LBJ Weighs Military Action if Ship Not Freed

WASHINGTON (AP) — Official sources report President Johnson still seeks a diplomatic solution to the Korean crisis but that if the USS Pueblo and her crew aren't released by North Korea in a matter of days, he will urgently consider proposals for further military action.

U.S. officials, in reporting this, pointed to the President's surprise broadcast to the nation yesterday afternoon as providing evidence his diplomatic activities at the United Nations, Moscow and elsewhere are backed by the potential for military action if peaceful means fail.

"We have taken and are taking certain precautionary measures," Johnson said, "to make sure that our military forces are prepared for any contingency that might arise in the area.

"These actions do not involve a reduction in any way of our forces in Vietnam."

★ ★ ★

The President already has ordered the call-up of nearly 14,800 Air Force reserves.

PREPARATIONS

At the Defense Department, preparatory activity was under way in the National Guard Bureau and Reserve offices. Name lists and equipment inventories were being checked.

Some authorities speculated Johnson's next mobilization move could be to call up a National Guard division, but the President has not announced any decision.

Johnson's brief television-radio address was among many developments related to the seizure of the U.S. intelligence ship and her crew of 81 sailors and two civilians:

FBI Arrests 7 in Robbery Plot

SEATTLE, Wash. (AP) — The FBI has arrested seven men and accused them of plotting to blow up a police station and power plant and then rob four banks while the police were diverted.

The FBI said some were members of the Minutemen, described by the federal agency as an anti-Communist organization. However, in Norborne, Mo., Robert DePugh, chief of the Minutemen, said only one name was familiar to him.

Agents said floor plans of the banks, 10 gasoline containers rigged as firebombs, nine sticks of dynamite, blasting caps, a pipe bomb, a 32-caliber pistol and two 38-caliber pistols were found.

The FBI said the seven planned to rob three banks in Redmond, a few miles south and east of Lake City and Bellevue, and another in Des Moines, just south of Seattle, after blowing up the police station in the Redmond City Hall and a power plant in Redmond.

Federal agents said the men were led by Duane Ivan Carlson, 35, of Seattle, described by the FBI as a full-time Minutemen employe.

ARRAIGNED

They were arraigned before U.S. Commissioner Walter Reseburg on charges of conspiracy to rob a bank. Bail ranged from $500 to $30,000 for Carlson. By late yesterday, only one had posted bail.

Federal agents said the men designated themselves by numbers — 001 through 007 — in a conspiracy authorities said they had been aware of for several weeks.

BUGGING DEVICE

Reseburg said a search warrant was issued Thursday with the consent of U.S. Atty. Gen. Ramsey Clark to permit an informer to attend a meeting with an "electronic device."

Junior Miss Activity Fills Hopefuls' Day

Rehearsals and preliminary talent performances are filling the day for 47 girls in town for the Michigan Junior Miss Pageant, sponsored by the Jaycees.

The preliminary talent performances, open to the public, are at 2 and 8 p.m. in the Pontiac Northern High School auditorium. Tickets are available at the door.

Half of the girls will present their talents in the earlier show while the rest will appear later.

The finals are 5 p.m. tomorrow in the auditorium. The program will include a parade of contestants, Junior Miss talent performances, and the award ceremonies.

Kathy Fliss, Michigan's Junior Miss of 1967, will crown the new Junior Miss. She was a semifinalist in the national Junior Miss Pageant at Mobile, Ala., last year.

WINS TRIP

The new Junior Miss wins an all-expense paid trip to compete in the America's Junior Miss Pageant in March.

The winner also receives a $1,000 scholarship from Coca Cola Bottling Co., a $100 scholarship from Community National Bank, a $100 scholarship from Hudson's, a $500 savings bond from Chevrolet Division, General Motors Corp., and a $25 savings bond from Pontiac State Bank.

The girls, all winners in their local contests throughout Michigan, spent yesterday in rehearsals and personal interviews.

A measure of the girl's support from their home towns is indicated by a telegram to Ypsilanti's Junior Miss, Bonnie Feuerstein. Last night she received a 2½-foot-long telegram signed by 138 well-wishers.

Michigan's Junior Miss of 1965, Patrice Gander of Stevensville, went on to become America's Junior Miss. She is currently attending Marygrove College in Detroit on scholarship money won in the national contest.

Hanoi to Release 3 U.S. Pilots

TOKYO (AP) — North Vietnam announced today it had decided to free three American pilots captured in the North.

Hanoi's official Vietnam News Agency, monitored in Tokyo, said the pilots "had shown a repentant attitude during the period of detention" and were being set free in connection with the Tet (lunar) new year. The agency did not identify the pilots or say how they would be released.

The broadcast has not yet been confirmed.

No captured pilots have ever before been set free.

U.N. to Eye Canadian Plan to Gain Return of Pueblo

UNITED NATIONS, N.Y. (AP) — The U.N. Security Council's debate over North Korea's capture of the U.S. intelligence ship Pueblo centers today on a Canadian suggestion that intermediaries work on a deal for return of the vessel and her 83-man crew.

★ ★ ★

The 15-nation council scheduled a Saturday session on a U.S. complaint that North Korea seized the ship in international waters and also sent assassins into South Korea in an attempt to kill President Chung Hee Park.

U.S. Ambassador Arthur J. Goldberg filed the complaint Thursday night.

Canada's suggestion came at the council's first meeting late yesterday when the council voted to debate the Pueblo case 12-3 over opposition from the Soviet Union, Hungary and Algeria.

However North Korea declared today it will not recognize any U.N. Security Council resolution on the seizure of the USS Pueblo that covers up what it calls U.S. aggression. It said the nation was prepared for combat and could deliver the United States 'an exterminatory blow."

INTERMEDIARY

Canadian Ambassador George Ignatieff said the Security Council should "find appropriate means" of helping get "a speedy and equitable solution."

"One way of doing this," he said, "might be to arrange for an intermediary or intermediaries to exercise good offices in this matter."

He told reporters later, "I think that is the only way to get the boat back."

A Canadian source said that by intermediary Canada meant a country rather than an individual.

Search Grows for Israeli Sub

TEL AVIV (AP) — American, British and Greek ships and planes helped search today for an Israeli submarine with a crew of 69 which disappeared in a deep section of the Mediterranean Sea Thursday, an Israeli army spokesman said.

The spokesman said contact with the submarine Dakar was lost Thursday afternoon when it was 250 miles off the Israeli coast. There was no suggestion the submarine was lost to hostile action.

In the area of the search, south and southwest of Cyprus, the sea is more than one mile deep, the British Royal Air Force air-sea rescue coordination center on Cyprus said.

The Dakar — which means shark — was due to arrive in Israel Monday after being rebuilt at Portsmouth, England, last autumn. It was declared battle-ready in November after testing off the Scottish coast.

HONORED GUESTS — Durward B. Varner (right), chancellor of Oakland University, performed toastmaster duties in honoring Delos Hamlin, chairman of the Oakland County Board of Supervisors, last night. Hamlin, accompanied by his wife, is wearing a lei sent to him by a friend in Hawaii.

County Thanks Delos Hamlin

By ED BLUNDEN

Oakland County poured out its gratitude last night to Delos Hamlin, chairman of the board of supervisors, for his 25 years of service.

Ceremonies for "A Silver Anniversary of Service" were held at the New Raleigh House, Telegraph at 10 Mile, Southfield, with over 1,000 persons in attendance.

As toastmaster, Durward B. Varner, chancellor of Oakland University, described Hamlin as a "political statesman" and announced that a $4-million, nine-story dormitory under construction at OU would be named "Delos Hamlin Hall" in his honor.

Varner remarked, "We often take good government for granted, but we forget it takes men like Delos Hamlin to make it work."

The man being honored has the unique record in the county of serving 12 consecutive years as chairman of the board of supervisors. He joined the board 25 years ago as a representative of the city of Farmington.

Prior to his chairmanship, the post changed hands yearly. However Hamlin was credited with bringing leadership which the county badly needed and he was retained year after year.

N. Viets Shell Base After Truce Start

SAIGON (AP) — North Vietnamese gunners opened up with fresh mortar barrages on the U.S. Marine combat base at Khe Sanh today, seven hours after the start of a cease-fire proclaimed by the Vietcong for the lunar new year.

The Marines, waiting until 6 p.m. Monday to begin the allies' 36-hour cease-fire for the holiday, had been bombarding suspected enemy positions with artillery all night but the Communists didn't open up until 8:15 a.m.

★ ★ ★

Khe Sanh, in the northwestern corner of South Vietnam, is where U.S. commanders expect the enemy to launch a major offensive soon.

Associated Press correspondent Peter Arnett reported from the base that three Marines were wounded in the first 12-round mortar barrage.

FIRE RESUMED

The Communists fired again two hours later when a four-engine C130 cargo plane was landing with supplies, but missed the plane. Some grenade exchanges also were reported.

Enemy artillery, rockets and mortars wounded 20 Leathernecks at Khe Sahn Friday.

★ ★ ★

The North Vietnamese reportedly have two divisions poised around Khe Sanh, 16 miles below the demilitarized zone and seven miles east of the Laotian frontier. American commanders are expecting a major assault just after the seven-day Communist cease-fire.

★ ★ ★

Elsewhere in South Vietnam, fighting was expected to continue throughout the Vietcong cease-fire period, which began at 1 a.m.—noon Friday EST. The Communists had declared that any violation of this truce by the allies "will be punished severely," leaving the way open for them to keep shooting.

ATTACK NEAR SAIGON

Communist forces staged an attack near Saigon just after 1 a.m. and, in one of three assaults just before that hour, turned the tables on government police who were trying to ambush them on the southwestern edge of the capital.

★ ★ ★

About 30 South Vietnamese combat policemen were lying in ambush when the guerrillas blasted their positions with bazooka-type rockets, killing five policemen and wounding five and badly damaging a nearby police station.

★ ★ ★

It was one of the rare instances in which the Vietcong used the rockets inside the city.

Jobless Pay Dispute Looms for GM Idled

Some 2,600 out-of-work employes of General Motors in the Pontiac area may not get unemployment compensation, union spokesmen revealed today.

★ ★ ★

The workers have been sent home on the basis of a "labor dispute," which means the company plans to oppose granting of compensation, a UAW official said.

Affected are two large plants, Pontiac Motor Division and General Motors Truck and Coach. Pontiac Division has about 1,350 workers out, and GMC Truck has about 1,250.

The men were sent home during the week because of parts shortages due to strikes at three GM foundries in other parts of the country.

★ ★ ★

Martin Holt, vice president of Local 594, GMC Truck, said his men were given slips that said they were unemployed due to a labor dispute. He said workers should sign up for unemployment, anyway, and that the case will probably have to go to court. "We're sure they're (GM) going to fight it," Holt said.

MAY HAVE TO WAIT

This means workers may have to wait for their checks, even if won by the UAW, he explained. He said the international union was making arrangements for financial assistance for workers.

Joe Arthur, president of Local 594 at Pontiac Motor, said his men were sent home without layoff slips or else with slips marked "labor dispute."

A company official declined to comment.

★ ★ ★

National and local contracts have been signed in major Pontiac plants, including Fisher Body, but the local contract is still in the bargaining stage at Pontiac Division.

★ ★ ★

Layoff increases for next week have been predicted.

Soviet Ship Is in Midst of Navy Force

WASHINGTON (AP) — A Soviet intelligence-gathering ship appeared in the midst of a U.S. naval task force standing off the coast of South Korea but no action is being taken because the ships are in international waters, defense officials report.

The trawler-like Soviet vessel was identified by Navy officials Friday as the Gidrolog, one of many such Soviet ships which operate around the globe, often close to U.S. naval forces and bases.

★ ★ ★

Like the American task force, the Gidrolog is in international waters, officials said.

The carrier Enterprise, the Truxtun, a nuclear-powered frigate, and four destroyers are standing by in the southern end of the Sea of Japan for possible use in the Pueblo crisis.

CRISIS

The crisis erupted when North Koreas seized the USS Pueblo, an American intelligence gathering ship, and her complement of 83. The United States maintains the Pueblo was in international waters when she was seized late Monday.

Military Says Copilot Lost Life Trying to Save B52

THULE, Greenland (UPI) — An effort to save the B52 that crashed with four H-bombs on board cost the copilot his life, military sources said today.

They said Capt. Leonard Svitenko of West Springfield, Mass., was not in his ejection seat when the bail-out order was given and may have tried to jump through a hatch as the lane plunged toward the icy coast of Greenland at more than 400 miles an hour.

Svitenko "probably left his copilot's seat to secure the aircraft," the sources said. A sudden cabin fire had filled the plane with smoke and led to the emergency bail-out order. The other seven members of the bomber crew ejected and survived.

The sources said that without the use of an ejection seat at the speed the B52 was flying, it would be almost impossible to bail out.

★ ★ ★

"When Svitenko was found, his legs were badly burned and his parachute was shredded," they said. This, they said, indicated he may have tried to jump through a hatch but was blown back by the force of the wind.

NOT CLEAR

It was not clear whether Svitenko actually fell free of the plane or was thrown free after impact. The bomber skidded about 500 yards along the ice before coming to a stop and exploding with what a witness called "a great boom."

Jury Reverses '43 Conviction

A Pontiac Circuit Court jury yesterday reversed the conviction of John L. Woos, found guilty 24 years ago of killing a Bay City theater manager.

The retrial was moved from Bay City after defense attorneys requested a change of venue.

Woos, 47, allegedly confessed to shooting and killing Floyd E. Ackerman in December 1943 during an attempted robbery.

Woos spent 23 years of a life sentence in prison. A new trial was granted on grounds he was never advised of his right to counsel.

★ ★ ★

The retrial lasted eight days. Prosecution attorneys called 20 witnesses to the stand in seven days. The defense finished Thursday by calling three witnesses in one hour.

LANSING (AP) — The $600-million slash in 1968 federal highway aid will result in a $10-million cutback in Michigan's road construction program, the State Highway Department reports. John Woodford, deputy state highway director, said the department has been notified that Michigan will lose $7.6 million in federal funds. Combined with state funds, this will add up to the $10 million, he said.

Red Intruders Killed

SEOUL (AP) — American and South Korean troops and police have all but wiped out the 31-man North Korean team sent south to assassinate President Chung Hee Park, with 25 of the intruders killed and one captured. Two of the North Koreans were shot to death early this morning by South Korean troops pursuing the remnants of the team, and the hunt for the last five continued in the rugged, snow-covered hills about 15 miles north of Seoul.

Parochial School Aid?

FLINT (AP) — A bill seeking about $21 million in state funds to help support parochial schools will be submitted to the Legislature in February. A statewide campaign for support has begun. The funds would help ease the financial situation of parochial schools. They would be in addition to auxiliary and bus services which parochial schools already receive from local school districts, which, in turn, receive state funds.

More Resume Greek Ties

ATHENS (AP) — Three more members of the North Atlantic Treaty Organization — West Germany, Canada and Italy — and Nationalist China have resumed diplomatic contacts with the Greek military regime, spokesmen announced today. This brings to 15 the number of nations that have resumed contacts since King Constantine fled Dec. 14 after the failure of his efforts to topple the regime. The United States resumed contacts Tuesday.

Sparse Crowd for Birch Film

Audience in Rochester Far Below Forecast

Less than the 200 people expected showed up last night to see a free movie put on by an area chapter of the controversial John Birch Society.

Only about 75 persons were on hand to see "Anarchy U.S.A.," a film presented at the Avon Township Park Pavilion in Rochester.

The film attempted to portray the civil rights movement as the vehicle for an eventual Communist revolution.

The film concluded with a pitch for books and literature available at the Birch Society's American Opinion Libraries. These are book stores across the country that serve as outlets for the society's materials.

★ ★ ★

The "Anarchy" movie was preceded by a 30-minute slide presentation called "Civil Rights, the Red Reconstruction."

QUIETLY LEFT

Most of the audience viewed the screen presentations in silence and then quietly left, although one unidentified spectator asked for an opportunity to discuss the message offered in the film.

Chuck Erkfitz, who identified himself as president of the Birch chapter, declined. Erkfitz said the Rochester committee for TACT (Truth About Civil Turmoil) was an education medium.

Erkfitz said the local TACT group was started as an ad hoc committee to bring out the truth about the country's civil disorders.

★ ★ ★

Similar Birch-sponsored committees are organized across the country, according to Erkfitz. He credited such committees in Chicago for preventing riots in that city last summer.

Leaflets for last night's movie were distributed last weekend in Rochester and Utica.

4 Killed, 10 Missing in Swiss Avalanches

GENEVA (AP) — At least four persons were reported killed and 10 others missing in avalanches thundering down the mountains of Switzerland Friday night and early today.

Dozens of slides, released by warm weather, rain and snow storms throughout central and eastern Switzerland, roared down the Alpine slopes, cutting the main railway link from Switzerland to Italy, blocking local roads and railroads and isolating hamlets and villages.

★ ★ ★

At Davos in Grisons Province in the east a slide crashed down on a farm building on the outskirts, killing all three inhabitants. Another avalanche victim was reported from nearby Davos-Frauenkirch.

Dozens of avalanches buried or damaged buildings and blocked the road in the valley above Davos. Three persons were reported missing in the area.

FIVE MISSING

Five inhabitants of the village of Urigenin in the central Swiss mountain massive of the Gotthard were reported missing in a snowslide which buried several farm buildings shortly after midnight.

Higher up the Gotthard other slides destroyed or damaged barns and chalets near the villages of Wassen, Sillenen and Gurtnellen. One farm building was swept off the mountainside with all its inhabitants who were still missing this morning.

★ ★ ★

Blizzards and continuing warm weather threatened the release of new slides throughout the Swiss Alps.

CD Messages for Officials Slated in Test

A number of local and county officials will receive "emergency" messages tomorrow as the Oakland County Office of Civil Defense carries out tests of its communication network.

The messages will be relayed to mayors, supervisors and members of the county's civil defense committee, through the agency's own Radio Amateur Civil Emergency Services (RACES) and the Amateur Radio Emergency Corp. (AREC).

Civil Defense Director Wallace Crane said the simulated emergency tests will get under way at 2 p.m. with participants receiving their instructions through the control center operated by the Civil Defense Office in the County Service Center.

The tests are to determine how well RACES and AREC can work together during an emergency situation, according to Crane.

★ ★ ★

Some 38 RACES operators and 40 to 50 AREC members will participate, in addition to those with mobile units who will deliver the messages.

Those receiving the messages will be asked to answer, or if they prefer, send a message to anyplace in the world, said Crane.

Fear Must Be Ended for Racial Harmony

By DICK SAUNDERS

SAUNDERS

You know, something very sad and true came out into the open for all to see at Tuesday's City Commission debate on open housing.

A Negro woman in a blue dress hit it on the head: "We just don't know enough about each other."

A clergyman echoed her words and added: "Do not be afraid of your black neighbor."

This was brought home to me last summer.

★ ★ ★

I thought I knew a lot about the Negro. This was primarily due to my close association with jazz and blues. I am a collector, researcher and most of all lover of these magnificent native art forms in music which the Negro has given us.

THOUGHT I KNEW

Thus I thought I knew more about the Negro than many of my white counterparts.

Then, came that July night when there was what we politely refer to as "civil disorder" on Pontiac's south side.

Being a newsman, I went into the predominantly Negro section that night to find out what was happening. I was trying to track down a reported fire. I was about two blocks from the burning building when another car struck mine.

★ ★ ★

The driver was a Negro.

FIRST REACTION?

What was my first reaction?

"This is it," I thought. "He was trying to get me and he did."

At first I figured I wouldn't get out of my car. I considered just taking off. I waited for him to make the first move.

He did.

He got out of his car like a civilized human being and readily admitted the accident was his fault and he wanted to "make good for it."

The point is this: My reaction was triggered by fear; I reacted like a fool.

It turned out that the other driver was "plenty scared there was going to be trouble" that night and was trying to get home as fast as possible.

★ ★ ★

His only sin was that he was poor and didn't have insurance.

IN HIS SKIN

But for that fleeting instant in my mind, his sin was in his skin and he was "out to get me."

Fear cannot be a basis for learning and understanding. The white man finds it hard to understand how some black militants can preach violence as a means to racial harmony.

Think how confused the Negro must be when he sees a white man salute the flag of freedom and then turn around and oppose measures like open housing.

★ ★ ★

What we need to do is lift brotherhood out of the foxhole and into the subdivision.

And, along the way, we've got to learn and understand more about each other.

By The Associated Press

Cambodia's Prince Norodom Sihanouk today named his private counsellor, Penh Nouth, as premier.

SIHANOUK

The new cabinet headed by Penh Nouth will replace an emergency government, headed by the prince, which resigned in December. The emergency government was set up last year to deal with several pressing internal problems.

The government change is not expected to have major political repercussions. Effective power in Cambodia is in the hands of Prince Sihanouk.

Reserve Call-Up Speeds Up Marriage

Mobilization orders for Airman 2.C. Phillip Kibiak's Air National Guard unit Thursday speeded up by four days his marriage to Jeanne Flynt of Albuquerque, N.M.

They had planned to be married Monday, but news came Thursday of the call-up of the 150th Tactical Fighter Group in Albuquerque, to which Kibiak belongs.

So the couple turned a scheduled Thursday night wedding rehearsal into the real thing. The Rev. Welfred Doll performed the ceremony.

15 Overcome by Gas Leak

FT. BRAGG, N.C. (AP) — Fifteen persons were overcome by leaking chlorine gas Friday in a gymnasium and swimming pool at Ft. Bragg. Seventy-five others fled to safety.

★ ★ ★

The 15 were admitted to Womack Army Hospital on the Army post, home of the 82nd Airborne Division and Special Forces troops. All were to be released today.

★ ★ ★

Authorities said the leaking gas came from a defective valve in a 100-pound bottle of chlorine which was being put into the filtration system of the

Romeo to Vote on School Tax

The area's first school millage decision this year will come Monday, as Romeo voters go to the polls to decide whether to approve a total of eight mills—three renewal and five new—for five years.

★ ★ ★

Supt. of Schools T. C. Filppula has expressed optimism concerning the upcoming vote, citing high voter interest and the district's "good" past record on millage requests.

★ ★ ★

The proposed increase, one of many asked by local districts, was made necessary by prospects of a deficit budget and the low equalized valuation per student of the Romeo district, Filppula said.

★ ★ ★

The requested five-mill hike would cost the owner of a $10,000 home $25 a year in additional taxes; for a $15,000 home the yearly increase would be $37.50 a year; and for a $20,000 home, it would be $50.

Cost of Auto Inspection Put at $4 a Year

ST. LOUIS, Mo. (AP) — A University of Michigan auto safety experet said today the average American car owner can expect to pay upwards of $4 a year to have his vehicle inspected.

★ ★ ★

James O'Day of the U-M Highway Safety Research Institute said new federal auto safety standards require some form of motor vehicle inspection in each state this year.

Typical cost of such inspection, in taxes or fees, would total some $400 million or more across the nation, O'Day said.

O'Day made his remarks at a meeting dealing with auto inspection and sponsored by the Auto Club.

★ ★ ★

He cautioned that no method now exists which can prove scientifically that vehicle inspection helps make driver safer, but he pointed out that there also is no evidence to the contrary.

Ship Seizure on High Seas Act of War—Legal Expert

NEW YORK (AP) — A Harvard University professor of international law says that if North Korea seized the U.S. Navy intelligence ship Pueblo "on the high seas, then the United States has a right to regard it as an act of war."

But, says Prof. Milton Katz, whether the Pueblo was on the high seas or an intruder in fact in North Korea's territorial waters cannot be answered from the information generally available.

Territorial sea in international law "means that part of the ocean over which a littoral shore line state has exactly the same powers as it has over its land territory," Katz said.

The three-mile limit is universally recognized, he explained. The 12-mile limit is claimed by enough nations, including Soviet Russia, that such a claim is not regarded as "unusual, unreasonable or necessarily wrong."

Ecuador, Peru and Bolivia claim 200 miles.

Katz is Henry L. Stimson professor of law and director of international legal studies at Harvard University. He made his observations in a telephoned interview Friday with the Associated Press.

North Korea seized the Pueblo, an electronic intelligence ship, and its crew of 83 Monday in the sea east of Wonsan. Speaking Friday in the U.N. Security Council, U.S. Ambassador Arthur W. Goldberg said the Pueblo was 16.3 miles from the nearest mainland point and 15.3 miles from the North Korean island of Ung Do when it was seized.

★ ★ ★

North Korea claims a 12-mile territorial limit at sea and says the Pueblo was inside this line when caught.

Katz said that a nation can enact laws defining criminal conduct in its territorial waters, including unauthorized intrusions. And then it can act to enforce its laws against intruders, including seizure and punishment.

'AFTER-THE-FACT'

But in the absence of such laws defining acts of intrusion and setting the penalties, the Harvard expert said, a state cannot properly "pounce on" someone and apply "ex post facto' or after-the-fact rules.

Asked if this latter situation applied to the Pueblo seizure, Katz replied: "Not so far as I know. The trouble with commenting on North Korea is there seem to be a dozen facts that, so far as I can tell, nobody publicly knows."

★ ★ ★

Q. "Well, what is the North Korean law on this point?"

A. "One of the things I don't know, and it hasn't appeared in the papers, is what North Korean law is with respect to entry into North Korean territorial waters."

Q. "This would be a major question?"

A. "A very important question."

'Confession' Is Aired, Laid to U.S. Skipper

TOKYO (AP) — "We are very serious criminals who committed plain acts of aggression and espionage and I think we should be punished in accordance with the criminal law of the Democratic People's Republic of Korea."

This is part of a statement broadcast Friday by the North Korean Communists and attributed to Cmdr. Lloyd Mark Bucher, the captured skipper of the U.S. intelligence vessel Pueblo.

★ ★ ★

Over-all the tone was similar to a "confession" by Bucher aired Wednesday by North Korean Radio, stating that the Pueblo had violated the 12-mile international offshore limits and was spying in North Korean territorial waters when it was seized Monday.

Listeners noted that the Friday broadcast contained somewhat less stilted phrases than the first "confession." In that statement Bucher was quoted as saying that the Central Intelligence Agency promised him that if the Pueblo's mission were successful "a lot of dollars would be offered to the whole crew members of my ship and particularly I myself would be honored."

STATEMENT DENOUNCED

The State Department denounced that statement as "a travesty on the facts" and said the style and wording proved it could not have been composed by any American.

The North Koreans, in an effort to convince the world the "confession" was authentic, have widely distributed photographs which show a man in a dark coat writing on a sheet of paper with a ball-point pen. Only part of his face is showing. Bucher's wife, Rose, said in San Diego, Calif., that the photo resembles her husband "but it is impossible to be sure."

★ ★ ★

During the Security Council debate on the Pueblo incident at the United Nations Friday, Soviet Ambassador Platon D. Morozov used statements attributed to Bucher as evidence that the Pueblo was trespassing in North Korean waters. U.S. Ambassador Arthur J. Goldberg asserted that the statements were "coerced and fabricated."

In their broadcast Friday the North Koreans indicated that confessions similar to the one attributed to Bucher have been obtained from other members of the Pueblo's 83-man crew.

'ASKED FOR HELP'

This broadcast also replied to the question of why no U.S. fighter planes in the area came to assist the Pueblo. 'In fact," Bucher was quoted as saying, "we asked for help from the military bases in South Korea and Japan but could not get it since we had intruded so deep into the coastal waters of the Democratic People's Republic of Korea."

Pravda Charges U.S. Called U.N. as 'Piety Screen'

MOSCOW (AP) — Pravda charged today that the United States called a meeting of the U.N. Security Council to attempt to cover the Pueblo incident with a "screen of piety."

"But even the men in Washington do not believe they will successfully delude the members of the Security Council," wrote Boris Strelnikov, commentator on U.S. affairs for the Soviet Communist party newspaper.

★ ★ ★

He charged the USS Pueblo intentionally intruded into North Korea's territorial waters in the hope of raising a wave of "chauvinism and superpatriotism" and thereby "stifling by the roar of war drums the voices of protest in the United States against the Vietnam war."

Strelnikov said Americans who have mentioned a possible nuclear response to the North Korean crisis have "lost their sense of reality and consider themselves supermen."

Pravda devoted a large portion of its foreign news section to the Pueblo incident, concentrating on statements from various capitals supporting the North Korean-Soviet stand.

SCENE AT U.N. — This was the scene yesterday afternoon in the United Nations Security Council as it began consideration of the North Korean crisis. The 15-nation council, summoned at the request of U.S. Ambassador Arthur J. Goldberg, is discussing North Korea's seizure of the U.S. communications ship Pueblo.

LBJ Statement on Korea Crisis

WASHINGTON (AP) — Following is the text of President Johnson's statement to the nation Friday on the Korean crisis:

My fellow Americans:

Over the past 15 months the North Koreans have pursued a stepped-up campaign of violence against South Korean and American troops in the area of the demilitarized zone.

★ ★ ★

Armed raider teams in very large numbers have been sent into South Korea to engage in sabotage and assassination.

On Jan. 19, a 31-man team of North Korean raiders invaded Seoul with the object of murdering President of the Republic of Korea.

SOLDIERS KILLED

In many of these aggressive actions, Korean and American soldiers have been killed and wounded.

The North Koreans are apparently attempting to intimidate the South Koreans and are trying to interrupt the growing spirit of confidence and progress in the Republic of Korea. These attacks may also be an attempt by the Communists to divert South Korean and United States military resources which together are now successfully resisting aggression in Vietnam.

This week the North Koreans committed yet another wanton and aggressive act by seizing an American ship and its crew in international waters. Clearly, this cannot be accepted.

We are doing two things: First, we are very shortly today taking the question before the Security Council of the United Nations. The best result would be for the whole world community to persuade North Korea to return our ship and our men, and to stop the dangerous course of aggression against South Korea.

OTHER EFFORTS

We have been making other diplomatic efforts as well. We shall continue to use every means available to find a prompt and a peaceful solution to the problem.

Second, we have taken and we are taking certain precautionary measures to make sure that our military forces are prepared for any contingency that might arise in this area.

★ ★ ★

These actions do not involve in any way a reduction of our forces in Vietnam.

I hope that the North Koreans will recognize the gravity of the situation which they have created. I am confident that the American people will exhibit in this crisis—as they have in other crises—determination and unity.

Thank you very much.

Complete Story of Crisis Asked

WASHINGTON (AP) — Religious and other groups, saying there are signs of excessive military reaction over the Pueblo incident, have told President Johnson and Congress complete information on circumstances of the incident should be made public.

The signers of a telegram sent to Johnson Friday also urged restraint and acceptance of international mediation in the situation growing out of the Pueblo's seizure by North Korea.

★ ★ ★

In a separate wire to congressional leaders, the group said: "The call-up of the Reserves and some congressional statements referring ominously to the use of nuclear weapons are indicative of a dangerous trend toward excessive reaction in military terms."

★ ★ ★

Listed as signers were spokesmen for: American Baptist Convention; American Friends Service Committee; Church of the Brethren; Church Women United; Episcopal Church; Friends Committee on National Legislation; Methodist Board of Social Concers; National Committee for a Sane Nuclear Policy; National Council of Churches; Commission on Social Action of Reform Judaism; Unitarian Universalist Association; United Presbyterian Church; Women's International League for Peace and Freedom and Central Conference of American

Now...a minute a day takes, and keeps, those bulges away!

"INSTANT EXERCISE" WORKS!

Trim down your waist, hips, thighs and arms in a few days.
Turn ugly fat into firm, healthy muscle. Look pounds lighter.
A revolutionary short-cut that research proves out!

Down comes the waistline! In come the hips! Trim go the thighs! Away goes the flab! All in a minute a day with a remarkable set of exercises that's sweeping the country. And no diets!

It's the same basic approach to exercise the astronauts use. Just one can help you shape up better than 24 push-ups a day. A mere 6 seconds daily of this muscle magic can slim down a soft, flabby middle in a week or two. Even strength can be doubled with miraculous speed. And all without moving a muscle, without "working out" more than 1 minute a day!

Doctors, nurses, athletes, insurance firms, citizens everywhere are turning to these amazingly simple exercises developed by Alabama Doctor of Education, fitness expert and former coach, Donald J. Salls. The Navy and Marines have adopted this type of exercise, too. And now even the astronauts!

Why? Simply because isometric exercises, better known to so many as Dr. Salls' "Static Exercises," really do work. In fact, they're so effective they can slim you down without any special diet. And it's been proved . . . proved over and over again . . . in research studies, under independent professional supervision, using subjects just like you.

In one group of 253 girls, over 96% improved in physical fitness and over 50% had marked figure improvements . . . all in just 3 weeks, using Dr. Salls' motionless exercises for 1 minute per day. And no diets!

Over 92% of another group had waistline improvements, decreases of up to 3¼ inches . . . thighs, 84% . . . hips, over 90%. Again in 3 weeks or less! And no diets!

80% of still another group, measured periodically under the watchful eye of a physician, showed marked measurement improvements in less than 30 days. And no diets!

A top university had one test group use isometrics for 1 minute daily while another worked on gym equipment for 45 minutes every day. When compared for fitness the isometric exercisers scored highest in every test!

Here at last is one type of exercise that appeals to carriding, diet-hating Americans . . . "weekend athletes," people who dislike exercise or don't have time. Here is the answer for the desk-bound man who wants to look trimmer, more muscular . . . for the modern woman who knows so well how important a slimmer, more attractive figure can be . . . for the oldster who seeks to improve fitness, figure and life-span by restoring long-neglected muscles without prolonged exercise.

Each of Dr. Salls' wonderfully simple exercises takes 6 seconds. All total just 1 minute per day. Instructions are graded for housewives, executives, teenagers and senior citizens, for superior fitness and prowess in such sports as bowling, swimming, golf. And you can do most of these exercises almost anywhere . . . at work, waiting for a bus, while shaving. No gadgets are required. There's no extreme exertion, not even heavy breathing!

The revolutionary principle Dr. Salls applies has the impressive support of highly respected educational institutions, leading physiologists, Olympic stars, fashion models, police groups, top pro and college athletes. And Time, Life, Reader's Digest, TV, newspapers, scientific journals have called attention to the exciting concept.

Followers of Dr. Salls' muscle magic report surprising results. Thousands have discovered that the stronger, tighter muscles resulting from his minute-a-day plan can lead quickly to a slimmer figure . . . even without weight reduction!

Mrs. P. McMorrow of White Plains writes, "I reduced my waist 2 inches, my hips 2 inches—all in 2 weeks, a minute a day, with your exercises."

John B. Villano, Denver, reports: "Excellent results! My waist has gone from 36½ to 32—down 4½ inches. My chest increased from 41 to 43 inches."

Mrs. E. V. Smith of Madison writes that with Dr. Salls' exercises she's trimmed down her waist from 33½ to 28½, her hips from 43½ to 39½.

Carlyle Hall, Springfield, 91 years old and "still very active," says: "Your exercises are worth a hundred times their cost. They certainly work for me."

So many users of Dr. Salls' exercises also exclaim: "How much better . . . more alive, more alert, more youthful . . . I feel!" But specifically, he offers:

stronger, firmer muscles • slimmer waist, hips, thighs, calves, upper arms and neck • better muscular coordination • stronger back • improved posture . . . all without diets.

Results are controlled primarily by the individual's own desires. If a man wants weight-lifter's strength, he can simply concentrate more often on certain of Dr. Salls' exercises. If a housewife seeks a more shapely midriff, a few weeks with his 6-second workouts is indicated.

Yes, now you can have a stronger, slimmer, healthier body without the boredom of old-fashioned exercises or the strain of a diet! Dr. Salls will send a complete set of his instructions, in a large, fully illustrated folder, to interested readers who use the coupon on this page. Remember! These exercises are different: just 6 seconds each! So why starve yourself slimmer?

"IT'S SO EASY to control your figure with Dr. Salls' Statics," says Loree Thomas, New York TV personality, model and mother of 2 teen-agers. She slimmed down her waist, hips, thighs and arms in 15 days with these almost effortless exercises. "And no diet to fuss with!"

THE MOST POPULAR EXERCISES EVER DEVELOPED IN THE U.S.

. . . because they work so amazingly well! Fewer than 1% of the hundreds of thousands who have purchased a set of Dr. Salls' "Instants" under his personal guarantee have ever asked for their money back. Doctors order them by the dozen!

1969 Gives State Solid Surplus

Another record-breaking budget for the 1969 fiscal year beginning July 1 was submitted to the State Legislature by Gov. GEORGE ROMNEY.

ROMNEY

On the assumption that the legislators will perform little surgery on it, the treasury will pay out $1.33 billion, slightly exceeding the anticipated spending of $1.114 billion for the current year.

With the new income tax in effect, revenues are expected to top spending by $24.2 million. Combined with a projected 1967-68 general fund surplus, the State will begin its next fiscal year with a $27.2 million nest egg.

The 1969 budget would double the appropriation for the Civil Rights Commission, earmark an additional $5.5 million for law enforcement and assistance in the urban-problems area, and provide increases for education, mental health and Civil Service pay rates.

The Governor's budget, however, does not get taxpayers entirely off the money hook. Two bond proposals, totaling $435 million, will be submitted to voters in November, the proceeds going to support the State's antipollution program and acquisition and development of recreational areas.

★ ★ ★

ROMNEY's proposed budget reflects thrifty programming and a conservative outlook for the upcoming year.

Be Careful Not to Swell Accident Statistics

It wasn't the best of years, but neither was it the worst, as far as accidents go.

An estimated 112,000 people died in accidents of all kinds in the United States in 1967. This was about 1,000 less than in 1966.

Fatal accidents in and about the home — 28,500 — showed a decrease, while motor vehicle deaths were about the same as the record high of 53,000 set in 1966. Because more miles were traveled in 1967, the rate per million miles was slightly below the previous year's.

★ ★ ★

About 100 more people died in fires in 1967 than 1966. The total was 12,200. Figured on a per capita basis, the rate declined slightly because of an increase in population.

Property destroyed by fire, however, zoomed up by more than $200 million to an estimated total of nearly $2.1 billion. Riots in U.S. cities accounted for more than $85 million of that, but single disasters, such as the Apollo spacecraft fire, which killed three astronauts and cost $75 million, and the destruction of Chicago's McCormick Place—$52.5 million—were not far behind.

★ ★ ★

Both these disasters took place in January. So far, the current year is off to a relatively quiet start. But if the record of almost every other year is a guide, 1968 will have its share of calamities.

Sad to say, it is a statistical certainty that more than 100,000 Americans, now alive, will perish in accidents, large ones and small ones, before next January.

Chinese Adept at 'Inscrutable' Vituperation

It's no secret that the Chinese are hipped on culture.

They are also proud of their well-known ability to remain inscrutable (keep their cool, as we cats say) under stress and strain.

So what happens when one top-level Chinese leader has occasion to utter a few public comments on another top-level Chinese leader?

★ ★ ★

Well, here's what President CHIANG KAI-SHEK of Nationalist China recently said about his old foe, MAO TST-TUNG of Communist China:

Mao, said Chiang inscrutably, is a villain, an arch-criminal, a notorious liar, an egocentric, a traitor, a devil-tyrant and a self-centered bandit chief.

Still inscrutable, Chiang added that Mao is "China's sole selfish landlord and capitalist" (man, that one must have hurt!) and that Mao's current nuclear tests are "a form of international blackmail."

Now this is inscrutability at its inscrutinest, and how the Chinese people must glow with pride at how two of their leaders can disagree and still not stoop to vulgar American-type mudslinging.

No wonder MAO is shocked by the barbaric way we scrutables carry on over here. He's used to subtlety.

Opposition Leaders Meet as Old Friends

By EVERETT McKINLEY DIRKSEN

There is one practice of government at the highest level that, as much as anything else, provides a testament to the majesty and greatness of our free republic. That is the joint leadership meetings of both political parties and both branches of Congress with the President.

DIRKSEN

There have been numerous stories told about those meetings in the White House that would have you believe they become very spirited and even testy and combative in character.

Such is not the case today and such has not been the case in recent times, if ever, and for one extraordinary reason.

The President served in a legislative capacity with nearly every one of those leaders before he went to the White House. The spirit of the joint leadership meetings is conditioned by his previous relations with the leaders of the Republican and Democratic parties in the Senate and the House of Representatives.

On the majority side of the aisle in the Senate, the President served with Senator Carl Hayden of Arizona, who is now president pro-tempore of the Senate; Sen. Mike Mansfield of Montana, the present majority leader; Sen. Russell B. Long of Louisiana, majority whip, or deputy leader; and Sen. George A. Smathers of Florida, secretary of the Democratic conference.

On the Republican Minority side of the aisle, Mr. Johnson has served with me, the minority leader; with Sen. Thomas H. Kuchel of California, minority whip; Sen. Milton R. Young, of North Dakota, secretary of the Republican conference; with Sen. Bourke B. Hickenlooper, of Iowa, chairman of the Republican policy committee; Sen. Margaret Chase Smith, of Maine, chairman of the Republican conference; and with Sen. Hugh Scott of Pennsylvania, vice chairman of the Republican senatorial campaign committee.

The President knows these Senators well and we know him.

★ ★ ★

When the Joint Senate Leadership is invited to the White House for a conference it is not as though the invitation went out to strangers who would sit with the President to discuss the terrible problems that preoccupy all of our minds. No, we sit with him as old friends with whom he has fought and bled, so to speak, on many a legislative battlefield.

★ ★ ★

And the same situation is substantially true of the leaders in the House. The President served three terms as a U.S. Representative from 1939 to 1948, when he was elected to the Senate, where he served until 1961.

Either he served in the House with Speaker John W. McCormack, with Majority Whip Hale Boggs, Minority Leader Gerald R. Ford Jr., Minority Whip Leslie C. Arends, and with Congressmen Melvin R. Laird, Charles E. Goodell and others, or he met them on conference committees, at joint sessions or at social functions.

Many of these Senators and Congressmen battled Congressman Johnson, and then Senator Johnson, for many years. He and we were foes who came to respect each other; sort of like opposing centers in a football scrimmage who fight each other every minute of play, but who are solid friends away from the gridiron.

The POWER of FAITH

By WOODI ISHMAEL

Edward M. Ginsberg of Cleveland has a faith and understanding that has made him a friend to displaced Jews throughout the world. Recently he was chosen general chairman of the United Jewish Appeal which is the major American fund-raising group for the transportation of Jewish immigrants to Israel and their resettlement there. It also provides humanitarian aid to thousands of refugees and distressed Jews in 30 other countries.

A successful corporation lawyer, Ginsberg is not just an administrative head of the organization but has traveled widely and knows firsthand the needs and frustrations of displaced persons around the world. He gives constantly of himself in travel and speaking engagements. A son of immigrant parents, he credits them with fostering his involvement in humanitarian causes. Mr. Ginsberg looks on his work as a continuance of the Jewish practice of Tzedekah—acts of kindness to the less fortunate.

He says: "I believe we are put on this earth not only for ourselves but for others. We have an obligation to make life better for others. This is translated in terms of faith. We are our brother's brother."

Confident Living:

Whatever Happens Is for Best

By NORMAN VINCENT PEALE

I was invited to a breakfast party celebrating the founding of a publishing company. The date happened to be on a Friday — the 13th at that—but nobody seemed to be the slightest apprehensive about that.

DR. PEALE

Prentice-Hall, Inc., began on the 13th of October. One of its founders and Chairman of the Board, Richard Prentice Ettinger, was born on October 13th and married on October 13th — so that date seemed anything but unlucky.

During the breakfast I learned that one of the first books published was on the then brand-new federal income tax and regulations. The first printing of 5,000 copies sold like hot cakes.

A second printing was brought out but, just as it went on sale, regulations interpreting the law changed and the book was rendered obsolete.

So here was a fledgling company, trying to get started and borrowed up to the hilt, with 5,000 obsolete books on hand. But Mr. Ettinger has always operated on this basic and dynamic principle: if you do your best, things happen for the best.

★ ★ ★

Besides this philosophy he also used his head to think. He did some real thinking and came up with a simple idea, one that was to get his company on its feet and really moving.

He issued a supplement to the obsolete book giving all current tax regulations. This saved a loss on 5,000 copies and led to the realization that tax laws would be constantly changing.

Prentice-Hall inaugurated books in a loose-leaf format and in this way new pages could be issued to replace obsolete sections. As a result the company became a large producer of authoritative publications on tax regulations and laws.

★ ★ ★

But there is more I want to say about Mr. Ettinger—the man who believes everything happens for the best. A few years ago he developed cancer of the throat and underwent a radical operation. He has a little tube in his throat and speaks distinctly and well.

As the breakfast party was breaking up he said to me, "About the theory of mine that whatever happens, happens for the best . . . You know, when I learned that I had cancer I thought, how is this going to be for the best? Things were pretty rough and it took a little time but I came to realize how.

"The cancer took 20 or 30 pounds off me. Afterwards the doctors told me that all that weight had been affecting my heart and, now that the excess weight is gone, I will probably live 10 years longer! So, you see, whatever happens does happen for the best!" and he smiled triumphantly.

★ ★ ★

I looked in admiration at that indefatigable, indomitable man. And I told him that one of the big things for the best in my own life was to know a man like him — a living demonstration that, even in difficult circumstances, when you do your best things happen for the best.

I recall an old friend, the late J. L. Kraft, founder of a large food processing company. Like Mr. Ettinger he began with practically nothing—well, that is, nothing but faith and a good idea. He experienced plenty of ups and downs but he always said: "Had it not been for the downs there would have been fewer ups."

★ ★ ★

He too insists that, as hard as things sometimes seemed, if he just kept on doing his best, outcomes were the best. "God," he concluded, "is on the side of the man who takes things as they come and does the best he can with them."

Do everything in your power to obtain a constructive outcome in a problem, then be confident that whatever happens is for the best. In most cases it will be just that. This philosophy has helped many people out of failure and misfortune.

'Voters Gave Approval of Multipurpose Rooms'

It is time someone answered the letters from disgruntled Waterford Township taxpayers. The people did have a say in whether or not they wanted the multipurpose rooms currently being built, as funds were provided for them in the last school bond election. These building funds must be used for the purpose for which they were authorized. They cannot be used for operating expenses.

Replies to Complaints About Bus Drivers

Do those who complain about school bus drivers waiting for children have any idea how long it would take to drive a route if there is a delay at each stop for late students? Students at other stops may have walked farther in the cold weather to be at their stop on time and buses stopped to pick up or discharge students tie up traffic in both directions.

Relates Experience in Purchase of Firewood

After reading a recent letter on firewood measures I proceeded to buy an advertised cord of wood for $13.50 from a dealer in Clarkston. When I saw the pile he had for me, it measured four feet by two feet by eight feet, which was even less than a face cord. How many other unsuspecting home owners have been cheated in this way? I'm sure the wood merchant buys his firewood in true, full cord measures.

'Taxpayers Must Stand Up and Be Heard'

It is gratifying to see more standing up to be heard on war, taxes and the corruption in government. When more people realize that soon they may as well take home the government's share, and start writing to their congressmen, maybe we will really have a great society.

I, too, would vote for men like Arthur Law or Harvey Lodge who can still hear the voice of the people and stand up for it. I wish we had some like this running for president.

Question and Answer

Can you tell me how many people have come here from other countries since this country was founded?

LOUISE G.

REPLY

We assume you mean those who have come here to live, not visit. The number of immigrations from the end of the Revolutionary War until 1820 is estimated at 250,000. From 1820 to 1966 43,614,000 have been admitted.

Area Minister Replies to Recent Criticism

Many people are concerned as to why pastors are involved in our cultural life and have not isolated themselves to only "spiritual" things. The task of pastors is to proclaim God's word to man in such a way that it redeems his whole life — economic, international, spiritual, racial, etc.

★ ★ ★

It is true many pastors are not property owners. This is due to the antiquated practice of paying pastors in "kind." However, I am buying our home, pay taxes, and I am a voting citizen. Yet, I am compelled by conscience to say, "neighbor, remember that you are a sinner loved by God when you did not love. As you are loved by God, can you do less?"

Two View Ministers' Stand on Open Housing

When the clergymen went on record about how they stand on open housing, they didn't feel it was necessary to poke fun or ridicule certain individuals who disagreed with them. I have never met a pious clergyman — just a human person vainly trying to help this decaying society to meet the challenges and problems of our materialistic, bigoted and self-centered lives.

D. HOPKINS

I, too, would like to respond to our naive and poorly-informed ministers. Have they read the complete Open Housing Bill so as to understand that it is not just "fair housing" that we oppose? To the ones who preach "peace" at any price, I suggest they mark their calendars for Sunday afternoon, February 18. A Lutheran minister who witnessed communism in one of their prisons for 14 years will speak to people in this area.

Book Views 'Real' Romney

By CORENNA ALDRICH

"Will the real George Romney please stand up?"

This question, asked during a campaign by a former political opponent, is one many others will be asking as the presidential candidate stumps for nationwide support.

"Romney," by D. Duane Angel, may help bring that image into focus.

This biography of a man, who seems to inspire equally strong negative and positive reactions, deals not only with his industrial, civic and political experience (and inexperience) but personal life as well.

The author makes no attempt to glorify nor debunk the subject, but tries to present a fair evaluation of his attributes and shortcomings.

AREA OF CONCERN

Often-discussed areas of concern to many—his foreign birth, his religion, his 'foot-in-mouth' blunders — are examined in light of Romney's presidential potential.

★ ★ ★

Even Michigan readers familiar with their governor's background should find new information and interesting reading in Mr. Angel's analysis of Romney's setbacks and successes along the road he now hopes will lead to the White House.

Restaurant Sold

GRAND RAPIDS (AP) — The Tony Lakes Restaurant in downtown Grand Rapids has been sold to a group headed by Donald Reynolds, manager of the St. Clair Inn at St. Clair. The sale hinges on approval by the Michigan State Liquor Control Commission of license transfer. Purchase price was not revealed.

Anthony Lakes and Andrew Jaffas opened the restaurant in 1963 after purchasing it from restaurateur Win Schuler. They plan to continue operating the restaurant.

Obesity Specialist Grosses $1 Million, Senate Unit Told

WASHINGTON (AP) — A doctor specializing in treatment of overweight people has told a Senate committee he grossed about $1 million in one year. Another physician testified he made about $220,000 a year in the same specialty.

The testimony was given Friday at a hearing held by a Senate antitrust committee probing the diet pill industry.

Dr. Louis L. Rubel of Decatur, Ill., said he and his seven assistants handled 85,000 patient visits in 1966. Rubel said his income tax was more than $200,000.

He said his income included $1,200 in commissions from a diet-pill firm.

OFFICE VISITS

Dr. Orville J. Davis of San Diego, Calif., told the senators he handled 11,727 office visits last year and estimated his gross income at $220,000, with net income after taxes of $29,000.

Davis testified he charged $40 for the patient's initial visit, including $25 for laboratory tests, and $15 for subsequent visits, spending about 5 to 10 minutes with each patient.

★ ★ ★

Dr. C. Frank Chambers of Northport, N.Y., urged federal action to curb diet-pill makers in their relationships with doctors using their products. He also called for legislation to control "such commercialization" as he said had been outlined in the other testimony.

Chambers testified he attended a symposium on obesity in New York two years ago sponsored by the Lanpar Co. of Dallas, Tex., a diet-pill manufacturer.

PRACTICES

Chambers said he was appalled when it was stated at the making at least $100,000 a year from the Lanpar diet program.

Rubel testified Lanpar pays him a commission on sales to doctors. Davis said the same company pays him $500 and expenses for lectures he gives at Lanpar-sponsored symposiums.

Changes Are Made in Engineering Dept.

Three organizational changes within Pontiac Motor Division's engineering department have been announced by Stephen P. Malone, chief engineer.

Thomas P. Schreitmueller of 2739 Berry, Bloomfield Township, was appointed assistant administrative engineer.

James A. Duddles of 5347 M59, Waterford Township, was named general supervisor of systems and procedures.

Named supervisor of product information was Benjamin W. Harrison of Southfield.

★ ★ ★

All appointments are effective immediately.

NOTRE DAME

Schrietmueller was hired at Pontiac Motor Division in 1955 following his graduation from the University of Notre Dame. He began work in the standards department.

He transferred to the engineering department as a senior project engineer in 1963. In 1966, he was named supervisor of product engineering.

Harrison was hired by the firm as a senior project engineer in 1965. He had begun his career with General Motors in 1957 with the Hydra-Matic Division.

The Halo (left) becomes a big beautiful off-the-facer that encircles any and all coiffures. It is interpreted here in black straw faced with silk surah plaid. The Dandy (center) is a dashing shape of alabaster white felt with its only adornment a blazer emblem. The Muskateer (right), fashioned in ebony straw, features a lilting, tilting silhouette strewn with daisies.

Three Hundred Bucks Ain't Hay--- If It Were, You Would Be Well Fed

By ABIGAIL VAN BUREN

DEAR ABBY: I met this good looking girl who waits on tables in a place near where I work. She came on like a real sweet country kid who worked hard for a living and wouldn't let any guy get next to her, which I liked.

ABBY

Well, I took her home from work a couple of times, and all she'd give me was a goodnight peck on the cheek at the door.

I asked her what she wanted for Christmas, and she gave me a list of clothes to buy and where to buy them. I went around and bought all the things she wanted, which set me back $300.

After I gave her these gifts, I asked her how about driving somewhere with me for the week-end. She said nothing doing—she wasn't that kind of a girl.

She already wore the clothes I gave her, so what do I do now? Three hundred bucks ain't hay. CHUCK

DEAR CHUCK: Tough luck. If it were, you'd have enough to eat all winter.

★ ★ ★

DEAR ABBY: I am a young clergyman who is new in this community. Someone told me that about four or five years ago you had a very good answer in your column for a person who wrote in to complain because every time he turned around, the church was asking for money. He wanted to know what the church did with all their money. I would appreciate it if you could locate that item and print it again. Thank you kindly. DES MOINES CLERGYMAN

DEAR CLERGYMAN: It was closer to EIGHT years ago, but I have located the letter, and here it is:

"DEAR ABBY: We are not overly religious people, but we like to go to church once in a while. It seems to me that every time we turn around in church we are getting hit for money. I thought religion was free. I realize that churches have to have some money but I think it is getting to be a racket. Just what do churches do with all their money? CURIOUS

DEAR CURIOUS: Even priests, ministers, and rabbis must eat. And since they work full time at their tasks, the churches must support them. Staff, professional choir members, and musicians must also be paid. Buildings must be maintained, heated, lighted, and beautified. (And, of course, first they must be built!)

Custodial staff must eat and feed their families. Most churches engage in philanthropic work (aid to needy, missions, and education); hence, they have their financial obligations. Even orchids, contrary to folklore, do not live on air. Churches can't live on air, either.

Religion, like water, may be free, but when they pipe it to you, you've got to help pay for the piping. And the piper."

★ ★ ★

DEAR ABBY: I would like your opinion of something new in our town. It's called the "COME AND GO SHOWER."

Here is how it works. The guests come, drop off their gifts, and then they go . They can't stay because so many people are invited there is no room for them to sit down anywhere. There is a punch bowl and cookies around and everyone helps themselves.

I don't see much in this kind of shower if you can't stay and watch the guest of honor unwrap her gifts. The last one I went to netted 103 gifts from neighbors, friends, and relatives. It lasted 10 hours, and people were coming and going with gifts all day long, I'm told. What is your opinion of showers like this?

"CAME AND WENT" IN HARRISBURG

DEAR CAME AND WENT: It's my opinion that anyone who would COME to a shower such as the one you describe, should GO and have her head examined.

Showers are getting to be an out-and-out racket, but the "COME-AND-GO" shower beats them all.

Business Wants Returnees

Age Needn't Stop You

By EDITH LEDERER
Associated Press Writer

NEW YORK (AP) — "I really feel women should go back to business," said a 74-year-old grandmother at a symposium for mature women seeking to get back in the job market. "I say get up out of your rocking chair and go, go!"

But how does a woman who has "dropped out" of the job market, or a career field for 15 or 20 or 30 years while rearing a family go about getting started again?

★ ★ ★

At the second annual "Business Needs You" symposium this week, more than 900 mature women showed up looking for the answers to that question.

WANT MATURITY

Representatives of 22 companies were on hand to assure the women that their firms were not completely committed to the younger generation.

★ ★ ★

After a fashion show for the middle-aged career woman, a before-and-after hair and make-up transformation of a prospective job-seeker from the audience, four speeches and a panel discussion, some were convinced.

Others were not.

'I don't believe this business, 'Oh they love you at 60'." said Mrs. Antonio M. Romero of Manhattan. "I'm a bit skeptical about that one."

Mrs. Annette Raphael, 38, of Brooklyn, said she wanted more information. "I want to know where to brush up. How can I walk into an office and tell them the last time I worked was 17 years ago?"

★ ★ ★

Mrs. Emilia Volz of Newark, N.J., was more optimistic about the conference: "It gives you a little more confidence—that's the thing."

Keynote speaker at the symposium, sponsored by Stern Brothers, a New York department store, and the temporary employment division of AGS Services Corp., was Dorothy Pendergast, regional director of the U.S. Department of Labor, Women's Bureau.

MORE OPENINGS

"The doors of virtually every occupation have been opened to women and ever increasing numbers of mature women are entering paid employment," said Miss Pendergast.

★ ★ ★

Turning to the emotional side of returning to work, Dr. Rose Franzblau, psychologist and columnist, said the middle-aged job hunter "goes through the same anxiety of entering into something new, of being accepted and appreciated" as a youngster entering school.

To make the adjustment easier, she said it was "terribly important" for the woman to discuss these problems with her husband and children.

Search Begins for State Mom

The search for the 1968 Michigan Mother has begun!

Do you know someone in your community

- Who is a successful mother and homemaker—as evidenced by the character and achievements of her children?
- Who is an active member of a religious body?
- Who embodies traits such as courage, cheerfulness, patience, affection, understanding and homemaking ability?
- Who has a sense of responsibility in civic affairs and has been active in public service to society?
- Who has no children younger than 15 years of age?
- Who is not a divorcee?
- Who would be fully qualified to represent the mothers of Michigan in all responsibilities attached to her role as Michigan Mother?

If you know someone who fits this description, then you should write at once to—The Michigan Mothers Committee, 406 Fifth Street, Traverse City, Michigan, 49684, requesting a nomination blank for the Michigan Mother of 1968.

Ball Invitations Say "Please Stay Home."

LANSING (AP) — The Women's Division of the Republican State Central Committee has mailed 2,000 invitations to a ball, but they are urging those invited not to attend.

★ ★ ★

Instead, the would-be guests are asked to send a contribution to the party for use in the upcoming election campaign and then stay home to enjoy an evening "of relaxation with optional dress."

GOP State Chairman Elly Peterson describes it as "a novel idea of fund-raising designed to eliminate the expense of staging dinners and other events, thereby chaneling all money raised directly into our party treasury for use in the 1968 campaign year."

Play Goes on Twice

There are two remaining performances of "Any Wednesday" produced by the Avon Players. Curtain time in the playhouse on Washington Road are 8:30 tonight and 7:30 p.m. Sunday. Tickets are available at the door.

Couple Gives Own Reception Following Vows

By ELIZABETH L. POST

Dear Mrs. Post: My fiance and I have been going together for a year and a half. My mother strongly objects to our getting married—both for religious reasons (he is divorced) and because he is 42 while I am 22. Since she will have nothing to do with the wedding, we have decided to be married at a very small private ceremony, but we would like to invite about 40 people to a reception immediately afterwards.

Would this be proper, and how should we go about it?—Laura

★ ★ ★

Dear Laura: Since your family is in a position where they are either unwilling or unable to give a wedding party for you, there is no reason why you should not do so yourselves. Under the circumstances, I would either telephone the invitations or write them informally on your own note paper.

★ ★ ★

Dear Mrs. Post: A girl in our office is going to marry in about a month. We have not received an invitation to the wedding, but several of us would like to go to the church to see her married.

★ ★ ★

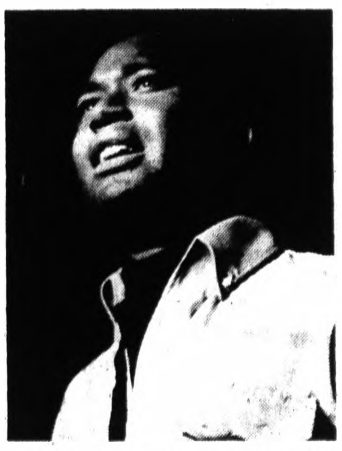

Some of the girls feel that a church is open to everyone and that it would be perfectly proper to go; others think it would be wrong to go without an invitation. What do you think?—Jenny

★ ★ ★

Dear Jenny: If she is having a large church wedding, there would be no impropriety in showing friendly interest by going to the church to see her married. If the ceremony is limited to family, then, of course, you should not go.

Whole Week Goes to the Girls at OU for Special Events

Girls will be in the spotlight at Oakland University next week as the Association of Women Students pay homage "to the many facets of womankind."

Josh White Jr., who has followed his father's footsteps into the limelight of popularity as a folk singer, will perform in concert at 8 p.m. Friday at Oakland University. The concert in Vandenberg cafeteria is being sponsored as part of "Women's Week" by the Off Campus, a student-run nonprofit coffee house. Tickets may be purchased at the door. White, who has staged more than 500 college concerts across the nation in addition to nightclub and concert hall appearances, offers a blend of folk, pop and country western songs.

Eight events are scheduled for observance of "Women's Week," which is a new campus activitity. A spokesman for the association said the program will attempt to point up the many charms of women, including brains, artistic talent, beauty and social graces and simple frivolity.

EVENTS

Highlights of the week will be a style show, a panel on "What Men Look for in Women," a "college bowl" type quiz, a concert and ice-skating party.

On Monday, art works of OU coeds will be on display all day in the Oakland Center Lounge and a film on childbirth, "Naissance," will be shown.

★ ★ ★

On Tuesday, a group of professional beauticians, hair stylists and fashion people will give free beauty tips from 2 to 4 p.m. in the Oakland Center, and Federal's Department Stores will present a style show that night in the Vandenberg Hall cafeteria.

Wednesday's main event will be the discussion on "What Men Look for in Women" at 3 p.m. in the Oakland Center. The panelists will include Nick Eddy, Detroit Lion fullback and former grid star at the University of Notre Dame.

The Association of Women Students also will sponsor the weekly Wednesday night dance in the Oakland Center grill as part of Women's Week.

★ ★ ★

On Thursday, four-girl teams will represent each of the four coed dormitories in a college bowl quiz in Vandenberg lounge.

Closing out the week's activities on Friday will be a concert at 8 p.m. in the Vandenberg cafeteria by folk singer Josh White, Jr., followed by a bonfire and ice skating party on Beer Lake in front of Vandenberg Hall.

Paris Decrees the Total Look for Fashionable '68 Spring

PARIS (UPI and AP) — Paris has gone mad for the total look.

Everything from hat to gloves, shoes and stockings must match, complement or contrast according to plan.

★ ★ ★

Makeup has changed radically back to a bright look with red lipstick, rosy cheeks and lighter eye makeup.

Hairdos vary from long and curly at Dior to short and smooth at Patou, but the former seems more important at the moment to gain the maximum impact.

LONG CIGARETTE HOLDERS

Long, long cigarette holders are a real vogue. Even Courrege's models sported them with their long evening trouser suits.

★ ★ ★

So are lots of hippie-type chains around the neckline, and bangles on the wrist, but they are of little importance compared to belts in this waist-emphasizing season.

The elasticized cinch belt and the wide, wide crushed cummerbund are important.

★ ★ ★

So are fabric or leather belts with round mother-of-pearl buckles.

Nina Ricci proposes a belt of black beads fastened with a white gardenia.

Pierre Cardin puts a black patent belt right around the bustline on lowcut daytime and evening dresses.

ORIGINAL TWIN BELT

The most original so far was a twin belt effect at Castillo. One slid more or less up on one side, down on the other, and the other a symetrically back to front.

They accented the hips as much as the waist and were used on both daytime and evening wear.

★ ★ ★

Stockings are generally sheer and either white or colored to match the costume.

Castillo even prints or beads his to match the dresses, very eye-catching when big brown polka dots are printed on white. Lanvin does the trick with yellow on black.

★ ★ ★

Dior comes up with shimmering evening stockings in silvery white or pastels.

MINIS

Dior hiked skirts four to five inches above the knees for most daytime wear as the couture house displayed spring and summer models with expert tailoring and a heavy accent on jewels and other glittering decor.

★ ★ ★

Even some evening dresses displayed plenty of above-the-knee leg. These were hostel gowns, with a cross-over surplice line which dipped to the floor in back but ran up some times as high as 10 inches above the knee in front.

★ ★ ★

Dior also concentrated on the overblouse, showing it in various lengths from Russian blouse length to tunic length.

Dior's designer, Marc Bohan, pays the greatest attention to his little daytime suits. They all have cardigan or blazer jackets, worn open.

★ ★ ★

The cardigans have rounded corners; the blazers are cut straight, and every edge on the jacket, skirt or sheath is either cuffed, edged or bound in a two-inch band of white.

AP Wirephoto

The last straw — a wedding dress made of thin white straw and worn with matching hat was presented by Lanvin in Paris during the recent fashion showings.

'Good as God' Efforts Lead to Depression

By MURIEL LAWRENCE

DEAR MRS. LAWRENCE: Why can my husband hurt me so? After a nervous breakdown eight years ago, a psychiatrist helped me but could not cure what he called my "narcissism." Then I found God. I now do all I can to make my husband and three boys happy, where before I only made this effort in fantasy.

But I still go into depression when my husband snarls critical remarks at me and beg you to tell me why I do . . .

ANSWER: Because you can't be bad and disappointing, that's why. Because you expect yourself to be as perfect as that Father in Heaven you say you have "found."

And right here I'd like to say that I wish to goodness that Jesus had not reportedly commanded us to be as perfect as God because, of course, we cannot be. However, the assumption that we ought to be plunges us into "depression" when a husband or somebody else presumes to criticize us, thus suggesting that we have flopped on Godlike perfection.

I don't understand this commandment of Jesus at all. I don't understand it because he refused to permit the word "good" to be attached to him, rebuking the person who tried to do it in these words, "There is none good but one, that is God."

What's more, he was extremely kind to people who knew that they were disappointing and faulty, while at the same time he was very rough, indeed, on people who claimed to be as good as God. Hypocrites, "whited sepulchers," he called them.

And if, as psychoanalyst Erich Fromm says, neurosis is "moral confusion," it's my notion that we can attribute our neurotic depressions to these two absolutely contradictory attitudes of Jesus toward human perfection, particularly if, like you, we have "found" God.

★ ★ ★

I'd like to dodge this kind of column. I can't because Christians have been sent into depressions for centuries by their obvious failures to be as good as God. We manage sanity only by trying to be as good as it's given us humans to be from moment to moment.

And when we fail, falling flat on our faces into "narcissism" and other bad things psychiatrists and husbands object to—well, that's how it is in this nonheavenly place.

And now I'm ready for the furious letters from other Christians who think they're as good as God.

Pianist Set for Concerts in Detroit

Geza Anda, internationally known concert pianist, will appear with the Detroit Symphony Orchestra Thursday and Saturday evenings at Ford Auditorium. Concert time is 8:30.

Anda will be heard in Mozart's Piano Concerto in D minor, K.466, and Bartok's Piano Concerto No. 2.

★ ★ ★

Hungarian born and now living in Zurich, Geza Anda is currently on his tenth tour of the United States. This will be his second appearance with the Detroit Symphony. He began his musical career at age 13, entering the Royal Academy of Music where he was a pupil of Ernst von Dohnanyi.

AMERICAN COMPOSER

Sixten Ehrling will lead the orchestra in Lester Trimble's "Five Episodes for Orchestra" and Weinberger's "Under the Spreading Chestnut Tree."

Trimble, a native of Bangor, Wisconsin, was recently appointed composer-in-residence to the New York Philharmonic Orchestra. The major part of his musical training was received at Carnegie Institute of Technology where he studied composition.

Case No. E-535

Why Some Marriages Fail

By DR. GEORGE W. CRANE

CASE E-535: Some of our major Christian churches are running advertisements in newspapers.

DR. CRANE

A recent ad by the Lutheran Layman's League, started out with this challenging statement:

"Half of all teen-age brides are pregnant at the altar!"

Which helps explain the related fact that half of all such marriages of teen-agers, will end in divorce before the 5th wedding anniversary!

For such "shotgun" weddings or even secret teen-age elopements where the girls are not pregnant, are always in jeopardy! Why?

For the following very logical reasons:

- They are more likely to be based on physical attraction (sexual magnetism) than on true love.

And such sensual hungers, when satisfied, leave the couple with no remaining strong bond of devotion.

- A stomach-hungry man may thus be greatly attracted to a cook with a fresh pie in her hand.
- But as soon as he is satiated by an excess of that pie, he is no longer interested in the cook.

For it was what he could get out of the cook that intrigued his gastric hunger and not a permanent attraction to the cook, herself!

Girls, that's one basic reason why sexual magnetism wanes fast.

Again, may I refer you to the Bible where in II Samuel, Chapter 13, you can read the story of Amnon, who was so smitten by the Princess Tamar that he took to his bed, sick.

That's where we obtained the phrase "love sick."

The Bible says he loved her.

But as soon as he had tricked her into becoming his nurse and then had assaulted her sexually, the Bible adds:

"The hate with which he now hated her was greater than the love with which he had loved her!"

Teen-age marriages are usually motivated by the same sensual hunger that Amnon demonstrates. So beware.

True love still persists after a person's stomach and erotic hungers have been fully satisfied.

True love is thus unselfish.

- In modern economic competition, a teen-age husband can't support a wife and family, so money problems will soon intrude and produce havoc.
- Early pregnancy soon forces the young couple to move back home, either with her folks or his.

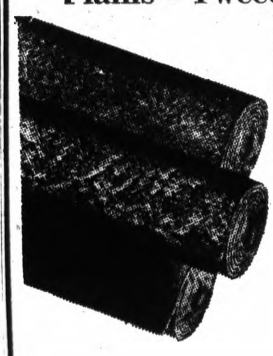

Then they grow irritated at lack of their own independence, so the quarreling tempo zooms.

- If a teen-age marriage lasts till the girl is 29, then she may enter the '29 panic, wherein she wonders if she shouldn't taste some of the pleasures of life that she missed by her early marriage.

Junior Editors Quiz on NIGHT ANIMALS

QUESTION: Can night animals see color?

★ ★ ★

ANSWER: Some animals, such as the birds, which are active during the day, see almost as much color as we do. However, about two-thirds of the animals sleep during the day and move around at night, when they are less likely to be seen.

There is little color visible at night. That is why so many animals are more or less color blind. It is more important for them to see shapes in light and dark than in color.

Many animals in zoos sleep during the day and so are not very interesting to look at. Certain zoological gardens have recently created new exhibits to show what night animals look like when moving around. The color red does not register to a night animal's eyes. Imagine the scene in our picture with no outside light and all the lamps red instead of white.

The animals in the cages, because of the red light, can't see the people looking at them. They think it is night and move actively around. After 10 p.m., bright lights are turned on. The animals then think it is daytime; they curl up and go to sleep.

Cut Own Taxes—6

Here's Word for GIs

(EDITOR'S NOTE — This is the sixth in a 14-part series by Ray De Crane, a tax expert and veteran newsman. The author, business editor of the Cleveland Press, has aimed his advice at people with average incomes, not big business or stock market tycoons.)

By RAY DE CRANE
NEA Publications

"Serving in Vietnam" will be a magic phrase on income tax returns filed this year.

If a Vietnam serviceman is filing a return calling for a refund this will be a signal for Internal Revenue Service to give it priority treatment.

If the wife of a Vietnam serviceman is filing a joint return with her husband, his signature is not needed on the return.

She will include all the income of each of them, claim all the proper deductions and then sign only her name.

★ ★ ★

In the space provided for the husband's return she need only write: "Serving in Vietnam."

ONLY SITUATION

This is the only situation where IRS will accept a joint return with the signature of one of the living spouses missing.

This is just the first of many tax advantages to be enjoyed by Vietnam servicemen. Others are:

None of the pay received by enlisted men and warrant officers for service in a combat zone is taxable. It need not be reported on their return.

★ ★ ★

If hospitalized as a result of wounds or disease suffered in a combat zone none of the pay received while hospitalized is taxable.

FULL MONTH

For purposes of the two preceding paragraphs, any part of a month is treated as a full month.

Therefore one day spent in combat or in a hospital as a result of combat excludes the full month's pay from tax.

For officers, the first $500 received monthly either for combat service or in a hospital as a result of such service is nontaxable.

★ ★ ★

Other nontaxable military and veterans' pay includes: Payments equal to six months pay to beneficiaries of servicemen who died on active duty; veterans' benefits paid by the Veterans Administration to veterans and their families; education, training and subsistence allowances to veterans; disability compensation; veterans insurance proceeds and dividends; state bonuses paid to veterans; grants to seriously disabled veterans for homes designed for "wheelchair living"; grants for motor vehicles for veterans who lost their sight or the use of their limbs.

(NEXT: Some income is not taxable.)

'Fair-Housing Failure Would Slap Negroes'

EAST LANSING (UPI) — Burton I. Gordin, executive director of the Michigan Civil Rights Commission, warned yesterday that failure of open housing legislation would be "another slap in the face of the Negro community."

Appearing as part of a panel on the future of civil rights at the Michigan Press Association's Centennial convention, Gordin outlined the drive for open housing and its failure at the fall special legislative session.

He agreed with William T. Patrick Jr. of the New Detroit Committee that he does not really know what lies ahead for open housing. A new housing bill is being considered in a Senate committee.

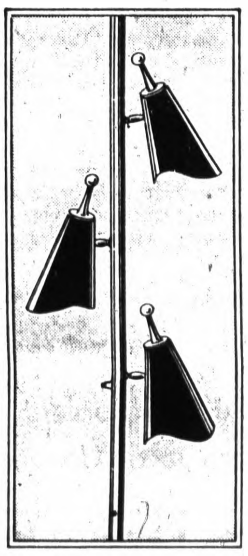

"Fair housing will do nothing but it means something," Gordin said. "Its failure would just be another slap in the face of the Negro community."

★ ★ ★

"Unless the country commits itself to what has to be done, the outlook is gloomy. What happens depends on us," he said.

Birch-Paneled Family Room Draped In Natural Linen Opens Off Slate-Floored Foyer

Friendly Decor Is Inviting

By JODY HEADLEE
Home Editor, The Pontiac Press

The home of Mr. and Mrs. Eli Stanesa of Troy reflects the friendly outgoing personality of its hostess: the informal dining area with its round maple table and armchairs tempting guests to pause for a bit of conversation and a cup of tea.

Coordinated wallpaper and draperies introduce shades of rust, gold and green in an Early American print to enhance the warm spice tones of the maple furnishings. Colorful Indian corn and bittersweet in antique brass containers emphasize the autumn colors.

A shades of brown braided rug centers the dining area.

Assisted by the decorating staff at Wiggs Colony Shop, Bloomfield Township, Mrs. Stanesa chose a neutral champagne shade for the formal living room's carpeting.

Serving the curved champagne boucle sofa are a square-doored cabinet and a pedestal coffee table in cherry. Throw pillows on the sofa repeat the pattern of the nearby loveseat. The shades of red, gold and green enliven the room's monochromatic background theme.

The swing to informal living is again evident in the antiqued birch-paneled family room at the front of the house. After pushing out walls, and adjusting heating ducts, the Stanesas remodeled the room to suit the casual phase of their mode of living.

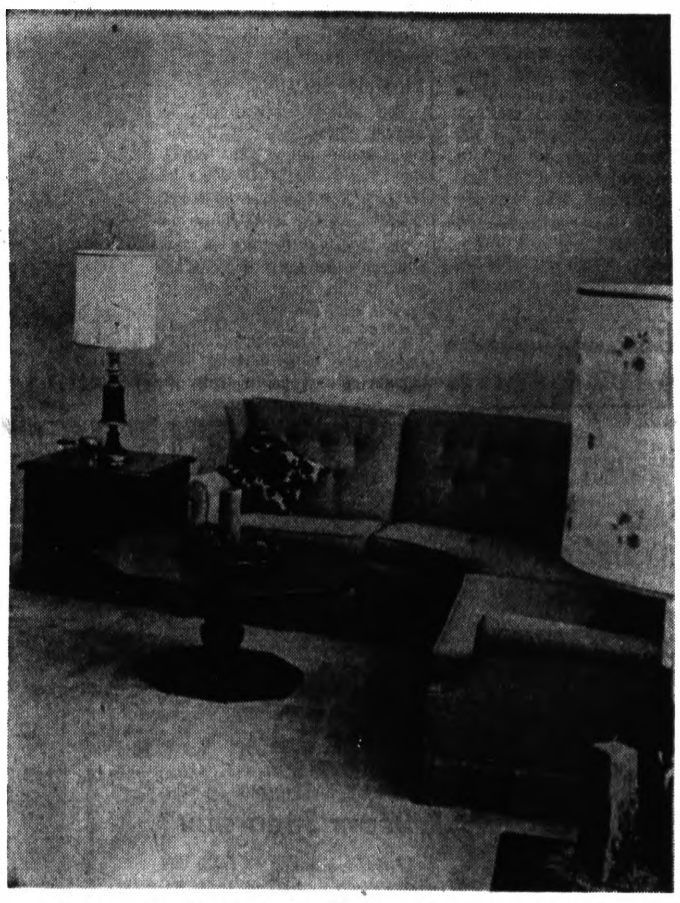

Carpeted in gold, the room is draped in natural linen and curtained in off-white glass sheers

An octagon maple table topped by a brass and black eagle lamp is placed next to a brown, blue and green plaid wing-back loveseat. Serving the room's matching loveseat is a spindle tiered coffee table. The massive artificial fruit wreath hanging above the loveseat was made by Mr. and Mrs. Stanesa.

A hurricane lamp adorning the maple drop leaf table before the window is encircled with a fruit wreath repeating the fruit detail of the wall piece.

Before the raised hearth is a shades-of-green tweed swivel rocker and ottoman lighted by a milk glass globed, wood and brass floor lamp. A pressed glass covered candy dish on the maple side table adds color.

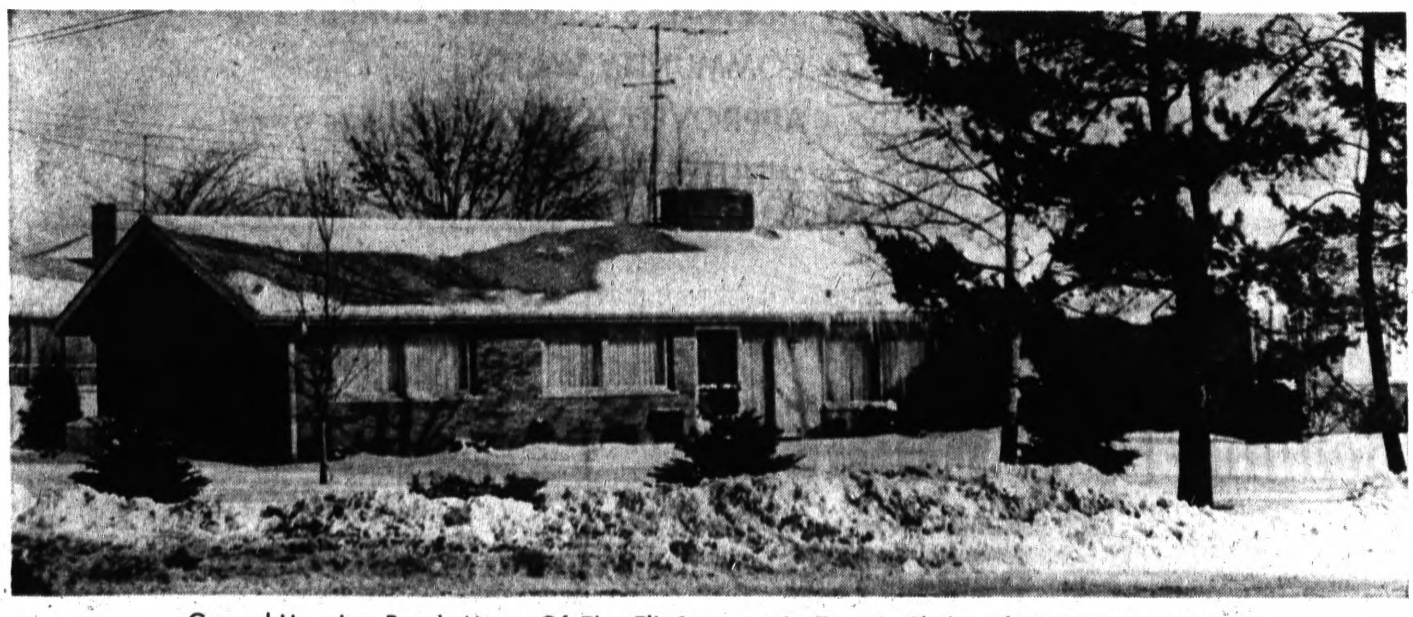

Bittersweet in a stoneware pitcher dresses the table beside the Early American print covered rocker, the natural red-orange tones of the fall berry emphasizing the paprika accent of the print.

SPLITLEVEL COMFORT — There's a nice, quietly comforting appearance about this modest split level house, with its natural cedar shingles, white trim, outdoor deck on the bedroom wing and complete wall of high windows along the front of the living room.

Modest Splitlevel Home Is Designed for Young Children

Compact and pleasant in appearance, this splitlevel house is ideally suited to a family with young children, with enough flexibility to meet their changing needs as they grow older.

Architect Samuel Paul has made the spacious kitchen the control center for the entire house. It maintains direct access to or visual contact with all these areas: the dining room, front entry, rear patio, family room, garage and, due to its high sloping ceiling, even the children's bedrooms.

Containing all the modern appliances desired by the housewife of this day and age, it also accommodates a large table for informal family meals.

(See Z-25 Floor Plan on Page B-3)

Design Z-25 has 1,475 square feet of habitable area in the basic part of the house, which encompasses a living room, dining room, front entry foyer, kitchen - dinette, three bedrooms and 2½ baths. On the lower level are a family room, lavatory and two-car garage. There is an upper patio, a lower patio, an outdeck deck outside of the outdoor deck outside of the master bedroom and a covered porch off the dining room. The laundry area is located in the basement. Over-all dimensions, which include the garage, are 53' 8" by 40'.

The family room on the lower level adjoins the kitchen, separated from it only by a railing.

★ ★ ★

The two rooms form one large informal area, well suited for young children to play in under the watchful eye of mother—for teen-agers to party in — or for adults to relax in.

DINETTE SECTION

The dinette section of the kitchen leads directly to the rear upper patio; the family room has sliding glass doors to the rear lower patio, which has a barbecue.

The balcony leading to the children's bedrooms also can be part of this space, making it easy to tend the youngsters.

As the children grow older and require more privacy, the balcony railing can be replaced by a full wall, creating an enclosed hallway to the bedrooms.

To the right of the kitchen is the formal dining room and, to the right of that, a covered porch. This porch, open to the rear and the side, may be screened in, if desired, for pleasant outdoor dining.

In fact, if needed at a later date, it is a possibility as a complete additional room, since it is within the over-all dimensions of the house and does not require extra land.

The living room, just to the right of the entry foyer, has a brick fireplace and a long wall of windows, complete with a window seat overlooking the front garden and contributing to the cheerfulness of this formal entertaining area.

★ ★ ★

There also are windows looking out onto the covered porch. The foyer itself is spacious, with a guest lavatory and a walk-in lavatory.

BEDROOMS

All three bedrooms are at the left side of the house. There is a bathroom with full tub located near the children's bedrooms, while the master bedroom has a private bathroom with stall shower.

The master bedroom has a somewhat unusual feature for a small house: two walk-in closets. Generally, a single walk-in closet and a smaller closet are considered excellent facilities in the principal bedroom, even for a larger house.

Another highlight of this particular master bedroom is a private outdoor deck accessible through sliding glass doors.

★ ★ ★

In addition to the two bathrooms and lavatory already mentioned, there is a lavatory on the lower level adjacent to the family room and the patio.

The family room has three closets for storage, and there is additional storage space in the two-car garage.

A laundry area is located in the basement, which is under the kitchen, dining room and living room.

★ ★ ★

Enveloped in natural cedar shingles, with accents of white siding and trim, the exterior of design Z-25 has a look of agreeable comfort.

Beam Separator

Separate a dining ell from the living room by making a "doorway" between. A 4x10-inch beam set against the ceiling and supported on 4x4 posts on either side will do the trick neatly.

Spruce Up Kitchen Before Springtime

Transform your kitchen into an atmosphere of fun, gaiety and excitement—all with a can of paint! The kitchen is the scene for many daily chores all through the year but now is the perfect time to make it decorative and inviting!

FLOOR PLANS — Closet and storage space so valued by modern home owners is very much in evidence throughout this floor layout, which has good traffic circulation on any level. Two patios, a covered porch and an outdoor deck provide plenty of outdoor living space. (See story on Page B-2.)

A trip to the paint store for a quality enamel and a minimum amount of work will make your baking and meal serving more of a pleasure for you and your family. A quality enamel is easily applied, is inexpensive, and will prevent the expensive damage that results from a great amount of cooking and cleaning moisture from seeping through the walls.

Your enamel finish can be frequently cleaned without dulling the original bright color and assures complete hiding power and a long lasting finish! Your local reputable paint dealer can recommend an enamel that has these qualifications.

Before dipping your brush into the enamel, a good surface cleansing is a must for successful results. A simple soap and water or detergent scrubbing will remove dirt and grease collected on the walls! Remember to fill any little cracks with a patching compound and sand them smooth. Roughen very glossy areas with fine sandpaper to insure proper adhesion of your enamel.

★ ★ ★

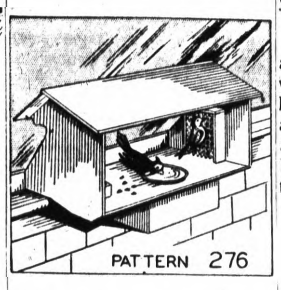

Now, you're ready to begin! Spread the enamel onto the surface with a generously loaded brush and long smooth strokes. Before refilling your brush, cross-stroke and then, with your brush practically dry, go over it again with long, smooth strokes. If you follow these steps the end result will be a smooth finish that will delight your eyes!

★ ★ ★

Since the kitchen is such a busy place and the scene for many activities, choose a color that will heighten your spirits starting with that first meal of the day! Choose a color that stimulates you and enhances your personality.

★ ★ ★

Why not go a step further and make one wall a focal point with a contrasting color!! Your kitchen utensils will sparkle against a colorful background and your kitchen will keep its bright sparkle and shine all through the new year!

SUMMER AND WINTER birds will stay around your home if you give them food, shelter and water. Pattern 276 gives actual-size guides for a window-sill feeding station and directions for a non-freeze water pan. The same pattern is used for the open-face house that robins like. This pattern is 35 cents. It also is in the Birdhouse and Feeder Packet No. 31 which is $1.

Novel Work Table's How-to-Make Steps

This multipurpose table was designed for use as a workbench, desk, game area and snack bench. It is big enough to allow youngsters room to finger-paint at one end while Mom cuts out designs on a jigsaw at the other end.

★ ★ ★

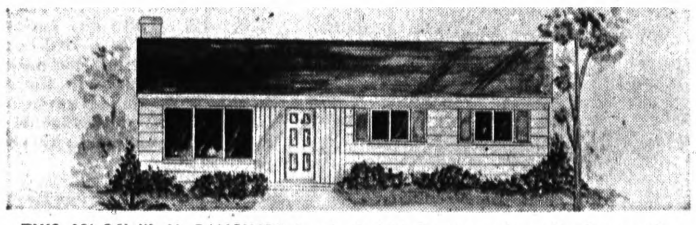

Motorized dispensers for wax paper and foil used in drying small glued or painted articles and retractable wastebaskets for quick cleanup can be hidden under the table. A panel of white plastic-finished Marlite provides a smooth, snag-free top.

An inexpensive, hollow-core flush door setting on two fiber drums forms the base of this versatile work table. Not only do the drums make attractive supports when covered with a self-adhering, woodgrained plastic covering, but they also serve as large storage bins for seasonal items that aren't used regularly.

The drums used for this table are 22½" in diameter and 27" high. The metal lids of the drums are bolted to squares of plywood, which are in turn screwed to the underside of the door.

When the door is placed over the drums, metal rings lock the lids to the rims. The assembly then becomes a rigid unit. The edges of the door are finished with wood tape, and the Marlite top insures an easy-to-clean surface.

A damp-wiping is the only maintenance required. The unit's attached accessories are available at hardware and variety stores.

THIS 40'x26' "J. V. RANCHER" is priced right for you early spring buyers who wish to beat the rush at only $16,500 on our building site of 1¼ acres. Features include: Full basement; aluminum siding; 235 lb. shingles; aluminum windows; #1 oak flooring; 3 bedrooms; 2" sidewalls; 4" ceiling insulation and gas heat. Hurry, only 2 lots available.

Land, Labor Rise Ups Home Prices

House prices jumped dramatically between 1955 and 1966—but land and labor costs are mostly to blame.

★ ★ ★

Land prices have multiplied an astonishing 2½ times, while labor costs have risen approximately 52 per cent. Federal Housing Administration figures show. Mortgage costs also took a healthy jump, up 25.7 per cent.

★ ★ ★

On the other hand, prices for construction materials rose only 9.3 per cent during the '55-66 period.

Cost of lumber showed only a modest six per cent increase while plywood prices actually declined 26 per cent.

Childproof Wall

Resawn lumber paneling is great for hallways because it's childproof — won't show fingermarks.

EXCITING DECOR — Even the lively leopard print covering on the loveseat and table whipped up on the sewing machine takes on a serene look in this room. The reflective shapes of glass and steel are repeated in another dimension with oversize squares of vinyl asbestos tile. Narrow stripping that separates and define the richly embossed pattern adds further to the sophisticated look of this room. The entire project makes an ideal do-it-yourself venture for the family.

Sticky Problem

Paneling Installation

QUESTION: Would like to attach hardboard panels with adhesive rather than nails. Is there a special kind of adhesive that will do the job and will it really hold for a period of years?

Answer: It is difficult to give simple answer to this question because you have failed to give sufficient information. It is important to know, for instance, whether the panels will be applied to bare studding or to old walls.

In the latter case, no matter how strong the adhesive, the effectiveness of the bond will depend on the solidity of the old wal

If you are certain that it is strong enough to support what amounts to an additional wall, clean the surface to remove any dirt or grit that might interfere with the bonding. A special panel adhesive is then used.

★ ★ ★

It comes in cartridge form for use in a simple caulking gun or in a container for use with one of those notched trowels with which mastic is spread for the application of resilient floor tiles. This type of adhesive must set before it becomes effective.

SUPPORT PANELING

The paneling, therefore, must be supported with T-braces or something similar to keep it steady until the adhesive sets, the length of time being determined by the instructions on the label.

Since you are determined not to use nails, you must find another method to keep the new wall tightly against the old for the recommended period of time.

★ ★ ★

If the hardboard panels are to be attached directly to studs, you may then use contact cement, brushing all contact areas with this molasses-like material. After waiting at least 30 minutes, press the panel against the studs in the desired postition.

★ ★ ★

But, as is always the case with contact cement, the positioning must be exact the first time, since the bond takes place instantly.

Because this is so vital to a correct installation, it is better to have a friend assist you in holding the panel and placing it on the studding properly. Don't worry; it will hold indefinitely.

Children Like Own Room

Children need the privacy of their own room, but they also need active indoor play space.

In many homes, it's hard to provide both but here's a plan that often works.

Instead of wasting space on hallways, design the bedrooms to open directly off a central activity room.

With play space provided by the activity room, bedrooms can be a minimum 8x10 feet.

★ ★ ★

A single bed set lengthwise against one inside wall will take three feet of the room's width.

STORAGE WALL

Opposite, a storage wall with closet, built-in dresser and desk will use another two feet, leaving three feet for walking space between.

Good appearance can be given the small bedrooms if built-ins are tailored in a warm-toned lumber like western hemlock, with flat walls paneled in the same wood.

The wood will take plenty of wear and will "grow up" with the children.

★ ★ ★

Bedspreads and matching curtains can be a bright plaid, with carpeting picking up the plaid's main color.

Hamamelis virginiana L. (Common Witchhazel) comes into bloom as its leaves are falling in the autumn.

Wood Moldings Adorn Wall Area

Large wall areas in a room usually pose a decorating problem. One inexpensive way to add interest to a wall is to apply standard wood moldings in rectangular forms directly to the wall surface.

Moldings may be painted the same color as walls or in contrasting colors.

★ ★ ★

Wallpaper may be applied only in the areas inside the molding rectangles, or only outside, for an interesting decorative effect.

Wood moldings are available in a variety of shapes and sizes at any lumber yard. They're easy to cut, and apply with glue and small finishing nails.

In most parts of the country, the indoor heating season lasts between six and nine months.

GAME TABLE — No matter what card games you play, the contour design makes it possible for all participants to sit closer to play. The pattern for building this card table is full size. To obtain card table pattern number 305, send 50 cents by coin, check or money order to: Steve Ellingson, The Pontiac Press Pattern Dept., P.O. Box 2383, Van Nuys, Calif., 91409.

Time Darkens Painted Surface

Painting woodwork inside the house? If matching the color to wallpaper or fabric, make the enamel a tone or two higher.

★ ★ ★

Paint, particularly enamel, tends to darken over a period of time, and a perfect match will look decidedly mis-matched within a few months.

Timber's a Crop

Trees ripen just like farm crops. If they become overripe, they decay and become subject to insect and disease attacks. Tree farmers harvest mature trees, so new crop can grow.

Resilient vinyl floor tiles leftover from flooring installation are work saving coverings for closet shelves and floors, and atop kitchen cabinets.

Comfort Is the Key to Heating System

By now you've probably had your first taste of winter and with it, the first experience with your home heating system. Did it make you comfortable, or did it merely heat the room?

There's a big difference, today's homeowner should settle for nothing less than true comfort.

To be truly comfortable, you should feel neither hot nor cold. There should be no drafts. No harsh blower sounds. No on-and-off heat sensations. Your feet should feel as warm as your head. And the floor should be as warm as the wall.

Meeting these requirements is no easy task, but each system in each house should be designed to provide the maximum in indoor comfort.

★ ★ ★

The hydronic (hot water) heating industry uses water as a medium to meet the requirements of true comfort. The temperature of water can be controlled and modulated more closely than the temperature of air, and heated water can also be stored and sent great distances without losing its heat.

That's why the industry advocates the use of hydronic baseboard heating units. The units are located at floor level against walls that are exposed to the weather, and they build a blanket of heat that radiates throughout the entire room, warming everything in the room directly, including the occupants.

Molding Protects

Prevent nicked corners near doorways and in halls by adding an attractive corner guard molding.

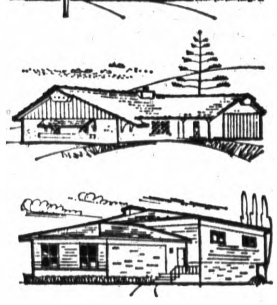

FOLDAWAY DESK—Space for planning desk is made with bottom-hinged cabinet front that drops down to desk height. When desk is up, leg lies flat against front, is faced with cork and used as a bulletin board. Inside cabinet are shelves for cookbooks, recipe box, seldom-used articles like vases. Unit is built of ponderosa pine boards.

HAPPY BIRTHDAY—Rachel Schlyfestone has one more candle to blow out. She was 6 years old Thursday. This will be Rachel's last birthday cake in Pontiac for a while as her parents, Mr. and Mrs. Irving A. Schlyfestone of 452 W. Iroquois, sister Rebecca, and brother Daniel, (also in the picture), are

Pontiac Press Photo by Edward R. Noble

leaving for Israel where they will make their home. The family will go by air from New York City on El Al Israel Airline on Feb. 27. Parents and children are excited about the move.

Jewish Family Moving to Israel

The Irving Schlyfestones and children Daniel, Rebecca and Rachel are just about the happiest people we know right now.

The family is preparing to move to Israel in February leaving most of their belongings in this country.

★ ★ ★

Whe leave a land of plenty for a country poor in material goods?

Mr. Schlyfestone who resigned his position as head of the camera department at Simms said it is a difficult question to answer. This is what he said:

"At the time of the six-day war in June our family had great fears for Israel's very existence. Being Jewish we decided we should as a family go to Israel to help with the building of a strong democratic nation.

"In July our son, Daniel, attended the Zionist Summer Camp in Israel and the rest of the family toured the country.

"We fell in love with the people and country. We feel a necessity to give what ever help we can. Israel needs population know how."

Schlyfestone said ne felt the three children can help contribute and he and his wife want to give them the opportunity.

ATTEND SCHOOL

The Schlyfestones will first make their home in Netanya, a small city on the Mediterranean Sea designed for communal living. Here they will attend a school for whole family taking an intense course in the study of the Hebrew language.

During the four or five months of study they will live in temporary housing, What will Mr. Schlyfestone do? He doesn't know.

"I haven't made plans as to what I shall do in Israel but I hope whatever is best for the country, will be best for my family," he explained.

"We have hopes that the Arabs will eventually accept Israel's existence and live in peace."

Mrs. Schlyfestone spoke up with "We are looking forward to a country with cultural tastes. We are taking our paintings, sculpture and piano along.

"Daniel who plays bass clarinet in Pontiac Central High School Band will keep his instrument.

PARENTS TO MOVE

"In a few months my parents, Mr. and Mrs. Joseph Redler of New York City will join us, that is, when my father retires as a pharmacist.

"Living will be a little simpler in Israel. We won't have the luxuries here in the United States but we will enjoy more reading, and walking. There are few cars in Israel. Gas is too expensive.

★ ★ ★

Mrs. Schlyfestone said she would keep The Pontiac Press informed as to what they are doing Members of the family attend Congregation B'nai Israel, Pontiac.

St. Irenaeus Is Dedicated

Church Located on Old Perch Road

Several hundred people attended the dedication service of St. Ireneaus Catholic Church, 771 Old Perch, Avon Township, Wednesday evening.

The Most Rev. John F. Dearden, archbishop of the Detroit Catholic Diocese, dedicated the new church.

The Rev. Albert C. Kolch of St. Alexander Catholic Church in Farmington preached the sermon.

Participating in the concelebrated Mass were the Rev. Kenneth MacKinnon of St. Rita's Catholic Church, Detroit; the Rev. Thomas Van Antwerp of St. Andrew's Church, Rochester; and the Rev. Arthur Schaffran, principal of Sacred Heart High School, Detroit.

★ ★ ★

Msgr. Raymond J. Kuzava is pastor of St. Ireneaus Church, and Mrs. Richard Conderick, choir director and organist. Some 500 Catholic families are currently attending services.

Msgr. Kuzava said the next project is the rectory. Already work has started on the site beside the church.

The new church, the first unit of a building program, was constructed at an approximate cost of $190,000. The church is located on an 11½ acre site.

The beige brick building has inner walls of cinder block painted of white. Pews are oak and walls behind the pulpit are paneled in walnut.

GENE RUSSELL

Gives Time, Talent to Youth Programs

Mrs. Harold L. Welch, volunteer organist and youth leader at Orchard Lake Community Church, for some 30 years, will feel a little lost when she attends services Sunday morning.

She has resigned as director of youth choirs and organist because of ill health.

A charter member of the Orchard Lake Church organized in 1943, Mrs. Welch attended the Sunday School held in Westacres Community Club House during the summer months of 1939.

She was on the planning committee appointed to help organize the Sunday School into a church with servies held throughout the year.

The Orchard Lake Church founded in the 1800s, was used only during the summer when families came to Orchard Lake for vacation periods.

Mrs. Welch who attended national training schools for choir leaders at the College of Wooster was elected a deacon of the church, and with her husband organized the high school youth group.

With Mrs. Williard Webster she helped found the Chancel and Choraler choirs.

HELPS WITH YOUTH

In 1955 Mrs. Welch helped organize the junior high youth group. The group comes to the church after school has supper and a brief program. Membership stands near 75.

Mrs. Welch served as junior high adult advisor at Camp Greenwood and senior high adult advisor at Presbytery Point many years.

The Women's Association honored Mrs. Welch with a gold pin and certificate in 1960 during a Presbyterian meeting at Grosse Pointe Memorial Church.

★ ★ ★

On Dec. 31, the Rev. Edward D. Auchard presented her with a certificate of recognition for outstanding Christian service, devotion and dedication to the church and community.

Chorus to Sing

The Pastor's Chorus of St. James Missionary Baptist Church will sing at the 11 a.m. service tomorrow under the direction of Deacon Richard Smith Jr. Rev. V. L. Lewis is pastor.

Young people will lead morning worship with June Lockamy, Donna Patrick, Gary Swartz and Steve O'Connor speaking on the theme, "Science, Faith and Creation."

OU Senior, Bass Soloist for Church

Serwind Netzler, a senior voice major at Oakland University, has accepted a position as bass soloist at First Presbyterian Church in Birmingham.

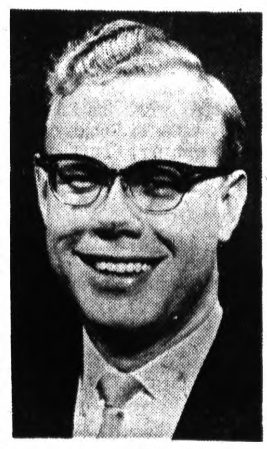

A member of Oakland University Chorus, Netzler has been bass soloist with both groups.

He was on the charter staff of the Meadow Brook School of Music in the summer of 1965, as student coordinator or programs.

Netzler worked on the Opera Overtures in 1965 as assistant stage manager, and with the Meadow Brook Theater at Oakland University since its inception.

While with the theater guild he starred in Shapespeare's "Midsummer Night's Dream" and Pinter's "Birthday Party."

In 1966 Netzler appeared in a starring role and later worked as a script consultant with Will-O Way Apprentice Theater.

Fun Program Set for Birmingham

"An Old Fashioned Day With a New Sparkle" is the theme of the program for family and friends sponsored by Detroit and Suburban Christian Science Monitor Youth Forums tomorrow afternoon.

Fun will begin with ice skating at 2 p.m. in Eaton Park, Birmingham. Skaters will warm up later with hot chocolate and sandwiches at the Birmingham Community House, Townsend and Bates.

Christopher L. Baar, an 18-year-old folk singer from Grand Rapids, will be featured in the fireside program.

Tim Shaw and Jerry Boom, students of North Farmington High School, will also provide entertainment with a 12-string Gibson guitar until the 6:30 p.m. closing hour.

Reservations may be made with Mrs. Alan B. Killeen, 29818 Muirland, Farmington.

Life of Christ Film Series at Bethany

"Holy Night," the first of 12 episodes in the newly released living Christ picture series, will be shown at 6 p.m. tomorrow as a special Life of Christ study course at Bethany Baptist Church Huron and Mark.

Ray Rooney, chairman of the board of deacons, will present a supplemental discussion of the film, and will conduct the question-and-answer period following the showing.

Discussion groups will be especially designed for the various age groups.

Mr. and Mrs. Nevario Masters will work with the junior high youth, and the Rev. and Mrs. William Offutt will lead discussions in the senior high group.

Fred Ebey is planning a special musical program for each evening with emphasis on familiar gospel songs.

"Holy Night," photographed in color, is a faithful Bible account of Isaiah's prophecy and its fulfillment.

Dr. Emil Kontz, pastor of Bethany Church, said he has never seen a more meaningful and accurate account of the Life of Christ. The public is invited to attend the entire series, Dr. Kontz said.

Ministers to Meet for Free Breakfast

A free breakfast will be served the Greater Pontiac Evangelical Ministers' Fellowship at 8:30 Thursday morning in First Social Brethren Church, 316 Baldwin.

In Bogota

Expect Pope Paul VI to Attend Congress

BOGOTA, Colombia — Pope Paul VI is expected not only to attend the 39th International Eucharistic Congress in Bogota next August, but to come for the opening and remain through the four most important days, according to a report sent today by John M. Haffert, author of the Eucharistic book "The World's Greatest Secret."

★ ★ ★

In Bogota to confer with the Congress Committee, Haffert said the report had come a few days ago "through diplomatic channels."

"It is necessarily only a oral report, he said, "but after our experience with the Holy Father's visits to Bombay and Fatima, with preliminary reports from similar sources several months in advance, it is reasonably sure that the reports ultimately will be confirmed, though not until just one or two weeks before the event."

The Pope's presence at the Congress in South America will be historic, if current reports are confirmed.

It will be not only the first visit of a Pope to that hemisphere, but also, because of its expected duration, the longest period of time Pope Paul ever will have spent on a mission outside the Vatican.

★ ★ ★

Five major pilgrimages are planned from the United States, one of which will be led by Cardinal Cushing. The largest probably will be that led by the Blue Army of Our Lady of Fatima, which also organized the largest U.S. pilgrimage to Bombay four years ago.

★ ★ ★

The Blue Army pilgrims will be joined in New York by the Bishop of Fatima, and will present a statue from Fatima for the people of Columbia on August 22, Feast of the Immaculate Heart of Mary, which occurs during the Congress.

★ ★ ★

News and details of the Eucharistic Congress and of the pilgrimage may be obtained from the Blue Army, Washington, N.J. 07882.

Guest Pastor at Mt. Calvary

The Rev. Eddie McDonald, pastor of Bible Way Baptist Church, will preach at the 3 p.m. Men's Day service tomorrow in Mt. Calvary Missionary Baptist Church. Two Masonic Lodges will be guests.

At 7 p.m. the Gosplettes will present musical selections as well as the Voices of Hope, the combined choirs of Antioch and Mt. Olive Baptist churches. Men of the congregation will teach Sunday School classes.

JANE O. ROBBINS

Christian Science Lecture Tomorrow

A Christian Science lecture titled "Freedom To Be Yourself" will be discussed by Jane O. Robbins of Boulder, Colo., at 4 p.m. tomorrow in First Church of Christ, Scientist, 164 W. Lawrence.

★ ★ ★

Her lecture will concern how a deepened understanding of men's relationship to God can help.

Admission is free and open to the public

During World War II, Miss Robbins was a service pilot with the Army Air Force. After the war, she spent some time in Alaska and flew as a bush pilot in the Nome-Point Barrow area.

Later she became a representative for an aircraft corporation in Illinois.

First Christian Youth Lead Worship Hour

Young people of First Christian Church will observe Youth Week tomorrow through Feb. 4.

Nancy Brown, president of Christian Youth Fellowship, will give the morning sermon with the subject, "The Paths — Our Chosen Way."

★ ★ ★

Nancy Appleton and Beth Vaughn will song the duet titled "Father Hear Our Prayers."

Serving as elder will be Mike and Mark Shanholtz. Nancy Appleton will be lay leader.

Taking the part of deacons will be Phil Morgan, Martin Marks, Judy Appleton, John Graham, Joan Appleton and Beth Vaughn.

The youth will complete the observance by giving donations at the beginning of the School of World Outreach evening session on Feb. 4.

Feature Music

The choir of Bray Temple will sponsor a musical program featuring the Pontiac Spirituals at 7:30 p.m. tomorrow. Mrs. Fannie Potter will be mistress of ceremonies.

Musicale Slated

The Pontiac Spirituals, Wandering Travelers and Gosplettes, singing groups of the Pontiac area, will present selections at the musicale at 3 p.m. tomorrow in Mt. Olive Baptist Church, 390 Osmun. Mrs. Ola Page is chairman of the event.

Special to The Press

SAGINAW — Pontiac Central's bid for an upset faded in the second half here last night as the Chiefs dropped a 68-61 decision to the Trojans of Saginaw.

The loss left the Chiefs (2-5) mired in seventh place in the Saginaw Valley Conference standings, while the victory kept the Trojans in the thick of the battle for the championship.

Saginaw, now 5-1 in league play, shares second place with Flint Central, both a half game back of Midland (6-1).

In other SVC contests, Midland defeated Bay City Central, 66-61, Flint Southwestern won its first game of the season by downing Bay City Handy, 75-68, and Flint Central squeezed out a 60-57 win over Flint Northern. In a nonconference encounter, Saginaw Arthur Hill turned back Flint Northwestern, 77-60.

★ ★ ★

The potent one-two punch of center-forward Alton Wilson and guard Frank Russell kept Pontiai Central in the game for a half, but Saginaw exploded in the third suarter to put the game away.

QUICK BASKETS

The Trojans were nursing a 37-36 lead as the third period opened, and then baskets by Ray Richardson, George Forster, Ed Roberson and Von Nickleberry shot Saginaw into a nine-point lead and the Chiefs spent the rest of the evening in an unsuccessful effort to catch up.

★ ★ ★

Saginaw outscored the Chiefs in that third frame, 25-14, as the team hit on 11 of 19 shots.

And although Saginaw went cold in the fourth period—scoring only six points—the Chiefs couldn't take advantage of the opportunity.

Central closed the gap to four points with 1:21 left in the game on a bucket by Wilson, but Forster made a couple of free throws with 37 seconds left to make it 66-60 and Roberson added a pair from the line with 8 seconds remaining.

★ ★ ★

Wilson turned in one of his finer performanies of the season with 29 points and Russell netted 18.

HOT FIRST HALF

The high-jumping Wilson, scoring on jumpers and drives, collected 21 of his points in the first half and Russell checked in with 11 in the first half.

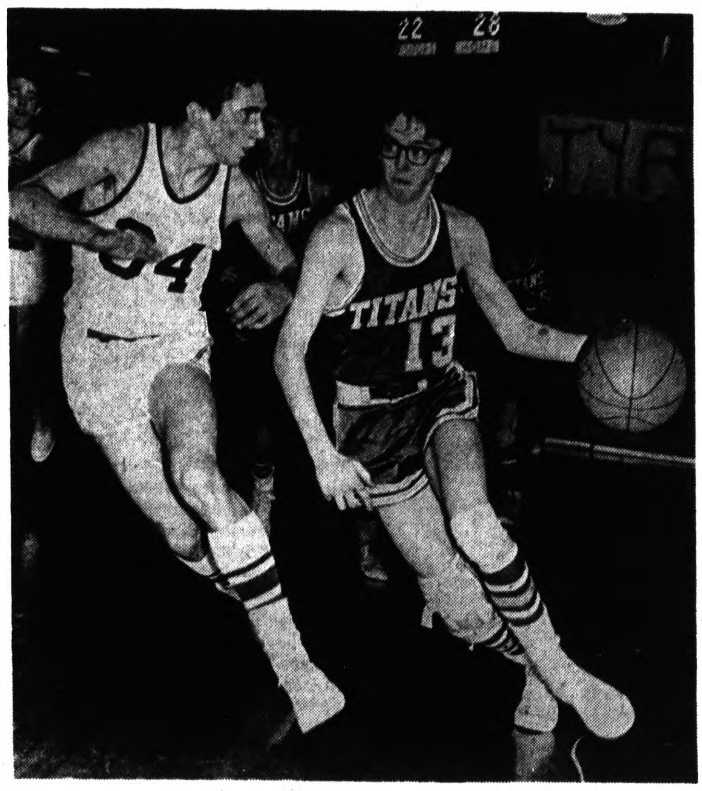

For the evening, Saginaw hit on 30 of 72 shots for 42 per cent, while Pontiac made 24 of 68 for 35 per cent.

In the rebounding department, Saginaw gained a 33-32 edge.

DRIVING IN — Butch Finnegan (13) of Pontiac Catholic leads for the basket with Jerry Yezbick of Waterford Our Lady of Lakes in close pursuit on this first-half play last night in their game on the WOLL court. Finnegan scored on this play and wound up with 18 points for the night but WOLL won the game, 60-46.

Huskies Play Ann Arbor Tonight; Vikings Tumble

By JERE CRAIG

Pontiac Northern and Waterford Township showed their "killer" instincts Friday night and easily registered Inter-Lakes League victories.

The Huskies walloped Livonia Stevenson, 89-57, and attempt to add victory No. 7 tonight in a home game with weak Ann Arbor. PNH is 4-0 in the league race.

Waterford ran away from Walled Lake in the second half for a 75-54 conquest that left the Skippers alone in third place.

WTHS, after losing its opening two I-L starts, is beginning to show the punch expected of it in the preseason outlook by the I-L coaches.

The Skippers won the game (their fourth in nine tries over-all) with another strong performance at the foulline. They hit 31 of 40 shots as the Walled Lake quintet stumbled into personal foul trouble.

The Vikings (2-6 and winless in the league) came within one field goal of the winners while taking more shots, and nearly battled their taller hosts evenly on the backboards.

But the visitors also had twice as many personal fouls, 26-13, and more turnovers. A 31-12 margin at the charity stripe accounted for the final lopsided score.

★ ★ ★

One Skipper in particular stood out at the foul line. Bruce Carlson, a junior forward, sank 13 straight foul shots in the last half and 15 of 16 for the night. He led all scorers with 21 points.

He had 11 in the third period when the WTHS lead grew from 28-23 at the half to 53-35. A string of 12 straight points that carried into the last period settled the issue.

Leading 41-34, Waterford went on a spree that upped the advantage to 57-35 and broke up the battle. Carlson had 17 points in the final half while running mate John Spanburg added five field goals and finished with 19 tallies.

★ ★ ★

Walled Lake came out at the start of the game and matched the Skippers bucket for bucket to hold brief leads. The last one was 12-10 with 1½ minutes to go in the opening period.

OFF NIGHT

But All-County candidate Greg Fogle was having an off night and his uninspiring play — only his rebounding was up to his usual standout standards — kept the Vikings' offense from developing sustained momentum.

★ ★ ★

The 6-1 sharpshooter finished with 20 points, four above his season average, but 11 of them came in the last quarter after the decision was out of reach.

Northern registered its third win in a row without much opposition from Stevenson who has now lost four straight.

The Huskies produced a 33-21 advantage from the floor as nine players had field goals. The Spartans had 10 hit the basket but none had more than three, while six of the winners had at least four buckets.

Slender Bob Traylor led the way again with 16 points. Little Eddie Williams posted a varsity high of 14. PNH outscored the Spartans in every quarter in registering its second highest point total of the campaign.

★ ★ ★

The game was played at Northern as the result of a schedule change at the request of Livonia Stevenson. The PNH reserves won their eighth game without a loss, 75-38.

OLSM Clinches Share of Title

Pontiac Catholic Halted by WOLL; St. James Wins

By FLETCHER SPEARS

With their fourth basketball championship in a row assured, the Eaglets of Orchard Lake St. Mary now start tuning for what shapes up as their two toughest contests of the season.

OLSM rolled past Royal Oak St. Mary last night, 60-38, running their Northwest Parochial League record to 10-0 and clinching at least a tie for the title.

The Eaglets can take the title outright by winning one of their last two games. They visit St. Francis de Sales next week and then close the campaign at home against a fast-improving Waterford Our Lady of Lakes quintet.

"They're coming along now," said coach Mike Boyd of Waterford Our Lady after the Lakers had disposed of Pontiac Catholic, 60-46.

★ ★ ★

It's a sure thing the Lakers will be eying the upcoming game with the Eaglets, since they suffered a slim 62-58 setback at the hands of OLSM earlier in the season.

In another game last night, Ferndale St. James routed Farmington Our Lady of Sorrows, 84-52.

IMPROVES RECORD

Waterford's triumph hiked the team's league record to 6-4, putting the crew in third place behind OLSM and St. Francis de Sales. Over-all, the Lakers own a 7-4 mark.

★ ★ ★

The loss dropped the Pontiac Catholic Titans to 4-6, leaving them in fourth place along with Farmington Our Lady.

Southfield Pads League Lead With Assist From Ferndale

With a boost by Ferndale, Southfield's Blue Jays are a little closer to the basketball championship today in the Southeastern Michigan Association.

While Southfield was polishing off Hazel Park, 64-55, which ran the Jays' league mark to 6-0, Ferndale (4-2) moved into a tie with Royal Oak Kimball (4-2) for the runner-up spot by downing the Knights, 60-47

Those results left Southfield with a two-game lead with four league contests remaining.

In the other game, Berkley handed Birmingham Seaholm its fourth loss in a row, 79-73.

★ ★ ★

Along with running their over-all record 12-1, the Blue Jays placed a tight defense on high-scoring junior Jim Merchel and held him to only 17 points. He went into the contest with an average of 24.0.

CONTROLS PLAY

Southfield gained a 33-26 lead at intermission, lost two points of that lead in the third frame, but came on strong to control play in the final period.

Dave Kontry led the Blue Jays with 21 points, while Bob Scheuer contributed 19 and Paul Hunt 14.

Helping Merchel with the scoring were Herb Lukey (13) and Al Petraich (12).

Berkley beat Seaholm at the free throw line.

The Bears tossed in 35 of 45 shots to go with 22 field goals while Seaholm managed 27 field goals but only 19 of 28 shots from the charity stripe.

Emmanuel Pressed to 56-35 Defeat

Emmanuel Christian had a pressing time last night and lost its 10th basketball game.

Lansing Christian used a full-court pressing defense to hold the winless Lancers scoreless in the second quarter and went on to post a 56-35 decision.

Emmanuel came back in the second half with a press of its own and held the upper hand, but couldn't overcome the 32-7 intermission deficit. The Lancers also had a problem at the free throw line, making only five of 28 attempts.

Warriors Triumphant

Former Spartan Mentor Dead

EAST LANSING (AP)— John Kobs, 69, Michigan State baseball coach for 39 years, died Friday at his home at East Lansing of a heart attack.

Kobs was known as a prime developer of pro baseball material although he made a crusade of fighting the professional signing of players before they graduated from college.

Among players who trained under Kobs before going on to the major leagues were pitchers Robin Roberts, Dick Radatz, Ron Perranoski and Ed Hobaugh and outfielder Al Ludlow.

Former MSU players for Kobs who became college head baseball coaches included Ed Sobczak at San Jose State, and Wendy Lawrence at Air Force.

Kobs coached baseball for the Spartans from 1925 until 1963. He only had four losing seasons and his record was 557 wins and 364 losses.

HOCKEY MENTOR

In his early years at MSU, Kobs also was hockey and basketball coach and an assistant football coach. He gained MSU its only Big Ten baseball title, in 1954.

Kobs was one of the founders of the American Association of Baseball Coaches and became one of its first presidents in 1945.

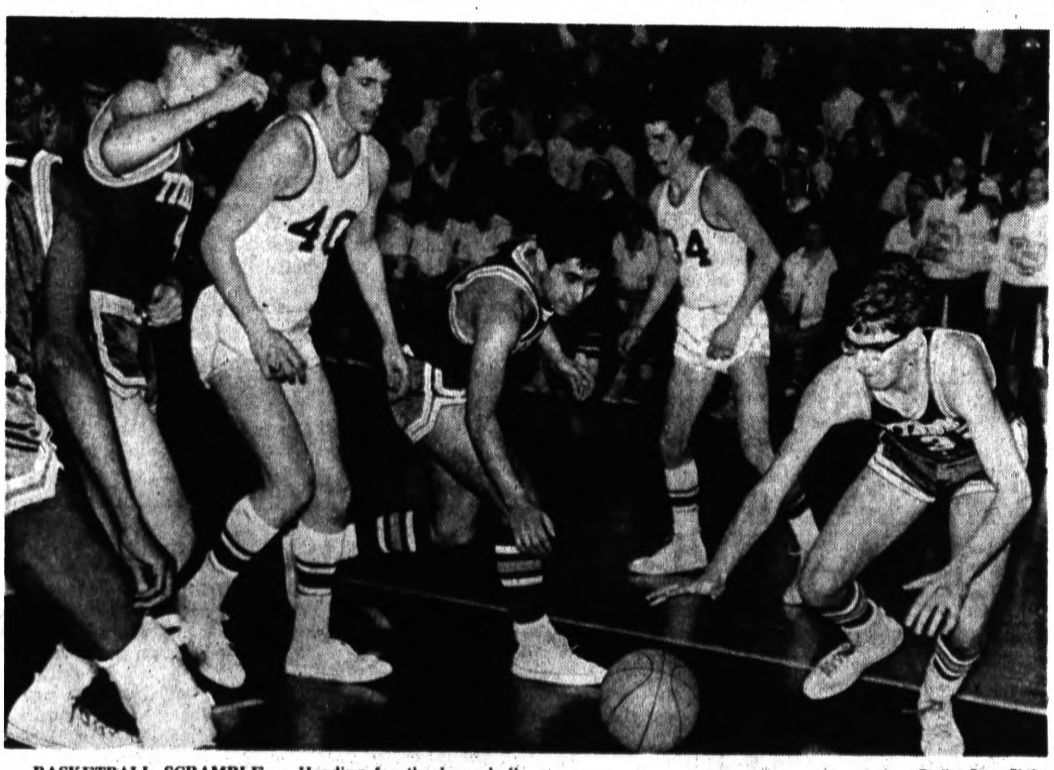

At the time of his death he was secretary of the U.S. Olympic Baseball Games Committee, of the NCAA Baseball Rules Committee and of the NCAA Summer Baseball Committee.

Red Wings Recalling Crozier to Replace Gardner in Goal

DETROIT (AP) — Roger Crozier, the off-and-on goalie of the Detroit Red Wings, will be installed as permanent netminder for the last place Wings, replacing George Gardner.

The Wings meet Philadelphia in Detroit this afternoon.

To make room for Crozier, manager-coach Sid Abel has assigned Gardner to the Wings' farm team at Fort Worth. Gardner appeared in 12 games with the Wings, posting an average goals-against record of 3.6.

Must Replace Dove

T-Hawks Play Battle Creek

Who will replace "Sonny" Dove in the Pontiac Tomahawks' starting lineup?

Coach Bob Duffy will likely decide between rookie rebound ace Jim Patterson and slender newcomer Joe Johnson, recently acquired from Lansing when the T-Hawks entertain Battle Creek at 5 p.m. Sunday on the Northern High School court.

The contest offers Pontiac a chance to gain ground in the Eastern Division of the North American Basketball League. The Braves are 2½ games ahead of the Tomahawks.

Duffy has settled on a regular nucleus of 6-3½ Ernie Thompson, 6-7 Ed Burton, 6-2 Paul Long plus himself (6-3), and may lean to the taller (6-7) Patterson to replace Dove (6-8) who was called up this week by the Detroit Pistons.

CHOICE

Johnson stands 6-4 but is quicker than Patterson. Duffy will have to choose between quickness on defense and muscle around the backboards.

Tomahawk officials are again offering a two-youngsters-free-for-every-paid-adult-admission ticket policy. Adult tickets are $2 each for general admission. Two bicycles will be given away.

In addition, members of the Pontiac Table Tennis Association will provide pre-game and halftime exhibitions.

The Battle Creek roster includes former Troy High School star 6-6 Bud Acton, one of the league's top rebounders, and 6-5 Art Crump of Idaho State who scored 59 points here earlier.

Members of the Big Brothers of Oakland Conuty will be the guests of the Tomahawks.

Deadlocks Continue in Both O-A, W-O Cage Leagues

Orion Edges Rochester; Romeo Routs Avondale

Lake Orion and Romeo continue to travel a collision course as they bid for the Oakland A League basketball championship.

In an earlier meeting between the two, Lake Orion prevailed, 59-55, on the Romeo floor. Although their next meeting is four games away, the pressure continues to build.

The two remain deadlocked for the O-A lead with victories last night, Romeo (7-1) taking the easy route while Orion (7-1) squeezed out a cliffhanger.

Not playing particularly well, just good enough to win, Orion turned back a visiting Rochester (4-4) squad, 47-44, while Romeo whipped Avondale (1-7), 72-54.

In other games, Troy (6-2) held onto third place in downing Madison (3-5), 63-58, and Clawson (1-7) won its first league game of the season by downing Utica (3-5), 57-50.

Orion and coach George Elias are getting used to close decisions. They've been involved in four this season and won three of them. The victories have come by margins of two, three and four points, while the loss was a three-pointer to Troy.

This one almost got away from the Dragons who were forced to rally in the fourth to pull it out.

Rochester entered the fourth frame with a 34-31 lead, and the Falcons had several opportunities to win the game at the free throw line but they couldn't cash in. During that hectic fourth period, the Falcons went to the charity line 16 times and missed 11 times.

Even with Rochester's inaccuracy at the free throw line, it took a defensive play by 6-7 center Gary Mize to sew it up.

With 15 seconds left and Orion ahead, 45-44, Rochester had the ball and worked it into the key where Mike Scally took a jump shot. Mize went high and batted the ball well down court where teammate Tim Daigle picked it up and laid in the basket for the final two points.

LEADS ORION

Bill Foss led the Orion attack with 15 points while Mize contributed 13. J. R. Nowels led Rochester with 16.

Guard Clyde Cushingberry whipped in 31 points — four shy of the school record — to spark Romeo past Avondale.

Romeo rolled to a 39-31 lead at intermission, and after Avondale sliced a point from the deficit in the third, the Bulldogs wrapped up the game with a 17-6 edge in the fourth.

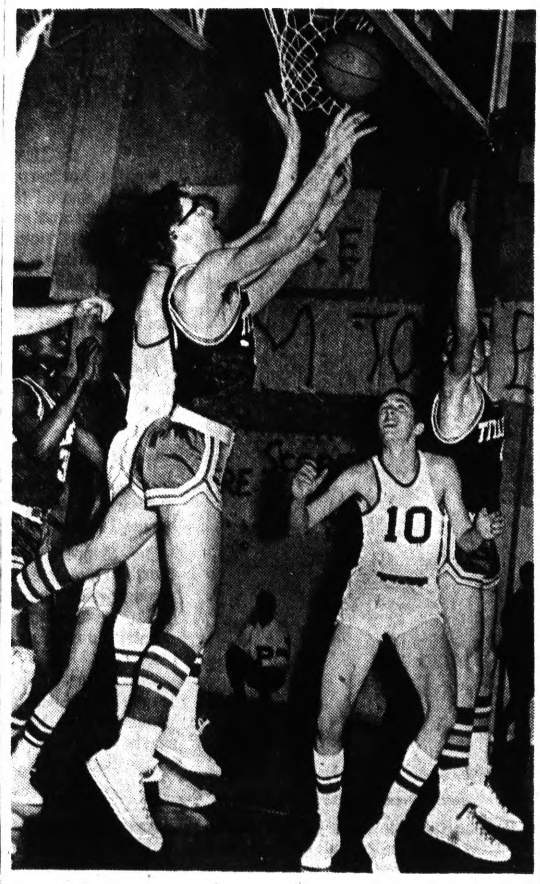

Dan Burzinski aided Cushingberry with the scoring by tossing in 19 points and he helped the Bulldogs to a 61-27 edge in the rebounding department.

A steady attack helped Troy top Madison and keep its title hopes alive.

After falling behind by a point in the first quarter, Troy came on to take a 33-29 lead at halftime and outscored Madison in the second half, 30-29.

Lynn Qualmann led the Troy Colts with 26 points while teammate Gary Griffith contributed 12.

Grabbing scoring honors, however, was Madison's Tim Blach with 29 markers. Rich Wimble added 18.

West Bloomfield Gains Tie Despite Cold Shots

Would you believe West Bloomfield going 11 minutes before scoring a field goal and still gaining a tie for first place in the Wayne-Oakland basketball race?

★ ★ ★

Well, it happened last night. And the Lakers can thank Milford for a big assist as three of the four W-O games were ulcer breeders for players, coaches and fans.

★ ★ ★

West Bloomfield finally got untracked and edged Holly, 43-41; Milford upset Northville, 53-52, in overtime; Clarenceville outlasted Brighton, 56-55; and Clarkston downed Bloomfield Hills Andover, 54-44.

It was the first loss for Northville in league play. The Mustangs and West Bloomfield both are 7-1. Andover, Clarenceville and Clarkston are tied for third at 4-4.

Milford's triumph was a stunner. The Redskins (2-6) blew a 10-point third quarter lead and had to rally from a 50-45 deficit in the closing two minutes to pull even and force the contest into overtime.

★ ★ ★

Field goals by Dave Baker and Mark Giegler set the stage for Doug Powers tying free throw just before the buzzer. Northville quickly moved ahead 52-50 in the extra session, but two free throws by Powers and one by Baker decided the issue.

Milford coach Dave Torrance credited the strong defensive play of Ted Weinberg with being a key to the victory. Weinberg held Northville's sharpshooting guard Joe Andrews to four points.

Giegler and Randy Pohlman of Northville tied for game honors with 21 points apiece. Jim Peterson netted 17 for the Mustangs while Powers and Baker each had 13.

West Bloomfield fell behind 17-6 before Curtis Britton tipped in the first field goal for the Lakers with 4:48 left in the second quarter.

Holly used a pressing defense that kept the Lakers off stride and enabled the Broncos to carry a 19-15 lead into the locker room at intermission.

West Bloomfield finally took the lead late in the third period and was ahead 33-29 with 5:36 to play. Steve Westjohn played a steady game for the Lakers and scored 11 points.

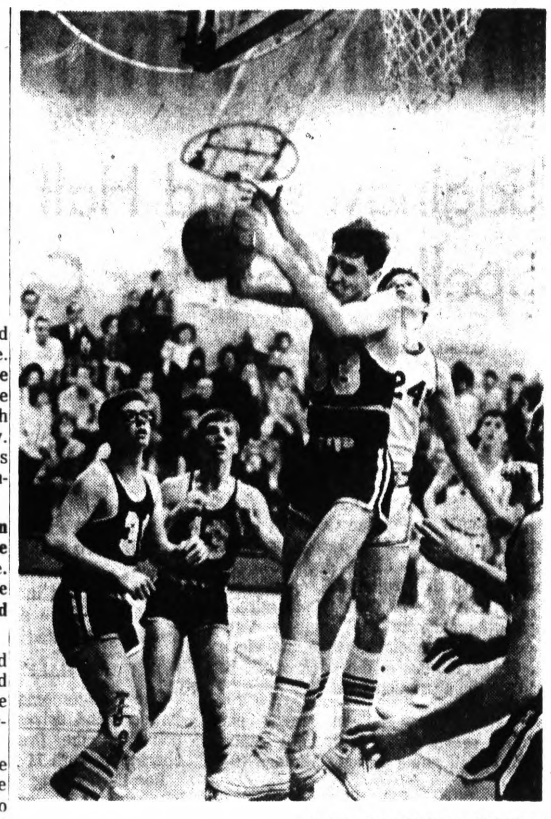

Neither Clarenceville nor Brighton could get more than four points in front, but the Trojans led the final five minutes and just barely survived.

PACED SCORING

Dave Brabemihl topped the Trojans with 15 points. Rick Wellman was high for Brighton with 20.

Clarkston and Andover threatened to make it four tight games for a half. Andover led after two periods, 28-26, but Clarkston outscored the Barons, 13-4, in the third session to open some daylight.

Jerry Ostrum led the third quarter spurt with nine markers and wound up tying teammate Mark Erickson for game honors with 19.

2nd Win Posted by Oakland '5'

It was a big night on and off the court Friday for coach Dick Robinson of Oakland University.

Robinson and the Pioneers polished off Grand Valley State College on the basketball court, 94-78, and the young coach then headed for the hospital where his wife, Chris, was expecting their second child.

It was the second win in the last four games for the Pioneers, who dropped their first eight starts before beating Spring Arbor a week ago.

Grabbing the spotlight in the victory was a freshman guard from St. Clari who came on last in the first half and wound up taking scoring honors with 23 points.

★ ★ ★

Glen Beier, a 5-11½ playmaker, joined the Pioneer lineup with two minutes left in the first half. He proceeded to push in seven points before intermission and kept the attack from bogging down in the second half. The Pioneers held a 44-39 lead at the break.

HELP IN SCORING

Gordie Tebo collected 18 points and Tom Allan 17 to assist Beier in that department. Along with his scoring, Allan hauled down 17 rebounds in the first half.

OU entertains Alma College Wednesday at 8 p.m. before taking the road for games with Aquinas and Detroit Tech.

N. Farmington Defeats Groves

Oak Park Hoopsters Upset at Thurston

Half of the teams in the Northwest Suburban League are sitting in the same seat.

While North Farmington was winning, Detroit Thurston knocked off Oak Park, 66-58, last night leaving those three sharing first place in the loop race with 4-1 records.

North Farmington gained a piece of the lead by whipping Birmingham Groves, 66-60.

Wayne Glenn downed Franklin, 76-70.

Thurston (8-5) built up an 11-point lead after three quarters and coasted in the fourth session to hand Oak Park its first league setback.

Dave Day led the Thurston attack with 18 points, while Bryan Harbin pitched in 19 for Oak Park.

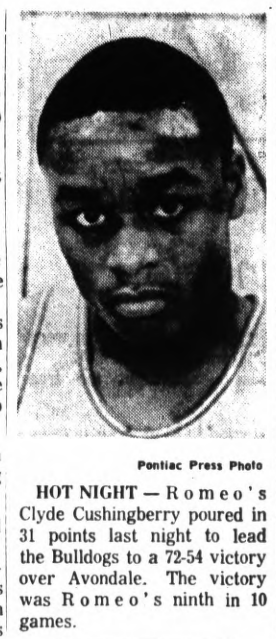

EARLY LEAD

Groves had the range early and sprinted into a 10-1 lead, but North Farmington came back to take a 29-28 lead at intermission. The two played on nearly even terms through the second half.

★ ★ ★

The victory upped North Farmington's over-all record for the campaign to 8-3.

Ron Flutur tossed in 18 points and Mike McCoy added 15 to pace North Farmington. Jim Cameron led Groves (6-4) with 14.

HOT NIGHT — Romeo's Clyde Cushingberry poured in 31 points last night to lead the Bulldogs to a 72-54 victory over Avondale. The victory was Romeo's ninth in 10 games.

Brandon Drops 67-48 Contest

Ortonville Brandon journeyed to Hartland last night but the Blackhawks' bid to repeat one of their two victories this season ended in a 67-48 defeat.

The win was the first for Hartland in the Genesee Suburban League and the third over-all. Brandon led after one period, but a pressing defense by Hartland changed the game's complexion in the second period.

The Eagles fired in eight quick points but still only managed a 30-28 intermission advantage.

Mike Boyes of Hartland led the marksmen with 22 points and teammate Larry Cook had 15. Barney Brown's 12 and Gary McDowell's 10 led the Blackhawks (2-8).

Oxford Loses Close Game

Oxford let victory slip through its grasp in the fourth quarter last night in a 49-45 setback at the hands of Harper Woods.

The Wildcats, who suffered their 10th straight loss this season, headed into the fourth period with a 39-37 lead, but Harper Woods posted a 12-6 margin in the fourth frame to pull it out.

Oxford had a chance at the free throw line in the fourth but the Cats cashed in on only two of eight attempts and wound up the evening hitting on just 11 of 22.

Lahser Quintet 81-71 Winner

Bloomfield Hills Lahser regained its winning ways with a not-so-close 81-71 conquest of Dearborn Annapolis Friday night.

Bill West paced the winners (7-3) with 21 points, numerous assists and a fine job under the basket. The Knights sank 23 of 30 free throws for the finest foul shooting of their initial season.

Home Showing in OCC Battle

Auburn Hills received a strong performance from Harold Reiser, playing on his former home court at Hazel Park, and defeated Highland Lakes, 104-79 in an Oakland Community College campus battle last night.

Reiser led the winners with 22 points and picked off 26 rebounds to allow AH to gain its second win this season over Highland Lakes.

Jerry Wright of the losers topped all scorers with 25 points.

PCH Posts 3rd Straight Tank Victory

Pontiac Central's swimming team chalked up its third straight victory in routing Saginaw last night, 60-45.

Double wins were posted by John Mason in the 60 and 400 freestyle events, Jeff Besanz in the 160 IM and 100 free, Mike Boga in the 100 breastsroke and medley relay and Ed Chevoanec in the medley relay and free relay.

Saginaw's outstanding swimmer Bob Shelley won the 200 freestyle and 100 butterfly.

DETROIT (AP)—Leroy Haywood collected 29 points, Marv Copeland 23, and Eddie Jenkins 22 as Michigan Lutheran of Detroit eased past Chicago State, 91-86, Friday night in a nonconference basketball game.

Michigan Lutheran, leading 59-42 at halftime, won its 13th game in 18 starts. Sylvester Coleman was high scorer for the Illinois team with 25 points.

Tumble Ruins W. Bloomfield Ski Chances

A tumble by ace skier Tom Carter on his second slalom run ruined West Bloomfield's chances to defeat powerful Gaylord Friday afternoon in a prep ski meet at Sylvan Knob.

Gaylord's boys team won the triangular meet with a 350.1 total time; the Lakers were second with 359.2. Leelenau was a distant third at 400.9.

In the girls' event, West Bloomfield prevailed, 328.1-340.9 over Gaylord with Leelenau failing to qualify enough skiers.

Brock Walker, the nation's seventh ranked junior skier last year, and his sister Brenda claimed first place for Gaylord individually.

Larry Walter of West Bloomfield was second and teammate Rick Stanker fourth. Carter was third in the giant slalom but fell in the slalom and didn't place over-all.

Betsy Shuler of the Lakers was the runner-up to Miss Walker, and April Welch was third. Today the Lakers ski in a quadrangular at Timberlee.

Viles, 'Chico' Remain Alive in GDBA Meet

Pontiac area bowlers had varying success last night in the first two rounds of the Greater Detroit Bowling Proprietors' Association Masters Tournament finals eliminations.

George (Chico) Chicovsky won both of his matches to advance in the winners' bracket with seven other men. Dick Viles won his first match, then lost in the second round and must win the remainder of his matches in the losers' division to capture the coveted $1000 top prize.

Jim Rutkowski was eliminated by losing both of his matches at the Oakwood Bluejackets lanes where action is continuing today and tomorrow.

Michigan Tech Gains Ground

By The Associated Press

Michigan Tech is giving notice it is back in the thick of the fight for the Western Collegiate Hockey Association title.

The Huskies bombed Minnesota-Duluth 7-2 Friday night to move in on leaders North Dakota and Denver.

In the only other WCHA game on tap, Michigan nipped Minnesota 5-4.

Michigan Tech, now 7-2, is second to idle North Dakota, 9-2-1, and ahead of Denver, now 9-3.

Ed Shillington, Al Karlander, Brian Watts and Fred Hall scored in the first period to push Tech off to a 4-0 lead. Shillington and Karlander each scored twice for the Huskies.

Aquinas Needs 3 Free Throws

ALMA (AP) — Cliff Gordon hit three free throws in the last 40 seconds to lift Aquinas to an 83-80 college basketball victory over Alma Friday night.

Alma had rallied from an 11-point deficit to knot the score at 77-77 but never got the lead.

The victory was the eighth in 14 games for Aquinas, topped by Denny Patterson's 21 points. Al Vandermeer and Charles Hudson each hit 16 points for Alma, now 5-7.

WOLL Down Pontiac Catholic

(Continued From Page C-1)

The Titans, who beat the Lakers in an earlier encounter, jumped off to a 16-12 first quarter lead, but Waterford poured in 20 markers in the second frame to open up a 32-22 lead at intermission.

The Lakers continued the assault in the third stanza, outscoring the visitors, 16-9.

★ ★ ★

Center Dan Sioma (6-3) controlled both backboards and hauled down 18 rebounds to go with his 16 points. Brian Haskins picked up 15 markers and Jerry Yezbick added 10.

Butch Finnegan led the Titans with 18 and teammate Sam Brady added 17.

Tim Megge, one of the county's leading scorers, flipped in 25 points to spark the OLSM attack. Greg Fior added 14 and collected 19 rebounds.

The Eaglets held a 25-19 lead at intermission. Bill Moski led the Royal Oakers with 19 points.

Baseball Drafting Free Agents Today

NEW YORK (AP) — Major league baseball clubs dipped into the talent hopper today in the third winter free agent draft . . . hoping to come up with a few more Tom Seavers, Ken Holtzmans and Gary Nolans in the process.

January college graduates made up the bulk of available talent in the regular phase of the draft at a midtown hotel. Some players drafted at previous sessions but still unsigned also were eligible for selection during the special phase.

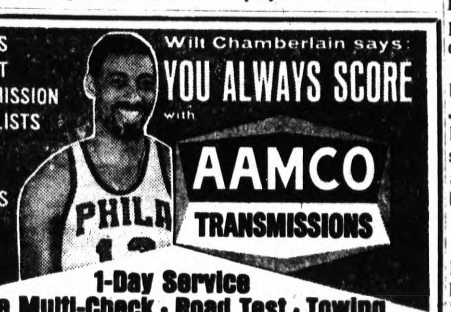

The Oakland Athletics and New York Mets picked 1-2 in the regular phase, having finished last in the American and National leagues, respectively, in 1967, the A's in Kansas City.

The Minnesota Twins had first choice, followed by the San Francisco Giants, in the special phase in which a draw determined order of selection.

The drafting was expected to be light in comparison to last June's session, when an all-time high of 1,169 players were selected. The summer draft always has been heavier because it covers June college grads.

In addition, many of the previously drafted but unsigned players were inelegible this time around because they have entered college and are protected by a new college rule. A few, who were drafted under the old rule in 1965 and 1966 and have reached the age of 21 were available in the special phase.

Huskies Still No. 1; Walled Lake on List

Top-ranked Pontiac Northern and ninth-ranked Walled Lake chalked up impressive victories last night in Inter-Lakes League wrestling action.

For the third straight week, Pontiac Northern occupies the No. 1 spot in the state high school wrestling poll. Walled Lake made the top 10 for the first time this season.

Coming up Feb. 9 is a meeting between Pontiac Northern and Walled Lake on the latter's mat in what should decide who owns the I-L championship.

Last night, Northern downed Livonia Stevenson, 4-8, while Walled Lake pinned a 32-8 setback on Waterford. It was the first loss of the season for Waterford.

Coach Honored

EAST LANSING (AP) — Ron Horning, who coached East Lansing to the Michigan Class A high school cross country championship last fall, has been named Cross Country Coach of the Year by the Michigan High School Track Coaches Association. The group named Dave Fultz of Jackson's Parkside High as president for 1968.

LA Golf Open

Casper Leading

By BOB MYERS
Associated Press Sports Writer

PASADENA, Calif. (AP) — The log jam of top talent prevailed again today as a trimmed down field of 72 golfers prepared for the third round of the $100,000 Los Angeles Open.

Five professionals resumed the assault on par 36-35-72 at the 7,021-yard Brookside Municipal course. Billy Casper, Al Geiberger, Dave Marr, Dave Stockton and George Archer were tied for the lead at 137.

★ ★ ★

Main concern was the weather. Rain was forecast and seemed evident after a second round played on a chilly, overcast day.

Pasadena, the host city for the event, called it Los Angeles weather. Los Angeles said it was belated Bing Crosby elements.

DATE CHANGE

Ordinarily, the Crosby, famed for vile conditions, would have been played this week at Pebble Beach in northern California. But a couple of shifts—in the PGA tournament schedule itself and the switch of the Los Angeles Open to Pasadena from neighboring Los Angeles—made things the way they are today.

Opinions varied about playing in poor weather.

★ ★ ★

Arnold Palmer, who at 140 with a 71 Friday was three shots off the front end, said he prefers it warm.

Casper, who moved into the jam with a 67 Friday, said he enjoys it cold.

★ ★ ★

Marr, 69, a former PGA champion, strung along with Casper, while Stockton, at 26, is a young man so enthusiastic about golf he couldn't care less what conditions are.

Geiberger was non-committal while Archer sided with the good weather guys.

Township Ski Team Divides In North

Special To The Press

HARBOR SPRINGS — Waterford Township's girls ski team won at Nub's Nob near here yesterday, but the boys squad "fell" out of contention.

Cathy Benson won the slalom (48.8) and giant slalom (25.1) to pace the WTHS girls to a total time of 319.9 seconds. Petoskey St. Francis was second with 356.8 and Kettering was third with 397.2.

The combined times of four skiers were used instead of the usual three.

Township's Julie Crary was second in the giant slalom and Sue Nye was runner-up in the slalom.

Gary Edwards gave Waterford a good lead by winning the slalom (43.0) and placing second in the giant run, but a couple of his teammates fell and Petoskey St. Francis won with 300.8.

★ ★ ★

The Skippers scored 311 and Kettering 344.4. Steve Peterson of Kettering placed fourth in the giant slalom which was won by Dale Horstman of St. Francis in 23.2.

Dondero Takes 9th Setback

Winless Royal Oak Dondero found itself outclassed at Dearborn Fordson Friday night and dropped an 83-54 decision for the Oaks' ninth straight loss.

Fordson (10-3) jumped into a 48-22 lead at the half and coasted to the decision as Bob Hadous tallied 19 points and 16 each were added by John Los and Jim Pavle.

Dave Charlton's 15 and Jerry Campbell's 14 paced Dondero who was outshot, 26-20, from the field and, 31-14, from the foul line. Fordson hit 48 per cent of its field goal tries.

Hot CMU Crushes Eastern Illinois 5

MOUNT PLEASANT (AP) — Central Michigan put in half of its field goal attempts and routed Eastern Illinois 82-62 in an Interstate Intercollegiate Athletic Conference basketball game Friday night.

Steve Johnson led the victors with 18 points. It was Central's sixth straight triumph.

Eastern, which trailed 37-32 at halftime, was paced by Bill Carson, who scored 12 points. The visitors hit only 29 per cent of their field goal attempts.

The decision made CMU 4-3 in the conference and 9-7 for the season, while Eastern slipped to 3-4 and 7-9.

Lakers Starting Long Drive

By The Associated Press

The Los Angeles Lakers are on the move, but it's going to be a long trip.

Led by a hot second half from Elgin Baylor, the Lakers won their sixth straight National Basketball Association game Friday night, downing the Boston Celtics 118-112 in Boston.

★ ★ ★

Trouble is, the St. Louis Hawks, leaders of the Western Division, also won Friday, beating New York 103-94 in St. Louis and stayed 10 full games ahead of the Lakers, in third place.

In other NBA action, Philadelphia topped visiting Cincinnati 123-113 and Baltimore overcame San Francisco 125-110.

ABA SCORES

In the American Basetball Association, Pittsburgh beat Minnesota 115-107, Denver took New Orleans 104-94, Dallas downed Houston 122-96 and Kentucky nudged Anaheim 96-93.

Baylor scored 24 of his 35 points in the final half as the Lakers broke a 76-76 tie in the third period, outscoring the Celtics 9-2. Sam Jones led Boston with 27 points.

Cazzie Russell, for whom the hot hand is becoming a habit, scored 21 points in the final period — and 31 in the last half — but it was not enough to beat the Hawks. Zelmo Beaty led St. Louis with 25 points.

★ ★ ★

Hal Greer and Luke Jackson led a third-period surge for the 76ers. Greer finished with 36 points and Jackson had 21. Connie Dierking led the Royals with 33 points.

★ ★ ★

Baltimore overcame a 13-point halftime deficit as Earl Monroe dropped in 35 points on the West Coast. A 17-6 spurt at the start of the third period got the Bullets back in the ball game.

Long Jump Star Sights 28 Feet

OAKLAND, Calif. (AP)—Bob Beamon plans to reach 28 feet in the long jump and then play professional basketball.

The 21-year-old sophomore at the University of Texas at El Paso won the long jump at only 26-10 at the Athens invitational indoor track and field meet Friday night at the Arena.

"I was kind of depressed about my performance," said Beamon, who recorded 27-1 for an American indoor record last week. "I haven't reached my peak. Ralph Boston has been warning me against peaking too early before the Olympics. I can hit 28 feet; 27 is just a good jump."

From Ex-Prep Coach

Big A Draws Sigh

NEW YORK (AP) — Holy Cross coach Jack Donohue got his first look at Lew Alcindor in about three years. So he looked. And looked. And then he sighed.

"He's too much," Donohue said after the 7-foot-1½ UCLA star led the Bruins to a 90-67 rout of his Crusaders in Madison Square Garden Friday night.

"But I wasn't surprised," said Donohue, who was Alcindor's high school coach at Power Memorial in Manhattan. "He's just bigger, stronger, has more moves. He's all I would have expected from the kid I had now that he's three years older."

It was Alcindor's first game before the home town folks since his high school days, and he responded with 33 points—16 in less than 10 minutes—22 rebounds, five blocked shots and a couple of assists.

STILL BOTHERED

And he's still bothered, just a little, by the eye injury that forced him to miss two games and contributed to a subpar performance in UCLA's upset loss to Houston a week ago.

"There's still a little blur," said big Lew, who was more concerned with the occasional boos he got from the crowd of 18,106, which included a large Holy Cross contingent.

★ ★ ★

"I was kind of puzzled," Alcindor said. "You know, this was kind of a home game for me. I wanted to look good, wanted to play well before my friends and family."

He did well enough.

PULLED AWAY

The Bruins, now ranked No. 2 with a 14-1 record, spotted outmanned Holy Cross a 4-2 lead in the opening moments, then reeled off 13 straight points—six by Alcindor—and took a lead that stood up the rest of the way.

A 12-point burst later in the first half gave the Bruins a 36-16 lead and they coasted in. Alcindor had 16 points at that time, with 10:57 remaining in the first half.

★ ★ ★

Holy Cross, now 7-6, simply didn't have a chance. Ed Siudut was its biggest starter at 6-7 and the intimidating figure of Alcindor, lurking under the baskets, the top of his head almost brushing the strings, forced the Crusaders outside and they just weren't equal to it.

The Crusaders hit only 26 of 73 field goal tries while UCLA had a 50.6 percentage, including 16 of 30 for big Lew, who left with three minutes of playing time left.

LEFT HOME

Lynn Shackleford, filling in for Edgar Lacey, who was left at home by his own choice, had 14 points and Mike Lynn added 12 for UCLA. Siudut had 19 points for Holy Cross and Keith Hochstein had 22.

The Bruins, defending national champions and on the rebound after their 47-game winning string was snapped at Houston, take on Boston College, 9-4, in the Garden tonight.

Imlay's Effort at Best in Win

Explosive Imlay City came up with its finest offensive effort of the season last night in routing Brown City, 96-68.

The win raised the Spartans' record to 7-4 and gave them a 5-2 mark in South Central League play.

Tim Simons tossed in 23 points to pace the attack for Imlay with help from Terry Schoenberg (24) and Wayne Brinker (17).

By OSWALD AND JAMES JACOBY

Buzz Scheftel writes from New York: "Here is an interesting hand that came up at the Regency Whist Club the other day. I guess I bid too much with my king and queen, but I didn't want to pass one club with a void or two diamonds with only three small.

JACOBY

Then when my partner gave me that jump preference in spades, I decided there was no point in chickening out one short of game and made a third bid.

"West opened a spade. East won with the ace and returned a diamond. West took his ace and gave East a ruff. East communed with nature awhile and laid down his ace of clubs.

"I ruffed happily, led a heart to dummy's ace, discarded one heart on the king of clubs, ruffed a club, ruffed a heart, ruffed another club, drew West's last trump and made the last three tricks with the king of hearts and dummy's last two diamonds.

★ ★ ★

"It was perfect defense up to that ace of clubs lead. If East had simply led a heart, I guess I would have had to go down. How would I have played the hand against some other lead?"

We know Buzzie well enough to answer that question in one word. The word is "Slowly." The hand is most interesting in that while the contract is a reasonable one it is almost sure to fail unless the defense comes to declarer's rescue.

We also think that East made a serious mistake when he hurried to cash that ace of clubs. East was looking at five hearts to the queen so that he didn't have to worry about Buzzie making more than two heart tricks and one heart ruff.

★ ★ ★

Then unless Buzzie held six spades, he wouldn't be able to come to ten tricks without getting a club. East should have waited with his ace and saved the rubber.

Q—The bidding has been:

Pass	5 ♥	Pass	?

You, South, hold:

What do you do now?

A—Bid six hearts. Your partner has told you that he doesn't care about aces, but your ace of diamonds represents a sure trick anyway and your queen of clubs may be a really big card.

TODAY'S QUESTION

Once more your partner opens two hearts. You hold:

Answer Monday

Astrological Forecast

By SYDNEY OMARR
For Sunday

"The wise man controls his destiny . . . Astrology points the way."

ARIES (Mar. 21-Apr. 19): Accent on ability to understand your potential. Your influence may be more widespread than you now suspect. One in authority helps make this factor clear. Respond accordingly.

TAURUS (Apr. 20-May 20): You could hear from a distant relative. Be sure communication lines are open. Gain indicated through written word and from words of spiritual adviser. Keep to main course.

GEMINI (May 21-June 20): How you respond to requests today is carefully evaluated. Don't scatter forces. Show that you are capable of logical reactions. Then door of opportunity opens wide.

CANCER (June 21-July 22): Stress on marriage, partnerships. Also be aware of public relations. How others react to you and your methods are stressed. Don't attempt to force decisions. Slow and easy.

LEO (July 23-Aug. 22): You may find yourself in position of unifying associates, coworkers. Others tend to seek your advice. Any dispute may put you in arbitrating position.

VIRGO (Aug. 23-Sept. 22): Give attention to children. Fine for development of creative hobbies. Day accents pleasure through personal efforts. Do for yourself —don't wait for others.

LIBRA (Sept. 23-Oct. 22): Attention centers around home, current locale. Don't reach too far afield. What you seek is closer than you may imagine. Realize this and act in appropriate manner.

SCORPIO (Oct. 23-Nov. 21): Accent on ability to shift levels. Means be flexible. Deal with those at the top and below. Be equally at ease on both levels. Relative may make unusual request.

SAGITTARIUS (Nov. 22-Dec. 21): If receptive you could win friend who helps in future financial activity. Your sensitivity to feelings of others is highlighted. Offer helping hand. You'll be repaid.

CAPRICORN (Dec. 22-Jan. 19): Stress Independence, originality. Be a self-starter. Take initiative. Make contacts. Your influence spreads. You're able to convince important people. Be specific, direct.

AQUARIUS (Jan. 20-Feb. 18): Lunar emphasis on hidden affairs, behind-the-scenes activity. You get answers to questions if you do not fear the unknown. Means don't be afraid to probe dark corners.

PISCES (Feb. 19-Mar. 20): Mingle socially. Leave yourself open to friendly contacts, advice. Trust intuitive intellect. Means follow through on hunch. Pay-off could be substantial.

★ ★ ★

IF TOMORROW IS YOUR BIRTHDAY you are bright, possess forceful personality and are attractive to opposite sex. Upcoming year could be one of your most significant and successful.

★ ★ ★

GENERAL TENDENCIES: Cycle high for CAPRICORN, AQUARIUS, PISCES. Special word to LEO: check details—be positive of facts.

For Monday

ARIES (Mar. 21-Apr. 19): New moon affects that part of your chart related to social contacts and romantic desires. You get chance to meet people and display creative talents. Do so. Be aware, magnetic.

TAURUS (Apr. 20-May 20): Emphasis on prestige, standing in community, basic aspirations. Deal with people in authority. Participate in neighborhood, office projects. Be alert to new opportunities.

GEMINI (May 21-June 20): Favorable lunar aspect today coincides with formation of ideas and ideals. You solidify personal policy. Some confusion exists early—but later you attract strong allies.

CANCER (June 21-July 22): Money, legal status, legacies are spotlighted by new moon position. Be thorough. Patience pays dividends. Avoid tendency to be impatient, careless.

LEO (July 23-Aug. 22): Publicity, relations with public are highlighted. Be a keen observer. Do more listening than asserting. Exchange thoughts, ideas, but permit others to take initiative.

VIRGO (Aug. 23-Sept. 22): New moon position emphasizes your chance to strengthen relations with important associates, coworkers. Strive for harmony. Excellent for special entertainment at home.

LIBRA (Sept. 23-Oct. 22): New moon emphasis on change, variety; emotional reactions. If single, this signifies romance. If married, could show a rediscovery of mate. You respond all the way.

SCORPIO (Oct. 23-Nov. 21): New attitude indicated where security is concerned. You learn facts of life about property prices, home expenses. Accept responsibility. Realize your own value, worth.

SAGITTARIUS (Nov. 22-Dec. 21): Accent on how you handle sudden assignments, ideas, suggestions flow with freedom of water. Key is to be selective, discriminating. Highlight quality. Go for the best.

CAPRICORN (Dec. 22-Jan. 19): Spotlight on possessions, ability to earn. Income potential is enhanced. Opportunity presents itself. Be ready to take advantage of it. Money is available if you're prepared.

AQUARIUS (Jan. 20-Feb. 18): Personality, appearance emphasized—step out and get around. Mingle with those who play part in your life. Your personal magnetism soars. People offer you help.

PISCES (Feb. 19-Mar. 20): Break from routine. Shake up status quo. Look behind the scenes. Act on knowledge. Means do something about what you learn today. Separate fact from illusion.

★ ★ ★

IF MONDAY IS YOUR BIRTHDAY you are intuitive, able to perceive feelings of others. You gain greater recognition this year—August appears to be most significant month.

★ ★ ★

GENERAL TENDENCIES: Cycle high for AQUARIUS, PISCES. Special word to VIRGO: you gain through diplomacy—don't force issues.

Lost Motorist Gets on the Wrong Track

RIDDLE, Ore. (AP) — A man was injured early Friday when he parked his auto in the snow, not knowing he was on the railroad tracks.

Dale Marsters, 62, told state police he became lost in a snowpath, thinking it was a road. When his car became stuck, he said, he turned off the lights and went to sleep.

A slow-moving Southern Pacific train sheared off the right side of the car. Marsters was treated for minor injuries.

Collegians Give Indications Food Is Unsatisfying

PASADENA, Calif. (AP) — Student discontent over food in the cafeteria of California Institute of Technology came to the attention of President Lee Dubridge's office this way:

Thirty trays of tuna casserole and squash were dumped Friday on the floor outside.

The students posted "a declaration of indigestion" outside the office.

Dubridge was out of town.

GM Idled to Increase

DETROIT (AP) — More layoffs are expected at General Motors, where strikes at three foundries and resulting layoffs from parts shortages have idled 117,900 GM United Auto Workers union members. The mounting effect of the strikes led GM to lay off 60,300 workers yesterday.

THE PURPOSE OF A VAULT

J. L. VOORHEES

Should a vault be selected by everyone? The answer is no!

In our opinion, the selection of caskets, vaults, etc., should be, "To each his own." If this is true, what purpose does a vault serve?

M. E. SIPLE

The primary and most important function of a vault is protection! Protection for the casket and its precious contents. A vault gives "peace of mind" to those who care, that can never be measured in dollars.

Today, most cemeteries require the use of a vault or concrete liner. This is to make sure that the burial receptacle will support the weight of the earth above. This prevents the unsightly sunken graves that used to be the earmark of most cemeteries.

Rezoning Bid Is Up Again in Waterford

The oft-delayed rezoning request for apartment units and a shopping complex at Dixie Highway and Midland once again will be considered for action by the Waterford Township Board at its 7:30 p.m. Monday meeting.

★ ★ ★

The property presently is zoned single-family residential (R1A). Applicant Donald White is seeking to have the property rezoned to multiple dwelling (R2) and general business (C2) to allow for the development.

First notices will be read on three other zoning change proposals, with board action expected at the Feb. 5 meeting.

They are:

- A request to rezone roperty on M59 near Whittier from R1A to restricted office (R01).
- A request to rezone property on Scott Lake Road at Alliance from general industrial (M2) to R1A for a church.
- A request to rezone property at Telegraph at Preont from local business (C1) to general business (C2).

EMPLOYE CONTRACT

Up for consideration by the board is a proposed three-year noneconomic contract for about 45 township employes other than policemen and firemen.

The proposed pact was on last Monday's agenda, but the board decided to table action one week.

In other business, the board will consider adoption of a law which would require that all lot splits be effected by township ordinance instead of by resolution.

★ ★ ★

The transfer of a Class A permit from MB & B Recreaion at 4825 M59 to Airway Enterprises, Inc., to permit the serving of alcoholic beverages on the bowling alley concourse also will be up for board action.

INSURANCE COVERAGE

The board also will discuss whether its false arrest insurance coverage is sufficient.

Wages for policemen during probationary periods also will be under consideration.

Drive-In Safe Tampered With

The Oakland County sheriff's office is investigating an attempted safe break-in at the Commerce Drive-In Theater, 8305 Richardson, Commerce Township.

★ ★ ★

It was reported yesterday that a safe in the ticket office had been tampered with but entry was not gained, according to deputies.

U.S. Doctor Founds Private Peace Corps

SAN DIEGO, Calif. (AP)—From the slums of Tijuana and Hong Kong to the villages of Vietnam, a private peace corps called Project Concern is bringing health and new hope to the sick, the hungry and the homeless.

Founded six years ago by Dr. James Turpin of nearby Coronado, the San Diego-based relief organization helps people by teaching them to help themselves.

"Self help, that's the answer," says Turpin as he envisions expanding Project Concern into a worldwide private aid program for developing nations.

Progress has been impressive.

In Tijuana, Mexico, just across the border from San Diego, Project Concern operates a clinic, school, maternity ward and social service center for thousands of impoverished residents of a suburban slum.

★ ★ ★

In Hong Kong, four clinics and a school serve refugees and needy residents in some of the city's most squalid areas.

ONLY HOSPITAL

And in South Vietnam, the Project Concern hospital at DaMpao is the only medical facility available to the Montagnard tribesmen and Vietnamese of the area's villages.

Turpin got the inspiration for Project Concern while practicing medicine in Coronado.

"We were doing all that might be expected of a successful young couple, perhaps more than most. We had in fact, a perfect life in a perfect community," Turpin recalls.

★ ★ ★

"Yet, something was lacking. A vague but disturbing disenchantment set in."

TIJUANA CLINIC

Then, through his adult class at the Methodist Church, Turpin learned of Casa de Todos in Tijuana, a struggling clinic and school operated by a Mexican woman.

"For the first time since the beginning of my restlessness in the plush life of Coronado, I saw a way to justify my existence by giving a little of myself to something which truly needed me," Turpin said.

But even dedication to work among the poor in Tijuana did not satisfy Turpin for long.

★ ★ ★

"Other doctors could do the work at Casa de Todos. I had to be where the need was greater," he explains.

PRACTICE GIVEN UP

Turpin resigned from the Coronado City Council, gave up his medical practice and devoted himself to raising money to finance a Project Concern program in Hong Kong.

Help came from across the country. Pharmaceutical houses provided sample drugs.

The first clinic opened in 1962 in the Walled City section of Hong Kong, across the street from a brothel and beneath an opium den.

Other clinics now serve the Jordan Valley area and a fishing village called Lei Yue Mun on the outskirts of Hong Kong. A floating clinic cares for the boat people of Kowloon Bay.

TO SOUTH VIETNAM

From Hong Kong, Turpin went to South Vietnam in 1964 to open a 42-bed hospital at DaMpao, about 150 miles northeast of Saigon.

There in the central highlands, Project Concern administers to the health needs of a people whose only previous source of medical care was the village sorcerer.

Training programs are conducted at the hospital for Vietnamese, who are taught the fundamentals of sanitation, health, first aid, hospital procedure and diagnosis.

Graduates of the program return to their homes to serve as village medical assistants.

EXTENSIVE GOALS

Still restless, still planning, the 40-year-old Turpin has extensive goals for Project Concern.

During the next five years we hope to build a refugee hospital in Hong Kong. In South Vietnam, we plan to enlarge our hospital at DaMpao and establish another rural medical center in Lien Khoung.

"In Mexico, the plans call for expansion of Casa de Todos and establishment of a maternal child care center and a nursing and medical school," Turpin says.

Other areas being considered for Project Concern facilities include Chicago, Tennessee, Kentucky, Texas, India, Peru, Africa, the Middle East and the Gaza Strip.

PRIVATE POWER

"The thing that excites me more and more as Project Concern grows is the tremendous power in the socalled 'private sector,' " Turpin says.

Turpin envisions the private sponsorship of a corps of what he calls "nation builders" — young technicians recruited from around the world to teach medicine, sanitation, engineering, agriculture, animal husbandry and cottage industry.

"There are other people in near and distant parts of the world who are very sick and very weary. Their need is our opportunity to share with them our relative abundance.

★ ★ ★

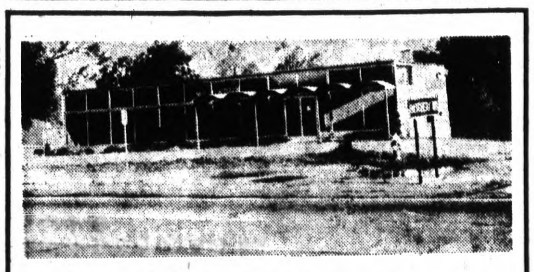

"But for those of us in the program, the sense of accomplishment comes not so much from the number of hospitals we build or the number of village medical assistants we graduate, but from a sense of being involved in life as it really is, realizing that we need these people as much as they need us," Turpin said.

First Negro Joins Police in Kentucky

FRANKFORT, Ky. (AP) — The first Negro on the Kentucky State Police force was among 39 troopers sworn in Friday.

Gov. Louie B. Nunn told Millard West of Lexington that "as long as you conduct yourself as a state trooper that will be sufficient."

The governor added "You will not for long be the only member of your race to be a trooper."

Theft of Car Has Several Sidelights

KALAMAZOO (AP) — This is the story of two Kalamazoo men who found their luck bad, then good, then bad.

As the first man left his job at a factory on Kalamazoo's north side, he discovered his car was missing from its nearby parking space. After reporting the theft to the police, he hitched a ride home with a co-worker.

★ ★ ★

After dropping his friend off, worker No. 2 spotted the stolen car parked on the east side of town. He returned to pick up the owner and headed back to the scene.

Standing next to the car when they pulled up were two youths. They said "their" car had run out of gas and asked for a ride to the nearest service station.

OFF TO JAIL?

As the four drove off, the youths were advised they were being taken to another type of station—police headquarters.

But they never got there. With a gasp, the second car came to suddent halt—out of gas.

★ ★ ★

The two youths provided a couple of names and took off. The names were phony.

Chapter 16

Kathleen Royal added, "Please come in. I'll have your horse cared for."

"I believe it's your horse," Dan Briscoe said. "You—"

"—and I'm sure you could stand a nice, cold drink and a bite of food after your ride," she went on, as though not having heard him.

When Kathleen Royal returned, she bore a tray on which sat two glasses and a cut glass pitcher in which ice tinkled in a clear liquid.

"Ice?" Dan exclaimed. "It can't be real!"

★ ★ ★

DIFFERENT DRINK

"You're lucky," she said. "It usually lasts until only midsummer. They boys cut it on a lake in the mountains in winter and fill the icehouse. It will be gone in a few days, I'm afraid."

Dan sampled the contents of the glass she handed him. "Well," he commented. "It's different, at least. What is it?"

"Juice of the prickly pear apple," she said. "Mixed with other ingredients, according to my secret formula."

★ ★ ★

"You mean those thorny devils bear fruit big enough to produce nectar like this?"

SLANTING LOOK

"In this country they do," she said. "You're not from the southwest, I take it. Prickly pear is about the only fruit that seems to do well in Springwater Basin."

"Is that what those people I saw homesteading along the river are planting? Prickly pear?"

She gave him a slanting look. "I couldn't say. However, the Bible says that you reap what you sow."

★ ★ ★

"I've heard that somewhere else and not too long ago," Dan observed.

JOB OFFER

He finished the drink. "Thanks," he said. "I'll be shoving back to town now. That is, provided you'll loan me the horse for the return trip."

"I was hoping you had decided to hire out with our crew, after thinking it over," she said.

"Sorry," Dan said. "I doubt if some of the work you have here would be in my line."

★ ★ ★

"I'm sure you would be able to handle it. Perhaps it's the pay I mentioned that disappointed you. Forty a month might not interest you I might raise the ante a trifle."

APPRAISES DAN

"For instance . . .?"

She caught her lower lip between her teeth for a moment, while she appraised him. "How much are you usually paid, Mr. Driscoll?" she asked.

"Depends on the job. And the hours."

★ ★ ★

"We're very short handed. We should be shipping beef right now. Weeks ago, in fact."

ANGER FLARES

"Meaning I'd have to earn whatever you offer?"

The tired anger that had been working inside her now flared to the surface. "Stop it!" she burst out.

Dan lifted his eyebrows, waiting with mock surprise.

★ ★ ★

"Stop being so bland!" she almost wept. "How much do you want?"

'NO KILLING'

Before Dan could answer, she added, "Understand me clearly. I want no killing. Only protection for my father, myself, and my riders."

"You know who I really am, don't you?" Dan asked.

"Yes," she said listlessly.

★ ★ ★

"John Cass promised me he wouldn't—"

IN YELLOW LANCE

"Don't blame him I was in Yellow Lance that night. The night Frank Buckman was killed. I had gone there to offer just what I'm offering you now. A job."

Dan stared. "I remember that they told me there was a woman waiting to talk to me," he said slowly. "You?"

★ ★ ★

"Yes. I was in the hotel sitting room among the crowd when you went out—you with your fancy guns and your swagger. You with your mustache and silk and diamonds.

★ ★ ★

"I had heard of Diamond Dan Briscoe. Who hasn't? I went to Yellow Lance to talk to you, to try to hire you. And your guns.

OLD FRIEND

"John Cass is an old friend of my father's. I knew him when I was a child. I call him Uncle John but he's not a blood relative."

"You made quite a long trip to hire fancy guns and a swagger," Dan said. "It actually isn't a cowhand you want, now is it?"

"I was wrong," she said. Her voice had the tremor of the strain and humiliation she was trying to hide. "I should have known better. I was desperate. But I know now you can't fight fire without being burned."

★ ★ ★

"Defiled, you mean."

BECOMES COLD

She became suddenly very composed, very cold and formal. "Thank you for returning the earring, Mr. Briscoe."

"Driscoll is the name," Dan said.

"If you wish it that way. I'll never mention your real identity if it would please you."

★ ★ ★

Dan lifted his hat. "Good day, ma'am."

QUESTION ANSWERED

"Exactly why did you come all this way to return it, Mr.—Mr. Driscoll?"

Dan looked directly at her. "I'm sure you know. I didn't really know myself until you came walking out of that door a few minutes ago."

She looked as though the breath had been driven from her. Color receded from her face, then came rushing back in a wild surge. She did not speak.

★ ★ ★

"What was your husband like?" Dan asked. "He could not have been a dull man. You're not the kind to waste yourself on a clod."

NO HUSBAND

"Husband? I have had no husband."

"I must have misunderstood," Dan said. "John Cass said the Kate Royal he was talking about was a widow. I had the impression she was a middleaged lady."

"Uncle John might have believed I was a widow," she said. "But not up in years, I'm sure.

★ ★ ★

"I was to have married a fine man. His name was Tom Randall. He was our range boss. He was killed a week before we were to have been married. That was nearly a year ago."

DISMISSES DAN

'Uncle John probably believed we had already been married."

"You say Tom Randall had been killed?"

"Goodby, Mr. Driscoll," she said abruptly. "You can leave the horse at the livery in town. The bill will be paid by Spanish Bell."

★ ★ ★

Dan turned to leave the house. As he reached the gallery, the creaking of wooden wheels sounded. A man had followed him from the door, manipulating a wheel chair in which he sat. A silk cloth covered his legs.

KATE'S FATHER

He was a big man with weathered, sun-wrinkled skin, shaggy graying hair and a mustache to match.

"Who's this, Katey," the man demanded.

Kathleen Royal spoke evenly. "This is my father, William Royal, Mr. Driscoll. I had lost one of Grandmother's wedding earrings in Flag, and Mr. Driscoll went to the trouble of returning it."

★ ★ ★

Bill Royal wheeled his chair close and extended a hand to Dan. His grip was powerful.

TELLS OF INJURY

"Excuse me for not gettin' up," he said. "Me an' my hawss fell into a coulee a while back, tryin' to turn a stampede at night. Me, I landed underneath. Left laig won't come around."

"I'm mighty sorry," Dan said.

"Thanks for fetchin' Katey's earring back," Bill Royal said. He studied Dan keenly. "You got the earmarks of a cowhand. You wouldn't be lookin' for—?"

★ ★ ★

"Mr. Driscoll is leaving," Kathleen Royal said quickly.

Bill Royal wanted to finish what he had been saying, but his daughter gave him a look. He went silent.

"Nice meeting you, Mr. Royal," Dan said. He walked to his horse, freed the reins and mounted.

STAYS ACTIVE — A bad heart doesn't slow down Dick Coleman, 85-year-old Oklahoma rancher-businessman. Implanted in his chest is a pacemaker which supplies electric current to his heart. He stood long enough in Waurika, Okla., to be photographed before taking a repaired saddle back to his 2,000-acre ranch.

Area Man Reports Snowmobile Stolen

The theft of a snowmobile was reproted to the Oakland County Sheriff's office yesterday.

★ ★ ★

Jack King of 789 Locklin, West Bloomfield Township, told deputies the vehicle was parked alongside his residence when it was taken.

It was valued at $1,000. The vehicle is an Evinrude Skiter, blue and white with a red seat.

Hampton Seeks to Abolish State Intangibles Tax

LANSING (AP) — Rep. William Hampton, R-Bloomfield Hills, said Thursday he would introduce a bill to abolish the state intangibles tax, which is expected to yield $28.7 million in the next fiscal year.

Loss of that much revenue would make a new tax necessary to avoid a budget deficit. Passage of Hampton's bill was considered unlikely.

★ ★ ★

Hampton said many elderly persons get most of their income from interest and dividends, which are covered by both the 2.6 per cent state income tax and the 3.5 per cent intangibles tax.

"This amounts to paying 6.1 per cent income tax," Hampton said, "and I don't want my constituents placed in this position."

Man Recovering After Car Mishap

A Pontiac man was in satisfactory condition in Pontiac General Hospital today after a two-car collision on Wide Track and East Pike at 9:55 p.m. yesterday.

★ ★ ★

Injured was Leland Gormley, 43, of 753 E. Madison. Driver of the second vehicle was Lou Nelson Jr., 38, of 209 Earlmoor.

Space Official Gets New Post

CAPE KENNEDY, Fla. (AP) — A veteran of America's Mercury and Gemini manned space programs, Walter J. Kapryan, has been named deputy director of launch operations for the National Aeronautics and Space Administration's Kennedy Space center.

Kapryan, 47, was assistant Apollo spacecraft program manager before his appointment to the newly created post.

Junior College Curbs Miniskirts

FORT LAUDERDALE, Fla. (AP) — Extreme miniskirts have been banned at Broward Junior College. The School Board ruled skirts must be no higher than two inches above the knee.

★ ★ ★

The new regulations permit long hair, beards and mustaches for male students so long as there is "a well-groomed appearance."

Eradicate Grain Rust in Michigan

There's nothing very pretty about stem rust in small grains. That's why efforts are continuing to eradicate the common barberry bush in Michigan. It was introduced by the early settlers for hedge and ornamental planting.

According to Don Juchartz, county agricultural agent, eradication of the barberry bush, easily identified by its spiny-toothed leaf edges and red berry clusters, has meant grain savings of more than two million dollars annually.

This is not the common Japanese barberry bush commonly used in landscape plantings and sold at nurseries and garden centers.

The lethal plant, which became easily established in native timber along streams and fence rows, provides the necessary link from rust spore germination in the spring to grain infestation in the summer.

Besides perpetuating many old and unusual races, the barberry plant is capable of spawning new races through hybridization to complicate the task of plant breeders attempting to produce rust-resistant varieties.

Juchartz suggests that farmers interested in more information about stem rust control in wheat, oats, barley and rye, obtain a copy of MSU's new Extension Bulletin 600, Barberry Eradication.

The agricultural agent also cautions homeowners against digging barberry plants "in the wild" and bringing them home for planting around the house.

CITY OF PONTIAC
COUNTY OF OAKLAND
NOTICE OF HEARING

RE: PETITION TO LOCATE, ESTABLISH AND CONSTRUCT AN INTRA-COUNTY DRAIN IN THE CITY OF PONTIAC, OAKLAND COUNTY, MICHIGAN

NOTICE IS HEREBY GIVEN, that pursuant to the provisions of Chapter 20 of Act No. 40 of the Public Acts of 1956, as amended, a petition was filed with the County Drain Commissioner of Oakland County, Michigan, petitioning for the following project, to wit:

Location, establishment and construction of an intra-county drain to relieve, supplement and improve the existing natural water course known as the Pontiac Creek Drain and the existing Jewell Drain, said intra-county drain to be located approximately as follows:

Beginning at the existing outlet structure of the Clinton-River Drain No. 1, 135' east of Union Street and immediately north of east Huron Street in the City of Pontiac; thence northwesterly to a point near the existing channel of the Pontiac Creek Drain at its crossing under Wide Track Drive; thence northwesterly generally following the route of the existing Pontiac Creek Drain channel to Osmun Lake; thence southwesterly generally following the existing Jewell Drain to Terry Lake; thence continuing southeasterly generally following said existing Jewell Drain to Harris Lake.

NOTICE IS FURTHER GIVEN, that the Drainage Board for said project has considered the said petition had has made a tentative determination, that said petition is sufficient and that the said project is practical; has given the name "AUGUSTA DRAIN" as the name of said Drain and the name "AUGUSTA DRAINAGE DISTRICT" as the name of the drainage district therefor; and has made a tentative determination that the following public corporations should be assessed for the cost of said project, to wit:

State of Michigan — on account of drainage to state highways
County of Oakland — on account of drainage to county highways

NOTICE IS FURTHER GIVEN, that the said Drainage Board will meet on the 20th day of February, 1968, at 2:30 o'clock P.M., Eastern Standard Time, at the office of the Oakland County Drain Commissioner, 550 South Telegraph Road, in the City of Pontiac, Michigan, for the purpose of hearing any objections to said project, to the petition therefor, and to the matter of assessing the cost thereof to the public corporations above named. A said hearing any public corporation to be assessed or any taxpayer thereof will be entitled to be heard.

This notice is given by order of the said Drainage Board for the Augusta Drain.

DANIEL W. BARRY
Chairman of the Drainage Board for the Augusta Drain, Oakland County Drain Commissioner

January 25 and February 1, 1968

Roof Check for Man's IQ

A new way to check a man's intelligence is to inspect his home immediately after a snow storm. If there is snow on his roof and his sidewalks are clean, says the National Better Heat-Cooling Council, he is a smart man, way above average intelligence.

Snow on the roof means that the attic is well insulated, and the heat for which hard-earned money was spent is remaining within the house.

Clean sidewalks can mean that he hired a few ambitious boys to shovel it away for him, but the odds are that there is snow melting system installed under the driveway and walks.

This is a fairly simple thing to install if the house is equipped with a hydronic (modern hot water) heating system. According to the Council, another zone can be added quite easily to the existing boiler, and by running a network of tubing under the driveway and sidewalks, snow is melted automatically as soon as it falls.

★ ★ ★

To prevent freezing when the system is not in operation, an anti-freeze solution is added.

Beside the obvious advantage of not having to shovel the snow away, the danger of heart attacks which arises from this type of exertion is eliminated. And, it will add value to the property.

BUILDER & REALTY CO.
Has openings for sales people full or part-time, experience in new and used homes desired ANDERSON GILFORD INC OR 4-3141.

Chilton-Motor Age—The National Authority on Automobile Repairs and Labor

Wishes to discuss with a professional salesman the opportunity of his becoming an authorized Sales Agent for the territory of Detroit and the surrounding counties to sell the repair bibles of the world automotive industry — Chilton's Flat Rate Manual and Chilton's Auto Repair Manual and other information books to automotive repair shops.

This job requires a salesman who is willing to make personal calls on every automotive outlet in his territory.

Few such opportunities exist whereby a good salesman can go into business for himself with no financial investment. Write me about your past sales experience so we can mutually decide if this is the opportunity you have been seeking and if you are the man for us. Include your phone number.

Paul A. Murphy, General Manager, CHILTON COMPANY, 56th and Chestnut Streets, Philadelphia, Pa. 19139.

New Film Star Panics Self Into Top Role in 'Graduate'

By EARL WILSON

NEW YORK — When young Dustin Hoffman finished one of the worst screen tests in the history of Hollywood for the lead role in "The Graduate," he nonchantly tossed some coins in the air — and dropped a subway token.

A prop man picked it up and handed it to him.

"I saw your test," the prop man said. "You're going to need this."

Hoffman, who now is a dark horse candidate for an Oscar nomination, agreed with him. "You saw me at my worst," he told director Mike Nichols. "I hope so," Nichols said. During the test, Hoffman kept fluffing the lines. Nichols told him to take time out and study the lines. He did. And kept fluffing.

WILSON

"I can't figure it out," Nichols said. "You study the lines, and then you're worse."

★ ★ ★

Yet a few weeks later Nichols phoned Hoffman and completely unsettled him by telling him he had the part. "You were in a panic, but there's a panic in there that I want," Nichols said.

"I told him I thought a complete injustice had been done. I wasn't right physically for the part. Clearly, the character, the graduate, 'Ben Braddock,' wasn't Jewish."

"No, but he's Jewish inside!" Nichols said.

THE WEEKEND WINDUP . . .

Omar Sharif, filming "Mayerling" in Vienna, is dating co-star **Ava Gardner** — who plays his mother . . . **Faye Dunaway** said at the Ginger Man she and fiance **Jerry Schatzberg** will visit India . . . **Bobby Darin** made a six-figure offer for Lobos Island, near San Juan, as a vacation spot.

Sean Connery, who was such a hot rock with a gun as **James Bond**, has to take quick-draw lessons from **Rodd Redwing** for "Shalako" . . . Chez Vito'll celebrate Valentine's Day all next month, with the slogan, "Kiss Someone Near You" (which could be good for a belt in the mouth).

★ ★ ★

TODAY'S BEST LAUGH: Comedienne Fannie Flagg went to a psychiatrist to learn about herself: "And it cost me a fortune to discover I'm the kind I wouldn't want to associate with."

WISH I'D SAID THAT: It's almost useless to be punctual. There's very seldom anyone there to appreciate it. — Jack Herbert, Chicago.

REMEMBERED QUOTE: "No one is rich enough to do without a neighbor."

EARL'S PEARLS: Peter Ustinov (now in "Hot Millions") speaks ten languages: "The basics are 'Yes' and 'No,' and counting money. Anything else is just for show."

Bob Orben complains his ballpoint pen never works: "If they'd had to sign the Declaration of Independence with a ballpoint, we'd still be a colony!" . . . **That's earl, brother.**

Marine in Battle Area Son of Commandant

KHE SANH, Vietnam (AP) — One of the U.S. Marines in this war-scarred sector gets letters from the Marine Corps commandant warning him to keep his head down.

He is 1st Lt. Walton F. Chapman, 23, of Washington, D.C., the son of Gen. Leonard F. Chapman Jr., commandant of the Corps.

★ ★ ★

Lt. Chapman is an acting company commander and has been a "grunt"—the Marine terminology for infantryman—for 12 months in South Vietnam.

★ ★ ★

Being the son of the man who was named in December to head the Corps hasn't made much of a ripple with the other Leathernecks, the young lieutenant says: "I get a little ribbing from my fellow officers, but the troops couldn't care less."

IN KHE SANH

Lt. Chapman has been with Delta Company, 1st Battalion of the 26th Marines since coming to South Vietnam. He moved with the unit to paddies around Hill 55 south of Da Nang before it was sent to Khe Sanh last May.

★ ★ ★

"It was almost line R-and-R (rest and recreation) here," he said, until two North Vietnamese regiments staged a string of weekend assaults and took up siege positions outside the perimeters. Before that, the lieutenant said, his company was "in 10 or 15 actions, but I haven't had many close squeaks."

★ ★ ★

When his father was named commandant, Lt. Chapman was on foggy Hill 950 overlooking this combat base, and he was notified by radio.

"We were weathered in at the time," he said, "so I wrote him a letter."

FATHERS' INSPECTION

Three weeks ago, the father arrived in South Vietnam for an inspection tour of the Marines, and the lieutenant was flown to Da Nang to meet him.

★ ★ ★

"He asked about the men and the situation," the lieutenant said. "And he asked about me. I told him I got this far in one piece and I would make it the rest of the way."

★ ★ ★

Lt. Chapman's 13-month tour will be over in February. He is being reassigned to the 2nd Marine Division in the United States.

"I'm a regular," he said. "And, if the future looks good, I'll stay."

COMMISSIONED

Lt. Chapman attended Duke University, Durham, N.C., and was commissioned in the Marines when he was graduated in June 1966.

His assignment to Vietnam was inevitable, he said. "I'm an infantry officer, and I wouldn't have been happy if I hadn't been sent here."

★ ★ ★

His older brother, Capt. Leonard F. Chapman III, spent 13 months in Vietnam with two infantry battalions in 1965-66 and is now with the Marine detachment aboard the aircraft carrier Enterprise.

Chicago Teachers Censor Skirt Length

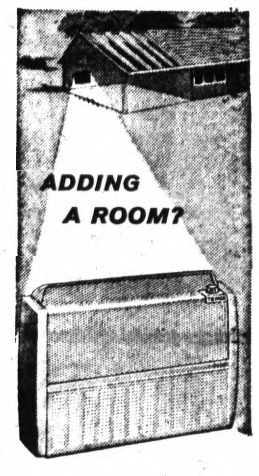

CHICAGO (AP) — Five women gym teachers at Bogan High School inspected the length of skirts of 1,200 girl students Friday.

"We're practically bug-eyed from looking at all those legs," said Mrs. Mildred Stanek, head of the gym department.

★ ★ ★

She said the teachers found some two dozen skirts that they felt were too short. Some of the girls were sent home to change, some of their parents were called to bring a change of clothes to the school and some of the girls let down their hems.

McCarthy Says Dems Using War Policy They Laid to Barry

By the Associated Press

Sen. Eugene J. McCarthy, campaigning for the Democratic presidential nomination, says the Vietnam war is being handled the way Democrats once said Barry Goldwater would have handled it.

McCarthy, who is running in six primaries in opposition to President Johnson's war policy, told a Manchester, N.H. audience Friday:

"What we have on our hands is what we said wouldn't happen if Johnson was elected in 1964. What we're doing over there is what we said would probably be done if Barry Goldwater had been elected."

Goldwater, the GOP presidential candidate in '64, carried only five states in losing to Johnson.

★ ★ ★

McCarthy formally filed for candidacy in New Hampshire's March 12 primary. While in Concord, the state capital, he visited briefly with Gov. John W. King, a leader among state Democrats supporting Johnson for reelection.

★ ★ ★

McCarthy told a Nashua rally some state Democratic leaders "have said that you're all so well-organized and so disciplined now that there would be no point in my coming in, because the people of New Hampshire vote pretty much the way their party leaders tell them to vote. I doubt whether this is true."

LBJ Weighs Military Action if Ship Not Freed

WASHINGTON (AP) — Official sources report President Johnson still seeks a diplomatic solution to the Korean crisis but that if he USS Pueblo and her crew aren' released by Norh Korea in a matter of days, he will urgently consider proposals for further military action.

U.S. officials, in reporting this, pointed to the President's surprise broadcast to the nation yesterday afternoon as providing evidence his diplomatic activities at the United Nations, Moscow and elsewhere are backed by the potential for military action if peaceful means fail.

"We have taken and are taking certain precautionary measures," Johnson said, "to make sure that our military forces are prepared for any contingency that might arise in the area.

"These actions do not involve a reduction in any way of our forces in Vietnam."

★ ★ ★

The President already has ordered the call-up of nearly 14,800 Air Force reserves.

PREPARATIONS

At the Defense Department preparatory activity was under way in the National Guard Bureau and Reserve offices. Name lists and equipment inventories were being checked.

Some authorities speculated Johnson's next mobilization move could be to call up a National Guard division, but the President has not announced any decision.

Johnson's brief television-radio address was among many developments related to the seizure of the U.S. intelligence ship and her crew of 81 sailors and two civilians:

● North Korea declared itself fully combat ready today and promised "an exterminatory blow" at the United States if the Communist nation is attacked.

Related Stories, Page A-2, A-4.

● A U.S. Navy flotilla of six vessels comprising a carrier and several destroyers and submarine chasers was moving to Korean waters to augment the U.S. task force of the carrier Enterprise, the South Korean semigovernment newspaper Seoul Shinmoon reported today.

● The State Department said the Soviet government had rebuffed a second U.S. request for help in getting release of the ship and her crew but there were reports today in the Washington Post and Baltimore Sun from New Delhi saying Soviet officials accompanying Premier Alexei Kosygin indicated Moscow is interested in freeing the ship and her crew.

● Although apprehension was growing in Seoul, the South Korean capital, U.S. officers there apparently expected no mass land war. But all ground forces were on the alert along the 151-mile demilitarized zone separating North and South Korea.

PAGEANT COMMITTEE — Michigan Junior Miss Pageant committee heads are busy with the second day of pageant activities. Holding props for tomorrow night's final performance are (from left) Francis Thick, program director; Joel Goldberg, pageant director; and Mrs. Richard Jorgensen, pageant coordinator.

Junior Miss Activity Fills Hopefuls' Day

Rehearsals and preliminary talent performances are filling the day for 47 girls in town for the Michigan Junior Miss Pageant, sponsored by the Jaycees.

The preliminary talen performances, open to the public, are at 2 and 8 p.m. in the Pontiac Northern High School auditorium. Tickets are available at the door.

Half of the girls will present their talents in the earlier show while the rest will appear later.

The finals are 5 p.m. tomorrow in the auditorium. The program will include a parade of contestants, Junior Miss talent performances, and the award ceremonies.

Kathy Fliss, Michigan's Junior Miss of 1967, will crown the new Junior Miss. She was a semifinalist in the national Junior Miss Pageant at Mobile, Ala., last year.

WINS TRI P

The new Junior Miss wins an all-expense paid trip to compete in the America's Junior Miss Pageant in March.

The winner also receives a $1,000 scholarship from Coca Cola Bottling Co., a $100 scholarship from Community National Bank, a $100 scholarship from Hudson's, a $500 savings bond from Chevrolet Division, General Motors Corp., and a $25 savings bond from Pontiac State Bank.

The girls all winners in their local contests throughout Michigan, spent yesterday in rehearsals and personal interviews.

A measure of the girl's support from their home towns is indicated by a telegram to Ypsilanti's Junior Miss, Bonnie Feuerstein. Last night she received a 2½-foot-long telegram signed by 138 well-wishers.

Michigan's Junior Miss of 1965, Patrice Gander of Stevensville, went on to become America's Junior Miss. She is currently attending Marygrove College in Detroit on scholarship money won in the national contest.

Clash in Cambodia

PHNOM PENH, Cambodia (AP) — A clash between Cambodian Communist guerrillas and government forces occurred Jan. 21 in Battam-Bang Province near the Thailand border, Cambodian officials said today. Three government troops were wounded.

FBI Arrests 7 in Robbery Plot

SEATTLE, Wash. (AP) — The FBI has arrested seven men and accused them of plotting to blow up a police station and power plant and then rob four banks while the police were diverted.

The FBI said some were members of the Minutemen, described by the federal agency as an anti-Communist organization. However, in Norborne, Mo., Robert DePugh, chief of the Minutemen, said only one name was familiar to him.

Agents said floor plans of the banks, 10 gasoline containers rigged as firebombs, nine sticks of dynamite, blasting caps, a pipe bomb, a 32-caliber pistol and two 38-caliber pistols were found.

The FBI said the seven planned to rob three banks in Redmond, a few miles south and east of Lake City and Bellevue, and another in Des Moines, just south of Seattle, after blowing up the police station in the Redmond City Hall and a power plant in Redmond.

Federal agents said the men were led by Duane Ivan Carlson, 35, of Seattle, described by the FBI as a full-time Minutemen employe.

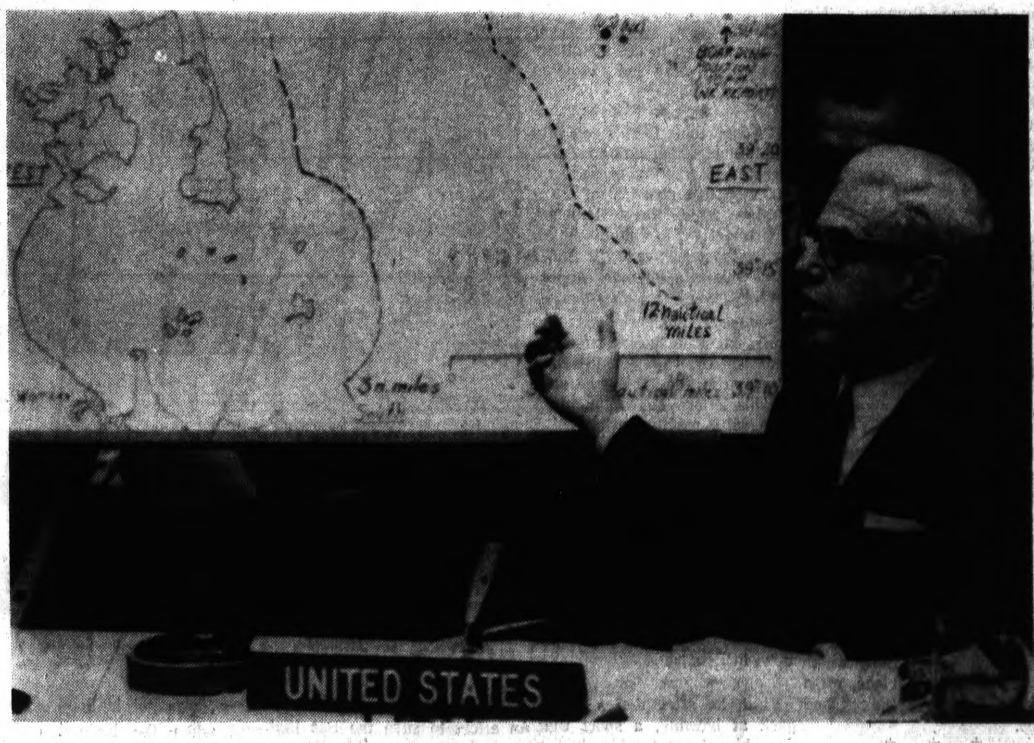

ARRAIGNED

They were arraigned before U.S. Commissioner Walter Reseburg on charges of conspiracy to rob a bank. Bail ranged from $500 to $30,000 for Carlson. By late yesterday, only one had posted bail.

Federal agents said the men designated themselves by numbers — 001 through 007 — in a conspiracy authorities said they had been aware of for several weeks.

BUGGING DEVICE

Reseburg said a search warrant was issued Thursday with the consent of U.S. Atty. Gen. Ramsey Clark to permit an informer to attend a meeting with an "electronic device."

Goldberg Points To Map Showing Pueblo Was In International Waters

U.N. to Eye Canadian Plan to Gain Return of Pueblo

UNITED NATIONS, N.Y. (AP) — The U.N. Security Council's debate over North Korea's capture of the U.S. intelligence ship Pueblo centers today on a Canadian suggestion that intermediaries work on a deal for return of the vessel and her 83-man crew.

The 15-nation council scheduled a Saturday session on a U.S. complaint that North Korea seizure of the ship in international waters and also sent assassins into South Korea in an attempt to kill President Chung Hee Park.

U.S. Ambassador Arthur J. Goldberg filed the complaint Thursday night.

Canada's suggestion came at the council's first meeting late yesterday when the council voted to debate the Pueblo case 12-3 over opposition from the Soviet Union, Hungary and Algeria.

Canadian Ambassador George Ignatieff said the council should "find appropriate means" of helping get "a speedy and equitable solution."

"One way of doing this," he said, "might be to arrange for an intermediary or intermediaries to exericse good offices in this matter."

He told reporters later, "I think that is the only way to bget the boat back."

A Canadian source said that by intermediary Canada meant a country rather than an individual.

He said the idea was to have one or more country acceptable to both North Korea and the United States try to settle things.

Some delegates expressed belief that a resolution along those lines, sponsored by some delegation other than the United States, was probably the only kind that would stand a chance of passing.

Goldberg told the council danger to international peace "will be removed only if action is taken forthwith to secure the release of the U.S.S. Pueblo and its 83-man crew and to bring to an end the pattern of armed transgressions by North Korea against the Republic of Korea."

Search Grows for Israeli Sub

TEL AVIV (AP) — American, British and Greek ships and plans helped search today for an Israeli submarine with a crew of 69 which disappeared in a deep section of the Mediterranean Sea Thursday, an Israeli army spokesman said.

The spokesman said contact with the submarine Dakar was lost Thursday afternoon when it was 250 miles off the Israeli coast. There was no suggestion the submarine was lost to hostile action.

In the area of the search, south and southwest of Cyprus, the sea is more than one mile deep, the British Royal Air Force air-sea rescue coordination center on Cyprus said.

The Dakar — which means shark — was due to arrive in Israel Monday after being rebuilt at Portsmouth, England, last autumn. It was declared battle-ready in November after testing off the Scottish coast.

Hanoi to Release 3 U.S. Pilots

TOKYO (AP) — North Vietnam announced today it had decided to free three American pilots captured in the North.

Hanoi's official Vietnam News Agency, monitored in Tokyo, said the pilots "had shown a repentant attitude during the period of detention" and were being set free in connection with the Tet (lunar) new year. The agency did not identify the pilots or say how they would be released.

The broadcast has not yet been confirmed.

No captured pilots have ever before been set free.

HONORED GUESTS — Durward B. Varner (right), chancellor of Oakland University, performed toastmaster duties in honoring Delos Hamlin, chairman of the Oakland County Board of Supervisors, last night. Hamlin, accompanied by his wife, is wearing a lei sent to him by a friend in Hawaii.

County Thanks Delos Hamlin

By ED BLUNDEN

Oakland County poured out its gratitude last night to Delos Hamlin, chairman of the board of supervisors, for his 25 years of service.

Ceremonies for "A Silver Anniversary of Service" were held at the New Raleigh House, Telegraph at 10 Mile, Southfield, with over 1,000 persons in attendance.

As toastmaster, Durward B. Varner, chancellor of Oakland University, described Hamlin as a "political statesman" and announced that a $4-million, nine-story dormitory under construction at OU would be named "Delos Hamlin Hall" in his honor.

Varner remarked, "We often take good government for granted, but we forget it takes men like Delos Hamlin to make it work."

The man being honored has the unique record in the county of serving 12 consecutive years as chairman of the board of supervisors. He joined the board 25 years ago as a representative of the city of Farmington.

Prior to his chairmanship, the post changed hands yearly. However Hamlin was credited with bringing leadership which the county badly needed and he was retained year after year.

N. Viets Shell Base After Truce Start

SAIGON (AP) — North Vietnamese gunners opened up with fresh mortar barrages on the U.S. Marine combat base at Khe Sanh today, seven hours after the start of a cease-fire proclaimed by the Vietcong for the lunar new year.

The Marines, waiting until 6 p.m. Monday to begin the allies' 36-hour cease-fire for the holiday, had been bombarding suspected enemy positions with artillery all night but the Communists didn't open up until 8:15 a.m.

★ ★ ★

Khe Sanh, in the northwestern corner of South Vietnam, is where U.S. commanders expect the enemy to launch a major offensive soon.

Associated Press correspondent Peter Arnett reported from the base that three Marines were wounded in the first 12-round mortar barrage.

FIRE RESUMED

The Communists fired again two hours later when a four-engine C130 cargo plane was landing with supplies, but missed the plane. Some grenade exchanges also were reported.

Enemy artillery, rockets and mortars wounded 20 Leathernecks at Khe Sahn Friday.

★ ★ ★

The North Vietnamese reportedly have two divisions poised around Khe Sanh, 16 miles below the demilitarized zone and seven miles east of the Laotian frontier. American commanders are expecting a major assault just after the seven-day Communist cease-fire.

★ ★ ★

Elsewhere in South Vietnam, fighting was expected to continue throughout the Vietcong cease-fire period, which began at 1 a.m.—noon Friday EST. The Communists had declared that any violation of this truce by the allies "will be punished severely," leaving the way open for them to keep shooting.

ATTACK NEAR SAIGON

Communist forces staged an attack near Saigon just after 1 a.m. and, in one of three assaults just before that hour, turned the tables on government police who were trying to ambush them on the southwestern edge of the capital.

★ ★ ★

About 30 South Vietnamese combat policemen were lying in ambush when the guerrillas blasted their positions with bazooka-type rockets, killing five policemen and wounding five and badly damaging a nearby police station.

★ ★ ★

It was one of the rare instances in which the Vietcong used the rockets inside the city.

News Briefs Off the Wire

LANSING (AP) — The $600-million slash in 1968 federal highway aid will result in a $10-million cutback in Michigan's road construction program, the State Highway Department reports. John Woodford, deputy state highway director, said the department has been notified that Michigan will lose $7.6 million in federal funds. Combined with state funds, this will add up to the $10 million, he said.

Red Intruders Killed

SEOUL (AP) — American and South Korean troops and police have all but wiped out the 31-man North Korean team sent south to assassinate President Chung Hee Park, with 25 of the intruders killed and one captured. Two of the North Koreans were shot to death early this morning by South Korean troops pursuing the remnants of the team, and the hunt for the last five continued in the rugged, snow-covered hills about 15 miles north of Seoul.

Parochial School Aid?

FLINT (AP) — A bill seeking about $21 million in state funds to help support parochial schools will be submitted to the Legislature in February. A statewide campaign for support has begun. The funds would help ease the financial situation of parochial schools. They would be in addition to auxiliary and bus services which parochial schools already receive from local school districts, which, in turn, receive state funds.

More Resume Greek Ties

ATHENS (AP) — Three more members of the North Atlantic Treaty Organization — West Germany, Canada and Italy — and Nationalist China have resumed diplomatic contacts with the Greek military regime, spokesmen announced today. This brings to 15 the number of nations that have resumed contacts since King Constantine fled Dec. 14 after the failure of his efforts to topple the regime. The United States resumed contacts Tuesday.

Heart Patient Gains

CAPE TOWN, Suoth Africa (AP) — HeSart transplant patient Philip Blaiberg is being allowed to listen to news broadcasts and other radio programs for the first time since his operation 25 days ago, Groote Schuur Hospital said today. Hospital officials said Blaiberg had spent a restful night and his condition continues to improve.

150 Battle Detroit Fire

DETROIT (AP) — Thirty companies of the Detroit Fire Department, with approximately 150 men, battled a five-alarm fire on the city's southeast side today. The fire swept the New Fairview Recreation, a bowling alley which was quartered over several stores that also burned. Officials said the building was a total loss. No injuries were reported.

AEC Sure on Radiation

PAHUTE MESA, Nev. (UPI) — The Atomic Energy Commission expressed confidence today that radiation from the explosion of a nuclear device would not cross any international boundaries. The AEC had announced in advance that some radiation would be released into the atmosphere by the blast yesterday which dug a crater 400 feet wide and 125 feet deep in this remote section of the Nevada test site.

He served as vice president of the organization last year, and is president of Charlie's Oldsmobile, Detroit.

4 Killed, 10 Missing in Swiss Avalanches

GENEVA (AP) — At least four persons were reported killed and 10 others missing in avalanches thundering down the mountains of Switzerland Friday night and early today.

Dozens of slides, released by warm weather, rain and snow storms throughout central and eastern Switzerland, roared down the Alpine slopes, cutting the main railway link from Switzerland to Italy, blocking local roads and railroads and isolating hamlets and villages.

★ ★ ★

At Davos in Grisons Province in the east a slide crashed down on a farm building on the outskirts, killing all three inhabitants. Another avalanche victim was reported from nearby Davos-Frauenkirch.

Dozens of avalanches buried or damaged buildings and blocked the road in the valley above Davos. Three persons were reported missing in the area.

FIVE MISSING

Five inhabitants of the village of Urigenin in the central Swiss mountain massive of the Gotthard were reported missing in a snowslide which buried several farm buildings shortly after midnight.

Higher up the Gotthard other slides destroyed or damaged barns and chalets near the villages of Wassen, Sillenen and Gurtnellen. One farm building was swept off the mountainside with all its inhabitants who were still missmg this morning.

★ ★ ★

Blizzards and continuing warm weather threatened the release of new slides throughout the Swiss Alps.

Romney's N.H. Trek Settling Into a Grind

HANOVER, N.H. (AP) — Gov. George Romney's New Hampshire primary campaign has settled into the long hard grind of an effort to see enough voters—and change enough minds—to overtake former Vice Prssident Richard M. Nixon.

The Michigan governor goes at his race for the Republican presidential nomination again today with a town-by-town journey up the Connecticut River Valley and on to the mountainous north, near the Canadian border.

★ ★ ★

"I don't think there's any substitute for getting out and seeing people and talking to people," Romney told about 30 of them Friday night in a Lebanon apartment. "You wouldn't buy a car without looking at it. And I think this is a lot more important."

Romney acknowledges he trails Nixon in the race for the season's first presidential primary on March 12. But he added his effort has momentum now and is moving upward.

ADVANTAGES

"I think there are a lot of advantages in being an underdog," Romney said. He did not enumerate them.

Romney was campaiging before dawn Friday and it was 9:20 p.m. when he shook the last available hand at the Twin-State Bowl in Lebanon.

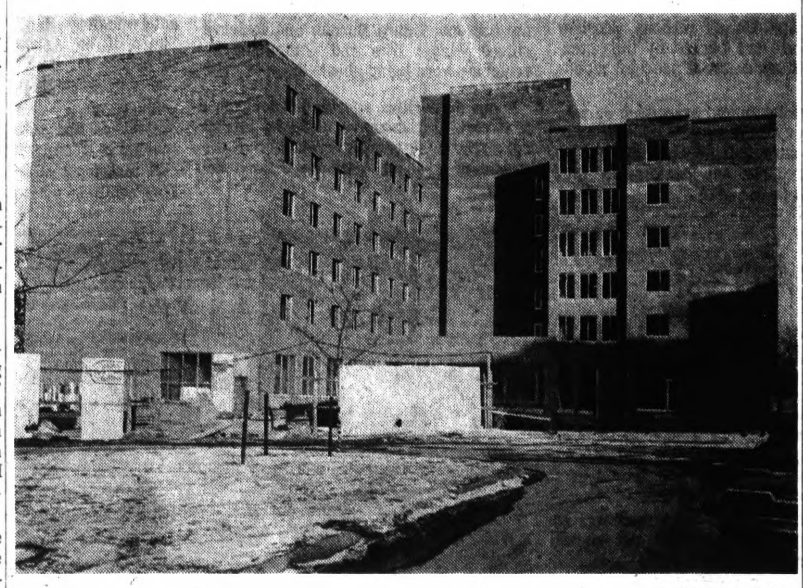

★ ★ ★

First, he attempted a comeback at bowling, a sport that gave him some trouble during an earlier campaign visit. He didn't do well, but he did better.

Romney had used 34 balls to knock down 10 pins on his last outing. This time he did it with 33. "Well, we'll try it again," he said, and got 10 pins with 12 balls.

WINDING TOUR

His campaign wound from factory gates to living rooms to main streets and super markets. His biggest crowd of the day was made up largely of nonvoters, some 1,000 people, most of them students at St. Paul's School for Boys in Concord.

HAMLIN HALL — This dormitory at Oakland University will hereafter bear the name Delos Hamlin Hall in honor of the chairman of the Oakland County Board of Supervisors. Announcement of the hall naming was made last night as Hamlin was honored at a banquet for his 25 years of service to the county. The building will be nine stories high in one section and cost $4 million. It is due to be completed sometime this summer.

Soviet Ship Is in Midst of Navy Force

WASHINGTON (AP) — A Soviet intelligence-gathering ship appeared in the midst of a U.S. naval task force standing off the coast of South Korea but no action is being taken because the ships are in international waters, defense officials report.

The trawler-like Soviet vessel was identified by Navy officials Friday as the Gidrolog, one of many such Soviet ships which operate around the globe, often close to U.S. naval forces and bases.

★ ★ ★

Like the American task force, the Gidrolog is in international waters, officials said.

The carrier Enterprise, the Truxtun, a nuclear-powered frigate, and four destroyers are standing by in the southern end of the Sea of Japan for possible use in the Pueblo crisis.

CRISIS

The crisis erupted when North Koreas seized the USS Pueblo, an American intelligence gathering ship, and her complement of 83. The United States maintains the Pueblo was in international waters when she was seized late Monday.

Military Says Copilot Lost Life Trying to Save B52

THULE, Greenland (UPI) — An effort to save the B52 that crashed with four H-bombs on board cost the copilot his life, military sources said today.

They said Capt. Leonard Svitenko of West Springfield, Mass., was not in his ejection seat when the bail-out order was given and may have tried to jump through a hatch as the lane plunged toward the icy coast of Greenland at more than 400 miles an hour.

Svitenko "probably left his copilot's seat to secure the aircraft," the sources said. A sudden cabin fire had filled the plane with smoke and led to the emergency bail-out order. The other seven members of the bomber crew ejected and survived.

The sources said that without the use of an ejection seat at the speed the B52 was flying, it would be almost impossible to bail out.

★ ★ ★

"When Svitenko was found, his legs were badly burned and his parachute was shredded," they said. This, they said, indicated he may have tried to jump through a hatch but was blown back by the force of the wind.

NOT CLEAR

It was not clear whether Svitenko actually fell free of the plane or was thrown free after impact. The bomber skidded about 500 yards along the ice before coming to a stop and exploding with what a witness called "a great boom."

Jury Reverses '43 Conviction

A Pontiac Circuit Court jury yesterday reversed the conviction of John L. Woos, found guilty 24 years ago of killing a Bay City theater manager.

The retrial was moved from Bay City after defense attorneys requested a change of venue.

Woos, 47, allegedly confessed to shooting and killing Floyd E. Ackerman in December 1943 during an attempted robbery.

Woos spent 23 years of a life sentence in prison. A new trial was granted on grounds he was never advised of his right to counsel.

★ ★ ★

The retrial lasted eight days. Prosecution attorneys called 20 witnesses to the stand in seven days. The defense finished Thursday by calling three witnesses in one hour.

County Thanks Delos Hamlin

(Continued From Page One)

Speakers cited Hamlin's ability to pull together the varied interests in the county. He was also hailed for his ability to work with state and federal authorities for the benefit of the county.

He is credited with helping to bring together areawide cooperative ventures such as the Southeast Michigan Council of Governments.

★ ★ ★

Rep. William S. Broomfield took the podium to say that, thanks to Hamlin, Oakland County has "one of the most progressive governments in the country."

GOVERNOR'S GRATITUDE

Lt. Gov. William P. Milliken extended gratitude on behalf of Gov. George Romney.

★ ★ ★

Rep. Jack McDonald, a former chairman of the supervisors' board, said Hamlin has long been an inspiration to him and pleaded with Hamlin to continue,"because America needs men like you," he said.

★ ★ ★

Mel Ravitz, chairman of the Wayne County Board of Supervisors, called Hamlin's efforts, "quiet, but effective public service."

Sparse Crowd for Birch Film

Audience in Rochester Far Below Forecast

Less than the 200 people expected showed up last night to see a free movie put on by an area chapter of the controversial John Birch Society.

Only about 75 persons were on hand to see "Anarchy U.S.A.," a film presented at the Avon Township Park Pavilion in Rochester.

The film attempted to portray the civil rights movement as the vehicle for an eventual Communist revolution.

The film concluded with a pitch for books and literature available at the Birch Society's American Opinion Libraries. These are book stores across the country that serve as outlets for the society's materials.

★ ★ ★

The "Anarchy" movie was preceded by a 30-minute slide presentation called "Civil Rights, the Red Reconstruction."

QUIETLY LEFT

Most of the audience viewed the screen presentations in silence and then quietly left, although one unidentified spectator asked for an opportunity to discuss the message offered in the film.

Chuck Erkfitz, who identified himself as president of the Birch chapter, declined. Erkfitz said the Rochester committee for TACT (Truth About Civil Turmoil) was an education medium.

Erkfitz said the local TACT group was started as an ad hoc committee to bring out the truth about the country's civil disorders.

★ ★ ★

Similar Birch-sponsored committees are organized across the country, according to Erkfitz. He credited such committees in Chicago for preventing riots in that city last summer.

Leaflets for last night's movie were distributed last weekend in Rochester and Utica.

CD Messages for Officials Slated in Test

A number of local and county "emergency" messages tomorrow as the Oakland County Office of Civil Defense carries out tests of its communication network.

The messages will be relayed to mayors, supervisors and members of the county's civil defense committee, through the agency's own Radio Amateur Civil Emergency Services (RACES) and the Amateur Radio Emergency Corp. (AREC).

Civil Defense Director Wallace Crane said the simulated emergency tests will get under way at 2 p.m. with participants receiving their instructions through the control center operated by the Civil Defense Office in the County Service Center.

The tests are to determine how well RACES and AREC can work together during an emergency situation, according to Crane.

★ ★ ★

Some 38 RACES operators and 40 to 50 AREC members will participate, in addition to those with mobile units who will deliver the messages.

Those receiving the messages will be asked to answer, or if they prefer, send a message to anyplace in the world, said Crane.

Ship Seizure on High Seas Act of War—Legal Expert

NEW YORK (AP) — A Harvard University professor of international law says that if North Korea seized the U.S. Navy intelligence ship Pueblo "on the high seas, then the United States has a right to regard it as an act of war."

But, says Prof. Milton Katz, whether the Pueblo was on the high seas or an intruder in fact in North Korea's territorial waters cannot be answered from the information generally available.

Territorial sea in international law "means that part of the ocean over which a littoral shore line state has exactly the same powers as it has over its land territory," Katz said.

The three-mile limit is universally recognized, he explained. The 12-mile limit is claimed by enough nations, including Soviet Russia, that such a claim is not regarded as "unusual, unreasonable or necessarily wrong."

Ecuador, Peru and Bolivia claim 200 miles.

Katz is Henry L. Stimson professor of law and director of international legal studies at Harvard University. He made his observations in a telephoned interview Friday with the Associated Press.

North Korea seized the Pueblo, an electronic intelligence ship, and its crew of 83 Monday in the sea east of Wonsan. Speaking Friday in the U.N. Security Council, U.S. Ambassador Arthur W. Goldberg said the Pueblo was 16.3 miles from the nearest mainland point and 15.3 miles from the North Korean island of Ung Do when it was seized.

★ ★ ★

North Korea claims a 12-mile territorial limit at sea and says the Pueblo was inside this line when caught.

Katz said that a nation can enact laws defining criminal conduct in its territorial waters, including unauthorized intrusions. And then it can act to enforce its laws against intruders, including seizure and punishment.

'AFTER-THE-FACT'

But in the absence of such laws defining acts of intrusion and setting the penalties, the Harvard expert said, a state cannot properly "pounce on" someone and apply "ex post facto' or after-the-fact rules.

Asked if this latter situation applied to the Pueblo seizure, Katz replied: "Not so far as I know. The trouble with commenting on North Korea is there seem to be a dozen facts that, so far as I can tell, nobody publicly knows."

★ ★ ★

Q. "Well, what is the North Korean law on this point?"

A. "One of the things I don't know, and it hasn't appeared in the papers, is what North Korean law is with respect to entry into North Korean territorial waters."

Q. "This would be a major question?"

A. "A very important question."

'Confession' Is Aired, Laid to U.S. Skipper

TOKYO (AP) — "We are very serious criminals who committed plain acts of aggression and espionage and I think we should be punished in accordance with the criminal law of the Democratic People's Republic of Korea."

This is part of a statement broadcast Friday by the North Korean Communists and attributed to Cmdr. Lloyd Mark Bucher, the captured skipper of the U.S. intelligence vessel Pueblo.

★ ★ ★

Over-all the tone was similar to a "confession" by Bucher aired Wednesday by North Korean Radio, stating that the Pueblo had violated the 12-mile international offshore limits and was spying in North Korean territorial waters when it was seized Monday.

Listeners noted that the Friday broadcast contained somewhat less stilted phrases than the first "confession." In that statement Bucher was quoted as saying that the Central Intelligence Agency promised him that if the Pueblo's mission were successful "a lot of dollars would be offered to the whole crew members of my ship and particularly I myself would be honored."

STATEMENT DENOUNCED

The State Department denounced that statement as "a travesty on the facts" and said the style and wording proved it could not have been composed by any American.

The North Koreans, in an effort to convince the world the "confession" was authentic, have widely distributed photographs which show a man in a dark coat writing on a sheet of paper with a ball-point pen. Only part of his face is showing. Bucher's wife, Rose, said in San Diego, Calif., that the photo resembles her husband "but it is impossible to be sure."

★ ★ ★

During the Security Council debate on the Pueblo incident at the United Nations Friday, Soviet Ambassador Platon D. Morozov used statements attributed to Bucher as evidence that the Pueblo was trespassing in North Korean waters. U.S. Ambassador Arthur J. Goldberg asserted that the statements were "coerced and fabricated."

In their broadcast Friday the North Koreans indicated that confessions similar to the one attributed to Bucher have been obtained from other members of the Pueblo's 83-man crew.

'ASKED FOR HELP'

This broadcast also replied to the question of why no U.S. fighter planes in the area came to assist the Pueblo. 'In fact," Bucher was quoted as saying, "we asked for help from the military bases in South Korea and Japan but could not get it since we had intruded so deep into the coastal waters of the Democratic People's Republic of Korea."

Pravda Charges U.S. Called U.N. as 'Piety Screen'

MOSCOW (AP) — Pravda charged today that the United States called a meeting of the U.N. Security Council to attempt to cover the Pueblo incident with a "screen of piety."

"But even the men in Washington do not believe they will successfully delude the members of the Security Council," wrote Boris Strelnikov, commentator on U.S. affairs for the Soviet Communist party newspaper.

★ ★ ★

He charged the USS Pueblo intentionally intruded into North Korea's territorial waters in the hope of raising a wave of "chauvinism and superpatriotism" and thereby "stifling by the roar of war drums the voices of protest in the United States against the Vietnam war."

Strelnikov said Americans who have mentioned a possible nuclear response to the North Korean crisis have "lost their sense of reality and consider themselves supermen."

Pravda devoted a large portion of its foreign news section to the Pueblo incident, concentrating on statements from various capitals supporting the North Korean-Soviet stand.

SCENE AT U.N. — This was the scene yesterday afternoon in the United Nations Security Council as it began consideration of the North Korean crisis. The 15-nation council, summoned at the request of U.S. Ambassador Arthur J. Goldberg, is discussing North Korea's seizure of the U.S. communications ship Pueblo.

LBJ Statement on Korea Crisis

WASHINGTON (AP) — Following is the text of President Johnson's statement to the nation Friday on the Korean crisis:

My fellow Americans:

Over the past 15 months the North Koreans have pursued a stepped-up campaign of violence against South Korean and American troops in the area of the demilitarized zone.

★ ★ ★

Armed raider teams in very large numbers have been sent into South Korea to engage in sabotage and assassination.

On Jan. 19, a 31-man team of North Korean raiders invaded Seoul with the object of murdering President of the Republic of Korea.

SOLDIERS KILLED

In many of these aggressive actions, Korean and American soldiers have been killed and wounded.

The North Koreans are apparently attempting to intimidate the South Koreans and are trying to interrupt the growing spirit of confidence and progress in the Republic of Korea. These attacks may also be an attempt by the Communists to divert South Korean and United States military resources which together are now successfully resisting aggression in Vietnam.

This week the North Koreans committed yet another wanton and aggressive act by seizing an American ship and its crew in international waters. Clearly, this cannot be accepted.

We are doing two things: First, we are very shortly today taking the question before the Security Council of the United Nations. The best result would be for the whole world community to persuade North Korea to return our ship and our men, and to stop the dangerous course of aggression against South Korea.

OTHER EFFORTS

We have been making other diplomatic efforts as well. We shall continue to use every means available to find a prompt and a peaceful solution to the problem.

Second, we have taken and we are taking certain precautionary measures to make sure that our military forces are prepared for any contingency that might arise in this area.

★ ★ ★

These actions do not involve in any way a reduction of our forces in Vietnam.

I hope that the North Koreans will recognize the gravity of the situation which they have created. I am confident that the American people will exhibit in this crisis—as they have in other crises—determination and unity.

Thank you very much.

Complete Story of Crisis Asked

WASHINGTON (AP) — Religious and other groups, saying there are signs of excessive military reaction over the Pueblo incident, have told President Johnson and Congress complete information on circumstances of the incident should be made public.

The signers of a telegram sent to Johnson Friday also urged restraint and acceptance of international mediation in the situation growing out of the Pueblo's seizure by North Korea.

★ ★ ★

In a separate wire to congressional leaders, the group said:

"The call-up of the Reserves and some congressional statements referring ominously to the use of nuclear weapons are indicative of a dangerous trend toward excessive reaction in military terms."

Now...a minute a day takes, and keeps, those bulges away!

"INSTANT EXERCISE" WORKS!

Trim down your waist, hips, thighs and arms in a few days.
Turn ugly fat into firm, healthy muscle. Look pounds lighter.
A revolutionary short-cut that research proves out!

Down comes the waistline! In come the hips! Trim go the thighs! Away goes the flab! All in a minute a day with a remarkable set of exercises that's sweeping the country. And no diets!

It's the same basic approach to exercise the astronauts use. Just one can help you shape up better than 24 push-ups a day. A mere 6 seconds daily of this muscle magic can slim down a soft, flabby middle in a week or two. Even strength can be doubled with miraculous speed. And all without moving a muscle, without "working out" more than 1 minute a day!

Doctors, nurses, athletes, insurance firms, citizens everywhere are turning to these amazingly simple exercises developed by Alabama Doctor of Education, fitness expert and former coach, Donald J. Salls. The Navy and Marines have adopted this type of exercise, too. And now even the astronauts!

Why? Simply because isometric exercises, better known to so many as Dr. Salls' "Static Exercises," really do work. In fact, they're so effective they can slim you down without any special diet. And it's been proved . . . proved over and over again . . . in research studies, under independent professional supervision, using subjects just like you.

In one group of 253 girls, over 96% improved in physical fitness and over 50% had marked figure improvements . . . all in just 3 weeks, using Dr. Salls' motionless exercises for 1 minute per day. And no diets!

Over 92% of another group had waistline improvements, decreases of up to 3¼ inches . . . thighs, 84% . . . hips, over 90%. Again in 3 weeks or less! And no diets!

80% of still another group, measured periodically under the watchful eye of a physician, showed marked measurement improvements in less than 30 days. And no diets!

A top university had one test group use isometrics for 1 minute daily while another worked on gym equipment for 45 minutes every day. When compared for fitness the isometric exercisers scored highest in every test!

Here at last is one type of exercise that appeals to car-riding, diet-hating Americans . . . "weekend athletes," people who dislike exercise or don't have time. Here is the answer for the desk-bound man who wants to look trimmer, more muscular . . . for the modern woman who knows so well how important a slimmer, more attractive figure can be . . . for the oldster who seeks to improve fitness, figure and life-span by restoring long-neglected muscles without prolonged exercise.

Each of Dr. Salls' wonderfully simple exercises takes 6 seconds. All total just 1 minute per day. Instructions are graded for housewives, executives, teenagers and senior citizens, for superior fitness and prowess in such sports as bowling, swimming, golf. And you can do most of these exercises almost anywhere . . . at work, waiting for a bus, while shaving. No gadgets are required. There's no extreme exertion, not even heavy breathing!

The revolutionary principle Dr. Salls applies has the impressive support of highly respected educational institutions, leading physiologists, Olympic stars, fashion models, police groups, top pro and college athletes. And Time, Life, Reader's Digest, TV, newspapers, scientific journals have called attention to the exciting concept.

Followers of Dr. Salls' muscle magic report surprising results. Thousands have discovered that the stronger, tighter muscles resulting from his minute-a-day plan can lead quickly to a slimmer figure . . . even without weight reduction!

Mrs. P. McMorrow of White Plains writes, "I reduced my waist 2 inches, my hips 2 inches—all in 2 weeks, a minute a day, with your exercises."

John B. Villano, Denver, reports: "Excellent results! My waist has gone from 36½ to 32—down 4½ inches. My chest increased from 41 to 43 inches."

Mrs. E. V. Smith of Madison writes that with Dr. Salls' exercises she's trimmed down her waist from 33½ to 28½, her hips from 43½ to 39½.

Carlyle Hall, Springfield, 91 years old and "still very active," says: "Your exercises are worth a hundred times their cost. They certainly work for me."

So many users of Dr. Salls' exercises also exclaim: "How much better . . . more alive, more alert, more youthful . . . I feel!" But specifically, he offers:

stronger, firmer muscles • slimmer waist, hips, thighs, calves, upper arms and neck • better muscular coordination • stronger back • improved posture . . . all without diets.

Results are controlled primarily by the individual's own desires. If a man wants weight-lifter's strength, he can simply concentrate more often on certain of Dr. Salls' exercises. If a housewife seeks a more shapely midriff, a few weeks with his 6-second workouts is indicated.

Yes, now you can have a stronger, slimmer, healthier body without the boredom of old-fashioned exercises or the strain of a diet! Dr. Salls will send a complete set of his instructions, in a large, fully illustrated folder, to interested readers who use the coupon on this page. Remember! These exercises are different: just 6 seconds each! So why starve yourself slimmer?

"IT'S SO EASY to control your figure with Dr. Salls' Statics," says Loree Thomas, New York TV personality, model and mother of 2 teen-agers. She slimmed down her waist, hips, thighs and arms in 15 days with these almost effortless exercises. "And no diet to fuss with!"

THE MOST POPULAR EXERCISES EVER DEVELOPED IN THE U.S.
. . . because they work so amazingly well! Fewer than 1% of the hundreds of thousands who have purchased a set of Dr. Salls' "Instants" under his personal guarantee have ever asked for their money back. Doctors order them by the dozen!

Area Minister Replies to Recent Criticism

Many people are concerned as to why pastors are involved in our cultural life and have not isolated themselves to only "spiritual" things. The task of pastors is to proclaim God's word to man in such a way that it redeems his whole life — economic, physic, international, spiritual, racial, etc.

★ ★ ★

It is true many pastors are not property owners. This is due to the antiquated practice of paying pastors in "kind." However, I am buying our home, pay taxes, and I am a voting citizen. Yet, I am compelled by conscience to say, "neighbor, remember that you are a sinner loved by God when you did not love. As you are loved by God, can you do less?"

Two View Ministers' Stand on Open Housing

When the clergymen went on record about how they stand on open housing, they didn't feel it was necessary to poke fun or ridicule certain individuals who disagreed with them. I have never met a pious clergyman — just a human person vainly trying to help this decaying society to meet the challenges and problems of our materialistic, bigoted and self-centered lives.

D. HOPKINS

I, too, would like to respond to our naive and poorly-informed ministers. Have they read the complete Open Housing Bill so as to understand that it is not just "fair housing" that we oppose? To the ones who preach "peace" at any price, I suggest they mark their calendars for Sunday afternoon, February 18. A Lutheran minister who witnessed communism in one of their prisons for 14 years will speak to people in this area.

Has Suggestion to Save Taxpayers' Money

A recent Pontiac Press article stated that it cost the taxpayers $718,000 in 1967 for picking up litter. Why not take the men in our jails and one armed guard and let them do all the picking up of litter? Let's make our tax dollars stretch. Why haven't our State legistlators thought of this?

'Appreciate Return of Lost Credit Card'

I appreciate the thoughtfulness of the person who found and returned my J. L. Hudson credit card the first night of The Pontiac Press Cooking School at Pontiac Central High School. It's nice to know there are still people who can take the time to do a good deed. I enjoyed the cooking school and thought it had that "little something more" this year.

'Illegal Parking Hinders Emergency Traffic'

If people think they have a problem with illegal parking, etc., at Pontiac General Hospital, they should try to drive on Mill where it becomes a one-way street going south by Pontiac Osteopathic Hospital. Regardless of "no parking" signs, at 5 p.m. both sides of the street are jammed with cars picking up Telephone Company employes. No one seems to care that this street is the only means to get to the emergency entrance to the hospital.

'Write Congressmen to Stop Added Surtax'

This year our property tax increased by 40 per cent, Social Security increased, the State enacted a 2.6 per cent income tax, the City has an income tax, and now they want a 10 per cent surtax on income tax. Our pockets are getting empty. I have written to my Congressman and suggest you do the same to get this additional surtax stopped.

'Transplants Raise Interesting Questions'

In view of the recent heart transplants and statements made by the Russians relative to head and brain transplants, one of the largest news items was the fact that a Negro's heart was placed inside a white man's chest cavity. If a colored person is given the brain of a white person, which is he? The brain controls the body and this person would have a white brain and a colored body.

One of the strongest arguments against integration would be the end results of a high rate of interracial marriages. Possibly we have another solution. We'd have to either learn to live with and among ourselves in a peaceful coexistence or we'd annihilate ourselves, thereby ridding ourselves of at least one vast problem.

Reader Gives Opinion on Voting for Wallace

A vote for Wallace is a vote of pure racism, the same type of racism that put Hitler into office. The problem with racism is that it is bred from ignorance and continues to breed ignorance—especially with men like Wallace and his followers. Racists who question the demonstrations against the U.S. need look no further than their own mirrors for the cause.

Letter Discusses Income and Property Taxes

I have read that the City has deferred a reduction of property taxes I think they never intended to reduce them and only used this as an incentive to get the gullible property owners to want an income tax. I also noticed that they didn't defer collection of our income tax. I say it's illegal because any taxation without representation is illegal and we who live outside the city didn't have anything to say about it.

'Less Service Received for More Taxes'

The City used to pick up the garbage from behind houses but now the resident must carry it to the curb to save the City money. The City used to clean the streets after every snowfall and at that time taxes were much lower. Postage costs went up and now they have closed the post office at Walton and Baldwin. Looks like the more money the City and Federal governments get, the less service the people get.

Book Views 'Real' Romney

"Will the real George Romney please stand up?"

This question, asked during a campaign by a former political opponent, is one many others will be asking as the presidential candidate stumps for nationwide support.

"Romney," by D. Duane Angel, may help bring that image into focus.

This biography of a man, who seems to inspire equally strong negative and positive reactions, deals not only with his industrial, civic and political experience (and inexperience) but personal life as well.

★ ★ ★

The author makes no attempt to glorify nor debunk the subject, but tries to present a fair evaluation of his attributes and shortcomings.

AREA OF CONCERN

Often-discussed areas of concern to many—his foreign birth, his religion, his 'foot-in-mouth" blunders — are examined in light of Romney's presidential poten'ial.

★ ★ ★

Even Michigan readers familiar with their governor's background should find new information and interesting reading in Mr. Angel's analysis of Romney's setbacks and successes along the road he now hopes will lead to the White House.

Restaurant Sold in Grand Rapids

GRAND RAPIDS (AP) — The Tony Lakes Restaurant in downtown Grand Rapids has been sold to a group headed by Donald Reynolds, manager of the St. Clair Inn at St. Clair. The sale hinges on approval by the Michigan State Liquor Control Commission of license transfer. Purchase price was not revealed.

★ ★ ★

Anthony Lakes and Andrew Jaffas opened the restaurant in 1963 after purchasing it from restaurateur Win Schuler. They plan to continue operating the restaurant.

Obesity Specialist Grosses $1 Million, Senate Unit Told

WASHINGTON (AP) — A doctor specializing in treatment of overweight people has told a Senate committee he grossed about $1 million in one year. Another physician testified he made about $220,000 a year in the same specialty.

The testimony was given Friday at a hearing held by a Senate antitrust committee probing the diet pill industry.

Dr. Louis L. Rubel of Decatur, Ill., said he and his seven assistants handled 85,000 patient visits in 1966. Rubel said his income tax was more than $200,000.

He said his income included $1,200 in commissions from a diet-pill firm.

OFFICE VISITS

Dr. Orville J. Davis of San Diego, Calif., told the senators he handled 11,727 office visits last year and estimated his gross income at $220,000, with net income after taxes of $29,000.

Davis testified he charged $40 for the patient's initial visit, including $25 for laboratory tests, and $15 for subsequent visits, spending about 5 to 10 minutes with each patient.

★ ★ ★

Dr. C. Frank Chambers of Northport, N.Y., urged federal action to curb diet-pill makers in their relationships with doctors using their products. He also called for legislation to control "such commercialization" as he said had been outlined in the other testimony.

Chambers testified he attended a symposium on obesity in New York two years ago sponsored by the Lanpar Co. of Dallas, Tex., a diet-pill manufacturer.

PRACTICES

Chambers said he was appalled when it was stated at the making at least $100,000 a year from the Lanpar diet program.

Rubel testified Lanpar pays him a commission on sales to doctors. Davis said the same company pays him $500 and expenses for lectures he gives at Lanpar-sponsored symposiums.

Changes Are Made in Engineering Dept.

Three organizational changes within Pontiac Motor Division's engineering department have been announced by Stephen P. Malone, chief engineer.

Thomas P. Schreitmueller of 2739 Berry, Bloomfield Township, was appointed assistant administrative engineer.

James A. Duddles of 5347 M59, Waterford Township, was named general supervisor of systems and procedures.

Named supervisor of product information was Benjamin W. Harrison of Southfield.

★ ★ ★

All appointments are effective immediately.

NOTRE DAME

Schrietmueller was hired at Pontiac Motor Division in 1955 following his graduation from the University of Notre Dame. He began work in the standards department.

He transferred to the engineering department as a senior project engineer in 1963. In 1966, he was named supervisor of product engineering.

Harrison was hired by the firm as a senior project engineer in 1965. He had begun his career with General Motors in 1957 with the Hydra-Matic Division.

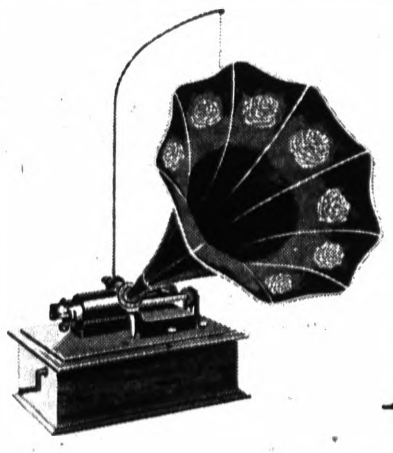

★ ★ ★

In 1960, he was transferred to General Motors' central office as a senior analyst. Harrison received his master's degree from the University of Michigan in 1961.

PROJECT ENGINEER

Duddles joined the division in 1959 as a project engineer and was named senior project engineer in 1962.

In 1965, he was appointed supervisor in the special problems department of product engineering. He is a 1958 graduate of General Motors Institute.

Three Hundred Bucks Ain't Hay--- If It Were, You Would Be Well Fed

By ABIGAIL VAN BUREN

DEAR ABBY: I met this good looking girl who waits on tables in a place near where I work. She came on like a real sweet country kid who worked hard for a living and wouldn't let any guy get next to her, which I liked.

ABBY

Well, I took her home from work a couple of times, and all she'd give me was a goodnight peck on the cheek at the door.

I asked her what she wanted for Christmas, and she gave me a list of clothes to buy and where to buy them. I went around and bought all the things she wanted, which set me back $300.

After I gave her these gifts, I asked her how about driving somewhere with me for the week-end. She said nothing doing—she wasn't that kind of a girl.

She already wore the clothes I gave her, so what do I do now? Three hundred bucks ain't hay. CHUCK

DEAR CHUCK: Tough luck. If it were, you'd have enough to eat all winter.

★ ★ ★

DEAR ABBY: I am a young clergyman who is new in this community. Someone told me that about four or five years ago you had a very good answer in your column for a person who wrote in to complain because every time he turned around, the church was asking for money. He wanted to know what the church did with all their money. I would appreciate it if you could locate that item and print it again. Thank you kindly. DES MOINES CLERGYMAN

DEAR CLERGYMAN: It was closer to EIGHT years ago, but I have located the letter, and here it is:

"DEAR ABBY: We are not overly religious people, but we like to go to church once in a while. It seems to me that every time we turn around in church we are getting hit for money. I thought religion was free. I realize that churches have to have some money but I think it is getting to be a racket. Just what do churches do with all their money? CURIOUS

DEAR CURIOUS: Even priests, ministers, and rabbis must eat. And since they work full time at their tasks, the churches must support them. Staff, professional choir members, and musicians must also be paid. Buildings must be maintained, heated, lighted, and beautified. (And, of course, first they must be built!)

Custodial staff must eat and feed their families. Most churches engage in philanthropic work (aid to needy, missions, and education); hence, they have their financial obligations. Even orchids, contrary to folklore, do not live on air. Churches can't live on air, either.

Religion, like water, may be free, but when they pipe it to you, you've got to help pay for the piping. And the piper."

★ ★ ★

DEAR ABBY: I would like your opinion of something new in our town. It's called the "COME AND GO SHOWER."

Here is how it works. The guests come, drop off their gifts, and then they go . They can't stay because so many people are invited there is no room for them to sit down anywhere. There is a punch bowl and cookies around and everyone helps themselves.

I don't see much in this kind of shower if you can't stay and watch the guest of honor unwrap her gifts. The last one I went to netted 103 gifts from neighbors, friends, and relatives. It lasted 10 hours, and people were coming and going with gifts all day long, I'm told. What is your opinion of showers like this?

"CAME AND WENT" IN HARRISBURG

DEAR CAME AND WENT: It's my opinion that anyone who would COME to a shower such as the one you describe, should GO and have her head examined.

Showers are getting to be an out-and-out racket, but the "COME-AND-GO" shower beats them all.

Business Wants Returnees

Age Needn't Stop You

By EDITH LEDERER
Associated Press Writer

NEW YORK (AP) — "I really feel women should go back to business," said a 74-year-old grandmother at a symposium for mature women seeking to get back in the job market. "I say get up out of your rocking chair and go, go!"

But how does a woman who has "dropped out" of the job market, or a career field for 15 or 20 or 30 years while rearing a family go about getting started again?

★ ★ ★

At the second annual "Business Needs You" symposium this week, more than 900 mature women showed up looking for the answers to that question.

WANT MATURITY

Representatives of 22 companies were on hand to assure the women that their firms were not completely committed to the younger generation.

★ ★ ★

After a fashion show for the middle-aged career woman, a before-and-after hair and make-up transformation of a prospective job-seeker from the audience, four speeches and a panel discussion, some were convinced.

Others were not.

'I don't believe this business, 'Oh they love you at 60'." said Mrs. Antonio M. Romero of Manhattan. "I'm a bit skeptical about that one."

Mrs. Annette Raphael, 38, of Brooklyn, said she wanted more information. "I want to know where to brush up. How can I walk into an office and tell them the last time I worked was 17 years ago?"

★ ★ ★

Mrs. Emilia Volz of Newark, N.J., was more optimistic about the conference: "It gives you a little more confidence—that's the thing."

Keynote speaker at the symposium, sponsored by Stern Brothers, a New York department store, and the temporary employment division of AGS Services Corp., was Dorothy Pendergast, regional director of the U.S. Department of Labor, Women's Bureau.

MORE OPENINGS

"The doors of virtually every occupation have been opened to women and ever increasing numbers of mature women are entering paid employment," said Miss Pendergast.

★ ★ ★

Turning to the emotional side of returning to work, Dr. Rose Franzblau, psychologist and columnist, said the middle-aged job hunter "goes through the same anxiety of entering into something new, of being accepted and appreciated" as a youngster entering school.

To make the adjustment easier, she said it was "terribly important" for the woman to discuss these problems with her husband and children.

Couple Gives Own Reception Following Vows

By ELIZABETH L. POST

Dear Mrs. Post: My fiance and I have been going together for a year and a half. My mother strongly objects to our getting married—both for religious reasons (he is divorced) and because he is 42 while I am 22. Since she will have nothing to do with the wedding, we have decided to be married at a very small private ceremony, but we would like to invite about 40 people to a reception immediately afterwards.

Would this be proper, and how should we go about it?—Laura

★ ★ ★

Dear Laura: Since your family is in a position where they are either unwilling or unable to give a wedding party for you, there is no reason why you should not do so yourselves. Under the circumstances, I would either telephone the invitations or write them informally on your own note paper.

They could be worded more or less like this:

Dear Mrs. Post: A girl in our office is going to marry in about a month. We have not received an invitation to the wedding, but several of us would like to go to the church to see her married.

Some of the girls feel that a church is open to everyone and that it would be perfectly proper to go; others think it would be wrong to go without an invitation. What do you think?—Jenny

★ ★ ★

Dear Jenny: If she is having a large church wedding, there would be no impropriety in showing friendly interest by going to the church to see her married. If the ceremony is limited to family, then, of course, you should not go.

Paris Decrees the Total Look for Fashionable '68 Spring

PARIS (UPI and AP) — Paris has gone mad for the total look.

Everything from hat to gloves, shoes and stockings must match, complement or contrast according to plan.

★ ★ ★

Makeup has changed radically back to a bright look with red lipstick, rosy cheeks and lighter eye makeup.

Hairdos vary from long and curly at Dior to short and smooth at Patou, but the former seems more important at the moment to gain the maximum impact.

LONG CIGARETTE HOLDERS

Long, long cigarette holders are a real vogue. Even Courrege's models sported them with their long evening trouser suits.

★ ★ ★

So are lots of hippie-type chains around the neckline, and bangles on the wrist, but they are of little importance compared to belts in this waist-emphasizing season.

The elasticized cinch belt and the wide, wide crushed cummerbund are important.

★ ★ ★

So are fabric or leather belts with round mother-of-pearl buckles.

Nina Ricci proposes a belt of black beads fastened with a white gardenia.

Pierre Cardin puts a black patent belt right around the bustline on lowcut daytime and evening dresses.

ORIGINAL TWIN BELT

The most original so far was a twin belt effect at Castillo. One slid more or less up on one side, down on the other, and the other a symetrically back to front.

They accented the hips as much as the waist and were used on both daytime and evening wear.

★ ★ ★

Stockings are generally sheer and either white or colored to match the costume.

Castillo even prints or beads his to match the dresses, very eye-catching when big brown polka dots are printed on white. Lanvin does the trick with yellow on black.

★ ★ ★

Dior comes up with shimmering evening stockings in silvery white or pastels.

MINIS

Dior hiked skirts four to five inches above the knees for most daytime wear as the couture house displayed spring and summer models with expert tailoring and a heavy accent on jewels and other glittering decor.

★ ★ ★

Even some evening dresses displayed plenty of above-the-knee leg. These were hostel gowns, with a cross-over surplice line which dipped to the floor in back but ran up some times as high as 10 inches above the knee in front.

★ ★ ★

Dior also concentrated on the overblouse, showing it in various lengths from Russian blouse length to tunic length.

Dior's designer, Marc Bohan, pays the greatest attention to his little daytime suits. They all have cardigan or blazer jackets, worn open.

★ ★ ★

The cardigans have rounded corners; the blazers are cut straight, and every edge on the jacket, skirt or sheath is either cuffed, edged or bound in a two-inch band of white.

Search Begins for State Mom

The search for the 1968 Michigan Mother has begun!

Do you know someone in your community

- Who is a successful mother and homemaker—as evidenced by the character and achievements of her children?
- Who is an active member of a religious body?
- Who embodies traits such as courage, cheerfulness, patience, affection, understanding and homemaking ability?
- Who has a sense of responsibility in civic affairs and has been active in public service to society?
- Who has no children younger than 15 years of age?
- Who is not a divorcee?
- Who would be fully qualified to represent the mothers of Michigan in all responsibilities attached to her role as Michigan Mother?

If you know someone who fits this description, then you should write at once to—The Michigan Mothers Committee, 406 Fifth Street, Traverse City, Michigan, 49684, requesting a nomination blank for the Michigan Mother of 1968.

Whole Week Goes to the Girls at OU for Special Events

Girls will be in the spotlight at Oakland University next week as the Association of Women Students pay homage "to the many facets of womankind."

Eight events are scheduled for observance of "Women's Week," which is a new campus activitity. A spokesman for the association said the program will attempt to point up the many charms of women, including brains, artistic talent, beauty and social graces and simple frivolity.

EVENTS

Highlights of the week will be a style show, a panel on "What Men Look for in Women," a "college bowl" type quiz, a concert and ice-skating party.

On Monday, art works of OU coeds will be on display all day in the Oakland Center Lounge and a film on childbirth, "Naissance," will be shown.

★ ★ ★

On Tuesday, a group of professional beauticians, hair stylists and fashion people will give free beauty tips from 2 to 4 p.m. in the Oakland Center, and Federal's Department Stores will present a style show that night in the Vandenberg Hall cafeteria.

Wednesday's main event will be the discussion on "What Men Look for in Women" at 3 p.m. in the Oakland Center. The panelists will include Nick Eddy, Detroit Lion fullback and former grid star at the University of Notre Dame.

The Association of Women Students also will sponsor the weekly Wednesday night dance in the Oakland Center grill as part of Women's Week.

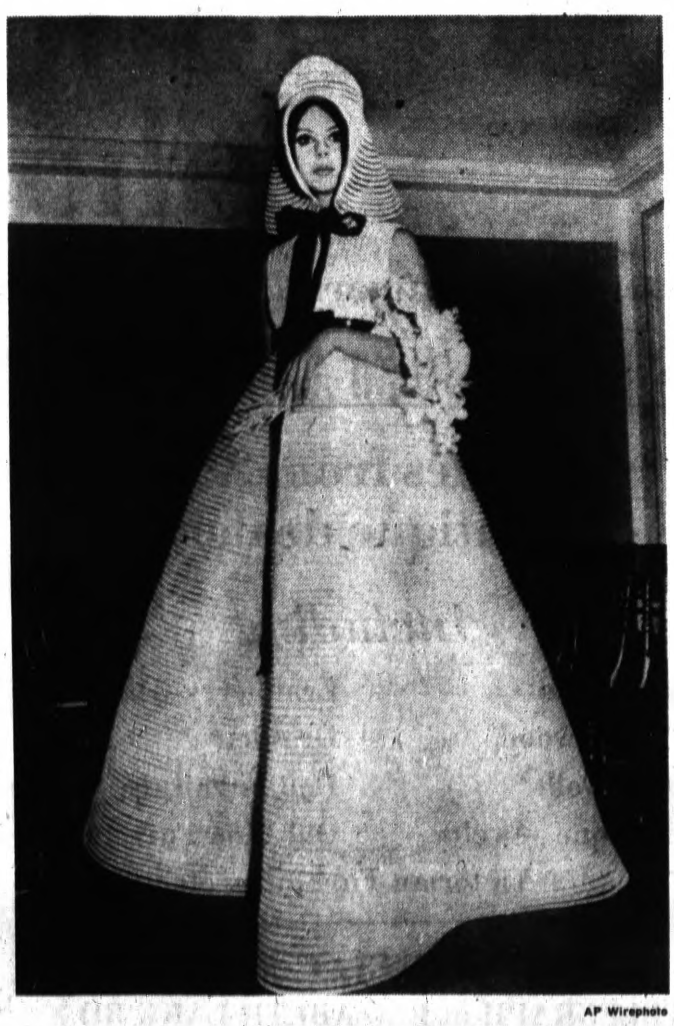

★ ★ ★

On Thursday, four-girl teams will represent each of the four coed dormitories in a college bowl quiz in Vandenberg lounge.

Closing out the week's activities on Friday will be a concert at 8 p.m. in the Vandenberg cafeteria by folk singer Josh White, Jr., followed by a bonfire and ice skating party on Beer Lake in front of Vandenberg Hall.

Josh White Jr., who has followed his father's footsteps into the limelight of popularity as a folk singer, will perform in concert at 8 p.m. Friday at Oakland University. The concert in Vandenberg cafeteria is being sponsored as part of "Women's Week" by the Off Campus, a student-run nonprofit coffee house. Tickets may be purchased at the door. White, who has staged more than 500 college concerts across the nation in addition to nightclub and concert hall appearances, offers a blend of folk, pop and country western songs.

Instead, the would-be guests are asked to send a contribution to the party for use in the upcoming election campaign and then stay home to enjoy an evening "of relaxation with optional dress."

GOP State Chairman Elly Peterson describes it as "a novel idea of fund-raising designed to eliminate the expense of staging dinners and other events, thereby chaneling all money raised directly into our party treasury for use in the 1968 campaign year."

Play Goes on Twice

There are two remaining performances of "Any Wednesday" produced by the Avon Players. Curtain time in the playhouse on Washington Road are 8:30 tonight, and 7:30 p.m. Sunday. Tickets are available at the door.

Maple Leaf Club Puts Mrs. Rowe at Top

Mrs. Fred V. Rowe was named president of the Maple Leaf Club at Friday's luncheon meeting in the Old Mill Tavern, Waterford. Mrs. A. L. Hoover is the new secretary-treasurer.

★ ★ ★

Mrs. Harold McDonnell and Mrs. E. E. Harris received their 15-year pins.

Hostesses for the day were Mesdames Orrin Huntoon Jr., Harry McGrath and Alfred Meyers.

Special to The Press

SAGINAW — Pontiac Central's bid for an upset faded in the second half here last night as the Chiefs dropped a 68-61 decision to the Trojans of Saginaw.

The loss left the Chiefs (2-5) mired in seventh place in the Saginaw Valley Conference standings, while the victory kept the Trojans in the thick of the battle for the championship.

Saginaw, now 5-1 in league play, shares second place with Flint Central, both a half game back of Midland (6-1).

In other SVC contests, Midland defeated Bay City Central, 66-61, Flint Southwestern won its first game of the season by downing Bay City Handy, 75-68, and Flint Central squeezed out a 60-57 win over Flint Northern. In a nonconference encounter, Saginaw Arthur Hill turned back Flint Northwestern, 77-60.

★ ★ ★

The potent one-two punch of center-forward Alton Wilson and guard Frank Wilson kept Pontiac Central in the game for a half, but Saginaw exploded in the third suarter to put the game away.

QUICK BASKETS

The Trojans were nursing a 37-36 lead as the third period opened, and then baskets by Ray Richardson, George Forster, Ed Roberson and Von Nickleberry shot Saginaw into a nine-point lead and the Chiefs spent the rest of the evening in an unsuccessful effort to catch up.

★ ★ ★

Saginaw outscored the Chiefs in that third frame, 25-14, as the team hit on 11 of 19 shots.

And although Saginaw went cold in the fourth period—scoring only six points—the Chiefs couldn't take advantage of the opportunity.

Central closed the gap to four points with 1:21 left in the game on a bucket by Wilson, but Forster made a couple of free throws with 37 seconds left to make it 66-60 and Roberson added a pair from the line with 8 seconds remaining.

★ ★ ★

Wilson turned in his finest performance of the season with 29 points and Russell netted 18.

HOT FIRST HALF

The high-jumping Wilson, scoring on jumpers and drives, collected 21 of his points in the first half and Russell checked in with 11 in the first half.

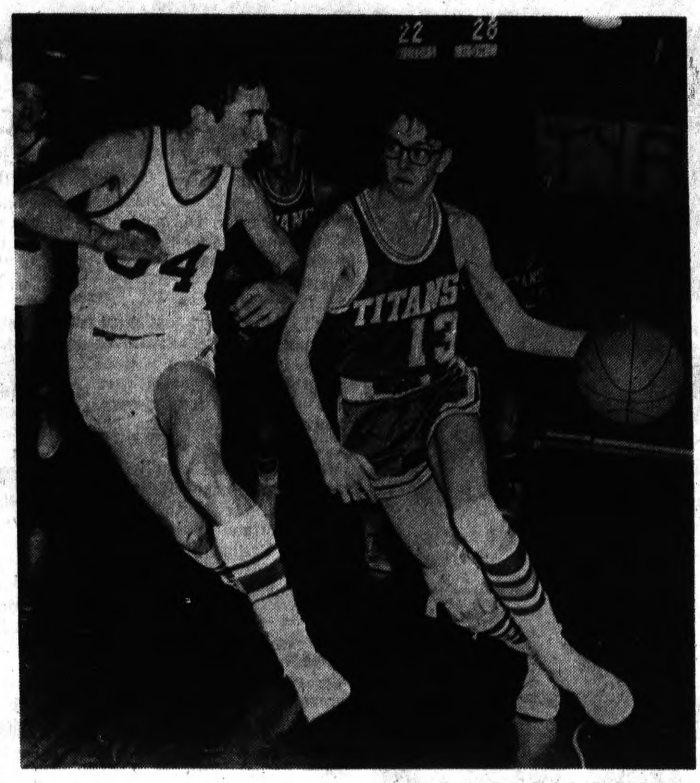

For the evening, Saginaw hit on 30 of 72 shots for 42 per cent, while Pontiac made 24 of 68 for 35 per cent.

In the rebounding department, Saginaw gained a 33-32 edge.

DRIVING IN — Butch Finnegan (13) of Pontiac Catholic leads for the basket with Jerry Yezbick of Waterford Our Lady of Lakes in close pursuit on this first-half last night in their game on the WOLL court. Finnegan scored on this play and wound up with 18 points for the night but WOLL won the game, 60-46.

Huskies Play Ann Arbor Tonight; Vikings Tumble

By JERE CRAIG

Pontiac Northern and Waterford Township showed their "killer" instincts Friday night and easily registered Inter-Lakes League victories.

The Huskies walloped Livonia Stevenson, 89-57, and attempted to add victory No. 7 tonight in a home game with weak Ann Arbor. PNH is 4-0 in the league race.

Waterford ran away from Walled Lake in the second half for a 75-54 conquest that left the Skippers alone in third place.

WTHS, after losing its opening two I-L starts, is beginning to show the punch expected of it in the preseason outlook by the I-L coaches.

The Skippers won the game (their fourth in nine tries over-all) with another strong performance at the foulline. They hit 31 of 40 shots as the Walled Lake quintet stumbled into personal foul trouble.

The Vikings (2-6 and winless in the league) came within one field goal of the winners while taking more shots, and nearly battled their taller hosts evenly on the backboards.

But the visitors also had twice as many personal fouls, 26-13, and more turnovers. A 31-12 margin at the charity stripe accounted for the final lopsided score.

★ ★ ★

One Skipper in particular stood out at the foul line. Bruce Carlson, a junior forward, sank 13 straight foul shots in the last half and 15 of 16 for the night. He led all scorers with 21 points.

He had 11 in the third period when the WTHS lead grew from 28-23 at the half to 53-35. A string of 12 straight points that carried into the last period settled the issue.

Leading 41-34, Waterford went on a spree that upped the advantage to 57-35 and settled the issue. Carson had 17 points in the final half while running mate John Spanburg added five field goals and finished with 19 tallies.

★ ★ ★

Walled Lake came out at the start of the game and matched the Skippers bucket for bucket to hold brief leads. The last one was 12-10 with 1½ minutes to go in the opening period.

OFF NIGHT

But All-County candidate Greg Fogle was having an off night and his uninspiring play — only his rebounding was up to his usual standout standards — kept the Vikings' offense from developing sustained momentum.

★ ★ ★

The 6-1 sharpshooter finished with 20 points, four above his season average, but 11 of them came in the last quarter after the decision was out of reach.

Northern registered its third win in a row without much opposition from Stevenson who has now lost four straight.

The Huskies produced a 33-21 advantage from the floor as nine players had field goals. The Spartans had 10 hit the basket but none had more than three, while six of the winners had at least four buckets.

Slender Bob Traylor led the way again with 16 points. Little Eddie Williams posted a varsity high of 14. PNH outscored the Spartans in every quarter in registering its second highest point total of the campaign.

★ ★ ★

The game was played at Northern as the result of a schedule change at the request of Livonia Stevenson. The PNH reserves won their eight game without a loss, 75-38.

Pontiac Catholic Halted by WOLL; St. James Wins

By FLETCHER SPEARS

With their fourth basketball championship in a row assured, the Eaglets of Orchard Lake St. Mary now start tuning for what shapes up as their two toughest contests of the season.

OLSM rolled past Royal Oak St. Mary last night, 60-38, running their Northwest Parochial League record to 10-0 and clinching at least a tie for the title.

The Eaglets can take the title outright by winning one of their last two games. They visit St. Francis de Sales next week and then close the campaign at home against a fast-improving Waterford Our Lady of Lakes quintet.

"They're coming along now," said coach Mike Boyd of Waterford Our Lady after the Lakers had disposed of Pontiac Catholic, 60-46.

★ ★ ★

It's a sure thing the Lakers will be eying the upcoming game with the Eaglets, since they suffered a slim 62-58 setback at the hands of OLSM earlier in the season.

In another game last night, Ferndale St. James routed Farmington Our Lady of Sorrows, 84-52.

IMPROVES RECORD

Waterford's triumph hiked the team's league record to 6-4, putting the crew in third place behind OLSM and St. Francis de Sales. Over-all, the Lakers own a 7-4 mark.

★ ★ ★

The loss dropped the Pontiac Catholic Titans to 4-6, leaving them in fourth place along with Farmington Our Lady.

Former Spartan Mentor Dead

EAST LANSING (AP)— John Kobs, 69, Michigan State baseball coach for 39 years, died Friday at his home at East Lansing of a heart attack.

Kobs was known as a prime developer of pro baseball material although he made a crusade of fighting the professional signing of players before they graduated from college.

Among players who trained under Kobs before going on to the major leagues were pitchers Robin Roberts, Dick Radatz, Ron Perranoski and Ed Hobaugh and outfielder Al Ludlow.

Former MSU players for Kobs who became college head baseball coaches included Ed Sobczak at San Jose State, and Wendy Lawrence at Air Force.

Kobs coached baseball for the Spartans from 1925 until 1963. He only had four losing seasons and his record was 557 wins and 364 losses.

HOCKEY MENTOR

In his early years at MSU, Kobs also was hockey and basketball coach and an assistant football coach. He gained MSU its only Big Ten baseball title, in 1954.

Kobs was one of the founders of the American Association of Baseball Coaches and became one of its first presidents in 1945.

At the time of his death he was secretary of the U.S. Olympic Baseball Games Committee, of the NCAA Baseball Rules Committee and of the NCAA Summer Baseball Committee.

Southfield Pads League Lead With Assist From Ferndale

With a boost by Ferndale, Southfield's Blue Jays are a little closer to the basketball championship today in the Southeastern Michigan Association.

While Southfield was polishing off Hazel Park, 64-55, which ran the Jays' league mark to 6-0, Ferndale (4-2) moved into a tie with Royal Oak Kimball (4-2) for the runner-up spot by downing the Knights, 60-47

Those results left Southfield with a two-game lead with four league contests remaining.

In the other game, Berkley handed Birmingham Seaholm its fourth loss in a row, 79-73.

★ ★ ★

Along with running their over-all record 12-1, the Blue Jays placed a tight defense on high-scoring junior Jim Merchel and held him to only 17 points. He went into the contest with an average of 24.0.

CONTROLS PLAY

Southfield gained a 33-26 lead at intermission, lost two points of that lead in the third frame, but came on strong to control play in the final period.

Dave Kontry led the Blue Jays with 21 points, while Bob Scheuer contributed 19 and Paul Hunt 14.

Helping Merchel with the scoring were Herb Lukey (13) and Al Petraich (12).

Berkley beat Seaholm at the free throw line.

The Bears tossed in 35 of 45 shots to go with 22 field goals while Seaholm managed 27 field goals but only 19 of 28 shots from the charity stripe.

Emmanuel Pressed to 56-35 Defeat

Emmanuel Christian has a pressing time last night and lost its 10th basketball game.

Lansing Christian used a full-court pressing defense to hold the winless Lancers scoreless in the second quarter and went on to post a 56-35 decision.

Emmanuel came back in the second half with a press of its own and held the upper hand, but couldn't overcome the 32-7 intermission deficit. The Lancers also had a problem at the free throw line, making only five of 28 attempts.

Red Wings Recalling Crozier to Replace Gardner in Goal

DETROIT (AP) — Roger Crozier, the off-and-on goalie of the Detroit Red Wings, will be installed as permanent netminder for the last place Wings, replacing George Gardner.

The Wings meet Philadelphia in Detroit this afternoon.

To make room for Crozier, manager-coach Sid Abel has assigned Gardner to the Wings' farm team at Fort Worth. Gardner appeared in 12 games with the Wings, posting an average goals-against record of 3.6.

Must Replace Dove

T-Hawks Play Battle Creek

Who will replace "Sonny" Dove in the Pontiac Tomahawks' starting lineup?

Coach Bob Duffy will likely decide between rookie rebound ace Jim Patterson and slender newcomer Joe Johnson, recently acquired from Lansing when the T-Hawks entertain Battle Creek at 5 p.m. Sunday on the Northern High School court.

The contest offers Pontiac a chance to gain ground in the Eastern Division of the North American Basketball League. The Braves are 2½ games ahead of the Tomahawks.

Duffy has settled on a regular nucleus of 6-3½ Ernie Thompson, 6-7 Ed Burton, 6-2 Paul Long plus himself (6-3), and may lean to the taller (6-7) Patterson to replace Dove (6-8) who was called up this week by the Detroit Pistons.

CHOICE

Johnson stands 6-4 but is quicker than Patterson. Duffy will have to choose between quickness on defense and muscle around the backboards.

Tomahawk officials are again offering a two-youngsters-free-for-every-paid-adult-admission ticket policy. Adult tickets are $2 each for general admission. Two bicycles will be given away.

In addition, members of the Pontiac Table Tennis Association will provide pre-game and halftime exhibitions.

The Battle Creek roster includes former Troy High School star 6-6 Bud Acton, one of the league's top rebounders, and 6-5 Art Crump of Idaho State who scored 59 points here earlier.

Members of the Big Brothers of Oakland Conuty will be the guests of the Tomahawks.

Deadlocks Continue in Both O-A, W-O Cage Leagues

Orion Edges Rochester; Romeo Routs Avondale

Lake Orion and Romeo continue to travel a collision course as they bid for the Oakland A League basketball championship.

In an earlier meeting between the two, Lake Orion prevailed, 59-55, on the Romeo floor. Although their next meeting is four games away, the pressure continues to build.

The two remain deadlocked for the O-A lead with victories last night, Romeo (7-1) taking the easy route while Orion (7-1) squeezed out a cliffhanger.

Not playing particularly well, just good enough to win, Orion turned back a visiting Rochester (4-4) squad, 47-44, while Romeo whipped Avondale (1-7), 72-54.

In other games, Troy (6-2) held onto third place in downing Madison (3-5), 63-58, and Clawson (1-7) won its first league game of the season by downing Utica (3-5), 57-50.

CLOSE DECISIONS

Orion and coach George Elias are getting used to close decisions. They've been involved in four this season and won three of them. The victories have come by margins of two, three and four points, while the loss was a three-pointer to Troy.

This one almost got away from the Dragons who were forced to rally in the fourth to pull it out.

Rochester entered the fourth frame with a 34-31 lead, and the Falcons had several opportunities to win the game at the free throw line but they couldn't cash in. During that hectic fourth period, the Falcons went to the charity line 16 times and missed 11 times.

Even with Rochester's inaccuracy at the free throw line, it took a defensive play by 6-7 center Gary Mize to sew it up.

With 15 seconds left and Orion ahead, 45-44, Rochester had the ball and worked it into the key where Mike Scally took a jump shot. Mize went high and batted the ball well down court where teammate Tim Daigle picked it up and laid in the basket for the final two points.

LEADS ORION

Bill Foss led the Orion attack with 15 points while Mize contributed 13. J. R. Nowels led Rochester with 16.

Guard Clyde Cushingberry whipped in 31 points — four shy of the school record — to spark Romeo past Avondale.

Romeo rolled to a 39-31 lead at intermission, and after Avondale sliced a point from the deficit in the third, the Bulldogs wrapped up the game with a 17-6 edge in the fourth.

Dan Burzinski aided Cushingberry with the scoring by tossing in 19 points and he helped the Bulldogs to a 61-27 edge in the rebounding department.

A steady attack helped Troy top Madison and keep its title hopes alive.

After falling behind by a point in the first quarter, Troy came on to take a 33-29 lead at halftime and outscored Madison in the second half, 30-29.

Lynn Qualmann led the Troy Colts with 26 points while teammate Gary Griffith contributed 12.

Grabbing scoring honors, however, was Madison's Tim Blach with 29 markers. Rich Wimble added 18.

West Bloomfield Gains Tie Despite Cold Shots

Would you believe West Bloomfield going 11 minutes before scoring a field goal and still gaining a tie for first place in the Wayne-Oakland basketball race?

★ ★ ★

Well, it happened last night. And the Lakers can thank Milford for a big assist as three of the four W-O games were ulcer breeders for players, coaches and fans.

★ ★ ★

West Bloomfield finally got untracked and edged Holly, 43-41; Milford upset Northville, 53-52, in overtime; Clarenceville outlasted Brighton, 56-55;- and Clarkston downed Bloomfield Hills Andover, 54-44.

It was the first loss for Northville in league play. The Mustangs and West Bloomfield both are 7-1. Andover, Clarenceville and Clarkston are tied for third at 4-4.

Milford's triumph was a stunner. The Redskins (2-6) blew a 10-point third quarter lead and had to rally from a 50-45 deficit in the closing two minutes to pull even and force the contest into overtime.

★ ★ ★

Field goals by Dave Baker and Mark Giegler set the stage for Doug Powers tying free throw just before the buzzer. Northville quickly moved ahead 52-50 in the extra session, but two free throws by Powers and one by Baker decided the issue.

Milford coach Dave Torrance credited the strong defensive play of Ted Weinberg with being a key to the victory. Weinberg held Northville's sharpshooting guard Joe Andrews to four points.

Giegler and Randy Pohlman of Northville tied for game honors with 21 points apiece. Jim Peterson netted 17 for the Mustangs while Powers and Baker each had 13.

West Bloomfield fell behind 17-6 before Curtis Britton tipped in the first field goal for the Lakers with 4:48 left in the second quarter.

Holly used a pressing defense that kept the Lakers off stride and enabled the Broncos to carry a 19-15 lead into the locker room at intermission.

West Bloomfield finally took the lead late in the third period and was ahead 33-29 with 5:36 to play. Steve Westjohn played a steady game for the Lakers and scored 11 points.

Neither Clarenceville nor Brighton could get more than four points in front, but the Trojans led the final five minutes and just barely survived.

PACED SCORING

Dave Brabemihl topped the Trojans with 15 points. Rick Wellman was high for Brighton with 20.

Clarkston and Andover threatened to make it four tight games for a half. Andover led after two periods, 28-26, but Clarkston outscored the Barons, 13-4, in the third session to open some daylight.

Jerry Ostrum led the third quarter spurt with nine markers and wound up tying teammate Mark Erickson for game honors with 19.

2nd Win Posted by Oakland '5'

It was a big night on and off the court Friday for coach Dick Robinson of Oakland University.

Robinson and the Pioneers polished off Grand Valley State College on the basketball court, 94-78, and the young coach then headed for the hospital where his wife, Chris, was expecting their second child.

It was the second win in the last four games for the Pioneers, who dropped their first eight starts before beating Spring Arbor a week ago.

Grabbing the spotlight in the victory was a freshman guard from St. Clari who came on last in the first half and wound up taking scoring honors with 23 points.

★ ★ ★

Glen Beier, a 5-11½ playmaker, joined the Pioneer lineup with two minutes left in the first half. He proceeded to push in seven points before intermission and kept the attack from bogging down in the second half. The Pioneers held a 44-39 lead at the break.

HELP IN SCORING

Gordie Tebo collected 18 points and Tom Allan 17 to assist Beier in that department. Along with his scoring, Allan hauled down 17 rebounds in the first half.

OU entertains Alma College Wednesday at 8 p.m. before taking the road for games with Aquinas and Detroit Tech.

N. Farmington Defeats Groves

Oak Park Hoopsters Upset at Thurston

Half of the teams in the Northwest Suburban League are sitting in the same seat.

While North Farmington was winning, Detroit Thurston knocked off Oak Park, 66-58, last night leaving those three sharing first place in the loop race with 4-1 records.

North Farmington gained a piece of the lead by whipping Birmingham Groves, 66-60.

Wayne Glenn downed Franklin, 76-60.

Thurston (8-5) built up an 11-point lead after three quarters and coasted in the fourth session to hand Oak Park its first league setback.

Dave Day led the Thurston attack with 18 points, while Bryan Harbin pitched in 19 for Oak Park.

EARLY LEAD

Groves had the range early and sprinted into a 10-1 lead, but North Farmington came back to take a 29-28 lead at intermission. The two played on nearly even terms through the second half.

★ ★ ★

The victory upped North Farmington's over-all record for the campaign to 8-3.

Ron Flutur tossed in 18 points and Mike McCoy added 15 to pace North Farmington. Jim Cameron led Groves (6-4) with 14.

HOT NIGHT — Romeo's Clyde Cushingberry poured in 31 points last night to lead the Bulldogs to a 72-54 victory over Avondale. The victory was Romeo's ninth in 10 games.

Brandon Drops 67-48 Contest

Ortonville Brandon journeyed to Hartland last night but the Blackhawks' bid to repeat one of their two victories this season ended in a 67-48 defeat.

The win was the first for Hartland in the Genesee Suburban League and the third over-all. Brandon led after one period, but a pressing defense by Hartland changed the game's complexion in the second period.

The Eagles fired in eight quick points but still only managed a 30-28 intermission advantage.

Mike Boyes of Hartland led the marksmen with 22 points and teammate Larry Cook had 15. Barney Brown's 12 and Gary McDowell's 10 led the Blackhawks (2-8).

Oxford Loses Close Game

Oxford let victory slip through its grasp in the fourth quarter last night in a 49-45 setback at the hands of Harper Woods.

The Wildcats, who suffered their 10th straight loss this season, headed into the fourth period with a 39-37 lead, but Harper Woods posted a 12-6 margin in the fourth frame to pull it out.

Oxford had a chance at the free throw line in the fourth but the Cats cashed in on only two of eight attempts and wound up the evening hitting on just 11 of 22.

Tumble Ruins W. Bloomfield Ski Chances

A tumble by ace skier Tom Carter on his second slalom run ruined West Bloomfield's chances to defeat powerful Gaylord Friday afternoon in a prep ski meet at Sylvan Knob.

Gaylord's boys team won the triangular meet with a 350.1 total time; the Lakers were second with 359.2. Leelenau was a distant third at 400.9.

In the girls' event, West Bloomfield prevailed, 328.1-340.9 over Gaylord with Leelenau failing to qualify enough skiers.

Brock Walker, the nation's seventh ranked junior skier last year, and his sister Brenda claimed first place for Gaylord individually.

Larry Walter of West Bloomfield was second and teammate Rick Stanker fourth. Carter was third in the giant slalom but fell in the slalom and didn't place over-all.

★ ★ ★

Betsy Shuler of the Lakers was the runner-up to Miss Walker, and April Welch was third. Today the Lakers ski in a quadrangular at Timberlee.

Michigan Tech Gains Ground

By The Associated Press

Michigan Tech is giving notice it is back in the thick of the fight for the Western Collegiate Hockey Association title.

The Huskies bombed Minnesota-Duluth 7-2 Friday night to move in on leaders North Dakota and Denver.

In the only other WCHA game on tap, Michigan nipped Minnesota 5-4.

Michigan Tech, now 7-2, is second to idle North Dakota, 9-2-1, and ahead of Denver, now 9-3.

Ed Shillington, Al Karlander, Brian Watts and Fred Hall scored in the first period to push Tech off to a 4-0 lead. Shillington

Aquinas Needs 3 Free Throws

ALMA (AP) — Cliff Gordon hit three free throws in the last 40 seconds to lift Aquinas to an 83-80 college basketball victory over Alma Friday night.

Alma had rallied from an 11-point deficit to knot the score at 77-77 but never got the lead.

The victory was the eighth in 14 games for Aquinas, topped by Denny Patterson's 21 points. Al Vandermeer and Charles

Lost Motorist Gets on the Wrong Track

RIDDLE, Ore. (AP) — A man was injured early Friday when he parked his auto in the snow, not knowing he was on the railroad tracks.

Dale Marsters, 62, told state police he became lost in a snowpath, thinking it was a road. When his car became stuck, he said, he turned off the lights and went to sleep.

A slow-moving Southern Pacific train sheared off the right side of the car. Marsters was treated for minor injuries.

Collegians Give Indications Food Is Unsatisfying

PASADENA, Calif. (AP) — Student discontent over food in the cafeteria of California Institute of Technology came to the attention of President Lee Dubridge's office this way:

Thirty trays of tuna casserole and squash were dumped Friday on the floor outside.

The students posted "a declaration of indigestion" outside the office.

Dubridge was out of town.

GM Idled to Increase

DETROIT (AP) — More layoffs are expected at General Motors, where strikes at three foundries and resulting layoffs from parts shortages have idled 117,900 GM United Auto Workers union members. The mounting effect of the strikes led GM to lay off 60,300 workers yesterday.

Reflections

THE PURPOSE OF A VAULT

J. L. VOORHEES

Should a vault be selected by everyone? The answer is no!

In our opinion, the selection of caskets, vaults, etc., should be, "To each his own." If this is true, what purpose does a vault serve?

M. E. SIPLE

The primary and most important function of a vault is protection! Protection for the casket and its precious contents. A vault gives "peace of mind" to those who care, that can never be measured in dollars.

Today, most cemeteries require the use of a vault or concrete liner. This is to make sure that the burial receptacle will support the weight of the earth above. This prevents the unsightly sunken graves that used to be the earmark of most cemeteries.

Rezoning Bid Is Up Again in Waterford

The oft-delayed rezoning request for apartment units and a shopping complex at Dixie Highway and Midland once again will be considered for action by the Waterford Township Board at its 7:30 p.m. Monday meeting.

★ ★ ★

The property presently is zoned single-family residential (R1A). Applicant Donald White is seeking to have the property rezoned to multiple dwelling (R2) and general business (C2) to allow for the development.

First notices will be read on three other zoning change proposals, with board action expected at the Feb. 5 meeting.

They are:

- A request to rezone roperty on M59 near Whittier from R1A to restricted office (R01).
- A request to rezone property on Scott Lake Road at Alliance from general industrial (M2) to R1A for a church.
- A request to rezone property at Telegraph at Preont from local business (C1) to general business (C2).

EMPLOYE CONTRACT

Up for consideration by the board is a proposed three-year noneconomic contract for about 45 township employes other than policemen and firemen.

The proposed pact was on last Monday's agenda, but the board decided to table action one week.

In other business, the board will consider adoption of a law which would require that all lot splits be effected by township ordinance instead of by resolution.

★ ★ ★

The transfer of a Class A permit from MB & B Recreaion at 4825 M59 to Airway Enterprises, Inc., to permit the serving of alcoholic beverages on the bowling alley concourse also will be up for board action.

INSURANCE COVERAGE

The board also will discuss whether its false arrest insurance coverage is sufficient.

Wages for policemen during probationary periods also will be under consideration.

Drive-In Safe Tampered With

The Oakland County sheriff's office is investigating an attempted safe break-in at the Commerce Drive-In Theater, 8305 Richardson, Commerce Township.

★ ★ ★

It was reported yesterday that a safe in the ticket office had been tampered with but entry was not gained, according to deputies.

U.S. Doctor Founds Private Peace Corps

SAN DIEGO, Calif. (AP)—From the slums of Tijuana and Hong Kong to the villages of Vietnam, a private peace corps called Project Concern is bringing health and new hope to the sick, the hungry and the homeless.

Founded six years ago by Dr. James Turpin of nearby Coronado, the San Diego-based relief organization helps people by teaching them to help themselves.

"Self help, that's the answer," says Turpin as he envisions expanding Project Concern into a worldwide private aid program for developing nations.

Progress has been impressive.

In Tijuana, Mexico, just across the border from San Diego, Project Concern operates a clinic, school, maternity ward and social service center for thousands of impoverished residents of a suburban slum.

★ ★ ★

In Hong Kong, four clinics and a school serve refugees and needy residents in some of the city's most squalid areas.

ONLY HOSPITAL

And in South Vietnam, the Project Concern hospital at Da-Mpao is the only medical facility available to the Montagnard tribesmen and Vietnamese of the area's villages.

Turpin got the inspiration for Project Concern while practicing medicine in Coronado.

"We were doing all that might be expected of a successful young couple, perhaps more than most. We had in fact, a perfect life in a perfect community," Turpin recalls.

★ ★ ★

"Yet, something was lacking. A vague but disturbing disenchantment set in."

TIJUANA CLINIC

Then, through his adult class at the Methodist Church, Turpin learned of Casa de Todos in Tijuana, a struggling clinic and school operated by a Mexican woman.

"For the first time since the beginning of my restlessness in the plush life of Coronado, I saw a way to justify my existence by giving a little of myself to something which truly needed me," Turpin said.

But even dedication to work among the poor in Tijuana did not satisfy Turpin for long.

★ ★ ★

"Other doctors could do the work at Casa de Todos. I had to be where the need was greater," he explains.

PRACTICE GIVEN UP

Turpin resigned from the Coronado City Council, gave up his medical practice and devoted himself to raising money to finance a Project Concern program in Hong Kong.

Help came from across the country. Pharmaceutical houses provided sample drugs.

The first clinic opened in 1962 in the Walled City section of Hong Kong, across the street from a brothel and beneath an opium den.

Other clinics now serve the Jordan Valley area and a fishing village called Lei Yue Mun on the outskirts of Hong Kong. A floating clinic cares for the boat people of Kowloon Bay.

TO SOUTH VIETNAM

From Hong Kong, Turpin went to South Vietnam in 1964 to open a 42-bed hospital at Da-Mpao, about 150 miles northeast of Saigon.

There in the central highlands, Project Concern administers to the health needs of a people whose only previous source of medical care was the village sorcerer.

Training programs are conducted at the hospital for Vietnamese, who are taught the fundamentals of sanitation, health, first aid, hospital procedure and diagnosis.

Graduates of the program return to their homes to serve as village medical assistants.

EXTENSIVE GOALS

Still restless, still planning, the 40-year-old Turpin has extensive goals for Project Concern.

During the next five years we hope to build a refugee hospital in Hong Kong. In South Vietnam, we plan to enlarge our hospital at DaMpao and establish another rural medical center in Lien Khoung.

"In Mexico, the plans call for expansion of Casa de Todos and establishment of a maternal child care center and a nursing and medical school," Turpin says.

Other areas being considered for Project Concern facilities include Chicago, Tennessee, Kentucky, Texas, India, Peru, Africa, the Middle East and the Gaza Strip.

PRIVATE POWER

"The thing that excites me more and more as Project Concern grows is the tremendous power in the socalled 'private sector,'" Turpin says.

Turpin envisions the private sponsorship of a corps of what he calls "nation builders" — young technicians recruited from around the world to teach medicine, sanitation, engineering, agriculture, animal husbandry and cottage industry.

"There are other people in near and distant parts of the world who are very sick and very weary. Their need is our opportunity to share with them our relative abundance.

★ ★ ★

"But for those of us in the program, the sense of accomplishment comes not so much from the number of hospitals we build or the number of village medical assistants we graduate, but from a sense of being involved in life as it really is, realizing that we need these people as much as they need us," Turpin said.

First Negro Joins Police in Kentucky

FRANKFORT, Ky. (AP) — The first Negro on the Kentucky State Police force was among 39 troopers sworn in Friday.

Gov. Louie B. Nunn told Millard West of Lexington that "as long as you conduct yourself as a state trooper that will be sufficient."

The governor added "You will not for long be the only member of your race to be a trooper."

BATH TIP. Fashion at last has come to the bath. The ordinary white tile bathroom is of the past. Colorful texture on the floor in combination with little touches of interesting bath accessories is the best way to bring new style to this room. Bathroom carpeting should be mildew proof and unfazed by splashed water or spilled lotion. "House 'n Garden," a new carpet from Mohawk, is made of Acrilan acrylic approved for outdoor use and offers both the style and practicality best suited for a bathroom.

It was valued at $1,000. The vehicle is an Evinrude Skiter, blue and white with a red seat.

Hampton Seeks to Abolish State Intangibles Tax

LANSING (AP) — Rep. William Hampton, R-Bloomfield Hills, said Thursday he would introduce a bill to abolish the state intangibles tax, which is expected to yield $28.7 million in the next fiscal year.

Loss of that much revenue would make a new tax necessary to avoid a budget deficit. Passage of Hampton's bill was considered unlikely.

★ ★ ★

Hampton said many elderly persons get most of their income from interest and dividends, which are covered by both the 2.6 per cent state income tax and the 3.5 per cent intangibles tax.

"This amounts to paying 6.1 per cent income tax," Hampton said, "and I don't want my constituents placed in this position."

Eradicate Grain Rust in Michigan

There's nothing very pretty about stem rust in small grains. That's why efforts are continuing to eradicate the common barberry bush in Michigan. It was introduced by the early settlers for hedge and ornamental planting.

According to Don Juchartz, county agricultural agent, eradication of the barberry bush, easily identified by its spiny-toothed leaf edges and red berry clusters, has meant grain savings of more than two million dollars annually.

This is not the common Japanese barberry bush commonly used in landscape plantings and sold at nurseries and garden centers.

The lethal plant, which became easily established in native timber along streams and fence rows, provides the necessary link from rust spore germination in the spring to grain infestation in the summer.

Besides perpetuating many old and unusual races, the barberry plant is capable of spawning new races through hybridization to complicate the task of plant breeders attempting to produce rust-resistant varieties.

Juchartz suggests that farmers interested in more information about stem rust control in wheat, oats, barley and rye, obtain a copy of MSU's new Extension Bulletin 600, Barberry Eradication.

The agricultural agent also cautions homeowners against digging barberry plants "in the wild" and bringing them home for planting around the house.

CITY OF PONTIAC
COUNTY OF OAKLAND
NOTICE OF HEARING

RE: PETITION TO LOCATE, ESTABLISH AND CONSTRUCT AN INTRA-COUNTY DRAIN IN THE CITY OF PONTIAC, OAKLAND COUNTY, MICHIGAN

NOTICE IS HEREBY GIVEN, that pursuant to the provisions of Chapter 20 of Act No. 40 of the Public Acts of 1956, as amended, a petition was filed with the County Drain Commissioner of Oakland County, Michigan, petitioning for the following project, to wit:

Location, establishment and construction of an intra-county drain to relieve, supplement and improve the existing natural water course known as the Pontiac Creek Drain and the existing Jewell Drain, said intra-county drain to be located approximately as follows:

Beginning at the existing outlet structure of the Clinton-River Drain No. 1, 135 east of Union Street and immediately north of east Huron Street in the City of Pontiac; thence northwesterly to a point near the existing channel of the Pontiac Creek Drain at its crossing under Wide Track Drive; thence northwesterly generally following the route of the existing Pontiac Creek Drain channel to Osmun Lake; thence southeasterly generally following the existing Jewell Drain to Terry Lake; thence continuing southeasterly generally following said existing Jewell Drain to Harris Lake.

NOTICE IS FURTHER GIVEN, that the Drainage Board for said project has considered the said petition had has made a tentative determination that said petition is sufficient and that the said project is practical; has given the name "AUGUSTA DRAIN" as the name of said Drain and the name "AUGUSTA DRAINAGE DISTRICT" as the name of the drainage district therefor; and has made a tentative determination that the following public corporations should be assessed for the cost of said project, to wit:

State of Michigan — on account of drainage to state highways
County of Oakland — on account of drainage to county highways

NOTICE IS FURTHER GIVEN, that the said Drainage Board will meet on the 20th day of February, 1968, at 2:30 o'clock P.M., Eastern Standard Time, at the office of the Oakland County Drain Commissioner, 550 South Telegraph Road, in the City of Pontiac, Michigan, for the purpose of hearing any objections to said project, to the petition therefor, and to the matter of assessing the cost thereof to the public corporations above named. A said hearing any public corporation to be assessed or any taxpayer thereof, will be entitled to be heard.

This notice is given by order of the said Drainage Board for the Augusta Drain.

Roof Check for Man's IQ

A new way to check a man's intelligence is to inspect his home immediately after a snow storm. If there is snow on his roof and his sidewalks are clean, says the National Better Heat-Cooling Council, he is a smart man, way above average intelligence.

Snow on the roof means that the attic is well insulated, and the heat for which hard-earned money was spent is remaining within the house.

Clean sidewalks can mean that he hired a few ambitious boys to shovel it away for him, but the odds are that there is snow melting system installed under the driveway and walks.

This is a fairly simple thing to install if the house is equipped with a hydronic (modern hot water) heating system. According to the Council, another zone can be added quite easily to the existing boiler, and by running a network of tubing under the driveway and sidewalks, snow is melted automatically as soon as it falls.

★ ★ ★

To prevent freezing when the system is not in operation, an anti-freeze solution is added.

Beside the obvious advantage of not having to shovel the snow away, the danger of heart attacks which arises from this type of exertion is eliminated. And, it will add value to the property.
