

U.S. Transfers Sabrejets to Formosa

Governor Asks Corporation Profits Tax

Says 5 Per Cent Would Net State \$110 Million

Would Renew Business Receipts Levy, Cancel Franchise Tax

LANSING (AP) — Gov. Williams asked the Legislature today to enact a five per cent corporations profits tax to help finance the ambitious program he has outlined for the next fiscal year.

The new tax, he said, would yield an estimated 110 million dollars a year and erase the 46 million dollar deficit in his budget.

"The need we face for increased state revenues is simply the bill we must pay for decent educational opportunity for our youth, and for decent care and treatment of the mentally ill," Williams said.

Requested repeatedly by Williams during his six years in office, the plea for a corporations profits tax came as no surprise to most legislators.

In his message, delivered to the Legislature in printed form, Williams also made these tax proposals:

1. Retention of the present business receipts tax exempting corporations. Unless renewed, the tax expires March 31.
2. Repeal of the present corporation franchise tax.
3. Replacement of the "anti-qualified" inheritance tax with a "modern" estate tax.

The governor assured businessmen that the five per cent levy would actually mean only a 2.4 per cent tax increase.

This is because the state tax can be deducted from federal corporation taxes, he said.

Adoption of the corporations profits tax, repeal of the corporations franchise tax and partial repeal of the business receipts tax would give the state an additional 44 million dollars in revenue, he said.

Williams offered the corporations tax as the only simple and equitable means of raising more money.

Reviewing the state's financial history during the past few years, he said needs for new revenue have been met by "temporary expedients."

"We have come to the end of that road," he said. "It is our mutual responsibility to take (Continued on Page 2, Col. 5)

\$8 Million Home Project Planned

Development in Avon Township Will Include Shopping Center

An eight to 10 million dollar home development is planned at Livernois and Auburn Rds., Avon Township, by George Mills of Royal Oak, builder and contractor who will sign final papers for the purchase of the property tomorrow.

The 91 acres of land will be turned over to Mills by Ferdinand Kersting of 1081 Auburn Rd., Pontiac, a retired Michigan Bell Telephone maintenance worker who bought the farm in 1927.

Master plan for the subdivision includes 200 to 400 homes, ranging in price from \$15,000 to \$30,000.

Two wells already have been sunk to supply the development with water, and plans for a drainage system are being worked out. Application has been made to the state for subdivision rights, and gas and electricity applications have been made.

A shopping center, which would occupy 25 acres at the Auburn-Livernois corner, will be divided into four sections shaped into the form of a cross.

Sounds Fowled Up

LEXINGTON, Ky. (AP) — Patrolman Paul Fowler arrested Everett Fowler on a warrant signed by Judge Dan Fowler and sworn to by Mrs. Betty Fowler, charging him with falling to support the Fowler children. The couple, judge and patrolman are not related.

Story of a Pair of Shoes

DADDY'S LAST PURCHASE—A trip to the shoe store with her daddy, Joseph, ended in tragedy for Clara Marie Mann, 3, of Cincinnati. As they left the store they were hit by a car. Her father threw protective arms around Clara, saving her life, but he was killed. A thoughtful passer-by picked up the new shoes, a pair of \$3.50 brown oxfords, and returned them to Clara, shown above wearing the shoes and crying in her home.

Millionaire's Body Found Bound, Gagged in Home

From Our Wire Services

NEW YORK — Serge Rubinstein, financier and draft dodger, was found dead, bound and gagged, in his Fifth Avenue apartment today.

"It was either murder or robbery," said a policeman. "The place was turned upside down."

Police were unable immediately to give the cause of death. Detectives who were first on the scene said there were no marks on Rubinstein's body and no sign of blood in the room.

The bed had been slept in, but there was no immediate knowledge of what time the apparent assault took place during the night.

Police said an employee found Rubinstein. His hands and feet were tied with heavy twine.

His hands were bound in front of him. Rubinstein, 46, was facing deportation proceedings as an undesirable alien.

The former "boy wonder" of finance was convicted and imprisoned for World War II draft evasion.

The Russian-born financier lived lavishly in an apartment at 814 Fifth Ave., near 62nd St. He frequently was seen at swank night spots despite his troubles with the government.

Rubinstein had a varied international background. He grew up in Stockholm, Vienna, Paris and other European capitals.

He entered the United States in 1939 under the Russian quota but on a Portuguese passport. The Portuguese government (Continued on Page 2, Col. 4)

Icy Roadways Stall Thousands of Area Drivers

Pontiac Is Numbed as Mercury Descends to Frigid 1 Above

Thousands of work-bound motorists were held up by balky cars and icy roadways today as a frigid air mass moving down from Canada brought the coldest weather in nearly a year to the Pontiac area.

Residents in suburban areas reported temperatures as low as two below zero. But downtown Pontiac's low was recorded at one above.

And the Weather Bureau says no relief is in sight. It's here to stay through Saturday.

A spot check of towing services in this area revealed a flood of calls coming in from stranded motorists. Several dispatchers reported such a deluge of calls that two truck drivers were unable to answer all requests.

Although the Michigan State Highway Dept. reported some slippery spots on trunklines, Lee O. Brooks, chairman of the Oakland County Road Commission, said most Oakland County main and secondary roads were clear.

He said the commission's regular crewmen were bolstered by extra men last night to cope with drifting snow and ice. About three-tenths of an inch of snow fell.

Arthur Hilliker, Pontiac DPW office manager, said most city

Snow Hits 70 Inches in Copper Country

HOUGHTON, (UP) — One of the heaviest snowfalls ever experienced in the Keweenaw Peninsula area blocked secondary roads yesterday and pushed the season snowfall total near the 70-inch mark in the Copper country area.

More than 5 inches of snow were reported between midnight and 6 a. m. nearly an inch-an-hour rate. Another 3 inches was recorded during the morning.

Streets were clear of dangerous slippery spots.

He said crews, working most of the night, dumped an estimated 60 to 70 tons of salt on hills, main streets and at stop lights.

The coldest spot in the state was Ironwood with 25 below. Winds up to 25 miles an hour drifted heavy snows in the Houghton, Grand Rapids and West Branch areas. Similar gusts caused some drifting here.

Tonight, according to the U. S. Weather Bureau, the mercury will hover between four and eight degrees above zero, rising to a 14-18 above tomorrow. Snow, beginning tonight, is expected to diminish to flurries by Friday.

Although the thermometer registered a frigid one above in downtown Pontiac at 8 a. m., today the mercury rose to 14 by 1 p. m.

Yesterday, the temperature rose from a 10-degree morning low to 14 by 1 p. m.

Returns to France

SEN. CHARLES E. POTTER
WASHINGTON (INS) — Senator Charles E. Potter (R-Mich.), left today for France to represent President Eisenhower at the 10th anniversary of the Battle of Colmar Pocket.

It was in this World War II battle that Potter lost both legs when he landed on a German mine after diving into a foxhole.

Potter will be the only civilian from the U. S. to attend. France celebrates the Colmar battle annually.

Simplex Strike Peace Is Sought

Discussions Open After Day of Violence Around Southfield Dispute

Negotiations are under way today aimed at a peaceful settlement of the Simplex Industries strike which saw at least four shots fired, and one employee beaten up yesterday while 300 men milled around the Southfield Township plant.

Union and company officials began discussions at 9:30 this morning at the Michigan Labor Mediation Board offices in Detroit.

Oakland County sheriff's deputies, patrolling the factory at 24520 W. Twelve Mile Road, reported no new violence last night.

Only two carloads of pickets were on hand this morning. No employees attempted to cross the picket line and the plant remains shut down.

Former sheriff's deputy, Jack Fritch, one of the 15 men who have been working at the plant since the strike, was beaten up early yesterday morning.

Fritch, 24, of Oxford, said he was about to enter the Majestic Dinner at Square Lake and Telegraph roads when about 50 men surrounded him.

About a dozen started beating him. Fritch stated, and he suffered a black eye and numerous bruises.

Today's meeting was arranged late yesterday after Prosecutor Frederick C. Ziem called in Simplex owner Frank Doerner and Blaine Marrin, president of the striking Local 157, UAW-CIO.

Details were worked out during a conference with Circuit Judges Frank L. Doty, George B. Hartick and H. Russell Holland.

Larry Davidow, attorney for Doerner, said he would await outcome of negotiations before press- (Continued on Page 2, Col. 2)

Senate Minority Fighting to Limit Aid to Formosa

Resolution for Support Expected to Pass Over Group's Opposition

WASHINGTON (AP) — A small but determined band of senators fought today to narrow the area in which President Eisenhower would have Congress' approval to order American forces to shoot in defense of Formosa.

The President's fight-for-Formosa resolution, passed the House Tuesday, came up in the Senate for official action and almost certain passage, but probably not for some days.

Contending that the resolution would authorize "preventive war" action against Communist China, a small group sought to write in curbs on the grant of authority.

Sen. Knowland of California, the Republican leader, said that if the resolution were approved without changes there would be no "preventive war" and U. S. forces would fire only if fired upon.

Knowland told the Senate yesterday amendments proposed by Senators Humphrey (D-Minn.) and Kefauver (D-Tenn.), if adopted, would be "a green light for the Communists to come and take" Quemoy and Matsu. These two islands, just off the China coast, guard main approach routes to Formosa, seat of Chiang Kai-shek's Nationalist government.

Humphrey and Kefauver made it clear they had little hope the Senate would approve their amendments.

Humphrey said he believes "Congress has no choice to do anything but grant the power the President has asked."

Kefauver said in a separate interview he knows "a great many senators are with us in their hearts" who may not vote for the amendments.

"It is difficult to oppose a presidential request of this kind," he said. "But if the President really wants unity in Congress, he should act to meet some of the objections to this resolution."

The criticism voiced in preliminary debate yesterday centered on that portion of the resolution which, as generally interpreted, would give Eisenhower authorization from Congress to order attacks on troop concentrations or staging areas of the China mainland.

Humphrey has proposed to limit the defense area to Formosa and the Pescadores. Kefauver would put Formosa under United Nations supervision.

Sen. Flanders (R-Vt.), opposing the resolution, said he thinks it will pass "overwhelmingly" without substantial change.

All Muskegon County Using Voting Machines

MUSKEGON (UP) — Voting Machines will be used in all Muskegon County precincts for the first time in the Feb. 21 primary election, County Clerk Eugene R. Bergeron said today.

May Follow Rhee

P. H. SHINICKY

JOHN M. CHANG

With 79-year-old President Syngman Rhee ailing, South Koreans wonder who will succeed him if he dies. Two veterans who stand out as his heirs are: P. H. Shinicky, leader of the anti-Rhee Democratic Nationalist Party, and John M. Chang, former ambassador to the U. S.

Anti-Fluoride Group Forms

Planning to Circulate Petitions to Force Vote on Water Treatment

If, Malcolm Kahn, attorney for a group opposing fluoridation of water here, today said the group would circulate petitions this week asking that "the matter be put to a vote."

An organizational meeting of the group is scheduled for 7:30 p. m. today in the YMCA, Kahn said.

"We will probably select a name for the organization and decide who will assume responsibility at the meeting," he said.

This latest development follows the rejection by the City Commission Tuesday night of Kahn's proposal to put the fluoridation question on the April 4 ballot.

Two weeks ago, the Commission approved the fluoridation plan, which is to go into effect April 15.

Kahn said the group would seek a minimum of 3,000 signatures. City officials have stated that approximately 2,100 signatures of duly registered qualified city voters (Continued on Page 2, Col. 1)

Deadly Planes May Screen Tachen Moves

Plans for Evacuation of Islands Have Been Perfected

TAIPEH, Formosa (AP) — Swift and deadly U. S. Sabrejets roared in from Okinawa today in a dramatic move that underscored U. S. determination to defend this Chinese Nationalist island and its key outposts against any Communist invasion.

The Sabres, impressive victors over Russian-built MIGs in the Korean War, landed at a Nationalist air force base south of Taipei.

The Sabres, from the U. S. 18th Fighter-Bomber Wing, will probably be used to screen the evacuation of the Red-threatened Tachen Islands, 200 miles north of here.

And they would lend tremendous striking power to the U. S. 7th Fleet, now gathered in impressive array near here and ready for action if ordered.

Operational plans for the evacuation of the Tachens appear to have been perfected. Should they be put into execution, and meet Communist opposition, Formosa is the nearest territory in friendly hands from which land-based planes could support the fleet.

(A report from Singapore said the fleet itself apparently would be beefed up by the addition of the aircraft carrier Midway. The 45,000-ton flattop was due there Feb. 4, but U. S. Navy officials said she is now "heading north." Four other U. S. carriers, the Essex, Yorktown, Kearsarge and Wasp, are in Formosa waters with the fleet.)

In Taipei, the best guess was that Chinese Nationalist naval forces would carry out the actual evacuation of the Tachens, screened and covered by the gathering U. S. air and sea power.

(The Far East Air Forces in Tokyo said the 18th Fighter-bomber Wing of F86 Sabrejets, was moved to Formosa from Okinawa and the Philippines to provide "air power at any place needed.")

(A wing normally consists of 75 planes.)

Gen. Earle E. Partridge, FEAF commander in Tokyo, said Secretary of Defense Wilson ordered the transfer "to temporary duty bases in Formosa."

"Other FEAF offensive units are being redeployed to forward bases," Partridge added. He said the transfer "exemplifies the global capability of U. S. Air Force units (Continued on Page 2, Col. 8)

Navy Blackout Placed on News

Censorship on Seventh Fleet More Stringent Than in Korea

TAIPEH, Formosa (AP) — American correspondents with the U. S. 7th Fleet off Formosa are subject to an almost complete news blackout under Navy censorship.

The Navy's restrictions forbid any news story touching on the following five subjects:

1. Fleet movements.
2. Fleet size.
3. Fleet disposition.
4. Intentions.
5. Possible damage.

These restrictions have been applied so broadly and severely as to withhold anything but a trickle of minor feature stories.

The Navy insists the restrictions are not censorship. However, the restrictions are actually a censorship much, much tighter than any formal censorship applied by the U. N. Command in the Korean War.

All correspondents with the fleet have been required to sign fresh agreement to submit their stories to the ship captain or higher commander for clearance. Even if the stories pass the captain, they must be sent to the commander of the Pacific Fleet in Pearl Harbor, then to the Navy chief of information in Washington for ultimate release.

As a result, almost no news of the fleet has been cleared for publication.

The fleet commander, Vice Adm. Alfred M. Pride, has refused repeated requests, some made face-to-face, to allow newsmen to work aboard the flagship.

Scientists Begin Harnessing Sun to Create Food and Fuel Without Green Plants

WASHINGTON (UP) — A "sun civilization" of unlimited abundance may be on man's horizon. This possibility was proclaimed without fanfare at Berkeley, Calif., in the waning days of 1954.

At a time in human history when many a reflective person was wondering whether his species could survive hydrogen-atomic violence, a group of University of California scientists issued a statement.

The scientists, headed by Dr. Daniel I. Arnon, said they had harnessed sunlight to create sugar and starch out of water and carbon dioxide in the absence of green plants. It had never been done before.

No bells rang, no sirens shrieked, and neither the U. S. Congress nor the United Nations was called into extraordinary session.

But if the promise implicit in the Berkeley announcement can be fulfilled, human society is headed for a golden age of plenty in which there will be no war because there will be no reason for war.

Dr. C. F. Kettering, famous General Motors scientist-engineer, said recently that "we've never had any great inventions since the discovery of the wheel." The next great invention,

he said, will be artificial food production.

"The human race must some day become independent of plant life," he said, adding the prediction that it will do so "in the next 50 years."

The meaning of the Berkeley announcement was that man already has found a way to accomplish elementary photosynthesis without benefit of living green cells. The vision thus evoked is one of inexhaustible food supplies and inexhaustible power.

Scientists have a long way to go before they can manufacture fats and proteins as well as carbohydrates artificially in a factory.

But enough has been learned to justify belief that man—if he can stay alive for yet a few decades—will liberate himself from the tyranny of green growing things.

Should that come to pass, Dr.

Arnon said in Berkeley. "It would usher in a new era of unlimited abundance in which man would

be able to tap the energy of sunlight, directly and free himself of his dependence on green plants for food and energy sources.

The sun is the giver of all life on earth and the source of all power so far used by man on a big scale. It energizes life by means of complicated chemical processes employed by green plants and known collectively as photosynthesis.

The green leaves of plants trap sunlight and transform it into chemical energy. In the process they create out of water, carbon dioxide, and small amounts of other elements the tissues and materials on which all life subsists.

Once-living organisms, preserved every millions of years as hydrocarbons in the form of coal, oil and gas, supply man with stored sunlight which he converts into power for his machines by combustion.

Photosynthesis is amazingly com-

Mercury Skids Over Midwest

Cold Air Mass Drops Temperature 10 Below for Chicago Mark

By UNITED PRESS
The worst cold wave of the season dropped temperatures as low as 32 degrees below zero in the Midwest today and stretched its icy grip towards the Atlantic Coast. The mass of arctic air pushed the temperature below zero as far south as northern Missouri and central Illinois. The mercury tumbled five to 29 degrees from the Dakotas eastward to Indiana and Ohio.

It was by far, the coldest weather of the season for practically all of the Midwest and cold wave warnings were issued for West Virginia, Ohio and Kentucky.

The U. S. Weather Bureau said the bitter cold would move across the Midwest and Great Lakes today and then turn eastward to hit the northern Appalachians and New England tonight.

The cold wave was also expected to strike as far south as Virginia, where a low of 10 above in the west and north was predicted for tonight.

The Weather Bureau warned it will be zero to five above tonight in West Virginia, five below to five above in Ohio, five to five above in western Pennsylvania, and five to 15 above in Kentucky.

A warning of "much colder" was issued for New York City, while skidding temperatures and 20 to 30 mile per hour northwest winds were predicted for much of New England.

However, the East was not expected to match the polar temperatures early today in the Midwest—32 below at Bemidji, Minn., and Grantsburg, Wis., 20 below at Minneapolis, Minn., and St. Paul, Minn., 28 below at International Falls, Minn., 23 below at St. Cloud, Minn., 26 below at Duluth, Minn., and 13 below at Mason City, Iowa.

The mercury hit 10 below in Chicago early today to set an all-time record for the date and make it the coldest day in the Windy City since the 11 below reading of Feb. 8, 1951.

It was 34 degrees warmer in Anchorage, Alaska, where the temperature was a rather pleasant 25 above.

The cold wave hit Chicago late yesterday with a sharp shift in winds from the southwest to the northwest and the temperature began dropping steadily at the rate of two to three degrees an hour.

Anti-Fluoridation Group Forms Here

(Continued from Page One)

ers would be necessary for the initiative move.

The attorney said the petition, now being printed, call for an ordinance "to prohibit the addition of fluoride or any compounds of fluorine to the water supply of the city of Pontiac."

Such an ordinance, if passed, would supersede the resolution calling for fluoridation passed by the Commission.

The ordinance could be passed by the Commission, eliminating the need of putting it up for public vote, according to the city charter.

Adding fluorides to the municipal water supply is advocated as a method of reducing dental decay, especially in children.

Wrong Skunk Follows Right Bait Wrong Way

OWEN SOUND, Ont. (UP)—A frantic housewife telephoned police yesterday to report that a skunk was in her cellar.

"Make a trail of bread crumbs from the basement to the yard," Constable W. G. Crawford told her. "Then wait for the skunk to follow it outside."

A short time later the police phone rang again and the same housewife was on the line.

"I did what you told me," she said, "and now I've got two skunks in my cellar."

The Weather

PONTIAC AND VICINITY—Cloudy and continued cold with snow tonight diminishing to flurries tomorrow. Low tonight 4-8 above. High tomorrow 14-18. South-easterly wind 15-20 miles late tonight. Friday night partly cloudy and continued cold, low 5-10 above.

NOEL DECORATED—Frank (Pappy) Noel, Associated Press photographer, in Washington today receives the Bronze Star from Secretary of the Navy Charles S. Thomas in a Pentagon ceremony. Noel was decorated for his coverage of the Korean conflict and for standing up to the Communists during 32 months as their prisoner.

Peace Being Sought in Simplex Strike

(Continued from Page One)

ing for a court order directing the union to appear and attempt to show why they should not be cited for contempt for violating a restraining order issued Jan. 20.

The order limited pickets to six, ruled out violence and restrained pickets from blocking the driveway.

The company claims 30 of its 50 employees went on strike Dec. 14 without taking a strike vote or giving formal notice as required by law. A hearing was set for Feb. 7 for the union to attempt to show the injunction restraining picketing should not be made permanent.

Attorney for the union, Theodore Sachs, yesterday said Doerner had signed an agreement Dec. 1 recognizing Local 157 as bargaining agent for all employees.

But three union organizers were fired during the next two weeks, he stated, resulting in the walkout. In its court pleadings, the local says firing of the men constituted "unfair labor practices."

Doerner said, "I'm not against unions, I belonged once myself." The men were discharged, he stated, because they refused to do their jobs adequately.

Marrin said his local included about 30 small plants. His aim, he asserted, is to get the discharged men reinstated and begin contract negotiations. Sachs said the company had called off three previous meetings scheduled to attempt a settlement.

Statements made to Ziem and the three judges yesterday showed the pattern of the day's events:

Robert L. May, an employee in charge of shipping and receiving, said he arrived at the plant at 6:45 a.m.

He saw the crowd, he stated and proceeded to Doerner's home, less than a mile away. The two returned with another employee carrying a loaded shotgun in their car, Mays declared.

Between 60 and 70 men surrounded the car and started rocking it and he raised the shotgun into view, said Mays. At that point a sheriff's deputy directed the car to leave.

Doerner said he had to "push" about ten men in order to back his car onto Twelve Mile.

Sheriff's deputies said another employee Edmund H. Blakeman, of 21055 Nummer, East Detroit, arrived at 7:40 a.m. His car was surrounded, Blakeman charged, and hot coffee thrown in his face. There were 200 to 300 men at the plant then, he added.

Blakeman drove off about a half mile and parked on Telegraph just north of Twelve Mile. About 8:30 a.m. some 40 unionists clustered around his car, he stated, and he jumped out and fled across a field carrying a loaded .22 rifle.

When the men followed, throwing bottles, Blakeman said he fired three shots and thought he hit one man. But no gun-shot wounds have been reported to police.

Blakeman's car was then overturned in the ditch by the crowd, deputies said.

The last incident occurred about 1 p.m. when an unidentified plant protection man fired a pistol shot in the general direction of a picket said to have thrown a bottle through a plant window.

Ziem said today no warrants could be issued unless witnesses to the shooting were found or complainants come forth.

Jack Pearson, international representative for Local 157, stated yesterday that the union had adhered to the six-picket limit and the others were present merely as observers.

Violence occurred, he alleged, because unionists were threatened with guns.

Doerner said his firm is making equipment for the government arsenal at Oak Ridge, Tenn., and a certain amount of work must be done by Friday night or he will lose the contract.

Meanwhile, a suit was commenced in Circuit Court yesterday against Simplex by Edward Williams Jr., of 16137 Westbrook, Detroit.

Williams claims the firm owes him \$3,540 which he loaned for operating and payroll expense between April 21 and May 27 last year.

Britain, France Push Bonn Plan Despite Russia

LONDON (AP)—Britain and France have served notice they will push forward Allied plans to rearm West Germany regardless of Russia's threats to junk her 20-year mutual aid pact with the two Western powers.

The two governments made public today the texts of notes delivered yesterday to Soviet Foreign Minister V. M. Molotov. They replied to Russia's notes last month warning that she would cancel mutual aid treaties signed with the two nations in World War II, if the Paris accords to rearm West Germany in the North Atlantic Treaty Organization are ratified.

Surviving, besides his parents are four sisters, Mrs. Geraldine Ruth Turner of North Carolina, Sandra Kay, Cynthia Ann and Dawn Renee, all at home.

Alfred Burmeister Jr.

Funeral service for Alfred Burmeister Jr., month-and-a-half-old son of Alfred and Genevieve Bone Burmeister of 2312 Maddy Lane, will be Friday at 2 p.m. from Hutton Funeral Home, the Rev. William E. Hakes of First Baptist Church officiating.

Born Dec. 12, he died Sunday in Ford Hospital.

Surviving, besides his parents are four sisters, Mrs. Geraldine Ruth Turner of North Carolina, Sandra Kay, Cynthia Ann and Dawn Renee, all at home.

James N. Hunter

James N. Hunter, 75, 1855 Manse, Scott Lake, died yesterday in Bloomfield Hospital after a five month illness.

Born in Tuscola County, he was the son of Alex and Ellen Paul Hunter and married Carrie Rossman in Reese Jan. 28, 1903.

A member of the Catholic Church, he attended schools in Tuscola County before coming to Pontiac from there 33 years ago. He was last employed by the Oakland County Road Commission.

Surviving are two daughters, Mrs. Clara Wilson and Mrs. Ellen Lippert and two sons, Neil and Raymond all of Waterford Township.

Funeral arrangements will be announced later by Hutton Funeral Home.

Breakin Nets Thieves \$500 at Restaurant

Thieves broke into the Hickory Hut restaurant at 20 S. Saginaw St. this morning and stole \$500 after forcing open a 200-pound safe, Pontiac Police reported today.

Detective Sgt. John A. DePauw said that an estimated \$10 also was stolen from the cigar counter after the thieves forced a basement door to gain entry. Owner Adrian Fleming of 359 S. East Blvd. was quoted by police as saying the breakin probably occurred after closing hours this morning.

Woman Killed in Ecorse

DETROIT (AP)—Mrs. Julia Gorman, 81, of River Rouge, was struck and killed by a car in Ecorse Wednesday night. She was the suburb's first traffic fatality of the year.

She won an earlier deportation fight when the government tried unsuccessfully to oust him on the ground he entered the United States on an illegal Portuguese passport.

Williams dismissed the idea of a state property tax, abolished twenty years ago, on the grounds that is the mainstay of local government.

"To invade this field of taxation would simply move the financial crisis from the state to the local levels," he said.

Taxes on beverages, confections or amusements would put more of a burden on consumers, create confusion and hike costs of administration, he said.

The governor also turned thumbs down on any personal income tax at this time. And he said there is little chance that the corporations profits tax would lead to a personal income tax.

Right now, he said, about 70 percent of state taxes are levied on consumers. "Our present system of meeting the price of state government puts a premium on inability to pay rather than ability to pay," Williams declared.

Pontiac Deaths

Sharon Kay Bruner

Prayer service will be held Saturday at 10 a.m. from the Farmer-Snoover Funeral Home for Sharon Kay Bruner. The Rev. Paul R. Havens, pastor of the First Methodist Church, will officiate with burial in Perry Mt. Park Cemetery.

Sharon is the five months old daughter of Fred C. and Barbara Kegley Bruner, 204 State St. She was born in Pontiac August 18, 1954 and died yesterday morning at the Pontiac General Hospital. Sharon is survived by her parents.

Alfred Burmeister Jr.

Funeral service for Alfred Burmeister Jr., month-and-a-half-old son of Alfred and Genevieve Bone Burmeister of 2312 Maddy Lane, will be Friday at 2 p.m. from Hutton Funeral Home, the Rev. William E. Hakes of First Baptist Church officiating.

Born Dec. 12, he died Sunday in Ford Hospital.

Surviving, besides his parents are four sisters, Mrs. Geraldine Ruth Turner of North Carolina, Sandra Kay, Cynthia Ann and Dawn Renee, all at home.

Williams Would Tax Corporations Profits

(Continued from Page One)

prompt, prudent and courageous action to meet the necessary costs of the high level of civilization this commonwealth has achieved."

Williams dismissed the idea of a state property tax, abolished twenty years ago, on the grounds that is the mainstay of local government.

"To invade this field of taxation would simply move the financial crisis from the state to the local levels," he said.

Taxes on beverages, confections or amusements would put more of a burden on consumers, create confusion and hike costs of administration, he said.

The governor also turned thumbs down on any personal income tax at this time. And he said there is little chance that the corporations profits tax would lead to a personal income tax.

Right now, he said, about 70 percent of state taxes are levied on consumers. "Our present system of meeting the price of state government puts a premium on inability to pay rather than ability to pay," Williams declared.

A corporations tax, he said, would be based solely on a company's ability to pay. Under his plan, corporations showing no profits would not pay any tax.

Corporations can well afford to pay a state profits tax at this time, the governor declared.

Besides climbing profits, corporations recently got a tax break through repeal of the federal excess profits tax, he said.

Williams said there is no evidence that corporations profits taxes now in effect in 32 other states have resulted in higher prices.

"In general, a corporation will not add such a tax to the price of its product as long as it is in a market competition," he said.

Williams urged the legislature to junk the present "antiquated" inheritance tax and replace it with a "modern" estate and gift tax.

The present law, he said, "has numerous loopholes, notably the distribution of property by gift in contemplation of death."

Repeal of the present corporate profits tax would reduce revenues by about 38 million dollars, Williams estimated. Reduction of the business receipts tax would decrease revenues by another 28 million dollars.

Adoption of the corporate profits tax would yield 110 million dollars, leaving a net revenue gain of about 44 million dollars, he said.

Williams presented the legislature last week with a record 292 million dollar budget, including a 25 million dollar item for college and university construction.

Science May Harness Sun to Create Food

(Continued from Page One)

perfect, "It may be that from that point on, since both water and carbon dioxide, and sunlight, are plentiful commodities, the food supply problem of the world, which has been a limiting factor on population growth, would be solved."

Just what form these artificial foods and fuels of the future will take can scarcely be imagined. Perhaps the synthetic food materials will be fed to livestock from which man will continue to depend for his main supply of protein.

Perhaps he will consume directly the products of his sun-factories. If so, what gastronomic shocks or delights await him can only be guessed.

The Day in Birmingham

State Civil Defense Men Boost Program Locally

BIRMINGHAM—State Civil Defense officials last night outlined statewide defense plans, which City Manager Donald C. Egbert today termed "a realistic and intelligent approach to the problem."

Speakers were Homer Higbee, executive assistant to the state CD director, and John E. Pokorny, director for the metropolitan area.

Addressing Egbert, Roland W. Reese, former local deputy CD director, and others, the two men spoke of reorganization in the past year that has simplified civil defense operations.

The Ground Observer Corps, Civil Air Patrol and American Red Cross will operate under their own administrative procedures, except during enemy attack, when they supplement civil defense operations.

In time of natural catastrophes, such as tornadoes, the situation will be reversed.

A state-wide educational program outlining self-preservation is also in the offing.

On a local level, simplification will also be stressed, Egbert said. "Ordinary municipal services (police, fire and health departments) will be the nucleus, together with trained assistants, for a civil defense organization here," he stated.

The program was revived here some months ago, but both the director and one deputy recently resigned.

Egbert said the City Commission is "very sympathetic to the problem, and must now choose between a part or full-time Civil Defense director."

Annual father and son banquet will get under way at 6:30 tonight at Embury Methodist Church. Activities include dinner served by the Woman's Society, and William Lenard with his program of "Magic as You Like it." Howard Palmer will toast the sons and Richard Bidigare the dads.

Open to the public is a square dance being sponsored by Hickory Grove School PTA, from 9 p.m. to midnight tomorrow at the school auditorium. Tickets can be obtained at the door.

U.S. Sabrejets Sent to Formosa

(Continued from Page One)

to move at jet speeds to any trouble spot."

Okinawa is 400 miles from the troubled Tachen Islands, where the Nationalist garrison soon may be withdrawn under cover of U.S. sea and air power. Transfer of the Sabrejets brought them within 200 miles of the Tachens.

Signs mounted that the Nationalists would evacuate their 15,000 troops and 15,000 civilians from the two small Tachen Islands, which lie in an exposed position 200 miles north of Formosa and only 12 miles from the Communist China mainland.

Nationalist four-engine bombers flying out from Formosa in several waves last night and early today attacked Yidingshan Island, eight miles north of the Tachens, official reports said.

Their targets apparently were Communist big guns which could harass an evacuation of the Tachens.

(This could mean that long-range bombers were being moved closer to the troubled Formosa area, possibly Okinawa.)

Air activity on Okinawa has quickened in tempo, both defensively and offensively, since the Formosa crisis began. An island-wide practice blackout was held Tuesday night, and several practice alerts have been held since.)

Just Some Old Bombs

DUGWAY PROVING GROUNDS, Utah (AP)—A tremendous explosion reverberated across Utah's western desert yesterday, sending a black cloud of smoke high into the air. The detonation of half a million pounds of obsolete bombs was set off by Army and Air Force personnel.

There are 200 kinds of fin and shellfish in Chesapeake Bay.

WINNER—Mrs. Doris Clore Demaree, of Franklin, Ind., is the 1955 winner of the Russell Colgate distinguished service citation, given annually for outstanding achievement in Christian education. She will receive the award on Feb. 8 when the National Council of Churches meets in Cincinnati, Ohio.

Firs Menaced by Bark Beetle

Pacific Northwest Insect Infests 500,000 Trees; Controls Sought

EVERETT, Wash. (UP)—A little bug, known as the Silver Fir Bark Beetle, has bored its way into more than 500,000 acres of forest in western Washington and is causing millions of dollars damage to the Pacific Northwest's most vital industry.

R. V. Dickhaus, Bellingham, Wash., forester, said most of the damage has occurred in the Mt. Baker and Day Lake areas of Skagit and Whatcom Counties.

The beetle first was discovered here in 1947 by W. V. Catlow, chief forester of the Puget Sound Pulp and Timber Co.

So great has been the damage that a special group, known as the Silver Fir Beetle Committee, has been formed to combat the menace.

Federal, state and private industry forest agencies are cooperating with the committee in a concerted research program to discover methods for controlling the insect.

All forest agencies are re-orienting their logging plans to hold down the loss of timber from the infestation, Dickhaus said.

So far this year 140,000,000 board feet of trees have been harvested in an aggressive salvage logging operation in the areas infested to lessen the potential loss.

Dickhaus said the most immediate need in the fight against the beetle is construction of logging roads so infested timber can be hauled out of the woods before it deteriorates.

Dickhaus is the chairman of the committee coordinating the campaign.

The bug destroys timber by boring its way under the bark where it dines on soft wood fibers and brings up its offspring. The children, which grow quite rapidly, are hungry critters that spread out looking for more soft wood. Before long the tree loses its strength and begins to deteriorate.

Of course, some of the little beetles look for greener pastures, or, in this case, greener trees, and they move on to the closest tree. It doesn't take long for a whole forest to become infested.

After the flowers of the peanut plant have fallen, the flower stalks turn sharply downward and dig their way into the soil, where the bulb at the end of each stalk enlarges the peanut pod.

Boats Eyed as Antidote to Nation's Traffic Woes

By PHYLLIS BAYTELLE
NEW YORK (INS)—I being of unsound stomach do not like motor boats. I've discovered when a man says Ahoy Babe, let's go for a spin, he means just that.

Nevertheless, I've been following with delight the progress of the just-completed National Motor Boat Show, and the enormous sales of craft resulting therefrom, and for a good reason. I see in motor boats one great potential value to humanity.

Every new boat a-weigh means at least one car is being kept off the streets!

And the more families who put out to sea over weekends, the easier for the rest of us to hike over to grandma's house or the race track on a Saturday or Sunday.

For years now, far-thinking auto owners have cherished this vague dream of ultimately easing the traffic problem in all cities reasonably close to waterways by selling our neighbors on boats. Now, judging from the late sales figures on yachts, cruisers, sloops and make-your-own-canoe kits, it may be a reality sooner than anticipated.

At the motor boat show alone, more than 200,000 potential men, women, children and canine sailors rushed up to New York's Kingsbridge Armory to gawk greedily at the latest wonders of the waves. They not only gawked. They wrote \$15,000,000 worth of checks for new boats.

This figure, which represents at least a 10 per cent increase over boat show business last year, is a mere minuscule of the expected sales this year. The big sportsmen's shows in Boston and Chicago are coming up next week, and Neptune only knows what they will lead to! What does all this mean?

Well, since the boats on display ranged wildly in price from a \$47 dinghy to an \$88,000 yacht with a 51-foot promenade deck and sleeping accommodations for a Perle Mesta party, it is difficult to estimate how many craft, exactly, were sold. But those in the "boat show know" conclude some 4 to 5 thousand were purchased on the scene.

Now, you know how the average new boat owner acts (if you don't, boy, you've got to see to believe). He will take not only his own family, but friends of the wife, friends of the kids and occasionally even an in-law on long week-

end cruises to show off his new pride and buoy.

This means that for each of the 5,000 boats sold, we can count on at least one (and in some cases as many as 5 or 6) family cars being parked dockside on lovely weekend days this summer. These are cars which normally would have been cluttering the highways, having flat tires, running out of gas, moving snail-like past golf courses and contributing, in countless other irritating ways, to traffic congestion.

There may appear to be a flaw in my thinking on this matter.

General Motors (they make cars) has been bragging around that the sale of autos, also, is picking up. My optimistic answer to that is: Of course. Those who go down to the sea in ships have got, somehow or other, to get to the shore.

But you can count on the hot boating enthusiast to hoist anchor by dawn at the latest and drop it sadly no earlier than sundown. Their portal-to-portal traffic won't bother us sensible midday motorists in the least.

(Copyright 1955)

Mail Delivery Ends Journey for Boxholder

LEWISBURG, O. (UP)—John F. Lock has a mail box in front of his house on Rural Route 2 after trying for 52 years to get delivery service.

Lock, 74, said that during the 52 years he has been trying to have a rural route extended to where he lives he walked or drove 6,250 miles in his almost daily trips to a mail box.

Lock said the route was established in 1903 and that he had tried since to have it extended the 1,056 feet to his home.

"We felt that we should have had the extension 20 years ago but always failed in our attempt," Lock said.

Lock got action in June when he wrote his congressman, Rep. William McCulloch then wrote to the Post Office department's regional office in Cincinnati, which sent the matter to the Cincinnati district office, which investigated and approved the extension.

Arizona's tourist business has gained 600 per cent in 10 years.

Mississippi Moves to Equalize Schools

JACKSON, Miss. (U) — The Mississippi Legislature took the first step toward equalizing Negro and white schools this week when the Senate approved a 60 million-dollar bond issue and the House upped cigarette taxes to help pay for it.

The boost in cigarette taxes from four to five cents a pack is estimated to produce \$1,300,000 annually. Addition of a tax on snuff and chewing tobacco — the first of its kind — will produce another \$300,000.

The taxes are part of a program designed to bring in an extra 20 million dollars a year to

raise the minimum standards of white schools and make Negro schools equal.

Unable to Pay Alimony; Broke, Producer Says

LOS ANGELES (U) — Actress Judy Garland's husband Sid Luft claims he's broke and living on borrowed money.

A former wife, actress Lynn Bari, asked that he be held in contempt because he hadn't bought a \$10,000 educational endowment policy for their son John, 5, as ordered by another court. The contempt charge was dismissed.

Luft testified he was broke, that Miss Garland didn't earn anything last year and that his producer's share of profits from her "A Star Is Born" hadn't started to come in yet.

Truman Nears Goal in Library Campaign

INDEPENDENCE, Mo. (INS) — Former President Truman says there will be no difficulty in raising the \$750,000 balance needed for the Harry S. Truman Memorial Library to be erected in his hometown of Independence.

"More than one million dollars has been contributed," he said, "and as soon as the architect's plans are finished we will let the contract and start to work within 30 or 60 days. When construction starts, the work will go right along."

Thus the former President dream — of establishing an historical research center at the gateway to the old West — finally

nears fulfillment. He hopes it will be used extensively by students in the 83 colleges and universities within a 300-mile radius of Independence.

Atomic Debris Useful for Weather Research

NEW YORK (INS) — A Weather Bureau scientist states that debris in the atmosphere from atomic explosions is proving to be a valuable tool in meteorological research.

Dr. Lester Machta told the American Meteorological Society meeting at New York University that atomic debris — dust, radioactive particles and sometimes snow or raindrops formed from atomic clouds — can be used as a tracer.

The weatherman, with aid of the tracer, can tell how accurate their predicted air paths actually are.

Man, Badly Burned, Lies Alone 3 Weeks

CAMBRIDGE, Ohio (U) — A man who lay helpless with heavy burns for three weeks before discovery has been hospitalized here in critical condition.

Victor J. Killiany, 60, who lives alone, was discovered yesterday in his small Cambridge country home by a neighbor.

From his bed in Guernsey Memorial Hospital he told authorities he managed to keep alive by eating bits of bread after a kerosene stove exploded, burning his entire body.

President Grover Cleveland rejected an appeal in 1893 to have Hawaii annexed to the United States.

Prisoners' Guests Run Afoul Law on Jail Visits

DeLAND, Fla. (UP) — If you have relatives in jail, it might be wiser to write them than to visit them.

Fred Alderman came to the jail here recently to visit his parents and sister, who had been arrested on lottery charges. Alderman promptly was arrested for drunkenness.

A few minutes later Bertha Carter dropped by to visit her husband. She was arrested on a charge of driving without a license.

Both Alderman and Mrs. Carter declined the opportunity to stay and keep their relatives company. They paid bonds and departed.

Hollywood became part of Los Angeles city in 1910.

Decide Cadillac as Jet Base Site

Air Force Will Request House to Free Money for Construction

WASHINGTON (AP)—Air Force officials say they will ask the House Appropriations Committee to release \$2 million dollars for construction of a jet air base near Cadillac.

Rep. Cannon (D-Mo.), chairman of the committee, earlier this month ordered the money held up after he learned the sum was granted by the last Congress to build the base near Homestead in Benzie County.

The House Armed Services Committee rejected the Benzie site after Congress had acted. Air Force Secretary Tailbott then picked Cadillac—in Wexford County—over the third site under consideration—Kalkaska near Traverse City.

A letter written by Chairman Vinson (D-Ga.) of the Armed Services Committee strengthened Air Force support of the Cadillac site. Vinson wrote Rep. Thompson (R-Mich.) and Rep. Knox (R-Mich.) that his committee would not hear any arguments against Cadillac unless they relate to national defense.

The Homestead and Cadillac sites are in Miss Thompson's district. The Kalkaska site is in Knox's district.

UM Extension Classes to Start Here Next Week

Extension courses offered by the University of Michigan will start Feb. 1 and 2 in Washington Junior High School.

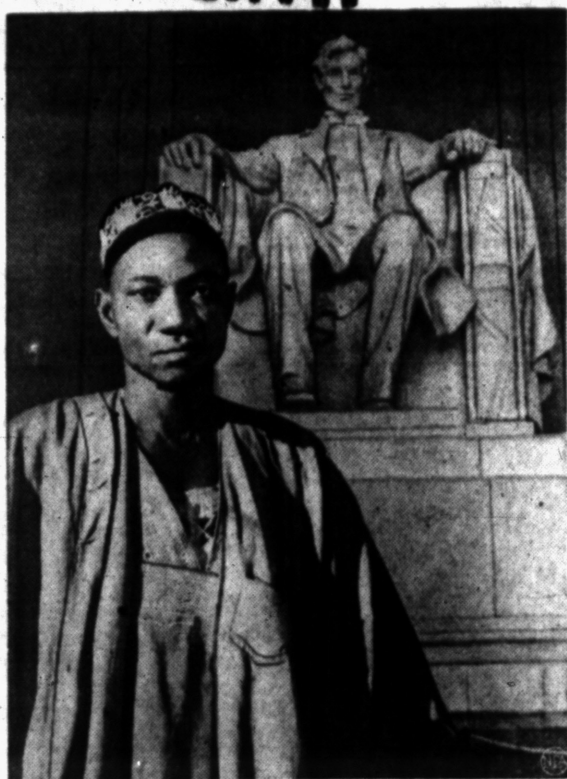

Classes, on both the graduate and undergraduate levels, in education and sociology will be given each week through May 23.

An education course in the psychology of child development starts Feb. 1 at 4:30 p.m. This covers a systematic presentation of facts and generalizations concerning the growth of children from birth to maturity, emphasizing the "whole child."

A class in sociological principles and problems begins at 7:30 p.m. This is an introduction to the mode and procedure of sociological explanation in its major fields of theory and application.

Two education courses are scheduled for Feb. 2, one in the visual-sensory aids in education at 4:30, and the 7:30 class covering the philosophy of education.

Registrations will be taken at the class sessions. Classes will be two hours long.

FIGHTING FOR A SIMILAR CAUSE—The Tolon Na, Yakubu Tall, attending the Moral Rearmament Assembly in Washington, D. C., represents over one million people from Africa's Gold Coast. Standing in front of the Lincoln Memorial, he said: "What Abraham Lincoln did for America, moral rearmament is doing for Africa." Over 1250 delegates from 51 countries are attending the assembly.

Boy Steals \$1,025 for Mom to Spend

HARBOR BEACH (AP)—Police Chief Donald G. Chamberlain says a 10-year-old Harbor Beach boy has admitted stealing \$1,025 from three business places and giving it to his mother, who promptly spent it.

Chamberlain said the money, all in currency, was taken during business hours from cash registers at the Robert Juth Auto Sales Agency, the Esther Wright Beauty Shop and the Topping and Hazel Farm Implement Store. All are in this thumb area community.

The boy's mother admitted yesterday she spent the money knowing her son had stolen it, Chamberlain said. She was released until police decide what charge to file against her.

The boy was turned over to Huron County juvenile authorities.

Accident Ends Custom

FREMONT, Ohio (AP)—Police will no longer stop trucks to solicit drivers to purchase tickets for the annual policeman's ball. Mayor John Collins put an end to the Police Department's 19-year custom yesterday after Patrolman Harry Grabenstetter, 27, was struck by an automobile while standing in the middle of a street stopping trucks.

Men's Fashion Woes Blamed on Gals' Tastes

DETROIT (UP)—The trouble with men's fashions is women, a group of men's clothing experts moaned today.

The experts, among the 300 at the 46th annual meeting of the Michigan Apparel Club, said male clothing is primarily styled to catch the feminine eye.

"After all," complained one representative, "women purchase 85 per cent of men's clothing. If we want to sell our goods we have to cater to their tastes, even if men have to wear the clothes."

Another salesman said the only way to get women out of men's clothing was for the men to get together and agree on a fashion dictator, like the women's Christian Dior.

"What the men of this country need," he said, "is a strongman to dictate male clothing styles." But since the strongman hasn't appeared, the fashion experts admitted their exhibits of male spring and summer clothes were deliberately styled to please women.

There is a bicycle for every two people in Sweden.

Teachers' Auto Hits School Bus

3 Instructors, 3 Pupils Injured in Crash Near Prescott, Mich.

PRESCOTT (AP)—Three Richland Township school children and three of their teachers were injured near here yesterday in the collision of an automobile and a school bus loaded with 40 to 45 children.

The crash hurled the bus into a snow-filled ditch along M70, two miles north of this northeastern Michigan community.

The front end of the vehicle

was badly battered and the engine was knocked loose from the frame. The children, however, suffered only minor injuries. Three were treated by a doctor and released. The others engaged with bruises.

The three teachers all were riding in the automobile. Edwin Schiel, 33, the driver, and Clifford Snyder, another teacher, were hospitalized. Mrs. Mary Myas, the third teacher, suffered a fractured wrist.

Peter L. Currie Jr. of Prescott, driver of the bus, said he made a stop at the intersection and had started to cross the state highway when the accident occurred. Shiel's car also was badly damaged and knocked off the highway.

Police are continuing their investigation.

Dulles Presents Award to Kalamazoo Essayist

WASHINGTON (AP)—Secretary of State Dulles yesterday presented a gold medalion and a \$500 savings bond to Mary Margaret Boyen of Kalamazoo, with the comment that he is glad to see young people take interest in world peace problems.

Miss Doyen, a freshman at DePauw University, Greencastle, Ind., won a high school essay competition over 325,000 other students. The annual competition is sponsored by Lawrence S. Meyers, president of L. & C. Meyers Co. of New York city.

Miss Doyen is the daughter of Mr. and Mrs. Harold Doyen.

The human heart contracts about 100,000 times a day.

City Librarian Discusses Literature Offered Youth
Adah Shelly, Pontiac City librarian, gave a book review when members of Child Study Club Group Three gathered at the Miami road home of Mrs. J. K. Schachern. Miss Shelly also discussed the type of literature being offered the youth of our community. She brought with her recent children's books.
In commenting on reading in Pontiac she stated that television has not lessened the reading of children as far as the use of our local library is concerned. She pointed out it is important that a child has books at his own reading level so that reading will be a pleasure to him.
During the business meeting it was voted to co-operate with the general Federation of Women's Club in contributing money to the Pontiac civic auditorium fund.
It was announced that members will attend the March 15 meeting of the Pontiac City Commission and also the Feb. 9 concert of the Pontiac Symphony Orchestra.
Guests of the club at the Tuesday meeting were Mrs. Donald E. Hanson and Mrs. Donald Rosie. Assisting the hostess were Mrs. William Janacek, Mrs. John Waddell, Mrs. Bob F. Rogers and Mrs. Carroll Braid.

Hayride Plans Are Discussed
Plans were discussed for a hayride to be held during May when members of Gamma Chapter of Beta Theta Phi sorority met at the home of Mrs. Terry Thomas on Avery road. Mrs. Thomas Moffat assisted the hostess at the recent gathering.
The next meeting will be held Feb. 22 at the home of Mrs. Roscoe Lund on Payton road.

Sue Harrison, daughter of the Barrett Harrisons of Lexington drive, was among the students at Golf Park College who modeled fashions in the annual college style show. Spectators from the coast area were on hand to witness the event held at Gulfport, Miss.

President's Ball Is Held

Members and guests of Promenaders Square Dance Club met at Daniel Whitfield School for a President's Ball Tuesday evening. Honored guests from other square dance clubs who attended were Rex Lawrence, Mr. and Mrs. Sid Olson, Mr. and Mrs. Cecil Elsholtz, Mr. and Mrs. Melvin Sheller, Mr. and Mrs. Ralph Ireland and Mr. and Mrs. John Streit.
Presidents of the various clubs which were represented called dances during the evening. Mr. and Mrs. Lyle Cox were welcomed back into the club and new members welcomed were Mr. and Mrs. Owen Rindfus and Mr. and Mrs. Glenn Holsington. Mr. and Mrs. Jerry Schultz were among the guests during the evening. Decorations were taken care of by Mr. and Mrs. Carl Munn and Mr. and Mrs. Robert Bruce.

Bride-Elect Lists Her Attendants

A miscellaneous bridal shower given Wednesday in honor of Gerta Hedlund was the occasion chosen by the honoree to announce the attendants for her wedding. She will become the bride of Jerry Swanson on Feb. 5 at Christ Lutheran Church of Waterford.
The bride-elect is the daughter of Mr. and Mrs. Walter Hedlund of Clive street and he is the son of Mr. and Mrs. Nels Swanson of Birchcrest street.
Mrs. Harold Wiggins will attend Gerta as matron of honor. Margaret Smith and Mary Lou Pipe will be bridesmaids and Linnea Hedlund, sister of the bride-elect, and Sandra Swanson, sister of the prospective bridegroom will be junior bridesmaids. Leslie Rigg will be flower girl.
Mrs. Wiggins was hostess in her home on West Ypsilanti avenue for the Wednesday shower which was attended by 20 guests.

City Commissioner Talks to WCTU

Floyd Miles, city commissioner, talked on "A Christian's Responsibility as a Citizen," before members of the Pontiac WCTU when they met recently at First Presbyterian Church.
Mrs. Roy Fosbender had charge of the program. "The Christian's Philosophy of Life," was the devotional topic. Mrs. Roy Riley, Mrs. Allen Ebey and Mrs. Floyd Locke read articles on Christian Citizenship.
The next meeting will be a Frances Willard tea at the home of Mrs. Riley on Washington street, Feb. 22.

Homemakers' Club Discusses Food

Modern Homemakers Club met Tuesday at the home of Mrs. James Alexander on Dixie Highway. The main event of the evening was a discussion of facts, fads and frauds about foods led by Mrs. Myles Werner and Mrs. Harold McAllister.
The slipcovering project was discussed. Mrs. Don McMorris was voted as a new member.
Guest of the meeting was Mrs. Cecil Bell, a prospective member.

Sorority Gathers at Summers' Home

Mrs. Emma Olson was a guest of Omega Mu Sigma Sorority when the group gathered at the Chadwick drive home of Mrs. Alfred Summers for a cooperative dinner.
Mrs. Olson showed movies of her trip to England and Scotland and Mrs. Elwynn Tripp showed slides of Florida at the Tuesday affair.

House Probes to Be Curtailed

Rules Committee Plans to Crack Down on 'All Unnecessary Quizzes'

WASHINGTON (AP)—The House Rules Committee has announced a crackdown on congressional investigations during the present Congress.

The announcement was made to the House by Chairman Smith (D-Va.), who said it had the approval of the Democratic and Republican leadership.

The Rules Committee must approve all proposals for special investigations by House groups.

Smith said that in past years there has been "a good many unnecessary investigations" and the objective of the new policy is to curb "this matter of investigations all over creation."

He said the rules group will approve no investigation unless "a good case is made for it" and the exact nature of the proposed probes are outlined.

In short, he told a reporter, "There will be no fishing expeditions."

Smith said more than 80 proposals for investigations are

pending in the Rules Committee, many of them involving "duplications and unnecessary excursions."

About the time of Smith's House announcement the Senate Rules Committee approved nine requests for funds to set up new Senate investigations or extend old ones. More than a half million dollars in funds was involved.

At the request of Sen. McCarthy (R-Wis.), the Senate Rules Committee put off action on a request from Chairman Johnston (D-SC) of the Civil Service Committee for \$125,000 for an inquiry into the administration security program. McCarthy said he wanted to know first "just what they want to investigate."

Town's '54 Vital Statistics Show Status Is Still Quo

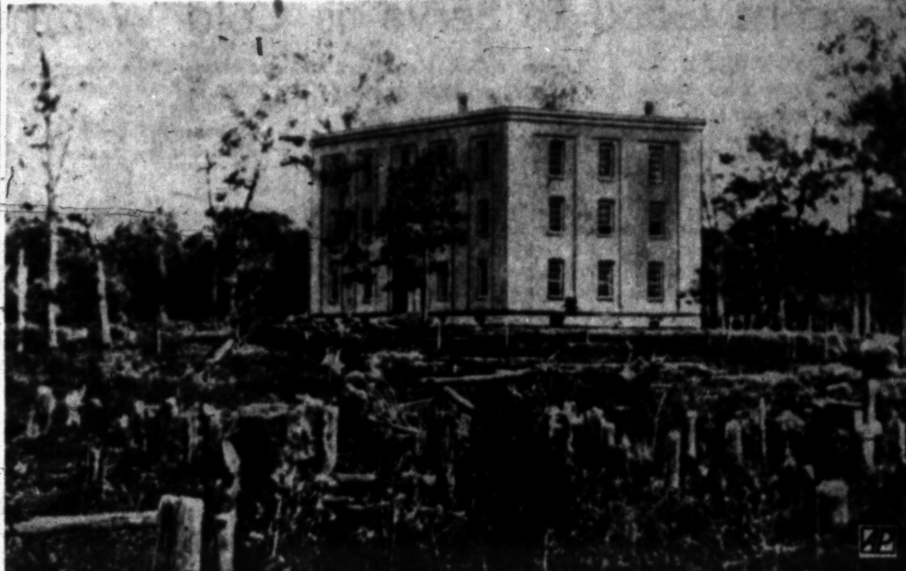

MT. WASHINGTON, Mass. (UP)—The town clerk reported the following vital statistics yesterday for 1954:

"No deaths, no weddings, no births."

Mt. Washington's population is 42.

Two-Room House Stolen

EDMONTON, Alta. (UP)—W. Oakie told police today somebody stole his house. Neighbors said they saw someone load the two-room house on a truck and drive it away.

FIRST BUILDING AT 'STATE'—Nearly 100 years old, when Michigan State College was a clearing in the wilderness, the first building on the campus looked like this. Beaumont Tower now stands on the spot.

100 Years Old on Feb. 12

MSC Forms Monument to Pioneers in Education

This is the first in a series of two articles on the Michigan State College Centennial.

EAST LANSING (AP)—A revolutionary notion was stirring in the minds of those interested in education about 100 years ago.

This was the idea that a farmer—a plain, dirt farmer, not just a gentleman farmer—should and could go to college.

The new philosophy of education for the common man led to the establishment of Michigan State College, now busily preparing to celebrate its centennial as the nation's first agricultural college.

Farmers made up more than 85 per cent of the population 100 years ago. But colleges and universities followed the European tradition of devoting their teaching to the education of doctors, lawyers, clergymen and "gentlemen."

Michigan was a raw, new agricultural state at the time, just starting to grow with its first tides of immigration. The State Legislature became interested in this new idea of a "school for farmers" as early as 1850.

On Feb. 12, 1855, Gov. Kingsley S. Bingham signed the law which created Michigan Agricultural College.

Michigan State will open its 100th anniversary celebration Feb. 12 with a Founder's Day to mark that signing.

The infant college began with the purchase of 667 acres of

swampy, uncleared land near Lansing at \$15 an acre. Three buildings were erected on the muddy clearing, a college hall, a dormitory and a small brick stable.

Classes started in the spring of 1857 with an enrollment of 63 farm youths.

Joseph R. Williams, a Detroit attorney who was the first president, showed himself a man of great vision with his remarks that day.

"Men will brand it as an experiment," he said of the college. "We have no guides and no precedents. In its infancy, the institution must rely on the caprice of successive Legislatures."

"The adoption of a permanent policy requires a stable and reliable support that will carry it through adversity, regardless alike of the frowns or smiles of indifference, ignorance or malice."

He concluded: "As to this youthful state belongs the honor of establishing the pioneer state institution of the kind, and initiating what may prove one of the significant movements of the age, may she enjoy the glory of its complete and ultimate triumph."

The first students received their tuition free, paid two dollars a week board and four dollars a year room rent but had to work three or four hours a day.

"Chopping was the principal work," one of the members of the original class reported. Trees and stumps had to be

Totally Blinded, Mayor Serves Town 13 Years

CAROLTON, O. (UP)—Robert Frampton, 50, is believed to be the only blind mayor in the state and one of the few anywhere.

He has held the post since 1942, about the time he began to lose his sight from optic neuritis. By 1944 he was totally blind.

Frampton performs all the duties of his office, signing papers,

conducting meetings, presiding in court and the like, though he admitted readily that his wife, Lois, and his dog, Vickie, are invaluable.

"Without them I couldn't get along as well as I do," he explained.

Radio is probably one of his most valuable aides. Carolton has a hook-up between local police, the sheriff's office and the State Highway Patrol which Mayor Frampton is able to monitor and thereby keep in touch with events. One of the town's proudest ac-

complishments under Mayor Frampton was the completion in 1949 of a new \$60,000 town hall.

Greedy Turtle Hooked

ADAMS, Mass. (UP)—Because it ate too much, a 65-pound turtle was caught here. George E. Schwarzer and Raymond Baker baited a long line of hooks and dropped it into Cheshire Lake. The next morning they returned to find the snapping turtle had systematically eaten 10 fish that bit at the hooks. On the 10th hook, the turtle got caught himself.

DiMag, Lyons, Vance, Hartnett Join Immortals

By ORLO ROBERTSON

NEW YORK (AP)—Joe DiMaggio, one of the Yankees' all-time greats reached baseball's Hall of Fame today just three years after his retirement and was joined by Dazzy Vance, Ted Lyons and Gabby Hartnett as the newest additions to the names of diamond heroes enshrined at Cooperstown, N. Y.

The four were elected Wednesday by 251 10-year members of the Baseball Writers Assn. Their election increased the Hall of Fame membership to 77 men. Formal induction will be at the Cooperstown museum, July 25.

There was no argument as to the quartet's selection although 65 former players received one or more votes. Under the rules a man must be mentioned on three fourths (188) of the ballots for election.

DiMaggio, who just missed last year when the late Rabbit Maranville, Bill Dickey and Bill Terry were selected, led the ticket. The former Yankee Clipper drew 223 votes as the writers recalled his

lifetime batting average of .325, his brilliant playing in 51 World Series games in 10 series with the Yankees, his major league record of hitting in 56 successive games and selection as the American League's most valuable player in 1939, 1941 and 1947.

"It's great to be on the same team with all those old timers," said DiMag who heard of his selection while driving from Boston to New York.

Lyons and Vance, who reached the heights as right-handed pitchers before DiMaggio joined the Yankees, were next in line.

Lyons, who came off the Baylor campus in 1923 and compiled a 260-230 record with the Chicago White Sox before he finally left in 1948 after managing the Sox for three years, received 217 votes. Lyons was a coach with the Brooklyn Dodgers last year, but recently returned an offer to manage in the minor leagues.

Vance, famous as Brooklyn's fireball pitcher, was named on 205 ballots. The Dazzler, who now spends most of the time these days

hunting and fishing at his Homassassa, Fla.; home didn't arrive in the majors until late in life but he compiled a 197-140 record. His best performance of 28-6 came in 1924.

Vance learned of the honor in a telephone conversation with President Walter J. O'Malley of Brooklyn but he had his suspicions when

a Florida highway patrolman flagged down his car and told him there was a photographer waiting at his home.

Hartnett, who recalls his dramatic home run in the gloaming which won the 1938 National League pennant for the Cubs as

one of his career highlights, received 195 votes. Gabby, now 54, caught for the Cubs from 1922 through 1940, managing them the last three years.

He bowed out of baseball as manager of Buffalo in the International League in 1946 and now runs

a bowling alley in Chicago. He had a lifetime batting average of .297, hit 236 homers, played in 4 World Series and five all-star games.

"Thank God I lived long enough to hear about it," was the Gabby one's first comment on hearing the news while with friends at a golf club.

GIARDELLO MISSES—Joey Giardello of Philadelphia swings a mean left and misses the chin of Al Andrews, of Superior, Wis., in last night's

television fight from Norfolk, Va. Giardello won a close, but unanimous decision.

Danish Miler Clears Tiff With Santee

BOSTON (AP)—Gunnar Neilsen, the Danish miler who has split two indoor meetings with Wes Santee, clarified his verbal tiff with the fleet Kansan.

Neilsen, who races Santee again in next Saturday's BAA games, Thursday night denied he said he could beat Santee any time.

"I only said I have a chance to beat Santee every time we run," he told newsmen.

Tech Leads in Wins
In the 12 years through 1953, Georgia Tech has led the nation's colleges in football victories with 90, while Notre Dame since 1942 has had the best won-lost percentage.

Giardello Beats Andrews, Looks Forward to Rematch

NORFOLK, Va. (AP)—Joey Giardello, his plans for an early crack at the middleweight title confounded by a less-than-spectacular showing in his first outing in four months, looked forward today to a rematch with Al Andrews.

"Sure, I want to fight him again," Joey said in his dressing room after winning a unanimous, but disputed, 10-round decision over Andrews last night in a rough brawl at Norfolk's Municipal Auditorium.

"One more against Andrews and then I'm ready for Bobo Olson," Giardello said, his right hand encased in a tub of ice and his left eye sporting a shiner.

Andrews didn't see it that way, although he was just as eager for another fight with Giardello. The two boxers tentatively agreed to

a rematch in Baltimore Feb. 8. "There's no doubt I won," Andrews contended bitterly, fighting drews contended bitterly, fighting fight I've had in a year. He didn't knock me down. I was off balance."

The knockdown won for Giardello. It was the only time either man was floored and came in the ninth round when Andrews walked into a wicked left hook and a sharp chopping right.

Up to that point, one judge had Andrews ahead, the other had the fight even. Referee Paddy Mills had it for Giardello all the way.

Giardello weighed 162, Andrews 159.

Denver Coach Gets Dartmouth Position

By THE ASSOCIATED PRESS
Bob Blackman, switching to Dartmouth from Denver, becomes the 14th man to fill a major college football coaching vacancy since the stadiums were emptied for the last time in 1954.

Blackman, 36-year old mastermind of Denver's Skyline conference champions in '54, was named Wednesday to succeed veteran Deorand (Tuss) McLaughry at Dartmouth following a meeting of the athletic council.

Contract terms were not made public for Blackman whose resignation at Denver became known only a few hours before Dartmouth athletic director Robert (Red) Rolfe's announcement.

\$5,000 Salary Boost for Cards' Repulski

ST. LOUIS (AP)—Rip Repulski, rewarded with a \$5,000 salary boost for his performance with the St. Louis Cardinals last season, hopes to gain ground in the runs-batted-in department this year.

The 26-year-old outfielder signed his contract Wednesday for a reported \$15,000, about \$5,000 more than he received in 1954. Repulski hit 19 homers and 39 doubles and batted .283 last year to rank second to Stan Musial in the Birds slugging department with a .454 average.

Topnotch Pros Tee Off Today in Invitational

Thunderbird's Course Has Been Toughened Up for Tournament

PALM SPRINGS, Calif. (AP)—Leading professionals of the touring pros brought their show into this desert resort town to tee off with the first round of the 72-hole Thunderbird Invitational tournament today.

Heading the procession are the winners of the first of the 1955 winter tourney schedule, Gene Littler, Cary Middlecott and Tommy Bolt, and last year's victor in the Thunderbird, Freddie Haas.

They say Thunderbird's 6,314-yard, par 36-36-72 course has been toughened up a bit for this year's assault. Haas' winning score of -288 will be difficult to match.

The same may be true in the case of the 61 scored by Bo Wining in the first round last year. Wining, again on deck, shot a spectacular 33-28. It is a professional competitive record not officially sponsored by the Professional Golfers' Assn. of America.

Forty-two professionals, including most of the 30 top money winners plus several especially invited pros, shoot for the \$2,000 purse for the 72-hole low score. All will receive a minimum of \$100 put up by Thunderbird's roster of influential members.

The pros teamed up with the members — one prof, three amateurs — for the first two rounds. The pro member of the winning team will earn \$1,000.

Included among the members are baseball star Ralph Kiner, Gov. Dan Thornton of Colorado, comedian Phil Harris, songwriter Hoagy Carmichael, actor Randolph Scott and veteran Johnny Dawson, one of the founders of Thunderbird.

Vic Seixas, Trabert Gain Aussie Tourney Finals

ADELAIDE, Australia (AP)—Vic Seixas and Tony Trabert, America's victorious Davis Cup team, advanced to the doubles final of the Australian National Tennis championships today.

They whipped Mervyn Rose and Rex Hartwig of Australia 6-4, 10-12, 6-0, 6-1 in a semifinal struggle.

In the other semifinal, an all-Australia affair, Lew Hoad and Ken Rosewall beat Neale Fraser and Ashley Cooper, 12-10, 6-4, 6-2.

Township Officials Study Different Sewer Route

White Lake Acts to Halt Trailers

Seeking Legal Help to Secure Injunction Against Park

WHITE LAKE TOWNSHIP—The White Lake Township Board of Trustees have approved seeking legal information in an attempt to secure an injunction against the establishment of a trailer park on Cranberry Lake.

Owner Robert Amos secured a trailer permit from the State Health Department this summer as the township board was working on an interim zoning ordinance.

The board is now trying to find out whether the park will come under the zoning ordinance adopted in September, and would need a permit.

Under the zoning ordinance, trailer parks are permitted with the consent of residents within one-half mile of the park.

Episcopal Church at Rochester Names Officers

ROCHESTER — Newly elected officers of the vestry of St. Philip Episcopal Church are senior warden, Donald C. Baldwin; junior warden, Louis C. Gillette; treasurer, Leonard J. Harding; secretary, Thomas Everhard.

At the annual meeting, Mrs. William D. McCullough, retiring auxiliary president and F. H. Riley, retiring senior warden were presented with Celtic crosses as awards of honor.

Delegates to the diocesan convention on Feb. 2 from the women's auxiliary are Mrs. McCullough, Mrs. J. W. Ballagh, Kay Ebert and Mrs. Thomas Eberhard, new Auxiliary president.

Lutheran Church Elects Officers at Imlay City

IMLAY CITY — Lester Parker was elected president of St. Paul's Lutheran Church at the annual meeting.

Other officers include: vice president, Harley Whitstock; secretary, Don Greenman; treasurer, Albert Buik; deacon or three years, Wesley Bates; elder for three years, Willard Winslow; trustee for three years, William Lengemann; publicity director Mrs. Robert Lavene.

70 County Health Heads Invited to State Confab

LANSING — Local health officers representing 70 Michigan counties have been invited to the sixth annual State Health Commissioner's Conference in Lansing, Feb. 24, the State Health Department said today.

Purpose of the conference is to discuss state health programs and recommend changes and improvements to the state health commissioner.

NOTICE
A Public Hearing will be held at the West Bloomfield Township Hall, 4400 Orchard Lake Road, Wednesday, February 23, 1955, at 8:30 p.m. regarding the question of changing the zoning standards for the East 1/2 of Section 23 and the West 1/2 of Section 24, and all of Sections 27 and 28, from Residential Zone No. 2 to Residential Zone No. 4, excepting the area included in the Village of Orchard Lake.

LUCY ANN CONNOR, Secretary.
West Bloomfield Township Zoning Board.
Jan. 27, Feb. 18, 1955

ORDINANCE NO. 13
An Ordinance amending Ordinance No. 8 (Amended Interim Zoning Ordinance) of the Township of Pontiac, Oakland County, Michigan.

That the SE 1/4 of the SE 1/4 of Section 11 be changed from AO to R2.
That this Ordinance shall become effective 30 days after publication in a newspaper circulating in the Township. This Ordinance enacted by the Township Board this 24th day of January, 1955.

AERIAL MANEUVERS—Just before the red flag goes up, construction worker Leo Haynes drops down out of the sky to put another coin in the parking meter. Plagued with parking tickets while working high atop the new city hall at Pasco, Wash., Haynes made a deal with a derrick operator to lower him in a cement bucket in time to stay the long arm of the law. Here he just beats officer Ted Harter to the punch.

Avon, Warren Area Officials Plan Talk on Incorporation

AVON TOWNSHIP — Township Supervisor C. E. Miller reported last night that a date for a meeting with Warren Township officials to discuss incorporation will be set within a few days.

Also to be discussed are the advantages of a charter government. Miller said that a date is being considered for an election on such a charter.

This move comes in the face of possible incorporation of Rochester as a city, with the annexation of a good portion of Avon Township.

The Rochester Village Council has recommended such a move for the village as a solution to the problems forced on Rochester by areas on its boundaries. Such annexation would strip the valuable tax base of two large industrial firms from the township.

Miller stated that the township board has not been asleep on the matter of incorporation, and that they would do everything to protect the township.

He added that much progress has been made in fire and police protection, and a water system for the township, which would in every way protect the township from loss of territory.

The board decided that strict enforcement of the township ordinance regarding the disposal of rubbish and garbage would begin immediately, in the face of reports of improper dumping of such material in the township.

His talk will be a practical discussion of the parent-teacher-teenager relationships, and will be heard at 8 p.m. in the senior high school cafeteria.

Dr. Watt will welcome questions from the floor following his talk.

Coffee will be served following the meeting.

Waterford Township GOP Women Elected

WATERFORD TOWNSHIP — Mrs. Lynn D. Allen Sr. has been elected president of the Waterford Women's Republican Club.

Other officers are Mrs. Vivian Tubbs, first vice president; Mrs. William H. Bedard, second vice president; Mrs. Willis Lefurgy, recording secretary; Mrs. Walter Kinsler, corresponding secretary; Mrs. Byron Cole, treasurer; and Mrs. A. W. Robinson, auditor.

Install New Officers

FARMINGTON TOWNSHIP — Newly installed officers of the Farmington Garden club include: Mrs. James Rogerson, president; Mrs. W. A. Nelson, Mrs. Joseph DeNies and Mrs. A. F. Grosop, vice-presidents; Mrs. Richard Hug recording secretary; Mrs. Charles James, Earl Marks, treasurer and Miss Murlah Andrews, chaplain.

Potluck Set for Tonight

ROCHESTER — The Blue Star Mothers are having a potluck dinner tonight in the Avon Township Hall. Following the dinner the group will have drill practice.

County Deaths

Mrs. Charles Hillaker
MARLETTE — Service for Mrs. Charles (Margaret) Hillaker, 83, will be held at 2 p.m. Friday at Marlette Methodist Church. She died Monday at the home of her daughter, Mrs. Clarence Grow, where she was visiting.

Surviving are five daughters, Mrs. Grow, Mrs. Margaret Schultz, Mrs. John Wallis, all of Detroit; Mrs. Hiram Flammigan of Marlette; Mrs. Edward Jarvis of Benton Harbor; two sons, George of Snover, John of Detroit; one sister, Mrs. Henry Phillips of Marlette; one brother, David McLaren of Decker; 18 grandchildren, and 12 great-grandchildren.

Ida Mikkelsen, Darrell Bufkin Wed at Almont

ALMONT—The marriage of Ida Mikkelsen to Darrell Bufkin was solemnized Saturday in the parsonage of the First-Baptist Church.

The bride is the daughter of Mrs. Jermie Niemi of Chassel. Mr. and Mrs. Curtis Bufkin of Almont are the parents of the bridegroom.

Attending the couple were June Dennington and Hiram Le Pard.

After the ceremony, a dinner and reception were held at the home of the bridegroom's parents. The couple will live in Ferndale.

Water-Saving Law Heard by Trustees

WATERFORD TOWNSHIP—The Township board has had its first reading of an ordinance to regulate the installation of air conditioning and refrigeration equipment for water systems.

The stated purpose of the act is to conserve water, and it provides for conversion of all air-conditioning units in accordance with the ordinance.

Final approval was given by the board to the transfer of a beer and wine license from Frank McGuire of 3381 W. Huron to Raymond Jewell.

Lapeer Woman Marries Man From Imlay City

LAPEER — Mrs. Lula Tripp of Lapeer and Archie R. Hazelton of Imlay City were married Saturday in a ceremony at Monroe street Methodist Church.

Members of the family and guests present at the wedding included Mr. and Mrs. Lorrin Tripp, son and daughter-in-law of the bride. The couple will live in Imlay City.

Firemen Take Course

ROCHESTER — Sixteen members of the Avondale Fire Department are taking a course in Red Cross training at the fire hall, twice a week. An instructor from the Pontiac Fire Department is directing the course.

U. S. railroads pay out \$611,000 in wages every hour of the day and night.

West Highland Minister to Get Welcome Sunday

MILFORD—More than 200 people are expected for dinner Sunday at the West Highland Church on Hickory Ridge road, to welcome the first permanent minister for the church.

Rev. George Bloyd, who is still studying at Northern Baptist Seminary at Chicago, will commute weekends to take over the pastorate of the church.

The celebration is an event in the history of the church which has been sharing a pastor from the Howell Baptist church for many years.

Among honored guests who will have part in the program, are Rev. Wendall Maloch, of Walled Lake who is moderator of Wayne Association of Churches, and Rev. Robert Johnson of the First Baptist Church of Ann Arbor.

A charge to the new minister and the congregation will be given by Rev. Ralph Karney who was the pastor for the Howell and West Highland churches for 18 years, and is now rural urban pastor for the Michigan Baptist Convention.

Rev. Charles Richey and Rev. Robert Hall of Milford will assist in welcoming the new minister to this area.

Dinner will be at 12:15, following the regular services at 10:30.

Interceptor Plan Receives Shift

South of Waterford to Farmington Now Under Consideration

Officials of five Oakland County communities have shifted the route of a proposed interceptor sewer under consideration to solve their sanitary sewage disposal problems, and one township has already voted to pay a share of the engineering costs for plans of the project.

Oakland County Drain Commissioner Ralph Main explained today that the new path of the interceptor sewer which could carry waste to the Detroit system for treatment would be south from Waterford Township, through Keego Harbor, West Bloomfield Township, Farmington Township and the city of Farmington.

Such a sewer would pick up the flow from local sewers and carry it off, eliminating the need for septic tanks.

Waterford Township board members have voted approval of paying a share of the costs of studying such a project.

Originally the areas had considered funneling the sewage east, through Pontiac, Pontiac Township, Avon Township, and then south through Troy and Royal Oak townships, and into the Detroit system.

Main said that the newest plan would save Waterford Township considerable money, by eliminating approximately 6.8 miles of interceptor needed.

Earlier, the possibility of building a sewage disposal plant in Avon Township was discussed, but failed to win support.

Avon Township officials had strongly opposed any sewage disposal plant within their boundaries, and favored having the sewage carried into Detroit for treatment.

Main credited Waterford Township Supervisor Lloyd C. Anderson for much of the thinking behind the proposed route change.

Officials at earlier meetings were generally agreed that if further study indicates a need for combined action, a joint governing body or authority might be set up.

A rough cost estimate of the necessary pumping station at Rochester to boost the sewage through lines down to Seven Mile Road under the previous plan was \$3,000,000.

Another meeting of interested officials has been called for Feb. 1 at Farmington Township, to discuss engineer proposals of the plan.

Walled Lake Sells \$550,000 Bonds to Detroit Firm

WALLED LAKE—Bonds totaling \$550,000 have been awarded to Walling, Lerchen and Co., Detroit, by the Board of Education. The firm's low bid showed an average interest rate of 8.81.

Contract for printing the bonds was awarded to Northern Bank Note Co. of Chicago, for its low bid of \$200.

The bonds are part of an \$825,000 bond issue approved by voters last November to finance construction of several school additions. Bonds are being sold as work progresses.

Two Dryden Farms Honored by State

DRYDEN — Two farms in Dryden Township have received recognition from the state for being in the same family for more than 100 years.

Farms now occupied by Mr. and Mrs. Alden Haynes and Mr. and Mrs. Dyke Miller have received certificates from the Michigan Historical Commission, signed by Gov. G. Mennen Williams.

Last week both owners were presented with a metal marker from the Detroit Edison Co.

Reed City Chief Dies Hit Directing Traffic

REED CITY — Edward Goldhammer, 63, Reed City fire chief, died Tuesday at the Michigan Veterans Hospital at Grand Rapids. Goldhammer was fire chief for five years and a member of the department for 35.

House Dems Set to Urge 90 Per Cent Parity Props

WASHINGTON (INS)—Chairman Harold Cooley (D-NC) of the House Agriculture Committee, said today he hopes to begin "limited" hearings next week on a democratic-backed proposal to restore 90 per cent of parity price supports on five basic farm commodities.

Cooley, who will organize his committee today, explained that he does not expect this year's hearings to be nearly as lengthy or comprehensive as those held last year.

In 1954, the House committee voted to retain rigid, high price supports but was overruled by the House and Senate which voted a compromise flexible support plan favored by the Eisenhower administration.

Cooley said agriculture secretary Ezra Taft Benson and other key witnesses will be called before the committee to testify on the proposal to restore 90 per cent supports. The bill was introduced by Cooley at the opening of the current session of Congress early this month.

The committee chairman explained that there is no need to hold weeks of hearings this year since "the issue has been so well discussed, and the members of Congress are well aware of it."

He said Benson, who opposes rigid, high price supports, will "be given an opportunity to express his views."

Cooley and Benson have been at odds over the farm program issue almost since the first day of the Eisenhower administration, with the secretary winning an initial major victory last year when Congress adopted a flexible support plan.

In his State of the Union message on Jan. 6, President Eisenhower urged no change in the basic farm law. Under its provisions, minimum price supports, set at 82 and one-half per cent of parity for 1955, will drop to 75 per cent in 1956 and succeeding years.

Although the Cooley Bill would put wheat, cotton, corn, rice and peanuts under 90 per cent supports, the chairman is not adverse to considering a two-price system for wheat, with no supports on the portion grown for export.

Troy Crash Injures 2 From Royal Oak

TROY TOWNSHIP—A Royal Oak youth and his passenger were injured when their car left the road and hit a tree at 12:55 a.m. today at Crooks road, south of 17 Mile road.

The driver, Ronald F. Dubois, 18, of 303 W. Austonia, Royal Oak, suffered from neck and facial cuts and shock, while his passenger, Harriet Jo Gell, 17, of 1028 N. Vermont, Royal Oak, was admitted to St. Joseph Mercy Hospital, Pontiac, with bruises of the left cheek, fractured ribs, and shock.

The youth told Chief David Grattopp of Troy Township Police that he was traveling north on Crooks and lost control of the car on the slippery road.

Youth Groups Plan Service at Drayton

DRAYTON PLAINS—The youth groups of the Community United Presbyterian Church will be in charge of a special service at 7:30 p.m. Sunday evening.

Centered around the denomination theme for the year, "Christ Jesus, Our Hope," the program will feature speakers Everett Beach, Prue Dee Purdy, and Carol Saul.

Music will be furnished by the Senior Youth Choir and the Boys Choir under the direction of Harvey G. Beach, assistant to the pastor.

Jan. 30 to Feb. 6 has been designated as Youth Week in most Protestant denominations.

Southampton Sewers Get Tentative Approval

SOUTHFIELD TOWNSHIP — The township board, at a meeting Tuesday, tentatively approved the construction of lateral sewers in Southampton subdivision, and requested that an estimate of the cost of the project be filed with the township clerk so that a special assessment district may be drawn up.

The board also accepted the resignation of Myron Greenfield as a member of the Board of Review, and expressed regret at his leaving.

Council Selects Date of Meeting

To Discuss Annexation, Incorporation Feb. 10 in Rochester School

ROCHESTER — Village Council members last night set a date for a public meeting on their proposal that Rochester incorporate as a city, and annex a portion of Avon Township.

Feb. 10 was chosen, and the discussion will be open to all interested citizens at the high school cafeteria at 8:15 p.m.

The change from village to city status, along with the expansion into Avon township, was proposed by the village council after more than a year of studying the problem in the village and surrounding areas.

More than 100 copies of the free report outlining the reasoning behind the move have been picked up at the village office, and 200 are still available.

As outlined, the annexation would increase Rochester's area from 1.6 square miles to 5.8. Avon township officials are opposing the annexation, which would include two large industries.

\$806 Million Net Earned by GM

Income for 1954 Equals \$9.08 Per Share, \$2.37 Higher Than 1953

NEW YORK (AP) — General Motors Corp. yesterday reported net income of \$806 million dollars, equal to \$9.08 per share, for 1954. This compared with \$508,119,478, or \$6.71 a share, for 1953.

The figures for 1954 were given out by Alfred P. Sloan, chairman, and Harlow H. Curtis, president, as a preliminary estimate, pending a final audit.

Sales for the world's largest manufacturing corporation in 1954 totaled \$9,425,000,000 as against \$10,677,865,482 the year before.

The company's tax bill for 1954 was estimated at around \$35 million dollars, including both foreign and U. S. taxes.

This compared with a total provision in 1953 of \$1,054,528,466, including \$182,000,275 in profits taxes. The federal excess profits levy abandoned at the start of the year.

Detroiters Gape at Saucer Film

Whirling White Mass Shown in Movie Made in California

DETROIT (INS) — An overflow crowd jammed the auditorium of the Detroit Institute of Arts last night for the premiere of the first documentary motion picture on flying saucers.

What they saw, accompanied by a screech like feedback on a microphone, was a whirling white mass bouncing around California mountains like a ping-pong ball.

The film, entitled "We Have Seen the Saucers," was produced in California under the sponsorship of the Detroit Flying Saucer Club.

It included eye-witness testimony by a California businessman.

There were snickers and snorts from scoffers and curiosity seekers in the audience during the film until the whirling white ball, or saucer, flashed onto the screen. Then a dead silence and gaping mouths prevailed.

Cincinnati beauty shop owner Thomas Eichoff, who has studied the subject in attempting to establish "what we can believe" about saucers, was guest speaker.

After viewing the picture for the first time, Eichoff said:

"It was excellent, but the most amazing thing about it was the fact that the government let these eye-witnesses testify."

"The airline pilots, Army officials and citizens who tell of the sightings in this film had been and, as far as I know, still are under tight government security regulations."

Business Notes

After announcing a gross operating revenue of \$109,389,875 for last year, a \$12,381,190 boost over 1953, Consumers Power Co. today listed earnings of \$3.10 per share on 7,473,708 shares of common stock outstanding at the year end. Net income after preferred dividends was \$23,184,555.

Alfred E. Cobb, Kenneth Emmons, both of Clawson, William Lantry of Lake Orion, and Dean Ward of Oxford were among some 80 hardware store managers who took part in the University of Michigan's fifth annual hardware sales study course which ended today. The group, which convened Tuesday, discussed product knowledge and salesmanship.

Next Question, Please
BRIDGEPORT, Conn. (AP) — As a homework assignment, teachers asked Bridgeport students to find out what the "A" stands for in Gov. Abraham A. Ribicoff's name. No one, including newspapers, could provide the answer. Finally, a reporter put the question to the governor himself. Said Ribicoff: "My middle name is Alexander."

What Is Canadian Fund?

South Lyon Man Stabbed in Chest

Edward Banks Attacked After Accepting Ride From Stranger

A 25-year-old South Lyon man was stabbed in the chest early today after accepting a ride in an auto in the southwest section of the city.

Pontiac General Hospital authorities said they weren't able to give the condition of Edward Banks of 425 Donovan after the man had been removed for surgery.

Banks' brother, David, 21, and a companion Joe Richardson, 29, of 320 Gibson, both also of South Lyon, told police the older Banks got out of the car and asked a man, driving a green, 1949 Cadillac for directions. Banks accepted a ride with the unidentified man and drove off, with his brother and companion following in their car.

Police said shortly afterwards, Banks returned to the auto, holding his chest and saying he'd been stabbed.

Meanwhile, the driver of the other car, which had a left-front flat tire, had fled. Police later found the Cadillac parked in front of 28 Iowa St. about 8:30 a. m.

Detective Sgt. Allen D. Noble said he hadn't been able to talk to Banks this morning for a description of the assailant. Police also are checking with Lansing for ownership of the auto. They said blood stains were found on the left door of the car which bore license plate number EW 66-17.

Bank of England Ups Interest Rate One-Half Per Cent

LONDON (AP) — The nationalized Bank of England raised its interest rate today from 3 to 3½ per cent.

This means that persons or industries who want to borrow money will have to pay more interest. The Bank of England is the central clearing house for all banking transactions in Great Britain, and its lead is usually followed by all other British financial institutions.

The action was apparently an effort to check what has been termed a "gentle inflation" in Britain. It was the first increase in the bank rate in almost three years. Prime Minister Sir Winston Churchill's government reduced the rate twice from the postwar high of 4 per cent it reached March 11, 1952.

Only three days ago, one of Britain's leading bankers, Lord Alderman, chairman of the Westminster Bank, suggested that the interest rate be raised to check what he called "gentle inflation."

Wanted Night Work
BATON ROUGE, La. (UP) — When guards caught Robert Chamberlain of Chicago trying to scale a 10-foot fence at an industrial site during the night he explained "I was just looking for a job." He was charged with trespassing.
