

Four Youngsters Die in Fenton Fire

Mighty Victory Doubles Majority of Conservatives

LONDON (AP) — Prime Minister Harold Macmillan's Conservative government returned to power today with virtually a doubled majority in the House of Commons. A landslide vote of confidence gave the Conservatives a third term and sent London stock prices soaring.

Nearly complete returns this afternoon showed the Conservatives had taken 22 seats from the Labor party in the 630-seat House of Commons.

The Macmillan party, the nearest approach in Britain to a free enterprise party, rode a wave of prosperity to victory. Dealers were besieged at the opening of the Stock Exchange by brokers wanting to buy shares in British companies.

Wilson 'Good' After Seizure

Ex-GM President Is in Hospital Following 'Mild' Heart Attack

Former Secretary of Defense Charles E. Wilson was resting comfortably today in Harper Hospital, Detroit, after suffering a heart attack on a Florida vacation.

The hospital described the attack as "mild," and said the 69-year-old Oakland County resident's condition was good.

Wilson's son, Thomas E. Wilson, said his father would probably remain in the hospital several weeks for rest and treatment.

Wilson, who resigned as General Motors Corp. president in 1952 to become President Eisenhower's first secretary of defense, has been in semiretirement since leaving the cabinet 25 months ago.

SCORNS FULL RETIREMENT
Looking askance at anything like full retirement, he has continued on a member of the GM board of directors, the Board of Directors of the National Bank of Detroit, and has served as chairman of Michigan's Advisory Committee to the President's Civil Rights Commission.

Two years ago he became a director of the Oswego Shipping Co., which has a fleet of ocean freighters.

Wilson also owns a cattle ranch at Vero Beach, Fla., and a plantation in Louisiana.

It was while traveling from the plantation to the ranch last Thursday that Wilson first became ill, according to his son.

The illness was so slight, though, that Wilson flew to New York City Friday to attend a meeting of the GM Board.

Returning Monday night to his W. Long Lake road home in Bloomfield Township, Wilson consulted his personal physician and entered Harper Hospital Tuesday.

TESTS REVEAL ATTACK
Electro-cardiograph tests, concluded yesterday, indicated Wilson had suffered an attack.

Wilson maintains an office in Birmingham where another son, Charles E. Jr., has an automobile agency.

Thomas E. Wilson is manufacturing manager at GMC Truck & Coach Division in Pontiac.

Football Fans Note: Prepare for a Chill

Going to the football game this weekend? Take along the racoon coat and some hot coffee. It's going to be nippy.

The high tomorrow will be near 60.

Scattered frost, fair and colder with a low of 36 tonight is the weatherman's forecast.

For the next five days skies will be partly cloudy with occasional showers.

Temperatures will average about two or three degrees below the normal high of 64 and low of 45.

Frost and freezing temperatures are predicted tonight for both northern Lower Michigan and Upper Michigan.

Southerly winds at six miles an hour at 10:15 this morning will become westerly this afternoon and diminish tonight.

About .06 of an inch of rain was recorded from 10:15 a.m. yesterday until the same time today. In downtown Pontiac today, the lowest reading preceding 8 a.m. was 46 degrees. At 1 p.m., the mercury stood at 49.

Labor, Industry Must Not War, Reuther Says

Seeks More Militancy by Unions and Scores Like, Business Leaders

ATLANTIC CITY, N.J. (AP) — Walter P. Reuther, president of the United Auto Workers, says some way must be found to avoid private wars between workers and management.

Such wars, he said Thursday night on the eve of the UAW convention, weaken the nation's economy at a time the Soviet Union is growing stronger.

Reuther's 369-page program to the 3,000 delegates included a call for greater militancy by labor in bargaining, organizing and legislating.

Saying big business dominated the national scene, Reuther added:

"It is no mere coincidence that the longest steel strike in the nation's history has come during the administration of a Republican President who has enshrined the big business viewpoint in the White House, surrounded himself with advisers and golfing companions from big business and a doctored industry propaganda on every major question of the day as his personal gospel."

At a news conference, Reuther said profit-sharing is still one of the UAW's bargaining goals although it got nowhere in the last contract talks with the auto makers. He suggested it might be a good thing for the steel industry.

The steel strike, he said, showed the need of finding a way for workers and consumers to get a bigger share of the nation's growing economy. He said they had the same right to share in profits.

A Crash . . . Explosion . . . Fire and Death

THEIR DEATH TRAP — Nine of 40 girls from Trenton State College, riding this bus and homeward bound after attending a New York play, died early today after a tanker truck crashed into the rear of their bus near North Brunswick, N. J., and burst into

flames. Dr. Ernest Sixta, 40, professor of history at the college, also was killed. The bus carried 40 students, the driver, two professors and a few others. Twelve of the girls and the truck driver were injured.

Smell of Smoke Wakens Mother but Rescue Fails

Tryon Family Staying at Grandfather's Castle on Holly Road

FENTON (AP) — A 14-year-old girl and her three younger brothers died today in a flash fire that destroyed a wooden wing to their grandfather's make-believe castle here.

Victims were Shirley McKuen, 14, and her brothers, Lawrence, 13; Stanley, 11, and Donald, 10. They were all the children of Mrs. Grace Tryon, 34, by a previous marriage.

The mother told police she was awakened by the smell of smoke about 3:30 a.m. and dashed to a door leading from the ramshackle stone and brick "Tryon's Castle" to the wooden wing.

The building is at 713 South Holly Rd., about a half mile from the Oakland County line.

When she threw open the door, the mother said sheets of flame drove her back. She raced outside with her husband and his father, Roy Tryon, but desperate efforts to gain entry to the burning wing were beaten back by flames.

The fire centered, police said, around an oil heater in the girls' second-story bedroom, separated from that of the boys by a plywood partition.

The grandfather, Roy, 61, has been building the so-called castle for 25 years. It is a little larger than the average size home and its main section is accented by towers and parapets. In the interior is a maze of tunnels and rooms.

The fire came only two weeks before the William Tryon family had planned to move to a new 80-acre farm he had purchased near Edenville in Midland County. An Oct. 1 moving previously had been scheduled, but current residents at the farm were unable to move as planned.

The stepfather, 23, works as a general handyman in this Genesee County village 16 miles south of Flint. The grandfather is a retired Dow Chemical Co. employee. The children's father is dead.

Bodies of the children victims were found in or near beds. With them was the body of a pet dog, Squirt, which had been sleeping with Shirley.

Diana Lacey, who lives across Holly road from the castle, turned in a fire alarm at 3:40 a.m. saying children were trapped in the wing, which was then ablaze throughout. Her call preceded the stepfather's by a matter of moments.

While the wooden wing was destroyed, the stone portion of the castle suffered little damage. Total damage was estimated at \$5,000.

Wife Is Freed in Shooting

Judge Holland Issues a Directed Verdict in Brandon Twp. Case

A rare directed verdict of innocent by Oakland County Circuit Judge H. Russell Holland yesterday freed a Brandon Township housewife in the June shotgun killing of her husband.

A brief smile of relief crossed the tear-streaked face of Mrs. Edna L. Millican, 34, when the judge said, "There is no evidence that the respondent is guilty of manslaughter."

The directed verdict took the case out of the hands of a jury of 10 women and two men. Judge Holland said it was the first one he had granted for a major crime in his 23 years on the bench.

David C. Pence, Mrs. Millican's court-appointed attorney, requested the directed verdict after Assistant Prosecutor Anthony Renne rested his case. Renne had called seven witnesses during the brief half-day of trial.

Pence said the fatal June 22 shooting of Ernest Millican, 40, was a case of self-defense after "he beat her unmercifully."

The early morning shooting in the basement of the Millican home, 1570 Perry Lake Rd., three miles southeast of Orionville, climaxed a long history of domestic quarrels, police said.

Millican, a factory worker, returned home from a night of drinking to find his wife trying to conceal a 12-gauge shotgun in the basement. Mrs. Millican, who said she feared her husband might use the gun on her, said it suddenly discharged as Millican backed her against a bed. One blast, fired about three feet away, killed Millican instantly.

Two days after the shooting the prosecutor's office was ready to release Mrs. Millican because all evidence pointed to self defense.

Legion Declares Either Race Bar or 40 et 8 to Go

INDIANAPOLIS (AP) — The American Legion is going to get rid of racial restriction in its subsidiary 40 et 8 Society or get rid of the 40 et 8.

The legion's Executive Committee authorized Commander Martin B. McKneally Thursday to "take any and all measures he may deem necessary" to get the restriction abolished. His authority covers dissolving the society if necessary.

The legion itself draws no color line. McKneally asked the committee for the authorization because of a "deluge of adverse publicity" over the all-white requirement of the 40 et 8. The society is primarily a social organization. C. W. Ardery, secretary of 40 et 8, confirmed that no moves to lift the racial restriction had been made. He said any such action would have to await another national convention of the society.

New Jersey College Girls Burn to Death

Truck Rams Bus; 10 Die

NORTH BRUNSWICK, N. J. (AP) — A professor and nine Trenton State College coeds were burned to death today when a tanker truck rams into the rear of their bus near North Brunswick, N. J., and burst into

flames. Dr. Ernest Sixta, 40, professor of history at the college, also was killed. The bus carried 40 students, the driver, two professors and a few others. Twelve of the girls and the truck driver were injured.

The bus carried 40 students, a driver and Dr. Ernest Sixta, 40, professor of history at the college, who was killed. A native of Cedar Rapids, Iowa, he was graduated in 1952 from the University of London where he had been a Fulbright scholar.

They were part of a two-bus caravan which was 25 miles from its destination when the bus stopped for a traffic light in the rain and fog.

The truck smashed into the back of the bus.

The gas tank at the rear of the bus exploded, probably killing Sixta immediately. He was seated in the rear with his wife.

The bus driver said the girls had tumbled out the front door and the rear emergency door which the driver wrested open.

The gas tank in the rear of the bus exploded, trapping the girls. The bus driver said they panicked in the holocaust that followed and he had to throw them out the doors.

The flames spread to the cab of the truck, where driver Roscoe Poe, 54, of Brooklyn, N.Y., was hanging out the door pinned by his ankle.

"Don't let me die this way," he screamed at approaching firemen Henry Reilly and Vincent Regan. The firemen worked with wrenches and crowbars to free him.

"Thank God you're here. Oh my God, thank God you're here. Help me, save me," he cried over and over.

Just after Poe was dragged away, the flames reached the huge tank trailer, which held no fuel but was full of fumes. The tank exploded and demolished the truck.

The scene of the fiery crash is opposite the farm of the Rutgers University Agriculture College, North Brunswick is 30 miles southwest of New York City.

The bus driver, Carmen Nini, 40, of Trenton, said he approached the traffic light at five miles an hour just before 1 a.m. When the truck hit, the impact knocked the

County Dems Must Toast Mr. X at Congress Dinner

Oakland County Democrats will have to be content to drink a toast to Mr. X when they dine in Pontiac Oct. 30 for their annual congressional dinner.

Not to be confused with Mr. K. Mr. X in this case is the 1960 Democratic candidate for the county's 18th Congressional District seat.

So far there is no candidate. But Democrats aren't too worried. They say there's plenty of time left between now and 1960 elections.

The annual get-together, which this year will feature Minnesota Sen. Hubert Humphrey, a top presidential contender, raises funds to finance campaigns to place a county Democrat in the U.S. House of Representatives.

Carlos G. Richardson, chairman of the Oakland County Democratic Committee, said it isn't unusual in an election off-year to stage the dinner not knowing who the money is principally designed to assist.

During the even-numbered election years, the congressional dinner

CONSOLES HER DAUGHTER — Mrs. Harold Weissmantel of Newark, N. J., consoles her daughter, Dorothy, 19, at St. Peter's Hospital in New Brunswick, N. J. The girl was injured in the crash early today that took the lives of nine girls from Trenton State College. One professor also was killed. Others were injured and are in the hospital. A tanker truck rams into the rear of their bus. The college girls were returning from attending a New York Broadway play.

"No one has even intimated to me they are interested in being a candidate," Richardson said.

The chairman, however, did name four possible candidates mentioned in some political circles.

They were Leslie H. Hudson, Pontiac hardware dealer and 1958 candidate; Donald E. Adams, Waterford Township justice of the peace; Arthur J. Law, Pontiac's State representative; and Donald L. Swanson, Southfield mayor, supervisor and manager of the Michigan State Fair.

Current reaction from the four was:

Hudson: "I haven't decided either way yet."

Adams: "I'm pretty well satisfied."

Ike Pondering on Steel Strike

Confers With Cabinet but Refuses to Tell His Decision on T-H Use

WASHINGTON (AP) — President Eisenhower conferred for an hour on the steel strike with four Cabinet officers today, but the White House refused to say whether a Taft-Hartley back-to-work injunction was imminent.

Press Secretary James C. Hagerty told newsmen that Secretary of Labor James P. Mitchell had reported on his conference in New York Thursday with President David J. McDonald and other top officers of the 500,000 striking steelworkers.

Others present today — including Secretary of the Treasury Robert B. Anderson, Atty. Gen. William F. Rogers and Secretary of Commerce Frederick Mueller — also gave Eisenhower reports on the dispute which has halted 87 per cent of the country's basic steel output for 87 days, Hagerty said.

"That's all I'm going to say now," Hagerty added.

The press secretary refused to state whether anything further could be expected from the White House today on whether — in answer to a reporter's question — the decision on invoking the 80-day cooling-off injunction machinery of the labor law "now is in the President's hands."

Big October Truck Output Is Planned

DETROIT (UPI) — U.S. truck manufacturers are programming a 118,000 production output for October in spite of impending shortages caused by the steel strike, Ward's Automotive reports states.

It would be the most ambitious October prospect since 1952 when the industry turned out 135,000 trucks in October. But Ward's doubted the truck-makers could realize the scheduled output.

It pointed out that Chevrolet already has put its truck plants on a four-day basis, and Mack may experience difficulties for lack of steel after the third week of October. International Harvester, said Ward's has adequate inventories to carry beyond mid-month.

Moreover, Ward's said, now that the steel strike is more than three months old, shortages of certain component parts from outside suppliers could crop up at any time to impede truck building.

Ward's said Studebaker is planning a model changeover shutdown after Oct. 16 to revamp its commercial truck line.

Sunny Weather Brings Flowers to the U.S. East

NEW YORK (AP)—Lovely nature, always mysterious, is putting on a puzzling show today in many parts of the East.

Magnolias are blooming. An Easter lily is budding. Azaleas are flowering.

Also flourishing are hawthorns, kerrias, mock oranges and forsythias.

All this spring-like behavior is taking place with fall already nearly three weeks old. The cause is a burst of freakish summer weather.

It started during the first 10 days of September, the warmest such period in the 88-year history of the New York Weather Bureau, and has continued during October, with temperatures averaging from 8 to 10 degrees above normal.

Detroit's Finances Are in Poor Condition

DETROIT (AP) — Mayor Louis Miriani told the Detroit city council today his 1960-61 budget was "not in good shape."

But the mayor said he had an eight-point program to develop "numerous avenues for exploring possibilities to alleviate the city's growing financial problems."

Miriani said much of the city's deficit was caused by Wayne County which now owes the city \$13 million dollars and whose debt is rising at the rate of one million dollars a month.

This forecast does not include any pay adjustments for city employees nor does it include any provision for financing the \$2 million welfare deficit nor the fact we have lost \$200 million in assessed valuation in the last two years," he said.

Great White River

America's total 1958 milk production of more than 126 billion pounds would make a river more than 3,000 miles long, 40 feet wide and three feet deep.

SALLY AND FRIEND — "Sally," plastic manikin, sits on the lap of "Sturdy Sam," at the Chrysler plant in Detroit, Mich., to illustrate how the devices are used in determining comfort factors of automobile seating. Sally is of plastic sheeting, calibrated at various points. She's used in determining seating requirements for women. Sturdy Sam is the chair seat-and-back device. It approximates the weight of a 150-pound person. Sally's "boy friend" might object to this lap-sitting business, but "he's" out of the picture. It's a plastic manikin made to male dimensions, for determining seating requirements of men.

'Vatican City' Status for Berlin Rejected

BERLIN (UPI) — Mayor Willy Brandt has rejected Communist suggestions that West Berlin be given "Vatican City" status within Red Germany.

The suggestion was made by East German Communist party strongman Walter Ulbricht in a speech yesterday in East Berlin marking the 10th anniversary of the founding of the "Democratic Republic" of East Germany.

Ulbricht proposed that West Berlin be given a status inside Communist Germany similar to that of the Vatican City within Italy.

Brandt promptly termed the suggestion "unrealistic." He noted that Vatican City belongs to the Italian currency area.

If that rule were applied to Berlin, he said, West Berlin would have to trade its hard West German currency for nonconvertible East German marks.

Russ Will Give Entire Population U.S. Polio Shots

MOSCOW (AP) — The Soviet Union plans to immunize its entire population of nearly 210 million against polio with a live vaccine developed by Dr. Albert Sabin of Cincinnati, a Soviet medical authority reports.

Prof. Mikhail P. Chumakov, director of the Soviet Institute to Combat Poliomyelitis, said 10 million Soviet citizens already have been given the vaccine.

Chumakov said in the newspaper Komsomol Prada that polio cases had been reduced 9 to 10 times in the entire Soviet Baltic area after the Sabin vaccine was administered. He said that all summer long only a few cases of polio were reported in Soviet Lithuania. The vaccine is given in two drop doses orally and costs five kopeks, he said. (There are 100 kopeks in a ruble, which is quoted at 25 cents.) Stocks of the vaccine have been prepared for 30 million persons.

Previously, Dr. Jonas Salk's polio vaccine had been widely used here.

Lunik Is Ready to Circle Earth

Slows Steadily After Escape From Moon's Gravitational Field

MOSCOW (AP)—Lunik II today approached the point-of-return for a sweeping orbit around the earth after its flight behind the moon.

On emerging from the moon's field of gravity, the speed of the space vehicle slowed steadily. It was last reported making only half a kilometer a second—compared to the moon's one kilometer a second. A kilometer is five eighths of a mile.

The 614-pound flying laboratory is expected to begin its return journey by Saturday. It was reported 278,200 miles from the earth Thursday.

The Soviet news agency Tass said all equipment aboard is still functioning perfectly.

There was still no official indication, however, whether the satellite had succeeded in taking the first picture ever made of hidden side of the moon or of what data was sent back.

Tass said it would complete a swing around the earth about every 15 days, coming to within 24,840 miles at the nearest point and traveling to a point 291,870 miles from the earth at the other end of its orbit.

Oh, What Milk Can Do

A single glass of milk produces enough energy for the average person to play nine holes of golf, climb 186 stairs, houseclean for two hours, dance for one hour or play cards for three and a half hours.

She finished three laps ahead of the other girls . . . Sign in the downtown area: "Beat the Morning Rush—Don't Go Home at Night." —Earl Wilson.

Middle age is when a woman decides to take off a pound here and there and a year now and then . . . They tell of the girl who was graduated from secretarial school with highest honors.

Find Carcasses of Seal Dead for 2,000 Years

JUNEAU, Alaska (AP) — Tests on a mummified seal carcass found in the South Polar regions disclosed the animal died between 1,600 and 2,000 years ago.

The remains were from one of 90 mummified seals counted near McMurdo Sound in Antarctica in 1957-58.

A report on the studies were contained in a scientific paper presented here by Troy L. Pewe, University of Alaska geologist; Norman R. Rivard, U. S. Geological Survey's Alaska Branch, and George A. Illano, National Academy of Sciences, Washington.

From New York to Dayton, Ohio

Leaving City, Her Nerves Uncurl

By PHYLIS BATTELLE

DAYTON, Ohio—Almost every New Yorker "goes home" occasionally—to Ohio, to Indiana, to Nebraska, to whatever strangely quiet land she left in search of adventure or fame or money in the big drag.

And always, the trip home makes the New Yorker slow down and reflect.

Lying in the old, newly antiqued bed, staring at the white ruffled curtains (they look the same, only now they're dappled instead of orange), and hearing the almost-forgotten raucousness of birds and crickets, the New Yorker becomes unsettled.

Was it a mistake to exchange contentment for competition, neighborliness for privacy, magnificent oaks for magnificent buildings, gentleness for exhilaration?

The New Yorker—gone-home, slowly feeling his blood pressure drop and his nerves uncurl, analyzes the situation: This is the nature of the city slicker, to analyze situations.

It is a great life in Dayton, Ohio, where you don't have to stand in line to get into church, where movies don't cost \$3 a head, where the country club is a 10-minute drive from the office and the office is a five-minute drive from home.

It is a convivial life where the only barrier between you and your neighbors is a ring of rose bushes, where to be ill is to receive casseroles and homemade brownies, where a pleasant sort of conformity is enjoyed rather than con-

demned, where collies roam the streets leashless and bus drivers whistle while they work.

The people are all so admirable back home. You never hear of the driving young man who bulls his way to the top or of the frustrated young woman who drinks herself into stupor. There is no cafe society here, and beatniks are a topic they ask you about with a delicate shudder.

Mothers here are more like mothers are pictured to be. They are not slick, ambitious career mothers; their children are not in boarding schools. The young ones are at home, even now, stitching

up costumes for beggar's night celebrations, and the mature ones spend their days at garden clubs, literary clubs, art groups, church circles, working endlessly and cheerfully at making Dayton a good place for their good children.

GRACIOUS LIVING

As I write, my mother has just brought in a pot of coffee, a fancy French burner to keep it hot, a dainty cup—(gracious living).

And the fathers are like the mothers. Hard working, but easy going.

You keep thinking how convivial it all is. All the people in Dayton could fit into one small neighborhood in New York, and yet it

seems that there are thousands more citizens here than there.

That is because in Dayton, everyone is a person who talks to you; in New York, you are surrounded by faces who couldn't care less. They are not really people to you—they are a setting for the super-charged drama which you, the lead character, are enacting for yourself.

So, why did you leave? The trees, the collies, the casseroles, the wonderful people back home?

The only thing you can figure is that some people are never content with contentment. They must have excitement, and the quick pace, and a fling at everything to be flung, and a whack at everything whackable. They are bored with tranquility, and defiant against life without challenge, and egotistical enough to beat their heads against other egotistical head beaters in the most challenging city in the world.

These qualities are not to be admired by more placid people, and not to be envied. They are something, probably, that you are born with—like soft teeth, or a tendency toward ulcers.

But if you have this restlessness, you can never resist going back to New York.

New York is yours. And you are its.

Lawn Job Expensive

OKLAHOMA CITY (AP)—T. E. Watts went to U.S. Treasury Department office with a box of shredded money with the hope of getting it replaced. He explained his wallet slipped from his pocket and his lawn mower chewed it to bits.

Legion Will Hold Lansing Meeting

Post and Auxiliary to Send Delegates to the Annual Conference

Pontiac Legionnaires will be heading for Lansing this weekend as the American Legion's Michigan Department holds its annual fall conference Friday through Sunday.

Official delegates from the Cook-Nelson Post 20 in Pontiac will be Mrs. Robert Conant, commander, and Floyd E. Cremer, acting as child welfare committee chairman.

Official delegates from the post's auxiliary will be Mrs. James McKee, president, and Mrs. Arno Hulet, chairman of the auxiliary's child welfare committee.

Also expected to attend the meetings, although not as official post delegates, are Orrin Huntton Jr., first vice commander, and L. C. Hadden, adjutant.

The Hotel Olds will be conference headquarters. Delegates will discuss the Legion's program for the coming year.

Pope John Would Like Sainthood for Pius XII

VATICAN CITY (UPI)—Pope John XXIII has again indicated hope that his predecessor, Pius XII, would soon be proclaimed a saint.

"We hope that he will not need to wait long to enjoy the glory of the Lord," Pope John told a general audience, recalling that today is the anniversary of Pius' death.

Find Copy of Paper Published in 1800

BESSEMER, Ala. (UPI)—A copy of the Ulster County Gazette published in Kingston, N.Y., on Jan. 4, 1800, was found here recently in a basement storage room of the Carnegie Library.

The newspaper contained the obituary of George Washington with funeral and burial arrangements at Mt. Vernon, Washington died Dec. 14, 1799.

Dear Abby Takes the Positive

Give Your Daughter Lots of Love: You'll Get Honesty From Her

By ABIGAIL VAN BUREN
 DEAR ABBY: I have a 14-year-old daughter who is so boy crazy she worries me sick. All she thinks about is boys. She's got boys' names written all over her books. And every piece of paper by the telephone is marked up with initials and boys' names. When the doorbell rings she runs like

lightning to talk to any delivery boy it happens to be. What really bothers me is she lies. I don't allow her to go in cars with boys so she walks to a girl's house and the boys meet her with a car there. I found this out by reading her diary. I asked her for the truth and she lied to cover up her lies. How can I get the truth out of her? MRS. G.

DEAR MRS. G.: The only reason children lie is because they haven't the courage to tell the truth. Give your daughter that courage by assuring her that no matter what she has done you will understand and

ABBY doorbell rings

forgive her. Perhaps your threats are too frightening and your punishments too severe. Give your child plenty of love and expect the best, and you'll rarely be disappointed.

DEAR ABBY: My husband has made it plain that he prefers the television set to me. Several of my women friends have the same complaint. What could be the reason for this? IGNORED

DEAR IGNORED: Maybe it's because he can turn off the television when he wants to.

DEAR ABBY: I am beginning to plan my wedding. Mother and I disagree on the list of wedding guests. Mother says I must ask all my aunts, uncles and cousins. This includes all my parents' aunts, uncles and cousins, too. And all their children! I could stumble over most of my parents' aunts, uncles and cousins and not even know them. Why must I ask them to my wedding?

It is a small church and I have to consider the groom's family. If they were to invite as many from their side as we invited from our side, we couldn't all get in the church. This whole thing is making me very nervous. Please send me some advice before I elope and settle the matter.

NERVOUS BRIDE
 DEAR NERVOUS: Use a little psychology and suggest that your mother use a little arithmetic! How many people will the church accommodate? The groom's side is entitled to half those seats. Naturally, the "immediate" relatives are on the top of the list. The more remote the relative, the farther down the list. Lop off the list at the bottom. Now, wasn't that simple?

CONFIDENTIAL TO GIT-LE: Don't be so impressed by his fat wallet. Most of it could be credit cards.

To get ABBY's pamphlet, "What Every Teenager Wants To Know," send 25c and a large, self-addressed, stamped envelope to this paper.

Guests of honor will include founder Mrs. Nellie Gamble Childs and Mrs. Grace Culver Roche, Mrs. Mabel Bacon Dewey, Mrs. Marie White Clark, Mrs. Florence Fall Miller and Mrs. Lola Phelps Hall, all initiated 50 or more years ago.

Mr. and Mrs. Charles B. Stiffler, formerly of Birmingham, will be hosts at a Sunday supper party in their home on Peachtree Lane, Rochester.

Have You Tried This?

Different Pasty Recipe Comes From UP Native

By JANET ODELL
 Pontiac Press Home Editor
 Here we go again! Other pasty recipes are beginning to come in. Mrs. Howard Lewis sends us one her mother, an Upper Peninsula resident, always uses. Up there, says Mrs. Lewis, "pasty is even sold at the drive-ins."

With two sons, her home and a part-time outside job, Mrs. Lewis doesn't have many idle moments. When she does, she likes to knit.

PASTIES
 By Mrs. Howard Lewis
 Prepare and chill in 8-inch circles of pastry: Sift together 3 cups flour, 1 teaspoon salt, 1/2 teaspoon baking powder.

Cut in 1 cup shortening. Blend in about 3/4 cup ice water, just enough to make dough stay together.

For Filling: Slice, then cut into 1/2-inch pieces one pound raw beef and pork mixed, potatoes, turnips or carrots (2 cups of each). Add 1/2 cup chopped onion. Season.

Divide filling on pastry circles. Fold over and make a slit in the top. Place on baking sheet. Bake at 450 degrees for 10 minutes. Reduce heat to 350 degrees and bake another 50 minutes. Melt 2 tablespoons butter with 2 tablespoons hot water. Pour into slit in top of pasties 15 minutes before they are done.

Two out of three city families in Michigan buy commercially prepared pie at some time during the year.

Mexico's Chief Will Visit Ike

**Lopez Mateos Flies
to Washington for 8th
Confab Between 2**

MEXICO CITY (AP)—President Adolfo Lopez Mateos flew off today to keep a date with President Eisenhower in Washington.

It is the eighth visit between U.S. and Mexican chief executives. The visits have played an important part in the good relations between the two neighbors.

Jacobo Perez Barroso, president of the Confederation of Industrial Chambers, said in a statement published in this morning's newspapers that "Mexican private enterprise expects much from the President's visit to the United States."

He said for one thing he is confident the talks of the two presidents will lead to better prices in the United States for Mexican raw materials, lessening the difference in the prices Mexicans have to pay for U.S. manufactured products.

Lopez Mateos' party will leave for Chicago Tuesday morning and go to New York that evening.

Hollywood Headlines:

Skelton: 'I'll Keep Going as Long as I Stay Human'

By BOB THOMAS
AP Movie-TV Writer
HOLLYWOOD (AP) — "How long can I keep going? As long as I stay close to people, as long as I continue being human."

This was Red Skelton's answer to the oft-heard question: How does he do it? In an age when the comic art seems to be declining, Skelton is perhaps the most successful of funny men. He is starting his 10th season in television, the only comedian now surviving in weekly TV.

But he isn't limiting himself to the home screen. Each summer he does smash business in outdoor theaters and night clubs.

Defense Opens in Rape Trial of Ex-Convict

The defense opened its case this afternoon before a Circuit Court jury of eight men and four women who are deciding the fate of accused kidnap-rapist Harold E. Martin, 20-year-old Pontiac ex-convict.

First Assistant Prosecutor Robert D. Long rested his case shortly before noon today after calling 16 witnesses, including the 18-year-old Pontiac girl Martin is accused of abducting April 14.

Police searched for 10 hours after a witness said she heard the girl's screams and spotted Martin's car speeding away from where it had collided with the girl's. Martin was arrested with the girl in his stolen car in a Bloomfield Township wooded area.

Martin, of 739 E. Madison Ave., who had been paroled only a week earlier from the Ionia Reformatory, denied molesting the girl. The victim said Martin abducted, beat and raped her.

Next spring he plans to go to Japan to star in a movie, "The Umbrella Man," with native comic Frankie Saki. He says he'll also do a film called "The Mail Van" — "since it's just as cheap to make two pictures as one." And he's got another film brewing with Cantinflas in Mexico.

Red was reflecting about his 30 years in the comedy business between rehearsals for his first TV special on CBS tonight. I hazarded that his longevity may be due to the fact that he constantly works at his business.

"Maybe so," he said. "I keep at it all the time. I always have my note pad with me, and I jot down things I hear that might make a comedy situation. I think it's best if I stay near people and listen to what they're saying. A chance remark might lead to a whole skit."

Red's belief in human contact helps explain his chief idiosyncrasy: dislike of telephones.

"I just don't like 'em," he admitted. "I want to see the person I'm talking to. If he has something important to say, I tell him to stay where he is and I'll come over."

Sallade Tells Teachers Minimum Wage a Must

YPSILANTI (UPI) — Michigan's Legislature "will eventually be forced to enact a minimum wage law for public school teachers," Rep. George W. Sallade (R-Ann Arbor) told a Teachers' Institute session here Thursday.

"Bricks are not enough," Sallade said. "Teachers' salaries must be sufficient to educate and to keep qualified personnel in our schools."

He also told the teachers gathered at Eastern Michigan University that it was his "firm conviction that the federal government will embark on a program of direct subsidies to the states in the field of school construction."

Penthouse 90's 'Big Party' Really Seems Off-the-Cuff

By FRED DANZIG
NEW YORK (UPI)—Playhouse 90 gave way to Penthouse 90 on CBS-TV last night as "The Big Party" premiered.

There were lots of laughs and entertaining moments as a bunch of boys and girls whooped it up in host Rock Hudson's "penthouse apartment."

The boys and girls included Sammy Davis Jr., Mort Sahl, Carlos Montoya, Matt Dennis, Tallulah Bankhead, Lisa Kirk and Esther Williams, all gathered together to breathe spontaneity under chief writer Goodman Ace's skillful guidance.

Near the start, Rock and Sammy exchanged verbal shoe-horns to squeeze into some pseudo-casual party type chit-chat. I thought we were in for a disastrous show.

After all, a "party" on TV must be rigged to seem spontaneous or it goes bust. But then Sammy began doing some of his superb, un-hurried, fully drawn impersonations of actors and singers and things began to swing.

Tallulah spilled a couple of drinks and the performers lulled me into feeling they were really having a ball.

There was as much ebullience as we normally find in a pantomime quiz show, but a lot more sophistication and wit.

To quote a phrase from a song in Bob Hope's first hour special of the season last night: He muddled through.

The NBC-TV special was uneventful, generally unfunny and appeared under-rehearsed.

Hope's guests were Dean Martin, Natalie Wood and four of Bing Crosby's: Gary, Dennis, Philip and Lindsay.

Since they had little to do, the boys concentrated on trying to upstage each other and anyone else around.

I thought Gary came out ahead. He manipulates his lips in a pardon-the-expression, Jerry Lewis pout.

THE CHANNEL SWIM: Upcoming Person-to-Person guests on CBS-TV: James and Pamela Mason, fashion authority Edith Head . . . Victor Borge, whose NBC-TV special unravels next Friday night, reports that he had so much extra footage from his on-location work in Denmark that he had to cut a sequence taken in a riding hall. He hopes to use it in his second show of the season.

CBS-TV's 20th Century has prepared a documentary, "Down Range," that deals with America's missile tracking range in the South Atlantic.
