

State Senate Debates Tax; 5 Pct. Limit Sought

ONE COLOR

LANSING (AP) — The Senate opened debate on a state income tax today by tacking on a controversial proposal that would require a constitutional limitation of 5 per cent on any such tax.

Senator Robert Vander Laan, R-Grand Rapids, insisted upon taking up this issue although Sen. Emil Lockwood, R-St. Louis, wanted to plunge directly into the tax bills.

"This is going to be a long, weary day of debate on crucial questions," predicted Sen. John Bowman, D-Roseville.

The Senate limitation resolutions, it passed by both houses, would allow the people to vote on the issue of setting a 5 per cent ceiling on a state income tax.

"With all the taxes we have now, we need some kind of a limitation," said Sen. Milton Zaagman, R-Grand Rapids.

"We should give the people a chance to express themselves on this issue," Zaagman said.

It was the second time around for the tax bundle in the Senate, which previously defeated a tax reform proposal on a 23-14 vote.

The new package, three bills reported out of the Taxation Committee yesterday, immediately went on the Senate calendar for debate and possible amendment from the floor.

The bills bore amendments attached

Related Story, Page C-19

after the Senate rejected the earlier proposals.

Sen. Emil Lockwood, R-St. Louis, Senate majority leader, predicted a vote would be held this afternoon.

"How will it go?" he was asked.

"I'll wait for the count," Lockwood replied.

Sen. Harry DeMaso, R-Battle Creek, Taxation Committee chairman, told

newsmen, "I've repeatedly said I would not report on a tax package unless I thought I had the votes for passage."

Whether the votes were available was not certain, but there were reports before today's session that 14 Republicans and six Democrats had decided to approve the measures, giving them the necessary 20 votes.

YOUTHFUL CITIZENS — Five prominent Pontiac citizens received awards last night in recognition of their work with youth. Certificates of appreciation were presented by Pontiac Citizens' Committee on Youth to (from left) Richard Hayes, policeman; Francis W. Staley, school principal; Mrs. Betty Villani, public health nurse; Howard Dell, pharmacist; and George Gary, teacher. Mayor William H. Taylor Jr. examines the award before the ceremonies.

Five Adults Are Honored by City Youth Committee

A group of promising Pontiac teenagers who got together with prominent city adults last night discovered neither would be where they are without each other.

Thirty-two junior and senior high school leaders, selected Teen of the Week throughout the year, had the adults to thank for partially guiding their lives.

Five adults found they would not be at this gathering to commemorate their distinguished work with youths if it were not for the teen-agers.

Both groups were at the Pontiac Citizens' Committee on Youth's fifth annual citizens' awards program at the Elks Temple.

Five distinguished citizens with one thing in common — concern, involvement and devotion toward youths — were honored with certificates of appreciation. They were:

• Mrs. Betty Villani, a registered public nurse in Pontiac, who lives at 145 S. Newman, Lake Orion. She is constantly aiding the sick, maimed and poor children.

She is also active in Girl Scouts, Health Committee of Parent-Teachers' Guild of St. Joseph's School and Project Commitment of the Northeastern Diocese of the Archdiocese of Detroit.

• Francis W. Staley, principal of Pontiac Central High School who resides at 843 Gendrale. He has been a teacher and principal for 37 years, 26 years in Pontiac.

Staley is on the board of directors of the Pontiac Boys' Club, Boy Scout Council for Oakland and Macomb counties and Pontiac Lions Club.

• Howard Dell, a pharmacist, of 201 Draper. He is a member of the Citizens' Committee on Youth.

He has volunteered to coach and organize Little League baseball teams, to be assistant football coach at St. Michael's High and is vice chairman of Michigan Area Council of Boys' Clubs of America.

Opinions Are Gathered

Sex Offense Threat Eyed

Sex offenders — and how to identify and treat them — constitute one of today's most perplexing social and legal problems.

That is the essence of opinions and insights gathered from Oakland County psychiatrists, judges, law enforcement

officers, school and mental health administrators and a "special interest" group — mothers.

Commented Dr. Jerome L. Link, Pontiac psychiatrist: "You cannot generalize, you have to study each individual case."

"Deprivation or socio-economic background doesn't seem to have anything to do with it."

"Just being in an institution doesn't do anything for the sex offender, although it's only through treatment (the one-on-one situation) that the dynamic problem can be altered."

IDENTIFICATION TESTS
But, he indicated, there are highly sensitive tests that can identify potential sex offenders ahead of time.

"Society has to be realistic," Dr. Link asserted, indicating that private treatment only controls the "acting out" tendencies of the sex offender while the patient is in the doctor's office.

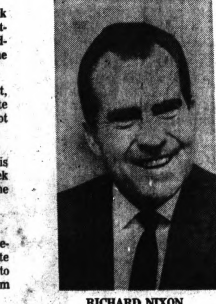

Dr. Bruce Lessien, also a psychiatrist, said that sex offenders seen in private practice are mostly those who would not do harm to people or society.

Dr. Lessien said the patient in this instance is usually motivated to seek treatment by the courts, police or the patient's family.

MAJOR OBSTACLE
A major obstacle facing law enforcement officials and the courts is a state law that prevents a person declared to be a criminal sexual psychopath from

Cigarette Bill Readied

WASHINGTON (AP) — Democratic Sens. Robert F. Kennedy of New York and Warren G. Magnuson of Washington are co-sponsoring a bill to force manufacturers to detail tar and nicotine content on cigarette packages and in their advertising.

RICHARD NIXON

House Committee Completes Action on LBJ Draft Bill

WASHINGTON (AP) — The House Armed Services Committee today completed action on a draft bill aimed at inducing 19-year-olds first and headed it for House passage next week.

The bill, which extends the draft for four more years, would require continued deferment of college undergraduates. In addition, the committee recommended that graduate student deferments also be continued for the present.

The bill would establish a national advisory board that would study the entire field of deferments and make a recommendation on the status of graduate students.

The bill was approved in committee by a 35-1 vote.

ONE AGAINST

The lone voice against the bill was cast by Rep. Floyd W. Hicks, D-Wash., who lost a fight to have Reservists meet half the military manpower needs after 240,000 men have been drafted in a year.

"I'm getting letters," Hicks said, "from people whose sons are called up in May and killed in Vietnam in October and they wonder why no Reservists are being called up."

The bill does make minor changes in the law.

UAW Warned by Ford Chief

DETROIT (AP) — Henry Ford II said today "there is no justification whatsoever for outsized gains by the United Auto Workers in forthcoming labor negotiations."

The Ford board chairman devoted a major part of his report at the annual Ford stockholders' meeting to a look ahead at auto labor talks this summer.

He also predicted 1968 car prices would be increased.

Ford said:

"In 1914, my grandfather — Henry Ford — made history by introducing the \$5 day. By the middle of this year, Ford's average labor cost is expected to be \$5 per hour."

"We have not, of course, received the UAW's specific demands but there are indications there will be many difficult issues and that the union's expectations may be unreasonably high."

Ford urged UAW negotiators to remember when they begin talks this summer on a new contract to replace the expiring three-year pact that auto workers get cost of living increases under the present contract.

New Peace Peril Seen

WASHINGTON (UPI) — The top U.S. disarmament negotiator said today chemical and biological weapons will pose the next major threat to global peace if the world powers agree to curb the spread of nuclear bombs.

'Super Sal' to the Rescue! Saves Boy From Train

By MEL NEWMAN

The situation had all the trappings of a silent movie thriller — an approaching train, a child attempting to unjam his bicycle from the tracks, apparently oblivious to the danger, and a hero.

The hero, who acted, of course, in the nick of time, was 15-year-old Sally Green, daughter of Mr. and Mrs. C. James Green of 1490 Benvenue, Sylvan Lake.

She is now known to her fellow students at Washington Junior High School, where she is a ninth grader, as "Super Sal."

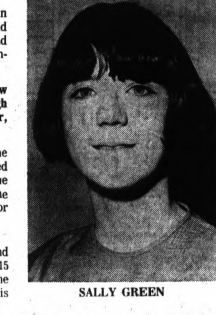

Her rendezvous with destiny came Tuesday evening when she escorted her 6-year-old brother, Scott, to the railroad tracks near the Green home so he could wave to the conductor of a passing freight.

Jerry Hotchkiss, 6, son of Mr. and Mrs. Lawrence Hotchkiss of 2115 Avondale, Sylvan Lake, was in the path of the train, trying to pull his

bike free from the tracks after jamming a pedal.

THROWS BOY ASIDE

Sally screamed for him to get away, but the boy — Scott's classmate — (Continued on Page A-2, Col. 4)

SALLY GREEN

Rep. Law Calls for Oct. 9 Vote on Fiscal Reform

State Rep. Arthur J. Law yesterday introduced resolutions in the House calling for a special election October 9 to achieve fiscal reform.

The Pontiac legislator said his proposal is an alternative to fiscal reform if all other pending plans fail.

The special ballot would contain three proposals amending the State Constitution, two of them economic measures.

The first, if approved, would permit an income tax based on a flat percentage of the federal income tax paid by individuals; permit a corporation profit tax based on that paid to the federal government; and permit a financial institution tax similarly levied.

"This is the same as the so-called 'piggyback tax' that I introduced in the House in 1959, but failed by six votes," said Law.

CONFIDENT OF SUPPORT

"I believe it would be supported now if equitably and sufficiently levied," Law added.

Though Gov. Romney so far has only acknowledged receiving an outline of Law's plan, Law believes that the amendment would pass if it is supported by the governor and those demanding more help for schools and property tax relief.

Law's resolutions will now be referred to committee for study.

Sufficient rebates can be made to schools and local communities to take off pressure on real and personal property, according to Law.

"This is similar to what the governor has subscribed to; the return of money paid in income taxes to the federal government, but my plan would leave it under state control."

"A simple return by the federal government would only result in an increased rate by the federal government and Michigan would end up paying more than its share," said Law.

"It would be the least costly to operate by the state of any income tax proposal, least costly to employers in making payroll deductions, and least irritating and most understandable to employees."

The second proposed amendment would allow the state to conduct sweepstakes and lotteries, and the licensing and taxing of bingo-type games to churches, veterans, and other nonprofit organizations.

(Continued on Page A-16, Col. 4)

No Bomb Scare, It's Only a Hare!

SAN JOSE, Calif. (AP) — Demolition experts sped to a downtown intersection in San Jose last night where an anonymous caller said she thought a bomb had been placed.

Sheriff Raul Niemeyer cautiously removed a note from the box.

Shielding himself from the possible explosion, Niemeyer read the note:

"Dear Sir:
"Please take care of my rabbit. He haven't had any sleep yet. I have only enough money to take care of my mother and me. I know you won't hurt him. His name is Snow. Thank you."

Inside the box, Niemeyer found a rabbit, a head of lettuce and some carrots.

Weatherman Sees Showers Tonight

Showers and thunderstorms are due to arrive in the Pontiac area tonight.

The weatherman says temperatures will register a mild 50 to 55 tonight and become cooler tomorrow with the expected high in the upper 60s. Fair and mild is Saturday's outlook.

Today's southwesterly winds at 10 miles per hour will increase to 15 to 25 miles late this afternoon and tonight.

The low in downtown Pontiac prior to 8 a.m. was 53. The 2 p.m. recording was 69.

Waterford Schools Schedule Activities for Michigan Week

Several activities will be held in the Waterford Township School District next week in commemoration of Michigan Week.

Among the key events planned are a community letter dinner Tuesday, an Indian dance Wednesday, a speech Thursday by author Margarette Henry and field trips sponsored by schools.

In addition, Michigan projects completed by fourth graders will be on display in a bus on the Pontiac Mall en route throughout the week.

At 1 p.m. Wednesday a tour of historical sites in the township will be conducted under the direction of Mrs. Betty Adams, a member of the Michigan Historical Society from Waterford Township.

Several individual schools will hold programs. For example, Waterford Village pupils will present a musical program entitled "I Sing of Michigan" at 2:25 p.m. Wednesday.

PANORAMIC VIEW

Choral presentations and piano selections will depict a panoramic view of Michigan history.

School officials encourage residents to visit school buildings during the week.

The community leaders dinner will be held at 6:30 p.m. Tuesday at Mason Junior High School. Guest speaker will be Harry Reed, managing editor of The Pontiac Press.

School board candidates also are slated to speak briefly at the dinner.

MINUTEMAN AWARD

Presentation of the Michigan Week Minuteman Award to an outstanding citizen of the community hopefully will be another highlight of the event. The award is presented annually to 100 persons in Michigan for their contributions to their community.

The North American Indian Dance Group will perform at 7:30 p.m. Wednesday in the Waterford Township High School gymnasium. The half-hour performance is for fourth graders and their families.

Mrs. Henry, who is best known for her books about horses, will speak to district staff members at 7:30 p.m. Thursday in the Cray Junior High School cafeteria.

The event is sponsored by the committee for visiting intellectuals.

FIELD TRIP

Among the schools planning to hold field trips next week are Silver Lake, 9 a.m. to 11:30 a.m. Tuesday, Fisher Elementary in Pontiac; Burt School, 9 a.m. to 1:30 p.m. Thursday, Detroit; and Pontiac Lake, 9 a.m. to 2 p.m. Friday, Flint Planetarium.

The public is invited to go on the field trips, according to school officials. Arrangements can be made by contacting the school.

GI IN TROUBLE — Albert Hamburg, 35, of Gering, Neb., shown picketing a supermarket last year, says in letters from Vietnam he faces a possible military trial because he enlisted under the name of his brother.

Arraignment for Suspect in Car Theft Ring

A former Pontiac used car dealer linked by police to an auto theft ring involving up to \$50,000 worth of automobiles faces arraignment in U.S. District Court in Detroit today on 10 federal charges, according to police.

Oscar M. Stabley, 50, of 34 Collingwood was arrested by Federal Bureau of Investigation (FBI) agents last night on a warrant issued yesterday in Indianapolis, Ind., charging him with interstate transportation of stolen goods in violation of the Dyer Act.

Stabley was first arrested by Pontiac police May 4 on a charge of stealing a car from Matthews-Hargreaves Chevrolet, 61 Oakland.

His preliminary examination on that charge, scheduled yesterday in Pontiac Municipal Court, has been put over until next Wednesday.

Capt. Charles Gale, chief of Pontiac detectives, said Stabley was believed to head a theft ring involving stealing cars in Pontiac and selling them at auctions elsewhere, including several Indiana cities.

CHARGES

Included in the federal warrant are charges of conspiracy and possession of stolen property.

Each interstate transportation count carries a maximum penalty of five years in prison and/or a \$5,000 fine, according to Paul H. Stoddard, special agent in charge of the Detroit FBI office.

Top Red Envoy Defects to U.S.

WASHINGTON (AP) — Mytrea surrounded the whereabouts today and motives of the highest-ranking Communist diplomat ordered to defect in the United States.

State Department officials said Janos Radvanyi, Hungarian charge d'affaires who sought and promptly received refuge here, has asked that his decision be attributed to personal reasons.

But the State Department refused to go into any further detail at this time, indicating where he is or when he may give out his story.

In a brief, dramatic announcement yesterday afternoon, Robert J. McCloskey, press officer, said Radvanyi, the top diplomat at the Hungarian Embassy here, told U.S. officials late Tuesday night that he wants to live in America permanently and is sending his government a letter of resignation.

Holdup at Bank

DEARBORN HEIGHTS (AP) — An armed robber escaped with approximately \$1,000 from the Dearborn Federal Savings bank in Dearborn Heights Wednesday.

Principal and Assistant Set for New High School

BLOOMFIELD HILLS — A field Hills Lahser High School principal and assistant principal which will open in September.

They will be David P. Cook, principal, and John M. Zimmerle, assistant.

Cook was vice principal of Melbourne High School, Melbourne, Fla., before coming to the district. This school was the first nongraded high school in the nation.

A similar system is to be instituted in the Bloomfield Hills district next year.

Zimmerle is a Michigan State graduate and taught at Pontiac Central High School in his prior assignment.

BIRMINGHAM — Thomas C. Brien, superintendent of Public Works, ends 15 years service with the city tomorrow to take a position with a private consulting engineering firm.

Brien, 49, of 3066 Kipling, Berkeley, will join the staff of Spaulding-DeBecker, & Associates, Inc., 1405 S. Woodward, Birmingham, on Monday as a project engineer.

Superintendent for 10 years, Brien started with city in the engineering department.

Brien, a registered engineer, was in charge of 30 city employees in the department.

His successor has not been named.

The Michigan Association for Emotionally Disturbed Children will meet at 8 tonight at the Security Bank building at Woodward and 13 Mile, Birmingham.

Court Rejects

Bronson's Bid

Thorburn Can Preside Over Burglary Trial

The Michigan State Supreme Court ruled today that Circuit Judge James S. Thorburn can preside over a trial in a controversial case involving two men charged with burglary.

In handing down the decision, the high court denied the request of Prosecutor S. Jerome Bronson to have Thorburn disqualified from hearing the case.

The court decision upheld an earlier ruling of Circuit Judge Frederick C. Ziem that Thorburn was neither biased nor prejudiced against Bronson in his handling of the case against Harvey (Raffles of Hollywood) Allen of Oak Park and Charles Fields of Detroit.

Bronson had sought to have Thorburn disqualified, and the case reassigned to another judge, because Thorburn "lacked impartiality."

Allen and Fields are charged with burglarizing a Huntington Woods home in July 1966.

Bronson and Thorburn began feuding when the judge declared a mistrial in the Allen-Fields case last September. Charges were later reinstated.

The new trial before Thorburn is scheduled for June 6.

Carlton Roesser of Pontiac, the attorney for Allen and Fields, said that he would present arguments before that time to have the case dismissed on the grounds that double jeopardy is involved.

Sylvan Lake Girl Saves Boy From Oncoming Train

(Continued From Page One) male at Whitfield School didn't respond.

With the train about 35 feet away, she raced onto the tracks, threw Jerry aside, then pulled the bicycle clear.

"I remember yelling," said Sally. "and I recall grabbing the bike, but I don't remember pulling Jerry away. I was just too excited to think, I guess."

Traver M. Miller, Sally's assistant principal, described her as "the kind of person who couldn't turn away from that sort of situation."

He said she is an A and B student and works in the school office.

Sally said being "Super Sally" is "kinda nice."

"I'm glad I was there," she added.

Jerry is, too, no doubt.

2 Injured in Accident Involving Bus, 2 Cars

Two women were injured in who were boarding the bus were an accident involving two cars and a schoolbus on Dixie Highway near Sault in Waterford Township about 9 this morning.

Listed in satisfactory condition in Pontiac General Hospital is Pauline Wilson, 34, of 4282 North Hill, Holly Township.

Treated at St. Joseph Mercy Hospital and released was Margaret Mettler, 45, of 5976 Hummingbird, Independence Township.

They were the drivers of the two cars.

Destination of the bus was Mason Junior High School, 3855 W. Walton. The bus was only 41, of 150 Crista, Waterford slightly damaged, according to Township, and three students police.

Filipino Unit May Quit Viet

MANILA (AP) — The Philippines' 2,000-man contribution to the allied war effort in Vietnam appeared today to be in danger financially.

A bill to finance operations of the Filipino contingent for another year was not included in a list of 31 urgent measures which President Ferdinand E. Marcos has drawn up for action by Congress in a special session starting June 1.

Unless 38 million pesos—about \$9.5 million—is appropriated for the purpose, the Philippine troops may have to be withdrawn before the year's end.

Marcos, asked about this in a news conference, said he hoped the unit in Vietnam—called the Philippine Civic Action Group, or Phicag—is "there to stay."

NO PRIORITY

He conceded he had not put a top-priority stamp on the Phicag-financing bill. He said he had agreed with congressional leaders that there was more important legislation, such as the national budget, a public works law and an investments bill, to consider first.

Safety Rule Hearings Set

WASHINGTON (AP) — The Department of Transportation has set the dates for public hearings on the controversial "interior impact" auto safety rule. They start Monday and Tuesday at Warren, Mich., then shift to Washington.

The hearings will be conducted in response to auto manufacturers' protests that they cannot meet the requirement by the Jan. 1, 1968 deadline.

House Defeats Road Bill, OKs 6-Man Juries

LANSING (AP) — A bill to give the Highway Department licensing power over road-side signs and more control over commercial driveways along state roads was defeated 38-51 by the House Wednesday.

Passed measures to permit six-member juries in circuit court civil cases, extend the statute of limitations in certain cases, require beer brewers to contract with licensed distributors and allow township officers elected in 1964 to stretch their two-year terms to four years.

The highway bill was sponsored by Rep. Raymond Smith,

R-Am Arbor. Its intent was to beautify roadways and make them safer, make official traffic-control devices easier to see and bring Michigan law into line with federal requirements.

It lost following a barrage of criticism by legislators from the Upper Peninsula where highway easements are unusually wide and where the bill might have effectively prohibited most road-side advertising.

POWER GRAB

"This is a big power grab by the Highway Department," charged Rep. Dominic Jacobetti, D-Negaunee. "I say this because of the highway bill."

without letting them take every sign in the state."

The bill — requested by the Highway Department and defeated by the Legislature in past years — would forbid advertising signs, parades and driveways along highway rights of way unless granted a permit by the department.

Passed 67-24 and sent to the Senate was a measure to extend the statute of limitations — the time in which a person can

bring a civil suit — for various alleged offenses.

Suits charging libel or slander could be commenced up to three years after the utterance involved, instead of only up to one year, as law currently provides.

The deadline would be extended from two to three years for suits involving assault, battery, false imprisonment, malicious prosecution or malpractice.

A six-member jury would be permitted to hear civil cases in

circuit courts if all parties to the suit consented under a bill sponsored by Rep. Richard Young, D-Deerborn Heights, and passed 69-1.

Business failures dropped to a 10-year low last year of 13,162.

DR. SPOCK HELPS LEAD DEMONSTRATION—Leaders of a protest demonstration against U.S. participation in the Vietnam war were halted yesterday at a White House gate when they attempted to enter to see President Johnson. Dr. Benjamin Spock (left center, with glasses), one of the leaders of the demonstration, is shown reading a statement to a White House aide.

Stokely to FBI: Prove Charge

GRAND RAPIDS AP) — Rapids. "I am not going to discuss them."

Black power advocate Stokely Carmichael has called on FBI Director J. Edgar Hoover to prove his charges that Carmichael had Communist connections.

"Let J. Edgar Hoover prove them," Carmichael told a news conference Wednesday in Grand Rapids, field chairman of the Revolutionary Action Movement.

Violent Coordinating Committee, (RAM), a highly secret all-Negro, Marxist-Leninist, Chinese communist organization which advocates guerrilla warfare to obtain its goals.

PLANS FOR WASHINGTON

Carmichael, former chairman of SNCC, the Student Non-Violent Coordinating Committee, said he planned to return to the field to "organize Washington, D.C. so that it belongs to the black people, lock, stock and barrel."

The United States consumes more beer than any other country in the world.

Concentration Needed for Laws

SANTA FE, N. M. (AP) — A narrow green curtain has been hung along the railing in front of the visitors' gallery in the New Mexico House of Representatives.

Officials admit that some of the lawmakers had complained of having been distracted by the miniskirted young women in the front row.

Jury Awards Paralyzed Man \$1.5 Million

SANTA MONICA, Calif. (AP) — A 34-year-old former mortgage company executive has been awarded \$1.5 million for injuries suffered when a tree fell on his car, leaving him paralyzed from the neck down.

The judgement for Timothy M. Bleak, a bachelor who had been assistant vice president of Pacific Western Mortgage Co., was believed to be the highest ever awarded in a personal injury suit.

Bleak, who lives now with his aunt, Lady Sylvia Ashley, the former wife of Douglas Fairbanks Sr. and Clark Gable, had asked for \$1 million in general damages and \$60,000 medical expenses. A jury returned with the higher verdict.

Defendants were the city of Beverly Hills and builder Herbert J. Kronish and his wife, Hazel. City Atty. Allen Grimes said he will recommend that the city appeal the verdict.

Rain Torrents Ease Florida's Drought

MIAMI, Fla. (AP) — Southes of rain Wednesday. Fort Lauderdale, Fla., has received torrents of rain after a two-month drought. Key West, Pompano Beach, West Palm Beach and Fort Myers all drew measurable amounts though less than of more than 100,000 acres of one inch.

The dried Everglades National Park, South Miami and Coral Gables got more than four inches of rain after a two-month drought. "I think you can say that the weather forecaster Joe Pelis-

ier. "We shouldn't go back to a patched storm-tossed lines and drought killed thousands of fish in the Everglades, robbing food from all the wildlife except the buzzards.

NOT ENOUGH

While fire watchers took their first rest in weeks, emergency electric crews rushed to restore power in sections blacked out by the storm. Phone companies for birds and animals. The

Everglades Rangers said the rain in the park ease the fire hazard but was not enough to replenish dried-up waterholes. Taxes cost more than food in the United States. In 1965 the annual cost for food was \$439 per person while taxes averaged \$851 per person.

'Life on Planets'

LONG BEACH, Calif. (AP) — It is likely that life exists on planets other than earth, and, "if it is there, we will find it," promises Dr. William H. Pickering.

Pickering is director of the Jet Propulsion Laboratory at California Institute of Technology. He spoke Wednesday night at a medical symposium in Long Beach.

'Told Truth About China'

MOSCOW (AP) — Valentin Pasenchuk, correspondent of the Soviet Communist party newspaper Pravda, expelled from Peking, says he reported the truth about Red China.

Pasenchuk told Soviet newsmen who greeted him at Yaroslavl railway station Wednesday, "It is impossible to conceal

what is really going on in China, and we shall continue to report the truth of these events."

The Chinese accused Pasenchuk of slandering Chairman Mao Tse-tung.

There are now two Soviet correspondents in Peking and two Chinese correspondents in Moscow.

Long Eyes a Delay on Dodd

WASHINGTON (AP) — Sen. Russell B. Long reportedly may ask the Senate to hold off for six weeks its debate on a proposed resolution censuring Sen. Thomas J. Dodd for financial misconduct.

The Senate ethics committee recommended several weeks ago that Dodd, a Connecticut Democrat, be censured for diverting to personal use money raised at testimonial dinners for allegedly double-billing the Senate and private groups for transportation expenses.

Long is the only senator to have spoken in Dodd's defense.

Senators called per person.

Canadians are the world's most prolific telephone users. They average 635.6 calls per person. The United States ranks second with users averaging 600 calls per person.

American tire manufacturers expect to sell 180 million replacement tires this year.

Parking Banned

LANSING (AP) — The State Highway Commission has banned parking on a short section of M 22 in the Manistee County community of Onokama.

Parking on the east side of M 22 near the fair grounds was interfering with traffic, the commission said.

Miner Survives Cave-In; 3 Die

OAKWOOD, Va. (AP) — A mine, where he and three other members of a crew were working because he got under a cutting machine when slate began to fall in a Buchanan County mine. His three companions are dead.

Street told rescue workers he and his companions were about a mile inside the shaft Wednesday when they heard the ceiling "working." He said he got under the machine, which took the brunt of the cave-in, when the others ran.

BACKACHE Joint Pains

You long to ease those pains, even temporarily, until the cause is cleared up. For painkillers, or temporary, pain relief try DeWitt's Pills. Famous for over 60 years DeWitt's Pills contain an analgesic to reduce pain and a very mild diuretic to help eliminate retained fluids thus flushing out irritating pain causing bladder wastes.

DeWitt's Pills often succeed where others fail. If pain persists always see your doctor. Invest in DeWitt's Pills

Final Search for 3 Boys Is Fruitless

HANNIBAL, Mo. (AP) —(Craig Dowell, 14, proved fruitless. With clues to the whereabouts of three missing boys in Hannibal, shovel stripped tons of earth exhausted and hope for their safe return almost nonexistent, U.S. Highway 79 with no results, discontinued their efforts.

Mayor Harry Musgrove admitted after the excavation, "We'll have to announce that all leads have been exhausted."

Rescue workers from all over the nation poured through the virtually infinite caverns and passages beneath the Midwest town, hoping to find the boys, missing since the evening of May 10.

SEEN ENTERING

The youths were seen entering Murphy's Cave. Another report had them spotted in an area known as "Lovers' Leap." Throughout the search there was speculation that the boys might have entered some hole later covered up by construction work on the highway.

With the operation moving into its second week, rescue workers began drifting away. Leaders announced that only a token crew would remain after today.

It is estimated that at any one moment there are about 1,800 thunderstorms in progress throughout the world.

Romney Call Hit

LANSING (UPI) — State Sen. Garland Lane, D-Flint, says Gov. Romney's order to delay about \$10 million in college building construction is a "cynical attempt to garner favorable votes for the passage of his income tax program."

Nearly 7,300 communities experience some form of air pollution, the U.S. Public Health Service reports.

LSD Users' Eyes Hurt

SANTA BARBARA, Calif. (AP) — As a result, he said, the four, Santa Barbara City College reportedly said they had stared at the sun while under the influence of the drug.

Four admitted users of LSD all college students, have lost their reading vision completely and permanently.

In seeking treatment for eye injuries, four students at the University of California at Santa Barbara and another at Santa Barbara City College reportedly said they had stared at the sun while under the influence of the drug.

Hearings Shoot Holes in Firearms Bills

An editorial of yesterday reserved for this related one discussion of hearings conducted by a Congressional subcommittee on the Dodd-Celler bills (S. 1 and H.R. 5834) that would repeal the Federal Firearms Act (FFA) and restrict purchase and possession of firearms by 50 million Americans while "advantaging the 100,000 criminals who employ guns in the commission of their crimes."

Significantly, it was stated that the FFA had never been adequately enforced and that only five Federal employees are assigned full-time to it. The real need is stricter enforcement of existing laws and less leniency in paroles, since much crime is committed by "repeaters" who got guns in violation of the FFA.

The so-called Sullivan law, a 50-year-old New York State restrictive firearm statute "that disarms the citizen and arms the criminal" has proved ineffective, the record showed. Of 183 standard Metropolitan statistical areas surveyed by the FBI, 131 had over-all homicide rates lower than New York's. Surprisingly, it was disclosed that but 3 per cent of crimes in the U.S. involve use of firearms.

That the Dodd-Celler bills would operate to reduce suicide was refuted by tables showing that the U.S. rate of 10 per 100,000 population is now lowest among nine leading countries.

It Is Time for Recourse to a Kennedy Precept

Our late JOHN F. KENNEDY had many splendid ideas, but one particular thought still shines.

He said:
"Let us never negotiate out of fear. But let us never fear to negotiate."
Aye.

The last sentence is paramount right now. Our own boys are los-

Let's Have Full Story of Apollo Tragedy

Tiny fragments of additional information continue to seep out in regard to that horrible catastrophe at Cape Kennedy involving the Apollo space capsule. The possibility of slipshod work and downright inefficiency are simply beyond comprehension.

It isn't fair to reach conclusions until all of the evidence is in; and it's perfectly possible that the automatic elements in our government may sweep the additional facts under the carpet.

If North American Aviation

To accept the philosophy behind Dodd-Celler, said one witness, "You would have to conclude that the mere possession of a gun would tempt an otherwise lawabiding citizen to commit a crime. It is hard to believe that the millions of American sportsmen, gun collectors and war veterans are potential murderers, rapists or thugs."

The hearings did much to correct the image of the National Rifle Association whose opposition to the proposed bills has brought unjustified criticism on the organization as opposed to any form of regulatory firearms legislation. On the contrary, the association has since 1963 supported equitable regulation and currently backs other Senate and House bills that would provide it.

If you believe, as The Press does, that the Dodd-Celler bills pose a threat to the civil rights of Americans to self-protection guaranteed by the Second Amendment to the Constitution, we suggest that you express your views to your Congressional representatives — either Rep. Jack McDonald or Rep. William Broomfield and Senators Philip Hart and Robert Griffin. The Washington address of the Representatives is the House Office Building; the Senators, Senate Office Building.

ing their lives, returning maimed and wounded and sacrificing a year or more of their existence in the cause of freedom and independence.

They deserve every possible effort on our part to terminate this bloody, ghastly affair. Washington must never stand on ceremony, protocol or a sense of silly pride and fail to negotiate to the maximum degree.

Any other program is breaking faith with 200 million Americans and with God in His heaven above.

Inc., and the National Aeronautics and Space Administration are in the clear, these circumstances should be uncovered as rapidly as possible. Too many ugly rumors and innuendos stay in circulation.

What ARE the facts?
Just HOW accidental was it?
The American people who produce the money and stand behind the war effort have a perfect right to all the findings.

What gives—and where?

Reagan Political Rise Not Unnoticed

By RUTH MONTGOMERY
WASHINGTON — The Liberal Republican Senator, a former governor, was discussing his views on the 1968 Presidential nomination.

"I think Nelson Rockefeller is the best qualified," he mused. "Personally like Chuck Percy, but I think Ronald Reagan will get Montgomery it."

Pressed for an explanation, he replied: "Dick Nixon will go to the convention with approximately 50 delegates. The rest will be split among George Romney and favorite sons."

"When Nixon partisans discover that they can't pick up enough additional votes for a majority, they'll begin switching to Reagan, because most of them are conservative. Then watch it roll!"

This assessment, coming from a prominent Republican

leader whose own political philosophy diverges widely from Reagan's, speaks the phenomenal rise of an actor-turned-politician who has served only a few months in his first public office.

DEM LEADER
"An equally ambivalent mood is expressed by Jesse Unruh, the politically astute Democratic leader of the California Assembly who recently said he considers Reagan the toughest opponent the GOP could run against President Johnson next year."

One of the attributes that Reagan has going for him is his independence of party bosses. He has cut the state budget by \$127 million, faced up to the unpopular need for increased taxes to cope with the deficit left by Democratic Governor Pat Brown, and readily admitted his errors when he occasionally fell on his face.

His appointments, too, reflect his independence. The five members of his "kitchen cabinet" have never before

held public office, but they are savvy and respected. He retained three of Pat Brown's best men, picked specialists to head the agriculture and conservation posts, and appointed a qualified Negro to run veterans' affairs.

Reagan will go to the Republican nominating convention as California's favorite son, thus averting the mayhem that faces California Democrats in choosing their delegates.

George Wallace of Alabama has already declared his intention to enter California's Democratic preferential primary, and he is not without support there.

Rep. Thomas M. Rees, a California Democrat with a pious sense of humor, says of his home state: "We have as many factions as we have leaders. Former Governor Brown heads one faction, with the national committeeman and committeewoman currently on his side. At the helm of another faction is Los Angeles Mayor Sam Yorty; our well-known maverick who supported Nixon in 1960."

The Unwitting Accomplice!

David Lawrence Says:

Transatlantic TV Forum Hailed

WASHINGTON — The transatlantic television dialogue last Monday night, in which Sen. Robert F. Kennedy of New York and Gov. Ronald Reagan of California participated, was an extemporaneous affair that has caused a lot of comment. LAWRENCE.

Many of those who did see it are telling their friends they missed something, and are suggesting that it should be repeated at an hour early enough for more people to view it.

What impressed those who watched the telecast was that Sen. Kennedy and Gov. Reagan really were not debating with one another but were replying to questions from overseas. The answers, however, did happen to differ on some of the provocative questions asked concerning the Vietnam war.

The program, which is called "Town Meeting of the World," was a discussion by way of one of the communications satellites between the United States and the United States.

Students from several universities in Great Britain were assembled in the British Broadcasting Co. studio in London. They came not only from England but from Europe, Africa and Asia.

One of the students wanted to know if the effect of the anti-Vietnam war demonstrations in the United States might actually be to prolong the war rather than to shorten it.

"NOT THE REASON"
Sen. Kennedy said that, even if all the protests were ended, "the war in Vietnam would continue and that, while the Hanoi government gets some encouragement from the protests, he does not think that is why the war is continuing or why the casualties are growing."

Gov. Reagan, on the other hand, said he is definitely convinced the demonstrations are prolonging the war and giving the enemy encouragement to continue to hold out in the hope that a division in America will bring peace without defeat for North Vietnam.

The discussion turned at one point to the question of draft dodging.

Gov. Reagan said that, while he defends the right of dissent and recognizes the principles held by conscientious objectors, he does not

feel that these justify violation of the laws governing military service.

SIGNIFICANT DISCUSSION
A significant colloquy occurred on the subject of whether the "National Liberation Front" should be at the peace table.

Sen. Kennedy expressed the view that it ought to be represented because it is the "political arm" of those providing most of the forces in South Vietnam.

Gov. Reagan disagreed, declaring that the Vietcong is a "rebellious force fighting against the duly authorized government of its own nation."

A long dissertation ensued

on what had happened inside Vietnam, beginning in 1954, and both Gov. Reagan and Sen. Kennedy sought to straighten out some of the misconceptions and erroneous statements which were apparent in the questioning by the foreign students.

It isn't often that peoples in other countries are permitted to ask questions directly of Americans prominent in public affairs.

When Gov. Reagan and Sen. Kennedy enter into discussions with students in far-away lands, this certainly is a significant use of the transatlantic system of communication.

Bob Considine Says:

U.S. World Role Shown by Schools Overseas

NEW YORK — The nation is being combed these days by teams of educators searching for a thousand proper teachers to filter into that remarkable system known as U.S. Dependents Schools.

The proselytizing can be selective. About 5,000 teachers apply for these overseas jobs each year. Dependents Schools have become as much of an institution within the Department of Defense as guns, planes, ships and PX's.

It is a somewhat startling reminder of America's new role in the world when one is told that this school system is about to finish its 21st year.

George M. Cohan's "Over There" moved millions with its lyrical promise that "We won't come home till it's over, over there." Wars and times change.

Nowadays, we say. The families of the men are shipped around the world to keep them together.

Hence, the need for many services, including schools.

The Dependents Schools, European area, which has its headquarters in Karlsruhe, West Germany, employs 5,000 teachers and has 115,000 youngsters enrolled in 225 schools scattered over Europe, North Africa and the Middle East.

The schools are spread over an area that is 23 million square miles, or seven times larger than the U.S. classrooms can be found in almost any size, shape and decor.

American kids attending Dependents Schools overseas run into problems unknown to their U.S.-based counterparts. For example, they were all kicked out of school at once

Voice of the People:

'Press Supports Efforts for Better County Roads'

The Oakland County Committee for Good Roads appreciates the understanding, support, and quality of reporting your newspaper has employed with respect to our drive for legislative action for additional funds and the problems encountered by the State Highway Department, the County Road Commission and the cities in this area. Your recent series of articles concerning Pontiac city streets, proposed State Highway Department improvement plans and County Road Commission activities written by Mr. Saunders were particularly informative.

The only hope for "good roads" throughout Oakland County depends for the most part upon the amount of accurate information which the general public receives concerning road improvement and financing. Your newspaper and others throughout the area can provide an important public service in this respect.

OAKLAND COUNTY ROAD COMMISSION
FRAZER W. STAMAN
CHAIRMAN

Reader Questions Origin of Mother's Day

According to a story in The Pontiac Press, Mother's Day started in Philadelphia. Is it really not true that this special day originated in a small church near Grafton, West Virginia on May 12, 1907?

WILLA GARDNER
1630 PARKWAY

'New School Should Be Included in Plans'

A recent article described the remarkable growth experienced by the area opposite and to the south of St. Joseph Mercy Hospital. It also mentioned Mr. Langs' intention to have zoning of six acres of his land changed to commercial to build a shopping center. I have since learned that he has been able to get this change approved by the zoning commission.

There should be provision for an elementary school within walking distance for the children of the families moving into the apartments. Their shopping needs are adequately met by stores within a convenient distance and will be more abundantly supplied when plans for development of downtown Pontiac are brought into reality. The presence of a shopping center with all the attendant noise and traffic problems would not be desirable in such close proximity to St. Joseph Mercy Hospital.

Mr. Langs should help provide a solution to the problem which he has contributed in making. The land for an elementary school should be made available and no building permits should be approved for any other purpose until this high priority need is met.

Urges Full Support of Our Boys in Vietnam

If we don't support our boys in Vietnam, the Communists are liable to gain control and then the rest of Asia will probably fall under the Communist regime. The only reason these little countries are holding out is because they know the United States is behind them. If we crush the Communists in Vietnam they aren't apt to try it again in another country.

'Parents Must Put Blame Where It Belongs'

Parents in the U.S. like to pass the buck. They blame God and the government for wars. They blame the police department for crimes. Parents who don't love their children enough to see that they get to Sunday School are casting their vote for war and crime. They should put the blame where it belongs—on their own shoulders.

Think what kind of world your children will be living in ten years from now. It's the time to give my time to teach your children if you will give of your time to get them to Sunday School.

TEACHER

'Little Difference Between Clay, Dempsey'

During WWI there were as many words published about Dempsey being "chicken" as there are today about Clay. There was a difference—Dempsey had his picture taken in a shipyard wearing silk overalls. In my book, Dempsey was "chicken," exactly like Clay. The only difference between these two characters was the color of their skin.

'Street Conditions Cause Damage to Cars'

We've called the Road Commission asking them to help us so we could get in and out of our street because of water and deep holes but nothing has been done. Cars in our neighborhood have suffered damages to springs, shocks and mufflers. We drive on the main highways and are liable to a fine for defective equipment, yet we can't get any road repairs? Why?

MRS. F. D. BETHAM
ROCHESTER

Question and Answer

With all the killing of children going on, how do we go about getting a fencing ordinance changed? I live in Commerce, and we can't fence our front yards, but some of the property is situated so it can't be fenced unless it's all done. We also have some vacant fields, and it would be safer if we could fence the entire yard. Our association inquired about it as many in our subdivision want to fence, but all we got was red tape.

ONE WHO'D LIKE TO FENCE

REPLY

We talked with Township Supervisor Tiley, who said an entire subdivision cannot be exempted from the ordinance. However, special fencing permits can be issued if you go before the Board of Appeals, can be issued if you still want to fight the ordinance changed. Mr. Tiley said it might be considered if you obtain enough signatures throughout the township supporting this change. Clarence Smith is your township attorney, and he can advise you as to the legal procedure for such action.

HART SCHAFFNER & MARX use a superior blend of Dacron® polyester and wool worsted for many of their summer suits. The fabric is called Viracle. It's seen here in a two-button model priced at \$95.

HASPEL is the country's leading maker of wash 'n' wear suits. One of their favored fabrics is a poplin blend of Fortrel® and Zantrel®; light, cool, and wrinkle-resistant. It's seen here in a traditional 3-button model, at \$50.

BOTANY 500's Dacron®-wool is called Darolite, and is woven for their exclusive use. You see it here in a handsomely tailored and carefully detailed two-button model, in black/white club checks, priced at \$75.

PETROCELLI styles and tailors with a fine Italian hand, in high-fashion models like this slimly-cut one-button. The fabric is a lightweight, mohair wool tropical in a distinctive light-tone plaid. It's priced at \$125.

CUSTOM NATURAL is one of our private brands, denoting high quality natural-shoulder clothing. The suit shown here is a classic three-button in a summer-weight hopsack blend of Dacron® and wool. The price is \$79.50.

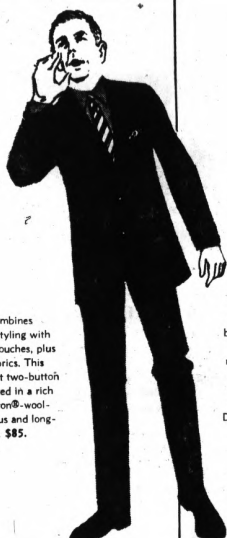

HAMMONT PARK is known for smart styling and handsome fabrics. This double-breasted is slimly-cut in fine Turkish mohair; light and lustrous. It's available at four stores: Shelby, Northland, Montcalm, Birmingham. \$129.50.

AUSTIN LEEDS enjoys using luxurious fabrics that enhance the high-fashion styling for which this maker is famous. Here you see an elegant one-button model in jet black, lustrous Turkish mohair, priced at \$125.

WYNHAM is a young man's suit: very trim, very high-style. Typical of this collection is the slimly-cut one-button model shown here, in black/white Glen plaid tropical worsted. The look is sharp, cool, youthful. \$74.50.

EAGLE combines conservative styling with deft tailoring touches, plus very fine fabrics. This distinctively-cut two-button model is tailored in a rich blend of Dacron®-wool-mohair; lustrous and long-wearing. \$85.

VAN CARR is our own brand, and it's famous for excellent quality at a modest price. Among the many Van Carr suits we carry is this two-trouser model in lightweight Dacron®-wool, available in several styles, at \$65.

PALM BEACH is famous for its summer suits. This one is called the Trip-L-Aire: a 5-piece ensemble consisting of a suit coat, matching trousers, contrasting slacks, and two coordinated belts. The fabric is a Dacron® blend. \$99.95.

GGG is one of the finest tailoring houses in the country; famous for style and craftsmanship. The suit shown here is a Dacron® and worsted blend, in a subtly-striped, trimly-cut two-button model. It's priced at \$135.

Weekly Viet Toll Revealed

253 GIs Said Killed, 1,319 More Wounded

SAIGON (AP) — U.S. combat casualties in Vietnam last week totaled 253 men killed and 1,319 wounded, the U.S. Command announced today as heavy fighting continued in the northern reaches of the country. Both figures were lower than those for the previous week.

South Vietnamese military spokesmen said 257 government troops were killed last week, an increase from 212 a week earlier. They reported 19 men missing, a sharp drop from 54 the week before. The Vietnamese do not report their wounded.

The U.S. Command said 1,942 enemy were killed last week, a slight increase over the 1,903 in the previous seven-day period.

Most of the major ground fighting this month has been in the northernmost section of the country just below the demilitarized zone where U.S. Marines have battled constantly with strong North Vietnamese forces. This fighting obviously accounted for the major part of the U.S. casualties.

EQUAL RECORD

Week before last a total of 270 Americans were reported killed in combat, equal to the record number for the war reported in the week ending last March 25. The number of wounded last week — 1,319 — also was less than the 1,748 reported wounded a week previous.

Seven Americans were reported missing or captured last week.

Other allied forces lost nine men killed last week and 37 wounded, compared with 18 killed and 26 wounded the week before.

By unofficial tabulation, the number of Americans reported killed in combat now totals 9,934. With hard fighting continuing in the northern sector, the total obviously will pass 10,000 this week.

The number of U.S. military personnel in South Vietnam increased 7,000 last week, from 442,000 to 449,000, the U.S. Command said. Most of the increase was in Army personnel, now totaling 294,000.

The estimate of enemy forces in the country also rose last week, from 286,000 to 292,000.

What makes Airtemp air conditioning last so much longer?

CHRYSLER ENGINEERING. For example, most of the metal parts in Airtemp air conditioners are benzodized to prevent rust and corrosion, and add to the life of the units. Monometal (all-aluminum, non-corrosive) condenser coils are another Chrysler-engineered exclusive that enables Airtemp products to serve you longer. When you buy Airtemp, you're assured of getting quality air conditioning that will keep your family comfortably cool year after year after year.

MRS. GEORGE ROMNEY

Lenore's Club Affiliation Hit

Civil Rights Leader Raps Racial Policy

DETROIT (AP) — A consultant to civil rights leader Dr. Martin Luther King has called for Mrs. George Romney to resign from an exclusive women's club he accuses of having a "rigid racial discrimination policy."

Robert L. Green, a Negro who is a consultant to the head of the Southern Christian Leadership Conference, asked the wife of Michigan's governor in a telegram Wednesday night to resign from the Women's City Club of Detroit.

Mrs. Romney said the attack on her club membership "is hard on the movement we all are working for."

"I didn't know of any policy like that," said Mrs. Romney. "I had no idea."

"WOULD RESIGN"

"If there is such a policy, I would resign," she said. "I asked the president (of the club) to keep me posted."

The club president, Mrs. Ralph E. Johnson of Detroit, would neither confirm or deny Green's charges, offering only a "no comment."

Green, a professor at Michigan State University, said a story in the Detroit Free Press reported that the club bars Negro women from membership as well as from the second floor lounge and from eating in the club dining room.

The Free Press story said the club will be polled next month on whether or not to allow Negro guests of members to all floors. However members of the club's board declined to confirm the poll.

NONRESIDENT MEMBER

Mrs. Romney said if a poll is taken and Negroes are not allowed on all floors she was resigning.

"I'm a nonresident member," said Mrs. Romney. "I have never gone in there on my own—only as an invited guest."

In his telegram, Green asked: "How can you possibly justify your membership in a club whose major policy regarding membership is based on racism?"

CHURCH POLICY

"Your husband has been questioned time and time again regarding the Mormon Church restrictive racial policy regarding Negroes," said Green.

"Must the Negro be constantly reminded that the Mormon family has membership in institutions whose admission policies are based on race?"

"Why would he ask where I stand when it's clear where we stand?" asked Mrs. Romney. "I won't belong if they don't allow Negroes."

Anti-British Demonstrators Jam Hong Kong, Peking

HONG KONG (AP)—Pro-Communist demonstrators invaded Hong Kong island today, marching on Government House throughout the day and plastering anti-British slogans on its gates and walls. But there were no clashes between the noisy crowds and the police.

Peking Radio said Red Chinese Premier Chou En-lai and some 100,000 Chinese massed at a gymnasium in the Chinese capital to denounce "British imperialism and suppression of Chinese patriots in Hong Kong."

The broadcast said the crowd repeatedly shouted, "Down with U. S. imperialism!" "Down with Soviet revisionism!" and "Down with British imperialism!"

Demonstrators also paraded past the British Legation in Peking, as they had done for three days previously.

MACAO DEMONSTRATIONS

In the Portuguese colony of Macao, 40 miles from Hong Kong, 300 pro-Communist Chinese demonstrated in front of the British Consulate. Consul Norman Ions received them in small groups and listened without comment to their claims of police brutality in Hong Kong.

The demonstrators marched on Hong Kong's Government House in relays. One crowd roared up in 40 buses, trucks and taxicabs and stayed 30 minutes.

One group of about 800 Chinese, angered when Gov. Sir David Trench would not see them, roared out Communist songs and slogans for nearly two hours.

About three hours later, another crowd of 500 came up the three-block-long hill from Hong Kong's main section with more posters and shouting.

POLICE BRUTALITY

The posters accused British authorities of police brutality and "wounding and killing Chinese" in suppressing leftist rioting in Hong Kong's Kowloon section during the past week.

There has been one confirmed death in the rioting, a 14-year-old boy, but he was hit on the head by a rock from a rooftop where rioters were stoning police. The violence began with a labor dispute in a factory that makes plastic artificial flowers.

A British legation official in Peking, reached by telephone from Tokyo, said the Chinese there did not attempt to invade the grounds. He said Chinese police were on guard at the legation.

The British government protested Tuesday that the Red Chinese government was not protecting British personnel and property in Peking and Shanghai after the British Consulate in Shanghai was sacked.

Violence was absent from

Presbyterian Confession of Faith

Threat to Security Jobs Feared

PORTLAND, Ore. (AP) — Some Presbyterians in classified government jobs are fearful that their church's proposed new confession of faith might jeopardize their security status, it was learned today.

Involved was a section of the document urging efforts in behalf of peace "even at risk to national security."

The Rev. Floyd W. Ewalt, moderator in the church's Washington, D.C., area, said that some members "are concerned about whether security clearances would be affected."

In some instances, individuals in classified work reportedly have been advised by lower-echelon military or defense plant attorneys that the proposed credo might becloud their standing.

TROUBLE WARNED

"They've been told they might get in trouble," the Rev. Mr. Ewalt said, adding that he himself knew first-hand of only one possible case of this kind. Other sources said there have been some similar instances around the country.

The concern became known as United Presbyterian representatives from across the nation met here for their 179th annual general assembly, with final action scheduled on the long-discussed "confession of 1967."

It is the first major revision of the church's doctrinal position since the famed Westminster confession of 1648, and stresses Christian obligations to work to curb poverty, sexual license, racism and war.

A key point of controversy was a passage reading: "The church, in its own life, is called to practice the forgiveness of enemies and to commend to the nations as practical politics the search for cooperation and peace. This requires the pursuit of fresh and responsible relations across every line of conflict, even at risk to national security, to reduce areas of strife and to broaden international understanding."

CAPTURED AIRMEN—These photos were taken last night from a television showing of Communist-approved film emanating from Hanoi. The film reportedly shows captured American airmen. It was shown on CBS Evening News with Walter Cronkite. The program identified the men as (top left) James A. Shively, (bottom left) James L. Hughes in both photos at right, Gordon A. Larson.

Canada Urged to Push Safety

Auto Critic Says U.S. Safe-Car Plan Stalled

OTTAWA (UPI) — Auto critic Ralph Nader called on Canada yesterday to tackle the problem of car safety instead of waiting "like a docile appendage" for the United States to make the first move.

Nader, whose controversial book "Unsafe at Any Speed" shook the U.S. auto industry, said a \$5 million plan to build a safe car in the United States has been shelved.

He told a Canadian news conference U.S. National Traffic Safety Administrator Dr. William Haddon "saw fit" to withhold federal funds from a New York state project to build such a car.

Without federal funds, Nader said the New York project would "drizzle along" and could take six or seven years to complete, instead of the six months originally forecast.

He dismissed auto makers' claims that it would take 28 months to design and patrol a new safer car.

"I'll tell you something Washington doesn't know yet," he said.

"The production 'go ahead' to build the new Pontiac Firebird was given in June, 1965. The cars were rolling off the assembly line in January, 1967."

Texas School 'Gets Tough'; Police Patrol Riot Scene

HOUSTON, Tex. (AP) — Texas Southern University administrators invoked a "get tough" policy and calm prevailed on the campus today after rioting in which a policeman was fatally shot and four other persons were wounded.

Of the 488 students arrested during the four-hour conflict early Wednesday, five were charged with rioting and their bonds fixed at \$10,000 each. Conviction on the felony charge carries a penalty of four to 40 years in prison.

Most of the others taken into custody were released late in the day. Authorities said other complaints may be filed.

Patrolmen in unmarked cars cruised the campus today without incident. Other officers stayed at a command post nearby.

CRASH SCHOOL

About 100 policemen stormed into dormitories at the predominantly Negro state school, largest of its kind in Texas, to reach snipers firing on them early Wednesday. Officers estimated more than 3,000 shots were exchanged.

Sheriff's officers said 16 students were treated at the county jail for minor injuries, mostly cuts and bruises.

Lewis R. Kuba, 24, a rookie

patrolman, died about seven hours after he was struck between the eyes as he and fellow officers advanced on a dormitory from which students were shooting and tossing crude fire bombs.

Police said a preliminary ballistics examination indicated the bullet that struck Kuba hit another object first.

FIND PISTOL

Authorities said they found a .22-caliber pistol and an automatic shotgun in the two men's dormitories after the shooting ceased.

Police and administrators of the 4,500-student institution sought to pinpoint reasons for the outbreak, which started in brick and bottle throwing at passing motorists Tuesday night and flared into the gun battle after midnight.

Mayor Louie Welch said the events proved that the school administration "has absolutely no control over its students."

University officials expressed shock and said the campus is plagued with outside agitators.

The tallest inhabited building in this world, the Empire State Building in New York City, occupied 7,000,000 man hours before its completion in 1931.

AP Wirephoto

CAMPUS SCUFFLE — This was the scene on the campus of the University of California at Los Angeles yesterday when a scheduled flag-burning ceremony turned into a wild melee. The trouble came when an organization supporting Rhodesian independence attempted to carry out a ceremonial burning of the U.N. Soviet and Nazi flags.

Nine Injured in Fist Fight After Rally

LOS ANGELES (AP) — Rumors that the U.S. flag would be burned were blamed today for a wild fist fight in which nine persons were injured at the University of California at Los Angeles.

The melee broke out Wednesday after a campus rally had been staged by a group favoring Ian Smith and his white supremacy government of Rhodesia.

Leslie Otis, a member of the group, announced that two flags would be burned and "maybe a third." The flags uncovered were those of the Soviet Union, the Nazi Third Reich and the United Nations.

But a rumor swept the campus that the Stars and Stripes might be burned.

TENSIONS MOUNT

The tensions mounted as speakers called UCLA students "liberal swine." As the group tried to leave with the flags for an off-campus burning ceremony, more than 100 persons overtook the group.

A bystander ripped the Nazi flag from its pole. The Russian banner was torn. When the group tried to carry off the U.N. flag, two older men who grabbed for it were knocked to the ground.

Several students were knocked down. None of the injuries was reported serious.

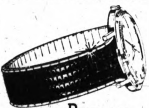

Although all three of the flags were torn, none was burned. When a demonstrator tried to set the Soviet flag afire with matches, he was stopped.

An estimated 1,000 persons watched or took part in the demonstration.

Teen Divorces

WELLINGTON (U.P.) — Four out of every 10 marriages between teen-agers in New Zealand end in divorce, the Rev. Thomas Gidman of Napier told the Baptist Union annual assembly in Wellington.

NEVER-ENDING JOB — City tree-trimmers have "embarked" on their annual rounds of pruning and cutting trees in Pontiac. All trimming is done under the direction of a professional forester hired by the city. Crews here, are shown on Lewis Street.

(Continued From Page One)

ever being tried for the crime for which he was arrested.

This even includes murder.

A strong advocate of amending this particular statute to exempt murder is Oakland County Circuit Judge Frederick C. Ziem, who served as county prosecutor from 1952 to the time he was appointed to the bench in 1959.

Five Adults Given Awards

(Continued From Page One)

Richard Hayes, Pontiac police patrolman in the department's juvenile division who resides at 175 Wall, has been with the police department since 1956.

Active with boys as a volunteer, he is youth chairman of Eastern Junior High Parent-Teacher Association, a Cub Scout master and was recently appointed to help supervise a new Pontiac Police Youth Service Corps program for the summer.

George Gary, an industrial education teacher at Lincoln Junior High who lives at 7950 Dixie, Clarkston. He has been in the field of education since 1935.

Much of his time is devoted to after-school recreational activities for children. He helped develop a year-round physical fitness program for elementary school boys in Pontiac.

"Dedication is their motto," City Commissioner T. Warren Fowler Sr. said before presenting them with awards. "They live by it in the things they do for others."

"What they have done, what they are doing and what they will do affects the lives of those with whom they come in contact."

Certificates of meritorious service were also awarded by Police Capt. Harry Nye to George Steinbach, Leonard Denison, Theodore Tibbitts and Walter E. Osborne, all of Pontiac.

STOLEN CHECK SUSPECT

Steinbach and Denison alerted police to the whereabouts of a stolen check suspect on March 4, 1966 and Tibbitts and Osborne rescued a 4-year-old girl pinned under a car on Aug. 26, 1966.

Teens of the Week, who possess outstanding scholastic and extracurricular records, were recognized by Eugene A. Moore, Oakland County Probate judge, who called the CCV "The most progressive youth committee in the county."

Feature speaker was Dave Diles, sports director of WXYZ-TV, who addressed the audience of 125 persons to get involved in as many activities as possible.

"At no time in American history has the youth of the land held such a dominant position to determine the future direction of our great country," Mrs. Myrtle Hillerman, president of CCP, said.

"It is no more than the present is more important to work with youth in helping shape that future."

The CCV is Pontiac's official youth advisory group which cooperates to prevent, control and treat antisocial problem youth.

One case directly involving Ziem when he was prosecutor concerned Donald V. O'Brien, recently arrested after escaping from Ionia State Hospital for the killing of a little girl in Grand Lodge.

PLEA TO LEGISLATURE
O'Brien had been committed to Ionia as a criminal sexual psychopath in 1953 after being charged with raping and murdering a 53-year-old woman in Pontiac.

"I made a trip to Lansing at the time to make a personal plea to the Legislature," said Ziem, "but the law was never changed."

Detective Charles Whitlock, Oakland County Sheriff's Department, said sex offenders are "one of the hardest kinds of cases to deal with."

"It must be determined whether a sex offender is so deranged he cannot stand trial or whether he is normal enough to be considered responsible for his actions."

MUST BE SEPARATED
"In any case, he must be separated from the rest of society," Ziem said.

Mrs. Pat Caronis, Crime Prevention Bureau, Pontiac Police Department, said, "The majority of people don't know sex offenses occur daily."

"Victims often know offenders and don't, for many reasons, press charges."

One mother feels that all means of treatment should be utilized on sex offenders to make them safe for society.

LAST RESORT
Sterilization would be a last resort if a habitual offender doesn't respond to treatment.

Another mother believes that offenders must be hospitalized until it is certain that they can return to society.

A positive determination of cure must be made before hospital release, she said.

"The majority of sex offenders suffer from various personality or emotional problems and are not mentally ill," Dr. Donald W. Martin, medical superintendent of Pontiac State Hospital, says.

SMALL PER CENT DANGEROUS
But those who are mentally ill should receive psychiatric treatment, according to Martin.

"Only a very small percentage of sex offenders ever commit violence or dangerous acts," he said.

Dr. Dana P. Whitmer, superintendent of the Pontiac School District, was less sure of what to do with sex offenders. He said:

"I definitely feel children should be protected against known sex offenders, but I don't feel I have the competence to know what is the best way to deal with them."

Fiscal Reform Vote Is Urged

(Continued From Page One)

Law estimated that the state could derive in excess of \$50 million annually in this manner.

"Certainly at a time when the needs of public education is the greatest reason for the need for tax revision or more taxes we should not overlook the need of parochial schools to meet rising costs," said Law.

"Legal raffles and lotteries and bingo would allow them to help themselves with general public support."

The third constitutional amendment proposed by Law would not limit the governor in filling judicial vacancies.

Presently the constitution permits only the appointment of a retired judge to fill a vacancy.

Law said that if the constitution is amended, the Legislature could hold a special session in November to work out the details and put the tax program into effect Jan. 1, 1968.

"This would be sufficiently early to prevent the state from getting into serious financial difficulties," Law added.

He said that intangible and business taxes "could and should be eliminated if the type of taxes he proposed are put into law."

Sales tax on food, drugs and possibly some other necessities also could be removed, said Law.

Law proposes two other measures which would add to the state revenue. Neither would require constitutional amendments.

One would legalize greyhound racing, giving Michigan at least \$10 million annually, Law said. The other would legalize racing and pari-mutuel betting at the State Fairgrounds in Detroit during the winter months.

"This would not interfere with our existing tracks or meetings and would produce a net of at least \$10 million a year for the state and \$500,000 for Detroit," said Law.

Will Ask OCC to Review Site

OAK PARK (AP)—Oak Park Mayor Joseph Forbes said today he will ask Oakland Community College to reconsider the Detroit Artillery Army in Oak Park as a possible site for the school's fourth campus.

College officials have indicated that they consider the Red Run Golf Course in Royal Oak the ideal site to serve south Oakland County.

House Scraps LBJ's Rent Subsidy Program

WASHINGTON (AP)—House scuttling of rent subsidies underscores the trouble which Johnson administration "Great Society" programs face as a result of heavy Democratic losses in last year's elections.

In the first real test on a controversial domestic issue in the new Congress, the House beat down Wednesday the rent subsidy program, almost stopped the model cities program and curbed the government's power to raise money by selling government-owned mortgages and other securities to private investors.

Wednesday's voting showed that no longer can the coalition of Republicans and conservative Democrats be ignored on hot domestic issues.

Defeat of the rent subsidies measure generated administration wrath against House Republicans, plus a warning the vote could lead to increased racial tensions and a pledge to carry the fight for the program to the Senate.

'VICTIMIZED'
Secretary Robert C. Weaver of the Department of Housing and Urban Development said, "The GOP leadership victimized some 200,000 low-income Americans by spearheading the attack on rent supplements."

"And this was done by opposing an imaginative program for using to the maximum the private enterprise system they profess to champion," Weaver said of Republicans.

"It is shocking that in this period of tension in our cities," he added, that Republicans could "abandon those who are in the greatest need."

The rent subsidy provision in a \$10-billion omnibus money bill sent to the Senate was struck by a roll-call vote of 232 to 171, with 69 Democrats and 163 Republicans backing elimination and 159 Democrats and 12 Republicans opposing it.

SUPPLEMENT
The subsidy program calls for government payments to private landlords to supplement rents paid by eligible low-income families. The program had a total of \$32 million during the two years of its life.

President Johnson wanted \$40 million for the coming year and the House Appropriations Committee cut it to \$10 million. The House vote cut out the \$10 million, leaving only \$5 million to pay for commitments already made.

The model cities money — already pared from \$662 million to \$237 million in committee — stayed in the bill by a roll-call vote of 213 to 193, with 52 Democrats and 141 Republicans opposing it and 178 Democrats and 35 Republicans voting to keep it alive.

There were no squabbles over other allotments in the bill, including \$5.64 billion for the Veterans Administration and \$750 million for urban renewal programs.

G.O.P. for Dem
SALEM, Ore. (AP) — The Democratic colleagues of a state representative almost ruined her birthday cake. It had been baked with her initials on it. Her name is Grace O. Peck.

General Motors, Ford and other companies have developed prototype electric vehicles. To date they have all been considered too costly for general consumption.

Junior Editors Quiz on FLUORESCENT

QUESTION: How do fluorescent lights work?

ANSWER: Most of us know how a bulb type incandescent light works — by an electric current passing through a fine wire which resists it, causing the wire to glow brilliantly.

But a fluorescent light, with its long tube, seems more mysterious. Looking inside (lower picture), we find electrodes at each end. An electric current comes in and heats them. As they become heated, they send off streams of the tiny particles called electrons.

The tube is filled with argon and mercury gases; and some of the moving electrons strike the atoms of these gases. This starts a process by which ultraviolet light is created.

The inside of the tube has been lined with phosphor crystals which glow, or fluoresce, when exposed to such radiations as ultraviolet light. So, these phosphors start to glow as the ultraviolet light reaches them.

Since the tube is glass, this glow comes through the outside. Does it sound complicated? Just pull the string and let the bright fluorescent light cool your brain.

Official Defends Wiretapping Use

WASHINGTON (UPI) — John B. Martin, a member of the Michigan Crime Commission, Wednesday said wiretapping should be permitted if there is "an overriding public consideration" such as the fight against organized crime.

Martin, in testimony before the Senate Administrative Procedures and Practices subcommittee, said, "We are convinced that without this assistance, the battle against organized crime will be a losing one and that law enforcement agencies will face defeat."

Governor to Run

JACKSON, Miss. (AP) — Gov. Paul Johnson has announced his candidacy for lieutenant governor and said his top campaign issue will be who can be of most help to the next governor.

The National Heart Institute has spent about \$4 million the last three years on 32 artificial heart research and development projects.

Incidents on Sino-Soviet Border Are Rumored

CHICAGO (AP) — Well-informed foreign diplomats in Peking are convinced that shooting incidents have occurred on the border between Russia and Red China, says a newsmen who visited China in March.

Simon Malley writes in a copy-right story that top Chinese leaders believe a shooting war on the Russian border is "possible and even probable."

Malley, a United Nations correspondent for the French lan-

guage Jeune Afrique and other African newspapers, quoted Premier Chou En-lai as saying armed conflict is possible "because the Soviet revisionists will do their best to crush the present revolution in China."

Malley's series on his trip to

China is appearing in the Chicago Daily News and is based on exclusive interviews he said he had with Chou and other Chinese Communist leaders.

Malley wrote that although foreign diplomats in Peking be-

lieve shooting incidents have occurred on the China-Russia border, China has given no hint that this was so.

More than 1.5 million guitars and 250,000 pianos were sold in the United States last year.

Cavanagh Defends His Regime

DETROIT (AP) Mayor Jerome P. Cavanagh, beset by a host of problems stemming from Detroit's rising crime rate, defended his administration yesterday in a television appearance reminiscent of the freethinker of the late Franklin D. Roosevelt.

Saying "panic and wild alarm can only hurt" the city's fight against crime, the 38-year-old mayor lashed out at critics for using what he termed lies, innuendo, slander and smear tactics against his 5-year-old administration.

He did not mention Councilwoman Mary V. Beck, who is leading a recall campaign against Cavanagh and has said he was immoral in his private and public life, but said "we must recognize that there are those who traffic in tragedy — who use it in political causes."

Cavanagh's personal rebuttal was prompted by criticism of his administration over a two-year period.

During this time, the police department has been tinged with scandal from findings produced by two one-man grand juries.

GUN CLINIC

Rising street crime and armed robberies caused Walter C. Shamie, editor of *Grocer's Spotlight*, a newspaper devoted to the small businessman, to call for a gun clinic to train merchants how to handle weapons.

Miss Beck accused Cavanagh of doing nothing to halt the rise in crime and she set out to get 114,000 petition signatures to force an election to recall Cavanagh from office.

The councilwoman refused to back up her charges about Cavanagh's private life.

In a newspaper interview Sunday, Cavanagh admitted he had family problems. His wife, Mary, mother of eight, reportedly has seen attorneys.

'FAMILY DIFFICULTIES'

"Sure, we've had family difficulties," Cavanagh said in the interview. "And I'm striving hard to work them out. But they certainly aren't the kind of problems that would reflect on my public or private morality."

Shamie, who lost a bid for mayor against Cavanagh last year, said the crime situation in Detroit is "just as bad as a year and a half ago when I campaigned."

Shamie said he thinks Miss Beck will get the 114,000 signatures needed to force a recall election, "but when it comes to going to the polls, the Cavanagh machine will be out in force and that will be that."

Cavanagh told his television audience crime rate figures were deceptive because a crime reporting system, encompassing stricter reporting methods, showed the number of crimes up 30 per cent last year when, under the old reporting system, the rise was only 6 per cent.

He said Detroit police arrested 21.8 per cent more offenders last year while nationwide prosecution arrests for cities over 100,000 population dropped three per cent.

The grand jury probes uncovered a number of so-called "little black books" in a raid on a downtown restaurant.

Names similar to police officers, including Police Commissioner Ray Girardin, appeared in the book along with notations of amounts of money.

Cavanagh said Girardin conducted a six-month investigation of the names listed in the books.

KRESGE'S DOWNTOWN STORE

"A number of police officers — including my own former driver — were disciplined for instances of bad judgment," the mayor said.

"There was no other proof of wrongdoing. If there had been, we would have acted upon it."

The mayor said wages and fringe benefits for police officers have risen 44.5 per cent in the last five years and the average patrolman makes \$6,335 placing Detroit third in the nation in police salaries.

There was no salary increase for policemen in Cavanagh's austerity budget.

RAISE ASKED

The budget is still to be acted on by the council. Miss Beck

yesterday asked for inclusion of a \$1.4-million police pay raise, about \$500 per officer.

The Detroit Police Officers Association, at its closed meeting Monday, reportedly took a strike vote in an effort to seek higher pay and fringe benefits.

A slowdown in traffic ticket writing was evident yesterday. Girardin said only half the number of tickets were issued than in the previous 24-hour period.

Quakes Kill 14 in N. Sumatra

JAKARTA (UPI) — A series of earthquakes killed 14 persons, and destroyed more than 2,000 houses around Atjeh, North Sumatra, the official news agency Antara said today.

The tremors shook the earth over a period of four days and were considered to be the most violent ever recorded in the region's history, Antara said.

Bees Leave Mail Nest

TRAVERSE CITY (UPI) — The Traverse City Post Office went out of the beekeeping business today.

A carton containing 50 boxes of queen bees were on their way to Robert Stang of Kawkawin after spending two days nesting in the Traverse City Post Office.

Postmaster Ed Perkeit said the bees apparently were sent to Traverse City instead of Bay City where Stang was supposed to pick them up.

There was no trouble with the bees, Perkeit said, but he added he was glad to get rid of them.

JUDGE DISPLAYS ARSE-
NAL — Municipal Judge Noel
Cannon, wearing a dotted-
Swiss miniskirt dress, dis-
plays a pearl-handled der-
ringer and hat pin, part of an
arsenal she recommends for
women to protect "their lives
and virtue." Judge Cannon
displayed the items today in
Los Angeles, following two
months of duty in felony court.
She said the felony court
duty revealed a surprising
amount of crime against wom-
en.

F105s Taking Heavy Losses

50 Per Cent Said Lost;
No More Being Built

WASHINGTON (AP) — The
Vietnam war has cost the Air
Force about half of its F105
Thunderchief fighter-bombers,
Pentagon figures indicated to-
day.

About 400 of the Thunder-
chiefs remain in service after
more than two years of the air
war against North Vietnam.

The Air Force bought 818 of
the planes before turning to the
F4 Phantom in 1964. No more
F106s are being built.

The loss comes to about 51
billion worth of F105s, which
have flown more than 75 per-
cent of the Air Force missions
against targets in North Viet-
nam.

WAR INCIDENTS

Sources said some of the 818
F106s have been lost through
mishaps outside of Southeast
Asia, but that the great bulk of
them were destroyed in inci-
dents associated with the war.

By its performance in Viet-
nam, the F105 has to consid-
erable extent overcome an unfa-
vorable reputation it developed
in earlier years.

Because of past complaints by
pilots that the F105 handled
clumsily and had other operat-
ing deficiencies, the plane got
the uncomplimentary nick-
names of "thud" and "lead
sled."

The F105 was flown first in
1955. It can generate speeds up
to 1400 miles per hour and can
carry a 12,000-pound bomb load.
Its operating range is beyond
1500 miles.

In combat missions over
North Vietnam, the F105 often is
covered by the more modern F4
Phantom, which tries to inter-
cept any Communist MIGs
which seek to jump the heavily
laden Thunderchiefs.

Lost F106s are replaced with
F4s.

AT THE CORNER OF PERRY AND MONTCALM . . . USE YOUR CONVENIENT MICHIGAN BANKARD

Met Opening Sparks Galas

By SIGNE KARLSTROM
Once more the Metropolitan Opera comes to Detroit under the sponsorship of the Detroit Grand Opera Association. This year — for the first time, the opera "The Masked Ball" will be presented opening night with Michigan's own brilliant conductor Thomas Schippers at the helm.

It takes place at Detroit's Masonic Temple, Monday at 8:30 p.m. The usual dinner parties in downtown Detroit will again be part of the festivities.

HOSTING GALAS

At the Detroit Athletic Club Mr. and Mrs. Edward S. Welock will entertain for dinner Mr. and Mrs. Graham John Graham; Mr. and Mrs. Henry S. Johnson; Mr. and Mrs. Harry M. Pryale, Dr. and Mrs. Howard B. Barker and Dr. and Mrs. Herman D. Scarney.

In another group will be Dr. and Mrs. Luther R. Leander, Mrs. Sixten Ehring, Mr. and Mrs. Bruce Wilson, Mr. and Mrs. A. A. Appelford and the Ari M. BeGoles.

Mr. and Mrs. Charles F. Adams will have as their guests Mr. and Mrs. Harold G. Warner, Mr. and Mrs. Ted Hopkins and Mr. and Mrs. Lee Mays.

With Mr. and Mrs. LeRoy W. Dahlberg will be Mr. and Mrs. Harry A. McDonald Jr. Others who will have dinner are Mrs. M.M. Burgess with Mr. Harry Anderson of Ann Arbor, Mr. and Mrs. Henry S. Wenger with Mr. Brown. The Joseph Risdon's have a group; the Kenneth Manuels and Mr. and Mrs. Merrill L. Bush.

DETROIT CLUB
At the Detroit Club Mrs. Walter Gehrke is entertaining her

daughter and son-in-law, Mr. and Mrs. James Aliber, Mr. and Mrs. Samuel J. Lang and their daughter and son-in-law, Mr. Mrs. Hans Gehrke and Mrs. Mrs. John Cannon, Mr. and William L. Kemp.

Mr. and Mrs. John F. Gordon will have at their table their daughter and son-in-law, Mr. and Mrs. Henry Whiting Jr. and the Kenneth Cunningham Jr's and the Harry Wieting's.

Mrs. Whiting and Mrs. Cunningham are the co-chairmen of the Women's Committee for the Birmingham-Bloomfield area. With Mr. and Mrs. George Russell will be Mr. and Mrs. Semon Knudsen and Mr. and Mrs. Ernest A. Jones. In another group will be Mr. and Mrs. Joseph Conway with Mr. and Mrs. Karl-Gunnar Aronsson and Mrs. Irving Rose.

Mr. and Mrs. William L. Mitchell hope to arrive from New York just in time for the opera and to attend the Opera party at Detroit Institute of Arts following the performance. Mr. and Mrs. James Ryche are chairmen of this event.

On Tuesday there is a busy day for Mrs. Mitchell as chairman of the luncheon and swimming party which Mr. and Mrs. Lynn Townsend are hosting in

Golf Devotees Model Sports Newest Attire

The latest feminine golf and sports attire was shown by modeling club members at Wednesday's luncheon fashion extravaganza in Oakland Hills Country Club.

Showing the fashions from the club's pro shop were Mrs. James Guest, Mrs. Kenneth Sanden, Mrs. Richard Hague, Mrs. Gary Hogan, Mrs. Bert Carothers, Mrs. James Rather and Mrs. Arthur Kaufmann.

The Sportsman of Birmingham supplied separates for models; Mrs. Donald Petersen, Mrs. John Fowler, Mrs. Bruce McDonald, Mrs. David Auer, Mrs. Joseph DeCamminada and Mrs. John Conroy III.

Ricky Dove, dance instructor, worked with models to insure their poise on the runway.

Special tips on the game were given by club pro, Mike Souchak, along with Tom Cosmo and John Hussey. Mrs. C. Boyd Stockmeyer, social chairman, and her committee worked on arrangements.

Calendar

FRIDAY

Third Workshop in Series for Developing Effective Programs for Senior Citizens, 1:30 p.m., Pontiac Library. "Good and Bad Officers in Action."

Women's Society of Christian Service, Covenant Methodist Church, 5:30 p.m., in the church. Annual roast beef dinner.

Bonneville Junior Bridge Club, 7:45 p.m., The Pontiac Mall. Beginning bridge players may attend.

Lynda Bird Johnson (center) and singer Dinah Shore (right) play with some of the youngsters on hand for the filming of a one-minute public service film for the National Association for Crippled Children and Adults. The filming was done at Warner Bros. studios earlier this week in Hollywood. The film will be used in the 1968 Easter Seals campaign.

their home on Island Lake for the opera cast and orchestra personnel.

Assisting Mrs. Townsend and Mrs. Mitchell as hostesses are: Mesdames Charles Adams, Edward Cole, David Di Chiera, Charles Quay, Harry Wieting and Charles L. Wilson Jr.

Asks Advice on Rules of This Event

By ELIZABETH POST

Dear Mrs. Post: Etiquette books have given me no help with my problem. We, as parents of the groom, are giving the rehearsal dinner in the bride's home town and most of the guests will be strangers to us. The questions are:

• Do we send written invitations?

• Are there certain seating arrangements?

• Do the bride and groom present their gifts to their attendants at that time?

Dear Mrs. L.: Rehearsal dinners are somewhat formal affairs, so yes, send written invitations. Either handwritten notes or engraved cards are correct.

• At either a long or U-shaped table, you and your husband sit at either end, the bride's father on your right, her mother on your husband's right. Bride and groom sit in the center with best man on her right and maid of honor on his left.

• Yes, this is the perfect time to present the gifts.

Mrs. Harold J. Hall (left) of Dianna Drive and Mrs. George W. Bowman of Franklin Village cut up on the green in fashions designed for the golf course, the pool or tennis. The occasion was a noon luncheon Wednesday at the Forest Lake

Country Club. Fashions were supplied by Bob Gajda's Pro Shop and Don Thomas Sportshaus. Chairman of the event was Mrs. Howard Schweppe assisted by Mrs. Carl Horner.

Husband Should Seek Doctor's Guidance

By ABIGAIL VAN BUREN

DEAR ABBY: My wife is 37 and is expecting her fourth child. We have two sons, 11 and 16, and a daughter, 12. My problem is something I hesitate to even discuss with her doctor, but the time is drawing near and I can't put it off any longer.

ABBY
My wife wants our children to witness the birth of her baby. She says our daughter should see what it is like to bring a life into the world, and it won't hurt the boys either.

I told her I didn't think the hospital would allow it, but she said if they didn't, she'd arrange to have her baby at home because she wants our children to learn the facts of life as they really are.

Have you or any of your readers ever heard of anything like this? Maybe I am wrong, but I can't go along with it. What should I do? HER HUSBAND

DEAR HUSBAND: Ask your wife to tell her doctor about her plan and let HIM handle it. I am sure he will agree with you. With ideas such as this, I'm surprised your wife would start with the "birth." Why not the "conception"? It's preposterous.

DEAR ABBY: I was recently released from a mental hospital where I spent a year and a half. Now that I am out, my friends are driving me (if you will excuse the expression) "crazy," carefully avoiding every reference relating to mental illness.

If someone slips and says a "nuts" or "crazy" he becomes so embarrassed, he embarrasses ME. Abby, I know I have been ill, and when others treat me as though I don't know where I've been, I feel as though maybe I should be back there again. Here's a big thanks to a friend who recently said of me in the presence of other friends, "Oh, don't listen to her—she's crazy as a loon!" It made me feel that he really thought I was all right or he wouldn't have said it. I hope you print this for what it's worth.

OUT BUT NOT REALLY "IN" DEAR OUT: If your experience left you with absolutely no sensitivity to remarks relating to mental illness, you are indeed an exception. However, I would not advise anyone to use the expression "crazy as a loon" or anything resembling it in the presence of one who had just

spent a year and a half in a mental hospital.

DEAR ABBY: I recently borrowed a glass flower vase from a friend. When I went to her house to return it she wasn't home, but her neighbor volunteered to see that she got it, so I left it with this neighbor.

Well, the neighbor's little boy accidentally knocked it over and broke it. It can be replaced, but it is rather expensive, so I

told this neighbor that I thought she should pay half and I would pay half, but she said she was only trying to do me a favor and she didn't see why she should pay anything. Who is responsible in this case?

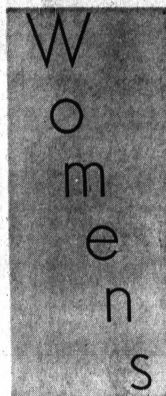

NEVER BORROW

CONFIDENTIAL TO WILLS: It's always a good practice to be nice to the people you meet on your way up. You're bound to meet them on your way down.

For Abby's booklet, "How to Have a Lovely Wedding," send \$1.00 to Abby, in care of The Pontiac Press.

Troubled? Write to Abby, in care of The Pontiac Press. For a personal reply, enclose a self-addressed envelope.

Sorority Unit Hears Variety of Folk Music

Phi Chapter, Beta Sigma Phi, Sorority met recently in the home of Mrs. Robert Schmidt of Steephollow Drive in White Lake Township.

A program entitled "The Amateur" was given by Mrs. Albert Padar, featuring the folk singing of Jeff Elliott of Ferndale. Members joined in for some group singing.

Other guests were Felicia Lucero and foreign exchange student Franziska Moysen of Hamburg, Germany, who is residing with the John Appletons of Hudson Street. Franziska sang her version of a German folk song.

The Ritual of Jewels degree was given to Mrs. Robert Leahy at ceremonies held in the Old Mill.

New Date

The Program Planning Workshop scheduled for Saturday at Central Methodist Church is being postponed until sometime in the fall.

Mrs. David Saks made the announcement for the Pontiac Area Federation of Women's Clubs, the group sponsoring the day-long workshop.

Paper party hats for the girls' booth at Hudson Covert School PTA Fair are modeled by Mrs. Robert Terry of Corey Street (left) and Mrs. Robert Dennis of Watkins Lake Road. Saturday from noon to 3 p.m. is fun time at the school. Mrs. E. L. Lange is chairman of the event.

Set Strawberry Festival

The seventh annual Strawberry Festival of Bloomfield Country Day School will be held at the school Saturday from 10 a.m. to 5 p.m. It is open to the public.

Chairman of the festival, Mrs. William F. Pioch, is being assisted by president of the mothers' club, Mrs. Peter J. Russ, and president of the dad's club, John F. Ivory.

This year, a new attraction will be a booth called "Something of Value", which will have both new and antique merchandise. An auction is planned by Mrs. David H. Finkel.

Adults may also purchase boutique items and flowers; teenagers will have a booth just for them. There will be a flea market.

The usual games, balloons and pony rides are being taken care of by the John Butchers.

And, as is customary strawberry desserts will be on sale, as well as other food. Marjorie Sallee, headmistress, always makes date and nut bread for the occasion.

Personal Action on IRS Refund

MILWAUKEE, Wis. (AP) — Miss Patricia Stumpf, 23, sent a complaint to the Internal Revenue Service that her \$78 income tax refund was long overdue.

The IRS office sent word to her that she was in error. The refund was \$94—and would be delivered to her personally with love from the district director — her father, Walter Stumpf.

Lyric Soprano Featured in Final Family Concert

The third and final Family Concert of the Pontiac Symphony's 1966-67 season will take place Sunday at 3 p.m. It will be staged in the Baldwin Pavilion, site of the Meadow Brook Music Festival, at Oakland University.

LYRIC SOPRANO

Noel Rogers, 25-year-old lyric soprano and University of Michigan graduate music student, will be guest soloist. She Rogers is the winner of the 1956-57 Metropolitan Opera Regional auditions, which bestowed a \$2,000 award for further study plus an opportunity to compete in the final auditions between regional winners in November.

In February, Miss Rogers won a \$2,500 Grinnell Foundation Opera scholarship. She also won the \$1,500 Worcester Music Festival Competition for Young Artists last September. She sings in seven languages.

The orchestra, under the direction of Felix Resnick, will perform Dvorak's Carnval Overture; Dance of the Co-mediens from Smetana's Bartered Bride; Stars and Stripes forever by John Philip Sousa, and Tchaikowsky's Fantasy-Overture, Romeo and Juliet.

Miss Rogers will sing Laudamus Te from Mozart's Minor Mass; the Ave Maria from Verdi's Otello; O zittre Nicht, from Mozart's Magic Flute; plus excerpts from The Sound of Music.

This attraction is made possible with the support of the Michigan State Council for the Arts.

Grounds will be open from 12 noon until 3 p.m. for family picnics before the concert. Beverages will be available from noon until 3 p.m. and during intermission.

A limited number of tickets will be available at the gate. Admission is \$2 for families; \$1 for individuals.

Hang With Care

Old shoulder pads sewed on the end of wire hangers will prevent the hangers from leaving a mark on garments. They also hold the shape of the garment better, and help to prevent it from slipping off the hanger.

NOEL ROGERS

Bride-Elect Is Honored at Festivities

Bride-elect Mary Susan Coleman has been honored at a number of festivities preceding her marriage Saturday afternoon to Edward H. Broadwell.

Claudia F. Cobb of Detroit, who will be maid of honor for the ceremony was hostess at a pantry shower.

A miscellaneous shower was given by Mrs. Gerald M. Nester at the home of her mother in Northville Mrs. Neil S. Burkholder and Mrs. Glen J. Dolan, the bride-elect's aunts also were hostess for a shower.

Mrs. Mallory F. Coleman (Mother of the bride-elect) was hostess for the bridal party recently at Rotunda Inn. A rehearsal dinner will be hosted Friday at Northwood Inn by the parents of the bridegroom, Mr. and Mrs. Hiram W. Broadwell.

Vary Shopping to Help Budget

By MARY FEELEY
Consultant in
Money Management

A bored worker doesn't make much profit for the company. The top brass in business and industry found this out years ago — so they started piping music into offices and plants.

Pep up the help and the help will pep up the profits. That was the theory, and, in most cases, it proved out in practice.

MARY FEELEY

New items come into the market during the week, so by looking around day to day, these can be spotted. Discovery adds a sort of "entertainment" bonus to the job of food shopping.

Day-by-day shopping is actually cheaper, since you're buying only what you intend to consume — one red onion for the salad bowl, for example, instead of buying a package of three or four — some of which go bad before you want to use them again.

A change in the weather, with a corresponding change in the menu, can be allowed for best with day-to-day shopping.

If one or more family members find they'll be away unexpectedly for a meal, this cuts down the food planning cost for that day. Otherwise, there are left-overs which may never be put to efficient use.

Greens and fruits bought by the week often get dreary looking before the next shopping outing — so there's costly waste.

The Once-a-week food shopping advocates have this to say:

Buying in quantity saves money.

Planning a week's menus with in a specific budget is more economical over a period of time. Left-overs can be planned for.

Messiah Unit Holds Barbecue

Women of the Messiah Baptist Church on East Pike Street will hold a barbecue and bake sale on Saturday from 10 a.m. to 7 p.m.

Mrs. Willie Smith is chairman of the event which is open to the public.

Office equipment sales totaled some \$3 billion last year, a 20 per cent gain over 1965.

I don't suggest piped-in music in the supermarket, heaven forbid. But I do suggest that you may need a little pepping up if you're worried about the family food bill and bored at the same time.

Maybe what you need is a change in shopping habits. If prowling the supermarket became more of a challenge, rather than a grim routine, you might get more good eating for less money.

I happened to sit in, the other day, on a discussion of which is best — day-to-day food shopping or once-a-week buying.

There's something to be said for both methods. An unofficial tally goes something like this:

Day-to-day: Advocates of "buy today what you need today" claim that when each dinner is the main objective, more interest and thought go into the 20 menus — but not necessarily more money. In fact, often less.

Great Aches From Tiny Corns Arise

The common foot is subject to an uncommon variety of diseases and disorders.

And these ailments, although often minor at the outset, can develop into serious problems, especially in later life, unless the victim seeks prompt professional care.

That's the advice of the American Podiatry Association, which calls attention to Annual Foot Health Week, May 12-19, as a time for Americans to start paying more attention to their feet.

Ailments that afflict the foot include circulatory diseases, metabolic and nervous disorders, strains and sprains, weak arches, hammertoes and ulcers.

The foot is also subject to such disorders as heel spurs, neuritis, foot imbalance, weak ankles, bursitis, fractures, arthritis, skin diseases, tumors, warts, and congenital and acquired deformities.

The role of the podiatrist, explains APA, is to consider the foot problems of the patient in their relation to the total health of the individual. It's the patient—not just his corns or calluses or other foot disorders—that requires treatment.

FOOT AILMENTS

Here's a glossary of the ailments that most often affect the foot. Usually, these are symptoms of, or related to, other health problems.

• CORNS — Often caused by friction and pressure. Some

other contributing factors are poor circulation, joint distortion, bone deformity and improper nutrition.

• CALLOSES — Like corns, calluses are a symptom not a disease. The cause must be corrected before the calluses can be cured. Chronic corns and calluses require periodic professional care. Frequently, surgery is the best approach.

• INGROWN NAILS — Often caused by improper trimming, although congenital incurvation, injury, ill-fitting shoes and stockings, fungus and other problems commonly identified as arch trouble can be contributing factors.

Nails should be trimmed almost straight across, leaving the front edge of the nail even with the extending slightly beyond the flesh of the toe.

• EXCESSIVE PERSPIRATION — a contributing factor in foot odors. Daily bathing and the regular application of a foot powder will help. When this fails, seek the professional care of a podiatrist.

The problem of excessive perspiration is frequently associated with emotional and metabolic disturbances, requiring consultation between the podiatrist and other specialists.

• BUNIONS — caused by a joint malalignment and a weakness of the ligamentous and muscular structures of the foot and leg. The formation of bunions tends to run in families.

Factors such as stress and strain and interference from shoes can aggravate the deformity. When joints are red, swollen and tender, see a podiatrist. These signs may indicate the formation of a bunion, arthritis, gout or infection.

A bunion on the joint of the little toe is called a bunionelet or tailor's bunion.

• WARTS — often mistaken for calluses. A wart is a non-malignant skin tumor which has a blood and nerve supply of its own. Warts are usually quite painful and tend to spread if left untreated.

• ATHLETE'S FOOT (also called ringworm)—a skin disease caused by a fungus which most commonly attacks the feet where it thrives best — between the toes. It is aided by the warm, moist, dark environment inside the shoe.

The biggest factor in athlete's foot is poor skin resistance to the infection. Practice good foot hygiene by bathing and powdering the feet daily and changing socks frequently.

TREATMENT

Dry feet thoroughly by blotting, not rubbing, between the toes with a coarse towel. As in all things, use moderation. Since the overuse of soap and water can be harmful.

The cosmetic look is the "now" look for legs. However you spend the summer, a new kind of basic stocking, Alive, by Hanes will be a boon to your active life. It gives legs the look of a perfect complexion; flatters them the way make-up flatters the face. The first stocking knit with Spandex completely wrapped in nylon provides a hug of gentle support too that keeps you from feeling tired. Available locally.

Sisters Bear Baby Girls

PHOENIX, Ariz. (AP) — Mrs. Robert McCreary and Mrs. Douglas MacArthur who are sisters, gave birth to baby girls just eight hours apart at Good Samaritan Hospital. The two mothers were also born at the same hospital.

Resin Finishes

To preserve the resin finish on wash-and-wear material, wash in warm water of 100 to 110 degrees. Heavily soiled garments can be put into water of 120 to 140 degrees—but no hotter. The resin finish is what serves to minimize wrinkling.

"Lift" your Skin Tone to Freshen Color... Look "Ageless"

New, granular aqueous emulsion known as 2nd Debut lifts the tone of any aged skin by natural deep moisturizing. This smooths lines around the eyes and mouth, dispels skin dryness and freshens the color of skin of any age. Regular nightly applications of 2nd Debut result in the sudden appearance of the "ageless look" in which birthdays are of no consequence and admiration is unending. Skin dries all but banishes itself. Get 2nd Debut (with CEP 600) if you are under 40. The 4 oz. bottle is only \$3.00. 2nd Debut (with CEP 1200) if you are over 40, is \$5.00 for the 4 oz. bottle. At good department and drug stores. ARRIVALS, LTD., CHICAGO, U.S.A.

A Novelty Toy for Sudsy Fun

A new novelty toy for children is an old fashioned pump'n' bucket — a plastic pump packaged with two buckets so water can be pumped up from the "tank" into the container again and again.

Just add some soap or detergent and watch the sudsy fun!

Mrs. James A. Heister (nee Alice C. Peterson) was graduated recently from Western Michigan University with a B.S. in secondary education. Her parents are Mr. and Mrs. C. H. Peterson of North Marshall Street. She is a member of Beta Beta National Biological Honor Society.

A recent University of Michigan graduate is Brennan Petar who received a B.B.A. degree in Business Administration. His parents are Mr. and Mrs. Arthur Petar of Irwindale Court.

Sally J. Mapley, daughter of Mr. and Mrs. Burl Mapley of West Brooklyn Street, recently graduated with a B.S.N. degree from Mercy College of Detroit School of Nursing. She has taken a position at Beaumont Hospital until September.

Case No. C-506

Need More Than Words

By DR. GEORGE W. CRANE
CASE C-506: Hal G., aged 45, was a successful executive.

He had two children but his wife divorced him, leaving him the custody of his son and daughter.

Hal was a brilliant man and such a business success that he became a multimillionaire. "Dr. Crane," he once told DR. CRANE me, "I think children should hear their parents tell them of their love."

"So I often play a game with my children and will whisper, 'I love you.'"

"If they hear me and indicate that fact, I reward them with some gift or half a dollar in change."

"Don't you think it is wise to tell your youngsters that you love them?"

Yes, it is certainly desirable that parents verbalize their love, both for their children and the other parent. But children need far more

than a perfunctory "whisper game" like Hal's.

For Hal should have spent time playing with them, going camping and otherwise setting a strong, affectionate example.

Instead, he farmed out his children to boarding schools and summer camps so his youngsters looked on him as a benevolent "stranger" or "visitor" and not their daily tutor, guide and disciplinarian.

Hal died when his children were not quite old enough to vote.

He left them trust funds running into millions of dollars.

But within a year his daughter hired lawyers to break her trust fund.

And his son was found dead in his apartment a couple of years later, apparently a suicide.

Those occasional evening games where Hal would whisper, "I love you," were undoubtedly valuable.

But being a good parent is not merely a matter of a few minutes of affection at bedtime!

It is a continual job that runs for at least 18 years.

Moreover, it is often boring, irritating, nerve-racking and awesome, especially when you realize that you are sculpturing in human clay.

Boy Scout leaders, Sunday School teachers and summer camp advisers are a great help, but they should not be regarded as complete substitutes for real parents!

Children differ radically in their reaction to the same set of rules, so one youngster may obey your spoken commands while another may ignore them and even laugh during corporal punishment.

Besides, you must imitate the fisherman who gives a few feet of line to a game fish which is threatening to break loose.

Then, when the fish is more subdued, the skillful fisherman reels him back to the boat.

So it is when rearing children! During a period of temporary hostility or stubbornness, it is often wise to look away and avoid a costly face-to-face confrontation.

Substitute Pianist for Concerts

Ruth Meckler Laredo, pianist, will replace Eleanor Lipkin Rocchi who was slated to appear as soloist in the Bach at Cranbrook Festival. The latter is ill.

Miss Meckler Laredo's appearance as piano soloist necessitated some changes in the weekend program.

Friday evening in place of the C Minor Sonata with Violin, she will collaborate in playing the Sonata No. 6 in G Major.

The D Minor Concerto for Clavier will be replaced by the F Minor Concerto. Partita No. 1 in B Flat Major will begin the Saturday afternoon performance. The soloist will also play Continuo in the E Major Concerto.

Miss Meckler Laredo is a native Detroit who has

had a varied career as a recitalist, in chamber music and duo concerts with her violinist husband, Jaime Laredo.

NEW PIANO
Bach at Cranbrook has acquired the SD 10 Baldwin concert grand, the only one of its kind in this area. This new piano has been widely acclaimed by both critics and artists.

Drugs Used for Escape From Life

TULSA, Okla. (UPI)—Some patients are using tranquilizers to escape from themselves, just as some young people are using LSD, reports a University of Oklahoma psychiatrist.

Dr. Boyd K. Kester, who specializes in the relationship of brain waves, drugs and sleep, said the parents and children are trying to escape everyday reality.

"Both problems are a reflection of boredom in America and point to the lack of meaning in our everyday existence," he said.

Dr. Lester also said more and more adults are taking the amphetamines and habituates that have long been associated with youngsters.

RIDICULOUS
"Expert and judicious use of all these drugs has a recognized place in the management of mental and emotional problems," he said. "But it is ridiculous to think they solve any of those problems."

Check Lid Tarnish

Coat the inside of silver-plated lids of mustard and horseradish pots with a thin layer of warm paraffin. This will keep them from turning green or tarnishing.

MIRACLE MILE

The Zene M. Knights of Imlay City (he is formerly a Pontiac resident) will observe their golden wedding anniversary Sunday by renewing vows at a 10 a. m. Mass in Sacred Heart Catholic Church in Imlay City. A family breakfast will follow with a later reception from 2 to 5 p. m. in the Catholic Parish Hall hosted by their daughter, Mrs. Robert Mosher. The couple wed May 21, 1917 in Oxford, have two grandchildren.

Non-Stick Food Scoop

Metal scoops — used to "dish up" uniform servings of mashed potatoes, rice, and other starchy foods — now come with a non-stick finish which allows the foods to slide out in perfect mounds. The special finish also makes this tool clean by just swishing it through sudsy dishwasher.

A Tall Tale of Rites in High Society

HIGHLAND HEIGHTS, Ky. — There were some "high goings-on" at a wedding party at nearby Cold Springs. Deirdre Dorsel, who is 6 feet tall, was married to Charles J. Seligman, 6 foot 3.

The bride's attendants included a sister, Mrs. Lloyd, 5 feet 10, and another sister Mrs. Robert Grace, an even 6 feet tall. The groom's sister, Ruth Seligman at 5 feet 9 was the smallest person in the wedding party.

'HIGH SOCIETY' Seligman is a former president of the "High Cincinnatians," a club for tall persons.

The couple now live in Erlanger, Ky. — On Short Hill Lane.

PRINTED PATTERN

4679
SIZES 10-18
by Anne Adams

Binding follows the fascinating seam swerve right down to the low hip pockets. Sew this pretty A-shaping in a flower-splashed print to enjoy every summer day.

Fifty cents in coins for each pattern — add 15 cents for each pattern for first-class mailing and special handling. Send to Anne Adams, care of The Pontiac Press, 137 Pattern Dept., 243 West 17th St., New York, N. Y. 10011. Print name, address with Zip, size and style number. Spring's Fashions are a JOY FOR ALL SIZES! See 115 styles, 2 free hat patterns, fabrics, accessories in new Spring-Summer Pattern Catalog. Gift Coupon for free pattern in Catalog. Send 50 cents.

Mrs. Mills Wed in White Crepe

A candlelight ceremony in Gloria Dei Lutheran Church was the setting for recent vows repeated by Gail Marie Wensten and Terry Wayne Mills.

The bride wore a gown of full-length white crepe with lace bell sleeves, for the Saturday rite. A rose petal headpiece held her veil of illusion. She carried a bouquet of white tea roses and carnations.

Mrs. Roger Ferguson was her sister's maid of honor. Sonjo Wensten (another sister) was a bridesmaid. They are the daughters of

Mr. and Mrs. John G. Wensten of LaSalle Street. Other bridesmaids were Mrs. Gerald Campbell and Theresa Manuel. Dennis Mills was best man for his brother. They are the sons of Mr. and Mrs. Irwin Mills of New York Avenue. Ushers were Donald Wensten, Gerald Campbell and

Hot-Pot Boards

Every well organized kitchen should contain several hardwood boards on which to set hot saucepans. Paint them to match or harmonize with your kitchen color scheme.

John Mills (another brother). The VFW Hall in Keego Harbor was the setting for a reception. The couple is honeymooning in Northern Michigan.

Investigator Cites Costly U. S. Surplus in Viet

WASHINGTON (AP) — A Senate investigator said today there's about \$100-million worth of U.S. construction equipment now in Vietnam not needed for the American war effort.

And Joseph Lippman, just back from Vietnam, said there are untold quantities of surplus construction materials in the war zone.

A Government Operations subcommittee headed by Sen. Ernest Gruening, D-Alaska, is planning hearings on the surplus property situation in Vietnam.

Lippman said in an interview the surpluses resulted in part from construction management shortcomings reported by the General Accounting Office on Wednesday.

CRITICISM TEMPERED

The GAO tempered its criticism by saying: "Waste and inefficiency could not be completely eliminated in a construction program of this magnitude under the conditions existing in Vietnam."

"We want to know what's going to happen to this equipment," said Lippman, chief investigator for the Senate subcommittee.

He said material in Vietnam not needed by the military should be turned over to the Agency for International Development for its programs there. The GAO criticized the management of construction programs in Vietnam during a

massive expansion stemming from the buildup of U.S. forces there.

FAULTY MANAGEMENT

Its report accused the Navy and an American construction combine of management shortcomings, and said: "As a result, the cost of the program was increased to a considerable extent, although there is no way to reliably measure the extra cost sustained."

The GAO said the combined American construction program in Vietnam totaled \$1.3 billion on Oct. 1.

The U.S. construction combine, called RMC-BRJ, had contracts for about three-quarters of that work. Member firms of the combine, headquartered in Saigon, include Raymond International of Delaware, Inc.; Morris-Knudsen of Asia, Inc.; Brown & Root, Inc., and J. A. Jones Construction Co.

The combine replied to the GAO criticism, saying war and time pressures did not allow normal planning and construction. "A runway for an operational aircraft was much more vital to the war effort than a well-managed warehouse complete with tidy paperwork," the contractor said.

GAO CHARGE

During the accelerated war construction program, late in 1965 and the first half of 1966, the Navy and the contractor bought material and equipment

without a sound basis of computing reasonable requirements and without knowing what was already on hand, the GAO said.

Lippman said that kind of purchasing accounts for much of the anticipated surplus.

The GAO report cited, as an example of use of higher-quality material than necessary, the

contractor's purchase of \$15.7 million worth of lumber. The GAO said it could have been bought for \$2.1 million less.

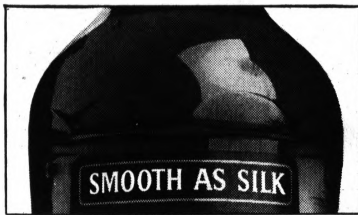

And the agency rapped the contractor for using air transport rather than shipping for such nonstrategic items as 210 pounds of darts and dartsboards, \$18,000 Manila envelopes and 10,244 pairs of work gloves.

Another GAO complaint: "Effective management of procurement and utilization of materials became virtually impossible because accountability in Vietnam over the mountainous supplies of construction material was lost."

The GAO sent Congress a dossier of photographs of construction supplies stored outside and

deteriorating in the damp Vietnam air.

Some U.S. supplies have been stolen, the GAO said, but it could not estimate how much. "Nobody really knows," Lippman said. "There's been a tremendous amount of private construction going on in Saigon and nobody can say where the materials came from."

This is all you need to know about Kessler...

the rest is pure enjoyment.

Take one jigger of Kessler. Add water, ice, or whatever's your favorite mixer. Sip. That's all it takes to see why Kessler is the whiskey with "Smooth as Silk" on the label. It's the whiskey that is.

U.S. Pressuring Allies for More Troops in Asia

WASHINGTON (AP) — The Johnson administration has told some senators the United States is bringing maximum pressure on its allies to broaden Asian participation in the Vietnam war.

But thus far, administration officials have indicated in private briefings, they are having little success in convincing the countries which have associated themselves with the war to furnish more combat troops.

Sen. Charles H. Percy, R-Ill., who has been critical of what he calls Americanization of the conflict, has pounded away on the theme that unless more Asians take part in the Vietnam fighting and pacification program it may turn into a white man vs. yellow man struggle.

He said in an interview he thinks if substantially more Asian troops could be enlisted it would help convince the North Vietnamese and the Viet Cong they are fighting a losing battle against not only Americans but also their neighbors.

Sen. Harry F. Byrd Jr., D-Va., a supporter of President Johnson's over-all war policies, told the Senate Wednesday that for all practical purposes the

fighting is being done by Americans, South Vietnamese and 47,000 South Koreans.

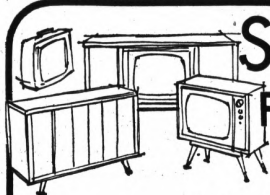

Noting Australia has sent about 7,000 men, New Zealand a token force and The Philippines 4,000, he added: "But with respect to combat troops, only the United States and Korea are involved in the fighting."

Former President of Girl Scouts Expires in N. Y.

PLEASANTVILLE, N. Y. (AP) — Anne Hyde Clarke Choate, a former president of the Girl Scouts of America, died here Wednesday. She was 80.

Mrs. Choate, the widow of Arthur Osgood Choate, an investment banker, was the group's second president, taking office in 1920. She later served twice as its vice president.

Always active, Mrs. Choate attended an international scout conference in Japan last year. Mrs. Clark is survived by two sons. Funeral services are to be held here Friday.

Sclerosis-Like Disease Cured in Test Tube

By Science Service
BOSTON — A disease resembling multiple sclerosis has been cured in a test tube. The demonstration adds another piece of evidence that the body's own defense mechanism — it's immune response — is involved in the cause of this baffling disease which afflicts anywhere from 250,000 to 500,000 Americans.

When a body is attacked by infection, according to Dr. Barrie G. Aronson, a Harvard Medical School neurologist here, it calls on cells known as lymphocytes to gather at the site. These cells then enlarge and divide. They engulf the bacteria and stop the disease.

Now Dr. Aronson has found that in an animal disease called experimental allergic encephalomyelitis, which is very like human multiple sclerosis, these lymphocytes destroy — instead of the enemy — the protective sheath around nerve fibers.

This sheath, made of fatty tissue called myelin, surrounds the nerve fibers like insulation around an electric cable.

In multiple sclerosis patients this sheath is destroyed, and it is thought that this is the reason their central nervous systems are damaged.

IMMUNO-GLOBULINS
There are three main types of lymphocyte material. They are known collectively as immunoglobulins and include the well-known gamma globulin doctors often give their patients, when they have been exposed to a dangerous infection.

What the Harvard scientist has found is that it seems that only one of three main types of globulin is involved in activating the lymph cells in this experimental form of multiple sclerosis.

AP Wirephoto

REAL HEARTBURN — William B. Spangler, 30, of Glendora, Calif., points to a series of X rays, showing the bullet that has lodged in his heart for almost 15 years. He didn't know it was there until doctors took the X rays of the heart recently. Each time Spangler's heart beats the bullet bounced up and down two inches. It will be removed through surgery later this month.

Man Has Had Bullet in Heart for 15 Years

GLENDORA, Calif. (AP) — William B. Spangler is a man with a permanent heartache. The chest pains come from a bullet lodged in his heart for almost 15 years. Now Spangler has discovered it because an X-ray was taken.

Today he remembered the incident when the bullet was fired.

"I almost jumped out of my chair," he told a friend. Spangler started having chest pains about four or five years ago. A recent series of tests by a heart specialist, Dr. Richard L. Rohde, confirmed that a slug was indeed lodged in Spangler's heart.

BULLET BOUNCES

Each time his heart beats the bullet bounces up and down two inches.

Since leaving the bullet in Spangler's heart could eventually cause the slug to enter his lungs or tear through the heart muscle and cause death, it must come out through surgery May 23.

"I dread having open heart surgery," Spangler said, "but by explaining everything to me with great confidence in themselves, the doctors have really helped me face up to it."

Spangler, a 30-year-old electronics worker, is married and has two children. His family has accepted the impending surgery

and is very optimistic, Spangler said.

Doctors give the operation a 98 per cent chance of success. Once the bullet is out, they say he should be completely recovered within six to eight weeks.

Today he remembered the incident when the bullet was fired.

It was Dec. 2, 1952, in Stillwell, Okla. Spangler, then 15, was squirrel hunting with a brother and two friends.

The youths' dogs treed two squirrels, Spangler said, so his friend started chopping down the tree. When Spangler went to get the rifle he had leaned against a rock, he picked it up by the barrel with his fingertips. The gun went off and a bullet tore into his collarbone.

NO BULLET FOUND

He was hospitalized for three days, but doctors could find no bullet and assumed it had ricocheted off the collarbone.

It ricocheted — right into his subclavian artery, and finally into the right ventricle of his heart.

Unaware of the danger, Spangler won four letters in high school playing baseball and basketball. He even played a full season with his company's softball team last year.

GI Problems Handled by Pentagon 'Mothers'

By JERRY T. BAULCH
Associated Press News Features

A couple of the Special Forces Green Beret fighters in Vietnam got to wondering whether their Pentagon "mother" would receive a letter if they merely addressed it to "Mrs. A., The Pentagon." So they tried it.

They figured, they wrote Mrs. Biliye Alexander, that "you are famous enough to be known by even the lowest postal clerk as each man where he asks if practical. And there are queries about other personal problems, such as schooling opportunities or family matters."

Their letter, asked nothing but giving thanks for past favors, went right to Mrs. Alexander, and no questions asked.

Mrs. Alexander is one of many Pentagon "mothers" who look into the problems of GIs around the world. Some probably should be called "fathers" since they are men. Each of the Army's many branches has a "mother" such as Mrs. Alexander. And the other services have similar setups.

Last year the Army "mothers" received over 105,000 letters a month. The problems posed are countless but mainly involve requests for preferred assignments (efforts are made to assign each man where he asks if practical). And there are queries about other personal problems, such as schooling opportunities or family matters.

BRAND NEW JOB

A pretty, brown-eyed blonde, Mrs. Alexander doesn't particularly care for the title of "mother" — because "so many of them are a lot older than I am." But she still habitually refers to them with sparkling eyes as "my boys."

It's a sort of mutual love affair.

"Sometimes one of them is passing through at 2 in the morning and calls me," she says. "I don't mind, but if anybody else telephoned me at that hour I'd probably chew his head off."

Her husband — a civilian in Army finance — doesn't object to her spending so much time with her "boys." Many have been guests at their home.

Mrs. Alexander talked one of her two sons, a University of Maryland student, into putting a Special Forces sticker on his car. Some Army men hailed him with "Hey, Special Forces, what outfit?"

"I'm not in Special Forces," the youth shouted back. "It's my mother."

"Oh, Mrs. Alexander," the soldiers said, as they drove off. The theme of helping the soldiers with their personal problems was set by the Army chief of staff, Gen. Harold K. Johnson, with the motto, "Putting Personal into Personnel." Also, he created the job of sergeant major of the Army.

Losses in Crops, Sales

Late Spring Maddens Millions

What happened to spring? The weather bureau promises that warm, gentle springlike weather will soon bless the United States. But in the meantime it has been a cold, wet, miserable season.

A United Press International nationwide survey released today shows that the unseasonable weather has maddened millions, cost farmers money and put thousands of people out of work. A handful of people benefitted.

Why the bad weather? A U.S. Weather Bureau spokesman in Washington put it this way:

In mid-April, two jet streams of the westerlies were predominated at their confluence by a cold thrust from Alaska and Canada which dominated and intensified the chilly spring toward the south.

LATE SPRING

In other words, spring will be late this year.

It boiled down to mothers going stir crazy with children unable to play outside, garden

supply shop operators staring glumly at piles of unsold merchandise, skies blotted out by rain clouds, and grumbling from the masses of sun worshippers forced to tan by bottle or bulb.

An estimated 400,000 construction workers, five times as many as in 1966, were out of work in Northern California because of rains that often lasted for two-week stretches.

Farmers reported losses totaling an estimated \$100 million, the Council of California Growers Association said.

CROP DAMAGE

The cold, wet weather delayed planting of various crops. Large scale damage was done in fruit producing areas, some of it from frost but most from rains that delayed pollination.

In many farm-oriented communities the losses would be hard felt. A Riverside, Calif., agricultural commission official said, "Every dollar lost in agriculture represents about \$4 (lost) in the economy."

The wet weather was not without its blessings.

The northeast section of the country, long suffering through a drought, saw that drought end. Update New York's largest farming activity, dairying, was helped by the rains which produced abundant grass and hay.

SKIING

Heavy snows in the Sierra Mountains promised skiing until June.

The long-lasting and heavy snowpack in the mountains where streams feeding the Columbia River in Washington originate, prompted fears by officials of the worst spring flooding—expected about mid-June—since 1948 along the Lower Columbia in the Portland-Vancouver, Wash., area.

The National Outerwear and Sportswear Association, which chronicles manufacturers' sales to retailers, said only 50 percent of the stores selling slacks and outerwear are showing gains this year, compared with 88 percent last year.

"Normally in California, summer clothes move just after Easter," said a San Francisco retailer. "It's been considerably slower this spring because of the rains and normal summer sportswear moved slowly until the past two weekends which now is hot summer weather."

NO MOVE WANTED—Vietnamese government representatives meet with resistance from a peasant woman who does not want to be moved from her village in the contested area below the demilitarized zone between Gio Linh and the South China Sea. A fortified barrier is being built in the area. Many peasants fought against the resettlement.

Deputy Resigns Bay County Post

BAY CITY (AP)—Bay County Sheriff's Deputy Billie R. Spencer, 21, has resigned after six months' service, citing as one of his reasons the "appointment of the sheriff's son-in-law to the department."

Spencer was the second man to resign from the department this week. Undersheriff Frank

Przybylski, a seven-year veteran, resigned earlier. Spencer said his resignation resulted from an accumulation of grievances which he said was topped off when Sheriff John W. Miller hired his son-in-law, Harvey La Rose. Spencer charged that La Rose, a man with no police experience, started giving orders immediately.

Life Is Anything but Dull in New United States City

(Last of a series)

By DICK KLEINER
Hollywood Correspondent

LAKE HAVASU CITY, Ariz.—(NEA)—When Mrs. Nicholas Ripa moved to Lake Havasu City, two years ago, she thought she was in for a dull life. Before she left West Springfield, Mass., she bought a set of oil paints. She has yet to open them.

Mrs. Ripa, the wife of a real estate salesman, has found life in this new city anything but dull. Lake Havasu City is coming into being with a bang. It has a pioneer spirit and Mrs. Ripa's days are full.

"The city is on the shores of a beautiful lake and virtually all of the 3,000 residents spend their nonworking hours on or near it.

The Ripa family has a boat. Mrs. Ripa is now an ardent fisherman and she's even learned how to fillet fish.

She studies ceramics and sand painting. She's active in the group working to bring a Catholic church here.

WORKED FOR SCHOOL

She's active in the group working to pass a bond issue for a new high school. Another group is promoting a hospital.

There are musical groups, led by a former Hollywood musician who is now a stock clerk in the supermarket.

There are dramatic groups and card-playing groups and the volunteer firemen.

There is no movie theater in town, but there is television from Phoenix and there is Crazy Ed's, a family saloon with a piano and at night people gather there and sing.

Mostly, though, it is the lake

which gives the city its raison d'être.

Eight kinds of fish live in the blue waters — "Havasu" is an Indian word meaning blue water — and there is plenty of room for everybody.

The lake stretches for 45 miles along the Colorado River, and most of it is coves and inlets inaccessible except by boat.

Gradually, Lake Havasu City is beginning to look like something.

ONE MISTAKE

The houses are all low — nothing can be built more than 13 feet tall, lest it deprive someone else of the view. The commercial structures now being put up are attractive, but the city's developers admit they made one mistake.

Some of the first commercial buildings — 15 or 20 of them — are not so attractive.

"We always insisted that all plans be subject to the approval of our architectural committee," says C. V. Wood Jr., Lake Havasu City's master planner.

"But at the beginning some people didn't build what had been approved. We realized our system had no teeth in it.

PLANNED DISNEYLAND

"Now the architectural committee is under the water committee. If they don't build what they say they're going to build, they get no water."

Wood is the man who planned Disneyland, and he says there isn't too much difference between planning an amusement park and a city.

"In Disneyland," he says, "we had to keep the people happy for five hours. Our problem here is to keep them happy for a lifetime; that's the only difference."

GOING TO EXPO '67?

The Michigan-Ontario route is direct, scenic:

MICHIGAN-ONTARIO ROUTE — For most midwesterners traveling to Expo 67 in Montreal, the Michigan-Ontario route is the most direct with excellent highways, accommodations, scenery and attractions adding pleasure to the trip. Free information can be obtained by writing "Michigan-Ontario Route" in care of the Michigan Tourist Council, Lansing, Mich., 48906, or the Ontario Department of Tourism and Information, Toronto, Ont., Canada.

Michigan-Ontario Direct, Scenic Route to Expo 67 Suggested

The State of Michigan and the Province of Ontario are inviting travelers to take the Michigan-Ontario route to Expo '67 in Montreal.

For most midwesterners, the Michigan-Ontario route is the most direct with excellent highways, accommodations, scenery and attractions adding comfort, safety and pleasure to the trip.

There are three Michigan-Ontario border crossings, at Sault Ste. Marie, Port Huron-Sarnia and Detroit-Windsor.

Passports and visas are not required, but travelers should have proof of birth, residence or naturalization. Currency exchange at the border is advisable, but not necessary.

The Michigan-Ontario route features many popular travel attractions, including the Soo Locks at Sault Ste. Marie; Detroit, the world's auto capital; Ottawa, capital of Canada; the Mackinac Bridge, the St. Lawrence Seaway, Niagara Falls and many thousands of miles of Great Lakes shoreline.

HISTORIC SITES

Both commonwealths have historic sites dating from the early 17th century and travelers can trace the routes of voyageurs and missionaries who were exploring the area before the landing of the Pilgrims.

Many thousands of lakes and thousands of miles of rivers and streams offer unsurpassed fishing and water sports.

Another Michigan-Ontario bonus is their cooler climate during the hot summer months.

Free information on attractions, activities, accommodations and border crossings can be obtained by writing "Michigan-Ontario Route" in care of the Michigan Tourist Council, Lansing, Michigan, 48906, or the Ontario Department of Tourism and Information, Toronto, Ontario, Canada.

Eleven per cent of all the automobiles in the United States are registered in California.

BOLENS HUSKY 1050

"fastest way out of your yard and into the fun"

No amateur when it comes to lawn, garden and yard care, Arnold Palmer wanted a quality machine to fill his needs — the Husky 1050 proved to be the ticket. Practical, economical, fun to operate, it gets those inevitable yard-care chores finished — quickly and efficiently. Gives you more time for happiness, sport and the joy of quiet relaxation.

The Husky performs equally well in all varieties of grass. For safe, efficient, convenient, dependable yard care... check these features: Rugged 10 hp Wisconsin Engine; Electric, key starting; Gearp driven transmission and controlled differential; Two Speed Ranges; PTO direct drive splined shaft with universal joint couplings; Parking brake; tool box, fenders, seat cushion and back rest. Call for your free test-ride demonstration.

'Please Get Well'

Wounded Marine Has Pals

DETROIT (AP)—How do you tell a young man whose legs have been shot up by mortar

fire that they are nearly useless that you hope he will be all right?

The kids said it simply, innocently. "Please get well. I know you got shot. I love you. My name is Kathy. Your friend is Kathy."

"When you get well, what Snoopy did when the Red Baron shot him down. FIGHT BACK! Brian."

Third graders at the Elmira School in St. Clair Shores wrote their letters to a 20-year-old Marine, Lorne Roedding, who

was wounded in Vietnam. They have never seen him.

DAD GOT SHOT

"Dear Lorne, 'I hope you don't get shot again. Once my dad got shot. Love, Irene.' Rebecca, who drew a picture of a little girl with tears dripping from her eyes, said: 'take your medicine.'"

Roedding worked as a stockboy in Nino's Market in nearby East Warren while he was a student at Finney High School in Detroit.

Carle Ugval, owner of the market, remembers: "He was a good boy."

His cousin, Mary Buccelato, a substitute teacher at Elmira, asked her class if they would like to help cheer up a wounded Marine.

They did.

Science for You

By BOB BROWN

PROBLEM:
A Water Jet Turbine.

NEEDED:
A milk carton, string, a jug and water.

DO THIS:
Punch holes in the carton as shown in the drawing. Hang it from a string, pour in water, and the carton begins to turn around as the water streams out.

HERE'S WHY:

As the water is pushed from the hole it pushes back on the carton. (See Newton's third law.) Since the holes are near the corners of the carton there is a torque which causes the carton to turn around. If the holes were in the lower center of each face of the carton, the water would still push on the carton but the turning torque would not exist.

Three books of these experiments by Bob Brown are available: Science Circus, Science Circus No. 2, and a paperback collection, by Cornerstone Library.

Foreign Drugs Save U.S. \$21 Million

WASHINGTON (UPI)—The Defense Department has saved \$21.2 million on seven drugs by rejecting what it termed "unreasonable" U.S. prices and buying from foreign manufacturers, it was learned today.

A Defense Supply Agency document showed the savings achieved on the seven drugs since 1959 by taking advantage of lower foreign prices.

The development came as federal auditors began looking into military drug-buying procedures to determine why the Pentagon doesn't buy still more European drugs.

An agency report last March said bids by U.S. drug makers were "considered unreasonable" when they sought to supply the military with tetracycline, chlor-tetracycline, sulfadiazine, meprobamate, melizone, oxytetracycline and nitrofurantoin.

So Pentagon buyers went abroad where "foreign manu-

factured drugs have been and continue to be of high quality."

"There have been 63 contracts awarded under foreign source items," the agency said.

"The total price of these

was approximately \$12.6 million as opposed to a total price offered by the lowest domestic firm of \$33.8 million.

"Of the 63 contracts, 26 were for antibiotic tetracycline tablets

and the total price was \$7,589,670.72."

If American-produced tablets had been purchased, the agency said, they would have cost \$9,974,656.13.

DRIVING TO CANADA

An Important Message to Our Policyholders

To avoid inconvenience, and possible impoundment of your car in case of an accident, you should carry an official (yellow) Non-Residence Insurance Card while driving in Canada. This card serves as proof that your insurance meets all the requirements of the Provinces of Canada. We issue these "yellow cards" to our clients. So enjoy your trip—but do call us several days before you leave.

Movies Are Nuder Than Ever

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — Movies are nuder than ever, and no one knows exactly where the trend will end.

Until five years ago, the major film companies did not even allow navel to be seen on the screen; harem dancers were decorously supplied with rhinestones.

All that has been changed.

THOMAS

The new film era of exposed skin was heralded a decade ago by Brigitte Bardot, whose coverings in and out of towels attracted the interest of audiences everywhere.

European film makers, notably the uninhibited Swedes, saw the value of stripping their stars. American producers, still wedded to the puritan tradition, held the line. The production code decreed: "Complete nudity in fact or in silhouette, is never permitted, nor shall there be any lewdness or notice by characters in the film of suggested nudity."

STRONG CHALLENGE

Three years ago this usage began facing a strong challenge. The cause celebre was "The Pawnbroker," which was certainly not a girly film. Bare-breasted women were shown as evidence of the depravity of a Nazi concentration camp.

The sponsors of "The Pawnbroker" would not remove the nude scenes, and the film received a condemned rating from the Catholic Legion of Decency, which has now been superseded by the National Catholic Office for Motion Pictures.

"The Pawnbroker" was at first denied, then granted a production code seal after certain revisions were made. The nudity remained. Such have been the changes in the code administration since then that "The Pawnbroker" would doubtless be passed without question today.

The makers of "Hawaii" were permitted to depict Polynesian maidens in the topless fashion they enjoyed before the missionaries came to the islands. John Huston was allowed certain liberties in portraying Adam and Eve in "The Bible." Most of the time they were filmed from the rear or face-on from the waist up, with Eve's long tresses covering most of her bosom.

"We have no yardstick on how we will deal with nudity," Valenti told me recently. "We can't say to the film makers, 'You are allowed to show one breast, or half a backside.' We will simply have to take up each case as it is presented and judge the scene on its taste and dramatic merit."

Drug Cost Quiz Could Be Long

By Science Service

WASHINGTON — A Senate investigation into the high cost of drugs has opened what could be a long probe into the powerful pharmaceutical industry and the sophistication of drug regulation.

The issue of comparative prices of costly brand name and cheaper generic version drugs will not be settled by the monopoly subcommittee under Sen. Gaylord Nelson, D-Wis., where hearings opened.

Sen. Nelson may offer legislation, but it will be one of several pieces. The most important will deal not with how drugs are prescribed or priced but with how they are judged and regulated.

The drug-pricing issue will also be considered by the Senate Finance Committee when it takes up the administration's Social Security bill later this year — possibly by mid-June.

At that time it is expected to hold hearings that would also cover legislation introduced by Sen. Joseph M. Montoya, D-N.M., to bring drugs under Medicare benefits.

Sen. Montoya's bill calls for generic prescribing and purchasing of drugs for Medicare patients when those drugs are of a proven high quality.

Similar legislation introduced by Senate Finance Committee Russell Long, D-La., requires low-cost generic prescribing of all drugs bought under Social Security programs.

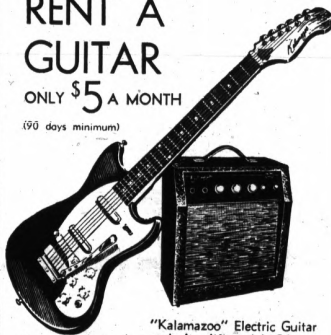

But both the Montoya and Long bill provide for a Formula Committee, headed by the commissioner of the Food and Drug Administration, to determine which specific drugs are of a "reasonable quality" and which are not, and whether a drug sold under its generic name is really as good as its branded cousin. And that's the rub.

For Friday
The "wisest man cannot see his destiny in the palm of his own hand."

ARIES (Mar. 21 - Apr. 19): Put ideas into action. You may have a lot of ideas, but you must act on them. You will find that what held back you... now is gone. You will find that you are now in a position to do this very profitable, because you have the ability to do so.

TAURUS (Apr. 20 - May 21): Be alert. Your imagination, creative ability, and ability to do things will be constructive change. Not necessary to do anything. You will find that you are in a position to do so.

GEMINI (May 22 - Jun. 21): Evening lovers social, romantic interlude. Personal life is a little more serious. Opposite sex is attracted. Desires can be fulfilled. Confident. Express love.

CANCER (Jun. 21 - July 21): Extend your life. You will find that you are in a position to do so. For social activity, reunion. Change your life. You will find that you are in a position to do so.

LEO (Jul. 22 - Aug. 23): Message today proves that you are in a position to do so.

VIRGO (Aug. 24 - Sep. 23): Necessary to do so. You will find that you are in a position to do so. Measure pulse of public. Obtain same from friends. You will find that you are in a position to do so. Measure pulse of public. Obtain same from friends. You will find that you are in a position to do so.

LIBRA (Sep. 24 - Oct. 23): Financial situation improves. You will find that you are in a position to do so. Measure pulse of public. Obtain same from friends. You will find that you are in a position to do so.

SCORPIO (Oct. 24 - Nov. 21): Cycle of change. You will find that you are in a position to do so. Measure pulse of public. Obtain same from friends. You will find that you are in a position to do so.

SAGITTARIUS (Nov. 22 - Dec. 21): You may revise some of your ambitions, but you will find that you are in a position to do so. Measure pulse of public. Obtain same from friends. You will find that you are in a position to do so.

CAPRICORN (Dec. 22 - Jan. 19): Light new contacts. Emphasize greater independence. Speak up. Right

BUS STOPPED—Demonstrators in Madison, Wis.—many of them University of Wisconsin students—block traffic yesterday in the University Ave. bus lane, which they protest is dangerous to pedestrians. Police arrested students who refused to move.

Why Is the Farm Bureau Opposed to State DST?

By A. F. MAHAN
LANSING (AP)—Lives there a farmer who never has bragged that he works from sunup to sundown or from can to can't?

So what difference would it make to members of the Michigan Farm Bureau—the No. 1 opponents—whether the state had Daylight Savings Time, Eastern Standard Time or just plain sun time?

A one-time youth who for one summer viewed the southern exposure of a northbound Georgia mule from between plow handles decided to ask. Rep. Stanley Powell, R-Ionia, was among those asked because for more than 25 years he was legislative counsel and director of public affairs for the Farm Bureau.

"There are many reasons," said Powell, who is a farmer as well as a legislator.

"We're already ahead of our time zone by an hour," he said. "We're really in the Central Time Zone, but some 20 years or more ago we advanced to Eastern Standard Time."

"The argument was made then that Michigan had many business contacts with the east and was an industrial state, so we should move up to eastern time. If we moved again, we would be on double-fast time."

Powell also explained that much field work must wait until the morning's dew is off. That applies especially, he said, to haying and the harvesting of grain crops such as wheat. It was his opinion, too, that social and community affairs would fall "in the most productive part" of a farmer's day, and he also doubted that hired hands would want to work an hour beyond what now is quitting time.

Study Will Follow Incorporation Vote in Farmington Twp.

FARMINGTON — A study of the future of the Farmington area has been put off until after an Oct. 23 incorporation vote in Farmington Township.

The Future Farmington Area Study Committee decided to "recess" after the Michigan State University Institute for Community Development and Services withdrew its offer to conduct the study.

MSU's withdrawal was reportedly prompted by the township's refusal to participate in the study at this time because it would "cloud" the incorporation vote.

"MSU got into this on the premise that it was to be a joint effort by all the communities," said Dr. John Richardson, chairman of the Future Farmington Area Study Committee. "They said in the beginning that they wanted to know they were welcome before they would undertake the study."

Dr. Richardson said, however, that MSU has indicated its willingness to consider completion of the study "if in the future, there is a feeling on the part of local leaders that the institute could be of service."

Huron Valley Board Fills 6 School Posts

MILFORD — Six administrative positions were filled by the Huron Valley Board of Education recently.

Frederick Forsythe, who has served as an intern principal with the district this year, was named principal of Johnson Elementary School.

Kenneth Jones, also an intern principal, was appointed principal of Highland Elementary.

Named to head the new Northwest Elementary when it is completed was Gerald McAdams, now an elementary principal in Albion and a former Huron Valley teacher.

Kenneth Gmelin, assistant principal at Highland Junior High was named principal there.

The new position of director of special education will be filled by Theodore Cuno, a diagnostician with the Birmingham schools this year and a former teacher in Grosse Pointe.

Julie Fajo, chairman of the elementary department at Kent State University's laboratory school, was named coordinator of special projects.

Wixom Principal Will Be Honored

WALLED LAKE — Miss Ethel Muggler, principal of Wixom Elementary School for the last nine years, will be honored at a tea from 1 to 3 p.m. tomorrow in the school library.

Miss Muggler has been made five-foot open ditch planned to run 40 feet from the "lake" to elementary school starting a next fall.

Wixom School parents are sponsoring the tea.

READY TO GO — Preparing to break ground for the new R. Grant Graham Elementary School in Bloomfield Township are (from left) Ray A. Isenhardt, Avondale Board of Education president; Thomas F. Galloway, board secretary; and R. Grant Graham, attorney. Expected to house 350 to 400 students, the school is hoped to be ready next March 1.

Troy Budget Approval to See Slight Tax Hike

TROY — The City Commission pay the money directly at city hall. This new charge was estimated at \$1.20 per \$1,000 which leaves the actual increase in taxes at just three cents for \$1,000. Two out of five commissioners (Vincent McAvoy and Wallace Hudson) opposed the refuse millage on the basis that industry would be paying a larger share than the average home owner.

Burglary at Gunpoint

Pair Recounts Terror

WASHINGTON TOWNSHIP — The appearance of their 100-year-old farm home speaks of past affluence had never entered the minds of Dan Gruich and his 77-year-old mother, Smilya.

Set apart from its neighbors at 3803 28 Mile Road, the octagonal shaped house was the target Tuesday night of three young hoodlums who terrorized its occupants at gunpoint for two hours in a search for "\$40,000 to \$50,000 you've got hidden here."

All the thugs got was \$140 from a small safe in Gruich's bedroom. These funds had been earmarked to pay hospital expenses for his father, Karlton, who was due to be released from the hospital today. A small amount of change also was taken from the mother's bedroom.

"\$40,000 to \$50,000 here," snorted Smilya in her Yugoslavian accent. "What for we got bank?" she asked.

Thriftily and industrious farmers, the Gruichs have lived in the small cluster of older houses which surrounds Mount Vernon Cemetery since 1944.

SHOCKED That they should be subjected to the ordeal of burglary and gunpoint terror was still a matter of shocked disbelief yesterday.

Gruich, 54, recounted how the two had retired for the night when they suddenly heard a loud bang from the front of the house.

"What's that?" Smilya said she called.

"Keep quiet, lady. Where's your son?" was the answer she said she got.

MASKED TRIO Three young men, masked from nose to chin operating in the shadowy light of flashlights — one of them armed with a "large revolver" — entered Gruich's bedroom.

"Where's the money?" they asked the astounded Gruich.

While one reportedly held the revolver to his head, Gruich was forced out of bed to the small safe which he opened.

Still not satisfied, according to the Gruichs, the three placed one on guard while the other two ransacked the house, cutting up the cushions of overstuffed chairs, tearing beds apart, emptying the contents of drawers on the floor.

Under constant threat from

Latest Petitions May Doom Village of Wolverine Lake

By JANICE KLOUSER

WOLVERINE LAKE — The village could someday cease to exist if the latest petitions seeking annexation of a portion of the village to Walled Lake are successful.

The petitions, filed yesterday, seek to annex the entire west and north portions of the village.

Two other petitions filed

previously seek annexation for the east and the south sides of the village.

Combined, the three petitions take in the entire village.

More than 120 persons signed the latest petitions which were turned into the county clerk's office yesterday, according to Walled Lake City Manager Royce Downey.

The three petitions, along with petitions seeking annexation of a portion of Commerce Township to Walled Lake, will be taken up by the boundaries committee of the Oakland County Board of Supervisors next month.

Village Attorney Gene Schnetz said he doesn't know whether the separately filed petitions would require separate votes or whether they could be combined.

"It may be within the realm of the board of supervisors, because these represent a specific area, to combine them for one vote," he said.

If the village and the portion of Commerce Township involved were to be annexed to the city, it would more than quadruple it in size — from its present 3.2 square miles to 13 1/2 square miles.

"WAY IT SHOULD BE" "This is correct and the way it should be," Downey said.

He said petitioners told him they feel it is economically wise to join with the city of Walled Lake because their post office and school district are in Walled Lake and there are many duplicated services.

The 2.7-square-mile village, made up primarily of residential homes, a few multiple dwellings and a few commercial business, has a population of about 3,500.

Deer Lake Area to Be Fenced

INDEPENDENCE TOWNSHIP early next month. The township plans to issue car stickers to the beach and boat launching or other identification for residents. A small fee is to be charged.

In other business: the township has changed its next meeting date from June 6 to May 23.

DECISIONS

• Library hours were set: noon to 8 p.m., weekdays except Wednesday (closed), and 10 a.m. to 6 p.m. Saturday.

• Two planners were reapointed to three-year terms: Harold Bauer and Floyd Vincent.

• A fee of \$25 was set for lot splitting.

• A street light assessment district was established in a portion of Clarkston Estates subdivision at a cost of \$504.

Library Officers

TROY — Graham Neilson of 1949 Keywest has been elected president of the Board of Library Trustees.

Other new officers are Robert Bevier of 72 Booth, vice president; Mrs. Calvin Blankenship of 2165 Chaucery, secretary; and Mrs. Stanislaw Uniechowski and Leo Hinch, trustees.

Maytime Salads Are Varied and Crisp

CREAMY BEAN CARRY-ALONG SALAD

When you want a hearty salad to take to a picnic, pick this Creamy Bean Carry-Along Salad.

It takes a little advance planning because it's made with dried beans you have to soak before cooking and then marinate. But it's well worth the trouble, as the salad is so flavorful and satisfying.

1 package (1 lb.) dried white northern beans
1 cup oil and vinegar dressing
1 cup dairy sour cream
1 teaspoon salt
1/4 teaspoon garlic powder
1 cup diced cooked ham
1/2 cup chopped onion
1/2 cup chopped green pepper
1/4 cup chopped pimiento
1/4 cup chopped dill pickle
Lettuce
Ham, cut in julienne strips
Cheddar cheese, cut in julienne strips
Swiss cheese, cut in julienne strips

Measure 2 1/2 cups cold water for each cup of beans; pour measured amount of water over washed beans in a large saucepan and allow to soak overnight, OR use quick cooking method.

Quick cooking method: Bring measured amount of water to a boil; add 1 teaspoon salt for each cup of beans. Add washed beans to boiling water; return to a boil and boil 2 minutes only. Cover; remove from heat and allow to stand for 1 hour. (This method equals 12 to 15 hours soaking in cold water.)

Cook beans: Cover pot, bring to a boil, reduce heat and simmer 1 1/2 hours. (Use the same water as for soaking to preserve vitamins and minerals.)

Marinate beans in dressing several hours or overnight, stirring occasionally to coat all beans with dressing; drain.

In a large bowl combine sour cream, salt and garlic powder; add ham, onion, green pepper, pimiento, dill pickle and beans; toss lightly. Cover and chill to blend flavors.

Line a salad bowl with lettuce; add bean mixture. Top with ham and cheese strips. Yield: 8 cups.

CAESAR SALAD

An elusive aroma of garlic drifts teasingly over some of the smartest dinner tables in town.

Not only is garlic socially acceptable—as once it was not—but dehydrated garlic products on the spice shelf are the mark of the sophisticated cook, one who's had the excitement of tasting famous international dishes as they are seasoned in their own country.

In summer, people use more on green salads and barbecued meats.

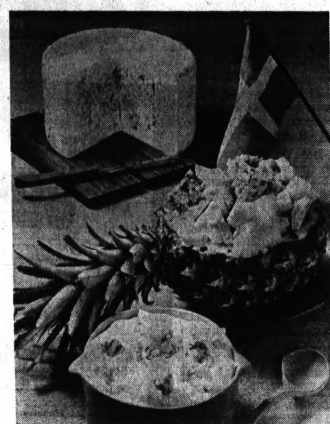

1 1/2 cups firm textured bread cubes
2 tablespoons salad or olive oil
1/2 cup salad or olive oil
2 tablespoons lemon juice
1 tablespoon cider vinegar
1/2 teaspoon instant minced garlic
1/2 teaspoon garlic salt
1/4 teaspoon coarsely ground black pepper
1 large head Romaine lettuce
1 egg, beaten
6 anchovy fillets, chopped
1/2 cup grated Parmesan cheese

Saute bread cubes in the 2 tablespoons oil until golden; drain and reserve.

In jar combine the 1/2 cup oil, lemon juice, vinegar, minced garlic, garlic salt and black pepper. Shake well.

In salad bowl break Romaine lettuce into bite size pieces. Pour salad dressing and raw egg over lettuce; toss thoroughly until well combined.

Add anchovy fillets, cheese and bread cubes. Toss well.

DANISH CHICKEN PINEAPPLE SALAD

Pineapples are at their most plentiful in May and June, so buy several. Cut them in half, scoop out the juicy fruit, and mix it with chicken, fresh green celery, and the Danish Blue that goes so well with fruit and poultry.

Pile the salad back in the pineapple shells and there you are — all set for lunch or supper.

2 small pineapples
4 cups cooked diced chicken
1/2 cup celery, chopped
1/2 cup silvered toasted almonds, optional
1 cup (4-oz.) Danish Blue Cheese, cubed

Cut pineapples in halves, leaving fronds intact. Scoop out meat of pineapple, leaving 1/2-inch shell. Remove core and dice pineapple into cubes. Combine chicken, celery, almonds and cheese.

Pour on Blue Cheese dressing and toss well. Divide between pineapple shells. Makes 4 servings.

DANISH BLUE CHEESE DRESSING

1/4 cup (1-oz.) Danish Blue Cheese, crumbled
1/2 cup mayonnaise
1 tablespoon heavy cream
1/4 teaspoon pepper

Blend half the Danish Blue Cheese with the mayonnaise and remaining ingredients. Pour over Danish Chicken Pineapple Salad.

FRESH APPLE-FRUIT SALAD BOWL

In markets now, the Red Delicious, Golden Delicious, and Winesap apples are available. Thanks to CA Storage, these tree-crisp apples have retained their harvest-time flavor.

This combination of fresh apple flavor with pineapple, grapes and marshmallows becomes a family favorite with its Honey-Celery Dressing.

1 No. 211 can pineapple chunks, drained
1 1/2 cups seedless or Tokay grapes, seeded and halved
3 apples, peeled cored and diced
1/2 cup miniature marshmallows (about 30)
Dressing
6-8 lettuce leaves, crisped in large bowl

Mix pineapple chunks and grapes. Peel, core, and dice 2 apples into fruit mixture; mix well to cover apples with moisture. Peel, core, and dice half of the remaining apples, reserving unpeeled half for slicing later as garnish.

Toss fruit with half of the dressing and let stand for about one hour to blend flavors. Line salad bowl with crisp lettuce leaves; fill with salad.

Slice remaining apple half, dip in lemon'd water to preserve color and garnish salad. Pass remaining dressing.

Note: Half of a 12-oz. package of frozen blueberries may be added to fruit mixture.

*Preferred Variety: Red or Golden Delicious

HONEY-CELERY DRESSING:
1/2 cup mayonnaise
4 tablespoons honey
Juice of 1/2 lemon
1/2 teaspoon celery seed
Blend all ingredients and let stand to blend flavors.

Sweet Pineapple Layer Is Center Section of Cookie Bar

Almond-crusted "Sugar Pineapple Bars" are delicious with milk, coffee or tea for a late afternoon or evening snack. Sliced almonds go into the buttery topping for these fruit and nut treats. Made with rolled oats and crushed pineapple, they're sweet and toothsome.

Sugar Pineapple Bars
1 can (8 1/2 oz.) crushed pineapple
1/4 cup granulated sugar
1 cup sifted flour

Bread Circles Hold Filling of Spicy Ham

These Devilish Ham "Blintzes" may be a far cry from the traditional crisp, thin pancakes which enfold jam or cream cheese, but there is no denying that the traditional blintz inspired this luscious variation.

To create 4 servings, cut 3-inch circles from 24 slices of enriched bread with a cookie cutter. Brush the outside rims of all the circles with milk.

Place 1 tablespoon of deviled ham and 1/4 teaspoon chopped green pepper on 12 of the circles. Top each with a plain circle, keeping "milk" edges together. Press gently around each outside rim to hold filling in the center.

Brush both sides of the "blintzes" with melted butter and place on a greased cookie sheet. Toast in a hot oven (400 degrees) for 10 minutes, or until golden brown.

Serve with a mushroom sauce made by heating together a 10%-ounce can condensed cream of mushroom soup and 1/2 cup water.

Slow It Down

Never allow dough to rise at too high a temperature when making yeast bread. Dough that is allowed to rise too fast will make a bread with a distinct yeast flavor.

The lettuce industry is a relatively new comer. It has only been since 1920 that lettuce has become one of the most important vegetable crops in the United States. Most of the crop is iceberg type head lettuce.

About 84 per cent of all U.S. lettuce is grown in California and Arizona. Now "level-pack" methods bring us heads which are springier, in prime condition, even after traveling to distant markets all over the country.

While the lettuce consumption in the United States has doubled in the last 40 years, it can't surprise us to hear that Californians lead all other states as lettuce eaters.

Four other types of lettuce help fill the American salad bowl. In second place is butterhead or "Boston" lettuce. This is a soft head, with leaves almost butter-smooth and delicate. Bibb lettuce, darling of the gourmet salad taster, is a junior size butterhead with just a bit of chicory taste.

Cos or Romaine is a long head with stiff leaves which are sweet and of appetizing crispness. Cos was a favorite in Europe long before it was generally known in our country.

Leaf lettuce is a loose, non-heading lettuce, easiest to grow in home gardens until hot weather turns it bitter.

Lettuce is so low in calories it can be eaten freely on a low-calorie diet — but weight watchers should use only the stingiest bit of dressing. It provides desirable roughage and a useful amount of vitamin A, iron and other vitamins and minerals.

Hearty 'Burg Dogs' for Boys' Appetites

Boys, big or little, can work up ferocious appetites in the spring. There is so much for them to do — a tree house to build, baseball games to play, trout to fish, and marbles to win.

When your little marble champ comes home hungry, looking for something to eat, serve him these highly original Burg Dogs.

Although they resemble frankfurters, they're really a mixture of ground beef, bread crumbs, and brown gravy mix blended with a beaten egg and shaped into "frank" form around a carrot stick.

After browning in a skillet, they are put into frankfurter buns and spread with tangy prepared yellow mustard — here's a real boy's dish.

DESSERT
A spicy applesauce cake with marbled frosting makes a highly appropriate dessert. This one stays fresh and moist because it's made with packaged instant potato granules.

Burg Dogs
1 envelope (¾ oz.) brown gravy mix
3 tablespoons fine dry bread crumbs
2 tablespoons water
1 tablespoon prepared yellow mustard
1 egg
1 lb. ground beef
2 cooked carrots, cut lengthwise into quarters
1 tablespoon shortening
8 frankfurter buns
Blend together the dry gravy mix, crumbs, water, and mustard; mix until smooth. Add egg; beat well. Blend in ground beef mix thoroughly.

Divide meat mixture into

Fruit Basting Good on Ham

This method of preparation makes pork butt particularly inviting.

Golden Smoked Butt
Smoked boneless pork shoulder butt (3 pounds or more)
1 cup orange juice
Whole cloves
½ cup apricot preserves, heated and strained
Remove wrapping and stocknet cover from butt; place in a 13 by 9 by 2 inch or similar pan. Pour orange juice over butt; cover pan tightly (with foil if necessary).

Bake in a slow (325 degrees) oven, turning butt midway, for 1½ hours. Remove butt and pour off and save liquid. Insert cloves at 1-inch intervals in butt. Replace butt (on foil, if you like) in pan.

Spoon strained apricot preserves over butt. Replace in 325-degree oven for 30 to 45 minutes. (Chill saved pan liquid, remove fat and use in sauce for slices of leftover butt.)

MEAT COOKERY Quiz
Q. What is the name of these cuts of meat?
A. Lamb loin chops.

Q. Where do they come from? How are they identified?
A. They come from the loin section of lamb. The large muscle is identified as the "eye" muscle. It's separated from the smaller muscle (tenderloin) by a T-shaped bone. These lamb chops show the new look which means they have had the "tail" or flank portion removed.

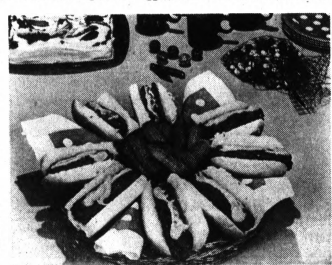

Q. How are they prepared?
A. By broiling, panbroiling or pan-frying. When the lamb chops are 1 to 2 inches thick, place them on a rack of the broiler pan, 2 to 5 inches from the heat. Total cooking time for these chops will be 12 to 22 minutes, depending on the thickness. If they're going to be panbroiled, use a heavy frying-pan or griddle. Do not add fat. Do not add water. Do not cover. Cook the chops slowly, turning occasionally, pouring off fat as it accumulates. If the fat accumulates, it will pan-fry the chops rather than panbroil them.

eight portions. With a fork spread each of these portions into a 4- or 5-inch square. Wrap meat square around a carrot stick; seal ends and fold to resemble a frankfurter.

In a skillet, brown meat on all sides in hot shortening until well browned. Serve "franks" between split buttered buns.

Add a pickle and yellow mustard for garnish. Makes 8 sandwiches.

Spicy Applesauce Cake
¼ cup instant mashed potato granules
¼ cup hot water
½ cup butter or margarine
1 cup sugar
2 eggs
1½ cups sifted all-purpose flour
1 teaspoon salt
1 teaspoon baking soda
2 teaspoons cinnamon
½ teaspoon cloves
1 cup thick applesauce
½ cup walnuts, chopped
In a mixing bowl, combine potato granules and hot water, mixing well. Blend in butter and sugar. Add eggs, butter into melted chocolate.

BURG DOGS — Playing marbles to win works up a big appetite. When your marble champ comes home hungry, set down a platter of Burg Dogs. Made of ground beef, bread crumbs and brown gravy mix, blended with a beaten egg, the mixture is shaped into "frank" form around a carrot stick and then cooked.

Pound Cake Is Base for Fine Dessert

Many years ago, pound cakes were as popular as they are today. In fact, they used to be sold whole or sliced right on London Bridge. Today, modern homemakers can purchase pound cakes right at their neighborhood grocers.

Pound cake desserts can very well save the day for you... especially a day like Monday after a big weekend when your husband calls and tells you the district manager is in town and he's invited him to dinner.

Your husband's confidence in your ability to produce a "winning dinner" at short notice is something you just have to live up to and here's something that will help you.

Start with a ready-to-serve golden loaf pound cake and create a company dessert like London Bridge that will be a fitting climax for your dinner.

London Bridge Cake
1 loaf golden pound cake
½ pint heavy cream, whipped
1 cup canned crushed pineapple, drained
½ cup chopped walnuts

Slice cake horizontally into 3 layers. Whip heavy cream until stiff, and mix with crushed pineapple. Spread whipped cream mixture on the cake layers—covering the top and sides. Sprinkle cake with chopped walnuts.

Place in refrigerator for several hours and slice just before serving. Yield: 6 servings.

Add Pineapple

Pineapple pancakes give a sunny look to breakfast.

From your favorite mix, prepare batter to make 12 to 14 (4-inch) pancakes; add ½ cup of ¼ teaspoon of ground ginger. Drain crushed canned pineapple to batter before baking the pancakes. Serve with butter and syrup. Makes 4 servings.

Mace, Ginger Spice Topping

Spicy butter frosting uses both mace and ginger. Cream ¼ cup of softened butter or margarine. Add 2½ cups of sifted confectioners' sugar, alternating addition of sugar with 2 tablespoons of undiluted evaporated milk and 1 egg yolk; start and end mixing with sugar. Blend in ½ teaspoon of ground mace and ½ teaspoon of ground ginger. Makes enough frosting for tops and sides of 2 (8-or-9-inch) cake layers.

Bake Chicken Breasts With Jelly Sauce

There is plenty of chicken available for every pot these days according to the U.S. Department of Agriculture's recent reports on poultry.

Chicken has never been more plentiful — our supply is at an all time high — and the government says we have 430,000,000 pounds in storage holdings this year as compared to 285,376,000 pounds in 1966.

The secret of this recipe is in the sauce.

CHICKEN PIQUANT

Combine and bring to a boil:
2 jars currant jelly
1 large glass water
2 tablespoons Worcestershire sauce
4 tablespoons lemon juice
2 tablespoons cornstarch
3 teaspoons allspice

Arrange 12 chicken breasts in an uncovered roasting pan and pour the sauce over them. Bake at 450 degrees for 15 minutes. Reduce oven to 375 degrees and bake one hour. Baste frequently.

Place chicken on platter. Serve sauce separately.

CHICKEN TARRAGON

Cut a roasting chicken into serving pieces and season with salt, pepper and garlic salt. Heat 3 tablespoons butter in pans.

heavy saucepan. Brown chicken slowly. Remove.

Saute 1 cup sliced mushrooms for 4 minutes (add more butter if necessary). Remove.

Put back chicken, sprinkle with 3 tablespoons tarragon, add mushrooms and 1 cup chicken bouillon. Cover and simmer 1 hour.

If you have a freezer, you may save time and money by making double the recipe.

After the chicken has simmered 30 minutes, remove half of all ingredients to a casserole. Cool, cover with freezer wrap and freeze.

On serving day, remove freezer wrap and heat in 350 degree oven for 1½ hours.

Heating Leftovers

To save time when warming up small portions of left-over up small portions of left-over foods, line a large baking dish into sections by using aluminum foil. Place leftovers into each section to warm. Everything serving pieces and season with salt, pepper and garlic salt. Heat 3 tablespoons butter in pans.

LONDON BRIDGE CAKE — Dessert can be prepared in a jiffy when you start with ready-to-serve golden pound cake. Simple

ingredients out of your cupboard can be your "magic wand" to create this cake in a matter of minutes.

Chopped Fresh Lettuce Is Surprise Ingredient

On one of these bright and delightful May days, invite a few friends over for a light luncheon — it's sure to keep everyone guessing until you reveal your secret.

Lettuce Loaf Bread

1 head western iceberg lettuce
1½ cups sifted all-purpose flour
2 teaspoons baking powder
½ teaspoon baking soda
½ teaspoon salt
¼ teaspoon ground mace
¼ teaspoon ground ginger
1 cup sugar
½ cup corn oil
1½ teaspoons grated lemon rind
2 eggs
½ cup chopped walnuts

Core, rinse and drain lettuce; chill until crisp in disposable plastic bag. Finely chop enough to measure 1 cup; chill remainder for use in salads.

Sift flour with baking powder, soda, salt and spices. Combine sugar, oil and lemon rind; mix in flour combination and chopped lettuce. Add eggs, one at a time, beating well after each addition. Stir in walnuts. Turn into greased and floured 8½ x 4½ x 2½-inch glass loaf pan. Bake at 350 degrees for 35 minutes or until pick inserted in center comes out dry.

Cool in pan 15 minutes then invert and cool on wire rack. Sprinkle with powdered sugar.

Or serve it with cheese as a tea-time or evening snack. Makes 1 loaf of this moist What a conversation-maker this specialty bread.

Survey Probes Wife's Value

NEW YORK (AP) — What is a wife worth?

"She is priceless," many a happily married man might respond.

A survey released Tuesday, attempts to be a bit more exact. If your wife is an average American housewife she is worth \$8,300 a year, based on a wage survey of 12 occupational roles she fulfills.

An awesome thing for her to keep in mind when she asks for a new fur coat.

WORTH MORE

However, if her husband is an ambassador she is worth more — not because she works longer hours or fulfills more roles, but because the extra job she does assume pays more.

These conclusions are drawn in an article appearing in the first edition of *Envoy*, a new monthly magazine published in New York for the diplomatic and consular community.

Envoy enlisted the aid of Metropolitan Life Insurance Co., economists, the Chase Manhattan Bank, and the Restaurant & Hotelmen's Agency to compile a table of hours worked in different tasks and wages which would be paid for these tasks.

The average American housewife served 44.5 hours a week as a nursemaid, 13.1 hours a week as a cook, 17.5 hours as a housekeeper and lesser periods as a dietitian, food buyer, dishwasher, laundress, seamstress, practical nurse, maintenance man, gardener and chauffeur, the study said.

Her highest salaried roles are dietitian, seamstress and-and-cook at \$2.50 an hour each. But she

works only 15.6 hours a week at these tasks. Her major role is nursemaid, 44.5 hours out of a 99.6-hour work week, pays only \$1.25 an hour.

The survey concluded that a housewife does not serve as a compensable hostess.

Turning to the ambassador's wife, the survey deleted the roles of dishwasher, laundress, seamstress, maintenance man, gardener and chauffeur—on the theory the ambassador's wife would have domestic help. It was assumed she would do a substantial amount of entertaining—rated at 12 hours a week at \$3.57 an hour for a hostess.

The survey concluded that the ambassador's wife worked only 22.2 hours a week, but earned \$7,700 a year, thanks largely to her hostess role.

The least-valued woman in the survey was the diplomatic attaché's wife. Assigned a hostess salary of only \$2.15 an hour and deprived of the payrolls of dishwasher, laundress and seamstress, she would earn only \$3,000 a year for 94.5 hours a week.

The survey noted that education, common sense, and discretion were among the less financially measurable, but vital attributes of any wife.

Students Win on Demand

WARREN (AP) — Macomb County Community College students' demands for a bigger student union building have been met — at least temporarily.

The college's board of trustees voted Tuesday night to purchase six portable buildings to be used as a student union starting next fall.

Board chairman Kenneth Sanborn said the portable units would be used until space could be found on a temporary basis in an existing building. Eventually, he said, a building will be constructed specifically for a student union.

AP Wirephoto

COMMEMORATIVE FLIGHT — Mrs. Ann Pellegrino, 30, and Leo Koepke, the pilot and mechanic, respectively, for the "Earhart Commemorative Flight" examine an adjustment to one of the propellers of their twin-engine 1937 Lockheed Model 10 airplane. Mrs. Pellegrino, Koepke and the navigator William Polhemus plan to leave about June 8 to trace Amelia Earhart's attempted 27,000 mile trip around the world. Mrs. Pellegrino is seeking funds to pay for an \$11,000 insurance premium and about \$10,000 to pay for the fuel on their trip. The total cost of the trip is estimated at \$40,000.

Saline Aviatrix to Retrace Amelia Earhart's Air Route

YPSILANTI (AP) — A former schoolteacher from nearby Saline who plans to retrace the dangerous around-the-world air route attempted by Amelia Earhart 30 years ago is running into problems Miss Earhart never dreamed of.

Her biggest headache, says slim, blonde Mrs. Ann Pellegrino, is an insurance premium of \$11,000 which she has decided to pay to Lloyd's of London.

But the 30-year-old housewife says she won't even consider calling off the flight, scheduled to start from San Francisco around June 8 in a twin-engine 1937 Lockheed Model 10 Electra.

And she says that somehow or other she's going to scrape up the money to buy \$90,000 worth of insurance to cover the plane and other equipment and \$450,000 of life and health insurance for herself and her two male companions.

"So much has been done already," she said. "To cancel it now would be letting down so many people who have helped and I'm not one to do this."

Mrs. Pellegrino's husband, Don, has a pilot's license, but he isn't going with his wife.

"We wanted to keep it as close to Amelia Earhart's flight as possible," explained Mr. Pellegrino, "and she didn't take her husband."

"Besides," she added, "my husband took one look at the plane and said he wouldn't be caught dead in it."

AIR ODYSSEY

Mrs. Pellegrino, a flight instructor at Ann Arbor Municipal Airport with eight years' flying experience, will be accompanied on her airborne odyssey by a navigator and a skilled mechanic and co-pilot.

The total cost of the 27,000-mile trip will be about \$40,000, including the insurance premium, Mrs. Pellegrino estimates.

It's being financed through contributions and the sale of "flight covers," or special envelopes with stamps from various places visited by the trio on their voyage.

Five thousand sets of flight covers are being issued, Mrs. Pellegrino says, and 500 have been sold at \$5 each.

Now if only 11,000 people would send us \$1, we'd make it," she added earnestly.

The aviatrix and her companions hope to traverse the distance from Lae, New Guinea, to Howland Island in the Pacific Ocean — where Miss Earhart and her navigator disappeared in 1937 — by around July 1.

Miss Earhart disappeared shortly after radiating that she had 30 minutes of fuel remaining and was looking for Howland Island.

Mrs. Pellegrino says she'll be carrying less fuel than Miss Earhart. Modern techniques and high performance engines

will enable her to fly further on less fuel, she said.

LONGEST LEG

The flight's longest leg from New Guinea, passing over Howland, to Canton Island, is 2,600 miles. Mrs. Pellegrino figures she'll be able to make that with 862 gallons of fuel. The 10 tanks installed on the antique plane hold a maximum of 1,100 gallons.

The round-the-world flight should take about 10,000 gallons of gasoline, according to William Polhemus, the radio executive who will navigate for Mrs. Pellegrino.

Lee Koepke, the 40-year-old co-pilot and mechanic, is the owner of the antique craft. The Lockheed's 15th owner, he recently rebuilt the bottom of its fuselage and its two engines.

As far as Mrs. Pellegrino is concerned, there's absolutely no risk to her upcoming ventures.

"The Federal Aviation Agency examined the plane," she said, "and the engines were running like sewing machines."

That meant they were running quietly and smoothly, she explained.

U.S. Patent Is Awarded for Computer Speedup

By Science Service
WASHINGTON — IBM Corp. was finally granted a patent this week for a widely used invention that speeds up computer

operation. The patent was originally applied for in 1956.
The invention, called a "program interrupt feature," allows data to be fed into a computer memory at the same time that the calculating part of the machine is working on other data.

Earlier, machines had to stop working while data was fed into the memory. Sometimes considerable delays were necessary, all of which were serious since computer time costs hundreds of dollars an hour.

The patent, No. 3,319,230, was part of a data processing machine invented by Morton M. Astrahan, Bennett H. Ousman, Harold L. Kurjian and Bernard L. Saraban.

Diesel-electric locomotives can haul only a limited number of cars because their electric motors tend to overheat. The problem has increased in recent years because new materials on wheels allow engines to push harder without slipping on the tracks.

A new invention using liquid nitrogen or liquid air to cool the motors under stress was granted patent No. 3,319,072 recently. Inventors Ralph T. Maynard and Clarence J. Schilling assigned the patent to Air Products and Chemicals, Inc.

AP Wirephoto

HITCHHIKES 10,000 MILES TO SEE SON — Retired Army Capt. Walter Voelker, 42, (right) took 10 days to complete a 10,000-mile hitchhiking trip to visit his son in Vietnam. Because of his retired Army status, the Columbus man hitchhiked rides on military airplanes. Voelker mailed home this photograph of he and his son, Walter Jr., 18, an Army helicopter gunner. It was taken at Than Son Nhut.

U.N. Doctors Seek More 'Pot' Controls

By Science Service
GENEVA — While its defenders insist marijuana is harmless, United Nations doctors fight for more control over the traffic in "pot," "tea," "hashish," or "kif," as it may be called.

One first step is to learn just what it is. Experiments on its effects around the world are not comparable because there is no standard "pot." Its active principles vary widely.

Made from the female cannabis plant that grows wild as well as under cultivation in many parts of the globe, marijuana is, according to the U.N. Narcotics Commission here, the most widely abused natural "mind-expanding" drug.

The Commission is attempting to develop an international standard against which all marijuana can be measured for potency. Samples have been collected from around the world and study by thin layer chromatography and ultraviolet and infrared spectroscopy at the Commission's laboratory to work out a standard reference sample.

This will allow experimenters everywhere to collate their findings with those of their colleagues in different countries. Both human and animal experimentation is now going forward, with particular interest reported from Greece.

Electricity Eyed to Save Tower

By Science Service
ITHACA, N.Y. — Electricity may be the tool used to straighten out Italy's Leaning Tower of Pisa.

A current passing between iron electrodes planted in the ground on the side away from the tilt could draw the water out of the soil beneath the tower's high side, letting that side settle as the soil compressed, says Melvin I. Esrig, associate professor of civil engineers at Cornell University here.

The process has been used successfully in Mexico City to straighten out buildings up to 22 stories high that had been tilted by an earthquake.

Next month an international competition will open for proposals of ways to save the 179-foot Tower of Pisa, which now leans 14 feet 10 inches from the perpendicular. Estimates of how long it can remain standing without help range from 80 to 200 years.

For Centennial

Nebraska to Reopen Canteen

NORTH PLATTE, Neb. (AP)—The North Platte Canteen which piled six million American servicemen and women with free food, coffee, magazines and cigarettes during World War II will reopen May 26 as part of Nebraska's centennial celebration.

The canteen, operated by volunteers, opened 10 days after Pearl Harbor by accident.

Residents flocked to the Union Pacific depot with gifts when they heard that a Nebraska National Guard company would pass through en route to the Pacific Coast. When they arrived they found that the troop train carried boys from neighboring Kansas. They handed out their gifts anyway and kept right on handing them out.

In the first month the canteen volunteers served 22,750 men. It closed April 1, 1946.

In Primitive Uganda District

They 'Rustle Up' Girls

KAMPALA, Uganda (AP)—In the barren Karamojong district of northern Uganda, the price of a girl is 75 cows. There has been a long drought and cattle are scarce, so the men of the Karamojong tribe have taken to raiding neighbors' herds to get together the cows they need to buy a wife.

The raids have created a major security problem for Uganda's president, Milton Obote. More than 1,000 police and special security forces equipped with helicopters are trying to maintain order in Karamojong and stop the bloody feuds over cattle between rival clans of the Karamojong and with neighboring tribes in Kenya and Sudan.

Karamojong was never brought fully under control during the period of British rule, ending in 1962. The desolate area, 300 miles northeast of Kampala, covers more than 10,000 square miles but has only 130,000 inhabitants. They are a withdrawn, nomadic people who resisted the civilizing efforts of missionaries and the British administration for decades.

SPECIAL PRIDE

To this day, the men of the Karamojong take a special pride in wearing absolutely no clothes, not even a loin cloth. The women wear a small leather patch.

By tradition, a boy has to prove his manhood by killing a lion, a leopard, elephant—or an enemy. The enemy usually is the easiest to get. But the killer's relatives have to pay "blood money" by surrendering one of their girls—or the equivalent in cows—to the victim's family.

Modern Uganda politicians tend to blame the British for having allowed the tribe to retain such customs.

Romney Raps U.S. Exhibit

LANSING (AP)—Gov. George Romney said yesterday he was "bitterly disappointed" by the United States exhibit at Montreal's Expo '67.

"It was pretty on the outside," he said, "but full of trivia on the inside."

Romney toured the exposition Monday.

"It was full of such things as American Indian headdresses, branding irons and old campaign posters," he said. "When you go through it on the mini-train, all you see is blowup pictures of Hollywood actors and actresses. I was bitterly disappointed."

LIKE 'GREAT SOCIETY' "It was something like our 'Great Society,'" Romney said in a dig at the Johnson Administration. "It is like a beautiful movie set, but when you walk behind it, there is nothing there."

About the only thing in the U.S. display with any interest and meaning, he said, was the space ship display.

The theme of the event, Romney said, was "Man and His World."

"This was our opportunity to tell what America means in terms of 'man and his world,'" he said.

status symbol and, never slaughter their cows—though they drink the cows' milk and blood. They live on corn, wild plants and a pink milkshake made with raw, fresh blood tapped from a cow's veins.

The drought has created near-famine conditions and has led to bloody tribal battles in which many have died.

As the Karamojong are more primitive than neighboring tribes, they often get the worst of intertribal fighting.

In March, a Karamojong raiding party crossed into Kenya, killed 18 men of the Turkana tribe and made off with 200 camels.

REPRISAL RAID

Unlike the Karamojong, the Turkana have firearms. They crossed the border into Uganda for a reprisal raid that killed many more than the original attack.

No one knows how many have died in fighting over cattle between different clans of the Karamojong. One problem faced by security forces in suppressing cattle raiding is that stolen cows can rarely be identified. The Karamojong don't brand.

To prevent international incidents, some Uganda officials envisage the creation of a broad no-man's-land along the border where anyone found roaming would be considered an outlaw.

There is no easy solution to the problem.

Uganda's minister of works and housing, S. K. E. Okurut, himself of Karamojong origin, summed up his people's problem in a parliamentary speech.

"They have to learn that cattle is not everything," he said. "They have to learn that a man can be of high social standing without even a calf to his name. They must learn that we have better doctors than their medicine men."

SHIPS COLLIDE — Crew members are on the decks of both the American destroyer U.S.S. Walker (left) and the Soviet destroyer Besslednyi moments after the ships collided in the Sea of Japan on the morning of May 10. This photograph was released yesterday in Washington by the Defense Department.

Red Navy Chief Blames U.S.

MOSCOW (AP) — Admiral Sergei Gorskoy, commander-in-chief of the Soviet navy, denied today that Soviet ships harassed U.S. vessels in the Sea of Japan last week. He said the American naval exercises there were meant to "aggravate the situation in the area."

The Soviet news agency Tass reported that the admiral said the U.S. ships came within 80 miles of the Soviet coast. It said Gorskoy questioned how the American public would react "if a large group of Soviet rocket surface ships and submarines started prolonged exercises, say near San Francisco."

Cdr. Stephen W. McClaren, captain of the U.S. destroyer Walker, said in Sasebo, Japan, his ship was brushed twice by Soviet destroyers last week, apparently in efforts to disrupt anti-submarine maneuvers. Gorskoy said that McClaren's destroyer caused the collisions by violating navigational rules and that another collision was avoided because of the efficiency of the Soviet command. He said the U.S. ship acted "with calculated malice."

Sounds, Sights of Battle Invade Vietnam Church

By FRANK JOHNSON AN HOA, Vietnam (UPI)—This is a church, and at one time it must have been a beautiful building of peace. Now, it looks like a butcher's shop of war.

Beside the altar where a crucifix stood was the bloodied body of an American Marine. . . . pews were filled only with wounded and dying. . . . the stench of death permeated what was once a house of God.

These are the sights and sounds and smells of war you would like to forget. But you know you cannot.

An Hoa Church was built by the French in what once was a peaceful segment of Vietnamese countryside. But the war has replaced peace, and the church is now known in the parlance of the day as a "military objective."

As it was this day, when UPI film cameraman Ib Heller and I dashed with a group of leathernecks of the 1st Battalion, 9th U.S. Marines, toward the massive church.

NEAR YANK BASE

It was an important objective because An Hoa Church is less than two miles south of Con Thien, an American base the Communists have been desperately trying to capture for Ho Chi Minh's birthday.

Suddenly, the eerie whine of incoming mortar shells splits the air, and the rear door of the church became for me a gateway to safety.

There were those who got in alive, and who would get out alive after a night of terror.

And there were those who also got in alive, but who would leave only when their bodies were wrapped in a waterproof poncho.

MEDIC IS WOUNDED

The first wounded came in after the barrage. One was the company's only medic, and he had a banded up leg.

Another was a Marine Corps correspondent. He was in the squad I had tagged along with earlier. After I left them, a mortar round came in and hit all at once.

He was a friend, and I rushed over to hold his head while he was being treated.

"I don't want to die," he pleaded, looking up at me.

LEGS 'WERE HIT'

"You're not, old buddy," I replied. "You're just wounded in the legs. It's not that serious." But, sickeningly, I knew it was.

Suddenly, more mortar shells slammed into the area. I dove into a corner to shield myself. Ib Heller was lying flat on the floor, the rounds hitting outside only five yards from his head, sending pieces of the wall and ceiling down on him.

When the shooting stopped, I went back to my Marine correspondent friend.

He was dead.

In the nightcap, Adrian collegiate Athletic Association pitcher Chris Gotshall gave up baseball doubleheader fr. m Oli- only five hits to pick up the win. Adrian batters came up with five runs in the third and an- Both schools have identical other five in the sixth inning 5-7 MIAA marks.

Track Stars Warned

PARIS (UPI) — Several French track stars, including distance runner Michel Jazy, were suspended or warned by the French-Federation Wednesday for participating in unauthorized meets.

EYES RIGHT — The eyes are on the action to the right where a Cranbrook runner is bluffing a move to second base early in the game against Rochester yesterday. Rochester catcher Dan Wheeler dropped the

ball but kept it in front of him to prevent the runner from advancing. Cranbrook batter is Sandy Heavenrich. Umpire is Robert Logsdon. Rochester won, 4-2.

Falcon Runners Post 7th Win

Rochester's track team showed its heels to the opposition yesterday in recording its seventh victory of the season. The Falcons (7-2) rolled to an easy 82-36 romp over Madison, with Bob Woodruff and Laura Keel winning two events apiece the lead way.

In other meets, Cranbrook downed Berkley, 69-40, West Bloomfield raced past Brighton, 68-50 and Farmington gained an 84-34 decision over Walled Lake.

Ed Randle won the 100 (10.1) and 22-yard (23.2) dashes and anchored the 880-yard relay

West Bloomfield took eight firsts with Glen Carpenter leading the way with victories in the broad jump (19-9) and 440-yard (56.3) run.

Small Field Tees Off in Medal Event

A field of 34 will tee off Friday morning in the opening round of the 1967 Michigan Medal Play at Grosse Ile Golf & Country Club.

Prominent GAM players in the field are Hunter McDonald, the No. 1 rated player, Bud Stevens, Pete Green, Tom Draper, Pete Jackson and Glenn Johnson.

Pete Schubeck of Indianwood is the first to tee off at 8:00 a.m. Thirty six holes are scheduled tomorrow.

MICHIGAN MEDAL PLAY Pairings
8:00 a.m. - 1:00 p.m.—Pete Schubeck, Lee Touby, Bob Bernstein.
8:00 a.m. - 1:00 p.m.—Stan Sabal, Tony Locucchi, Dave Cameron.
8:34 a.m. - 1:34 p.m.—Bob Whiting, Bob McMillan, Tom Wilson.
8:34 a.m. - 1:34 p.m.—Randall Achen, Pete Jackson, George Linklater.
8:40 a.m. - 1:40 p.m.—Bud Stevens, Hunter McDonald, Fred Zinn.
8:40 a.m. - 1:40 p.m.—Bill Albright, Don Orsika, Gene Johnson.
8:56 a.m. - 1:56 p.m.—Gene Woodard, Pete Green, Ralph Ellstrom.
9:04 a.m. - 2:04 p.m.—Earl Burt, Jim Smith, Ray Palmer.
9:12 a.m. - 2:12 p.m.—Ed Flowers, Bill Newcomb, Don Brooks.
9:20 a.m. - 1:20 p.m.—Tom Draper, Bill Ferguson, Fred Ewald, Charles Granader.

IN SAFELY — Rochester pitcher Randy Hinds legs it to first base safely in the third inning against Cranbrook yesterday. Waiting for the throw is Cranbrook first baseman John Pavloff. Hinds later scored the first run and he and his teammates took a 4-2 victory.

Skippers, Walled Lake Blank Diamond Foes

Japan to Send Team

TOKYO, Japan (AP) — The Japanese Olympic Committee said Wednesday it would send a team of 144 athletes to the Olympic preview in Mexico City in October, a year before the official Games.

Non-league games featured score and Rochester handed the thin prep baseball schedule yesterday, as most area nines are looking ahead to the Pontiac Invitational next week.

Waterford took a 2-0 decision from Lapeer, Walled Lake defeated Milford by the same

in Cranbrook's two runs with a triple.

Rochester, 8-2 for the season, also had Stan Babuik and Dick Farrand with two hits.

Grand National Drag Race in Detroit

3-Day Event Begins Friday

5 Major Categories Share \$30,000

Nationally known drag racers from all across the United States are arriving in Detroit to compete in the American Hot Rod Association's Grand National Drag Racing Championships this weekend.

The three-day meet takes place at Detroit Dragway Friday and Saturday nights and all day Sunday.

Winners in five major categories and top eliminators will split a purse of \$30,000 cash in the first national drag event held in Detroit since 1960.

Major categories include top fuel, top gas, funny car, factory experimental, unlimited funny car and top gas funny car.

TROPHY AWARDS

The Grand National is a segmented meet, with winners picking up prize money and trophies each day.

Dragsters will qualify Saturday night at 8, with dragster eliminations scheduled all way Sunday. Funny cars will be competing all three days.

Top prize in any one event is \$1,000 for winners in top fuel, funny car experimental and unlimited funny car, with a purse of \$500 for top gas and \$400 for gas funny car. Prize money can pyramid for drivers winning more than one event in their category.

Time trials begin at 6 p.m. Friday, 4 p.m. Saturday, and 11 a.m. Sunday, with racing under way at 8 p.m. Friday and Saturday and 2 p.m. Sunday.

Batmobile in Feature at Dragway

The famous Ronnie Sox and Buddy Martin racing team, Batman and Robin in the Batmobile and Bill (Maverick) Golden in the Wheel-standing Little Red Wagon, will be featured here on Motor City Dragways "children's day" program Saturday night.

The Sox and Martin team will bring two Plymouth Belvedere GTX "Supercars."

Sox will drive against local racers for a "Pop Stock Eliminator" title.

The local stars will drive the GTX in time runs against the clock. The contestant with the lowest elapsed time of the group will earn the title and the right to compete, on a handicap basis, against Sox. Trials begin at 6 p.m., feature series at 8:30 p.m.

Fair Challenge at Flat Rock

Mitchell to Defend Late Model Title

Dick Mitchell, defending late model champion at Flat Rock Speedway, is the one to beat in late model competition this year.

Joy Fair of Pontiac will try to do just that when he pits his '64 Chevelle against Mitchell's '58 Ford this Saturday night at the Flat Rock Speedway.

A 25-lap race for late model drivers and a 15-lap tour over the prototype-shaped Figure course, will top Saturday night's 10-event program. Trials start at 6:45 with the first race at 8 p.m.

Promoter John Marcum today announced that he will stage a 50-lap late model race with 24 starters as the feature of a Memorial Day Sweepstakes program at Flat Rock Speedway.

Wayne Finally Wins Slugfest

DETROIT (UPI) — Wayne State and Toledo tied for 34th Wednesday before Wayne finally emerged the victor in the free-swinging baseball contest, 15-13.

The only homer in the game was a game-opening blast by Toledo's Mel Reedy. Wayne had 16 hits, nine for extra bases in picking up its fourth straight win. Wayne is now 9-9 and Toledo is 14-14.

In Baseball Action

Big Ten Showdown Near

By the Associated Press

All first division teams have a shot at the Big Ten baseball championship as the regular campaign ends this weekend, but the main showdown appears between Ohio State and Minnesota.

The Buckeyes, leading the Gophers by half game, take a 10-4 record to Minnesota, 9-4, in Friday's doubleheader feud. In a doubleheader windup Saturday, Ohio State is at Iowa and Indiana at Minnesota.

Michigan, 8-4, Wisconsin, 8-5, and Iowa, 7-4, have cracks at the crown or a piece of it.

MORE TWINBILLS

In other twin bills Friday, Indiana (5-9) is at Iowa, Wisconsin at Illinois (3-9) and Northwestern (3-10) at Purdue (5-7). Michigan State (6-8) is at Michigan for a single game.

Other Saturday doubleheaders send Northwestern to Illinois and Wisconsin to Purdue while Michigan is at MSU for one game.

Michigan's Andy Fisher tops Big Ten batters with .448.

Tampa Driver at Uby Strip

The wheel standing truck of Jerry Holland from Tampa, Fla., has been rescheduled to make its second appearance at Uby Dragway.

Last Sunday, due to mechanical difficulties the exhibition truck was unable to do all three of his complete runs, so the management of the Dragway has decided to reschedule the truck to run this Sunday.

HOT CAR — Driver Don Meacham (right) of Fresno, Calif., watches as smoke pours from his car after it caught fire in the pits at the Indianapolis Motor Speedway yesterday. Meacham was not injured and there was only slight damage to the car.

TODAY'S BASEBALL

Archer Fires 65 in Pro-Am

Colonial Golf Tourney Gets Under Way

FORT WORTH, Tex. (AP) — George Archer, the California cowboy, fired a record-equaling five-under-par 65 Wednesday to sweep pro-amateur honors in a prelude to the \$115,000 Colonial National Invitation Golf Tournament.

Archer whipped around the Colonial Country Club course in 32:32—65 and tied the record set by Ben Hogan in 1946 and equaled by a quartet of others. Archer won \$500.

NO BOGEYS

The current Greensboro Open champion missed only one green and dropped birdie putts ranging from 5 to 10 feet. He did not bogey a hole.

Kermi Zarley, with a 67, took second and a paycheck of \$425. Five deadlocked at 68, including Tommy Aaron, Tommy Bolt, Michigan Sports Hall of Fame Dinner in Cobo Hall Monday night.

Owens, the hero of the 1936 Olympic Games in Berlin, will speak at the dinner honoring the induction of Red Wings Manager Sid Abel, the late Jake Maser and former Detroit Lion Doak Walker into the Hall of Fame.

Also slated to address the anticipated crowd of 1,000 was New York restaurant owner Toots Shor.

The program will feature filmed highlights from the careers of Abel and Walker.

DENVER, Colo. (AP) — The Denver Broncos announced that Floyd Little, All-America halfback from Syracuse, signed a contract Wednesday for the 1967 American Football League season.

Salary figures were not disclosed, nor was the length of the contract.

This was the first time since the AFL began operating in 1960 that the Broncos have signed their No. 1 draft choice.

Little stands 5 feet 10 inches and weighs 205 pounds. His home is in New Haven, Conn.

Denver now has inked 14 of its 19 draft choices.

Rookie Skids at Speedway

INDIANAPOLIS, Ind. (AP) — Rookie Don Thomas of El Cajon, Calif., escaped uninjured Wednesday as his Gerhard-Oltenhauer car hit the wall at the Indianapolis Motor Speedway.

The racer went out of control in the northeast run, spun, skidded 430 feet and hit the wall with the right front corner. Damage did not appear to be extensive.

Thomas had passed his Speedway driver's test Tuesday and was practicing in preparation for an attempt to qualify for the 500-mile race May 30.

New Hockey League?

CALGARY, Alta. (AP) — Officials of three teams plus representatives of the American and Canadian national teams are scheduled to meet today to discuss the possible formation of a new major senior hockey league. Murray Williamson of Minneapolis will represent the American team.

Vet Trainer Nervous in Role as Substitute

BALTIMORE (AP) — Training race horses is nothing new for 53-year-old Jim Mahoney. He's been around thoroughbreds just about as long as he can remember.

But he admits he's nervous. The reason is, he is filling in for the ailing Loyd Boo Gentry as trainer of Kentucky Derby winner Proud Clarion.

Proud Clarion, who paid \$62.20, for \$2 after his one length triumph in the Derby, is one of nine 3-year-olds pointing for Saturday's \$2nd running of the \$150,000-added Preakness, second and richest of the Triple Crown series which also includes the Derby and Belmont Stakes.

League Meets for Colleges

Western Michigan Is Track Co-Favorite

BOWLING GREEN, Ohio (AP) — Western Michigan and Miami are co-favored in track and field this weekend as the Mid-American Conference stages its spring championships in three sports.

More than 500 athletes, coaches and administrators began gathering here today for the start of the spring spectacular that will crown titlists in track and field, golf and tennis.

Business meetings of MAC coaches and officials kicked off the program. A new TV package involving weekly basketball games and opposition to a proposed NCAA punting rule was expected to come out of the sessions.

FIREWORKS

The track meet could produce the big fireworks. Bowling Green's \$200,000 all-weather track is likely to yield new standards.

Toledo is the defending titlist in tennis and Marshall will be bidding to repeat in golf.

Western, which nipped Miami by one point in a stirring track duel last year, is looking for its 10th straight conference conquest.

Golfers will play 18-hole rounds Friday and Saturday with tennis activity also scheduled both days.

Form Archery League

A Wednesday night indoor Archery League is being formed at the Lake Orion Archery Club. The registration and first shoot is scheduled for Wednesday, May 31, at 7 p.m.

The clubhouse is located on Ferndale St., Lake Orion.

24 E. LAWRENCE FE 2-2399
IN DOWNTOWN PONTIAC

Gentry, who brought the Derby to Dan Farm colt up to the Derby in perfect condition while struggling to keep on his own feet, is in a New York hospital recovering from hepatitis.

He won't be here for the 13.16 mile race which could mean \$139,500 for a horse that Gentry rates second string to one in his barn who never made it to the spring classics. His name is Cup Race, unbeaten in two career starts.

"I talk with Mr. Gentry every day and he tells me what he

wants done with Proud Clarion," said Mahoney. "But I'll have to admit it's a bit nerve wracking to be personally responsible for such a good horse."

I'm at the barn every morning by 5:30 — just to be sure that everything is in order.

Mahoney has been taking Proud Clarion to school this week just as Gentry did with the son of Hail to Reason before the Derby. Going to school entails a trip to the saddling paddock under full racing gear.

Despite his Derby victory,

Proud Clarion was made the 3-1 co-second choice in the first betting line made by the track handicapper. He also quoted Damascus, the beaten Kentucky Derby favorite, at 3-1.

TOP OF LIST

At the top of his list at 5-2, Pimlico's Blair Wilkinson placed Mrs. Frances A. Gentry's In Reality trained by popular Sunshine Calvert, former jockey.

Some eyebrows were raised when Wilkinson released his figures for In Reality has not

placed since winning the Florida Derby April 1. Calvert had intended to give the speedy son of Intentionally a prep race here last Saturday but the event failed to draw enough entries so In Reality worked 1 1-16 miles in 1:47.5-5.

With the names of Barbs De light, runner-up in the Derby; Great Power, Reason to Hail, Ask The Fare, Favorable Turn and Misty Cloud slated to be entered by 10:30 a.m. EDT today, the Preakness will have a record gross value of \$192,000.

Post time Saturday will be 5:30 EDT with the race carried on national television from 5-5:45 p.m. by CBS.

State Senate Faces Tax Showdown

LANSING (AP) — A tax vote showdown — key issue of the 1987 legislative session — is set for the Senate today.

It was the second time around for the tax bundle in the Senate, which previously defeated a tax reform proposal on a 23-14 vote.

The new package, three bills reported out of the Taxation Committee yesterday, immediately went on the Senate

calendar for debate and possible amendment from the floor.

The bills bore amendments attached

Related Stories,
Pages A-2, C-19

after the Senate rejected the earlier proposals.

Sen. Emil Lockwood, R-St. Louis, Senate majority leader, predicted a vote would be held this afternoon.

"How will it go?" he was asked.

"I'll wait for the count," Lockwood replied.

Sen. Harry DeMaso, R-Battle Creek, Taxation Committee chairman, told newsmen, "I've repeatedly said I would

not report out a tax package unless I thought I had the votes for passage."

Whether the votes were available was not certain, but there were reports before today's session that 34 Republicans and six Democrats had decided to approve the measures, giving them the necessary 20 votes.

"I feel like a fighter who has been

battered around for 14 rounds," said DeMaso, who has been laboring with the tax package since the first of the year.

"Now I'm ready to try for a quick knockout."

Gov. George Romney, as a leading candidate for the Republican nomination for president, had a lot of prestige riding on the tax increase bundle.

The politicians, as well as plain people, were watching to see if Romney could achieve tax reform within his own state.

Tax reform passage was viewed as a chance for a major coup for the governor. It could let him avoid cutting state services which he has threatened as a possible necessity without tax reform.

'Super Sal' to the Rescue! Saves Boy From Train

By MEL NEWMAN

The situation had all the trappings of a silent movie thriller — an approaching train, a child attempting to unjam his bicycle from the tracks, apparently oblivious to the danger, and a hero.

The hero, who acted, of course, in the nick of time, was 15-year-old Sally Green, daughter of Mr. and Mrs. C. James Green of 1490 Benvenue, Sylvan Lake.

She is now known to her fellow students at Washington Junior High School, where she is a ninth grader, as "Super Sal."

Her rendezvous with destiny came Tuesday evening when she escorted her 6-year-old brother, Scott, to the railroad tracks near the Green home so he could wave to the conductor of a passing freight.

Jerry Hotchkiss, 6, of Mr. and Mrs. Lawrence Hotchkiss of 2115 Avondale, Sylvan Lake, was in the path of the train, trying to pull his

bike free from the tracks after jamming a pedal.

THROWS BOY ASIDE

Sally screamed for him to get away, but the boy — Scott's classmate — (Continued on Page A-2, Col. 4)

SALLY GREEN

Opinions Are Gathered

Sex Offense Threat Eyed

Sex offenders—and how to identify and treat them—constitute one of today's most perplexing social and legal problems.

That is the essence of opinions and insights gathered from Oakland County psychiatrists, judges, law enforcement officials, school and mental health administrators and a "special interest" group—mothers.

Commented Dr. Jerome L. Fink, Pontiac psychiatrist: "You cannot generalize, you have to study each individual case."

"Deprivation or socio-economic background doesn't seem to have anything to do with it."

"Just being in an institution doesn't do anything for the sex offender, although it is only through treatment (the one-on-one situation) that the dynamic problem can be altered."

IDENTIFICATION TESTS

But, he indicated, there are highly sensitive tests that can identify potential sex offenders ahead of time.

"Society has to be realistic," Dr. Fink

asserted, indicating that private treatment only controls the "acting out" tendencies of the sex offender while the patient is in the doctor's office.

Dr. Bruce Lessien, also a psychiatrist, said that sex offenders seen in private practice are mostly those who would not do harm to people or society.

Dr. Lessien said the patient in this instance is usually motivated to seek treatment by the courts, police or the patient's family.

MAJOR OBSTACLE

A major obstacle facing law enforcement officials and the courts is a state law that prevents a person declared to be a criminal sexual psychopath from

(Continued on Page A-16, Col. 1)

Holly Schools Seek Levy Hike

The Holly School District will ask voters for a 10-mill levy on June 12 — a three-mill increase over last year.

The millage would add \$3 per \$1,000 of assessed valuation to taxes. A seven-mill levy is due to expire this year.

School board members voted unanimously to place the issue on the ballot, pointing out they hope to strengthen the weakest portions of the curriculum.

The district hopes to reduce class size to slightly less than 30 pupils per teacher. It hopes to add two junior high teachers to allow for expanded programs in math, science, English and social science.

Other teachers the board hopes to add will be in physical education, art and music as well as a speech and drama teacher and one for special education of the mentally retarded.

MUST BE COMPETITIVE

The board also pointed out in its decision that the district must remain competitive in salaries to attract teachers.

Increased costs face the district due to negotiated salary increases by teachers. Negotiations with teachers for next year's salaries have been suspended until it is known what state support will be.

The district faces a loss in state aid due to a sharp rise in assessed valuation. The district jumped \$7.7 million in one year to a total of \$33-million valuation. Per pupil valuation went from \$8,745 to \$10,822.

The expected loss is \$58,000 while the expected gain if the millage is approved would offset that with about \$99,000.

The board points out that last year the district averaged below other county schools in its tax levy — 20.6 compared to a 22.4 average countywide.

They also pointed out the district spent \$455 per child on education while the county average was \$499.

New Peace Peril Seen

WASHINGTON (UPI) — The top U.S. disarmament negotiator said today chemical and biological weapons will pose the next major threat to global peace if the world powers agree to curb the spread of nuclear bombs.

Youth Committee Honors 5 Adults

A group of promising Pontiac teenagers who got together with prominent city adults last night discovered neither would be where they are without each other.

Thirty-two junior and senior high school leaders, selected Teen of the Week throughout the year, had the adults to thank for partially guiding their lives.

Five adults found they would not be at this gathering to commemorate their distinguished work with youths if it were not for the teen-agers.

Both groups were at the Pontiac Citizens' Committee on Youth's fifth annual citizens' awards program at the Elks Temple.

Five distinguished citizens with one thing in common — concern, involvement and devotion toward youths — were honored with certificates of appreciation. They were:

Mrs. Betty Villani, a registered public nurse in Pontiac, who lives at 145 S. Newman, Lake Orion. She is constantly aiding the sick, maimed and poor children.

She is also active in Girl Scouts, Health Committee of Parent-Teachers' Guild of St. Joseph's School and Project Commitment of the Northeastern Deanery of the Archdiocese of Detroit.

Francis W. Staley, principal of Pon-

tiac Central High School who resides at 943 Glendale. He has been a teacher and principal for 37 years, 28 years in Pontiac.

Staley is on the board of directors of the Pontiac Boys' Club, Boy Scout Con-

cil for Oakland and Macomb counties and Pontiac Lions Club.

Howard Dell, a pharmacist, of 201 Draper. He is a member of the Citizens' Committee on Youth.

He has volunteered to coach and or-

ganize Little League baseball teams, to be assistant football coach at St. Michael's High and is vice chairman of Michigan Area Council of Boys' Clubs of America.

Waterford Schools Schedule Activities for Michigan Week

Several activities will be held in the Waterford Township School District next week in commemoration of Michigan Week.

Among the key events planned are a community leaders dinner Tuesday, an Indian dance Wednesday, a speech Thursday by author Marguerite Henry and field trips sponsored by schools.

In addition, Michigan projects completed by fourth graders will be on display in a bus on the Pontiac Mall concourse throughout the week.

Filipino Unit May Quit Viet

Financing Is Viewed as Problem at Home

MANILA (AP) — The Philippines' 2,000-man contribution to the allied war effort in Vietnam appeared today to be in danger financially.

A bill to finance operations of the Filipino contingent for another year was not included in a list of 31 urgent measures which President Ferdinand E. Marcos has drawn up for action by Congress in a special session starting June 1.

Unless 38 million pesos — about \$9.5 million — is appropriated for the purpose, the Philippine troops may have to be withdrawn before the year's end.

Marcos, asked about this in a news conference, said he hoped the Philippine Civic Action Group, or Philcag — is "there to stay."

NO PRIORITY

He conceded he had not put a top priority stamp on the Philcag-financing bill. He said he had agreed with congressional leaders that there was more important legislation, such as the national budget, a public works law and an investments law, to consider first.

Marcos recalled that debate on the formation of the Filipino contingent last year ate up much of Congress' time and resulted in failure to pass a much-needed investments law.

The way is still open for Marcos to introduce the Philcag bill during next month's special congressional session, but informed political sources rated its chances as poor.

These sources said that the bill is a controversial one which could have repercussions in November's off-year election for eight senators and a host of local government officials.

GI IN TROUBLE — Albert Hamburg, 35, of Gering, Neb., shown picking a supermarket last year, says in letters from Vietnam he faces a possible military trial because he enlisted under the name of his brother.

Arraignment for Suspect in Car Theft Ring

A former Pontiac used car dealer linked by police to an auto theft ring involving up to \$50,000 worth of automobiles faces arraignment in U.S. District Court in Detroit today on 10 federal charges, according to police.

Oscar M. Stabley, 50, of 34 Collingwood was arrested by Federal Bureau of Investigation (FBI) agents last night on a warrant issued yesterday in Indianapolis, Ind., charging him with interstate transportation of stolen goods in violation of the Dyer Act.

Stabley was first arrested by Pontiac police May 4 on a charge of stealing a car from Matthews-Hargreaves Chevrolet, 631 Oakland.

His preliminary examination on that charge, scheduled yesterday in Pontiac Municipal Court, has been put over until next Wednesday.

Capt. Charles Gale, chief of Pontiac detectives, said Stabley was believed to have a theft ring involving stolen cars in Pontiac and selling them at auctions elsewhere, including several Indiana cities.

CHARGES — Included in the federal warrant are charges of conspiracy and possession of stolen property.

Each interstate transportation count carries a maximum penalty of five years in prison and/or a \$5,000 fine, according to Paul H. Stoddard, special agent in charge of the Detroit FBI office.

Yank Gets Life in Viet Killing

PHU BAI, Vietnam (AP) — A U.S. Marine sergeant who said he killed a prisoner because his lieutenant ordered him to was sentenced today to life imprisonment.

Sgt. Charles D. Wilkerson, 23, of Houston, Tex., said he felt he did not get a fair trial in the one-day general court-martial which convicted him of premeditated murder.

"Suddenly, everyone in the platoon became hard of hearing," Wilkerson told newsmen after being sentenced. "They said they never heard the lieutenant give the order."

Wilkerson was convicted by the eight-man court of shooting a Vietnamese in the head with a shotgun while the man's hands were tied behind him. The Vietnamese was a Vietcong suspect seized in a free fire zone, an area from which civilians are barred.

ONE TESTIFIED

Only one of the men in Wilkerson's platoon testified he heard the platoon leader, 2nd Lt. David C. York, order the prisoner killed.

Several other testified they heard no such command.

Birmingham Area News

Lahser Board Appoints Principal and Assistant

BLOOMFIELD HILLS — A field Hills Lahser High School principal and assistant principal have been appointed by the school board for the new Bloomfield Hills.

They will be David P. Cook, principal, and John M. Zimmerman, assistant.

Cook was vice principal of Melbourne High School, Melbourne, Fla., before coming to the district. This school was the first nongraded high school in the nation.

A similar system is to be initiated in the Bloomfield Hills district next year.

Zimmerman is a Michigan State graduate and taught at Pontiac Central High School in his prior assignment.

BIRMINGHAM — Thomas C. Brien, superintendent of Public Works, ends 15 years service with the city tomorrow to take a position with a private consulting engineering firm.

Brien, 49, of 3686 Kipling, Berkeley, will join the staff of Spalding-DeDecker & Associates, Inc., 1405 S. Woodward, Birmingham, on Monday as a project engineer.

Superintendent for 10 years, Brien started with city in the engineering department.

Brien, a registered engineer, was in charge of 30 city employees in the department. His successor has not been named.

The Michigan Association for Emotionally Disturbed Children will meet at 8 tonight at the Security Bank building at Woodward and 13 Mile, Birmingham.

"Rhodesia is willing to make available, immediately, up to 5,000 troops," Thurmond said.

He refused to amplify the statement, saying full details would be given at a news conference today.

The United States does not recognize the Smith regime and observes United Nations economic sanctions against Rhodesia.

The troop commitment is an attempt by Smith to bridge the gap between the United States and Rhodesia, Thurmond said.

"Is the United States willing to help Smith bridge this gap?" the senator asked.

"In this day of building bridges, mostly to the Communist world, let us help Ian Smith build a bridge between Rhodesia and the United States," he urged.

"In the face of opposition (to the petitions) it is the statutory duty of the board to listen to arguments, to take such testimony as it may deem advisable and to rule upon each of these questions."

Following last week's board meeting, Atty. Gen. Frank Kelley said the board should have acted as soon as possible.

BOARD CRITICIZED — Newspapers criticized the canvassers for not letting the people know whether they would be on Daylight Time or Standard Time for the rest of the summer.

If validated, the petitions would overturn legislative action exempting the state from provisions of the federal Uniform Time Act, at least until the question is put to a vote in November 1968.

Kelley had told the canvassers to proceed with their work on the petitions despite pending legal action aimed at stopping the time change action move.

Traver W. Miller, Sally's assistant principal, described her as "the kind of person who couldn't turn away from a sort of situation."

He said she is an A and B student and works in the school office.

Sally said being "Super Sally" is "kinda nice."

"I'm glad I was there," she added.

Jerry is, too, no doubt.

State Income Tax

LANSING (AP) — State Revenue Director Clarence Lock said today it will take "a lot of machinery and a lot of people" to handle collection of the proposed state income tax, if it is approved.

"We've been studying it," Lock said, "and know it will be quite a clerical job. But until we get the final bill, we can't be too specific about just what we will be facing."

The state income tax would be collected through a mandatory paycheck withholding by the employer.

Those claiming any sort of an exemption, and there would be many, would have to file an additional return. Exemptions in the bill include those for pay-

CLOTHING DEPT. — Bargain Basement

Met Opening Sparks Galas

By SIGNE KARLSTROM

Once more the Metropolitan Opera comes to Detroit under the sponsorship of the Detroit Grand Opera Association. This year — for the first time, the opera "The Masked Ball" will be presented opening night with Michigan's own brilliant conductor Thomas Schippers at the helm.

It takes place at Detroit's Masonic Temple, Monday at 8:30 p.m. The usual dinner parties in downtown Detroit will again take part in the festivities.

HOSTING GALAS

At the Detroit Athletic Club Mr. and Mrs. Edward S. Wellock will entertain for dinner Mr. and Mrs. Graham John Graham; Mr. and Mrs. Henry S. Johnson; Mr. and Mrs. Harry M. Pryle, Dr. and Mrs. Howard B. Barker and Dr. and Mrs. Herman D. Scamey.

In another group will be Dr. and Mrs. Luther R. Leader, Mrs. Sixten Ehrling, Mr. and Mrs. Bruce Wilson, Mr. and Mrs. A. A. Appleford and the Ari M. BeGoles.

Mr. and Mrs. Charles F. Adams will have as their guests Mr. and Mrs. Harold G. Warner, Mr. and Mrs. Ted Hopkins, and Mrs. Lee May.

With Mr. and Mrs. LeRoy W. Dahlberg will be Mr. and Mrs. Harry A. McDonald Jr. Others who will have dinner are Mrs. M.M. Burgess with Mrs. Harry Anderson of Ann Arbor, Mr. and Mrs. Henry S. Wenger with Mr. and Mrs. Kingsley M. Brown. The Joseph Risdon's have a group; the Kenneth Manuels and Mr. and Mrs. Merrill L. Bush.

DETROIT CLUB

At the Detroit Club Mrs. Walter Gehrke is entertaining her

daughter and son-in-law, Mr. and Mrs. James Aliber, Mr. and Mrs. Samuel J. Lang and their daughter and son-in-law, Mr. Mrs. Hans Gehrke and Mrs. and Mrs. John Cannon, Mr. and William L. Kemp.

Mr. and Mrs. John F. Gordon will have at their table their daughter and son-in-law, Mr. and Mrs. Henry Whiting Jr. and the Kenneth Cunningham Jr.'s and the Harry Wieting's.

Mrs. Whiting and Mrs. Cunningham are the co-chairmen of the Women's Committee for the Birmingham-Bloomfield area.

With Mr. and Mrs. George Russell will be Mr. and Mrs. Semon Knudsen and Mr. and Mrs. Ernest A. Jones. In another group will be Mr. and Mrs. Joseph Conway with Mr. and Mrs. Karl Gunnar Aronsson and Mr. and Mrs. Irving Rose.

Mr. and Mrs. William L. Mitchell hope to arrive from New York just in time for the opera and to attend the Opera party at Detroit Institute of Arts following the performance. Mr. and Mrs. James Roche are chairmen of this event.

On Tuesday there is a busy day for Mrs. Mitchell as chairman of the luncheon and swimming party which Mr. and Mrs. Lynn Townsend are hosting in

Golf Devotees

Model Sports

Newest Attire

The latest feminine golf and sports attire was shown by modeling club members at Wednesday's luncheon fashion extravaganza in Oakland Hills Country Club.

Showing the fashions from the club's pro shop were Mrs. James Guest, Mrs. Kenneth Sanden, Mrs. Richard Hague, Mrs. Gary Hogan, Mrs. Bert Carothers, Mrs. James Rather and Mrs. Arthur Kaufman.

The Sportsman of Birmingham supplied separates for models Mrs. Donald Petersen, Mrs. John Fowler, Mrs. Bruce McDonald, Mrs. David Auer, Mrs. Joseph DeCaminada and Mrs. John Conroy III. Ricky Dove, dance instructor, worked with models to insure their poise on the runway.

Special tips on the game were given by club pro, Mike Souchak, along with Tom Cosmos and John Hussey. Mrs. C. Boyd Stockmeyer, social chairman, and her committee worked on arrangements.

Asks Advice on Rules of This Event

By ELIZABETH POST

Dear Mrs. Post: Etiquette books have given me no help with my problem. We, as parents of the groom, are giving the rehearsal dinner in the bride's home town and most of the guests will be strangers to us. The questions are:

• Do we send written invitations?

• Are there certain seating arrangements?

• Do the bride and groom present their gifts to their attendants at that time?

Dear Mrs. L.: Rehearsal dinners are somewhat formal affairs, so yes, send written invitations. Either handwritten notes or engraved cards are correct.

• At either a long or U-shaped table, you and your husband sit at either end, the bride's father on your right, her mother on your husband's right. Bride and groom sit in the center with best man on her right and maid of honor on his left.

• Yes, this is the perfect time to present the gifts.

Mrs. Harold J. Hall (left) of Dianna Drive and Mrs. George W. Bowman of Franklin Village cut up on the green in fashions designed for the golf course, the pool or tennis. The occasion was a noon luncheon Wednesday at the Forest Lake Country Club. Fashions were supplied by Bob Gajda's Pro Shop and Don Thomas Sporthaus. Chairman of the event was Mrs. Howard Schwoeppe assisted by Mrs. Carl Horner.

Pontiac Press Photo by Edward R. Noles

Husband Should Seek Doctor's Guidance

By ABIGAIL VAN BUREN

DEAR ABBY: My wife is 37 and is expecting her fourth child. We have two sons, 11 and 15, and a daughter, 12. My problem is something I hesitate to even discuss with her doctor, but the time is drawing near and I can't put it off any longer.

My wife wants our children to witness the birth of her baby. She says our daughter should see what it is like to bring a life into the world, and it won't hurt the boys either.

I told her I didn't think the hospital would allow it, but she said if they didn't, she'd arrange to have her baby at home because she wants our children to learn the facts of life as they really are.

Have you or any of your readers ever heard of anything like this? Maybe I am wrong, but I can't go along with it. What should I do? HER HUSBAND

DEAR HUSBAND: Ask your wife to tell her doctor about her plan and let HIM handle it. I am sure he will agree with you. With ideas such as this, I'm surprised your wife would start with the "birth." Why not the "conception"? It's preposterous.

DEAR ABBY: I was recently released from a mental hospital where I spent a year and a half. Now that I am out, my friends are driving me (if you will excuse the expression) "crazy," carefully avoiding every reference relating to mental illness.

If someone slips and says "nuts" or "crazy" he becomes so embarrassed, he embarrasses ME. Abby, I know I have been ill, and when others treat me as though I don't know where I've been, I feel as though maybe I should be back there again.

Here's a big thanks to a friend who recently said of me in the presence of other friends, "Oh, don't listen to her—she's crazy as a loon!" It made me feel that he really thought I was all right or he wouldn't have said it. I hope you print this for what it's worth.

OUT BUT NOT REALLY "IN" DEAR OUT: If your experience left you with absolutely no sensitivity to remarks relating to mental illness, you are indeed an exception. However, I would not advise anyone to use the expression "crazy as a loon" or anything resembling it in the presence of one who had just

spent a year and a half in a mental hospital.

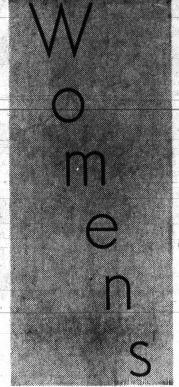

DEAR ABBY: I recently borrowed a glass flower vase from a friend. When I went to her house to return it she wasn't home, but her neighbor volunteered to see that she got it, so I left it with this neighbor.

Well, the neighbor's little boy accidentally knocked it over and broke it. It can be replaced, but it is rather expensive, so I

told this neighbor that I thought she should pay half and I would pay half, but she said she was only trying to do me a favor and she didn't see why she should pay anything. Who is responsible in this case?

NEVER BORROW DEAR NEVER: You are.

CONFIDENTIAL TO WILL: It's always a good practice to be nice to the people you meet on your way up. You're bound to meet them on your way down.

Sorority Unit Hears Variety of Folk Music

Phi Chapter, Beta Sigma Phi, met recently in the home of Mrs. Robert Schmidt of Steep-hollow Drive in White Lake Township.

A program entitled "The Amateur" was given by Mrs. Albert Padar, featuring the folk singing of Jeff Elliott of Ferndale. Members joined in for some group singing.

Other guests were Felicitia Lucero and foreign exchange student Franziska Moysen of Hamburg, Germany, who is residing with the John Appletons of Hudson Street. Franziska sang her version of a German folk song.

The Ritual of Jewels degree was given to Mrs. Robert Leahy at ceremonies held in the Old Mill.

New Date

The Program Planning Workshop scheduled for Saturday at Central Methodist Church is being postponed until sometime in the fall.

Mrs. David Saks made the announcement for the Pontiac Area Federation of Women's Clubs, the group sponsoring the day-long workshop.

Mrs. Knudsen Is Chairman

Mrs. Semon E. Knudsen, wife of executive vice president of General Motors Corp., will be chairman this year of the International Freedom Festival women's committee.

The festival will begin June 29 and last through July 4.

Mrs. Knudsen, a Birmingham resident, will be in charge of 50 women from Detroit and Windsor planning a luncheon and fashion show at the Veterans Memorial Building June 29.

Assisting her are Mrs. William Gershenson of Detroit and R. L. Miller of Windsor.

This year will mark the ninth annual joint celebration of Canada's Dominion Day and our own Independence Day.

Detroit Mayor, Jerome Cavanaugh, announced the committee officers Wednesday.

Reunion Is Slated

The St. Joseph Mercy Hospital Alumnae Association will hold its annual reunion breakfast Sunday at 11 a.m. in the hospital.

Mrs. Frances Kirkwood and Mrs. Wayne Dengate are taking reservations for the event which will honor the class of 1942.

Life Is Anything but Dull in New United States City

(Last of a series)
By DICK KLEINER
Hollywood Correspondent
LAKE HAVASU CITY, Ariz.—(NEA)—When Mrs. Nicholas Ripa moved to Lake Havasu City, two years ago, she thought she was in for a dull life. Before she left West Springfield, Mass., she bought a set of oil paints. She has yet to open them.

Mrs. Ripa, the wife of a real estate salesman, has found life in this new city anything but dull. Lake Havasu City is coming into being with a bang. It has a pioneer spirit and Mrs. Ripa's days are full.

The city is on the shores of a beautiful lake and virtually all of the 3,000 residents spend their nonworking hours on or near it.

The Ripa family has a boat. Mrs. Ripa is now an ardent fisherman and she's even learned how to fillet fish.

She studies ceramics and sand painting. She's active in the group working to bring a Catholic church here.

WORKED FOR SCHOOL
She's active in the group working to pass a bond issue for a new high school. Another group is promoting a hospital.

There are musical groups, led by a former Hollywood musician who is now a stock clerk in the supermarket.

There are dramatic groups and card-playing groups and the volunteer firemen.

There is no movie theater in town, but there is television from Phoenix and there is Crazy Ed's, a family saloon with a piano and at night people gather there and sing. Mostly, though, it is the lake

which gives the city its raison d'être.

Eight kinds of fish live in the blue waters — "Havasu" is an Indian word meaning blue water — and there is plenty of room for everybody.

The lake stretches for 45 miles along the Colorado River, and most of it is coves and inlets inaccessible except by boat.

Gradually, Lake Havasu City is beginning to look like something.

ONE MISTAKE

The houses are all low — nothing can be built more than 13 feet tall, lest it deprive someone else of the view. The commercial structures now being put up are attractive, but the city's developers admit they made one mistake.

Some of the first commercial buildings — 15 or 20 of them — are not so attractive.

"We always insisted that all plans be subject to the approval of our architectural committee," says C. V. Wood Jr., Lake Havasu City's master planner.

"But at the beginning some people didn't build what had been approved. We realized our system had not teeth in it."

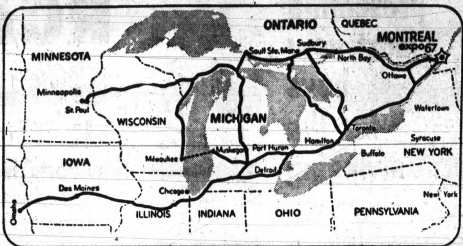

PLANNED DISNEYLAND

"Now the architectural committee is under the water committee. If they don't build what they say they're going to build, they get no water."

Wood is the man who planned Disneyland, and he says there isn't too much difference between planning an amusement park and a city.

"In Disneyland," he says, "we had to keep the people happy for five hours. Our problem here is to keep them happy for a lifetime; that's the only difference."

GOING TO EXPO '67?

The Michigan-Ontario route is direct, scenic:

MICHIGAN-ONTARIO ROUTE — For most midwesterners traveling to Expo '67 in Montreal, the Michigan-Ontario route is the most direct with excellent highways, accommodations, scenery and attractions adding pleasure to the trip. Free information can be obtained by writing "Michigan-Ontario Route" in care of the Michigan Tourist Council, Lansing, Mich., 48926, or the Ontario Department of Tourism and Information, Toronto, Ont., Canada.

Michigan-Ohio Direct, Scenic

Route to Expo 67 Suggested

The State of Michigan and the Province of Ontario are inviting travelers to take the Michigan-Ontario route to Expo '67 in Montreal.

For most midwesterners, the Michigan-Ontario route is the most direct with excellent highways, accommodations, campgrounds, scenery and attractions adding comfort, safety and pleasure to the trip.

There are three Michigan-Ontario border crossings, at Sault Ste. Marie, Port Huron-Sarnia and Detroit-Windsor.

Passports and visas are not required, but travelers should have proof of birth, residence or naturalization. Currency ex-

change at the border is advisable, but not necessary.

The Michigan-Ontario route features many popular travel attractions, including the Soo Locks at Sault Ste. Marie; Detroit, the world's auto capital; Ottawa, capital of Canada; the Mackinac Bridge, the St. Lawrence Seaway, Niagara Falls and many thousands of miles of Great Lakes shoreline.

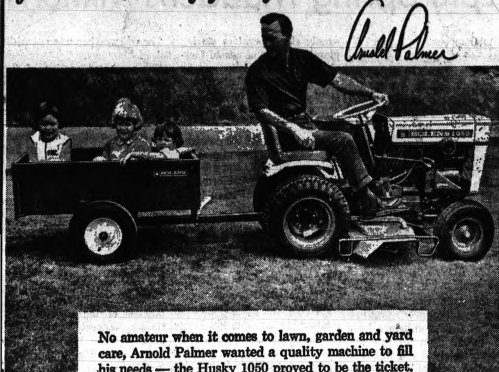

HISTORIC SITES

Both commonwealths have historic sites dating from the early 17th century and travelers can trace the routes of voyageurs and missionaries who were exploring the area before the landing of the Pilgrims.

Many thousands of lakes and

BOLENS HUSKY 1050

"fastest way out of your yard and into the fun"

No amateur when it comes to lawn, garden and yard care, Arnold Palmer wanted a quality machine to fill his needs — the Husky 1050 proved to be the ticket. GI Recovering in Japan

Parents Saw Son Hit in Viet

TOKYO (AP) — Spec. 4 Albert Landon Morrow Jr., whose father, in a hospital in Japan, the family learned from the TV he learned the action had been filmed and that his parents back in La Grange, Ga., had seen it on television before the Defense Department notified them of the destroy mission against the Viet. Morrow was on a search-and-seizure mission against the Viet. Morrow was on a search-and-seizure mission against the Viet. Morrow was on a search-and-seizure mission against the Viet.

view at the 106th General Hospital in Yokohama, near Tokyo.

Morrow said that after he arrived in Japan last Friday, he saw a front-page story in Stars and Stripes about his parents seeing him wounded on television.

"Until then I didn't realize I was being filmed," he said. "I didn't know any newsmen were on the action with us."

HUNTING CONG

The soldier said his unit, from the 9th Infantry Division, was hunting Vietcong late in the afternoon.

"We were working near a woodline, close to a clump of grass," he said. "I remember the back of my foot coming down on a trip wire. That set off an explosion."

"I knew I was hit right away. A good friend of mine behind me was killed, hit by shrapnel in the heart. I was lucky."

"I was hospitalized in Vietnam just a few minutes after I was hit. They took me out by helicopter. They did a really great job on me."

"He's in good shape now," said Morrow's doctor.

Six-month sentences in the Oakland County Jail were ordered yesterday for two Pontiac youths who pleaded guilty last month to an armed robbery attempt.

The pair — Johnnie Shelton Jr., 18, of 184 Prospect, and Charles Threlkeld, 18, of 10 Utah — will be on two-year probation when they are released.

They were sentenced by Circuit Judge Farrell E. Roberts for the attempted holdup of Neil Watson, 33, of 4044 Clintonville, Waterford Township, on 10/15/66. Watson was injured.

They fled when another patron came on the scene, and were arrested shortly after by Pontiac police.

A proposed in-depth study of future institutional care needs in Oakland County may be requested by the Oakland County Board of Institutions May 26.

The study is expected to cost upwards of \$35,000, with the county's share from one-quarter to one-third of the total cost.

Prospects of a board of institutions study recommendation by the social services committee of the County Board of Supervisors.

Committee members decided to meet with the board of institutions May 26 to hear further details of the proposed study.

If a recommendation for a study comes from this meeting, the matter will be referred to the supervisors' ways and means committee for approval of county funding.

A rising number of older people who need institutional care and higher nursing home standards that may put some such institutions out of business are cited as two reasons for the need of a study.

County Dem Hits Back on Redistricting Charge

Oakland County Democratic Chairman George A. Googasian yesterday accused County Republican Chairman Joseph R. Farnham of deliberate misrepresentation in his "blast" Friday at Democratic members of the County Reapportionment Committee.

Googasian termed Farnham's statement as a "grandstand show" planned in advance and based on deliberate misrepresentation.

Farnham charged that the plan was drawn up in last-minute fashion and said Farnham's claim that it was a "Democratic plan" was false.

"Farnham was given a copy of the plan and had studied it prior to May 3 when the plan was presented at a public hearing in Southfield," Googasian said.

"No political changes were made between then and when the committee adopted the plan May 12."

COMPOSITION

As for being a Democratic plan, Googasian said the basis for the 1966 election, the board of supervisors would have been comprised of 17 Republicans and 10 Democrats rather than 16 Democrats and 11 Republicans as Farnham claimed.

Googasian said he met with Farnham before last Friday in an attempt to reach a compromise on the two pending reapportionment plans before the committee but that Farnham said: "We are not agreeing on anything tonight."

Farnham, the lone GOP member of the reapportionment committee, assured the four Democratic members Friday that the plan they approved would be challenged.

Googasian said yesterday that he welcomes a Court of Appeals review in view of Farnham's "unfounded claims."

Pontiac was one of the original four chapters that met at Jackson in 1924 to organize the Michigan Jaycees.

More than 50 area Jaycees will attend the two-day conference which opens tomorrow.

Michigan now ranks as the sixth largest Jaycee membership state in the nation.

Miller of 482 Lakeside, brings the Pontiac chapter's membership to more than 100. A native of Nebraska, Miller moved to Pontiac last year.

New state officers will be elected at the convention.
