

LBJ Asia Trip Is Expanded to a Major Tour

WASHINGTON (AP)—President Johnson is expanding his trip to the Manila conference into a major Asian tour with visits to New Zealand, Australia, Thailand, Malaysia and South Korea, as well as the Philippines.

Johnson's plans were disclosed today by governments of several of the Asian nations. There was no immediate word from the White House, but the President scheduled an afternoon news conference that was expected to bring his confirmation of the announcements from abroad.

Four Indicted by Grand Juror

Extortion, Perjury
Cases Are Revealed

Indictments were issued today by the Oakland County Grand Jury charging three persons, including a Detroit auto broker, with conspiracy and extortion, and a Southfield attorney with perjury and obstructing justice.

To be arraigned today in Bloomfield Hills Justice Court on the extortion charges were Ben L. Faeder, president of the J.Z. Boyer Service, Inc., his wife, Leatrice P.; and Allan H. Mann, a salesman at the Hamilton.

Viet Cong Unit Gives Up

SAIGON, South Viet Nam (AP)—A unit of 66 Viet Cong soldiers surrendered en masse today as American, Korean and South Vietnamese forces closed in on an encircled, fragmented Communist force on the central coast.

The wholesale surrender raised to about 300 the number of prisoners taken by the combined allied force in five days of operation.

It was probably the war's biggest bag of prisoners, and in addition the allied forces claimed nearly 500 North Vietnamese and Viet Cong killed

in the piece operation north of Qui Nhon.

To the north just below the demilitarized zone, U.S. Marines braved a hail of Communist grenades and waded in ankle-deep mud yesterday to capture the last hill along a four-mile ridge they had been clearing of North Vietnamese for 15 days.

Marine casualties were described as light, but three 90mm tank shells fired in support of the Leathernecks fell short, killing three Marines and wounding seven others in the base camp for the operation.

The Marine operations below the demilitarized zone for the second time in two weeks pushed American combat casualties last week above those of South Vietnamese forces although American losses were less than the week before.

The U.S. command said 99 Americans were killed and 442 wounded during the week that ended last Saturday, compared with 87 killed and 268 wounded reported by the South Vietnamese.

Other allied forces reported 16 men killed and 48 wounded, nearly double the toll the week before.

Enemy losses reported were also down, 1,104 last week compared with 1,208 the previous week.

TOTAL KILLED

American casualties two weeks ago were 142 killed, 825 wounded and 3 missing or captured. The number of Americans missing quadrupled last week, to 12.

The casualties last week brought the total number of Americans reported killed in the war to 5,401 and the wounded to 20,014.

Totals reported for the year included 3,523 Americans killed,

6,850 South Vietnamese killed and 40,149 enemy dead.

The coastal campaign, Operation Irving, has become one of the most successful drives of the war.

Carrying safe conduct passes, the 66 battle-battered Viet Cong came through the lines to give themselves up to the 22nd South Vietnamese division holding the western flank of the allied encirclement.

They apparently got the safe conduct passes in earlier allied leaflet drops on the mountains and mangrove swamps where the three-pronged operation started last Sunday.

WOODS FULL OF MARINES—Members of the U.S. Marine 4th Regiment, 3rd Battalion, move to higher ground during their assault on Hill 484 near Viet Nam's demilitarized zone earlier this week. A Marine company took the hill yesterday after a

sharp fight. Hill 484 was the last hill that had to be taken in a 15-day sweep against North Vietnamese troops along a four-mile ridge.

UF Division Sets Goal

"Make Pontiac the city of champion givers, the inspired way—the volunteer way," the chairman of the Pontiac Area United Fund commercial division told 225 solicitors at yesterday's kickoff luncheon.

Charles Woodhead, who was also master of ceremonies at the Elks Temple luncheon, announced a commercial division goal of \$250,501.

Featured speaker Jess Foster, Battle Creek Boy Scout executive, advised listeners to tell donors:

"Give as much as possible, after you think about the matter carefully. We'll be happy to take what ever you give."

Woodhead also told solicitors

to seek a 6 per cent increase over the 1965 pledges.

The commercial division volunteers will visit area retailers, education, professional and community leaders for donations.

'STRESS PURPOSES'

Dr. Don O. Tatroe, general campaign chairman, requested solicitors "stress human purposes that lie behind the fund drive."

Executive director Donald J. Frey, discussed the extensive surveys and actions leading to the PAUF's present positions toward the Waterford Boy's Club and the Northern Council of Girl Scouts.

Team chairmen appointed by Woodhead are Harold Davis, small teams; Al Little, profes-

sional; John Napley, chapter plans; Mitchell Tandler, education, and Joseph Warren, government.

Heads of the other campaign divisions were introduced.

They are: William R. Frushour, campaign publicity and promotion; Mrs. James H. Cowen, women's division; Howard H. Fitzgerald II, advance gifts; Alger V. Conner, G.M. industrial division, and Robert Anderson, manufacturing division.

SPONSORS

The luncheon was sponsored by J. L. Hudson Co., Pontiac Mall, and Michigan Bell Telephone Co.

The general campaign kickoff is slated for Monday evening. The total UF goal is \$1,042,000.

Barry to Study Plan for Refuse

County Drain 'Chief
Wins Power Struggle

The Oakland County Board of Supervisors yesterday voted away some of its own authority by designating that the drain commissioner conduct a study of a countywide refuse disposal plan.

A vote of 40 to 39 culminated a two-week power struggle among

Related Stories,
Pages D-8 and D-9

county officials over who would conduct the study.

Delos Hamlin, chairman of the board of supervisors, and several chairmen of supervisors' committees had advocated that the study be undertaken by the County Board of Auditors.

They argued that the auditors usually conduct studies and that they are employees of the board of supervisors.

The drain commissioner is an elected official over whom the supervisors have no direct control. (Continued on Page 2, Col. 2)

Curtain Going Up on Indian Summer

Crisp near-freezing temperatures and patches of bright fall colors greeted early morning risers in the Pontiac area today. The low at 6 a.m. was 34.

The weatherman predicts Indian summer will be with us for the next few days. Temperatures falling to 34 to 42 tonight will rise to 64 to 72 tomorrow. No rain is expected.

Light, westerly morning winds will continue at 5 to 15 miles per hour.

At 1 p.m., the mercury reached 57.

Voters OK County Plan for Schools

Thanks to strong support from voters in the Walled Lake and Dublin districts, where record turnouts went to the polls, the Oakland County school reorganization plan passed 2,700 to 2,248 in yesterday's special election.

The 452 "yes" vote majority, decided by electors from five county school districts, resulted in two annexations—North Oxford to Oxford and Dublin plus a small portion of the Waterford Township system to Walled Lake.

The mergers, which officially become effective next July 1, had been proposed early last year as part of a state plan to eliminate school districts without complete kindergarten-through-12th-grade programs.

Dublin (eight grades) North Oxford (six grades) and Novi fell in this category in Oakland County. Novi was allowed to strive for its own program.

In addition to the Walled Lake and Dublin districts, the county plan carried in Oxford.

WERE AGAINST

Waterford Township voters showed they were decidedly against losing the 400-acre White Lake Township area lying in their district, casting 1,355 "no" votes against only 91 affirmative votes.

The small area, which includes about 40 public school children, is situated west of Williams Lake Road and south of Elizabeth Lake Road.

North Oxford also voted in the negative, with 12 "yes" and 21 "no" votes.

In Walled Lake and Dublin, the single-proposition question passed overwhelmingly—1,929 to 815 in Walled Lake and 518 to 129 in the latter.

MILLAGE QUESTIONS

With two bonding proposals on the ballot, however, a rec-

(Continued on Page 2, Col. 3)

Walled Lake OKs School Bond Issue

Walled Lake School District voters yesterday approved a \$9.7-million building program which will provide the district with a new high school, a swimming pool at the high school and two elementary schools.

A \$9,150,000 bond issue to build and equip the new senior high school and two elementary schools as well as to purchase future school sites passed by a 2,071 to 678 vote.

The second proposition, seeking \$550,000 to build a swimming pool at the new high school, was approved, 1,781 to 1,836.

Approval of the two bonding proposals will increase taxes by 1 mill or \$1 per \$1,000 of equalized valuation, according to Schools Supt. George G. Garver.

The district now levies 6 mills for debt retirement. It must levy 7 mills in order to borrow

(Continued on Page 2, Col. 5)

COMMERCIAL KICKOFF—Stoking up for the commercial division drive of the Pontiac Area United Fund are four of the solicitors who met for lunch yesterday at the Elks Temple. From left are UF Michigan Bell coordinator Eugene

Greek; chapter cochairman Charles Pickford from Consumers Power Co.; solicitor Mrs. Dulah Wells, receptionist at D. E. Pursley Funeral Home; and solicitor Theodore Dzurman, project engineer for Oakland County.

"I like the feeling of being wanted... especially at meal times."

Texas to Again Seek Execution for Ruby

AUSTIN, Tex. (AP) — Dist. Atty. Henry Wade says the state will seek the death penalty again for Jack Ruby, whose conviction for killing accused presidential assassin Lee Harvey Oswald was set aside Wednesday.

Defense counsel expressed confidence, however, that the

The district attorney said the prosecution would not agree to any punishment less than life in prison.

Wade said he intends to file a motion for rehearing by Oct. 20, asking the Texas Court of Criminal Appeals to change its mind and uphold Ruby's murder conviction.

The court, the highest in Texas for criminal matters, ruled that Ruby did not get a fair trial. It reversed the conviction and ordered a new trial, to be held outside Dallas County.

The main reason cited by the Austin court in its decision was that the trial court erred when it allowed testimony by Dallas Police Sgt. P. T. Dean about what Ruby said some 1 to 40 minutes after Oswald was shot in the Dallas police station basement.

According to Dean's testimony, Ruby "told Dean that he had seen Oswald in a police lineup two nights before and that when he saw the sarcastic snarl on Oswald's face, he had decided that if he got a chance to do so, he would kill him," the appellate court decision said.

ORAL CONFESSION

It continued: "Obviously this statement constituted an oral confession of premeditation made while in police custody and therefore was not admissible. The admission of this testimony was clearly injurious and calls for a reversal of this conviction."

Ruby shot Oswald in view of live television cameras Nov. 24, 1963. Oswald had been arrested soon after the Nov. 22 assassination of President John F. Kennedy.

The decision also states the verdict was reversible because the trial judge, Joe E. Brown, did not allow the case to be tried outside Dallas County as asked by the defense.

Barry has estimated it will take eight months to complete. The power struggle over the refusal to begin at the supervisors' Sept. 19 meeting when the board's drama committee offered a formal resolution calling for Barry to head the study.

Board members deferred action on the measure and asked for more background information.

Last week the drama committee and miscellaneous committee of the supervisors debated the study proposal in the presence of the County Department of Public Works Board.

All agreed in the committee session that a refuse study was needed and the drama committee picked up enough support from the miscellaneous committee to recommend Barry for the job. DPW Board members had no vote.

Barry said today he will present a program to the drama committee Monday outlining plans for the study, financing and the timetable.

DANIEL W. BARRY

(Continued From Page One)

Drain Chief Daniel W. Barry is the drain commissioner.

Still a matter of question after yesterday's vote is when the study will begin and how it will be financed.

Barry has estimated it will take eight months to complete. The power struggle over the refusal to begin at the supervisors' Sept. 19 meeting when the board's drama committee offered a formal resolution calling for Barry to head the study.

Board members deferred action on the measure and asked for more background information.

Last week the drama committee and miscellaneous committee of the supervisors debated the study proposal in the presence of the County Department of Public Works Board.

Barry said today he will present a program to the drama committee Monday outlining plans for the study, financing and the timetable.

4 Are Indicted by Grand Juror

(Continued From Page One)

The Oakland County lawyer charged with the two counts is Frank E. Holtzman, 23411 Twyckingham, who has offices in the Cadillac Tower, Detroit.

The indictments are the first issued since Grand Juror Circuit Judge Philip Pratt began taking testimony in mid-August.

Grand jury officials said today that the two indictments are only remotely connected, but noted that two women named in the information, and who play important roles in the issuing of the indictments, are neighbors, living in the same apartment building in Troy, at 2238 Goodale.

The Feders and Mann are charged with threatening to accuse Mrs. Barbara Wahl of forgery and fraud unless she paid them \$5,000.

The alleged incidents are said to have occurred Aug. 11, and other times up to Sept. 16.

Because of the secrecy surrounding grand jury proceedings, details of the alleged threats were not immediately made known.

"I can only say that I think you'll find the (preliminary) examination on the extortion case extremely interesting," said Judge Pratt.

The written charges against Holtzman include a transcript of testimony he gave when he appeared as a witness before the grand jury Oct. 3.

In it, Holtzman, in answer to questions from Special Prosecutor Jerome K. Barry, denied that he ever told his client, Mrs. Mary Jane Heuman, the neighbor of Mrs. Wahl, that \$500 of the \$300 she gave him in fees would be used to influence the proceedings of the grand jury.

"Did you tell Mrs. Heuman that it would be necessary to pay her way out of this grand jury proceedings and the inquiry in relations to her?" the transcript quotes Barry as asking.

"Never," said Holtzman.

Patrols to Limit War Sought by Senators

WASHINGTON (AP) — A halt in U. S. bombing aimed at restoring a neutral zone between North and South Viet Nam brought Senatorial proposals today for expanded international patrols to limit the war.

Secretary of State Dean Rusk said in New York Wednesday that air attacks on the eastern part of the buffer area had been suspended. The White House previously described this as an effort to permit the International Control Commission to investigate alleged violations of the area.

In Saigon, reliable sources reported U. S. and Vietnamese planes halted bombing of a 24-mile-square area of the demilitarized zone 10 days ago so commission teams could carry out inspections.

"We would like to see that zone fully demilitarized again," Rusk said. "If the North Vietnamese will stop using the zone for a purpose for which it was not intended."

APPLAUD MOVE

Senate Democratic Leader Mike Mansfield was joined by Sen. J. W. Fulbright, D-Ark., chairman of the Senate Foreign Relations Committee, in applauding this action. Both have opposed escalation of the war.

The two Democrats proposed in separate interviews that control commission patrols be beefed up and their operations expanded to cover South Viet Nam's borders with Cambodia and Laos.

"It is quite possible that if the International Control Commission were given sufficient personnel and its responsibilities strengthened that it could become effective toward limiting the war and opening the way to peace negotiations," Mansfield said.

Walled Lake OKs School Bond Issue

(Continued From Page One)

from the State Bond Loan Fund at a low interest rate.

READY BY 1969

The new high school, to be located on Beck Road between Maple and Pontiac Trail is to be ready for use by 1969.

In addition to use by high school students, the new pool will serve elementary and junior high school pupils and outside community groups.

The proposed new elementary schools will help relieve enrollment pressure now being felt at that level. One school is needed by 1968 and a second one by 1970.

School officials also feel it is necessary to acquire land for future sites now while prices are still reasonable.

Voters OK County School Plan

(Continued From Page One)

ord 2,749 voters went to the polls to vote on the school plan. The previous record, according to Schools Supt. George Garver, was 2,513 in 1953.

In Dublin, the turnout was about five times greater than average for a school election.

Garver was obviously pleased with his district's 70.3 per cent "yes" vote on the reorganization question.

"These (Dublin) children are entitled to be part of a school district with a complete kindergarten through 12th grade program," he asserted.

"I'm pleased that our own

Birmingham Area News

Arts, Crafts Classes to Start

BIRMINGHAM — The fall arts and crafts classes sponsored by the Bloomfield Art Association will get under way Wednesday at the Birmingham Art Center.

Classes will meet once a week for 10 weeks. Applicants are accepted in order of paid registration.

Lithography and calligraphy are being introduced into the program for the first time this year.

The lithography class, or the art of print-making, will be taught by Aris Koutoulis, a master printer who is presently setting up a lithography shop at Wayne State University.

It will be the first class in the Detroit metropolitan area open to students not enrolled for college credit.

ART OF LETTERING

Calligraphy, the art of lettering with a broad pen, will be taught by Charles Schmidt, calligrapher on the social staff of the White House under President Kennedy.

Other classes at the art center will include design and composition — color theory, figure drawing and painting, figure modeling, figure composition — oil and acrylic, figure painting and portraiture, drawing and painting I and II, painting III and IV, advanced painting, creative drawing, painting, intermediate and advanced watercolor.

Others are gold leafing and florentine techniques, trompe l'oeil (or fool the eye) for decoupage, weaving, wall hangings, stichery and yarn structures, metalcrafts and jewelry, raku and salt glaze pottery, metal sculpture, direct wax sculpture, carving sculpture and modeling sculpture.

Further details may be obtained by calling the Bloomfield Art Association, 1516 S. Cranbrook.

School district voters are being asked today to approve a \$9.8-million bond issue and a 13.8-mill operating levy.

Approval of both proposals would increase taxes by 3.50 mills or \$3.50 per \$1,000 of state equalized valuation over the present \$32.10 levy.

Only property owners are eligible to vote on the bonding proposition, but all qualified electors can vote on the operating tax proposal.

Little MEMO Is Big Boost

State Project Gives Stay-in-School Help

EAST LANSING (AP) — A MEMO on a bus helped put Gloria Cloekin in college — where educators thought she should be, but where her pocketbook said she couldn't be.

MEMO — More Education, More Opportunity — is a Michigan program aimed at giving a student whose grades aren't top but who has a "glint in the eye" to succeed.

In searching for that student, MEMO placed advertisements around the state, including placards on buses.

That's how Miss Cloekin discovered the program.

WORKING AS TECHNICIAN

"It has always been my desire to become a registered nurse," she wrote to MEMO headquarters here. Miss Cloekin, who graduated from a Grand Rapids high school in 1964, was working as a technician at Grand Rapids' Butterworth Hospital.

"My grades were above average but nothing spectacular," she wrote. "So competitive scholarships are not the answer. My financial situation leaves much to be desired."

Miss Cloekin added that her mother was sole support for a brother and sister still in school. From MEMO headquarters the letter went to Miss Edna Sargent, registrar at Northwestern Michigan Community College in Traverse City. Miss Sargent investigated, received excellent recommendations for the girl, and found the "need was absolute."

ARRANGED FOR LOAN

The school arranged for a \$400 National Defense loan and \$600 in matching funds from its Economic Opportunity grant allocation for Miss Cloekin.

"I would say MEMO has made it possible for a very fine and above-average student and young lady to attend college without being constantly hampered by working and worrying about where her next tuition money was coming from," said Miss Sargent.

"I'm anxious to get started," said Miss Cloekin, 20, who will finish her nursing studies in about two years.

Gordon A. Sabine, who leads Michigan's MEMO project in spare time from duties as a vice president of Michigan State University, calls this a typical MEMO case.

NO TYPICAL STUDENT

But, he said, there is no typical MEMO student. The project aims at helping the student who may not be thinking about more education because he can't afford it or never has been motivated to study more, Sabine said.

The boost may be toward college, community college, or trade school. It may mean just a note to the student that "someone believes in him, someone is interested, someone will be proud when he uses his brains for all they are worth."

While the project has only a \$100,000 federal grant to operate — and no scholarship money — it will try to find any financial aid a student needs.

Sabine said the ads had brought about 1,000 responses and 700 cases had been referred to colleges.

AP Wirephoto

THE 11TH COMMANDMENT — The language has a biblical ring to it, and the message on the priests' garage at St. Agnes Church in Flint comes through clearly. The sign was put up to keep the area in front of the garage clear.

DALE SHAFFER President

The DRC Story

THE POPULATION EXPLOSION HAS HIT THE HORSE WORLD, TOO

The Quiz Masters.

There are times when I feel as though I am on a television quiz panel. With a growing interest among Michigan sports fans about Thoroughbred racing, the questions asked are frequent and pertinent.

The one tossed at me most often is:

"How many race horses are there in the United States?"

I think the answer may surprise you. You may not realize what a boom there has been in the Thoroughbred World during the past 10 years.

Last season, 38,502 horses went to the post in races at tracks in the United States. This compares with 26,000 horses racing a decade ago.

It takes a lot of horses to conduct a race meeting such as ours at the Detroit Race Course. We have over 1,200 horses stabled on our grounds at all times. We are racing daily, except Sundays, from now through November 5.

There were 17,128 Thoroughbreds foaled a year ago and registered with The Jockey Club. Obviously, not all of them will go to the races, but there probably are 15,000 newcomers each season.

The racing span for most Thoroughbreds extends from the time they are two year olds until they are five or six. There are more durable performers who go on and on, of course. The oldest performers I found among the starters last year were

Copper Buster and Agreed. Each is 15 years old.

Race horses are bred in sizeable numbers in 19 states. Kentucky, the long-time center of the Thoroughbred industry, is the leader, with California second and Florida third in the number of foals.

The breeding industry in Michigan is growing, but still is comparatively small. There were 217 foals registered last season. While this total is modest, it still is more than double the State's Thoroughbred production of 10 years ago.

Racing is a Sport of many facets. I think the more you know and understand about it, the more interesting you will find it.

It is our constant aim at the Detroit Race Course to provide you with top entertainment in surroundings of beauty, comfort and convenience.

We have two excellent dining terraces, "The Winner's Circle" and "The Mile Race." They offer the finest in food and beverages. From your table, you can follow the racing action every step of the way around the track.

"Ye Olde Tired Horse Pub" is an authentic old English pub, where there is never a cover or a minimum. It offers you delicious snacks and refreshing beverages.

We have Close-in parking for 12,000 cars with Easy-In, Easy-Out entrances and exits off Middlebelt, Schoolcraft and Inkster Roads.

I invite you to visit us soon.

British Unions Changing

By TOM A. CULLEN
Newspaper Enterprise Assn.

LONDON — A quiet revolution is taking place among British trade unions as the result of the severe economic crisis into which Britain has been plunged.

The Trades Union Congress, which represents 8,600,000 unionists, voted to surrender rights as a free bargaining agent that have been won over nearly a century of bitter struggle with employers.

As a result, no British union will ever be quite the same again.

The TUC, which is the British equivalent of the AFL-CIO, has not only agreed to a six months' pay freeze, but it now recognizes the state's right to interfere in wage negotiations.

Kier Hardie, the cloth-capped leader of the British Labor party, and the Tolpuddle martyrs, who preferred exile to Australia to giving up their union principles, would have been enraged at such a decision.

WAGE DEMANDS

However, it is being studied with interest in the United States, where the recent airline strike settlement has touched off a new round of wage demands.

Only the severity of Britain's present ailing crisis would persuade trade unionists to back a pay freeze here and, at least, the motion was carried by a majority of less than 50,000 votes.

Few here doubt, however, that the TUC's action marks the end of an epoch.

From now on, there will be no more wage increases that are not tied to increased productivity.

On their way out, too, are such restrictive union practices as featherbedding and demarcation disputes.

Henceforth, unions will be required to act as responsible citizens and to trim their sails to giving up their union principles according to national policy.

Was Romney Threatened?

Guard Was Boosted; but Reason Is Cloudy

LANSING (UPI) — Gov. George Romney indicated yesterday his life was indirectly threatened. But his bodyguard denied it and his press secretary said it was a misunderstanding.

Romney told newsmen that a state police guard was posted for a time at his home late last month after Michigan Atty. Gen. Frank Kelley disclosed he had been threatened with "bodily harm" for backing a grand jury investigation of organized crime in Wayne County.

Romney indicated he had been threatened indirectly. But Jay Kennedy, chief state police bodyguard for the governor, said Romney was not threatened at all.

"We were worried about the possible carryover from the Kelley thing, and increased our security," Kennedy said.

Charles Harmon, Romney's press secretary, said the governor presumed when he saw a guard at his house that someone had threatened him.

"Romney told me the reason he said what he did to newsmen was that it was his understanding at the time the extra guards were put on that this resulted from some threats," Harmon said.

Merit Test Results Trigger Blast at State

LANSING (AP) — A Washington-based council of education has criticized Michigan public schools because of what it called a poor showing by Michigan students in the 1966 National Merit Scholarship tests.

The State Education Department called the criticism by the nonprofit Council for Basic Education unjustified and unfounded.

An official of the National Merit Scholarship Corp. agreed with state officials that merit test results should not be the vehicle for comparing the quality of education in various states.

Michigan ranked 33rd in the council's listing for the 1966 tests. The council said only 1.18 per cent of Michigan high school juniors who took the tests qualified for the select group, compared with a national average of 1.69.

CONNECTICUT FIRST — The council ranked Connecticut first with 3.22 and New York second with 3.18. Mississippi was last with 0.45.

"I think this is a pretty shameful showing by a state like Michigan," George Weber, the council's associate director, said from Washington.

Differences between states make use of test results an unreliable indicator of school

quality, said Harold Harding, assistant to the president of the National Merit Scholarship Corp. of Evanston, Ill.

He said migration into Michigan of low-intelligence persons could lower Michigan's over-all intelligence level.

IF THIS IS TRUE . . .

If this is true, Harding added, he would have to conclude that Michigan was doing a good job in education by keeping the level as high as it is.

On the other hand, Harding said, some Eastern states have pockets of intellectuals, and their children score high on the tests, bringing up a state's average.

In another council listing Weber said, Michigan ranked 19th, with 18.1 per cent draft rejections for flunking intelligence tests, compared with a national average of 29.9 per cent. But he said, this still was a shameful record.

"If a state was really doing its job," he said, "it would be about 2 per cent—and at the most 3 per cent."

Minnesota ranks first with 7.5 per cent. Great Lakes states per cent. Great Lakes states assistant secretary of state for economic affairs, and Walter 16 per cent. Wisconsin, 13th; 14.3; Ohio, 25th, 19.6, and Illinois, 29th, 24.2.

Rusk Has Fete for Romanian

NEW YORK (AP) — Secretary of State Dean Rusk gave a dinner last night for Romanian Foreign Minister Corneliu Manescu with U. S.-Romanian trade relations and the Viet Nam war the main courses.

Manescu said at the end of the four-hour dinner meeting that American-Romanian economic ties were "not at the level they could be" and said Bucharest was interested in expanding economic contact with the United States.

The foreign minister, accompanied by a three-member party, said his talks with Rusk were held "in a businesslike atmosphere" and "touched upon bilateral problems between our countries and, of course, matters of international importance," presumably Viet Nam.

A State Department spokesman confirmed Manescu's report of the talks and said, "Both sides expressed interest in ways to expand trade."

A tip-off that trade talks dominated the dinner was seen in Rusk's selection of State Department aides to attend the dinner.

They were Arthur Solomon, assistant secretary of state for economic affairs, and Walter Sossel, deputy assistant secretary of state for European affairs.

DISPLAYS CLIPPINGS — Helicopter pilot Franklin D. Beggs (left) displays clippings of an Associated Press story of how he got into the Army by divorcing his wife because he had too many dependents to be allowed

to enlist. About three months after his 1965 divorce, he remarried Linda Joyce Beggs, his wife since 1960. Beggs leaves for Viet Nam today. Anthony Ruh (right) of Lompoc, Calif., is also scheduled for duty in Viet Nam.

2 Senate Aides in Viet Probe

WASHINGTON (AP) — Sen. John L. McClellan says two Senate Investigations subcommittee aides have been dispatched to Saigon to check reports of misuse of government property and funds.

The Arkansas Democrat, chairman of the parent Senate Government Operations Committee, was asked if the reports concerned bribery or corruption.

"That may be involved," he replied. "We're not sure what all will be found."

McClellan would not disclose the origin of the reports, but said they were "of sufficient reliability" to warrant dispatch of the two aides—Jerome Alderman, the subcommittee's general counsel, and Phillip Morgan, chief counsel for the subcommittee's minority.

Car Antenna Lodges in Girl

ANN ARBOR (AP) — Five-year-old Patricia Griffin was pronounced "lucky" to be alive by a team of neurosurgeons Wednesday shortly after she emerged from a two-hour operation to remove a car radio antenna lodged in her right eye socket and brain.

Doctors said Patricia, daughter of Mr. and Mrs. Hugh M. Griffin of Plymouth, would probably be released from the University of Michigan Hospital today with nothing more than a black eye.

While playing with a neighbor child, Patricia leaped from her family's garage door to the trunk of the family car.

HEARS SCREAM
"I heard a terrific scream from the garage and ran in," said Mrs. Griffin. "Patricia was standing up on the trunk lid, holding the radio antenna. It had gone through her eye." Doctors said the antenna slipped through a tiny aperture above the tear duct, past the eye socket and lodged an inch into Patricia's brain.

Impaled on the antenna, Patricia couldn't move. Mrs. Griffin called to a neighbor, Allen Finney. The two adults were unable to remove the antenna, so Finney unscrewed it from its base.

They strapped Patricia into a car, cradled the protruding antenna in a pillow, and drove to nearby Annapolis Hospital.

Hill-Hopping Marines, N. Viets in Constant Chase

By PETER ARNETT

NEAR THE DMZ, Viet Nam (AP) — For the weary U.S. Marine battalions inching their way across the roof of South Viet Nam, the next hill is always higher than the last, and there is always another hill.

As the tangled jungle gets thicker, the enemy bunkers seem to get deeper, burrowing down into the very roots of the evergreens lining the ridges.

MUSICAL CHAIRS
When the Marines move off a peak, North Vietnamese troops crawl back on. This military

the fighting that has developed in these remote, misty mountains on the border of South Viet Nam and the Communist North.

But there are nearly as many hills up here as there are Marines in Viet Nam.

The Marines took to the hills in an extension of earlier strategy that envisaged the annihilation of the enemy in the fertile valleys running up from the South China Sea. North Vietnamese troops were moving down into these valleys from the Demilitarized Zone.

High ground fascinates Marine strategists. They saw it looming above the valleys and stretching in increasingly higher tiers across to Laos, and into North Viet Nam.

With the enemy thrown from the valleys, the Marines took to the high ground. It has been a long, tough grind ever since.

PROVED OBSTACLE
The 3rd Battalion, 4th Regiment attacked one ridge line two weeks ago. The first hill, a

"mere bump in the ground," according to Capt. J. J. Carroll of Miami Beach, Fla., proved a formidable obstacle of well-managed bunkers and sniping enemy machine guns.

Carroll's company made a lot of heroes. One Marine, Arthur J. Downey of Boston, won a battlefield promotion to sergeant for his heroic attempts to move up a hill under fire. In three tries, three men were killed beside him.

Vikings to Visit Pontiac Northern Tomorrow

Waterford Has 1st Home Tilt

Skippers to Unveil Permanent Seating

Although the football season is going into its fourth week, two Inter-Lakes League schools will be making debuts Friday night. Walled Lake goes on the road for the first time, meeting Pontiac Northern at Wisner Stadium. The Vikings have rolled up three straight wins at home and are rated No. 6 among the state's Class A teams.

Waterford actually will be involved in two firsts. The Skippers play at home for the first time this season and the game against Farmington will be their initial outing in league play. The Skippers didn't exactly prosper on road. They posted a 1-2 record.

Northern has never defeated Walled Lake in six tries. And the outlook this time isn't too encouraging.

After an impressive 34-0 win over Troy, the Huskies have been unable to generate much offensive steam. The major problem has been lack of consistent passing.

Flint Northwestern and Farmington were able to stack their defenses to control the Huskies on the ground. Meanwhile, both teams found holes in PNH's pass defense and rode this route to victories.

Walled Lake can score either on the ground or in the air and the only problem Coach Dave Smith must combat is the Vikings' looking ahead to next week's game at Ann Arbor, one notch above Walled Lake in the ratings.

SKIPPERS SLOWED Waterford has been hampered by injuries, but Coach John Moffatt feels the Skippers gained valuable experience in last week's loss to East Detroit.

"East Detroit has a good football team, better than a lot of people think," said the Waterford coach. "But we made them work for their touchdowns and we were able to use quite a few players."

Dennis Galbraith, who replaced Steve Rogers at fullback, was named back of the week. Rogers is believed lost for the season with a knee condition. Tackle Steve Main and linebacker Jim Smith were named linemen of the week.

Farmington will use an airborne attack off the spread formation. It has been effective in giving Farmington a 3-0 record. There will be a third debut at the Waterford field. The new pre-cast concrete stands on the home side have been completed and the new press box finished.

TKO Ends Miami Bout

MIAMI BEACH, Fla. (AP) — Al Jones of Goules, Fla., stopped Sonny Moore of Dallas, Tex., in the ninth round of a heavyweight fight Wednesday night with a technical knockout.

Victories Sparse Over Wildcats

Chiefs to Invade BC Handy

Pontiac Central's Chiefs have far better than the record would indicate. Against Saginaw Arthur Hill in their opener, the Chiefs won everything but the game, losing 7-0, and they battled a good Midland team on even terms before bowing, 13-6.

After a couple close losses, they won one, downing Flint Northern's Vikings, 20-18.

Fullback Bennie Williams, a 265-pounder, has been the big gun for the Chiefs. He's scored 12 of Central's 28 points and he gives the team good power and speed up the middle.

The Chiefs haven't shown much in the way of passing to date, but quarterback Lee White can throw the ball. The receiver have had a little trouble hanging onto the ball.

While there has been a lack of passing, the Chiefs used the air lanes in defeating Northern last week, the payoff coming on a 19-yard pass from White to Walter Terry and it turned out to be the Chiefs' lone pass completion of the game.

Wings Tumble, 5-1

Hull Sparks Hawks' Win

ST. LOUIS, Mo. (AP)—Detroit right wing Bruce MacGregor who suffered a charley horse the night before in a hard collision with Frank Mahovlich of the Toronto Maple Leafs.

MacGregor may be sidelined for several days. Mahovlich suffered a cracked rib.

It'll be the sixth meeting between the two squads, a series that Handy leads, 2-1-2.

LONE WIN PCH's only victory since 1949 at Bay City came in a 7-0 triumph over Handy in 1964.

The Chiefs are solid favorites to win their second one on a Bay City field tomorrow.

Other Saginaw Valley Conference games find Bay City Central, the No. 2 ranked Class A team in the state, at Saginaw Arthur Hill, while Flint Central visits Midland and Flint Northern entertains city rival Northwestern. In a nonconference outing, Saginaw visits Douglas MacArthur.

Victories have been few and far between for Handy's Wildcats.

Their last victory came early in October last year when they blanked Saginaw, 7-0. In their next six games, they lost four and tied two, and they've opened this campaign with three setbacks in a row.

PCH owns an unimpressive 1-2 record, but the squad has played

Black Hawks star Bobby Hull scored twice, his brother Dennis fired in one goal and Chico Maki and Kenney Wharram scored the others.

INJURES ARM

Chicago's Stan Mikita left the game with an injured arm, a result of an encounter with Detroit's Bob Wall who was penalized for slashing with his stick. It was the third loss against two victories for the Red Wings. Detroit will play Boston Friday night in London, Ont.

The Wings played without

U. S. Golf Teams Share First Place

GLENEAGLES, Scotland (AP) — Three American teams, sharing the lead in the second round of a professional-amateur four-ball foursome handicap golf tournament, were expected to complete their rounds today on the three courses over which the tourney is being held.

Players have been moving from the Kings and Queens courses at Gleneagles to the old course at St. Andrews and, after two rounds, the three U.S. teams each had a 119 aggregate score.

The teams are from Ridgewood in Danbury, Conn.; Saucor Valley in Bethlehem, Pa.; and Scioto in Columbus, Ohio. The tournament ends Friday.

Baseball Group to Make Tour of Viet Nam

LOS ANGELES (AP) — Four top-flight current baseball stars, a member of the Hall of Fame and a well known radio-television announcer will make a tour of Army installations in Viet Nam, Commissioner William D. Eckert announced Wednesday.

They are Harmon Killebrew of the Minnesota Twins, Joe Torre and Hank Aaron of the Atlanta Braves, Brooks Robinson of the Baltimore Orioles, Ted Williams, famed Boston Red Sox hitter now in the Hall of Fame, and Mel Allen, the radio and television announcer.

The group will leave Nov. 1. Eckert said their trip would be in the nature of a visit in contrast to the entertainment tours of Bob Hope and others.

The baseball group will visit camps and hospitals and talk informally with American soldiers.

Kelly Pacing NFL Rushers

Bart Starr Holds First Among Passers

NEW YORK (AP) — Leroy Kelly, who has taken over for the retired Jimmy Brown as Cleveland fullback, also has replaced Brown as the National Football League's leading rusher.

Kelly gained 134 yards against New York last Sunday and now has 352, that's 23 better than second place Bill Brown of Minnesota, according to NFL statistics released Wednesday.

Green Bay's Bart Starr leads the passers with 57 completions in 88 attempts for 845 yards and six touchdowns. Don Meredith of Dallas is second with 34 completions in 68 attempts for 695 yards and nine TDs.

Bobby Mitchell of Washington has caught 21 passes for 412 yards and four touchdowns. Three players have caught 18.

Brother Rice Star Paces Grid Scoring

Speedy Greg Pilette of Birmingham Brother Rice continues to set the pace in the heated Oakland County football scoring race.

In sparking Brother Rice to a 2-0 record, Pilette has scored nine touchdowns in 54 points, putting him nine points ahead of Cliff LaFond of Farmington Our Lady of Sorrows.

Jim Galdi of Madison and Dick Kraatz of Bloomfield Hills share third with 36 points.

In the Saginaw Valley Conference race, Kennon Murphy has piled up a two-touchdown lead.

Murphy has chalked up seven touchdowns for 42 points, while Tim Shreder occupies the No. 2 spot with 30.

Powder Puff Derby Drag Races Sunday

Motor City Dragway Sunday afternoon will have two features as the women drivers complete their season on the quarter mile track.

At least 40 women are expected to vie in the Michigan Powder Puff Derby drag races eliminations. Their time trials will begin at 12:30 p.m.

A best three-of-five contest is slated between Troy's Joan Higgins in a 1966 Mustang and Highland's Larry Sawalich in a Anglia Truck powered by Buick engines.

GORDON SCHWARTZ
Point Producer at Ulica

Other games in the north area Friday will have Fenton visiting Montrose and Orvilleville Brandon at Flint Hamady.

Millington will travel to Imray City in a South Central League engagement.

Bogus Bill Boom Tied to Better Photography, Printing

WASHINGTON (AP) — If feisters, but tipsters, and under- find. In this way the service can cover agents play an effective trace a bill's circulation path. But occasionally, the Treasury Department itself finds a bogus bill in the worn out money.

Banks are attuned to the bogus money racket and tip the eye it receives from the Federal Reserve Bank for destruction. Despite the department's phenomenal success over 10 years in eliminating competition, however, counterfeiting reached record levels during the year which ended June 30 and the heightened pace is continuing.

But the Secret Service, which was created in 1865 to combat widespread counterfeiting, also had some bad news for the makers of phony money. It reported record seizures and arrests for counterfeiting during its last fiscal year.

James J. Rowley, the Secret Service director, said the major factor in the bogus money boom is the improvement in photography and printing which has made it easier and quicker to produce counterfeiters.

MORE PRODUCTIVE
And the service added that counterfeiters, in general, are turning out more phony bills per capita than they once did. It's simply a matter of running the presses longer.

"There's no indication that this criminal activity will lessen in the coming year," Rowley said. He added that the rise in counterfeiting generally follows the rise in the society's affluence and the increase in the amount of money in circulation. At last count on Aug. 31, there was \$38.6 billion in paper money in circulation.

Despite improvements in the quality of counterfeiters, they still fall short of Treasury standards — the parchment, for example, on which real money is printed has never been duplicated by counterfeiters.

BLUE AND RED

It's embedded with tiny blue and red silk swirls.

The Secret Service dislikes talking publicly about the techniques it uses to catch counter-

feiters where it can examine the minute details of paper, inks, also not duplicated by counterfeiters — and other characteristics peculiar to bogus bills.

MODERN TOOLS
Among the modern tools the Treasury uses are its labora-

tories where it can examine the minute details of paper, inks, also not duplicated by counterfeiters — and other characteristics peculiar to bogus bills.

The service also set up a close liaison with many printing

plants. A skilled man took about six months to prepare a counterfeit plate and print his wares.

But now with high speed cameras, automatic engraving machines and ultrasensitive litho-

graphic presses, technicians with limited capability can set up a plant and run off bills in a matter of days. They don't even have to buy their own equipment; in some cases they can lease it.

Dog Ordered Out of Town

Collie Must Leave NY or Be Executed

NEW YORK (AP) — Pete the collie goes into exile today with a one-way ticket — the city's ways of sparing him from a death sentence — fastened to his collar.

Condemned as a three-time loser under New York's two-bite limit, Pete was allowed to skip town after his owner signed an affidavit promising never to bring him back.

The two-year-old collie, described as predatory by the city, was put aboard a plane bound for Raleigh, N.C. He'll be cared for there by Andre Crump, a relative of Pete's 10-year-old master, Anthony Jones of Elmhurst, N.Y.

"I'm glad Pete is going to be with someone who loves him and who will take good care of him," Anthony said. "I'm very happy that he is going to stay alive."

LEGAL FIGHT

The dog was involved in a legal controversy that touched on the rights of pets to receive due process of law and a chance to face their accusers.

When Pete was condemned to death as a vicious dog after supposedly biting three people within 24 months, Anthony's father, William, protested. He asked the courts for a stay of execution until he and Pete could confront the neighbors he was said to have nipped.

Jailer Needs a Scorecard

JUAREZ, Mexico (AP) — Jailer Carlos Morales Andrade says so many visitors swarm into the Juarez City Jail it is hard to tell them from the prisoners. He told the Juarez City Council that some of the better dressed inmates pose as visitors and walk out to freedom.

He has recommended that prisoners wear distinctive uniforms.

Road to Open

LANSING (AP) — The final section of the Lansing-to-Jackson Freeway, a seven-mile stretch of U. S. 127 from Mason to I-96 at Lansing, will be opened Oct. 14, the Highway Commission said.
