

More Snow Threatens After 5-Inch Scourge

Separate Plane Disasters Kill 87

Italian Craft Falls in Shannon and 26 Perish

Many Badly Burned in Take-Off Crash; DC7 En Route to New York

SHANNON, Ireland (U)—An Italian airliner bound for New York with 52 persons aboard crashed and exploded today in a tiny Irish cemetery, scattering bodies "like a scene from H—."

The air line, Alitalia, said 23 were known to have perished and 3 others were missing and presumed dead.

Among the 26 survivors—four of them children—16 were critically injured. Many were horribly burned.

The airline said 12 of the 49 passengers were Americans, but it could not say yet which if any had survived.

The four-engine DC7 crashed immediately after taking off from Shannon's International Airport for the Atlantic hop.

STOPPED AT SHANNON
It had set out from Naples, landed at Rome to pick up more passengers, and stopped in Shannon to refuel.

The airliner crashed through the wall of the cemetery, near the airport, and plowed through a line of tombstones and across a sheep pasture, leaving a mile-long trail of fire and bodies.

"There were bodies scattered all over the field," said a local priest, the Rev. Thomas Comerford.

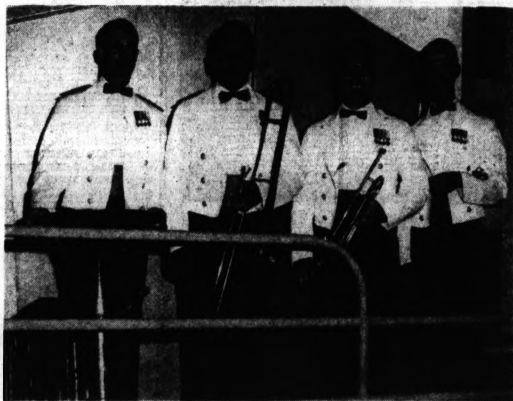

"People were mixed up with the remains of the plane that had crashed," he said. "The bodies were horribly mutilated."

"People were screaming, sheep were crying and dogs were barking. It was like a scene from hell."

The plane carried 49 passengers. Most were Italians.

The crash—at 2 a.m. within hours of an air collision in Rio de Janeiro that claimed 61 lives—brought to more than 325 the death toll in eight major plane crashes.

(Continued on Page 2, Col. 5)

SAFE ABOARD SHIP—None of the four Pontiac area musicians in the U. S. Navy Band were among the 19 musicians killed in yesterday's plane collision high over Rio de Janeiro. The four musicians are (from left) 1/c Musicians

Eric Shrader and Keith Swales, graduates of Oxford High School; and 1/c Musician Paul F. Allen and Chief Musician Pete Geiger, both of whom graduated from Pontiac High School.

Phone Calls Reassure 'Spy' Satellite Safety of 4 Area Men Roars Into Sky

None of the four Pontiac area men in the world-famous U.S. Navy band were among the select group of musicians wiped out in the sudden collision of planes in fog high over Rio de Janeiro.

The news that 19 Navy musicians were among the dead aboard the DC6 which collided with a Brazilian airliner shocked and saddened the families they left behind.

The families of other bandmen sat by their phones waiting to learn whether their loved ones were aboard the doomed plane.

Paul F. Allen, 29, a Pontiac High School graduate, phoned his wife in Washington, D. C., last night and assured her that both he and three others from the Pontiac area had been safe aboard the USS Macon in the harbor and not on the plane.

Allen's mother, Mrs. India A. Allen, 42 Oliver St., said she also had received news of her son's safety.

Three other local musicians are Navy bandmen. They are Pete

Waiting to Find Out If It's in Orbit; Would Detect Red Missiles

CAPE CANAVERAL, Fla. (U)—The United States sent up an experimental Midas "spy in the sky" satellite today but partially lost radio contact with it just after the launching.

CAPE CANAVERAL, Fla. (U)—A huge rocket thundered aloft today in an attempt to boost an experimental Midas "spy in the sky" satellite into orbit.

Midas' mission is to multiply warning time by detecting ballistic missiles only seconds off the launching pad.

An announcement on whether the satellite achieved orbit is expected here in about two hours, after it has had a chance to make one circle of the earth.

The intended orbit for the device of more than two tons is between 100 and 200 miles high.

Midas, which stands for missile defense alarm system, is the first United States satellite launched for a purely military purpose.

The Air Force has clamped a secrecy lid on most details about it. Officials emphasized that this is only an experimental vehicle, a forerunner of a series of satellites planned to whirl about the earth on constant watch for enemy missile activity. They will carry infrared sensing devices to spot the heat trail of a hostile rocket as it is fired.

This warning would be flashed immediately to America, which then would have about 30 minutes to brace for nuclear bombardment and to send retaliatory weapons on the way.

The extra time to reach shelter could have thousands of lives.

The greater certainty of a smashing counter-blow could deter an enemy.

This first Midas contains the infrared equipment. The plan is to test it on missiles launched from Cape Canaveral and Vandenberg Air Force Base, Calif.

This satellite, fired not far off the line of the equator, is not scheduled to fly over Soviet territory.

When operational Midas satellites are launched into polar orbit, probably in 1961, they will pass over all of Russia. That is almost certain to bring objections in the absence of an international agreement permitting such missions.

The United States has proposed an "open skies" pact that would permit this country and Russia to make reconnaissance flights over each other's territory. The Soviets have not accepted the idea. They reportedly are working on spy satellites of their own.

Paar Tours in Tokyo

TOKYO (U)—Vacationing Jack Paar arrived today for a six-day stay.

U.S., Brazilian Liners Collide; Bandsmen Die

Eisenhower Saddened by Tragedy; Visits 3 in Rio Hospital

RIO DE JANEIRO (U)—The collision of a U.S. Navy plane and a Brazilian airliner in which 61 persons died left a tragic aftermath today to President Eisenhower's triumphant visit to Brazil.

A fleet of launches crisscrossed Guanabara Bay off Rio, seeking missing bodies of those who died in the collision in an overcast Thursday. Only 25 bodies were recovered Thursday.

Thirty-five of the dead, and the only three survivors, were U.S. Navy men.

Among the dead were 19 leading members of the U.S. Navy's world-famed band, "the cream of the crop," coming from Buenos Aires to play for a dinner Eisenhower gave Thursday night for Brazilian President Juscelino Kubitschek.

The survivors and seven of the dead were members of the U.S. Navy antishubmarine team which had been sent to advise the Argentine navy after a mystery submarine was reported in a gulf on the Argentine coast. No sub was found, and the team was on its way home.

SEVEN CREWMEN DIE
Others dead in the crash were the 7 crewmen of the Navy plane, a four-engine R6D, 2 other Navy passengers, and 22 Brazilian passengers, and the crew of 4 aboard the airliner.

The shocked U.S. President, who knew many members of the band, went on with the dinner for Kubitschek but canceled a reception and a meeting with members of the U.S. Embassy staff.

Presidential Press Secretary James C. Hagerty reported Eisenhower "feels terrible about this" (Continued on Page 2, Col. 1)

School Plan Means Tax: Whitmer

Dr. Dana P. Whitmer, superintendent of schools, has acknowledged that a rise in taxes would be required to meet a target "improvement" budget estimate of \$8,598,627 for 1960-61.

The improvement budget was for presentation to the County Education Board in April. A public vote on increased millage shortly afterward was indicated should the Board of Education adopt the "improvement" budget.

Improvements, most of which are needed for rehabilitation purposes, are estimated at \$250,840 above the status quo estimate of \$8,347,787.

The 1959 budget was \$8,043,864. Whitmer said that enrollment is expected to increase by 412 pupils in the coming school year and that the cost-of-living index will rise 2.3 points, or 1.86 per cent, affecting wage scales in the school system.

23,500 Kept From School in County

More snow threatened today after the heaviest snowfall of the winter—five inches—blanketed the Pontiac area, snarled traffic and kept more than 23,500 Oakland County children home from school.

Light snowfalls, at least, are expected tonight, the Weather Bureau said, and stronger, 20-30 m.p.h. winds threaten to clog highways with more drifts the next 24 hours.

Although county and city crews had managed to clear most state trunklines and arterial roads by rush hour this morning, side roads remained mostly covered with snow throughout the day.

Pontiac and Waterford Township schools were open, and buses struggled through the difficult side roads to maintain normal runs. Most buses ran late.

In eight rural school districts, side roads were so bad that officials canceled classes for the weekend.

Forty-four Oakland County schools shut down in the following areas:

Avon Township, Orionville, White Lake Township, Holly, Milford, Lake Orion, South Lyon and Rochester.

Oxford school buses made no runs, and the school district suffered about 50 per cent absenteeism. Absenteeism ran 75 per cent in Leonard and Lakeville.

MAIN ROADS ONLY
In Bloomfield Hills and Clarkston, school buses ran on main roads only.

About 1,250 pupils were absent from Bloomfield Hills schools and nearly 1,000 in Clarkston.

Nearby Macomb and Lapeer counties also were hard hit. Schools were closed in Romeo and Utica, as well as in Metamora, Dryden, Almont and Armada.

The heaviest snow of the season began early yesterday afternoon and continued to fall throughout the night.

Most of southern and eastern Michigan was swamped by as much, or more, snow as hit Pontiac.

At Pontiac Municipal Airport, the depth measured five inches at 9 a.m., several hours after the worst of the storm had passed. But drifts measured more than a foot in places.

County and city road crews worked through the night and expected to continue at the job tonight and tomorrow.

City road crews hoped to begin clearance of side streets tonight, said Robert A. Stierer, assistant city manager.

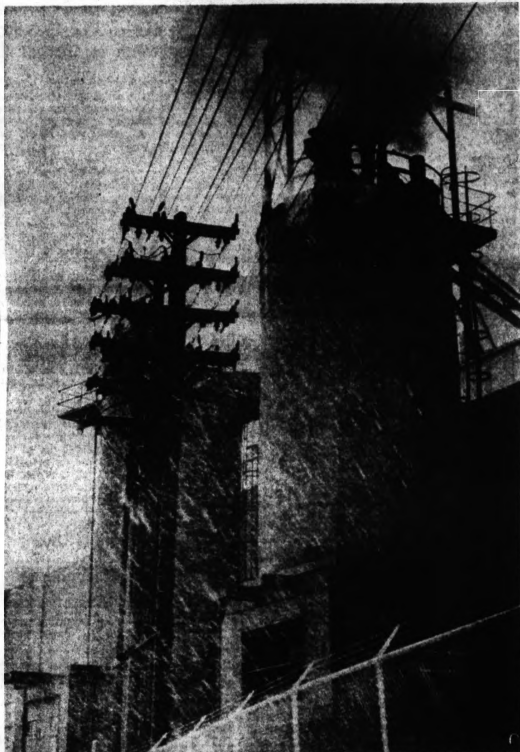

The crews spent this afternoon clearing the downtown area and municipal parking lots.

Many of the worst traffic jams occurred at rush hour yesterday evening after more than an inch of snow had fallen.

It took more than 30 minutes to drive from downtown Pontiac westward three miles to the intersection of M59 and Elizabeth Lake roads.

Northbound Oakland avenue traffic backed up half a mile south of Telegraph. It took drivers 20 minutes to creep through the intersection at snail's pace.

The pace on Woodward avenue slowed between Pontiac and Detroit (Continued on Page 2, Col. 3)

SNOW, SNOW, SNOW—Down, down, down it came, all afternoon, evening and night. The heaviest snowfall of the year was a white sheet (above) yesterday afternoon, obscuring the dark background of Pontiac Motor Division. By morning, householders like Mrs. Raymond White (below), 358 Voorhees Rd., had to dig out from under five inches of snow. She pauses after heaping up four feet of snow between her driveway and front walk.

Princess Meg to Marry Royal Court Photographer

LONDON (U)—Princess Margaret, the queen's 29-year-old sister, is engaged to marry Anthony Armstrong Jones, a photographer for the royal court.

The betrothal was announced today at Clarence House, the princess' London home. No wedding date has been set.

Queen Elizabeth II and her husband, Prince Philip, were said by spokesman at Buckingham Palace to be "delighted because this is such a happy match."

The announcement comes a little over four years after Margaret's announcement that she would not marry Peter Townsend.

Differences involving their religion—he was a divorced man—broke up that romance. Townsend last December married another girl.

The princess and Armstrong Jones—she is 29 too—first met two years ago in London at a party.

"They have met continuously since that time at various places and they have been together at Balmoral and at Sandringham," said the Clarence House press secretary, Maj. John Griffin.

The announcement in the Clarence House Court Circular said:

"It is with greatest pleasure that Queen Elizabeth the Queen Mother announces the betrothal of her beloved daughter the Princess Margaret to Mr. Anthony Charles Robert Armstrong-Jones, son of Mr. R. O. L. Armstrong-Jones, O. C., and the Countess of Rose, to which union the Queen has gladly given her consent."

Princess Margaret personally gave the

PRINCESS MARGARET

The Big Snow Can't Delay Little Virginie

About the only person not held up by the snow early this morning was Virginie Antiochette Beylier of Orion Township.

In fact Virginie—now less than a day old—simply refused to be delayed by Old Man Winter.

Her father, Serge P. Beylier of 1219 S. Lapeer Rd., and mother, Michelle, 23, were discovered by sheriff's deputies at 1 a.m.

Deputies James W. Stiles and Donald Hughson saw a county road truck trying desperately to pull the Beylier car from a ditch and snowdrift, along slippery M24 near Clarkston road.

The frantic parents were stranded and little Virginie was becoming very impatient about being born.

The deputies rushed Mrs. Beylier to St. Joseph Mercy Hospital.

"We got there without a moment to spare," said Stiles.

Seven-pound, eight-ounce Virginie was born at 1:29.

Both mother and child are reported doing fine today.

Virginie is the couple's second daughter.

General Motors Trucks Wowing 'Em in Detroit Exhibit

How Did That 'Big Job' Fit Through 'Small Door'?

By HARVEY ZUCKERBERG

"Man, if you're looking at your shoes when you walk through that door, you're in for a surprise!

"You'll bump smack into her, and when you start looking for the top you'll better hang onto your hat."

The cop and janitor were marveling at the big red job, a V-6 diesel engine Tilt-Cab weighing 31,000 pounds.

The heavy-duty highway tractor stands close to 10-feet tall in the lobby of the General Motors Building in Detroit where the Truck and Coach Division is showing its full array of models through March 8.

U.S. Soldiers Die in Rio Air Collision

(Continued From Page One)

tragedy" but planned to continue his South American tour.

Eisenhower learned of the tragedy shortly after addressing a group of business leaders at Sao Paulo, 200 miles southwest of here.

Both Eisenhower and Kubitshch sent messages of sympathy to the families of those killed in the crash and hurried to Miguel Couto Hospital to visit the survivors as soon as they returned from Sao Paulo.

The two Presidents stopped at the bed of each of the men, gave each a sympathetic pat and expressed wishes for their speedy recovery. Although the men were in shock and under heavy sedatives, they recognized Eisenhower.

Robert Hartman, chief of the Washington bureau of the Los Angeles Times, accompanied the two leaders as representative of all newsmen traveling with Eisenhower.

Hartman said Eisenhower's voice almost broke as he spoke to the men. He remarked at one point, "this surely is a tragic thing."

Both Presidents ordered their staffs to keep them in close touch with developments in the investigation of the collision.

The U.S. Embassy said the Navy plane coming from Buenos Aires was scheduled to fly at 6,000 feet and land at Galeao Airport, on an island in the bay. The two-engine Real airliner, which was coming from Victoria, north of Rio de Janeiro, was scheduled to fly at 5,000 feet for a landing at Santos Dumont Airport, a few miles from Galeao.

The planes collided and broke in pieces near Sugar Loaf Mountain, at the entrance to the bay, one of the city's landmarks. Residents of southeast apartments looked on in horror as the wreckage plunged into the bay.

Rescue craft picked up bandmen's and Navy hats and musical instruments. They also recovered a pair of valentine cards which apparently had floated out of the wreckage.

News of the disaster fell heavily on the cruiser Macon, at Buenos Aires for Eisenhower's visit there today.

Navy Band was making a tour of several South American cities aboard the Macon.

"We were like one big family," said a grief-stricken leader of the band. "This is a terrible blow."

Lodge Expects Hospital Release Tomorrow

Oakland County State Sen. L. Harvey Lodge said he expected to be discharged tomorrow from Pontiac General Hospital where he has been treated since Monday for a virus infection.

Lodge was admitted earlier this week. For three days he ran a fever sometimes as high as 106 degrees.

He said he expected to get back to his duties in Lansing the day of the week.

TRUCK EXHIBIT A WOW! — Thousands of persons turned out yesterday for the opening day of the Truck and Coach Division exhibit in the General Motors Building, Detroit. Keen interest was shown in the Division's complete truck line, on display through March 8. Other exhibit features include large scale color transparencies of photographs and "enough gadgetry to interest everyone."

Firm Improves Hangar No. 2

Aerodynamics, Inc., Is Making Over \$15,000 Worth of Changes

The huge hangar can be tilted forward by one man to expose the compact V-6 engine for easy servicing.

"The engine itself, the only one of its kind, is constructed so that accessory parts which require periodic attention are easily accessible," said Jennings.

"This is the premier showing of the V-6, an outgrowth of a four-year engineering program at GM Truck and Coach Division.

"Visitors are most impressed by its torque ratio which boasts great pulling power at minimum speed."

But the exhibition is attracting many more people other than those immediately interested in commercial transportation.

Crowds of women and the hundreds of secretaries in the GM Division of southeast apartments looked on in horror as the wreckage plunged into the bay.

Many are two-tone and sport colors of powder blue, turquoise, cream, lemon yellow, fire engine red and orange.

"It is proving to be a very popular exhibit," said Alfred G. Nelson, exhibit manager.

"There is enough gadgetry here to interest everyone and the immediate interest is wonderful."

On display also are a number of other transparencies of graphs taken and processed by the Truck and Coach Division's own photographic section.

Nelson said the transparencies are a glamor-type promotion of a new product that has proved very useful and effective.

Director of Photography R. G. DeGraff said the highlight of the transparencies is a panoramic view of Inspiration Point at Yosemite National Park.

DeGraff claims it is the largest portable photograph transparency in the world.

This Pedestrian Probably Owes His Life to Snow

A Southfield pedestrian, tossed 90 feet through the air when struck by a car early this morning, picked himself up out of a snowbank and said, "Where's my hat?"

Edward P. Setzke, 35, of 21871 Midway Rd., miraculously escaped injury due to the heavy snowfall. He suffered a bump on the head.

Driver of the car Peter Nicholas, 45, of Detroit, said he was unable to see Setzke walking on Eight Mile road near Lahar road before he hit him at 2:30 a.m.

"When I rushed up to him, he said, 'Where's my hat?'" according to Nicholas.

Nicholas said Setzke landed briefly on the hood of the car before being tossed through the air.

The car hood was dented, police said.

Setzke was treated at William Beaumont Hospital and released.

First Time 3 Big Planes Have Fallen in 24 Hours

NEW YORK, U.P.—It was peace-time aviation's blackest day. The collision of two big planes at Rio de Janeiro and the crash of an Italian airliner at Shannon, Ireland, was the first time three major planes had gone down within 24 hours.

Within the past year there were two other occasions on which two crashes occurred in a single day.

Allegedly Admitted by Watson Report Affair by Mrs. Lassiter

DETROIT (UPI)—Gordon Watson, 44, accused of first degree murder and conspiracy in the slaying of Royal Oak auto dealer Parvin (Bill) Lassiter, was quoted today as admitting he carried on a love affair with Lassiter's wife, Nellie.

Watson, being held in Los Angeles, Calif., was quoted as telling State Police Lt. Howard Whaley that Mrs. Lassiter was "not the only girl" with whom he had carried on an affair.

The statement came in response to a remark by Whaley that "we had some information that showed he (Watson) had registered at motels" with women companions.

Meanwhile Mrs. Lassiter, 38, a glamorous grandmother and former model, was held in jail here while her attorneys planned a fight to get her freed on bail.

Meanwhile, Mrs. Lassiter shared the jail with about 800 other prisoners.

The widow, who cried throughout her arraignment at which she pleaded innocent, was not allowed make-up or her own expensive clothes.

She sat in her bare sixth floor cell block yesterday watching a group of women prisoners playing cards.

There was Rose Marie Taylor, 28, of Detroit, who claims her boyfriend "died" of a heart attack.

She poured gasoline over his sleeping form and touched a match to it.

Another card player was Corine Simmons, 39, also of Detroit.

Police said her husband William returned to take her to a slum 17 miles away.

West Germany Gets French Facilities

PARIS (AP)—France has granted supply facilities to West Germany armed forces and may agree to further such arrangements, official French sources said Friday.

This report followed published reports that West Germany had been forced to negotiate with Spain for bases because France had refused facilities on her territory.

The preliminary West German talks with Spain have raised widespread criticism. Britain, where the criticism has been loudest, feels West Germany should have sought facilities only in countries belonging to the North Atlantic Treaty Organization. Spain is not a NATO member.

The Day in Birmingham

Eton Park Ice Skating Rink Ends Its Best Year Monday

BIRMINGHAM — The city's ice skating rink at Eton Park ends its season Monday with the most successful year since it was opened in 1956.

Donald Martin, director of the recreation board, said approximately 40,000 persons used the rink during the 3½ months it was opened.

This accounted for more than \$5,000 in surplus revenue that hadn't been expected, Martin said.

Nearly \$2,000 would be paid back to the city for an advance made to the recreation board last year.

The remaining amount would reduce the anticipated budget set before the season at \$20,000, Martin said.

"Most rinks close this time of year because of the unpredictable weather," Martin said.

"Smaller crowds and the maintenance cost of the rink don't justify keeping it open longer."

The World Day of Prayer observance March 4 in the Birmingham area will be held in Christ Church Cranbrook, at 10 a.m.

Each year Christians around the world unite in a prayer and thanksgiving service under the leadership of a different country.

This year the women from Canada, where the Women's Inter-Church Council wrote the theme "Labor Together With God."

The Birmingham YMCA's recent campaign for new members was pushed over the top with 1,843 enrolled against a goal of 1,500. It was announced yesterday. A total of \$8,000 also was raised in the fund campaign.

The Unity Center-Birmingham will sponsor a Lenten lecture March 10 at 8 p.m. in the Community House with Eric Butterworth, minister of the Detroit Unity Temple, as guest speaker.

Bank Share Mill Tax OK, Says High Court

LANSING (AP)—The 5 1/2 mill tax on bank shares, enacted in 1953 as part of the intangibles tax law, was upheld Thursday by the Michigan Supreme Court.

The court unanimously affirmed the state court of claims in rejecting a \$49,929 claim by the Michigan National Bank. The bank sought to recover that much in 1952 deficiency intangibles tax assessment.

Michigan National contended the

bank shares tax conflicted with a prohibition in federal law against discrimination by states in taxing of federally chartered banks. Michigan National said the legislature discriminated by not applying the shares levy to savings and loan associations which were said to be competitors.

In the Right Place

ST. LOUIS (AP)—Mrs. John J. Danback, walking down a hospital corridor to pay a bill for treatment of her 13-month-old daughter's broken leg, slipped and broke her own leg.

The oldest forms of actual writing are Sumerian.

Saginaw Man to Head Justice Association

MIDLAND (AP)—Guy H. Crowell of Saginaw was elected president of the Fifth District Justice of the Peace Assn. at the group's organization meeting in suburban Auburn Wednesday night.

Other officers include Clayton Cummings, West Branch, vice-

president; Ruth Tennant, Caro, secretary; Robert Forsman, Alger, treasurer; and Donald Schiebeler of Kalamazoo, Roy Winter of West Branch, James Dunn of Freeland and Robert Bright of Saginaw, directors.

There are no red-haired races. Red hair is an individual anomaly, usually associated with freckles.

In South, Mideast, Midwest

Weather? Violent!

By THE ASSOCIATED PRESS
A fast-moving storm which swept the South and Midwest swept into the Northeast today with heavy snow, sleet and strong winds.

The violent weather dumped heavy snow across wide areas in the Midwest Thursday as it followed the pattern of several similar storms this month in the eastern half of the nation.

The heavy snow line was from Lower Michigan eastward into central and northern New England. Haviest falls during the night were in Michigan and Ohio with lighter amounts in the Lower Great Lakes region.

Falls up to 10 inches were in prospect in mountain areas of New England.

Winds of 25-35 m.p.h. fanned the

falling snow into huge drifts in many areas, including Detroit. Gale warnings were displayed along the New England coast and the southern half of the Great Lakes region.

The stormy weather, which included a tornado and squalls in Florida Thursday, was blamed for at least 22 deaths. Some of the icy air which still gripped areas in the Rockies and the midcontinent seeped into the southeast during the night. Temperatures plunged to near or below freezing. Cold wave warnings were in effect for Alabama, Mississippi, southeast Louisiana and extreme northwest Florida. It was below freezing — 31 degrees — in Jackson, Miss., at midnight.

South Florida was out of the cold air pocket, Miami reported a reading of 75 degrees.

Mid-Month Dip Hits Car Sales

First 10 Days, Average Was 18,700; From 11th to 20th, 18,000*

DETROIT — Sales of new domestic cars during the middle 10 days of February dipped slightly below sales during the first 10 days of the month according to figures released today by Ward's Automotive reports.

A mid-month dip contrary to the normal industry sales pattern. Usually the selling rate increases slightly from the start to the end of a month.

Ward's reported estimated sales of 182,000 cars between Feb. 11 and Feb. 20, an average of 18,000 of the nine selling days. In the first 10 days the average was 18,700.

Archers Killing Almost as Many Deer as Autos

LANSING — Archers are catching up with motorists in Michigan's deer kill estimates.

The State Conservation Department said 2,741 deer were killed on the highways last year.

It was the first year since 1955 that fewer than 3,000 deer were killed by cars.

The bow and arrow deer bag is still being compiled but is expected to hit around 3,000 for 1960.

If the bowmen top the drivers, it will be the first time since 1954, the department said.

Weekend Talks at Consumers

Utility Workers Have Called 'Monday Strike' Unless Pact Is Okayed

JACKSON — Negotiations in the Consumers Power Co. strike threat will be held through the weekend in an effort to avert a walkout, company and union representatives pledged today.

Five thousand Consumers Power operating employees, members of the Utility Workers Union, have called a strike for Monday midnight unless a new contract is agreed to by that time.

Home and industries in 43 southern Michigan counties outside Detroit are served with gas and electricity by the company.

The company-union contract expires Monday midnight. Neither management nor the union has disclosed exact issues in the contract dispute.

However, the union reportedly has listed 91 items on which it wants contract changes, including wages and fringe benefits. The Utility Workers state council has refused to approve an extension of the contract.

Standing by to help in negotiations have been federal mediator Paul Ricketts of Detroit and state mediator Rex P. Cranston of Coldwater.

Car Strikes Scraper, City Resident Hurt

A car driven by a Pontiac man ran into the rear of a road scraper at 3 a.m. today and he was treated for minor injuries at Pontiac General Hospital and released, according to Waterford Township Police.

Richard E. Woodcum, 28, of 750 Cedarlawn St., was driving south on Highland road near Cass Lake road and didn't see the scraper he told police.

The driver of the scraper was Robert L. McDowell, 32, of 1072 Prement St., Waterford Township.

Both the Santa Fe and Oregon Trails started at Independence, Mo.

But Would Take a Fortune in Equipment

Paper Money 'Secret' No Secret

NEW YORK (UPI)—One of the more persistent American myths is that making the paper Uncle Sam's money is printed on is a secret that has been successfully guarded for generations. It just isn't true, says the man whose family has made all the paper U.S. money has been printed on ever since 1879. Arthur E. Crane of Dalton, Mass., came to New York to preside over the meetings of the Writing Paper Manufacturers' Assn., during the observance of paper week.

"There's nothing secret about how we make the paper for Uncle Sam's money," he said. "We all make paper for foreign money printed by American Bank Note Co. It's just a fine process and to duplicate the paper, a counterfeiter would have to invest a fortune in equipment. Our company has kept the job so many years because it's a narrow and expensive specialty—that's all."

The fine paper business is doing okay, Crane and Executive Secre-

tary Morris G. Dobrow agreed. Its newest and most perplexing field is paper for the wide variety of duplicating and photo copy machines.

A BIG MARKET

"There are so many different processes—photographic, thermal facsimile, electrolytic facsimile and various types of offset—each requiring a different treatment of paper," explained Dobrow, "and there must be a considerable range of grades of paper for each process. It's a big market."

Writing stationery is a tiny part of the writing paper manufacturers' business today, Crane said.

Fine book papers, legal papers, papers for long-lasting business forms in many colors, drawing papers, artists' painting papers, cigarette papers and decorative papers fill out the business.

Another bygone of the business is linen rag writing paper. "We still use a little linen, but fine papers today are made almost exclusively of mixtures of cotton fiber and a wide variety of wood pulps. The industry uses the equivalent of about 250,000 bales of cotton a year, purchased as by-products from the textile industry."

There are no more hand-made papers as it once did, he said, except the heaviest and finest artists' papers are now made by machine.

The book market nowadays doesn't use as heavy or high-grade papers as it once did, he said, except in the case of deluxe editions.

"That's because there's a bigger market for books at relatively lower prices than formerly so it pays to keep prices down," said Crane.

Makers of fine papers have made plenty of technical progress in many directions over the years, Crane added, but they haven't made paper any more permanent. "The blunt truth is that papers made centuries ago by hand craftsmen are as long-lasting as any we know how to make."

Two Federal Buildings Approved for State

WASHINGTON (AP)—The House Public Works Committee has approved authorizations for the construction of 53 federal buildings, including two in Michigan.

The buildings are an immigration and naturalization service center in Detroit costing \$1,112,000 and a post office in Wyandotte costing \$385,000.

More Aid to "Have-nots" Could Help U.S. Trade

In a booklet entitled "One Hundred Countries—One and One-Quarter Billion People," PAUL HOFFMAN, a U.S. representative working with the United Nations, tells why he expects the next decade to be an exciting one economically.

If the income of peoples in 100 underdeveloped countries in Latin America, Africa and Asia could be raised from the current average \$100 per capita annually to \$125, says Mr. Hoffman, a potential market would be opened for \$14 billion in American exports. To speed this economic growth in underdeveloped countries and in our own land, an increase in public and private investment capital from the present \$4 to \$7 billion a year will be needed.

Money from industrialized nations would go for factories, business enterprise, schools, highways and community services which constitute the foundation of developing economies. Such assistance, declares Mr. Hoffman, a former auto manufacturer and administrator of the highly successful Marshall Plan, is an investment, not charity.

The Administration has asked for \$4.175 billion in foreign aid. As it should, most of this would go to nations making the greatest effort to help themselves in planning programs which have a good chance of generating their own financing. "There is no question but that the nation can afford the expenditures required," said President EISENHOWER, "we cannot afford to ignore the needs."

Communist economic growth and with it Communist ideology are challenging the West. Russia offers more and more help to strategic spots in Asia and Africa. With our own economy booming, we must do everything in our power to help improve conditions under which so many human beings exist thereby blocking the appeal of Communism which enslaves peoples.

Hike in REA Interest Shown Long Overdue

In 1935 when the Rural Electrification Administration (REA) was established, the interest rate on money borrowed from the Government was fixed at 2%. But for the past 15 years the Government has had to pay more than that in interest on money borrowed to pass on to REA. The current rate is about 4%.

However, it must be remembered that the agency was created because private capital was not interested in rural electrification. It didn't look like a paying proposition. At that time only 11% of American farms were electrified. Today the percentage is nearly 95 as a direct result of Federal loans to REA to supply that demand.

Over the next 20 years REA plans projects which will create new markets for electric appliances and equipment for a total of \$24 billions. President EISENHOWER has pointed out that REA "has done much to enrich the lives of our rural families and contributed greatly to the advancement of our country's economy generally."

The co-ops now are in a strong financial position. REA officials admit that some are finding it profitable to invest excess funds at fairly high rates instead of prepaying Federal loans. Any ex-

cess for Government loans at half the current interest rate has disappeared.

In his budget message the President renewed his recommendation that the interest rate of REA loans be increased to the figure the Government has to pay on borrowed money, plus one-fifth of 1% to cover administrative expenses and estimated losses.

This is a reasonable request. The 2% interest rate is a Government subsidy and one of the main boasts of REA is that it is self-supporting.

This thing of there being too many people in the world isn't anything new. It has always had too many people—of the wrong kind—since the first family, of which Cain was one too many.

The Man About Town Had \$25 to Spend

Political Campaigns Were Not Flush in Early Days

Blister: Like some men, doesn't show up until after the work is done.

Politics was not always big business in Oakland County. Each nominee of a party was usually on his own, and the county committee was considerably limited in its finances.

In the free silver campaign of 1896, when

William Jennings Bryan was the Democratic candidate for president, the county committee worked on a total budget of \$25. The records show that

Aaron Perry was paid \$2.50 to secure a speaker. This item was offset by a donation of \$2.50 from

James H. Lynch, and the records would indicate that he was the speaker.

Biggest expenditure was \$12.50 for torches for a torchlight procession, and later there was a refund of \$2.25 for torches not used "on account of the weather."

Somebody traveled in supreme style, as there were three items of 50 cents each for a hack and driver, also \$1.50 for decorations for it.

The Pontiac Weekly Post, of which Harry Coleman, founder of The Pontiac Press, was publisher, had an advertising bill of \$1.75 and "several columns of free editorials," also another item of \$2.25 for circulars printed, "this being less than half the regular price."

The use of the old Clinton Hall, where the meetings were held, was evidently donated, according to some references in the minutes, but there were a few items of 50 cents each for janitor service.

One motion upstaged a prominent salon keeper for trying to dictate to the committee, "although he was a substantial contributor."

The minutes of the last meeting before the election contain an urgent appeal for watchers at the polls, "to curb the nefariously crooked efforts of the opposition to carry the county."

Oakland County went Republican in 1896.

Please remember the qualifications for this column's verbal orchids are 90th birthdays or more and 50th wedding anniversaries or more.

In response to an inquiry from "Always Wanting to Know," as to what we know about radar, we'll say that we know very little, except that it is spelled the same both ways, just like lake, level, ewe, bib, did, bob, eek, refer, revolver, rotator and defied. Any others? Of course, there's also Anna, Hannah and Cappel.

Mrs. Mary Lenhart of 3419 Alo Drive; 95th birthday.

Mr. and Mrs. Ruben Barclay of Lake Orion; golden wedding anniversary.

Verbal Orchids to—

Mrs. Estelle Minnis of 204 Norton Ave.; 82nd birthday.

Mr. and Mrs. Jesse C. Goff of 180 Mt. Clemens St.; 51st wedding anniversary.

Mrs. Helena Ward of Oxford; 88th birthday.

Henry Scree of Clarkston; 94th birthday.

Mrs. Charles Smith of Lake Orion; 86th birthday.

Mr. and Mrs. Ashley Northrup of Attica; 56th wedding anniversary.

David Lawrence Says:

We Must Close the Olympic 'Gap'

WASHINGTON—Something will have to be done about the Olympic "gap," America isn't showing up well in the Winter Olympics. Again the Russians are "ahead of us."

The latest score available as this is written shows Russia way out in front, with Germany second, while the United States lags far behind in third place.

How did it all happen? Was LAWRENCE there, something wrong with our "intelligence estimates?"

The fault presumably could be President Eisenhower's. He said something the other day in his press conference about not being first in everything and how sometimes you had to be "second best," as in the Olympics.

Maybe he didn't realize how important to our mental security a victory in the Olympics is—especially the winter ones.

Anyway, the whole thing calls for a congressional investigation. It ought to be ascertained, for example, whether under a Democratic administration the weather was colder and whether the United States then had better skaters and skiers than today.

Really what's wrong, of course, is that we in America are influenced too much by "budgetary considerations" or foolish ideas of amateurism, as against the Russian "professional amateur."

For the Soviet government pays and trains its athletes all the year round, while we don't even have enough funds available to us through popular subscription to hire needed coaches.

Also, as usual, there's something wrong with the climate. The Russians have the Arctic Ocean conveniently nearby, so the Arctic blasts keep the Russians well supplied with a stockpile of ice.

What will have to be done doubtless is to move our teams into northern Canada for a "ski-borne alert."

As for hockey, we are making a good showing in the championship rounds in that branch of sports, which only goes to show that you can't just emphasize one category, like skiing.

Geographically speaking, we are doing well in an "overall sense," at least we are getting more points than some of the snow countries like Sweden, Switzerland, Finland and Norway, respectively.

As usual, the women have saved the day. Carol Heiss won an Olympics championship in figure skating. She happens to be an undergraduate at New York University.

This is a subject for investigation, too. In New York City they have Central Park to provide ice-skating facilities.

The Country Parson

"We've made great progress in the last 35 years but all I can notice we're doing better is eating."

Other congressional districts don't have such advantages, and it's about time Congress did something about this—our "national output" and "economic growth" certainly warrants it.

Then there is the problem of propaganda doublet. All over the world, where no doubt the scores of the Winter Olympics are being watched with intense interest, the "prestige" of the United States goes down as Russia's standing goes up.

Here's America, a rich country with plenty of money to buy anything, but somehow our international standing is confined to such mild-mannered sports as track and baseball and sometimes tennis.

Don't the Republicans know that this calls for some big subsidies and that this is an example of "too little, too late?"

All this could have a bearing on presidential candidates. Sen. Humphrey, for instance, comes from a northern state—Minnesota—where the winter weather is more

often than not in the lower ranges of the thermometer.

Sen. Kennedy, it is said, used to play hockey—or was it his brother? Anyway, the Kennedys are well qualified on sports.

As for Sen. Lyndon Johnson, he doesn't have much chance, since he comes from the warm South and lately has been giving most of his time away to "outer space," where they say that skiing and figure-skating is not feasible, though it's possible they may have even better teams on Mars.

Maybe the Central Intelligence Agency should find out about planetary "capabilities."

(Copyright, 1960)

THOUGHT FOR TODAY

My soul continually thinks of it and is bowed down within me.—Lamentations 3:26.

How much it can feel; its poverty, by how little—W. R. Alger.

Dr. William Brady Says:

Indigestion Diagnosis Basis for Maltreatment

One of the common names for malnutrition of the newborn is "intestinal indigestion." More impressive names for it are marasmus, indolent stupor and celiac disease.

The notion that failure of this or that food to digest promptly or properly accounts for anything more than minor discomfort, if any, is the error on which a tremendous amount of maltreatment is based—with patent medicine and high-priced nostrums prescribed by physicians.

Once for an hour or two I feared I had indigestion myself. Going the rounds early in the afternoon I became conscious of discomfort in my midriff, which increased by the minute. I pushed, but a wave of constipation—as I headed for home.

I had eaten coconut for lunch, and the odious thought struck me that this had given me indigestion. This completely flabbergasted me. So I was greatly relieved after I got to bed with a chill and the doctor arrived and diagnosed appendicitis. At operation next morning the appendix was found gangrenous—18 hours after the very first symptom.

Whether I established a record, I don't know. I do know that "indigestion," acute or chronic, is not a rational diagnosis of any ailment.

I can't find out just what people or doctors mean when they say this food is easy to digest and that food is hard to digest.

The popular notion that "acute indigestion" is a pretty serious condition is understandable. In the early hours or days of illness that doctor hedges or evades committing himself on a diagnosis by hinting that it is "indigestion."

and by the time it becomes obvious that it is appendicitis, hepatitis, celiac, coronary thrombosis, shingles, pleurisy or let's say the patient or the family will have forgotten that the doctor made no diagnosis in the first place.

Dismissing an illness or indisposition as "indigestion" is a kind of idiom which involves only your own individual well-being. Pretending that an illness or indisposition is "just a cold" in the early hours or days is a crime that

involves the public health. And yet doctors and folk practice such deception every day.

Signed letters not more than one page, 100 words, including personal health and hygiene, not dictionary, not business, not editorial, not poetry, not fiction, not drama, not to the Pontiac Press, Pontiac, Michigan.

Case Records of a Psychologist:

Sins of Omission Bad for Child

Dolly's case is a classical example of the old adage that bad children usually have bad parents. But the parents may be guilty of sins of omission instead of sins of commission. But both types of adult sin can send a child straight from the high chair to the electric chair. Rate yourselves by the test below.

By GEORGE W. CRANE

CASE D-485: DOLLY D., aged 7, is a brilliant girl. "But Dr. Crane her teacher began," Dolly seems to have absolutely no sense of property rights.

"If she were older, she'd be called a kleptomaniac. For she takes the toys and property of the other children whenever she wishes."

"It may be crayons and pen. Dr. CRANE calls her handkerchiefs and scarfs. Most of the time I try to correct her, but five times this term I have had to send her to the principal because she has stolen property of other classmates."

"What is wrong with Dolly? Is she just a psychopathic personality in the making?"

SINS OF OMISSION

Dickens describes the villain named Fagin who used to train youngsters to become pickpockets.

And every American parent would probably find on such unscrupulous adult practices.

Yet Dolly's parents have deliberately taught her to steal—not by any sins of commission but by their sins of omission!

Look at the word "omission"

Voice of the People

'4-H Club and Scouts Rank as Force for Great Good'

A recent editorial asked if there's any other organization that has such an impact for good as the Scouting program. Yes, there is. It's the 4-H Club of America.

We celebrate National 4-H Week March 5-12 and think you can say much about our leaders and members, all good. We have many volunteer leaders here in Oakland County, all working to bring out the best in our boys and girls. 4-H clubs aren't only for farm boys and girls. Many are found in new subdivisions and many are sponsored by churches. Several large cities have them.

The four H's stand for Head, Heart, Hands and Health. The pledge states "I pledge my head to clearer thinking, my heart to greater loyalty, my hands to larger service and my health to better living for my club, my community and my country." The motto is to make the best better.

A young person who lives according to this motto is certainly becoming a better person and citizen. The 4-H way has often been described as a blueprint for a way of life and the pledge would place only to the Ten Commandments or Golden Rule as a worthy guide for living.

Volunteer 4-H Leader and Parent of 4-H Member

'Why Doesn't He Take Own Advice?'

A minister just proposed the royal family in Great Britain promote some interracial marriages to "help the cause." It might please a few people to see the Queen's daughter married to the son of an African chief (or maybe a jungle guide would be better), but the number offended would outweigh the minister's clan about a million to one.

Why doesn't the minister marry off his own family to Chinese, Eskimos, Negroes and peasants in India? Probably that never occurred to him.

Wouldn't it be wonderful if more people tried minding their own business for six months? Phooey, Phooey, Phooey

'Here's the Greatest Mistake We've Made'

The question: "What is the greatest mistake the United States has ever made?" The answer is, "Electing Franklin D. Roosevelt to the Presidency of the United States."

Paul Garner

'Will Politics Divert Ike?'

On Eisenhower's recent trip to Europe to promote our economic and military assistance so they may remain free, just whom does he mean they might remain free from?

Did he once question the heads of state of Italy and Spain about the slavery they force on their own people and the continued persecution of certain groups of people because of their religious beliefs?

He's now on another good will tour, this time to South America. A number of these countries are also persecuting certain groups of their people because of religious beliefs. I hope on this trip Eisenhower will let political expediency divert him from what should be the main reason for the trip, as it seems to have been in Europe.

Portraits

By JAMES J. METCALFE

I dream about the springtime with . . . Its skies of gold and blue . . . The grasses green, the flowers fair . . . And holding hands with you . . . When a mountain stream is melting . . . And all the air is clean and fresh . . . In countryside and town . . . I hear your merry laughter, love . . . The same as I did then . . . And as your heart and mine embrace . . . I kiss your lips again . . . It seems a century ago . . . I have the feeling, dearest one . . . It happened yesterday . . . The sunshine and the songs of birds . . . May still be quite apart . . . But, oh, the warmth of springtime is . . . Already in my heart.

(Copyright, 1960)

School where some other generous soul would donate time to help build moral fences in the minds of children.

"If the blind lead the blind, then both will fall into the pit," states the Bible, and that includes Dolly as well as her parents.

Criminality and lawlessness are often taught by parental sins of omission just as effectively as by

For example, when she was a toddler, she'd bring home the tri-cycles or dolls or other prized possessions of her companions.

Daddy would smile indulgently and try to use the pun, "It just shows she has taking ways." Or he would laughingly remark, "It just shows she takes things easy."

And mama thought it was rather cute that Dolly showed such possessive traits.

Besides, mama said she couldn't possibly punish Dolly for her behavior just until mama's resolution.

MORAL FENCES

Fences have no legal meaning to a dog, for he will leap over any fence within his jumping range and trespass on the owner's property.

The same holds true of a child until somebody erects Moral Fences in his conscience by teaching him Thou Shalt Not Steal.

For more than 3,000 years, good parents and teachers have been urging the 10 Commandments on children, as at Sunday School.

But Dolly's parents lazily stay home from church and don't even send their daughter to Sunday

Fagin's sin of commission, so get help.

Send for the 200-page "Test for Good Parents," enclosing a stamped return envelope, plus 20 cents (non-profit). Rate yourselves or let your older youngsters rate you parents thereon.

Senate to Speed Civil Rights

They'll Talk 'Round Clock

WASHINGTON (AP) — Senators on opposing sides said today about a week of around-the-clock sessions may indicate how the tide is running in the battle over civil rights measures.

Nonstop sessions are planned by Senate leaders beginning Monday, the start of the third week of debate, in an effort to break Southern resistance and force action on the legislation.

Sen. Kenneth E. Keating (R-NY) said that "if this fails to bring the matter to a head" in a week or 10 days, the Senate should attempt to put its cloture (debate-limitation) rule into effect.

Under this rule each senator's speaking time is limited to one hour, but to put into effect takes a two-thirds majority of all senators voting.

Keating said a first attempt to invoke cloture might fail because of the Senate's reluctance to interfere with its tradition of unfettered debate.

But if it does fail, he said, a second try should be made after another series of around-the-clock

sessions. He said he thinks the Senate will have to invoke the debate limitation to get action on the bill.

In a separate interview, earlier, Sen. Richard B. Russell (D-Ga.) also said he doubts if civil rights proponents ever can force a vote on the legislation without invoking cloture.

Russell, leader of the Southern forces, said, however, that he was not willing to concede that a two-thirds majority could be obtained to choke off debate.

"We'll find out after the Senate has been in session for 80 or so hours consecutively what course this legislation will take," he said. Vowing that "we're not in this with any defeatist attitude," Russell said that if necessary in carrying on the battle Southerners "can get down to some of the less refined methods of filibuster."

As one device they can employ, he mentioned offering voluminous amendments to the bill and insisting that they be read word by word by the Senate clerks.

Russell also observed that the

burden of keeping a quorum of 31 senators on hand falls on the civil rights advocates. Only a few of the Southerners have to stay around while others are resting.

Art Awards Go to 3 Waterford Students

Three Waterford Township High School students were honored in the Scholastic Art Awards competition. They competed with students from Wayne, Oakland, Grosse Pointe, Macomb and Washtenaw counties.

Certificates were awarded to John Watson for two portraits done in pastel; certificates were given to Mary Grillo and to Garland Thompson for oil paintings.

The work of all the winners from the five counties is on display this and next week at the Crowley's Department store auditorium in Detroit.

Deaths in Pontiac and Nearby Areas

MRS. CONRAD BERGHOEFER
Service for Mrs. Conrad (Jean) Berghofer, 28, of 42 Augusta St., will be held at 11 a.m. tomorrow at William R. Potere Funeral Home, Rochester. Burial will be in Troy Union Cemetery.

Mrs. Berghofer died Tuesday of carbon monoxide poisoning. Surviving are her husband who is stationed with the U.S. Army in Germany, a daughter, Pamela, and a son Ralph, both at home.

her mother, Mrs. Barbara Moss of Drayton Plains.

COLIN CAMERON
Colin Cameron, 37, a former Pontiac resident, died of a heart ailment at his home in Battle Creek yesterday. He had been ill several weeks.

A retired farmer, he leaves two daughters, Mrs. Lynn (Eliza) Brooks in Florida and Mrs. Arthur (Hue) Boyce with whom he made his home; a grandchild; three great-grandchildren; a sister and a brother.

Service will be held at 1:30 p.m. Saturday at the Hutton Funeral Home with burial in Perry Mount Park Cemetery.

LEONARD E. NYBERG
Word has been received of the death of Leonard E. Nyberg, a former Pontiac resident in Lido Beach, Fla. He died unexpectedly Wednesday night of a heart ailment.

Mr. Nyberg who made his home at 606 North Ave., Batavia, Ill., had been associated with the Phillips Petroleum Co. of Pontiac and was president of Western Propane Co. in Batavia.

Surviving are his wife, Barbara, three sons, Leonard, James and John, all at home; his father, a brother and a sister.

Mr. Nyberg's body will be taken to Batavia for service and burial Monday.

MRS. GEORGE ROSE
Mrs. George (Mary E.) Rose, of 2855 Peerless St., Waterford Township, died yesterday afternoon after a long illness. She was 80.

Mrs. Rose is survived by six sons, Irving of Drayton Plains, Claude of Clarkston, Frank of Rochester, Glenn, Leo and Gerald, all of Pontiac; 21 grandchildren; 31 great-grandchildren; eight great-great-grandchildren and a brother.

Service will be held at 2 p.m. Saturday at the Sparks-Griffin Chapel with burial in the cemetery at Hastings Monday.

MRS. JOSEPH M. VINEY
Service for Mrs. Joseph M. (Elizabeth A.) Viney, 81, of 206 Chandler St., will be held at 2 p.m. Saturday at the Church of God, Pike at Anderson street. Burial will be in White Chapel Memorial Cemetery. Her body is at the Purley Funeral Home.

Mrs. Viney died unexpectedly yesterday morning at her home.

BABY WALKER
Prayers were offered today at Perry Mount Park Cemetery for the infant daughter of Mr. and Mrs. Eber Walker Jr. of 9 Park Place.

Surviving besides the parents are a brother and a sister, Danny J. and Dianna Lee, both at home. The baby was born at birth Wednesday at Pontiac General Hospital.

MRS. WILLIAM BECHTEL
AVON TOWNSHIP — Word has been received of the death of Mrs. William (Minnie Jane) Bechtel, 53, of 5381 Donley St., at her daughter's home in Bradenton, Fla., following several weeks' illness.

Her body is being brought to Moore Chapel of Sparks-Griffin

Funeral Home, Auburn Heights. Surviving are two daughters, Mrs. Charles Hartung of Bradenton and Mrs. Albert Engstrom of Avon Township; and a son, Wilbur Bechtel of Almont.

MRS. HENRY MOULTON
HOLLY — Service for Mrs. Henry (Mildred) Moulton, 94, of 30 Rosette St., will be at 11 a.m. tomorrow in the Dryer Funeral Home. Burial will be in Rose Hill Cemetery, Eaton Rapids.

Mrs. Moulton died yesterday after a long illness.

Surviving are a son Harry of Holly and two grandchildren.

MRS. ADA H. TOLFREE
OXFORD — Service for Mrs. Ada H. Tolfree, 82, will be held Saturday at 10 a.m. in the Flumerfelt Funeral Home. Burial will be in Fair Plains Cemetery, Grand Rapids.

Mrs. Tolfree died Thursday after a long illness. She was a member of the Congregational Church of Oxford.

Surviving are three stepdaughters, Thelma M. Tolfree of Oxford, Mrs. Wayne Nolan Sr. of Metamora and Mrs. Erwin Mayhew of Boyne City, and a niece.

BESSIE P. WISER
Bessie P. Wiser, a teacher in the Detroit Public School System for 40 years, died this morning after an illness of several years. She was 71.

A graduate of Eastern Michigan University, Miss Wiser was a member of the Michigan Education Assn. Surviving is a brother, Newton of Detroit.

Service will be held at 1:30 p.m. Monday at the Donelson-Johns Funeral Home. Her body will be taken to the Seymour Lake Cemetery for burial.

Tomatoes were once believed to be a poisonous food.

Kiwanis Club Promoting Waterford Boys' Club

A townshipwide project to have a Boys' Club in Waterford is being promoted by the Westside Kiwanis Club, according to John Stefanski, Kiwanis chairman.

Each civic organization in Waterford Township has been asked to appoint two representatives to a temporary planning committee. This group will make a survey and present recommendations for the establishment of a Boys' Club, Stefanski said.

A parcel of land owned by the township on the edge of Crescent Lake between Elizabeth Lake and Pontiac Lake roads is being considered as the new club's headquarters.

The newly organized Lakeland Optimist club has taken over the

development of the property for park purposes, and has enthusiastically endorsed the possibility of a Boys' Club using the land, according to Stefanski.

Survey letters are expected to be distributed throughout the school system and township area next week. When the reports have been returned, the committee will lay definite plans, Stefanski said.

He added, "With the cooperation of all civic organizations in Waterford Township in sponsoring and promoting fund-raising projects, the new Boys' club is bound to be a sure-fire success."

Yellowstone National Park has about 100 geysers and about 300 non-eruptive hot springs as well.

Ex-Drug Official Ready for Stand

WASHINGTON (AP) — Senate investigators recalled today a doctor who said he quit his post with a New York drug firm because of what he called its "perverted marketing attitudes."

Dr. Martin A. Seidell had started to present a lengthy statement when a night hearing broke up at 2 a.m., Seidell, former medical director for a subsidiary of Chas. Pfizer Co. of New York, is now associate medical director of Riker Laboratories, Northridge, Calif. His statement was put into the hearing record Thursday.

The Pfizer Co. issued a statement saying "it is worth noting that he resigned only after his assistant received a promotion to

which Dr. Seidell through he was entitled himself."

Chairman Edw. Kefauver (D-Tenn) and Sen. Roman L. Hruska (R-Nebr) were the only members of the Senate Antitrust and Monopoly subcommittee on hand for the night session.

Seminary President Resigns for Health

HOLLAND (AP) — Dr. John R. Mulder, president of the Western Theological Seminary of the Reformed Church in America, has resigned the post because of impaired health. He will leave at the completion of his administrative work this year.

Long a leader in the Reformed Church, Dr. Mulder has been a professor of theology 31 years. He has been president of the seminary 18 years.

QUESTIONS & ANSWERS ABOUT

BUILT-IN ELECTRIC HEAT

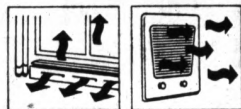

Electric heat is an advanced and superior concept of home comfort.

Here are some of the questions we've been asked about it.

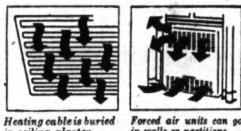

WHAT DOES IT LOOK LIKE?

The four most widely used types are illustrated below. Because electric heat is built in, there is little interference with living space.

Baseboard units come in any length. Radiant panels go in or on walls.

Heating cable is buried in ceiling plaster. Forced air units can go in walls or partitions.

IS IT SAFE?

It's as safe and troublefree as electric light. Electric heat devices work very much like your toaster does. However, most of them operate at relatively low temperatures—without glowing wires, but they are still highly efficient.

HOW EFFICIENT?

The heat produced by electric systems is usable heat; practically none of it is wasted within the heating equipment itself. Electric heat is just about as close to 100 percent efficiency as it's humanly possible to get.

IS IT EXPENSIVE TO INSTALL?

In general, the original cost of an electric heating system is less than that of any other type of quality equipment. Actual installed cost will vary according to type of heating unit used, home size, method of home construction and additional insulation requirements.

IS IT BEST FOR A NEW HOME OR WHEN MODERNIZING?

A good time to install electric heat is when building a new home. But it's also very economical to install it when home alterations or additions are being made. Whether you're building, buying or remodeling, electric heat is entirely practical.

CAN I PUT IT IN JUST ONE ROOM?

Yes, and economically, too, as just indicated. Typical examples: when you're adding a new room, finishing an upstairs, closing in a porch or breezeway. Electric heat is especially valuable when the new living space is a long way from the central heating system, or when the central system is already working to capacity. Another good time to use electric heat is when you have a hard-to-heat area.

CAN I PUT IT IN THE WHOLE HOUSE?

Yes, you can switch the whole house over to electric heat. In this case, additional insulation will be required, plus storm sash and storm doors all around.

For greatest heating economy and summer comfort, regardless of type of heating system, good insulation pays off. Industry-established standards for this area for insulation thickness is not less than 6" overhead; 3½" in outside walls; 2" alongside and partially under concrete floor slabs. Floors above basements also need insulation.

WHAT DOES IT COST TO USE ELECTRIC HEAT?

Various factors, including family living habits, affect operating cost, so a hard-and-fast answer is impossible. A rough rule of thumb is 25¢-28¢ per square foot of heated space, annually. But there's little need to guess. An electric heating contractor can calculate actual first cost and operating cost quickly and accurately.

Electric heat will cost more. But the cost will probably not be as high as one would imagine. Like any quality product, you pay more for electric heat but you get more benefits!

In June 1959, Detroit Edison added a new, lower step to the residential electric rate. Now, kilowatt-hours of electricity over 750 per month cost 2¢ each, instead of 2½¢—an 11 percent reduction.

DOES IT NEED MUCH SERVICING?

No. There are no moving parts in the electric heating systems discussed here except in the forced air units where fans or blowers are used. Fans are not high velocity, so they are long lasting also. An added advantage of electric heat, depending upon the type, is its completely silent, or very quiet, operation.

WHAT MAKES ELECTRIC HEAT BETTER?

FLEXIBILITY—Each room has its own thermostat. So each remains at the temperature you choose without affecting other areas. Temperatures can be raised or lowered in any room without overheating or chilling the rest of the house. Just a touch on the proper thermostat does it.

SPEED—When a thermostat is adjusted to call for more heat, the response is fast! In the systems described here, the heat source is right in each unit—only inches away instead of many feet.

EVEN HEAT—There will be very little temperature difference between floor and ceiling. And, wherever possible, electric heat (except ceiling cable, of course) is installed in outside walls. Then there is a curtain of warm air between the cool wall and window surfaces and room occupants. This tends off chilling drafts.

CLEANLINESS—Nothing is burned to make smoke, soot or fumes. Air currents will carry only whatever dust may have been introduced by other means. Nor are large quantities of outside, potentially dusty air drawn into the house to support combustion. Result: walls, draperies, furniture and floor coverings stay clean longer.

ARE THERE OTHER TYPES OF ELECTRIC HEAT?

Yes, the flexibility of electric heat makes it applicable to many basic systems. For example, there are electric warm air and wet heat systems.

WHERE CAN I SEE ELECTRIC HEAT?

At the Detroit Builders Show, February 27-March 6.

And a feature of every Gold Medallion Home is its electric heating system. Watch for announcements of Gold Medallion Home openings.

WHERE CAN I GET MORE INFORMATION?

There's free literature at your Edison office, or mail the coupon below. Another source, especially for a cost estimate, is the electric heating contractor who displays this emblem.

The contractor who displays the emblem has had special training which enables him to estimate your heating needs accurately. He has also pledged himself to meet industry standards of installation.

U.S. Compacts Hit 38,350

Top Record This Week but Total Auto Output Down Slightly

DETROIT (AP)—Production of domestic compact cars will hit a record 38,350 units this week, Automotive News said Thursday.

The rise in compacts, from last week's record of 37,586, will come despite a slight drop in total auto production.

The trade paper estimated industry passenger car production this week at 157,390 compared with 159,630 last week and 157,915 in the comparable week of 1959.

Automotive News estimated truck production for the week at 29,929 units compared with 31,138 a week ago and 25,138 a year ago.

Canadian production will rise a little this week to 8,605 cars and 1,850 trucks from 8,215 cars and 1,320 trucks last week. A year ago Canadian output totaled 9,841 vehicles in the comparable week.

Ten years before the Pilgrims usually stays at about 15 degrees, cold enough to store frozen foods for a few days, but not cold enough for long-time storage.

AP Photo/Asa

FREE ON \$2,000 BAIL—Miss Wanda Petoskey, 19, of Hemlock, as she appeared in 1958 when selected as Dairy Princess, has been charged as a companion of manslaughter in the traffic death of a 17-year-old Merrill girl, Miss Petoskey demanded examination Thursday when arraigned before Municipal Court Judge William J. Wolf. She was freed on \$2,000 bail. Miss Petoskey could not be located by State Police assigned to serve the manslaughter warrant.

U.S.-Brazil Relations Hit New High

By STANFORD BRADSHAW
RIO DE JANEIRO (AP)—President Eisenhower's tragedy-tempered visit to Brazil appears to have raised U.S.-Brazilian relations to a fine new high.

It also has set a high standard for the other three stops—Argentina, Uruguay and Chile—on his four-nation, 15,560-mile tour.

Although some problems remain in both car and truck registrations, with 6,150,000 automobiles and 1,136,000 trucks.

shoved into the background for the moment.

First came the enthusiastic receptions for the American President in Brasilia, Rio, and Sao Paulo.

Then came the tragic plane collision Thursday that took 61 American and Brazilian lives.

"I hope," said Brazilian President Juscelino Kubitschek Thursday night, "that this sacrifice will further unite the two American nations who have lived through moments of purest happiness and solidarity during these last two days."

California leads all other states in both car and truck registrations, with 6,150,000 automobiles and 1,136,000 trucks.

Milky Galaxy Quite Mature

Earth Is Minor Planet; Space Goes On and On and On and On

WASHINGTON—The Milky Way has been advanced overnight from cosmic youth to a more mature age.

Shaped like a giant Fourth of July pinwheel spinning in space, the Milky Way is known as a spiral galaxy, the National Geographic Society says. It contains billions of stars, including the earth's, vast clouds of dust and gas, seas of darkness—and countless mysteries.

The Milky Way's birthday was drastically challenged recently when an eminent British scientist assessed its age as 10,000,000 years, or double the previous estimate. Soon after, a leading American cosmologist suggested that it may be far older than that—perhaps as many as 51,000,000,000 years.

The varying estimates, both based on studies made at Palomar and Mount Wilson Observatories in California, illustrate how much is still to be learned about the past and future history of earth's home galaxy.

DISTANCES VAST

The Milky Way is so big that light, speeding 186,000 miles a second, requires a hundred thousand years to cross it from rim to rim. By contrast, light flashes to earth from the moon in just 1 1/4 seconds.

The earth's solar family is embedded in one of the galaxy's faint spiral arms, far off center. The galaxy's nucleus is in the direction of the constellation Sagittarius, the Archer, which can be seen low in the Southeast sky in May.

The galaxy as a whole is revolving. It takes the sun roughly 200,000,000 years, or a cosmic year, to make one circuit.

Centuries ago man believed his earth to be the center of the solar system, thus the hub of the universe.

Then came the Copernican revolution, with proof that the earth is a minor planet. Three decades ago man's ego got another jolt when astronomers discovered that the solar system is merely an insignificant part of the Milky Way, not its nucleus.

Even on a dark clear night earthlings can see only 6,000 of the sun's 100,000,000,000 or so neighbors in the home galaxy. Without an aid to vision, man can detect only one object outside the Milky Way, and that is the famed M 31 galaxy in the constellation of Andromeda.

But there are thousands of millions of other galaxies, similar to the Milky Way. Existence of these huge star systems was shown afresh by the National Geographic-Palomar Sky Survey which charted the heavens to the distance of a billion light-years and expanded known space 25 times.

Bats are the only mammals capable of sustained flight. Flying squirrels can really only glide.

PADDLING DOWNHILL — "It doesn't steer very well," says John Mattern, 17, of Des Moines, Iowa, owner of the canoe, but it looks like a barrel of fun for these four teen-agers. Posing for an erratic downhill plunge are Ron Fessler, 17; Mark Kroil, 17; Nancy Brown, 18; and Mattern.

Vassar City Manager Takes Buchanan Job

BUCHANAN (UPI)—William E. Wilson, the present city manager of Vassar, will take over as new

city manager here late next month. Wilson, 48, a member of the International City Managers Assn., will succeed John H. Kennebaugh who has moved to the city manager's job at Wyoming, a Grand Rapids suburb.

Many People Eat Out

About 75 million meals are served daily in public places.

Since early Rome, salt has been subject to taxation.

Will Negatively Ionized Air Help?

He Studies Shoplifting

DETROIT (UPI) — Can shop-lifters and other criminals be filled with honesty by taking deep breaths of negatively ionized air? Could department stores of the future, for example, equip their air conditioning units with gadgets to pour out negative ions along with fresh air, and thus eliminate criminal impulses?

However, it is their possible effect on criminal tendencies that interests Curtis, whose job is guarding against shoplifting.

"Crime is skyrocketing," he said. "FBI statistics show that since 1950 crime has increased four times as fast as the population."

"Obviously, locking people up in prison is not the solution, so we've got to look for a new approach," Curtis thinks ionization deserves a look.

He said research shows that more murders and crimes of passion are committed in New York during July and August. Some people blame it on the heat, but Curtis points out that there may be another reason.

For that is the same time of year, he says, that the atmosphere is charged with more positive ions than at any other time of the year.

In Italy, according to Curtis' research, the effect of ions on crime is already recognized. There

Meat Imports Rise in U.S. During '59

SAN FRANCISCO (UPI) — Imports of meat into the U. S. during the first six months of 1959 climbed 35 per cent above the same period a year ago, the Bank of America economics department reported.

Furthermore, meat imports during all of 1958 reached a record 1,100,000,000 pounds — up 543 million in 1957. Most of the increase has occurred in sheep and goats, veal and boneless beef and in processed meats other than beef.

Price Rise May Slow Up

By SAM DAWSON
AP Business News Analyst
NEW YORK (AP)—The happiest news Thursday was the growing belief that the cost of living may have leveled off for awhile.

It will be leveling off at or near its record high. Some prices and fees will continue to climb. But others should ease, thus striking a balance.

The good news is that while it still will cost a lot to live as you are accustomed to, maybe it won't get any worse, for a change.

The belief is held by both those who shape up the consumer price index in Washington and observers of the commodity markets and the business scene in general.

All kinds of reasons are given

for the belief—at least the hope—that further inflation has been sidetracked, if only for the time being. Taken together they could forecast a breather.

Abundance is the key word.

MOST SUPPLIES GOOD

Almost all commodities are in good supply. Some are in surplus, and the stress now is more on trying to keep them from glutting domestic or world markets rather than pressure to send prices higher.

Food is the biggest item in most budgets. Food prices will fluctuate with the seasons. But given prospects of a good harvest later on, the housewife's over-all good budget shouldn't change much for awhile.

Most industrial materials also

are in good supply and purchasing agents shouldn't have to scramble for anything but the most special or intricate items.

And with retail stores mostly well stocked and sales rivalry growing, or at least unabated, an eye on the newspaper ads should help housewives keep most spending in line.

The success of most post-Christmas clearance sales shows that consumers are well aware of this.

OPERATING COSTS UP

Many manufacturers have good reasons to want to raise prices. In many cases their operating costs have risen. But in only a few cases have prices risen as much as operating costs.

Part of this is due to greater plant efficiency as management

strives to hold down costs. Part is due to the use of better equipment and sometimes of new and better plants.

But a chief factor is the greater capacity to produce in most industries. One way to increase use of surplus capacity is to boost sales by keeping prices down. Usually, just around the corner, is a rival who will undersell you if you don't.

Commission Is Ready to Hear Business Grips

LANSING (AP)—Small businessmen have been invited to send their gripes and recommendations to a newly formed governor's commission.

The Small Business Commission held its initial meeting yesterday and invited the comments.

The commission also set as its first goal a reduction in reports and paperwork required of small business in dealing with state agencies.

Want Out of His Back Pocket

Virginians May Puncture Lyndon Johnson's Balloon

WASHINGTON — A sensational development in the old Dominion State could play havoc with the presidential hopes of Lyndon Baines Johnson.

It's a deep secret, but a powerful Virginia political leader has recently posted a letter to certain of his colleagues proposing that Virginia's delegates to the Democratic National Convention "be instructed to vote against Johnson."

The reason, of course, is the unexpectedly strong leadership that the Texas leader is exerting to force a substantive civil rights bill through the Senate.

As astute a politician as ever came down the pike, Johnson is convinced that the only way to win the presidential nomination is to

wealthy Texas served notice that, beginning next Monday, the Senate will meet "around the clock" until it votes on civil rights passage. He'll have no fury like the angry rebel yells that greeted this announcement.

Cost of Living Off
Half a Pct. in Detroit

DETROIT (AP)—The cost of living in Detroit fell off five-tenths of one per cent from December to January, the Bureau of Labor Statistics said Thursday.

The cost of transportation dropped 2.5 per cent, apparel 1.1 per cent, food 0.4 per cent, personal care 0.3 per cent, housing 0.2

per cent and reading and recreation 0.1 per cent, the government said. Other goods and services advanced to 2.3 per cent. Medical care was unchanged.

The January index for Detroit was 123.4 per cent compared with the 1947-48 base of 100. It was one-tenth of one per cent above the level of a year ago.

Some astronomers believe that the moon may be covered with dust up to two-thirds of a mile in depth.

Carole's Lawyer
Starts Last Plea

Will He Argue Finch Is
Guilty and That the Girl
Should Be Freed?

LOS ANGELES (AP)—Carole Tregoff's attorneys launch their last-ditch defense today.

It will probably be their final chance to convince a jury that Carole didn't conspire with her lover, Dr. R. Bernard Finch, to slay his wife. The couple is charged with murdering socialite Barbara Jean Finch, 36, last July 18.

Miss Tregoff's three lawyers launched closing arguments Wednesday with a strong hint that Dr. Finch, 42, could be guilty and his 23-year-old mistress innocent.

They a juror's toothache halted the trial for a day—giving Dr. Finch and his attorney time to ponder this question:

Will Carole's lawyers claim the doctor is guilty—in a desperate move to save the girl?

Hound Dog Missile
Test Successful

EGLIN AIR FORCE BASE, Fla. (AP)—The Air Force has successfully fired another GAMT Hound Dog missile.

A Hound Dog sped several hundred miles down the Atlantic test range Thursday night after it was launched from a B52 bomber over Cape Canaveral, Fla.

The Air Force said the 51-foot missile impacted in a predetermined area.

The missile was the eighth to be launched in a series of tests conducted from Eglin.

Judge Takes Self Out
of Chessman Case

LOS ANGELES (AP)—Superior Judge Herbert V. Walker, accused of prejudice by Caryl Chessman's attorney, has disqualified himself from setting a new execution date for the convicted sex-terrorist.

The move was interpreted as an effort to avoid further legal entanglements in the complex case that could lead to another appeal.

Chessman's attorney, A. L. Wirgin, said the disqualification was "a significant victory in Chessman's struggle to secure fairness from the California courts."

NEW BISHOP — The Rev. Charles E. Benson was consecrated the fifth bishop of the Episcopal diocese of western Michigan at the St. Mark Cathedral in Grand Rapids Wednesday.

Negro Equality in 138 Years?

Is That Fair in Craft Training, Job Chances, According to NAACP

WASHINGTON (AP)—Negroes won't obtain equality in skilled craft training and employment for another 138 years at the present rate of advancement, a new study reports.

The nationwide study of racial discrimination in apprenticeship training programs was made by the National Assn. for the Advancement of Colored People.

Ray Wilkins, executive secretary of the NAACP, said a 138-year delay "will not be accepted by Negroes and we hope it will not be contemplated by others."

Vice President Richard M. Nixon got a copy of the study Thursday from Wilkins and the NAACP's labor secretary, Herbert Hill. Nixon is head of the President's Committee on Government Contracts. The committee took steps Wednesday aimed at ending discrimination against Negro craftsmen on federal projects.

The NAACP study covered the number of Negroes in construction trades and apprentice programs in Baltimore, Boston, Chicago, Cleveland, Detroit, San Francisco and other cities.

Wilkins said it indicated that Negroes make up less than one per cent of those admitted into training programs.

The survey said the responsibility for excluding Negroes from training programs rests with organized labor, management and state and federal government officials.

The survey recommended that the AFL-CIO enforce its anti-bias declarations and that government agencies withhold subsidies from apprentice training programs which refuse to admit Negroes and members of other minority groups.

Charles Darwin, who developed the theory of evolution more than 100 years ago, once studied to be a clergyman at Cambridge University.

asy Blouse . . . Classic Shirtwaist . . . Bold Plaid

Spring Styles Blow In With Snow-White Look; Ski Over Drifts and Find These in Local Stores

The easy bloused bodice at left tops a slim sheath skirt in an R & K Original design. The large pearl buttons suggest a double-breasted closing. The collared stand-away neckline and

elbow-length sleeves are added features. At right, David Crystal's soft flowing surah in light blue is slightly bloused. The new Dacron weave assures greater elegance and easier care.

The classic shirtwaist—every season's favorite—achieves this season's look by appearing in white, newest darling on spring's fashion palette. In

pure silk broadcloth with unpressed pleats and three-quarter length sleeves, its only adornment is the silver buckle on the wide self-belt.

Above, a handsome bold plaid with no upkeep problem. Halldon's novelty weave orlon and wool coat is fully machine washable. With white so important in the spring fashion picture, upkeep is of prime importance. Below, an Israeli knit navy and white suit is lightweight enough to see all-season duty. The three-piece ensemble features boat-necked cap-sleeved sweater, elastic banded skirt and wide notched shawl collar on the jacket. All fashions pictured on this page are available locally.

Viewed by Waterford Dems

See Slides on County

The Waterford Township Democratic Women's Club met Tuesday at the Walton boulevard home of Mrs. James Seeterlin.

Mrs. Patrick Daly and Mrs. Joseph McGee were co-hostesses.

The program consisted of slides, "The Oakland County Story," presented by the Michigan Bell Telephone Co. Officers are Mrs. Walter Brinkmann, president; Mrs. Luther Olson, vice president;

Mrs. Daly, secretary; and Mrs. George Cameron, treasurer. Committees named were Mrs. Seeterlin and Mrs. Stanley Irish, ways and means; Mrs. Melvin Hampton, membership; Mrs. McGee, publicity; Mrs. Carlos Richardson, program; Mrs. Joseph Cooper, telephone; and Mrs. Albert Dryden, auditor.

The group will meet next on March 22 at the Eason street home of Mrs. Brinkmann. All interested women are invited.

Honor Set by Family

Mr. and Mrs. Arthur Beyer of Mt. Clemens street will be honored at an open house Sunday from 2 to 6 p.m. in celebration of their 25th wedding anniversary.

The couple's children, Mr. and Mrs. Richard Beyer of East Huron street, Mr. and Mrs. Duane Beyer of South Shirley avenue, Carolyn Beyer of Riverside, Minn., and Marlene Linda, Duane and David Beyer, all at home are hosting the affair.

Birmingham Folk Flit Here, There

By RUTH SAUNDERS
BIRMINGHAM — Neighborhood friendships are lasting; and Mrs. Richard K. Scales,

Mrs. Ernest F. Kern and Mrs. M. R. Liles have just moved this to their friends, the John S. O'Gormans Jr., the J. G.

Neals and the Genaro Flores family who have all recently moved to Arizona.

The three women have just returned from Tucson and Phoenix where they divided their visits between the two cities, shuttling back and forth from the Floreses in Scottsdale to the Neals and O'Gormans in Tucson for the many parties in their honor.

Mr. and Mrs. O'Gorman, the most recent family to leave Birmingham, will return next month for the April 23 marriage of their daughter Sharon to David S. Glass.

Mr. and Mrs. Semon Knudsen were hosts at a reception Saturday in their Bingham road home for their daughter and son-in-law, Mr. and Mrs. Howard S. Christie Jr. The young couple will be living in Trenton, N. J.

Mrs. George D. Miller Jr. was hostess at luncheon Thursday honoring Mrs. Bruce M. Stanton, Mrs. Wei Chow and Mrs. Glenn B. Carpenter Jr.

Wearing wonderful snow sun-tans are the Leroy Dahlgren, the Samuel Gawnes and the John Shenefields who have just returned from Aspen, Colo. on a skiing holiday.

Mr. and Mrs. Wilfred D. MacDonnell will return to their home on North Glen-garry road next week from a Western vacation. They are at present in Squaw Valley, Calif. After the Winter Olympics, they will go to San Francisco for a few days at the Mark Hopkins Hotel before flying home. Before going to Squaw Valley, the MacDonnells spent a few days in Palm Springs, Calif. at the Riviera Hotel.

Mr. and Mrs. John B. Poole will return to their Bloomfield Hills home Sunday from a cruise in the Caribbean on their yacht. They were accompanied by Mr. and Mrs. Curtis Matthews of Bennington drive.

Mr. and Mrs. Clarence Brinkman (Jo-Ann Green) of Red Leaf lane, Southfield Township, announce the birth of a daughter, Therese Amette, Feb. 11.

Guests of Mr. and Mrs. John W. Sprague of Shoals drive, Drayton Plains, will be the Jack McVays, the Martin Cohens of Flint, Thomas Zackery of Garden City, Mr. and Mrs. Al Riese of Birmingham and the Tom Colfords.

Proceeds from the affair will furnish entertainment facilities for patients at Pontiac State Hospital, one of the chapter's major charitable projects.

Local Sorority Plays Sponsor Plans Benefit Dance

Psi chapter of Sigma Beta National Sorority will sponsor a Mardi Gras Dance, Saturday, at the Bemis-Olsen Amvets Hall on Oakland avenue. An area orchestra will furnish music.

Entertaining at cocktails before the dance and at a buffet supper following the party are Mr. and Mrs. Joseph Mooney of Emerson avenue. The guest list includes Mr. and Mrs. Albert Emsley, the Robert Browns, the Frederick Beckwiths, the Orval Russells, Mr. and Mrs. Paul Kitts, Gregory Mooney and Sharon Savedge.

Reds Mustn't Outdo Us Says Author Barbara Ward

By MARJORIE EICHER

Barbara Ward, English author and economist, spoke to a large audience at Birmingham Town Hall yesterday. Winsome and slight in her trim gray suit with a hint of heather tones, she was the epitome of an English lady. Eloquent and gracious, she possesses a sincere charm which immediately enthralled her audience.

We were tempted to listen only to the sound of her voice, it was pitched so pleasantly with just enough crisp British flavor to complement the timbre—but here again she had us enslaved. She had so much to say, and said it so well.

Her topic, "The Unity of the Free World," must really be enlarged, she explained, to unity of the world itself because, she stated, "We are all members of a human family, endangered as never before, but with opportunities as never before."

SEES STARTLING CHANGES

Touching briefly on the globe-shrinking technological developments of the past 15 years, Miss Ward said we must look forward to equally startling developments in the coming span of years. We are on the verge of travel in space. Instant communication techniques may well throw us across the Orwellian threshold to telepathic communication, she stated.

The leading change of our time, however, is the rise in aspiration of people everywhere, according to Miss Ward. The belief that no man need starve, that education is possible for all and that opportunity exists for all is reaching the most remote corner of the world. The idea of the community of man has been espoused by the Communists, and we can't deny that they think they can create it, said Miss Ward.

Since knowledge as well as nature abhors a vacuum, we

must not be outthought, out-manuevered and outplanned by such a battering ram technique, nor must we default. For the idea that exists will defeat the ideal that doesn't exist, according to Miss Ward. "We must recognize the unity of the world at large and reset our policies," stated Miss Ward. "We're stuck with it anyway," she added with very charm, "so let's have it reflect the graces and achievements of our society."

Citing the grit, drive and determination of Abraham Lincoln to achieve an education, Miss Ward said the deep ideal of an educated world must become our prime purpose.

Our children should be encouraged to help spread education world-wide.

Hailing the Marshall Plan as largely responsible for post-war economic expansion and growth and a doubled living standard, Miss Ward said we must expand world trade, "for economic growth is the bedrock of freedom and education." Stressing that we must consider our trade positions together and not unilaterally in order to avoid a repetition of 1929's chaos, Miss Ward says we must lower tariffs over the widest possible area. This involves sacrifice to all.

Consistently optimistic, she believes we can help and re-

train industries which are affected by free trade. Miss Ward went on to express the need for more working capital in world trade and an international federal reserve system.

She believes the transfer of capital to less developed areas of the world will be the cardinal issue of the next 30 years.

A fresh thought was offered when Miss Ward stated that the world should really not be divided between East and West, but rather between North and South at the 35th degree of latitude, for one-third of the people above this area, including Russia, have reached what

would have been a royal standard of living two centuries ago.

Touching briefly on the dangers of a hydrogen holocaust and believing that arms inspection and not disarmament per se should be our present goal, Miss Ward concluded a speech that was as solid and rhythmic as a well-wrought fugue with the homespun thought that women can make a unique contribution to foreign policy.

"They may bring to its study the long concern and steady patience they are called upon to exert in raising their children," she said.

Birmingham Town Hall's president Mrs. George H. Cary of Lahser road at left enjoys a pre-luncheon chat at the Kingsley Inn with economist Barbara

Ward. The Rev. Dr. Kenneth H. Goss of Wimbledon drive shared in the conversations that bubbled at the speaker's table hosted by Mrs. Edward E. Codner.

a bunch of water cress will serve four generously. If tossed with French dressing for a salad, try adding crumbled Roquefort or blue cheese to the dressing.

Boil Brazil nuts, in their shells, in salted water for about 3 minutes, then run under cold water for 1 minute; drain and crack with the greatest of ease.

Students Will Present Colored Films Saturday

The first in a series of Saturday afternoon movies will be presented tomorrow at the Washington Irving School, West Square Lake road, at 2 P.M.

Four colored sound films will be shown. Two movies, each lasting 20 minutes, will be projected simultaneously in different rooms. During the intermissions, refreshments may be bought at a nominal fee.

The sixth grade girls are in charge of this project. The sixth grade boys have been trained to run the projectors and will handle emergencies arising from breaks in film.

Following intermission, the groups will change rooms and films will be rerun. Admission charge for the afternoon is 15 cents. Proceeds will purchase playground equipment.

The PTO members are enthusiastic about the project, not only for their own children, but for others in the community, according to a spokesman.

Film subjects will include

travel, hobbies, etc. Programed for Saturday are "Morning Star" about sheep migration; "Animals Unlimited," coming African animals; and "Fishing For Fun," narrated by Lowell Thomas. "Our American Crossroads" will show the role of the automobile during the past 50 years.

The school nativity idea was presented by Robert King, recently of Flint, where the project was successful.

Mrs. John C. Batts Jr., project chairman, obtained some of the films through the State Project Enterprise known locally as the North Oakland Library project. Films now on file will be changed for others periodically through the state agency, thereby giving a constant source of new material.

Robert Anthony also has obtained films from the General Education Film Library. Other parents serving are Arthur Roemer, Mrs. Ralph Porter, Mr. and Mrs. Lewis Abrams and the Leonard Doubs.

Addresses WCTU.

The Pontiac WCTU met Tuesday in the First Presbyterian Church. The Rev. Galen E. Hershey, who gave the devotion, spoke on coming present-day use of alcohol in contrast to its use in the time of Christ.

Mrs. E. J. Swazey and Mrs. M. Stiles were heard in a duet. Welcomed as new members were Mrs. Graydon Broadwater and Mrs. Stiles.

First statue of a woman to be placed in Saginaw Hall, Washington, D. C., was that of Frances Willard. It was dedicated Feb. 17, 1906. Chosen as the WCTU theme for February, tea was served in her honor.

Group Hears Mission Study

Yonar Group of First Presbyterian Church met Thursday evening at the home of Mrs. Claus Gordon of North Johnson avenue.

Mrs. Marvin Williams gave a missionary study, "Town and Country People."

Her Son's Avoiding Girls-- Chases Only Fenderskirts

By ARIGAL VAN BUREN

DEAR ABBY: I frequently hear mothers complain that their teen-aged sons have girlfriends. They should know how lucky they are. I wish my 15-year-old son would take a little more interest in girls. He is in love with his car. He can't get because of his car. He never takes out a girl because he spends his evenings in the garage working on his car. There are lots of worse things than girls... and one of them is a hot rod.

DEAR ABBY: I am a woman (over 21) who has never been married. I met a man whose wife is serving time in the State Penitentiary. This is her third time and she will be there until 1965. He says that under these circumstances he does not need a divorce from her to marry me. Is this correct? It doesn't make sense to me. He says this is called "automatic divorce."

DEAR ABBY: I am 15 but I am very mature for my age. I go steady with a boy who is 17. He is also mature for his age. We are very much in love and plan to get married in three years. When we get married we do not want married couples to see us. We are very much in love and plan to get married in three years. When we get married we do not want married couples to see us.

DEAR ABBY: I am 15 but I am very mature for my age. I go steady with a boy who is 17. He is also mature for his age. We are very much in love and plan to get married in three years. When we get married we do not want married couples to see us.

15-year-old girl who "must know EVERYTHING" right now for use three years from now is asking for "instant trouble." Married couples can obtain this information (free) from their local Planned Parenthood Office. Those whose religion forbids this should talk to their clergymen.

DEAR ABBY: I am a woman (over 21) who has never been married. I met a man whose wife is serving time in the State Penitentiary. This is her third time and she will be there until 1965. He says that under these circumstances he does not need a divorce from her to marry me. Is this correct? It doesn't make sense to me. He says this is called "automatic divorce."

To Present
Senior
RecitalLynn Thompson
Has Received
Several HonorsThe Roth Music Studio will
present Lynn Thompson in her
senior recital Saturday and
Sunday afternoon at 4 in the
studio music rooms.Lynn is the daughter of Mr.
and Mrs. James Thompson of
Shimmons road and a senior at

LYNN THOMPSON

Pontiac Northern High School.
The student of Bertha Marie
Roth is an active accompanist
for her school vocal groups.
She has been a member of the
Pontiac Tuesday Musicale
Junior Clubs since 1956 and was
one of the club's scholar-
ship winners to the National
Music Camp at Interlochen in
1958.Lynn has been named Out-
standing Student Award win-
ner at the studio for the 1959-
60 term. Her program will in-
clude Bach's "Prelude in B
Flat Major," Debussy's "Girl
With the Flaxen Hair,"
"Sonatina Opus 12," by
Kabalevsky, "Romanza" by
Granados, and Rimsky-
Korsakov's "The Flight of the
Bumble Bee." The closing
number will be a duo-piano in
E Minor of Gurlitt's "Rondo"
with Miss Roth at the second
piano.Guest violinist on Miss
Thompson's recital will be 13-
year-old Mary Helen Slawik,
daughter of Dr. and Mrs.
Stanley Slawik of Auburn
Heights. She will play
"Czardas" by Monti.

They Needn't Be Like Balloons

Reduce Legs This Way

By JOSEPHINE LOWMAN

Q. "I am not overweight but I
have a figure problem. On my
legs, just below the hips, I have big
layers of excess fat. Every time
I wear a swimsuit my legs look
like two balloons sticking out. Can
you give me an exercise to reduce
them?"A. Do the following. Lie on the
floor on your back with your arms
extended straight out to your shoulders.
Bend both knees and place
the feet on the floor. Lift heels
from the floor but keep toes on
the floor as you roll from side to
side, slapping your thighs on the
floor at the end of each roll.113 IS CORRECT
Q. "How much should a girl 5
feet 3 inches tall weigh? I am 16years old and have a medium
build."
A. Around 113 pounds.Q. "I have lots of hair on my
arms and want to remove it. Is
shaving the best method?"A. I think a depilatory is better
because the hair is not quite so
stubby when it grows out.Q. "I am 14 years old and need
your advice. Recently when I wake
up in the morning my bust hurts.
Could this be caused by wearing
the wrong type of bra or from
sleeping on my stomach? I am
worried for fear it is something
serious."A. This could come from wear-
ing the wrong type of bra or from
sleeping on your stomach, but
more likely it is connected withyour menstrual cycle, and nothing
serious at all. However, if it con-
tinues, see your family physician
about it.Q. "Please give me the answer
to one question: I am 59 years old,
5 feet 5 inches tall and weigh 129
pounds. I think I am between me-
dium and large bone structure.
My bust measures 37½ inches,
waist 24½ and hips 37. I think I
would look better if I lost six or
eight pounds. What do you think?"A. If you have a medium build,
your weight is just right. You
should not lose weight. Your fig-
ure must be most attractive.Q. "Do you think it is possible
for a lady 60 years old to increase
the size of her bust? I have been
told that it isn't."A. The bust can be made larger
only through a gain in weight.
However, the bust measurement can
be increased by developing the
chest muscles which lie beneath
the bust. It will take longer for
you because you should not exer-
cise so strenuously as a younger
person.Episcopal
Women
Will MeetArea Episcopal churchwom-
en will hear the Right Rev.
Richard S. Emrich, bishop of
the diocese, at the annual
luncheon meeting of the Oak-
land Convocation in Christ
Church Cranbrook, Monday.Election of officers and a
business session will follow
Holy Communion at 10 a.m.
This year's theme is "One
Family in Christ."Mrs. Dwight C. Ensign an-
nounces hostesses for the day:

Dip Raised Doughnuts
in Glaze After Frying

By JANET ODELL

Pontiac Press Home Editor

Want to give your family a
special treat? Make these
glazed doughnuts. They'd be
perfect for a morning coffee
too.Mrs. Arthur Chapdelaine, to-
day's cook, loves baking and
cooking. Three of her five
children are still at home. The
Chapdelaines are remodeling
their house.

GLAZED DOUGHNUTS

By Mrs. Arthur Chapdelaine

2 cakes yeast
1 cup lukewarm water
1 teaspoon sugar
2 cups milk
1/2 cup shortening
1/2 cup sugar
1 teaspoon salt
2 eggs
1 tablespoon vanilla
1 cup sifted flourAdd the teaspoon of sugar to
lukewarm water and let
yeast dissolve in it. Heat milk,
shortening, sugar and salt un-
til shortening is melted. Let
cool. Add eggs, vanilla flour
and then yeast. This makes a
fairly soft dough.Roll out on floured board,
cut with doughnut cutter. Let
rise 15 minutes. Heat about
a pound of shortening to fry
these doughnuts. Drain on pa-
per towels and let cool slight-
ly. Then dip into glaze and
drain again. Makes 4-6
dozen.Glaze
1 pound confectioners sugar
1/2 to 1 cup cold water
Add water gradually to
sugar until thin glaze is
formed.IMPERIAL - CAPE COD

Newlyweds Honeymoon With Trip to Tennessee

MRS. BOB A. YEARGAN

AVON TOWNSHIP—Now honeymooning on a trip through Tennessee, newlyweds Mr. and Mrs. Bob A. Yeargan will reside at 170 Opdyke Rd., Pontiac, upon their return.

The bride is the former Bette Lou Brunett, daughter of Mr. and Mrs. Charles H. Brunett Sr. of 2405 N. Harrison St. The bridegroom is the son of Mrs. Lou Stuart of Tullahoma, Tenn., and Claude Yeargan of 2165 N. Harrison St.

The wedding was performed in the Avondale Baptist Church, Auburn Heights, by the Rev. Alger A. Lewis.

A floor-length gown of lace and net over slipper satin was chosen by the bride. It featured a hoop skirt and Sabrina neckline. Her chapel-length veil was fastened to a pearl and sequin tiara. She carried a bouquet of roses and orchids of spring with an orchid.

Her sister Mrs. Mary Ann Nelson was matron of honor. Bridesmaids were their cousin Marilana Grattop and Mary Drogosh of Rochester.

The bridegroom's brother Jerry served as best man. Ushers were the bride's brothers Lawrence of Farmington and Charles Jr. of Rochester.

Immediately following the ceremony a reception was held in the Avon Township Hall.

Arraign 2 of 4 Youths in Troy

Charged With B&E in Nighttime, Out on Bond; Two Are Juveniles

TROY—Two of the four Madison Heights youths who have admitted five area break-ins have been arraigned before Troy Justice of the Peace Charles H. Losey and released on bond pending their examination on Monday.

Dennis F. Hepp, 17, of 2615 Palmer St. and Edward J. Martin, 18, of 728 E. 11 Mile Rd., were charged with breaking and entering in the nighttime. Their bond was set at \$1,000 each.

The other two are juveniles. They are Thomas P. Redinger, 15, and John S. Hennessey, 16.

The four were apprehended by Troy police Monday night when they were transferring clothing from the back seat of their car to the trunk.

The loot was found to be from Conlen's Men's Wear Store, 1341 Auburn Rd., Shelby Township, which had been burglarized earlier the same evening.

The quartet also admitted taking clothing from Young's Men's Wear Store, North Hill Plaza, near Rochester, and breaking into three area gas stations.

The two juveniles were allowed to return home after a preliminary hearing pending further investigation by Oakland County juvenile authorities.

Man Pleads Guilty in Fatal Shooting

The Carp Lake man who surrendered to Cheboygan State Police following a fatal hunting accident, in which a former Oxford Township man was killed, pleaded guilty of negligent homicide yesterday. The plea was entered in Cheboygan County Circuit Court.

Roy Bowers, 52, is free on \$1,000 bond awaiting sentencing. He admitted firing the shot which killed Jack Williams, 49, of Mullett Lake and formerly of 857 Baldwin Rd., Oxford Township.

Williams, known locally as the "potato king" because of the large crops he produced on his farm, was shot in the back of the head when Bowers fired as what he thought was a deer in the brush near Cheboygan last November.

Williams had moved to Mullett Lake about eight years ago.

Addison Bride, Husband Choose Home in Pontiac

ADDISON TOWNSHIP—Newlyweds Mr. and Mrs. Donald C. Chaput are residing at 36 Franklin Blvd., Pontiac, following their honeymoon trip.

The bride is the former Antoinette Young, daughter of Mr. and Mrs. Richard A. Young of 2810 Indian Lake Rd. The bridegroom's parents are Mr. and Mrs. Arthur C. Chaput of Hubbell.

They were married at a simple ceremony in St. Benedict Church, Pontiac, performed by the Rev. A. J. Wysocki.

Attendants were the bridegroom's sister and brother-in-law, Mr. and Mrs. Lionel J. Freilberg of Canterbury street, Pontiac.

A wedding breakfast was served at the home of the bride's parents.

Baldwin PTA Staging Saturday Night Dance

ROCHESTER — The Baldwin School PTA has completed plans for its "Leap Year Swing" to be held from 9 p.m. to midnight tomorrow at the school.

There will be square and round dancing to the music of Hollis Hinkel's orchestra. Jessie White will be the caller.

Pontiac Press Photo

PIONEERS CELEBRATE — Same 100 people over 60 years of age attended yesterday's noonday luncheon celebrating the sixth anniversary of the Clarkston Pioneers Club. The gala affair took place at the Clarkston Community Center.

Food Crams Tables for Senior Folk

Clarkston Pioneers 6 Years Old

By REBA WEINTELMAN
CLARKSTON—If there is one thing Clarkston's oldesters like to do, it is eat, and yesterday's noonday birthday dinner table was a "thing of beauty and a sight to behold."

Retired people from Davisburg, Lake Orion, Pontiac, Milford and Waterford joined the Clarkston Pioneers in celebrating their sixth anniversary at the loaded banquet tables.

Each year the lively group of people past 60 has attracted more and more attention in the county because of interesting activities and associations.

Almost every "golden age" club that has been organized has been patterned after the Pioneers, according to its instigator, Mrs. Fredrick Warrick.

MONTHLY DINNER
She and a few of Clarkston's

Leonard PTA to Hold Family Night Supper

LEONARD—The Leonard PTA is having a family night supper 7 p.m. Monday in the all-purpose room of the school before its regular monthly meeting. The program to follow will be presented by Mrs. Verlyn Matso, elementary art teacher.

young-minded matrons plan, cook and serve a noonday dinner the fourth Thursday of every month.

Her group also helps set up other planned activities and programs.

When necessary, transportation also is supplied by the women. However, it is surprising how many of the older people drive their own cars.

Many of the 60 members walk to the dinners which are served in the Community Center on Main street.

After yesterday's gigantic dinner of barbecued pork, mashed potatoes, buttered carrots, relishes and home made bread, club President Lee Clark cut the huge candied birthday cake.

Other candies stuck in popcorn-ball holders surrounded with bright colored balloons, were part of the table decorations.

To Petition on Rejection of Bonds

A resolution to petition the Michigan Finance Commission for a hearing on its rejection of Pontiac's \$500,000 school bond issue last night was adopted by the Board of Education.

The Commission claims the bond would be in excess of the 15-mill limitation.

The school system intends to make a test case of the matter in the Supreme Court to determine if a school district is exempt of the 15-mill amendment as a municipal corporation.

A municipal corporation, defined as one that has its own charter, is not bound by the amendment. School administrators were advised that, previous Supreme Court decisions have ruled that the school code is the charter for all systems, thus qualifying them as municipal corporations.

The Board was concerned over reports that Attorney General Paul L. Adams charges Pontiac with attempting to break the 15-mill amendment.

Louis C. Schimmel, financial advisor and member of the Board disputed the statement.

"We are not trying to break the 15-mill amendment. We are trying to find out whether it already has been broken on two previous occasions by Supreme Court decisions."

"This will be a test case with implications to all school districts in the state. We hope it won't take several months for a Supreme Court decision."

Democratic Club Will Elect Officers

Election of officers for 1960 will be the major order of business Sunday when members of the Pontiac Democratic Club meet at 1:30 at the UAW Hall, 821 Baldwin Ave. Polls will be open from 1:30 to 3:30.

Want Excess Federal Matching Funds Schools Seek Extra Aid

Pontiac will seek more than its share of federal aid for education due to incomplete participation of other Michigan school systems in the National Defense Education Act, it was learned last night.

The state finds itself in the unique position of having to spend more than 4 million dollars in federal matching funds by July.

The monies are provided by the NDEA but will be lost to the state if not spent by the time the provision expires.

Russell W. Curtis, coordinator of secondary education of the Pontiac school system, told the Board of Education last night that some school districts are not participating in the NDEA program.

SOME NOT ABLE:

An explanation was not offered but it was assumed that those not participating are not able at this time to provide the matching funds. Among those dropping out is the Kalamazoo school system. It is felt that its share would go to waste, Pontiac has laid plans to capitalize on the boon.

A school system study committee on the NDEA plan presented its recommendations to the Board last night, calling for \$235,129 participation.

The figure was designated to cover expansion in facilities and instruction programs and for research and experimentation purposes.

Pontiac would put up \$124,848 of the cost and the NDEA, \$110,280.

REASONS CITED

Board President Glenn Griffin asked Curtis, "What makes you think we will be able to get \$110,000?"

"Because there are school systems not participating," Curtis answered, "and the money allocated for Michigan has to be spent by July."

Curtis said the figure is "more than we are entitled to," ex-

plaining that the Department of Public Instruction figures about \$3 per child in allocations under the NDEA program. That would amount to approximately a \$60,000 share for Pontiac.

Application to participate in the program must be made to the Department of Public Instruction by March 14.

Further consideration will be given the committee recommendations. Curtis said the figures would be "whittled down" first by the administrators and Board, and probably some more by the Department of Public Instruction when approval is sought.

Dr. Dana P. Whitmer, superintendent of schools, suggested that the \$235,129 expenditure "be reduced a little bit."

The share Pontiac must provide in matching funds was not included in the tentative budget estimates for 1960-61 presented the Board last night.

Mrs. Aadland Wants to Halt Beverly's Dates

LOS ANGELES (AP) — The mother of Beverly Aadland, the late Errol Flynn's girl friend, is seeking a court order to bar her daughter from dating another older man.

A suit filed Thursday by Florence Aadland said Beverly, 17, has been dating Jack Dulin, about 35, of Beverly Hills, a skin diving equipment dealer.

The suit said he has been taking the girl to night clubs several times a week and is trying to persuade her to invest in a business venture.

Mrs. Aadland asked for \$5,000 damages and an injunction to keep her daughter from being lured away.

Must Take TB Test

LANSING (U) — A new law requiring dairy or breeding cattle to pass a negative test for tuberculosis within 90 days of the date of sales will become law March 1, 1961.

18, the State Agriculture Dept. re-minded. Belgian composer Cesar Franck, who died in 1890, wrote only one symphony, it in D minor. It is very popular today.

My Daddy Is Smart!

MY DADDY shopped at Connolly's for Mommy's diamond and Daddy says their diamond prices are lower than even those... let's see... what do they call them? Oh, yes, Daddy said "even lower than those darn old 'wholesale houses'."

MY DADDY said he is sure glad he compared prices at Connolly's... and Daddy says Connolly's are Pontiac's ONLY registered jeweler... The American Gem Society. No wonder everyone goes there... no guess-work with them!

MOMMY & DADDY sure like Connolly's... especially Daddy because he only pays so much a month on their budget plan.

Isn't my Mommy and Daddy smart?

Connolly's

Issues Warning Against Danger of Starting Fires

CHICAGO (UPI)—A National Safety Council spokesman has warned against overloading stoves, becoming careless with fires and lighted cigarettes and leaving children unattended in a home.

These are the key causes, he said, for big fire tolls such as the 42 dead in a rash of cold weather blazes which swept the country in a two-and-a-half-day period early this week.

"Fires can be prevented," the Safety Council spokesman said. "Unlike floods and hurricanes, they are man-made."

U. of M. to Require Entrance Exams

ANN ARBOR (U) — Beginning in 1961, applicants at the University of Michigan will be required to take college entrance examination board tests.

The University said it would be a two-year experiment and insisted that "no one intends that admissions... will ever be determined solely by a set of scores on aptitude and achievement examinations."

Tourist Council Urges State Map Resumption

LANSING (U) — Resumption of state map distribution has been urged by the Michigan Tourist Council to promote vacation travel in the state.

The maps had been issued annually by the State Highway Department for 27 years until 1958. At that time, the Legislature ended the distribution after a squabble between Republican lawmakers and Highway Commissioner John C. Mackie, a Democrat, with economy a major factor.

Eyes Plant Regulations

LANSING (U) — Hearings on two proposed amendments to plant industry division regulations will be held March 4 at State Agriculture Dept. headquarters here. One would change the method of certifying strawberry plants as disease-free. The other would add Georgia to states prohibited from shipping hay, alfalfa meal and straw into Michigan to protect against alfalfa weevil.

Williams Signs School Aid Bill

OKs General Fund Cash to Make Up Deficiency in Earmarked Money

LANSING (U) — A school aid deficiency measure is the first bill of the 1960 legislative session to be signed into law by Gov. Williams.

The measure authorizes appropriations from the state general fund to make up deficiencies in earmarked state school aid during the current fiscal year.

It is anticipated between 20 and 25 millions in general fund money will be needed to guarantee payment of \$365 per pupil.

Signing of the bill yesterday was hailed by Dr. Lynn M. Bartlett, state superintendent of public instruction, as "further relief from the financial pressure on the school."

Falcon May Top Rambler for First Time

DETROIT (U) — Ford's Falcon may outsell the Rambler for the first time this month.

The Rambler line — American, Standard Rambler and Ambassador — is the established sales leader among domestic compact cars.

But the Falcon — on the basis of estimated sales for the first 20 days of February — leads the Rambler line by about 8,500 units.

The auto industry computes sales in 10-day periods. Rambler has followed the Falcon in some 10-day periods but has never been outsold for the month.

American Motors yesterday said dealers sold 9,547 cars in the middle 10 days of February compared with 8,220 for a similar period last year. Rambler's total so far this month is 17,767.

Ford estimated Falcon sales for the middle 10 days at 13,400 and about 26,500 for the month.

An average of 47 per cent of the total cost of a house is covered by a loan today, while the average 10 years ago was 37 per cent.

How smoothly 7 Crown ends a day...or begins an evening

After the hard day, join the millions who welcome the twilight tradition, the time for Seagram's 7 Crown. Whether you're where

home fires burn, or out with friends, you deserve to relax and savor smoothly America's most sought-after and satisfying whisky.

Stop Crabgrass Before It Starts

The seeds from last year's bumper crabgrass crop are already in the soil. If they mature, crabgrass will get a stronghold on your lawn. HALTS to the rescue! One winter application with the Scott's Spreader creates a "barrier" on the soil's surface, that curbs crabgrass as it sprouts. HALTS grub-proofs the soil, too. A half hour well spent!

More and more folks are coming to us for advice on improving their lawns through an easy-to-follow Scott's Program. Come in anytime. We'll be glad to prescribe the correct program for your lawn.

Save \$5.00! Scott's Spreader (\$16.95) Plus Halts (\$9.95), Together Only \$21.90

SMOOTH TALKERS—The Pontiac Central High School debate team got together for this group picture to show off their laurels after a championship year which still has not ended. They are (seated from left) varsity debaters Roger Open, Douglas Spurlock, coach Walter Smith (speech instructor), Clark Davis and Kenneth Freer.

Standing are members of the second and third teams (from left) Nadine Morris, Carolyn Goinos, George Rendosier, Bill Graves, Nancy Bain, Cynthia Williams, Brian Wideman, Harold Tate and Kay Cline.

Central Presents 'Step Into Spring'

By BARBARA GRIFFIN
A style show, "Step Into Spring," will be presented by the Pontiac Central Future Homemakers of America next Thursday night at 7:30 in the school auditorium.

This fashion show is sponsored by Nador's, Inc., and the clothes will be modeled by Future Homemakers members.

Models are Ethel Cash, Judy Kusk, Janis Crowley, Sharon Stuckman, Glee Fox, Diana King, Shirley Lippard, Phyllis Dunn, Janice Martell, Nellie Smith, Mary Johnson, Judy Bolin, Maryann Waring, Lana Luckenbach, Linda Briggs and June Lacey.

The Pontiac Central Junior Girls Ensemble, directed by A. Michael Dempsey, will sing numbers from Broadway musicals. Carolyn Anderson will be featured as organist.

Vicki Anpas will give a skit as a take-off on Alice in Wonderland, burlesque style.

Tickets for the show are 50 cents and may be purchased from any member of Future Homemakers or in room 124. The advice of the group is Mrs. Marjorie Edison, home economics instructor.

DANCE HONORS CHAMPS
After tonight's game with Saginaw, the cheerleaders will sponsor a dance to be held from 9:30 to 12 in the boys gym. This dance will be called the "Saginaw Valley Champs" dance in honor of Central's basketball team which won the Saginaw Valley crown last Friday night against Flint Northern.

Committee chairmen for the dance include Mary Aughenbaugh, patron; Judy Hinkley and Gary Harnack, refreshments; Helen Ramsdell and Mary Lou McLaughlin, tickets; and Fran Austin and Donna Douglas, costs.

Chuck Lewis, WPON disc jockey, will play records during the dance. Tickets are 75 cents drag and 50 cents stag and may be purchased at the ticket booth or from any cheerleader. No tickets will be sold at the door.

Wednesday afternoon the Pontiac Central Swedish gym team performed a demonstration of its routines for the annual convention of the Michigan Association for Health, Physical Education and Recreation in Detroit.

Swedish gym is a form of exercise in related form to music, taught to all sophomore girls as part of their physical education program. Members of the team were chosen from their classes to participate.

The girls presented three numbers to the convention audience. The first was a demonstration of techniques exactly as they were taught in class. In the second number, a smaller group performed

a routine using these techniques to "Santa Lucia." The final number consisted of all the girls in a routine.

SWEDISH GYM TEAM
Members of this Swedish gym team are Jeanette Wright, Willie Graham, Debbie Cooper, Ruth Hoffman, Bonnie Valuet, Virginia Norvell, Mary Stoehr, Janet Thoe, Helen Ramsdell, Mary Lou McLaughlin, Karen Bronnel, Karen Strong, Nancy Bain, Marilyn Cofling and Sally Hamilton.

Instructing the girls in Swedish gym are Mrs. Catherine Craig and Mrs. Nelma Wood, physical education instructors. Piano accompanist is Karen Bronnel.

Tuesday night at a membership tie, the Pontiac chapter of the National Quill and Scroll Association for high school journalists initiated 13 new members.

Members must be of Junior standing in the upper third of their class, and must have done outstanding work in high school publications.

New members are Dennis Diddy, David Todd, Adrienne Bessler, Greg Elgan, Sharon Drew, Judy Graham, Joann Davis, Deanna Kelya, Sharon Young, Priscilla Dawe, Jim Whitel, Linda Crain and Bill Rotel.

This year's Quill and Scroll officers are Judy Ward, president; Dick Rogers, vice president; Barbara Shadley, recording secretary; Dianne Flicker, corresponding secretary; and Sue Somerville, treasurer.

Lois Stoddard Gleans Honors at Wayne State University Songfest

By BEATRICE KRUG
An Oxford High School senior, Lois Stoddard, went to the Solo Ensemble Festival at Wayne State University last Saturday and received a superior rating, the highest possible.

Lois sang "Tu Lo Sai" by Torrelli and "Under the Greenwood Tree" by Dr. Tom Arne.

This year's Lois is in Latin Club, Junior Music Club, Mixed Ensemble, Glee Trio, Senior Girls Ensemble and has been in the Oxford Choir four years.

Lois is also going to South America along with Genie Collier and David Skibowski to participate in the Michigan Chorale. They will leave from Detroit on July 1.

They will make stops to sing in Bogota, Columbia; Lima, Peru; Sao Paulo; Rio de Janeiro; Montevideo, Uruguay; Buenos Aires; Santiago, Chile, and return home on Aug. 15.

They will stay in private homes and will be under direction of Lester McCoy.

Lois is the daughter of Mr. and Mrs. Clark Stoddard of 70 Pontiac St.

'Victory Vista' Slated Tonight

Northern High Dances Farewell to Cagers

By JEAN ISBELL

"Victory Vista," Pontiac Northern High School's farewell basketball dance, will be held tonight in the cafeteria following the Waterford-Northern game.

The cheerleaders held a school-wide competition to choose a name for the dance. In each homeroom, entry blanks were distributed. When the blanks were completed, they were returned to the cheerleaders who judged the suggested names.

Ken Ledy, who entered the winning name, received two free tickets to the game and dance. Bob Lark of WPON will be disc jockey for the dance.

At the Solo and Ensemble Festival held at Wayne State University, both the Choral Belles and the Crystallaires received superior ratings. They were judged on tone, diction, intonation and balance. The groups are directed by Melvin Larimer.

Members of the Crystallaires are Pam Morris, Becky Hunt, Pat Largent, Marcy Kioka and Karen Marien.

CRYSTALLAIRES
Others are Sue Jones, Flora McCutney, Sandra Lockwood, Linda Coleman, Jackie Yalied, Sharon Stickle and Linda Larson.

The group also includes Diane Walker, Pat Wampler, Marilyn Van

Buskirk, Nancy Hibbard and Charlotte Johnson.

Singing with the Choral Belles are Sue Bozeman, Carol Campbell, Katol Clark, Alice Cooper, Clara Dawson, Linda Edgeworth, Sherry Cremona, Linda Head, Sally Heathman, Sandy House and Jolene Hudson.

Others are Pam Huntley, Pat Gilbert, Delores Kasten, Linda Landis, Linda Libby, Linda McGlothlin and Sharon Nichols.

Also in the group are Audrey Presson, Tessa Reigle, Marjorie Simon and Yvonne Martin.

The Dramatics Club, sponsored

by Edna Williams, is planning a talent contest. The three winning acts of this contest will appear in a kickoff assembly for the magazine drive.

An integral part of the club's efforts to stir interest in the contest is the competition between junior, senior and sophomore classes, now being planned. The winning class will receive a trophy which will be placed in the showcase.

SUPERIOR QUALITY
To win the competition, a class must have more acts which are of superior quality than the other two classes.

The club is also planning prizes

for the first, second and third place winners of the contest.

The acts will be judged by faculty members. Faculty personnel will be guest-starring at the talent contest.

Plenty of Pencils Used
NEW YORK (AP) — Americans used 1½ billion pencils last year, or about nine per person, reports the Lead Pencil Manufacturers Association.

American industry was the biggest pencil user, followed by

the United Kingdom, Japan and West Germany.

Four St. Michael Pupils Slated for TV Quiz Show

By BARBARA ARDELAN

Four panelists and one alternate were chosen from the senior class to represent St. Michael School on the program, "Quiz 'Em on the Air," to be shown on March 5.

They are Kathy Hennessey, Judy Moody, Dan Dunny and Kathy Drake. Barbara Ardelan was chosen as alternate panelist.

The students will be competing against St. Rita's High of Detroit and will answer questions on current events.

Correct answers count 50 points. The team with the highest score wins a television or a Tape Recorder, a Hi-Fi, or \$150 worth of library books for the school.

The losing panel gets an AM-FM radio, or \$50 worth of books.

In case of a tie score, a tie-breaker statistical question is asked. The aim of the program is "To Teach and Prepare Our Students for Defeats in Life."

QUIZ PANELISTS — These four St. Michael students show that they will be ready with the answers when they go on the program, "Quiz 'em on the Air," to be shown over WWJ-TV on March 5. They are (from left) Daniel Dunny, George Drake, Judy Moody and Kathy Hennessey.

Panelist Photo Photo
March 5. They are (from left) Daniel Dunny, George Drake, Judy Moody and Kathy Hennessey.

PROVE A POINT — The Clarkson High School debate team proved its point well with an undefeated season in the Wayne-Oakland League this year. The victors are (from left) Earl Pearl-

son, Phil Smith, David Smith, Frank Strother, John Kieft and David Sanford. Their record was eight wins and no losses.

Toned Down AF Manual Reissued

By ELTON C. FAY
WASHINGTON (AP)—The Air Force, buffeted between two groups of critics, is trying to calm the controversy into which a training manual has thrust it.

First a major church organization protested sharply statements in the manual that Communists had infiltrated some of the nation's churches.

The Air Force apologized, dis-

avowed the statements, and withdrew the manual. That brought criticism from others who contended the statements were true, and who said the Air Force should have stuck by them.

The upshot apparently is that the manual will be reissued without using names of churches or churchmen. Rep. Francis E. Walter quoted Secretary of the Air Force Dudley C. Sharp as saying that Thursday at a closed hearing of the House Committee on Un-American Activities.

Walter reported "the secretary said he had no reason to believe any of the statements in the manual were untrue."

Sharp later issued a statement saying the manual had been withdrawn "without any determination as to whether the charges were true or false."

Taking note of news reports that he had testified all charges in the manual were true, Sharp added "I did not so testify." His statement did not say specifically whether he had said any of the charges were true or were false.

He said the manual's withdrawal was ordered "because of the general impropriety of treating so important a subject, including the naming of specific individuals

More than half of all Americans (no personal recollection of the de-alive today — 57 per cent — have) precession of the 1930's.

Time to Close Aid to Viet Nam

Nonmilitary Program Lacks Clear-Cut Goals, Says Sen. Mansfield

WASHINGTON (AP)—A Senate subcommittee said today prompt changes are needed in the administration of U.S. foreign aid to Viet Nam.

The subcommittee headed by Sen. Mike Mansfield (D-Mont), assistant Democratic leader, said a lengthy study convinced it the aid program has served a highly useful purpose.

But it said the nonmilitary aid program lacks a clear-cut plan with specific integrated goals, while such goals do exist in the military aid program.

The report said that about 60 per cent of U.S. aid to that nation goes to support nearly 100 per cent of Viet Nam's military budget. Pentagon figures showed this week that Viet Nam military aid from 1954 to last June 30 amounted to \$486,385,000. Contributions this year will total \$74,482,000.

In calling for "a new positive premise for aid to Viet Nam," the subcommittee asked that nonmilitary grant aid, which topped 180 million dollars in the year ended last June 30, be cut progressively. It said that as soon as the country is on the way to reasonable economic self-reliance all grant aid should be stopped. Loans and technical help would be continued.

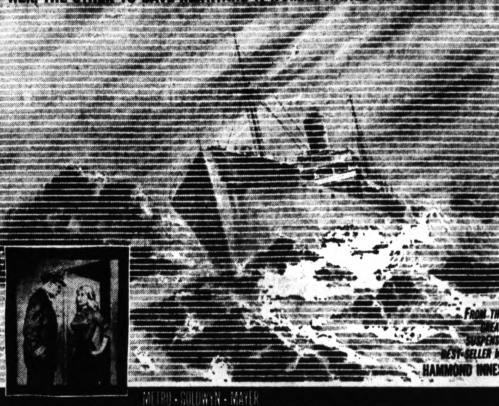

The investigation was touched off by newspaper charges, last summer that the U.S. aid program had been a "fiasco" in Viet Nam.

Judge Rules State Retains Title to Submerged Lands

MOUNT CLEMENS — A Macomb County Circuit Judge has upheld Michigan's claim to six million dollars' worth of submerged lands along the Great Lakes' coastline.

Judge Alton H. Noe threw out yesterday a suit by a St. Clair

been under water but was filled in before he bought it in 1946.

Noe ruled that the state is a trustee of the submerged lands which it holds in trust for the benefit of all the people.

He said the state cannot lose this title.

State officials estimate that six million dollars worth of property claimed by the state has been filled in and claimed by individuals.

Like in Argentina — Praises Unity

Bomb Explosions Taken as Try to Embarrass Frondizi Government

BUENOS AIRES (AP)—President Eisenhower launched a weekend visit to Argentina today with an expression of satisfaction that "our commitments and common aspirations provide one stone in the structure of peace."

The President's orange and silver jet, bringing him from Rio de Janeiro, Brazil, touched down at Ezeiza International Airport at 8:40 a. m. EST.

He is here for a weekend visit, with more emphasis on diplomatic talks than parading.

A series of bomb explosions early today in Buenos Aires was taken as an indication of efforts by Peronistas or other dissidents to embarrass the government of President Arturo Frondizi at the time of Eisenhower's visit.

The sun broke through the overcast skies just as Eisenhower arrived. The temperature hovered around 80.

He was greeted by an orderly crowd of 5,000, including President Arturo Frondizi, who was his guest in Washington a year ago.

HAILED BY PRESS

The press editorially hailed the visit as a historic occasion which would result in closer links between the two nations.

Eisenhower said he greeted the Argentines with genuine pleasure and satisfaction.

"I am especially happy that my visit occurs during the 150th anniversary of your nation's valiant fight for freedom . . .

"I bring all of you the heartfelt good wishes of the government and the people of the United States, and I thank you earnestly for the cordial reception you have just accorded me and my associates. In the few days we shall be here among you, we hope to meet many of you personally, to enjoy the grandeur of your well-famed capital, to visit several other of your beautiful cities, and, at least from the air, to obtain a panoramic perspective of your vast and noble country.

"MUCHAS GRACIAS"

"Muchas gracias, mis amigos." The pattern of Eisenhower's first hours differed from that in the three other countries on his South American itinerary. A helicopter ride to downtown Buenos Aires was arranged instead of the airport-to-town parades set up in Rio de Janeiro, Santiago and Montevideo.

Carlson Withdraws From City Campaign

Theodore Carlson, City Commission candidate from District 6, today announced he would withdraw from the race in favor of incumbent Wesley J. Wood.

Carlson, 86 S. Marshall St., said his duties as teacher at Pontiac Central High School prevent him from continuing in the race.

Interesting Result

EAST HARTFORD, Conn. (UPI)—A half-century ago, Frank A. Graham deposited \$100 in a bank on behalf of his church, with the stipulation that the money not be touched for 50 years. Now the bank has paid the \$100 to the church, plus \$407.99 interest.

Claims It Was an Orange

Van Rie Denies Say-So of Children About Apple

BOSTON (AP)—Willem van Rie, Dutch radio operator fighting for his life, today disputed at his murder trial testimony of two children who were prosecution witnesses.

The children—Stephanie Specter, 12, and Pat Lee, 15, a Chinese boy—testified that while they were with the defendant on the evening Lynn Kauffman allegedly was slain, Van Rie told them he "despised himself" and could spit at his image in a mirror.

Van Rie is charged with quarreling with pretty Miss Kauffman, 23, a divorcee, the night of Sept. 18 and tossing her overboard to drown in Boston Harbor.

Van Rie was the radio operator on the Dutch freighter Utrecht on which the girl was a passenger on a long trip from Singapore. The state charged they had engaged in a shipboard love affair.

The 31-year-old wirelessman also disputed the children's testimony that he had tossed an apple into the air two or three times and put it in his pocket.

Van Rie insisted it was not an apple but an orange.

The time the children spoke of was about the time, the state claims, the girl was tossed to her death. The children were fellow passengers.

Previous testimony showed an

Readies Climate Atlas of Ancient Times

MIDDLETOWN, N. J. (AP)—Patrick Mann is starting out early in his search for a grownup carter. The 12-year-old boy wrote the

local police department and asked for "something about becoming a cop." He said he also would like information "on how to catch crooks."

Patrick is not positive about his ambitions. He also has been thinking about being a carpenter.

LANSING UP—Married women of Michigan enjoyed a new right before the bar of justice today, won in a pioneering 4 to 3 decision of the State Supreme Court. of Mrs. Shirley Montgomery of Garden City, who sued William S. Stephan. He was driver of a car which collided in 1938 with one driven by her husband, injuring him severely.

It is the right to sue for loss of consortium—that is, marital comfort, affection and companionship—that Mrs. Montgomery asserts exists in just three other states and the District of Columbia.

Justice Talbot Smith said his majority opinion yesterday morning was based on the law from the eastern legal view, derived from old English and Roman law, that a wife is only a vessel, chattel and household drudge."

The high court ruled in the case

Mrs. Montgomery said she was deprived of her husband's "aid, assistance, enjoyment, sexual relations, moral, legal and financial companionship, felicity advice, counsel, comfort, cooperation and mutual service."

The court asked \$35,000 damages. Judge Carl M. Weideman dismissed the case in Wayne County Circuit Court. Mrs. Montgomery appealed the high court review yesterday.

**Woman Phones Denver
Paper FBI May Get
Off Coors Case**

DENVER, Colo. (AP)—An unidentified woman told the Rocky Mountain News by telephone Thursday that Adolph Coors III may be killed unless the FBI withdraws from the case, the newspaper said today.

Cooks, 44, is the millionaire chairman of the Adolph Coors Co. at Golden. He disappeared Feb. 9. The news said the anonymous caller had told a reporter: "You tell the FBI that if they don't stop interfering, there'll be another Coors case."

"Are they interfering?" she was asked.

"Yes. The lines are tapped."

★ ★ ★

"Are you trying to get in touch with the Coors family?"

"A friend of mine is."

"Is he (Coors) still alive?"

"If they don't stop interfering he won't be," the caller said the woman. The she hung up.

The News said it had resumed the conversation to Scott Werner, FBI agent in charge here. He declined to comment.

Planning Restoration of Waterford Hotel

One of Michigan's oldest landmarks, the Waterford Hotel has been sold to a Royal Oak man, and eventually will be restored to its original structural beauty.

Situated on Dixie Highway in the heart of Waterford, the 13-year-old hotel was purchased by a former party store owner, Rollin (Ted) Francis.

He and his wife and daughter plan to move into the hotel sometime in June and begin immediate renovation of the building, Francis said.

In 1827 when Dixie Highway was nothing more than a one-track horse and buggy lane, early Michigan travelers used the hotel as a stopping off place on their long stagecoach journey from Pontiac to Flint.

VARIETY OF USES

Early settlers in Waterford also used the hotel as a church, a public meeting place, a dance hall and courtroom, as there were too few people then to warrant other buildings.

The tavern was a favorite gathering place for the men. Here they received news about the outside world from travelers and talked over important events of the times.

Little is known about owners of the Waterford Hotel prior to 1916 when George Dean Sr. purchased the building from the Benjamin Young family.

In 1922 Louis Dorman, present owner of the Old Mill Tavern across the street, leased the Waterford Hotel and continued to improve the building and business.

In 1927 the Dorman gave up

their lease and moved into their present building.

Much of the original wood, beams, windows and room layout has remained the same through the years.

A long, rather narrow room which was used for a meeting place runs along the north side of the building.

This later was converted into the main dining room.

SERVES AS TAPROOM

On the other side of the building is another identical room which serves as the taproom.

The original back bar and mirror are framed by heavy, ornately carved pillars.

Ten years ago, a distraught resident, Joseph Runyon, peeked through the side window, raised a shotgun to his shoulder and fired point blank at two people sitting at the bar.

The people were seriously injured. State Police caught up with the fugitive and he was killed.

Buckshot is still imbedded in the thick plate glass mirror in back of the bar, giving the entire room an atmosphere of an old western movie.

Soon all 12 bedrooms on the second floor will be getting a thorough spring cleaning, and remodeling on the lower level will begin, Francis said.

It will be a long time before any full course dimers will be served. But for those looking for real old-time atmosphere, the Waterford Hotel should serve the purpose, he said.

SLATED FOR RESTORATION — A Dixie Highway landmark for many years, the old Waterford Hotel has been sold to a Royal Oak man who plans to restore the building to its original condition. It once served as a stopping place for the early stage riders en route to Flint.

Red Flowers for Foster

BERLIN (UPI) — East German Communist elder Walter Ulbricht Wednesday congratulated U. S. Communist Party leader William Z. Foster on his 70th birthday and praised Foster as a "champion of the cause of the American working class, the international workers movement, peace, democracy and socialism."

So delicately balanced are some modern scales that they will register the weight of a human hair.

The ski meet of the Oakland County Bar Association to be held at Granplan Mt. will be held next Wednesday, March 2nd and 3rd. The meet will commence at 3:00 p.m.

The final U. of D. basketball game with Seton Hall on Saturday will be televised on Channel 36, Detroit educational channel at 8:35 p.m. Tonight the channel is carrying the game between the public and parochial high school champions in the Detroit League playoffs.

General Motors will take over the U. of D. fieldhouse Sunday when the Pistons entertain the Philadelphia Warriors with Will Chamberlain. All 9,000 seats have been bought by GM and are being sold in the respective plants to employees. The GM chorus will perform at halftime.

"Bob Calhoun Night" Saturday has been proclaimed by the mayor in Detroit and the Titan basketball coach will be honored by the student body. The campus has been decorated and the students will give the coach and his team a sendoff for the NIT. This is the final home game.

Bob Smith's 688 featured the West Side classic this week. The Sutton followed with 683. Jim Walker 662 and Al Pietz 660. Eino Cosmo had a combination of 267 and 252. Blue Cleaners totaled 3163 to move into a point of leaders.

Low Koprince and Ben Biallas at Motor Inn Recreation are taking reservations for the Greater Detroit Bowling Association tournament. Interested teams with averages between 200 and 300 should apply at Motor Inn. The squad will bowl May 14 at 7:15 p.m. Tomorrow is the deadline for entries.

There will be two added features to the consolation and title games of the Boys Club hoop tourney tomorrow night here. Local members will put on wrestling and tumbling exhibitions and the 40-voice Boys Club of South Oakland will entertain. Pontiac vs South Oakland and West Bloomfield plays Highland Park tonight in the meet for boys up to 12 years of age.

3 Tilts to Go for Parochials

Rams-Nativity Tonight, Mikemen-Redford Club, OLSM-Hedwig Saturday

Pre-tourney activities for the area's Catholic basketball squads, are close to the end, with three games remaining. All on home floors for St. Frederick, St. Michael and St. Mary.

Rams play a return engagement with Detroit Nativity at St. Thomas Hall, at 8:30 p.m. today. Gene Wright's club defeated the visitors 34-16 in Detroit a week ago, shoots for its season's 6th win in this window.

St. Michael aims for its 12th victory Saturday night, at 8:15 o'clock at Pontiac Northern gymnasium, against Redford St. Mary. Orchard Lake St. Mary tries for its 14th victory in a Saturday night game. Eagles and Detroit St. Hedwig were slated Thursday for what was to have been the window for Orchard Lake, but last night's weather caused a postponement to Saturday.

OLSM has accumulated a 13-2 record, Saturday's game at OL is set for 8:15 p.m., following a reserve night at 7 p.m. to another game.

So far, all three clubs have chalked up three wins apiece.

Franchise Shift OK, Short Says

PHILADELPHIA (AP) — Bob Short, owner of the Minneapolis Lakers says the National Basketball Assn. has given him an okay to move his franchise to another city, probably Los Angeles.

At the same time yesterday at a special NBA meeting, President Maurice Podoloff announced the new Chicago franchise would not operate next season as had been expected.

Short said he is considering Los Angeles, Washington, Pittsburgh and San Francisco for the franchise shift.

"I personally like Los Angeles right now," he added. "But the Board of Governors will have to approve this at the April 11 draft meeting in New York."

Short said he lost a substantial sum of money — "in excess of \$50,000" — in Minneapolis this year.

Gold Medal Time Running Short for U.S. Sports

PHH, Skippers Clash in Season Final Saginaw Is Final SVC Foe for Chiefs

By BILL CORNWELL

Another season of booming basketball prosperity at Pontiac Central High School comes to an end tonight when the Chiefs clash with Saginaw High in a Saginaw Valley Conference game at the PCH gymnasium.

Two consecutive Saginaw Valley championships and three in the last four years—truly distinctive achievements—will be hovering over the heads of the invading Trojans in this evening's dogfight at 8 o'clock.

Coach Art Van Ryn's warriors won the Valley crown for the third straight year a week ago when they conquered Flint Northern, 74-60, in a showdown game on this same PCH court.

Central's scrap with Saginaw now comes as an anticlimax and therein lies the greatest danger for the local forces.

With the SVC title already in the bag and the Class A district tourney at Livonia Bentley just around the corner, the Chiefs may have a tendency to let down their guard a little bit.

This has caused defeat for many talented teams in the past under similar circumstances, especially where a squad of Saginaw's caliber furnished the opposition.

There's a distinct tournament atmosphere at PCH this district "A" campaign next Tuesday against Waterford on the Bentley floor.

City cage fans will have a chance to see two of the Valley's best hardwood performers in sophomore Ernie Thompson and junior Jerry Tillman of Saginaw.

Thompson, a 6-foot-5 center, and Tillman, 6-3 forward, currently rank 2.3 in the league scoring race with nine-game averages of 16.8 and 16.3, respectively. They also rate among the Valley's leading rebounders.

Tillman was held to five points by PCH in their 1st contest at Saginaw where the Chiefs won, 57-66, but Thompson succeeded in scoring 19.

When it comes to backboard muscle, the Chiefs take a back seat to none with 6-foot-4 Bill Pritchett, 6-3 George Fred and 6-1 Leon Prentice available to sweep the boards.

Prentice, scholastically ineligible

the 1st semester, really came into his own in the Northern contest last week, both on the boards and figures for nine conference starts, and you get a title-winning picture.

The Chiefs have consistently been the league's top rebounding club this year, one of the main reasons for their successful title defense, and Van Ryn considers his present team a better rebounding unit than the 1959 championship outfit.

Couple this with Central's great scoring balance, which shows Book

er Hurter, Phil Rahaja, Ted and his own in the Northern contest last week, both on the boards and figures for nine conference starts, and you get a title-winning picture.

The Chiefs have an 8-1 loop record and an overall mark of 12-2 Saginaw, tied with Northern for 2nd place, is 6-3 in the circuit and 3-5 altogether.

Bay City Central visits Flint Northern and Flint Central games against Arthur Hill at Saginaw in tonight's other Valley games to complete the 1960 schedule.

SEEK VALLEY TITLES — Pontiac Central wrestling club Steve Stabo is shown with two of the boys he has high hopes for in the big Saginaw Valley meet to be held at PCH gym tomorrow. They are Ermino Trevino, left, and Sam Wiscombe.

Host Northern Tries to Finish Unbeaten in I-L

Two Games to Settle Torrid W-O Race; Maples for 2nd

By CHUCK ABRAH

Pontiac Northern may run into considerable trouble tonight trying to complete a perfect season as a first-year member of the Inter Lakes League in basketball.

The Huskies will be host to a mighty hungry Waterford game headlining the final big night of regular season prep play.

Two straight victories following a string of eight defeats have given the Huskies hope for a good finish. They would like nothing better than to dump PNH and average an earlier loss.

Besides the loop record, Northern can reverse its 1958-59 mark to 10-5 if it can get by Ed Stigers & Co. again.

Walled Lake can clinch second place by winning a home tilt against Berkley, Southfield visits Farmington in a battle for third. The victor would get a share of the runnerup slot should Walled Lake bow.

Considerable area interest will be focused on the Wayne-Oakland scrap with three teams tied for the lead. Two of them—Milford and Chardonville—play at Greenview, Brighton is the other. The Bulldogs entertain Holly, Northville is at Clarkston and West Bloomfield vs. Bloomfield Hills in a preview of their coming tourney duel in other action.

Defending Oakland B champ Troy goes after a share of that crown against early conqueror Lake Orion, Fitzgerald would end up on Avondale travels to Clawson and Madison vs. Oak Park. Second place is on the line in the Eastern Michigan South Central and Southern Thumb conferences.

Birmingham Seaholm is the EML favorite with a home tilt against Royal Oak Seminal. Mt. Clemens and Port Huron, both even with the Maples battle camp Champe and East Detroit, respectively. A four-way deadlock is possible.

Oxford can gain an SCC tie with a triumph at Imlay City. Orionville should make it 1-1 at North Branch. Capac can end up No. 2 in the North by beating Memphis. Anchor Bay hosts tilt at Ann Arbor. Almont is at Newburgh and Dryden vs. Brown City. Anchor Bay and Almont could get a share with Capac.

Rochester and Romeo play tourney warmups. The Falcons visit Roseville and Romeo is at home to meet Clintondale. Lapeer is at Owasco and L'Anse au Loup headed for its 18th defeat vs. Harper Woods.

Elsewhere, Birmingham Groves goes to Lamphrey, Dearborn Ford goes to Plymouth, Dearborn Ford plays Royal Oak Dondora. Uica plays Lake Shore. St. James faces Ulica St. Lawrence, South Lyon and Boyville tilt at Ann Arbor. Country Day takes on Maumee. Ohio, Saturday games have Nichols at Cranbrook, Farmington vs. Redford Union and South Lyon at Northville.

The last big weekend got started Thursday afternoon when Farmington One Lady walloped Elmwood Christian here, 68-36. OLS pulled away after leading 31-23 at halftime. Jack Neil, Jerry MacLean and John Hiral scored 17 apiece. Frank Watts of the losers took game honors with 15.

"The fact that these games have been a great success will be a strong argument for continuing the Winter Olympics," Brundage predicted.

WORKING PANTS — Ed Mathews (left) of the Milwaukee Braves meets his new manager Charley Drensen and immediately is awarded his sliding pants at the Bradenton, Fla. training camp. Mathews led the Braves in homers with 46 last year.

Americans Take Hockey Lead Upsetting Canada

SQUAW VALLEY, Calif. (AP)—The Americans' Olympic team beat the Russians in hockey, but few experts gave him much of a chance until the Americans' fiercely fought victory over the favored Canadians.

A pair of Minnesota—goalie Jack McCartan and winger Paul Johnson—were stars of the upset.

McCartan, making seemingly impossible saves look routine, stopped 35 blasts by the savage-shooting Canadians.

Cleary and Johnson hit for the Americans' goals, while the Russians' goalie, Valeri Kharlamov, was constantly under fire. Sweating in the dressing room, he said:

"All I could see was streaks of green Canadians."

"Our goalie was the difference," said Riley. "That was the greatest game in the nets I've ever seen."

Olympic Facts-Figures

SQUAW VALLEY (UPI)—The unofficial point standings in the winter sports of 19 at a first place, 4 for a second, 3 for a third, 2 for a fourth, 1 for a fifth and 1 for a sixth and 1 for a seventh.

Stranahan's Hot 64 Paces Texas Open

SAN ANTONIO, Tex. (AP) — Frank Stranahan moved at the head of the field in the \$20,000 Texas Open today. It was another big step in his comeback along the golf trail.

He already has won \$3,305.75 in five tournaments this winter, has finished in the money in 12 straight and yesterday his hot-potting 5-under-par 64 gave him a 3-stroke lead in the Texas Open.

In second place was Davis Love Jr., of Eldorado, Ark., with a 67.

John Barnum of Grand Rapids, Mich., made a hole in one and a score of 70 yesterday. Barnum made his hole in one — a 140-yard shot — with a 7 iron. Joe Zakarian of Detroit was in the field with 72.

Anderson Retained as Lions' Prexy

Titans' DeBuschere 10th

'Big O' Holds Slim Edge

NEW YORK (AP)—Oscar Robertson's lead over Tom Stith of St. Bonaventure in the major college basketball scoring race has been cut to a mere 2.6 points a game, the weekly statistics released by the NCAA Sports Bureau showed Thursday.

Through last Saturday's games, Robertson had 739 points in 22 games for a 33.6 average. Stith had 374 points in 18 games for a 31.9 mark. Stith has gained considerable ground on his Cincinnati rival in the past two weeks. Since

Jones in N.Y.

Again for Meet

Hayes Still Unbeaten
This Indoor Season in Hurdles and Sprints

NEW YORK (UPI)—Seven defending champions, including unbeaten hurdler star Hayes Jones of Eastern Michigan, head the field for the 41st annual New York Knights of Columbus track field meet at Madison Square Garden, Saturday night.

Jones, who has not lost either in the hurdles or the sprints during the current indoor season, will clash once again with 1956 Olympic champion Lee Calhoun of Grady, Ind., in the 60-yard high hurdles.

Meet record possibilities exist in several events, however. Jones, who holds the world indoor mark of 7.6 seconds in the hurdles, will be shooting at his own meet mark of 7.1; Windsor, George Sydnor of the Philadelphia Pioneers, and Frank Budd of Villanova aim at the 61 meet standard in the dash; Murphy has hopes of hitting the meet and world mark of 2:08.8 in the 1,000; and the meet record of six-8/10 in the high jump is under fire from George Dennis and Bob Gardner.

MIAMI, Fla. (AP) — The only surviving seeded team in the Good Neighbor tennis tournament of upsets were slated for quarter-final action today.

Neale Fraser, who advanced on two Thursday wins, meets unseeded fellow Australian Don Candy. Ulf Schmidt of Sweden opposed unseeded William Alvarez of Colombia.

Olympic Skater Errs
—She Went Skiing

SQUAW VALLEY, Calif. (AP)—Olympic speed skater Beverly Buhr broke a leg Thursday when she decided to take up a new winter sport—skiing.

There is plenty of interest in each of the races. First, the Flamingo is the initial big test for this year's Derby horses. Second, by the Santa Anita Handicap—first of the one hundred grand races — brings up the question whether a good filly can beat the colts. The filly is C.V. Whitney's Silver Spoon. Thirdly, can Mrs. Joe W. Brown's Tenacious win an unprecedented third consecutive New Orleans Handicap?

But, he added, most felt "that this was not the opportune time to make a change in management."

File said in a statement to newsmen that he quit "because I feel that I cannot sacrifice principle for expediency," but added that his resignation "will not diminish my loyalty to the club or dampen my wishes for its continued success."

He said he planned to hold on to his approximate four per cent interest in the Lions. No director may hold a larger percentage.

There are 120 stockholders of the club's 16,000 shares of \$50 par value common stock. Only about 45 stockholders, including directors, showed up for yesterday's meeting.

The ABC issued 425 awards for perfect 300 games in the 1958-59 season.

FILED INTO THE LIONS' PREXY

DETROIT (AP)—Edwin J. Anderson will continue in his dual role as president and general manager of the Detroit Football Co.

But the Lions' have a new treasurer and two new directors. D. Lyle Fife, himself a former president and a critic of Anderson's management, resigned as both a director and as treasurer yesterday.

Anderson then quickly was re-elected to his dual, \$40,000-a-year job and John Stevenson, a retired chemical manufacturer at 45, named treasurer.

After Fife's resignation, Lions' stockholders elected Lee Lippman, former Detroit sporting goods store operator, and C. Ray Division, an electrical contractor, as directors. The company's charter permits 15 directors. It had been operating with 13.

A tug-of-war over Lion management broke into the open at the National Football League's recent Florida meeting, when Fife, representing Detroit, refused to vote for Anderson for NFL commissioner.

Anderson was an avowed candidate for the job.

Fife told newsmen yesterday that because of what he considered "instances of mismanagement" in Detroit he didn't believe Anderson qualified for NFL commissioner.

But, he added, most felt "that this was not the opportune time to make a change in management."

Harris to Wear Glasses on Job at First Base

LAKELAND, Fla. (UPI) — First baseman Gail Harris will try wearing glasses in spring training in his effort to keep his job with the Detroit Tigers.

The left-handed hitter, whose season home run total fell from 20 in 1958 to nine last year, announced his plan here yesterday. He is threatened by Steve Bilko, who was drafted from Spokane of the Pacific Coast League for his eighth Major League trial.

Two more players joined the Tigers' early camp yesterday, raising the enrollment to 49. George Thomas, rookie outfielder, was released from the Army, and Don Lumley, a first baseman, reported after reaching a salary agreement with Detroit's Denver Farm Club.

MSU Cagers Visit 'M' Court for Rematch

Prep Front

By BILL CORNWELL

Tournament fever grips the state for the next three weeks as more than 700 high school basketball teams representing four classes begin the long, hard road that culminates in state championship showdowns at East Lansing.

This annual madness starts next Tuesday in district action at scattered sites throughout Michigan, continues the following week with regional activity, then hits its peak intensity via quarter-finals, semifinals and finals.

It can truthfully be said that every Michigan schoolboy cager — from Sault Ste. Marie to Sturgis and from St. Joseph to Port Huron — dreams of some day belonging to a state champion team.

Time changes a lot of things, but it certainly does not alter a boy's desire to be a part of such an achievement.

There will be many a heart-break before the tourney is over. Boys have wept many bitter tears in the past after a dream-smashing loss and no doubt will do so again, but they learn to swallow the defeat like men and become better citizens as a result.

Obviously, the vast majority will be doomed to disappointment. Of the 700-plus prep squads that start tournament play, only four can win state crowns and the glory that goes with it. That's the way of things in our competitive society.

We have frequently criticized the Michigan High School Athletic Association for its method of running the tourney and believe we have constructive suggestions for future improvement.

Now that it's tournament time again, however, we're only too happy to give the game back to the boys where it rightfully belongs and let our complaints rest until the battle is over.

Besides, watching all those teenagers play basketball makes us feel young once more.

ODDS AND ENDS

Frank Thompson, 967 Berwick, Pontiac, was honored by the parents, faculty and students of Emmanuel Christian School this week at a meeting of the Parent-Teacher Fellowship. He was honored for the many hours he devotes each week to the school's athletic program.

Wanted: One enclosure—a roof top, please—with a dirt floor capable of standing up under the shock of falling 12-pound iron balls. Who wants it? His name is Dean Wilson, track coach at Pontiac Central.

Wilson has three boys on his 1960 track squad, including muscular Bill Pritchett of the basketball team, who are capable of putting the 12-pound shot 50 feet or better, but they can't throw that big hunk of iron around the PCH gym.

Other students would have to spend too much time running for safety and the wood floor wouldn't stand under the heavy thud.

Indoor practice at the school means that Wilson's athletes have to bring a leather-covered ball and when weather permits, the handiwork to move outside, his shot putters lose valuable time making the adjustment from leather to the real McCoy.

So Wilson is trying to locate a place within reasonable distance of the school which has a dirt-covered floor where his muscle-men can toss the real thing. Any takers to the rescue?

The other two shot-putters, by the way, are Charley Brown and Jerry Rush of PCH football fame.

Buckeyes Seek Clincher for Big 10 Title

Michigan Has Failed to Win in 11 League Starts to Date

EAST LANSING (UP)—"This is a 'must' game for me and Michigan State," said Spartan basketball coach Fordey Anderson about Saturday night's meeting with Michigan including a win over the Wolverines.

Michigan has yet to win a conference game in 11 starts while MSU is 5-7 in the league.

"But you can throw away the record books," Anderson said. "You're sure to be up for this game. I'm very much concerned about it."

"We've both had heart-breaking losses," said Anderson. "We'll have to play a lot better than we have lately to win this one."

Michigan State, last season's Big Ten champ, has lost four of its last five conference games. They included one-basket edgings by Northwestern and Ohio State.

Top scorers meeting at Ann Arbor will be Michigan State's Horace Walker and John Tidwell of Michigan.

Ohio State can clinch its first Big Ten basketball crown in 10 years Saturday while Minnesota or Indiana can stake claim to at least a tie for second place.

The Buckeyes, now ranked No. 2 nationally, will shoot for their 12th straight conference victory against Wisconsin in their final home game of the campaign. OSU finishes its 14-game league schedule on the road, invading Indiana Monday and Minnesota March 5.

Minnesota (5-7) is at Indiana (8-3) in Saturday's regionally televised attraction. The winner will get at least a runner-up share. All other teams have lost five or more games.

Iowa (5-7) is at Illinois (5-6) and Northwestern (6-5) at Purdue (6-6) to round out Saturday's schedule.

Hitting a big ten record scoring clip of 92.7 points a game and a record field goal accuracy percentage of .501, the Buckeyes figure to overpower Wisconsin. The Badgers, who lost their first eight big ten games, have defeated Iowa, Illinois and Michigan in their last three starts.

400 Freestyle Win Gives Maples Lead

Birmingham Seaholm high's 400-yard freestyle swimmers grabbed three of five top places in that event, last night, to take an early lead in the annual Eastern Michigan League title meet. The 400 and diving prelims were the only events held Thursday. Preliminaries in all other events start at 7 p.m. today in the Maples pool.

Denny Collins set a pool mark (4:30.4) with his win. Kimball's Brook Bears was 2nd, and Mike McCarthy and Bob Nadel (both Maples) were 4th and 5th. This was a final event.

Maples' Dick Lowe (6:17.3 points), 1st, John Harner (131) 3rd, and Don Morris (140) 5th, with Kimball's Ed Bothman (139) 2nd, led the qualifying divers.

Finals take place next Friday at RO Kimball's pool. Kimball is defending champion.

Unanimous for Grow

BOISE, Idaho (AP)—Jimmy Grow of Lewiston, Idaho, won a unanimous 10-round decision over former lightweight champion Jimmy Carter of Oakland, Calif., Thursday night.

Central Whips Eastern

MOUNT PLEASANT (UP)—Central Michigan closed out its basketball season last night with an 11AC triumph, 74-62, over Eastern Michigan.

Eastern held a 42-32 margin at intermission but Central's Dean Adams led a scoring surge and the Chippewas evened it at 50-50 with 12 minutes left.

4 Chiefs in SVC's Top 15

Hurner 7th Best Scorer

Barring a bad evening on his home court, Arthur Hill's Dave Tingle should win the 1960 Saginaw Valley Conference scoring title tonight when the Hillites meet Flint Central.

Pontiac Central's John Bandy, now a freshman cager at Western Michigan University, won the league point-making crown last season.

Tingle, firing points at an 18.6 clip in nine Valley games, has a 10-point lead over runner-up Ernie Thompson of Saginaw High entering the final night of the regular season schedule.

Four Pontiac players — Booker Hurner, George Fed, Phil Rabala and Bill Pritchett — fall among the top 15 in the Valley scoring race with Hurner showing the way on a 15.0 average for 7th place.

The same four can be found among the first 15 in the all-game divisions, again led by Hurner at a 15.5 pace for 5th spot.

Thompson and Tingle look like chiefs to reverse positions in the all-games race, Thompson, running away from everybody with a 19.5 average for 14 games, is leading Tingle by a commanding 7 points.

Miss McIntire Favorite

ORMOND BEACH, Fla. (AP)—Barbara McIntire, emerging as heavy favorite to win the 31st annual Women's South Atlantic golf tournament, met Mrs. Paul Dye of Indianapolis in a semifinal match today.

Lent Starts Wednesday

Ready for Spring Training?

By LOUIS CASSELL
United Press International

For millions of Christians, next Wednesday marks the start of the spring training season.

From the time of Easter (April 17), they will apply to their spiritual lives the same basic principle that athletes follow in getting into condition.

The principle is that unused muscles grow flabby, and can be toned up only through exercise.

During Lent—which is the official name of the spiritual spring training season—a Christian is supposed to give his will power a workout. He practices acts of self-discipline and self-denial, not as ends in themselves, but in order to toughen up some of the moral fibers that have gone soft from easy living.

OLD SEASON
Lent is one of the oldest seasons of the church calendar. Its present duration—the 46 weekdays and 6 Sundays preceding Easter—was fixed by Pope Felix II in 481 A.D. But his decree merely formalized a custom which had been wide-

spread in the early Christian church since the second century.

Catholics, Episcopalians, Lutherans and Eastern Orthodox Christians always have placed great emphasis on Lent. In recent years, Lenten observance has been growing rapidly among Presbyterians, Methodists and other Protestants.

Each person decides for himself how he will keep Lent.

The Catholic Church prescribes certain minimum rules of fasting (adults must forego meat at two of their three meals on weekdays), but leaves the individual free to choose what further sacrifices he will make. Millions of Catholics voluntarily give up drinking, smoking, movies or other worldly pleasures.

Many Protestants also fast during Lent. But fasting in Protestant usage is not necessarily related to food. It simply means making yourself do without something you particularly enjoy—perhaps something as worthwhile as listening to symphonic records, or as harmless as reading detective stories.

The idea is that a period of

deliberate abstinence from some of the normal joys of life helps a person to keep things in perspective, and to avoid becoming so attached to personal comforts they annoy God's place.

St. Paul called it "bringing the body under subjection to the spirit." Medieval saints called it "mortification of the flesh." A modern writer calls it "learning to control your appetite for self-indulgence."

Whichever term you prefer, it's still spring training. And the season is now at hand.

Finds 5 of 10 Parents Want College for Kids

EAST LANSING (AP)—Only one of 10 parents of high school students was graduated from college. But five of 10 want to see their children go.

The findings were reported by Dr. James X. Jamrich, Michigan State University professor of education. He polled 5,000 families with high school students to determine the need for a new four-year college in the Grand Rapids area.

U.S. Arsenic Source

ST. LOUIS—About one-third of the world annual supply of commercial arsenic is produced in the United States.

U.S. Trains Six Cadets From Cuba for \$249,000

WASHINGTON (AP)—Six Cuban cadets being trained at the Corpus Christi Naval Air Station in Texas are costing American taxpayers \$249,000 this year. That figures out to more than \$41,000 per cadet.

Last year, \$45,000 in Cuban military aid was spent to train the six cadets and other Cuban military personnel and to buy some equipment. The equipment did not include weapons and ammunition.

Another \$1,080,000 spent last year on the Dominican Republic went for "training ammunition required by a Dominican vessel during training exercises with the U.S. Fleet and for equipment and spare parts for ships.

Lincoln White, State Department press officer, listed the expenditures Thursday for newsmen. A recent Defense Department report indicated the military aid allotted Cuba.

White said he wanted to emphasize that no inference should be drawn that the United States was sending arms and ammunition to the Dominican Republic and Cuba in violation of its own policy of banning arms shipments into the Caribbean area.

Sen. Wayne Morse (D-Ore) said Thursday in a Senate speech that military aid to Latin-American nations should not be increased. He said he had been led to believe that military aid to Cuba had ceased in March 1958 and to the Dominican Republic about the same time.

Morse said Congress last year specifically provided that military

aid funds to Latin-American nations should not be increased. He said he had been led to believe that military aid to Cuba had ceased in March 1958 and to the Dominican Republic about the same time.

BOARDING HOUSE

Ford Engineer Dies in Kentucky After Accident

COVINGTON, Ky. (AP)—Robert Renwick, 37, Allen Park, Mich., an engineer for the Ford Motor Co., died in both Hospital Thursday from injuries received in an automobile accident on Feb. 15.

Donald Frey, 35, of 586 Fairfax St., Birmingham, Mich., and James Moore, 53, of 4050 Clyde Rd., Milford, Mich., also connected with the automobile company, were injured in the accident. It occurred on Kentucky Route 20, near Hebron, according to the state police.

A state trooper quoted Frey as saying their car was forced off the road by an automobile coming in the opposite direction. It struck a culvert, went through a field and struck a milk house, according to the report.

A spokesman for the Sharonville branch of Ford said he understood the men were testing a model not yet introduced to the public when the accident occurred. He said they were connected with the engineering department of Ford in Detroit.

The twin ports of Duluth, Minn., and Superior, Wis., are the second busiest in total shipping volume in the U.S.

Heires, Spanish Prince Break Off Engagement

SAN FRANCISCO (AP)—A Jewish Rome wedding planned for Prince Gonzalo de Borbon, 24, and Prince Gonzalo de Borbon, 24, nephew of the pretender to the throne of Spain, has been called off today, the San Francisco Chronicle said.

Dolly's mother, Mrs. Laurence Tharp, was quoted as saying the engagement was broken "by mutual consent." Mrs. Tharp gave no reason.

Grains Tending Toward Weakness

CHICAGO (AP)—The grain futures market leaned toward weakness today in drabber dealings during the first several minutes on the Board of Trade.

Old crop wheat contracts were under continued liquidation and setbacks ran to major fractions of a cent. Price changes elsewhere around the floor were in minor fractions.

Poland was a good buyer of wheat overnight. It took 1,400,000 bushels each of soft red and hard yellow. Uruguay bought corn.

2 Planes Collide, Another Crashes, Killing 87

SEARCHING FOR CRASH VICTIMS — Skin divers work from a boat in Rio de Janeiro's Guanabara Bay trying to recover bodies from the crash Thursday of a U. S. Navy plane and a Brazilian airliner over the bay. Seventy persons were reported aboard the two craft. The U. S. plane was carrying Navy musicians, on their way to play at a dinner President Eisenhower was giving Thursday night for President Juscelino Kubitschek. There were also anti-submarine men on the plane.

U. S., Brazilian Craft Hit; 19 Navy Bandmen Dead

RIO DE JANEIRO (AP)—The collision of a U. S. Navy plane and a Brazilian airliner in which 61 persons died left a tragic aftermath today to President Eisenhower's triumphal visit to Brazil.

A fleet of launches crossed Guanabara Bay off Rio, seeking missing bodies of those who died in the collision in an overcast Thursday. Only 25 bodies were recovered Thursday.

Thirty-five of the dead, and the only three survivors, were U. S. Navy men.

Among the dead were 19 leading members of the U. S. Navy's world-famed band, "the cream of the crop," coming from Buenos Aires to play for a dinner Eisenhower gave Thursday night for Brazilian President Juscelino Kubitschek.

The survivors and seven of the dead were members of the U. S. Navy anti-submarine team which had been sent to advise the Argentine navy after a mystery submarine was reported in a gulf off the Argentine coast. No sub was found, and the team was on its way home.

SEVEN CREWMEN DIE

Others dead in the crash were the 7 crewmen of the Navy plane, a four-engine B-57D, 2 other Navy passengers, and 22 Brazilian passengers and the crew of 4 aboard the airliner.

The shocked U. S. President, who knew many members of the band, went on with the dinner for Kubitschek but canceled a reception and a meeting with members of the U. S. Embassy staff.

Presidential Press Secretary (Continued on Page 2, Col. 1)

BUENOS AIRES (AP)—President Eisenhower launched a weekend visit to Argentina today with an expression of satisfaction that "common aspirations and common aspirations provide one stone in the structure of peace."

The President's orange and silver jet, bringing him from Rio de Janeiro, Brazil, touched down at Ezeiza International Airport at 8:40 a. m. EST.

He is here for a weekend visit with more emphasis on diplomatic talks than parading.

A series of bomb explosions early today in Buenos Aires was taken as an indication of efforts by Peronistas or other dissidents to embarrass the government of President Arturo Frondizi at the time of Eisenhower's visit.

The sun broke through the overcast skies just as Eisenhower arrived. The temperature hovered around 60.

He was greeted by an orderly crowd of 5,000, including President Arturo Frondizi, who was his guest in Washington a year ago.

HAILERS BY PRESS

The press editorially hailed the visit as a historic occasion which would result in closer links between the two nations.

Eisenhower said he greeted the Argentines with genuine pleasure and satisfaction.

"I am especially happy that my visit occurs during the 15th anniversary of your nation's valiant fight for freedom . . .

"I bring all of you the heartfelt good wishes of the government and the people of the United States, and I thank you earnestly for the cordial reception you have just accorded me and my associates. In the few days we shall be here among you, we hope to meet many of you personally, to enjoy the grandeur of your well-known capital, to visit several of your beautiful cities, and, at least from the air, to obtain a panoramic perspective of your vast and noble country."

MUCHAS GRACIAS

"Muchas gracias, mis amigos."

The pattern of Eisenhower's first hours differed from that in the three other countries on his South American itinerary. A helicopter ride to downtown Buenos Aires was arranged instead of the airport-to-town parades set up in Rio de Janeiro, Santiago and Montevideo.

SNOWED UNDER — Stores and city crews were busy this morning clearing sidewalks and streets after last night's heavy snowfall. Meanwhile, residents were trying to slide piles and drifts of snow knee-high in some places. This is Saginaw street, just south of W. Huron.

More Snow Looms After 5-Inch Crippler

Over 23,000 Children Miss School in County

New Light Fall and Swift Winds Threaten Highways Again

More snow threatened today after the heaviest snowfall of the winter — five inches — blanketed the Pontiac area, snarled traffic and kept more than 23,500 Oakland County children home from school.

Light snowfalls, at least, are expected tonight, the Weather Bureau said, and stronger, 20-30 M.P.H. winds threaten to clog highways with more drifts the next 24 hours.

Although county and city crews had managed to clear most state trunklines and arterial roads by rush hour this morning, side roads remained mostly covered with snow throughout the day.

Pontiac and Waterford Township schools were open, and buses struggled through the difficult side roads to maintain normal runs. Most buses ran late.

In eight rural school districts, side roads were so bad that officials canceled classes for the weekend.

Forty-four Oakland County schools shut down in the following areas:

Avon Township, Orionville, White Lake Township, Holly, Milford, Lake Orion, South Lyon and Rochester.

Oxford school buses made no runs, and the school district suffered about 50 per cent absenteeism. Absenteeism ran 75 per cent in Leonard and Lakeville.

MAIN ROADS ONLY

In Bloomfield Hills and Clarkston, school buses ran on main roads only.

About 4,200 pupils were absent from Bloomfield Hills schools and nearly 1,000 in Clarkston.

Nearby Macomb and Lapeer counties also were hard hit. Schools were closed in Romeo and Uppa, as well as in Metamora, Dryden, Almont and Armada.

The heaviest snow of the season began early yesterday (Continued on Page 2, Col. 3)

HELPING HANDS — Many motorists like pretty Sharon Monroe, 151 W. Ann Arbor St. (behind the wheel) needed a helping hand this morning to get to work. Snowbanks may be fun for tobogganing and skiing, but not for driving. Putting their shoulders behind it here are (from left in front of car) Ed Santala, 271 Mt. Royal St.; Charles Hinds, 173 W. Yale St.; and Charles Cox, 53 Hillside St.

One Means Tax Hike Eye 2 School Budgets

Dr. Dana P. Whitmer, superintendent of schools, has acknowledged that a raise in taxes would be required to meet a target "improvement" budget estimate of \$8,598,627 for 1960-61.

The improvement budget was one of the two tentative operating budget estimates introduced to the Board of Education last night for consideration and possible revision.

The basic budget maintains the status quo in terms of school operations, with allowance made for enrollment increases and cost-of-living adjustments.

The second budget provides improvements needed above the status quo to maintain a school system of quality," said Whitmer, "and one which represents a continuation of improvement trends which have been experienced in the last five years."

"The improvements included are in terms of those which the Board of Education has studied and reviewed for the financial needs of 1960-65."

The Board must adopt a budget for presentation to the County Allocation Board in April. A public vote on increased mileage shortly afterward was indicated should the Board of Education adopt the "improvement budget."

Improvements, most of which are needed for rehabilitation purposes, are estimated at \$250,840 above the status quo estimate of \$8,347,787.

The 1959 budget was \$9,043,864. Whitmer said that enrollment is expected to increase by 412 pupils in the coming school year and that the cost-of-living index will rise 2.3 points, or 1.98 per cent, affecting wage scales in the school system.

"Because there are school systems not participating," Curtis answered, "and the money allocated for Michigan is to be spent by July."

Curtis said the figure is "more than we are entitled to," explaining that the Department of Public Instruction figures about \$2 per child in allocations under the NDEA program. That would amount to approximately a \$60,000 share for Pontiac.

Application to participate in the program must be made to the Department of Public Instruction by March 14.

Further consideration will be given the committee recommendations, Curtis said, the figures would be "whittled down" first by the administrators and Board, and probably some more by the Department of Public Instruction when approval is sought.

Wife Can Sue for Loss of Bliss Wins Pioneering State Ruling; Says on Injury Deprives Her of Love

LANSING (AP)—Married women of Michigan enjoyed a new right before the bar of justice today, won in a pioneering 4 to 3 decision of the State Supreme Court.

It is the right to sue for loss of consortium—that is, marital comfort, affection and companionship. The doctrine reportedly exists in just three other states and the District of Columbia.

Justice Talbot Smith said his majority opinion yesterday marked another stride away from the outworn legal view derived from old English and Roman law, that a wife is only a "vassal, chattel and household drudge."

The high court ruled in the case of Mrs. Shirley Montgomery of Garden City, who sued William S. Stephan, he was driver of a car which collided in 1958 with one driven by her husband, injuring him severely.

Mrs. Montgomery said she was deprived of her husband's "aid, assistance, enjoyment, sexual relations, love, conjugal affection, companionship, felicity advice, counsel, comfort, cooperation and mutual service."

She asked \$35,000 damages. Judge Carl M. Weideman dismissed the case in Wayne County Circuit Court. Mrs. Montgomery appealed and the high court reversed Weideman.

'Did People Know What State Senate Vote Meant?

LANSING (AP)—Were Michigan citizens properly informed in 1952 that they were voting—in, staking out new districts for state senators—to switch from population to area as a basis for Senate districts?

The State Supreme Court raised that question yesterday and ordered rival state and AFL-CIO attorneys to explore the subject in the next round of the Union's battle to outlaw the way the 34 districts are drawn up.

It was a surprise development as the fight moved toward a climax in a two-hour hearing before the eight black-robed justices.

Attorneys overflowed the dinky Supreme Court chamber, as some possibly sensing one of the more historic moments since it was dedicated in 1879. Top election officials and some legislators looked on.

In an amendment to the State Constitution, voters eight years ago approved permanent boundaries for Senate districts, wiping out a requirement for basing both House and Senate districts on population.

The question whether the people knew exactly what they were doing was posed to counsel by Chief Justice John R. Dethmers in behalf of the whole court. Ten days was allowed for filing of briefs.

While Michigan AFL-CIO President August Scholle sat nearby, Union Attorney Theodore Sachs, 31, assailed the districting set-up as "legalized ballot box stuffing." He drummed on the argument it was not based on area.

UPLOIDS PEOPLE'S RIGHTS

Atty. Gen. Paul L. Adams, representing Secretary of State James M. Hare in defending the system, upheld the people's right to "frame that form of republican government they feel will serve them best."

Scholle, who started the suit, cited a wide population range in the 34 districts as proof that the system does not allow equal protection of the laws guaranteed in the federal Constitution.

Justice Eugene F. Black questioned whether equal protection rights in the State Constitution also might be involved.

Sachs said that they were. Black said that was important in determining whether the issues raised belonged where they were or in federal court.

This Pedestrian Probably Owes His Life to Snow

A Southfield pedestrian, tossed 90 feet through the air when struck by a car this morning, picked himself up out of a snowbank and said, "Where's my hat?"

Edward P. Setzke, 33, of 21987 Midway Rd., miraculously escaped injury due to the heavy snowfall. He suffered a bump on the head.

Driver of the car Peter Nicholas, 42, of Detroit, said he was unable to see Setzke walking on Eight Mile road near Lahar road before he hit him at 5:30 a.m.

"When I rushed up to him, he said 'Where's my hat?'" according to Nicholas.

Nicholas said Setzke "limped briefly on the hood of the car before being tossed through the air. The car hood was dented, police said.

Setzke was treated at William Beaumont Hospital and released.

Stirs Resentment on 'Good Will' Trip

Khrushchev the Terrible Blunders

By FRIL NEWSON

UPI Foreign Editor

The terrible - tempered Nikita Khrushchev's swashbuckling tour of southern Asia has not always gone to his liking or his plan. In fact, there is reason to ask whether he may not have done himself more harm than good in India, Burma and Indonesia on a tour originally designed to offset President Eisenhower's Asia success and to cement support behind the Soviet Union in this spring's forthcoming summit meeting.

Indian reporters who witnessed Khrushchev's high good humor and his public clowning during his last visit, noted especially this time that he frequently seemed glum and tired.

When he did robe himself his words often were critical. There was speculation that he was showing the strain of his heavy travel and diplomatic schedule.

If so, it began to show even before he left Moscow on his current tour.

There, in a bit of heavy-handed humor during a visit by Italian President Giovanni Gronchi, he derided Italian macaroni and recommended instead that Gronchi try some Russian kvas, a malt drink similar to beer. The Italian press took it up as a national insult.

In India, he hammered the charges that southeast Asian nations should look to the "so-strings-attached" economic aid

offered by the Soviet Union rather than from the West whose aid he described as a "weapon of new colonial policy."

He criticized the Indians for lack of sufficient animosity toward the former colonial powers and he exalted the blessings of the Communist one-party system as opposed to the western-style party system which the Indians have adopted.

Indians regarded this latter point as a serious Khrushchev error. Nor did he rouse any particular enthusiasm against western aid which from the United States alone has totaled some two billion dollars against only a third as much from the Soviet Union.

Nor was he more successful in Burma where newspapers warned

him to keep a "civil tongue" in his head and a meeting with Premier Ne Win was reported cool if not downright hostile.

In Indonesia, he criticized a stadium being built with Russian aid, noticeably upsetting his host President Sukarno. He capped that by refusing a gift of native artwork in cloth of silver on grounds that they represented a "bygone day."

None of these would seem to bear the stamp of a man on a good will tour.

Finally, Khrushchev apparently has been less than successful in easing Asian suspicions roused by Communist China's aggression against Tibet and its demands on territory traditionally considered Indian.

WOMAN TO RUN — Miss Lucia M. Cormier of Rumford, Maine, has announced that she will seek the Democratic nomination to the U.S. Senate. This may produce the nation's first Senate contest between two women.

His Suicide Saves Firm From Ruin

HERKIMER, N. Y. (AP)—The death of Samuel D. Earl, by his own hand, gave life to his furniture company.

Did he intend it so?

This Mohawk Valley community, for whom the Standard Furniture Co. is a major economic force, doesn't know. Police found no notes.

Earl, 46-year-old president of the wooden office furniture manufacturing firm, shot himself to death at his home in Old Force last Friday. He left a wife and two children.

The financially stricken company could not pay its 230 employees the day Earl died.

That night, however, Standard's board of directors announced that working capital had become available. The money, reportedly \$700,000, was from an insurance policy the company carried on Earl to guarantee uninterrupted operations in the event of his death.

Before his death, Earl had been trying to sell the business.

That night, the directors announced there was no immediate plan to sell.

Sen. Margaret Chase Smith, the Republican incumbent, is a candidate for another term.

Newlyweds' Honeymoon With Trip to Tennessee

AVON TOWNSHIP—Now honey-mooning on a trip through Tennessee, newlyweds Mr. and Mrs. Bob A. Yeargan will reside at 110 Opdyke Rd., Pontiac, upon their return.

The bride is the former Bette Lou Brunett, daughter of Mr. and Mrs. Charles H. Brunett Sr., of 2465 N. Harrison St. The bridegroom is the son of Mrs. Lou Stuart of Tullahoma, Tenn., and Claude Yeargan of 2165 N. Harrison St.

The wedding was performed in the Avondale Baptist Church, Auburn Heights, by the Rev. Alger A. Lewis.

A floor-length gown of lace and net over slipper satin was chosen by the bride. It featured a hoop skirt and Sabrina neckline. Her chapel-length veil was fastened to a pearl and sequin tiara. She carried a bouquet of roses and breath of spring with an orchid.

Her sister Mrs. Mary Ann Nelson was matron of honor. Bridesmaids were their cousin Marilena Grattop and Mary Droghda of Rochester.

The bridegroom's brother Jerry served as best man. Ushers were the bride's brothers Lawrence of Farmington and Charles Jr. of Rochester.

Immediately following the ceremony a reception was held in the Avon Township Hall.

PIONEERS CELEBRATE — Same 100 people over 60 years of age attended yesterday's noonday luncheon celebrating the sixth anniversary of the Clarkston Pioneers Club. The gala affair took place at the Clarkston Community Center.

Arraign 2 of 4 Youths in Troy

Charged With B&E in Nighttime, Out on Bond; Two Are Juveniles

TROY—Two of the four Madison Heights youths who have admitted five area break-ins have been arraigned before Troy Justice of the Peace Charles H. Lowy and released on bond pending their examination on Monday.

Dennis F. Hepp, 17, of 2615 Palmer St., and Edward J. Martin, 18, of 728 E. 11 Mile Rd., were charged with breaking and entering in the nighttime. Their bond was set at \$1,000 each.

The other two are juveniles. They are Thomas P. Redinger, 15, and John S. Hennessy, 16.

The four were apprehended by Troy police Monday night when they were transferring clothing from the back seat of their car to the trunk.

The lot was found to be from Conlen's Men's Wear Store, 1798 Auburn Rd., Shelby Township, which had been burglarized earlier the same evening.

The quartet also admitted taking clothing from Young's Men's Ware Store, North Hill Plaza, near Rochester, and breaking into three area gas stations.

The two juveniles were allowed to return home after a preliminary hearing pending further investigation by Oakland County juvenile authorities.

Plan New Dock at Lake Orion

LAKE ORION—The Lake Orion Village Council will meet at the village desk at 9 a.m. Sunday to see what can be done about replacing the old structure.

The officials are planning to erect a new dock to be ready for the annual swimming program sponsored by the Lake Orion Child Guidance Assn. It opens in June.

The association had asked last summer that the village put up a new dock for safety's sake.

The village Department of Public Works crew will do the actual work on the project beginning when the weather breaks this spring, Clerk Mary Parkinson said today.

Addison Bride, Husband Choose Home in Pontiac

ADDISON TOWNSHIP—Newlyweds Mr. and Mrs. Donald C. Chaput are residing at 36 Franklin Blvd., Pontiac, following their honeymoon trip.

The bride is the former Antoinette Young, daughter of Mr. and Mrs. Richard A. Young of 2810 Indian Lake Rd. The bridegroom's parents are Mr. and Mrs. Arthur C. Chaput of Huhls.

They were married at a simple ceremony in St. Benedict Church, Pontiac, performed by the Rev. A. J. Wyzgoski.

Attendants were the bridegroom's sister and brother-in-law, Mr. and Mrs. Lionel J. Freilberg of Canterbury street, Pontiac.

A wedding breakfast was served at the home of the bride's parents.

Baldwin PTA Staging Saturday Night Dance

ROCHESTER — The Baldwin School PTA has completed plans for its "Leap Year Swing" to be held from 9 p.m. to midnight tomorrow at the school.

31-Year-Old Charge Dismissed at Last

FARMINGTON — A gambling charge brought 31 years ago against Stuart Carter, 55, of 2740 Eramwell Rd., has been dismissed in a Detroit court.

Recorder's Judge George Murphy dismissed the old warrant on the recommendation of Asst. Prosecutor Raymond L. Miller.

Miller told the judge that all witnesses had either died or moved away.

The gambling charge came to light when Carter was arrested on a charge by his wife Vernice of assault and battery.

Carter was freed on a \$50 bond in the assault charge pending trial before Farmington Justice of the Peace James Lawson.

No date has been set for the trial, Lawson said.

Carter, a tool and die maker, said he assumed that the gambling charge had been dropped years ago.

"I never felt like a fugitive," he said.

Card Party Saturday

WHITE LAKE TOWNSHIP—The St. Patrick Church Altar Society will sponsor a pre-lenten card party at 8:30 p.m. Saturday in the church hall, at Hutchins and Union Lake roads. A luncheon will be served. The public is invited.

Food Crams Tables for Senior Folk

By REBA HEINTZELMAN
CLARKSTON—If there is one thing Clarkston's elders like to do, it is eat, and yesterday's noonday birthday dinner table was a "thing of beauty and a sight to behold."

Retired people from Davisburg, Lake Orion, Pontiac, Milford and Waterford joined the Clarkston Pioneers in celebrating their sixth anniversary at the loaded banquet tables.

Each year the lively group of people past 60 has attracted more and more attention in the county because of interesting activities and associations.

Almost every "golden age" club that has been organized has been patterned after the Pioneers, according to its instigator, Mrs. Frederick Warrick.

MONTHLY DINNER
She and a few of Clarkston's

Leonard PTA to Hold Family Night Supper

LEONARD—The Leonard PTA is having a family night supper at 6 p.m. Monday in the all-purpose room of the school before its regular monthly meeting.

The program to follow will be presented by Mrs. Verlyn Matulko, elementary art teacher.

Clarkston Pioneers 6 Years Old

young-minded matrons plan, cook and serve a noonday dinner the fourth Thursday of every month.

Her group also helps set up other planned activities and programs.

When necessary, transportation also is supplied by the women. However, it is surprising how many of the older people drive their own cars.

Many of the 60 members walk to the dinners which are served in the Community Center on Main street.

After yesterday's gigantic dinner of barbecued pork, mashed potatoes, buttered carrots, relishes and home made bread, club President Lee Clark cut the huge candied birthday cake.

Other candles stuck in popcorn-ball holders surrounded with bright colored balloons, were part of the table decorations.

Holly Residents to Vote on 2 Millage Proposals

HOLLY — Voters in the Holly School District will go to the polls Monday in a special election to decide two millage proposals.

The school board is seeking approval to continue a six-mill operating tax and increase the levy for capital improvements by one mill.

According to school officials, however, the approval of the two issues would not increase taxes.

If the seven additional mills are approved, total school taxes to be levied next year will be reduced

an estimated 23 mills, according to Superintendent Ray Barber.

Barber explained the taxes could be lowered since the school board has committed itself to reduce its bonded indebtedness more rapidly than anticipated, Barber said.

"Because of increased valuation in the area during the past seven years, Holly has been able to reduce its bonded indebtedness more rapidly than anticipated," Barber said.

The bonds had gone toward construction at the Davisburg Elementary, Holly Elementary and Holly High schools.

If approved, the six-mill proposal will continue for two years while the one-mill levy is being sought for three years.

The six mills are expected to provide about \$108,000 annually for operating expenses, and the one-mill levy would achieve \$18,000 a year for capital improvements.

When residents voted for the six-mill operating levy last year eight new teachers were hired so that many of the subjects and services dropped the previous year could be returned.

The school board has stated that voters must approve the propositions so that similar cuts of the staff and subjects will not be necessary next year.

The one-mill increase for capital improvements would provide land-scaping at the new Holly Area High School and improved playground facilities at Davisburg Elementary and Benett Junior High schools.

The polls will be open from 7 a.m. to 8 p.m. at the Davisburg and Benett schools.

Man Pleads Guilty in Fatal Shooting

The Carp Lake man who surrendered to Cheboygan State Police following a fatal hunting accident, in which a former Oxford Township man was killed, pleaded guilty of negligent homicide yesterday.

The plea was entered in Cheboygan County Circuit Court.

Roy Bauers, 32, is free on \$1,000 bond awaiting sentencing. He admitted firing the shot which killed Jack Williams, 65, of Mallett Lake and formerly of 807 Baldwin Rd., Oxford Township.

Williams, known locally as the "potato king" because of the large crops he produced on his farm, was shot in the back of the head when Bauers fired at what he thought was a deer in the brush near Cheboygan last November.

Williams had moved to Mullett Lake about eight years ago.

Weight of raw wool is reduced 40 to 60 per cent by removing the impurities.

Royal Oak Woman Injured — Hit by Train

ROYAL OAK—A Royal Oak woman is in satisfactory condition today at William Beaumont Hospital from injuries received when her car was hit by a train at the Main Street crossing last night.

Mrs. Henry Dale, 35, of 877 E. 10th St., is suffering from fractures of the right ankle, right arm, and multiple bruises.

Her husband a passenger in the car, told Royal Oak Police his wife was driving south on Main street and had just crossed the tracks when the signal started.

She became confused, he said, stopped the car and started to back up when she froze at the steering wheel.

"I jumped out and tried to drag her from the car but lost my grip on her," he said.

He jumped to safety just before the train rammed into the driver's side of the car.

Rochester Key Club to Wash Cars Saturday

ROCHESTER — Members of the Rochester Key Club, a newly organized youth community service group, will wash cars Saturday at Milton's Mobilgas Station, 1031 N. Main St.

It is the group's first money-raising project. Proceeds will be used to finance the club's community service projects.

The Key Club is sponsored by the Rochester Kiwanis Club and the senior high school.

Milk Inspection Tightening Asked by Health Chief

LANSING (U)—A streamlined milk inspection program has been urged by the state health commissioner.

"Duplication of inspections by the State Agriculture Department and local health departments has

grown expensive for taxpayers and should be corrected without delay," Dr. Albert E. Heustis said.

"He urged minimum uniform statewide inspection standards and an exchange of reports between the agencies.

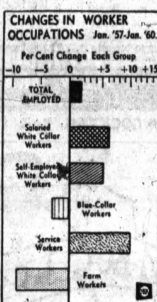

"This would stop duplication and still continue to assure safe and wholesome milk," Heustis said.

The streamlined plan could be effected, he added, by passage of several bills introduced in the Senate.

Mrs. Caint on Committee

LANSING (U)—Mrs. Stanley Caint, women's activities adviser for the University of Michigan Extension Service, has been named chairman of the Michigan Week women's program committee.

One large whale can provide as much edible meat as 100 steers. The Japanese consume it in large quantities.

TREND—The per cent change in worker occupations reflects what's happening to our working population of some 64 million as of January 1960. White collar employment, the ratio being growing more rapidly than blue collar employment. The ratio between the two as of now stands at about 55 white collar workers to every 45 blue collar workers. In early postwar years, just the reverse was true. Data from Labor Department.

Claims Payoffs Threaten Press

Rackets Group Tells of Extortion by Thugs to Maintain Deliveries

WASHINGTON (AP)—The Senate rackets committee said today it saw a "potential threat to freedom of the press" in payoffs allegedly exacted by racketeers from some metropolitan newspapers and big publishing and distributing firms.

The statement was included in a report to the Senate on the committee's 1959 investigation of alleged labor racketeering in the wholesale delivery of newspapers, magazines and newspaper Sunday supplements.

The report said big payments were exacted by racketeers to avert costly delivery stoppages, and as a price for continued labor peace in the delivery field. It said the money went to Harold Gross, a convicted New York City labor extortionist, and Cornelius (Connie) Noonan, head of the Inland Terminal Workers Local No. 170 of the International Longshoremen's Assn.

The report said big payments had found payments aggregating \$307,138.90 had been made to Gross and Noonan by the New York Times, the New York Mirror, the Neo-Gravure Printing Co. of Westchester, N. Y., and the American Weekly, owned by the Hearst Publishing Co. Inc. It said American Weekly paid to avert a threatened stoppage its deliveries to the New York Journal American. There was no immediate comment from the newspapers.

The report accused a group of New York racketeers of exacting big extortion payoffs from wholesale newspaper and magazine distributing firms in the New York area, and infiltrating both the management of some of these companies, and some labor unions with which they bargain.

More Whooping Cough!

LANSING (U)—Whooping cough cases are running more than 50 per cent ahead of last year, the State Health Dept. reported. There were 374 cases listed this year compared with 222 during the same period a year ago.

Newsman Uncovers Activity

Study Ghost Writing of College Themes

NEW YORK (AP)—The district attorney's office has seized the books of four ghost writing agencies in a probe of charges that college students and professors have had theses and term papers written for them for a fee.

After gathering up the records of the four unidentified agencies Thursday, Dist. Atty. Frank S. Hogan said the investigation started about three weeks ago on information from the New York World-Telegram and Sun.

Alex Benson, 32, a staff writer for the newspaper, began an investigation two months ago posing as a ghost writer. His activities were known to Hogan, the newspaper said, and the money Benson earned was turned over to the district attorney.

\$3,000 FOR THEM

Benson said his investigation disclosed: Cheating scholars pay up to \$3,000 to agencies for writing theses necessary for doctorates, and smaller amounts for master's theses.

College students pay from \$50 to \$300 for ghost-written term papers.

Benson said he was paid \$40 to substitute for a student at a final exam at Teachers College, an affiliate of Columbia University.

Dr. Hollis L. Caswell, president of Teachers College, expressed deep concern over the charge, and said the college has its own probe under way.

Benson also charged that one college professor at a southwestern university — not identified — paid \$1,250 for rewriting of his doctoral thesis. He added that the professor later sent a thank-you note to the agency and said he had received his Ph. D. on schedule. Officials said that the ghost-writing agencies also provide legitimate ghost writers of speeches and articles, typing, editing and composing letters.

Interesting Result

EAST HARTFORD, Conn. (UPI)—A half-century ago, Frank A. Graham deposited \$100 in a bank on behalf of his church, with the stipulation that the money not be touched for 50 years. Now the bank has paid the \$100 to the church, plus \$407.98 interest.

Readies Climate Atlas of Ancient Times

NEW YORK (U)—The state department of education has announced that it is preparing a climate atlas of ancient times. The atlas is not positive about his ambitions. He also has been thinking about being a carpenter.

Heart Disease: Nation's No. 1 Killer

Exposing Progress Seen in '60s

By A. C. ...
President, American Heart Association
Written for Newspaper Enterprise Association
Last of Series

CLEVELAND (NEA)—Research in diseases of the heart and circulation has acquired great momentum during the past 10 years, and it will be most disappointing if this does not lead to important breakthroughs within the next decade.

Of the nearly 500,000 deaths each year from disorders of the heart and blood vessels, more than 90 per cent are due to arteriosclerosis (hardening of the arteries) and hypertension (high blood pressure).

Arteriosclerosis of arteries which supply the heart muscle itself with blood is responsible for the largest single form of heart disease and causes more deaths each year than all other forms of heart disease combined.

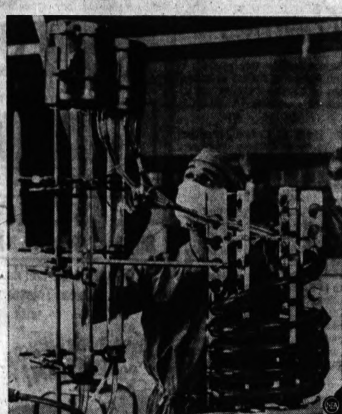

There is convincing evidence that heredity, obesity, high blood pressure, and increase in the amount of the fatty substance cholesterol in the blood favor the development of the arteriosclerotic changes in the affected vessels.

STRESS AND STRAIN? Other evidence suggests that emotional stress, inadequate exercise, and excessive cigarette smoking may be significant contributory or aggravating factors.

Much research has been carried out in recent years on the relationship between all of these factors and the development of arteriosclerosis. Special attention has been given to the role of cholesterol.

Further research undoubtedly will make it clear within a few years whether a high blood cholesterol by itself causes arteriosclerosis in man or whether there must be in addition, some abnormality in the growth and repair process of the blood vessel tissues themselves. This will be a most important addition to our knowledge.

Well-controlled research has demonstrated that abnormal amounts of cholesterol in the blood can be reduced, often to a com-

HEART-LUNG machine opens new doors for heart surgery. Dramatic new victories are being made in congenital heart defects.

pletely normal level, by limiting the amount of solid fats in the diet and replacing them with certain liquid fats.

Whether control of the blood cholesterol in this manner will actually prevent the development of arteriosclerosis or lead to improvement if arteriosclerosis already is present, should become known within the next 10 years.

This would supply the first positive means of preventing or alleviating coronary heart disease and hardening of the arteries in other parts of the body.

The commonest form of heart attack is due to blockage of an arteriosclerotic coronary artery or one of its branches by a locally formed blood clot. The commonest type of stroke is the result of a similar process in small arteries of the brain.

Clot-dissolving substances have been developed during the past few years. Improved preparations undoubtedly will become available soon, and when employed promptly by these may greatly alter the outlook for heart attack and stroke victims.

In the past 10 years, many new drugs for the treatment of high blood pressure have been discovered, and the list is being added to constantly.

As a result, it is now possible to control high blood pressure partially or completely in most but not all cases.

The cause of the most common type of blood pressure is still unknown. Until it is discovered we can expect little further improvement in the present situation. Research may bring the answer to this problem within the next 10 years.

Rheumatic heart disease, the most common form of heart disease in children and young adults, develops as the only important permanent complication of rheumatic fever.

Attacks of rheumatic fever are preceded by a streptococcal infection, most commonly a streptococcal sore throat.

But rheumatic fever occurs in only three per cent of all persons who have such streptococcal infections, and we do not know what it is that is responsible for the development of the disease in this three per cent.

Prompt treatment of streptococcal sore throat by appropriate antibiotic drugs and protection of patients who have had rheumatic fever against further streptococcal infections will prevent most initial attacks and recurrences of rheumatic fever.

However, this will not stamp out all rheumatic heart disease, since some streptococcal sore throats are so mild that they remain untreated. Medical care is not sought until the development of rheumatic fever.

If the exact mechanism by which streptococcal sore throat results in the occurrence of rheumatic fever were known, this might well make it possible to prevent all cases of rheumatic heart disease. It is highly probable that this mechanism will be discovered within the next decade.

The great forward step in heart valve surgery undoubtedly will consist of the development of tech-

Animal experiments along this line are being carried out and the progress is encouraging.

With the aid of the heart-lung machine, amazing progress has been made in the surgical correction of congenital (in-born) heart defects. These were regarded as unpreventable disorders until the early 1940's, when their association with German measles in the mother's early pregnancy was discovered.

This discovery stimulated a search for other external causes of congenital heart defects. Within the next few years this search may well lead to dramatic new victories in the area of congenital heart disease.

Assistant County Agent Named for Macomb

LANSING (U)—Gov. Williams Thursday announced the appointment of Thomas Papajohn of Fraser as assistant county agent for Macomb County, succeeding Mrs. Carole Wier, resigned.

The appointment, made on the recommendation of the Macomb Probate Court, does not require Senate confirmation.

A man begins to feel his age when he realizes that the girl looking his way is giving the once-over to his son. . . The girl who Wilson.

Heirless, Spanish Prince Break Off Engagement

SAN FRANCISCO (AP)—The Prince of Asturias, heir to the throne of Spain, broke off his engagement to the daughter of a Spanish nobleman, the pretender to the throne of Spain, because he was called away to his duties.

Dolly's mother, Mrs. Laurence Tharp, was quoted as saying the engagement was broken "by mutual consent." Mrs. Tharp gave no reason.

Applicants should contact:

The Personnel Division Oakland County Board of Auditors, 1st Floor, Oakland County Office Bldg., 1 Lafayette St., Pontiac, FE 3-7861

Bell Expansion Costs \$140,000

Pontiac Dial System Capacity Will Allow 300 New Numbers

Work is under way on a \$140,000 project to expand the capacity of the Pontiac dial telephone exchange.

Raymond H. Storm, district manager for Michigan Bell Telephone Co., said the expenditure of more than \$2 million the company will spend in the Pontiac exchange this year to expand and improve service.

New equipment being installed in the telephone building, 54 E. Huron St., will enable the company to establish 300 new telephone numbers, in addition to filling orders for better grades of business and residence service, he said.

The work is being done by the Western Electric Co., the manufacturing and supply unit of the Bell System. Technicians of this company also will test the new equipment before turning it over to Michigan Bell.

Storm said the project is scheduled to be completed by March 1.

Mrs. Aadland Wants to Halt Beverly's Dates

LOS ANGELES (AP)—The mother of Beverly Aadland, the late Errol Flynn's girl friend, is seeking a court order to bar her daughter from dating another older man.

A suit filed Thursday by Florence Aadland said Beverly, 17, has been dating Jack Dulin, about 35, of Beverly Hills, a skin diving instructor and a club owner.

The suit said he has been taking the girl to night clubs several times a week and is trying to persuade her to invest in a business venture.

Mrs. Aadland asked for \$5,000 damages and an injunction to keep her daughter from being lured away.

Joe Boland, Notre Dame Mule, Dies Suddenly

SOUTH BEND, Ind. (AP)—Joe Boland, 35, one of the Seven Mules on the Notre Dame football team when the famed Four Horsemen were pondering over the gridiron, died suddenly this morning after a heart attack.

Boland apparently had been in good health and broadcast the Chicago Bears football games over WGN in Chicago.

He was WSPT sports director and also broadcast the Chicago Bears football games over WGN in Chicago.

Boland was a guard on the line that cleared the way for the Four Horsemen coached by the famous Knute Rockne.

Electronics Pace Market

NEW YORK (AP)—Electronics were strong as the stock market advanced in electronic in fairly active trading early today.

Gain on pivotal issues went from fractions to about a point, generally, although Eastman Kodak advanced 2.

Advances stretched from 1 to 4 points among electronics and other selected issues which encountered speculative demand.

The rising market trend appeared to be getting a following despite a business and economic background which was only so-so.

Automobile manufacture continued a slow decline from the fast pace set earlier in the year. Living costs eased and business loans at major New York banks declined.

Motorola gained about 3 and General Time about 4 points. Up a point or better were such stocks as Philco, Raytheon, Siegel, Transistor and Litteron industries.

American Motors, up about a point, continued its recovery. Ford, General Motors and Chrysler also advanced.

Most chemicals had small gains. Allied Chemical was up about a point. The pattern was mixed for oils, airlines, tobacco and aircraft. Rubbers advanced.

Loew's Inc. began trading under its new corporate name of Metro-Goldwyn-Mayer, Inc. and its stock ticker symbol was changed from "L" to "MG-M." The issue was up about a fraction.

The ticker tape was late for a five-minute split at the opening. Trading continued at a pretty brisk rate.

Opening blocks included: Fairbanks Whitehead up 1/4 to 12 20 and 20 shares; Electrical & Musical Instruments unchanged at 8 1/2 and 7000; and American Motors up 1/4 to 6 1/2 and 5,000.

More of Olympics on TV

Mostly Entertainment Due

By CYNTHIA LOWEY
 NEW YORK (AP)—The Squaw Valley athletes pack up Sunday, which will give the nation's television viewers a chance to rest and recover from snow blindness.

Aside from the Olympic Winter Games, the next seven days of television promise to be leisurely and mostly entertainment.

Tonight, for example, there's the Telephone Hour (cont.) 9:30 Eastern Standard Time with Billy Bergin, John Raitt and the Hamilton trio providing the singing and dancing. There will also be the men's skating finals from Squaw Valley (CR, 9-10), CBS Eyewitness to History series (10:30-11) will show a President Eisenhower in Rio de Janeiro.

The Olympics ice hockey will be played Saturday (CR, 4:30-7) and on Sunday afternoon we can catch the 50-meter men's ski jumping and the closing ceremonies (CBS, 2-3) NBC's Sunday showbiz in Archibald MacLellan's "Secret of Freedom," starring Tony Randall and Kim Hunter.

BING AND PERRY
 Bing Crosby has one of his occasional specials on ABC Monday night (8:30-9:30) with Perry Como as his guest star, plus three of the four Crosby brothers. Later in the evening (10-11) there's NBC's "Paris à la Mode," with emphasis on the clothes of 15 of the great French dressmakers.

Helen Hayes is hostess on another of the CBS "Woman's" series Tuesday afternoon (3-4), this one concerned with the problems of growing old. NBC's Starline (8:30-9) is a civil war saga, "Jeff McLeod, The Last Reb."

Red Skelton (CBS, 9:30-10) has Miss West as his guest. NBC's new series "Music for a Spring Night" starts Wednesday (7:30-8:30) and Circle Theatre (CBS, 10-11) shows us how New York police recently posed as beatniks to round up a narcotics ring.

President Eisenhower's visit to

Argentina, Chile and Uruguay will be shown on NBC's "Journey to Understanding" program Thursday (7:30-8 p.m.).

TV Features
 By United Press International
 WALT DISNEY PRESENTS, 7:30 p.m., Texas John Slaughter, Ashley Cartwright (Darryl Hickman) is too eager for a fight.

TELEPHONE HOUR, 9:30 p.m. (4), Billy Bergin, John Raitt, Barbara Cook, the Hamilton Trio, the Dukes of Dixieland, the Buffalo Bills and pianist Loris Hollandager appear in a program of familiar music. (Color.)

7:30-8:30 p.m. (7), Joe Spencer (Roger Smith) probes the apparent suicide of a disappointed young actress.

MASQUERADE PARTY, 9:30 p.m. (4), Bert Parks, emcee. (Color.)

TWILIGHT ZONE, 10 p.m. (2) Vera Miles portrays a woman who sees a mysterious figure at a bus depot and alarms everyone around her.

ROBERT TAYLOR'S DETECTIVES, 10:30 p.m. (4), Lt. Jim Conroy (Lee Farrow) is nearly ambushed. He subdues his fear to set a trap.

CAVALCADE OF SPORTS, 10 p.m. (4), Eddie Machen meets Billy Hunter in a heavyweight bout, scheduled for 10-rounds, at Madison Square Garden.

EYEWITNESS TO HISTORY, 10:30 p.m. (2), Eisenhower's reception in the South American cities is covered.

BEST OF FAIR, 11:30 p.m. (4), No. 25 show repeated, with Alex King, Florence Henderson, Betty White, Philippe Halsman and Abigail Van Buren.

DJs to Become TV Comedians, Murray Says
 NEW YORK (AP)—Today's radio disc jockeys will be tomorrow's television comedians, says veteran comic Ken Murray.

"Vaudeville's dead, burlesque is dead, but shows (small-table-top-musical-reviews) are dead," insists Murray, "and there's no place left except disc jockey shows on local radio where a young comic can practice and be heard."

Car Strikes Scraper, City Resident Hurt
 A car driven by a Pontiac ran into the rear of a road scraper at 3 a.m. today and he was treated for minor injuries at Pontiac General Hospital and released, according to Waterford Township Police.

Richard E. Woodcock, 28, of 750 Cedarhurst St., was driving south on Highland road near Cass Lake road and didn't see the scraper he told police.

The driver of the scraper was Robert L. McDowell, 32, of 1072 Fremont St., Waterford Township.

BOOK GIFT FOR MSU — Rabbi Nathan Herschfeld (holding book) of Pontiac's Temple Beth Jacob explains a passage to David Wilder (left), librarian of Michigan State University Oakland. The Pontiac congregation became the first local organization to contribute books to the new university's library. The three sets of volumes donated were the "Midrash Rabbah," 10 volumes of rab-

binic commentaries on the Bible; Louis Ginzberg's "Legends of the Jews" (8 volumes); and Selo W. Baron's "Social and Religious History of the Jews" (8 volumes). Also listening to the explanation are Mrs. Charles Gersten, president of the temple sisterhood; and Dr. Samuel J. Chaffetz, vice-president of the congregation.

Long-Haul Airlines May Extend Fares

WASHINGTON (UPI)—The Civil Aeronautics Board (CAB) notified the nation's long-haul domestic airlines Thursday they may extend present passenger fares through June. The fares are scheduled to expire March 31.

CAB emphasized the extension would in no way affect its pending decision in the general passenger fare investigation. This is a far-reaching CAB case which is expected to determine what fares should be allowed and a formula for setting them.

Sweet Little Kathy Has House Detective Woes
 By EARL WILSON
 NEW YORK — Kathy Nolan — of all people — just had trouble at the prime Sheraton East Hotel ... the night manager and house detective halted her from "entertaining guests."

After wishing for years she could shed her "sweet little girl" reputation, she succeeded to spectacularly. "Kate," of TV's "The Real McCoys," was embarrassed, mad, and about to sue. Because at about 12:45 a.m. she and three male friends in sports clothes started for her suite, the sleuths said, "Oh, no-o-o-o, you don't!"

"What do you mean?" blazed mink-coated, red-haired 28-year-old Kathy, a St. Louis gal who's been acting since childhood and who not long ago was "12-year-old Wendy" in "Peter Pan."

"We mean this is a respectable hotel!"

That's exactly why I'm staying here! Kathy explained the three males were press agents helping her plan an exploitation tour. "All right now?" she said, starting for the elevator.

"NO!" The protectors ousted the three young men from the elevator. An older couple witnessed her shame and recognized her. "It's HER!" she heard them whisper.

The press agents tried to gag it up. "Good night, sis," said one. "Say goodbye to Mom," said another. All of which was acting, but ...

Kathy figured \$1,000,000 would be a nice sum, but would be a nice sum, but the apology ... and today she was trying to believe she must look like a glamour girl at last, even though Nolan.

Kathy anticipates a lot of ribbing from Bob Fuller, of the "Laramie" TV show. He phoned her recently and said, "Congratulations on getting engaged to a wonderful fellow."

"Who?" she squealed.

"Me!" he said. "I read it in somebody's column."

Says Kathy: "We're not engaged because I don't believe in engagements. There's no date or anything. There is no understanding. I guess it's an understanding that we don't have any understanding."

THE MIDNIGHT EARL ...
 Former deb Brenda Duff Frazier's critically ill in Cape Cod ... Maurice (Doberman) Gosfield may need eye surgery after an accident.

Police in Chicago (where crooks were discovered on the force) are puzzled by vagabonds who phone in to report "a mysterious quad car."

EARL'S FEARFUL: The man who once delighted in chasing girls now has a son who can't find any who will run ... That's Earl, brother.

TV News and Reviews

Part Two of Part One! Don't Confuse Us So ...

By FRED DANZIG
 NEW YORK (UPI) — This may get a little hard to follow, so please pay attention.

"The Ughed Assassin," on ABC-TV last night, was the first part of a two-part story in "The Untouchables" series.

THE FIRST PART
 The first part had two parts to it. One part of the first part was

Joe Zangara, a future assassin, who was shown during the hour as he huffed and puffed and dreamed of the day when he could assassinate President-elect Franklin D. Roosevelt. Narrator Walter Winchell, whose verbal punch helps move the series along, called Joe "a man of pronounced homicidal tendencies."

Part Two of Part One — Are you with me? — Deal with the efforts of Chicago mobsters to rob off the city's honest mayor, Anton Cermak.

As part one ended, the mayor's morning coffee break was rudely interrupted by machine gun bullets that missed taking him apart. Police arrived in time to take the mobsters apart. There will be more bullets next week when the paths of Roosevelt, Cermak and Zangara converge — for part two.

SOME OVERACT
 Part one of the story offered them that this series is famous for: Concerning players to overact, a tendency by the star, Robert Stack, to undercut, a skimming of motivation, and a zest for authenticity in violence as well as in the human touches.

Graphically shown last night was a body-dumping in a river, a pants presser blowing himself apart, a savage and unnecessary fist fight and, of course, the extended gun play.

Despite these reservations, the hour was cleverly designed to build suspense and achieved that goal in a highly competent fashion.

Incidentally, if the newboy seen at the start reminded you of Frankie Darrow, who used to play newboy parts in the films of the 1930s, there's good reason. That's who it was. Part one or part two, acting all the same to Frankie.

DIALING AND FILING: There's no doubt in my mind that Hugh Downs is a nice guy than Jack Paar. And there's no doubt in my mind that Paar does a better job of handling the show than Hugh does.

(Downs completed his pinch-hitting chore last night. Arlene Francis takes over on Monday.)

In Hugh's hands, the Paar show was a handiwork late night hit. It failed to inflame, abuse or offend and, too often, didn't entertain or amuse. Let's face it — Paar and Paar's capotes are what makes the show intriguing.

THE CHANNEL SWIM: "Tru-billo: Portrait of a Dictator," in being shown by CBS-TV on Thursday, March 17 instead of later in the spring ... Nancy Wick wire replaces Glynis Johns in the cast of "The Valley of Decision," scheduled for Sunday, March 20 on CBS-TV.

Ford Iron Foundry Will Lay Off 4,400

DEARBORN (UPI) — The Ford Motor Co. notified 4,400 employees at its iron foundry and engine plant that they would be laid off next week.

The company said almost all of the foundry employees and about half of the engine employees will be laid off for one week as a result of production schedule adjustments.

Most of the employees will be recalled at the end of the week but an undetermined number will be laid off indefinitely, the company said.

A spokesman said it was possible some of the company's manufacturing plants might go on four-day schedules next week as a result of the adjustments.

Similar production adjustments were previously announced by Buick Division of General Motors and Imperial Division of the Chrysler Corp.

You've a Seat at the Windup of Olympics
 Your TV set will give you a "ringside" seat at the final events of the 1960 Winter Olympics at Squaw Valley, Calif., this weekend.

Tonight at 8 o'clock David Jenkins will attempt to snag another gold medal for the United States. He will be competing in the second phase of the men's figure-skating competition, the free-style contest.

Jenkins will be trying to succeed his brother Hayes who won the 1956 Olympic competition.

Sunday is the final day of the 1960 Winter Olympics. A three-hour telecast will be highlighted by the men's 80-meter ski jump. For the first time the United States has a strong entry in this event in 18-year-old Gene Kottler. But to win the gold medal, he will have to beat the world's champion Juhani Karhinen of Finland.

After the jumping, medals will be awarded to winners of all events in the 10-day Olympics.
