

Downtown Festival Rolls Along

GAY WHIRL — Kresge-salesgirl Barbara Ardelan believes a practical demonstration aids in selling hoops. The demonstration is one of many being held during Festival Days, which continue through Tuesday in downtown Pontiac.

UAW Board Meets Today

Strike Deadline Eyed

Says Oakland Not Fair With Tax Allocations

Independence Attorney Cites County Surplus of '\$2.5 Million'

Oakland County year after year receives a greater share of the 15-mill tax limitation despite having a "surplus of upwards of two and a-half million dollars" from which it could draw, a state official was told yesterday.

Milton F. Cooney, attorney representing Independence Township, challenged the township's 1958 tax allocation on the grounds it shouldn't have been cut, while the county share was boosted.

Cooney supplemented the township's appeal of its allocation of 1.32 mills in a hearing yesterday in Pontiac before R. Gerald Barr, a commissioner on the Michigan State Tax Allocation.

Farmington Township, represented by its attorney, Joseph T. Brennan Jr., attempted to back up an appeal of its .86 tax allocation, saying it violated a law placing the minimum for townships at one mill.

But Barr produced financial statements of Farmington Township which showed he said that there would be a surplus of \$64,000 by next year based on the given apportionment. A surplus, Barr told Brennan, would wipe out Farmington's chances for receiving an increased share of the 15 mills.

Both townships' requests for higher allocations will be decided by the three-member Tax Commission based on their written and oral appeals. A decision is expected by Oct. 3.

Answering Cooney's challenge, Harry J. Merritt, county corporation counsel, said the "surplus" he cited was not a surplus at all, but (Continued on Page 2, Col. 4)

Frauds Shock Rackets Group

Ending Teamster Probe

WASHINGTON (UPI) — The Senate Rackets Committee prepared to close the books today on what one member called "a great record of misconduct" in the Teamsters Union.

The committee wound up seven weeks of hearings late yesterday but left its record open for a closing statement by Chairman John L. McClellan (D-Ark) summing up the Teamster investigation. McClellan said he would make it public tomorrow.

The committee devoted a large part of its final session to a long, involved examination of what Chief Counsel Robert F. Kennedy described as "fraud, collusion and favoritism" in millions of dollars worth of Teamster insurance business.

It purported to show that Teamster President James R. Hoffa channeled the lucrative account of the Central State Teamsters Conference through his friend Allen Dorfman of Chicago who shared in about \$1,400,000 worth of commissions over seven years.

This, according to staff investigators, was about a million dollars more than the average commission rate.

In addition they said the Union Casualty Co., which got the insurance was not the low bidder. They said it collected some \$650,000 more than the other bidder would have got in the first three years the policy was in effect.

Hoffa, questioned earlier, denied he promised to help Dorfman get the insurance. He said he told Dorfman he probably would get it if Dorfman's bid was competitive.

Testimony showed the union tossed out the first round of sealed bids in which the Pacific Mutual Co. was low and called for new ones. Pacific Mutual was again low but was told by Hoffa it was unacceptable because the company had some financial difficulties in 1956.

During the marathon inquiry Hoffa fenced with the committee with one hand while jousting with the union's court-appointed Board of Monitors with the other.

He disclosed the union was planning an effort to unseat one of the monitors, New York attorney Godfrey Schmidt. He also disclosed that the union had taken steps to hire a private investigator to check up on the expense accounts

Schmidt submitted in connection with his work on the monitor board.

Hoffa was due in Cleveland, Ohio, tonight to take care of another matter growing out of the hearing — the refusal of Teamster official Louis (Babe) Triscaro to tell the

committee about his outside business activities. Hoffa said he would leave it up to the members of Triscaro's local to decide whether any action against him was warranted.

As the hearing came to a close (Continued on Page 2, Col. 3)

Union Warning GM, Chrysler to 'Quit Playing'

Special Session Called to Review Settlement With Ford

DETROIT (AP) — The United Auto Workers called their Executive Board into special session today to review the Ford settlement and decide whether to set a strike deadline against General Motors or Chrysler.

Approval of the Ford pact was assured but there was no indication what the board's decision would be on the other auto companies.

The union warned both GM and Chrysler that time was running out. Douglas Fraser, leader of the

Ford Pact Details on Page 2

UAW team at Chrysler, said that "unless the pace picks up in the Chrysler negotiations we will ask the Executive Board for permission to set a strike date."

Leonard Woodcock, UAW vice president and director of the GM Department, showed similar impatience.

"The time has come for them to quit playing games," Woodcock said. "Chrysler started to bargain several days ago but GM is still trying to make decisions and put the UAW in a position of being able only to decide whether or not to take them."

With the Ford agreement in hand, the union now has a lever to exert pressure on either company. Both Woodcock and Fraser have said they hope to improve on the three-year Ford pact.

Offers reportedly similar to the one Ford first made the UAW Monday still are on the table at the other two auto companies.

Walter Reuther, UAW president, described the proposals as deficient but said they offered a basis for collective bargaining.

The Ford settlement gave the UAW pay boosts, increased pensions, severance pay, cost-of-living and improvement factor allowances, compensation for those on short work weeks and extended supplemental unemployment pay.

Reuther said he probably would enter either the GM or Chrysler talks before the end of the week. The union resumed negotiations with both today.

Meanwhile, local grievances hampered return to 1959 model production at Ford plants where 28,000 walked out on strike call (Continued on Page 2, Col. 6)

Merchants Applaud 'Terrific' Downtown Festival Kickoff

Enthusiastic response yesterday to the first of the five Downtown Pontiac Festival Days was reported by merchants.

Public response to the many exceptional values being offered in outdoor displays and inside the stores can be summed up as "terrific," a word used frequently by store owners and managers.

A Walte's Department Store spokesman said they had an exceptionally good day yesterday. "We would like that sort of volume every day," he said.

Jack Simon, assistant manager at Simms Brothers, said the store doubled its sales over the same day a year ago. "Our side-

walk booths went 'way beyond our expectations," he added.

Frank Lyndall, of Sears, Inc., said the store was up 50 per cent in sales over the same day a year ago in number of purchases. "We were busy from early morning on. The festival certainly brought out the crowds."

A spokesman for J. C. Penney Co. called yesterday a "very good day." The festival was well received and we had a far better than normal day. This morning also traffic is up," he reported.

Among the added features announced today during the festival which runs through Tuesday is the appearance of television and radio organist Tom Montgomery.

He has been secured by Connolly's Jewelers, Todd's Shoe Store, Wiggs Colony Shop, Gillies Shoes and Pauli Jewelry to appear on their W. Huron block tonight from 7 to 9 p.m. and tomorrow from 2 to 4 p.m.

DEMONSTRATE CAMERAS

Montgomery will play the organ on the sidewalk for the public.

Other outstanding features include a factory demonstration of Polaroid cameras at Mark Davis Camera Shop. The public will be given free Polaroid pictures of themselves taken during the demonstration.

Lewis Furniture has put out a huge captain's chair in front of their store and free pictures will be taken of youngsters sitting in the oversized chair.

Pauli's Shoe Store is giving free shoe shines to all comers.

Carnival rides, offered at two locations, are available from 10:30 on each day except tomorrow when they will open early.

The rides are located at parking lots at E. Pike at Hill, and W. Lawrence at Wayne. Cookouts are being held at both locations as well. Merchants are giving out tickets good for the reduced price of 10 cents a ride. One ticket is given with each \$1 of purchases.

More than 60 merchants are participating in the Festival Days with games, prizes, entertainment and special values. Stores are staying open until 9 p.m. except Tuesday, the last day, when they close at 5:30 p.m.

Keego Jet Pilot Reported Killed

AF Notifies Family of Son's Death in Crash During Guam Flight

A 24-year-old Keego Harbor jet pilot, missing since Tuesday in flight over Guam, was killed when his T33 jet plane crashed, the Air Force notified his parents today.

He was 1st Lt. Curtis J. Pearsall, son of Mr. and Mrs. Sheldon L. Pearsall of 3024 Stapleton Dr.

No other information about the accident was available at this time, the family said.

Lt. Pearsall leaves his wife, the former Patricia Graves of PEARSALE.

Keego Harbor, and a 2-year-old son, Bradley. They make their home in Chicago.

He was a graduate of the former Roosevelt High School in Keego Harbor in 1953 and president of his senior class. Pearsall joined the Air Force in 1954, and was sent to Guam last October.

Lt. Pearsall also leaves his sister, Mrs. F. H. Wright of Pontiac and three brothers, Duane D. of Denver, Colo., Sheldon J. and Maynard V., both of Drayton Plains.

Homebrew Business Too Good in Windsor

WINDSOR, Ont. (AP) — The homebrewers have been hard at work in the Windsor area since a strike of beer handlers began, but things are getting tough in that business too.

Two of the essentials for bathtub beer are rapidly becoming scarce: Hop-flavored malt and crocks.

The demand is so great, said a local distributor today, that a factory in Montreal which produces the malt can't fill the orders.

And as for crocks, they weren't getting much use a couple of months ago, but now they're at a premium.

About 400 persons in the area have licenses to brew their own beer.

Pleasant Climate Promised for Festival Days

The weatherman is promising a pleasant weekend for Pontiac's Downtown Festival Days with no rain in sight before late Sunday or possibly Monday.

Tonight's low will be near 55 degrees.

Today's light variable winds will become southerly at 8-15 miles an hour tonight and continue Saturday.

Sunny and partly cloudy with little temperature change is tomorrow's forecast with the high about 78, the low 56. For the next five days temperatures will average three to four degrees above the normal of 74 and normal low of 52.

Both Saturday and Sunday will be mild with Monday and Tuesday a little cooler. Little change is expected Wednesday.

Precipitation will average one-half to one inch in showers possibly late Sunday or Monday.

Reports Eddie Fisher Wants to Marry Liz

NEW YORK (AP) — The New York Post said today Eddie Fisher wants to marry Elizabeth Taylor.

The newspaper quoted the singer's Hollywood friends as saying Fisher is "considering" a quickie Mexican divorce.

Fisher and Miss Reynolds quarreled and parted over, among other things, his steady nightclubbing with Miss Taylor here while Miss Reynolds waited for him at home in Hollywood with their two children.

Miss Taylor, whose producer-husband Mike Todd was killed in a plane crash six months ago, has denied any romantic interest in Fisher. Fisher has also denied he loves her.

Make Noise for News

MEMPHIS, Tenn. (UPI) — Why, Billy Riley was asked, was his band engaged in a two-day marathon? Because, Riley frankly admitted, "We need the publicity."

It's First Drop in 2 Years

Cost of Living Declines

WASHINGTON (UPI) — The cost of living dipped two-tenths of one per cent last month, the government reported today. The August drop was the first in two years.

The seasonal decline in food prices and small declines in clothing costs outweighed price rises for other basic family goods and service.

The August drop reflects heavy seasonal marketing of meats, fruits, and vegetables. "This is no downward trend," Commissioner of Labor Statistics Ewan Clague said. "The index is now tending to stabilize."

Liquidate Bonds to Meet Payroll

Planning More Layoffs at Pontiac General

By PETE LOCHBILER

Faced with a bleak financial picture, Pontiac General Hospital today liquidated its final cash reserves to cover this week's payroll.

The Board of Trustees last night authorized the transfer of \$50,000 in treasury notes to the general fund to meet \$49,000 in pay checks being distributed today.

The action was taken after Harold B. Euler, hospital administrator, announced there would be further layoffs tomorrow as the hospital continued a crash austerity program to halt its soaring operational losses.

Euler said that 24 more employees were being laid off on a seniority basis, pushing the total number since May to 136. As of tomorrow, he said, the hospital complement will stand at 463, as compared with 593 employees in May, when the austerity program began.

The layoffs, he said, are for a 60-day period, subject to recall if the hospital's patient census improves.

Although the hospital's occupancy rate climbed to an average 85 per cent last month, as compared with July's all-time low of 76 per cent, the 1958 deficit continued to mount, Euler said.

August's losses amounted to

\$30,000, putting the total operational deficit so far this year at about \$145,000, he reported.

Euler said that the critical financial period he had predicted for

July and August was continuing, with no definite end in sight as yet.

At the same time, City Manager Walter K. Willman announced that

other Oakland County communities help make up losses incurred by the hospital through unpaid emergency service bills had been given, largely, the cold shoulder.

Clarkson to Head City Hospital Board

James S. Clarkson, who has borne the heavy burden of guiding Pontiac General Hospital fiscal policies during this year's financial crisis, last night was elected chairman of its board of trustees.

Clarkson, a board member two years, succeeds Willis M. Brewer, who retired from the board last night after six years as a trustee.

William P. Babcock was elected 1958-59 vice chairman; T. W. Bradford was elected treasurer; and Mrs. Edna B. Roush, secretary.

Board treasurer the past 20 months, Clarkson is executive vice president of the Pontiac Federal Savings & Loan Assn.

Also retiring from the board was Charles Yeager, who like Brewer has held his hospital post since the board of trustees was created in 1952.

JAMES S. CLARKSON

first treasurer, Brewer as chairman of the committee which planned the present hospital expansion.

Replacing them are Bradford, retired plant engineer for Pontiac Motor Division, and Dick Kirby, business agent for the AFL-CIO building trades council in Detroit.

Two more new members are expected to join the board soon, one to replace Harold B. Euler, who resigned to become hospital administrator, the other to fill the vacancy caused by the resignation of Edward P. Barrett, who has moved out of the city.

The new appointments are still to be made by the City Commission.

Connolly's — Todd's — Wiggs — Gillis Shoes and Pauli's present Tom Montgomery TV and Radio Star tonight 7 to 9 — Saturday 2 to 4.

The increase in the occupancy rate was affected to a large degree by redistributing beds to favor surgical patients, whose occupancy of hospital rooms can be scheduled in advance, Euler said.

He said that personnel cuts had brought down the ratio of the number of hospital employees to patients to 2.43, or .12 points above the state average.

"This slightly higher rate might be justified here, though," Euler said, "since ours is a short-term hospital."

Developments in the hospital's shifting financial picture will determine whether more cuts will be made, Euler said.

Clouding the picture is the question of how soon the expansion program will be finished. Originally scheduled for completion this fall, the program received a setback earlier this month when it (Continued on Page 2, Col. 7)

To Chase Reds Into China Area

U.S. Pilots Will Pursue Any Attackers to Hilt, Announces Pentagon

WASHINGTON (AP)—The Defense Department says that if Chinese Red jet fighters shoot at American Air Force or Navy pilots, they are authorized to pursue the attackers, even into Communist China itself.

This military tactic of hot pursuit, the right to go after someone who shoots at you, applies anywhere, a Pentagon spokesman said in answer to questions.

Its application in the Quemoy area goes beyond the policy adopted in the Korean War. There, American fliers were prohibited from following Communist fighter planes beyond the Yalu river, the boundary between North Korea and Communist China.

The policy has not been put into use. No attacks on American planes or warships have been reported up to now.

The United States has announced reorganization of the American advisory command on Formosa, making it in effect a regular combat command.

The announcement by the commander of the U.S. Formosa Defense Command, Vice Adm. Roland N. Smoot, said the step was taken to attain an adequate defense posture in the face of recent stepped-up Chinese Communist actions.

In the Quemoy area, Communist and Nationalist guns thundered in fresh battle today. The Nationalists said the Reds fired 6,513 shells between noon and 6 p.m. The bombardment was particularly heavy while three LSTs—Landing Ship, Tank—were unloading supplies at Quemoy.

The Defense Ministry here said the ships accomplished their mission without damage and returned safely to base, presumably the Pescadores Islands.

Smoot's command announced that the United States has augmented its Army, Navy and Air Force in the Formosa area. It said this augmentation has established a requirement for centralizing operational control of all forces assigned to the Formosa area.

The announcement said the Joint Chiefs of Staff established the U.S. Formosa Defense Command as a subordinate unified command under the commander in chief, Pacific. Over-all direction remains under Smoot.

The first American casualty of the Red Chinese bombardment of Quemoy was flown to Formosa today aboard a Nationalist transport plane through a hail of Communist artillery shells.

He was Army Sp4 George W. Johnston of Springfield, Pa. Johnston, who was hit by a shell fragment during a Communist bombardment, walked off the plane with his left arm in a bloody sling. He carried a stack of hi-fi records under the other arm, one a Dinah Shore record scratched by a shell fragment.

"I don't remember just how it happened," Johnston told United Press International. "The shells were popping all over the place."

3 New Buildings Grace Campus at Ann Arbor

ANN ARBOR (UPI)—Three new buildings on the University of Michigan campus are being used for the first time this fall.

The \$3.5 million Medical Science and School of Nursing Building provides classrooms and laboratories for several departments of the University's medical center.

The \$3.5 million Mary Markley Hall is the largest campus dormitory for women. It houses 1,200 students and contains 283,888 square feet.

Fluids Engineering Laboratory, a \$2 million north campus structure, is intended for student study of gases and liquids.

Registering Here Next Week

Offer Adults 12 New Courses

Twelve of the 45 courses offered this fall under the Pontiac Adult Education program will be new and concern cultural, leisure time activities, business and vocational industry, according to Richard C. Fell, director of Vocational and

Adult Education in the Pontiac School System.

The new classes and the respective number of hours and evenings it will be held are: Russian, Wednesday, 2; lessons on the Hammond organ, Wednesday, 2; copper

enameling, Wednesday, 3; home repair and maintenance, Thursday, 3, and slip covers, Wednesday, 3.

Others are cake decorating, Wednesday, 3; home planning and interior decorating, 2; and a men's glee club, Wednesday, 2; salesmanship, Wednesday, 3; stocks and investments, Thursday, 2; first aid, Wednesday, 2; and pictorial drawing, Thursday, 4.

Registration for all classes will be held Monday through Thursday from 8 a.m. to 5 p.m., and Thursday from 7 to 9 p.m. at the office of the Vocational Education Building at Pontiac Central High School. All classes, which begin the week of Sept. 29, will be held on Monday, Wednesday or Thursday.

The classes which will be available will be determined by the number of people who enroll and high school credit class will be offered if the demand is great enough, Fell added.

Other courses, which are returning from last year's schedule and will be held on Wednesday for the indicated number of hours include: Bookkeeping for small business, 3; beginning shorthand, 3; advanced typing, 3; French, 2; parliamentary procedure, 2; oil painting, 3; water color painting, 3; photography, 3; and shop mathematics, drafting, machine shop and advanced projection, all 4-hour classes.

Thursday evening classes, which will again be taught this year include: Accounting, office machines, advanced shorthand, beginning typing and business English, all 3 hours; Spanish, 3; ceramics, China painting and knitting, all 3; and public speaking and parent education, both 2.

Automotive diagnosis and tune-up, blueprint reading, tool and die design, sheet metal layout, electrical maintenance and welding will also be taught on Thursday for 4 hours.

Related instruction classes for apprentices will begin Monday and according to Fell, the adult education program "is ready to take on any additional classes where there is sufficient interest expressed by the community."

The 3-hour classes will meet from 7 to 10 p.m. and the registration fee is \$10. Two-hour classes from 7 to 9 p.m. will cost seven dollars and 4-hour classes from 6 to 10 p.m. are \$15 with the exception of welding, which is \$20. All classes are conducted for 10 weeks.

High school credit courses will be held for three hours two evenings per week for 10 weeks and will cost \$20.

High school credit courses will be held for three hours two evenings per week for 10 weeks and will cost \$20.

Faubus 'Legal' Plan: Vote on Segregation

(Continued From Page One)

protect life and property if racial fighting starts.

"But I am not going to send troops to the High School (Central) to enforce integration and that's to enforce integration," said that's that," he said. "That's up to the federal courts and the federal marshals."

A hundred and fifty U.S. deputy marshals, imported for integration duty, are still training in the Federal Building. There is nothing for them to do until the schools open.

In Virginia, Gov. A. L. Bland closed two schools at Charlottesville, under a state law which automatically halves classes, where integration is ordered. The white high school at Front Royal was closed last week.

The Warren County (Front Royal) Parent-Teachers Assn. vetoed a move to reopen the school without state funds. The PTA named a committee to make plans for interim pupil instruction.

The School Board at Norfolk decided today whether to keep six schools closed temporarily while seeking a plan to bar their indefinite closure under Virginia's anti-integration laws. A federal judge overruled a state court injunction.

G. E. Graves, an NAACP attorney at Miami, said he will appeal to the County School Board and the Florida State School Board if necessary to win admittance of some Negroes to a white school at Miami. Failing there, he said he will take the case to the Circuit Court at Tallahassee. The county board has rejected applications from 14 Negro children to attend the school.

Conclude Suit Against Pontiac

City Manager Says He Opposed Promotions for 3 Officers

The suit by three Pontiac police officers against the city seeking immediate promotions concluded yesterday afternoon with City Manager Walter K. Willman as the final witness.

Circuit Judge Clark J. Adams gave City Attorney William Ewart 10 days to file a brief and the plaintiff's attorney, Paul W. Harty, 10 more days for an answer.

The suit was brought by Sgt. Raymond Meggitt, Detective Herbert Cooley and Sgt. Ted Golnes, stating they were denied their promotions in violation of civil service law.

They claim that personal hostility to them by Chief of Police Herbert W. Straley was responsible for blocking their promotions.

Willman's testimony brought out that although Chief Straley opposed the promotions because he felt the eligible men were not qualified, Willman refused to make the promotions for other reasons.

Willman said he first postponed the promotions to await the Public Administration Service report on the police department. Later, he decided to wait for the arrival of the new director of public safety, due in Pontiac in about three weeks.

Willman said he felt that a reorganization of the police department would create a surplus of supervisory officers making further promotions unnecessary.

Under cross-examination, he was asked why he had asked the Civil Service Commission to conduct examinations for two lieutenants and three sergeants and then failed to order the top eligible men promoted.

"I had as much right to change my mind as any housewife," Willman replied.

"Do you have confidence in the judgment of your chief of police?" Willman was asked by Harty.

"He's still my man," the manager answered.

"Do you think you have done a good job in supervising the police department?" Harty asked.

"I've been a distinct failure in supervising the department," Willman admitted. "But it was the same way 30 years before."

Eye Strike Deadline for GM or Chrysler

(Continued From Page One)

Wednesday, the company said normal operations couldn't be expected before Monday.

Wildcat strikes continued to hit Chrysler and General Motors plants across the country.

Another 2,000 were idled by a strike at GM's Fisher Body plant at Grand Blanc, and 500 were out at a Fisher Body plant in Los Angeles. A strike at a Chevrolet plant in Oakland, Calif., idled another 900, making the total for GM plants throughout the nation, 7,977.

The Day in Birmingham

Business Women's Club Told of Visit to Russia

BIRMINGHAM — "One of the deepest impressions the Russian people made on me was their asking if every American owns an automobile and their obvious pride in the Soviet educational system," Mrs. Ruth Miller, a member of the Paroles and Pardons Division of the Michigan Corrections Dept., told members of the Birmingham Professional and Business Women's Club meeting last night at the Community House.

Mrs. Miller visited Russia earlier this year on an American social study tour.

Russian children start school at the age of seven, she said, and are under constant government supervision and graded on ability and talent. Students considered university material are singled out and given special opportunities for learning.

While attending universities they are paid weekly, she said.

The Russians claim their solution to juvenile delinquency is system of children's clubs, Mrs. Miller told the group. These clubs provide both entertainment and recreation, besides being a place where they can do school home work.

With some glees, Mrs. Miller related one incident in which Russia cannot claim a first.

After a tour of a modern, immaculate bakery, Mrs. Miller said her group was surprised to see the unwrapped loaves of bread being packed into baskets for delivery.

The manager explained: "In a year we expect to complete a system whereby the bread will be sliced and wrapped."

Charged with ferocious assault, Thomas Andrews, 32, of Detroit, stood mute yesterday in Bloomfield Hills Municipal Court. Judge Alva J. Richardson set trial for Oct. 2.

Andrews is accused of beating his estranged wife, Jacqueline, 30, on Sept. 11 in a church parking lot. She lives at 6765 Glenway Blvd., Birmingham.

Andrews gave himself up yesterday after he had been talked to by Detroit Police, Bloomfield Hills Police Capt. Walter Sluiter said.

In a second hearing yesterday, Judge Richardson fined Marcus F. Bishop, 25, of Detroit, \$75 on a charge of assault and battery.

The complaint was filed by Mrs. Selena Wallace, 42, a Bloomfield Hills domestic worker. She told police she had accepted a ride last Friday from Bishop from Detroit to her place of employment and he assaulted her.

FRANK H. GALBREATH
Frank H. Galbreath, 57, of 1433 Maryland Blvd., Birmingham died yesterday in St. Joseph Mercy Hospital, Pontiac, following a long illness.

A civil engineer for the Ford Motor Co. in Detroit, he formerly had been employed by the Ohio State Highway Dept. Mr. Galbreath was a graduate of Ohio State University and a member of Moscow Lodge 122, F&M, in Point Pleasant, Ohio.

Surviving are his wife, Betty C.; a son, Robert C., of Birmingham; his mother, Mrs. F. N. Galbreath of Point Pleasant; two sisters and a brother.

The body will be taken tonight from Bell Chapel of the William R. Hamilton Co. to Cincinnati for service and burial.

More Layoffs Due at Pontiac General

(Continued From Page One)

was announced that extensive repairs must be made to old plumbing, electrical and heating installations before remodeling of the original hospital building can proceed.

Willman and Euler said that the extent of the repairs and how much extra money they will cost have not yet been determined. City inspectors, contractors and architects have still to decide on the minimum amount of work that must be done, Willman said.

The contractors have estimated that to replace the defective systems in their entirety could push completion of the building program as far as a year away. The city and hospital, however, are determined to keep replacements at a minimum.

It is doubtful that the hospital can operate profitably until the original building is occupied and revenue-producing, Euler said. At present, only the recently-completed 254-bed addition is being used.

The plan that Willman proposed to other communities asked them to reimburse the hospital for unpaid bills run up by their residents.

Willman said that he has yet to receive a favorable reply to his proposal, made in July.

"We may soon come to the point where we must decide whether or not we can continue to act as a receiving hospital for the whole county," Willman said.

"It is high time that the people of Pontiac stopped paying through the nose for the care of patients from other communities."

The hospital estimates its losses at about \$50,000 a year on bills unpaid by out-of-town patients and another \$50,000 on Pontiac residents. But the city has agreed to reimburse the hospital for its loss on Pontiac residents, beginning next year.

A committee of trustees is to be formed to ask other cities to adopt the Pontiac plan. The same committee is also to meet with county officials to spur payments on welfare cases.

Deaths in Pontiac and Nearby Areas

HAROLD W. CURTIS

Harold W. Curtis, 45, of 719 Alameda St., died yesterday in Veterans' Hospital, Ann Arbor. He had been an orderly in the hospital and was a veteran of World War II.

Surviving are two brothers, Richard who is serving with the U.S. Navy and Peter of Berkeley.

Service will be at 1 p.m. Saturday from the Sharpe Funeral Home, Clarkston with burial in the Clayton Cemetery.

CHARLES E. KING

Word has been received of the death of Charles E. King, 68, a resident of Pontiac until two years ago when he moved to Bay Port. He died there yesterday.

Mr. King, who is survived by his wife, Evelyn, was a retired employee of General Motors Truck & Coach Division.

Service will be at 2 p.m. Sunday from the J. O. Shetter Funeral Home in Pigeon with burial in the Elkland Cemetery.

MRS. ORRIS ADAMS

CLARKSTON — Service for Mrs. Orris (Florence L.) Adams, 65, of 6325 Maybee Rd., will be held at 2 p.m. Monday at the Sharpe Funeral Home. Burial will be in the Ortonville Methodist Church.

Mrs. Adams died Thursday at St. Joseph's Mercy Hospital, Pontiac, following a short illness. She was a member of the Joseph C. Dine Chapter 294, OES, and was a past matron.

Surviving are her husband; two sons, Chester and John, both of Clarkston; three brothers, Otis Leece of Fenton, Leon of Clarkston and Francis of Ortonville.

MRS. CHARLES BURROWS

HOLLY — Service for Mrs. Charles (Lola J.) Burrows, 80, 308 Hadley St., will be held at 2 p.m. Sunday at the Seventh Day Adventist Church. Burial will be in Lakeside Cemetery. The body will be at the Dryer Funeral Home until noon Sunday.

Mrs. Burrows died Thursday following a long illness.

Surviving are four daughters, Mrs. Eunice Wilcox of Flint, Mrs. Mina Seeley of Detroit, Mrs. Rachel Gaylord of Pontiac and Mrs. Marie Oberheim of Holly; a son, Charles of White Lake; a sister, six grandchildren and five great-grandchildren.

MRS. OLIVER MURDOCK

AUBURN HEIGHTS — Service for Mrs. Oliver (Rosetta) Murdock, 91, of 146 Cherryland St., will be held at 4 p.m. Sunday at the Moore Chapel of Sparks-Griffin Funeral Home. Burial will be in Terncliffe Cemetery, Springfield, Ohio Monday.

Mrs. Murdock died early this morning at her home following several months illness. She was a member of the Christian Church in Pleasant Grove.

Surviving are a son, Kenneth

of Fort Orchard, Wash.; a daughter, Mrs. John R. Strobel of Auburn Heights; four grandchildren and seven great-grandchildren.

FLOYD REED

DRYDEN — Service for Floyd Reed, 72, of 2961 Winslow Rd., will be held at 2 p.m. Monday at the Bethany Memorial Church in Attica Township with burial in the Attica Cemetery. The body will be at the Baird Funeral Home, Lapeer, until noon Monday.

Mr. Reed died Thursday at his home. Surviving are his wife, Bertha; a son, Floyd A. of Dryden; two daughters, Mrs. Wealthy Lurvey of Grand Junction, Colo., and Mrs. Madeline Lass of Newberry; two brothers, John and Romulus, both of Lapeer; and a sister, Mrs. Ida Flate of Pontiac, and 11 grandchildren.

RANDA WILLIAMS

AUBURN HEIGHTS — Graveside service for Randa Williams, one-day-old daughter of Mr. and Mrs. Charles W. Williams of 350 Roberts Ct., was held this afternoon

at White Chapel Cemetery, Troy. Funeral arrangements were made by the Moore Chapel of Sparks-Griffin Funeral Home, Auburn Heights.

The child died Thursday at the Pontiac Osteopathic Hospital. Surviving besides her parents are two brothers, Tommy and Timmy, both at home, and her grandparents, Mr. and Mrs. Harold Starkey of Auburn Heights, and Mr. and Mrs. Charles Williams of Rochester.

Legalized Vice Backed by Judge

WALNUT GROVE, Calif. (AP) — Judge Milo E. Dye, who will be 76 Nov. 12, says he favors state controlled houses of prostitution. The judge made that statement to newspapermen yesterday after assessing a total of \$650 in fines from a man and four women who had been arrested in a brothel raid.

He had to enforce the law even if he did not agree with it, he declared. "Prostitution, which was started by Adam and Eve, will exist as long as we have male and female," he continued.

State-controlled houses, he contended, would protect "our juveniles and virtuous women."

The judge mentioned the large numbers of transient workers in his area, which is about 70 miles northeast of San Francisco. He said they "should have the opportunity, perhaps, of obtaining personal satisfaction."

Investigators asked the autopsy on fireman Peter Andrew, 42, to determine whether he may have suffered a heart seizure immediately before the accident Monday as another autopsy showed engineer Lloyd Wilburn, 63, probably did.

Testimony before an Interstate Commerce Commission hearing in New York yesterday disclosed that Andrew had been on restricted duty because of "moderate elevation of blood pressure."

The number of bodies recovered from the oily waters of Newark Bay rose last night to 38. In addition, at least 11 persons believed to have been on the train still are missing.

Deaths Elsewhere

LA 49, census vogyDeaths. BXC19 TOKYO (AP) — Dr. Sadatoshi Bekku, 65, authority on electrical transmission and chairman of the Japan Alpine Club, died today of a heart ailment.

CORPUS CHRISTI, Tex. (AP) — Rudolph J. Timpfe, 65, former St. Louis loan company executive and owner of three loan companies in Corpus Christi, died Wednesday of a heart attack.

Maybe 2 Dying Men Piloted Fatal Train

BAYONNE, N.J. (UPI) — Authorities scheduled an autopsy today to determine whether two dying men may have been in the cab of a Jersey Central commuter train locomotive when it ran three signals and plunged through an open drawbridge.

Investigators asked the autopsy on fireman Peter Andrew, 42, to determine whether he may have suffered a heart seizure immediately before the accident Monday as another autopsy showed engineer Lloyd Wilburn, 63, probably did.

Testimony before an Interstate Commerce Commission hearing in New York yesterday disclosed that Andrew had been on restricted duty because of "moderate elevation of blood pressure."

Assassin Shoots U.S. Diplomat

Vice Consul on Cyprus in Dangerous Condition With 3 Bullet Wounds

NICOSIA, Cyprus (AP) — U.S. Vice Consul John Page Wentworth was in dangerous condition today with three bullet wounds inflicted by a young gunman who may have believed he was shooting a Briton.

The gunman fired over the garden fence as Wentworth stood behind his home last night. The 33-year-old diplomat had just been romping with his 3-year-old daughter Caroline. He was hit twice in the stomach and once in the leg.

He was taken to the British military hospital, where his condition was listed as dangerous. The gunman escaped.

About the same time a British airman was slightly wounded by a gunman a couple of blocks away and two Turkish Cypriot policemen also were wounded.

British authorities quickly imposed a general overnight curfew and an indefinite house curfew for all Greek Cypriot men between 15 and 25.

There was speculation that Wentworth had been mistaken for a British citizen, the main target of Greek Cypriot terrorists trying to win freedom for this British crown colony to join Greece.

The American colony of about 600 persons on Cyprus has not been a target of terrorism by either Greek or Turkish Cypriots though hundreds of lives have been taken in the last 3½ years.

Wentworth arrived here last June with his wife Jocelyn, his daughter and a son Peter, 1, to become an assistant to U.S. Consul General Taylor Belcher. The family lives near the new American consulate building.

A native of Worcester, Mass., Wentworth was graduated from the Case Institute of Technology in Cleveland. He was a Navy officer and an electronics engineer before joining the consular service in 1955. He served as a vice consul in Medellin, Colombia, before coming here.

Violence continued in Cyprus today with the fatal shooting of a 40-year-old Greek Cypriot carpenter at Limassol. Another man was wounded. Police said it was believed EOKA, the Greek Cypriot underground, was responsible.

Three Gunmen Rob Bank in Detroit

DETROIT (AP) — Three gunmen, believed to be the same who have pulled off three daring holdups in recent months, robbed an East Side bank of an undetermined amount of money yesterday.

One of the men vaulted a counter at the Detroit Bank and Trust Co. branch and scooped up money as his companions held customers and employees at gunpoint.

Within minutes the three had escaped. No one was injured.

The bank branch is on the Detroit side of Mack Avenue at Hillcrest near the Grosche Pointe City line.

Gunmen of the same description robbed a National Bank of Detroit branch in Harper Woods of \$7,000 on Aug. 1 and a week ago took \$10,000 from a St. Clair Shores supermarket. They are also believed to have robbed another suburban bank on June 30.

Use Bow 'n' Arrow to Secure Atom City

LOS ALAMOS, N.M. (AP) — This atomic city is convinced the day of the bow and arrow is not over.

Los Alamos Scientific Laboratory — where the world's first atomic bomb was developed — was faced with the problem of stringing wires across a box canyon.

The walls of the canyon were too steep to climb, and the distance too great for throwing a line.

So Harold W. Groves, a lab employee and an expert bow-and-arrow man, unlumbered his equipment, tied some fishing-line to the tail of an arrow and zipped it across the canyon.

The rest was easy.

Conservation Department Taking Tree Orders

LANSING (UPI) — The State Conservation Department is taking tree orders.

The trees, in the form of plant-

ing stock, are available from state nurseries and include red pine seedlings and transplants and jack pine seedlings. The stock is sold at cost for reforestation and Christmas tree production but not for ornamental planting.

U.S. Bond Sales Slip

DETROIT (AP) — Savings bond purchases in Michigan dropped 10 per cent in August from the same month a year ago, the U.S. Treasury Department reports. However,

despite widespread unemployment in the state, purchases in the first eight months this year were only 4 per cent below 1957.

New Jersey has 81 commercial airports.

18 Teaching Indonesians

JAKARTA — Eighteen American cement-mill workers are teaching Indonesians how to operate a new \$14,000,000 cement plant in Indonesia. They expect the workmen to

be trained well enough within a year to run the plant at its full capacity, 250,000 tons a year.

Capt. James Cook made the first English explorations on the coast of Alaska in 1776.

Novi Vote May Create County's Biggest Village

NOVI TOWNSHIP — Oakland County's largest village, and one of the biggest in the state, would result from charter approval Monday of the proposed Village of Novi.

The area, which was approved for incorporation March 17, covers about 30 square miles of the township's 36. The first vote was 509 to 442.

There are about 6,000 residents in the proposed village.

The only portions of Novi Township not included in the village boundaries are two subdivisions, Northville Estates and Brookland

Farms No. 1, and a small area recently annexed by Northville, which is involved in a legal dispute.

Warren Products, an industrial firm in the small township section annexed by Northville, is carrying on a legal battle to remain a part of the township.

Qualified Novi electors will also vote for candidates for a five-man village council. They are George T. Ames, J. Philip Anderson, A. Russel Button, Ebertus J. Fisher, David M. Fried, Dirk H. Groenenberg, Leo E. Harrawood, Dicron Taftallian, Walter Tuck and Donald W. Woodward.

Those elected would assume office only if the charter is approved. The charter calls for the hiring of a village manager.

Backers of the village point to protection from annexation as the chief benefit from a village status.

Others cited by a pro-village group are local control of tax monies, including revenue from sources other than real estate taxes, and the legal powers which enable an incorporated village to own and operate its services such as water and sewer systems.

The proposed charter limits property tax levy at 5 mills. Any property tax increase would have to be approved by voters.

If the home rule charter is turned down by the voters, it will be revised and resubmitted to the voters, according to Charter Commission members.

\$10,000 Damage in Orion

Their New Home Ablaze

ORION TOWNSHIP — Fire yesterday evening caused an estimated \$10,000 in damages to the home and contents of Mrs. John C. Plassey, 477 Oakgrove St. in the Bunny Run Subdivision.

Growth Project Set by North Branch Firm

NORTH BRANCH—The Board of Directors of North Branch Food Lockers, Inc., has announced a planned \$30,000 expansion and improvement program at the firm's plant at 6755 Jefferson Rd.

In addition to the expansion project, a merger was completed between the Branch Market and Food Lockers concern. James Kohler, manager of Food Lockers, Inc., will serve as manager of the Food Service plan and Walter Taylor, former owner of the Branch Market, will assume management of the retail business of North Branch Lockers, Inc.

Carbon Paper in Red

LONDON — A British company has devised a product most firms would like to do without. It's a new carbon paper for use in accounting departments. The carbon sheet incorporates two vertical red stripes for "in-the-red" items, thus eliminating the need of typing these figures in later on individual copies.

Mrs. Plassey, widow of the late Mr. Plassey, who owned the Community Motor Sales, Inc., Rochester, was at a church dinner in Rochester when the blaze broke out at about 6:30.

Orion Township Fire Chief George Schick believed it started in the utility room where an oil furnace was located.

Two other rooms in the eight-room house were gutted, and there was extensive smoke and water damage throughout, Schick said.

Water was pumped directly onto the flames from a canal near the house, Schick said. Early efforts by the township volunteer fire department were hampered by the heavy smoke, he said.

An active clubwoman, Mrs. Plassey recently had the home renovated and moved into it from Rochester.

Damaged or destroyed were many pieces of antique furniture, china and oil paintings. She also lost a valuable collection of slides and material used in demonstrating her lectures to garden clubs.

Her son-in-law, Frank Shepard, a Rochester realtor, believed damages would amount to about \$10,000.

LOIS STIEVE

Mrs. Louise Stieve of 2370 Livernois Rd., Rochester, announces the engagement and approaching marriage of her daughter, Lois, to Glen C. Douglas, son of Mr. and Mrs. William Douglas of 3046 Margaret St., Auburn Heights. The wedding has been set for Sept. 27 at the St. John's Lutheran Church in Romeo.

Name Has No Influence

WASHINGTON — Paris's Place de la Concorde, despite its name, has been the scene of violent discord. The vast square, a present-day traffic hub, was designed to enhance a statue of Louis XV erected in 1763. There Louis XVI and Marie Antoinette died on the guillotine. During the Algerian crisis in May, 1958, troops battled thousands of rioters in the square.

New Hospital to Be Expanded

Plan 18-Bed Addition Even Before Finishing Building Near Romeo

ROMEO — The new Community Hospital, located between Romeo and Almont, will be expanding even before it is formally dedicated next month.

Plans now are being drawn by architects for a 16 to 18-bed addition, a hospital spokesman said today. Bids on the additional construction will be opened Oct. 28, four days after the scheduled dedication.

Completion of the new wing will raise the hospital's capacity from 30 to 46 or 48 beds, and will still leave space for the total of 80 beds originally planned.

News of the proposed expansion follows the recent announcement by the Michigan Office of Hospital Survey and Construction, which has recommended a federal grant of \$31,696. Total cost of the hospital, including the new addition, will be approximately \$715,000.

The new medical facility is on Van Dyke road (M53) midway between Romeo and Almont.

Pancake Supper Slated

AVON TOWNSHIP — A pancake supper, sponsored by the Metropolitan Club and its Ladies Auxiliary, will be served from 5:30 to 7:30 p.m. Saturday at the Avondale Fire Hall, 2137 Auburn Rd. Proceeds will be used in the club's charity projects.

His Car Comes Back

NEW CASTLE, Ind. (AP) — Some time ago Doyal Plunkitt traded in his 1953 model car for a new one. The used car traveled a circuit among dealers that took it to Muncie, Anderson, Indianapolis and finally back to New Castle, where Plunkitt bought it again to give to his daughter.

When Martha Washington visited War, her coach always arrived Gen. George Washington in the "completely filled with cooked food during the Revolutionary War."

Antiaircraft Nike—Hercules Added for Defense

U. S. Sending New Missiles to Formosa

TAIPEI, Formosa (AP).—The U. S. Army's newest antiaircraft missile is being added to the defense of Formosa with the assignment here of a Nike-Hercules missile battalion.

The U. S. Taiwan (Formosa) Defense Command announced today an advance party of the 71st Artillery Regiment's 2nd Missile Battalion had arrived from Ft. Bliss, Tex., and missile launching sites are being built.

The Nike-Hercules can knock

down enemy aircraft more than 75 miles away. It can carry either a conventional or an atomic warhead.

The Defense Department in Washington said Monday the battalion was going to the Pacific but refused to confirm reports that it would come to Formosa.

A Nike-Hercules battalion consists of 700 to 800 men manning 48 missile launchers. This type of supersonic missile is in defense around New York, Chicago, Los Angeles and the Washington-Baltimore area.

Matador guided missiles have been in operation on Formosa since late last year. U.S. jet fighters also are on Formosa, and the 7th Fleet carries its own antiaircraft missiles and fighters.

The Nationalists got three more LSTs through Communist shell-fire to Quemoy, the Defense Ministry said. The ships unloaded supplies and withdrew without damage.

This brought to nine the number of LSTs reported to have delivered cargoes to Quemoy since U.S. advisers showed the Nationalists new techniques.

Nationalist China gave credit to better U.S.-trained pilots and superior American planes for the victories it claimed in dogfights with the Communists yesterday.

The Defense Ministry said eight of its planes tangled with 30 Communist MIGs near the offshore Quemoy islands and downed five of them without a Nationalist loss. Nationalist planes also sank three Communist torpedo boats and damaged another, the ministry claimed.

The ministry spokesman, Rear Adm. Liu Hoh-tu, was asked at a news conference how outnumbered Nationalist jet-pilots could score such one-sided victories.

"It must be because of much better morale, experience and training of our pilots," Liu replied. "I think also that American equipment inside the plane is superior, as you all know from the Korean War."

Liu apparently referred to radar and electronic gunnery equipment in F86 Sabre Jets and F4 Thunderbolts supplied to the Nationalists by the United States. The basic planes themselves are older models than the Communist MIGs. Nationalist pilots are now training in newer supersonic F100 Super Sabres.

Liu said U.S. jets flew protective air cover with the Nationalist planes protecting a supply convoy to Quemoy but were not engaged in the dogfights.

"There was no need for them to come in," he added.

So far there have been no direct clashes between U.S. forces and the Chinese Communists. But a soldier from the U.S. military advisory team on Quemoy arrived in Taipei with an arm wound received during a Communist shelling. Specialist 3.C. George Johnston of Springdale, Pa., said he was not certain whether he was hurt by shell fragments or the dive he took into a hole.

After a lull of 11 hours 12 minutes, the Communists reopened their bombardment of the Quemoy at 2:42 a.m. The Defense Ministry said 1,250 shells hit the islands by noon.

Island Without Cars, but Tractors Problem

ST. HELIER, Channel Islands (UPI).—The tiny English Channel island of Sark, where automobiles are banned, has a traffic problem—tractors.

Fun-loving farmers often ride the tractors from pub to pub on noisy drinking sprees. The Sark Parliament is considering a curfew on tractors from 10 p.m. to 6 a.m.

Buenos Aires has five subways.

Buried Wrongs Come Back to Convict Worker

HALIFAX, England (UPI).—Somehow Kenneth Elsworth, 38, couldn't get the hang of the curtain rods he was supposed to be assembling at a factory here.

He was always making mistakes and every time he did he was bawled out by his boss. That went on for some time until he thought of a way out.

To cover up his mistakes he decided to smuggle the faulty products out of the factory, take them home and bury them at the bottom of his garden.

Six years ago Elsworth figured he had had enough so he quit, moved to another city and got another job.

Then along came Mrs. Jessie

Fox who took over Elsworth's old house. She was digging in the garden and there she uncovered 68 of Elsworth's mistakes.

Mrs. Fox worked for Elsworth's old firm and recognized the rods. She told her foreman who told the manager who called police who charged Elsworth with stealing the rods.

He pleaded guilty. "I was allowed to make a few mistakes on the assembly line, but I made many mistakes," Elsworth told police in a statement read in court yesterday.

"I would do anything to stop the foreman shouting at me. So if I made more mistakes than I was supposed to I took the rods home and buried them."

Elsworth was freed after he promised to pay \$56 to his old firm for the rods, plus court costs. He is now a textile worker.

Larry Benson Says:

I'M SURE!

And that's a strong statement to make . . . but again I say I'm sure you will be delighted with our selection of sport clothes. BUDGET PRICED . . . AND EVERY ONE A FAMOUS BRAND.

SAM BENSON 37 North Saginaw Street Across from Community Bk.

Worker Given Divorce, Support From Wife

LOS ANGELES (AP) — Donald L. Howse, 33, has been granted an uncontested divorce, custody of his three children and \$30 weekly support from Dorothy Howse, 28. She works at the same aircraft plant as Howse.

He testified that he "was all shook up" when he discovered his wife out with other men.

Said Superior Judge Roger Platt: "In these modern days if the wife wants to give up the children, and both parents are working, it is only fair that the wife contribute to the support."

Youth Fitness Expert Warns of Softness

LOS ANGELES (AP) — America will become a nation of has-beens unless it gets off its seat and on its feet, said the director of the President's Council on Youth Fitness.

As a start, Shane MacCarthy told a news conference, parents should quit chattering their children to and from school.

"History has shown that citizens of every great nation in the past become soft and flabby when the nation got to the top, then it went downhill," he said.

YOU MAY HAVE PINWORMS AND NOT KNOW IT!

Picking, nose-picking and a tormenting anal itch are often tell-tale signs of Pin-Worms... ugly parasites that medical experts say infect one out of every three persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, these pills must not only be killed, but killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do...

...and here's how they do it: First, a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily.

Don't take chances with this dangerous, highly contagious condition. At the first sign of Pin-Worms, ask your druggist for genuine Jayne's P-W Vermifuge... the small, easy-to-take tablets perfected by famous Dr. D. Jayne & Son, specialists in worm remedies for over 100 years.

JAYNE'S P-W FOR PIN-WORMS

Gives Up Fight to Unite World

Lawyer Lacks Funds to Carry On Struggle for One Government

NASHVILLE, Tenn. (AP) — Fyke Farmer, whose efforts for a world government brought fleeting fame but scant success, abandoned his 12-year crusade yesterday to go to work. He's broke.

"I've sacrificed everything and have nothing else for the struggle," said Farmer. He is resuming his law practice here.

Farmer tangled with ex-President Truman over the Korean war, won a brief respite for doomed atomic spies Julius and Ethel Rosenberg and even promoted a world constituent assembly at Geneva in 1950.

"I had to stop fighting for world government to make a living," said Farmer resignedly. "I can't voluntarily resign from life."

At an end are the lean Tennessee lawyer's two major attempts to further peace—through a world government and by getting nations to accept international law.

The latter try ended June 9 when the U.S. Supreme Court refused to review lower court rulings that Farmer must pay his 1949 income tax of \$4,750.

Farmer had declined to pay the tax, arguing much of it would be used to finance the Korean War. He maintained wars were illegal under international law. Farmer failed in two attempts to subpoena former President Truman to appear in court for questioning on the conduct of the Korean conflict.

The 57-year-old attorney's attempt to establish an international government drew some 500 persons from 45 countries to the world constituent assembly at Geneva. Farmer was elected president and a proposed world constitution was drawn up.

It was in the case of the Rosenbergs that Farmer won his biggest headlines. He obtained a stay on the eve of their execution in 1953, but it was set aside the next day. The Rosenbergs were put to death a day later than scheduled. "My zeal for and belief in the need for world government is not abated..." he said.

Quick Portraits of New Jetliners for U.S. Service

WASHINGTON (UPI) — Portraits of America's new jetliner family:

Boeing 707 — First U. S.-built jetliner to enter regularly scheduled service... cruise speed 550-600... passenger capacity 124-156... wingspan 130 feet, length 128... Boeing 320 and 420 are long-range versions... total orders received: 163.

Douglas DC8 — United is scheduled to get the first one early in 1959... cruise speed 550-600... passenger capacity 120-160... wingspan 139 feet, length 150... on order: 145.

Convair 440 — Prototype is still being built... first delivery scheduled for Transworld Airline in 1960... cruise speed 615 (fastest of U. S. jets)... passenger capacity 80-140... wingspan 120 feet, length 129... slightly larger version called the 600... on order: 82.

Lockheed Electra — Turbo-prop (jet engines hitched to propellers)... prototype now finishing test flights... American and Eastern Airlines start taking delivery late this year... cruise speed 415... passenger capacity 66-91... wingspan 9 feet, length 104... on order: 160.

Fairchild F27 — "The Friendship," first designed by Boeing, taken over by Fokker of Holland and then licensed for construction in U.S. by Fairchild... short-range turbo-prop designed for smaller airlines... West Coast Airlines has taken delivery on its first... cruise speed 280-300... passenger capacity 40-44... wingspan 95, length 77... on order: 38.

John Barrymore Jr. Belittles Wife's Walkout

HOLLYWOOD (AP) — John Barrymore Jr.'s actress wife Cara Williams has walked out "over absolutely nothing," he says.

His attorney predicted, however, that she will return before the week is out.

"We were riding in the car and got into an argument over absolutely nothing at all," said the son of the late matinee idol. "I got out of the car and when I got home, Cara was gone."

Their two children, Cathy, 10, and John, III, 4, have been taken to the home of her parents.

Woman Halts 3 Workers With Blast of Shotgun

WINSTON-SALEM, N.C. (AP) — Three workers from a nearby rock quarry drove up to the home of Mrs. Janice Davis, 43, to warn her they were about to do some more blasting.

This was not news to Mrs. Davis. Police said she intercepted the delegation with a blast of her own from a shotgun, shooting holes in their station wagon's tires.

She posted \$1,000 bond for release on a charge of assault with a deadly weapon.

France has Europe's highest birth rate — 18.3 per 1,000 population.

Await Explanation About Jobless Pay

LANSING (AP) — Surprised legislators today awaited an explanation why hundreds of small Michigan employers in effect are tapping the state jobless pay fund for several times amounts paid in.

They were told that some instances were "almost shocking," with drafts on the compensation fund attributable to at least a few employers running "12 to 15 times amounts contributed in payroll tax."

The situation was described yesterday to a special legislative study committee by its counsel, Harold S. Sawyer of Grand Rapids. The group is investigating the state unemployment compensation system.

"That's better than the races," was the rejoinder of Rep. Walter G. Nakkula (R-Gladwin), committee chairman.

Sawyer said the Michigan Employment Security Commission has been asked to supply detailed information on the employers, all in the so-called "elective" category.

These are employers not covered by the general mandatory provisions of the employment security law, but which voluntarily may join.

In recent years, 500 to 600 a year have thus been coming into the system, Sawyer said.

Three Children Watch Search for Themselves

IDAHO FALLS, Idaho (AP) — A crowd stood on a bridge watching searchers probing a canal yesterday.

The group included two women, mothers of three children reported missing.

The crowd kept getting bigger. So there wasn't much stir when three youngsters joined the group to see what the excitement was about.

Not, that is, until someone

recognized them as the objects of the search — 5-year-old Bobby Curran, and Gail and Mark Walpert, 3 and 5.

"Where had they been?" "Way over there," one man- aged to reply with an indefinite wave of his arm between hugs and kisses from his mother.

Albion Mayor in Race

ALBION (AP) — Mayor H. A. Rieger has announced he will run for re-election Nov. 4. Rieger, a former city engineer, is serving his first two-year term.

Double Benefits

Feet Over Head Helps Your Midriff

By JOSEPHINE LOWMAN

Q. "Will you give me just one exercise which is good for both the stomach and the waist?"

A. Lie on your back with your legs straight and your arms on the floor at your sides, palms on the floor. Lift both legs with stiff knees. Continue on over until the toes are touching the floor behind your head. Return legs to place. If you cannot touch the floor with your toes at first, go over as far as you can. Gradually your feet will come closer and closer to the floor. Push from your hands.

Q. "The veins in my hands are large and protrude. I think they are very ugly. Please tell me how to correct this."

A. I am sorry there is not much you can do about it. This is usually an inherited characteristic just like the shape of your nose or mouth. It helps to keep your hands out of hot water as much as possible.

Also, if you are underweight, a gain in pounds will help. The most important thing is not to let this

affect your personality by making you self-conscious.

Q. "In what way do flat feet affect the legs? I am 18 and have just learned that this is one of my problems."

A. Flat feet can affect the whole body because, after all, they support the weight of the body. They also can influence the appearance of the legs because the flattened arch causes the foot to assume an unnatural position — flat feet

turn in. Weakened arches also can cause pain in the calves and even in the thighs and back.

Q. "Is there any way to prevent baldness? My hair is getting very thin."

A. I know of no certain preventative, although there is evidence that a number of factors contribute to it. A well-balanced diet with emphasis on vitamins and minerals is essential. Some

studies have indicated that the vitamin B family may benefit the hair in a special way.

Ask your doctor how much vitamin B complex to take daily. It also seems that abnormal conditions of the scalp may lead to balding. For instance, if a scalp is extremely tight, daily massage is indicated. Extreme dryness or oiliness should be corrected.

Tomorrow: "The Beauty of Maturity Is Created by the Woman."

Atlas Missile Fails on First Long Flight

CAPE CANAVERAL, Fla. (AP) — The first attempt to launch an Atlas missile the full 6,000-mile intercontinental range ended in a spectacular blowup high in the Florida sky.

The mighty ICBM exploded in a ball of orange flame in the stratosphere yesterday 80 seconds after liftoff.

It was the 13th Atlas fired to date, and was launched from Pad No. 13 at the Cape.

The blowup cut short immediate U.S. hopes of closing the gap with the Soviet Union in the space weapons race. Most U.S. missile experts believe the Soviets already have an operational ICBM.

The failure also was disheartening for the Atlas Convair launching team which has spent 14 months developing the missile for the first "all the way" test.

The liftoff seemed almost perfect, similar to the three previous shoots that were highly successful over a range of about 3,000 miles. After a roaring climb straight up, the 85-foot war rocket leaned toward a horizontal path and darted toward the southeast.

Just as the missile began to spurt out a thick vapor trail at an altitude of about 60,000 feet, it burst apart with a brilliant flash.

PAIS TO PART — Tina Marie Antonucci, 3, gets a goodbye hug from chimp Candy at a party in the Antonucci trailer at the state fair grounds in Nashville, Tenn. Candy is a star in the chimpanzee act run by the Antonuccis. Immediately after the party Tina Marie and her mother flew to St. Louis for treatment of a neck malignancy doctors fear may be cancer.

New Ford-UAW Pact's Possibilities Worry Business of Breeding Inflation

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Relief that business recovery won't be stymied by an auto strike is somewhat tempered today by worry over the possible inflationary aspects of the new labor pact at Ford.

Both labor and management insist that the new wage hikes and other benefits are noninflationary.

The public will probably make up its mind about that after it sees:

1. The prices for the new models.
2. The psychological effect, if any, on wage negotiations in other industries now under way or to start in coming months.

In the matter of prices it's noted that the current settlement provides a much smaller wage boost than was made in the 1955 settlement. The big hike at that time was widely believed to have helped trigger the rise in the cost of living that has continued up to now.

Today's argument is that the present smaller wage boost might be absorbed by increased productivity and efficiency in the plants and by dealers in the present more competitive market.

The new car prices also will be affected by rising costs other than labor. Prices of some materials,

notably steel, have risen recently, after a wage boost in that industry. The costs of getting materials to the auto plants and of getting cars and trucks to the dealers also have risen.

The first price list on 1959 models, that of Buick, was announced before the Ford agreement, which is expected to set a pattern for General Motors and Chrysler as well. The Buick prices might have taken into consideration an expected wage hike, but they offer few clues. They range from \$63 more than Buick's lowest priced model last year to \$491 less than its highest priced.

Labor leaders and labor relations executives belittle the belief that one industry's labor contract sets a pattern for others.

Outsiders aren't so sure. The United Auto Workers, seeking a new contract with the makers of farm machinery, seem likely to be swayed by the settlement they made with Ford. The Electrical Workers Union also deals with the auto industry.

Since World War II there appears to have been a definite pattern among similar industries. Some years have been good ones for labor in the durable goods field to get fat wage boosts. Other years, notably during the shallow and brief recession periods, have seen only small advances, except

when wage scales automatically rose under long-term contracts or because of being tied to the rising cost of living.

The psychological effect upon both union leaders and management of settlements in other industries, especially similar ones, can't be measured but it seems sure to be strong.

With auto labor peace apparently in the final stages of negotiation, economic interest in Detroit will now concentrate on the public reception of the new models which will be making their bows in increasing volume.

Recovery hasn't been tripped up by an auto strike. Now it's to be seen if increased auto sales can help get recovery out of low gear.

Homesick Cows Wreck Big Bull Elk's Kidnaping

JOHANNESBURG, Mich. (AP) — An eight-point bull elk rounded up all the cows in a pasture near here and refused to allow anyone near them.

Two conservation officers, two collie dogs and all the children in the neighborhood tried to chase the elk back into the woods and free the cows for milking, but failed. They gave up at dark.

By nightfall, the problem solved itself. The cows wandered back to the barn and the elk returned to the woods.

Mae West Returning

HOLLYWOOD (AP) — Mae West is returning to the movies after a 14-year absence. Actor Steve Cochran said he has signed the 66-year-old actress to star in his independent production of "Klondike Lou," to be filmed here and on location in the Yukon.

"The Store Where Quality Counts"

DISCUSS YEAR'S WORK — Looking over the project leader material which they will use for the coming year are three project leaders of home demonstration extension groups in the area. Left to right are Mrs. William Tibert, Pontiac district representative of Pontiac; Mrs. Harold Wert, and Mrs. Leon Struckman, leaders

of the Lake Shore Pontiac group of Pontiac and Mrs. William Tibert, leader of the Modern Homemakers group of Pontiac. The Pontiac, West Pontiac and Waterford extension groups conducted their annual rally day yesterday at the Waterford C&I Building. More than 175 attended.

Commerce Secretary Weeks Predicts:

'Recovery Will Continue'

WASHINGTON (AP) — With things looking up in the steel, auto and textile industries, the economic recovery promises to keep going into next year.

That's a summary of the views given to Secretary of Commerce Weeks yesterday by his Business Advisory Council.

The council, comprised of top executives of about 100 of the nation's biggest firms, met with Weeks yesterday behind closed doors.

Afterward, Weeks said the industrialists were "very confident that business will go on improving throughout the fall and into next year."

The secretary gave this rundown on

conditions in the steel, auto and textile industries, all of which were hurt during the recession:

Steel—As steel-using industries move to build up depleted stocks, increased production rate expected to continue.

Autos—Apparent end of industrywide strike threat sparks hopes for unimpeded economic recovery. Big orders for steel and other materials for 1959 models counted on to boost upturn. Auto industry spokesmen on BAC expect improved car-selling year ahead.

Textiles—Representatives on BAC report better-than-anticipated third quarter business in this industry.

U.S. Car Production Surges Despite Strikes

DETROIT (AP) — Passenger car production in U. S. plants will step up sharply this week, despite strikes at Ford factories. Automotive News said today.

The trade paper estimates this week's car output at 4,100 units, compared with last week's 24,072. It placed truck assemblies at 13,072 of its "twin city," Minneapolis.

575 contrasted to last week's 6,765. American Motors expects to produce a record total of 5,400 Ramblers this week, the paper said. It has been running at about 4,250 units weekly.

Canadian factories are scheduling 2,045 car and truck assemblies this week, compared with 1,149 last week.

St. Paul, Minn., is 10 miles west of its "twin city," Minneapolis.

FOR SALE -- HOUSES

Sealed proposals will be received by City Clerk, 35 S. Parke Street, Pontiac, Michigan, up to 4 o'clock P. M. Monday, September 29, 1958, for the sale of the following houses:

End September Grain Contracts

CHICAGO (AP) — Most grain futures prices eased slightly in a moderate volume of early dealings today on the Board of Trade.

Some of the selling was hedging, but it also was believed to include a small volume of speculative short selling against the possibility that prices would fall later in the day on evening up trade.

This is the final day of trading in September contracts and while the open interest was described as somewhat smaller than usual it was large enough to cause at least fairly broad fluctuations if most speculators wait until the final few minutes to even up.

Wheat was unchanged to 3/4 cent a bushel lower near the end of the first hour, September \$1.87 1/4; corn 3/4 to 1 1/2 lower, September \$1.24; oats 1/2 higher to 3/4 lower, September 61; rye unchanged to 3/4 lower, September \$1.50; soybeans 1/2 higher to 3/4 lower, September \$2.19 1/4.

Doubt about the bumper crop yield this year seems now to have passed as the crop nears maturity with much of it already safe from frost.

Some traders say that nothing short of a disaster now would reduce production to less than 3 1/2 billion bushels.

Assuming earlier predictions are fulfilled, the total supply going into the new crop year will be more than 5 billion bushels for the first time in history.

A record carryover of more than 1 1/2 billion on Oct. 1 appears to be certain.
