Probers Eye Mennen Firm

Senate Racket Group Won't Call Governor as Witness

WASHINGTON (INS) — The Mennen Company, from whose products Michigan Gov. G. Mennen Williams got his nickname "Soapy," comes up for quizzing today before the Senate Rackets Committee.

But Gov. Williams, a director and stockholder of the firm, will not be called as a witness in the checkup on Mennen's relationship with big-time labor consultant Nathan Shefferman.

Committee Counsel Robert Kennedy said: "There is no reason to call Gov. Williams any more than there is to call in all of the stockholders."

The committee will question instead President George Mennen.

The Senate investigators have been hearing testimony on anti-union activities by concerns which bought advice from Shefferman's labor relations associates organization.

Shefferman also had close connections with former Teamster boss Dave Beck and his successor, James Hoffa, who has been restrained from taking office by a Federal Court order. (Continued on Page 2, Col. 3)

Flies to Span Opening

LANSING (AP) — Gov. Williams planned to leave by airplane late today for formal opening of the Mackinac Straits Bridge.

Man May Begin to Answer This Question Soon

Are There People Like Us in Outer Space?

By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK (AP) — Are we the only humans living in this incomprehensibly vast universe of ours?

Or are there people like us, or even superior, on other planets near or far away?

Only by exploring space, can man begin to answer this question nagging him nearly since his time began.

"We are not alone," declares Dr. Harlow Shapley, famous Harvard astronomer. He estimates there could be 100 million planets capable of supporting life as we know it.

There are billions upon billions of stars or suns in the universe. Even supposing that most have no planets at all, there still could be 100 million planets situated at the right distance from a sun, possessing oxygen and all other conditions for our kind of life, Dr. Shapley reasons.

Very likely, human astronauts will never be able to visit more than the other planets of our Sun—Mars, Venus, Jupiter, Saturn and others.

These could be reached in days, weeks or years, depending on top speeds which space cruisers traveled.

By picking up enough speed once they were in outer space, cruisers might reach any of our planets within days.

Then men could learn whether there is life, even fantastically different forms of life, on these planets—some arid, some ter-

ribly hot or cold, some bathed in poisonous fumes.

What is the meaning of Mars' "canals," of Jupiter's strange markings? Are the asteroids, the belt of flying chunks of matter between Jupiter and Mars, really the remains of an exploded planet?

But reaching even the nearest star, to see if it has planets at all seems impossibly beyond man's dreams. (Continued on Page 22, Col. 1)

Poet Sandburg Thinks 'Sputnik' Is a Good Word

CHICAGO (INS) — Poet Carl Sandburg says "Sputnik" is a good word.

Sandburg, speaking before the Headline Club, Chicago professional chapter of Sigma Delta Chi, journalism fraternity, said: "Outside of all the military and war implications of Sputnik, there is something else about it—the fact that it has captured man's desire to know."

"We are just beginning to know space. There's something healthy about Sputnik—it has shown us that we don't have a heaven-chosen aristocracy of scientists over here."

Sandburg called television announcers who deliver commercials "lice—the plural of louse." He said pay-TV might be beneficial because it would eliminate commercials.

Police Seeking Wounded Boy

Slashes Officer With Razor in Manhunt at Grand Rapids

GRAND RAPIDS (AP) — Police today sought a 19-year-old youth believed wounded by gunfire after he slashed a detective with a razor and fled arrest at his home.

Officers said they believed a police bullet struck John Munson, who broke away from arrest last night for investigation of parole violation and larceny. The youth was described as "extremely dangerous."

Detective Lt. Laurin Dunn was treated at St. Mary's hospital for razor slash wounds on the nose and upper lip, suffered when Munson darted past him on the back porch of the youth's home.

Police fired at Munson, who vanished on foot after leaping a fence at the rear of the home. A riot squad, dispatched to the home early today on information he might have returned, found no one.

The youth was sentenced in May, 1956, to 18 months to 15 years in prison on a charge of breaking and entering.

Trick or Treaters May Expect Rain

The witches must have brewed up the weather for this Halloween night—and although "Trick or Treaters" may not like it, the skies will be just right for ghosts and goblins' haunting.

For the Pontiac area, the U.S. Weather Bureau predicts cloudy and occasional rain tonight. The low will be 40-44. Tomorrow will be cloudy and colder with occasional showers, high 44-48. Forty-four was the lowest recorded temperature preceding 8 a.m. in downtown Pontiac. At 1 p.m. the temperature was 50.

16 Models Available in Division's 4 Lines

New Air Ride Suspension, Fuel Injection Optional for Entire Series

By JOHN W. FITZGERALD
Editor, Pontiac Press

Pontiac's exciting new lines of 1958 cars offer completely revamped styling, plus many additional engineering features. The cars will go on display to the public Nov. 9.

In the words of S. E. Knudsen, GM vice president and general manager of Pontiac Motor Division, the cars are "the boldest advance in 50 years."

The 16 all-new models in four series will be headed by the "dream car" known as the Bonneville. This sports type car will be offered in both the convertible and the sport coupe.

Since the first Oakland in 1908, Pontiac has made tremendous strides. "Outside of wheels and an engine, there is no resemblance to the sleek '58 Pontiacs which will be lower, longer, wider and combine high performance with comfort and luxurious interiors," Knudsen said.

Three innovations with Pontiac this year are:

- 1.—A convertible in the lowest priced Chief line;
- 2.—Air ride suspension optional on all cars.
- 3.—Fuel injection available on all cars.

In addition to the five-passenger Bonneville convertible and the sport Coupe, Pontiac has for 1958 the Star Chief series—

consisting of two and four-door Catalinas, a four-door sedan with slim center pillars, and a custom Safari station wagon.

The Super Chief line includes two and four-door Catalinas and a slim pillar, four-door sedan. The Chief line is led by the convertible, new in this line; two and four-door Catalinas, two and four-door slim pillar sedans and a two-seat and a three-seat, four-door station wagon.

Engineering-wise, Pontiac has come up with one of the hottest engines in the industry.

The new "Tempest 235" V-8 engine is bigger than ever, with displacement increased from 347 to 370 cubic inches, and designed to deliver power where most needed—in the traffic range.

Pontiac engineers list 88 new features in the 1958 models and 135 separate safety features.

Striking "New Director" styling accentuates the car's longer, lower, wider look. The low, horizontal grille is topped by dual twin head lamps and rises above the heavy bumper, which incorporates massive parking and signal lamps. A new gold, rectangular crest featuring a

Other Car Pictures on Page 17

ride atop each front fender with twin wind splits continuing along the fender.

The missile-type side moldings sweep back to concave flares in the rear fender and frame distinctive series markings. The Bonneville has, in addition, four simulated front fender louvers.

From the rear the 1958 Pontiac (Continued on Page 2, Col. 2)

Japan Rests in Girard Case

Asks 5 Years in Prison; Defense to Make Final Plea November 5

MAERASHI, Japan (U) — The prosecution rested its case against GI William S. Girard today and asked a Japanese court to sentence him to prison for five years.

The 22-year-old Illinois soldier's lawyers will make their final plea Nov. 5. A verdict is expected by Nov. 20.

Girard is on trial for the fatal shooting of Mrs. Naka Sakai, a Japanese scavenger for scrap brass, on a military firing range last Jan. 30. He is charged with inflicting "bodily injury resulting in death," the equivalent of manslaughter. The maximum penalty is 15 years.

There has been considerable speculation that presiding Judge Yuzo Kawachi, if he convicted the soldier, would suspend sentence and allow him to return to the United States with the Japanese girl he married last summer.

Suspension of sentences of up to three years are usual in Japan for first offenders or where the prosecution case is weak.

Summing up, Associate Prosecutor Kakuhiko Sugimoto conceded that Girard did not intend to kill Mrs. Sakai when he fired a blank shell from his grenade launcher while guarding equipment on the firing range.

But Sugimoto asserted Girard "had at least the intention to hit a part of her body, half for a joke," and therefore he should bear the responsibility of her death.

Sugimoto also claimed the GI has never repented the killing, an important factor in Oriental justice regardless of blame.

GM Adds 10 Big Stars to Anniversary Show

DETROIT (INS) — General Motors said today 10 additional stars of stage, screen and television have been added to the cast of its two-hour "Golden Milestone" television show Nov. 17.

GM said the newest stars in the cast of over 100 are June Allyson, Doretta Morrow, Dean Martin, Chita Rivera, Bambi Lynn, Howard Keel, Hans Conrard, Peg Lynch, Carol Burnett and Steve Lawrence.

The colorcast will launch the company's observance of its 50th anniversary.

By E. H. SIMS

What are the official flag and pennant warnings for threatening weather used by the Weather Bureau?

A red pennant means moderately strong winds expected. A red pennant above a square red flag with black center means storm expected from the northeast. A red pennant below the same square flag means southeast storm expected.

A white pennant below the same square flag indicates imminence of a storm with initial winds from the southwest. The white pennant above the same flag means northwest storm is expected.

The most ominous of all the warnings is the two square flags, red with black centers, which indicate the approach of a hurricane. At night the warning is two red lanterns with a white lantern in between.

The Weather

FOR U.S. Weather Bureau Report PONTIAC AND VICINITY — Mostly cloudy tonight with occasional rain. Low tonight 46-48. Tomorrow cloudy and colder with occasional showers. High tomorrow 44-46. Southwest to west winds becoming light and variable early tonight and south to southwest 8-12 miles an hour late tonight.

Supervisors to Send Expressway Plans

It's a Hastings-Oakland Expressway is built in Detroit, a north-south expressway connecting with it should be built simultaneously in Oakland County, the board of supervisors decided yesterday.

Supervisors voted to forward this suggestion and six others to State Highway Commissioner John C. Mackie, who is scheduled to announce a five-year highway plan for Wayne County Nov. 7.

Mackie already has announced a five-year plan for the rest of the state, and a north-south Oakland County expressway is not included in it. Mackie has said the highway very probably will be included in his second five-year plan, beginning in 1962.

Supervisor Roy Goodspeed, of Ferndale, who introduced the highway recommendations on behalf of the Oakland County Planning Commission, said the Hastings-Oakland Expressway "shouldn't abruptly end at Eight Mile road, dumping traffic into Oakland County with no place to go."

Supervisors favored a north-south expressway from Eight Mile east of Woodward avenue through northeast Pontiac to Flint. This highway could be part of the Federal Interstate Defense Highway System, eligible for 50 per cent federal aid, Goodspeed pointed out.

TO EXTEND NORTHWESTERN Supervisors also went on record favoring the extension of Northwestern Highway as an expressway across southwestern Oakland County; eventual east-west expressways in the vicinity of M 59 and Ten Mile road; the recent traffic origin and destination study as a guide to future area highways; and advance purchase of future rights-of-ways before the price of land goes up.

In other business, for the second successive month supervisors voted \$100,000 out of the building fund to bolster direct relief funds for the rest of the year.

Robert Y. Moore, chairman of the board of auditors, warned that a third \$100,000 appropriation may be necessary before Dec. 31.

Oakland County has already spent \$95,333 more than the \$683,500 budgeted for direct relief this year, said Moore, who listed two big reasons for the extra expense.

There is an increase in relief applicants — from less than 800 a year ago to 1,698 last week, he said — and a new policy adopted by the state July 1 of cutting its contribution from 50 to 30 per cent of each county's direct relief load.

Supervisors yesterday approved final plans for the first \$2,500,000 to \$3,000,000 portion of the proposed \$5,000,000 courthouse. The plans were placed on file with the board of auditors.

The election was proposed recently by the Oakland County Taxpayers League, which brought the suit that led to this summer's legal ruling against the county.

The League also wants the site of the future courthouse voted on. The county wants the building in the Telegraph road service center. The League has opposed this, preferring the downtown Pontiac site of the present courthouse.

Supervisors yesterday approved plans submitted by the Oakland County Society for Crippled Children for an administration building on a service center site leased from the county. The present headquarters is at 132 W. Lawrence St.

A proposal that space in the Tuberculosis Sanatorium be made available for care of the mentally ill was referred to the Welfare Committee. The county has been studying how to use an empty 100-bed ing at the sanatorium.

Madison Heights asked for possible legislative changes that would allow the city to receive some of the money from the Hazel Park Race Track. Hazel Park is compensated financially for the track, but Madison Heights, which also suffers from traffic and drain problems due to the track, is not compensated, the city pointed out.

Table Election Until Court Rules

Supervisors Put Off Proposed Vote to Free Courthouse Funds

A proposal that a special election be called to free funds for a new courthouse was tabled by Oakland County Supervisors yesterday until a decision by the State Supreme Court.

The funds, amounting now to a little over \$1,000,000, were tied up by a circuit court decision this summer. Under a decree issued by Circuit Judge Herman Dehnke, the county must put the \$1,000,000 back into the general fund and apply it towards the 1958 budget.

The county's appeal of this decision may be heard by the State Supreme Court in early spring.

Supervisors yesterday approved final plans for the first \$2,500,000 to \$3,000,000 portion of the proposed \$5,000,000 courthouse. The plans were placed on file with the board of auditors.

The election was proposed recently by the Oakland County Taxpayers League, which brought the suit that led to this summer's legal ruling against the county.

The Day in Birmingham

Derby High to Sell Books for Children's Yule Gifts

BIRMINGHAM — Under the sponsorship of the Derby Junior High School P.T.A., the "Derby Days Book Fair" will display 1,200 books appropriate for children of junior high age Nov. 4-6.

Furnished by the Old Professor's Book Shop in Pontiac, the volumes are suggested for Christmas giving to children in this age group.

Mrs. Robert Grazer, librarian at the school and teacher-vice president of the P.T.A., is general chairman of the book fair. She explained today that purchases of books at this time would also be of benefit to the school library. The book shop is assigning a percentage of sales receipts to the school for library purchases.

The display will include books for younger children and for adults, giving a wide range from which to make selections.

Assisting Mrs. Grazer in arrangements are Mrs. Donald Johnson, mother-vice president; Mrs. Lawrence Quinn, Mrs. Newton A. Cole and Mrs. George Lowels.

Adults will be on hand to help children who are making their own selections with several persons available to help complete orders.

Detroit's archbishop, Edward Cardinal Mooney, will officiate at the formal dedication of the new Holy Name Catholic Church at special 8 p.m. services Nov. 5.

The dedication sermon will be given by Mgr. Carroll F. Dandy, former Holy Name pastor, now superintendent of parochial schools in the Detroit archdiocese. Former pastors are being invited to participate in the professional and ceremonies.

In use for a year, the new church is now serving about 1,200 families. The completion of the building, however, has been recent. Mosaics, stained glass windows and many items imported from Europe have been installed during the past few months.

The First Presbyterian Church will host the local observance of World Community Day at a 10 a.m. service. Friday, "Parcels for Peace" gifts from women throughout the church area, will be sent to refugees in Austria, Germany, Italy, the Near East and southeast Asia.

Parcels and money for shipping may be brought to the church. The program will include special speakers and music.

L. C. Minor, chairman of the Mayor's Insurance Advisory Committee, has had his recommendation that the group policy and dread disease policy for city employees accepted by commissioners.

Extra Police to Patrol City Streets Tonight

Extra police patrols will be on duty Halloween night, Police Chief Herbert W. Straley said today.

Both he and Sheriff Frank W. Irons urged parents to arrange parties for their youngsters to keep them off the streets and cautioned children who do go out to beg to stay out of mischief.

Drivers, too, were issued a warning to exercise extreme caution because young children are often dashing across streets and many wearing masks which restrict their vision.

Fleeing Bookkeeper
Grounded by Boss

NEW YORK (AP)—A bus line executive met his bookkeeper at Newark, N. J., airport yesterday, with both holding tickets for the same flight to Miami. The chance meeting resulted in the bookkeeper being arrested on a grand larceny charge.

Police gave this account: Sidney Engelhardt, president of Gray Line Bus Tours, Inc., discovered a \$8,000 shortage when his bookkeeper for three years, Raymond Farrell, 33, of Brooklyn, failed to report to work last Monday.

Engelhardt notified police but went ahead with plans for a Florida vacation.

When he met Farrell boarding a plane, Engelhardt called airport police.

Ghana Expects Outlet for Leopard Skin in U.S.

ACCRA, Ghana — A lively export trade in leopard skins is visualized in Ghana as a result of an initial order from United States fashion designer, Adele Simpson.

One hundred skins were shipped to Mrs. Simpson for use in her collection this year. The leopard species native to Ghana is slightly smaller than the Somali leopard and with rounder, more closely spaced markings.

The order was one of the first of the new democracy's trade enterprises and the first to the United States. They are being used for cardigan sweaters - jackets, travel coats and fur collars.

Sentenced to 3 Years for Shoplifting Stove

MANCHESTER, England (AP) — Mrs. Della Savage, 38, was sentenced to three years yesterday for shoplifting a stove.

A store detective said he arrested her as she staggered out the door with a stove, a large electrical model, in her arms.

Surplus of Hotel Beds

SALZBURG — The tourist trade of Salzburg, Austria, has been growing in recent years but hotel accommodations are growing faster and some hotels now are operating at a loss.

This unusual situation has been brought about, civic leaders say, by the release of three hotels and part of a fourth by the United States occupation forces and the construction of three new first-class hotels.

The problem will become more acute within the next few months when the new 200-bed Europa is completed.

To cope with this condition, Salzburg hopes to expand its tourist season by promoting the "Musical Spring" concerts and booking more conventions.

Predict Big Year

NEW YORK — Sales of photocopy and dye chemical copy machines are expected to exceed \$150,000,000 this year compared with \$133,000,000 in 1956 and \$40,000,000 in 1952.

MAKE OVER

People Like Us in Outer Space?

(Continued From Page One)

This star is Alpha Centauri. It is so far away that it takes four years and four months for its light to reach us, and light travels 186,000 miles per second. Physical laws say it is impossible for anything to travel faster than light—science as yet has no inkling even how to approach that fabulous speed.

NOT HOPELESS

Yet the chances of learning about life elsewhere are not entirely hopeless.

Men in space could build giant telescopes, far more powerful than any on earth. Our earth's air distorts starlight, makes "clear seeing" difficult.

Giant observatories on space platforms, or on the moon, could look clearly and accurately vast distances into space. Some astronomers believe such seeing could help learn secrets of the birth of the universe, or whether life exists on other planets.

Both American and Russian scientists are talking of putting telescopes in the sky. They would take pictures, or use TV eyes.

Space opens vast new frontiers for good or bad, depending on how nations use the new potentials and powers.

A space station hung some 23,000 miles above the earth could provide instantaneous television for half the world at a time.

It could circle at such a speed, relative to the earth's own rotation, that it would appear to stay always at the same point above the earth. TV signals could be reflected from it into homes over the same program to everyone around the world at the same moment.

Other satellites at chosen heights could survey the earth with telescopic and TV eyes, or radar, prying into any country's secrets. Military men see them also as potential bases for launching guided missiles with atomic warheads to impose the will of the sky-master nation.

Rocket and space control, though, is not likely to become one nation's monopoly, many scientists believe. Checkmating is more likely. War in space, aimed at destroying an unfriendly space station, is mentioned as a possibility.

Prof. Hermann Oberth of Germany, a famous space pioneer, proposes a giant mirror, composed of many facets, above the earth. It might be 60 miles in diameter, focusing the sun's rays upon the earth, as you might do with a magnifying glass.

For bad, it could be aimed to burn an enemy's country, Dr. Oberth says.

For good, part of the mirror could be used safely to light large towns at night, or to melt dangerous Atlantic icebergs, open up winter frozen sea lanes, counteract night frosts threatening fruit crops, even perhaps alter temperatures and cloud movements to bring rain where needed.

Far more immediately, new knowledge is promised for accurate weather forecasts, for preventing hurricanes and even tornadoes. This can come from Sputniks or U. S. baby moons using TV eyes and other instruments to track the motions of clouds, gain understanding of the mechanics of weather, measure the total radiation coming to and from the earth.

Such new information is one goal of baby U. S. moons to be launched during the International Geophysical Year.

Baby moons are just a beginning.

Who knows but one day, with the earth exhausting its own natural resources under hungers of growing population, men may go mining materials from other planets? Or start human colonies there if disaster overtakes our own earth?

Next: Some practicalities and expectations.

NOTICE OF SPECIAL ELECTION
To the Electors of Galloway Farms Subdivision, Lots 13, 14 and 15, all of which are on Galloway Court, Pontiac Township, Oakland County, Michigan: Notice is hereby given that a special election will be held on Tuesday, the 12th day of November, 1957, at the Township Hall, 2000 Opdyke Road, to establish a Special Assessment District for the purpose of grading, ditching, graveling and blacktopping of Galloway Court legally described as the 120 feet of the South 100 feet of Lot 14, Galloway Lake Farms Subdivision, at an estimated cost of \$2,210.51, and the property within the District be subjected to a Special Assessment to pay therefor.

Notice relative to opening and closing of polls: On the day of any election the polls shall be opened at 7 o'clock in the forenoon and shall be continued open until 6 o'clock in the afternoon and no longer. Every qualified elector present and in line at the polls at the hour prescribed for the closing thereof shall be allowed to vote.

Oct. 31, Nov. 1, '57
Greta V. Block, Clerk

STATE OF MICHIGAN—In the Probate Court for the County of Oakland, Juvenile Division.

To the matter of the petition concerning Robert Henry Jackson, minor. Cause No. 15318.

Petitioner having filed in this Court a petition that the present whereabouts of the father of said minor child are unknown, and the said child has violated a law of the State, and that said child should be placed under the jurisdiction of this Court.

In the name of the people of the State of Michigan, you are hereby notified that the hearing on said petition shall be held at the Oakland County Service Center, Court House Annex, 1200-B West Blvd., in the City of Pontiac, said County, on the 12th day of November, A.D. 1957, at nine o'clock in the forenoon, and you are hereby commanded to appear personally at said hearing.

It being impractical to make personal service hereof, this summons and notice shall be served by publication of a copy of the same previous to said hearing in The Pontiac Press, a newspaper printed and circulated in said County.

Notarable Arthur E. Moore, Judge of said Court, in the City of Pontiac in said County, this 30th day of October, A.D. 1957.

(A true copy)
ARTHUR E. MOORE, Judge
ELMER J. VASCHINGHO, Deputy Probate Registrar, Juvenile Division
Oct. 31, 1957

Deaths in Pontiac and Nearby Areas

MRS. WILLIAM CHASE
Mrs. William (Carrie) Chase, 64, of 22 Gillespie St. was dead on arrival yesterday morning at Pontiac General Hospital. She had been ill three years.

She was a member of the Newman AME Church. Besides her husband, she leaves three daughters, Mrs. Lucy Meux of California, Mrs. Francis Carter and Elzora Chase, both of Windsor, Ont.; two step-daughters; 22 grandchildren; and a sister, Mrs. Bessie Bonds of Pontiac.

Service will be at 2 p.m. Monday in the Trinity Baptist Church with her pastor, the Rev. J. Allen Parker, officiating. Burial will be in Oak Hill Cemetery. Her body will be at the Frank Carruthers Funeral Home at 2 p.m. Sunday.

LOUIS G. CHILSON

A prayer service was held at 2 p.m. today in the Sparks-Griffin Chapel for Louis G. Chilson, 67, of 20 Fenelity Ct. with the Rev. James W. Deeg of Oakdale Park Methodist Church officiating. His body was then taken to the Beebe Funeral Home in Jonesville for service and burial Saturday.

Mr. Chilson died suddenly yesterday morning at his home.

TURNER S. RICHARDSON

Service for Turner S. Richardson, 54, of 12 1/2 S. Saginaw St. will be at 11 a.m. Friday from the Pursey Funeral Home with the Rev. Paul T. Hart of First Methodist Church officiating.

An employee of Tasty Food Restaurant, Mr. Richardson died suddenly Monday at his home.

ARTHUR J. WILLIAMS

Service for Arthur J. Williams, 46, of 534 Nebraska St. will be at 2 p.m. Friday in Trinity Baptist Church with the Rev. J. Allen Parker of Newman AME Church officiating.

Burial will follow in Oak Hill Cemetery. His body will be at the Frank Carruthers Funeral Home at 7 p.m. today.

An employee of Pontiac Motor Division, Mr. Williams died Monday morning at his home after an illness of three months.

He leaves his wife, Geraldine; and four children, Melvin Williams of the U.S. Air Force stationed in Alaska, Billie Gene, Francis Maxine and Norman G. Williams, all at home.

PVT. ARTHUR H. BUSH

LAFER — Funeral services for Pvt. Arthur Harry Bush, 17, will be held Friday at 2 p.m. at the Baird Funeral Home. The Rev. Frank S. Hemingway will officiate and burial will be in Stiles Cemetery.

The youth's body arrived yesterday by plane from San Diego, Calif., where he died last Friday of encephalitis, only a few days after enlisting in service.

MRS. SADIE BRYANT

IMLAY CITY — Service for

Mrs. Sadie T. Bryant, 86, Imlay City, will be at 2 p.m. Friday at the Lester Smith and Son Funeral Home, with burial in Imlay Township Cemetery. She died Tuesday.

Surviving are two sons, Merle Anderson, Imlay City; Frank Anderson, Almont; Mrs. Ella Mae Bailey, Ortonville; 23 grandchildren and 46 great-grandchildren.

WALTER CHASE

LAFER — Service for Walter Chase, 84, resident here for many years who died this morning in a Lapeer hospital, will be at 1:30 p.m. Saturday from the Baird Funeral Home. The Rev. Frank S. Hemingway will officiate, with burial in Maple Grove Cemetery, North Branch.

Mr. Chase is survived by one sister, Mrs. Alma Erb of North

Branch and a brother, Ray Chase, of North Branch.

GEORGE KING

MARLETTE — Service for George King, 87, resident of this community since 1896, will be at 2 p.m. Friday from Marlette Methodist Church. The Rev. J. Paul Humphrey will officiate, with burial in Marlette Cemetery. His body is a Marsh Funeral Home here. He died Tuesday.

Mr. King, owner of a general farm produce depot here for 40 years, is survived by his wife, Laura May; a daughter, Mrs. Robert Bennett of Linden; a son, Douglas, at home; a sister, Mrs. LaVerne Rubey of Pontiac; two grandchildren and one great-grandchild.

Report UF Advance Gifts

(Continued From Page One)

for over 400 fund workers, will have as its goal \$612,000. This total represents the minimum amount needed to support the Fund's health, welfare, counseling, recreational and character-building agencies in 1958. Sponsoring this year's kick-off breakfast will be the Pontiac Manufacturers' Association.

Huttenlocher announced the following list of gifts which reflect a five per cent increase over last year: Michigan Bell Telephone, \$3,600; Detroit Edison, \$3,200; Pontiac Press, \$2,700; Harold Fitzgerald, \$1,000; Pontiac Retail Store, \$788; Mr. and Mrs. R. A. Armstrong, \$600; Simms Brothers, \$500; Association of Funeral Homes, \$400; Cy Owens, \$341; Wayne Gabert, \$341; Matthews - Hargreaves, \$341; Howard - Huttenlocher, \$300; Milo Cross, \$240; Schurrer Construction Co., \$175; Howard Fitzgerald, \$150; John Fitzgerald, \$150; Russell Bassett, \$150; Beattie Motor Sales, \$105; Automatic Heating Co., \$100; Shell Oil Co., \$55.

Special Gifts Chairman, Huttenlocher also announced the following large gifts:

Deaths Elsewhere

WASHINGTON — Herman Welker, 50, former Republican senator from Idaho, died Wednesday. Welker served one six-year term in the Senate and since his defeat for re-election last year he practiced law in Boise, Idaho. He was born in Cambridge, Idaho.

BUENOS AIRES, Argentina — Jose Patricio Guggiare, 74, president of Paraguay from 1928 to 1932, died Wednesday. Guggiare was head of the Liberal party, now outlawed in Paraguay, and had lived in Buenos Aires in exile for many years.

FAIRBANKS, Alaska — Dr. Richard C. Hubley, 31, of Washington, D. C., a leader in the U. S. Geophysical Year program, died Monday.

BELFAST, Northern Ireland — Sir William McCleery, 70, head of the World Orange Order and former Northern Ireland minister of commerce, died Wednesday. He led the Orange Order, a society for the maintenance of Protestantism with branches in the United States, since 1955.

YANKTON, S. D. — Dr. Otto Baum, 63, clinical director of Yankton State Mental Hospital, died Wednesday. He was born in Germany.

BLOOMINGTON, Ind. — Mrs. Alita B. Wright, 66, wife of Dr. W. W. Wright, vice president and dean of the School of Education at Indiana University. She was born in Black Earth, Wis.

LEVERETTE, Mass. — Edward B. Emerson, 60, former general manager of John A. Roebling's Sons, Trenton, N. J., died Wednesday. Emerson was a naval reserve engineering officer who helped rebuild Pearl Harbor after the Japanese attack. He was born in Duluth, Minn.

Dies in Grand Rapids

GRAND RAPIDS — Mrs. Elizabeth H. Averill, widow of the late Paul J. Averill who was a former member of the state legislature and a Grand Rapids real estate dealer, died Wednesday at her home. She was 90.

Death Notices

TAYLOR CHURCHILL
ROCHESTER — Taylor Churchill, 47, of 501 West Third St. died unexpectedly this morning in Avon Center Hospital. Mr. Churchill had been in an auto accident Monday in Rochester.

The body is at the William R. Potere Funeral Home, here.

Awarded Scholarship by March of Dimes

Patricia Ann Terrey, 1052 Oak Ridge, Royal Oak, has been awarded a March of Dimes scholarship of \$1,020 in physical therapy by the National Foundation for Infantile Paralysis.

According to the Rev. G. Burton Hodgson, chairman of the Oakland County Chapter of the National Foundation for Infantile Paralysis, the one-year scholarship will enable Miss Terrey to complete her physical therapy education at Ohio State University, Columbus, Ohio.

The scholarship is part of the foundation's professional education program to recruit and train pro-

fessional personnel in medical and medical associate fields.

Historical Unit Plans County Seat Markers

LANSING — The State Historical Commission is planning a statewide program of placement of historic site markers in Michigan county seats, Dr. Lewis Beeson, commission secretary, said today.

During the current year, the commission has concentrated on markers of broader historical significance.

Beeson said that first texts have been prepared for the county seat markers, those to be placed at Ithaca in Gratiot County and Lapeer in Lapeer County.

First Leg of Mars Trip Taken by 'Taxi'

Big Ships Will Be Built, Launched in Space

NEARING MARS — AP artist John A. Carl-ton's drawing shown here is a conception of the view from a space ship on its way to Mars. The human passenger, wearing a special pressurized space suit gazes through a porthole into black space crowded with meteors and brilliant stars.

BIG SHIPS—SC 1 36 ANTIQUE
By ALTON L. BLAKESLEE
AP Science Reporter

NEW YORK (AP)—Space ferries and taxis will likely be the first steps in human travel to Mars, Venus and elsewhere in space. They will make short hops—riding up only about as high as Sputnik did.

Their job will be to build and supply space platforms or hotels circling steadily around the earth. Up there the space ships will be built and launched to carry humans on historic explorations of space.

This is the view of most experts on rocketry and space travel. They feel it will be far simpler and cheaper to launch the actual space cruisers from a kind of stepladder in the sky than from the earth itself. The reason involves some hard facts about rockets and gravity.

A well-supplied space cruiser in which humans could live safely and comfortably for weeks or months could weigh many dozens of tons.

Getting that weight off the ground all in one piece takes enormous rocket power. It has to start from scratch, against the full gravity pull of the earth.

Just to send up a 20-pound baby moon in Project Vanguard calls for a 22,000-pound rocket, half a ton of rocket for each pound of payload to be hung in the sky.

Numerous experts have proposed designs and plans for the space hotels and cruisers.

First one, then another, then another rocket is shot into an orbit 500 miles or higher above the earth. They are timed, or controlled to be bunched.

Then the first human astronauts go up. Protected by special space suits, they work in space to join the rockets together. They use, perhaps, little rocket guns or reaction pistols to control their movements. Firing the gun gives them a backward push, in the direction they want to go as they hang in space.

Freighter rockets carry up pre-fabricated materials. Construction crews soar up in space taxis, creating safer, comfortable living quarters with all the necessities of life. Some designs call for pin-wheel-shaped space platforms.

More cargo ships carry up the materials to build the space cruiser to Mars, and its fuel.

NEW STORE AT MIRACLE MILE

Trained crews rocket up to man gravity and begin its space journey.

The space hotel is traveling around the world in an orbit at five miles per second. Now the space cruiser is launched, its rockets thrusting it forward to reach a speed of seven miles per second. With that speed, it can break away from the earth's

The space cruiser isn't streamlined. It doesn't have to be, for there's no air or friction to slow it down. And it's easier to get the cruiser going fast high in space than from the ground. This astounds people

who think a rocket has to have air to push against. It doesn't in fact, any air is a handicap, a resistance like trying to get an automobile going if its nose is against a wooden fence.

Rockets go because they burn fuels and create compressed gas inside the rocket. The nose end is closed. Gas molecules are pressing against this closed end.

Against this action, there is reaction as gas molecules rush out the narrow, open back end. The high speed ejection of this mass produces a thrust in the opposite direction.

The escaping gas doesn't need air or anything else to push against. And the rocket moves faster if it doesn't have to fight wind resistance ahead of it.

Launched from a space platform, it has less force of earth's gravity to overcome also.

Once a rocket is aimed for Mars it will coast without further power, falling through space in a great circle to intercept its target planet. If he wants, the captain

can boost his speed by short bursts of rocket fire.

Approaching Mars, he turns his ship by firing small steering jets. Then he uses his main rocket power to offset Mars' pull of gravity enough to back down slowly and gently onto the planet.

Coming home, he first rejoins his space hotel, then comes back to earth aboard ferry or taxi rockets.

Re-entering the earth's atmosphere at high speed could burn up a ferry or taxi or big rocket. But rocket engines can be fired as brakes, and approaches can be made in swooping glides to slow the speed in the earth's high thin atmosphere to make safe landings on earth.

Rockets now ride up on chemical fuels, either liquid or solid being made even more powerful.

Atomic energy is a future fuel. The sun's heat might also be used to generate electricity, and with it produce streams of ions or electrons producing little kicks to power a space cruiser once it was up in space.

Enthusiasts are sure human space travel is coming. But there

are Doubting Thomases, and many persons who wonder why humans should go traipsing around the universe anyhow.

TOMORROW: Goals and prizes from space explorations.

Lightning Gives Encore on Farm 43 Years Later

GILLETTE, Wyo. (AP)—You'll have a hard time convincing Henry Edwards, 62, that lightning doesn't strike the same place twice.

Edwards lost his hearing after being struck by lightning while herding sheep near Gillette in 1914.

This summer he was struck by lightning again—within two miles of the first incident.

He was knocked unconscious by the lightning bolt, but regained his senses in time to extinguish a fire in his sheep wagon.

Sees Aid to Sleep

CHICAGO — A sleep researcher, writing in Today's Health, American Medical Association magazine, reports he has found that physical contact—even if it's only your hand touching your leg—helps overcome sleeplessness by providing a feeling of security.
