Airborne Unit Arrives in Viet

Pontiac Press Photo

LEAVING JAIL — A. Ross Pearson, 16, of 1127 Alhi, Waterford Township, is led from the county jail to his preliminary court examination yesterday on a first-degree murder charge. He will be arraigned in Circuit Court Wednesday. Pearson is accused of the fatal stabbing of Jeffrey Talbot, 17, of 2945 Watkins Lake, Waterford Township. Accompanying Pearson is Waterford Township police sergeant David Putnam.

Suspect Said He Planned to Kill Area Boy---Trooper

A Michigan State Police trooper testified yesterday that A. Ross Pearson once told him that he had planned the killing of a Waterford Township teenager last month.

"There's no use kidding you. I went over to kill him," Trooper Robert Mueller quoted the 16-year-old Pearson as saying after he had turned himself in to police.

Pearson later denied making the statement, according to Mueller.

The youth is charged with first degree murder in the fatal stabbing of Jeffrey Talbot, 17, son of Dr. and Mrs. Frank Talbot, 2945 Watkins Lake, on June 27.

Police say the fight climaxed a feud over a 15-year-old girl.

★ ★ ★

Pearson's alleged statement was made public for the first time yesterday at his preliminary court examination before Waterford Township Justice Patrick K. Daly.

BOUND OVER

Daly ordered the youth bound over for arraignment in Oakland County Circuit Court at 9 a.m. Wednesday before Judge James S. Thorburn.

Pearson is the son of Mr. and Mrs. Alan R. Pearson, 1127 Alhi, Waterford Township.

Defense attorney Clarence Smith argued that if the case had to be bound over, it should be on a reduced charge of manslaughter on grounds that Pearson was defending himself.

★ ★ ★

"It's time that it is known that the deceased and his father set the stage by pulling this boy (Pearson) out of the automobile," said Smith.

'PROTECTING HIMSELF'

"If the defendant did something wrong it was protecting himself with a knife," he said. "At best this would be manslaughter."

Pearson's handwritten state-

Says Poverty Funds Lure Agency Staffers

MINNEAPOLIS, Minn. (AP)—Gov. George Romney of Michigan has complained that private agencies which have led the way in antipoverty programs are losing their personnel because of higher salaries paid under federal poverty grants.

Romney lodged his complaint yesterday during a session of the National Governor's Conference on the Economic Opportunity Act.

His remarks came after the nation's governors had listened to an appeal for cooperation from R. Sargent Shriver, director of the Office of Economic Opportunity.

The Michigan governor said that if antipoverty officials "undercut" efforts of private agencies, "we're going to destroy the mainspring of our progress."

Shriver's reply was that community action programs enlist the participation of private agencies.

★ ★ ★

He added that salaries of social workers are too low and if competition tends to raise their pay level it is a good thing.

NEED TOP STAFFERS

Shriver also said antipoverty programs must be staffed by top people.

Romney also inquired whether antipoverty programs funds were intended to be used for all programs "that can be related to poverty in any way."

He asked whether antipoverty funds could be used to finance teaching of dancing and dramatics.

Sales, Profits Up at Chrysler

Six-Month Records Are Achieved by Firm

NEW YORK (AP)—Chrysler Corp. achieved record sales and profits in the first six months and the second quarter of this year, the No. 3 auto maker reported today.

★ ★ ★

Earnings totaled $118.4 million, or $2.91 a share, in the first half, compared with $114.4 million, or $2.95 a share, in the 1964 first half. More shares were outstanding in the 1965 period than a year earlier.

First half sales rose to $2.6 billion from $2.1 billion, a gain of 28 per cent.

In the second quarter, earnings totaled $61.8 million, or $1.47 a share, against $60.6 million, or $1.56 a share, a year earlier.

Sales increased to $1.4 billion from $1.1 billion.

★ ★ ★

Chrysler improved its position in the domestic market, accounting in the first half for 15.3 per cent of sales, up from 13.8 per cent in the 1964 first half. In the second quarter its percentage of sales was 15.7 per cent, up from 15 per cent a year earlier.

★ ★ ★

Directors authorized the regular quarterly dividend of 25 cents a common share, payable Sept. 1 to stockholders of record Aug. 9.

★ ★ ★

Worldwide car and truck sales totaled a record 1,060,276 in the first half, a gain of 17 per cent over 903,643 in the 1964 first half.

June Living Costs Hike Biggest in 23 Months

WASHINGTON (UPI) — Sharp rises in meat and vegetable prices pushed up the cost of living in June by one-half of 1 per cent — the biggest increase in 23 months.

★ ★ ★

The Labor Department reported today that its June consumer price index stood at 110.1 per cent of the 1957-59 base period, meaning that the buying power of a $10 bill has gone down 92 cents since then.

B52 Bombers Hit Suspected Cong Position

Paratroop Brigade Puts Outfit Ashore Northeast of Saigon

SAIGON, South Viet Nam (AP)—Paratroopers of the 101st Airborne Division, successors to the World War II heroes of Normandy and Bastogne, came to the war in South Viet Nam today.

As 3,700 men of the 101st's First Brigade began landing at

See Stories, Pages A-2, A-4, A-5, A-9, B-9, B-10

Cam Ranh Bay, 180 miles northeast of Saigon, a U.S. spokesman said giant B52 jet bombers of the U.S. Strategic Air Command dumped 500 tons of bombs on suspected Viet Cong positions 35 miles southeast of Saigon.

After the B52 raid — the sixth in South Viet Nam by the Okinawa-based bombers — several thousand paratroopers of the 173rd Airborne Brigade began combing the hilly area.

By late today one Viet Cong had been killed, another captured, and there were no U.S. casualties, the spokesman reported.

★ ★ ★

The paratroopers who landed at Cam Ranh Bay were greeted by the man who commanded their division when it dropped into Normandy to spearhead the invasion of France, Ambassador Maxwell D. Taylor.

OFFICIAL ACT

It was one of Taylor's last official acts in Viet Nam. He leaves tomorrow to be replaced by Henry Cabot Lodge. Among the arrivals was Taylor's son, Thomas, an intelligence officer with the brigade.

★ ★ ★

The paratroopers will reinforce 1,080 men of the U.S. Army's 1st Division who arrived on July 12.

AP Photofax

MARS PHOTO — The National Aeronautics and Space Administration released this photograph of Mars today. Information was that it was made by Mariner 4 from 7,800 miles up. The area covered 170 miles east to west, 150 miles north to south. (See story, page A-2.)

Traffic Light to Be Installed at Troublesome Intersection

Michigan State Highway Department officials have approved the installation of a traffic control signal for the intersection of South Saginaw and the Auburn-Orchard Lake crossover.

The city had requested the traffic light after a series of traffic accidents at the intersection. The light is to be installed next week.

However, in approaching the new traffic light, the highway department claimed that this was "another step backward" so far as the ultimate plan for South Saginaw was concerned.

Ultimately, South Saginaw is to be closed for the area to be redeveloped for commercial development within Wide Track.

The intersection had been the subject of controversy this spring when the opening of Wide Track disclosed that motorists could not:

- Travel south on South Saginaw through the intersection.
- Turn south on West Wide Track when headed west on the crossover.
- Turn north on East Wide Track when headed east on the crossover.

Limitations on southbound traffic movements on South Saginaw caused the most complaints by city officials, motorists and merchants.

After meeting with city officials and merchants, state highway officials agreed to remove the island that blocked access to a portion of South Saginaw.

A survey of the intersection by the local office of the state highway department showed that there had been 15 right-angle collisions from April 1 to June 14.

A traffic volume study further pointed out the need for a traffic signal, according to the highway department.

3 Flee East Berlin

BERLIN (AP) — An East German man, his wife and their 9-year-old son used a rope to flee to West Berlin last night from what was once Hermann Goering's Luftwaffe headquarters. The escape was accomplished under the noses of Communist guards.

Mexican City Whipped by 60-M.P.H. Winds

MEXICALI, Mex. (AP) — A windstorm whipped through this Mexican city late last night, causing extensive property damage, injuring several persons and knocking out electricity for four hours.

★ ★ ★

Police said winds clocked in excess of 60 miles per hour uprooted trees, damaged roofs, ripped out street signs, started minor fires and snapped power lines.

Chairman Post to Gov. Reed

MINNEAPOLIS, Minn. (UPI) — The national governors conference elected Republican Gov. John Reed of Maine to its chairmanship today after a political row in which Republicans charged Democrats with flagrant violation of a 2-year-old agreement.

★ ★ ★

The chairmanship rotates to the GOP this year and the Republican choice for the post was Gov. John Love of Colorado.

The three Democrats on the five-member nominating committee recommended Reed for the chairmanship. The two Republican members, including Gov. Robert E. Smylie of Idaho, recommended Love in a minority report.

The election came shortly before adjournment of the annual conference and the jet flight of the governors to Washington to hear a report from President Johnson on the Viet Nam situation.

★ ★ ★

When Smylie presented the nominating committee report, he said he had a "unique and dictasteful duty" to tell of "an open covenant, openly arrived at and now openly broken."

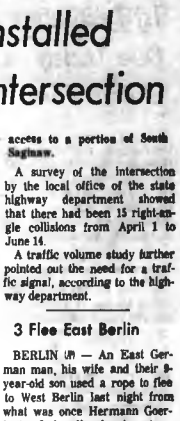

CITES AGREEMENT

He said the two parties had agreed two years ago that the nominating committee would select one of two names submitted by the party due to get the chairmanship.

★ ★ ★

The names of Love and Gov. Mark O. Hatfield had been picked by a GOP governors' caucus.

Smylie suggested that the nominating committee might as well be abolished if it can ignore party choices.

SHARON S. SNYDER

Talent Contest for Title Won by Miss OU

Miss Oakland University, Sharon S. Snyder, 20, of 6765 Woodbank, Bloomfield Township, won the talent contest last night in the second round of preliminary competition for the Miss Michigan title.

★ ★ ★

The classical ballet dancer, daughter of Mr. and Mrs. Louis Snyder, won with a performance taken from "Flower Drum Song."

She is a junior at OU.

In addition to talent contests, the girls vie in swimsuit and evening gown competitions.

A winner in each category is selected on each of three consecutive nights, which began Tuesday.

★ ★ ★

Final competitions are slated for tomorrow with the naming of 10 finalists, selected on the basis of over-all accumulated points.

Hospital Care Heart of Plan

(EDITOR'S NOTE: This is the fifth in a 14-part series on the new health care and Social Security bill by John Troan, special writer for Newspaper Enterprise Association.)

By JOHN TROAN

Medicare is somewhat of a misnomer. The new Social Security health-care plan for the aged could be more aptly tagged "Hospicare." For hospital care is the heart of this benefit program.

Basically, Medicare will provide up to 90 days of hospital care for each "spell of illness" to a person 65 or older.

A "spell of illness" begins the day a patient is admitted to a hospital or nursing home. It ends once a patient has been outside a hospital and outside a nursing home for 60 straight days.

Medicare won't cover the full hospital bill. The patient will have to pay the first $40. And if he stays longer than 60 days during any "spell of illness," he'll have to pay $10 for each additional day he remains in the hospital.

The patient also will have to pay for the first three pints of blood he might receive — unless he gets donors to replace the blood.

BLOOD TRANSFUSIONS

After the first three pints, transfusions will be paid for by Medicare.

Coverage will apply to patients in psychiatric and tuberculosis as well as in general hospitals.

But if a patient is already in a mental or TB hospital when he becomes eligible for Medicare, the time he has spent there will be counted against the 90-day limit for a "spell of illness."

★ ★ ★

Further, no person will be able to draw, during his lifetime, more than a total of 190 days of care in a psychiatric hospital.

SPECIAL PROVISION

A special provision applies to Christian Science sanatoriums operated or certified by the First Church of Christ, Scientist in Boston.

Medicare will cover up to 120 days of care for a single stay in such an institution, with the patient paying the first $40, plus $10 for each day after the first 60 and $5 for each day after the first 90.

Medicare also will cover persons who go to a hospital on a nonovernight basis for X rays and other diagnostic tests.

★ ★ ★

Such "outpatients" will have to pay the first $20 for services rendered in any 20-day period, plus one-fifth of the balance.

The initial "deductibles" will be in effect through 1968. After that, they may be raised each year if necessary to keep pace with increasing hospital costs.

Hospital benefits, which start July 1, 1966, include:

- A semiprivate room (two to four beds), though a doctor may order a private room for "medical reasons."
- Regular hospital nurses (but not private-duty nurses).

(Continued on Page 2, Col. 3)

Mars Moonlike in New Pictures

WASHINGTON (UPI)—Space scientists today showed President Johnson and the nation fantastically clear photographs of Mars that revealed the presence of moonlike craters possibly two- to five-billion years old.

* * *

Johnson described the Mars picture as "awe-inspiring."

He said "the flight of Mariner 4 will long stand as one of the great advances of man's quest to extend the horizons of human knowledge."

Before presenting special space agency medals to three top officials responsible for the success of the flight, he said future history books may skip over the names of the projects but the names of the men who were responsible for them will be remembered for generations.

* * *

Dr. Robert Leighton, the scientist who described the pictures to the President, said the photographs disclosed these features of Mars:

- At least part of the surface is covered with larger craters, as is the moon. This, he said, further enhances the unique quality of the earth in the solar system.
- One of the pictures showed 70 craters, from three to 75 miles across.
- Some of the craters seem rimmed with frost.
- There is no trace of the fabled Mars canals, although there still is a possibility there may be something resembling them.

MORE MOONLIKE

Leighton said the "inferences" to be drawn from these facts is that Mars is more moonlike than earthlike. But unlike the moon and like the earth, it does have some atmosphere.

He added that the craters appear to be very ancient — from two- to five-billion years old.

Leighton also said there was nothing in the pictures to "demonstrate or preclude" the possibility that basic life exists on Mars.

1st Testimony Due Today in Steren Trial

Opening testimony in the Madison Heights Steren Assembly Club gambling trial was scheduled to begin today in Manistee.

A jury was chosen yesterday, following the rejection of a defense attempt to get the case sent back to Oakland County.

The jury is composed of eight women and six men.

Attorney Carlton Roeser, who won a change of venue to get the trial out of Oakland County, vainly requested its return.

* * *

His grounds — "publicity" on the case — were similar to those of the first instance.

REJECTED REQUEST

Presiding Judge Frederick C. Ziem of Oakland County, hearing the case here in Manistee County Circuit Court, rejected Roeser's request.

* * *

Twenty men are on trial on gambling and gambling conspiracy charges in connection with operation of the club.

Troopers Head for Dixie City

AMERICUS, Ga. (UPI) — One hundred state troopers were ordered today into this city to preserve peace after two Negro youths were charged with murder in the nightrider slaying of a 19-year-old white youth.

The slain youth, Andy Whatley, was gunned down by shots fired from a speeding car as he stood on an Americus street corner about midnight last night, only two blocks away from a place where Negro demonstrators were staging an all-night civil rights vigil.

Charged with the killing of Whatley were Negroes Charlie Lee Hopkins and Eddie James Lamar.

The killing took place at a corner where only a few moments earlier a group of white youths had been throwing rocks and bottles at Negroes in passing cars.

According to some witnesses, Whatley did not take part in the rock tossing.

Quints Born in Sweden; Mother Took Hormones

FALUN, Sweden (UPI) — Quintuplets were born today to a Swedish woman who had been given hormone treatments for infertility. The doctor who treated her also disclosed the stillborn birth recently of seven babies.

Three of the quintuplets, two boys and a girl, died shortly after birth. A boy and a girl survived "in pretty bad shape," a hospital spokesman said.

AP Photofax

FESTIVAL KICKOFF — Mr. and Mrs. Arthur Herendeen of Farmington, N.Y., made like pioneers this morning in Detroit and set off in a carriage for Farmington, Mich. Once there, the Herendeens kicked off a three-day Founders Festival in honor of the Quakers who settled the community. Herendeen is a direct descendant of the founders of the New York town for which Farmington is named.

Birmingham Area News

Community House Plans Set

BIRMINGHAM — In anticipation of an active fall and winter season, the Community House will undergo a beautification program.

It will be closed for cleaning, decorating, and repair work Aug. 2 - 29.

Among fall activities planned are two new classes: rug making and beginning sculpture. Registration for these and other educational and craft classes begins Sept. 7.

A gourmet cooking demonstration is slated for Sept. 13, with "do-ahead" ideas given in preparation for holiday entertaining. It will be under the direction of Mrs. Rita Leinwand.

The travel film series will begin its 1965-66 season in November with a color film, "Three Worlds of Peru," narrated by Eric Pavel. Season tickets are now available. There will be 10 all-color films presented.

Information on activities, services and facilities can be obtained by calling the Community House before or after the period of renovation work.

The face-lifting program will include cleaning of walls, woodwork and ceilings, waxing all floors, repairing the steps, building a new porch at the Bates entrance, refinishing the lobby doors and other minor repairs.

Some of the meeting rooms will be painted and many couches and chairs recovered.

The Velma Isley room will receive new carpeting, and the auditorium stage will get new aqua-colored velour curtains.

BLOOMFIELD HILLS — A four-week beginning course in astronomy for children will be offered at Cranbrook Institute of Science Aug. 3 to Aug. 26.

The course is open to youngsters who have completed the fourth grade.

The planetarium will be used for the classes, scheduled from 9:30 a.m. to 11 a.m. Tuesdays and Thursdays.

In addition, two night classes are planned for constellation identification and telescope use.

* * *

Martha Schaefer will instruct the class in identification of heavenly bodies, including constellations, stars, planets, moons, meteors, comets and nebulae.

Registration can be made in person at the Institute or by phone. There is a tuition fee.

'Draft Call No Problem in State'

LANSING (AP) — Michigan's Selective Service sees no difficulty arising from President Johnson's doubling of the draft quotas.

* * *

Officials said yesterday no new induction centers will be necessary nor will any major change in policy be required.

At the same time, Lt. Col. Robert Lundquist, Selective Service operations officer, said any specific effects could not be forecast until detailed orders came from Washington.

Michigan recently has been drafting an average of 1,000 men a month.

* * *

These have included some 20-year-olds. Lundquist said the pool of 20-year-olds is large and there is a question whether an expanded draft will extend into the pool of 19-year-olds.

INDUCTION RATE

The rate of induction was reported about on a level with the rate of new names being added to the pool.

The general pool includes about 76,000 men between the ages of 18 and 35. These men are classified as 1-A, subject to call.

Lundquist said draft boards have encouraged eligible men to enlist in the reserves or in the service branch of their choice before being drafted.

* * *

Present policies call for the induction of only single men between 20 and 26, Lundquist said. He said presently there are 19,000 men in this group.

MONTHLY ORDER

For the month of July, Michigan had orders to draft 673 men. The August order has been for 718 men and the September order for 588.

Lundquist said the pool of 19-year-olds totals about 7,000.

He said the Michigan quota has averaged between 4 and 4.5 per cent of the national call and that he expected this proportion to hold.

* * *

Lundquist said that if necessary, married men without children in the 19 to 26 age group would be drafted. He said there are about 25,000 men in this group.

Panel Tells of New Method for Saving Heart Patients

One heart attack victim in 10 can escape death through establishment of special heart monitoring units in hospitals, it was reported yesterday at an area medical seminar.

Sponsored by the Michigan Heart Association (MHA), the seminar at New Providence Hospital in Southfield was attended by nearly 200 physicians and nurses.

Main speaker at the confab was Dr. Thomas Killip, chief of cardiology at The New York Hospital, New York City.

Dr. Killip headed a panel of five doctors that discussed a new technique for salvaging cardiac patients that sustain sudden heart arrest or stoppage.

* * *

Similar to present intensive care wards in some hospitals, the heart care units would be equipped with a monitoring system that would provide a constant watch on the hearts of heart attack patients.

WARNING DEVICE

Through this monitoring system, a warning device would sound when a patient suffered irregular heart beats for eight seconds.

Dr. Killip said that irregular heart activity, some that could not be distinguished by ear alone, usually preceded cases of sudden heart arrest.

All patients in the cardiac unit would be hooked to an oscilloscope, a modified television device that pictures the heart's activity on a screen.

* * *

A nurse, who would have to be specially trained, would monitor the heart activity of all the patients in the special unit.

VARIOUS ESTIMATES

An MHA spokesman said that various estimates have been made on the effectiveness of such a ward. One estimate has been that up to 25 per cent of those patients who suffered such heart stoppages could be saved.

Under the watchful eye of the oscilloscope, highly-trained nurses and a medical team could respond almost immediately to a heart arrest. The nurse would wait 20 seconds for the doctor to arrive before instituting treatment.

Four minutes is the critical time period to react to sudden heart stoppage, according to participants at the seminar.

* * *

After four minutes, there is the danger of brain damage even if the heart can be started again.

NOT BADLY DAMAGED

Dr. Killip said that autopsies on patients who died from sudden heart arrests after relatively mild heart attacks showed that the heart was not badly damaged.

* * *

A heart patient would spend about five days after his original attack in the special cardiac unit.

Pontiac General Hospital officials are interested in the monitoring units. Medical staff members are reportedly investigating the possibilities of this new technique.

* * *

Among those attending yesterday's seminar were Dr. Michael C. Kozonis and Dr. Donald C. Overy both have offices at 880 Woodward.

'Suspect Said He Planned Killing'

(Continued From Page One)

ment was read into the record. He said he went "wild" and began "slashing" when Dr. Talbot and his son pulled him from the car.

Waterford Township police said that more than 20 persons visiting the Talbot home witnessed the stabbing. Talbot died on the operating table several hours later.

Juvenile authorities waived jurisdiction over Pearson following a hearing before Probate Judge Norman R. Barnard July 7.

Oklahoma Plane Crash Kills Five Persons

TAHLEQUAH, Okla. (AP) — Five persons were killed today in the crash of their private plane two miles north of this northeastern Oklahoma city's municipal airport.

Police said there was no immediate identification of the dead.

Annexation Election Is Supported

The possibility that Farmington voters will go to the polls to decide whether a 560-acre parcel of the township will be annexed by the city became stronger yesterday.

In a meeting to consider a petition for the annexation, the boundaries committee of the Oakland County Board of Supervisors recommended that an election be held.

The recommendation will be considered at the Aug. 10 meeting of the board of supervisors.

If the full board authorizes the election, a date would then also be set.

In such an election, voting would be limited to residents of the city and the area to be annexed, according to Farmington City Manager John D. Dinan.

Sought for annexation in the petition signed by over 500 residents of both the city and township is a triangular parcel bounded by Grand River, Gill, Freedom and Halstead.

The area is zoned residential and includes the Woodcroft subdivision which runs off Gill.

Farmington Township Supervisor Curtis H. Hall said that the township naturally opposed the petition that was signed by some 500 city residents and from 30 to 35 who live in the township.

He pointed out though that the area, which has about 150 residents, did not represent a great amount of tax revenue.

Hall told the committee members yesterday that he felt they acted in the best interests of both the city and township in calling for a decision at the polls.

The issue would have to pass by a majority in both the city and township, Dinan said.

Two Funnel Clouds Reported Near Lapeer

Two funnel clouds were reported near Lapeer yesterday afternoon by Lapeer County sheriff's officers.

One was sighted five miles north of Lapeer and one near the jail in town. No damage was reported.

NATIONAL WEATHER — Showers are expected tonight over the southern Atlantic states and the southern plains eastward into the Gulf Coast states. Showers will cover parts of the plateau. It will be milder west of the Mississippi with cooler temperatures moving over the northeast corner of the nation.

Hospital Care Is Heart of Benefit Program

(Continued From Page One)

- Services of the hospital's medical social workers.
- Use of regular hospital equipment, supplies and appliances, such as oxygen tents, wheelchairs and crutches.
- Prescribed drugs which are ok'd by the hospital's medical staff or approved by any one of four "medical Bibles" specified in the law.
- Services of hospital residents and interns — doctors getting on-the-job experience under approved training programs.

Services of other physicians will not be covered by the basic Medicare plan.

For Social Security to pay anything, however, a physician must certify it was medically necessary to put the patient in a hospital.

If the patient stays longer than 19 days, the doctor will have to recertify need for continued hospital care at intervals specified by the government.

Care in a psychiatric or tuberculosis hospital will be covered only if a doctor certifies the patient needs special treatment which can be "reasonably expected to improve" his condition — or, in the case of TB, render the disease "noncommunicable."

This rules out Medicare coverage for ordinary custodial care in TB and mental institutions.

EMERGENCY

In an emergency, a patient could be treated in any hospital.

He could even be taken to a hospital outside the United States provided the emergency occurs in this country and the foreign hospital is closer or substantially "more accessible" than any "adequately equipped" hospital in the United States. (But if the emergency arises outside the United State, Medicare won't pay.)

* * *

In nonemergency cases, Social Security will pay only if the patient goes to a hospital which signs a Medicare agreement with the federal government.

To do this, a hospital must subscribe to a physician-controlled "utilization review" committee which will check on admissions to prevent needless use of hospital facilities and services.

* * *

Psychiatric and TB hospitals also must be approved by the Joint Commission on Accreditation of Hospitals, a professional rating agency.

Other hospitals must be so accredited or prove they meet standards similar to those required for such "accreditation."

NEXT: Nursing home benefits.

Raid on Missile Sites Influenced LBJ Decision

By FRANK CORMIER

WASHINGTON (AP) — President Johnson's decision to avoid calling reservists to fight in Viet Nam was influenced, in part, by Tuesday's attack on two mobile missile sites near Hanoi by American fighter bombers.

* * *

Johnson felt that direct and quick retaliation against the missile launchers that had bagged a U.S. jet bomber Sunday was sufficient proof of what he terms the nation's "no retreat" policy in Viet Nam.

* *

Had the launchers not been discovered and attacked, it was said, Johnson probably would have felt compelled to mobilize some reservists and National Guardsmen as a display of national determination.

The administration view seemed to be that the assault on the launchers would be weighed most seriously in the Communist camp because, so far as is known, the United States struck without knowing or caring whether the installations were manned by Russians, Communist Chinese or North Vietnamese.

If this is correct, and high administration officials said Wednesday night the missile base episode was a turning point in Johnson's deliberations, the end result also coincided neatly with the President's personal inclinations.

Johnson has seemed anxious to avoid, to the degree possible, any direct provocation of the Communist camp. And, officials said, he was reluctant to order a mobilization that might have put the country on a semiwar footing and made any peace talks — the ultimate aim — more difficult.

One of the mobile missile bases was reported destroyed and the second damaged. Three American fighter bombers were listed by the Pentagon as shot down by conventional antiaircraft fire during the 46-plane attack.

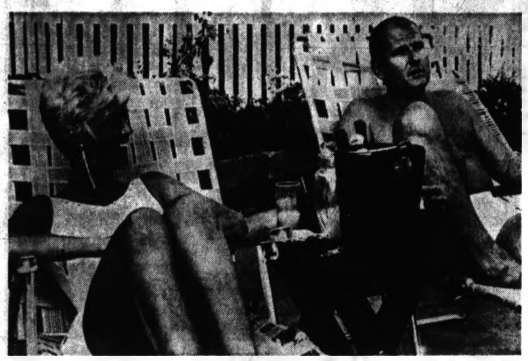

After weighing all factors in a solid week of conferences, Johnson limited his Viet Nam policy actions — announced at a news conference Wednesday — to a doubling of the monthly draft call to 35,000 men and quick increase of 50,000 in the size of the American force in South Viet Nam.

ADDITIONAL MONEY

Johnson also said he would ask Congress this year for additional money to help finance expanded military commitments. Officials said the amount would run between $1 billion and $2 billion.

He said more troops would be dispatched even after the projected level of 125,000 is reached.

Officials said Johnson's latest move will have as much immediate impact as any broader mobilization. For one thing, they said, there would be a considerable time lag before any reservists could reach Viet Nam, whereas some seasoned regular troops can move in almost at once.

Pentagon Likely to Seek Increase of 300,000 GIs

WASHINGTON (AP) — The Defense Department probably will ask Congress to boost the regular military forces by 300,000 men or more in a gradual buildup through heavier draft calls and recruitment of volunteers.

Sources disclosed this today as it became clear President Johnson had chosen a relatively slow course of girding for the long haul in Viet Nam, rather than a quick buildup using reservists and National Guardsmen.

* * *

A boost of 300,000 regulars would swell U.S. military strength to about three million men. Much of the increase would be applied to the Army, sources said.

Among other things, the Army will get one more division, probably mechanized infantry, to raise its division total to 17. More independent infantry brigades also are planned. An Army division totals about 15,000 men, a brigade about 4,000.

FALLS SHORT

Johnson's move increasing the U.S. military commitment in Viet Nam by 50,000 men, to a total of 125,000, falls short of expectations. But it is considered likely further U.S. reinforcements, possibly as many as 50,000 more, may flow to the war zone by the end of the year.

The new strengthening of forces in Viet Nam is well below what would be needed to bring about a 10-1 or even an 8-1 margin of superiority over the Communist guerrillas infesting the country. Some experts say such a ratio is essential.

* * *

To reach a margin of 10 to 1 or 8 to 1, another 650,000 to 900,000 Americans would have to be poured into Viet Nam to reinforce the 550,000 South Vietnamese troops and the Americans already there or due to arrive under current plans.

The buildup in South Viet Nam is beginning to drain the strategic reserve of regular Army divisions based in the United States for use around the world.

Johnson faced two alternatives for rebuilding this strategic reserve — either by a combination of the heavier draft and stimulated enlistments or by call-ups of thousands of reservists and National Guardsmen.

U.S. officials said Johnson decided against calling reservists and guardsmen to the colors because he and his advisers concluded such action was not necessary at this time.

Plans for calling reservists are on the shelf, but the possibility they may be ordered up later remains.

When intensive planning for a possible muster began several weeks ago, the armed services put in tentative "shopping lists" totaling more than 220,000 guardsmen and reservists.

ENLISTMENTS

Pentagon authorities hope that enlistments in all the services will increase under the spur of sharply increased draft calls.

The draft will rocket to 35,000 inductions a month starting probably with the October call. This is the biggest monthly quota since late in the Korean War. Draft officials said they would have no trouble delivering the extra men, but it may be more difficult to get deferments.

* * *

For months, 17,000 men have been drafted monthly. This was a big jump over the 3,000 level of last February, but it wasn't due to Viet Nam — it was because enlistments fell off as rumors spread that the draft would be ended.

For the first time in nine years, the Navy will take men through the draft — 4,500 in October. Neither the Air Force nor the Marines now intend to draw on selective service.

Pentagon authorities have decided against asking Congress for legislation permitting them to freeze Army and Air Force enlisted men and officers now on active duty. The Navy already has this statutory authority and may resort to it.

Increased regular forces would be financed through deficiency funding authority, and the money would not come out of an anticipated budget increase of between $1 billion and $2 billion.

This defense budget increase, which probably will be followed by another supplemental request early next year, will go for buying ammunition and equipment and for construction connected with the buildup in Viet Nam and this country.

One of the big buys involves helicopters. Defense officials, pleased with the performance of choppers in Viet Nam, intend to put into effect a "huge increase" in Army helicopter companies. The present number of such companies is classified.

U.S. Girds for Viet Test

Reflecting week-long Cabinet consultations on the involvement of the United States in Viet Nam, President Johnson yesterday briefed the Nation on the military design for that embattled region.

JOHNSON

While reiterating the Administration's sole objective of a peaceful solution to the aggression being inflicted upon the South Vietnamese by the Communist-backed Viet Cong, the President announced that U. S. military forces in that theater will be increased from 75,000 to 125,000 men — with more to be committed if necessary.

★ ★ ★

In support of our broadened military posture there, the monthly draft will be doubled from the present 17,000. Present plans do not envision activating the Army Reserve.

And on the diplomatic front, Ambassador ARTHUR GOLDBERG has been directed to present to the secretary general of the United Nations LBJ's earnest request that the total resources and prestige of the 114-nation organization be exerted toward cessation of hostilities in Viet Nam and a negotiated resolution of the impasse.

★ ★ ★

Motivated by conviction that withdrawal from Southeast Asia would be tantamount to an updated Munich presaging perilous consequences, there can be no doubt that the Administration is fully determined to carry American intervention in Viet Nam to a victorious or honorable conclusion.

By and large, the course mapped by the Chief Executive has bipartisan support of Congressional and political leaders and the generality of American people.

The time is past for active opposition to implementation of the American guarantee of freedom from oppression for South Viet Nam — a guarantee enunciated by three presidents over a period of 11 years. For better or worse, the die has been cast — and all America should stand staunchly and loyally behind its leader in the crucial decision he has made.

As the patriot STEPHEN DECATUR so well declared in 1816: "Our Country! In her intercourse with foreign nations may she always be right; but our Country, right or wrong."

IN our small way, we try to help Uncle Sam, but he pays us no mind. Several years ago we advised him to make it mandatory that all holidays fall on Wednesday, so that he wouldn't lose so many taxpayers in accidents.

In Filling Judgeships Old Way Seen Best Way

We concur with the bipartisan conclusion (at least on the executive level) that the provision in Michigan's new constitution related to filling judicial vacancies is an impractical one.

Governor ROMNEY and Attorney General FRANK KELLY, on opposite sides of the political fence, will join in urging the legislature to submit an amendment to the constitution that would restore the power of the governor to fill those vacancies by appointment. Currently, it is required that they be filled by elections—special, in many cases—with retired judges appointed by the State Supreme Court serving in the interim.

★ ★ ★

The weakness of this constitutional mandate is twofold. One is the cost to taxpayers of recurring special elections to fill judgeships; the other is that retired judges qualified for temporary service are in short supply.

As now proposed, the issue, if approved by two-thirds of both houses of the State Legislature, would come before the electorate in a special election sometime prior to 60 days before the general election scheduled for Nov. 2.

★ ★ ★

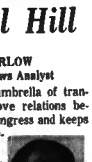

The proposed amendment represents one of the bulwarks—flexibility—of our democratic structure of government. When a constitutional provision, however well-intended, proves to be unworkable or outmoded, it is within the power of the people to remedy it.

Such action is clearly indicated in the procedure for filling vacancies on the bench.

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The umbrella of tranquillity always stands above relations between the President and Congress and keeps them from getting overheated.

MARLOW

That must be the impression of anyone who came of age in the past 12 years which have been a rather tranquil time in dealings between the man in the White House and the men in the Capitol.

But it wasn't always that way. It wasn't that way under the presidency of Franklin D. Roosevelt and of Harry S. Truman, who had some monumental battles with Congress.

President Dwight D. Eisenhower is the one who raised the umbrella from the moment he took office in 1953. His policy was simple: Don't say anything to irritate the men on the hill.

This pretty much deprived them of a chance or a reason for firing back at him. President John F. Kennedy continued the policy and President Johnson has made a big production of it, and a successful one.

★ ★ ★

In these first seven months of his first term, Johnson has been enormously free of criticism except for some advice by Republicans on how to win the war in Viet Nam.

PLAYS ALL ANGLES

Johnson plays all the angles to avoid criticism. For example, in the way he announces a decision.

One of the very best ways to cause yourself misery, if you were president, would be to let information leak out on a decision you had made before you announced it.

It would give the critics — ranging from the truly concerned to the disenchanted the discontented, and the garrulous — a chance to open up on you before you made a decision known.

★ ★ ★

Johnson has done just the opposite by making surprise announcements, and the absence of criticism shows it has worked well for him.

ALL SIDES PRAISE

For example: There was praise from all sides when he suddenly revealed he had plucked Justice Arthur J. Goldberg off the Supreme Court to make him U.S. ambassador to the United Nations.

★ ★ ★

The generally high regard for Goldberg can be considered the main factor in this wide public approval. But there was another: once the announcement was made, criticism couldn't have meant much.

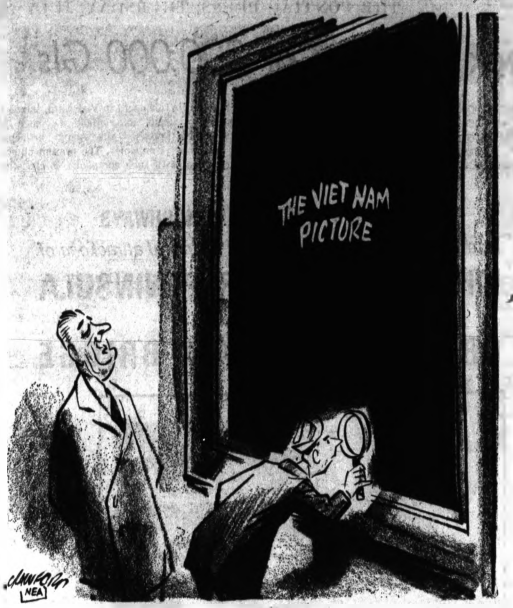

The Johnson cloak of silence until the last minute has another priceless advantage for him: maximum surprise and therefore maximum attention from people who might have said "so what?" If they had heard rumors about it.

'Fighting in World Today Is Senseless'

Why must people fight and argue? Why can't they be content? They don't know how lucky they are; things could be far worse.

★ ★ ★

If this situation continues, there won't be any turning back. I wonder if we'll be alive by the end of this year?

★ ★ ★

In order to have the world safe, everyone in all corners of the globe must work at peace.

WANT TO BET?

David Lawrence Says:

Court Choice Follows Bad Trend

WASHINGTON — Small wonder that the Supreme Court of the United States has steadily fallen into disrepute in recent years as it has developed into an oligarchy of politically rather than judicially minded individuals.

LAWRENCE

Now President Johnson has selected Abe Fortas — his personal friend of long standing who has never had a day's experience on the bench — to be one of the nine justices of the Supreme Court of the United States. This is in line with the unfortunate trend of the past several years.

Other presidents besides Mr. Johnson, Republican as well as Democratic, have appointed to the Supreme Court political associates or partisan supporters with a controversial background.

Just what criteria do presidents use in making appointments to the Supreme Court?

★ ★ ★

They sometimes look for outstanding lawyers rather than experienced judges, but often there are political factors involved. Occasionally a member of the Senate with a legal background is appointed, and several men have gone to the Supreme Court from Congress or from the Cabinet. Every now and then a U.S. attorney general or solicitor general in the Department of Justice has won promotion to the Supreme Court.

FINE RECORDS

Some of these appointees have made a fine record, and it is possible that Fortas may turn out to be a well-balanced and fair-minded justice who is able to forget his early espousal of "left-wing" causes that made him a controversial figure in the New Deal.

He is only 55 today and has a long period of time ahead in which to adjust his thinking to judicial doctrines.

Men in the political world, however, are not inclined to abandon their views when they ascend to the bench. As justices, they do not usually in their decisions forsake their passions or preconceived ideologies.

★ ★ ★

Justice Douglas is as much an outspoken liberal today as he was in New Deal days. On the other hand, Justice Black, an Alabaman who was exposed after his appointment as having once been a member of the Ku Klux Klan, has never shown the slightest sympathy for the objectives of that secret cult.

WOULD BE EASIER

But it would be easier for justices to rid themselves of any previous political prejudices or partisanship if, they could serve a few years in the supreme court of a state or in an appeals court of the federal judiciary before being selected for appointment to the Supreme Court of the United States.

In 1963, before it was known who would be appointed chief justice, a statement was issued by Glenn R. Winters, editor of the journal of the American Judicature Society, in which he declared that it was possible to overemphasize the need for prior judicial experience, but added: "It seems more than clear that it has actually been badly underemphasized.

"There are great and distinguished judges today on both state and federal courts eminently qualified for the judicial and administrative responsibilities of the chief justiceship."

It may be that the articulation of these and similar views had an effect subsequently on President Eisenhower, for in his later appointments to the high court he nominated such objective-minded and experienced federal judges as John M. Harlan, Charles E. Whittaker, and Potter Stewart, all of whom have made significant contributions to constitutional law.

But the trend has since turned the other way again, and it is surprising that spokesmen for the bar associations, who often stress the need for a "rule of law," are willing to sit by without protest as political rather than juridical training becomes the major qualification for appointment to the highest court of the land.

Capital Letter:

Recent Kennedy 'Quotes' Strike a Ghoulish Note

By RUTH MONTGOMERY

WASHINGTON — The recent spate of "revelations" about what President Kennedy did or didn't say concerning Dean Rusk, ("indecisive") Lyndon B. Johnson, ("a riverboat gambler"), et al, strikes a rather ghoulish note.

Ruth Montgomery

What legitimate historical purpose is served by repeating uncomplimentary remarks allegedly made about current officials by a man who is no longer here to affirm or deny that he said it?

Certainly if JFK were still living, his onetime "loyal" aides and advisers would not dare to print the irritable comments which he may have made to them in the privacy of his presidential office or vacation retreats.

Jack Kennedy has been dead only 20 months, but already his former assistants are rushing into print with books which embarrass the present administration, and cast stones at some Kennedy appointees who are still serving in high government posts.

To tell about JFK's strategy during the 1960 campaign, of his wavering and soul-searching at the time of the Bay of Pigs debacle, or of his decisive wielding of presidential power in the Cuban missiles crisis and the big steel confrontation has an obvious legitimacy.

★ ★ ★

This is history and deserves to be added to the public store of knowledge about the workings of our government.

It is almost morbid, however, to plunge a knife into the hardpressed secretary of state while he is engaged in delicate maneuvers to try to prevent Viet Nam from plunging the world into the holocaust of war.

Does it help America at this critical juncture to have Arthur M. Schlesinger Jr. write a book (currently being serialized in Life magazine) in which he declares that Kennedy planned to replace Secretary Rusk because of "one muddle after another" at the State Department, and Rusk's "reluctance to decide" questions of policy?

Does Secretary Rusk need enemies, if he has friends like this former colleague who is currently pulling the rug out from under him?

(Distributed by King Features Syndicate)

Dixie Farm Clubs, Agencies

Where Bias Is on Wane

By DON McKEE

ATLANTA, Ga. (AP) — Behind the more dramatic forms of racial problems, desegregation has occurred quietly and rapidly in federal agricultural agencies and related activities over much of the South.

Dual staffs of agricultural extension services have been consolidated. Negroes have been named to state advisory committees and review posts for the first time.

★ ★ ★

Functions of 4-H Clubs and home demonstration clubs are being placed on an unsegregated basis. Biracial committees judge 4-H Club records.

Some of Alabama's home demonstration clubs decided to disband rather than sign desegregation compliance forms.

Under the Civil Rights Act, federal employes, such as the county farm agent and home demonstration agent, cannot participate in segregated activities.

NO AFFECT

"This does not affect our work with individuals," said Dr. Fred Robertson, director of the Department of Agriculture Extension Service at Auburn University.

In 4-H Clubs, Robertson said, "we have to work with schools that either are desegregated or working under plans approved by the Department of Health, Education and Welfare."

These agencies have until Dec. 31 to come into full compliance with the law.

★ ★ ★

An Associated Press survey indicated, however, that most of the extension agencies in the South have moved into desegregation without trouble.

FEDERAL FUNDS

In Mississippi, an official who asked anonymity, said "we will follow the directives of the Department of Agriculture to the letter, wherever federal funds are involved."

State fairs and 4-H activities in North Carolina have been desegregated for three years.

Tennessee will desegregate all cattle shows and similar activities connected with federal services this year. "No difficulty is expected," a spokesman said.

★ ★ ★

Texas, Georgia, Florida and South Carolina also reported quiet compliance for the most part.

In Washington:

Why Not Use S. Viet Guerrillas?

By RAY CROMLEY

WASHINGTON (NEA) — Viet Nam is like any place else. If you want to catch a fox, then set a fox to get him.

CROMLEY

Down in the southern part of Viet Nam, near the city of Ca Mau, two of us ran across a tough, wily village chief who had run away as a youth and fought for years as a Viet Minh and Viet Cong guerrilla. He'd gotten fed up with Communist methods and come home. But he'd lost none of his fighting ability.

He'd built his hamlet security forces centered on a tough little group of young men in their twenties. They didn't fight the Viet Cong in conventional ways. They didn't sit back behind barbed wire and barricades and wait for an attack.

Each day some of his villagers would go out and nose around among their relatives and friends in the neighboring hamlets and towns. They listened to the gossip. They kept their eyes open for strangers and for the relatives of villagers they knew had joined the Reds, and if they found them, engaged them in idle conversation.

They picked up rumors, noticed little things like which young men sympathetic to the Viet Cong were away. By adding the bits and pieces together, this hamlet chief kept track of where the Viet Cong were operating and what they were planning next.

He almost always knew when the Viet Cong were planning to raid his hamlet and how they would attack. Quietly his men would set up ambushes.

"You know," he told us, "the Viet Cong are suckers for ambushes. You'd think with all their ambushing they'd know better. But they fall right into traps like green recruits."

(Note — He booby trapped the possible invasion paths he didn't have the manpower to cover with his ambushes.)

★ ★ ★

The moral of this tale is simple. There are in South Viet Nam tens of thousands of able men who fought as Viet Minh in the successful guerrilla wars against the French. Many of these men, still young, were officers in Ho's armies.

★ ★ ★

Moving around South Viet Nam, a reporter meets men who served as captains, majors and even colonels in Ho's Viet Minh. One day, while having lunch with several Vietnamese newspapermen, one disclosed he'd been chief of staff of one of Ho's armies in northern Laos years ago.

These men are loyal Vietnamese. They're not Communists. They were fighting as nationalists against the French and quit after South Viet Nam was set up or when they discovered the Reds wanted to control the country.

These men know Ho's strategy and tactics. They're old hands at guerrilla fighting. Few are being used in this war in positions of responsibility. Yet who could better outwit the Viet Cong?

There are some men now working in the Pentagon on ways to shake out the rigidity in the Vietnamese army system that effectively bars the use of these men. But don't count on a quick solution.

Day Skyscraper Shook

Unforgettable Air Disaster Is Recalled

NEW YORK (AP) — It was just before 10 a.m. 20 years ago that an Army B25 bomber, groping its way through a fog, smashed into the 79th floor of the Empire State Building in one of New York City's strangest air disasters.

It left 14 persons dead: three were the crew of the aircraft and 11 were in an office in the 1,248-foot tower, the world's tallest building.

* * *

The death toll might have been much higher except for the fact that the crash occurred on a Saturday when most of the building was unoccupied. There were only 1,500 in the building at the time compared to the usual 15,000.

AP SPECIAL REPORT

WON'T FORGET

But those who lived through it may never forget:

The explosions as the plane sheared through the stone exterior of the 102-story building; the flaming gasoline spreading through offices and corridors, down elevator shafts and the outside of the building; the screams of those trapped by fire and debris; the skyscraper swaying like a tree in a gale.

One of those who remember is Miss Catherine O'Connor, 57, who was in the headquarters of the War Relief Services, the 79th floor office that bore the brunt of the inferno where the 11 civilians either died or were fatally injured.

* * *

"There were 17 of us in the office," Miss O'Connor recalled. "Suddenly something hit the building. We had no idea what it was. The building shook violently, and five or six seconds later there was an explosion that consumed about three-fourths of the office. From the floor to the ceiling there was nothing but a sheet of orange flame.

"Ten people died instantly. Another person, Joseph Fountain, was right in the middle of the explosion. We could see him behind the fire.

CALLED OUT

"I called to him, 'Come on, Joe!' and he walked out of the fire just like superman, but he was burned over 60 per cent of his body. There was nothing we could do for him." Fountain died on Tuesday.

Miss O'Connor said the five or six second interval between the crash and the explosion saved the lives of four girls who had been in the center of the office.

"When the building was hit, the girls ran, and moments later, the area where they had stood was consumed," she said.

The six eventual survivors and Fountain took refuge in another office, Miss O'Connor said, and within minutes "all the smoke got black and poured through the transom into our office."

"We got a south window open," she added, "and arranged ourselves in two layers trying to breathe.

"But there was no panic and no one got terribly excited. Mr. Fountain was of great consolation to us. We were all Catholic and he told us, 'This is what you've been taught by your parents and teachers to be ready for. Death is the moment we have to face.' He suggested we all make an act of contrition, and we did it together."

"We were in that office for an hour," Miss O'Connor said. "We were completely surrounded by fire. I'm sure hell could never be any hotter than that room was."

* * *

She continued: "We couldn't figure out why no one came for us. I found out later that the fire chief didn't think anyone could have survived and wouldn't let his men near our office out of fear for their safety.

"But I heard glass breaking and saw a man in a window not far from us stick his head out. I called out to him, 'Where are the firemen?' He told me they were all around. And I said to tell them that there were seven people trapped in our office, one of them badly hurt.

"Then a fire lieutenant volunteered to come in and burst through with his men playing hoses on him. Later he got a medal for bravery."

Miss O'Connor was in and out of hospitals for four years after the crash. Her burns were minor, but she suffered severe smoke poisoning.

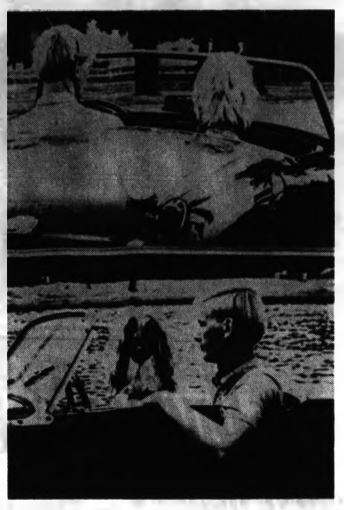

"They couldn't get the smoke out of my lungs," she said. "It was kind of gooey from burning oil and adhered to my lungs."

The Army officially attributed the crash to unfavorable flying conditions and misjudgment on the part of the pilot and ground personnel.

The pilot, Lt. Col. William D. Smith Jr., had left Bedford, Mass., with contact-flight rule clearance for La Guardia Field here. On reaching the New York area, Smith made contact with the control tower at La Guardia and asked permission to go on to Newark, N.J., under contact-flight rules.

Smith was informed by the tower that conditions at Newark were less than minimum for contact flight, but when Smith replied he nonetheless preferred going to Newark, he was given permission to do so, providing he could maintain three miles forward visibility.

Two minutes later, the bomber plowed into the building. The investigation report said Smith should have been denied permission to proceed to Newark.

Junior Editors Quiz on— ANT HOUSES

QUESTION: What are ant houses made of?

* * *

ANSWER: Ants work together in a social society and most of them operate from a home base. Different kinds of ants make different houses.

Carpenter ants live in tunnels bored in wood. Harvester ants build mounds rising above ground. Certain ants, living in trees, make nests of leaves which they fasten together.

A great many tunnel into the earth. We show a cross section of such a home—or rather village, so many activities are going on inside.

There is a room where the harvest queen is laying eggs; another where eggs are being hatched into larvae; and one in which the larvae are changing into pupae, the last stage before anthood.

Other rooms are used for storage of various food supplies. Take a look at an ant home for yourself. Turn over a few stones and you are pretty sure to find one with a bustling ant colony underneath.

There may be many large white objects which are the pupae from which the adult ants emerge. Watch the workers rushing frantically around, apparently without direction.

You may think: "Poor little creatures—they haven't the slightest idea what to do next!" But they do.

* * *

FOR YOU TO DO: Watch the ant colony you have uncovered for awhile. Notice how the ants get the precious white pupae to a safe underground place as soon as possible. In a very short while, every last pupae will have been moved to one of the nurseries below.

GMI Diplomas to 28 Area Men

General Motors Institute will hold graduation exercises tomorrow evening at the IMA auditorium in Flint.

Twenty - eight Pontiac area men will be among the 355 to receive diplomas.

Of the area graduates, 15 were sponsored by Pontiac Motor Division, nine by GMC Truck & Coach Division and four by the Warren Engineering Section of Fisher Body Division.

Edward N. Cole, GMI class of '33, executive vice-president of General Motors and chairman of the GMI Board of Regents, will introduce the commencement speaker, Dr. Guy Stever, president of Carnegie Institute of Technology.

* * *

The ceremonies will mark the 38th commencement for GMI, an accredited college which provides General Motors with about 25 per cent of its engineers.

TOP-FLIGHT GRADUATES

The student body of 2,600 is made up of top-flight high school graduates selected by GM plants for appointment to cooperative programs in either mechanical, industrial or electrical engineering.

For four years students alternate between periods of academic education in the classrooms and laboratories at the institute and coordinated work experience at the plants.

Gogebic Sheriff Dies

BESSEMER (AP) — Gogebic County Sheriff Axel E. Tenlen, 56, died Tuesday night at his office. Officials at Divine Infant Hospital in nearby Wakefield said he apparently suffered a heart attack. Tenlen had been sheriff since 1950.

Dry Spell Spurs Action in State

Two Counties Take Emergency Measures

LANSING (UPI)—Officials of Ingham and Saginaw counties have taken emergency steps to ease the effects of a prolonged dry spell, and several other southern Michigan counties may soon be forced to follow suit.

★ ★ ★

The U.S. Weather Bureau reported yesterday that rainfall amounts this month have been less than one third of normal in most southern counties and in the Traverse City area.

Lansing and Flint have received less than one half the normal moisture amount since April.

In Ingham County, where this month has been the third driest July in 35 years in Weather Bureau history, officials petitioned for federal disaster relief yesterday.

★ ★ ★

County officials asked that the U.S. Agriculture Department remove 31,018 acres from the soil bank for use as grazing land.

MAY HELP

A light rain fell off and on in the Lansing area yesterday.

The new moisture may help reclaim up to 7,000 acres of Ingham County corn that officials feared might wither in the dry earth.

The bean crop, the second hay growth and pastures also have suffered from lack of water.

★ ★ ★

Saginaw area officials clamped a ban on water-sprinkling and auto-washing yesterday while agriculture experts toured the county in a prelude to a possible request for federal aid.

IN STORAGE

Saginaw City Manager Edwin Pottheff said the city had only 12 million gallons of water in storage now as compared to 30 or 35 million gallons at normal times.

The water restrictions also affect townships that use the city water supply.

★ ★ ★

Dorias J. Curry, deputy director of field operations for the conservation department warned that "the entire southern half of the Lower Peninsula is a high to extreme fire hazard. The northern half and the Upper Peninsula are a moderate to high fire hazard, as these areas have had a little more rain," he said.

ON DUTY

Curry said the department has 270 fire officers on duty daily, 13 planes on smoke patrol and 46 fire lookout towers manned. On standby is a 1,600 man fire-fighting force and a group of 2,000 volunteers led by citizens with fire-fighting experience.

★ ★ ★

"It is premature to predict a disaster situation now," Curry said. "Prolonged periods of drought in early summer months are generally felt later on in the season as the built-up lack of ground moisture leads to ground fires."

Thant Pledges Renewed Efforts to Negotiate Peace in Viet Nam

UNITED NATIONS, N.Y. (AP) — Secretary General U Thant promised "most serious consideration" today to President Johnson's bid for more U.N. efforts to get the Communists to negotiate for peace in Viet Nam.

Johnson made his request in a letter delivered Wednesday by Arthur J. Goldberg when the new American chief delegate to the United Nations presented his credentials to Thant.

★ ★ ★

A U.S. spokesman said Thant told Goldberg he still believed the Viet Nam war must be solved "by peaceful means, either by the revival of the (1954) Geneva Conference, or some other agreed form of discussions."

Some U.N. diplomats expressed doubt Thant could get the Communists to the conference table since Red China and North Viet Nam already have rebuffed his efforts to launch negotiations.

LETTER TO THANT

Johnson wrote Thant:

"Your efforts in the past to find some way to remove that dispute from the battlefield to the negotiating table are much appreciated and highly valued by my government. I trust they will be continued.

★ ★ ★

"Meanwhile, as I stated publicly last April, the government of the United States is prepared to enter into negotiations for peaceful settlement without conditions. That remains our policy.

★ ★ ★

"And as I stated in San Francisco last month, we hope that the members of the United Nations, individually and collectively, will use their influence to bring to the negotiating table all governments involved in an attempt to halt all aggression and evolve a peaceful solution."

DUE GRATITUDE

Johnson told a news conference in Washington Wednesday that if the United Nations or any of its members can "bring us nearer an honorable peace, then they will have the support and gratitude of the United States of America."

Johnson said 15 efforts had been made to start talks with the Communist side "with the help of 40 nations throughout the world, but there has been no answer.

★ ★ ★

"But we are going to continue to persist, if persist we must, until death and desolation have led to the same conference table where it could now join us at a much smaller cost."

Goldberg flew up from Washington after watching Johnson on television, talked for 90 minutes with Thant, and then held a news conference.

He told newsmen he and Thant had reviewed Viet Nam, the Dominican Republic and the U.N. financial crisis.

Winston Churchill's six-volume history of World War II has been translated into 18 languages. It contains more than 1.5 million words. He dictated it at the rate of 8,000 or 9,000 words a day.

Job Provision Added to Antipoverty Bill

WASHINGTON (AP) — A special provision to make jobs for chronically unemployed poor adult workers has been added to the $1.9 billion antipoverty bill.

★ ★ ★

The Senate Labor Committee wrote the provision in Wednesday. It would provide $150 million to be used on jobs in such federal fields as conservation and on state or local projects such as park improvement and highway beautification.

Tuition to Be Hiked by $200 at Tufts U.

MEDFORD, Mass. (AP) — Tufts University will increase its tuition by $200 at the beginning of the 1966-67 academic year to $1,900.

President Nils Y. Wessell said the increase would be accompanied by an increase in financial aid to eligible students. Approximately 32 per cent of the student body currently receives financial aid.

The Netherlands Antilles, six islands in the Caribbean, were formerly known as the Netherlands West Indies.

Weeks Of Back Pain Now Relieved

"After weeks of pain in my back and hips, I tried DeWitt's Pills—got wonderful relief," says Mrs. R. Gardner, Waterloo, Iowa.

People write in every day praising the remarkable relief they get with DeWitt's Pills.

DeWitt's Pills act fast with a proven analgesic to relieve pain of backache. Their mild diuretic action helps to eliminate retained fluids and flush out irritating bladder wastes that can cause physical distress. If pain persists, see your doctor. DeWitt's Pills often succeed where others fail—quickly relieve minor muscle aches and pains, too. Insist on the genuine DeWitt's Pills.

Over 1¼ million DeWitt's Pills are sold by druggists day after day after day, the world over—a tribute to their amazing action!

LIVES ON REPORTS — Mrs. Jeanne Dawson looks at a picture of her missing husband, Donald Dawson, while holding their son, George, 3, in the family home in Costa Mesa, Calif. Don has been missing since April during a search of Viet Nam for his brother, an Army pilot, who was shot down last November. Mrs. Dawson lives on unconfirmed reports from the Viet jungles.

I'm Sure He's Alive, Says Wife of Yank

COSTA MESA, Calif. (AP) — Jeanne Dawson doesn't know if she's a widow — but she tries not to think like one.

She lives on unconfirmed reports that drift like mist out of the jungles of Viet Nam.

★ ★ ★

The reports concern the whereabouts of her husband, Donald, 25, a civilian who flew to Saigon eight months ago to search for his brother, Army Lt. Daniel L. Dawson, a pilot shot down in the jungle last November.

In April, Dawson headed into the Viet Cong-controlled D Zone north of Saigon to meet guerrilla leaders who had said they would take him to his brother's grave. He took with him a 21-year-old Eurasian girl, Collette Emberger, to act as interpreter. Neither returned, but an unconfirmed report reached Saigon Wednesday that both were seen in a D Zone village early this month.

DOESN'T SINK IN

"While the children realize where he is, I don't think it sinks in," said Mrs. Dawson, 27. "When they hear news from Viet Nam they say 'That's where my daddy is,' and when they hear of killing there the children say, 'They wouldn't kill my daddy.'"

As she talks she often repeats the phrase: "I'm sure he's alive." She last heard from him April 28.

★ ★ ★

She spends more time with the four children now. They range in age from 4 to 9. When Dawson left last fall she had to work nights in a bar while her mother-in-law stayed with the children.

"Now I have a new job, only five days a week, and I've moved," she said. "My aunt has come to stay with the children, and I'm able to spend nights and weekends with them."

HARD TIME

She says she has a hard time trying to explain to them why their father is in Viet Nam.

"I don't think it was a smart thing for him to do. I saw why he wanted to do it. But I couldn't sway him. I tried, as did the government.

Doubts Rights Unit Can Rule on Tavern

MOUNT CLEMENS (AP) — Mount Clemens City Attorney James C. Daner said Wednesday he doubts the Michigan Civil Rights Commission has the right to investigate the city's refusal to grant a liquor license to a Negro tavern owner.

"I am not certain in my own mind if this is a legitimate function of the commission," Daner said. He said municipalities have an absolute right to regulate liquor traffic as they see fit.

★ ★ ★

Herbert H. Pearson, a Negro, was refused permission to buy a license, Daner said. The refusal was "not discriminatory. There are ample reasons," he said.

World News Roundup

Soviets Eject Envoy in Teacher-Spy Affair

MOSCOW (AP) — K. Anthony Bishop, a Soviet affairs expert in the British Embassy, has been ordered expelled from the Soviet Union.

The expulsion order Wednesday came after Bishop, 28, was named in the trial of Gerald Brooke, a British teacher who pleaded guilty to subversive anti-Soviet activities.

★ ★ ★

Bishop was accused at Brooke's trial of being a contact man for an anti-Soviet emigre organization, the Popular Labor Alliance. British officials denied the charge.

ANKARA, Turkey (AP) — An Iraqi Embassy spokesman says his government will pay indemnity for losses sustained when an Iraqi air force plane bombed and strafed a Turkish border town.

The Turkish Interior Ministry said one man was killed and 10 other persons wounded when a twin-engine plane strafed Chukarcha, bordering northern Iraq, Wednesday.

Iraqi planes pursuing rebel Kurdish tribesman have strayd before and bombed Turkish border villages.

QUITO, Ecuador (AP) — Political leaders vowed today to continue their fight for a constitutional government despite the military junta's naming of a new cabinet of eight civilians and one military man.

After the cabinet was named Wednesday, university students called off a strike but warned they were not abandoning their struggle for a return to full civilian government.

The old cabinet resigned 13 days ago after weeks of political wrangling and rioting led by students and political and labor leaders.

ATHENS, Greece (AP) — A young Briton reported today that he and an Australian girl spent three weeks in a Sofia prison for trying to smuggle a young man out of Bulgaria during a holiday trip.

Philip Law, 27, said he and Rachel Taylor, 21 were approached by an English-speaking Bulgarian youth as they stood outside their hotel in Sofia. He said they agreed to take the youth out of the country.

When they tried to cross into Greece on July 2, he said, a Bulgarian soldier carrying a machine gun stopped them five yards from the border, searched the car and discovered the youth under the luggage.

Law said, "they slapped us in jail. We were finally released and our passports returned to us July 23."

Biracial Tour Planned

DETROIT (AP) — A biracial team of six men representing the State Civil Rights Commission will tour Michigan next month, checking the tourist industry for evidence of discrimination against Negroes and other minority groups.

Cities Back '1-Man 1-Vote'

Cavanagh Is Elected U. S. League Chief

DETROIT (AP)—The National League of Cities Wednesday endorsed the one-man-one-vote concept and elected a leading spokesman for the idea—Detroit Mayor Jerome Cavanagh — as president.

In the closing session of a six-day convention, delegates voted 420 to 116 for a resolution condemning a constitutional amendment which would overturn a U.S. Supreme Court ruling that both houses of a state legislature must be apportioned on a population basis.

* * *

Such an amendment is being sponsored by U.S. Senate Republican leader Everett Dirksen of Illinois. The league resolution did not mention Dirksen by name.

Cavanagh, who is expected to file for reelection today, was one of six speakers favoring the resolution.

REPRESENT PEOPLE

He said it would be a "catastrophe" if the league "turned its back on the people" by rejecting the population-only concept. "We're here to represent people, not stumps, acres, stones and hills," he said.

Mayor Harold Tollefson of Tacoma, Wash., was named vice president. Elected to two-year terms on the league's executive committee were:

J. Beverly Briley, Nashville, Tenn.; Lew Davis, Tucson, Ariz.; Oran Gragson, Las Vegas, Nev.; John Holland, Vicksburg, Miss.; James Kelley, East Orange, N.J.; and Ray B. Martin Jr., Norfolk, Va.

Cavanagh already is vice president of the U.S. Conference of Mayors, another influential urban group.

Hearing Set on Marshall Nomination

WASHINGTON (AP) — Thurgood Marshall's nomination to be solicitor general of the United States comes up for a hearing today before a Senate judiciary subcommittee considered certain to approve it.

Sen. Quentin N. Burdick, D-N.D., subcommittee chairman, said he anticipates no opposition to Marshall who was a judge on the 2nd U.S. Circuit Court of Appeals since 1961 and a leading civil rights attorney earlier.

* * *

"Judge Marshall has distinguished himself on the bench as an exceptional jurist," Burdick said.

For 23 years Marshall was counsel for the National Association for the Advancement of Colored People. He won his most notable victory with the Supreme Court's unanimous 1954 school desegregation decision.

CIRCUIT COURT

The 57-year-old Negro was nominated by President John F. Kennedy for the Circuit Court on Sept. 3, 1961. Congress adjourned about three weeks later and it was not until Sept. 11, 1962 that Marshall won Senate confirmation by a 54-16 vote.

All the votes against his confirmation in 1962 were cast by Southern senators. They included Sen. James O. Eastland, D-Miss., chairman of the Senate Judiciary Committee.

* * *

However, the subcommittee appointed by Eastland to conduct the hearings on Marshall's nomination to be solicitor general does not include Southerners. Instead the members are all civil rights supporters.

In addition to Burdick, the subcommittee is composed of Sens. Birch Bayh, D-Ind.; Thomas J. Dodd, D-Conn.; Hugh Scott, R-Pa.; and Jacob Javits, R-N.Y.

FIRST NEGRO

Marshall is the first Negro ever nominated to be solicitor general, a post in which he would argue major cases for the government before the Supreme Court.

FCC: Won't Set Rules on Dual Ownership 'Conflict'

WASHINGTON (AP) — The Federal Communications Commission says it will not impose across-the-board rules against one company owning both a television station and a community antenna television system.

* * *

In handing down the 5-2 decision Wednesday the FCC made clear it was reserving the right to investigate any cases of abuse that come to its attention.

* * *

The FCC said the decision followed a 15-month study of the possibility that common ownership might lead to abuses threatening competition in broadcasting.

Dissents came from Commissioner Kenneth A. Cox and Chairman E. William Henry. Henry said he favored forbidding common ownership in large communities and permitting it under certain conditions in smaller places.

Fountain at Tiffany's Will Be 'Eye Opener'

NEW YORK (AP) — Tiffany's, Fifth Avenue jewelers, plans to put two fountains in its window displays. But water, precious in this city facing a shortage, will not be used.

A distiller will donate seven cases of gin to be recirculated in the fountains.

WASHINGTON (AP) — The Army has decided to abandon the Mauler air defense missile project on which it has spent $200 million. It estimated that another $180 million would have been needed to complete development.

* * *

"Technical difficulties associated with mounting a fire control radar and guided missile launcher on the same vehicle caused significant delays and increased costs," the Army announced Wednesday.

The Mauler was to protect front-line troops against high-speed enemy aircraft and short-range missile and rockets.

One reason the Army cited for abandoning the project was that simpler and cheaper new systems for forward area air defense are being developed.

WASHINGTON (AP) — An increase of 26,537 in the number of civilians on federal government payrolls during the fiscal year just ended was reported today by Sen. Harry F. Byrd, D-Va.

But most if not all the increase may have resulted from President Johnson's directive to find jobs for young people under the so-called youth opportunity campaign, the senator said in a statement.

Civilian employment was 2,481,582 at the start of the fiscal year, July 1, 1964, and 2,508,119 at the end.

Motorbike Rider Killed

CHARLOTTE (AP) — Robert L. Arnold, 42, of Grand Ledge was killed Wednesday when a motorbike he was riding ran out of control four miles northeast of here and struck an obstruction beside the road.

Reveal Library Design

DEARBORN (AP)—The basic design for Dearborn's $3 million Henry Ford Memorial Library was revealed today. The building will feature a 300,000-volume library and an 800-seat auditorium, and will be financed by a Ford Foundation grant.

FREE ALLSTATE Tire Mounting
Wheel Balancing Available
4 for $5

ALLSTATE Passenger Tire Guarantee

TREAD LIFE GUARANTEE AGAINST ALL FAILURES
Every ALLSTATE tire is guaranteed against all failures from road hazards or defects for the life of the original tread. If tire fails, we will—at our option—repair it without cost; or, in exchange for the tire, we will replace it charging only for tread worn (charge will be a pro-rata share of exchange price*).

TREAD WEAR GUARANTEE
We guarantee tread life for the number of months designated. If tread wears out within this period, return it. In exchange, we will replace it charging the current exchange price less a set dollar allowance.*
*Exchange Price is regular retail price plus Federal Excise Tax less trade-in at time of return (no trade-in deductions on snow tires).

How to Protect Yourself—4

Don't Run Peep Show; Could Be Dangerous

(EDITOR'S NOTE: This is the fourth in a series of 12 articles on "How to Protect Yourself on the Streets and in Your Home" by Gene Accas and John H. Eckstein.)

By GENE ACCAS AND JOHN H. ECKSTEIN

Here are some safety precautions relating to windows and safety in the elevator.

Don't run a peep show. There is nothing innocent about "peeping Toms"; they are potentially very dangerous.

So don't court trouble.

Make sure that all windows and glass doors are equipped with shades or blinds, and use them.

Of course, don't invite trouble by going about scantily clad even though you have made your home "peep-in-proof."

★ ★ ★

You might have to answer the door, and your appearance could arouse criminal instincts in an otherwise placid caller.

KEEP LOCKED

Any window which is accessible in any manner from the outside should be kept locked.

Never assume that, because you don't think a window is accessible, a hoodlum won't.

For example, a window above a terrace or porch can be reached with a ladder, by climbing a pipe or trellis, or by standing on a box or similar object.

★ ★ ★

A window opening on a fire escape, or one next to a fire escape, is an easy mark for a hoodlum.

INVITES ENTRY

A window just below the roof is also one that invites entry.

Basement windows; windows to utility rooms or accessible attics; rooms and places that you don't frequently use — pay particular attention to those. Check them to make sure they are not easy entrance-ways for a criminal.

There are various kinds of window locks. Make sure that your windows are equipped with the proper one.

★ ★ ★

Minimum protection is afforded by the standard twist lock which keeps the window locked in the "closed" position.

CAN TIGHTEN

A better way is the turn-screw lock, which can be tightened to lock the window in any position.

For double-hung windows, there is a simple brace lock you can have installed, or make yourself, by placing a piece of wood or metal (a bar) diagonally between the upper corner of the top sash and the top of the lower sash.

Don't forget, if you have ground - floor windows or accessible windows, you should have bars, an "accordion gate," or a heavy mesh screen, which can only be opened from the inside.

Suburbanites living in private homes become very trusting very easily. Don't make it easy for a "second-story man."

WATCH LADDERS

Never leave a ladder in your yard or available in your garage or tool shed. If you have a ladder about the premises, make sure it is locked up and unavailable to a hoodlum as a means of entry.

It is a good idea if you live in a house to equip your windows for exit.

In other words, provide for a second means of leaving the upper stories of the building in case of emergency.

★ ★ ★

Purchase a sturdy rope ladder, long enough to drop free to the ground, and have it properly installed inside an upper window, so that if there is a fire or other extreme danger and your stairway is blocked, you can use the ladder to save yourself and your family.

Elevators, particularly self-service elevators in lightly guarded or unguarded buildings, can be and have been virtual death traps.

Don't take the elevator alone to the basement to use the washing machines. If you can only arrange to do this on weekends, let the laundry wait until then.

If it is at all possible, never go alone to laundry areas or storage rooms in the basement of your apartment building. Arrange to go with a roommate or neighbor for mutual protection.

★ ★ ★

If your building doesn't have an attended elevator, insist that your landlord install a lock on the basement elevator door. Keys for the lock are issued only to tenants.

NEED A KEY

With such a lock, no one who gains admittance to the basement will be able to ride up on the elevator; any tenant who must go to the basement via elevator, however, can open the lock.

When you get into an elevator from the lobby floor, always press the button for your floor while you are holding the elevator door open. If the indicator light or arrow then points "up," let the door close.

But, if you notice that the "down" signal flashes when you signal your floor, it could mean that a person in the basement has heard the door open and wants to bring the car (and you) down.

★ ★ ★

In that case, get out. Be alert as to what happens when the car goes down, then try again.

KEEP OUTSIDE

Should the elevator reach your floor, and you see a stranger or suspicious-looking person inside, don't get in. Let the elevator take him wherever he is going, and you wait till the next trip.

If you are already in the elevator when someone you don't know, or who seems potentially troublesome, gets on board, shift position quickly so that you are near the control panel and place your hand over the alarm button.

If you are annoyed in any way, press that alarm and keep pressing it as long as you have to!

★ ★ ★

When coming home alone late at night, don't linger in the lobby to look in the mirror or pick up your mail. Get upstairs and into your apartment quickly..

★ ★ ★

Always have your key in your hand when coming in. Don't fumble for it in the elevator or in front of your apartment door.

Sewer Pipe Break Closes Beaches

SOUTH HAVEN (AP)—Health officials closed city beaches Wednesday after a sewer pipe broke, causing 750,000 gallons of raw sewage to flow into Lake Michigan.

★ ★ ★

The break was noticed Monday and the sewage treatment plant halted operations for 19 hours while repairs were made.

John Fleming, Van Buren County health inspector, closed the public beaches because, he said, "the current and winds were just right so that the sewage would have been disposed in the beach area."

★ ★ ★

Fleming said samples of water were taken from the beach area and results of tests would be known within 48 hours. Meanwhile, he said, the beaches would remain closed.

By House Committee

Local Tax Hearing Set

The General Taxation Committee of the Michigan House of Representatives will hold a public hearing in Pontiac Wednesday to discuss fiscal problems and fiscal reform.

The 10 a. m. hearing will be held in the Oakland County Courthouse.

Rep. H. James Starr, D-Lansing, chairman of the interim study committee on fiscal reform, said the purpose of the hearing is to alert the public to the need for revision in the state's tax structure.

The public is invited to suggest ways in which a fiscal reform program can be carried out, said Starr.

★ ★ ★

The meeting is one in a series being conducted in key cities of the state.

24-HOUR JOB — It takes a heap of charcoal to make an ox roast. The undertaking also requires all-night vigils, here being kept by two Farmington Elks planning to serve barbecue sandwiches during the Founders Festival which started today. Manning the spit last night were William Everhart (left), 22437 Lilac, and William T. O'Connor, 37711 Carson, Farmington Township. The celebration is being held to honor the Quakers who settled the community 124 years ago.

Sewer Arm 'Extras' Worry Residents

WEST BLOOMFIELD TOWNSHIP — Not the cost of the Walnut Lake sewer arm — but the cost of putting it to work for the average property owner — was the primary concern voiced by many last night.

Some 350 residents gathered at West Bloomfield High School to find out about the proposed $1,520,772 project.

Heading the agenda was an explanation of the new method devised to finance the arm after a plan for special assessments was abandoned last year.

But several of the questions last night dealt with the additional cost of extending collector lines to property not adjacent to the trunkline.

* * *

The owners of single-lot home sites also wondered about the unit charge as applied to the person whose house is on a 40-acre parcel.

INDIVIDUAL LANDOWNER

The new method of financing is based on charges to be paid by the individual landowner when he makes use of the facility.

If no use is made of the arm, the property owner would pay nothing.

A unit capital charge would be paid by all users.

The charge would start at $350 and increase $25 a year to a maximum of $650.

DIFFERENT FEE

Property owners tapping directly into the trunkline would pay another fee starting at $300 and going up to $510 after 14 years.

The increases reflect the amount of interest necessary to finance the program.

The Walnut Lake arm would be constructed in the area between 14 Mile and Pine Lake from east of Inkster to just east of Orchard Lake Road.

* * *

It is an extension of the Farmington interceptor, for which property owners in the district have paid a $250 connection fee.

AVERAGE HOME

R. J. Alexander, director of the Oakland County Department of Public Works, noted that a unit is defined as requiring the sewage treatment needed by the average home.

"Other units are determined by their maximum use requirement," he said.

Supervisor John C. Rehard said that lateral lines are installed when requested by the owners of 51 per cent of the property in a neighborhood or subdivision.

* * *

Financing for the collector lines is handled on a special assessment basis in the township.

COST FOR LATERALS

Neree Alix, township engineer, said the cost for laterals has been running $600-$1,000 for each property owner.

In addition, the owner pays $3.50 a foot for a line from the lateral to the building to be serviced.

The township's charge for sewer usage is 96 a quarter.

* * *

It also was noted that state law requires a property owner to make use of a lateral sewer line within 300 feet of a structure.

Applying only to lateral lines and not trunklines, the requirement gives the property owner 18 months to comply.

* * *

In answer to another question, Alexander said the owner of a large undeveloped parcel would pay for the arm only as buildings were constructed on it.

* * *

The Township Board is expected to make a decision at its Aug. 4 meeting on the contract it would have with the county if the sewer project is undertaken.

Water Line Installation to Start Next Week

Installation of the first three miles of a 33½-mile water line from Troy to Imlay City is scheduled to start next week four miles north of Romeo.

The line is part of the Detroit Department of Water Supply's $98-million Lake Huron water project which Detroit Mayor Jerome Cavanagh will launch Monday by breaking a bottle of champagne over a 20-foot, 27-ton section of pipe in front of the City-County Building.

The Lake Huron project is the department's most extensive single undertaking. It is part of a $203-million expansion and development program started by the DWS in 1959.

It involves building 82.7 miles of pipe line with inside diameters of six to 12 feet; a water intake and tunnel five miles into Lake Huron; and the first 400-million-gallon-a-day section of water filtration and treatment plant about five miles north of Port Huron.

* * *

The first stage of the building will be a 33½-mile pipe line from the DWS north service center at Dequindre and 20 Mile roads in Troy to the site of the proposed pumping station northeast of Imlay City.

IN TWO YEARS

The first stage will cost an estimated $25.2 million and is scheduled for completion in two years.

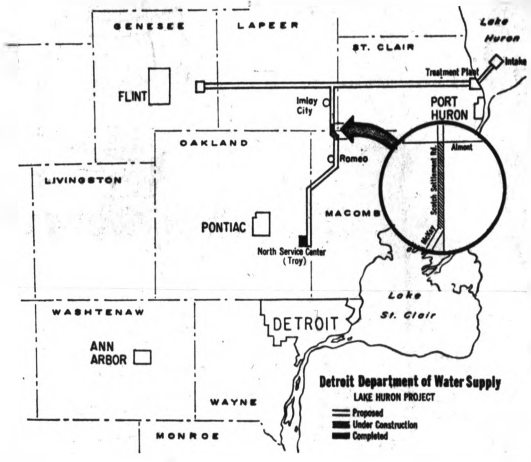

The second stage will be a 23.2-mile pipe line with an inside diameter of six feet from the Imlay City station to within 10 miles of the Flint city limits.

It will link the first stage pipe line and the Detroit water system to the Flint water system and supply Flint and other communities along the pipe line.

The $12.8-million second stage is scheduled for completion in 1967.

The third stage will complete the Detroit - Fline - Lake Huron line. It will include a water intake and raw water tunnel in Lake Huron, the first section of the filtration plant and 26 miles of pipe line.

It will cost an estimated $80 million and is scheduled for completion in 1969.

Sex Views Defended

FARMINGTON—Rev. Robert M. Eddy, who aroused public criticism over his proposal that premarital sex for teen-agers be allowed with parental consent, said his position has "ironically become reversed in the public mind."

"Newspaper readers must read on the run what newspapermen must write on the run," he said, referring to the guest article he wrote for a Detroit paper in May in which he outlined his controversial idea.

"That my proposals are controversial I am willing to admit, but that these views make me unfit to serve the youth of my community I emphatically deny," said Rev. Eddy yesterday.

He is presently chairman of Farmington Township's Youth Guidance Committee. At a Township Board meeting earlier this week, 30 persons demanded his removal as chairman.

With citizen prompting, the township board turned down an allocation to finance his committee's projects.

GROWING PROBLEM

Rev. Eddy, pastor of the Farmington Universalist Unitarian Church, said he wanted to alleviate the growing problem of teen-age promiscuity.

"Instead of viewing sex as a beautiful and powerful language for the expression of the deepest kind of love," said Rev. Eddy, "many teen-agers view it simply as a form of entertainment.

"I wish to stop this trend. We should recognize that neither present law nor present custom seems to be preventing the degeneration of sexual responsibility among teen-agers," he said.

* * *

Rev. Eddy, committee chairman since April, indicated he may resign his position, since he felt harm would be done to the committee by "irresponsible people . . . viciously and unjustly attacking the chairman."

Oxford Township Library Board Submits Federal Aid Request

OXFORD—The Oxford Township Library Board has submitted an application for a federal grant to cover one-third of the cost of a proposed library on West Burdick between Township Hall and the Village Hall.

The board had been waiting for approval of its plans from the Oxford Village Council and the Township Board.

The council approved the plans Tuesday night and Township Board members gave informal approval last week, according to Mrs. Lionel Kamm, chairman of the library board.

The plans were revised after being turned down two weeks ago by the Township Board, whose members felt the building would be too close to the existing township and village halls.

* * *

Cost of the library is rising. It was originally estimated at $40,000, but Mrs. Kamm said new housing developments in the area make a larger library necessary.

INCREASE IN SIZE

She declined to give the amount asked for in the application but said the size of the library has been increased from 3,000 square feet to 3,500.

* * *

Future plans call for making the proposed library and the township and village halls into a civic center complex.

Donations and a 1-mill tax passed last February will help finance the library.

Fishing Pond Book Available

Want your own fishing pond?

The Soil Conservation Service of the U. S. Department of Agriculture has issued a pamphlet, "Warm Water Ponds for Fishing," which describes the way to build, stock and manage a warm-water fishing pond.

* * *

Copies of the booklet can be obtained by writing to Ellis G. Humphrey, work unit conservationist, Federal Building, 35 E. Huron, Pontiac, or from the Superintendent of Documents, U. S. Government Printing Office, Washington, D. C.

"More than 50,000 ponds are built every year throughout the nation in soil conservation districts and last year landowners built 18 in the local district," according to Humphrey.

Will Direct Thumb Area Poverty Plan

LAPEER — Robert Benko of Port Huron has been named by the Thumb Area Economic Opportunity Commission to develop future antipoverty programs.

He will be responsible for setting up the programs in Lapeer, Tuscola, Sanilac and Huron counties.

For the past three years, Benko, 29, has been director of the Port Huron urban development program. He will start his new job in two weeks.

The commission recently received a $16,961 development grant to set up antipoverty programs.

* * *

Two plans in the making are a pilot program for family counseling in Tuscola County and a training program for low-income families in homemaking service and child care.

Strike at Paper Firm Continues; Talks Fail

KALAMAZOO (AP) — "No progress" was reported Wednesday from the first negotiations in the strike of 3,300 workers at the KVP Sutherland Paper Co.

The strike entered its sixth day today. Federal and state mediators said no further negotiations were scheduled at this time.

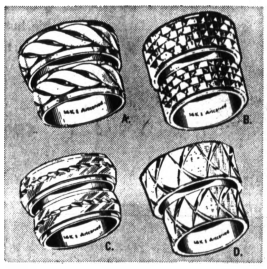

Menu of fashion... jewels a la carte

Nowhere on earth is the world of fashion inspired as it is by Paris in France. And Paris is a love story and a flirt in the hearts of lovers the world over. LBJ's Peace Strategy: Pressure Hanoi, Show U.S. Sincerity

By JOHN M. HIGHTOWER
AP Special Correspondent

WASHINGTON — President Johnson has started a new peace offensive along with his moves to step up the war against Communist forces in South Viet Nam. It has two major purposes:

1. To exert maximum diplomatic as well as military pressure on the Communist leadership of North Viet Nam to enter into negotiations.

2. To demonstrate to the rest of the world by action as well as word that the United States

News Analysis

would like to bring the Vietnamese war to a close in the shortest possible time with a solution protecting the security of South Viet Nam.

★ ★ ★

Johnson's announcement at a news conference Wednesday that he was sending Ambassador Arthur J. Goldberg to the United Nations to ask for U.N. help on the diplomatic front is only part of the peace strategy. Other elements include sounding out the Hanoi government through diplomatic channels about the meaning of its own proposals, issued last April, for a settlement.

Presumably the recent mission of roving Ambassador W. Averell Harriman to Moscow also fits into the developing pattern. Harriman spent several hours with Soviet Premier Alexei Kosygin in two different conferences.

FAVOR SWITCH

High administration officials say they believe the Soviet government and Communist governments in Eastern Europe favor a switch from military to political operations in Viet Nam but apparently Soviet influence with Hanoi is still sharply limited.

These officials say there is no doubt that Communist China is totally opposed to a peaceful settlement on any terms other than complete Communist conquest of South Viet Nam.

★ ★ ★

According to these authorities, the Communist leadership in North Viet Nam is being tugged in opposite directions by Moscow and Peking and may be uncertain of its own ultimate choice between negotiations and continuing the war.

Some evidence that this is Hanoi's present position is found here in the ambiguity of a four-point proposal made by North Vietnamese Premier Pham Van Dong three months ago.

The proposal has been widely interpreted as meaning that North Viet Nam would not agree to peace talks unless the United States withdrew or at least agreed to withdraw its forces from South Viet Nam as a precondition.

U.S. officials say the "precondition" element is extremely fuzzy and it might be possible that in the future North Viet Nam would accept negotiations without insisting on troop withdrawal in advance.

★ ★ ★

This was the thinking behind a statement made by Johnson Wednesday in connection with his announcement that he was sending 50,000 more U.S. fighting men to South Viet Nam to raise the total there to 125,000.

Johnson said:

"Hanoi has set forth its own proposal. We are ready to discuss their proposal and our proposal and any proposals of any government whose people may be affected."

Dies in 2-Car Crash

ROMULUS (AP)—Mrs. Lydia Tamas, 72, of Belleville was killed Wednesday in a two-car smashup at a Romulus Township intersection.

Office Boys to Students

Draft-Age Youths Reluctant, Anxious

NEW YORK (AP) — Some draft-age youths were reluctant, but others responded favorably today to President Johnson's call for a doubling of the draft. "We have been pushed around and we have taken too much from the Communists," one said.

Opposition to the military buildup in Viet Nam was expressed by several in an Associated Press survey.

* * *

John Russell, 19, a New York City office boy, put it this way: "He (Johnson) said he doesn't want to see young people die, but the way to do that is to end the war. You can't stop the war by sending in more soldiers."

Taking a different view was Ron Hansley, 21, a grocery clerk who got his draft notice last April when he dropped to a part-time student at the University of Washington.

FEELS OBLIGATION

"I wouldn't care to be drafted," Hansley said. "I've never looked forward to the service, but I feel it is an obligation. I feel the United States should stay in Viet Nam because no one else seems to be in a position to help or has taken any initiative."

John Dwyer, 22, a New York civil engineer, agreed with the President's decision.

* * *

"It's time we show them (the Communists) the kind of nation we are," he said.

Kenneth Babcock, 24, a student at Brigham Young University, Provo, Utah, was reluctant.

RECENT ADDITION

"My wife and I just had a baby and I think I'm sixth down from the top of the list to go," Babcock said. "But personally, I'd rather not go. I have no objections to the war. I think we're obligated."

Tom Munzig, 19, of Los Angeles, a college sophomore, saw the draft increase as disrupting his schooling plans.

* * *

"I was planning to work full-time and go to school part-time," Munzig said. "But now, in order to get a student deferment, I'll have to go to school full time and work part time. It means giving up some things. I don't mind going in — it's just that I don't want to go in at this moment without a college degree."

Richard Hoffman, 22, of East Walpole, Mass., who plans to attend Boston University Law School this fall, said:

LAW SCHOOL

"I'd like to fight, but law school has to come first. I couldn't go to law school if I were dead. I feel I can do more for my country by staying right here."

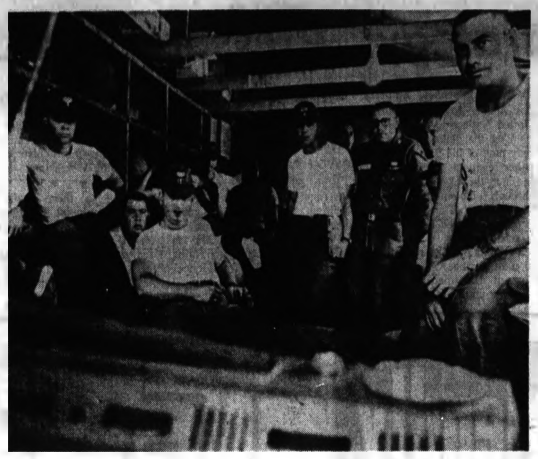

John Ogrizovich of Kansas City, who will be 20 next month, opposed the President's Viet Nam policy.

"He's just going to send more men over and they're going to get cut down," said Ogrizovich, a department store employe. "I feel if I'm sent to Viet Nam, I'll be serving a completely useless cause. We're not getting any cooperation from the South Vietnamese, whom we're supposed to be defending."

* * *

Tom Mann, 19, of Pacific Palisades, Calif., a sophomore at Santa Monica City College, said:

"I'm kissing all my girlfriends goodbye, and I'm trying my best to get into the Air National Guard."

AP Photofax

GETTING THE WORD — Men of D Company, 1st Battalion, 1st Air Cavalry Division, realize "This it it" as they listen to President Johnson tell of plans to send more troops to Viet Nam. The outfit at Ft. Benning, Ga., was ordered to proceed to Viet Nam. The troops are trained to fight from helicopters.

Trees Tumble Down, Wreck Advertisement

MILWAUKEE, Wis. (AP) — While promoters of a suburban shopping center were preparing advertisements telling about their project "nestling among the ancient trees of historic Mequon Park," someone cut down the trees.

"There was a slip up somewhere," said architect Bruce Koerner Wednesday.

Viet-Bound Troops Say 'We're Ready'

FT. BENNING, Ga. (AP) — Officers and men of the air mobile division ordered to Viet Nam by President Johnson say they are glad the waiting is over and they are ready to go.

"We'll do what this country asks us to do and do it as well as we know how, and I think we know how pretty damned well," said Capt. James D. Danielson, a veteran of Viet Nam who is going back.

* * *

"I've been waiting a long time for the word, maybe not wanting it, understand, but curious," said Pvt. Carl Hammac of Mobile, Ala. "I'm ready to go. Most of the guys like me feel it is our turn now. We've been talking about it and now I'm glad it's settled and we know where we're headed."

Both men are members of the 1st Cavalry Division (air mobile).

MEN TALK

They were among the officers and men interviewed after the President made his announcement Wednesday at a Washington news conference.

The division was officially created July 1, but many of its elements already were at Ft. Benning conducting tests of the air mobility concept under the name of the 11th Air Assault Division.

* * *

In its present form, the nearly 16,000 infantrymen and paratroopers will be carried to battle aboard some 428 helicopters.

It is this air mobility which planners believe makes such a division ideal for fighting in the jungles and mountains of Viet Nam.

KNOWS PROBLEM

"I've been there," Danielson said. "I know the problem. I know the Viet Cong are to be respected.

"I also know my own company and they're the best soldiers the world has ever produced, better than just good! I'm proud of them, I'm proud of my country, I'm proud of my profession."

* * *

The general said the division has been working hard to become combat ready, "I believe we'll make the Army and this country very proud of us."

Wide Support for Viet Moves

Some Criticism Shows Among Congressmen

WASHINGTON (AP) — President Johnson had extensive support today in Congress for his decision to send 50,000 additional troops now, and more later, into Viet Nam.

Not all criticism was stilled, however, and some who approved called for more information on the Vietnamese situation or cutbacks in domestic spending.

* * *

At a news conference Wednesday that jammed the East Room of the White House, Johnson spoke to 250 newsmen and to the country by television and radio. He said he has decided:

—To send to Viet Nam a new, helicopter-borne division and enough other troops to raise American strength in the embattled country quickly from 75,000 to 125,000 men.

INCREASE DRAFT

—To increase draft calls more than 100 per cent, from 17,000 men a month to 35,000.

—Not to mobilize any National Guard or reserve units at least for the moment.

* * *

Today, Pentagon sources said the Defense Department probably will ask Congress to boost the regular U.S. military forces gradually by at least 300,000 men through draft calls and recruitment.

SOMBER TONE

Viet Nam dominated the news conference and set its somber tone when Johnson spoke of "the most agonizing and the most painful duty of your President." This, he said, is the duty of sending young men away from homes, work and happiness, despite the tears of their families, into a zone of war.

Johnson also announced the first big assignment for the new Ambassador to the United Nations, Arthur J. Goldberg. It is to ask the international body to use all its resources to bring peace in Viet Nam.

* * *

The generally favorable reaction to Johnson's Viet Nam decisions came quickly in Congress. And in Saigon, South Vietnamese Prime Minister Nguyen Cao Ky took to the radio to hail the buildup and assure his countrymen the American troops were coming on an emergency basis and would leave when the war was won.

But one persistent critic of the administration's Viet Nam policy, Sen. Wayne Morse, D-Ore., said Johnson "is involving the United States in an undeclared war."

* * *

A number of Republicans expressed views summed up by the GOP Congressional Committee: "If Uncle Sam must don khaki, it's time for him to hang up his Santa Claus suit for the duration." The committee called for a moratorium on all but vital legislative programs until the Vietnamese situation is resolved.

Foreign News Commentary

De Gaulle Warms Up (a Little) to U.S.

By JOSEPH W. GRIGG

PARIS (UPI) — French President Charles de Gaulle appears to have decided to warm up deep-frozen U.S.-French relations — a few degrees, at least.

* * *

American officials here, accustomed to being on the receiving end of de Gaulle's diplomatic blasts, are mystified but gratified.

However, they see no signs of a major thawing out of relations now or in the foreseeable future. There are far too many deep-seated and unresolved sources of friction such as the Atlantic (NATO) Alliance, nuclear policy and de Gaulle's attacks on the dollar.

But American diplomats have detected an easing up of pressure by de Gaulle in recent months.

* * *

His talk with Vice President Hubert H. Humphrey last month was by all accounts a success. De Gaulle was said to have been at his most courtly and charming.

HIS OLD SELF

At a recent NATO permanent council session devoted to discussion of the Viet Nam conflict the French delegate omitted the usual caustic de Gaulle-inspired criticisms of American policy.

Roving U.S. Ambassador W. Averell Harriman, when he passed through Paris on his way to Moscow recently, was shown every possible consideration.

Although it was not announced at the time, appointments were set up for him on short notice with Foreign Minister Maurice Couve de Murville and several other key Quai d'Orsay officials.

* * *

The recent so-called "spy plane" incident at the Pierre latte nuclear plant was said to have touched off an explosion of de Gaulle's ire when he first heard about it.

DAMPENED PRESS

But the official French protest was in measured terms. The government dampened any anti-U.S. campaign in the press and official statements.

The American apology was followed up by an immediate statement that the French now considered the incident "closed."

De Gaulle's recent speeches also have been relatively devoid of verbal rockets against the United States or American "hegemony."

* * *

From all this, American officials here can only assume de Gaulle has decided to be more agreeable — or less disagreeable — to the United States at the moment and that there presumably must be a reason.

GUESSWORK

What the reason is can only be a matter for guesswork.

One suggestion is that de Gaulle may be paving the way diplomatically for a new move by him to act as mediator in the Viet Nam conflict.

Another suggestion is that de Gaulle may genuinely have become concerned by reports of growing anti-French feeling in the United States.

* * *

But the deep-rooted sources of friction between Paris and Washington remain. Nothing points at the moment to any prospect of resolving them.

Campaign Target Is Apathy for Crime

NEW YORK (AP) — A $2.5 million national campaign directed at public apathy to crime is being undertaken by the National Council of Crime and Delinquency.

* * *

The council and the Ford Foundation are to share the cost of the program, announced Wednesday by Sigurd S. Larmon, council president. The foundation is providing a $1.25 million grant and the council plans to raise a matching sum.

"One of the great problems to which we have not yet found an answer is the 'I don't want to get involved' attitude," said Hugh P. Reed, assistant council director.

Winds Pushing Teen-Age Sailor Toward Hawaii

SAN PEDRO, Calif. (AP) — Trade winds presumably were pushing teen-age sailor Lee Graham southward today as he sought a swift passage to Hawaii in his 24-foot sloop, Dove.

* * *

Graham, 16, left here Tuesday on what he hoped would be the first leg of a solo voyage around the world.

* * *

If he reaches Hawaii, he will be the youngest person to have navigated the 2,300-mile voyage alone, his father said.

* * *

The youth has a radio receiver but no transmitter so he can't report his position. The Coast Guard said it had no reports on him.

* * *

The teen-ager hopes to make the Hawaii journey in less than a month.

The witch hazel plant can shoot its seeds several yards. The jewel weed, abundant in swamps over most of the U.S. and Canada, has a hair trigger arrangement that causes it to throw most of its seeds violently when touched.

Quake Rocks Western Tip of Aleutians

ANCHORAGE, Alaska (AP)—An earthquake rocked the Aleutian chain last night near the Rat Islands on the Aleutian chain's western tip.

The quake was felt at military installations in the area. One report from Shemya said, "It was a real good one." But no damage was immediately reported.

The University of California at Berkeley registered the earthquake at a magnitude of 6.75 on the Richter scale.

A spokesman for the Coast and Geodetic Survey at College, Alaska, near Fairbanks, said it registered approximately 6 there.

The spokesman at College said the temblor hit about 10:36 p.m. AST and was centered about 1,300 miles southwest of Fairbanks in the neighborhood of the Rat Islands.

The Alaska disaster office reported it received no calls for assistance and the quake apparently caused no damage. The agency said the quake was not bad enough to issue a tidal wave warning.

Deaths in Pontiac, Neighboring Areas

HENRY M. BAILEY

Henry M. Bailey, 38, of 66 Forest died today. Funeral arrangements are pending at Voorhees-Siple Funeral Home.

Mr. Bailey worked in the trim-shop of the Pontiac Fisher Body Plant.

Surviving are his father, Henry of Cambridge, Ohio; two daughters, Vickie J. and Pamela R., both of Cambridge; two brothers, Wallace of Canton, Ohio and Ronald of Mogadore, Ohio; and three sisters, Mrs. Wilma Stephens of Columbus, Ohio, and Mrs. Dorothy Allen and Mrs. Stella Anderson, both of Pontiac.

WILLIE FRANKLIN

Service for former Pontiac resident Willie Franklin, 71, of Detroit will be at 1 p.m. tomorrow at William F. Davis Funeral Home with burial in Oak Hill Cemetery.

Mr. Franklin died Tuesday after a long illness. He was retired.

Surviving are an aunt and two cousins.

MRS. KARL GOOLSBY

Mrs. Karl (Frieda C.) Goolsby, 55, of 416 S. Saginaw died yesterday after an illness of several months.

Her body was sent by the Sparks-Griffin Funeral Home today to the Russell Mortuary, Gideon, Missouri for services and burial there.

Surviving are a daughter, Mrs. Francis Tolle of Missouri; three sisters; and two brothers.

MRS. CLIFFORD KOISTER

Service for former Pontiac resident Mrs. Clifford (Mabel) Koister of Milwaukee, Wisconsin will be 1:30 p.m. Saturday at Huntoon Funeral Home with burial in Oak Hill Cemetery.

Surviving are her husband; a sister, Mrs. Edna Ablin of Ann Arbor; and a brother, Carl Hoffman of Pontiac.

MRS. DAVE J. MORELAND

Service for former Pontiac resident Mrs. Dave J. (Mae H.) Moreland, 83, of Alpena will be at 10:30 a.m. Saturday at Lake Chapel, Presque, with burial in Presque by the O'Connor Funeral Home, Alpena.

Mrs. Moreland died yesterday. She was a member of the D.A.R.

Surviving are a cousin, Mrs. Lula Going of Pontiac.

MRS. WILLIAM SCHAEFFER

Service for Mrs. William (Sarah M.) Schaeffer, 87, of 2566 W. Walton will be 10:30 a.m. Saturday at the Melvin A. Schutt Funeral Home with burial in Roselawn Cemetery, Berkley.

Mrs. Schaeffer died yesterday after an illness of two weeks. She was a member of R. R. Engineers Auxiliary.

Surviving are a son, Charles of California; 17 grandchildren; and 43 great-grandchildren.

MRS. CARLOS J. HENRY

SOUTHFIELD — Service for Mrs. Carlos J. (Monnie) Henry, 66, of 2254 Lahser will be 7:30 p.m. today at Melvin A. Shutt Funeral Home, Pontiac. Burial will be tomorrow in Cadillac Memorial East Cemetery, Mount Clemens.

Mrs. Henry died Tuesday after a long illness.

A brother survives.

NEWTON W. KREBIEHL

TROY — Service for Newton W. Krebiehl, 41, of 6396 Norton will be 1 p.m. tomorrow at Spiller-Spitler Funeral Home, Royal Oak. Burial will be in Mount Avon Cemetery, Rochester.

Mr. Krebiehl was killed in an automobile accident yesterday. He was a mechanic for a construction company.

Surviving are a daughter, Karen Grandchamp, and a son, Randy Grandchamp, both of Hazel Park; his parents, Mr. and Mrs. James L. Krebiehl of Troy; a sister, Mrs. Jack Pace of Pontiac; and a brother, Von H. of Troy.

RICHARD F. MOORE

TROY — Service for former resident Richard F. Moore, 64, of Detroit was to be 12:30 p.m. today at Price Funeral Home with burial following in Greenwood Cemetery, Vernon.

Mr. Moore died Monday after a long illness. He was a retired taxi driver.

Surviving are his wife, Evelyn; a daughter; and two sisters.

MRS. ROY WARREN

ROCHESTER — Service for former resident Mrs. Roy (Cora) Warren, 82, of Chelsea will be 2 p.m. Monday at Chelsea Methodist Home. Burial will be in Oakland Memorial Gardens, Novi.

Mrs. Warren died today after a long illness.

Surviving are two sons, Ray of Pontiac and Clifford of Lake Oakland; two daughters, Mrs. Ella Stranahan and Mrs. Dora Askew, both of Rochester; 10 grandchildren; and 20 great-grandchildren.

Zone Hearing Reset for Area Subdivision

A public hearing on a rezoning request for a 60-acre parcel of land which would be converted into a subdivision containing new homes, apartment buildings, stores, an 18-hole golf course and a beach has been tentatively reset for Aug. 24.

The request was tabled Tuesday night at the monthly zoning meeting of the Waterford Township Planning Commission, pending receipt from the developers of accurate legal descriptions delineating the several requested zoning districts.

More than 325 persons — many of them living in the vicinity of the proposed $4,000,000 project on the northeast corner of Cass-Elizabeth and Cooley Lake Roads — attended the meeting which lasted 4½ hours.

In other business, the Commission recommended approval of five rezoning requests and denial of two others and turned down three special approval requests while giving the final okay on another.

* * *

Also, a public hearing on a special approval request of William Manuel and Robert Nunn for permission to construct a 12-unit apartment building at Sashabaw and Walton was scheduled Aug. 24.

PLOT REQUESTED

David Zuehlke, the applicant of the proposed $4,000,000 endeavor, has requested the plot be rezoned from agricultural and small farm district to multiple dwelling, single family residential, extensive business and public recreation area.

Among those rezoning requests recommended for approval by the Commission was one to rezone from single family residential to extensive business a 20-acre plot on the northwest corner of Crescent Lake Road at M59 — site of the proposed Waterford Plaza Shopping Center.

However, stipulations were recommended that the developer construct an auxiliary traffic lane on Crescent Lake Road as well as a sidewalk.

* * *

recommendations for approval included two multiple dwelling residential rezoning requests involving land on Embarcadero West at Walton and Dixie Highway near Scott Lake Road.

ZONING REQUESTS

The Commission also recommended approval of rezoning requests for an extensive business district at Dixie Highway and Telegraph and a general business district on M59 between Irwin and Airport.

The Commission recommended denial of requests to rezone to restricted office district a parcel at Sashabaw and Louella and to rezone to multiple dwelling residential district a parcel at Andersonville and Airport.

A special approval request okayed was establishment of a professional office building at Pontiac Lake Road and Watkins.

* * *

Special approval requests denied were construction of a fruit stand at 5647 Dixie Highway, housing of various fowl at Crescent Lake Road and Ridgetop and sale of house trailers at Tilden and Huron.

* * *

All rezoning requests, whether recommended for approval or denial, are submitted to the Oakland County Coordination Zoning Committee.

Final decision on all rezoning requests is made by the Township Board.

Truck-Car Crash Hospitalizes Driver

Listed in fair condition today at Pontiac General Hospital is Donald J. Skarritt, 27, of 6864 Brightwood who suffered injuries in a truck-car collision yesterday.

* * *

According to West Bloomfield Township police, Skarritt's car was hit when the truck driven by D. F. Hokes, 30, of Detroit, crossed the center line on Middle Belt between Lone Pine and Walnut Lake Road.

Hokes was treated and released.

Two Jet Pilots Killed in Crash Over Thailand

BANGKOK, Thailand, (AP) — Two F105 jet fighters collided over Thailand Tuesday. Both pilots were killed in the crash near Udorn in northeast Thailand.

* * *

A U.S. military spokesman in Saigon announced Wednesday that two F105 jets collided and crashed while returning to home bases after a stride against missile sites. He did not disclose their home base.

Home in Waterford Damaged by Blaze

Fire caused an estimated $2,500 in damages this morning to the Raymond Hunter residence, 3186 Shawnee, Waterford Township, according to township fire fighters who extinguished the blaze in about an hour.

* * *

Confined to the attic and kitchen of the $35,000 brick home, the fire apparently was caused by defective electrical wiring.

* * *

Neighbors noticed the fire at approximately 7 a.m. and awoke the Hunters.

Local Man Is Found Shot to Death in Car

Henry M. Bailey, 38, of 66 Forest was found dead early today in a car which was parked adjacent to 1225 Baldwin.

* * *

Police said Bailey had been shot through the head with a 32, caliber revolver. A gun matching this description was found in his lap, and police said they believe the wound was self-inflicted.

2 Plead Guilty, Receive Fines for Area Scuffle

Richard Dewey, 37, of 2623 Desmond and Gerald Jackson, 34, of 3445 Cheeseman, have been fined $10 plus $15 court costs and ordered to make restitution for policemen's uniforms, damaged in a scuffle outside Club 99, 86 S. Telegraph, last month.

Appearing before Waterford Township Justice Patrick K. Daly, Dewey and Jackson pleaded guilty to a charge of being disorderly persons.

* * *

Charges against a third man, Donald Corneall, 41, of 123 S. Johnson were dismissed.

Dewey, Jackson, Corneall and another man who escaped were charged with assailing two Waterford Township patrolmen who had been called to the scene by a woman patron who contended that one of the men had struck her.

Cut in Subway Crime

NEW YORK (AP) — The transit authority says crime on New York's subways has been cut about 60 per cent since April 7 when 800 policemen were assigned to patrol all trains and stations from 8 p.m. to 4 a.m.

Viet Hearings Set in Detroit

Unofficial public hearings on Viet Nam will be held in Detroit next week by Rep. William S. Broomfield, R-Royal Oak, and Rep. Charles C. Diggs Jr., D-Detroit. Both are members of the House Foreign Affairs Committee.

* * *

The all-day sessions are scheduled for Aug. 6-7 at the Community Arts Auditorium, Cass and Kirby.

Witnesses who will give testimony include experts from five universities: University of Michigan, Oakland University, Michigan State University, University of Detroit and Wayne State University.

Part of the hearings will be set aside for private citizens to give testimony.

* * *

Diggs said that since the House Committee on Foreign Affairs has not been responsive to his request for official and public hearings, these proceedings represent the only alternative for giving interested parties an opportunity to air their views on U.S. policies in Viet Nam.

City Man Faces Assault Charge in Double Stabbing

Pontiac police have charged Saturnino U. Rodriguez, 37, of 105 Williams with felonious assault in connection with a double stabbing last night in a city bar.

Virginia Tuttle, 25, and Daniel Baker, 46, both of 7 Short, are listed in satisfactory condition at Pontiac Osteopathic Hospital.

The incident occurred at the Central Bar, 21 E. Pike, at about 7:30 p.m.

Bartender Charles Gersten, 44 of 125 N. Berkshire told police the incident apparently took place during an argument between the three.

Rodriguez turned himself in at the police station following the stabbings.

NOTICE OF HEARING ON ESTABLISHING NORMAL HEIGHT AND LEVEL OF WATER IN UPPER SILVER LAKE IN WATERFORD TOWNSHIP, CITY OF PONTIAC AND PONTIAC TOWNSHIP
OAKLAND COUNTY, MICHIGAN

To Whom It May Concern, Particularly all owners of property bordering on, touching upon or adjoining Upper Silver Lake, or who are interested in having fixed and maintained a normal height and level of said lake pursuant to the provisions of Act 146 of the Public Acts of 1961, as amended, said lake being located in Sections 12 and 13 of Waterford Township, and City of Pontiac, Section 7 and 18 of Pontiac Township, Oakland County, Michigan.

You Are Hereby Notified that the Oakland County Board of Supervisors has designated the Circuit Court in this County a Commission vested with jurisdiction to hear and determine all matters relating to the establishment of a normal height and level of Upper Silver Lake, said lake being located in Sections 12 and 13 of Waterford Township, and City of Pontiac, Sections 7 and 18 of Pontiac Township, Oakland County, Michigan.

You Are Further Notified that a hearing on the matter will be held in the Circuit Court for the County of Oakland at the Oakland County Court House Tower, 1200 North Telegraph Road, Pontiac, Michigan, on Tuesday, the 7th day of September, A.D., 1965, at the opening of Court on that day at 1:30 P.M., before the Honorable James S. Thorburn, Circuit Judge, or as soon thereafter as counsel can be heard.

You Are Further Notified that on said date the Complainant intends to ask this Court to establish the normal height and level of said lake at 949.38 feet above sea level and further intends to oppose the establishment of the level of 949.38 feet above sea level you should show cause, if any you have, why:

(a) The normal height and level of said lake should not be established;
(b) Why 949.38 feet above sea level should not be the level fixed as the normal height and level of said lake;
(c) Why such other and further relief as the Court seems fitting and proper should not be granted to Complainant.

JOHNSON THREESOME—President Johnson and his wife, Lady Bird, appear with their 18-year-old daughter, Luci, after a news conference at the White House yesterday where the President announced the draft would be doubled and the military manpower in Viet Nam increased.

Supreme Court Nominee Is a Champion of Liberties

WASHINGTON (AP) — Tennessee-born Abe Fortas, President Johnson's choice for the Supreme Court, is a onetime New Deal whiz kid who became a top lawyer and made a reputation as a champion of individual liberties.

FORTAS

General counsel of the Public Works Administration at 29 and undersecretary of the Interior at 33, Fortas, now 55, was nominated Wednesday by Johnson to succeed newly named U.N. Ambassador Arthur J. Goldberg on the high court.

★ ★ ★

In announcing Fotas' appointment at a news conference, Johnson called his long-time friend and adviser "a scholar, a profound thinker, a lawyer of superior ability, and a man of humane and deeply compassionate feelings toward his fellow man — a champion of our liberties."

As a senior partner of one of Washington leading law firms — Arnold, Fortas and Porter — Fortas has defended such clients as Owen Lattimore, the Far East specialist accused in the early 1950s of lying about Communist associations, and Bobby Baker, the former Senate aide whose business affairs came under congressional fire.

HISTORIC CASE

In 1963 Fortas represented a penniless Florida man, Clarence Gideon, in the historic case in which the Supreme Court ruled that states must provide free counsel to paupers accused of a crime. A decade earlier, Fortas won the Durham case in which the U.S. Court of Appeals here broadened the legal definition of insanity.

★ ★ ★

His background suggests Fortas will become a member of the court's "liberal" bloc, which has favored increased use of judicial power to protect individual rights and to raise state court practices to federal standards.

★ ★ ★

The court's "liberal" majority now consists of Chief Justice Earl Warren and Associate Justices Hugo Black, William O. Douglas and William J. Brennan Jr.

Born in Memphis June 19, 1910, Fortas was graduated from that city's Southwestern University in 1930 and from Yale Law School three years later. After teaching at Yale, Fortas came to Washington as a protege of Justice Douglas and held a variety of government positions through the 1930s and 1940s.

WIFE A LAWYER

His wife, the former Carolyn Eugenia Agger, is also a lawyer and a specialist in tax matters. They have no children.

★ ★ ★

The American Bar Association said its committee on the federal judiciary found Fortas to be "highly acceptable from the viewpoint of professional qualification." Like Goldberg, he is Jewish.

The appointment appeared to be another example of the President's powers of persuasion.

On Monday, White House News Secretary Bill D. Moyers said Fortas had told Johnson repeatedly he wanted no government post "from president on down." Tuesday Moyers said Fortas turned down two offers and repeated he was not interested in any post.

★ ★ ★

But the President told his news conference:

"Mr. Fortas agrees that the duty and the opportunity of service on the highest court of this great country is not a call that any citizen can reject. So I am proud of the news that he has, this morning, accepted this appointment."

Chancellor: 'Voice' to Tell Truth

WASHINGTON (AP) — John W. Chancellor, newsman named to head the Voice of America, said today that official radio can be most persuasive about the United States' Viet Nam policy by sticking firmly to truth and balance.

President Johnson announced Wednesday his choice of Chancellor, chief White House correspondent for the National Broadcasting Co. The President hailed him as the first working newsman to be put in charge of the government's world-girdling radio voice.

CHANCELLOR

"I am satisfied the President wants the voice to tell the truth," Chancellor said in an interview.

He said he proposes to see that the official service observes the same standards of accuracy, judgment and balance as do unofficial U.S. news gathering agencies, and he added quickly, "I believe we have them now. The newscast is inviolate. People have to believe it.

SKILLFUL PEOPLE

"If I can bring to VOA — to its own skillful people — a sort of outside invigoration, I will be performing a function."

Chancellor took over the NBC White House job last November and before that, he said, he had had no real personal contact with Johnson.

★ ★ ★

"I had shaken hands with him, I had done some coverage, at a distance. I had never even interviewed him."

It was July 17, he said, when the President offered him the voice directorship.

GREAT SHOCK

A surprise? he was asked. "A great shock," he replied.

★ ★ ★

Chancellor, bespectacled six-footer, had a classic newsman's career.

Born in Chicago July 14, 1927, he attended public schools and De Paul Academy there and went into the Army in 1945 for two years. On his discharge he entered the University of Illinois but left without a degree to take a job as copyboy for the Chicago *Sun-Times*, where he advanced to reporter before being let out in what he termed an economy wave in 1950.

At Disarmament Conference

Ban on N-Spread Said 'Most Urgent'

GENEVA (UPI) — British Prime Minister Harold Wilson in a message to the 17-nation Disarmament Conference said today urgent measures are needed to prevent "nuclear war by mistake, miscalculation, accident or madness."

Wilson said negotiations on a treaty against the proliferation of nuclear weapons was "the most urgent problem" facing the Geneva negotiators.

He called for a comprehensive review of the nuclear test ban treaty and progress toward a freeze of production of weapons capable of delivering nuclear explosives.

"The British government believes it urgent to consider limitation and, if possible, the reduction of existing nuclear armories without destroying or upsetting the present over-all military balance," Wilson's message said.

It was read by Lord Chalfont, the British representative at the conference, as the meeting resumed after a one-day break.

AWAITS ORDERS

The Soviet negotiator, Semyon K. Tsarapkin, said he would not address today's meeting. He was apparently awaiting instructions from Moscow.

Diplomatic sources reported that the Russians may withdraw from the conference, using the new U.S. military buildup in South Viet Nam as an excuse for scuttling the talks.

Tsarapkin said the Soviet Union deplored the U.S. action and declared "It is not a contribution to the disarmament conference."

The Geneva meeting resumed only last Tuesday.

NOT ENTHUSIASTIC

But the Communists were never enthusiastic about ending the 10-month recess, and President Johnson's announcement yesterday that he is sending more troops to Viet Nam may have provided the Russians with the pretext they were looking for.

Russian officials warned yesterday of possible "grave consequences" flowing from Johnson's announcement.

They also predicted openly that the move would make meaningful negotiations at Geneva "much more difficult."

* * *

The West is anxious to negotiate a treaty to prevent the spread of nuclear weapons. Without such a treaty, a dozen countries could possess atomic bombs within the next few years.

NO HURRY

But the Communists indicated from the first that they were in no hurry to get down to serious business.

Communist diplomats hinted broadly that the Soviet Union's primary purpose in agreeing to return to Geneva was not to work on a treaty banning the spread of nuclear weapons, but instead to try to block the West's plans for creating a multilateral nuclear force under NATO.

On Tuesday the Russians put the emphasis on the withdrawal of foreign troops from alien soil, saying they considered this more important than efforts to prevent the proliferation of nuclear arms.

* * *

The statement followed a routine blast against U.S. "aggression" in Viet Nam, making it clear the Soviets had the American effort to contain communism in Southeast Asia in mind when they called for the withdrawal of foreign troops.

ANSWERED CALL

In coming to Geneva, the Russians complied with a call by the U.N. Disarmament Commission for a resumption of the conference here. The commission is the parent body of the conference.

Conference sources said they feared the Russians, having made their appearance at Geneva, would bow out of the conference on the ground there was nothing to negotiate with the West in the present circumstances.

In the opening session, the Russians called for concrete disarmament accords but they offered no specific proposals. Since then Russian diplomats have been telling newsmen:

- They will not consider a treaty to ban the spread of nuclear weapons unless the West drops its plans for a multilateral force under NATO.

* * *

- They still will not permit inspections on their soil. This refusal has allowed both sides to continue underground nuclear testing under existing treaties.
- They want priority given their plan for complete and general disarmament. Agreement on this plan, which the West considers unrealistic, has been impossible in the past and there is no reason to believe it will be easier in the immediate future.

Building Record Set for Merchant Ships

LONDON (AP) — Lloyd's Register of Shipping says world construction of merchant ships reached a record in the second quarter of the year.

* * *

It said 1,709 steamships and motorships totaling 11,059,806 tons were on the ways, an increase of 118,187 tons over the first quarter.

MONDAY IS OPENING DAY AT DETROIT RACE COURSE

Things will be a lot different Monday than they were back in 1949, when I first came to the Detroit sporting scene and to Michigan racing. Then, the site of our race meeting was the old State Fairgrounds track.

Looking back, I confess the facilities were crude and limited. In a way, I have spent 16 seasons trying to make up for those initial shortcomings.

Monday, when the Detroit Race Course opens its 34-day meeting, I believe we will pay a handsome dividend to you fans for your loyalty and support.

We have planned a big Opening Day program of nine races with post-parade at 3:20 p.m. There are surprises galore in store for you, for the DRC has a New Look.

Within 24 hours after we closed our meeting last October, work was started on a building and modernization program which makes the Detroit Race Course one of the finest sports facilities in the United States.

We are putting the finishing touches on our new $3,000,000 Clubhouse. It was designed with YOU in mind . . . designed for YOUR maximum convenience, comfort and pleasure.

We will have it ready to open shortly. Meanwhile, there are many additions and changes which will add to your racing pleasure Opening Day Monday and every day thereafter.

There's a bright and sparkling New Look everywhere at the DRC. You will begin to notice the changes, and be affected by them, from the moment you enter the track.

The Mile Terrace, where you can obtain the finest in food and beverages, is open. Your reservation is invited. Just telephone GA 1-7170.

The new Walking Ring, which will give all our fans a front-and-center-view of the thoroughbreds, adds to the color and excitement.

The Turf-O-Gram Board in our infield, the first at a Michigan Track, will keep you posted on every racing development.

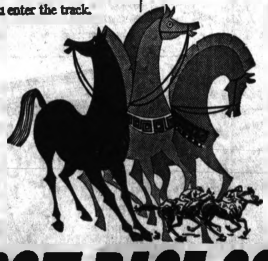

The entire grandstand area has been refurbished to make it more attractive and pleasant to you. There is an excellent restaurant, The Silk Room, beef buffets and refreshment stands.

To speed your arrival to and departure from the track, our entrances off Middlebelt and Schoolcraft roads were redesigned and we have added an entirely new entrance off Inkster Road. The flow of traffic will be smoother and faster.

Our entire Parking area was restyled to make it quicker and more convenient to get from your car to the grandstand or clubhouse. We have parking for 12,000 cars. Valet parking is available at the Clubhouse door for those who desire it.

You will find racing is finer and more fun than ever at The Detroit Race Course. YOUR PLEASURE IS OUR BUSINESS. Visit us soon.

The Fifth Rose: where is it?

Not on the label, to be sure. But in the bottle.

In a new kind of taste for whiskey. A *good* taste. Not just smoother or lighter. Not just blander or milder. But *good*. Actually, honestly good.

That's our Fifth Rose—the great new taste of Four Roses. At long last, a taste you don't just say you like—but really like.

Based on previous experience, this may come as a surprise to you. If so, it will be a mighty pleasant one. The more so because this good-tasting whiskey is so surprisingly *reasonable* to sample.

The fact is, Four Roses doesn't cost any more any more. Not one penny more.

So now, there's no reason in the world why you shouldn't buy Four Roses.

$4.52 4/5 Qt. Code #192 $2.85 Pint Code #193

"SALES TAXES INCLUDED"

A great new taste deserves a great new bottle, don't you agree?

Local Peach Growers Do Everything Possible to Give Their Customers Perfect Fruit

By JANET ODELL
Pontiac Press Food Editor

When you bring home peaches, do you have any idea of how much work is involved to bring you that perfect fruit?

This is the first week of the local peach season and from now until late September, you can buy home grown peaches.

During a recent visit to Oakland Orchards, owned and operated by the William Mainlands, we saw firsthand all the care and work common to this type of business.

Ninety per cent of all the fruit that starts growing never reaches maturity. It is thinned from the trees so that the remaining fruit will be of good size.

"This is the hardest thing in the world for a native-born Scotsman to do," wryly commented owner Mainland. He was roundly seconded by his orchard manager, George Hekman who's a thrifty Dutchman.

Mainland grows more peaches than anyone else in this part of the state.

He is looking forward to a good season with about 200 bushels expected from each of the 15 acres of mature trees and a much smaller yield from his newer plantings.

The trees have all been sprayed 10 or 12 times.

Peaches, of course, are hand-picked and carefully placed in half bushel baskets.

RETAIL FRUIT

Since Oakland Orchards sells most of its crop through a roadside stand, the peaches can be tree ripened. A few local stores are supplied.

First stop inside the packing shed is at the de-fuzzing machine.

Here, peaches on a spring held canvas go over a series of 15 nylon brushes to emerge fuzzless. The brushes are as soft as kitten fur, but they do the job.

Peach fuzz for which no one seems to have found a good use, is a nuisance, says Mainland. It drops into a bin where it is blown through a pipe to a bag outside.

Full bags are taken back to the orchard and emptied.

From the de-fuzzer, the peaches are sent on rollers to the sorting machine. Alert workers pick out any bad ones at this stage.

The small fruit drops out first with the jumbo size going all the way. Sorting bins are padded with foam rubber.

Experienced packers stand in front of the bins and place fruit in one of five size containers. There is a set pattern for packing each one.

Twenty-five per cent of the crop goes out in bushels. The remaining peaches are marketed in half bushels, tomato baskets, once used mushroom baskets that hold half a peck and two-quart boxes. Price depends upon the size of the fruit.

This week the Sunhavens are ripe. In about 10 days the Redhavens come, then in another 10 days, the Halehavens.

After that are the Richhavens, the Kalhavens, the Elbertas and the Red Skins.

Mainland says that Redhavens make up better than half the world's production of peaches now. They were originated in Michigan — as were all the Haven varieties — by Stanley Johnston.

Kalhavens are best for freezing.

Elbertas are losing ground in popularity to the Havens. But Oakland Orchards still has some trees in deference to customers who prefer them.

The Red Skin is a relatively new variety, but one of the best, says Mainland. It is a cross between Elbertas and Havens.

During fruit season, the family works seven days a week, and more than 12 hours a day.

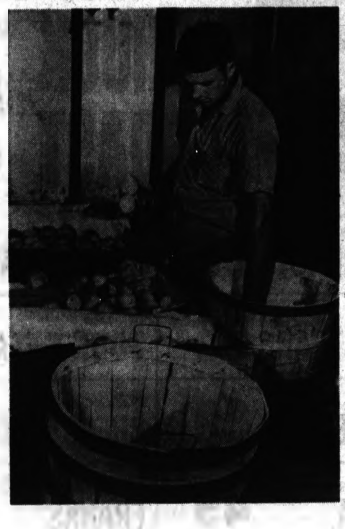

"You adjust with nature when you're in this business," concludes Mrs. Mainland.

Last year's apple season was concluded late in June and cherries came on soon afterward. Now it's peach season, with summer apples soon to follow.

Enjoy that peach when you eat it and spare a thought for the growers who try hard to please you with perfect fruit.

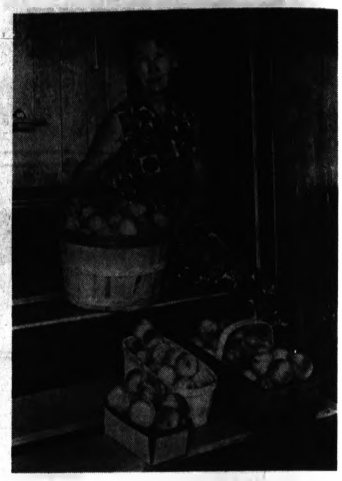

PEACHES ARE RIPE — George Hekman, manager of Oakland Orchards, never saw peaches like these in his native Holland. There, they grow only under glass. Although he rarely does any picking, he dons the customary basket strap for picture purposes. Bumper crop expected throughout the state — about three and a half million bushels.

SWIFT WORK — Bill Buchanan, 2760 Hickory Ridge Road, Milford, is a swift and careful peach packer. In front of him you can see the bins that catch the fruit as it is graded.

CULLING — During this stage of peach harvesting, imperfect fruit can be spotted easily and removed. The wooden rollers gently carry the peaches up to the sorting machine.

READY FOR SALE — Mrs. William Mainland, co-owner of Oakland Orchards on East Commerce Road near Milford, displays four of the five ways peaches are sold. She's just put down the half bushel. On the lower shelf are (from left) a two-quart basket; a half peck basket, and a tomato basket that holds a quarter of a bushel.

Dress Up Cuke Slices

Nobody is neutral about cucumbers. One loves them, or can't abide them, or belongs to the unfortunate few who say, "I like cucumbers but they don't like me."

* * *

For the fortunate ones who are friendly with cucumbers, there are few salad ingredients so cool and enjoyable — especially in the summer.

Cucumbers are attractive, too, with their pale green centers and dark green skins. For a decorative effect, score the cucumber skin lengthwise with a fork to give a serrated edge to each wafer-thin slice.

Nowadays, cucumbers are often given a coat of wax which preserves freshness and prevents bruising, but in that case it is better to peel the cucumber before slicing it.

* * *

With an assortment of packaged salad dressing mixes in the larder, it is a simple matter to prepare a variety of cucumber salads. Add the dry mixes to sour cream, or cottage cheese, or make them up according to package directions.

Here are a few ideas for cool-as-a-cucumber salads and salad dressings to serve during the warm weather months —and late the fall, since cucumbers are available most months of the year.

Cucumber Cheese Salad

1½ teaspoons salad dressing mix, any flavor except creamy
1 cup (8 oz.) cottage cheese
¾ cup diced cucumber
2 or 3 ripe tomatoes

* * *

Combine salad dressing mix, cottage cheese, and cucumber. Chill.

Just before serving, cut tomatoes in sixths, being careful not to slice all the way through. Pull open to form flowers, and fill with cheese mixture.

Makes about 1½ cups cheese mixture, or 2 or 3 servings entree salad.

* * *

Sour Cream Bacon Dressing

¾ cup prepared creamy Russian salad dressing
½ cup sour cream
2 tablespoons crumbled cooked bacon

Combine salad dressing with sour cream and bacon. Serve over sliced cucumbers. Makes about ¾ cup.

* * *

Season-U- Cucumber Dressing

1 envelope salad dressing mix, any flavor except creamy
2 cups sour cream

* * *

Blend salad dressing mix into sour cream. Serve over sliced cucumbers. Any remaining dressing may be stored in the refrigerator as long as four days. Makes about two cups.

Bake a Fish in Foil With Vegetables

Here's an easy way to deal with fish.

Baked Fish With Vegetables

1 whole fish (2½ to 3 pounds)
¼ cup olive oil
2 medium-small onions cut in thin strips (1 cup)
4 ribs celery cut in thin strips (1¼ cups)
Seasoning salt
Salt and pepper
¼ cup minced parsley
Paprika

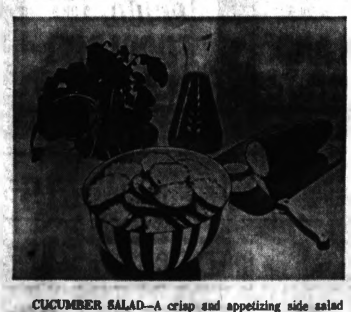

Have fish cleaned and boned; wash and dry. In a 10-inch skillet heat the olive oil; add the onions, carrots, and celery and mix well.

Cover and cook over moderate heat, stirring several times, until onions are wilted but not brown, about 5 minutes. Add seasoning salt to taste.

Turn about half the vegetables with some of the oil onto a sheet of heavy foil in a shallow pan; arrange fish over vegetables. Sprinkle fish with salt and pepper, and stuff it with remaining vegetables and the parsley. It's not necessary to skewer fish closed.

Pour remaining oil from skillet over top of fish. Sprinkle with paprika.

Bake in a hot (425 degrees) oven about 30 minutes or until fish flakes when tested with a fork and top is browned. Makes 4 servings.

CUCUMBER SALAD—A crisp and appetizing side salad of sliced cucumbers, marinated in a zesty dressing made from a packaged salad dressing mix, is fine warm weather fare.

Fruit Cocktail for Meat Sauce

There's zing a-plenty in "Spicy Meat Sauce"—a canned fruit cocktail sauce sparked by just-right seasonings and ideal with frankfurters, ham or meat loaf. Round out the meal with parsleyed rice, Brussels sprouts and a light dessert.

Canned fruit cocktail is compatible with a number of meats as well as being a popular dessert ingredient.

Spicy Meat Sauce

1 can (1 lb. 1 oz.) fruit cocktail
1 tablespoon mixed pickling spices
3 tablespoons vinegar
3 tablespoons brown sugar
½ teaspoon salt
1 teaspoon Worcestershire
1 lemon, thinly sliced
1 tablespoon cornstarch
1 tablespoon water
2 tablespoons butter or margarine

Drain fruit cocktail, saving syrup. Add water to syrup to make 1 cup liquid. Tie pickling spices in a square of cheesecloth.

In a saucepan, combine fruit syrup, spices, vinegar, sugar, salt, Worcestershire and lemon; bring to boil, reduce heat and simmer, covered, 10 minutes. Remove spices. Blend cornstarch with water; stir into saucepan.

Cook, stirring constantly, until mixture comes to boil and is thickened. Stir in butter and fruit cocktail; heat through.

Serve over frankfurters, ham or well seasoned meat loaf.

BAR-B-QUED CHICKEN TERI—A recipe for roasting a whole chicken on a spit won first prize in this year's National Chicken Cooking Contest, outdoor barbecue section. Mrs. Walter Greissinger of Tacoma, Wash. originated this recipe.

Roasts Fowl to Win Contest

What's more joyous to the eye than a whole chicken slowly spitting on the fire? Anyone who enjoys cooking — and eating — out-of-doors will respond to the smell and sight of a chicken being barbecued.

* * *

Mrs. Walter (Teri) Greissinger of Tacoma, Washington also pleased her doctor-husband with her favorite chicken barbecue that he urged her to enter the Delmarva Peninsula National Chicken Cooking Contest. She did — and she won.

Here's her dish:

BAR-B-QUED CHICKEN TERI

1 3½ lb. broiler-fryer chicken

Marinade

2 jars (4½-oz. size) strained apricots (baby food)
¼ cup soy sauce
⅛ cup fresh lemon juice
¼ cup honey
1 small onion, minced very fine
1 cup beer
⅛ tsp. freshly grated pepper
⅛ tsp. oregano
⅛ tsp. parsley sprigs

* * *

Combine marinade. Place chicken in marinade for 2-4 hours (or even overnight in refrigerator) turning occasionally. Remove chicken from marinade; set marinade aside.

* * *

Place chicken on spit; cook over low coals for about 1 hour. During last 20 minutes, baste frequently with marinade. Heat marinade in dripping pan of grill; serve as sauce. Serves 4.

Apricot Mixture Glazes a Roast

Roast pork gets an epicurean glaze.

Pork Loin with Apricot Glaze

4 pounds (about) pork loin (loin half) without chine bone
½ cup apricot preserves
⅛ cup dry sherry

* * *

On a rack in a foil-lined small shallow roasting pan, place the pork. Roast in a moderate (350 degrees) oven until meat thermometer registers 185 degrees—about 35 minutes per pound or about 2½ hours.

Remove from oven; remove meat on rack and foil from pan. Line pan with clean foil; replace meat without rack. Stir together the apricot preserves and sherry; spoon over pork.

Replace in a hot (425 degrees) oven for about 10 minutes. Serve pork with a little of the apricot glaze spooned over chops. Makes 5 to 6 servings.

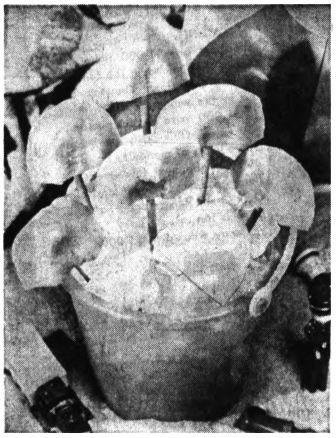

Don't subject your earthenware cooking utensils to sudden heat or they may crack or break.

Rice-Fed Catfish Source of Protein

ROME (AP) — Huge schools of catfish fattened on rice washed by the monsoon into rivers of the Ganges Delta offer a large new source of protein for East Pakistan, a Food and Agriculture Organization (FAO) expert says.

FAO master fisherman Gudjon Illugason of Iceland said the schools were located with an echo sounder, and he and his Pakistani companions landed as much as five tons in five minutes.

The rice-fed fish ranged up to 43 pounds.

CAN-O-LOLLIES—Wash and cut lengthwise down the center one medium cantaloupe. Remove seeds. Cut in quarters and remove rind. Cut each quarter in half. Insert a wooden skewer at the widest part. Put in a flat pan and set in freezer for at least an hour. If you want a little sweet to go along with the treat, melt a package of butterscotch or chocolate bits over hot water. Thin bits with 3 tablespoons of boiling water and stir rapidly. Let youngsters dip the can-o-lollies in the sauce. One melon makes 8 can-o-lollies.

Cobbler Recipe Gives Choice for Fruit Layer

A basic fresh-fruit pudding recipe that's handy to have on hand.

Three-way Fruit Cobbler

Fruit Choice (see below)
⅔ cup and ⅓ cup sugar
1 cup sifted flour
1 teaspoon baking powder
⅛ teaspoon salt
¼ cup butter or margarine
1 large egg
3 tablespoons milk
¼ teaspoon vanilla

* * *

Mix the fruit chosen with ⅔ cup sugar in a glass, 1½-quart, oblong baking dish (10 by 6 by 1¾ inches) and arrange evenly.

* * *

In a medium mixing bowl, sift together the flour, baking powder and salt. Cut in butter until it is fine particles.

Beat egg and ⅓ cup sugar until thick, and ivory-color; beat in milk and vanilla. Fold in flour mixture; do not stir smooth. Spread over fruit.

Bake in a moderate (375 degrees) oven until a cake tester inserted in topping comes out clean — about 45 minutes. Cool slightly before serving; may be reheated. Makes 6 to 8 servings.

* * *

Fruit Choice: You may use 1 pint strawberries (hulled) and 1½ cups pink rhubarb (cut in 1-inch lengths); or 1½ pounds sweet red cherries (stemmed, pitted and left whole).

Use a wet spoon when you are dropping cream-puff paste onto a baking sheet.

TORY TALKS TO NEWSMEN — Edward Heath, 49, new leader of the British Conservative party, is shown at a news conference in the party's headquarters in London yesterday. Heath, as leader of the opposition party, promised British Prime Minister Harold Wilson the fight of his political life.

Hybrid Rockets May Be Future Portable Generators

BACKGROUNDS OF THE NEWS — SPECIAL REPORT

SUNNYVALE, Calif. (AP) — Truck-mounted hybrid rockets may serve someday as portable powerhouses to produce brief bursts of electricity as strong as the output of Hoover Dam, a research engineer suggests.

The rocket generators may power a weapons or radar system, push a laser beam deep into space, or perform other jobs not even thought of yet.

* * *

Unlike the continuous million-plus kilowatt generation at the dam, the rocket electrical power spikes probably will last less than five-thousandths of a second. They can be repeated up to 20 times a second but are limited by the amount of rocket fuel and requirements of the job to be performed.

Practical applications for high-intensity, short-burst rocket generators may come much sooner than generally expected by scientists, says Allen L. Holzman, advanced systems engineer at United Technology Center. He declines to specify what the first applications may be.

ENERGY EXPENDITURE

Since most weapons systems are based on the rapid expenditure of large amounts of energy, earliest uses are likely to be military.

"There is basically a no more compact high-energy source amailable today than the rocket system," Holzman says.

* * *

He explains why the hybrid — a cross between solid and liquid rockets — may prove to be a valuable source of earth-based power.

The hybrid uses a solid fuel with a hole through the middle into which a liquid oxidizer is injected in the combustion chamber. By regulating the flow of oxidizer, the rate of combustion can be controlled. The engine can be readily started, stopped, restarted and throttled.

CAN BE SEEDED

In addition, the solid fuel grain can be seeded with other elements needed to supply electrons for direct production of electricity from ionized white-hot gases shooting from the rocket exhaust.

The process has been tagged with an eight-syllabel name: magnetohydrodynamics — MHD.

* * *

Government agencies and private companies have been intensively studying MHD for more than 10 years. But harnessing an inferno — the hybrid rocket exhaust gases usually range from 6,000 to 8,000 degrees Fahrenheit — has not been easy. Materials melt or react chemically in the hot exhaust.

MHD generators convert exhaust plasma into electrical energy without requiring heavy rotating machinery. The stream of hot gases between electrodes in a strong magnetic field serves the same function as the moving coils of wire — asmatures — in conventional electric generators.

FEASIBILITY STUDIES

Researchers at the center, a division of United Aircraft Corp., have made small-scale feasibility studies using a briefcase-size hybrid rocket to generate about one watt by MHD. It was less than 1 per cent efficient in converting heat energy to electricity, Holzman estimates.

"Efficiency increases sharply with rocket size," says Holzman.

* * *

With a contract from the Army, scientists at the center are planning MHD electrical generation with a 300-pound thrust hybrid rocket and a water-cooled generator duct.

They hope to achieve a 50- to 100-kilowatt production with increased efficiency.

Two years ago, scientists were predicting commercially feasible MHD generators "40 per cent more efficient than today's most modern steam turbine power station."

United Technology now looks to the day when a hybrid rocket no bigger than a highway tank truck can be rolled wherever brief but tremendous outputs of electricity are needed — like a portable Hoover dam.

Will Honor Historian

PETOSKEY (AP) — Pulitzer Prize-winning historian Bruce Catton, a native of Petoskey, will speak and receive honors here Friday. Catton was cited in 1954 for his book, "A Stillness at Appomattox."

W. Berlin Airport Annoys Reds

BERLIN (AP) — The East German regime claims that Tempelhof Airport in the heart of West Berlin is a menace to persons living around the field, a key terminal in the 1948-49 airlift.

* * *

The Communists contend that the main runway is only about 5,300 feet long and that, because of the houses crowding around it, "the landing angle is unfavorable."

* * *

About 40,000 persons live around Tempelhof, about two miles from the Communist wall dividing the city. In the 17 years since the Allied airlift to the Communist-encircled city there has been no major accident. Jet service will be introduced at the airport next spring.

* * *

The Communist complaint re-emphasized that Tempelhof is a thorn in East Germany's side. Thousands of East German refugees have been flown to the West from the airport.

CONTINUOUS DRONE

The continuous drone of commercial planes that has made Tempelhof the third biggest passenger terminal in Europe is a reassuring sound to the West Berliners.

"Every flight reminds us that there is still a way in and a way out," one nearby resident remarked.

* * *

The Berliners have memories of the long months of the Soviet ground blockade when thousands of Allied flights brought in food for West Berlin's 2.2 million persons. They do not need the monument that stands in the city to remind them of the 74 Allied airmen who were killed in the airlift.

* * *

Tempelhof occupies the site of Kaiser Wilhelm II's favorite parade ground. It became central Europe's major air terminal in 1927.

The Nazis used it for military planes only toward the end of World War II. A section of the field now is reserved for the U.S. Air Force and there are about 500 military flights a month.

* * *

By agreement of the Big Four World War II Allies, air traffic over Berlin is restricted to U.S., British, French and Soviet planes. The three Western Allies each have one commercial airline serving the city along three corridors linking West Berlin with the Federal Republic of Germany.

* * *

The East Germans claim the space over the city is theirs. Recently helicopters with East German markings flew along the city's east-west dividing line, crossing it in sorpe cases.

AS LOW AS $17.95

Maybe it looks like fun jewelry, but this Caravelle Watch Charm takes timekeeping seriously enough to be her one and only watch. That's because it has a precision-jeweled movement, finely-machined parts and an unbreakable mainspring. So go ahead. Promise her a charm. But give her a watch. A Caravelle Watch Charm.

Barry Faces Long Recovery

PHOENIX, Ariz. (AP) — Barry Goldwater will remain in St. Joseph's Hospital well into August recuperating from an operation Wednesday to eliminate neck and back pains, an associate says.

The surgery on vertebrae in the lower neck required nearly four and a half hours. His condition later was listed as fair.

* * *

"It may be five to seven days before we know if it (the operation) was successful," said Dr. John A. Eisenbeiss, the surgeon.

An associate said Goldwater, the 1964 Republican presidential nominee, expects to be hospitalized for ten days to three weeks and then would spend four to six weeks in convalescence.

* * *

The former Arizona senator has suffered for years from "a chronic problem on the basis of many injuries to his neck," Eisenbeiss said. "He has been an active man."

Goldwater, 56, has said he suffered a neck injury as a youth.

AP Photofax

WHALE ARRIVES HOME — Namu, a 22-foot killer whale, spouts water as his pen is brought alongside a pier in Seattle yesterday. The four-ton creature was captured by a pair of Canadian salmon fishermen and purchased by the Seattle Aquarium for $8,000.

Former Japan Premier Enters Tokyo Hospital

TOKYO (AP)—Former Japanese Prime Minister Hayato Ikeda entered Tokyo University Hospital today for treatment of the throat tumor which forced him to resign from the top government post last fall.

Ikeda, 65, has been convalescing since his release last December from the National Cancer Research Center. Doctors said Ikeda still was suffering from aftereffects of the ailment.

Transportation Study

WASHINGTON (AP) — The world bank is joining with the Indian government in financing a survey of transportation in eastern India.

The bank has agreed to pay foreign exchange costs.

Gambling Casinos Ready to Use Metal Tokens

RENO, Nev. (AP) — As Harold Smith Jr. says, "there's no substitute for money." But two of Nevada's biggest gambling casinos are ready to give it a whirl anyway.

Harold's Club will begin using chrome-plated tokens in silver dollar slot machines, probably next week, Smith, son of the club's founder, says.

* * *

Neighboring Harrah's Club has its own gold-covered tokens ready to go, even though it still has a few silver dollars left.

Meanwhile, Edward A. Olsen, chairman of the Nevada Gaming Control Board, was conferring with U.S. treasury officials in Washington to make sure use of the tokens would not violate federal law.

Nevada casinos have used plastic or composition chips on blackjack and crap tables for years. The chips are as good as money almost any place in town. One club's chips normally can be exchanged for money at another casino.

But the law says metal tokens cannot be used as legal tender, Olsen noted following a conference with club owners this week, and must be circulated only within the casino which issued them.

Several other casinos are interested in using tokens in slot machines, the gaming board said. The tokens were authorized by the 1965 legislature, providing each design was approved by the board.

Silver dollars have virtually disappeared from Nevada casinos since the great run on cartwheels in the spring of 1964 by collectors and speculators.

SAVED SILVER DOLLARS

The larger casinos saved what silver dollars they had for use in the dollar slot machines.

Man Lacks Enthusiasm for Marriage Undertaking

By ABIGAIL VAN BUREN

DEAR ABBY: I am 26 and this girl I have been going with for three years is 28. Neither one of us has ever been married.

ABBY

She has been bugging me to marry her for the past two years, but I just can't seem to get fired up about it.

I have been putting off my decision to give it more thought, but I can't make up my mind. We both work, so there is no financial problem.

There isn't any religious problem, either. We get along okay and don't disagree on anything really important. She's a nice person, an efficient housekeeper and she's very practical.

I don't think I love her, but she keeps telling me that she loves me so I say I love her, too, so as not to hurt her feelings.

I like my freedom, but if I don't see her I never think of looking for another girl. Should I marry her or not? I just wish someone would help me make up my mind.

UNDECIDED

DEAR UNDECIDED: When in doubt, do nothing. You don't seem able to get very "fired up" about much of anything.

Perhaps you don't have the capacity for it, but marriage requires more enthusiasm than you display.

* * *

DEAR ABBY: I was dancing with my girl friend at a public dance hall and, when we swung out, a man cut in and the next thing I knew she was gone, and I was dancing with a man.

I finished the dance with him and he took me back to my table and thanked me. My boy friend was furious! He said I had no business dancing with a strange man just because he cut in on me.

Was I right in finishing the dance with the man or should I have walked off the floor and left him standing there?

He was a perfect gentleman all the time we were dancing. My boy friend doesn't dance fast numbers. That's why I was dancing with my girl friend.

ANGIE

DEAR ANGIE: When two women dance together at a public dance hall, it is an implied invitation for a man to cut in, so don't blame the man.

To have walked off the floor and left him standing there would have been rude.

And if your boy friend didn't want you dancing with strangers, he should have put his foot down when you wanted to dance with another girl publicly.

* * *

CONFIDENTIAL TO "ANONYMOUS IN SAN FRANCISCO": Go to your PUBLIC HEALTH DEPARTMENT. They will arrange for an examination at no cost to you. If your suspicions are correct (and I would guess they are), the disease is contagious.

The treatment is painless and uncomplicated. I urge you to go today.

* * *

Spaniards to Be Feted at Cookout

Mr. and Mrs. Marvin Barnett of Rolling Rock Drive will entertain a group of cadets from the Spanish Air Force Academy and their superior officers Friday evening. They plan a typical American cookout for their foreign visitors.

The group of 17- and 18-year-olds has been in the metropolitan Detroit area all week. Their visit is part of an international exchange carried on by the CAP.

* * *

They are touring area sights of interest such as Greenfield Village, automotive assembly plants, G.M. Tech center and Cranbrook.

F. N. Takis will host the Spaniards at luncheon Friday before their Cranbrook tour and a dip in the Jonah pool.

High school girls who can speak Spanish will be guests with the cadets at the Barnetts' party.

A visit to Flint and a tour of Washington, D.C. is on their program after they leave this area.

Showers for Bride-Elect Miss Dudley

Sherrie Anne Dudley was honored at a bridal luncheon and kitchen shower today in the Brookside Drive home of Mrs. Verne C. Hampton.

Cohostesses were Mrs. Harold E. Howlett and Mrs. Cecil McCallum.

Mrs. Richard Jones (Joan Howlett) came from Ann Arbor for the affair.

* * *

The bride-elect, daughter of the Harold W. Dudleys of Long Point Drive, will wed David Paul Smith, son of the Kenneth G. Smiths of Tull Drive, Aug. 28 in the First Congregational Church.

Mrs. Dana P. Whitmer entertained for Miss Dudley at a recent luncheon and bathroom shower in Devon Gables.

* * *

Sherrie's classmates at Michigan State University surprised her with a trousseau shower in Lansing at the close of the semester.

To Discuss Diets

Mrs. Charles Brown will be in charge of the "Diet Discussion" Tuesday at 7 p.m. when the Fashionette Club meets in the Adah Shelly Library.

Area residents are reminded that any interested woman may attend these weekly meetings.

WOMEN IN ACTION

In Antique Musical Instruments

OU Sets Week's Course

By MADELEINE DOEREN

Oakland University will host a week's summer course in antique musical instruments offered by the American Recorder Society Inc. of New York City.

* * *

Shelley Gruskin, regular member of the New York Pro Musica, will direct the course which runs from Aug. 9-16.

Others teaching wind instruments include Miriam Samuelson, Arnold Grayson and Morris Newman, a member of the Pro Musica Renaissance Band.

Glan Lyman will teach viola da gamba and Janet Winburn is voice instructor.

* * *

The curriculum includes recorder classes for beginning intermediate and advanced students.

Instruction in krumhorn, Baroque flute and viola da gamba is planned, with some instruments available for beginners.

The schedule will allow pupils to attend the Detroit Symphony Orchestra concerts at Meadow Brook.

AN AVOCATION

The study and use of antique music instruments is strictly an avocation.

Devotees may include the proverbial 'doctor, lawyer, merchant, chief' as well as the business executive, retired plumber, or possibly a professional musician.

1928 RENAISSANCE

It was Arnold Dolmetsch, working in England in 1920, who began delving into the older musical instruments. Germany then joined in the renaissance, whereas France contributed very little.

* * *

The use of the recorder, a wooden flute with a whistle mouthpiece is growing in public schools, including Washington Junior High School in Pontiac.

Most private schools consider the recorder a legitimate instrument for music instruction.

POPULAR IN ENGLAND

Its soft mellow tones, heard in solo or in groups, account for its popularity in England during the 1600s.

* * *

This was before the general adoption of the cross - blown flute. Recorders were commonly used in sets of four, each with a two-octave compass.

CONSIDERED OBSOLETE

The krumhorn, now regarded as an obsolete crooked horn was a woodwind instrument in very general use throughout Europe during the 14th, 15th and 16th centuries. The best were made in England with a compass range from soprano to bass.

* * *

Viola da gamba or the bass viol, invented in the 15th century ranks most important in the series of bowed instruments and is used extensively for solo work. Its general use ended in the 18th century.

Noteworthy use of the bass viol for special effects is evident in the scores of Johann Sebastian Bach.

CURRENT COMPOSITIONS

Modern compositions are being written for these antique instruments lest they be thought of strictly for chamber music.

* * *

Tuition for this course is $50. Further information may be obtained from the University.

Arthur Daniels of Ann Arbor (from left), assistant professor of music at Oakland University, plays an alto recorder while Norman Susskind of McGill Drive, Avon Township, associate professor of French at the university performs on a tenor recorder.

Pontiac Press Photos by Phil Webb

Robert Facko of Rochester, faculty member of Oakland University Music Department, adjusts the lid of a small harpsichord before a practice session.

Playing the viola da gamba and other antique musical instruments is the favorite avocation of James C. Haden, of Wing Lake Road, professor of philosophy at OU.

Mom Has Date With Computer

WASHINGTON (AP) — The status of women has been the topic of discussion at three major meetings in Washington this week.

Some 5,000 women from 22 countries are in on the act.

Mrs. Elizabeth Carpenter, press secretary to the first lady, calls it "a status explosion." After a slow start, she says, "our country is making room for mom."

And, discussing the talent search President Johnson has been conducting to find women for top government jobs, she commented:

"All it really takes to find a superior woman is a superior man and his confidence."

Some of the top men in government, called on to make speeches at this week's conventions of the National and International Federations of Business and Professional Women and the conference of 44 state governors' commissions on the status of women, are getting a bit self-conscious.

* * *

Secretary of Labor W. Willard Wirtz said he's thinking of speaking on the topics; "Dinosaurs, Dodo Birds, Whooping Cranes and Males."

And, he paraphrased a famous quotation: "There's always a great man following a great woman."

The men were in the minority Wednesday night at a State Department dinner for some 400 delegates to the status of women conference.

Presidential talent scout Johnson W. Macy Jr. said it was "so glorious I hope we can perpetuate it."

He's the man who's been using a computer to help find men — and women — for key government jobs.

When the possibility was raised that computers might be prejudiced against women, Macy assured them: President Johnson aims "to see to it that this is not a stage government."

Mrs. Carpenter suggested that "today to get a job you don't compete, you compute."

She envisioned the day when the computer went wrong and came up with: "Barbara Hutton for head of the antipoverty program; Vivien Kellems for director of the Internal Revenue Service; Ann Landers for Supreme Court justice because she likes to make decisions; and Liz Taylor for assistant secretary of state for European affairs."

Mrs. Helen Leslie of St. Petersburg, Fla., a lady boss in a man's business, has been elected president of the National Federation of Business and Professional Women in Washington. Mrs. Leslie and a brother operate four mechanical contracting firms with 150 employes, most of them men.

Miss Blacklaw Is Honored

Sharon Marie Blacklaw was honored Tuesday at a miscellaneous bridal shower by her coworkers in the Oakland County Boat Club.

Mrs. Frank Palopoli was the hostess.

The bride-elect, daughter of the George E. Blacklaws of West Huron Street will repeat vows with Michael Lynn Duff, son of Mrs. A. H. Duff of Michigan Avenue and the late Mr. Duff on August 21.

Supremes Coming Soon to Special OU Concert

The Supremes are coming to town — that is, to the Howard C. Baldwin Pavilion at Meadow Brook Music Festival grounds. The date is Aug. 21, 8:30 p.m.

YOUTH APPEAL

In an effort to appeal to a wide segment of the youth of the area, this concert is being sponsored by the Oakland University scholarship committee.

By now almost everyone has heard of The Supremes, Detroit's internationally known singing group.

* * *

Diana Ross, Mary Wilson and Florence Ballard have made history by hitting the number one spot on the national record charts with three successive record releases, each selling over a million copies.

They have sung abroad and are now or will soon be at The Copacabana in New York City.

* * *

Fred Coffin will be master of ceremonies for the evening. A drama student at the University of Michigan, he has worked in Hollywood and hopes for a career on the New York stage.

His family has long been active in local dramatics and his mother, Winnie, has appeared in a number of TV roles.

OTHERS PERFORMING

In addition to The Supremes, The Fugitives, a combo that is becoming well known locally will perform.

Rounding out the list of attractions is the New Gibson and Martin Trio, a group of two guitars and banjo. David Schultz of Bloomfield Hills, Richard Meade of Grand Blanc and Ron Lutz of Sandusky are the players.

AREA HELPERS

Aiding the scholarship committee in preparing this offering are a number of area young people.

Included are Carol Nicholie, Nancy Nicholle, Sue Huntzinger, Carol Gray, Stephanie Hardenburg. Others are Carol Norvell, Jan Abel, Terry LaFrance, George Wren and Jim Lefurgy.

* * *

Pavilion seats will sell for $3.50 and grounds seats for $2.50. Parking is 25 cents.

* * *

Tickets are on sale at Osmun's, Grinnells in Pontiac, Birmingham and Royal Oak; Northland; Marty's Record Shop, Birmingham. In Rochester, tickets may be had from Rochester Radio and Television; Lake Orion Review; Oxford Leader and Haupt Pontiac Sales in Clarkston.

Comedy Opens Cranbrook's New Season

Cranbrook Summer theater's 24th season will open Tuesday and Wednesday with the Hart and Kaufman comedy "George Washington Slept Here."

Noel Coward's "Blithe Spirit" will be the production for Aug. 6 and 7.

A musical comedy "The Wild Wild Women" by Carl G. Wonnberger, summer theater director, is slated for Aug. 10 and 11.

Performances will be at Cranbrook's Greek Theater on Lone Pine Road, Bloomfield Hills. Curtain time is 8:15 p.m.

Tickets are available by order or by calling the theater.

Robert Is Here

Mr. and Mrs. William N. Anderson (Sandra Erwin) of Thorpe Street announce the birth of a son, Robert Erwin, on July 27.

Grandparents are the James A. Erwins of West Huron Street and the Frank A. Andersons of Oneida Road.

Security Is Drawn From Food

EAST LANSING — Whether you believe it or not, how you feel about food is more important to you than how it affects your health.

Mrs. Anita Dean, extension specialist in food and nutrition at Michigan State University, said, "Food means much more than satisfying hunger. Race, ethnic group, culture and other psychological factors influence your choices of food."

* * *

In teaching a class on psychology of foods at the 38th annual College Week for Women held at MSU this week, Mrs. Dean pointed out that familiar foods associated with normal daily life give a feeling of security. Lack of these foods can cause tension.

"A homemaker can unconsciously use food to warm her family up or to punish them," she commented.

REACT IN CRISIS

Mrs. Dean also noted that in an emergency such as a hurricane, supermarket shelves have been emptied in minutes. People seem to draw security from having plenty of food on hand.

"Some people have been known to buy frozen foods in such situations even though they didn't own a freezer," she added.

And food also has a morale-building capability. "Meat has the highest morale building value in America," the foods specialist said.

Some other foods are prestige items. "White foods have more prestige than brown. For example, peasants give up their wonderful brown bread when they migrate to the United States."

* * *

Over 1,000 women are attending the College Week conference which is sponsored by the MSU Cooperative Extension Service.

Small Bench Useful Item

A small bench with criss-cross legs may be placed at the foot of the bed and finished to match the bedroom furniture.

It may be topped with a sheet of rubber foam that has a nylon slip for durability and washability.

* * *

Provides an extra seat and also a place to place an extra blanket or two.

Mothproof Yarn

When you start to roll a hank of knitting yarn into a ball, wrap a couple of mothballs in the yarn wrapper. The mothballs keep moths out of the yarn, and the wrapper tells you exactly what kind of yarn to buy if you do not have enough to finish the garment you started.

Pontiac Press Photo

Mrs. H. Delos Nicholie of Lake Angelus is Pontiac Area United Fund chairman for women's residential campaign in the Lake Angelus area. The mother of three grown sons and grandmother of two granddaughters, Mrs. Nicholie has long been active in cooperative extension work. She has worked a few times during UF campaigns. She is also active in her church and is a member of the PEO Sisterhood.

Louisiana Philanthropist Renewing Piano Awards

NEW ORLEANS — The Dimitri Mitropoulos music scholarships for study at Stephens College for women, Columbia, Mo., believed to be the largest ever offered, are being renewed by The Helis Foundation, it was announced by William G. Helis Jr., president of the Foundation.

Regional auditions by a panel of judges will be held in Minneapolis on October 2, 1965; Detroit on October 16, 1965; New Orleans on October 23, 1965; San Francisco on November 6, 1965; New York on November 20, 1965, and on campus at Columbia, Mo., on December 4, 1965.

Final auditions will be held at Stephens in March of 1966.

FOR PIANO STUDY

The Mitropoulos Awards for $6,000, $4,500, and $3,750 will be given for the sixth consecutive year for the study of piano working toward a Bachelor of Fine Arts Degree in Music from Stephens for the academic year 1966-67.

Mr. Helis, philanthropist and independent oil operator of New Orleans, La., established the awards six years ago after the death of his life-long friend, the famous Greek-born conductor.

BASED ON MERIT

At the request of Mr. Helis, these three top grants are based entirely on merit and not on the need of the applicant.

In addition, Stephens College is again awarding ten additional scholarships of up to $750 each.

* * *

Dr. Seymour A. Smith, president of the college, in announcing the continuance of the college's grants, said that these are subject to the College Scholarship Service and are based on need as well as talent.

All scholarships are granted for a three or four year period, subject to satisfactory achievement at Stephens and are renewable each year at one-third or one-fourth of the total award.

Additional information and application forms may be obtained by writing to Mr. Richard S. Johnson, Director of Mitropoulos Awards, Stephens College, Columbia, Mo.

Polly's Pointers

Save Shank Buttons

DEAR POLLY — Many times a plastic button with a shank back gets ruined in the washing so a good garment is spoiled or else has to have all new buttons because of that one broken shank.

* * *

By heating a small nail, red hot, two holes can be punched through the button so it can be sewed on again and it will hardly be noticeable that it is fastened differently from the others. —MRS. I. S.

* * *

GIRLS—The nail may ha e to be heated two or even three times, before it will go through a thick button. After the nail is started in, keep turning the button round and round to speed up the process.

This button could be switched with another and sewed on the least conspicuous part of the garment and be even less noticed.—POLLY

DEAR POLLY — If you want your husband's monogrammed handkerchiefs to stand neatly in his coat pocket, spray the wrong side of the monogrammed corner with starch before ironing. — A. K. G.

* * *

DEAR POLLY — When making "faced" scalloped collars and so on, pressing the scallops neatly (after turning to the right side) used to be a real chore. Now I insert in each scallop a piece of cardboard cut to the shape of the scallop curve.

Push the cardboard firmly to the seam line and hold the material taut against the cardboard while pressing. This is a real time saver and my scallops are much neater. — MRS. L. N. A.

* * *

DEAR POLLY — I do not have many chances to use my lovely cocktail glasses so they usually stand on the shelf and collect dust.

Until a few months ago I would have to run to the kitchen and wash them quickly when unexpected guests dropped in. Now I wash and dry them thoroughly and place each one in a plastic sandwich bag and stand on end.

Each glass is now sparkling clean and ready at a moment's notice. MRS. S. T.

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a dollar if Polly uses your idea in Polly's Pointers.

Sofabed Practical for Any Home

One of the most practical pieces of furniture any home can acquire is a sofabed. For sheer flexibility it is without equal!

According to James Webb Jr. of the Home Furnishings Industry, this was one item of ingenuity the 20th century can't claim.

"The idea of the sleep sofa goes all the way back to 1864," he explained.

"While the War Between the States was still in progress, one F. C. Payne was awarded a patent for a mattress that folded inside a bed bottom. This was the forerunner of the studio bed."

* * *

It was a brief nine years later that C. F. Grundin received a patent on a sofa bedstead that permitted conversion of a sofa to a bed on a completely mechanical principle.

EARLY YEARS

The real impetus for sitsleep pieces came after the turn of the century, however.

It dates from the patenting by C. J. Kindel on March 29, 1906 of an improved automatic sofa-bed that proved to be the forerunner of the sofa-sleeper as it is now known.

By 1897 more and more people were moving into city apartments and the need for space-saving was urgent.

That year one leading manufacturer of sofa-beds was emphasizing sofa-bed hinges with ratchet bars that allowed the seat to be lowered and the back to drop down level forming a bed.

This was the "jackknife" sofabed that was so popular and successful until the World War I era when fully-mattressed sofa-sleepers made their debut.

* * *

Early in the depression period, the comparatively high cost of the sofa-sleeper brought its temporary eclipse.

POPULAR AGAIN

Sofa-sleepers came back strong right after the close of World War II helped along with a number of innovations that lead to easier operation and improved sitting and sleeping comfort.

Perhaps most important of all, they could then be styled with all the graceful lines and sophisticated designs of the finest stationary sofas.

Kansas Widow Does Her Own Remodeling Job

HUTCHINSON, Kan. (AP) — Lots of women redecorate their homes but Mrs. Dorothy Mason remodeled hers, including adding a 14 by 15 foot kitchen to the original six-room house.

She did it herself, except for the plumbing and wiring and some heavy work.

Although she didn't put in the floor joists and put on the roof, she did do the rest of the carpenter work over a period of a year and a half.

In addition, Mrs. Mason, a widow, made built-in furniture, tiled and papered bathroom walls, and installed new sub-flooring and linoleum.

Mr. and Mrs. Floyd J. Vieau of East Buell Road, Oakland Township, announce the engagement of their daughter, Linda May to Charles J. Miller, son of the Walter L. Millers of Corinthia Street, Avon Township. Vows will be exchanged in the spring.

Shellac Preserves

Give a new lamp shade a thin coat of clear shellac to make it easy to clean and longer-lasting.

A Woman's a Woman Anywhere

MELBOURNE (AP) — The captain of the 11,800-ton Soviet wheat carrier, Orsha, settles back in an easy chair and confides: "A woman is always a woman no matter what work she does."

* * *

Captain Anna Shchetinina, 57, claims to be the first woman sea captain in the world.

Captain Shchetinina's sea career began after she left school at 15 and went to study at the Marine Institute in Moscow. She has skippered more than 30 ships — liners and cargo ships — and ran in convoys from Russia to allied ports during World War II.

SHIP BOMBED

On one convoy through the Baltic, her ship was bombed by a German plane and some of her crew were killed. The ship limped to a home port.

Captain Shchetinina's husband was killed in the war.

She bosses 40 men and seven women in her crew on the Orsha.

* * *

"I don't take any funny business," she says. "And I've never had anything but respect from my crews. In fact, a woman seems to get more respect.

"I love dressing up in pretty dresses and going to dances and parties," she adds. "A woman is always a woman no matter what work she does. . ."

Snip and Stitch

With just a little snipping and a few hand stitches, caps, sweaters and skirts may be made for a little girl's doll from the legs of discarded colored socks.

AP Wirephoto

These new autumn and winter fashions were shown in Rome this week. At left is a theater ensemble of black brocade. The coat, slightly shorter than the dress, is trimmed with a white mink collar. At right is an evening dress of fuchsia-red lace encrusted with flower petals. Both fashions created by the Fontana Sisters fashion house of Rome.

Women's Feet Bigger

Apparently the sample shoes that retailers show fit so few women it's time they were aware feminine feet are bigger than they were half a century ago.

* * *

The National Shoe Retailers Association (NSRA) said the standard sample size since the turn of the century was the 4B. "Studies have shown that only four out of 1,000 adult women today wear 4B," said the association. ". . . 4B is no longer realistic . . . ."

* * *

What is realistic? The 6B, said NSRA. It and three other industry groups have recommended that the bigger samples hence be used by all manufacturers and retailers.

James D. Bader, son of Mr. and Mrs. George E. Bader, Bender Street, will graduate Friday from General Motors Institute with a degree of bachelor of mechanical engineering. He will be associated with the product engineering department of Pontiac Motor Division.

Tour Slated for Center

A tour of the Drayton Plains Nature Center will highlight the August 5th meeting of the Waterford branch, Woman's National Farm and Garden Association.

* * *

A picnic luncheon will follow the 11 a. m. tour.

* * *

Hostesses for the day include Mrs. Fred Bohlman and Mrs. Arnold Denison.

PEGGY'S
MIRACLE MILE

Mr. and Mrs. Michael Shalayda of Ambridge, Pa., announce the engagement of their daughter, Margaret Louise to Airman 2.C. Donald Eugene Sugden, son of the Stanley E. Sugdens of Crooks Road, Avon Township. Her fiance is stationed in Minot, N.D.

Hemline Held at Midknee in Dior Show

BY LOUISE HICKMAN

PARIS (AP) — Dior held the hemline at the middle of the knee in an antishock collection today which was covered up and predominantly black.

Everything was covered up — even strapless gowns that rise above cleavage and flatten the bosom.

* * *

His backs were all black, hat and gloves included. The hats were big, wide cavelier felt. Short, wide barrel-shaped coats slipped over suits. His suit jackets were hip-length basques, arching in a long concave line over gentle skirts.

CONTRAST

For evening clothes, looping, cowl drapes gave movement to otherwise stark, almost tubular shapes.

* * *

There were big, blowing cowl hoods in ostrich feathers. Dior was on a feather binge.

Make Sure Issue Is Important First

By MURIEL LAWRENCE

DEAR MRS. LAWRENCE: The other mothers in our park's playground are giving my 3-year-old boy the impression that instead of owning his toys he must give them up to any child who wants them.

He has a new tricycle. If one of the other children wants it, the mother's answer is always the same: "Wait a minute and Jeff will give you your turn."

Am I wrong to resent this? When it is my Jeff who wants another child's toy, I say, "No, Billy is using it." But so far none of these mothers has taken my hint. . . .

ANSWER: I wouldn't like it either. I don't know how right or wrong we are but I should resent it, too.

The real trouble is, I expect, that these women regard themselves as the owners of all children's belongings, including those of their own young ones.

* * *

So their arrogance is not just directed at Jeff. To disguise their arbitrary disposal of his tricycle they use the phrase "wait for your turn" to make it sound fair and sporting.

We can be pretty sure that they treat their own youngsters things the same way and find just as many noble excuses to justify control of their possessions.

* * *

Are you prepared to arouse their resentment by challenging this "wait for your turn" business? Are you prepared for the results of saying next time: "Just a minute.

"Maybe Jeff doesn't want to give Billy a turn at his tricycle. I don't know. It is Jeff's tricycle. Why doesn't Billy ask him?"

It is quite probable that you will anger her by this expression of different opinion on the ownership of children's toys. This stands to reason.

* * *

The woman who refuses children the ownership of their own toys is going to refuse us possession of our opinions. She is bound to feel shock and anger when we assert our right to own them.

As you seem to so clearly respect Jeff's property rights, I doubt that he's going to suffer much damage from association with these other mothers who don't. So the question is: Is it worth-while to attract their ill will to you and Jeff by challenging them?

I'm all for attracting ill will when the issue is important. But to challenge these bossy women just for the sake of expressing your disapproval of them may not be sensible.

* * *

The companionship of their children is good for Jeff. Ask yourself what you will gain for Jeff by making a big deal of your disapproval. The answer is your business.

Commuter Likes His Solitude

By The Emily Post Institute

Q: I am a daily commuter and I like to read my newspaper or a book on my way to and from the office.

Every once in a while an acquaintance will get on the train and sit beside me.

After exchanging a few words of greeting, would it be considered rude on my part if I opened my book or news paper and started to read?

A: If your conversation comes to an end and there is a lull, it would not be rude to say to your companion, "Do you mind if I read? The only chance I get to see my news paper (or read a book) is on my way to the office."

PAPAL AUDIENCE

Q: My husband and I are planning a trip to Rome and we hope to have an audience with the Pope.

Will you please tell me the proper clothes for my husband and me to wear on this occasion?

A: The rules of dress for visitors to the Pope are not so strict as they once were.

For a general audience it is only required that everybody be dressed in a sober and suitable manner. Women must have their hair covered, must wear black or dark dresses with necklines that are not too low and skirts that are not too short, and they may not have bare arms or legs.

For a private or special audience, men traditionally wear evening dress with tails or sack coat and women long-sleeved black dresses and veils over their hair.

No one may wear any but the most functional jewelry.

* * *

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Save, Sew Scraps for Purse or Hat

NEW YORK (UPI)—Throw away only the tiny bits of sewing scraps until after your garment is finished, suggests the sewing machine division of the Japan Light Machinery Information Bureau.

You may want to use the larger pieces for making accessories like a purse, a headband, trim for a sweater, hat or blouse. These extra pieces of fabric, properly used, can convert a garment into a costume at no extra cost.

Poison Is Around

The American Assn. of Poison Control Centers estimates that up to 250,000 poisonous substances are contained in items available for household use.

Senior Scouts 'Dig' Project

NEW YORK (UPI) — Teenagers dig a lot of things but Senior Girl Scouts from five southern states dig just a bit more. Each summer since 1958, a selected group of girls has participated in Project "Archy" — a two - week archaeological dig on Sand Mountain near Albertville, Ala.

The project draws girls from Arkansas, Tennessee, Louisiana, Mississippi and Alabama.

Cleaning Tip

A new pipe cleaner is just the thing to clean those glass sippers used for tall glasses of beverages.

Have You Tried This?

Kraut Relish Is Sweet

By JANET ODELL

Pontiac Press Food Editor

A request came recently for a sweet sauerkraut relish recipe.

After looking through all the foreign and standard cookbooks at the office, we almost gave up. But the book, "Favorite Recipes of Michigan," saved the day.

Mrs. William Tiberg's recipe was just what our reader wanted. We think other readers might like it, too.

Many Pontiac area women know Mrs. Tiberg through cooperative extension work. An avid knitter, she's probably making something for her grandchildren.

SWEET AND SAUERKRAUT SALAD

By Mrs. William J. Tiberg

2½ cups sugar
1 cup cider vinegar
2 large cans sauerkraut, drained
1 large onion, sliced
⅔ green pepper, sliced thin

Heat sugar and vinegar to melt. Pour over sauerkraut. Add onion and green pepper. Refrigerate 24 hours before serving. Makes 20 servings.

People in the News

NANCY

By The Associated Press

Nancy Sinatra Sands, 25, daughter of Frank Sinatra, won a divorce yesterday in Los Angeles from Singer Tommy Sands, 27, after a five-year marriage. They had no children.

Sands, who was not in court, was ordered to pay $1 monthly token alimony for four years. Provisions for an out-of-court property settlement were not disclosed.

Victor Borge May Play on Broadway

Pianist Victor Borge said yesterday in New York he is considering appearing on Broadway in his first musical comedy in this country.

Borge, the Dane whose solo comedy programs have made him one of the highest paid performers, said he liked the idea of the show as a change of pace.

Zanuck: I Don't Owe U. S., They Owe Me

Hollywood producer Darryl F. Zanuck is contesting a government claim that he owes back income taxes. He says he should be getting a refund.

The 20th Century-Fox executive petitioned the U. S. Tax Court in Washington to set aside the Internal Revenue Service's finding that he owes $51,377 for the years 1959-61. Instead, Zanuck wants a refund award of $21,602.

The chief areas of dispute involve dividend income and alimony deductions Zanuck claimed.

Workers Choose UAW

MOUNT CLEMENS (AP) — Employes of Mount Clemens Pottery Co. Wednesday chose the United Auto Workers in a representation election, the UAW said. The vote was reported as 195 for the UAW and 148 for no union.

Glasses Sales Laws Needed?

WASHINGTON (AP) — The Senate Antitrust subcommittee is seeking Justice Department advice as to whether legislation is needed because of alleged kickbacks and pressure tactics by some eye doctors.

The subcommittee heard testimony Wednesday that some ophthalmologists sell glasses themselves, instead of referring patients to opticians, nonmedical technicians who make glasses to doctors' prescriptions.

Clarence T. Eisenhower of Reading, Pa., a dispenser of glasses, testified that Dr. I.B. High, a Reading opthalmologist, referred patients to him for glasses for a month in 1956.

Then, Eisenhower said, "He phoned me and asked where his check was."

AMBIGUOUS, INCONSISTENT

Eisenhower told the doctor, he said, he did not do business that way and "since then he has not sent me any patients."

Dr. Alfons F. Tipshus of Anaheim, Calif., said he does not sell the glasses he prescribes. He said the American College of Surgeons has a rule against members profiting from the sale of glasses or drugs, but that the American Medical Association has an "inconsistent and ambiguous" regulation.

* * *

Chairman Philip A. Hart, D-Mich., directed that Justice Department spokesmen be called to say whether additional legislation is needed. He said also the AMA should speak out on the ethical aspects.

Hiroshima Studies Unclear on A-Bomb, Disease Link

HIROSHIMA, Japan (AP) — Every year, on Aug. 6, the city of Hiroshima solemnly places a list of new names under the cenotaph which honors thousands who died from effects of the atom bomb.

Temple bells toll, doves wheel in the air and citizens of the first city to feel the lash of an atomic weapon bow their heads in prayer.

★ ★ ★

Most of the new victims are popularly described as struck down by "atomic disease," a term used for leukemia or some other form of cancer.

But the truth is that despite research carried out by Japanese, American and European doctors and scientists on the effects of radiation from the Hiroshima bomb, no one can say positively that it causes or accelerates disease in humans.

HIGER CATEGORY

Statistically, doctors and scientists have found that the incidence of some diseases like cancer is much higher in persons exposed to the bomb. Despite this, it has so far been impossible to say beyond doubt whether radiation caused, encouraged or had nothing to do with these diseases.

As a more positive fact, American researchers in the Atomic Bomb Casualty Commission say they have found that no genetic damage from radiation has been passed on to children of survivors.

★ ★ ★

This conclusion was reached by Dr. James Neel of the University of Michigan. He examined all children born to bomb victims in Hiroshima and the second atom-bombed city, Nagasaki, in one year, from 1947 to 1948. Using genetic markers, he found no disturbances.

"That is something we can be very cheery about. We like to think of it as one of the best things we have done," said Dr. Kenneth B. G. Johnson of Yale University, now in residence at the commission.

JOINTLY SUPPORTED

The commission has carried out many studies related to the bomb since 1947. It is jointly supported by the U.S. National Academy of Sciences-National Research Council and the Japanese National Institute of Health, a government agency. It has 850 Japanese and 50 American staff members.

Headed by Dr. George Darling of Yale, the commission is making an exhaustive survey of 100,000 persons, half of them exposed, the other half not exposed to the bomb. Matched by sex and age, they are periodically checked for survival experiences and causes of death.

★ ★ ★

It is also studying a sampling of 20,000 exposed and nonexposed children and adults to determine whether there has been any change in the occurrence of disease in relation to the amount of exposure. They get detailed physicial and laboratory examinations every two years.

"The most overwhelming, really impressive and positive finding has been the development of leukemia in victims," said Dr. Johnson. "There was a long period between 1945 to 1953 when it peaked. These cases do not appear to differ in their chemical form from those which occur naturally. The theory is that radiation may be a catalyst which quickens leukemia rather than being a primary cause.

SIGNIFICANCE

"Statistically significant, also, is an over-all increase in malignant tumors. In the United States, there are 30 cases per million. In Hiroshiba, 39 cases per million. In Hiroshima, 390. In 300,000 cases, we expect only three. We get 49 here."

Dr. Susumu Watanabe of the Research Institute for Nuclear Medicine and Biology confirms the findings on leukemia. His study covering 1946-61 dealt with nearly 100,000 survivors. It showed a death rate from leukemia as high as 14.59 per 100,000 in 1959. The Japanese death rate from the same disease was 2.67 that year.

★ ★ ★

In a study published last year, Dr. Watanabe noted that there had been 303 cases of leukemia in Hiroshima in the previous 18 years, 190 of them involving persons within 5,000 meters of the hypocenter — the point nearest the blast. A total of 274 persons died, 174 of them exposed to the bomb. Most of them were chronic cases as contrasted to the general Japanese population which gets the disease in its acute form.

Forty-one of the cases had entered Hiroshima within three weeks of the explosion; 28 had gone into the city within three days.

DELAYED INJURY

Like other researchers, he found that cataract was an important delayed injury. Almost half — 48.5 per cent of the survivors who were within 2,200 meters of the hypocenter suffered from cataracts. It was much less at greater distances. Most of the cases were mild.

Other Japanese researchers have found a marked increase in cancers of the stomach, lung, breast, ovary and thyroid among survivors — as much as four times that of nonexposed individuals for those within 1,000 meters of the hypocenter.

Dr. Fumio Shigeto, director of the Atom Bomb Hospital which has examined and treated 150,000 survivors in nine years, has the last word on the research being done.

"Suppose," he said, "that a hydrogen bomb is dropped on New York City or some other big center. There would not be enough doctors or nurses alive to cope with it. Do you realize that after the Hiroshima bomb, small as it was, it took trained doctors months just to extract the thousands of slivers of broken glass which perforated a patient?"

Women Arise! Nothing to Lose but Your Thirst

SAN FRANCISCO (AP) — Women for Equal Eating threatened to invade more of San Francisco's all-male saloons today after victoriously picketing the financial district's 42 Club.

The modern suffragettes were allowed Wednesday to enter the bar-restaurant any day after 3 p.m. They had picketed the men-only club with the help of sympathetic males for only a half hour before owner Milos Stika surrendered.

Picketing began Tuesday as the girls attempted to stage a drink-in.

Augusta, Ga., Issues Ban on Skateboards

AUGUSTA, Ga. (AP) — The City Council has banned skateboards on streets, sidewalks and playgrounds.

Councilman J. P. Hutto said the move was aimed at reducing injuries. Skateboards are small platforms mounted on skate wheels.

Ousted General Gets Extra Time to File Appeal

LANSING (AP) — The Michigan Court of Appeals has granted Maj. Gen. Ronald McDonald until Oct. 6 to ask for leave to appeal his firing as adjutant general of the Michigan National Guard.

McDonald was dismissed by Gov. George Romney following an administrative hearing into National Guard irregularities and charges of misfeasance and malfeasance of duty.

He originally faced a mid-summer appeal deadline but the court gave him 90 extra days after the attorney general's office agreed to the extension.

17 to Deliver Papers on Water Desalting

WASHINGTON (AP) — Interior Secretary Stewart T. Udall says representatives of 17 nations will deliver scientific papers on water desalting in a symposium here Oct. 3-9.

★ ★ ★

Udall says 56 nations have said they will send delegates.

Mango Omelets New Specialty in Food-Short Cuba

MIAMI, Fla. (AP) — Mango omelets have been introduced in heavily rationed Cuba, exiles report.

Mangoes, due to favorable growing conditions, and eggs, due to a special program by the Fidel Castro regime, were reported to abound amid a scarcity of other foods. Cooked together, they form a new dish.

The usually popular tropical fruit also is being served in other new ways, such as fried or with rice, it was reported in a letter from Cuba received by exile Raul Rosado.

"We are tired of mangoes," the letter writer said.

A brewery in southern Russia has made a malt drink like beer for feeding calves. It contains some of the vitamins found in milk and helps reduce the calves' milk consumption.

About 50 per cent of persons 65 years old and over in the nation have incomes of less than $1,000 a year, Rep. Carlton Sickles of Maryland recently reported in the House.

Seventy thousand of the 206,000 people confined at the concentration camp at Dachau, Germany, during World War II lost their lives in gas chambers or in other ways.

Family Buggy Needs Some Nourishment

By JOY STILLEY

NEW YORK (AP) — Ever hear of a car that runs without gas? Ours does. Or at least so my husband thinks.

He is convinced that, even though the gas gauge registers almost empty, it will take him wherever he is going and back without stopping at a filling station.

* * *

We haven't tested this theory very often because I threaten to get out and walk if he doesn't give the family auto a little nourishment now and then.

He's afraid that this indulgence will spoil the motor and that it will expect a regular diet of petroleum before it will function. I'm not sure what he has it running on now, but he is definitely against pampering it with fuel unless the gas needle has been resting on empty for some time.

OLD CAR

Our old car did, indeed, still have a few gallons left in it after it claimed to be empty. I have traveled many any anxious mile staring at the black line resting on E and fruitlessly suggesting that it would look at lot more reassuring somewhere around the F mark.

* * *

The new auto we recently acquired means what it says and the only advantage to this state of affairs is that I'm never bored on trips. When the turnpike sign warns "last gasoline for 35 miles" and the tank is about one-eighth full, I can entertain myself for quite a while with mental arithmetic: If the tank holds 16 gallons and it apparently has about two gallons left and the car gets 15 miles to the gallon and it's 35 miles to the next pump, how many minutes will I have to wait in the car alone while Pop goes trudging to the station and back?

1,600 MILES

We once started on a 1,600-mile trip with the gas tank only a quarter full. I timidly suggested that this amount was not likely to get us to our destination and we might as well fill 'er up before embarking. My husband didn't share my doubts. He avowed it would be plenty of gas to get us out of town and we'd get some when we actually needed it.

* * *

A while later we were riding along one of those super-roads and I had one eye on the gas gauge and the other on the frequent signs which advised there were no services on the highway. I had been maintaining a frustrated, dignified silence for many miles when I noticed my chauffeur beginning to glance a little nervously at the dashboard instruments.

* * *

At the next exit he turned off, remarking grudgingly: "Well, if you're going to fuss about the gas all the way I'll get some just to humor you." The station attendant put 16 gallons into the tank — its exact capacity.

I'll have to admit we've actually run out of gas just one time, and then only half a mile from a filling station. I fervently wished my stubborn husband had had a lot farther to walk.

Weigh New Rules on Closing Bases

WASHINGTON (AP) — Congress now has for consideration a new set of rules governing closing of military installations.

Conferees worked out a compromise Wednesday and sent it to the Senate and House. They had inserted different provisions in a military construction authorization bill.

* * *

If the two chambers agree, the rules will require the government to submit detailed plans to Congress at least 120 days before closing any installation.

Suspect Not Living Here

SALT LAKE CITY (AP) — The message from Multnomah County, Ore., police asked Salt Lake City officers to serve a felony warrant on a man wanted in Oregon.

"He is reported to be residing at 244 East Fourth South, Salt Lake City," the letter said.

* *

The address is that of the Police Department.

The first bananas to arrive in New York were included in a shipment which arrived from Cuba in 1804.

Reds Said Planning Sunken Berlin Wall

BERLIN (AP) — Refugee soldiers say East Germany's Communist regime is planning a sunken wall around West Berlin that will be less noticeable and more effective.

Such a barrier is already taking shape along one section.

* * *

"We have no official confirmation of the plan," said Capt. Heinz Hackbarth of the West Berlin police during a tour of the border Wednesday.

"But according to information we have received from refugee East German soldiers, the Communist regime plans to encircle West Berlin completely with its 'modern border' by 1970. The idea is to remove all barbed wire and the present wall from around West Berlin."

WIRE FENCE

Pointing to a section of the "modern border" already built along the Zehlendorf frontier, Hackbarth said:

"They will put up an ordinary wire fence where the barbed wire — and perhaps the wall — now stand. In the middle of a cleared strip 500 yards wide, they will dig a broad trench, and inside it on the side toward West Berlin will be a cement wall nine feet high and almost vertical.

* * *

"No vehicle, including a tank, will be able to get up that wall and no one will be able to climb it without help.

"On the eastern side of the trench and its sunken wall will be a road for their motorized patrols. Foot patrols and dogs will patrol in the trench.

SECOND BARRIER

"Beyond the road will be a second wire fence. The whole strip will have a normal appearance, camouflaged through design and landscaping."

Hackbarth said the Reds started their project last fall and have not progressed very far.

* * *

"But wherever they complete it, it will be more difficult than ever for refugees to get across," he added.

* * *

If the information given by the refugee soldiers is correct, Walter Ulbricht's Communist regime appears to have had second thoughts about the looks of the barbed wire and wall that now surround West Berlin.

A sunken wall would not be so apparent to visitors from the outside world.

Oldest Grad Bakes Pies as a Hobby

HOMER, Ill. (AP)—Dr. Frank M. Conkey is the oldest living graduate of Homer High School. He received his diploma in 1888.

Celebrating his 97th birthday, Conkey was busy baking pies, his favorite chore in the rambling home where he lives alone and does his own housework.

He attended the University of Illinois and then graduated from the Baltimore College of Dental Surgery, oldest such school in the world.

Conkey is the oldest member of the Homer Presbyterian Church.

"I guess my major hobby could be called fishing," he said.

"I always have liked to fish, and I have caught a lot, more of which were too big.

By JACOBY & SON

Jim asks his father: "What is your most unpleasant recollection of an ace-queen combination?"

Oswald: "It goes back to the time when you were a baby. It was a board-a-match national team game and I opened one spade with the West hand."

JACOBY

Jim: "You don't bid psychics now. Why did you bid one then?"

Oswald: "We were playing against a team of four elderly ladies. I was younger then. Maybe this hand is one reason why I quit psychics."

Jim: "I see you have put down the bidding at your table in the box. You must have been mighty happy when you found that your psychic had kept them out of game when they had a cinch slam and in addition had put them in a minor suit."

Oswald: "It looked like a sure won board. Even if our partners missed the slam they would surely be in game."

Jim: "How did you lose the board? Did your partners get to seven?"

Oswald: "No they arrived at six hearts by South. South has long since gone to a happier clime where singleton kings don't ever appear against you. He led a low heart to his queen. West took his king and South had to lose a second heart later."

Jim: "The correct play with this trump combination when you can afford one trump loser is to play the ace. You must lose two tricks if someone holds four trumps to the king-ten no matter how you play the suit. You can't lose two tricks against a 3-2 break and you guard against a singleton king in back of you."

What do you do?

A — **If you can depend on your partner not to pass, bid two hearts to see if he can show a second suit. Otherwise bid two or three no-trump as the spirit moves you.**

TODAY'S QUESTION

You do bid two hearts and your partner bids three clubs. What do you do now?

Answer Tomorrow

Astrological Forecast

By SYDNEY OMARR
For Friday

"The wise man controls his destiny . . . Astrology paints the way."

ARIES (Mar. 21 to Apr. 19): Attention to necessities highlighted. Avoid extremes. Give thought to health, diet, past resolutions. You can now find accomplishment through knowledge. Read. GAIN INFORMATION.

TAURUS (Apr. 20 to May 20): Stick to task at hand. No time to be swayed by temptation. Best to work first—play later. Member of opposite sex could reveal constructive ideas, methods. Listen —take positive action.

GEMINI (May 21 to June 20): Avoid jumping to conclusions. Be aware of basic needs. Realize you must walk before you can run. BUILD SOLID FOUNDATION. Then efforts due to meet with fine reception.

CANCER (June 21 to July 22): Fine evening for social affair. Especially good for cementing relations with neighbors, relatives . . . for putting thoughts, ideas on paper. Lay solid foundation. Add ORIGINAL touch.

LEO (July 23 to Aug. 22): Cash, valuables, possessions now emphasized. Know what you pay for—receive full value. Best to stick with the familiar. Not so good for breaking new ground. Study situation as it now exists.

VIRGO (Aug. 23 to Sept. 22): Your opinion is sought. Many may quote you. You are in the spotlight of attention. Give thought to appearance, goals. Display humor, independence and originality. You're going places!

LIBRA (Sept. 23 to Oct. 22): Know where you are going. Not so good now for being surrounded by strangers. Avoid trouble—stay out of arguments. Applies especially to controversial subject brought up at party.

SCORPIO (Oct. 23 to Nov. 21): Friendship is spotlighted. Many can help you to enjoy a beautiful evening. Fine for participating in hobby, related activities. Show others you do have a sense of humor. Highlight VERSATILITY.

SAGITTARIUS (Nov. 22 to Dec. 21): Much activity where personal ambitions center picture. You can make valuable contacts. Express views to those in positions of authority. Many are favorably impressed.

CAPRICORN (Dec. 22 to Jan. 19): Communications which could cause CHANGE OF PLANS not to be received. Be ready for surprises. Evening features variety of activity. You can learn from one who is expert in his field.

AQUARIUS (Jan. 20 to Feb. 18): Don't permit pride to cost you money, or prestige. Let others pay their "fair share." Keep promises made to family member. Accent domestic tranquility. Stress CONGENIALITY.

PISCES (Feb. 19 to Mar. 20): Obtain value from AQUARIUS message. Be aware of public reaction to your methods. Hold tight to purse strings. But emphasize quality and SINCERITY.

* * *

IF FRIDAY IS YOUR BIRTHDAY: You have combined sense of humor and showmanship. Would succeed in field where you are in direct contact with the public.

* * *

GENERAL TENDENCIES: Cycle high for VIRGO, LIBRA. Special word to TAURUS: Romantic interests highlighted. Don't make promises you can't keep!

Four Soviet Leaders Suddenly Reappear: What Does It Mean?

By WILLIAM L. RYAN
AP Special Correspondent

Four Soviet leaders who seemed to drop from public view two months ago have suddenly reappeared all at once — and with a bang.

Their prominence in the Soviet press this week suggests

News Analysis

that a nervous and indecisive collective leadership is involved in a behind-scenes struggle.

★ ★ ★

Critical and worrisome though the Southeast Asia situation may be for the Kremlin leadership, the tugging and pulling now seem to center mostly about domestic affairs. Foreign policy provides overtones and adds complications, some in the form of increasingly insistent demands from the Soviet military.

The four leaders who have reappeared are Nikolai V. Podgorny and Pyotr Y. Shelest, both party Presidium members and both Ukrainians; Pyotr N. Demichev, a high-ranking party secretary and a bright young man of light industry; and Gennady I. Voronov, premier of the big Russian Republic.

NIKITA'S BOYS

All four came up under ousted Premier Nikita Khrushchev. They dropped from view early this summer at a time when it seemed the Ukrainian element favored by Khrushchev and others closely identified with him was being pushed aside.

Podgorny and Shelest were given significant prominence in the Communist party organ Pravda and government paper Izvestia Sunday and Monday, along with the powerful A. N. Shelepin and A. P. Kirilenko, both members of the ruling party Presidium. The play given Podgorny overshadowed that given Premier Alexei N. Kosygin in commemorations of Soviet navy day.

★ ★ ★

Voronov and Demichev showed up again in the press as having appeared a day or two previously at public functions.

Shelepin's navy day address, delivered in the Murmansk area, stressed the need for a reassertion of "party and state discipline." He ran down the list of sins attributed to Khrushchev without mentioning his name, and then opined that all must avoid such transgressions "no matter what post he occupies in party or state."

TOUGH TALK

This was tough-sounding talk from a man like Shelepin who is obviously a rising power. He is in command of the party and state control machinery which gives him a political organization all his own, in effect more powerful than any within reach of the other Presidium members. Shelepin also has had long experience in state security work.

Shelepin, like Podgorny and Shelest, used the navy day occasion to voice concern for "the defense might of the fatherland" in view of the situation in Viet Nam. This was a bow in the direction of the military. But much of their discourses concerned the economy and an implied need for tightening party control.

★ ★ ★

It is difficult to determine just who might be the targets of addresses like these, but the treatment of the occasion by Pravda and Izvestia suggests that Premier Kosygin, if anybody, was on the defensive.

More will be known about the internal situation toward the end of this year. The chances are now that the Communist party, despite a statute which would require a congress this year, is not going to hold one. The congresses, theoretically required every four years, are supposed to lay down guidelines.

AN INDICATION

If October passes without a party congress, it will be an indication that something is awry within the party leadership.

Basically, the conflict appears to be over internal rather than external affairs. Discussion of economic affairs in the press has provoked sharp debate, as if there were a contest going on between conservative Communists who resist change and the so-called liberals who stand for reform.

★ ★ ★

The reappearance of Presidium members with such marked prominence — after two months in which their names could not be found in either Pravda or Izvestia — seems to point, at the least, to a period of nervous indecision at the top of the Soviet heap.

These 8 *Custom-Blended* gasolines at 8 different prices are how Sunoco delivers top performance for all car owners, cuts gasoline bills for most! Whether you use premium or regular, ask your Sunoco Dealer for the gasoline priced just under what you've been paying.

REGULAR BUYERS | PREMIUM BUYERS | LUXURY BUYERS

190 200 210 220 230 240 250 260

190 The only gasoline priced below regular with:

- New higher octane
- New carburetor cleaner
- New Clean-Fuel Filter

SUNOCO

If you use regular, you ought to try New 190, priced below Sunoco's regular grade!

The happy truth is that many cars built to run on regular gasoline don't need the high octane regulars you find at most stations. The sad truth is, many motorists who own these cars don't know this.

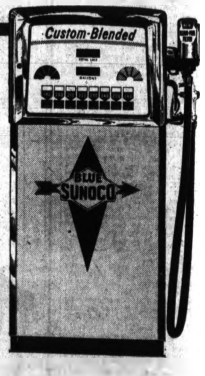

That's why, if you use regular gasoline, and are interested in getting top performance and saving money, too, you ought to try Sunoco's New 190, priced below regular.

And, you'll be getting the only gasoline priced below regular that offers these three great features:

New Higher Octane — means even more cars now using regular can get smooth, knock-free power with Sunoco 190, priced below regular.

New Carburetor Cleaner — lets Sunoco's new gasolines clean deposits out of carburetors. Keeps carburetors clean as you drive to protect against stalling. Can increase gasoline mileage up to 6%.

New Clean-Fuel Filter — filters the gasoline clean as the water you drink!...to help keep engines performing at full power.

to make your car run best while you pay less!

Remember Roger Bannister, the first 4-minute miler?

It's Dr. Roger Bannister now and in a story out of London recently he made some interesting observations, along with world-famous trainer Onnie Niskanen, about the 1968 Olympics to be held in Mexico City.

Bannister believes there is a strong possibility that many athletes could be permanently affected because of the lack of oxygen in Mexico City's altitude during the 1968 games.

Niskanen, who has lived in Addis Ababa, Ethiopia, which is 7,000 feet above sea level, goes even further by making the frightening statement that, "There will be those who will die."

Niskanen, a physical education teacher, trained Abebe Bikila to win two Olympic gold medals in one of the most enduring events of all—the marathon, and he feels that barring accidents Bikila will win the event for the third successive Olympics, something never done before.

The reason of course is the fact that Bikila will not have the problems acclimating himself to the 7,347 feet above sea level at Mexico City.

Niskanen says there could be tragedy in the distance and endurance events such as swimming, cycling, rowing and long track distances.

ATHLETES COLLAPSE

He pointed out that during the 1955 Pan-American games in Mexico City that several runners including Lou Jones in the 400 meter run and Josh Culbreath in the 400 meter hurdles collapsed after their events.

Many countries are already training their athletes in high altitude areas. The Russians are known to have many of their best athletes working out in the Ural Mountains.

★ ★ ★

Pontiac's Hayes Jones who competed several years ago in a meet in Mexico City noted upon his return that it would take at least a month for the athletes to acclimate themselves there.

This will put many countries to a great disadvantage. The British say that athletes will have to be away from their jobs for at least two months to account for trials within the various countries and the period of acclimatization.

A British writer noted that the 1968 Olympics in Mexico City would be the most "professional" in history, referring of course to the fact that it will take a lot more money to send the athletes so far in advance and to pay for their training costs.

The stupidity of the decision to give Mexico City the games in preference to Detroit lies in one point of argument which was made. The Olympic committee pointed out the average cost of keeping an athlete in Mexico City for the Olympics would be about $2.75 per day, whereas in Detroit it would be closer to $3.50 a day.

But did they figure in simple multiplication that 30 pre-game days at $2.75 amounts to $82.50 per athlete in Mexico City compared to 10 days at $3.50 or $35.00 in Detroit?

And if trainer Niskanen is correct in his statement of the dangers which will exist, the IOC better have some good explanations if tragedy does befall an athlete.

DITTOS FROM THE PRESS BOX

All the talk and stories about the huge twin double payoffs at Hazel Park has made the paper bag a commonplace thing at the track. Everyone, hopeful of making a haul, carries a paper bag under his arm.

A few of the local horse "experts" were seen making their first visit of the season to the track this week and the question came up, why was the empty golf bag seen in Bud Stark's station wagon?

Alger Conner said "It was just in case."

★ ★ ★

At any rate, the word got back here from Hazel Park that a new track record was set by Stark. He was the only one ever to wager in nine races and have his horse finish last each time.

"In fact, I think the jockey dismounted and walked to the finish line in the last race," noted Conner.

College Golf Stars Lead Western Amateur Play

BENTON HARBOR (AP) — A pair of collegians heads a field of 180 players into today's second qualifying round of the 63rd Western Amateur Golf Tournament, which has turned into a classic struggle against par.

Only 21-year-old Bill Newton, senior pre-med student at Michigan, broke par over the giant 7,000-yard Point o' Woods course Wednesday. The Big Ten champion drilled through a brisk wind for a 70, one stroke off the standard.

At 71 was NCAA titlist Marty Fleckman of Houston. One stroke behind was Bob Smith of Sacramento, Calif., who won the 1962 Holland and Austrian amateur titles while serving in the U.S. Army.

Locked at 73 were John Elliott of Fort Lauderdale, Fla., Bill McCormick of Long Beach, Calif., and Tim Holland of New York.

Generally, scores soared and there were grumbles of tough pin placements.

"I three-putted four greens, but what got me the most was the placing of pins near the lip of traps," said Norwegian-born Arne Dokka of Studio City, Calif., recently crowned National Public Links champion.

Dokka lagged in the field with an 81, the same score as Art Hudnutt of Elyria, Ohio, the 1962 champ. Former Walker Cup player Bob Gardner of Essex Falls, N. J., had an 83.

Among the 74-shooters was Dr. Edgar Updegraff, Tucson, Ariz., who won the title in 1957 and 1959 and was medalist last year.

Michigan amateur champion Bud Stevens of Livonia was bracketed at 74 along with Bill Richard of Ann Arbor.

Among those battling to make the cut were Tom Draper of Birmingham, the current North-South champ, who turned in a 76 despite a 10 on one hole.

Fred Ewald of Birmingham fired a 78 while Mount Clemens' George Wakefield came in with a 77.

Bill Newton, Ann Arbor, Mich.	34-36—70
Marty Fleckman, Port Arthur, Tex.	34-37—71

Carl Harrold, St. Joseph	40-38—78
Carl Mitchell, St. Joseph	38-40—78

Norm Cash's Homer Lifts Tigers

Three-Run Belt Passes Yanks in 8th, 4-3

Wickersham, Aided by Terry Fox, Wins 3rd Straight Start

NEW YORK (AP) — Old slugger Norman Cash is pushing his new comeback and the Detroit Tigers grow happier by the day.

Cash, who only recently broke out of a virtually season-long slump, pounded a three-run homer in the eighth inning Wednesday night in powering Detroit to a 4-3 victory over the New York Yankees.

The victory, giving Dave Wickersham his third straight triumph, also gave the Tigers a 2-1 edge in the series and put them in position to finish it off 3-1 in the concluding game today.

★ ★ ★

Denny McLain sought his ninth straight victory as Detroit's pitcher this afternoon against the Yanks' Mel Stottlemyre (11-5). McLain is 9-3.

The Tigers' late-game rally Wednesday night was climaxed by Cash's blast into the right field seats with two men on base.

Up to the eighth, rookie Jack Cullen had shut out Detroit on five hits while the Yanks managed a 2-0 lead off Wickersham.

FIELDING ERROR

New York scored in the second on a walk, a single and a sacrifice fly and once more in the sixth on a hit batsman, Wickersham's fielding error and a single.

The Tigers performed their eighth inning mop-up in a hurry.

Pinch-hitter Gates Brown, batting for Wickersham, tripled home Bill Freehan after the latter's leadoff single.

After Don Wert was thrown out, Steve Hamilton relieved Cullen and walked pinch-hitter Jake Wood, batting for Jerry Lumpe, and the stage was set for Cash.

★ ★ ★

The veteran first baseman, who hasn't had a good year since 1961 when his .361 average led the American League, let the count go to 2 and 0 against him and then smashed his 13th homer.

The homer was Detroit's 22nd in the last nine games and was the first off Hamilton this season in his 31 appearances and 42 1-3 innings of work.

Tony Kubek homered off reliefer Terry Fox in the eighth for New York's last run.

Wickersham received credit for his fourth victory. He has lost eight games, all of them in succession after his first victory. He allowed the Yanks only four hits in seven innings.

Vaughn All-Star Team Stays Alive in Series

The Vaughn area All-Stars stayed alive in the Bloomfield Hills 13-14-year-olds baseball World Series last night with a 9-5 win over the East Hills squad at the high school diamond.

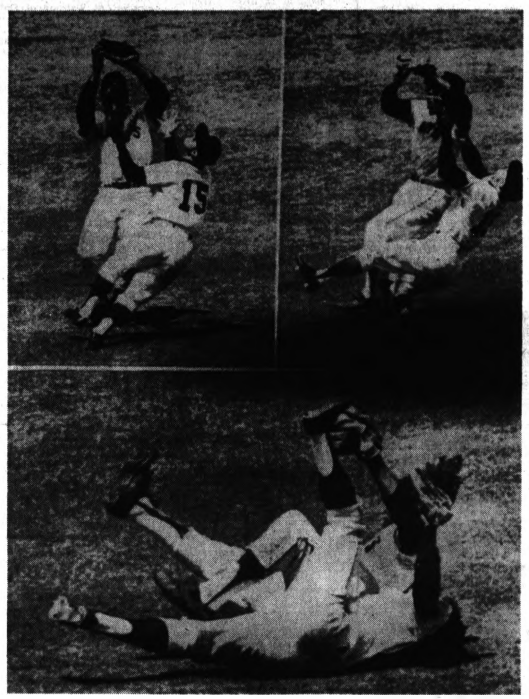

Vaughn now trails, 3-2, in the best - of - seven series. Craig White's double tied the game, 5-5, and teammate Jim Myers followed with another two-bagger for the two go-ahead runs.

Dan Hyde was the winning pitcher in relief. The sixth game is set for 5:30 p.m. today at the high school.

DOWN AND OUT — Left fielder Jim Ray Hart and shortstop Dick Schofield (15) of San Francisco collided on this play in the third inning of a game yesterday against St. Louis in San Francisco. Both hit the ground hard but Hart managed to hang onto the ball. Cardinals' Tim McCarver lofted a short fly ball that caused the collision. San Francisco won, 6-5.

Haig Shows Spark in Battling Cancer

NEW YORK (AP) — Walter Hagen, who reigned as the king of professional golf before the present day leaders such as Jack Nicklaus, Arnold Palmer, Tony Lema and Gary Player were born, is winning the greatest match of his life.

The 72-year-old fabulous Haig, as he was known in the 1920s when he was a contemporary of Babe Ruth, Bill Tilden, Red Grange, Jack Dempsey, Bobby Jones and Earl Sande, underwent a throat operation for cancer Tuesday.

DOING WELL

"He's doing very, very well," his son, Walter Hagen, Jr. said today.

"Let's face it. I was worried before the operation. But when I visited him at the hospital Wednesday night he was sitting in a chair and watching the Detroit-Yankee baseball game on television."

The younger Hagen said his dad, who now lives in Traverse City, is an avid baseball fan. He was pleased that the Tigers beat the Yanks 4-3.

"Dad was very peppy," Walter Jr. continued. "He's doing very, very well. Much better than I thought. The doctor thinks he'll be able to go home in about 10-12 days.

"He can't talk now, you know, but he's a great fighter and he isn't letting this get him down."

The younger Hagen said his dad is "very thankful" for the hundreds of letters, telegrams and flowers that he has received at St. Vincent's Hospital. "He keeps the flowers one day, then passes them along to other patients who do not have any."

Hagen, who was born in December, 1892 in Rochester, N.Y., was as well known in the White House as at Buckingham Palace in his glory days as a golfer during sport's so-called Golden Era 40 years ago.

He won the U.S. Open twice and the British Open four times.

Hagen retired from the sport in the mid-1930s.

Local Legion Nine in Tournament Play

Waterford's 18th American Legion championship baseball squad will move into zone tournament action tomorrow morning at Fraser.

The Waterford nine meets St. Clair at 9 a.m., and the other two teams — Owosso and Lansing — play at noon. The tournament will run on a two-game knockout basis.

Tomorrow's two losers will play again at 4 p.m. with the winner moving into a game Saturday at noon. The two winners tomorrow play at 9 a.m. Saturday.

The championship game or games will be Sunday afternoon.

Following 2-Cent Bet

Clerk's Future Rosy

LONDON (AP) — Life suddenly became a bed of roses Wednesday for Albert Rice, a $44 a week clerk who is crazy about roses but hasn't got a garden.

He won $211,646 on a two cents bet in a soccer pool.

Rice, 51, has dreamed for years of growing roses. But he and his wife live in a second floor apartment in Catford, a crowded suburb near London docks, where he works.

"Now it will be a place in the country, and I shall grow as many roses as I like," he said.

There's no soccer in Britain at the moment, but bettors still fill up the pools coupons and forecast the games in Australia.

The pools firm hit on a nice idea at the presentation ceremony. It got Harry Wheatcroft, a leading British authority on rose-growing, to hand Rice his check.

Lions' Rookies on 'Defensive'

With their defensive backfield weakened by age, retirement and trades, the Detroit Lions opened rookie camp this morning at Cranbrook hoping to find some adequate replacements in the secondary.

Rookies who will be given trials for the defensive backfield are Tom Vaughn of Iowa State, Larry Harbin of Appalachian State, Jack Jacobson of Oklahoma State and Jim Kearney of Prairie View. Another may be John Henderson, ex-U. of M. pass receiver who was obtained from the Eagles recently. Henderson's first chance however may be at offensive end.

The Lions recently lost 14-year veteran Yale Lary, all-pro safety and the team's punter via retirement.

Gary Lowe, a 9 year player with the Lions was traded to the Vikings several weeks ago, but yesterday Lowe announced he was also retiring after two days in Minnesota's camp.

Night Train Lane troubled with knee injuries the past two seasons has been one of the league's greatest cornerbacks in his 14 years with the Cardinals and Lions.

2 VETERANS

When the veterans report Sunday, Dick LeBeau and Bruce Maher will be the most experienced defensive backs on the squad.

Rookie week will end with a scrimmage session Saturday afternoon and attention will be focused on the team's No. 1 draft choice Tom Newatske from Indiana.

Absentee from the rookie crop is Pontiac's Jerry Rush who is working with the Collegiate All-Stars.

20-Year Wait for Ace

Marv Pidgeon of Livonia, a golfer for 20 years, fired his first hole-in-one at Bob O' Link yesterday. He used a 5-iron on the 130-yard 12th hole and had a 40 for the nine holes in the Michigan Bell league.

Wins 2nd WMGA Title

Mrs. Cova Triumphs

It wasn't even close.

Mrs. Midge Cova turned in a final round 78 yesterday to finish with a 54-hole total of 234 and an eight-stroke victory in the Women's Metropolitan Golf Association medal play tournament at Bob O'Link Golf Club.

It was the second WMGA crown for Mrs. Cova. She collected her first one in 1956.

There was little doubt about this year's title after the first round on Monday.

Mrs. Cova, who owns the Bob O'Link course along with her husband, grabbed a 10-stroke lead with a 75 Monday over the 6,000-yard layout, and maintained her lead with an 81 Tuesday.

Mrs. Nick Panasuik of Tecumseh, Ont., took the runner-up spot with a 242 total.

Defending champion Mrs. C. J. Miller of Novi, former Pontiac city titlist, was well down the list with a 263 total.

Mrs. Midge Cova	75-81-78—234
Mrs. Nick Panasuik	83-81-78—242
Mrs. Douglas Graham	83-84-84—251
Trillis Jacks	84-81-87—252
Mrs. Floyd Cocklin	84-85-86—255
Mrs. Harold Weil	87-84-86—257
Mrs. George Schade	84-81-84—259
Mrs. Henry Pramick	88-83-90—260
Mrs. C. J. Miller	87-89-87—263
Mrs. T. F. Langford	89-90-86—265
Mrs. John Menzies	94-89-83—266
Mrs. Charles Zahm	88-94-89—271

Low Net—Trillis Jacks 254-42—212; Mrs. Weil 257-42—215.

First Flight — Mrs. Andrew Leishman 93-88-89—360; Mrs. Sidney Ayres 88-88-85—261; Mrs. William Pate 85-89-89—263. Low Net—Mrs. W. E. Foster 265-88—265; Mrs. Robert Thomm 272-88—312.

Second Flight — Mrs. Walter Shipton 92-95-84—281; Mrs. Zeffie Cova 95-89-91—265; Mrs. Douglass Benton 99-100-96—295; Mrs. Donald Ferguson 95-98-96—289; Mrs. Thomas McColl 96-93-100—289. Low Net—Mrs. George Kendrick 290-75—215; Mrs. Donald Rutherford 293-75—218.

Third Flight — Mrs. Raymond Gilcrest 105-97-98—290; Mrs. Robert Norton 104-103-93—300; Mrs. Roy Brennan 109-103-91—303; Mrs. Thomas Pitulski 103-103-84—290. Low Net—Gertrude Schwarz 314-93—221; Mrs. King Symington 324-81—228.

N.Y. Jets Let Namath Loose in Rookie Tilt

LOWELL, Mass. (AP) — The wraps are off Joe Namath and the $400,000 quarterback is airborne in his bid to win a starring job with New York's American Football League Jets.

★ ★ ★

The 22-year-old former Alabama standout, the highest-priced rookie in pro sports history, made his long awaited debut and turned in a creditable performance in leading the Jets to a 23-6 victory over the Boston Patriots Wednesday night in a rookie squad exhibition.

Namath completed his first pass as a pro, a 16-yard shot to Jim Evans, setting up a six-yard touchdown run by Bob Schweickert of Virginia Tech in the first period.

★ ★ ★

Then the 6-foot-2 aerial artist triggered a 12-yard scoring pass to Evans in the second period and a five-yard clothesline toss to Tom Krzemienski of Michigan State in the third quarter before retiring for the evening.

Although a few of his passes were off intended receiver's fingers, Namath finished with nine completions in 19 attempts for 106 yards. He had two passes intercepted and took the blame for one claiming he didn't set himself well enough to throw.

Lakeland Nips Waterford Foe

Lakeland Pharmacy (15-2) knocked off Richardson Dairy (14-3) last night, 6-4, to clinch at least a tie for the regular season softball championship in Waterford Township.

Both teams are in action tonight, Lakeland against Huron Bowl and Richardson against Bob & Larry's Bar. A Lakeland victory would sew up the title.

Lakeland scored three runs in the second and El Sharrard delivered a two-run single in the fifth to produce the decisive markers.

In a second game, Midget Bar (6-12) trimmed Dixie Tool (1-17), 14-1 in a five-inning game. Gary Petty tossed a two-hitter and collected a home run and a pair of singles to pace the batting attack.

★ ★ ★

Three Waterford All-Star teams will duel three Pontiac squads in a triple-header at Drayton Plains Park Saturday.

Town & Country will take on the first Waterford team at 5 p.m., with Spencer Floors taking the field at 7 p.m. and 300 Bowl at 8:30.

3 Share Medal Honors

COLORADO SPRINGS, Colo. (AP) — Medalists Jim English, Jim Liggett and Ron Moore lead a 33-man championship flight into today's first-round matches of the Broadmoor Men's Invitational Golf Tournament.

Each of the three shot a three-under par 69.

Golf's Top Stars Ready to Battle in Thunderbird

HARRISON, N.Y. (AP) — Gary Player, the U.S. Open champion who is at the top of his game, is here. So is Jack Nicklaus, the big money-winner from Ohio whose Masters triumph stands as one of the most stunning in golf history.

And defending champion Tony Lema, vintage stars Gene Sarazen and Sam Snead, and Billy Casper and Bruce Crampton, three-time winners on the PGA circuit this year.

But the focus of attention, the man with the biggest gallery and most persistent following of autograph seekers, remains Arnold Palmer.

There is little doubt Palmer is the fans' favorite for the $100,000 Thunderbird Classic which opened today over Westchester Country Club's 6,573-yard course. The slumping slugger's progress in Wednesday's pro-am competition was closely watched, and there was a sizable and enthusiastic crowd surrounding the green when he holed out on the 18th hole.

NO PRIMER NEEDED for most repaint work

- No primer needed if surface is sound
- Clean up with warm water
- Dries in just 30 minutes
- Resists fading and blistering better

U.S. Golf Pro Impresses Scots in Invitational Play

DALMAHOY, Scotland (AP) — Ray Floyd, 22-year-old American pro, started out today the favorite for the 72-hole Dalmahoy individual golf tournament with canny Scots saying: "This laddie looks like another Jack Nicklaus to us."

Floyd, from St. Andrews, Ill., defeated Eric Brown — the Scot with the 100 per cent match play record against the Americans in Ryder Cup competition — by four holes in Wednesday's Little Ryder Cup match by firing a brilliant seven-under-par 34-31—65 in the rain.

* * *

The British Isles team won by 27 holes to 12 after torrential rain had cut late 18-hold singles matches to as little as 11 holes.

Brown's victims in the Ryder Cup have been Lloyd Mangrum, Tommy Bolt, Jerry Barber and Cary Middlecoff.

TAKES BEATING

But as the Scot walked smiling through the rain from Dalmahoy's 18th green after taking a merciless beating from Floyd, he said: "to lose by four holes after going around in 70 seems incredible. But this boy is going to be one of the world's greats, and if I had to lose to a Yank I am glad it was to him."

An hour after Brown and Floyd had paddled in from the waterlogged battlefront, the tournament was abandoned with the score counting as the matches stood.

* * *

About 200 golfers from 13 countries, involving Floyd and nine other Americans, are shooting for prize money totaling $28,000 in the individual tournament.

Results of other matches Wednesday were:

Scotch Foursomes

Bernard Hunt and Peter Butler, England, defeated Bob Rosburg, Hillsboro, Ore., and Jackie Cupit, Corona, Calif., eight holes;

Peter Allis, England, and Christy O'Connor, Ireland, defeated Bob McCallister, Clairemont, Calif., and Don Fairfield, Casey, Ill., two holes;

Floyd and Dave Ragan, Orlando, Fla., defeated George Will and Jimmy Hitchcock, Scotland, one hole;

Ted Kroll, Detroit, and Bob Toski, Miami, Fla. and Dave Thomas, Wales, and Neil Coles, England, even.

Singles

Rosburg and Lionel Platts, England, even;

Jimmy Martin, Ireland, defeated McCallister, three holes;

Thomas defeated Ragan, four holes (after 15 holes);

Butler defeated Fred Hawkins, New Orleans, five holes (after 17);

Coles defeated Billy Maxwell, Indianapolis, two holes (after 11);

Hunt defeated Fairfield, three holes (after 11);

Cupit defeated Tommy Horton, England, seven holes (after 15).

State's Top Golfers After Open Title

Defending champion Thom Rosely will lead 192 of the state's best amateur and professional golfers into the first round of the Michigan Open on the IMA Brookwood course Friday.

* * *

The 6,533-yard, par 72 course has been lauded as a good test of golf by many of the state's pros, including six-time open champion Al Watrous of Oakland Hills.

The 65-year-old Watrous toured the course last week and shot in the mid-70s.

Top prize in the 45th annual event is $1,000. The pros will divide a purse of $6,000, while $1,500 in merchandise will be offered the leading amateurs.

Rosely, pro at Silver Lake Country Club near Grand Rapids, pocketed $750 last year when he fired a 281 at the Lakelands Course near Brighton.

"I've got enough distance off the tee to play this course without pressing," Rosely said.

"My shot game is working for me and I'm putting well."

This will be Rosely's seventh state open. He finished third in 1961.

The field, starting from both the No. 1 and No. 10 tees Friday and Saturday, will be trimmed to the low 80 plus ties after the second round.

* * *

Sunday's final will be 36 holes.

A number of the state's top amateurs have passed up playing in the open to compete in the Western Amateur at Benton Harbor.

* * *

FRIDAY'S PAIRINGS

No. 1 Tee

8:00 a.—Joe Kimble Jr.*, Linden; Tom McCormick, Ottaville; Mark Cykowski*, Birmingham.

Little League 9s Advance

The District No. 4 Little League championship final Saturday afternoon will pair a Birmingham all-star team against one from either North Farmington or Southfield.

This was determined yesterday in the quarter-final round of the single elimination playoffs. Two Birmingham teams reached a semi-final showdown this afternoon at Elon Park.

Birmingham Federal ousted Southfield Lathrup, 2-0, and Birmingham Continental dumped Southfield National, 4-1. The Southfield American team nipped Farmington, 5-4.

Walled Lake, which lost in the finals to Southfield last year, fell before North Farmington's National All-Stars, 4-3, yesterday.

Despite two home runs by 4-foot-8 94-pound catcher Dennis Biers, Walled Lake bowed with two out in the bottom of the last inning. A hit, error and fielder's choice plated the deciding run.

Walled Lake	301 000—4	6
N. Farm. Nat.	100 201—4	1

Pistons Plan 4 Exhibitions

DETROIT (AP)—Three exhibition games in the state and one in northern Ohio were announced by the Detroit Pistons Thursday.

The Pistons will play the Cincinnati Royals in the second half of a National Basketball Association doubleheader on Monday, Oct. 4 at Cobo Hall in Detroit. New York and Baltimore will play in the first game of the unique NBA exhibition twin bill.

Baltimore and the Pistons will square off at Bay City Central High on September 29 and the New York Knickerbockers and Pistons will play at Holland October 8.

Talbott Nips CIO, 8-7

Rallying Talbott lumber won its fourth game in five starts and climbed into a tie for fifth place in the city men's recreation baseball league last night at Jaycee Park.

Strong relief pitching by left-hander Al Foraker and timely hitting brought Talbott from a 6-0 second-inning deficit to an 8-7 victory over CIO No. 594.

Both teams are now 5-11. For the winning lumbermen, the win raised them to their highest level this season.

CIO starting hurler Ray Heaton tripled to deep center field with the bases loaded and manager Chet Woodmore followed with a three-bagger to highlight the union's six-run second.

Foraker, who hadn't pitched in more than three weeks, then came on and hurled the final five-and-a-third innings, yielding one run and three hits — all in the fifth frame.

A crucial tilt tonight under the lights has league-leading Cranbrook playing the fourth place Clippers who are only a game behind the pacesetters.

Rochester Falls to Franklin '9'

The two leaders in the city recreation junior baseball Class D League met head on last night and it took 11 innings before a decision was reached.

Franklin tallied with one out in the bottom of the 11th for a 2-1 win over battling Rochester last night.

Class F results featured the two-hit mound victory by the Yankees' Joe Reynolds over Met Club 5-3. Bruce Fox gave three hits to the Lakeland team in a 4-1 McDonald Drive-In win.

Dan Martin of the Auburn Heights Boys Club Widget National team allowed no hits in a five-inning 11-0 triumph over Bart's Drugs.

Unethical Deals on Twin Double Lead to Pledge

DETROIT (AP)—Detroit Race Course, which opens its Livonia track Monday, pledged Wednesday to eliminate twin double wagering if the betting gets out of hand.

Course officials made the pledge to State Racing Commissioner Berry Beaman after Beaman threatened to ban the twin double.

Two professional bettors were ordered off the Hazel Park track for violating track rules by purchasing tickets from winners of the first two of the twin double's four races and exchanging them for the second two races. They reputedly won half a million dollars.

While no violation of law, this practice is against the Michigan racing code.

Detroit Race Course said it will run the four twin double races consecutively, reducing the time for offending ticket purchases to a minimum. At Hazel Park the twin usually was on the fifth and sixth races to start and then the eighth and ninth races.

Hazel Park closes its season Saturday.

Ron Ellis Under Knife

TORONTO, Ont. (AP) — Ron Ellis, right winger for the Toronto Maple Leafs of the National Hockey League, underwent a successful operation Wednesday for removal of cartilage from his right knee.

Rookies After Spots

Pro Camps Scrimmage

WESTMINSTER, Md. — A handful of veterans and a large number of rookies went through a full speed scrimmage Wednesday as the first-year candidates in the Baltimore Colts football training camp began their fight for survival.

The Colts announced that they sent rookie Dave Johnson of San Jose State back to California for arm surgery to straighten a poorly healed fracture. Johnson will remain on the reserve list.

* * *

MORAGA, Calif. — The San Francisco 49ers football practice was wound up Wednesday by a 30-minute scrimmage in which two touchdowns were scored.

Second - year running back Dave Kopay scored the first on a 60-yard run.

The second TD was made by veteran fullback J. D. Smith on a two-yard plunge.

Quarterback George Mira was in Florida, called home because of a death in his family. A 49er spokesman said he will return to camp tonight.

Rookie linebacker Bill Fisk, a free agent from Southern California, left the squad voluntarily to try another career.

* * *

ORANGE, Calif. — An all-out contact drill failed to produce any injuries Wednesday in the Los Angeles Rams football camp.

Coach Harland Svare said he was pushing rough drills early this season because of the superior physical condition of his National Football League club.

The veterans apparently worked hard on their own this summer, mindful that last year 14 rookies made the team, Svare said.

HERSHEY, Pa. — The Philadelphia Eagles concentrated on passing drills at their training camp Wednesday with quarterback King Hill doing all the throwing.

Peaches In Contention

LAKE BLUFF, Ill. (AP) — Jane (Peaches) Bartkowicz, defending champion, together with five other seeded players and two unranked competitors started play in the quarter-finals of the National Girls 16-and-under Tennis Tournament at the Bath and Tennis Club today.

Loss of Ace Hurler Gives Twins a Jolt

Ever see a pennant walk off a pitching mound?

That's what Minnesota Manager Sam Mele envisioned Wednesday night when the Twins ace righthander Camilo Pascual stepped off the mound and motioned to the dugout for him.

Pascual was in the midst of pitching his best game in more than a month when he suddenly called Mele to the mound. Pascual said he couldn't pitch any more, that his arm bothered him too much.

Off he walked with a perplexed Mele trailing behind, watching the Twins winningest pitcher for the last five seasons clutching his right elbow.

He had allowed Washington only two hits and had a 3-0 lead when he left with two out in the fourth.

Dr. George Resta, team physician for the Washington Senators, examined Pascual and recommended immediate surgery to remove a tumor on the back on his pitching arm.

ROGGENBURK TAKES OVER

Gary Roggenburk took over for Pascual and pitched the last 5 1-3 innings as the Twins defeated the Washington Senators 8-1. But Mele was visibly depressed by the news of Pascual's tumor and the dressing room of the American League leaders was as quiet as a tomb.

"I'd rather not talk about it just now," Mele said. "I called Mr. Cal Griffith the Twins' owner and discussed the situation with him and asked him for a replacement for Pascual.

In other AL games, second-place Baltimore remained four games behind the Twins by stopping Los Angeles 8-1, Cleveland downed Chicago 4-2, Boston blanked Kansas City 6-0 and Detroit edged New York 4-3.

Harmon Killebrew slugged his 22nd home run and Tony Oliva collected five hits for the Twins, who tagged Washington starter Phil Ortega with his ninth loss in 20 decisions.

Oliva's barrage raised his batting average to .308. He also stole two bases and scored three times.

* * *

Dick Brown's two-run double drove in the winning run for Baltimore in a three-run seventh and the Orioles added two more tallies in the eighth.

Fred Whitfield's two-run homer broke a 2-2 tie and gave the Indians and reliever Gary Bell the victory. The loss went to Joe Horlen and was the ninth in 10 games for the slumping White Sox.

Bill Monbouquette scattered eight hits and Lee Thomas and Carl Yastrzemski hit home runs for the Red Sox, who also suffered a blow as Tony Conigliaro suffered a hairline fracture of the right wrist when he was hit by a pitched ball in the fifth inning. He will be out of action at least 10 days.

Determined Sam Ellis Outpitches LA's Koufax

By The Associated Press

When Sammy Ellis retires, he may be the only guy on the block with a sterling silver lunch pail.

The Cincinnati right-hander took another step away from carrying a two dollar pail, outpitching Sandy Koufax in the Reds' 4-1 triumph over Los Angeles Wednesday night.

* * *

Ellis stymied the National League leaders on four hits while the second-place Reds snapped Koufax' winning streak at 11 and moved to within two games of the Dodgers.

The victory put Ellis in a class with Koufax, Don Drysdale and Juan Marichal, the four being the only pitchers in the majors to have at least 14 victories this season. Ellis now is 14-6 while Koufax is 17-4.

* * *

And the showing the 24-year-old fireballer has made is pretty good for a guy who didn't know before the season started whether he would be a reliever or a starter. He did know one thing, though. He didn't want to relieve.

"I don't know any hard-throwing relief pitcher who lasted more than three or four years," said Ellis, who turned in a brilliant bullpen performance last season.

"I want to be around 10 or 15 years, not three or four and wind up carrying a lunch pail. I don't want any part of it."

* * *

In other National League games Wednesday, Philadelphia edged Pittsburgh 1-0 in 14 innings, Milwaukee outlasted Houston 6-4, San Francisco defeated St. Louis 8-5 and Chicago swept New York 7-2 and 9-0.

Philadelphia and Pittsburgh battled through 13 scoreless innings before Don Schwall walked three Phillies in the 14th and Alex Johnson beat out a two-out infield single, driving in Cookie Rojas. The Pirates managed only five hits off Jim Bunning and Jack Baldschun.

* * *

The Braves boosted their All-Star break to 13-4 as Denis Menke drove in two runs with a homer and a single and Ty Cline rapped three hits.

Postal Strike Ended in All but 10 Locales

TORONTO (AP)—Postal employes remained on strike in only 10 cities and towns in Ontario and Quebec provinces today.

In the other 84 centers where the postmen struck for higher pay this week, workers heeded the pleas of the National Postal Workers Brotherhood to return to work and await recommendations on pay increases expected on Aug. 11 from a federal mediator, Judge J. C. Anderson.

★ ★ ★

Workers were still on strike in Toronto, Windsor, Sarnia, Kingston, Chatham, Oshawa, Peterborough, Levis, Lake St. John and Montreal.

In Montreal, William Houle, president of the Canadian Postal Employes Association, was adamant that his workers would remain out in strike.

PAY INCREASES

Judge Anderson said all workers could expect "further substantial" pay increases.

Houle commented:

"We want precise figures. No firm figure, no action."

★ ★ ★

Anderson recommended in an interim report that recently announced pay increases for grade one postal clerks, carriers and handlers be boosted $60 annually from $300 to bring them into line with the $360 annual increase already approved for grade two postal clerks.

Houle's group has demanded a $800 annual increase.

2 Named to Posts in College Drive

Mrs. Robert Turpin, 100 Franklin Blvd., and Oakland County Circuit Court Judge Arthur E. Moore, 1407 Vinsetta, Royal Oak, have been named to posts in the annual United Negro College Fund campaign.

Moore will be chairman of the Oakland County Division of the campaign.

★ ★

Mrs. Turpin, wife of Dr. Robert R. Turpin, a Pontiac school board member, will act as cochairman of the local division.

Lung Ailment Claims Ex-Detroit News Editor

DETROIT (AP) — C. K. Lysinger, former associate editor of the Detroit News, died today in Bon Secours Hospital.

Lysinger, 71, had been ill with emphysema, a lung ailment.

A veteran Detroit newspaper man, Lysinger retired from the News in 1957. He served as news editor on the newspaper for some 25 years prior to his appointment as associate editor.

NOTICE OF HEARING
ON ESTABLISHING NORMAL HEIGHT AND LEVEL OF WATER IN MOHAWK AND LITTLE LAKES IN WATERFORD TOWNSHIP
OAKLAND COUNTY, MICHIGAN
To Whom It May Concern.
PARTICULARLY all owners of property fronting on, abutting or having access to rights in Mohawk and Wamoon Lakes, who are interested in having fixed and maintained the normal height and level of said lakes pursuant to the provisions of Act 146 of the Public Acts of 1961, as amended, said lakes being located in Sections 1, 11 and 12 of Waterford Township, Oakland County, Michigan.
You are Further Notified that a hearing on the matter will be held in the Circuit Court for the County of Oakland, State of Michigan, at the Oakland County Court House in Pontiac, Michigan, on Tuesday, the 7th day of September, A.D., 1965, at the opening of Court on that day at 1:30 P.M., before the Honorable James R. Thorburn, Circuit Judge, or as soon thereafter as Counsel can be heard.
You Are Further Notified that an said date the Complainant intends to establish the normal height and level of said lakes at 949.30 feet above sea level and if you desire to oppose the establishment of the level at 949.30 feet above sea level you should then and there appear and show cause, if any you have, why:
(a) The normal height and level of said lakes should not be established;
(b) Why 949.30 feet above sea level should not be the level fixed as the normal height and level of said lakes;
(c) Why such other and further relief as the Court seems fitting and proper should not be granted to Complainant.

NOTICE OF CONSIDERATION OF A PROPOSAL TO CONSTRUCT SANITARY SEWER AND RELATED WORK ON BLOOMFIELD AVENUE
You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan, held July 13, 1965, a resolution was adopted which requested an Engineer's estimate for the construction of sanitary sewer and related work on Bloomfield Avenue from Luther Street to a point 300 feet south, The plan, profile and estimate in the amount of $3,720.00 of said improvement are on file in my office for inspection.
It is further proposed to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof be defrayed by special assessment upon the lots, parcels of land fronting on Bloomfield Avenue from Luther Street to the south line of Lot 148 and 161 Bloomfield Hills Addition #3 which are benefited by said improvement, said assessment district to defray $3,488.00 of the estimated cost thereof, the balance of the estimated cost and expenses hereof shall be paid from the Sewage Disposal Fund.
Notice is hereby given that the Commission of the City of Pontiac will meet with most in the Commission Chambers your office at 2:00 P.M. on the 9th day of August, 1965 at which time any objections that may be made by parties interested.
M.C.O. 6197.

PRICES ARE RIGHT
AT
HOMER HIGHT

July has been a good month for us. Trades have been way up. This has made it possible to price our used cars (mostly 1-owner), down to rock bottom. To be honest, we don't expect our present stock to last long at present prices. So if you're thinking about another car, you'd better hurry on down and take a peek at what we've got to offer. After all, if the time is right and the price is right, how can you possibly lose on a customer-conscious Homer Hight new or used car deal?

1962 PONTIAC
Bonneville 4-Door Hardtop with power steering and brakes, radio, heater, automatic and power windows. $1495

More than a billion pounds of dehydrated foods — fruits, vegetables and soup mixes — were produced in 1963.

In England, daguerreotypes were featured as sensations at carnivals, along with electric eels.

3rd Prize at Festival Is Morale Booster

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD—At the recent Moscow film festival, "The Great Race" managed to win third prize in a field of turgid dramas brimming with social significance.

THOMAS

This is a noteworthy achievement for a movie that bears no message outside of a fervent plea for woman's suffrage. The award also comprised a boost in morale for Blake Edwards, the boyish third-generation film maker who conceived, helped write and directed "The Great Race."

* * *

Offhand, you wouldn't think that Edwards needed such encouragement. Besides his current hit, he had a pair of solid winners last year — "The Pink Panther" and "A Shot in the Dark." But, like all creators of comedy, he suffers doubts as to whether his efforts are appreciated.

"I was supposed to go to the festival. Then 'The Great Race' showing was moved ahead and I couldn't get there in time. I was still going with Jack Lemmon when I read a report on the picture from Tass; it said grudgingly that people laughed, but the picture was not to be taken seriously.

"I canceled my trip. I've got enough troubles with critics here.

"But then I got reports on the showing from Jack, Dorothy Provine, George Stevens Jr. and others at the festival. They said the audience roared, and it was the only film to sell out the 6,000-seat house. They had to show it four times. Then came the award.

* * *

"I think my whole attitude toward comedy will be different now. I'm not going to make any more excuses, to myself or anybody."

* * *

His grandfather was J. Gordon Edwards, who directed the first "Cleopatra" and other Theda Bara films. His father is Jack McEdwards, studio production manager who now oversees his son's films. Born William Blake McEdwards in Tulsa, Okla., the boy grew up in the movie world, went to Beverly Hills High School, later truncated his name when he tried for an acting career.

RADIO WRITING

He fell into radio writing, created and wrote "Richard Diamond" for Dick Powell, then became writer and director of B pictures for Columbia.

"When I started directing, I was advised by friends never to bring a picture in on schedule," he recalled. "I did the first one at Columbia on schedule. On the next one, I was six years over on a 15-day film, not to impress anyone, but because I tried to be conscientious. I was fired.

"But Universal was impressed by the picture and hired me. I did some Tony Curtis movies on schedule, then I went over on 'Operation Petticoat.' They let me go. I went over on 'High Time' at Fox because I was trying to fix an impossible script. Fox warned Paramount not to hire me for 'Breakfast at Tiffany's,' but I got the job anyway."

Even his recent successes didn't end the spectre. Edwards said J. L. Warner once tried to fire him from "The Great Race" when the film advanced toward an $11-million cost. "But I think he realized now it couldn't have been made for less," said Edwards.

Plainly Productive

Pet Presents 'Pure Poetry'

BOSTON, Mass. (AP) — You can buy most anything for your pet pooch in Boston, from nail polish for his toes to mink-lined raincoats with hoods.

Other pets fare just about as well. There are jeweled collars for cats, special diets for hamsters and motels for canaries with piped-in music in case they forget how to sing.

* * *

The pet business in Boston, as in many other parts of the nation, is undergoing a boom in what one manufacturer calls "far-out products."

Richard Hemmerdinger, a pet shop owner in Winchester, says Bostonians are "more subdued in what they buy for their pets than, say, people in New York."

EVEN HAIR DRIER

Nevertheless, he stocks sun glasses and berets for dogs and will be happy to order a hair drier for your poodle.

* * *

Hugh Brady, a pet products wholesaler in Needham, says the demand for fancy products is new, but so are the products. "Somebody has thought them up and they're just there, and people buy them," he says.

Brady thinks state and federal controls are tighter over some grooming products made for dogs than they are for similar products for women.

"I know the Massachusetts Department of Agriculture is always checking and is pretty strict," he says.

TOUGHER ON DOGS

The Christian Science Monitor quotes a firm that makes grooming products for both dogs and women as saying the state and federal regulations definitely are tougher for dog products.

In Dorchester, Charlotte Dickerman operates a pet motel with pink rooms for the females and blue rooms for the males.

* * *

There is piped-in music and Miss Dickerman lives in a lavender bedroom near the animals "so if any of them cry in the night, I can hear them."

The American Pet Products Manufacturers Association in New York estimates that $1.5 billion was spent last year by Americans on their pets.

That's more, the association said, than Americans spend on food for their babies.

S. Viet City Will Get Flag From U.S. Capitol

WASHINGTON (AP) — Sen. Birch Bayh, D-Ind., says the city of Hue, South Viet Nam, will get an American flag that has flown over the U.S. Capitol.

Bayh said two Indians servicemen made the request, praising Hue's citizens for "great strides" they have taken toward democracy and their stand against communism.

The lowest temperature ever recorded in the semitropical land of Bermuda was 43 degrees, the highest 94 degrees. The average annual mean temperature is 70 degrees.

Teen Pleads Guilty In Postgame Knifing

DETROIT (AP)—Reginald A. Tinsley, 17, of Detroit, pleaded guilty Wednesday in the March 9 knifing of a youth at a high school basketball game.

The incident was one of a series of stabbings at the game which resulted in a ban on night athletic contests in the city.

Lovely Connie Was Ageless: Her Years Went Uncounted

By EARL WILSON

NEW YORK—The death of lovely Constance Bennett shocked all of us who found her incredibly youthful and energetic this past year even though she secretly suffered a middle ear infection which was followed by a cerebral hemorrhage.

WILSON

Indeed, at a party at Earl Blackwell's, a woman who marveled at her lineless profile said, "I wonder who did Connie's face?"

★

It was decided to ask her. Miss Bennett laughed — and a gentleman admirer exclaimed, "God did it!"

Believing she'd recovered from the middle ear ailment after an operation in Walter Reed Hospital, and discharged May 28, she and her husband Air Force Brig. Gen. John Coulter conferred last week with her manager Geoffrey Barr and a B'way producer about a stage show — and another movie. The Coulters planned to move from McGuire Air Force Base, N. J., to W. 57th St. in a few weeks.

On Friday night she was in high spirits, and radiant.

★ ★ ★

Miss Bennett enjoyed the speculation about her age and liked to quote her sister Joan Bennett who said, "I always told the truth about my age, so I started out as the youngest sister, then became Connie's twin sister, and wound up as the oldest sister!"

One time I went to Connie to interview her about all the guessing about her age.

She talked to me for maybe an hour about it . . . about all the misinformation . . . saying that when she was 15, she added 7 years to her age so that she could work as a performer . . . but years later it was impossible to take that 7 years off.

Yes, she talked to me for an hour about it — and when I left I realized I'd seen an Oscar performance, a truly great acting job.

★ ★ ★

She hadn't told me her age.

THE MIDNIGHT EARL . . .

The Beatles'll arrive in town Aug. 13 for their Shea Stadium concert Aug. 15 — but Brian Epstein, their manager, is not saying where they'll be staying. "We're trying to keep that a secret, you know," he said. "But," he added, "it definitely won't be the Taft," as it had been reported. Brian came here to unveil singer Cilla Black at the Persian Room.

Max Shulman's agreed to do the script for the musical version of "Some Like It Hot" . . . Fame Never Ends Dep't.: **Tony Newley**, starring in "Roar of the Greasepaint," still collects $163 a week in royalties for "What Kind of Fool Am I" (from "Stop the World").

EARL'S PEARLS: A woman in court was explaining an automobile accident: "I was driving down the main road, with my husband at the wheel . . ."

Disc jockey Gary Stevens heard about the ailing pop singer who complained: "I've been in bed all week with a terrible haircut." . . . **That's earl, brother.**

Answer to Previous Puzzle

Says GOP Pair 'Use' the Party

WASHINGTON (AP)—Denison Kitchel, president of Barry Goldwater's Free Society Association, said Wednesday Govs. George Romney and Nelson A. Rockefeller were Republicans whose efforts for the party "have never gone much beyond service to their own ambitions."

Kitchel defended Goldwater and the conservative association from what he said were criticisms by Rockefeller and Romney at a governors conference in Minneapolis. Kitchel quoted the two Republicans as calling the association a divisive influence in the GOP, and arguing that Goldwater's honorary chairmanship does the party a disservice.

Kitchel accused Romney and Rockefeller of making "false insinuations" about the society.

"Loyal Republicans, who have worked for the party and its candidates without regard to factional rivalries, have taken abuse in silence too long," he said. "In this instance, the abuse comes from men whose efforts in behalf of the party have never gone much beyond service to their own ambitions."

These Little Pigs Took a Detour to Market

DOWNINGTON, Pa. (AP) — Traffic on the Pennsylvania Turnpike was delayed during a four-hour period this week when 150 pigs were turned loose.

A trailer carrying the pigs overturned. A state trooper, fearing the pigs would trample each other, threw open the trailer doors and the pigs dashed out.

Police Quell Fighting at Struck Plant

LOS ANGELES (AP) — More than 100 policemen were needed to quell a riot early this morning when 800 strikers and workers clashed at the Harvey aluminum plant in suburban Torrance.

At least two persons — including a policeman — were slightly injured. Five persons were arrested shortly after the midnight battle.

★ ★ ★

Officers gave this account:

An estimated 500 striking employes were present outside the plant when the shift changed at midnight. Company guards attempting to escort the workers to a parking lot were met by rocks, bricks, golf balls, bottles and cans, police said.

★ ★ ★

Scores of fights — with combatants using clubs and other weapons — then broke out between strikers and workers, Torrance Police Lt. Swane Johnson said.

Five police cars and an estimated 40 workers' autos were damaged, a company spokesman said.

★ ★ ★

Violence has flared several times at the Harvey plant since April 4 when 2,000 APT-CIO United Steelworkers walked off the job.

The firm is the nation's fourth largest producer of aluminum.

The strike was called after the union accused the firm of refusing to recognize the validity of a union representation election conducted by the National Labor Relations Board.

The World Health Organization was founded in 1948 by 26 countries under United Nations auspices. There are now 125 member nations in the agency.

Ride Wasn't 'Free'

Trunk Cages Jailbirds

SOUTH PARIS, Maine (AP — Two men who escaped from the Oxford County Jail Tuesday were returned early today in the trunk of a car they apparently thought was taking them away. Peter H. Remick, 24, of Cohasset, Mass., and Robert L. Haskell, 19, of Lewiston offered no resistance as four deputies dragged them from the trunk, Sheriff Lester Horton said.

Horton said the trap was set after a woman in adjacent Norway told him the men had been to her home and asked her and her husband to drive them to Boston.

The sheriff said the couple agreed, fearing they might otherwise be harmed. Horton said he asked the woman to drive the escapees to the jail.

★ ★ ★

The couple, who asked to remain anonymous, locked Remick and Haskell in the trunk after they emerged from their hiding place in the woods.

Paratroop Unit in S. Viet

101st Airborne Sends Brigade of 3,700 Men

Huge B52 Bombers Hit Suspected Cong Position Near Saigon

SAIGON, South Viet Nam (AP)—Paratroopers of the 101st Airborne Division, successors to the World War II heroes of Normandy and Bastogne, came to the war in South Viet Nam today.

As 3,700 men of the 101st's First Brigade began landing at Cam Ranh Bay, 180 miles northeast of Saigon, a U.S. spokesman said giant B52 jet bombers of the U.S. Strategic Air Command dumped 500 tons of bombs on suspected Viet Cong positions 35 miles southeast of Saigon.

After the B52 raid — the sixth in South Viet Nam by the Okinawa-based bombers — several thousand paratroopers of the 173rd Airborne Brigade began combing the hilly area.

By late today one Viet Cong had been killed, another captured, and there were no U.S. casualties, the spokesman reported.

★ ★ ★

The paratroopers who landed at Cam Ranh Bay were greeted by the man who commanded their division when it dropped into Normandy to spearhead the invasion of France, Ambassador Maxwell D. Taylor.

OFFICIAL ACT

It was one of Taylor's last official acts in Viet Nam. He leaves tomorrow to be replaced by Henry Cabot Lodge. Among the arrivals was Taylor's son, Thomas, an intelligence officer with the brigade.

The landing came less than 24 hours after President Johnson announced U.S. forces in Viet Nam would be increased from 75,000 to 125,000 men. But a U.S. spokesman said transfer of the brigade was part of a six-battalion increase in U.S. forces that had been programmed some weeks ago.

He said it was not part of the buildup the President announced yesterday.

★ ★ ★

The paratroopers came from Oakland, Calif., aboard the

State 'Man in Street' Generally Backs LBJ

By The Associated Press

The people of Michigan support President Johnson's new orders in the Viet Nam crisis, a random survey indicates.

"Man on the Street" interviews ran for the most part in the President's favor today in an Associated Press survey.

There was some opposition. Other persons said they lacked a clear understanding. But generally Johnson's actions were approved.

A Saginaw working mother and an Ann Arbor teen-ager spoke differing views.

★ ★ ★

Mrs. Nicholas G. Barris, a waitress, said:

MOTHER OF 3

"I've got three sons — 25, 21 and 19—and I wouldn't want to see them go over there. But if they have to, what can you do? I guess somebody's got to serve."

Mike O'Neill, 17, who lost a friend, Army Cpl. David McKenzie, in Viet Nam, suggested that "old-timers" should be drafted rather than "inexperienced men." McKenzie was killed in action July 12.

"It is not really right to send greenhorns over when the old-timers have been practicing for years," he said.

★ ★ ★

Of 20 Flint persons, 10 men and 10 women, all but one of the men supported the President. So did five women. The other five women took varied positions.

NO PACIFIST

A clergyman said he supported Johnson, adding "I'm no pacifist."

The male dissenter, recently returned from military service, said the Viet Nam conflict "isn't worth one American life." He said the goal in Viet Nam was "too obscure."

A 16-year-old girl whose boyfriend faces call-up said: "We don't belong there in the first place."

★ ★ ★

Here are more views from around the state:

From Saginaw:

Edward H. Jackson, 27, a shoe salesman: "We don't seem to be getting anywhere over there. In fact, it seems to be getting worse all the time. I don't know if the new men Johnson is sending will do any good."

David A. Wilson, 30, police-

Sales, Profits Up at Chrysler

Six-Month Records Are Achieved by Firm

NEW YORK (AP)—Chrysler Corp. achieved record sales and profits in the first six months and the second quarter of this year, the No. 3 auto maker reported today.

Earnings totaled $118.4 million, or $2.91 a share, in the first half, compared with $114.4 million, or $2.95 a share, in the 1964 first half. More shares were outstanding in the 1965 period than a year earlier.

First half sales rose to $2.6 billion from $2.1 billion, a gain of 28 per cent.

In the second quarter, earnings totaled $61.8 million, or $1.47 a share, against $60.6 million, or $1.56 a share, a year earlier.

Sales increased to $1.4 billion from $1.1 billion.

Chrysler improved its position in the domestic market, accounting in the first half for 15.3 per cent of sales, up from 13.8 per cent in the 1964 first half. In the second quarter its percentage of sales was 15.7 per cent, up from 15 per cent a year earlier.

Directors authorized the regular quarterly divend of 25 cents a common share, payable Sept. 1, to stockholders of record Aug. 9.

Union Shop Bill Faces Battle in Senate

WASHINGTON (AP) — AFL-CIO President George Meany says organized labor is working hard to win Senate approval of the House-passed bill which would strike down state laws banning the union shop.

The fight to repeal section 14B of the Taft-Hartley Act, a major campaign pledge of President Johnson to organized labor, is expected to be longer and tougher in the Senate than the three-day House battle climaxed by a 221-203 vote yesterday.

Repeal of 14B would wipe out laws in 19 states that now forbid union shop contracts.

The union shop, under which all employes must join the union, may now legally be provided in labor-management contracts in 31 states. These are the ones that do not specifically outlaw it.

★ ★ ★

"This (the House vote) represents a very important step in bringing justice to American workers," Meany said. "We're going to work hard."

OPPOSITION SPEAKS

On the other side of the battle line, Reid Larson, executive vice president of the National Right to Work Committee, said in a statement:

"The sanctioning of compulsory union membership via the repeal of 14B by the House was an irresponsible act but not an irrevocable one.

"For the benefit of the labor bosses, that select group would deny freedom of choice to the working man. Let me make it clear that the battle has just begun."

★ ★ ★

Democratic leaders beat down all Republican efforts to amend the bill. But under the Senate's less rigid procedures, Republicans are certain to offer a long string of changes.

CHANGES EXPECTED

These include exempting any worker from union membership on religious grounds, requiring secret balloting whenever a union seeks bargaining rights, forbidding racial discrimination by unions and prohibiting the use of union dues for political purposes.

★ ★ ★

Democrats contended in the House debate that these matters are already covered in federal law.

Ousted Greek Premier Can Block New Regime

ATHENS, Greece (AP) — Enough Center Union party deputies today committed themselves to voting against Greece's crisis government to kill its chance of winning a parliamentary confidence vote.

Ousted Premier George Papandreou lined up 143 deputies against Premier George Athanasiadis Novas, whose 14-day-old government goes before Parliament Friday to request endorsement.

SHARON S. SNYDER

Talent Contest for Title Won by Miss OU

Miss Oakland University, Sharon S. Snyder, 20, of 6765 Woodbank, Bloomfield Township, won the talent contest last night in the second round of preliminary competition for the Miss Michigan title.

★ ★ ★

The classical ballet dancer, daughter of Mr. and Mrs. Louis Snyder, won with a performance taken from "Flower Drum Song."

She is a junior at OU.

In addition to talent contests, the girls vie in swimsuit and evening gown competitions.

A winner in each category is selected on each of three consecutive nights, which began Tuesday.

★ ★ ★

Final competitions are slated for tomorrow with the naming of 10 finalists, selected on the basis of over-all accumulated points.

June Living Costs Hike Biggest in 23 Months

WASHINGTON (UPI)—The cost of living shot up by one half of 1 per cent in June — the biggest increase in 23 months, the Labor Department announced today.

The department attributed the sharp increase to higher prices of meat and fresh vegetables. As a result, consumer prices in June stood at 110.1 per cent of the department's 1957-59 base period.

Hospital Care Heart of Plan

(EDITOR'S NOTE: This is the fifth in a 14-part series on the new health care and Social Security bill by John Troan, special writer for Newspaper Enterprise Association.)

By JOHN TROAN

Medicare is somewhat of a misnomer. The new Social Security health-care plan for the aged could be more aptly tagged "Hospicare." For hospital care is the heart of this benefit program.

Basically, Medicare will provide up to 90 days of hospital care for each "spell of illness" to a person 65 or older.

A "spell of illness" begins the day a patient is admitted to a hospital or nursing home. It ends once a patient has been outside a hospital and outside a nursing home for 60 straight days.

Medicare won't cover the full hospital bill. The patient will have to pay the first $40. And if he stays longer than 60 days during any "spell of illness," he'll have to pay $10 for each additional day he remains in the hospital.

The patient also will have to pay for the first three pints of blood he might receive — unless he gets donors to replace the blood.

BLOOD TRANSFUSIONS

After the first three pints, transfusions will be paid for by Medicare.

Coverage will apply to patients in psychiatric and tuberculosis as well as in general hospitals.

But if a patient is already in a mental or TB hospital when he becomes eligible for Medicare, the time he has spent there will be counted against the 90-day limit for a "spell of illness."

★ ★ ★

Further, no person will be able to draw, during his lifetime, more than a total of 190 days of care in a psychiatric hospital.

SPECIAL PROVISION

A special provision applies to Christian Science sanatoriums operated or certified by the First Church of Christ, Scientist in Boston.

Medicare will cover up to 120 days of care for a single stay in such an institution, with the patient paying the first $40, plus $10 for each day after the first 60 and $5 for each day after the first 90.

Medicare also will cover persons who go to a hospital on a nonovernight basis for X rays and other diagnostic tests.

★ ★ ★

Such "outpatients" will have to pay the first $20 for services rendered in any 20-day period, plus one-fifth of the balance.

The initial "deductibles" will be in effect through 1968. After that, they may be raised each year if necessary to keep pace with increasing hospital costs.

Hospital benefits, which start July 1, 1966, include:

- A semiprivate room (two to four beds), though a doctor may order a private room for "medical reasons."
- Regular hospital nurses (but not private-duty nurses).

(Continued on Page 2, Col. 3)

Pontiac Press Photo

LEAVING JAIL — A. Ross Pearson, 16, of 1127 Alhi, Waterford Township, is led from the county jail to his preliminary court examination yesterday on a first-degree murder charge. He will be arraigned in Circuit Court Wednesday. Pearson is accused of the fatal stabbing of Jeffrey Talbot, 17, of 2045 Watkins Lake, Waterford Township. Accompanying Pearson is Waterford Township police sergeant David Putnam.

Suspect Said He Planned to Kill Area Boy---Trooper

A Michigan State Police trooper testified yesterday that A. Ross Pearson once told him that he had planned the killing of a Waterford Township teenager last month.

"There's no use kidding you. I went over to kill him," Trooper Robert Mueller quoted the 16-year-old Pearson as saying after he had turned himself in to police.

Pearson later denied making the statement, according to Mueller.

The youth is charged with first degree murder in the fatal stabbing of Jeffrey Talbot, 17, son of Dr. and Mrs. Frank Talbot, 2045 Watkins Lake, on June 27.

Police say the fight climaxed a feud over a 15-year-old girl.

★ ★ ★

Pearson's alleged statement was made public for the first time yesterday at his preliminary court examination before Waterford Township Justice Patrick K. Daly.

BOUND OVER

Daly ordered the youth bound over for arraignment in Oakland County Circuit Court at 9 a.m. Wednesday before Judge James S. Thorburn.

Pearson is the son of Mr. and Mrs. Alan R. Pearson, 1127 Alhi, Waterford Township.

Defense attorney Clarence Smith argued that if the case had to be bound over, it should be on a reduced charge of manslaughter on grounds that Pearson was defending himself.

★ ★ ★

"It's time that it is known that the deceased and his father set the stage by pulling this boy (Pearson) out of the automobile," said Smith.

Waterford Township police said that more than 20 persons visiting the Talbot home witnessed the stabbing. Talbot died on the operating table several hours later.

Annexation Election Is Supported

The possibility that Farmington voters will go to the polls to decide whether a 560-acre parcel of the township will be annexed by the city became stronger yesterday.

In a meeting to consider a petition for the annexation, the boundaries committee of the Oakland County Board of Supervisors recommended that an election be held.

The recommendation will be considered at the Aug. 10 meeting of the board of supervisors.

If the full board authorizes the election, a date would then also be set.

★ ★ ★

In such an election, voting would be limited to residents of the city and the area to be annexed, according to Farmington City Manager John D. Dinan.

Sought for annexation in the petition signed by over 500 residents of both the city and township is a triangular parcel bounded by Grand River, Gill, Freedom and Halstead.

The area is zoned residential and includes the Woodcroft subdivision which runs off Gill.

In recommending the election, the boundaries committee, headed by Chairman Thomas C. Tiley of Commerce Township, decided not to suggest a date.

★ ★ ★

The committee indicated, however, that the proposal may appear on the November ballot if a statewide election is called on an amendment to the state constitution to allow appointment of judges to fill vacancies.

OPPOSED PETITION

Farmington Township Supervisor Curtis H. Hall said that the township naturally opposed the petition that was signed by some 500 city residents and from 30 to 35 who live in the township.

He pointed out though that the area, which has about 130 residents, did not represent a great amount of tax revenue.

Hall told the committee mem-

(Continued on Page 2, Col. 4)

Cloudy, Cool Till Tomorrow

Cooler weather and cloudy skies have invaded the Pontiac area and will be with us until tomorrow.

★ ★ ★

High for today is predicted to be 70 to 78. Tonight's low will be 46 to 54.

Today's low mercury reading prior to 1 a.m. in downtown Pontiac was recorded as 53. The temperature had reached 84 by 1 p.m.

Mars Moonlike in New Pictures

WASHINGTON (UPI)—Space scientists today showed President Johnson and the nation fantastically clear photographs of Mars that revealed the presence of moonlike craters possibly two- to five-billion years old.

* * *

Johnson described the Mars picture as "awe-inspiring."

He said "the flight of Mariner 4 will long stand as one of the great advances of man's quest to extend the horizons of human knowledge."

Before presenting special space agency medals to three top officials responsible for the success of the flight, he said future history books may skip over the names of the projects but the names of the men who were responsible for them will be remembered for generations.

* * *

Dr. Robert Leighton, the scientist who described the pictures to the President, said the photographs disclosed these features of Mars:

- At least part of the surface is covered with larger craters, as is the moon. This, he said, further enhances the unique quality of the earth in the solar system.
- One of the pictures showed 70 craters, from three to 75 miles across.
- Some of the craters seem rimmed with frost.
- There is no trace of the fabled Mars canals, although there still is a possibility there may be something resembling them.

MORE MOONLIKE

Leighton said the "inferences" to be drawn from these facts is that Mars is more moonlike than earthlike. But unlike the moon and like the earth, it does have some atmosphere.

He added that the craters appear to be very ancient — from two- to five-billion years old.

This, he said, implies that there has never been much of an atmosphere on Mars, or a presence of water, since the craters otherwise would have eroded.

Leighton also said there was nothing in the pictures to "demonstrate or preclude" the possibility that basic life exists on Mars.

This was the conclusion of scientists after Mariner sent back the first pictures last month.

AP Photofax

FESTIVAL KICKOFF — Mr. and Mrs. Arthur Herendeen of Farmington, N.Y., made like pioneers this morning in Detroit and set off in a carriage for Farmington, Mich. Once there, the Herendeens kicked off a three-day Founders Festival in honor of the Quakers who settled the community. Herendeen is a direct descendant of the founders of the New York town for which Farmington is named.

1st Testimony Due Today in Steren Trial

Opening testimony in the Madison Heights Steren Assembly Club gambling trial was scheduled to begin today in Manistee.

A jury was chosen yesterday, following the rejection of a defense attempt to get the case sent back to Oakland County.

The jury is composed of eight women and six men.

Attorney Carlton Roeser, who won a change of venue to get the trial out of Oakland County, vainly requested its return.

* * *

His grounds — "publicity" on the case — were similar to those of the first instance.

REJECTED REQUEST

Presiding Judge Frederick C. Ziem of Oakland County, hearing the case here in Manistee County Circuit Court, rejected Roeser's request.

* * *

Twenty men are on trial on gambling and gambling conspiracy charges in connection with operation of the club.

State Man in Street Mostly Behind LBJ

(Continued From Page One)

man: "I think Johnson is doing the right thing. I've been behind him all the way so far."

Larry Coulouris, 40, tavern owner: "If enlarging the armed forces means prolonging the peace of the world, I'm for it. But if we've got to fight a war, let's fight it and stop this needling."

Benton Harbor:

Tom Jewell, 25, Belleville, ex-Marine, employe of a security agency: "I think it's a good idea. For the teen-agers getting into trouble, the service would straighten them out a little."

Robert King, commander of American Legion Post No. 105: "When the nation faces a challenge, we must respond. The commander in chief has decided the situation is serious enough to warrant increasing the draft. The nation must answer this crisis as it has in the past."

Ann Arbor:

Jack Fickle, 21, Livonia father of two: "If they need me, they can have me. We cannot afford to get annihilated. What he (Johnson) says is good enough for me. If this doesn't push the Communists against the wall, nothing will, and if we don't stop them now, we never will."

'Draft Call No Problem in State'

LANSING (AP) — Michigan's Selective Service sees no difficulty arising from President Johnson's doubling of the draft quotas.

* * *

Officials said yesterday no new induction centers will be necessary nor will any major change in policy be required.

At the same time, Lt. Col. Robert Lundquist, Selective Service operations officer, said any specific effects could not be forecast until detailed orders came from Washington.

Michigan recently has been drafting an average of 1,000 men a month.

* * *

These have included some 20-year-olds. Lundquist said the pool of 20-year-olds is large and there is a question whether an expanded draft will extend into the pool of 19-year-olds.

INDUCTION RATE

The rate of induction was reported about on a level with the rate of new names being added to the pool.

The general pool includes about 76,000 men between the ages of 18 and 35. These men are classified as 1-A, subject to call.

Lundquist said draft boards have encouraged eligible men to enlist in the reserves or in the service branch of their choice before being drafted.

* * *

Present policies call for the induction of only single men between 20 and 26, Lundquist said. He said presently there are 19,000 men in this group.

MONTHLY ORDER

For the month of July, Michigan had orders to draft 673 men. The August order has been for 718 men and the September order for 588.

Lundquist said the pool of 19-year-olds totals about 7,000.

He said the Michigan quota has averaged between 4 and 4.5 per cent of the national call and that he expected this proportion to hold.

* * *

Lundquist said that if necessary, married men without children in the 19 to 26 age group would be drafted. He said there are about 25,000 men in this group.

Panel Tells of New Method for Saving Heart Patients

One heart attack victim in 10 can escape death through establishment of special heart monitoring units in hospitals, it was reported yesterday at an area medical seminar.

* * *

Sponsored by the Michigan Heart Association (MHA), the seminar at New Providence Hospital in Southfield was attended by nearly 200 physicians and nurses.

Main speaker at the confab was Dr. Thomas Killip, chief of cardiology at The New York Hospital, New York City.

Dr. Killip headed a panel of five doctors that discussed a new technique for salvaging cardiac patients that sustain sudden heart arrest or stoppage.

* * *

Similar to present intensive care wards in some hospitals, the heart care units would be equipped with a monitoring system that would provide a constant watch on the hearts of heart attack patients.

WARNING DEVICE

Through this monitoring system, a warning device would sound when a patient suffered irregular heart beats for eight seconds.

Dr. Killip said that irregular heart activity, some that could not be distinguished by ear alone, usually preceded cases of sudden heart arrest.

All patients in the cardiac unit would be hooked to an oscilloscope, a modified television device that pictures the heart's activity on a screen.

* * *

A nurse, who would have to be specially trained, would monitor the heart activity of all the patients in the special unit.

VARIOUS ESTIMATES

An MHA spokesman said that various estimates have been made on the effectiveness of such a ward. One estimate has been that up to 25 per cent of those patients who suffered such heart stoppages could be saved.

Under the watchful eye of the oscilloscope, highly-trained nurses and a medical team could respond almost immediately to a heart arrest. The nurse would wait 30 seconds for the doctor to arrive before instituting treatment.

Four minutes is the critical time period to react to sudden heart stoppage, according to participants at the seminar.

* * *

After four minutes, there is the danger of brain damage even if the heart can be started again.

NOT BADLY DAMAGED

Dr. Killip said that autopsies on patients who died from sudden heart arrests after relatively mild heart attacks showed that the heart was not badly damaged.

* * *

A heart patient would spend about five days after his original attack in the special cardiac unit.

Pontiac General Hospital officials are interested in the monitoring units. Medical staff members are reportedly investigating the possibilities of this new technique.

* * *

Among those attending yesterday's seminar were Dr. Michael C. Kozonis and Dr. Donald C. Overy both have offices at 880 Woodward.

Back Election on Annexation

(Continued From Page One)

bers yesterday that he felt they acted in the best interests of both the city and township in calling for a decision at the polls.

* * *

The issue would have to pass by a majority in both the city and township, Dinan said.

ACTS ON PETITION

In other business yesterday, the boundaries committee recommended that a petition filed in November 1963, calling for the incorporation of Royal Oak Township as a home rule city, be invalidated.

* * *

This recommendation was based on the request of the proponents of incorporation who decided to abandon the effort.

The board of supervisors also will act on this committee recommendation Aug. 10.

Paratroops Land to Join Viet Battle

(Continued From Page One)

troop transport Gen. LeRoy L. Eltinge. The brigade commander, Col. James Timothy of New Orleans, La., said his men would deploy initially around Cam Ranh Bay to provide security for 2,500 U.S. Army engineers who are building a port at one of South Viet Nam's finest natural harbors, and an airstrip.

REINFORCEMENTS

The paratroopers will reinforce 1,080 men of the U.S. Army's 1st Division who arrived on July 12.

The B52 strike southeast of Saigon was made by about 30 of the big jets, a U.S. spokesman reported. There was no immediate report on the results of the raid. Normally the B52s are based in Guam, but they had been shifted to Okinawa because of a typhoon in the Guam area.

The big air and ground operation was aimed at clearing out a portion of Phuoc Tuy Province, in which the Viet Cong recently cut the strategic highway between Saigon and the military base at Vung Tau, on the coast. But it appeared the U.S. force had failed to find any important enemy units.

During air attacks in the vicinity Tuesday, U.S. Air Force skyraiders bombed a village 1,700 yards from a convoy of U.S. troops and destroyed a Buddhist monastery. Four monks were badly wounded and about 20 others were slightly hurt.

LOST CONTACT

A U.S. spokesman said there was no further contact with the Viet Cong in another big operation in the Mekong River delta in which 192 guerrillas were claimed killed.

Two Funnel Clouds Reported Near Lapeer

Two funnel clouds were reported near Lapeer yesterday afternoon by Lapeer County sheriff's officers.

One was sighted five miles north of Lapeer and one near the jail in town. No damage was reported.

NATIONAL WEATHER — Showers are expected tonight over the southern Atlantic states and the southern plains eastward into the Gulf Coast states. Showers will cover parts of the plateau. It will be milder west of the Mississippi with cooler temperatures moving over the northeast corner of the nation.

Hospital Care Is Heart of Benefit Program

(Continued From Page One)

- Services of the hospital's medical social workers.
- Use of regular hospital equipment, supplies and appliances, such as oxygen tents, wheelchairs and crutches.
- Prescribed drugs which are ok'd by the hospital's medical staff or approved by any one of four "medical Bibles" specified in the law.
- Services of hospital residents and interns — doctors getting on-the-job experience under approved training programs.

Services of other physicians will not be covered by the basic Medicare plan.

For Social Security to pay anything, however, a physician must certify it was medically necessary to put the patient in a hospital.

If the patient stays longer than 19 days, the doctor will have to recertify need for continued hospital care at intervals specified by the government.

Care in a psychiatric or tuberculosis hospital will be covered only if a doctor certifies the patient needs special treatment which can be "reasonably expected to improve" his condition — or, in the case of TB, render the disease "noncommunicable."

This rules out Medicare coverage for ordinary custodial care in TB and mental institutions.

EMERGENCY

In an emergency, a patient could be treated in any hospital.

He could even be taken to a hospital outside the United States provided the emergency occurs in this country and the foreign hospital is closer or substantially more accessible" than any "adequately equipped" hospital in the United States. (But if the emergency arises outside the United States, Medicare won't pay.)

* * *

In nonemergency cases, Social Security will pay only if the patient goes to a hospital which signs a Medicare agreement with the federal government.

To do this, a hospital must subscribe to a physician-controlled "utilization review" committee which will check on admissions to prevent needless use of hospital facilities and services.

* * *

Psychiatric and TB hospitals also must be approved by the Joint Commission on Accreditation of Hospitals, a professional rating agency.

Other hospitals must be so accredited or prove they meet standards similar to those required for such "accreditation."

NEXT: Nursing Home benefits.

Birmingham Area News

Community House Close Set

BIRMINGHAM — In anticipation of an active fall and winter season, the Community House will undergo a beautification program.

It will be closed for cleaning, decorating, and repair work Aug. 2 - 29.

Among fall activities planned are two new classes: rug making and beginning sculpture. Registration for these and other educational and craft classes begins Sept. 7.

A gourmet cooking demonstration is slated for Sept. 13, with "do-ahead" ideas given in preparation for holiday entertaining. It will be under the direction of Mrs. Rita Leinwand.

The travel film series will begin its 1965-66 season in November with a color film, "Three Worlds of Peru," narrated by Eric Pavel. Season tickets are now available. There will be 10 all-color films presented.

Information on activities, services and facilities can be obtained by calling the Community House before or after the period of renovation work.

FACE-LIFTING PROGRAM

The face-lifting program will include cleaning of walls, woodwork and ceilings, waxing all floors, repairing the steps, building a new porch at the Bates entrance, refinishing the lobby doors and other minor repairs.

Some of the meeting rooms will be painted and many couches and chairs recovered.

The Velma Isley room will receive new carpeting, and the auditorium stage will get new aqua-colored velour curtains.

BLOOMFIELD HILLS — A four-week beginning course in astronomy for children will be offered at Cranbrook Institute of Science Aug. 3 to Aug. 26.

The course is open to youngsters who have completed the fourth grade.

The planetarium will be used for the classes, scheduled from 9:30 a.m. to 11 a.m. Tuesdays and Thursdays.

In addition, two night classes are planned for constellation identification and telescope use.

* * *

Martha Schaefer will instruct the class in identification of heavenly bodies, including constellations, stars, planets, moons, meteors, comets and nebulae.

Registration can be made in person at the institute or by phone. There is a tuition fee.

Pentagon Likely to Seek Increase of 300,000 GIs

WASHINGTON (AP) — The Defense Department probably will ask Congress to boost the regular military forces by 300,000 men or more in a gradual buildup through heavier draft calls and recruitment of volunteers.

Sources disclosed this today as it became clear President Johnson had chosen a relatively slow course of girding for the long haul in Viet Nam, rather than a quick buildup using reservists and National Guardsmen.

* * *

A boost of 300,000 regulars would swell U.S. military strength to about three million men. Much of the increase would be applied to the Army, sources said.

Among other things, the Army will get one more division, probably mechanized infantry, to raise its division total to 17. More independent infantry brigades also are planned. An Army division totals about 15,000 men, a brigade about 4,000.

FALLS SHORT

Johnson's move increasing the U.S. military commitment in Viet Nam by 50,000 men, to a total of 125,000, falls short of expectations. But it is considered likely further U.S. reinforcements, possibly as many as 50,000 more, may flow to the war zone by the end of the year.

The new strengthening of forces in Viet Nam is well below what would be needed to bring about a 10-1 or even an 8-1 margin of superiority over the Communist guerrillas infesting the country. Some experts say such a ratio is essential.

* * *

To reach a margin of 10 to 1 or 8 to 1, another 650,000 to 900,000 Americans would have to be poured into Viet Nam to reinforce the 550,000 South Vietnamese troops and the Americans already there or due to arrive under current plans.

The buildup in South Viet Nam is beginning to drain the strategic reserve of regular Army divisions based in the United States for use around the world.

Johnson faced two alternatives for rebuilding this strategic reserve — either by a combination of the heavier draft and stimulated enlistments or by call-ups of thousands of reservists and National Guardsmen.

U.S. officials said Johnson decided against calling reservists and guardsmen to the colors because he and his advisers concluded such action was not necessary at this time.

Plans for calling reservists are on the shelf, but the possibility they may be ordered up later remains.

When intensive planning for a possible muster began several weeks ago, the armed services put in tentative "shopping lists" totaling more than 220,000 guardsmen and reservists.

ENLISTMENTS

Pentagon authorities hope that enlistments in all the services will increase under the spur of sharply increased draft calls.

The draft will rocket to 35,000 inductions a month starting probably with the October call. This is the biggest monthly quota since late in the Korean War. Draft officials said they would have no trouble delivering the extra men, but it may be more difficult to get deferments.

* * *

For months, 17,000 men have been drafted monthly. This was a big jump over the 3,000 level of last February, but it wasn't due to Viet Nam — it was because enlistments fell off as rumors spread that the draft would be ended.

For the first time in nine years, the Navy will take men through the draft — 4,500 in October. Neither the Air Force nor the Marines now intend to draw on selective service.

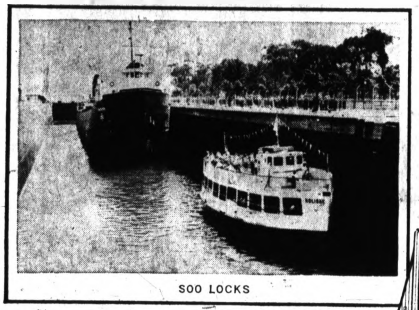

Pentagon authorities have decided against asking Congress for legislation permitting them to freeze Army and Air Force enlisted men and officers now on active duty. The Navy already has this statutory authority and may resort to it.

Increased regular forces would be finaneed through deficiency funding authority, and the money would not come out of an anticipated budget increase of between $1 billion and $2 billion.

This defense budget increase, which probably will be followed by another supplemental request early next year, will go for buying ammunition and equipment and for construction connected with the buildup in Viet Nam and this country.

One of the big buys involves helicopters. Defense officials, pleased with the performance of choppers in Viet Nam, intend to put into effect a "huge increase" in Army helicopter companies. The present number of such companies is classified.

Springmaid

Wake up to Springmaid's romantic new combed percale: Sunset Rose

Springmaid whispers, "isn't it romantic?" with our intensely romantic new sheet, Sunset Rose: roses in bloom overflow the deep turnback of the Top Sheet; rose buds spring up all over the Spring On Fitted Bottom Sheet. And everything's coming up roses on the Pillow Case. Pink, yellow, or peacock.

ECHOTONE STRIPES High-fashion stripes in soft and bold shades of the same color set the stage for the deep 5-inch solid color hem. Matching pillow cases. Hibiscus, Persimmon, Avocado, Delft Blue, Desert Sand, Pink, Blue, Yellow, Green, Lilac, Peacock and Black.

SUNSET ROSE Pick a bouquet of roses and other delightful wild flowers from the deep turn-back border of the top sheet. All-over print bottom sheet. Panel print or printed hem pillow cases. Pink, yellow or peacock.

TAPESTRY The luxurious look of tapestry embroidered along the borders of both sheet and pillowcase. For queen, king and regular size beds. In pink, blue, yellow, or green.

U.S. Girds for Viet Test

Reflecting week-long Cabinet consultations on the involvement of the United States in Viet Nam, President Johnson yesterday briefed the Nation on the military design for that embattled region.

JOHNSON

While reiterating the Administration's sole objective of a peaceful solution to the aggression being inflicted upon the South Vietnamese by the Communist-backed Viet Cong, the President announced that U. S. military forces in that theater will be increased, from 75,000 to 125,000 men — with more to be committed if necessary.

★ ★ ★

In support of our broadened military posture there, the monthly draft will be doubled from the present 17,000. Present plans do not envision activating the Army Reserve.

And on the diplomatic front, Ambassador ARTHUR GOLDBERG has been directed to present to the secretary general of the United Nations LBJ's earnest request that the total resources and prestige of the 114-nation organization be exerted toward cessation of hostilities in Viet Nam and a negotiated resolution of the impasse.

★ ★ ★

Motivated by conviction that withdrawal from Southeast Asia would be tantamount to an updated Munich presaging perilous consequences, there can be no doubt that the Administration is fully determined to carry American intervention in Viet Nam to a victorious or honorable conclusion.

By and large, the course mapped by the Chief Executive has bipartisan support of Congressional and political leaders and the generality of American people.

The time is past for active opposition to implementation of the American guarantee of freedom from oppression for South Viet Nam — a guarantee enunciated by three presidents over a period of 11 years. For better or worse, the die has been cast — and all America should stand staunchly and loyally behind its leader in the crucial decision he has made.

As the patriot STEPHEN DECATUR so well declared in 1816: "Our Country! In her intercourse with foreign nations may she always be right; but our Country, right or wrong."

IN our small way, we try to help Uncle Sam, but he pays us no mind. Several years ago we advised him to make it mandatory that all holidays fall on Wednesday, so that he wouldn't lose so many taxpayers in accidents.

In Filling Judgeships Old Way Seen Best Way

We concur with the bipartisan conclusion (at least on the executive level) that the provision in Michigan's new constitution related to filling judicial vacancies is an impractical one.

Governor ROMNEY and Attorney General FRANK KELLY, on opposite sides of the political fence, will join in urging the legislature to submit an amendment to the constitution that would restore the power of the governor to fill those vacancies by appointment. Currently, it is required that they be filled by elections—special, in many cases—with retired judges appointed by the State Supreme Court serving in the interim.

★ ★ ★

The weakness of this constitutional mandate is twofold. One is the cost to taxpayers of recurring special elections to fill judgeships; the other is that retired judges qualified for temporary service are in short supply.

As now proposed, the issue, if approved by two-thirds of both houses of the State Legislature, would come before the electorate in a special election sometime prior to 60 days before the general election scheduled for Nov. 2.

★ ★ ★

The proposed amendment represents one of the bulwarks—flexibility—of our democratic structure of government. When a constitutional provision, however well-intended, proves to be unworkable or outmoded, it is within the power of the people to remedy it.

Such action is clearly indicated in the procedure for filling vacancies on the bench.

Era of Peace on Capitol Hill

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The umbrella of tranquillity always stands above relations between the President and Congress and keeps them from getting overheated.

MARLOW

That must be the impression of anyone who came of age in the past 12 years which have been a rather tranquil time in dealings between the man in the White House and the men in the Capitol.

But it wasn't always that way. It wasn't that way under the presidency of Franklin D. Roosevelt and of Harry S. Truman, who had some monumental battles with Congress.

President Dwight D. Eisenhower is the one who raised the umbrella from the moment he took office in 1953. His policy was simple: Don't say anything to irritate the men on the hill.

This pretty much deprived them of a chance or a reason for firing back at him. President John F. Kennedy continued the policy and President Johnson has made a big production of it, and a successful one.

★ ★ ★

In these first seven months of his first term, Johnson has been enormously free of criticism except for some advice by Republicans on how to win the war in Viet Nam.

PLAYS ALL ANGLES

Johnson plays all the angles to avoid criticism. For example, in the way he announces a decision.

One of the very best ways to cause yourself misery, if you were president, would be to let information leak out on a decision you had made before you announced it.

It would give the critics — ranging from the truly concerned to the disenchanted the discontented, and the garrulous — a chance to open up on you before you made a decision known.

★ ★ ★

Johnson has done just the opposite by making surprise announcements, and the absence of criticism shows it has worked well for him.

ALL SIDES PRAISE

For example: There was praise from all sides when he suddenly revealed he had plucked Justice Arthur J. Goldberg off the Supreme Court to make him U.S. ambassador to the United Nations.

★ ★ ★

The generally high regard for Goldberg can be considered the main factor in this wide public approval. But there was another: once the announcement was made, criticism couldn't have meant much.

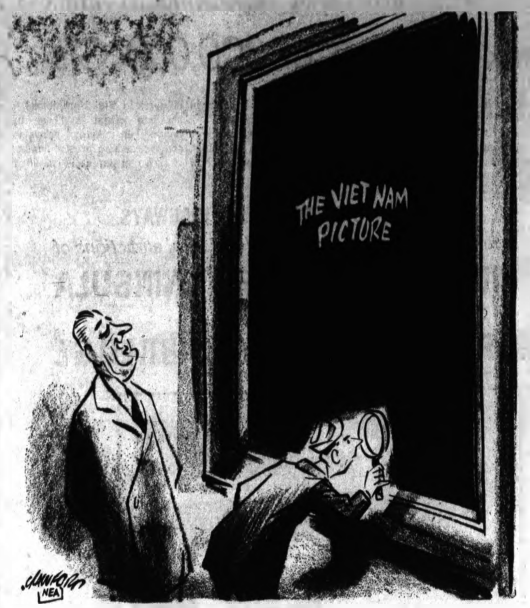

The Johnson cloak of silence until the last minute has another priceless advantage for him: maximum surprise and therefore maximum attention from people who might have said "so what?" If they had heard rumors about it.

'If You Look Real Close You'll Find It's Not All Black!'

Voice of the People:

'Keep Parking Lots Free of Store Shopping Carts'

Recently at Miracle Mile shopping center, I counted 23 shopping carts in the parking lot. Don't the store owners care about keeping track of their carts? It seems they would at least gather them up on weekends.

★ ★ ★

I realize the public is to blame, but it's a dangerous situation and shouldn't be allowed. I hope I never hit one, as some have.

ANNOYED

'Did Farnum Pay for Stamps on Reports?'

When I received Congressman Farnum's first report, I could scarcely believe my eyes—the mere idea of a congressman putting out his own 5 cents for mailing cost was flabbergasting. All similar mail that I have received has always been under the franking privilege.

HARRY GRAYSON
ROYAL OAK

'Fighting in World Today Is Senseless'

Why must people fight and argue? Why can't they be content? They don't know how lucky they are; things could be far worse.

★ ★ ★

If this situation continues, there won't be any turning back. I wonder if we'll be alive by the end of this year?

★ ★ ★

In order to have the world safe, everyone in all corners of the globe must work at peace.

WANT TO BET?

David Lawrence Says:

Court Choice Follows Bad Trend

WASHINGTON — Small wonder that the Supreme Court of the United States has steadily fallen into disrepute in recent years as it has developed into an oligarchy of politically rather than judicially minded individuals.

Now President Johnson has selected Abe Fortas — his personal friend of long standing who has never had a day's experience on the bench — to be one of the nine justices of the Supreme Court of the United States. This is in line with the unfortunate trend of the past several years.

LAWRENCE

Other presidents besides Mr. Johnson, Republican as well as Democratic, have appointed to the Supreme Court political associates or partisan supporters with a controversial background.

Just what criteria do presidents use in making appointments to the Supreme Court?

★ ★ ★

They sometimes look for outstanding lawyers rather than experienced judges, but often there are political factors involved. Occasionally a member of the Senate with a legal background is appointed, and several men have gone to the Supreme Court from Congress or from the Cabinet. Every now and then a U.S. attorney general or solicitor general in the Department of Justice has won promotion to the Supreme Court.

FINE RECORDS

Some of these appointees have made a fine record, and it is possible that Fortas may turn out to be a well-balanced and fair-minded justice who is able to forget his early espousal of "left-wing" causes that made him a controversial figure in the New Deal.

He is only 55 today and has a long period of time ahead in which to adjust his thinking to judicial doctrines.

Men in the political world, however, are not inclined to abandon their views when they ascend to the bench. As justices, they do not usually in their decisions forsake their passions or preconceived ideologies.

★ ★ ★

Justice Douglas is as much an outspoken liberal today as he was in New Deal days. On the other hand, Justice Black, an Alabaman who was exposed after his appointment as having once been a member of the Ku Klux Klan, has never shown the slightest sympathy for the objectives of that secret cult.

WOULD BE EASIER

But it would be easier for justices to rid themselves of any previous political prejudices or partisanship if they could serve a few years in the supreme court of a state or in an appeals court of the federal judiciary before being selected for appointment to the Supreme Court of the United States.

In 1963, before it was known who would be appointed chief justice, a statement was issued by Glenn R. Winters, editor of the journal of the American Judicature Society, in which he declared that it was possible to overemphasize the need for prior judicial experience, but added: "It seems more than clear that it has actually been badly underemphasized.

"There are great and distinguished judges today on both state and federal courts eminently qualified for the judicial and administrative responsibilities of the chief justiceship."

It may be that the articulation of these and similar views had an effect subsequently on President Eisenhower, for in his later appointments to the high court he nominated such objective-minded and experienced federal judges as John M. Harlan, Charles E. Whittaker, and Potter Stewart, all of whom have made significant contributions to constitutional law.

But the trend has since turned the other way again, and it is surprising that spokesmen for the bar associations, who often stress the need for a "rule of law," are willing to sit by without protest as political rather than juridical training becomes the major qualification for appointment to the highest court of the land.

Capital Letter:

Recent Kennedy 'Quotes' Strike a Ghoulish Note

By RUTH MONTGOMERY

WASHINGTON — The recent spate of "revelations" about what President Kennedy did or didn't say concerning Dean Rusk, ("indecisive") Lyndon B. Johnson, ("a riverboat gambler"), et al, strikes a rather ghoulish note.

Ruth Montgomery

What legitimate historical purpose is served by repeating uncomplimentary remarks allegedly made about current officials by a man who is no longer here to affirm or deny that he said it?

Certainly if JFK were still living, his onetime "loyal" aides and advisers would not dare to print the irritable comments which he may have made to them in the privacy of his presidential office or vacation retreats.

Jack Kennedy has been dead only 20 months, but already his former assistants are rushing into print with books which embarrass the present administration, and cast stones at some Kennedy appointees who are still serving in high government posts.

To tell about JFK's strategy during the 1960 campaign, of his wavering and soul-searching at the time of the Bay of Pigs debacle, or of his decisive wielding of presidential power in the Cuban missiles crisis and the big steel confrontation has an obvious legitimacy.

★ ★ ★

This is history and deserves to be added to the public store of knowledge about the workings of our government.

It is almost morbid, however, to plunge a knife into the hardpressed secretary of state while he is engaged in delicate maneuvers to try to prevent Viet Nam from plunging the world into the holocaust of war.

Does it help America at this critical juncture to have Arthur M. Schlesinger Jr. write a book (currently being serialized in Life magazine) in which he declares that Kennedy planned to replace Secretary Rusk because of "one muddle after another" at the State Department, and Rusk's "reluctance to decide" questions of policy?

Does Secretary Rusk need enemies, if he has friends like this former colleague who is currently pulling the rug out from under him?

Dixie Farm Clubs, Agencies

Where Bias Is on Wane

By DON McKEE

ATLANTA, Ga. (AP) — Behind the more dramatic forms of racial problems, desegregation has occurred quietly and rapidly in federal agricultural agencies and related activities over much of the South.

Dual staffs of agricultural extension services have been consolidated. Negroes have been named to state advisory committees and review posts for the first time.

★ ★ ★

Functions of 4-H Clubs and home demonstration clubs are being placed on an unsegregated basis. Biracial committees judge 4-H Club records.

Some of Alabama's home demonstration clubs decided to disband rather than sign desegregation compliance forms.

Under the Civil Rights Act, federal employes, such as the county farm agent and home demonstration agent, cannot participate in segregated activities.

NO AFFECT

"This does not affect our work with individuals," said Dr. Fred Robertson, director of the Department of Agriculture Extension Service at Auburn University.

In 4-H Clubs, Robertson said, "we have to work with schools that either are desegregated or working under plans approved by the Department of Health, Education and Welfare."

These agencies have until Dec. 31 to come into full compliance with the law.

★ ★ ★

An Associated Press survey indicated, however, that most of the extension agencies in the South have moved into desegregation without trouble.

FEDERAL FUNDS

In Mississippi, an official who asked anonymity, said "we will follow the directives of the Department of Agriculture to the letter, wherever federal funds are involved."

State fairs and 4-H activities in North Carolina have been desegregated for three years.

Tennessee will desegregate all cattle shows and similar activities connected with federal services this year. "No difficulty is expected," a spokesman said.

★ ★ ★

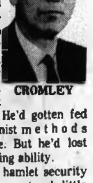

Texas, Georgia, Florida and South Carolina also reported quiet compliance for the most part.

In Washington:

Why Not Use S. Viet Guerrillas?

By RAY CROMLEY

WASHINGTON (NEA) — Viet Nam is like any place else. If you want to catch a fox, then set a fox to get him.

CROMLEY

Down in the southern part of Viet Nam, near the city of Ca Mau, two of us ran across a tough, wily village chief who had run away as a youth and fought for years as a Viet Minh and Viet Cong guerrilla. He'd gotten fed up with Communist methods and come home. But he'd lost none of his fighting ability.

He'd built his hamlet security forces centered on a tough little group of young men in their twenties. They didn't sit back behind barbed wire and barricades and wait for an attack.

Each day some of his villagers would go out and nose around among their relatives and friends in the neighboring hamlets and towns. They listened to the gossip. They kept their eyes open for strangers and for the relatives of villagers they knew had joined the Reds, and if they found them, engaged them in idle conversation.

They picked up rumors, noticed little things like which young men sympathetic to the Viet Cong were away. By adding the bits and pieces together, this hamlet chief kept track of where the Viet Cong were operating and what they were planning next.

He almost always knew when the Viet Cong were planning to raid his hamlet and how they would attack. Quietly his men would set up ambushes.

"You know," he told us, "the Viet Cong are suckers for ambushes. You'd think with all their ambushing they'd know better. But they fall right into traps like green recruits."

(Note — He booby trapped the possible invasion paths he didn't have the manpower to cover with his ambushes.)

★ ★ ★

The moral of this tale is simple. There are in South Viet Nam tens of thousands of able men who fought as Viet Minh in the successful guerrilla wars against the French. Many of these men, still young, were officers in Ho's armies.

★ ★ ★

Moving around South Viet Nam, a reporter meets men who served as captains, majors and even colonels in Ho's Viet Minh. One day, while having lunch with several Vietnamese newspapermen, one disclosed he'd been chief of staff of one of Ho's armies in northern Laos years ago.

These men are loyal Vietnamese. They're not Communists. They were fighting as nationalists against the French and quit after South Viet Nam was set up or when they discovered the Reds wanted to control the country.

These men know Ho's strategy and tactics. They're old hands at guerrilla fighting. Few are being used in this war in positions of responsibility. Yet who could better outwit the Viet Cong?

There are some men now working in the Pentagon on ways to shake out the rigidity in the Vietnamese army system that effectively bars the use of these men. But don't count on a quick solution.

Mart Trade Moderately Active

Steels, Motors Pace Advance

NEW YORK (AP) — Steels and motors paced a stock market advance in moderately active trading early today.

Gains of fractions to about a point prevailed among most key stocks. Many, however, showed little or no change.

Wall Street's second-day reaction to President Johnson's proposals regarding Viet Nam was steady investment demand for a number of cyclical groups — including the re-awakened rails, some of the nonferrous metals and drugs.

Aerospace defense issues, which excited some investors prior to the President's statement, simmered down, changing little. Electronics, however, moved up sedately.

INCREASED EARNINGS

Increased earnings accompanied gains of less than a point by U. S. Steel and Bethlehem while others in the group added fractions.

Chrysler rose about a point as earnings were anticipated. Ford and General Motors gained fractions.

Anaconda rose about a point and a half while one-point gains were posted for such issues as Xerox, IBM, Polaroid and Zenith.

SECONDARY ISSUE

Goodyear was easy as a secondary issue of 140,900 shares was being readied for the market. Aluminium Ltd. was unchanged at 25½ on a block of 30,000 shares.

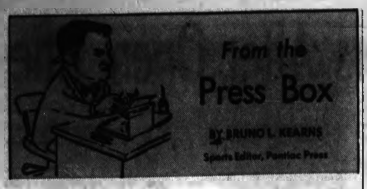

Wednesday, the Associated Press average of 60 stocks rose 1.6 to 320.2.

Fractional gains were the general rule on the American Stock Exchange.

The New York Stock Exchange

NEW YORK (AP)—Following is a list of selected stock transactions on the New York Stock Exchange with 1:30 prices:

Remember Roger Bannister, the first 4-minute miler?

It's Dr. Roger Bannister now and in a story out of London recently he made some interesting observations, along with world-famous trainer Onnie Niskanen, about the 1968 Olympics to be held in Mexico City.

Bannister believes there is a strong possibility that many athletes could be permanently affected because of the lack of oxygen in Mexico City's altitude during the 1968 games.

Niskanen, who has lived in Addis Ababa, Ethiopia, which is 7,000 feet above sea level, goes even further by making the frightening statement that, "There will be those who will die."

Niskanen, a physical education teacher, trained Abebe Bikila to win two Olympic gold medals in one of the most enduring events of all—the marathon, and he feels that barring accidents Bikila will win the event for the third successive Olympics, something never done before.

The reason of course is the fact that Bikila will not have the problems acclimating himself to the 7,347 feet above sea level at Mexico City.

Niskanen says there could be tragedy in the distance and endurance events such as swimming, cycling, rowing and long track distances.

ATHLETES COLLAPSE

He pointed out that during the 1955 Pan-American games in Mexico City that several runners including Lou Jones in the 400 meter run and Josh Culbreath in the 400 meter hurdles collapsed after their events.

Many countries are already training their athletes in high altitude areas. The Russians are known to have many of their best athletes working out in the Ural Mountains.

* * *

Pontiac's Hayes Jones who competed several years ago in a meet in Mexico City noted upon his return that it would take at least a month for the athletes to acclimate themselves there.

This will put many countries to a great disadvantage. The British say that athletes will have to be away from their jobs for at least two months to account for trials within the various countries and the period of acclimatization.

A British writer noted that the 1968 Olympics in Mexico City would be the most "professional" in history, referring of course to the fact that it will take a lot more money to send the athletes so far in advance and to pay for their training costs.

The stupidity of the decision to give Mexico City the games in preference to Detroit lies in one point of argument which was made. The Olympic committee pointed out the average cost of keeping an athlete in Mexico City for the Olympics would be about $2.75 per day, whereas in Detroit it would be closer to $3.50 a day.

But did they figure in simple multiplication that 30 pre-game days at $2.75 amounts to $82.50 per athlete in Mexico City compared to 10 days at $3.50 or $35.00 in Detroit?

And if trainer Niskanen is correct in his statement of the dangers which will exist, the IOC better have some good explanations if tragedy does befall an athlete.

DITTOS FROM THE PRESS BOX

All the talk and stories about the huge twin double payoffs at Hazel Park has made the paper bag a commonplace thing at the track. Everyone, hopeful of making a haul, carries a paper bag under his arm.

A few of the local horse "experts" were seen making their first visit of the season to the track this week and the question came up, why was the empty golf bag seen in Bud Stark's station wagon?

Alger Conner said "It was just in case."

* * *

At any rate, the word got back here from Hazel Park that a new track record was set by Stark. He was the only one ever to wager in nine races and have his horse finish last each time.

"In fact, I think the jockey dismounted and walked to the finish line in the last race," noted Conner.

College Golf Stars Lead Western Amateur Play

BENTON HARBOR (AP) — A pair of collegians headed a field of 180 players into today's second qualifying round of the 63rd Western Amateur Golf Tournament, which has turned into a classic struggle against par.

Only 21-year-old Bill Newton, senior pre-med student at Michigan, broke par over the giant 7,060-yard Point o' Woods course Wednesday. The Big Ten champion drilled through a brisk wind for a 70, one stroke off the standard.

At 71 was NCAA titlist Marty Fleckman of Houston. One stroke behind was Bob Smith of Sacramento, Calif., who won the 1962 Holland and Austrian amateur titles while serving in the U.S. Army.

Locked at 73 were John Elliott of Fort Lauderdale, Fla., Bill McCormick of Long Beach, Calif., and Tim Holland of New York.

Generally, scores soared and there were grumbles of tough pin placements.

"I three-putted four greens, but what got me the most was the placing of pins near the lip of traps," said Norwegian-born Arne Dokka of Studio City, Calif., recently crowned National Public Links champion.

Dokka lagged in the field with an 81, the same score as Art Hudnutt of Elyria, Ohio, the 1962 champ. Former Walker Cup player Bob Gardner of Essex Falls, N. J., had an 83.

Among the 74-shooters was Dr. Edgar Updegraff, Tucson, Ariz., who won the title in 1957 and 1959 and was medalist last year.

Michigan amateur champion Bud Stevens of Livonia was bracketed at 74 along with Bill Richard of Ann Arbor.

Among those battling to make the cut were Tom Draper of Birmingham, the current North-South champ, who turned in a 78 despite a 10 on one hole.

Fred Ewald of Birmingham fired a 78 while Mount Clemens' George Wakefield came in with a 77.

Bill Newton, Ann Arbor, Mich.	36-34—70
Marty Fleckman, Houston, Tex.	34-37—71
Bob Smith, Sacramento, Calif.	37-35—72
John Elliott, Fort Lauderdale, Fla.	36-37—73
Bill McCormick, Long Beach, Calif.	37-36—73
Tim Holland, New York	37-36—73
Bill Denney, St. Joseph, Mich.	35-39—74
Ben Crenshaw, Dallas, Tex.	36-38—74
Bob Menne, Saginaw	37-37—74
Bill Richard, Ann Arbor, Mich.	36-38—74
Bud Stevens, Livonia, Mich.	36-38—74
Dr. Edgar Updegraff, Tucson, Ariz.	36-38—74
Sherman Finger, Evanston, Ill.	34-40—74
Don Albert, Columbus, Ohio	38-36—74
Jimmy Beahrick, Brooksville, N.Y.	36-39—75
Mike Good, Huntington, W. Va.	36-39—75
Truman Connell, North Palm Beach, Fla.	40-35—75
Dave Hunter, Aurora, Ill.	35-40—75
Edgar Snead, Columbus, Ohio	38-39—75
Jim Wysners, Atherton, Calif.	38-37—75
Sale Hertz, South Bend, Ind.	37-38—75
Other Michigan scorers:	
Thomas Pendlebury, Ann Arbor	40-36—76
Steve Eckert, Ann Arbor	38-38—76
Bernie Harkins, Mount Clemens	40-37—77
William Newcomb, Ann Arbor	41-36—77
George Wakefield, Mount Clemens	40-37—77
Robert Carter, Troy	42-36—78
Tom Draper, Birmingham	43-35—78
Fred Ewald, Birmingham	37-41—78
Douglas Hankey, St. Johns	37-41—78
Carl Harrold, St. Johns	40-38—78
Carl Mitchell, St. Johns	38-40—78

Norm Cash's Homer Lifts Tigers

Three-Run Belt Passes Yanks in 8th, 4-3

Wickersham, Aided by Terry Fox, Wins 3rd Straight Start.

NEW YORK (AP) — Old slugger Norman Cash is pushing his new comeback and the Detroit Tigers grow happier by the day.

Cash, who only recently broke out of a virtually season-long slump, pounded a three-run homer in the eighth inning Wednesday night in powering Detroit to a 4-3 victory over the New York Yankees.

The victory, giving Dave Wickersham his third straight triumph, also gave the Tigers a 2-1 edge in the series and put them in position to finish it off 3-1 in the concluding game today.

* * *

Denny McLain sought his ninth straight victory as Detroit's pitcher this afternoon against the Yanks' Mel Stottlemyre (11-5). McLain is 9-3.

The Tigers' late-game rally Wednesday night was climaxed by Cash's blast into the right field seats with two men on base.

Up to the eighth, rookie Rock Cullen had shut out Detroit on five hits while the Yanks managed a 2-0 lead off Wickersham.

FIELDING ERROR

New York scored in the second on a walk, a single and a sacrifice fly and once more in the sixth on a hit batsman, Wickersham's fielding error and a single.

The Tigers performed their eighth inning mop-up in a hurry.

Pinch-hitter Gates Brown, batting for Wickersham, tripled home Bill Freehan after the latter's leadoff single.

After Don Wert was thrown out, Steve Hamilton relieved Cullen and walked pinch-hitter Jake Wood, batting for Jerry Lumpe, and the stage was set for Cash.

* * *

The veteran first baseman, who hasn't had a good year since 1961 when his .361 average led the American League, let the count go to 2 and 0 against him and then smashed his 13th homer.

The homer was Detroit's 22nd in the last nine games and was the first off Hamilton this season in his 31 appearances and 42 1-3 innings of work.

Tony Kubek homered off reliefer Terry Fox in the eighth for New York's last run.

Wickersham received credit for his fourth victory. He has lost eight games, all of them in succession after his first victory. He allowed the Yanks only four hits in seven innings.

Vaughn All-Star Team Stays Alive in Series

The Vaughn area All-Stars stayed alive in the Bloomfield Hills 13-14-year-olds baseball World Series last night with a 9-5 win over the East Hills squad at the high school diamond.

Vaughn now trails, 3-2, in the best - of - seven series. Craig White's double tied the game, 5-5, and teammate Jim Myers followed with another two-bagger for the two go-ahead runs.

Dan Hyde was the winning pitcher in relief. The sixth game is set for 5:30 p.m. today at the high school.

DOWN AND OUT — Left fielder Jim Ray Hart and shortstop Dick Schofield (15) of San Francisco collided on this play in the third inning of a game yesterday against St. Louis in San Francisco. Both hit the ground hard but Hart managed to hang onto the ball. Cardinals' Tim McCarver jolted a short fly ball that caused the collision. San Francisco won, 8-5.

Haig Shows Spark in Battling Cancer

NEW YORK (AP) — Walter Hagen, who reigned as the king of professional golf before the present day leaders such as Jack Nicklaus, Arnold Palmer, Tony Lema and Gary Player were born, is winning the greatest match of his life.

The 72-year-old fabulous Haig, as he was known in the 1920s when he was a contemporary of Babe Ruth, Bill Tilden, Red Grange, Jack Dempsey, Bobby Jones and Earl Sande, underwent a throat operation for cancer Tuesday.

DOING WELL

"He's doing very, very well," his son, Walter Hagen, Jr. said today.

"Let's face it. I was worried before the operation. But when I visited him at the hospital Wednesday night he was sitting in a chair and watching the Detroit-Yankee baseball game on television."

The younger Hagen said his dad, who now lives in Traverse City, is an avid baseball fan. He was pleased that the Tigers beat the Yanks 4-3.

"Dad was very peppy," Walter Jr. continued. "He's doing very, very well. Much better than I thought. The doctor thinks he'll be able to go home in about 10-12 days.

"He can't talk now, you know, but he's a great fighter and he isn't letting this get him down."

The younger Hagen said his dad is "very thankful" for the hundreds of letters, telegrams and flowers that he has received at St. Vincent's Hospital. "He keeps the flowers one day, then passes them along to other patients who do not have any."

Hagen, who was born in December, 1892 in Rochester, N.Y., was as well known in the White House as at Buckingham Palace in his glory days as a golfer during sport's so-called Golden Era 40 years ago.

He won the U.S. Open twice and the British Open four times.

Hagen retired from the sport in the mid-1930s.

Local Legion Nine in Tournament Play

Waterford's 18th American Legion championship baseball squad will move into zone tournament action tomorrow morning at Fraser.

The Waterford nine meets St. Clair at 9 a.m., and the other two teams — Owosso and Lansing — play at noon. The tournament will run on a two-game knockout basis.

Tomorrow's two losers will play again at 4 p.m. with the winner moving into a game Saturday at noon. The two winners tomorrow play at 9 a.m. Saturday.

The championship game or games will be Sunday afternoon.

Following 2-Cent Bet

Clerk's Future Rosy

LONDON (AP) — Life suddenly became a bed of roses Wednesday for Albert Rice, a $44 a week clerk who is crazy about roses but hasn't got a garden.

He won $211,646 on a two cents bet in a soccer pool.

Rice, 51, has dreamed for years of growing roses. But he and his wife live in a second floor apartment in Catford, a crowded suburb near London docks, where he works.

"Now it will be a place in the country, and I shall grow as many roses as I like," he said.

There's no soccer in Britain at the moment, but bettors still fill up the pools coupons and forecast the games in Australia.

The pools firm hit on a nice idea at the presentation ceremony. It got Harry Wheatcroft, a leading British authority on rose-growing, to hand Rice his check.

Lions' Rookies on 'Defensive'

With their defensive backfield weakened by age, retirement and trades, the Detroit Lions opened rookie camp this morning at Cranbrook hoping to find some adequate replacements in the secondary.

Rookies who will be given trials for the defensive backfield are Tom Vaughn of Iowa State, Larry Harbin of Appalachian State, Jack Jacobson of Oklahoma State and Jim Kearney of Prairie View. Another may be John Henderson, ex-U. of M. pass receiver who was obtained from the Eagles recently. Henderson's first chance however may be at offensive end.

The Lions recently lost 14-year veteran Yale Lary, all-pro safety and the team's punter via retirement.

Gary Lowe, a 9 year player with the Lions was traded to the Vikings several weeks ago, but yesterday Lowe announced he was also retiring after two days in Minnesota's camp.

Night Train Lane troubled with knee injuries the past two seasons has been one of the league's greatest cornerbacks in his 14 years with the Cardinals and Lions.

2 VETERANS

When the veterans report Sunday, Dick LeBeau and Bruce Maher will be the most experienced defensive backs on the squad.

Rookie week will end with a scrimmage session Saturday afternoon and attention will be focused on the team's No. 1 draft choice Tom Nowatzke from Indiana.

Absentee from the rookie crop is Pontiac's Jerry Rush who is working with the Collegiate All-Stars.

20-Year Wait for Ace

Marv Pidgeon of Livonia, a golfer for 20 years, fired his first hole-in-one at Bob O' Link yesterday. He used a 5-iron on the 190-yard 12th hole and had a 40 for the nine holes in the Michigan Bell league.

Wins 2nd WMGA Title

Mrs. Cova Triumphs

It wasn't even close.

Mrs. Midge Cova turned in a final round 78 yesterday to finish with a 54-hole total of 234 and an eight-stroke victory in the Women's Metropolitan Golf Association medal play tournament at Bob O'Link Golf Club.

It was the second WMGA crown for Mrs. Cova. She collected her first one in 1956.

There was little doubt about this year's title after the first round on Monday.

Mrs. Cova, who owns the Bob O'Link course along with her husband, grabbed a 10-stroke lead with a 75 Monday over the 6,000-yard layout, and maintained her lead with an 81 Tuesday.

Mrs. Nick Panasuik of Tecumseh, Ont., took the runner-up spot with a 242 total.

Defending champion Mrs. C. J. Miller of Novi, former Pontiac city titlist, was well down the list with a 263 total.

Mrs. Midge Cova ..... 75-81-78—234

MAKE OVER PAGES

More than a billion pounds of dehydrated foods — fruits, vegetables and soup mixes — were produced in 1963.

In England, daguerreotypes were featured as sensations at carnivals, along with electric eels.

3rd Prize at Festival Is Morale Booster

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD—At the recent Moscow film festival, "The Great Race" managed to win third prize in a field of turgid dramas brimming with social significance.

THOMAS

This is a noteworthy achievement for a movie that bears no message outside of a fervent plea for woman's suffrage. The award also comprised a boost in morale for Blake Edwards, the boyish third-generation film maker who conceived, helped write and directed "The Great Race."

* * *

Offhand, you wouldn't think that Edwards needed such encouragement. Besides his current hit, he had a pair of solid winners last year — "The Pink Panther" and "A Shot in the Dark." But, like all creators of comedy, he suffers doubts as to whether his efforts are appreciated.

"I was supposed to go to the festival. Then 'The Great Race' showing was moved ahead and I couldn't get there in time. I was still going with Jack Lemmon when I read a report on the picture from Tass; it said grudgingly that people laughed, but the picture was not to be taken seriously.

"I canceled my trip. I've got enough troubles with critics here.

"But then I got reports on the showing from Jack, Dorothy Provine, George Stevens Jr. and others at the festival. They said the audience roared, and it was the only film to sell out the 6,000-seat house. They had to show it four times. Then came the award.

* * *

"I think my whole attitude toward comedy will be different now. I'm not going to make any more excuses, to myself or anybody."

* * *

His grandfather was J. Gordon Edwards, who directed the first "Cleopatra" and other Theda Bara films. His father is Jack McEdwards, studio production manager who now oversees his son's films. Born William Blake McEdwards in Tulsa, Okla., the boy grew up in the movie world, went to Beverly Hills High School, later truncated his name when he tried for an acting career.

RADIO WRITING

He fell into radio writing, created and wrote "Richard Diamond" for Dick Powell, then became writer and director of B pictures for Columbia.

"When I started directing, I was advised by friends never to bring a picture in on schedule," he recalled. "I did the first one at Columbia on schedule. On the next one, I was six years over on a 15-day film, not to impress anyone, but because I tried to be conscientious. I was fired.

"But Universal was impressed by the picture and hired me. I did some Tony Curtis movies on schedule, then I went over on 'Operation Petticoat.' They let me go. I went over on 'High Time' at Fox because I was trying to fix an impossible script. Fox warned Paramount not to hire me for 'Breakfast at Tiffany's,' but I got the job anyway."

Even his recent successes didn't end the spectre. Edwards said J. L. Warner once tried to fire him from "The Great Race" when the film advanced toward an $11-million cost. "But I think he realized now it couldn't have been made for less," said Edwards.

Plainly Productive

Pet Presents 'Pure Poetry'

BOSTON, Mass. (AP) — You can buy most anything for your pet pooch in Boston, from nail polish for his toes to mink-lined raincoats with hoods.

Other pets fare just about as well. There are jeweled collars for cats, special diets for hamsters and motels for canaries with piped-in music in case they forget how to sing.

* * *

The pet business in Boston, as in many other parts of the nation, is undergoing a boom in what one manufacturer calls "far-out products."

Richard Hemmerdinger, a pet shop owner in Winchester, says Bostonians are "more subdued in what they buy for their pets than, say, people in New York."

EVEN HAIR DRIER

Nevertheless, he stocks sun glasses and berets for dogs and will be happy to order a hair drier for your poodle.

* * *

Hugh Brady, a pet products wholesaler in Needham, says the demand for fancy products is new, but so are the products. "Somebody has thought them up and they're just there, and people buy them," he says.

Brady thinks state and federal controls are tighter over some grooming products made for dogs than they are for similar products for women.

"I know the Massachusetts Department of Agriculture is always checking and is pretty strict," he says.

TOUGHER ON DOGS

The Christian Science Monitor quotes a firm that makes grooming products for both dogs and women as saying the state and federal regulations definitely are tougher for dog products.

In Dorchester, Charlotte Dickerman operates a pet motel with pink rooms for the females and blue rooms for the males.

* * *

There is piped-in music and Miss Dickerman lives in a lavender bedroom near the animals "so if any of them cry in the night, I can hear them."

The American Pet Products Manufacturers Association in New York estimates that $1.5 billion was spent last year by Americans on their pets.

That's more, the association said, than Americans spend on food for their babies.

S. Viet City Will Get Flag From U.S. Capitol

WASHINGTON (AP) — Sen. Birch Bayh, D-Ind., says the city of Hue, South Viet Nam, will get an American flag that has flown over the U.S. Capitol.

Bayh said two Indiana servicemen made the request, praising Hue's citizens for "great strides" they have taken toward democracy and their stand against communism.

The lowest temperature ever recorded in the semitropical land of Bermuda was 43 degrees, the highest 94 degrees. The average annual mean temperature is 70 degrees.
