Earthquake's Toll Eight

Blast Kills 2 Aboard Carrier in Maneuvers

20 Injured as Copter
Overspeeds in Test
Just Below Flight Deck

QUONSET POINT, R.I. — The aircraft carrier USS Wasp—a hangar compartment blackened by an explosion—brought two dead and some 20 injured crewmen into port at the naval air station here today.

The big ship was participating in antisubmarine maneuvers about 250 miles off the Virginia coast yesterday afternoon when she was shaken by an explosion. The Navy set the time at 4 p.m.

The blast occurred when a helicopter engine "overspeeded" during a routine test in the hangar area just below the carrier's flight deck.

The copter's pilot, Lt. (J.G.) Jim Frank Hagan of Marianna, Fla., was killed. He was working on the helicopter when the explosion occurred.

Aviation apprentice Donald Howard Trask of Keene, N.H., drowned in an elevator pit while fighting the resultant fire.

Four destroyers, taking part in the maneuvers, helped fight the fire. It was brought under control in 50 minutes but flared up again. It was finally extinguished in another 20 minutes.

Names of the injured were not immediately available.

Rear Adm. Robert Stroh commended Capt. E. C. Fredericks of the Wasp for the "calm and efficient manner" the fire was fought. He said the crew performed in "magnificent fashion" and that there were many individual acts of heroism.

The Wasp lost 103 men in the Pacific during World War II. She was placed in mothballs and reactivated in 1951.

Approve 8-Mile Drain Bonds

State OKs \$4 Million
Issue; County Still Must
Face Law Suit

Tides turned suddenly for Oakland County's blocked Eight Mile road storm drain when the Municipal Finance Commission yesterday surprisingly approved the issuance of more than \$4,000,000 in bonds to build the project.

But Drain Commissioner Daniel W. Barry still finds himself unable to move ahead with the project.

Holding up the \$4,760,000 project, which will serve mostly Southfield and some of Oak Park, is a lawsuit filed last week by an association of Southfield residents seeking to block construction of the 3.7-mile storm drain.

A hearing has been set for Sept. 9 in Oakland County Circuit Court. An injunction sought by the protesting group could hold up the project for many more months, Barry said.

Yesterday's approval of the bond issue took Barry and some other county drain officials by surprise. This was because a memorandum released last month by an assistant of Atty. Gen. Paul L. Adams indicated that Adams was recommending disapproval of the bond issue. Adams is also chairman of the Finance Commission.

His office had had Barry's petition for issuance of the bonds under study since January when a group of Southfield residents traveled to Lansing to protest the project.

Then — and again in the suit — they argued that assessments for the sewer project are so high that there might be a "wholesale foreclosure" on their homes.

A secretary in Adams' office this morning said she didn't know where he was so he could not be reached for comment on the Commission's change.

Barry theorized that the mem-

Has Good News

SEES TAX CUT — Grand Rapids' Frederick H. Mueller, holds his first press conference since being confirmed by the Senate to the post of secretary of commerce. He told reporters "I would hope that we can look forward within a reasonable period to a tax cut."

Area to Suffer Heat, Humidity Until Tuesday

Little relief is in sight from the warm, humid temperatures in the Pontiac area before Tuesday. The weatherman predicts temperatures will range in the upper 80's for the next five days.

Tonight will be generally fair and a little warmer, with a low of 68.

Precipitation will total near one-quarter of an inch in scattered afternoon and evening thunder showers Thursday through Monday.

The lowest thermometer reading in downtown Pontiac preceding 8 a.m. was 63 degrees. At 1 p.m. the mercury had climbed to 86.

Pontiac to Ask Bids on Library

Plan for Civic Center
Structure May Exceed
\$500,000 Cost

Pontiac plans to open bids in four weeks for construction of the proposed \$500,000 main library in the Civic Center.

Taking an initial step to correct a marked lag in library facilities, city commissioners last night accepted plans for a one-story building of glass, brick and limestone block, drawn up by O'Dell, Hewlett and Luckenbach Associates of ever, that cost of the building.

The city was warned, however, that cost of the building might exceed, slightly, the price ceiling of a half-million dollars and that the building in mind would not fully meet existing library needs.

Thomas Hewlett of the architectural firm said that costs might exceed the ceiling by as much as 5 per cent, or \$25,000.

Ralph A. Ulveling, a consultant on the project, said the proposed building could carry up to 100,000 volumes, about 2½ times as many as the present main library but still far below the number recommended for a city of Pontiac's size.

Hewlett and Ulveling spoke to commissioners before the formal commission meeting last night.

Miss Phyllis Pope, Pontiac city librarian, was not present at the meeting but was informed of it later.

"It is great news to learn that

Four in Family Among Victims at Yellowstone

Confusion Still Exists
Over Identification as
Body Hunt Continues

WEST YELLOWSTONE, Mont. (AP) — Eight persons were known dead today from a wide-ranging earthquake which dealt its most devastating blows in a southwest Montana fishing area.

Officials said the toll could rise to 13.

Earth slides just west of Yellowstone National Park roared down after the quake, trapping the victims and terrifying other vacationers with a thunder of rocks, earth and trees.

Four of the known dead were from a single family. They were F. R. Bennett, 45, of Coeur d'Alene, Idaho; his two daughters, Carole, 17, and Susan, 5; and a son, Tom, 11. Bennett's wife and another son, Phillip, 15, were injured.

Survivors reported seeing a couple and a crippled boy swept away by an avalanche which struck their automobile.

At another point, parts of an automobile registered to Thomas Stowe, 31, of Sandy, Utah, were found, along with Stowe's fishing tackle box and some papers.

The sheriff's office at Virginia City, Mont., reported once that bodies of Stowe and his wife had been recovered, but they could not be located at any mortuary and other sources couldn't confirm the report.

Approximately 60 persons were injured, but only 27 remained in hospitals in four Montana towns. Six were reported in critical condition.

Most of the victims were campers enjoying outdoor vacations in the rugged wilds of southwestern Montana, less than 20 miles west of Yellowstone Park.

The quake first struck near midnight Monday at Hebgen Dam and farther downstream in the Madison River valley, famous trout fishing country.

There were an estimated 22,000 to 25,000 vacationers in Yellowstone Park when the quakes hit, but no one was reported hurt.

(Continued on Page 2, Col. 6)

Nature Goes on the Rampage

TOO EFFICIENT — An unwanted destruction job that would have taken a road crew long hours of toil was completed in seconds by a Yellowstone Park earthquake. U. S. highway 287

nine miles north of West Yellowstone lies impassable after being shattered by the quake. Pavement has dropped below the level of the Madison River bridge (background).

'It Was Horrible'

After Quake . . . Screams

BOZEMAN, Mont. (AP) — "It was horrible," an earthquake survivor said today.

"The children were screaming for help, crying for their mothers," recalled Mrs. Clarence Scott of Fresno, Calif., who came out of the heavily hit Rock Creek area.

"Husbands begged their wives to answer."

"Someone was screaming for help from anyone who could swim."

"I looked where there had been trailers and tents. They were gone. I went by one lady whose leg was sticking up in the air. I asked her if I could help. She said her leg was broken."

Mrs. Scott was in her trailer when the quake rocked the popular vacation area late Monday night.

"There was a huge noise. It sounded like a thousand winds going through the trees but not a tree was moving."

"Something struck our trailer and pushed it up against a tree. The sides and end of the trailer fell off. My husband was gone. I found him just wandering around. He had been in the mud under a tree and managed to squeeze free."

Ray Painter of Ogden, Utah, told of living through those same moments.

"I could not hear my wife but I could hear the kiddies crying and I knew some of them were alive. I begged someone to help lift the tree off my leg. I thought it had cut my leg off. Finally three guys got it off. I found the kids first, then my wife. She had a broken leg."

Although injured and shaken, the Painters had a comforting reunion—all were alive.

F. A. Bennett, 45, a Coeur d'Alene, Idaho, truck driver, was vacationing with his wife and four children.

Battered and bruised, Mrs. Bennett spoke through swollen lips from her bed in the small, overcrowded hospital at Ennis, Mont.

"There was this great sound," she said. "I found myself rolling along with trees, rocks and water."

"I really don't know how I got out of it. They say my husband and three of the children are dead. But I have not lost faith in God. I know they will be found."

In the hallway, a nurse told a reporter:

"The poor woman. She just doesn't realize."

Mrs. Bennett's husband, their daughters, Carole 17, and Susan, 5, and son, Tom, 11, were listed among the dead. Another son, Phillip, was in the hospital with his mother. He is expected to recover.

"He is her family now," the nurse said.

1960 License Tabs to Be Green on Gold

LANSING (AP)—Secretary of State James M. Hare said today automobile license plate tabs for 1960 will be green on a golden yellow background.

The color scheme will reverse that on the full-sized 1959 plates, which had yellow numerals.

Distribution of tabs will start Nov. 1. Hare said. Production is well under way at the State Prison of Southern Michigan at Jackson.

Hare said the tabs, 3½ by 1½ inches, will carry serial numbers unrelated to those on plates now in motorists' possession.

Altogether, Curtis said, more than \$60,000 was paid to Zvara.

Gosser told the committee he thinks Zvara told Reuther that he got \$24,000.

"We have checks here running over \$60,000," Curtis told Gosser.

"Now who got the balance?"

"Why don't you ask Peter Zvara," Gosser replied.

"I did, and he took the fifth amendment, and he is your assistant," Curtis retorted.

"No, he isn't my assistant," Gosser said.

"The day he said that he took that check he got fired and you ought to know this."

The 1960 Oldsmobile will be a

HANGAR BECOMES HOSPITAL — Distress on faces of spectators mirrors the suffering of injured campers brought by helicopter to the West Yellowstone, Mont. airport hangar from the Madison River earthquake slide area. The hangar served as an

emergency medical center until victims could be taken by plane to Bozeman, Mont. Beds were improvised from bales of hay and mattresses or sleeping bags. Rain and low clouds hampered flying late Tuesday.

Ike to Proclaim Hawaii as 50th State on Friday

WASHINGTON (AP) — President Eisenhower will formally proclaim Hawaii as the 50th state at 4 p.m. Friday.

The proclamation ceremony will be held at the White House. Eisenhower will return here from his Gettysburg, Pa., farm to sign the proclamation.

Press secretary James C. Hagerty said the President also will issue an order on a design for a new 50-star flag to become officially effective next July 4. A 49-star flag was ordered after Alaska became a state last Jan. 3.

The proclamation Friday will permit the new state's delegation in Congress to take their oaths before Congress adjourns. In an election, July 29 Hawaiian voters chose one Republican and one Democratic senator and a Democratic representative.

They also elected William F. Quinn, a Republican, as governor. Hagerty said the islands are planning a celebration at 10 a.m., Hawaiian time, Friday to coincide with the proclamation signing.

Javits Says Rocky Debating Candidacy

WASHINGTON (AP)—A lot of people may be skeptical, but Sen. Jacob K. Javits (R-N.Y.) says he's convinced Gov. Nelson A. Rockefeller hasn't made up his mind about 1960.

Javits said Rockefeller's flying trip to Washington Tuesday was a mere scratch-the-surface affair without too much political significance.

In the course of the day, Rockefeller talked with President Eisenhower and other government officials on civil defense matters, and met with GOP office holders both in Congress and in the administration.

Have a Kindergartner? Here's What to Do

With back-to-school days drawing near, parents who failed to attend Pontiac's "Kindergarten Roundups" held in May and June will have another chance to take care of preliminary registration requirements on Sept. 10 and 11. Although most of the kindergarten age children have already been enrolled in Pontiac's schools

according to Gerald E. White, coordinator of elementary education, late-comers and people who have recently moved into the district will be able to take advantage of the two days in September. When enrolling their children, parents are asked to present these three requirements:

1. A birth certificate showing that the child is or will be five years of age on or before the first day of December. The hospital certificate is not acceptable.

2. The immunization record of all shots given, including the dates and the doctor's name.

3. A complete physical and dental examination for the child and an effort to correct any existing physical defects.

On or just after the first day of classes, Sept. 14, parents will receive a brochure published by the Pontiac Board of Education outlining the kindergarten program and objectives. It is designed to help parents with their children's school needs and problems. The booklet is "very attractive and helpful," said White.

For the first week of school, from Sept. 14 to 18, kindergarten sessions will only be an hour and a half long. Thereafter they will be 2½ hours long with milk served midway through the period. No lunch will be served to the kindergarten children.

Clearly labeled clothing was a necessity. "If the children have had practice in staying away from their parents and are able to follow simple directions, they shouldn't have any serious emotional problems," he said.

Check Lights in Child's Room to Ease Eyes

CHICAGO (UPI) — Before your child starts back to school, check the lighting in the room in which he will do his homework. The main problem is glare, says the American Home Lighting Institute. Over a period of time, the difference in lighting levels and quality can contribute to eye-strain with resulting headaches and dizziness, the institute said.

To correct the situation, the institute offers this guide to

lighting an average-sized room (125 to 225 square feet) used for study and recreational purposes: Have at least one ceiling fixture 15 to 17 inches in diameter, accommodating either five 40-watt bulbs or four 50-watt bulbs. Put a hanging fixture that can be moved up or down over the child's work desk or table. This fixture should have 100 watts in incandescent bulbs. Install a cornice or valance shielding fluorescent tubes on the wall near the ceiling, behind the desk. The installation should be 8 to 12 feet in length. To minimize glare, be sure a good diffusing material shields incandescent bulbs in the fixtures. In addition, check the reflection. Desk tops that reflect light into the child's eyes should be dulled, or covered with a blotter.

Uses Verbal Diplomacy

CORYDON, Ind. (AP)—Commander Gus Yochem of the local American Legion post may have been bucking for a diplomacy medal when he reported that the last meeting was attended by "27 old vets and 23 young ladies."

Many Cities Have Given Up Fight

Pollution Threatens Great Lakes Beaches

Great Lakes cities are in danger of surrendering their unique, built-in beaches to the soiled tides of sewage and industrial pollution, a United Press International survey showed Tuesday.

Chicago and Erie, Pa., appeared to be the only large cities enjoying the water — and the two have spent millions for the privilege.

Milwaukee and Cleveland both admitted it was all but a losing fight to keep their beaches. Rochester and Buffalo, N. Y., said they long ago have given up theirs.

Michigan authorities said they had stringent, state-wide dumping laws to guarantee the state's myriad beach-resort towns would not be polluted off the map.

"Industrial pollution is the most serious problem in the Cleveland area," regional plan commission director Proctor Noyes said. "Some pollution may be coming from so far away as the Detroit River."

Cleveland health officials made no bones about it. They said they flatly discouraged any bathing in Lake Erie.

"It's a shame but that's the way the situation is," one said.

Buffalo long ago gave up its entire waterfront to shipping interests. But, even with its beaches gone, the city now finds pollution frequently tainting the taste of its water.

Rochester, beachless for 17 years because of high Lake Ontario waters, this year reopened its lone section — the Durant Eastman Beach. To keep it and its drinking water clean, the city is constructing an 18 million dollar pollution control project.

It was Milwaukee, however, where the problem really was coming to a head. Officials were forced to close down seven public beaches last week because of polluted Lake Michigan water resulting from the dumping of sewage effluent from the city's sewage treatment works.

Frank W. Chesrow, head of Chicago's Sanitary District, whose sewage treatment plants have been called one of the world's engineering wonders, ordered an investigation to determine whether Milwaukee's problem was affecting Chicago water.

Milwaukee mayor Frank Ziedler said such a probe was "silly and absurd. It shows how little Ches-

row really knows about sanitary engineering."

Ziedler said Chicago residents would be "shocked" if they discovered south Chicago industrial waste dumped into the Chicago River had affected their own water.

"I think someone ought to investigate that," Ziedler said.

Erie, Pa., said it was making maximum use of its Great Lakes waterfront, relying on the services of a \$4,500,000 sewage treatment plant built three years ago and a \$3,000,000 state and federally built beach-front park completed in 1955.

Two of Erie's largest firms were told to install their own waste treatment facilities, which they did.

Glenn C. Richards, commissioner of Michigan's department of public works, said it has been five years since the state was involved in a pollution problem.

"Michigan law requires all lake communities to have treatment facilities to remove all sludge and solids and treat water to a high minimum standard of purity be-

fore being returned to the lakes," Richards said. "A month ago we even made a large area of Detroit hold off on building any new homes until its storm sewers were enlarged."

Toledo officials, too, found added sewage facilities a problem. A new sewer was extended to 12 homes built near a yacht club. A \$9,000,000 secondary sewage treatment plant, currently under construction, was expected to handle the problem for the next 20 years.

Noyes said the only solution for Cleveland's problems appeared to be a countrywide sewage system similar to that used by Chicago.

"That's opposed by local politicians and no progress is being made, though," Noyes said.

MRS. PEARL PUTNEY

**Discover Bones
on Woman, 72**

Missing Over a Year in
California; Begin Hunt
for Ex-Con Motherwell

DOWNIEVILLE, Calif. (AP) — Experts are seeking the cause of the death of Pearl Ada Putney, 72, whose bones were found scattered in a wooded foothill area of the Sierras a year after she vanished.

The wealthy widow last was seen Aug. 15, 1958 in Marysville, Calif., six weeks after she left her home in Washington, D.C. with an ex-convict on what she called "a last fling." The bones, found Sunday, were identified Tuesday.

Sheriff W. D. Johnson said he understood the FBI had begun a search for the ex-convict, Larry Lord Motherwell.

Motherwell was arrested Jan. 18 in Las Vegas, Nev. for questioning in the death of his 14-month-old mentally retarded daughter in Maryland in 1954. A grand jury declined to indict him in Frederick, Md., in that death and he was released Feb. 6.

The widow's parched bones were found by Alma Freeman of Trio Oro, Calif., who was in the foothills hunting pine cones with her granddaughter.

**Martha Raye Parts
With Sixth Husband**

NEW YORK — Comedienne Martha Raye and her sixth husband, former policeman Robert O'Shea, have parted after nine months of marriage, the New York Post said today.

It quoted Miss Raye's manager, Nick Condos, one of her former husbands, as saying: "It's all over between them. They have separated with the intention of divorcing."

Queen Wins Tiff Over Charles' Future School

LONDON (UPI) — Queen Elizabeth has won a family argument and young Prince Charles will be sent to Eton after finishing grammar school, a newspaper reported today.

The Daily Mail said the 10-year-old prince, now a student at Cheam School, wanted to attend Charterhouse, another old-school-tie institution. His father, the Duke of Edinburgh, wanted him to go to his old school, Gordonstoun.

But the Queen held out for Eton and that's where Charles will go in 1961, provided he can pass stiff entrance examinations, the Daily Mail said.

Backs Expansion Bill

WASHINGTON (AP) — Rep. Basil L. Whitener (D-N.C.) introduced a bill to increase the official size of the House from 435 to 438 members otherwise, he said, some states, after the 1960 census, would lose seats because of the two new representatives from Hawaii and the one new representative from Alaska.

NEW TWIST FOR OLD STANDARD — Hopsacking, an old friend for many years, now has a new look: blazers. Dennis Huff, of 1191 Bamford Dr., Waterford Township, a student at the Pontiac Business Institute, models the new coat for McNally's Men's Wear, at 106 N. Saginaw St. Cricketer tailors the worsted in antiqued compound colors, which give the impression of a one-color solid but that might be as many as nine colors. McNally's has just received a large collection of the versatile Cricketer clothes.

Waterford High Schools Start Enrollment Tuesday

Registration of Waterford Township's junior and senior high school pupils is scheduled to begin Aug. 25, through Sept. 2, according to superintendent William Shunk. School will open Sept. 9.

Enrollment for 11th and 12th grade pupils will be taken at Waterford High School from 8 to 11:30 a.m. and 12:30 to 2 p.m. Aug. 25, 26 and 27.

Tenth grade registrations will be accepted from 8 to 11:30 a.m. and from 12:30 to 2 p.m. Sept. 1, 2, and 3. Registrations will also be taken from 7 to 9 p.m. Sept. 2.

Registration for the junior high school pupils in grades 7, 8 and 9 will get under way at the Isaac Craty and John Pierce Schools from 9 a.m. to 2:30 p.m. Aug. 31, Sept. 1 and 2. A special evening registration has been set up from 7 to 9 p.m. Sept. 2 for those unable to register during the day.

During the registration period, pupils' schedules and textbooks will be issued. Laboratory fees and book deposits are to be paid at this time, with the following list of fees to be charged both junior and high school pupils.

Book deposit, \$2; art, \$5; crafts \$5; auto mechanics, \$2; drafting, \$2.50; metal working, \$5; wood-working, \$3.50; vocal music, \$1; office machines, \$1; Biology, \$1; chemistry, \$2; and towel fee of \$3.50.

There also will be an arts and crafts fee of \$3.50 and a \$2.50

towel fee for each semester of do so will cause the pupil's delay in starting school, Shunk said.

All Waterford Township pupils have been urged to register at the scheduled time, as failure to

U.S. transportation ships returning from the Persian Gulf in World War II found bales of valuable Oriental rugs excellent for ballast for the empty ships.

1953-54 Autos Leading Parade on Trade-In List

DETROIT (AP)—A sharp increase in trading by owners of cars five and six years old has contributed to new car sales this year, a leading research organization reported today.

R. L. Polk & Co. said a survey of the first eight months of 1959 showed six-year-old trades are running 62.8 per cent ahead of 1958. The five-year-old trade-in rate is 62.4 per cent ahead.

Both are hopeful signs to new car dealers who are aware that in times of recession owners tend to hang onto their cars for another year or so.

The Polk survey gave these other increases: One-year-old models have been traded in at 24.2 per cent greater rate this year than last; two-year-old

trades are 34 per cent ahead; three-year-old trades are 32.9 per cent greater, and four-year-olds are 44.2 per cent greater.

Of those who wear glasses in the United States, one-half wear them regularly.

Mail Ads Mean You're on List

Businesses Build, Buy
or Rent Name Slates
to Give You Message

NEW YORK (AP)—Ever wonder why your mailbox is generously supplied with matter advertising bird seed to corsets, when you've shown no direct interest in the products?

The answer is that your name has made a list—perhaps dozens of lists—with little or no effort on your part.

"Basically, the success of any business mail depends on its reaching a properly selected audience," says the Business Mail Foundation. You, the consumer, fit somewhere in this "selected" audience.

Some advertisers build up their own lists from their sales records or from association lists or directories.

Others buy or rent lists. Just about anyone with a mailing list of his own—magazines, manufacturers, wholesalers, retailers—will rent it to a noncompetitor, says the foundation.

"Thus, if you're selling lawnmowers, it's logical you'd be most successful using lists from home-making magazines, seed houses or nurseries."

There are even list "brokers"—agents who make a business of helping list owners and list users find each other. Once the advertiser has a list, he test-samples it to make sure it includes people who want and need his product.

The reason for your getting more than one piece of mail on a certain product means, simply, that you're on more than one of the advertiser's mailing lists.

The foundation says that because businesses want only to place their products or services before those who are most interested, "you have nothing to lose and everything to gain when you open the next piece of business mail that comes to your letterbox."

Lend Variety to School Lunch

Spanish Egg Recipe,
Meat Dish Favorites
of One Mother

suggests the following dishes as occasional alternatives to the usual soup and sandwich lunches.

SCRAMBLED EGG ESPAGNOL: Almost any leftover vegetables, meat or fish can be added to this Spanish version of scrambled eggs.

Just be sure to start with onion and olive oil. In about two tablespoons Spanish olive oil, slowly cook one medium chopped onion until soft; add chopped cooked potato, chopped green pepper, diced tomato, cooked linas, green beans, peas or cauliflower.

Or add finely chopped pork, chicken or veal, or fish. When vegetables are heated through add well-beaten eggs, one to a serving. Sprinkle salt lightly over pan and as bottom begins to set, turn eggs lightly with spatula.

PICADILLO: As a change from hamburgers. In a generous amount of Spanish olive oil, saute chopped onion and green pepper until tender; add chopped chuck and a diced tomato.

Sprinkle with salt and pepper, cook over medium heat, stirring once or twice, until meat has lost pink color and tomato is soft.

Serve hot in hamburger buns (like barbecued beef). One pound of meat will make six servings.

Austerity, Revenue Curb State Deficit

LANSING (UPI)—Austerity and better-than-expected revenue returns kept Michigan from going over the 100 million dollar mark with its deficit for the last fiscal year.

That's the substance of a year-end report issued by state controller James W. Miller on the fiscal year ending June 30.

The preliminary figure for the general fund deficit was 96 million dollars — about 14 million below the 110 million that was predicted in Gov. G. Mennen Williams' January budget message.

Quiz Women Employees on Texas Bank Shortage

TYLER, Texas (AP)—Two long trusted women employees of a small East Texas bank were to appear in federal court today to tell what they know about a shortage of \$130,516.06 in the bank's accounts.

They are Miss Yola Renfro, 59, a former assistant cashier, and Mrs. Weldon Conner, 34, a former bookkeeper. Both were suspended by the Texas Bank and Trust Co. of nearby Jacksonville when the shortage was discovered July 23. No charges have been filed against the two women.

300 Citizens Urge Rezoning in Addison Twp.

Want Industrial Plant on Pelizzari Property

ADDISON TOWNSHIP — Petitions signed by some 300 township residents asking that favorable consideration be given to the request for rezoning of 40 acres of the Charles A. Pelizzari property were presented at last night's Zoning Board meeting.

The Ferndale manufacturer had previously withdrawn his application for permission to build a small industrial plant in Addison Township because of the "antagonistic attitude of several people at two public hearings" on the matter.

He wanted the parcel rezoned from agricultural to light manufacturing.

The petitions presented last night cited the fact that the signers "wish to see the township grow industrially and residentially" and that they favor industry coming in.

"Only a small minority were opposed to putting the factory on the Lake George road site," spokesman Hiram Terry said. "These petitions tonight represent a majority."

Pelizzari, head of R. O. W. Sales Co., manufacturer of windows for national distribution, was asked if he would reconsider his withdrawal.

He said he appreciated the petitions but couldn't say that it would change his company's decision.

"I'm pleased to see how many would like to have industry here," he said, adding that in view of the signatures, he would talk it over with his associates.

"We may have information on our next move in the next week or so," Pelizzari said.

TABLE REQUEST

The Zoning Board had tabled action on the rezoning request until it could incorporate proposed changes in the building code or zoning ordinance.

Last night Board members unanimously approved revisions of the zoning laws as they apply to industrial districts. The revisions are:

Under Industrial I Districts classification, light manufacturing will be permitted if the trade, industry or activity is "not injurious, noxious, offensive, or hazardous by reason of odor, dust, fumes, smoke, noise, fire or explosive danger or because of being unsightly."

There will be no foundries, boiler works, hot forging presses or machines causing vibration displacement exceeding .003 of one inch as measured at the property line, the ordinance provides.

Also, that measurable noise from regular operation shall not exceed 70 decibels at the property line.

Prohibitive uses listed include tanneries, slaughterhouses, stock yards, junk yards and refuse dumps.

SET REQUIREMENTS

The same uses will be permitted in Industrial II Districts with limitations of vibration displacement of .008 inch and operational noise not to exceed 80 decibels at the property line.

Buildings in both districts "shall be of permanent and fireproof construction not more than 35 feet high and shall comply with all applicable laws relating to health, sanitation and safety."

A parking area must be provided and green belts will be required. These green belts or buffer zones "shall parallel all public roads to the width of the industrial property and must consist of evergreen trees and shrubs to be maintained in a

healthy condition to a width of not less than eight feet."

Plants or industrial buildings may not be located closer than 200 feet from the center of previously existing roadways and shall not be closer than 300 feet from any previously existing residence unless the owners of the home write to the Board of Appeals for a waiver of this set-back provision.

Zoning Board Chairman Richard A. Young said, "I think these revisions are reasonably complete. The next move now is to have a public hearing. Then we will present our recommendations to the County Planning Commission which in turn will give them back to the Township Board for final approval."

When several spectators asked if the Zoning Board could pave the way for further consideration of the Pelizzari request, the chairman explained that the Board had not acted on the request originally and that as long as it had been withdrawn, the next move was up to the manufacturer.

PLANS TO CONSOLIDATE

Pelizzari had told residents and the Board in previous sessions that he planned to consolidate three Detroit area corporations under one roof on the Addison Township property.

He said a buffer zone was included in his specifications and that the building would be of cement block, brick and steel construction.

"Altogether," he said, "the plant would have involved expenditures upward of one half million dollars in Addison Township."

Residents at previous hearings had protested the "spot rezoning" saying they were concerned about noise, traffic vibrations and other factors as they affect the safety, health and well-being of the whole community.

Action on another request, presented by Richard H. Wingett for a zoning change to permit him to process used cars for parts and scrap was tabled pending passage of the new industrial revisions in the zoning law.

On West Bloomfield Library

Set Public Tax Hearing

WEST BLOOMFIELD TOWNSHIP — A public hearing on a proposed one mill tax hike for a new township library has been scheduled by the League of Women Voters of West Bloomfield Township for 8 p.m. Aug. 27 in the township hall.

The league is urging the public to turn out and hear the Library Board explain why voters should approve the tax in a special election Sept. 1.

Joining in panel discussion will be Mrs. Joel Warren, commu-

Oak Park Twirler Is International Baton Winner

An Oakland County drum major won first prize yesterday in international baton twirling competition at Russell's Point, Ohio.

Sharon Shutty, 16, of Oak Park, won the senior championship (age 15-22) as the best in a field of 32 contestants entered in the ninth International Majorette Contest.

Runnerup in the senior division was Joyce Burns, 18, of Lincoln, Neb., while "Miss Majorette of Canada," Joan Lounsbury of St. Catharines, Ont., was third.

Betty Jo Noble, 12, of Albuquerque, N.M., topped 50 competitors to win the junior class (age 12-14).

The contest will continue through Saturday with team championships to be decided Thursday. Selection of the Majorette Queen and Princess of America Saturday will conclude festivities.

SUSAN FAYE AEMISSEGGER

Mr. and Mrs. Conrad C. Aemissegger of 435 Hillview Lane, Oakland Township, announce the engagement of their daughter, Susan Faye, to Michael A. Savino, son of Mr. and Mrs. Michael Savino of 1243 Christian Hills Dr., Avon Township. An Oct. 24 wedding is planned.

White Elephant Sale Set Friday at Rochester

ROCHESTER — The Men's Club of St. Paul Methodist Church will sponsor a white elephant sale Friday, beginning at 7 p.m., at Houghton's used car lot, 528 N. Main St. Articles to be offered for sale will include clothes, toys, furniture and antiques. Persons who have serviceable items to contribute are asked to call or bring them to the church office.

Sandwiches, hamburgers, goodies, soft drinks and coffee will be available at the snack bar set up on the lot.

Witness Tells of Phone Threat

Youth Saw Fatal Crash on Woodward, Says He Feared to Report

ROYAL OAK — A Berkley teenager who has been sought as a witness by Royal Oak police has admitted that he saw the fatal accident on Woodward avenue last Friday night but said he had not come forward before because of two anonymous telephone calls he had received warning him to "keep your mouth shut."

The 16-year-old youth said he witnessed the three-car collision on Woodward at Warwick avenue from which Nicolas Stoffel, 79, of 103 W. Farnum St., died of burns and head injuries two hours later at William Beaumont Hospital.

John F. Bulloch, 21, of 30445 Townley Rd., Madison Heights, driver of the car which rammed Stoffel's vehicle from behind, was treated at William Beaumont Hospital and released Saturday. He has not yet made a statement to police.

Statements have been taken from seven witnesses, said Assistant Prosecutor Donald A. Brown, who said he expects the investigation to continue for the rest of the week.

Berkley Police report that Bulloch was ticketed June 30 for reckless driving while allegedly racing on Woodward near 11-Mile road and is to appear before Justice Ralph F. Finley of Berkley at 11 a.m. Saturday.

Report Duke of Bedford Critically Injured in Auto

LONDON (AP)—The 42-year-old Duke of Bedford was critically injured in an automobile accident in the south of France today, his secretary said.

The secretary said a telegram had been received at Woburn Abbey, the duke's huge estate, saying he had suffered a severe concussion. The accident was reported to have happened near Calloires in the Haute Savoie.

The tall, bespectacled duke has been planning to visit the United States in October to appear on television and lecture on the British aristocracy.

VERA ANN CRAWFORD

Former Lake Orion residents Mr. and Mrs. Lawrence E. Crawford of North Hollywood, Calif., announce the engagement of their daughter, Vera Ann, to Gerry McGee. He is the son of Mr. and Mrs. Everett McGee of 927 Long Lake Blvd., Lake Orion. No wedding date has been set.

CALLING ALL CARS — A new piece of emergency equipment has been added to the Oakland County Sheriff's Department. It is a mobile disaster unit, housed in a \$10,000 trailer, which was open to the public during last night's firefighters' exhibition in Leonard. Showing how the radio will operate to any emergency unit throughout the

state is Officer Melvin Pierce. Also on hand at the mock alert was Sheriff Frank W. Irons, other sheriff's department officials and equipment plus fire trucks from member departments of the Northeastern Oakland County Firemen's Assn.

43 to Finish Course at Kensington Park

Forty-three persons will complete the nature interpretation course at the Nature Center of Kensington Metropolitan Park near Milford on Friday according to Bill Hopkins, chief naturalist for the Huron-Clinton Metropolitan Authority of which the park is a unit.

This second annual workshop was sponsored jointly by the Department of Natural Sciences and the division of field services of Eastern Michigan University, Ypsilanti, and the Huron-Clinton Metropolitan Authority, a five-county park and parkway agency tax-supported by the citizens of Oakland, Macomb, Livingston, Wayne and Washtenaw counties.

During their final week of the course, the group is participating in the planning of a "nature trail." During the first two weeks emphasis was placed on learning how to identify birds and wild flowers and on learning how to conduct "nature field trips" for day camp groups.

The workshop is conducted by Dr. Herbert H. Caswell Jr. and Russ W. Loessell, both of the Eastern Michigan University Department of Natural Science, and assisted by staff naturalists at Kensington Metropolitan Park.

Area Family Packing for Free Trip to Hawaii

LAKE ORION—An all-expenses paid vacation in Hawaii is in store for the Norman Geisler family of 76 S. Washington St.

Mr. and Mrs. Geisler and their daughter, Norma, will leave San Francisco by chartered plane next Tuesday for 10 free days in Hawaii.

Picking up the tab for the Geislers will be the General Coach Works, Inc., of Marlette, manufacturer of mobile homes.

Geisler is the local sales representative for the trailer firm which awarded the free holiday to his retail company, Oxford Trailer Sales.

More than 100 General mobile home dealers and sales representatives from all over the country will participate in the trip.

The 10-day Hawaiian holiday program includes a complete tour of Honolulu, the island of Oahu, a side trip to the other islands and more than three days of leisure on the famous Waikiki Beach.

Violent Earthquake Hits Solomon Islands

HONIARA, Guadalcanal (UPI) — A violent earthquake jarred the 16,000-square mile Solomon Islands territory Tuesday, causing extensive property damage in the World War II battle area.

No casualties were reported among the 150,000 residents of the South Pacific islands where U.S. ground forces first struck back at the Japanese advance in 1942.

Ike and Macmillan to Make TV Broadcast

GETTYSBURG, Pa. (AP) — President Eisenhower and British Prime Minister Harold Macmillan will appear together on a radio-TV broadcast the evening of Aug. 31, the White House announced today.

Press secretary James C. Hagerty said the broadcast will originate from No. 10 Downing St., the London home of Macmillan.

Couple on Honeymoon After Milford Nuptials

MILFORD — Honeymooning in Northern Michigan this week are newlyweds Mr. and Mrs. Nelson D. Watson.

The bride, the former June Lynne Peterson, is the daughter of Mr. and Mrs. Stacy E. Peterson of 1015 Pleasure St. Parents of the bridegroom are Mr. and Mrs. David O. Watson of 1100 E. Commerce St.

The couple was joined in marriage Saturday at Christ Lutheran Church here by the Rev. Donald E. Simon.

For her wedding, the bride chose a floor-length silk organza gown with a princess-style waistline and empire effect.

Alencon lace formed the top of the bodice and the sleeves tapered at the wrists. The bateau neckline was edged with seed pearls and iridescent sequins trimmed the front of the dress. A bow at the back ended in an applied hem-length sash.

The bride's tiara styled headpiece of iridescent cord with seed pearls and rhinestones held her shoulder length veil. She carried a cascade bouquet of white roses and gladioli.

ATTEND BRIDE

Nancy Englund, daughter of Mr. and Mrs. Blaine Englund of Milford, was flower girl. Ring bearer was Jackie Stuhberg, son of Mr. and Mrs. Louis Stuhberg of Brighton and a cousin of the bride.

Duties as best man were performed by Wayne Chenoweth. Seated in the guests were the bridegroom's brother, Mark, and the bride's brother, Stacy.

A reception was held in the church parlors immediately after the double-ring ceremony.

Following their honeymoon the newlyweds will reside at 426 McPherson road, Highland Township.

To Repair Novi Bridge

Included in six state projects added to the Highway Department's Sept. 2 letting is one for repairs on the old U.S. 16 bridge across the C & O tracks at Novi. Completion date on this project is Nov. 15.

SANDRA ROWLEY

The engagement of Sandra Rowley to James Purdom has been announced by her parents, Mr. and Mrs. Elwyn Rowley of Orange, Calif. The prospective bridegroom is the son of Mr. and Mrs. Lowell Purdom of 434 Second St., Rochester. Both the bride-elect and her fiancé are graduates of Rochester High School. A winter wedding is planned.

Cloudburst Kills 3 in California

Wall of Water Sweeps Cars, Truck Off Roads, Isolates Desert Town

NEEDLES, Calif. (AP) — A flash flood has left three dead and one missing on the California-Arizona desert. Forecasters say another cloudburst may be on the way.

A cloudburst Monday night dropped more than an inch of rain in three hours on this farm town on the Colorado River.

The storm washed out major highways, destroyed bridges, stranded hundreds of motorists, flooded Needles stores, ripped up railroad tracks and endangered isolated hamlets.

Massive walls of water poured out of normally dry ravines and sent boulders skimming like pebbles over Highways 66 and 95, virtually sealing off the town. At least eight persons narrowly escaped serious injury as the torrents swept cars off the highways.

Killed Monday night when their truck was flipped and torn to bits by a 25-foot wall of water were Ben Elthe, Francis Yazzi and Charles Sanchez, Navajo workers for the Santa Fe Railway.

They were part of a six-man crew dispatched to check a railroad washout.

Two men, George Ashmore, crew foreman, and Geronimo Rodriguez, the driver, were rescued.

Sheriff's officers planned to resume the search today for the sixth crewman, identified as Fred Athene.

Pearson Assails GE for U.S. Space Lag

WASHINGTON (UPI)—Columnist Drew Pearson told congressional investigators Tuesday that the General Electric Co.'s "inside influence" in the Pentagon was a big reason for U.S. failure to beat Russia into the sky with an earth satellite.

Pearson told a House armed services subcommittee the decision to switch to a GE rocket engine in midstream had "side tracked" Dr. Werner von Braun and other scientists working on the American satellite program.

The subcommittee, headed by Rep. F. Edward Hebert (D-La.), is investigating alleged influence peddling in defense contracts.

Pearson, whose column appears daily in many newspapers, has written much on the subject in recent weeks.

He told the subcommittee that Dr. Richard Porter, "who had worked in a sort of dual capacity for General Electric and as an advisor to the Defense Department," had wielded "considerable influence" in getting the late Donald Quarles, then Air Force research chief, to decide in favor of the Navy's Viking rocket which used the GE engine.

Mower Accident Claims Her Foot

SOUTHFIELD — The right foot of a Southfield grandmother, which was mangled by a self-propelled rotary lawnmower yesterday afternoon, has been amputated by surgeons at William Beaumont Hospital.

Mrs. Victoria Stola, 53, of 21322 W. 10-Mile Rd., is in satisfactory condition today, according to doctors.

Mrs. Stola's son James, 19, told Southfield Police that he was riding the mower and towing his nephew Richard Jr., 2, behind on a toy "flying saucer."

He said he looked back to see if the youngster was still on the saucer as he rounded a tree under which his mother was sitting.

The mower plowed Mrs. Stola down, catching her foot in the blade.

More Industry Men Blast State BAT

LANSING, Mich. — Michigan business and industry executives continued today to run up the score of opposition to added taxes on business.

Sen. Clyde H. Giering (R-Holland), who has been polling those on Gov. Williams' roster of "industrial ambassadors," disclosed another batch of replies.

He said of 38 new replies, only five said business can absorb another 18 million dollars taxes on business without materially discouraging industrial expansion in the state and ultimately depressing employment.

Eleven were non-committal, the senator said, apparently leaving 22 taking a negative position.

Giering said last week 13 of the first 16 ambassadors to reply opposed more business taxes.

The GOP senator quoted Dan F. Gerber of Fremont, baby food manufacturer and a past chairman of the Michigan Economic Development Commission:

"I sincerely believe that even a token increase in business taxes at this time would be unwise if we want to reverse the trend in our state."

Gia Scala to Marry TV Actor Don Burnett

SANTA MONICA, Calif. (AP) — Actress Gia Scala of the movies and actor Don Burnett of TV plan to apply for a wedding license today and marry Thursday.

It will be their first marriage for each. The couple said they will honeymoon in New York.

Miss Scala, an Irish-Italian beauty, had just finished the movie "Battle of the Coral Sea." Burnett appears in "Northwest Passage," a TV series.

TV News and Reviews

Andy Williams Swingiest as Show Scores Again

By FRED DANZIG
United Press International
NEW YORK (UPI)—I didn't intend to be repetitious when it came time to write today's column, but —

That Andy Williams show is the most. It deserves all the praise it's getting.

Did you see it last night? Andy's guests on the CBS-TV hour were Mel Torme and Eydie Gorme.

Not only do the names rhyme, but they also look like brother and sister. These three youngsters put on one of the swingiest,

exciting, spark - showering and memorable shows of the year. And in mid-summer, too.

Apart from their singing, and choice of songs, the show included a refreshing Keystone Cop dance sequence, the wild comedy of Mr. Ballantine, and the usual assortment of eye-catching, imaginative sets.

My congratulations to all who put the show together. They've a respect for taste and a superb ability to express it. And, man, are they making everything else look shabby this summer.

SHORT SHOTS: Molly Bee, a guest on NBC-TV's Jimmie Rodgers Show, displayed a pleasing, sultry jazz-type sound. She has come a long way from the louder and bouncier country-style singing she did on Pinky Lee's kiddie show some years back.

During last night's show, Jimmie nearly wrecked a big color TV camera while trying to climb off it. Fortunately, the crew was near enough to grab the camera before any damage was done.

THE CHANNEL SWIM: Robert Sander Associates will produce at least eight hour-long classic mystery dramas for viewing next year, with Joseph Welch, the noted Boston attorney, serving as program host.

The series, sponsored by the Dow Chemical Co., will dramatize mystery classics by such writers as Edgar Allan Poe, Wilkie Collins and Mary Shelley. Peter Ustinov has agreed to appear in at least one show.

Nikita May Visit Red Chinese

Would Fly to Peiping Via Alaska for Tenth Anniversary Fete

WASHINGTON (AP)—U.S. officials indicated Tuesday there is a strong possibility Soviet Premier Nikita S. Khrushchev may end his American tour next month with a jet flight to Communist China by way of Alaska.

The propaganda effect on Asians of a sudden Khrushchev appearance at Peiping's 10th anniversary celebration starting Oct. 1 is not being overlooked here.

Final arrangements have not been completed yet for Khrushchev's 11-day itinerary in this country or his point of departure about Sept. 29. Among hundreds of invitations is one from Sen. Ernest Gruening (D-Ala.) to visit America's 49th state.

In a telegram to President Eisenhower suggesting the Alaska visit, Gruening said in part: "It might be useful for him (Khrushchev) to be able to see the contrast between what was once Russian America and what Alaska has become under our free society as a sovereign state of the union."

Officials said plans now call for Soviet Premier Nikita Khrushchev to visit six cities and an Iowa corn farm on his U.S. tour beginning Sept. 15 and lasting until Sept. 27.

The cities now on the list are Washington, New York, San Francisco, Los Angeles, Pittsburgh and Des Moines, Iowa.

The Des Moines stop is intended primarily to let Khrushchev visit the farm of Roswell Garst, at Coon Rapids, Iowa, Garst, who has been in Russia to advise the Soviets on corn production, extended Khrushchev a personal invitation when he learned the Premier was coming to this country.

Officials said Khrushchev's schedule was still tentative but fairly firm.

The addition of Pittsburgh to the schedule was agreed to by the Russians after U.S. officials urged it. Chicago, which Khrushchev originally mentioned as a city he would like to visit, has been dropped. There was no explanation.

Ike Signs Defense Money Bill Into Law

WASHINGTON (UPI) — President Eisenhower has signed into law a \$39,228,229,000 defense money bill — half the nation's budget — revising some military programs and providing \$5,000,000 to start a second atomic-powered aircraft carrier.

The bill, by far the largest appropriation of the year, gives the President almost all the funds he requested to run the armed services in the current fiscal year that started July 1. It will finance a fighting force of 2,575,000 men.

But Congress drastically revised some of the administration's original plans for the military. It put more emphasis on developing long-range missiles and defenses against enemy submarines and intercontinental rockets. Eisenhower signed the measure late yesterday.

Tax Cheating Charged to Kirk Douglas, Wife

WASHINGTON (UPI)—The government has filed a tax claim against actor Kirk Douglas and his wife, charging they owe \$149,519.99 on their 1955 tax bill; it was disclosed today.

An appeal by Douglas filed with the U.S. Tax Court revealed the Internal Revenue Service has accused the movie star of deducting \$203,794.54 too much on his tax return.

Sleeping Sickness Kills 9 in Month in Korea

SEOUL, Korea (UPI)—Health authorities reported today that nine persons had died of sleeping sickness in the Republic of Korea so far this month.

The health and Social Affairs Ministry said a total of 34 cases of the disease had been reported since the beginning of the month.

Two Grosse Ile Girls Die in Flaming Car

DETROIT (AP) — Two teenage girls died in the burning wreckage of a small foreign car last night after it skidded at a railroad crossing in suburban Trenton and overturned.

Dead are Gale Hamilton, 18, and Ann Powers, 17, both of Grosse Ile.

Officers said the car's driver, Frederick Seewald, 20, of Grosse Ile, was trying to get the girls out when police arrived. He and another passenger, Lynn O'Brien, 18, also of Grosse Ile, were reported in satisfactory condition.

Jet Crisis Primes Otto for a Really Big Plunge

By EARL WILSON
NEW YORK — EXTRA! Otto Preminger and Hope Bryce survived a crisis in a jet, so now they're going to try something really dangerous—marriage.

WILSON

The movie director and the pretty young fashion expert will slip on their permanent matrimonial life belts sometime before Aug. 22 (Saturday) in Mexico, and will honeymoon in London, Venice and Israel, where he'll be shooting "Exodus."

They were together in the jet with the landing-gear trouble at takeoff here recently. When Miss Bryce was described then as his fiancée, Preminger said, "How can I have a fiancée when my divorce has not come through?" Evidently the answer is: "Easy! Go to Mexico." Would it be tactful to wish them "Happy landings?"

Billy Rose, the quiet Casanova, is miles ahead of all our

young Romeos who should study his technique. Midnight finds him very much the stag, with several male friends, in the celebrity swirl at Sardi's and El Morocco. "Billy looks so lonely," a woman sighs. But at dinner he's been in the House of Chan with a tall, pretty, willowy, shimmery bleached blonde, whom he's keeping away from the midnight wolf pack. They have had a non-alcoholic ball swilling flamin'oes (a fruit drink mixture) at 60 cents a throw!

Gisele MacKenzie, who lost her baby last year via miscarriage, made a wish at the Luau-400's fountain and, when asked what she'd wished, she answered: "You'll all know in a few months when it comes true."

EARL'S PEARLS: It's a fast age. The impossibility of yesterday has become the luxury of today and the necessity of tomorrow—Quote.

TODAY'S BEST LAUGH: The Atchison (Kans.) Globe notes: "Read the Bible to know what people ought to do. Read The Globe for what they actually do."

WISH I'D SAID THAT: Anyone who thinks the younger generation isn't creative should watch teenagers building a sandwich. —Vesta M. Kelly. That's earl, brother.

(Copyright, 1959)

AP Wirephoto
POWDERING PET—Dick Clark, the teenagers' "leader," takes a powder break with actress Victoria Shaw who appears in Clark's first movie, Columbia's "Because They're Young." Clark plays a school teacher in the film. Miss Shaw is the principal's secretary and Clark's romantic interest. Young America's idol says he hopes the movie will portray teenagers in the best light and not show them acting the way older people think they act.

Hollywood Headlines:

Dick Clark Making His First Movie

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD (AP)—"Take me to your leader," I said to the teenager, and there I was, talking to Dick Clark.

The Clark cult is something unparalleled in entertainment history. Seldom has any one person wielded so much power over a segment of the population.

Since teenagers practically support the TV shows.

Obviously, this is a man to be reckoned with. Clark is here to make his first movie. "Because They're Young," and I found him to be a smooth, no-nonsense 23-year-old who knows his field.

But doesn't it bug him to be around teenagers so much?

"Not at all," he replied calmly. "I get more put out with older people who try to act young."

Clark said he will try to avoid such pitfalls in his film. He is a partner with Columbia in it, so he has plenty of say. But he admitted that it won't be a completely accurate depiction.

"I doubt if there ever can be a truly honest portrayal in films," he explained. "Not all girls are beautiful and all boys handsome, as they are in films. Not all of them have good-looking clothing. Not all schools are freshly painted and whitewashed."

like kids because they act their age."

"He doesn't take his expert-manship in teenage matters lightly."

"I'm with teenagers on the average of five and six hours every day," he explained.

"It's like working in a bakery: if you're around it long enough, you'll learn how to bake. I've learned how teenagers act. And I know that most pictures about teenagers are wrong. They are older people's concept of how teens act."

Clark said he will try to avoid such pitfalls in his film. He is a partner with Columbia in it, so he has plenty of say. But he admitted that it won't be a completely accurate depiction.

"I doubt if there ever can be a truly honest portrayal in films," he explained. "Not all girls are beautiful and all boys handsome, as they are in films. Not all of them have good-looking clothing. Not all schools are freshly painted and whitewashed."

Clark plays a school teacher and he has a romance with the principal's secretary, lovely Victoria Shaw.

The teenagers in the film will all be normal types, except for two that have a scrape with the police. "The script is fairly true to life," he said. "Most teenagers are normal."

Clark said he will try to avoid such pitfalls in his film. He is a partner with Columbia in it, so he has plenty of say. But he admitted that it won't be a completely accurate depiction.

Man Alive!

You've never seen anything like

THE NEW RCA

AUTOMATIC ELECTRON-TUBE Tester

To test your tubes, a punched card is inserted in a slot and a lever pulled. That's it. The meter reads the tube's fortune.

Having no mechanical setups, eliminating human mistakes and error, IT WILL SAVE YOU MONEY and headaches. Tube testing is faster, more accurate and dependable than ever before... qualifies you now get for the first time.

AT PEER'S where RCA AUTOMATIC ELECTRON tube testing is free, you'll find a complete stock of fresh RCA tubes — the brand we have used and recommended for 25 years.
