

Vanishing Occupation

OLDEST BUSINESSMAN — Charles Price has been in business in his tiny harness shop on Milford's Main Street for "nigh on to 50 years," as he recalls. He has never owned an automobile, and at 83 is believed to be Michigan's oldest harness maker, and perhaps the only one still engaged in a vanishing occupation. With other Milford residents, he is helping plan the village's 125th anniversary in October. (See story, page 17.)

Search for Fugitive Ends With Body Found in River

DETROIT (P)—An intense search for the last member of a holdup gang ended today with the discovery of his body half buried in the sludge of the River Rouge. The body of William (Super) Williams, 31, of Princeton, W. Va., was found by a police harbor-master's crew 100 feet from where the gunman's tracks vanished into the water.

DETROIT (P)—A man-hunting posse of more than 100 policemen, some armed with machine guns, searched through a heavily wooded area in suburban Melvindale today for the last member of a holdup gang.

Other officers dragged the nearby Rouge River for the gunman they identified as William (Super) Williams, 31, of Princeton, W. Va.

Detectives said the odds were about even that Williams either has escaped the dragnet or has drowned in the river.

Williams and three other persons were racing away from a holdup scene and pursuing police yesterday when their car smashed

into one driven by William W. Finger, 31, of Detroit, killing Finger, the father of three children instantly.

Williams, carrying a .45 caliber automatic, fled from the death car into dense woods. His three companions were seized by police.

A police posse quickly formed to search for Williams. It included officers from suburban Dearborn, Detroit and Melvindale, machine-gunners, Detroit's "Commando Squad" and an armored car.

The hunters traced Williams, believed wounded by police bullets, to the river bank. One of his shoes, the other was torn off in the auto crash, was found there as well as footprints leading into the river.

No footprints were found on the opposite side and some officers said they believed Williams drowned while trying to swim across the 100-foot wide stream.

The three other members of the gang, now held by Detroit police, are Felix Johnson, 22, of Princeton, Theodore Henderson, 28, of Eccles, W. Va., Henderson's common-law wife, Ruby, 17. All are Negroes.

Finger, also a negro, was driving to a nearby tuberculosis sanatorium to visit his sick wife when the crash occurred.

Police said Williams and Johnson held up a Melvindale store and took \$300. The owner of the robbed store, Robert Usher, (Continued on Page 26, Col. 2)

GMTC Supervisor David Lyons Killed

A General Motors Truck & Coach Division supervisor died in a Pittsburgh hospital last night, after being struck down by a car.

David E. Lyons, 55, of 506 Shore View St., was hit while crossing a street to his hotel during a rain-storm last night.

Lyons, who was in Pittsburgh on business, was with the Parts and Merchandising Department. He died three hours after the accident.

His body is being returned to the Donelson-Johns Funeral Home, 855 W. Huron St.

Radio Comment on Gov. Faubus Irritates Ike

NEWPORT, R. I. (P)—On orders from President Eisenhower, the White House today sharply denounced what it termed "radio and television comment" saying Arkansas Gov. Orval Faubus had "thrown in the sponge" in the school segregation crisis.

The criticism was voiced by James C. Hagerty, Eisenhower's press secretary, who told newsmen the President personally had directed him to hit at such reports.

Hagerty was in an obviously angry mood when he started today's news conference.

He said he and the President had been "listening to some radio and television comment" on the Faubus proposal.

He said he and Eisenhower had heard "White House aides" being quoted on radio and television as saying Faubus was "throwing in the sponge."

Hagerty went on to say they also had heard "a great deal of other junk" on the air.

Mt. Clemens Church Burns

Faubus Carrying Integration Woes to Ike at Newport

LITTLE ROCK, Ark. (P)—Gov. Orval Faubus is taking the aggravated federal-state dispute over integration in Little Rock directly to President Eisenhower, and the general belief here today is that a solution will come out of their meeting.

The President suggested either Friday afternoon or Saturday morning.

"All good citizens must, of course, obey all proper orders of not yet decided when to go to Newport, R.I., Eisenhower's vacation headquarters.

He said the governor spent most of Wednesday in bed and that, while he is not actually ill, "he's not too good."

He said Faubus was exhausted by the tension since he ordered the National Guard to surround Central High School last week — with instructions to keep Negro students from enrolling.

Faubus telegraphed the President asking to see him in Newport.

'COUNSEL TOGETHER'
His message said in part: "Recognizing that we jointly share great responsibility under the federal Constitution, I feel that it is advisable for us to counsel together in determining my course of action . . . with reference to the responsibility placed upon me by the state and federal Constitution."

Faubus, an aide said today, has our courts, and it is certainly my desire to comply with the order that has been issued by the District Court in this case, consistent with my responsibilities under the Constitution of the United States and that of Arkansas."

The latter paragraph referred to a summons to the governor to appear in U.S. District Court Sept. 20 for a hearing on a federal petition for an injunction that would stop him from interfering with integration in Little Rock.

The President read the message (Continued on Page 26, Col. 2)

Harried Mothers Take Note: Atoms Can Do Laundry

PARIS (P)—A scientist from Britain's famed atomic installation at Harwell has come up with another peacetime use for atomic energy. It does laundry, he says, and without detergents or even hot water.

Dr. Henry Seligman described the procedure in a talk to some of the 1,000 delegates from 49 nations in Paris for the UNESCO-sponsored International Conference on Radioisotopes.

Experiments already are well under way, Seligman said, in which hospital bedding is receiving "radiation laundries."

"When hospital bedding is sterilized by ordinary methods," he explained, "it's still far from being free of bacteria which can cause infection. Moreover, bedding from surgical wards requires treatment in a steam autoclave. Two or three treatments in the autoclave and the blankets usually are ruined."

"But blankets can be sterilized by irradiation without an appreciable rise in temperature and an average blanket can survive at least 20 such 'washings.'"

Seligman said radiation, in large enough doses, can kill almost any kind of bacterial organism, thus insuring thorough sterilization. While some slight damage is done to the fibers over a period of time, irradiated fabrics do not become radioactive, he said.

It's still much too early to forecast what all this might mean for tomorrow's housewives, he added, but irradiation sterilization already is being applied to surgical dressings.

Baseball Adds Another Field Man

HELICOPTER DRIES FIELD — Fanning the air will no longer mean in baseball jargon only that a batter failed to connect; now it may refer to field maintenance. A helicopter was hired last night by the Baltimore Orioles to dry up water on

the playing field after a heavy rain. The downwash from the rotors did the job and the two-night games were played. Orioles and Kansas City split the double bill. (Details on sports page).

Acquit Attorney in Assault Case

Municipal Judge Rules Milton Henry Was Defending His Car

Pontiac attorney Milton R. Henry was found not guilty of assault in striking a police officer about to impound his car. Municipal Judge Cecil McCallum ruled today.

Henry was found innocent of assault and battery against Patrolman Clarence G. Smith, whom the attorney admittedly struck once in the face as the officer tried to tow Henry's car away as a penalty for unpaid parking tickets.

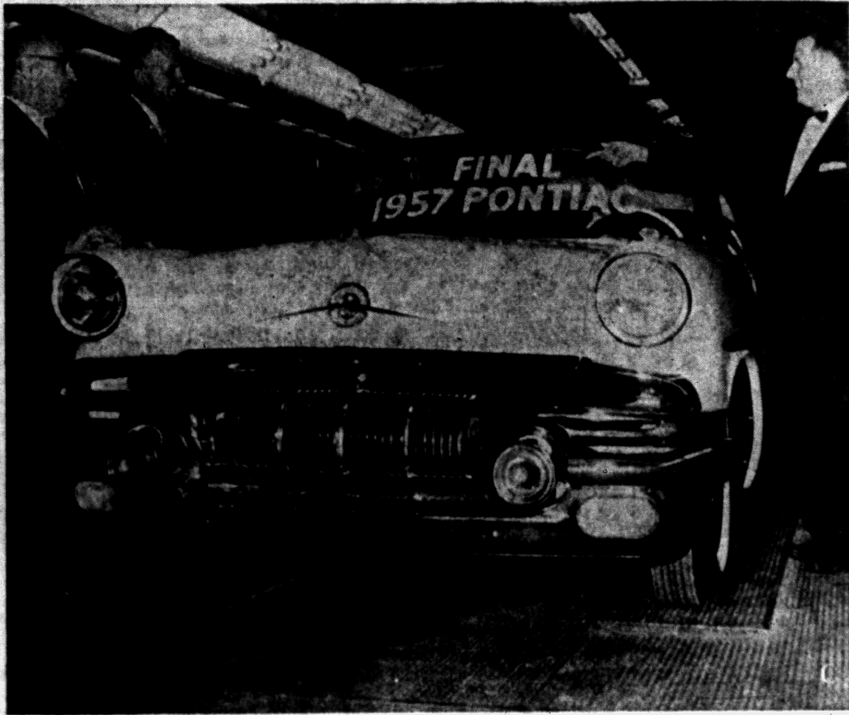

McCallum ruled that the law under which Smith was acting was illegal and Henry had a right "to protect his property from unlawful seizure."

McCallum observed that both the officer and the attorney each thought they were acting within their legal rights at the time of the fracas, July 23, in the alley behind the Oakland County Courthouse.

But the section of the five-year-old ordinance which permits impounding for unpaid tickets actually is unconstitutional and violates

(Continued on Page 26, Col. 8)

Final '57 Pontiac Comes Off Line

LAST OF THE LINE — Final unit of the 1957 line of automobiles came off the Pontiac Motor Division assembly line at approximately 10 p.m. last night. The final '57 Pontiac, a four-door, Star Chief Catalina, is flanked by Ray J. Longpre (left) production manager, and Charles L. Stevens (center) assembly superintendent, as Myron L. Leighton, general superintendent, points to the words symbolizing the close of 1957 automobile production. Assembly operations are scheduled to resume early in October on the 1958 cars.

They'll Meet Earl Wilson Tonight

Press Tourists See 2 Plays, Plan Party

By GEORGE T. TRUMBULL JR.

NEW YORK CITY — While soles are somewhat thinner, the spirits of members of the Pontiac Press Theater Special haven't dimmed a bit with the end of the third day of their five-day run on Broadway.

For the group Wednesday it was a double dose of theatrical entertainment.

In the afternoon all 154 players found out that the titan of the stage, Ethel Merman, is far from through with taking curtain calls. Her leading role as a Philadelphia widow after a handsome "pretender" monarch (Fernando Lamas) in "Happy Hunting" would rate four bells on any rating.

The orchids in the evening went to hilarious Tom Ewell as the worrying husband who took so much advice from his neighbor in "The Tunnel of Love" that the baby adopted by him and his wife turned out to be his spitting image.

FINALE TO COME
At the end of last night all had seen four of the five hits on the Special's docket. The finale will come tonight for all.

To cap off the evening, The Press has invited columnist Earl Wilson to be its guest at an after-theater supper party to be held at Leone's on 48th street. With Wilson (whose column appears daily in The Press) will be several performers from the smash hits viewed by the Michiganders.

Wednesday morning in New York offered an opportunity for many to see what goes on behind the scenes of a television show. Groups gathered at one of the big studios to see Jan Murray in his quiz show "Treasure Hunt." Tickets for other

shows for the rest of the week have been made available.

GOT HOME NEWS
It was a rare treat for the weary travelers yesterday morning when they had their hot coffee complete with a copy of Monday's Press, rushed here especially to keep all informed of the goings-on at home.

A group of six luncheoning at the flag-encircled Rockefeller Center Promenade deck said they got another reminder of home.

(Continued on Page 26, Col. 5)

2 Die as AF Bomber Crashes in Maryland

ANDREWS AIR FORCE BASE Md. (P)—An Air Force B57 jet bomber crashed here early today while attempting to land. A base spokesman said two bodies were recovered from the wreckage.

Names of the victims were not immediately disclosed.

The public information office said the light bomber was inbound on a flight from Del Rio, Tex.

American Youths Leave on Trip to Yangtze River

LONDON (P)—The British news agency Reuters said from Wuhan today that the young Americans touring Red China are leaving this morning for a trip up the Yangtze River to Nanking.

They will be two days arriving. During their three days stay in Wuhan, Reuters said, they saw the huge bridge due to be opened next month, visited a prison, and talked to some former American prisoners of war who chose to settle in China after the Korean War. Some are studying and others are working in local factories.

Wuhan is the Chinese Communist name for the area of Hankow, Hanyang and Wuchang in central China.

Expect Action Against Kasper

Federal, City Officials Seek Enforced Peace in Nashville Integration

NASHVILLE, Tenn. (INS)—The federal government was expected today to file an injunction against segregationist John Kasper in a move to end his racial agitation against integrated schools in Nashville.

Federal and city officials moved to clamp a federally-enforced peace order similar to the one which eventually halted integration disorders in Clinton, Tenn., last year in which Kasper also was involved.

Mayor, Ben West, who conferred with U.S. District Attorney Fred Elledge Jr. and Assistant City School Superintendent W. H. Oliver, said he expected the injunction would be filed against Kasper in federal court today.

Kasper has been accused by West and Police Chief Douglas Hesse as the man instigating the majority of trouble since the integration of first grade classes in seven grammar schools began last Monday.

Expected to be listed in the restraining order along with Kasper are the Rev. Fred Stroud and between 20 and 25 other Nashville residents.

Meanwhile, organized demonstrations at the school sites fell apart under the continued police "get tough" crackdown.

Kasper had spent most of yesterday in jail. He had been convicted and fined \$50 on each of four misdemeanor charges in city court — including vagrancy, loitering, disorderly conduct and offensive conduct.

He then was sent to the city workhouse after failing to raise the \$200 fine imposed for his part in the integration disorders.

Firemen from Mt. Clemens, St. Clair Shores, Roseville, East Detroit, Selfridge Field and Warren, Chesterfield, Harrison, Clinton and Macomb Townships fought the blaze.

The church is located on New Street, only two blocks from Gratiot and Macomb, the city's main intersection.

Many of the volunteer firemen came directly to the fire from their regular jobs. They worked without their usual equipment.

Four firemen were hospitalized at St. Joseph's Mercy Hospital for slight injuries suffered while fighting the fire.

Damages Set at \$500,000 by Fire Chief

Flames Also Spread to Adjoining St. Mary's School Building

MOUNT CLEMENS (P)—"Don't worry, everything will be all right," the Rev. Paul C. Heenan comforted his parishioners today as they stared at the fire-blackened ruins of historic St. Peter's Catholic Church.

A spectacular fire, apparently touched off by workers burning paint from the building with a torch, raced through the 75-year-old brick church in downtown Mount Clemens yesterday.

Flames spread to the adjoining St. Mary's School before being brought under control by firemen from eight communities.

The church was completely destroyed and the school badly damaged.

Fire Chief Clayton E. Dubay estimated the total damages at \$500,000. Rev. Heenan said insurance would cover most of the loss.

Rev. Heenan, the Rev. Wilbert Gough, pastor of the nearby Gilbert Memorial First Baptist Church and several others narrowly escaped death when they ran into the church to save valuable furnishings minutes before the flaming 60-foot church steeple crashed into the burning building.

REMOVE CIBORIUM
The men removed the ciborium containing the Eucharist from the church altar along with other altar furnishings.

The Rev. Gough said, "I'm only sorry I could not have done more. Our churches are neighbors and I just happened to be there."

Some 1,000 students in the four-story brick school were evacuated to safety by buses when the blaze broke out. Many of the students assisted firemen in pulling hoses to the scene.

STARTED BY WORKERS
Dubay said the blaze apparently was started by workers burning paint with a torch as part of a \$100,000 redecoration program.

The Rev. Heenan said masses Sunday will be given in a nearby movie theater.

Firemen from Mt. Clemens, St. Clair Shores, Roseville, East Detroit, Selfridge Field and Warren, Chesterfield, Harrison, Clinton and Macomb Townships fought the blaze.

The church is located on New Street, only two blocks from Gratiot and Macomb, the city's main intersection.

Many of the volunteer firemen came directly to the fire from their regular jobs. They worked without their usual equipment.

Four firemen were hospitalized at St. Joseph's Mercy Hospital for slight injuries suffered while fighting the fire.

Prisoners at County Jail Stage Brief Sitdown Strike

A brief sitdown strike by 26 prisoners at Oakland County Jail last night was described today by Sheriff Frank W. Irons as "a minor incident."

There was no violence or property damage during the five minutes that the prisoners in the third-floor cell block refused to enter their cells from the bull-pen, at 8 p.m., to be locked up for the night, Irons said.

The prisoners, who said they were striking in protest at food served to them at the jail, returned quietly to the cells, Irons said, after deputies were reinforced by Pontiac police officers.

Irons named as inciters of the strike six prisoners awaiting transfer this morning to Southern Michigan State Prison. "These men and some of the old-timers who've been in this jail before caused the trouble," Irons said.

Similar incidents have happened before, Irons said, especially on the night before a group of prisoners leaves for long terms at the state prison in Jackson.

The rebelling prisoners returned quietly to their cells, Irons said, on arrival at the jail of seven Pontiac police officers, summoned immediately as a matter of routine.

Irons said he had about seven deputies on hand himself. He minimized the complaints over the food, saying that prisoners often protest about their meals "when they just want to make trouble."

The sheriff maintained the food is of high standard and often praised by state inspectors.

SPARKS TO JCS — Sen. Charles A. Potter, Jr. (left) being welcomed at the Pontiac Junior Chamber of Commerce annual kick-off dinner at the Hotel Roosevelt last night. With Potter is Leslie Langford, Jaycee president.

Sen. Potter Urges End to GOP Apathy

Republican apathy combined with vigorous political action by labor brought about the recent Democratic senatorial victory in Wisconsin, Sen. Charles A. Potter declared here last night.

Labor, said Potter, naming the CIO in particular, "got out 80 per cent of its vote in Wisconsin. But business persuaded only 20 per cent of its voting strength to go to the polls."

The Cheboygan Republican, in an off-the-cuff talk to the Pontiac Junior Chamber of Commerce, did not comment on assertions that the Wisconsin vote is to be interpreted as a decline in the popularity of President Eisenhower.

Potter called upon the business world to engage more actively in politics as a counter-offensive against political action by labor groups.

"If business does not take an active part in politics," Potter predicted, "the country is surely going to fall into the hands of a small, but politically effective, group of socialists."

Potter, who defended the free enterprise system as the "most revolutionary in history," is up for re-election next year.

He talked about politics generally, however, without specific mention of the 1958 campaign.

Playing on one of his favorite themes, Potter did not criticize the Democratic party as much as he did the politically active labor element within the Democratic ranks.

"Our nation is run on free enterprise woven into a two party system. We need good men in both parties," Potter said.

He called socialism a "reactionary, worn-out" system of government. "We can't be complacent because the proponents of socialism are dedicated. I hate to see our rights chipped away," Potter said.

By E. H. SIMS

Can sail-boat enthusiasts learn anything about coming winds by watching the sky? Does a cloudy sky indicate good sailing weather or bad?

Those who do a bit of sailing, either on lakes or at the ocean, can predict some things about the winds by watching the sky and studying weather. A cloudy sky is one sign of lessening wind, and therefore is not welcomed by sail-boaters.

There are other rules which generally apply. For example, if there is a strong breeze from the shore at sunrise, hopes for a good wind during the day are not always justified.

Usually this land breeze dies down as the sun heats the land and is replaced by a sea breeze.

Of course, in the summer clouds may herald the approach of a thunderstorm and this means strong winds, but other than these storms, a bright, clear day is best for sailing. The sun heats the land faster than the water, air above the land rises and air over the water flows in over the land to replace it. That is the famous sea breeze one finds at large lakes and on ocean beaches.

Reformer Ryan Shoots Himself

Millionaire Known as Controversial Figure in New York Politics

NEW YORK (AP) — Clendenen J. Ryan, 50-year-old millionaire reformer and stormy figure in New York politics in recent years, shot and killed himself today at his Manhattan home.

Police said he took his life with an automatic pistol.

Ryan's wife, Jean, told officers that while she was in her bedroom about 7:30 a.m. she heard a noise but didn't know what it was. About 10 minutes later, she said, she went to the bathroom and found her husband shot. The Ryan home is at 32 E. 70th St.

Police found a note and two sealed envelopes, one addressed to his wife. Their contents were not immediately divulged.

Ryan was a grandson of the financier Thomas Fortune Ryan and inherited part of the financier's 141-million-dollar estate.

Ryan took a keen interest in New York City politics, beginning with the race for mayor of Fiorello H. La Guardia in 1933. He went on to serve in the La Guardia administration in various capacities.

After La Guardia's long tenure, Ryan jumped back in to politics again with a bitter campaign against William O'Dwyer, who was elected successor to La Guardia.

In the midst of this, in 1949, Ryan was hauled before a grand jury as the result of an alleged plot to tap the telephones of O'Dwyer and other top officials. Ryan denied he was involved. Nothing came of the probe.

In subsequent years he sought election as governor of New Jersey on an independent ticket, but didn't get far.

Calls Trial a Witch Hunt

Confidential Bases Case on Freedom of the Press

LOS ANGELES (AP) — The State of California is trying to put Confidential out of business in a "witch hunt," the defense has contended at the magazine's criminal libel trial.

"The indictments were returned not to punish someone but to put a magazine out of business," Atty. Arthur J. Crowley said yesterday in his final argument to the jury.

"Confidential has the biggest newsstand sale in the nation. A very large segment of the public reads it. It has a circulation of one million copies with at least 20 million readers."

Crowley told the jury that the issue of freedom of the press is at stake.

"When you start encroaching on freedom of the press, where do you end?" he asked.

"When you start out censoring you end up with book-burning. You may not like Confidential, but that doesn't mean you have the right to tell others that they can't read it. If all the books that are not for teenagers and adolescents are taken away, you will end up with suppression of thought."

Confidential and its sister magazine Whisper, and Marjorie and Fred Meade and the Hollywood Research, Inc., which they set up, are charged with conspiracy to commit criminal libel and to publish lewd and obscene matter.

Crowley said the motion picture industry protects an element within its own ranks which has "brought disgrace upon Hollywood."

"It is unfortunate," he said, "that a segment of movie people have brought disgrace upon Hollywood. But unlike the federal government that weeds out homosexuals and other undesirables, the motion picture industry goes to great lengths to protect them."

Crowley asserted prosecution witnesses who testified about movie stars were brought to the witness stand "under coercion and fear."

LOS ANGELES (INS) — A new factor was injected into the contest for Dave Beck's successor as president of the powerful Teamsters Union last night with the announcement that Einar O. Mohn would be nominated for the \$50,000-a-year job.

Mohn is executive vice president of the 1,400,000-member union and has the "favorite son" backing of the 120,000-member Southern California Joint Council of Teamsters.

The announcement that Mohn's name would be placed in nomination was made by John Annand, president of the joint council.

Ironically, it was made at a dinner honoring Thomas J. Haggerty of Chicago.

Haggerty is campaigning for the presidency in a drive to keep James R. Hoffa out of it.

Hoffa is an odds-on choice to win even though he, like Beck, has been accused of corruption by the Senate Rackets Committee. Labor offices think that the teamsters will be kicked out of the AFL-CIO for "domination by corrupt elements" if he is elected.

So Haggerty said upon his arrival in Los Angeles yesterday that he called upon teamsters "though out the length and breadth of the nation" to join him in a "crusade for honest unionism."

Mohn has not indicated whether he will accept the nomination.

Jordan's King Returns

BARCELONA (INS) — Jordan's King Hussein left Barcelona today en route back to Amman. Hussein, who has been vacationing in Spain since late August, will return home via Rome.

The Day in Birmingham

City Has Cleanest Sewer System in Area — Kenning

BIRMINGHAM — In view of Monday's hearing on new trunk line sewers in the Quanton Lake Estates area, charges have been made that the city is remiss in its cleaning program.

One resident said he felt the capacity of present lines could be considerably increased if the pipes were cleaned.

Assistant City Manager Robert Kenning since has explained that Birmingham is probably using the "cleanest" sewer system in the area.

"As far as we know," Kenning said, "we are the only community in southern Michigan with a full-time sewer crew."

"We have our own modern machinery. Every working day is spent checking and cleaning trunk and lateral lines."

Kenning admitted that the charges would have been true four or five years ago. He said that at that time the city was not even keeping up with necessary work.

However, with the purchase of equipment and the establishment of a trained crew, the picture has changed. Kenning said those lines known to be in bad condition were tackled first.

As this backlog was cleared away, complaints from residents were taken care of.

Today the crew is ready to respond almost immediately to any call.

In addition, the men are working in all sections of the city and lines are cleaned before they reach the "danger" point.

"I know," Kenning concluded, "that the lines in the Quanton district are clean. Further work here would make little or no difference in relieving any flood conditions."

In approving the Junior Chamber of Commerce plans for National Civil Defense Week, Mayor Wil-

liam Roberts commented that their parade last year was one of the best ever seen in Birmingham.

The parade this year will be held at 7:30 p.m. Sept. 19 to highlight the week-long program.

Other features will be explanations of disaster signals and the distribution of literature issued by the Civil Defense to instruct residents on safety features.

Sunday will mark the annual homecoming worship service at 11 a.m. in the First Baptist Church. The Rev. Emil Kontz will speak on the "Homing Instinct."

This service is held each year at the close of the vacation period and inaugurates the full winter program of the church.

C. Fred Austin, 74, of 30200 Bristol Lane died Tuesday. He was a member of several Masonic groups.

He is survived by his wife, Elizabeth, and a sister, Mrs. William N. Coleman of Bradenton, Fla.

Service will be at 2:30 p.m. Saturday in the R. G. and G. R. Harris Funeral Home, Detroit. Burial will be in Acacia Park Cemetery.

Start Air-Sea Hunt for Detroit Swimmer

VIRGINIA BEACH, Va. (AP) — An air-sea search was under way today for a Michigan swimmer who disappeared in the surf off this resort city.

Police said the missing man was identified by his companion as Charles Rauer, 28, 1738 Ferguson St., Detroit.

Rauer's companion was identified as Clifford Kuntz of Toledo, Ohio. Kuntz was helped ashore by Clarence Short, an off-duty lifeguard who happened to be passing.

Short said Rauer was about 25 or 30 yards beyond Kuntz and in heavy surf when last seen about noon.

Short said he went out to rescue Rauer after bringing Kuntz ashore but that Rauer slipped beneath the surf and disappeared before he could reach the spot.

GEARY, Okla. (AP) — A sandpiper hen laid her eggs on the rocks on the driveway of the Clarence Base home. She apparently is waiting for the sun to incubate them. She guards them from nearby—in the shade.

Yielding New or Unexpected Knowledge

IGY Paying Dividends

By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK (AP)—The International Geophysical Year is already beginning to pay dividends of new or unexpected knowledge about our earth, scientists said today.

Some findings:
X-rays from the sun's radiations have been found to exist only 40 miles or so above our heads.

Northern and Southern lights or aurorae can blink on at the same time.

High-flying rockets have captured particles of energy believed to cause these aurorae.

In Antarctica, temperatures can vary 100 degrees over distances no farther apart than New York and Chicago, or between San Francisco and Seattle. This must have profound effects upon weather generated in that vast frozen continent.

The earth's atmosphere seems to reach up, in terribly thin form, to heights of one to several thousand miles into space.

The IGY is a concerted, share-all-knowledge effort by scientists of 64 nations to learn secrets of our home planet earth, our sun, the atmosphere and oceans. It began two months ago and lasts another 16 months.

Leading IGY scientists described programs and preliminary findings for a symposium on earth, air and space in reports prepared to delivery today at the Hayden Planetarium of the American Museum of Natural History. It is one event in the national program of the American Chemical Society.

Dr. Joseph Kaplan, University of California physicist and chairman of the U.S. IGY National Committee, said rockets have

found evidence of solar X-rays at altitudes of about 40 miles and higher.

Other scientists stationed near the north and south poles simultaneously timed brilliant aurorae over both regions. These streaming lights are believed caused by energy from the sun, especially after great explosions or flares on the face of the sun.

Daily weather maps are being prepared by scientists of a dozen nations scattered over the antarctic continent, one of the world's huge weather factories. At least once this year, the temperature at the South Pole was 100 degrees colder than the near-zero temperature at little America only 850 miles to the south. This must have meaning about weather and forecasting.

He Fixes That Tire

LOS ANGELES (AP)—It was a little more than Thomas R. McQuade could take when he had the second flat of the day on his new station wagon. So he kept going, police reported, at speeds in excess of 55 m.p.h. The tire shredded and fell off the wheel, the wheel itself fell apart. He was booked on suspicion of drunk driving.

Prisoners to Get Music

RICHMOND, Calif. (AP)—City jail prisoners are going to have music to soothe their jangled nerves. Police chief Charles E. Brown announced today that speakers would be put in the cell blocks soon, with music from Civil Defense programs. "I would welcome music if I were in some battle, wouldn't you?" he asked.

During World War II, more electricity was consumed for production of aluminum in one day than

GEORGES-NEWPORT'S

Underground A-Bomb Blast Set

By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK — The earthquake A-bomb explodes next Wednesday in Nevada. Its shuddering, muffled blast will mark a new step in peaceful world cooperation for science.

This bomb will be set off 800 feet underground, in a tunnel inside a small mountain, at noon, Eastern Standard Time.

As such blasts go in the vast desert northwest of Las Vegas, this will not be a big one. But its shock waves will travel through and around the earth, probably reaching into the heart of the world.

Earthquake experts around the globe—Americans, Russians, Britons, Chinese, Australians, all nationalities—will be set to record the waves and share results, a striking scientific dividend in the International Geophysical Year.

Usual bars of secrecy were let down to inform the observers in advance.

How fast the shock waves travel can tell these seismologists new facts about what the earth is like inside from thin crust to hot heavy core. The knowledge could advance the day of sometime being able to predict natural earthquakes.

This earthquake bomb meets the wish of many seismologists to use atomic power as a probe deep into the earth's interior.

Two years ago, requests were made of Washington, London and Moscow for one to four A-bombs just for earth studies. Dr. K. E. Bullen of Australia disclosed last week. He is president of the International Seismological Assn.

Shock waves from natural earthquakes are the scientists' main tool to learn the structure of our globe.

Waves sent into the earth from A-bombs and H-bombs exploded in the air have helped a bit too.

But the trouble is that quake specialists never knew just when the natural quake or bomb quake waves started, so they could measure the travel speeds precisely.

Now the Atomic Energy Commission is giving a helping hand by announcing these details in advance. The underground bomb is one in a current series of Nevada tests, and undoubtedly has scientific or military purposes as main objectives.

The quake studies are a dividend for purely peaceful knowledge open to all.

The AEC said the bomb will be

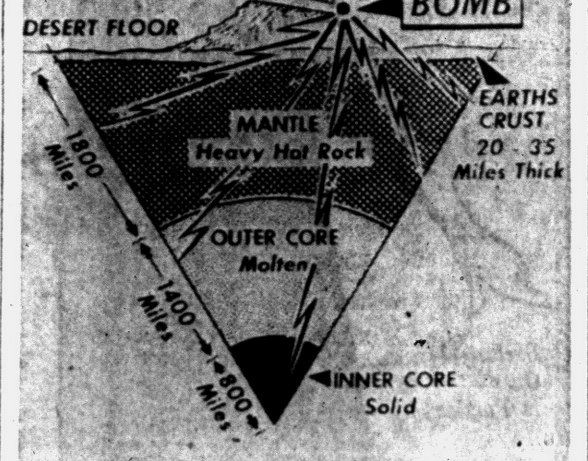

exploded at the end of a multi-directional 2,000-foot tunnel cut into a small mountain. It pinpointed the exact location and hour, plus or minus two minutes.

It will be a baby bomb, equal to only 1,000 to 10,000 tons of TNT. The first or nominal A-bombs packed 20,000 tons force.

Some seismologists will study the waves to learn more about the earth's core. Others are interested in the makeup of upper layers. Some will use them to

clues whether certain mountains rest on the earth's crust, or send down deep iceberg-like roots.

By the present picture, the earth has a thin crust varying from 20 to 35 miles thick. Then comes the mantle of heavy hot rock, in layers, reaching down 1,800 miles. Then a molten inner core for the next 1,400 miles, and an inner core 800 miles in radius. The inner core may be molten, or it may be solid nickel and iron.

EARTHQUAKE A-BOMB PLAN — Cross section of the earth underlying a small mountain in the Nevada nuclear testing area illustrates how shock waves will penetrate the earth's interior when a scheduled atom bomb blast is set off Saturday. The baby bomb will be exploded at the end of a 2,000-foot tunnel cut into the mountain 800 feet under the peak. Shock waves to be recorded around the earth are expected to provide new facts about the earth's interior.

Turk Parliament Restricts Parties

Passes Bill to Prevent Coalition by Requiring Complete Slates

ANKARA, Turkey — A bill designed to hinder the opposition in the next election by restricting party alliances was pushed through a stormy session of Parliament last night by Premier Adnan Menderes' Democratic party.

With the opposition abstaining, the single-chamber Parliament advanced the election seven months to Oct. 27 and then dissolved itself. The new Parliament will convene Nov. 1.

There is a possibility the opposition may boycott the elections. The three main opposition parties—the Republican, Freedom and Nation parties—have charged that Menderes' government is rapidly losing popularity.

They say he advanced the elections because present limited prosperity is expected to give way to serious economic troubles by next May.

The opposition groups have been seeking to form a united front against the Democrats but the new bill will make an alliance difficult.

The new law prohibits members

of one party from running as candidates for other parties. It requires each party to run a complete ticket instead of combining tickets.

When debate opened last night, fist fights broke out between Democrats and the opposition.

The voting law bill passed 361-31 after a recess to cool tempers. Then Parliament voted 377-0 to dissolve itself.

State's Grape Crop 3rd Largest in Nation

DETROIT — The Michigan Fair Employment Practices Commission has adjourned its first public hearing on a complaint of racial discrimination in employment practices until Sept. 30.

The Rev. John F. Finnegan, pastor of St. Patrick's Roman Catholic Church and hearing officer, ordered the recess yesterday in order to have more time to study a motion for dismissal by the accused Checker Cab Co.

Three Negroes complained to the FEPC that Checker refused to hire them because of their race, but Checker contends the complaint is unjustified since the firm "is a non-profit corporation and does not hire drivers."

A spokesman for Checker said drivers were hired by the cab owners and not by the company. The public hearing is the first in the 22-month history of the Michigan FEPC.

Fear Oil Supplies Could Dry Up Soon

TORONTO — An American professor, says the world's oil supplies are in danger of drying up. Prof. Rhodes W. Fairbridge, head of the geology department of Columbia University, told the International Union of Geodesy and Geophysics yesterday that unless a synthetic oil source is discovered within the next 30 or 40 years oil will have to be reserved for essential services.

"The present wholesale burning of oil for heating and fuel will have to stop and be replaced by uranium or other full source," he said.

Fairbridge said he had prepared statistics of all the world's sedimentary basins that could possibly contain oil and the outlook showed distinct limitation.

Landslides Hit Japan

TOKYO — Heavy rains lashing Japan since Sept. 9 touched off landslides yesterday on the southern island of Shikoku Island. Police said six persons died and five were injured. A family of three was buried alive in their house by one landslide.

Russians Now 'Elite' Force in Hungary

By JOHN H. MARTIN
INS Foreign Director

The Soviet military, which crushed Hungary's spontaneous anti-Russian revolution nearly a year ago, now has organized a new "elite" satellite force in the hope it will be "trustworthy."

Hungary's old officer force was purged after the revolution, and since March 1 there has been a cautious and selective reconstitution of the Hungarian Army.

The special report, "Hungary under Soviet rule," prepared by "the American Friends of the Captive Nations" and "the Assembly of Captive European Nations" with the aid of Hungarian Freedom Groups, says that the reorganization is being handled by two key figures—both Moscow-trained, of course.

They are Col. Ferenc Ugrai, chief of staff of the new force, and Lt. Gen. Giza Revesz, who became minister of defense last March.

Ugrai began as a lieutenant in the hated Communist security police, the AVH, in 1945. The AVH Red puppets are hated by the

Hungarians even more than are the Russians, if that is possible.

RAPID RISE

Ugrai rose rapidly in the ranks and later was sent to Moscow, where he received military training for several years. The special report says that this man, who is more of a political officer and secret police agent than a military man, got his boost for his loyalty to the regime under Premier Janos Kadar.

Revesz, the defense minister, is a much older man and his Bolshevik loyalty dates back to the days immediately after the First World War when he was a Red militiaman in the 1919 Communist coup led by Bela Kun in Hungary.

When Kun fell, Revesz fled to the Soviet Union and studied military engineering. Upon graduation he became a Communist agent. His first assignment was to return to Hungary illegally for underground party work. He was arrested and imprisoned and upon his release he resumed his Communist work in Western Europe, declaring himself a Soviet citizen. He returned in triumph to Hun-

garians even more than are the Russians, if that is possible.

It is on minority old-line Reds such as these, plus the overwhelming strength of tank-equipped Soviet troops estimated as high as 100,000 men, that Communist Premier Kadar depends to stay in power.

Executions and deportations continue in heavily curtailed Hungary. Yet Soviet Party boss Nikita Khrushchev blandly said in his American television interview that Kadar represents the people of Hungary.

SCIENCE QUIZ

QUESTION: What causes sunspots?

★ ★ ★

ANSWER: When scientists look through a telescope they frequently see the sun covered with dark specks or blotches. Sometimes these sunspots can be seen through dark glasses, or even with the naked eye.

These spots are terrific storm centers in the sun's atmosphere. When observed through a powerful telescope they appear much like a tornado does to a pilot flying over it.

Careful study has shown that these storms on the sun's surface consist of whirling gases made up of electric particles.

Scientists have determined that they operate in cycles of approximately 11 years, with the spots being more numerous in certain periods of the cycle. On some days there are no spots at all.

★ ★ ★

FOR YOU TO DO: See if you can see spots on the sun. The best time to look is in the evening just before the sun sets.

★ ★ ★

(Sylvia Bowen of Richmond, Va., won \$10 for this suggestion. If you have a question send it to Violet Moore Higgins, AP News-features, in care of this newspaper. Tomorrow: How do young birds know where to migrate?)

**Appears U.S. Navy
Lost, Gained Ship**

PEARL HARBOR, Hawaii (U)—The destroyer McGinty had a little trouble finding her way home here the other day.

The McGinty steamed into Pearl Harbor and asked for berthing instructions. "Tie up alongside the Whitehurst," was the answer.

After a tour of the harbor, the McGinty radioed in bewilderment: "There's no Whitehurst here. Only a ship called the Haynes."

"Impossible," came the reply. "There's no such ship in the United States Navy."

All concerned learned later that the Whitehurst had been loaned to a Hollywood crew for a movie.

The original name had been painted out, and "Haynes" substituted.

**Rehabilitating Patients
With Pinball Machine**

DENVER, Colo. (U)—A pinball machine seized in a gambling raid here has escaped the ax. Jefferson County Judge Roscoe Pile ordered the machine sent to the Colorado State Hospital at Pueblo.

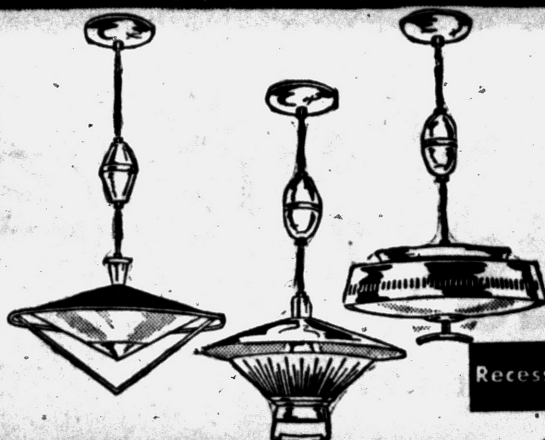

The machine is now being used in the rehabilitation of mental patients.

The judge turned the machine over to the hospital on the condition that should it "ever cease to be used by said institution to the benefit of inmates" it would be returned to Jefferson County and immediately destroyed.

Duck Gets Revenge—

RICHMOND, Va. (AP)—When Bill Jordan of Richmond showed up in his 22-calibre bullet wound in his heel after a deer hunt, he was asked how it happened. His story: Got lost in the woods before dawn. Came to a creek. Two ducks

Fish Eggs Are Downfall of Safecracking Trio

MINNEAPOLIS (AP)—If these city yeggs had known more about fish eggs they might have gotten away with a safe cracking job. A trio of 16-year-old burglars

stole a safe from a suburban store and took it to a lonely road along a creek north of here. What they didn't know was that Game Warden H. B. Kulavar was keeping close patrol on streams in the area that were teeming with spawning fish. He came upon the trio trying to open the safe, arrested them and turned them over to authorities.

Device Clears Litter

KEENE, N.H.—A canelike device with 12 pickup prongs at the end has been developed by a Keene manufacturer to make it easier for homeowners to clean up litter in their yards. The maker

says the device, used like the spears employed by big-city sanitation cleaner-uppers, also has a push-grip action with which litter is automatically released. Kansas is the world's largest producer of hard winter wheat.

Still Not Certain When It Happened

Science Finally Decides—The Egg Came First

WASHINGTON — Science has answered the ancient brain teaser, "Which came first, the chicken or the egg?" It was the egg. Fish, reptiles and other animals laid eggs millions of years before chickens appeared.

The first chickens were hatched from eggs laid by a bird that could not quite be classed as a chicken.

★ ★ ★

Scientists are not certain just when the fateful mutation occurred in the evolution of the chicken. But the red jungle fowl of India is believed to be the parent of today's domestic breeds.

Scientists at Cornell University have eavesdropped on chickens and learned their language. A rapid "Kuk-kuk-kuk" in chicken means "food."

"Cut-cut-cut-cut kaah" translates "dog." Other sounds mean "Follow me," "Look out, there's a hawk or something up there," and "Stay right where you are."

CHICKENS BORN SNOBS

Chickens are born snobs. When caged together, they set up a social order with upper-class hens taking precedence at the food trough over lower-class hens. Until the "peck-order" is established, chickens waste energy fighting among themselves.

Private cages allow poulterers to check closely on individual output, and enforce the produce-or-leave rule. A sloped bottom causes eggs to roll out of the cage for cooling and collecting.

Electric eyes separate brown from white eggs. Although shell color has nothing to do with food value, New Englanders pay more for brown and New Yorkers prefer white. Housewives object most to mixed eggs.

Experts discourage harassed businessmen who want to chuck their jobs and "raise a few chickens." To be profitable, chickens must be grown on a large scale. Additionally, the future of eggs may not be bright, due to substitutes.

An egg white substitute from codfish has been used in bread, cake, ice cream and mayonnaise. Nonetheless, the average American ate more than one egg a day all last year.

★ ★ ★

Reports of cholesterol deposits in some diseased hearts have given eggs bad publicity. But Dr. A. W. Brant of the U. S. Department of Agriculture says: "The cholesterol content of eggs is not higher than that of many other popular foods. Nutritionally, eggs are one of nature's most complete foods."

The egg comes before the chicken in dollars earned for poulterers. Producers received nearly two billion dollars last year for their eggs — nearly twice as much as chicken meat brought, says the National Geographic Society.

But broilers have become increasingly popular in the last 20 years, and chickens are economical in converting grain into meat. Judging by the recent trend, it might be that — in terms of dollars — the chicken may some day catch up with the egg.

Death Notices

MRS. HENRY COLEMAN

Mrs. Henry (Fannie) Coleman, 72, of 105 E. New York Ave., died yesterday afternoon in Pontiac General Hospital Annex after an illness of several weeks.

She was a member of the First Baptist Church.

Surviving besides her husband are three children, Orville Coleman of Milford, Mrs. Charles De Rousha of Pontiac and Mrs. Herbert Pixley of Drayton Plains; a sister and three brothers.

Service will be at 2 p.m. Saturday from the Hutton Chapel with her pastor, Dr. H. H. Savage, officiating. Burial will follow in Perry Mt. Park Cemetery.

KENNETH CARROLL JR.

WALLED LAKE — Service for Kenneth Carroll Jr., two-month-old son of Mr. and Mrs. Kenneth Carroll Sr., 304 S. Pontiac Trail, was to be held at 3:30 p.m. today from Richardson-Bird Funeral Home here with burial in the Wixom Cemetery. He died suddenly Wednesday.

Surviving besides his parents are his grandparents, Mr. and Mrs. Vernon Carroll of South Lyon and Mr. and Mrs. Rodney Rose of Wixom.

THOMAS H. JESSOP

UTICA — Funeral service for Thomas H. Jessop, 77, of 42310 Ryan Rd., will be held at 1:30 p.m. Friday from the Milliken Funeral Home. The Rev. G. MacDonald Jones will officiate with burial in the Troy Union Cemetery.

He died Tuesday night after a lingering illness.

Surviving are his wife, Emma; three sons, Arthur and Glenn, both of Utica, and Elmer of Roseville; two daughters, Mrs. Doris Bowers of Detroit and Mrs. Edna Pardon of Mt. Clemens; a sister, Mrs. Gladys Bushey of Rochester; and three brothers, George of Pontiac, Harry of Romulus and Ray of Romeo.

Deaths Elsewhere

MARINETTE, Wis. — Robert B. Goodman, 86, a pioneer in modern forest management in the United States, died yesterday. He was the last survivor of the family of Robert Franklin Goodman, founder of the Goodman Lumber Co., one of the nation's leading producers of pine and hardwood.

DAYTON, Ohio — Mrs. Chesta Holt Fulmer, 57, whose advice column, "We Together," had appeared in the Dayton Journal Herald for nearly 20 years, died yesterday. She was born near Nashville, Tenn., and was in newspaper work in Atlanta and Dallas before going to Dayton.

EVANSTON, Ill. — John Flint Dille, 72, president of the National Newspaper Syndicate since 1916 and in the newspaper syndicate business since 1909, died Tuesday. One of his two sons, John F. Jr., is editor and publisher of the Elkhart (Ind.) Truth. Dille was born in Dixon, Ill.

Hopeful of Averting Telephone Strike

NEW YORK — A spokesman for the Western Electric Co. says he sees a strong possibility that negotiations today with telephone equipment installers will lead to agreement and avert a nationwide strike set for Monday.

In Washington yesterday, Joseph A. Beirne, president of the Communications Workers of America, announced that 54,000 CWA members would walk off their jobs at 6 a.m. (local time) Monday in all states except Maine, Vermont and New Hampshire. Also affected would be the District of Columbia.

Beirne said that, in event of a strike, picketing of exchanges in major cities would keep about 146,000 other telephone workers, including operators, from their jobs.

Faubus to Confer With Ike in Newport

(Continued From Page One)

on the golf course, just as he finished playing the first hole.

He dictated a reply saying: "I have your telegram in which you request a meeting with me. Would it suit your convenience to come to my office in the naval base at Newport, either Friday afternoon, Sept. 13, at 3:00, or Saturday morning, the 14th, at 9:00? If you would let my office know your method of transportation to the Newport area, my staff will arrange to have you met and brought to the base."

2 MAIN POINTS

The atmosphere of optimism in Little Rock pivots on two main points:

1. It is generally assumed that U.S. Dist. Judge Ronald N. Davies will issue the preliminary injunction against Faubus in the hearing next week. The governor then would be in the position of having to withdraw, under federal compulsion, the troops guarding Central High School.

If he refuses to comply, he might be liable to citation for contempt of court. If he should appeal, and lose again, a fantastic legal situation could result.

2. More important, the great majority of people in Little Rock want the problem resolved — the sooner the better.

The Arkansas Gazette says today: "Perhaps most helpful of all is that the meeting (Eisenhower and Faubus) should serve to bring the controversy back into the realm of reason and end the unseemly display of naked force which has shocked and alarmed the nation and the world."

Everywhere, you hear such sentiments today.

RESPECTABLE CITY

Faubus says 85 per cent of the people in the state are opposed to integration, according to a survey he studied. That may be true of Little Rock too.

But this is also a clean, respectable, progressive community. It wants business and industry and is working to get them.

It already has gone a long way toward solving its racial problems.

Most important, the great majority of people comport themselves as law-abiding citizens.

Percentage-wise, the numbers who turned out to jeer and scuffle in front of the two high schools represent only a fraction of the total population of Greater Little Rock.

It approximates 165,000. At the peak days, there were 700 people in front of Central High and 200 at North Little Rock High.

BUSINESS AS USUAL

The other 99 per cent went about their business as usual.

In some Arkansas communities, the schools were integrated without incident. Others had trouble.

The latest came from Ozark, about 100 miles northwest of Little Rock, where the father of two Negro high school students said an attempt was made to kill them after they attended Ozark High School. It had started a voluntary integration program.

But in Little Rock, the state capital, things are quiet and the people are hopeful.

Posse Combs Area for Holdup Escapee

(Continued From Page One)

called officers who quickly spotted the fleeing car and began pursuit. They said the fleeing car was traveling at a high rate of speed when it collided with Finger's auto.

Henderson, Johnson and the girl are being held for investigation of armed robbery. Police said they also may face homicide charges because Finger was killed as a result of the holdup.

Flash Floods Hit Turkish Capital; Fear Heavy Loss

ANKARA, Turkey — Turkish newspapers said today 1,000 persons died in flash floods which swept through the crooked streets of seven villages on the outskirts of this capital yesterday. But the official death toll remained at 14—the number of bodies which rescue workers have recovered.

In some areas the flood wave reached 90 feet as water from cloudbursts rushed down narrow valleys from barren mountain slopes. Rescue teams groped through the muddy rains, seeking victims of the floodwaters which swept into Ankara itself, covering low-lying areas and stalling traffic.

An estimated 500 to 1,000 homes had been destroyed and more than 2,000 flooded.

Premier Adnan Menderes hastened to the stricken villages today, and himself became stranded for a time by blocked highways.

Eleventh Daughter Born — Glad It Was a Girl

MORRISTOWN, N.J. — Mrs. William Besto gave birth yesterday to her 11th daughter. She has no sons.

Mrs. Besto, 41, told a reporter she and her husband, a night watchman, wanted another girl.

"We wouldn't know what to do with a boy," she said.

The child was named Madonna Grace.

The other Besto daughters range in age from 2 to 12.

Morristown Memorial Hospital said mother and baby are fine.

Press Tourists See 2 Plays, Plan Party

(Continued From Page One)

Pigeons around, under and over their table was the memoir.

Some of the sightseers journeyed down to the many piers and took a look-see at the huge Queen Elizabeth liner which sailed for Europe at 11:30 a.m. Wednesday. Even those at the Paramount Hotel, Press headquarters for the excursion, heard the loud whistles from her stacks telling of her voyage.

CELEBRATE ANNIVERSARY

Wednesday was a most special day for Mr. and Mrs. Robert B. Oliver of 278 W. Iroquois Rd. It was the Oliver's 27th wedding anniversary.

Thursday will be another big day for all the group who have been on the go since they landed here at noon Monday.

On the itinerary is a trip through the Mayflower II which not too long ago successfully duplicated the historical voyage of its namesake. Rolls of film have been saved for the occasion, so many of you at home can expect to see what the ship looks like.

Following this tour the party will board a special Hudson River sightseeing yacht for a three-hour lectured trip around Manhattan Island.

Tales are still being told of the infinite number of tip-top restaurants which spot this giant city.

PLAYS IN SPOTLIGHT

But holding the spotlight during the journey are the many, many stage productions here. Some have received tickets to see Rosalind Russell in "Auntie Mame."

To prove that you can't possibly see all of this third largest city in a week, is an unofficial report from our United Airlines representative that about 20 are planning to stay over to continue the challenge.

To date no casualties have been reported, though the adventurers still are puzzled how the cabs can be driven like carnival dodge-em's, but with surprisingly few bumps. A sprinkling of the travelers have

taken some short jaunts on the subway, "just to see what it was like."

★ ★ ★

Reports funneled in to Press headquarters that after Tuesday night's theater a rain proved to many that it is every man for himself in capturing a cab to make it back to the Paramount. One gentleman (who blushing asked not to have his name mentioned) found he had walked six blocks to tackle a taxi only to discover the hotel was then a stone's throw away.

Says Summerfield Should Resign Post

WASHINGTON (INS)—An Oregon Democrat called today for the resignation of Postmaster General Arthur Summerfield on grounds of "incompetence."

Rep. Charles C. Porter said Summerfield's contentions that the Post Office Department is running at a deficit are "poppycock, misleading and ill-conceived."

In a speech prepared for the annual meeting of the Associated Third Class Mail Users, he insisted attempts to run the department like a business are "ridiculous" because Congress feels some segments of the population "deserve" a subsidy.

Porter denounced the postmaster for failing to present Congress with data on the effect of his proposed new rates on small business.

He said: "I am sure Summerfield favors business, that is, big business and his own business. I am sure that his resignation would speed the day when third class mail would receive the study it deserves."

Syrian Leaders Confer in Cairo

Visit of 2 Strong Men Reveals Concern Over Mideast Crisis

CAIRO (AP)—An urgent, surprise visit to Cairo by Syria's two military strong men today underlined the deepening concern of the two Arab allies over the smoldering Syrian crisis.

Brig. Afif Bizry, leftist commander in chief of the Syrian army, and Lt. Col. Abdel Hamid Serraj, army intelligence chief, flew here yesterday. They went into immediate conferences with President Nasser and Egyptian military leaders.

As they met, Syria's Acting Defense Minister Khaled Azem said in Damascus he does not believe aggression against Syria is imminent. But he added that Syria has taken "all defensive measures to face every possibility."

Azem talked with reporters after a Cabinet session devoted to what an official statement called "development of the situation in the light of the Soviet and American foreign ministers' statements on Syria."

The United States this week began speeding up deliveries of arms to pro-Western Jordan, Lebanon and Iraq in an effort to counter Syria's move toward the Soviet camp.

Acquit Milton Henry in Assault Case

(Continued From Page One)

due process of the law, McCallum ruled.

Impounding is legal only when the car is illegally parked, McCallum said. Although Henry had evidently illegally parked his car in the alley, he was trying to move it at the same time Smith was arranging to impound it, McCallum noted.

Anyway, McCallum said, whether the attorney was illegally parked or not had not been brought up as an issue in the case.

Smith had testified during trial that he was acting on a general police order to impound Henry's car in order to force payment of the tickets. He said this is a common police practice in Pontiac.

Henry maintained that Smith had no warrant for his arrest nor any court order directing seizure of the car.

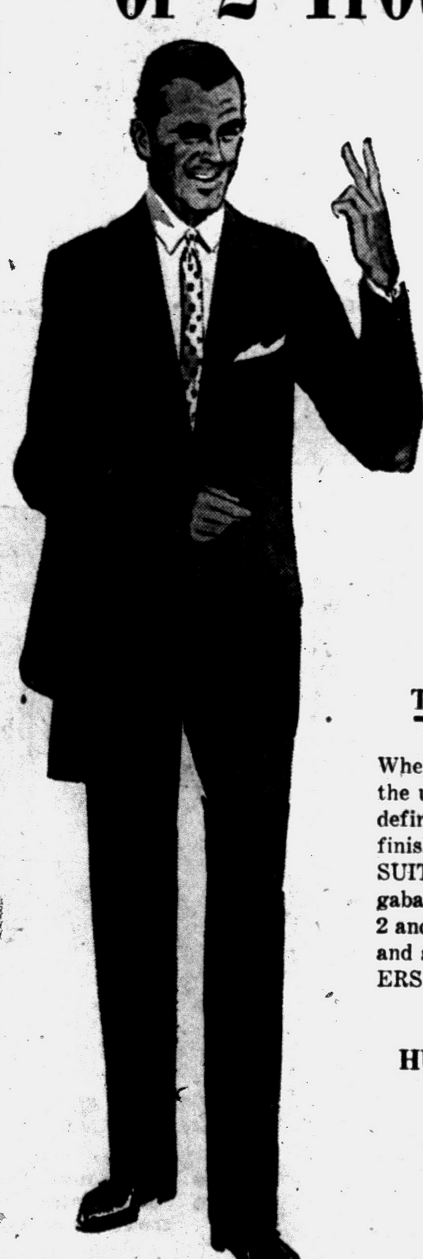

McCallum agreed that parking tickets and impounding tags are not legal instruments unless backed up by a warrant or a court order. The ordinance provides for an impounding tag, which police may place on automobiles whose owners have not settled past parking tickets. If the owner doesn't appear before the police within three days, the ordinance provides that his car may be impounded and not released until the tickets are settled and impounding fees are paid.

"In effect, this is forcing a person to pay fines without a trial and pressuring him into pleading guilty to parking violations in order to get his car back," McCallum said.

Promised Benefits if Hit by Asian Flu

NEW YORK (AP)—Longshoremen unloading the liner Vulcania, due today with 50 suspected cases of Asian flu, have been promised special benefits for themselves and their families if they contract the illness.

The promise came yesterday from the New York Shipping Assn. International Welfare Fund after I.L.A. officials reported the men might not be willing to handle the ship's baggage.

It was stipulated that the stevedores and members of their immediate families would get the benefits if they contracted the Asian flu within two weeks. The amount was not disclosed.

The Vulcania, carrying 963 passengers, is arriving from Trieste.

Ask to Condemn Batista

MEXICO CITY (AP)—Cuban exiles have asked Mexico to sponsor a vote of condemnation by the United Nations against the government of President Fulgencio Batista in Cuba "for the inhuman and uncivilized acts committed against an indefensible people."

THE NEW LOOK—What the child wants it to be this saddle slide will be. The concrete slide is part of the new look at Arsenal Park in Pittsburgh, Pa. Park officials say they are trying the new look to "make playgrounds a little more exciting for children."

Warren Son to Wed

DAVIS, Calif. (AP)—Robert Warren, 22, youngest son of Chief Justice and Mrs. Earl Warren, is engaged to be married to Carolyn June Macklin, a 19-year-old brunette who works on the Davis campus of the University of California where Robert is a senior majoring in physical education.

At its narrowest point Panama is only 31 miles wide.

FBI May Seek Snoopy

HOUSTON, Tex. (AP)—Snoopy apparently got snatched and it may become a federal case. Snoopy is a blue-blood dachshund owned by Fred Lewis, who said he received anonymous calls asking how much it would be worth to get his

missing pet back. Police said they were pondering the possibility of calling in the FBI.

In the first 10 months of 1956 an average of more than 350 motor vehicles a month were reported stolen in South Africa, Pretoria learns.

Gets \$37 for \$800,000

LONG BEACH, Calif. (AP)—Navy sailor Kenneth Vincent, 19, wrote his mother in Sudan, Tex., asking her to cash two bonds worth \$37.75 and send him the money. He got the check, all right—for \$800,000.75. Tellers at the naval base

bank gave him the \$37.75 and sent the cashier's check back to the bank that issued it.

The construction of sewerage and water facilities throughout the nation increased 30 per cent in 1955, exceeding a billion dollars for the first time.

Red Jet Slates 2nd Trip

MOSCOW (AP)—The second flight of the Soviet jet airliner TU104 to the United States will carry officials to a U.N. meeting. The first place flew part of the Soviet U.N. delegation to McGuire Air Force base, N.J.

7,500 Workers on Strike at U.S. Base in Japan

TACHIKAWA, Japan (AP)—About 7,500 Japanese employees of the big U.S. Air Force base at Tachikawa went on a 48-hour strike today to protest mass dismissals of Japanese workers.

The Walkout left the camp without drivers, cooks or a general maintenance staff. It was launched after an announcement that 576 Japanese workers were being dismissed, in line with the

pullout of U.S. troops from Japan.

Picket lines, about 3,000 strong, were set up outside 11 gates of the base.

Steal Passenger Bus

PROVIDENCE, R.I. (AP)—William A. Durfee heard a noise outside his house, looked out a window and saw a 44-passenger bus nudged against a tree. He also saw three teen-agers run from the darkened bus, which police said the three youths apparently had stolen.

Seek to Part DuPont, GM

Justice Department Unit Turns to Outside Help on Problem

WASHINGTON (AP)—The Justice Department's Antitrust Division has called in outside economists to help figure out how to divorce Du Pont and General Motors with the least impact upon the economy.

Asst. Atty. Gen. Victor R. Hansen, head of the Antitrust Division, disclosed today that the economists will help in preparation of recommendations for ending the long-time Du Pont-GM relationship in accordance with a Supreme Court decision last June. But, Hansen stressed, "we definitely have not arrived at any recommendation."

While Hansen declined to speculate as to what the ultimate recommendations might be, informed sources generally agreed that Du Pont would not be required to dump its 23 per cent holding of GM stock onto the market all at once. Du Pont's 65 million shares of GM stock are valued at about \$2,700,000,000—too much, everyone agrees, for the market to digest easily in a short time.

Likewise, there was general agreement that the Justice Department would insist not only that Du Pont yield its working control of GM, but that it also give up any influence in the affairs of the No. 1 auto maker.

Economists working with the Antitrust Division on the case are Dean Ewald T. Grether of the Graduate School of Business Administration, University of California, and Carl Kayser, an associate professor of economics at Harvard.

The next step in the long litigation will take place this fall before Federal Dist. Judge Walter J. Labay in Chicago.

One idea being discussed within the Justice Department would call for placing the stock in a voting trust, with Du Pont interests having no voice in voting it, and with a part of the stock to be sold off yearly. There is strong opposition to placing the stock in a permanent trusteeship.

Can Destroy Rockets

MOSCOW (AP)—Effective counter missiles that can destroy intercontinental rockets are possible, says Soviet rocket warfare expert Maj. Gen. G. I. Pokrovsky in a Russian journal. He blames the fixed trajectory of an intercontinental missile.

Value Reclaimed Land

DENVER — Crops valued at more than \$800,000,000 are being grown yearly on land irrigated and developed by federal reclamation programs.

Chicken a Better Buy Than Red Meat Now

Snappy weather usually perks appetites, but it also reminds us that time to enjoy Michigan's fresh produce is getting shorter. If you have any late ideas for storing corn, tomatoes, and peaches for wintry days, why wait longer?

Poultry products rate top billing for outstanding food value as well as economy states the MSU Marketing Information Agent, Mrs. Josephine Lawler. Red meat prices look very much like last week with cooler weather increasing demand for roasts and steaks. Heavy range fed cattle is the beef budget stretcher, but there are good supplies of better grades of grain fed beef also. Larger pork supplies needed before prices can be lower, have not yet started to fall market.

PRODUCE

Local weather conditions are responsible for some loss in tomato and lettuce quality. It will pay to be more careful with your selections.

Cabbage at 5 to 10 cents a pound, corn at 5 to 6 1/2 cents an ear, and Michigan potatoes at 3 to 4 cents a pound are vegetable choices worth considering.

You will find more Elberta peaches this week. Supplies of Hale Havens grow shorter. If you can find the Kalhaven variety, this is now the superior choice for canning or freezing.

Locally grown plums are now a good value for jams and jellies or for good eating in your fruit bowl.

As more apples are harvested, it is good to know which varieties are best for pies, sauce, baking or salads. For a free copy of the MSU bulletin, "Another Way for An Apple A Day," write Mrs. Lawler at 1260 West Boulevard, Pontiac. This booklet lists Michigan varieties, shows the dates of harvest, and rates apples for cooking and eating. Greening, Wolf River, MacIn-

toch, Duchess and Wealthy are current choices.

MEATS—Poultry is the easy-on-the-purse meat choice. Check fryers, stewers, turkeys and ducks before deciding your family fare.

If you decide to broil or barbecue a fryer, select one weighing less than three pounds and plan to use 1 pound or one-half bird for each adult. If you plan to fry or roast, the heavier fryers have more meat. Buy 3/4 to 1 pound for each adult when choosing the larger birds.

Cattle coming from the range are larger than in early summer. This grass or range fed beef is young tender beef, but it does not have the full flavor of beef fattened on grain. It does need low temperature and moist heat to cook it tender.

Pork prices remain about the same with fresh and smoked picnic the most tempting choice for budget conscious customers. Larger pork supplies are expected to start to market soon. This will start the gradual downward trend of pork costs until heaviest supplies are reached in winter months.

EGGS—A quick look at the egg case will help you decide the best buy for your egg dollar. If the price for a dozen large eggs is one-third larger than the price of a dozen small eggs the same grade, the small size gives more weight for your money.

Gets Telephonitis at 2 1/2

SAN RAFAEL, Calif. (AP)—A long distance telephone call to Philadelphia was listed on the bill of Mr. and Mrs. William J. Mazzini. They know no one in Philadelphia. They were asked if daughter Betsy Ann, 2 1/2, "ever plays with the telephone?" she does. The phone company cancelled the charge.

Seize Spy for Russia Trying to Scale Wall

STOCKHOLM (AP)—An engineer sentenced as a spy for Russia was seized at pistol point on a Stockholm prison wall today. He had filed through the bars on his cell.

Langholmen prison wardens

identified the breakaway as 32-year-old Bedros Zararyan, a Turkish-American engineer. He was sent to prison for 10 years May 12 for spying on Sweden's underground defenses.

Holland will have an Atomic Energy Law under which a program for the use of such energy will be achieved, The Hague learns.

Zoo Deaths Puzzling

FRESNO, Calif. (AP)—Officials of the Roeding Park zoo are mystified by 11 recent deaths among the zoo's animals. Dr. R. B. Grifenhagen, the zoo's veterinarian, said all showed signs of lung and heart cavity infections. A pathologist is testing brain tissue of the dead animals.

Limited Time Only!

\$50 FOR YOUR ARGUS C-3 Toward the Purchase of a New C-44 With Case and Flash!

- ▶ A lens second to none!
- ▶ Instant lens interchangeability!
- ▶ Unexcelled performance!

Argus C-44 with 50 mm lens:

Variable Power Viewfinder:

Telephoto lens:

Wide-angle lens:

The totally new Argus C-44 has the versatility and precision of cameras costing hundreds of dollars more—combined with American ruggedness and simplicity. A truly fine 35 mm camera, the C-44 has a superb 4-element f2.8 Cintagon lens (50 mm) made of the finest optical glass known. And, it is the only camera anywhere near the price with instant lens interchangeability. The bayonet-type lens mount lets you replace (not just supplement) the regular 50 mm lens with either of two new accessory lenses: a 100 mm Telephoto (shown on camera) and a 35 mm Wide-angle. New Variable Power Viewfinder (shown on top of camera) lets you see what each lens sees just by turning a control knob. Stop in today and let us show you this extraordinary new camera.

Stuffed Olives
Stuff Veal Rolls

Have you tried preparing some of the family's favorite meats with pimiento-stuffed green olives? They're a tasty complement with many meats, and the recipes featured here show the use of Spanish olives with veal and beef.

Ground veal rolls are filled with a savory stuffing pleasing in flavor and texture with chopped pimiento-stuffed green olives, celery, onion and raisins as seasoning. This is but one of the many delicious ways to serve meat dishes with the added flavor, texture and color of Spanish olives.

Veal Rolls With Spanish Stuffing
1/2 cup butter or margarine
1/2 cup finely chopped celery
1/2 cup finely chopped onion
1/2 cup seedless raisins
1/2 cup chopped pimiento-stuffed green olives
2 cups soft bread crumbs
1/2 cup chicken stock or bouillon
1/2 teaspoon crushed red pepper
2 pounds ground veal
2 teaspoons salt
1/2 teaspoon pepper
1/2 teaspoon basil
1 egg, slightly beaten

Melt butter or margarine; add celery, onion, raisins and olives. Cook over low heat, stirring occasionally, until celery is tender. Add bread crumbs, chicken stock or bouillon and red pepper; mix well. Combine veal, salt, pepper, basil and egg; mix well. Shape into 6 5-inch square patties. Spread with olive mixture.

Roll up jelly-roll fashion; seal edges. Place in lightly greased baking dish. Bake in moderate oven (350 degrees) 45 minutes. Serve with Olive-Egg Sauce. Serves six.

Olive Egg Sauce

Combine 1 10 1/2-ounce can condensed cream of celery soup, 1/2 cup milk, 3 hard-cooked eggs, chopped and 1/4 cup sliced pimiento-stuffed green olives. Heat to serving temperature over low heat, stirring occasionally. Makes about 2 1/4 cups.

Whole Spices Give Zip to Fancy Tea Punch

By International News Service
Try serving spiced tea punch at your next party. For 35 servings, the one-half cup of broken stick cinnamon and one tablespoon of whole cloves in a piece of clean cheesecloth. Boil in six quarts of water for five minutes. Then add five teaspoons of orange pekoe tea, and steep for five minutes.

Add the juice of three oranges and three lemons and one half to one cup sugar. Stir. Float thin lemon and orange slices on top.

STUFFED VEAL ROLLS — Here is Autumn stuffing, pear and apple salads and stuffed baked potatoes.

Brush Wine Sauce on Beef Patties

Every little breeze seems to blow in the fragrance of outdoor cooking. From the tiny terrace, from the back yard, from state parks and camp sites, come tantalizing fragrances that remind of America's open kitchen door policy.

Makers of barbecue equipment are hustling to keep up with the cook-out trend, developing stoves that are ever more compact and economical. Maybe you have one to try this on.

Burgundy Barbecue Sauce
1 teaspoon instant minced onion
1/4 teaspoon coarsely ground black pepper

per 1/4 teaspoon Worcestershire
Few drops tabasco
1 tablespoon soy sauce
1 tablespoon lemon juice
1 teaspoon sugar
1/2 cup salad oil
1/2 cup vinegar
1 cup burgundy wine
Combine all ingredients, stir vigorously, heat to boiling point. Use to brush hamburgers or steak during barbecuing. Stir each time before brushing on meat. Makes about 1 pint (2 cups).

Toast Points Are Easy

Creamed dishes are often served restaurant-style, with "toast points." To make the points, toast thin slices of white bread and cut each slice into four triangles. Crusts may be trimmed if desired.

Read the List to Decide Which Class You're In

By International News Service

Food has a language all its own, and it has nothing to do with nutritive value. According to Dr. Dena Cedarquist, head of Michigan State University's food and nutrition department, people associate different foods with characteristics, not calories.

For example:
T-bone steak: Masculine
Vegetables: Feminine
Fruits: Love and Devotion
Peanut butter: Childish
Olives: Adult and Sophisticated.

Always run the tip of a knife around a mold to loosen before turning out. Something different by way of flavor: chili sauce and chili powder added to canned baked beans. As West Germany's economic boom wanes, more unemployment is noted, Bonn reports. Try using marjoram instead of sage, sometimes, in a stuffing for turkey or chicken.

FINAL WEEK OF THE FIRST ROUND
THIS WEEK BUY THE SALAD PLATE

It's the final week of the first round... but there are still 14 weeks left for you to save your set of fabulous "PINK SERENADE" dinnerware... beginning next week, we start with the top of the list again with the dinner plate... and continue on down to the salad plate for the second round... hurry, don't miss out.

Air Enthusiast Will Head ICA

J. H. Smith to Succeed J. B. Hollister as Chief of Foreign Aid Program

WASHINGTON (U)—With Secretary of State Dulles on hand, an ex-Navy pilot symbolically succeeds an Ohio lawyer today as boss of the vast U.S. foreign aid program.

Speeches all around were the order of the day at a staff meeting of the International Cooperation Administration in the Mayflower Hotel's grand ballroom.

Stepping out after more than two years as ICA chief, John B. Hollister, white-haired 66-year-old former law partner of the late Republican Sen. Robert A. Taft of Ohio. He is going back to his law firm, Taft, Stettinius and Hollister, in Cincinnati.

Stepping in, but only symbolically since he won't take his oath of office until October: 47-year-old air enthusiast James Hopkins Smith Jr. of Aspen, Colo.

After Hollister leaves tomorrow, ICA and its multibillion-dollar spending for foreign military and economic aid will be temporarily in the hands of the deputy director, Dr. Dennis A. Fitzgerald.

Smith is returning to government service a little more than a year after he resigned as assistant secretary of the Navy for air.

For the last year he has been vice president of Pan American Airways and a director of Slick Airways.

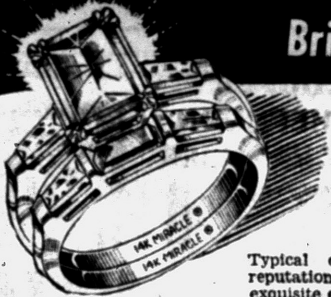

THE STORK CLUB—Three charter members of the Detroit Police Department's Stork Club light a cigar for the fourth founder, Frank Lewandowski, a grandfather who has delivered a dozen babies in his patrol wagon. Among them, the quartet has delivered 23 babies. Membership in the Stork Club is limited to officers who deliver babies in a moving auto. Each member will get a plaque like the one held by Lewandowski. Offering the light are, from left, Carl Bangert, Woodrow Webb and James Schweiger.
