

RECOUNTS FLIGHT — Air Force Maj. Robert M. White tells newsmen of his 58.7-mile-high rocket ship flight yesterday at Edwards Air Force Base in California. The nation's newest astronaut's record was well-timed. He will receive the Robert J. Collier aviation trophy for 1961 today at the White House.

X15 Pilots Presented Trophy by Kennedy

WASHINGTON (AP) — President Kennedy presented the Robert J. Collier Trophy today to record setting Maj. Robert M. White and three other test pilots of the rocket-powered X15 research airplane.

Kennedy presented the trophy in a ceremony on the White House south lawn which was attended by many people connected with aviation, including some past winners of the Collier Trophy, awarded annually for outstanding achievements in aviation.

Kennedy took note of White's flight yesterday in which White reached a new altitude record for manned aircraft of 58.7 miles. The flight qualified White for astronaut wings.

Kennedy praised White and the others for their contributions to the conquest of space which the President calls "the new ocean."

White, 38-year-old engineer-test pilot, accepted the trophy on behalf of the four X15 pilots, but stressed that many other people who were not present had contributed to the success of the high-altitude flights.

Sharing the Collier award with White are Joseph Walker of the National Aeronautics and Space Administration, Scott Crossfield of North American Aviation Co. and Cmdr. Forrest Peterson of the Navy.

Later in the day, three of the X15 pilots will receive the National Aeronautics and Space Administration's highest award, the Distinguished Service Medal.

Crossfield is not receiving the medal.

It was explained that Crossfield flew the X15 for North American, which built it, but not on actual NASA flights.

Real and personal property in the central business district, except urban renewal and residential lands, would be "taxed" at a rate of \$6 per \$100 of assessed value.

About \$55,000 each year would go to retire bonds financing the parking lots which the city now pays, about \$20,000 would go toward maintenance and the remaining \$15,000 could be used to buy privately owned parking lots.

The DPBA also approved a budget of \$24,000 for operations in the remainder of 1962.

Most of the budget will go toward downtown retail promotions and hiring a fulltime director this fall.

Key issues showed losses of a few cents to \$1 or so. Caught in the slump were steel, motors, rails, oils, chemicals, aerospace issues and electronics.

At noon the Associated Press 60-stock average was off 1.70 to 214.90 and the Dow Jones average of 30 industrials was down 4.73 to 573.12. Standard & Poor's 200-stock average had dropped .29 to 56.39.

The New York Stock Exchange's ticker tape fell behind transactions as 1.73 million shares changed hands in the first two hours of trading. In that period Tuesday volume was 1.23 million.

Senate Reapportionment Ordered in Explosive State Court Decision

Senate Defeats Medicare Plan on 52-48 Vote

President Stung With Another Setback From GOP, Southern Dems

WASHINGTON (AP) — The Senate has killed the administration's compromise medical care plan for the elderly on a 52-48 vote, branded by President Kennedy as "a most serious defeat for every American family."

Kennedy promptly fired this stinging reverse by a coalition of Republicans and Southern Democrats into a major issue for the November elections and said he would offer the program again next year.

The American Medical Association, which led the fight against the program that would have been financed through higher Social Security payments, said Tuesday's Senate action was "a vote in the public interest."

Kennedy had placed the medical care plan in the top priority bracket of his legislative program. The coalition that scrapped it was of the same pattern of the

WASHINGTON (AP) — Michigan Democratic Sen. Hart and McNamara voted with the minority Tuesday as the Senate by a 52 to 48 vote tabled — and thus killed — President Kennedy's Social Security health care plan.

one that had killed two of his other major proposals in the House — his farm bill and his plan to set up a Department of Urban Affairs.

Joining 31 Republicans to kill the medical care plan were 21 Democrats, 17 of them Southerners. The Republicans who co-sponsored the compromise voted with 41 Democrats in trying to save it.

The showdown was on approval of a motion by Sen. Robert A. Taft, 140th, to table and thus kill an amendment by Sen. Clinton P. Anderson, D-N.M., that (Continued on Page 2, Col. 3)

Olympic Balancing Act?

DETERMINED COMPETITOR — It looks as though Richard Barnes, 11, a sixth grader at the Donelson Elementary School, Waterford Township is walking a tightrope but he is actually competing in the running broad jump during yesterday's Junior Olympic tryouts at the Drayton Hall Park. Youngsters from 13 playgrounds utilized for the Waterford Township summer recreation program participated in the tryouts. Winners will represent the township July 26 in the finals at Belle Isle against top athletes from 41 other communities.

British Justices Allow Appeal

LONDON (AP) — Three high court justices refused today to grant Robert Soblen's plea to be set free on British soil, but gave him permission to appeal the decision.

Court observers estimated the appeal—even if denied—would delay Soblen's deportation to the United States for perhaps six weeks. They estimated it would take that long to complete the process in the court of appeal.

If he loses the appeal, Soblen still would have pending a request in the Home Office for asylum as a political refugee.

The Home Office has declined to give any inkling of its attitude toward this request, but it is thought unlikely it will be granted.

The high court turned down Soblen's plea to free him from deportation by the Home Office under a writ of habeas corpus.

ALLEN IN TRANSIT

The court upheld the government contention that the 62-year-old fugitive, who fled from a life sentence in the United States for Soviet spy, is an alien in transit who had been allowed to pause in

Deny Soblen's Freedom Plea

Britain only long enough to receive for permission to remain in Britain or to go on to refuge in some other country.

Defense Attorney Elwyn Jones informed the court he has been instructed by Soblen to appeal the decision.

A Home Office spokesman would say only that there has been a final judgment by the courts. "The home secretary will consider the application for asylum on its merits."

The spokesman added that even if Soblen finally loses in the courts he would not be formally deported. "The spokesman said."

"The Home Office would simply hand him back to the airline which brought him here and the airline would have to remove him from Britain."

Temperatures will average near a high of 80 and low of 60 Thursday and Friday, Saturday and Sunday will be a little cooler.

Variable morning winds at 2 miles per hour will become northerly at 5 to 12 m.p.h.

Low temperature before 8 a.m. in downtown Pontiac was 63. At 2 p.m. the recording was 82.

Jurists Call Off August Primary

LANSING (AP) — The State Supreme Court in a 4-3 vote today called off the Aug. 7 primary election of the State Senate and ordered legislative reapportionment of the Senate.

The vote went on a straight party line basis with four justices usually identified with the Democratic party voting for the decision and three allied with the Republican party voting against it.

In its long-awaited decision on the suit brought by Michigan AFL-CIO President August Schale, the high court produced six different written opinions.

The court directed lawmakers to reapportion the Senate by Aug. 20 or risk 32 state senators from the state on an at-large basis, at a special primary Sept. 11 if they fail to enact "valid legislation."

The State Senate now is composed of 23 Republicans and 10 Democrats.

The decision, one of the most politically explosive ever to come from the court, threw out the 1952 amendment to the State Constitution freezing the 34 State Senate districts.

Prior to that, the constitution provided for 32 Senate districts equally divided according to population.

The ruling was a victory for Schale, who started court action more than two years ago to declare the Senate districts illegal.

The union chief contended the 12-1 disparity in the districts violated the equal protection guarantee of the U.S. Constitution.

WRITTEN BY KAVANAGH

Writing the controlling opinion was Justice Thomas M. Kavanagh. Supporting him were Justices Edgar F. Black, Otis M. Smith and Theodore Sorensen.

Chief Justice Leland W. Carr wrote for the three dissenters, backed by Justices Harry Kelly and John R. DeWitt.

Immediate reaction set in among Republican senators.

Sen. Carlton H. Morris, R-Kalamazoo, called his Senate Judiciary Committee into session to work out a reapportionment plan.

"We will do everything possible to protect outside Michigan against the effects of this court decision which has paved the way for complete domination of all Michigan by four south coast counties," he said.

Morris indicated yesterday he (Continued on Page 2, Col. 3)

U. S. Sends Off 'Big Shot'

13-Story-Tall Balloon Rockets 922 Miles in Brief, Successful Flight

CAPE CANAVERAL, Fla. (AP) — The largest space vehicle ever sent aloft — a balloon which floated to the height of a 13-story building — was rocketed 922 miles above the Atlantic Ocean today as a forerunner of an advanced Echo communications satellite.

The gleaming silver sphere, dubbed "Big Shot," provided a brief but spectacular show for ground observers in the Cape Canaveral area as it separated from the Thor booster, expanded to its full 135-foot diameter, and drifted across the heavens sky.

It was visible for nearly 10 minutes before becoming obscured by haze and cloud.

During the time it was in sight it appeared as a brilliant yellow object, brighter than any stars in the sky.

Clouds apparently confined observation of the big ball to the Cape area. Clear skies would have permitted observation of the balloon throughout much of the eastern United States.

Today's shot was to determine whether the balloon would expand and hold its form after being sent aloft. There were no communications tests.

The National Aeronautics and Space Administration announced success of the mission, which paves the way for launching a similar balloon into orbit later this year as the Echo II experimental communications satellite.

After rising to 922 miles the balloon floated back and burst in its second orbit in the earth's atmosphere. Death of the sphere occurred about 23 minutes after the 4:30 a.m. launching, some 483 miles south of the cape.

"Big Shot" is easily the largest package ever sent into space. However, many U.S. satellites have weighed much more than its 316 pounds.

JFK Chooses New Aide to Agriculture Dept.

WASHINGTON (AP) — President Kennedy today chose John A. Baker, now director of agricultural credit, as assistant secretary of agriculture for rural development and conservation.

Baker replaces Frank J. Welch, who is resigning. Welch will become vice president of the Tobacco Institute, Inc., an organization of U.S. manufacturers of tobacco products.

Stock Market Hits Another Broad Decline

NEW YORK (AP) — The stock market skidded into another broad decline today on heavy trading.

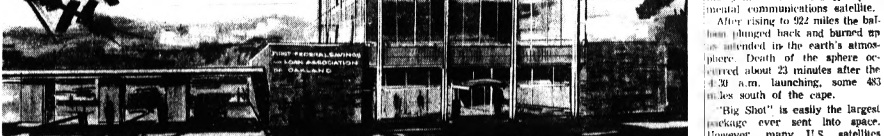

Prices fell from the start, recovered slightly and then drifted lower.

Key issues showed losses of a few cents to \$1 or so. Caught in the slump were steel, motors, rails, oils, chemicals, aerospace issues and electronics.

At noon the Associated Press 60-stock average was off 1.70 to 214.90 and the Dow Jones average of 30 industrials was down 4.73 to 573.12. Standard & Poor's 200-stock average had dropped .29 to 56.39.

The New York Stock Exchange's ticker tape fell behind transactions as 1.73 million shares changed hands in the first two hours of trading. In that period Tuesday volume was 1.23 million.

How New Facility on West Huron Would Look

Proposed building for First Federal Savings & Loan Association of Oakland

Savings Firm Plans Expansion

Officials of First Federal Savings & Loan Assn. of Oakland last night asked the city for zoning changes that would permit them to add four floors and a drive-in window facility to their offices at 761 W. Huron St.

James Clarkson, president, presented plans and drawings on the proposed structure to the City Commission.

He asked that some property be returned from residential to commercial and that present commercial zoning restrictions be waived to allow a five-story building.

The rezoning request was referred to the city planning commission for study and recommendation.

Clarkson's bid for waiving zoning restrictions was referred to the City Zoning Board of Appeals.

First Federal officials own a vacant lot between their building and the Main Pontiac Post Office to the east.

"We want the lot and property to the rear, now vacant or used for parking, rezoned from residential to commercial."

Their present one-story building is zoned C-1, which limits height to 2 1/2 stories or about 35 feet.

Officials want that restriction lifted to allow a five-story building.

LONG OUTGROWN

"We require our present building two years ago," Clarkson explained. "With current assets (Continued on Page 2, Col. 7)

Military Takes Over Peru; President Seized

Bloodless Coup Climaxes Long Crisis; Junta Ready

LIMA, Peru (U) — Disorders broke out at the governmental palace today as members of a military junta which had seized power appeared for swearing-in ceremony.

LIMA, Peru (AP) — Troops seized President Manuel Prado in a bloodless coup today and the military announced a junta would be sworn in at midday.

The takeover climaxed weeks of crisis during which the military sought to block election to the presidency of a bitter foe, Victor Raul Haya de la Torre, leftist but avowed anti-Communist.

A communique said the military junta would take office in a public ceremony at the governmental palace and that a message would be broadcast to the country.

Tanks and troops surrounded the palace at 4 a.m. and Prado was taken away in a military vehicle.

A broadcast listed the four-man junta as Gen. Ricardo Perez Godoy, Gen. Nicola Lindley Lopez, Vice Adm. Francisco Torres Malos and Air Force Gen. Pedro Vargas Prada.

Haya ran first in the June 10 election but failed to get enough votes for the presidency. He is popular in the army where military officers agreed yesterday to throw the presidency to rightist ex-dictator Manuel Odría, who was third in the voting.

But the military would not settle for such an arrangement.

Armed troops and tanks moved up to the palace early this morning and a colonel stood in front of a tank to prevent one of the tanks and issued an ultimatum to 72-year-old Prado to surrender quietly and prevent bloodshed.

As the minutes ticked off without reply from the palace, the tank commanders started to warm up their motors. One tank lurched forward and others started to follow. Then troops marched in through the big gates and finally the president came out of the palace and entered a military car which sped away.

There was no immediate action in the streets where Prado's, whose six-year term was due to expire at the end of this month, was taken. But a newspaper, El Comercio, said he was held on San Lorenzo Island off Callao, Lima's seaport.

Under the Gooding Md. sub-contractors are Ann Arbor Contracting Co. of Ann Arbor, for paving; Crown Fence Co. of Detroit, for relocating fences; Hydon Brand Co. of Detroit, electrical contractor; and Harry White & Son, of Pontiac, land acquirer.

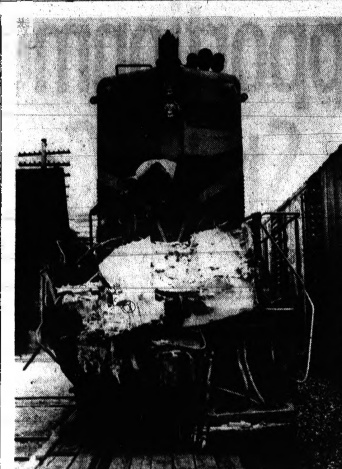

The total improvement program, including engineering studies, is estimated to cost \$384,000. Robert C. Beckham Co. of East Lansing, consulting engineers for the airport program, estimated construction would cost \$330,000.

UNDER ESTIMATE
The low bid came in \$127,378 over the estimate.

The current schedule calls for work to begin Aug. 6. The project should be completed by late this fall.

Improvements include widening the east-west runway and parallel taxiway, installing high-intensity lighting on the east-west runway, modification of taxiway lighting and controls and construction of a holding apron at the west end of the runway.

The project is being financed by federal, state and city funds.

MILK TRAIN — Henry Wix of Warren, engineer of this Grand Western Railroad Train, had an unexpected stop yesterday afternoon at the Davisburg Road crossing in Springfield Township. It collided with a milk truck driven by Daniel A. Turner, 24, of 731 Manor Drive, Milford. The truck was demolished. The train was covered with cream, cottage cheese and cartons of milk. But Turner escaped with only minor injuries.

The plane was en route from Montreal to St. John's, N.B. It circled the field for three hours while the pilot, Capt. Bill Givens of Montreal, tried unsuccessfully to get the landing gear into position.

The landing was made on a foam-covered runway with the wheels on the wings locked into position.

The plane was en route from Montreal to St. John's, N.B. It circled the field for three hours while the pilot, Capt. Bill Givens of Montreal, tried unsuccessfully to get the landing gear into position.

When it was all over, Vice President Lyndon B. Johnson had to bang his gavel for five minutes to quell the ensuing hubbub and get the Senate back to work.

An hour after the Senate vote, Kennedy went before television cameras and radio microphones to read a statement. He said the defeat had sent a setback to 17 million Americans over 65, and was a blow to children of older people who have to educate their families and help their parents meet medical expenses.

Then he added: "I think the American people are going to make a decision in November as to whether they want this bill, and similar bills, to be passed, or whether they want it to be defeated. Nearly all the Republicans and a handful of Democrats joined with them to give us today's setback."

"We have to decide, the United States, in 1962, in November, whether we want to stand still or whether we want to support this kind of legislation for the benefit of the people."

"You are going to have a chance to make that judgment. With your support in November, this will pass in 1962."

The handful of 21 Democrats to which the President referred in his majority membership. The Democrats have a 63-36 margin in the Senate and a 263-174 margin in the House.

The city commission had proposed in a resolution that the city and city-run forces in improving and enlarging Pontiac Municipal Airport.

The committee decided Lester's measure had been submitted to the wrong body and voted to pass it on to the full Board of Supervisors.

Behind the move to resubmit airport plans to the FAA was a protest by committee member John L. Carey that "politics" has been used against the committee.

Members insisted the FAA gave informal approval to the airport plans last summer.

Committee member John C. Richard said the FAA offered "nothing more than the usual number of obstacles" when it turned down the airport plan last month.

At a new application is eventually made, Richard said the committee will request a visual inspection of the airport site by the FAA.

No inspection was made before last month's denial.

The committee hopes talks with Ramsey will help overcome FAA objections and prevent against overruns in a new presentation.

Ramsey has sided with Oakland officials in their battle for approval and blasted the FAA after the airport proposal was turned down.

In other moves at the meeting, the committee agreed to meet with representatives of the Pontiac City Commission to discuss a joint city-county airport and reviewed a letter from an advertising executive protesting the proposed jet airport.

The city commission had proposed in a resolution that the city and city-run forces in improving and enlarging Pontiac Municipal Airport.

39 Are Safe After Plane Crash-Lands

GANDER, N.B. (U) — A Trans-Canada Air Lines Viscount plane carrying 39 persons made an emergency landing at the International Airport here today after the nose wheel failed to lower into position.

An airline spokesman said no one was injured although all passengers were taken to a hospital for routine medical examination. He reported the plane carried 35 passengers and a crew of four.

The landing was made on a foam-covered runway with the wheels on the wings locked into position.

The plane was en route from Montreal to St. John's, N.B. It circled the field for three hours while the pilot, Capt. Bill Givens of Montreal, tried unsuccessfully to get the landing gear into position.

The Day in Birmingham To Launch Construction of New Junior High Soon

BIRMINGHAM — Construction of a new junior high school is expected to begin late next month or early September, a Birmingham school official said today.

Walter J. Piel, administrative assistant, said the school board is expected to award contracts for the 14-Mile Road-Belleview Trail high school at its Aug. 21 meeting.

The board approved the final drawings for the one- and two-story building last night and will advertise bids as soon as possible, according to Piel.

The school, which will have a capacity enrollment of 1,000 students, is expected to be completed by the fall of 1963. As yet, the school is not named.

Nearly \$2.5 million has been budgeted by the board of education for the Valley Woods site school.

Designed by the Bloomfield Hills architectural firm of Turpin and MacMahon Associates, Inc., Piel said the school features a "miniature" of space.

"The architects have tried to make it as compact as possible," he said.

The tax rate in the Birmingham School District for the 1962-63 fiscal year will total \$3.35 mill, 2.90 mills higher than last year.

The school board confirmed the \$2.5 mills allocated by the county, 12.90 mills voted by the people.

The debt retirement tax is 2.40 mills lower than in 1961-62.

The over-all tax, however, is higher since voters approved a 5-mill tax increase for operations in November.

The tax rate will be the same in all portions of the district with the exception of West Bloomfield Township, where the county calls for a tenth of a mill less, 8.35 mills.

The Beverly School staff and Parent-Teacher Association have established a Ferguson Memorial Fund in memory of the late Malcolm V. Ferguson, principal.

Ferguson, 58, died of a heart attack on May 22 while taking part in the Michigan West principal exchange day in Mt. Pleasant.

The fund will help with the future education of Ferguson's children.

Troy School Official's Daughter In Crash

DAUGHTER — Troy Tumstall, 5-year-old daughter of Troy Board of Education member Alex Tumstall, suffered a fractured arm yesterday when the car in which she was riding ran off Big Beaver Road, hit a tree and ended up in a ditch.

Her brother, Craig, 16, a student at Troy High School, was driving. He and another brother, Brian, 3, were injured slightly. All were treated at William Beaumont Hospital, Royal Oak, and released. They live at 190 W. Big Beaver Road.

Swims Channel Underwater to 'Get Even'

By BOB CONNOR
PARIS—What force drives a man to swim the English Channel underwater?

"I tell you why I was able to complete the swim though it was beyond the limits of human endurance," Fred Baldassar, the American who recently achieved the incredible feat, told us tensely as he glared into his beer in the Ritz Bar.

Richman Bros.
MIRACLE MILE
SHOPPING CENTER
Open Daily 9:30 A.M. to 9 P.M.

How To Hold FALSE TEETH More Firmly in Place

Do your false teeth wobble and embarrass you when you smile or talk? Just apply our special PASTE TO your plates. This adhesive (non-toxic) holds false teeth more firmly and more comfortably. No gummy, sticky, messy or irritating Paste on your cheeks "plate color" (denture wearers). One PASTETITE today at drug counters everywhere.

"I drove myself to finish the job because I needed enough money to pay for my libel suit against a British Sunday newspaper named 'The People'."

The former actor and male model swam, "It called me a phony before I put a foot in the water. I'll make it pay dearly, you can bet your sweet life."

It takes all kinds of incentives, including monism, to create sports records. And all kinds of characters. One might be tempted to reserve a special title for Fred "Buddy" Baldassar, 38, balding but handsome product of Wellsville, Ohio, and surely one of the least likely candidates ever to become the world's champion underwater swimmer.

Fred worked as a grip, stagehand and director at the Army's picture-taking center on Long Island during the war, went on as an actor ("I played Romeo in the little theater league, but I had more hair then.") and then branched out of Bridgeport, Conn., as a writer, "then the paratroops," Fred told us casually picking up his astounding career.

"I broke my back training at Camp Tamm, Texas. I got ordered out, went to an acting school under the GI Bill, tried Hollywood and did some main modeling." I don't like actors because I don't like phantasies, but I'd go back to acting in a minute. It's the right part came along."

He was a grip again in 1950 when he married. His hobby had become a hobby, which art he taught to his young wife who, up to that time, thought it was crazy.

"We were living around Ponca, then and some Navy guy

made the papers by staying underwater eight hours," Fred recalled. "Jane was pretty—still is—so figured she could get a lot more publicity doing something like that."

"She broke the guy's record very easily. That gave me the idea of having her swim the Channel underwater. I became her publicity man, trying to secure sponsors. It was tough because such authorities as Jacques Cousteau, the diving king, said it was impossible."

"I solved the guidance system, the proper depth, methods of quick release of spent compressed air bottles, leading from plastic tubes, communications, underwater nerves, signals and stroke—down your arms, just stay streamlined and kick your flippers. She couldn't make it."

The marriage collapsed, too, and now the former Mrs. Baldassar is married to a British sportswriter

of whom Fred approves. Fred himself undertook the Herculean task last year, after a grueling period of penny-pinching. He was under pressure for nearly 17 hours and, as he put it, "It took four men to drag me out."

This year he cashed his government insurance, sold his motorcycle, got such sponsors as Roadside Elms, struck good bargains with sympathetic French frogmen and British boat skipper Bert Reed, tested his theories and equipment by swimming the Straits of Messina, and then at 7:17 p.m., July 10, stepped into the frigid Channel.

Nineteen hours later and 35 pounds lighter he stepped ashore in Britain. He had swum close to 40 miles, mostly at 55 fflips per minute. His air had changed every half hour.

He was frequently ill—a neck tick with a mask—and often had to buck the prop wash of his accompanying vessel. Nine-foot

waves caused the "cage" in which he swam to beat him unmercifully for a time.

But Baldassar made it, by gallantry, thanks to a magnificent determination, and "The People."

James Finn, assistant U.S. attorney, said Harvey—advertised cures, good luck charms and winning numbers in various periods—

West Germany has 291 television transmitters, including relays.

Mount Cook on New Zealand's great mountain at 12,350 feet. It is south island is the country's high-also known as Aorangi.

Dixie Dems Again Beat JFK on Key Bill

By JAMES MARLOW
Associated Press Staff Writer
WASHINGTON—President Kennedy's immediate reaction to Tuesday's defeat of his program of medical care for the aged—that it killed it—was not made public as an issue in this year's election.

He blamed "nearly all the Republicans and a handful of Democrats" who joined them for defeat. This was the third time this year a major Kennedy program was massed in Congress.

True, Republicans have been ganging up to defeat or try to defeat one Kennedy program after another. But so have some of his own Democrats—particularly Southern Democrats.

HURT THE PARTY
The performance of these Southern Democrats should destroy any illusion

—an illusion nurtured by Democratic politicians—that the Democratic party is some kind of single party which can make good on its promises.

The Democrats in this Congress—where they outnumber Republicans 64 to 36 in the Senate and 263 to 174 in the House—have made a sorry showing so far in 1962. But Kennedy still won't get rough with them.

Instead, he is calling for even more Democrats to be elected to Congress in November. It seems fair to ask: If he can't win with his present overwhelming Democratic majorities in Congress, how many more Democrats does he need?

BILL'S BOTTLED UP
On the House side the medical care plan hasn't even gone before the full House for a vote. The

Ways and Means Committee, with 15 Democrats and 10 Republicans, won't let it out to be voted on. Why?

Because enough of those 15 Democrats have joined the 10 Republicans to keep it bottled up.

Finally the Kennedy administration—agreeing to compromises which greatly watered down the original medical care plan the President proposed—action in the Senate. It was killed there Tuesday by a 52-48 vote.

REBELLED
Of the 21 Democrats who joined the 31 Republicans to repudiate the Kennedy program, 17 were Southern Democrats, some of them the same Democrats who

have voted against Kennedy again and again.

Here, as in Kennedy's two other major defeats, Southerners made up a majority of the Democrats voting against the President.

When the House defeated his farm bill by a 215-205 vote, 48 Democrats and 157 Republicans voted against it while only one Republican and 204 Democrats voted for it.

DIXIE'S DOING
Still earlier Kennedy had asked Congress to approve creation of a new department of urban affairs and housing. He said he would appoint Robert C. Weaver, Negro and administrator of the housing and Home Finance Agency, to head it. The House promptly killed it, 364 to 150.

In this one 111 Democrats—94 of them Southern Democrats—joined 133 Republicans to kill Kennedy's proposal. Voting for it were 137 Democrats and only 13 Republicans.

LONG REPORT
They were: manpower training and development; continuance of the emergency excise and corporation tax rates; and an increase in the national debt to \$308 billion.

Even on the debt program—approved in the Senate by a 55-34 vote—12 of the 14 Democrats who joined 20 Republicans in voting

against it were Southern Democrats. It was approved by 60 Democrats and 12 Republicans.

Both houses have approved Kennedy's foreign aid program, but with differences that have to be ironed out before it can become law. All the other major bills are tied up in one house or were Southern Democrats. Voting the other.

Settlement Must Favor Bella, Algerian Leftist Rebels Warn

ALGIERS (AP) — Leftist rebels in western Algeria have served notice on a military conference attempting to heal the nation's leadership split that they will accept only a solution favorable to dissident Deputy Premier Ahmed Ben Bella.

Otherwise, they hinted, they will resort to force.

Representatives of the guerrilla forces in all six wilaya—military zones—met in Medea in the mountains south of Algiers, in an attempt to work out a formula to reconcile Ben Bella's faction and the moderate regime of Premier Ben Youssef Ben Khedda.

No word has seeped out of the secret meeting of what progress, if any, has been made. Four of the six wilaya commands and the 45,000-man National Liberation Army support Ben Bella.

REFUSES TO ELABORATE
The spokesman, former Deputy

Premier Mohammed Khider, refused to elaborate on his remarks to newsmen at rebel headquarters in Tiemcen. But it was interpreted as a veiled threat to resort to force.

Calling Ben Khedda and his minister "usurpers," Khider demanded that they quit and that the National Council of the Algerian Revolution (CNRA) be convened to name a new government.

He said any decision or recommendation the wilaya meeting might make must be ratified by the CNRA. Ben Bella commands a majority in the CNRA, a self-appointed, 72-member body which served as a parliament during the nationalists' war for independence from France.

Ben Khedda's regime hopes to overcome Ben Bella's advantage through election of a constituent assembly to supersede the CNRA. The elections were set Tuesday for Aug. 12.

Ben Khedda's regime hopes to overcome Ben Bella's advantage through election of a constituent assembly to supersede the CNRA. The elections were set Tuesday for Aug. 12.

Ben Khedda's regime hopes to overcome Ben Bella's advantage through election of a constituent assembly to supersede the CNRA. The elections were set Tuesday for Aug. 12.

State OK to Join Grain Probe

U.S. Judge Grants Bid by Kelley; Officers Off to Investigate Haddix

DETROIT (UPI) — Michigan Atty. Gen. Frank J. Kelley yesterday received permission for the state to enter the federal government's investigation of grain shortages at five Michigan elevators.

Federal Court Judge Ralph D. Freeman granted the request. Kelley immediately dispatched investigators from the Department of Agriculture and state police to probe the Bud F. Haddix grain empire and its elevators at Blissfield, Monroe, Lake Odessa, Decatur and Durand. The state will join in the federal suits against Haddix & Sons, Inc., of Blissfield and Haddix & Sons Elevators, Inc., of Monroe.

At the same time, George S. McIntyre, director of the state Department of Agriculture, ordered license hearings for four of the elevators involved in the corn shortage.

The investigations center around the disappearance of 634,000 bushels of corn valued at more than \$700,000.

The grain shortages in the state include:

- Haddix & Sons, Inc., Blissfield, 273,075 bushels missing valued at \$383,436.
- Haddix & Sons Elevators, Monroe, 223,275 bushels missing worth \$248,112.
- M & S Elevators, Inc., Durand, 28,000 bushels missing valued at \$27,500.
- Michigan Grain Co., Decatur, 14,000 bushels missing worth \$15,000.
- Woodbury Grain Co., Lake Odessa, 103,000 bushels missing valued at \$110,000.

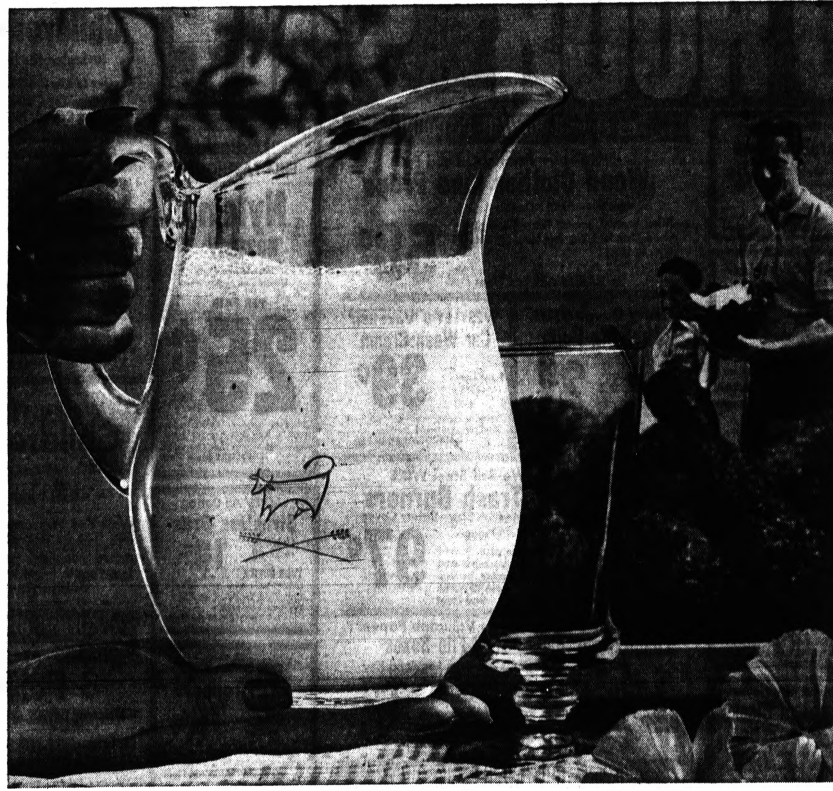

McIntyre said his department already received permission to intervene in the federal suits at Lake Odessa and Decatur. Federal Judge W. Wallace Kent of Grand Rapids granted that permission.

Muskegon Man Drowns as Barrel Raft Splits

MUSKEGON — John Stone, 24, of Muskegon, drowned Tuesday when a raft made of barrels came apart in Horning Duck Lake 12 miles north of Muskegon.

Stone's wife, Beverly, 21, and Jerry Johnson, 23, were also on the raft. The three had just built when the barrels separated.

Police said all three got tangled in weeds. Mrs. Stone swam to shore and Johnson stayed afloat until help arrived.

Keep milk on your table ...it's the pitcher of health

Make milk a meal-time habit, as the wisest families now do. The fresh clean taste of cool milk goes so well with your favorite foods. And it balances your diet, for milk and milk products are one of the four basic food groups you need each day. You never outgrow your need for the nutrients in milk... so keep milk on your table each day...it's the pitcher of health.

KEEP THE "PITCHER OF HEALTH" ON YOUR TABLE!

DOUBLE-WALL MILK PITCHER

comparative retail value \$4.95

...only \$2.00

HOLDS 2 QUARTS!

- Unbreakable double-wall construction keeps milk cool for hours
- Pitcher features dripless spout and remains condensation-free (no "sweat rings")
- Will withstand boiling temperatures and is safe for automatic dishwashers

Arms Talks With Reds Are a Waste of Time

Just about the most discouraging thing facing mankind today is the armament and munitions race. The ultimate target is to slaughter whole nations. The peak objective is to accomplish this by wiping out tens of thousands of lives at a single stroke. Perhaps the objective could more accurately be stated by declaring the intent is to end hundreds of thousands of lives at one fell swoop.

International drawing boards contemplate mass murders that approach a million at a lick. We must calculate on wiping out an entire nation. This is cold-blooded killing beyond the ken of human thinking. But that's precisely where we stand today and the most recent pronouncements of Russians guarantee that it will continue.

No one knows how long. We can't analyze maniacs.

When the current "peace" talks were resumed at Geneva, the Khrushchev minions opened the discussions by announcing baldly they had no intentions of retreating from their former impossible conditions. Things would have to go forward from that point.

Go forward?
What do they mean—forward?

The Russians propose to arrange nuclear armaments so they can continue their own plans in secret. There will be no test ban treaty. It's that simple. They have no intentions of doing a single friendly, honorable thing that will jeopardize their unrelenting struggle towards military domination.

Why do we go through these motions? Why do we gravely sit around with these international plug-uglies and talk about something decent, something uplifting, something noble, lofty and worthwhile?

Why do the rest of us discuss saving human lives when we meet with such soulless butchers? Up to now, every bloody conference has been a hollow laugh.

Why should a globe of nearly three billion people permit a paltry 210 million to call all the shots, make all the rules and decide all the questions? If the balance of the world ever united, the bulk of Russia's slave nations would switch overnight. The Reds could be told what to do—or else.

And "or else" would be methodical extermination—for Russia.

Blood thirsty?
No, no. This is just the pretence of two billion, eight hundred million from the ferocity of a paltry two hundred million—less than one-tenth of the whole.

Observe Anniversary at Girl Scout Roundup

That girls can "rough it" quite as well as boys will be demonstrated beginning Wednesday of this week, when 10,000 teen-age Girl Scouts and their adult leaders start putting up tents at Button Bay State Park, on the Vermont side of Lake Champlain, for the 1962 Girl Scout roundup.

The two week roundup is a major event in the Girl Scouts' 60th anniversary celebration and a fitting memorial as well as to Juliette Low, founder of the Girl Scouting in the United States.

A patrol of eight senior girls will be representing northern Oakland County at the roundup. It was just six years ago that this same Girl Scout gathering was held here in Oakland County of the Highland Recreation area.

"Daisy" Gordon married William

Low, an Englishman, in 1886 and went to England to live. After her husband's death she found an outlet for her energies in the Scout movement, which Sir Robert Baden Powell introduced in England in 1908.

She was active in the girl guides, the scouting movement organized for English girls. Later she returned to Savannah, Ga., and organized the first Girl Scouts in the United States on March 12, 1912.

Today troops are active in more than 10,000 American communities, with almost three million Girl Scouts. Only "senior scouts," age 14 to 17, are eligible to attend the Vermont encampment.

If the estimates we have read are true, the calorie count will not be in force at this picnic. During the 14 days the girls are supposed to drink 129,668 quarts of milk, down 106,962 eggs and consume 23 tons of meat and 5,000 chickens. As a finale they will have 4,000 pounds of birthday cake.

The Man About Town

Female's Haven Freed of Male Martins Ladies Now Rule Roost

BY HOWARD V. HELDENBRAND
The MAT had a nice visit a few days ago with

Mr. and Mrs. Bennie Dahl of 770 Williams Lake Road. They were proud of their Wisconsin variety corn standing about seven feet, planted April 26. The corn was side-dressed just once with 5-20-20.

Of special interest was the bird sanctuary maintained on the 11-acre tract. Its 50 houses are populated by swallows, blackbirds and martins. There's something mysterious about the martins, however, since for nearly three years there has been a noticeable dearth of males—virtually none.

Inquiries of the Audubon Society elicited that the phenomenon was not confined to Michigan. Areas as widely separated as Saskatchewan, Illinois and Ohio reported the same.

Only explanation advanced was that when migrating, often as far as Brazil, males and females fly in separate flocks, and violent and destructive storms might have decimated the ranks of the males.

Maybe so, maybe so. But the MAT has a more likely explanation, to wit: that the lady martins suddenly got a crow-full of the males and moved by the occasional impulse common to females of all species, banished them with the shriek: "Get out—and STAY OUT!"

A well-deserved citation for the Fraternal Order of Police for the Grand Old City? It sponsored recently at North High School for the organization's youth activities and welfare fund. The reaction of the show was the "terrific" when-are-we-going-to-have-more? kind that gladdened the hearts of

Sgt. Lawrence E. LaBar of Drayton Plains, the Order's president, and Officer Karl Kilmer of 224 W. Hopkins ave., chairman entertainment committee.

GOLF ODDITIES DEPT.: Since the inception of the Buick Open golf tournament at Warwick Hills Country Club, Grand Blanc, five years ago, a dealer has offered an automobile to any contestant making a hole-in-one.

For four years, no shooter had made the trip from tee to hole in one swipe. But this year two brave hands in the winner's circle to receive keys to shiny new cars.

Fred Baird performed his miracle on opening day, while

Jerry Barber fittingly enough thrilled the gallery with his ace on windup day. . . . And by way of a quick shift from the sublime to the tragic,

Dave Hill one of the tournament's players, still has the heebie jeebies over his record in reverse—a 6-putt green in the National Open at Oakland, a month ago.

Verbal Orchids to—

Mr. and Mrs. Glenn Walton of 2115 Shellbrook; 56th wedding anniversary.

David Lawrence Says:

Spending No Cure for Cash Ills

WASHINGTON—Everybody, irrespective of party or faction, wants America to enjoy an era of prosperity, but if unadvised counsel prevails at the White House and in Congress, the United States may experience in the next few years its deepest depression of this century.

A dangerous doctrine has lately been warmed up from show-biz days and has been given respectability by advisers to President Kennedy. It is that "spending" by the Federal government, even if it produces deficits, will somehow, by some magic of its own, produce an economic Utopia.

If "spending" were the solution to economic ills, then the United States should still be going through the most prosperous 45-year period in its history.

The idea that mere spending of money produces prosperity is fallacious. It is the way the money is spent which counts—especially whether the funds are used in private investment for productive purposes that last beyond just a short-term period.

The key is not how much is spent, but what the money is spent for. Defense money expended on weapons doesn't develop a high volume of trade, such as ours can spend itself into prosperity through the whole economy. Private spending, on the other hand, is usually for goods that have a long-term value and that multiply the number of transactions in the business world.

A devastating rebuttal of the "spending" theory was made recently by Dr. Raymond J. Squire. He was chairman of the President's Council of Economic Advisers from 1957 through 1960, but his advice wasn't always followed. In a speech on June 18 before the Babson Institute of Business Administration, he said in part:

NOT FAVORABLE
"What recent history tells us is that, if the environment is not favorable to an increase in private spending, an increase in Federal spending, even a large increase, is a well-nigh futile exercise. . . .

"In the first four months of this calendar year, the cash budget of the United States ran a deficit of close to \$10 billion on a seasonally adjusted annual-rate basis. In the comparable four months of the 1958-59 recovery, the Federal cash budget showed a surplus of \$1.6 billion, on an annual-rate basis.

"Yet the unemployment rate has actually been somewhat higher under the recent deficit than it was under the earlier surplus. There were clouds on the economic horizon in those months of surplus in 1959, but it must be conceded that the economy in 1962, under the very large deficit, is far from entirely clear."

Dr. Squire said pointedly that to those "who regard budgetary deficits as a mere or less guaranteed formula for producing a brisk recovery, the present cycle must be a veritable nightmare." He argued bluntly that tax reductions will not by themselves furnish a remedy. He added:

"If there is a need to cut taxes in the expansion phase of a cycle, when we already have a large deficit, then there is equally a need to consider whether we are now spending too much money on programs that make no contribution whatever to our capacity for growth and to consider whether we are doing other things, entirely outside of the tax field, that are tending to suppress private investment spending."

WOST WORK
"If this is what we are doing, and I think it is, then we cannot retrieve the situation with governmental red ink, and very few really sophisticated people will believe that we can."

This is a period of self-examination, and it is becoming clearer every day that "across-the-board" tax cuts or other artificial means will not and cannot of themselves do as much good for the economy as can a healthy reduction in our military expenditures for armament and an avoidance of excessive spending for social-welfare programs.

(Copyright, 1962)

Dr. Harold Hyman Says:

Tags Bear Medical Data, Warn of Drug Sensitivity

A family tragedy inspired Dr. Harold C. Collins to establish a nonprofit organization that has helped 55,000 persons lead a safer life.

Five years ago Dr. Collins' daughter died of shock after an injection of antitetanus serum. Had the doctor known that she would have a reaction to the injection she would have been spared.

Dr. Collins has set up the Med-Aid Foundation in Turlock, Calif. The group provides indelible, stainless steel or silver bracelets or necklaces with engraved markings.

Some messages state that the wearer is a diabetic or taking insulin. Others that he is an epileptic.

Others warn that the person is allergic to some specific substance such as serum, penicillin, morphine and its derivatives or to local anesthetics.

(ARRY BROAD TYPE)
Other emblems carry the blood type in much the manner of Army "dog tags."

Still others state that the wearer is taking a certain drug such as insulin, in the case of an epileptic, or in the case of an asthmatic or asthmatic; digitalis, in the case of a cardiac; one of the curatives, in instances where the blood clotting time has had to be lengthened (following a coronary thrombosis or a stroke).

In each of these instances, the emblem also contains a serial number and three serial numbers, together with the information engraved on the bracelet or necklace, are kept in a central file that is maintained on 24-hour basis at 700 Montgomery St., San Francisco 11, Calif.

The Country Parson

Time was when parents and teachers were hard pressed to find convincing answers for youngsters' questions because they were required to study a foreign language. The modern-day teacher or parent need only refer pupils to recent United States commerce department figures.

Nearly 8 per cent of the profit of American corporations in 1960 was accounted for by their overseas earnings. Many major business concerns rely on overseas operations for a substantially higher proportion of profits. Calculative made more than half its profits from foreign operations. Forty per cent of the Goodyear Tire company profits were earned abroad in 1961, 28 per cent of the Gillette company profits, 17 per cent of Ford's, and 14 per cent of General Motors' profits.

Overseas branches are likely to take on increasing importance. The Commerce Department figures

"No Tax Cut!"

Voice of the People:

'Physical Fitness of Child Is Parents' Responsibility'

A fourth of our children are unable to pass a simple physical fitness test and Kennedy has urged the schools to require more exercise.

Five years ago, teachers were asked to be science experts; three years ago the emphasis was on mathematics. But now we have considered an era where the parents should assume some responsibility.

Turn off the TV set and send the children out to run. Stop driving them everywhere. Let them ride their bikes or walk. Trade in the motor boat for a row boat. Parents must display some initiative and not rely on the schools to perform miracles of physical development.

'Perhaps Birchers Are True Patriots'

In view of the latest outrage by the Supreme Court (banning prayer) the endeavor of the John Birch Society to force the impeachment of Earl Warren seems more reasonable. Perhaps the true patriots and the real Christians really are the ultra-conservative organizations. It is the politically conservative groups which attempt to uphold our Republic's ideals.

The Communists, left-wingers and the red-front outfits have conducted the vicious anti-American campaign against the conservative elements. Persons who wish to sell out to the Communists detest any warning voice raised against them. These leftists are happy to see prayer outlawed.

American

'How Can People Be That Way?'

My son had always wanted a bike and finally we got enough to buy him a used one. He had it a week when it was stolen from the Boys' Club. What's the matter with people?

Mother of a Brokenhearted Son

Another Presents Race Issue View

I want to agree on race improvement. We could use more in this world. Do you look at the side where the Negroes do more wrong than the white people? I'm a Negro and I'm glad I'm brown-skinned. I'm satisfied I came here in 1927. No one ever came to my house and called it nasty and dirty. My people don't own bawls in the garbage can and throw their mothers' bodies in the lake. Let's not forget that the Negro goes to war along with the whites.

Reviewing Other Editorial Pages

Ted's Candidacy New York Herald Tribune

The Massachusetts Senatorial candidacy of Ted Kennedy (which finds even his brother in the White House) in the fall of 1962, more than 1,200 United States corporations either started operations in Europe or developed ties.

The graduate with proficiency in one or more foreign languages is able to offer a growing number of employers a skill of real value. The time is rapidly approaching when courses in French or German will be regarded as "practical" as bookkeeping and chemistry.

Defense Saving New York News

Defense Secretary Robert S. McNamara reports a saving of \$7.6 million in defense spending for fiscal 1963 (begin July 1), and thinks he can bring such savings to an annual rate of \$3 billion in five years.

It's getting these results by cutting out the waste of money, standardizing procurement methods, finding cheap but reliable substitutes for expensive materials, and by getting more out of the money already spent.

Why not start backing away the billions in the areas of foreign aid and domestic giveaways—where, given a real resolve to save money, the economics could be phenomenal?

The Associated Press is entitled exclusively to the use for republication of the material in this column as well as all AP news dispatches.

The Boston Herald
The Senate has come up with what appears to be a safe and sensible compromise on the 125-70 question.

It has added \$350 million to the Administration's defense bill to speed the construction of a new submarine-launched missile, but it has not "mandated" the Defense Department to use the money.

"What we have done," says McNamara, "is to make it possible, just as we did with the B62 last year, for the Administration to spend this money if it finds it can do so wisely."

The Air Force wants to develop the 2,000-mile-an-hour "Mach 3" system as quickly as possible, and the Defense Department wants to proceed more slowly until the feasibility of the aircraft has a long-range bomber has been determined.

The Secretary of Defense has recently ordered two separate studies of the program. One by an all Air Force group, and the other by the Director of Defense Research and Engineering. If the reports of these two groups are favorable, Mr. McNamara will be anxious to proceed quickly with the B70 development.

With the revised defense appropriation he will have the means to do so. Congress can do no more.

Czech Chief in Tight Spot

By PHIL NEWSOM

Some changes may be in the works of Communist Czechoslovakia, beginning at the top. A recent Prague dispatch reported that President and First Party Secretary Antonin Novotny has been rebuffed by his own party politburo and managed to remain in office only after a warning from Moscow that his removal might touch off an upheaval.

If Novotny goes, it will provide an apt illustration of the

dog-eat-dog nature of Communist politics and an example of a man impaled on his own sword.

Among Communist satellite leaders Novotny has been among the most reluctant to accept the de-Stalinization concept first announced by Nikita Khrushchev at the 20th party Congress in 1956 and reinforced at the 22nd Congress last year.

In Czechoslovakia, streets named for Stalin and statues in his honor have remained unchanged, and as

late as February of this year the Czech radio still was mentioning the "Stalin Mine."

Part of Novotny's reluctance to abolish the Stalin personality cult or to relax his harsh repressive measures came from fears that Czech minds might turn back to the happier days of a free Czechoslovakia, under Thomas Masaryk and Edvard Benes.

SEEKS TO STOP RIVAL

In any event, his current difficulties began with an attempt to kill two birds with one stone.

To this end he would pay lip service to de-Stalinization and at the same time eliminate a dangerous rival.

The rival was 48-year-old Rudolf Barak, former deputy prime minister and minister of the interior, whose charm and elastic approach to party doctrine had gained him wide popularity in party ranks.

On April 20, Czech broadcasts disclosed that a military court sitting secretly had sentenced Barak to 15 years in prison on charges of anti-party and illegal activity. A curious aspect of the case was that in a broadcast speech on

Feb. 22, Novotny had accused Barak of misappropriation of funds "seriously jeopardizing the security of our state and national economy" and of ambitions "aimed at seizing political power." Later newspaper accounts eliminated the reference to seizure of power and pictured Barak only as a high-level thief.

The theory for which he was sentenced and which jeopardized the national economy, apparently consisted primarily of sending his family on a private trip to attend the Olympic Games in Rome.

A communique indirectly admitting Barak's popularity said he "ostentatiously popularized his person, stressed his supposed merits and pretended a devotion to the cause of socialism."

Then Novotny's plan misfired. Indignant politburo members demanded that Barak be given a public trial.

Novotny in turn offered to resign and for a time his fate remained up in the air.

His hold on his office may be temporary because in present-day communist "martyrs" sometimes have a way of returning.

Ask Producers OK Cranberry Program

WASHINGTON (U.S. Secretary of Agriculture Orville L. Freeman has ordered a referendum July 22-28 among producers on a proposed federal marketing program for cranberries.

The program would be designed to help stabilize prices and supplies of cranberries grown in Massachusetts, New

Jersey, Wisconsin, Oregon, Washington, Idaho, Minnesota, and Long Island in New York.

The program, drawn up by the Cranberry Institute, was considered at a series of recent public hearings.

The program must be approved by at least two-thirds of the producers of at least two-thirds of the volume grown for market, and by processors who can or freeze more than 50 per cent of the volume canned or frozen.

Animal 'Inmates' Given Reprieve at State Prison

JACKSON (UPI) — Thirty-four 'inmates' of Southern Michigan Prison here were scheduled to get a temporary reprieve today.

But despite their release from prison jurisdiction, they were certain to spend the rest of their lives in involuntary servitude. The 'inmates' are 30 horses

and four mules. They are up for auction today as automation comes to the prison, home of the state's most dangerous criminals. The herd of animals at the prison once numbered 200. But they have been replaced over the years by tractors and other mechanical farm implements.

The Medical Press, established in 1839 and one of the world's oldest medical magazines, is to close down. A spokesman said the weekly no longer made money because of rising costs.

\$1 Billion for Military Awaits JFK Signing

WASHINGTON (AP) — House passage has sent to President Kennedy legislation authorizing \$1,465,672,500 in military construction at home and abroad this year, including \$2,896,000 in Michigan.

The total is \$68,524,000 less than was in an earlier House version of the bill and \$5,100-

more than the Senate originally approved. Aside from the difference in money totals, the major settlement worked out by Senate-House conferees authorizes the Pentagon to expand facilities supporting several unified defense agencies. Some \$2,896,000 in Air Force projects for Michigan are included in the bill.

At the start of the Civil War the Union was linked by 21,000 miles of railroads. The Confederate States had less than 7,000 miles.

Snow Comes Into Miami on Jet Wings

MIAMI, Fla. (AP)—Forty-five pounds of snow landed at Miami International Airport, and the weatherman didn't know a thing about it.

The load, flown in Tuesday from Denver, Colo., by jet, was ordered by a department store for Thailand, died Tuesday.

rehearsal of a promotion project scheduled for next month.

"We want to see how snow behaves in Miami," said a spokesman for the store.

U.S. Official Succumbs

BAR HARBOR, Maine (AP)—Frederic Russell Dolbener, 76, longtime U.S. Department of State official in European capitals and more recently adviser to the Ministry of Foreign Affairs in London, died Tuesday.

Russia Names Jew to Top Planning Post

MOSCOW (UPI)—The Soviet Union today announced the appointment of Veniamin Dymally to the country's top economic planning post. He is the first Jew to hold a top Soviet post in recent years.

The announcement, released by the official news agency Tass, said Dymally had been promoted from

vice chairman to chairman of the state planning committee of the U.S.S.R.

"The planning committee, known as Gosplan, is the agency charged with the planning, organizing and vast state-controlled economy."

Ex-Rail Official Dies

TUCSON, Ariz. (AP)—Charles Hiram Woods, 65, solicitor general at the Atchison, Topeka & Santa Fe Railroad from 1933 to his retirement in 1946, died Tuesday.

Red Newspaper Gives Front Page to K Interview

MOSCOW (AP)—The Soviet Pravda devoted its front page and another to the doctored text of Premier Khrushchev's interview last weekend with visiting American newspaper editors.

The interview appeared under a red banner headline together with stories pointing out the changes.

a photograph of Khrushchev and the editors in the premier's Kremlin office.

The published text was the same as the transcript handed to the editors on Monday. The American newspapermen have complained that certain changes and deletions were made in the text.

Soviet Foreign Ministry press officials, at a reception for the editors Tuesday night, complained privately about Western news stories pointing out the changes.

Walkout of Doctors Averred by Fanfani

ROME (UPI)—Premier Amintore Fanfani prevented a nationwide walkout of hospital doctors last night with an 11th-hour promise to push a job-security bill through parliament within the month.

More than 55,000 doctors and their assistants, approximately 30

per cent of the 85,000 doctors in Italy, had threatened to begin a four-day strike today.

The medical men were demanding that the government fulfill an earlier promise to give them a law guaranteeing doctors their jobs until the age of 70 and assistants jobs until the age of 65.

Last year California built 136,000 homes—22 per cent of the new homes constructed in the United States and two and a half times as many as did New York

Cliburn to Play at Interlochen

World-Famous Pianist to Begin Rehearsals for Benefit Concert

INTERLOCHEN (UPI)—Van Cliburn, talented pianist who became an international celebrity in 1957 by winning a Moscow music contest, will return to the National Music Camp this week to begin rehearsals for a benefit concert here next Tuesday.

Cliburn, just returned from a European tour, gave a similar concert last year at the music camp. The performing raised \$15,000 and paid for construction of the Cliburn Scholarship Lodge. The money raised from rental of the lodge to visitors at the camp is used to provide scholarships to outstanding piano students.

The funds from this year's benefit will go for the purchase of a new grand piano.

Cliburn, who will be accompanied by the 150-piece National High School Symphony Orchestra, will perform Rachmaninoff's Second Piano Concerto. Conductors for the concert will be Dr. Joseph E. Maddy, founder and president of the camp, and A. Clyde Roller, guest conductor from the Amarillo (Tex.) Symphony.

The open air concert in the Kresge Assembly Hall will begin at 8 p.m.

Tangle of Blue Laws Draws Tighter on States

By The Associated Press

A firmer hand is being applied in many areas today to restrict business on Sundays.

In some places, the attempted clamp-downs have run into snags. In others, revised laws or enforcement measures have tended to increase the pressure against Sunday commercial activity.

In a few instances, controls have been eased—either by legislation or court rulings, notably in New England.

Generally, however, most recent shifts seemed to be toward tighter restraints in the South, middle East, Southwest and parts of the Midwest. The Far West went along as usual, with few curbs.

NATIONWIDE SURVEY

This was the picture gleaned from a nationwide Associated Press survey, seeking to gauge the aftermath of the U.S. Supreme Court decision a year ago upholding a number of state Sunday closing laws.

The situation still forms a crazy-quilt pattern of irregular enforcement practices and varying attitudes, some so obscure that they perplex the local courts.

For example, in Kansas and Missouri, with almost identical prohibitions against all but "essential" Sunday sales, Missouri's Supreme Court has held the law valid, but Kansas' Supreme Court ruled it too vague to enforce.

In Kansas, the ropes are drawn comparatively.

In Missouri, stepped-up enforcement has brought numerous arrests. In the past year, including

one mass arrest of 75 discount department store employees in the St. Louis area, and pending federal litigation.

CROSS THE RIVER

A newsman, turned down on a recent Sunday night when he tried to buy an alarm clock in Kansas City, Mo., reports: "The clock suggested I cross the river into Kansas City, Kan."

Efforts have been made in numerous states to define or clarify the regulations. One such move being pushed in Kansas.

In several cases, steps have been taken to expand the prohibitions in detail.

Discount stores have been the frequent target.

Over all, in varying ways and degrees, recent developments appear to have brought tighter surveillance in many areas, including Texas, Virginia, Louisiana, New York, Maryland, Pennsylvania, Kentucky and Nebraska.

SOME COMPLICATIONS

Similar moves, however, have foundered on complications in some places—in Georgia, Oklahoma, Tennessee and Illinois.

In contrast, however, there has been some relaxation of the so-called "blue laws" including those of Rhode Island, Vermont and Massachusetts. They have lifted bans on various activities, Massachusetts on an extensive list.

Maine's new law, in effect this spring, also added more exemptions and provisions for "local options," but its operation has been snarled in lawsuits, brought mostly by suburban "discount" department stores which are not exempted but have remained open for the most part.

The revised Massachusetts law, which went into effect this month, allows the opening of retail stores, gift shops, bakeries, florists, small groceries and other stores with one or two attendants.

REPAIR WORK

The revamped law also permits homeowners to make repairs and do other work around the house on Sundays, if it doesn't change a nuisance. Massachusetts' changes seem to be working smoothly, in the early phase.

In Rhode Island, an added exemption allows sale of boat parts at marinas on Sunday. Remaining features of the law have been strictly applied, checks indicated. In Vermont enforcement appears stringent, with discount house merchandise generally be-

ing banned from Sunday marketing.

Across the country, many states were putting new teeth into Sunday closing measures. Even in Massachusetts, with its moderate requirements, harsher penalties are provided for violators.

In Virginia, a newly strengthened law forbids, in detail, the Sunday sale of virtually all commodities except food prepared for eating, home-sold farm produce, hams, mobile homes, and a few other items, under special conditions.

STRICT OBSERVANCE

Subsequent attempts this year to liberalize the law, to allow sale of all foods, hygienic materials and articles for minor household repairs, failed. Observance of the law generally has been strict.

One of the first of the new arrests was of a painter, convicted and fined for painting lines on a parking lot in Charlottesville on a Sunday.

Texas has a newly elaborated statute forbidding sale of 42 specific items, including clothes, home appliances, luggage, motor vehicles, toys, cameras, hardware, jewelry, tools, cameras, radios, television sets, radios, refrigerators and other items.

Although aimed primarily at discount stores owned by out-of-state interests, the new law also affects many other establishments such as drug stores. Some now spread covers over shelves of canned goods on Sunday.

GENERAL COMPLIANCE

Checkups, by special police squads and others, indicate general compliance.

Like laws in at least 14 other states, mostly where provisions have been overhauled in modern times, the Texas restrictions apply either on Saturday or Sunday, giving an alternative to Jews and others observing Saturday as the Sabbath.

But each corporation must close all its outlets simultaneously, on one day or the other. Austin discount firm with two stores has split into two corporations, with one store running Saturdays, the other Sundays.

Vermont's new law also allows Jewish merchants, who remain closed on Saturday, to operate on Sunday. So does a new law in Omaha, Neb., but its more detailed regulations have met stout opposition, in court and out.

One drug store advertised: "We can sell cigarettes, but we can't sell school supplies. You are well-served to see what you cannot buy."

Court injunctions have upheld enforcement of the law, pending any outcome of appeals to the district court cases challenging its constitutionality.

OTHER EXCEPTIONS

Other states, allowing exceptions for those observing Saturday as Sabbath, include Connecticut, Indiana, North Dakota, Iowa, Kentucky, Maine, Michigan, Ohio, Oklahoma, Virginia, West Virginia, Wisconsin and Massachusetts.

Controversy over such a provision stalled action by the 1961 Maryland Legislature on a revised uniform Sunday closing law. Numerous arrests and police crackdowns have marked the situation in Maryland since last year's Supreme Court ruling sanctioning its Sunday prohibitions.

TWO GUYS SUIT

Ironically, one of the losing defendants in the big court suit, a discount house called "Two Guys," south of Baltimore, still is operating on Sunday under an out-of-court, local compromise permitting small two-man stores to run.

"Two Guys" simply took out separate business licenses for each of its departments, although under one roof, and kept going. The device is now in a new court fight.

In Kentucky, a number of discount houses and other stores, operating on Sundays in Louisville for several years, became the target for a suit designed to keep them closed.

The case went to the state's highest court, which ruled that Sunday sales are illegal.

In New York City, police have launched a citywide crackdown on Sabbath law violators. In one swoop last Sunday, one upper Manhattan precinct issued 82 summonses, more than twice the normal number.

AWAITS SIGNATURE

In Louisiana, the legislature has newly extended its Sunday closing law to discount houses, appliance stores, furniture and clothing stores. The law will become effective 20 days after Gov. J. B. Davis signs it.

In the past, Louisiana's Sunday closing law concerned liquor establishments. It has been largely ignored in the southern part of the state, but observed in the Baton Rouge area.

In Pennsylvania, where an amended 1959 Sunday closing law was upheld by the Supreme Court, Philadelphia's police department this spring began a crackdown on Sunday sales and has maintained regular checks since.

The amendments specifically prohibit sale of clothing, furniture, housewares, furnishings and appliances, hardware, tools, paint, building supplies, jewelry, luggage, watches, musical instruments and a host of other items.

CAN SELL 'NECESSITIES'

Novelty, souvenirs and "necessities" may be sold. Just what constitutes "necessities" has produced some varying opinion, as it has throughout the history of such laws.

A typical provision in many states and localities says: "All labor on Sunday is prohibited, except works of necessity and charity."

Nonetheless, Pennsylvania, long considered a stronghold for blue laws, is pressing its new stipulations, which include a fine of \$100 and costs for the first offense, \$200 for the second.

Nashville, Tenn., last fall passed a new closing law, also spelling out a long list of prohibited items. A circuit judge upheld the law, reversing a city judge ruling. The conflict appeared headed for the State Supreme Court.

In Illinois, the legislature last year sought to ban Sunday sales of automobiles, but the State Supreme Court ruled the action unconstitutional as class legislation. Some localities such as Evanston, permit only limited commercial activities on Sundays.

ACQUITTED BY JURIES

In Oklahoma City, authorities last winter tried repeatedly, but in vain, to get convictions for blue-law violations. Juries acquitted the defendants. Discount houses are now operating full steam on Sundays.

Similar attempts were made, unsuccessfully, in Lawton, Okla., where arrests ended in acquittals. In Georgia, enforcement of a 37-year-old statute remains spotty throughout most of the state. This month, Columbus, Ga., police announced a rigid crackdown, but it was called off after protests about interpretation of the law.

The Georgia code provides: "Any person who shall pursue his business or work of his ordinary calling on the Lord's Day, works of necessity or charity only excepted, shall be guilty of a misdemeanor."

Against the old question arose: What's necessary?

Moves are expected in the next Georgia Legislature to clarify the law.

Most Far Western states, including Arizona, California, Oregon and Wyoming and Nevada, as well as Wisconsin, no longer have any specific law concerning Sunday closing.

They simply prescribe any day district court cases challenging its constitutionality.

Hawaii's only Sunday law forbids bars from opening until noon, and bans package sales all day.

Nevada, for a long time had an unnoted—and unobserved—law on the books forbidding Sunday horse racing, but after the law was noted in an Associated Press summary, the legislature last year repealed it.

Sunday racing had gone on uninterrupted.

In Colorado, a drive for wider Sunday restrictions seems in prospect for the legislature next January, with the rise of discount houses providing the main impetus for the move.

Seeks Further Dixie Seats

GOP's Battling in South

WASHINGTON (UPI) — Republicans in the South are fielding an unusually large crop of candidates for Congress this year, a survey showed today.

And political strategists of both parties agree that the Republicans have a good chance of making some congressional gains in Dixie this year.

In the 11 states of the old Confederacy there will be 106 House seats at stake in November's election, same as in the last five congressional elections. Reapportionment to reflect shifts in population since 1950 will give Florida four more seats and Texas one more seat in the next Congress.

However, this will be offset by a loss of two seats by Arkansas and a loss of one seat each by Alabama, Mississippi and North Carolina. There will be no change in seats held by Georgia, Louisiana, South Carolina, Virginia and Tennessee.

A comparison with the two previous elections shows a startling increase in the number of seats being contested this year by Republican candidates:

Elections	1962	1960	1958
GOP incumbents	7	7	7
Other seats contested	50	35	15
Uncontested seats	49	64	84

Republicans now hold two seats in Virginia and two in Tennessee. They hold one each in Florida, North Carolina and Texas. Although Florida and North Carolina seem to offer the best chance for GOP gains in the South, some observers believe Republicans conceivably could win election this year in Alabama and South Carolina.

Texas, however, has accounted for most of the upswing in GOP candidates. Republicans this year are running candidates in all but four of Texas' 23 seats. They conceded 16 Texas seats to the Democrats without a fight in 1960 and failed to field candidates in 18 congressional districts in Texas in 1958.

Here is a run-down on the 1962 situation in other states:

North Carolina — forced to primary districts to eliminate one seat, the Democratic state legislature sought to knock out Republican Rep. Charles R. Jones by combining his district with that of Democratic Rep. A. Paul Kirtlin.

But in parceling out traditional Republican sections of the western part of the state into other districts, the remapping has placed in jeopardy from GOP challenges seats of three other Democratic incumbents.

Alabama — The state lost one seat through reapportionment and, since the legislature failed to remap the districts, eight representatives will be elected in state-wide balloting.

Republicans are running only three candidates. Some Democratic strategists fear that one or more of the three conceivably could finish in the first eight.

Florida — The state gains four new seats as a result of reapportionment. Democrats privately concede that Republicans have a good chance of picking up one of the four new seats.

Georgia — Republicans are contesting only two of the 10 Democratic-held seats. They are trying to unseat Reps. James C. Davis and John W. Davis.

South Carolina — Republicans are contesting only one of the six seats, that being vacated by the retirement of Democratic Rep. Courtney Riley.

The Democratic candidate served as Democratic state campaign manager for GOP presidential candidate Richard M. Nixon in 1960. The Republican candidate is a former Democratic state legislator.

BOMB'S A DUD — A few anxious hours were spent by White Lake Township officials yesterday until the 41mm mortar shell, being held by Supervisor Edward Choyz, proved to be harmless. A demolition team from Ft. Wayne, Detroit, said the round had been dis-

armed and was hollow. It was found by James J. Clark, Jr., 3713 Woodland Drive, Highland Township, in back at the Highland Recreation Area where he works. The 23-inch shell was dated 1953 but it could not be determined how long it had been exposed to weather.

Pontiac Press Photo

To Ask Tax Hike in Walled Lake

City Council Orders .3-Mill Request Put on Nov. 6 State Ballot

WALLED LAKE — A tax increase will be asked of voters in the Nov. 6 state election to establish a municipal library here.

The City Council last night directed that a proposal requesting .3 mills based on state equalized valuation be placed on the ballot.

The new millage would provide about \$2,600 annually for the operation and maintenance of the city library.

A community library already is operating in the city but it is in financial difficulty. The library, adjacent to city hall, would be taken over by the city.

Defeated by one vote was a move by the council to support the volunteer-staffed library by allocating \$200 to pay past and future rent until the November election.

All members of the council, with the exception of Harold A. Kelly, favored the temporary support. Five votes are required to allocate money from the general fund.

Councilman Richard Watkins said before the vote that unless the money was allocated at this time he feared the community library would "fold up before the city can get around to establishing a municipal library."

Councilmen expressed disappointment on the outcome of the vote.

Ex-Councilman Finds New Job in Danger

WALLED LAKE — The new job of Marshall E. Taylor, who resigned from the City Council this month to work for the city, may be in jeopardy along with those of several part-time city employees.

The duties of building, heating and electrical inspectors would be combined.

While Taylor actually doesn't hold any of the titles, he was appointed by Harold Millsap, who worked a number of various assignments that fall under the building and water categories.

Elmer Conrad is the heating inspector and Glenn Salow, the electrical inspector. The building official's post is vacant.

Councilmen took action to create the new post after it was brought to their attention by Millsap, that while he (Taylor) has done an excellent job so far, he really isn't qualified as a building inspector.

"COULDN'T JUSTIFY" Millsap told the council he thought that since Taylor wasn't trained in the building field he couldn't justify the fact that Taylor receive 50 per cent of the building permit fee for inspection.

Along with the percentage the inspector receives \$1.50.

In lieu of the percentage and since Taylor was doing a "capable" job on his assignments he has handled, Millsap suggested that the wages be increased.

Instead, the council recommended all the jobs be united. The council ruled all the inspectors, including Taylor, can apply for the job and if any one of them qualifies he may be hired.

The council ruled all the inspectors, including Taylor, can apply for the job and if any one of them qualifies he may be hired.

The council ruled all the inspectors, including Taylor, can apply for the job and if any one of them qualifies he may be hired.

CHRISTINE J. JACOBS

Mr. and Mrs. Arthur Jacobs of Azusa, Calif., formerly of Clarkston, announce the engagement of their daughter Christine Louise to Donald Hutchens of Covina, Calif., son of Rev. and Mrs. Paul Hutchens of Hayward, Calif. No wedding date has been set.

Man to Stand Trial for Attempted Theft

Leonard F. Schultz, 49, of 36 Shadywood St., Avon Township, charged with attempting to rob Hazel Park laundromat's coin box, will stand trial on the charge July 25 before Hazel Park Municipal Judge Robert C. Baldwin.

A plea of not guilty was entered yesterday by Judge Baldwin for Schultz, who has a laundromat of his own in Ferndale.

He was accused by one of the owners of the Clean-Coin Laundromat who said he caught Schultz attempting to open a coin box with a key Saturday morning.

Plan to Attend Annual Meeting

25 Women to Represent County at Homemakers Conference Next Week

Over 25 Oakland County women will be attending the 33rd Annual Homemakers' Conference at East Lansing July 24-27.

The centennial of the Land Grant College movement will be celebrated opening day by a reception, where Mrs. Gerald Shaler of Davisburg and Mrs. William J. Thier of Pontiac will be among the hostesses dressed in centennial costumes.

Highlight of Wednesday's program will be a panel discussion on "Building Stronger Families in Michigan," followed by small discussion groups.

Local women to receive valuable leadership training at the annual event include Mrs. Kenneth Gilson and Mrs. Tibergh of Pontiac, Mrs. John Aspinall of Highland, Mrs. Frank L. Walker of Milford, Mrs. Arthur O'Hara of Union Lake, Mrs. Shaler, Mrs. Charles Swift, Mrs. L. W. Wilson, and Mrs. Edward Schultz of Davisburg; Mrs. Kenneth Hatterfield of Bloomfield Hills, and Mrs. Elie J. LeMay of Royal Oak.

Others will be Mrs. Herman Frost, Mrs. Victor Vetrinakis, Mrs. Charles Dill, Mrs. Gerald Hershberger of Troy, Mrs. Robert Sanford of Lake Orion, Mrs. Charles Brucker, Mrs. Arnold Scholz, and Mrs. Oliver Moses of Oxford and Mrs. Mary Hardy, county extension agent, home economics, of Rochester.

Courses that will be studied range from "Introduction to Psychology" to "Today's Art."

Southfield to Consider Changes in Zoning Law

SOUTHFIELD — Emergency revisions in the zoning ordinance to make possible construction of multiple dwellings in the city will be the main object of a special meeting of city councilmen and planning officials here Saturday.

A number of other amendments to the city's zoning ordinance also will be considered at the 10 a.m. meeting at the Parks and Recreation Building on 10½-Mile Road.

Attending the meeting will be Mayor S. James Clark, city attorney James M. Ginn, Planning Commission chairman Robert Shawalter and George Villanueva and Ronald Clark of the municipal planning consultant firm of Villanueva-Lerman & Associates, Inc.

The amendments can't wait until a master zoning plan now in preparation is ready, according to Clark. He is expected to report on the master plan Oct. 1.

Chief problem is the lack of any provision for multiple dwellings in the city's zoning ordinance. A number of requests for rezoning to permit multiple dwellings have been turned down by City Council because no zoning classification exists to permit them.

Council last week turned down a rezoning request by Oak Park builder Jack E. Rose, who had planned to construct three apartment buildings on a ½-acre parcel of land Southfield Road north of Nine-Mile Road.

To cost some \$3.5-million dollars, the apartment buildings were to include a 14-story structure and two seven-story apartments, with a total of 192 units.

A petition signed by some 130 nearby residents and property owners protested the proposed rezoning, threatening a lawsuit if Council had rezoned.

The multiple dwelling problem is but one of many problems arising from the city's zoning ordinance.

The city has been in court a number of times during the past few years on lawsuits involving zoning change proposals.

Six public hearings on a variety of zoning change requests from residential zoning to other classifications are scheduled for tonight at a special council meeting at School No. 10 on 10-Mile Road.

Price-Ralph Rites

Repeat Nuptial Vows

AVON TOWNSHIP — Katherine Jean Ralph and Alvin Roger Price were united in marriage in an afternoon ceremony Saturday at St. Paul's Methodist Church, Rochester.

Rev. J. Douglas Parker read the double-ring service.

Eccentric to the altar by her father, the bride wore a traditional floor-length gown of silk.

Attending the bride as matron of honor was Mrs. Thomas McCauley. Bridesmaids were Mrs. Fred Garrett Jr. of Chicago, Ill., Marilyn Price, sister of the bridegroom, and Susan Rock.

Peggy Hansen, cousin of the bride, was flower girl.

David Price assisted his brother as best man. Groomsmen were Ned Ralph, brother of the bride; Kenneth Shaw of Pontiac, cousin of the bridegroom, and Mike Marino of Rochester.

A reception was held in the church parlors immediately following the nuptials. In the fall the newlyweds will reside in Tallahassee, Fla., where the bridegroom is attending Florida State University.

MRS. ALAN R. PRICE

Two Get Merit Awards for Saving Boy's Life

WHITE LAKE TOWNSHIP — Certificates of merit were awarded last night to two township residents credited with saving the life of a 4-year-old Southfield boy who nearly drowned in Lake Neva July 4.

Robert A. Prior Jr., 20, 853 Ardelle Drive, and Howard Compton, 37, 7016 Baccaye Road, were presented the township citations by Supervisor Edward Choyz.

The fast action by Prior in pulling Denton Waller out of the lake and Compton's prompt action in resuscitating the young boy, according to White Lake Township firemen.

The boy and his parents, Mr. and Mrs. Joe Waller, 3969 Walheim St., were visiting Compton when the accident occurred.

Denton was playing in the lake with several other children in foot-

deep water when he stepped into a four-foot drop-off.

His disappearance went unnoticed until Prior, who was visiting next door to Compton, saw the boy floating face down in the water.

The screams of the other children when Prior carried the boy ashore brought Compton to the scene.

Compton used the artificial respiration method he had learned only two days before to revive the boy before firemen arrived.

Wixom's Ex-Mayor New C. of C. Head

WIXOM — Former mayor Donald Brooks was installed as president of the Wixom Chamber of Commerce last night, succeeding Robert C. Kellogg who took office as vice president.

The installation ceremony was held at the Hickory Hill Golf and Country Club, County Clerk Daniel T. Murphy was the guest speaker.

Frank Russell and his wife, Minnie, continue as treasurer and secretary, respectively, of the one-year-old organization.

Named directors were Elwood Grubb, Paul DePodesta, Ben Schneider, Ted Carlson, Frank Geller, John Lutz and Lloyd Preston.

State '62 Road Toll 720

EAST LANSING (AP) — Traffic accidents have killed 730 persons in Michigan so far this year, provisional figures compiled by state police officials today. The toll at this date last year was 779.

'Astronaut Would Welcome Qualified Gal'

Not Woman Haters, Says Glenn

WASHINGTON (UPI) — America's first man in orbit John H. Glenn Jr., testified today that when a qualified woman shows up for space exploration he and other spacemen "will be happy to have her aboard with open arms."

But Glenn, astronaut Scott Carpenter, and top officials of the National Aeronautics and Space Administration (NASA) agreed it would not happen any time soon.

Testifying at a house space subcommittee hearing on alleged sex discrimination in space, they denied there was any specific bar against women as astronauts.

They said the simple fact was that no women had qualified, and none were "likely" to become "right qualifications, including previous test pilot experience."

Rep. James C. Fulton, R-Pa., accused NASA and the astronaut team of taking a "protective attitude" toward women, safeguarding them against the risks and also the excitement and thrill of space flight.

'PROTECTING PROGRAM'

"We're protecting the space program," Carpenter replied. "Against women," Fulton shot back. "It's the same old story — trying to keep the program safe for the men keeping women out of it."

Glenn said he was "not" anti any particular group. "I'm just pro-space."

But he ruled out women astronauts for now at least by testifying that jet test pilots form the best reservoir for space talent.

Women are not permitted to be jet test pilots.

Widow Pleads

for Killer's Life

Victim's Wife Admits Threats Influenced; but Doomed Man 'Changed'

CHICAGO (UPI) — A murder victim's widow whose life has been threatened revealed her stand today and asked Gov. Otto Kerner to show mercy for condemned killer Paul Crump.

Mrs. Veronica Zukowski admitted that two letters threatening death to her and her family played a part in changing her mind on whether Crump should die in the electric chair.

But she said she has also come to believe that Crump, 32, has become a changed man in the nine years he has spent in prison since the robbery slaying of her husband Theodore.

"I can't put my finger on a man who is different," she said. "It's possible that after nine years he isn't the man of 1953. In that case I think he shouldn't get the chair."

Mrs. Zukowski said she had written a letter to Kerner asking that Crump's life be spared. Kerner already has called an extraordinary meeting of the Illinois Pardons and Parole Board for July 30 to consider Crump's last-ditch plea. The final decision on whether to live or die is up to the governor.

Crump, a Negro, has based his appeal on grounds that he has become a rehabilitated man since he was sentenced to death nine years ago for the killing of Zukowski, an armed guard at the Chicago stockyards.

Michigan Pilot

Stays With Jet Until City Safe

LONDON (AP) — The Air Force has commended a Detroit pilot who stayed with his burning jet fighter long enough to ensure that the plane's crash would not injure others.

The U.S. Air Force said Lt. L. C. Farrell "took his life in his hands" by maneuvering the Supermarine from the rooftops of the English town of Woodbridge. Though he could have bailed out over the town, he stayed with the plane until he could head it out over open country.

Farrell was on a routine training flight with the 79th U.S. Tactical Fighter Squadron. He was not injured.

Dixie Officials

Tell of Moves to Stop Estes

WASHINGTON (AP) — Two Alabama farm aid officials testified today they moved in quickly to stop Billie Sol Estes when he tried to transfer cotton acreage allotments from their state.

Bernard L. Collins, executive director of the Alabama State Agricultural Experiment Station and Cotton Marketing Committee, and program specialist Fred M. Acuff told the story to the State Investigations subcommittee.

The subcommittee, headed by Sen. John L. McClellan, D-Ark., is studying Estes' relations with government agencies to see if he received favored treatment.

Mercury astronauts are seasoned jet test pilots.

Three leading women pilots made it clear yesterday that the feminine sex wants to be a part of NASA's space exploration.

Mrs. Jane B. Hart, wife of the Michigan senator, deplored the "condescending little smiles and

misleadingly humorous winks" evoked by any mention of this subject.

"It seems to me a basic error in American thought that the only time women are allowed to make a full contribution to a better nation is when there is a manpower shortage," she told the subcommittee.

She said women weigh less, consume less food, need less oxygen, are more radiation-resistant and less prone to heart attacks than men.

Miss Cobb, who already has passed many astronaut tests, noted that woman pilots had volunteered to become the first of their sex to make a space flight.

She said women weigh less, consume less food, need less oxygen, are more radiation-resistant and less prone to heart attacks than men.

Miss Cobb recalled that Navy doctors who were running the tests voted to headquarter for permission to use some equipment that would show how female astronauts differed from male astronauts.

Back from Washington came the reply: "If you don't already know the difference, we refuse to put any money in the project."

But, as noted by Miss Cochran, training an astronaut is an expensive proposition. The money would be wasted if the trainee went to the delivery room instead of the launching pad.

All things considered, Mr. Glenn said, Miss Cochran's suggestion that women be trained as space crew members, rather than as pilots.

"LOOK OUT!" This would cast them in their traditional role as backseat drivers.

"Look out! You almost hit that asteroid!"

On the other hand, the entire Conservative member of Parliament, Lord John Kerec, is to ask the government July 30 to pass a law authorizing doctors to apply euthanasia in such cases.

Kernan, father of two children, called the British frigate Amethyst to safety after it was attacked by Chinese Communist forces in 1959.

In the House of Lords tomorrow, Lady Edith Summerville will also ask the government to permit doctors to end pregnancies where the mother has taken thalidomide during pregnancy.

The tranquillizer was removed from the British market seven and a half months ago. It is only when taken during the second month of pregnancy that it is likely to damage the baby.

By August an estimated 400 babies will have been born in this country with missing or deformed limbs. Many more have suffered from the drug in West Germany, Sweden, Belgium and Australia.

In the United States, a skeptical woman doctor in the Food and Drug Administration was credited with keeping the drug off the American market.

The Washington Post said that 4-year-old Dr. Frances Oldham Kelsey regarded the drug's safety as unproved and kept declining an application by an American firm to market the sedative in the United States.

The firm withdrew its application in November 1961 after it learned of what happened in Europe.

Law, who was buried at county skullage to try to cover up Kennedy's failure to provide defense work for Michigan," he asserted.

But Democratic State Chairman John (Joe) Collins said Republican lawmakers failed to meet their responsibility.

Collins agreed with McNamara that the legislature failed to provide sufficient funds for research and development in Michigan industry.

Law, who died at 61, lived in a county-owned home at 1064 Holbrook Ave., Waterford Township.

Mrs. Haydon described Law as an "easygoing, cool, untroubled man with tuberculosis for many years. He worked as a 'general handy man' and 'watchman' at the county welfare building, she said.

The note Law left said the \$2,500 was to be used for funeral expenses.

The remainder, the note said, was to be left to two daughters, one in Johnston, Pa., and the other in Chicago, Ill.

Law also mentioned the names of two other persons who should receive part of the money if they attended his funeral.

Echo to Drift by Tonight

The Echo 1 satellite will be visible from Pontiac tonight at 10:23, 45 to 46 degrees over the northern horizon, heading south-east. In the early morning hours, it will return at 12:16 and again at 2:23 in the south, 85 to 89 and 77 to 78 degrees above the horizon, also moving to the southeast.

Committee OKs

More FBI Men

House Unit Approves Bill Financing Justice, State, Commerce Dept.

WASHINGTON (UPI) — Funds for employment of 145 additional FBI agents and for expansion of the Voice of America were approved yesterday by the House Appropriations Committee.

They were included in a \$1,902,065,700 money bill financing for the fiscal year the State, Justice and Commerce departments, the U.S. Information Agency and several related federal programs.

The total was \$102,115,300 less than President Kennedy requested but \$138,706,544 more than was provided for the fiscal year that ended June 30.

All of the allotments are subject to House action scheduled for Friday.

Largest share was the Commerce Department's \$781,695,000, an increase of \$78,640,000 over Kennedy's request, and the only department to request more in the entire bill. A bookkeeping transaction accounted for the increase.

Instead of giving the Commerce Department borrowing authority of \$115,480,000 for Area Redevelopment, the committee approved a cash appropriation for that amount. It did so to avoid what it called "back door spending."

Actually, the committee ruled that Commerce Department's direct appropriation requests by \$26,834,000.

Large allotments approved were \$40 million for meteorological satellite operations and \$25 million for ship subsidies.

The Justice Department's \$305,727,000, a cut of \$2,573,000, included the entire \$130.7 million requested by the FBI. This would provide for employment of 145 extra special agents.

A Bloomfield Township investment analyst was fined \$22,500 Detroit Circuit Court yesterday for failure to file an income tax return for 1958, 1957, and 1956.

Sydney Borden, 41, 1880 Bedford Road, was given six months to pay the fine on the total income of \$63,000 by Judge Fred Kaess.

Borden, who pleaded guilty to the charge in February, was formerly a vice president of the First of Michigan Corp. and a trust officer at the National Bank of Detroit.

Liz Taylor Flies to Switzerland as Filming Ends

ROME (UPI) — Actress Elizabeth Taylor flew to Geneva today after 10 months of work here on the film "Cleopatra."

She was the last major personality in the \$30-million movie to leave Italy. She and Eddie Fisher had bought a villa at Capri, Switzerland, last March before the breakup of their marriage.

Miss Taylor refused to tell newsmen at the airport how long she would remain in Switzerland and whether she would return to her mother's life in Rome.

Richard Burton, who plays Marc Antony in Miss Taylor's "Cleopatra," flew to Egypt two days ago for a final battle scene in the desert near Alexandria.

The hearing was set by Hyman Parker, hearings officer of the state board which administered the vote.

Parker said today that the Hospital and Sanatorium Employees Guild, Chapter 5, had challenged "a number of the votes cast."

Chapter President Harold J. Russell said today he had an affidavit from at least one woman who was not an employee but appeared on the voting list submitted by the hospital to the board.

Russell added he would ask the state attorney general to investigate the matter.

He also complained to the board that a union observer was refused admittance to the hospital grounds where the vote was held.

Schultz commented today that "everybody" who voted "is an employee."

U.N. Chief Says Two Women Slain Before Troops Fired in Air

LEOPOLDVILLE, Congo (UPI) — The chief of the U.N. Congo operation intimated today that two Katangans women reported killed during an attack on U.N. forces by Elisabeth Katanga may have been shot by fellow Katangans.

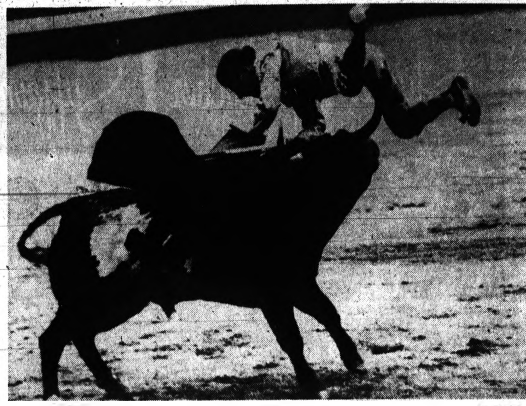

U.N. Chief Robert Gardiner of Ghana said yesterday's shelling apparently occurred before U.N. Indian troops mowing the roadblock besieged by thousands of women had been ordered to open fire.

U.N. headquarters in New York asserted there was reason to believe the demonstrations were staged by President Mobutu Sese Seko Kondeko Ilunga Katanga government.

Tshombe accused the U.N. force of gunning down the two women and wounding a boy when several thousand Katangan women and children attacked troops manning the roadblock. The U.N. roadblocks were put up last week to halt movement of Katangan troops into the capital.

SEK: KATANGAN PILOT

Gardiner said that U.N. officers had moved toward him a difficult situation. He made clear he thought it possible Katangan pilots might have fired against their own people.

A Million Dollars to Relieve Itch of Piles

It is estimated that over a million dollars a year is spent on varied remedies to relieve itch of piles. Yet druggists tell you that cooling, astringent Peterson's Ointment soothes pile torture in minutes, 60c box or 5c tube applicator. Peterson's Ointment gives fast, joyful relief from itching. Be delighted or money back.

They're Trim Because They Walk, Says TV Teacher

Flabby Midwesterners, Look at Your NY Cousins

By PHYLLIS BATTELLE

NEW YORK — The idea that the people of hectic New York City lead a physically healthier life than the people of the more rustic Midwest might sound a bit ridiculous. But it's not.

"New Yorkers walk places, and they walk briskly. They've got things to do, and people to see and appointments to keep. The traffic is so bad they know if they take a cab for just a few blocks, it will not only cost

money, it's slower than walking — so they get on their two feet and sprint.

"In the Midwest, it's just not done. You go to see a neighbor only a couple of blocks from your home, and you drive. It's the habit."

This cogent philosophy is offered by the cutest trick on TV in years: Miss Debbie Drake, mistress of ceremonies (and what salubrious ceremonies they are) of "The Debbie Drake Show," a nighttime health and exercise program carried by 30 U. S. stations.

MEN BEAD ALONG

It has been said that women exercise along with Miss Drake, but that men — including executives — who now order their lunches brought in to TV-side — only sit and watch.

It's not true, maintains Debbie, whose personality is as homespun as her figure is not.

"Men do not just watch the show, they exercise too. There's a great trend now toward man-and-wife exercising together, so now I have just started doing physical analysis for men — and in the first two weeks of this, I've had five thousand letters. Not croquet letters, but advice-asking letters."

"It shows, don't you think, that men are just as interested in building up their physique, or trimming it down, as women are."

Miss Drake, who hails from

Dallas and now lives in Indianapolis, is delighted with this trend toward couples exercising together. (The family that breeds together ends together?) "And it's even more fun if the children join in," she says eagerly. "I'm trying to encourage viewers to set aside just 15 minutes a day, that's all you need to keep in shape, and use it for exercise."

She recommends that this period come, at least for families where the man and/or wife works, in the late afternoon-before dinner.

I'LL TASTE GOOD

"That's when you think you're real tired. But if you exercise then, and get your blood circulating again, you'd be amazed how much greater you'll feel. And you'll find dinner taste good!"

Isn't that a catch? She was asked. Wouldn't that just build up a huge appetite for an overstuffed stomach?

"That's all psychological!" Miss Drake said. "But here's what I recommend: have a big salad first, as they do out West. A salad will sort of fill you up, even if before dinner you think you could eat the whole world. By the time you come to dessert, you won't be very hungry."

Before the family starts on an exercise program — which incidentally doesn't have to be regimented squatting and bending

— "a game like badminton is just as fine" — Debbie recommends that:

(1) Everybody in the family record his weight; (2) Everybody record his measurements, and (3) Everybody drive in a swim suit and have his picture taken.

After a few days, "You can't

help seeing the change — and that makes it more fun!"

TV's No. 1 physical fitness queen also feels that a proper psychological attitude helps. "I always do a little exercise before every meal, even if it's only a little deep-diaphragm breathing. I feel I've got to earn my food. If you can get into that spirit, you'll probably stay fit."

U.S. Protests as Red Jet Buzzes Plane Near Berlin

BERLIN (AP) — The United States has protested to Soviet officials against the buzzing of an American plane by a Soviet jet in one of the West Berlin air corridors Tuesday.

It was the first Soviet harassment of Allied traffic in the air corridors since last winter. It came only hours before President Kennedy called in the Soviet ambassador in Washington and told him the West has no intention of withdrawing its troops from Berlin.

The U. S. mission here said the American plane was a DC3 of the U. S. Federal Aviation Agency on its way from Hamburg, West Germany, to West Berlin's Tempelhof Airport to check navigation rules.

The Soviet MIG swooped within 400 feet of the DC3's nose just after the American plane had crossed the Iron Curtain border into Communist East German territory. The MIG then took a position off the wing of the U. S. plane.

The MIG withdrew after a few minutes. The DC3 continued to Berlin and made an extensive flight over the city, checking radio beams and other flight aids, before landing.

There were no indications that shots were fired, that the Soviet plane signaled the DC3 to land or that the two planes made radio contact. The American spokesman said he could not furnish the U. S. pilot's name or whereabouts, the markings on his aircraft or anything about the flight that might have made it of special interest to the Russians.

The spokesman said, however, that the Russians had advanced word of the flight through a flight plan filed with the four-power Berlin Air Safety Center, one of the few places in Berlin where the British, French and Americans still have regular contact with the Russians.

Adopts School Budget

FLINT (AP) — The Flint Board of Education has adopted an operating budget of \$19 million for the 1962-63 school year, an increase of \$1 million over last school year's budget.

State Unit Draws Lines on Politics

Civil Service Body Puts Limit on Activity by Its Workers

MARQUETTE (AP) — The State Civil Service Commission has drawn the lines state workers must not cross when it comes to political activity.

A directive on partisan political activity was issued at a commission meeting at Marquette. It follows recommendations of a study committee headed by David C. Pence of Ferndale, past president of the Michigan State Bar.

Nathan Robinson of Detroit, commission chairman, said the directive would not change any civil service rules.

"It restates prohibited activities spelled out in the rules and also outlines activity which has been permitted over the years," he said.

Classified state workers are prohibited from:

— Serving as members of a political party committee.

— Serving as a delegate or officer in any national, state, district, or county political convention.

— Soliciting or paying political assessments.

— Being a candidate for elective office, either partisan or nonpartisan with the exception of nonpartisan school board or municipal charter revision commission positions.

Wake up rarin' to go

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain — you want relief — want it fast! Another discomfort may be mild bladder irritation, following wrong food and drink — often setting up a restless uncomfortable feeling.

Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving to ease torment of nagging backache, headache, muscular aches and pains. 2. by soothing effect on bladder irritation. 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the large size. Get Doan's Pills today!

Report Winnie Spent Another Good Night

LONDON (AP)—Sir Winston Churchill had another good night's rest, Middlesex Hospital informants said today.

The 87-year-old wartime prime minister's recovery from a broken thigh with complications of phlebitis and bronchial infection was apparently continuing well. No formal medical bulletin is to be issued until Friday afternoon.

Sir Winston walked Tuesday for the first time since he broke his thigh bone in a Monte Carlo hotel June 26.

Escapes to Macao Less

MACAO (AP)—The number of refugees from Communist China dropped sharply in the first 15 days of July in this Portuguese colony on the China coast.

A spokesman of the Chinese Nationalist Maternal Refugees Relief Association said only 422 refugees were registered with the association, compared to 1,552 in the corresponding period last month.

Tentative Agreement Reached in Walkout

ROSEVILLE (AP)—A labor-management agreement described as "provisional and tentative" today brought an end, at least temporarily, to picketing around a small plastics plant in this Detroit suburb.

The agreement was announced jointly by Michael Ladney, owner and manager of Detroit Plastic Molding, and George Merrell, co-

director of United Auto Workers (UAW) Region One.

They said the "agreement in principle" was subject to ratification, and withheld specifics. UAW Local 155 President Robert Mills scheduled a "ratification meeting" for Thursday.

The statement followed a seven-hour bargaining session. During the talks, pickets around the one-story plant were reduced in number from more than 100 to "about half a dozen" by police count.

Gold was discovered for the first time in Idaho in 1860.

Only Republicans Can Help State Cut Costs, 6 Say

Six state senators, including Sen. Farrell Roberts (R-Oakland County), promoted "pay-as-you-go" government yesterday, but said Michigan could not achieve it without a full slate of Republican officials.

"Unless we get a Republican governor we're going to get more taxes," said John Stahlin of Belding, spokesman for the six at a GOP luncheon.

He prescribed a "positive ap-

proach to economy in government... scientific management" and the hiring of private efficiency experts to study the "quality and necessity" of all state agencies.

"It is inconceivable that this would work with legislative and executive branches controlled by opposing parties," he said. "This program is predicated on the election of a Republican governor, a Republican lieutenant governor, a Republican administrative board, and a Republican legislature."

Other senators present were John Fitzgerald of Grand Ledge, Frederic Hilbert of Wayland, Harry Litwisch of Benton Harbor and Stanley Thayer of Ann Arbor.

Paris Returns Man to Face 136 Charges

NEW YORK (AP)—New York diamond merchant Charles Nagler has been returned here from Paris to face grand larceny and jewelry charges.

Nagler, 32, fled to France last year and was found by Paris police in February. He fought extradition.

Nagler, whose last address in this country was in Roslyn, N.Y., was indicted last March by a

grand jury on 43 counts of grand larceny and 93 counts of forgery.

The indictment accused Nagler of fleeing various banks and discount houses between October 1960 and March 1961. The district attorney said he left more than \$300,000 in uncovered notes.

Nagler is married and has two children.

99 Reach Hong Kong

TAIPEI, Formosa (AP)—Ninety-nine refugees from Communist China arrived today by ship from Hong Kong for resettlement in Formosa.

State OKs Bond Sale for Highway Funding

LANSING (AP)—Sale of a \$25-million state highway bond issue authorized since the state launched a massive highway building program in 1957 and brings the total of bonds sold to \$448 million.

The New York investment house offered the lowest interest rate at 3.5500 per cent. Smith Barney & Co., Inc., of New York, was the only other bidder at 3.5500 per cent.

State Highway Commissioner John C. Mackie said the bonds will be sold in the fall to help

finance 37 state highway projects costing a total of \$521 million.

It is the 12th bond issue authorized since the state launched a massive highway building program in 1957 and brings the total of bonds sold to \$448 million.

Mrs. Otterbein Dressler, 2384 Timberline Road, Southfield, yesterday took office as president of the women's auxiliary of the American Osteopathic Association in Chicago.

Mrs. Richard N. Sheppard of Bay Village, Ohio, was installed as president.

No Union Card? No Job

Young Movie Makers Discouraged

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — "How can we start a new wave in American films?" asks a would-be young movie maker. "We can't even start a ripple, because we can't get in the unions."

This is the kind of complaint you hear over and over from young hopefuls, frustrated as they emerge from cinema schools at local universities. Their hope and enthusiasm begin to die as they find

studio doors locked to them for lack of a union card.

Many work at top-paying non-union jobs on the fringes of the movie business. Many give up in despair and shift to other lines of work.

The loss of this new creative talent worries some in the movie world, among them Otto Preminger. Says he: "Only new blood can keep anything alive. The film industry is in danger of losing its vigor because it is difficult for new talent to get into some unions."

NOT UNION MEMBER
A cause celebre in this matter is a cinematographer named Hass

Claims New Backing in Nomination Bid
George Lennox is claiming new support in his bid to win the Democratic nomination for U.S. congressman from Oakland County.

Lennox said yesterday he has received the personal endorsement of James G. Kelleys, the Democrat's nominee in 1960 for the same post.

Kelleys, now living in Fairfield, Conn. and employed by a Washington, D. C. aircraft firm, wrote Lennox with his endorsement early this month, Lennox said.

State Branch Endorses GOP's Romney, Gust
DETROIT (UPI)—The Michigan branch of the Young Americans for Freedom has announced endorsement of George Romney and Rockefeller T. Gust Jr. for governor and lieutenant governor in the Aug. 7 primary elections.

Romney is running unopposed and Gust was running against "Cavey" Reid of Detroit, a former lieutenant governor, and state Sen. John Stahlin of Belling.

State director of the organization George Mc Donnell said, "We see George Romney as an outspoken and articulate leader who can bring meaningful government back to Michigan... just as important, able candidate for the second spot in what he is a responsible conservative."

Mc Donnell said the group has a membership of 1,000 in the state, many of them college students.

claim that the town is dying from creative old age.

Fred Zinnerman comments: "You can't blame the unions for trying to protect their members in an emergency when so many are out of work. Yet the industry is in danger of dying from lack of an infusion of talent. There is not a constant flow of new, fresh points of view."

What's being done? Several leading "film makers" have proposed labor-management conferences to attempt some streamlining of production. So far the unions have shown no willingness to alter the status quo. Whether they will need to depends on whether Hollywood can find some other way to halt the downward spiral of film production.

To get into the Directors Guild, it helps to be the son of a director. A new director needs only a job and \$2,000 initiation fee, but assistant directors are admitted only a few at a time—one per studio per year. Preference is given to directors' sons.

OUT OF WORK
The case against admittance of new members is offered by these figures from the guild: 200 of the 450 assistant directors are out of work.

A T. Denison, business manager of the Electrical Technicians' local says "In 1954-55 we had 2,800 men working 5 million man-hours a year. Now we have 1,800 men working less than a million man-hours a year. Does anybody wonder why we discourage new members?"

Meanwhile, the average age of movie crews goes higher each year, and Hollywood's critics

Languid Lake Living Right Up Their Alley

In the shade of an old apple tree, the George Zannoth family eats breakfast each morning from early May until late in the fall. The orchard is a bower

of beauty when apple blossoms are in bloom. Sherry (left), Mr. and Mrs. Zannoth and Debbie make their home on Watkins Lake Road.

Pontiac Press Photo

Out-of-Staters Visiting

News From Around the City

Returned to their home in LaPorte City, Iowa, are the Herbert Clarks who came for the recent marriage of her sister, Dorothy J. Burch, to John O. McMahon. They have been visiting Mrs. Clark's mother, Mrs. Charles Burch of Monroe Street.

House-guests of the Thomas McMahaons of Judson Street, parents of the bridegroom, were Dr. and Mrs. William Currier, Wallaceburg, Ont.; Mr. and Mrs. Robert Michaels, of London; and the Thomas Flanigans of Niles.

Former Pontiac residents, Mrs. Robert Stillwagon and daughters Bonita and Kay of Midland, are house-guests of her mother, Mrs. Frank Downing of Mt. Clemens Street.

Beverly Krogman of Coral who will become the bride of Alram 3.C. Raymond Nichols on Saturday has also been visiting Mrs. Downing, her fiancé's grandmother. Alram Nichols who is home on leave is also visiting Mr. and Mrs.

John Owen of Sashabaw Road, his mother and stepfather.

The Wendell Wightmans of Oklahoma City, Okla., and their children Robert, Corine and Richard, have been visiting his parents, the Burrell Wightmans of Scottswood Avenue and Mrs. Wightman's parents, the Charles W. Seamans of Menominee Road.

Airman 2.C. John Stoehr has returned to his base at Watertown, N.Y., after visiting his mother Mrs. Elizabeth Stoehr at the home of her parents Mr. and Mrs. Milton Hill, Roseberry Court, Drayton Plains. They formerly lived on Sanderson Avenue.

Helen Ramsdell of Draper Avenue has been awarded the 1962 National Foundation Health Scholarship in Nursing. Helen is a June graduate of Pontiac Central High School and will attend the University of Michigan this fall. The scholarship has a total value of \$2,000 over four years and is financed by contributions to the March of Dimes. She is the daughter of the W. B. Ramsdells.

Mr. and Mrs. Morris J. Segal (Bernice Gardner) of Des Moines are parents of a son, Martin, born June 24 in the University Hospital, Ann Arbor.

The baby's grandparents are Roy Gardner of Rockwood and the Isaac Segals of Los Angeles, Calif.

Mr. and Mrs. August Johnson of Bloomfield Hills just returned from a seven week tour of Denmark and Germany. While in Copenhagen, they visited Mr. Johnson's relatives. They went over by boat and returned by plane.

Mr. and Mrs. Frank Diener have returned to their home at Scott Lake, Drayton Plains, after visiting friends and relatives at Winn, Elk Rapids, and Boyne City.

Wading out into Lake Angelus to give the canoe a push are Chris Archangeli of Birmingham (right) and Rosalie Lake of Lake Angelus Shores Road. Bruce Norton of Raskob Street and Rosalie's sister, Cathy, hold on to picnic baskets. The four are headed toward Welcome island for lunch.

Parents Should Reconsider

'Scarecrow' Unfair to Gal

By ABIGAIL VAN BUREN

DEAR ABBY: I know my parents mean well but they are not on my side in a very important matter.

I used to like a boy named Dick, but I lost interest in him. My parents are crazy about Dick and have practically made him a member of the family.

They have told him he is welcome to come over any time which he does.

I would just as soon not have him around the house all the time as other boys stay away when they see his car parked outside.

My parents say he comes over to see THEM, not me, and I don't have to pay any attention to him. Do you think this is fair to me?

SHELLY

DEAR SHELLY: Your parents may "mean well" but they are certainly not being fair to you.

Explain how Dick's car is a "scarecrow" keeping more desirable birds away and perhaps your parents will reconsider and change their tactics.

DEAR ABBY: You always preach that children should "honor their parents." I don't want to seem heartless, but it is my experience that people usually get back what they give.

Just because they happen

to be parents doesn't entitle them to "respect" they haven't earned. I know a widow who cries all over town that her children ignore her. Actually all her life she made trouble for them with her wicked tongue and evil imagination.

Now they want nothing to do with her. And who can blame them? Be fair, Abby, and print this to show the other side of it.

OLD BUT NOT LONELY

DEAR ABBY: I recently graduated from secretarial school and got a job as secretary to a man who is old enough to be my grandfather.

When I take dictation, he pulls my chair near his. Several times he has pressed his knee to mine. I thought it was an accident at first, so I just moved my knee.

Now I know it is no accident! How can I put a stop to it without making an embarrassing accusation or getting fired?

NEW GIRL

DEAR GIRL: There are more than knees involved here. Start looking for another job or you'll be up to your neck in trouble.

CONFIDENTIAL TO LULU: You should have walked home. You can always buy a new pair of shoes.

DEAR ABBY: Let me be the first to join Irene's campaign against telephone solicitation. I work nights and need to get my rest during the daytime.

I was awakened this afternoon by a man who told me he had heard that I was interested in buying "siding" for my home. Abby, I live in a basement dwelling. Now where would I put siding?

CONSIDERING AN UNLISTED NUMBER

How's the world treating you? For a personal, unpublished reply send a self-addressed, stamped envelope to ABBY, care of The Pontiac Press.

Former Pontiac Miss Married in Kansas Rites

Former Pontiac resident Grace Cowley of Kansas City, Kans. exchanged wedding vows with Jim G. Lacoock of Topeka, Kans. in the First Methodist Church, Topeka. A church reception followed the ceremony performed by Rev. Albert Green.

Daughter of Mrs. Charles Cowley of Seneca Street and the late Mr. Cowley, the bride chose waltz-length white silk organza over Chantilly lace for the chapel ceremony. A crown of seed pearls held her bouffant veil of silk illusion. She carried a small white Bible topped with white orchids and roses.

Jennie Pratt of Sterling, Kans., who was maid of honor, wore pink chiffon with lace overskirt, and bridesmaid Eunice Young of Farmington appeared in blue chiffon and lace. Both carried white roses.

The new Mrs. Lacoock is a graduate of Sterling College, Sterling, Kans. The bridegroom, son of the late Mr. and Mrs. T. J. Lacoock, Chapel

Hill, N. C., is an alumnus of the University of North Carolina. The couple will reside in Topeka.

Mrs. Cowley attended her daughter's July 8 wedding with Mrs. Howard Smale of Pontiac.

Do It Yourself

You can make your own softening cream for the callused spots on your skin by using thick soapsuds whipped up with a couple spoonfuls of baby oil.

Missionary Meeting Arranged in Church

A missionary meeting was held in the First Church of God, Fellowship Room. A short business meeting was led by Mrs. E. D. Johnson.

After the meeting adjourned a demonstration was presented. The refreshments were served by hostesses Mrs. Elmer Freer, Mrs. Nathan Hargett and Mrs. Douglas Thayer.

Nuptials Held in Birmingham

Couple Honeymoons in Mountains

Honeymooning in the Pocono Mountains are Peter F. Benedetti Jr. and his bride, the former Judith Carol Rickard who were wed Saturday morning in Holy Name Church, Birmingham.

Rev. Robert Monticello officiated at the nuptial Mass. Receiving some 200 guests in the Maplewood Club, Royal Oak were the newlyweds, and their parents, the Claude J. Rickards of South Cass Lake Road and the senior Benedetti of Upton Road, Troy Township.

Re-embroidered Alencon lace enhanced the bodice and overskirt of the bride's ponceuse-line gown which swept into a chapel train. A tiara of rhinestones, pearls and crystals, secured her bouffant silk illusion veil. White orchids and Stephanotis rested on her white prayerbook.

Vivian Benedetti, the bridegroom's sister, was maid of honor. Mrs. Loren Eby, Dayton Plains, served her sister as bridesmaid with Jean Tincan-

non. Their dresses of maize crepe over tulle featured high slit-trout necklines, V-backs and bell skirts. They carried yellow carnations.

Debbie Chenoweth of Clarkston was flower girl and Joey Ricchia of Detroit carried the rings.

Best man was Richard Bonchard, Birmingham. Larry Rickard seated guests at his sister's wedding with Ted Worbel Jr., St. Clair Shores.

Mrs. Rickard chose orchid silk organza over tulle and corsage of purple Cymbidium orchids for the wedding. The mother of the bridegroom clipped white orchids to her sheath dress of moss green silk chiffon over tulle.

The couple will live in Warren.

CAROL JANE ASHER

November vows are planned by Carol Jane Asher, daughter of Mrs. Robert W. Asher of Clarkston and Walter R. Asher of Watkins Lake, and Theodore A. Bridgman, son of the Lawrence Bridgmans of Milford. Both attended Northwestern College, Minneapolis.

Has Annual Dinner

The Hawaiian Garden in Holly was the setting for the 5th annual dinner of the Nebo Social Club recently. Mrs. Elden B. Mudge Jr. of

Clarkston attended as guest for the evening. Tentative plans for a family picnic in August were discussed at the home of Mrs. Helen Waller of Dwight Street following the banquet.

"Something to remember the BOH membership by" Irving A. Duffy (left) told departing Bloomfield Open Hunt Club manager and his wife Mr. and Mrs. Bert C. McIntire at the going-away party given them by the club members. The McIntires leave this weekend for

Pompano Beach, Fla., where Mr. McIntire will be general manager of the Golden Falcon. Mr. Duffy was president when the McIntires took over the club's management 10 years ago. John Emery Jr. (right) is this year's BOH president.

BOH Fetes Departing McIntires

Club Manager, Wife
Off to Florida; Past
Presidents Join In

Past presidents and most of the Bloomfield Open Hunt Club membership gathered to give club manager and his wife Mr. and Mrs. Bert C. McIntire, a royal send-off to Pompano Beach, Fla.

Mr. McIntire has been associated with the BOH for the past 10 years. He and his wife depart this weekend for the Florida sun and his new position as general manager of the Golden Falcon.

Representing the club presidents with whom Mr. McIntire worked during his tenure at BOH were Albert A. Clark, Irving A. Duffy, Charles D. Pierce, James F. Pedder and William O. Bridge.

Others attending were Mrs. William O. Bridge, Mrs. Charles D. Pierce, John C. Emery Jr., president of the club, and the Thomas J. Kings.

Still more well wishers included Mr. and Mrs. Roland S. Withers, Mrs. Howard Mardel, Mr. and Mrs. Fred V. Davis and Mrs. Lucille Whit.

Mr. Duffy, president at the time the McIntires first took over BOH management, presented Mrs. McIntire with a pearl necklace. Mr. McIntire received an engraved watch.

The Fair Way

Take Great Care in Selecting Clubs

By SANDRA HAYNIE
Written for SNA

Clubs are as important to a golfer as brushes are to a painter.

They should be selected with the same care and consideration of the job each is supposed to do. Have confidence in your clubs. They should be tailored to your game.

I was lucky at the start because when I began to play, at 11, I was about knee high to a halfling. Standard clubs wouldn't fit me.

After I had pattered around long enough for my father and me to find out just what what my game would be, he had a set made especially for me.

When I got bigger and could use standard clubs, I selected them by a process of elimination. Balance, weight and shaft length are important.

There are scientific gadgets for fitting clubs to players, but usually you can determine the length that suits you by the length of your arms and how far you stand from the ball.

A short woman's arms may be the same distance from the ground as a tall one's and they can use the same length clubs. Short players with short arms tend to stand farther from the ball than tall ones and usually take a flatter swing.

Reaching for the ball, they may find clubs with a long shaft best suited to their needs. Balance can best be determined by experimenting with various kinds.

Clubs should be heavy enough so you feel them when you swing and so light that they are not cumbersome or unwieldy and do not throw the burden of the swing on the arms.

The size of the grip must be just right for your hands. While I believe in selectivity, I am in favor of matched sets.

Usually if one club in a set fits, the rest will, too.

NEXT: The grip.

Soak Dishes

Baking dishes will come clean easier if you put them to soak in hot soap or detergent suds while still warm from the oven. A stiff brushing will remove even stubborn cooked-on food at dishwashing time.

Bride Rolls By

Well-Balanced Wedding

LITTLE ROCK, Ark. (AP)—It was a wheeling wedding party for the Howard Hydes.

The 23-year-old groom, a sergeant at Little Rock Air Force Base, met his bride, the former Billy Jean Simmons, also 23, at a roller rink here eight months ago.

So when romance bloomed and the wedding date was set, it was decided skates would be appropriate.

The bride, the groom, the minister, and all bridesmaids wore skates for the affair Tuesday night.

Vetoes Bill, Blaming 'Legislative Intrusion'

LANSING (AP)—Gov. Swainson has vetoed a bill regulating vessels carrying passengers for hire because of an amendment requiring that rules and regulations under the act must be approved by the legislature before they can become effective.

"Such an action represents an intrusion of the legislative branch into the authority of the executive branch and, as such, violates adherence to the separation of powers," the governor objected. It was Swainson's ninth veto of the current legislative session.

JAMES DENFELDER

New Superintendent Is Veteran Educator

James Denfelder, named acting superintendent of Waterford Township schools effective August 18, has lived and worked in the township for 24 years.

Denfelder, 52, began teaching industrial arts in the Drayton Plains school in the fall of 1938. He also coached base-ball and basketball at the school which then had ten grades.

He became principal of the Drayton Plains school five years later and in 1948 was named an administrative assistant in the school district.

In 1951 Denfelder became assistant to the superintendent and served in this capacity for the past 11 years.

Married and the father of two daughters attending Waterford Kettering High School, Denfelder and his wife, Ruby, reside at 3961 Lotus Drive.

Denfelder will succeed William A. Shuck who has served as superintendent of Waterford schools since 1945.

Shuck announced his resignation July 2. He will leave the system Aug. 18 and assume duties as superintendent of Wayne County schools Aug. 20.

City Crime Rate Eases Slightly

Fewer Homicide, Rape Cases Contribute to Six-Month Decline

Pontiac is experiencing a slight but steady drop in the amount of crime reported in the city.

The Pontiac police Department said in its monthly report that a total of 1,605 crimes, ranging from homicide to auto theft, were reported here during the first six months of this year.

This figure is 55 less than the 1,663 offenses handled by the department from Jan. 1 to June 30, 1961.

In a year-end report issued in January, the department said its total of 3,265 crimes for the entire 12 months of 1961 was also a slight improvement over the total 3,350 offenses for 1960.

The department also stated that 30 per cent of the crimes reported during the first six months of this year have been solved, an 8 per cent increase over the 22 per cent of cases solved for the same period last year.

Fewer cases of homicide, rape, larceny and auto theft accounted for the lower figure this year.

From Jan. 1 through June 30 this year there have been 76 auto thefts, 918 larcenies, one rape and one homicide.

The January-June total last year included six homicides, six rapes, 964 larcenies and 31 auto thefts.

Increases occurred in three other categories in a comparison of the six-month figures.

The number of robberies rose from 38 last year to 94 this year, aggravated assaults from 125 to 138 and burglaries from 336 to 367.

However, the department showed its greatest improvement from 10 to 20 per cent—in the solution of burglaries.

Jobs Meeting Asked With Defense Dept.

LANSING (AP)—The chairman of a joint legislative committee on economic growth has asked for a meeting with Defense Department spokesmen on the issue of why more defense production jobs aren't coming to Michigan.

Rep. Gilbert E. Hurley, R-Ann Arbor, wired Defense Secretary Robert S. McNamara noting he held a meeting on the subject with Midwest congressmen. Hurley said he would like to schedule a meeting of his committee with Defense Department advisers on Aug. 10, either at Lansing or Ann Arbor.

Housing units with full indoor plumbing increased from 27.7 million to 41.3 million between 1950 and 1960.

When Civil War Reached Into Tennessee

Salute to Old Glory Saved Southern Unit

By HAL BOYLE

WALLAND, Tenn. (AP) — In America's war of brother against brother a hundred years ago, a detachment of Confederate cavalry once saluted the U.S. Stars and Stripes — and thereby unknowingly saved their lives.

This odd and little-known incident, documented by Miss Inez Burns, a local historian, happened early in that long ago civil strife that tore the nation sunder.

Turbulent Tennessee — the last state to secede from the union and the first to be readmitted — was divided in loyalty.

The sentiment in the slave-holding

flats was pro-Southern. But many of the tradition-minded

mountaineers, whose ancestors

had fought valorously for in-out of those mountains."

dependence in the Revolutionary War, were strongly pro-Union.

FLYING OLD GLORY

Bitterness developed when Confederate troops stationed in these foothills of the Great Smoky Mountains were ordered to disarm the local populace. The angry mountaineers, who cherished their squirrel rifles as a constitutional right, began holding Union rifles and erected flagpoles from which they defiantly flew Old Glory.

Learning that a Confederate officer, a Lt. White, was to lead his troops on a gun-seize mission, a local judge warned him that he would encounter the Stars and Stripes floating from a pole in a narrow mountain pass.

"Now, let me ask you not to disturb that flag," he advised. "The mountain men placed it there. It belongs to them, and if you leave it undisturbed, you will be kindly treated on your trip. But as sure as you touch it or interfere with it, you will have to get in-out of those mountains."

Later Lt. White recalled:

"I said nothing to the men about it, and as we went up the narrow dells, suddenly we came to the opening, and there floated at the top of a tall pole the Stars and Stripes in all its grandeur.

HALTED SQUAD

"I looked around and saw a number of the men with their guns raised as if to shoot. I halted the squad and made them a little speech, telling them to lower their guns. That was the flag under which we were born, and under which our fathers had fought, and many of them died.

"While we were engaged in efforts to establish a new government, and were fighting under a new flag, still that was the flag of our fathers, and let us honor it for its history and for the memory of the blood poured out so freely by our brave ancestors in its defense. Instead of doing it any injury, I proposed that we salute it.

NEWS TRAVELED

"After a brief silence the circle was broken and, forming two, we went on. We knew nothing of anyone being in sight, but the news of our saluting the flag went faster than either."

for than we traveled, and appeared to be known spontaneously all over.

"We were never treated with more hospitality and kindness by any people. They prepared us diners of the best they had, fed our horses, took us into their homes, and were lavish in their acts of kindness. But they did not bring out their guns, and we could not find them."

What Lt. White didn't know at the time was that armed mountaineers had lurked in ambush on each side of the gap as the Confederates rode up. He concluded his story by saying:

"We afterwards learned that bonnet that old flag had saved us from a bloody reception, where it would have been almost a miracle if any of our party would have been left to tell our side of a sanguinary contest, and instead had led us to a most kind and hospitable treatment."

INSIDE TRAP

"As we saluted the flag, without our knowledge we stood inside of a trap ready set, and all that was needed for us to spring that trap was any insult that we might offer to that banner."

You can ride through that same mountain gap today and see Old Glory flying—and everybody salutes it now. But of course, you can still see the Stars and Bars, too. They haven't forgotten that of our saluting the flag went faster than either."

Reveal T. R.'s Letter Attacking Pacifists

NEW YORK (AP)—A letter in which Theodore Roosevelt denounced the professional pacifist of his day and advocated military training as a means to prevent war was made public yesterday by Columbia University.

The letter, which the university said had never been published, was dated Aug. 5, 1916—a time when there were increasing indications this country would become involved in World War I.

The former Republican president wrote the letter to Marie Mattingly Meloney, a magazine editor.

The letter told Mrs. Meloney: "There are a good many things that America needs, if Santa Claus could only give them."

"Too proud to fight" was a pacifist slogan in those days.

"2. That every decent young man should have a family, a job, and the military training which will enable him to help keep this country out of war by making it dangerous for any ruthless military people to attack us."

"3. That every youngster may have a good and wise mother; and every good woman a child for her sons."

"4. That we may all of us become an efficient, patriotic and and nobly proud people—too proud either to inflict wrong or endure it."

"Good luck: "Always yours, Theodore Roosevelt."

The letter was presented to the Columbia University Libraries by Paul L. Franken, a Columbia alumnus.

Adrian Jaycees Cited

OAKLAND, Calif. (AP)—Adrian, Mich., was an honorable mention here Tuesday in the fourth annual Jaycee Community Development Seminar.

Traffic Toll Cost \$128.7 Million

State Mishaps for 1962 Tallied by Safety Body; Deaths 715 to July 16

LANSING (AP)—Traffic accidents in Michigan have cost \$128.7 million so far this year, the National Safety Council estimates.

The council arrived at its figure by multiplying the 715 traffic deaths through July 15 by \$180,000. This allows for 37 injuries and

29 property damage accidents for every traffic death.

The estimate takes in wage loss, medical expenses and overhead cost of insurance and property damage.

"Even so, the fatalities so far are 68 fewer than they were on July 15, 1961," said Secretary of State James M. Hays, chairman of the State Safety Commission.

The dollar value of highway deaths is only one way to call attention to the costly results of careless driving," he said. "There is no way to chart the pain and suffering of the injured or the problems the relatives of the deceased have for years after their loved ones are gone."

Soapy Lunches With Lord Home, New Chancellor

LONDON (UPI) — Assistant U.S. Secretary of State for Africa Affairs, J. Mennen Williams, dined with British Foreign Secretary Lord Home and newly appointed Chancellor of the Exchequer Reginald Maudling yesterday.

Maudling had been colonial secretary until last week's cabinet shake-up and recently returned from Kenya. Williams arrived here two days ago on a European tour.

A technique to transplant the heart in dogs was reported recently.

See Water Shortage for Virgin Islanders

CHRISTIANSTOWN, St. Croix, V.I. (UPI) — Residents of St. Thomas Island will be without drinking water within 10 days because of an acute shortage, it was reported yesterday.

Authorities said a privately owned water ship which had been contracted to the Virgin Islands government for hauling potable water daily from Puerto Rico had been attached and held in San Juan on a libel and contempt action.

Emergency water stores now are at the danger point, authorities said.

Add Flavor of Almonds to Cereal for Delectable Summer Food

Culinary speaking, "A" is for the accent almonds add. No more than a few drops of almond extract in baking of a scattering of chopped or sliced almonds over a vegetable or main dish produces an inspired effect.

Almonds also play a starring role in breads and desserts. One example is Almond Chiffon Pie, a gossamer filling in a golden corn flake crumbs shell. Garnish this sumptuous creation with crumbs reserved from the crust and toasted sliced almonds.

Another lavish dessert owing its appeal to almonds is Chocolate Almond Freeze. This refrigerator

dessert includes tiny flakes of ready-to-eat nutrition concentrate. Prepare it in a convenient refrigerator tray and serve it in tempting almond-sprinkled wedges.

Blaculi mix adds a time-saving element to handsome Coco-

Piquant Beets

Try this tangy combination with a baked or broiled ham dinner. When making Harvard beets add crushed pineapple. Allow $\frac{1}{2}$ cup of crushed pineapple to one pound of cooked or canned Harvard beets.

Nut Brunch Bread. The simple coffee cake combines the goodness of whole bran cereal and raisins beneath a moist topping of flaked coconut and almonds.

Almond Chiffon Pie
3 cups corn flakes or
 $\frac{1}{4}$ cup packaged corn flake crumbs
 $\frac{1}{4}$ cup soft butter or margarine
2 tablespoons sugar
2 tablespoons unfavored gelatin
 $\frac{1}{2}$ cup sugar
 $\frac{1}{2}$ teaspoon salt
 $\frac{1}{4}$ cup evaporated milk
 $\frac{1}{2}$ cup water
3 eggs, separated
1 teaspoon almond flavoring

If using corn flakes, crush into fine crumbs. Combine corn flakes crumbs, butter and sugar; mix well. Press evenly and firmly around sides and bottom of 8-inch pie pan, reserving 2 tablespoons crumbs mixture for topping. If desired, Chill.
Mix together in heavy saucepan gelatin, $\frac{1}{4}$ cup of the sugar and salt. Blend in milk and water. Cook over medium heat, stirring constantly until gelatin is dissolved. Remove from heat. Beat with rotary beater until well blended. Pour slowly over slightly beaten egg yolks, stirring constantly. Re-

turn mixture to saucepan and cook until thickened, stirring constantly (about 3 minutes). Remove from heat; cool until mixture begins to thicken by setting pan in ice water.
Beat egg whites until frothy. Add remaining $\frac{1}{4}$ cup sugar gradually, beating well after each addition. Continue beating until stiff peaks form. Add flavoring to gelatin mixture; fold in egg whites.
Pour into chilled crust. Garnish with reserved corn flake crumbs if desired. Chill until firm. Yield: 8-inch pie.

Chocolate Almond Freeze
 $\frac{1}{2}$ cup chocolate syrup
 $\frac{1}{2}$ cup sweetened condensed milk
1 cup heavy cream
 $\frac{1}{2}$ teaspoon vanilla flavoring
 $\frac{1}{2}$ cup ready-to-eat nutrition concentrate
 $\frac{1}{4}$ cup toasted, sliced almonds
Combine chocolate syrup, condensed milk, cream, vanilla and ready-to-eat nutrition concentrate. Chill thoroughly. Whip until fluffy and soft peaks form. Spoon into refrigerator tray; freeze. Serve sprinkled with almonds. Yield: 6 servings.
Coco-Nut Brunch Bread
 $\frac{1}{4}$ cup flaked coconut

$\frac{1}{4}$ cup sliced, blanched almonds
2 cups packaged blaculi mix
1 cup whole bran cereal
1 cup brown sugar, firmly packed
 $\frac{1}{4}$ teaspoon cinnamon
1 egg, slightly beaten
 $\frac{1}{4}$ cup butter or margarine, melted
Fruit-Milk Punch
blend together milk shakes, a table-spoon or two of frozen concentrate for Strawberry - Lemon punch. Serve in tall chilled glass topped with sweetened whipped cream and a sprinkle of nutmeg.

$\frac{1}{4}$ cup milk
 $\frac{1}{4}$ cup seedless raisins
Mix together coconut and almonds; set aside for topping.
Combine blaculi mix, whole bran cereal, sugar and cinnamon. Add egg, butter, milk and raisins; beat well. Spread in greased 8x8-inch baking pan. Bake in moderate oven (375 degrees) about 35 minutes.
Remove from oven and sprinkle with coconut-almond topping. Refrigerate about 1 hour. Cut into squares, about $2\frac{1}{2}$ inches each.

By JANET ODELL

★ ★ ★
Years ago we used to simmer salmon steaks gently in salted water, cool them and flake them for an elegant supper salad. If you are afraid that the fish will fall apart while cooking, put it on a plate and wrap it in cheesecloth. Have the water boiling, at first,

Make-Your-Own-Salad Plate
 8 (4-oz.) South African rock
 lobster tails
 8 eggs, hard-cooked

Cut away thin underside membrane and strip off. Gently ease meat from shells in one piece, preserving distinctive red markings. Chill tails in refrigerator. Slice hard-cooked eggs in half.

1 teaspoon sugar
2 tablespoons vinegar
1 teaspoon Angostura bitters

Mix all ingredients together and chill for ½ hour or more to blend flavors.

- 2 teaspoons chopped chives
- 2 teaspoons minced onion
- 1 tablespoons chopped capers
- A 1-pound can salmon, drained and flaked

ever get along without it? Whenever you are fussing about the high cost of living, stop to reflect that canned tuna costs the same or less than it did 25 years ago.

2 cans (6½ or 7 ounces each)
tuna-in-vegetable oil
¼ cup diced celery
¼ cup diced green pepper
1 cup heavy cream, whipped
Sprinkle gelatine on ½ cup of

Always remove the tubes and membrane from kidneys before washing.

Prices effective thru Sat., July 21.
We reserve the right to limit quantities.

Gal Travelers Altogether Too Interesting

PONTIAC — Law enforcement officials say they can't do much about complaints that four nude women have been driving about this western Michigan resort area in a station wagon.

Please, police asked, the next time someone sees the women will they take just a second to look at the license plate?

Drowns in Deep Water

ALGONAC — George A. Bush, 9, of Algonac, drowned Tuesday when he jumped into deep water of the St. Clair River from a raft which had broken loose from its dock moorings. George, son of Mr. and Mrs. Stanley Bush, could not swim.

Stops Constipation due to "Aging Colon"

Relief, doctors say, lies in new laxative capsules that stimulate 3 essential of youthful regularity.

As you grow older, the internal muscles of your colon wall also age, lose the strength that propels waste from the body. Stagnant bowel contents dry out and shrink so they fail to stimulate the urge to purge. Of all leading laxatives, only one Colman's gives you this special 3-way relief.

(1) Colman's prevents the formation of dry, hardened waste for easy passage without pain or strain. (2) It relaxes flabby colon muscles with unique rebulking action. (3) acts gently on the nerve reflex that stimulates the "pass movement" of your lower colon. Colman's relieves even chronic constipation overnight; is so gentle that hospital proved safe even for expectant mothers. Introductory Size 43¢

Reports Saving for the State

Controller Says Plan of Efficiency Reduced Costs by \$2.5 Million

LANSING — An efficiency and economy program resulted in a saving of more than \$2.5 million in the cost of running Michigan government during the past fiscal year. State Controller Ira Polley reported.

Major savings, Polley said, included \$750,000 through a new records-management system, \$300,000 on coal purchases and \$125,000 on gasoline purchases.

The saving in office spacing and filing equipment was attributed to streamlined records management and a regular disposal schedule of more than 75 per cent of the state records.

Coal savings were made through purchase on a basis of payment for actual heating units received according to laboratory reports.

The gasoline savings were made through bulk purchases and a two-cent per gallon discount for gasoline purchased on the road.

Polley also reported Michigan had only 4.2 state employees per thousand population compared to a national 4.8 average.

Michigan was 43rd in the nation in the percentage of increase in state spending during the past five years, he said.

Gov. Swanen commented that the report "gives assurance that state revenues are being expended in a most prudent manner."

CUBANS ESCAPE TO U.S.—Three employees of Fidel Castro's National Agrarian Reform Institute, "tired of conditions in Cuba," flew this single engine biplane to Miami and asked for asylum in the United States. The plane, described as a Russian type, was equipped as a spray plane and loaded with insecticide. Unidentified immigration and airport officials look over the plane.

Northeast U.S. Limp Into 4th Week of Drought

By The Associated Press

A northeastern drought that is drying up farm land and toasting pastures brown has entered its fourth week with mounting pleas for governmental assistance.

Some showers were predicted for parts of the afflicted area to-

day, but many farmers insisted that even excessive rainfall could not undo damage already done.

Secretary of Agriculture Orville Freeman has designated 22 counties in Pennsylvania as federal disaster areas and is considering the plight of 18 other counties in that state.

Eight New Jersey counties have been declared federal disaster areas. Farmers in a 24-county area of New York State are clamoring for similar treatment. The 24 counties represent more than seven million acres and include 38,000 of New York State's 80,000 farms.

A federal disaster area declaration makes it possible for affected farmers to obtain aid in the form of low-interest loans and permission to use lands retired in the soil bank.

WATER HOLDING UP

Several small towns in New Jersey have placed mild controls on domestic water use because of low reservoirs. No community, however, is reported to have a dangerously low water supply.

In New York City, no measurable precipitation has fallen for 21 days, approaching the record of 27 days set Sept. 1 through Sept. 27 in 1884.

The 17 rainless days in July topped the previous July mark of 16 set in 1881.

A New York City official said the city is in no danger of a water shortage, but "that doesn't

U. S. Student Hurt in Crash Improving

MOSCOW — Soviet doctors said today that Dennis Papazian, Detroit student who was injured July 6 in a plane crash in Tashkent, will be able to travel home in about three weeks.

The report was received by Dr. Alexis Davison of the U.S. Embassy medical staff from the Tashkent Hospital where Papazian is being treated.

The hospital said Papazian's condition is continuing to improve. He has a spine injury but the hospital

Yankees Hold Lead as LA Dodgers Slip

By The Associated Press

New York's streaking Yankees held their 3 1/2 game lead in the American League but the Los Angeles Dodgers' National League margin was reduced to a single game over San Francisco Tuesday as Cincinnati drubbed the Dodgers 7-5 and the Giants beat Milwaukee 4-3.

The Yankees nipped Boston 1-0 for their fifth straight and held their 3 1/2 game lead over Los Angeles, which beat Detroit 1-0 as Ken McBride won his ninth in a row. Cleveland slipped 4 1/2 games behind New York, beaten 7-2 by the Minnesota Twins.

Baltimore equalled its longest winning streak of the season, defeating Kansas City 3-2 as Robin Roberts pitched the Orioles to their fifth straight victory. Washington's last-place Senators rose up to slap the Chicago White Sox down twice 1-0 and 1-3.

Philadelphia Phillies swept the eight doubleheader from Houston, 3-0 and 8-2. The victories were the ninth and 10th straight for the Phillies over their Texas cousins, who have now lost 20 of their last 23 games. St. Louis trimmed the Chicago Cubs 6-6. Pittsburgh and the New York Mets were not scheduled.

Ralph Terry's four-inning and rookie Tom Tresh's clutch single in the eighth inning produced the Yankees' fifth straight triumph. Gene Conley lost it when Hector Lopez and Cleve Boyer singled in the eighth and, with two out, Tresh delivered his game-winning single before a crowd of 74,382. Margard at Fenway Park in two years.

Harmon Killebrew drove in four runs, three with his fifth home run in six games and his 22nd of the season, and Camilo Pascual pitched his 14th victory as Minnesota defeated Cleveland. Pascual allowed five hits—one John Romano's two-run homer.

Robert's spaced seven Kansas City hits and Baltimore second baseman Mark Breeding hit his first home run to snap a 2-2 tie and provide the veteran right-hander with his fifth triumph.

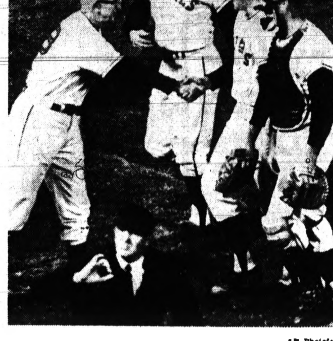

ROOKIE HOMERS
Rockie Don Lock's first major league hit, a home run, accounted for the game's only run as Washington's Dave Stenhouse won a duel from Chicago's Juan Pizarro in the first game. The Senators, led by two hits by Earlley Washburn, won 4-2.

The five-day event is the 2nd consecutive major national test in the Oakland County area, preceded by the Buick Open two weeks ago at Warwick Hills and last weekend's Motor City Open at Kaulwood.

Home runs by Vada Pinson, Leo Cardenas and Hank Foiles powered the Reds to their victory over the Dodgers. Sandy Koufax was charged with the loss. The southpaw, who hadn't been scored on in 15 1/3 innings, was taken out after yielding two runs in the first frame when he developed a blister on his index finger.

UNEARNED RUN
Home runs by Orlando Cepeda and Felipe Alou accounted for San Francisco's first three runs but it was an unearned run in the ninth, via an error by Milwaukee's second baseman Amado Samuel that gave the Giants their one-run margin over the Braves. Stan Musial hit a three-run homer as the Cards came from behind to defeat the Cubs. Bill White had four singles and drove in three runs for the Redbirds. Ernie Banks hit his 23rd homer for the Cubs.

Jack Hamilton and Jack Baldwin combined to shut out Houston in the opener as Johnny Callison homered for the Phils. Frank Torre paced the Phillies to their second game triumph, driving in three runs with two singles and a triple.

NICE GOING — Manager Bill Rigney (left) of the Los Angeles Angels rushes out to congratulate pitcher Ken McBride (second from right) in Los Angeles last night after McBride pitched a three-hitter for his 9th victory in a row, a 1-0 decision over the Detroit Tigers. Other Angels are catcher Bob Rodgers (right) and Billy Moran. It was the Tigers' 5th straight defeat.

Bengals Collect Three Hits in Loss to Angels

Detroit Manages Only 17 Hits in Losing 3 Straight Games

LOS ANGELES (AP) — Three hits in the top of the first, a loss by Cleveland, boosted the Angels to a clear title to second place and chained the Tigers more painfully to the second division.

The three were melted out last night by Ken McBride (10-3). The 27-year-old Los Angeles right-hander who hasn't lost since April 27.

The 1-0 Angel triumph was McBride's ninth straight. It was the Tigers' fifth loss in a row.

Not a Tiger passed second base. The game, counted as a loss by Cleveland, boosted the Angels to a clear title to second place and chained the Tigers more painfully to the second division.

Palmer 'Big Chief' of PGA

Favored Role Habit Already for No. 1 Pro

Recent British Champ Happy to Be Home for PGA Tourney

NEWTOWN SQUARE, Pa. (AP) — Arnold Palmer, the one big Indian chief on this golf course where every hole has an Indian name, faces 17 little Indians Thursday in the opening round of the 44th PGA championship.

Some could qualify as chiefs in their own right—National Open champion Jack Nicklaus, for example, or defending champion Jerry Barber, Gary Player, Billy Casper, Gene Littler, Jay Hebert, or an others who could win almost any tournament.

But no one in recent years has dominated professional golf the way Palmer does. He has to be tabbed as favorite every time he starts. So far this year Palmer has won the British Open and five other U.S. tournaments and lived the U.S. Open title in a playoff to Nicklaus.

TOGETHER AGAIN
An oddity of the pairings sends two out together for the first two rounds over the 7,035-yard, par 35-35 Anahim course in Philadelphia's "Main Line" suburban area. They also played together in the National Open and last in the Western Open. Nicklaus, who had an unhappy week in Scotland while Palmer was registering his latest victory, professes to be delighted.

"If you can play with Palmer and stay even with him or ahead of him, you know you're doing pretty well. He's never far behind," said the blond Ohio youngster.

Palmer seems confident and happy to be back playing with the American golf ball instead of the smaller British ball.

"I'm not tired and I don't have any sore muscles and I'm putting, okay again," he said.

LONG-HITTING DUEL
To the fans, the PGA shapes up as a duel between the two long hitters, Palmer and Nicklaus. The consensus is that if one of them doesn't win, it's anybody's tournament.

It was in the Philadelphia area only four years ago that the PGA championship was transformed from a pro-am match play tournament into a successful stroke play affair. Since then the crowds and the prize money have swelled tremendously.

Although only \$30,000 is guaranteed to the players, the total prize money last year was \$61,000 with \$11,000 going to the winner. (Chances are that the record figure will be exceeded this year if the crowds turn out as expected.)

Tiger Averages
Palmer's average is 70.3, which is 1.3 strokes better than the average of the other 129 players who are expected to start the tournament.

Palmer's average is 70.3, which is 1.3 strokes better than the average of the other 129 players who are expected to start the tournament.

Women Play Saturday Harrison Golf Champ of City Old-Timers

Everyone wins a prize in the annual City Old Timer Golf Tournament, but Ed Harrison, 69, is making a habit of winning the top award.

Harrison won the tournament for the third time in four years by shooting an actual 38 and finishing with a net of 36 and 34. He edged out Harold Haskins who netted a 37.

A total of 36 players competed in the tournament for those 65 and older and prizes ranged from trophies to golf balls.

"My old dependable wedge is the best part of my game," said Harrison. He noted he pulled out Gene Conley last night when Hector Lopez and Cleve Boyer singled in the eighth and, with two out, Tresh delivered his game-winning single before a crowd of 74,382. Margard at Fenway Park in two years.

Harmon Killebrew drove in four runs, three with his fifth home run in six games and his 22nd of the season, and Camilo Pascual pitched his 14th victory as Minnesota defeated Cleveland. Pascual allowed five hits—one John Romano's two-run homer.

Robert's spaced seven Kansas City hits and Baltimore second baseman Mark Breeding hit his first home run to snap a 2-2 tie and provide the veteran right-hander with his fifth triumph.

Palmer Photo Photo

3-TIMER — Ed Harrison, 69, has taken part in the City Old-Timer golf tournament for those of 65, four times and yesterday he was a winner for the third time. He had a gross 38 and won with a net 36 1/2.

In the 10-15 stroke handicap division, Joe Sheldahl and Joe Jr. of Red Run won with 62 and in the 16-30 stroke handicap, Harry and Bob Niederlander of Forest Lake won with a net 58.

In the pro division, Al Watson and Don Tom, of Oakland Hills, were the champions with 76. At a dinner last night, the new Standish trophy was presented to winners. The trophy which has been used for 21 years since the tournament was revived in 1941 by Jim Standish Sr., was retired.

Soviet Fencer Favored to Win Title in Foil
SHEKENS AIRS, Argentina (AP)—Russia's fast-thrusting Genaro Stankovskov was the favorite today to win the individual foil title in the World Fencing Championships.

Stankovskov led a field of right fencers into the final round Tuesday with a perfect 5-0 mark in the semifinals while the last of the U.S. contingent was eliminated.

Ed Richards of Boston outlasted the other U.S. entries, advancing to the quarter-finals. Both he and the starter tournament officials with Russia's Olympic champion, Viktor Shadrin, were eliminated shots that wiped out Whitney Reed.

Reed, holding the No. 1 U.S. ranking and seeded second behind Chuck McKinley for the tourney, joined Davis Cuppers Don Dell and Dennis Ralston on the sidelines.

Dell, a finalist in the meet last year, was defeated by Ray Sienkowski of Michigan, the 1961 Big Ten champion, 6-2, 6-3. Ralston, seeded fourth, lost to Francis Goffinet of Canada 3-6, 7-5, 6-2.

Dell, a finalist in the meet last year, was defeated by Ray Sienkowski of Michigan, the 1961 Big Ten champion, 6-2, 6-3. Ralston, seeded fourth, lost to Francis Goffinet of Canada 3-6, 7-5, 6-2.

Bridge-Lopucki Tie for Honors

Father-Son Tournament at Forest Lake Ends in Deadlock

Father and son, Len Bridge, Jr. and Ed, and Anthony and Bruce Lopucki took the honors in the Golf Association of Michigan Father and Son tournament at Forest Lake yesterday.

Each pair fired 69's to tie for the title. In the low net handicapped division, John and Bill Skov of Western won with a 64. This is up to 8 strokes handicap.

In the 10-15 stroke handicap division, Joe Sheldahl and Joe Jr. of Red Run won with 62 and in the 16-30 stroke handicap, Harry and Bob Niederlander of Forest Lake won with a net 58.

In the pro division, Al Watson and Don Tom, of Oakland Hills, were the champions with 76. At a dinner last night, the new Standish trophy was presented to winners. The trophy which has been used for 21 years since the tournament was revived in 1941 by Jim Standish Sr., was retired.

Stragglers Arrive Home in Slow Mackinac Race

MACKINAC ISLAND, Mich. (AP) — Stragglers in the Port Huron to Mackinac sailing classic continued to arrive today with many of the top performers in the 225-mile race having already headed for Chicago.

At least 15 skippers in the race from Port Huron, the slowest since 1935, passed for better waters on Lake Michigan, also racing to Mackinac Island, than the four-point handicaps that slowed them on Lake Huron.

The overall winner of the Lake Huron event was Felson H. A. Chase, a 24-year-old skipper, who won the race in 1935. He was followed by the 28-year-old Charles Jacobs of Detroit. Second in Class A was Gypsy, piloted by Charles K. of Milwaukee, in the Chicago entries.

Most of the late-comers expected today were in the Class E competition, an all-Detroit affair. In this class, Challenge was declared winner and Casuarina runner-up last night.

Tops in Class B was Meteor II, owned by Detroler Hank Burkard. Second was Fire Feather of Chicago. Third was the 28-year-old Charles Jacobs of Detroit. Fire Fly, a Mount Clemens, Mich., entry, and Biking of Detroit were fourth and fifth.

Detroit entries monopolized the low positions in the Class C competition, led by Gary Bow. Next were Dauntless II, Grace Note, Boushquidder, and Spook II, in that order.

Michigan entries swept Class D, with Velere of Grasse Point taking first. Expirita of Detroit second. Tulsima, of Grasse Point, third. Flying Fish of Grasse Point fourth and Arawak of Detroit fifth.

The Fulton's winning time, corrected, was 49 hours, 55 minutes; and one second, the slowest winner being Roger Allen's Harcourt took 71 hours to finish in 1935.

The winner of the racing class, which leaves heavy handicaps, was the 72-foot Miteira. It's only rival, Steven of Grasse Point, came in nearly 12 hours later, but had an 11-hour handicap and so was a close second. The Miteira, out of Holland, Mich., had a corrected time of 61:42:25.

In Class E, Foulie beat "Crusader," captained by Al Nye arrived late Tuesday and was second behind "Challenge," owned by William McQuay.

Nye reported that the first part of the trip was very rough and that the bulk of Thursday they were becalmed for 14 hours. Because of the length of the race, he noted that the crew arrived "quite hungry" as they ran out of food early Tuesday.

Nye reported that the first part of the trip was very rough and that the bulk of Thursday they were becalmed for 14 hours. Because of the length of the race, he noted that the crew arrived "quite hungry" as they ran out of food early Tuesday.

Down, Down, Down

Maximum recorded depths of the Great Lakes are 1,333 feet for Lake Superior, 925 feet for Lake Michigan, 750 feet for Lake Huron, 22 feet for Lake St. Clair (excluding channels), 210 feet for Lake Erie and 778 feet for Lake Ontario.

Commission Curtails Bear, Bobcat in L.P.

Small Game Seasons Unchanged

The bobcat and early fall bear seasons in the Lower Peninsula will be cut back this year, the state conservation commission decided last week.

Those were the only significant changes in hunting regulations ordered by the commission. Seasons and bag limits will be the same as last year for pheasants, rabbits and ruffed grouse. Trapping regulations on muskrats, raccoons and muskrats also will be unchanged. Deer and waterfowl regulations have not been set.

A decline in bobcat populations led the commission to cut the last month from the three-month season in the Lower Peninsula. It will run from Dec. 15 through Feb. 15.

Department game experts recommended a one-month season. The commission, however, agreed with commissioner Ken Lowe of Marquette, who said a one-month season might bring too heavy a concentration of hunters in bobcat country. The additional month could be cut off next year if it proves necessary, he said.

Bobcats are bountied in the Upper Peninsula.

CUT IN HALF

The early fall bear season, when bears may be hunted with dogs, will run only from Oct. 1 through this year, half of last year's season. A drop in numbers is the reason.

As usual, bears will be legal targets during the deer season.

The commission decided to ban sharpshooting in Baraga, Gogebic, Houghton, Keweenaw and Ontonagon counties, all in the western Upper Peninsula.

The main-land acquisition approved will add 167 acres to the new P.J. Hoffmaster state park along the Muskegon-Ottawa County border. David D. Hunting Sr. and Arthur D. Wood, both of Grand Rapids, have offered to sell the property, with nearly a mile of Lake Michigan frontage, for \$145,000.

Acquisitions at Sturgeon Point state park in Alcona County, Erie state game area in Monroe County and Holly recreation area in Oakland County also were approved.

State conservation director Gerald E. Eddy told the commission that his department hopes to present a new plan next month for managing Porcupine Mountains state park. The announcement came after Sen. Thomas F. Schweigert, R-Potosky, made a similar proposal.

legislative body of using "the device of advice and consent to conduct a character assassination program against me."

In a letter to the commission, moving last week in Alpena, the labor leader charged the legislature with "calous disregard" for the conservation needs of the state.

Of 14 bills sponsored by the commission during the past session, he said the legislature enacted only two and that nine other measures adopted were opposed by the commissioners and department heads.

Solunar Tables

The schedule of Solunar Periods, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times.

Day	Moon	Major	Minor	P.M.
Thursday	1:06	12:50	1:34	1:30
Friday	8:58	7:56	8:30	8:30
Saturday	8:58	2:45	3:29	3:30
Sunday	9:40	2:40	3:20	3:20
Monday	10:48	4:25	5:10	5:10
Tuesday	11:49	5:29	6:14	6:14
Wednesday	12:10	6:28	7:16	7:16

Largest Great Lake

Lake Superior has the largest surface area of water of all the Great Lakes, with 31,500 square miles. Lake Huron is second with 23,010. Lake Michigan third with 22,400. Lake Erie fourth with 9,530. Lake Ontario fifth with 7,520, and Lake St. Clair is of course smallest, with 490 square miles.

Scholle promised to continue his fight for a "more representative" legislature which would be more sympathetic to conservation needs. The State Supreme Court is now considering a suit by Scholle to force reappointment of the Senate on a strict population basis.

The Senate, in rejecting Scholle's appointment to the commission, accused the union official of "endangering" their seats by his suit.

Big Rainbow Hooked but Not Derby Entry

A nice big rainbow trout was hooked by 15 year old Michael Moriarty of Pontiac but it wasn't eligible for entry in The Pontiac Press big fish derby.

Moriarty, a Pontiac Central student, was on vacation with the family last week and he caught the 3-pound 5-ounce trout, measuring 21 inches at Pine River near Luther, Michigan.

The fish broke the line just as Mike's brother, 13 year old Dan netted it. Dan also had a lucky strike. He hooked a 15 inch trout weighing one pound, six ounces.

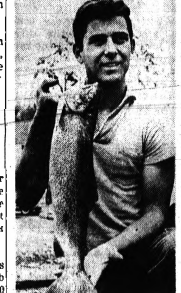

The current leader in trout division of The Press fishing derby is 2-pound five ounces by Lloyd Slade of Pontiac, caught in Elizabeth Lake.

Other current leaders in the fish derby are Rick Cosen of Berkley, Pike leader with a 20 pound 5-ounce

pike taken from Oxbow Lake; Norm Hamilton of Clarkston in the bass division with a 6-pound 6-ounce bass taken from Lake Oakland and Hubert Alexander in the blue gill division with a one pound 8-ounce fish taken in Lake Oakland.

To be eligible for The Press fish derby, the entry must be a resident of Oakland county and the fish must be taken from an Oakland County lake, except private lakes.

The derby closes at noon, September 4th.

NO ENTRY — Mike Moriarty of Pontiac is proud of the 3-pound 5-ounce rainbow trout he hooked while on vacation last weekend, but he wasn't able to enter in the Pontiac Press Big Fish derby. The fish was caught outside Oakland County at Pine River near Luther.

Thiefels Is High in Skeet Tourney

Frank King, a class B shooter from Grand Rapids, broke the lone 100 to win the all-gauge title in the Great Lakes Open Skeet championship at Ted's Blue Rock Gun Club last weekend.

Howard Conter of Detroit was the AA champion with 99. Bob Thieftels of Pontiac broke the 100 to win the 28 gauge event while Dave Helm of Grosse Pointe broke 99 to win Class A.

Only shoot off was between Crites of Detroit and Jack Pattyn of Warren for the 410 event, won by Crites. Both shooters had 93 in the event.

Thieftels won the high over all championship with 388-400.

Whopper — Kenny Rattler

Rolph, 9, of Pleasant Lake near Jackson, displays a foot-long bullfrog he caught last week.

Rattler Gets a Home

There's one less rattlesnake on the loose in the Pontiac area, thanks to 13 year old Jim Herrington. The Pierce Junior High student used his foot and stick to pin down the rattler near his home on M-59 near Pontiac Lake Road and captured it. It is now at home at the Snakes Alive Serpentina.

SALE! WHITEWALLS!

3-T NYLON TUBELESS All-Weather "42" MADE WITH DURABLE TUF SYN

Goodyear's New Tough Synthetic—Toughest Rubber Ever Used In Auto Tires!

I WAS GETTING INDIGESTION MYSELF... LET'S GO!

Roberts Insists Income Tax Out

Onetime Backer of Levy for State, Senator Says He's Still for Reform

Incumbent State Senator Farrell E. Roberts, R-Oakland County, today asserted he now is against a state income tax.

Roberts had supported an income tax earlier this year when it appeared that he and a group of other disident Republicans could help swing the vote for the measure. However, the pro-income tax group crumbled.

Today Roberts said, "No one in my right mind would advocate another tax of any type on top of what we already have."

He added that, "I have been, and will continue to be, for fiscal and tax reform in Michigan. This does not mean that the people must assume any burden by an income tax."

"But it does mean that some specific tax reform is necessary for businesses if we are to provide job security for the individual and industrial growth in the State of Michigan."

He added that "tax revision in some form is necessary for growth and prosperity."

When the drive for an income tax was blocked in April, Roberts said the plan failed in part because it did not provide local, new relief as originally intended.

Roberts is opposed for his Senate seat by Waterford Township's con-ced delegate Richard D. Kuhn, and by Troy mayor Robert J. Huber.

Both Kuhn and Huber had made it clear they opposed Roberts' earlier pro-income tax position.

Today Roberts complimented his political opponents in the county primary race for "their commendable enthusiasm and recognition of Michigan's fiscal and tax problems."

Pontiac Area Deaths

WILLIAM DODGARY
Service for William Dodgary, 47, of 17 Leister Court will be 3 p.m. Thursday at Sparks Griffin Chapel with burial in White Chapel Memorial Cemetery.

Mr. Dodgary died yesterday at Pontiac General Hospital.

OTTO P. PESCHEL
Service for Otto P. Peschel, 46, of 6087 Northrup, Waterford Township, will be 2 p.m. Friday in the Lewis E. Wint Funeral Home in Clarkston. Burial will follow in White Chapel Memorial Cemetery.

A foreman and die-maker at Pontiac Motor Division, Mr. Peschel died at his residence yesterday after an illness of several months.

Surviving besides his wife Dorothy are a daughter, Norma L., at home, and a sister, Mrs. Norman Hamilton of Clarkston.

RAIP H. SCOTT
Service for Raip H. Scott, 19, of 880 Joubert Road, will be Friday at 1:30 p.m. at the Donelson-Johns Funeral Home. Burial will be in Perry Mt. Park Cemetery.

Mr. Scott died in France as a result of an auto accident.

He was stationed in France with the U. S. Army engineers.

Surviving are his parents, Pontiac police Capt. and Mrs. George T. Scott of Pontiac.

ARTHUR E. ST. CLAIR
Service for Arthur E. St. Clair, 83, of 830 W. Huron St. will be at 2:30 p.m. Friday in the Sparks-Griffin Chapel with burial following in Perry Mount Park Cemetery.

Mr. St. Clair, 79, died at his residence this morning after an illness of several weeks.

Surviving besides his wife Dorothy are a son, Edward North of Louisville, Ky., to have been held at 3 p.m. today at the Richardson-Bird Funeral Home with burial in Acacia Park Cemetery, Birmingham.

She was a member of the Redford Chapter of the Order of the Eastern Star.

Surviving besides her husband are a son, Edward North of Louisville, a stepson, Russell Carter of Ypsilanti; a sister, Mrs. Beulah M. Jordan of Commerce Township; and one grandchild.

FRANCES CARRAN
CLARKSON - Service for Frances Carran, 84, of 81 E. 1st St. will be 2 p.m. tomorrow at Sharp-Goyette Funeral Home, with burial to follow at Lakeview Cemetery.

Miss Carran, a member of the First Baptist Church, died yesterday after a long illness.

Sole survivor is a sister, Mrs. George Elliott of Clarkston.

HARRY A. MILLER
AUBURN HEIGHTS - Service for Harry A. Miller, 69, of 3005 Auburn Road, will be 10 a.m. Friday at St. Vincent de Paul Church, Pontiac, with burial to follow at Mount Hope Cemetery.

Mr. Miller, a group leader at the St. Vincent de Paul Church, died yesterday at St. Joseph's Mercy Hospital, Pontiac, after a brief illness.

Surviving are his wife Gladys; his father, Anthony Miller of Bloomfield Hills; a sister, Mrs. Eleanor Miller.

Hearing Stated on River Project

Pontiac's new \$2.5-million plan to improve Clinton River drainage will be given a public hearing Aug. 6 before an Oakland County Drain Board.

The board will meet at 10 a.m. in City Commission chambers.

State, county and city representatives are expected to attend the hearing, according to Drain Commissioner Daniel W. Barry.

The meeting also is open to any interested city taxpayer.

City Manager Robert A. Stierer today said he would personally present the new drainage plan approved by the City Commission in June.

The plan would cost taxpayers a like of about 50 cents per \$1,000 of assessed value on their county tax bills next year but would not dip into the city's capital improvement fund.

WALLED LAKE - Service for former area resident Mrs. A. M. (Hazel C.) Carter, 71, of Louisville, Ky., was to have been held at 3 p.m. today at the Richardson-Bird Funeral Home with burial in Acacia Park Cemetery, Birmingham.

She was a member of the Redford Chapter of the Order of the Eastern Star.

Surviving besides her husband are a son, Edward North of Louisville, a stepson, Russell Carter of Ypsilanti; a sister, Mrs. Beulah M. Jordan of Commerce Township; and one grandchild.

FRANCES CARRAN
CLARKSON - Service for Frances Carran, 84, of 81 E. 1st St. will be 2 p.m. tomorrow at Sharp-Goyette Funeral Home, with burial to follow at Lakeview Cemetery.

Miss Carran, a member of the First Baptist Church, died yesterday after a long illness.

Sole survivor is a sister, Mrs. George Elliott of Clarkston.

HARRY A. MILLER
AUBURN HEIGHTS - Service for Harry A. Miller, 69, of 3005 Auburn Road, will be 10 a.m. Friday at St. Vincent de Paul Church, Pontiac, with burial to follow at Mount Hope Cemetery.

Mr. Miller, a group leader at the St. Vincent de Paul Church, died yesterday at St. Joseph's Mercy Hospital, Pontiac, after a brief illness.

Surviving are his wife Gladys; his father, Anthony Miller of Bloomfield Hills; a sister, Mrs. Eleanor Miller.

Pontiac City Affairs

Form Airport Committee

The City of Pontiac last night took another step toward joint county-city operation of Pontiac Municipal Airport.

An ordinance to rezone the lots was adopted after a second reading of the document.

A building housing four stores has been proposed for the site.

The lots affected by the change from residential to commercial zoning constitute half the total site.

The other half was already zoned commercial.

The zoning change was requested by John Caples of 888 Central Drive, Lake Orion.

Caples plans to buy the lots and build the shopping unit. The planning commission had previously recommended approval of the rezoning. The ordinance will become effective in 10 days.

COMMISSIONERS Charles M. Harmon and Loy L. Loford, City Manager Robert A. Stierer, City Attorney William A. Evans and Airport Manager Henry Haskins.

Development of a small shopping center was given the green light at last night's City Commission meeting with approval of a rezoning request of five lots on the

City Manager Robert A. Stierer was authorized to accept a \$155,000 federal grant to help defray the cost of Pontiac's new sewage treatment plant on Opdyke Road near Auburn Road.

Interrupting the regular agenda, Mayor Robert A. Landry proclaimed the week of July 23 to July 28 "Jacktown's Week" in observance of the premiere of a motion picture dealing with juvenile delinquency and filmed in the area.

The City Commission deferred action on a planning commission recommendation to deny a request to rezone properties at 26, 30 and 36 Union Street from residential to commercial.

No explicit proposal had been made for a commercial use of the area, the planning commission reported.

Commissioner Dick M. Kirby had asked for two weeks to study the request after the commission was informed no one showed up at a public hearing before the planning commission.

In a routine move, Joseph E. Neipeng, acting city engineer, was designated by the Commission as administrator for the city in transactions with the state highway commissioner.

Each year the city engineer is officially appointed to handle matters with the highway department.

Nothing prevented cost estimates for construction of curbs and gutters on Third Street, Fuller to Arlene.

The total estimated cost was \$125,518 with \$20,000 coming through special assessments to affected property owners and \$1,316.58 paid by the city. A public hearing was slated for next Tuesday on the planned improvement.

The special assessment roll covering construction of a combined sewer on a portion of Cloverland Drive, north of Kennel Road, was confirmed in three payments.

Death Notices
BRIDGE, JULY 16, 1962. WALTER E. 2444 Piquette, age 46; beloved husband of Mrs. W. E. Walter; father of Mrs. W. E. Walter; son of Mrs. W. E. Walter; brother of Mrs. W. E. Reds Resume Evictions Along the Berlin Wall

BERLIN (AP) — East German Communist regime today resumed evictions of East Berliners living near the Berlin wall. At dawn today rolled up to houses in Sebastian Strasse, opposite the American sector borough of Kreuzberg, and in the Schiffbauerdamm, on the bank of the River Spree not far from the Brandenburg Gate. Supervised by a r.m.d. guards, workmen loaded the furniture of occupants of the buildings and drove it away. Last fall thousands of people were evicted from apartment blocks on the border where there were many escapes.

ALL SET — Richard Mead, star of "Jacktown," premiering at the Miracle Mile Drive-In Theater Friday night, flew into town Monday night to begin promotion of the picture. At 8 p.m. tomorrow at Sparks-Griffin Funeral Home, Pontiac, with Elks Lodge of Soror service by the Pontiac Elks Lodge 16 follow at 9 p.m.

Wings of Orionville; and a brother. The Rosary will be recited at 8 p.m. tomorrow at Sparks-Griffin Funeral Home, Pontiac, with Elks Lodge of Soror service by the Pontiac Elks Lodge 16 follow at 9 p.m.

'Jacktown' Star in City for Premiere of Movie

Richard Mead flew into Pontiac, Rochester and Royal Oak Municipal Airport early Monday. Mead and the film's writer, producer and director William Mark, will make several public appearances before the "Jacktown" debut, including autograph sessions at the Drive-In every night, 6 to 8 p.m.

The 60-minute movie is said to be based on a statutory rape case in Oakland County.

Martin began filming the Pictorial-International Production a year ago, using the Oakland County Jail, a substitute for Jackson prison.

Plans are being made for a parade Friday night before the first showing.

Several scenes were shot last summer in Pontiac, Oak Park, and the airport he got together with Elton Samuels, owner of the theater (left), and Oakland County Prosecutor George Taylor, who had a role in the film.

12 County Democrats Win AFL-CIO Endorsement

Twelve Democrats seeking their party's nomination in Oakland County's Aug. 7 primary election have received endorsement from the county's AFL-CIO Council.

Eight of the endorsement candidates are unopposed in their bids for nomination.

In four other Democratic races, the AFL-CIO's Committee on Political Education (COPE) picked Kenneth C. Hitt over two for sheriff, Roy J. Russell over one opponent for drain commissioner, Lee Walker over three other candidates in the 6th District and Archie H. Bailey over two others in the 4th District.

Russell's opponent for the drain commissioner nomination, Daniel T. Berry, received the endorsement of AFL-CIO member's Local 35, to which he belongs.

Walker was endorsed by county COPE despite backing by 6th District COPE for incumbent Rep. John C. Hitchcock.

ALL ASKED BACKING
According to Fred Haggard, president of the county AFL-CIO Council, all Democrats involved in contested nominations requested union endorsement.

One Republican, Kenneth Walker, also asked for endorsement but didn't receive it. Walker is running unopposed for the GOP nomination in the 6th District.

COPE made no endorsement in the Democratic congressional contest between George Lemox and George Fulkerson, calling both men "well qualified and acceptable to labor."

No endorsement was made in the 1st District, Haggard said, because none was requested.

COPE delegates, however, voted to consider a belated request if it is made.

The lone Democratic candidate in the 1st District is John S. Coleman.

Unopposed Democrats who received union endorsement and the nominations they seek are: Leland H. Smith, state senator.

Order State Reapportioned

Senate Thriller Whips Medicare; JFK Hits Back

WASHINGTON (U)—The Senate has killed the administration's compromise medical care plan for the elderly on a 52-48 vote, branded by President Kennedy as "a most serious defeat for every American family."

Kennedy promptly fired this stinging reverse by a coalition of Republicans and Southern Democrats into a major issue for the November elections and said he would offer the program again next year.

Kennedy to Act in Retaliation?

Angered at Medicare Defeat, President May Stump Against GOP

By JACK BELL

WASHINGTON (AP)—President Kennedy appears almost certain to hit the campaign trail this fall with a drive aimed at breaking up the coalition bent on scuttling his program in Congress.

A Republican-backed Democratic federation flexed its muscles in the Senate Tuesday and knocked into the ash can by a 52-48 vote the Kennedy program for health care of the elderly financed through Social Security.

The crucial countdown showed 31 Republicans and 21 Democrats—47 of them Southerners—opposed the Kennedy proposal. It got the support of 43 Democrats and five Republicans.

Because he had lashed this as the top issue in this year's elections, Kennedy obviously was more angered by the Senate action.

Medicare Analysis, Page 4

tion than previous defeats by a House coalition which killed his right-controls farm bill and his plan to set up a department of urban affairs.

The President read in whispers at the White House a statement in which he said rejection of his health care plan was "a most serious defeat for every American family."

He added significantly, "We have decided to let the Congress at election where we want to stand still or support this legislation for the benefit of the people."

PERSONAL FIGHT?

Assistant Senate Democratic Leader Hubert H. Humphrey of Minnesota translated this to mean that Kennedy personally will carry the fight to the people.

"This will become the major issue of the 1962 campaign and I expect the President will redouble his efforts for it," Humphrey said. "We didn't have them out numbered in the Senate but now we'll be the people speak."

Sen. Clinton P. Anderson, D-N.M., who sponsored the ill-fated Kennedy plan, vowed the opinion that "health care for the aged through Social Security will be the hottest issue of the campaign."

Olympic Balancing Act?

DETERMINED COMPETITOR—It looks as though Richard Barnes, 11, a sixth grader at the Douglas Elementary School, Waterford Township, is walking a tightrope but he is actually competing in the running broad jump during yesterday's Junior Olympic tryouts at the Drayton Ball Park. Youngsters from 11 playgrounds utilized for the Waterford Township summer recreation program participated in the tryouts. Winners will represent the township July 26 in the finals at Belle Isle against athletes from 41 other communities.

British Justices Allow Appeal

Deny Soblen's Freedom Plea

LONDON (AP)—Three high court justices refused today Dr. Robert Soblen's plea to be set free on British soil, but gave him permission to appeal the decision.

Court observers estimated the appeal—even if denied—would delay Soblen's deportation to the United States for perhaps six weeks. They estimated it would take that long to complete the process in the court of appeal.

If he loses the appeal, Dr. Soblen still would have pending a request to the Home Office for asylum as a political refugee.

The Home Office has declined to give any inkling of its attitude toward this request, but it is thought unlikely it will be granted.

The high court turned down Soblen's plea to free him from detention by the Home Office under a writ of habeas corpus.

ALIEN IN TRANSIT
The court upheld the government's contention that the 62-year-old fugitive, who fled from a life sentence in the United States as a Soviet spy, is an alien in transit who had been allowed to pause in Britain only long enough to recover from the strain of his flight.

Soblen, who jumped \$100,000 bail when he fled from New York to Israel last month, is fighting for permission to remain in Britain or to go on to refuge in some other country.

Defense Attorney Edwin Jones informed the court he has been induced by Soblen to appeal the decision.

A Home Office spokesman would say only that when there has been a final judgment by the courts, the home secretary will consider the application for asylum on its merits.

The spokesman added that even if Soblen finally loses in the courts, he would not be formally deported.

"The Home Office would simply hand him back to the authorities which brought him here and the police would have to remove him from Britain."

JFK Chooses New Aide to Agriculture Dept.

WASHINGTON (U)—President Kennedy today chose John A. Baker, former director of agricultural credit, as assistant secretary of the Department of Agriculture for rural development and conservation.

Baker replaces Frank J. Welch, who is resigning. Welch will become vice president of the Tobacco Institute, Inc., an organization of U.S. manufacturers of tobacco products.

Last month the FAA turned down the project because of "unacceptable" airspace.

Agreement to resubmit the plan was made over the protest of Orion Township Supervisor John Lester.

Sitting in on the meeting, Lester said the committee should be satisfied with the "direct denial" it already received from the FAA.

PROTESTS ACTION
Resubmitting the application, he protested, will mean many months of processing and result in township residents being "penalized by uncertainty."

Earlier, a resolution by Lester was introduced in the committee calling for the proposed 46-acre airport site in Pontiac and Orion Townships, to be used for educational and recreational needs.

It also asked that 36 acres on the west side of Giddings Road be made available "immediately" for a community college.

The committee decided Lester's measure had been submitted the wrong way and voted to pass it on to the full Board of Supervisors.

Behind the move to resubmit airport plans to the FAA was a protest by committee member John L. Carey that "politics" has been used against the committee.

Members insisted the FAA gave informal approval to the airport plans last summer.

Committee member John C. Ryland said the FAA was a "nothing more than a rubber stamp."

The committee hopes a talks with Hammy will help overcome (Continued on Page 2, Col. 3)

Supreme Court Move Calls Off August Primary

Justices Follow Straight Party Line in Decision to Reshuffle Senate

LANSING (U)—The State Supreme Court on a 4-3 vote today called off the Aug. 7 primary election of the State Senate and ordered legislative reapportionment of the Senate.

The vote went on a straight party line basis with four justices usually identified with the Democratic party voting for the decision and three allied with the Republican party voting against it.

In its long-awaited decision on the suit brought by Michigan AFL-CIO President August Scholle, the high court produced six different written opinions.

The court directed lawmakers to resubmit the Senate by Aug. 28 or elect 32 state senators from the state on an at-large basis, at a special primary Sept. 11 if they fail to enact "valid legislation."

The decision, one of the most politically explosive ever to come from the court, threw out the 1952 amendment to the State Constitution freezing the 34 State Senate districts.

Prior to that, the constitution provided for 32 Senate districts (equal divided according to population).

The ruling was a victory for (Continued on Page 2, Col. 6)

Roberts Rushing to Lansing for Talk on Decision

Senator Farrell E. Roberts, R-Oakland, this morning said he was rushing to Lansing to meet with the Senate Judiciary committee to study the State Supreme Court decision declaring the present Senate apportionment unconstitutional.

"We will try to get at least a way of the decision to give people a chance to vote on the new Constitution," he said. "We believe the representation set-up in the new constitution is acceptable to the U.S. Supreme Court."

The U.S. Supreme Court had added the state high court to review the present representation of the State Senate.

He said he would meet in Lansing with State Senators John W. Fitzgerald, R-Grand Ledge; Paul C. Younger, R-Lansing; and Carlisle H. Morris, R-Kalamazoo.

White he's in Washington, it's probable that White will get his astronaut wings from the Air Force and possibly a Distinguished Service Medal from the National Aeronautics and Space Administration.

Joining White in receiving the Collier trophy are X15 pilots Scott Crossfield of North American Aviation, Inc., Joe Walker of NASA, and Cmdr. Forrest Peterson of the Navy.

White, his wife and Walker flew to Washington Tuesday night.

About 10 hours earlier White had set a blistering pace in rocketing to 310,000 feet, flying weightless for about three minutes, then streaking down to a dry lake bed landing at Edwards Air Force Base, Calif.

When he crossed the 50-mile space qualification line drawn by NASA and the military services, he joined the four Project Mercury astronauts in the right to wear astronaut wings.

Winged Astronaut

RECOUNTS FLIGHT—Air Force Maj. Robert M. White tells newsmen of his 30.7-mile-high rocket ship flight yesterday at Edwards Air Force Base in California. The nation's newest astronaut's record was well-timed. He will receive the Robert J. Collier aviation trophy for 1961 today at the White House.

JFK to Congratulate X15 Pilot Maj. White

WASHINGTON (U)—Air Force Maj. Robert M. White, who rocketed into the quiet vastness of space Tuesday in his sleek X15, gets a personal "well done" from President Kennedy in the crowded rose garden of the White House.

The 38-year-old engineer-test pilot became the fifth American to qualify for astronaut wings when he piloted the rocket plane more than 58 miles above the California coast.

White and three other test pilots already had been scheduled before his flight to be at the White House today to receive the Robert J. Collier trophy for outstanding achievements in aviation in 1961.

White's flight in Washington, it's probable that White will get his astronaut wings from the Air Force and possibly a Distinguished Service Medal from the National Aeronautics and Space Administration.

Joining White in receiving the Collier trophy are X15 pilots Scott Crossfield of North American Aviation, Inc., Joe Walker of NASA, and Cmdr. Forrest Peterson of the Navy.

White, his wife and Walker flew to Washington Tuesday night.

About 10 hours earlier White had set a blistering pace in rocketing to 310,000 feet, flying weightless for about three minutes, then streaking down to a dry lake bed landing at Edwards Air Force Base, Calif.

When he crossed the 50-mile space qualification line drawn by NASA and the military services, he joined the four Project Mercury astronauts in the right to wear astronaut wings.

It was visible for nearly 10 minutes before becoming obscured by haze and cloud.

During the time it was in sight it appeared as a brilliant yellow object, brighter than any stars in the sky.

Clouds apparently confined observation of the big ball to the one area clear of haze, which permitted observation of the balloon throughout much of the eastern United States.

Today's shot was to determine whether the balloon would expand and hold its form after being sent aloft. There were no communications trails.

The National Aeronautics and Space Administration announced success of the mission, which paves the way for launching a modular balloon into orbit this year as the Echo II experimental communications satellite.

PLUNGES BACK
After rising to 922 miles the balloon plunged back and burned up as intended in the earth's atmosphere. Most of the sphere occurred about 23 minutes after the 1:30 a.m. launching, some 48 miles south of the cape.

"Big Shot" is easily the largest package ever sent into space. However, many U.S. satellites have weighed much more than its 516 pounds.

Rain to Hold Off and Give Outdoor Fans a Break

Outdoor enthusiasts may plan picnics, golf tournaments, sailing and reunions with no chance of drenching, the weatherman says. No rain is predicted until the end of the week and then less than 1 of an inch in scattered showers.

Temperatures will average near high of 80 and low of 60 Thursday and Friday. Saturday and Sunday will be a little cooler.

Variable morning winds at miles per hour will become northwesterly at 5 to 12 m.p.h. Low temperature before 8 a.m. in downtown Pontiac was 63. At 1 p.m., the recording was 80.

How New Facility on West Huron Would Look

Proposed building for First Federal Savings and Loan Association of Oakland

Savings Firm Plans Expansion

Officials of First Federal Savings and Loan Assn. of Oakland last night asked the city for zoning changes that would permit them to add four floors and a drive-in window facility to their offices at 20 W. Huron St.

James Clarkson, president, presented plans and drawings on the proposed structure to the City Commission.

He asked that some property be rezoned from residential to commercial and that present commercial zoning restrictions be waived to allow a five-story building.

The rezoning request was referred to the city planning commission for study and recommendation.

Clarkson's bid for waiting zoning

restrictions was referred to the City Zoning Board of Appeals.

First Federal officials own a vacant lot between their building and the Main Pontiac Post Office to the east.

"They want the lot and property to the rear, now vacant or used for parking, rezoned from residential to commercial."

Their present one-story building is zoned C-1, which limits height to 25 stories or about 35 feet.

Officials want that restriction lifted to allow a five-story building.

LONG OUTGROWN
"We outgrew our present building two years ago," Clarkson explained. "With current assets in (Continued on Page 2, Col. 7)

Military Takes Over Peru; President Seized

Bloodless Coup Climaxes Long Crisis; Junta Ready

LIMA, Peru (AP) — Troops seized President Manuel Prado in a bloodless coup today and the military announced a junta would be sworn in at midday.

The takeover climaxed weeks of crisis during which the military sought to block election to the presidency of a bitter foe, Victor Raul Haya de la Torre, leftist but avowed anti-Communist.

A communiqué said the military junta would take office in a public ceremony at the government palace and that a message would be broadcast to the country.

Canks and troops surrounded the palace at 4 a.m. and Prado was taken away in a military vehicle.

A broadcast listed the four-man junta as Gen. Ricardo Perez Godoy, Gen. Nicola Lindley Lopez, Vice Adm. Francisco Torres Montes and Air Force Gen. Pedro Vargas Prada.

Haya ran first in the June 11 election but failed to get enough votes for the presidency. His popular revolutionary alliance agreed yesterday to throw the presidency to rightist ex-dictator Manuel Odría, who was third in the voting.

But the military would not settle for such an arrangement.

Armed troops and tanks moved up to the palace early this morning and a colonel stood before a loudspeaker on one of the tanks and issued an ultimatum to 72-year-old Prado to resign quietly and prevent bloodshed.

At the minutes' notice without any reply from the palace, the tank commanders started to warm up their motors. One tank lurched forward and others started to follow. Then troops marched in through the big gates and finally the president came out of the palace and entered a military car which sped away.

There was no immediate official word of where Prado, whose six-year term was due to expire at the end of this month, was taken. But a newspaper, El Comercio, said he was held on San Lorenzo Island off Callao, Lima's seaport.

It was believed that once the political situation settles down the junta will call for new national elections to choose a president.

Submits Low Bid to 'Fix' Airport

Ypsilanti Contractor Asks \$307,622 for Pontiac Municipal Plan

An Ypsilanti contractor, O. K. Gooding & Co., yesterday submitted a low bid of \$307,622 for improvements at Pontiac Municipal Airport.

Plans for the 1962 improvement program were opened and tabulated in Lansing by the Michigan Aeronautics Department and airport officials.

There were five bids submitted for the general contract. The department will recommend that the City Commission award the contract to Gooding.

Department officials said their tabulation and the contracts should be on the commission table for action at next Tuesday's meeting.

The second lowest bid, \$312,853, was submitted by the Charles W. Anderson Co. of Waterford Township.

Under the Gooding bid, subcontractors are Ann Arbor Construction Co. of Ann Arbor, for paving; Cogen Fence Co. of Detroit, for erecting fences; H. D. Brand & Co. of Detroit, for electrical contractors; and Harry W. & Son, of Pontiac, for land reclamation.

Fog, Showers Scattered Over Sections of U.S.

By The Associated Press

Thunderstorms and fog covered widely scattered sections of the country early today.

Shower activity was reported over the eastern slopes of the Rockies, the upper plains, the central Gulf Coast area, in the Appalachians and over the lower Mississippi valley.

The early morning fog covered wide sections of the central and northern Atlantic Coast states and the Rocky and northern plains regions. Some sections of the Gulf Coast region, the desert Southwest and interior valleys of California had readings in the 80s and 90s.

39 Are Safe After Plane Crash-Lands

GANDER, Nfld., (AP) — A Trans-Canada Air Lines Viscount plane carrying 39 persons made an emergency landing at the International Airport here today after the nose wheel failed to lower into position.

An airline spokesman said no one was injured although all passengers were taken to a hospital for routine medical examination. He reported the plane carried 35 passengers and a crew of four.

The landing was made on a foam-covered runway with the wheels on the wings locked into position.

The plane was en route from Montreal to St. John's, Nfld. It eluded the field for three hours while the pilot, Capt. Bill Guyon of Montreal, tried unsuccessfully to get the landing gear into position.

MILK TRAIN — Henry Wilk of Warren, engineer of this Grand Western Railroad Road, had an unexpected stop yesterday afternoon at the Davisburg road crossing in Springfield Township. It collided with a milk truck driven by Daniel A. Turner, 24, of 731 Manor Drive, Milford. The truck was demolished. The train was covered with cream, cottage cheese and cartons of milk. But Turner escaped with only minor injuries.

WASHINGTON (UPI) — American's first man-in-orbit, John H. Glenn Jr., declined today to take a direct stand on whether women should be allowed to join men in space voyages. But he said at present, jet test pilots are better prepared than anyone to become astronauts.

Glenn told a House Space Subcommittee that "I'm not an anti any particular group. I'm just pro."

All seven of the original Soviet Mercury astronauts are reassigned jet test pilots.

Three American space pilots made it clear yesterday that the feminine sex wants to be a part of NASA's space exploration.

Mrs. Jane B. Hart, wife of the Michigan senator, deplored the "condescending little smirks and mildly humorous winks" evoked by any mention of this subject.

"It seems to me a basic error in American thought that only male women are allowed to make a full contribution to a better nation is when there is a manpower shortage," she told the subcommittee.

Jerry Clark, who already has passed many astronaut tests, noted that woman pilots had volunteered to become the first of their sex to make a space flight.

She said some women weigh less, consume less food and oxygen, need more radiation-resistant and less prone to heart attacks than men.

Law, who died at 61, lived in a country-owned home at 1661 Holbrook Ave., Waterford Township.

Mrs. Clayton described Law as an ex-Pennsylvanian coal miner afflicted with tuberculosis for many years. He worked as a "general handy man" and "switchman" at the county water building, she said.

The note Law left said the \$2,500 was to be used for funeral expenses.

The remainder, the note said, was to be left to two daughters in Johnston, Pa., and the other in Chicago, Ill.

Law also mentioned the names of two other persons who should receive part of the money if they attended his funeral.

Kennedy met with Ambassador Anatoly F. Dobrynin for an hour Tuesday night in his office at the White House. They also discussed Laos, disarmament and the problem of a ban on nuclear tests.

Dobrynin said as he climbed into his limousine to return to his embassy, "I would be improper for me to comment."

Kennedy intervened personally in U.S.-Soviet talks on the Berlin situation in the evident hope of overcoming any lingering belief in Moscow that the troops issue may be negotiable or that the United States would yet yield to threats and pressures and accept some kind of compromise for West Berlin's military protection.

BEFORE RISK TRIP

The President's move came two days before Secretary of State Dean Rusk leaves for Geneva where he plans to talk over the East-West Berlin stalemate with Soviet Foreign Minister Andrei A. Gromyko. The occasion for their gathering in Geneva will be the signing of accords on the neutralization of Laos.

The effect of Kennedy's action is to reinforce Rusk's position at a crucial stage of the U.S.-Soviet talks.

Senate Reshuffle Ordered by Court

(Continued From Page One)

Schole, who started court action of a new junior high school is expected to begin late next month on early September, a Birmingham school official said today.

Walter J. Piel, administrative assistant, said the school board is expected to award contracts for the 14-mile Road-Bellevue Trail Road school at its Aug. 21 meeting.

The board approved the final drawings for the one- and two-story building last night and will advertise for bids as soon as possible, according to Piel.

The school, which will have a capacity enrollment of 1,000 students, is expected to be completed by the fall of 1963. As yet, the school is not named.

Nearly \$2.5 million has been budgeted by the board of education for the Valley Woods site school.

The tax rate will be the same in all portions of the district with the exception of West Bloomfield Township, where the county allocation is a tenth of a mill less, 8.35 mills.

The Beverly School staff and Parent-Teacher Association have established a Ferguson Memorial Fund in memory of the late Malcolm V. Ferguson, principal.

Ferguson, 48, died of a heart attack on May 23 while taking part in the Michigan Week principal exchange day in Mt. Pleasant.

The fund will help with the future education of Ferguson's three children.

Dixie Officials Tell of Moves to Stop Estes

WASHINGTON (AP) — Two Alabama farm aid officials testified today they moved in quickly to stop Bill S. Estes when he tried to transfer county acreage allotments from their state.

Bernard L. Collins, executive director of the Alabama State Agricultural Stabilization and Conservation Committee, and program specialist Fred M. Acuff told the subcommittee.

The subcommittee, headed by Sen. John L. McClellan, D-Ark., is studying Estes' relations with government agencies to see if he received favored treatment.

WASHINGTON (AP) — In words destined for Premier Khrushchev, President Kennedy is reported to have told the Soviet ambassador that the Soviet Union's demand for the removal of U.S. troops from West Berlin is totally unacceptable.

Kennedy met with Ambassador Anatoly F. Dobrynin for an hour Tuesday night in his office at the White House. They also discussed Laos, disarmament and the problem of a ban on nuclear tests.

Dobrynin said as he climbed into his limousine to return to his embassy, "I would be improper for me to comment."

"Something to remember the BOH membership by," Irving A. Duffy (left) told departing Bloomfield Open Hunt Club manager and his wife Mr. and Mrs. Bert C. McIntire at the going-away party given them by the club members. The McIntires leave this weekend for

Pompano Beach, Fla., where Mr. McIntire will be general manager of the Golden Falcon. Mr. Duffy was president when the McIntires took over the club's management 10 years ago. John Emery Jr. (right) is this year's BOH president.

Groups to Hold Park Picnic

Rebekahs and Odd Fellows orders are welcome to attend a picnic luncheon Sunday at Crompton Park in Lapeer.

The picnic is sponsored by districts 32 and 8. Prizes will be awarded to the oldest person of each order attending. Grand officers of all branches of the orders are expected to attend.

The Fair Way

Take Great Care in Selecting Clubs

By SANDRA HAYNE

WW I Units Plan Picnic

World War I Barracks and Auxiliary plan their picnic for July 28 at Davisburg. This will include all Oakland County barracks and auxiliaries.

During a recent meeting William Bartlett reported on the convention held at Traverse City where Mrs. Lucile Brimberry of Grand Rapids was elected department president of Michigan.

Written for NEA

Clubs are as important to a golfer as brushes are to a painter.

They should be selected with the same care and consideration of the job each is supposed to do. Have confidence in your clubs. They should be tailored to your game.

I was lucky at the start because when I began to play, at 11, I was about knee high to a bullfrog. Standard clubs wouldn't fit me.

After I had puttered around long enough for my father and me to find out just about what my game would be, he had a set made especially for me.

When I got bigger and could use standard clubs, I selected them by a process of elimination. Balance, weight and shaft length are important.

There are scientific gadgets for fitting clubs to players, but usually you can determine the length that suits you by the length of your arms and how far you stand from the ball.

A short woman's arms may be the same distance from the ground as a tall one's and they can use the same length clubs.

Short players with short arms tend to stand farther from the ball than tall ones and usually take a flatter swing.

Researching for the ball, they may find clubs with a long shaft best suited to their needs. Balance can best be determined by experimenting with various kinds.

Clubs should be heavy enough so you feel them when you swing and so light that they are not cumbersome or unwieldy. Don't throw the burden of the swing on the arms.

The size of the grip must be just right for your hands. While I believe in selectivity, I am in favor of matched sets. Usually if one club in a set fits, the rest will, too.

NEXT: The grip.

Soak Dishes

Baking dishes will come clean easier if you put them to soak in hot soap or detergent suds while still warm from the oven. A stiff brushing will remove even stubborn cooked-on food at dishwashing time.

BOH Fetes Departing McIntires

Club Manager, Wife Off to Florida; Past Presidents Join In

Past presidents and most of the Bloomfield Open Hunt Club membership gathered to give club manager and his wife Mr. and Mrs. Bert C. McIntire, a royal send-off to Pompano Beach, Fla.

Mr. McIntire has been associated with the BOH for the past 10 years. He and his wife depart this weekend for the Florida sun and his new position as general manager of the Golden Falcon.

Representing the club presidents with whom Mr. McIntire worked during his tenure at BOH were Albert A. Clark, Irving A. Duffy, Charles D. Pierce, James E. Pedder and William G. Bridge.

Others attending were Mrs. William O. Bridge, Mrs. Charles D. Pierce, John C. Emery Jr., president of the club, and the Thomas J. Kings.

Still more well wishers included Mr. and Mrs. Roland S. Withers, Mrs. Howard Maciel, Mr. and Mrs. Ford V. Davis and Mrs. Lucile Whit.

Mr. Duffy, president at the time the McIntires first took over BOH management, presented Mrs. McIntire with a pearl necklace. Mr. McIntire received an engraved watch.
