

Planes Crash; Fear 25 Dead

ONE COLOR

URBANA, Ohio (AP)—A DC9 jetliner and a second airplane crashed today 50 miles from the scene of another airliner crash Sunday the Ohio Highway Patrol said.

The patrol post at nearby Piqua said it was not learned whether the planes might have collided but that two definitely were down. One plane was identified as a Trans World Airlines DC9

with 25 persons aboard. No survivors were reported.

The second plane was not identified.

URBANA, Ohio (AP)—A Trans World Airlines DC-6 jet with 25 persons aboard crashed today just 50 miles from the scene of a crash Sunday which killed 38 persons.

The sheriff's office said some

bodies were scattered amid wreckage which landed near the resort community of Meadow Lake about five miles northwest of this central Ohio city.

One report said six ambulances were dispatched with victims from the scene, but it was not known if there were any survivors.

TWA in Chicago identified the plane as Flight 553, which goes from New York to Chicago with

a stop at Dayton, about 30 miles to the south. TWA said the 70-passenger plane had 21 aboard.

The crash scene was identified as not far from the Urbana airport, which does not have regular airline service.

TWA said the plane had left New York's LaGuardia Field with stops in Harrisburg and Pittsburgh, Pa., en route to Dayton.

SLAYING SUSPECT — John W. Williams, 17, charged with slaying two 14-year-old cousins in Rockford, Ill., last Thursday, talks to Sheriff Herbert Brown (left) before a preliminary hearing yesterday.

Parents Can Take Teen-Agers off Road

LANSING (UPI) — It may be a teen-ager's world, but in Michigan at least parents can yank their offspring right out of the driver's seat.

The ultimate club in mom and dad's arsenal is a state law that allows them to revoke the driver's licenses of their children under 18 years of age.

All it takes is an 11-word note to the secretary of state.

"I no longer wish to be responsible for my child's driving" is a mandate for cancellation of their child's license.

And once done, the issue is closed. A pleading teen-ager may be able to talk mom or dad into reconsidering, but not the secretary of state.

"Actually, it's much more effective as a club," said Milan Clark who administers the law.

"A parent can tell his child, 'Look, if you don't start driving decent, I'm going to do this.'"

Once a youth turns 18, he can readily for a license with or without parental approval.

Clark has no estimate of how many licenses have been canceled by parents who for one reason or another wanted their children off the road, but he said "the number is not overwhelming."

LETTERS FROM TEENS

"Surprisingly enough in the last couple of months we've been getting more letters from kids offering to surrender their licenses," he said.

The reason is that the insurance rates for their parents' car are "so terrifically high" as long as they hold licenses, Clark said.

CANDID CAMERA—Robert Anderson, 17, was taking pictures in downtown Los Angeles when he noticed a man taking a picture from a parked car. When Robert snapped his picture, the man smiled and waved back. Yesterday, the man, identified as Luis G. Macias, got a good look at the pictures — in court — and pleaded guilty to "theft from auto."

Communists were killed last week, well above average but not a record.

However, South Vietnam's "open arms" program to attract defectors dealt the Reds a hard blow.

A record weekly total of 1,168 Communist soldiers and political workers came into allied lines waving the slips of paper granting them amnesty for turning on the Reds.

Allied statistics show the open arms program is attracting defectors at twice the rate of last year.

Another sign of the stepped-up war was the lifting of security wraps on the first major offensive operation in the Mekong Delta by troops of the U.S. 9th Infantry Division, the first big U.S. ground unit to be permanently assigned to that vital area which contains about one third of South Vietnam's 15 million people and grows 80 per cent of its rice.

SOUTHWEST OF SAIGON

The division's 3rd Brigade arrived at Dong Tam, about 40 miles southwest of Saigon, in late January and has been digging in.

Bodies of Dogs and Cats Removed at Animal Shelter

The bodies of dead dogs and cats frozen into the snow have been removed from behind the Oakland County Animal Shelter, according to Dr. Frank R. Bates, director.

Measures also have been taken to prevent the situation from occurring again, the veterinarian said.

The grisly condition came to light in a letter to The Pontiac Press.

Bates explained, however, that he has

been working on the problem long before the letter was written.

Most of the animals littering the rear of the building were tossed there by the public and veterinarians for disposal, Bates said.

"But before we could remove them to the county incinerator, it snowed and iced over," he added.

Picking up to Bates there is usually a crowd of dogs at the shelter in which the dog wardens from his staff and those from other communities, place dead animals.

Each morning the truck delivers the bodies to the incinerators for cremation, said Bates, but occasionally there is a delay and the truck cannot return immediately.

"This was the problem, and with each snow it got worse," said Bates.

"We tried salt and hot water to melt the snow, but it didn't help much."

The county maintenance department finally had to dig the animals out. The last ones were removed Friday.

Bates' department disposes of between 8,000 and 9,000 dogs annually.

'Phantom Sniper' Gets New Hearing

A hearing for the release of Oakland County's "phantom sniper," Gary Addison Taylor, from Ionia State Hospital for the Criminally Insane is scheduled Tuesday before Ionia Circuit Judge Leo Bebeau.

The hearing was requested in a petition filed last month by attorney Rex O'Connor, McNamara and O'Keefe, retained by Taylor's parents.

Taylor, 31, was acquitted of attempted murder last April for reasons of insanity.

He had been charged with wounding a Bloomfield Hills woman during a shooting spree in 1957.

U.S. 7-Day War Toll Is Record

SAIGON (AP) — The highest American losses of the Vietnam war were announced today, reflecting the steadily rising U.S. military effort and Communist retaliation with heavier mortar attacks, mines, booby traps and hit and run assaults.

The total casualties last week were 1,617 killed, wounded and missing. It included 232 dead, 1,381 wounded and four missing.

Most were in the small skirmishes and fleeting Red jabs that have characterized the recent fighting.

While the over-all total was the highest of the war, the total of 232 killed was exceeded by one week in November 1965 when 240 Americans died. But most

of that death toll came in the fierce Ia Drang Valley battle, not in engagements scattered the length of South Vietnam.

The U.S. command reported 1,736

Dems Load Files With Romney's Viet Statements

WASHINGTON (AP) — Democrats are loading their files with Michigan Gov. George Romney's varying Vietnam statements, and National Chairman John M. Bailey is preparing to blast the potential GOP presidential contender.

In the absence of action on such major issues as Negro representation on state delegations, the Democratic National Committee is expected to step up its attacks on prospective 1968 foes as it begins meeting today.

The meeting is the committee's first in a year and comes in the wake of widespread criticism by Democratic leaders around the country of the committee's activities during last fall's election campaign.

Informal, closed meetings with party leaders and Johnson administration officials are planned today with a formal business meeting Friday. No one around party headquarters professes to be quite sure whether President Johnson will attend any of the sessions. His name does not appear on the advance agenda.

Bailey has put in temporary cold storage such controversial matters as the 1964 proposal that in 1968 all state delegations must give adequate representation to Negroes.

SOUTHERNERS UP IN ARMS

Many Southern party leaders are reported up in arms over a proposal by Mildred Jeffrey, national committeewoman from Michigan, that states with Negro populations of 20 per cent or more be required to allocate at least 10 per cent of their delegate seats to Negroes.

Bailey intends to lead the charge against prospective GOP candidates in his report to the committee.

Methodical Democratic firing against Romney already has begun in Congress. It was not regarded as coincidental that Sens. John J. Sparkman, D-Ala., Thomas J. McIntyre, D-N.H., and Stephen M. Young, D-Ohio, made recent attacks in the Senate on Romney's statements.

The Democratic committee has been busy building up its files on Romney, including some tapes of his utterances.

Rebel UAW Faction Returning to Work

MANSFIELD, Ohio (AP)—A General Motors plant struck last night by rebellious auto workers, reported a nearly normal production force today, but indications were the revolt was not over.

Leaders of the rebel faction were reported en route to Detroit for a meeting with the National General Motors Council of the United Auto Workers.

The Fisher Body plant here reported 75 per cent of its normal work force of 1,200 on duty today.

Last night, only about 75 of the 300 men scheduled for work reported to the plant.

Twelve union members, including the leader of the rebel faction, were cited for contempt of court for violating a court order against picketing, issued during a strike last month which led to a layoffs of nearly 200,000 workers at 85 GM plants around the country. This plant makes body parts for 90 per cent of GM cars.

Frank Petty Jr., chairman of the union's shop committees during the earlier walkout and who appeared to be leading the current revolt against the national union, was en route to Detroit with about 20 local supporters.

A man who answered the telephone at the union headquarters across U. S. 30 from the big body plant said the walkout was not ended. He said "misinformation" was to blame for the large number of workers who showed up. No pickets were on duty.

A Feb. 21 court order banned all picketing at the plant pending a final decision — never made — on the company's request for an injunction. Pickets posted at the plant yesterday virtually halted production for one shift.

Sheriff's deputies removed the pickets and took Petty and 11 others into custody on contempt citations yesterday afternoon.

OVER REPORTS

The latest dispute stemmed from reports Petty and four other men were to be fired because of the first walkout.

The National UAW Executive Board, meeting in Detroit with President Robert Hall of Mansfield Local 549, voted yesterday to take over the local. Petty's forces responded with a mass meeting attended by about 1,500 union members who voted to strike.

That led to a virtual shutdown of the plant during the early morning shift starting at 11:30 p.m.

GTW in Court Over Crossing

A local official of the Grand Trunk Western Railroad was scheduled to appear in Municipal Court this afternoon in answer to a formal complaint over a blocked crossing.

John D. Schilling, Pontiac terminal trainmaster for the railroad, was to meet with Judge Cecil B. McCallum.

McCallum issued a John Doe warrant yesterday after Irvin Knapp, 2885 Buick, Waterford Township, said a Grand Trunk train blocked a local crossing yesterday for 15 minutes.

City Ordinance 1275 holds that crossing delays in excess of five minutes are illegal and subject to as much as \$100 fine and 90 days in jail.

Knapp alleged in a statement made to Pontiac police that a freight blocked the Columbia Avenue crossing from 6:35 to 6:53 yesterday.

Knapp testified the train stopped twice in the middle of the intersection during the delay.

Preview of Spring

With spring just around the corner the weatherman is giving us a preview of the warm days ahead.

Temperatures heading into the 40s today will drop to a low of 25 to 30 tonight.

Partly cloudy and warmer is tomorrow's forecast, and cloudy and mild with possible showers is the outlook for Saturday.

The low recording in downtown Pontiac preceding 8 a.m. was 14. The mercury had reached 33 by 2 p.m.

Government Reports Potential Defects in 670,000 Vehicles

WASHINGTON (AP) — Potential defects in more than 670,000 cars, trucks and buses — most of them 1967 models — have been reported to the government by domestic and foreign manufacturers since Jan. 1.

Commerce Department records showed today that most of the recalls were by the domestic big three — General Motors, Ford and Chrysler — for a

variety of possible defects involving brake parts, steering shaft alignment and windshield wipers.

Three other domestic and seven foreign producers also are listed.

Some of the recalls have been announced publicly by the companies but this isn't required under the new traffic safety law.

A report to the government doesn't mean that all vehicles listed are defective.

Manufacturers are only required to report potential car and truck defects to the government and to inform owners so corrections, if needed, can be made.

If, for example, the manufacturer discovers an improperly made steering gear on a car, he may trace the batch of gears which contained the faulty one, then recall all cars supplied from that batch. He might find many, a few or no cars with the same defect.

Other U. S. firms which filed reports on possible defects since Jan. 1 were Kaiser Jeep, International Harvester, American Motors and Clark Equipment Co., a manufacturer of trailers.

Foreign companies filing reports included Rolls Royce, Jaguar, Porsche, BMW of West Germany, Datsun, Volkswagen and Renault.

One of the largest recalls came in January when General Motors reported possible misaligned steering shafts in more than 260,000 Chevrolets, Pontiacs, Oldsmobiles and Buicks.

Ford recalled 217,000 Fords and Mercurys in February for a possibly defective power brake booster assembly which may malfunction in cold weather, the department's files showed.

When the protest started, members of the National Book Committee sitting behind Humphrey on the stage appeared embarrassed. They smiled when applause drowned out shouts by the demonstrators.

Among those who walked out were several prominent authors and publishers, including Anthony West, literary critic of the New Yorker magazine; Richard Baron, president of Dial Press; Jules Feiffer, the cartoonist; Andre Schiffrin, editor in chief of Pantheon Press; Robert Gorman Davis, a literary critic; and Hans Konigsberger, an author.

Several authors had urged the walkout in private telephone calls made to colleagues and members of the publishing trade since last week.

Most of the demonstrators returned after Humphrey finished speaking.

Hospital Exec to Leave Post

A local hospital executive will head up a new Medicare department for the Blue Cross Association, the nationwide insurance group.

Bernard R. Tresnowski, 34-year-old associate administrator of St. Joseph Mercy Hospital, has been named director of the new Blue Cross division with offices in Chicago, Ill.

Tresnowski, of 2689 Plumbbrook, Bloomfield Township, said he would leave his present post sometime this spring after the second phase of the local hospital's extension building program gets underway.

Recently appointed associate administrator, Tresnowski, former assistant professor of hospital administration at the University of Michigan, joined the staff of St. Joseph Mercy Hospital in 1963.

Sister Mary Xavier, hospital administrator, said a replacement would be sought for Tresnowski's administrative post.

\$13,000 Fire Strikes Home in Waterford

Fire broke out at a Waterford Township home this morning, causing an estimated \$13,000 damage.

A mother and two children managed to escape without injury.

Fourteen township firemen used three pieces of equipment to fight the fire which they had under control in less than 20 minutes. They remained at the scene for almost two hours.

Damage to the \$20,000 one-story frame home at 2941 Silver Hill was listed at \$8,000 to the building and \$5,000 to the contents by Township Fire Chief Lewis Goff.

Garry Looney is the home's owner and occupant.

The blaze started shortly after 9 a.m. in a furnace room located in a closet adjacent to the kitchen.

Mrs. Looney was working in the kitchen when she smelled smoke. She then spotted flames and led the children to safety.

Goff tentatively listed the cause of the fire as radiant heat from the furnace and stack igniting wall paneling.

BERNARD R. TRESNOWSKI

Arms Deal Brings Bid by S. Korea

SEOUL, South Korea (AP) — America's South Korean allies are saying "me, too" in a big way after learning that the United States is selling neutral Singapore 23,000 modern automatic rifles.

The Koreans want up-to-date guns for their troops along the frontier with North Korea as well as those in Vietnam who are still armed with World War II model weapons.

Defense Minister Kim Sung-eun told a news conference he will ask U.S. officials to issue modern automatic weapons to the 45,000 Koreans in Vietnam when he accompanies Premier Chung Il-kwon to Washington next week.

Kim refused to comment on the Singapore weapons deal, but he said it was urgent that "outmoded small firearms of our boys" in Vietnam be replaced with automatic weapons suitable for jungle warfare.

Kim, a former Marine officer, said modern weapons also were needed for his troops manning the 152-mile Korean truce line with World War II M1 rifles while North Korean troops across the line are armed with modern automatic weapons.

The Seoul newspaper Hankook Ilbo said the sale of automatic weapons to Singapore "makes us feel as if we had been betrayed by a friend."

Ford and Laird Eyed for Post

WASHINGTON (AP) — Either Rep. Gerald R. Ford of Michigan or Rep. Melvin R. Laird of Wisconsin may emerge as permanent chairman of the Republican National Convention in 1968.

Ford is starting his third year as House GOP leader. Laird is chairman of the House Republican Conference and headed the platform committee at the 1964 GOP National Convention.

When asked about the possibility, Ford said he would be honored to serve in any capacity at the convention but would certainly abide by whatever decision is made by the national committee.

Laird, when asked the same question, replied: "I favor Jerry Ford."

But, because Ford is from the same state as Gov. Romney, one of the top possibilities for the GOP nomination, complications could result.

Normally, Republicans divide the major convention posts of chairman of the convention, committee on resolutions, and keynote speaker among the governors, Senate and House leaders.

Unlicensed Drivers Face State Action

LANSING (AP) — The state will begin a crack down on unlicensed drivers Friday.

Unlicensed drivers, previously able to avoid penalty under the Department of State's point system, will lose their immunity as of Friday, reports Secretary of State James Hare.

Hare, in explaining the previous loophole, said the entire driver improvement activity centers around possession of a driver's license.

DEFINITION BROADENED "If we found someone without a license, we could take no action under the law," Hare said. "The new law enables us to take any type of action that we deem fair."

The change was accomplished by broadening the definition of a license to include any driving privilege.

Although the Department of State previously could not discipline the unlicensed driver, local police could issue a citation for driving without a license. The penalty could include a fine or jail term, at the discretion of the judge.

Safety Helmets Spark Lansing Row

LANSING (AP) — Helmets, usually a protection in battle are causing a fight in Lansing.

Lansing police said they will start issuing tickets Friday to motorists not wearing helmets—including drivers of the U.S. Post Office's three-wheel cars—under a new state law taking effect that day.

Mrs. Bernice Hill, Lansing postmaster, said the matter has been referred to the Post Office's legal department in Chicago and no helmets will be bought or issued until a decision is made there.

Birmingham Area News

School Work Contracts OK'd

BIRMINGHAM — Contracts totaling \$404,929 for additions to Walnut Lake School have been approved by the board of education.

When completed, the construction will provide room for about 200 more pupils in the elementary school on Walnut Lake and Inkster.

Winning contracts were:

Roth, Watkins and Wise, \$225,000 for general contracting; Thermo Heating, \$124,000 for mechanical work; Electrical Installation, \$46,150 for electrical work; and Canton China, \$44,939 for kitchen installations.

Preliminary drawings for an addition to Groves High School that would provide for 500 more students were also inspected by the board.

A group from the Franklin School PTA appeared and asked that additional improvements be made at that school.

EXPANDED, REPAIRED

The group asked that the elementary school at 3220 Franklin be expanded and repaired.

It will be constructed at Opdyke and South Boulevard, adjacent to Foxhills Subdivision.

The request was taken under consideration.

The board announced the appointment of Dr. Gerald W. Ellis as director of elementary education. After July 1 he will replace Dr. William Corliss who is leaving for a post in Lincoln Park.

Ellis is currently a consultant in education at the University of Missouri.

BLOOMFIELD HILLS — The board of education has approved preliminary drawings of a new elementary school for the district.

It will be constructed at Opdyke and South Boulevard, adjacent to Foxhills Subdivision.

NATIONAL WEATHER — Showers are forecast tonight in the northern and central Pacific Coast region, spreading eastward through the northern and central Plateaus and changing to snow in the northern Plains. Showers are expected in southern Florida and the western Gulf states. It will be colder in the northern Plains and Plateaus.

Planning Funds Needed

It appears more local support will be needed to implement Waterford Township's proposed third year "701" planning program.

Indications are the Michigan Department of Economic Expansion will have to trim part of the proposed project because federal assistance was somewhat less than the amount sought.

The township planning commission has recommended that the Township Board enter into a contract with planning consultants Driker Associates, Inc., to perform that part of the program eliminated by the state.

The \$25,000 program called for one-third township financial aid and two-thirds federal assistance.

The ratio still applies to that portion of the program the state approves.

CUT EXPECTED Expected to be cut is the public relations phase of the project

which entails publication of several brochures and presentation of slides to the public to explain the township's comprehensive development plan.

The Township Board will be asked to finance this phase of the program.

In addition to public relations, the program deals with future industrial development in the township, capital improvements and an attempt to improve appearance and environmental quality of the township by upgrading commercial-industrial frontage on the three major thoroughfares — M59, Dixie Highway and Elizabeth Lake Road.

Township planners said they will have a display at the North Oakland County Home and Sport Show to be held at the Community Activities, Inc., building, 5640 Williams Lake, Waterford Township, March 17, 18 and 19.

What Lent Means to Me

(EDITOR'S NOTE — This is the 25th in a series of articles through Lent written by prominent Pontiac area citizens.)

By DR. DONALD W. MARTIN
Medical Superintendent, Pontiac State Hospital

The season of Lent evokes for me what I consider the most significant messages Jesus had for us—that the essence of life is love and the essence of love is giving of one's self.

Unfortunately, there are many aspects of brotherly love, as conceived by the Master, which most of us grasp only dimly at best.

Particularly for those who work with the sick and the troubled, some such guiding principle is an essential if they are to be truly helpful. But, indeed, would not any life without the spirit of giving be meaningless?

DR. DONALD W. MARTIN

Hoffa Bows to the Law of the Land

The legal vicissitudes of JIMMY HOFFA have been headline news for so long that his imprisonment Tuesday, after a series of court appeals, for the eight-year term to which he was sentenced four years ago comes as something of an anticlimax.

HOFFA

There would be general agreement that HOFFA, who rose from a youthful warehouse worker to the head of the Nation's largest labor union, had lived outside the law and had arrogated to himself powers both questionable and undemocratic.

His defiance of executive and

judicial arms of the Government and to no little extent disregard of the public interest established him as a symbol of independence frightening to contemplate.

Though he went to prison protesting his innocence and charging that he was the victim of a conspiracy in high places to "get him," none but the most prejudiced would argue that he had not enjoyed full respect for his legal rights and given the advantage of every avenue of appeal known to the law.

That HOFFA, personification of organized power alien to American concepts, nonetheless now takes his place among the generality of lawbreakers is heartening reassurance of the basic soundness of the Country's system of jurisprudence.

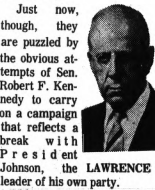

'Where There's Smoke There's Fire—Or Is There?'

David Lawrence Says:

Bobby's Efforts Puzzle Politicos

WASHINGTON — Politicians like to talk about the strategy of a would-be candidate for the presidency in either party.

Just now, though, they are puzzled by the obvious strategy of Sen. Robert F. Kennedy to carry on a campaign that reflects a break with President Johnson, the LAWRENCE leader of his own party.

What is the objective of the New York senator? Does he think he can displace President Johnson as the party nominee in 1968?

Does he believe that by keeping in the public eye there will be a chance for him to be at the top of the Democratic ticket in 1972? Why would anyone begin campaigning for an election that is more than five years away?

These questions cannot be answered merely by the explanation that constant campaigning means prominence and a gathering of political support in many parts of the country which cannot be achieved by sitting in Washington and making speeches in Congress.

But, politically speaking, the strategy of Sen. Kennedy is open to considerable questioning by the experts.

CAPACITY FOR LEADERSHIP

For one thing, the American people form favorable impressions of a candidate not on the basis of his deviation from his party but on what capacity for leadership he exhibits.

Theoretically, there are votes available on the Vietnam war issue in both parties.

A presidential candidate is built up by his viewpoint not on one issue but on many issues. People want to know, for instance, where he stands on questions that affect the pocketbook.

Does the New York senator have something else in mind to serve his political ambition?

Verbal Orchids

Mrs. William D. Mahon of Auburn Heights; 82nd birthday.

Mrs. Ella Reinke of 2300 Watkins Lake Road; 90th birthday.

Ford L. Stuart Sr. of Rochester; 85th birthday.

Clarence Wood of 43 Dwight; 85th birthday.

Mrs. Frank Williams of 2300 Watkins Lake Road; 90th birthday.

Mr. and Mrs. John Monte of New Carlisle, Ind., formerly of Care; 68th wedding anniversary.

prior to the 1972 campaign? Is he assuming that in 1968 there is a chance for him to be named vice president? Politicians say this is improbable.

ONE EXPLANATION

One explanation given for Sen. Kennedy's cross-country and international stumping is that he feels he is regarded by many voters as rather young and inexperienced. He wants the people to get better acquainted with him.

There is no reason why anyone who aspires to be the presidential nominee shouldn't make speeches throughout the land, but his chances of getting increased prestige arise from what he

says and does that will be of lasting value to the electorate.

Sen. Kennedy has a right to portray himself as a knowledgeable exponent of policies in international and domestic affairs.

But the picture of him which the nation is getting today is that of an individual so ambitious to win the presidential nomination that he is even willing to part company with the leader of his own party, perhaps because the latter is experiencing a decline in popularity according to the public-opinion polls.

(Copyright 1967, Publishers Newspaper Syndicate)

Bob Considine Says:

Say New Word or Phrase and It'll Be a Surprise

NEW YORK — Some word or phrase you'll utter in the next five minutes was framed or popularized by Shakespeare, Moses, Socrates or Plitdown Man.

I am indebted to my friend James Keller, the Maryknoller, for the correction that follows. In a current issue of C h r i s t o p h e r News Notes, Father Keller digs into the history of some of our commonest words and discovers enchanting ancestors.

The word "salary," which just about all of us find creeping into our conversations and gripes, derives from the Roman "sal" (salt).

Soldiers bought salt with their money even before they bought wine because they could not fight or even exist without it.

Sometimes they were paid directly in salt instead of coin. Thus a popular Roman tribute centuries before Christ was "He's a man worth his salt."

And the Romans probably copied that from the Greeks, the Phoenicians or the Egyptians, who in those days had men worth their salt.

Feeling apathetic today? The Greeks had a word for that. The word was "apathos." The "A" meant a way from, and the

The Pontiac Press is delivered by carrier for 35 cents a week where mailed in California, Colorado, Oregon, Washington, Idaho, Utah, and Western Canada. It is \$4.00 a year elsewhere in the United States. All other places in the United States \$3.00 a year. All mail and subscription orders to the Pontiac Press should be sent to the Post Office Box at Pontiac, Michigan, Member of ABC.

Smiles

Speeding in the rain on bald tires can provide you with a hair-raising experience.

Inflation is the yeast in the ever-rising cost of living.

Voice of the People:

Citizens of Pontiac Area Need Good Bus Service

Pontiac needs good bus service. Older folks have a hard time if they live out a ways. There are no sidewalks in many places and people fearful of being run over curtail their activities. We are killing our older people by our inconsiderate, careless ways and unconcern.

1321 VINEWOOD

'Recent Dog Attack Was Inevitable Incident'

The recent "dog pack" attack on Peter Kohnen was no accident—it was an inevitable incident. Existing laws that dogs must be fenced in, tied up or on a leash are neglected daily. How many times must "kind and gentle" dogs be allowed to bite our children before some effective action is taken against the owners of the dogs? Isn't anyone interested in a punishment for people who break the law by letting their dogs run loose?

WATERFORD TOWNSHIP

Comments on School Spirit at Avondale

To those who want the name of Avondale changed because of lack of spirit and pride, the turnout of Avondale students, faculty and parents at the recent championship game between Avondale and Romeo could show nothing else but school spirit and pride in the name of our school. Congratulations are in order for the teams and for Coach Niera.

KAY CLARK
AVONDALE STUDENT

Why do some think that changing the name of Avondale School District is going to change the school's reputation? Other school districts have worse reputations than Avondale and they're not talking of changing their names.

LINDA MARKS
CLASS OF '65

To the new Class B District Champs, the Avondale Yellow Jackets and Coach Niera, congratulations on a job well done. The hard work and determination paid off.

SHELLY

Who says Avondale High School students don't have school spirit? Anyone who attended the basketball tournaments in which our school played can tell you differently. We students at Avondale are proud of our school.

JOAN CASEMENT
CLASS OF 1967

'Our Elderly Need Promised Tax Relief'

I am a retiree, age 71, and a veteran of WWI. Many politicians propose the need for tax relief for the elderly but no one seems to bring about concrete results. Last year the valuation of my home was reduced \$1,000 when the veterans were assured a \$2,000 reduction. This year a state equalization ruling raised the valuation \$1,310.

I am charged \$131 for school tax. Residents of a nearby trailer park are assessed only \$24 per year regardless of the number of school-age children in the trailer home. We need promised tax relief for senior citizens.

TONY MONTARILLI
AUBURN HEIGHTS

'Treasurer Should Welcome Audit of Books'

I cannot understand why the treasurer of Pontiac Township would not be elated that the State auditors give her a clean bill of health if she is interested in an efficient accounting of our tax money. Every business is desirous of an audit of its books from the standpoint that it then knows it is not operating under an antiquated system that does not give a true picture of operations.

E. J. PAUL

Two Discuss Uninsured Driver Insurance

If you have the \$35 state insurance it doesn't matter how many accidents you get into or who you hit. Nobody could make you pay a cent so long as the damage is under \$200.

LARRY MASEY
1571 ROTSEL

My car was hit by a driver who had insurance for uninsured drivers purchased from the State for \$35 and the \$1 it collects from all insured drivers. The police told me that the State doesn't cover any damages that are less than \$200. Insured drivers pay \$1 for uninsured drivers to drive and if they are hit by them, damages are less than \$200 they pay for that too. That doesn't sound fair. I hope the coming revision to the government better than this.

Question and Answer

We watched the movie "PT 109" and there was a Barney Ross in it who was killed. Is he the Barney Ross whose life story was "Somebody Up There Likes Me"?

MRS. H. HOPPER
96 S. MARSHALL

REPLY

According to information found by the research librarian at City Library, they are not the same.

Romney Safety Program Seen as Lifesaver

The special message sent by Gov. ROMNEY to the legislature as part of a traffic safety program was sound in every respect.

Michigan's 1966 traffic death toll of 2,270 that marked a new high and the related economic loss of \$410 million from highway casualties and accidents call for immediate and drastic action if the State's highways are not to become avenues of death.

Recognizing that highway safety resides mainly in the hands that hold the wheel, the Governor called for several overdue regulations calculated to lessen the hazards of highway travel.

One of the most important measures advocated is the so-called implied consent provision inherent in the acceptance of a vehicle license. It obligates a motorist to agree to a chemical test for alcohol if he is involved in an accident and the test deemed necessary. Since it is estimated that 50

per cent of drivers involved in accidents have been drinking, the procedure thus authorized would almost certainly translate into more responsible driving.

Another key proposal of the message was compulsory vehicle inspection. The last session of the legislature struck out the compulsory feature of the inspection law it passed in favor of a selective check by the State Police, thus denying it complete effectiveness.

Other ROMNEY recommendations dealt with issuance of driver licenses by trained personnel under the Secretary of State's office, driver education for all new drivers regardless of age and broadening of motorcycle control laws.

With the Federal government about to set up uniform state highway safety regulations tied to its highway aid program, it is high time Michigan took the initiative and brought its own highway safety legislation abreast of the times.

Nelson Eddy

A voice that had thrilled millions was still heard when death beckoned NELSON EDDY while performing in a Miami Beach nightclub.

An entertainer of the old show business tradition, that is undoubtedly the way he would have wished it.

The 66-year-old baritone rocketed to fame in the 1940s when, co-starring with Jeanette MacDonald, he captivated movie audiences with a succession of smash musicals. Eddy will perhaps be best remembered by elders for his

memorable portrayal of a North-West Mountie in "Rose Marie." In recent years, he has been a top concert and nightclub attraction.

EDDY sang with the Philadelphia Civic Opera when he was a young advertising copywriter. An appearance in Los Angeles got him a movie contract that led to fame and fortune.

A multitude of Americans are saddened by the fate of an outstanding star of the entertainment world whose personal life was both inspiring and exemplary.

LBJ Hits Cool Middle Ground

By JAMES MARLOW
AP News Analyst

WASHINGTON — President Johnson, going through three phases in his public relations since taking the White House in 1963, has hit on a cool middle ground where he is likely to stay.

He was fiercely driving and ebullient at first, so obviously anxious to be liked he looked awkward; then he became so reticent he almost disappeared from view; now he plays it straight and deadpan.

This third role has helped him. That's why he will probably maintain it until the end of his presidency, whether it's in 1969 or 1972.

Johnson was a man of lunging energy, an arm-around-the-shoulders and let's-reason-together kind of man, who tried to get things done amicably in his six years as

Democratic leader in the Senate.

That he was politically ambitious then, with his eyes on the White House, became plain when he tried for it in 1960.

DIDN'T SAY MUCH

He didn't say much on the Senate floor in his leadership days there, which was contrary to his nature. In private he talked a torrent. But he did his talking and persuading with the temperamental senators behind the scenes.

He wanted to get along, to be liked. It was one of the best ways to get things done in the Senate where his achievements were later to be the foundation for his bid for the presidency.

In the process he became the best Senate leader in his century, perhaps in American history. For a while after President John F. Kennedy's death, Johnson was rather muted.

But when he got adjusted to his new job, he became his old Senate self, although there

was a difference in the two jobs.

The White House job required public appearances and pronouncements, and by the way of television, direct relations with the whole country. In that situation there was no place for the arm-around-the-shoulders system.

He was awkward, particularly on television where his gestures, his facial expressions and even his rhetoric looked and sounded like pleas to be liked.

He compounded his problem by appearing impetuous at times, as, for instance, in his repeated appearances on television to explain American involvement in the Dominican Republic revolt. Gradually, his standing in the public opinion polls went down, although the Vietnam war helped to do that.

Last summer it seemed questionable he could win reelection in 1968. His Democrats badly needed help in the 1966 election campaigns, but he made relatively few campaign trips or speeches for them.

Appeal Issued to Biologists

Urged to Join 5-Year
Worldwide Project

By Science Service
WASHINGTON — An urgent call has gone out to all U. S. biologists to join in the worldwide five-year plan to learn enough about biology to enable man to control his environment and himself, and to know enough to avoid making irreversible changes in his natural world. The International Biological Program, functioning as a planning organization since 1963, will enter its operational phase in July of this year.

A report issued this week by the U. S. National Committee for the IBP outlines the crucial areas of study of worldwide biology and lists specific ways for biologists to participate in this monumental research effort that has the support of 38 countries.

The U. S. committee, headed by Dr. Roger Bevelle, director of the Center for Population Studies at Harvard, was organized by the National Academy of Sciences which is distributing the report to 49,000 scientists in the U. S.

Hopefully, international cooperation in biological research will lead to answers to some of the following questions:

RELATIONSHIP

What is the relationship between genetics and the variability of human populations?

How do terrestrial freshwater and marine ecosystems interact?

What is the physiological basis, at cellular levels, of man's adaptation to his environment?

How does stress affect man's behavioral, physiological, morphological and ultimately genetic characteristics?

CONFERENCES PLANNED

What can man do to gain better understanding of his nutritional needs and what can he do to meet them?

A series of about 30 working conferences are being planned to encourage scientists to develop research projects.

'Phantom Sniper' Gets Hearing

(Continued From Page One)

A month after his acquittal he was committed to Ionia by Oakland County Circuit Judge Arthur E. Moore, who ruled that Taylor was still insane.

ADMITTED 16 ATTACKS

Following his arrest in March 1967, and his admission of 16 sniping attacks on women in the south end of the county, Taylor was admitted to Ionia and then released in 1961.

He was returned the same year after he was accused of attacking two women with a butcher knife in Detroit. Taylor was ordered to stand

Edge Out Detroit in Dirty Air Derby

WASHINGTON (AP)—A public health official has rated Detroit third in the national dirty air derby.

S. Smith Griswold of the National Center for Air Pollution Control told a Senate subcommittee Wednesday that New York has the dirtiest air in the nation.

Griswold said Chicago was second and Washington, D. C., fourth.

"A major source of pollution is right here on Capitol Hill," Griswold said.

Griswold quickly explained he was referring to the Capitol's power plant, not to the lawmakers.

Cost-of-Living Cutoff Irks Saigon GIs

SAIGON (AP)—American servicemen in Saigon reacted with groans, sighs and occasional screams today to the news that they're losing \$21-million a year in living allowances. The guys out in the boonies couldn't care less — they weren't getting it.

Short-timers whose tours in Vietnam are nearly over took it casually. Others said the Pentagon was fouled up, blind, crazy or an unprintable combination of these and other things.

The Pentagon announced Wednesday that on May 1 it is ending the cost-of-living allowances paid to some 31,200 ser-

vicemen in the Saigon area. The base. It'll cost me about \$2 a day and I will really miss it."

Many men drawing the allowance were actually living in military quarters and eating at military messes. But others told a different story.

"Look around this town," said one Army sergeant who didn't want his name used. "There are hundreds of guys who miss meals and have to grab taxis and pay for all kinds of things they wouldn't have to if they were working on some regular

"It's a dirty shame," said The U. S. command has announced that almost all American military personnel will be moved to bases outside of Saigon this year. About 1,000 troops have been moved since November, officials said, and they area known for its high cost of living — Saigon."

Mohair and Worsted,
Handsomely Cut
By Eagle**

The pleasures of this blend go further than its tasteful appearance. For it's light in weave (which makes it perfect for summer) . . . yet sufficient in body to wear from now through fall. And its look of luxury makes it equally at home for daytime or evening wear. So remarkable a fabric deserves the attention Eagle gives it in superbly cut and tailored one- and two-button models. You'll find them in shades that reflect the Light Look beautifully: cool slatestone grey and rich new azure blue—both dimensioned from

within by gentle highlights.

This is the Light Look at its most elegant.

Pontiac Press Photos

Nancy Cooke, at the "mike," took her Pontiac-Oakland Town Hall audience around the world, via imagination. Wednesday with comments on fashions and customs in all the countries she has visited. Town Hall members modeling current trends from South America are (center) Mrs. John Knablock of Kellen Court and Mrs. Peter Hoogerhyde of Chippewa Road.

Taking a clue from the success of advertisers, we posed these two Town Hall models against the backdrop of a shiny automobile. Again in fashions from South America, are (from left) Mrs. Donald Long of Lexington Avenue and Mrs. Edwin Adler of Silverhill Drive.

"Ole" and all that stuff, says Mrs. Gus Birtas of Robertson Court as she models this sophisticated outfit from Chile. Her dark hair and slim figure gives authenticity to the smart ensemble.

Women's Section

World Fashion Tour for Town Hall Goers

By JEANNE NELSON

An enthusiastic Pontiac-Oakland Town Hall audience was whisked upwards and away to strange and wonderful places via an imaginary jet on Wednesday.

Their stewardess was Nancy Cooke, noted fashion ambassador who provided the unusual fashions of other lands for Town Hall members to model.

Not just another fashion show, this event took on the feeling of communication between nations. Nancy Cooke who is in reality Mrs. Tony Jackson and the mother of four, ranging in age from 22 to 12, transported her listeners from South America to Thailand with amusing quips along the way.

BEST DRESSED

She calls Buenos Aires the "Paris of South America." "Here, she claims, 'among the upper class are the best dressed women in the world.'"

Of Berlin, Germany she says, "The cutters are excellent and able to reproduce Paris designs better and for less money. Fashion, she adds, 'is Berlin's second largest industry now.'"

Speaking briefly of Greece, she explained, "this country now at crossroads with communism, is influenced in fashion by each island which brings its own interpretations and customs to the design."

Next stop was Tel Aviv where "the people are busy with productive lives and from where the Israeli knits have become known the world over."

REAL GOLD THREAD

In contrast, just across the border into Jordan, "One immediately senses the discontent of these arid wastelands," she said.

A white velvet cape trimmed

with real gold thread, a gift from King Hussein of that country, was modeled with a black velvet court dress.

From Iran she had brought a 200 year-old gold brocade tunic-like jacket featuring Persian double sleeves.

One great occasion was meeting and talking with the High Lama of Tibet.

From Hong Kong she brought several beaded gowns. Some were cages over satin sheaths, while others had handbeading directly upon the fitted silhouette.

Color was used on a few but the overwhelming preference seemed to be for crystal.

Among the questions Miss Cooke answered at the luncheon in Devon Gables was the one about how she got started in this business.

Her answer was, "The U.S. Information Service selected her as a typical American housewife." Of her own wardrobe, she says, "It's terrible, I wear everything anyone sends."

Alvin Steinman, owner of Alvin's of Pontiac, introduced the speaker at the luncheon.

Greek Women Set Mardi Gras Fun for Saturday

The Philopteros Society of the new St. George Greek Orthodox Church will sponsor a pre-lenten Mardi Gras dance Saturday at 8:30 p.m. in the church hall.

There will be costume judging and Greek and American dancing along with various Greek foods.

Mrs. Philip Christi and Mrs. Chris Stevens are cochairmen. Working with them are Mesdames: Chris Anast, Theodore Brown, William Coulos, Gus Froumis, Sara Kentros, Paul Mitchell, William Mitchell and Thomas Nicholas.

More are Mrs. Eugene Ryeon, Mrs. Sam Bagel, Mrs. John Pappas, Mrs. Nick Papatheodore, Mrs. Steven Socrates and Mrs. Steve Stergios.

Let Fretful Teen Daughter Walk to School--Books and All

By ABIGAIL VAN BUREN
DEAR ABBY: My daughter (I'll call her Linda) goes to high school and her first class begins at 7:55 a.m. Her father drives her as he goes right past the school on his way to work.

ABBY

The problem is my husband. He pokes around so much before he finally gets going that he's made Linda late for school several times.

And when she's not late, she barely makes it. Linda gets so nervous and upset, she can't keep her breakfast down. I have begged my husband to be more considerate, but every day it's the same story.

I suppose Linda could walk, but it would take her half an hour, and she always has a load of books to carry. Is there a solution?

LINDA'S MOTHER
DEAR MOTHER: Linda should get to school without her father's uncertain assistance. The walks (even with a load of books) won't hurt her as much as those fretful mornings will. (How does Linda get home?)

DEAR ABBY: My husband owns his own business and he travels over a large territory, which means he must be away from home over the weekend quite often.

He keeps asking me to meet him out of town for the weekend as he gets lonesome for me. Abby, we have three children, eight, 10 and 13, and although I can always get someone to take care of the children, I have mixed emotions about running off and leaving them just to keep my husband company. What would YOU do?

MIXED EMOTIONS
DEAR MIXED: I would join my husband as often as common sense and practicality allowed. I would rather have someone taking care of my children than my husband.

DEAR ABBY: We have received several wedding invitations with a smaller card included which reads as follows:

Mr. and Mrs. — will attend Number of guests —
The outer envelope was addressed to Mr. and Mrs. J. Smith and the inner envelope was the same.

Is it proper to fill in Mr. and Mrs. Smith plan to attend, and the number of guests is FIVE?

(This includes our two children and my husband's mother who makes her home with us.)

I say that since there was only Mr. and Mrs. on the envelopes, they want only the two of us.

My husband says that we are allowed as many guests as we wish, and they are asking us to please fill in the number. Who is right?

"TWO OR FIVE?"

DEAR TWO: You are. Under no circumstances should invited guests include others without first checking with the hostess. She wants to know whether both you and Mr. Smith will attend. The answer is TWO.

DEAR ABBY: A friend of mine — not a very close friend, but we are in the same circle — has a nasty little habit. She goes into other people's refrigerators on the pretense of "getting a glass of water."

She says she doesn't like to bother the hostess so she helps herself.

I am a good housekeeper and keep things orderly, so it's not that I'm ashamed of what she might see, but I do not like to have strangers "casing" my refrigerator. How can I get this nosy person to cease this annoying practice?

ANNOYED

DEAR ANNOYED: Make sure there is a pitcher of ice water and plenty of glasses handy when you know the "caser" is coming. If she invents another excuse to go into your refrigerator, put a padlock on it for her next visit. She'll get the message.

DEAR ABBY: I telephoned an unmarried man-about-town and invited him to my home for a dinner party last Friday. He said he would be delighted to come, and before I had a chance to say another word, he said, "Do you mind if I bring Lulu?" (She is one of his many lady friends.) Well, I couldn't very well have told him not to bring her.

It spoiled my plan because the whole idea was to have him meet an unmarried girl, friend of mine. My husband said I should have set him straight then and there. Would that have been proper? How should this have been handled?

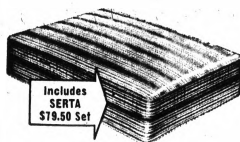

SLOW THINKER
DEAR SLOW: You should have invited him this way. "If you are free for dinner on Friday, I would like you to be the dinner partner of a friend of mine." That way you wouldn't have to say — "but don't bring Lulu."

CONFIDENTIAL TO "A MOTHER'S RIGHT" IN ST. LOUIS: Physicians are forbidden by law to dispense birth control pills to minors, no matter what their mothers' say.

Troubled? Write to Abby, care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1.00 to Abby, care of The Pontiac Press.

English Recipes Appeal to U.S. Cooks

By JANET ODELL,
Pontiac Press Food Editor
Jean Wolfe who heads the cafeteria at Ford Tractor Division, Ford Motor Company in Birmingham is English.

She has sent us some of her favorite recipes, two of which we're giving you today.

The first is for Lemon Cheese or Lemon Curd. It is used like a jelly, between layers of sponge cake, or in pastry shells for tarts.

LEMON CHEESE

By Mrs. Jean Wolfe

1/4 pond sugar
1/4 Pound butter
2 eggs

2 lemons, rind and juice
Put sugar, butter, lemon rind and juice in double boiler. When sugar has dissolved, add the well beaten eggs. Cook over boiling water until mixture thickens, stirring frequently. Cool and serve.

Parkin is "quite a lot like gingerbread with a rough texture." It was always served in Mrs. Wolfe's girlhood home on Nov. 5, Guy Fawks day.

PARKIN

1 cup flour
6 tablespoons butter or margarine
1 teaspoon ginger

5 teaspoons dark corn syrup
1/4 cup milk
1 1/4 cups oatmeal
1/4 cup sugar
4 teaspoons molasses
1/2 teaspoon baking soda
Put molasses, corn syrup, butter or margarine and sugar in a saucepan and heat until melted.

Put dry ingredients in bowl. Add milk to melted butter mixture and mix well with dry ingredients. Beat all together for one minute.

Four into greased 8x8x2 pan. Bake in 375-degree oven for one hour. Cool in pan and cut in squares.

Kappa Deltas Set Meetings for Tuesday

Two groups of Kappa Delta Alumnae Association of South Oakland County have meetings slated for Tuesday.

The afternoon group will gather for a musical preceded by luncheon at 12:30 p.m. in the Gilbert Lake home of Mrs. Russell E. Smith.

Assisting the hostess will be Mrs. Henry Dawkins, Mrs. Ray Kassabian and Mrs. Stuart M. Totty.

EVENING GROUP

Mrs. John M. Clark of Birmingham will host this group at 8 p.m. Obhostesses are Mrs. Wolcott Hall and Mrs. Eldon Trueman.

Plans are being made for the sorority's third annual fashion show-luncheon slated for May 11 in Devon Gables. Proceeds will be used for philanthropic endeavors.

Nature Not Disclosed

Premier's Wife Is Ill

MOSCOW (UPI) — Soviet Premier Alexei N. Kosygin's wife has been gravely ill for several months, informed sources said today.

The nature of the illness which has confined Klavdia Kosygin to her home was not disclosed.

But it was serious enough to prevent her from joining the premier on his official tour of Britain last month.

A tall, blonde and elegant woman in her mid-50s, Mrs. Kosygin is self-effacing, and, unlike ousted former Premier Nikita S. Khrushchev's wife Nina, unknown to most of the Russian people.

Wives of Soviet leaders in the post-Khrushchev era are not publicized and are seldom seen together with their husbands. Some of them who have traveled abroad are better known in foreign countries than here.

But since her husband became premier Mrs. Kosygin has had little opportunity to travel abroad.

Although she was on hand to entertain Mrs. Charles De Gaulle when the French President was here last July, the French-speaking Mrs. Kosygin was unable to accompany her husband to Paris in December.

The French were then told that Mrs. Kosygin had had a serious operation in November and could not travel.

She will be missed by the wives of the foreign diplomatic corps Wednesday when the Soviet government entertains them on the occasion of "International Women's Days." She was the wife of the party last March 8 when as one of the hostesses at a party for wives of ambassadors at the house of receptions she led the ladies in folk dancing.

CARLENE ANN SULLIVAN

Dr. and Mrs. Carl S. Sullivan of Orchard Lake announce the betrothal of their daughter, Carlene Ann, to Larry William Gibson, son of Mrs. William C. Gibson of Ann Arbor and the late Mr. Gibson.

Both are alumni of University of Michigan. July vows are planned.

Graphic Art Is Featured at Gallery

"The Plate, The Block, The Stone and The Print" is an exhibition which reveals how diverse are the means of graphic art.

The show, being circulated by Associated American Artists, can be viewed in Cranbrook Academy of Art Galleries Saturday through March 28.

The three traditional methods of making graphic arts plates are scoring smooth copper with a burin for intaglio engraving, carving in wood with a gouge for relief printing and drawing on paper with grease crayon for lithography.

VARIOUS METHODS But today the graphic artists print from almost anything in almost any way as this exhibition demonstrates. For instance, Sid Hammer produces his plates by melting vinyl with a hot incising tool, thus creating a burr of fused plastic.

Biros Margo's designs are carved into a layer of celluloid and molten celluloid is used to build up some areas of the plate. A very thin soft copper is laid over the celluloid, shaped to the contours of the design with the result the image is printed without ink on thick paper by the intaglio method.

Michael Ponce de Leon uses a method which also involves processes used by silversmiths and jewelry designers. He makes his own inks and prints with wet paper on a hydraulic press of his own design, capable of exerting 10,000 pounds pressure.

Cranbrook Academy of Art Galleries are open Tuesdays through Friday from 2 to 5 p.m. and from 1 to 5 p.m. on weekends. There is an admission.

See Tour Slides

The Pontiac Round Table Club met Tuesday in the Community Room of the Pontiac Mall. Mr. and Mrs. Joseph Bennett presented pictures and commentary on their cruise around the world.

A business meeting followed the program.

Ad Man Slates Talk at BOH This Evening

By SIGNE KARLSTROM When Charles Adams Jr. speaks at Bloomfield Open Hunt this evening after the regular family buffet, there will be many area people in the audience.

Among those who have made reservations are: Mr. and Mrs. Ernest A. Jones, Mr. and Mrs. John Bugas, Gen. and Mrs. S. L. A. Marshall, Mr. and Mrs. Darrell Roberts, the William Hartmanns, the Robert Martins, Mr. and Mrs. Chad Ritchie and the John R. Taylors.

Home after one month of traveling in Mexico are Mr. and Mrs. J. Robert F. Swan-

son. Part of their trip included two weeks with the architectural and designers' trip in Mexico. Others in that group were Mr. and Mrs. Edward Laird and Milka Ikonoff.

Mr. and Mrs. Karl-Gunnar Aronsson have enjoyed a few days in New York City as guests of Mr. and Mrs. Irving Rose. Mrs. Aronsson and Mrs. Rose are ardent horsebackriders and close friends of many years.

When Mrs. Aronsson had a birthday coming up, the Roses invited them to the theater with the stipulation that it had to be in New York. Who can say no to such a birthday celebration?

A good time was had by all at the Sherry-Netherland Hotel with dinners and theater in the evenings last weekend.

Come Sunday, the Bengt Wallgrens who are active in the Terrier Club of Michigan will show their Anstamm Bright Promise, a Scottish terrier at the "having fun" match at Vester Hall in Ferndale at 1 p.m.

Judging the show will be Ray Perso of Royal Oak. There will also be the All Breed Obedience show starting at 9:30 a.m. Sunday.

Legion, Auxiliary Mark 48th Year

Cook - Nelson Post 20 and its auxiliary members will celebrate the 48th anniversary of the American Legion on March 18 at an annual dinner.

Reservations for the 6:30 p.m. event must be made by March 16 to Margaret Ogden of Oriole Street or Margaret James at the Legion Home. Senator Harvey Lodge will be a guest.

League of Women Voters Lobby for Tax

LANSING (P) — The League of Women Voters moved on Lansing Wednesday to lobby for a state income tax.

Some 150 leaguers took part in the second Capitol invasion by female lobbyists in as many weeks.

Just last Thursday, nearly 1,000 educators, teachers and parents, mostly women, were at the Capitol to plead for additional education funds.

INVITE POLITICIANS
The women voters invited

their senators and representatives to lunch, then moved over to the Capitol to button-hole those they had missed.

"The Legislature had the responsibility to raise and spend money," Mrs. Robert Forch, League president, told the lawmakers. "We know you know how to spend it. Now show us you know how to raise it."

Mrs. Forch said the league has been seeking tax reform for 10 years.

"We haven't been tarred and feathered yet," she said to erase fear by lawmakers

that a tax increase might result in voter retribution.

"Tax reform is long overdue," she said. "I hope the issue doesn't outlive us."

Members were asked whether they had reservations about the desirability of a state income tax. A few started to raise their hands, then pulled them down.

LIKE RESPONSE

The response was similar when the women voters were asked if their husbands favored the state income tax.

One delegate asked later, however: "How can we convince our husbands to vote for it?"

Many said they would like to see removal of the sales tax on foods and prescription drugs if the income tax is approved.

Delegates were present from Allen Park, Bay City, Dearborn, Dearborn Heights, Detroit, Farmington, Flint, Grand Haven, Grand Rapids, Jackson, Lansing, Livonia, Mount Clemens, Saginaw, Warren, West Bloomfield and Grosse Pointe Woods.

Good neighbor policy is the wearing of a shifty cotton with south of the border fringing at sleeve and hemline being shown by the Texas Fashion Creators Association in Dallas. By Jo Juniors of Dallas, this dress is destined to go far in the cotton home or travel wardrobe.

Charity Ball Is Non-Event

LONDON (UPI) — Actor Peter Sellers and Princess Alexandra are sponsoring a charity event which won't take place, the "no ball."

Invitations were sent Wednesday to all the "in" people. In exchange for a one pound (\$2.80) donation to the Royal Commonwealth Society for the blind, they won't have to attend.

Sellers said the "no ball" won't happen June 31.

The raffle prizes include: —A free holiday for seven on the Albanian river.

—An illustrated history of coconut mulling.

—An autographed first edition of "My Next Move" by former Soviet Premier Nikita S. Khrushchev.

The society, of which Alexandra is president, said it hoped to sell 10,000 tickets.

"So many people find charity balls a bore," it said. "This way they can buy tickets without all the trouble of showing up."

Do remember that no matter how slim the figure, always tuck in the tummy.

If you feel less than easy in a waistline-tie or narrow sash tie, but keep the tie loose, as you do when wearing a robe.

Classes Set for Future Parents

Expectant parent classes are again being offered in Oakland County for future fathers and mothers.

The series will be taught by public health nurses and sponsored by the Oakland County Medical Society, Oakland County Department of Health and various adult education departments.

BEGIN MONDAY

Eight classes beginning Monday will be taught in the Oakland County Health Center on North Telegraph Road.

Attendance is limited to a maximum of 25 people and will begin at 7:30 and end at 9:30 p.m.

Films and other audio-visual aids are used to highlight certain topics and a conducted hospital tour is arranged.

Topics covered during the series include the mental health of the family unit; growth and development of the baby prior to and after birth; labor and delivery and care and feeding of the infant.

Those interested must register as soon as possible by calling the Oakland County Health Center.

Candidates Sought

Choose 'Mrs. Safety'

Candidates in the annual competition to select Mrs. Safety for 1967 are being sought by the Women's Division of the Michigan Safety Conference.

Deadline for nominations is March 31. The winner will be crowned at the 39th annual Michigan Safety Conference to be held at the Lansing Civic Center, April 18 to 20.

Mrs. Harry Hazard of Detroit was the 1966 Mrs. Safety.

Invitations have been sent to women's clubs and organizations throughout the state asking them to submit nominations, which may also be submitted by any individual, organization or business. Entry forms may be obtained by writing the Conference state office, P.O. Box 1136, Lansing, Michigan 48904.

The contest is open to volunteers who have an outstanding record in safety or accident prevention work. Persons, whose job or profession involves safety education, are not eligible. Mrs. Kitchen pointed out that nominees of previous years who did not win are eligible to enter again.

A single woman may be nominated, and if selected as the winner, would be crowned as Miss Safety, but officials said all winners since inception have been married.

Polly's Pointers

Remove Chocolate

DEAR POLLY—I want to help, J. C. L. so please tell her to remove chocolate stains from anything washable by simply pouring club soda over the stains. This will completely remove the chocolate. — FLORENCE

DEAR POLLY—Soak chocolate stains in cold water and rub. Do this as soon as possible and the job will be easier. — HELEN

DEAR POLLY — To remove freshly spilled chocolate rub with an ice cube and the stain will disappear.—NETTIE

DEAR POLLY — When my younger son was small he and I worked out a way that I could tell how sick he was or how much something hurt.

By using the numbers one to 10, with one meaning a very slight pain and 10 a very bad pain, he would exert great effort to decide the exact degree of hurt or pain. If he felt seven or eight I knew he was quite miserable.—MRS. L. H.

DEAR POLLY — I have felt card table covers which I also use for padding underclothes, but they shed so much lint. There is always a lot of cleaning to do after a card game as carpet and so on. I hoped vacuuming and use would stop the shedding but it is just as bad now as when the felt was new. I would appreciate any answers.—BERTHA.

DEAR POLLY — I would not be without a bottle of good old vinegar. I have just found another to add to my innumerable uses for it. I had to use my fin-

gers to take off the top layer of some glue that had hardened.

I was really "stuck up" and tried butter and so on until I remembered the vinegar. I soaked a cloth in it, rubbed the cloth over my fingers and the glue came off like magic.—MRS. B. M.

DEAR POLLY — I always buy remnant or material on sale to use for making shirts for my husband, brother and son. I use an old shirt that fits well for a pattern. It is ripped apart, ironed and an allowance made for trimmed seams as I cut into the new material.

I also use my daughter's discarded net petticoats as interfacing, the result is an inexpensive well-fitting shirt. — MOTHER OF FOUR

U. of M. Grads Get Awards

Two area women were among 15 to receive awards presented to University of Michigan alumnae at the recent 50th anniversary program of the Alumnae Council.

They are Mrs. James L. Frey of Echo Road and Mrs. Norris A. Host of Overbrook Road.

Each recipient was presented with a silver bowl and a citation recognizing her services to the university and to the Alumnae Council.

Shine Brighter

To put a brighter shine on decorative silver, rest the piece on your knee for a firmer grip while you polish and buff it. It's wise, of course, to wear a large plastic apron which can be sanded off as easily as the silver itself!

Summer vows are being planned by Mary Ann Horton, daughter of Mrs. Glenn Horton of East Brooklyn Avenue and the late Mr. Horton, to Pot. Sammie K. Grisso of Fort Gordon, Ga., son of Mr. and Mrs. Bill Grisso of Melrose Avenue. He attended Oakland Community College.

Shorter Skis Recommended

NEW YORK (UPI) — By using short skis, children and people of slight build may well reduce their chances of suffering broken legs.

Shorter skis reduce the strain on leg bones, says Dr. John O. Outwater Jr., professor of mechanical engineering at the University of Vermont. He said it after a year's study into the twisting force on the tibia, a main cause of skiing fractures.

THE DUCHESS OF WINDSOR PATTERN

Here's an aristocratic suit-dress from the Duchess of Windsor. Dart seams on the dress front end at the pockets, and the same detail is repeated on the jacket. The dress slips closed in the back and is slightly A-shaped. The two are beautifully tailored—an appropriate way to slip into spring.

Some fabrics to choose: lightweight woolsens, linen, raw silk, shantung, velvet and cottons.

Spadea's exclusive ready-to-wear sizes produce a better fit. See chart for size best for you.

Furniture Rental Is New Business

EAST LANSING—What do newbies do when the standards are too high to allow moving in with parents, but too low to justify a fully furnished house?

The answer may be to rent furniture.

Miss Margaret Boschetti, home furnishings specialist with the Cooperative Extension Service at MSU, says that furniture rental is a growing trend in many large cities.

"Social scientists say that the 20 to 29 age group—the newly marrieds—will continue to be highly mobile, probably moving three times in the first 10 years of married life. Under these circumstances, apartment living is both practical and economical."

Miss Boschetti pointed out advantages that renting furniture has, particularly for apartment dwellers:

ADVANTAGES

"First, the tenant has no interest, insurance, property taxes, moving costs or repair bills to pay," the specialist indicated.

"And for young people with undeveloped tastes in furniture or interior design, problems of furniture style, drapery and accessory coordination can be solved by consultation with a home economist or decorator. Many people don't want to wait to attain the standard they're used to. But they can't afford to buy on that level," she added.

"Buying furniture is a significant and often once-in-a-lifetime investment. Renting in the early days of homemaking gives time for a couple to formulate their style preferences until their income and family size call for more fur-

niture and larger quarters," she said.

Miss Boschetti also said that renting furniture helps avoid losses when worn out or used furniture must be moved or sold. Another advantage for young people is that valuable credit financing is left for other priority items, such as an automobile and/or education.

STILL A BEGINNER

The specialist pointed out that rental furniture business is still in its infancy. However, most major cities have had such plans for the last two years. The service is provided mainly through local merchants.

Rental furniture shouldn't hurt the selling market. Miss Boschetti predicts that as renters grow older, they'll have even higher standards for furniture they buy—all to the good for furniture dealers.

In some parts of the country, a major furniture manufacturer rents to apartment owners or managers who sublease furniture to tenants. However, some do rent directly to individuals. Thus far only one firm offers a complete rental package with decorator services.

The complete package includes all furniture, accessories, rugs, draperies, drapery

fixtures and, on occasion, carpeting and appliances.

The cost? "It depends on furniture style, of course. But in areas where a three-room apartment would rent for \$80 unfurnished, renting complete furnishings should run another \$20 to \$45," the specialist said.

In higher rent areas, where the apartment would rent for \$135, the additional furniture rental might boost the figure to \$170 a month.

The specialist indicated one disadvantage. With a rental package deal, the tenants have little leeway in adding a few pieces they already own, or adding personal touches that they acquire during residence.

Available for sale, not rental, is a new dining room set by B. Brody Seating Co., Chicago. The vinyl upholstery of the swivel chairs is green, repeating the color of the Tiffany-type shade. A fashion bonus is the table apron, upholstered like the chairs. Expandable from 42 to 59 inches with a matching leaf, the pedestal table serves for eating or card playing. Set about \$200. Line sold locally.

Noted Economist Confirms Trend

Gals to Remain in Work Field

What many women have suspected all along—the prosperity of a family rests upon the wife's economic contributions—has been confirmed by a distinguished professor of economics from Columbia University.

At a symposium in New York City cosponsored by the Ladies' Home Journal and Kelly Services, Inc. (formerly Kelly Girl Service, Inc.), Dr. Eli Ginzberg, who in addition to his post at Columbia serves as chairman of the National Manpower Advisory Committee, said:

HER CHOICE

A woman today is in a good position to decide whether she wants to work continuously or not at all or any variant in between. Many women work regularly, but only part-time. Many of them work for certain numbers of years, withdraw from the labor market when their children are young, and return later on. Others fail to return at all.

"There is every kind of pattern. Some women only start to work in their forties and some never work at all."

"However, looking ahead I would guess that probably not more than one out of 20 women will go through the whole of life without working."

In explaining why, contrary to general opinion, this is not as revolutionary as believed, Dr. Ginzberg reminded the audience composed of educational, government and community leaders:

"Women always worked on the farm, and they worked very hard, and in the past they had the same influence on the well-being of farm families as they now have on the middle-class urban family."

"The prosperity of a family depended upon the wife. If she was healthy and a good worker, the farm had a better chance to prosper."

It was only in the transition from the farm to the city that there was a break—and only for the short period of time from the end of the Civil War until World War II—in the pattern of women's work."

UNDERMINE ECONOMY
Dr. Ginzberg also pointed

Ballet Talks for Youths

Internationally famous John Kriza, assistant to the directors of the American Ballet Theater, will hold a two-day seminar on Saturday and Sunday in the Birmingham Community House.

Saturday's discussion will begin at 10 a.m. and Sunday's at 1 p.m.

Mrs. Paul Pankotian of Birmingham is taking reservations for anyone in the Oakland County area wishing to attend.

Members of the Children's Ballet Theater will sponsor the seminars to encourage the dancing talents of children in the area between the ages of 10 and 18.

October vows are planned by Marygrove College alumna, Donna Lee Kordela of White Lake Township and Raymond Michael Dushane. Their parents are the Walter A. Kordelas of Battle Creek and the Arnold Dushanes of Monroe.

DONNA LEE KORDELA

Why Grow Old?

By JOSEPHINE LOWMAN

Marriage should be the beginning rather than the end of romance. However, the relationship between husband and wife is so subtle that unless real thought and effort are spent on its cultivation, the strains and stresses of everyday life may make routine what began as an ardent alliance.

Many psychologists believe that generally speaking, men are more romantic than women. However, I feel sure that women are better fitted by nature for the job of keeping romance alive. They usually have more tact, more finesse, and more talent in creating a pleasant atmosphere. They are more aware of the little niceties which add charm to daily life. They are probably more perceptive and intuitive concerning the moods and needs of others.

Then too, a woman's husband, children, and home are, if not her whole life, at least the most important part of her life. Why then do some women settle down on marriage like a hen on a nest?

In some instances it may be because a woman married more for the security of a

home and for a family than because of great love. In most instances this probably happened because life became so complex and busy that the woman lost sight of herself as an individual and therefore, lost sight of the importance of her companionship with her husband.

Often the relationship between husband and wife begins to deteriorate when the first child arrives. Of course, the opposite should be true! However, motherhood is such a tremendous experience and so demanding as well as heartwarming, that this can easily happen unless the wife and mother gets things in focus.

Without realizing it and with the best intentions, many women begin putting the children first and the husband second in their consideration and the way they plan their lives.

This is a terrific mistake because children are only loaned to us for a few years. In what seems like just a very short time, they will leave home and go out into the world to lead their own lives and build their future and find their happiness.

Varied Levels

Do distinguish between low heels and flats. Today's varied low heels and today's hemlines go together for any age. Unlike hair, shoes ARE a fashion.

"Lift" Your Skin Tone to Fresher Color... Look "Ageless!"

New, greasiest aqueous emulsion known as 2nd Debut lifts the tone of any aged skin by natural deep moisturizing. This smooths lines around the eyes and mouth, dispels skin dryness and freshens the color of skin of any age. Regular nightly applications of 2nd Debut result in the sudden appearance of the "ageless look" in which birthdays are of no consequence and admiration is unending. Skin dries all but banishes itself. Get 2nd Debut (with CEP 600) if you are under 40. The 4 oz. bottle is only \$18.95. 2nd Debut (with CEP 1200) if you are over 40, is \$20.00 for the 4 oz. bottle. At good department and drug stores.

ARRIVALS, LTD., CHICAGO, U.S.A.

Two Workshops for Writers

Area members of Detroit Women Writers will be attending two prose workshops this month.

Mrs. Edward Wunsch of Grosse Pointe is chairman for the March 14 workshop and Mrs. John H. Bryant of Birmingham will preside at the March 28 critique.

Both will begin at 10 a.m. in the Women's City Club, Detroit.

A poetry critique is scheduled for March 21 in the Dearborn home of Mrs. Robert E. Childs.

IS MISTAKE

I know that this is a mistake because I receive thousands of letters from women who feel that life is over, that they are no longer needed, when the last child leaves home.

They have lost the feeling of rapport with their husbands, and it is a shock to discover that the children were the main bond between them. Marriage should mean shared laughter as well as shared tears.

Now, before you write me those letters, let me go on record as saying that I realize it takes two to build a wonderful companionship. The husband must also be willing and eager to invest time and consideration in the project.

Women's Group to Hear of Migrant Worker's Life

Tomas Chavez will show slides of his work with Spanish-American migrant workers and the Mexican-Indian segment of the southwestern states before the Women's Association, Orchard Lake Community Church Presbyterian, on Wednesday.

Texas-born of Mexican-Indian parentage, Mr. Chavez is a member of Gov. Romney's special committee working with the Spanish-American people throughout the state.

This program is part of this year's in-depth study by the women's group of the church on "Poverty and Affluence" and its implications.

Mrs. George Berry is chairman for the noon luncheon to be served by Ruth Circle members.

Nursery service will be provided.

Cynicism Covers Up for Moral Sloth

By MURIEL LAWRENCE

A young woman I know is continually in and out of casual sex affairs.

When they end, she suffers. The trouble is, she refuses to feel her rage and humiliation. Instead, she hides them behind a front of cynicism. Struggling, she'll say, "Well, that's men, the pigs."

For this young woman is deeply indoctrinated with the Freudian notion that all our problems are explained by some childhood wound. And as she discovered her father's infidelity to her mother at the age of nine, she attributed all her sexual disappointments to him.

When you remind her that men and women are capable of feeling a deep, abiding trust in each other, she laughs, asks for a drink and says, "Tell that to someone who didn't have the louse I had for a pop!"

So I've stopped listening to her confidences, for it's now clear that her cynicism is not due to her childhood disillusion in her father at all but to her own ethical laziness. He's her alibi for ducking out of the essential human job of choosing the self-preserving values we intend to live by and standing by them.

Her refusal to make up her mind on what she wants in a man is just the sexual aspect of her general indecisiveness. Just as she cannot decide against exploitive lovers, she can't decide against clothes she doesn't like, vacationing at places which bore her and against unreliable friends.

Mrs. Williams Yates of Lawrence Street was hostess.

A point to be made, maybe, to the reader who writes:

"My husband and I are worried about his younger sister. She is 27 and a very attractive girl. But the men she goes with are strictly the creep type. My husband called on her new one, one of those married men who always has a wife who won't give him a divorce."

He asked her when she was going to get herself a real guy. She said, "There aren't any." And then reminded him of how their

father had walked out on them when they were kids. Though it's true they had a hard childhood.

Very few of us have enjoyed a paradisiac one. So, don't be too sympathetic with this "hard childhood" excuse for cynical adulthood.

Affection for this girl won't play along with her cynicism. It will see it for what it is—moral sloth, the refusal to know the difference between what we want from life and what we want no part of.

So long as we sympathize with this "hard childhood" alibi, we encourage the loved person to drift with any current that chooses to shove her off course. It condones her content with nothing. If we love someone, we just don't do that.

Mrs. Lawrence welcomes letters from readers but because of the volume of mail she cannot answer all letters personally. Questions of general interest will be discussed in the column.

Mr. and Mrs. Wesley Byers of Dequindre Road, Washington Township, announce the engagement of their daughter, Janice Faye, to Thomas Jay Becker, son of the Rae Beckers of 28 Mile Road, also in Washington Township. He is attending Western Michigan University.

Sorority Unit Hears Program

A program entitled "Awareness of Blessings" was presented to the Zeta Eta chapter of Beta Sigma Phi sorority Tuesday evening. Mrs. Duane LaTurneau was the speaker and cohostess for the event.

Plans were made to attend combined sorority Style Show and "The King and I" movie at the Huron Theatre on Wednesday evening.

Mrs. Williams Yates of Lawrence Street was hostess.

Steam Iron

Use a steam iron to raise the nap on velvets, corduroys and suede. The iron works well on hats and even upholstery.

Hold the iron just above the fabric surface with the pile side up and allow the steam to penetrate. Veils can be restiffened by ironing with a dry iron between layers of waxed paper.

Synthetic Fibers Come Into Own

One fabric expert predicts that by 1968, 50 per cent of all fibers used in the United States will be man-made, with the greatest growth potential occurring in nylon, polyester and olefin.

The prediction comes from R. Richard Carens, director of merchandising for Beaunit.

Rocky Road to Independence

S. Arabia Facing More Strife

ADEN (AP) — South Arabia's rocky path to independence seems headed for increasing bloodshed, violence and terrorism. A U.N. mission this month will try to arrest the territory's slide into rebellion and civil war. If it fails, the entire Middle East may be affected and the future of American and British interests in Arabia be put at jeopardy.

AP Wirephoto

FEEDING A MACHINE — Dr. Albert M. Pearson, a Michigan State University food scientist, uses a machine called a gas chromatograph to measure the chemical compounds that make up meat flavor. Here he inserts into the machine a syringe containing a small sample of compounds captured in an experiment in which beef was cooked. Scientists hope to learn the chemical makeup of normal meat flavors so they can deal with any problems of abnormal taste.

Food Scientists at MSU Try to Be 'Flavor Grabbers'

EAST LANSING (AP) — They what accounts for normal meat have such fancy devices as a flavors so scientists can deal with any problems of abnormal taste.

IT'S A POSSIBILITY Such knowledge could make it possible, though not necessarily desirable, to develop a hamburger that tastes like fried chicken. Pearson said sulfur compounds and carbonyls are the two main classes of flavor compounds in meat. The sulfur compounds, he said, are responsible for the meaty flavor, while the carbonyls account for the difference in flavors among different kinds of meat. The MSU research is supported by government grants.

Tool to Test Chemical Reactions

By Science Service PRINCETON, N.J. — A new scientific tool called the Moletron has been developed by Princeton University. It generates beams of neutral atoms and molecules, permitting, for the first time, detailed studies of events in common gaseous reactions. The new tool opens the way to experiments with molecular beams at energies "substantially higher than have heretofore been possible," the Princeton scientists report. Dr. John B. Fenn is the leader of the four-man research team that found a new way of accelerating molecular beams to kinetic energies into the range of up to 10 electron volts. Although this energy is far below that generated in large or even small conventional atom smashers, which put out millions or billions of electron volts, the Moletron nevertheless fills a major gap in machines available to probe nuclear and molecular structure.

Two Will Vie for Judgeship

JACKSON (AP) — Jackson day's primary, and McGarvey attorneys Russell L. Baugh and received 1,201. Four candidates David C. McGarvey will face each other April 11 in the non-partisan runoff election for a Jackson County probate judge term that expires Dec. 31, 1968. Kevin J. Daly and Ernest J. Rogers, the only two candidates running for a probate term, expiring Dec. 31, 1970, will also run against each other in the April election. Baugh got 1,871 votes in Tuesday's election.

Powell Case Spurs Congress on Ethics Code

WASHINGTON (AP) — The Adam Clayton Powell case is pushing Congress to the brink of drafting meaningful rules to police its own conduct.

To date, more than 75 bills proposing ethical standards for representatives have been introduced in the House, most of them born in the controversy stirred by the high-flying Harlem preacher.

There were many last year, but they got nowhere.

Still other bills have been introduced in the Senate. There, a special ethics committee — set up after revelations of the wheeling and dealing of Bobby Baker — is investigating allegations that Sen. Thomas J. Dodd, D-Conn., converted to personal use funds raised for him at campaign and testimonial dinners. Dodd denies the charges.

OUTPOURING OF WORDS

The drive for some sort of ethical guidelines is being spurred on by an outpouring of words from members worried about growing public suspicion of the moral climate in Congress.

Chairman William M. Colmer, D-Miss., said Wednesday the House Rules Committee hopes to make a recommendation next week on what sort of committee should police ethics.

There have been no witnesses during several weeks of hearings which opposed the idea of setting up a watchdog group.

The House Administration Committee Wednesday increased the membership of its ethics and contracts subcommittee from 7 to 10 members — five from each party — and the vote was \$80,000 for the subcommittee's activities. The subcommittee is one of the candidates for ethics watchdog in the Rules Committee deliberations.

SAMPLE OF CRIES

Some samples of the cries of concern that have echoed through Congress in recent days include:

"The public's faith in Congress is going steadily down, down, down."

"Let us clean house."

"Our linen is on the line."

"A cloud of moral suspicion is hanging corrosively over the entire Congress."

FAIRLY COMMON

In recent years, Congress has been severe in its surveillance of the executive and judicial branches. But the public apparently believes Congress failed to watch itself.

A recent Gallup Poll asked Americans whether they thought misuse of government funds by congressmen was fairly common. Sixty per cent said yes, 21 per cent said no, and 19 per cent had no opinion.

In many ways, Congress has itself to thank for the current crisis of confidence in its integrity.

Members of Congress who are bankers can sit on a committee framing legislation affecting banks.

Those who own big farms can

sit on agriculture committees that draft bills for price supports on crops they raise themselves.

A congressman who is a lawyer can personally represent — or his law firm can represent — clients before courts or regulatory agencies that depend on Congress for operating funds.

A senator who has big oil holdings can fight on the Senate floor for legislation benefiting the oil industry.

A senator or representative can put his relatives on the congressional payroll — in fact, a recent AP survey showed that more than 50 did at some time during the past year.

PERSONAL PLEASURE

Or a congressman can, with the taxpayers picking up the tab, fly off to Paris, to Rome, to Hong Kong on official business, maybe concerned with international problems, maybe concerned with personal pleasure.

Why doesn't Congress set up strict ethical standards?

The reasons, minor and major, are manifold. But a key one is this: Ethics are wonderful to talk about, but hard to define and still harder to enforce. The world of ethics is, in fact, a gray, shadowy, uncharted thicket where delicate legal and moral questions lurk.

The Powell case already has produced some reform in the House, albeit slight.

The House Administration Committee tightened its auditing procedures and formed its ethics subcommittee. But it acted only after its investigation revealed Powell had his wife on his office payroll at \$20,578 a year, although she lived in

Puerto Rico and did no work; and that Powell used the names of other employees to buy airline tickets for himself and Corinne Huff, a former beauty queen who also was on his office payroll but who spent much of her time at his Bimini fishing retreat.

EXPECTED TO WIN

House Democrats first stripped the New York Democrat of his chairmanship of the labor and education committee. Then, last Wednesday, the House voted to exclude him from membership. But Powell is expected to win reelection from his Harlem district. A federal court also has been asked to settle the constitutional questions raised by his exclusion.

It appears virtually certain that the House, as an outgrowth of the Powell case, will instruct some type of ethics committee to promulgate a code of conduct for members. But a dispute is simmering on which committee should get the job.

Some members, reportedly including House Democratic leaders, favor assigning the task to the watchdog panel set up by the administration committee. Others advocate establishing a separate, select committee on standards and conduct.

And Wednesday, Rep. Richard Bolling of Missouri, a rules committee member and part of the Democratic leadership, came up with a proposed compromise that appeared to have substantial backing.

NEW NAME

Bolling would give the administration committee a new name — Committee on Professional

Standards and House Administration — broaden its jurisdiction and give it 90 days to come up with a proposed set of rules on behavior and recommendations for enforcement.

The leader in the drive for a separate committee is Rep. Charles E. Bennett, D-Fla., who contends if one had been in existence for the past decade there would have been no Powell problem. Bennett was chairman of a weak, short-lived separate ethics committee created in the waning days of the last session.

Rep. Wayne L. Hayes, D-Ohio, heads the present administration subcommittee and is pressing for broader authority. Hayes made headlines himself in 1965 when he took the House restaurant's headwaiter to a Paris conference of the North Atlantic Treaty Organization. But he won plaudits from many members for his direction of last year's Powell investigation.

BOY SCOUT TROOP

Personalities enter into the dispute over which committee should tackle the ethics question.

Bennett doesn't smoke, doesn't drink and hasn't missed a House roll call since 1961.

Some of his more relaxed colleagues are said to fear he

would try to run the House like a Boy Scout troop if he became chief ethics policeman. Acknowledging this feeling, Bennett has disavowed any interest in the chairmanship if a separate committee is established.

Unlike the House, the Senate already has a separate ethics committee. This panel will resume public hearings March 13 on the allegations against Dodd.

The Senate set up the committee two years ago as a direct result of the Bobby Baker case. Baker, who worked his way up from page boy to secretary to Senate Democrats and amassed a fortune estimated at \$2 million, was convicted earlier this year of income tax evasion and other charges but plans an appeal.

SIDETRACKED

Before the Senate committee could complete its assigned task of drafting standards for conduct of senators and their employees, it was sidetracked by the Dodd investigation. Its chairman, Sen. John C. Stennis, D-Miss., now says the panel's ethics recommendations will be forthcoming this year.

Stennis' pledge came during debate on a series of amendments presented this month by Sen. Joseph S. Clark, D-Pa., to require members and their top aides to disclose their financial interests.

No law requires a congressman to disclose his personal finances, although perhaps a dozen, out of 535, do so each year.

Clark labeled his proposals the "Bobby Baker amendments."

"The public's faith in Con-

gress is going steadily down, down, down," he said. "One reason is that the Senate of the United States has been unwilling to face up to the ethical problems brought to light in the Bobby Baker investigation."

City Man Tells of Borneo

'Peace Corps Life Rewarding'

"It's a difficult experience to relate satisfactorily because it was such a full one," said Charles Hunt, a former Peace Corps volunteer.

The Pontiac man, relaxing in his home at 67 Chippewa, was referring to his two years in Borneo as a member of a medical corps working to eliminate and control malaria and tuberculosis. He returned three weeks ago.

Twenty-four-year-old Hunt, a Central Michigan graduate, left for the tiny state of Sarawak, on the island of Borneo, with a science degree and a desire to "spend an interesting two years."

His first months were spent at a training camp in Hawaii where he learned everything from how to build a chicken coop — to the native language.

He ultimately went to Borneo, as one of nine men in a pilot project, to see where the Peace Corps could be most helpful in the medical area.

FOUGHT DISEASE

The first year was spent testing for and fighting malaria in the villages. The second was spent supervising a tubercular testing team examining school-age children in the town of Limbang.

"Much of my time was spent traveling to the villages up river," explained Hunt.

When we detected a case of

malaria, we'd treat the patient, learn his medical history, and take samples from his entire community to help prevent the disease from spreading," Hunt added.

Hunt mentioned being particularly fascinated with a form of housing called "long houses" often found in the villages.

"They were like one long room with many doors — one had 39 — each an entrance to a separate compartment occupied by one family," he explained.

"All of the houses are on stilts. Some villages are fenced in to keep out the water buffalo," he added.

He also mentioned that the women carry umbrellas around all day to shield themselves from the constant 80-degree heat.

"The trip had its ups and downs. It was certainly no merry-go-round," Hunt commented.

It was often lonely, he explained, adding that his work occupied the majority of his time.

Spare time was often spent in the "shop house" area of Limbang which was run by the Chinese who comprise 30 percent of the population, according to Hunt.

This Peace Corps volunteer believed that he will not fully realize the extent of his memor-

ies and attitude changes until he has been back in the states for a while.

He admitted, however, that his first reaction upon coming home was "This is a pretty wealthy country."

Hunt began classes in education at Central Michigan University last week. He wants a teaching certificate.

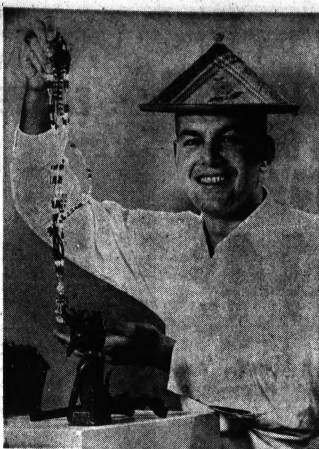

3 Cellmates Mute in Beating Death

HARRISON TOWNSHIP (AP)

— The three cellmates of a prisoner beaten to death in the Macomb County Jail stood mute Wednesday when arraigned on charges of first-degree murder. Examinations were set for March 17.

They are accused of slaying Lewis M. Stevens, 36, a vagrant from New York, who died in a hospital last Thursday a few hours after he was found by guards.

Arraigned Wednesday in Harrison Township Justice Court were Robert A. Nybeck, 22, and Richard Jones, 38, both of Detroit and Kenneth C. Melke, 17, of Warren.

Pontiac Press Photo

PEACE CORPS RETURNEE — Charles Hunt of 67 Chippewa examines tokens from his recent two-year visit to Borneo as a Peace Corps volunteer.

Nelson Eddy Got Wish: Worked Till He Dropped

By GENE HANDSAKER

HOLLYWOOD (AP) — Death had to be farthest from our minds that sunny afternoon at Nelson Eddy's beautiful hilltop home.

He looked so well.

"Come in, come in!" he boomed. Even in speaking, the rich, hearty baritone was reminiscent of the musically golden Nelson Eddy-Jeanette MacDonald movies.

His cheeks were more lined than then, of course, but they were pink. The brown-blond hair he shampooed daily was as thick and billowy as ever. A husky six-footer, he wore a maroon sport jacket and black slacks.

GOOD LEAD

Once a newspaper reporter himself, Eddy had expressed concern that he provide a good "angle" or "lead" to the interview.

Sitting in his handsomely furnished den, he talked of his Australian nightclub tour, just concluded. And of dates just ahead from Florida to Toronto.

'TILL I DROP'

The "lead" came almost accidentally, in a discussion of his age.

"I'm 65 and have no compunction about saying it. The next question people ask is, 'When are you going to retire?' 'I suppose it's obvious I should. But I hope to keep on going till I drop.'"

Ten evenings later he did just that, from a fatal stroke, while singing to an audience of 400 from the stage of a Miami Beach nightclub.

In this, his final interview, Eddy talked of:

Miss Gale Sherwood, his tall, blonde singing partner for 14 years in nightclubs — so good a comedienne "I'm practically her straight man."

Their associate, Theodor Paxson — "my pianist and musical director for 40 years."

He spoke of the travel grind of one-night stands, with the laundering of tuxedo shirts in hotel basins, but said:

"It all melts into nothing — and here you see my hambone blood — when I step on that

stage and see the audience, laughing and applauding. I love to sing and meet the people."

Friday: The Eddy-MacDonald era.

Low-Fat Recipes Can Be High in Taste

By JANET ODELL
Pontiac Press Food Editor

Dick Saunders in his final article on heart attacks gave a list of foods he is permitted to eat in order to keep his cholesterol level down.

For anyone on this kind of diet where saturated fats must be kept to a minimum, cooking becomes a new adventure. Some women find it a great and unpleasant chore.

First of all, we must stress the importance of doing exactly as your doctor says; he is the final authority on what you can eat. All we can do is furnish a few recipes that use the generally accepted foods and methods.

If you are on a highly restricted fat diet, you may want to make this fruit bread.

ECONOMY FRUIT BREAD
1 1/4 cups firmly packed light brown sugar

3 cups all-purpose sifted flour
5 teaspoons baking powder
1/4 teaspoon nutmeg
1/4 teaspoon salt
1 1/2 cups skim milk
1 cup cooked prunes, cooked apricots, raisins or dates
Put sugar in mixing bowl. Sift together dry ingredients and stir into sugar. Stir in milk and fruit.

Pour into lightly greased loaf pan and let stand 15 minutes. Bake in 350-degree oven one hour, or until center of loaf is dry to wooden pick test.

Turn out on rack to cool and let stand overnight before slicing. Makes one loaf.
Meat dishes are sometimes difficult to prepare. Why not try "porcupine meat balls"?

PIN WHEELS
1 pound lean ground beef
1/4 cup minced onion
1/4 cup raw brown rice

1/4 teaspoon vegetable oil
1/4 teaspoon thyme
1 tablespoon minced parsley
1/4 teaspoon salt
1/4 teaspoon pepper
Mix well and form into balls. Pan-broil in skillet until brown. Leave any drippings in pan. Put

in Dutch oven and cover with sauce below. Cover and simmer for 40 minutes.

Remove garlic before serving. Makes 6 servings.
1/4 cup onion minced
1 garlic clove, split lengthwise and put on wooden pick
1/4 teaspoon thyme
1/4 teaspoon mace
4 pepper corns
1/4 teaspoon salt
2 cups tomato juice
1/4 cup Chianti wine
Put onion, garlic and thyme into pan drippings and cook slowly for 5 minutes. Add liquids and other seasonings and bring to gentle boil.

Pour over meat balls and stir gently to mix.
Fish is always welcome on this kind of diet.

BROILED FISH STEAKS
PAPRIKA

Plan on 3 ounces of fish steaks for three servings. If fish is frozen, let thaw in refrigerator shell or at room temperature. Place fish in preheated broiler pan.

Brush with sauce made by mixing together 3 tablespoons melted corn oil margarine or vegetable oil, 1 tablespoon paprika, 1/4 teaspoon salt, 1/4 teaspoon pepper, 1/4 teaspoon Worcestershire sauce, and 1 tablespoon lemon juice. Place pan in broiler 2 inches from heat and broil 3 minutes.

Turn steaks, brush again with sauce and broil 3 to 5 minutes longer, or until fish flakes easily when tested with a fork.

You can have Butterscotch Brownies if you'll follow this recipe.

BUTTERSCOTCH BROWNIES

1 cup light brown sugar
1/4 cup vegetable oil
2 egg whites
1/2 cup chopped walnuts
1 teaspoon vanilla
1 cup sifted cake flour
1 teaspoon baking powder
1/4 teaspoon salt
Combine sugar and vegetable oil in bowl. Add egg whites and beat well. Add nuts and vanilla.

Sift dry ingredients and fold in. Bake in lightly oiled 8x8x2 pan in 350-degree oven 25-35 minutes.
Cut into 16 squares while warm.

What a family doesn't lick their chops at sight of a freshly opened jar of marmalade? And if "mama" made it, marmalade is super popular.

Marmalade, jam, jelly, preserves and preserves — all can be made with citrus fruit or juice as the basic ingredient.

Strawberry-Orange Jam

2 1/4 cups frozen strawberries (two 10-ounce packages)
1 medium-sized orange
1/4 cup water
1/2 package pectin (mix contents of package well before measuring)

Combine strawberries, orange, and water in a kettle. Add the pectin and stir well. Place on high heat and stirring constantly, bring quickly to a full boil with bubbles over the entire surface.

Add the sugar, continue stirring, and heat again to a full bubbling boil. Boil hard 1 minute, stirring constantly.

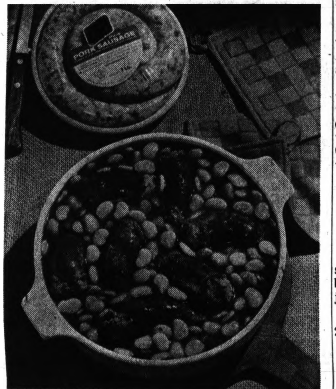

Remove from heat; skim and stir alternately for 5 minutes. Ladle jam into hot containers and seal immediately. Makes about 6 six-ounce glasses.

Spicy Sauce to Cook Veal

If your family likes veal, why not serve veal chops in a spicy sauce soon. Cook the chops with moist heat and they will be tender and juicy.

Select the chop from the rib, center, loin, shoulder blade bone or shoulder round bone veal cuts. The lean, delicately flavored meat combines well with many seasonings.

For spicy veal chops, brown the chops in hot fat. Combine equal amounts of catsup and water; add some chopped parsley, Worcestershire sauce, salt, and a pinch of thyme. Pour mixture over chops. Cover and cook over low heat until tender.

SAUSAGE-LIMA BEAN BARBECUE — Cut one pound pork sausage rope into 8 pieces, each 2 to 3 inches long. Cook slowly in skillet, turning as it browns, until thoroughly done. Remove and drain sausage. Cook one large onion sliced in 2 tablespoons dripping until tender. Add one-half cup chili sauce, one-fourth cup molasses, two tablespoons prepared mustard, one tablespoon vinegar, one tablespoon Worcestershire sauce and a few drops of hot pepper sauce. Heat mixture one minute, stirring constantly. Add sausage and one can (1 lb.) lima beans, drained. Cook, stirring occasionally, for 5 minutes or until heated through. Makes 4 servings.

Amusing Pickle People Join Sandwich and Soup

Steaming hot bowls of soup pickles. Insert in narrow end of made in minutes — spring pickles. Insert two cloves board to many a good hearty meal, "super" lunches most of all.

Not only a hungry family, but a busy cook as well will applaud soups, from chicken rice or noodle, to vegetable or potato-leek.

Modern dehydrated mixes banish the boredom of paring, dicing, cutting, and stewing; they arrive in the home pre-primed, dehydrated and foil-packed. Now soup making can be as quick as a snip and a stir.

With soup so easy to prepare, the homemaker may be encouraged to plan a week-long happening — seven lunches featuring a different soup for each day, matched to a cheese sandwich, kebab, or salad, plus a variety of pickles.

Cheese Sandwiches and Pickle People
8 slices rye or dark pumpernickel bread
8 singly wrapped slices (one pkg.) Pasteurized process American, pimento or Swiss cheese slices
1 pt. jar dill pickles
4 cherry tomatoes
20 whole cloves
4 scalloped radishes

For Each Sandwich: Place 2 cheese slices on 1 slice of bread. Cut second slice of bread diagonally from corner to corner to make 4 triangles. Stand triangles around base of sandwich.

Mr. Pickle: Select a 2-inch long pickle to make the body. To make the head: Place a cherry tomato on a wooden food

SUPER SOUP LUNCHEON — Serve beef noodle soup made from a dehydrated mix, an open-faced sandwich and Pickle People. It's a simple menu: Just simmer the soup, unwrap the cheese slices and pick the pickles from the jar.

Check Recipe

In Wednesday's market basket section there was a recipe for Peanut Peach Squares. The one cup of salad dressing in the ingredients does not belong there. Just ignore it; the rest of the recipe is correct.

Winter Jam Is Flavored With Orange

Winter time may seem an unusual time to make jams, jellies, etc. But what could be more appropriate when unpleasant weather keeps you indoors, and fresh fruits are in plentiful supply?

The plentiful fruits, of course, are oranges and grapefruit which the U.S. Department of Agriculture says continue to be among our better food buys.

This year's unusually big harvests, in fact, will keep these tasty citrus fruits on the "abundant" list for several more weeks, according to USDA's Consumer and Marketing Service.

What a family doesn't lick their chops at sight of a freshly opened jar of marmalade? And if "mama" made it, marmalade is super popular.

Marmalade, jam, jelly, preserves and preserves — all can be made with citrus fruit or juice as the basic ingredient.

Strawberry-Orange Jam

2 1/4 cups frozen strawberries (two 10-ounce packages)
1 medium-sized orange
1/4 cup water
1/2 package pectin (mix contents of package well before measuring)

Combine strawberries, orange, and water in a kettle. Add the pectin and stir well. Place on high heat and stirring constantly, bring quickly to a full boil with bubbles over the entire surface.

Add the sugar, continue stirring, and heat again to a full bubbling boil. Boil hard 1 minute, stirring constantly.

Remove from heat; skim and stir alternately for 5 minutes. Ladle jam into hot containers and seal immediately. Makes about 6 six-ounce glasses.

Spicy Sauce to Cook Veal

If your family likes veal, why not serve veal chops in a spicy sauce soon. Cook the chops with moist heat and they will be tender and juicy.

Select the chop from the rib, center, loin, shoulder blade bone or shoulder round bone veal cuts. The lean, delicately flavored meat combines well with many seasonings.

For spicy veal chops, brown the chops in hot fat. Combine equal amounts of catsup and water; add some chopped parsley, Worcestershire sauce, salt, and a pinch of thyme. Pour mixture over chops. Cover and cook over low heat until tender.

PINEAPPLE LOVE DOVE CAKE — Use can. Pineapple and sour cream will do the cake mix for that shower dessert. But go to some pains to make it as pretty as you

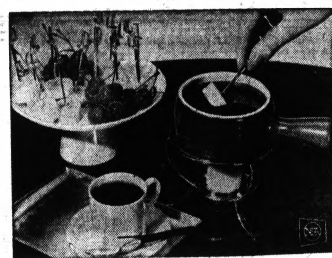

Shower Cake Is Gold and White

Pineapple cake dressed in bridal finery makes a lovely appearance at teas, showers and luncheons. In the busy round of pre-wedding parties, this dessert is a joy to make from convenience foods — canned crushed pineapple, packaged cake mix and dairy sour cream.

Split 2 cake layers in half and stack back together with sour cream and a tangy pineapple filling accented with lemon juice and vanilla.

More sour cream whipped light and fluffy makes white satin frosting which contrasts beautifully with the golden pineapple crown. Garnish with a little spray of lily of the valley and serve well chilled.

When you're tired of too sweet desserts, this unusually refreshing cake is a most pleasant change.

Bon Bon Dips Provide Party Fun

Chocolate Dip Frozen Fruit

This is a "guest participation" dessert for your next party. Here's how it's done.

Pierce chunks of fruit with food picks, then freeze. This can be done hours ahead of time or just two days before the party. The dip is easy to make.

Simply melt semisweet morsels with a little shortening. The morsels are presweetened,

Indian Pudding

This is a mildly spiced version of a famous pudding.

Indian Pudding

- 1/2 cup yellow cornmeal
- 1/2 teaspoon salt
- 1/2 teaspoon each cinnamon and ginger
- 1 quart milk
- 1 tablespoon butter or margarine
- 1/2 cup dark molasses
- 1/2 teaspoon baking soda

In double-boiler top, stir together the cornmeal, salt and spices with 1/2 cup of the milk. Scald 1 1/2 cups of the milk; stir into cornmeal mixture; thoroughly stir in the butter, then the molasses and baking soda.

Stir in remaining 2 cups cold milk. Cook over hot water, stirring occasionally, until slightly thickened — about 20 minutes. Turn into greased 1 1/2-quart oven-glass round casserole (7 1/2 x 2 1/2 inches).

Bake, uncovered, in a very slow (275 degrees) oven for 2 1/2 hours. Allow to stand until slightly warm before spooning with vanilla ice cream. Makes 6 servings.

Pudding will have whey-like texture.

Coat and Fry Sweetbreads in Deep Fat

Sweetbreads are enjoyed by those who like special treats, carefully prepared. That's why they might be served at a luncheon or dinner for special guests.

This variety meat is delicate in flavor as well as texture. Since they are fragile, Reba Stagg, meat expert, suggests they be cooked within 24 hours after purchasing. This will make them easier to handle for the coating described in the recipe.

Devised Sweetbreads

- 1 pound sweetbreads
- 1 quart water
- 1 tablespoon lemon juice or vinegar
- 1 teaspoon salt
- 2 teaspoons vinegar
- 2 teaspoons Worcestershire sauce
- 1/2 teaspoon paprika
- 1/2 teaspoon dry mustard
- 1/2 teaspoon pepper
- 1 teaspoon salt
- 2 egg yolks
- 3 tablespoons melted butter or margarine
- 1/2 cup finely crushed corn flakes

Lard for deep-fat frying

Place sweetbreads, water, 1 tablespoon lemon juice or vinegar and 1 teaspoon salt in a saucepan. Cover and simmer 20 minutes.

Drain and remove membrane from sweetbreads. Break into 2-inch pieces.

Mix 2 teaspoons vinegar, Worcestershire sauce, paprika, mustard, pepper, 1 teaspoon salt and egg yolks. Add melted butter or margarine. Dip sweetbread pieces first into egg yolk mixture, then in crushed corn flakes.

Fry in deep lard (360 degrees) until browned, about 2 minutes. Drain on absorbent paper. Serve immediately. 4 servings.

Lemon Gives Zest to Chicken Strips

Lemony Quick Chick is perfection for dinner party fare, cooks in less than 10 minutes. Bone 3 whole chicken breasts and remove skin, directs the National Broiler Council. Cut each breast half into 10 or 12 strips.

Melt 3 tablespoons butter in a skillet over high heat, add chicken. Sprinkle with 1 tablespoon flour, and add salt and tarragon to taste. Cook 5 minutes stirring constantly. Add 1/2 cup chicken broth, 3 halved lemons, and stir.

Cover and cook 3 minutes longer. Sprinkle with chopped parsley and serve with rice. Makes 6 servings. It's fun to make such a great dish so fast — and that's because chicken is where the fun is!

DEVILED SWEETBREDS — Sweetbreads rate with gourmets. Tangy ingredients are used in the coating to give delicately flavored sweetbreads high seasoning as contrast.

Pipe Cheese Dough on Ham Surface

Piping made like cream puff dough may be used to give a party look to baked ham.

Bring to rolling boil 1/4 cup of water and 2 tablespoons of butter. Add 1/2 cup of flour and 1/2 teaspoon of dry mustard; stir vigorously over low heat until mixture forms a ball.

Remove to large mixing bowl; add 2 eggs, 4 to 5 drops of yellow food coloring and 1 cup of shredded cheddar cheese and beat at medium speed until smooth. Scrape sides of bowl often.

Fill pastry tube with dough and use it to form lattice design on a baked ham 40 minutes before end of baking time. Use remaining dough to form rosettes on lightly greased baking sheet.

Bake ham and rosettes 35 to 40 minutes at 325 degrees. Serve rosettes with ham.

More, Heavier Lamb Cuts Offered in Stores Now

The meat counters in grocery stores, butcher shops and chain stores are now offering home-makers heavier cuts of lamb than she is accustomed to buying at this time of year, and the reason for its appearance is the weather.

Animals, like plants, are affected by weather and out in the Western states in the sheep country the winter has been unusually mild.

Consequently, the lambs have developed bigger and better than when it is extremely cold. This means that a tremendous number are now ready for marketing ahead of schedule.

The lambs are young... not over 8 months... but big. This means a better ratio of meat to bone so that he-man appetites can readily enjoy many of their favorite cuts while the homemaker reaps the benefits in her meat budget.

Lamb shoulder chops... either blade or round bone... are good hefty chops with lots of succulent meat surrounding the bone. And they take well to numerous ways of cooking... broiling, panbroiling, pan-frying or braising as in this good recipe.

Shoulder Lamb Chops With Okra

- 1/2 cup chopped onion
- 2 tablespoons salad oil
- 4 shoulder lamb chops, 1-inch thick
- 1 can (1 pound) tomatoes
- 2 tablespoons tomato paste
- 1 teaspoon salt
- 1/2 teaspoon each: coarsely ground black pepper, rubbed sage, basil, thyme leaves
- 1 slice lemon peel
- 1 package (10 ounces) frozen whole baby okra

In large skillet, saute onion in oil until tender; remove. Sauté chops in skillet until browned on both sides; drain off excess drippings.

Mix together tomatoes, tomato paste, salt, seasonings and lemon peel. Add to meat in skillet with onions. Bring to a boil; cover and simmer 40 to 45 minutes, or until chops are tender.

Add frozen okra, separating pieces with a fork, the last 10 minutes cooking time. Makes 4 servings.

Hunting Bills Pass House

LANSING (AP)—A bill to ban use of 22-caliber rifles for deer hunting and to add mandatory cash penalties for poachers passed the House Wednesday and went to the Senate.

Also given final House approval was a measure to permit resident servicemen on furlough to obtain deer and small game licenses without charge.

Moved into position for final House action was a Senate-passed bill exempting Michigan from federally established Day-light Saving Time.

The Senate, meanwhile, met only briefly but voted, noncon- currence in 12 amendments the House made to a bill setting Friday as the effective date of a new probate court fee system. The bill must become law this week to do any good.

AMENDMENT

A last-minute amendment fa- vored by the State Conservation Department deleted the current provision that 22-caliber rimfire rifles can be used during deer season south of the line from Muskegon to Bay City.

The bill provided, however,

that muzzle-loading flintlocks of 44-caliber or larger may be used to hunt deer in the area.

The measure also permits per- sons unable to walk to hunt from a standing vehicle, tightens the law regarding firearms in cars, and makes it illegal to flee from a Conservation De- partment patrol car.

A convicted poacher would be required to pay between \$200 and \$300 for each elk he illegal- ly killed, from \$101 to \$200 each for deer and bear, and from \$10 to \$10 for other game animals and birds.

SHINING

Under terms of the bill a per- son "shining" deer with arti- ficial light from a vehicle could be prosecuted if he had a fire- arm or bow not locked in the trunk or otherwise out of reach. Currently, an illegal hunter can escape prosecution simply by removing the bolt or am- munition clip from a rifle in- side his car, said Rep. Thomas J. Anderson, D-Southgate, sponsor of the bill.

Also sent to the Senate Wednesday was a resolution ex- tending the deadline for intro- duction of nontar, nonappropri- ation bills until next Thursday. The current deadline is today.

The House last week succeed- ed in overcoming Senate objec- tions to a one-week extension,

but only after an interchamber battle that lasted until midnight.

DEBATE

A lengthy debate on the sav- ings time bill was considered likely today.

Congress last year passed an act providing that all states would set their clocks one hour ahead each April 30 and back at the end of each October un- less a state government voted not to do so.

The Senate already has ap- proved exempting Michigan from the "fast time" act.

Spokesmen for business, rec- reation and tourism groups gen- erally have favored savings time, while farmers and theater owners oppose it.

New Satellite Working Well

CAPE KENNEDY, Fla. (AP)—America's new "sunshine satellite" was working fine to- day as it whirled about the globe on its sun-studying mis- sion.

The 627-pound payload carried nine scientific instruments into orbit from Cape Kennedy Wednesday to continue exten- sive solar investigations begun by two earlier satellites.

The new satellite is called OSO 3 for Orbiting Solar Ob- servatory. A total of seven launches is planned to chart a full 11-year solar cycle during which solar activity ranges from quiet to a period of intense flare activity.

Morton Hits Plan to Link Consular Treaty to War

WASHINGTON (AP)—Republican Sen. Thurston B. Morton contends a Senate vote linking the proposed U.S.-Soviet consular treaty to the war in Vietnam would be a vote to kill the agreement.

And Democratic strategists at the Capitol and White House were reported concerned lest the Senate take such a step, as suggested by Sen. Karl E. Mundt, R-S.D.

"I'm concerned about all reservations," said Democratic leader Mike Mansfield.

With a battle over proposed reservations looming ahead, the Senate faced today a treaty amendment proposed by Sen. Herman E. Talmadge, D-Ga., to restrict the immunity from arrest that would be granted consular officials by the proposed treaty.

Talmadge said that immunity should cover only misdemeanor cases, not felonies.

He charged that broader protection from prosecution "would amount to carte blanche authority to Soviet agents to violate our laws at will and to expand their espionage activities with impunity."

Mansfield said an amendment would kill the consular convention. An amendment would seek revision of treaty terms and that, in turn, would require new negotiations.

A reservation would only express U.S. intentions or interpretations regarding the convention. Either step would come by majority vote. The treaty itself must win two-thirds Senate approval for ratification.

Mansfield said the impact of a reservation would depend on the Soviet view of its terms. The Soviet Union has not yet ratified the treaty.

Mundt said he will propose a reservation stating that the consular convention cannot go into operation until President Johnson advises Congress that U.S. forces are no longer needed in Vietnam or that Soviet-supplied weapons are not "delaying or preventing" their withdrawal.

Senate leaders have expressed confidence that the treaty will be approved, probably next week. But Morton was said to fear that some senators who intend to vote for the treaty might vote as well for a Mundt-style reservation.

Sen. Strom Thurmond, R-S.C., charged the treaty contains a "dangerous sleeper clause" which would allow the Soviet Union to reassign diplomats already stationed here, putting them in a projected new consulate and thus expanding their diplomatic immunity from arrest.

TIRE TEST LAB—The automotive industry's first completely automatic tire test laboratory at the General Motors Proving Ground near Milford can run around the clock unattended. The pair of two-station tire dynamometers can drive tires at speeds up to 300 miles per hour and under loads up to 10,000 pounds.

At GM Milford Proving Ground

First Automatic Tire Test Lab

The automotive industry's first industry and government standards and to evaluate experimental tires supplied by the tire industry.

In addition to standard performance tests of tire tread wear and carcass, the new equipment can simulate some road hazards, measuring the ability of the carcass to withstand harsh impacts.

The evaluation tests have been conducted on the road for many years at GM's Milford Proving Ground, and at GM's Desert Proving Ground near Mesa, Ariz.

But these have been limited by the time needed to run a test vehicle for the extended mileage required.

MANY TIRE OPTIONS
In addition, present day cars have many tire options which compound the testing problem.

The volume of the testing has increased immensely in recent years, and the new facility permits automatic round-the-clock operation under laboratory controlled conditions, increasing test output greatly and at the same time improving its accuracy.

Extensive road testing will be continued at both GM Proving Grounds. Among other things these tests will be used to correlate laboratory test results.

Brady said the tire test laboratory is the first unit to be completed in a two-year building program of vehicle safety facilities announced a year ago by GM.

ADD DYNAMOMETERS
Additional four-station dynamometers may be added later, he said, and the present facilities eventually will be moved into the corporation construction test engineering building now under construction at the Proving Ground.

The present facility consists of the first two of three two-station dynamometers similar to those used by the tire industry.

However, these dynamometers are custom tailored to General Motors specifications for unattended operation with precision

Auto Makers Agree: Standard Infeasible

DETROIT (AP)—Will Scott, safety director of Ford Motor Co., turned out to be a pretty good prophet this week. Scott predicted in an interview two weeks ago that none of the U.S. auto firms would be able to comply in 1968 models with a key federal safety standard, one involving protection of car occupants in a crash.

Ford, General Motors, Chrysler and American Motors formed a unanimous front in telling Dr. William Haddon Jr., national highway safety administrator, that the standard—even although desirable—could not be met in the new cars that will hit dealer showrooms next fall.

Some foreign auto makers, like Peugeot of France and British Motors, Ltd., also said they could not meet the standard until at least next August.

MINOR HARSHIPS

All four U.S. auto firms indicated they could meet, in some cases with minor hardships, 19 Haddon, "GM 1968 cars can comply with the requirements of standards issued under provisions of the Highway Safety Act of 1966."

Haddon originally proposed 23 standards, but last month shelved three of them dealing with tires, rims and some car interior problems pending further study.

The most controversial standard still on the books was listed as 201 and specified requirements for instrument panels, seat backs, protrusions, including levers, switches, handles and panel contours, sun visors and armrests to afford impact protection for passenger car compartments.

General Motors' comments on 201 were typical of those the industry made. "AGREES WITH OBJECTIVES" It said, "General Motors agrees with the objectives of this standard. We are constantly improving our cars to enhance the protection of occupants from collision with interior components of motor vehicles."

"Improvement in 1968 GM passenger cars reflect substantial progress in occupant protection over 1967 models." Summing up its stand on 201, Haddon said, "The standard is plainly unlawful and will cause irreparable injury to auto manufacturers and the millions of people whose economic livelihood depends on continuing production of autos."

AMA added it hoped its presentation would be strong enough in itself to warrant further study by Dr. Haddon "without need to test it in an evidentiary hearing." a reference to the standard with respect to the transmission shift lever and sun visors. "With minor modifications in the standards which will have no material effect on safety, the GM's 1968 cars could comply with the requirement for head impact areas, such as top of in-

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

PAGES OF THE PAST — White reminiscing about the past, White Lake Township Supervisor Edward Cheyz and his family must consider the future. Contemplating what pages will be added to the scrapbook in the future are Cheyz; his daughter, Tina (left); his wife, Marion; and his daughter, Sharon.

White Lake Supervisor

Political Career May Be at End

By JANICE KLOUSER

WHITE LAKE TOWNSHIP — Edward Cheyz, a former boxer and semipro football player, will soon be a former politician.

After seven years in the political ring, Cheyz, a one-time Golden Gloves champion, is about to hang up his political gloves.

Only one month remains of his tenure as township supervisor. On April 10 he will hand over his post to supervisor-elect James Reid, a man he defeated seven years ago to begin his political career.

At this point, the future is uncertain for the 40-year-old township head. He has "put feelers out" for other jobs but so far has not found the right one.

The native Detroit won the National Golden Gloves Championship in Madison Square Garden in 1946 while serving in the naval air force.

His dreams of turning professional boxer were dashed when a motorcycle accident put his life on the line for a time.

After a six-month stretch in the hospital, he went into the real estate business for a while.

In Detroit he had worked with his mother and brothers in their grocery store, so it was a natural for him to join his brother in

the Trading Post grocery store in 1954.

And what of the present? The future?

"I've been too busy trying to catch up on work that fell behind during the grand jury investigation," he said, "but in another couple of weeks I should be able to start looking in earnest."

Cheyz was indicted by the one-man grand jury last year on charges of bribery and conspiracy to bribe but was subsequently cleared during his trial.

His acquittal came too late, however, to do him any good in the November election.

He feels the trial had a definite effect on the election.

'WOULD HAVE WON'

"If the indictment hadn't happened," he said, "I feel quite sure I would have been re-elected."

In spite of the adverse effect on his life, he expresses very little bitterness and manages to maintain his optimistic outlook on the future.

"I'm only bitter that I wasn't able to give my side before the indictment," he said. "And it's hard not to feel a little bitter about something that hurts your family."

The beginning of the political

road was a bit rocky for him, too.

MET OPPOSITION

As the first Democratic supervisor in the township in 30 years, he met with considerable opposition from his Republican coworkers.

"I used to take the tax bills home to work on them myself," he said. "When I asked for help, I was told I would have to pay for it out of my own pocket."

"I met with resistance from the board on programs I wanted to put in so in the next election I campaigned on the basis of needing help and I got it."

"Four Democrats were elected to the board and we went to work."

CAME TO HIM

Cheyz had been working with his brother in his grocery store on Orndorff Road when several businessmen in the area, who were unhappy with the lack of progress in the township, asked him to run for supervisor.

"I didn't know anything about politics and I could have cared less at the time," he said. "I don't even know what ticket to run on but I investigated both sides and decided the Democrats were more concerned with the future of the township."

He said there were three major things he wanted to accomplish during his tenure. Two became reality and the third is in progress.

He was instrumental in getting the proposed I-275 freeway routed in the most beneficial way to the township.

BETTER SERVICE

Just this week he was informed that an extended area telephone service will be instituted between the Michigan Bell and General Telephone exchanges providing more satisfactory telephone service between the township and nearby communities.

Now he is trying to convince the State Highway Department that M39 must be improved before 1972.

One of the things he will miss most, he said, is serving on the Oakland County Board of Supervisors.

"I've had an opportunity to serve with a lot of good, dedicated people," he said. "Oakland County is growing fast and there is going to be a lot to do in the next few years."

"I have worked with people all of my life," he said, "and that is why I've enjoyed this job so much."

Hearings Ordered on Sewer Projects

TROY — The City Commission has ordered public hearings on three large sanitary sewer projects with a total price tag of over \$400,000.

An estimated cost of \$143,200 is the cost of sewers proposed for the Belair Subdivision.

Cost of sewers for Maple, Wisconsin, Iowa and Dequindre was estimated at \$153,930, while \$106,300 was the cost of sewers for Hickory Heights North subdivision.

In other recent activity, the commission gave final approval to two other sewer projects. Sewers for Naughton and Wheaton area to cost \$71,500, while sewers on Enterprise and Maple will run \$31,350.

Troy to Seek Bids on Sewer Work

TROY — Bids are to be sought on two sewer projects authorized recently by the City Commission.

The projects are: Muer, west of Crooks, \$91,000 with \$56,310 to be assessed at \$6.74 per foot and \$2.02 per square foot; and Olympia, West of Livernois, \$15,710, all to be assessed at \$12.80 per front foot.

Winter Wonder . . .

When Will It Ever End?

By JEAN SAILE

The weather is for the birds. The kids have the sniffles.

The guy at the next desk just got promoted.

The paint on the house is peeling.

You get postcards from Florida and Puerto Rico reading, "Having wonderful time, wish you were here."

It's the February "funks" . . . postponed this year through March because of the abundance of winter.

BECOMES GROUCH

A woman known for her pleasant smile turns into a grouch; she abuses the dog and snarls at the children.

A man buries his head in the television and wishes they were still playing football. He worries about the bills and yells at his wife.

It's like modern fiction . . . a downhill ride all the way.

Marriage is an entrapment. Singleness is an aberration. Children are burdens.

The dog is a pest. And the cat just had kittens. It's awful!

Then suddenly one morning you awake and the air feels balmy and the sun shines and you look in the mirror and it smiles back.

It's spring, and take heart. It can't be far away.

Hearing Is Tonight on Orion Twp. Drain

ORION TOWNSHIP — A public hearing on the proposed Ballard Drain for the E. Clarkston Road drainage district will take place at 7 p.m. tonight at the Orion Township Hall.

Conducted by Oakland County Drain Commission, the hearing will sound out residents of the 184 acres involved regarding their feelings on a special assessment plan.

Estimated to cost \$63,000, 16 per cent of the drain would be paid by the county and 10 per cent by the township.

School Study Unit to Report to PTA

ORION TOWNSHIP — The Citizens School Study Committee will report to members of the Proper Elementary School PTA at a meeting at 7:30 p.m. Monday at the school.

Donald S. Frericks, 3749 Hi-Villa, will speak. A display of student art will be arranged by Mrs. Dorayne Sorbel, art instructor.

Children of grades one and two will sing under direction of Mrs. Mary Lou Tolbert.

Officers for the coming year will be elected.

\$40,272 Still to Be Paid for New Offices

OXFORD — Councilmen having paid \$2,580 for construction costs of new village offices in the Civic Center have been informed that a bill of \$40,272 remains to be paid upon completion.

Completion date on the center is scheduled for July. Designed to contain township and library facilities as well as village offices, the complex is now under construction at 18 and 22 W. Burdick.

The village was informed that it would exchange mayors May 22 with the village of Elberta in honor of Michigan Week.

Mrs. Carol Green, Mrs. Olga Kelley, Mrs. Venus Clack and Mrs. Ruth Cocking were named to the village election board for the March 13 vote and Mrs. Olive McTavish was named alternate.

Roaring 20s Set Benefit Event for Victims of Blaze

INDEPENDENCE TOWNSHIP — A benefit coffee-dance has been set for 7 p.m. Saturday at the Clarkston High School for the family whose home was burned out recently.

The benefit is sponsored by the Roaring 20s, a citizens band radio group. Tickets will be sold at the door and door prizes awarded.

Proceeds will go to aid the Eugene Copeman family whose home was almost completely destroyed by fire last Friday. Killed in the blaze was 4-year-old Adam Stiles of 6155 Cramland.

ARE NEWS

Several Posts Are Filled by Avon Board

AVON TOWNSHIP — Several appointments to committees in view of the recent realignment of the Township Board were made by officers last night.

New trustee Philip Trimble was named to the Avon Township Planning Commission and Regional Planning Commission.

Replacing former Trustee Wayne Holman who resigned due to residential requirements.

Trimble was also named to the township fire committee.

New Trustee Earl Borden was named to the township's Liquor Control Committee.

In other business, Clerk Thelma Spencer was instructed to write a letter to the city of Rochester informing them that the township board will be willing to meet on mutual problems after the annual township meeting April 1.

Up for review will be the ownership of Woodward Memorial Library and Avon Park, both of which have been operated by the township but which are located within the new city's corporate limits.

Preparatory to combining all existing township water systems, the board instructed engineers to obtain cost figures on the project.

Supervisor Cyril Miller reported on a recent trip to Washington, D.C., in which he said he was informed that federal funds for a new township hall construction project are not now available.

He said he was assured by legislators that once such funds are available, the township will receive consideration.

Union Rejected

ORION TOWNSHIP — The employee at Arco, Inc., 3020 Indawood, one of Michigan's leading tool fixture and machinery building companies, rejected union representation in a certified National Labor Relations Board election at the company's Lake Orion plant Feb. 21.

Dr. Augusten, a member of the State Board of Education, has served as research scientist Brookhaven National Laboratory, research administrator for the U.S. Atomic Energy Commission, lecturer to NATO and an adjunct professor at San Francisco Theological Seminary.

Residents of Milford and surrounding communities are invited to attend.

Treatment Embitters Judge in Lake Orion

By JEAN SAILE

LAKE ORION — A bundle of old traffic tickets together with collected fines are locked away by Orion Township Justice of the Peace Frank Volant.

He doesn't know the number of tickets, or the amount of money involved.

It sits there, according to Volant, because he's a Republican and most of the township officialdom is Democratic, and because, too, he's been a member of the Lake Orion Homeowners Association.

The tickets and fines are a holdover from before Jan. 7, the date Volant was injured in an auto accident.

JUDGE FRANK VOLANT

According to him he has been refused the courtesy by Lake Orion police of having the tickets and the money picked up for delivery to the village.

HASN'T BOTHERED

He reports, "Chief Neil Leonard reportedly told people he would not come to my house—only to the office, but I know his officers perform such services for other justices." I've called him three times and he hasn't bothered to return the calls.

Volant is bitter at his treatment since his election to the justice post in November 1964.

"They took the desk and the chair and the telephone out of my office at the Orion Township Hall just before I assumed office," he said.

"If it weren't for some nice

people who collected money to buy me furniture I wouldn't have any."

NO PROBLEMS

Volant contends there's never been any problems with the furnishing of Judge Helmar Stank's office in the same building nor with his telephone service.

The avid Republican, keeper of a bait shop at 63 Park Island and custodian with his wife of the Orion Township Hall, avers that police have given him only about a tenth of the business handled by Stank.

But he also admits that they are entitled under law to take cases "to the nearest justice of the peace" office, and that there are no provisions for an equal division of cases.

Sponsored by PTA

MSU Prof in Milford Talk

MILFORD — "Challenge to a Decisive Generation" is the topic of a lecture to be given by Dr. Leroy Augusten, professor and chairman of the department of biophysics at Michigan State University, at Muir Junior High School Monday.

The talk, sponsored by the Milford PTA, will begin at 8 p.m.

Dr. Augusten, a member of the State Board of Education, has served as research scientist Brookhaven National Laboratory, research administrator for the U.S. Atomic Energy Commission, lecturer to NATO and an adjunct professor at San Francisco Theological Seminary.

Residents of Milford and surrounding communities are invited to attend.

Dr. LEROY AUGUSTEN

Republican Club to Hold Meeting

HIGHLAND TOWNSHIP — The Milford-Highland Republican Club will hold a public meeting at 7:30 p.m. March 22 in the Highland Township Hall.

State Rep. Clifford Smart will discuss fiscal and tax reforms now being discussed in the Legislature.

Most Persistent

MANCHESTER, England (UPI) — If Jamaal Qazi isn't the best law student in the world he may be the most persistent. This fall he failed the bar examination here for the 31st time in eight years. He made a scholarship to attend a 32nd try.

Group to Study Lake Front

Redevelopment Aim of Walled Lake Unit

WALLED LAKE — A housing commission to study redevelopment of the lake front has been created with the adoption of a housing ordinance by the City Council.

Named to the commission were residents John Alden, James Fitzgerald, Ivan Cox, Mrs. E. V. Mercer and Royce Downey, city manager.

The commission will study the area, decide what will be torn down and what will replace it. It will also have the authority to apply for federal funds to aid the redevelopment.

In other recent action, the council authorized Downey to proceed with final plans for a joint sanitary sewer system with the village of Novi.

He is to present his report on the final method of land acquisition, contractual relationships and method of payment to the council on March 21.

The council also set the week of May 20-26 for an open house for its new municipal building which is expected to be ready for occupancy by April 1.

On May 20 and 21, special activities are planned for the exchange mayor from Plainfield, and the rest of the week the building will be open to visiting dignitaries.

Antipoverty Subcenter to Be Opened

FARMINGTON — The fourth in a network of 25 anti-poverty subcenters will be opened in Farmington Tuesday.

Administered by the Oakland County Commission on Economic Opportunity, the subcenter will be located at 33423 Grand River.

Space for the subcenter is being provided by the Farmington Youth Guidance Council and will serve as an intake and referral office for low-income residents seeking job counseling, testing and placement; adult dental care; debt and family budgeting services and guidance on neighborhood problems.

Services are offered at no charge to low-income residents.

The center will be open from 9 a.m. to 4 p.m. each Tuesday and Wednesday. The staff will include a counselor aide supervisor, a counselor aide and a neighborhood organizer.

Other subcenters are located in White Lake and Highland townships and Madison Heights.

Heart Defect Being Countered

NEW YORK (UPI)—For in-fant heart. The man-made de-fants born with one kind of heart defect then counters the usually defect, a survival rate of 85 to 100 percent has replaced one which was close to zero.

This upswing in infant life-saving is due to an easier, safer way of making a hole in the

Some of the circulating blood when it returns to the heart gets recirculated without passing through the lungs to be recharged with oxygen. Infants die of oxygen starvation.

The hole is made in the wall that separates the two chambers into which blood returns. One receives freshly oxygenated blood from the lungs and the other takes in oxygen-depleted blood from the general circulation.

RECIRCULATION

Through the hole pours the freshly oxygenated blood for immediate recirculation through the body.

Expedient hole-making is not new. Until Dr. William J. Rashkind and W. J. Miller of the cardiovascular laboratories of Philadelphia's Children's Hospital worked out their easier, safer way, surgeons opened infant chests and made holes with scalpels. But the mortality rate ranged from very high to "prohibitive."

The Rashkind-Miller way is to push a tube of tiny diameter, a catheter, through a vein until its head is in the chamber receiving the blood returning from the general circulation.

Guided by X-ray motion pictures animating a television screen, the tube-head is forced through the wall separating it from the chamber receiving lung-blood.

SHOWS UP VIVIDLY

A balloon on the tube-head is then inflated with a contrast medium which makes it show up vividly on the screen and also gives it size and weight. It is then yanked back into the other chamber, thereby enlarging the hole.

This is repeated until the hole is big enough.

Rashkind and Dr. Hamish Watson, an internationally known Scottish cardiologist, are the Southwest

now revealing in the technical journal The Lancet that this way has been used more than 100 times in various medical centers in the United States and Europe since Rashkind and Miller revealed it to world medicine last year.

LITTLE RISK

That will be accomplished by a now-standardized heart operation with small risk which corrects the faulty hookups and repairs the man-made hole.

It can't be done in infants, particularly infants who are slowly dying of their congenital heart defect.

Loss of Old Art Brings Action

SANTA FE, N.M. (AP)—The disappearance of historic religious figures from some of New Mexico's old churches and missions has drawn action from Republican Gov. David Cargo.

Cargo announced Wednesday he would try to develop a program to acquire religious santos and retablos for museums "if the churches don't want to preserve them."

"Some are being sold and many have been stolen," Cargo said.

Santos are wood carvings of religious figures and retablos are religious pictures painted on leather.

Allergies and You—4

Bad Attack Can Be Fatal

By Allergy Foundation of America
(Distributed by NEA Special Services)

President Johnson, in his recent message calling for an all-out fight against air pollution, termed emphysema "one of the fastest growing causes of death in the United States today."

Most allergies are just pesky nuisances. Your skin breaks out, maybe. You get a gastric upset which can be this "new flu" or maybe a rebellion of the old pipes against something you ate last night.

That "cold" you always get each spring or fall may be just a touch of pollen sensitivity.

But severe allergies can kill. Take emphysema. More than 17,000 Americans die of it each year.

Asthma is an accomplice in 8,000 deaths a year.

Smog deaths are, as yet, an unknown quantity, though there are a few clues.

When a great fog paralyzed London in 1952 for five days, there were 4,000 more deaths than would normally have occurred. This was a record.

There have been other episodes not so drastic.

80 DEATHS
In his message, for example, President Johnson said the four-day air pollution emergency in the New York area last Thanksgiving took an estimated 80 lives.

While most figures are vague, the number of deaths in one branch of allergic reactions is quite accurate.

Insect stings kill 30 Americans a year, most of them within an hour after they are stung.

This compares with 14 per year from poisonous snake bites.

Even in the sanctuary of a doctor's office we all walk through the valley of the shadow. The incidents are rare, but there are cases when a drug, even though it had been taken or injected harmlessly before, will bring on a massive allergic reaction.

Within minutes, the patient can go into shock and, sometimes, die.

The situation is serious enough to bring forth the suggestion that those with known drug allergies carry cards of warning on their persons in case they would not be able to communicate with a doctor attending them in an accident.

These are extremes of course.

Dow Chemical Tells Dividend

MIDLAND (AP) — The Dow Chemical Co. board of directors Wednesday declared a dividend of 55 cents per common share, payable April 29 to holders of record March 31.

The dividend was increased by five cents a share—the third cash dividend increase by the company in the last four years.

The worst single tornado in U.S. history struck March 18, 1925, in Missouri, Illinois and Indiana, killing 689 persons.

Film Studios Make Pitch for Sightseers

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — Want to see the inside of a movie studio when you make your trip to Hollywood? Now you can do it two ways: as a plain sightseer at \$3 or as a champagne-sipping VIP for \$50.

The prestige tour is the latest wrinkle in a new Hollywood industry. In odd days, wily Uncle Carl Laemmle charged 50 cents a head for tourists to

stand behind a glass wall and watch movie actors at work. The sound era ruled out tours, since a bystander's cough could ruin a take worth thousands of dollars.

In recent years the major studios, eager to explore new avenues of revenue, have been welcoming tourists once more. Some of the lots began allowing excursion buses to drive through the studios, the patrons being limited to a look out the window.

Universal, where Uncle Carl once charged for a look-see, made the studio tour financially respectable. Starting with two trunks in 1964, the company began inviting outsiders to see how a studio operates. Customers amounted to a half-million in 1965 and 800,000 in 1966. The projection for this year is 1,200,000, at a price of \$3 for adults, \$2.60 for juniors, \$1.50 for children and no charge for tots under 5.

WINNER AND LOSER — President Robert H. O'Brien (left) Metro-Goldwyn-Mayer, Inc. and stockholder Philip J. Levin are shown at the firm's meeting in New York yesterday where it was announced that

MGM's management had won a proxy battle over Levin's group. The result meant that O'Brien will continue to head the 45-year-old film company. Levin is a New Jersey land developer.

More Gravity Viet Death List Shows Names of 36 Americans

By Science Service
WASHINGTON — Is nothing sacred? Now even gravity isn't what it used to be. At the South Pole, it seems, gravity has gone up noticeably since 1967.

Noticeably isn't saying much, however. Gravity in January 1966 was just about a hundred-thousandth of 1 per cent (0.0001) greater at the South Pole station than it was in December 1967, according to John C. Behrend of the U.S. Geological Survey.

The reasons, he says, are probably that the ice sheet, with the station on it, is moving downhill and to areas of higher gravity, and that the station itself, from which the measurements are made, is sinking into the ice.

The closer an object gets to earth's core, the greater is the gravitational attraction on it.

The traveling ice sheet, Behrend reported in Science, may actually have been moving as much as 165 feet a year.

Sinking alone could have produced the same apparent increase, but it would have required a drop of more than nine feet since 1967, which is probably more than 100 times as much as actually took place.

WASHINGTON (AP) — The Defense Department has released a list of casualties in Vietnam which included 36 men killed in action.

The list also includes one man who died of wounds; two men previously listed as missing, now dead, hostile; two missing from hostile action; and one who died from other hostile action and one, previously listed as missing, now dead, non-hostile.

Killed in action:

ALABAMA — ARMY
Spec. 4 Roger D. Lewis
Pfc. Edward R. Reid Jr.
MARINE CORPS
Maj. Harold J. Alwan
Died not as a result of hostile action:

CALIFORNIA — NAVY
Lt. (jg.) Edward N. Leitchworth, Chula Vista
MARINE CORPS
Pfc. David R. Daniels, Key West
Missing to dead, nonhostile:

CALIFORNIA — ARMY
Spec. 4 Salvador Zabala Jr., Menlo Park.

NORTH CAROLINA — Lance Cpl. James L. Ross, Hickory
Lance Cpl. James S. Goss, Mocksville
PENNSYLVANIA — Cpl. Ronald G. Dunning, Bloomsburg
TENNESSEE — Cpl. Stephen L. Miles, Dickson
Died of wounds:

MARINE CORPS
Spec. 4 Roger D. Lewis
Pfc. Edward R. Reid Jr.
MARINE CORPS
Maj. Harold J. Alwan
Died not as a result of hostile action:

COLORADO — Pfc. Leroy F. Delgado Jr., Grand Junction

Spec. 4 Salvador Zabala Jr., Menlo Park.

BAY CITY BUDGET
BAY CITY (AP) — The City Commission receives Friday a proposed city budget of \$4.8 million for 1967-68. The current budget is \$4.58 million.

PHILADELPHIA (AP) — A Quaker in California announces plans to send medical supplies to North Vietnam.

Another in Philadelphia complains the U.S. Treasury Department has "frozen" his group's bank account because they want to give medical aid to Ho Chi Minh's troops.

Still another, in Canada, charges the U.S. government is stopping shipment of medical goods from American Quakers to territory controlled by the Vietcong.

While these stories have been catching headlines around the country, the largest Quaker-related group, the American Friends Service Committee (AFSC), has quietly shipped the same sort of goods to North Vietnam and the Vietcong with U.S. government permission.

DIFFERENT PRINCIPLE
The difference, says Colin Bell, executive secretary of the AFSC, now celebrating its 50th anniversary, is that some other Quaker groups are fighting for a different principle.

"They oppose the government's power to say whom you can and cannot help," said the slight, British-born administrator. The AFSC is perfectly happy to comply with government regulations on such things if they don't interfere with helping people.

The committee first took note of Vietnamese problems in 1949 and issued in 1954 its first public statement against U.S. military aid to what was then French Indochina.

This year, says Earl Edwards, associate executive secretary for finance, well over \$1 million of the committee's \$6.5-million budget will be directed to a broad-based peace education and aid program for Vietnam.

The dual program — to propagate peace on the home front while aiding the victims of war in Vietnam — is an indication of the committee's revised goals, says Bell.

In reviewing the committee's first half century, Bell pointed out that "actually, in only three out of our 50 years have we not been engaged in some sort of relief for victims of armed conflict."

But war-oriented activities are now only a part of the job

Helping Is Only Concern Quaker Group Steers Clear of Politics

UAW Agricultural Unit Meets

DETROIT (AP)—The United Auto Workers union said Wednesday that 1967 collective bargaining goals and a new program of international organizing would be the major topics of discussion at a three-day meeting of the union's agricultural implement and industrial equipment council.

UAW Vice President Pat Greathouse, director of the agricultural implement department, said delegates to the council, which meets today, would submit recommendations to the union's special collective bargaining convention, which meets in Detroit April 28-29.

The delegates represent more than 150,000 UAW members at International Harvester, John Deere, Massey-Ferguson, Caterpillar, Allis-Chalmers, J. I. Case and other companies.

Greathouse is to report to delegates on a program developed at Geneva, Switzerland, March 1-3, by representatives of more agricultural implement workers in eight nations.

The program, among other things, calls for "guaranteed annual incomes for all workers and protection for workers who are victims of technological change."

UAW President Walter P. Reuther has repeatedly called for guaranteed annual incomes for auto workers in his contract negotiations with the auto industry.

City Manager

MUSKEGON (AP)—Robert D. Pulacher, 32, has accepted an offer to become city manager, succeeding George F. Little, who is retiring.

More than 40 million hunting and fishing licenses are sold each year in the United States.

Business Growth May Not Be Enough

WASHINGTON (AP)—U. S. high economy, business investment in the first six months of 1967 is expected to drop below the fourth quarter 1966 rate, Securities and Exchange Commission.

But a moderate upturn in the final half-year will produce the Commerce Department and Securities and Exchange Commission.

Baby rattlesnakes are born with one rattle.

Hamtramck Outclasses Chiefs in Regional Tilt

Cosmos Down PCH in Tense Struggle, 62-54

Central Blows Early Lead; Winners Take Control of Boards

By JERE CRAIG
Pontiac Central's Chiefs were knocked off their usual Class A tournament warpath by a superior Hamtramck quiet Wednesday night, 62-54, in the Birmingham Seaholm regional. The past three seasons the Chiefs lost to Benton Harbor (1964) in the state semifinals, to Southfield (1965) and Ferndale (1966) in regional title games; but many doubted their conquerors' superiority.

Last night Hamtramck's quicker, higher-jumping Cosmos dominated PCH after Central stunned the 2,800 fans and the winners with an outstanding shooting and passing display for one quarter.

The Chiefs, however, couldn't keep up their shooting and Hamtramck's better rebounding took its toll, although the outcome was in doubt until the last period when a 21-12 margin boosted the Cosmos into Saturday's finals against tonight's Royal Oak Kimball - Birmingham Groves' survivor.

PCH hit Hamtramck with its hardest blow - devastating shooting - right off the opening tipoff. Central made six of its first seven field goal attempts, hitting both from the outside and on three driving layups off crisp passing by Alton Wilson.

With Prentice Hill and John Childs each sinking four baskets, Central zoomed to 16-3 and 18-7 leads in the opening session. Frank Russell added a ninth field goal as the Chiefs hit 60 per cent in the quarter.

But the Cosmos, who went the first six minutes without a field goal, only made 2 to 15 and committed seven turnovers in their horrendous start, never lost their composure.

BIG SURGE
PCH made 15 points to one by PCH in the first five minutes of the second quarter. This streak put them ahead, 22-19. Central then knotted the score at 22 with 2½ minutes remaining in the half.

At the biggest lead there were four points, 33-24 for the winners, until the final five minutes of play. In the game, the score was tied 11 times and the lead shifted on seven occasions.

Hamtramck finally moved ahead for good at 44-46 with just under a minute left in the contest. It hit seven points in a row to take a 51-46 lead.

Central cut the gap to 54-50 before the winners padded their advantage with free throws.

Neither team really relied during the tense struggle, missing a total of 29 charity tosses and combined for 33 violations.

RETRIEVES

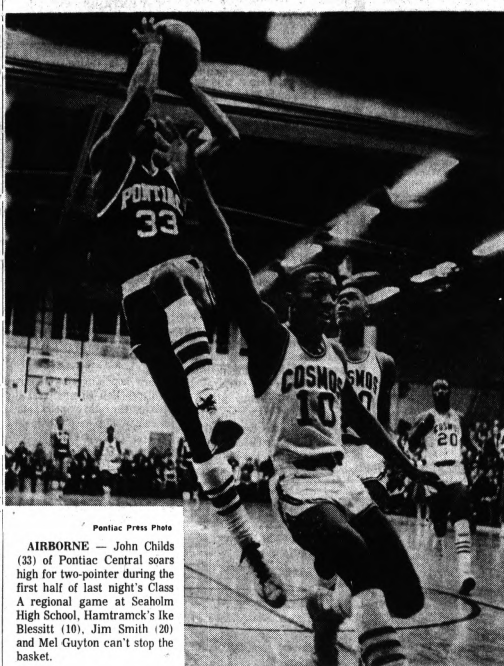

But the winners posted a commanding 66-59 rebounding margin, repeatedly getting second and third shots on offense. Although shorter than PCH, the Cosmos outjumped them steadily, especially when Gordon Hamilton ran into foul trouble and went to the bench.

The losers stayed even on the backboards only in the third quarter, but after Janky Walter Causey drew his fourth personal and Hamtramck quieted regained its advantage, registered a 17-8 domination in the last period.

Playing for good shots, the winners also made five of their first six field goal tries in the winning surge while PCH shot less than 33 per cent in making only five buckets in the quarter.

The 54-points are Central's third lowest total of the season, and the team's first effort under 62 since mid-January. Hill finished with 20 points and Childs 15. Wilson made only five.

AIRBORNE — John Childs (33) of Pontiac Central soars high for two-pointer during the first half of last night's Class A regional game at Seaholm High School. Hamtramck's Ike Blessitt (10), Jim Smith (20) and Mel Guyton can't stop the basket.

Veteran Pitcher Impresses Sain

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

LAKE LAND, Fla. — The first intra-squad game of spring camp, played under rules and a format which probably only manager Mayo Smith could understand, brought forth a few conclusions of importance.

Eight pitchers took the mound yesterday for 15 minutes each. They stayed on the mound until they used up their time regardless of the number of batters. When the hurler's time was up, the fielders switched sides as teams.

There were no strike outs or walks and the runners who got on base ran the bases in such make-believe situations that even the late Walt Disney would have figured it to be some kind of fairytale.

At any rate, if a pitching star would have to be chosen of the eight who took part, it would probably have to be the oldest member of the training camp roster — John Klippstein.

Freddie Gladding and Larry Sherry followed Klippstein with the best 15-minute performances.

Earl Wilson, Joe Sparma, Joe Korincic, John Hiller and Bill Graham showed wild streaks and it was evident that they were far from ready for the exhibition season which starts tomorrow in Bradenton against the Kansas City Athletics.

The same type of intra-squad game is planned for today with eight more hurlers to get the 15-minute test.

Denny McLain is scheduled to start tomorrow against the A's in the Grapefruit opener.

MUGGY DAY

The temperature was a very muggy 82 degrees after the overnight rains and 39-year-old Klippstein, a free agent who came into camp after being released by Minnesota, showed he had something left in his arm.

He threw only 10 ball pitches, had 12 strikes, gave up only one hit and had nine putouts in what compared to a three inning assignment.

"I felt the heat and humidity," he said after leaving the mound, "but my pitches were breaking well and I'm happy about that."

Klippstein's major league record since joining the Chicago Cubs from the minors in 1960, resembles that of a tourist guide.

This is his ninth major league team and without doubt his last fling in baseball as a player. His best relief record came at the age of 37 when he helped Minnesota to the American League pennant by posting a 9-3 mark in 1965.

When pitching coach John Sain came to Detroit and Klippstein was released after a 1-1 season in 1966, the hurler asked for a trial at Lakeland. "There's a few wins left in that arm,"

said Sain, "and Wednesday's performance indicates that."

But, general manager Jimmy Campbell isn't expected to give Klippstein a contract based on yesterday's performance. If it happens, it will be when the Grapefruit circuit comes to a close in mid-April.

There was no hitting star in the unusual intra-squad game. Longest hit of the day was Jim Nordrup's triple in left center, hit against Hiller.

The ball hit the top of the 375-foot wall and bounced back over Willie Horton's head.

Dick McAuliffe had a solid double off Sherry and rookie infielder Dave Campbell of Lansing laced a solid double down the left field line.

Other hits went to Orlando McFarlane, Dick Tracowski, Al Karline, Jake Wood and Bill Freeman.

McAuliffe, at second base, turned in a spectacular pivot (Continued on Page E-3, Col. 1)

Bentley Slips by Farmington

Second Half Slump Sinks Falcons, 58-56

Farmington Wednesday night continued to find regional basketball competition an insurmountable obstacle, dropping a 58-56 verdict to favored Bentley in the Livonia Franklin Class A tournament.

The Falcons had a 12-point lead in the second quarter, then rallied to tie the score in the final period only to see Larry Grimm's short jump shot in the closing seconds break the 56-all deadlock and provide Bentley with its 20th win in 22 starts. They led, 35-28, at the half-time, and fell behind, 45-44, after three quarters.

Farmington now has captured three district titles and never survived its first regional outing.

Greg Dorow pumped in 22 points and Tom Wirtz 17 to lead last night's effort. Grimm had 14 and Bulldog teammate Mike McCauley 16.

ADVANCES
At East Detroit, league champion Warren Fitzgerald became the only Oakland-A finalist to advance beyond its first regional game by overcoming St. Clair Shores South Lake, 72-63, with a rousing second half.

Fitzgerald (19-1) trailed, 44-32, at the half, but held South Lake (18-9) to nine points in the third period while scoring 28. The winners had a 12-0 margin in the final quarter.

Dave Dubowski's 20 points led the Spartans and took game honors.

SPORTS

Mistakes Prove Costly

Fenton Nips Avondale

By FLETCHER SPEARS

HOWELL — One mistake and you're out. That's the story of the Michigan high school basketball tournament.

Avondale's Yellow Jackets had more than one mistake to their credit here last night but the result was the same as they dropped a 70-59 verdict to Fenton before more 2,000 fans.

The triumph boosted Fenton (15-4) into the regional final Saturday night against the winner of tonight's Dearborn Riverside-Lansing O'Rafferty game. The champion at Howell will take on the Flint regional titlist next Wednesday at a site to be selected Monday.

One of the statistical yardsticks used in measuring a team's accomplishments or misdeeds is the turnover — a little gem that means the squad lost the ball before getting a shot at the basket.

Avondale had 27 last night, some due to jitters and others brought on by the tight Fenton defense.

STAYS CLOSE

The Yellow Jackets made a game of it for a half, trailing 31-27 at intermission, but Fenton gradually pulled away in the

second half to saddle Avondale (8-11) with defeat.

Part of the Jackets' trouble could be traced to the fact that Lee Saunders, an All-Oakland A Team selection, collected his fourth personal late in the second quarter.

The well-drilled Fenton squad, likewise, had its foul problems — starters Mike

Madden and Dick Goodrich were whistled out in the fourth period — but some classy shooting and the sticky, pressing defense were too much for the Jackets.

Avondale managed only 39 shots and made a respectable 43 per cent of them — 17 — while Fenton blazed away at 52 per cent pace, hitting on 29 of 55 shots.

Guards Vance Huff (5-foot-3) and Robert Niles (5-foot-5) are

Roster Error, Difficult Foe Equal Loss

A pre-game error and aggressive play on the part of Elkton-Pigeon-Bayport sent Imlay City's Spartans to the sidelines with a 61-49 defeat in a regional basketball tournament game last night in Flint.

The Spartans were hurt in the rebounding department by the absence of starting center Jim Simons, a 6-5 junior, whose name was omitted from the 'Current Eligibility List' which each school must file with the tournament director.

"I filled out the list Saturday night after we came home following our district championship game," said athletic director Y. W. Delong.

"Normally, the form is filled out by high school office personnel," Delong explained, "but since the drawing for regional opponents was to be held on Monday, I wanted to get it out of the way."

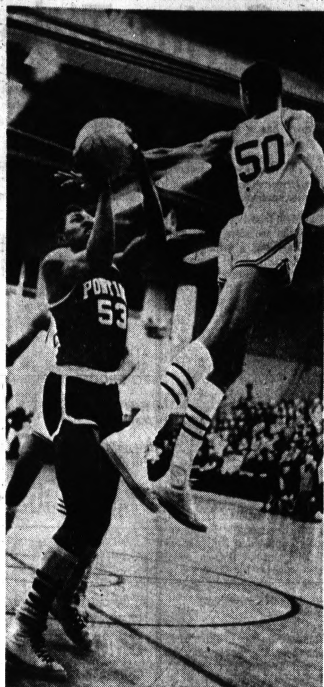

FORGOT PLAYER

Delong forgot Simons as he prepared the form, and neither he nor coach Jerry Vollek caught the omission when they went over the list of players at the regional drawing Monday.

Simons' name was listed on the tournament roster, but officials said he couldn't play since he wasn't listed on the 'Current Eligibility List.'

Elkton-Pigeon-Bayport ran its record to 15-2 with the victory.

Without Simons, the winners beat the Spartans easily in the rebounding department. Gary Nolin (15) and John Topie (13) led Imlay's offensive effort.

Pontiac Press Photo by Edward R. Noble

LAUNCHING A COSMO — Alton Wilson (53) of Pontiac Central fakes Hamtramck jumping Jack Dennis Mock (50) off his feet and into a personal foul during the second period of last night's big regional tournament duel at Birmingham. Wilson was bothered by the Cosmos' scrappy, defensive play in the lane much of the evening, finishing with only five points in PCH's 62-54 loss.

LBT No Match for Country Day

Special to the Press

GRAND BLANC — Coach John Hannett's concern proved unnecessary Wednesday night as Country Day romped to an easy 81-56 regional tournament, victory over Lansing Boys' Training.

The Birmingham Yellow Jackets' mentor anticipated a strong season and scouted potential tournament foes all winter, but never did see the Lansing quintet play.

However, his lack of an accurate scouting report apparently didn't hurt the Country Day cagers. They quickly broke to a 22-11 opening-period lead, and upped it to 43-25 by the intermission.

Gene Allen notched 16 of the losers' first-half points, and then fouled out in the last half when the Lansing squad fell further behind.

HOT HAND

Red-haired sharpshooter Tim Baughman notched 11 field goals for Country Day, making 10 baskets and 21 points in the first three periods as the winners built a 67-40 lead. He finished with 29 points.

Dave Swift, the Yellow Jackets' 6-8 center, hit 11 of his 19 points in the second half.

Teen Net Champ Whips City Stars

Pontiac's top players were easy prey last night for 13-year-old Janet Martin of Livonia, the reigning U.S. Open midjet singles champion, who participated in an exhibition at the C.A.I. building in Waterford.

She turned back Bill Lesner, Michigan's midjet boys' titlist, in straight games, 21-19 and 21-18, and followed with a 21-17, 18-21 and 21-16 win over Howard Heckman, a member of the Pine Knob All Stars.

Jerry Saunders, former state recreation champ and ex-Pontiac city titlist, fell to Miss Martin in the singles finale, 21-17 and 21-10, before a crowd of 150.

After the singles, Miss Martin teamed with Lesner to defeat Heckman and Saunders in doubles, 21-17, 18-21 and 21-17.

MFL to Discuss League Expansion

YPSILANTI (AP) — Owners and coaches of the Midwest Football League will meet Saturday in Ypsilanti to discuss possible expansion of the professional conference.

League officials said several groups, including representatives from three teams in Ohio, have indicated they would like to obtain franchise for the 1967 season.

The league now has teams from Pontiac, Flint, Lansing, Ypsilanti, River Rouge, Ferndale and Dayton, Ohio.

Engineered to Keep Your Spare in the Trunk

County Teams After State Swim Title

The state school swimming championships Friday and Saturday at East Lansing will be a wide-open battle if the county coaches' opinions are accurate. A survey of the local team mentors indicates five or six schools having an opportunity to grab the Class A title in the Michigan State University pool.

More than the usual number schools will be represented by at least one performer, and this could have a definite bearing on who captures the coveted championship.

The individual entries are capable of ruining the title bid of the teams with depth because they can grab some of the points that teams need to stay in contention.

As usual, Royal Oak Kimball and Birmingham Seaholm expect to make the best showing among county schools. Seaholm dominated the state meet for three seasons before being dethroned by Battle Creek Central last March by two points.

Trenton has shown strength this season and should have a voice to uphold the Battle Creek swimming reputation, appearing

to have more power than Battle Creek Central.

MOST ENTRIES

Darkhouse contenders are expected to be Allen Park and Warren Fitzgerald. Pontiac Northern is taking its largest contingent ever and plans to improve upon its 17th place finish of last year.

Pontiac Central, Hazel Park, Birmingham Groves and Southfield are among those squads having limited representation but hoping to tell the title ambitions of the stronger teams.

Kimball handed Seaholm its only loss in their dual meet and has an outstanding individual swimmer in senior co-captain Rand McCarthy. A freestyle, McCarthy, A freestyler, McCarthy expects to receive help from Gary Gottschling in the butterfly and backstroke and from Knights' two relay teams.

Their hopes may be improved if divers Bob Preston and Roy Henningway have good starts in Friday's 7 p.m. preliminaries.

The 400-yard freestyle prelims will begin at 5:30 p.m. and they

could see Seaholm make a fast start with entries Bill Hagelstein and Jeff Fitzgerald.

IMPRESS

The Maples dominated the Southeast Michigan loop league meet to share the season laurels with Kimball to project themselves solidly into the state picture.

The Birmingham squad will have entries in both relays, freestyle sprinters Tobin Role Jr., Skip Sherwood and Curt Finney. Breaststroke Dave Crosby figures prominently in the Maples' title hold.

He could encounter stiff opposition from PNH's Carl Hiller and Fitzgerald's Les McCormick. Hiller also will be in the individual medley in which McCormick is a stand-out, too.

PNH will have Steve Yedin in the 50-yard freestyle, and Ken Hughes in the backstroke, plus medley relay team that will probably be Hughes, Frank Yedin, Gary Cotter and Larry Geck.

CHIEFS

Diver Ken Franks of Pontiac Central hopes for a good show-

ing in tomorrow's preliminaries; while John Mason will compete in the 100-yard freestyle.

NORTHERN

Northern had a 9-4 season and won the Vehicle City Relays title for the second year. PCH slumped this season, finishing

in the Saginaw Valley Con-

ference behind Arthur Hill.

Groves has a good medley relay team to enter, plus individual medley swimmer Larry Driver, breaststroke Steve Driver and butterfly ace Doug Kirkpatrick.

Southfield freestyler Mike Burt is expected to score well, and Hazel Park has a strong diver in Keith Gill plus freestyler Bruce Marshall. Ferndale's Larry Smith also is a top IM threat.

Samuel's schedule at the MSU pool will have the medley relay, the IM, 50 and 200-yard freestyle prelims at 10 a.m. The

Bulletins' Green Faints in Hotel

DETROIT (AP)—Forward Johnny Green of the Baltimore Bullets fainted and collapsed in the lobby of a Detroit hotel while waiting for Wednesday night's National Basketball Association game with the Detroit Pistons.

Doctors said Green suffered a slight concussion at the back of his head. Tests were ordered to determine what caused Green to fall.

Trainer Bob Sullivan of the Bullets said Green (an ex-Michigan State cage star) recently underwent dental surgery and also was suffering from a severe cold.

Physicians at Detroit Osteopathic Hospital, where Green was hospitalized, said medication for the cold and the dental surgery might have adversely affected the veteran NBA player.

Cattle Show Set

LANSING (AP)—Breeders of purebred Angus beef cattle in Michigan will show off and then sell nearly 100 registered bulls and heifers at their annual mid-winter gathering Friday and Saturday.

prelims for the butterfly, backstroke and 100-yard freestyle, plus the diving semifinals are at noon.

The breaststroke and freestyle relay prelims will begin at 2 p.m. The finals will commence at 7:30 p.m.

Klippstein Sharp in Squad Contest

(Continued from Page E-1) and throw of a double play with his new keystone combination Ray Oyler.

Oyler flipped the ball to McAuliffe who was off balance and three feet in the air when he completed the twin killing to Norm Cash.

The small crowd in the stands of Marchant Stadium gave McAuliffe a big ovation for the play.

Smith plans on using at least three pitchers and possibly four in first three exhibition games this weekend. Sunday's game from Lakeland will be broadcast to Detroit via radio.

Wings Down New York, 3-1, but Time Is Running Out

NEW YORK (AP) — New York will have to win nine of the 10 games in the NHL, teams get two points for a victory and one for a tie.

New York pumped 33 shots at the net through Detroit got only 27 shots, but three of them beat Ranger goalie Ed Giacomin.

Gary Bergman fired from the point on a power play in the first period and Floyd Smith deflected it past Giacomin. Bruce MacGregor made it 2-0 in the second period, lifting a shot past Giacomin from a pileup in front of the net.

Busy Norm Ulman slammed in a power play goal—his 23rd—seven minutes into the third period.

Less than a minute later Bob Nevin got New York's only goal. There was a scramble in front of the net and Nevin's shot got past Gardner.

Chicago — home free as the 85th point in the third period first period. But Toronto got late goals for Montreal, a Bruin defenseman into the net.

on to victory. Bob Pulford, Pete Stenkowski, Dave Keon, Jim Pappin and Tim Horton all scored for Toronto. Bob Baun ran the score to 6-1 in the second period.

Montreal's Gilles Tremblay scored first, 48 seconds into the first period. Calude Provost, J.C. Tremblay and John Ferguson fired late goals for Montreal.

Strampe Near Lead in PBA Tourney

BUFFALO, N.Y. (UPI)—Detroit bowler Bob Strampe was a top challenger today as the \$37,000 Greater Buffalo Professional Bowlers Association tournament began third-round play.

Strampe rolled a 12-game 2651 pinfall Wednesday to grab third place in the standings, just 16 pins behind the leader, Dick Ritger of Hartford, Wis.

Ritger's pinfall of 2667 gave him a two point edge over left-handed bowler John Fabbro of Columbus, Ohio, a relative newcomer to PBA tournament play.

The 132-man field will be narrowed to 65 during today's tournament and to 16 tonight for semi-final round action Friday.

The championship will be played Saturday before a nationwide television audience.

Steps Down as Coach

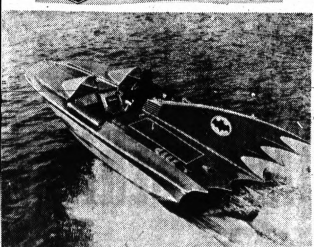

PORTLAND, Ore. (UPI)—University of Portland basketball coach Al Negretti, who won 163 games and lost 156 during 12 years as head coach, resigned Wednesday to devote more time to his duties as the school's athletic director.

Win Second Straight

PINEHURST, N.C. (AP)—Defending champions Jockey Beland and Curtis Person defeated David (Spec) Goldman and Lewie Lacey, 5 and 3, to win the Pinehurst Four-Ball Seniors Golf Tournament.

ALLSTATE Passenger Tire Guarantee

THREAD LIFE GUARANTEE AGAINST ALL FAILURES

Every ALLSTATE tire is guaranteed against all failures from road hazards or defects for the life of the original tread. If time fails, we will—at our option—repair it without cost, or, in exchange for the tire, we will replace it charging only the tread wear (charge will be a pro-rata share of then current regular selling price plus Federal Excise Tax).

THREAD LIFE GUARANTEE

We guarantee tread life for the number of months designated. If tread wears out within this period, return the tire. In exchange, we will replace it charging only the tread wear (charge will be a pro-rata share of then current regular selling price plus Federal Excise Tax, less a set dollar allowance).

**Illinois Five
Risks Streak**

By the Associated Press
Southern Illinois and Ken-
tucky Wesleyan, the country's
top two small college powers,
share the limelight in college
basketball tonight with North
Carolina, nationally fourth-
ranked among the major teams.

Southern Illinois, No. 1 in the
final small college Associated
Press poll of the season, risks
its 15-game winning streak and
20-2 over-all record against St.
Peter's of New Jersey in the
first round of the National Invi-
tation Tournament in New
York. Marshall plays Villanova
in the opening game of the NIT
doubleheader.

With Southern Illinois prefer-
ring to play against major
teams in the NIT, Kentucky
Wesleyan, 21-3, opens its drive
for a second straight NCAA col-
lege division national champion-
ship.

The Panthers meet Stetson at
Evansville, Ind. in the South
Central regionals.

**On Withdrawal
Conference Riles EMU**

YPSILANTI (AP)—The East-
ern Michigan University Board
of Regents has expressed "sur-
prise and disappointment" at a
statement from the Interstate
Intercollegiate Athletic Confer-
ence (IAAC) last week after
EMU withdrew its application
for membership.

The statement charged that
eastern Michigan had with-
drawn from the conference and
had failed to pay membership
dues.

Regents said the school was
only being considered for mem-
bership, which would not have
begun until May, and because
the school was not a member it
had not been billed for charges.

Eastern Michigan officials
said the school had withdrawn
its application because of dis-
agreement with the conference
over the level of financial sup-
port from the university for ath-
letic competition.

Conference members had
voted to increase the level of
support by providing athletes

**Pistons Win;
Bing Nets 47**

DETROIT (AP) — The crowd
was roaring "Bingo, Bingo,
Bingo" and the slender man re-
sponded as though gaining
strength from the chant — steal-
ing the basketball, drib-
bling and scoring.

Dave Bing, the 6-foot-3 Detroit
guard who wears No. 21, scored
a career high of 47 points as the
Pistons whipped Baltimore 120-
113 and moved back into a tie
with Chicago for the last play-
off spot in the Western Division
of the National Basketball Asso-
ciation.

Grid Owners to Shun Redshirts in Pro Draft

NEW YORK (AP) — The American and National Football Leagues received a pat on the back today after doing away with the redshirt draft which had left a number of redneck college football coaches.

College conference commissioners throughout the country praised Wednesday's announcement that the first combined player draft will be held next week and prohibits selection of athletes redshirted by colleges. "This is not anything we specifically asked for," said Commissioner Bill Reed of the Big Ten and former chairman of the Professional Relations Committee of the NCAA, "but it is evidence of the cooperation we were led to believe we could expect from pro football."

Howard Grubbs, executive secretary of the Southwest Conference, and A.M. (Tonto) Coleman, commissioner of the Southeastern Conference, joined in the praise and Coleman explained why.

MORE TIME

"Not only student athletes but students are taking more than four years to graduate," he said, "and I think it will be better for everybody concerned if they are permitted to finish their college careers without having to be concerned with problems that would result in their being drafted."

"Then, too, I think the pros will have a better evaluation of the athlete's ability and at the same time the athlete can better plan his future."

The previous plan allowed the pro leagues to draft redshirts —

the NFL in the regular draft and the AFL in a special draft — and it left college coaches angry over losing players who still had a year of eligibility remaining.

A redshirt is a player who sat out a year of football and retained that year of eligibility after his class has graduated.

Under the adopted compromise plan, pro Commissioner Pete Rozelle said no player with collegiate eligibility remaining can be drafted until five seasons of football have elapsed since his first entered a recognized college.

Rozelle said 17 rounds of the draft would be held in New York starting Tuesday and might continue another day or two. He estimated 445 players would be chosen by the 18 NFL teams and nine AFL clubs, including 20 extra picks by New Orleans, the NFL's newest team.

Michigan Christian Junior College prep for its state Christian College AA tournament appearances Friday and Saturday at Grand Rapids with a 105-41 victory over Mercy College last night.

The Warriors upped their mark to 15-0 and surpassed the 100-point mark for the seventh time this season in the preliminary game to the Detroit Pistons-Baltimore National Basketball Association contest at Cobo Arena.

They apparently liked the exposure, outscoring Mercy College, 47-17, from the field. Jerry Olsen hit 19 of his game-leading 31 points in the opening half as MCJC took a 44-23 lead.

All 10 of coach Bill Shinsky's players scored with three others making double figures. Jim

Bruff had 20, Jim Barron 15 and Jerry Shoemaker 14.

Michigan Christian will meet Grand Rapids Baptist Bible at 6:30 p.m. Friday in the league tournament opener on the Central Christian High School court.

Detroit Bible College will tan-

Going to Trinidad

NEW YORK (UPI) — Ralph Boston, the world record holder in the long jump, and Tommy Farrell, the outstanding middle distance runner now in the Army, will head a five-man U.S. contingent that will compete in the annual Southern games at Port Au Prince, Trinidad this weekend.

gle with regular-season champion Grand Rapids School of Bible and Music in the 8:30 nightcap. The two winners will play at 8:30 p.m. Saturday following the 6:30 p.m. consolation game.

MCJC has finished second the past two seasons in the annual tournament and has high hopes for taking the title this winter.

Pontiac Driver Captures 1st in Snowmobile

Area skimbollers continued active last weekend although some of the snow cover faded prior to Sunday morning's light snowfall.

The Eastern Michigan Snowmobile Derby was held near Memphis and John Manuel drove his dad's Sno-Sport to first place finishes in the cross country event for Open Modified machines, and Australian Pursuit race.

Brother Henry took a third in the cross country chase for Class C snowmobiles, and teammate Darrell Felts was second. The Manuels live in Waterford Township while Felts is from Clarkston.

Other local winners included Chuck Goldy of Waterford Township on a Ski-Doo in the Modified F event and David Cheek of the township on a Scorpion in the stock slalom race.

Bruce Clifton of Waterford Township won a Class A heat race, and took seconds in the "A" qualifying plus the slalom on an Artic-Cat.

Golden Gloves Champs Entered in AAU Matches

DETROIT (AP) — National Golden Gloves champions Quienecan Daniels and Willie Richardson, both of Detroit, will compete in the Michigan Senior AAU championships in Detroit March 20.

Winners in the 30-bout championships will be sent to the national AAU championships in San Diego next month.

Five substitute boxers also entered the Michigan championships sponsored by the Detroit Bartenders Union for the benefit of Sobriety House, a half-way house for homeless alcoholics.

Outstayers who filed are Cleo Ford, 17 and Robert A. Ewert, 19, both of Lansing; Charles Bates and Mike Brown, both 24 of Port Huron and Douglas W. Brya, 24, of St. Johns.

Quirk Sparks Packers to 60-58 Victory

The Packers (12-4) ran up an early lead and held on last night for a 60-58 win over the Unbeatables (5-11) in Pontiac National League recreation basketball action.

Ed Quirk sparked the winners with 28 points and teammate Ken Carpenter added 14. The Packers held a 14-12 lead after one quarter and ran the score to 35-36 at halftime.

Hanley Johnson pushed in 16 markers to pace the Unbeatables, while Michael Powell and Archie Phillips collected 12 apiece.

In a second NL game, the All-Stars (10-6) gained a forfeit de-

cision over McDonald's Drive-In (7-8).

In Waterford Township Class A play, Drayton Drug (9-1) held onto its one-game lead by whipping Genesee Welding (3-7), 83-72. Powell's Trucking (4-6) topped Day's Sanitary Service (3-7), 75-74, and Spencer Floor

(8-2) downed Bob's Five (3-7), 87-68.

FINDS RANGE

Drayton, nursing a 63-58 lead after three quarters, found the range in the fourth and tossed in 30 points to turn the contest with Genesee into a rout. Tom Keller led the winners with 27 points while Jim Mathis added 22 for the losers.

CONNECTING FOR CHIEFS — Guard Penrice Hill (23) of Pontiac Central checks the progress of his second-quarter field goal against Hamtramck's Cosmos Wednesday at the Birmingham Seaholm regional Class A tournament. The winners' Dennis Mock (50) can't prevent the two-point, one of nine baskets Hill made in the game.

Yellow Jackets Lose Regional Tilt, 70-59

(Continued From Page E-1)
proof there's still room for the little man in the game.

SINKS SEVEN
Huff hit on seven shots from long range and wound up with 15 points, while Niles, a little off target in the second half, picked up six points on three buckets from long range.

The big gun for the Tigers, however, was All-State halfback Don Madden who hit from inside and long range and led all scorers with 28 points. Don's brother, Mike, wound up with 10 markers.

Bob Burt, whose shooting kept Avondale in the game in the first half, collected 14 points before intermission and added eight in the second half for a 22-point performance. He fouled out with 4:01 left in the game.

Archie Anderson contributed 10 points to the Avondale attack. The Jackets spent much of their time at the free throw line where they hit on 25 of 36.

A big sag for Avondale came in the third period when the team managed only two field goals. Nine shots from the charity line boosted the total to 13 points for the quarter but Pen-ton led going into the final frame, 49-40.

EARLY LEAD
The Jackets held the lead three times in the first half but Fenton found the range midway in the stanza and held a 12-8 margin as the period came to a close.

Midway in the second with Burt hitting well from the outside, Avondale took a 19-16 lead and moments later pushed it to five points, 23-18.

But Fenton took charge and scored nine points in a row to move in front, 27-25. Avon tied it again at 27, but the winners took the lead for good with a pair of quick baskets just before halftime.

AWAITS LIFE OR POSSIBLE DEATH — Michael LeBrun holds his torn shirt and shows on his arm where he was bitten by a pack of dogs. The 8-year-old lad was attacked near his home in Speonk, on New York's Long Island. That was last Thursday and the dogs have not been found for rabies tests. Michael's father refused to allow his son to be inoculated against rabies, citing a doctor's advice that the shots can be fatal and gambling that the dogs weren't rabid. Michael could die in less than two months.

Surplus Fund Is Eyed

Medicare May Need Financial Boost

WASHINGTON (AP) — The government may have to divert to the Medicare program Social Security funds earmarked for retirement benefits, says Chairman Wilbur D. Mills of the House Ways and Means Committee.

The Arkansas Democrat said Wednesday climbing hospital costs threaten to plunge Medicare into the red.

He mentioned as a possibility for keeping the program financially healthy a hike in the Medicare tax or tapping of the retirement fund.

Mills' comments came after officials of the American Hospital Association testified at the committee's hearings on President Johnson's proposed Social Security increase proposals.

ESTIMATION

The AHA officials estimated that hospital expenses will average \$57.93 a day for each patient by next September — an increase of 18.6 per cent in a year. They predicted further increases during the next three to five years.

Mills said the projected rate of increase is about twice that estimated by Congress in setting the Medicare tax of 1 1/2 per cent on workers and employers, limited to the first \$6,600 a person earns. The tax is scheduled eventually to reach 8-10 per cent.

Mills said the portion of Social Security taxes that goes for retirement benefits is producing a slight surplus.

Johnson's Social Security plans count on using this surplus plus more payroll tax revenues to finance higher benefits.

A radio guideline system for airplanes used in the application of pesticides increases accuracy, reduces waste and eliminates part of the ground crew.

170 Killed, Wounded During China Strife

HONG KONG (AP) — At least 170 people were killed or wounded during clashes between Red Guards loyal to Mao Tse-tung and county officials at Fatshan, near Canton, arrivals from Red China reported today.

The travelers said the most serious clash occurred last Friday when 2,000 Red Guards besieged a Communist party committee office building where about 700 officials were working.

After a lengthy argument, according to the reports, the officials closed all doors and windows of the building.

"The Red Guards eventually

Human Remains in Ancient Urns

BRATISLAVA, Czechoslovakia (AP) — A number of urns with incinerated human remains dating back to 1200 to 1300 B. C. were discovered near Rimavska Sobota, Slovakia, the news agency C. T. K. reported recently.

C. T. K. said the urns contained bronze parts of clothing and bronze needles and small daggers symbolizing the social position of the dead.

Other arrivals reported another clash between Red Guards and factory workers occurred Sunday at Fatshan. They said the number of casualties were not known.

One traveler said a "huge" bomb was discovered on the Fatshan highway Saturday and was removed by army troops.

ALONG RAIL LINES

Some arrivals reported army troops had poured into Canton in the past 10 days to take up positions along railway lines in coastal areas and various counties near Canton.

"The troops were used to control the chaotic conditions prevailing in Kwangtung Province," one arrival said.

Indiana Senate to End House

INDIANAPOLIS, Ind. (UPI)—The Indiana Senate yesterday passed a resolution calling for abolition of the Indiana House.

The resolution's title said it would provide "for reduced cost of state government, expeditions Indiana legislative process and create a modern and efficient Indiana general assembly."

If the House would only concur, the Senate resolution said, all current House members would be fired forthwith. But they would be allowed a six-month allowance to get home and "would be eligible for unemployment compensation for a period of 30 days."

State House observers believed the resolution was inspired by the fact that the Senate is controlled by Democrats, while the House is dominated by Republicans.

No senators voiced serious belief that the House would agree to abolish itself.

Gambling Probe in the Bahamas Starts March 13

MIAMI, Fla. (AP)—The official investigation of possible American underworld infiltration into Bahama gambling casino operations will begin March 13, says Premier Lynden O. Pindling.

Pindling, in Miami Wednesday, said three of the four Scotland Yard investigators already have been named.

The probe, instigated by Pindling before his election last Jan. 10, is officially an act of the British government in London at the request of its representative for the Bahamas, Gov. Sir Ralph Grey.

Officers of Bahama Amusements Ltd., who operate the only three casinos on the islands, have said they would welcome an investigation.

Blaze Victim

DETROIT (AP)—A 70-year-old widow, Mrs. Treva Monahan, died Wednesday in a kitchen fire in her northwest Detroit home.

He'd Cool Off TV Pursuit and Heat Up Movie Career

By EARL WILSON

NEW YORK — Danny Kaye's hoping to revive a long-dormant movie career after winding up four years on TV—he's called the one star who canceled himself because he was tired of what he was doing . . . and he discussed it with Arthur freely at Arthur where he said with his collar open beside his wife Sylvia Fine and Senator Jacob Javits and Marian Javits.

"I've got 3 more to do, and it's been wonderful—I see these people I work with more often than I see my wife," Danny said.

Sylvia Fine, now working on a Broadway play, nodded to that.

"But it's too easy," Danny explained. "The reason I decided to do TV—after long resistance to it—'was to take my life and shake it up."

"And that's what I'm doing again, taking my life and shaking it up. I could stay on and fall into a groove but every groove becomes a rut. I should go back and make some movies. The last one I made was 'The Man From The Dinners' Club."

Danny flies in April to Chichester, England, to rehearse for his starring role in "The Servant of Two Masters"—a theatrical classic for which he'll receive \$210 a week, or \$1050 for the 5 weeks he'll work. "I turned down \$700,000 worth of work to do it," Danny said.

Some guys shake up their lives one way, some guys shake up their lives another.

Cuban Youth Wins Honor

Carolina Student Gets a Morehead Grant

CHARLOTTE, N.C. (AP)—Back in 1960 a Cuban mother and father put William Sabates and his younger brother and two sisters on an airplane for the United States.

Mr. and Mrs. Guillermo Sabates didn't want the children to grow up under the Fidel Castro regime. Three years later the parents fled Cuba and joined the children in Charlotte.

This week the 90 Morehead scholarship winners were announced and one of them was William Sabates.

His A-minus average for four years had been rewarded with a \$7,000 scholarship for four years study at the University of North Carolina at Chapel Hill.

An athlete as well as top student, Sabates, 17, has played football, basketball and baseball and is on the track team at Charlotte's Catholic High.

Which sports will he play at North Carolina?

"I want to study," he says. "Studies come first. I'll go out for baseball if I have time. I may try basketball."

His studies will be premedical, with a major in biology.

"I want to be an ophthalmologist and I hope to do well enough to earn some graduate help," Sabates said.

WATCHED OPERATION

Recently he watched an operation at a Charlotte hospital because "I wanted to be sure that's what I wanted to be," the dark-haired boy said. "Now I'm sure."

The faculty at Catholic High is almost as elated as Sabates about the Morehead scholarship. It's the first for the school.

The scholarships are provided by a foundation established by the late John Morehead Morehead, who has given millions of dollars to the University of North Carolina. Morehead was founder of the Union Carbide Corp.

Football coach Will Campagna at Charlotte Catholic High summed up the way the school's faculty feels about Sabates: "He's a good student and he's a good athlete. Castro's loss is our gain."

'5-Year Costs of Roads Will Top Revenue'

LANSING (UPI)—State Highway Director Howard E. Hill said today that highway costs for the next five years will be \$172 million more than expected revenue.

Hill said proposals before the Legislature to raise new money for highway building fall \$37 million short of meeting the Highway Commission's 1967-72 construction program.

The Michigan Good Roads Federation has asked the Legislature to approve four bills that would raise \$135 million in additional revenue.

If the package becomes law, the gasoline tax would be raised from six to seven cents, the license plate tax would go up 20 cents for the commercial pounds, and the commercial plate tax would increase 10 percent.

"This is an emergency package to enable the state, counties, cities and villages to keep their heads above water in the face of rapidly rising construction, maintenance and right-of-way costs," James M. Telford, president of the federation, said in a separate statement.

TESTIFIED

Hill and Telford appeared before the Senate Highways Committee and the House Roads and Bridges Committee.

The two were asked to justify the proposed increases in highway taxes.

Vanishing Breed

Oryx Born in Phoenix

PHOENIX, Ariz. (AP)—The leaping and bounding Arabian oryx population of the Phoenix Zoo is growing with the same adjectives.

This is good news, since the 16 prong-horned animals, together with a smaller herd in Saudi Arabia, make up more than half of the verified world population of the species, according to Phoenix Zoo officials.

A second female oryx has

been born at the zoo. The calf's parents are Riyadh, a male of unknown age, and Cuneo, a 5-year-old female.

The herd was set up at the Phoenix Zoo in an attempt to rebuild the oryx population which was near extinction due to indiscriminate hunting.

Phoenix was chosen because its warm, dry climate and terrain are like the animals' native habitat.

AP Wirephoto

PROUD MOTHER — Cuneo, an Arabian oryx, is proud of her latest calf. The little one is only the second female born since the oryx herd was established at the Phoenix Zoo three years ago in an attempt to save the species from extinction.

U. S., Russia
Eye Plane Pact

By Science Service
WASHINGTON — Though the Russians may beat the rest of the world to the draw with the first supersonic transport plane, U. S. airlines could not buy one even if they wanted to. But the Soviet Union is trying to change all that — it is after a piece of the U. S. market.

Russia has requested that the U. S. consider the possibility of reciprocal marketing arrangements for commercial aircraft. Federal Aviation Agency sources said here this week.

The initial overtures were made in New York City in January, at a series of controversial U.S.-U.S.S.R. meetings to discuss the establishment of air routes between New York and Moscow.

The timing of the Soviet request is believed to be related to reports that a prototype of the Russian SST, called the Tupolev 144, will be flown into the Paris International Air Show which opens on May 26.

The potential market for the Russian plane has been estimated at as few as 20 aircraft, limited to Soviet bloc countries and "friends" compared to as many as 1,500 for the U. S. version now being called the Boeing 2707.

Though such reciprocal trade of aircraft is at present "illegal and impossible," according to Federal Aviation Agency sources, the Russians may have more than a three-year development jump on the U. S., time in which arrangements could be negotiated.

However, U. S. airlines have a strong tendency to "huy American," which means that they would be unlikely to make use of such arrangements even if they are made — an unlikely occurrence, says the FAA.

The requirement for aircraft trade with the Soviet Union would be a "bilateral airworthiness agreement," which would be signed on the basis of examination of each country's aircraft structural designs, flightworthiness specifications and safety standards.

U.S. Casualties for Week Are Highest of Viet War

ONE COLOR

MAKE OVER PAGES

SAIGON (AP) — The highest American losses of the Vietnam war were announced today, reflecting the steadily rising U.S. military effort and Communist retaliation with heavier mortar attacks, mines, booby traps and hit and run assaults.

The total casualties last week were 1,617 killed, wounded and missing. It included 232 dead, 1,381 wounded and four missing.

Most were in the small skirmishes

and fleeing Red jabs that have characterized the recent fighting.

While the over-all total was the highest of the war, the total of 232 killed was exceeded by one week in November 1966 when 240 Americans died. But most of that death toll came in the fierce of the Drang Valley battle, not in engagements scattered the length of South Vietnam.

The U.S. command reported 1,736 Communists were killed last week, well above average but not a record.

However, South Vietnam's "open arms" program to attract defectors dealt the Reds a hard blow.

A record weekly total of 1,168 Communist soldiers and political workers came into allied lines waving the slips of paper granting them amnesty for turning on the Reds.

Allied statistics show the open arms program is attracting defectors at twice the rate of last year.

Another sign of the stepped-up war

was the lifting of security wraps on the first major offensive operation in the Mekong Delta by troops of the U.S. 9th Infantry Division, the first big U.S. ground unit to be permanently assigned to that vital area which contains about one third of South Vietnam's 15 million people and grows 80 per cent of its rice.

SOUTHWEST OF SAIGON

The division's 3rd Brigade arrived at Dong Tam, about 40 miles southwest of Saigon, in late January and has been digging in.

AP Wirephoto

SLAYING SUSPECT — John W. Williams, 17, charged with slaying two 14-year-old cousins in Rockford, Ill., last Thursday, talks to Sheriff Herbert Brown (left) before a preliminary hearing yesterday.

Ex-JFK Aide Says U.S. Not in Peace Mood

WASHINGTON (AP) — A former top aide to President John F. Kennedy says the Johnson administration has hardened its terms for Vietnam peace talks and apparently "does not wish negotiations now."

The charge yesterday by Arthur Schlesinger Jr., a special assistant to Kennedy and a Pulitzer Prize-winning author, drew an immediate White House denial.

Administration leaders "have made clear we're ready to negotiate an end to the war," said George Christian, White House press secretary.

Shortly before Schlesinger read his statement to a news conference, Ambassador Arthur J. Goldberg said the United States "is ready for unconditional discussions today" on ending the war.

Goldberg chief U.S. envoy to the United Nations, was asked if U.S. policy calls for delaying talks until South Vietnam's constitutional government is installed later this year.

'NOT TRUE'

"That is not true," Goldberg replied.

But Schlesinger said the administration has "hardened its terms, demanding today from Hanoi what it did not demand a year ago — the prior assurance of some reciprocal act as a condition to our ending the bombing of North Vietnam."

Hanoi has, in the past, interpreted U.S. offers of peace talks as a sign of weakness, said Schlesinger. Now administration policymakers are viewing recent North Vietnamese statements in the same light, he added.

"By this logic, we cannot negotiate while we are behind because they are weak, and we can't negotiate either when we are ahead because, if we keep on doing what we have been doing, we will be even farther ahead at some later point," he said.

SENATE SPEECH

In a Senate speech, Sen. William Proxmire, D-Wis., charged the press with exaggerating the extent of Vietnam policy differences between President Johnson and other Democratic leaders.

CANDID CAMERA — Robert Anderson, 17, on a photography class assignment in downtown Los Angeles, noticed a man taking a coat from a parked car. Robert snapped his picture and the suspect smiled and waved as if it were his own coat and car, but Robert continued to flick the shutter while he followed the stranger and flagged down a police car. Yesterday, the suspect, identified as Luis G. Macias, was shown the pictures in court and pleaded guilty to "theft from auto." He said, "I never thought he would give the pictures to the cops." He was sentenced to 40 days in the county jail and placed on a year's probation.

GTW in Court Over Crossing

A local official of the Grand Trunk Western Railroad was scheduled to appear in Municipal Court this afternoon in answer to a formal complaint over a blocked crossing.

John D. Schilling, Pontiac terminal trainmaster for the railroad, was to meet with Judge Cecil B. McCallum.

McCallum issued a John Doe warrant yesterday after Irvin Knapp, 2285 Black, Waterford Township, said a Grand Trunk train blocked a local crossing yesterday for 18 minutes.

City Ordinance 1275 holds that crossing delays in excess of five minutes are illegal and subject to as much as \$100 fine and 90 days in jail.

Knapp alleged in a statement made to Pontiac police that a freight blocked the Columbia Avenue crossing from 6:35 to 6:53 yesterday.

Knapp testified the train stopped twice in the middle of the intersection during the delay.

'Phantom Sniper' Gets New Hearing

A hearing for the release of Oakland County's "phantom sniper," Gary Addison Taylor, from Ionia State Hospital for the Criminally Insane is scheduled Tuesday before Ionia Circuit Judge Leo Bebeau.

The hearing was requested in a petition filed last month by attorney Rex O'Connor of the Ionia law firm of O'Connor, McNamara and O'Keefe, retained by Taylor's parents.

Taylor, 31, was acquitted of attempted murder last April for reasons of insanity. He had been charged with wounding a Bloomfield Hills woman during a shooting spree in 1957.

UAW, Ohio Rebels Still at Odds

DETROIT (AP) — Walter P. Reuther, president of the United Auto Workers, struggled today with the problem of a rebellious Ohio union local that defied officials and struck a General Motors plant for the second time in 16 days.

The strike last night by members of Local 549 at GM's strategic Mansfield, Ohio, parts plant put pressure on Reuther to decide how to enforce a trusteeship he slapped on the dissident unit earlier in the day.

Ninety per cent of the 300 workers on

the overnight shift failed to report for duty at the GM facility. Their action followed by hours a strike vote by about 1,500 of the 2,000 members of Local 549.

UAW officials called an emergency meeting of the union's national General Motors council to discuss the uprising. The meeting was set for 2 p.m. EST.

Reuther appointed an administrator to take over the reins from local president Robert Hall, who had been summoned to Detroit for talks with UAW

executives. The UAW said Hall and other officers endorsed the trusteeship.

But Frank G. Petty Jr., a local shop committee chairman, ignored a similar summons to Detroit and called the strike-vote meeting after he declared "open war" on Hall and international officers.

The walkout was sparked by rumors that GM would fire Petty and four other workers who were among 20 suspended in the last strike. Neither GM nor UAW officials would say if this was true.

"We are the leaders here, not Reuther's men," Petty declared.

Petty said he would send men to Detroit today to take over the plant.

UAW officials declined to say what steps they might take against Local 549 members involved in the latest strike, but the union already had warned that its April convention would consider filing charges against persons who "knowingly and wilfully formed and prolonged these illegal and unauthorized strikes."

Parents Can Take Teen-Agers off Road

LANSING (UPI) — It may be a teen-ager's world, but in Michigan at least parents can yank their offspring right out of the driver's seat.

The ultimate club in mom and dad's arsenal is a state law that allows them to revoke the driver's licenses of their children under 18 years of age.

All it takes is an 11-word note to the secretary of state.

"I no longer wish to be responsible for my child's driving" is a mandate for cancellation of their child's license.

And once done, the issue is closed. A pleading teenager may be able to talk mom or dad into reconsidering, but not the secretary of state.

"Actually, it's much more effective as a club," said Milan Clark who administers the law.

"A parent can tell his child 'Look, if you don't start driving decent, I'm going to do this.'"

Once a youth turns 18, he can reapply for a license with or without parental approval.

Clark has no estimate of how many licenses have been canceled by parents who for one reason or another wanted their children off the road, but he said "the number is not overwhelming."

LETTERS FROM TEENS

"Surprisingly enough in the last couple of months we've been getting more letters from kids offering to surrender their licenses," he said.

The reason is that the insurance rates for their parents' car is "so terrifically high" as long as they hold licenses, Clark said.

Dead Animals Ah! Can Spring Be Far Behind?

With spring just around the corner the weatherman is giving us a preview of the warm days ahead.

Temperatures heading into the 40s today will drop to a low of 25 to 30 tonight.

Partly cloudy and warmer is tomorrow's forecast, and cloudy and mild

with possible showers is the outlook for Saturday.

South to southwest morning winds will increase to 20 to 25 miles by late afternoon.

The low recording in downtown Pontiac preceding 8 a.m. was 14. The mercury had reached 30 by 1 p.m.

The bodies of dead dogs and cats frozen into the snow have been removed from behind the Oakland County Animal Shelter, according to Dr. Frank R. Bates, director.

Measures also have been taken to prevent the situation from occurring again, the veterinarian said.

The grisly condition came to light in a letter to The Pontiac Press.

Bates explained, however, that he has been working on the problem long before the letter was written.

Most of the animals littering the rear of the building were tossed there by the public and veterinarians for disposal, Bates said.

BLOCKED BY WEATHER

"But before we could remove them to the county incinerator, it snowed and iced over," he added.

According to Bates there is usually a pickup truck at the shelter in which the dog wardens from his staff and those from other communities, place dead animals.

Each morning the truck delivers the bodies to the incinerators for cremation, said Bates, but occasionally there is a delay and the truck cannot return immediately.

"This was the problem, and with each snow it got worse," said Bates.

EFFORTS FAIL

"We tried salt and hot water to melt the snow, but it didn't help much.

The county maintenance department finally had to dig the animals out. The last ones were removed Friday.

Bates' department disposes of between 8,000 and 9,000 dogs annually.

AP Wirephoto

CHRISTMAS IN MARCH — Yesterday was Christmas for Marine Corp. Raymond Bisson of Clinton Twp. as he returned from the Vietnam war and found his family waiting with presents and Christmas tree to celebrate when he got home. At the rear are his parents, Mr. and Mrs. Melvin Bisson. Cor. Bisson is in front, surrounded by his brother, Gary, and sisters, Mrs. Marilyn Bless and Cindy.

Dems Load Files With Romney's Viet Statements

WASHINGTON (AP) — Democrats are loading their files with Michigan Gov. George Romney's varying Vietnam statements and National Chairman John M. Bailey is preparing to blast the potential GOP presidential contender.

In the absence of action on such major issues as Negro representation on state delegations, the Democratic National Committee is expected to step up its attacks on prospective 1968 foes, as it begins meeting today.

The meeting is the committee's first in a year and comes in the wake of widespread criticism by Democratic leaders around the country of the committee's activities during last fall's election campaign.

Informal, closed meetings with party leaders and Johnson administration officials are planned today with a formal business meeting Friday. No one around party headquarters professes to be quite sure whether President Johnson will attend any of the sessions. His name does not appear on the advance agenda.

Bailey has put in temporary cold storage such controversial matters as the 1964 proposal that in 1968 all state delegations must give adequate representation to Negroes.

SOUTHERNERS UP IN ARMS

Many Southern party leaders are reported up in arms over a proposal by Mildred Jeffrey, national committeewoman from Michigan, that states with Negro populations of 20 per cent or more be required to allocate at least 10 per cent of their delegate seats to Negroes.

Bailey intends to lead the charge against prospective GOP candidates in his report to the committee.

Methodical Democratic firing against Romney already has begun in Congress. It was not regarded as coincidental that Sens. John J. Sparkman, D-Ala., Thomas J. McIntyre, D-N.H., and Stephen M. Young, D-Ohio, made recent attacks in the Senate on Romney's statements.

The Democratic committee has been busy building up its files on Romney, including some tapes of his utterances.

L'I'L ONES

"When I grow up, I'm going to be a fireman and work part time at a candy store."

Planning Funds Needed

It appears more local support will be needed to implement Waterford Township's proposed third year "701" planning program.

Indications are the Michigan Department of Economic Expansion will have to trim part of the proposed project because federal assistance was somewhat less than the amount sought.

The township planning commission has recommended that the Township Board en-

ter into a contract with planning consultant Dr. Associates of Bloomington, to perform some part of the program eliminated by the state.

The \$25,000 program called for one-third township financial aid and two-thirds federal assistance.

The ratio still applies to that portion of the program the state approves.

CUT EXPECTED
Expected to be cut is the public relations phase of the project which entails publication of several brochures and presentation of slides to the public to explain the township's comprehensive development plan.

The Township Board will be

asked to finance this phase of the program.

In addition to public relations, the program deals with future industrial development in the township, capital improvements and an attempt to improve appearance and environmental quality of the township by upgrading commercial-industrial frontage on the three major thoroughfares — M59, Dixie Highway and Elizabeth Lake Road.

Township planners said they will have a display at the North Oakland County Home and Sport Show to be held at the Community Activities, Inc., building, 5640 Williams Lake, Waterford Township, March 17, 18 and 19.

State Highway Will Join M78

LANSING (AP) — The state highway from Flint to Port Huron, numbered M21 for more than half a century, will be designated as part of M78 after next year, the State Highway Commission said.

M78 runs southwest from Flint to Lansing. The commission said a Highway Department study indicated most of the long-distance traffic on the two roads goes through, rather than to, Flint.

Nature Not Disclosed

Premier's Wife Is Ill

MOSCOW (UPI) — Soviet Premier Alexei N. Kosygin's wife has been gravely ill for several months, informed sources said today.

The nature of the illness which has confined Klavdia Kosygin to her home was not disclosed.

But it was serious enough to prevent her from joining the premier on his official tour of Britain last month.

A tall, blonde and elegant woman in her mid-50s, Mrs. Kosygin is self-effacing, and, unlike ousted former Premier Nikita S. Khrushchev's wife Nina, unknown to most of the Russian people.

Wives of Soviet leaders are not publicized and are seldom seen together with their husbands. Some of them who have traveled abroad are better known in foreign countries than here.

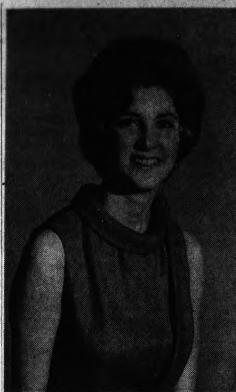

But since her husband became premier Mrs. Kosygin has had little opportunity to travel abroad.

Although she was on hand to entertain Mrs. Charles De Gaulle when the French President was here last July, the French-speaking Mrs. Kosygin was unable to accompany her husband to Paris in December.

The French were then told that Mrs. Kosygin had had a serious operation in November and could not travel.

She will be missed by the wives of the foreign diplomatic corps Wednesday when the Soviet government entertains them on the occasion of "International Women's Days."

She was the life of the party last March 8 when as one of the hostesses at a party for wives of ambassadors at the house of receptions she led the ladies in folk dancing.

CARLENE ANN SULLIVAN

Dr. and Mrs. Carl S. Sullivan of Orchard Lake announce the betrothal of their daughter, Carlene Ann, to Larry William Gibson, son of Mrs. William C. Gibson of Ann Arbor and the late Mr. Gibson. Both are alumni of University of Michigan. July vows are planned.

Graphic Art Is Featured at Gallery

"The Plate, The Block, The Stone and The Print" is an exhibition which reveals how diverse are the means of graphic art.

The show, being circulated by Associated American Artists, can be viewed in Cranbrook Academy of Art Galleries Saturday through March 26.

The three traditional methods of making graphic arts plates are scoring smooth copper with a burin for intaglio engraving, carving in wood with a gouge for relief printing and drawing on stone with grease crayon for lithography.

VARIOUS METHODS

But today the graphic artists print from almost anything in almost any way as this exhibition demonstrates. For instance, Sid Hammer produces his plates by melting vinyl with a hot incising tool, thus creating a burr of fused plastic.

Biros Margo's designs are carved into a layer of celluloid and molten celluloid is used to build up some areas of the plate. A very thin soft copper is laid over the celluloid, shaped to the contours of the design with the result the image is printed without ink on thick paper by the intaglio method.

Michael Ponce de Leon uses a method which also involves processes used by silversmiths and jewelry designers. He makes his own inks and prints with wet paper on a hydraulic press of about 10,000 pounds pressure.

Cranbrook Academy of Art Galleries are open Tuesdays through Fridays from 2 to 5 p.m. and from 1 to 5 p.m. on weekends. There is an admission.

See Tour Slides

The Pontiac Round Table Club met Tuesday in the Community Room of the Pontiac Mall. Mr. and Mrs. Joseph Bennett presented pictures and commentary on their cruise around the world.

A business meeting followed the program.

Ad Man Slates Talk at BOH This Evening

When Charles Adams Jr. speaks at Bloomfield Open Hunt this evening after the regular family buffet, there will be many area people in the audience.

Among those who have made reservations are: Mr. and Mrs. Ernest A. Jones, Mr. and Mrs. John Bugas, Gen. and Mrs. S. L. A. Marshall, Mr. and Mrs. Durrell Roberts, the William Hartmanns, the Robert Martins, Mr. and Mrs. Chad Ritchie and the John R. Taylors.

Home after one month of traveling in Mexico are Mr. and Mrs. J. Robert F. Swar-

son. Part of their trip included two weeks with the architectural and designers' trip in Mexico. Others in that group were Mr. and Mrs. Edward Laird and Milka Ikonoff.

Mr. and Mrs. Karl-Gunnar Aronsson have enjoyed a few days in New York City as guests of Mr. and Mrs. Irving Rose. Mrs. Aronsson and Mrs. Rose are ancient horseback-riders and close friends of many years.

When Mrs. Aronsson had a birthday coming up, the Roses invited them to the theater with the stipulation that it had to be in New York. Who can say no to such a birthday celebration?

A good time was had by all at the Sherry-Netherland Hotel with dinners and theater in the evenings last weekend.

Come Sunday, the Bengt Wallgrens who are active in the Terrier Club of Michigan will show their Antamum Bright Promise, a Scottish terrier at the "having fun" match at Vester Hall in Ferndale at 1 p.m.

Judging the show will be Ray Perso of Royal Oak. There will also be the All Breed Obedience show starting at 9:30 a.m. Sunday.

Legion, Auxiliary Mark 48th Year

Cook - Nelson Post 20 and its auxiliary members will celebrate the 48th anniversary of the American Legion on March 18 at an annual dinner. Reservations for the 6:30 p.m. event must be made by March 16 to Margaret Ogden of Oriole Street or Margaret James at the Legion Home. Senator Harvey Lodge will be a guest.

The E. C. Dunckleys of South Commerce Road, Commerce Township, announce the engagement of their daughter, Lynda Mary Anne, to James P. McEvoy, son of the John McEvoy of Walled Lake. A Sept. 8 wedding date is set.

Polly's Pointers

Remove Chocolate

DEAR POLLY—I want to help J. C. L. so please tell her to remove chocolate stains from anything washable by simply pouring club soda over the stains. This will completely remove the chocolate. — FLORENCE

DEAR POLLY—Soak chocolate stains in cold water and rub. Do this as soon as possible and the job will be easier. — HELEN

DEAR POLLY — To remove freshly spilled chocolate rub with an ice cube and the stain will disappear. — NETTIE

DEAR POLLY — When my younger son was small he and I worked out a way that I could tell how sick he was or how much something hurt.

By using the numbers one to 10, with one meaning a very slight pain and 10 a very bad pain, he would exert great effort to decide the exact degree of hurt or pain. If he felt seven or eight I knew he was quite miserable. — MRS. L. H.

DEAR POLLY — I have felt card table covers which I also use for padding undercloths, but they shed so much lint. There is always a lot of cleaning to do after a card game as carpet and so on. I hoped vacuuming and use would stop the shedding but it is just as bad now as when the felt was new. I would appreciate any answers. — BERTHA.

DEAR POLLY — I would not be without a bottle of good old vinegar. I have just found another to add to my innumerable uses for it. I had to use my fin-

gers to take off the top layer of some glue that had hardened.

I was really "stuck up" and tried butter and so on until I remembered the vinegar. I soaked a cloth in it, rubbed the cloth over my fingers and the glue came off like magic. — MRS. B. M.

DEAR POLLY — I always buy pennant or material on sale to use for making shirts for my husband, brother and son. I use an old shirt that fits well for a pattern. It is ripped apart, ironed and an allowance made for trimmed seams as I cut into the new material.

I also use my daughter's discarded net petticoats as interfacing. The result is an inexpensive well-fitting shirt. — MOTHER OF FOUR

U. of M. Grads Get Awards

Two area women were among 15 to receive awards presented to University of Michigan alumnae at the recent 50th anniversary program of the Alumnae Council.

They are Mrs. James L. Frey of Echo Road and Mrs. Norris A. Host of Overbrook Road.

Each recipient was presented with a silver bowl and a citation recognizing her services to the university and to the Alumnae Council.

Shine Brighter

To put a brighter shine on decorative silver, rest the piece on your knee for a firmer grip while you polish and buff it. It's wise, of course, to wear a large plastic apron which can be sussed off as easily as the silver itself!

Summer vows are being planned by Mary Ann Horton, daughter of Mrs. Glenn Horton of East Brooklyn Avenue and the late Mr. Horton, to Pott. Sammie K. Grisso of Fort Gordon, Ga., son of Mr. and Mrs. Bill Grisso of Melrose Avenue. He attended Oakland Community College.

Shorter Skis Recommended

NEW YORK (UPI) — By using short skis, children and people of slight build may well reduce their chances of suffering broken legs.

Short skis reduce the strain on leg bones, says Dr. John O. Outwater Jr., professor of mechanical engineering at the University of Vermont. He said it after a year's study into the twisting force on the tibia, a main cause of skiing fractures.

THE DUCHESS OF WINDSOR PATTERN

Here's an aristocratic suit-dress from the Duchess of Windsor. Dart seams on the dress front end at the pockets, and the same detail is repeated on the jacket. The dress zips closed in the back and is slightly A-shaped. The two are beautifully tailored—an appropriate way to slip into spring.

Some fabrics to choose: lightweight woolsens, linen, raw silk, shantung, velvet and cottons.

Spadea's exclusive ready-to-wear sizes produce a better fit. See chart for size best for you.

PINEAPPLE LOVE DOVE CAKE — Use a cake mix for that shower dessert. But go to some pains to make it as pretty as you can. Pineapple and sour cream will do the trick.

Shower Cake Is Gold and White

Pineapple cake dressed in bridal finery makes a lovely appearance at teas, showers and luncheons. In the busy round of pre-wedding parties, this dessert is a joy to make from convenience foods — canned crushed pineapple, packaged cake mix and dairy sour cream.

Split 2 cake layers in half and stack back together with sour cream and a tangy pineapple filling accented with lemon juice and vanilla.

More sour cream whipped light and fluffy makes white satin frosting which contrasts beautifully with the golden pineapple crown. Garnish with a little spray of lily of the valley and serve well chilled.

When you're tired of too sweet desserts, this unusually refreshing cake is a most pleasant change.

Bon Bon Dips Provide Party Fun

Chocolate Dip Frozen Fruit

This is a "guest participation" dessert for your next party. Here's how it's done.

Pierce chunks of fruit with food picks, then freeze. This can be done days ahead of time or just two hours before the party. The dip is easy to make.

Simply melt semisweet morsels with a little shortening. The morsels are pre-sweetened.

Indian Pudding

This is a mildly spiced version of a famous pudding.

Indian Pudding
 1/2 cup yellow cornmeal
 1/2 teaspoon salt
 1/4 teaspoon each cinnamon and ginger
 1 quart milk
 1 tablespoon butter or margarine

2 cups dark molasses
 1/2 teaspoon baking soda
 In double-boiler top, stir together the cornmeal, salt and spices with 1/2 cup of the cold milk. Scald 1 1/2 cups of the milk; stir into cornmeal mixture; thoroughly stir in the butter, then the molasses and baking soda.

Stir in remaining 2 cups cold milk. Cook over hot water, stirring occasionally, until slightly thickened — about 20 minutes. Turn into greased 1 1/2-quart oven — glass round casserole (7 1/2 x 2 1/2 inches).

Bake, uncovered, in a very slow (275 degrees) oven for 2 1/2 hours. Allow to stand until slightly warm before spooning into; serve slightly warm topped with vanilla ice cream. Makes 6 servings.

Pudding will have whey-like texture.

Coat and Fry Sweetbreads in Deep Fat

Sweetbreads are enjoyed by those who like special treats, carefully prepared. That's why they might be served at a luncheon or dinner for special guests. This variety meat is delicate in flavor as well as texture. Since they are fragile, Reba Staggs, meat expert, suggests they be cooked within 24 hours after purchasing. This will make them easier to handle for the coating described in the recipe.

Devised Sweetbreads

1 pound sweetbreads
 1 quart water
 1 tablespoon lemon juice or vinegar
 1 teaspoon salt
 2 teaspoons vinegar
 2 teaspoons Worcestershire sauce
 1/2 teaspoon paprika
 1/4 teaspoon dry mustard
 1/4 teaspoon pepper
 1 teaspoon salt
 2 egg yolks
 3 tablespoons melted butter or margarine
 1/2 cup finely crushed corn flakes

Lard for deep-fat frying
 Place sweetbreads, water, 1 tablespoon lemon juice or vinegar and 1 teaspoon salt in a saucepan. Cover and simmer 20 minutes.

Drain and remove membrane from sweetbreads. Break into 2-inch pieces.

Mix 2 teaspoons vinegar, Worcestershire sauce, paprika, mustard, pepper, 1 teaspoon salt and egg yolks. Add melted butter or margarine. Dip sweetbreads pieces first into egg yolk mixture, then in crushed corn flakes.

Fry in deep lard (360 degrees) until browned, about 2 minutes. Drain on absorbent paper. Serve immediately. 4 servings.

Lemon Gives Zest to Chicken Strips

Lemony Quick Chick is perfection for dinner party fare, cooks in less than 10 minutes. Bone 3 whole chicken breasts and remove skin, directs the National Broiler Council. Cut each breast half into 10 or 12 strips.

Melt 3 tablespoons butter in a skillet over high heat, add chicken. Sprinkle with 1 tablespoon flour, and add salt and tarragon to taste. Cook 5 minutes stirring constantly. Add 1/2 cup chicken broth, 3 halved lemon slices, and stir.

Cover and cook 3 minutes longer. Sprinkle with chopped parsley and serve with rice. Makes 6 servings. It's fun to make such a great dish so fast and that's because chicken is where the fun is!

DEVELOPED SWEETBREADS — Sweetbreads rate with gourmets. Tangy ingredients are used in the coating to give delicately flavored sweetbreads high seasoning as contrast.

Pipe Cheese Dough on Ham Surface

Piping made like cream puff dough may be used to give a smooth. Scrape sides of bowl often.

Bring to rolling boil 1/2 cup of water and 2 tablespoons of butter. Add 1/2 cup of flour and 1/4 teaspoon of dry mustard; stir vigorously over low heat until mixture forms a ball.

Remove to large mixing bowl; add 2 eggs, 4 to 5 drops of yellow food coloring and 1 cup of shredded cheddar cheese and rosettes with ham.

More, Heavier Lamb Cuts Offered in Stores Now

The meat counters in grocery stores, butcher shops and chain stores are now offering home-makers heavier cuts of lamb than she is accustomed to buying at this time of year, and the reason for its appearance is the weather.

Animals, like plants, are affected by weather and out in the Western states in the sheep country the winter has been unusually mild. Consequently, the lambs have developed bigger and better than when it is extremely cold. This means that a tremendous number are now ready for marketing ahead of schedule.

The lambs are young... not over 8 months... but big. This means a better ratio of meat to bone so that home appetites can readily enjoy many of their favorite cuts while the homemaker reaps the benefits in her meat budget.

Lamb shoulder chops... either blade or round bone... are good hefty chops with lots of succulent meat surrounding the bone. And they take well to numerous ways of cooking... broiling, panbroiling, panfrying.

In large skillet, saute onion in oil until tender; remove. Sauté chops in skillet until browned on both sides; drain off excess drippings.

Mix together tomatoes, tomato paste, salt, seasonings and lemon peel. Add to meat in skillet with onions. Bring to a boil; cover and simmer 40 to 45 minutes, or until chops are tender.

Add frozen okra, separating pieces with a fork, the last 10 minutes cooking time. Makes 4 servings.
