

Healthy Economy Forecast for Area in '66

By L. GARY THORNE
Retail, banking and business leaders forecast a healthy economy for the Pontiac area in 1966, triggered by a booming auto industry.

Local business leaders generally exhibit confidence in the Pontiac and Oakland County area and its continued growth.

However, eyeing a total U.S.

economy that has achieved a rise for five consecutive years without a setback, some local businessmen also wonder how long the boom can continue.

Locally, no ill health is anticipated.

In fact, Pontiac area businessmen expect 1966 to produce:

- New stores.
- Industrial expansion in volume and number.

- New recreation facilities.
- More homes.

The only shortcoming cited is that the labor market may be tighter in the new year than 1965. But this, itself is a product of prosperity.

SEARS MANAGER
In downtown Pontiac, Howard M. Nelson, manager of the Sears Roebuck & Co. store, termed 1965 "a very good year."

He said his store set a sales record in 1964 and would set still another record in 1965.

Optimistic over 1966, Nelson said a small percentage increase had been budgeted for the spring selling season.

Clifford C. Grovogel, president of the Downtown Pontiac Business Association, summed up 1966 prospects for the Pontiac economy.

He anticipated 1966 would end with merchants showing five to ten per cent more business than in 1964.

Grovogel expected the same level of activity to continue for at least the first six months of the new year.

The only doubt expressed was on the possible effect of the government taking more Social

Security tax out of an individual's weekly pay check.

Expansion — five more stores is under way at the Pontiac Mall, Elizabeth Lake Road at Telegraph, Waterford Township.

GROSS SALES
Robert L. Witthold, Mall spokesman, said the Mall had registered a 20 per cent gain in gross sales each year since it opened in May 1962.

Total 1965 sales were rated 15 to 25 per cent above 1964.

He did not expect the Mall's growth to slacken in 1966. Current expansion includes enlarging of the former J. L. Hudson Co. Budget Store into a full-line department store.

Parking facilities are also to be added to provide space for 6,000 cars.

COMMERCIAL SITE
Another commercial establishment scheduled to open in the new year is a 10-store development planned by Edwin Gage, a private developer.

Gage, president of Tel-Huron Center Inc., plans a shopping center — office building development at Crescent Lake Road and M59.

He plans to open the new development, Waterford Plaza, in the fall of 1966.

The 1965 boom in retail merchandising is due to continue, according to business leaders.

TEL-HURON
Tel-Huron, for example, registered substantial gains in 1965, according to Gage. An even better year is expected in 1966.

The center opened up 20,000 more square feet of space in the fall, adding two retail outlets and three offices.

"There's no question there is evidence of a tremendous boom in all segments of our community," said Charles Brown, outgoing president of the Pontiac Area Chamber of Commerce.

Over-all, he said 1965 probably would top 1964 by five to six per cent in the retailing field.

ON SAME LINES
Brown saw no warning flags that the economy would soften in 1966. He expected the new year to follow along the same lines as the old year.

Brown forecast unlimited horizons for the local economy "so long as autos sell."

The outgoing chamber president also noted that the labor market was tight.

Brown cited two projects ahead for 1966: Development of the city - sponsored industrial park and urban renewal areas.

BUILDING HOPES
On the latter subject, Brown hoped "to see some steel going up" in the new year.

Brown said there did not appear to be any question that the federal government was exercising more direct control on certain industries.

However, he said he didn't know what effect putting the lid on prices might have on wages.

James Clarkson, president of First Federal Savings and Loan Association of Oakland, said the short labor market will up costs.

He forecasts a five per cent increase in the cost of labor for 1966.

Clarkson said 1965 was an excellent year for new construction. A larger, more active market is expected in the new year.

He projects a 20 per cent increase in 1966 in overall area building activity, including construction. (Continued on Page 2, Col. 8)

Says Revenue May Be Near 1966 Budget

LANSING (AP) — Gov. George Romney acknowledged today that state revenue — without tapping surplus — could come "pretty close" to financing a hold-the-line budget for 1966-67.

This could brighten the state's financial picture up to \$79 million over Romney's early summer predictions.

The governor said in his answer to a news conference question on budgeting that the economic situation is better than he could forecast six months to a year ago.

"But we never want to err on the side of overestimating revenues," he said, restating his oft-held position on forecasts.

A hold-the-line budget would provide no new state services but would involve about \$58 million to implement the already approved but yet-to-be financed senior citizens property tax relief bill.

Veep to Leave on Asian Trip

Humphrey to Visit 4 Nations in Far East

WASHINGTON (AP)—Hubert H. Humphrey wings toward the Far East today on his first major overseas trip as vice president.

The week-long Asian journey to the Philippines, Japan, South Korea and Nationalist China may be largely ceremonial.

But the war in Viet Nam, Humphrey says, will be a prime topic in his private talks with leaders of the four friendly governments.

The foreign travel may also help strengthen Humphrey's image at home, as it did for Richard M. Nixon and Lyndon B. Johnson.

Although Johnson traveled to 26 countries when he was vice president, Humphrey's most talked-about trip was the one he didn't make — when Johnson sent Chief Justice Earl Warren instead of the vice president to represent the United States at Sir Winston Churchill's funeral.

Generally, Humphrey has been kept on a short tether, laboring as liaison between the White House and Congress and giving speeches within the United States.

Coincidentally or otherwise, the White House announced the plans for Humphrey's trip after a public opinion poll showed that apparently surprised Humphrey's staff.

Johnson said he had selected Humphrey as his No. 2 man because he was equipped to be a good president.

But the recent poll showed that the majority of people sampled was not as sold on Humphrey as Johnson said he was.

To accompany Humphrey to the Far East, Johnson is sending one of his own closest advisers, presidential aide Jack Valenti.

Pontiac Press Photo

ARCHWAY STILL STANDS — Leading only to the flames destroying the Walled Lake casino is the archway, through which once passed the greats of the big-band era. The dance pavilion in Novi ranked with such other band arenas as the Glen Island Casino in New York, Frank

Dailey's Meadowbrook in New Jersey and the Trianon and Aragon ballrooms in Chicago. The building with a 120-by-140-foot dance floor was called the Club A-Go-Go at the time it was destroyed yesterday morning by a fire of undetermined origin. (Additional photos on pages A-2 and A-4).

Fire Razes Casino at Walled Lake Site

The Walled Lake Casino went up in flames early yesterday morning.

Value of the destroyed building was estimated at close to \$250,000.

After an evening of dancing to the latest tunes, several hundred teen-agers left the casino at 11:30 p.m.

Just 13 minutes later, the Novi Fire Department was summoned by a neighbor to the pavilion at 1904 Novi.

FOR 10 HOURS
For the next 10 hours, they battled the fire which leveled the building.

Some 100 firemen from seven departments were called to the scene.

The fire, cause of which is not yet known, started in the bandstand area.

"It was going out through the roof of the stage when we got there," Novi Fire Chief Frederick Lynnes said.

'RAN OUT OF WATER'
For a while, it looked as though there was hope for saving a portion of the building.

"We had the fire nearly knocked down, and then we ran out of water for a couple of minutes," Lynnes said.

There was a brief pause between the time the tankers ran out of water and the pumps could start pulling water from Walled Lake.

"Then we had mud troubles with the shallow lake," Lynnes said. "It seems like everything was against us."

'AWAY IT WENT'
While firemen were coping with the water shortage, the blaze "got in the latticework and away it went," the chief commented.

Assisting the Novi volunteers were firemen from Walled Lake, Commerce Township, Wixom, West Bloomfield

Township, Farmington Township and Northville.

Opened in 1928, the casino saw its heyday in the 1930s and '40s.

TEEN SCENE
Parents will remember: they danced to the big bands there back in the 1930s.

Their children will remember the large pavilion as an a-go-go scene for teen-age hops.

In fact, one wouldn't be too hard-pressed to crowd three generations into the 27-year history of the dance hall.

While it has provided entertainment for dancers for nearly four decades, the casino was identified most strongly with the swing era of the big bands.

The Christmas dance held there Saturday was in keeping with the establishment's new name, the Club A-Go-Go.

In its heyday, thousands of persons came to the pavilion on the south shore of Walled Lake to hear such headliners as Tommy and Jimmy Dorsey, Red Nichols, Les Brown, Jan Garber, Wayne King, Carmen and Guy Lombardo, Sammy Kaye and Vaughn Monroe.

Originally owned by Louis Toletine, the casino was closed in 1958.

Two years later, it was purchased by Ovid J. Kraemer of 8410 Golfside, Commerce Township.

His attempt to recapture the mood of a bygone era failed.

"We found out that what the kids call old-time dances just didn't pay off," Mrs. Kraemer said.

The Kraemers sold the casino to two Detroit businessmen in 1964.

Mrs. Kraemer commented that it probably would cost \$250,000 to duplicate the building if anyone wanted to duplicate it now.

area, the weatherman now predicts a sharp drop in the temperature tonight and tomorrow.

Area residents, lulled to sleep by the sound of rain on the roof Friday night, awoke to find from three to five inches of snow on the ground Christmas morning. Some also found their clocks had lost an hour.

Three thousand Pontiac families were wily Saturday morning, according to Consumers Power Co. At 2:55 a.m., a car ran into a utility pole at Bagley and Irene knocking down a transmission line.

As a result, electric power was out for customers in the west section of Pontiac.

Twenty-one was the low mercury reading, preceding 8 a.m. today. The mercury stood at 30 at 2 p.m. in downtown Pontiac.

Planes Shun Attacks on N. Viet Nam

SAIGON, South Viet Nam (AP) — For the third straight day, the United States kept its planes out of North Viet Nam's skies today, but U.S. Marines killed 63 Viet Cong in ground skirmishes after a short Christmas truce.

The Marines reported strikes against the Communists during patrols around the big U.S. air base at Da Nang, 380 miles northeast of Saigon. The Americans reported taking light casualties.

A squad of leathernecks pounced on about 40 Viet Cong, killing 15 at a hamlet called Quang No. 1.

Two hours later a Marine platoon near Quang, U.S. No. 2, about two miles southward, was attacked by 75 Viet Cong armed with automatic weapons.

The Americans killed in artillery support, tanks and armed helicopters.

With the brief encounter was over they counted the bodies of 41 Reds.

Marines, in other scattered actions against the Reds, reported killing seven Viet Cong during the day.

Air attacks were made only on suspected Viet Cong concentrations in South Viet Nam, U.S. spokesmen said. Ground action also was reported in low key for the past 24 hours.

Beyond confirming the suspension of the aerial war which steadily had been closing in on the Hanoi-Haiphong industrial belt, U.S. officials in Saigon said only that the orders came from Washington.

NEW INVITATION
This raised speculation that the pause was a new invitation to North Vietnamese President Ho Chi Minh's regime to come to the peace table. U.S. officials declined to guess how long the lull would last.

In the south, U.S. casualty lists grew.

A U.S. Army truck carrying soldiers of the U.S. 1st Infantry Division hit a mine 30 miles north of Saigon. Casualties were reported heavy.

The Viet Cong detonated a mine at a government troop barracks at Sa Dec, 70 miles southwest of Saigon, just as two

(Continued on Page 2, Col. 3)

Safety Official Calls Road Toll U.S. Disaster

Hazardous Weather Conditions Help Push Total Past Prediction

By The Associated Press
Traffic deaths of 712 persons during the 78 hours of Christmas week-end shattered all records for holiday highway deaths.

A safety official termed the toll a national disaster.

Until last weekend, the deadliest holiday period was the 192 hours of the four-day Christmas observance in 1956 when 706 persons were killed in traffic.

The period included six hours immediately preceding the four days.

This Christmas span, from 6 p.m., local time, Thursday to midnight yesterday, posed an

unusual array of weather hazards on much of the nation's highway network.

DEATH TOLL
Commenting on the death toll, John D. Lawlor, executive vice president of the National Safety Council, said:

"If two weeks ago someone had warned that disaster would strike the nation on Christmas, killing more than 700 men, women and children, does anyone doubt that emergency measures would have been taken to prevent such a thing from happening?"

"What happened during the past three days was nothing less than just that — a national disaster."

The council had predicted before the holiday that 500 to 600 persons would die.

ADDED HAZARDS
Rain, sleet, snow and freezing temperatures over much of the nation added to the expected hazards of long-distance travel, minimum daylight and roads jammed with cars.

The Safety Council said 80 million vehicles were on the road during the 78-hour period. (Continued on Page 2, Col. 6)

GEORGE E. SMITH

NAHA, Okinawa (AP) — The U.S. Army said today it has charged two GIs with aiding the enemy during two years of Viet Cong imprisonment and is investigating to determine whether they will be put on trial.

The two soldiers are Sgt. George E. Smith of Chester, W. Va., and Spec. 4 Claude McClure of Chattanooga, Tenn., who were released by the Viet Cong last month.

They will remain on Okinawa until a final decision is made on their cases, the spokesman said.

After an extensive investigation, he said, they were charged with preparing, furnishing and delivering to the Viet Cong certain documents, statements and writings inimical to the interest of the United States.

The spokesman said the two Special Forces men have been provided defense attorneys.

In accordance with U.S. military procedure, their cases now are being studied to determine if they will face a trial by court-martial.

Smith, 27, and McClure, 25, were captured in November 1963 when guerrillas overran the Hiep Hoa camp northeast of Saigon.

RELEASED NOV. 27
They were released last Nov. 27 at the Cambodian border during a period of demonstrations in the United States against the Viet Nam war. After a week in Phnom Penh, capital of Cambodia, the two were flown to Bangkok and then to Okinawa.

CLAUDE E. MCCLURE

They denied to American television newsmen that they had told a news conference in Cambodia they would return to the United States and join the campaign against the war in Viet Nam.

The two claimed their statements had been misinterpreted. CBS correspondent Murray Fromson quoted Smith as saying, "I did not use the word 'campaign.' What I said was that I would like to see strong efforts made to end the war in Viet Nam."

NBC newsmen Jack Perkins said Smith told him he was subjected to "a poor man's brainwashing," Perkins reported.

The television newsmen said (Continued on Page 2, Col. 3)

2 Noted Scientists Clash on Antimissile Plan, Shelters

BERKELEY, Calif. (AP) — Two prominent scientists clashed today over the value of a defense system of proposals to spend billions on antimissile systems and fallout shelters.

"Reliance upon a defense system of such extraordinary complexity may bring more risk than safety," said Dr. Barry Commoner, head of the Department of Botany at Washington University, St. Louis, Mo.

Dr. Edward Teller, University

of California physicist and one of the inventors of the atomic bomb, countered. "A strong civil defense is our best hope of preventing nuclear attack."

The two were scheduled speakers in a symposium on civil defense at the annual meeting of the American Association for the Advancement of Science, the largest scientific convention of the year, attended by more than 6,000.

DIFFERENCE OF OPINION

The difference of opinion

came at a briefing prior to the symposium. Commoner, an authority on the effects of radiation on man's environment, accused Secretary of Defense Robert S. McNamara of giving a "woefully inadequate" picture of the immediate and eventual damage from nuclear war.

He predicted "epidemics of human and animal diseases, crop destruction by radiation, erosion and sterilization of the land resulting from massive

destruction of vegetation, and the triggering of possibly catastrophic climatic changes."

These, as well as immediate destruction from blast heat and radiation, he said, "lead me to conclude that this nation, its population, its economic wealth, its social fabric — all that we speak of as our civilization — would be irrevocably lost following a major nuclear war."

SURVIVAL
He conceded that some scientists would disagree with him

but insisted "there can be no disagreement that it is absolutely impossible to be certain of our own survival."

Teller said strong civil defense measures are vital as a deterrent.

"The Russians characteristically avoid taking risks," Teller said. "If we have no shelters or antimissile systems they may feel they can defeat us. But if we put up a strong civil defense I believe we will prevent attack."

"The Russians and the Chinese are not mad, as Hitler was. It is fortunate that we are now faced by reasonable opponents. I don't think they will want to start a war unless they are sure they can defeat us, and they can't be sure if we have a strong civil defense."

COMBINED SYSTEM

Commoner pointed out that the Johnson administration is considering a combined antimissile-shelter system, expected to cost several billions.

He said he believed the money a strong civil defense system would cost might be better spent on a research and education to prevent war but that in any case no decision should be made without informing the public of potential dangers.

Teller said he was convinced that adequate civil defense measures would at last decrease the number of casualties and that their very existence would make potential aggressors hesitate.

For Critically Ill Girl

Santa Made Two Trips

Santa Claus made two visits this year to Diane VanKleeck, the 11-year-old girl who is in Pontiac General Hospital with a brain tumor.

Coordinator Is Sought for Coroner Plan

A search for an administrator to coordinate the function of Oakland County's coroner system was launched today after establishment of the new position was authorized by county officials.

The new job was proposed last week to strengthen the present coroner system and approved today in a joint meeting of the ways and means and salaries committees of the County Board of Supervisors.

No salary was set but County Personnel Director John Witherspoon was instructed to begin a search for qualified personnel.

The main requirement for the job is an extensive background in homicide investigation. Primary duties will be to work with area police departments and liaison with the prosecutor's office in cases of unusual deaths.

Witherspoon indicated that the experience requirements for the job probably would mean that the man hired be, or have been, a homicide specialist with a large police department.

Hiring of the administrator would relieve Oakland County Health Director Dr. Bernard D. Berman of day-to-day duties of administering the coroner system in addition to his health department responsibilities.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Mostly cloudy today with a little light snow, at times, possibly mixed with some freezing drizzle. Highs 27 to 35. Much colder tonight with snow flurries. Lows 2 to 15. Tomorrow partly cloudy and colder. Highs 16 to 23. Winds south to southwest at 10 to 20 miles per hour, becoming west to northwest at 15 to 25 miles per hour this afternoon and tonight, and diminishing tomorrow. Wednesday's outlook: partly cloudy, not as cold in the afternoon.

NATIONAL WEATHER — Snow flurries are due tonight in north and central Appalachians, lower Lakes and Ohio Valley with snow due in northwestern part of the nation. Rain is due for Pacific Coast from Washington to central California. It will be colder from Lakes into southern Plains and somewhat warmer in Atlantic states and along Pacific Coast.

CONG SUSPECTS BOUND—U.S. soldiers bind two Viet Cong suspects captured recently in a helicopter assault in an area 30 miles northwest of Qui Nhon by units of the 1st Cavalry Division. The suspect at right is wearing an old French army jacket, which is being pulled down over his bound arms by the soldier.

Planes Avoid Eichmann's Son Tells N. Viet Skies

(Continued From Page One)

Vietnamese platoons were starting the work day.

"It killed or hurt a lot of soldiers," a U.S. Army officer said.

An adjutant compound for American advisers escaped the force of the explosion. A second mine was found and disarmed.

Twenty miles southwest of the barracks, a Communist mine blew up a Jeep, killing two American soldiers and a Vietnamese civilian.

The Air Force raised its toll of fire over North Viet Nam to 10 planes. A spokesman said during an assault on the Bac Giang bridge 45 miles north of Hanoi Dec. 19 had been hit by a Soviet-built surface-to-air missile. The pilot was rescued.

A U.S. spokesman was asked if he saw any political significance to the halt in the air raids on the north beyond the 30-hour U.S.-South Vietnamese holiday cease-fire. "If there is any, I don't know what it is," he replied.

No word came from President Johnson at his Texas ranch, but he reportedly still retained a glimmer of hope the fighting would not return to its pre-Christmas ferocity.

U.S. Charges Two GIs With Aiding Enemy

(Continued From Page One)

neither GI was aware of the fate of the two other Special Forces men captured with them at Hiep Hoa. Sgt. Isaac Camacho, of El Paso, Tex., escaped last July. Sgt. Kenneth M. Boraback of Fayetteville, N.C., was reported executed by the Viet Cong in September.

When the Viet Cong released Smith and McClure, the guerrillas said they were doing so "not without anticipating the measures to which the American aggressors may resort to maltreat, threaten, intimidate and buy the two soldiers."

Decorated by Thailand

BANGKOK (AP) — Gen. Earl G. Wheeler, chairman of the U.S. Joint Chiefs of Staff, honored one of Thailand's highest decorations today by Premier Thanom Kittikachorn. The award is the Most Exalted Order of the White Elephant, First Class.

Eichmann's Son Tells Plots to Free Father

(Continued From Page One)

MUNICH (UPI) — The son of Adolf Eichmann today revealed an alleged plot to kidnap and torture the Israeli ambassador in Buenos Aires to force the release of his father from Israel.

Klaus Eichmann said the plot had been proposed by a leader of the Nazi-styled Peronist Youth Movement following the seizure of Eichmann's abduction from Argentina in 1960 by Israeli agents.

He also said another proposed plan envisaged the blowing up of the Israeli embassy building in the Argentine capital — but that both plans were dropped upon the advice of a former Nazi SS officer and friend of his late father.

The son made the disclosures in an interview with the West German magazine Quick, which went on sale today.

He said his father went to his grave believing that many top Nazis, including Hitler's right-hand man, Martin Bormann, survived collapse of the Third Reich.

Young Eichmann, who lives in the Buenos Aires region, also says his father often claimed he had been unjustly accused of war crimes.

The elder Eichmann was captured in 1960 by Israeli agents who tracked him to Argentina, where he had been living for many years under an assumed name.

Tried and convicted during a celebrated trial in Israel, Eichmann was hanged in 1962 for the murders of millions of European Jews.

'STILL ALIVE'
"Father often said those really responsible were still alive—people such as Martin Bormann, Heinrich Mueller and others," Klaus Eichmann told his interviewers. "But Bormann above all."

Gestapo chief Mueller and Bormann, long have been rumored to be alive and hiding somewhere in South America. West Germany has a \$25,000 reward posted for the capture of Bormann.

Area Pounded by Snowstorm

(Continued From Page One)

Oakland County residents got a sample of things to come Saturday morning when the first big snowstorm of the winter swirled in on 35-mile-an-hour winds.

All available County Road Commission crews were called out around midnight when a driving rain changed to snow and driving became hazardous.

Maintenance crews remained on duty until 10 last night plowing out drifts and salting and sanding intersections, according to Richard Kincaid, assistant maintenance superintendent.

Conditions were the worst in the north half of the county, where high winds drifted some five inches of snow into three-foot drifts.

Some roads were impassable until they were plowed out yesterday, Kincaid said.

No emergencies resulting from blocked roads were reported to the road commission.

The snow on some well-traveled rural roads not bothered by drifting became packed before snowplows could get to them and were extremely slippery yesterday.

Predictions are for falling temperatures tonight, and slippery conditions on unplowed roads are likely to prevail for a day or two.

HOLIDAY WEEKEND
Toll Breaks Record
(Continued From Page One)

which started at 8 p.m. Thursday and ended at midnight last night.

Several accidents accounted for dozens of deaths.

Shortly after the start of the holiday period, a bus traveling on icy pavement in Oregon skidded out of control, crashed and turned over. The accident Thursday took 13 lives.

OUT OF CONTROL
The next day, five persons died when a car skidded out of control on an ice-coated bridge in eastern Oklahoma.

Five persons died yesterday on a snowy road near Buffalo, Minn.

Christmas Eve Crash
Kills 2 in Ontario
STRATHROY, Ont. (P) — Two men were killed Christmas Eve when their cars collided near here.

Killed were Harry William Feast, 34, formerly of London, Ont., and now living in Mount Clemens, Mich., and George Muzumal, 26, of Strathroy.

The total dead far exceeded the 578 killed over the 1964 Christmas weekend and the 428 fatalities during a recent non-holiday weekend.

Birmingham Area News

Twelfth Night Gala Set for Jan. 6 at Cranbrook

BLOOMFIELD HILLS — The 18th annual Twelfth Night Gala will be held at Cranbrook House Jan. 6.

Hosts for the 8-11 p.m. event are the Henry S. Booths.

Booth is executive director of the Cranbrook Foundation and chairman of its board of trustees.

A flaming plum pudding will be featured among the refreshments served at Cranbrook House, home of the late founders, Mr. and Mrs. George G. Booth.

Guests will include members of the faculty and staffs of the six Cranbrook institutions, trustees and directors of the six Cranbrook institutions, board members of the Cranbrook Music Guild and St. Dunstan's Guild, choir members of Christ Church Cranbrook and their spouses.

NATIVITY SCENE
The nativity scene will be remodeled and there will be mummings, but the details and characters are never revealed in advance.

The Cranbrook Institutions are Cranbrook School, Cranbrook Middle School, Cranbrook Brookside School, Cranbrook Cranbrook Academy of Art, Cranbrook Institute of Science and Christ Church Cranbrook.

Representatives of each are working with Booth on plans for the gala.

A visiting scholar chair has been established at Cranbrook Institute of Science to help promote scientific literacy through publication, broadcast, lecturing or museum exhibits.

The purpose of the visiting scholar chair is to bring to the area distinguished individuals who would like to participate for from three months to two years in the program.

The program is flexible and suited to persons on sabbatical or newly retired from academic life who wish to remain active in education, in research in one of the natural or physical sciences or in the promotion of conservation.

Only one appointment is to be made.

Food for Poor Stolen
JOLIET, Ill. (P) — Burglars broke into Salvation Army headquarters over the weekend and stole 22 bags of food intended for the poor. Capt. Ross Zarbus of the Salvation Army said the bags of food were worth \$15 each.

Three new branch offices, one in Pontiac and two in Waterford Township, will open in 1966.

Max T. Adams, manager of the Chamber of Commerce, forecasts a "similar size" year in 1966 as in 1965. He saw an increase in business expansion if there wasn't a lull in the national economy.

"It depends if people get scared," said Adams.

SKI RESORTS
The chamber manager cited one industry that hopes 1966-67 will be better than 1964-65. While others did a booming business in 1964, ski resort operators did not.

Cold weather is the key to the skiing business. In 1964, warm, wet weather hampered the turnout and ski operators suffered.

A 20 per cent increase is projected for southeastern Michigan ski business for 1965. This includes Pontiac, has about 100,000 skiing sportsmen, said Adams.

Another "sports" business that is dependent on the weather is golf. Generally, the climate was kinder in 1965 than in 1964.

A five new courses were added to the Pontiac area in 1965 with three more slated to open in 1966.

CASINO RUINS — The steel framework and some metal furnishings were all that was left of the Walld Lake Casino yesterday morning when firemen called a halt to their 10-hour fight against a blaze of undetermined origin. The fire broke out minutes after the start of a Christmas dance for teen-agers at the pavilion, which had recently been renamed the Club A-Go-Go.

Luci May Wed in White House

AUSTIN, Tex. (UPI) — Luci Baines Johnson, the President's daughter, has "no strong feelings" about wanting her wedding to take place in the White House, a spokesman said today.

"She will be married while she lives in the White House," said the First Lady's press secretary Mrs. Elizabeth Carpenter, "and I'm sure it will be a good wedding."

Newly engaged Luci, 18, and her fiancé, Patrick J. Nugent, 22, headed back to the LBJ ranch after spending part of the Christmas weekend with his parents in Waukegan, Ill.

An airman, he had to be back at Lackland Air Force Base at San Antonio, Tex., today.

Nugent is a Roman Catholic, and Luci is a convert to that faith.

NEED PERMISSION

They would have to get special dispensation from Archbishop Patrick O'Boyle of the Washington diocese to have their ceremony in the late summer take place in the White House instead of a church.

Lynda Bird Johnson, 21, the President's older daughter, planned to fly to Evanston, Wyo., today to spend some of her holiday — through Thursday — with her boyfriend, Brent Eastman, 25, a medical student. She met last summer at Jackson Hole, Wyo.

VISITING PARENTS — Luci Johnson, whose engagement to Pat Nugent (left) was announced Christmas Eve, visited with her prospective husband's parents in Waukegan, Ill., yesterday. The President's daughter and her fiancé were expected to return to Texas last night.

Famed Judge Dies

PHILADELPHIA (AP) — Judge Gerald F. Flood of the Pennsylvania Superior Court died Sunday at 67. His career as

a lawyer, professor, lecturer and jurist covered more than 40 years. He was the first chairman of Philadelphia's Fair Employment Practices Commission.

Former Editor Dies

TUCSON, Ariz. (AP) — Alexander McKay Parker, 81, former editor of the Arizona Daily Star and the Tucson Daily Citizen, died Sunday.

SIMMS Open Tonite 'til 10 p.m.
TUES. & WEDS. Hours 9 a.m. to 6 p.m.

Whew! It's been a real hectic Christmas at Simms. And frankly, we don't know what's left... we do know this: we have late Christmas items still coming in, leftover short lots, adds 'n' ends, some items we thought would sell out, but didn't and some real good buys which didn't move off the shelves.

And, like man, we have to get rid of it. The boss gave the word: 'Clear the Decks'... and Simms dept. managers are cutting prices to the bone just so they don't have to repack merchandise.

So, as we said, we don't know what's left—naturally we can't advertise unknown items, so Simms is having a great big **rummage-clearance sale** for the next 3 days (Today, Tues., Wed.)

So come on in and browse around 3 big floors of bargains. Look for the **rummage-clearance** signs and if you like the item and the price, take it with you.

Hurry, 'cause there will be plenty of some, few of others—onesy's and twosy's but all at reduced prices. Simms is wheelin' 'n' dealin' and at our discounts it's like stealin' So steal into Simms the next 3 days and buy, buy, buy.

Mobile Home Site Vote Set

Earlier Rose Election Was Unconstitutional

ROSE TOWNSHIP — A referendum election will be held Feb. 1 to determine if voters want another mobile home site in the township.

The Township Board scheduled the election after learning that Circuit Judge Arthur E. Moore ruled that a previous election on the question was unconstitutional.

Moore's opinion partially answered charges filed against the township by Mohave Plantation, Inc., in October.

The development company started the legal action after property owners voted on Sept. 28 to reject an earlier decision of the township board to rezone the property.

When the proposal failed the property reverted back to its former industrial zoning, thereby preventing the firm from going ahead with its plans.

SOUTH OF HOLLY

The site is located at the south of the Holly Village limits, and adjacent to the firm's first mobile home park.

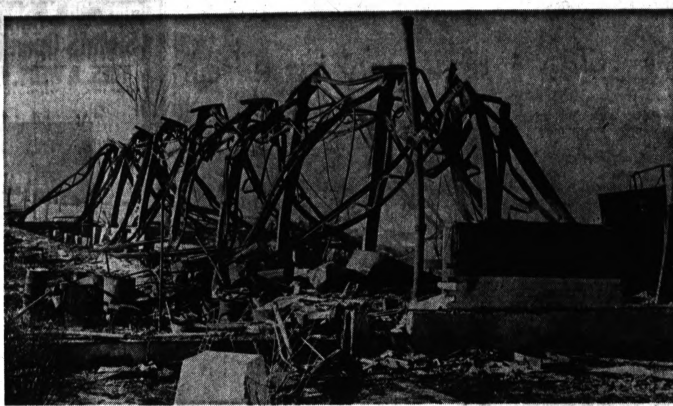

In voiding the first election, Judge Moore ruled that it was in conflict with the 1963 state constitution because only property owners were permitted to decide the question.

All qualified voters will be allowed to make the decision in the February election. The deadline for voters to register for the special election is Jan. 3.

Still to be decided by the court is a question on the zoning of the property.

The firm contends that the property cannot be reasonably used under the present industrial zoning classification, and that "the only logical use is in conjunction with the development of Holly Shores Subdivision," the developed mobile home site adjoining the property.

Using the property for an industrial district would seriously impair the value of the present development, according to the suit.

SKELETON REMAINS — All that was left of the Walled Lake Casino yesterday morning was the steel framework of the famed dance pavilion. The wooden structure at 1904 Novi Road, Novi, was destroyed by a fire which broke out late

Saturday night, minutes after a crowd of teen-agers had left a Christmas dance there. The 37-year-old casino has hosted many big-name bands, providing entertainment for three generations of dancers. (See story, page A-1).

In Avondale

Seek \$29,000 for School Program

Administrators and citizens of the Avondale School District are writing up an educational program which they hope will net them \$29,000 in federal funds to carry out its implementation.

The committee has been working on the program for the past two weeks and hopes to present it to the board of education for approval next week, according to Acting Schools Supt. Charles Johnson.

The funds for the language arts program are being made available under Title I of the Elementary and Secondary Education Act.

The money is given to each school district on the basis of the number of children within the district whose families earn \$2,000 per year or less. Avondale has 123 such cases.

Avondale plans to set up three programs with the grant.

READING PROGRAM — One is a remedial reading program which will be designed

to give more individual reading instruction.

An elementary guidance counseling program will also be set up. Johnson said Avondale would be one of the few districts in the area to have such a program.

The third plan is a junior primary classroom for kindergarten children who are not quite ready for first grade.

In this classroom, slower children would have a chance to mature and prepare for the first grade.

AID READING

"This is intended to help their reading abilities," said Johnson. "If a child isn't mature, he can't learn to read."

He said the length of time a child spends in this class will be flexible. Some may need an entire semester while others may be ready to go into first grade earlier.

Once the program is approved by the board of education, it is sent to the Department of Education for approval. Johnson said he hopes to be able to start the program next semester.

Vacation Program Slated for Children

ROCHESTER — A Christmas vacation show for children will be presented by the Avon Playhouse Corp. Wednesday at the Hills Theatre.

The program will feature Jerry Rode of the Fun House Show on CKLW-TV, a movie and games.

Show times are 1 and 3 p.m. Tickets will be available at the door.

Traffic Light Is Planned for Intersection

AVON TOWNSHIP — A traffic light will be installed at the intersection of Walton and Livernol next month on the recommendation of the Oakland County Road Commission.

The commission just completed a survey of traffic conditions at the intersection.

The light will go into operation Jan. 23. It will be a controlled light from 7 a.m. to 8 p.m., seven days a week.

At all other times, it will be an amber flashing light for east and westbound traffic on Walton and a red flasher for north and southbound traffic on Livernol.

Township Supervisor Cyril E. Miller said there has been a problem of traffic congestion at the intersection.

JC Official Named

AVON TOWNSHIP — Raymond Lingling of 569 Nichols has been named traffic safety chairman of the Auburn Heights Area Junior Chamber of Commerce.

Holiday Traffic Claims 29 Lives

By The Associated Press
Michigan traffic mishaps claimed 29 lives during the cold, icy 78-hour Christmas holiday weekend.

The Associated Press tabulation began at 6 p.m. Thursday and ended at midnight Sunday.

The victims:
Paul Ward, 16, of Port Huron, died Sunday when the vehicle in which he was a passenger left a road in Port Huron and hit a guard rail.
Donald J. Hall, 13, of Homer, died Sunday of injuries suffered Christmas Day when the vehicle in which he was riding and a train collided at a Calhoun County crossing.

ROLLED OVER
Viola Pearl Ritter, 58, of Highland Park, was killed Sunday when her car ran off a Wayne County road and rolled over.
James Brown, 49, of Detroit, was killed Saturday when his taxi collided with another car in Dearborn.

William Hardin, 21, of Stevensville, was fatally injured in a car-truck collision Friday in Baroda.
Emory McIntyre, 59, died Friday when struck by a car near his Mio home.

HIT BY CAR
Fred Herr, 60, was killed when struck by a car Saturday near his home in Rogers City.
Claude Cross, 67, was the victim of a hit-run driver Friday near his home in Jackson.

Ida McNeil, 40, of Detroit, was struck and killed by a hit-run driver in Detroit Friday.
Robert Harrison, 31, of Akron, died Friday when his car struck a farm vehicle in Tuscola County.

2-CAR CRASH
Roberto Rodriguez, 24, and his wife Arlene, 23, died Friday in

a three-car collision in Saline near their home.

Lorene Snyder, 16, and Barbara Ann Matrau, 16, both of Hartford, died in a two-car collision Friday in Hartford.

Lester Mead, 55, of Benton Harbor, was fatally injured Friday in the collision of a car and mail truck in Berrien County.
John Raap, 74, of Merritt, was killed Friday in a head-on collision on M58 west of Houghton.

GUARD RAIL
Kenneth Berry, 37, of Coloma, died Friday when his car went out of control on 194 in Berrien County and hit a guard rail.
Robert Demmink, 17, of Ada, was killed Friday when his car

left a Kent County road and struck a tree.

James Taylor, 47, of Grass Lake, died Friday when his car overturned on a Jackson County road.

Margaret Badgero, 14, of Onaway, was killed Friday when the car in which she was riding collided with a truck south of Cheboygan.

KILLED
Garner Pharris, 31, of Hazel Park; Hollis Miller, 18 and Larry Lee Hall, 18, both of Detroit were killed Friday in the collision of their car and a truck in Detroit.

Beatrice Shea, 59, of Wyoming, was killed Friday when a car ran into her house while she was sitting in the living room.
Kenneth Hodges, 23, and Dale Hinescutt, 24, both of Flint, died Friday after their car went out of control in Oakland County and rolled over.

Mary Thompson, 50, of Grandville, was fatally injured Thursday when struck by a car while pouring gasoline into her car on a street in Wyoming.

Donovan Shambau, 29, of Royal Oak, was killed Thursday when struck by a car while walking in Royal Oak.
Donald Reid, 23, of Gregory, was killed Thursday when his car hit a tree beside a Wash-taw County road.

VFW Post Slates
New Year's Eve Dance

WIXOM — Lawrence W. Sims Veterans of Foreign Wars Post No. 3552 has scheduled its annual New Year's Eve dance for 9:30 p.m. to 3:30 a.m. at the post home, 2652 Loon Lake.

Reservations can be made by telephoning Jack D. Colpitts, 3155 Fisher, Commerce Township.

Resident of Area Is Stabbed to Death

A 30-year-old Commerce Township resident was stabbed fatally yesterday in Cincinnati, Ohio, during what police said was an argument with his wife.

Police said Charles L. Engle, 3268 Pontiac Trail, was killed during an argument with his wife Beatrice (Sandy), who lives in Cincinnati.

Mrs. Engle, 20, was to be arraigned today on a charge of first-degree manslaughter.

PTA to Show 'Dumbo' to Get Funds for Books
SCHOOL — Colerain Elementary School PTA will show a movie, "Dumbo," Wednesday to raise money for new library books.

The film will be shown at 10 a.m. and 1 p.m. Refreshments will also be sold.

Dr. Wayne G. Brandstadt Says:

Can't Cure Osteoarthritis, Only Ease Pain

Q — What causes osteoarthritis? Is there a cure for it?

A — Osteoarthritis is less severe than rheumatoid arthritis. Heredity and the aging process play a part in its cause.

In women it is often associated with knobbing and swelling in the joints of the fingers. Although there is BRANDSTADT no medicine or any other form of treatment that will restore the affected joints to normal, aspirin and phenylbutazone will relieve the pain.

If you are overweight, you are putting an unnecessary burden on your joints and reducing will improve your condition. Good posture is also important.

Avoid bumping or knocking your joints as you grow older. A great deal of relief can be obtained by applying heat in some form to the affected joints for 15 to 20 minutes once or twice daily.

Moderate exercise will go far toward preventing stiffness.

Q — I have had rheumatoid arthritis for three years. My doctor recommends injections to induce fever. Would they be helpful?

A — Although artificial fever has been used in the past in the treatment of various forms of arthritis with some success, it has largely been abandoned

in favor of such drugs as aspirin, phenylbutazone and a cessively dry skin, dandruff new drug — indomethacin. External heat is also helpful.

Q — What is pruritus? What causes it? Is there any cure?

A — Pruritus means itching your temporary relief but removing any visible skin lesions ing the cause is the only way to effect a cure.

It may be caused by dia-

It Seems to Me....

Select 'Man of the Year'...
the Unsung Hope of America

There is no better time than now to hail the Man of the Year.
I bow low before him.

My Man of the Year is that grand individual who minds his own business, pays his taxes, keeps his lawn mowed, loves his wife, pays attention to his children and votes at every election. He attends church regularly.
He's a star.
He's the basis of existence.

Without him, we'd have anarchy, chaos and utter confusion. He's the spark plug for constructive ventures and he is the bold and open opponent of wrong. He doesn't burn his draft card. He doesn't harass his local, State or Federal Government with pointless parades, marches and "sit-ins."

My Man of the Year obeys the law and his three or four growing children do the same. His wife supports him loyally and encourages his moves for better government, better citizenship and better moral values. She's a very real part of the Man of the Year herself and fully qualifies as his equal on all levels.

His picture isn't in the paper and he doesn't rate a police escort. You pass him repeatedly, but never recognize him. That's why I point him out. My Man of the Year has a bank account and is saving to send his children to college. They do odd jobs themselves and save money, also. They don't hang around with misfits, miscasts and the juvenile fringe. They never disgrace their parents, their neighborhoods or their cities.

My Man of the Year attends his church quite regularly and serves on committees. He doesn't appear at "civil disobedience" rallies and he stands staunchly behind the law and the officers. In his book, our Puritan ancestors may have been a little extreme—but only in some things.

He is a strong advocate of a democracy. He believes in ruling peacefully and not by street brawls and demonstrations that flout the police. He's against socialism, communism and the divine right of kings. My Man of the Year is worried over signs of timidity on the part of our courts and he's confounded by radical interpretations of existing statutes which were designed to protect and encourage reason and decency.

He arises early and is on the job regularly. He contributes to the success and progress of the business organization with which he is associated and is loyal in protecting the rights of the firm that pays him. He is the unsung hope of America and he has never, never been as important as he is today. His actions and his influence are probably more ascriptive in the future of our Nation than were any of his ancestors. He lives in a more crucial moment and critical era.

Can I give my Man of the Year a name?
I think I can.
Probably, it's YOU.

Priceless Asset....

A few Britain die-hards still wall at the "cost" of Princess MARGARET's visit here.

Apparently, it took \$84,000. What a bargain that was!

As a goodwill gesture and a step towards better cohesion between two great nations, the trip fulfilled its mission many times over. The young lady is an attractive and charming individual and the Earl of Snowdon handles himself wonderfully. They created an excellent impression and "made friends and influenced people," everywhere.

Over here, a nation rejoiced.

The world is full of international phonies. Political vagabonds clutter the home front everywhere and the global scene is knee-deep in petty scoundrels. Hence it was doubly refreshing to greet lovely Princess MARGARET and the Earl. Every move reflected honor and glory on the British Empire. The British squawkers should hide their heads and ask a phantom Scrooge to move over.

I'm for the Princess. When I name my ten most engaging feminine figures, she'll be on the list. Any time a nation gets a representative like that to spread good will and friendliness, it has a priceless asset.

Someone said we spend that much every week flying people from Washington to the LBJ ranch.

Three cheers for Princess Margaret.

And in Conclusion....

Jottings from the well-thumbed notebook of your peripatetic reporter:

Here's a real bargain at the Astor Tower in Chicago: you can attend their New Year's Eve celebration, have a room for the balance of the night and a champagne breakfast served in bed the next day—all for \$100 a couple. Overheard: "I've often wondered: does Santa really live at the accepted North Pole or the true, magnetic pole." GEORGE PUTNAM's Central High singers deserve a straight "A" (capital).

It's suggested...

that a baby should be the logical Christmas good looking girl from the area, so I offer you Lucy Giardello. Overheard: "I saw a movie so the robbers drove right up in front of the bank and found a place to park." Japan is experimenting with taxicabs that start on gasoline and then burn kerosene. A few New York barber shops have started serving drinks to customers.

Few current voices give me any greater satisfaction than GORDON McRAE's. I think he's super terrific, anyway.

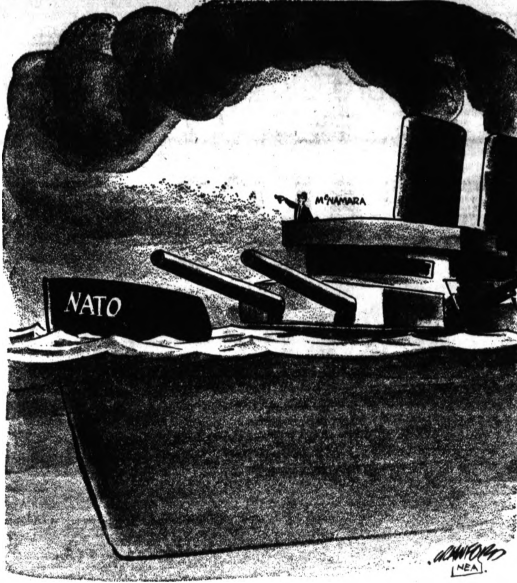

Overheard: "My father's afraid to scrape all that makeup off my sister's face for fear he'll find he's been bringing up a kid belonging to someone else." The

PEGGY

'Damn The Torpedoes—Full Speed Ahead!'

David Lawrence Says:

Autocracy Source of World Ills

LAWRENCE

WASHINGTON — Peace is still an unfulfilled objective. Individual failings are responsible for the inability of governments to reflect the true will of their peoples. This is the prime cause of the perennial threats of war.

Basically, mankind would prefer to live at peace, but the indulgences of ambitious individuals who get possession of the reins of government lead to the actions that bring on bloodshed.

Autocracy has been responsible for two world wars in this century, and it has also been the cause of many other wars in previous history.

The autocracy of the Kaiser in 1914 precipitated the first world war. The autocracy of Hitler — joined by the autocracy of Stalin — started the Second World War in 1939.

Today an autocracy prevails in Red China. It is tied in with another autocracy in the Soviet Union, where the Communist party alone chooses the country's leaders.

The discipline imposed by autocratic minds makes the whole process a triumph of conspiring cliques. This is by no means representative of the people's wishes, for no free elections with opposing tickets of candidates are permitted.

Autocracy is at the root of the troubles in Latin America. Men, more or less capable but often masters of intrigue, become dictators and use international policies and internal crises to force obedience as parliaments and congresses are subservient to selfish interests.

Autocracy is springing up throughout Africa. Groups of well-educated but scrupulous individuals have converted some of the former European colonies into small "republics" in which one-man government has emerged.

Many small countries have been given independence, but the trend is toward autocracy or oligarchy — not democracy. Autocracy reigns also in the Middle East — for instance, in Egypt, where Nasser has held sway for a long time.

The true democracies are few in number. They are confronted in Europe by puppet regimes under the control of the Moscow government.

Small wonder there are so many threats of war. Free peoples don't rule the world today — autocracies do.

In the face of such a disarray

and a situation comparable to the times when tyrannical tribal chieftains held sway, what has the free world done to alleviate such conditions?

The United States and some other countries have tried by altruistic grants as well as by commercial ventures in the backward regions to help advance the cause of modern civilization. But basically, the power of autocracies suddenly to attack neighboring countries remains. It breeds constant suspicion and fear of invasion.

How can the small countries be protected and their freedom be assured?

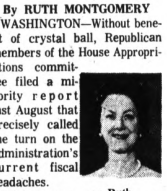

If they all had educated and honest leaders to run their governments, the story might be different, but even then there could be no safety unless outside governments refrained from engaging in subversive tactics and terrorism.

Political intrigue is at the bottom of this debacle. This is why progress toward peace is so slow and why sincere efforts to develop a federation of peace-loving and peace-keeping states will have much with frustrations.

Capital Letter:

GOP Report Called Turn on LBJ Fiscal Problems

Montgomery

By RUTH MONTGOMERY WASHINGTON—Without benefit of crystal ball, Republican members of the House Appropriations committee filed a minority report last August that precisely called the turn on the administration's current fiscal headaches.

Reports are widely circulating that the President's upcoming budget message will provide for stiff cutbacks in the newly launched Great Society programs in order to pay for rapidly increasing expenditures for the Viet Nam war.

As early as last spring, GOP congressmen were blasting the administration's previous budget as "unrealistic" — some even said "fraudulent" — because it provided no increase in Viet Nam funding.

At that time Chairman Melvin R. Laird of the House Republican Conference accused the President of deliberately holding up requests for supplemental defense appropriations "until his 'welfare' measures could clear Congress."

Laird and all other GOP members of appropriation's labor-HEW subcommittee filed a minority report Aug. 19 which began: "There can be no question that recent developments in Southeast Asia dictate the necessity for a much more prudent evaluation of the domestic needs of this country."

ANOTHER REQUEST

Pointing out that as predicted the administration had come to Congress twice since January with supplemental defense requests totaling \$2 billion for Viet Nam, the report predicted that another supplemental request of "about \$5 billion" would be made early in 1966.

Laird is willing to stake his reputation as a prophet that by April the administration will have asked Congress for \$10 billion more for Viet Nam than originally provided in the budget message last January. Laird also believes that since

only Congress is empowered by the Constitution to declare and wage war, the President should provide "clear and unvarnished facts about the war situation," so that Congress can fully debate the question of whether to declare war, or institute a blockade of North Viet Nam that could be considered an act of war.

Charging that war is already being waged without congressional declaration or proper funding, Laird said he opposes "this fight now — pay later attitude of the administration."

(Distributed by King Features Syndicate)

Voice of the People:

'Let's Rid Our Highways of Irresponsible Drivers'

I think the rule on uninsured drivers is one of the most unjust pieces of legislation ever passed. If every person applying for a driver's license were required to show proof of financial responsibility, only then would we rid our highways of unfit and irresponsible drivers and make traveling far safer and more pleasurable. I hope some day someone figures out a way to do something about those who are driving around with neither license nor insurance.

MRS. A. FIELD

'Court Rules Give Reds Clear Legal Field'

The Warren Court capped a long line of decisions favoring the Communist Party and striking down legislation drafted by Congress to protect the security of the Nation. The Chairman of the Senate Judiciary Committee immediately warned that unless "our Government has the power to protect itself against subversion... it faces inevitable destruction." The U.S. News & World Report sums up the effect of the Supreme Court ruling as "leaving the Reds almost a clear legal field."

REAR ADMIRAL CHESTER WARD, U.S. NAVY JUDGE ADVOCATE GENERAL OF THE NAVY, 1956-1960

Reports on Congressman's Voting Record

Billie S. Farnum, Michigan's 19th District Congressman, received a low 4 per cent for the votes cast during the 89th Congress from the American for Constitutional Action (ACA). Farnum has voted consistently against the constitutional principles established by our country's founders and as interpreted by ACA. The 1965 Index includes cumulative scores for the first session on the 89th Congress. ACA discloses that he has voted 100 per cent against sound money and for inflationary measures; 100 per cent against a private competitive market and for government interference; against individual liberty and for coercion 100 per cent; he has supported legislative and local self-government and for intervention by the federal government 100 per cent; for government ownership as opposed to private ownership 100 per cent; and against strengthening our national sovereignty 83 per cent of the time.

Farnum's low rating indicates he has persistently voted against the basic ideas our Constitution and relegated the authority vested in him to the executive branch, preferring to be a Presidential "rubber stamp." An analysis shows that, for every federal dollar sent to the State of Michigan for Federal programs, they must first pay Uncle Sam \$1.36. This is the price Michiganders pay to have Farnum represent them in the U.S. Congress.

AMERICANS FOR CONSTITUTIONAL ACTION WASHINGTON

'Intent of Constitution Has Been Stretched'

Commenting on Mr. Keel's letter, it seems that he advocates no restrictions on Communist activities here while using examples of Communist enslavement of other countries and why we are fighting it simultaneously. The iron and bamboo curtains were put there by exactly what the troops are fighting.

It is hard to believe that the great men who wrote our Constitution intended it to be stretched to the point that it could furnish nourishment and sanctuary to a system or members thereof who have announced their goal as world domination, and the U.S. its probable final defeat.

DAVID W. EDWARDS 2287 MT. ROYAL

'Soviet Troops and Weapons Are Emerging'

Soviet troops, which have been kept as inconspicuous as possible for the past several months in bivouacs in Cuba and underground installations, have emerged and are at work on military installations. Military construction is again under way. In the Province of Oriente, Camaguey, Pinar del Rio, and Havana, involving the use of thousands of Soviet troops and youths of the Russian Komsomol.

To protect its offensive "sanctuary," Cuba has been newly supplied with the latest in Russian weaponry. Some of the known items of equipment are ground-to-ground missiles, which have nuclear capability, and a modern jet air force of Ilyushin 14, MIG-15, MIG-17, MIG-19, and MIG-12 aircraft. There is even word of Cuba's increasing arsenal of missiles which has been kept from the view of foreign military experts.

Land Tax Squeeze

The Jackson Citizen Patriot

Michigan farmers complain that rising property taxes are doing them great harm. The Michigan Farm Bureau representing some 67,000 farm families, went on record at its recent convention as favoring fiscal reform with emphasis on cutting taxes on real and personal property. If that means the state income tax, there will be no major objections from the producers of food and fiber.

The fact is that farmers in Michigan, and in most other states with an economic pattern combining industry and agriculture, are in a brutal squeeze. Land is increasing in value and has been doing so through the post-war years. Here in Jackson County, for example, almost every acre of ground has a potential for commercial, industrial, residential or recreational use.

Land which once would sell for a few dollars an acre for agricultural use may bring several hundred dollars an acre for, say, a housing development.

This is fine for the farmer who wants to sell out and retire. But it makes the going hard for the one who wants to keep on farming. He may prefer to farm because that is the business he knows best. It may be far more rewarding for him than a job "in town." Thus it

Haircut Policy

The Lawrence (Kan.) Journal-World

Congratulations to Lawrence High School athletic director Al Woolard for his new policy relative to haircuts for LHS athletes.

Woolard said, "From now on the coaches will demand that athletes not wear long hair. The forelocks will be visible, but the hair is combed either to the right or left side." Unless the high school athletes conform with the hair style outlined by the coaches, they will be unable to compete for the school.

Lawrence High School has a truly outstanding record in the state, both academically and athletically, and the coaches now are taking the correct step in making sure the athletes not only represent the school well in performance but also in appearance.

Again, congratulations to the Lawrence High School coaching staff.

The betrothal of Jean Sanderson to Wells John Chapin, son of the Wells R. Chapins of Ann Arbor, is announced by her parents, the Ralph E. Sandersons of Elkin Road, Commerce Township. The June bride-elect is a junior at Western Michigan University.

June vows are planned by Evelyn Maxine Hood, daughter of the William R. Hoods of West Cornell Avenue, and Charles Callahan, son of Mrs. Joseph Jozwik of Baldwin Avenue and the late Lawrence B. Callahan.

Late summer vows are planned by Diane Ruth Peirce, daughter of Mr. and Mrs. Henry Peirce Jr. of Nadine Lane, West Bloomfield Township, and George Mitchell, son of Mr. and Mrs. Estel Crabtree of Walled Lake.

Early May vows are planned by Sharon Ann Gruno, daughter of Mr. and Mrs. Paul E. Gruno of East Tennyson Avenue and Stanley Andrew Brown, son of Clarence Brown of Detroit and the late Mrs. Brown.

The James P. Clancy of Ruth Avenue announces the engagement of their daughter, Linda Suzanne, to Michael R. Carter, son of the John E. Carters of South Genesee Avenue.

April vows are being planned by Margaret Janise Nail, daughter of Mr. and Mrs. John E. Nail of Walled Lake, and Richard McClintock, son of Mrs. Theodore McClintock of Miller Road, Orion Township, and the late Theodore McClintock.

Mrs. Sigrid Hein of Walled Lake announces the engagement of her daughter, Judith Ann Pello, to Pvt. Stewart Robertson of Fort Knox, Ky. son of the William Robertsons of 13 Mile Road, Novi Township. The bride-elect is also the daughter of Fred A. Pello of Calumet, Mich. Her fiancé attended Henry Ford Community College.

Betrothal and Marriage

Love Symbolized by the Ring

By MADELEINE DOEREN

The use of a ring for betrothal and another for the wedding can be traced back through many centuries. Yet, at various times and in many lands, a single ring, whether of gold or a baser metal, actually served a dual purpose.

First, it symbolized the betrothal of the loving couple and, at the wedding ceremony later, the actual sealing of the pact.

This single ring took on various kinds of adornment like the richly engraved and filigreed rings fashioned by the ancient Hebrews.

Centuries later, according to the Jewelry Industry Council, the ring that Prince Albert gave to Queen Victoria was the ultimate in ornamentation.

Fourteen hinged joints formed a gold snake. Twelve were set with diamonds.

FOR 500 YEARS

Toward the end of the 15th century, diamond-set engagement rings had become popular and two centuries later, had come into fairly general use.

Gold was high in esteem. It has been replaced to some extent by platinum.

The use of two rings, one for betrothal, and another simple

ring . . . "a plain band of holy union" prevails today.

A diamond has been the symbol of love since ancient times when its durability was first discovered. The very name comes from the Greek word "adamas" meaning "inconquerable" . . . the way of true love.

The size of a diamond doesn't matter. What it means, does!

YOUNG BRIDES

Two-fifths of all brides are young women under 20, according to material compiled by the U.S. Department of Health, Education and Welfare.

Many who come under this age level prefer the birthstone

not a diamond, for the engagement ring. An area art student, we are told, designed a free

form setting of satin gold to hold a cultured pearl for his fiancée's ring.

Specs Are Kid-Stuff to His Firm

NEW YORK (UPI) — Nearly 10 million school children wear glasses.

And since it's a matter of to each his own way of abusing the peepers, there are about 10 million unexpected things happening to the glasses.

They chew the stems and twist the frames. Boys put them in their hip pockets and then sit on them. They get in a fight and take off the cheaters. They put them down some place handy for someone to step on them.

They leave them on chairs so other people can sit on them. They put them on radiators where sometimes they melt. They bend the glasses to see how far they'll flex, getting the answer when the frame snaps.

THEY TRADE

Some children trade glasses. If the frames don't fit, they try to stretch them.

The things children do to glasses long has been a concern of Robert O. Barber, president of Univis, Inc., maker of lenses and frames.

Now, he maintains, with the development of plastic lenses and frames of a super material, nearly childproof glasses are available.

His firm studied the habits of eye-glass wearing children, realized it would be impossible to change those habits, and decided — "If you can't lick 'em, join 'em."

Barber said the batter-proof glasses have frames made of a flexible material which literally can be tied in a knot and then returned to its original shape. This overcomes some of the problems stemming from brittle plastic.

METAL BRACE

The front of the frames were reinforced with ultra-hard plas-

tic with a metal brace embedded in the body of it.

To further strengthen the child-proof glass frames, the frame is rimmed with a flexible yet strong lightweight metal.

Additional safety comes from the use of plastic lenses. With the advent of these, there are no more worries about a child's being hurt when he's hit hard enough to shatter a conventional glass lens. The plastic ones don't splinter.

Barber said the glasses are so tough they could last a lifetime. But he cautioned that lenses need changing as the child's eyes change.

"Parents should not wait until eye glasses break or are lost before having their children's eyes re-examined," he said.

"Everyone should have his eyes examined on a regular schedule just as he has a regular medical check-up or sees his dentist on a regular schedule."

Mr. and Mrs. Julian W. Sagan of Paul Boulevard, Orion Township, announce the engagement of their daughter, Julia Ann, to Pvt. Marvin W. Sims, son of Mr. and Mrs. Clayton C. Sims of Lake Orion. The bride-elect attended Oakland University. Her fiancé is stationed at Fort Knox, Ky.

Visitors Here From Coast

Dr. and Mrs. Henry I. Baylis of San Francisco with children, Polly Ann and Henry Junior, are visiting her parents Mr. and Mrs. Theodore E. Wiersma of West Iroquois Road, along with Mrs. Wiersma's sister, Pauline Zoller of Ann Arbor.

Sunday guests were Mrs. Wiersma's niece and nephew, Mr. and Mrs. Mauro Gomez and family of Mexico City.

The Wiersmas will hold open house Wednesday evening honoring the visitors.

Venise Lace Encircles Her Bridal Ensemble

An evening ceremony, Sunday, in St. John's Lutheran Church, Fraser, marked the vows of Shirley May Toles and Richard A. Moeckel.

Parents of the couple are Mr. and Mrs. Robert Toles of Romeo and the Richard Moeckels of Mt. Clemens.

Venise lace circled the Empire waistline and edged the floor-length floating panel of the bride's semi-fitted A-line gown of white peau de soie.

TIARA

A lace and pearl tiara capped her illusion veil and white gardenias centered her bouquet of Christmas greens.

Ruth Ann and Linda Moeckel, the bridegroom's sisters, were honor maid and bridesmaid; respectively, at the rite performed by Pastor E. J. Narr.

David Stagner of Mt. Clemens was best man. Ushers were Ronald Venci of Lake Orion and Bill Gunkleman of Roseville.

Mr. and Mrs. Ralph J. Toles were hosts at a home reception for the couple who will reside in

Give Opinions

Returning Servicemen

By ABIGAIL VAN BUREN

DEAR ABBY: Though I've been an avid reader of your column for years, I never thought I'd be writing to you but I couldn't resist answering your call for opinions of those in Vietnam about what kind of homecoming they'd prefer.

Right now I am in a San Francisco hospital recovering from injuries I suffered in Viet-

nam. I don't feel like any kind of hero and I don't want to be treated as one I don't go home. Like most of the guys in Vietnam I had a job to do and I did my best.

I was unlucky enough to be a Viet Cong target, but that doesn't make me a hero. The real heroes of this conflict are the medics, the evacuation pilots and the Red Cross.

Anyone who wants to wave a banner, should wave it for them. MIKE BURNS, NO HERO DEL MAR, CALIF.

DEAR ABBY: You asked for opinions on the advisability of "Mom" decorating the house and most of the neighborhood in honor of her "boy" returning from combat duty.

As a combat veteran of World War II, may I say that there

is no more nauseating reference to military personnel than the word "boy." As much as Moms resent it, there are no "boys" in the fighting service. They are all men, and should be referred to as such.

These men did not, nor are they fighting for "Mom's apple pie." They are fighting a dirty rotten war in a number of dirty rotten places for the same reason we fought and will fight again if called upon — to survive under a system government in which we believe as against a system of government in which we do not believe. It's that simple!

So tell Mom not to embarrass her son with decorations and tinsel more appropriate to a little boy's birthday party.

Their "boys" are gone, and those who are fortunate enough to return are men. G.P.S. (MAJOR, INF, AUS RETIRED) SAN FRANCISCO

DEAR ABBY: Take the word of an old "gyrene," who was at Guadalcanal in 1952 and ended his service in Korea, that any lad who has seen jungle combat will not appreciate a brass band on his return home.

As an afterthought, wouldn't it be nice if we could arrange to have our dirty-necked, bearded, draft-card-burning "little boys" serve their service time as latrine police?

I'd rejoin the Marine Corps to help put those clowns through 12 weeks of boot camp. F.E.M., CHICAGO

Troubled? Write to Abby, in care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How To Have A Lovely Wedding," send 50 cents to Abby in care of The Pontiac Press.

Shirley May Toles, daughter of Mr. and Mrs. Robert Toles of Romeo, and Richard A. Moeckel, son of the Richard Moeckels of Mt. Clemens, were wed Sunday in St. John's Lutheran Church, Fraser.

MRS. RICHARD A. MOECKEL

Recently graduated from Western Michigan University was Gary George Gaynor, son of Mr. and Mrs. George H. Gaynor, Simmons Drive. Recipient of a B.S. Degree, he was a member of Sigma Phi Omega, Western Honorary Accounting Society, and served as his residence hall social vice president. He begins work toward a master's degree in January.

Bind in Velvet

If you need to rebind a used blanket, give it the luxury touch by substituting a deep fold of nylon velvet for the old ribbon. This velvet trim is the new status symbol for bedroom accessories because it looks so impractical but is so safely machine-washable.

Send also for Quilt Book 1 - 16 complete patterns, 50 cents.

Faculty Wives Unite

A group to be known as "The Faculty Wives of Oakland Community College" has recently been organized and a slate of officers elected.

As its president, the group chose Mrs. Theodore Pohls of Pontiac. Mrs. Thomas Tollefson was elected vice president; Mrs. Raymond Williams, Birmingham, corresponding secretary; Mrs. Harold Richards, Royal Oak, recording secretary; and Mrs. Gerald Faye of Ann Arbor, club treasurer.

Women faculty can enjoy an associate membership.

The wives will meet the third Thursday of the month, from September through June, alternating from the Highland Lakes Campus to the Auburn Hills campus.

GOALS

The goals of the Faculty

Wives, according to the constitution which is being written, are: "To promote the social fellowship of its members" and "engage in such service activities as are suited to the nature of the organization, including a scholarship fund for a deserving student at OCC."

Recent social affairs for the group included a faculty Christmas dinner-dance at Twin Beach Country Club.

The club constitution will receive final ratification and future plans will be considered at the Jan. 20 meeting on the Auburn Hills campus.

Last year 1,535 women were awarded doctor's degrees, in comparison to 23 who received this degree in 1900.

The past weekend's area holiday festivities included a Girl Scout reunion Sunday at the Sylvan Lake home of Mrs. Charles Coppersmith. Former members of the troop include (from left) Linda Pimlott, Shari Bradshaw, Peggy Coppersmith, Christine Carlsen and Mrs. Larry Anderson. All are wearers of the prized Curved Bar Girl Scout award.

Troop Together Again

A Girl Scout reunion highlighted Christmas weekend at the Charles Coppersmith home on Woodland Avenue, Sylvan Lake.
 Mrs. Coppersmith entertained on Sunday for members of her former Scout Troop 268. The girls, all 10-year Scouts, are recipients of the Curved Bar, comparable to Eagle Scout recognition for young men.
 "This was a pretty unusual group," said Mrs. Coppersmith, "in that the troop remained together through high school where most of the girls attained National Honor Society membership and went on to college."
 Assisting the hostess at the annual event was Mrs. Richard Stark, troop coleader.
 Invited to the affair were: Vicki Lansparger, Shari Bradshaw, Leslie Seiss, Linda Pimlott, Lynda Crowley, Tina Carlsen, Mrs. Larry Anderson and Mrs. Ross Whitcomb. Peggy Coppersmith was also a member of the troop.

War Wives Form Group

PETERSBURG, Va. (AP) — Faced with loneliness and lack of social activity when her army husband was sent to South Viet Nam, Mrs. Barbara Evans decided to form an organization of other women in the same situation.
 She and other army officers' wives, staying near Fort Lee during their husbands' overseas duty, formed a group called WOOS (Wives of Officers Overseas). There are about 40 members, who meet regularly for an evening of bridge, to attend dinner and the theater, an opera in nearby Richmond, or a concert. One big advantage, the women find, is that nobody has to drive home alone at night.

Tri-State Symposium Being Planned

The Great Lakes District, National Federation of Music Clubs, will sponsor a Tri-State Orchestral Composers' Symposium, March 12-13, at the Indiana University School of Music.

Deadlines are: January 1, receipt of scores; Feb. 1, announcement of winners and call for parts; Feb. 15, parts to orchestras for rehearsals; and March 12-13, symposium sessions.

Sponsors include the Michigan, Indiana and Ohio Federations of Music Clubs, the American Society of Composers, Authors and Publishers, and the IU School of Music, Department of Radio and Television and the Electronics Department.

TWO-DAY SESSION

There will be two days of performance and taping sessions of symphonic compositions by living composers of Michigan, Indiana and Ohio. Some of the sessions may be filmed for distribution through National Educational Television media.

Composers have no age limit but their training period should be completed. Presence at the performance is required.

Gavels Back for Jaycees

LINCOLN, ILL. (AP) — The Junior Chamber of Commerce finally has its gong-and-gavel back.

A Jaycee unit was organized 18 years ago and received the gong-and-gavel at its "coming out party." Subsequently the organization folded. A new chapter, formed several years ago, has been trying to find the gong-and-gavel.

A newspaper column mentioned the quest. Reading it, Mr. and Mrs. Robert Graue remembered they had stowed the gong in their home for safekeeping. It took some hunting but Mrs. Graue found it. Its "ring" now opens and closes Jaycee meetings.

Two symphony orchestras made up of the most outstanding orchestral players in the IU School of Music will perform under professional conductors.

Judges will be Louis G. Lane, associate conductor, Cleveland Symphony; H. Owen Reed, widely known composer and professor of music at Michigan State University; and Tibor Kozma, IU conductor.

Janie Marie Vaillencourt Becomes Recent Bride

A recent evening ceremony in the Lake Orion Methodist Church, with church house reception, marked the vows of Janie Marie Vaillencourt and Jack R. Hodges Jr.

Their parents, of Orion Township, are the Raymond

Vaillencourts of North Baldwin Road and the senior Mr. Church, of Hodges of Beach Drive.

MADE GOWN

From an English pattern by Ray Paterson, the bride made her strapless gown of white slipper satin and a veil which covered her cathedral-length court train.

She carried white roses and pompons and her mother's lace wedding handkerchief for the double-ring ceremony performed by Rev. Robert J. Hodgins.

With Janet Lessiter, maid of honor, were bridesmaids, Suzanne Vaillencourt, Nancy Hodges, Sharon Post and Pauline Sousee, flower girl.

Arthur Beatty was best man with Daniel Bilbey, Loren England and John Adams seating the guests.

After a northern ski trip, the bride will resume studies at Oakland University. Mr. Hodges attends Oakland Community College.

MRS. J. R. HODGES JR.

West Side Unit Slates Luncheon in Birmingham

The Birmingham Community House will be the scene for the luncheon on Jan. 5 of the West Side Christian Women's Club.

Mrs. Dennis Knight, former music teacher, will be soloist at the 12:30 p.m. event.

Highlighting the program will be the detailed account of Mrs. Hector McMillan concerning the rebel attack at her Stanleyville mission home in the Congo.

A hairstyling show will also take place at the luncheon with models Mrs. R. M. Trowbridge, Mrs. William Rees, Mrs. John Bonadeo, Mrs. R. W. Osterlund and Mrs. F. T. Spurr.

Reservations may be made by calling Mrs. Jack Wilkinson of Hollingsworth Drive.

Cleanliness Case

A British judge has activated the old adage that litigants should come to court with "clean hands." Sir Robert Blundell ordered 13 young defendants — 10 boys and three girls — to go out and take a bath before he would hear their cases in court.

More Utensils for Cookware

A full gamut of nylon kitchen utensils has been developed especially to avoid scratching the sensitive surface of Teflon-coated cookware.

Included are a ladle with two pouring spouts, a flat potato masher, and lifting tongs. As an added convenience, even sticky food can be readily rinsed off their surfaces with hot soap or detergent suds.

Frills Forsaken

(UPI) — Cotton sleep lounge-wear fashions for resort '66 forsake delicate frills and soft pastels in favor of crisp tailoring and bright colors. While here and there one finds a ruffle or two, the unadorned sleep fashions prevail.

PEGGY'S
MIRACLE MILE

A May 27 wedding is planned by Diane Hedges, daughter of Mr. and Mrs. Kenneth Hedges of Green Lake, and Wilbert Triplett, son of the Robert Triplett, of the North Pontiac Trail, Commerce Township. She is a sophomore at the University of Michigan and her fiancé attends Oakland Community College.

Engagement news is made by Oxford Township residents, Judith Carol Moore, daughter of the Wilton Moores of Barber Road, and Don Leonard Hickmott, son of the Donald Hickmotts of Noble Road. She is a graduate of Eastern Michigan College of Commerce and her fiancé is a graduate at Michigan State University.

Polly's Pointers

Window Washers

DEAR POLLY—Washing windows on the inside is much simpler since I started using my utility cart with wheels. All needed supplies are put on the cart and wheeled from window to window and room to room. I also use my cart in the same way when washing woodwork at house-cleaning time. No more wet rings on the floor from the pail, and a lot of stooping is saved.—MRS. D.K.C.

DEAR POLLY—My hint is a time-saver for those going on trips. In advance of my departure for an extended trip, perhaps to a foreign country, type an individual plain label for each of the people to whom you expect to send post cards. Include name, address, zip code number and, if from abroad, the usual U.S.A. When you buy the cards just stick the label on the address. Pointers.

side of the card to save looking in your address book and spending time on extra writing. This also serves as a check on whether or not you have remembered all those to whom you wish to send cards. No list is necessary.

When the labels are exhausted everyone has been remembered. If you want a return address, carry along your own little printed stickers with your name and home address.—LENORE

DEAR POLLY—I wish someone would tell me how to clean a tapestry purse which has become soiled on one side. I like it so much and hate not being able to use it.—ANNA

Share your favorite homemaking ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a dollar if Polly uses your idea in Polly's address label on the address: Pointers.

Gift Raises Student Fund \$500 More

Members of the Li-Russ Club of Oakland County have contributed \$500 to a student loan fund at Oakland University.

The latest contribution, which more than tripled the size of the fund, represents the proceeds of a pre-holiday luncheon and bazaar staged at the home of Mrs. Stanley Warwick of Franklin.

The entire project was carried by some 13 members of the club whose membership consists of past matrons of the Order of Eastern Star in Oakland County.

HEAD GROUP

The group included Mrs. Lester Oles, president; Mrs. Evangeline Albert, vice president; and Mrs. Henry Mahaney, secretary-treasurer.

The list continues with Mrs. Warwick, Mrs. Harry Long, Mrs. Gilbert Leach, Mrs. George Takes, Mrs. George Albert, Mrs. Lee Bryant, Mrs. Thomas Glacoe, Mrs. Arwal Frazier, Mrs. Eugene Perko and Mrs. Robert Adair.

The Li-Russ Loan Fund is used to extend short-term loans to OU students who need temporary financial assistance.

Clean Carvings Is Controversial

In a controversy over cleaning the Detroit Public Library building, architectural decorator Andrew C. Magin has charged that the abrasive cleaning method being used is "ruining some irreplaceable carvings."

Men, Women Talk Alike

NEW YORK (UPI)—On the average, a person talks only 10 to 11 minutes daily — with men ranking about equally with women, an anthropologist reported at the annual meeting of the American Psychological Association.

Dr. Ray L. Birdwhistell, of Temple University Medical Center, carefully measured total talk time before making his report. "The standard spoken sentence takes only 2½ seconds," he said. People, it was noted, do far more communicating with body movements — eyes and eyebrows, facial expressions, hand and shoulders. Silences also sometimes say a great deal, Dr. Birdwhistell explained.

About half of today's young women are married by age 20 and have their last child at age 26.

Mother Not Child Is Doing the Talking

By MURIEL LAWRENCE
DEAR MRS. LAWRENCE: At an anniversary shower I recently attended there was an 8-year-old girl of a neighbor who walked up to me and asked me where I got all my "bulges." (I have put on some weight lately.) She then asked another guest to take out her dentures so she could see her "store-bought" teeth. Then she asked another woman why she was an old maid and had missed the boat. She paid no attention when her mother said, "That's enough now, Christie." I guess she's learned this freshness from the fresh kids on television.

ANSWER: No. You've seen ventriloquists work with their dummies, haven't you? They speak so sweetly, so respectfully, the ventriloquists do. But their dummies say things like "I bet she bought her teeth at a mail order house. They're just as mean and fresh as the ventriloquists are nice and polite. But we aren't fooled into believing that the dummies are really saying these nasty things."

We know that the ventriloquists' skill is in making their blockheads appear to be saying what they themselves are saying. We know that the ventriloquist has actually writ-

ten the dummy's lines and that he is responsible for the entire act of the piece, "That's enough now, Christie," adult and the fresh dummy child.

A B.S. Degree in engineering from Western Michigan University has been earned by Robert Lee Eriksen, son of Mr. and Mrs. Carl Eriksen, Gilbo Street. A member of the Industrial Management Society and the American Society of Tool and Manufacturing Engineers, he was named outstanding student at his residence hall where he served on the council.

Grandma Is Bit 'Uppity'

HOUSTON, Tex. (AP)—Though she's a five-time grandmother, Mrs. James Koonce still enjoys painting flagpoles or smokestacks. The higher and more difficult the job, the better she likes it—because the better she gets paid.

The female steeplejack, who lives here with her crane operator husband, began painting flagpoles 29 years ago, and now has contracts in several Texas cities, in New Mexico, Oklahoma, Mississippi, Tennessee and Louisiana.

Wash 'n' Wear Silk Is Tested

A wash-wear finish for silks has been developed which allows this luxury fabric to be machine-washed and tumble-dried. This new chemical process, which involves a polyurethane coating, is now being tested on the obi sashes worn by Japanese women.

The treated silk cloth reportedly needs only a light touch-up after automatic drying, and requires no ironing at all if drip-dried.

The life expectancy of a girl baby born today is nearly 74 years, while at the beginning of this century it was only 48 years.

It is the mother of this poor status to note them or use them to publicly embarrass us? Children just don't care enough about us to note such circumstances. But their parents can.

Somewhere there's a terrifying story about a nice ventriloquist who had so often used his dummy to express his own malevolence that the dummy became alive, revolted, and by making the ventriloquist say all the spiteful things he'd so wanted to say himself, killed him.

If I were you, I'd have as little as possible to do with this malicious mother-ventriloquist. I don't know where your head is to hold her child responsible for this "nice mother" and "fresh kid" act they put on together.

Do you know so little about children as to actually believe that an 8-year-old girl cares enough about our grown-up bulges, our dentures or marital

Couple Slates February Rite

Mr. and Mrs. Arthur C. Westphal of Port Huron announce the engagement of their daughter, Ardit Elaine, to Herbert H. Pinner, son of the L. Ward Pinner of East Longfellow Avenue. The bride-elect who resides in Auburn Heights, is a graduate of Eastern Michigan University. Her fiancé is an alumnus of Olivet Nazarene College and holds a master's degree from EMU. A Feb. 19 wedding is being planned.

'Batter' to Worse

CLARKSDALE, Miss. (AP)—A. W. Stevens, an inspired ice box raider, decided to mix himself a green salad. The job finished, he reached into the refrigerator for a jar and generously annointed his concoction with what he thought was Roquefort dressing. It wasn't. It was leftover pancake batter.

McMaster's
IMPORTED
CANADIAN WHISKY
CANADA'S FINEST

A \$6.50
Canadian
for only
\$4.80?

What's the gimmick?

Big tax savings on every bottle!
Instead of bottling McMaster's in Canada,
where most Canadian Whiskies are bottled, we
import it direct and bottle it here. By doing it this
way, we save handsomely on taxes and other
charges.
You would expect to pay \$6.50 for this smooth,
mellow Canadian Whisky. McMaster's is
distilled, aged in the barrel, and blended in
Canada.
You can't buy a finer Canadian Whisky than
McMaster's. Why pay more than \$4.80 a fifth
(tax included).
(P.S. McMaster's also comes in a big ½ gallon
or handy pint. Just \$11.95 and \$3.06.)

Blended Scotch Whisky, 80 Proof, Imported in Original Cases by McMaster Import Co., Detroit, Michigan.

A \$7.00 Scotch for only \$4.97?

Sure, McMaster's gives you the same big tax savings
on its mellow, imported-in-the-barrel Scotch, too.

Average Assets \$184, Liabilities \$316

Money Is Mystery to Most Americans

(EDITOR'S NOTE: This is the first of a three-part series by UPI national reporter Harry Ferguson, delving into money matters — including statistics on how the average American consumer disposes of a dollar; installment buying practices and tips on what to watch for when you put your name on the dotted line.)

By HARRY FERGUSON

WASHINGTON (UPI) — If all the money in circulation in the United States were divided equally, each of us would have \$184. But if all the money owed on installment debts were divided equally, each of us would be stuck for \$316.

Money and how to use it is a dark mystery to most Americans. Anybody can be excused for not understanding the details of national and international finances—the furor over the Federal Reserve Board raising the discount rate, the balance of payments problem.

Nobody should be expected to be able to explain why the federal government can keep going when it spends more than it takes in, whereas if a family does that the end of the road is disaster.

But the hard and dismal fact is that millions of Americans plunge themselves into tragedy because they do not even understand the rudiments of money management. Or they may understand it, but choose to ignore it.

The American money system, like almost all others in the world, is based on faith. The money that we pass back and forth to one another is nowhere near as valuable as it purports to be.

The federal government manufactures 45 pennies out of 30 cents worth of alloy; 40 cents in alloy will produce 90 nickels, or \$4.50. The material used in printing 1,000 bills—no matter what the denomination—costs about 30 cents.

IT'S FAITH

Out faith is put in people who sign their names to pieces of paper. The signature of Secretary of Treasury Henry H. Fowler in the lower right hand corner of a green piece of paper convinces us that a dollar bill is worth 100 cents.

The boss puts his name on a piece of paper and that is your salary for a week or a month. You, in turn, put your name on a piece of paper and your department store bill.

If this faith in names on paper ever broke down, there would be no money left in the United States.

Most Americans stuff money into their wallets without counting it or even looking at it. One result of this is that the U. S. Secret Service recovers about \$600,000 each year in counterfeit money that has been accepted by careless people.

POINT OF NO RETURN

You have no recourse or possibility of recovery if somebody palms off a counterfeit bill on you.

And yet, counterfeit money is easy to spot—the saw tooth points around the seal are uneven or broken and the serial numbers are likely to be badly spaced or uneven in height.

Millions of American families live in what has been called a "poverty of plenty," meaning that they have lots of material possessions but almost no savings.

They live from one week's paycheck to another and the missing of one week's pay throws their entire economic lives out of balance. After taxes are paid, this is the way a typical carefree American consumer disposes of a dollar:

Housing, utilities, insurance,	33.23
Food	22.4
Apparel and its upkeep	16.6
Transportation	13.8
Health and recreation	19.4
Miscellaneous	.38

The significant thing is that nothing has been allotted for savings unless he is saving the 38 cents listed as miscellaneous. But obviously he is living well, driving an automobile, going to ball games and not worrying at all about what tomorrow will bring.

NEEDS \$123 WEEKLY

How much money does a family of four actually need merely to exist? Here we step into one of the hottest arguments about our national economy and welfare, and there is no definitive answer to the question.

Last spring the AFL-CIO stated that the head of a family of four needs a minimum weekly income of \$123, a figure that leaves nothing for luxuries or savings.

To achieve that, according to the AFL-CIO, the wage earner must bring in \$3.07 an hour, whereas at the start of this year the straight-time earnings of the average worker was \$2.58 an hour.

The \$123 weekly wage allowed one egg per person a day, one suit every two years for the wage earner and 3.5 dresses a year for his wife.

But the figure has been challenged on the grounds that in many four-person families there are more than one wage earner, so the controversy rolls on.

What is beyond dispute is that here in the midst of the most prosperous economy in the history of the world, there are pockets of people who live on the brink of financial disaster.

CAN'T MANAGE MONEY

They have jobs, they enjoy life, but they cannot manage money. There is no use trying to blame it on the federal government, Democrats, Republicans or Communists.

It is human nature and it has been going on for centuries. Long ago, Samuel Pepys noted in his diary: This morning came my fine camel cloak, with gold buttons, and a silk suit which cost me much money, and I pray God to make me able to pay for it."

Next: Installment buying: the thing that greases the machine.

'Sarge' Can
Dog It Now

EL CAJON, Calif. (UPI)—
Sarge, a four-footed police
lieutenant, has retired be-
cause of advancing age. He's
10.

A Doberman pinscher, Sarge
was promoted to lieutenant by
the City Council in 1962 after
he captured a robbery-kidnap-
ing suspect. But a year later,
he broke both front paws when
he misinterpreted a command
and leaped 35 feet from a
building roof while helping to
investigate a burglary.

He recovered from his in-
juries and returned to duty.

Average Hospital Stay Is Week

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

The average hospital stay has been cut from 14 days in 1955 to 7.7 days now.

At present prices, most patients can't afford to be sick any longer than that.

Greeks usually celebrate New Year's Eve by playing cards, and do

their elbow bending on other nights of the holiday period.

In Hungary the name *Kayak* is almost as common as *goulash*.

EIGHT TINTS

Pianos are getting more colorful. You can now buy keyboards in eight pastel tints.

There's no fuel like an old fuel. Coal is believed to have been first used by the Chinese.

About 3,500 years ago. Today it takes a ton of coal to make a ton of steel.

The American Indians are at ways stay true. The nosebleed is the bottom of the U.S. economic totem pole. The average reservation family has an annual income of only \$1,500 and unemployment runs about 50 per

cent, more than 10 times the national average.

History lesson: Few U.S. presidents were noted for their musical accomplishments. Exceptions: Thomas Jefferson and John Tyler played the violin, Calvin Coolidge the harmonica, Warren G. Harding the cornet, and Harry S. Truman the piano.

JUST AFRAID

If someone tells you he's suffering from keraunophobia, don't waste too much sympathy. He's just afraid of lightning.

The government is getting more helpful all the time. For example, the U.S. Department of Agriculture recommends packing breakable items in popcorn for shipping through the mails. The popcorn gives

better protection than wadded paper.

Fun in cells: The prison publication, "Mountain Echoes," published by inmates of Manhattan Penitentiary, has an entertainment editor.

Folklore: If you have company on Monday you'll have company the rest of the week. A bride married in a blue gown will have a husband who'll al-

Worth remembering: "Middle age is when the narrow waist and the broad mind begin to change places."

Medical note: At least 13 out of every 100 adult Americans has some form of heart ailment.

Quips from our contemporary: Pianist George Shearing was once asked whether he had been blind all his life. "No," said the 45-year-old musician. "Not yet."

Quickies: Some turtles lay up to 300 eggs at a time. Pepper is one spice that never deteriorates. Eight signers of the U.S. Declaration of Independence were born in the British Isles. In case anyone's interested, there's a place called Pigs Ear in Pennsylvania.

Treaty of Paris Put on Display in Maryland

ANNAPOLIS, Md. (AP) — The Treaty of Paris, which formally ended the Revolutionary War, has gone on public display in the Maryland statehouse only a few feet from the chamber where it was ratified Jan. 14, 1784.

The Continental Congress was then in session, using the Maryland Senate chamber for its deliberations. The treaty is on loan from the National Archives.

History lesson: Few U.S. presidents were noted for their musical accomplishments. Exceptions: Thomas Jefferson and John Tyler played the violin, Calvin Coolidge the harmonica, Warren G. Harding the cornet, and Harry S. Truman the piano.

JUST AFRAID

If someone tells you he's suffering from keraunophobia, don't waste too much sympathy. He's just afraid of lightning.

The government is getting more helpful all the time. For example, the U.S. Department of Agriculture recommends packing breakable items in popcorn for shipping through the mails. The popcorn gives

better protection than wadded paper.

Fun in cells: The prison publication, "Mountain Echoes," published by inmates of Manhattan Penitentiary, has an entertainment editor.

Folklore: If you have company on Monday you'll have company the rest of the week. A bride married in a blue gown will have a husband who'll al-

ways stay true. The nosebleed is the bottom of the U.S. economic totem pole. The average reservation family has an annual income of only \$1,500 and unemployment runs about 50 per

cent, more than 10 times the national average.

History lesson: Few U.S. presidents were noted for their musical accomplishments. Exceptions: Thomas Jefferson and John Tyler played the violin, Calvin Coolidge the harmonica, Warren G. Harding the cornet, and Harry S. Truman the piano.

Most Europeans Are Indifferent to U.S. Efforts in Viet

LONDON (AP)—As far as newspapers, seems a long way from the U.S. effort in Viet Nam.

A survey by Associated Press correspondents in West European capitals makes clear that the most the U.S. effort can expect is some medical and technical aid, official moral support—and advice.

American GIs who fight and die in Viet Nam have roused sympathy among Europeans. But nearly everyone from government leaders down seems convinced the end of the conflict can come only at the conference table and not on the battlefield.

President Johnson's repeated offers to enter into unconditional discussions with the communists strike a note in tune with European thinking. The bombing of North Viet Nam brings doubts of United States policy and some bitter criticism.

Washington's warnings of a Red China threat to Southeast Asia and world peace have not stirred noticeable apprehension among Europeans.

Viet Nam, gauged by the talk heard in European streets, pubs, coffee houses and even in

The British government is an outspoken champion of United States policy in Viet Nam among members of the North Atlantic Treaty Organization. Other NATO allies tend to go along—except for France—

The NATO ministers' made only a casual mention of Viet Nam in the communiqué closing their meeting in Paris this month. They heard Secretary of State Dean Rusk ask for any aid NATO countries could give and Defense Secretary Robert S. McNamara warn of a new peril from Communist China.

The French leader, without going into details, has suggested the neutrality be guaranteed by Red China and the U.S. 7th Fleet. He insists that settlement of any conflict in Southeast Asia can not be achieved without China's concurrence.

CONFLICTS GO ON

Turning to problems outside the Atlantic area, ministers noted that tension had diminished in some parts of the world but in Southeast Asia conflicts continued with regard to Viet Nam. The U.S. secretary of state reaffirmed that the United States, while determined to fulfill its commitments, remained ready to enter without preconditions into negotiations to end the war.

He recapitulated the views of his government as the basis for a peaceful settlement.

British Prime Minister Harold Wilson, in going down the line

backing the Americans in Viet Nam, has stood against a powerful leftist bloc in his own Labor party who protest particularly the bombings of North Viet Nam. British support is entirely diplomatic, with no other direct aid.

President Charles de Gaulle, calling the Viet Nam conflict a "stupid war," has kept France aloof while advocating neutralization of South Viet Nam and withdrawal of all foreign influence.

The French leader, without going into details, has suggested the neutrality be guaranteed by Red China and the U.S. 7th Fleet. He insists that settlement of any conflict in Southeast Asia can not be achieved without China's concurrence.

GERMAN ALLIES

West Germany is lined up behind the United States in Viet Nam and is giving both medical and economic aid to the Saigon regime.

The West German Foreign Ministry says present aid projects include a \$12.5-million loan for a chemical complex; a \$3.75-million loan for import of foodstuffs and spare parts; \$5-million capital aid for coastal

merchant craft and slaughterhouses; \$2.5 million in technical aid; \$126,500 for purchase of rice for refugees and a fleet of ambulances.

Chancellor Ludwig Erhard said in a statement in September: "The defense of the free world by our American friends in Viet Nam is a guarantee for us of American resolution and faithfulness in alliance. (But) no form of military obligation has been asked of us nor is there any question of one."

Premier Aldo Moro says Italy has an understanding of the United States position in Viet Nam. He stops short of endorsing Washington's policy. He has been under pressure from Socialist partners in the government to back admission of Red China into the United Nations and to take a more independent line on Viet Nam.

HOSPITAL SENT

The Italian government sent to South Viet Nam a fully equipped field hospital, staffed with army doctors and attendants. Italian leftist organizations are sending medical aid to the Communists.

Norway, which is sending medical supplies to South Viet

Nam through the Red Cross, and Denmark, which has sent no aid, officially take a stand that reflects a widespread attitude in Europe.

Leaders in both countries appeal for ending the war through negotiations but warn against American troops pulling out under present circumstances.

One Danish official said South Viet Nam would be under Communist control "in as little as six months" if the Americans withdrew.

NO WITHDRAWAL

Norway's former Foreign Minister Halvard Lange said: "It is unthinkable and cannot be wished for that American troops are withdrawn from Viet Nam. Possibilities of settling the Viet Nam question by war seem extremely difficult and unconditional talks, which seem the only way to peace, must be hoped for."

EMOTIONS WANE

The Viet Nam war has failed to stir emotions in Europe to the pitch that was reached at the height of the ban-the-bomb movements.

Some anti-American demonstrations have broken out but these couldn't compare in size with the "stop-the-war" demonstrations in the United States itself.

"What do the Americans hope to gain?" asked Ian Mackay, a cook in a swank London hotel.

"The issue is apparently communism but the way to beat communism is economically."

Portugal's Foreign Ministry spokesman, while heralding any move against communism, says talk about the war except you the Viet Nam problem should be dealt with by countries in the

area and others expressing views may complicate the matter.

The foreign editor of the Economist, an influential British weekly journal of opinion, wrote in replying to a denunciation by a Polish Communist newspaper:

"The decision to start the Viet Cong rebellion was taken in Hanoi, not in South Viet Nam, and the Viet Cong has received much help from North Viet Nam. Had that decision not been taken, South Viet Nam might now have been a peaceful and by Asian standards relatively prosperous country. The first resort to violence, with all the horrors that have flowed from it, was Mr. Ho Chi Minh's support the American attempt to stop it succeeding."

NOT TOUCHED

So far the war has not touched Europe economically or militarily. The average European—excluding politicians and political students—views the war from a nationalist viewpoint.

"Hardly hear, anyone ever talk about the war except you press blokes," said the bartender in a pub just off Fleet Street.

Viet Escalation Course Threatens Far More Cost and Danger

(EDITOR'S NOTE: The bomb-and-battle strategy begun by the United States in Viet Nam 11 months ago has failed to bring the Communists to the conference table. What's next for President Johnson? This is the first of four articles assessing America's role in Viet Nam.)

By JOHN M. HIGHTOWER
WASHINGTON (AP) — The war in Viet Nam is entering a

new phase of escalation which threatens to grow far more costly and dangerous before the next year of conflict is many months old.

Active fighting is likely to spread from the battlegrounds of Viet Nam into strategic jungle areas of Cambodia and Laos. The expanding struggle will require more American troops and the level may rise toward half a million men.

North Viet Nam probably will lose its bomb-free sanctuary around Hanoi and Haiphong. Red China may send troops and planes to help the North, leading to a U.S.-Chinese Communist confrontation. The pressure on the Soviet Union to line up with China and North Viet Nam against the United States would then be very great.

This grim view of the possibilities of the conflict has arisen here following the failure of the bomb-and-battle strategy which Johnson administration leaders began putting into effect 11 months ago.

CAN BE OVERTURNED

The prospects can be overturned at any moment by an agreement between the United States and Viet Nam—which might be engineered by Britain or Russia or the United Nations or some other third party—to stop the fighting and transfer the conflict to the conference table. No such agreement is in sight, however.

The judgement of U.S. officials is that the war probably will have to get much worse

before it gets better. No one can figure out a compromise between the Communist demand for terms giving them a decisive voice in South Viet Nam's future and the U.S. demand that the Communists abandon their conquest of the South.

The bombing strategy adopted by President Johnson last February was aimed at defeating an expected Red offensive against South Viet Nam during the monsoon season and forcing North Viet Nam to the conference table by the end of 1965.

But bombing North Viet Nam failed to break its will to fight and to disrupt its assistance to the Communist guerrilla armies in the South. Moving close to 200,000 U.S. troops into the coun-

try and smashing at guerrilla forces with land and air offensives failed also to break their will although it did blunt their offensive.

INCREASED EFFORTS

The response of the Communist side, in fact, has been to increase their efforts. Secretary of Defense Robert S. McNamara reported three weeks ago after a trip to Saigon that infiltration of Red troops from North to South Viet Nam was going up from 1,500 a month to 4,500.

McNamara predicted a step-up of U.S. and South Vietnamese military operations against infiltration routes. That could mean enlarged bombing attacks against the Ho Chi Minh Trail in

Laos and against routes reported to run through the Cambodian jungle. The decision was put up to President Johnson.

In a speech Dec. 9, Johnson said, "We are determined to do all that is necessary" to defeat the Communists. He put his emphasis for the moment on new peace efforts, saying:

"We are equally determined that every prospect for peace be exhausted before other hard steps are taken."

POSSIBLE AIR STRIKES

Those new steps were understood to include possible air strikes on Hanoi and Haiphong. That same day news dispatches told of an interview giv-

en by President Ho Chi Minh of North Viet Nam to a Western visitor. He denounced American terms for peace—that the Communists must leave the South alone—as "absolutely unacceptable to both the Vietnamese people and world public opinion."

Communist China was reported promising increased aid to North Viet Nam and warning its own people about a danger of American air attacks against Chinese cities. In Moscow Premier Alexei N. Kosygin charged the United States with aggressive behavior and creating a "war psychosis" all over the world.

U.S. policy makers felt that China would probably talk tough

but act prudently, as in the past, and that Russia wanted no part of the Vietnamese war, aside from giving limited arms aid to North Viet Nam. But no one was sure what the leader of the big Communist countries, quarreling between themselves, might decide to do if the conflict in Viet Nam showed signs of developing into a broader Asian war.

This was the stage set for the next round of escalation in Viet Nam, a process repeated with many variations over a decade of U.S. involvement in the tangled affairs of Southeast Asia. It all began on a small scale and has grown mostly by small steps.

(NEXT: The great debate.)

Arizona Asks U.S. Aid for Flood Areas

PHOENIX, Ariz. (AP) — Residents in flood-ravaged Arizona continued to mop up today while keeping hopeful eyes on the state capitol for possible word of federal help.

Gov. Sam Goddard made an aerial inspection of the flood area and declared most of it a disaster area. He meets with other officials today to have the state underwrite its share of any federal aid.

C. A. Pugh, assistant regional director of the Bureau of Reclamation, made his own inspection of flood-damaged areas of central, eastern and southern Arizona.

Pugh said federal funds can be made available immediately if the affected regions are declared a disaster area by President Johnson. Tucson suffered an estimated \$1.25 million in damage to its trunk sewer line as the raging Rillito River ripped away two miles of the line.

In eastern Arizona, citizens of Safford and Clifton were moving back into homes filled with mud when the Gila River overflowed its banks last week.

HOT NEWS From Osmun's

This week we sent out 52,000 messages that fairly sizzled with excitement. What about? We can't say publicly . . . yet. But we can tell you it's so big it will pay you to find out about it today. If, for some reason, your announcement didn't arrive be sure to call, or better yet, come into Osmun's. We'll be delighted to give you the wonderful details. (And they are wonderful!)

But do it now. After all . . . we wouldn't want any of our friends to miss out on a good thing and be, well . . . burned up.

Says Sex Now Recreational

'Birth Control Pill Has Changed Morality'

BERKELEY, Calif. (UPI) — A social scientist says that with widespread use of the birth control pill, "sex has become recreational rather than productive and the whole basis of our morality has changed."

Others at the annual meeting of the American Association for the Advancement of Science (AAAS) at the University of California did not agree wholly, but none questioned the effectiveness of the pill nor the vast implications for change in the world social structure.

The speaker who called sex recreational was Martin B. Loeb, director of the School of Social Work at the University of Wisconsin.

Loeb said that despite the profound implications in worldwide use of the pill, there is so far "little sense of revolution but simply the sense of progress that shocks grandparents, puzzles parents and intrigues children."

Scientists in Sunday's symposium on "psychological control in conception and its implications" expressed these views:

- In all medical history, there has been no potent drug used so regularly for many years by so many people.
- It has become socially acceptable to discuss the pill in mixed company, whereas open discussion of other methods of contraception are not acceptable.
- There is "on the distant horizon" possible genetic control that would prevent some diseases.
- Women may someday take a pill to get pregnant rather than vice versa.
- The time may come when "the boss," the employer of women, may have a say in family planning in order to facilitate the setting up of work schedules.
- Young persons, sometimes with parental approval or at least disinterest, deliberately use pregnancy as an excuse to get married.

Rhoda Metraux, project director for "the cultural structure of perceptual communications" at the American Museum of Natural History, New York City, said that people are "reversing all of human history" in the current situation.

They are, she said, "proposing to put in women's hands the chief responsibility for not having and not rearing children as part of a public social responsibility of assuring that the earth will remain a livable planet."

Some Classes for OU Term Are Still Open

With enrollment in winter graduate school courses at Oakland University nearly completed, there are several classes still open to education majors, according to Thomas Atkinson, university registrar.

Prospective candidates for master of arts in teaching M.A.T. degrees may still enroll in the school of education's Curriculum Studies course, which will be taught at 7-10 p.m. on Wednesdays and in the Sociology of Education, to be taught on Mondays, 7-10 p.m.

The winter semester begins Jan. 5.

The Curriculum Studies course is designed for prospective elementary M.A.T. candidates, and will be concerned with examining and discussing new developments in the elementary education curriculum.

The Sociology of Education course will be directed toward an examination of the school's relationship to society, the community power structure, and the social development of the child.

A look at higher education at mid-century, the structure of American education, the role of the teacher in American society will also be included in the course.

In the fall of this year, Oakland initiated graduate programs leading to M.A. degrees in mathematics and English, an M.S. degree in chemistry, and M.A.T. degrees in elementary education, English, the social sciences, and mathematics.

N-Fleet Plan Discarded by LBJ, Erhard

By PHIL NEWSOM
UPI Foreign News Analyst
President Johnson and West German Chancellor Ludwig Erhard have discarded without even the formality of a burial the U. S. idea of a mixed-manned nuclear naval force for NATO.

This was a proposal which emerged from the December 1962 Nassau meeting of President Kennedy and then British Prime Minister Harold MacMillan.

The concept was almost as awkward as the phrase used to describe it also called multi-lateral nuclear force, and, in fact, proposed a mixed-armed fleet manned by mixed crews drawn from various NATO nations.

Military men didn't like it,

and one difficulty quickly came to light when it was discovered that American and German sailors didn't even like the same kind of cheese.

At Nassau, Kennedy gave to MacMillan the bad news that the United States was abandoning its Skybolt missile program upon which Britain had hinged its nuclear defense program.

SWITCH TO SUBMARINES

Instead, Kennedy proposed that Britain switch to submarines armed with the nuclear-tipped U. S. Polaris missile.

He also made a similar offer to France. From this came the plan for the mixed-manned fleet for NATO with the U. S. finger controlling the nuclear trigger.

Kennedy had four objectives: To persuade French President Charles de Gaulle to drop his own plans for an independent nuclear arms program, and thus halt the

spread of nuclear weapons. rough spot with a Parliament rough spot with a Parliament indignant over the dropping of the Skybolt.

To force NATO's European members to shoulder a greater share of the cost of NATO defenses.

To appease the West Germans, who even then were demanding a greater voice in NATO's nuclear affairs.

Britain accepted the plan reluctantly. De Gaulle vetoed it at once. Italy also accepted it.

OTHER MEMBERS

Other NATO members dragged their feet, and Norway rejected it for the effect it would have on its neutral neighbors, Sweden and Finland.

Only the West Germans showed real enthusiasm.

Russia warned that there would be no disarmament agreements with the West if the Germans received a nuclear vote.

Now even the Germans, dismayed by the obvious reluctance of her neighbors to grant her even a small voice in nuclear affairs and with a division of voices at home, seem to have agreed that the project is dead.

DISCUSSIONS STARTED

A vaguely worded communique at the close of the Erhard-Johnson meeting recognized West Germany's interest in greater participation in NATO's nuclear affairs and noted with satisfaction that discussions have started toward "improving" present arrangements.

The Germans say they have no intention of going back on the 1954 promise not to produce nuclear weapons. But they protest they are cast in a second-class citizen's role so long as they alone among NATO nations have no veto over the use of nuclear weapons from their own soil.

Agriculture is the cornerstone of the United Arab Republic's economy, with 60 per cent of the nation working the soil.

'66 Looks Even Brighter for U.S.

Lofing 10 Astronauts Top Space News

By HOWARD BENEDICT
CAPE KENNEDY, Fla. (AP)—The launching of 10 U.S. astronauts highlighted 1965, America's finest year in space. It's hard to believe, but 1966 promises to be even more spectacular.

Project Gemini earned its wings in 1965 and five of the two-man capsules vaulted into orbit for periods up to 14 days. Two of them staged an historic rendezvous high above the earth in December.

The flights enabled the United States to capture all the world's manned space flight records from Russia and, on the basis of deeds accomplished, gave America the lead in most phases of the man-to-the-moon race. Five more Gemini shots will conclude the program in 1966. They will be operational missions, putting to use the techniques pioneered in the early flights. All will be one-to-three days duration and will involve linking up with Agena rockets under various conditions and walks in space by one of the pilots.

OUTSIDE POSSIBILITY

There is an outside possibility the first earth orbit flight of a three-man Apollo moonship will be achieved late in 1966. The Saturn IB booster rocket and the Apollo spacecraft are to undergo their first test launching in January at Cape Kennedy. If all three unmanned tests of this hardware are on time and successful, the first manned mission could be conducted next December.

With all the nation's major military rockets now operational, 1965 testing was at its lowest peak in several years at Cape Kennedy. Only 57 major launches were conducted here, compared with 88 in 1964, 107 in 1963, 151 in 1962, 186 in 1961 and 201 in 1960. Thirty-five of the 1965 total were space shots—the most in this category in the Cape's history.

The figures reflect the Cape's gradual change from a missile test center to a spacecraft. The only war rockets being flown here now are the Polaris A3 and Minuteman 2. In 1963, 14 different military weapons were on the schedule.

The most exciting unmanned achievement of 1965 was the July fly by of Mars by Mariner 4, which was launched from Cape Kennedy late in 1964. The complex spacecraft relayed the first close-up scientific data and pictures of the Red Planet.

THOUSANDS OF PHOTOS

Rangers 8 and 9 concluded that program, each sending back thousands of photos of the moon's surface.

No planetary flights are planned in 1966, but the moon will come under extensive surveillance from two advanced spacecraft, Surveyor and Lunar Orbiter.

Surveyor, running three years behind schedule because of problems with both the payload and the Atlas-Centaur rocket, now is for its first attempt to soft-land on the moon in May. Lunar Orbiter is to set sail in mid-year to orbit the moon, constantly photographing it.

Other major U.S. achievements in 1965 included the launching of three huge Pegasus meteoroid detection satellites by the powerful Saturn 1 rocket; the Early Bird communications satellite; the Pioneer 6 sun orbiter; three test flights of the giant Titan 3 military space rocket, only one completely successful; the Toris 3 and 10 weather satellites; two nuclear detection satellites; the Geos mapping satellite; a solar observatory and an interplanetary monitoring platform.

Launchings are scheduled in most of these programs in 1966.

Scientists Find Evidence of Ancient Flood

By Science Service

NEW YORK—An 80,000-year-old piece of coral, found on a high fossil sand dune in the Bahamas has led scientists to believe that a huge thaw suddenly occurred during the last Ice Age, melting the vast continental glaciers and flooding the coastal shores of the world.

Evidence of the great thaw comes from an elevated ledge that was once a shoreline on Lignum Vitae Cay in the Berry Islands of the Bahamas. The raised ledge, discovered by Dr. Norman D. Newell of the American Museum of Natural History, is topped by a fossilized sand dune, and stands eight or nine feet higher than today's shoreline.

This indicates that water from the melting receding glaciers once raised the sea level to this height.

The sudden thaw may have taken place during the last of the Pleistocene Ice Age, during a time called the Wisconsin interstadial, he said.

BRIEF SPAN

In geological time scale, it was a comparatively brief, lasting from 4,500 to 8,000 years. This is a much shorter period of time than the interglacials, which are the warm stages separating the four main glacier periods of the Pleistocene Ice Age.

plus an orbiting astronomical observatory.

Russia continued its extensive unmanned exploration during the year, firing nearly 50 Cosmos payloads into orbit and lofting the heaviest payloads ever orbited, Protons 1 and 2 each weighing nearly 27,000 pounds.

The Soviets' Zond 3 snapped long-range photos of the moon's backside but four attempts to soft-land lunar craft on the moon's surface failed. At year's end, two Russian payloads are streaking toward a late February fly-by of Venus.

Many of the Cosmos satellites are believed to be military reconnaissance craft, with much the same aims as the more than 50 military satellites the U.S. Air Force launched in 1965 from Vandenberg Air Force Base, Calif.

MANNED ORBITING

Russia sent only one two-man spacecraft into orbit in 1965. That was a one-day mission last March 18 when cosmonaut Alexei Leonov took his historic walk in space. Piloting the Voskhod 2 vehicle was Pavel Belyayev.

Since then the Russian man-in-space rockets have been idle, while America's Gemini astronauts have been busy.

On March 23, Virgil I. Grisom and John V. Young took Gemini 3 up for a brief three-orbit test flight and demonstrated the world's first manueverable manned spaceship.

On Aug. 21, Gemini 4 astronauts L. Gordon Cooper Jr. and Charles Conrad Jr. started an eight-day flight that took all the records away from the Russians.

On Dec. 4, Gemini 7 astronauts Frank Borman and James A. Lovell Jr. began a 14-day flight that topped the Gemini 5 marks. During their 11th day in space, they held the dramatic rendezvous with Gemini 6 pilots Walter M. Schirra Jr. and Thomas P. Stafford. For more than five hours the two craft flew in formation from three to 200 feet apart. Gemini 6, which had an earlier docking flight canceled because the Agena target failed to reach orbit, returned to earth after one day.

Traffic Toll Mark Eyed

TRENTON, N.J. (AP)—Atty. Gen. Arthur J. Sills says that New Jersey is faced with the possibility of surpassing in 1965 the 1,100 mark in traffic deaths for the eighth time in its history. He said 1,060 deaths had been recorded by Dec. 23.

GLENWOOD PLAZA... North Perry Street at Glenwood

Drunk Chimps in Test Make Monkey of Selves

BERKELEY, Calif. (UPI)—Chimpanzees definitely don't ape humans when it comes to drinking habits. But if they did, the chimps would be champs, a group of scientists reported yesterday.

As a matter of fact, chimps, apes and other primates prefer to take their fruit juice plain. Occasionally, however, chimps will drink alcohol voluntarily and when they do "their behavioral responses to alcohol are similar those observed in man."

In other words, they get only a little less falling-down drunk than people, a paper and film presented to the American Association for the Advancement of Science concluded.

More than half of the male chimps tested drank enough alcohol voluntarily to become intoxicated at least once, according to the report presented by psycho-biologist Frances L. Fitzgerald of the Yerkes Regional Primate Center, Emory University, Atlanta, Ga.

At times, the report noted soberly, a day researchers found it necessary to watch their step. The more alcohol consumed, the more amorous the male chimps become.

VARIED DRINKS

The experiments were designed to investigate the animals' preference for various fruit juices and alcohol-fruit juice mixtures and patterns of drinking behavior.

The chimps consumed enough alcohol to kill a man who is not used to drinking. The primates downed 15 to 20 ounces at a single session with a mean of 18 ounces for males and 16 ounces for females.

The males apparently showed less restraint in their drinking. Seven got tipsy—one eight times, three twice, two four times and one eight times.

Of seven females, only two became intoxicated more than once, one twice and the other three times.

HOLD LIQUOR
The adult chimps were able to put away at least 15 ounces of booze before losing muscular coordination—a much greater amount than man.

A 15-minute film starring a 10-year-old chimp named Went showed the primate gulping 18 ounces of vodka in grape juice. Went wobbled about and after three hours fell to the floor of his cage. He did not, however, pass out.

"These observations imply that there may be some fundamental difference between man and the chimpanzee in the manner in which alcohol is absorbed and distributed," the investigators concluded.

Provide Education
Funds for Unionist Kin

CHICAGO (AP)—A fund to provide college or technical training for the children of clothing workers has been announced.

The prepaid education plan for children of clothing workers with 15 years union membership is the first of its kind, said Murray Finley, manager of the Chicago Joint Board of the Amalgamated Clothing Workers. The union will provide \$600 a year and tuition or living expenses for four years for each child.

Building Expert Dies
EAST ORANGE, N.J. (AP)—William V. McMenimen, 84, an international heavy construction expert, died Saturday. During World War II, McMenimen headed a project that built U. S. naval bases at points from Hawaii to the Philippines.

AP Photo

SKIING VACATION—Mrs. Jacqueline Kennedy (center) arrived at Salt Lake City, Utah, yesterday with a group of friends and relatives en route to a skiing holiday at Sun Valley resort in Idaho. She and her two children took a chartered plane to the resort from Salt Lake City.

Paying Attention Is Key for Both

Good Students Prove to Be Good Drivers

By LESLIE J. NASON, ED. D.
"Keep your mind on what you're doing." Is good advice to anyone—in school and out.

Good students are good drivers. Falling students have more automobile accidents.

John was on the ragged edge toward failing in each of his college freshman courses. DR. NASON

His driver's license had been suspended for three months due to numerous traffic violations and accidents.

One of his teachers interested him in developing a different approach to his schoolwork. He was to give it his undivided attention whether it was reading an assignment, taking a test or writing a theme.

This teacher also suggested to John that the same attention should be given to driving an automobile or to any other activity, especially if it was hazardous.

John was successful in developing the habit of paying attention to what he was doing. His grades improved and, there were no more traffic accidents and traffic tickets. He graduated from college and is now teaching mathematics in a high school. He is no longer what is generally called accident-prone.

PAY ATTENTION
The habit of careful attention, once established, carries over into many activities. However, at the start it must be developed in specific situations. Safety training has been particularly successful when reminders to pay attention are given with the development of the habit in mind.

Students at an Orlando, Fla., junior high school were reminded to take care in walking down the stairs, to take care in passing down the corridors, to take care in certain games on the playground, to take care on the trip home.

These reminders were given at appropriate times and also in sufficient frequency so that students did show more attention to their actions in these situations. The serious accident rate was reduced 35 per cent, and the minor accident rate by 25 per cent.

GRADES GO UP
Having gained the habit of paying attention in certain specific situations, these Orlando students appeared to pay more attention to what they were doing in all situations, including their academic work. Their scholastic achievement showed measurable improvement.

Mr. Arthur W. Schellenbaker, director of safety education at this school, is to be complimented on its success.

The junior high age is our last chance to develop the habit of attentiveness to the task at hand before we furnish these young people with two tons of equipment in the form of an automobile and turn them loose on our highways!

Just as important, the individual student who receives this type of safety training has a better chance for success in all of his endeavors.

(For a copy of Professor Nason's "You Can Get Better Grades," send \$1 to Better Office, New York, N.Y.)

Viets Sentence Four Tribesmen to Die

PLEIKU, South Viet Nam (AP) — Four Montagnard tribesmen were condemned to death today for their part in an unsuccessful revolt 16 days ago to set up an autonomous tribal state in South Viet Nam's central highlands.

A South Vietnamese field court-martial sentenced 15 other Montagnards to terms ranging from five years at hard labor followed by banishment for five years to life imprisonment. One tribesman was acquitted. The five-man court deliberated for 40 minutes.

Thirty-five Vietnamese civil

ians and soldiers were killed in the revolt. It was the second of the nearly million mountain tribesmen who generally resent domination by the Vietnamese from the lowlands.

Two days ago a sandbag wall and five firing squad stakes were put up in Pleiku's main public square. The four men sentenced to death have the right to appeal.

ONE DEATH ASKED
The prosecution had asked for the death penalty for only one of the 20 defendants, Master Sgt. Nay Ry, who admitted killing a Vietnamese lieutenant and plotting to slay the officer's family.

The prisoners, handcuffed in pairs, did not appear to understand when an interpreter told them the court's sentence. The mountain people speak their own dialect.

Another group of Montagnard leaders will go on trial Tuesday. They include civil servants, schoolteachers and an army captain who charged with conspiring to undermine the security of the state.

Ex-Chind Minister Dies

CLEVELAND, Ohio (AP) — Col. M. Thomas Tchou, 70, a former Nationalist China Cabinet minister, died Saturday. At one time he was personal secretary to Generalissimo Chiang Kai-shek.

They are members of FULRO, the French initials of the Montagnard anti-Communist independence organization, the United Front for the Liberation of Oppressed Peoples.

NEGOTIATIONS

U. S. Special Forces officers helped end the last uprising in September 1964 by negotiating between the Montagnards and Vietnamese officials. Special Forces men have trained Montagnard units into effective fighting forces.

At the heart of the dispute are racial and cultural differences between the Montagnards and the lowland Vietnamese, who consider the primitive mountain people savages.

FIGHTING MAN — Sgt. Vernon Larson of Downing, Wis., takes a sip of water from his canteen while on jungle patrol in South Viet Nam. His lined face, with a nine-day growth of beard, is drenched in sweat.

Christmas Walkie-Talkies Jam Airwaves

MIAMI, Fla. (AP) — Transistorized walkie-talkies — the Christmas gift for the kid who has everything — are creating a traffic jam on the airwaves.

The Federal Communications Commission doesn't like some of the juvenile patter its monitors are picking up. The FBI is also listening with interest.

Some children with walkie-talkies and a high-powered vocabulary are botting into the citizens radio band network with purple anecdotes and suggestions. The chatter is burning the ears of licensed radio operators tuned in on the class D citizens band channels. Their range over land is one to three miles.

Most of the walkie-talkie conversations are perfectly legiti-

mate messages between pals with a new toy. As long as the talk is clean and no conscious attempt is made to interfere with regular traffic, the FCC has no objections.

TO BE EXPECTED
"Walkie-talkie chatter is expected every Christmas," said Homer Thompson, chief engineer at the FCC's central monitoring station in Broward County.

He explained that the battery-powered sets are preregulated by the manufacturers to operate on open-length wave power over long boat. His alarm turned out to be false.

The citizens band is designed for both business and personal use — for delivery trucks and sportsmen, for example. It is

also the frequency for other radio use, such as signals from electronic heating machines and hospital heat-treatment equipment.

FALSE ALARM
Of more serious concern are the false emergency messages being heard on some sets. One boy on Christmas Day had several radio operators worried when he broadcast an SOS — pleading that he was in a sinking boat. His alarm turned out to be false.

The citizens band is designed for both business and personal use — for delivery trucks and sportsmen, for example. It is

also the frequency for other radio use, such as signals from electronic heating machines and hospital heat-treatment equipment.

16 in Georgia Hurt

When Train Is Derailed

TENNVILLE, Ga. (UPI) — Sixteen persons received first aid treatment and four others were hospitalized, one seriously, yesterday when the Central of Georgia's Nancy Hanks passenger train derailed here. Road officials were not available for comment but a spokesman for the Tennessee Police Department said the train apparently went through an open switch.

U.S., Latin, African

MDs Start Project

DURHAM, N.C. (AP) — Project Med-Aid, a medical communications system by which doctors in isolated sections of Central and South America and Africa may quickly contact specialists in the United States, is expected to be put into operation early in 1966.

The project will enable doctors in mission outposts and jungle hospitals to reach specialists at Duke Medical Center by radiotelephone hookup. It is supported by a \$25,000 grant from the Mary Reynolds Babcock Foundation of Winston-Salem.

Medical Assistance for Isolated Doctors, its full name, is under the supervision of Dr. E. Croft Long of the Duke Medical School.

Clinics Care for Moscow Drunkards

By Science Service

NEW BRUNSWICK, N. J. — "Sleeping it off," Moscowstyle, there are special "sobering-up stations" instead of jails, for overnight drunks — but wait until they tell you boss!

There are 17 such stations in the city, each with 10 to 30 beds, for a population of almost eight million people, reports Vera Etkin, associate editor of the Quarterly Journal of Studies on Alcohol, after a recent trip to the Soviet Union.

A drunken person brought to a station is given alcohol or medication if necessary, after which he remains to sleep it off. So far so good. There is a fine, eight rubles (\$8.50), but it is still better than a night in jail.

Then, however, the "authorities" are notified, both at the person's job and in the district where he lives.

When the psychiatrist in charge of a plant or district reviews the notices from the sobering-up stations, he summons the offenders and delivers a stern lecture on the "detrimental effects of excessive drinking."

TREATMENT URGED

Repeating offenders are urged to enter inpatient clinics, called stationers, for from two to eight weeks, after which return checkups are scheduled at specified intervals.

One stationer visited by the editor (there are six in Moscow) had beds for 30 male patients, together with special treatment rooms including one for hypnotherapy.

"Active" therapy consisted of a conditioned-reflex called the Borenkov method: "An especially strong emetic medication was combined with an incredibly revolting-looking mixture which the patient had to drink prior to a glass of vodka."

The ensuing vomiting is extremely violent and is therefore believed to be particularly effective; some patients do not even need a repeat session."

This experience is preceded by a group discussion in which a psychiatrist emphasizes the great courage required for the ensuing treatment. "Well," said one, "Russians have never lacked courage."

Oil Painting Class Will Begin Jan. 10

A beginner's class in oil painting will be offered beginning Jan. 10 at Washington Junior High School.

Sponsored by the Pontiac Parks and Recreation Department, the class will run on Monday nights, 7-10 p.m., through Feb. 28.

An \$8 fee will be charged. The class will be limited to 25 participants. Registration is slated for the first class session.

Cuba Has Draft Woes

MIAMI, Fla. (AP) — Havana radio indicates Cuba is having trouble catching up with draft-eligible males.

A broadcast monitored here, warned that all draft enrollees must report new addresses by Jan. 15 and those who move later must report their new address within five days.

Hawaii Crater Watched After Eruption

HILO, Hawaii (AP) — Scientists, in an unpopulated area about 200 miles southeast of Honolulu. Earthquakes in the eruption area occurred Sunday and one of the craters of Kilauea volcano.

The crater erupted unexpectedly Christmas Eve, but the bright orange and red lava fountains died down six hours later. There had been some minor earthquakes before the eruption but scientists said they had noticed none of the underground vibrations which usually precede volcanic activity.

The crater is on Hawaii Is-

land, in an unpopulated area about 200 miles southeast of Honolulu.

TREMORS DECREASING
Scientists at the volcano observatory on the edge of Kilauea volcano reported that the tremors were decreasing in intensity and frequency. They said there could be another eruption as long as the earthquakes continue.

Earthquake frequency Sunday varied from about 9 to between 10 and 20 an hour, then dropped at night to 2 to 3 per hour.

Art Masterpiece on Display in LA

LOS ANGELES (UPI)—Rembrandt's painting of his son, Titus, went on public display here yesterday in the new County Museum of Art. But it failed to draw an unusually large crowd.

The painting was purchased in England for more than \$2 million earlier this year by the Norton Simon Foundation. It has been loaned to the museum for an indefinite period.

Crippled Jet With 41 Aboard Lands Safely

OAKLAND, Calif. (AP) — A friction as the Japan Air Lines Tokyo-bound jet airliner with 41 DC-8s screeched to a stop across San Francisco Bay at Oakland International Airport.

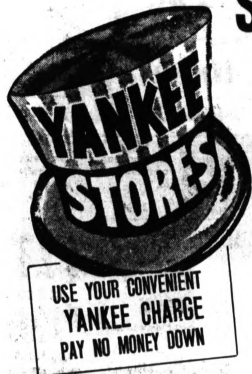

The fuel-laden jet had taken off for Tokyo four minutes earlier.

RUSHED UP
Tom Johnson, a flight engineer from Tokyo on the plane as a passenger, spotted the fire in the outer left engine and rushed up the aisle to tell the plane's crew. The plane's three other engines remained functioning.

Capt. Tsuneo Kato of Tokyo left his flight pattern and headed for Oakland.

"The fire extinguisher system had the blaze out in less than a minute and the captain had the plane under control at all base, just south of San Francisco," reported flight officer Harold L. Brown, the only American crew member. Brown said the engine "went blonde. There wasn't any warning."

A piece of engine about five feet in diameter fell near the home of Vincent Marsili in Brisbane under control at all base, just south of San Francisco. "There were lots of little pieces falling too," Marsili said.

STARTS MONDAY AT 9:00 A.M.

Blaze Kills 3 in Royal Oak

Mother, Two Small Daughters Suffocate

ROYAL OAK (AP) — A young mother and her two infant daughters suffocated in a pre-dawn fire at their two-story apartment home yesterday.

Firemen found the bodies of Mrs. Ada Siracuse, 24, and her daughters, Gina, 18 months and Nina, 4 months, in an upstairs bedroom.

A neighbor reported helplessly hearing Mrs. Siracuse's screams.

The husband and father, Joseph Siracuse, 41, an acoustical engineer, said he awakened about 2:30 a.m. in the living room and smelled smoke. He had fallen asleep while watching television.

"I couldn't see any fire. I didn't know what it was so I ran to the back door to air the place out," Siracuse said.

Firemen said his opening of the door caused a draft that sent flames shooting through the first floor.

Siracuse had left the building and a wall of flames prevented his return.

The fire started in the living room rug, apparently from cigarette ashes, firemen said.

John R. Teal, resident of an adjoining apartment, said he and his wife were awakened by Mrs. Siracuse's screams and her pounding on the wall separating the Teal and Siracuse bedrooms.

"She was pounding and screaming 'Help, help,' and after a few minutes we couldn't hear her anymore," Teal said.

OK Valachi Publication of Memoirs

WASHINGTON (AP) — The Justice Department has decided to let convicted murderer Joseph Valachi — the Cosa Nostra hoodlum who broke a blood oath of secrecy — publish his memoirs.

In doing so, it has broken a long-standing policy against letting federal prisoners publish stories of their lives of crime.

The 1,100-page manuscript is titled "The Real Thing." Its 61-year-old author served 30 years on legal pads during long months in the District of Columbia jail. He has lived there since 1963, when he became widely known by spilling to federal authorities and a Senate committee the secrets of the multimillion-dollar national syndicate called, in Sicilian, "La Cosa Nostra," or "Our Thing."

Information director Jack Rosenbath explained why the department is breaking with past practice.

CASE IS RARE

"To my knowledge, no exception has ever before been made," Rosenbath wrote. "The decision to make the exception in this case is based on the belief that Valachi's case is itself rare and exceptional..."

Valachi is about to greet his third new year from his death house in the D.C. jail, where he has an isolated cell and private guard because of the assumed threat against his life by the syndicate he betrayed. His keepers say he is in good health, keeps in shape with calisthenics, spends much of his time watching television.

South Korea's Kim Is Back in Politics

SEOUL, South Korea (AP) — Kim Chong-pil ended 18 months of political retirement today and was elected chairman of South Korea's ruling Democratic Republican party.

More than 2,000 delegates to the annual convention chose Kim for the No. 2 party post by acclamation after unanimously electing President Chung Hee Park to another two-year term as party president.

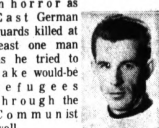

Water Shortage Worst

BOSTON (AP) — The worst water shortage since Massachusetts began keeping records in the 1800s has resulted in 60 cities and towns operating under emergency water restrictions at year's end.

News Briefs From Around the Globe

East Germans Kill at Least 1 of 4 in Dash for Freedom

BERLIN (AP) — West Berliners returning from Christmas reunions in East Berlin watched in horror as

East German guards killed at least one man as he tried to take would-be refugees through the Communist wall.

West German officers said four persons in Schoenberger a car got caught in a blazing cross-fire from submachine guns visits, 434-580 West Berliners an hour after midnight Christmas Eve when the driver tried to zigzag through the obstacle open for visits through Jan. 2.

CLERMONT-FERRAND, France (AP) — An investigation commission sought today to determine the cause of a cablecar mishap Christmas Day which buried six skiers to their deaths on a rocky slope. Twelve persons were injured.

The accident occurred as the cable car climbed the side of 187-foot Puy de Sancy mountain, side from the resort town of Mont Dore, in south-central France. Strong gusts of wind swept the mountain as the car and its 52 passengers approached its terminal near the mountain top.

Survivors said the electric current cut off, causing the aluminum car to swing sharply up toward the cable from which it was suspended. These accounts said the car then swung backward and threw the passengers and their skis against the front of the car, smashing it open.

Fidel Castro's regime recently issued orders to fire as many as possible of those who have applied to leave on the refugee airlift between Varadero and Miami.

But government officials then realized that the mass firings could touch off an explosive situation, the sources said. Other jobs are hard to find and most of the discharged workers were hard pressed to support their families.

They may have to wait months, even years, before their turn comes to leave Cuba. To support their families, they are accepting jobs cutting sugar cane and harvesting coffee and lower pay than the other farm products at much hands get.

Object of Extradition Squabble Is Back Home in Pennsylvania

NORRISTOWN, Pa. (AP) — Tyrone Collins, the object of an extradition squabble between two states, was back home today awaiting word when he will have to return to face assault charges in Mobile, Ala.

Collins, 19, a Negro, has charged two Alabama bail bondsmen illegally seized him at gunpoint in his mother's home Dec. 19, and forced him to accompany them to Mobile. The bondsmen said he had failed to appear in Mobile for trial on a charge of assault to commit murder and forfeited \$500 bail. Collins once lived in Mobile.

Representatives of the district attorney's office here and investigators from the office of Atty. Gen. Walter Alessandrini scheduled a meeting today to decide whether to lodge charges against the bail bondsmen.

Rep. Richard S. Schweiker, R-Pa., who represents this area, and who brought attention to the case, also was expected to attend.

HIRED BY NAACP

In Mobile, Collins' lawyer, Vernon Crawford, said he would learn today when Collins was

due back for a hearing on the assault charge. Crawford was hired by the Mobile chapter of the National Association for the Advancement of Colored People and signed a \$5,700 bond himself for Collins' release.

Collins' mother, Pauline Col-

lins Sewell; his stepfather, Joseph A. Sewell, and Philip H. Savage, tristate secretary of the National Association for the Advancement of Colored People, were among those who greeted Collins Sunday at Philadelphia's International Airport.

At an airport news conference Collins said the bail bondsmen did not mistreat him on the auto trip to Mobile, but they did insult him. Collins said he was handcuffed throughout the trip, except at meals.

Schweiker has charged that Collins was seized in "a grotesque and unwarranted abuse of power, smacking of police state tactics, a throwback of the days of bounty hunters."

Gov. William W. Scranton had wired Alabama Gov. George C. Wallace demanding the return of Collins.

News Executive Dies

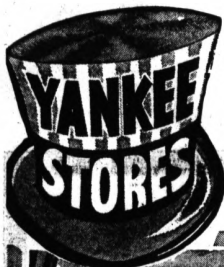

AKRON, Ohio (AP) — John G. Watters, 75, retired assistant general manager of the Miami Herald and president and publisher of the weekly Coral Gables (Fla.) Times, died Sunday.

Traffic Safety Hints:

No. 8 A red traffic signal light, a red flashing signal light and a stop sign all mean come to a full and complete stop. This means all four wheels are still. In Michigan there is no such thing as a rolling stop. This is a traffic violation if not obeyed.

CHEDDAR FONDUE—Cheddar-Tomato Fondue with herbed bread cubes makes an elegant but easy to fix dish for any occasion. The fondue is simplicity itself—canned tomato sauce heated with shredded sharp cheese.

Toasted Bread Crumbs Are Herbed for Fondue

If casual entertaining is your forte, a Fondue is the solution to your serving problems. Perfect for brunch, luncheon or a supper party, this Cheddar-Tomato Fondue makes entertaining easy for the busy hostess and lots of fun for her guests.

Simplicity is the key. Elegance the result. The delicately flavored herbed bread cubes offer a magnificent taste adventure when swirled into this cheese and tomato treat. And, it's all so easy to do.

The bread cubes and Fondue can be prepared ahead of time. Then, your guests will have the fun of playing "do-it-yourself-chef." Dress it up or down—depending on the occasion.

For luncheon, serve with strips of crisp, fresh vegetables. Or, a tossed green salad makes an excellent accompaniment.

Cheddar-Tomato Fondue With Herbed Bread Cubes
1 loaf (1 lb.) unsliced day-old enriched white bread
1 1/4 cups butter or margarine

4 teaspoons instant minced onion
2 teaspoons ground sage
1 teaspoon celery seed
Cheddar-Tomato Fondue
Trim bread and cut into 1-inch cubes. Place on ungreased baking sheet; dry in oven 15 minutes, turning once. Melt butter or margarine with onion, sage and celery seed. Dip half of bread cubes in seasoned butter or margarine and place on baking sheet.
Bake in preheated 350 degree oven 10 to 15 minutes, turning occasionally until golden brown. Drain thoroughly on absorbent paper.

Repeat with remaining bread cubes. Makes about 48 cubes. Serve with Cheddar-Tomato Fondue.

Cheddar-Tomato Fondue
1 can (14 oz.) tomato sauce
3/4 cup shredded sharp Cheddar cheese
Heat tomato sauce until almost simmering. Slowly stir in cheese until melted and blended. Serve warm with herbed bread cubes.

Macadamia Pie Hails From Hawaii

Macadamia pie is a Hawaiian version of the southern states' pecan pie.

Beat 3 eggs with 1 cup of light corn syrup and 3/4 cup of sugar. Stir in 1 1/2 cups of chopped salted macadamia nuts, 2 tablespoons of melted butter, and 1 teaspoon of vanilla; blend well.

Line a 9-inch pie plate with flaky pastry; pour in the filling, and bake in a preheated 325-degree oven about 50 minutes, or until crust is golden brown and filling is set. Cool, then chill pie. Serve with whipped cream, if desired. Makes 5 to 6 servings.

Plan Special Food for Open House

OPEN HOUSE TIDBITS — The chafing dish is piled high with Miniature Spanish Sausage Balls, pineapple and olives. At the right is a nut-coated cheese ball. Both foods may be served with whatever drinks you care to provide.

By JANET ODELL
Pontiac Press Food Editor

Now that Thanksgiving, Chanukah and Christmas are all just a memory, it's time to turn our thoughts to New Year's entertaining.

For some, this means a gala open house on New Year's Day. Others concentrate their festivities on New Year's Eve. Both hostesses face the need for good planning.

When people are coming and going, you must have food that stays attractive looking and appetizing for some period of time.

Unless you have help in the kitchen or don't mind spending some of your own party time there, you shy away from items that need last-minute cooking.

A cheese ball to serve with crackers can be made several days in advance.

This recipe, published in "Favorite Recipes of Michigan,"

was submitted by Mrs. William S. Cleghorn of Rochester.

CHEESE BALL

1 package (8 oz.) cream cheese
1 package (6 oz.) Bleu cheese
1/2 teaspoon garlic powder
1/2 teaspoon Worcestershire sauce
1/2 teaspoon celery salt
Chopped nuts

Combine all ingredients except nuts; shape into a ball. Roll in nuts. Refrigerate 24 hours. Before serving, roll again in nuts until heavily coated.

If any of this is left after the party, just roll it up into a ball again, coat with more nuts, wrap in foil and refrigerate until you want to serve it again.

A hot nibble food can be served in your electric skillet in a chafing dish or in a pan over a candle.

These miniature sausage balls have a surprise inside them.

Spanish Sausage Balls

1 large sweet onion, chopped
1 cup minute rice, cooked
2 small cans tomato sauce
2 tablespoons parsley chopped — or parsley flakes
6 slices crisp bacon, crumbled

Fry bacon until crisp; remove from skillet, drain off most of the drippings. To about 2 tablespoons of the drippings add onion and green pepper; cook over medium heat until tender.

Add crumbled bacon and remaining ingredients; cook uncovered over low heat about 15 minutes, until flavors are blended and a dry consistency. Put rice aside to cool.

(A tip: for a much easier way try one of the prepared Spanish or creole rice mixes. They are delicious and do save so much time.)

1 pound bulk sausage
1 can chunk style pineapple (large can)

1 jar stuffed green olives
1 bottle prepared bar-b-q sauce
Make a very thin patte 1/4 inch by about 3 inches in diameter. Place a teaspoon of the cooled rice in the center. Work the sausage meat around the rice forming a miniature sausage ball the size of a large walnut.

Cook the sausage balls over low heat turning continually until a golden brown. Serve hot in a chafing dish, electric fry pan or warming pan.

Place chunks of pineapple in amongst the sausage and garnish with stuffed green olives. Heat the bar-b-q sauce and generously dribble over the whole pan. Smells good, looks good, tastes good.

Have large toothpicks handy for spearing and you might serve a small plate for the men won't be happy with just one. Yields about a dozen.

Another hot dish could be a shrimp dip. With this you can serve, not only the usual crackers and salt sticks, but also raw vegetable sticks and cauliflower buds.

HOT SHRIMP DIP

1 can (5 oz.) sliced mushrooms, drained and chopped
2 tablespoons butter
1 1/2 cups (12 oz.) cottage cheese
1/2 cup sour cream
1/2 cup salad dressing
1/2 teaspoon salt
1/2 teaspoon garlic salt
1/2 teaspoon soy sauce
1 can (5 oz.) shrimp, drained and chopped

Cook mushrooms in butter until lightly browned. Stir in cottage cheese, sour cream, salad dressing, salt, garlic salt and soy sauce. Heat over low heat until hot. Add shrimp and heat.

Serve with bread sticks, rye wafers and Melba toast rounds. Makes 3 cups.

Put Pie Crust in With Filling

Consomme Used as Sauce

Like to cook at the table? Try this simple dish that's quick and oh, so tasty.

Peking Chicken Asparagus
3 cups cooked asparagus cuts and tips
1/2 cup chicken consomme
2 tablespoons sherry
2 tablespoons soy sauce
1 tablespoon cornstarch

12 slices (at least) cooked chicken
Drain asparagus reserving 1/4 cup liquor. Combine asparagus liquor with consomme, sherry, soy sauce and cornstarch in pan. Cook over medium heat, stirring constantly until mixture boils. Add asparagus and chicken until heated thoroughly. Serves 4.

RAISIN FESTIVAL PIE — This pie is unusual because you mix pie crust right into the filling. Top this crunchy goodie with pyramids of whipped cream or whipped dessert topping. It's a dessert you'll enjoy all winter.

Meat Loaf Magic

How does one determine the amount of ingredients to use with ground meat for meat loaves? A good proportion includes 1/2 cup soft bread crumbs, 1/2 cup milk, 1 egg (slightly beaten), 1 teaspoon salt and 1/2 teaspoon pepper for each pound of ground beef, fresh pork, lamb, or veal.

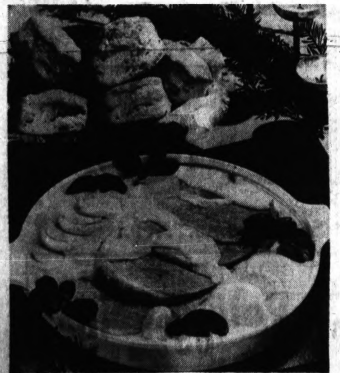

Bit of Leftover Ham Feeds Six

If you're planning a buffet for a crowd, ham and egg rarebit on bacon biscuits is the perfect entree. Here's food that is handsome enough for sophisticated parties, yet is easy on the budget.

Make the rarebit with favorite go-together foods — ham, eggs and cheese — and add just a touch of seasoning to give the sauce real zip.

With crisp bacon and a prepared biscuit mix, you can create bacon biscuits. They're quick and practically fail-proof with a real homemade flavor.

Keep these tasty biscuits in mind for breakfast or brunch.

FOR A BUFFET — Ham and egg rarebit on bacon biscuits is ideal for special luncheons and buffet suppers. It's a glamorous way to serve ham leftovers that the family will enjoy, too.

lunch or dinner. They're excellent served piping hot with butter.

Ham and Egg Rarebit
2 cups large cooked ham pieces
2 tablespoons butter or margarine
3 tablespoons flour
1/2 teaspoon salt
1/2 teaspoon dry mustard
2 cups milk
1 can (4 ounce) sliced mushrooms, undrained
1 teaspoon Worcestershire sauce
2 cups shredded cheese
3 hard-cooked eggs, sliced
1/4 cup diced pimientos

Melt butter or margarine. Blend in flour, salt and dry

mustard. Stir in milk, undrained mushrooms and Worcestershire sauce. Cook over moderate heat, stirring constantly until thickened. Add cheese and blend until it melts.

Bacon Biscuits
1 pound sliced bacon, cut into 1/2-inch pieces
3 cups prepared biscuit mix
1/2 teaspoon dry mustard
1 egg
1 cup milk

Fry bacon until crisp; drain on absorbent paper. Save 1/2 cup drippings. Combine biscuit mix, mustard and bacon; mix. Add egg, milk and bacon drippings; stir until blended. Knead lightly on floured board.

Roll to 1/4 to 1/2 inch thickness. Cut with 2 1/2-inch biscuit cutter. Place on ungreased baking sheet.

Bake in 425-degree oven until lightly browned, about 12 minutes. Yield: 10 to 12 biscuits.

Skillet Size Burger
Served in Wedges

"Pie Burgers" for lunch fare will intrigue old and young. Make a giant hamburger in a skillet (catsup added to the ground beef mixture will keep the burger from drying out as it cooks — try the new hickory flavor catsup in these "Pie Burgers.")

To serve, cut in pie-shaped wedges and serve on thick slices of French bread. Serve with sliced American cheese (or cottage cheese if someone is counting calories).

Yanks Perfecting Helicopter Warfare in Viet

By HUGH A. MUELLER
LAI KHE, South Viet Nam
(AP) — "The book on helicopter warfare is being written over here," said the major at the controls of a tiny bubbletop chopper. "We get a new chapter almost every day."

Maj. Robert Davis of Gillingham, La., otherwise known as "Night Hawk Leader," spoke from above a bright checkerboard of jade-colored jungles and emerald green rubber trees. Only the puffs of artillery smoke and the dark brown craters left by the B2 bombers strikes betray the existence of a war down there.

On a tropical day under a merciless sun, the third brigade of the 1st Infantry Division was sweeping toward the huge Michelin rubber plantation, 45 miles northwest of Saigon. Air strikes were known to be bloody battles, the abandoned rubber trees were known to shelter under its endless rows of rubber trees at least one regiment of North Vietnamese soldiers.

As brigade aviation officer, a new job in a new kind of war, Night Hawk Leader had now aloft to see how he might best employ the various "hogs," "slicks" and "guns" put at his disposal from the Big Red One's private air force of 101 helicopters.

INTO ACTION

At 10:10 that morning, one battalion of the third brigade had been committed to action. It took 75 "slicks," choppers capable of lifting seven fully equipped infantrymen, five trips each to move the battalion in to the landing zone, a jungle clearing about the size of a football field at the northwest edge of the plantation. The "eagle lift," as such airborne troop deployments are called, had been a thing of beauty and precision. First, Navy bombers from the carrier Kitty Hawk had cushioned the landing zone with a 15-minute air strike. Then the "hogs" — rocket firing helicopters — "Hosed down" the area for 10 minutes, each delivering 48 rockets in a thunderous volley that shook the landscape and left the debarked rubber trees dripping white latex.

Next came the "guns," armed helicopters carrying 14 rockets, four M-60 machine guns controlled by the pilot and machine guns at each side manned by the door gunners. The "guns" came in, rockets and automatic weapons blazing, and continued to circle ominously over the jungle clearing, where a puff of purple smoke from a signal flare marked the landing zone for the first flight of "slicks."

Down the long, green valley they came, fluttering like a flight of dragonflies in the thin tropical air, each alighting for less than six seconds to disembark its troops, who hit the ground at a dead run and disappeared among the trees.

MEN ARRIVE

At 10:59 a.m., there the entire battalion of 2,500 men was on the ground. In less than 40 minutes it had come 16 miles, a day's march in the old infantry, but the main difference was that the troops were fresh, ready for battle.

"They think it's a fine way to go to war," said Davis, as he swooped down on "combat trains," the forward supply area, to consult with Maj. Ken Glennan of Colorado Springs, Colo., the brigade supply officer, about getting food, water and ammunition to the rifle companies deep in the jungle.

There were no roads, no trails, hardly even a clearing for the supply helicopters. Each rifle company had carried in a gasoline-powered saw, axes and demolition charges to hack out its own landing zone.

Davis and Glennan decided that for the first night, anyway, the battalion would have to settle for an "austere resupply." 21 helicopter loads delivered at dusk over constantly varying routes.

NEVER TWICE

"You never do the same thing twice over here," Davis explained, while fitting off to examine the supply landing zones. "Usually the fourth or fifth ship gets fired on. By that time, the enemy has figured out where we're heading. So we shake up the pattern. Patterns and complacency are our worst enemies. "Just because you've been in a place several hours before doesn't mean you can go in again. Guerrilla warfare is a game of wits; if you go to sleep at the game, you might not wake up again."

Back at "Night Hawk Control," a group of pilots sat in wicker chairs under the tall mahogany trees, the brigade's informal ready room, otherwise known as

"Nighthawks' Roost," catching a few links between missions. In Viet Nam, chopper pilots of four or five missions a day and spend as much as 100 hours a month in the air.

Soon the radio began chattering out assignments from Night Hawk Leader who spent most of the day flying over the battlefield in his OH13 bubbletop helicopter, an armored survivor of the Korean war.

CASUALTIES MOUNT

By mid-afternoon, as casualties from the ground forces began to mount from sporadic sniper fire, a Medivac helicopter arrived from Saigon with blood plasma, 45 minutes after the brigade hospital had requested it.

The chopper was piloted by Lt. Alex Ortolano of New Orleans, who two days before had flown 11 missions to evacuate 48 Americans wounded in a bitter battle along Highway 13. The first six times he dropped in to pick up the casualties, he was fired on, received five hits, including one that wounded an already wounded soldier stretched out on a litter.

"Nighthawk Leader to Night Hawk Control. Nighthawk Leader to Night Hawk Control." The missions mounted as the day wore on. A tank, pierced by the rounds of enemy recoilless rifle fire, was able to lumber out of the jungles when a helicopter arrived with a spare fuel pump. An amtrak overheated and stalled on the rocky bridge over the River Suoi Van Tam, and the span collapsed when a wrecker went across to retrieve it.

Deprived of the only road leading to the plantation, the attack stalled for a few hours.

for lack of artillery and mortar support. Davis ordered his choppers to sling-load the mortars across the rain-swollen river. Then he radioed to Capt. St. Jacques, 90 miles away, for a flight of huge, cargo-carrying H37 Mojaves to lift in the artillery.

TAKES REVIEW

Late in the day, Col. William Brodbeck of Omaha, Neb., the brigade commander, decided to review his tactical situation. Instead of calling in his intelligence and operations officers for a session over a map, the colonel went aloft in the command helicopter, equipped with a radio console capable of putting him in touch with all units, and took a firsthand look at the battlefield.

Off to the northeast sector, where evening mists were gathering along the river bank, he could see the mortar rounds making smoke rings in the hu-

mid air and knew that the Vietnamese unit moving along the dirt road was receiving harassing fire and might be walking into an ambush.

On the spot, the colonel decided to lift out his second battalion, put it on the flank by way of a quick helicopter troop lift and keep the attackers pinned down with a steady artillery barrage.

"It is highly possible," said Davis, whirling off to set up the new landing zones for the troop lift, "that you have just witnessed the most important function of the helicopter. If can offer a radical change in the way of directing a battle. If Pickett had choppers at Gettysburg, he might have thought twice about the charge."

On a single day in a single battle the busy birds of the Big Red one had performed an

amazing variety of missions. They had flown in the troops, resupplied them with food, ammunition and water, carried out the wounded, hauled heavy weapons, brought in urgently needed parts and medical supplies, provided lethal fire power, served as radio relay and observation posts and enabled the commander to reassemble his battalions to best tactical advantage in a matter of minutes, rather than days or even weeks.

Despite their versatility, the 100 birds of the 1st Division represented only a minor slice of the major role played by the more than 1,400 American helicopters now buzzing about the Vietnamese countryside.

Basically the Big Red One is still a get-on-the-ground-and-slug-it-out infantry division. Two hundred and fifty miles farther north, in the rolling soft

green valley of An Khe, helicopter warfare reaches its most sophisticated refinement in the U.S. 1st Air Cavalry Division, the first all helicopter-borne outfit.

THE OLD WAY

Reportedly the brainchild of Defense Secretary Robert S. McNamara, the 1st Cavalry is a cavalry in the old-fashioned sense of the word.

Equipped with nearly five times as many helicopters as an ordinary division and only half as many land vehicles (1,400 as compared with 3,200 for the 1st Infantry Division), flying horsemen are geared to chase the enemy, hit him on the run and keep him from settling down long enough to reorganize and resupply.

Each of 1st Cav's Chinook helicopters can lift 47 men in full field gear, move trucks and artillery without stripping them down. They can transfer an entire battalion in a single lightning troop lift.

Its even larger crane helicopters can bring in enough heavy engineering equipment to carve out an airstrip, rescue a Chinook that has been shot down, and move mountains of gasoline, ammunition and parts.

The 1st Cavalry's ability to plant its artillery in the middle of the densest jungle, wherever a tiny landing zone can be hacked out, has given the government side of the war an immense advantage that might have saved the day for the French.

At Capone, Chicago gangster who died in 1947, was reputed to have a gross income of \$105 million in 1927.

PREPAREDNESS, GERMAN STYLE—This is the new look for the West German householder under a new law taking effect in January. The law requires him to have on hand at his own expense civil defense equipment including a battery-powered radio, respirator, shovel, axes, chisel and emergency food and water.

Traffic Safety Hints:

No. 7

On wet or icy roads, your car travels much farther before it can be stopped. There is nothing you can do to eliminate either reaction time, distance or braking distance. You can reduce these distances and lessen the chance of an accident by choosing proper driving speeds. On slippery roads, take the following precautions: (a) drive at slower speeds (b) avoid all sudden driving acts, such as steering, braking, accelerating, turning or shifting to lower gears before vehicle speed is greatly reduced.

HAPPY NEW YEAR

SAVINGS THAT YOU CAN REALLY SINK YOUR TEETH INTO!

NEW ENGLAND CLAM CHOWDER — Feature New England style clam chowder for your family dinner or for a late evening supper. It's tantalizingly creamy, enticingly good.

On Wintry Day

Chowder Hits the Spot

Get out the soup kettle and stir up a thick, nourishing chowder for supper, one that's full of enticing flavors, promising aromas.

Creamy-rich chowders and other soups of great substance can provide the basis for a satisfyingly good repast, with nothing but a crisp green salad, bread and butter, and a simple fruit dessert to round out the meal.

Rich creaminess and full body so important to chowders and cream soups are achieved in the following recipes by the use of the non-dairy powdered creamer.

This is the creamer currently making culinary news as a convenient replacement for milk and cream in cooking. Count on this new kitchen shelf staple to give your soups and chowders an elegance of rich flavor, creamy smoothness.

New England Clam Chowder
3 slices bacon, diced
1 medium onion, chopped
6 tablespoons flour
1½ cups non-dairy creamer
3 cups boiling water
3 cans (7½-ounces each) minced clams
1 cup cooked, cubed potatoes
2 tablespoons butter
Combine bacon and onion in

saucpan; cook until bacon is done and onion is tender. Blend in flour and cook 1 minute. Add powdered cream, then boiling water all at once, stirring constantly until smooth and thickened.

Add clams with their liquor, potatoes and butter; heat through, but do not boil. Serve with oyster crackers. Makes 7 cups, or 4 to 8 servings.

Lamb Salad Has Appeal

When you have enough cooked lamb to make 2 cups of diced meat, try this continental lamb salad.

Mix ½ cup of sour cream, ¼ cup of mayonnaise, ½ teaspoon of salt, ¼ teaspoon of pepper, ¼ teaspoon of dill seed and 1 tablespoon of vinegar in bowl. Add 2 cups of diced cooked lamb, ½ cup of chopped celery and 1 canned pimiento, chopped. Toss. Serve on crisp lettuce. Makes 4 servings.

If the gravy with your beef stew isn't so savory as you would like, try adding a little Worcestershire sauce.

Use Prunes in Sandwiches and Salads

If all prunes are plums, but all plums are not prunes, then prunes must be mighty special plums.

And they are! The "prune" is a plum variety which can be successfully dried whole, while a "plum" refers to varieties grown primarily for marketing in fresh form.

This year our prune production is well above average, and coupled with supplies held over from last year, the U.S. Department of Agriculture expects there will be plenty of prunes at attractive prices.

This should be good news for homemakers as prunes can be used with every meal. They're adaptable to salads, desserts and many entrees. And besides being versatile, prunes are highly nutritious.

Prune Devils

¼ cup cooked prunes
2 tablespoons catsup
1 can deviled meat
Few drops tabasco sauce
2 tablespoons chopped sour cucumber pickle
Few grains salt
2 tablespoons finely cut parsley

2 tablespoons finely cut onion

Bread and butter

Lettuce

Remove pits from prunes and cut in pieces. Add meat, catsup, tabasco sauce, salt, cucumber pickle, parsley and onion. Blend lightly. Spread between slices of buttered bread with lettuce between each. Cut in desired shapes.

Perennial Prune Salad

16 cooked prunes
1 package cream cheese
¼ cup finely cut celery

¼ cup sweet pickle relish

¼ teaspoon salt

Few drops Tabasco sauce

Lettuce, paprika

Mayonnaise (optional)

Remove pits from prunes, leaving prune as whole as possible. Combine cheese, celery, pickle relish, salt, and tabasco sauce and mix thoroughly.

Refill prunes and arrange on lettuce-garnished salad plates. Sprinkle tops with paprika. Garnish with mayonnaise, if desired. Serves 4.

New Rights Agency Chief Backs Department Switch

WASHINGTON (AP) — The young man chosen by President Johnson to direct the Community Relations Service fully endorses its impending shift to the Justice Department.

Roger W. Wilkins, 33, discounts reports the change lowers morale in the government's racial conciliation agency. It has been in the Commerce Department since its creation by the 1964 Civil Rights Act.

He vows to bring his own "great sense of personal anguish" to bear on the plight of minority group citizens in the slums of America's big cities.

It was widely reported that acting Director Calvin Kytle's resignation two weeks ago was prompted by his opposition to the impending move to Justice — which will occur automatically unless Congress objects within 60 days of submission of the reorganization plan in January.

"I've never opposed this move," the lean, intense Wilkins said in an interview. "It made a lot of sense to me in a lot of ways before the President announced it. And these reports of low morale are highly exaggerated. Sure, there was some uncertainty about the future in some people's minds. But we've only had two resignations (aside from Kytle's), and they've both been because better jobs were offered."

Wilkins, who has been community planning director in the service since October 1964, said he has been working closely with Atty. Gen. Nicholas Katzenbach and other top Justice officials since his nomination 19 days ago.

"I can say unequivocally that their attitude toward the service, their intentions, their support, has been total," the young lawyer said. "It's really been wonderful."

Wilkins is the nephew of Roy Wilkins, executive secretary of the National Association for the Advancement of Colored People.

The younger Wilkins feels the service's task is to speed up the process of racial integration toward the ultimate goal of full and equal opportunity.

SPEEDUP

Wilkins feels his service's task is to speed up the process of racial integration toward the ultimate goal of full and equal opportunity.

"We can bring a little different angle of vision, some technical expertise, experience from other towns. We can bring the word that it's going to happen, that that's the way the country is heading, and that it works. We've been successful in a number of places, but we've had our failures, too," he said.

Wilkins would not name or number the hits and misses. The law requires the service to keep secret its negotiations.

"This is highly sensitive work," he said. "It often takes us into towns where emotions are high, people are under great stress; our people have to gain community confidence at a time when it's hardest. And I think the best way we can do this will be to be regarded as a highly professional, competent — and very quiet — type of organization."

SHOULD GET CREDIT

If the service is successful, he added, "the people of those towns should get the credit, not us."

Wilkins emphasized, "We don't fix towns. We're dealing with a deep-seated social problem. So far, our work has been pioneering. We attracted some good professional people and went to work, with no precedent to guide us, just trying with all the energy, spirit and intelligence we had. We're gaining experience, and we've done a good many things I'm proud of."

He sought to discount speculation by some that the appointment of a Northern Negro as director means a new shift in emphasis from South to North.

BRIDGE TRAFFIC SNARLED—Two occupants of this single-engine private plane suffered minor injuries yesterday when they

crash-landed on the George Washington Bridge. The bridge spans the Hudson River between New York and New Jersey.

Pal Can't Swim, Pilot Lands on Bridge

NEW YORK (UPI)—To thousands of motorists the George Washington Bridge is just another way of crossing the Hudson River between New York and New Jersey.

To a teen-aged pilot in a disabled plane high over the river yesterday, the giant span suddenly became an alternative to a plunge into the frigid Hudson.

The pilot, Philip Ippolito, 19, of New York City, and his passenger, Joseph Brennan, 23, of Hackensack, N.J., were soaring along in their small Aerona aircraft when the motor faltered and they began losing power and altitude.

Ippolito said he considered setting down the \$10-an-hour rented plane in the river but when Brennan said, "I can't swim," he decided to try a landing on the 3,500-foot bridge where traffic seemed to be relatively light.

The plucky pilot guided the tiny craft toward a smooth touchdown on the two

unused center lanes of the bridge despite high winds gusting up to 30 miles an hour.

WING HITS TRUCK

He almost had it made, but a wing tip grazed a tractor-trailer truck, tipping over the plane and damaging its wings, propeller and nose.

"We were patting ourselves on the back for making a good landing—all my right wing tip hit the truck," the youthful pilot said later.

The interpid Ippolito suffered only cuts of the face. His passenger had broken teeth and face cuts. Both were treated at Columbia-Presbyterian Medical Center in Manhattan.

The plane had taken off at about 9 a.m. from Ramapo Valley Airport in Rockland County, N.Y., and was proceeding to Red Bank, N.J.

According to Ippolito, the little plane's gas cap came off near the bridge, forcing him to land on the 450-foot high span.

1965 REVIEW QUIZ

PART I - NATIONAL AND INTERNATIONAL
Give yourself 10 points for each correct answer.

- The United States increased its efforts against the communist Viet Cong in South Viet Nam. Which sentence gives our stated reason for helping that nation defend itself?
a-We need military bases near Communist China.
b-We must protect our supply of certain resources.
c-A nation should be free to choose its own government.
- The new voting rights law forbids discrimination against Negroes in registering voters. The Amendment says that nobody shall be kept from voting because of skin color.
a-Fifth b-Tenth c-Fifteenth
- Much of President Johnson's "Great Society" program is aimed at reducing poverty. Does this mean that poverty in our nation is worse now than in the past?
- The United States sent Marines to to protect American lives and to prevent communists from taking control of the revolt-torn nation.
a-Haiti b-The Dominican Republic c-Jamaica
- A new crisis began when the colony of Rhodesia declared itself independent from without permission from the mother country.
a-France b-Britain c-Belgium

PART II - WORDS IN THE NEWS

Take 4 points for each word that you can match with its correct meaning.

-demonstrate a-flows to U.S. from Cuba
-rendezvous b-prevented vote on 14-B
-refugees c-what some Americans did about Viet Nam
-filibuster d-bill became law
-immigration e-Gemini 6-7 space achievement

PART III - NAMES IN THE NEWS

Take 6 points for names that you can correctly match with the clues.

-Alexei Leonov a-joined Supreme Court
-Arthur Goldberg b-new British Conservative leader
-Abe Fortas c-first "space-walker"
-John W. Gardner d-our new UN Ambassador
-Edward Heath e-became HEW Secretary

Jazz musician Duke Ellington brought his orchestra to New York's Fifth Avenue Presbyterian Church last night for a concert of sacred music.

The concert, which drew loud applause from 2,000 persons jammed into the pews of the stately old church, was sponsored by the Protestant Council of the City of New York.

Singer Lena Horne joined Ellington for the concert, which included "In the Beginning, God," a work for his full orchestra first performed last September at Grace Episcopal Cathedral, San Francisco.

Helen Hayes Donates Coat to Koreans

Helen Hayes' \$2,000 nutria coat is bringing Christmas cheer to needy South Korean students.

The American actress took the coat off before boarding a plane Saturday at Seoul International Airport. She handed it to a U.S. Embassy employee and asked that proceeds from its sale be used for the Korean students.

Miss Hayes was leaving after a 23-day tour to entertain American servicemen.

U. S. College to Honor C. P. Snow

Pennsylvania Military College in Chester will award a doctor of science degree to C. P. Snow, the British scientist and author.

Snow also will receive the Centennial Engineering Medal from the college on Jan. 21.

'Zhivago' Is Leading Best-Movie Race

By BOB THOMAS

AP Movie-Television Writer
HOLLYWOOD (AP) — The premiere of "Doctor Zhivago" has fulfilled its promise: It is the leading contender for best picture in the 1965 academy awards.

David Lean will repeat what he has accomplished twice before. With "Bridge on the River Kwai" in 1957 and "Lawrence of Arabia" in 1962, he provided films of such artistry that they dominated the Oscars, race and provided awards for Thomas himself as director.

"Doctor Zhivago" is a totally new background for Lean's work, but the theme is much the same. It is a man's search for his soul. This time the forbidding beauty wastes of Russia, actually Finland, are substituted for the jungles of Asia and the deserts of Arabia.

Lean accepted a challenge with the new film. "Doctor Zhivago" was one of the most talked-about and unread novels of recent times. The obscurity of the period and the multiplicity of characters seemed to mitigate against its chances as film entertainment.

SENSIBLE PATTERN
But Robert Bolt, a playwright who also scripted "Lawrence of Arabia," threaded the diverse figures into a sensible pattern, relying sometimes on coincidental meetings. He also invested the long-ago events with immediacy, the elements of revolution, anarchy and suppression are ever with us.

Basically, "Doctor Zhivago" concerns an artist's adjustment to society. A doctor-poet, Zhivago recognizes the decadence and cruelty of the czarist regime, later witnesses the insanity of war. Revolution only brings another tyranny: rule of the mob and the elevation of petty tyrannies.

The brilliance of Lean's technique is in the fact that Zhivago's feelings are not expressed in speeches. The events happen and Zhivago reacts, mostly with his expressive face.

The choice of Omar Sharif for the leading role was critical. Since his face is not overly familiar to the movie public, there is no intrusion of his own personality. He becomes Zhivago. His compassionate eyes tell all that needs to be known as he witnesses the slaughter of revolutionaries on a Moscow street; later, the carnage of a village destroyed by a rampaging Soviet general.

Aside from Egyptian Sharif and American Rod Steiger, the leading cast members are English: Julie Christie, Alec Guinness, Tom Courtenay, Ralph Richardson, Rita Tushingham. All are uniformly excellent. Geraldine Chaplin makes a splendid debut as Zhivago's long-suffering wife, but her role is overshadowed by that of Miss Christie as his mistress.

Essentially, it is Lean's film and he handles all the elements masterfully. His camera explores the icy panoramas, the focus on the cracking of ice under heavy boots. Never does he let the long view overwhelm what's up front — the struggle for survival by the human spirit.

3 GOP Leaders Take Issue With LBJ

WASHINGTON, Dec. 27 — Republican leaders looking to the November elections, are taking issue with President Johnson for his Viet Nam strategy, domestic spending programs and enforcement of the voting rights law.

Former Vice President Richard M. Nixon finds the administration's over-all conduct has resulted in "growing discontent" among voters that, he believes, will lead to large GOP victories in the coming congressional elections.

House Republican leader Gerald R. Ford, R-Mich. foresees administration policy in Viet Nam leading to a commitment of both manpower and dollars comparable to that in the Korean war.

Gov. George Romney, Republican governor of Michigan, calls the federal government the "biggest inflationary force" in America today. To stave off inflation, Romney believes the administration is headed toward a totally controlled economy.

The three made the comments yesterday on a weekly radio program sponsored by the Republican National Committee.

Nixon said he had visited all

parts of the country during the past three months and that he was "convinced that 1966 can and will be a Republican year."

"I say this based on a new spirit of unity which is growing throughout the country and I say it also because of a growing feeling among people all over America of discontent with regard to the policies of the present administration," Nixon said. "A united Republican party can win in 1966."

Ford said it was "fully agreed" that about 500,000 American troops would be engaged in Viet Nam by the end of the year.

But according to Defense Secretary Robert S. McNamara's recent comments, Ford said, the number might be stepped up to about 600,000 or more.

"I think it's important to point out at the peak of our commitment."

Appropriately Named

LONG BEACH, Calif. (AP) — When Mr. and Mrs. Walter Gilder of nearby Compton became the parents of a girl on Christmas Day, they promptly named her Merry Noel.

manpower-wise, in Korea we had 327,000 at one time," Ford said. "This commitment that may be recommended by the administration is getting us involved to the degree that we were at the time of the peak in the Korean war."

Romney said the "inevitable consequences" of the Johnson administration's economic policies would be either runaway inflation or government wage and price controls.

Motor City Tourney Commences Tonight

DETROIT (AP) — Eastern Kentucky and William & Mary meet in the opening game of the 14th annual Motor City Basketball Tourney tonight at the University of Detroit. U. of D. faces Harvard in the nightcap.

Eastern Kentucky is the defending Ohio Valley Conference Champion and is led by a 6-foot-7 Ed Bodkin who sinks 50 per cent of his shots and had a 22.1 point average last year.

William & Mary's Ron Penney leads the Southern Conference Indians with an 18.8 point average.

Detroit will be led by 6-foot-4 center Dorie Murrey who scored 44 points against Minnesota. Hayward is led by forward Keith Sedlacek with an 18.8 point average.

Winners in the opening round play in the finals Tuesday with

PAT ON THE BACK — Green Bay end Bill Anderson gets a pat on the back from Packer fans after his momentum carried him to the stands after he hauled in a second quarter pass against the Baltimore Colts. Anderson's catch took the Packers to the Colts' one-yard line, but Baltimore's defenders dug in and halted the scoring drive.

Chamberlain on Target in Philadelphia Victory

By The Associated Press
The Philadelphia 76ers are getting much needed help from their newest playmaker — Wilt Chamberlain.

Chamberlain, who has been displaying his versatility by moving into the No. 10 spot among the National Basketball Association's assists leaders this season, continued in his new role Sunday night as he led the 76ers to a 121-107 victory over San Francisco.

Chamberlain scored 33 points, pulled down 17 rebounds, blocked 16 shots and officially received credit for eight assists.

The victory kept the third-place 76ers one-half game behind Cincinnati in the Eastern Division race.

The Royals downed St. Louis 117-115 on Oscar Robertson's last-second shot. First-place Boston rode Sam Jones' hot shooting to a 128-99 victory over Baltimore in the only other game scheduled.

Chamberlain, a virtual one-man gang, got just enough assistance from Chet Walker and Bill Cunningham. Walker scored 13 points in the first quarter and Cunningham, who wound up with 19, led the 76ers in the third period when San Francisco threatened.

Guy Rodgers was high man for the Warriors with 31 points. Robertson missed a shot with five seconds left against the Hawks, then got the ball back after Jerry Lucas' tip-in failed and sank the winning basket. Robertson finished with 37 points, and Lucas scored 24. Bill Bridges topped St. Louis with 21.

Jones scored 12 points in the last five minutes of the second period as the Celtics built a 63-56 halftime lead, then came off the bench and hit two free throws and a basket in the fourth period after the Bulls had closed to within 90-88.

Jones scored a game high 34 points. Bailey Howell and Johnny Green shared honors for Baltimore with 18 each.

In Saturday's games, Boston whipped Baltimore 113-99, Los Angeles defeated Detroit 115-106, St. Louis crushed New York 131-111, and Cincinnati beat San Francisco 119-113.

Nation's Top 55 ---How They Fared

By The Associated Press
Here's how the Top 55 teams in the Associated Press college basketball poll did last week, including worst records through Saturday.

1. Duke, 7-0, beat Michigan 100-91 in overtime.

2. St. Joseph's, Pa., 6-2, lost to Brigham Young 103-83, lost to Wyoming 99-92.

3. Michigan, 6-3, lost to Duke 100-91 in overtime, lost to Butler 79-64.

4. Vanderbilt, 4-5, beat U. of Calif. Santa Barbara 91-64, beat Northwestern 91-81.

5. Bradley, 10-0, beat Montana 87-77, beat North Dakota 83-64.

6. Minnesota, 5-1, beat Detroit 92-86, lost to Utah State 97-75.

7. Providence, 5-1, lost to Houston 100-87.

8. Wichita, 4-2, lost to Southern Illinois 84-80, lost to Marquette 82-78.

9. Iowa, 7-0, did not play.

10. Kentucky, 7-0, beat Texas Tech 89-73.

Local Gridder Honored

Jack Newton of Orchard Lake finished the football year at Hillsdale College by winning the Coach's Trophy, given to the athlete combining physical and academic ability.

Jack is a chemistry major with a solid "B" average and is president of the student federation.

Volleyball League Being Organized

The Pontiac YMCA is organizing a church volleyball league for men with a Wednesday Jan. 5th starting date.

All teams interested in participating should contact the YMCA, FE 5-6116, as soon as possible.

Pros to Renew Big Spending

Bidding Will Soar After Bowl Contests

By The Associated Press
It's front and center this week for the traditional year-end bowl games that bring the college football season to a close and figure to lift the bidding between the professional leagues for standout talent to break-the-bank proportions.

The bidding may reach an unprecedented level right at the start Friday when Texas Tech's Donny Anderson finishes his college career in the Gator Bowl game against Georgia Tech at Jacksonville, Fla.

The Gator Bowl game triggers the weekend action that also includes the Sun Bowl and the East-West games on Friday and concludes with the Big Four game on Saturday — the Rose, Cotton Sugar and Orange bowl classics.

HIGH CHOICES
Some one dozen high draft choices figure to be signed at the end of the games and, if you can believe some of the prices being mentioned, Anderson may lead the collection of six-figure signees with a contract in the neighborhood of \$300,000.

"It is not beyond the realm of possibility that Anderson will receive \$300,000," says owner Bud Adams of the American Football League's Houston Oilers, bidding against the National League's Green Bay Packers for Anderson's services.

Also mentioned as a prospect in the \$500,000 or above range is Missouri's standout back, Johnny Roland, up for grabs between the NFL's St. Louis Cardinals and the New York Jets of the AFL.

Here's a current scorecard on the top signed players and the contracts they reportedly received:

1. Texas linebacker Tommy Nobis, \$700,000, from Atlanta, NFL.
2. Illinois fullback Jim Grabowski, \$625,000, Green Bay, NFL.
3. Kentucky quarterback Rick Norton, \$350,000, Miami, AFL.
4. Oklahoma linebacker Carl McAdams, \$325,000, New York, AFL.

Kentucky halfback Roger Bird, \$300,000, Oakland, AFL.

Michigan tackle Bill Yearby, \$250,000, New York, AFL.

Tennessee linebacker Frank Emanuel, \$200,000, Miami, AFL.

Anderson and Roland, those other top draft choices, remain to be signed after this week's bowl games — Missouri tackles Francis Peay and Butch Allison, Florida guard Larry Gagner and tackle Randy Walker, Nebraska tackle Jack Walburg and end Freeman White, Michigan State tackle Hal Lucas, Arkansas halfback Jim Lindsay and LSU tackle George Rice.

LINEUP

They'll be lining up this year on the bowl schedule:

Gator Bowl at Jacksonville — Georgia Tech, 6-3-1, vs. Texas Tech, 8-2.

Sun Bowl at El Paso, Tex. — Texas Western, 7-3, vs. TCU, 6-4.

Shrine Game at San Francisco — East-West all-star teams.

Rose Bowl at Pasadena, Calif. — Michigan State, 10-0, vs. UCLA, 7-5-1.

Cotton Bowl at Dallas, Tex. — Arkansas, 10-0, vs. LSU, 7-3.

Sugar Bowl at New Orleans, La. — Missouri, 7-2, vs. Florida, 7-3.

Orange Bowl at Miami, Fla. — Nebraska, 10-0, vs. Alabama, 8-1-1.

Lakeland Ice Squads Leads, Then Loses

The Lakeland Hawks South-east Michigan Hockey Association entry rallied to take the lead in the second period, then lost a 5-3 decision to Fraser Sunday at Gordie Howe Hockeyland.

Goals by Herbie Larson, Brian Strohm and Randy Sutt carried Lakeland (1-4) to a 3-2 lead before Fraser fought back. Next Sunday morning, Lakeland will play Grosse Pointe at Port Huron at 10 o'clock.

Brian Strohm and Randy Sutt carried Lakeland (1-4) to a 3-2 lead before Fraser fought back. Next Sunday morning, Lakeland will play Grosse Pointe at Port Huron at 10 o'clock.

THWARTS SCORING BID — Detroit Red Wing goalie Roger Crozier sprawls along goal line Sunday to make second-period goal by Montreal's John Ferguson (22). Defenseman Bert Marshall (3) of Detroit blocks unidentified Canadian from rebound. Puck can be seen under Crozier stick.

Hypnotic Session Aids Ailing Apisa

PASADENA, Calif. (AP) — A hypnotist has made a believer out of Michigan State fullback Bob Apisa, who reported his injured knee "felt like a million dollars" after a hypnotic trance.

Apisa was one of about a dozen Spartans who volunteered as subjects for hypnotist Arthur Ellen at a team party Saturday night.

Apisa, a sophomore from Hawaii, has been taking it easy in practice because of a nagging knee bruise. He did repeated deep knee bends after being told his injury would improve while he was in a hypnotic state.

"We should take him to the game with us," Apisa told coach Duffy Daugherty.

TREATMENT

Daugherty had the Los Angeles hypnotist give Apisa a private treatment session following the first demonstration, concluding on suggestions that the knee would improve.

All the MSU players volunteering for the experiment were

told they would have good attitudes and reflexes and be able to concentrate better for the football game against UCLA in the Rose Bowl on New Year's Day.

Dr. James Feurig, team physician, said the players actually were under hypnosis and that it had a legitimate use in some forms of medical practice.

"They are very suggestible at that age," Feurig said. "Apisa has been doing exercises with weights that were the equivalent of what he did after hypnosis. But he hasn't done as much of that before."

Ellen, who said he has helped many athletes rid themselves of anxieties, reported he also put some UCLA team members under hypnosis "but didn't work with them as much as I did with Michigan State."

CONCENTRATION

Left half Clint Jones, State's leading ground gainer, asked for

As South Wins

MIAMI, Fla. (AP) — Howard Twilley got his first taste of the Orange Bowl Saturday and Miami fans got their first look at one of their prize pro football packages.

Twilley grabbed only four passes for 69 yards but one was a diving catch of a 30-yarder that brought the South within striking distance of its tying touchdown en route to a 21-14 victory over the North.

Miami Sees Twilley

After the game, Twilley's 5-10 frame was almost lost in the mob surrounding the awards presentations when someone said: "Everybody says you're too small and slow for the pros, Howard. Do you think you can make it?"

Answered Twilley: "I'll make it because I'll be good enough. I've got the moves. I can catch the ball and I can beat any man."

Twilley has been signed by the Miami Dolphins of the American Football League.

He made some slick moves Saturday in the face of defensive harassment that stripped him of his classic square-out pattern.

"Carey (Notre Dame cornerback Tony Carey) did a good job on me," said Twilley. "But I had the deep patterns. If they do that in the pros, I know Rick Norton (the Dolphins' prospective \$300,000 quarterback) will get the ball to me."

Luncheon Set for Grid Rivals

LOS ANGELES (UPI) — The UCLA Bruins today were sharpening their appetites as well as their football skill — the former for Tuesday's Rose Bowl luncheon and the latter for the Rose Bowl football classic New Year's day.

The Bruins took Saturday and Sunday off while their rivals, Michigan State's Spartans, went through practice sessions both days.

The two teams gather with alumni and friends Tuesday in the Coconut Grove for the traditional luncheon, to be emceed by comedian Danny Thomas.

After the luncheon, the affair will be UCLA Chancellor Franklin D. Murphy and Michigan State President John Hannah.

For Area Preps

The few area high school basketball teams that see action this week will mostly be involved in holiday tournaments at various sites.

Today at River Rouge, Turley plays Taylor at 5 p.m. and Northville meets Monroe at 6:30 p.m.

The Northwest Invitational basketball featuring Walla Walla and Southfield playing Walla Walla at 8:30 p.m. on the Southfield court, while at Farmington Redford Union challenges Berkeley at 7 o'clock and cohort Farmington tangles with Ypsilanti at 8:30.

Brighton meets Stockbridge at 8:30 p.m. in the Chelsea Tourney; at Caro, Millington has a game with Crosswell-Lexington, and Deckerville meets the host school at 8:15 p.m.

Tomorrow, Cranbrook will visit Flat Rock at 9:30 p.m. in that school's tournament.

Atlanta Choice Shines as Gray Topples Blue

MONTGOMERY, Ala. (AP)—The Atlanta Falcons apparently came up with a winner when they dipped into the small-college ranks and picked quarterback Randy Johnson of Texas A&M as their second choice in the National Football League draft.

Playing against major college rivals for the first time, Johnson shattered three passing records Saturday when he led the South to a 23-19 conquest of the North in the annual Blue-Gray game.

The 6-foot-4 senior, admittedly awed by the speed and ability of the North team, passed like a professional and engineered two fourth-quarter scores that wiped out a 14-8 North lead.

Johnson wound up with 20 completions in 33 passes for 308 yards. He tossed two touchdown strikes, scored one himself on a plunge and passed for a two-point conversion.

Although he was named Little All-America quarterback, Johnson was almost unknown nationally until he was drafted by the Falcons. That tipped Blue-Gray officials, who invited him to play in the nationally televised all-star battle. They could not have been more pleased after his performance.

Neither could Johnson, who said, "This was one of the greatest thrills of my life." He was named the game's Most Valuable Player.

Central Plays Host

Unbeaten Chiefs Duel PNH

Pontiac Central's domination of the cross-town rival Pontiac Northern in basketball isn't expected to suffer any tomorrow night when the annual series resumes on the Chiefs' floor.

The host Chiefs have won their first four games of the season, while PNH hasn't developed as rapidly as coach Dick Hall would like, standing 1-3.

The young Huskies haven't jelled as a team yet; in fact, Hall has seven players and only three have shown enough to deserve a definite starting nod from the mentor whose only two wins—in 16 starts against PCH—both came in the 1962-63 season.

Central's Fred Zittel, who has never lost to the Huskies in the six meetings since he assumed command, has a nucleus of seven also, but has maintained a set starting lineup.

PCH ticket office has announced there will be no sales tomorrow night. All tickets must be purchased by 5 p.m. at either the Northern or PCH main administrative office.

A junior varsity contest between the Chiefs' once-beaten

Chandler's Kick Wins for Packers

(Continued from Page F-1) with Dallas in Miami, Fla. Jan. 9, were held by the Packers to 143 yards rushing and only 32 passing. Baltimore netted 250 yards in the air, 362 yards overall and 23 first downs.

The Colts, who will now go to with the help of Shinnick's touchdown, pass interceptions by Bob Boyd and Jerry Logan that nipped Green Bay drives, and a goal line stand that stopped the Packers' on the one three straight running plays in the first half.

The Packers defeated the Colts twice in the regular season which both teams finished with identical 10-3-1 records.

The deadlock had forced the conference playoff, the first in the NFL since 1958 when the New York Giants defeated Cleveland 10-0 and then went on to meet the Colts in the championship game. The Colts won the title that year 23-17 in the only previous sudden death finish in the NFL.

Waterford Quintet Leads Church Loop

Waterford Community Church took over first place in the boys' Christian Service Brigade basketball race last week with a 54-18 romp over Oakland Avenue Presbyterian Church.

Marion Baptist Church tied Sunnyvale Chapel for second place as Jim Rich hit 24 points for the Baptist boys in a 62-39 win over Sunnyvale.

Five Points Community Church edged Mandon Lake Community, 24-17. Lake Orion Baptist took a forfeit decision over United Missionary. There will be no games this week.

Fort Wayne Triumphs

DAYTON, Ohio (U)—Len Thomson, the International Hockey League's all-time leading scorer, fired in two goals Sunday, leading Fort Wayne over Dayton, 4-3.

reserves and PNH's unbeaten Jayvees will start at 6:15 p.m.

The varsity tilt will pair a quick Central quintet that has developed rapidly against a struggling Northern squad plagued with the mistakes of inexperience.

SENIORS
The only seniors among the Huskies' regulars are Bob Harris and Larry Frye. Coach Hall has indicated that Harris will join sophomore Don Hayward and Mike Clancy as definite starters tomorrow.

Another soph, Archie Powell already this month they have been held to 33 by Highland along with Junior Tom Webb Park.

Coach Zittel at Central has senior Jessie Evans as his key performer, ably assisted by seniors Jim McClellan and Ross Ludwick. Eddie Pruitt and Larry Platt, also seniors, round out the starters.

Strong reserve performances have been common from Willie Craft, another senior, and Prentice Hill, a junior.

A victory for the favored Chiefs would be their seventh in a row in the series, their seventh straight at home in the series, and square this school year's All-Sports Trophy competition between the two schools at 150 points apiece.

Cost of Borrowing Is Sure to Increase

Senate Fiscal Expert Retiring

By SAM DAWSON
AP Business News Analyst
NEW YORK—The U. S. Treasury is going to borrow \$5 billion in coming weeks—and doubtless pay the lenders more than it will when it retires the debt.

Handled \$2 Trillion in Money Bills as Clerk

WASHINGTON (AP)—A Senate fiscal expert who has handled federal government appropriations totaling more than \$3 trillion since Thursday after 53 years of service at the Capitol.

Everard H. Smith, 75, is stepping down as chief clerk of the Senate Appropriations Committee, from what he calls "the most wonderful job in the world."

"You couldn't find a university any place where you could hear as many people on as many different subjects as come before our committee every year," he said.

Smith went to work for the Senate committee April 1, 1912, at the outset of the Woodrow Wilson administration.

That first year the congressional appropriations to run the government totaled \$1,000,000,000. In the 1965 session which ended in October the total was \$119.3 billion, second highest in history. Only 1942, a World War year, had a higher figure—\$127 billion.

OVER THE YEARS
Over the 53 years of Smith's work with the committee, the appropriations totaled \$2,911,000,000,000.

In his early years on the group, Smith was one of the three full-time committee members and he worked on all of the bills.

Now, with the federal government far greater in size and much more complex, the committee has 35 staff members including one or more experts for each of the separate department bills.

But Smith, as chief clerk since 1938, has kept his finger on all of the measures.

BROUGHT TO CAPITOL
Smith was brought to the Capitol by Sen. Thomas S. Martin of Virginia who was chairman of the Appropriations Committee at the time.

He was hired partly because of his knowledge of shorthand and partly because of his "We want you to do some little odd ends around the office."

World War I, World War II and the Korean War put the greatest strain on the Appropriations Committee during Smith's tenure.

He recalls that he stayed at the Capitol until 2 or 3 a.m. many nights during World War II to get emergency money bills ready for quick action by senators on the committee the next morning.

For a person as unsophisticated about the market as you say you are, I believe it is highly dangerous to speculate unless you have extraordinary competent professional advice, which relatively few brokers are in a position to give you.

The market is very much a two-way street—as many non-professionals have discovered when trying to make a quick dollar. I suggest you buy strong stocks of highest quality and proven growth potential and wait patiently for profits to accrue over a period of time.

Recent safe legislation allows township to fund their own pension programs, according to Supervisor Dorothy Olson.

In other business, the board will hear an appeal from Russell L. Harris for reconsideration of a recent rezoning request by trustees.

The request was for establishment of a restaurant at Telegraph and Haddrell. Harris and Percy Second own the 326-square-foot site, currently zoned RO-1. They seek C-2 zoning.

Also tonight, bids will be let for seven new township vehicles and a two-year gasoline contract.

tax on continuing, if slower, rise in corporate profits.

But the Treasury is likely to be paying out at an even faster clip. And that is why it must raise \$5 billion in the investment markets in the first half of 1966.

So the Treasury must borrow while it waits for the tax receipts to roll in. It expects to raise \$1.3 billion of new cash by increasing its weekly auction of three-month bills. It will also offer a billion in tax-anticipation bills to be turned in by corporations paying their taxes in June.

It shortly will offer \$1.5 billion short-term securities at a rate yet to be set. Later on additional borrowing will bring the total to \$5 billion.

HIGHER COSTS
This outpouring of new government securities on the money markets would in itself tend to raise the interest costs to the Treasury. The search for the new \$5 billion will be in part, state or local—seems sure competition with increased demand of business and consumers for loans.

Mortgage rates already had started to rise, averaging 5.80 per cent in November against 5.75 per cent in October. Many think the general rise in interest rates will continue to push mortgage costs up next year.

Some lenders have raised the interest on loans to auto dealers to finance inventories. And a few banks have moved up charges on installment loans to finance car purchases.

So whether it's Uncle Sam or the average citizen, the cost of borrowing seems likely to rise. The price of many things may, too. And the tax collector—fed, state or local—seems sure to be asking for more.

for such domestic welfare programs as school lunches.

"This is what I'm trying to do for all agricultural commodities," he said.

DRASTIC CUTS
To finance some of the program, McGovern suggested drastic cuts be made in military aid to Latin America, Pakistan and India.

"You can do more to build a capacity to resist Communism through food than through guns," he said.

"Many of the military aid programs are bondologies that get us into trouble."

President Johnson reportedly agrees in principle to the proposal.

"I've been told by high officials in the administration that the President has on his desk, awaiting only his signature, orders to put into effect a program which goes at least part of the way toward what I have under," McGovern said.

Under his bill, Congress would provide \$500 million annually to buy food for starving persons abroad, construct ports and facilities for distributing the U.S. produce in the underdeveloped countries and help them improve their farming methods.

CURRENT COSTS
The government now pays between \$2.5 billion and \$3 billion a year to farmers for agricultural programs aimed at reducing surpluses.

McGovern quoted unidentified Agriculture Department "experts" as estimating it would be only 20-30 per cent more expensive to allow the crops to be grown, buy the products in the open market, and ship them overseas.

McGovern says he's already made some progress with the idea through an amendment he sponsored to the farm bill passed by Congress earlier this year.

That measure authorizes the secretary of agriculture to buy dairy products in the open market for distribution overseas and to pay a period of time.

Two persons injured in a two-car collision at Williams Lake Road and Ideal in Waterford Township Friday night were listed in satisfactory condition this morning in Pontiac General Hospital.

Peggy Jo Myers, 26, and Paula K. Ames, 27, both of 1388 Sugar Creek Road, Waterford Township, received lacerations.

They were passengers in a car driven by Thomas E. Myers, 29, of the White Lake Township. The other driver was William W. Hendricks, 41, of 246 N. Saginaw.

mands of business and consumers for loans.

But the interest charges also will be rising because of the recent move by the Federal Reserve Board. It hiked its charge to member banks who borrow from the Fed. And most of them quickly raised the interest rates they will charge their business and individual customers the next time they make a trip to the loan counters.

Mortgage rates already had started to rise, averaging 5.80 per cent in November against 5.75 per cent in October. Many think the general rise in interest rates will continue to push mortgage costs up next year.

Some lenders have raised the interest on loans to auto dealers to finance inventories. And a few banks have moved up charges on installment loans to finance car purchases.

Markets, Business and Finance

Defense Issues Bounce Back

NEW YORK (AP)—Defense issues bunched up at the Viet Nam cease-fire fizzle out while the rest of the stock market pursued an irregular course early this afternoon.

Airlines, which underwent some severe profit taking last week, also came back strongly.

A number of other stocks which clipped away some of their big gains of the past few months hit the comeback trail. The market as a whole, however, was a very spotty affair.

Weakness in a number of blue-chips tugged at the averages.

STEELS UNEVEN
Steels were uneven despite forecasts of booming steel production in 1966.

Coppers and other nonferrous metals advanced moderately. Copper commodity futures were strong.

The Associated Press average of 60 stocks at noon was up .1 at 357.6 with industrials up .2, rails unchanged and utilities off .7. The Dow Jones industrial average at noon was up .73 at 967.09.

American Telephone sank more than a point amid published discussion of the Federal investigation of its rate structure. Du Pont also lost a point.

Prices were mostly higher in active trading on the American Stock Exchange. Syntax spurred nearly 8 points and its whensided up 3.

Corporate and U.S. Treasury bonds showed little change. Trading was light.

The New York Stock Exchange

Feud Flares Northwest Set for Big Storm

By The Associated Press
The northwestern part of the nation braced for a major storm today as gale warnings were posted from the North California coast north to Puget Sound. Winds as high as 52 miles per hour have been reported at Cape Mendocino, Calif.

The U. S. Weather Bureau expected heavy rains to fall over the Oregon and Washington coasts and over much of California as the storm moved inland. Heavy snow has been forecast for the Cascade Mountains and the mountains of Northern California. The snow was expected to spread eastward rapidly and reach the north Rocky Mountains later in the day.

The northern Pacific Coast experienced rain Sunday, with more than a quarter of an inch falling in northwestern Oregon. Light snow spread from the Cascades to the Rockies.

COLD WAVE

Cold wave warnings remained in effect today in the Midwest from Canada to northwestern Missouri and Kansas.

Cold winds dropped the mercury in Philadelphia from a Saturday high of 61 to 30 Sunday morning.

Temperatures this morning ranged from 16 below zero at Havre, Mont., to 65 at Cocoa Beach, Fla.

Shaken but unharmed, the soldier tramped home nearly 1½ miles after eight inches of snow.

Said Mayor James Cornelius, "If my boy had broken his leg in the fall, he would have frozen to death in the snow. Nobody would have heard his cries for help. Something's got to be done about this."

Big Yule Party in Hong Kong

Yank Project Fets 4,000 Poor Children

HONG KONG (AP)—It came two days late but it was the biggest Christmas party in the city.

U.S. sailors and American medical missionaries today handed out 2,000 dolls, 2,000 toys, slabs of chocolate and hundreds of cakes to about 4,000 children of poor Chinese families.

The party was held on the floating clinic boats of Project Concern, a private American medical agency that treats hundreds of patients daily in Hong Kong's refugee-packed boat shelters.

The party created a huge waterway traffic jam. Scores of larger junks and hundreds of small sampans brought the children to the clinic boats.

Many medium-sized breeds have been developed from the shire, Belgian and clydesdale.

Hollywood Stars Attend Rites for Comedian Ritz

HOLLYWOOD (AP)—Comedians and show business personalities were among the mourners at last rites for Al Ritz, member of the Ritz Brothers comedy team, who died at 64.

Ritz, who organized the family team that made 46 films, was eulogized Sunday by Rabbi Lawrence Block as a pioneer among movie comedians. Attending the service were the other two brothers in the team, Harry and Jimmy.

Among pallbearers were Jimmy Durante, George Burns, Tony Martin and show manufacturer Harry Karl, husband of actress Debbie Reynolds. Ritz died Wednesday in New Orleans, apparently of a heart attack.

About 48.5 million pupils were enrolled this season in U.S. elementary and secondary schools.

Earl Moved by Christmas to Remember Ones Missed

By EARL WILSON
NEW YORK — Now that we're heading toward 1966, I suddenly remember many friends I forgot to thank during this exciting year.

Maureen O'Sullivan, Mia Farrow's mother, for forgiving me for some of the bad bags about F.S. shouldn't have written.

Peter Mesta, for inviting the B.W. and me to all her exciting Washington parties (some of which we couldn't get to) and for telling us how she and Gwen Cattraz are now very chummy.

Bob Hope, for living up to his long-time promise to m.c. our Fight-for-Sight show when possible (he didn't, but he's a great guy for us).

Gina Martin of Dudes 'n Dolls and also the Naught Meader-Larry Goe comedy company, just for being so exciting.

Burlesque Producer LeRoy Griffith of the Mayfair and Gaiety Theatres for his welcome Christmas check for the "Earl Wilson Help-the-Needy Fund" which arrived just in time to aid some deserving folk. (We could still use more \$). Thanks to Al Strelan the Smothers Brothers, Eddie Freling, and others for their checks during the year!

My Mother, who doesn't scold me when I don't write: . . . Charmin' Sherman Douglas for barring me from her parties for Margaret (made me a better story that way).

Movie Producer Joe Levine for becoming so colorful he's good to see. My son Sheldon for being such a perfect young gentleman (his grandmother says) . . . Irving Hoffman for frequently illustrating my column and Gary Wagner for taking silly pictures of us . . . Dancer-Author Nicky Darvas for helping me pull off the exclusive interview with Brigitte Bardot when I posed as a hotel maintenance man. Without his hotel room for the makeup job, I couldn't have done it.

Bill Hiltner for taking us to their Tel-Aviv opening. Petrocelli Clothes, for taking us to their men's fashion show in Moscow . . . All the phone operators, desk clerks, headwaiters and captains, letter carriers, etc., who have to put up with the likes of us everywhere, a VERY SPECIAL THANKS.

TODAY'S BEST LAUGH: This is the time of year (notes Bobbi Martin) when employees work their fingers to the bone. WISH I'D SAID THAT: Jesse Jackson defines our waste shortage as much about nothing as a dew.

REMEMBERED QUOTE: "Two reasons why women don't wear last year's dresses: They don't want to and they can't."—Quote.

EARL'S PEARLS: Actress Louise Larrabee heard a wife tell her husband, "This Christmas let's give each other sensible gifts like ties and milk coats."

Christmas shoppers (according to Shelby Friedman) are people with the spirit of brotherhood . . . That's earl, brother. (The Earl Syndicate, Inc.)

Healthy Economy Forecast for Area in '66

By L. GARY THORNE
Retail, banking and business leaders forecast a healthy economy for the Pontiac area in 1966, triggered by a booming auto industry.

Local business leaders generally exhibit confidence in the Pontiac and Oakland County area and its continued growth.

However, eyeing a total U.S.

economy that has achieved a rise for five consecutive years without a setback, some local businessmen also wonder how long the boom can continue.

Locally, no ill health is anticipated.

In fact, Pontiac area businessmen expect 1966 to produce:

- New stores.
- Industrial expansion in volume and number.

- New recreation facilities.
- More homes.

The only shortcoming cited is that the labor market may be tighter in the new year than 1965. But this, itself is a product of prosperity.

SEARS MANAGER
In downtown Pontiac, Howard M. Nelson, manager of the Sears Roebuck & Co. store, termed 1965 "a very good year."

He said his store set a sales record in 1964 and would set still another record in 1965.

Optimistic over 1966, Nelson said a small percentage increase had been budgeted for the spring selling season.

Clifford C. Grovogel, president of the Downtown Pontiac Business Association, summed up 1966 prospects for the Pontiac economy.

He anticipated 1966 would end with merchants showing five to ten per cent more business than in 1964.

Grovogel expected the same level of activity to continue for at least the first six months of the new year.

The only doubt expressed was on the possible effect of the government taking more Social

Security tax out of an individual's weekly pay check.

Expansion — five more stores — is under way at the Pontiac Mall, Elizabeth Lake Road at Telegraph, Waterford Township.

GROSS SALES
Robert L. Witthold, Mall spokesman, said the Mall had registered a 20 per cent gain in gross sales each year since it opened in May 1962.

Total 1965 sales were rated 15 to 25 per cent above 1964.

He did not expect the Mall's growth to slacken in 1966. Current expansion includes enlarging of the former J. L. Hudson Co. Budget Store into a full-line department store.

Parking facilities are also to be added to provide space for 6,000 cars.

U.S. Charges 2 GIs With Aiding Enemy

NAHA, Okinawa (AP)—The U.S. Army said today it has charged two GIs with aiding the enemy during two years of Viet Cong imprisonment and is investigating to determine whether they will be put on trial.

The two soldiers are Sgt. George E. Smith of Chester, W. Va., and Spec. 4 Claude McClure of Chattanooga, Tenn., who were released by the Viet Cong last month.

They will remain on Okinawa until a final decision is made on their cases, the spokesman said.

Planes Avoid N. Viet Skies

63 Cong Said Killed in Ground Fighting

SAIGON—South Viet Nam (AP)—For the third straight day, the United States kept its planes out of North Viet Nam's skies today, but U.S. Marines killed 63 Viet Cong in ground skirmishes after a short Christmas truce.

The Marines reported strikes against the Communists during patrols around the big U.S. air base at Da Nang, 380 miles northeast of Saigon. The Americans reported taking light casualties.

A squad of leathernecks pounced on about 40 Viet Cong, killing 15 at a hamlet called Quang No. 1.

Two hours later a Marine platoon near Quang Ha No. 2, about two miles southward, was attacked by 75 Viet Cong armed with automatic weapons.

The Americans called in artillery support, tanks and armed helicopters.

When the brief encounter was (Continued on Page 2, Col. 3)

For Holiday Weekend Traffic Toll Is Record

Veep to Leave on Asian Trip

Humphrey to Visit 4 Nations in Far East

WASHINGTON (AP)—Hubert H. Humphrey wings toward the Far East today on his first major overseas trip as vice president.

The week-long Asian journey to the Philippines, Japan, South Korea and Nationalist China may be largely ceremonial.

But the war in Viet Nam, Humphrey says, will be a prime topic in his private talks with leaders of the four friendly governments.

The foreign travel may also help strengthen Humphrey's image at home, as it did for Richard M. Nixon and Lyndon B. Johnson.

Although Johnson traveled to 28 countries when he was vice president, Humphrey's most talked-about trip was the one he didn't make — when Johnson sent Chief Justice Earl Warren to represent the United States at Sir Winston Churchill's funeral.

SHORT TETHER
Generally, Humphrey has been kept on a short tether, laboring as liaison between the White House and Congress and giving speeches within the United States.

Coincidentally or otherwise, the White House announced the plans for Humphrey's trip after a public opinion poll whose findings apparently surprised Humphrey's staff.

Johnson said he had selected Humphrey as his No. 2 man because he was equipped to be a good president.

But the recent poll showed that the majority of people sampled was not as sold on Humphrey as Johnson said he was.

Fire Razes Walled Lake Casino

The Walled Lake Casino went up in flames early yesterday morning.

While it has provided entertainment for dancers for nearly four decades, the casino will be identified most strongly with the swing era of the big bands.

The Christmas dance held there Saturday was in keeping with the establishment's new name, the Club A-Go-Go.

After an evening of dancing to the latest tunes, several hundred teen-agers left the casino at 11:30 p.m.

Just 13 minutes later, the Novi Fire Department was summoned by a neighbor to the pavilion at 1904 Novi.

FOR 10 HOURS
For the next 10 hours, they battled the fire which leveled the building.

Some 100 firemen from seven departments were called to the scene.

The fire, cause of which is not yet known, started in the bandstand area.

"It was going out through the roof of the stage when we got there," Novi Fire Chief Fredderic Loynes said.

'RAN OUT OF WATER'
For a while, it looked as though there was hope for saving a portion of the building.

"We had the fire nearly knocked down, and then we ran out of water for a couple of minutes," Loynes said.

There was a brief pause between the time the tankers ran out of water and the pumps could start pulling water from Walled Lake.

"Then we had mud troubles with the shallow lake," Loynes said. "It seems like everything was against us."

'AWAY IT WENT'
While firemen were coping with the water shortage, the blaze "got in the latticework and away it went," the chief commented.

The Kraemers sold the casino to two Detroit businessmen in 1964.

Mrs. Kraemer commented that it probably would cost \$250,000 to duplicate the building if anyone wanted to duplicate it now.

Death Count Across Nation Stands at 707

Hazardous Conditions Help Boost the Total Way Past Prediction

By The Associated Press
The nation's three-day Christmas traffic death toll broke all records for holiday fatalities on the highways.

The death toll reached 707 today as late reports were received. The previous record traffic toll was 706 for a four-day Christmas weekend in 1966.

Before the holiday, the National Safety Council had estimated deaths would run between 500 and 600.

The toll included records in a number of individual states. In

State Traffic Story, Page A-4

Ohio, State Safety Director Warren C. Nelson said the 49 deaths made the highest since records have been kept.

Louisiana's superintendent of public safety, Thomas Burbanks, said that state's 32 was the worst toll since state police began keeping records 25 years ago.

ADDED HAZARDS
Rain, sleet, snow and freezing temperatures over much of the nation added to the expected hazards of long-distance travel, minimum daylight and roads jammed with cars.

The Safety Council said 80 million vehicles were on the road during the 75-hour period, which started at 6 p.m. Thursday and ended at midnight last night.

Several accidents accounted for dozens of deaths.

Shortly after the start of the holiday period, a bus traveling on icy pavement in Oregon skidded out of control, crashed and turned over. The accident Thursday took 13 lives.

OUT OF CONTROL
The next day, five persons died when a car skidded out of control on an ice-coated bridge in eastern Oklahoma.

Five persons died yesterday on a snowy road near Buffalo, Minn.

Seven persons were killed in a collision west of Sublette, Kan., yesterday.

The total dead far exceeded the 578 killed over the 1964 Christmas weekend and the 428 fatalities during a recent non-holiday weekend.

Mother, Four Children Perish in Home Blaze

UNIONTOWN, Pa. (AP)—A young mother and her four children died early today in a fire that swept their four-room home two miles east of Uniontown.

Firemen said Martha Garrison, about 32, and the children were asleep and had no chance to get out. Their bodies were found in two beds.

SKI RESORTS

The chamber manager cited one industry that hopes 1965-66 will be better than 1964-65. While others did a booming business in 1964, ski resort operators did not.

Cold weather is the key to the skiing business. In 1964, (Continued on Page 2, Col. 3)

Expect Drop in Mercury for Area Tonight

Having already served up a white Christmas for the Pontiac area, the weatherman now predicts a sharp drop in the temperature tonight and tomorrow.

Area residents, lulled to sleep by the sound of rain on the roof Friday night, awoke to find from three to five inches of snow on the ground Christmas morning. Some also found their clocks had lost an hour.

Three thousand Pontiac families were without power for 48 minutes early Saturday morning, according to Consumers Power Co. At 2:55 a.m. a car ran into a utility pole at Bagley and Irene knocking down a transmission line.

As a result, electric power was cut off for customers in the west section of Pontiac.

Snow flurries with lows in the 8 to 18 range are expected tonight, followed by partly cloudy skies and highs in the chilly 17 to 24 range tomorrow.

WARMING TREND
Partly cloudy skies are forecast for Wednesday also, but temperatures are due to warm up in the afternoon.

Twenty-one was the low mercury reading preceding 8 a.m. today. The mercury stood at 28 at 1 p.m. in downtown Pontiac.

ARCHWAY STILL STANDS — Leading only to the flames destroying the Walled Lake casino is the archway, through which once passed the greats of the big-band era. The dance pavilion in Novi ranked with such other band arenas as the Glen Island Casino in New York, Frank

Dailey's Meadowbrook in New Jersey and the Trianon and Aragon ballrooms in Chicago. The building with a 120-by-140-foot dance floor was called the Club A-Go-Go at the time it was destroyed early yesterday morning by a fire of undetermined origin. (Additional photos on pages A-2 and A-4).

MAKE OVER PAGES

2 Noted Scientists Clash on Antimissile Plan, Shelters

BERKELEY, Calif. (AP) — Two prominent scientists clashed today over the value — or danger — of proposals to spend billions on antimissile systems and fallout shelters.

"Reliance upon a defense system of such extraordinary complexity may bring more harm than safety," said Dr. Barry Commoner, head of the Department of Botany at Washington University, St. Louis, Mo.

Dr. Edward Teller, University

of California physicist and one of the inventors of the atomic bomb, countered: "A strong conviction is our best hope of preventing nuclear attack."

The two were scheduled speakers in a symposium on civil defense at the annual meeting of the American Association for the Advancement of Science — the largest scientific convention of the year, attended by more than 6,000.

DIFFERENCE OF OPINION
The difference of opinion

came at a briefing prior to the symposium. Commoner, an authority on the effects of radiation on man's environment, accused Secretary of Defense Robert S. McNamara of giving a "woefully inadequate" picture of the immediate and eventual damage from nuclear war.

He predicted "epidemics of human and animal diseases, crop destruction by radiation, erosion and sterilization of the land resulting from massive

destruction of vegetation, and the triggering of possibly catastrophic climatic changes."

These, as well as immediate destruction from blast heat and radiation, he said, "lead me to conclude that this nation, its population, its economic wealth, its social fabric — all that we speak of as our civilization — would be irrevocably lost following a major nuclear war."

SURVIVAL
He conceded that some human and animal diseases,

but insisted "there can be no disagreement that it is absolutely impossible to be certain of our own survival."

Teller said strong civil defense measures are vital as a deterrent.

"The Russians characteristically avoid taking risks," Teller said. "If we have no shelters or antimissile systems they may feel they can defeat us. But if we put up a strong civil defense I believe we will prevent attack."

"The Russians and the Chinese are not mad, as Hitler was. It is fortunate that we are now faced by reasonable opponents. I don't think they will want to start a war unless they are sure they can defeat us, and they can't be sure if we have a strong civil defense."

COMBINED SYSTEM
Commoner pointed out that the Johnson administration is considering a combined antimissile-shelter system, expected to cost several billions.

He said he believed the money a strong civil defense system would cost might be better spent on a research and education to prevent war but that in any case no decision should be made without informing the public of potential dangers.

Teller said he was convinced that adequate civil defense measures would at last decrease the number of casualties and that their very existence would make potential aggressors hesitate.

For Critically Ill Girl

Santa Made Two Trips

Santa Claus made two visits this year to Diane Vankleek, the little Waterford Township girl who is in Pontiac General Hospital with a brain tumor.

Diane's parents, Mr. and Mrs. Howard Vankleek of 3184 Warren, arranged an early Christmas for the five-year-old child a month ago when it seemed she might not be alive Dec. 25.

Santa returned again on Christmas with more dolls and a teddy bear for Diane.

"She was cheered by the gifts," Mrs. Vankleek said, "but she has been refusing solid food and is losing weight."

The Vankleeks took their three daughters to the hospital Christmas day but Diane didn't feel up to visiting with the youngsters more than a few minutes.

CONSTANT PAIN
Diane has developed a respiratory problem which has made her very restless the last few days, her mother said. The child has been in constant pain as a result of the tumor.

Cards and letters, some from servicemen in Viet Nam, continue to come to Diane and youngsters from area schools have sent her Christmas baskets.

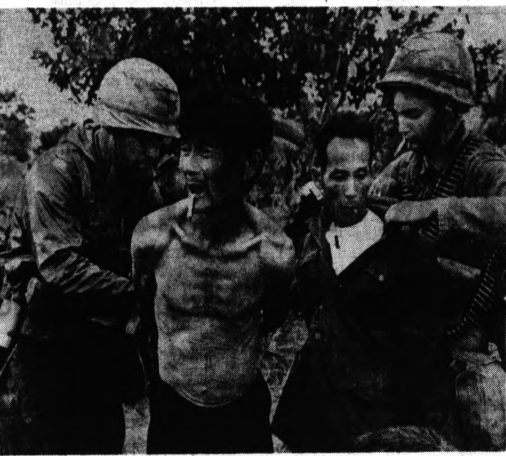

But Diane has bypassed the sweets and is taking only milk for nourishment.

Her trouble was discovered last July when her left temple became noticeably swollen.

WAS TOO LATE
She was taken to the family physician who referred her to a specialist for surgery at Pontiac General Hospital. But it was too late.

Diane became paralyzed in mid-November and her condition has steadily declined.

Neighbors of the Vankleeks, Mrs. Arlo Fiesher, of 450 Monroe, and Mrs. Donald Worden, of 4116 Louella, have started a fund drive to help defray hospital and doctor expenses resulting from Diane's illness.

AP Photos

CONG SUSPECTS BOUND—U.S. soldiers bind two Viet Cong suspects captured recently in a helicopter assault in an area 30 miles northwest of Qui Nhon by units of the

1st Cavalry Division. The suspect at right is wearing an old French army jacket, which is being pulled down over his bound arms by the soldier.

Planes Avoid N. Viet Skies

(Continued From Page One)

over they counted the bodies of 41 Reds.

Marines, in other scattered actions against the Reds, reported killing seven Viet Cong during the day.

Air attacks were made only on suspected Viet Cong concentrations in South Viet Nam, U.S. spokesmen said. Ground action also was reported in low key for the past 24 hours.

Beyond confirming the suspension of the aerial war which steadily had been closing in on the Hanoi-Haiphong industrial belt, U.S. officials in Saigon said only that the orders came from Washington.

NEW INVITATION
This raised speculation that the pause was a new invitation to North Vietnamese President Ho Chi Minh's regime to come to the peace table. U.S. officials declined to guess how long the lull would last.

In the south, U.S. casualty lists grew. A U.S. army truck carrying soldiers of the U.S. 1st Infantry Division hit a mine 30 miles north of Saigon. Casualties were reported heavy.

The Viet Cong detonated a mine at a government troop barracks at Sa Dec, 70 miles southwest of Saigon, just as two Vietnamese platoons were starting the work day.

"It killed or hurt a lot of soldiers," a U.S. Army official said.

ADJACENT COMPOUND
An adjacent compound for American advisers escaped the force of the explosion. A second mine was found and disarmed.

Twenty miles southwest of the barracks, a Communist mine blew up a Jeep, killing two American soldiers and an American civilian.

The Air Force raised its toll of fire over North Viet Nam to 10 planes. A spokesman said an F-4C Phantom jet downed during an assault on the Bac Kac bridge 85 miles north of Hanoi Dec. 19 had been hit by a Soviet-built surface-to-air missile. The pilot was rescued.

A U.S. spokesman was asked if he saw any political significance to the halt in the air raids on the north beyond the 36-hour U.S.-South Vietnamese holiday cease-fire. "If there is any, I don't know what it is," he replied.

No word came from President Johnson at his Texas ranch, but he reportedly still retained a glimmer of hope the fighting would not return to its pre-Christmas ferocity.

Son Says Eichmann Felt Top Nazis Alive

MUNICH (UPI)—Adolf Eichmann went to his grave in the belief that many top Nazis, including Hitler's right-hand man Martin Bormann, survived World War II and the collapse of the Third Reich.

Eichmann was quoted as releasing the belief by his son, Klaus, in an interview with the West German magazine Quick which went on sale today.

Klaus Eichmann, who lives in the Buenos Aires region, also says his father often claimed he had been unjustly accused of war crimes.

The elder Eichmann was captured in 1960 by Israeli agents who tracked him to Argentina, where he had been living for many years under an assumed name.

Tried and convicted during a celebrated trial in Israel, Eichmann was hanged in 1962 for the murders of millions of European Jews.

"STILL ALIVE"
"Father often said those really responsible were still alive—people such as Martin Bormann, Heinrich Mueller and others," Klaus Eichmann told his interviewers. "But Bormann above all."

Gestapo chief Mueller and Bormann had been re-

mored to be alive and hiding somewhere in South America. West Germany has a \$25,000 reward posted for the capture of Bormann.

Frankfurt Prosecutor Fritz Bauer, who is running the manhunt for Bormann, recently released the text of a letter in which another Eichmann son—Horst Adolf—claimed to have spoken several times with the wanted Hitler aide in South America.

Klaus Eichmann said as a boy in Buenos Aires he recalled meeting a number of former top Nazis who visited his father. Among them, he said, was Josef Mengele, known as the "angel of death" at the infamous Auschwitz death camp in Poland.

WITHOUT KNOWING
"I met him without knowing who he was," Eichmann said. "But one day sometime afterward father said to me, 'Last week you shook hands with Mengele.'"

Mengele, also wanted on mass murder charges, is believed by West German authorities to be in Paraguay.

Although many Auschwitz overloads have been tried and convicted, he is cited as chief villain at the death factory.

Area Pounded by Snowstorm

All Available County Road Crews Sent Out

Oakland County residents got a sample of things to come Saturday morning when the first big snowstorm of the winter swirled in on 35-mile-an-hour winds.

All available County Road Commission crews were called out around midnight when a driving rain changed to snow and driving became hazardous.

Maintenance crews remained on duty until 10 last night plowing out drifts and salting and sanding intersections, according to Richard Kincaid, assistant maintenance superintendent.

Conditions were the worst in the north half of the county, where high winds drifted some five inches of snow into three-foot drifts.

Some roads were impassable until they were plowed out yesterday, Kincaid said.

No emergencies resulting from blocked roads were reported to the road commission.

The snow on some well-traveled rural roads not bothered by drifting became packed before snowplows could get to them and were extremely slippery yesterday.

Predictions are for falling temperatures tonight, and slippery conditions on unplowed roads are likely to prevail for a day or two.

Oil Rig Collapses in the North Sea

GRIMSBY, England (UPI) — A big offshore oil rig which recently brought in a flaming human gas strike collapsed in the choppy North Sea some 40 miles offshore today.

First reports said that 40 technicians, including a number of Americans, had taken to lifeboats. At least two rescue ships were standing by.

The "Sea Gem" drilling rig operated by British Petroleum sent a radio distress call that it was collapsing.

Food for Poor Stolen
JOLIET, Ill. (AP) — Burglars broke into Salvation Army headquarters over the weekend and stole 22 bags of food intended for the poor. Capt. Ross Zaruga of the Salvation Army said the bags of food were worth \$15 each.

Birmingham Area News

Twelfth Night Gala Set for Jan. 6 at Cranbrook

BLOOMFIELD HILLS — The 18th annual Twelfth Night Gala will be held at Cranbrook House Jan. 6.

Hosts for the 8-11 p.m. event are the Henry S. Booths.

Booth is executive director of the Cranbrook Foundation and chairman of its board of trustees.

A flaming plum pudding will be featured among the refreshments served at Cranbrook House, home of the late founders, Mr. and Mrs. George G. Booth.

Guests will include members of the faculty and staffs of the six Cranbrook institutions, trustees and directors of the six Cranbrook institutions, board members of the Cranbrook Guild, school members of Christ Church Cranbrook and their spouses.

NATIVITY SCENE
The nativity scene will be re-enacted and there will be mummery, but the details and characters are never revealed in advance.

Representatives of each are working with Booth on plans for the gala.

A visiting scholar chair has been established at Cranbrook Institute of Science to help promote scientific literacy through publication, broadcast, lecturing or museum exhibits.

The purpose of the visiting

'State Revenue Could Nearly Finance Budget'

LANSING (AP) — Gov. Romney acknowledged today that state revenue — without tapping surplus — could come "pretty close" to financing a hold-the-line budget for 1966-67. This could brighten the state's financial picture up to \$79 million over Romney's early summer predictions.

The governor said in his answer to a news conference on budgeting that the economic situation is better than he could forecast six months to a year ago.

scholar chair is to bring to the area distinguished individuals who would like to participate for three months to two years in the program.

The program is flexible and suited to persons on sabbatical or newly retired from academic life who wish to remain active in education, in research in one of the natural or physical sciences or in the promotion of conservation.

Only one appointment is to be granted in any particular period and will carry with it both a stipend and the use of the newly developed Thomas Alva Edison all-electric House on the Cranbrook campus.

First appointment will be for the period beginning September, 1966.

Death Claims Area Banker

BIRMINGHAM — Richard Craig, 38, of 1714 Witherbee, vice president of the Birmingham-Bloomfield Bank, died yesterday after a long illness.

Craig had been with the bank since it was founded four years ago.

Surviving are his wife, Patricia; a daughter, Karen, and two sons, Stephen and Andrew, all at home; and his mother, Mrs. Lyman Craig of Bloomfield Hills.

Also surviving are three sisters, Mrs. Leonard Miller of Ann Arbor, Mrs. Richard T. Dwyer of Birmingham and Mrs. Thomas W. Miller of Bloomfield Hills, and four brothers, Robert of Bloomfield Hills and Lyman J., Gordon and Bruce, all of Birmingham.

Funeral service will be at 11 a.m. tomorrow at Christ Church Cranbrook. Burial will be in Woodlawn Cemetery, Detroit, by Bell Chapel of the William R. Hamilton Co.

Leaders in Area See Good Year

(Continued From Page One)

warm, wet weather hampered the season and ski operators suffered.

A 30 per cent increase is projected for southeastern Michigan ski business for 1965. This area, including Pontiac, has about 100,000 skiing sportsmen, said Adams.

Another "sports" business that is dependent on the weather is golf. Generally, the climate was kinder in 1965 than in 1964.

Five new courses were added to the Pontiac area in 1965 with three more slated to open in 1966.

Christmas Eve Crash Kills 2 in Ontario

STRATHROY, Ont. (AP) — Two men were killed Christmas Eve when their cars collided near here.

Killed were Harry William Feast, 34, formerly of London, Ont., and now living in Mount Clemens, Mich., and George Muzamel, 26, of Strathroy.

Decorated by Thailand

BANGKOK (AP) — Gen. Earle G. Wheeler, chairman of the U.S. Joint Chiefs of Staff, was awarded one of Thailand's highest decorations today by Premier Thanom Kittakachorn. The award is the Most Exalted Order of the White Elephant, First Class.

Highest and Lowest Temperatures
This date in 95 years — 4 in 1925

NATIONAL WEATHER — Snow flurries are due tonight in north and central Appalachians, lower Lakes and Ohio Valley with snow due in northwestern part of the nation. Rain is due for Pacific Coast from Washington to central California. It will be colder from Lakes into southern Plains and somewhat warmer in Atlantic states and along Pacific Coast.

Surgeons Part Siamese Twins; Both May Live

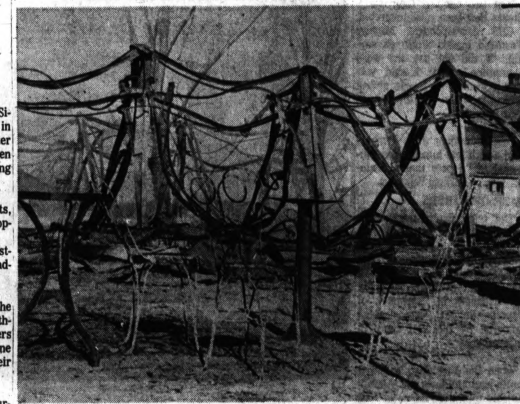

LOS ANGELES (AP) — Siamese twin girls, separated in three-hour surgery shortly after birth, have a better than even chance of living, their attending pediatrician says.

The mother of the infants, when told of the emergency operation, took the news well.

The babies were born Christmas Day with a common bladder and intestines.

As Robin Mantonya, the mother, passed her 20th birthday at one hospital, daughters Lisa Marie and Sheila Norine appeared to be holding their own at another.

Thirty-six hours after surgery, their pediatrician, said: "They're both still moving around, which is the most important sign to us. Everything is functioning, and their color is good."

Pontiac Press Photo

CASINO RUINS — The steel framework and some metal furnishings were all that was left of the Walled Lake Casino yesterday morning when firemen called a halt to their 10-hour fight against a blaze of undetermined

origin. The fire broke out minutes after the end of a Christmas dance for teen-agers at the pavilion, which had recently been re-named the Club A-Go-Go.

Most Europeans Are Indifferent to U.S. Efforts in Viet

LONDON (AP) — As far as most Europeans are concerned, Americans are largely on their own in Viet Nam.

A survey by Associated Press correspondents in West European capitals makes clear that the most the U.S. effort can expect is some medical and technical aid, official moral support — and advice.

American GIs who fight and die in Viet Nam have roused sympathy among Europeans. But nearly everyone from government leaders down seems convinced the end of the conflict can come only at the conference table and not on the battlefield.

President Johnson's repeated offers to enter into unconditional discussions with the communists strike a note in tune with European thinking. The bombing of North Viet Nam brings doubts of United States policy and some bitter criticism.

NO APPREHENSION

Washington's warnings of a Red China threat to Southeast Asia and world peace have not stirred noticeable apprehension among Europeans.

Viet Nam, gauged by the talk heard in European streets in pubs, coffee houses and even

The British government is an outspoken champion of United States policy in Viet Nam among members of the North Atlantic Treaty Organization. Only a casual mention of Viet Nam in the communiqué closing their meeting in Paris this month. They heard Secretary of State Dean Rusk ask for any aid NATO countries could give and Defense Secretary Robert S. McNamara warn of a new peril from Communist China. Then the communiqué said:

"Turning to problems outside the Atlantic area, ministers noted that tension had diminished in some parts of the world but in Southeast Asia conflicts continued with regard to Viet Nam. The U.S. secretary of state reaffirmed that the United States, while determined to fulfill its commitments, remained ready to enter without preconditions into negotiations to end the war. He recapitulated the views of his government as the basis for a peaceful settlement."

British Prime Minister Harold Wilson, in going down the line

backing the Americans in Viet Nam, has stood against a powerful leftist bloc in his own Labor party who protest particularly the bombings of North Viet Nam. British support is entirely diplomatic, with no other direct aid.

President Charles de Gaulle, calling the Viet Nam conflict a "stupid war," has kept France aloof while advocating neutralization of South Viet Nam and withdrawal of all foreign influence.

The French leader, without going into details, has suggested the neutrality be guaranteed by Red China and the U.S. 7th Fleet. He insists that settlement of any conflict in Southeast Asia can not be achieved without China's concurrence.

GERMAN ALLIES

West Germany is lined up behind the United States in Viet Nam and is giving both medical and economic aid to the Saigon regime.

The West German Foreign Ministry says present aid projects include a \$12.5-million loan for a chemical complex; a \$3.75-million loan for import of foodstuffs and spare parts; \$5-million capital aid for coastal

merchant craft and slaughterhouses; \$2.5 million in technical aid; \$126,500 for purchase of rice for refugees and a fleet of ambulances.

Chancellor Ludwig Erhard said in a statement in September: "The defense of the free world by our American friends in Viet Nam is a guarantee for us of American resolution and faithfulness in alliance. (But) no form of military obligation has been asked of us nor is there any question of one."

Premier Aldo Moro says Italy has an understanding of the United States position in Viet Nam. He stops short of endorsing Washington's policy. He has been under pressure from Socialist partners in the government to back admission of Red China into the United Nations and to take a more independent line on Viet Nam.

HOSPITAL SENT

The Italian government sent to South Viet Nam a fully equipped field hospital, staffed with army doctors and attendants. Italian leftist organizations are sending medical aid to the Communists.

Norway, which is sending put medical supplies to South Viet for peace talks amount to

Nam through the Red Cross, manding South Viet Nam's capital. The Dutch plan to send experts to South Viet Nam early next year to start an irrigation project.

Greece, while shipping medicines to South Viet Nam, has not taken an official stand in the war. But the government shows support for U.S. policy and bans Greek ships from North Viet Nam's ports.

EMOTIONS WANE

The Viet Nam war has failed to stir emotions in Europe to the height of the ban-the-bomb movements.

Some anti-American demonstrations have broken out but these couldn't compare in size with the "stop-the-war" demonstrations in the United States itself.

"What do the Americans hope to gain?" asked Ian Mackay, a cook in a swank London hotel. "The issue is apparently communism but the way to beat communism is economically."

Portugal's Foreign Ministry spokesman, while heralding any move against communism, says the Viet Nam problem should be dealt with by countries in the

area and others expressing views may complicate the matter.

The foreign editor of the Economist, an influential British weekly journal of opinion, wrote in replying to a denunciation by a Polish Communist newspaper:

"The decision to start the Viet Cong rebellion was taken in Hanoi, not in South Viet Nam, and the Viet Cong has received much help from North Viet Nam. Had that decision not been taken, South Viet Nam might now have been a peaceful and by Asian standards relatively prosperous country. The first resort to violence, with all the horrors that have flowed from it, was Mr. Ho Chi Minh's support the American attempt to stop it succeeding."

NOT TOUCHED

So far the war has not touched Europe economically or militarily. The average European — excluding politicians and political students — views the war from a nationalist viewpoint.

"Hardly hear anyone ever talk about the war except you press blokes," said the bartender in a pub just off Fleet Street.
