged that Crowley was under the influence of alcohol when he beat Jones early on the morning of May 8 in the Imperial Hotel suite they shared. The two men, business partners in New Haven, had come to Japan three days earlier to buy an oil tanker.

Frederick M. Kissinger, a Brandywine, Md., accountant who had accompanied Jones and Crowley to Tokyo, left for the United States today. Japanese officials had cleared him of any connection with Jones' death but had asked that he remain and cooperate as a witness in Crowley's trial. The Japanese made clear, however, that he was free to return to the United States.

## To Assess Effects of Judge's Transfer

LANSING (AP)—Effects of a transfer of judges on the Saginaw County Circuit Court docket will be assessed at a meeting here Friday, Meredith H. Doyle, Supreme Court administrator, states.

The conference will coincide with the winding up of Circuit Judge Eugene S. Huff's four-week assignment to the Wayne County circuit bench.

Huff was replaced temporarily as presiding judge of the Saginaw circuit by Judge Timothy C. Quinn of Caro in a move aimed at clearing away a backlog of long undecided cases.

Huff at first rejected the transfer order, and shifted to Wayne County only after he was haled into the Supreme Court and fined \$250 for contempt.

Taking part in the conference, besides Huff, Quinn and Doyle will be Chief Justice John R. Dethmers of the State Supreme Court and Judges James E. O'Neill and Fred J. Borchard, Saginaw County's other circuit judges.

## Lucky It Wasn't Hungry

BALTIMORE (AP)—A mother cat invaded a bird's nest, ousted the birds and settled down to have a litter of cats, Mrs. John Edwards discovered the litter.

## Meteor or Jet? Loud Boom Still a Mystery Here

Opinions as to what caused Saturday's mysterious explosion are still being expressed freely around town.

A retired General Motors Truck & Coach worker, Will Morris, 74, of 81 W. Longfellow Ave., believes it was a meteor crashing to earth. He said some 59 years ago he heard a similar "boom-boom" and pieces of a meteor were found in Allegan.

But officials at the McMath-Hulbert Observatory at Lake Angelus put a tak of "dubious" on this report. They said a falling meteor wouldn't make an explosion sound but one more like a low rumble.

What do they think it was? "It was a low-flying and very fast jet," said Dr. Dodson Prince. "Quite a few of my colleagues saw the plane. And don't forget you see the plane before you hear the sound. This explains why no one spotted it at the time of the noise."

## May Fire Missiles From New Mexico

HOLLMAN AIR FORCE BASE, N. M. (AP)—Gen. Lighton Davis, commander of the Air Force Missile Development Center here, says the Air Force is studying the possibility of using this facility to:

1. Launch long-range ballistic missiles on a high-altitude course to Cape Canaveral, Fla., and out along the missile range across the West Indies and into the south Atlantic.

2. Launch satellites into polar orbits in contrast with the Cape Canaveral launchings, which have been equatorial orbits.

Davis told visiting aviation writers that launching of ballistic missiles here would be less hazardous to the public than those conducted in Florida because of the relative sparseness of population here.

He said that southern New Mexico has less than two persons per square mile compared with 100 to 200 to the square mile in Florida.

Even the ocean off Florida, with its considerable shipping and air traffic, expose more people to missile launching than does this thinly settled part of the country he said.

Davis said that missile contractors often prefer to do their testing here rather than in Florida because it is less expensive and "they can get data faster here."

## Washington Police Must Lose Weight

WASHINGTON (AP)—Washington officials moved today to solve a weighty problem.

Rep. A. L. Miller (R-Neb.) had criticized the Washington police force, saying some cops resembled kewpie dolls because of overweight.

The board said weight checks showed 8 per cent of the 2,328-man force to be "slightly overweight."

To deal with these slight heavyweights the board sent a list of recommendations to Acting Police Chief Howard Covell that added up to one major suggestion: the corpulent cops will have to cut down on the food intake.

Those failing to do so could be penalized by having their promotion turns held up.

# State Will Resurface M87, Give It Back to the County

By JOE HAAS

HOLLY — The office of State Highway Commissioner John C. Mackie announced plans today to turn the M87 state highway back to Oakland County.

This paved road leads westerly off the Dixie Highway 15 miles northwest of Pontiac, through Holly, leaving Oakland County at the Fenton village limits. There it enters Genesee County for a few miles.

Oakland County Road Commission officials have indicated plans to change the status of the road, as recommended by the state, as acceptable to them.

The state will put a new black-top surface on the pavement through its entire distance, including over two miles within the Holly village limits, with no local expense, and then turn it over to the county system.

By making this change, the new topping gets a priority rating. If it remained in its present status, the improvement would not be reached for several years. Now it will be done this year or next.

Completion of new cross-county paved highways has taken much of the traffic off M87, which has not been in good condition.

This diversion will be further accentuated by the extension of Northwestern Highway and building of the new limited access highway through the county.

For several months the M87 pavement in the north part of Holly village has been in a bad condition, causing many drivers to take other roads.

The maple trees on Holly's Saginaw and Maple Streets, which long have had a prominent part in making the village one of the most beautiful of Michigan's municipalities, will be spared.

Their permanence has been assured by a contingent of local residents who have long been aware of the fact that the road was to be turned back to the county, and who quietly have forestalled any efforts to do otherwise.

Thus Holly will assume a place among the progressive villages and cities that prefer to have heavy traffic go around them, rather than through their main streets. In Michigan some of these are Detroit, Pontiac, Flint, Saginaw, Bay City, Lansing, Ann Arbor and many smaller communities.

A study of a parallel case that convinced Hollyites was that of Howell, where heavy M59 traffic was taken out of the business section by a cutoff directly to Grand River road.

A recent survey among Howell merchants, including gas stations on the old route, shows that it makes no difference in their business.

"Our streets are safer for our children and everybody else, and we've kept our priceless trees," says a prominent Howell business man.

## School Incumbent Loses in Armada

ARMADA—Incumbent John Norton was defeated in his bid for re-election to the Armada School Board by newcomers Frank Barclay and William Lyons. They received 526 and 413 votes, respectively. Norton polled 347.

Cecil Bailey, the fourth candidate for one of two seats, received 272 votes. Lyons' election represented a victory for the Citizens Committee formed recently to study school problems. He was chairman of the group.

**CAROL JEAN HUNGERFORD**  
Mr. and Mrs. Amede P. Hungerford of Afton have announced the engagement of their daughter Carol Jean, to Harold E. Blum, son of Mr. and Mrs. Julian Blum, of Leonard. The bride-elect and her fiancé are attending Central Michigan College in Mt. Pleasant. The wedding date hasn't been set.

**ROCHESTER GARDEN CLUB CLOSES SEASON** — Sixty members of the Rochester Branch of the Woman's Farm and Garden Club gathered yesterday at the home of Mrs. Arthur Weeber, 3340 Tienken Rd., for their last meeting of the season. New officers took over at the

business meeting and members exchanged plants. Touring Mrs. Weeber's garden are (from left) Mrs. John Rundall, plant exchange chairman; Mrs. William Poteré, club president; Mrs. William Dunsen, recording secretary, and Mrs. Carl Oxford, picnic chairman.

## Principal Retires at Novi School:

# To Cherish Happy Memories

By STAN BOK  
Press Correspondent

NOVI TOWNSHIP — Mrs. Mary Ann Atkinson, better known as Mae to her teaching associates, packed away a host of happy memories when she retired as principal of Novi Public School last Friday.

Mrs. Atkinson won the admiration of many students and teachers during a 42-year career which included 24 years at Novi.

Their appreciation was expressed in several ways during

the past few weeks. Most recent tribute to Mrs. Atkinson was paid Sunday when the Novi School Mother's Club held a banquet in her honor.

Mrs. Atkinson served as teacher, superintendent and principal of Novi Public School during her stay. She came here in 1934 when the school staff consisted of three teachers and a teaching principal.

Today, as a second school comes into being at a site near Willow-

brook subdivision, the school staff at Novi Public School includes 19 teachers, a superintendent, principal, secretary and a part-time librarian and music teacher.

Mae launched her teaching career at a one-room country school in Fenwick, at a starting salary of \$295 a year. She later moved to Salem where she taught for several years before accepting a position at Plymouth.

Mrs. Atkinson came to Novi after teaching for 12 years at Plymouth.

A director of the Novi Community Building and a member of the Rebecca Lodge, Mrs. Atkinson also took part in various school activities, including the direction of the school's minstrel shows.

Retiring with Mrs. Atkinson was Mrs. Douglas French, a fifth grade teacher, who completed 12 years of teaching at Novi.

Mrs. French taught for 35 years in the Detroit metropolitan area. She also received many tokens of appreciation from the faculty and the student body.

## Common Diseases Increasing in Area

The number of mumps, measles, and chicken pox cases increased in the county and decreased in the city last week compared to the previous week, according to Dr. John D. Monroe, health director.

The following is a comparative list of the communicable diseases reported to the city and county health departments last week.

| PONTIAC       |           |            |          |
|---------------|-----------|------------|----------|
|               | Past Week | Prev. Week | Year Ago |
| Chicken pox   | 7         | 14         | 5        |
| Measles       | 27        | 130        | 1        |
| Mumps         | 2         | 11         | 18       |
| Scarlet fever | 0         | 2          | 0        |
| Impetigo      | 1         | 0          | 0        |

| OAKLAND COUNTY       |           |            |          |
|----------------------|-----------|------------|----------|
|                      | Past Week | Prev. Week | Year Ago |
| Chicken pox          | 34        | 26         | 43       |
| Measles              | 553       | 288        | 25       |
| Pneumonia            | 1         | 0          | 0        |
| Scarlet fever        | 11        | 4          | 21       |
| Whooping cough       | 2         | 1          | 1        |
| Mumps                | 93        | 57         | 23       |
| Dysentery infections | 2         | 0          | 0        |
| Impetigo             | 2         | 0          | 1        |
| Rheumatic fever      | 1         | 1          | 1        |

**WILLIAM G. LIGON**  
Hillsdale College has granted a bachelor of arts degree to William G. Ligon, son of Mr. and Mrs. Russell Ligon of 6556 Lakeshore, Orchard Lake. A member of Kappa Sigma Kappa fraternity, Bill was a three-letter athlete at Walled Lake High School.

## Passenger Train Kills Woman

Lapeer Deputies Say Columbiaville Victim Was Hard of Hearing

LAPEER — An elderly Columbiaville woman was killed instantly yesterday afternoon when struck by a New York Central passenger train near her home.

Mrs. Ann Tankard, 80, of 4635 Water St., walked in front of New York Central's Detroit-bound Bee-liner, a one-coach diesel-driven train from Bay City, at the Water street crossing in Columbiaville.

She was hard of hearing, Lapeer County sheriff's deputies said.

The flasher signal at the crossing was working and the train had blown its whistle, police said. The train stopped a short distance after striking the woman.

Mrs. Tankard had made her home with her son George. Also surviving is another son, William, of Detroit.

The body is at Reynold's Funeral Home in Columbiaville.

## Rochester Council Acts on Junk Yard

ROCHESTER — The Rochester Village Council has instructed Roscoe Martin, village attorney, to take legal action to have Jesse Richardson remove his possessions and barricade from village property leading to the sewage disposal plant and sanitary landfill at the east end of Third street.

Councilmen said Richardson is operating a junk yard at the site. Richardson claims to own a piece of property there. Martin said, but according to a city survey his operation is on the village right-of-way leading to the landfill.

Martin said Richardson will be given 30 days to clear out of the site. He previously had been evicted from village property, Martin said.

## Hearing on Zoning Set at Washington

WASHINGTON TOWNSHIP—Officials of Washington Township have set June 30 as the date for a public hearing on the new zoning ordinance in the Township Hall at Romeo.

Biggest change will be in the regulation governing gravel mining in the township, according to Supervisor R. Eugene Inwood. Alterations also have been made in property classifications in certain areas.

At last night's regular meeting, the board accepted the resignation of Don M. Blackburn from the Township Zoning Board. The Blackburn family is moving Monday from Mt. Vernon to Royal Oak. No successor was named.

**DONNA BAZZELL**  
The engagement of Donna Bazzell to Airman Second Class Walter R. Smith has been announced by her parents, Mrs. Bertha Bazzell of Maddy Lane, Keego Harbor, and Hunter Bazzell of Pontiac. The prospective bridegroom is the son of Mr. and Mrs. W. D. Smith of Beechmont avenue, Keego Harbor. No wedding date has been set.

## During Peach Festival To Select Romeo Queen

ROMEO — The first phase of the annual Romeo Peach Festival celebration will be the selection of Miss Romeo June 19 at the Youth and Civic Center.

To be eligible to enter the contest, a girl must be at least 18 years old by Aug. 31, a high school graduate and single. She also must have been a resident of the Romeo Community School District for at least six months.

Mrs. Ray Gamelin, contest chairman, has application blanks for prospective candidates.

Miss Romeo's official duties this summer will include a number of parade appearances in nearby communities. She will ride in the place of honor on the Peach Festival publicity float, scheduled to make its first appearance in Utica on the Fourth of July.

She also will be Romeo's entry in the Peach Queen contest Aug. 1, competing with girls from 10 other towns for the honor of reigning over Romeo's 26th annual

**CAROLYN ALLEN**  
Mr. and Mrs. Norman Allen of Otisville have announced the engagement of their daughter, Carolyn, to Gerald Martin, son of Mr. and Mrs. Lawrence Martin of Metamora. An August wedding is planned.

## Slate Election of School Board Officers in Romeo

ROMEO — The Romeo Board of election results in special session last night and agreed to elect new officers June 19.

Supt. T. C. Filppula reported six vacancies still remain on the teaching staff after the hiring of a junior high school teacher last night.

The board approved the appointment of Romeo High School vocational agriculture teacher Lucien Fay to represent Michigan at the national meeting of the American Assn. of Teachers of Vocational Agriculture in Buffalo, N.Y., Aug. 4 to 8.

## Clarkston Student Hurt in School Driveway

A Clarkston High School student was injured Tuesday when he ran into the side of a moving car on the school's driveway, according to Pontiac State Police.

Jay Campbell, 16, of 8478 W. Ellis Rd., Davisburg, was reported in satisfactory condition today at St. Joseph Mercy Hospital after suffering cuts and bruises and a possible concussion.

Police said the youth apparently ran into the side of an auto being driven by a teacher at the school, Joan Humphrey, 23, of 59 S. Main St., Clarkston.

## Berry Trees Yield Silk

SRINAGAR, Kashmir — For the first time, berry trees have been used to yield silk thread of very high quality. By using a special device a thread was obtained from cocoons found on ziziphus trees and the tussar silk yarn made from it was reported to be superior to other varieties of tussar yarn obtained in India or China.

## Gerald A. Terrien, Justice Court

The state official had asked the prosecutor to "take appropriate action to insure proper deposit" of traffic fines collected by Roth.

Ziem's findings came after a meeting last Thursday with Roth and other Walled Lake officials.

He said Roth was guilty of "negligence rather than willfulness" in not turning in the money as required.

# Deposed Tighe Bows Gracefully

**HEADS HOME** — Jack Tighe, fired as manager of the Detroit Tigers made a quick departure from Boston last night and headed for his home at Spring Lake, Mich. He talked with general manager John McHale Tuesday morning and learned he was being replaced by Bill Norman.

DETROIT (AP)—Like him or loathe him, John Thomas Tighe bowed out like a champion.

Today the deposed manager of the Detroit Tigers is resting comfortably, thank you, at his home in Spring Lake, Mich., with his wife Beverly and their two sons. Caught up in baseball's won-or-get-out madness, Jack Tighe is a victim of circumstances.

His team didn't win. He got the axe as many others before him got it—just as many others will get it. Tighe knew it was coming. It was merely a question of the time and place.

The jaunty, cigar-chewing little fellow took his lumps standing up and he took them gracefully. As he himself put it, he probably will not realize the full effect of things for a couple of days.

Tuesday morning, June 10, 1958, marked the end of Tighe's first—and perhaps only—fling as a big league baseball manager. The Detroit Tigers hired him as the "fiery and aggressive" successor to easy-going Stanley R. (Bucky) Harris. In Tighe's first season in 1957 the Tigers finished fourth—the first time the club had made the American League's first division since Red Rolfe's 1950 crew.

Yesterday the club was last, 12½ games behind the New York Yankees. General manager John McHale, who made the decision to fire Tighe, said he thought the club should be better off. Several weeks ago McHale said publicly he believes the Tigers have more talent than any other club in the league—with the possible exception of the Yankees.

Yesterday, McHale said "Jack gave it everything he had—it just didn't work out."

Tighe felt the same way. "I did the best I could and I worked hard at it," he said upon his arrival in Detroit in late afternoon. "No, I wouldn't change anything if I had it all to do over again. I managed the way I've always managed. It just wasn't enough."

Tighe had tried almost everything with the Tigers.

He threatened fines for curfew violations and lack of hustle. He criticized some of the players for spiritless play. Others he tried to coddle into better performances.

A number of disgruntled fans, angered at the continued lack of success and the absence of a pennant since 1945, complained about the way Tighe handled the club. Not everything he did was popular and he said he expected some unpopularity. Recently during a nine-game losing streak the fans wrote more and more letters and there was a "get rid of Tighe by the Fourth of July" campaign.

At the height of the excitement, president Harvey Hansen gave Tighe a vote of confidence. He said that no Major League manager had been beset by more problems than the Tigers' sophomore skipper. Hansen pointed to injuries and bad breaks and remarked that Tighe could neither hit for the hitters nor pitch for the pitchers.

McHale decided Sunday that it was time for a change. Officers of the club went along with McHale's suggestions. The 36-year-old general manager moved quickly, met with Bill Norman at Charleston and ar-

ranged for him to take over the Tigers, then flew into Boston in the small hours of Tuesday morning.

A few hours later, the telephone in Tighe's room rang. The manager was still asleep. It was nearly 10 a.m. but it had been a little tough getting to sleep the night before after the club's third straight loss and its fifth in seven games.

"When I answered the phone and it was John on the other end of the line," Tighe said, "I thought 'bingo, this is it.' I told him I'd meet him downstairs for breakfast but he said he'd come up to my room. I knew the fuse was lit."

Moments later Tighe said McHale told him "I've got a tough job to do."

"I told him it wasn't a tough job at all, and to go ahead and do it," said the ex-manager. "I knew what was coming. About that time I was wondering who the next manager was going to be."

Tighe was "surprised" when McHale told him the new manager is Bill Norman. "I thought they'd get a big name guy like Eddie Stanky, Lou Boudreau or someone like that," he said.

## SPORTS

The Chicago Cubs Tuesday signed Ronald Perranoski, a Michigan State University pitcher, to a three-year contract at "a moderate bonus." The 22-year-old Perranoski, a southpaw, will report to the Cubs' Fort Worth affiliate in the Texas League.

The condition of Stan Lopata, Philadelphia Phillies catcher who was beamed in a game against the Cardinals Sunday, was reported "good" Tuesday at Jewish Hospital in St. Louis.

John Stephens is serving as president of the Waterford Township Church Softball League which has eight teams.

Tuesday's scheduled Class B City League baseball game at Jaycee Park between the Pontiac Boys Club and Talbot Lumber was postponed because of wet grounds.

Mrs. Dorothy Aldred of Ferndale teamed with Helen Shabils of Detroit to finish 31st in the big Bowling Proprietors of America National Women's bowling tourney, according to figures recently released. The pair combined for a 5,894 score in the 96-team event.

Star two miler Forddy Kennedy will captain both the track and cross country teams at Michigan State next year.

**"DOG-TIRED"** — Bill Norman (right) newly named manager of the last place Tigers is greeted at the airport in Boston by general manager John McHale. He flew in from Charleston where he managed the Senators and upon arrival said "I'm surprised, happy and dog-tired."

Sneed and Demaret Unable to Win USGA Classic

## Open Title Eludes 2 Greats

TULSA, Okla. (AP)—There are two great golfers in the 162-man field starting the 58th U.S. Open golf championship at Southern Hills tomorrow who never have put their names in the record books by winning the big one. They are Sam Sneed and Jimmy Demaret—undoubtedly two of the best in this golfing generation.

This failure doesn't mean a thing to Demaret, he says, and Sneed is the man he picks to illustrate his point.

"Sneed has won 100 tournaments and they're all tough," Jimmy said after shooting nine practice holes under a sweltering prairie sun. "They talk about his having a mental block about the Open. It doesn't mean a thing. They're all tough."

"I've never won the Texas Open either, and I've played in it oftener than the National. I won the Masters three times but that only means I was hot for one week three times."

Regardless of Jimmy's opinion, Sneed and Demaret rate as two of the players to beat when the 72-hole grind starts tomorrow over the lengthy 6,907-yard Southern Hills course.

Demaret shrugs off the fact he set an Open record of 278 at Riviera in 1948 only to have Ben Hogan come in with a 276 which still stands as an all-time record. Last year Jimmy shot 283 at Inverness, then Dick Mayer and Cary Middlecott came in one stroke ahead. Mayer won the title playoff.

"I'd still take that score and let any of the Open champs of the last few years shoot at it," Jimmy said. "Look at some of the fellows who have won—Mayer, Jack Fleck, Ed Furgol. Could you say they're greater golfers than Sneed or Hogan? It's the overall record that counts, not just one tournament."

Sneed might not agree with this opinion. He'd like very much to add the elusive Open title to his 100 other victories and get his name permanently in the record books. And Hogan doesn't try to play down his desire to become

## Norman Is Not Familiar Name With Tiger Fans

DETROIT (AP)—Who is Bill Norman?

That question kept popping up today as the 47-year-old Norman took over the Detroit Tigers and the name struck no familiar note among Detroit fans.

Bill Norman is a man with a varied baseball background. He is a happy-go-lucky sort of fellow—most of the time—but he can be tough. He is a willing conversationalist, he is inclined to be frank and he has a ready laugh.

Other than that, no one knows too much about the man who has the job of hitting the Tigers out of the American League doldrums. The big Missourian with the furrowed brow takes over a club that once again was supposed to give the New York Yankees a run for their money.

Up to now, the Yankees have done the running—away from the other seven teams. That is why Jack Tighe lost his job, just one season and two months after he took control.

When the news blared out Tuesday morning that Tighe had been fired, everyone wanted to know "who's the new manager?" When the answer came "Bill Norman"—people still wanted to know—"Well, who is he?"

Norman broke into organized baseball in 1929 at Laurel, Miss., in the cotton states league. He has made all the stops.

A good Minor League hitter and an adequate outfielder, Norman never was good enough for the majors. There is a striking similarity between Bill Norman and the man he succeeds, Jack Tighe: never was good enough as a catcher or a hitter to make the big time. He skipped around the Minor Leagues, and like Norman later became a playing manager. And when he was named manager of the Tigers, succeeding Bucky Harris after the 1956 season, people asked "who is Jack Tighe?"

Tiger front office replied that Tighe was a "fiery and aggressive" guy who would get the most out of the players.

The front office became convinced recently that Tighe was not doing that. General manager John McHale said he thought "our club has greater potential than it has shown . . ."

Norman kicked around from the East Coast to the West Coast as a player, finally calling it quits as a player after the 1946 season. He managed at Toronto, Wilkes-Barre, Little Rock, Terre Haute, Augusta and Charleston. He has been a scout and a coach.

**BEATS 'EM ALL**—Last night's win for Bob Friend of the Pirates over the San Francisco Giants, 5-4, was a big one for him. He has now beaten every team in the National League in getting his 9th victory.

## No Immediate Plans for New Tiger Manager

All Present Coaches Retained by Former Charleston Pilot

BOSTON (AP)—Bill Norman, promoted to a Major League manager's berth in his 29th year in organized baseball, plans to run the Detroit Tigers on a "look-see basis" for a week or 10 days.

Norman said he didn't have any immediate plans after being summoned from Detroit's Charleston farm in the American Assn. yesterday to replace Jack Tighe in the Majors' first managerial shakeup this year.

"I live in hopes and surprises," Norman said. "We have good hands. There's a job to be done and let's see what happens."

Norman's debut as field boss of the last place Tigers was delayed when rain postponed last night's scheduled game with the Boston Red Sox. A day-night doubleheader was scheduled for today.

"We wanted a man with experience as a manager—a man who knows how to run a baseball club," McHale said in explaining the choice of his new pilot. "Norman has scouted the Major Leagues for us, he has scouted the Winter Leagues and he knows the Tigers and other American League clubs."

Tighe, who lasted less than two seasons as Detroit manager but probably will remain with the organization in another capacity, said that he couldn't blame the Tigers and a change probably was in order.

"Apparently my method of managing isn't the kind the club needs," he said. "I guess I was prone to overlook more things than I should have."

All the coaches—Billy Hitchcock, Tommy Henrich, Willis Hudlin and Don Lund—were retained.

Norman, who will be 48 next month, played 18 seasons of pro ball, mostly as a minor league outfielder, after signing his first contract in 1929. He spent parts of the 1931 and '32 seasons with the Chicago White Sox but was hampered by an injured arm.

After managing in the Cleveland farm system, he joined the old St. Louis Browns as a coach for the 1952-53 campaigns. While with the Browns, he was credited with helping Roy Sievers, shift from the outfield to first base because of an army injury.

Norman then moved to the Detroit organization, serving in various capacities and managing farm clubs at Little Rock, Terre Haute, Augusta and Charleston. The Charleston club is in second place this year after a seventh place finish in 1957.

**TUESDAY'S FIGHTS**  
SAN JOSE, Calif.—Willie Morton, 140, San Jose, outpointed Julian Valdez, 143, Vallejo, Calif., 10.  
SCRANTON, Pa.—Dan Hodges, 189½, New Hyde Park, N.Y., knocked out Norm Jackson, 187½, Youngstown, Ohio, 1.

## Minoso's Bat Catapults Indians Into 4th Place

Without Minnie Minoso, who led Chicago with 103 runs batted in last season, the White Sox have been sick with the stick with men on base. They've left 399 runners stranded for an average of eight a game, while scoring only 187. Sherm Lollar is the top RBI man with 28.

A year ago, when they led the league by four games, the White Sox had scored 209, with 348 left on base, and Minoso batting in 36. Minoso hasn't been a ball of fire exactly since going to Cleveland in a winter deal that sent Early Wynn and Al Smith to the White Sox, but he's leading the club with 29 RBIs.

He added a pair last night, one with his eighth homer, as Cleveland beat Baltimore 10-2 and moved into fourth place. The White Sox left 10 on base in a two-night doubleheader split at Washington, winning 5-4 before a 5-2 defeat, that left them just a half-game out of last place.

The Kansas City at New York and Detroit at Boston games were postponed because of rain, leaving Bill Norman's managerial debut as a successor to Jack Tighe of the Tigers for today's afternoon-night twinbill.

Cleveland rookie Gary Bell had a two-hit shutout for five innings and gave up only three hits in a six-inning job for his first major league victory. The big right-hander walked three, fanned five with Hoyt Wilhelm mopping up. The Indians had 14 hits off loser Connie Johnson (2-5) and three relievers, and scored five in the seventh for a romp.

Julio Becquer's pinch single drove in one, winner Hal Griggs (3-2) brought in another on a sacrifice fly, and Herbie Plews counted two with a double. Jim Landis and Earl Battey homered for the Sox runs.

## Doctoring Your Golf

By DR. CARY MIDDLECOFF  
PATIENTS COMPLAINT: Sloppy Iron Play.  
DIAGNOSIS: Underclubbing and Overswinging.

Treatment: The whole basis of iron club selection for full shots should be whether the club in question is one with which you can reach the objective COMFORTABLY AND EFFICIENTLY. Too many golfers use the basis of whether they can POSSIBLY reach the green with a particular club.

Failure to take enough club for a shot is bad enough by itself. But the worst part of it is that it usually brings on another and more damaging fault—overswinging. What happens is that the player takes an iron with which he THINKS he MIGHT get home. But he still has a lingering doubt.

That nagging doubt causes him to try to put something extra into the swing. The frequent result is that he hits the ball off center and loses a lot more distance in the process.

Thus we find that, with the wrong club and the right swing, the ball would wind up only slightly short of the green. But with the wrong club, AND the wrong swing, the result is impossible.

Don't overdo it, but do take plenty of club for the shot.
