

They'll Each Cost a Penny More

RATES CHANGE TOMORROW—This pretty 17-year-old strawberry blonde, Pat Foster, 5821 Old Orchard Trail, Orchard Lake, holds up samples of the three most common types of mail to remind us that, as of tomorrow, the postage for each will cost one penny more. Uncle Sam now wants seven cents per ounce for an air mail letter, four for a first class letter and three cents for post cards.

Mail Increases Near Deadline

Postmaster Discloses 100,000 Piece Boost; More Help Added

At least 100,000 pieces of mail "over and above normal amount" have flowed through the Pontiac Post Office during the last five days because of the postage rate increase which begins tomorrow, according to Robert C. Miller, acting postmaster.

Miller attributed the unusual amount of mail this time of the year to advertisers who want to get their literature out before tomorrow's postage boost.

Tomorrow, air mail letters will cost seven cents; first class letters will be four cents and post card will cost three cents.

Miller also said "work was on schedule this morning although yesterday, we were about 30,000 pieces behind."

Substitute postal employees who are mail handlers and clerks were called in to work extra hours, he added.

He said he also expected about 100,000 more pieces of mail than usual to handle this weekend due to the election Tuesday. This mail would have to have the increased postage on it.

Water Pipeline Survey Starts

Location for Intakes in Lake Huron First Steps by Engineers

Surveys got underway yesterday around Port Huron to determine the proposed location of the giant pipeline through which the South-eastern Michigan Water Authority hopes to bring water to Oakland and Macomb Counties from Lake Huron.

Howard K. Kelley, authority chairman, said a Detroit construction firm yesterday placed markers in the lake as a preliminary step to determine the location of the intake which is expected to go some 7,000 feet out into the lake.

In the meantime, Kelley said the authority was continuing its negotiations with communities in attempts to sign them up for the \$150,000,000 project. So far only Troy and Ulfah have signed.

The pipeline is expected to supply 350 million gallons a day to participating areas, which through the years have seen ground level water supplies dwindling.

Kelley said "if everything goes right" the line should be in operation sometime in 1961.

Authority officials are eying the city of Pontiac as a prospective customer. But City Manager Walter K. Willman said no decision has been reached.

Land surveys for the 43-mile, eight-foot pipeline are expected to begin in mid-August, according to a spokesman for Black & Veatch, consulting engineering firm for the project.

Gordon Early Leader in All-Gauge Event

A veteran of many National Skeet Assn. championship campaigns was the early leader in the all-gauge portion of the world skeet tournament today at noon.

Lew Gordon, colorful Texarkana, Ark., marksman who won the national small-gauge championship this week, fired 100 straight to start the final 250 target "marathon" that ends Saturday.

Postal Rates Go Up Effective at Midnight

WASHINGTON (UPI) — You can save a penny by mailing that letter today. Higher rates for first class and airmail letters go into effect at 12:01 a.m. tomorrow, but the Post Office Department said mail dropped in the box in time for the last evening collection today will be postmarked July 31 and go at the old rate.

If you mail your letter at the post office in time for it to be postmarked before midnight it will also go at old rate.

Hereafter first class letters will cost four cents an ounce instead of three cents. Air mail letters will cost seven cents instead of six.

Post cards will be charged three cents each instead of two cents. Air mail post cards must have five cents in stamps instead of four cents.

The department said mail that is in transit at midnight will be carried at the old postage rate. A letter, for example, mailed in New York City today and still on its way to California tomorrow will be delivered at the old rates.

Here's what will happen if you by mistake mail a letter at the old rate tomorrow:

The Post Office will try to collect the extra penny from the person to whom the letter is addressed. If the addressee refuses to pay it, the letter will go back to the sender for more postage.

After Oct. 31 the department will collect a five-cent penalty on mail short the proper postage.

Stamps due to become the most familiar to the public will be a lavender four-cent stamp with a picture of Abraham Lincoln on it, and a blue and white airmail seven-cent stamp featuring a jet airplane.

Showers Tonight, Mercury Steady

Considerable cloudiness and not much change in temperature with occasional showers tonight and tomorrow is the weather prediction by the U. S. Weather Bureau. Tonight's low will be about 62 degrees.

Tomorrow's high is expected to be near 80-84. The outlook for tomorrow night is partly cloudy and cool with a low of 60. Saturday will be warm and humid with Sunday and Monday somewhat cooler. In downtown Pontiac the lowest temperature preceding 8 a.m. was 66 degrees. The reading was 71 at 1 p.m.

See Threat to Recovery as 4 Firms Up Rates

Congress Alarmed at New Steel Price Hikes

WASHINGTON (UPI)—Congress, rumbled with dissatisfaction today over the newest round of steel price increases. And the administration let it be known the steel industry might be impeding recovery from the current recession.

News that four steel companies have upped the price of their product about \$4.50 a ton caused concern in the councils of President Eisenhower. He had hoped industry and labor would avoid moves likely to send up the cost of automobiles and consumer appliances.

Following action taken by the Armco Steel Corp. Tuesday, steel price increases of about \$4.50 a ton were announced yesterday by the Republic Steel Corp.,

Army Chief Now Heads Lebanon

Gen. Fuad Shehab Wins Presidency on Second Parliament Vote

BEIRUT, Lebanon (U) — Lebanon's top soldier, Gen. Fuad Shehab, was elected president today as a compromise choice to end the rebellion against pro-Western President Camille Chamoun. The Lebanese Parliament elected the 56-year-old nonpolitical army commander in chief on the second ballot.

He got 48 votes to 7 for Raymond Eddé. There was one blank ballot.

The legality of Shehab's election was challenged by Premier Sami Solh, long a bitter foe of the general, who boycotted the election session of Parliament and claimed presidential candidates were bound by a constitutional provision requiring any military man running for Parliament to be retired from the army for six months before becoming a candidate. But other government officials said that restriction applied only to candidates for Parliament, not for the presidency.

Shehab's election will not automatically solve the strife which in 83 days has brought this Riviera of the Middle East to the brink of economic ruin and resulted in the landing of 10,000 U.S. troops in Beirut.

But observers felt the general's taking control could provide a breathing spell during which peace and order might be restored. There was an atmosphere of hope and expectancy among the Lebanese people, who have lived amid intermittent bombing and shooting for almost three months.

Rain Delays Golfers

CHICAGO (U) — Big time golf pros were on hand today for a par-shattering attack in the \$50,000 Chicago Open, but heavy overnight rains forced a postponement of the first round until tomorrow.

County Deputies Brave Flames, Save Man's Life

Two Spot Trailer Fire, Defy Danger to Rescue Trapped Area Trucker

Two Oakland County Sheriff's deputies saved the life of an Oxford man trapped in a burning house trailer early this morning.

The deputies, Harley Hinman and Francis Earp, noticed the reflection of fire in the sky at 4:15 a.m. while parked at Drahnner and Lapeer road and drove to Parkhurst Trailer Park, 1540 Lapeer Rd., Oxford.

The deputies found the trailer of Victor Lopus, 46, a trucker, burning fiercely. On learning that Lopus might be inside, the men broke down the rear door and entered the smoke-filled trailer.

The smoke was so thick inside the deputies could not see. They groped about for the bed only to find it empty.

Unable to breathe, they still decided to continue the search as long as they could hold out. Seconds later, they stumbled across Lopus, who lives alone, lying on the floor near a door that led to the front of the vehicle.

The deputies dragged him out through the rear door and called an ambulance which rushed him to Pontiac General Hospital where he was treated for smoke inhalation and released.

Sheriff Frank Irons praised the deputies, saying, "These men are to be highly commended for their heroic performance of duty. They acted in the highest tradition of public service."

Woman Charged With Holding Man a Prisoner

ALLEGAN (U) — Mrs. Loretta Conley, 43, of Allegan, accused of holding an elderly man captive on an Ohio farm, was held at the Allegan County Jail today for investigation of fraud.

Mrs. Conley was taken into custody yesterday at a farm near McClure, Ohio. She was picked up on a warrant dated April 27, 1957, charging her with fraud.

Ohio police arrested her at the request of Allegan County Sheriff Walter Runkel.

They said they found Arthur F. Berg, 75, a retired Chicago insurance agent, locked in an upstairs room at the farm home.

Berg had been missing for more than a year, after Mrs. Conley obtained his release from the Allegan County Hospital.

Sheriff Runkel said she told hospital authorities she was taking him away just for the afternoon. Ohio officers said Berg had no money and told them "Loretta took it all."

Runkel said Berg had been getting a \$54 a month retirement check from an insurance company and \$86 per month in social security.

Excursion Steamer Damaged

UNSCHEDULED THRILL—The S.S. Canadiana, Toledo excursion ship, was damaged severely and a woman was injured last night when the ship and a swing span of the Toledo Terminal Railroad bridge collided. There were 885 passengers on board at the time.

Steamer Rams Toledo Bridge

Was Trailing Freight When Big Span Swung Across Its Path

TOLEDO, Ohio (U) — A 210-foot excursion ship with 885 passengers aboard rammed into the Toledo Terminal railroad bridge last night as the bridge's swing-span closed in front of the steamer.

Only three persons aboard the SS Canadiana suffered injuries and all were minor. They were treated at hospitals and released.

Capt. Philip Thorpe said the excursion boat, which runs daily between here and Bob-lo Island in the Detroit River, was following the freighter Frank E. Taplin into the Maumee River. The freighter passed through the opened bridge and the Canadiana was right behind.

Apparently the bridge operator didn't spot the excursion ship and started closing the swing-span.

The captain blew five blasts on the ship horn, then threw the big craft into reverse. It was too late. The ship slammed into the side of the bridge. The second and third decks were smashed from the prow heads enclosing the dance floor and the inside recreation areas.

The Canadiana has a capacity of 2,270 passengers. It was about a third filled. There was no panic.

Preacher Too Noisy

GALVESTON, Tex. (UPI) — Pentecostal Preacher C. T. Carroll was fined \$20 yesterday for disturbing the peace during a revival service. Police said he was making too much noise.

Buick Plans 3 New Lines

Predicts Total Car Sales Million Higher for 1959

By ROBERT B. TARR
Managing Editor, Pontiac Press

Buick division of GM is preparing to introduce three new series of cars for 1959, to replace its current five series, and is anticipating the nation's buyers will purchase five and a half million cars in the coming year.

The new models were revealed at a press showing in Flint yesterday, and will be shown to the public and put on sale late in September. Prediction that the market for cars in the next year will be about a million above the expected total domestic sales this year was made by Edward T. Ragsdale, a GM vice president and general manager of Buick.

Ragsdale discounted any appreciable trend to extremely small cars, predicting that all 1959 models will be roomier and more luxurious than in 1958.

"I know this is contrary to what some people are advocating," he said, "but as long as man takes pride in his possessions, there will always be people who want bigger and more luxurious cars."

Ragsdale reported an upturn in demand for new cars in the past few weeks.

"This is the first indication of a strengthening of the new car market," he said. "It indicates a healthy outlook for the fourth quarter."

He said Buick currently has 13,000 on its payroll and that figure would be increased to 18,000 by Oct. 1 to turn out Buicks at a rate of 1,500 daily.

Buick will go on the retail market Sept. 19, the earliest since World War II. All General Motors lines are expected to be introduced by the end of September.

So will most of the other cars except the Ford Division of the Ford Motor Co., which has scheduled production of 1958 models through August and which won't introduce its 1959 line until early October.

Senate Probers Subpoena Back Ex-Teamster

Former Vice President of Local 614 Fears Retaliation by Union

Two Pontiac area men are among 50 witnesses expected to testify as the Senate Rackets Committee opens a new probe into alleged gangster influence in Michigan businesses.

Already in Washington to appear before the McClellan committee is Joseph Warren, 32-year-old mechanic for the Pontiac Retail Store, 63 Mt. Clemens St., from Oxford.

Under subpoena to testify for the second time in less than a year is Robert P. Scott, of 31 Bloomfield Terrace, a Democratic candidate for the Michigan House of Representatives in Tuesday's primary.

Scott, 51, was in the committee spotlight last September when he told of how his life was threatened when he refused to help a Teamsters Union official "muscle into Oakland County rackets."

What Warren, of 1940 Lakeville Rd., was called to testify about was not made known by the committee. It was known however that before he came to the Pontiac agency in March of this year he was a union official with a Detroit auto agency.

FEARS TEAMSTERS

Scott, one-time Pontiac Teamster Local 614 vice president, said he did not wish to say when he was scheduled to testify, "because I don't want to take any chances." He said he feared retaliation from the Teamsters.

"That's the way they operate," Scott said.

After receiving a telegram last night from Committee Counsel Robert F. Kennedy, Scott told reporters: "Just say I'll be there Thursday (next week)."

Although he said Kennedy did not spell out what he would be questioned on this time, Scott theorized that it might hinge on his recent suspension from the International Barbers Union Local 552, ARL-CIO.

PROBE SUSPENSION

A Detroit investigator for the committee said back in May that the Senate group might look into the suspension. Scott charged it was "Teamster inspired" retaliation for his testimony last fall.

How Teamster Union President James R. Hoffa, once trustee over the Pontiac local, ties in with the activities of Pete Licavoli, Detroit underworld figure, might be another reason to call him back, Scott believed.

Scott revealed today that back around 1950, when he was secretary-treasurer of the Michigan Federation of Labor, Hoffa asked him to intervene in having a relative of Licavoli's pardoned for violating his deportation.

The present treasurer of the State Board of Examiners for Barbers said he refused them, fearing "my usefulness as a lobbyist would have been lost."

Licavoli, who was fined and given a prison sentence Monday for income tax evasion, is also among a long list of witnesses who are under subpoena.

The list includes Hoffa, who Kennedy said would "be on and (Continued on Page 2, Col. 3)

Pipeline to Bring Beer to Golfers on the Green

LONDON (UPI) — Indian-born architect Dharam C. Wadhwa, who is building a house backing onto the 16th hole of the famous Wentworth Golf Course, has decided to do something for his friends who get thirsty before the "19th hole."

He intends to fix a beer pipeline from his bar to the edge of the green. A telephone will be installed by the nozzle and "my friends who are on the last lap can 'phone me up and I'll switch on in the house," he said.

BLAST WRECKS AUGUSTA HOMES — Truck in foreground above is reported to be source of an explosion and fire which destroyed four homes in Augusta, Ga., Wednesday afternoon.

AP Wirephoto
The vehicle carried propane gas which is believed to have leaked through one of the hoses of the truck, causing the blast.

Urges Khrushchev Attend U. N. Council Meeting

Macmillan Asks Aug. 12 Talks

WASHINGTON (UPI) — The United States proposed to Russia today that they meet at Geneva in October to consider means of preventing surprise attacks.

the meeting would find him attending the conference on Aug. 12.

Macmillan told Khrushchev the conference he had in mind certainly would allow "less formal meetings of heads of government" to be arranged, in addition to the sessions of the whole 11-nation Council.

This offer indicated he was meeting Khrushchev's expressed desire for informal, face-to-face meetings of the government chiefs of the big powers along the sidelines of the Security Council conference.

LONDON (AP)—Prime Minister Macmillan announced today he is calling for a special meeting of the United Nations Security Council to take place Aug. 12 and that he personally will attend it.

Gunmen Murder Lilly Co. Official

FORREST TEEL

INDIANAPOLIS (AP)—Forrest Teel, 54, executive vice president of the Eli Lilly & Co. pharmaceutical firm, was shot to death early today in a shopping center. Witnesses said another car sped away.

Teel was the top sales executive of the drug firm. He is survived by his widow, Mary Elizabeth, and a son, Tom, 14.

Second Time in Month

Million-Dollar Flood Hits Kansas Again

By United Press International
A million-dollar flash flood struck Atchison, Kan., today for the second time in a month.

More than 120 persons fled the Kansas floodwaters which followed rains up to four inches last night and early today.

Cleanup operations still were underway from the last flood in Atchison when White Clay Creek again boiled out of its banks to smash virtually the same area.

The drenching rains also caused severe flooding at Merriam, Kan., and lesser local flooding at several other points in northeast Kansas and north central Missouri.

Water nearly four feet deep swirled through the business section of Atchison, washing away at least 20 cars. Firemen and police rescued the occupants. Numerous highways in the area were blocked by high water.

They Can't Harm Him

CHARLOTTE, N.C. (AP) — A cigarette vending machine here sold a man a package of King-sized filters. Due to a factory slip-up, the package contained 20 long filters, no tobacco.

The previous flood at Atchison, on July 11, killed three persons and caused 10 million dollars in damage.

Kansas City was swamped with a 2-inch rain last night, and Cameron, Mo., was hit with a 3-inch downpour in a one hour period. Winds up to 70 miles an hour whipped Columbia, Mo., during a thunderstorm.

The storms were part of a broad band of thunderstorms ranging from eastern Colorado through the mid-Mississippi Valley and into the lower Great Lakes.

Navy Blimp Forced to Turn Back Again

AKRON, Ohio (AP) — A Navy blimp attempting a trip to the Arctic Ocean was forced today to turn back for a second time by bad weather.

The 343-foot Navy exploration blimp ran into bad weather over the Hudson Valley last night.

Lt. Cmdr. Don Collins said much of the ship's fuel was used up battling strong headwinds.

Another attempt to fly north will be made as soon as the weather clears.

Action Is Near on Pension Hike

House Expected to OK Bill Boosting Checks by About 7 Pct.

WASHINGTON (AP) — The House called up for action today a bill to fatten Social Security pension checks.

The far-reaching measure, with an accompanying increase in the payroll tax on 75 million covered workers and their employers, was expected to whisk through the House with election-year ease.

Every election year since 1952 Congress has liberalized the Social Security system. Despite administration misgivings, the pattern seemed likely to be followed again this year.

In addition to raising benefits and tax rates, the bill provides for easing of eligibility requirements. It increases by 283 million dollars a year the federal government's share of state-operated public assistance programs for the blind, disabled and other needy.

Its chief provision calls for a 7 per cent increase in old age, survivors and disability benefits, with a minimum boost of \$3 a month.

For the 12 million persons now on the retired rolls, the increase would mean a boost in monthly benefit checks from the present range of \$30 to \$108.50 to a new range of \$33 to \$118 a month. Maximum family benefits would go up from \$200 to \$254 a month.

Heretofore the chief executive has turned down repeated suggestions that he move into the steel picture as a top-level arbitrator.

Capehart called the steel increase "unfortunate." Ewan Clague, commissioner of labor statistics, said the cost of farm tractors probably would go up but that he expected no reaction in the near future on prices of food produced with the tractors. He saw no other immediate effect on living costs.

Iron Age, an authoritative steel trade magazine, predicted that by the end of the week all steel prices—except those for tin plate that goes into cans—will have been raised.

The new round marks the first time in recent years that U. S. Steel Corp., which produces nearly one out of every three tons of steel in the nation, has not been the price leader.

"Big steel" says it is "still studying" the situation.

The companies say a \$4.50 per ton boost is designed to offset higher wage costs that have taken effect since the last general increase in steel prices of \$6 a ton on July 1, 1957.

However, they emphasize that the increase will enable them to recover less than 50 per cent of the higher wage costs. They say they must absorb the balance.

The increase originally had been expected July 1 when steelworkers were given an additional 20 cents an hour under a 3-year union contract. Another six cents an hour has been given in cost of living benefits since the last price boost.

However, U. S. Steel, to which the other companies looked for the initiative, issued a statement it would not change prices until all economic and commercial factors clarified themselves.

National Skeet Shooting Association last night elected F. Stuart Molson, Canadian brewery head, as its 1959 president. Molson is among the shooters in the current championships at Oakland County Sportsmen's club. The Montreal executive succeeds Chesley (Chet) Crites of Detroit who retired Friday after four years at the organization's head.

Other officers named Wednesday included C. A. McDowell Jr., Shreveport, La., vice-president and George White of Dallas, returned as secretary.

An executive committee was named, and two directors were elected (a yearly procedure). Dates and site for the 1959 championships will be determined in a Friday night conference.

Death Notice

WILLIAM N. MILLOY
William N. Milloy, 92, oldest life member of the Michigan Harness Horseman's Assn., died last night at his home, 2851 19 Mile Rd., near Utica. He was a widely known breeder and raiser of trotting and pacing horses.

The Day in Birmingham
New YMCA Secretary Will Take Over on Sept. 9

BIRMINGHAM — The Birmingham YMCA will greet its new executive secretary, Owen R. Manchester, on Sept. 9, Arthur Blakeslee, chairman of the committee of management, announced today.

A 31-year-old native of Wisconsin, Manchester has been executive secretary of the YMCA's West Central Branch in Minneapolis since 1952. Before that, he was assistant secretary of boys' work in the Minneapolis Downtown Branch.

A graduate of the University of Minnesota, he has taken clinical and seminar courses in "Y" administration as well as graduate work in social group studies. Manchester also holds a bachelor of science degree in group work education from George Williams College in Chicago.

The survey was prompted by a lot width problem faced by Stern and Seligman Builders, Inc., of Detroit. The 40-foot lots the firm holds do not allow side yard space called for in the city's zoning ordinance.

Herzberg said minimum distance between houses could be guided by a "slide scale" rule. Distance could be reduced a half a foot for every foot less than 50 feet in the width of the lot.

In his survey, Herzberg found there are 6 lots less than 40 feet in width, 150 lots for 40 feet and 4 lots of more than 40 feet. He said about 15 per cent would require permits from the Board of Zoning Appeals for the construction of an average house approximately 24 feet wide.

For construction of a house 26 feet wide, the board would have to issue permits in 43 per cent of the building.

Preparing for its October production of "Point Of No Return," the Village Players will hold tryouts tonight at their theater to begin selecting the 22-member cast. The second tryouts will be next Thursday at 8 p.m.

This is a departure from the former system of cast selection

WILLIAM N. MILLOY
William N. Milloy, 92, oldest life member of the Michigan Harness Horseman's Assn., died last night at his home, 2851 19 Mile Rd., near Utica. He was a widely known breeder and raiser of trotting and pacing horses.

A life member of Genesee Lodge 174, F&AM, Mr. Milloy leaves a daughter, Mrs. George Haskell of Sterling Township; "one grand daughter and a great-grandson. Service will be held at 1 p.m. Saturday at Manley Bailey Funeral Home in Birmingham. Burial will be in Evergreen Cemetery, Detroit.

which was done by a special committee. It also will be the first time the players have actively used their greatly enlarged stage which was completed this summer.

Semi-Private Room Costs \$22 Per Day

Charles for semi-private rooms at Pontiac General Hospital are now \$22 a day instead of \$20 as announced in Tuesday's Pontiac Press.

Harold B. Euler, acting hospital director, said a \$2 increase for all rooms, approved by the Board of Trustees Monday night, boosted the charge for the 96 semi-private rooms from \$20 to \$22.

The 101 ward rooms went from \$18 to \$20.

Euler said there is but one private room left among the 234 beds in the hospital.

Average yield of Guatemala coffee trees is a pound a year.

Bob Considine Says:

World's Press to Rip Faubus' Re-Election

NEW YORK—Orval Faubus, the Arkansas Traveller, has won another term as governor of his state by beating two even sterner segregationists in the Democratic primary. He should have somewhat less trouble with his Republican opponent in November than let us say, Carmen Desapio will have with the GOP banner-bearer the next time Tammany takes a vote.

Faubus' re-election will be news through a great portion of the world. It will occasion bitter editorial comment in places the governor and many of his constituents never heard of and care less about.

The Communist press through the world, the Socialist press which many of our friends read, and the critical neutral press, as in India, will say (with varying degrees of vitriol) that Faubus' successful contempt of the U. S. Supreme Court and of President Eisenhower's use of federal troops in an effort to back up the court's integration verdict gives ample evidence that the "United States" hates and persecutes Negroes.

The heavy insinuation to the countless foreign readers will be that if the "United States" persecutes Negroes it is prepared to destroy all other peoples.

Only one other governor of Arkansas has ever won a third term, as Faubus now has. This is therefore a historical endorsement of a politician by the body politic and thus brings up a question which must deeply concern the President and his chief justice. Faubus ran and won easily on a platform which said roughly, and roughly said, "Keep your lousy federal bayonets out of our state, we'll handle things the way we want." A majority of Arkansas agreed.

How will that affect the recent successful appeal to postpone desegregation in Arkansas for another couple of years? Will the Supreme Court knock down that appeal knowing such an act would serve only to make school integration that much tougher in Georgia, Alabama and other southern states?

But what about the brave efforts in Tennessee, Maryland?

Faubus, product in part at least of a tanktown college which the Justice Department later identified as communistic, is a genuine headache to the federal government. He defied it with a bean shooter of bigotry and, as of now, has licked it and all its atomic warehouse.

Faubus has an engaging crack-barrel personality, is a handsome guy, remembers names, and hires a staff of good publicity people. He reminds one vaguely of Nasser, not so much physically but from the viewpoint of political agility.

If ever a governor in the history of the republic was ever more on the point of a complete knock-out by Washington, we don't remember his name. Nasser was on the ropes, but forever, not long ago. Faubus got hit right across the snout with the heaviest of legalistic bludgeons—the President's "cease and desist" order.

His National Guard was stripped from him as if they were the personal property of the Pentagon. Their places were

taken by aggressive young paratroopers who didn't have to worry about whether the fat guy they prodded would buy gas at their Little Rock garage the next day.

The mayor of the town blasted Faubus as a kind of Fascist who somehow escaped the suicides in Hitler's bunker. His ragamuffin little Hate Bund which paraded in front of Central High School each morning, heckling the Negroes and on one or two occasions, pushing them around, was berated in the Little Rock press as well as elsewhere through the South. Little Rock's Arkansas Gazette won two Pulitzer prizes for blasting Faubus.

But the man, like Nasser, has won a clear-cut victory, and the federal government has had a gauntlet flung in front of it. If it

dictates that this man is a menace, what can it really do about it? It certainly cannot alter the vote of the people who feel the same way Faubus does.

Nor can the State Department, Voice of America, U. S. Information Service, and American business abroad simply look the other way when the blasts unfurl. To make a "plus" of the situation, as they say on Madison Avenue, it appears that the most constructive thing the nation can do is say to the world, "Well, that's how they felt in Arkansas, and while some or even most of us don't agree with them we must respect their right to vote as they please."

Saturday and Sunday are generally accepted as the two most dangerous days to drive in modern traffic.

ATLANTIC CABLE CENTENARY 1858-1958

IN HONOR OF CABLE CENTENARY — A heavy horizontal line symbolizes the linking of the Eastern and Western Hemispheres in this new four-cent Atlantic Cable Centenary commemorative stamp. It will be released Aug. 15, in New York City. The head of Neptune and part of his trident appear at left, with the head of a mermaid at right.

Beyond Call of Duty

SOUTH BEND, Ind. (U.P.)—Robert Westenberg was the right man to have around when 3-year-old

Michael More fell into a septic tank overflow pit near his home. Westenberg, who quickly pulled the boy to safety, drives a city garbage truck.

Tablecloth 'Painter' Buys His Art Work

LONDON (UPI)—British actor Peter Finch up-ended a bottle of tomato catsup onto the tablecloth, and the diners in London's exclusive 500 Club raised their eyebrows.

He added a bottle of Worcester-shire sauce. The raised eyebrows turned to frowns. Then he demanded a tin of boot polish, which the management supplied.

He was painting, and he was so impressed with his painting that he bought it.

The management agreed to let him have the tablecloth for \$3.50.

Deaths in Pontiac and Nearby Areas

GEORGE R. BEAMISH

Service for George R. Beamish, 73, of 555 Hickory Grove Rd., Bloomfield Hills will be at 1:30 p.m. Friday from the Voorhees-Siple Chapel. Burial will follow in White Chapel Memorial Cemetery.

Mr. Beamish, a farmer, leaves his wife, Mary; four sons, George M. Beamish of Romeo, Thomas W. of Bay City, Charles H. Jenks of Pontiac and Pearl P. Jenks of Clarkston; a daughter, Mrs. Eva Nephler of Birmingham; and a brother.

BABY BOY CRITES

Graveside service was held at 12:30 p.m. today in the Catholic Section of Lakeview Cemetery for Baby Boy Crites, son of Charles and Maria Crites of 4350 Pontiff Rd., Waterford Township.

Surviving besides his mother and father is a sister, Maria at home. The baby was dead at birth yesterday in St. Joseph Mercy Hospital. Arrangements were by the Coats Funeral Home, Drayton Plains.

WYATT W. DeFOOR

Wyatt W. DeFoor, 82, of 452 S. Edith St. died Tuesday in St. Joseph Mercy Hospital. He was ill several weeks.

Before moving to Pontiac two years ago, Mr. DeFoor was a farmer near Walled Lake.

Surviving are a sister and two brothers. His body was taken from the Purses Funeral Home to the Olmstead Funeral Home in Kennesaw, Ark. for service and burial Friday.

MRS. WILLIAM S. DOWNES

Mrs. William S. (Lottie A.) Downes, 67, of 1801 Opdyke Rd., died of a heart ailment yesterday following an illness of several weeks.

She was a member of the First Presbyterian Church, Order of Eastern Star No. 228, White Shrine No. 22 and Esther Court of the Order of Amaranth.

Mrs. Downes leaves her husband; three daughters, Mrs. Ida Underhill and Mrs. Jean Hilderley of Pontiac, and Mrs. Pauline Crissman of Frankfort; six grandchildren; three great-grandchildren; three sisters and a brother, Mrs. Earl Mottross, Mrs. Samuel Campbell, Mrs. Fred Coe and James H. Paulin, all of Pontiac. Service will be at 11 a.m. Saturday from the Huntton Funeral Home with burial following in White Chapel Memorial Cemetery.

MRS. JAMES FERGUSON

Service for Mrs. James (Nora) Ferguson, 62, of 49 James St., will be held at 1 p.m. Saturday from the Bendle Funeral Home, Holly. Burial will be in the Lakeside Cemetery.

Surviving are her husband; a daughter; five sons; 10 grandchildren; a brother and a sister.

Mrs. Ferguson died Tuesday at her home following a long illness.

ANTHONY P. MATAKAS

Anthony P. Matakas, 44, of 5217 Ddide Hwy., Drayton Plains, died yesterday at his home.

Surviving besides his wife, Florine, are a daughter, Mrs. Joan Kolar of Fenton; two sons, Daniel Matakas of Highland Park and Dwayne Scales of Flint; one grandchild; a brother and a sister.

Service will be at 1 p.m. Saturday from the Coats Funeral Home, 3141 Sashabaw Rd., Drayton Plains

with burial in Lakeview Cemetery. Mr. Beamish died suddenly Tuesday in Oxford.

WILLIAM H. WHEELER

William H. Wheeler, 47, of 16½ E. Huron St. died at his residence yesterday after an illness of two months.

He was a bookkeeper at Griffin's Grill.

Surviving are his wife, Effie; and a brother, Louis of Pontiac. Service will be at 3 p.m. Saturday from Sparks-Griffin Chapel.

JOSEPH ZYVONEK

Service for Joseph Zyvonek of 491 Franklin Rd., who died at his home Tuesday, will be at 9 a.m. Saturday from the Sparks-Griffin Chapel with burial in Oak Hill Cemetery.

He was an employee of Pontiac Motor Division.

MRS. WILLIAM M. CHISHOLM

MARLETTE — Service for Mrs. William M. (Libbie L.) Chisholm, 76, of Laurel, formerly of Marlette, was held today at the Laurel Baptist Church. Burial was in the Elk Cemetery.

Mrs. Chisholm died Monday in the Saginaw General Hospital following a short illness.

Surviving are two sons, Ernest of Sandusky and Arthur of Brown City; three daughters, Mrs. Kenneth Shrier of Midland, Mrs. James Mathews of Marlette and Mrs. Clarence Polzin of Saginaw; two sisters, Mrs. Grace Frank of Marlette and Mrs. Cecil Youngs of Flint; 16 grandchildren and 20 great-grandchildren.

MRS. HARLEY LUTZ

HOLLY — Service for Mrs. Harley (Mildred) Lutz, 58, a former resident of Holly who died Tuesday at her home in Sarasota, Fla.

will be held at 2 p.m. tomorrow at the Dryer Funeral Home in Holly. Burial will be in Rose Center Cemetery.

Surviving are her husband, and a brother, Fred Clark of Holly.

ALBERT J. SCHOOF

OXFORD — Service for Albert J. Schoof, 58, of 2880 Ray Rd., will be held at 2 p.m. Saturday at the Bossardet and Reid Funeral Home. Burial will be in the Eastlawn Cemetery, Lake Orion.

Mr. Schoof died early this morning at St. Joseph Mercy Hospital, Pontiac, following a short illness. Surviving are three daughters, Mrs. Betty Jane Brady of Metamora, Mrs. Beverly Joan Johnson and Miss Sharon, both of Oxford; three step-children; a brother and four sisters.

EUGENE J. WOZNAK

CLYDE — Service for Eugene J. Wozniak, 27, of Dearborn, a resident of Clyde until a month ago, will be held at 10 a.m. Saturday at St. Rita's Catholic Church in Holly. Burial will be in Lakeside Cemetery, Holly, under military auspices.

The Rosary will be recited at 7:15 p.m. tomorrow at the Dryer Funeral Home.

Mr. Wozniak died Tuesday at his home in Dearborn. Surviving are his wife, Patricia; his mother, Mrs. John Wozniak and a brother, John Jr., both of Clyde.

Truck Passes Over Boy

CALDWELL, Idaho (AP)—The front door of the car flew open and 6-year-old Darwin G. Brannon fell into the path of a half-ton pickup truck. Cecil R. Black the truck driver, steered the truck over Darwin without hitting him. The boy was uninjured.

4 Townships Vote on Special Proposals Tuesday

Rochester Incorporation Hotly-Contested Issue

Voters in Avon, Highland, Farmington and Milford townships and the city of Oak Park will be asked to decide special proposals on their primary election ballots Tuesday.

Most hotly contested issues are the proposed incorporation of the village of Rochester and a portion of Avon Township as a city, and the annexation and incorporation questions in Farmington.

Oak Park residents will be asked to approve a \$306,000 bond issue to finance construction of an addition to the Department of Public Safety and the City Hall.

Tax increase proposals will be placed before the electorates in Highland and Milford Townships.

AVON
In addition to deciding whether Rochester and about three square miles of Avon Township will become the new city of Rochester, voters will elect a nine-man charter commission from among 12 candidates.

The commissioners would take office, however, only if the city proposal wins.

Charter Commission candidates are Glenn A. Brooks, Clarence M. Burr, William C. Chapman, Stowell A. Collins, John L. Dahmann, James C. Hill, Wayne Y. Holman, Richard L. Justice, Max K. Mallon, Edward A. Potere, Roy Rewold, Langley E. Smart.

FARMINGTON
Voters in the city of Farmington and eight square miles of the southeastern section of the township will decide on a proposal to annex that area to the city.

The area proposed for annexation includes all of the land lying between Farmington and Haggerty roads, from Eight to Eleven Mile road, except those parts of section 16 and 21, voting to incorporate as the village of Quaker Town.

The city, which is near 100 per cent saturation, admittedly wants the eight square miles of the township for expansion, both residential and industrial. Its greatest selling point is the promise of water within three to six months to citizens in the "dry section" of the area.

The township which has spent considerable time and money to develop an industrial zone along the expressway is reluctant to let it go.

HIGHLAND
Highland Township residents will be asked to approve a one mill tax increase for 10 years for the purchase and maintenance of fire equipment and to pay a full-time crew of seven firemen.

The tax hike would net the township about \$4,500, according to Supervisor Louis Oldenburg. Three years ago the township paid for construction of an additional fire station on Duck Lake road near M59. So far the building has been used only as a second voting precinct for the southern end of the township, Oldenburg said.

There are 30 volunteer firemen now manning the pumper truck, tank wagon and ambulance, all at the Highland Station, he said.

MILFORD
A proposed two mill tax increase for one year to provide funds for construction of a township hall and adjoining fire station will be placed before Milford Township voters.

Supervisor Mayon Hoard said that the township would have an additional \$500.

Residents authorized the town-

Annual Frolic of Businessmen Set for Aug. 20
The date and details of the annual frolic of Pontiac businessmen, this year to be staged by the Pontiac Area Chamber of Commerce, were announced today by John W. Hirlinger, chamber manager.

The date will be Wednesday, Aug. 20. The place will be the customary Pontiac Country Club, 4335 Elizabeth Lake Rd.

Golf for this 22nd stag affair is scheduled for 11 a.m. A buffet will be served between 5:30 and 7:30 p.m. A big array of prizes, plus entertainment, will round out the outing for all business, professional, industrial and retail members of the chamber and their friends.

Hirlinger said tickets for the affair are priced at \$7.50 a person. They are available at the chamber office.

General chairman of the 1958 Frolic is William L. Treanor. Other committee chairmen are: Horace Lodge, tickets; Wayne Gabert, prizes; and Charles Perkins, golf.

ship to place the proposal on the ballot at the annual township meeting April 3.

OAK PARK
Oak Park, whose population jumped from 5,200 to about 35,000 in the past eight years, is asking its residents to approve a \$306,000 bond issue to expand its crowded Public Safety Department and City Hall facilities.

Approximately \$225,000 would be used for an addition to the Public Safety Department while the remainder would be spent to provide more City Hall office space.

The bond issue would not be necessary if the city were able to collect state sales tax refunds based on its present population, according to Glenford S. Leonard, director of public safety.

The 1950 census, taken when Oak Park had a population of 5,200, is the basis for present sales tax refunds. This is costing the city about a quarter of a million dollars a year revenue, Leonard said.

Oak Park's fire and police departments are combined in the Public Safety Department, with firemen and policemen performing the same duties.

Police Problem Chiefly Boredom

Tensions of Monotony Offer Greater Hazard Than Fear of Gunfire

COLUMBUS, Ohio (UPI)—Tensions from monotony—more than fear of gunfire—affect the health of Columbus police.

This is the opinion of Dr. Frank Herrington, chief city physician, who said the public has a mistaken idea about the jobs of police.

The policeman's major complaints, according to the doctor, are nerves and a too-quiet beat in a well-to-do residential neighborhood.

"A lot of people don't realize that much of police work is a day-to-day grind," Dr. Herrington explained. "I'd say boredom is more of an occupational hazard than chasing robbers."

Dr. Herrington, who knows more about the personal problems of Columbus police than practically anyone, has been head of health services for all city employees since 1956.

The thing that irritates a good policeman most, he said, is to be categorized as a hostile, brutal person after a highly publicized isolated incident of violence occurs.

"The day of a cop with a strong back and weak mind is over," he continued. "Some good men have even been hurt because they wouldn't use their right sticks on trouble-makers because of public reaction against any necessity for force."

Of all police, according to the doctor, those on ambulance crews suffer the most injuries.

"They are the ones who have to lift heavy people—to subdue the mentally disturbed, or the uncontrollable alcoholic."

Although back strains cause the most injuries on the job, according to Herrington's figures, they are few in number compared with colds, flu and sinusitis.

The reason for this, he said, is that the average policeman is just like anybody else, but a little more susceptible to colds and upper respiratory trouble due to outside work in all kinds of weather.

Vandals Litter Park
Vandals littered Lotus Lake Subdivision's private park last night strewing garbage on the beach and dumping a picnic table and a 50-gallon garbage can into the lake, Waterford Township Police said today.

As a person grows older, says Jack Harris, there are more and more things he takes the greatest pleasure in not doing. . . . Vacations are simpler nowadays—a man has a wife to tell him where to go, a boss to tell him when. All he lacks is someone to tell him how. — Earl Wilson.

TRY OUT HORSE SHOW FLOAT — "Don't look so down-hearted Petunia, you won't have to pull it." The colorful float will be the Lake Orion Saddle Club's entry in Friday night's parade which it is sponsoring with the Lake Orion Rotary Club. The mule will be given away during the horse show Sunday at Kelly's Park. Trying out the float are children of Saddle Club members.

LEILA BUNKER

At commencement exercises at 3 p.m. Saturday in the Ford Auditorium, Detroit, Leila Bunker of 228 Jones Rd., Drayton Plains, will receive her diploma from the Mercy School of Nursing in Detroit as a graduate nurse. She plans to work at St. Joseph Mercy Hospital in Pontiac following her marriage Sept. 13.

Auburn's Class of '48 Slates Dinner-Dance

AUBURN HEIGHTS—Class of '48 of Auburn Heights High School will celebrate its 10th anniversary with an evening of dinner and dancing Aug. 9 at Club Tahoe on Dixie highway.

In charge of the affair are Barbara (Wahl) Dixon, Coralee (Davis) Boice and Robert Krick.

Parade to Kick Off Festivities Orion Horse Show Set

LAKE ORION—A parade at 7:30 p.m. tomorrow will kick off festivities of the 5th annual Lake Orion Horse Show, sponsored jointly by the Lake Orion Saddle and Rotary Clubs.

The horse show will be held Sunday, beginning at 10 a.m., at Kelly's Park on Heights and Johnson roads.

This year's parade has more entries than any in the past four years, Gale Shafer, parade marshal, said.

The line of march, which will form at 7 p.m. at Atwater Park, Perry and Atwater streets, will lead off with the Detroit Edison Company Callopo.

Other entries will be those by the Saddle Club, Camp Oakland, Franklin Settlement, East Orion 4-H Club, Oxford Pioneers Saddle Club, Lake Orion Junior Gun Club and the Small Fry League.

Highlight of the event will be the Oakland County sheriff's posse, which will march in the parade and give a drill exhibition during intermission at the horse show Sunday.

There will be no judging of parade entries, Shafer said.

Four Area Schools Gain U. of M. Accreditation

The University of Michigan has renewed accreditation of four Oakland County area high schools. They were Dryden Community, Our Lady of Sorrows in Farmington, Lake Orion and Utica's St. Lawrence.

Being on the accredited list means that graduates of these schools can enroll at the University without taking entrance examinations.

Hancock Might Acquire Farming Hall of Fame
KANSAS CITY — Hancock, Mich., is among sites being considered by the National Grange for location of a proposed Agricultural Hall of Fame headquarters. Final selection will be made Nov. 24 by the organization's board of governors.

Other possible sites are located in Missouri, Nebraska, Wisconsin and Iowa.

Hobby of Raising Flowers Pays Woman Big Dividends

By LEE WINBORN
Press Correspondent

ROCHESTER — A lifelong hobby of raising flowers now pays big dividends in enjoyment and pleasure for a Rochester woman, her family and even those who drive by their home in a car.

Mrs. Orville Dammann, "Marcia" to her friends, inherited her green thumb from her parents. When still a youngster in Bay City, she began working in the garden with her mother and planned some day to have a large plot of her own.

When she was married and moved to 1750 N. Rochester Rd. 11 years ago, Mrs. Dammann and

her husband began setting out bulbs. Now two of their 10 acres are blanketed with flowers in season. In spring it's hybrid iris, in summer, gladioli, and in the fall, chrysanthemums.

Gladioli are Mrs. Dammann's particular favorites, and like many another hobbyist, she enjoys searching for choice specimens. She will travel miles for unusual bulbs to add to the countless varieties she has already.

The Dammanns attribute their success in raising flowers to two important factors. They say: "First the beds are planted in low land where the ground retains the moisture and the drainage is good. Secondly, we take proper care of

the plants as they mature and blossom."

The charming Rochester woman has three expert helpers on hand to assist her whenever she needs them. Her husband uses a tiller to cultivate between the rows, and their children, Tommy, 7, and Darlene, 5, both have their own jobs to do.

"Tommy especially loves flowers," his mother said. "He has a garden of his own right next to mine which he has planted with early and late blooming glads."

"He and his sister carry freshly cut bouquets from the field to the house so carefully that they never break a blossom," Mrs. Dammann said proudly.

Travelers on Rochester road would recognize the Dammann home if they were reminded of the black buckboard filled with brightly colored flowers in the front yard. The wheels of the buckboard are painted a lovely, Salem yellow, and the flowers are petunias, variegated and vine geraniums, fuchsia, spikes and asparagus fern — making a most effective floral display for all who pass by to see and enjoy.

Mrs. Dammann said, "We bought the buckboard in Millington Decoration Day weekend. I spent many tedious hours painting it, but now that it is finished and filled with flowers, I feel it was well worth the effort. We're all very proud of it."

Next winter the family plans to move the buckboard indoors and put a cutter out in the yard in its place.

"We'll use it for sleigh rides for the children, and during the holidays, we'll decorate it with brightly-colored trimmings to mark the Yuletide season," Mrs. Dammann said.

Islanders Seek Parking Space

Lake Orion Council Gets Suggestion to Clear Lot on Mainland

LAKE ORION — The Lake Orion Village Council is studying a request for "adequate" parking facilities by residents of Bellevue, Victoria and Romance Islands.

The situation would be eased if the village would bulldoze the lot containing the ruins of the foundation of the old Chataqua Building where religious meetings were held in the early 1900's, the residents told the council.

Councilmen promised to bring the matter up at the next meeting.

Councilmen also were informed the village can have the services of 10 to 15 men, provided by the Oakland County Department of Social Welfare, to work on community improvement projects.

The county would pay the men \$1.50 an hour from its work relief funds, said Lloyd Anderson, department representative, who outlined the program before the council. The village would be required to provide supervision, he said.

Village Attorney Harry Slater was appointed purchasing agent for the council since the village wants to obtain federal surplus property.

The council has accepted a preliminary proposal by Walter K. Willman, Pontiac city manager, that each unit of government in the county pay for emergency services for welfare patients at Pontiac General Hospital.

The council has accepted a preliminary proposal by Walter K. Willman, Pontiac city manager, that each unit of government in the county pay for emergency services for welfare patients at Pontiac General Hospital.

Ten Beauties to Vie in Romeo Pick Peach Queen Friday

ROMEO—A high point of excitement for 10 area beauty contest winners will be reached Friday night when they compete for the title of Romeo Peach Queen in the auditorium of Romeo High School. The judging will start at 8 p.m.

Communities to be represented in the competition are Waterford Township, Lake Orion, Armada, Rochester, Roseville, Warren, Utica and Romeo. The names of the title-holders from these towns will be kept secret during the contest. They will be identified only by the cards bearing the names of peaches which they will carry.

As soon as the queen and her two maids or honor are selected by the panel of out-of-town judges, all of the contestants will be introduced by Master of Ceremonies J. Gerald McLean or Romeo.

The queen and her two honor attendants immediately will embark on a busy, busy schedule

MR. AND MRS. DAVID M. FOGLER

Janet Bechler Exchanges Vows With David Fogler

OXFORD — St. John's Lutheran Church in Rochester was the scene Saturday evening of the marriage of Janet L. Bechler to David M. Fogler. Performing the rite was the Rev. Walter Gerken.

The bride is the daughter of Mr. and Mrs. Harold Bechler of 796 N. Rochester Rd., Oxford. Mr. Fogler is the son of Mrs. John Salo of 3905 N. Rochester Rd., Lake Orion.

Given in marriage by her father, the bride wore a floor length gown with a full chapel train of white organza. Her fingertip veil was topped by a crown of seed pearls, and she carried a white

prayer book centered by a white orchid and green ivy.

Maid of honor was Miss Juanita Borst of Rochester. Miss Doris Monser of Detroit, cousin of the bride, and Miss Shirley Dobat of Rochester were bridesmaids.

Junior bridesmaid was Darleen Borrsch of Garden City, cousin of the bride, while Robbie Bering of Rochester was the flower girl.

Jerry Black of Oxford was the best man. Ushers were Larry Bechler, the bride's brother, and Ish Jacobs of Lake Orion. Ring bearer was Craig Austin of Utica, the bride's cousin.

The reception was held at the Hof-Brau Hall in Fraser following the wedding ceremony.

After their honeymoon in northern Michigan, the newlyweds will reside at the home of the bride's parents until their new home is completed.

Army Chaplain Helps to Develop Moral Strength
MILWAUKEE (UPI) — Capt. Albert F. Ledebuhr, an Army chaplain, is helping the Army develop a character course designed to improve the moral strength of young men.

Ledebuhr said the lessons contain no specific religious teachings but are slanted to cover basic moral characteristics that are the foundation for religion.

The lessons, which will be given to young soldiers throughout their tours but especially during basic training, stress such basic virtues as duty to authorities, the nation and God, plus a rundown on the Ten Commandments.

Ledebuhr is a native Milwaukeean who is touring the country with the first chaplain exhibit sent out by the Army Chaplain Board.

Honor Future Farmers
IMLAY CITY — The Imlay City Chapter of Future Farmers of America was selected as a "silver award" winner for its work during the past year, according to an announcement by Lynn M. Bartlett, state superintendent of public instruction. There are 239 FFA chapters in Michigan.

Con Men Thrive on Gullible Gals

Sharpie Salesmen Net Hundreds in Cash Paid for Unseen Goods

(This is one in a series of articles prepared by the Michigan Retailers Assn. in an effort to better educate the buying public of Michigan in improving their buying habits. The Pontiac Press is cooperating with MREA by bringing this series to you.)

"What's your name?" the man at the door asked the housewife. She told him. "You've won a new television set," he joyously announced. Oh yes, there was a little matter of tax on the set—just a mere \$5.68, which must be paid before delivery can be made. She paid it. But the set hasn't arrived yet, and it never will.

This is a typical case of the confidence man in operation. It's the time of the year when these unsavory individuals declare open war on gullible citizens who will be swindled or duped out of thousands of dollars. The average citizen is the primary target of confidence men, and should be especially cautious in dealing with strangers.

This is the gimmick season with "sharpie" salesmen making door-to-door canvasses seeking to extract money from victims through misrepresentations. Surveys with a "polling fee" to make the results official are a favorite gimmick. There will be those who represent themselves as chimney or furnace inspectors for local governments. Of course, there are no such inspectors, but unsuspecting homeowners will be gypped out of hundreds of dollars in repairs, and most of the repair work was never necessary to begin with.

C.O.D. RACKET

Hundreds will be collected in advance as partial or down payments on goods that will never be delivered. One of the favorites is the "C.O.D." technique. A package will be delivered requiring a C.O.D. payment, and the average citizen will pay without question, only later will find that the package contains worthless junk. Magazine and book club subscriptions are more popular gimmicks used to rob victims of their hard-earned dollars.

These examples, however, should not be taken as a reflection upon the legitimate salesman, since they outnumber the confidence solicitor 100 to 1. When a questionable salesman comes to your door, call the local chamber of commerce, or police department to see if he has registered with them.

The best practice for citizens is to trade with established and reputable local concerns and their representatives. This habit may keep you from becoming another listing in the "sucker book" of crooked individuals and firms.

Plastic Coating Wood Can Prevent Rotting

NEW YORK — Tests indicate that plastic-coated wood will not decay under any moisture conditions. The researchers explain that plastic sterilizes the wood surface and keeps out decay fungi, the Society of the Plastic Industry report. Kiln drying before application of the plastic coating sterilizes the interior of the wood.

Hal Boyle Says:

Horse Opera Hoofbeats to Fill U.S. Homes

NEW YORK (AP)—A friend of mine had a strange experience the other night.

"I watched television for two hours," he said, "and didn't see a single horse."

This may mark a historic moment in the video industry. For come the falling of leaves this autumn, such an experience may be next to impossible.

The hoofbeats of the horse opera will echo in the nation's living rooms as never before.

Two years ago there were only 11 Western series, on the major networks, last year 16. But the season upcoming will have nearly two dozen—that is, if Hollywood doesn't run out of horses and blank cartridges.

Does the sight of a galloping nag now give you a kind of queasy seasick feeling. Well, there's only one way out. You turn off your TV set and turn on your radio. Then you won't have to watch a Western program — you'll just have to listen to it.

Whether Westerns are really as popular with the people as producers and sponsors seem to think is open to argument. But there is no question they have had a tremendous impact on our current culture.

More money is spent in filming

Huge Tropical Toad Invades Miami Area

MIAMI, Fla. (AP)—An aggressive, out-sized toad newly found in Miami has been identified as a poisonous tropical variety native to South America and the West Indies.

Dr. E. Martin Miller, University of Miami zoologist, said it's Bufo Marinus which secretes a whitish, poisonous fluid from glands behind its head. The toad Miller examined was killed after it had jumped at Mrs. Gretha Wallace in her yard.

Mrs. Connie Silkey reported her Dalmatian dog died 15 minutes after shaking off a toad that had clamped its jaws on his head. The poisonous reptile is warty, yellow-brown and about five times as large as an average bullfrog.

It May Cost You \$952 in Year to Own New Car

WASHINGTON—The actual cost of owning a new car is about \$75 a year if it is driven 5,000 miles, about \$952 a year if driven 10,000, according to the editors of Changing Times magazine.

They say that with an income of \$5,000 a year and average yearly driving of 10,000 miles the American family may well be kept broke by its car.

Only a family with above-average income can afford to drive 10,000 miles a year without seriously lowering its living standard, the editors say. The only way for the \$5,000-a-year family to keep its auto expenses within 10 per cent of its income is to buy a used car about every four years and drive it only 7,000 miles a year, according to one government study.

Westerns each year than was required to buy all of Alaska in 1867. Many a small girl now not only wants a toy gun as well as a doll. She also insists that her doll have a gun, too.

One veteran program chief gives this as the reason behind the epidemic of Westerns:

"TV is an escape medium. The best kind of escape is one in which you are shocked and threatened—but not in a way that really could happen to you."

"That's why Westerns succeed. You enjoy the tense feeling of watching someone walk down a

worship in America, sometimes seems to have gone beyond the boundaries of pure entertainment and to have approached the proportions of a national neurosis.

Modern plays about the loneliness and despair every man must face in living may be great art, but they are too real. Sponsors don't like them because they scare you out of your house and into the nearest bar."

This estimate of the situation is probably true. Watching Westerns is for many of us — like the ostrich's fabled custom of sticking

its head in the sand—a way to keep from thinking about our own lives and problems. Problems we can understand, such as the need for meeting a mortgage payment; problems we can't understand, such as what to do in the Middle East.

Back of it all may be the wild hope that someday, somehow, Marshal Dillon or Wyatt Earp will get Nikita Khrushchev in their gunights and end all our worries.

Meanwhile, back at the ranch—seen any interesting new horses lately?

Unusual Headstone Recalls Tame Fish

BLOCKLEY, England—One of the most unusual headstones in England is in a cottage garden at Blockley in Gloucestershire. It is a memorial to a fish. The epitaph reads:

"Under the soil the old fish do lie. Twenty years he lived and then did die. He was so tame, you understand. He would come and eat out of our hand."

Died April the 30th, 1855. Aged 20 years."

During a year's time trucks haul an average of 70 tons of freight for every person in the U. S., or about an average of 2 1/2 tons per family, based on current transport statistics.

AIDS FUTURE FARMERS—Dr. William T. Spanton (left), chief, agriculture education, U.S. Office of Education, and national adviser of the Future Farmers of America, greets Roger M. Kyes, GM vice president, on his arrival in Washington, D. C. Kyes will serve as a member of the committee to select the 1958 Star Farmer of America, the highest honor bestowed on an FFA member. The winner will be announced at the National FFA convention in Kansas City in October. Kyes, former Deputy Secretary of Defense, was 1952 chairman of the sponsoring committee of the National FFA Foundation. He received the honorary American Farmer degree from the FFA in 1941.

Elephant Rated Third Smartest Haiti May Ask U.S. to Probe Uprising

But He's Not as Bright as Tall-Tale Spinners Suggest

WASHINGTON — Elephants are smart, but they are hardly the mental giants pictured by the tall-tale fraternity.

One zoo director, after an exhaustive study of animal behavior, placed the Indian elephant third in a list of 10 most intelligent animals, the National Geographic Magazine says. It was outranked by chimpanzee and orangutan, but led horse, beaver, lion, grizzly bear, pack rat, mountain goat, and dog.

Legends of the elephant's phenomenal memory and ability to even old scores often stem from the imagination of the mahouts who train and ride them, M.D. Chaturvedi, who spent 30 years as an officer in the Indian Forest Service, passes on the following anecdote with a grain of salt.

The elephant concerned had seen a keeper steal its bread ration and hide the food under his turban. At the first opportunity, the beast snatched turban and bread, and ate both.

AN IMPRESSIVE SHOW

As an example of his own credibility, Mr. Chaturvedi recalls an elephant roll call he witnessed when a young officer. As each name was sounded, the animal lifted its trunk, as if to say, "Present, sir." He was much impressed — until he learned that mahouts guided the salutes.

On the other hand, Mr. Chaturvedi once knew an elephant that seemed to show powers of reasoning and memory. He was riding it back to base when it suddenly stopped short and refused to go on. Deciding to humor it, Chaturvedi turned around and discovered his raincoat lying in the road where it had slipped from the elephant's back.

Whatever their intelligence quotient, many elephants labor prodigiously, faithfully, and skillfully under the direction of their mahouts.

The big tuskers that toil in the forests of India and other Asian lands not only move logs but help knot the dragropes too. When loading logs on a trolley, the animal must place them properly in pyramid form. Another then shunts the little wheeled cars into position, pulls the chains tight around the logs, and pushes the loaded train down the yard.

One blind elephant collected logs rolled downhill by other elephants, and stacked them in lots of 20. She separated each lot from the other by the same space, measured by the length of her own body.

BEASTS LEAD CAPTIVES

One method used to round up work elephants calls for digging deep pits across the herds' known trails. The trapped animals are raised gradually by filling the holes with wood. They are then roped and led away by koomkies, or trained elephants.

More exciting is the keddah, or drive. With encircling fires and an unearthly din made by tom-toms, tin cans, and gunshots, beaters force a wild herd into a cul-de-sac. Individual members are separated from the group and noosed while tame elephants crowd about, holding the captives helpless.

Baby Bunnies Blocking Swim Pool Construction

ELMHURST, Ill. (AP)—Due to circumstances beyond control, the construction schedule for Frank Padosta's swimming pool has been delayed.

Workmen, with bulldozer poised for action, found a nest of baby rabbits in a hole in the 16 by 34-foot area where the pool is to be built.

"We feel it's a good luck omen," said Mrs. Padosta. "so we want to hold off until the half dozen bunnies can shift for themselves."

PORT-AU-PRINCE, Haiti (AP)

The Haitian government may ask Washington to investigate the unsuccessful attempt to overthrow President Francois Duvalier launched from Miami.

Four Americans and three exiled Haitian officers were killed Tuesday when their plot failed in fighting that took seven other lives. Port-au-Prince was calm yesterday and the government said it had completely restored peace in the Caribbean republic.

U.S. Ambassador Gerald Drew said he thought it "deplorable and shocking" that Americans were involved. American diplomats expressed dismay at reports from Miami indicating the sheriff's office there had advance knowledge of the plot but did nothing to warn Haitian authorities.

Two of the slain Americans identified by Haitian police as Arthur T. Payne and Dany E. Jones, both former Miami deputy sheriffs.

Police investigators in Miami said Payne, Jones and four other former deputies had been promised \$2,000 each to help political exiles overthrow Duvalier. The sheriff's office said the men either

had resigned or been fired before the attempted coup.

A trailer license tentatively identified a third slain American as Robert Hickey of Miami and the fourth body bore documents with the names of Evan T. Kaestes of Buffalo, N.Y., and Joseph Walker, no address.

Haiti's U.N. Ambassador Edmond Silvain said in New York that Duvalier sent him a message saying, "There is no question but that the Communists were collaborating in this plot. We are ready to turn our evidence over to the proper American officials."

Haitian officials also charged the plot was inspired by former President Paul Magloire and former Sen. Louis Dejoie, who lost last year's presidential election to Duvalier. Both men denied this in New York.

Temperature Given

BOSTON — A radio sounding device so small it can be swallowed and passed through the gastrointestinal tract has been developed to help physicians tell a patient's internal temperature during a radioisotope.

U.S. Workers Skeptical of French Venture

Help to Build Oil Empire

By ANDREW BOROWSKI
HASSI MESSAOUUD, Algeria, (AP)—A score of veteran American oilmen are helping build an oil empire in the Sahara sands with little faith in the success of the venture.

"We were brought here to teach Frenchmen the oil business but no one listens to us," is a standard complaint of American oilmen here.

All complain of a bitter anti-American feeling throughout this oil site where 3,000 men work in the middle of the Sahara to realize

France's dream of becoming an oil nation. "They act as if we were here to take over their oil," said a tool pusher from Los Angeles who asked that his name not be used. "All I can say is they can have it. The way they run things here, there won't be anything left here in a year but sand and abandoned derricks."

Many Americans working here believe that the potentialities of the Hassi Messaoud field have been exaggerated for political purposes. But derrick supervisor Paul R. Downs, of Bakersfield, Calif., says "It's an oil field that can produce."

There is a lot of bitterness toward the U. S. oilmen among young French engineers and technicians, many of whom fear that their lack of experience is too obvious alongside veterans from Texas and California.

"They (Americans) act as if they were supermen," complained one Frenchman. "They can't believe anybody can do anything better than they."

"The French are jealous of our skill and our experience," said an American technician. "After all, we've been in the oil business for 100 years and they only five. And they refuse to understand this."

In the camp's air-conditioned dining room the French eat in one group, the Americans in another and a group of Moslems by themselves in the corner.

"They refuse to learn French and insist on speaking English to us," complained a Frenchman. "After all, this is a French territory."

"You can't do anything about all this," observed Billy McBride of Fort Worth, Tex. "They're just anti-American."

Rush-Weaving Craft Reviving in Britain

DEBENHAM, England—The art of rush weaving had nearly died out in England when R. G. Pinney founded the Deben Rush Weavers some years ago in the little Suffolk town of Debenham. Today this ancient craft is proving increasingly successful and popular.

Before carpets were invented, the floors of both peasant home and palace were strewn with bulrushes, sometimes mixed with sweet herbs to give rooms a pleasant scent. The expression, "not worth a straw," dates back to the days of rush floor coverings. Distinguished guests always had clean, fresh rushes to walk on, but those of inferior rank had old rushes or none at all; they weren't worth a rush, or straw.

West Germany, with a population of about 50 million, is about the same area as Illinois and Indiana combined, according to post-war figures and based on territorial limits.

Clue to Secret of Life?

He Makes Dead Bones Grow Again

NEW YORK (NEA) — It looked like a soup bone, or a relic, or a bone the dog had buried. It looked like an old, dead bone.

"It is," said Dr. Albert E. Sobel. "It is deader than dead. But we have discovered how to bring it back to life."

Sobel's department of biochemistry at The Jewish Hospital of Brooklyn may have discovered something far more enormous about the secret of life, but the doctor would allow only the possibility that:

• Broken bones requiring six to eight weeks for healing may be able to be mended in a matter of days.

• Diseased or worn-away joints and bones may be able to be stimulated into replacing themselves naturally.

• Diseased or destructured marrow—hazards of leukemia and atomic radiation—may be replaceable. "We know," Dr. Sobel said, "that new bone growth also yields blood-producing marrow."

• Bone for grafting may be interchangeable among all animals and humans.

• Dental cavities may fill themselves naturally, stimulated by what Dr. Sobel and his associates have found.

Specifically, these scientists have discovered why certain tissues become bone by discovering how bones take on a mineral structure.

20 YEARS WORK

"It has taken more than 20 years of work," Dr. Sobel said. "But not constant work. I began to question existing theories in 1934—when I was 27 years old. And the first thing I discovered was that it is sometimes unpopular for a young doctor to challenge his elders."

After World War II, and with backing from the U.S. Navy Department, The Jewish Hospital and the U.S. Department of Public Health, Sobel turned his full attention to the problem.

The first step was to kill the bone's ability to mineralize, in order to isolate the mineralizing agent.

It was easy enough to kill the bone with acid or a water-softening agent. Later we found and isolated the collagen—the chemical that structures itself into mineral form. But finding the agent that fostered the ability of mineralizing? That was much harder."

With millions of agents and combinations in the world of biochemistry and with only a limited body of information on the subject, Sobel and his colleagues began a system of trial and error. The compound they finally isolated is called chondroitin sulfate—a clear, colorless liquid.

"In this solution," Dr. Sobel said, picking up a yellow spongy mass that looked like a bone, "a piece of bone that has been away from life for a long, long time will come back to life."

A MIRACLE

But what was miraculous in the test tube was fantastic on the operating table.

Working with Dr. Sobel's dis-

covery, surgeons drilled holes into the living bone of animals and then packed the holes with samples of crushed, revitalized bone.

The result: new natural bone growth by the animal in record time where before natural healing would have been slow—if it happened at all.

"If natural bone growth can be so stimulated," Dr. Sobel said, "then perhaps the same might be true of teeth. Laboratory tests seem to indicate it is possible. We

have yet to try it with living animals."

While Dr. Sobel will talk about the possibilities of immediate medical use of revitalized bone and of the \$5,000,000 additional laboratory space his hospital is building, he shrugs about the broader implications of his discovery.

For if further testing and discovery in other areas of biochemistry will bear him out, Dr. Sobel has found a substance

"DEADER THAN DEAD" — The bone in Dr. Albert E. Sobel's hand can be brought back to life at any time. Behind his discovery may lie the answer to a major secret of life itself.

THE PONTIAC PRESS, THURSDAY, JULY 31, 1938

Michigan Grown Produce Lowers Prices

Food marketing in summer offers more fresh produce at lower prices than at other times of the year. Still prices vary depending upon the amount or supply arriving at market relates the Marketing Information Agent.

Last week homegrown corn was just making its appearance. This week it is as much as 20 cents less for a dozen ears.

Large supplies of peaches, watermelons and cantaloupes are fruit favorites at lower than usual prices for this time of year.

With the exception of featured items in pork, poultry and beef, little change is noticeable in meat prices since last week.

Warm weather has slightly lowered egg production, bringing a small price increase in some cases.

PRODUCE—Corn, potatoes and blueberries are Michigan foods increasing in volume.

When choosing corn in the husk, pick the ears with bright, green, snug husks. The stems should be green where snapped from the stalk. Bright shiny kernels are another sign of freshness.

Even rows of well-filled kernels are a guide to corn maturity. The color of the kernels is no guide to flavor. Kernels may vary from white to bright yellow depending upon variety.

Michigan's new potato crop is improving in supply and maturity. Prices are lower than last year at this time. Cooked alone or with other vegetables, new potatoes have a distinct flavor if boiled in their skins. Blueberries are gaining in volume with peak supplies expected about August 10. Heavy supplies will continue until about Labor Day.

Blueberries will keep a week or more in the refrigerator. Do not wash until ready to use. Wet berries spoil rapidly. Even the weight-watcher can enjoy blueberries. Only 42 calories in half a cup.

This is the week of peak supplies of cantaloupe from western California. You may find lower prices compared to a week ago.

MEATS FOR THE CHOOSING—Broiler production is at a record level. The U. S. Department of Agriculture estimates that in mid-August, the number of broilers ready for market will be about 23 per cent more than in 1937. This production record assures shoppers of adequate supplies at reasonable prices at least until Labor Day.

If you buy the small two pound size broilers, figure a half bird for each adult. For trying

and roasting, allow 1/4 to 1 pound for each person.

Large numbers in storage is one reason for occasional features on turkey. Forty to fifty-five cents a pound will buy turkey of the size that best suits your needs.

Ground beef and blade chuck roast are top beef values. Have you thought of buying pot roasts now for your freezer? While more consumers demand steaks, cuts for pot roasts are lower than they will be next winter.

Smoked picnics, ham and Boston butt wear similar price tags when price per serving is compared. Boston butt is easily cut into steaks that can be barbecued or pan-broiled.

When you are buying snap beans, avoid those with dry-looking pods.

Tips Given on-Buying Poultry for Barbecue

Is barbecued chicken a summer favorite at your house? If so, how do you decide which broiler to buy?

The small fryer that weighs two and one-half pounds or less will be the best choice, says the Marketing Information Agent.

Make the trip from the store to your refrigerator a fast one for chicken. Before storing it, remove the store wrap and loosely re-wrap with waxed paper. This gives air a chance to circulate around the meat.

For the best flavor, Mrs. Sawyer suggests using poultry

within one or two days after you buy it.

Barbecued chicken can be your summer favorite if you buy and store it carefully and use it quickly.

Add Gourmet Touch

SAN FRANCISCO (UPI)—From the California Foods Research Institute comes this suggestion for a gourmet touch to soups. Even the simplest of home-made or canned soups takes on extra flavor with wine. Try adding a couple of tablespoons of burgundy or sauterne to clear soups, sherry to the creamed types.

Seedless green grapes are good added to a cabbage salad.

W. HURON

Summer Squash with Sausage Stuffing

1 large summer squash, cut into 1-inch slices
1 pound bulk sausage
1 cup chopped celery
1/2 cup chopped onions
1/2 cup corn flakes
1/2 teaspoon pepper

Scoop out centers of squash slices to make rings, put rings in salted water. Crumble sausage into frying pan and cook over moderate heat until browned; drain off fat. Add celery and onions; cook until softened.

Crush corn flakes into medium fine crumbs. Add to sausage mixture together with pepper; mix thoroughly. Drain squash rings; place in greased shallow pan. Fill centers generously with stuffing; cover. Bake in moderate oven (375 degrees) about 45 minutes or until tender. Yield: 6 servings, 1 slice each.

Fresh Tarragon Is Now Growing

Tarragon, a favorite salad herb, is an ideal flavoring agent for veal. It takes only a pinch of the herb to flavor a couple of pounds of the meat.

Veal Tarragon

2 pounds veal round steak, cut 1/2-inch thick
1/2 cup flour
1/2 teaspoon salt
1/2 teaspoon paprika
1/2 medium onion, sliced
1/2 teaspoon pepper
2 tablespoons lard
1/2 teaspoon tarragon
1 cup water
1/2 tablespoon lemon juice or vinegar

Cut veal in serving-size pieces. Combine flour, salt, pepper, and paprika; rub into cut surfaces of veal. Brown meat in hot fat; add onions and brown thoroughly.

Sprinkle in tarragon; add water and vinegar. Cook, covered, over low heat until tender, about 1 hour. 6 servings.

You get a Cleaner Wash with **CLOROX**

Whitest and Brightest!

A man takes special pride in a shirt that's Clorox-clean. And no wonder! Everything in your wash comes out so sparkling fresh when you make a habit of adding Clorox to your laundry suds.

White cotton, linen, rayon come out extra white... color-fast cotton and linen, extra bright. You always get an extra measure of cleanliness with Clorox... the most efficient product of its kind for bleaching, deodorizing and disinfecting your family wash!

Safest for Health!

A wash that's Clorox clean is hygienically clean, safer for family health... for no other home laundering product equals Clorox in germ-killing efficiency. Another good reason to use Clorox every time!

BY BRUNO L. KEARNS
Sports Editor, Pontiac Press

There's no use kidding ourselves. The Tigers will take the unflattering honor of being the "duds of 1958." Since the spring training season right up to the 4th of July we sincerely believed the Tigers could be the second best team in the league. And this writer wasn't alone.

National writers who toured the training camps were in majority by picking Detroit anywhere from first to third. Now these same writers are finding it hard to believe the Tigers are as bad as their position in the standings indicates.

What's wrong with the Tigers? Nothing that a good shakeup wouldn't cure. There's a lot of good trade bait on the team with no room for sentiment. Every year names are mentioned for the bloc, but every year there are just too many good Tigers to trade. In other words we have a team of champions in 7th place in the American League.

If they ever get the courage to trade, then we hope the two players who will stay untouchable are Frank Bolling and Jim Bunning the hardest workers on the team.

DITTOS FROM THE PRESS BOX

It may be an act of courtesy on the golf course for one golfer to wave another through, but the Federal Circuit Court in Philadelphia recently ruled that such a player "shows a lamentable lack of care for his own safety."

The ruling was made after a golfer who was struck by a ball lost his right eye sued the golfer who hit the ball for \$50,000.

The injured golfer had waved the other golfer through while he was searching for a lost ball. He was hit even though he stood behind a small tree. The court ruled out the damage suit.

Yale Lary Lions' defensive back is mixing football with politics. He is on the Democratic primary for state representative in that unhappy place called Texas, which now has to give way to Alaska as the largest state in the Union.

Four County Boys Score USGA Victories

Fine Start for State Junior Golfers

(Special to the Pontiac Press)

ST. PAUL, Minn. — Michigan golfers enjoyed a banner day Wednesday in the opening round of the USGA junior golf tournament at University of Minnesota course.

Bud Badger of Bloomfield Hills showed the way with a 6 and 5 victory over Pat Dorton of North Riverside, Ill. Badger's first nine 32, three under par, was the day's best score for the front side of the par 35-36-71 course. He was 2 under for the 13 holes that were played, slipping to a bogey on the 12th.

Garrett Mow of Birmingham downed Ron Samuels of Beverly Hills, Cal., 1 up by winning the pivotal 17th hole with a par.

Pete Green of Birmingham had it easier against Robert White of Glencoe, Ala., winning 4 and 2. Green shot a par 35 on the front nine and was two over on the back.

Detroit's Tom Grace of Southfield defeated Paul Herold Jr. of Normandy, Mo., 1 up. Grace had a 77 for the round, Herald a 78.

Co-favorite Sonny Methvin of Little Rock, Ark., ran into a first round ambush Wednesday.

The 17-year-old Arkansas star, a semifinalist in the 1957 tournament, was ousted 2 up by Jack Lotz, also 17, the California state junior champion from San Lorenzo.

While Methvin was bowing out early, the other 1957 semifinalist in the starting field of 128, Rick Casabella of Louisville, Ky., straightened after a rough start and whipped Bob Morse of Peabody, Mass., 4 and 3.

Lotz' 3-over-par 74 was a long way from being artistically the best golf played over the woody, par 35-36-71 University of Minnesota course, but it was a sturdy performance in the face of Methvin's constant pressure.

Wednesday's dueling, under ideal golf conditions, cut the field

to 64 players. That number will be slimmed, first to 32 and then 16 in two rounds Thursday.

Most of the field, made up of youths 17 and under, found the 6,339 yard course an unexpectedly bumpy road. But Ken Folkes of

Hockey Leader Campbell Speaks for Sports Bill

WASHINGTON (AP)—Senators exploring the business aspects of professional sports wind up their hearings today with testimony from Maurice Podoloff, president of the National Basketball Assn.

Reps. Oren Harris (D-Ark) and Francis E. Walter (D-Pa) also may appear before the Senate Antimonopoly Subcommittee to report a House-passed sports bill but their schedules were uncertain.

Podoloff was expected to tell the Senators pro basketball would welcome the flat exemptions from ordinary business laws proposed in the House measures for professional team sports.

The subcommittee already has received that word from spokesmen for baseball, football and hockey, along with opposition to the sweeping nature of the exemptions from several players, college coaches, and Congressional and outside sources.

Clarence A. Campbell, president of the National Hockey league, spoke on behalf of the bill yesterday. President Walter J. Michael and attorneys for the U.S. Trotting Assn., asked that harness racing also be cut in on the exemptions.

Campbell told the subcommittee the fact that promoter James D. Norris, ex-president of the Inter-

national Boxing Club, has an interest in two NHL teams "is a circumstance we would prefer not to have."

But Campbell declared Norris had salvaged the league when he took over the Chicago Black Hawks in 1932. He said the NFL governors were convinced Norris exercised no control over the New York Rangers.

His stock in Madison Square Garden gives Norris a financial interest in the Rangers.

Campbell acknowledged that one man conceivably could have an interest in all six NHL clubs but said the league constitution now prohibits one man from controlling more than one team.

Joseph A. Neville, general counsel to the Trotting Assn., said the USTA needs unchanged disciplinary powers to maintain honesty and integrity in harness racing.

The government has filed an antimonopoly suit against the association, saying it has gained a stranglehold on the sulky sport.

Susce Wins Third Straight for Detroit

2-1 Triumph Over Red Sox Brightens Scene

Former Boston Pitcher Could Be Key Tiger in Stretch Drive

DETROIT (AP) — George Susce now becomes a key man in what the Detroit Tigers hope will be a stretch drive toward a first division finish in the American League.

The Boston Red Sox castoff won his third game and pitched his second complete game yesterday, turning back his old teammates 2-1 before a sparse weekday gathering at Briggs Stadium.

Susce, now 3-0 on the season, scattered seven hits and got just enough batting support. Used 10 times in relief and eight times as a starter, Susce apparently has won a place in what used to be called "the big four."

The Tigers' big four is no more — the combined efforts of Jim Bunning, Frank Lary, Bill Hoft and Paul Foytack producing a poor 31-35 record.

Susce's effort, the club's fourth complete game in 22 starts, comes at a good time. The already bedraggled pitching staff suffered another blow yesterday when the Tigers learned that reliever Tom Morgan, the club's most effective pitcher of late, will be sidelined from four to six days. Morgan has had a sore arm most of the season.

Susce retired Ted Williams twice, once on a hard smash to Frank Bolling at second base and another time on a pop fly. He walked Williams twice.

The only Boston batter to give Susce trouble was Gene Stephens, who is taking the slumping Jim Piersall's place in center field. Stephens singled in the second and was stranded, homered in the seventh to tie the score, and doubled in the ninth with one out.

Susce got out of trouble by persuading Sammy White to ground out, then striking out Don Buddin on three pitches.

Harvey Kuenn continued his hot hitting for Detroit with two singles that lengthened his hitting streak to 13 games — he has hit safely in 28 of his last 29 — but it was Al Kaline who brought home the victory.

Hitless in two trips against right-hander Ike Delock, Kaline tripled off the right field screen in the eighth inning. Charlie Maxwell scored him with a grounder to first base. Billy Martin singled home the other Tiger run in the third inning.

Delock lost his second straight after running up a 10-0 record. The Tigers reached him for only seven hits with Inman (Coot) Veal, the new shortstop, collecting a pair of singles. It was Veal's Major League debut.

Pitches Braves Back Into Lead

Spahn Breaks Dodger Spell

By The Associated Press

Seven years with the wrong wampum.

That's a long time for a Brave, especially for Warren Spahn the biggest Milwaukee Brave of them all.

Seven long years had long gone without a victory over the Dodgers. Not since 1951 had he hung up a Dodger scalp. The 37-year-old star southpaw finally broke

the spell last night. He pitched the Braves to a 4-3 victory over Los Angeles that put the Braves back into first place in the National League.

It was his first triumph against the Dodgers since Sept. 25, 1951. They've beaten him eight straight times since then. He started against them June 6, 1956 and failed to last two innings. He

didn't start against them again—until last night. This time he went the distance, permitting only six hits and one earned run.

Spahn has spent many sleepless nights over his inability to beat the Dodgers. His frequent failures against them prompted his managers to skip his turn in series between the two teams. Normally a friendly chap, Spahn bristled when twitted about this.

But the fact remains that whereas he has beaten St. Louis 50 times, Cincinnati 48, San Francisco 35, Pittsburgh 32, Chicago 30 and Philadelphia 14, this was only his 14th triumph over the Dodgers.

Cincinnati, behind Bob Purkey, dumped the Giants into second place with a 5-1 victory. Pittsburgh climbed to the .500 mark with a 7-1 triumph over Chicago in a game limited to 7½ innings by rain. Philadelphia defeated St. Louis 5-1.

Felix Mantilla and Eddie Mathews drove in all Milwaukee runs against loser Sandy Koufax, who had previously beaten the Braves three times. Mantilla drove in the first three runs with a home run and a sacrifice fly. Mathews' circuit smash, his 21st came in the eighth and snapped a 3-3 tie. The triumph was Spahn's 13th against seven defeats.

Purkey allowed the Giants only five hits and drove in two runs in gaining his 13th victory. The Cincinnati right-hander extended his string of scoreless innings against the Giants to 46 before they finally scored off him in the fifth. Walt Drope and Pete Whisenant homered off loser Johnny Antonelli.

Hank Folles' three-run homer helped rookie Red Witt gain his fourth triumph in six decisions to Pittsburgh. Taylor Phillips dropped his fifth for the Cubs.

Willie Jones' tenth homer helped the Phillies make it two in a row over the Cards. Jack Sanford pitched Billy Muffett for his seventh success but he needed help from Dick Farrell in the seventh.

SPORTS

Veteran Horse Leading Harness Race Earnings

VERNON, N. Y. (AP)—Lord Steward, 11-year-old gelding owned by Ralph H. Kroening of Milwaukee, today tops the money winning list for harness horses.

The veteran campaigner boasted his total earnings to \$336,177 last night when he finished fifth and picked up \$200 in an elimination heat of the Empire state Downs. Speedster won the heat in two minutes flat for the fastest trotting mile of the year. He came back later and won the race-off in 2:00 1-5.

Lord Steward passed Adios Harry, a pacer who earned \$335,990, from Dick Farrell in the seventh.

U.S. vs. Poland This Weekend

WARSAW, Poland (AP)—Three changes have been made in the American men's track and field team which meets Poland tomorrow and Saturday following a triumph over the Russians at Moscow.

Discus thrower Al Oerter of New Hyde Park, N.Y., second at Moscow, is returning to the United States and Parry O'Brien, world champion shot putter, will double in his specialty and the discus.

James Segrest of Abilene, Tex., is being replaced in the 200 meters.

Charlie Dumas of Los Angeles has returned to orthodox practice and is expected to once again assume his position as the world's best high jumper.

These changes were outlined today by Coach George Eastment and assistant coach Larry Snyder as the American team went through its final practice session. The Polish meet, unlike the one against the Russians, will be two dual meets — men against men and women against women. At Moscow the Russians outscored the U.S. on aggregate points.

World record holder Dumas was the biggest disappointment in the American men's triumph over the Russians. He trains very little and told the coaches and friends he was saving up for the actual competition, in which he cleared only 6 feet 7½ inches and finished third behind the two Russians.

"Dumas now is training very hard," said Snyder. "He realizes he lost in Moscow and that he looked bad. He's working out on the track and running the hurdles. That's good for high jumping and he will get back into form quickly."

Eastment said Oerter was called home but didn't give the reason. But O'Brien is a highly competent discus man and American chances shouldn't suffer because of Oerter's absence.

As a result of this quick switch from idler to slugger, the high ranked Chicago fighter now is in line for a Sept. 17 Dapper Dan benefit show in Pittsburgh with Joe Giardello. He also has an offer for an early September match in Salt Lake City with Gene Fuller, the ex-champ for whom he substituted against Suzina.

NEW YORK (AP)—A week ago Spider Webb was a 173-pound fisherman on vacation in Withita. Kan. Last night he was a sharp-punching 162½ pounder who stopped Germany's Franz Suzina on a technical knockout in 1:20 of the seventh round at Madison Square Garden.
