

Scheduled for Next 3 Years

\$51-Million OU Building Plan Outlined

By PAT MCCARTY

A \$51-million building program at Oakland University — all to be started within the next three years — was outlined today by OU Chancellor Durward B. Varner.

The program detailed by Varner in a speech at the Elks Temple includes \$22.5 million for new academic facilities and

\$12.5 million to build dormitories for another 2,016 students.

Also scheduled is construction of a \$5-million concert hall, a \$2-million theater, \$1-million student health center, \$2.5-million conference center, \$1.5-million addition to Oakland Center and a \$4-million heating plant.

"Much of this is committed," Varner said. "The balance is a

combination of reasonable assurances and realistic projections — but always contingent on factors beyond our control."

Varner said the construction program would involve "three-way development," based on legislative appropriations, self-liquidating projects and gifts and grants.

The chancellor said the Legislature has committed itself to

spend \$9 million for new construction and has agreed to finance the planning for another \$10 million worth of construction.

He suggested that the Legislature might back \$26 million worth of construction and that \$15.5 million worth could be self-liquidating projects financed by fees and other income.

The university would hope to raise \$9.5 million through gifts and grants from foundations, institutions, corporations and individuals, Varner said.

By 1969, OU's 10th year of operation, it will have an enrollment of 5,990, Varner predicted. The projected enrollment for 10 years beyond that is 20,090.

Noting that the projections

might seem "shocking," Varner reminded his audience that Michigan State University, with which OU is affiliated, has shown a similar pattern of growth.

Michigan's rapid population growth has been an "overriding factor" in higher education in the state, he said.

Next year, MSU is expected to enroll 38,000 students, the

University of Michigan 23,000, Wayne State University 30,000 and Western Michigan University 18,000, Varner noted.

"Within 10 years, college enrollment in the state will double — if we can handle it," he said. "This involves some serious problems."

ALTERNATIVES

One of the alternatives is to expand the state's community college system, Varner said.

"We are pleased with the dramatic beginnings of Oakland Community College, and we hope Wayne County follows suit," he said.

However, Varner noted that community colleges "might even aggravate the pressure" on the four-year institutions.

Although they relieve pressure for the first two years, they encourage higher enrollments by making college educations available to more students, he said.

CLOSE THE DOORS

"Another alternative is to close the doors and say we simply can't accommodate any more," Varner said. "This is intolerable for all the people of Michigan, because we're talking about your and my children."

The chancellor suggested that the answer to higher education problems might be "to develop, build and expand new campuses."

"There is a kind of inevitability about the role of Oakland University," he said. "This is not necessarily our goal, but a fact of life."

The buildings he envisions will be started within the next 36 months. They will be completed and in operation within five years, he said.

NEXT 12 MONTHS

To be started in the next 12 months is some \$17.5-million worth of construction.

This will include a \$5-million engineering — biology building to be the second structure in a proposed science — engineering quadrangle.

A \$4-million classroom — office building has been designed for general use but will have special facilities for the fine and performing arts.

Built in conjunction with that will be a \$2-million theater with capacity for 1,250 persons.

TO HOUSE 616

A \$3.5-million dormitory also will be started to house 616 students.

Other construction will include a \$1.5-million addition to Oakland Center, a \$1-million student health center and \$500,000 worth of work to complete the intramural building and expand the sports and recreation field.

The \$15-million worth of construction planned for 1967-68 includes a \$6-million classroom — office building for the School of Education and division of social science, a \$4-million heating plant and distribution system and a \$5-million dormitory to house about 800 students.

During 1968-69, some \$18.5-

Pension Issue Tops City Ballot

Pontiac voters Tuesday will decide whether full-time elected city officials can join the city's general employee pension plan.

Primary ballots will be headed by a proposal to amend the City Charter to permit the specified officials to join the pension program.

At the present time the city has only two full-time elected officials which would be affected by the charter change, if approved. These are the two Municipal Court judges, who initiated the present ballot proposal.

City voters will be asked to vote "for" or "against" the charter amendment, which also would permit retroactive pension service credit to Dec. 31, 1965, if the officials make up their contributions.

In other words, the judges, in this case, would be permitted to join the pension plan, make payment for any past service as far back as the 1945 date, and then when they retire receive full pension benefits for their corresponding time of service.

The pension proposal was put on Tuesday's ballot sheet by ballot by action of the City Commission. A simple majority vote is needed to approve the amendment.

The only full-time elected officials on the city payroll, the Municipal Court judges are elected for six-year terms. Both incumbents were reelected earlier this spring.

The machines are locked once the party lever is activated.

Murphy noted that unlike the other candidates who will only be nominated to run in the Nov. 8 general election, the precinct delegates are being elected at this time.

Johnson Urges Fast Settlement of Air Strike

President Feels That Negotiators Close to Reaching Agreement

WASHINGTON (UPI)—President Johnson today personally urged airline strike negotiators to reach a prompt agreement and later said he did not think they were far apart.

Amid reports that a break might be imminent in the three-week strike of five major airlines, Sen. Wayne Morse, D-Ore., sponsor of a strike-ending bill said there was "a good chance" for a quick agreement.

Sources close to the negotiations predicted a settlement announcement later today. A settlement today could get the five struck carriers off the ground as early as next Tuesday.

Johnson met for half an hour at the White House with the union and management negotiators then sent them next door to the executive office building to resume talks.

Later, while chatting with Secretary of State Dean Rusk outside the White House, Johnson was overheard to tell Rusk that the negotiators "aren't too far apart."

HOLD CONGRESSIONAL ACTION

"I just told them," he related to Rusk, they could negotiate this better than Congress or the President.

On Capitol Hill the prospects of a voluntary settlement appeared so encouraging to the Senate Labor Committee that it decided to mark time before sending to the floor a bill, originated by Morse, aimed at halting the strike.

The resolution was modified — under Morse's protest — to give Johnson broad discretionary power to order strikers back to work for up to 180 days if no settlement was reached.

GREETINGS AT WHITE HOUSE — President Johnson and Prime Minister Harold Wilson of Great Britain stride toward each other with hands extended as the latter arrived today at the White House. Wilson is on a one-day visit to Washington.

Bombing of North Viet Is Heaviest of the War

SAIGON, South Viet Nam (AP)—American pilots gave North Viet Nam its heaviest pounding of the war yesterday with more than 375 strike sorties against targets from the 17th Parallel to a missile site near Haiphong.

The cost was one Navy jet shot down by ground fire. The Reds fired only three of their Soviet-built surface-to-air missiles, and all missed, a U.S. military spokesman said.

Clearing weather and a heavy concentration of Navy planes and Marine aircraft which started flying bombing raids against North Viet Nam 10 days ago enabled the Americans to send up about 40 more sorties than had previously been flown in one day against the North.

A sortie is one attack flight by one plane.

A military spokesman said the record number of attacks again concentrated on supply targets and Communist fuel supplies and blasted 13 petroleum dumps.

The U.S. command announced previously that an A4 Skyhawk and its pilot from the carrier Oriskany were missing on a raid yesterday near Vinh, 140 miles above the 17th Parallel.

Another carrier-based Skyhawk went down near Vinh today, the spokesman said. No parachute was sighted and the pilot was listed as missing.

It was the 312th U.S. plane reported lost over North Viet Nam.

Hanoi Radio claimed three down near Vinh today and some pilots captured.

Despite the record strike, only three Soviet-built surface-to-air missiles were sighted. All

Sniper Threat Delays Wilson

Prime Minister in D. C. for LBJ Talk

WASHINGTON (UPI) — A sniper scare today caused Prime Minister Harold Wilson to be 15 minutes late for the start of a White House conference with President Johnson, a British spokesman disclosed.

The spokesman said a man was reported seen this morning in the vicinity of Blair House, where Wilson spent the night, carrying what appeared to be a wrapped-up rifle.

A search of nearby office buildings turned up no evidence of the man or a weapon, however.

Wilson arrived here by plane from London late last night and spent the night at Blair House, the President's guest house for foreign visitors across Pennsylvania Avenue from the White House.

The prime minister and the President were scheduled to meet at 10 a.m. EST in the west wing offices of the chief executive.

Great Work, Weatherman!

Three cheers for the weatherman!

He's forecasting fair and cool tonight and sunny and continued pleasant tomorrow. Temperatures will be in the high 80s and low 90s.

Here is the day-by-day breakdown:

FRIDAY — Mostly sunny, cooler and less humid today.

HIGH 78 to 84. Fair and cool tonight with lows of 55 to 60.

SATURDAY — Sunny and continued pleasant with highs registering 78 to 84.

It Takes No Effort!

To make your vacation a perfect one, all you have to do is phone 332-8181 and have The Pontiac Press sent to your vacation address.

5 Planes Hunt for Crashed U2

PANAMA (AP)—Five U.S. Air Force search planes took off today to look for a high flying U-2 reconnaissance aircraft that apparently

flew from Florida with its pilot unconscious until it crashed south of Panama.

The U2, with Capt. Robert D. Hickman, 35, of Alexandria, La., at the controls, left Barksdale, La., Air Force Base Thursday on what a spokesman said was a routine mission.

Apparently, the pilot lost consciousness from lack of oxygen when something went wrong with his equipment high over the Florida area.

The search planes carried paramedic teams and special radar equipment. They ordinarily are used for picking up astronauts.

The U2 was believed to have been on automatic pilot and thus flew a straight line course from Florida to Panama.

It was estimated that the plane's fuel was exhausted by midafternoon.

The last radio contact with

the pilot was while he was on a southerly course off the coast of Florida.

He was supposed to turn east or west between Sarasota and Key West but did not.

"The assumption is that the pilot lost consciousness, possibly due to anoxia (lack of oxygen)," the Pentagon said.

A U2 Plane Like This One Is Lost

The statement added that the aircraft was "under apparent control of the automatic pilot."

A Defense Department spokesman said the last radar contact with the plane was over Panama. U.S. military sources in Panama said efforts to raise Hickman by radio were fruitless.

Chancellor Varner Details \$51-Million OU Program

(Continued From Page One)

million worth of construction will be started on campus.

3,000-SEAT HALL.

A 3,000-seat concert hall costing about \$5 million is a feature of plans for the third year. Also to be started then is a \$2.5-million conference center to be the "point of focus for the community — an outgrowth of Mott Center."

Other buildings to be started in 1968-69 are a \$4-million science building, a \$4-million dormitory for about 600 students and a \$3-million major addition to the library.

The library expansion will provide services for an enrollment of 10,000 to 12,000, Varner said.

Varner traced the history of the university which was founded in 1867 with the announcement of a \$2-million gift from the Alfred C. Wilsons.

BROKE GROUND

"On May 2, 1958 we broke ground in a pasture, and on Sept. 17, 1959 we welcomed our first students," he said.

There were 570 students and 22 faculty members on campus for the first year of operation.

The university's enrollment is expected to be 3,400 this fall, when there will be 175 faculty members.

It is operating in an \$18-million physical plant, Varner said.

OU Is Visited by 16 From N. Carolina

A delegation of 16 persons from Charlotte, N.C., yesterday visited the Pontiac area to get some firsthand information on Oakland University's advances in the performing arts.

The group made the trip to determine how OU's experiences could be utilized at the University of North Carolina.

Among the visitors were three company presidents, four architects, student leaders and faculty members.

They toured the campus and were briefed by OU Chancellor Durward B. Varner on OU's successful Meadow Brook Musical Festival, the Meadow Brook School of Music and plans for the Academy of Dramatic Art and the John Fernald Company of the Meadow Brook Theatre.

'No China Ties'

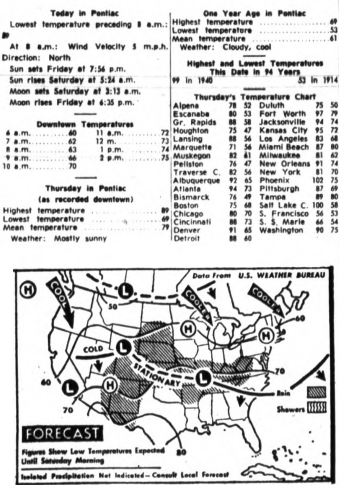

BONN (UPI) — Chancellor Ludwig Erhard declared today West Germany had no intention of seeking diplomatic relations with Communist China.

On behalf of OU, Varner presented an illuminated scroll bearing a statement of appreciation to Harold A. Fitzgerald, Pontiac Press publisher and president of the Oakland University Foundation.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY—Mostly sunny, cooler and less humid today. Highs 78 to 84. Fair and cool tonight, lows 55 to 60. Saturday sunny and continued pleasant, high 78 to 84. Northerly winds 8 to 10 miles becoming northeast high 78 to 84. Sunday's outlook: Partly cloudy and a little warmer. Precipitation probabilities—less than 5 per cent today; tonight and Saturday.

NATIONAL WEATHER—Tonight's weather will be rainy over parts of the Plains, Rockies, southern Appalachians and the Mississippi and Tennessee valleys. It will be cooler in northern New England, the Lakes region and the central Mississippi Valley. There will be little temperature change elsewhere in the nation.

EVACUATE CONG SUSPECTS — Two soldiers of the U. S. 25th Division push two Viet Cong suspects, one a woman (left), toward an evacuation helicopter which will carry them to an interrogation point. The suspects were taken recently on a search operation northwest of the division's base camp Cu Chi. The woman had a picture of her Viet Cong boyfriend and was taken in for questioning.

Nigerian Mutiny Reported in Communiques to Britain

LONDON (AP) — Official reports reaching the British government today said units of the Nigerian army have mutinied in the Lagos area, with some fighting under way.

A plot to topple the military regime of Gen. Johnson Aguiyi Ironsi was prematurely exposed, according to first dispatches.

This was said to have touched off clashes at the garrison of Abeokuta, where pro-Ironsi troops moved in against the mutineers.

Disturbances, nevertheless, spread swiftly toward the capital of Lagos, 50 miles southeast, and unofficial accounts later indicated that the airport on the city outskirts fell to the dissidents.

'PLANES GROUNDED'

British Overseas Airways Corp. announced in London it had heard all planes were grounded at Lagos Airport.

First word of the trouble reached the Commonwealth Relations Office from the British high commission in Lagos. Few details were available.

Signs of simmering opposition to the regime of 41-year-old Ironsi developed soon after his junta of junior officers seized power earlier this year, killing, among other leaders, Nigerian Prime Minister Sir Abubakar Tafawa Balewa.

Old tribal rivalries laced with economic and social difficulties lie behind persistent Nigerian instability. On top of these factors are the religious and geographic differences, which have made Africa's biggest — 50-million-strong — nation a mosaic of hostilities.

JU-JU WORSHIPERS

There are Moslems, Christians, pagans and Ju-Ju worshippers among the scattered people. Moves by Ironsi to bring Nigerian federalism to an end aroused the suspicions of the Northern Hausas that their old foes the Ibo may emerge on top. Ironsi is an Ibo.

The Commonwealth Relations Office heard unofficially that fighting has flared in the region of Lagos Airport, which lies between the city and Abeokuta.

In the capital, which at least initially seemed quiet, armed guards took up positions around Ironsi's headquarters and other key governmental centers, including the broadcasting and communications buildings.

Army patrols sought would-be troublemakers.

Pacific Hunt for Stilwell to Be Ended

SAN FRANCISCO (AP) — The search in the Pacific for Brig. Gen. Joseph W. Stilwell and two companions will end at nightfall today unless something is found to warrant an extension.

Navy units suspended their search Thursday night.

Navy and Coast Guard ships have covered 129,000 square miles since Sunday, when the pilot of the DC3 plane reported one engine out 525 miles south-west of San Francisco.

HEADED GREEN BERETS

The plane was to have been delivered to the Thailand air force.

Stilwell, 54, was commander of the Army's Green Beret troop training center at Ft. Bragg, N.C.

He joined the crew on the Honolulu leg of the flight to gain instrument flying time. His companions were Hal Grimes of Pacific Palisades, Calif., the pilot; and Harold Fossum of Montclair, Calif.

Frenchman Tells of Trek

(EDITOR'S NOTE — Jean Pierre Marquet, 28, an ex-paratrooper with the French army, completed yesterday a 7-day, 103-mile hike through Death Valley. He tells of his reactions in this story for the Associated Press.)

By JEAN PIERRE MARQUET

As Told to the Associated Press

LOS ANGELES — I decided last May to do this adventure and I trained very hard for it.

I spent about a month in Casinos on the Las Vegas Strip — I'm joking — and trained for six days in Death Valley, getting my body ready for the summer heat.

In a desert like this you get very, very hot, and the first day, I think I want to give up. I cannot breathe you see. And your body dries out very, very fast.

I first noticed the effects of the heat about three or four in the afternoon of the first day, that would be Thursday, when the sands had been burnt by the sun all day.

Nighttime is all right on the desert, but late afternoons ev-

Bronson, Parris Receive Awards From Prosecutors

Prosecutors S. Jerome Bronson of Oakland County and George Parris of Macomb County yesterday received awards from the Prosecuting Attorneys Association of Michigan for outstanding service to the advancement of criminal jurisprudence.

They were among six members of the association receiving the award at the group's annual convention being held on Mackinac Island.

Others honored were Robert Leonard, Genesee County prosecutor; David Bailey, Manistee County prosecutor; Lee Makl of St. Johns, an assistant attorney general; and Samuel Torma, Wayne County appellate court division.

Gov. George Romney was to address the convention tonight.

Millage Hikes, Full Slate of Candidates on Ballot

BLOOMFIELD TOWNSHIP — Voters in Tuesday's primary election will be asked to approve two millage increase proposals as well as a full slate of candidates for township offices.

Local police and firemen and the newly formed Citizens for Essential Services Committee have been campaigning hard in recent weeks to win passage for the levy hikes.

They maintain the extra millage is vital to the safety and welfare of the community.

The two proposals are:

- An increase of 1.3 mills in the tax rate for one year and 2.8 mills for 10 years for the continuation of fire, police and other protective services.
- An increase in the tax rate by 1/4 mill for one year and 1 mill for 10 years for continued highway construction and maintenance.

Candidates who will be on the primary ballot for township offices are the following:

Supervisor — Homer Case, incumbent (R).

Clerk — Deloris V. Little, incumbent (R).

Treasurer — Arno L. Hulet, incumbent (R).

Trustees — Robert A. Reid, incumbent (R); Robert M. Sinclair, incumbent (R) (Two to be elected.)

Constable — Karl E. Rhodes, incumbent (R); Richard A. Golden, 1875 Lakewood, (R). (Two to be elected.)

Library Board — Joseph H. Loving, incumbent (R); Ann W. Sheldon, incumbent (R); and John C. Slegemund Jr., 315 Hupp Cross, (R). (Three to be elected.)

Township Party Committee — Homer Case, incumbent (R); Arno L. Hulet, incumbent (R); Deloris V. Little, incumbent (R). (Three to be elected.)

BLOOMFIELD HILLS — Dennis Jones will present a non-partisan ballot at 4 p.m., Aug. 7, on the \$2-bell carillon of Christ Church Cranbrook.

Jones studied carillon for three years at Michigan State University and is a member of the select Guild of Carillonneurs of North America.

Concert-goers may sit in their cars or on the church lawn to hear the recital which is open to the public free of charge.

Man Arraigned in City Slaying

Held Without Bond on First-Degree Charge

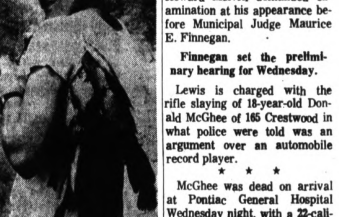

A 23-year-old Pontiac man is held without bond at the Oakland County Jail following his arraignment yesterday on a charge of first-degree murder.

Curtis Lewis Jr., 23, of 353 Howard McNeil demanded examination at his appearance before Municipal Judge Maurice E. Pinnegan.

Pinnegan set the preliminary hearing for Wednesday.

Lewis is charged with the rifle slaying of 18-year-old Donald McGhee of 165 Crestwood in what police were told was an argument over an automobile record player.

McGhee was dead on arrival at Pontiac General Hospital Wednesday night, with a 23-caliber bullet wound in the neck.

Stiff British Plan for Price-Wage Freeze Detailed

LONDON (AP) — The British government today announced a massive plan for a prices and wages freeze to be fully enforced by law.

The economic policy is stiffer than any imposed on prices and wages in World War II or in the years that followed.

The proposals designed to save the pound sterling were promptly assailed by industry leaders and were grumbling from unions.

There will be a general standstill on prices and incomes until the end of this year, followed by a six-month period of "severe restraint."

FISH STORY — A mixed batch of fish is the prize for Chris Sykes, 14, son of Mr. and Mrs. Robert S. Sykes of 5165 Virgil Lane, West Bloomfield Township. Using worms as bait, Chris took 45 minutes to catch these fish in Orchard Lake.

Thant, Brezhnev Discuss World Affairs

MOSCOW (AP)—U.N. Secretary General U Thant took up international problems in a meeting with the Soviet Communist party, Leonid I. Brezhnev.

A brief official announcement said that U.N. activities were also discussed. It said the talk "was marked by a warm and friendly atmosphere" but gave no further details.

It was the first meeting between Thant and Brezhnev, who is considered the most powerful in the Soviet collective leadership.

Thant has said repeatedly since his arrival in Moscow Monday that he regards the international situation as grave.

During the last 27 years, continual dredging of the Suez Canal has removed over a billion and a half cubic feet of sand and rock—nearly six times as much as the original excavation.

BIG BOULDER — Workers uncovered this leftover from the ice age when they began clearing land for a new engineering facility at the General Motors Proving Ground in Milford Township. Two bulldozers were required to move the glacial boulder which is 35 feet in circumference and 10½ feet tall. General Motors may leave the boulder in its present location and landscape around it.

Utica School Contracts Due

UTICA — Contracts for the construction of the Adlai Stevenson High School will be awarded Monday by the Utica Board of Education.

Bids on the project were opened last night, with the low figure \$2,924,215, under the total budgeted by the school board for the 1,800 student facility, according to Schools Supt. Philip E. Runkel.

"We're extremely elated with the bids," said Runkel, explaining that the names of the low bidders will be withheld until the contracts are awarded.

Runkel said that the school board had planned on paying \$20 a square foot for the school, and that the low bids represent less than \$18 a square foot.

Construction of the school in Sterling Township, Dodge Park Road near Utica Road, will get under way in mid-August, said Runkel, with completion scheduled by December 1967.

The low bid, he said, means a substantial saving to the taxpayer, "and was accomplished with good planning."

Runkel said that the school board had planned on paying \$20 a square foot for the school, and that the low bids represent less than \$18 a square foot.

Construction of the school in Sterling Township, Dodge Park Road near Utica Road, will get under way in mid-August, said Runkel, with completion scheduled by December 1967.

Refuse Woes Are Discussed

OXFORD TOWNSHIP — Township officials are still searching for an answer to their refuse disposal problems.

The problems were discussed at a meeting this week with representatives of the state and county health departments, the State Department of Conservation, the Oakland County Drain Commission office, and the three gravel mining companies operating in the township.

Results of the meeting, which was called to discuss the feasibility of using gravel pits for refuse disposal, were inconclusive, according to Township Supervisor Lee B. Valentine.

"There is still a lot of investigation and research necessary before we arrive at any satisfactory conclusions," he said.

Township officials are fighting a proposal which would dump the refuse of Wayne and Oakland counties into abandoned pits north of the village of Oxford.

Results of the meeting, which was called to discuss the feasibility of using gravel pits for refuse disposal, were inconclusive, according to Township Supervisor Lee B. Valentine.

"There is still a lot of investigation and research necessary before we arrive at any satisfactory conclusions," he said.

3 to Complete Nature Course

Three area residents today are to complete the eighth annual Nature Interpretation Workshop course at the Nature Center of Kensington Metropolitan Park near Milford.

Participating in the three-week program were Mrs. Don-amae R. York of 1655 Oltesuig, Highland Township, a teacher at Johnson Elementary School, Milford; Mrs. Eunice L. Martin of 4463 Brookwood, Northville, a teacher at Main Street School, Northville; and Mrs. Mary S. Nicholl of 82 Illinois in Pontiac.

UAW: Ford Ignoring State Labor for Jobs

DETROIT (AP)—Ford Motor Co. is ignoring unemployed Michigan workers while seeking labor from outside the state, a United Auto Workers Union official charged Thursday.

Ken Bannon, UAW Ford Department director, said Ford's recruitment for its Wixom, Mich., plant has passed over unemployed Negroes and women in the plant area.

"In the immediate plant area, there is personnel available, and I am referring particularly to unemployed Negroes and unemployed women whom your recruiters have apparently ignored," Bannon said in a letter to Manton M. Cummins, Ford director of labor affairs.

IF PROVED

Bannon said Ford "made some rather loose promises" in its out-of-state recruiting which have "resulted in great dissatisfaction and discomfort among the new work force."

Bannon said if there is discrimination in hiring, "the company would be subject to a charge of violation of Title VII of the Civil Rights Act."

A Ford spokesman said, "We have no specific comment to make on the letter itself."

He added, however, "Ford Motor Co. has recruited approximately 500 employees from the Appalachia region as part of 1,200 employees needed for expanded operation at the Wixom Assembly Plant."

"The company recruited extensively in the Detroit area for employees who could report to work at the Wixom plant for the July 18 starting date of expanded operations."

"When sufficient employees could not be found the company followed regular public employment agency channels in recruiting in other parts of Michigan and out of Michigan."

Dedication of the historical marker will highlight the annual meeting of the Sashabaw Cemetery Association at 1:30 p.m. tomorrow at Sashabaw Presbyterian Church.

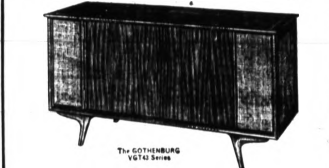

A potluck lunch will precede the ceremony at noon, followed by the association's annual business meeting.

Although the first known burial at the cemetery was made in 1836, the association itself was not organized until 1949.

Residents organized that year for the purpose of "fencing, improving, ornamenting and keeping the burying ground in proper repair."

Since its inception the association, which consists of cemetery lot owners and relatives of those buried there, has maintained and expanded the cemetery.

Board to Get School Plans

Elementary Facility Due 20 Classrooms

FARMINGTON — Architects' plans for the new Forest Elementary School will be submitted to the board of education Monday.

If final approval is given to the design, the board is expected to begin taking bids for construction near Aug. 23, according to Asst. Schools Supt. James M. Read.

The plans, drawn up by the firm of Ralls, Hamill and Decker, Livonia, provide for 20 classrooms, able to accommodate 540 full-time students plus 120 half-day session kindergarten, said Read.

The new facility will draw youngsters from an area bounded on the north by 14 Mile Road, on the south by 13 Mile Road, and by Farmington and Drake roads on the east and west respectively.

A permanent road has yet to be built to the site.

COST OF \$700,000

Byron Olive, administrative assistant, estimated that the school would run close to \$700,000.

Funds for the project have already been provided, noted Olive, by the passage of bond issue proposal on the ballot last November.

If construction work proceeds according to schedule, Read said, he expected the school to be in operation by September of next year.

Teachers, Board Near Agreement

MILFORD — An agreement on details of the latest salary schedule proposal.

SALARY RANGE

The original 65 per cent pattern called for salaries ranging from \$6,000 to a maximum of \$12,000.

Neil H. Davis, president of the HVEA, said that a meeting of the two sides Wednesday has given both negotiating teams "genuine cause for optimism."

The teachers have indicated previously that they will not start work in the fall without a master contract.

The teachers, he noted, have reduced their salary demands in recent weeks to the point where they are now asking for 50 to 60 per cent of the board's total operating money for the 1966-67 school year.

Originally the HVEA had requested 65 per cent of the board funds, the figure recommended by the Michigan Education Association for the region.

The teachers, he noted, have reduced their salary demands in recent weeks to the point where they are now asking for 50 to 60 per cent of the board's total operating money for the 1966-67 school year.

Originally the HVEA had requested 65 per cent of the board funds, the figure recommended by the Michigan Education Association for the region.

NEAR MINIMUM

Davis maintained that the association's latest salary proposal would be about the minimum they would accept.

He added, however, that he believed the board's reaction to it was favorable.

Salaries now start at \$5,300 for beginning teachers with bachelor's degrees and scale up to a maximum of \$7,800 for teachers with a master's degree and 10 years experience in the school system.

The HVEA head said he preferred to remain noncommittal.

Lake Levels Dip

DETROIT (UPI) — The water level in the Great Lakes, while remaining as much as 10 inches higher than last year, fell during the past month and will continue to drop during August.

The U.S. Army Corps of Engineers reported yesterday that the lakes, which fell from 1-3 inches during July, probably will drop another 1-3 inches next month.

Price of Viet War Paid Twice by Girl

READING, Mass. (AP) — "The Communists have to be stopped somehow by someone," says a young Reading girl who has paid a high personal price—her fiancé and a brother killed a month apart in Viet Nam.

Saturday, Diane Croce, 22, will attend the funeral of her brother, Robert, 20, a Marine lance corporal who was killed July 15, four days after he arrived in Viet Nam.

On July 8, Diane saw the body of her fiancé, Navy corpsman George Cottrill, 20, buried in his home town of Chillicothe, Ohio. He was killed while serving with a Marine unit.

Cottrill and Diane met last July while he was stationed at the Chelsea Naval Hospital. They had planned to marry July 17.

She said they had a home picked out and were buying furniture when he got his order to go to Viet Nam. They postponed the wedding.

ANYWHERE HE WANTED

"We were going to live around here until he got out of the service," Diane said today recalling the plans "and then we would have lived anywhere he wanted to."

Diane's brother was a high school athlete who held the Massachusetts schoolboy record in the pole vault.

Car Safety Talks

EAST LANSING (AP)—Gov. George Romney and other state leaders will tell women's club leaders Aug. 4-6 what they should be doing to improve Michigan's traffic safety records. About 70 delegates from 40 women's organizations will hear Romney, Secretary of State James Hare, State Police Director Frederick Davids and Roy Hausler, chief engineer of Chrysler Corp.

Secret's Out: Romney Fatter

LANSING (UPI) — The secret's out.

Gov. George Romney has been putting on a little weight. Very little. Three pounds in 24 years, to be exact.

Romney, chuckling to newsmen about his recent checkup at Detroit's Ford Hospital that found him in excellent health, admitted he weighed in—with clothes—at 185 pounds, just three pounds over his first weigh-in at the hospital 24 years ago.

"But with that liquid diet they had me on down there for 2½ days, I've lost five of that," he said. "So I'm skinnier than I was 24 years ago."

For the record, the governor is 5 feet, 11 inches tall and his blood pressure is a "normal" 120/70. He turned 59 July 8, neither smokes nor drinks, and plays a lot of "escalated golf" to keep in trim.

The Soft Whiskey proving ground.

In this day and age of proving products scientifically, we have an unscientific suggestion. Taste ours. One sip and you'll know why we couldn't possibly call it anything but Soft Whiskey.

You see, Soft Whiskey is soft. It goes down just like the name says.

After that, it acts like any other 86 proof whiskey. It's just that getting there is a whole lot easier.

But how to prove that to you? That was the problem.

After all, Soft Whiskey looks like any other whiskey. And it acts like any other whiskey. So what's left is what we're selling, the way Soft Whiskey goes down.

At which point someone said: "Why not just ask people to try it?"

Our first reaction was that that was a bad idea. It wasn't scientific.

Our second reaction was that that was a good idea.

New Apartment Project for Area

A magnificent development shapes up for the Pontiac area. It takes the form of an announcement, by the Biltmore Development Co. of an \$18-million apartment design embracing a 113-acre tract on East South Boulevard. Initially blueprinted for 270 apartment units, the development will eventually expand to 1,000. The residential concept is a comprehensive one, envisioning the creation of a 12-acre lake for recreational pursuits. Nothing could provide better proof of the attractiveness of the Pontiac area for investment capital than the many building projects recently completed or under way. The vision of those of us fortunate enough to live in one of the Nation's most progressive and fast-growing areas may at times be obscured by the trees in viewing the forest; but to outsiders with a practical and objective outlook, Pontiac beckons with the finger of promise. We welcome the developers of South Boulevard Apartments to our community and wish them a full measure of success in their undertaking.

U. S. Dominican Republic Role Wins Approval

Not all our acts of intervention in the affairs of other nations, motivated by self-interest, lay eggs. One that can be chalked up on the credit side was the U.S. involvement in the Dominican Republic uprising last year. A study of that action made by Georgetown's Center for Strategic Studies, headed by Adm. ARLEIGH BURKE, former Chief of Naval Operations, lists four objectives that impelled the United States to send armed forces to Santo Domingo, all of which were attained: Protecting American and other foreign lives. Halting violence. Preventing Red seizure of power. Giving Dominicans the option of choosing leaders in a free election. On the role of the Communists in the revolt, the study found that they had a coup planned for a later date and were surprised by the timing of the rebellion. But, the report says, the Communists quickly assumed a leading role, and "progress in the Communist effort to dominate the revolt became increasingly evident." But U.S. policy is criticized on two counts. The analysis says the U.S. should have gone to the Organization of American States earlier, and should have explained its action better. Well, maybe. But the Dominican crisis clearly called for action, not debate — and Uncle Sam's traditional role of getting there "with too little and too late" was superbly reversed.

Do You Sound the 'I' or 'E' in 'Either'?

When you are driving along U.S. 66, do you say you are on "root" 66 or "rout" 66? When your Aunt Minnie talks about that Caribbean cruise she took does she pronounce it "Car-IBEE-an" or "Car-RIB-een"? Should the "Nam" in Viet Nam rhyme with "Sam" or "Tom"? Whichever way you go, you'll have plenty of company. Almost any word is, of course, occasionally mispronounced by someone. But certain words are consistently and unhesitatingly given varying pronunciations — and by such personages as public speakers, news commentators and high government officials whose stature would seem to qualify them as authorities. In the examples above, the dictionary gives the nod to "root," "Car-IBEE-an" and the "Tom" sound. But its suggestions seem to be widely unobserved. Admittedly, this is not one of the Nation's bigger problems. But it would be nice if some way could be found to fix upon one generally recognized pronunciation for words used frequently by many people. Until then, it appears we shall have to go on wondering if our own pronunciation may stamp us as being linguistically decadent — or is it "DEK-a-dent," as the confident speaker so often says?

Ky---Effective but Offensive

By BARRY SCHWEID WASHINGTON (AP) — By proposing an invasion of North Viet Nam and a confrontation with Communist China, South Viet Nam Premier Nguyen Cao Ky has demonstrated anew that he has a special talent for offending Western sensibilities. Following Ky's advice would be an abomination, declared Sen. Mike Mansfield, the usually mild-mannered Senate Democratic leader. Administration spokesmen reacted firmly, though with considerable restraint. "Our position of not seeking any wider war has been repeatedly made clear and remains our position," said Robert J. McCloskey, State Department press officer. "We do not seek to threaten any regime." "The President's views on not wanting a wider war are pretty well-known," said Bill D. Moyers, White House press secretary. Clearly, once again, Ky and official Washington were at cross-purposes, though the measure of stability the slender, 35-year-old pilot has achieved in Saigon is considered a blessing here. In April 1965, two months before Ky became premier, he questioned the effectiveness of air strikes against highways, railroads and bridges in the North and proposed South Viet Nam's land forces move into the North. "If we are just going to bomb communications lines, the Viet Cong will be able to stand up for a long time, I'm afraid," he said. "So the next step must be big, either a big escalation of the war or negotiations." Though President Johnson varied the bombing pattern last June, 14 months later, to strike at oil depots in the North, Ky's call for moving South Vietnamese forces across the 17th Parallel never has been followed. Earlier, in October 1964, Ky kicked off a storm by telling the London Sunday Mirror: ADMIRERS HITLER "People ask me who my heroes are. I have only one — Hitler. I admire Hitler because he pulled his country together when it was in terrible state in the early '30s. But the situation here is so desperate that one man would not be enough. We need four or five Hitlers in Viet Nam." The British government informed the press in July 1965, a month after he became premier, Ky's office said he had been referring to Hitler's qualities of discipline and hadn't intended to praise Hitler in general. There are several possible explanations of Ky's pronouncements and policy divergences from Washington. One may lie in his comparative youth, nationalism and military background. Certainly they have the effect of demonstrating that he is not Washington's puppet, that no matter how large the United States' involvement, it is South Viet Nam's independence that is at stake in the war. (Lester Kroll to AP.)

'Lover, Come Back To Me!'

David Lawrence Says:

Voter Unrest Symptoms Evident

WASHINGTON — "Inflation" is talked about in politics as a source of concern among the voters. What really counts is voter discontent due to a variety of causes. When there are "good times" being experienced by the citizen, the party in power claims the credit. Inevitably, therefore, when economic conditions take a turn for the worse, the incumbent party is likely to be hurt at the polls. children to be transported by bus from their neighborhoods to distant schools is a source of much resentment. While the Republicans have by no means taken clear-cut positions on many of these issues, history shows that the tendency of the discontented voter is to cast his ballot against candidates of the party in power. The theory is that he can then trust to the good sense of the winning candidates to realize that the discontented voter will have another chance to express himself against incumbent officeholders in the next election two years hence if the warning signs have not been heeded. (Copyright, 1966, Publishers Newspaper Syndicate)

Bob Considine Says:

Japanese Executioners in WW II Paid for Acts

NEW YORK — On Aug. 9, 1945, a delirious American fierer was near death from starvation in a Peking prison. Sgt. Jacob De Shazer was one of eight airmen captured by the Japanese in China after they had bombed Tokyo and several other Japanese cities in the Doolittle raid of April 18, 1942. Three of the eight men were executed by a Japanese firing squad, another died of malnutrition, and the four survivors — including De Shazer — could not last much longer. The captors and torturers had been put on notice by President Roosevelt that they would be found after the war and put on trial. The manhunt for Japanese responsible for the deaths and mistreatment of the airmen got under way immediately after the signing of surrender papers. TRY TO ESCAPE In one last-minute effort to escape punishment, the names of urns containing the ashes of Lts. Dean Hallmark, William Farrow and Sgt. Harold Spatz were changed to "J. Smith," "H. E. Gande" and "E. L. Brister." But U.S. investigators cut through this ruse and by February 1946 were prepared to put on trial Lt. Gen. Shigenori Kawada, who had been commanding general of the Japanese Imperial 12th Expeditionary Army in China; Capt. Ryuhel Okada, a member of the "four" that tried the fliers; Lt. Yusei Wako, prosecutor, and Capt. Sotajiro Tatsuta, warden and executioner. The jury found that the accused acted on orders from higher authority, "exercised no initiative to any marked degree."

Verbal Orchids

Mrs. Claude Selmes of 69 Ormsby, 82nd birthday. Mrs. Vera Fortune of 54 S. Shirley, 82nd birthday. Mr. and Mrs. Frank Evans of 401 S. Shirley, 54th wedding anniversary. Mr. and Mrs. George Fonger of White Lake Township, golden wedding anniversary. The effects of some strikes are largely confined to those directly involved. Other strikes, unfortunately, work real hardships on thousands and even millions of innocent bystanders. We already have laws which are supposed to prevent this. They seem to be blandly

Unqualified Groups Rate Candidates' Popularity

I resigned from the Board of Directors of the Oakland Citizens League in 1963 for a good many reasons; first among them being that I believed their method of rating candidates was totally inadequate. Many, in fact most, of the members of the Candidates Investigation Committee are not and have never been involved in politics or government. The Oakland Citizens League does not conduct study groups or distribute information to prepare its people to evaluate candidates. Consequently the ratings become a sort of popularity contest. The mathematical system of rating: 10 points for education, 15 points for experience and 75 points for the interview, means that a candidate is rated largely on "the cut of his jib." The August 2 primary is a vitally important election. No group of "citizens," unless properly qualified, should be allowed to purvey its choices as guidelines for Oakland County voters. MRS. EDWIN W. DEER BIRMINGHAM

Say Applause for Dr. Kozonis Unnecessary

We think a round of applause for Dr. Kozonis is unnecessary. The vast knowledge of this fine young M.D. is known throughout the state. Besides being a fine physician, he is an outstanding gentleman, dedicated to helping people. He is too wise and too busy to entertain petty thoughts. Michigan is fortunate to have Dr. Kozonis. MR. AND MRS. CARL W. VINSON 4240 PARKWAY

Both Osteopaths and Chiropractors Praised

My mother was a patient at Pontiac Osteopathic Hospital and had wonderful care. Had it not been for chiropractic treatment, some twenty years ago, I would not be standing straight today. I've also had the services of many osteopathic doctors and I can't condemn one of them. MRS. VIOLET WILKINSON UNION LAKE

Differing Views of Wildwood Park Rangers

I want to ask Vivian Carpenter what she and her family were doing to cause the Rangers at Wildwood Park to harass them? Rangers have more important duties than "breathing down the necks" of campers. Someone must have been doing something wrong. I would like her to try putting up with the people the Rangers have to deal with all summer. Perhaps she would be tempted to, "harass" some of them herself. A RANGER'S WIFE

Our family also has camped in many State parks. The Rangers at Wildwood Park are actually making it miserable for the camper. We're all for keeping it orderly but it gets ridiculous when the Rangers patrol the camp site and tell you what time to put out your campfire. All State parks are not this way, but the Rangers at Wildwood are downright unfair. CAROLYN AND EDWIN WEBER WATERFORD

Question and Answer

Is there a firm somewhere holding property, mortgages, etc., that rents houses on approval whereby your rent is accrued for a specified period and then applied as a down payment toward purchase of the property? I'd love a little house on half an acre or up in the suburbs and have paid enough rent to do so, but find it nearly impossible to pay rent and save anything, too. D.L.R. REPLY A check with local banks and savings and loan associations indicates this kind of arrangement is uncommon and you're most likely to find it with individuals, rather than financial institutions or business firms. If an owner is willing to do this, he can sell on a land contract setting any terms agreeable to both of you.

Reviewing Other Editorial Pages

even enthusiastically ignored. They also seem to be unenforceable. Surely, some way can be found to handle a problem as big as this. And the sooner, the better. Public patience is wearing thin. A Swingin' Time The Columbus Dispatch "She took a four-hour ride the first day on a dude ranch and spent the next four days in a hammock." A Loophole De Volkskrant, Amsterdam Under the leadership of the Soviet Union, the seven members of the pact of Warsaw have promised volunteers for the war in Viet Nam. This was announced in a communique in which the American policy was condemned in extremely sharp and strong words. However, the dispatch of volunteers was subject to one condition: Hanoi has to ask for them. This is, for more than one reason, the weak point. North Viet Nam's policy is still more in line with that of Peking than that of Moscow. It is even highly prob-

Florida to Try Doctor Indicted in 2 Killings

SARASOTA, Fla. (AP)—The governor of Florida has decided this state will be the first to try a physician charged with murder in both Florida and New Jersey.

Gov. Haydon Burns said Thursday Florida prefers to try Dr. Carl Coppolino here on an indictment that he killed his wife. A New Jersey grand jury has indicted Coppolino, 34, in the death of a male neighbor.

Burns said no formal request had been received from New Jersey authorities to turn Coppolino over, but if one comes, Burns would be disposed to honor it after the Florida court proceedings.

A Sarasota County grand jury indicted Coppolino Monday in the Aug. 28, 1965, death of Carmella Coppolino, 32, a physician herself and mother of Coppolino's two daughters.

'DRUG INJECTION'
The indictment charged that Coppolino killed his wife by injecting into her a drug called succinyl chloride, which causes fatal paralysis and which once was considered to be undetectable after death.

Last week, a grand jury in Monmouth County, N.J., indicted Coppolino in the death of retired Army Col. William E. Farber, 53, on July 30, 1963.

Both deaths were recorded as heart attacks. But authorities in New Jersey said an autopsy in Farber's exhumed body indicated death was caused by broken cartilage in the neck.

The autopsies were ordered after Farber's widow, Marjorie, 52, told the FBI that she was "suspicious" of the circumstances of the two deaths.

Both the Coppolinos and Mrs.

The bill would provide a uniform system for all judicial districts in which prospective jurors are drawn from a list of registered voters.

The bill also would provide that a person cannot be denied the right to serve on a federal jury because of his economic status, thereby ending so-called "blue ribbon" juries that function in some areas.

Judge Orders Powell to Pay

\$600 Is Due Weekly
in \$160,000 Libel Suit

NEW YORK (AP)—A judge has ordered Rep. Adam Clayton Powell, D-N.Y., to begin paying off in \$600 weekly installments a \$160,000 libel judgment against him.

State Supreme Court Justice Irving Saypol, commenting on the Harlem congressman's actions in the case, said: "The most that can be said for this debtor's misbehavior is that it reflects its own peculiar brand of civil disobedience."

Powell had refused to pay a three-year-old defamation of character judgment awarded Esther James, 68, a Harlem widow. The congressman had called her a "bag woman" or graft collector for corrupt policemen, on a television program.

He had originally been ordered in 1963 to pay an amended sum of \$46,500 to Mrs. James. Later, when the courts held he had lugged Puerto Rican assets to escape payment, the total rose, with interests and costs, to \$162,400.

Saypol Thursday ordered Powell to pay \$500 a week and his wife, Yvette, \$100. Their joint yearly income was placed by the court at \$66,000.

The judge declined, however, to punish Powell for contempt, ruling that a subpoena he did not answer was technically defective. Two other contempt citations against the congressman are still pending.

They relate to \$581 in lawyers costs owed Mrs. James attorney, and Powell's failure to pay damages growing out of his transfer of Puerto Rican property after the libel judgment.

Powell could conceivably be sent to jail on a motion before Justice Harry Frank who cited him for contempt last April.

Eugene Istomin Plays Piano at MB Festival

By BERNICE ROSENTHAL

The Meadow Brook Concerts continue to amaze and delight the most discriminating musical ear as the summer advances. At last night's concert, Eugene Istomin was heard as soloist in Beethoven's Third Piano Concerto.

A great artist in his own right, Istomin has been making music history with Leonard Rose, cellist, and Isaac Stern, violinist in inspired trio performances the last few weeks.

While exhibiting many of the amazing piano techniques of the great Radolf Serkin, with whom he studied, Istomin has developed his own creative style of playing, which, at least to this listener, goes beyond his teacher in control and purity of tone.

Istomin is an artist who has absolute command of his instrument. He has magnificent, full tone without harshness or bombast.

His classical, Mozartian approach was reinforced by the orchestra, under the direction of Sixten Ehrling, whose every attention to minute details was a joy to hear.

In programming this summer's concerts, Ehrling has maintained a fine combination of orchestral mainstays, interesting novelties, and rarely-heard works — an accent on the contemporary, which is as it should be.

His clipped, humorous rondo which ends the concerto, was a delight of trim staccatos, penetrating trills and rapid, even runs.

Always a pictorial delight, Respighi's "Fountains of Rome" was given a sensitive, spiritual performance. The "Fountains" had a lucid, transparent quality, yet orchestrally full and perfectly poised. Albert Tipton's flute solos were pure and heart-warming.

Two contemporary Scandinavian works, the Overture to "The Marionettes" by Rosenborg, and the Suite "Lacrezia" by Saeuerv, opened the program.

The overture was tuneful and charming, if rather inconsequential, but the Suite presented some interesting moments in unusual rhythms, atonal harmonies, and fresh orchestral color. The five movements accorded first one orchestral group and then another.

(Continued on Page B-2)

Dior Hems Are Lower

By LUCIE NOEL
AP Fashion Writer

PARIS (U) — The House of Dior lowered its boom on the short skirt craze today as designer Marc Bohan startled viewers with calf-length hems for fall and winter.

Bohan opened his collection with four models wearing wool greatcoats dropped to calf length. These were worn over knee-length, two-piece costumes or dresses.

In another treatment, the hemline dropped in ketchup points on one side. This motif ran through all crepe evening dresses, many cocktail dresses, and black numbers.

Bohan undoubtedly got his inspiration from Great Britain this year — Buckingham Palace, changing of the guard, everything except the busby. But there were no British mini-skirts.

Sword belts and scarlet uniform jackets worn with contrasting green or gray skirts went under those calf-length

greatcoats. He repeated the theme again and again in variations and color contrasts.

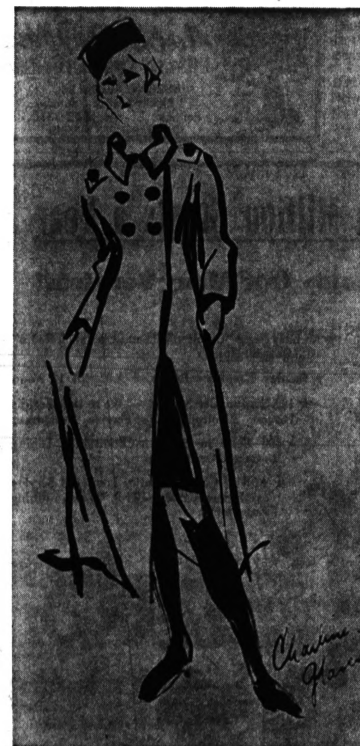

From Hyde Park, Bohan picked up nanny capes that were longer than calf length. For evening they dropped to the floor, but he did them for round the clock.

The focus this season moved from the knees to the arms. Now you see them. Now you don't.

Sleeves are all important. Bohan bared the top of the shoulder and did an infinitely varied story in slashing the sleeve, catching it again at intervals with diamond buttons or satin ribbon bows and ending it in a deep slashed medieval flounce.

The collection called forth cries of ecstasy and applause from the entire audience. It is probably the best Bohan has designed since he took over for Dior.

He has a wonderful pastel palette for evening. Tender, flattering shades are treated in bias crepes with terrific neckline interest.

The Christian Dior fashion house in Paris showed this Marc Bohan-designed greatcoat during the fall and winter presentations. The hemline drops to calf length. Bohan calls it "Tin Soldier" because of its military feeling. Observers believed it was inspired by a visit to Britain's Buckingham Palace.

WOMEN'S SECTION

Used Toaster Is Gift

Bride Gets Crummy Deal

By ABIGAIL VAN BUREN

DEAR ABBY: I was married for three long, unhappy years the first time. We divorced and then I married a wonderful man.

One of his relatives told us they were giving us a new toaster for a wedding gift. When it came, it was her old toaster. Her ex-husband they

ABBY

needed the double toaster because they had a family, and we needed only a single one. So she kept the new one and gave us her old one.

I was hurt inside, but I didn't say a word to anyone. My husband was furious, but he said, "Let's not start our marriage out with a fight in the family." Do you suppose that she thought that since I was secondhand all I was worth was a secondhand toaster?

Should I keep it, give it back to her, or wrap it up and give it to her daughter as a wedding gift. She'll be married soon.

BURNED UP
DEAR BURNED: Keep the toaster and help your husband avoid a family fight. It takes a well-bred person to overlook a crummy deal.

DEAR ABBY: My neighbor wrote you an anonymous letter. She said her husband came home from work every evening and asked her what she had been doing all day.

You advised her to do nothing one day, and let him come to find the beds unmade, breakfast and lunch dishes piled in the sink, the laundry basket spilling over with unironed clothes, and not a trace of supper started. Well, she followed your advice, Abby. Her funeral is tomorrow. Will you be able to attend? Regards.

MR. A.

DEAR MR. A.: No. But if

you'll wire me her name and address I'll send flowers.

DEAR ABBY: I have been married for 10 years to a deeply religious woman. During the course of our marriage she has used marital relations to reward, bribe, and punish me. I seldom objected until she went to extremes. She hasn't slept in our bed for over two months.

Yet what is a man supposed to do? I do not want to see my marriage destroyed because we have two of the most beautiful children who have ever graced this earth. But my wife has desecrated the sacrament of marriage and has caused me such misery and bewilderment. What is your advice?

BEWILDERED
DEAR BEWILDERED: Since your wife is "deeply religious," ask her clergyman to speak to her. There are some battles no man is able to fight alone. And this is one of them.

Hate to write letters? Send \$1 to Abby, in care of The Pontiac Press, for Abby's booklet, "How to Write Letters for All Occasions."

Meadow Brook Music Festival, 8:30 tonight. Detroit Symphony Orchestra with Leonard Rose, cellist. Saturday, 8:30 p.m. Isaac Stern, violinist. Admission charge.

Mrs. Russell V. Winger, Exmoor Street (standing) named "Woman of the Year" by Land-O-Oak chapter, American Business Women's Association, last spring, takes office as its president for the coming season. With her is Mrs. Emil DuRoska, Beverly Hills, the treasurer.

Getting a headstart on next year's program are officers of Land-O-Oak chapter, ABWA, at a board meeting this week. From the left are Mrs. Robert Porritt, Old Orchard Drive, recording secretary; Kay Buchner, Lotus Drive, corresponding secretary and Mrs. Dale Wimberly, Canterbury Drive, vice president.

Metal Attachment

To attach small articles, such as a pin cushion, to the inside door of a metal wardrobe, place a magnetized metal clamp inside the door to hold it.

Polly's Pointers

Ouch, That Smarts

DEAR POLLY — When I gain solutions for the reader who wanted to know how to clean parchment paper lamp shades. First, remove all loose dust with the vacuum or a soft cloth. Wash with a sponge DAMPENED with a mild soap or detergent solution. Remove this cleaning solution with another damp cloth wrung out of clear water.

I found that by placing a narrow strip of cardboard or a small ruler under the zipper when pulling it up worked like a charm and I have no more trouble. — DOROTHY

DEAR POLLY — I have three

Also milk can be used to wash the shade. Commercial wallpaper cleaner often is used — MRS. G. D.

DEAR POLLY — A friend who was breaking up her household gave me a dozen large linen dinner napkins. Being well supplied with linen napkins that were in my trousseau I did not need them as such but I really needed linens for card tables I use very often.

By cutting the hems off the napkins and sewing four together with flat seams I made three 48-inch cloths. To cover the seams I use wide lace insertion which added greatly to the appearance. A hem around the edges completed my cloth. (Polly's note — Lace edging would make a nice finish, too.) I could never have bought any so pretty and there will never be an exact duplicate. — ADELIA

DEAR POLLY — The nail file my wife had used for many years became very dull. Knowing something about files I covered it well (or painted it) with cuticle remover.

I left it standing in a glass jar for a day. Now it is as good as new, even seems sharper. — CHARLES

CHARLES — Thank you. This Pointer would be especially good for those readers who have files with fancy handles that belong to toilet sets. — POLLY.

Anyone submitting a Polly's Problem, a solution to a problem or a favorite homemaking idea will receive a dollar if Polly uses the item in Polly's Pointers.

The Jack W. McGormans of Rochester announce the recent marriage of their daughter, Janice Marie, of Baltimore, Md. to Harold Eugene Brautnick of Glen Burnie, Md., in St. John's Lutheran Church, Rochester.

Rev. Richard Schlecht performed the ceremony for the couple who are residing in Glen Burnie. His parents are Michael Brautnick of Cumberland, Md., and the late Mrs. Brautnick.

Final Choice Still Lies With Woman

By MURIEL LAWRENCE
DEAR MRS. LAWRENCE: Why do you write only about women's poor judgment in choosing mates? We divorced men get fooled, too. Our preparation for choosing a wife is just as poor as girls' preparation for choosing husbands. We get tricked only too easily by the soft voice, the sweet smile that masks cruelty. So don't just hold women responsible for the poor judgment that leads to divorce. We divorced men get taken in just as often.

ANSWER: I will so hold women responsible for the poor judgment that leads to divorce. I'll do it because it is my sex, not yours which controls the final say-so—the "yes" or the "no."

Good Lord, man, the immaculate members of your sex make me so many passes at members of

mine that we have to spend most of our time ducking them. These passes are so overhasty, so indiscriminating and inappropriate that their sexual heedlessness is the subject of constantly amazed (and often bitter) discussion among women.

You make them at us although you may never want to see us again. You make them in offices, in darkened movie houses, in restaurants, in rooms where we've gone to lie down with headaches, any place at all where the pass-making impulse takes you over.

It is just because so many members of your sex are so easily intrigued by soft voices and sweet smiles that the members of mine are stuck with the responsibility for serious sexual judgment.

Somebody's got to be selective. And as the "conquest" of many passes at members of

your sex makes it impossible for them to exercise any selectivity, the members of mine have to exercise it.

Nor do I see anything wrong with this. As the bearers of babies, we are responsible to see to it that they get good fathers.

I repeat that it is because you are so easily taken in that we can't afford to be so easily taken in. Who wants a husband who loses his head at sweet smiles and soft voices?

What kind of father does such a man make?

No, sir. The responsibility for choice is woman's. And if women could once get some education on the qualities of manliness, all the indiscriminating pass-makers of your sex would have to pull themselves together. For we'd have nothing to do with them and instead hold out for the grown-up man.

The trouble with my sex is that it won't accept its responsibility to demand men. If it did, the demand would create the supply.

**Immaculate Look
with Suds Water**

Since so many of the latest warm weather fashions are made to be sussed, form the habit of selecting only washables—preferably machine-washables.

Clothes must always be spotlessly clean to look well, and the most convenient and inexpensive way to achieve that immaculate look is the suds-and-water way!

Ford Employee Slain, 1 Hurt

DEARBORN (UPI) — One Ford Motor Co. employee was stabbed to death and another was injured late yesterday by an assailant at the company's Rouge Plant iron foundry.

Robert Johnson, 22, Detroit, died shortly after midnight of multiple stab wounds.

Police said another worker, Gilson Wreede, 56, heard a scuffling sound in the foundry and when he went to investigate he found an unidentified man attacking Johnson.

The man, described as a Negro, about 5 foot 10, medium build and wearing white coveralls, turned and stabbed Wreede.

Officers said dice were found at the scene and speculated that the stabbing might have occurred during an argument over a gambling debt.

Treasurer Is Installed

ATLANTA, Ga. (AP)—Miss Viola M. Wolfe of Detroit was installed Thursday night as treasurer of the National Federation of Business and Professional Women's Clubs.

County School Bus System Proposed

A TRUNKFUL—Tumthong, a 4-year-old elephant at the Washington Park Zoo in Indianapolis, seems to have found the answer

to keeping cool during the hot summer weather. A zoo attendant sprays her with some cool water to beat the heat.

To Solve District Problems

County School Bus System Proposed

A countywide school transportation system has been suggested as a possible solution to local district school bus problems.

Oakland Schools Board of Education trustee George W. Combe Jr., who also is president of the Birmingham School Board, yesterday proposed that a feasibility study should be made of the idea.

He said transportation is a "glaring example" of noneducational areas which are consuming more and more of school officials' time.

"This doesn't help education," he said. "It's a colossal waste of time. We spend 90 per cent of our time on everything but educational matters."

He proposed the feasibility study, he said, to determine whether modified consolidation in this area would be more efficient and more economical for the 29 school districts in the county.

CENTRALIZED BASIS

Combe noted that the purchasing of school buses already is handled on a centralized basis to give each district the advantage of more favorable bids.

Oakland Schools also is training bus drivers and maintenance personnel for the individual districts.

The county school board took no immediate action on Combe's suggestion.

Discussion of the matter came during a meeting at which the board appointed a new transportation consultant, John F. Berg, 50, was hired to assist Erwin Hendershott, Oakland Schools director of transportation.

Specialist Degree

Berg, a vocational education teacher and transportation director in the Pinckney School System, currently is working toward a specialist degree in traffic safety at Michigan State University.

In other action yesterday, the board agreed to accept the responsibility for transporting 60 special education students from various districts to a Hazel Park school until a center is established for their training.

The mentally retarded students, 14 years of age and older, are to participate in a new training program.

Until a building at 2338 Colledge, Berkeley, can be completed, the classes will be held at Lacey Junior High School in Hazel Park.

PAID \$186,628

The county school board yesterday also paid \$186,628 to four school districts for 12 special education rooms.

The money was late in being allocated because of low figures in the county special education fund.

Payments authorized yesterday were \$92,942 to Pontiac for five rooms, \$39,244 to Ferndale for three rooms, \$38,773 to Troy for three rooms and \$15,669 for one room in the South Lyon district.

Georgia Negro Jury Finds White Guilty

SAVANNAH, Ga. (AP) — A white man has been convicted of possession of a dangerous drug by what court officials said was the first all-Negro jury ever to try a case involving a white person in Georgia.

Convicted Thursday was Herbert E. Johnson, 28, a Homestead, Fla., construction worker. Johnson, formerly of Uvalde, Ga., paid a \$200 fine for possession of benzadrine.

Johnson had pleaded not guilty, claiming 30 tablets found in his possession were not his.

Wins Election ... but Too Late

MANILA (AP) — The Supreme Court ruled Thursday that Silvestre Domingo was elected mayor of the town of Rosales three years ago by 12 votes. The decision was delayed too long — Domingo died of a heart attack June 11.

His lawyer told the court of Domingo's death, and the court allowed him to substitute Vice-Mayor Cristono Soriben as petitioner. He will replace Fernando Ramon, who had been declared winner in the first count by 11 votes.

Ex-Nurses Get California Call

Urged to Be Ready if Walkout Occurs

SAN FRANCISCO (UPI) — Bay area hospitals today urged ex-nurses to return to work in the event of a mass walkout by more than 2,000 demanding higher pay.

The hospitals said nurses who have retired or quit to become housewives should be ready to take the places of the ones who threaten to quit Wednesday if they are not given a "reasonable" pay hike.

Meanwhile, state mediators called the negotiating teams for the 33 hospitals involved in the dispute and the California Nurses Association CNA back to the bargaining table late today in an effort to avert the nation's first walkout of its kind.

A hospital spokesman said yesterday that the wives of some physicians have already volunteered to help out if the nursing crisis occurs.

Pope Expected to Bless Luci, Pat Marriage

WASHINGTON (UPI) — Pope Paul VI is expected to bestow his personal blessing on the marriage of Luci Balnes Johnson and Patrick J. Nugent, it was learned today.

Highly placed Catholic sources said the Pape Benedictine ceremony probably will take the form of a private family message to the bride and groom which will be read by Archbishop Patrick A. O'Boyle at the wedding ceremony at the Shrine of the Immaculate Conception Aug. 6.

Luci and Pat had an audience with his Holiness last Oct. 4 when he came to New York to address the United Nations General Assembly. President Johnson invited Luci, a Roman Catholic convert, to a dinner at the White House.

Donald A. McGhee, 18, of 165 Crestwood will be 1 p.m. Wednesday at Macedonia Baptist Church with burial in Oak Hill Cemetery by the Frank Carruthers Funeral Home.

The youth died Wednesday. He was a member of Macedonia Church and a factory employee.

Surviving are his wife, Ruby; his parents, Mr. and Mrs. C. Moore of Pontiac; a daughter, Carol at home; and several brothers and sisters, Mrs. Norma J. Jacobs, Sandra, Barbara L., Martha, Robert and Pamela McGhee, all of Pontiac, and Milton McGhee with the U.S. Army stationed at Fort Bragg, N.C.

Ernest T. Lipscomb

TROY — Service for Ernest T. Lipscomb, 76, of 1127 Derby will be 9:30 a.m. Monday at the Shrine of the Little Flower, Royal Oak. Burial will be in Holy Sepulchre Cemetery, Southfield. Rosary will be 8 p.m. Sunday at the William Sullivan and Son Funeral Home, Royal Oak.

Mr. Lipscomb died yesterday. A tool and die salesman, he was a member of the Birmingham Rotary Club.

Surviving are a son, Jack P. of Troy; a sister, two brothers; and three grandchildren.

Retirement Plan

LANSING (AP)—The Michigan Catholic Conference will start the nation's first statewide retirement program for lay employees of the Catholic Church Oct. 1, officials announced Thursday. It will cover an estimated 4,300 persons employed by Catholic churches, schools, welfare agencies and other organizations. Officials said the program will be funded entirely by the church.

"Look at them," said a blonde Delta Air Lines. "They don't have any money, but they are all having a ball. And we get up every morning and work like crazy. My flights have been full since the strike started."

Surviving are a son, Jack P. of Troy; a sister, two brothers; and three grandchildren.

4 City Firemen Get Captaincy

Four Pontiac firemen have been promoted to the rank of captain, according to Fire Chief James R. White.

The new appointments, made on the basis of written civil service examinations, will give the fire department two captains at each of the city's five stations.

The men are:

Capt. Junior Densen, 38, of 7217 Sashabaw, Independence Township, member of the department since November, 1960; Capt. F. Jack Douglas, 44, of 1644 Charleston, member of the department since October, 1948.

The others are Capt. George L. Henry, 48, of 580 Markle, a member of the department since July, 1946, and Capt. Earl S. Luchenbach, 50, of 2332 Liverpool, Pontiac Township, a member of the department since May, 1947.

Each of the new captains formerly held the rank of lieutenant.

Ex-Mayor Kuhn Joins Legislative Pay Hike Foes

GRAND RAPIDS (UPI) — Supervisor Harold Brigham of Nelson Township, who is spearheading a committee that seeks to put pay hikes for the State Legislature up to a public vote, got a pledge of help from former Mayor George Kuhn of Berkley yesterday.

Kuhn is chairman of the Vigilance Tax Committee and fought the Detroit city income tax proposal.

A minimum of 156,000 signatures are needed by Brigham and his committee to get a referendum on the boost of state legislators' salaries from \$12,500 a year to \$15,000 a year, passed by both houses in June.

MARINES MOVE TOWARD ENEMY—Members of the 3rd Battalion, 4th Marines, move single file through tall grass up slopes toward a hill in the Song Ngun Valley, suspected of holding North Vietnamese command units. The Marines are engaged in Operation Hastings about 2,000 yards south of the demilitarized zone in South Viet Nam.

Cancer Victim

Convicted Slayer Dying

JACKSON (AP) — Herman Barmore, a convicted murderer who has spent most of his life behind bars, apparently is about to die behind bars.

Barmore, sentenced to life imprisonment in 1957 for the slaying of a 12-year-old Boy Scout near Muskegon, has an advanced case of cancer, Warden George A. Kropp of Southern Michigan Prison said Thursday.

"I understand from our hospital that his time is limited," Kropp said.

Barmore, 53, was convicted in Muskegon by a Circuit Court jury in the 1955 rifle slaying of young Peter Gorham of Evanston, Ill. The boy was camping in the Muskegon area with other scouts.

NEW TRIAL

The Michigan Supreme Court later awarded Barmore a new trial, but he was convicted again in 1963.

The prosecution charged Barmore seized the boy on a road through some woods, molested him and shot him in the head.

Then-Sheriff Arthur Davis said Barmore first told of shooting the boy accidentally while the two were target shooting, then becoming frightened because he was wanted in New York for parole violation. Barmore later repudiated the statement.

While in prison seeking the retrial, he was convicted of a morals offense involving a 14-year-old boy who was never identified and was sentenced to another 25 to 30 years as a three-time convicted felon.

His arrest in Dateland, Ariz., in 1957 ended a two-year investigation of the Gorham murder during which 886 persons were questioned.

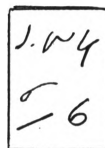

Police from Detroit, Kalamazoo, Illinois and Maine questioned him in connection with similar murders in their areas.

Barmore, an itinerant handyman and occasional male nurse, studied law while in the penitentiary and was his own defense attorney at the retrial, which was granted after the high court ruled the judge in the original trial had prejudiced the jury.

Musicians Due at MSU

EAST LANSING (AP)—More than 600 high school musicians from 14 states and Canada will come to Michigan State University Aug. 1-21 for special instruction in MSU's 21st annual Youth Music Program.

Which shorthand for you?

Your choice is important . . . but really very easy. Pontiac Business Institute offers two systems of shorthand—Speedwriting, and Gregg shorthand.

Since your ability to take dictation rapidly and accurately is the foundation of secretarial success, your choice of a shorthand system is highly important.

If you took Gregg in high school and if you did well with it, you want to continue with it. We'll build your speed to 120 words per minute while you take other business subjects, too.

If you took no shorthand in high school . . . or had a bad experience with it . . . you may learn Speedwriting shorthand which is easier to learn.

Gregg and Speedwriting shorthand students progress at their own rate of speed. When you graduate your speed will be 120 words per minute—the level of proficiency required to get the higher-paying job.

AND REMEMBER—

Your future employer really won't care which shorthand system you use. What he will care about is the speed and accuracy with which you produce marketable letters. That is exactly what this school trains you for—whether you learn Speedwriting or Gregg shorthand.

TO THE REGISTRAR:

Please send more information on shorthand programs at PBI, without obligation.

Gromyko: Viet Talks U.S. Aggression Tool

TOKYO (AP)—Soviet Foreign Minister Andrei A. Gromyko charged today that the United States might use a Viet Nam peace conference to cloak further aggression.

At a news conference at the close of a week's visit to Japan, Gromyko said if a new Geneva conference were called "the United States might use it as a screen behind which to further its aggression."

Japanese Premier Eisaku Sato in talks with Gromyko sought to persuade the Soviets to reverse their refusal to reconvene the 1954 Geneva Conference, of which they are cochairmen with the British. But Sato was no more successful than British Prime Minister Harold Wilson and Indian Prime Minister Indira Gandhi.

The Soviets have repeatedly said any call for a conference would have to come from North Viet Nam. Gromyko's charge against the United States was a new Soviet tack, possibly tailored for the Japanese public, which has been divided on the war.

Asked about the prospects for peace, Gromyko said: "The United States has violated the 1954 Geneva agreements and is conducting a war of aggression."

"The solution is for the United States to stop its aggression, for American troops to get out of Viet Nam and go home, and not interfere in the affairs of another country."

Gromyko said the Soviet Union supports the North Vietnamese "because they are conducting a just war."

SWAPPING IDEAS — Dr. Michael E. DeBakey (left) of Houston, Tex., and Dr. Adrian Kantrowitz of Brooklyn, N.Y., inspect heart pumps each has invented, at a session of the Association for the Advancement of Medical Instrumentation in Boston yesterday.

AP Wirephoto
The two physicians, sharing a public platform for the first time since they put artificial pumps in humans, agreed the devices have conclusively shown ability to revive sick hearts.

'Poorer but Happier'

Acting Ends Misery for Ames

By GENE HANDSAKER
HOLLYWOOD (AP) — Ever feel like chucking the old daily

grind for other work you think you'd really like? Anybody who hasn't?

Ed Ames' who made the switch, advises: "You can't do it capriciously. But many a man must ask himself, 'Am I going to make a steady income and be miserable — or do what I really want to do and face up to the challenge of life?'"

Six years ago Ames was lead singer with the Ames Brothers quartet. For 10 years they'd toured the top night spots. Their record sales totaled 25 million. Ed, then 30, had an income of \$100,000 a year, a wife, three children — and misery in his heart.

"It wasn't a good life," he says now. "We lived within four walls, never saw our wives and children. I felt my whole life was being frittered away, that I wasn't doing what God meant me to do."

"We varied our material as much as possible, but people always asked for the same old songs, like 'You, You, You' and 'The Naughty Lady of Shady Lane' — two of the Ames brothers' big hits."

"When I broached it to my wife, she said, 'I know how miserable you've been. The best thing is to do what your instinct tells you. We were poor when we started. If necessary we'll start all over again.'"

"The Ames brothers' last stand as a foursome was at Las Vegas' Sahara Hotel — at \$12,500 a week. The three remaining brothers played out two years' bookings."

"I was interested in the theater," Ed says. "In a theater, even with nobody there, I get a lump in my throat."

Ed made it as an actor, starting at \$40 a week off Broadway, after a year of job-hunting and drama study in which he got down to his last \$200 savings.

"It was a struggle but it was like a catharsis," he says. "I'm a much happier, more balanced individual."

The setting for this conversation was as incongruous as one could find — the sparkling public dining room of the Assistance League. Young girls entering a children's fashion show clutched their mothers' hands as Ames strode in — a 6-foot-4 figure in beaded buckskins and chest-length black braids as a Cherokee Indian.

Ed co-stars as Fess Parker's Indian pal Mingo on the "Daniel Boone" television series. With his TV salary, fairs, rodeos, concerts and occasional recordings like "Try to Remember," he says, his income is bigger than ever.

LOVELY LINDSEYS—The Lindsey twins — Joyce (left) and Janet, 10 — turn to the serious business of playing with their dolls following a six-hour kidney transplant operation performed five days ago. Joyce received a kidney from Janet, and doctors are pleased with the operation and functioning of the transplanted kidney. They are the children of Mr. and Mrs. Grady Lindsey of Landrum, S. C.

Memory Is the Greatest Artist

By HAL BOYLE
NEW YORK (AP)—Memory is the greatest artist. It doesn't record words like Shakespeare's or brushes like Rembrandt's. On the silent canvas of the soul, memory paints over and over again the liveliness of lost landscapes, the beauty of vanished faces, the yearnings of the past. We thought we had put behind us forever.

You've got quite an art gallery of the past in your own head if you can look back and remember when—

Electricity was so dumb it hadn't learned how to milk cows, cool a room, or work a toothbrush.

HOLDING HANDS
Lovers weren't afraid to sit and hold hands in a public park after dark.

Mountain moonshine sold for 50 cents for a full fruit jar.

You knew summer had arrived when every kid took off his long black cotton stockings and started going barefoot in faded blue overalls.

Your heart broke the day they sold the last neighborhood fire horses to a farmer and replaced them with a big, red, engine-driven pump.

SWINGING DOORS
You had to be careful going by the local saloon so as not to be knocked over by one of its swinging doors.

The railroad conductor always pulled out his big gold pocket watch and studied it gravely before giving the engineer the signal to start the train. Even the president in the White House didn't seem so all-fired important as that conductor.

For a quarter you could lug home as big a watermelon as you could carry. And the grocer always cut a small triangular plug from it with his pocket knife to show you the melon was ripe.

When you trudged home from the old swimming hole weeping from a bad case of sunburn, mother soothed the pain by greasing you with lard.

PENNY ARCADE
A city lad first learned about women by peering at the naughty pictures in a penny arcade. You put a coin in the slot, looked through an eyepiece, and turned the worn pictures with a hand crank.

Only gypsy women and high-society ladies had pierced ears. To find out what was going on in a small town—or at least what was suspected—all a stranger had to do was to sit in the barbershop on Saturday night and listen.

It was considered far more genteel to take snuff than to chew tobacco. In rural areas more wives smoked pipes than cigarettes.

The hardest task a fat man had was buttoning on his brogans with a shoe hook every morning. And you could tune a piano in the time it took an ordinary woman to lace herself into her corset.

Every home had at least one old-fashioned wooden trunk in the attic in which family souvenirs were stored. It was one of the dearest pleasures of childhood to sneak upstairs and paw through them on rainy days when you couldn't go out and play. Nothing that happened later in life ever quite gave you that nostalgic recognition of the changing of generations.

2 in Georgia Guilty in Thefts

ATLANTA, Ga. (AP)—Federal juries have convicted two men in connection with the theft of cars one of the defendants said went to persons he believed were connected with the Southern Christian Leadership Conference.

The SCLC has denied any of its officials knowingly bought stolen cars, and a spokesman said the cases put "the civil rights movement on trial" in the eyes of the defendants.

Found guilty Thursday by separate juries were Harold Belton Andrews, 43, a white man convicted of interstate transportation of a stolen vehicle and sale of the vehicle in Atlanta, and Morris Finley, a Negro printer who had done work for the SCLC, convicted of receiving a stolen car.

Sentencing of Andrews and Finley in U.S. District Court by Judge Sidney O. Smith Jr. was delayed pending an investigation by probation officers.

Andrews admitted he rented four new cars in 1965 and equipped them with stolen license plates, fake bills of sale and registration cards before delivering them to other persons. He said he did so to obtain evidence against persons he believed were members of the SCLC, and that he had turned over to the FBI all the information he had gathered.

Mobs Hunt Baltimore Negroes

BALTIMORE, Md. (AP)—Gangs of white youths numbering from 50 to 100 ranged through Negro neighborhoods in search of victims Thursday night shortly after while supremacist speakers had whipped them into a frenzy at a rally.

Police had the situation under control in about two hours, but

beefed up patrols; roamed sound trucks closed down about 8 p.m.

POLICE ESCORT

As the crowd broke up, a cluster of white youths surrounded Robert Kaufman, a self-proclaimed Socialist, and about a dozen of his companions. Police quickly formed a cordon around them and escorted them from the area, but eggs were tossed and before the group had gotten a block away, the crowd had grown larger, louder and more belligerent.

Riot police and officers with dogs were rushed to the scene. Plainclothesmen, who had been mingling with the crowd dressed in dirty T-shirts and jeans began pinning on badges. The show of force stopped any

immediate threat of violence, but the mob broke up into smaller groups and began ranging through side streets and into predominantly Negro areas.

One Negro boy walking his dog was set upon by a group of about 100 whites and knocked to the ground before police rescued him.

Before the gangs were dispersed, police had arrested seven persons.

Sleep Helps Fight Summer Heat

EAST LANSING (AP) — A good night's sleep every night is the best way to fight the summer heat, says Dr. James Feurig, director of Michigan State University's Health Center.

Rest is needed to restore vital muscle tissues such as those in the heart, he said Thursday. Increased fluid intake tends to dilute the blood, he explained, so greater volumes of blood must be pumped.

Chicago Gangs Vow to Reinforce Truce

CHICAGO (AP) — A teen-age gang has agreed to try and reinforce a shaky truce with a rival group after a week of violence in which two youths were killed and 12 persons wounded.

Juvenile officers and YMCA workers met Thursday night with 400 members of the East Side Disciples in a Roman Catholic Church and urged the youths to try and curb the violence which police described as the worst in years.

The workers urged the Disciples to honor their truce with the Blackstone Rangers. They also urged the group to end terrorism against youths who are not gang members. "Shootings," they said, "will do no one any good."

AGREED WITH WORKERS
A spokesman at the church said the gang members listened attentively and agreed with the workers during the 45-minute meeting. Leaders of the two gangs—which claim 2,000 members

each—met with Police Supt. O.W. Wilson July 21. Wilson later told newsmen the gangs had declared a truce after seven days of fighting.

The leaders said they wanted to improve their image and work on the side of the law.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth suffer embarrassment because their place drop, slip or wobble at just the wrong time. Don't live in fear of this happening to you. Just sprinkle a little FASTBETH on the glue-ac powder, on your plates. Holds false teeth more firmly in the mouth. Comfortable. Checks denture breath. Dentures that fit are essential to health. See your dentist regularly. Get FASTBETH at all drug counters.

Calls Harass Flier's Mother

DETROIT (AP)—The mother of a Navy flier serving in Viet Nam said yesterday she has been receiving harassing, late-at-night telephone calls from strangers since her son's name and home town were published.

The flier, Cmdr. Frederick F. Palmer, led the first carrier air strike against the oil depots near Haiphong, North Viet Nam.

When his role in the attack became known and his Detroit-area address published, he said, his 60-year-old mother, who lives alone, began getting the calls.

The mother, who asked not to be identified, discussed the calls yesterday.

"I said that I must never lose me temper," she said. "This would give them satisfaction."

TWO DRUNK

She added at least two of the callers seemed drunk. "I told them they had the wrong number and hung up," she said.

For Vacation Fun!

Put Spotlight on Living Area

Add New Beauty to Yard

Would you like to add new beauty, fun and convenience to your way of life? Would you like to double or triple the effective use of your home's living area? These don't have to be just wishes; they can be a reality with outdoor lighting.

Each year across America more and more people are enjoying the new dimensions that light for living outdoors provides after sundown.

Today, there's no reason for you, or your home and its surroundings, to remain in the dark. Lighting specialists suggest that you keep the following points in mind when planning and installing an outdoor lighting system.

Adequate wiring is essential for the full enjoyment of outdoor living after dark. Although wiring may be permanent or temporary, permanent wiring has a number of advantages.

INSTALLATION EASIER

It makes the installation of lighting equipment easier, avoids the hazards of temporary wires stretched across walks and yards, and permits greater flexibility in the use of a variety of electrical appliances by day as well as after dark.

In short, it provides a maximum of convenience and safety. However, because local regulations vary, you should consult an electrical contractor before installing permanent wiring.

Because not all rubber-covered wire has been designed for outdoor use, you should select outdoor portable cord sets carefully.

The plugs, sockets and splices on these cord sets are usually molded in rubber to keep them weatherproof; nevertheless, periodic inspection of any outdoor lighting device is a good idea.

The overall effect of garden lighting may be subdued and restful or stimulating and dramatic, depending upon the lighting technique or combination of techniques which is used. Each garden can become an individualized study in light, shade, shadow, and color.

You'll enjoy experimenting with direct color effects in living. White light alone displays nature's superb color in your garden picture, but many subtle and fascinating effects can be attained with touches of colored light.

NATURAL EFFECT

Colored light of the same hue as the object to be lighted will heighten that color. In general tints (such as pink or blue-white) create a more natural

effect than saturated colors; however, you may use a strong blue or green to give a feeling of depth, particularly where the garden adjoins a wooded area.

White and highly saturated colored flowers, and gardens with mixed colors, look more natural with white light. Because they tend to deaden the color of grass and foliage, yellow or "bug lamps" should be confined to the patio or terrace.

If you're fortunate enough to have a beautiful tree in your garden, you can light it as a focal point for your outdoor living area, as a background for flowers and shrubbery, or as a canopy over your size of terrace.

The type of tree, its garden and location, and the effect which you desire will help to determine the lighting plan.

With outdoor lighting, you can admire the beauty of your flowers in the evening, too. Overall floodlighting at low

levels will help you achieve a unified garden picture.

However, if you want to keep an unlandscaped area in the dark, don't hesitate to do so. Lighting in individual flower beds can then provide attractive spotlight effects.

Many gardens have a cherished piece of sculpture or a pool. After dark, carefully chosen lighting can transform both into feature attractions which will add new beauty and glamour to the outdoor setting.

Light for outdoor sports and games means more hours of fun for every member of the family. It can make your home a popular gathering place for neighbors, a center of attraction for young folks, in particular.

And this lighting is easy to plan and install. Buildings and trees are good locations on which to mount sports lighting equipment. Or telescopic poles, purchased or home-made, fitting into pipe sleeves which have been driven into the ground, can be used. These

poles can be set up, taken down and stored conveniently. Careful stinging of the lighting units and high mounting—16 to 20 feet above the ground—will keep the light out of the players' eyes. And light coming from several different directions reduces shadows, provides more uniform illumination and gives better visibility.

Lighting for outdoor living can make your porch or terrace an attractive and convenient extra room for regular family use, entertaining, relaxation and for full enjoyment of your lighted garden.

A tastefully lighted porch or terrace is a natural transition area between indoors and the outside.

And when several lighting units are combined to attain a pleasing brightness pattern, control switches can be used to adjust the lighting to varying moods and visual needs.

A dimming device connected to all units in the area offers you the ultimate in smoothness and degree of control. Light for living outdoors can be an exciting new dimension to your way of life. If you would like more information about outdoor lighting, a 24-page booklet of outdoor lighting "recipes" is available from General Electric.

Single copies of "Light for Living Outdoors" may be obtained without charge from: Inquiry Bureau, Dept. PR-1, General Electric Company, Nela Park, Cleveland, Ohio 44112.

Greenhouse Garden Help

Gardeners propagating a variety of plants need small greenhouses to provide warm, humid conditions with plentiful light year round.

According to a Pennsylvania State University correspondence course on home greenhouses there are two basic types: the lean-to or attached, and the free standing.

The lean-to is built against existing structure, but the free standing is separate. Selection depends on your home structure and whether you use your home furnace for heat.

Artificial heat must be provided. Hot air, steam and hot water are some ways to distribute heat. Selection of heating system depends on size of greenhouse, fuels available, cost and personal preference.

To learn small greenhouse construction and management, study the Penn State course. You enroll by sending your name and address with \$1.75 to Home Greenhouse, Box 5000, University Park, Pennsylvania 16802.

Vermiculite Helps Flower Arrangers

"After a successful garden has been established and a special occasion demands a floral arrangement be made from the choicest flowers, place the cut stems in a pot containing horticultural vermiculite soaked with water."

The vermiculite serves as a firm base while supplying the flowers with moisture needed to stay fresh longer.

Gardeners, Be Safe, Not Sorry; Follow Mowing Safety Rules

By EARL ARONSON

AP Newsfeatures

If a blade has ever whipped from your lawnmower or if you have seen anyone injured by such power equipment, then you must sympathize with the safety campaign of the Outdoor Power Equipment Institute. The OPEI, reporting that "carelessness or error" by the operator can result in injury, Protect yourself and others by following these safety steps:

modern power mowers to provide the ultimate in safety and efficiency," says that as with any type of power equipment, "carelessness or error" by the operator can result in injury. Protect yourself and others by following these safety steps:

• Never add fuel to a running engine. Use an approved safety container for fuel.

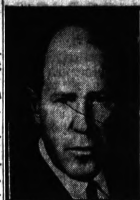

• Do not operate engine where carbon monoxide fumes can collect.

• Do not allow minors or un-instructed neighbors to operate mower.

• Never use a plug-in electric mower in the rain or wet grass.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Search for Successor to U. of M. President Grows More Active

ANN ARBOR (AP)—How do you pick a man to run a \$200 million-a-year corporation whose employees are some of the world's most independent and whose product is something as vague as education?

That's the problem the eight regents of the University of Michigan are facing as they search for a replacement for President Harlan H. Hatcher who retires in 1967.

They have been searching since last February when they first asked the university's faculty Senate, student govern-

ment and alumni organizations to provide them with three advisory committees to assist in the selection process.

Now the search is entering a more active phase, though the final decision may be as far off as next spring, according to Regent Robert P. Briggs, a vice president of the Consumers Power Co. and chairman of the regents' working committee.

Briggs explains that the regents expect President Hatcher to retire some time in the fall of 1967. That means choos-

ing his successor by spring in order to give him time to get acquainted with his job before he takes over, Briggs says.

The regents, who alone are authorized by the state constitution to appoint a president, and the three advisory committees are now in the middle of two extensive tasks.

First, they are taking a long look at the university to find out what sort of abilities its next president will need.

Second, they are matching

the many candidates suggested to them by friends, alumni, faculty and students against that list of needed abilities.

CONTINUAL TASK

"What you get is a continual process of adding names to the list and taking them from it as they are rejected," says Arthur M. Eastman, the faculty advisory committee's chairman.

Eastman sees this process continuing until September or October when the advisory committees will send the

regents a list of five or 10 of whom they will name to the recommended candidates, one presidency.

Intra-Squad Game at Wisner Saturday

Lions Try to Settle Offense vs. Defense Argument

By BRUNO L. KEARNS
Sport Editor, Pontiac Press
The Lions offense versus the Lions defense!

That has been the basis for many good arguments with Lions fans and often among the Lions themselves.

public showing of the Lions prior to the start of exhibition season in as much as the public this year has been barred from training camp sessions because of the traffic and congestion in the Cranbrook school area.

Bloomfield Hills police have admitted only bona-fide officials to the training camp.

No one will be barred from the Saturday night program which begins at 8 p.m. sponsored for the Jaycee charity

benefits by the Community National Bank and the Jaycees.

Since the intra-squad scrimmages began in 1967, at Cranbrook, the defensive unit has dominated the scrimmage on several occasions.

Through recent years, the Lions' defensive unit proudly points to its record as being one of the best in pro football. But, many of the past defensive stars, including Joe Schmidt, Carl Brettschneider,

Sam Williams, Yale Lary, Gary Lowe, and Night Train Lane have retired in the past two years.

Defensive back Bruce Maher is still around but he may not be playing Saturday. Maher left camp yesterday but was in workouts today and had a meeting planned with personnel director Russ Thomas.

The fine is \$100 per day for not being in camp, which had gone six days for Studstill.

The big defensive names on the line, Alex Karras and Rog-

er Brown, will be ready to give rookie linemen and veteran backs a stern test in the scrimmage.

Coch Harry Gilmer has indicated he may split the pair on two defensive units because he planned on giving rookie Bob Kowalkowski and Doug Van Horn plenty of action and it would be unfair to have two of the top defensive tackles in the league go at them at the same time.

Joining the veteran running

backfield of Nick Pietrosante, Joe Don Looney, Amos Marsh and Tom Nowatzke is Fenton's Bruce McLenna, a rookie Little All-America from Hillsdale, who has been impressive in training camp.

Other rookies who are expected to get good workouts in the scrimmage are defensive end Don Weatherspoon of Michigan State, Willie Walker, a flanker and defensive back from Tennessee State, linebackers Bill Cody of Auburn and Jack O'Bil-

ovich of Oregon State and end will start at 8 and the intra-squad head bunting will begin at 8:30.

LINE BUSTERS—This array of big backs will go line busting Saturday night in the full dress scrimmage of the Detroit Lions at Wisner Stadium. Facing the offense's running attack will be (front kneeling) Joe Don Looney (32) and Tom Nowatzke (35). Standing (left to right) Bruce McLenna (24) Amos Marsh (31) and Nick Pietrosante (33).

Atlanta Falcons Prepare for First NFL Game

SPORTS

PICK OFF—Norm Cash, first baseman of the Detroit Tigers, puts the tag on Chicago's Tom McGraw on a pickoff play. The throw came from pitcher Denny McLain in

the fourth inning of their game last night in Chicago. The White Sox won the game from Detroit, 2-1.

Play Eagles in Exhibition Tilt Monday

Green Bay Planning to Use Gillingham Against Ex-Mates

FROM OUR NEWS WIRE

The fledgling Atlanta Falcons are preparing to flex their wings for the first time in National Football League play Monday. And the Green Bay Packers have indicated that they will turn a rookie loose on his former All-Star teammates in the Aug. 5 game at Chicago.

The state of Georgia brings in the high-priced talent today to exhort the Atlanta Falcons on to victory in the new club's first game, an exhibition contest against the Philadelphia Eagles. No less a figure than Gov. Carl E. Sanders plans to visit the Falcons' training camp at Black Mountain, N.C., have dinner with the team and watch practice Saturday.

FROM LIONS

Atlanta Coach Norb Hecker emphasized kickoffs and punt returns Thursday during the club's workouts and said he might use rookie flanker John Pincavage, who arrived in camp Thursday from the Detroit Lions, as a kick-return specialist against the Eagles.

Philadelphia, meanwhile, suspended its morning drills because coach Joe Kuharich is afraid of overworking his players.

Kuharich said tight end Ray Poake, who has tendinitis of the left knee, is not likely to start in Monday's game at Atlanta.

Injured All-Star Gale Gillingham will play in the College All-Star Game after all. Coach Vince Lombardi of the Green Bay Packers said Thursday he plans to use Gillingham against his former mates.

Gillingham, 22, a rookie line-man out of Minnesota, was in the All-Star camp for six days. Then he fractured his right hand in practice.

Coach John Sauer returned Gillingham to Green Bay as is customary when a professional draft choice is hurt at the All-Star camp.

EVERYBODY PLAYS

Lombardi used Gillingham in the Packers' annual intrasquad game Thursday. He played with his hand in bandages. After the game, Lombardi was asked if he planned to use him against the All-Stars.

"Are you silly?" Lombardi replied. "Why shouldn't I play him? Everybody plays. He's here now, and he's mine."

Local Sailor in Lead

LAKEWOOD, N.Y. (AP) — A 16-year-old sailboat enthusiast from Birmingham held the lead today as the National Junior Snipe Championship went into its second day of competition on Chautauqua Lake.

Kenneth Galpin took second place twice in races Thursday to score 3,042 points and pace a 20-hat field.

Galpin, whose 15-year-old brother, Pete, serves as his crew, trailed Mark Hesselshwerdt of Grand Rapids, Mich., in the day's first race.

He crossed the finish line third in the second contest, but was placed second when the judges disqualified the winner, Richard Thuma III of Winchester, Mass.

Hesselshwerdt placed sixth in the second race and compiled 2,825 for second place overall.

John Johns of Ann Arbor took third place with 2,500. He was named winner of the second contest because of the disqualification and finished 11th in the opening race.

HAGGERTY HAS IT!

OPEN HOUSE Tonight—Fri., 7 P.M. to 10 P.M.

We are extending a special invitation to all of our friends and customers and their families to view our beautiful open air redwood gardens.

Come and see how we can make your summer a real delight in your own backyard.

View the latest in the indoor-outdoor living concept.

Enjoy a pop concert and dancing under the stars by our luau pit. Music by the "Splinter Heads." Come as you are to toast wienies and marshmallows. Refreshments.

See This Beautiful Garden Numerous representatives of national contractors will be on hand to answer questions on nationally advertised products.

Don't Fence with poor quality Use Redwood

Just one of the many interesting ideas in this handsome modern basket-weave design. This low price includes 1" x 4" post in 4'x8' sections, built up and stained.

CALIFORNIA RANCH TYPE REDWOOD RAIL FENCE

All lumber in these sturdy rail fences is air seasoned construction heart redwood. 4x4 posts have rounded tops and are mortised to accept 6x4 rails. Completely treated with redwood stain ready to use.

Drop 2-1 Decision to Chisox

Tigers Take Westward Trek

CHICAGO (AP)—The Detroit Tigers move westward today in search of the promised land. They did not find it in Chicago, where they scored only four runs in three games.

The Tigers' search for victory will take them to Kansas City for a four-game series with the Athletics. Johnny Podres

will pitch tonight with Mickey Lolich going Saturday. Earl Wilson and Bill Monbouquette are to pitch in the Sunday doubleheader.

The Tigers finished a three game series with the White Sox Thursday night secure in the knowledge that they will have

to do more than out hit their opponents to win.

The Tigers out hit the Sox in all three of the games but only the first game was successful. Thursday night Detroit dropped a 2-1 decision to the Sox while topping them in his nine to five. They out hit the Sox Wednesday by seven to five, and lost, 5-0.

But at least the Tigers scored in the final game of the series. Al Kaline stroked a single to right in the fifth to drive Denny McLain across the plate.

FOURTH STRAIGHT

Otherwise the windy city was a desert for the Bengals. McLain lost his fourth straight decision since the all star break. He pitched six innings, giving up all five Chicago hits before Larry Sherry took over.

The White Sox got a run in the fourth on Wayne Causey's single, a bunt, a wild pitch, and Pete Ward's sacrifice fly. The other run came in the sixth. Ken Berry singled and advanced on Causey's bunt. He scored on Dan Buford's single.

Kaline and Norm Cash each had two of the Tigers' hits and Don Wert led the attack with three hits in three trips to the plate. But Jack Lamabe and Bob Locker scattered the nine hits into seven innings.

Class 'D' Juniors Blast Ball

The league-leading Police Officials' Association used extra-base hitting while Franklin AC's runners-up only needed singles and a sacrifice fly for Class D city junior baseball victories Thursday.

The POA nine thumped Clarkston, 8-1, for its ninth win in a row as Russ Patterson's double and single led to three early runs, and Art Jackson's two-run triple capped the scoring.

Steve Renda also chipped in with a double and triple to help Jackson get the mound verdict.

Franklin came from behind for a 3-2 conquest of the Fraternal Order of Police. Bill Tucker's single plated two runs to tie it and put Mark McQuar in position to score the deciding marker on Steve Howard's fly ball in the fifth.

Larry Walker's two-run double (the first of his three hits) capped a four-run first inning and Earl Alexander's rib-triple ignited a five-run fourth in the Lakeside Warriors' 12-7 Class E National win over the Auburn Heights Boys' Club Preps.

Terry Frank clouted two homers and Scott Furney tossed a one-hitter as Anderson Sales and Service ripped the Wolverines in the Widgey B League.

CAGER DIES — Gary Lee Bancroft, freshman basketball player at Purdue University, who was a Michigan all-star from Lake Ponton in 1964-65, died after suffering an accident, Thursday morning while performing on a trampoline in a class of gymnastics. He was considered an outstanding basketball prospect.

Sandra Haynie LPGA Leader

Texan One Stroke Up on Carol Mann

LONDON, Ont. (AP) — Sandra Haynie of Fort Worth, Tex., carried a one-stroke lead into today's second round of the \$15,000 LPGA Golf Tournament.

Miss Haynie shot a three-under-par 69 Thursday for the opening day lead over Carol Mann of Buffalo, N.Y., and Kathy Whitworth of San Antonio, Tex. Miss Mann fired a 36-34-70 and Miss Whitworth carded a 71.

Tied at 72 were Jo Ann Prestevic of Pensacola, Fla., Mickey Wright of Dallas and Ruth Jessen of Bostall, Calif.

The 54-hole tournament, first on the LPGA tour to be played outside the United States, is worth \$2,250 to the winner and \$1,750 for second place.

PGA's Prize Pupil Has 2-Stroke Speedway Lead

INDIANAPOLIS, Ind. (AP) — John Schlee, prize pupil of the PGA's 16-day rookie school this spring at Palm Beach Gardens, Fla., carried a two-stroke lead into today's second round of the \$85,000 Festival Open Golf Tournament.

The slim 27-year-old former Memphis State athlete used only 23 putts in shooting a six-under-par 66 over the new 7,179-yard Speedway course Thursday. Fairways are so far from perfection that the pros were allowed to improve lies without penalty.

Johnny Post and Dale Douglass were in with 66 when Schlee birdied the last two holes to get in front. He had started his collection of nine birdies by chipping in from 50 feet on the first hole.

His round was marred only by a bogey on No. 10 when he missed a four-foot putt, and a double bogey on No. 15 where he was against a fence and then in a trap.

OLD PUTTER

Schlee used a 1947 putter which had been a paper weight in a sporting goods company's office until he begged it. It helped get him a second place in the Minnesota Classic.

No-Hits IL Foe

By the Associated Press The Rochester Red Wings' Dave Vineyard has pitched the first nine-inning no-hitter of the International League season.

Vineyard did it Thursday night in a 1-0 victory over the Toledo Mud Hens in the second game of a twin bill. The Wings also won the first game, 3-2.

Cheerleader Coker Connects

Redlegs Unleash Reserve

By The Associated Press
Cincinnati's third-string catcher has switched from morale-booster to fence-buster and the Reds are turning the corner in the National League scramble.

Jim Coker, a forgotten man in Cincinnati for two years, belted a grand slam homer Thursday night as the Reds continued their upswing with a 7-5 victory over the Chicago Cubs.

The Reds have won eight of their last 10 games and 10 of 16

since Dave Bristol replaced Don Heffner as manager two weeks ago after an 11-game losing streak toppled them into eighth place. Coker, the club's No. 1 cheerleader and No. 3 receiver — behind John Edwards and Don Pavletich — since 1964, has caught in 10 games during the Reds' revival and has homered in two of the last three. He had only one home run before connecting Tuesday night against the Cubs and had hit just three

for the Reds prior to this season.

While Coker's second career grand slam powered the Reds past the Cubs, the streaking St. Louis Cardinals, led by hot-hitting Orlando Cepeda, outscored Atlanta 7-5 in the only other NL games scheduled. The victory was St. Louis' fourth straight and 10th in 11 games.

Coker's bases-loaded blast off Curt Simmons capped a five-run explosion in the first inning. The Reds added two runs in the third when Tommy Helms doubled for his seventh consecutive hit and Deron Johnson cracked his 12th homer.

Ernie Banks hit a two-run homer for the Cubs, who have dropped six of their last seven

while yielding 15 opposition homers.

Cepeda, the league's No. 2 hitter, lifted his batting average to .357 and extended his hitting streak to 13 games with a double and homer as the Cardinals climbed into fourth place, seven games off the pace.

BIG RALLY

The St. Louis first baseman triggered a five-run rally in the second inning with his 17th homer, helping Bob Gibson pick up his 13th victory. Gibson left in the eighth with a sore elbow after yielding five hits and the Braves closed the gap with three runs in the inning.

Two-run triples by Dai Maxhom for the Cubs, who have dropped six of their last seven

World Soccer Finale Slated for TV

LONDON (AP)—A world-wide television audience will see Saturday's World Soccer Cup final between England and West Germany.

The game—the climax of a three-week tournament involving 16 national teams—will be shown live in 29 countries including the United States.

Another 30 countries will see video-tape recordings of the match later.

Bookies made England a 4 to 7 odds-on favorite. West Germany

which won the trophy in 1964, carried odds of 11 to 8 against.

The Germans were hoping to get two injured players fit for the game. Goalkeeper Hans Tilkowski has a stiff shoulder and

rightback Horst Hottges has a sore ankle.

Al Ramsey, England's team manager, had to make the hardest decision of his life—whether to play inside forward Jimmy Greaves in the final.

Greaves is rated one of the world's greatest goal-grabbers. But in the first three games of

the World Cup he didn't score once.

Then he injured his knee. Ramsey brought in Geoff Hurst as replacement and England clicked into its best form for years.

Now Greaves is fit again.

Big Prize for Tuna

ST. JOHN'S, New foundland (AP)—The provincial government put up a \$1,000 prize Thursday for the first 1,000-pound tuna caught in Newfoundland waters.

NBA Franchise in Agreement

Battle Creek Becomes St. Louis 'Farm'

ST. LOUIS (AP)—The St. Louis Hawks announced Thursday they had signed the first complete working agreement with a minor league team in the history of the National Basketball Association.

The Hawks said they had signed a farm agreement that calls for them to provide the complete roster for the Battle Creek Braves of the North American League.

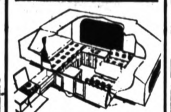

"There have been limited arrangements with clubs in the league and with teams in the Eastern League in the past," said Hawks owner Ben Kersey. "But this marks the first time that a full working agreement has been worked out between an NBA team and a minor league club."

Battle Creek is a new entry in the North American League, which is primarily a weekend league. The Hawks said the coach would be Glen Mankowski, former St. Louis University star.

The Hawks will continue their limited working agreement with Wilkes Barre, Pa., of the Eastern League.

TEENING OFF

Unless a chain of events clicks to a halt, a Bloomfield Hills bowler will hang up the second 300 game of his career before the New Year rolls around.

He won't spend a lot of time at the lanes looking for 300 game No. 2, but when it comes, he won't be surprised.

The bowler, who's also a golfer, is Bill Kirkland, 36-year-old purchasing director of the Rochester Paper Company in Rochester.

Bill's not the superstitious sort, but he's got himself sold somewhat on the No. 13 and on the oft-repeated statement that history repeats itself.

The chain of events that leads Bill to believe that history may do an encore started in 1951.

In February of 1963, Bill and his wife, Betty, became the parents of their third daughter—on Valentine's Day.

On June 4, which was his 19th

14-Year-Old Breaks Mark

ST. PETERSBURG, Fla. (AP)—Kati Ball, 14-year-old swimming star from Jacksonville, broke one American record Thursday night and set her sights on another one today in the Florida AAU Junior Olympic swimming Championship.

The teen-ager bettered the American senior women's record for the 200-yard backstroke, swimming in the 13-14 age group. Kati was timed by four watches at 2:25.0, clipping nearly six-tenths of a second off the mark.

Today she will try to better her own national record of 107.4 for the 100-yard breaststroke.

Argos Sell Pair Ends
VANCOUVER, B.C. (AP)—Rookie ends Len Prkeitch of Oregon State and Mel Profit of California were sold Thursday to the Toronto Argonauts by the British Columbia Lions in the Canadian Football League.

Curtis Cuppers Ready to Start

International Matches Led by U. S.

HOT SPRINGS, Va. (UPI)—A young determined squad, boasting the best amateur women golfers from the British Isles, appeared a strong challenge to the U.S. today as the 14th international Curtis Cup matches moved to the tee.

The British team, containing five rookies, was a slight underdog to the U.S. women's team as the first day of action opened on the rolling Cascades Golf Course.

The U.S. leads in the semi-annual Curtis Cup series with nine wins against two victories for British Isles women and two ties.

Hot weather in the southwest Virginia mountain country was expected to make the play a test of endurance. Course officials said the sprawling Cascades was expected to play shorter than usual because of the dry conditions.

The last Curtis Cup action saw the United States take its third straight win 10½ to 7½ at South Wales.

Canadian Loop Starts
EDMONTON, Alta. (AP)—The Canadian Football League regular season opens tonight with the Saskatchewan Rough Riders playing the Edmonton Eskimos.

SPARKS ON SWIMMING

(EDITOR'S NOTE: This is the eleventh in a series of 20 articles in which author and swimming coach Christian B. Sparks offers tips on swimming for beginners and experts.)

By CHRISTIAN B. SPARKS

If you are swimming along in deep water and you bump into someone, can you stop, still keep yourself afloat, level off and swim on across the pool?

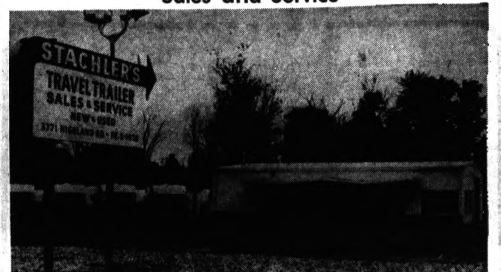

For such cases as this, we must learn to tread water. Treading water means staying afloat with the body in a vertical (up and down) position. It is done by sculling or finning (twisting the hands from side to side in a horizontal figure eight (80) pattern) and combining the sculling of the arms with a scissor, frog or flutter kick (preferably the scissor).

The ultimate aim is to tread

Golf Friends Pay Respects to Lema-Wife

OAKLAND, Calif. (AP) — More than 1,000 turned out Thursday to pay their respect to golf professional Tony Lema and his wife, Betty.

Eight priests who knew and played golf with Lema shared in offering the Mass of Concelebration at St. Elizabeth's Church whose high school the one-time British Open champion had attended when he wasn't caddy.

The Lemas were killed with two others Sunday in a private plane crash on a golf course in Lansing, Ill. Lema was 32, his wife 30.

Attending the Requiem Mass was his mother, Mrs. Claudine Lema, his two brothers and his sister, Mrs. Lema, a widow for 28 years, raised Tony in nearby San Leandro, where she still lives.

Among the 12 pallbearers were fellow professional Ken Venturi and former tour roommate Tommy Jacobs, chairman of the Professional Golfers Association tournament committee.

Before the bodies were taken to the Holy Sepulchre Mausoleum in nearby Hayward, The Rev. George Monaghan said in eulogy:

"He was a charming child and an active child. But it was remarkable how he carried these qualities with him into manhood and into the world of fame. He never got conceited or pompous and he never ignored his old friends."

Local Jaycees Set Golf Tournament

A 36-hole open golf tournament sponsored by the Union Lake Jaycees is on the schedule at Baypointe Golf Club for August 13-14.

Kenneth Cockin, head of the tournament committee, said the golfers would be divided into flights for the final 18 holes. Golfers may register at Baypointe, Haggerty Road, or by calling Cockin at 353-0909.

Ex-Pro Football Owner Dies in Chicago at 82

CHICAGO (AP) — Dr. David J. Jones, a former owner of the old Chicago Cardinals professional football team, died Thursday in Augustana Hospital of a heart ailment. He was 82.

Dr. Jones bought the football team in 1929 for \$12,000 and sold it in 1933 for \$50,000 to the late Charles W. Bidwell. The team moved to St. Louis several years ago.

The U.S. ambassador in Damascus, Hugh Smythe, reached by telephone from Beirut, declined comment and said all information would have to come from Washington.

Cavanagh, Williams Battle Over Money Issues in Primary Race

By The Associated Press
Money issues arose in the Democratic senatorial primary Thursday. Is Jerome P. Cavanagh backed by money from Henry Ford II and James Hoffa, and was G. Mennen Williams responsible for Mich-

igan's "payless paydays" in 1965? Cavanagh said Ford, chairman of Ford Motor Co., has contributed to his campaign but "I'm not even sure how much it was." The Detroit mayor said Hoff-

fa, president of the Teamsters Union, has endorsed him but, "to the best of my knowledge, there has been no Teamsters contribution, except for the possibility of some ticket purchases by individuals at fundraising dinners."

Cavanagh commented in response to questions from newsmen, after Williams was quoted as describing Cavanagh as "the candidate with the Ford and Hoffa millions behind him."

Campaigning in his home town, Cavanagh said it was "curious" that such a statement should come from Williams. He said Williams is heir to a fortune in the Mennen Soap Co.

"which, by the way, is the biggest nonunion shop in New Jersey."

A retired auto worker, standing in a crowd of 200 at Garden City, questioned Williams about the state's failure to pay its workers their salaries on a number of paydays in 1966.

"I always voted Democratic," the worker said, "but I have my doubts this time unless you can explain the things said when you left office about the payless payday, and did you chase business out."

BLAMES REPUBLICANS

The former governor for six terms from 1948 to 1960 replied:

"There was money in the treasury to pay for all the wages. But because of a very complicated system, the governor and treasurer could not touch the money. The Republicans who controlled the Legislature did not pass the needed legislation until a week after the payday."

Williams said "Business did go out of the state but there were really more new industries that came into the state than went out."

"In Michigan," he said, "we're dependent on the national economy. In the Republican years of 1953-61, we suffered three recessions. Now we have the Democrats in power and the national economy has grown 50 per cent."

GRIFFIN CANCELS

Meanwhile, Sen. Robert P.

Griffin, R-Mich., who will face the winner of the Democratic primary next November, canceled today's scheduled return to Michigan from Washington. He was to have campaigned in the Bay City area.

Griffin said he remained in Washington to work with other members of the Senate Labor Committee on a proposal to leave with President Johnson a decision to order striking machinists back to work on five major airlines.

U.S. Pilot Who Escaped N. Viets Is Hospitalized

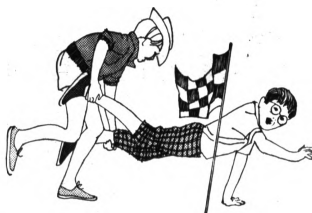

SAN DIEGO, Calif. (AP) — Navy pilot Lt. Dieter Dengler, who escaped his North Vietnamese captors and fled over mountains and through jungles for 23 days, is being treated at Balboa Naval Hospital.

While confirming Dengler's presence, hospital sources declined to give his condition and said all other details must come from the Pentagon. Dengler was admitted Wednesday night.

Dengler, 28, Pacifica, Calif., was rescued by a helicopter.

CIA Director Apologizes to Fulbright

Dwight Eisenhower

Ike's Condition 'Not Alarming'

Hospitalization Said for Routine Studies

WASHINGTON (AP) — An emergency physician says from all indications there is "nothing drastic or alarming" about the condition of former President Dwight D. Eisenhower, who is back in Walter Reed Army Hospital for what is described as a routine checkup.

The doctor said the general of the Army entered the hospital last week on a scheduled visit, returned to his Gettysburg, Pa., home for the weekend, then re-entered the hospital Monday. After his presence became known publicly Thursday, a hospital spokesman said the former president is there for "routine follow-up studies regarding his arthritis and heart condition."

NO EMERGENCY

Eisenhower suffered heart attacks in 1955 and last fall and was hospitalized three months ago for treatment of osteoarthritis.

The physician indicated no emergency was involved in Eisenhower's hospitalization. He told a reporter that as far as symptomatology—outward signs—are concerned, there has been no appreciable change in Eisenhower's general condition since he was released from the hospital three months ago. In fact, the doctor reported marked improvement in Eisenhower's arthritic condition.

Accused Killer of Two Takes His Own Life

WEST PALM BEACH, Fla. (AP) — A man accused of murdering his bride of a month and her sister at a summer cottage in Indiana last weekend shot and killed himself yesterday when cornered by police.

Stephen Bruce Wolf, 30, of Marion rammed a police car trying to stop him on a bridge, bounced off the railing, hit a passing car, then jammed his own car in reverse, striking a Florida Highway Patrol car that had been pursuing him, police said.

When Wolf couldn't get his own car started, he pulled a .22-caliber automatic and a two-shot derringer, placed them against the temples on both sides of his head and pulled the triggers at the same time, officers said. He apparently died instantly.

Wolf was charged in Indiana with strangling and stabbing his bride, Marilee, 22, and her sister, Gayle Gaunt, 17.

Their bodies were found at the cottage at Lake Tippecanoe, about 50 miles northwest of Fort Wayne Monday morning.

More than 65 ships pass daily through the Suez Canal, making the 161-mile voyage in 15 hours.

Promote A Good Judge

Elect Judge McCallum
Circuit Judge

WASHINGTON (AP) — The new director of the Central Intelligence Agency has apologized to Sen. J. W. Fulbright for a letter expressing pleasure at newspaper editorial criticism of Fulbright.

But CIA head Richard M. Helms still is scheduled to go before Fulbright's Senate Foreign Relations Committee in closed session today, certain to face questioning about the letter published over his name in the St. Louis Globe-Democrat.

After disclosure of the letter triggered protests and criticism in the Senate, it was learned Helms telephoned Fulbright,

apologized and told the senator in substance "It was a mistake and I regret it."

The Arkansas Democrat confirmed receiving the call from Helms. He said the CIA director told him "he was sorry and regretted the letter and said he didn't really feel that way about me."

GLAD TO HEAR IT

"I was glad to hear that," Fulbright said.

The letter which touched off the controversy said: "I want to let you know of my pleasure in reading the editorial 'Brickbats for Fulbright' in the Globe-Democrat of July 8.

"It reflects so well your

paper's policy of 'printing the news impartially, supporting what it believes to be wrong without regard to party politics.'"

The editorial concerned the Senate's action sidetracking an effort by the foreign relations committee to gain a role in Senate supervision of the CIA.

COMEUPPANCE

"Sen. J.W. Fulbright has been given his comeuppance by the Senate," the editorial began. The agency's activities now are overseen by a special Senate committee composed of senior members of the armed services and appropriations commit-

tee. Sen. Eugene J. McCarthy, D-Minn., who led the effort to give members of Fulbright's committee spots on the CIA watchdog panel, brought the letter to the Senate's attention. He said it was "entirely out of order" and said Helms "owed an apology to every member of the Senate."

Senate Democratic leader Mike Mansfield said, "I'm more than a little surprised that the director of the silent service has been fit to write such a letter."

Helms, a career CIA employee, was nominated by President Johnson on June 18 to succeed William F. Raborn as director. The nomination later was confirmed by the Senate.

Money Turmoil Week

Viet Aims Not Clear--Nixon

Tells of Discussions With Europe Friends

DAWSON

By SAM DAWSON
AP Business News Analyst
NEW YORK—This has been money turmoil week for the government as well as the ordinary citizen. For both, whether they're borrowing or investing, the crisis has developed fast.

Uncle Sam is offering to pay the highest interest rate in 45 years to those who will lend him money.

The House Banking and Currency Committee voted to get a much lower ceiling than that for what banks can pay to get money from savers—those who would buy Certificates of Deposit of \$100,000 or less. The administration then changed its stand and now favors letting the monetary authorities set this ceiling, not the Congress.

A Senate Housing subcommittee approved a plan to pump \$2 billion or more into the housing mortgage market, currently short of cash, and originator of the furor over CDEs. Home building spokesmen flocked to Capitol Hill to demand that more credit be made available for mortgages.

CONFERENCE TOPIC

And Prime Minister Wilson comes calling on President Johnson to discuss among other things, the money crisis in Britain, where the pound sterling has been taking a drubbing.

The tightness of the U.S. money market is dramatized by the U.S. Treasury. It offers to pay 7 1/2 percent to refund \$14.9 billion of securities maturing in August and November. Its offer includes a new certificate due Aug. 19, 1967, and a new note due May 15, 1971. By law the Treasury cannot pay more than 7 percent on securities of more than 5 years duration.

In addition to this refunding,

the Treasury plans to raise about \$7 billion of new cash in the second half of 1966. How the interest rate crisis develops will determine what yield the Treasury will have to offer to lenders in the next few months. Treasury borrowing would have to increase beyond \$7 billion, if Viet Nam war spending expands more than now predicted.

For the citizen, the interest rate turmoil has centered this week in the fields of home mortgages and how much commercial banks can pay on smaller denomination certificates of deposit.

MORTGAGE MONEY

Some would-be home buyers have found mortgage money hard to come by, and expensive to carry when found. Home builders have charged that in some areas construction has been stifled by lack of funds. They blame the banks for siphoning off savers' deposits with higher interest rates than the savings and loan associations—big source of mortgage money—could pay.

The House Banking and Currency Committee reported out a bill putting a temporary 4.5 percent ceiling on the rate of \$100,000 or less. The aim would be to send the savers out of the banks and back to the savings and loan associations, thus providing more funds for mortgages.

The Senate Housing subcommittee voted to let the Federal National Mortgage Association—Fannie Mae—borrow more money in the private market; it could buy more government-backed mortgages from private mortgage lenders. This would free money for new mortgages, giving it a boost of \$2 billion or more.

How all the conflicting ideas, about what to do about high interest rates, will be resolved remains to be seen. It's a puzzle, never as July draws to a close.

DIETER DENGELER, THE 29-YEAR-OLD NAVY PILOT WHO MADE A DARING ESCAPE FROM COMMUNIST CAPTIVITY AND WANDERED FOR 23 DAYS IN THE JUNGLE BEFORE BEING RESCUED LAST WEEK BY AN AMERICAN HELICOPTER.

Tass said Dengler was captured with a German passport from the town of Calw, issued July 17, 1964. The agency said he was born in Wildberg, Germany, although the U.S. Defense Department said his home was in Pacifica, Calif.

Dengler was the first U.S. war prisoner to escape from the North Vietnamese.

BUNDESWEHR OFFICER

Ivan Schchedrov, Prava's correspondent, said Dengler was a "Bundeswehr officer" (who dressed in the uniform of an American pilot and, flying an American jet bomber, bombed many peaceful Laotian and Vietnamese villages).

By ROGER E. SPEAR

Q: "We have \$20,000 in the savings bank. I retire in two years with approximately \$40,000. I have a profit-sharing fund of the company. We will then have no income other than Social Security and interest from savings. Should we invest part of the \$20,000 now in stocks?"

M. H.

A: With retirement approaching, you appear to have two good nest eggs to ease the transition. I go along with your idea of investing part of your current savings. If market conditions two years hence so warrant, a somewhat similar policy might then be followed.

Half of your available funds could be placed in approximately even dollar amounts of Standard Oil of Indiana, First National Bank of Chicago, Commonwealth Edison and M.I.L. Laboratories. The income on the stocks would probably be moderately under the interest on your savings but the longer factor should, over the longer term, be a most satisfactory compensating offset.

(Copyright, 1966)

News in Brief

Gary Warden of 4755 Dixie, Watford Township, reported to township police yesterday the theft of a tachometer valued at \$850 from his car which was parked behind 5240 Williams Lake.

Watford Township police are investigating a burglary at White's Nursery, 71 S. Cass Ave., in which an electric typewriter worth \$100 and an undetermined amount of change were taken.

Jack Gansel of 618 Millwood, Highland Township, reported to Oakland County Sheriff's deputies yesterday the theft of a canoe valued at \$200.

Representatives of Realty Firms Attend Seminar

Representatives of five area realty companies are attending a seminar for real estate executives at Ann Arbor.

The seminar was sponsored by the University of Michigan Graduate School of Business and the Michigan Real Estate Association.

Attending are Bruce J. Annett of Annett Inc., Realtors; Carl L. Avery, Jr. of Prudential Real Estate, Inc. of Romeo; and B. R. Brock of Max Brock, Inc., David H. Dodson of C. M. Harmon Co. and Philip A. Hall of Hall and Young, Inc., Realtors, all in Birmingham.

This program is the first of its type for leaders in the real estate field, according to William J. Carey, associate director of management education at the university.

Pants Ruled Out

SEATTLE, Wash. — Clara Anderson didn't expect to have to testify when she went to court recently, and she didn't.

"I can't allow a lady in pants to testify," said Judge James W. Hodson after Mrs. Anderson's lawyer had called her to the stand.

By JACOBY & SON

We are repeating the hand of May 28 today. At that time we devoted so much space to a discussion of the bidding that we were unable to explain the play completely. If West opens any suit except trump, the slam is a cinch but West should open a trump. South wins in his own hand and must lead a diamond at trick two.

The correct diamond to lead is the seven spot. South wants to make it look as if he plans to go up with dummy's queen so that West will be sure to rise with the king if he holds that card.

West does not hold the king and will play low. South plays dummy's four and if East rises with the king, South's worries are over. He will be able to reach dummy with the queen of diamonds in order to discard his losing heart on the ace of clubs.

If East has an inspiration and ducks, South can still make the hand. He must play a second round of trumps to leave one trump in the West hand. Then he plays ace and another diamond.

If West trumps he can do anything he wishes but South will get to dummy later by trumping a good diamond. If West does not trump, South will. In this case South will actually make a grand slam because he will be able to pick up West's last trump.

Now for an apology. When South leads the seven of diamonds at trick two West can play the jack. If he does this, there will be no way for South to make the hand. Several readers have seen this play.

We overlooked it because it is the sort of play that would never be made at the table, at least almost never. If the hand were played a thousand times we guess that some West would actually play the jack on the seven.

Would you, if you were in looking at all the cards?

CHORD SEVEN

Q—The bidding has been:

West North East South

Pass 1 ♠ Pass 1 ♠

Pass 3 NT Pass 2 ♠

You, South, hold:

♠ A K 8 7 6 5 4 3 2 ♠ A 4 3 2

What do you do?

A—Bid three hearts. You only have 13 points but all but one are in suits and kings. If your partner holds a long diamond suit, you are interested in a slam.

TODAY'S QUESTION

Your partner continues to four clubs. What do you do now?

Answer Tomorrow

An estimated 500,000 cars are driven into New York City's Manhattan area every working person. The vehicles carry 806,000 persons.

X15 Gathers 'Dust' at 45-Mile Height

EDWARDS AIR FORCE BASE, Calif. (AP)—Gathering of micro-meteorite "space dust" was the reason for the latest flight of the X15 rocket plane.

Pilot Jack McKay eased the plane to 3,682 miles an hour at 238,000 feet—45 miles—Thursday while gathering the tiny particles in a wing pod lined with adhesive plates.

The National Aeronautics and Space Administration spokesmen said after the flight that the samples will be studied to determine dust distribution in space near earth.

More of Same

WAYNESBURG, Pa. (AP)—Waynesburg's residents didn't have to wait too long to see this community's "rain day" tradition ring true. Rain began falling in Waynesburg today at 5:06 a.m., according to Patrolman Dennis Fox.

That made it the 84th time in 90 years that it had rained here on this date.

Astrological Forecast

By SYDNEY SHARR

For Saturday

"The wise man controls his destiny. Astrology points the way."

ARIES (Mar. 21 - Apr. 19): You feel full of family demands, responsibilities. See, however, otherwise, work is affected. And you lose face with friends, neighbors. Make this a day to ACHIEVE UNDERSTANDING.

TAURUS (Apr. 20 - May 20): Family reunions, messages, calls provide spice. Journey contemplated earlier could face delay. Be sure of witty certain events. Take nothing for granted now.

GEMINI (May 21 - June 20): Emphasis on purchases, sales, contracts in mate or partner. You gain if partner is not there is indication which proves costly. Know this—act accordingly.

CANCER (June 21 - July 21): Restlessness dominates. You want to put out of your mind. How you can—hold be sure you keep promises. Finish task so you see clearly. Future becomes brighter.

LEO (July 22 - Aug. 21): Emphasize basic, practical. You are facing a comparatively new situation. Realize it—use yourself time to adjust. Friend who is reckless should be ignored.

VIRGO (Aug. 22 - Sept. 23): Wise decisions—necessary to avoid friendship. Follow conscience—practice GOLDEN RULE. Then you gain allies instead of enemies.

LIBRA (Sept. 24 - Oct. 23): You are ground—then hold it. Means don't give up because of mere inconvenience. Stress versatility. Sense of humor also serves your purpose.

SCORPIO (Oct. 24 - Nov. 21): See persons who can guide you, but don't let your mind be clouded by good advice. There is confusion. Forces appear to be working in your details. Then course straighten.

SAGITTARIUS (Nov. 22 - Dec. 21): If you are not wary—financial upsets occur. Conserve resources. Make creative changes, decisions. Marriages of opposite sex due for constructive suggestion.

Births

The following is a list of recent Pontiac area births as recorded at the Oakland County Clerk's Office (by Name of father):

- Russell S. Bracwell, Rochester
- Charles E. Bracwell, 230 Alton
- Jerry L. Hamilton, 401 Home
- James H. McDonald, 130 Lakota

A Junior Editors Quiz About GIRAFFE

QUESTION: Why can't a giraffe make any sound?

ANSWER: Actually, giraffes are not completely voiceless. Zoo keepers and hunters have heard them, at certain times, make mooring sounds.

But it is true that the giraffe rarely uses his voice.

The reason is that his voice box, or "larynx," where sound is produced in animals and people, is very poorly developed.

But the giraffe has other abilities. His long neck enables him to reach tree leaves for food.

And from the lofty position where he holds his head, he can look far away and detect dangerous animals before they get too close. (A).

Then too, his checkered body pattern makes him difficult to see when feeding in foliage, which sunlight turns into a checkerboard pattern similar to his own. (B).

When galloping, he can outrun most horses and can also "pace" (C).

Lastly, (D), a giraffe can fight. He has dynamite in all four hoofs and can swing that long neck as if it were a club. Using his head as a weight, he can deliver a blow of tremendous force.

FOR YOU TO DO: Guess how many vertebrae there might be in a giraffe's enormous neck. 18, 20, 25? Wrong. There are only 7.

4 Congress Races Hold Key for GOP

DETROIT (AP)—Republicans are favored over former U.S. Rep. George Meader for the day for four tight Congressional Republican nomination. Each is races which the GOP hopes will lead it back to control of the Michigan delegation at the expense of freshman Democrats. Seventeen of 18 incumbent congressmen are expected to have little difficulty winning re-nomination in the primary election. The exception is Rep. Lucien Nedzi, D-Detroit, challenged by former Rep. Harold Ryan, D-Detroit, in a campaign centering on open occupancy.

The only district without an incumbent is the 9th of the northwestern Lower Peninsula, vacant since Robert Griffin, R- Traverse City, was appointed U.S. senator.

The winner of a three-way nomination. He stresses he is a fight for a Republican nomination in the 9th, will be heavily favored in November.

In 1964, Democrats used re-districting and the Johnson landslide to turn an 11-4 deficit into a 12-7 advantage in the congressional delegation.

Republicans hope the candidates they pick Tuesday will be able to recapture an 11-8 margin for the GOP.

Here are the situations in the four districts seen as marginal in November:

Second (Ann Arbor-Monroe area)—State Rep. Marvin Esch (11,000 votes).

Nineteenth (suburbs north of Detroit)—Three-way Republican race principally matches moderate Jack H. McDonald, former chairman of Wayne County supervisors, against Richard D. Kuhn, Waterford Township conservative who lost in 1964 to Democrat Billie Farnum by 11,000 votes.

Listen, Chris, if they give you the boats and you go and you fall off the edge, don't come crying to me.

People who play it cautious seldom discover new worlds.

On the other hand, the 95 million adults who read the newspaper every day suffer from burning curiosity. They want to know what's new, what's better, what's going to change their lives.

If you're selling something that's new or better or can bring a little more pleasure into people's lives, turn to the newspaper reading public first. These are the people who've got their eye on the horizon.

Violent Storms Sweep Plains

Welcome Showers Spread Across East

By United Press International

Welcom summer showers spread across the East today while the Great Plains recovered from a night of violent storms.

More than an inch of much needed rain fell along the mid- and North Atlantic states and westward across the Plains.

A violent storm rumbled out of the mountains west of Denver, Colo., last night, triggering a flash flood and unroofed several homes in the suburb of Littleton. There were no serious injuries.

Except for the Eastern rains and the thunderstorms in Nebraska and South Dakota, the remainder of the nation enjoyed clear skies today.

More than 2 1/2 inches of rain soaked Peoria, Ill., and funnel clouds were reported at scattered spots in Illinois, Nebraska and Wyoming.

Training School TB Discovered

LANSING (AP) — Health workers are testing the more than 500 boys and staff workers at Boys Training School for tuberculosis following discovery of the disease in a cafeteria worker, the school's director reports.

Director Paul Spata said staff members are tested for tuberculosis once a year, but the employee, who supervised boys in the cafeteria, had been on the staff only six months.

LANSING (AP) — Gov. George Romney has proclaimed Aug. 14-20 as G.A.R. Week in Michigan, to commemorate the 100th anniversary of the founding of the Grand Army of the Republic.

Sources See Peace Despite Sukarno Talk

JAKARTA (UPI) — Indonesia will end its hostile confrontation with Malaysia within two weeks, whether President Sukarno likes it or not, a highly informed source said today.

They said Sukarno's emotional statement yesterday that confrontation would continue until Malaysia complies with an unacceptable demand to hold a plebiscite in Borneo had no meaning in the present situation.

The sources disclosed that an Indonesian diplomatic mission visited Kuala Lumpur, the Malaysian capital, this week and made arrangements for a five-man Malaysian mission to come to Jakarta next week.

The sources said the Malaysian mission would "probably" be followed within two weeks by Malaysian Deputy Premier Tun Abdul Razak, who will sign the agreement putting a formal end to the three-year-old guerrilla war in Borneo and across the Malacca Strait between Sumatra and the Malay mainland.

WASHINGTON (UPI) — Republican leaders in Congress see a "very frightening" trend toward inflation in the rising cost of living, and they are accusing President Johnson of bragging about it.

Senate party leader Everett M. Dirksen, Ill., and his House counterpart, Rep. Gerald R. Ford, Mich., said yesterday the refusal of the Johnson-Humphrey administration to check nonessential federal spending and to stem this inflation is beyond all understanding.

Ford quoted Johnson as saying in a speech at Des Moines, Iowa, last month: "When these folks start talking to you about inflation, you tell them that is something you only have to worry about in Democratic administrations."

Ford commented: "Seldom has such a public confession been heard."

\$51-Million OU Program Detailed

By PAT MCCARTY

A \$51-million building program at Oakland University — all to be started within the next three years — was outlined today by OU Chancellor Durward B. Varner.

The program detailed by Varner in a speech at the Elks Temple includes \$22.5 million for new academic facilities and

\$12.5 million to build dormitories for another 2,016 students.

Also scheduled is construction of a \$3-million concert hall, a \$2-million theater, \$1-million student health center, \$2.5-million conference center, \$1.5-million addition to Oakland Center and a \$4-million heating plant.

"Much of this is committed," Varner said. "The balance is a

combination of reasonable assurances and realistic projections — but, always contingent on factors beyond our control."

Varner said the construction program would involve "three-way development," based on legislative appropriations, self-liquidating projects and gifts and grants.

The chancellor said the Legislature has committed itself to

spend \$9 million for new construction and has agreed to finance the planning for another \$10 million worth of construction.

He suggested that the Legislature might back \$26 million worth of construction and that \$15.5 million worth could be self-liquidating projects financed by fees and other income.

The university would hope to raise \$9.5 million through gifts and grants from foundations, institutions, corporations and individuals, Varner said.

By 1969, OU's 10th year of operation, it will have an enrollment of 5,990. Varner predicted. The projected enrollment for 10 years beyond that is 20,090.

Noting that the projections

would seem "shocking," Varner reminded his audience that Michigan State University, with which OU is affiliated, has shown a similar pattern of growth.

Michigan's rapid population growth has been an "overriding factor" in higher education in the state, he said.

Next year, MSU is expected to enroll 38,000 students, the

University of Michigan 33,000, Wayne State University 30,000 and Western Michigan University 18,000. Varner noted.

"Within 10 years, college enrollment in the state will double — if we can handle it," he said. "This involves some serious problems."

ALTERNATIVES
One of the alternatives is to expand the state's community college system, Varner said.

"We are pleased with the dramatic beginnings of Oakland Community College, and we hope Wayne County follows suit," he said.

However, Varner noted that community colleges "might even aggravate the pressure" on the four-year institutions.

Although they relieve pressure for the first two years, they encourage higher enrollments by making college education available to more students, he said.

CLOSE THE DOORS

"Another alternative is to close the doors and say we simply can't accommodate any more," Varner said. "This is intolerable for all the people of Michigan, because we're talking about your and my children."

The chancellor suggested that the answer to higher education problems might be "to develop, build and expand new campuses."

"There is a kind of inevitability about the role of Oakland University," he said. "This is not necessarily our goal, but a fact of life."

The buildings he envisions will be started within the next 36 months. They will be completed and in operation within five years, he said.

NEXT 12 MONTHS

To be started in the next 12 months is some \$17.5-million worth of construction.

This will include a \$5-million engineering — biology building to be the second structure in a proposed science — engineering quadrangle.

A \$4-million classroom — office building has been designed for general use but will have special facilities for the fine and performing arts.

Built in conjunction with that will be a \$2-million theater with capacity for 1,250 persons.

TO HOUSE 616

A \$3.5-million dormitory also will be started to house 616 students.

Other construction will include a \$1.5-million addition to Oakland Center, a \$1-million student health center and \$500,000 worth of work to complete the intramural building and expand the sports and recreation field.

The \$15-million worth of construction planned for 1967-68 includes a \$6-million classroom-office building for the School of Education and division of social science, a \$4-million heating plant and distribution system and a \$5-million dormitory to house about 800 students.

During 1968-69, some \$18.5 million is planned (Continued on Page 2, Col. 1)

Johnson Takes Over in Air Strike, Urges Bargaining Settlement

WASHINGTON (AP) — President Johnson took over the airline strike negotiations today and told both sides he wants them to reach agreement through collective bargaining.

After a White House meeting with Johnson, 11 men from the management side and 11 from the union side marched across the street to the executive office building and went into session once more.

White House press secretary Bill D. Moyers said Johnson set no deadline for action.

"He said," Moyers reported, "that collective bargaining is the free, democratic way of settling the differences you have this morning that's a better way than legislating the breaking of a strike, or seizure, or presidential fiat."

Moyers, talking with newsmen after sitting in on the original session in the Cabinet Room, said Johnson feels that continued, prolonged negotiations now are no more likely to bring about a settlement than intensified, concentrated bargaining.

"This is the crunch, in a sense," Moyers said.

It appears, Moyers said, that the differences between labor and management have been narrowed to something less than \$25 million.

He said the companies have been offering about \$60 million above present pay and benefit standards and the unions have come down on their demands to \$30 million or a bit more.

Moving in on the negotiations with an after-midnight summons calling the parties to the White House, Johnson beat Congress to the punch on an effort to dump the dispute into his lap.

The move at the Capitol was to give the President authority to stop the strike, and the responsibility for picking a time for such action.

Sniper Threat Delays Wilson

Prime Minister in D. C. for LBJ Talk

WASHINGTON (UPI) — A sniper scare today caused Prime Minister Harold Wilson to be 15 minutes late for the start of a White House conference with President Johnson, a British spokesman disclosed.

The spokesman said a man was reported seen this morning in the vicinity of Blair House, where Wilson spent the night, carrying what appeared to be a wrapped-up rifle.

A search of nearby office buildings turned up no evidence of the man or a weapon, however.

Wilson arrived here by plane from London late last night and spent the night at Blair House, the President's guest house for foreign visitors across Pennsylvania Avenue from the White House.

The prime minister and the President were scheduled to meet at 10 a.m. EST in the west wing offices of the chief executive.

Stiff British Plan for Price-Wage Freeze Detailed

LONDON (AP) — The British government today announced a massive plan for a price and wages freeze to be fully enforced by law.

The economic policy is stiffer than any imposed on prices and wages in World War II or in the years that followed.

The proposals designed to save the pound sterling were promptly assailed by industry leaders and there was grumbling from unions.

There will be a general standstill on prices and incomes until the end of this year, followed by a six-month period of "severe restraint."

U.S. Airpower Gives N. Viet Worst Pasting

Over 375 Attacks Flown Against Sites in Yesterday's Action

SAIGON, South Viet Nam (AP) — American pilots gave North Viet Nam its heaviest pounding of the war yesterday with more than 375 strike sorties against targets from the 17th Parallel to a missile site near Haiphong.

The cost was one Navy jet shot down by ground fire. The Reds fired only three of their Soviet-built surface-to-air missiles, and all missed, a U.S. military spokesman said.

Clearing weather and a heavy concentration of Navy planes and Marine aircraft which started flying bombing raids against North Viet Nam 10 days ago enabled the Americans to send up about 60 more sorties than had previously been flown in one day against the North.

A sortie is one attack flight by one plane.

A military spokesman said the record number of attacks again concentrated on supply targets and Communist fuel.

FISH STORY — A mixed batch of fish is the prize for Chris Sykes, 14, son of Mr. and Mrs. Robert S. Sykes of 512 Virgine Lane, West Bloomfield Township. Using worms as bait, Chris took 45 minutes to catch these fish in Orchard Lake.

South of Panama

Astronaut-Recovery Planes to Hunt U2

PANAMA (AP)—Five American astronaut-recovery planes were alerted for a takeoff today to search for a high-flying U2 reconnaissance plane that apparently flew with its pilot unconscious on a straight-line course from Florida until it crashed somewhere south of Panama.

The plane, with Capt. Robert D. Hickman, 32, of Alexandria, La., at the controls, took off yesterday morning from Barksdale, La., Air Force Base on what a spokesman said was "a routine mission."

It was estimated that the plane's fuel was exhausted by mid-afternoon.

The last radio contact with the pilot was while he was on a southerly course off the coast of Florida.

He was supposed to turn east or west between Sarasota and Key West but did not.

"The assumption is that the pilot lost consciousness, possibly due to anoxia (lack of oxygen)," the Pentagon said.

AUTOMATIC PILOT

The statement added that the aircraft was "under apparent control of the automatic pilot."

A Defense Department spokesman said the last radar contact with the plane was over Panama. U.S. military sources in Panama said efforts to raise Hickman by radio were fruitless.

The air rescue center at Albrook Air Force Base in the Canal Zone organized search operations from Panama south to the Peru-Chile border.

Five planes equipped with special gear for astronaut recovery operations were ordered to the Canal Zone from Kindley Air Force Base in Bermuda and Homestead Air Force Base in Florida.

A U.S. Embassy spokesman in Lima said it was "pretty far-fetched" to expect that the plane got as far as Peru.

HICKMAN

Absentee and paper ballot voters in Tuesday's primary will be able to cross party lines when electing their precinct delegates, according to County Clerk John D. Murphy.

Because the candidates for major offices and the precinct delegates are on separate ballots, it will be possible for the 20,000 or more absentee voters, for example, to vote a Democratic ticket and then switch to the Republican party in electing a precinct delegate.

This not the case with voting machines, where candidates and precinct delegates are listed either under Democratic or Republican headings.

The machines are locked once the party lever is activated. Murphy noted that unlike the other candidates who will be nominated to run in the 8 general election, the precinct delegates are being elected at this time.

Absentee Voter Ballot Deadline

Absentee voter ballots for Tuesday's primary will be available in city and township clerks' offices until 2 p.m. tomorrow, reminded County Clerk John D. Murphy.

The ballots can be filled out when they are picked up, or can be completed at home and mailed back to the clerk by Tuesday.

Split Ballot OK on Delegates

Pontiac voters Tuesday will decide whether full-time elected city officials can join the city's general employe pension plan.

Primary ballots will be headed by a proposal to amend the City Charter to permit the specified officials to join the pension program.

At the present time the city has only two full-time elected officials which would be affected by the charter change, if approved. These are the two Municipal Court judges, who initiated the present ballot proposal.

City voters will be asked to vote "for" or "against" the charter amendment, which also would permit retroactive pension service credit to Dec. 31, 1945, if the officials make up their contributions.

Price of Viet War Paid Twice by Girl

READING, Mass. (AP)—"The Communists have to be stopped somehow by someone," says a young Reading girl who has paid a high personal price—her fiancé and a brother killed a month apart in Viet Nam.

Saturday, Diane Croce, 22, will attend the funeral of her brother, Robert, 20, a Marine lance corporal who was killed July 15, four days after he arrived in Viet Nam.

On July 6, Diane saw the body of her fiancé, Navy corpsman George Cottrill, 20, buried in his home town of Chillicothe, Ohio. He was killed while serving with a Marine unit.

Cottrill and Diane met last July while he was stationed at the Chelsea Naval Hospital. They had planned to marry July 17.

She said they had a home picked out and were buying furniture when he got his order to go to Viet Nam. They postponed the wedding.

ANYWHERE HE WANTED

"We were going to live around here until he got out of the service," Diane said today recalling the plans "and then we would have lived anywhere he wanted to."

Diane's brother was a high school athlete who held the Massachusetts schoolboy record in the pole vault.

Car Safety Talks

EAST LANSING (AP)—Gov. George Romney and other state leaders will tell women's club leaders Aug. 4-6 what they should be doing to improve Michigan's traffic safety records. About 70 delegates from 40 women's organizations will hear Romney, Secretary of State James Hare, State Police Director Fredrick Davids and Roy Hausler, chief engineer of Chrysler Corp.

Secret's Out: Romney Fatter

LANSING (UPI)—The secret's out.

Gov. George Romney has been putting on a little weight. Very little. Three pounds in 24 years, to be exact.

Romney, chuckling to newsmen about his recent checkup at Detroit's Ford Hospital that found him in excellent health, admitted he weighed in—with clothes—at 185 pounds, just three pounds over his first weigh-in at the hospital 24 years ago.

"But with that liquid diet they had me on down there for 2½ days, I've lost five of that," he said. "So I'm skinnier than I was 24 years ago."

For the record, the governor is 5 feet, 11 inches tall and his blood pressure is a "normal" 120/70. He turned 59 July 8, neither smokes nor drinks, and plays a lot of "escalated golf" to keep in trim.

The Soft Whiskey proving ground.

In this day and age of proving products scientifically, we have an unscientific suggestion. Taste ours. One sip and you'll know why we couldn't possibly call it anything but Soft Whiskey.

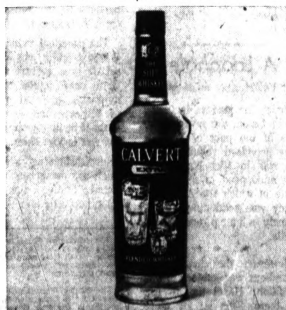

You see, Soft Whiskey is soft. It goes down just like the name says. After that, it acts like any other 86 proof whiskey. It's just that getting there is a whole lot easier.

But how to prove that to you? That was the problem.

After all, Soft Whiskey looks like any other whiskey. And it acts like any other whiskey. So what's left is what we're selling, the way Soft Whiskey goes down.

At which point someone said: "Why not just ask people to try it?" Our first reaction was that that was a bad idea. It wasn't scientific. Our second reaction was that that was a good idea.
