

Look Who's in Bleachers

SPECTATOR SPORT — President Eisenhower gets a laugh out of a play yesterday in a ball game at Key West between newsmen and secret service operatives. The President plans to leave Sunday for Washington after his vacation in the sun.

Ike Returning to Capital After Happy Florida Stay

KEY WEST, Fla. (AP) — President Eisenhower today spends his last full day in the Florida sunshine. The President, who came to Key West Dec. 28 seeking fuller recovery from his September heart attack, is scheduled to start back to Washington by plane tomorrow afternoon.

He traveled to Florida to help condition himself for resumption of a full work load next week.

Hearings End Over Newsmen

Senate Chairman Says Probe Showed Reds Infiltrating Papers

WASHINGTON (INS)—Contempt of Congress charges loomed today for three or more past and present newsmen who refused—without invoking the Fifth Amendment—to tell Senate probes whether they are Reds.

Chairman James O. Eastland (D-Miss.) told reporters he will ask the Senate Internal Security subcommittee "in the near future" to throw the "full weight of the law" against the unwilling witnesses.

This development came after the group temporarily ended hearings yesterday on alleged Communist infiltration in news media. No date was set for their resumption.

During the three-day session, nine of the 18 witnesses declined to testify about alleged Communist affiliations and six used the Fifth Amendment's guarantee against self-incrimination.

Eastland and Sen. William E. Jenner (R-Ind.) top GOP subcommittee members, said in a joint statement that the hearings had shown "a significant effort on the part of Communists to penetrate the leading American newspapers."

They said their group will "explore" new investigative leads "with thoroughness and conscience" but they added:

PRESS CAN HANDLE

"To the extent that our hearings uncover a problem of attempted Communist infiltration of the press, we feel confident that the American press will prove fully competent to deal with the problem in its own American way."

Concerning the three or more newsmen, Eastland said he will recommend contempt action on various grounds, including, he said, their use of the First Amendment (freedom of the press) and a challenge to the law.

More Snow to Fall Tonight Is Forecast

The weatherman foresees snow flurries for tonight with a low ranging from 20 to 23 degrees. It will be partly cloudy tomorrow with a high between 30 and 34.

The lowest temperature preceding 8 a.m. was 24 degrees. The thermometer registered 30 degrees at 1 p.m.

'Spider Bandit' Traps 10 in Building

250 Communists Arrested in Chile to Avert Strike

Government Says Reds Incite Workers; State of Siege Declared

SANTIAGO, Chile (AP) — At least 250 persons were under arrest today as the government pushed a stiff campaign to avert a threatened nationwide work stoppage.

A government spokesman charged there were signs of "international communism" that sought to incite the nation.

Those arrested included union leaders, opposition politicians, newspaperman and some former associates of President Carlos Ibanez.

The arrests were made in many cities over the country. The government asserted that many of those taken into custody were Communist or pro-Communist.

Action was taken under a state of siege decreed Thursday night by Ibanez.

Chile's big Central Labor Union (CUT) called a nationwide strike for Monday in opposition to a government proposal to freeze wages, prices and pensions in an effort to curtail inflation. The government said such a plan was necessary to save the nation's economy but union leaders and opposition political groups said it would cause hunger throughout the country.

Benito Canavara, secretary general of the CUT, declared last night the strike would begin as scheduled and would continue indefinitely.

Canavara issued his statement from a secret hideout. The president of the union, Clotario Best, and other union officials were among those arrested.

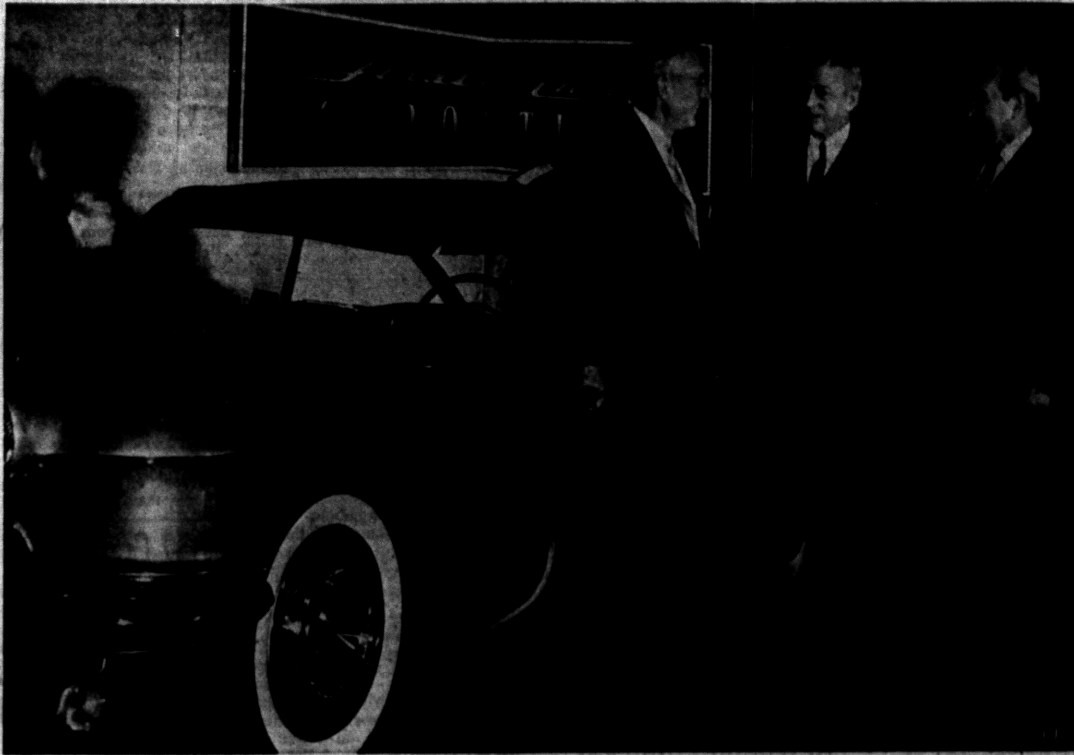

FLYING SQUADS — Inspectors directed congress to reconvene Jan. 11 when he will seek final approval of his freeze program.

The state of siege—a modified form of martial law—puts a ban on public meetings and censorship on newspapers and radio stations and permits search of homes and arrests without warrants.

Ten Killed Already

LANSING — Traffic accidents claimed at least 10 lives in Michigan during the early hours of the first full weekend of 1956.

Pontiac Motor Officials at Chicago Auto Show

Senate Date Set for Lakes Plan

Bill to Stretch Shipping Lanes From Atlantic to Michigan Proposed

WASHINGTON — The Senate Public Works Committee will begin hearings Jan. 26 on a project which would stretch the shipping lanes of the Atlantic to Michigan.

The House authorized the work last year.

It calls for Army engineers to deepen the upper Great Lakes connecting channels to 27 feet to accommodate ocean-going vessels that will use the St. Lawrence Seaway.

The 100 million dollar project calls for deepening channels connecting Lakes Superior and Huron, Michigan and Huron and Erie. Without the 27-foot channels ocean-going traffic would be unable to reach Detroit and other Michigan ports or Chicago Milwaukee or Duluth.

Sen. McNamara (D-Mich.), a member of the public works committee, said he is "hopeful" a bill to deepen channels will be passed and money appropriated for the work in the present session of Congress.

STRATO CHIEF IN DISPLAY — Pontiac Motor's experimental Strato Chief is part of the division's display at the Chicago Auto Show, opening today. Among Pontiac officials attending the opening, and shown above (left to right), are Robert M. Critchfield, general manager; George A. Delaney, chief engineer; and Frank V. Bridge, newly appointed general sales manager.

Chicago Auto Show Opens

15 Pontiacs, GMC Trucks Are Impressive Exhibits

By JOHN W. FITZGERALD
Editor, The Pontiac Press

CHICAGO—Pontiac automobiles and GMC Trucks are two of the outstanding features of the 48th annual Chicago Automobile show which opens today in the International Amphitheater, in Chicago.

Last night 20,000 leaders of the automobile industry, dealers, civic leaders, press, radio and television representatives attended a preview of the show. The display represents a 10 million dollar production and expects to attract more than a half a million visitors before its conclusion Jan. 15.

In addition to 20 American-made cars on display, there are eight trucks and two foreign car lines. Each make of car and truck is presented individually with its own beautiful display.

The decoration theme for this year's show is an outdoor atmosphere with a turquoise blue sky effect, simulated trees and foliage, and winding walkways.

PONTIAC DISPLAY

Pontiac Motor Division is represented at the Chicago show this year with the largest exhibit it has ever placed in a dealer auto show. Fifteen production model Pontiacs, one of each body style offered in 1956, will display the many outstanding features of the new cars.

Pontiac's Strato Chief, one of the famous GM dream cars, is the center of the Pontiac exhibit. This futuristic hand built car incorporates many designs and mechanical innovations that will be seen in the production car of tomorrow.

"The Chicago Automobile show will set new attendance records this year because more people are in the market for a new car than ever before," R. M. Critchfield, General Motors Vice President and General Manager of Pontiac Motor Division said last night after viewing the show.

LARGEST IN WORLD

Another example of Pontiac's contribution to the automotive industry is the Strato Chief.

Personal Incomes Soar to Record High

WASHINGTON — The Commerce Department said today that in November personal income rose to a record annual rate of 31½ billion dollars.

That was about two billions higher than in October.

For the first 11 months of this year, the report said, the public's income was at an annual rate of 302 billions, some 15 billions higher than during the first 11 months of 1954.

For the most part, the rise in income was due to higher industrial payrolls. Half the rise took place in the automobile industry and a quarter of it in manufacturing of other things.

Five-Hour Vigil in Area Building Nets Man \$445

Binds and Gags Victims at Gunpoint in Corridor of Royal Oak Firm

A "courteous" bandit with spider-like patience held up and bound 10 victims during a five-hour robbery yesterday in a basement corridor of the Michigan Life Insurance Co. building at Woodward Avenue and 13 Mile Road in Royal Oak.

Police say he netted \$445 before fleeing with nine of his victims still sitting helplessly against the walls of an employees' washroom, tightly bound with clothesline he apparently brought with him.

The tenth he forced to accompany him to the street where he escaped on foot.

The marathon robbery began at 8:30 a.m. and ended at 1:30 p.m. First victim of the washroom trap was George R. Bundschuh, 40, of Royal Oak, a boiler operator in the building.

Bundschuh was held up in the corridor of gunpoint, forced into the washroom and bound. The bandit taped his mouth shut, propped him against the wall and waited leisurely for new victims.

At intervals during the next five hours, nine men entered the washroom, were tied up and gagged, and relieved of the contents of their billfolds.

At 1:30 p.m., when the walls of the washroom were lined with his prey, the bandit released Bundschuh and forced him to walk in front of him out of the building's back door. Ordering Bundschuh to walk east toward Woodward Avenue, the gunman ambled south on foot.

He was last seen disappearing behind the next-door Medical Arts Building. Police, armed with a thorough description, still are looking for him.

His victims say he was polite and calm, never complaining even when three of them proved to be broke. He was described as simply clad in denim trousers, a Navy issue parka with hood, and sunglasses.

Only one of the 10 captives lost more than \$15. He was Angus Smith of Royal Oak, an architectural inspector in the recently-completed building, who was carrying \$400. The other nine were employees of the life insurance company.

Police say the victims, in order of their captures, were: Bundschuh; Roy Sweet; William S. Angell; James Fraser; Smith; Richard Galska; Karl Krushol; Norval Wise; Edgar Thibodeau and Roger Atkins.

Use of 'Cop' Blasted

WASHINGTON (INS) — FBI Director J. Edgar Hoover issued a sharp blast today against the use of the word "cop" on the grounds it destroys respect for authority and can add to juvenile delinquency.

Rabies Checked by Control Plan

Mass Inoculations Halt Incidence in Out-County Areas of Oakland

The area of Oakland County in which dogs are vaccinated before they can be licensed has not had a case of rabies reported for nearly 18 months.

This was revealed yesterday by County Health Director Dr. John D. Monroe and Dog Warden Frank R. Bates who termed the vaccination program "extremely successful." Incorporated areas are not included in the control area.

Only one infected dog was reported last year in Oakland County, said Dr. Bates, and that was in an area where dogs are not inoculated.

There were 110 rabid dogs detected in Oakland in 1952, Dr. Bates stated. The control program was launched in 1953. Cases dropped to 104 that year, 43 in 1954 and 1 last year. "But we have had none in the vaccination area since July 17, 1954," he emphasized.

TREATED IN '55 — "In the control area we gave 1,004 treatments in 1955, but the total has declined to only 151 last year," he explained.

Health Department records show that 84 county residents were bitten by rabid dogs in 1955 in the control area, 65 in 1953; 16 in 1954 and none last year.

Some 15,035 dogs were licensed in the vaccination area last year, indicating that about 75 per cent of the area's dog population has been immunized, said Dr. Bates. The vaccine is effective for about two years, he added. The law says dogs must have been inoculated within 12 months before licensing.

State Farms Above Average

WASHINGTON (AP) — The average value of farm land and buildings per acre in Michigan is \$130 compared with a national average of about \$84, the Census Bureau reported yesterday.

The averages resulted from the census of agriculture taken late in 1954.

The average value of a farm in Michigan is \$15,466 compared with a national average of about \$19,706.

In 1935 the value of buildings and land per acre in United States farms was \$31, and the average value of a farm was \$4,823.

The report showed that in the last two decades the value of farm land and buildings per acre has nearly tripled, and the average value of farms has about quadrupled.

Farm lands and buildings are highest in New Jersey, where they averaged \$399. The average value of farms was highest in Arizona, where the average was \$81,866.

For acre values were lowest in Wyoming, at \$16, and average

1,000 VIPs Attend Dazzling Charity Ball

Society Grooms Grace and Her Prince

NEW YORK — The future Princess of Monaco and her prince were formally welcomed by society last night amid the dazzle of a fashionable charity ball.

It was the first public appearance of lovely Grace Kelly and Prince Rainier III since their engagement on Wednesday.

In her latest film, "The Swan," the blonde star falls in love and marries the heir to the throne of a mythical European kingdom.

But it was no myth for the Philadelphia beauty last night when the orchestra struck up the national anthem of Monaco, a tiny principality overlooking the blue Mediterranean, as she and her fiancé entered the flower-bedecked grand ballroom of the Waldorf-Astoria Hotel.

1,000 ATTEND — Some 1,000 guests, representing the cream of New York society, foreign aristocracy and members of the diplomatic corps, rose to greet them.

The 36-year-old movie star was clad in an off-shoulder brocade dress, dazzling white. A spray of white orchids with a single red rose—colors of Monaco—adorned her bosom.

Her shiny blonde hair was swept in a bun. Her jewelry consisted only of a double string of pearls, her engagement ring and tiny earrings.

The 32-year-old prince, considered one of Europe's most eligible bachelors, wore midnight-blue formal attire. A row of foreign medals—including the grand cross of the French Legion of Honor—splashed colorfully across his chest.

The affair—"The Imperial Ball—a Night in Monte Carlo"—is one of the high spots of New York's social season.

The proceeds go toward music therapy for hospitalized war veterans in the United States and Great Britain. Tickets were \$35.

PRINCE AND A QUEEN — Prince Rainier of Monaco and his bride-to-be, movie queen Grace Kelly, arrive at New York's Waldorf-Astoria last night for Monte Carlo ball.

Search Locates Body in RR Yard

5-Year-Old Canada Girl Found Dead, 'Stranger' Sought by Police

LONDON, Ont., (AP)—The body of five-year-old Susan Cadieux was found in a railroad freight storage yard this morning, even as hundreds of police and volunteers searched for the little girl who disappeared from a school playground last night.

Police said there was no immediate indication whether the girl was a victim of foul play. One police theory was that the girl had been held elsewhere during the night and that she had been dropped in the freight yard only a short time before her body was found.

Susan was last seen by her two brothers at 8 p.m. last night talking to a stranger. They said they turned their backs for a few minutes then saw her no more. Police began questioning men who may have been talking to the child.

The two boys, Mike, 9, and Pat, 10, said they would recognize the man again. Police said they believe no car was involved in the disappearance.

Every police officer in the area, members of the French-Canadian community here and members of the families church, as well as men returning home from late shifts joined the search.

Pontiac, GMC Truck Exhibit in Chicago

(Continued From Page One)

dusty was the General Motors Truck and Coach display. All the latest trucks and trailers were on exhibition in one of the finest settings of power on wheels ever exhibited. The background for the GMC display was a huge panoramic color transparency which was the largest of its type in the world.

Pontiac Deaths

Mrs. Grace C. Donovan

Mrs. Grace C. Donovan, 74, a former resident of 570 W. Huron St. died yesterday. She had been ill health three years.

Claude G. Lillycrop

Claude G. Lillycrop, 64, of Eau Gallie, Fla. died yesterday afternoon in William Beaumont Hospital after an illness of 10 days. He was a former resident of Pontiac.

E. Floyd McArthur

Word has been received of the death of E. Floyd McArthur, 56, a former resident of Summit St.

Child, 5, Struck by Car on Icy Pontiac Street

A five-year-old girl, injured when she reportedly darted out in front of an automobile yesterday on Fourth Ave., was released after treatment in Pontiac General Hospital.

Hearings End Over Newsmen

(Continued From Page One)

lence of the subcommittee's jurisdiction.

Although Eastland described as "bunk" a New York Times charge that it had been "singled out for investigation, 14 of the 18 witnesses were past or present employees of the newspaper.

Eastland said he would "judge each case on its own merits" in deciding whether to ask for contempt action.

Two witnesses said they are not Communists now and invoked the Fifth Amendment in refusing to testify about past associations.

Four witnesses testified freely, with three providing some of the hearings' highlights.

One was Dr. Benjamin Fine, Times education editor, who said yesterday he made the "tragic mistake" of joining the Communist party for a year while he was a graduate student at Columbia University in 1935.

Clayton Knowles, a Times reporter, testified Thursday that he had been a Red from 1937 to 1938. He said "I made a bad mistake and I rectified it as soon as I could."

And James Glaser, a New York Post copywriter with Times experience, told Wednesday of his difficulties as managing editor of the Communist "Daily Worker" in 1934-36.

Each of the three was praised by Eastland and other subcommittee members as a "patriotic" American and a "credit to his country" for testifying frankly.

New B52 Contract Awarded to Boeing

WASHINGTON (AP)—An Air Force spokesman says a new 248-million-dollar contract for B52 heavy bombers represents just one more order in the B52 procurement program and won't add to the eventual total of such craft.

The spokesman gave this explanation after the Air Force yesterday announced the contract with the Boeing Airplane Co.

Production of the all-jet, long range bombers will be centered at Boeing plants in Seattle, Wash., and Wichita, Kan.

The Air Force never has said how many of the speedy B52s it plans to buy. However, it has spoken of an eventual 11 wings of B52s—a force that presumably would require between 400 and 500 planes.

A B52 costs about eight million dollars.

The Day in Birmingham

Civic Groups Convene to Discuss Drains, Roads

BIRMINGHAM—Priority for 14 mile road over other roads for improvement efforts seemed guaranteed during the discussion of city supervisors, commissioners and planning board members of roads and drainage systems Thursday night at the municipal building.

Attempts to eliminate traffic congestion and keep Maple's traffic at a reasonable volume were considered by the city leaders, including the city manager, his assistant, and the city planner.

Progress on various drainage projects was promised within 30 days in the discussion which included assurances that the drain commissioner's office would be making an effort to secure necessary personnel as requested by commissioners recently.

The Twelve Town Drain's construction drawings should be ready for letting of bids in June of this year, the leaders were told.

The Ruth Shain class will resume weekly meetings Tuesday at 10 a.m., with a report on international events of the past year on the agenda. If possible, Edward R. Murrow's summary, with seven correspondents from all over the world reporting, will be heard by special arrangement in recording. If it does not arrive in time, Mrs. Shain will do the summary and prognosis.

Newcomers club will mark its eighth birthday Jan. 19, and plans will be completed at a board meeting Thursday at Mrs. James Stewart's home. The 300-member club will elect officers and see a hair styling program with members acting as models for a local hairdresser.

talk at the Community House on the topic, "Why I Am an American" Tuesday at 8 p.m.

Now director of admissions of the Atlanta Division, University of Georgia, he has done Baptist Church leadership, U.S. treasury department lecturing and much lecturing on Americanism. He tells his story as of poor Scotch youth coming alone to a land that is strange but where he finds his opportunities, in a humorous, and tender manner.

Congregation Church's Women's Fellowship will meet Tuesday, at the church, and the meet Monday at Mrs. Kay Barber's home on Manchester. The board of trustees meets at 8 p.m. Tuesday.

Last chance for disposal of Christmas trees is the coming week, according to city announcement. Trees will be collected on the regular rubbish pick-up day, with the forest department's chipper making the rounds with the rubbish truck for care of large trees.

Adults are being offered recreational activities by the city recreation board on Tuesday, when the new Birmingham High School gymnasium will open at 7:30 for fencing, basketball, volleyball, badminton, table tennis and gymnastics. Groups can arrange other sports. Information is available by calling recreation at the Board of Education or by attending the weekly Tuesday activities.

Aly Plans to Marry Paris Model Bettina

NICE, France (AP)—Aly Khan is planning to marry Bettina, well-known Paris fashion model, one of the Moslem prince's lawyers said today.

The informant said the marriage awaits only recognition by a French court of Aly's divorce from actress Rita Hayworth in Las Vegas, Nev. A Paris court is expected to hand down a decision in a few days.

Bettina, whose real name is Simone Bodin, has been visiting at Aly's villa at Gole Juan on the Riviera.

Police Arrest Minors for Possession of Beer

Two minors were arrested last night after police stopped to help them start their stalled car.

Charged with possessing beer are Donald F. Talbot, 18, and Phillip Halicek, 18, both of Ortonville.

Two 16-year-old Ortonville youths, also in the car, were released to parents and will be questioned Jan. 11, Sgt. Henry Hoyt, Juvenile Officer, said.

Pair Robs Grocery Attendant of \$500

Two men, one brandishing an automatic, entered the Ardmore Market, 2244 Woodward, early Friday evening and locked proprietor Mrs. Ann Ash, 55, 11059 Cadillac, VanDyke in an ice box. They walked out with \$500 which they took from Mrs. Ash's purse on a shelf.

Mrs. Ash turned in the alarm after she let herself out of the cooler through the use of an inside safety catch. She told police that the intruders both looked under 30 and had been in the store to make a small purchase in the afternoon.

Lt. Olin Frank of the Ferndale Police said that this is the third such robbery in the south Oakland area and that it looks like the same parties are responsible.

See Slight Dip in Auto Output

The nation's car builders have cautiously scheduled 655,800 assemblies for January, a 4 per cent drop from the estimated 689,700 units turned out in December, according to Ward's Automotive Reports.

The trade journal pointed out, however, that the January roster is aimed only .05 per cent below the all-time January high of 659,719 completions, set last year.

Ward's reported that only Chrysler will probably top its December production, while General Motors' January goal is 6 per cent below last month's estimated 246,500 assemblies; and Ford 16 per cent under.

The periodical predicted that Chrysler will gain 19.53 per cent of the market in 1956, compared with 17.1 per cent in 1955. Studebaker-Packard and American Motors expect to take 7.54 per cent this year, against 4.32 per cent in 1955.

General Motors, Ward's said, will take a drop from over 50 per cent of the market in 1955 to 48.8 per cent this month. Ford starts off the year with 24.58 per cent of the industry's anticipated turnout, compared with 27.58 per cent in December, and 28.21 per cent for all of 1955.

Business Notes

George W. Kiffer, assistant Pontiac district manager for the Phillips Petroleum Co., will head a delegation of four salesmen to the firm's national sales conference in Bartlesville, Okla.

Two two-week events will be attended by 125 employees of the company's Chicago Sales Division. Besides Kiffer, local salesmen will include R. V. Porter, Dean R. Smith, G. W. Palmer, and H. W. Marklewitz.

Promotions of three staff-members to new positions have been announced by Louis Pohl, district manager of the Life Insurance Co. of Virginia.

Named field training supervisor was John H. Stewart, former associate manager, while Arthur L. Brandenburg and Robert J. Vance have been appointed associate managers.

Stewart has assumed duties as head of the firm's agency training program in part of Michigan and in Northern Ohio. Brandenburg has taken over Stewart's duties here.

Vance will head a new staff of agents, created recently as part of a local expansion program.

Credit Union Officials to Attend Conference

Nearly 100 managers of state credit unions are expected to gather in East Lansing next month when the Michigan Credit Union League will conduct its Second Management Training Conference at Michigan State University.

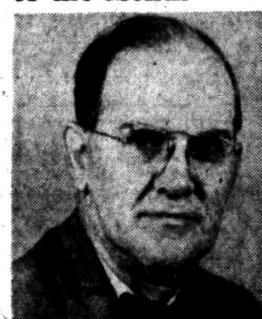

Scheduled to last Feb. 22 through Feb. 25, the conference's purpose will be to provide instruction to raise the professional level of full-time treasurers and managers of credit unions.

An additional 100 members of credit organization boards are also expected to attend.

Life of Virginia's Associate Manager of the Month

BEN J. SHAW
Mr. Shaw, manager of the Pontiac District office, announced today that Mr. Ben J. Shaw is Associate Manager of the month for December.

Mr. Shaw has been an associate manager with the Life of Virginia for over 14 years. He is extremely capable and active in the life insurance field. Mr. Shaw is Vice-President of the local chapter of the Life Underwriters and is a national committee member to the National Association. Ben has also completed a two year Life Underwriters Training Course.

Ben is very proud of his staff and takes his staff off to the members: Thomas Fowler, Gene Hatcher, Gerald Seuti, Ed Maslowski.

Through one of the nation's oldest and largest insurance companies, they advise and assist individuals, families and groups in their plans for financial security.

Control of Surplus Arms U.S. Clampdown Assures

WASHINGTON (INS) — Government officials said today the U. S. has a foolproof system to avoid any national or international surplus arms controversy.

They declared that the kind of controversy that has hit Great Britain cannot happen here.

A political storm was raised in London when it was revealed

that demilitarized light tanks which were sold to Belgium were rearmored and resold to Egypt.

U. S. inspection of the use of arms shipped abroad is too tight to be circumvented, officials claim. American military aid programs have just about wiped out any arms surplus. Grant aid agreements have been signed with 38 countries and three military defense systems.

At CAN BEB and these 21 more countries have signed agreements which give them the right to bid on arms from the U. S.

By agreement, no munitions given or sold to foreign countries may be resold to other countries or used for aggression.

When World War II started the government began planning for a more orderly control of military surplus. Careful plans were made, and agencies created, to control the disposition of the surpluses that were certain to be on hand once the war was won.

U. S. officials now say there was chaos in handling military stocks on hand in 1945. The pressure was on to economize, to get rid of excess, and salvage something from the tremendous cost of the war.

By early 1947 the pressure to get rid of surplus was lifted. Tight controls were imposed.

Purely military items such as tanks were kept out of private hands and shipped overseas only by the government. The last private deal in tanks was in 1948.

A private company bought some obsolete tanks for scrap.

Two years ago a private firm bought a load of empty and unusable cartridge cases. The cases were mangled badly. But customs officials refused to let them out of the country until they were mashed even more.

Because of these safeguards, U. S. officials say there is no chance whatever that American munitions can get into the wrong hands.

U. S. Postmaster General Arthur E. Summerfield will talk on the 1956 plans of the Eisenhower administration.

Earnings

CHICAGO (U.S. Armour and Co. yesterday reported net earnings of \$10,107,614, equal to \$2.49 a common share, in the fiscal year ended Oct. 29, 1955.

In the preceding fiscal year net earnings totaled \$1,557,092, which was not sufficient to cover then existing preferred dividend requirements and therefore left nothing for the common stock.

PITTSBURGH (INS) — Efforts to settle the 63-day strike of 55,000 Westinghouse Electric Corp. employees were stalled today for the weekend as mayors of plant cities prepared for a conference next Tuesday.

Resumption of talks between the firm and the smaller of the two striking unions is slated for Monday. The company and the federal mediation service, meanwhile, marking time while awaiting a reply by James B. Carey, president of the AFL-CIO International Union of Electrical Workers, to the latest company proposal.

Gwilym A. Price, president and chairman of Westinghouse, yesterday declined an invitation to appear at the mayors' meeting. Price wired Mayor Maynard S. Senenbrenner, of Columbus, O., that his appearance at the meeting in Pittsburgh would "serve no purpose."

Senenbrenner is the originator of the plan to bring mayors of the 19 plant cities together to discuss possible solutions to the strike. He said 14 other mayors have accepted invitations.

The company and Federal Mediation Director Joseph F. Finnegan are waiting for IUE Chief Carey's reply to Chief Company Bargainer Robert D. Blasler, who suggested the strike issues be submitted to the union's 44,000 strikers by secret ballot.

MARKETS
Produce
DETROIT, Jan. 6 (AP)—The following prices were quoted at the Detroit farm market:

Age Group	Grade School Education	High School Education	College Education
25-34	3%	2%	8%
35-44	3%	4%	23%
45-54	2%	8%	28%
55-64	3%	9%	25%

In age group 25 to 34, four times as many college men are earning over \$10,000 a year as are high school graduates. In the 35 to 44 group, almost six times as many college graduates earned \$10,000 a year.

For further information on how you can receive a college education and earn over \$10,000 or more per year. Call FE 2-2119 or FE 2-2115

Vodka Sales Up 90 Pct. in 1955

4 Million Gallons

NEW YORK (U.S.) — There was more cheer in the liquor industry this year as sales turned up, reversing a downturn that marked 1954.

It was estimated in the trade that around 200 million gallons of liquor were consumed in 1955, compared with 189 1/2 million gallons the year before.

Nevertheless, on the basis of nine-month figures, 1955 consumption will amount to about 1.22 gallons per capita. That's 14 per cent lower than the 1.42 gallons per capita consumed in 1942.

The Christian Brothers, wine-making religious order, estimates wine consumption this year at 145 million gallons, up from 141 million last year — and 63 million before World War II.

In the first nine months of this year, licensed beverage industries, sales of bottled in bond, straight, and blends of straits accounted for 41.8 per cent of domestic whiskey output, up from 39.3 per cent in the same period of 1954. Thus, spirit blends dropped from 60.6 per cent of whiskey output to 58.2 per cent.

Scotch sales were higher. In the first nine months of 1955, imports totaled 8,358,537 gallons against 7,536,952 a year earlier.

But the startling performance was turned in by vodka. Output in the first nine months soared 90.3 per cent to 4,975,662 gallons from the 2,615,163 gallons produced in the same period of 1954.

County Deaths

James H. Allen

WATERFORD TOWNSHIP — Service for James H. Allen, 65, 106 S. Roslyn, will be held at 2:30 p.m. Monday from the C. J. Godhardt Funeral Home with burial to follow in Oakland Hills Memorial Gardens. Mr. Allen died Friday.

Survivors include two sons, Raymond of Dearborn and Irvin at home; two daughters, Mrs. Ella Olson of Inkster and Mrs. Mildred Lancaster of Wayne; 11 grandchildren and 14 great-grandchildren; one sister, Mrs. Anna Mortz of Detroit.

Chrysler to Convert Tank Factory to Cars

DETROIT (INS) — Chrysler Corp. announced today its Newark, Del., tank plant will be nearly doubled in size and converted to the production of Plymouth automobiles in May.

Chrysler President L. L. Colbert said the plant would be the corporation's first automobile assembly operation in the east and the largest single installation outside of Michigan.

The conversion will take place when the current tank contract is completed. The Newark plant will be capable of producing 5,000 cars weekly, Colbert said.

He added that the plant is one of a network being built to supply a growing auto market on the east coast.
