

Kiplinger Forecasts:

No Deep Depression With New Boom in 60s

WASHINGTON, D.C. — Current fears of a serious recession are not warranted, according to a special report by the Kiplinger organization. A period of "normal progress" for the next five or six years is predicted by the Washington business reporting firm.

Any lull or slump will be temporary, the editors say, a pause—not a deep slump or depression.

Then, in five or six years, a new boom will set off "the greatest era of economic growth this country has ever known". Underlying the new boom are these facts:

Population: Extra high birth rates in the '40's and '50's will produce a population bulge in the '60's and '70's of young men and women marrying or ready to marry. Marriages make homes, homes make business.

New products, new ideas: Technical, scientific and mechanical developments of the past few years are being rushed into use, producing a crop of new products.

Government policy: Both parties and all political groups are bullish, committed to full employment and an economy going at full speed, with the government an active partner.

MORE INFLATION

The bad news is that more inflation will accompany the boom, according to the Kiplinger report. Prices will go higher—in ten years, 15 per cent higher, in 25 years, 50 per cent higher.

Behind the inflation are three major forces, pushing hard:

Wages rising faster than productivity: A continuous push for higher wages can be expected, causing higher prices and then demand for more wages to cover increased living costs.

World-wide pressure on prices: Demand for goods everywhere else in the world is greater than the supply. Prices are going up in all countries and they affect our economy, too.

Government spending: No matter what men of either party say the pressure is to expand public spending, so deficits may pledge budgets in the future. Public pressure continues to be for big spending, regardless of inflation that comes in its wake.

Not all states and localities will share equally in the growth of the next 25 years, the Kiplinger report points out. The biggest single area of growth is the "heartland" area from Pittsburgh to Chicago.

Next in growth comes the Atlantic seaboard, New York to Baltimore. Then spectacular California, heading toward beating New York as number one state in population. Then Texas, then Florida, which is gaining at the highest rate of any large state.

BUSINESS GAINS SPOTLIGHTED

The new boom of the 60's will bring an upsurge in housing, accompanied by further suburban growth, increased land prices, more luxury homes.

New business will increase. All the talk about small business being doomed is "a lot of bunk," according to the editors.

Service lines will grow fast; retailing, repair, maintenance, banking, real estate, insurance, as well as recreation, travel and vacation-connected businesses.

NO TAX RELIEF—INCOMES UP

Along with the boom and inflation will come a steep rise in incomes, until family spending doubles its present level in the 80's. Even with discounts for inflation and higher prices, there will be more family spending.

Lower income groups will decrease in number, as families move up the income scale—more middle and upper income families. And there will be increasing number of rich families of varying grades, a continuation of past and present trends.

Taxes will not decrease. Though federal taxes may be cut, state and local taxes will rise at a faster rate, so total tax bill will stay high.

NO BIG WAR

Total defense spending will gradually decline, perhaps to 30 billions instead of present 40 billions. First small steps toward disarmament may take five to 10 years, but total disarmament is not in the picture.

As for war, the Kiplinger organization forecasts there will be no big war. Small wars may threaten and come and go, but no world conflict is likely, the report concludes.

Racial Violence Flares in North Little Rock

Boarding Press Special for Manhattan

NEW YORK BOUND — Up the ramp and off to adventure was the activity at Willow Run Airport this morning for members of the Pontiac Press Theater Special, heading for five days of fun

and sight-seeing in New York. Here some of the members file aboard to take their seats.

Press Treater Special Reports:

Not a Care; Perfect Flight

By GEORGE T. TRUMBULL JR. with a care in the world—with the exception of the pilot (we hope).
ABOARD THE THEATER SPECIAL—There's not a soul up here. The roar of the four mighty en-

gines, pushing us toward New York City, is serving as a perfect tonic for many sleepy-eyed travelers aboard this luxurious United Air Lines DC-6. We're at 15,000 feet floating through the rays of an early morning sun. A bump hasn't jarred a soul.

Somewhere 15 minutes ahead of us is United Flight 122 carrying the rest of the junketing Pontiac Press Theater Special travelers toward a rendezvous with fun, gaiety, and entertainment.

All the cares and worries of a usual dismal Monday at the office or in the home have been left behind. Throughout this plane the most overworked question is, "What are you planning to do after the theater tonight?"

And tonight is one that couldn't kick-off the five-day excursion to Manhattan with a bigger thrill. That long awaited dream of seeing Rex Harrison and Julie Andrews in "My Fair Lady" will come true. Other playgoers will see the hilarious comedy "A Visit to a Small Planet."

CORSAGES FOR LADIES

All the ladies among the 154 will be sporting a beautiful carnation corsage, presented during an evening "get acquainted" buffet at Billy Rose's old Diamond Horseshoe.

For most of us, the trip ahead has dawned out the torture of hearing the alarm rattle off at 5 a.m. Many are now making up on the lost shut eye. The rest are apparently too excited to close an eye. They're afraid they will miss something.

The Press Gang—as some have called the group—climbed aboard Greyhound buses in front of The Press building in downtown Pontiac at 7 a.m. It was off to Willow Run. On the way down Telegraph men and women scanned other badges worn by all to see who was joining them on this extravaganza.

The excursionists checked in with members of The Press staff and received an envelope of the theater tickets and their plane tickets. Everybody had just one thought in mind—the fun ahead in the Big City.

For some it is the first time. They were being teased by the more seasoned New York visitors with statements which usually began, "You must do . . ." and "By all means don't miss . . ."

After we all checked in at a special United Air Lines desk we awaited the call "Flight 504, Pontiac Press Special to New York, now boarding at Gate 18, South Concourse."

Not long after we were in the air and the "fasten seat belts" and "no smoking" signs went off.

President Signs Civil Rights Bill

Permits U.S. to Enforce
Freedom to Vote With
Court Injunctions

NEWPORT, R.I. (AP)—President Eisenhower today signed into law the history-making civil rights bill empowering the federal government to enforce the right to vote with court injunctions.

The President put his signature to the bill—the first such legislation in 80 years—at his desk at his vacation headquarters here at 8:10 a.m.

Eisenhower's action came against the background of the school integration crisis in Little Rock, Ark., but the measure—primarily to right-to-vote bill—has no direct bearing on that dispute.

It repeals a post-Civil War era law authorizing the President to use troops to enforce court orders in civil rights cases. But administration officials obviously feel Eisenhower has other powers.

The civil rights bill was passed by Congress a day before it adjourned Aug. 30, after the historic struggle lasting through the 1957 session.

Passage of the measure was the major action of the session. It also was a significant victory for the President even though his original proposals were rewritten by the Democratic-controlled Congress to remove or soften some of the far-ranging provisions.

Aside from the broad new powers to enforce voting rights, the bill would:

Establish a six-member presidential commission to make a two year study in the civil rights field. Provide for a new assistant attorney general to head and strengthen the civil rights division in the Justice Department.

Repeal a Reconstruction era law authorizing a president to use troops to enforce court orders in civil rights cases.

Don't Need It? Trade It!

Often time a good trade is better than a sale and you'll find it so easy to make a good deal with the help of a Press Want Ad. Or if you prefer to "get the cash" you'll find buyers quickly. Try a Want Ad and see! This one brought excellent results:

6 Negro Youths Shoved Away From School

White Students Refuse
to Allow Others Inside;
No One Injured

LITTLE ROCK, Ark. (AP)—White students threw back six Negro youths who tried to enter North Little Rock High School today—the first actual violence of Arkansas turbulent racial crisis.

North Little Rock, a separate city, is immediately across the Arkansas River from the integration-torn city of Little Rock.

About 10 white students met the six Negroes at the top of the steps leading into the school.

They grabbed the six, hustled and shoved them down the steps and across the campus almost to the street before police broke up the trouble.

None of the Negroes suffered injury. No National Guardsmen were on duty, but six policemen guarded the school, which opened today for the fall term.

INTEGRATION DELAYED

The North Little Rock School Board once ordered limited integration, then postponed the action after the National Guard was called up and kept Negroes out of Little Rock's Central High School last week.

North Little Rock is a city of about 50,000, about half the size of Little Rock.

North Little Rock policemen (Continued on Page 2, Col. 5)

Nashville Police Escort Negroes

Integrated First Grades
Start Classes; Picketing
Parents Finally Give Up

NASHVILLE, Tenn. (AP)—Police escorted Negro pupils through lines of threatening whites at Glenn Grammar School in northeast Nashville today as city schools opened with white and Negro first graders going to integrated classes for the first time in this Southern city.

White parents withdrew about 20 of their children from the school.

The whites, with pro-segregationists maintaining picket lines before the school, tried to block entry of the Negro pupils and their parents.

The irate white parents surrounded police standing guard at the school and there was a heated exchange.

Angry shouts went up from the crowd of about 200 whites as police escorted the Negroes into the school.

There were such shouts as "You're putting out the red carpet for them" and "You are backing the colored and not taking up for the whites."

Three Negro children registered at the Glenn school last Tuesday to attend the classes which started today. They were among 13 Negro children registered at five previously all-white Nashville grammar schools.

St. Joseph Hospital Begins New Building

Construction of a new powerhouse and laundry building will begin today at St. Joseph Mercy Hospital. Ground breaking ceremonies on the nine-month project are scheduled for 4 p.m.

The addition will be located immediately to the rear of the west wing of the hospital and is expected to cost approximately \$650,000, according to Sister Mary William, hospital administrator.

She stressed that the new building was urgently needed as the present two boilers, installed in 1927, often had broken down, endangering continuing operation of the hospital.

The one-story addition will be partially financed by a \$198,000 grant received last year from the Ford Foundation, said Sister Mary William. The hospital expects to borrow the rest of the money through the Detroit Province of the Sisters of Mercy, she said.

Lifting today's first shovelful of earth will be Father Michael (Continued on Page 2, Col. 4)

Blair Holds Two-Up Margin in Amateur

BROOKLINE, Mass. (AP)—Jim Tom Blair, pudgy clouter from Kirkwood, Mo., shot a two-under par 33 on the short front nine of The Country Club today and led veteran Ted Meister of Cleveland, two up, at the turn in their first round match in the 57th National Amateur golf championship.

Blair, son of the governor of Missouri, is a player conceded an outside chance of winning this wide-open tournament. The 40-year-old Meister is a former Walker Cup player, a semifinalist in the 1954 championship and is playing in his 14th title tournament. They were among the earliest starters in the first round.

In another early match Dr. Fran (Bud) Taylor of Pomona, Calif., a member of this year's Walker Cup team which trounced Britain's top amateurs about ten days ago, lost three of the first five holes to Dr. Windell Aldrich of Kendallville, Ind., then won the next three to reach the turn all square.

Now Pot-O-Gold Permits Two Wrong Answers

Puzzle fans are going to get another break, starting with the Pot-O-Gold that appears in today's paper.

Providing no one wins last week's puzzle by turning in an entry with either none or one wrong, puzzle No. 67 which appears on page 10 may be won by anyone with a solution that has no more than two wrong, if no one has less wrong.

With relaxed rules like this and \$2,500 in the pot, you won't want to miss turning in your entry this week. That's a lot of money to let slip through your fingers because you didn't take a few minutes to figure out the answers for Pot-O-Gold.

Now that 20,000 entries a week are coming in, you may want to spend a little more time on finding the right solution.

Cloudy Skies Due Tonight, Tuesday

The weather outlook for Pontiac and vicinity tonight is partly cloudy and warmer, with a low of 54 to 58 degrees.

Tomorrow's outlook is increasing cloudiness with showers, turning cooler late in the day. The high will be from 72 to 76.

In an extended outlook the U.S. Weather Bureau has forecast that temperatures will average around two or three degrees below the normal 76 high and normal 56 low for the next five days.

Showers are expected again Friday or Saturday.

In downtown Pontiac the lowest temperature recorded, preceding 8 a.m. was 47. At 1 p.m. the temperature was 74.

Maine Deciding About Changing Early Election

PORTLAND, Maine (AP)—Maine will decide at the polls today whether to continue the state's famed early election or conform with the rest of the nation.

The question of whether to keep the present election date of the second Monday in September or change it to the November election date, prevalent elsewhere is one of the five questions facing the voters.

Proponents of a November election say two elections are expensive and cut the turnout of voters. Those who want to retain September say the date divorces state and national issues, avoiding confusion and is an invaluable source of free publicity.

Beaming New Miss America

KISS FOR WINNER — Miss America of 1958, Marilyn Elaine Van Derbur, of Denver, Colo. beams as she's given a congratulatory kiss by Miss America of 1957, Marian Ann McKnight, of

Manning, S. C. Miss Van Derbur is 20 years old, and a junior at the University of Colorado. (See story Page 2.)

14 Lives Ended on State Roads

Man Killed in Monroe While Working on Car as Jack Slips

By THE ASSOCIATED PRESS

Fourteen persons died on Michigan highways over the weekend. In addition a Monroe man was killed when a car under which he was working fell off its jack, crushing him.

Clyde Munger, 45, Delton, and Jack Lester, 17, Cloverdale, were injured fatally Saturday night in a two-car collision on a Barry County road.

Richard Wallersterde, 23, Dowagiac, was killed Saturday night when his car hit a tree near Dowagiac.

Pearl Evermon, 53, and Em-bert Reed, 15, both of Lansing, died Saturday when their pickup truck and a freight train collided four miles south of Lansing.

Mrs. Beatrice Alpaugh, 21, Alvoraton, Ohio, and Mrs. Erica Stormer, 66, Lansing, died Saturday in a two-car collision south of Holt.

Edward Allison, 38, Highland Park, was killed Saturday when his car overturned in a ditch near Saginaw.

Eugene H. Connell, Vandercook, was killed Saturday when his car crashed into a bridge abutment near Jackson.

Charles Brady, 55, Emmett, was found dead Saturday under his overturned tractor in a ditch near his home.

Heleen Saharchuk, 32, Detroit, died Friday night when struck by a car while crossing a Detroit street.

Mrs. Adele Czeranewicz, 80, Detroit, was killed Friday night when a car hit her in Detroit.

Mrs. Mildred Ruth Williams, 31, Mayville, was killed Friday night when her car and a truck collided near Caro.

Mrs. William Kline, 32, Romulus, was killed Saturday night when a car in which she was riding and a train collided at a Flat Rock crossing.

David Heck, 19, Monroe, was crushed to death Saturday night when a car under which he was working in his garage fell from its jack supports onto him.

By E. H. SIMS

What is "football weather"? Do people really feel better in the fall, when football is played? There is such a thing as football weather, not because of football but because of the time of the year football is played in the United States.

This sport comes when high pressure systems begin to push down from the north with greater regularity, bringing with them cold, dry air. It is the beginning of the trend toward winter, and there is less rain in the fall than in summer.

Since high pressure usually makes people feel good (low pressure sometimes has a depressing effect), this—combined with cooler weather, and resulting invigoration—combines to produce an energetic feeling, or that "football weather" in the fall when appetite and energy seem to return after a hot summer.

The Bureau of Public Roads estimates that one worker in seven in this country has work directly connected with highways and motor transportation.

The Weather

Full U.S. Weather Bureau Report. PONTIAC AND VICINITY — Partly cloudy and warmer tonight, low 34 to 36. Tomorrow, increasing cloudiness with showers and turning cooler late tomorrow, high 72 to 74. Mostly easterly winds at 10 to 15 miles an hour.

FIRST FLIGHT — Mrs. D. Fortino, 71, of 13 N. Cass Ave. (third from left) looks grave, but she wasn't worried about her first flight this morning as The Press Theater Special gathered at Willow Run Airport. With her are fellow passengers Dr. Charles Fortino (left), 3980 Walton Blvd., and Mrs. Fortino (right), and Rudy Fortino, second from left.

New Miss America Plans Musical Career, Marriage

ATLANTIC CITY, N. J. — What is Marilyn Elaine Van Derbur, the new Miss America, like?

The 20-year-old blonde, green-eyed beauty from Denver, Colo., told newsmen at a breakfast press conference on the beach yesterday that:

Her main interest is completing her college education in music, and she plans to use the \$5,000 scholarship that goes with the title toward that goal.

She'd like to work in music or on the stage for a year or two after college and hopes to get married when she's 24. After marriage, she wants to continue her work in music.

She likes to swim, train and ride horses, ski, and adores tailored clothes. Her favorite colors are green and blue. She has no steady boy friend, thinks singer Perry Como is tops, admires singer Jane Froman and likes steaks medium-rare.

She admits to having been a "brat" as a child and said she used to spy on a sister's parties. She thinks the father should be the head of the family.

As might be expected, Miss Van Derbur thinks the Miss America pageant offers wonderful opportunities to a girl.

The dimpled beauty queen, who stands 5 feet 8 1/2, weighs 130 pounds and measures 35-25-36, was crowned Saturday night by the outgoing Miss America, Marian Ann McKnight of Manning, S. C., before a nationwide television audience and a crowd of 20,000 in Convention Hall.

Although she got only an hour's sleep after the Coronation ball, she looked fresh and radiant as she greeted newsmen and photographers the following morning. "I feel wonderful," she said. Immediately after the press conference, she was whisked off to New York City to start her reign. The new beauty queen, a University of Colorado junior who had her debut last year, has three sisters.

Her father Francis S. Van Der-

bur owns a group of mortuaries and runs an insurance business in Denver.

First runner-up in the contest was Miss Georgia, Jody Elizabeth Shattuck. The 20-year-old blue-eyed blonde from Atlanta won a \$3,000 scholarship.

Third was Miss Oklahoma, Mary Nancy Denner, 21, Alva, who won a \$2,500 scholarship, followed by Miss California, Lorna M. Anderson, 18, Sacramento,

and Miss Florida, Dorothy Maria Steiner, 20, Boca Raton, both of whom won \$2,000 scholarships.

In addition to her \$5,000 scholarship, Miss America's other prizes include \$5,000 in cash, an estimated \$50,000 to \$75,000 from personal appearances during the year of her reign and the chance to travel about 150,000 miles, including three trips to Europe.

Press Theater Tour Under Way Today

(Continued From Page One)

stewardesses began serving breakfast.

FIRST NAMES —

About this time many were telling their neighbors, "Just call me Mary and forget the Mrs." Most reading material consisted of the morning newspaper, magazines purchased at the Willow Run stands, and most popular, a packet of brochures on the merits of the sights of New York.

One lady I visited was one step ahead of the Press staff making the trip and was adding to our itinerary. "I've done this so I won't miss a thing like China Town, the Bowers, Central Park or Governor's Island," she said.

One rabid baseball fan planned on taking in a New York Giant game if they are in town. "I'll never see them when they go West," he told his drowsy companion.

Amongst the ladies (and some gentlemen I might add) passed the puzzling thought whether they had packed the right clothes for the weather ahead. And of course, typical of any trip, there were those who had left something behind.

Some of the repeat travelers from last year's Theater Special are weighing the merits between their rail excursion with today's marvelous cruise through the clouds.

The Big City is now not far off. Things are beginning to buzz again in the cabin. "It's really too joyous a time to waste it sleeping," my seat companion leans over to tell me. With this no one would disagree.

Hurricane Carrie Remains Far Out in Atlantic

MIAMI, Fla. — The 150 m.p.h. winds of Hurricane Carrie remained far out in the Atlantic today.

The season's third hurricane was located about 1,200 miles east of San Juan. It is moving west-northwest at about 10 m.p.h. and is expected to continue this course and speed for the next 12 hours.

Carrie packs winds up to 150 m.p.h. near its center with hurricane force winds extending out 75 miles to the north and 50 miles to the south.

The hurricane today "will increase slightly in size but will not change in intensity," the Weather Bureau reported.

"This is a severe hurricane and vessels in its path should exercise caution," the advisory continued. "There is no immediate threat to any land areas."

More Tech Students

DETROIT — Lawrence Institute of Technology will top 3,000 students this fall, Dr. E. George Lawrence, college president, said today. "Advance registration and overcurrent applications indicate an increase of 15 per cent over last year's enrollment of 2,600," Dr. Lawrence said. Classes begin Sept. 16.

Divers Resume Hunt for Bodies

4 Members of Lansing Family Still Missing in Lake Superior

MARQUETTE — A search of Lake Superior's chilly waters for the four remaining bodies of a six-member Lansing family which crashed on a private plane flight was to be resumed today by skin divers.

The bodies of Mark Hietikko, 7, and his sister, Connie, 5, were recovered from the lake yesterday by a skin diver at a point near shore about 15 miles east of Marquette.

The bodies were found by Marquette County Deputy John Buckmaster about a quarter of a mile from the spot where a Buoy marks the sunken wreckage of the missing plane which was Located Friday.

State Police skin divers planned to team with divers from the sheriff's office today in an effort to locate the bodies of Mr. and Mrs. Raymond Hietikko and their two other children, Cameron, 9, and Scott, 11 months.

The 40-year-old Hietikko, his 32-year-old wife and their children were flying home from a trip to the home of Hietikko's parents at Baraga over the Labor Day weekend when their plane was reported missing.

The plane was last seen at Marquette when it stopped to refuel. Police said they believe Hietikko flew east along the lake shore to avoid bad weather over the northern reaches of Lake Michigan, the normal route to Lansing.

St. Joseph Hospital Starts New Building

(Continued From Page One)

O'Reilly, pastor of St. Michael's Church, Mayor William W. Donaldson, City Manager Walter K. Williams and Dr. Robert Wessels, St. Joseph Chief of Staff, are scheduled for brief remarks.

The new addition will consist of two sections. One, the furthest to the west, will house a large boiler, capable of serving a proposed wing at the hospital and a smaller temporary one.

The second section will house 40 beds until it is converted into the new laundry section upon completion of the new wing. The two sections will be partitioned off.

Sister Mary William said the hospital still hoped to go ahead with plans for the wing, expected to boost the present 310-bed capacity to 500, when funds are secured.

The new building will provide the heat for the hospital and the steam necessary for sterilization of equipment and laundry service. Present services are carried on in the boiler and laundry section at the rear of the hospital. This will be converted into a carpentry and paint shop at a future date.

Violence Flares Up in North Little Rock

(Continued From Page One)

Immediately called for reinforcements from the State Police. Policemen at the scene said no National Guard help was sought.

At 2,000-pupil Central High School in Little Rock, where National Guardsmen kept watch today in a struggle between the state and national governments over integration, all was quiet this morning.

A crowd of spectators gathered as in previous days but no incidents occurred as school opened and no Negroes sought admission to the school.

At North Little Rock, the six Negroes made two attempts to enter.

GESTURED TO YOUTHS

After they were shoved and pushed away from the building on their first try, the school superintendent, F. B. Wright, walked out of the building and gestured for the Negroes to follow him into the school.

Once again they climbed the steps. Reinforcements flocked to the white students. Five adults joined them.

One adult, identifying himself as L. E. Stroud and father of a girl student, shouted, "They shall not pass."

When Wright sought to escort the Negroes into the building, a youth shoved himself in front of the oncoming group.

"If you want to stay in this school, you'd better get out of the way," Wright told the youth sharply.

"I'd rather get out," the boy said. His sentiment was echoed by similar cries from the crowd. The youth would not give his name.

CROWD OF 150

An estimated 150 persons surged around the Negroes.

Wright gave up and told four Negro adults who accompanied the children to meet him at a downtown office later.

Police made no effort to escort the Negroes inside the building. Their only action was to break up the first violence.

The new crisis punctuated Arkansas Gov. Orval Faubus' challenge of federally ordered integration.

National Guardsmen have kept Negroes out of Central High in Little Rock since school opened last Tuesday.

Last night, the governor said the only way he knew to break the stalemate between himself and the federal government would be for U.S. authorities to back down from their integration orders.

THE SAME ORDERS

And, he said in a televised interview, the National Guard still operates with the same orders he issued after calling it up last Monday night on the eve of the opening of 2,000-pupil Central High School.

These orders, he has said, are to keep Negroes out and to prevent violence.

With the governor's renewed challenge last night, no compromise was in sight.

President Eisenhower has said, referring directly to the Little Rock crisis, that his aim is to uphold the United States Constitution. The Supreme Court in 1954 ruled that the Constitution does not permit forced school segregation.

REFUSES COMMENT

A spokesman asked Faubus last night: "If the FBI agents took a kid by the arm tomorrow and attempted to escort him through the lines, would he be shot or would they be shot?"

The governor answered: "I sincerely hope that no one is shot or that violence or harm comes to no one. Those are eventualities which must be met as they come. I don't think it would be proper for me to comment on what could or what would happen."

Officers Still Seek Body of Local Man

Sheriff's deputies and conservation officers continued to seek a Waterford Township man feared drowned in Big Bay De Noc in the Upper Peninsula today, after finding the body of his fishing companion yesterday.

The body of Earl Bishop, 58, of Ishpeming, was found floating near the spot where the pair's boat was found last week. Bishop was fishing with his son-in-law, Arthur McHenry, 39, of 6547 Saline Dr. Bishop's body was spotted from a plane. An examination showed he died of shock, not drowning. Relatives said he had a bad heart.

Holiday Delays Trial

HOLLYWOOD (INS) — The Confidential Magazine criminal libel conspiracy trial remained in recess today because of a state holiday. When it resumes in Superior Court tomorrow, Prosecutor William L. Ritz will again take up the final argument he had just started when the illness of a juror forced an adjournment last Friday.

The Day in Birmingham

Commission to Hear More Quarten Sewer Objections

BIRMINGHAM — The controversial Quarten Lake Estates sewers will come before commissioners again tonight. A written objection from Mr. and Mrs. William S. Rodie, III, has been added to the many objections voiced at preliminary hearings sometime ago.

The principal reason for the objections is that a number of residents say they are unable to see where an expanded system will be of any value to them. Commissioners also will have a hearing on the special assessment district on widening Adams road from Buckingham road north to the city limits.

The question of maintenance of vacant property, particularly a section bounded on the west by Adams road and the north by Bowers street also is on the agenda. The petition to have this property cleaned and kept mowed has been signed by a number of residents living in the immediate vicinity.

Building in Birmingham increased nearly three times in the past month. The sharp rise from the July total of \$182,425, to August showed an estimated value of \$393,023 for the 66 permits.

Breakdown of the report shows 38 new buildings, 20 alterations, two swimming pools, concrete slabs and foundations and two house removals.

Bloomfield Hills police report another outbreak of malicious destruction of property Saturday night. Four residents of Lowell Court reported the destruction of yard lights in their homes.

The ninth term of the Baptist Nursery School directed by Mrs. C. H. Johnson opened this morning with 85 children already enrolled. The school meets daily from 9 a.m. to noon. Three full-time teachers are employed, conducting the varied program for pre-school children. Although sponsored by the church, the nursery school is open to all children in the community.

Second national Civil Defense Week will be observed Sept. 15-21. The program will be highlighted by a civil defense parade Sept. 19.

Under sponsorship of the Junior Chamber of Commerce, the week's activities will include programs to inform residents what they can do to protect themselves in natural or man-made disasters. An explanation of how citywide signals will be sounded from air raid sirens to warn of impending disaster will also be given.

Several hundred copies of various types of literature from the Michigan Civil Defense offices will be distributed throughout the city that week.

Speakers will be available for talks to various service groups and other organizations. Birmingham school district is being asked to

participate through student instruction.

Mayor William Roberts will issue an official proclamation of the week-long observance.

Fire Serious Threat Through California

SACRAMENTO, Calif. — Forestry officials today foresaw no letup in the "very critical" weather situation that sparked about 75 forest and brush fires throughout tinder-dry California over the weekend.

With some still raging unchecked, the fires:

1. Forced hundreds of vacationers to flee summer homes in the timbered Greenhorn Mountain area of Sequoia National Forest, 50 miles northeast of Bakersfield.

2. Caused a two-hour closure last night of transcontinental U.S. 50 in mountainous El Dorado County when flames approached the roadway near the gold mining town of Placerville. One fire-fighter was seriously burned.

3. Threatened a Nike guided missile base on Mt. Gleason 20 airline miles north of Los Angeles.

More than 2,000 fire fighters were thrown into the fighting against the various blazes—large and small—which flared throughout the state.

Keego Blast Victim Now Off Critical List

Mrs. Gloria Ann Bray, 23, injured when a gas explosion shattered her Keego Harbor home Aug. 22, was taken off the critical list for the first time this weekend. Pontiac General Hospital said the victim, who suffered severe burns, was in satisfactory condition today.

Mrs. Bray was alone in the house at 2918 Virginia Ct. when the blast occurred.

2 Named at U. of D.

DETROIT — Rev. Malcolm Carron, S.J., has been named assistant dean of the College of Arts and Sciences at the University of Detroit. In another appointment, Thomas A. Emmet Jr., of suburban Harper Woods, has been named acting dean of men.

Vandals Wreck Car
SAN FRANCISCO (AP)—An auto salesman parked his car in the crumbling Palace of Fine Arts while he went fishing. He returned to find it a total wreck. Vandals had spotted the car, started a drag race with it, then found a drag lift and tumbled it over and over.

Reserve Units Plentiful

WASHINGTON—Throughout the nation there are more than 5,300 company-size Army Reserve units training in their own towns.

**'Won't Beat Us
in Missile Race'**

**But Defense Aid Adds
Reds in Strong Position,
America Must Not Lag**

NEW YORK (AP) — Donald A. Quarles, deputy secretary of defense, said today he is confident "we will not be outdistanced" in the race to develop an intercontinental missile.

Quarles said in a speech prepared for the United States Conference of Mayors that this country "does not expect to be beaten in this ballistic missile race."

However, he cautioned against any American complacency, saying, "The danger isn't that we will be attacked today, but that we will so lower our guard that we might be attacked tomorrow."

Quarles' speech was approved in advance by the White House. Like President Eisenhower, Quarles termed "boastful" the Russian claim to have tested successfully an intercontinental missile. Quarles didn't challenge the Soviet claim as untrue, but he said it

was designed to convey "an impression that substantially exceeded the truth."

Quarles said the Soviets have pulled up into a challenging position in recent years, forcing the United States to "reckon with a similar, although of necessarily equal, U.S.S.R. capability . . . of inflicting terrible damage on an enemy."

He referred to the recent Moscow missile announcement as a Russian effort to give as little information as possible and still achieve their propaganda objectives.

**Tropical Depression
Builds Into Typhoon**

MANILA (AP) — A tropical depression east of northern Luzon today intensified into a typhoon with maximum center winds of 75 m.p.h. an hour.

The Manila Weather Bureau said the typhoon, named Carmen, is 260 miles east northeast of Batanes, northern Philippines and moving northwest at 12 m.p.h.

30 Million Overweight

NEW YORK—An estimated 30 million American adults suffer from overweight.

**Landon Celebrates
His 70th Birthday**

TOPEKA, Kan. (AP) — Al Landon, who served two terms as governor of Kansas and then took a terrific beating as the Republican nominee for president in 1936, is 70 years old today.

"Never felt better in my life," he said in an interview Saturday. "Come around again 30 years from now. I'll still be here."

Landon hasn't sought public office since he lost the presidential race to Franklin D. Roosevelt, carrying only Maine and Vermont. He also has stayed out of the national political whirl. He indicated that is the way it will continue to be.

He's in the oil and radio broadcasting business. A five- to six-mile horseback ride each morning is his favorite diversion.

He said he feels the nation's most pressing problems include economy in government and a workable farm program.

Natural gas, which 15 years ago supplied less than 12 per cent of the nation's fuel energy requirements, now provides 25 per cent.

Burglar Alarm Works!

PACIFIC PARADES, Calif. (AP) — A time clock accidentally tripped a silent burglar alarm at comedian Jerry Lewis' home. That was the explanation his wife, Patti, gave three carloads of Wellington reports.

MAKE OVER PAGES

double. Lewis is in New York to appear in a show. Davy Crockett garb now has replaced space man's equipment with the youths of New Zealand, Patti gave three carloads of Wellington reports.

TELEPHONE DIRECTORY
GOING TO PRESS
NOW!**

Now is the time to change or add listings

Take a good look at the old directory. Are your listings just as you want them? Perhaps you'd like to list the names of others in your household who receive calls frequently. Or have your name listed with your business telephone number. Or provide a special listing for business "Night, Sunday and Holiday" calls. There's still time to do it—and you'll enjoy greater telephone convenience at very little cost.

The Yellow Pages are closing, too!

If you're a businessman, remember that nine out of ten people use the Yellow Pages to find "where to buy." So be sure you're properly represented in the places they'll look when they're ready to buy your goods or services. If you haven't already arranged for your advertising in the Yellow Pages, we'll be glad to help you choose a size, design and message that fits your business.

Just call our Business Office.
