Newsletter

The Commuter Council hopes that you are having a good year so far. We all know that it's important to maintain good grades, but it's also important to get involved with school activities. Many things can be learned in being active with a campus organization that can help further your education and experience. It is also a great way to meet other students, faculty and staff members. Getting involved in campus activities can make college more than just a place to get your degree from and leave without a trace. They can greatly enhance your education and make school much more enjoyable. Granted, there is some work from time to time but many organizations only ask for a couple hours a week. That isn't much time at all considering the personal satisfaction and admiration that can be gained. Rewards can also come in other ways, such as the Commuter Involvement Award which, each year, gives every one of the twenty commuter students selected a five-hundred dollar scholarship.

The Commuter Council's purpose is to help commuter students who want to get involved. We also try to provide information commuting students may need, and to solve problems that arise amongst the commuters. Along the way we also set up entertaining programs. Even though commuters make up 85% of the student population, we are far from the organization we hope to become. To do this we need your help, so please stop by the Commuter Council office at 63 Oakland Center with any ideas or concerns you may have.
