Astronauts Say Thanks at Cape

CAPE KENNEDY, Fla. (AP) — Flashing broad grins, the Gemini 12 astronauts flew back to Cape Kennedy today and thanked the launch crews for the perfect blastoff that enabled them to end America's Gemini project with a record-shattering space flight.

Navy Capt. James A. Lovell Jr. and Air Force Maj. Edwin E. (Buzz) Aldrin Jr. landed here in separate planes about 11 a.m. after a two-hour trip from the aircraft carrier Wasp, which plucked the astronauts from the western Atlantic Ocean yesterday.

Their four-day orbital journey concluded the historic Gemini program and opened the gate to the Apollo man-to-the-moon project.

As America's newest heroes bounded onto solid ground for the first time since their fiery rocket departure last Friday, they were greeted by a large red, white and blue sign which listed all 10 manned Gemini flights and said: "Gemini Program Successful."

Another read "Welcome back Jim and Buzz."
"We're last but not least," ... Lovell said.

"BOTH HAPPY"

"Buzz and I are both happy to end the Gemini program with what we hope was a success."

"We've had quite a bit of fun and experience ... a lot of thrills, some troubles, but I think we've learned a lot and gained some more knowledge toward our space efforts, and we're anxiously looking forward to apply this new knowledge we've learned toward future programs."

"Everybody here has done an outstanding job to get us into space. The booster performed perfectly," Lovell said. "I was amazed, even though I've ridden one before, I continually get thrilled at just sitting there watching it perform."

Then, Lovell added, "The spacecraft behaved and got us back home, nice, safe and sound with no trouble and of course we're thankful for that."

"FANTASTIC"

Champion space-walker Aldrin then stepped forward and said: "I feel humble and proud to have been a part of the last flight in Gemini. What we did up there and what we saw was a treat for me as an individual ... It was just fantastic."

"We certainly appreciate all the work that has gone into making this flight a success."

"I feel very humble that I was given the opportunity to do these sort of things," Aldrin said. "We certainly appreciate all the work that has gone into producing these flights."

UNFURLS SIGN

Then Aldrin unfurled a "Go Army, Beat Navy" sign which he had unfurled in space during his record walk outside the capsule. Aldrin is a West Point graduate.

"I told him he was in a very precarious position to be showing a sign like that to me," quipped Navy man Lovell. "I was on the inside and he was on the outside."

Murder Suspect Charged

ANN ARBOR (AP) — A 30-year-old supervisor at the Milan Federal Penitentiary was booked today on an open charge of murder in the strangulation of a teenage boy whose body was found in a shallow creek last month. He also was questioned in a second murder.

Washtenaw County Sheriff Douglas Harvey said Ralph Nuss, a work release coordinator for the federal prison, was being held in connection with the slaying of Arland Whitlow, 17, of Ypsilanti Township.

Harvey said Nuss had signed a statement, but the

sheriff declined to disclose any details.

Nuss was arrested last night on a warrant charging gross indecency, and was questioned at the Washtenaw County Jail. An arraignment was scheduled for this morning.

Whitlow had disappeared mysteriously from his home in the middle of the night last Oct. 16.

His body was found weighted by a cinder block in a creek near Huron with rope burns around the neck.

Harvey said Nuss has been an employee in the federal prison system for five years and was assigned to Milan about a year ago.

Role Growing in County

Family Cars in Boom

(Special to The Press)
NEW YORK — The family car has been having a greater effect than usual on the Oakland County economy during the last few years.

Car registrations have increased in number as local residents, with more money available to them than in the past, have gone in for new models in a big way.

At the same time, more and more families, especially those that include teen-agers, have become two-car owners.

The net result is that there are more automobiles around than ever before.

In the aggregate, the cars represent a considerable expenditure, from the standpoint of cost as well as maintenance.

MAINTENANCE COSTS

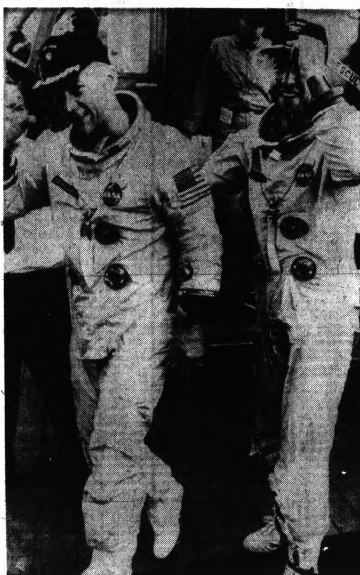

The amount spent in local service stations alone in the past

year, for gas, oil, repairs and the like, came to no less than \$106,337,000.

The figures on auto population and cost are from the Standard Rate and Data Service. Its survey gives comparable data for all sections of the United States.

It shows that there were 159 passenger cars in operation in Oakland County for every 100 families at the beginning of this year, a higher ratio than in many areas of the country.

Factors that have contributed to the increase in the car population are the better roads that are now available, the greater dependence on the automobile for transportation, now that more people are living in suburban areas, and today's bigger incomes, which have brought car ownership within the reach of most families.

AP Wirephoto

SMILING SPACEMEN — Happy astronauts Buzz Aldrin (left) and James A. Lovell Jr. emerge from a helicopter on the flight deck of the carrier Wasp yesterday, a half-hour after they made a pinpoint landing in the Atlantic southeast of Cape Kennedy, Fla., to successfully end their four-day Gemini 12 space mission. (Other picture, page A-2.)

Judge Refuses Injunction to Half County Sewer Pact

A bid by a group of Avon Township and Rochester residents to stop the Oakland County Department of Public Works from signing a contract for the proposed \$33.3-million Clinton-Oakland Interceptor was stalled yesterday.

Circuit Judge Arthur E. Moore refused to issue an injunction to stop the DPW from signing contracts for the giant interceptor.

The hearing was continued, however, until after the contract is signed at which time Moore said he would accept evidence to determine its validity.

While no injunction was issued during the 45-minute hearing, the mere fact of suspended litigation could keep the county from selling bonds to finance the project.

County DPW Director R. J. Alexander said at a meeting in Avon Township last month that the Michigan Municipal Finance Commission might withhold its approval for such a sale if litigation were pending.

Alexander said yesterday, (Continued on Page 2, Col. 6)

UAW Looking to Bargaining

DETROIT (AP) — In the wake of two thumping defeats — in the Michigan elections and in the AFL-CIO Executive Council — President Walter P. Reuther of the United Auto Workers is setting the machinery in motion early for hard-nosed, we-win contract bargaining next year.

The 26-member UAW International Executive Board currently is holding a week-long session in Detroit, more than seven months in advance of opening of new contract bargaining with the auto makers.

A board member said yesterday, "There is free-wheeling discussion on all phases of negotiations."

Another source said the board also was "rehashing what happened in the last election and how we can live with the new Congress."

Weatherman Sees Only Blue Skies

Another pleasant day is coming our way.

The weatherman predicts partly sunny tomorrow with temperatures mild. Tonight's low will be 40 to 45. Temperatures are expected to continue warm Friday.

Southwesterly morning winds at 10 to 20 miles per hour will become 6 to 14 miles tonight.

Thirty-nine was the low mercury reading prior to 8 a.m. in downtown Pontiac. At 2 p.m. the recording was 53.

Growth Taken From Throat; Scar Repaired

Within a Half-Hour
Afterward, Johnson
Writes Questions

WASHINGTON (AP)

President Johnson underwent double surgery today, a growth removed from his throat was pronounced "clear-cut" free of cancer, and within half an hour after the operation he was writing questions for his doctors on the back of medical forms.

Even as surgeons turned to the repair of a rupture in the existing surgical scar on the President's side, experts were in a room adjacent to the Bethesda Naval Hospital operating theater, examining the polyp clipped from the edge of his right vocal cord.

Their verdict: It was not malignant.

Dr. James C. Cain, long a personal physician to Johnson, said it was "clear-cut" benign.

White House Press Secretary Bill D. Moyers said Johnson was in the operating room about 53 minutes, from about 6:27 a.m. until 7:20.

FORCES USED

Moyers said it took Dr. Wilbur J. Gould 17 minutes to remove the polyp, using forceps inserted through Johnson's mouth.

Then Dr. George A. Halbenbeck, assisted by Dr. James P. Osborn, took over, repairing the incisional hernia that erupted at the site of gallbladder surgery — conducted at the same hospital just 57 weeks ago.

That phase of the operation took 19 minutes.

Moyers said preparatory work and other routine tasks accounted for the remainder of the time in the operating room.

DRINKING LIQUID

Moyers said Johnson would be drinking liquids later today, and would be able to use his voice when essential. But he said the doctors want voice usage — which Gould blamed for the polyp in the first place — held to a minimum.

And the doctors have told Johnson he can make no formal speeches for four to five weeks. During those weeks, Moyers said, the President will be experiencing discomfort from the swelling in his throat.

Polyp Large; Bursitis Found in Shoulder

WASHINGTON (AP) — About the only surprise that developed regarding President Johnson's condition aside from the finding that his throat polyp was a little larger than expected was the disclosure that he has bursitis in his shoulder.

But apparently he suffers from the least painful and motion-improving form of the ailment, because his doctors said his condition — diagnosed yesterday — is "bursitis without calcium."

Bursae are cavities filled with fluid and located between surfaces that glide over each other in various parts of the body, such as the shoulder, the knee and other joints. Their normal function is to prevent friction.

The condition known as "bursitis" can develop when these sac-like areas are injured or become infected.

One of the most important bursae in the body is in the knee region, and if this one is injured or infected, it can cause the condition known popularly as "housemaid's knee."

CHECKS THE MAIL — President Johnson goes over some of his mail and other material in his bed today at Bethesda Naval Hospital in Bethesda, Md., only hours after he had undergone surgery. At his bedside are Mrs. Johnson and his youngest daughter, Luci Nugent.

2 Trains Collide in Brazil, Leaving 30 Dead, 200 Hurt

RIO DE JANEIRO (UPI) — A crowded commuter train collided with a passenger train south of Rio during the morning rush hour today. First reports said at least 30 persons were killed and more than 200 injured.

Police made the estimate of casualties and said they were likely to rise as rescue crews searched through the wreckage of the two trains.

The engineers of the two trains were among the dead. Police said the accident occurred about 25 miles south of Rio at Olinda Station.

It said two of the six cars on the commuter train were destroyed in the crash.

CALLED TO SITE

Police, firemen and army troops were called to the site of the accident.

The injured were being taken to two state hospitals in Rio.

Police said the commuter train was headed toward Rio from Nova Iguaçu, some six miles to the north of the site of the accident.

The second train was headed from Rio to the terminal at Nova Iguaçu to begin a commuter run.

Commuter trains coming into the city each morning are packed with workers.

Younger riders often hang on the steps outside the cars when there is no room inside.

"Those kids didn't have a chance, just like the engineers didn't," a spokesman for the railroad, the government-owned Central Brazil Train Co., said.

Trains in both directions were using one track today because a second track was flooded by rains that have been falling on Rio for the past week.

Czechs Hold Yank; U.S. Mulls Action

WASHINGTON (AP) —

The State Department says it is pondering what further action to take in the case of an American travel agent arrested by Czech authorities on spy charges.

The department identified him as V. J. Kazan, 42, president of the Harvard Travel Service in Cambridge, Mass., but an official of the travel agency said he uses the name Kazan-Komarek.

It said the Czech Foreign Ministry told the U.S. Embassy Nov. 3 that the arrest was made under a warrant issued in 1943 on charges of high treason, espionage and attempted murder.

KAZAN

Harvard Travel Service in Cambridge, Mass., but an official of the travel agency said he uses the name Kazan-Komarek.

It said the Czech Foreign Ministry told the U.S. Embassy Nov. 3 that the arrest was made under a warrant issued in 1943 on charges of high treason, espionage and attempted murder.

'Odds Huge in Gas Game'

Committee 'Wins' \$7
With 625 Envelopes

LANSING (AP)—A legislative committee has "won" \$7 in an oil company game, but only after the equivalent of 625 stops at a gasoline station.

And committee members' questions directed at gasoline retailers Tuesday indicate some of them thought the games are stacked against the players.

Rep. George F. Montgomery, D-Detroit, said his special committee on promotional merchandising devices obtained a box of 625 envelopes used by Shell Oil Co. in its "American" game.

Each envelope contains half of a make-believe bill, either \$1, \$5, \$50, \$500 or \$1,000. To win the money, a Shell customer must get two halves of the same bill. Then he is paid the face value of the bill.

OPPOSITES MISSING

Montgomery said the committee's box contained 214 halves of \$1,000 bills—but they were all right halves. It also had 104 left halves of \$500 bills but no rights, 104 right halves of \$50 bills but no lefts, and 102 right halves of \$5 bills but no lefts.

He said the committee found 94 left halves of \$1 bills and seven right halves.

"Apparently you print more \$1,000 come-ons than you do \$1 come-ons," Montgomery told Shell official Earl Rossier.

"If this box you got is a typical box," Rossier replied, "I honestly do not know if it is."

ALL CRITICAL

Representatives of four major oil firms and five gasoline dealers testified at the committee's fourth hearing Tuesday. All five dealers were critical of the promotional games offered by the gasoline wholesalers.

Montgomery said he thought all the oil companies expected to increase their share of the U. S. gasoline market through competing games, and he pointed out this is impossible.

"Somebody's got to get lost in the shuffle," he said, "or else the consumer is going to end up paying for this in the form of higher gasoline prices."

W. R. Worthley, a Sunoco dealer and president of the Michigan Retail Gas Dealers Association, said the games cost him money, take up his time profitlessly and even make some of his customers mad.

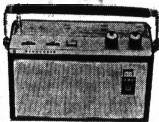

PUBLIC FED UP

"The public right at the present time is getting a little fed up," Worthley said. "People feel there aren't enough winners." Worthley said he spent \$250 for game materials to be passed out to customers and added he didn't think the game had increased his business enough to pay him back.

None of the dealers testified he raised his prices to absorb the cost of the game.

Sick Wife's Husband Appeals 1A Status

DETROIT (AP) — Tom Michalski, 34, who is 1A-qualified to enter military service immediately, has told his draft board he can't fight for his country because he's fighting for his wife's life.

The 22-year-old truck plant 23 spray painter is appealing the decision of Selective Service failure Sept. 9, five days after Board 303 in suburban Warren their first wedding anniversary.

To stay alive, doctors said, Mrs. Michaels must have her blood filtered twice a week, on an artificial kidney machine.

To pay for the hospitalizations while her blood is cleaned, Mrs. Michaels said her husband must work.

The young couple hopes to avoid a hospital bill of \$10,000 a year by buying their own, \$6,200 artificial kidney. Michaels would be trained to operate the machine. He already has made a \$1,200 down payment on the machine.

Switch at School

LOUISVILLE, Ky. (AP) — Georgiana and Gergette Retter, who are 12-year-old twins, recently added a bit of confusion to their school. Each answered roll call in the wrong class.

Asked why, the twins explained that "we liked the other's teacher better than our own."

So they switched without bothering to mention it.

GM Smog Devices Are Defended

LOS ANGELES (UPI) — A General Motors engineer yesterday defended the smog devices of 1966 and 1967 model GM cars, turning a state report that some new cars fail to meet state clean air standards as "premature, at least as far as GM products are concerned."

Max Roensch, executive engineer in charge of emission control liaison of the GM engineering staff, said tests at the company's laboratory in El Segundo indicated GM cars meet California standards.

He said automotive engineers felt California technicians have made procedural errors in analyzing the data gathered so far in the state tests.

A Dirty Remark

Norman Buckner

With the passing of NORMAN BUCKNER, the Pontiac area loses a sterling citizen, a keen business mind and a generous supporter of many civic and welfare causes.

Born in Michigan, Mr. BUCKNER had been a local resident for nearly half a century. During that period, he established many real estate and consumer finance enterprises, and at the time of his death he was identified with a link-up of 17 such businesses.

Mr. Buckner was honored repeatedly by both state and national associations represent-

ing consumer finance, serving five different terms as president of the Michigan body and for 10 years as a board member of the national organization. He also founded the State Association of Small Loan Companies.

No one enjoyed life more fully than Mr. BUCKNER. Always athletically-minded, he indulged in skating, swimming and fishing; though it was to golf that he gave top priority. He also found relaxation in roaming his model farm situated on the outskirts of Pontiac.

A host of sorrowing friends and associates may find comfort in the knowledge that NORMAN BUCKNER's years extended well beyond the Biblical allotment and were marked by a full measure of fulfillment and service to his fellows.

Gemini 12 Sets Stage for Lunar Landing

After four days in the air, Gemini 12 climaxed the 2-man series of Gemini flights with an on-target splash-down yesterday afternoon, after accomplishing virtually all of its objectives and setting many new records.

The \$1.35 billion Gemini project now bows out in favor of the 3-man Apollo series of flights programmed to begin a year from now with the goal of landing Americans on the moon and returning them by 1969.

Veteran Gemini traveler James Lovell and freshman Edwin Aldrin maneuvered their craft with consummate skill, taking in stride and correcting

the occasional operational problems that inevitably arise in a vehicle so complex as a spacecraft.

There is glory a-plenty for all who had a part in the steady progress of our space design: the National Aeronautics and Space Administration that developed the space concept; the superb astronauts who flew the missions; the army of scientists and technicians who conceived, launched and directed the craft.

America may well be proud of the spirit and determination of her sons who have taken such giant steps in unlocking the mysteries of outer space.

Neglect of Cargo Ships Imposes Stern Penalty

Not so long ago, the argument was seriously advanced in leading publications, as well as by armchair strategists, that America in this nuclear age no longer needed a Merchant Marine, so far as any national emergency was concerned. They believed that a nuclear conflict would be resolved before plodding merchant ships could clear a harbor.

But once again, as in World Wars I and II and Korea, it has been discovered the hard way that a first-rate Merchant Marine and sea power are essential to national survival.

At the present time, sea power is supplying 98 per cent of all logistical support to the Viet Nam theater of war and a high percentage of personnel. The

task has been accomplished with the help of obsolete ships taken from reserve fleets — ships of World War II vintage. Reactivation costs of these ships have been high, averaging \$400,000 each, and frequent breakdowns have been experienced.

All of this has happened because the pattern of disregard for the Merchant Marine, that always seems to follow a war, has taken a heavy toll. In the prophetic words of a spokesman for the Committee of American Steamship Lines, "... American shipping is a key to our national security ..."

The nuclear age has not dimmed the truth of that statement.

Manila 'One of Those Things'

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON — The Manila peace conference looks like ancient history now. As a result of it, peace is no nearer and, so far as can be seen, it won't be. It just looks like one of those things.

And now, less than a month after the conference, hardly a word is heard about it. The Communists of North Viet Nam and China have ridiculed all American peace proposals as double-talk, including the one at Manila.

U.S. talk of peace down the months, and now the years, has been repeatedly vague, which is understandable. By being less than absolutely precise, the United States leaves itself room for maneuver if peace talks start.

This was repeated in the October communique put out at Manila by President Johnson and the six men who met with him there, the leaders of Asian and Pacific nations who are involved on the American side in Viet Nam.

Since the United States has not won the war, it is not in a position to impose peace terms, unmistakably clear. It can only suggest some. If it could impose terms, there would be no need for vagueness.

STARTING POINT

So far, the United States has been simply trying to get North Viet Nam started in

discussing peace. The settlement would have to come out of the talks.

At Manila, the seven agreed the allied forces in South Viet Nam would be withdrawn "as the other side withdraws its forces to the north, ceases infiltration, and the level of violence subsides."

"These forces will be withdrawn as soon as possible and not later than six months after the above conditions have been fulfilled."

The communique didn't say whether the North Vietnamese and the Viet Cong would have to withdraw to the north. It said the other side would have to cease "infiltration" without explaining whether this meant North Viet Nam and the Viet Cong.

ON WITHDRAWAL

And it said allied forces would be withdrawn only when violence subsided, without saying whether violence by North Viet Nam or the Viet Cong or both.

But the implication seemed plain enough: that the allies would pull out until the North Vietnamese and the Viet Cong stopped molesting South Viet Nam.

And the communique was vague on who would decide when violence subsided. Obviously, only the allies would decide and that gave them a lot of time and a big loophole on just when they thought violence had subsided enough to get their forces out.

The allies would hardly leave it up to the North Vietnamese for the Viet Cong to tell them when violence had subsided.

David Lawrence Says:

LBJ Crime Bill Veto Inexcusable

WASHINGTON — President Johnson had a chance this week to start a constructive movement throughout the country to deal with crime. But he passed it by.

This may plague him in the election campaign two years hence when it seems LAWRENCE certain the administration will have to face the country on what it has done or failed to do about the tremendous increase in the crime rate in the United States in recent years.

Since the District of Columbia is governed by the president and Congress, his handling of local problems could serve as an example to the rest of the nation.

The President had before him a bill that would have helped the police to deal with crime, but he vetoed it. The excuse given was that some phases of it are unconstitutional.

This question often is raised as to legislation. Strangely enough, however, when civil rights measures have been before the President in the last two years, he didn't worry about objections on constitutional grounds but took it for granted that the courts would draw the necessary distinctions between lawful and unlawful paragraphs in a law.

DENOUNCED BILL

Instead, therefore, of giving the district crime bill a chance, the President not only vetoed the measure but denounced it. He said that better-trained and better-paid policemen are necessary. But, though he has had plenty of time to work out a plan, no legislation has been passed to provide such improvements.

There were, to be sure, many criticisms of the crime bill, but any defects in it could readily be taken care of later by amendments, and at least a start toward crime prevention would have been made if the President had signed the measure.

The police here are discouraged by the President's action. Police Chief John B. Layton said he was "disappointed, of course," by the veto.

The problem of supporting the efforts of police to see that criminals are punished is nationwide. In New York City

in a referendum last week, the people voted overwhelmingly against a civilian review board that, it was believed, would have impaired the morale of the police force itself. The same kind of issue has been up in other cities.

EXCELLENT CHANCE

The President had an excellent chance to show the nation that in the capital of

the United States crime would be dealt with effectively.

Ambiguous clauses in the law could have been decided in the courts, but at least there would have been a considerable moral effect by enactment of the statute. Instead, law enforcement has suffered a real defeat.

(Copyright, 1966, Publishers Newspaper Syndicate)

Bob Considine Says:

Big Part of Work Done on Future Space Feat

NEW YORK — Next — Project Apollo.

For a price tag of about \$25 billion it proposes to plant a couple of astronauts down on the moon's surface for about 14 hours, some nice day in 1968, '69 or '70, and bring 'em back alive a couple of days later.

This mission will pale into comparative insignificance all previous American space voyages from the up-and-down suburban flight of Alan Shepard to the trip of astronauts Lovell and Aldrin — as well as the first earth-orbiting three-man flights of the early Apollo trips.

A great deal of Project Apollo's \$25-billion budget has already been spent.

It is hard to believe, but most of the engineering and design work is finished — and has been finished for some time.

Hundreds, maybe thousands, of skilled workers have been laid off, their jobs done — even though the project won't bear its full fruit for several more years.

RIGHT MOMENT

Incidentally, we've heard much about the difficulty of getting to the moon but comparatively little about the problem of getting back.

The two lunanauts must launch themselves off the moon's surface at precisely

the right moment in order to hook up with the moon-orbiting command post and start for home.

Home won't be easy to get into. The Apollo reentry speed will be 25,000 mph.

That 3-man capsule will be asked to stop on a dime, so to speak. Otherwise, it will clobber us like a meteor.

QUITE A TASK

Slowing it down to landing speed in that comparatively thin layer of goo we call our atmosphere has been compared to the difficulty of plunging a knife into an apple with all one's strength and then stopping the point of the blade before it has quite penetrated the skin!

You think you've got troubles?

Reviewing Other Editorial Pages

Travesty

Washington Evening Star

A 17-year-old youth, according to a statement he made to the police, set fire last December to the Jewish Community Center in Yonkers. He was seeking a "thrill." Twelve persons died in the fire, and the youth was indicted on a first degree arson charge and for first degree murder. But it looks now as though he may go free.

Judge Robert E. Dempsey, sitting in Westchester County court, has ruled after listening to tape recordings of the interrogation, that the police did not give the suspect the warnings spelled out by the Supreme Court's 5 to 4 decision last June in the Miranda case. Of course the warnings were not given. How could the police have known in January, when the questioning took place, that the Supreme Court would drastically change the rules in confession cases six months later?

Nevertheless, Judge Dempsey, having no choice, has ruled out the confession. One "fragment" of evidence remains. The youth also made

Voice of the People:

Reminds Drivers to Use Lights in Foggy Weather

When are drivers going to realize the necessity of turning on their headlights while driving in foggy weather? This is especially important for oncoming traffic and even more so for the drivers about to pull out into the mainstream of traffic.

It would be interesting to learn how many automobile accidents, occurring on foggy days, involve vehicles without headlights turned on.

Waterford Road Conditions Said Very Bad

Just want to put my 2 cents in; agree fully with the other Waterford Township resident — what is a road scraper? We have holes a foot deep on our road. I wonder what they do with the money that is supposed to be used on our roads for upkeep?

They haven't put gravel on the roads out here at Williams Lake Subdivision for so long, we have forgotten when it was done.

MRS. CLARA PENNY
DRAYTON PLAINS

Straight Answer Got a Vote for Romney

One big reason I voted for Mr. Romney was that when he was asked why something wasn't done about the law against striking city or state employees, his answer was "The judges would not enforce or interpret the law and he was powerless." A straightforward, honest answer if I ever heard one.

MRS. LUCILLE BROWN
4618 LINWOOD DR.

Increases in CIO Dues Cause Complaint

What is the CIO producing that the price of membership should be raised each month? They started with one dollar a month. Now, how much? Multiplied by how many million per month?

Are there other organizations where they pay the president more than the president of the U.S.? If the non-thinking brothers of the C.I.O. don't wake up, they will have to draw money out of the bank to pay for the privilege of working. The money the Union has on deposit now, with the interest banks are paying would be plenty without dues at all. I am surprised at the C.I.O. officers who ask each retiree to sign so that they can collect one dollar a month of each retiree's pension. Don't they want to cut in on the so-called security checks too?

There are poor people that cannot afford to buy medicine that have signed to have that dollar taken away to tell them how to live. There are too many dollars taken away already. Where will it end?

The Better Half

"Would you tell your husband to slick up his hair, put on a tie and please come to the door?"

Foreign Aid

The National Observer

The word "involvement" gets pretty steady use on American campuses these days, as in, "The student today has a greater sense of involvement," or, "I must strive for involvement in the world around me." Their elders tend to sneer and sometimes wonder if these youngsters aren't getting too involved in the wrong ways.

That's what makes the letter from one American student so impressive. He wrote from Florence, Italy, to friends at Stanford University: "I feel a real sense of involvement, but more, a terrible sense of loss and an incapacity just to plod on doing ordinary things when so much else has to be done."

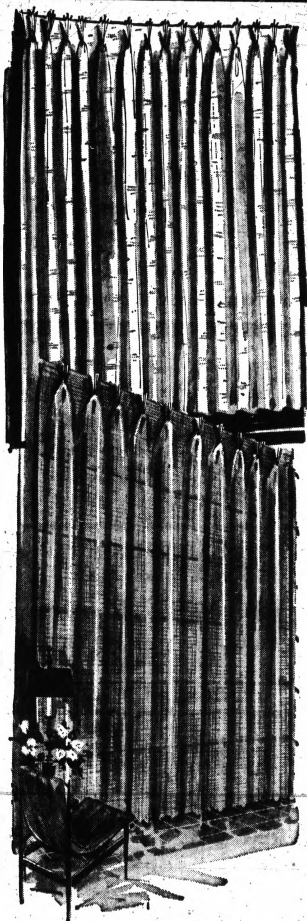

The deputy mayor of Florence said of American students in his city: "There are just a few hundred of them, but they seem to be thousands." It was a compliment. Back in the United States students organized campaigns to raise money for the stricken city.

These young Americans don't toss the word "involvement" around lightly. They are touched by the loss of life and shelter a continent away from their permanent homes. They know that disaster imposes special duties on those who can help. Last week they were teaching a good lesson on involvement.

LBJ's Name Pops Up

Baker 'Bugging' Aired

WASHINGTON (AP) — The But Baker said there must have been more names of Lyndon B. Johnson and several top political figures pop up in transcripts released by the government of "bugged" conversations involving Bobby Baker.

But the government says the role of Baker, longtime Senate Democratic secretary, in the conversations was only coincidence and that the eavesdropping had nothing to do with his indictment for tax evasion, grand larceny and fraud.

FBI Director J. Edgar Hoover said in an affidavit presented to federal court Tuesday that the 34-page transcript covered all the Baker conversations on an investigation into organized crime which the FBI eavesdropped.

Second Booster Tested Today

HUNTSVILLE, Ala. (AP) — The Chrysler Corp. hopes to follow the lead set by the Boeing Co. and successfully test-fire a moon rocket booster today.

Boeing tested its Saturn V booster, the United States' most powerful rocket, Tuesday, firing it on a mount for 127 seconds. Initial indications were that it was a completely successful test.

Chrysler takes over the Marshall Space Flight Center test area today to try to duplicate the feat with the smaller Saturn booster. The Saturn V develops 7.5 million pounds of thrust.

'Grosse Pointes a Middle Class Ghetto'

DETROIT (AP) — The suburban Grosse Pointes, home of many of Detroit's affluent leaders, is charged by a panel of religious and educational leaders with being a "middle class ghetto" where "divorce and alcoholism run rampant."

The panel said Tuesday the area was segregated "socially, racially, politically and economically."

"Families in Grosse Pointe present their children with clothing, shelter and a religious education," said the Rev. Franklin Bennett of Christ Episcopal church in Grosse Pointe.

DEFEAT CHILDREN

The trappings of success surround Grosse Pointe children, and defeat them, said Dr. Armin Grams, a staff member of

Detroit's Merrill-Palmer Institute, which specializes in child guidance.

"They realize they have no hope of attaining in terms of status symbols—the success of their parents," he said. "They are likely to say, 'What's the use?'"

Hugh Riddleberger, headmaster at Grosse Pointe University School, a private school, said Grosse Pointe youngsters were not doing well on college admission interviews.

"And classes that ought to be alive and vibrant and full of spark of vigorous give and take are dead because children will not, or cannot, speak of their differences," he said.

DISCUSSION

The panelists discussed "The

Grosse Pointe Child" for the Junior League of Detroit, a women's group.

The suburban area, bounding broad, tree-shaded, manicured lawns.

It is predominantly white, a Republican party stronghold and an area of palatial homes amid

Detroit's East Side, consists of the communities of Grosse Pointe, Grosse Pointe Park, Grosse Pointe Shores, Grosse Pointe Farms and Grosse Pointe Woods.

Firing Protested

WARREN (AP) — Some 350 United Auto Workers failed to report for afternoon shift work for the second straight day Tuesday at the Dodge truck plant in Warren. The workers were protesting the firing of a union steward. Day shift workers continued on the job.

The Case of the Disappearing Aid—3

Cong Tentacles Reach Throughout S. Viet Countryside

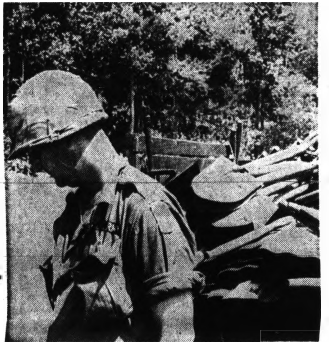

(EDITOR'S NOTE: This is another in a series of articles on graft, payoffs and diversion in Viet Nam, based on an exhaustive study by an AP reporting team.)

By FRED S. HOFFMAN
SAIGON, South Viet Nam
A Rounding a bend, the Vietnamese driver wrenched his old truck to a slithering halt in a cloud of red dust. Five black-uniformed men blocked the road.

The driver climbed wordlessly from his cab. Arguing with the Viet Cong could be fatal. A few minutes later, the truck rolled on again, lighter by 20 bags of rice. The bags, emblazoned with the red, white and blue handclasp insignia of U.S. AID, already were disappearing into the jungle on the backs of bearers.

Some 25 miles from this Viet Cong "tax collection" road block, a white-shirted youth walked into a Saigon pharmacy and bought a bottle of antibiotic tablets.

NO QUESTIONS
No questions were asked. The youth didn't have to present a prescription. He simply pocketed the pills and left. In time, other kinds of wrongful wheeling and dealing in the Viet Nam war have been costing U.S. tax-

CACHE UNCOVERED — An American soldier stands alongside an ox cart loaded with shovels manufactured in Formosa and imported to South Viet Nam under the U.S. aid program. The Viet Cong make a special effort to obtain U.S. gear of this kind.

zzzzing!

Arrow Vodka puts more zing in your drink!

You may not taste the Arrow—but you'll know it's there. Arrow Vodka transforms a plain Martini, Bloody Mary, or Screwdriver into a zzzzzing drink! What's the secret? Arrow is filtered once to make it vodka—then whirled to perfection by a special process to make it Arrow. So z rays follow the Arrow to better drinks.

80 AND 100 PROOF. DISTILLED FROM GRAIN. ARROW LIQUEURS COMPANY, DETROIT

payers at least half a million dollars a day.

U.S. officials recently acknowledged the diversion of American AID goods to the Viet Cong. They say there is no way to pinpoint, or even estimate, the dollar value of the losses.

VANISHING POINT

This is because much of the goods pass into Vietnamese commercial channels and U.S. controls diminish almost to the vanishing point, except for some spot checking. Vietnamese civilian trucks hauling food, fertilizer, building materials and other AID goods travel the roads unescorted. Thus, they are wide open to Viet Cong extortion.

"Unless you put a military guard on every convoy, you can't stop the VC shakedown," said one American military enforcement officer. "And if we did that, we wouldn't have enough men to fight the war."

The Vietnamese police and armed forces do not provide protection for most of the truck traffic outside the cities, though they have established checkpoints along key routes.

DIFFERENT STORY

It's an entirely different story where military arms, ammunition and supplies are concerned. The U.S. forces maintain a very close guard over their gear in transit or in depots.

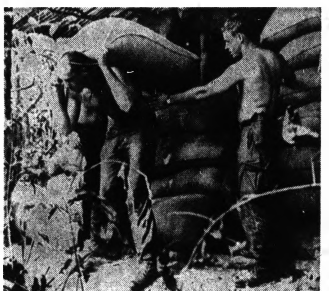

And American military authorities say they have found no evidence of any significant amount of U.S.-supplied arms or equipment finding its way to the Viet Cong through connivance of the South Vietnamese military. Back when the South Vietnamese army was doing most of the ground fighting, the number of weapons lost to the Reds just about balanced the number taken from the Viet Cong.

EDGE TURNED

But with the big U.S. troop buildup, the edge turned against the Communists by a 2-1 margin in the first half of 1966. The drainoff of drugs and food to the Viet Cong is another matter.

"There are many chances of leakage to the Viet Cong and medicines represent one of the most serious leakages of all the commodities we pay for," said a top official of the Agency for International Development. Lt. Gen. Jonathan Seaman, a

top field commander, said medical supplies found in Communist caches often bear American brand names. There is no way of knowing how they got there, he said. They could have been stolen from AID or military stockpiles, smuggled from Cambodia or Europe, or just bought over the counter in Saigon.

RICE RECAPTURED — GIs haul rice out of a metal-covered shed near the South Vietnamese-Cambodian border. The rice was obtained by the Viet Cong, probably at VC highway checkpoints, as a form of taxation. It's typical of U.S. material ending up with the VC.

AID authorities claim to have tightened up a great deal on the shipment of drugs to Vietnam. The U.S. military says its supplies are guarded and their usage monitored.

The major weakness appears to be the virtual lack of any drug controls under Vietnamese law — and the failure to enforce the few that exist, according to U.S. military police authorities.

DOUBLE LOCK

Aheard said that strong drugs are kept under double lock in U.S. military hospitals and supply depots, but that "inevitably, there is some pilferage by civilian workers."

SOURCE OF WORRY

The ease with which all kinds of drugs — including antibiotics — can be acquired in Viet Nam is a source of worry to military doctors, such as Capt. Arthur M. Ahearn, who served with the Special Forces before being shifted to Ft. Bragg, N.C.

Ahearn said the Viet Cong gets some of their drugs from the black market — but that pharmaceuticals are cheaper

and more accessible to the opening market. "In Viet Nam, you can buy penicillin, streptomycin and tetracycline, a powerful antibiotic, in drug stores without a prescription," Ahearn said.

The Army doctor said the VC especially needs powerful anti-infection drugs like tetracycline, which he called "an excellent drug for abdominal infections caused by wounds and sickness."

At field dispensaries, Ahearn said, the Army has found it necessary to search all Vietnamese civilian workers before allowing them to board planes back to the cities.

"Sometimes they try to conceal things like surgical instruments," the Special Forces medic said. "Things like this on shelves are easy to get to in a warehouse or a dispensary."

ONE OF THE DIFFICULTIES IN CURB-

ing the drainoff of rice, cooking oil and other commodities to the VC lies in the practice of channeling this aid through Vietnamese commercial outlets.

(NEXT: Life in the Provinces)

The starfish is among the most destructive animals within the tidal zone. It destroys thousands of dollars worth of clams and oysters each year.

DeWitt's Pills

Weeks Of Back Pain Now Relieved

"After weeks of pain in my back and hips, I tried DeWitt's Pills—got wonderful relief," says Mrs. R. Gardner, Waterloo, Iowa. DeWitt's Pills act fast with a proven analgesic to relieve pain. Their mild direct action helps eliminate retained fluids and flush out irritating bladder wastes. If pain persists, see your doctor. DeWitt's Pills often succeed where others fail, relieve minor muscle aches, too. Look for the genuine DeWitt's Pills. At all drug counters.

Planning Recommendations Considered by Commission

Several planning commission recommendations were taken under consideration last night by the City Commission.

The commission denied commercial-1 rezoning for the northeast corner of Telegraph and Hazel, which had been sought for a gasoline station.

Public hearings were ordered for Dec. 20 on an alley and two street vacatings. The actions were recommended by city planners.

The street vacating involves

City Affairs

a portion of Cass north of Orchard Lake, which was not included in the right-of-way for Wide Track, but is part of the urban renewal project area.

The vacating of Patterson, Saginaw to the former Cass right-of-way, is also part of the urban renewal area.

NEW ZONING

The alley is south of and parallel to Mount Clemens, Kenilworth to Cameron. The vacating is sought in conjunction with requested rezoning for property north of 541 Cameron.

A parking district is requested for the latter parcel.

A Dec. 13 hearing date was set for the rezoning request.

In other business last night, the commission approved contracts with appraisers John Mullis and Eugene Nosar for the appraisals of two urban renewal lots.

One lot is on the west side of Parkhurst between Pike and Chandler and the other is on the west side of Paddock between Willard and Wall.

TOTAL COST

The new appraisals are necessary before the properties may be sold. Total cost of the appraisals is \$650.

City Commissioner Robert C. Irwin urged District 2 residents to sign petitions now available for a new traffic light on West Huron at Dwight.

The old light was removed by the Michigan Highway Department after the installation of a pedestrian bridge across Huron at Webster School.

Irwin said efforts through administrative channels to have the light restored have been unsuccessful.

He claimed the light was necessary to facilitate traffic entering Huron and pedestrians crossing Huron.

Civic Chorus's 1st Meeting Set in Waterford

The Waterford Civic Chorus will hold its first organizational meeting this fall at 8 p.m. Monday in the vocal music room at Waterford Kettering High School.

Presiding over the meeting, during which a new choral director will be selected, will be Mrs. Roger Johnson, chorus president.

Plans for the forthcoming year also will be discussed at the meeting.

Waterford Township and area residents are invited to participate in the chorus. Further information can be obtained by contacting the township recreation department.

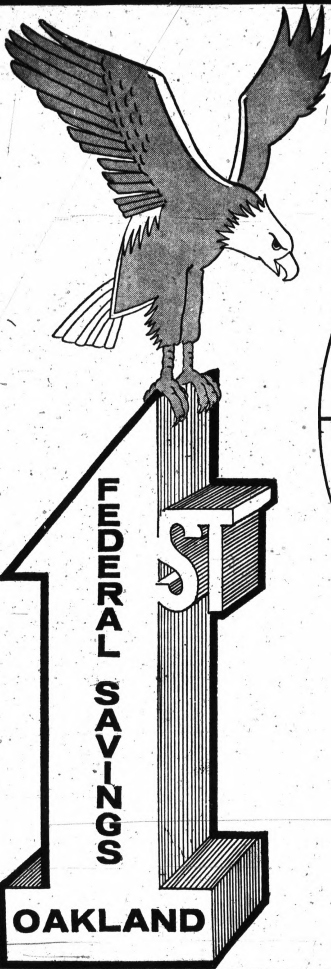

Orbiter Checked

PASADENA, Calif. (AP) — "It's just a matter of time now to find out if it's in the proper orbit," said one of the scientists controlling Lunar Orbiter 2's journey to photograph potential astronaut landing sites on the moon from as close as 28 miles.

Alfred J. Masini, East Highland Road, White Lake Township, is the first man to be elected vice president of Northern Oakland County Girl Scout Council. With him is Mrs. Albert Latendresse, Nichols Drive, the new council president. Elections were held at the annual meeting Tuesday.

Boyfriend Knows the Game Well

His Defense Is Offense

DEAR ABBY: My boyfriend stood me up last night. He didn't call me before work this morning to explain, so I called him later and he got mad at me for being mad at him for standing me up.

ABBY

He said I should have "understood." Tell me, what are the ethics in such a situation?

DEAR WITHHOLD: Your boyfriend has learned that the best defense is a good offense. It's bad enough that he stood you up, but if you could reach him by phone later, he could have reached you by phone to explain.

Lose him. Unless you are prepared to "understand" a lot of other things you can't understand.

DEAR ABBY: How can a good looking single girl get a fur coat?

PEGGY

DEAR PEGGY: Get a wolf and skin him.

DEAR ABBY: There is a lady in our neighborhood everybody calls "PRIVATE IDA" because she goes around like a detective inspecting everybody's trash. She's actually been seen going up and down the alleys looking into people's trash cans.

She told someone that she learns a lot about people that way. She knows who cooks nice meals, and who opens cans and serves TV dinners. She says she knows the beer drinkers, gin drinkers and wine drinkers. And how much they drink, too. What can be done about a busy-body like her?

A. NEIGHBOR

DEAR NEIGHBOR: Every neighborhood has its characters who provide comic relief. Enjoy them!

DEAR ABBY: My daughter is 34, has two children and has been a widow for five years. She is planning to get married again. Her fiancé is 40 and has never been married. He wants a big, formal church wedding with all the trimmings. Do we have to go through all that expense again?

It cost us over \$1,500 the first time, and we are old now and retired. And that would mean going into our life savings. I really don't know anything about how to do a second wedding. Can you help me?

NO NAME, PLEASE

DEAR NO NAME: Explain the circumstances to your clergyman. It can be a beautiful church wedding, but all the trills and formality (bride's veil, etc.) are inappropriate for the second time around.

If the groom insists on a lot of extras that would put a strain on your pocketbook, let him provide them.

DEAR ABBY: My wife and I

have been married for two years and already she is tired of me. She swears she still loves me as much as ever, but what am I supposed to believe when she tells me she wants twin beds?

We are moving from our small apartment into a little house and the question of a bedroom suite came up.

That's when she told me she wanted twin beds. Before we were married we agreed on a double bed, and she seemed satisfied. I have argued all I can. She insists that we will both sleep better in twin beds.

DEAR MICKY: If she swears she still loves you, what do you want, an affidavit? Remember you agreed on a double bed BEFORE you were married, so you can't blame her for not knowing your sleeping habits.

Maybe you snore, hog the bed or snatch the blankets. Quit arguing. Absence could make the heart grow fonder.

CONFIDENTIAL TO "UNDECIDED IN LEXINGTON:" If it is really love, it will last until you return. "Absence is to love what wind is to fire; it extinguishes the little and kindles the big." (Rabutin)

OU Center Helps Pinpoint Job

This is part III of a series on Oakland University's Continuum Center for Women.

By JEANNE NELSON

Mrs. Erwin B. Kolt (Margo) of Beverly Hills came to the Continuum Center for Women at Oakland University with a basic need—economics.

Having recently come to terms with widowhood, she now faced the reality of earning a living.

Now, through the guidance of the center, she is gainfully employed as a bookkeeper-receptionist for Dr. William F. Daines, a dentist.

Born in Canada, raised and educated in Germany, she was uncertain just what type of work her background had suited her for here.

NURSE'S TRAINING

In Germany, she had schooled as a children's nurse. This might be interpreted here as a trained practical nurse confined to pediatrics.

Following this line, she completed a course in practical nursing at Providence Hospital in Southfield and was asked to fill a vacancy there.

She explained in a rich German accent that unfortunately the job called for evening hours.

Elaborating, she told us that her daughter, Ingrid, carries an extra heavy load at Wayne State University, leaves early in the morning and returns only at dinner time.

Her motherly instinct would not permit her to accept the position. "Dinner time is the only chance the two of us have to talk over the day's events and plan for the future," she said.

She is most enthusiastic about Ingrid's plan to complete her studies for a degree in art education and teach in secondary school while doing graduate work in the evening.

Over our coffee (there is that certain something about German hospitality that warms the heart) Mrs. Kolt told us her impressions of the center.

She recalled that the testing part of the program seemed

quite impersonal but added that after the group discussion and psychological interview, she began to feel a real part of the program.

GAINED CONFIDENCE

"It gave me a feeling of confidence," she said, "knowing for a certainty that there were particular facets of work in which I could make a good showing."

Her tests showed a definite ability in the job area she has chosen, somewhat clinical. They also pinpointed her interests in music and art.

During her married years she sang in the "German Volks Theater." This was a kind of traveling light opera company with its base in Detroit but performing in surrounding areas.

Although she doesn't paint herself, her late husband did. A great many of his works hang throughout the home.

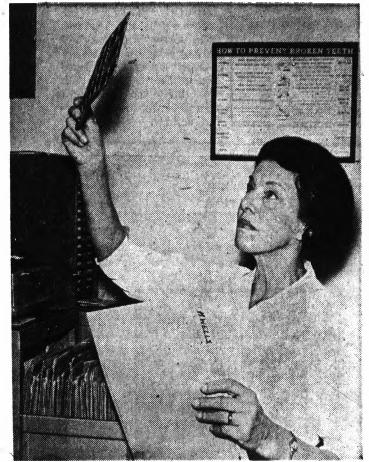

Making the change from homemaker (and she has always been content in this role) called for major adjustments.

Some of them are scheduling of time; adjustments in home routine; driving in bad weather and taking on unfamiliar responsibilities.

VARIED DUTIES

Her work for Dr. Daines covers a number of things: bookkeeping, appointment scheduling, X-ray developing and reading and often calls for assurance when children are involved.

She tells us that the doctor asked for her test results and was impressed with the scope of the center's program.

Pontiac Press Photo

Developing and reading dental X rays is all part of the job for Mrs. Brown B. Kolt (Margo) of Beverly Hills. She works for Dr. William F. Daines, Miracle Mile Shopping Center, as a receptionist and bookkeeper. Mrs. Kolt found, after taking the testing and counseling program at Oakland University's Continuum Center, that her interests and abilities lay in this direction.

Your Linens Obsolete but Replaceable

Club Group Gets Glimpse Into Future

By JANET ODELL

Pontiac Press Women's Editor

How many women, we wonder, have heavy damask linen tablecloths stored away—cloths they haven't used for years?

We plead guilty. It's just too much trouble and makes too much time to iron them. Modern tablecloths with stain resistant finishes and drip dry qualities are more attractive.

But a new tablecloth made of Fiberglas Beta yarn should take all the work out of laundering linen.

Fiberglas cloths drape well, come in a variety of colors and sizes, don't wrinkle and never need ironing.

Ordinary spills can be wiped up as soon as they occur. Grease spots and other stains need a little more attention. But usually a quick hand washing in warm suds will leave the cloth as good as new.

We talked with a saleswoman in a store linen department. She is enthusiastic about the new cloths. But she emphasized the need for carefully following directions about their care.

If plastic tablecloths offend you, perhaps Fiberglas is the answer. With the holiday season just ahead it's time to consider your table coverings.

Fred Ready and Jim Maitre of Detroit Edison were guests of the Junior Pontiac Women's Club Wednesday evening. They demonstrated the possibilities of a light, both cordless and plugless, that would hang from the wall like a picture.

They also predicted illuminated floors and walls and closets in which clothing is cleaned by sound waves.

In charge of the meeting at First Federal Savings of Oakland was Mrs. A. J. Cadieux. Pouring at the Thanksgiving tea table were Mrs. Edward Eickmeier and Mrs. Mert Jennings.

Mrs. George Brinkman, Mrs. John Sheehan, Mrs. Norman Smith, Mrs. Ralph Robinson and Mrs. Claire Hinckley served on the social committee.

Others were Mrs. Cecil McCallum, Mrs. Richard Bashore, Mrs. Donald Ely, Mrs. William Hanley, Mrs. Arthur Compton and Mrs. Eugene Wellman.

Great Flood Won't Deter

ROME (U)—The Italian fashion industry announced today it would go ahead with plans for its next showing of spring and summer fashions in Florence in January despite the flood damage to the city.

The schedule, fixed before the flood, has boutique displays there Jan. 12-16, to be followed by high fashion showings in Rome Jan. 18-21.

The National Chamber of Italian Fashions said it had been assured that enough first-class hotel accommodations could be ready in Florence for about 800 buyers and fashion writers who normally attend the showings.

Talk to Group

Mrs. Morton Jacobs and Mrs. Fred Peekart presented their program, "The Empty Nest" to the Waterford Child Study Club No. 1 Monday evening.

Mrs. William Freyermuth of Mohawk Road was hostess to the group. Mrs. Hiram Vrooman was their guest.

Calendar of Events

THURSDAY

Stiles branch, Woman's National Farm and Garden Association, 10 a.m., Troy home of Mrs. Ira L. Webb. After short meeting, the group will visit the Old World Market in Detroit.

Anna Gordon Union, Women's Christian Temperance Union, 10 a.m., First Baptist Church. Schoolgirl luncheon follows work meeting.

Friendship Circle, Welcome Rebekah lodge No. 248, noon, Albert Kugler home on South Roselawn Street. Co-operative luncheon.

Oakland Writers' Workshop, 1 p.m. YWCA. Fashion Year Figure Club, 7:30 p.m., Adah Shelly Library. Program on hobbies.

Marie Jones extension study group, 7:30 p.m., Irving Cooking home on Putnam Street.

Navy Mothers Club, 8:30 p.m., Naval Center.

Pontiac Hadassah, 8:30 p.m., Congregation B'nai Israel. This is the Nov. 2 meeting which was canceled because of bad weather. Rabbi Milton Aron of Detroit, speaker, and Shirley Monson, guest soloist.

Fiberglas Beta tablecloths in two colors—olive and aqua—cover the two tables in this buffet setting. The rest of the appointments have an Oriental slant. Similar tablecloths are available in the area.

An interesting way to put color on the table is to use one Fiberglas Beta cloth over another; above, it's pale amber over white. Napkins are a deep apricot shade. The fruit-and-flowers painting was the inspiration for the centerpiece.

AUTOMATIC ACCURATE

Gravity... nature's most constant source of power... activates the mechanism of the Omega Seamaster. An ingenious pendulum-like rotor converts every motion of your wrist into power... power which keeps the winding wound to a level of peak efficiency. Seamaster doesn't need hand-winding or power-cells which require periodic replacement. Just set it and forget it. The revolutionary one piece case design gives slim-silhouette distinction and maximum protection from the hazards of water, dust and grime. Lightward with oil coating \$2000 (to virtually eliminate friction), and checked at 1497 manufacturing stages... even Omega Seamaster is made for a lifetime of proud possession.

Calendar Tree for Advent

By JOANNE SCHREIBER
Newspaper Enterprise Assn.
The Advent calendar for many children is a part of the Christmas season as beloved as the stocking on the mantel. The 24 tiny peepholes, opened one by one each morning from the first of December to Christmas Eve, help youngsters count the days to Christmas. The calendar itself contributes to the wonderful expectancy of the season.

Here's a suggestion for a permanent Advent calendar. Make it of felt, to be hung as a year-after-year family tradition, with ornaments that move aside to reveal pictures cut from last-year's Christmas cards.

Move one ornament a day, till the most beautiful picture of all is revealed at the top of the tree.

FELT TREE

To make the calendar tree, you'll need one yard each of white and green felt (72 inches wide) and 1/4-yard red felt.

For trimming, you'll need 3 yards each of emerald green, almond green and red rickrack, plus 7 1/4 yards of gold metallic rickrack. Add 5 yards of red soutache braid, red and green thread, 24 large snaps and some glue to complete the list of ingredients.

Cut out the white felt for background to measure 36 inches by 82 inches. To make tree, fold green felt to 18-inch width.

Measure 16 inches from center fold and mark. Measure 46 inches up from base along fold and mark.

Draw diagonal line from mark on fold to mark on raw edge. Cut along line, to make a triangle 32 inches at base and 46 inches high.

To make the base, cut a flowerpot shape as pictured, measuring 12 inches along the top, 8 inches along the bottom and 6 inches high.

Put 24 red circles of 3-inch diameter, and 24 white circles of 2 1/4-inch diameter.

TRIM
To trim tree base, interlock strips of green rickrack and stitch in place 1-inch from top and bottom of tree base.

Center tree base 4 inches from bottom of white background piece and stitch in.

place. Center tree along top of tree base, matching center folds of tree and background piece.

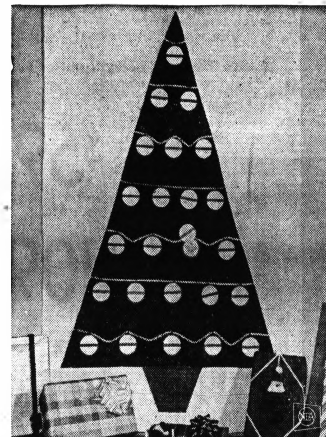

Top of tree should come to 6 inches from top of background. Pin and stitch in place.

Sew large snaps to top of each red circle. Glue in place. (If you want to sew red circles in place, this should be done before the tree is stitched to the background piece.)

Cut out 24 Christmas scenes to fit in red circles. Tape in place.

To make white ornaments, trim white circles with interlocking strips of rickrack in red and green.

Cut 24 pieces of red sou-

Here's a new approach to Christmas decorations — a decorative wall-hanging with ornaments that move to reveal Christmas pictures cut from Christmas cards. It's a life-size Advent calendar, easy to sew and a wonderful gift for any house with youngsters.

Molded, Fully Padded
"Pre-Former" for Seamless
Fit Under Knits.

There's never been anything like it! Pre-molded and fully padded. Looks like the real thing. Here's the best part: there isn't a single stitch on the cup—anywhere! So it goes under sweaters and knits with clean-as-a-whistle smoothness. Shaped on the sides so you don't get a "padded look." And it keeps its shape! Dacron® polyester tricot and Lycra® spandex, AB32-36, \$6.

Marionettes to Perform at Bazaar

A marionette show, "The Wicked Witch Who Wasn't," presented by Mrs. Harry Reed of Osceola Drive and Mrs. James Binder of Plymouth, will be part of the Christmas bazaar at Our Lady of the Lakes gym on Saturday.

There will be one performance at 1 p.m.

The bazaar, scheduled from 9:30 a.m. to 6 p.m., is sponsored by the Rosary Altar Society.

Cochairmen are Mrs. Leo Hallpenny and Mrs. Leonard Methner.

Put the year's harvest of Christmas cards with it, and select your Christmas scenes to hide under the ornaments for next year.

Prevent Soil, Stay Ahead

Whenever you can prevent soil, you're that much ahead of the clean-up game. Cooperation of family members can make a big difference, especially when they start going outdoors more.

Keep dirt out of the house with hard-surface walks and paths. Sweep walks, steps, and porches frequently. Buy fabrics and materials that are easiest to maintain.

And if the kids still track mud on the bath mat, one bureau of bleaching information suggests tossing it in the washer, to which a cup of liquid chlorine bleach (diluted first in a quart of water) has been added. However, if hangings do not specify whether the dye is bleachfast, check first by using the stain-removal solution on an inconspicuous portion of the garment.

Gray Returns to Popularity

Gray, but not necessarily gray flannel, sets a strong pace for 1967 in men's wear. Gray is expected to show in suits in all color tones but with the lighter shades moving up. Look also for stripes, and a call back to the black and white domino tongs in plaids and houndstooth checks.

Dr. Wayne G. Brandstadt Says:

Doctor Can Explain Sense-of-Smell Loss

Q — Recently I have not been able to taste. My sense of smell is also dulled. What causes this and what can be done for it?

A — The ability to "taste" flavors depends entirely on your sense of smell. Loss of true sense of taste (salt, sour, sweet and bitter) is extremely rare. Loss of the sense of smell is usually due to a nasal obstruction from nasal polyps, chronic sinusitis or allergic rhinitis.

It may be aggravated by excessive smoking or by the excessive use of nasal decongestants.

Have your doctor determine which of the above causes applies to you and the proper corrective treatment can be prescribed.

Q — I have been having a salty taste in my mouth. What could cause this?

A — One cause is excessive smoking. Others include the action of an acid saliva on a metallic dental filling, sleeping with the mouth open and taking medicines that contain ammonium or calcium chloride, sodium or potassium iodide or bicarbonate of soda.

Even the excessive use of table salt in your diet may be the cause.

In a few instances chronic emotional problems have been blamed but proof of this is hard to establish.

Q — I had shingles six months ago. I still have pains in my back. What can be done for it?

A — Shingles, which clears up in two to five weeks, is notorious for leaving a person with painful neuritis.

The most effective treatment

is to inject the involved nerve with boiling water or to cut it. Q — I have had a chronic skin condition called syphilis for several years. How can I get rid of it?

A — This skin infection is usually due to a staphylococcus. As with most chronic conditions, the longer you have had it the harder it is to get rid of.

The antibiotic, nafcillin, taken by mouth may do the trick. This drug requires a doctor's prescription.

If it doesn't cure you, there are creams that contain a combination of antibiotics that may be tried.

As an added precaution you should use a soap that contains hexachlorophene.

Q — Will arthritis cause itching of the skin?

A — Although some of the rarer forms of arthritis may be associated with itching, some other cause for your itching should be sought.

There's A Chance Your Thanksgiving Dinner Won't Cost You A Penny...

Here's All You Have To Do:

First you must buy a turkey at A&P.

Serve it for Thanksgiving dinner.

Be unhappy with it.

Come and tell us (and bring the price label
or register tape, of course).

We'll give you **DOUBLE YOUR MONEY BACK** (that
should just about cover the cost of your whole dinner).
Simple?

Well not really because we're not taking any chances.

We're selling only the finest turkeys.

Every "Super-Right" bird is U.S. Grade "A".

So we can't lose.

But neither can you.

Either you'll serve the finest turkey ever

or your whole dinner will be on us.

It's a million-to-one shot but

what have you got to lose.

Is this a good reason for shopping A&P?

It's one of many.

A handsome certificate with a mailing envelope, available in all A&P stores all year long.

Offered in \$5 and \$10 denominations, these gift certificates will be honored in any A&P store in the United States.

For further information call J. Crawford at TY 6-1700, Ext. 223.

Junior Editors Quiz on
FRESCO

QUESTION: How is fresco different from other kinds of painting?

ANSWER: Fresco is a way of painting large pictures on walls. Fresco, if properly done, will last as long as the walls themselves. Other kinds of wall painting lie on the surface, whereas fresco penetrates into the wall itself. This medium, originated in ancient times, became perfected in Italian Renaissance days.

We show the famous artist, Giotto, creating a fresco. To do this, the wall was first covered with two coats of plaster. The main lines of Giotto's full scale drawing or cartoon would then have been transferred to the plaster in rows of dots.

In upper left, we show an assistant putting a third coat of fresh plaster on an area which the artist expects to finish in one day.

Below, we see Giotto painting a beautiful Madonna and Child on this area while the plaster is still wet.

The colors, mixed in water, will sink into the wet plaster and become a part of it; so permanent a part, that the fresh colors and tender feeling of Giotto still delight us today. Each day, the master would paint a fresh section of his picture, until the fresco was finally completed.

FOR YOU TO DO: Try to find a picture by Giotto in an encyclopedia to see the final effect of fresco painting.

Pro-Red Officers Reported Jailed in Jakarta

JAKARTA, Indonesia (AP) — A number of pro-Communist military officers including four generals were reported under arrest today. Newspaper reports said they had planned, in the wake of an attempted Communist coup a year ago, to kidnap strongman Gen. Suharto and other top leaders to create

confusion favorable to Communist maneuvering. Authoritative sources close to Suharto, who took over the government last March in the wake of an attempted Communist coup a year ago, acknowledged that officers from several

branches of the armed forces had been arrested. Suharto also said some officers were arrested, but he referred to them with the Indonesian word for "little frogs that hop around city streets."

An army spokesman said underground Communist forces had been "able to influence some high-ranking officers" but declined to comment otherwise on the reports. He said the influence of the Communist underground is still strong despite the purge after last year's abortive coup.

The plot, as described by usually reliable sources, was for some key officers to organize infiltration of student groups who are strongly opposed to President Sukarno. The infiltrators were to incite the students to violence, providing an excuse

for a severe crackdown on them. Owls differ from most birds in that both their eyes face forward, giving them binocular vision; other birds must scrutinize an object with only one eye at a time.

1951.

Our styles have changed, but Osmun's hasn't.

The 50s were rapid-fire.

UN, UFOs, hi-fi, Ike, Kon-Tiki, Kefauver, crime, and 'toonskin caps.

It was the decade when Grace Kelly became a princess and space became—perhaps—man's last great frontier. It was the decade of rock 'n' roll and Dr. Jonas Salk. It was the decade of "togetherness," and new chills in the Cold War. More people than ever before voted for the man who was elected President. And they liked Ike even when he set men's wear people spinning in circles by refusing to wear a cutaway and top hat for his inauguration.

If you remember the 50s, you remember Jose Ferrer as "Cyrano de Bergerac," and Judy Holliday as the all-time dumb blonde in "Born Yesterday." They were the Oscar winners.

The big books of the 50s were big books. Americans amazed themselves by turning the \$25 four-volume set *The World of Mathematics* into a best-seller. But they didn't amaze themselves with their clothing. Especially men's. Because the idea was clear—especially as the move to the suburbs picked up speed. Men wanted comfort. From that demand came things like casual suits, sport suits, one-button lounges, the bold sportcoat, and Rex Harrison and his hats. And as the paint on the wide ties began to fade, men coming to Osmun's began to see a whole new breed of men's wear: Ivy League. Ivy has been a men's favorite for just about 15 years.

Which means we've got 20 years on it.

At Last, Nation Tapping
Pool of Capable Negroes

By WHITNEY M. YOUNG, JR.,
Executive Director
National Urban League

Next January when Congress convenes, the roll call of new Senators will be made and they will step forward to take the oath of office. When the name of the junior Senator from Massachusetts is called, history will be made, for Edward W. Brooke will become the first Negro to sit in the upper house since Reconstruction.

This is an inspiring outcome of last week's election. Sen. elect Brooke takes his place with other talented Negro citizens who have attained high government positions in the past year.

Robert Weaver became the first Negro cabinet officer and Andrew Brimmer became the first Negro governor of the important Federal Reserve System. At last America is tapping the vast pool of capable Negroes for important posts in our government.

The election of Brooke is especially important because Massachusetts has a Negro population of barely 3 per cent — a politically insignificant number.

It shows that the voters of the state judged men and issues and did not allow prejudice or racism to affect their judgment. I hope too, it will put to rest the well-publicized issue of white backlash.

While it is true that racism is rampant in the nation, and it reared its ugly head in some of the electoral contests around the country, it is not as important as some commentators made it out to be. Most Americans voted their intelligence in 1966, not their prejudices.

Certainly some of the new governors and congressmen owe their elections to white resistance to further Negro progress, but taken as a whole, the pattern which emerges from the election is that backlash did not play the decisive role that so many expected.

MODERATE MEN

In most instances where liberals with strong civil rights records were defeated, they were beaten by moderate Republicans who will continue to support equality for Negro citizens.

In some races in which candidates were noted for strong segregationist stands, they were beaten. In Maryland a Democrat whose chief claim to fame was his outspoken opposition to desegregation in housing lost.

Arkansas Gov. Faubus will be replaced by the progressive Winthrop Rockefeller who defeated James D. Johnson, a candidate who had strong support from the Ku Klux Klan.

In some contests, won by candidates expected by many to be anti-civil rights, it would be a mistake to judge the results solely on that issue. California is a case in point.

LOCAL ISSUES

Ronald Reagan's victory there is due to many local issues as well as the desire of the electorate for new faces. In New York City the Civilian Review Board was beaten in a referendum. Here too, it would be too glib to credit backlash with its defeat.

The real issue of impartial civilian review of complaints against the actions of some policemen was lost in the costly campaign of fear which was launched against the board.

This is further proof that this type of legislation (California's referendum on housing discrimination in 1964 is another) should not be left to popular referendum. Basic rights of individuals should not be left to popular appeals and emotional electioneering.

Capitol Costs
to Be Revealed

LANSING (UPI) — Gov. George Romney was expected to reveal new cost figures today for renovating the 86-year-old State Capitol building and possibly constructing new House and Senate wings.

Romney met yesterday for more than two hours with building experts and Sens. Garland Lane, D-Flint, and Frank Beattie, R-St. Clair Shores, on the subject.

Lane, chairman of the powerful Senate Appropriations Committee, admitted the conference dealt with the State Capitol expansion question.

"You'll find out more about it (the Capitol) tomorrow," Lane told a reporter. "The governor will give you all the figures," he added.

Lane indicated that figures to renovate the Capitol which originally cost an estimated \$1.5 million, are higher than the \$7-million estimate he made earlier this year.

Cities Program 'Not a Lever'

Officials Deny Intent
to Stress Integration

WASHINGTON (UPI) — Federal officials vigorously deny they intend to use the newly enacted Demonstration Cities Program as a lever to force more school or housing integration.

The Department of Housing and Urban Development (HUD), now looking up to administer the program for rebuilding cities, has even started calling it the "model cities" program to avoid backlash reaction to racial demonstrations.

The law gives HUD Secretary Robert C. Weaver broad discretion in deciding which cities develop imaginative, statewide coordination that Congress intended to reward with federal grants.

Congressional opponents charged Weaver could dangle the money as an inducement for economically beset cities to come up with experimental "educational parks" or open housing.

But a HUD spokesman told United Press International: "That is not our primary purpose. There are too many things on our minds to zero in on that."

OPEN HOUSING REQUIRED

This does not mean that any federal money is going out without the usual string. All federally financed housing, for example, must be open housing — regardless of local law.

But these strings do not necessarily bring about widespread integration.

Technically, integrated schools contain comparatively few Negroes in either the South or the North because of traditions or residential patterns.

The Demonstration Cities Act was criticized after controversy began over U.S. education office policies. Its opponents claimed its millions, or even billions, could be used to force even higher scale integration or "social planning."

In making their denials, HUD officials said that they do not intend to demand integration as the sole solution to economic and social problems of growing cities.

Lynda Bird Is Busy Bee at Magazine

WASHINGTON (AP) — Lynda Bird Johnson, career girl with a chauffeur, may turn out to be one of the speediest magazine writers on the circuit.

In her third full week with McCall's magazine, she is said to have completed one story and is researching a second. Lynda is taking the typewriter seriously and co-workers say she is fast and eager.

The 22-year-old elder daughter of President and Mrs. Johnson started her part-time "around \$10,000-a-year" job with a two-week internship at the New York office.

Now, as part of the Washington news corps — more than 2,000 strong — she works in an office building near her father's office and can apply for the White House correspondent's association.

IN LIMOUSINE

Two mornings in a row, a White House limousine has pulled up to a curb on busy Connecticut Avenue. Lynda, wearing a suit, alighted with a Secret Service man. There were passersby, but few noticed her in the morning rush.

Then, it's through the double glass doors, a smile for the lobby guard and up the elevator to the eighth-floor, beige-carpeted office headed by Christine Sadler Coe, a family friend.

Lynda worked so long Monday she nearly arrived late for a White House gathering of theater patrons at 5 p.m. She was the host. She left Tuesday at 4:45 p.m.

Today, she was to be with her mother and sister, Mrs. Patrick J. Nugent, at Bethesda Naval Hospital while the President undergoes surgery.

STAYS IN CAR

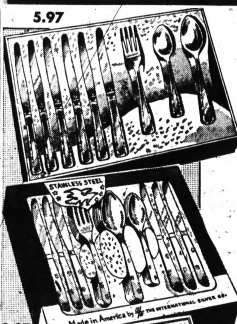

While Lynda works at the McCall's office, her chauffeur sleeps and reads in the car, parked in a tow-away bus zone.

Full Extent of Italy Flood Isn't Known

FLORENCE, Italy (AP) — In the early hours of Nov. 4 Italy — often called the fragile country because of its susceptibility to natural disaster — was hit by the worst flooding in its history. Four major rivers — the Arno, the Adige, the Tagliamento and the Po — were pushed over their banks by heavy rains and, with phenomenally high tides from the Adriatic Sea and overflows from scores of streams, inundated a third of the nation.

The disaster swept and swirled through north Italy from the Dolomite Alps north of Venice to the southern edge of Tuscany south of Florence.

Florence and Venice, unique in their own ways and among the brightest jewels in the diadem of Italian cities, were badly damaged.

DEATH TOLL

More than 100 persons were known to have perished; the final toll may reach 300.

One of the country's richest agricultural heartlands was devastated. Industries and commerce in the disaster area were stopped.

Irreplaceable art works were damaged. Some of the greatest architectural splendors of Western civilization were harmed. Tens of thousands of persons were left homeless.

MAJOR SETBACK

The Italian economy, just emerging from its recession of two years ago, suffered a major setback.

It was a disaster without precedent in modern Italy. Even now, nearly two weeks later, the full extent of the catastrophe is not yet clear.

Floods are a tragic part of everyday Italian life. Water engineers have long warned that drastic measures must be taken to check conditions that have been making the floods increasingly worse.

Nearly 75 per cent of Italy is made up of mountains practically denuded of trees and vegetation. The mountains precipitate rainstorms and there is little on the hillside to keep the water from rushing into the valleys.

In the early hours of Nov. 4 the rush of water had risen to dangerous proportions by 48 hours of unrelenting rains. Rivers were rising but no one expected that the usual autumn flooding would turn into a national disaster.

Lenore: Plans for 1968 Hazy

'Boosters Kind to Call
Husband a Favorite'

HARRISBURG, Pa. (AP) — Mrs. George M. Romney, wife of Michigan's Republican governor, said Tuesday her husband has not made up his mind whether he will seek the GOP presidential nomination in 1968.

Romney, re-elected to a third term Nov. 8 by a landslide, has been frequently labeled by GOP leaders as a front runner for the nomination.

"I think they (Romney boosters) have been kind" to list him as a favorite, Mrs. Romney said, "but he has not made his mind up."

"I think that as the governor of Michigan he is happy and humble with this assignment and will do his best for Michigan."

WOMEN GATHER
Mrs. Romney was in Harrisburg to speak to the 48th annual convention of the Pennsylvania Council of Republican Women. Her comments about her husband's future came during a news conference she held with Mrs. Mary Scranton, wife of Pennsylvania's governor.

Asked about her own feelings over her husband's possible candidacy, Mrs. Romney said that she had "no time to daydream" about such matters.

Mrs. Scranton, asked if there was any service she wanted to give to Mrs. Romney about politics, replied:
"I don't think Mrs. Romney needs any advice. I've known her for quite a while, and I think it's something in her spirit and the kind of person she is that will carry her through anything."

Michigan College Players in Hot Grid Scoring Duel

By the Associated Press
With just six more games on tap for Michigan colleges the scoring race is still up for grabs but Tim Majerle of Western Michigan holds the lead.

Majerle has 60 points on 10 touchdowns — he didn't score last week against Xavier — and has one more game to play. The Broncos meet West Texas State Saturday.

Fred Hall of Michigan Tech is second with nine touchdowns and three conversions for 57 points, but his season is finished.

Bob Apisa of Michigan State, out of action with a knee injury for a couple of games, is tied for third with Dennis Steele of

AP Wirephoto

CAGE PUZZLE — Philadelphia's Lucious Jackson (left) seems to have lost his head in this tangle with New York Giants' Henry Akin (10) and Dave Stallworth (right). But a closer look finds Jackson's face shadowed by his arms which also hide most of Akin's head. Philadelphia won the game in New York last night, 113-109.

Road-Weary Pistons Starting Home Stand

DETROIT (UPI) — The Detroit Pistons should be mighty glad to be back on the home court when they meet the St. Louis Hawks.

The Pistons have played six games on the road and won only one of them. The five losses dropped the Pistons into third spot in the National Basketball Association's Western Division and left them with a 6-9 season mark.

"With four of our next six games at home, we have a great chance to untrack ourselves," player-coach Dave DeBusschere said as the team returned from San Francisco.

"We just have to do something about our shooting," DeBusschere said. "We're getting the shots, but we're not putting them in."

The Hawks and Pistons have met only once this season with the Hawks coming out on top 113-105.

The Pistons travel to Baltimore Thursday to meet the New York Knicks before returning home Friday to take on the Los Angeles Lakers.

Chicago — The Bears and Packers have the oldest rivalry in the National Football league, chief traditional rivals.

Broncos Ready for Texas Trip

KALAMAZOO (AP) — Victory streaks always start at one and Western Michigan University's football team is trying to make the last game the first.

Traveling to Canyon, Tex., for the season finale against West Texas State the Broncos are hoping to rebound from last week's 21-6 loss to Xavier and to close out with the best season in two decades.

Western, tied for the Mid-American Conference crown with Miami, takes a 7-2 record into the non-conference clash with the Buffaloes.

Greer Spurs Philadelphia

49ers' Parks Losing NFL's Catching Title

NEW YORK (AP) — Unless Dave Parks of San Francisco starts grabbing passes at twice his current rate there might not be one individual champion retaining his title in the National Football League this year.

"The big one—the rushing crown—will be won by someone else because of Jimmy Brown's retirement, but even in the other seven stat categories, the 1965 titlists are way back of the current leaders or already out of the race.

Right now the rushing title is up for grabs among Dick Bass of Los Angeles, Cleveland's Leroy Kelly and Galt Sayers of Chicago, who have gained 744, 730 and 715 yards in that order.

Parks, who missed two games, still is a threat in receiving, although he currently is in 10th place, 16 catches behind running Pat Studstill of Detroit, who has grabbed 53 passes.

1966 PONTIAC OPEN BOWLING CHAMPIONSHIP**MEN'S SINGLES HANDICAP TOURNAMENT**

(Sanctioned by The American Bowling Congress)

Qualifying: Nov. 27, Dec. 4, Dec. 11**Finals: Dec. 18****SITES: Huron Bowl—300 Bowl—Airway Lanes—Cooley Lanes**

(Please Circle Preference of Date and Site)

Name _____
 Address _____
 (City—Post Office Mailing)
 League _____ House _____
 Final League Average of 1965-66 _____
 (Give Highest Final Average—Note Rules 1, 2, 3 Below)
 ABC Sanction Number _____

Tournament is based on 70% handicap of 200 scratch, open to all sanctioned ABC male bowlers who live in Oakland County or the immediate Pontiac area. Deadline for final entry is Thursday, December 8th at midnight. Deadline before each qualifying is Thursday prior to qualifying date. All entries should be left at the qualifying sites listed by deadline date with entry fees attached.

TOURNAMENT RULES

1. Bowlers must present their highest final league average of the end of the 1965-66 season.
2. If bowler has no final 1965-66 average, highest 18 game average of current season must be presented. If current average is 10 pins higher or more, than final 1965-66 average it must be used.
3. Falsifying average will mean disqualification and forfeiture of entry fees and prizes.
4. Tournament manager reserves right to reject any and all entries.
5. Tournament in adherence with ABC rules.
6. No substitute entries.
7. No post entries after deadline. Bowlers failing to qualify first week can try again on 2nd or 3rd qualifying date.
8. Bowler is eligible for only one monetary prize in handicap tournament. ABC requires that prizes of \$300 or more won in past 12 months must be reported. Please do so on reverse side of entry blank.
9. Bowlers will pay bowling fees in semifinals and/or finals of the tournament.
10. Times and squads to be published in Press on Friday of each week of tourney.

GUARANTEED PRIZES

- 1st—\$800**
2nd—\$500
3rd—\$300
4th—\$200
5th—\$150

The top five prizes are guaranteed and the entire prize fund is returned 100% from the purse. Trophies will be awarded to winner and runner-up.

Ten per cent of qualifiers of each house assured of going into finals, and all of those reaching finals assured of prize.

Entry Fee

 Prizes ... 4.50
 Total ... \$7.00

Pontiac Open First Deadline Nears

First deadline for entries in the Pontiac Open Bowling Tournament is only one week away and the first 150 bowlers will have an added prize to shoot for — "The Early Bird Special."

Entries will be gathered at the four tournament sites, Huron Bowl, 300 Bowl, Airway Lanes and Cooley Lanes, and a list will be made up of the first 150 bowlers to enter.

Just for being an Early Bird entry, an additional prize of \$25 will go to the top qualifier from the list.

The tournament is a men's handicap event based on 70 per

cent of scratch and the top five prizes starting at \$800 will be guaranteed.

Target qualifying score for all bowlers will be "600". This is the total needed, inclusive of handicap, and the next step will be to move into the semifinals.

All entries for the first Sunday of qualifying should be in by 6:00 p.m. next Thursday which is Thanksgiving Day. This is to allow all squads and pairings to be set for Sunday, Nov. 27.

TOP QUALIFIERS

The top qualifiers from each of the four houses will earn trophies, and another objective for the bowlers will be the Actual's Invitational.

The top qualifying actual scores and the high average bowlers entered in the tournament will receive invitations to the Actual's.

This part of the tournament

will follow immediately after the handicap finals which will be held this year at Huron Bowl.

Bowlers from Oakland County and adjacent counties are eligible to enter the tournament.

Bowlers must submit their highest final average of the 1965-66 season, and follow all rules as approved by the ABC on the bowling form.

Entries should be turned in to their respective houses of qualifying. Most other houses in the Pontiac area will also accept the tournament entries and forward

them to the tourney sites. The blank enclosed in The Press should also be sent in together with entry fees to one of the qualifying houses.

Ohioans Face Golf Leaders

PINEHURST, N. C. (AP) — The medalist team of John Jacobs and Curtis Person took on an Ohio team today in the second round of the World Senior Four-Ball Golf Tournament of the Southern Golf Association.

Jacobs, of Canton, Ohio, and Person, of Memphis, Tenn., swept seven holes and halved the others in eliminating C. E. Palmer of Sarasota, Fla., and Julian Stanley of St. Marys, W. Va., in Tuesday's first round.

Canadians One-Two in Horse Show

TORONTO (AP) — Moffatt, 30.6 seconds, slowest of the was second with 46. Miss Ross Dunlap of Canada, on Grand Nouvel, won the International Maple Leaf Stakes at the Horse Show Tuesday night at the Royal Agricultural Winter Fair.

Gail Ross, also of Canada, on The Hood, was second. Cara Hofmann of the United States, on Salem, was third and Frank and Mary Chapot of the U.S. were fourth.

The Canadians' one-two finish broke a tie for first place in international team standings, sending Canada into the lead with 71 points. The U.S. team is second with 61.

Dunlap's win was his second of the show and he said he was delighted with his horse which he bought in 1965 from Mrs. A. C. Rudolph of Virginia.

The Chapot husband and wife team from Wallpack, N.J., had four faults each on the first round and tied for fourth. Mrs. Chapot rode Tomboy, her husband Fred Twist.

In the first round, the course was made up of 13 fences all above average height. Only Miss Ross, Dunlap and Miss Hofmann, of North Branch, N.J., rode without fault.

In the jump-off, Miss Ross, knocked down the sixth fence and was assessed four faults and a time of 26.5 seconds.

Dunlap knocked down fence No. 2 and was timed in 26.5 seconds.

Miss Hofmann tipped the last fence and it fell. Her time at

Matsos With Chargers

SAN DIEGO, Calif. (AP) — The San Diego Chargers announced Tuesday they have obtained Arch Matsos, former All-American Football League line-backer who was released recently by the Denver Broncos.

Golf Pros Set for Rich Finale

Billy Casper Favored in Houston Tourney

HOUSTON, Tex. (AP) — No body likes costly postponements but the heavy rains that wiped out the Houston Champions International last May has provided the \$100,000 golf tournament with unexpected drama and probably the outstanding field of the year.

Billy Casper, the winner of the U.S. Open and recently named player of the year by the Professional Golfers Association, will seek to beat off the challenge of Jack Nicklaus for the official money winners honor in the last of the big money tournaments for 1966.

The top prize of \$30,000 for the four-day tournament starting Thursday over the par 36-37 Cypress Creek layout of the Champions Golf Club could vault Nicklaus over the putting wizard from Bonita, Calif.

TD Pitches, Interception Spark 'Touch' Triumph

Two touchdown passes and a key interception by Willie Holloman led The Packers to the city Parks and Recreation Department Men's Touch Football championship last night.

The Packers, guided by the Motor and Bandits, 12-7, to take the title at Jaydis Park in a playoff after the two teams tied during the regular season.

Holloman teamed with Dave Simmons for a 35-yard scoring pass play in the first period, then bit Cecil Jones on a 45-yard play in the final period.

Trailing 12-0, Motor (who reigned as champions three years ago) rallied on a Tom Dabbs-to-Chuck Steinhilber pass for a 40-yard touchdown and extra point.

But a closing drive for the winning six points was stalled at The Packers' five-yard line when Holloman intercepted a pass with one minute to play.

The championship was the first for The Packers.

French Boxer Arrives
DALLAS (AP) — Jean Josselin, the French champion, arrived in Dallas Tuesday to begin training for his Nov. 20 welterweight title fight with Curtis Cokes.

Kansas State Coach Hunting

Former MSU Player Doug Weaver Quits

MANHATTAN, Kan. (AP) — Kansas State officials said they are searching for a head football coach to replace Doug Weaver being hired immediately after he resigned Tuesday, they praised his dedication — then they stopped talking and so did Weaver.

Also joining in the high scoring at Cooley were Larry Anort (216-220-42), Walt Stedert (219-215-60), Roger Overmyer (208-233-61) and Stan Durren (236-218-61).

Julie Arkin added a 224 (619) and Bill Green a 223 (614) to the high scoring.

BOWLING

Cooley Lanes' Senior House League members took aim on the season high marks last week and posted two new standards.

Jerry Dunkel rapped the pins for 237 points in a 672 season-high strike; while the Farm Maid Dairy squad hit a 1027 new high game.

Also joining in the high scoring at Cooley were Larry Anort (216-220-42), Walt Stedert (219-215-60), Roger Overmyer (208-233-61) and Stan Durren (236-218-61).

Julie Arkin added a 224 (619) and Bill Green a 223 (614) to the high scoring.

Soccer Teams Have Playoffs This Weekend

CORTLAND, N.Y. (AP) — Single-elimination games in the first round of the 1966 NCAA University Division Soccer Tournament will start this Friday, according to the New York State Selection Chairman.

Fred Holloway, the chairman and a professor at Cortland State, said Tuesday the single-elimination games would be played Nov. 18, 19, 21 and 22.

In Hartford, Conn., meanwhile, Roy Dath of Trinity College, said the first-round pairing of Colgate and Bridgewater would be played Nov. 22 at Hamilton, N.Y.

Dath, who is on the NCAA Selection Committee, said the site of the Union-Army match had not yet been set.

Holloway said the finals would be played Dec. 34 at the University of California at Berkeley.

The pairings:

Colgate — Bridgeport, Conn.; Long Island University — Connecticut; Michigan State — Akron; University of Ohio, Temple, Pa.; West Virginia — Navy; St. Joseph's, Pa.; St. Louis — Colorado; University of San Francisco — San Jose State, Calif.

The Dock Talk

Man says: "When you see 'MMDA Member' in a marine dealer's ad, you're sure of honesty and fair practices."

Bargain.

Save \$2 on the tune-up of your outboard motor. Take it and this ad to one of the Michigan Marine Dealers listed below before November 30, 1966. He'll tune up your motor, give it the best of care all winter—and save you money.

For Christmas buying, shop your MMDA dealer's store. He's making the season merry by pulling prices way down the chimney on Christmas boat deals.

These MMDA Members are participating in this bargain offer:

LADY SPIKERS — Overmanned with women, this volleyball match is played during a Tuesday

night session of a ladies exercise class at the CAI building. Competition is "fierce" and action

hotly contested. About 45 women are enrolled in the class taught by Mrs. Carol Wolfe.

Night Classes Run From Dogs to Judo

By HUDSON WILLSE

A preference for dogs and judo is exhibited by enrollment figures for related courses offered by Waterford Township Community School Services and Community Activities, Inc.

About 50 dogs are enrolled in an obedience course taught by Charles Hudson of the Southern Michigan Dog Obedience School Wednesday nights at the CAI building.

Meanwhile, 25 adults are being taught the rudiments of poodle grooming Wednesday nights at Waterford Township High School.

Judo classes and ladies self-defense, taught Monday nights at the CAI building by black-belt holder Otto Chanko of Livonia, are among the most popular adult courses offered in the township this fall.

Another physical fitness class, ladies exercise, also is rated among the most receptive. Taught by Mrs. Carol Wolfe, classes are Tuesday nights at the CAI building.

POPULAR COURSES

Other popular CAI activities include family lapidary and the Gem and Mineral Club.

Bishop sewing and do-it-yourself type courses like oil painting, cabinet making, furniture refinishing and antiquing and welding are some of the better attended courses offered by Community School Services.

About 180 women are enrolled in beginning Bishop sewing. Several others are enrolled in five more advanced Bishop sewing classes.

★ ★ ★

Close to 2,000 adults presently attend classes provided by Community School Services.

CLASS BREAKDOWN

Of these, about 600 are enrolled in adult education noncredit courses, 380 in credit courses, 60 in basic education and the remainder in recreation department classes. Total adult participation in CAI programs is about 690.

More than 100 adult courses are offered in the township, altogether. In addition, both Community School Services and CAI offer numerous activities for children.

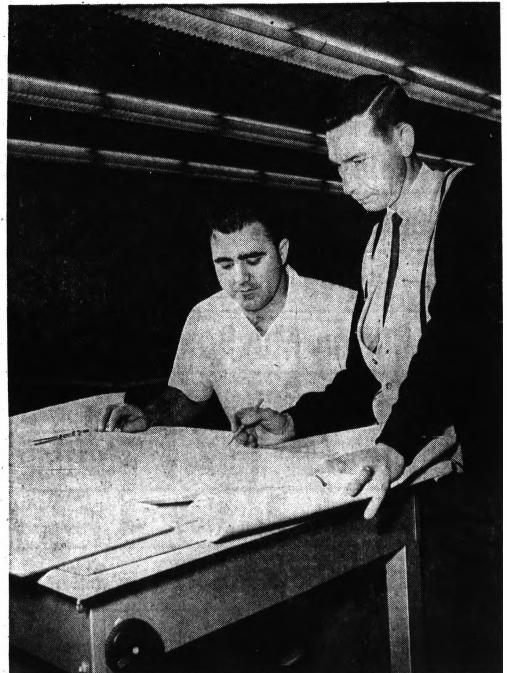

TEACHER KNOWS HOW—Instructor Mrs. Weldon Martin of 42 Theda, Waterford Township, shows Mrs. William Bright of 7620 Clintonville, Independence Township, how to make a poodle look like a poodle.

Poodle grooming, offered Wednesday nights at Waterford Township High School, is just one of several unusual classes available through Waterford Township Community School Services.

TAKES PATIENCE — Mrs. M. J. Root, 3851 Dill, Waterford Township, demonstrates the art of ceramics in a class at the Community Activities, Inc., building, 5640 Williams Lake, Waterford Township. About 700 adults currently participate in classes at the CAI building. Mrs. Root is elementary art coordinator for Waterford Township Schools.

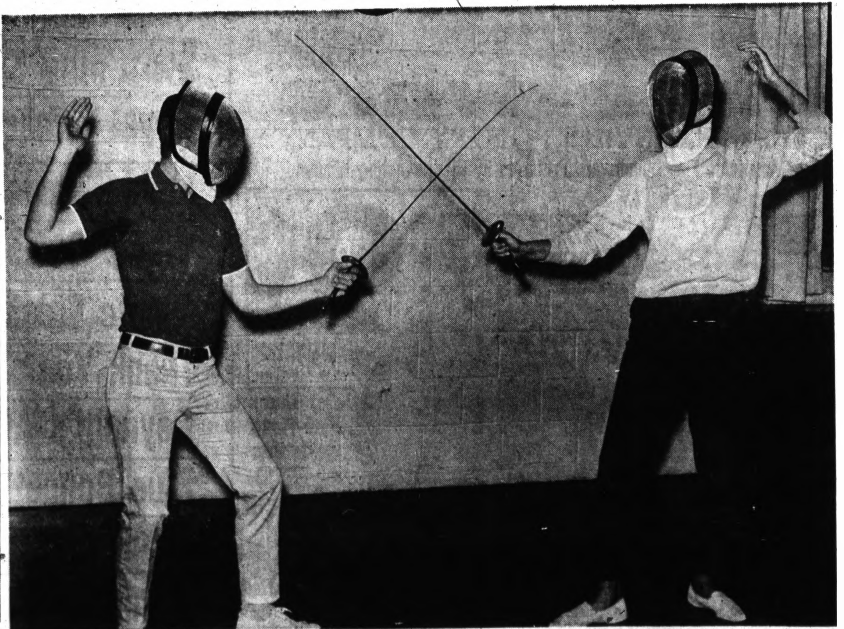

STARTING POINT—Norman Wood of 1827 Sylvan Glen, Keego Harbor, receives instruction from Don Benson of 273 Highgate, Waterford Township, during a recent Wednesday night blueprint reading class at Town-

ship High School. Blueprint reading is one of 30 high school credit courses available to adults through Waterford Township Community School Services.

THROW HIM, CAROLYN — Otto Chanko of Livonia is no easy pigeon when it comes to judo, but this doesn't seem to faze pretty Carolyn Richmond of 9239 Gale, White Lake Township, as she prepares to hurl the expert

to the ground. Chanko, holder of a third-degree black belt, teaches judo classes to both men and women Monday nights at the CAI building.

TOUCHE — Trying to score points during a recent fencing match at the CAI building are Dave

Kramer of 4158 Airport and Linda Barth of 1460 Rivona, both of Waterford Township. Fencing

classes for persons at least 16 years old are held Tuesday nights.

57 Americans Killed in Viet Are Identified

WASHINGTON (AP) — The Defense Department has announced the names of 57 men killed in action in connection with the war in Viet Nam. Twelve other men were killed in nonhostile accidents.

Killed as a result of hostile action:

ALABAMA — Spt. 4 Carl F. Gifford, Canton.

CALIFORNIA — Capt. Frederick H. Henderson, Moraga; 1st Lt. Richard G. Collins, Alhambra; 1st Sgt. Samuel K. Salomon Jr., San Valley; Staff Sgt. Upton K. Kuller, San Bernardino; Staff Sgt. Byron H. Bushey, Buena Park; Sgt. Douglas L. Murray, Panama.

CONNECTICUT — Spt. 4 Walter H. Myers, Unionville; Pfc. Gerald L. Bourdieu, Trumbull; Pfc. David L. Garmon, New Rochelle.

FLORIDA — Spt. 4 James R. Pearson, Leesville.

GEORGIA — Pfc. Fred A. Gaddis, Atlanta.

HAWAII — 1st Lt. Richard B. Carlson, Wahiawa.

ILLINOIS — Staff Sgt. Donald T. Casler, Chicago; Spt. 4 Eugene F. Goeckler, Deseronto; Pfc. Riccardo B. Dickson, Chicago.

INDIANA — Spt. Robert E. Taylor, Warsaw; Spt. 4 James R. Blevins, Crown Point.

IOWA — Pfc. Deoxy L. Bruce, Aurelia.

LOUISIANA — Pfc. Lawrence E. Benson, Alexandria.

MARYLAND — Maj. Gary P. Warren, Silver Spring.

MASSACHUSETTS — Capt. Gerald F. Currier, Andover.

MICHIGAN — Pfc. Edward P. Austin, Alpena; Pfc. Larry A. Rice, Montrose.

MISSISSIPPI — 1st Lt. David P. Phillips, Mayersville; Spt. Randolph Davis, Greenville; Spt. Edgar H. Beasley, Hattiesburg; Pfc. Joel Fuller, Bogalusa.

MISSOURI — M. Sgt. John W. Crawford, Savannah; Spt. John D. Beltr, St. Louis.

NEW YORK — Pfc. Carmine P. Carolla, Buffalo; Pfc. Bruce E. Kertel, Miller Place; Pfc. Fernando L. Torres Jr., Algonquin.

NORTH CAROLINA — Spt. Howard L. Walker, Boone; Spt. 3 Jerry D. Taber, Fayetteville; Spt. 4 William S. Butler Jr., Algonquin.

OHIO — Spt. 4 John R. Caniff, Steubenville; Spt. 4 Robert L. Fowble Jr., Greenfield; Spt. 4 James M. Kim, New Paris.

OKLAHOMA — Spt. 4 Leslie D. Meen, Wetumka; Pfc. Kenneth E. Sanders, Ponca.

PENNSYLVANIA — 2nd Lt. Robert L. Adams Jr., Pittsburgh; Spt. 4 Rodney E. Attkill, York.

TENNESSEE — Pfc. Robert L. Wright, Moscow.

TEXAS — Staff Sgt. John P. Frantal, Coppas Cove; Spt. 3 Milburn H. Starnes, Houston; Pfc. Jesse Sandridge, Manor.

VIRGINIA — Pfc. Claude C. Supinger, Centerville.

WASHINGTON — Pfc. Harry D. Lund, Everett.

MARINE CORPS — Pfc. Thos McKinnon Jr., Jacksonville.

NEW YORK — Pfc. James W. Elmer, New Rochelle.

MISSING TO DEAD — HOSTILE: ARMY — 1st Lt. William C. Barott, Spt. T.C. James N. Finn, Staff Sgt. William B. Hunt, Pfc. Alfred I. Bevinski, AIR FORCE — Maj. Robert E. Rickman, Capt. Vincent A. Scoulo, Died not as a result of hostile action.

NEW YORK — 1st Lt. Charles E. Brown Jr., Hostile.

COLORADO — Military Apprentice Barry B. Mohr, Fort Collins.

MINNESOTA — Electrician's Mate Alan A. Scherzberg, Alhambra.

MISSOURI — Airman Apprentice Sebern E. Graham Jr., St. Louis.

NEW YORK — Seaman Apprentice Vincent C. Boudreau, Hudson Falls.

OHIO — Airman Gary D. Tackett, Berea.

TEXAS — Fireman Thomas L. Blackman, Fort Worth; Fireman Charles B. Micham, Houston.

VIRGINIA — Seaman Apprentice Donald R. Johnston, Roanoke.

FLORIDA — Pfc. John E. Miles, Dover.

MASSACHUSETTS — Lance Col. Don W. Caputo, Mt. River.

PENNSYLVANIA — Pfc. David J. Ippolito, Erie.

MISSING TO DEAD — NONHOSTILE: CALIFORNIA — Staff Sgt. Elijah Dan Jr., San Bernardino.

MISSING NOT AS A RESULT OF HOSTILE ACTION: Pfc. Wallace A. Abbott.

(The Department does not disclose address or next-of-kin of men missing in action.)

'M' Council Act Explained

ANN ARBOR (UPI) — The president of the University of Michigan Student Government Council said today the council's move to sever its relationship with the university's office of student affairs was sparked by the office's refusal to negotiate student rules.

Edward Robinson, a senior from Haverford, Pa., said a university rule banning sit-in demonstrations was one of a series of rules decreed by the university without first discussing them with the Student Government Council.

The council voted 12-2 Monday night to end its association with the office of student affairs unless the council is given an opportunity to "participate in the decision-making process which affects students."

"Some people seem to think by this act the council's vote was aimed against the substance of the sit-in regulation," Robinson said today.

"In fact, Student Government Council did not have the opportunity to discuss the substance because the office of student affairs did not discuss this with us."

"Mustang" hi-rise bike!

COASTER-BRAKE BIKE FOR BOY'S OR GIRL'S

39⁰⁰

5-Year School Plan for Brandon

District Sees Ahead

BRANDON TOWNSHIP — A new high school, additional elementary schools and 440 more students constitute the school district's "five-year" growth picture.

A comprehensive projection, tabled by the board of education for further study, was presented at the Monday night meeting.

Schools Supt. Henry Versnick said that a school enrollment of 2,006 is projected for the year 1971 as compared to this year's total of 1,586.

In order to take care of the increase, Versnick cited a need for additional elementary schools and a new high school. The current Brandon High, joined physically with the Howard T. Burt Elementary School, would be used as a new junior high school.

Versnick proposed the changes at no increase in cost to Brandon district taxpayers.

PRESENT MILLAGE
Due to the state's new school bond loan fund, Versnick feels the program can be accomplished with the present millage with a little rearranging of finances.

Brandon currently levies 12 mills on its general debt retirement plan. State legislation now provides that a school district levying seven mills on

such a plan may borrow the remainder on a long-term loan from the state. There is no deadline on repayment.

Approval for the switch would have to come from voters of the district.

Also sought in the expansion and reorganization is accreditation by the North Central Association of the new high school. The present Brandon High is accredited only by the University of Michigan.

SET FORTH

As set forth in Versnick's report, the plan calls for:

- Reorganization of the present elementary schools into a pattern of kindergarten through grade five, with eventual conversion of kindergarten and the first two or three grades into nongraded primary units. Future planning calls for two additional satellite elementary schools in Brandon and Greendale Townships.
- Development of kindergarten parks for all elementary schools.
- Development of the Middle School Concept for grades six, seven, and eight in the present high school.
- Organization of the new high school into grades nine, ten, eleven and twelve.
- Meeting the physical and curriculum requirements of the North Central Association accreditation for the new high school.
- Provision for total kindergarten through grade twelve articulation of curriculum.

In addition, the plan calls for expansion of an in-service education program for the staff, an administrative staff and guidance and counseling services.

Also to be expanded would be a program of parent-teacher conferences, the work program in special education and the high school cooperative program.

Other areas that would be expanded are the release time allocated for developing curriculum materials and review of textbooks; the community relations portfolio; and the elementary music, art, physical education and library science program.

Area News

'Creativity in Young' Is Topic

ROCHESTER — Mrs. A. Leslie Schaefer of Birmingham, planetarium demonstrator and children's instructor at Cranbrook Institute of Science, will speak before American Association of University Women at 8 tonight.

Her topic will be "Nurturing Creativity in Young Children." She will demonstrate with colored slides.

Mrs. Schaefer's talk is the second in a series planned by the Rochester AAUW in "Science: A Creative Discipline."

Hostesses for the program will be Mrs. Frank Wondrichski, 1244 Chairman, Utica, chairman, and Mrs. Russell Corbin, Mrs. James Prough, Miss Betty Jo McGlone and Miss Virginia Thrum.

Funeral Home Exec Arraigned

STERLING TOWNSHIP — Lloyd A. Milliken Jr. of the Milliken Funeral Home, 8459 Hall, stood mute yesterday when arraigned on a charge of resisting a policeman. The charge resulted from an argument over to which hospital two victims should be taken.

He was released on \$500 bond and a hearing was set for Nov. 25.

Patrolman Ronald Watson of the Sterling police charged that the victims to Avon Center Hospital in Rochester rather than South Macomb Hospital at 12 Mile and served since February in Viet Nam.

Utica Resident Loses Son in Viet

UTICA — Lewis C. McGrath, 43388 Charlemagne, has received word of the death of his son, John A. McGrath, in Viet Nam.

A Marine, McGrath has been in service for 13 months and had Nam.

Teacher Issue Goes to Board in Walled Lake

WALLED LAKE — A teacher's request that he be paid for a conference period which he spent supervising a math test will have a hearing before the board of education on Nov. 28.

A grievance was filed by the teacher and the Walled Lake Education Association after Schools Supt. George Garver denied the request.

Garver said his position is that the conference period is not "a sacred item" but may be used for "ongoing educational programs such as assisting in schoolwide testing programs."

In other action Monday night, the board adopted an extra-curricular salary schedule totaling \$3,000 in an attempt to keep the coaching salaries in line with other salaries.

The improved schedule covers coaches on the senior and junior high level, including debate, drama and forensics.

SEE THEMSELVES
Pupils and teachers at Cliff Ford Smart Junior High School

AREA NEWS

will soon be able to see themselves as others see them in a classroom situation.

The board approved the purchase of a closed circuit television facility for the school. It will provide a video tape recorder, camera and receivers.

Garver said it will be helpful in such classes as speech, enabling a pupil to see and hear himself on the tape. It will also aid a teacher who might wish to analyze his or her own effectiveness by making a tape of the classroom presentation.

Educational television programs which are shown on television at an inconvenient time can also be taped and shown to the pupils at a later date.

The equipment will cost between \$1,500 and \$1,800 and will hopefully be ready by next semester, according to Garver.

Zoning Denied on Trailer Park

ORION TOWNSHIP — Rezoning for a trailer park on 100 acres of land east of M24 was denied by the Township Board at its meeting last night.

Supervisor John Lessiter said the denial was made on recommendation of the Township Zoning Board, the county cooperative zoning board and the township planning consultants.

At a public hearing in September some 100 home owners had protested establishment of the park.

In other business last night the board changed its regular meeting night from Tuesday to the second and fourth Wednesdays of the month at 7 p.m., starting with the meeting Dec. 14.

An ordinance for water users was approved setting \$150 as the base tap-in fee. Judith Lake Estates have long been served by a well system and another is being added at Keatington.

Luncheon, Cards Set

DAVISBURG — Austin Chapter No. 396, Order of the Eastern Star, will hold a luncheon and card party at noon tomorrow at the Masonic Temple on Andersonville Road.

Planners' Question

Should Milford Become City?

MILFORD — Should the village join the growing ranks of communities turning to cityhood?

This is the question to be contemplated by the planning commission in the next few weeks as it studies the advantages and disadvantages of cityhood.

"We're just trying to determine if it would be feasible at this time," said Village Manager Joseph S. Brophy. "In light of functions which are being taken away from villages such as the courts."

He said not-time limit has been set for completion of the study.

HONOR MASTERS — Six area residents received the 32nd Degree in Scottish Rite of Freemasonry recently. They are (from left) William A. Baggett, 8100 Barnsbury, Commerce Township; R. D. Boddy, 8817 Gittens, Commerce Township; John R. Gilchrist, 2427

Rolandale, West Bloomfield Township; George W. Kiddle, 2138 Locklin Lane, West Bloomfield Township; Frank E. Willetts, 272 Annonson, Commerce Township; and Richard H. Norman, 1805 La Due, Waterford Township.

Cityhood Ruling by Judge Sought

NOVI — The village's legal right to incorporate as a home rule city may not have to be determined in a court trial.

At a pretrial hearing yesterday before Circuit Judge James B. Thorburn, attorney William Ibershoff indicated he would file a motion for a summary judgment on the question of whether Novi, as an incorporated entity, is bound by a state statute requiring a population density of 500 persons per square mile to incorporate.

Ibershoff represents a citizens committee seeking cityhood here. He said the judge could rule on the matter without a trial because the matter is a question of law, not a question of fact. He said the law is ambiguous on the question.

After Circuit Court Judge Arthur E. Moore ruled last year that the village did not meet the density requirement, an opinion was obtained from the State Supreme Court noting that "an incorporated entity does not have to abide by the 500 persons per square mile requirement as this is applicable only to unincorporated territories."

PETITION DEADLINES

Meantime, village officials are hoping that matters are settled by Dec. 5, the date they have set to act on petitions seeking incorporation.

The citizens committee seeking incorporation is doing

Detroit Water Extension Mulled by Pontiac Twp.

PONTIAC TOWNSHIP — The possibility of extending Detroit water from Mount Clemens to Featherstone along Opydyke was discussed by the Township Board at a meeting this week.

Such an extension would service 21 separate pieces of property and would require the formation of a special assessment district.

Further study of the matter was asked, according to Mrs. Mae Block, clerk.

The board voted at Monday's meeting to buy its first police car at a price of \$2,599.85 from Pontiac Retail Store. The car will be used by township constables who have formerly used their own cars.

Constables supplement the service offered by the Oakland County Sheriff's Department.

Tax Laws May Prevent Rochester YMCA Move

ROCHESTER — Tax laws noting the difference between leasing property and its ownership may stifle the latest move to provide new quarters for the Young Men's Christian Association.

Present headquarters are located at 423 Helen in a house owned by St. John's Lutheran Church.

The organization has been offered the home and grounds at 714 Main, formerly occupied by the Stoneycroft Nursing Home.

Frank Chapman Sr., owner, has volunteered to permit the building's usage on a \$1-a-year lease.

Lloyd Lake, Rochester business man speaking in behalf of the "Y" Monday night, asked the village's concession of tax money from the property.

OWNERSHIP RESTRICTION

He was told by Village Attorney Arthur Cox that the law states that YMCA facilities are exempt from taxes if used and owned by the "Y."

He said he did not believe that such an exemption could be obtained with leased property.

The village collects about \$550 as its share of a total annual tax bill of \$2,500 from the Chapman property.

Councilman John Boehriza was appointed a committee of one to seek an attorney general's opinion on possible means of exemption.

TO SEEK BIDS

The village council also authorized the seeking of bids on a new police car and pickup truck, while Urban Renewal Director George Welhnelmi was given the go ahead to get bids on the moving of a house from renewal property.

Oakland Twp. OKs Planners

OAKLAND TOWNSHIP — The Township Board last night voted to hire the Utica planning firm of Allen, Wright and Zaveda on a consulting basis for two years. The planners will be paid a retaining fee of \$1,000 plus \$500 a month.

Clerk Lucy Alt was authorized to seek renewal of fire protection contracts with Orion Township and the village of Romeo.

Another contract with the Rochester Fire Department was renewed last August.

Gerrude Blum and C. Leroy Baker were reappointed to the Township Canvassing Board.

GOP Moderates Face Tough Fight for Control

WASHINGTON (AP) — Moderate Republicans may encounter stiff opposition in their efforts to get GOP governors to spearhead a move to wrest party control from the conservatives.

GOP Gov. Mark O. Hatfield of Oregon, who welcomes the label of liberal, points to a Republican governors' meeting in Colorado Springs, Colo., Dec. 9-10 as a likely forum for the moderates to get together behind a single candidate for the 1968 party presidential nomination.

"We can't afford to let happen in 1968 what happened in 1964," Hatfield said at a news conference Tuesday.

(Advertisement)

PIN-WORMS A FAMILY AFFAIR

Fidgeting, nose-picking, a tormenting red rash are often telltale signs of Pin-Worms, easily parasites that medical experts may infect 1 out of every 3 persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it:

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredients go right to work—kill Pin-Worms quickly and easily.

Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge—small, easy-to-take tablets... special size for children and adults.

The governor, elected to the Senate last week, made it clear he was alluding to the moderates' frustrations of two years ago. At that time New York Gov. Nelson A. Rockefeller's entry into presidential primaries kept other progressive candidates out of the race until it was too late to defeat conservative Barry Goldwater for the presidential nomination.

But if the moderates expect to duplicate the 1952 feat of former New York Gov. Thomas E. Dewey in rallying nearly all of the Republican state executives behind a single candidate—in that case, Dwight D. Eisenhower—they may run into some stiff resistance.

The 25 Republican governors, including 14 first-termers elected Nov. 8, appear to be nearly equally divided between the moderate and conservative camps.

Counting Hatfield, who is stepping from one office to another, and three defeated for reelection, the moderates could muster a majority at any session where all attended. But they would seem to have little hope of getting anything like unanimity behind them in a natty Negro institution of high-drive to loosen conservative control of the party's convention and delegate choosing machinery.

Americans bought 4,200 motorized homes last year.

AP Wirephoto

PROTECTIVE INSTINCT—

This 3-week-old male lion cub under a bench in the lions den at the Columbus, Ohio, zoo is getting plenty of protection. That's the cub's father standing with his foreleg on the bench and his fangs bared as he snarls at onlookers.

Fish University in Nashville, Tenn., was the first predominantly Negro institution of high-drive to be approved by the Southern Assn. of Colleges and Secondary Schools and the first to be admitted to membership in the Association of American Universities.

Dems Hope Recount Will Give Them House Edge

LANSING (AP)—House Democrats haven't given up the Nov. 8 election as a tie yet. There's hope that the apparent 55-55 standoff between Democrats and Republicans will become a 56-54 Democratic edge after a recount in the 79th District near Flint. Speaker Joseph Kowalski, D-Detroit, said Tuesday.

Freshman Rep. Bobby Crim, D-Davison, apparently lost to Republican James F. Smith, also of Davison, by 109 votes. Most of the precincts in the district use paper ballots—making a reversal possible, the speaker's office said.

Democrats will caucus in Lansing Tuesday preparatory to organizing the 1967 legislature. Republicans meet today for the same purpose.

HAS THE RIGHT

The party that organizes either House has the right to pick a speaker, name house officers, set the rules, establish committees and make committee assignments.

Republicans, who took over the Senate 20-18, met last week to set up the machinery for their end of the 74th legislature. Even if Crim's recount does not give majority control back to the Democrats, Kowalski said, "there are many compelling reasons why the Democratic caucus should accept the responsibility for organizing the house."

The reasons, he said, are: —"With the executive office and Senate under control of the Republican party, one-party government can be avoided only by Democratic organization of the House. From his statements in the past campaign, we know protect the legislative achieve-

Gov. (George) Romney is concerned about saving the two-party system.

RESPONSIBILITY

—"We have a responsibility to our party and supporters to protect the legislative achieve-

ments of the past two years... It is important that our efforts at legislative reform be continued without interruption."

Republicans argue that harmony in government will be furthered if they take over the party leadership posts.

There may be a lack of harmony within the Democratic caucus, however, with at least one member pledged not to vote for Kowalski's continued leadership and other members somewhat openly eyeing party leadership posts.

FAMED ACTOR FRIENDS — Jack L. Warner, often called the "Last Tycoon" of Hollywood is shown with two top actors who appeared in his movies. With him are Al Jolson (top right) and Jack Benny (bottom right).

A Hollywood Pioneer—1

'Last Tycoon' of Filmdom

(EDITOR'S NOTE — They call him "The Last Tycoon," and the description is apt. For Jack L. Warner is the role survivor of the moguls who once practiced one-man rule in the studios of Hollywood. This is the first in a three-part series on Warner's illustrious career.)

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — The audience at the glittering premiere of the San Francisco Film Festival had never seen anything quite like it. Jack L. Warner had been called to the stage to be honored for his contribution to the art of the cinema. George Dušek of the San Francisco Examiner reported the performance.

"Warner read the last page of his speech first, accepted the Golden Gate statuette before it was presented to him and denounced communism for several minutes while (emcee Peter) Ustinov wrung his hands like Zasu Pitts."

After rambling ribaldly on other subjects "aware of the boos and insults coming from the audience, he peered out into the auditorium and said, 'Somebody is giving me the goose.'"

On the following day, the Festival presented a retrospective program of the achievements of the film maker during his 45-year tenure as head of production for Warner Brothers. Critics marveled at the panorama of distinctive films and personalities.

John Barrymore in the silent "Don Juan," Al Jolson in "The

Jazz Singer" speaking the first words heard in a feature movie. Edward G. Robinson, James Cagney, Humphrey Bogart as the snarling symbols of the gangster era. Busby Berkeley's geometric fantasies in the Dick Powell-Ruby Keeler musicals. Bette Davis at her dramatic heights, the young John Garfield in "Four Daughters," Paul Muni as Zola. Bogie in "Casablanca" and "Sierra Madre." Brando as Stanley Kowalski. Gary Cooper as Sergeant York. Cagney as George M. Cohan, etc., etc.

San Franciscans learned last month what Hollywood has known for decades: that Warner's films speak better for him than he does.

Jack Benny once cracked: "Jack Warner would rather tell a bad joke than make a good movie." That is not entirely true. While he seems to take rare delight in telling bad jokes, there is nothing in the world he would rather do than make a good movie.

That has been true since he and his brothers started producing movies in St. Louis back in 1912. The four boys were sons of Polish immigrants, and they started in the film business in New Castle, Pa., with a converted store they called the Bijou.

Down through the empire-building years, Jack always operated the studio while his other brothers took care of business matters in New York. Now Harry, Albert and Sam are dead, and Jack rules Warner Brothers as president and production chief.

A vigorous 74, he is often termed "The Last Tycoon." He actually bears little resemblance to the movie boss in the unfinished F. Scott Fitzgerald novel of that title, but the sobriquet fits.

Children's Sleep Probed for Secrets of Asthma

DENVER, Colo. (AP) — Sleeping children are telling secrets about asthma — a tragic and sometimes deadly disease that grips five million Americans.

Machines record the pulse, breathing, heart beat and brain waves of these youngsters in slumber — and it also records the very movement of their eyes to show when they are dreaming.

Researchers here are looking for patterns that develop before

an asthma attack — a constriction of breathing passages that makes the victim feel like he is suffocating. A severe attack can bring death.

Dr. William W. Hahn is conducting the study at the Children's Asthma Research Institute and Hospital. The hospital offers treatment to youngsters 6 to 15 from the United States and abroad.

BASED ON SEVERITY

Admission is based on the severity of the case and is limited to children who get no relief

from conventional treatment. Dr. Hahn has completed a study based on tests of waking children which shows that asthmatics have different heart beat and breathing rates than healthy youngsters.

"What I'm interested in is what in the nervous system is responsible for triggering this asthma attack," said Dr. Hahn. He explained that the heart rate and similar body functions are controlled by the autonomic nervous system, composed of

two branches which work in opposition to each other.

BALANCE DISTURBED

One speeds up the heart, the other slows it down. Normally, said Dr. Hahn, they achieve a balance or harmony. But he believes in asthmatics the balance is disturbed.

Doctors believe that emotional problems can cause asthma, as well as physical factors such as allergies.

Dr. Hahn is hopeful that the study will show whether emo-

tional stress can trigger an asthma attack. His machines can measure psychological reaction by tracing the brain wave pattern, he said.

He also wants to determine in which of the four stages of sleep asthma attacks occur. Stage one, in which a person dreams, is the stage of lightest sleep. The deepest sleep is in stage four.

Rapid eye movements

recorded by the machine show when a child is dreaming, said

Dr. Hahn. Everyone dreams, but although some don't remember their dreams when they awaken.

Dr. Hahn said it may be that psychological strain, allergies and disruptions of normal nervous system activity all lead to asthma by different routes.

The smallest muscle in the human body is the stapedius muscle in the ear, measuring less than one-thirtieth of an inch in length.

Rebounds After IBJ Surgery

Active Mart Rallies Strongly

NEW YORK (AP) — The stock market rallied strongly in active trading early this afternoon after President Johnson's successful surgery.

Doctors announced that a polyp removed from Johnson's throat was not malignant.

Prices moved ahead on a broad front and most groups and the glamor stocks showed gains.

Basing, reacting to a published report that it is favored to build the superonic transistor, spurred 2%.

Electronics also advanced because of the great amount of electronic equipment required by such a plane. Collins Radio, which is active in this field, jumped 4 points to 55 on a delayed opening of 30,000 shares.

The Associated Press stock advance at noon was up 2.3 to 301.7, with industrials up 2.7, rails up 2.1 and utilities up 3.

The Dow Jones average of 30

industrials at noon was up 4.55 at 820.25.

Gulf & Western, whose management boosted earlier estimates of profits, advanced 1 1/2 to 35 1/2 on a block of 57,800 after a trading halt.

Republic Steel, Bethlehem and Jones & Laughlin gained about a half point.

Prices advanced in active trading on the American Stock Exchange. Ameco and Conduction gained about 2 points.

Students Start Vigil at MSU

Refusal to Rehire 3 Instructors Protested

EAST LANSING (AP) — Arguing that Michigan State University acted unreasonably in refusing to rehire three instructors for 1967-68, about 50 students started an all-night vigil in a classroom building Tuesday night.

The United Students of MSU said the three instructors, in the American thought and language department, were recognized by students and faculty as capable teachers.

On Interest Rates

It's Uncle Sam's Move

By JOHN CUNIFF
AP Business News Analyst

NEW YORK — His wallet a bit thin because of the money he's spending in Viet Nam, Uncle Sam is about to approach you regarding a small loan — a couple of billion dollars, perhaps.

In doing so, he may provide a scrap of help to you after a year. Already some short fuses are sputtering.

Everyone, Uncle Sam expects, knows you have the money. The problem is how to try it away from you, and the answer is by offering high interest rates. But high interest was a nasty phase we thought was behind us.

One reason we thought so was that the Federal Reserve's September clampdown on the rate that savings institutions could offer. It helped cool a rate war. Will the reopen it now? That's the question — and it's Uncle Sam's move.

SAVINGS BONDS
His plan is to offer purchasers of Series E Savings Bonds, which return 4.15 per cent interest, the opportunity to also purchase savings certificates at an even higher interest rate.

Commercial banks, savings and loan associations, mutual savings banks and credit unions, in that order, the chief competitors for this type of money.

On the sidelines, but still vitally interested, are most other financial institutions as well as the stock and bond markets.

The first to be heard from undoubtedly will be the savings and loan associations. For them, it has been a very rough year. Once they offered some of the best rates available, but rates soared everywhere this year.

MONEY DEMAND
One aspect of this economic boom was a tremendous demand for money. It surprised even the Federal Reserve's top bankers. Consequently, the price for it soared also. Soon banks offered more than savings associations'.

These associations need a steady inflow of money in order to reinvest it at a higher rate, principally in house mortgages.

The savings associations were caught from both directions. Housing was in a slump — although tight money might have helped cause this — and that was their main outlet. And high interest rates elsewhere denied them the money they needed to work with.

In September, Uncle Sam offered some relief by putting a lid on rates. The savings associations came off well, or at least in a better position than they had been in. Their rates were pegged near the top.

ON SAVINGS
Commercial banks, for example, can give only 4 per cent on time deposits. The savings associations, however, can give 4 1/2 per cent. And on savings certificates they can offer 5 1/2 per cent.

This, said the Federal Home Loan Bank Board, was an attractive proposition. It would help "stabilize the situation — prevent any further bleeding."

The savings associations now feel that blood might be spilled that Uncle Sam might offer so attractive a prospect to the associations will be right back where they were. How attractive?

Five per cent is the speculation. Some savings associations people feel the Treasury will move to 5 1/2 per cent to attract the amount of money it needs, some \$2 billion. They are sputtering mad.

But why? Five per cent still is less than the associations can pay on comparable certificates. They reply: "We can't offer the motive of patriotism, as can Uncle Sam. Neither can we offer payroll deduction plans."

It's Uncle Sam's dilemma. And it's his move.

Car Sales Lag in November

Auto Critic

DETROIT (AP) — New car sales in early November ran behind their 1965 pace by more than 100,000 units, according to General Motors Corp. and others, claiming volatility in its privacy.

Preliminary sales reports listed sales of 251,012 new cars, down 5.6 per cent from the 265,795 sold in the opening 10 days of November 1965.

On a percentage basis, Ford was off the most as its Nov. 1-10 report was 10.7 per cent below a year ago, American Motors and Chrysler 2.4 per cent.

Some of the brightest reports came from Cadillac, Buick and Pontiac, all of which sold more cars than in any previous opening 10 days of November.

Among GM divisions as it was down about six thousand cars over a year ago.

CALENDAR YEAR
On a calendar year basis, industry sales were off about four per cent over the record setting pace of 1965. Sales this time around through November 10 came to 7,199,964 units, comparable period of 1965.

The sporty, personalized car sector remained one of the strongest segments of the market in early November with Ford selling 13,218 Mustangs, off slightly from the 13,947 of a year ago.

Mercury's new Cougar, which sold 2,487 sales and Chevrolet's new Camaro had 4,955 sales.

Plymouth is due to join that sporty car competition Nov. 22 when its enlarged, revised Barracuda line goes on sale.

Jobless Total Dips to 2.2 Pct. in State

DETROIT (AP) — Unemployment in Michigan dipped to 2.2 per cent of the work force in October, the Michigan Employment Security Commission said Tuesday.

The figure was the lowest rate in a year and translated to about 75,000 jobless workers in the state.

The MESC said about 36,000 were out of work in Detroit or 2.2 per cent of Oct. 15.

Previous low for the state during the past year was in October 1965, when 2.3 per cent were unemployed.

"FINE MONTH"
Malcolm R. Lovell Jr., MESC director, said the "booming auto industry" makes October "always a fine month in Michigan."

The September jobless rate was 2.7 per cent for the state and 2.9 per cent for the Detroit area.

The MESC said 2,182,300 persons were working in the state and 1,545,500 in the Detroit area as of Oct. 15.

Q. "Urged by professionals whom we respect, we purchased 100 Mallinckrodt Chemical at 184. The last time I dared look it was 60. Do you have any word of comfort?"

A. Shortly after your letter was written Mallinckrodt at a bounce back nearly 20 points to around 94 bid. This action reflected the generally strong markets of late October, the likelihood of a comeback for chemical shares and rising profits from Mallinckrodt's operations. Your company reported a 40 per cent gain in share earnings for the first nine months of 1966. The September dividend was raised to 35 cents from 30 cents quarterly.

For several years the price movements of the chemical stocks have been irregular at best. Market action depends on their respective positions in such areas as plastics, synthetic fibers, fertilizers, and other chemicals. From January to mid-October of 1966 the group declined 35 per cent against a drop of 25 in the Dow industrial.

\$26-Million Suit Filed by Auto Critic

NEW YORK (AP) — Auto critic Ralph Nader today filed a \$26-million suit against General Motors Corp. and others, claiming violation of its privacy.

In the action filed in Manhattan Supreme Court, Nader charged that the defendants violated his right of privacy and subjected him to "harassment and intimidation" and intruded into and invaded his "seclusion, solitude and private affairs."

The complaint, filed by the law firm of Speiser, Shustine, Gogham & Krause, also named as defendants Vincent Gillen, the Vincent Gillen Associates, Inc., and Fidelity, Inc.

Nader charged that General Motors, when it learned of the imminent publication of his book, "Unsafe at Any Speed," decided to conduct a campaign of "intimidation, smearing and otherwise severely injuring" him.

On a percentage basis, Ford was off the most as its Nov. 1-10 report was 10.7 per cent below a year ago, American Motors and Chrysler 2.4 per cent.

Some of the brightest reports came from Cadillac, Buick and Pontiac, all of which sold more cars than in any previous opening 10 days of November.

Family Event for Retarded

Members of the Waterford Organization for Retarded Children (WORC), will add another event to their yearly agenda when they meet tonight for their first Family Recreation Night, 7:30 to 9 in Cray Junior High School, 501 N. Cass Lake.

According to Mrs. Robert McClelland of 1234 Albi, this is the first time that any retarded children's association has established a family recreation night in the area. Mrs. McClelland is president of WORC.

Cosponsor of the event is the Waterford Township Recreation Department.

WORC is marking National Mental Retardation Week, Nov. 13 through 19, with a display at the Pontiac Mall entitled "The Art of Learning." The exhibit features projects in the field of arts and crafts made by retarded children in the Waterford Township School system.

Formed in April 1965, the association has sponsored many activities for the retarded in the area.

Interested persons are invited to attend tonight's event, or to visit any of the organization's regular meetings on the last Tuesday of each month, at 7:30 p.m. in Pierce Junior High School, 5145 Hatcher.

School Board to Open Bids on Bond Sale

The Waterford Township Board of Education is slated to open bids for the sale of \$10,775,000 in general obligation debt, retirement bonds tomorrow night for construction projects approved by school district voters June 13.

Issuance of the bonds was approved Oct. 24, by the Michigan Municipal Finance Commission.

The bonds would finance construction of a new high school, a new elementary school and improvements to existing buildings and acquisition of new sites.

In other business, the board will review final plans for remodeling and site development work at Waterford Township and Waterford Kettering high schools and for improvements at Houghton, Lotus Lake, Lutes and Sandburg elementary schools.

These projects are part of a \$5,975,000 bonding proposal approved by voters June 13.

Also slated for board action are recommendations by Supt. of Schools Dr. Dan O. Trotter regarding the educational plan for the proposed \$4.25-million new high school and a bid for installation of a septic system at Strimgham School.

The earliest known primates appeared in the Paleocene period of about 70 million years ago.

When to sell securities for income tax savings

Fluctuations in market prices this year have created opportunities for tax saving through sales, properly timed sales completed before December 31. Now is a good time to review your portfolio for changes that could influence your 1966 income tax, and also improve the investment quality of your holdings.

Send today for your copy of 1966 SECURITY TRANSACTIONS. 24 pages of tax saving facts.

Staff Boost Backed for County Facility

Addition of 11 persons to the Oakland County Sanatorium staff was recommended yesterday by the personnel policies committee of the County Board of Supervisors.

The heavy work load of present employees due to the requirement of intensive care for most patients was considered by the committee in its recommendation to bolster the staff.

Anthony G. Wodek, director of the sanatorium, told the committee that about 80 per cent of the cost of hiring new personnel would be borne by federal funds earmarked for Medicare and Medicaid patients.

The balance would be a county cost which must be approved

by the ways and means committee of the supervisors.

Needed to bolster the staff are seven nursing persons, a physical therapist, a housekeeper, a dietary staff member and another person for the business office.

Only four new employees for the sanatorium were provided in the 1967 county budget.

Wodek said that the sanatorium has some 150 patients which is 90 per cent of the facility's capacity.

Welfare League Names Director

The Michigan Welfare League yesterday elected Thomas Chavez Jr. of 122 W. Fairmount to its board of directors at the group's first meeting in Detroit.

Present vice chairman of the Latin Americans United for Political Action (LAUPA), Chavez will begin a term as state chairman of LAUPA Jan. 1.

A member of the G.I. Forum, Oakland County Commission of Economic Opportunity and the recently formed Pontiac Citizens' Finance Study Committee, Chavez has been a leader of the Latin American community in Pontiac the past few years.

Meeting Slated at GMC Truck

Council chairman from the 19 nationwide sales organization zones of GMC Truck and Coach Division will attend the 1966 GMC Divisional Dealer Council in Pontiac Monday and Tuesday.

Robert C. Steier, GMC general sales manager and moderator, for the two-day conference, said "This interchange of thoughts and suggestions represents important customer relations improving the efficiency of field operations and assures better service to the public."

James W. Wayman — Service for James W. Wayman, 4125 W. Lincoln was to be at 2 p.m. today at the Manley Bailey Funeral Home. Cremation was to follow at White Chapel Memorial Cemetery, Troy.

Wayman, part owner and president of the National Heat Treat of Detroit, died Monday. A retired metallurgist, he was a member of First Church of Christ Scientist, Mother Church in Boston, and the Masonic Lodge of Cleveland.

Surviving are his wife, Marie W., a daughter, Mrs. Jack Elliott of Birmingham; son, Paul B. Wayman of Marshalltown, Iowa; and five grandchildren.

Memorials can be made to the Christian Science Society, Anna Maria, Fla.

Most Families Prefer Turkey for Thanksgiving Dinner

TURKEY IS KING — The early settlers began it and today's cooks continue the practice of roasting turkey for Thanksgiving. Modern turkeys have more white meat, are

more tender than those of the past. Savory stuffing and good gravy are important part of the meal. Beyond that, serve whatever pleases your family and guests. Garnish the bird

on the platter, but be sure to leave room for the carver to operate. Provide an electric knife or a razor-sharp carving knife.

Any way you look at it, a turkey is TOPS for Thanksgiving. In fact, the holiday isn't complete without it. Other things may change—the trimmings, the method of cooking the bird, even the family gathering place—but turkey continues to be king of the holiday board.

★ ★ ★

Since modern turkeys generally come frozen, the first task is to thaw the bird properly by one of two methods. (1) Leave the bird in original wrap and place under cold running water, allowing 2 to 5 hours for the process.

★ ★ ★

Or (2) leave bird in original wrap and place on tray in shallow pan in refrigerator. Allow 1 to 4 days for thawing.

★ ★ ★

A thawed or fresh ready-to-cook turkey can be kept in refrigerator at 38 degrees for 1 to 2 days; remove original wrap and cover loosely with aluminum foil.

★ ★ ★

Before cooking the turkey, rub cavity lightly with salt and sprinkle inside and out with monosodium glutamate. Use ¼ teaspoon per pound of turkey, sprinkling half the total amount over the skin, and the remaining half in the body cavity.

Basic Roast Turkey Timetable

Ready-to-Cook (lbs.)	Weight	Approximate Time (hrs.)
6 to 8		3 1/2 to 4
8 to 12		4 to 4 1/2
12 to 16		4 1/2 to 5 1/2
16 to 20		5 1/2 to 6 1/2
20 to 24		6 1/2 to 7

Since turkeys vary in type, roasting periods are approximate. You may have to decrease or increase indicated times.

Orange Cream Topping Dresses Pumpkin Pie

A traditional Thanksgiving dinner concludes with pumpkin pie. Now, as in the earliest colonial days, a pumpkin pie is judged to be perfect if it is light and tender of crust, with a smooth custard filling, mildly sweetened and gently spiced. Too, when being taken from the oven its delicately browned top should tremble ever so slightly. Serve your pumpkin pie embellished with curlicues of whipped orange cream and put a few fresh orange twists on top.

PUMPKIN PIE WITH ORANGE CREAM
3 eggs
¾ cup sugar
1 teaspoon ginger
1 teaspoon nutmeg
1 teaspoon cinnamon
½ teaspoon salt
1 ½ cups canned pumpkin, or squash
1 cup light cream
½ cup milk
Pastry
Orange Cream

Mix well beaten eggs, sugar, spices, salt and pumpkin. Add cream and milk; stir until mixture is smooth. Pour into a 9-inch pastry lined pie pan. Bake in a hot oven (400 degrees) 35 to 40 minutes, or until mixture is firm and crust is well browned.

PUMPKIN PIE WITH ORANGE WHIPPED CREAM

Juice, Bouillon for a Starter

A cupful of sparkling Cranberry-Bouillon will put your Thanksgiving guests in a festive mood. A perfect first course for this meal of meats, too. Cranberry juice cocktail and beef bouillon is a new flavor treat. One of those rare combinations that makes sipping and wondering share the secret for themselves.

CRANBERRY-BOUILLON
1 quart boiling water
1 beef bouillon cube
2 pints cranberry juice cocktail
Dissolve bouillon cubes in boiling water. Stir in cranberry juice cocktail. Heat to serve. Makes 8 servings.

Note: Cranberry-Bouillon can be garnished by floating cubes of cream cheese, sliced almonds, thin lemon slices, or sliced stuffed olives on top. If your family prefers chilled fruit cup combinations, you'll want to try this one with a cranberry mint topping.

CRANBERRY MINT COCKTAIL
2 bananas, diced
2 large apples, peeled, cored and chopped
1 cup small green grapes
1 cup cranberry juice cocktail
½ cup miniature white mints
Prepare fruit and mix with cranberry juice cocktail. Chill. Just before serving, spoon into sherbet glasses. Sprinkle mints on top of each serving. Makes 6 to 8 fruit cups.

Toasted Taste

Lightly toast finely chopped almonds, shredded coconut and bread crumbs under the broiler, toasting often until browned. It makes a glamorous topping for cooked green vegetables.

Salt the Inside

If you are not going to stuff a turkey, rub the inside of the bird with salt. Do not salt if the bird will be stuffed.

Fix Stuffing That Pleases Family Taste

What one family likes as a stuffing in the holiday bird doesn't please anyone else at all. But the basic recipe remains the same. Vary it as you wish. Stuff your turkey lightly and cook any extra in a casserole.

BASIC STUFFING
½ cup butter or margarine
1 cup chopped celery with leaves
½ cup chopped onion
MSG (½ teaspoon for 12-pound turkey, ¼ of total amount)
Water
2 packages (8 ounces each) prepared stuffing
½ cup chopped parsley
½ teaspoon each basil, rosemary, and thyme
Melt butter in large skillet; add celery and onion and cook until tender but not brown. Sprinkle with MSG. Add water called for in packaged stuffing directions; bring to boil. Add stuffing and herbs; mix lightly. Yield: Approximately 3 enough for 12- to 16-pound turkey.

Oyster Stuffing: Substitute 1 quart from 1 pint oysters for part of water; coarsely chop oysters and add to stuffing mixture.

Pecan Stuffing: Add 1 cup coarsely chopped pecans to stuffing mixture.

Mushroom Stuffing: Cook ½ pound mushrooms, sliced, with onion and celery. Or substitute liquid from 8-ounce can mushrooms for part of water; add mushrooms to stuffing mixture.

Pinch Drumstick

Use a meat thermometer for best results in judging when a turkey is done. If you don't have a thermometer, test by pressing the drumstick meat (should be very soft) and moving the leg joints (should move readily).

Turkey will cook faster if not stuffed.

Goose or Wild Duck Will Please Some

While turkey is the traditional main course for holiday dining, two other fine feathered fowl—goose and duck—are gaining in popularity.

Not that there's anything wrong with a handsomely roasted turkey, but a change of pace does everyone some good and delights the palate with new taste treats.

STUFFED GOOSE
1 goose (12 to 14 lbs.)
½ lemon
½ teaspoon salt
Stuffing
¼ cup minced onion
½ cup butter or margarine
2 cups chestnuts (1 lb.)
2 cups cooked prunes
1 teaspoon salt
¼ cup pepper
½ cup hot water
Few drops lemon juice
2 tablespoons steak sauce
Clean goose, sprinkle inside and out with juice of half lemon. Sprinkle cavity with salt. Dust goose with flour, prick skin several times and stuff with conventional and fruit stuffing. Cover and with stale heel of bread, and toast.

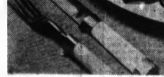

Place breast down on rack in roasting pan. Roast about

20 min. per lb. at 325 degrees. Pour off fat as you go along. About an hour before done, turn goose on back to finish roasting.

To prepare stuffing: Brown onion in butter or margarine. Cut cross with sharp knife in chestnuts and boil for 10 min. Peel and remove skin around kernel; chop coarsely.

Pit prunes, peel and slice apples. Mix onion, chestnuts, prunes, apples with cornbread, salt, pepper, lemon juice, and steak sauce. Add hot water and mix ingredients together.

When done, string together enough grapes to make "necklace" for goose. Serves 8-10.

ROAST GOOSE

with poultry pins or by sewing. Place in roaster, cover each duck with 3 strips of bacon. Roast uncovered in moderate (350 degrees) oven, allowing 15-20 min. per lb. 20 minutes before serving time, combine catsup, steak sauce and chili sauce and baste the ducks. Garnish with parsley and slices of oranges, with a few candied cranberries in center of each slice.

Skin the fat from the sauce and serve sauce with ducks. Serves 4 to 6.

Wild Duck
2 cups soft bread crumbs
¼ cup finely chopped celery
1 cup finely chopped onion
1 cup seedless raisins
1 cup pecans, chopped
½ teaspoon salt
¼ cup milk, scalded
2 eggs, beaten
2 (2 1/2 lb.) wild ducks
6 slices bacon
1 cup catsup
¼ cup steak sauce
¼ cup chili sauce

Mix together bread crumbs, celery, onions, raisins, nuts and salt. Add hot milk to the beaten eggs and then add to dry mixture. Dress ducks and fill with stuffing. Close the slits.

Roast in Foil
Cooking time for young turkeys can be shortened by covering the bird (with foil or roaster lid) and raising the oven temperature to 450 degrees. It will not, however, reach the same golden brownness.

Whipped Cream Is Excellent to Freeze
Sometimes when cream is served with coffee at a party, there's cream left over in the refrigerator.

You may want to whip it with a dash of salt and a little vanilla, and freeze it to have on hand to serve with a dessert. At serving time, offer the cream frozen or let it defrost.

Thanksgiving Casserole Mixes Two Vegetables
A combination of yams and other vegetables, baked in a casserole, is a dish worthy of your time. Try this one made of yams, broccoli and little white onions. . . all surrounded with a smooth and luscious cheese sauce for Thanksgiving dinner.

YAM BROCCOLI CASSEROLE
2 tablespoons butter or margarine
2 tablespoons flour
1 teaspoon salt
¼ teaspoon dry mustard
¼ teaspoon celery seed
¼ teaspoon pepper
¼ cups milk
1 cup grated Swiss cheese (about 4 ounces)
4 medium yams, cooked, peeled and halved or 2 cans (1 pound each) yams, drained
1 package (10 ounces) broccoli spears, cooked and drained
1 can (8 ounces) small boiled onions, drained
Melt butter in saucepan; blend in flour and seasonings. Gradually add milk; cook over medium heat, stirring constantly, until sauce boils 1 minute. Add ¼ cup cheese; blend until smooth. Pour sauce over yams, broccoli and onions arranged in casserole.

Sprinkle remaining cheese on top. Bake in 350 degree (moderate) oven 15 minutes or until heated through.

THREE-IN-ONE CASSEROLE

Let Carrots Marinate

For a change of pace in vegetables, try serving carrots this way. Cut the raw carrots into lengthwise quarters, place in a saucepan cover with salted water, cook over high heat 5 minutes, then drain.

Marinate the still-crisp carrots in the following dressing (enough for 1 pound of carrots): ¼ cup Spanish olive oil, ¼ cup wine vinegar, ¼ cup orange juice, ¼ teaspoon salt, dash of pepper, ¼ cup minced parsley, 4 or 5 slices of onion.

Remove onion slices before serving. This is best served at room temperature. Serves 8.

Chocolate Cake to Top with Ice Cream, Sauce

An out-of-this-world chocolate pound cake forms the base for a dessert designed to send chocolate lovers into orbit. Scoops of coffee ice cream and a special chocolate topping combine with it to make Chocolate Moon Magic — a delight to the eye and to the palate.

Chocolate Moon Magic
Chocolate Lunar Cake
¼ quart coffee ice cream
1 recipe Magic Chocolate Top-

ping
Slice Chocolate Lunar Cake. Place two small scoops or one large scoop of ice cream on each slice. Spoon Magic Chocolate Topping over ice cream. Makes 12-14 servings.

Chocolate Lunar Cake
1 bar (4 oz.) sweet cooking chocolate
2 cups sifted cake flour
¼ teaspoon salt
1 cup butter or margarine
1¼ cups sugar
5 eggs
1 teaspoon vanilla

Preheat oven to 325 degrees. Grease pan; line with wax paper and grease again.

Heat chocolate over hot, not boiling, water until partially melted. Remove from heat; stir rapidly until chocolate is completely melted. Cool.

Mix and sift flour and salt. Cream butter to consistency of mayonnaise. Add sugar gradually while continuing to cream; mix until light and fluffy. (This takes about 13 minutes with an electric mixer.)

Add eggs, one at a time, beating well after each addition. Stir in cooled chocolate and vanilla; beat well. Stir in flour mixture, a little at a time, blending well after each addition.

Spoon batter into prepared pan. Bake about 1 hour and 45 minutes or until cake tests done. Cool in pan 15 minutes. Then remove to rack, removing wax paper. Makes one 8x5x3 loaf or two 7½x3½x2 loaves.

Note: If using 7½x3½x2-inch pans, bake about 1¼ hours.

Magic Chocolate Topping
1 bar (4 oz.) sweet cooking chocolate
1¼ cups firmly-packed light brown sugar
1 cup light cream
Dash salt
1 teaspoon vanilla
½ cup rum

Melt chocolate over hot, not boiling, water. Add sugar and cream; mix well. Cook and stir a few minutes over boiling water; add salt and vanilla. Cool. Stir in rum. Makes 2 cups.

MOON MAGIC — Chocolate Moon Magic is a happy combination of tender chocolate cake, coffee ice cream and rum-flavored chocolate sauce, and a treat for any earthly. The cake itself makes heavenly eating.

Turnovers Can Be Made in Advance

By CECILY BROWNSTONE
Associated Press Food Editor
One of the most delicious hors d'oeuvre we have tried recently is in turnover form.

Pie crust mix is used for the pastry, and the filling is a luscious combination of Roquefort cheese, butter, eggs and a suspicion of scallion.

This recipe makes a lot of turnovers. You'll find them great to serve for an afternoon or evening refresher.

If any are left over, store them in a tightly covered con-

tainer in your refrigerator and reheat them; they'll add a delectable touch to a main course salad lunch or supper.

Roquefort Turnovers
½ pound Roquefort cheese
2 tablespoons minced scallions
2 pound butter, soft
¾ cups Heavy cream
2 packages (each 10 ounces) pie crust mix

Mash Roquefort; stir in scallions and butter. Beat eggs until they are thickened and lemon colored; add half of these beaten eggs to the Roquefort mix-

ture; beat until thoroughly blended.

Beat in enough cream, a little at a time, to make a thick paste that holds its shape. Reserve the remaining egg.

Prepare pie crust mix according to package directions. With a prepared pastry cloth and a stocknet-covered rolling pin, roll out pastry so that it is about 21 by 13 inches; with a ruler, square sides so that you have a 20 by 12½-inch rectangle. (Pat leaveings into a ball; cover and refrigerate.)

With a pastry wheel or sharp knife, cut the pastry rectangle into 2½-inch squares — there will be 40. Brush the edges of each square with some of the reserved beaten egg. (Use refrigerated scraps of dough with any leftover filling.)

Place on lightly greased cookie sheets. Brush tops with the remaining beaten egg and prick with a fork. Bake in a hot (425 degrees) oven for 12 to 15 minutes or until lightly browned.

With a wide spatula, remove to a wire rack. Serve warm or reheat.

Toast-Man Tops Bowl of Soup

Tailored to a child's fancy are whimsical toast-man atop a bowl of soup: Heat one can (10½ ounces) condensed noodles and ground beef soup according to label directions.

Meantime, make a toast-man by cutting a slice of toast into 4 strips, 1½ inches long, for legs and arms and into 1 large and 1 small square for body and head. Pour soup into bowls and arrange toast pieces on top. Makes 2 to 3 servings.

Form Shrimp Mixture into Tiny Flat Patties

When you're proud of your native state, you naturally want to share its charms with others. Texan Mary Faulk Kooch has chosen an ingenious way to extol the glories of her state — by writing "The Texas Cookbook" (Little, Brown & Co., Boston, \$6.95).

For many years the owner and operator of a restaurant in her home, Green Pastures, in Austin, the author traveled from Brownsville to Pecos, Beaumont to El Paso, gathering as she went first-hand knowledge of Texas personalities and pleasures, anecdotes about Lone Star

State hospitality style from baroque to banquet — and as fine a collection of recipes as ever originated anywhere.

Shrimp Dollars
1 pound uncooked shrimp
1 tablespoon cornstarch
¼ teaspoon salt
10 water chestnuts, chopped
1 teaspoon sherry
1 egg, slightly beaten

Shell, clean and chop the shrimp up fine. Mix chestnuts well with shrimp. Add cornstarch, sherry, salt and egg. Mix well and form into balls, then flatten with spatula. Fry in deep oil until golden brown. Serve hot.

Serve With Tomatoes

Simmer Sauerkraut

It's always easy to make a place on the dinner table for a serving of canned sauerkraut, and especially at this time of year. An extra seasoning or two and a border of meat crested baked tomatoes makes it into a heartier vegetable dish of Sauerkraut Provencale.

It is a choice companion for a cold cuts platter, roast fowl or a crown of pork, lamb or veal. You'll find the recipe for Sauerkraut Provencale an easy one to do. The sauerkraut is slowly simmered with bits of salt pork, onion rings and strips of green pepper.

Once that's on to heat, you can start fixing the tomatoes. Use medium size ones and sprinkle them with seasoned salt, sugar and parsley flakes—just an accent of each since a thin layer of canned deviled ham will impart the chief flavor. Top each with coarsely crumbled seasoned bread dressing and allow twenty minutes baking time.

Serve the sauerkraut piping hot and heaped to the brim of the dish with the tomatoes at the edge.

Sauerkraut Provencale

- 1/2 lb. salt pork
- 1 can (1 lb. 11 oz.) sauerkraut
- 1 medium onion
- 1/2 medium green pepper
- 5 tomatoes (about 2-inches in

- diameter)
- 1 teaspoon sugar
- Seasoned salt
- Parsley flakes
- 1 small can deviled ham, or potted meat
- 2 tablespoons packaged seasoned bread dressing

Cut salt pork into small pieces and cook until lightly browned in a heavy skillet. Add sauerkraut, the onion which has been sliced and separated into rings, and the green pepper cut into strips. Cover and simmer gently about 30 minutes. Stir once or twice during cooking.

Cut tops from tomatoes. Place tomatoes in a shallow baking pan. Sprinkle each lightly with sugar, seasoned salt and parsley flakes. Put deviled ham on top of each.

Crush dressing into coarse crumbs and sprinkle on top. Bake in a moderate oven (375 degrees) about 20 minutes. Do not overbake.

Empty sauerkraut into a shallow serving bowl and arrange tomatoes around edge. Five servings.

Lollipop Center

When making popcorn balls, form them over a lollipop. The children will be thrilled to find a surprise inside, and the lollipop stick serves as a handle and helps prevent messy eating.

RIGHT FOR AUTUMN—A favorite vegetable dish for cold weather meals is Sauerkraut Provencale. Here it is served in a

shallow dish with the border of meat crested baked tomatoes.

Nutmeg Butter Peps Vegetables

Nutmeg butter is delicious on a variety of vegetables, including snapbeans, carrots, onions, beets, acorn squash and sweet potatoes. Just blend 1/4 teaspoon of a surprise inside, and the lollipop stick serves as a handle and helps prevent messy eating.

Spicy Sauce Is Best on Seafood

Men usually like this spicy sauce served with seafood.

Spicy Cocktail Sauce
(bottle (12 ounces) chili sauce
(yields 1 cup plus 2 tablespoons)

- 3 tablespoons lemon juice
- 1 tablespoon prepared white horseradish, undrained

1 tablespoon Worcestershire sauce
Stir together all the ingredients; cover and chill. Makes about 1 1/2 cups. Store any sauce remaining in tightly covered jar in refrigerator.

Europe imported 23 million tons of U. S. coal in 1965.

Tuna and Fruit Make a Pretty Salad

If, like most of us, you're looking for something to help balance the budget these days, remember to include tuna in your menus frequently. Skyrocketing food prices make tuna especially attractive, for it's a very economical source of top notch protein. There's no waste either: the can's chock-full of solid "meat."

Flavorful when served alone, tuna also stretches your food dollars by combining readily with many other foods.

You're sure to have requests for a repeat when you serve this year-round salad. Use solid-pack tuna to obtain good-sized pieces for an attractive salad. Combine with slices of

ripe, buttery avocado, juicy orange sections and crisp romaine lettuce. A tart lime dressing enhances the fish and fruit.

Give the salad a surprise ending and a wonderfully distinctive flavor by crowning it with a liberal sprinkling of crunchy filberts.

Pacific Coast Tuna Salad
1/2 cup lime juice
1/2 cup salad or olive oil
1 teaspoon chopped parsley
1 teaspoon salt
Dash white pepper
1 medium head romaine lettuce

- 2 cans (6 3/4 or 7 ounces each) solid-pack tuna, drained
- 2 fully ripe "California" avocados, peeled and sliced
- 2 medium oranges, peeled and sectioned
- Chopped filberts

Combine lime juice, oil, parsley, salt and pepper; refrigerate. Line salad bowl with lettuce leaves. Place tuna in center; arrange avocados and oranges around tuna. Sprinkle with nuts and serve with lime dressing. Makes 4-6 servings.

* * *
Buy, fully ripe or ripen at room temperature until soft to the touch.

PACIFIC COAST TUNA SALAD — Protein-rich tuna, yellow avocado slices, sweet juicy oranges and crunchy filberts unite in a palate-pleasing salad that can be served for all seasons.

It's almost like spooning up pure gold when you stake out your first claim to Kroger Peaches! Such sweetness and flavor comes only from warm sunshine ripening the fruit to perfection right on the tree. Gently, each peach is picked down by hand... peeled... nestled in a bath of heavy syrup. Every tin graded "Choice" by the U.S. Government! Yet all this fussiness doesn't cost you a penny extra. Actually costs you less than for other brands! Same is true for Kroger Pears, Apricots and other dessert fruits. Every one is a peach of a buy! Especially now...

Elegant Filled Pancakes Are for Dessert

"Crepes Suzette" has helped many a French chef establish his claim to fame. You'll be famous yourself when you serve these "Rolled Toffee Cream Pancakes," an American version of crepes with a surprise ingredient — toffee candy.

Bits of chocolate-covered English toffee candy add a sweet, crunchy consistency to the filling-topping of this elegant treat. These pancakes are a great finale for a dinner, a dessert bridge or an important Sunday brunch.

Add a dramatic touch to your party by cooking the pancakes in front of guests in an electric fry pan. Or, cook them earlier in the day and reheat in a bit of butter on the griddle just before serving.

Different? Yes, and as a French chef might say, with a kiss of the fingertips, "Vive la difference!"

Rolled Toffee Cream Pancakes
1 envelope (2-oz.) whipped dessert topping mix
Chilled milk as required to

whip topping
¼ tsp. maple flavoring
¼ cup finely chopped English toffee bars
1 cup prepared pancake mix
1½ cups milk
2 eggs, beaten
2 tablespoons sugar
2 tablespoons cooking oil or melted shortening

Prepare dessert topping as directed on package. Add flavoring and fold in ½ cup chopped toffee candy.

Combine pancake mix, milk, eggs, sugar and oil or shortening; mix well. Bake on hot

griddle using about 3 tablespoons butter for each cake. Turn pancakes when browned on first side; bake second side. Remove from griddle and keep warm.

Spread each pancake with about 2 tablespoons of whipped topping-toffee mixture. Roll up. Top with remaining toffee mixture and sprinkle with remaining toffee. Additional whipped dessert topping may be prepared and used if desired. Yield: 6 servings, 2 to 3 pancakes each.

TOFFEE CREAM PANCAKES — Here's a dessert that's unusual and delicious. Delicate pancakes are rolled around candy filled whipped dessert topping. Have everything ready and prepare the dessert at the table.

Cheese Butter Top for Sprouts

This is such a simple recipe. It has only four ingredients and takes only a few minutes to prepare. Yet it is so appealing and so pretty that we are sure you will want to make it again and again.

October seems to call for color and this little side dish — with a golden butter of cheese and mustard melting slowly into velvety green Brussels sprouts — is just the thing to tone up autumn meals.

Brussels Sprouts with Cheese Butter
½ cup butter
¼ cup grated Cheddar cheese

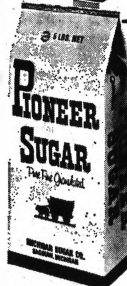

¼ teaspoon dry mustard
2 packages (10 ounces each) frozen Brussels Sprouts
Make cheese butter as follows: Cream butter; blend in cheese and mustard.
Cook Brussels sprouts as directed on package. Drain, if necessary. Serve topped with the Cheese Butter.

Making cookies for the holidays? Add 1 teaspoon of ground nutmeg, 1 tablespoon of ground orange peel and ½ teaspoon of grated lemon peel to dough made from your favorite plain cookie mix.

Sugar and Spice and Slivered Almonds Go into Rolls

The time has come to do some real baking again. Somehow the nostalgic aroma of bread baking seems to go with fall. Try these lighthearted, spicy "Almond Porcupine Rolls."

They involve an interesting technique as you'll see when you read the recipe, and they get their name from the fact that slivered almonds stick up above the surface of the rolls. They are exceptionally attractive and would "make" a brunch or coffee party.

They may be re-heated (careful not to burn the almonds) but they are at their best freshly made and still warm from the oven.

Almond Porcupine Rolls

1 envelope (¼ oz.) active dry yeast, or 1 cake (3/8 oz.) compressed yeast
¼ cup warm water
1½ cups milk
¼ cup butter or margarine
Sugar
¼ teaspoon salt
1½ teaspoons ground carda-

mom
About 5¼ cups sifted all-purpose flour
Blanched slivered almonds
Cinnamon (optional)
1 egg, beaten

Sprinkle yeast over water; stir until dissolved. Let stand 5 minutes. Scald milk in small saucepan; stir in butter, ¼ cup sugar, salt and cardamom. Pour into large bowl; cool to lukewarm.

Stir in yeast and flour, a little at a time, beating well

to make a soft dough. Let dough rise about 1½ hours, covered in warm place (80 to 85 degrees) until doubled in bulk.

Punch dough down; turn onto lightly floured board. Knead until smooth and elastic; add a little more flour if needed.

Divide dough in two parts; roll each into a 14 x 10-inch rectangle. Sprinkle each with ½ cup almonds, 2 teaspoons sugar and 1 teaspoon cinnamon. Roll up jelly-roll-fashion.

With sharp knife, divide each roll into 16 slices. Lay slices, even sides up, on greased

cookie sheets, about 2 inches apart. Make deep depression crosswise through center with handle of spoon.

425 degrees 10 minutes or until golden brown; remove to rack. Makes 20 rolls.

Variety Pleases

Instead of baking a two layer (8-inch) cake, bake just one layer, then make the remaining dough into cup cakes. Different frostings may be used upon the two, and the family will appreciate the change.

When you take the handle away, cut-sides of roll will meet on top and the almonds will show here and there along edges. Stick about 5 almonds part way into the depression just far enough so they will stay in place.

Brush rolls carefully with egg; let rise in warm place until light about 45 minutes. Bake at

Replace Softener

Don't forget that the slice of apple that you place in the cookie jar, cake box, or brown sugar jar to keep these items from becoming stale, cannot itself stay fresh forever. Replace it with a new slice ever so often.

Vaccine Wait Unnecessary, Sabin States

By Science Service
WASHINGTON — Five years may be just too long to have to wait for a German measles vaccine, Dr. Albert B. Sabin, father of the live polio vaccine, declared.

Dr. Sabin left his own sick bed in Walter Reed Army Hospital in Washington to make his point before an international meeting of virologists.

"Should we have to wait five years," he demanded, "to make rubella vaccine available to young girls who may have deformed babies because they married before arguing groups got around to deciding which method shall be used for making the vaccine?"

Dr. Maurice R. Hilleman of the Merck Laboratory had reported earlier at a session of the International Conference on Vaccines against Viral and Rickettsial Diseases of Man that his vaccine is available and safe, but must go through extensive and time consuming human testing required by federal licensing regulations.

Dr. Sabin also denied, in an interview with Science Service that there is any "growing danger" of polio in tropical and developing countries. There is a need, he feels, for an emphasis on health services in these areas.

VACCINES NOT AT FAULT

"It is not the vaccines that are at fault," he said. "... but if they are not put to use, they are failures."

Dr. Sabin emphasized that the delay is not the fault of the federal government, which is justified in waiting until its safety requirements have been met.

He did not predict how soon a rubella vaccine could be on the market but said "every year's gain means that several thousand babies will be saved from abnormalities."

Vitamin Can Be Overdone

By Science Service
CHICAGO — There is such a thing as too much vitamin D, even for arthritis sufferers.

Vitamin D has been used in the treatment of arthritis, allergy, rickets, psoriasis, acne, trichinosis (the disease from larvae of underdone pork) and calcium deficiency.

Dr. Frank E. Taylor of Charlottesville, Va., reports the case of a 41-year-old patient at Martha Jefferson Hospital who was able to get large doses of vitamin D without a prescription for 12 years.

At no time was he warned of the possible harmful effects of the drug.

After taking 200,000 units of the vitamin a day to help his arthritis, he was admitted to the hospital with a number of serious complications, including kidney and bladder deposits.

CONTINUED IMPROVING

X rays showed calcium phosphate or carbonate deposits in the tiny tubes of the kidneys. After the vitamin was stopped, he continued improving for the 18 months he was observed.

Energy Report Wording Mild

By Science Service
WASHINGTON — The long-awaited government report on the energy resources of the United States, a controversial document in preparation for some five years, will not step on anyone's toes.

As finally released today, the document is so mildly worded that the oil, gas and coal industries, as well as atomic energy proponents, should all be happy.

The report was rewritten so many times that no one has an accurate count, but the final draft made public apparently avoids all controversies.

If the report had been made public a year ago, that draft would have been much more controversial than the mild one now available.

A major change that has occurred since the first draft in 1961 is the rapid growth of nuclear plants as primary electrical power sources in the United States.

Some 16 per cent of all new power plants scheduled for or under construction during 1966 use nuclear rather than conventional fossil fuels.

SMILING SPACEMEN — Happy astronauts Buzz Aldrin (left) and James A. Lovell Jr. emerge from a helicopter on the flight deck of the carrier Wasp yesterday, a half-hour after they made a pinpoint landing in the Atlantic southeast of Cape Kennedy, Fla., to successfully end their four-day Gemini 12 space mission. (Other picture, page A-2.)

Two Spacemen Flying to Cape

CAPE KENNEDY, Fla. (AP) — Gemini 12's astronauts fly to Cape Kennedy today to begin a long series of discussions on their record-shattering space flight, a mission that opened the gate to the Apollo man-to-the-moon program.

Navy Capt. James A. Lovell Jr. and Air Force Maj. Edwin E. Aldrin Jr. planned to leave the aircraft carrier Wasp this morning for a two-hour flight to this seaport where they started the final Gemini journey last Friday.

The astronauts will remain at Cape Kennedy until Friday or Saturday, discussing their space flight in general terms.

Then they will fly to the Manned Spacecraft Center, Houston, Tex., for several days of detailed briefings.

After that they'll hold a news conference in Houston.

TRIUMPHANT FINISH

Lovell, 38, and champion space-walker, Aldrin, 36, brought the Gemini program to a triumphant end yesterday when their space chariot splashed into the Sargasso Sea area of the Atlantic Ocean, about 700 miles southeast of Cape Kennedy.

The landing was another example of the precision America has reached in its man-in-space programs.

For the fourth straight time, a Gemini craft landed close enough to its recovery ship for the descent and splash-down to be relayed live by television to U.S. homes.

A helicopter put the spacemen on the deck of the aircraft carrier Wasp 30 minutes later and they strode jauntily across a red carpet acknowledging the cheers of hundreds of sailors.

PLEASED BY FLIGHT

Stepping to a microphone, command pilot Lovell said: "We're both happy to end the Gemini program with a success. I hope we can continue to do as well in the space program."

Aldrin added: "We tried real hard to please everybody. I hope we've come halfway there."

Then they went below decks for extensive physical examinations, which they passed easily.

"They are in excellent condition and are in extremely good spirits," reported NASA physician Dr. Kenneth Beers. "There are no apparent problems."

Weatherman Sees Only Blue Skies

Another pleasant day is coming our way.

The weatherman predicts partly sunny tomorrow with temperatures mild. Tonight's low will be 40 to 45. Temperatures are expected to continue warm Friday.

Southwesterly morning winds at 10 to 20 miles per hour will become 6 to 14 miles tonight.

Thirty-nine was the low mercury reading prior to 8 a.m. in downtown Pontiac. At 1 p.m. the recording was 51.

Ruling Stands

LBJ Surgery Successful

2 Brazil Trains Crash; 30 Dead and 200 Hurt

Police Say Casualty Figures Likely to Rise as Wreckage Sifted

RIO DE JANEIRO (UPI)

A crowded commuter train collided with a passenger train south of Rio during the morning rush hour today. First reports said at least 30 persons were killed and more than 200 injured.

Police made the estimate of casualties and said they were likely to rise as rescue crews searched through the wreckage of the two trains.

The engineers of the two trains were among the dead.

Police said the accident occurred about 25 miles south of Rio at Olinda Station.

It said two of the six cars on the commuter train were destroyed in the crash.

CALLED TO SITE

Police, firemen and army troops were called to the site of the accident.

The injured were being taken to two state hospitals in Rio.

Police said the commuter train was headed toward Rio from Nova Iguaçu, some six miles to the north of the site of the accident.

The second train was headed from Rio to the terminal at Nova Iguaçu to begin a commuter run.

Commuter trains coming into the city each morning are packed with workers.

Prison Worker Charged With Teen's Murder

ANN ARBOR (AP) —

A 30-year-old supervisor at the Milan Federal Penitentiary was booked today on an open charge of murder in the strangulation of a teen-age boy whose body was found in a shallow creek last month. He also was questioned in a second murder.

Washtenaw County Sheriff Douglas Harvey said Ralph Nuss, a work release coordinator for the federal prison, was being held in connection with the slaying of Arland Withrow, 17, of Ypsilanti Township.

Harvey said Nuss had signed a statement, but the sheriff declined to disclose any details.

Nuss was arrested last night on a warrant charging gross indecency, and was questioned at the Washtenaw County Jail. An arraignment was scheduled for this morning.

Withrow had disappeared mysteriously from his home in the middle of the night last Oct. 16.

His body was found weighted by a cinder block in a creek near Port Huron with rope burns around the neck.

L'I' ONES

"Guess who's the subject in the next PTA series on 'Problems in the School Today'?"

CHEERFUL GOODBYE — President Johnson had a wink and a wave for photographers as he entered Bethesda Naval Hospital in Maryland near D.C. yesterday. He had successful surgery today.

Judge Refuses Injunction to Halt County Sewer Pact

A bid by a group of Avon Township and Rochester residents to stop the Oakland County Department of Public Works from signing a contract for the proposed \$33.3-million Clinton-Oakland Interceptor was stalled yesterday.

Circuit Judge Arthur E. Moore refused to issue an injunction to stop the DPW from signing contracts for the giant interceptor.

The hearing was continued, however, until after the contract is signed at which time Moore said he would accept evidence to determine its validity.

While no injunction was issued during the 45-minute hearing, the mere fact of suspended litigation could keep the county from selling bonds to finance the project.

County DPW Director R. J. Alexander said at a meeting in Avon Township last month that the Michigan Municipal Finance Commission would withhold its approval for such a sale if litigation were pending.

The suit, brought by six Avon Township and Rochester residents, alleges as illegal a proposal to return to Rochester any tax money collected from Rochester property owners by Avon Township to make payments on the system.

While the sewer financing is based on a tap-in fee payment (Continued on Page 2, Col. 6)

Role Growing in County

Family Cars in Boom

(Special to The Press)

NEW YORK — The family car has been having a greater effect than usual on the Oakland County economy during the last few years.

Car registrations have increased in number as local residents, with more money available to them than in the past, have gone in for new models in a big way.

At the same time, more and more families, especially those that include teen-agers, have become two-car owners.

The net result is that there are more automobiles around than ever before.

In the aggregate, the cars represent a considerable expenditure, from the standpoint of cost as well as maintenance.

MAINTENANCE COSTS

The amount spent in local service stations alone in the past

year, for gas, oil, and repairs and the like, came to no less than \$195,337,000.

The figures on auto population and cost are from the Standard Rate and Data Service. Its survey gives comparable data for all sections of the United States.

It shows that there were 159 passenger cars in operation in Oakland County for every 100 families at the beginning of this year, a higher ratio than in many areas of the country.

Factors that have contributed to the increase in the car population are the better roads that are now available, the greater dependence on the automobile for transportation, now that more people are living in suburban areas, and today's bigger incomes, which have brought car ownership within the reach of most families.

Twin Operation Is Over Quickly

WASHINGTON (AP) — President Johnson underwent successful surgery today—doctors said they found no malignancy—and in barely half an hour after the operation was writing out questions for his doctors.

Press secretary Bill D. Moyers said the doctors who performed twin operations—to remove a growth from Johnson's throat and repair an abdominal hernia—were satisfied with the outcome and with Johnson's health.

He quoted them as saying Johnson would be out of bed and taking a few steps around his third floor hospital room later today.

Moyers reported Johnson began coming out of the anesthetic about 15 minutes after the surgery was completed.

In another 20 minutes, he said, Johnson was handed a pad and pencil — he is supposed to favor his throat for a while — and wrote out: "Tell me something."

The doctors then gave Johnson a brief account of the operation but, apparently, that did not fully satisfy him.

TELL ME ALL

Johnson reached for the pad again and wrote, "Tell me all that took place."

Earlier, in making a bare announcement that the surgery had been successful and no cancer was found, Moyers had said the procedure took 53 minutes.

Moyers said the polyp in the president's throat was larger than the doctors had expected. He said they estimated it at 4 by 5 millimeters — a millimeter is .04 of an inch — whereas in advance of the operation the doctors had estimated only 3 millimeters.

Moyers said the doctors told him the polyp was located on the edge of the right vocal chord and had "dropped lower than the doctors had seen prior to the operation."

Moyers added that what the doctors called a "frozen section" of the polyp tissue was done immediately after the removal of the growth. This was for microscopic examination of the tissue to determine whether it showed any signs of malignancy.

Moyers said the examination showed that the tissue examined was "benign."

He added that in the words of Dr. James Cain of the Mayo Clinic, one of the President's team of surgeons, it was "clear-cut benign."

Reducing Bus Service Pondered

By L. GARY THORNE

Public bus service in Pontiac might be one cutback to consider in resolving the city's financial crisis, according to City Commissioner Leslie H. Hudson.

The District 4 commissioner wondered aloud last night at the weekly City Commission meeting if local residents realized just how serious the cash crisis is.

Local bus service, although the contract expired four months ago, is subsidized by the city, costing about \$20,000 a year, said Hudson.

Hudson said that at least one expert expects bus patronage, which has been steadily declining for several years, to get worse and worse and "eventually die on the vine."

According to Hudson, the question becomes a matter of whether the city is to subsidize

(Continued on Page 2, Col. 2)

Czechs Hold Yank; U.S. Mulls Action

WASHINGTON (AP) — The State Department says it is pondering what further action to take in the case of an American travel agent arrested by Czech authorities on spy charges.

The department identified him as V. J. Kazan, 42, president of the Harvard Travel Service in Cambridge, Mass., but an official of the travel agency said he uses the name Kazan-Komarek.

Kazan-Komarek was arrested when a Soviet airliner en route from Moscow to Paris made an unscheduled stop in Prague, the department said.

It said the Czech Foreign Ministry told the U.S. Embassy Nov. 3 that the arrest was made under a warrant issued in 1963 on charges of high treason, espionage and attempted murder.

State Department press officer Robert J. McCloskey said the United States had asked for access to Kazan-Komarek after learning of his arrest.

When the request brought no response, he said, Assistant Secretary of State John M. Ledy called in Czech Ambassador Karel Duda Nov. 8 and "impressed upon him the seriousness with which the United States views this case."

KAZAN

SAIGON Viet Battles Plane on Separate Fronts

SAIGON, South Viet Nam troops were locked in heavy fighting with Hanoi regulars near the buffer zone between the two Viet Nams.

U.S. planes, backing up the Americans in both areas, rained bombs on the enemy. One Marine helicopter was shot down but there were no casualties. It was the 24th helicopter reported lost in South Viet Nam in the war.

As the Marines fought the North Vietnamese soldiers about 10 miles south of the demilitarized zone, giant B-52 bombers struck in embattled Tay Ninh Province 60 miles north of Saigon. The seventh straight day, following up 104 strikes on Viet Cong positions by smaller tactical bombers.

The U.S. Navy disclosed that it had sunk or damaged 299 Communist cargo barges off the coast of North Viet Nam in the first 20 days of a new campaign — called Traffic Cop — to choke off seaborne infiltration into South Viet Nam.

The B-52 raid at midday came at the same time a battalion of 600 to 700 men of the U.S. 1st Infantry Division made contact with a Viet Cong force of 20-25 men. The outcome of the clash was not yet reported by U.S. headquarters.

Dems to Probe Voter Falloff

County Officials Eye Reasons for Defeat

Oakland County Democratic leaders, still staggering from last week's election loss, believe they know what caused the devastating setback.

The explanation offered by County Chairman George Gogasian is the failure of party members to go to the polls.

"Now we have to find out why," he said.

The answer hopefully will be revealed in a survey authorized by Democrats at their recent county convention last night.

The session had been recessed in August under state law to after the Nov. 8 general election.

OTHER BUSINESS

In other business, party officials, including Gogasian, were re-elected to two-year terms, and members of the 22 member executive committee named.

Between 200 and 250 Democrats attended the meeting held in the supervisor's auditorium at the Oakland County Service Center.

Gogasian said that a review of Democratic votes in some areas revealed a "tremendous falloff," while the totals for the GOs were virtually identical to four years ago.

Prof. Roger Marx, political scientist at Oakland University, will prepare the survey questions, according to Gogasian, and then study the results.

Volunteers will collect the information.

Other officers re-elected included: Vice chairman, Frances Clark of Birmingham; Willis Brewer of Sylvan Lake; and Harold Julian of Berkley; treasurer, Aldo Vagstad of Farmington; recording secretary, Mrs. Morris Weiss of Oak Park; and corresponding secretary, James Edwards of Pontiac.

Cutting City Bus Service Is Pondered

(Continued From Page One)

a dying service or provide equitable and adequate salaries for municipal employees.

"The financial crisis faces all residents, not just the commission," Hudson said. "There is a taxpayer's responsibility if these services are to be given and these expenditures are to be made."

Hudson, citing the recent "sick call" boycott in the city's police department, asked taxpayers to consider:

- The serious situation in Detroit when garbage collectors struck.
- The possible tragedy here if police or firemen don't do their jobs.
- The complaints if organized recreation and park services were cut back.

The northside commissioner pointed out that the police situation had prompted several phone calls to him reflecting concern.

Meanwhile, Hudson has repeatedly pointed to the steady decline of his patronage as a situation to be given serious consideration by city officials.

The city's contract with Pontiac Transit, which provides for the annual subsidy, expired July 1. The last meeting between the commission and bus company officials was held around the first of August.

A bus company official recently inquired about renewal of the contract along the lines of the increased subsidy.

The matter was discussed at last night's informal meeting prior to the regular commission session.

Laos General Takes Refuge

VIENTIANE, Laos (AP) — Gen. Kong Le, commander of the neutralist Laotian army, returned to Vientiane Tuesday night and took refuge in the Indonesian Embassy, senior officers at the royal army's headquarters reported today.

Kong Le went to Bangkok, Thailand, last month following an attempt by rightist army generals to pressure him into integrating his forces into the royal army.

Unconfirmed reports said he had resigned his command, but a government spokesman said he had not notified the Ministry of Defense of that.

Premier Souvanna Phouma said Tuesday that Kong Le was not in any danger, but royal army guards were posted around the Indonesian Embassy. A charge d'affaires Mahsouli refused to confirm whether Kong Le was at the embassy.

The rightist-led royal army and Kong Le's allied neutralists control the larger cities in southern Laos and areas along the Mekong River.

Big Decisions on Pilot Training Face McNamara

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara faces a series of key decisions in the next few weeks on Army, Navy, and Air Force requests for huge increases in pilot training next year.

The Army, now building up to a monthly training output of 180 pilots, is seeking to expand its present facilities and train 218 pilots monthly next year.

The Air Force is in the tightest bind, training about 235 pilots and utilizing its eight training bases to capacity. It has asked for two more training bases.

The Navy, now building up to a monthly training output of 180 pilots, is seeking to expand its present facilities and train 218 pilots monthly next year.

The Air Force is in the tightest bind, training about 235 pilots and utilizing its eight training bases to capacity. It has asked for two more training bases.

Yesterday, the same thing happened again.

A man approached her window and handed her a note which read, "I have a gun. Put all the money in this brown paper bag."

Miss Weineck said she didn't see any gun or any bag so she simply turned around and walked away. The would-be robber fled.

Miss Weineck told police that yesterday's bandit was nearly six feet tall, compared with a five-foot three-inch bandit that tried to rob her Monday.

AP Wirephoto

ATLANTIC LANDING — Gemini 12 is lowered into the Atlantic by its parachute yesterday in a successful splashdown southeast of Cape Kennedy. Astronauts Edwin E. Aldrin and James A. Lovell ended a four-day excursion around the globe and made a pinpoint landing.

Sheppard Murder Retrial Will Go to the Jury Today

CLEVELAND, Ohio (AP) — Then attempt to reach a verdict Samuel H. Sheppard's murder trial in the 12-year-old case. Sheppard is charged with second-degree murder in the bludgeoning of his first wife, Marilyn, in her bedroom July 4, 1964.

The packed courtroom listened intently to closing arguments Tuesday in the retrial which began Oct. 24.

Prosecutor John T. Corrigan spent only 24 minutes on his closing argument. He told jurors he was confident they would "bring back a verdict consistent with the facts of this case. A verdict that would tell Sam Sheppard he can't hide from the truth and tell the other would-be Sam Sheppards they also can't hide from the truth."

A PICTURE F. Lee Bailey, Sheppard's chief counsel, concluded his 70-minute argument by asking the jury to "put together a picture of what happened. And you can quickly say this man is and always was my guilty. I ask you to do it with dispatch."

Bailey said Marilyn was beaten to death by "someone with an awful hate, a hate this defendant could never have known."

Sheppard, 42-year-old former osteopath, was convicted of second-degree murder Dec. 21, 1954, after a nine-week trial. He served nine years in prison before being released on bond by a U.S. District Court in Dayton, Ohio, July 16, 1964.

The U.S. Supreme Court overturned the conviction in June and ordered that Sheppard be retried or freed. It said prejudicial news coverage denied Sheppard a fair trial.

Local Funds Will Aid Disposal Plan Study

A commitment for local funds today is the contract that Barry to aid in financing a study of a countywide refuse disposal plan will be sought by Oakland County Drain Commissioner Daniel W. Barry in a meeting next Wednesday with the county means committee of the board of supervisors.

Barry was named by the supervisors to conduct the study but the supervisors reserved the right to decide on the plan's implementing agent when the study is completed.

The meeting with ways and means was established yesterday by the supervisors drain committee which will appear with Barry.

A commitment for local funds for the eight-month study project is required for the federal grant applications the drain commissioner must carry to Washington by Dec. 1 for consideration early next year.

Also slated for discussion at the joint meeting next Wednesday

Birmingham Area News

Recreation Supervisor Picked

BIRMINGHAM — The board of education last night appointed a supervisor of recreation to direct the soon-to-be expanded recreation program.

He is Evan J. Staley, currently an elementary physical education instructor.

The schools and the city of Birmingham are disbanding their joint recreation program.

so that the schools can expand their program to include children outside the city limits.

In other action last night, the board named the architect firm of Tarapata, MacMahon Associates, Inc., to design and supervise the construction of several projects approved as part of a \$9.8-million bond issue last month.

These will include a library addition, tennis courts and driving range shelter for Seaholm High School, art and supply rooms at Barnum, and art and science rooms at Derby. A new salary schedule for administrators was tabled for further study.

Birmingham youth who run into conflict with the law discussed by Oakland County amount of aid varies according to the need of the applicant's family.

High School PTA meeting at 8 p.m. tomorrow. chairman of the program is George J. Fulkerson, a Birmingham attorney.

BLOOMFIELD HILLS — More than \$100,000 in scholarship aid is being offered by Cranbrook School for Boys for the academic year 1967-68.

Any boy, eligible for entrance into the ninth, 10th or 11th grade in September 1967, may apply for aid.

Applications must be received by March 1 and should be addressed to Howard M. Wert, director of scholarships, Cranbrook School.

Applicants are required to furnish a good school record of academic achievement and citizenship and financial need. The amount of aid varies according to the need of the applicant's family.

There's A Chance Your Thanksgiving Dinner Won't Cost You A Penny...

Here's All You Have To Do:

First you must buy a turkey at A&P.

Serve it for Thanksgiving dinner.

Be unhappy with it.

Come and tell us (and bring the price label
or register tape, of course).

We'll give you **DOUBLE YOUR MONEY BACK** (that
should just about cover the cost of your whole dinner).
Simple?

Well not really because we're not taking any chances.

We're selling only the finest turkeys.

Every "Super-Right" bird is U. S. Grade "A".

So we can't lose.

But neither can you.

Either you'll serve the finest turkey ever

or your whole dinner will be on us.

It's a million-to-one shot but

what have you got to lose.

Is this a good reason for shopping A&P?

It's one of many.

1966 PONTIAC OPEN BOWLING CHAMPIONSHIP

MEN'S SINGLES HANDICAP TOURNAMENT

(Sanctioned by The American Bowling Congress)

Qualifying: Nov. 27, Dec. 4, Dec. 11

Finals: Dec. 18

SITES: Huron Bowl—300 Bowl—Airway Lanes—Cooley Lanes

(Please Circle Preference of Date and Site)

Name _____
Address _____
(City—Post Office Mailing)
League _____ House _____
Final League Average of 1965-66 _____
(Give Highest Final Average—Note Rules 1-2 Below)
ABC Sanction Number _____

Tournament is based on 70% handicap of 200 scratch, open to all sanctioned ABC male bowlers who live in Oakland County or the immediate Pontiac zone area. Deadline for final entry is Thursday, December 8th at midnight. Deadline before each qualifying is Thursday prior to qualifying date. All entries should be left at the qualifying sites listed by deadline date with entry fees attached.

TOURNAMENT RULES

- Bowlers must present their highest final league average of the end of the 1965-66 season.
- If bowler has no final 1965-66 average, highest 18 game average of current season must be presented. If current average is 10 pins higher or more, than final 1965-66 average it must be used.
- Falsifying average will mean disqualification and forfeiture of entry fees and prizes.
- Tournament manager reserves right to reject any and all entries.
- Tournament in adherence with ABC rules.
- No substitute entries.
- No post entries after deadline. Bowlers failing to qualify first week can try again on 2nd or 3rd qualifying date.
- Bowler is eligible for only one monetary prize in handicap tournament. ABC requires that prizes of \$300 or more won in past 12 months must be reported. Please do so on reverse side of entry blank.
- Bowlers will pay bowling fees in semifinals and/or finals of the tournament.
- Times and squads to be published in Press on Friday of each week of tourney.

GUARANTEED PRIZES

- 1st—\$800
- 2nd—\$500
- 3rd—\$300
- 4th—\$200
- 5th—\$150

The top five prizes are guaranteed and the entire prize fund is returned 100% from the purse. Trophies will be awarded to winner and runner-up.

Ten per cent of qualifiers of each house assured of going into finals, and all of those reaching finals assured of prize.

Entry Fee

Bowling	\$1.65
Expenses	.85
Prizes	4.50
Total	\$7.00

Pontiac Open First Deadline Nears

First deadline for entries in the Pontiac Open Bowling Tournament is only one week away and the first 150 bowlers will have an added prize to shoot for — "The Early Bird Special."

Entries will be gathered at the four tournament sites, Huron Bowl, 300 Bowl, Airway Lanes and Cooley Lanes, and a list will be made up of the first 150 bowlers to enter.

Just for being an Early Bird entry, an additional prize of \$25 will go to the top qualifier from the list.

The tournament is a men's handicap event based on 70 per

cent of scratch and the top five prizes starting at \$800 will be guaranteed.

Target qualifying score for all bowlers will be "600". This is the total needed, inclusive of handicap, and the next step will be to move into the semifinals.

All entries for the first Sunday of qualifying should be in by 6:00 p.m. next Thursday which is Thanksgiving Day. This is to allow all squads and pairings to be set for Sunday, Nov. 27.

TOP QUALIFIERS

The top qualifiers from each of the four houses will earn trophies, and another objective for the bowlers will be the Actual's Invitational.

The top qualifying actual scores and the high average bowlers entered in the tournament will receive invitations to the Actual's.

This part of the tournament will follow immediately after the handicap finals which will be held this year at Huron Bowl.

The Detroit Bowling Association handbook will be used primarily for checking averages.

Bowlers must submit their highest final average of the 1965-66 season, and follow all rules as approved by the ABC on the bowling form.

Entries should be turned in to their respective houses of qualifying. Most other houses in the Pontiac area will also accept the tournament entries and forward them to the tourney sites.

The blank enclosed in The Press should also be sent in together with entry fees to one of the qualifying houses.

Ohioans Face Golf Leaders

PINEHURST, N. C. (AP) — The medalist team of John Jacobs and Curtis Person took on an Ohio team today in the second round of the World Senior Four-Ball Golf Tournament of the Southern Golf Association.

Jacobs, of Canton, Ohio, and Person, of Memphis, Tenn., swept seven holes and halved the others in eliminating C. E. Palmer of Sarasota, Fla., and Julian Stanley of St. Marys, W. Va., in Tuesday's first round.

Canadians One-Two in Horse Show

TORONTO (AP) — Moffatt, 30.6 seconds, slowest of the three, had 42. Neal Shapiro of Long Island, N.Y., 41. Miss Hofmann won the International event was the last of the three qualifying rounds for the 39 and Mary Chapot 37.

North American individual championship Friday. In the individual championship, Dunlap leads with 24 points and the qualifiers with points and Frank Chapot follows 18 points while Frank Chapot with 22.

Gail Ross, also of Canada, on The Hood, was second. Carol Hofmann of the United States, on Salem, was third and Frank and Mary Chapot of the U.S. were fourth.

The Canadians' one-two finish broke a tie for first place in international team standings, sending Canada into the lead with 71 points. The U.S. team is second with 61.

SECOND WIN
Dunlap's win was his second of the show and he said he was delighted with his horse which he bought in 1965 from Mrs. A. C. Rudolph of Virginia.

The Chapot husband and wife team from Wallpack, N.J., had four faults each on the first round and tied for fourth. Mrs. Chapot rode Tomboy, her husband Good Twist.

In the first round, the course was made up of 13 fences all above average height. Only Miss Ross, Dunlap and Miss Hofmann, of North Branch, N.J., rode without fault.

In the jump-off, Miss Ross knocked down the sixth fence and was assessed four faults and a time of 28.5 seconds. Dunlap knocked down fence No. 2 and was timed in 26.5 seconds.

Miss Hofmann tipped the last fence and it fell. Her time at Matsos With Chargers

SAN DIEGO, Calif. (AP) — The San Diego Chargers announced Tuesday they have obtained Arch Matsos, former All-American Football League line-backer who was released recently by the Denver Broncos.

'M' Council Act Explained

ANN ARBOR (UPI) — The president of the University of Michigan Student Government Council said today the council's move to sever its relationship with the university's office of student affairs was sparked by the office's refusal to negotiate student rules.

Edward Robinson, a senior from Haverford, Pa., said a university rule banning sit-in demonstrations was one of a series of rules decreed by the university without first discussing them with the Student Government Council.

The council voted 132 Monday night to end its association with the office of student affairs unless the council is given an opportunity to "participate in the decision-making process which affects students."

"Some people seem to think by this act the council's vote was aimed against the substance of the sit-in regulation," Robinson said today.

"In fact, Student Government Council did not have the opportunity to discuss the substance because the office of student affairs did not discuss this with us."

"Mustang" hi-rise bike!
