

Power Fight Indicated in New Soviet Regime

Strike at GM Jolted Economy

WASHINGTON (AP) — The General Motors strike last month gave the nation's economy its roughest jolt since the 1960 recession, and the effect may linger if the current strike at Ford Motor Co. puts another extended damper on production.

Government economists fretted today about the possibility that labor disputes could cause a general business slowdown after an almost uninterrupted climb of four years.

If the Ford stoppage is settled quickly, there remains the threat of a nationwide rail strike next week. There is talk of trouble in the steel industry, even though the contract deadline is months away.

Both government and business economists have expressed concern over the possibility that wage settlements such as the one at General Motors could lead to a heavy round of inflation after four years of relative stability. Now they also face the possibility that the same labor-management disputes could lead to a sag in the economy.

To Appoint Commissioner

New Man to Finish Term of Wellbaum

A one-time candidate for the District 7 seat, James H. Marshall, 60, of 185 S. Jessie is slated to be appointed to the City Commission tonight.

Marshall will succeed Emmett S. Wellbaum who died recently. He will serve out Wellbaum's two-year term, which began last April.

Employed as a clerical supervisor at GMC Truck & Coach Division, Marshall ran against former Mayor Robert A. Landry in 1960. He lost to Landry in the District 7 race.

Marshall's appointment will be the first order of business at tonight's regular commission meeting.

A native of Washington Township in Macomb County, Marshall attended schools in Romeo and came to Pontiac in 1919.

STARTED AT GMC
He started at GMC in 1925. Marshall is married and has three children, two daughters and a son.

Campaigning in 1960, Marshall supported Pontiac's municipal building program and favored the extension of it on a "pay as you go" basis.

Dies of Wreck Injuries
KALAMAZOO (AP) — Donald Goldsmith, 61, of Three Rivers, died here Monday, the second victim of a crash last Wednesday near Colon in which his wife, Opal, 52, was killed.

Af Press Sale

More JFK Books

Over-the-counter sale of the Warren report on the assassination of President John F. Kennedy will resume in the lobby of The Pontiac Press tomorrow.

The previous supply of 200 volumes placed on sale on Oct. 30 was sold out in three hours.

The blue and gold, hard-cover book prepared by the Associated Press sells for \$1.50. Its 400 pages contain the report on the death of President Kennedy, the arrest of Lee Oswald, and his death at the hands of Jack Ruby.

The Associated Press presents the report as a public service, as it did "The Torch Is Passed," its volume about Kennedy's fatal visit to Dallas.

The new illustrated book will not be on sale at book stores and we cannot accept mail orders.

Let's Upstage Romney, State Dem Pleads

Says Party Should Present Its Programs Before Governor

LANSING (AP) — A young Democratic lawyer is urging his party to upstage Gov. George Romney in the legislative show starting next January.

Rep. Robert Traxler, D-Bay City, proposed today that the Democratic caucuses in the House and Senate present their legislative programs before Romney has a chance to present his.

He made his proposal in letters mailed yesterday to Democratic State Chairman Zoltan Ferency; Rep. Joseph Kowalski, D-Detroit, House minority leader, and U. S. Rep. Neil Stabler; the unsuccessful Democratic candidate for governor.

"It is vitally important that we do not let the governor upstage us," Traxler said. "In many respects, I'm sure his program will agree with ours."

"It would be bad if he announced his program and we went out and passed it for him. I am sure they will be similar, and we would not fight his program without good reason, because we won't be an 'anti-legislature,'" Traxler said.

DISAGREEMENT
Despite the similarities, he added, "there will be disagreement over how to meet the problems."

Democrats will take the leading role in the legislature for the first time since 1952—dominating the House 72-38 and the Senate 22-15. But the Republican governor still has certain advantages, Traxler said.

"For instance, he has a ready-made forum," Traxler said, "and one man can get the public attention better than a multithreaded group."

Hopefully, Traxler said, his proposal will be presented to the House Democratic caucus in Lansing Dec. 4.

Launch Drive Against Smut in Waterford

An antismut campaign aimed at removing lewd magazines and books from Waterford Township newsstands was launched yesterday by the township police department.

Sgt. David Putnam and Patrolman Richard Romer have been assigned to contact all book and magazine dealers in the township to appeal for a general cleanup.

Police Chief William Stokes ordered the antismut campaign after receiving several complaints from residents in the past two weeks about the increasing amount of smutty literature on area newsstands.

Putnam and Romer, the township's two juvenile officers, will remove any material from the newsstand.

Cooperation on the officers' initial contact with dealers has been excellent, Stokes said. He pointed out, however, that if the total antismut appeal is not successful, an ordinance will be sought.

Members of both the Waterford Township Board and the board of education expressed concern at recent meetings over the public display of smutty material in area drug stores.

Mediators Battling Rail Strike Deadline

CHICAGO (AP) — Federal mediators hope to arrange for new bargaining sessions between union and railroad officials in a last-ditch effort to avert a strike set for Monday which could halt service on most of the nation's carriers.

Six shop craft unions, involved in a wage dispute with the railroads for nearly 18 months, yesterday called the strike of its 140,000 members for 6 a.m. local time.

A spokesman for the unions said the walkout would halt service on the 187 railroad and terminal switching companies which handle more than 90 percent of the nation's rail traffic.

The spokesman, Michael Fox, president of the AFL-CIO Railway Employees Department, said that consideration would be given any "fair and equitable" settlement offer from the railroads.

He also said serious consideration would be given any request from the White House. There was no immediate word from the White House, but the shop unions have rejected an inadequate presidential emergency board's recommended increase of 27 cents an hour over a three-year period.

MET SEPARATELY
Francis O'Neill of the National Mediation Board came to Chicago from Washington and met separately with carrier and union officials yesterday.

He said he would try to set up bargaining sessions between union and rail officials.

J. E. Wolfe, spokesman for the railroads, said the carriers will not go beyond the recommendations made Oct. 20 by the emergency board.

He said to grant higher increases would be unfair to other rail unions which he said have agreed, or are about to, to the board's formula.

THREE TIMES
Fox said the six unions, among 11 nonoperating unions involved in wage disputes, have met with the carriers three times since the board's report and talks were unproductive.

The board's report automatically banned a strike for 30 days under terms of the Railway Labor Act but the unions are free to call a strike any time after Thursday.

Secretary of Labor W. Willard Wirtz said in Washington last week that he did not expect a rail strike or White House intervention in the case.

He produced the grenade, pulled the safety pin and was ordered from the building. Witnesses said Christie had been drinking and seemed to have trouble trying to put the pin back into the grenade to make it safe.

The grenade exploded as police arrived.

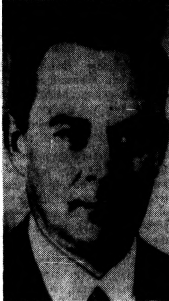

Air Crash Remains Mystery

LAS VEGAS, Nev. (AP) — "Just this much more and he would have cleared that ridge," a sheriff's deputy said yesterday, holding his hands about two feet apart.

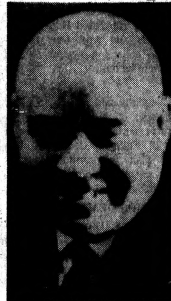

He was standing in hard-packed snow 50 yards from the ridge called Arden Dome that stopped a Bonanza Airlines F27 turboprop Sunday night. All 29 aboard died in the crash.

Clearly visible from where he stood was Las Vegas' McCarran Field, nine miles to the north, the destination of Flight No. 114 from Phoenix.

Kenyatta Pleads for Yank's Life

LEOPOLDVILLE, the Congo

(AP) — Prime Minister Jomo Kenyatta of Kenya appealed today to the Congolese rebels in Stanleyville to spare the life of American missionary Dr. Paul Carlson, threatened with execution.

The message was directed to Congolese rebel leader Christophe Gbenye, apparently at the request of U. S. Secretary of State Dean Rusk. Rusk had appealed to Kenyatta to intercede as chairman of the African committee trying to end civil conflict in the Congo.

The medical missionary from Rolling Hills, Calif., was scheduled to die at noon yesterday on a charge of military spying, a Stanleyville broadcast said. Since then the Stanleyville radio has been silent.

"I appeal to you to save the life of this man on humanitarian grounds," Kenyatta said in a message to Gbenye.

Kenyatta, once jailed by the British as leader of the anti-white Mau Mau terrorists in Kenya, noted that he had appealed Sunday for humane treatment for all civilians held in Stanleyville.

NEVER A SPY
In Bangui, Central African Republic, Mrs. Carlson declared that her husband, 36, never had been a spy and "I am ready to testify categorically before anybody to this effect." The State Department also has denied that Carlson was a spy.

"He wanted above all to ease the miserable condition of the Congolese," Mrs. Carlson said.

The indictment supersedes an earlier one which named only the Durovic brothers as individuals.

Bench warrants were issued for the arrest of those named. The Durovic brothers are free on their own recognizance after their bond was set at \$500,000 each on the original indictment.

PYOTR DEMICHEV

Indict Boosters of Krebiozen

CHICAGO (AP) — The promoters of the controversial cancer drug Krebiozen, including Dr. Andrew C. Ivy, internationally known

physiologist, were indicted today for conspiracy, mail fraud, mislabeling and making false statements to the government.

The indictment, returned by a federal grand jury, also named as defendants the Krebiozen Research Foundation, Proma Laboratories, where the drug was packaged, and three other men: Dr. Steven Durovic, 59, discoverer of the drug; his brother Marko, 64, a lawyer, and Dr. William E. P. Phillips, 52, all of Chicago.

The indictment supersedes an earlier one which named only the Durovic brothers as individuals.

Bench warrants were issued for the arrest of those named. The Durovic brothers are free on their own recognizance after their bond was set at \$500,000 each on the original indictment.

Party Changes Suggest Battle Over Economy

Clash, Compromise Play Part in Liberal, Conservative Contest

By WILLIAM L. RYAN
AP Special Correspondent

The new changes at the top of the post-Khrushchev regime suggest a power struggle between liberalizers and conservatives over the course of the Soviet economy. Clash and compromise seem to have played a part.

Younger generation technocrats are making their influence strongly felt. There are signs that the younger men eventually will emerge with the lion's share of political authority, but the struggle is not over.

The younger men seem impatient to remove some of the restraints on Soviet economic development, even to the point of experimenting with capitalist methods.

This could lead one day to an upsurge in East-West trade, more economic independence for Red-led Eastern Europe and aggravation of the dispute with the Communist Chinese.

The Communist party Central Committee made these appointments yesterday: Alexander N. Shelepin, 46, and Pyotr Y. Shelest, 56, to full membership in the party's ruling Presidium, and Pyotr N. Demichev, 46, to alternate Presidium membership.

FARM EXPERT
The committee dropped Vasily I. Polyakov, 58, a Khrushchev farm expert, from the secretariat, and dismissed Georgiy P. Kozlov from the Presidium, thus eliminating one conservative voice from the top of the apparatus.

Shelepin's rise was predictable.

As former chairman of the State Security Committee (KGB) and chairman of the party and State Control Committee, Shelepin probably played a significant role in unseating Nikita Khrushchev as premier and first secretary of the party.

Shelepin, a deputy premier, now may be moving close to the top rung of party leadership, possibly eventually as deputy to First Secretary Leonid I. Brezhnev.

CAN ENCOURAGE
Shelepin's rise and the advancement of Demichev to alternate Presidium membership can encourage new generation

Osmon Lake Problem

Rain Will Cut Odor

A good rain is the only immediate solution to the obnoxious odor emanating from Osmon Lake, according to District 4 Commissioner Leslie H. Hudson.

While rain would help, it would still only be a temporary solution.

It would take a new sewer system to permanently solve the problem, the commissioner said in answer to the complaints of residents in the Osmon Lake area.

Nevertheless, rainfall would combat the low level of Osmon Lake, which would help cut down on the odor.

"No kidding," he commented, "it's really bad. But we've done everything that is humanly possible."

Hudson denied there was any "politics" involved in not solving the problem.

"There are several ways to make improvements there," he said, "but they all cost money."

The only permanent solution to the odor problem is elimination of the combined storm and sanitary sewer system.

City Engineer Joseph E. Neippling supported Hudson's diagnosis. He said that a separate collection system would have to be built.

Neippling said the city is now working on a master plan for storm sewers under terms of a 701 Planning Grant. A master plan for sanitary sewers has already been developed under the grant.

SOLUTION DEMANDED

However, Osmon Lake continues to smell and residents have demanded a solution.

The city's Department of Public Works has attempted to furnish some relief through spraying.

A DPW spokesman said the city's big mist sprayer has been used twice in the area. In addition, the area has been hand sprayed several times.

What caused the problem?

RAW SEWAGE

Commissioner Hudson said the problem appeared to come from raw sewage being passed into the lake at a diversion chamber in a combination storm-sanitary sewer.

The diversion chamber normally carries dry weather sanitary flow directly to the treatment plant, but in times of storm when the sewage is highly diluted it passes into the lake.

Since the lake level would be higher during rain storms and the sewage diluted, no odor results from the sewage decay.

However, raw sewage was passed into the lake recently when the lake had a low water level, resulting in the odor.

TREE LODGES

All the food diverted into the lake because a small evergreen tree had become lodged in the diversion chamber, say city officials.

An attempt to increase the lake level has been made by placing a temporary dam in Pontiac Creek in the vicinity of Vaughn and Miles.

Despite the disturbing disagreeable odor, City Sanitarian Charles S. Cohen reported recently that there was no health hazard.

He said, "No direct public health hazard exists in the odor itself, except for its disagreeable aesthetic value and nuisance."

Cuban Vessel Said Sinking

Fire Still Burning on British Freighter

MIAMI (UPI)—A Cuban freighter was reported sinking and abandoned by its crew today off the Cuban coast, a few hours after a burning British cargo ship bound for the Communist Bahamas was escorted into a small Bahamas port by a U.S. destroyer.

There was no indication from the meager reports received here that the two sea disasters were related.

Cuban government radio broadcasts monitored here said the 10,000-ton Cuban freighter Bahia de Sigüenza was "in danger of sinking" somewhere off the Cuban coast and had been abandoned by its crew.

The 7,150-ton British freighter Cedar Hill anchored at Mathestown on Great Inagua Island, about 50 miles from Cuba's eastern tip, with a fire still burning between its decks. A firefighting crew from the U.S. destroyer DuPont was put aboard the vessel which flashed a distress signal last night while steaming toward Cuba with a load of general cargo.

The Coast Guard in Miami said reports from the DuPont indicated the fire had begun in bags of weed killer.

CREW OF 33

The DuPont escorted the Cedar Hill, which was carrying a crew of 33 on the voyage from Antwerp to Havana, into Mathestown early today. The island is about 525 miles south-east of Miami.

At 10:30 a. m. EST, the Navy at Norfolk, Va. said its reports from the DuPont indicated the fire was still burning.

The Cuban government radio reports said the Bahia de Sigüenza was being towed to port but the tow cable had snapped, forcing the crew to abandon the vessel. No further details were given.

The 441-foot Cedar Hill radioed last night: "We have a fire in the number three hold between decks and need assistance immediately."

SNOW IN THE DESERT—A surprise snow storm dumped two inches of snow on the desert near Tucson, Ariz., early yesterday. More than a foot of snow fell on the surrounding mountains. Many schools closed because of road conditions and the temperature fell to 33 degrees. Last week temperatures in the area ranged in the 80s.

Delay Trial in Gambling Raid Case

The Circuit Court trial for 21 men arrested in a gambling raid in Madison Heights more than a year ago has been indefinitely delayed, according to Senior Assistant Prosecutor Robert L. Templin.

It had been ordered that the trial begin with the start of the new jury term today.

"I doubt very much that it will get to this jury," said Templin, explaining that the transcript of the justice court proceedings has not been completely typed.

A copy of the testimony taken in the lower court was requested by the defendants' attorney Carlton S. Roemer.

His request was granted by Circuit Judge James S. Thornburn on Sept. 28, the same day Judge Thornburn found over the defendants for trial and ordered that it be the first case heard when the new jury came in Nov. 17.

THREE WEEKS

Templin said it will probably be another three weeks before the 1,800-page transcript is ready.

Another reason for the postponement is a move by Templin to have gambling charges reinstated against three other men who were arrested in the raid on the Steren Assembly Club but were later released in Farmington Township Justice Court.

Charges against them were dismissed by Justice Allen C. Ingle.

Judge Stanton G. Dondero is to rule on Templin's motion to have the charges reinstated but is also waiting to read the transcript before hearing arguments and making a ruling.

Taken into custody Oct. 11, 1963, the 21 awaiting trial are charged with four counts of conspiracy and violation of state gaming laws.

In other business tonight, City Engineer Joseph E. Neippling is slated to report on a change in the city's assessment practices.

Waterford OKs Purchase of Property for Fire Station

Waterford Township Board members last night authorized the purchase of a fire station site in the northwest area of the township.

The two-lot site in the vicinity of Williams Lake Road and Macceady Drive will cost \$1,900. An option was obtained on the site last May by Township Attorney Paul M. Mandel.

The site was one of three recommended more than a year ago by the township's planning commission for acquisition as proposed fire stations.

No construction plans have been made for the new station. Presently, the township is served by three fire stations.

In other business at the relatively brief meeting, the board accepted General Printing Co.'s bid of \$4,356 for furniture for the new water department building.

BIDS OPENED

Bids were opened last Mon

Crash Injuries Fatal to Teen

A Metamora teen-ager died this morning of injuries suffered when his car skidded off a road in Dryden Township yesterday afternoon.

Larry Carney, 16, of 4063 S. Oak, was westbound on Dryden Road about 1/4-mile west of Rochester Road when the accident occurred.

A witness told Lapeer County Sheriff's officers that Carney was attempting to pass a school bus when the wheels on the left side of the car left the road.

Investigation showed that the car traveled 73 feet on the shoulder, then came back onto the road and skidded sideways for 110 feet before leaving the road again and plunging into a ditch.

Carney was taken to Lapeer County General Hospital and later transferred to Hurley Hospital in Flint, where he died this morning.

City Manager to Reply

To Answer Tax Charges

Charges of "taxation without representation" are slated to be answered tonight by Pontiac city officials.

The charges, incorporated in resolutions by surrounding communities against the city's proposed income tax, will be answered by City Manager Joseph A. Warren.

Specifically, Warren will reply to the "taxation without representation" charge in a resolution passed by the Rochester Village Council.

Warren's rebuttal will come at the City Commission meeting at 8 p. m.

Neippling will propose a policy change in special assessments on double frontage lots, removing the double assessments for sewer and street improvements.

The commission also will consider an agreement with the federal government for lease of the U.S. Naval Training Center on East Boulevard South.

In still other action, an agreement with Michigan Aviation Co. to lease space at Pontiac Municipal Airport will also be considered.

Final action is anticipated on a new subdivision ordinance, which sets regulations for new subdivision developments in the city.

Birmingham Area News

'Selling Portion of Lot May Be Illegal Move'

BIRMINGHAM — Property owners who sell a portion of their land to adjoining neighbors were warned last night they will be subject to court action if the transaction reduces their lot size to below minimum area requirements.

Many of these sales are not handled by a broker or real estate agent, according to City Planning Director William R. Brownfield. Consequently, he added, a property owner probably is ignorant of the fact that he is making his property non-conforming with zoning standards.

Brownfield, in reporting the problem to the City Commission, said that only a few cases have occurred to date but as the city matures the situation could increase proportionately.

An opinion from the city's legal counsel advised that this type of sale is in violation of the zoning ordinance and that the city can prohibit an illegal sale from transpiring or force a completed sale to be dissolved through legal action.

A violation carries a fine of \$100 and/or 90 days in jail.

USE RESTRICTED

Brownfield also noted that a property owner whose lot is made nonconforming through a private sale is prevented from expanding his home or making major structural improvements or even reconstructing should the home be destroyed by fire or any other disaster.

In other commission action, Birmingham election workers were given a pay raise, retroactive to the Nov. 3 election.

The City Commission approved the increase on the recommendation of City Clerk Irene E. Hanley, who said the salaries paid to members of the election boards are lower than in any neighboring community.

The commission has requested a recommendation after receiving a petition from six Nov. 3 election workers that low salaries be corrected.

PAY CHANGE

Chairmen and inspectors on daytime boards now will receive \$25 and \$20, respectively, while chairmen and inspectors of counting boards will get \$15 and \$10.

Daytime board chairman in the past received \$18 while inspectors were paid \$15. Counting board members had been paid \$1 an hour.

Playmates and assorted other ensembles in the life of a playboy will appear in the Thursday production of the Newcomers Drama Club.

"Ladies, I Address You Privately" will be presented to the public at 8:30 p. m. at the Community House.

The play by David Wolf Windsor also will be performed for Newcomers Club members after their regular luncheon meeting.

Mrs. Irene Martin, a professional with 25 years of experience in the theater, is directing the one-act comedy.

The cast includes Mrs. Ginny Barton, Mrs. Mitzi Corkins, Mrs.

William G. Gravin, accused slayer of his wife, daughter and five stepchildren, yesterday was ordered to stand trial on a first degree murder charge.

Gravin, 30, was bound over for trial following his arraignment before Circuit Judge William J. Beer. No date was set. Circuit Judge James S. Thornburn is scheduled to hear the case.

An innocent plea was entered by Judge Beer when Gravin stood mute to the charge.

Gravin has been held in the Oakland County Jail since the bodies of the seven victims were discovered in their home at 2121 Garson, Troy, on Sept. 28.

IT WAS NIPPY — Marcia Camerop, 23-year-old nurse with the Oakland County Public Health Department, emerges unscathed from the chill water of Lotus Lake after circling the lake seven times yesterday on water skis. Marcia, 30, is the daughter of the "last-to-quit-water-skilling" title but Snyder of 6000 Terrell, reportedly was circling the lake later in the afternoon.

Searches Are Begun for Missing Hunters

PHOENIX, Ariz. (AP)—Three searches were under way today for deer hunters missing in icy northern and central Arizona mountains and at least two were dead.

In northern Arizona, a search began at dawn near Williams for Mrs. Nellie Clark, 54, of Bell Gardens, Calif., whose husband, Abram, 51, was found frozen to death yesterday. With her was George McBride of Jerome, Ariz.

About 45 miles northeast of Phoenix, deputies began probing snow-clad mountains for the body of a frozen hunter and other hunters reported missing.

One deputy said, "We know where the body is but we just couldn't get to it yesterday." No identification was available.

In the Superstitions southeast of Phoenix, better known for the searing heat of summer time, deputies searched the snow-dotted mountains for two lost hunters, Robert Kermis, 24, and his brother Richard, 19, from nearby Mesa.

TOUCHED OFF

The search near Williams was touched off yesterday when McBride's 17-year-old son, Michael, battled frostbite and a raging snowstorm led to rescuers to Clark, his hunting companion. But Clark was dead when rescuers reached him.

Temperatures dropped to 5 below zero in the rugged highland where the search

was resumed at dawn today for Mrs. Clark and the elder McBride.

The four had been packing supplies into rugged Tule Canyon south of Williams where Clark planned to return on a rock-hunting expedition in the spring.

HEADED FOR RANCH

McBride told his rescuers that Mrs. Clark decided the couldn't hike out of the canyon to where they had parked their truck.

She and the elder McBride headed for a ranch 16 miles down the canyon.

Clark and the boy hiked back up the canyon to the truck. The vehicle stalled in the snow, however, as the two attempted to drive toward a rendezvous with the others at the ranch.

The youth and Clark walked about 10 miles and tried to build a fire, but the intensity of the snow storm was increasing and they failed.

FELL ASLEEP

McBride said he and Clark then fell asleep.

"I dreamed my feet were being amputated," said the boy. "Then I woke up."

He set out for help when he couldn't awake Clark, who he said was still breathing.

Forest rangers found the youth in a blinding storm which left 14 inches of snow in the area. The boy led them to Clark, who was dead.

Halleck Backs Leadership

Sees No Need to Alter GOP

Postage stamps Honor John F. Kennedy

NEW YORK, Nov. 17 (AP)—A very unusual series of large diamond shaped postage stamps honoring John F. Kennedy was issued recently by the Kingdom of Yemen. . . . half the stamp bears a striking portrait of JFK with appropriate inscription—the top section depicts American space craft in flight. . . . This very unusual set of three stamps sold out day of issue and are now quite scarce.

Because of the intense interest in JFK memorial stamps issued by foreign nations, Elmont has prepared a collection containing recently issued John F. Kennedy stamps from Colombia, Argentina, Chile, and Yugoslavia, plus the popular Kennedy set mentioned above.

Interested collectors may obtain this extraordinary collection of 9 different stamps memorializing John F. Kennedy by sending \$1.00 to Elmont Stamp Co., Queens Village 23, N.Y. Approvals and other offers included.

WASHINGTON (AP)—Rep. Charles A. Halleck said in his quiet Capitol office, surveyed the election results and said, "The '36 debacle was worse than this."

The House Republican leader from Indiana told a news conference: "I can't read into the results any great mandate to change the course of the country."

He also said Johnson would probably get through his proposal to aid the Appalachian area—a key part of his antipoverty program.

WHAT ABOUT BARRY?

Should Barry Goldwater bow out of the national Republican picture after his defeat in the presidential race?

"Adlai Stevenson didn't bow out, did he?" said Halleck. "And he got licked pretty bad."

The Republican drive to gain Senate strength in 1966 is likely to be centered on Illinois, Oklahoma, New Hampshire, Michigan, Montana and Oregon.

All but one of the 14 Senate Republicans whose terms expire in 1966 are from states carried Nov. 3 by President Johnson. The exception is Sen. Strom Thurmond of South Carolina, a Democrat who turned Republican to support Goldwater in the campaign.

GOP PROPOSALS

Proposals for rebuilding the Republican party will be discussed Dec. 4 and 5 when the nation's Republican governors meet—either in Denver or Chicago. The group may consider a move to oust Burch as party chairman.

But Colorado Gov. John A. Love said Monday night in Denver, "There are more important and affirmative things to do." He called for a new statement of GOP principles.

Pennsylvania GOP Chairman Craig Truax said in a Harrisburg, Pa., speech Monday that the party's election defeat can be traced, not to one man, but the issues of sectionalism, radicalism and racism.

Doctors quit smoking

CHICAGO — According to a University of Chicago National Opinion Research Center survey, 52% of American doctors do not smoke. Many quit recently due to the Anti-Tobacco Center of America, to the conclusive evidence linking cigarettes and lung cancer.

Many doctors gave up smoking without use of will power thanks to a new tablet which helps progressively eliminate the need for nicotine and, as a result, the desire to smoke. Thanks to this tablet 88,648 heavy smokers have already stopped smoking.

Smokers interested in receiving information (free) about this new tablet are invited to contact directly the Anti-Tobacco Center of America, Dept. 740-A-1, 366 Fifth Avenue, New York 1, New York.

It is sufficient to send your name and address. Just a postcard will do.

Blame Snow Goose in Astronaut Death

HOUSTON (UPI)—An eight-pound snow goose that smashed into the canopy brought a five-ton jet trainer to earth and killed astronaut Theodore C. Freeman on Halloween Day. Investigators for the federal space agency said yesterday.

Freeman, a 34-year-old who might one day have gone to the moon, died of a fractured skull and chest injuries in the crash during a routine training flight.

Investigation showed he veered his twin-jet T38 trainer to avoid hitting buildings at Ellington Air Force Base, then tried in vain to eject safely from his plane. The plane crashed in a field near Ellington.

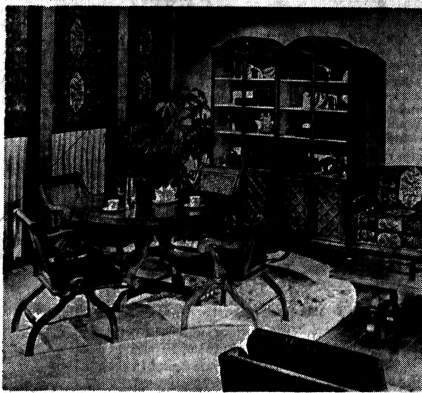

Veteran Actor Dies

NEW YORK (AP)—John Emery, 59, stage, motion picture and television actor, died Monday after a long illness. Emery, who came from a theatrical family, began his career in 1925 on Broadway and once was married to actress Tallulah Bankhead. He was born in New York.

DOBBS

COTE d'OR by Thomasville

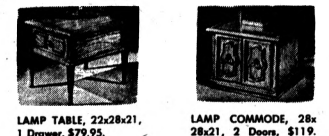

With Cote d'Or, your home will look as if you've toured the continent and brought back a bit of three countries. (And it will cost much, much, less!) There's excitement and flair in the dramatic pierced lattice doors, a strong Mediterranean flavor in the use of wrought iron open work in headboards, mirrors, tables and occasional pieces. Master finishers have highlighted the pecan with a doury finish to simulate the worn, rubbed look of cherished heirlooms. This is the look you want in your home . . . for today, forever.

BRUNCH TABLE, 50" in diameter, extends to 74 inches; will accommodate one additional leaf, \$229. BRUNCH CHAIR, \$79.95; BOOKCASE, 32x15x77, \$229.

Mixed Reaction at Pontiac Twp. Water Main Hearing

PONTIAC TOWNSHIP — A proposed water main system for about half the township was met with mixed reaction last night at a public hearing attended by a standing-room-only crowd of about 500.

The \$1,447,000 project was explained to the audience by representatives of engineers Hubbell, Roth & Clark, Inc. of Birmingham and Charles Moon, bonding attorney for the County Department of Public Works (DPW).

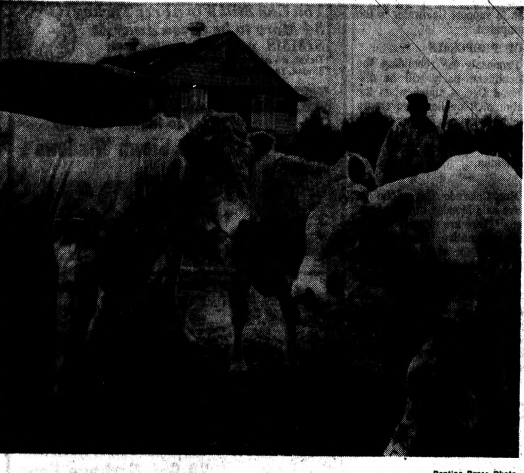

Some 450 chairs had been set up for the hearing in the Gold Room at Oakland University, but some still were forced to stand at the rear throughout the proceedings.

Taking questions from residents in each of the 10 proposed special assessment districts, the township board was given petitions from four of them.

All the petitions, including two from one of the districts, opposed the water main project, mostly for reasons of cost.

COST OUTLINE

As outlined by Moon, the total cost to a property owner in one of the assessment districts would be \$568.

This includes a special assessment of \$300 for a single residential unit, \$100 for tap-in and \$135 for a "stub" from the main to the property line.

On top of this would go an estimated cost of \$1 per foot for a two-inch pipe from the property line to the house.

Objections from residents centered on the plan to assess everyone in the assessment districts \$300 whether or not they tapped into the system when completed.

PLAN DEPENDENT

Others objected to the plan's financial dependence on development in the area after it was explained that, if adequate development failed to occur, the township might have to levy a general assessment to meet payments to the county.

The County DPW was asked to make plans and cost estimates for the system, and is willing to enter into a contract with the township.

The contract would require the township to pay the county a total of \$1,292,000.

The remaining \$155,000 would be paid by the county to cover the cost of the part of the system serving Oakland University.

Some residents favored further talks with the City of Pontiac regarding obtaining Detroit water from Pontiac.

Trustee John C. Richardson explained that Pontiac could not sell water to the township at a cheaper rate than could be obtained by the direct method proposed.

Lovelace compared Pontiac's quarterly charge of \$15.75 with the estimated \$13.50 cost per quarter for the proposed system.

Petitions were presented from planned special assessment districts 5, 7, 9 and 10 against the system.

10TH DISTRICT

In the 10th district, 88 signatures were obtained.

Inasmuch as there are only 73 parcels in that district, according to Lovelace, it seems likely that it will be eliminated from the plan even if passed by the township board.

Petitions against the proposal could stop any further proceedings for a district if the signatures of more than 50 per cent of the property owners representing an equal or better percentage of the land in that district were obtained.

But the deadline for submission of such petitions was last night, and many residents said they were not aware of this fact.

CHANGE IN COST

The loss of one or more assessment districts because of successful petitions could change the over-all features and cost of the proposed water main system, according to Moon.

Petitions submitted last night are being validated against the tax rolls to determine if they meet the 10 per cent minimum set by Act 138.

In any case, the township board has ultimate responsibility for deciding whether to proceed on the project, and will so decide at a later meeting.

Father, Son Corn Champs

A father and son team from Lyon Township has won the 1964 Oakland County Corn Contest with a record yield of 154.7 bushels per acre.

Ford and Neil Jones of 52744 10 Mile were named winners today by Jay Poffenberger, county agricultural agent, who conducted the annual competition.

Ford and Neil planted XL-45 DeKalb corn the second week in May. They applied a liberal amount of manure with 100 pounds of 5-16-16 fertilizer as a plow-down and 200 pounds of 8-24-12 fertilizer at planting time.

They had a plant count of 19,000 stalks per acre.

Travis Farm, 1400 Mack Road, Addison Township again placed second this year with a yield of 147.2 bushels per acre. Robert Smith is farm manager.

PLANTED SEED

His workers planted Pioneer 388 corn the second week in May, plowing down 275 pounds of 5-24-24 fertilizer before planting. The field had been used as a turkey pasture for several years.

The farm had a plant count of 22,800 stalks per acre.

Winner of third place honor is Walter Oliver, 5234 Greer Road, West Bloomfield Township with a yield of 137.8 bushels per acre.

He planted DeKalb 238 corn the first week in May. Using 300 pounds of 12-12-12 fertilizer at planting time, he had a plant count of 19,000 stalks per acre.

AVERAGE YIELD

The average yield of the 38 entries in the contest was 111.1 bushels per acre, and the average stalk count 17,200 plants per acre.

The entries with the high yields all planted the corn by May 21, and averaged over 15,000 plants per acre.

Sixteen of the high 19 used supplemental nitrogen either as a plow-down or side-dressing. Also, sixteen of the high 19 used chemical weed control.

A list, by townships, of those farmers or farms producing at least 100 bushels per acre this year follows:

ADDISON — John Speitz Jr., 450 Rochester.

BRANDON — Harold Tank, 271 Hurd.

NORTH W. TUCKER — 1965 Oakwood and Alton and Glen Mills, 616 Orchardville.

COMMERCIAL — Charles Long, 398 Stearns.

GREEN OAK — Jarvis Gage & Son, 640 Kensington.

HIGHLAND — Carlson and Irish, 830 Clyde.

HOLLY — Thillman Farm, 12291 Page.

MACLEOD — Harold Mitchell, 10542 McWain and Oak Street, 4715 E. Maple.

LYON — Phil Elbow, 25793 S. Hill.

LYON — Ford — Carlton Crawford, 2535 S. Hill.

NOVI — Thillman Farm, 21115 Meadowbrook, and Clyde Wray, 27200 Novi.

OAKLAND — John Wilson, 13 Killeb.

STUART BRIDGE — 1231 Lona George, West.

WATERFORD — 1231 Lona George, West.

WEST BLOOMFIELD — Alan J. Bassett, 1238 E. Chertier.

for each year of the contest is as follows:

1955-114.8	1960-92.2
1956-79.8	1961-114.4
1957-94.7	1962-128.6
1958-100.1	1963-116.6
1959-99.1	1964-111.1

GOLDEN FUTURE — A relatively scarce breed of beef cattle, unique in the Oakland County area, has been purchased by Carl Dobat of 2460 Dutton, Oakland Township. The Charolais breed, called "The Silver Cattle with the Golden Future" by American breeders, offers superior maturing speed and beef quality. The three above, including a purebred bull at left, are part of a 21-head herd which Dobat plans to sell to area breeders. Sizing them up at right is Dobat's son, Ralph.

Area Farmer Is Introducing Unusual Beef Cattle Breed

By ALLAN S. COLES

OAKLAND TOWNSHIP — Thanks to one farmer's dissatisfaction with the dairy business, area cattle breeders will get a chance to purchase a relatively rare type of beef cattle.

Carl Dobat and his son, Ralph, of 2460 Dutton have 21 head of Charolais beef cattle sharing quarters with his more common Holsteins.

Dobat purchased the cattle, including a purebred bull and two calves, at auction sales in Florida. He intends to raise them for sale to breeders.

The Charolais breed is noted for its speed in maturing, greater percentage of tender red meat and less fat than other breeds.

Noted for docility and remarkable strength, Charolais were developed centuries ago in France.

DRAFT ANIMALS

The sturdy Charolais were even used as draft animals in the Jura Mountain forests between France and Switzerland, attesting to the breed's strength.

But beef is the key difference, and numerous comparisons with other breeds have shown the French breed to be far superior in growth, beef conformation and economy.

Introduction of the Charolais into the United States took place when American breeders imported them from Mexico in the early part of the century.

Since then, "The Silver Cattle with the Golden Future" have been changing the basic standards of the beef production industry all over the country.

INTERESTED IN BREED

Dobat has been interested in Charolais beef cattle for two or three years, but did not consider working with them until last year.

At that time, realizing the

Hospital Addition in Early American

MARLETTE — The Marlette Community Hospital is taking a unique approach to its role in serving convalescent patients who require long-term care.

Hospital officials will dedicate a new \$750,000 Memorial Wing Sunday that will provide the warmth of Early American decor for a capacity of 40 long-term patients.

The new addition also adds 10 beds to the general hospital operation of the hospital, which had 40 beds before the addition was built.

Decorating advice on the

Bank Robbed in Oak Park

OAK PARK (AP) — A lone gunman posing as a policeman held up the Oak Park branch of the American Savings and Loan Association Monday, escaping with a reported \$22,000.

The robber, described as a muscular, six-foot man wearing "bubble-type" eye glasses, forced employees to dump bills into a cloth bag after he herded them into a vault at gunpoint, police said.

The FBI said the man was reported to have fled in a two-door, black car.

The holdup took place moments after the bank had closed for business at 5 p.m.

CALLED MANAGER

Police said the robber called the manager, Gerald L'Heureux to the door on the pretext of inquiring about a parked car and then forced his way inside.

L'Heureux said he and three employees were forced into the vault and ordered to put bills into a drawstring bag while the robber held it open.

No one was injured.

Police said the robber wore a left-shoulder patch with his supposed uniform bearing the name "Oak Park Police" but that a check at headquarters showed no such patch to be missing.

Decker PTA to Hear Talks on Reading

WALLED LAKE — "Helping Johnny Read" will be the topic at the 8 p.m. meeting of Decker Elementary School PTA Monday.

Mrs. Hope Dunne, reading consultant for the Wallied Lake school system, and teacher Mrs. Helen Sommers will explain new reading methods being used in the district.

A question and answer period will follow their talks.

For the first time since 1956, per capita sales of fluid whole milk show Americans are drinking more milk. Sales rose to 126 quarts per person in 1963, up from 125 quarts in 1962.

Commerce Sisters Set Their Sights on Stardom

COMMERCIAL TOWNSHIP — Two local sisters, not yet out of high school, already have their sights set on stardom.

Sherri and sandy Gardiner are not just dreaming about that goal, they're doing something about it in a big way.

Singing as the Sanabers, the girls have appeared with established stars in the popular music field and have cut three records.

They have been working on their extracurricular career while attending classes at Wallied Lake High School.

Sherri, 15, and Sandy, 16, are the daughters of Mr. and Mrs. S. R. Gardiner, 1718 Hol-

To Present Recital in Avon Twp.

AVON TOWNSHIP — Kent McDonald, renowned Birmingham organist, will present a recital at 4 p.m. Sunday in the chapel of University Presbyterian Church, 1385 Adams.

McDonald's program will include "Now Thank We All Our God," "Concerto in F," Choral Prelude: "Sleepers Wake!" and "Prelude and Fugue in D Minor" all by J. S. Bach; and "Aria" by G. F. Handel.

Since 1950 McDonald has been organist - choirmaster at St. James Episcopal Church in Birmingham.

He presently serves as Michigan chairman for the American Guild of Organists (A. G. O.) also having been dean of the Detroit chapter and vice chairman of the 1960 national convention of A. G. O.

He holds bachelor and master of music degrees from Eastman School of Music, has received as graduate fellowship in music literature and served on the Eastman faculty.

PIANO SOLOIST

McDonald, had the distinction of being piano soloist in the world premiere performance of the Kenneth Gabor "Concerto for Piano and Orchestra" with the Eastman - Rochester Symphony.

He has received critical acclaim for his recitals throughout the country.

Sunday's recital is open to the public. No admission will be charged, but a free-will offering will be taken.

Small children will be cared for in Lawnridge Hall, adjacent to the chapel for a nominal fee.

PTA Council Sets Talk on Disease

The problem of venereal disease among youth will be the program topic of the meeting of Oakland County Council of Parent-Teacher Associations to night.

Scheduled to begin at 8 p.m., the meeting will be held at Birmingham School, 4350 Elizabeth Lake, Waterford Township.

"The Innocent Party," a film on venereal disease, will be presented by the school nurse from the Oakland County Health Department.

Her accompanying lecture will include revealing statistics on the disease among children in the county.

Kenneth Pawley, Clarkston, is program chairman.

Mrs. J. E. Frankenfield, council president, asks that members of the executive committee gather at 7:30 p.m. at the school for a brief meeting prior to the Council meeting.

BRING BOOKLETS

She also requests that local units of PTAs bring program booklets to share with the council.

Oakland County Council of PTAs includes all PTAs in the school districts of Waterford, Clarkston, Dublin, West Bloomfield, Brandon and Lyon.

2 New Road Sections Set to Open in State

LANSING (AP) — An 8.5-mile stretch of relocated M-16 will open to traffic today in Oakland County and 5.3 miles of relocated M-16 in Marquette County will open Wednesday, the State Highway Department said.

The department, said MacLean Construction Co. of Lansing completed work about eight months ahead of schedule on the \$735,000 M-16 project, which will eliminate a number of sharp turns.

Oil Firm Heir Dies in Florida

Body Is Found in Car; Police Call It Suicide

MIAMI, Fla. (AP) — Walter Crocker Pew Jr., 41, grandson of the founder of Sun Oil Co., was found dead Monday on a deserted road in Everglades National Park.

Police said it was suicide. There was a note, but details were not released.

The windows of his 1953 automobile were rolled up, the ignition turned on and a flexible piece of metal tubing connected to the exhaust pipe through the floorboards. A park ranger discovered the body.

Pew's worth was undetermined. He was in the process of divorcing his second wife, Miriam Horwitz Pew, 35, of Miami.

She said in 1963 that Pew had an annual income of \$50,000 and was worth \$4 million. She sued him for \$16,214 charging neglect in caring for her and their child Wendy, 6.

Pew's great-grandfather and the founder of Sun Oil, Joseph N. Pew Sr., died in 1912. His father, Walter Pew, was the former general manager of Sun Oil, headquartered in Philadelphia.

Pew married Sophie Boychuck, a gas station attendant in Merion, Pa., in 1942. In a divorce settled out of court in 1954, she received custody of their two children, a \$67,000 home in Bryn Mawr, Pa., and 1,462 shares of Sun Oil Stock. The children are Walter C. III, now 13 and Arlene, now 20.

Pew had been working on a tugboat and as a service station attendant.

Wreck Injuries Fatal

KALAMAZOO (AP) — Donald Goldsmith, 61, of Three Rivers, died Monday in a Kalamazoo Hospital of injuries suffered last Wednesday when his car struck a tank truck, police said. Goldsmith's wife, Opal, died earlier from the accident.

SHE'S READY FOR THEM — Wearing a gun in holster, Ann Solomon, 39, of Chicago guards the goods in her shop on North Michigan Avenue. The woman said she was tired of being victimized by thieves. "Now, I'm going to do something about it," she said.

Protecting Property

Miss Packs Pistol

CHICAGO (AP) — Chicago has a pistol packin' miss and she has declared a one-woman war on crime.

"I just want to protect what I've got and I'm mad," says brown-eyed Ann Solomon, 39, who owns a plush leather goods salon on fashionable North Michigan Avenue.

To fend off would-be thieves, Miss Solomon has begun wearing a gun and holster on her hip. "I've been victimized too many times," she said today. "Now, I'm going to do something about it."

LOST THOUSANDS

Miss Solomon, who is 5-foot-2 and weighs 110, said she has lost "thousands and thousands" of dollars to thieves since opening the shop 20 years ago.

Last week, Miss Solomon said, she decided to start wear-

ing the gun after watching a pair of shoplifters at work.

"They pretend they're customers," she said. "They come in bunches and then they separate on the floor."

"They confuse you on size and color — and then they steal. And before you know it they're out the door."

BUNCH OF RATS

"And when Christmas comes around, they're just like a bunch of rats crawling out of the woodwork."

"It isn't that I want to do this, but I need protection. It's nothing but a headache to cope with these thieves."

"You can spread the word that I'll be packing this pistol until after the Christmas holidays."

"From now on I'm going to shoot them dead. I dare them to come in here again."

'Revenuers' Comb S.C. After Moonshine Deaths

COLUMBIA, S.C. (UPI) — Bands of federal agents and state law officers swept South Carolina from the mountains to the ocean last night and yesterday to stop the flow of poisonous moonshine that possibly has claimed eight lives.

The raids, more than 60 of them, were a hurried attempt to prevent further deaths from lead-poisoned whisky.

Two women in coastal Georgetown County died from drinking lethal moonshine, and six more persons were believed victims of the drink.

"It was a war against moonshiners," said Louis Fisher, assistant supervisor of the Federal Alcohol and Tobacco Tax unit that directed the raids.

No arrests were made immediately. Officials were concentrating on using dynamite and TNT to get the deadly moonshine off the market before more persons died.

CHEMICAL CHECKS

The operation began about two weeks ago when chemical checks of illegal whisky showed 90 per cent of that made in South Carolina contained lead salts. One-third had enough lead in it to kill with one drink.

Poisonous moonshine has become a critical problem throughout the South as bootleggers turn to radiators from junked cars to use as condensing units.

In the past, copper tubing and coils were used, but these are proving too expensive for the bootlegger, said William D. Behen, head of the ATU unit.

"In the past two months there have been at least five or six people in South Carolina who have died apparently from drinking moonshine," he said.

SYMPTOMS MISTAKEN

Lead poisoning symptoms often are mistaken for appendicitis or food poisoning, Behen said. Victims lie in the hospital for days, unwilling to say they drank moonshine and unknown-

Fear Will Keep Peace Says Historical Sage

If you're in the mood for a bit of philosophical reflection, the conclusions of 75-year-old ARNOLD B. TOYNBEE, renowned British historian, should prove provocative.

The scholar sees the future through the eyes of hope, and envisions an Age of Peace — paradoxically because of the existence of the nuclear bomb.

True, he calls the bomb a great threat to civilization, "but it is so obvious a threat," he adds, "that it seems unlikely that anyone will dare use it. In fact, the unprecedented challenge presented to mankind by the weapon will probably force us to leave the beaten paths of history."

According to TOYNBEE, were it not for the atom bomb, the Third World War would probably already have occurred. The victor, whether the United States or Russia, like ancient Rome after the defeat of Carthage, would have established a universal empire "in which, after all sorts of disturbances, it would have slowly sunk into a stupor like the last stage of the Hellenic world."

But the atom bomb forces the modern "Rome" and "Carthage" to agreement of sorts, and because they are unable to fight, history is given a very unpredictable twist.

The West, says Toynbee, will have to modify its liberalism and the East to temper its socialism — not only because of nuclear reality but because of the demands of an industrial society.

To the objection that communism is a fanatic ideology — almost a religion — with a claim to universal truth and is unlikely to give up its struggle to conquer the world, the historian points to Christianity and Mohammedanism.

Both Christianity and Islam tried to conquer the world, by sword and by book. Both tried to destroy each other.

Both are still around, 700 years after the last Crusade.

Nation's Editors Void Political Bias Brand

Press editorial position on the JOHNSON-GOLDWATER campaign should conclusively silence the "one-party press" criticism sometimes charged by disaffected candidates, implying that the Nation's newspapers were preponderantly in the Republican camp.

Such implication was far from the facts. Figures released by Editor & Publisher, the trade organ of newspaperdom, show that 440 newspapers, with 27 million circulation, favored Johnson.

GOLDWATER had the support of 359 papers whose circulation totaled 9 million.

In the "undecided" or "independent" column went 237 journals accounting for 7.6 million circulation.

Newspapers themselves made news this year as many switched from traditional GOP orientation to support LBJ while others, notably in the South, forsook unbroken records of Democratic affiliation to go with Goldwater.

History of the Times Legacy of Litterbugs

Amateur archeology is a popular outdoor activity in history-rich Britain.

The Times of London, summing

up the past season the other day, called it a rewarding summer, both for people deliberately digging into the past and those who were merely sinking foundations and happened to run into an Iron Age camp or Roman basilica.

We are able to learn so much about our distant ancestors, noted The Times, because they were litterbugs of the worst kind.

"The modern expert in this field," said the newspaper, "can derive from a few discovered stones or post-holes the probable layout of a camp or settlement; but to fill in the picture, populate the scene and comprehend the customs of the time, the archeologist may be abundantly grateful for a rubbish heap."

But with the progress being made in America against litterbugging, diggers of a future age will have pretty lean pickings trying to re-create an image of our times.

Press Contest in Last Quarter

Final Gun Promises Fun as Winner Claims Bond

Oh boy! The Press Annual Football Contest is tighter than a new girdle.

And thrill! It makes the Perils of Pauline seem as placid and idyllic as the lives of Little Women.

So here's the run-down — or rather the run-back.

From the thousands who first set their sights and minds on the \$500 U.S. Savings Bond winner award, but 28 cliffhangers were hanging on for the 16th game of the Contest's 15-game schedule, last Friday.

This was the annual meeting between the two Waterford high schools. Eighteen entrants were marching with the Captains of Waterford Kettering while 10 had signed on with Waterford Township's Skippers.

Disregarding the bad-luck amen of the date — Friday, the 13th — Kettering came up with a 13 on its own account as Waterford's scoring stopped at six.

That left 18 contestants holding their collective breath and crossing joint fingers for the next day's tussle that pitted Washington against UCLA.

Ten Press prognosticators had "X'd" UCLA to finish ahead of the eight who foresaw a winning afternoon for Washington.

Well, the minority and—yep, you guessed it — Major Ames Hoople, The Press' non-sporty necromancer, squeaked out a victory. But — egad! — it was close; 22-20.

Where does this leave us? In a real scramble, since you asked us.

Looking ahead to the 12th and 13th upcoming games this weekend, six give the edge to Pontiac Central High School in its Friday night session with Pontiac Northern. Should Central win, four contestants pick Michigan over Ohio State the following afternoon leaving two to share the fate of Ohio. A Northern triumph would leave both remaining entrants bucking for a Buckeye success.

No ties were called for either game. What the Contest situation will be Sunday morning, only an Einstein complete with electronic computer could project.

The outcome is on the knees of the gods, and they alone know who will be sitting pretty there.

The Frosting On A Prize Winning Cake

David Lawrence Says:

D. C. Schools Are Resegregating

WASHINGTON — "Resegregation" in public schools is still going on in the nation's capital.

The October 1964 census figures just issued by the school authorities here show that, since the Supreme Court "desegregation" decision in 1954, the number of white students has declined from 43

LAWRENCE per cent of the total school population to 12.4 per cent. The number of Negro students, on the other hand, has increased again in the past year, and now is 87.6 per cent of the total, as compared with 47 per cent in the 1953-54 school year.

Many of the schools in Washington, nevertheless, are still virtually all - white or virtually all-Negro.

There are only a few schools which can be said to be truly "integrated" in the sense that a substantial proportion of pupils of both races are in attendance at the same schools.

Meanwhile, numerous white students have enrolled in private schools here or have moved into public schools in Maryland or Virginia, where the Negro population is not as large.

NOT REALIZED Opportunity to sit in classrooms with white students has not been realized? In fact, the opportunities would seem to be diminishing, and "resegregation" is, in effect, taking place as some of the schools in the last 10 years have again become virtually all-white or all-Negro.

In some cities in the North, the local authorities have undertaken to use bus transportation so as to transfer students from one neighborhood to another in order to achieve a kind of racial balance. It has been the subject of court litigation by protesting parents of some pupils.

Little attention, however, has been given to the supplementary opinion of the Supreme Court of the United States rendered in May 1955, which said that the courts may consider transportation systems and the "revision of school districts and attendance areas into compact

units to achieve a system of determining admission to the public schools on a nonracial basis, and revision of local laws and regulation which may be necessary in solving the foregoing problems."

The Supreme Court might, of course, take it upon itself to determine how an "attendance area" should be defined.

CROSS STATE LINES This could mean that in the District of Columbia, for instance, schoolchildren would be authorized to cross state lines and claim the right to attend schools in nearby Maryland and Virginia.

Residents of the District of Columbia, by a constitutional amendment adopted in 1961, gained the right to vote in presidential elections and a d gave a majority of more than

six to one to President Johnson in the recent election.

The President appoints the district commissioners and is virtually the mayor of the city. Congress acts with the same authority as a city council or board of supervisors does in cities or counties in other parts of the country.

The voters in the districts cannot by themselves bring schools.

They are dependent upon the President and members of Congress, but in this year's campaign the Democratic party scored an overwhelming majority in the country with the argument that it was interested in civil rights and equal opportunity and an adherence to what has been called "the law of the land."

(Copyright, 1964, New York Herald Tribune Syndicate, Inc.)

Bob Considine Says:

Modest Changes Noted in Czech Government

PRAGUE — The ghost of Woodrow Wilson must be smiling. The Czechoslovakia he nurtured into being is stirring again in ways which would have met his approval. It is as if a seed buried in the earth at the time the nation was brutally battered at Munich has sprouted.

It is far from the flowering stage, but it has sprouted. The signs of shifting times are modest. The Czech government of Antonin Novotny, which was "unanimously" returned for another five-year term last April, stopped jamming the Voice of America last April after devoting many years and much money to blocking its signal.

It is much easier these days for Czech nationalists to obtain a visa to visit the Western nations than it has been since the country, liberated by the Red Army because George Patton's army was halted on

orders as he raced toward this place, fell under or accepted Communist rule.

Tourism is being stressed for the first time in many years. There are special rates for tourists, reasonably good hotels in the larger cities, and good food.

Czech writers have been extraordinarily frank in their criticism of the system in recent months.

They are pilloried from time to time, but there has been no parallel of the case of Melchior Wankowicz, the Pole who was sentenced to 18 months in the brig last week in Warsaw when found guilty of stating that censorship existed in that land.

Many accused Polish writers have recanted. There have been no such reversals of position in Czechoslovakia.

POINTED MESSAGE

The Czech Central Committee sent a very pointed message to the new leaders of the Kremlin asking them to explain just why they bounced Khrushchev.

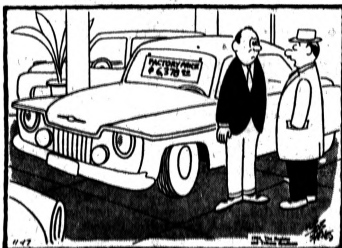

Significantly, Novotny did not take part in the love feast of Nov. 7 in Moscow, when even Chou En-lai showed up. Novotny sent a substitute.

He talks also of introducing a heresy into the nation's economic planning, a remarkable new concept. If he pushes it through, hereafter a man who is smarter and works harder will be paid more. It is a pretty revolutionary idea.

The Better Half

"Your factory price seems reasonable enough, but I doubt if I could use a whole factory."

Voice of the People:

Water Level of Favorite Lake Concerns Reader

I have enjoyed Oakland County lakes for 25 years, fishing and just relaxing on the water. A favorite lake has a beautiful view of what mother nature can do to land and hills. It has year-round residents, a large recreation area and a dam that has the Oakland County Drain Commissioner's name (Barry) inscribed on it.

It is a shame nothing is being done about the water level being down approximately three feet.

CONCERNED

'They Used Their Heads and Barry Lost'

Senator Goldwater said, "In voting, use your head and not the sentiments of your heart." The people did use their heads. Hence he lost. You sometimes have to eat your idle words.

A READER

Two Comment on Problem of Sewer Odor

Is there an evergreen tree in the sewer line? If the people of the city could see the debris standing in the creek which connects Osmun and Terry lakes, they would be sick. The smell is not in one place but remains in the area.

People around Terry and Osmun lakes have been told a proposed new sewer system will stop this smell permanently. Is there State or Federal aid we could take advantage of to sweeten the air permanently?

A DISGUSTED HOME OWNER

Two weeks ago home owners in the Terry-Osmun Lake area attended the city commission meeting regarding the offensive odor, "Raw Sewage," being emptied in the lakes. At that time we were told everything possible was being done to eliminate the odor in the area or cover it up by means of spray.

Since that time the odor has come back, so I called the city hall and they sent a man out to tell us that more spray could not be used. It would kill the fish and the odor would become even more offensive.

There is a health hazard involved, but as yet no word has been heard from the Health Department.

'Use City Income Tax for Traffic Safety'

Commissioner Dugan has a high regard for safety in Pontiac and for its new income tax that it will soon have.

I just hope he sees fit to use some of this money to remove the newly installed dead end trap created at Oakland and Wide Track Drive, and also some direct traffic lights at Wilson and S. Saginaw which have been having them located one-fourth of a mile ahead of the intersection.

As far as relieving the tax load on residents' property, I thought it had already been published that even with the cuts on property tax, the combined tax to the city will be slightly higher than before, so where is the relief from taxes?

Gives Answer Regarding American Flag

The writer of a letter in regard to flying our United States flag at night had better "get busy." He has been blind to the fact that our late President Hoover recently passed away?

M. SANDERSON
WALLED LAKE

Offers Suggestion for Placing Mailboxes

The mailboxes at the top of Branch St. are inconvenient for residents of Howard McNeil, Hess, Warner, and Grant. Elderly widows have to climb the icy slopes of Warner and Hess in the winter to collect their mail. Social Security allowances and other mail are thus exposed to passersby.

If deliveries cannot be made to the individual homes, a newly-placed station for the mailboxes at the base of Howard McNeil on each corner would alleviate the dangers.

Since mail deliveries are often made to the offices of the junkyard, which have an entrance facing Howard McNeil, it would seem feasible to include the remainder of the mail for the neighborhood at that location.

Lists City Government Accomplishments

Pontiac has been too busy to notice what's happened in city government.

• Property tax raised.
• Water tax tripled
• Cut in service (garbage at curb)
• Proposed income tax

Home owners had nothing to do about this dictation by our City commission. I can do nothing but move out of the city, which I am doing.

Readers Concerned About Sale of Smut

It appears the post office department is doing all it can to stop the flow of smut. Most drugstores and newsstands are not. Do parents care that children are being besieged by this torrent of literary filth?

How many parents have checked the local magazine racks? How many complained to the manager? J. Edgar Hoover said, "Let us as God-loving people shoulder our moral responsibilities, not flee from them."

MARY MOLLER
CLARKSTON

We have heard about smut since we were kids and nobody sold us anything we didn't want to buy.

If our teen-ager was interested in smut, we would not blame our postmaster or our teachers, since this is a land where you can buy what you want over the counter or under it.

If they know better they are not interested. More interest in our children would probably cure a great deal of smut.

Foreign News Commentary

Japan's Leader on Spot in Trade Issue

By PHIL NEWSOM
UPI Foreign News Analyst

Japan's growing trade with Communist China soon may force some painful decisions on Prime Minister Eisaku Sato. He is under pressure from two sides on this question.

On the one hand, market-hungry Japanese businessmen are pushing for better access to mainland China, including a trade pact between the two governments and easier payment plans for the Red Chinese buyers.

On the other side, the Japanese Foreign Office is urging Sato to be cautious, pointing out that economically Japan's bread is buttered by the United States.

Nationalist China, with whom Japan trades profitably, also is campaigning against Japanese business with communists.

Actions of Britain's new Labor government to promote trade with Peking are strengthening the hand of the do-business-with-China faction in Tokyo.

They argue that Red China is here to stay, and unless Japan matches British terms, she may lose her new foothold in China to Britain.

PROFIT ON MISERY: East German Communists are expected to seek more political profit from the one-day passes they issue to West Berliners four times a year to visit relatives on the other side of the wall.

NEXT PERIOD

The next pass period starts Dec. 19 and the Communists already have threatened to reconsider it if West Berlin does not forbid banks to sell East marks which visitors have been smuggling into East Berlin. The Communists claim West Berlin officials promised to clamp down on any activities which would break East German laws.

Some Western observers speculate Soviet Premier Nikita Khrushchev forced East Germany to sign a pass agreement in order to improve its image in the West, and that, with Khrushchev now gone, the East German regime may trump up excuses to break off the agreement.

TOO FAR LEFT? Top French officials in Paris say the Algerian Army would grab power if President Ahmed Ben Bella slides much farther to the political left.

CORDIAL RELATIONS

They say relations between French and Algerian army commanders remain cordial and

that the army is restive about the distance Ben Bella already has gone toward setting up a Castro-style near-Communist state in Algeria.

TOKEN AID FOR MALAYSIA: American military assistance to Malaysia figures to be more symbolic than anything else, according to diplomatic sources in the Malaysian capital of Kuala Lumpur.

These sources say the most that can be expected is Malaysian purchase of some American jet trainers on a long-term credit base.

The sale of small arms and munitions has been ruled out because the American and Malaysian weapons are not compatible.

FRENCH-ARAB RELATIONS: A state visit by King Hussein of Jordan to Paris will make a new step in French efforts to restore close relations with the Arab states.

These relations have been relatively cool ever since the Anglo-French attack on Suez. Up for discussion will be new trade and cultural relations.

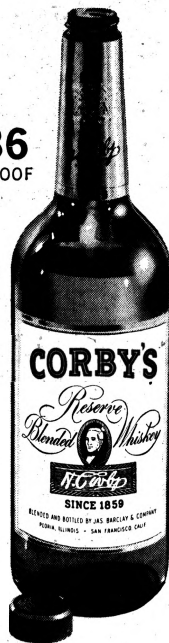

Ventriloquist Is Killed in Automobile Accident

PETERBOROUGH, England (AP) — Dennis Spicer, a 29-year-old ventriloquist who had appeared on both British and American television programs, was killed in an automobile collision Monday night.

Lying beside him in the wreckage was his favorite dummy, "Jimmy Green."

Never From the Mouths of Adam and Eve

By HAL BOYLE
NEW YORK (AP) — No one knows for sure just what reparations were exchanged in the Garden of Eden.

The language was young and fair then, as young and fair as they are now, and as the world's only bridal couple.

It is impossible at this late date to discover what shy jokes Eve whispered to Adam, what clever boffs and bon mots Adam composed when he had earth's first lady as his only audience.

But here are a few stale remarks and timeworn quips they certainly didn't inflict on one another:

"I wouldn't marry you if you were the last man on earth."

LIKE THE GIRL
"I married a girl just like the girl that wanted dear old dad."

"Enough is enough. I'm going to pack and go home to mother."

"I'm tired of supporting your brother. Let him get bit and earn his own living for a change."

"Have fig leaf — will travel."

"Are there any more at home like you, kiddo?"

"Don't think you're the only fish that swims in the ocean."

"Do you think mossy grows on trees?"

"Buy now — pay later."

APPLE A DAY
"An apple a day keeps the doctor away."

"Now don't try and tell me you've been out with the boys until this hour!"

"No, I was sitting up with a sick friend."

"If you don't see it, ask for it."

JOINT RETURN
"Do you and your wife want to fill out a joint tax return?"

"See you in the divorce court, baby."

On the other hand, some repartee hasn't changed at all since the Garden of Eden. We can surmise that when Adam first saw the sneaky snake, he must have muttered, "Two's company — three's a crowd."

Here are a few more timeless marital remarks which undoubtedly originated with Eve and her husband:

"Why is it we never go anywhere anymore?"

A LITTLE PEACE
"Can't a man have a little peace and quiet? Is that too much to ask?"

"You never listen to me. You never heard one word I said."

"I don't care if you did have it for lunch. You're having it for dinner, too."

"It's your turn to take out the garbage. If you don't, it'll just stay there until doomsday — for all I care."

"It's high time you showed a little responsibility."

"I don't have a single decent thing to wear — not one!"

Fooled 'Girlfriend,' Baffled the Reds, Now Faces Court

FLENSBURG, Germany (UPI) — Building engineer Peter Selle today faced charges of double-crossing both his "girlfriend" and the Berlin Wall. The defense of the 26-year-old refugee from East Germany was that he did it to be reunited with his wife.

In his case, West German justice encountered the problem of whether all is fair in love and the Cold War.

It all started last year, when Selle swam the Elbe River to freedom in the West. His 24-year old wife, Barbara, was left behind.

From that moment, Selle concentrated on how to get Barbara out from behind the wall.

But her requests for visas to Czechoslovakia and Romania, from where the Selles hoped to engineer an escape, were denied.

East German eyes kept a sharp watch on Mrs. Selle to make sure that she would not be able to flee communism also.

Then Selle conceived a plan. He became acquainted with 17-year-old Dorothea Voss —

not as Peter Selle, but as "Peter Hansen."

Eventually the couple became engaged. Selle then suggested a prenuptial trip to West Berlin and Dorothea went along.

Once there, Peter Hansen suggested a trip to East Berlin to see what life is like on the other side of the wall.

WASNT READY
Dorothea was willing, but she was not ready for what followed.

Her " fiancee " suggested that he hold her identity card for "safekeeping."

While she sipped coffee in an East Berlin cafe, Selle telephoned his wife and arranged a speedy rendezvous. Using Dorothea's identity card, the Selles passed safely through Communist controls to the West.

Miss Voss' visit, scheduled to take several hours, was destined to be a longer one, as she found out when she tried to return home without her identification.

The Communists held her for six weeks in an effort to force the West German government to return Selle and his wife. Bonn refused, and finally Miss Voss was released.

WHO WAS SHE?
"Who was the lady I saw you with last night?"

"See what the fellows in the back room are having."

"Oh, since you insist, I'll just have a little martini."

"Step to the rear of the bus, please."

DOESN'T UNDERSTAND
"The trouble with me is that my wife doesn't understand me."

"Well, I met the new neighbors today; if you ask me, they're both a mess."

"Don't you ever get tired of talking shop?"

'Skyline Drive' Ready
LANSING (AP) — Battle Creek's new \$667,000 "Skyline Drive"—known officially as I-94 business loop—will open to traffic in ribbon cutting ceremonies today. The 2.8-mile highway was designed to provide a better connection from I-94 to the industrial areas in Springfield and Battle Creek's west side.

It is estimated that by the year 2010, there may be three times as many men and women 65 years and over as there are today, an increase from one million to three million.

Viet Storm Toll Is Over 7,000

SAIGON (UPI) — Typhoon Kate fizzled in the mountains of South Viet Nam today. The death toll from two earlier typhoons climbed to more than 7,000.

In reporting the number of dead from Typhoons Iris and Joan, the official South Vietnamese Press Agency said 54,000 homes were destroyed and that 700,000 persons were without shelter.

It said up to 70 per cent of the livestock in the hardest hit areas were killed and most of the crops destroyed.

Typhoon Kate, which had posed a major threat to the storm-battered countryside when it boiled up in the South China Sea, pelted coastal provinces with torrential rain. It then moved inland and blew itself out.

Communist North Viet Nam appeared to be taking political advantage of thousands of homeless and hungry peasants in the hinterlands with a promise of relief supplies.

RED AID OFFERED

The North Vietnamese News Agency, in a dispatch heard in Tokyo, reported that President Ho Chi Minh offered rice, clothing and medicine for the victims of three typhoons which have raked South Viet Nam in the past two weeks.

The offer was made in a statement addressed to the South Vietnamese Red Cross and the National Liberation

front, according to the Hanoi report. The clandestine front is the political arm of the Communist insurgency movement in this country.

"The (Communist) Viet Nam Red Cross Society is preparing to send you a quantity of rice, textiles and medicine in the way of sharing wealth and woe," Ho's statement said.

The Communist report mentioned 20,000 tons of rice, 10,000 tons of medicines and almost 2 million yards of fabric for clothing. It made no mention of how the supplies would be delivered.

OVER TRAIL

It was thought possible that the North Vietnamese might use the Ho Chi Minh Trail to deliver some of the promised supplies.

It is a winding series of jungle tracks through Eastern Laos which the Communists have used to smuggle military supplies into South Viet Nam.

The National Liberation Front was also seeking to exploit the storm damage for its own purposes.

A statement attributed to the front by Hanoi blamed the South Vietnamese government for not taking adequate precautionary measures against the weather.

POPULATION EXHAUSTED

It said the U. S. strategic hamlet program had left the population in a state of "poverty and exhaustion."

On the military front, South Vietnamese Premier Tran Van Huong met yesterday with a Philippine mission to discuss a plan that would provide more than 3,000 Filipino combat troops for the anti-Communist war.

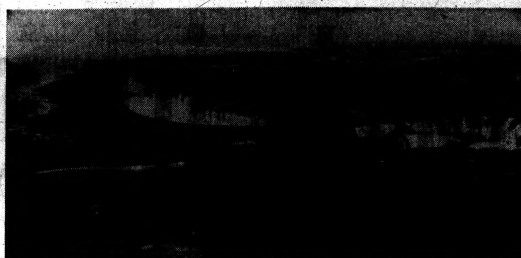

The unofficial proposal was put forward by attorney Antonio Aquino in a meeting with Huong. It is believed to have the backing of Philippine President Diosdado Macapagal.

In another development, Vietnamese intelligence sources reported recent discovery of several mass graves filled with the bodies of Communist Guerrillas.

LOSSES OF CONG

They said these indicate that Viet Cong losses in the mountains have been higher than previously estimated.

The discovery came after a series of clashes between Viet Cong forces and government troops in the mountainous area of the 1 Army Corps district.

SUBJECT OF DISPUTE — This is the Royal Navy's new Buccaneer S2 bomber which South Africa has ordered—but may not get—from Britain. While no official decision has been announced in London, qualified informants said the new Labor government is considering keeping an election

pledge to refuse to supply arms to South Africa because of that country's apartheid policies. South African Prime Minister Hendrik F. Verwoerd threatens to scrap his country's military agreement with Britain if the planes are not delivered.

World News in Brief

Clash With Cong Kills Yank, 4 Viets

SAIGON, South Viet Nam (AP) — Another U.S. enlisted man has been killed in South Viet Nam, raising the total of Americans killed in combat to 225 since 1961.

A U.S. spokesman said four Vietnamese also were killed in the clash Monday with a Viet Cong unit 15 miles east of Saigon. Another U.S. enlisted man and six Vietnamese were wounded.

SINGAPORE (AP) — Malaysian forces combed the outskirts of Singapore and the marshy jungles of the southern Malay peninsula for Indonesian infiltrators today.

Police said seven Indonesians captured Monday night in a remote area of Singapore Island, had slipped ashore three days ago.

A British mine-sweeper challenged a motorized sampan in Singapore waters Monday and its occupants, three uniformed Indonesians, hurled three grenades in reply. The British craft opened up with machine guns and killed the three Indonesians.

MANILA (AP) — Most of Manila's 12,000 jeepney drivers struck today against a new city regulation banning them from main avenues and bridges. Buses, taxis and horse-drawn carriages did a roaring business.

Jeepneys — Jeeps converted to small passenger buses — are a popular mode of transport in Manila. The strike kept thousands of suburban residents from work or delayed them.

COPENHAGEN, Denmark (AP) — Denmark has told Spain it allows "full freedom of expression" and will not prosecute demonstrators who burned Gen. Francisco Franco in effigy last month in front of the Spanish Embassy.

Foreign Minister Per Haekkerup told Spanish Ambassador Marquess del Romana, however, that the police officer in charge had been reprimanded for failing to stop the demonstration.

MADRID (AP) — Spain's sun-

shine — one of the most attractive features for the increasing flow of tourists — is beginning to worry the Spaniards.

A long drought has reduced the level of water reservoirs 50 per cent. Authorities in some areas are contemplating water rationing.

New Trouble for Nuclear Force

PARIS (UPI) — The American-sponsored Multilateral Nuclear Force (MLF) project appeared headed for new troubles today.

Apparently a new dispute is developing within the North Atlantic Treaty Organization (NATO) over ultimate control of the force.

Diplomats said acceptance of the NATO claims could mean that any one of the alliance's 12 members, including President Charles de Gaulle of France, would have veto rights over its use. De Gaulle is a fierce opponent of the MLF concept.

So far talks on the creation of MLF have been proceeding outside of NATO. All eight countries taking part — the United States, Britain, West Germany, Italy, Belgium, The Netherlands, Greece and Turkey — are members of NATO.

But officially NATO has had nothing to do with the negotiations.

MAJORITY VOTE

Under existing plans, control of the force — if it ever comes into being — would be by some system of majority vote of the countries taking part.

But yesterday, Manlio Brosio of Italy, NATO's secretary general, demanded that the organization have full military and political control over MLF.

MLF, as the United States sees it, calls for a fleet of surface ships with nuclear weapons and manned by mixed crews from the various nations.

What more can we say about our advantage?

THIS:

We thought you ought to know that you don't have to pay extra to get a winterized gasoline this year. Not if you get it from us. Because both Marathon Super-M premium and Mile-maker regular stop fuel line freeze and stalls due to carburetor icing. They even clean your carburetor while you drive, and prevent corrosion. Both of them. Try a tankful. If you're not satisfied, we'll give you your money back. Fair enough?

YOU GET THIS... ONLY WHERE YOU SEE THIS

Thank you for reading this message from Marathon. We hope you enjoy Marathon's broadcast of Detroit Lions football games on Radio and TV.

Junior Editors Quiz on Ant Cows

QUESTION: What are ant cows?

ANSWER: Roger, in our picture, has discovered something fascinating—a tiny ant farm in full operation. There are more ants in the world than any other insect.

An ant "cow" is an aphid, a kind of soft-bodied little insect which lives by sucking the juices from plants. The aphid's body produces a sweet fluid called "honeydew," and this is the "milk" the ant is after.

By stroking the aphid's body, the ant makes honeydew pour from tubes on the aphid's back; then the ant licks up the fluid.

Ants carry their "cows" around and plant them in places where much honeydew will be produced; they also make ant farms near the home ant nest.

Ants defend the aphids from enemies; sometimes they take their "cows" into the ant nest in winter to care for them.

One kind of ant, after having kept aphids in the nest over the winter, clears dirt from the roots of corn plants and puts the aphids on the roots to make honeydew. Considerable damage can be done to corn plants in this way.

FOR YOU TO DO: Turn over a few flat stones and you will probably find an ant colony under one. Look closely with a magnifying glass and see how furiously the ants work to carry their eggs off to some other place.

Quintuplets Born in Mozambique

LOURENCO MARQUES, Mozambique (AP) — The birth of quintuplets to Clara Matangwa was reported today by Dr. Julio Fernandes. He said he delivered the four boys and a girl Monday in Zavalia Hospital, in Hámabane District.

The doctor said the birth was normal and all five of the babies had a good chance of survival.

Mrs. Matangwa and her husband, Felizberto, already had two sons.

Botanist-Author Dies

SANTA BARBARA, Calif. (AP) — Donald Culross Peattie, 66, an author, died Monday after a long illness. Peattie, a botanist, wrote more than two dozen books, most of them dealing with natural wonders. He also had been a roving editor for Reader's Digest since 1943. He was born in Chicago.

Detroit CORE Halts Picketing of AAA Agency

DETROIT (AP)—The Detroit chapter of the Congress on Racial Equality (CORE) said Monday it is halting demonstrations at the Automobile Club of Michigan (AAA).

CORE said there had been a "successful resolution of differences." The Auto Club said an understanding had been reached

but that it had at no time practiced discrimination.

The civil rights group had picketed the Auto Club to protest what it called discrimination against Negroes.

Three CORE pickets who pleaded guilty to trespass charges were placed on six months probation Monday by Recorder's Court Judge John P. O'Hara. Sentencing of a fourth was deferred.

Nicaragua is the largest of the five Central American Republics.

Watch Cars While 'Surfing'

WASHINGTON (AP)—The American Automobile Association took note today of the rebirth of "sidewalk surfing" and urged youngsters to pursue the generations-old sport only where there is no traffic.

But since there is a lack of play area in many cities and since boys will be boys, the AAA called on local police to block off certain streets where the youngsters can surf in safety.

In case you don't remember the game, a roller skate is attached to the bottom of a short board and the surfer places both feet, one in front of the other, on the board then tries to ride it down a hill. The steeper the hill, the better.

The danger stems from the fact that the surfer can be caught unaware by traffic.

In the first two hours of the day they were issued, 60,000 of the new Kennedy half dollars were sold in the cash room of the Treasury Department in Washington, D.C.

The 1965 Ford rides quieter than a Rolls-Royce...

Total Performance Ford Galaxie
500 LTD 2-Door Hardtop

...and has
an open door policy
for skeptics

So slide inside. Take a test drive. And take along any doubts you may have. They won't last long. In tests conducted by the world's leading acoustical experts (Bolt, Beranek and Newman, Inc.)... tests certified by the United States Auto Club... the Ford ride proved quieter than Rolls-Royce!

But maybe you're the type that needs firsthand proof. Good. That's why we invite you to make your own test. The first thing you'll notice is Ford's new look—sleek, swift, beautifully different from other '65s. And Ford feels as new as it looks. A new body (strongest ever)... new frame ("tunes out" vibration)... new suspension result in an incredibly smooth, hushed ride.

Many more surprises await you in the 1965 Fords — comforts and conveniences many of which no other car in Ford's class offers. Examples:

■ Silent-Flo Ventilation — changes interior air in seconds... with windows closed (standard, 4-door hardtops). ■ Safety-Convenience Panel option — warns if fuel's low, door's ajar; single switch locks all doors. ■ Twin-edge key — works either side up.

■ New performance — from an all-new Big Six, the most powerful in Ford's class... to a livelier 289-cu. in. V-8 (standard on XL's and LTD's)... to an optional 427-cu. in. V-8. ■ New 3-speed automatic transmissions — not 2-speed as in many competing cars.

■ New ultra-luxurious LTD series — cut-pile carpeting, rear center arm rests, vinyl-and-nylon upholstery, walnut-like paneling on instrument panel and doors, safety lights in doors... and more!

■ New spaciousness — more hip, shoulder, knee room. Transmission tunnel is lower than in competing cars for extra foot room. More trunk space than in any Ford ever — holds four 2-suiters standing upright... with lower sill for easier loading.

This is just a sampling of Ford's exclusive 1965 features. Discover all that's exciting and exclusive in Ford for '65. Come take a test drive. It will open your eyes and your ears. See why more people are buying Fords than ever before in post-war history.

Test drive Total Performance '65...best year yet to go

Rains Bring Some Relief to Drought Areas; Fires Still Blaze

HARD WAY FOR WATER — Poultry farmer Walter Ready fills 10-gallon milk cans with water from a spring at Shaftsbury, Vt. All day and well into the night, cars and trucks pull up to the spring for water. For many it is the only source of water in the area, hard hit during the long drought.

CHICAGO (AP) — Rain swept across the eastern half of the United States, somewhat easing one of the most severe autumn droughts in history, but many areas continued to battle brush fires and to seek emergency water supplies.

Rainfall over much of the Midwest dampened charred fields and forests, but in the East, water supplies dwindled and intermittent precipitation did little to alleviate serious drought conditions and fires in woodland areas.

Substantial showers moved over southern Illinois, wetting the area where fires destroyed some 15,000 acres of timber this fall. It ended a 46-day rainless span for Cairo in the southern tip of Illinois.

Rain in Indiana broke a 19-day drought, and a four-day ban on outdoor fires was lifted.

NOT ENOUGH

Rain fell throughout Ohio, but the U.S. Weather Bureau said it wasn't enough to alter the dry situation plaguing south central and southwestern counties and threatening forests there.

New England, which has suffered through its worst autumn drought in history, had some relief.

mild weather continued. For the third consecutive day, Nashville

Monday had a record high reading for the date — 77.5.

The Southwest was pounded by violent wintry weather and

DRY LAND BRIDGE — Only a trickle of water flows under this bridge that spans the Bontoon Water Reservoir in North New Jersey as a wide expanse of baked mud shows the results of prolonged drought. Water levels in reservoirs throughout the eastern half of the nation were dwindling as a record-shattering autumn drought continued.

dangerous road conditions were reported in southeastern Idaho, eastern Nevada, Utah, Arizona and New Mexico.

STRONG WINDS

Violent winds measured at 80 miles per hour battered northern Utah, flattening several homes and causing thousands of dollars damage.

One man was found frozen to death south of Williams, Ariz., and two members of his hiking party were missing as Arizona's worst November snow storm in years appeared to slacken.

Snowfall measured from 24 inches at Baker Butte in northern Arizona to 4 inches at Camp Verde 60 miles north of Phoenix. The accumulation is seven feet at Wolf Creek Pass in the Rocky Mountains.

The first storm since last winter pelted New Mexico with freezing rain and wind-whipped

snow, helping to alleviate the danger of fire in national forests.

IN DANGER

Colorado's eastern plains missed any measurable moisture in snows which began last weekend, and the drought-stricken \$50-million winter wheat crop still could be completely lost.

Much of Montana was covered with a light snow, but four counties in the extreme southeast lay under drifts four and five feet deep, causing cattle-feeding problems.

A weekend storm which dumped 11 inches of snow on parts of Wyoming began letting up. The snowfall covered all the state except the Big Horn basin, partially eliminating drought conditions.

State Mental Health Unit Asks \$120 Million Budget

LANSING (AP) — The Michigan Mental Health Department is asking the state for \$120 million next year for a program aimed at increasing children's services, substantially reducing waiting lists and increasing outpatient care.

Dr. Robert Kimmich, department director, spelled out the department's requests in a news conference Monday.

The proposed budget represents a 23 per cent hike over the \$97.73 million 1964-65 budget.

His review of the department since he took over last July brought out two major problems, Kimmich said:

"The staff is too small and, about one third of our buildings are so outmoded that renovation would be unwise."

IMPROVED STAFF

Both improved staff and buildings must be stressed in the budget in order to maintain a balance, he said. Neither can solve the state's problems alone.

"Beds, although needed, are not the total answer," he said, and a staff cannot do an adequate job in inadequate surroundings.

The proposed capital outlay budget stands at \$13.3 million — nearly double the \$7.1 million allocated for construction this year.

"Much in the budget," he added "is addressed to increasing the number of people admitted without increasing the number of beds."

INTENSIVE CARE

With more intensive care and streamlined administrative procedures, Kimmich said, "we are pretty certain that at the end of a couple of years there will be no waiting lists for the mentally ill and the lists of the retarded will be greatly reduced."

"We are opposed to the continuance of waiting lists as a way of life," he said.

The central office staff, he added, must be enlarged. It not only handles the general administration of the department, but administers training programs, foster home placement, family care and general planning.

The largest single increase is the \$3 million allocated to counties for community mental health programs authorized by the 1963 legislature. Under a matching fund provision he would grant counties a total of \$4.5 million in the next fiscal year for such programs as community psychiatric clinics and day care centers for disturbed and retarded children.

FOR PLANNING

The budget also calls for \$700,000 for planning, site acquisition and construction of a 250-bed hospital for the mentally retarded at Muskegon.

The hospital for which the legislature appropriated \$75,000 for preliminary planning and site options this year, should eventually be expanded to 300 beds, he said. A 50-bed wing and clinic for the mentally ill should be added, he said, "making the hospital a comprehensive general mental health center for a five or six-county region." Total cost would be about \$5 million.

"I have no idea how much of this we will get," Kimmich said of the budget, which has just been submitted to the State Department of Administration.

"But we're hoping for a considerable amount of support from the governor. He placed mental health high on his list of priorities during the campaign."

The oldest flying plane in the United States today is a 1910 French biplane, similar to the craft that first flew the English Channel.

CHRISTIAN LITERATURE SALES
255 Oakland Ave. PE 4-9591

Connecticut received only .01 inch of rain, but officials said it was enough to reduce the danger of brush and forest fires.

Maine and New Hampshire received some snow, but officials said more precipitation is needed to bring the water table up to seasonal levels. An inch of rain in southern Maine and 3.4 inches of snow in northern Maine brought some relief to stricken areas.

MAY SEEK AID

Massachusetts officials considered asking for federal aid in financing transportation of water to communities where reservoirs are low.

Light rain fell over much of Pennsylvania. A ban on smoking in woodlands, lighting of campfires and burning of brush remained in effect. Officials said 251 forest fires broke out last week and more than 50 are still burning.

The situation remained grim in New Jersey, where Gov. Richard J. Hughes asked mayors in four large northern counties to take immediate steps to conserve water. Monday's rainfall measured only .04 inch.

Scattered showers in New York State did little to settle the dust of a six-month drought.

LIGHT RAIN

A light rain Monday night made West Virginia forests slightly less prone to fire, but 16 fires were reported in wooded areas.

Thirty North Carolina counties have canceled burning permits because of the dry conditions and some wooded areas have been closed to hunters.

In Tennessee, unseasonably

2 Lunar Probes Set for Early '65

lar photos of the lunar surface last July.

He spoke to the third international symposium on bioastronautics, a group of space experts.

TO SELECT TARGET

Whitaker said Ranger program scientists will meet Thursday at jet propulsion laboratory in Pasadena, Calif., to begin selecting a lunar target area for Ranger-8.

He conceded the issue will create "quite a bit of hassling." But he added that "I am pretty sure we need to land in another Maria" — as scientists call the rolling lunar plains considered the most likely landing spots for U.S. astronauts around 1970.

If Ranger-8 is successful, Whitaker said, he is "quite sure" the ninth probe will be aimed at the moon's jagged mountains.

Scientists, including Whitaker, appear increasingly

certain the moon may not be the 100 per cent dead ball of rock it is supposed to be.

SLEEPING GAS

Astronomers peering into the Crater Alphonsus in 1957 and into the Crater Aristotele in 1963 spotted what appeared to be gas seeping from the lunar ground.

The sightings heightened hopes that the moon is hoarding raw material, possibly including water that would make establishment of a lunar base easier than previously believed.

Whitaker said the so-called bright "spots" could be "pockets of water or gas" released through cracks created by meteors hitting the surface. The effect is much the same as that of an oil gusher.

The three specially designed New York World's Fair fire engines are only 17 feet long — to permit them to maneuver in the 20-foot wide roads — but have the capability of most city pumbers 25 feet long.

like, Mamie to Return to Gettysburg Today

AUGUSTA, Ga. (UPI) — Former President Dwight D. Eisenhower and his wife, Mamie, will return to their Gettysburg, Pa., home today after a two-week rest at the Augusta National Golf Course.

Eisenhower, who came here Oct. 31 to recuperate from a throat infection, was unable to play golf following a fall on a stairway Nov. 3 at "Mamie's Cabin" where he and Mrs. Eisenhower stayed. The Eisenhowers celebrated Mrs. Eisenhower's 68th birthday Saturday night with a few close friends.

FEMALE PROBLEM

Thousands of women find speedy relief from the physical distress of irregular, scanty or painful menses due to functional disorders by taking HUMPHREY'S — a gentle, non-hormonal, homeopathic remedy. At all drug stores. No prescription needed.

State Mental Health Unit Asks \$120 Million Budget

LANSING (AP) — The Michigan Mental Health Department is asking the state for \$120 million next year for a program aimed at increasing children's services, substantially reducing waiting lists and increasing outpatient care.

Dr. Robert Kimmich, department director, spelled out the department's requests in a news conference Monday.

The proposed budget represents a 23 per cent hike over the \$97.2 million 1964-65 budget.

His review of the department she took over last July brought out two major problems, Kimmich said:

"The staff is too small and, by a conservative estimate, about one third of our buildings are so outmoded that renovation would be unwise."

IMPROVED STAFF

Both improved staff and buildings must be stressed in the budget in order to maintain a balance, he said. Neither can solve the state's problems alone.

"Beds, although needed, are not the total answer," he said, and a staff cannot do an adequate job in inadequate surroundings.

The proposed capital outlay budget stands at \$13.3 million—nearly double the \$7.19 million allocated for construction this year.

"Much in the budget," he added "is addressed to increasing the number of people admitted without increasing the number of beds."

INTENSIVE CARE

With more intensive care and streamlined administrative procedures, Kimmich said, "we are pretty certain that at the end of a couple of years there will be no waiting lists for the mentally ill and the lists of the retarded will be greatly reduced."

"We are opposed to the continuance of waiting lists as a way of life," he said.

The central office staff, he added, must be enlarged. It not only handles the general administration of the department, but administers training programs, foster home placement, family care and general planning.

The largest single increase is the \$3 million allocated to county health programs authorized by the 1963 legislature. Under a matching fund provision he would grant counties a total of \$4.5 million in the next fiscal year for such programs as community psychiatric clinics and day care centers for disturbed and retarded children.

Connecticut received only .01 inch of rain, but officials said it was enough to reduce the danger of brush and forest fires.

Maine and New Hampshire received some snow, but officials said more precipitation is needed to bring the water table up to seasonal levels. An inch of rain in southern Maine and 3-4 inches of snow in northern Maine brought some relief to stricken areas.

MASS SEEK AID

Massachusetts officials' considered asking for federal aid to finance transportation of water to communities where reservoirs are low.

Light rain fell over much of Pennsylvania. A ban on smoking in woodlands, lighting of campfires and burning of brush remained in effect. Officials said 251 forest fires broke out last week and more than 50 are still burning.

The situation remained grim in New Jersey, where Gov. Richard J. Hughes asked mayors in four large northern counties to take immediate steps to conserve water. Monday's rainfall measured only .04 inch.

Scattered showers in New York State did little to settle the dust of a six-month drought.

LIGHT RAIN

A light rain Monday night made West Virginia forests slightly less prone to fire, but 85 fires were reported in wooded areas.

Thirty North Carolina counties have canceled burning permits because of the dry conditions and some wooded areas have been closed to hunters.

In Tennessee, unseasonably

only a trickle of water flows under this bridge that spans the Broomton Water Reservoir in North New Jersey as a wide expanse of baked mud shows the results of prolonged drought.

Water levels in reservoirs throughout the eastern half of the nation were dwindling as a record-shattering autumn drought continued.

2 Lunar Probes Set for Early '65

lar photos of the lunar surface last July.

He spoke to the third international symposium on bioastronautics, a group of space experts.

TO SELECT TARGET

Whitaker said Ranger program scientists will meet Thursday at jet propulsion laboratory in Pasadena, Calif., to begin selecting a lunar target area for Ranger-8.

He conceded the issue will create "quite a bit of hassling." But he added that "I am pretty sure we need to land in another Maria" — as scientists call the rolling lunar plains considered the most likely landing spots for U.S. astronauts around 1970.

If Ranger - 8 is successful, Whitaker said, he is "quite sure" the ninth probe will be aimed at the moon's jagged mountains.

Scientists, including Whitaker, appear increasingly

like, Mami to Return to Getysburg Today

AUGUSTA, Ga. (UPI) — Former President Dwight D. Eisenhower and his wife, Mamie, will return to their Getysburg, Pa., home today after a two-week rest at the Augusta National Golf Course.

Eisenhower, who came here Oct. 31 to recuperate from a throat infection, was unable to play golf following a fall on a stairway Nov. 3 at "Mamie's Cabin" where he and Mrs. Eisenhower stayed. The Eisenhowers celebrated Mrs. Eisenhower's 68th birthday Saturday night with a few close friends.

LOANS

\$1,000 to \$5,000

1st or 2nd HOME MORTGAGE

Cash when needed!

Without obligation, see and talk with Mr. Merle Yee or Mr. Buckner, who have been loaning money to hundreds of people in Pontiac during the past 46 years. All borrowers will testify to receiving fair, honest, and courteous treatment. (Do not take a chance dealing with strangers or fly-by-night lenders.)

When you deal here, you receive the full amount of your loan in cash at once. No papers to sign until the loan is closed. No charge for inspection, appraisal or survey. No charge for abstract, title search or title insurance.

Borrow from us to consolidate your debts, to pay off the balance you owe on your contract, to pay taxes, to make home repairs or improvements, or for any other good purpose. See us today.

New 'Heart-Rending' Film Shows 'Years of Kennedy'

WASHINGTON (AP) — Sometimes in glowing color, sometimes in somber black and white, the years of John F. Kennedy moved across the screen, reached out and revived the pain of a year ago.

"Have you ever seen anything that tore your heart out so completely?" Sen. George S. McGovern, D-S.D., asked a friend after the premiere showing of the U.S. Information Agency's memorial movie, "John F. Kennedy: Years of Lightning, Day of Drums."

The late president's Food for Peace director may well have been speaking for all the New Frontiersmen who made up Monday night's black-tie audience—and for those who were so moved they left the State Department auditorium unable to speak.

"I still can't get used to seeing those pictures," Secretary of State Dean Rusk said in a choked voice to Jacqueline Kennedy's mother, Mrs. Hugh Auchincloss.

ONE IN FAMILY

The only other member of the Kennedy family at the 90-minute showing was Mrs. Robert F. Kennedy, a sister-in-law of the slain president. She hurried away in a limousine.

Visibly moved was Angier Biddle Duke, chief of protocol. He tried to leave a message for the USA producer, George Stevens Jr. Tears welled in his eyes as he said: "Tell him — tell him — tell him — I'm glad we were in Ireland together."

The film, which covers Kennedy's administration from the

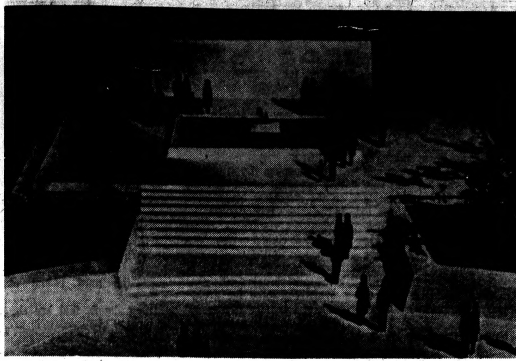

day of his inauguration until the day of drums — the day on which he was buried, was prepared by USA for showing around the world.

Gregory Peck is the narrator. The film is alternately in black and white and color because film clips from various sources were used.

RECURRING THEME

Color sequences of the final day — when the president's body was moved from the Capitol to St. Matthew's Cathedral and to burial in Arlington — are threaded through it, making the day of drums a recurring theme.

"I think," said W. Averell Harriman, a friend of Kennedy and his family, "it will make a lasting impression all over the world."

MODEL UNVEILED — This model of the design for a permanent memorial at the grave of President John F. Kennedy in Arlington National Cemetery was unveiled

in Washington, D. C. yesterday. The memorial was designed by architect John C. Warnecke and has been approved by the Kennedy family.

'Right-Wing Fascist Group'

Asks House Unit to Probe Minutemen

WASHINGTON (UPI) — Rep. Charles S. Joelson, D-N.J., asked the House Committee on Un-American Activities today to investigate a right-wing group called the Minutemen.

Joelson said the group was training guerrillas and sought to force government change by violent means.

"You and I are, of course, united in our unrelenting opposition to communism," Joelson said in a letter to committee Chairman Edwin E. Willis, D-La.

"The time has now come to make it crystal clear that under the guise of anticommunism, no extreme right-wing Fascist group will be allowed to threaten the peace and tranquility of our beloved nation."

Joelson quoted published reports that the Minutemen seek to enlist 1 million persons "operating in guerrilla bands of a dozen or so each."

Each member is supposed to supply his own rifle, he said, and is required to fire at least 500 rounds of ammunition annually at target practice.

STRONGLY URGES

"This letter is to urge you as strongly as I possible can to make the first order of business of the committee in 1965 a deep and thorough investigation of an organization known as the Minutemen," Joelson wrote Willis.

"As anyone who reads the newspapers knows, this organization encourages and imparts its members to own firearms and to become proficient in the use of them, and to force governmental policies by violent means."

"In my opinion nothing can be more un-American than that."

"I would point out to you that following the recent presidential election, the head of the Minutemen, Bolivar De Pugh, stated: 'The course for all conservatives now is to join the Minutemen's secret underground army for training as

America's last line of defense against communism'

BALLOTS OF BULLETS?

"The November issue of 'On Target,' which is the official publication of the Minutemen, flatly declares: 'The hopes of millions of Americans that the Communist tide could be stopped with ballots rather than bullets have been turned into dust.'"

"It goes on to state: 'Among the weak-kneed conservatives, many will be shaking their heads sadly and saying we simply must win in 1968. I hope the readers of this newspaper are not naive. We are not going to have a free election in 1968.'"

Joelson further quoted De Pugh as having stated: "The Communists are winning by infiltration, subversion and psychological warfare. We must turn our enemies' own tactics against them."

Since the organization was founded four years ago "a wide variety of weapons" have been confiscated in the arrest of individual members, Joelson said.

Victory Margin Drops for State Legislator

LANSING (AP) — Official reports show Rep. Carroll Newton, R - Charlotte, winning reelection by just six votes instead of the 61 indicated by earlier unofficial tabulations, the state elections director said Monday.

Robert Montgomery said official totals give Newton 13,794 to 13,778 for Democrat Claude E. Burton of Bellevue in the 56th State House District race. Burton has indicated he will seek a recount.

Mrs. Adams Will Head Auxiliary

Officers were elected at a Sunday cooperative dinner of Oakland County Auxiliary No. 49, Veterans of World War I.

Those slated to head the auxiliary for 1965 are Mrs. Richard Adams, president; Mrs. William Jens, senior vice president; Mrs. Samuel Korvanen, junior vice president; and Mrs. John O. Gries, treasurer.

Other officers include Mrs. Otto Zander, Mrs. Allan Hersey, Mrs. James W. Chandler, Mrs. Ayers Miller and Mrs. Emmett Durphy, all of whom will be installed with other officers at the annual Christmas dinner.

A contribution was sent to purchase a new TV set for the Dearborn V.A. Hospital.

On Dec. 6 representatives will attend the fifth district meeting in Fenton.

New members of the organization include Mrs. Hayward Gullatte, Mrs. William H. White and Mrs. Thomas J. Whittaker.

New Officers Are Selected

Four new officers were selected at a recent "school girl luncheon" of the Past Noble Grands of the Pontiac Rebekah Lodge 450.

Meeting in the Rochester home of Mrs. Hazel Wegner, the group elected Mrs. Katherine Warner president.

Serving as vice president will be Mrs. Ervid Smith; as secretary, Mrs. Orry Ritter and as treasurer, Mrs. Howard Smith.

Perfect playmates from Koret of California in carefree Wonderspun Poplin; a blend of 65 per cent Dacron® and 35 per cent cotton, say "spring is the time for fun and games." Play all day in aqua, red, green, yellow, beige, black or navy. As your playmate, choose a matching boy collar shirt in easy-care plaid of Dacron and cotton. About \$9 and \$8.

Calendar of Events

WEDNESDAY

Frances Willard Women's Christian Temperance Union: 11 a.m. to 3 p.m.; Church of the Brethren; fellowship hour and luncheon; guests are welcome.

YWCA Ladies Day Out: 12 noon; luncheon and Christmas idea exchange; bring something you have made or wrapped to show; open to the public.

Waterford Township Faculty Wives: 8 p.m.; Montiel School; program by Mrs. Ted Wicke will feature a demonstration of hair styles and make-up. Teen-age daughters are also invited to attend.

THURSDAY

Anna Gordon Women's Christian Temperance Union: 10 a.m.; First Baptist Church; luncheon and business meeting.

Oakland Writers' Workshop: 1 p.m.; Pontiac YWCA; regular meeting; new members are welcome.

Marie Jones Extension Study Group: 7:30 p.m.; Cadillac Avenue home of Mrs. Robert Anderson for meeting.

Fashion Your Figure club: 7:30 p.m.; Adah Shelly Library weekly meeting, this week members will wear crazy hats.

Mrs. Glenn A. Sanford, Hickory Grove Road (left) and Mrs. H. N. Lepisto, Wenonah Drive, turned salesgirls for a day on Monday. A preview showing of gifts to be sold at the annual bazaar, sponsored by

the Women's Auxiliary to Pontiac General Hospital, was held at the Ottawa Drive home of Mrs. S. K. Sekles. Date of the bazaar in the hospital lobby is Dec. 11.

Women and Pants—Dietrich Started It

Whether or not we're ready for it, the pants explosion is upon us, and it all began in California way back in the early 30s when Marlene Dietrich

was the first well-known celebrity with the fashion know-how to wear them. They are so much a part of the world of today, with the

space age so firmly influencing our lives, that pants are something to consider seriously.

The new shapes—flare-leg jumpsuits, wider-still party pajamas, slick-cut slacks or pant suits, that are longer and straighter—are on their way to being the identifying style symbol of the "soaring" 60s.

Once felt to be the sole property of California sportswear makers, pants this year move into every fashion strata, from couture to bargain basement; from suits to lounge wear, to dresses and back again to sportswear.

They are far more heterogeneous than ever before... their use is for travel, for

sports, for entertaining at home, for working, for leisure... unlimited even to the extent that they are about to be accepted by the very "jetset" set as appropriate even for streetwear.

For shopping, if you please, they appear in broad daylight on the swankiest boulevards, in the smartest boutiques!

That low rumble of resistance that claims only a very small percentage of females have the figure for them is going to be shrugged off.

When the force for acceptance of a fashion reaches the point at which the pants craze has now arrived, one can only expect the worst, or the best of the situation.

There will be those who should that will, too.

Fashion always appears paradoxical. In California, where the pants picture is strongest, the accent on femininity is at its peak.

There is some logic to the fact that women are all the more feminine when they can wear the silhouette relegated to their masculine counterparts. But ruffles, flounces and frills are right in the picture too, on blouses and even the most casual of dresses.

Other details that are signatures of 1965 sportswear are—the touch of crochet edgings on knits—the abundance of stripes—the wonderful miracle fibers that need little attention to keep going—and the colors that are bright pastels, plus the textured off-whites called "parchment."

Sail into spring in Koret of California's poplin coordinates. There's clear sailing ahead when the back-button middie oerblouse with its jaunty striped tie, mates with matching Trimmers which have Koret's famous Elastikord waistband to assure a ship-shapely shape. Go nautical in navy blue, aqua, green, red, yellow, beige or black; approximate prices \$10 and \$9. All lines available locally.

Fiery ribbons of color streak across a white shift by Alex Coleman-California. Cotton satin is fully lined. Emerald, Sapphire, Topaz on White; sizes 8-18; \$16.

White Stag's hipdrier beach pants are slightly flared at the bottom. Made of horizontal stretch Oxford cloth, they come in pastels; sizes 8-18; price \$9. The reversible midrifter has a foldover zipper closed collar that can be a turtle neck or a deep V; colors match pants; sizes S-M-L; price \$4.

Go to Party or Offend Neighbors

By The Emily Post Institute

Q: Our next door neighbors will be celebrating their 25th anniversary shortly and my husband and I received an invitation to a party they are giving at their house to celebrate the occasion.

While we have known these people a long time, we have never considered them intimate friends, and we really have nothing in common with them.

I would like to know if it would be rude to decline this invitation. Neither my husband nor I care to go to this party.

A: Unless you can truthfully say that you will be away on that date, I'm afraid your neighbors' feelings will be deeply hurt if you don't go to their party for at least a little while.

Q: I have been invited to attend a memorial service for the husband of a friend of mine. I would like to know if it is necessary to wear black to this service.

A: It is not necessary to wear black but you should choose clothes that are dark and inconspicuous.

Who pays for what at the wedding? The Emily Post Institute booklet entitled, "Wedding Expenses," answers this question in detail.

To obtain a copy, send 10 cents in coin and a self-addressed, stamped envelope to Emily Post Institute, in care of The Pontiac Press.

Area Hostesses Handle Overflow

A number of area women opened their homes for cards in conjunction with the benefit party recently sponsored by the Women's Association of the Pontiac Symphony Orchestra.

Hosting overflow parties were Mrs. A. R. Dodge, Mrs. J. A. Forman, Mrs. Clare Scriven, Mrs. A. L. Pierce, Mrs. J. W. Ryan and Mrs. J. Standish Sibley.

It's Her Choice, So Mail the 'Facts of Life' Book

By ABIGAIL VAN BUREN

DEAR ABBY: My husband's mother is getting on in years, but she still enjoys shopping personally for all of her grandchildren's Christmas gifts.

She starts in October. She sends the gifts directly to me, and I do all of her gift wrapping and mailing.

A bby, she selected a book (I suppose you would call it a FACTS OF LIFE book) for her 14-year-old grandson.

I looked through it, and it explains how he grew from a little seed that was planted under his mother's heart!

Abby, you know very well that a 14-year-old boy would have a laughing fit if he ever got a book like that.

Should I tell Nana that the book is too juvenile for him?

My husband says to send the book and keep my opinions to myself. Who is right?

MRS. D.: Your husband. Send the book.

DEAR ABBY: My daughter is 15. Two of her girl friends have made a habit of coming home with her every night after school and staying until it is time for us to eat supper.

They make remarks such as "Gee, that smells good!" And, "Well, guess I'll have to go home and fix myself a cheese sandwich for supper."

The mothers of both these girls work, and they are expected to get their own evening meals. I haven't the heart to send them home, but you would think they would have sense enough to go without being told.

I wouldn't mind feeding them once in a while, but I can't afford to feed them both every night. What should I do?

ON A BUDGET

DEAR ON: These girls are your daughter's friends and it

is up to her to tell them in a nice way that they cannot stay for dinner every night.

If you explain it to her gently and without anger she can tell them in the same spirit and there will be no hurt feelings.

DEAR ABBY: I just don't understand people. Or maybe it's just me, but what do you think about having a big party to celebrate a couple's wedding anniversary when one of them has been dead for two years?

Some friends got together

Inspection Set

Auxiliary 1008, Veterans of Foreign Wars will meet Wednesday in the American Legion hall for a regular meeting and annual inspection.

The W. Claude Langs of Lilac Court, West Bloomfield Township, announce the engagement of their daughter Mary Frances to Lt. Michael Irvin Miller, son of the Irvin Millers of Golfside Drive, Commerce Township. She attends Eastern Michigan University. Her fiancé, a graduate of the U. S. Air Force Academy, Colorado Springs, Colo., is stationed at Craig AFB in Alabama. A July wedding is planned.

Many Guests for Teachers

A number of guests traveled to Consumers Power Company for a "Tis the Season" food demonstration recently.

Guests of the Teachers' Exchange club included Norris Smith, Mr. and Mrs. William Bawden, Eileen Purcell, Mrs. John Outen, Jeanne Hahn, Mrs. Mae Oshel, and Mrs. Ross McFarland.

Other guests were Mrs. Bradford Smith, Mrs. Albert DuBruck, Mr. and Mrs. Frank Williams and Mrs. Karl Kutz.

Club Meeting

The Sylvan Shores Drive home of Mrs. C. I. Humphries was the setting for the Monday meeting of the Sylvan Shores Women's club.

Mrs. Walter Steiner and Mrs. John Gottschalk served as hostesses at the meeting which included the sewing of cancer pads.

Trip North Taken by Newlyweds

In northern Michigan for their honeymoon are the Samuel P. Troutwines (Sandy Kay Rochoon) who were wed Saturday in St. Vincent de Paul Catholic Church.

Cascading white carnations complemented a gown and train of white peau de sole touched with Alencon lace, for the daughter of George W. Rochoon, 100 Lincoln Street and the late Mrs. Rochoon.

Her elbow-length veil of illusion fell from a floral headpiece.

ATTENDS SISTER

Deborah Rochoon attended her sister as bridesmaid along with Catherine Amman, Brenda Moesely, Linda Schafer and Mary Sommer. Joan Klinkhamer was maid of honor.

The bridegroom, son of the Willard S. Troutwines of Pine Street, Orion Township, had James Ball for best man.

Seating guests were James Hobbes, Robert Martin, Robert Sweeney and Louis Verelle.

Breakfast at the Green Parrot followed the ceremony performed by Rev. Thomas McGrath. The evening reception was held in the Oxford Knights of Columbus club rooms.

Pocketbook Magic for Little Miss

Your little miss likes nothing better than an old purse filled with empty small cosmetic boxes, bottles and jars. She will stay busy for quite a while just opening and closing them and rearranging them in a purse which is just like mommy's.

'Narcissistic' Type Only Sees Own Needs

By MRS. MURIEL LAWRENCE

A patient telephones a doctor for a nonemergency appointment. Says the doctor, "I am too busy to see you until next Monday. What time would you like to come?"

The patient ignores both statement and question. What he replies is: "I am only three blocks away from your office."

"I could get there in five minutes from where I'm phoning."

So far as this patient is concerned, the doctor and his life are things you put away into the refrigerator when you don't

need them and take them out again when you feel a need for them.

In his new book, "The Heart of Man," psychoanalyst Erich Fromm gives us this story as an example of what he and his colleagues call "narcissism"—that blindness to anything but our own needs and wishes which is named for the Greek boy Narcissus who fell in love with his own reflection.

If we are involved with a "narcissistic" person, we simply cannot expect him to remember that we live any life apart from his need of us—a point I make for a daughter who writes, "My mother is in a mild heart attack."

"As I have three young children, I can only visit her every other day. But when I telephone her on the days I can't visit her, all I hear is about how

lonely she is and why couldn't I come."

"If I do not spend the whole afternoon with her, she cries. Her doctor says that this is due to her weakened condition."

HOW STRONG?

It certainly is a weak condition. And I don't know how strong you are. So I don't know whether you can handle the Narcissus in your mother.

I don't think you are sure you are entitled to live your life as a wife and a mother as well as your life as the child of a woman in hospital. If you were sure, there'd be no problem, would there?

To your mother's insistences that you live no life but the one you spend with her, you'd have long since learned to say, "I have to go now."

Narcissistic people are retarded people. They still live in the

Local Bride Picks Gown of Velvet

Doris Elaine Hawkins chose a chapel-length gown of white chiffon velvet for her recent marriage to Billy Junior Myers in the Columbia Avenue Baptist Church.

A French illusion veil and flower-topped white Bible completed the ensemble for the daughter of Mr. and Mrs. Oris Hawkins of Putnam Street.

With maid of honor Shirley Christensen, were bridesmaids Bonnie King and Edith Myers.

Attending the bridegroom, son of Mr. and Mrs. Stanley Myers of Highland, were best man Calvin Prince and ushers Charles Moore and Denny Violet, all of Highland.

A reception in the church social hall followed the 5 p.m. ceremony performed by Rev. Clarence B. Jackson.

MRS. B. J. MYERS

MRS. G. S. SCHLICHT

Honeymoon Is Taken in New England

The Gayle Stanley Schlichts (Mary Ann Kennady) wed, recently in the Oxford Methodist Church are en route to the New England States on their honeymoon.

RECEPTION

A reception in the Oxford Methodist Education Center followed the evening ceremony performed by Rev. Fred Clark.

White peau de sole with Chantilly lace overlay fashioned the chapel-length bridal gown for the daughter of the Carl Kennadys of Ortonville.

She wore an illusion veil and carried white roses and Stephanotis.

Attending their sister were Mrs. William Thompson, Lake Orion, as matron of honor, with Mrs. William Killian of Clarkston who was a bridesmaid.

BRIDESMAIDS
Linda Schlicht and Carol Kelley of Holly also were bridesmaids and Patti Killian, flower-girl.

Gary Schlicht stood as best man for his brother. They are sons of the Stanley Schlichts of Oxford. Ushering were Gerald Dodds, Oxford; William Thompson, William Killian, Edward Kennady and David Schlicht.

Electric Fan Always Runs

A new electric fan operates without bearings, to give what the manufacturer calls a "perpetual motion" to its operation.

The fan shaft rotates in air and not against metal or ball bearings, can operate at almost any speed, and will work through a tremendous temperature range.

To Discuss Book

The conclusion of a history of the Poloponnesian War will be the topic of tonight's 8 o'clock meeting of the Waterford Great Books group.

Meeting in the CAI building, the group will hear Mr. and Mrs. K. B. Valentine discuss the work by Greek historian Thucydides.

White Satin Bows Mark Family Pews

White satin bows marked family pews for the recent vows of Brenda Joan Abell to Gary Wayne Falls in the Church of God.

Reception in the First Federal Savings and Loan of Lake Orion followed the candlelight rite performed by Rev. Alfred Lowe.

COUPLES PARENTS

Parents of the couple are the Joseph M. Abells of Fairledge Road, Orion Township, and Mr. and Mrs. Arthur E. Falls of Shimmers Road.

White satin fashioned the bride's gown and train worn with bubble veil of illusion and her maternal grandmother's heirloom cameo necklace. Her bouquet was white roses and carnations.

Sharon Pennington was a maid of honor; Vera Wilson, bridesmaid and Jeanette Moore, flower girl.

Attending the bridegroom were Dave Vorce, best man,

with Cris Grice, groomsmen. Gregory Abell and Ronald Forrit seated the guests.

The couple will live in Lake Orion.

MRS. GARY W. FALLS

PTA's in Action

MALKIM

Three Pontiac lawyers will conduct a symposium on "The Legal Responsibilities of Parents" at the 7:30 p.m. meeting.

Participating are Leonard Peres, Robert Carr and Emery Jacques Jr.

MARK TWAIN

A program on human relations will be presented at the 7:30 p.m. gathering in the multipurpose room. A clergyman, a representative from the Urban League and a teacher will present the topic.

WEVER

Open house will precede a short business meeting at the 7:30 p.m. gathering.

BUD GUEST

Edgar A. Guest Jr., (Bud), son of the poet-philosopher and radio commentator in his own right, will speak at the 7 p.m. Thursday meeting of Owen School PTA.

A graduate of the University of Michigan, Guest has worked in the newspaper and radio business. He has been a reporter, radio editor, assistant city editor and feature writer.

He currently has a Monday-through-Saturday morning show on WJR and a brief Sunday program.

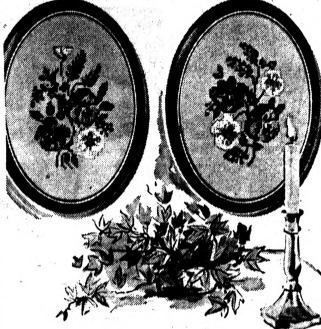

At the meeting in the school's multipurpose room, Guest will speak on "The Sunny Side of the Street."

Four other Pontiac district schools will hold Thursday meetings.

BETHUNE

Dr. Harvey Burdick, associate professor and chairman of the Oakland University department of psychology, will speak on the "Role of the Parent as an Image of Future Generations" at the 7:30 p.m. meeting.

An open house, starting at 6:30 p.m., will precede the gathering which will also feature a report of the recent convention of the Michigan Congress of Parents and Teachers.

Needlework Kit

Pansies Are Colorful

Here's an especially lovely kit that is the best needlepoint value available and that will give you great pleasure.

Pansies for remembrances, making up the two floral motifs, are already worked by needlepoint experts in shades of blue, lavender, purple, white, gold, orange, rose, red, green and beige.

All you have to do is fill in the background to make the flowers bloom. This is done with the half cross-stitch which is the easiest of all needlepoint stitches. Soft beige pure wool yarn for the background is included in the kit with the proper tapestry needle.

The canvas size is approximately 10 inches by 12 inches to be filled in with needlepoint to size 8 inches by 10 inches. There are two different pansy motifs in this kit to make a pair of pictures you will treasure.

You can purchase oval or oblong frames for them.

Or you can use them for a pair of pillow tops by adding boxing and backing of felt or velvet in a color to harmonize with one of the pansies or to match the background yarn.

Kit 31A, including both pansy motifs, is priced at \$3.99. The two motifs are not sold separately.

To obtain Needlework Kit 31A, fill out coupon below and send it with a \$3.99 check or money order for each kit desired to Needlework Kit Service at address given.

Mail your order and remittance to:

State President Instructs New Pledge Group

Mrs. Lawrence Hartman of Clarkston, state president of Epistol Sigma Alpha International Sorority, was guest speaker at the annual pledge tea of Beta Mu chapter Sunday.

The history of the sorority and the obligations and duties of the pledges were discussed. Pledges include Mrs. Wayne Copeland of Orchard Lake and Mrs. James Johnson of Clarkston.

Chapter president Mrs. John Keller opened her Bloomfield Hills home for the tea with Vern Love and Mrs. Lawrence Hartman pouring.

Tick in Time Stops Hurry

An alarm clock is one of the best "safety devices" for any household.

If the alarm is set to go off early enough, many "hurry hazards" can be licked.

Enough time to wash the breakfast dishes carefully can prevent broken glass and cut fingers.

Enough time to mop up kitchen spills can prevent falls. Enough time for a morning bath all around can prevent tension and safeguard family health.

Plans Wedding

A Jan. 2 wedding is planned by Winifred M. Smelser, daughter of the W. E. Smelters of Halstead Road, West Bloomfield Township and Michael E. Lachenbach, son of the Earl S. Lachenbachs of Liverpool Street, Avon Township.

Her fiancé attended Lawrence Institute of Technology and Oakland University.

Accessories Wild for Winter

Off-beat ideas in warm-and-washable accessories hit a new high this winter, starting with jaguar-print gloves in fluffy synthetic knits.

Other front runners are waffle-treated mittens fringed around the edges, and "baby doll" sets of mittens on a neck-cord plus tasseled bonnet—designed for dolls who aren't babies any more.

Zany or otherwise, all of these are safely hand-washable in warm soap or detergent suds.

Donned Bridal Veils

SOMMER—MORAN

HORON-DRAKE

GRAY-MILTON

Teresa Elaine Moran and Larry Ernest Sommer were wed recently in St. Joseph Catholic Church, Lake Orion. Their parents are the Donald L. Morans of Dartmouth Road, Independence Township, and the Ernest M. Sommers of Lake Orion. The bride wore white Rochelle lace over tulle and illusion veil with lace pillow. Attendants included Rosemary Ryan, Paula Moran and Sharon Sommer; Mark Moran, Robert Sommer and David Wotton. Reception in the First Federal Savings and Loan of Lake Orion followed the ceremony performed by the Right Rev. Magr. Arthur Karey.

Linda Genevieve Drake became Mrs. Gary Joseph Horon, Saturday morning in St. Michael's Catholic Church. Her gown of white satin brocade was styled with coachman's bustle and chapel train. A satin crown caught her illusion veil. Parents of the couple are the Herbert M. Drakes of North Perry street and the Joseph Horons of East Auburn Road, Acon Township. Attendants were Mrs. Alfard G. Bloomfield, Leona Drake and Frances Malsack; Alfard G. Bloomfield, John Drake and James Drake. The V.F.W. Hall in Disco was the setting for the reception.

Nancy Eudora Milton of Henry Clay Avenue and Webb Gray Jr. of Lake Street were wed before Elder Major J. Watkins, Saturday, in the Church of God. Their parents are the Louis Miltons, Fisher Avenue; Webb Gray, Cleveland, Ohio and the late Mrs. Gray. French lace accented the bride's white pean taffeta gown. Attendants were Mrs. Robert Bell, Mrs. Johnney Morton, Mrs. Robert Hardman, Mae Milton, Mrs. Jack McGowan and Roxanne Hardman; Aumon Woods, Johnney Morton, Homer McCarley, Earey Christman, Charles Milton, and Anthony Milton, ring-bearer.

Two Girls Are Active at College

Mary J. Thornton, daughter of the Aden Thorntons of Crocus Street, has been pledged this semester to Chi Sigma Nu social sorority on the Alderson - Broadbush campus.

Their current service project is to provide trays favors for Broadbush Hospital for all special occasions and holidays.

Miss Thornton, one of seven pledges this term, is a sophomore, majoring in biology at the Baptist liberal arts college in Philippi, W. Va.

WELLESLEY
Joan Grace McDonald of Timberlake Road will be the student leader of the morning chapel service at Wellesley College, Wellesley, Mass. on Wednesday.

Twice each week an outstanding upperclassman conducts the 15-minute non-sectarian service in Houghton Memorial Chapel on campus.

Miss McDonald, a senior majoring in political science, is the daughter of the Howard C. McDonalds.

Luxurious Look Plain Practical

As soon as you grow accustomed to many "faces" of new pile fabrics, even newer ones come along.

This season's pile robes feature flower prints and double fluff—inside and outside.

Another variation is the quilted robe with synthetic "fur" pile collar and cuffs. While the look is luxurious, the care is "plain"—with help from a washer and soap or detergent suds.

Foil the Small Ones

A wide rubber band placed around the cradle of the telephone will hold the receiver on it if there are small children in the home who might play with the telephone and then leave the receiver off the hook.

The band is easily slipped off and back on when an adult wants to use the telephone.

Cello Recital Set Friday at OU

A cello recital will be presented 8:15 p.m. Friday in Oakland University's Little Theatre.

Performing will be Jerome Jelinek, University of Michigan cellist and member of the music school faculty. A cellist for the Stanley Quartet, Jelinek has presented his music at concerts throughout Germany, England and the United States.

The former member of the Detroit Symphony Orchestra began the study of the cello in Detroit under John Lewan. His studies continued at the U. of M. where he received his bachelor's and master's degrees.

He left the Detroit area to enter the service in 1953 and subsequently became cellist

for the U.S. Naval Academy String Quartet.

RECEIVES AWARD

During this time, he studied in New York City with cellist for an admission charge.

His performance, part of the OU concert - lecture series, will be open to the public.

Longi Silva. As recipient of a Fulbright Award in 1956, he studied in England where he won the Harriet Cohen International Music Award in cello.

Baked-On Apples Are No Problem

Do you dread washing pans in which apples have been baked? You don't have to.

Instead, wrap each apple in aluminum foil that has been fashioned into a cup.

When the baking is over, slip the apple out to a serving dish without any mess.

Here's New Use for Old Blankets

Baby's used blankets that are no longer needed can be covered with a pretty material and used as throw pillows. If a need for the blankets arises again, simply rip open pillow and remove them.

Posture Always Important

By JOSEPHINE LOWMAN

Good posture is important to every woman and particularly to the pregnant woman. If the pelvis is not correctly balanced and posture as a whole is poor this places strains on ligaments and muscles. During pregnancy these are already subjected to unusual stress.

You all know what the "pregnancy walk" looks like. It usually waddles a bit and the shoulders and hips are thrown back.

As the abdominal muscles become more weakened by stretching this tendency to swayback increases. This causes fatigue and may cause backache.

Of course the woman who is expecting a baby should wear low-heeled shoes most of the time.

High heels throw the body

even more off balance and then there is more danger of a fall when wearing them.

It is important that you watch your posture carefully. You will find this position restful so assume it several times daily. Lie on the bed on your back.

Bend your knees and place your feet flat on the bed. In order to get the feeling of correct posture do this several times a day. It will act as a reminder.

Stand with your back to the wall, shoulders and hips and head touching. Bend your knees and slide your shoulders and hips and head down the wall about six inches. As you do so touch the small of your back against the wall.

Hold for a few minutes, straighten legs and slide back

up the wall. Do this several times.

I receive many letters from readers asking how soon they can begin exercising to get their figures back after the baby arrives. The usual rule, when there are no complications, is six weeks after delivery.

I am speaking now of quite strenuous exercises. Today many doctors give the green light much sooner.

However, no exercises should be undertaken without a doctor's permission. Each case is different.

If you would like to have my leaflet "Care During and After Pregnancy" send a stamped, self-addressed envelope with your request for leaflet number 21 to Josephine Lowman in care of The Pontiac Press.

To Match Record of 88th

Congress: What Can We Do?

(EDITOR'S NOTE—Following is the first in a series of dispatches exploring chances for President Johnson's legislative program in the new 88th Congress.)

By FRANK ELEAZER

WASHINGTON (UPI)—Democratic congressional leaders think the last Congress was great. They believe the voters do, too. So much was done in that Congress in fact that the big leadership problem now is what to do for an encore.

The 88th Congress enacted a sweeping civil rights bill. It set up an antipoverty program. It voted money to help big cities attack their mass transit crises. It enacted the biggest tax cut in history.

And these were merely the big ticket items among scores of less publicized measures.

"So what can we do in the 88th Congress to match a record like that?" wondered one key Democrat interviewed on the subject. "We just can't look as good this time as we did last."

This is in spite of the fact that Democrats control the new Congress by a much bigger majority than they did the old.

EXTRA SEATS

In the landslide election of President Lyndon B. Johnson, Democrats netted 38 extra seats in the House and 2 in the Senate, for lopsided control of both chambers.

One theory is that Johnson now ought to be able to get pretty much what he wants from the Congress. Whether or not this is so — and there is some historic evidence to suggest it is not — the question is, what remains to be done?

President Johnson obviously wonders about this too. That's why he has panels of expert advisers at work on recommendations that may wind up in his still undetailed "Great Society" plans.

So far the only big splashy vote-getter party leaders can think of is Medicare for the aged. This is an oldie but it got lots of favorable mention from Democratic candidates in the recent election and there is every indication now that it will be rushed through the 88th Congress.

LIMITED CARE

Basically, it would provide limited hospital and nursing home care, under the Social Security program, for persons eligible for old age benefits. In previous congresses, opponents always managed to stop it.

Another tax cut ought to be a popular item, and no doubt it will be high on the priority list. This time it won't be income taxes but repeal of so-called excise or sales taxes on luggage, jewelry, cosmetics, ladies' handbags and furs.

Johnson already has proposed going this far. When Congress gets into the question, the door will be opened of course toward reducing or ending excise taxes on scores of other products,

from convertibles to piccolos and badminton nets.

The leaders think something will have to be done this time about amending the immigration laws. This is important — especially to immigrants — but has little appeal to the general populace.

QUOTA SYSTEM

The administration's idea is to start getting away from the 40-year-old quota system based on national origins of the people already here.

Also high on the legislative agenda is a package of economic pump-primers calculated to bring depressed mountain and city areas into the mainstream of a prosperous economy.

As proposed so far, all these anti-depression measures are leftovers from the 88th Congress, where big hunks of the package were approved by the Senate but left to die in the more conservative House.

The President wants to spend \$1 billion or so building roads and other such public works necessary to open up the isolated Appalachian mountain areas for private economic development.

To sell this 11-state measure to lawmakers from the other 38 states, the leadership figures out now to tie it up with a renewed

depressed areas program (\$455 million) for economic development of cities and towns with high unemployment levels; and another big dose of "accelerated public works" money-matching federal grants (\$800 million) for local construction of water works, sewers, and other community needs.

Something new — or at least more of the same — will have to be done about farmers. So far nobody knows what. The big new Democratic majorities don't necessarily ease the pain or working this out, either.

Another new item almost sure to be on the list is repeal of a controversial Taft-Hartley provision under which states can ban union shops.

Labor interests are hot for repeal of these "right to work" laws. And their voices will be readily heard in the 88th Congress.

Complicating the whole legislative process is a question as to what the election actually proved. Some members think the voters were opting for more of everything. Others think the decision was more against repeating what has already been done.

Next: Economic Development

Officials Will Discuss Nuclear Emergency

LANSING (AP) — Some 55 representatives of medicine, government and industry will meet Wednesday to discuss medical aspects of nuclear fallout and the transportation industry's preparations for a nuclear emergency. They will meet aboard a Grand Trunk Western railroad train equipped with one of the railroad's new "hospitals on wheels."

Specialists to View Job Compensation

LANSING (AP) — Specialists on workmen's compensation will discuss Michigan's workmen's compensation program and possible amendments to it Jan. 11 at a statewide workshop for businessmen.

The speaker's list includes Weldon O. Yeager, director of the Michigan Workmen's Compensation Department; Rep. Riemer Van Til, R-Holland, co-chairman of the Joint Interim Workmen's Compensation Study Committee; Zoltan Ferency, Democratic state chairman and former director of the Workmen's Compensation Department; and H. D. Stott of Calumet, chairman of the Michigan State Chamber Workmen's Compensation Committee.

Win or Lose, Politicians Are Criticized

By RUTH MONTGOMERY
WASHINGTON: The sad fact about running for political office in America is that, to quote an old saw, "You're damned if you don't and damned if you do."

Seldom has this bitter truth been more apparent than in the aftermath of the election just ended. In our winner-take-all philosophy of government, the loser naturally feels the brunt of the attack. MONTGOMERY but even the victorious candidate does not escape unscathed.

Because defeated GOP presidential nominee Barry Goldwater conducted his campaign on a pay-as-you-go basis, refusing to run the party into debt, those who are after his scalp accuse him of a darkling, sinister plot.

41 Cubans Flee Castro Forces; Arrive in Florida

MIAMI, Fla. (AP) — Forty-one refugees from Red Cuba have arrived this week, the first large contingent to make it in a month.

The new refugees included: Twenty-four in a hijacked fishing vessel. Fifteen in a boat picked up by a freighter and taken to Key West.

Two who flew a Soviet-made crop-duster plane to Key West. Escapees reported that increased civilian vigilance by Premier Fidel Castro's forces make it "very, very difficult" to flee.

Sen. Hugh Scott, who absented himself every time his party's standard-bearer went to Pennsylvania, has told newsmen he's certain that such a surplus "was intended to keep the radical right in control of the Republican party."

Instead of praising Goldwater for becoming the first presidential candidate in modern times to finish his campaign in the black, some disgruntled Republicans now call it "hoarding."

PARTY'S BACKLASH
Had President Johnson lost instead of winning by a landslide, he would also be feeling his party's backlash. Throughout September, Democratic party chieftains gnashed their teeth because LBJ did not get out of his rocker and start campaigning.

When he finally took to the hustings in his own inimitable style, wading headlong into massive crowds and emerging with bleeding hands, the gnashing reached a crescendo. He was "debasing the dignity of the presidency," and deliberately risking assassination."

If LBJ had lost, it is easy to imagine the kind of party abuse that would now be heaped on his head.

For one thing his campaign finished in the red, as is traditional. The exact amount is not yet known, but public relations director Sam Brightman of the National Committee says: "We owe more money than we have available to meet the rent, payroll and other necessary expenditures."

Goldwater, who for years had been addressing fund-raising dinners to help pay off similar indebtedness from the Eisenhower and Nixon campaigns, flatly instructed his party treasurer

this year to spend more than he took in.

Now he is being knifed for his efforts. Had he won, he might have been hailed for his "fiscal responsibility."

Republicans are also jumping on their former titular leader, Richard M. Nixon, for suggesting that those who refused to work for the party ticket should not now expect to take over control.

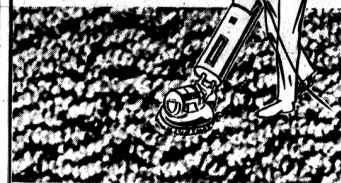

Goy. Nelson Rockefeller, while declining to endorse Goldwater, did introduce him at an Albany rally where he publicly declared: "Whenever the party needed Barry Gold-

water, he was always there, helping to elect Republicans whether he agreed with their particular philosophy or not." The same cannot be said of some others.

Commencement speakers regularly urge starry-eyed graduates to "get into politics and serve your country." The diatribes which are unleashed on politicians are not, however, conducive to such a course.

Until Americans can devise a way to take the dog-eat-dog brutality out of elective office, it is unlikely that our brightest minds will be attracted to so-called government service.

Sees Repair of Ferry as Good Sign

LANSING (AP) — The chairman of the Michigan Public Service Commission said Monday he hoped the decision to repair the Mackinac Straits railroad ferry would lead to withdrawal of railroad abandonment requests.

The decision on repairs was announced by three railroads Friday at hearings on their request to abandon ferry service, and on requests by two of the three to abandon some 280 miles of track in northern Lower Michigan.

MPSC Chairman Peter B. Spivak said, in view of opposition to the abandonments by the state and citizens groups, he was encouraged to believe the railroads would withdraw their abandonment petitions and work with government and private sources to "stimulate an environment in which both the state and the railroads would profit."

The case still is before the Interstate Commerce Commission. An attorney for one of the railroads said the repairs are intended to keep the ferry running while the hearings continue, and after the hearings, "no one knows what will happen."

Named Superintendent

COVERT (AP) — Jerome A. Shumate, 49, who has served seven years in administration of Port Hope Community Schools in Huron County, was appointed Monday as superintendent of schools in this Van Buren County community. He succeeds Clayton Symons who left for a similar post at Milan.

White Troops Prepare to Assault Stanleyville

Base Set Up in Congo Town

KINDU, Congo (AP) — Premier Moise Tshombe's white mercenary army has set up a base in this North Central Congo rebel stronghold of Stanleyville. There is no definite indication when the attack on rebel leader Gaston Soumialo's headquarters, 250 miles to the north, will come.

"Much depends on the weather," said one mercenary officer. "Rain is our great enemy and this country favors the rebels and their guerrilla tactics."

"If we get bogged down on the road we could find ourselves in real trouble."

Many white mercenaries believe the main attack on Stanleyville will be launched Thursday. Command officers would not comment and it appears more likely that supply and transport problems would delay the drive until at least next week.

WHITE VOLUNTEERS

The mercenary forces, mostly Belgians, South Africans and Britons, are preparing their equipment for the push on Stanleyville.

Steel sheeting seized from a local factory is being bolted to trucks as makeshift armor. Captured rebel machine guns have been mounted on battered jeeps.

Communist Chinese arms have been found among supplies taken from the rebels. Ammunition cases bore Chinese characters. Red China is backing the rebels of the Eastern Congo.

U. S. Air Force C130 Hercules freighter planes fly almost daily into Kindu from Leopoldville with supplies for the central government army.

COPTER PATROLS

American helicopters piloted by Belgian crews make hourly patrols over the Kindu area. U.S. troops guard the aircraft at Kindu airport.

AP Photo/...

CLEARING ROAD — White mercenaries, spearhead of Congolese government troops battling their way toward the rebel stronghold of Stanleyville, attack a rebel-held position on the Kindu-Stanleyville Road today. Stanleyville is about 250 miles north of this position, and the government troops hope to move forward in the next break in the weather, expected next week.

Big Decision Confronts Girl

Stay in U.S. or Join Parents in Poland

HARTFORD, Conn. (AP) — A flaxen-haired Polish girl must make a tough decision for a 13-year-old: rejoin her parents behind the Iron Curtain, or stay in the United States.

The girl, Henia Wysocki, slipped away from home and hid in a barn last Wednesday when her parents left for Poland via Montreal.

"I don't want to go back," she said when found. By then her parents had reluctantly sailed aboard the Polish liner Batory without her.

But Monday a cousin said: "She would like to be back with her mother and father. I don't know how she'll decide."

Her parents, Leon and Jadwiga Wysocki, were unable to adjust to life in the United States.

For two days and two nights, Henia remained in hiding, nibbling on doughnuts and candy.

The parents, who had spent \$2,000 for passage for themselves and their daughter, left word they would, work through the U.S. Embassy in Poland for her return.

"I don't want to go back," the child told a reporter. "I like it so much here. I have no friends in Poland. I would not have as many things, as many privileges."

But she would have her parents. Her cousin, Henrietta Clapp, said Henia believed that immigration officials would send her back to them.

PERMANENT

James E. Smith, district director of the Immigration and Naturalization Service, said Henia is classified as a permanent resident and may remain in the United States for as long as she likes.

Mrs. Clapp said she believes the child should return to Poland. Henia is staying with her at the Clapp home in nearby Bloomfield.

CAME WITH PARENTS

Henia came to the United States with her father and mother three years ago. Two other children had died of muscular dystrophy in Poland.

Henia adjusted to her surroundings, relatives said, but her parents were unhappy. Her father worked as a landscaper, her mother was a cleaning woman. Together they saved enough money for passage back to Poland and arranged to buy a home near Warsaw.

Today in Washington

AEC Records Underground Soviet N-Test

WASHINGTON (AP) — The Atomic Energy Commission announced Monday it had recorded seismic signals from the Soviet nuclear test area which apparently indicated an underground nuclear test.

"The AEC's terse announcement said the signals came from an 'event' in the Semipalatinsk region. Later an AEC spokesman said: 'The absence of acoustic signals indicates it (the shot) happened under ground.'"

In reply to questions, the spokesman said that other seismic signals have been recorded at various times since the limited nuclear test-ban treaty was signed last year.

The treaty bans nuclear test-

ing in the atmosphere, under water and in space but permits underground tests.

WASHINGTON (AP) — Assistant Secretary of State William Bundy expects a decision on U.S. Far Eastern policy to be made within the next few weeks.

Bundy, assistant secretary for Far Eastern affairs, said Monday that while the basic situation in Southeast Asia has not changed as a result of the recent U.S. election, one thing has changed: the mandate given President Johnson.

Bundy spoke to a meeting of the Women's National Democratic Club.

Pointing to principles affirmed by Johnson for the Far East, Bundy mentioned the basic U.S. aim of peace and the

struggle for it. "There can be no doubt of our determination to see it through," he said.

Bundy said the United States would continue to play a major role in the Far East.

He criticized French proposals to neutralize Southeast Asia as "inoperable" because they call for total withdrawal of Western military forces.

WASHINGTON (AP) — State Department press officer Robert J. McCloskey, asked about reports Indonesia will explode a nuclear device next year, said Monday that he had no such information.

He pointed out that a small atomic reactor, Indonesia received from the United States is "incapable of producing materials for weapons."

The reactor was obtained from the United States under a 1960 agreement and became operational last month.

If Indonesia has ambitions to go into the atomic weapons field, the reactor would not help, he said.

Johnson to Get Bird

—for Thanksgiving Day

CHICAGO (UPI) — The nation's poultry raisers planned to give President Johnson the bird today at a White House ceremony.

The National Turkey Federation and the Poultry and Egg National Board will present the President with a traditional Thanksgiving Day turkey — a broad-breasted bronze gobbler from the Ray Thompson Turkey Farm at Ellsworth, Iowa.

AP Photo/...

SPRINT ON DISPLAY — The Army is displaying a full-scale model of its advanced antimissile missile, the Sprint, at the opening session of the Association of the United States Army meeting yesterday in Washington. The cone-shaped missile has not been tested. It is 27 feet long and 4 1/2 feet in diameter at its base.

Bellboy Loses Job After Foiling Thug

NEW ORLEANS, La. (AP) — It started when 15-year-old Paul D. Anthony telephoned the motel where he worked as a substitute bellboy.

Paul, at home, was talking to a room clerk, Joseph F. Gillin, Sunday when a man entered the motel office.

"Hold on," said Gillin, putting down the phone.

The next thing Paul heard Gillin say was, "Please don't kill me."

"He repeated it, 'Please don't kill me,' and I hung up and called the police," said Paul.

Then he ran for the motel, about a block from his home.

Needs 1 Vote to Tie 'Game'

MINEOLA, N.Y. (AP) — "All I need is one, and I'm back in the ball game," says lawyer Frank X. Altamari, challenging a board of elections count in a Long Island judgeship contest that made him the loser by one vote.

"After all, what makes a home run?" said Altamari. "Just an inch one way or the other, right?"

Official figures announced by the bipartisan Nassau County Board of Elections Monday gave 53,371 votes to Julius R. Lippman, Democratic-Liberal party candidate in the Nov. 3 election, and 53,370 to Altamari, a Republican.

REVIEW COUNT

Altamari, 36, of Westbury said he would ask a State Supreme Court justice to review the count of many challenged ballots.

Lippman, 62, of New Hyde Park said: "I'll take it by one vote." But he said he did not blame Altamari for appealing because "I would probably do the same thing under the circumstances."

The job at stake is a six-year term, at \$25,000 a year, as district judge in the 3rd Judicial District of Nassau County.

An unofficial count on election night made Altamari the winner by 46 votes. An unofficial check by the Democrats a week later cut Altamari's margin to 11.

ABSENTEE BALLOTS

The total vote included about 4,200 absentee ballots.

Altamari said the tally is not official, until certified. He said the board should not have made the count public before ruling on challenges.

If the court decides to rescind the vote, 194 voting machines and the absentee ballots will have to be inspected.

Kalamazoo Family Has Twins... Again

KALAMAZOO (AP) — The Emil Pack family of Kalamazoo has a net set of twins—the third in a row.

The babies, an eight-pound, six-ounce daughter and a five-pound, 15-ounce son, arrived Sunday.

The other Pack twins are Robert and Richard, 4, and Dian and Beth, 6. They also have another daughter, Amy, 12, and a son, David, 11.

NATIONAL ASSOCIATION

ALL OFFICES OPEN ALL DAY SATURDAY
350 MILLION DOLLARS STRONG

OPEN EVERY WEEKDAY INCLUDING SATURDAY UNTIL 4:00

GENTLEMEN, WE HAVE HAD ENOUGH!

We are not against the Pressmen's Union or for the Union.

We are not against the Detroit Newspaper Publishers Association or for the Association. We are simply a group of single and separate Citizens who are concerned about Detroit, and about the fact that we have a crippled community, a community that since last July 13th has lost its right to read its daily newspapers.

We think our feelings, our reactions, to the strike are typical. We think most people will agree that THIS CAN GO ON NO LONGER.

As Citizens of Detroit and Michigan, we want our newspapers back.

As Citizens, we demand them!

THE 128TH DAY—Today is the 128th day of the newspaper strike. We have gone through two political conventions, a presidential election, the removal and replacement of the Soviet Premier, the explosion of an atom bomb by Communist China, grave matters involving U. S. Forces in Viet Nam, and a national election in England, all without our daily newspaper to spell out, picture and help us to interpret the news. Locally, worthwhile civic and charity projects that need the newspapers to enlist support have suffered. Businesses, particularly small ones that rely heavily on newspapers to bring them customers, have been handicapped. People have died, have married, have moved away, without friends even knowing it. And, at a time when we are anxious to bring new business into our state, we have, with a four-month newspaper strike, focused the attention of everyone in America on our Community in a less than flattering way. And there's no end in sight.

THE ARGUMENT—Prior to any strike, the newspapers and twelve of the fourteen unions had arrived at satisfactory agreements. The strike resulted from disagreements between the newspapers and two unions. The Paper and Plate Handlers' Union, and the Pressmen's Union.

As the strike wore on, President Johnson, Governor Romney, Mayor Cavanagh, Bishop Emrich and others pleaded for reasonableness and an agreement to arbitrate the issues (which means simply that both sides choose an impartial arbitrator or "umpire" and let him decide the issue fairly and objectively). Here are a few of the pleas made to the unions and newspapers:

"I urge in the public interest responsible and favorable action on this (the mediators') proposal by the union membership."

President Lyndon Johnson

"It is imperative that the parties be confronted with a fair and practical means of reconciling their differences. Which will end this costly and damaging deadlock."

Governor George Romney

"I think that the circumstances dictate that the technique of arbitration be used and I think at this point, unless they can settle it, I would still recommend arbitration."

Mayor Jerome Cavanagh

"This strike has gone on long enough, and, in ways hard to measure, has done incalculable harm. Since

the strike hurts the common good, harms the newspapers, throws thousands of innocent people out of work, and injures the cause of good unionism, what in the name of heaven is the sense of it?"

Bishop Richard Emrich

The Newspapers and the Paper and Plate Handlers' Union both gave evidence of a willingness to arbitrate their differences, but before it was necessary, and perhaps with a new spirit of cooperation, agreement was reached by negotiation, and the Plate Handlers are ready to go back to work.

But the real disagreement, the real deadlock is between the Pressmen's Union and the newspapers over one narrow question—whether fifteen or sixteen men should be assigned to eight-unit presses. Neither side seems willing to back down on this issue.

Therefore, a panel of Federal and State mediators suggested that:

1. The contract be signed.
2. The Pressmen return to work.
3. That the one remaining issue be studied and hopefully settled by a joint union and newspapers study committee.
4. During a six-month study, sixteen men would man the presses, as the union insists.
5. If no agreement is in sight at the end of this term, the matter would be submitted to arbitration.

To these suggestions the newspapers agreed. To these suggestions the Pressmen will not agree. And so the strike goes on, and on and on.

WHAT CAN YOU DO?—If you agree with us that Detroit's newspaper strike has gone on long enough, that the people now responsible for keeping our newspapers from us should be made to understand the strong feelings of their fellow Citizens, and feel the tremendous weight of their opinions, please let us hear from you. A phone call, a letter or a card from you, sent to the address or phone number below, will not be a vote for or against anyone—the union, the newspapers, or this committee.

It will simply say that four months without a newspaper is too long. It will simply say that as a Citizen, your patience has worn thin, and that you question the right of a few to unreasonably cause hardship to so many. It will simply say that you believe the disagreement should be submitted to study and arbitration after the papers have resumed operation.

In short, it will simply say you care.

Please call, or send your card or letter to:

CITIZENS' COMMITTEE FOR COMMUNITY AFFAIRS.

Sniper Fires at Expressway

Hits Six Vehicles,
Hurts Two in N. J.

CENTRAL ISLIP, N.Y. (AP) — Pasquale La Face was driving his station wagon in rush hour traffic along the Long Island Expressway when the bullet struck.

"I didn't know what it was," he said. "But all of a sudden I was showered with glass from the right door window."

"I looked around and saw the bullet hole."

La Face, 42, a construction superintendent of Farmingdale, N.Y., pulled off the six-lane highway and stopped behind an empty school bus and a small truck that had also been hit.

"My first reaction was anger," he said. "Then when I was sitting and waiting for the police I became frightened. It was something I'll never forget."

FREWAY SNIPER

A sniper, firing from woodlands, hit six vehicles late Monday and wounded two other persons, neither seriously.

Police closed a section of the highway for two hours, causing a large traffic jam.

They questioned several persons, including a hunter, but made no arrest.

Joseph Sadowick, 25, a laborer, of Plainville, N.Y., was riding in the rear of a truck.

SAW BULLET

"I thought a stone slipped up from the ground and struck me in the arm," he said. "Then I picked up my sleeve and saw the bullet."

Elijah Green, 38, a trucker's helper, of Bay Shore, N.Y., was grazed on a leg when a bullet pierced the door of the truck in which he was riding. "I heard a crack in the door and my left leg started to burn," he said.

Reelected to Post

ST. LOUIS, Mo. (AP)—U.S. District Judge Theodore Levin of Detroit was reelected a vice president of the Council of Jewish Federations and Welfare Funds at its annual convention here Sunday.

Louis Stearn of South Orange, N.J., was reelected to a third term as president.

AP Photos

PLEADS FOR FUNDS—U Thant (center), secretary general of the United Nations, is shown as he opened the annual pledging conference yesterday for the U. N. special fund and technical aid program with a plea for

more money. Flanking Thant are David Owen, executive chairman (left), and Robert Huetermatte, associate managing director of the special fund.

U.S. Withholds Pledge to U.N. Funds

UNITED NATIONS, N.Y. (UPI)—The United States withheld its annual pledge to U.N. assistance funds yesterday despite a plea from Secretary General Thant. The action was a warning to the Soviets to pay up their U.N. arrears.

Ninety-two countries pledged a total of \$71.7 million to special fund for development projects and the expanded program of technical assistance, but withheld the pledges of the United States and Britain, the funds fell nearly \$80 million short of their \$150 million goal.

The financial developments overshadowed a Security Council meeting on the Israeli-Syrian border clashes.

Thant opened the conference with a statement stressing that "the U.N. work of peace-building, through activities that promote economic and social progress, is no less important and pressing than diplomatic, political, and constabulary activities aimed at peace-keeping."

But U.S. Ambassador Frank H. Williams told the meeting: "In view of circumstances with which members are familiar, my government is not

in a position to make a pledge for 1965 at this time. We have every hope that developments will make it possible for us to announce a substantial pledge in the near future."

The United States withheld its pledge, which is usually amount to about \$50 million, to apply pressure in the political showdown with the Soviet Union over U.N. payments.

The Russians refuse to pay their \$52.6 million share of the costs of the U.N. peace-keeping forces in the Congo and Middle East, contending that the forces were illegal.

The United States and Britain insist that unless some payment is made, the Soviets must lose their General Assembly vote when the assembly convenes Dec. 1.

The Soviets did not comment on the U.S. pledging stand.

JERUSALEM, Israel (UPI)—Israel charged yesterday that Syrian forces fired three machine gun blasts at an Israeli patrol near the scene of last week's border fighting.

There were no injuries in the

new incident, officials said. Eleven persons — four Israelis and seven Syrians — were reported killed in the fighting last Friday and Saturday.

Diplomats visited the border area yesterday and heard settlers in the village of Dan report that Syrian positions fired about 300 shells into the area. They were told that if Israel had not attacked the Syrian implements, the settlement could have been wiped out.

A U.N. spokesman said observers have completed their investigation of the incident and were preparing a report for forwarding to U.N. Secretary General Thant.

Policeman Fined \$10

in Death of Iowa Coed

GRINNELL, Iowa (UPI)—Grinnell police Sgt. Jerry Phillips, whose squad car ran into a group of bicycling Grinnell College coeds and fatally injured one girl, was fined \$10 with \$4 costs yesterday.

Phillips, a 19-year-veteran of the force, was found guilty of speeding and being unable to stop "within the assured clear distance ahead."

Court Hearing Cases on Draft Exemption

WASHINGTON (AP)—One young man said "I have this god inside me—"

Another said he believed in godness, which he defined as "the ultimate cause for the fact of the being of the universe."

Another said, "The existence of God cannot be proven or disproven."

These were stands taken in the three cases before the U.S. Supreme Court today involving the question of whether a man must express a belief in a supreme being to qualify for draft exemption as a conscientious objector.

The law permits exemption for conscientious objectors who believe "in a relation to a supreme being involving duties superior to those arising from any human relation."

The three young men all said they opposed war but would not say their objection was based on belief in a supreme being. They said the provision was unconstitutional.

They are: Daniel Andrew Seeger, 29, ("cannot be proven"); and Arno Sascha Jakobson, 29, ("godness"), both of New York City, and Forest Britt Peter ("this god inside me"), San Francisco.

All were convicted of refusing to report for induction and sentenced to jail. The 2nd Circuit Court of Appeals in New York

reversed the convictions of Seeger and Jakobson, stating the provision "for belief in a relation to a supreme being" was unconstitutional. The 9th Circuit Court of Appeals in San Francisco upheld the conviction of Peter and the constitutionality of the "supreme being" provision.

The government brought the cases before the high court in arguing that Congress has the constitutional right to make a profession of belief in God the basis for any conscientious objection to military service.

VIEWS IN BRIEFS

Views of the three men were expressed in briefs filed with the court.

In presenting the government's case Monday, Solicitor General Archibald Cox got into philosophical discussions with members of the court on science and mysticism in religion, on moral responsibility, on killing.

Cox said he had gone hunting once on a beautiful day on the mountain, but when the elk was killed, "everything was all death and ashes—I wouldn't go hunting again." But, he said, the kind of feeling he had would not meet the terms of the law for exempting conscientious objectors.

But Don't Forget Thickness of Animals' Fur

Jet Stream Factor in Predicting Severity of Winter Weather

By RAYMOND J. CROWLEY.
WASHINGTON (AP) — A chess study of many factors, including the jet stream, a polar bear's fur, the stockpiling activities of squirrels, and the laws of chance, points today to an inescapable conclusion: The coming winter may be abnormally mild, but prepare for the worst.

The U.S. Weather Bureau flatly refuses to say what the winter will bring. Weather science is not yet that good, it says. The most it will hazard is a 30-day outlook, issued twice a month.

Now if the bureau could know now what the jet stream will be doing next January it might become bolder. James F. O'Connor, bureau meteorologist, made a valiant effort to explain the jet stream in words understandable to an amateur.

It is the core or nucleus of a broad band of westerly winds which sweep across the Pacific and the United States, west to east. They fly high, at an altitude ranging from 10,000 to maybe 40,000 feet.

MEANDERING

Trouble is, you cannot count on them to fly straight, they meander, they snake around in their journey.

If they snake northward in the winter, over the Yukon for example, much of the United States can look for earmuff weather. If they meander southward, the storms imbedded in them, or swept along by them, they may pick up a lot of water vapor over the Gulf of Mexico. This could mean umbrella weather later for many Americans.

"Well, if the Weather Bureau can't look very far into the future, maybe I better consult some animals," a newsmen said. "If they are growing heavy coats, maybe it means they feel in their bones there's tough weather ahead."

O'Connor laughed and fell in with the gag.

THICK COAT

"My kids have a Persian-type cat," he said, "and I'm keeping my eye on her. Right now she's got a thick, beautiful coat." Trouble is that the coat might be described as due to the cat's general vigor, her immense health.

Next stop was the National Zoo where Snow Star, a polar bear, proved equivocal. It's true she has a remarkably thin coat

for a polar bear, but her keeper, Albert C. Smith, had a theory about that: "I think she keeps rubbing her hair off by scraping against the sides of her pool."

Elsewhere in the animal world, some confusion has reigned. Squirrels hereabout have been seen chasing their tails as though it were springtime; they don't seem to be stashing away many acorns. In Illinois, blackbirds and bronze grackles were observed on a wrong-way flight, eastward instead of south.

But whooping cranes, though diminishing in numbers, evidently are keeping their heads

about them. Flying from Canada, they have reached their wintering grounds in Texas. And 15 calves inspected on a farm near Emmitsburg, Md., have grown especially warm coats.

NOT MUCH HELP

The laws of chance are not much help. If you toss a penny, and three heads — had winters — come up in a row, you might expect that a tall — mild winter — would appear next. But it's a 50-50 chance that it might be another head.

One thing scientists are generally adamant about. The explosion of an atomic device by the Red Chinese did not produce

our long, golden Indian summer weather this year.

Man-made blasts, even nuclear ones, are puny compared to nature's strength.

The Hagerstown, Md., Town and Country Almanack predicts that there will be snow on Inauguration Day, Jan. 20.

The Almanack makes no general forecast about the severity of the winter, but it does provide its readers with a do-it-yourself forecasting formula:

"If a greater number of spiders has sneaked into your basement, expect a high fuel bill."

In the six years of the Common Market's existence, the European Community gross product has increased 30 per cent.

Cranky Bosses Often Leave Home That Way

PHILADELPHIA (AP) — Ever wonder why the boss is unreasonable sometimes in the morning?

Or cranky? Perhaps even hostile?

A prominent psychiatrist says you probably can blame it on that argument he had at breakfast with his son or his wife.

Dr. Francis J. Braceland of Hartford, Conn., former psychiatrist in chief in the U.S. Surgeon General's office, says the executive can't check his personal problems—like that early morning argument at home—at the parking lot. He has to bring them into the office.

RECENT CONFERENCE

Dr. Braceland told a recent conference sponsored by the Society for Advancement of Management: "The hazards which the executive brings into his office with him are in many instances more difficult for him to cope with than the ones he encounters there."

The boss with poor human relations, said Dr. Braceland, tends "to increase neurotic and psychosomatic reactions" all around him."

This results in high labor turnover sometimes, he added, pointing out that "from 60 to 80 per cent of all dismissals in industry are due to social incompetence rather than industrial failure."

Dr. Braceland, in his prepared remarks, suggested that "for an official to be badly maladjusted is worse than if he had the measles."

LITTLE SATISFACTION

"One of the disadvantages of many modern industrial setups is that all too often work fails to provide emotional satisfactions which men need in their occupation."

Dr. Braceland said a boss's personality covers a wide range and insisted "there is no invariable executive type."

"The constant yearning for approval, the drive to demonstrate one's superiority at all costs, overassertive or over-aggressive behavior based on insecurity, displaced aggressions, inadequate supervision—these are reactions that precipitate difficulty in any situation."

And especially in a boss, added the psychiatrist.

Plane Not Ours, Says Formosa

TAIPEI, Formosa (UPI)—Nationalist Chinese Air Force sources said today that the unmanned reconnaissance plane Communist China claims to have downed did not come from here.

The United States also has denied knowledge of the plane, which Peking yesterday said was a "pilotless high-altitude reconnaissance military plane of U.S. imperialism."

The Nationalist Air Force filed "regular and frequent" missions over the Communist mainland, the sources said. But these are manned flights with U.S.-built U2 and other types of aircraft, and none of these aircraft is missing.

"They have shot down planes which we did not have in the air," one source said, casting doubt on the Peking claim.

Observers in Tokyo said the Chinese announcement was so vaguely worded it seemed the Communist themselves might not know the identity of the plane.

'IMPERIALISM'
"U. S. imperialism" could mean a U.S. plane or one from an allied nation, they said.

Peking has claimed to have shot down nine other foreign aircraft since 1958.

Reconnaissance flights are believed to have been an important source of advance information on China's plans to explode an atomic bomb. The United States was the first to disclose the plans.

But there have been no reports that the United States has pilotless planes capable of penetrating Communist territory.

Symposium Scheduled

LANSING (AP)—Economists and business leaders will speak to student leaders from 47 colleges and universities Thursday in the second college-business symposium, sponsored by the Michigan State Chamber of Commerce.

Fear of Indonesia War

Australia Buildup Reflects Concern

SYDNEY, Australia (AP)—The defense buildup announced this week by Prime Minister Sir Robert Menzies indicates Australia's concern over the possibility of war with Indonesia.

Indonesia has threatened to crush Malaysia, and Australians see this as a clear threat to themselves. If Indonesia and Malaysia become involved in an open war, Australia fears it, along with Britain, would be in it, too. Most Australians think Uncle Sam also would be there.

The Daily Mirror of Sydney has suggested that the United States station a squadron of long-range bombers in Australia. It said "there could be no more effective deterrent to aggression."

CLAIM TO AID

The Sydney Morning Herald said one factor that undoubtedly influenced the government's decision was "the need to strengthen our claim to American aid under the Anzus treaty by a demonstration that we were prepared to make sacrifices for common security."

The defense buildup and

nounced by Menzies provides for:—Expenditure of \$2.73 billion in three years beginning next July 1. That is \$474 million more than previous commitments.

—Conscription for two years' military training of 4,200 20-year-olds in 1965 and 4,900 in future years. This is about one in 20 of this age group.

—More small ships and new weapons for the navy, more planes for the air force, more men for the army.

NO BIG OBJECTIONS

Newspapers have raised no big objections. They complained only that the buildup would not be fully felt before 1967 or 1968.

Menzies said: "If Indonesian attacks continue, Malaysia may find it intolerable to confine defensive measures to the guarding of Malaysia's shores and jungles against Indonesian intrusion. These Indonesian attacks may create a real risk of war."

He called recent attacks by Indonesia deplorable and went on: "It is a misfortune to have to join in a defense of Malaysia against a nation with which we have no other quarrel and so much in common." New Guinea is divided between Indonesia and Australia.

The Jakarta newspaper, Indonesian Herald, said Menzies and the Australians must realize Indonesia is here to stay.

"With or without Malaysia, Sir Robert and his Australians will remain anti-Indonesian."

To this the Sydney Sun replied: "Australians know very well Indonesia is here to stay and it is not true to say we as a nation are anti-Indonesian. We, too, are here to stay, but we wish to do so in peace and will always work with Indonesia and any other nation to that end."

Cuba Getting Early Start on Sugar Cane

MIAMI, Fla. (AP)—Cuba is getting an early start in harvesting sugar cane, its major dollar crop.

Havana Radio reported cutting will start Nov. 30 and milling Dec. 3 in Pinar del Rio Province.

Traditionally the sugar harvest has been a 90-day affair from January to April. The Cuban Sugar Growers Association in Exile attributed the early harvest to a need for immediate dollars.

The amount of the 1964 crop has not been announced. Exile sources have estimated it at 3,600,000 tons, compared to a peak of 7 million tons in 1952.

Action Starts Saturday

1st Bowlerama Deadline Near

Bowlers have until midnight tomorrow to submit entries for this weekend's opening 1964 Pontiac Bowlerama handicap singles qualifying at three local establishments.

Airway Lanes, Montclair Bowling Center and Huron Bowl are sites for the first of the four events comprising the eighth annual tournament.

The top 10 per cent of the total qualifiers at each site will advance to the Dec. 19-20 finals at 300 Bowl.

Entrants do not have to register at their qualifying site but may get entry blanks at most better establishments of the Oakland County Bowling Proprietors' Association.

This includes West Side Lanes, Howe's Lanes, North Hill Lanes, Lakewood Lanes, Primrose Lanes and "300," all of which have tournament competition later.

Handicap singles competitors will vie with a 70-per-cent-of-200-scratch boost. Qualifying will continue next week at the same sites on the weekend in.

addition, the first of three handicap doubles qualifying days is that weekend.

The singles event carries a guaranteed prize list starting at \$400 for first place, and paying all qualifiers. The entry fee is \$6 for each of the four events; and \$3.75 of each entry goes into the respective prize fund.

Bowlers who desire to reenter on the same day they try to qualify may do so but only at another site. No new entries will be accepted, however.

BOWLING

Iva, Craycraft (642) and Walt Honchell (620) kept Airway's Service in front of the Huron Bowl Wednesday Nite "A" League last week.

Jim Czizmadia's 258-672 was the night's high individual effort.

In Huron's Wednesday Imperial Girls loop, Rose Hoffman hit 210-214-608 and Sally Stratton 201-564.

Sylvan Lanes reported its first 700 series: a 288-227 for Dave Skillman last week in the Sylvan Lake Men's circuit. Howard Caldwell also hit 288.

Last week's West Side Clas-

sic was paced by Ed Avadenka's 256 (647) and Brooks Robertson's 681 (235-234) as 300 Bowl remained atop the standings. Art Walker had 224-235-680.

West Side Lanes' Pontiac Housewives reported a 227-556 for Marilyn Wood and 545 for Lerne Nichols.

The Columbia Avenue Baptist Church League at Airway Lanes recently had a 265-648 by Jim Wheatley. And Airway's First bowlers were led by Doris Boucard's 577 last week.

The Oakland County Senior Citizen's best at West Side this year has been Hugh Cook's 222-224-582 and Ronald Gilmore's 561.

Royal Recreation's Lake Orton Men's A League last week was paced by Floyd Thornton who clipped the pins for 223-232-667 Andrew Bishop hit 221-251-651.

At Primrose Lanes, Lois Ened recorded a 523 in the Primrose Bowlerettes circuit. Alma Bennett hit 508.

Stan Mikita Leads by One in NHL Race

MONTREAL (AP) — Bobby Hull has scored his second hat trick of the young season and Gordie Howe has netted a record 627th goal. But scrappy Stan Mikita still is on top in the National Hockey League individual point standings today.

The Chicago Black Hawks' center, bidding for his second straight scoring crown, has a 17-16 edge on teammate Hull in the point race. Mikita, who won the title in 1963-64 with 89 points, also paces the league in penalty minutes with 46 in 13 games.

Hull fired three goals against Toronto last Saturday night for a league-leading total of 11. Howe, Saturday night tally broke Maurice Richard's career mark for regular season and playoff games, shares the No. 5 scoring spot with Frank Mahovlich of Toronto and Bobby Rousseau of Montreal.

The Canadiens' Claude Provost is third and Detroit's Norm Ullman is fourth.

Detroit and Montreal each have allowed 28 goals in 14 games, tying goalies Charlie Hodge of the Canadiens and rookie Roger Crozier of the Red Wings for the Vezina Trophy lead.

U-M's Timberlake Still Tops Scoring

CHICAGO (AP) — Bob Timberlake, Michigan's triple-threat quarterback, maintained his Big Ten all-games football scoring lead with Indiana's Tom Nowatzke moving into second place.

Timberlake has a total of 76 points in scoring in all three departments and Nowatzke, recording all of Indiana's 21 points Saturday, climbed into second place with 67 points and a chance to win out depending on season windups this week.

Deaths in Pontiac Area

EVERETT B. BURLISON

Service for Everett B. Burlison, 48, of 2604 Bender, Waterford Township, will be at 3 p.m. Thursday in Crescent Hills Baptist Church with burial in the Crescent Hills Cemetery. His body is at the Coats Funeral Home, Waterford Township.

Mr. Burlison, a mechanic at Pontiac Motor Division, died yesterday after an eight-day illness. He was a member of Crescent Hills Church.

Surviving are his wife, Virginia; four daughters, Mrs. Richard Kidd of Waterford Township, Mrs. Harry Cooper and Mrs. Larry Petty, both of Pontiac; and Marlene at home. Other survivors are four sons, Darrell of Waterford Township, Terry of Lapeer, John and Wayne, both at home; nine grandchildren; two brothers; and three aunts.

MRS. ARCHIE GALBRAITH

Mrs. Archie (Matilda R.) Galbraith, 79, of 308 Osmond died yesterday. Her body is at the Voorhes-Siple Funeral Home.

Mrs. Galbraith, a member of St. Vincent de Paul Catholic Church, leaves two sons, Morrell of Walled Lake and Robert of Pontiac; and three daughters, Mrs. George Retsel, Mrs. Maurice L. Nichols and Mrs. Margaret Hitchcock, all of Pontiac.

Also surviving are nine grandchildren, five great-grandchildren and a sister, Mrs. Clara Galbraith of Waterford.

JOHN E. GREER

Service for John E. Greer, 50, of 873 Melrose will be at 11 a.m. Thursday in Voorhes-Siple Chapel with burial in Perry Mount Park Cemetery.

Mr. Greer, an employee of Chelsea Manufacturing Co., Chelsea, died yesterday after a long illness.

Surviving are his wife, Elsie; his mother, Mrs. Nannie Murdock of Pine View, W. Va.; two children, John J. of Clarkston and Brenda J. of Pontiac; a sister; and two brothers.

WILLIAM A. HUBBLE

Service and burial for former Waterford Township resident William A. Hubble, 52, of Ferndale, was held yesterday from the Spaulding & Curtin Funeral Home, Ferndale. Burial was in Lakeview Cemetery, Clarkston.

Mr. Hubble, a truck driver for Boutelle Corp., died Friday of a heart attack.

Surviving are his wife, Agnes; two sons, Richard W. of Pontiac and John M. of Waterford Township; a daughter, Mrs. Gerald

Smith of Waterford Township; and five grandchildren.

Also surviving are five sisters, Mrs. Warner Beckman and Mrs. Stanley Rader, both of Clarkston, Mrs. Thornton King of Ortonville, Mrs. Arnold Irelan of Lake Orion and Miss Donna Hubble of Roscommon. Other survivors are his brother, Norman of Waterford Township; and his mother, Mrs. Floyd A. Hubble of Roscommon.

MRS. JOHN JENNINGS

Service for former Pontiac resident Mrs. John (Grace) Jennings, 78, of Mio will be at 1:30 p.m. Thursday in the Hamilton Funeral Home with burial in Perry Mount Park Cemetery.

Mrs. Jennings died yesterday. Surviving are three sons, Harold of Mio, Kenneth in Florida and Watson in Maryland; and four daughters, Mrs. Winnie Berth and Mrs. Thelma Evans, both of Pontiac, Mrs. Lula B. Norris of Clarkston and Mrs. Aldena Snyder of Caro.

Also surviving are 17 grandchildren, 11 great-grandchildren and a brother.

NORMAN E. BRIGHT

GOODRICH — Service for Norman E. Bright, 65, of 10296 Haron will be at 2 p.m. Thursday at the C.F. Sherman Funeral Home, Ortonville. Burial will follow in Goodrich Cemetery.

Mr. Bright died yesterday after a six-week illness. A former employee of Chevrolet Motor Division in Flint, he was a member of the Goodrich Methodist Church and the Goodrich Lodge, F&AM.

Surviving are his wife, Marjorie; two sons, Charles of Grand Blanc and Norman of Goodrich; a brother; and six grandchildren.

MRS. KLAAS KNIBBE

IMLAY CITY — Service for Mrs. Klaas (Leontine) Knibbe, 41, of 8756 Petz will be at 2 p.m. today at the Christian Reformed Church with burial in the Imlay Township Cemetery.

Mrs. Knibbe died Saturday after an extended illness. Surviving besides her husband are seven children, Hendrik, Dirk, Klaas, Peltier, Engel, Jan and Marianne, all at home; her parents, Mr. and Mrs. Dirk Ockhuis of Imlay City; a brother, and a sister.

Service and burial for former Waterford Township resident William A. Hubble, 52, of Ferndale, was held yesterday from the Spaulding & Curtin Funeral Home, Ferndale. Burial was in Lakeview Cemetery, Clarkston.

Mr. Hubble, a truck driver for Boutelle Corp., died Friday of a heart attack.

Surviving are his wife, Agnes; two sons, Richard W. of Pontiac and John M. of Waterford Township; a daughter, Mrs. Gerald

Smith of Waterford Township; and five grandchildren.

Also surviving are five sisters, Mrs. Warner Beckman and Mrs. Stanley Rader, both of Clarkston, Mrs. Thornton King of Ortonville, Mrs. Arnold Irelan of Lake Orion and Miss Donna Hubble of Roscommon. Other survivors are his brother, Norman of Waterford Township; and his mother, Mrs. Floyd A. Hubble of Roscommon.

Surviving are three sons, Harold of Mio, Kenneth in Florida and Watson in Maryland; and four daughters, Mrs. Winnie Berth and Mrs. Thelma Evans, both of Pontiac, Mrs. Lula B. Norris of Clarkston and Mrs. Aldena Snyder of Caro.

Also surviving are 17 grandchildren, 11 great-grandchildren and a brother.

Service for Norman E. Bright, 65, of 10296 Haron will be at 2 p.m. Thursday at the C.F. Sherman Funeral Home, Ortonville. Burial will follow in Goodrich Cemetery.

Mr. Bright died yesterday after a six-week illness. A former employee of Chevrolet Motor Division in Flint, he was a member of the Goodrich Methodist Church and the Goodrich Lodge, F&AM.

WREAK HAVOC — Roaring winds dismantled several homes like this one in the Ogden, Utah, area early yesterday. The 80 mile-an-hour winds collapsed a wall of a Baptist Church, uprooted trees and felled power lines throughout the second largest city in Utah.

'Shaky' Start 30 Years Ago

Johnsons Mark Anniversary

WASHINGTON (AP) — "I hope this marriage lasts," the minister said 30 years ago when the bridegroom, Lyndon Baines Johnson, was in such a hurry he forgot to buy a ring.

They'll probably laugh about it again tonight at a family dinner party in the White House celebrating the wedding anniversary.

Lady Bird Johnson still keeps as a memento the Sears & Roebuck ring hastily purchased because young Johnson goofed on the day of their wedding in old St. Mark's Episcopal Church in San Antonio, Tex., Nov. 17, 1934.

The Rev. Arthur K. McKinstry officiated.

Only last week, entertaining the president-elect of Mexico, Johnson recalled he and his wife had honeymooned in Mexico at Xochimilco, famed for its floating gardens.

Recently Mrs. Johnson said she thought her husband was a remarkable man when she married him.

STILL THINKS SO — "I still think he's remarkable — and I know a lot more about him," she added with a smile. "Tonight the Johnsons hope to celebrate the occasion in privacy with their daughters, Lynda, 20, and Luci, 17."

The 30th year of marriage is traditionally known as the pearl anniversary. The White House wasn't saying anything about what gifts might be exchanged between the President and his wife.

Two Pontiac youths were yesterday sentenced to one year probation and \$25 court costs for taking and using an automobile without permission but without the intent to steal.

The pair, Larry Dempsey, 18, of 60 Douglas and Richard Card, 17, of 75 Virginia, were arrested by sheriff's deputies in connection with the alleged Saturday morning assault and robbery of two White Lake Township men, Jake Stuart, 36, of 3840 Mandon and Raymond Rust, 18, of the same address.

Two juveniles were also picked up in connection with the incident and have been turned over to juvenile authorities.

Two community leaders of the Pontiac area were elected to the Michigan Regional Advisory Board of the Anti-Defamation League of B'nai B'rith at the annual state board meeting in Detroit Sunday.

They were S. Jerome Bronson, 2540 Seneca, Oak Park, Oakland County prosecutor-elect and Jerome Weiss, 181 S. Josephine, Pontiac.

The Anti-Defamation League is the educational arm of B'nai B'rith, America's oldest and largest Jewish service organization seeking to promote good will between all groups.

They were S. Jerome Bronson, 2540 Seneca, Oak Park, Oakland County prosecutor-elect and Jerome Weiss, 181 S. Josephine, Pontiac.

Needs Help With Pistol

PRICHARD, Ala. (AP) — Rookie policeman J. E. Jordan probably will be getting some instruction soon from fellow officer Danny Goldman on how to handle a pistol.

Jordan bent over to pick up a book yesterday shortly after reporting for duty at the city jail. When he stooped, his pistol fell from his holster. He picked up the gun and it discharged.

Goldman suffered the only injury — a sore head. The bullet shattered an overhead light which fell on Goldman.

Arson Suspect Held by Police

Witness Says Fire Began After Warning

Pontiac police are holding a 29-year-old man for investigation of arson in connection with a house fire early this morning at 19 W. Wilson.

Thomas Miles, 29, who lives at the rear of the home was arrested by officers shortly after 3 a.m. in a taxicab at 447 S. Saginaw.

Mrs. Georgia Liddell, the occupant of the house, told police that shortly after 2:30 a.m. Miles began yelling for her to come downstairs.

She told police when she refused, Miles then told her this was "the last call." The next thing she knew the house was ablaze, she said.

Mrs. Liddell and the other occupants of the house, her mother, Mrs. Zana Walker, 65, and her brother, Donald Brown, 39, escaped from the building unharmed.

FIRE DEPARTMENT officials said they found a five-gallon gasoline can in the house which still contained a small amount of fuel.

Police said their investigation has indicated that Miles purchased five gallons of gasoline shortly after 2 a.m. from a gas station on South Saginaw.

Damage to the building and contents was listed at \$2,000.

Dog Welcome at Hotel; Not Sure About Owner

DURHAM, South Africa (AP) — A dog owner who wrote to a Durban hotel requesting reservations for him and his pet received the following acknowledgment from the manager:

"I have been in the hotel business for 30 years and never have I had to eject a disorderly dog. Never has a dog set fire to a bed. Never has a dog stolen a towel or a blanket. Your dog is very welcome. If he will vouch for you, you can come along as well."

A black and white photograph of a landscape. In the foreground, there is a body of water, possibly a lake or a wide river. On the right side, a small, dark, rectangular building or structure is visible. The background features a line of trees and a hilly horizon under a light sky. The overall scene is somewhat desolate and quiet.

Atop an LBJ Ranch Horse Tops in Social Position

By EARL WILSON

WASHINGTON — The greatest honor you can attain today is that status symbol of status symbols . . . is to get invited to "The Ranch."

It's more "in" than having two Rolls-Royces or being in the French Legion of Honor or knowing Ringo personally.

So I was told at the glittering International Ball at the Sheraton Park, which established to me that Washington is the swing-in of the world capitals . . . next to Austin, Texas, which, let's face it, has just become one.

"I'm going down to the ranch tomorrow," a man happened to say at a cocktail party prior to the ball.

"What ranch?" exclaimed a feminine friend. When she hears the word "ranch," she immediately thinks of ranch milk. So she got tremendously excited.

"Madam," the man bowed courteously, "there is only one ranch in the whole world as far as Washington's concerned."

Of course it's President Johnson's 11½ old ranch near Austin. The man explaining this was Jack Valenti, the President's appointments secretary and all-round aide.

The Milton Berles and the Lew Wassermans of Beverly Hills were due to "The Ranch." They were hard workers for LBJ. Jack Valenti didn't think Milton Berle would be required to climb on a horse.

THE MIDNIGHT EARL . . .

"Liv," the wild farce with Eli Wallach, Ann Jackson and Alan Arkin, by bearded Murray Schisgal, is the biggest laugh tornado in years . . . Heavy Ford attended with beautiful stewardess Shirley Adams who should be in movies . . . The Phil Fosters, who met at a ball game, got a divorce.

Bob Hope says the sale of the Yankees to CBS will change their spring training locale. "Instead of Florida they're going to Actors Studio." . . . That's earl, brother.

Ore Process May Aid U.S.

NEW YORK (AP) — New and improved mineral processing techniques will revive the faltering domestic iron ore producing industry and make America less dependent on foreign sources of ore, an expert has predicted.

"Automation and control of iron ore processing plants and a newly-developed 'autogenous grinding' technique — use of rocks to grind rocks — are giving a big boost to the steel industry," said Prof. Nathaniel Arbuter of Columbia University's School of Engineering and Applied Science mining school.

"The steel industry's mineral processing is challenging the copper industry, long a leader in this field, and promises to show new startling gains," he observed during the VII International Mineral Processing Congress held here in observance of the 100th anniversary of mining education at Columbia University.

Heat radiation on desert highways can increase sun glare by 50 per cent.

Detroit Found Dead at Home; Bound, Gagged

DETROIT (UPI) — The body of an 83-year-old Detroit man was found in his home yesterday, bound head and feet and gagged, apparently by a prowler seeking money.

The victim was Joseph Davanzo. His son, Joseph Jr., 42, found the body when he visited his father Monday afternoon.

The dead man had been bound hand and feet with white surgical tape and a handkerchief was stuffed in his mouth and taped over. The medical examiner said he died of asphyxia only a few hours before he was found.

RANSACKED
Drawers of bureau in the house had been ransacked and the contents strewn about the house.

Eye-Catching Sign

Bodies of 4 Miners Recovered in Africa

SASOLBURG, South Africa (AP) — Rescue teams today located the bodies of four African coal miners trapped by a fire 450 feet below ground. The teams continued to search for 19 others.

Mining officials said the blaze which broke out early yesterday had been brought under control. First reports said 22 were trapped in the mine 40 miles south of Johannesburg, but the company later corrected it to 23.

Army Undersecretary to Get Defense Post

WASHINGTON (UPI) — Army Undersecretary Paul R. Ignatius, 44, of Los Angeles will be named assistant secretary of defense for installations and logistics, succeeding Thomas D. Morris.

The White House said yesterday that President Johnson had accepted Morris' resignation "with a great deal of regret." Morris, a 51-year-old Knoxville, Tenn., native, has been influential in the Defense Department's cost reduction program. It was also announced that President Johnson planned to name Ignatius to succeed Morris.

Says Adult Tetany Is Extremely Painful

By DR. WILLIAM BRADY

"It is hard to say which of your teachings has been best for me because I have learned many things... point at something my grandmother suffered with for years and I assumed I would too. That is leg cramps at night, extremely painful... now, thanks to your pamphlet, no more cramps..." (B.H.)

One swallow doesn't make a summer and old J. A. Coincidence crabs all my schemes to claim discovery of new cure. A good many mature adults suffer from the ailment B. H. assumed he inherited from his grandmother.

It does not follow that the ailment is inherited, even if grand, dad, Uncle Oscar and Cousin Jane had it. The ailment is a nutritional deficiency disease in most instances, I believe.

It irks me that I can't show now just how I came to believe painful cramps in legs or feet, sometimes in arms or wrists, seizing the victim of mature age suddenly, at intervals of days or weeks, mostly in the night, are manifestations of tetany, but anyway I call it Adult Tetany, and on written request accompanied with 10 cents and a stamped self-addressed envelope, I'll send you the pamphlet about it.

Hearing Today in Jewel Theft

MIAMI (UPI) — Two beach boys were to get a hearing today on charges they transported the fabulous Star of India sapphire and 21 other stones from New York where they were stolen.

A federal judge warned the FBI last week that if it could not produce evidence that the \$400,000 in gems had been transported here at today's hearing, he would drop the federal charges against Jack (Murf) Murphy and Alan Kuhn.

Federal investigators have thus far failed to find the loot. If the charges are dropped, the two still would face extradition proceedings on New York police charges that they actually stole the stones from the New York Museum of Natural History.

Roger Clark, a third suspect, was arrested in New York the same day the other two were arrested here. He faces the actual theft charges but not the federal charges. Clark was released on bond and is now in Miami.

Murphy was fined \$25 yesterday in Municipal Court for his words to a Miami Beach policeman who arrested him on a vagrancy charge recently.

Tetany is not to be confused with tetanus (lockjaw). Tetany is painful, ow wow, I wot, but otherwise people didn't run to the doctor with minor ailments in the old days when an honest doctor charged 50 cents for an office consultation, \$1 for a visit to the home, \$10 for delivering a baby. So the old-timers seldom saw pure tetany, but only the condition masked by the more striking symptoms of the illness that made the call necessary.

TETANY RARE
Standard medical textbooks have always conveyed the idea that tetany is a rare disease or perhaps a defect of infants, due, as some great doctor surmised, to functional deficiency of the mysterious parathyroid glands... whose function is still pretty much a mystery, although it probably has to do with calcium metabolism or utilization in the body.

And so the medical authors of the horse-and-buggy era left it just as they had found it, and the medical authors of today have hashed it over and over, each copying what his predecessor said though of course not verbatim. Thus doctors came to believe tetany is a disease of infancy and childhood.

I thought so too, when I was an honest doctor.

But in my long experience corresponding with newspaper readers in Canada, the United States and some European and Asiatic countries, I have learned a few things that real doctors will learn only when their patients can consult them without fear of incurring a big bill.

I don't give medical advice at any price. But I give whatever information and advice I can on (a) building health and (b) preventing disease, free or at the cost of printing and distribution.

Signed letters not more than one page or 100 words long pertaining to personal health, diet, or medicine, if accompanied by a stamped self-addressed envelope, will be answered by Dr. William Brady. If a stamped self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan. (Copyright, 1964)

County Soldier Dies in Thailand Mishap

WASHINGTON (AP) — First Lt. Douglas F. Matthews of Royal Oak, Mich., was one of three Army officers who died in

Thailand Friday when a vehicle they were riding overturned, the Army said Monday.

Matthews was the husband of Mrs. Janice K. Matthews of Royal Oak.

Killed with him, the Army said, were 1st Lt. Basil M. Parks II of Washington, D.C., and 2nd Lt. William H. Jones of Prestonburg, Ky.

College President Dies

CLEVELAND, Ohio (AP) — Rabbi Chaim H. M. Katz, 70, president of the Rabbinical College of Telshe in nearby Wickliffe, died Monday, apparently of a heart ailment. Rabbi Katz and his late brother-in-law, Rabbi E. M. Bloch, started the college in 1941 after the original

college in Telshe, Lithuania, was destroyed by the Nazis. The college, with an enrollment of 400, is reportedly the world's largest Orthodox Jewish college.

Women in the Northeast part of the United States have the lowest fertility and those in the South have the highest.

Will Suggest Delay in MSU Facility

EAST LANSING (AP) — Michigan State University President John Hannah says he will recommend to the trustees Thursday that opening of MSU's medical school be delayed beyond

the scheduled time of fall 1965. A main factor, he said, is the delay in construction of the new veterinary medicine building, a key facility in plans for the new school. In addition, he said, the search continues for medical faculty members. Hannah said the opening may be delayed until fall of 1966, but could come before then.

County Soldier Dies in Thailand Mishap

WASHINGTON (AP) — First Lt. Douglas F. Matthews of Royal Oak, Mich., was one of three Army officers who died in

Thailand Friday when a vehicle they were riding overturned, the Army said Monday. Matthews was the husband of Mrs. Janice K. Matthews of Royal Oak. Killed with him, the Army said, were 1st Lt. Basil M. Parks II of Washington, D.C., and 2nd Lt. William H. Jones of Prestonburg, Ky.

College President Dies

CLEVELAND, Ohio (AP) — Rabbi Chaim H. M. Katz, 70, president of the Rabbinical College of Telsh in nearby Wickliffe, died Monday, apparently of a heart ailment. Rabbi Katz and his late brother-in-law, Rabbi E. M. Bloch, started the college in 1941 after the original

college in Telsh, Lithuania, was destroyed by the Nazis. The college, with an enrollment of 400, is reportedly the world's largest Orthodox Jewish college.

Women in the Northeast part of the United States have the lowest fertility and those in the South have the highest.

Will Suggest Delay in MSU Facility

EAST LANSING (AP) — Michigan State University President John Hannah says he will recommend to the trustees Thursday that opening of MSU's medical school be delayed beyond

the scheduled time of fall 1965. A main factor, he said, is the delay in construction of the new veterinary medicine building, a key facility in plans for the new school. In addition, he said, the search continues for medical faculty members. Hannah said the opening may be delayed until fall of 1966, but could come before then.

Strike at GM Jolted Economy

WASHINGTON (AP)—The General Motors strike last month gave the nation's economy its roughest jolt since the 1960 recession, and the effect may linger if the current strike at Ford Motor Co. puts another extended damper on production.

Government economists fretted today about the possibility that labor disputes could cause a general business slowdown after an almost uninterrupted climb of four years.

Set Campaign Against Smut

Waterford Police Appeal for Cleanup

An antismut campaign aimed at removing lewd magazines and books from Waterford Township newsstands was launched yesterday by the township police department.

Sgt. David Putnam and Patrolman Richard Rosner have been assigned to contact all book and magazine dealers in the township to appeal for a general cleanup.

Police Chief William Stokes ordered the antismut campaign after receiving several complaints from residents in the past two weeks about the increasing amount of smut literature on area newsstands.

Putnam and Rosner, the township's two juvenile officers, will request each dealer in the township to remove smut material from his newsstand.

Cooperation on the officers' initial contact with dealers has been excellent, Stokes said. He pointed out, however, that if the total antismut appeal is not successful, an ordinance will be sought.

Members of both the Waterford Township Board and the board of education expressed concern at recent meetings over the public display of smut material in area drug stores.

Freezing Weather Foreseen Tonight

The unseasonably warm temperatures have come to an end. A low of 30 to 37 is expected tonight, followed by a high tomorrow of 40 to 47.

Mostly fair skies are predicted for this evening, with partly cloudy skies foreseen tomorrow.

A few snow flurries are forecast for Thursday, along with continued partly cloudy skies and cool temperatures.

Winds today are west to southwest at 10 to 20 miles an hour. The low mercury reading this morning was 33. At 1 p.m. the thermometer registered 44 in downtown Pontiac.

Let's Upstage Romney, State Dem Pleads

Says Party Should
Present Its Programs
Before Governor

LANSING (AP)—A young Democratic lawyer is urging his party to upstage Gov. George Romney in the legislative show starting next January.

Rep. Robert Traxler, D-Bay City, proposed today that the Democratic caucuses in the House and Senate present their legislative programs before Romney has a chance to present his.

He made his proposal in letters mailed yesterday to Democratic State Chairman Zolton Ferency; Rep. Joseph Kowalski, D-Detroit, House minority leader, and U. S. Rep. Neil Stuebber, the unsuccessful Democratic candidate for governor.

"It is vitally important that we do not let the governor upstage us," Traxler said. "In many respects, I'm sure his program will agree with ours."

"It would be bad if he announced his program and we went out and passed it for him. I am sure they will be similar, and we would not fight his program without good reason, because we won't be an 'anti-legislature,' Traxler said.

DISAGREEMENT

Despite the similarities, he added, "there will be disagreement over how to meet the problems."

Democrats will take the leading role in the legislature for the first time since 1938—dominating the House 72-38 and the Senate 23-15. But the Republican governor still has certain advantages, Traxler said.

"For instance, he has a ready-made forum," Traxler said, "and one man can get the public attention better than a multithread group."

Hopefully, Traxler said, his proposal will be presented to the House Democratic caucus in Lansing Dec. 4.

Mediators Battling Rail Strike Deadline

CHICAGO (AP)—Federal mediators hope to arrange for new bargaining sessions between union and railroad officials in a last-ditch effort to avert a strike set for Monday which could halt service on most of the nation's carriers.

Six shop craft unions, involved in a wage dispute with the railroads for nearly 18 months, yesterday called the strike of its 140,000 members for 6 a.m. local time.

A spokesman for the unions said the walkout would halt service on the 187 railroad and terminal switching companies which handle more than 90 per cent of the nation's rail traffic.

The spokesman, Michael Fox, president of the AFL-CIO Railway Employees Department, said that consideration would be given any "fair and equitable" settlement offer from the railroads.

He also said serious consideration would be given any request from the White House.

There was no immediate word from the White House, but the shop unions have rejected as inadequate a presidential emergency board's recommended increase of 27 cents an hour over a three-year period.

MET SEPARATELY

Francis O'Neill of the National Mediation Board came to Chicago from Washington and met separately with carrier and union officers yesterday.

He said he would try to set up bargaining sessions between union and rail officials.

J. E. Wolfe, spokesman for the railroads, said the carriers will not go beyond the recommendations made Oct. 20 by the emergency board.

HEADED FOR RANCH

McBride told his rescuers that Mrs. Clark decided she couldn't hike out of the canyon to where they had parked their truck.

She and the elder McBride headed for a ranch 16 miles down the canyon.

Clark and the boy hiked back up the canyon to the truck. The vehicle stalled in the snow, however, as the two attempted to drive toward a rendezvous with the others at the ranch.

The youth and Clark walked about 10 miles and tried to build a fire but the intensity of the snowstorm was increasing and they failed.

The board's report automatically banned a strike for 30 days under terms of the Railway Labor Act but the unions are free to call a strike any time after Thursday.

radioed McCarran Tower at 8:25 p.m., two minutes before the plane vanished from a radar scope during a heavy snowfall.

The only persons who knew what happened in that two minutes are dead.

Clearly visible from where he stood was Las Vegas' McCarran Field, nine miles to the north, the destination of Flight No. 114 from Phoenix.

Pilot Hank Fitzpatrick, 41, turbo-prop Sunday night. All 29 aboard died in the crash.

He was standing in hard-packed snow 50 yards from the ridge called Arden Dome that stopped a Bonanza Airlines F27

Marshall's appointment will be the first order of business at tonight's regular commission meeting.

A native of Washington Township in Macomb County, Marshall attended schools in Romeo and came to Pontiac in 1919.

STARTED AT GMC

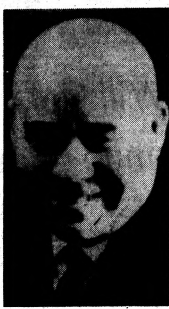

He started at GMC in 1925.

Marshall is married and has three children, two daughters and a son.

Campaigning in 1960, Marshall supported Pontiac's municipal building program and favored the extension of it on a "pay as you go" basis.

ALEXANDER SHELEPIN

PYOTR SHELEST

Party Changes Suggest Battle Over Economy

Clash, Compromise
Play Part in Liberal,
Conservative Contest

By WILLIAM L. RYAN
AP Special Correspondent

The new changes at the top of the post-Khrushchev regime suggest a power struggle between liberalizers and conservatives over the course of the Soviet economy. Clash and compromise seem to have played a part.

Younger generation technocrats are making their influence strongly felt. There are signs that the younger men eventually will emerge with the lion's share of political authority, but the struggle is not over.

The younger men seem impatient to remove some of the restraints on Soviet economic development, even to the point of experimenting with capitalist methods.

This could lead one day to an upsurge in East-West trade, more economic independence for Redruled Eastern Europe and aggravation of the dispute with the Communist Chinese.

The Communist party Central Committee has these appointments yesterday: Alexander N. Shelepin, 46, and Pyotr Y. Shelest, 56, to full membership in and Pyotr N. Demichiev, 46, to alternate Presidium membership.

FARM EXPERT

The committee dropped Vasily I. Polyakov, 58, a Khrushchev farm expert, from the secretariat, and dismissed along with Frol R. Kozlov from the Presidium, thus eliminating one conservative voice from the top of the apparatus.

Shelepin's rise was predictable.

As former chairman of the State Security Committee (KGB) and chairman of the party and State Control Committee, Shelepin probably played a significant role in unseating Nikita Khrushchev as premier and first secretary of the party.

Shelepin, a moving center, now may be developing close to the top rung of party leadership, possibly eventually as deputy to First Secretary Leonid I. Brezhnev.

CAN ENCOURAGE

Shelepin's rise and the advancement of Demichiev to alternate Presidium membership can encourage new generation leaders anxious to build the consumer economy despite resistance from hard-line conservatives and the military.

Shelepin, who was the youngest member of the secretariat, rose through the Young Communist League.

He was its first secretary—its (Continued on Page 2, Col. 6)

Find Hiker in Storm— but Too Late

WILLIAMS, Ariz. (AP)—A 17-year-old youth, fighting frostbite and a raging snow storm, brought rescuers to his hiking companion yesterday only to find him frozen to death in Arizona's rugged northland.

Young Michael McBride was hospitalized with frostbitten feet after his futile attempt to save Abram William Clark, 51, of Bell Gardens, Calif.

A search was to begin today for Clark's wife, Nellie, 54, and the youth's father, George McBride of Jerome, Ariz.

Temperatures were expected to drop to near zero in the canyon country where they were last seen.

The four had been packing supplies into rugged Tule Canyon south of Williams where Clark wanted to return on a rock-hunting expedition in the spring.

HEADED FOR RANCH

McBride told his rescuers that Mrs. Clark decided she couldn't hike out of the canyon to where they had parked their truck.

She and the elder McBride headed for a ranch 16 miles down the canyon.

Clark and the boy hiked back up the canyon to the truck. The vehicle stalled in the snow, however, as the two attempted to drive toward a rendezvous with the others at the ranch.

The youth and Clark walked about 10 miles and tried to build a fire but the intensity of the snowstorm was increasing and they failed.

A swarm of sheriff's deputies and volunteers removed all the bodies from the 4,200-foot high ridge on the western flank of Las Vegas Valley with the aid of helicopters from nearby Nellis Air Force Base.

The plane did not burn. It broke apart and its pieces javelined northward across the top of the dome. Bodies were thrown in every direction.

Conversation at the temporary camp, 500 feet below the dome, was often silenced with blaring messages over search radios.

"We need something to pry a body loose from the wreckage. Send up a crow bar or something on the next helicopter."

By sunset, only a sheriff's rear guard remained at the site to preserve the scene for Civil Aeronautics Board investigators.

'TOO SOON'

Edward Slattery of the Washington CAB office said, "It's too soon to tell what happened. We don't know yet if we are going to reconstruct the wreckage. It would be an extremely difficult job."

His office has impounded the plane's flight recorder.

PYOTR DEMICHEV

Yank's Fate Still a Mystery

U. S. Warns Rebels
on Execution Threat

LEOPOLDVILLE, the Congo

(AP)—The fate of American missionary Paul Carlson, threatened with execution by Congolese rebels, remained a mystery today. The United States warned insurgent leaders they would be held to account if they harmed Carlson.

The rebel radio announced yesterday that the 36-year-old medical missionary from Rolling Hills, Calif., had been sentenced to death as a military spy and would be executed in Stanleyville at noon. It has broadcast nothing further on his fate.

In Washington, Secretary of State Dean Rusk said if Carlson were executed, it would be "an outrageous violation of international law and of accepted standards of humanitarian conduct."

Rusk appealed to Prime Minister Jomo Kenyatta of Kenya to use his influence as chairman of an African committee seeking to end the Congo civil war to try to save Carlson's life.

Rusk said rebel charges that Carlson was a U.S. Army major on a spy mission were "patently false."

HELD RESPONSIBLE

He said the United States holds insurgent leaders "directly responsible for the safety of Dr. Carlson and of all other Americans in areas under rebel control."

At Press Sale

More JFK Books

Over-the-counter sale of the Warren report on the assassination of President John F. Kennedy will resume in the lobby of The Pontiac Press tomorrow.

The previous supply of 200 volumes placed on sale on Oct. 30 was sold out in three hours.

The blue and gold, hard-cover book prepared by the Associated Press sells for \$1.50. Its 400 pages contain the report on the death of President Kennedy, the arrest of Lee Oswald, and his death at the hands of Jack Ruby.

The Associated Press presents the report as a public service, as it did "The Torch Is Passed," its volume about Kennedy's fatal visit to Dallas.

CRASH VICTIM — The body of one of 29 victims of a plane crash near Las Vegas, Nev., is carried from a helicopter to a base camp.

Fire Under Control

Burning Ship Towed In

MIAMI (UPI) — A Cuban freighter which caught fire last night in the Atlantic was escorted into a small Bahamas port today by a U.S. Navy destroyer.

Radio reports received here by the Coast Guard said the destroyer Dupont has accompanied the 7,150-ton freighter "Cedar Hill" to anchorage at

Matthewtown on Great Inagua Island, about 50 miles from Cuba's eastern tip and 535 miles southeast of Miami.

A Coast Guard spokesman said broadcasts from the destroyer indicated that the fire that flared up between decks of the freighter last night was well under control.

Fifty-three men were reported aboard the freighter, which was said to be carrying general cargo, but the Coast Guard said there did not appear to be any injuries among the crewmen.

An inspection of the damage was to be attempted during the day. First reports from Matthewtown said the hatches had not been opened and the cause of the blaze was not determined.

FREIGHTER RADIOS

The 441-foot freighter radioed last night: "We have a fire in the number three hold between decks and need assistance immediately."

The Dupont, on patrol duty in the Caribbean, rushed to the vessel's aid and escorted it to Matthewtown during the night.

The Coast Guard said the Cedar Hill probably would continue on to Havana under its own power after determining the extent of its damage.

Shipping agents reported the Cedar Hill was carrying a general cargo from Antwerp to Havana. Explosives and other flammable materials were prohibited on the cargo manifest.

GUANTANAMO BASED

The Coast Guard said the Dupont is a Guantanamo based destroyer on patrol duty in the Caribbean. The Navy ship reported Cedar Hill's damage direct to the Navy base at Guantanamo, the Coast Guard said.

The 441-foot freighter first reported it had a fire aboard at about 8:49 p.m. EST yesterday but said it needed no help. At about 10 p.m. EST however, the Coast Guard received a second "urgent" message from the ship requesting aid.

The ship's position was given as 21.40 north, 74.03 west.

Last September a Spanish freighter, the Sierra Aranzazu machine gunned in the Caribbean by two unidentified motor boats.

Three of the ships officers were killed.

Strike at GM Economy Blow

(Continued From Page One) larger decline in industrial production during the nationwide steel strike in 1959.

The Federal Reserve said that "recovery in November will be dampened by the beginning of strikes at other plants in the auto industry."

An encouraging sign was the lack of secondary effects from the General Motors strike. Factories increased production of television and radio sets and other consumer durables and of staples, such as food and soap.

Although deliveries of new cars fell 30 per cent, retail sales continued to climb in other lines, and the over-all effect was a decline of only 3 per cent for the month. The output of business equipment was 10 per cent ahead of a year earlier.

JOBLESS STEADY

Since strikers are counted as employees in Labor Department statistics on unemployed, the jobless rate held steady at 6.2 per cent last month. There was a reduction in employment.

Construction was down 2 per cent from its record level of a few months ago. Commercial and industrial building increased, but construction of housing units declined.

The Commerce Department reported, meanwhile, that the deficit flow of dollars abroad had declined slightly to an annual rate of less than \$2.3 billion in the July-September quarter.

The dollar loss has been trimmed drastically since mid-1963, when it was at an annual rate of \$5.2 billion.

ECONOMIC FRONT

Also on the economic front yesterday, chairmanship of the President's Council of Economic Advisors passed from Walter W. Heller to Gardner Ackley. Arthur M. Okun was sworn in as a new member of the three-man panel. Okun, 36, is a Yale professor.

Heller resigned to return to his post as chairman of the Federal Reserve Board. Otto Eckstein, a Harvard professor, is the third member of the council.

SNOW IN THE DESERT—A surprise snow storm dumped two inches of snow on the desert near Tucson, Ariz., early yesterday. More than a foot of snow fell on the surrounding mountains. Many schools closed because of road conditions and the temperature fell to 33 degrees. Last week temperatures in the area ranged in the 80s.

Arsonist Said Cause of Area Fire

ADDISON TOWNSHIP — A fire tentatively blamed on an arsonist last night leveled an unoccupied farmhouse on Dequindre Road just south of 35 Mile Road.

Personnel at the Ford Motor Co. Proving Ground across the road from the house turned in the alarm at 9:50 p.m.

When the Addison Township Fire Department arrived on the scene, the building was completely enveloped in flames.

Township Fire Chief Elmer Powell said that arson was the most likely cause of the blaze, which was fought for two hours.

No indication of arson was found in the burned structure, but Powell said that the house had been unoccupied for about six years and that he could think of no other cause.

EXPLOSION HEARD

An unidentified person told firemen he heard an explosion at the time of the fire.

No estimate of damage was available this morning. The house apparently belonged to Joe Aho of 3 Polar, Pleasant Ridge.

The Oakland County Sheriff's which closely parallels a blaze which leveled a condemned, vac-office is investigating the fire, cant farmhouse. Sunday in Washington Township.

That fire is believed to have been started from two flare pots taken from a nearby construction site found in the house.

Rail Conductor, 44,

Killed by Train Engine

DETROIT (AP) — John A. Lustig, 44, a New York Central conductor, was killed Monday night when he was run over twice by a train engine from which he had fallen in a switch yard.

Police said Lustig, a Detroit, apparently was attempting to board the engine from the rear when he fell and was run over by the engine, which was uncoupling cars.

City Manager to Reply

To Answer Tax Charges

Charges of "taxation without representation" are slated to be answered tonight by Pontiac city officials.

The charges, incorporated in resolutions by surrounding communities against the city's proposed income tax, will be answered by City Manager Joseph A. Warren.

Specifically, Warren will reply to the "taxation without representation" charge in a resolution passed by the Rochester Village Council.

Warren's rebuttal will come at the City Commission meeting at 8.

In other business tonight, City Engineer Joseph E. Neippling is slated to report on a change in the city's assessment practices.

Waterford OKs Purchase of Property for Fire Station

Waterford Township Board members last night authorized the purchase of a fire station site in the northwest area of the township.

The two-lot site in the vicinity of Williams Lake Road and Macedonia Drive will cost \$1,960. An option was obtained on the site last May by Township Attorney Paul M. Mandel.

The site was one of three recommended more than a year ago by the township's planning commission for acquisition as proposed fire stations.

No construction plans have been made for the new station. Presently the township is served by three fire stations.

In other business at the relatively brief meeting, the board accepted General Printing Co.'s low bid of \$4,556 for furniture for the new water department building.

BIDS OPENED

Bids were opened last Mon

Crash Injuries Fatal to Teen

(Continued From Page One) died—from 1952 to 1958, before becoming chairman of the state security apparatus and the party central commission.

Demichev is closely associated with the chemical industry, a hope of the younger men for sharply stepped-up consumer production.

ENHANCE POSITIONS These appointments seem to enhance the positions of younger generation leaders, like President member Dmitry Polyansky, 47, an able administrator with wide experience.

Polyansky and Shelepin now are men to watch.

The moves can strengthen the party leadership in its direction of the Soviet economy. Both Shelepin and Polyansky probably support Brezhnev and the new premier, Alexei N. Kosygin. Their influence could be decisive.

But the appointments of Shelepin and Demichev are balanced by elevation of Shelest, 56, to the presidium.

A metallurgist who has been first secretary of the party in the Ukraine, Shelest's background suggests sympathy for the military's idea of continued priority for heavy industrial development.

INFLUENTIAL MEMBER

Probably Shelest was supported for advancement from alternate member status in the Presidium by Nikolai V. Podgorny, 59, an influential Ukrainian who is a member both of the Presidium and the secretariat.

Podgorny seems to be a pro-heavy industry conservative who, with Shelest, might oppose sharp shifts in the development of the economy.

Dismissal of Polyakov from the secretariat probably is attributable to Khrushchev's term failures and the party's anxiety to make a fresh start in attacking agricultural problems.

Birmingham Area News

'Selling Portion of Lot May Be Illegal Move'

BIRMINGHAM — Property owners who sell a portion of their land to adjoining neighbors were warned last night they will be subject to court action if the transaction reduces their lot size to below minimum area requirements.

Many of these sales are not handled by a broker or real estate agent, according to City Planning Director William R. Brownfield. Consequently, he added, a property owner probably is ignorant of the fact that he is making his property non-conforming with zoning standards.

Brownfield, in reporting the problem to the City Commission, said that only a few cases have occurred to date but as the city matures the situation could increase proportionately.

An opinion from the city's legal counsel advised that the type of sale is in violation of the zoning ordinance and that the city can prohibit an illegal sale from transferring or force a completed sale to be dissolved through legal action.

A violation carries a fine of up to \$100 and/or 90 days in jail.

USE RESTRICTED Brownfield also noted that a property owner whose lot is made nonconforming through a private sale is prevented from expanding his home or making major structural improvements or even reconstructing should the home be destroyed by fire or any other disaster.

In other commission action, Birmingham election workers were given a pay raise, retroactive to the Nov. 3 election.

The City Commission approved the increase on the recommendation of City Clerk Irene E. Hanley, who said the salaries paid to members of the election boards are lower than in any neighboring community.

The commission also requested the recommendation after receiving a petition from six low salary election workers that low salaries be corrected.

PAY CHANGE Chairmen and inspectors on daytime boards now will receive \$25 and \$20, respectively, while chairmen and inspectors of counting boards will get \$15 and \$10.

Daytime board chairman in the past received \$18 while inspectors were paid \$15. Counting board members had been paid \$1 an hour.

Playmates and assorted other females in the life of a playboy will appear in the Thursday production of the Newcomers Drama Club.

"Ladies, I Address You Privately" will be presented to the public at 8:30 p.m. at the Community House.

The play by David Wolf Windsor also will be performed for Newcomers Club members after their regular luncheon meeting.

Mrs. Irene Martin, a professional with 25 years of experience in the theater, is directing the one-act comedy.

The cast includes Mrs. Ginny Barton, Mrs. Mitzi Corkins, Mrs.

An innocent place was entered by Judge Beer when Gravin stood mute to the charge.

Gravin has been held in the Oakland County Jail since the bodies of the seven victims were discovered in their home at 2121 Carson, Troy, on Sept. 29.

William G. Gravin, accused slayer of his wife, daughter and five grandchildren, yesterday was ordered to stand trial on a first degree murder charge.

Gravin, 30, was bound over for trial following his arraignment before Circuit Judge William J. Beer. No date was set. Circuit Judge James S. Thornburn is scheduled to hear the case.

An innocent place was entered by Judge Beer when Gravin stood mute to the charge.

Gravin has been held in the Oakland County Jail since the bodies of the seven victims were discovered in their home at 2121 Carson, Troy, on Sept. 29.

William G. Gravin, accused slayer of his wife, daughter and five grandchildren, yesterday was ordered to stand trial on a first degree murder charge.

Gravin, 30, was bound over for trial following his arraignment before Circuit Judge William J. Beer. No date was set. Circuit Judge James S. Thornburn is scheduled to hear the case.

An innocent place was entered by Judge Beer when Gravin stood mute to the charge.

Gravin has been held in the Oakland County Jail since the bodies of the seven victims were discovered in their home at 2121 Carson, Troy, on Sept. 29.

William G. Gravin, accused slayer of his wife, daughter and five grandchildren, yesterday was ordered to stand trial on a first degree murder charge.

Says Rain Will Cut Odor at Osmun Lake

A good rain is the only immediate solution to the obnoxious odor emanating from Osmun Lake, according to District 4 Commissioner Leslie H. Hudson. While rain would help, it would still only be a temporary solution.

It would take a new sewer system to permanently solve the problem, the commissioner said in answer to the complaints of residents in the Osmun Lake area.

Nevertheless, rainfall would combat the low level of Osmun Lake, which would help cut down on the odor.

"No kidding," he commented, "it's really bad. But we've done everything that is humanly possible.

"There are several ways any politician involved in not solving the problem.

SEVERAL WAYS "There are several ways any politician involved in not solving the problem.

The only permanent solution to the odor problem is elimination of the combined storm and sanitary sewer system.

City Engineer Joseph E. Neippling supported Hudson's diagnosis. He said that a separate collection system would have to be built.

Neippling said the city is now working on a master plan for storm sewers under terms of a 701 Planning Grant. A master plan for sanitary sewers

Farmington Twp. Man Dies at Hunting Camp

William Bischof, 55, of 21365 Goldsmith, Farmington Township, died yesterday of a heart attack while hunting in the Upper Peninsula.

State Police said Bischof collapsed and died after dragging a deer to his camp near Nuberry in Luce County.

NATIONAL WEATHER — Showers and thunderstorms will extend from the Plains to the Tennessee Valley tonight with a few showers and snow flurries in the upper Lakes. The Rockies will have more in the higher elevations and showers in the lower elevations. It will be colder in the Plains, northern Rockies and the middle Atlantic states with a slow rise in temperatures in the central Mississippi Valley.

Wolverines 'Ready to Play Best Game'

U-M Eleven Preparing for Title Contest

Elliott Claims Team 'Under Pressure' on Recent Saturdays

BIG TEN CONFERENCE

Team	W	L	T	Pts
Ohio State	9	0	1	18
Michigan	8	1	1	16
Purdue	7	2	1	14
Minnesota	6	3	1	12
Illinois	5	4	1	10
Nebraska	4	5	1	8
Iowa	3	6	1	6
Wisconsin	2	7	1	4

ANN ARBOR (AP)—A confident Michigan football coach Bum Elliott said Monday the Wolverines "are under pressure and they are ready to play the best game they can" against Ohio State.

Michigan meets Ohio State Saturday at Columbus in a game that decides the Big Ten championship and a trip to the Rose Bowl.

"I have confidence they will play their best," Elliott said of the Wolverines.

Elliott said his team had been playing under pressure all year, particularly since the Wolverines' 21-20 loss to Purdue. "Every game became a must game," he said.

LIGHT DRILLS
The squad, which escaped unscathed in its 28-0 victory over Iowa last Saturday, held light drills Monday. The offense worked on its ground attack. The defense prepared to meet Ohio State runs and short passes.

Safety man Dick Findus, injured in the Illinois game two weeks ago, is a doubtful starter Saturday, Elliott said. Findus saw doctors Monday about the condition of his sprained ankle.

Reviewing Saturday's encounter at Iowa City, Elliott said the Michigan defense helped cause several Iowa fumbles.

The Wolverine mentor praised the defense for containing the Iowa offensive threat.

He said the team did not let down after hearing that Minnesota beat fellow contender Purdue 14-7. "They did not let ahead, but redoubled their efforts," he said.

The important thing for us is to do their job," he said.

Time Decides
Jumping Tie at Toronto

TORONTO (AP)—Rod Jenkins rode Nanticoke, a 7-year-old gelding owned by Charles P. Johnson of Lake City, Fla., to victory Monday in the International Open Jumper contest at the Royal Agricultural Winter Fair.

Jenkins had two faultless tries in beating Neil Shapiro of New York, who rode Jacks or Better, in a jump-off after both had tied in a clear ride over the course of 12 obstacles.

Both were clean in the jump-off, too, but Jenkins was two seconds faster with his time of 47.5 seconds.

Shapiro also was fifth on Uncle Max. Both Jacks or Better and Uncle Max are owned by Shapiro's family.

NEARS 50 MARK — Joe DiMaggio, the celebrated New York Yankee Clipper and Hall of Fame baseball player, poses in front of an oil painting of himself in DiMaggio restaurant on San Francisco's Fisherman's Wharf. Friends will honor him Wednesday with a banquet. He will be 50 on Nov. 25. DiMaggio's interest now is banking.

Mets' Conference Today

Switch by Yogi Nears

NEW YORK (AP)—Yogi Berra, a two-time loser in October, may have his cake and eat it today.

The deposed New York Yankees manager, with a \$25,000 going-away gift from his old bosses in his pocket, was expected to become a member of the New York Mets coaching staff at \$40,000 per year, with the announcement first coming at a Shea Stadium news conference at noon, EST.

Berra, who lost his one-year managerial job a day after the Yankees lost the deciding World Series game to St. Louis last month, reportedly will sign a two-year, \$80,000 contract as a member of Casey Stengel's strategy board and occasional pinch-hitter.

The \$25,000 "bonus," which Berra will get if he steps out of the job the Yankees offered him after his dismissal as field boss, was made public Monday by Yankee General Manager Ralph Houk.

PAY CUT
"Dan Topping (Yankee president) and I felt strongly that the club owed Yogi at least that much for his long service," Houk said in Ft. Lauderdale, the Yankees' winter base. "He took a pay cut when he went from player to manager."

"I haven't heard from him yet about wanting to go elsewhere and I hope he decides to stay. But he's free to do what he wants and he still gets the money."

Berra signed a two-year contract as a special field consultant for the American League club, effective Nov. 1, but an escape clause permitted him to accept another post if he desired.

Ohio State Coach Listens to Report

COLUMBUS, Ohio (AP)—Ohio State Coach Woody Hayes wasn't the country's happiest press luncheon host Monday as he looked forward to Saturday's "winner take all" classic with Michigan.

Although leading the Big Ten with a 5-0 record, and needing either a win or a tie to take the conference crown and a bid to the Rose Bowl, Hayes shuddered as scout Esco Sarkkinen expounded on the exploits of the Wolverines.

The powerful Wolverines, with a 5-1 league mark, also are in position to take the whole works — title and Rose Bowl bid — if they triumph over the Buckeyes for the first time in five years.

The statistics, with Ohio State having played three so-so

games after five good ones, hint the Wolverines are good enough to get the job done. If Michigan wins, the extra conference game will provide the difference.

LONG SERIES
The annual affair, 61st in the long series in which Michigan holds a 35-21-4 edge despite Hayes' nine victories in 13 tries, shapes up as a scrap between the Wolverine assault and Ohio State's defense. The Buckeyes have out-scored five conference victims 102-31, while Michigan has a 146-69 edge for six games, one a 21-20 loss to Purdue.

Ohio's two big guns, fullback Willard Sander and halfback Tom Barrington, still are suffering from injuries suffered in the 16-0 win over Northwestern, and Hayes plans one definite line-up change.

Barrington, who played only 7 1/2 minutes, will give up his starting job to Leon Lindsay. Sander, who was in for 17 1/2 minutes, will get a lot of help from Sophomore Paul Hudson who made his first appearance Saturday.

Sarkkinen told the scribes the Michigan team is the best since the Fritz Crisler 1947-50 era when the Wolverines swept to four straight conference crowns.

"Their backfield is tremendous," Sarkkinen said. "Bob Timberlake, the 215-pound 6-3 senior, is the best running quarterback in the country."

Timberlake has engineered Michigan's offense to 2,596

yards in eight games, an average of about 325, while Ohio State has ground out 2,107 for an average of 252. The Wolverines have rushed 1,844 to Ohio State's 1,196, but the Buckeyes have an 821 to 752 edge in passing.

The last time the two titans tangled in a game in which the winner was assured the championship was in 1955. Ohio State won that one by 17-0. But in 1950, when the same conditions prevailed, Michigan won the "Blizzard Bowl" contest 9-3 without making a first down—and went to the Rose Bowl for the last time.

Lions' QB Fights Odds

By BRUNO L. KEARNS
Sports Editor, Pontiac Press

Milt Plum, by his own choice, will probably not be with the Detroit Lions next season.

Plum's plight with the Lions has been a sad one this season as was last year, and the veteran quarterback appears intent in not having another.

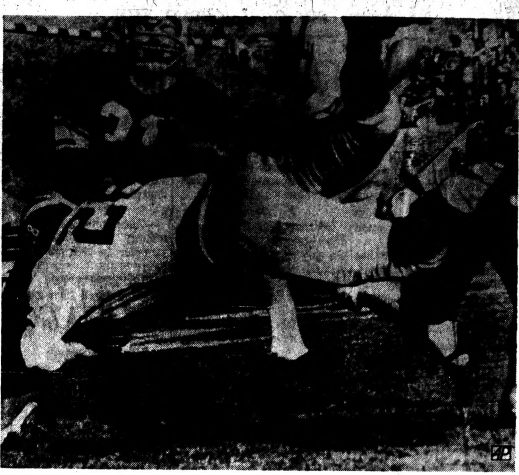

Lone and dejected near his locker after the Browns' loss, only a look at his arm bore out what coach George Wilson said, "It took a lot of guts for him to play."

Plum's problems haven't been all physical. He was openly sounded out by a teammate who has led the anti-Plum forces.

Never once has Plum complained about his injuries or given any indication he would not do the job. "I can only do the best I can," he said, "gotta keep pitching."

His desire to "keep pitching" has won the admiration of Lions' bosses, but it is obvious Plum wants to be traded.

His house is now up for sale, which may or may not indicate his intentions. He hides his pains well but not his thoughts.

OLD COLLEGE TRY — Quarterback Bob Timberlake is credited with sparking the Michigan Wolverines to within one victory of the Big Ten championship. Here he is shown

diving over the goal line for a touchdown against Iowa. The Wolverines play Ohio State Saturday in a "winner take all" game.

Notre Dame Ups Margin in Stretch

By The Associated Press

Undeclared Notre Dame's impressive 34-7 victory over Michigan State enabled the Fighting Irish to increase their lead in The Associated Press college football poll with only two weeks left before the national titleholder is crowned.

The weekend results followed form sheets closely, thus the only changes among the Top Ten involved the bottom three places.

Louisiana State, which beat Mississippi State 14-10, advanced one notch to eighth. Syracuse and Oregon took over the last two spots, replacing Oregon State and Georgia Tech.

MOVED UP
Syracuse beat Virginia Tech 20-15 and moved into the No. 9 position. Oregon took over the 10th spot with a 29-21 conquest of Indiana. Oregon State, eighth a week ago, was beaten by Stanford 16-7 and Georgia Tech, 10th last week, dropped a 24-7 verdict to second-ranked Alabama.

Notre Dame, with an 8-0 record, collected 34 first place votes and 423 points in the balloting by a special panel of 45 experts.

Alabama, 9-0, drew nine first place and 400 points. The Crimson Tide trailed Notre Dame by only 13 points a week ago.

The Top Ten with first place votes in parentheses, non-top records and points on a 10-7-6-5-4-3-2-1 basis:

Last Weekly Poll Lists Surprise 'C' Champion

By The Associated Press

Middleville (9-0) climaxed its season-long climb in the Michigan high school football ratings by placing first in Class C-D in the final poll conducted by The Associated Press.

Middleville's final standing—a single point ahead of Waterliet—was a surprise since Elsie had been the leader among the state's smaller schools for the past two weeks.

There were no surprises in the other two classes. East Lansing (8-0) finished on top in Class A. Albion (8-0) took Class B honors.

The AP's statewide panel of sports writers and sportsmen named Saginaw Arthur Hill, Traverse City and Flint Central as the next three teams in Class A. Detroit Southeastern advanced two places to take the No. 5 spot.

10TH PLACE
Lincoln Park edged back into the standings as it finished 10th in the final poll of the year, replacing Grand Rapids Ottawa.

Albion, which grabbed the lead in Class B after Kingsford was upset three weeks ago,

without a strong challenge by Buchanan.

Detroit St. Ambrose, which has a game remaining, placed third, followed by Dundee and St. Johns. Oscoda made its first appearance of the year by placing 10th, Fenton replacing Fowler.

The final voting for 1964, with points based on 10 for a first place vote, 9 for a second, etc., dropping 1 point for a 10th-place vote:

Team	Record	Class	Pts
1	East Lansing (9-0)	A	142
2	Saginaw Arthur Hill (9-1)	A	124
3	St. Ambrose (8-0)	B	76
4	Dundee (8-1)	B	74
5	St. Johns (8-0)	B	72
6	St. Charles (8-1)	B	68
7	St. Joseph (8-1)	B	64
8	St. Louis (8-1)	B	60
9	St. Ignace (8-1)	B	56
10	Lincoln Park (8-1)	B	52

Unbeaten 11s Sliced to 16

By The Associated Press

Six college teams toppled off the football unbeaten and untied list Saturday, reducing the number with perfect records to 16.

Louisiana Tech, Florida A&M, Cortland State, Bowling Green, Williams College and Maryville of Tenn. lost their first games.

Alabama, Arkansas and Nebraska top the remaining 16 with nine straight victories. Notre Dame and Princeton are unbeaten, untied in eight games.

Alabama Nine Games

Team	Record	Pts
Alabama	9-0	213
Arkansas	9-0	207
Nebraska	9-0	206
Notre Dame	8-0	423
Princeton	8-0	381
Michigan	8-1	235
Mississippi State	8-1	132
Louisiana State	8-1	127
Syracuse	8-1	125
Oregon State	7-1	92

Wings' Crozier Stars

Rookies Set Fast NHL Pace

NEW YORK (AP)—Can the kids keep it up?

If the National Hockey League's bumper rookie crop continues to play the way it has for the first month of the season, there will be quite a scramble for first year honors.

But Emile Francis, the new general manager of the New York Rangers, doesn't think it's a race at all.

That's right, the two best rookies in the league right here," Francis told the weekly hockey writers' luncheon Monday. "Rod Seiling and Arnie Brown have moved right in to win regular assignments."

In Toronto, all the talk is about young Ron Ellis, who played junior hockey last season with Seiling. Ellis has scored six goals in the Leafs' first 14 games and has helped pick up the slack caused by injuries to Frank Mahovlich and Dave Keon.

TOP GOALIE
Detroit goalie Roger Crozier

is the NHL's leading netminder and has better credentials than a rookie have? Crozier played 15 games for the Wings last year but still is eligible for rookie honors this season.

Right wing Yvan Cournoyer and defenseman Ted Hartill both play regularly for Montreal with Cournoyer touted as the successor to the retired Bernie Gosselin. Blond Ron Schock is the Boston Bruins' only rookie and also takes a regular turn.

Chicago carries five first year men on its roster with Phil Esposito and Doug Mohns getting the most work. Fred Stanfield, John Brennenman and Dennis Hull are the other Hawk rookies.

Torrid G Breaks Ice

JACKSON (AP)—Owner Arthur Roach of Columbiaville drove his Torrid G to its first victory at the Jackson Harness Races and eighth of the year in the Muscular Dystrophy Pace Monday night. Torrid G, timed in 2:10.35, paid \$15.00, \$10.30 and \$7.00.

Ace at Bald Mountain

Golf season is still with us. Don Hostetler of Bloomfield Hills kept his clubs out. He scored the 170 yard par-3, No. 17 hole at Bald Mountain Sunday and carded a 35 for the nine.

Small Gains Made

Stock Market Jogs Upward

NEW YORK (AP)—The stock market moved irregularly higher in moderately active trading early today.

After a mixed start, selected key stocks jogged upward, most of them making small gains. A broad scattering of fractional losers remained from a mixed opening.

A wider move was made by Du Pont which added another 5 to its 5-point peak of Monday on news it will distribute its remaining 23 million shares of General Motors stock.

GM continued to respond bullishly to this rising another fraction despite the addition of its large amount of GM stock to the available supply.

SLIGHT GAIN

Chrysler also gained a fraction while Ford remained unchanged as its labor difficulties continued.

Alcoa gained over a point in continued response to the boost in aluminum prices.

AMC Reports Earnings Drop

Profits, Total Sales Down From Year Ago

DETROIT (AP)—American Motors Corp. Monday reported net earnings for its fiscal year ended Sept. 30 totaled \$26,286,735, equal to \$1.38 a share, compared with \$37,007,205, equal to \$2.01, in the fiscal year ended a year earlier.

AMC said earnings in the final quarter were \$247,701, compared with \$3.7 million in the same quarter of the previous year.

The company's earnings provided \$2,652,274 for profit sharing with hourly rated employees with \$1,388,150 going into a cash fund in finance extended fringe benefits and \$684,086 being used to purchase \$131 share of AMC stock for individual distribution to workers.

AMC currently has 25,400 hourly rated workers on its payroll.

ADDS TO AMOUNT

The new distribution brought to \$21,067,040 the amount accumulated in three years for workers under the auto industry's first profit sharing plan.

A new contract between AMC and the United Auto Workers Union provides profit sharing to the extent of adding an extra two weeks of vacation pay on top of what was gained from the Big Three—General Motors, Ford and Chrysler—in new three-year pacts. But the new plan carries no stock feature, and any added vacation pay, of course, is contingent on profits.

AMC reported that sales for the 1964 fiscal year topped \$1 billion for the fourth time in the company's history, reaching \$1,009,470, compared with \$1,132,356,228 the previous year.

It said the fourth-quarter in earnings resulted because: 1. New model production did not meet anticipated volume because of supplier shortages and other manufacturing problems; 2. Tooling amortization was substantially higher than in the same quarter a year ago, and 3. Earlier public announcement this year caused a substantial proportion of new car introduction expense to be charged in the final quarter, instead of in the December quarter.

Outlook Is Bright

Steel Schedule Shines

By SAM DAWSON
AP Business News Analyst

NEW YORK—The steel industry sees busy schedules in the final weeks of the year despite shutdowns in some customers' plants and still labor demands loomed in steel's own.

The United Steelworkers Union is starting to map its spring negotiations. First it may have to settle a leadership fight in its ranks. And the fight is likely to increase its demands, workers win.

Management already was on notice that the union's asking price would be much stiffer than last time.

Labor shutdowns in many auto plants this fall have led to steel shipments to these big customers. But steel production schedules so far have been affected little.

MILLS BUSY

Other customers have kept the mills busy. And orders on hand will keep many working near capacity for weeks ahead. Many companies will be using new equipment that eases production costs—and raises profits.

The final week of the year, and the early ones of next year, look bright indeed.

Pressure for steel price increases continues strong, although held in check just now by White House frowns.

The upcoming bargaining with the steelworkers doesn't make the steel executives task easier, nor does the uncertainty as to the outcome of the union's internal power struggle.

NOT HAPPY

And customers aren't too happy either. The worst possibility they face would be a strike. Another outcome would be a labor settlement so generous that it would increase steel production costs and intensify the pressure for a price raise.

Either way customers stand to lose. And many already have started looking up their steel stocks a bit, just in case.

If this movement gathers speed, as the fight in the union develops, and as the final labor demands take shape, steel mills would find themselves operating at a loss.

COSTS HIGHER

Tooling amortization was substantially higher than in the same quarter a year ago, and 3. Earlier public announcement this year caused a substantial proportion of new car introduction expense to be charged in the final quarter, instead of in the December quarter.

Salaries employees were credited with \$726,384 from profit sharing, inaugurated for them after it, was negotiated by the UAW for hourly rated workers.

Several teachers' desks were reported ransacked yesterday in a break-in at Leggett School 2821 Pontiac Lake, Waterford Township. Loss is undetermined.

Bandit Holds Up

City Gas Station; Flees With \$40

A lone bandit robbed a Tulsan gas station at 701 S. Saginaw early last night and fled with \$40 in cash.

Attendant Robert Yovich Jr., 41, of 818 Douglas, Bloomfield Township, told police the man drove into the station and asked for gasoline.

The robber then went into the rest room. When he reappeared he was carrying a blue steel revolver and wore a mask, Yovich told police.

After taking the money the bandit fled, Yovich said.

Deaths in Pontiac Area

EVERETT B. BURLISON

Service for Everett B. Burlison, 49, of 2004 Bender, Waterford Township, will be at 3 p.m. Thursday in Crescent Hills Baptist Church with burial in the Crescent Hills Cemetery. His body is at the Coats Funeral Home, Waterford Township.

Mr. Burlison, a mechanic at Pontiac Motor Division, died yesterday after an eight-day illness. He was a member of Crescent Hills Church.

Surviving are his wife, Virginia; four daughters, Mrs. Richard Kidd of Waterford Township, Mrs. Harry Cooper and Mrs. Larry Petty, both of Pontiac; and Marlene at home.

Other survivors are four sons, Darryl of Waterford Township, Terry of Lapeer, John and Wayne, both at home; nine grandchildren; two brothers; and three sisters.

MRS. ARCHIE GALBRAITH

Mrs. Archie (Matilda R.) Galbraith, 79, of 368 Osmond died yesterday. Her body is at the Voorhes-Siple Funeral Home.

Mrs. Galbraith, a mother of St. Vincent de Paul Catholic Church, leaves two sons, Morrell of Walled Lake and Robert of Pontiac; and three daughters, Mrs. George Reisel, Mrs. Maurine L. Nichols and Mrs. Margaret Hitchcock, all of Pontiac.

Also surviving are nine grandchildren, five great-grandchildren and a sister, Mrs. Clara Galbraith of Waterford.

JOHN E. GREER

Service for John E. Greer, 50, of 873 Melrose will be at 11 a.m. Thursday in Voorhes-Perry Mount Park Cemetery.

Mr. Greer, an employee of Chelsea Manufacturing Co., Chelsea, died yesterday after a long illness.

Surviving are his wife, Elsie; his mother, Mrs. Nancy McDock of Piney View, W. Va.; two children, John J. of Clarkston and Brenda J. of Pontiac; a sister; and two brothers.

WILLIAM A. HUBBLE

Service and burial for former Waterford Township resident William A. Hubble, 52, of 2500 W. 14th, will be at 2 p.m. today at the Spaulding & Curtin Funeral Home, Ferndale. Burial was in Lakeview Cemetery, Clarkston.

Mr. Hubble, a truck driver for Boutell Corp., died Friday of a heart attack.

Surviving are his wife, Agnes; two sons, Richard W. of Pontiac and John M. of Waterford Township; a daughter, Mrs. Gerald

Smith of Waterford Township; and five grandchildren.

Also surviving are five sisters, Mrs. Warner Beckman and Mrs. Stanley Rader, both of Clarkston, Mrs. Thornton King of Ortonville, Mrs. Arnold Ireland of Lake Orion and Miss Donna Hubble of Roscommon.

Other survivors are his brother, Norman of Waterford Township, and his mother, Mrs. Floyd A. Hubble of Roscommon.

MRS. JOHN JENNINGS

Service for former Pontiac resident Mrs. John (Grace) Jennings, 79, of Mio will be at 1:30 p.m. Thursday in the Huntoon Funeral Home with burial in Perry Mount Park Cemetery.

Mrs. Jennings died yesterday. Surviving are three sons, Harold of Mio, Kenneth in Florida and Watson in Maryland; and four daughters, Mrs. Winnie Berth and Mrs. Thelma Evans, both of Pontiac, Mrs. Lula B. Norris of Clarkston and Mrs. Aldena Snyder of Caro.

Also surviving are 17 grandchildren, 11 great-grandchildren and a brother.

NORMAN E. BRIGHT

GOODRICH — Service for Norman E. Bright, 65, of 12926 Huron will be at 2 p.m. Thursday at the C.F. Sherman Funeral Home, Ortonville. Burial will follow in Goodrich Cemetery.

Mr. Bright died yesterday after a six-week illness. A former employee of Chevrolet of Waterford Township, he was a member of the Goodrich Methodist Church and the Goodrich Lodge, F.&A.M.

Surviving are his wife, Marjorie; two sons, Charles of Grand Blanc and Norman of Goodrich; a brother, and six grandchildren.

MRS. KLAAS KNIBBE

IMLAY CITY — Service for Mrs. Klaas (Leentje) Knibbe, 41, of 858 Pata was to be 2 p.m. today at the Christian Reformed Church with burial in the Imlay Township Cemetery.

Mrs. Knibbe died Saturday after an extended illness.

Surviving besides her husband are seven children, Hendrik, Dirk, Klaas, Peter, Regal, Jan and Marianne, all at home; her parents, Mr. and Mrs. Dirk Ockhuisen of Imlay City; a brother, and a sister.

FOND MEMORIES

They got the election results in the Driskill Hotel in Austin,

WREAK HAVOC — Roaring winds dismantled several homes like this one in the Ogden, Utah, area early yesterday. The 80-an-hour winds collapsed a wall of a Baptist Church, uprooted trees and felled power lines throughout the second largest city in Utah.

'Shaky' Start 30 Years Ago

Johnsons Mark Anniversary

WASHINGTON (AP) — "I hope this marriage lasts," the minister said 30 years ago when the bridegroom, Lyndon Baines Johnson, was in such a hurry he forgot to buy a ring.

They'll probably laugh about it again tonight at a family dinner party in the White House celebrating the wedding anniversary.

Lady Bird Johnson still keeps as a memento the Sears & Roebuck ring hastily purchased because young Johnson goofed on the day of their wedding in old St. Mark's Episcopal Church in San Antonio, Tex., Nov. 17, 1934.

The Rev. Arthur K. McKinstry officiated.

His 30-year marriage milestone comes exactly two weeks after the election in which the Johnsons were assured another four-year lease on the White House.

STILL THINKS SO

"I still think he's remarkable... and I know a lot more about him," she added with a smile.

Tonight the Johnsons hope to celebrate the occasion in private.

Tex., a spot of fond memories. It was there Lyndon and Lady Bird had their first date — breakfast in the hotel's coffee shop.

It was all a far cry from the day they were married, Lyndon, 26, and Claudia Alta (Lady Bird) Taylor, 21, Johnson then was secretary to Texas Rep. Richard Kleberg.

Only last week, entertaining the president-elect of Mexico, Johnson recalled he and his wife had honeymooned in Mexico at Xochimilco, famed for its floating gardens.

Recently Mrs. Johnson said she thought her husband was a remarkable man when she married him.

STILL THINKS SO

"I still think he's remarkable... and I know a lot more about him," she added with a smile.

Tonight the Johnsons hope to celebrate the occasion in private.

cy with their daughters, Lynda, 20, and Luci, 17.

The 30th year of marriage is traditionally known as the pearl anniversary. The White House wasn't saying anything about what gifts might be exchanged between the President and his wife.

Two Pontiac youths were yesterday sentenced to one year probation and \$25 court costs for taking and using an automobile without permission but without the intent to steal.

The pair, Larry Dempsey, 18, of 60 Douglas and Richard Carter, 17, of 75 Virginia, were arrested by sheriff's deputies in connection with the alleged Saturday morning assault and robbery of two White Lake Township men, Jake Stuart, 36, of 3640 Menden and Raymond Rust, 18, of the same address.

Two juveniles were also picked up in connection with the incident and have been turned over to juvenile authorities.

Two community leaders of the Pontiac area were elected to the Michigan Regional Advisory Board of the Anti-Defamation League of B'nai B'rith at the annual state board meeting in Detroit Sunday.

They were S. Jerome Bronson, 24540 Seneca, Oak Park, Oakland County prosecutor-elect and Jerome Weiss, 181 S. Josephine, Pontiac.

The Anti-Defamation League is the educational arm of B'nai B'rith, America's oldest and largest Jewish service organization seeking to promote good will between all groups.

The only guaranteed measure against this, she said, is revitalization of the Republican Party.

She said the GOP must make a determined effort to woo Negro voters away from the Democratic party, adding:

"Unless the GOP now intends to capture the Negro revolt from the Democrats and make it a prime crusading image, the Negroes will remain a Democratic voting bloc for quite some time."

Needs Help With Pistol

PRICHARD, Ala. (AP) — Rookie policeman J. E. Jordan probably will be getting some instruction soon from fellow officer Danny Goldman on how to handle a pistol.

Jordan bent over to pick up a book yesterday shortly after reporting for duty at the city jail. When he stooped, his pistol fell from his holster. He picked up the gun and it discharged.

Goldman suffered the only injury — a sore head. The bullet shattered an overhead light which fell on Goldman.

Death Takes Ex-Supervisor

George H. Richardson, former supervisor of Waterford Township, died yesterday after a long illness.

Service will be at 3 p.m. tomorrow in the Coats Funeral Home, Waterford Township with burial in the Drayton Plains Cemetery.

Mr. Richardson of 2528 Litchfield, Waterford Township, a farmer, served as treasurer and supervisor of Waterford Township from 1918 to 1921. He was a member of Oakland Avenue Unit of Presbyterian Church.

Surviving are his wife Mabel; three daughters, Mrs. Guy Caswell of Pontiac, Mrs. Lawrence Giddings and Mrs. Gertrude Moore, both of Waterford Township; and two sons, Carlos and George F., both of Waterford Township.

Also surviving are 27 grandchildren; 94 great-grandchildren; and a sister Mrs. Dan Kinney of Pontiac.

Famed Composer of Musicals Dies

LOS ANGELES (AP) — Composer Albert May Malotte, 69, who set "The Lord of the Rings" to music, died Monday night at his home.

He suffered a cerebral hemorrhage in 1962 and had been in ill health since.

In recent years Malotte had written musical scores for Hollywood movies. Among his movies were "Big Fisherman," "The Enchanted Forest," and "The Lady and the Tramp."

Arson Suspect Held by Police

Witness Says Fire Began After Warning

Pontiac police are holding a 29-year-old man for investigation of arson in connection with a house fire early this morning at 19 W. Wilson.

Thomas Miles, 29, who lives at the rear of the home was arrested by officers shortly after 3 a.m. in a taxicab at 447 S. Saginaw.

Mrs. Georgina Liddell, the occupant of the house, told police that shortly after 2:30 a.m. Miles began yelling for her to come downstairs.

She told police when she refused Miles then told her this was "the last call." The next thing she knew the house was ablaze, she said.

Mrs. Liddell and the other occupants of the house, her mother, Mrs. Zana Walker, 69, and her brother, Donald Brown, 39, escaped from the building unharmed.

Gasoline CAN

Fire department officials said they found a five-gallon gasoline can in the house which still contained a small amount of fuel.

Police said their investigation has indicated that Miles purchased five gallons of gasoline shortly after 2 a.m. from a gas station on South Saginaw.

Damage to the building and contents was listed at \$2,000.

Dog Welcome at Hotel; Not Sure About Owner

DURBAN, South Africa (UPI) — A dog owner who wrote to Durban hotel requesting reservations for him and his pet received the following acknowledgement from the manager:

"I have been in the hotel business for 30 years and never have I had to eject a disorderly dog. Never has a dog set fire to a bed. Never has a dog stolen a towel or a blanket. Your dog is very welcome. If he will vouch for you, you can come along as well."

6 guides to smart investing

Guide #1: Keep a cool head about hot rumors. Maybe you're next on the list of a tipster. He might be a stranger on the phone, or even a friend who thinks he's doing you a favor, calling you with so-called inside information on a stock that's about to "take off." The jargon of the tipster can have an appealing ring. But there's no wiser guide to smart investing than to apply a cool head to cool facts. And to be wary of any rumor marked "rush."

Guide #2: Understand what a Member Firm broker can do for you. He's a good man to turn to when you dig for facts. If you should become interested in a particular company, ask him for information about it. Perhaps he can get you an annual report. Discuss its reported earnings, dividend record and plans. It may be important to get his opinion on how it stands in its field and what he thinks of its prospects. There's risk in any investment, so invite his opinions on that point too. (But don't expect that he will always be right.) Then bring your own judgment to bear. Finally, if you decide to invest, he will have your order executed and send you a confirmation.

Guide #3: Know your broker's qualifications. Member Firms of the New York Stock Exchange are subject to many qualifying standards and a wide range of Exchange rules, including surprise audits. In addition, every Registered Representative has had to meet the Exchange's requirements for knowledge of his business at the time he became a broker in a Member Firm. He's not infallible, but his point of view can help season your own judgment.

Guide #4: Before you decide, review your goal. A stock that's right for one person might miss the mark for you. Your need may be to build a second income—from dividends on stock or interest from bonds—or to give your stock a chance to grow in value over a span of years. Possibly you prefer bonds for the greater safety of principal and stability of income they frequently offer.

Guide #5: Consider carefully how much you might invest. The aim of investing, of course, is to improve your financial position. But the smart investor takes that step only after providing first for living expenses and emergencies. (For those who prefer investing on a budget there is the Monthly Investment Plan, requiring as little as \$40 each three months.)

Guide #6: Send for this free booklet, "INVESTMENT FACTS" offers a variety of information to help you guide your investment planning.

Woman in Baltimore Gives Birth to Quads

BALTIMORE (AP) — A Baltimore woman gave birth to quadruplets — three girls and a boy — late last night at Sinai Hospital.

The hospital said an official announcement would be made later on condition that the mother and the babies' A spokesman said he understood all were doing fine. The mother, who the spokesman said has four other children, was not identified immediately.

Police Dog Aids Escapee's Capture

The Michigan State Police, with the assistance of the tracking dog Hans, early this morning captured one of a pair of escapees from a pair of escapes from the Pontiac State Prison camp in White Lake Township early last night.

Recaptured was a Nathaniel Gross, 17, of Detroit, who was serving a term for larceny. Still at large is Carlis A. McNew, 20, of Milburg, who was sentenced to the camp for unlawfully driving away an automobile.

Hans tracked both men, police said, but they apparently split up. The dog and his handler, Trooper Richard Charter of the Pontiac Post, flushed Gross into the open near M59 in Highland Township.

The escapee ran into the path of troopers from the Brighton State Police Post and was captured.

Enthusiastic Greeting for Bobby in Mexico

MEXICO CITY (AP) — Sen. elect Robert F. Kennedy of New York received an enthusiastic welcome Monday night from hundreds of Mexicans and Cuban exiles when he arrived for the dedication of the John F. Kennedy housing development.

The development, which will provide modern housing, recreation and shopping for 18,000 persons, was built under the late president's Alliance for Progress program.

Clare Boothe Luce Rips Liberals as GOP Leaders

DETROIT (AP) — Republican liberals "who wrought defeat by deserting their party will not and cannot be the leaders who will now take over," Clare Boothe Luce told the Economic Club of Detroit in a speech Monday night.

Mrs. Luce, former Republican congresswoman and ambassador to Italy, said "there is no place, there is no room" for the liberals she criticized in rebuilding of the Republican Party.

"MODERATES' JOB

Conceding the GOP "is at its lowest level in history," Mrs. Luce said its rebuilding will have to be undertaken by "moderates."

"There is now the critical organization and ideological problem of trying to mesh its conservative hard core into a party of wide appeal," she said, adding:

"This can be done only by the moderates, but they will need both the progressive and conservative wings. Reconciliation, however, hardly can be left to the warring leaders of these two factions."
