

Pontiac Motor to Share GM Billion

Steel Industry Planning Enormous Expansion

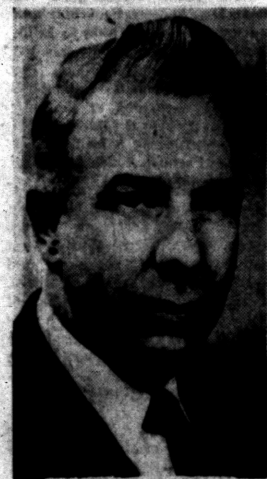

Fairless Sees Capacity of 143 Million Tons by 1958; Trusts U. S. Economy

NEW YORK (INS)—Benjamin F. Fairless announced today the greatest peacetime expansion in the history of the steel industry.

He said the industry's plan to add another 15 million tons to the nation's steelmaking capacity in the next three years was "an indication of the industry's confidence in the state of the national economy."

He spoke shortly after General Motors revealed it is supporting its confidence in continued national prosperity this year with a record one billion dollars in new capital expenditures.

ROBERT R. ELDRED

Bank Official Gets New Post

10 Directors Re-elected to Community National Board Today

Robert R. Eldred, of 330 W. Iroquois Rd., was appointed executive vice president of the Community National Bank today by the board of directors.

Ten directors were re-elected to the board of the bank at the 23rd annual meeting of the shareholders. Directors named to new terms were Irving B. Babcock, Louis H. Cole, W. Russell Eames, Eldred, Harold A. Fitzgerald, Alfred C. Girard, Alfred R. Glancy Jr., Harold E. Howlett, Howard W. Huttenlocher, and Harry M. Pryale.

Directors re-elected all officers at their annual meeting. Officers are Girard, president and chairman of the board; Eldred, W. Arthur Taylor, vice president and cashier; John P. Niggemann, and Carroll L. Osmon, vice presidents.

Others are William E. Cashin Jr., assistant vice president, and Gordon M. McLeod, assistant cashier and auditor.

Board Chairman Girard told shareholders that total deposits increased by \$7 million during 1955 to a new high of \$80,709,000. Earnings for the year, Girard said, totaled \$603,800, or \$4.02 a share.

The commercial checking department handled a volume of \$1,170,000,000 for the 12 months. The bank's capital at year's end was \$4,661,000, the board chairman reported.

Eldred, a member of the staff since 1933, was named senior vice president in 1954. He had formerly held positions as vice president and cashier.

Predict Little Change in Area's Weather

The U.S. Weather bureau forecast for tonight and tomorrow is partly cloudy with little change in temperature.

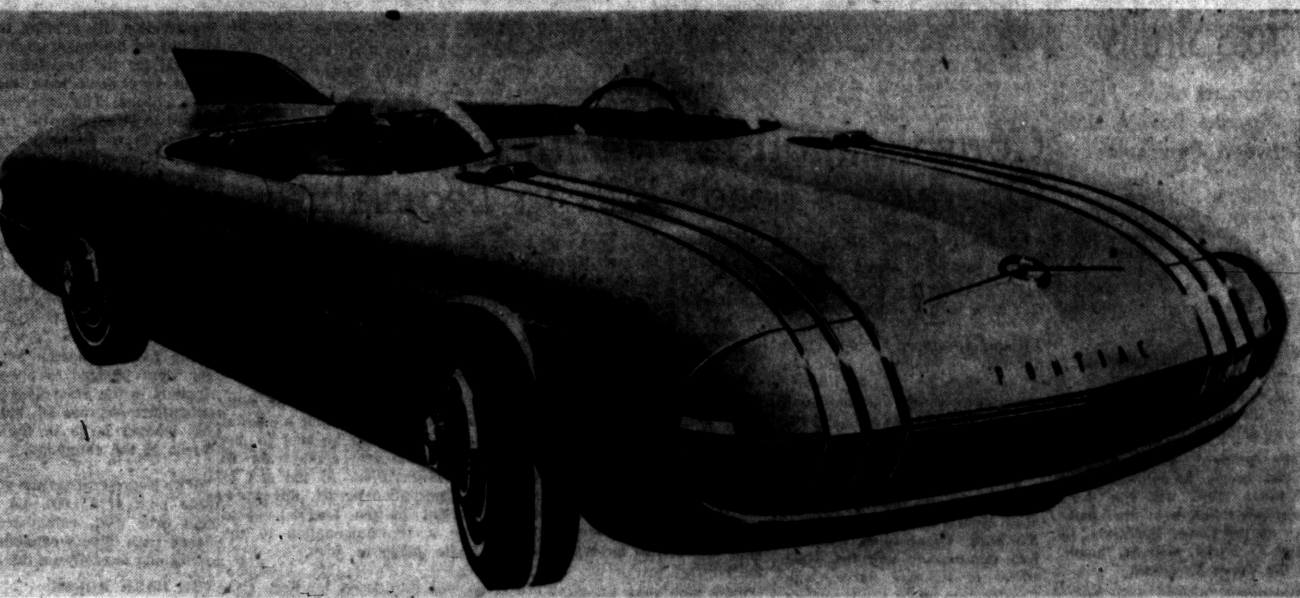

The low tonight will be 18. The high tomorrow will be 34 degrees.

The lowest temperature preceding 8 a.m. was 18 degrees. The thermometer registered 24 at 1 p.m.

Ike Gets Rocking Chair

WASHINGTON (INS)—President Eisenhower was given today a Missouri hickory rocking chair which the donor said will enable him to conduct a front-porch reelection campaign from Gettysburg, Pa.

Two-Passenger Sports Model Is Pontiac's Newest Creation

ANOTHER PONTIAC DREAM CAR — The Club de Mer, a low, two-passenger sports car with an anodized brushed aluminum body, is Pontiac's experimental "dream car" of 1956. Equipped with a 300-horsepower Pontiac Strato-Streak V-8 engine, the Club de Mer stands only 38.4 inches to the top of the windshield and is 180.06 inches long, on a 104-inch wheelbase.

Dulles Faces Press Grilling

To Be Quizzed Today About 'Verge of War' and Foreign Aid

FROM OUR WIRE SERVICES

WASHINGTON — Secretary of State John Foster Dulles is in for an exhaustive grilling today by newsmen of many countries about his "verge of war" policy statement and the foreign aid issue.

At the same time, a mildly critical Sen. Walter F. George (D-Ga.) planned to take the Senate floor to make a short foreign policy statement.

In the meantime, the administration today will unfold to the Senate Foreign Relations Committee its arguments in favor of a controversial bid for authority to make foreign aid commitments as far as 10 years in the future.

There had been some indications over the weekend that the request might be quickly modified or even scrapped, but informed officials said Undersecretary of State Herbert Hoover Jr. was prepared to press for it when he testifies before the Senate committee in closed session.

Some administration officials say they believe the hostile reaction in Congress may result from a misunderstanding. They say congressmen may have gained the impression the administration is trying to place the entire foreign aid program on a long-term basis, rather than specific projects.

Fascinating Dream Cars Give Preview of Future

HAROLD A. FITZGERALD

Publisher, Pontiac Press

NEW YORK—Men, women and children are impressed and interested in General Motors' new "dream cars" on display at the GM Motorama opening to the public Thursday in New York.

They're picturesque in appearance, daring in concept and design and fascinating from all angles.

They're tantalizing.

They're packed with allure and you itch to drive one.

General Motors officials study public reaction to these models and when they detect an intent to buy, production ultimately follows. Remember, Chevrolet's Corvette was one of Harley Earl's fanciful conceptions at one time. Then it was placed in a Motorama. Today it's in active use clear across the continent.

The five new cars run from a very rakish sporting conception—the Pontiac—to a town-car-of-tomorrow which Cadillac is offering. They're all modeled along the lines of the master GM Firebird II, which serves as their unofficial progenitor.

The Pontiac dream car has been ticketed the "Club de Mer." It's a very low, two-passenger job with a 300-horsepower Pontiac Strato-Streak V-8 engine and it's guaranteed to run the pants right off anyone that dare hold the accelerator on the floor. Bob Emerick offered to let me be Number One and I came up with the fastest and most positive refusal of my life.

This whiz is less than 39 inches high to the top of the windshield and it's only 180 inches long. Road clearance is five inches which means you can pass safely over a reclining kitten, but the little

tyke's grandpa would probably constitute a road block. This is the raciest job in the show. It's the lowest, the shortest and yet it packs 300 horses. The speedometer starts at zero like the orthodox jobs but it keeps on until it reaches 180. Pontiac's sweetheart recalls the ancient dictum: "I can stand still faster than the rest can run."

Someone labeled the color "Cerulean Blue," and it has "an anodized brushed aluminum body." For fear this would throw you, I became your private operative and tracked Bob Emerick into his lair. In West Coast street language it means: the

paint is brushed on sort of roughly and left that way on purpose and it won't oxidize.

The Cadillac "lowers" over the others with its stately 56 inch height and then they range downward to this sensational 39 inch Pontiac which is the raciest thing on wheels and the one speedster I'd like to drive if Robert Critchfield ever puts the thing in production and then markets it clear down to my income bracket.

There are twin bubble type windshields for the driver and the passenger. The outside is a light blue and the interior is a flashing street language it means: the

MTA Figures Indicate:

Toll Road Can Pay Way Even Against Free Routes

ANN ARBOR—The Michigan Turnpike Authority meeting here yesterday released figures purporting to show that the 113-mile Rockwood to Saginaw toll road would pay for itself even though three competing free-ways are completed.

If the turnpike opened in 1960 without any parallel new expressways having been finished it would earn \$2,112,000 that year over operation and debt retirement costs of \$8,260,000, said

MTA Chairman George N. Higgins.

This margin would more than double within ten years, Higgins asserted.

If the 32-mile Fenton to Clio west bypass of Flint is completed by 1960, the margin would be cut to \$1,602,000, but would increase to more than \$4,000,000 annually in 15 years.

Ziegler told the authority in a letter Oct. 5, 1955 he plans on building an extension of the 25-mile Monroe-Toledo Expressway north to Willow Run Expressway and extend Northwestern Highway as an expressway to Fenton; projects which would generally parallel the turnpike.

"No contracts have been let nor did Ziegler say when this construction would start or finish," said Higgins.

Assuming both the Fenton-Clio project and the Monroe-Toledo extension were built and completed by 1960, the authority estimated its first year margin of income over operating costs at \$862,000, with a gradual increase thereafter.

ANTICIPATE EXCESS
If all three projects announced by Ziegler were completed by 1962, the authority estimated its income in that year would exceed operation and debt service by \$506,000 and would increase to \$2,000,000 in ten years.

"Revenue estimates for the project increase roughly four per cent per year as overall traffic volume

Plant Projects to Receive Part of Building Fund

Several Major Jobs to Begin Immediately, Critchfield Says

Pontiac Motor Division will share in the billion dollar General Motors expansion announced yesterday for 1956, it was announced today.

Robert M. Critchfield, GM vice president and general manager of the Pontiac Motor Division, outlined the projects included in the plans announced by GM President Harlow H. Curtice yesterday.

Although the full extent of Pontiac's multi-million dollar share of 1956 expansion plans have not been finalized, several major projects will begin immediately, Critchfield said.

Heading the list of expansion projects already approved at Pontiac is an addition to the gray iron foundry at the main plant. Located on the west side of the existing foundry building, the modern addition will provide new molding facilities.

Two new electric furnaces, with capacity of 30 tons of molten iron each, new molding lines, sand handling and core making facilities, as well as new equipment to improve metallurgical control will be provided as part of the foundry modernization program.

IMPROVE CONDITIONS

An appreciable portion of the foundry project will be devoted to further improving ventilation and atmospheric control in the present plant providing improved working conditions.

Pontiac's assembly plant will be enlarged to provide space for a new sheet metal "flow coat" priming system. Replacing the present system of dipping sheet metal parts, the improved method includes a new bonderite plant housed in the assembly plant addition.

A giant industrial waste disposal plant will also be constructed at Pontiac. The disposal tank installation, requiring 120,000 square feet, will neutralize objectionable waste in copper, nickel, cyanide and chrome solutions from metal plating operations throughout the Pontiac plants.

This modern system incorporates the most up-to-date methods of control and can handle 1500 gallons of noxious waste solution a minute.

COMPRESSORS PLANNED

Three new air compressors, rated at 5000 cubic feet per minute capacity, are also slated for construction at Pontiac Motor early this year. For use in several production areas, the three new compressors will double the compressed air supply at the main plant. Each of the three new units will be driven by a 100 h.p. motor.

Pontiac Motor's sprawling axle and differential plants will be further enlarged in 1956. New equipment to increase production in the plants has been ordered for early delivery according to Critchfield.

Before the year is over, Pontiac will share substantially in GM's huge expansion and modernization program.

Flint Questions 'Mystery Death'

Police Skeptical About Wife's Explanation on Shooting of Husband

FLINT (INS)—A 32-year-old expectant mother today told Flint police how a mysterious gunman forced her to drive to a lonely dumping ground where her husband was ordered from the car and shot to death.

Mrs. Betty Kehi said the man then made her leave her dying husband, Robert, 34, a cigarette salesman, and drive back to downtown Flint where he jumped from the car and fled.

Police, who said they were not entirely satisfied with the details of Mrs. Kehi's story, were holding her as a material witness under "protective custody."

Mrs. Kehi, who raced to police headquarters after the gunman jumped from the car, said the couple left their apartment last night to return her husband's company-owned car to the garage he rented.

Kehi drove the company car and she followed in their own auto. The woman, weeping and frantic when she stumbled into police headquarters, said her husband returned from the garage accompanied by a swarthy man in a dark jacket.

She said the stranger, armed with a pistol, told her to drive south and where to make each turn. "He seemed to know right where he wanted to go," she said.

Mrs. Kehi said the gunman ordered her husband from the car when they reached the secluded dumping ground near the Flint City limits.

The pretty, brunette woman said her husband and the man walked away into the dark. She said she heard a shot and then the stranger returned alone and told her to drive to downtown Flint.

DIED EN ROUTE

Police rushed to the shooting scene with the hysterical woman and found Kehi unconscious but still alive. He died en route to Hurley Hospital.

The victim had been shot three times. Robbery was ruled out as a motive when it was found his wrist watch and expensive ring were undisturbed and that \$10 was in his pockets.

Officers were unable to arrive at a motive after questioning Mrs. Kehi for seven straight hours. They said the questioning would continue later today.

\$64.50 Is Ford Price for Common Stock Share

WASHINGTON (INS)—A price of \$64.50 a share was placed today on tomorrow's vast public offering of Ford Motor Co. stock.

The Ford Foundation, Inc., will reap \$642,600,000 from the biggest corporate equity financing in history.

The price was reported to the Securities and Exchange Commission as the final legal step required before the 10,200,000 common shares are offered to tomorrow morning.

The underwriters—some 72 securities firms across the country—have reported almost unprecedented investor interest in the issue which admits the public into co-ownership with the heirs of the

PAUSE BEFORE BANQUET — Conferring before the 40th annual Pontiac Real Estate Board banquet last night were (l-r) Vern K. Archer, new president, Murray D. Van Wagoner, and outgoing president Pherman T. Smith.

Buy Lakeland Farms

Group Makes Purchase for More Than \$500,000—Will Subdivide

Sale of the 50-acre Lakeland Farms to a Detroit syndicate for a sum in excess of \$500,000 was disclosed yesterday by Robert C. White of White Brothers Real Estate.

White said that the area, located at 970 Baldwin Rd., will be subdivided by the syndicate and turned into a residential area. The tract was owned by Oscar Webber, Detroit business executive.

The buyers were represented by Louis Goras and Laurence Schechter, Detroit builders and land developers. The names of others in the syndicate were not revealed. Equipment and livestock were sold in a separate purchase arrangement, according to White.

Rainier's Father Will Attend Rite—but Where?

NEW YORK (INS)—Prince Pierre of Monaco—he's the father of the bridegroom—is going to the wedding.

But he doesn't know any more about the plans of Prince Rainier and film star Grace Kelly than the dozen or so newsmen and photographers who answered his summons to a news conference at the St. Regis Hotel in New York today.

The dignified and charming prince, who carries his 50 years with youthful bearing, never made it entirely clear why he wanted to talk to the newsmen, but he reportedly had said he would attend the wedding only if asked.

That statement obviously bothered him. He made it clear he is going to the wedding. Asked when and where it would be held, the prince said he understood the ceremonies would take place in Monaco. He wasn't certain, though.

He said he had talked by telephone this morning to Miss Kelly's mother in Philadelphia and she "didn't seem to know any more than I do."

Claims Toll Highway Can Pay Own Way

(Continued From Page One)

Increases." Chairman George N. Higgins explained.

"Our forecasts show the turnpike bonds could be retired in 25 years. With the parallel construction, it would take longer and raises questions concerning financing exclusively by revenue bonds.

"The uncertainties of the highway commissioner's construction program due to a present lack of funds prevent him from giving us firm opening dates for the proposed parallel expressway construction so we have assumed early completion dates. His work might be completed by 1962 or might not be finished for 20 years, nobody knows."

ROUTE UNDECIDED
In other action, Higgins said route problems in Allen Park, River Rouge and Dearborn still have to be worked out with local authorities.

An alternate location proposed by Allen Park officials will be turned down, he stated, because it "takes out more homes, schools and churches."

Two Walled Lake Men Plead Guilty to Charge

Two Walled Lake men who pleaded guilty to entering without permission yesterday were assessed fines of \$25 with \$15 costs and given suspended sentences of five days in jail.

West Bloomfield Township Justice Farrell Roberts handed down the sentences to Merville Payton and Fred Vanderpool, both 22.

Safe Distance From Nike Sites

Possibility that cars zooming along the proposed north-south Michigan turnpike would launch guided missiles by cutting radar beams has been eliminated by slight alterations of the proposed route.

The route runs about 1,800 feet from the Auburn Heights missile site, a safe distance. Some changes have been made in the vicinity of three missile sites south of here, according to E. T. Baker, chief engineer for the toll road authority.

Propose Cable Across Straits

Consumers Asks Permit to Locate Power Lines Between Peninsulas

JACKSON (U)—Consumers Power Co. says it has applied to the Corps of Army Engineers for a permit to lay four marine cables with a capacity of 40,000 volts under the Straits of Mackinac to form an interchange with the Edison Sault Electric Co.

Consumers said the interchange, a million-dollar-plus project, would be the first link between an Upper Peninsula and a Lower Peninsula utility.

The company said it planned to start laying the cables in May or June. They will run from Mackinac Island, near Mackinaw City on the Lower Peninsula, to French Island, near St. Ignace on the Upper Peninsula.

Consumers operate in the Lower Peninsula; Edison Sault in the Upper. Consumers said the interchange connection would permit it to step up Edison Sault's power supply and permit a reverse flow in time of emergency.

The cables will be 3 1/2 inches in diameter, each with a half inch copper wire core, protected by a covering of rubber, latex and steel wire. Because of the strong currents in the Straits the first 500 feet on each shore will be imbedded in rock. The rest will be laid along the bed of the Straits, 250 feet deep.

A diver will guide the course of the cables, which will be unreel from a barge.

An oil pipeline from Alberta Province to Sarnia, Ont., and a Michigan Bell Telephone Co. cable are the only other such links crossing the Straits.

Deadline Nearing for Sylvan Taxes

City Manager Ernest L. Ethier warned Sylvan Lake taxpayers today that Friday, Jan. 20 is the last day to pay 1955 county and school taxes without penalty.

After that date, a four percent collection is added to all unpaid taxes, he said.

As of Monday, Ethier said out of a total roll of \$85,851.83, the amount of \$35,864.12 has been paid.

Caulfield Fined, Given Three-Year Probation

John Caulfield, 23, of 6309 Piedmont, Detroit, yesterday was placed on three-year probation and assessed \$150 court costs by Oakland County Circuit Judge H. Russell Holland.

Caulfield admitted Jan. 9 embezzling \$125 from the Speedway Petroleum Corp. in Oak Park Jan. 2.

Rapid Fan Jailed

VAN NUYS, Calif. (INS)—Henry V. Stewart, a 19-year-old pianist who hitch-hiked from El Paso, Tex., to see pianist Liberace, has been sentenced to 25 days in jail for forcing his way into Liberace's San Fernando Valley home.

Bad Roads Are Expensive, Everyone Shares in Cost

Editor's Note: This is the sixth in a series of articles on the highway situation contained in this booklet, "Wagon Roads to Expressways," to be published by the Oakland County Planning Commission.

In the past nearly every time a road crossed a city, village or county boundary, there was a change in the road's condition—a modification in width, surface conditions or pavement alignment.

Cars proceeding north on Livernois in Wayne County enjoy a six-lane facility. They cross Eight Mile Road and run into Oakland County's four-lane continuation of Livernois.

Other causes of congestion include parking and unloading of cars on main thoroughfares during peak traffic hours. In busy shopping districts, pedestrians continually conflict with turning movements at intersections. Loading and unloading of buses add to the mix-up.

When a badly needed highway between two or several points is non-existent, a chain reaction of congestion results. Cars have to use a roundabout route adding to traffic on a road they shouldn't be on.

This indirect route becomes jammed and drivers who should be able to use it to good advantage are forced off onto another artery where the overloading is repeated.

In the long run, good roads

WEATHER FORECAST—Tonight will see scattered snow flurries in the Appalachians and in the eastern Great Lakes area. Rain and snow are forecast for the Gulf states and northward through the Mississippi and Missouri Valleys. The far

Northwest will have rain on the coast; snow inland. It will be colder in the northeast. Forecast for the Pontiac area is partly cloudy with little temperature change.

Consolidation for Health and Hospital Operations Leads Bills in Legislature

LANSING (U)—Legislation to merge Michigan health and hospital operations under one head was filed in the Senate today.

It was sponsored by Sen. Frank Andrews (R-Hillman) chairman of the so-called "Little Hoover" commission which analyzed state agencies for several years and recommended a vast array of consolidations.

Andrews' bill would combine the State Health Department, the State Mental Health Commission, the State Tuberculosis Sanatorium Commission and the State Office of Hospital Survey and Construction into a single agency to be known as the Department of Health and Hospitals.

It would be directed by a six-member commission appointed by the governor with consent of the Senate.

LOCATE AUTHORITY

The commission would select a director who would be a physician or one who has a comparable public health degree. He and the commission would be guided by an advisory council of 10 members appointed by the governor.

Andrews said the measure would give the Legislature "some one place to go to" for advice and information on health matters.

This was a reference to legislative complaints in the past year that lawmakers could not winnow out the truth from the conflicting and mental health authorities over expanding or reducing state services.

LEADS BILL PARADE

Key legislators, especially those concerned with appropriations, have endorsed the merger in the past year. Andrews said his bill is virtually the same as recommended by the "Little Hoover" Commission, except that it does not include the Crippled Children's Commission.

Andrews' measure led a parade of new bills to the rostrum as the House and Senate marked time awaiting the return of their appropriating committees.

The Senate Finance Committee visited the State School for the Deaf at Flint and the Lapeer State Home and Training School Monday, planned to inspect the Caro State Hospital today and to visit the Mt. Pleasant State Home and Training School and the Central Michigan College Tuesday and Wednesday.

It will return Wednesday night. The House Ways and Means was to leave today for a tour of various state structures in the Detroit area until Thursday.

NEW AIRPORT BILL

Sen. Perry W. Greene (R-Grand Rapids) sponsored a bill for a one million dollar grant to the State Aeronautics Commission to match local airport improvement

funds on an as-yet undecided formula and another bill to provide \$820,500 to the same agency for specific airport matching purposes on a formula of 25 per cent state money, 25 per cent local and 50 per cent federal.

The specific bill included \$684,000 for the Wayne-Major airport, \$125,000 for the Baginway City-Midland port, \$25,000 for the Kalamazoo Municipal port and the Lansing Capital City port, \$125,000 for the Eastern Michigan-Muskegon airport, \$25,000 for the Battle Creek-Kalamazoo field and \$16,500 for Willow Run port.

Other bills filed would: Create a uniform system of municipal courts in cities of more than 15,000 population; provide \$20,000 for a legislative study of the future use of the Mackinac Straits ferries; allow the state to buy the Van Riper Park in Marquette County.

Rep. Rollo G. Chisholm (R-Tipton)

Curtice, Sloan Laud Ike for Progress

NEW YORK (U)—The two top General Motors executives make no secret of the fact they hope President Eisenhower will run again.

Harlow H. Curtice, GM president, praised the President yesterday for creating what he called a "favorable economic atmosphere." Alfred P. Sloan, 80-year-old GM board chairman, said that if Eisenhower decides to run again "all clouds, all uncertainties as to a long-term position of the American economy, would be 'Gone with the Wind.'"

The comments were made at an annual industrial luncheon at which Curtice and Sloan were hosts to hundreds of American business and industrial leaders preceding the opening of GM's Motormat. The multi-million-dollar showing of General Motors' widely diversified products gets under way Jan. 19 for a six-day run at the Waldorf-Astoria Hotel.

Curtice predicted the auto industry this year will build and sell in the United States approximately 7 1/2 million cars and trucks. He said GM is so convinced of a prosperous 1956 that it is accelerating its capital investment program. It will spend a billion dollars this year on capital expenditures. This would be more than GM ever spent before in a single year.

California Rivers Going Down Today

SAN FRANCISCO (INS)—Rain-swollen rivers of northern California were receding today in the wake of a weekend storm and danger of further flooding appeared at a minimum.

At Yuba City, 150 miles north-east of San Francisco, a hastily repaired levee at Shanghai Bend held as the Feather River crested at 69 feet yesterday.

Army engineer crews were maintaining a round-the-clock watch on the levee, soggy from the rains, and about 500 residents were warned to stay away from their homes.

These same residents had been forced to evacuate during Christmas week floods and the new crisis over the weekend forced them to leave their homes again.

Wife Complains: Kickin' Ain't Fair in Family Hassle

BALTIMORE (U)—Mrs. Marie Streh said she didn't mind being knocked down, she's used to that, but when her husband kicked her... Well!

The 5-foot-8 husband of the 5-foot-10 Marie, who was once known around the professional wrestling circuit as "Gypsy Lee," denied he floored her or kicked her. Just a case of mistaken identity, said he. But Magistrate Simon Schenckfeld gave the decision to the slender, 37-year-old brunette. He fined Streh \$25.

Mrs. Streh made her last wrestling appearance in July 1954, in Boston.

chairman of the House Taxation Committee, introduced legislation to require screening of mental patients. Cullen's bill would authorize the State Mental Health Department to establish regional diagnostic centers in qualified hospitals.

Before a person could be committed to a hospital as a mental patient, he would be sent to one of the diagnostic centers for 60 days' observation. At the end of the observation period, the superintendent of the hospital would make a recommendation to the probate judge or jury.

A bill introduced by Rep. Carroll C. Newton (R-Delton) would require judges to notify the Secretary of State when a driver fails to show up in court on a traffic charge.

Rep. Harold W. Hungerford (R-Lansing) filed a bill authorizing the State Social Welfare Department to get options on a site for a new boys' vocational school.

4 Lil' Bears Now Have Home in Kalkaska Zoo

KALKASKA (U)—Four orphaned bear cubs, their eyes still unopened have become Traverse City zoo's most recent exhibit, surprise trophies from a rabbit-hunting trip.

Ted Spencer and Elgie Van Den Hout, both of Kalkaska, found the tiny cubs last week while hunting rabbits. The female bear, presumably shot earlier by other rabbit hunters, lay dead in the snow a few feet from the cubs in their shallow den.

The men reported their find to conservation officers, who are investigating the kill. Bear season has been closed since Nov. 30. Ford Kellum, district game supervisor, called the four cubs a "rare litter," explaining that the usual black bear litter consists of two cubs.

Williams Tackles School Aid Law

LANSING (U)—Gov. Williams, who has tackled many major state problems with varying success, disclosed today he is taking on the toughest of all—the state school aid law.

Traditionally, more political heads have been broken over how much and how state money is to go to local schools than any other issue.

Williams said he would send to the Legislature in a few days a new school aid formula which would provide \$200 per pupil, with some modifications, and set up a \$4,000 salary base for teachers.

The state now pays the schools \$166 for elementary school children and \$186 for high school students. It has consistently refused to dictate local teacher salaries.

Under the Williams' plan school districts would be required to levy at least eight mills on property to participate fully in state aid. The present law requires five mills.

The five-mill floor would be maintained but districts which did not levy eight mills would find their state money reduced proportionately.

Pontiac Woman Admits Illegal Liquor Charge

Rose Lee Nimmons, 40, arrested by Pontiac Police Vice Squad on a warrant in connection with their Saturday morning raid on her house at 310 W. Wilson Ave., pleaded guilty to illegal sale of liquor yesterday before Pontiac Municipal Judge Cecil McCallum and was fined \$100.

Await Ike's Reaction

WASHINGTON (INS)—Political leaders awaited today White House response to the filing of President Eisenhower's name on the presidential primary ballot in New Hampshire.

Flying to Athens

LONDON (INS)—U. N. Secretary General Dag Hammarskjöld, took off for Athens today on route to a series of talks with government leaders in the Middle East.

Louisiana Holds Primary Today

First Election in Nation Offers No Presidential Choice on Ballot

NEW ORLEANS (U)—All five Democratic candidates for governor predicted victory today as Louisiana held the nation's first state primary of the presidential year.

Republicans, numbering less than 6,000 among the more than one million registered voters, scraped the rust off their primary election machinery, idle since Reconstruction, by offering two candidates for lieutenant governor and several for the Legislature.

But they don't have the ghost of a chance. The exercise is designed to strengthen the two-party system in a normally one-party state. Democratic nomination is tantamount to election.

UPHOLD SEGREGATION

With no presidential choice on the ballot, party leaders watched to see whether Eisenhower-backed Gov. Robert Kennon keeps control of the state Democratic party in the wake of the U. S. Supreme Court's segregation decision.

The five candidates for governor were pledged to uphold segregation in this state where whites outnumber Negroes 2-1, but the issue loomed large in the closing weeks of the campaign.

With Negro registration at an all-time high of 154,000, up 50 percent over 1952, candidates questioned each other's capability, sincerity and intensity on the issue.

THE DARK HORSE

Former Gov. Earl Long, seeking a third term on the strength of the organization that brother Huey founded, and New Orleans Mayor Leche Desseps Morrison, counting on a heavy vote from the state's largest city, each saw himself as top man in the field.

Dark horse Fred Preuss, flying the Kennon colors since the governor by law cannot succeed himself, figured himself to be "at or near" the top.

Independents Francis Grevenberg and James McLemore, lacking organized support, were willing to settle for second place and a runoff berth.

Unless one candidate receives a majority of the votes cast, the two front runners will enter a Feb. 21 second primary.

The candidates were undecided on which was the top issue, but all five were in agreement on law enforcement, industrial expansion, no added taxes, increased welfare benefits and leaving the "right to work" law, which bans compulsory union membership, on the books unless the Legislature decides otherwise.

Army Chiefs Hear Charges by Ridgway

WASHINGTON (INS)—Charges by former Army Chief of Staff Gen. Matthew B. Ridgway against the Eisenhower administration's military policies will be aired today in a closed hearing of the Senate Armed Services Committee.

Army Secretary Wilbur M. Brucker and present Chief of Staff Gen. Maxwell Taylor testify in the group's review of overall defense policy.

Sen. Francis Case (R-S.D.), a committee member, said that the Ridgway charges "unquestionably" will be brought up during the committee session with the Army officials.

Sen. Mike Mansfield (D-Mont.), suggested that the unit might call Ridgway to give a full briefing on the situation to the Senate. He pointed out that former chiefs of staff have been heard by the committee on previous occasions.

Ridgway lashed out at President Eisenhower and Defense Secretary Charles E. Wilson in a national magazine article—the first of six installments relating his story as a top U. S. soldier.

Thief Steals Nothing in Residence Breakin

A thief who entered her parents' house at 194 Going St. over the weekend apparently didn't steal anything, Mrs. Edwin Brown told Pontiac Police yesterday.

Entry was made through a rear window into two furnished but uninhabited apartments. The owners of the house are out of town.

Redford Man Sentenced for Garage Breakin

Edward L. Dixon, 19, of 26043 Southwestern, Redford Township, yesterday was sentenced to 1 1/2 years in Jackson state prison by Oakland County Circuit Judge H. Russell Holland.

Dixon admitted Jan. 8 breaking into Eddie's Collision Shop, 26212 W. Eight Mile, Southfield Township, Dec. 17.

Will Discuss Education

ANN ARBOR (U)—Dean Willard C. Olson of the University of Michigan's School of Education speaks on "Needed Research in Education" today at the winter initiation meeting of the University chapter of Phi Delta Kappa, national honorary education fraternity.

The Day in Birmingham Refrigeration Problems Delay Ice Rink Opening

BIRMINGHAM—Through a maze of refrigeration engineering details, city commissioners learned last night that the Eton Park Skating Rink will probably not be in use until the last few days of January.

A delegate of the architectural firm, O'Dell, Hewlett and Luchanbach explained why the rink has been held up, and what stages are yet to accomplish before the belated opening.

Yesterday, he said, the header pipe arrived, and when that is connected with the refrigeration equipment and the many thousands of plastic tubing that will be needed, the rink will be ready to be tested and begin working about Jan. 28. It is doubtful whether ice will be in shape by the

weekend of Jan. 28 for skating, but perhaps, if nothing unforeseen holds up the process, it will be ready by month-end, he indicated.

Winter weather and a short trial period have prevented the phone booth in City Parking Lot No. 1 from proving their worth, according to Charles Mortenson, Chamber of Commerce executive who talked with commissioners on the phone booth's possible removal. Commissioners agreed to wait before condemning the booths as taking away aesthetic appeal provided by the \$8,500 wall around the lot.

A view into the air above buildings across from the new Ground Observer Post was cited as reason for the corps' request, granted last night, for moving their building back further in the former dump property. Road noise will also be avoided, the corps request said.

Planning board members will hear cases for several zoning changes tonight at a meeting at municipal building, Herbert Herzberg, City planner, has announced. Herzberg last night told commissioners that he would attend the Feb. 1 meeting of the South Oakland Planning group, which will be concerning access roads and by-passes. Five state representatives will attend the meet, he said.

Camp Oakland was the subject of a talk today at an Exchange Club meeting, with members considering again backing the project. Robert Mattice of the judicial section of probate court was speaker.

Next week, Exchangers will hear Dr. Andrew F. Schott talk on the subject, an aide to Archbishop who Dr. Schott has led in modern school usage. Dr. Schott, of Marquette University, is being sponsored at the program by Principal Malcolm Ferguson of Beverly School, one of two local schools which are using the scheme.

New officers of the club are: Harry Allen, president; Harry Wesch, and Richard Wilson, first and second vice presidents; and Bob Owen, secretary-treasurer. Board of control includes Chief of Police Ralph Morley, Carus Schmidt, Fred Pierce, Roger Blackwood, James Taylor, Harlan Ritz, William Wieland, and ex-President Don McGaffey.

Police Lt. Henry S. Timm has been speaking briefly with two films aiming for children's safety. "Dangerous Stranger," and "Name Unknown," when they are shown to local school children.

Early this week, Holy Name and Pembroke schools had the films, and last week they were screened at Adams School. All schools are using them, with Lt. Timm or Chief Morley talking briefly.

Officers will be elected when the Presbyterian Church has its annual meeting tonight at the church.

Ice Jam Threatens Mt. Clemens Water

MOUNT CLEMENS, Mich. (U)—An ice jam on the St. Clair River joining Lakes Huron and St. Clair, has dropped water levels in Lake St. Clair and threatens the water supply of three southeastern Michigan communities.

The Coast Guard said the jam extends 25 miles up river and is 23 feet thick in places.

The ice pack has backed up water in Lake Huron which normally would flow into Lake St. Clair. Lowering Lake St. Clair water levels threaten to drop below intake valves leading to filtration plants in Mount Clemens, Fair Haven and New Baltimore. The three communities are located along Anchor Bay on the north shore of Lake St. Clair.

Chinese Who Cheered Reported Jailed by Reds

HONG KONG (U)—Communist Chinese papers reaching Hong Kong today reported the arrest of 13 persons who "cheered" the American landing at Inchon during the Korean War.

The 13 were also accused of forming the Hung Sing assassination society, which the accounts said staged armed robberies and killed Red Chinese soldiers.

The papers said the group had been dealt with according to law but did not tell what happened to them. They were reported arrested two months ago at Wuhai, in Hupeh Province, where they had taken refuge in a Catholic mission.

Prep Day Set, April 28

ANN ARBOR (U)—Some 1,500 high school students are expected to attend the annual university day, April 28, at the University of Michigan. The students, mostly from Michigan and Ohio, visit classes, observe student life, and inspect housing facilities.

UM Has Fish Clinic

ANN ARBOR (U)—The University of Michigan's annual fishing clinic will be held March 17. The clinic includes demonstrations of equipment, informal talks and a special session on skin diving.

Smartest Buy in the fine-car field

You've probably noticed that more and more people seem to be stepping into the upper circle of fine cars. And there can be no doubt that "good times" have a lot to do with this. But all by itself, it doesn't explain the sudden spurt in sales of the finest of Buicks—the 1956 Roadmaster.

For it has always been our experience that folks with the wherewithal to buy any car they choose are apt to be the choicest of all.

So it seems quite clear that the marked and increasing preference for Roadmaster is in the fineness of the car itself.

We can tell you why very simply.

Roadmaster starts off with all the virtues that have vaulted the full line of Buicks to soaring popular favor—then caps that acclaim with a worthiness all its own.

You sense this especial eminence at once—in the individualized styling of this gracefully proportioned car.

You recognize it again—in the quiet elegance of its custom appointments—and in the good taste of its luxurious fabrics and color harmonies.

But you know it for sure in the lift and thrill and spirit of Roadmaster performance.

For here is the obedient might of the highest-powered V8 engine in Buick history—coupled

to the flash-fast response and absolute smoothness of an advanced new Variable Pitch Dynaflo—most modern transmission in motoring today.

And here is Buick comfort, Buick handling ease, Buick roadability, and the great Buick ride—each brought to its peak in this Buick of Buicks.

In all truth, no man who puts true merit above mere symbol could ask for more than is his in Roadmaster.

If that applies to you, we'll be happy to arrange an introduction. Will you phone us—or come in—for a demonstration soon?

Seaway to Get Near \$43 Million

St. Lawrence Project to Use Funds Starting July 1, Ike Announces

WASHINGTON (AP)—The government will spend an estimated \$42,750,000 in the year beginning July 1 for further construction of the St. Lawrence Seaway, President Eisenhower said yesterday.

No appropriations are involved because the St. Lawrence Development Corp., in charge of building and operating the U. S. portion of the project, is authorized to issue up to 105 million dollars in treasury-financed revenue bonds.

The 27-foot-deep seaway which will give about 75 per cent of the world's shipping direct access to the Great Lakes from the Atlantic, is scheduled to be completed in 1959. Eisenhower said earlier this week it now is about nine per cent completed.

Canada is participating with the United States in the project.

Eisenhower, in submitting his budget message to Congress, said major activities in the seaway's construction during the 12-month period ending June 30, 1957, involve:

Building to about 77 per cent of completion the Grasse River and Robinson Bay Locks in the St. Lawrence River's long Sault Canal near Massena, N. Y.

TOTALS OVER \$25 MILLION

The amount expected to be spent on the two locks totals \$25,614,400, compared with \$6,132,900 during the previous 12-month period.

Other estimated expenditures in the next fiscal year:

Land and land rights, including relocation of properties, \$5,166,500.

Dredging and construction of channels and canals, \$6,067,000.

Navigation aids and related facilities, \$156,000.

Buildings and permanent operating equipment, \$1,209,100.

Engineering and design, \$350,000.

Supervision and administration, \$3,479,900.

Administrative expenses, \$325,000.

Eisenhower said total cost of the seaway is now estimated at \$77 million dollars.

By June 30, 1955, he said, a total of \$79,371,500 will have been spent for work performed or contracts for work to be performed after that date. Value of such later work, he said, approximates 25 million dollars.

Eisenhower said that eventually about 3 million dollars will be spent on navigational aids and related facilities to "enable a mariner to safely navigate the seaway."

The seaway construction by the United States and Canada is concurrent to the building of a 600 million dollar St. Lawrence River power project by New York state and the province of Ontario.

Don O'Connor to Wed

LAS VEGAS, Nev. (AP)—Entertainer Donald O'Connor announced yesterday that he and Gloria Noble, a non-professional, will be married. No date has been set.

COMPETITION FOR AUTOS—Traffic piles up in a St. Louis suburb as one of 21 grounded Demon jet fighters is towed from an aircraft plant to a barge for shipment to a Naval center for training purposes. The craft will never fly due to lack of engine power.

His First Accident Is Really Smashing

OMAHA (AP)—Clifford Crowder, 40, of Pineville, Mo., drove, he told police, for 20 years without an accident.

Yesterday, he had one.

His cab and trailer sideswiped a panel truck. Crowder put bricks under the wheels and set the emergency brake, then went to telephone his boss.

The emergency brake failed. The vehicle crushed the bricks and was off on a rolling spree. Seven parked cars were knocked around and a power pole felled before the vehicle stopped.

Said Crowder: "Well, anyway, nobody got hurt."

Police charged him with "leaving an unattended vehicle."

Settles for Car Thefts After Airplane Failure

MADISONVILLE, Ky. (AP)—A fugitive from Illinois charged with three car thefts told police it could have been "airplane theft."

Charles Schultz, 18, of Galesburg, Ill., told officers after his capture yesterday he and a man he knew only as "Bill" escaped Wednesday from the Vandalia Penitentiary.

He said each of them tried to take a plane from a small airport near the penitentiary but couldn't start them.

Instead, he said, they made their way to Kentucky in stolen cars.

Although adult bald eagles are heavier than young ones, the immature eagles often have larger dimensions because of longer feathers.

Tomorrow's Teachers Get Current Practice

LOUISVILLE, Ky. (AP)—Snow and ice caused delays in the arrival of 22 teachers at Sallie B. Rutherford Elementary School yesterday, but classes went on just the same.

Their jobs were taken over by 22 11-year-olds, members of the school's "Teachers of Tomorrow" program.

Opening exercises such as Bible

reading had been completed and lessons were under way when the teachers arrived, one at a time.

Family Festivals

DENVER (AP)—It's family tradition. Bill Blank was celebrating his 28th birthday and his wife, Marilyn, her 25th, when young Stephen Gary got in the act by arriving two weeks early. Stephen is the couple's first child.

City Recreation Leagues Expanded in '55

A 30 per cent increase in the number of leagues participating in the Parks and Recreation Department's softball, baseball, and basketball programs was recorded last year, David R. Ewalt, department director announced.

Social affairs conducted by the department in cooperation with other civic organizations, showed a marked increase over previous years also. Dances for four junior high schools numbered 40 in 1955, while four square dance clubs sponsored by the department completed their eighth successful year holding 50 square dances.

Community center programs in the city attracted 45,198 participants while 42,695 boys and girls

participated in supervised playground program staged by the department.

Jaycee Park, Rotary playground, and Optimist playground were added to the list of facilities in the city for school children in 1955.

The forestry division intensified their spraying to prevent the Dutch Elm disease in the city, and 2,632 city elm trees sprayed, 40 positive cases of the disease were discovered. Sixty-one cases were found on private property elms.

The 1955 municipal golf course season was a good one compared against an average based on the past five years, reported Ewalt.

However, a decrease of 4,000 9-hole rounds of play was evident compared to 1954 season due par-

tially to above normal temperatures, which plagued the Pontiac area through July and August.

Mosquito control, using DDT, was initiated at the course in 1955 and will be continued in 1956 because of its reported success.

Golf course revenue totaled \$27,186.40 during the past year while recreation fees amounted to \$2,402.00.

The first men to fly around the world nonstop did it in ten minutes. Richard E. Byrd and Floyd Bennett on May 9, 1926, flew to the North Pole and circled it, crossing all the meridians of longitude in one full turn, the National Geographic Society says.

Virginia Warren Seen as Choice for Young Prince

NEW YORK (INS)—Mrs. Perle Mesta, former minister to Luxembourg, has recommended Virginia Warren as a "charming and lovely American girl" eligible to wed bachelor Prince Napoleon Murat. Virginia is the 27-year-old daughter of Chief Justice Earl Warren.

Prince Murat, called "Nappo" by his friends, is tall, handsome, wealthy, athletic, charming and among the few living descendants of the Bonaparte family.

Amid the flurry over actress Grace Kelly's engagement to Prince Rainier III of Monaco, Mrs. Mesta was asked if she knew of a girl for "Nappo." He

was making his first visit to America as a guest of honor of the Alliance Francaise of Chicago.

Mrs. Mesta said in New York today that she replied Virginia Warren was "just the girl."

She hopes the prince will attend a party in Washington—presumably where Virginia would be a guest.

Virginia is the only unwed daughter of the chief justice. Her youngest sister, Nina "honeybear" wed Dr. Stuart Brien. Dorothy was married late last year to Dr. Carmine D. Clemente.

Yaws Affect Africans

WASHINGTON 48—About 25 million Africans suffer from yaws, a deforming tropical disease which the Pan American Sanitary Bureau says now can be cured by penicillin.

Residents Attending Midwinter Meeting

Vern K. Archer, president of the Pontiac Real Estate Board, and Secretary Edward A. Maier are currently attending the mid-winter meeting of the National Association of Real Estate Boards in Washington, D. C.

The two officials were accompanied by their wives and Bruce J. Annett, of Pontiac, immediate past president of the Michigan Real Estate Association.

The meeting, scheduled to end tomorrow, has as its highlights the inauguration of 1956 officers and a briefing session on legislative issues. Delegates were hosts to Congressmen and senators at a formal dinner party last night.

Ike Urges Prudence on Tax Cuts

WASHINGTON (AP)—President Eisenhower appeared today to have quieted for the present at least demands in Congress for a general tax reduction in this election year.

But his requests for an increase in appropriations drew fire from many Democrats, Republicans, on the other hand, praised his estimates that the budget will be balanced.

WANTS PRUDENCE

With Eisenhower urging "prudence" on tax slashing that would unbalance the budget, Democrats for the most part adopted a cautious attitude until first-quarter tax receipts are counted and the revenue picture tells.

Eisenhower yesterday sent to Congress a balanced budget for this year and next based on continuation of present tax rates.

His figures called for government income of \$64,500,000,000 and outgo of \$64,370,000,000, with a surplus of 230 millions, in this bookkeeping year ending June 30.

For the following year, ending June 30, 1957, he estimated federal income at \$66,300,000,000 against spending of \$65,865,000,000, for a surplus of 435 millions.

He told Congress the surplus should go toward reducing the national debt, and asked for "the utmost cooperation" in keeping the government in the black.

Sen. George (D-Ga.), an advocate of tax reduction for taxpayers in the low and middle-income groups, said, "We'll have to wait until the figures are in for the first quarter of the year."

"Nobody wants a tax cut if it's going to create a deficit," he said, but added:

Sen. George (D-Ga.), an advocate of tax reduction for taxpayers in the low and middle-income groups, said, "We'll have to wait until the figures are in for the first quarter of the year."

Stanley A. Nevada, 35, of Detroit, was injured fatally last night in the collision of his car with a truck in Dearborn. He was the father of four children.

Chairman Cannon (D-Mo.) of the House Appropriations Committee said he was disappointed because the budget offered "no hope, no prospect whatever of a reduction in taxes."

Chairman Byrd (D-Va.) of the Senate Finance Committee said he is "disturbed and disappointed" by increased government spending based "on the premise, apparently, that the present boom will continue, and this no one can predict."

FBI Seizes Parolee Wanted in Michigan

ALTOONA, Pa. (AP)—Sought in a nationwide hunt since last September, a 23-year-old Mt. Clemens, Mich., parolee today faced arraignment on a charge of unlawful flight to avoid prosecution.

FBI agents said Walter J. Wellman Jr., was arrested yesterday. He was wanted in Michigan for investigation in the armed robbery of a St. Clair Shores bar, they said.

Wellman broke his leg in a fall from his hotel window as he tried to escape capture.

The FBI said he would be arraigned before a U. S. commission-

er as soon as he recovers sufficiently.

Charles W. Brown, special FBI agent in charge of the Detroit office, said Wellman was convicted of armed robbery and sentenced to 25 years in prison when he was 17. He was paroled after serving four years, Brown said.

Detroit Found Dead

RODNEY, Ont. (AP)—Wilfred Grisdale, a Detroit salesman, was found dead yesterday in his car that had plunged into a creek four miles north of Rodney. Police said they believed the accident occurred Friday night.

There are about 66 million tons of zinc ore in the Missouri-Kansas-Oklahoma fields.

Socony Proposes 25 Pct. Stock Dividend in June

NEW YORK (AP)—Directors of Socony Mobil Oil Co. have proposed a stock dividend of 25 per cent, which would be payable "late in June."

Declaration of the dividend would depend on stockholder approval of an increase in the number of authorized common shares from the present 40 million to 75 million shares, B. Brewster Jennings, chairman, said. The proposal will be submitted to shareholders at Socony's annual meeting April 26.

Jennings said payment of the dividend would require nine million shares of the proposed new stock. The remaining 26 million shares would be held in reserve "for future corporate purposes," he asserted.

Three Killed in Detroit Area Accidents Monday

DETROIT (AP)—Three persons were killed in traffic accidents in the Detroit area yesterday. The victims included two women pedestrians.

Mrs. Jean Naysmith Gibson, 57, of River Rouge, was injured fatally when she was struck by a car in River Rouge.

Mrs. Margaret Dobbie, 66, of Detroit, was injured fatally last night when she was struck by a car near her home.

Stanley A. Nevada, 35, of Detroit, was injured fatally last night in the collision of his car with a truck in Dearborn. He was the father of four children.

IT SETTLED ALL ARGUMENTS

If there was ever any doubt in your mind as to which is the finest car of all, this new Lincoln should end all debate. It's the longest, lowest, most powerful Lincoln of all time—almost a foot longer in frame, and with a new 285-horsepower engine. There is new Turbo-Drive, most versatile

and obedient of all automatic transmissions, and the widest choice of safety and power features. And Lincoln offers a distinctively fresh approach to automotive design that unmistakably says here is the finest in the fine car field. If you haven't driven the new Lincoln yet, stop in at your convenience.

Unmistakably

LINCOLN

Don't miss the big television hit, "THE ED SULLIVAN SHOW," Sunday evening, 8:00 to 9:00, Station WJBK, channel 2.

UAW Offers 9-Point Legislative Program

DETROIT (U)—Walter P. Reuther's million-plus United Auto Workers have called for a legislative program including, among other things, multi-billion dollar federal aid for both highways and schools, tax reforms and a \$1.25 hourly minimum wage.

Announcing its program last night, the UAW said it would "insure full employment, full production and equitable distribution of goods and services in a dynamic, expanding economy that provides an ever advancing standard of living."

The UAW said the program had approval of its international executive board, which pledged its "full support and cooperation of these forces in both the Republican and Democratic parties who will work for enactment."

The union declared its program is "practical" and "takes into account our ability to meet its costs."

OPPOSE GAS BILL

Defeat is demanded by the union for the Harris-Fulbright bill now up for Senate action, to exempt natural gas producers from Federal Power Commission regulation.

The UAW termed the measure a "consumers gouge," and insisted that it "would result in a 30 billion dollar windfall to the big oil and gas companies" and said it would increase gas rates 800 million dollars a year.

"Neither the Democratic nor Republican party leadership," it added, "is protecting the consumer in this fight. If the bill passes, higher gas bills will be a hot issue on the front burner in the 1956 campaign."

NINE-POINT PROGRAM

Advocated in the UAW's program are:

1. A national health insurance

Stock for Employees May Be Union Issue

WASHINGTON (U)—Labor union bargaining to get employees paid in company stock as well as wages may become a regular thing, provided an appeals court decision stands.

The U. S. Court of Appeals yesterday ordered the Richfield Oil Corp., Los Angeles, to bargain with the Oil Workers International Union on a stock purchase plan the firm had offered its employees.

However, the company said it will ask the Supreme Court to review the appeals court decision.

Agreeing with a prior ruling of the National Labor Relations Board (NLRB), the court held 2-1 that offering stock to employees at bargain prices is a form of compensation.

The court said Congress had not spelled out what it meant in requiring employers and unions to bargain on "wages and other conditions of employment." It said the value represented in helping employees acquire stock seemed to fall within the meaning of those terms.

Canadian Air Crash Claims Two Lives

HALIFAX, N. S. (U)—The Canadian air force here said 2 of 18 persons aboard a Quebecair DC3 were killed last night when the plane crashed in flames in the wilderness of northern Quebec.

An air force spokesman said the plane was en route to Sept. Iles, Que., from the Labrador iron mining development at Knobe Lake, a 300-mile flight.

The crash reportedly occurred near Orway Lake, the midpoint on the flight on the Quebec-Labrador border.

Quebecair, Inc., is a small airline which operates in eastern Canada, mostly in Quebec province.

program, and government medical care for all persons receiving Federal Old Age Assistance.

2. A federal outlay of a billion dollars a year to supplement state funds for school building; a nationwide \$4,000 annual minimum salary for beginning school teachers; and federal aid of \$10 per student next year to be increased to \$50 "as rapidly as possible."

3. Federal aid of "at least 12.5 billion dollars over a five-year period" for highways, "financed an ability to pay, not

by sales taxes on gas, oil, tires, trucks, cars, parts or by tolls."

4. At least a temporary return to a farm price support program of not less than 90 per cent of parity, and a Congressional investigation of what the UAW said was "repeated attempts" by Secretary of Agriculture Benson "to transfer blame for falling farm prices from himself and his policies to wage earners."

5. At least 250,000 low cost public housing units a year, 50,000 of

which to be earmarked for aged persons, and at least an additional 600,000 middle income housing units a year to be built with government assistance.

6. Extension of social security to pay old age and survivor's insurance benefits to women at age 60, to incapacitated children beyond the age of 18 and to totally and permanently disabled workers, at whatever age disabled.

7. "Resumption of large scale

public power development."

8. A Congressional investigation of what the UAW called "unjustified price increases" in steel, tractors, trucks, automobiles "and other items."

9. Extensive revision in the Taft-Hartley Act "to achieve a fair and workable law based upon the principles of the Wagner Act."

About 5,200 new cases of pneumonia are reported each day in the U.S.

U.S. Lists Dairy Items Disposal

Nearly 3 Billion Pounds Ejected in Last 2 Years; Price Supports Down

WASHINGTON (INS)—The Agriculture Department said today that 2,850,000,000 pounds of government-owned dairy products have been disposed of in the last two years.

It said also that its price-supported purchases of butter, cheese and nonfat dry milk solids in 1955 were down 35 per cent from 1954 purchases.

In a year-end and December 1955, summary of dairy price-support activities, the department reported total December purchases of butter at 7,770,350 pounds, cheese at 4,650,000 pounds, and of nonfat dry milk solids at 45,330,655 pounds.

Comparative purchases for December, 1954, were none for butter, 1,594,768 pounds of cheese, and 13,243,116 pounds of nonfat dry milk solids.

The department said that continued heavy disposals of dairy products throughout last year brought uncommitted commodity credit corporation inventories at the end of the year to the lowest point for butter and cheese since 1953 and for nonfat dry milk since 1951.

Uncommitted holdings on Dec. 31 amounted to 47.1 million pounds of butter, 264.1 million pounds of cheese, and 3.1 million pounds of nonfat dry milk solids, compared to peak holdings of 466 million pounds of butter in July, 1954, 436 million pounds of cheese in September, 1954, and 569 million pounds of nonfat dry milk solids in April, 1954.

MEXICO CITY (U)—The egg situation was pretty scrambled in Mexico City today.

The government price control agency ordered that dealers sell eggs by weight instead of by number.

Small dealers refused to buy or sell that way. Groceries and supermarkets which went along with the plan found buyer resistance.

Eggs have been selling for the equivalent of 4.4 to 4.8 cents each, depending on size. The government ordered that the prices be pegged at 80 cents a kilo (2.2 pounds).

The mathematics involved in figuring out the price of one or two eggs—and a large percentage of sales are of this type—were just too much for a lot of people.

LUDINGTON (U)—Leap year apparently is off to a slow start in Mason County where Clerk Albert E. Johnson says only one application for a marriage license has been received at his office thus far this month.

ANN ARBOR (U)—Prof. L. Don Lett, geologist and seismologist of Harvard University, will discuss "Use and Abuse of Earth Waves," Thursday at the University of Michigan.

ANYONE WANT AN ICE? — Biggest icicle in Bay County forms on the water tank at the Michigan Central Railroad North Euclid yards in Bay City. A railroad spokesman blamed the frozen overflow on a minor leak in the tank's wall, indicating repairs will be needed as soon as the tank can be drained.

Gorge Yourselves, Ladies — the Diet Will Be Rough

CHICAGO (INS) — A huge 2,300 calorie dinner was just a beautiful memory to 22 plump Chicago women slated to embark on a strict eight-week reducing course.

The overly-padded ladies, eating with all the desperation of a condemned man at his last meal, gorged themselves on the sumptuous banquet last night.

It was their "last fling" before they begin dieting under the Chicago YMCA's "Lose Weight the Y's Way" program Feb. 1. Here's what they ate:

Cream of mushroom soup, 200 calories; breaded pork chop, 500; macaroni and cheese, 300; buttered peas, 150; avocado and cheese salad, 500; roll and butter, 100; ice cream delight (with chocolate sauce, whipped cream and strawberries), 450; milk, 166, and coffee with cream and sugar, 80.

The dinner, which contained nearly twice the number of calories allowed for a day on a reducing diet, was designed to teach the women a lesson in what not to eat.

The ladies will act as pace setters for the nearly 2,000 women scheduled to take the course.

HEAVIEST AT 265 — Heaviest in the group was Miss Helen Childs, 36, chemist for a milk products firm who tips the beam at 265 pounds.

The lightweight was Mrs. John Nassau. County Judge John D. Donohue remanded Wirths to jail to await sentencing Jan. 27.

Wirths, a German refugee, was indicted for burglarizing the home of Lewis L. Gottlieb, in Hempstead, Sept. 26, of two cameras and a man's suit valued at \$275.

The unemployed bricklayer told police he was on the roof of the millionaire sportsman's home the night of Oct. 30 when Woodward was shot. Mrs. Woodward was freed of any blame in the accidental shooting.

Judge Voiding Tickets Due to Faulty Radar — Detroit Traffic Judge John D. Watts said yesterday that he is dismissing a group of speeding tickets because the Police Department's new electronic speed snare failed a time test.

Watts said that during a trial Friday he learned the device was off 2.8 seconds a minute and so he is dismissing all speeding tickets dated 30 days after one of the periodic checks given the apparatus.

Meanwhile, police disclosed that the device has tripped 18,000 since it went into operation last April.

Walled Lake Resident Sentenced to Jackson — In Oakland County Circuit Court yesterday, Paul E. Rowe, 38, of 1661 W. Lake Dr., Walled Lake, was sent need to 1½ to 15 years in Jackson state prison by Judge H. Russell Holland.

Rowe pleaded guilty Jan. 9 to taking two bottles of whiskey from the Red Oaks Tavern, 2005 Wixom Rd., Wixom, Dec. 18.

Red China Bait for Dollars Dips

Shady Deals in the Past Is Reason for Big Drop in Foreign Investments

HONG KONG (INS)—The Chinese Communists, anxious for foreign funds, are offering fat dividends and other benefits to lure investments from Chinese in other countries.

Such investments from Chinese in Hong Kong, the nearby Portuguese colony of Macao and other areas are guaranteed a minimum of eight per cent dividends, even if the enterprises concerned do not make profits.

Other "bait" include personal services, such as looking after the health and welfare of relatives of investors and their children studying in Communist schools and colleges, and giving them monetary assistance deducted from dividends earned.

But, it should be noted, there is no provision for dividends to be paid outside the Communist orbit. Red China is desperately in need of foreign exchange to help realize her much-publicized, but not very successful Five-Year Industrial Plan. Remittances from Chinese in other countries have dwindled considerably, since very little of the money sent relatives in Red China ever reached the families for which it was intended.

Now the Communists are going overboard with enticements to squeeze money out of the 13,000,000 Chinese living in free countries.

Mississippi Girding to Keep Race Barrier — Jackson, Miss. (U)—Gov. J. P. Coleman told his state and the nation today that Mississippi will keep segregation without violence and despite the federal government.

In all history "there cannot be found one single instance where a government has forced one race against its will to integrate with another," he said in his inaugural address.

He urged the rest of the nation to consider Mississippi's position before passing judgment: "We are entitled to the sympathetic understanding of our friends in the remainder of the country."

"We ask you to remember that by reason of the numbers involved, this problem is more acute here than in any other state in the nation."

"It is not something which can be viewed with complacency or ignored, and if you lived in Mississippi and knew the full situation, you would look upon it as we do."

Negroes form 45 per cent of Mississippi's population.

Juveniles Confess Thefts of Fishing Equipment — Two 15-year-old Oxbow Lake boys have confessed stealing fishing equipment from several ice fishing shanties during January, Oakland County Sheriff's detectives said today.

No charges have been filed against the youths, who were turned over to the custody of their parents after returning their loot to its owners.

Girl Polio Victim Decides on Law After Court Visit

OWOSSO (U)—A day in court has clinched crippled little Carol Anne Bradley's decision to be a lawyer when she grows up.

The pretty blonde, partially paralyzed for 10 of her 11 years, has yearned to learn about lawyers and judges since she met a lawyer who was a polio victim at University Hospital last March.

Carol was in the hospital too for treatment of the ganglionic neuroma, nerve tumor, that struck her at birth. She has undergone 17 spinal operations and now gets around with elbow crutches.

When Carol returned home two months ago, she pleaded to be taken to court. So when Municipal Judge Peter J. Marutiak heard about it, he invited Carol to visit his court for a day.

Carol was impressed by the number of law books in the judge's office. And she was surprised to find the jury box so low in the courtroom.

"They're always higher on television," she said.

Carol isn't exactly sure why she wants to be a lawyer, but says: "I want to help innocent people. Sometimes I'll make mistakes in defending the wrong people, but everyone makes mistakes."

Lansing-School Buses Crash on Icy Highway

LANSING (U)—Seven children were injured when two school buses crashed on an icy strip of road a mile south of Lansing yesterday. None of the children was hurt seriously and all were released after hospital first-aid.

Both buses were loaded with junior high school students from Lansing Eastern High School.

One was following the other and the second bus rammed the first vehicle in the rear after skidding on an icy patch.

Chessman Lawyer Told to Be Ready

SAN FRANCISCO (U)—Convicted rapist-author Caryl Chessman's counsel was warned "have your witnesses here" in Federal District Court today by Judge Louis E. Goodman, who is hearing Chessman's latest plea for a new trial in his seven-year fight against execution.

The judge told George T. Davis, Chessman's attorney, that he would take the matter under submission without further proceedings if there was undue delay.

Chessman, 34-year-old author of "Cell 2455, Death Row," contends that his 1948 conviction and death sentence in Los Angeles was upheld in appellate courts because of trial transcription errors.

E. R. Perry, court reporter in original trial, died before he could transcribe all of his notes.

Aussie Oil Hunt May Yield Boom

Outlook Indicates Good Prospects for Continued Expansion of Wells

PERTH, Western Australia—The producing characteristics of the oil well at Rough Range No. 1A in West Australia, in the area of Australia's first big oil discovery, have remained more or less constant since May, 1955, and the well has produced 591,360 gallons.

Tests by the operating company, West Australian Petroleum Pty. Ltd., have shown that the oil has good porosity and permeability, and the company states that as part of a major field the well would be a satisfactory producer.

Recent survey moves by the company have caused a stir in financial circles, as they indicate a hopeful outlook towards the prospect of finding oil within 50 miles of Perth.

The center is at Gingin, a farming district, and the search by geological and geophysical teams in that area is costing about \$60,000 a month.

The activity followed a seismograph survey recently by officers from the Federal Bureau of Mineral Resources.

Wealthy Sisters to Get Dolled Up for Royal Rite

ST. MORITZ, Switzerland (INS) — Two sisters, whose multi-millionaire husbands own large slices of Monaco, said today they plan to be the best-dressed guests at the wedding of Prince Rainier III and American film star Grace Kelly.

Tina Onassis and Eugenie Niarchos, whose husbands are rivals in the shipping world, indicated their intention at St. Moritz where both are currently vacationing.

Mrs. Onassis volunteered that "both our husbands consider the marriage ideal and the greatest stimulant to business that Monaco could have."

Their fleet-owner mates are Aristotle Onassis and Stavros Niarchos.

Spring Is Coming

GRAND RAPIDS (U)—Mrs. Edmund R. Esenwein of Grand Rapids, an unofficial bird watcher, sighted the season's first robin Sunday in her front yard. She said the bird was spotted at 4:30 a. m., and "looked nearly as big as a pheasant with his feathers all ruffled out."

Auto Show Is Popular

GRAND RAPIDS (U)—Officials of the Grand Rapids Auto Show reported 7,000 persons attended its opening Monday night.

Death Notices

BIGLOW, JAN. 6, 1956, EDNA, 1779 W. Moore Rd., Milford, Mich., 82; beloved wife of Charles A. Biglow; dear aunt of Mrs. Walter Miller and Mrs. Mary Davis. Card of Thanks

WE WISH TO THANK OUR friends, neighbors and relatives for their acts of kindness and floral offerings during the illness and funeral of our dear husband and brother, Special thanks to Rev. Robert Von Oyen for his comforting words to the nurses and personnel of St. Joseph's Hospital. Also to the family of Rev. Von Oyen for the beautiful flower heart sent by them.

I WISH TO THANK OUR FRIENDS, neighbors, relatives and fellow members for their acts of kindness and floral offerings during our recent bereavement in the loss of our dear husband, Rev. Dewey Dearing. Special thanks to Rev. Dewey Dearing, Mrs. Jack Dearing.

I WISH TO EXTEND MY HEARTFELT thanks and appreciation to the Rev. Quisten Williams for his kind words and beautiful floral offerings during our recent bereavement in the loss of our dear husband and father, Rev. Dewey Dearing. Special thanks to Rev. Dewey Dearing, Mrs. Jack Dearing.

WE WISH TO EXPRESS OUR thanks for the expressions of sympathy and floral offerings during our recent bereavement in the loss of our dear husband and father, Rev. Dewey Dearing. Special thanks to the Brice-Smith Funeral Home, Wife Ella and Family.

In Memoriam 2

IN LOVING MEMORY OF EARL L. Putnam, who passed away Jan. 15, 1956. The world may change from year to year. And friends from day to day. But never will the one we love. From memory pass away. Sadly missed by wife, Eva, and daughters, and family.

IN LOVING MEMORY OF ALF C. Strand who passed away January 15, 1956. The world may change from year to year. And friends from day to day. But never will the one we love. From memory pass away. Sadly missed by wife and daughter, Florence, Lois and family.

IN LOVING MEMORY OF OUR son, Charles L. Young, who died January 17, 1956. His memory is as dear today as in the hour he passed away. Sadly missed by Mom, Dad, and Brothers.

FOUR-WEEK BOAT — This boat travels 35 miles an hour four weeks after it was planned on drawing board and constructed at Hamble, England. It's designed for export market.

MISSIONARY COMES HOME — Mrs. Homer Bradshaw, imprisoned with her husband by the Chinese Reds for nearly five years, is assisted from the plane which brought her and Dr. Bradshaw to their home in Pittsburgh this week. At the right is Dr. George Tootell who accompanied the Bradshaws on their trip. Her husband's brother, Dr. William Bradshaw, is behind her.
