City Plans to Build 2 New Parking Lots

Areas to Offer Space for 280 Cars Downtown

City Attorney Is Told to Start Condemnation Proceedings

Mindful of the whopping success of its first venture in municipal parking and the pressing need for additional facilities, the City Commission last night moved to provide 280 more parking spaces at two downtown locations.

The program, drawn up by City Manager Walter K. Willman, calls for construction of lots at Lafayette and Wayne Sts. and mid-block running from West Lawrence street to West Pike street between Cass and West Alley.

Total cost of the lots, including property and construction, will be $320,000. This will be underwritten by a revenue bond issue.

Solidly endorsing the program, the Commission authorized City Attorney William A. Ewart to begin condemnation proceedings to acquire the necessary property. The city already owns one of the lots needed for the Lafayette site.

The Lafayette lot, just behind the Oakland County Office Building, will run west from Wayne beyond Pine street. To be acquired for it through condemnation are parcels now used as the sites of two houses, a garage and a privately operated parking lot.

One of the parcels for the other site also is now used for commercial public parking. Included in the land is an L-shaped auto repair shop which runs north from West Pike.

The other property is on Lawrence and includes the building used by the local Army Reserve unit, vacant land and a private parking lot.

IDEALLY SITUATED

Willman said the lots would be ideally situated for persons wishing to shop in the downtown area. He added that the lots, which will hold 160 and 120 autos, respectively, will be paid for by the users, costing taxpayers nothing.

The lots will be paved, lighted and metered, as are the two off-street facilities now operated by

Area Officials to Talk Roads

Will Meet With State Highway Commissioner Tomorrow in Lansing

A delegation of Oakland County officials will meet with State Highway Commissioner Charles M. Ziegler at 10 a.m. in Lansing tomorrow to question him about Highway Department plans for road improvements in this area.

The meeting stems from a Board of Supervisor's resolution June 27 asking the road commission, road committee and planning commission to check into the seeming neglect of Oakland in the state's list of planned projects.

A meeting was held yesterday to draft questions which will be put to Ziegler, said Don R. MacDonald, chairman of the supervisor's road committee.

The Oakland group will include, Road Commissioners Lee O. Brooks, Sol D. Lomerson and Robert O. Felt plus Road Commissioner Highway Engineer Leon V Belknap.

MacDonald and Waterford Supervisor Lloyd Anderson plus possibly two other road committee members will attend. Plan Commission Chairman J. Robert F. Swanson said he will go if possible.

Search for Missing WAF Centers at Willow Run

The search for missing Air Force WAF Joan Richie today centered at Willow Run Airport where the girl was last seen as she prepared to board a plane for Florida.

The pretty, brown-haired airman second class was last seen July 17 by her mother and stepfather, Mr. and Mrs. Ewell Bolinger, of 2148 Wooddale, Avon Township, as she walked through a loading gate at the terminal. She had been on furlough since July 4.

JOAN RICHIE

State Police at the Ypsilanti Post and local Sheriff's detectives were questioning airline personnel in an effort to turn up a clue to the disappearance.

Airline officials expressed doubt that the 20-year-old girl had boarded the plane because her ticket has not been turned in with those of other passengers. Stewardesses collect passengers' tickets as they board the plane, the official explained.

A check of records showed that the ticket has not been turned in for refund.

Meanwhile, civil and military police as well as Red Cross officials at Pensacola, near Elgin Air Force Base where Joan was stationed, reported their search has proved fruitless.

BAGGAGE ARRIVED

They told local authorities that her baggage had arrived at the terminal with the plane.

The mother told Sheriff's Detective Leo Hazen that she and her husband, a Baldwin Rubber Co. employe, did not see her daughter board the plane because the crowd and other loading aircraft blocked their view.

First word that the 110-pound beauty contest finalist was missing came when a roommate at the base called here, stating that Joan had not reported for duty July 18.

Mrs. Bolinger said Joan was wearing civilian clothes and was carrying only a small, blue overnight bag when she left.

"I'm positive she wouldn't go elsewhere without letting me know about it," Mrs. Bolinger said. "She liked the service and seemed anxious to get back—she even had a boxful of souvenirs for her friends at the base," she added.

BEAUTY CONTESTANT

Joan, who is five feet two inches tall, was a finalist in a beauty contest at the base and has been modeling for advertisements. She enlisted in May 1953 after attending Avondale High School and working in a factory office here.

2nd Polio Shots Planned Here

Program to Resume With Birmingham Date on Saturday

Polio shots for first and second graders in Oakland County will resume Saturday in Birmingham High School, it was announced today by Dr. John D. Monroe, Pontiac and county health director.

Youngsters from Bloomfield, Troy, Southfield and Birmingham townships will receive booster and second shot innoculations from 9 to 11 a.m.

The move was decided on last night when county polio and health officials met for discussion at Beaumont Hospital in Royal Oak.

With more than 5,000 eligible children in the Birmingham area, enough vaccine wil be available for all necessary shots, Dr. Monroe said.

"Parents should not bring any sick child to receive the shots," Dr. Monroe warned.

The vaccine program for Pontiac has been tentatively set for Wednesday, after arangements have been made with education officials to clear a school for use as a clinic, Dr. Monroe added.

Wednesday's program will provide shots for children from West Bloomfield, Rochester, and Avondale schools; as well as Pontiac.

More than 285,000 Michigan youngsters are eligible for their second polio shots, according to Dr. F. S. Leeder, director of the State Health Department's communicable disease division.

Dr. Leeder said the state and counties have agreed to vaccinate children regardles of their current residences.

"A parent on vacation may take his child to the nearest clinic and present proof that the youngster got his first shot. If this has been lost, a letter from the family doctor or similar evidence would be sufficient," he said.

Pontiac's Early July Sales Up 203 Per Cent

Pontiac car sales for the second 10 days of July ran 203 per cent above sales during the same period of last year, Robert M. Critchfield, Pontiac general manager, announced today.

Sales for the second 10 days in July, up appreciably over sales for the first 10-day period in the month, totaled 15,753 new cars, a new peak in passenger car sales for this period, Critchfield reported.

Talbott to Drop His Partnership in Mulligan Co.

President Withholding Judgment on AF Head Until Probe Ends

WASHINGTON (AP)—President Eisenhower today withheld judgment on Harold E. Talbott's future in his administration pending the end of a Senate inquiry.

Talbott himself announced he is giving up his partnership in a management consultant firm which stirred controversy over his conduct as secretary of the air force.

In quick developments:

1. Eisenhower told a news conference he will decide, once the current Senate investigation ends, whether Talbott used his public office improperly and should be fired. Meantime, he said, the matter is in abeyance.

Further, Eisenhower said that in general the actions of a public official must be impeccable from the standpoint of both law and ethics, and should avoid giving any impression of wrongdoing.

2. Talbott told the Senate Investigations subcommittee he has arranged to divest himself on July 31 of his partnership in Paul B. Mulligan & Co., of New York, business engineering firm which has contracts with some defense suppliers.

"That is my final action," Talbott said to the senators in emotional tones.

He made the announcement in a prepared statement which he read to the subcommittee, and which made no reference to any possible plans to resign.

Talbott said he would give up his interests "10 times over" rather than hurt the Air Force.

He remarked that when he became air secretary, he gave up stocks which were giving him an income of $100,000 a year.

"I was glad to do it," Talbott said, observing that many others had made financial sacrifices to serve their government.

Chairman McClellan (D-Ark) announced there would be no

HEAT-BEATERS — Pontiac businessmen Leo Schwartz (left) of 23161 Sussex, Oak Park, and Bill Fox of 711 W. Huron St., sought relief from today's near-record temperature by donning Bermuda shorts. The two "air-conditioned" gentlemen don't seem at all perturbed by the heat.

Champion Is a Family Man

Pontiac Press Photo

HAPPY AFTER VICTORY — Doug Ford the new National PGA champion poses with most of his family (a baby daughter, Pamela, was left in her go-cart). Doug pats the head of son Doug Jr., 10, while Michael, four, shies from the camera. Mrs. Ford (Marilyn) was in a happy mood, too. The family left shortly after the tourney ended for another golf test at Akron, O. They travel by trailer. Ford defeated Dr. Cary Middlecoff 4 and 3 at Meadowbrook Country Club, yesterday afternoon. (See page 30 for story of title match.)

Toxic Dumpage Law Is Passed

Measure Will Control Wastes Entering City Sewer System

Acting to curtail widespread pollution of the Clinton River, the City Commission last night passed a new ordinance clearly spelling out what may not be dumped into the Pontiac sewer system, which empties into the Clinton.

Chief target of the ordinance is the industrial plant, or plants, which discharge wastes "containing a toxic or poisonous substance" into the sewers.

It was such waste which recently contaminated the drinking water of the city of Utica, which draws its municipal supply from the Clinton.

Where sewage is of such character, the city manager is empowered to require the waste to be disposed of "otherwise" and to "prevent it from entering the system."

"We are in pretty fair condition now, but we don't want what happened to happen again," said City Manager Walter K. Willman, who drew up the regulation in collaboration with state authorities.

Violators will be subject to a $100 fine and/or 90 days in jail.

Also included among the substances which may not be put into the system are gasoline or other flammable or explosive liquids or gases; liquid or vapor having a temperature higher than 105 degrees; improperly shredded garbage, or any other substance capable of causing obstruction or bad odors.

The ordinance also provides city personnel the right to "all industrial and commercial properties" operating under it for inspection purposes.

The city manager also has the right to make additional charges for wastes which impose "an unreasonable burden" upon the system.

Liquor Board's New Member Long, Cool Kind

NORTH BERGEN, N. J. (AP)—A new member has been appointed to the local alcoholic beverage control board. Her name: Mrs. Tom Collins.

WINDSOR, Ont. (AP) — Hiram Walker's steam whistle went out on a toot last night. The distillery whistle was short-circuited. First it began hiccuping. Fifteen seconds of noise, 15 of silence. A little later it jammed steadily for five minutes. Then somebody corked it up.

Russian Farm Observers Make Smash Hit in Iowa

SPENCER, Iowa (AP)—The astonishing story of the fabulous tour of the Soviet farm delegation across Iowa continued today.

The governor of the state, Leo Hoegh, helped arrange for the delivery this morning of three members of the Soviet agricultural group, including its head V. V. Matskevich, to Sioux City.

The governor's help was necessary because Sioux City leaders, when for reasons of timing and schedule their city was eliminated from the Russians' itinerary, made a major issue of the question.

"You should see the pile of telegrams I have from Iowa communities which want the Russians to visit them," declared C. R. Elder, of Iowa State College, last night. Elder is in charge of arrangements for the Russians in Iowa.

The town of Laurens lined its streets yesterday with flags in honor of the Russians. Many leading townspeople were at the consolidated school where the Russians ate.

At every farm the Russians visit there are crowds of Iowans. At the home of Tafford J. Tinius, of Laurens, there were around 300 people in the yard when the Russians arrived.

In this medium-sized northern Iowa city last night there was a small crowd of citizens on the sidewalk in front of the hotel where the Russians were to stay for more than an hour before they actually came to town.

"Have you seen the Russians?" was the commonest question in the city's streets.

The Russians visited a much bigger farm yesterday than most they have seen. It was one owned by R. L. Simm and sons, of Paullina, Iowa. It is 480 acres in size, of which 225 acres is under corn. The machinery at the Simm farm is up to date and plentiful and its use efficient.

It interested the Russians more than some others they have seen because of its machinery and its size.

U.S. Road Fight Looms

WASHINGTON (AP)— House leaders marshaled forces for a showdown today in the fight over rival Democratic and Republican plans for a multimillion-dollar road-building program.

Bulgaria Downs Israeli Airliner

Only One of 58 Aboard Believed to Be Alive; Greeks Report Crash

ATHENS, Greece (AP)—An Israeli airliner was forced down in flames in Communist Bulgaria today.

Greek authorities said Bulgarian antiaircraft gunners shot it down near the Greek border and that all

(See earlier story on page 5.)

but perhaps one of the 58 persons aboard must be considered dead.

Four of the passengers were Americans.

Israel, alerted that the Constellation had crashed from some cause, said it had no official information that Bulgarians fired on it.

The crash in rugged territory of Bulgaria, a member of the Communists' Warsaw military alliance, came only four days after the windup of the Big Four summit conference to ease world tensions.

In Tel Aviv, scores waiting to welcome friends and relatives at Lydda Airport wept today at the word the plane will never come in.

Thundershowers Forecast, May Provide Relief

Temperatures Surpass Previous High of 98 on July 4

Tuesday		Today	
8 a. m.	74	8 a. m.	84
Noon	88	9 a. m.	89
4 p. m.	94	10 a. m.	93
7 p. m.	90	11 a. m.	96
9 p.m.	84	Noon	97
Midnight	82	1 p. m.	98
2 a. m.	80	2 p. m.	99

Pontiac wilted under the hottest day of the year today with the thermometer reading a sizzling 99 at 2 p.m.

The previous high was 98 on July 4. The all-time high for this date since 1872 was 100 in 1941.

Some relief was in sight. The forecast called for occasional thundershowers this afternoon, turning cooler late tonight.

Tomorrow was expected to be partly cloudy and cooler with occasional showers, high near 80.

Last weekend's cool spell broke yesterday when the temperature hit 94 at 4 p.m., marking the 15th day this month the area roasted in 90-degree heat.

The predicted cool spell is expected to last through Saturday, according to the extended forecast. But it will get hot again Sunday, it says.

Secondary effects of the heat had not revealed themselves to any major extent by noon today.

Pontiac factories reported no significant increase in absenteeism, but a few Fisher Body departments were permitted to leave at noon. St. Joseph Mercy and Pontiac General Hospitals reported no serious cases of heat prostration as yet.

PUMPAGE SUBNORMAL

City Water Superintendent Joseph W. Gable said water pumpage yesterday was just under 19,000,000 gallons, slightly less than normal for a Tuesday.

"But we're worried as to what the situation may be tomorrow after this heat," he stated.

Two of the 22 wells in operation were off yesterday, but they had to be pressed into service at 9 a.m. this morning.

The Branch Street reservoir and storage tank at Baldwin Ave. and Rutgers St. were both full this morning. "Unless we get some rain this afternoon we may have trouble getting them full tomorrow," said Gable.

The heat wave stifled the whole midwest today. Temperatures climbed over 100 degrees yesterday from Kansas northeastward across eastern Nebraska, western Iowa, parts of Minnesota, most of Wisconsin and sections of Illinois. The nation's hot spot was Lincoln, Neb., with a high of 105.

Some cities in the East and most of the South got scorched too, with temperatures in the 90s. Baltimore's 94 set a July record of 20 days of 90 or higher. Washington reported 93.

Generally, last week's hot and humid weather, with local scattered showers, helped growing crops in Michigan, the federal-state crop reporting service said today.

However, in the Southern Lower Peninsula about two thirds of the area reported soil moisture shortages.

Three Road-Improvement Projects Under Way Here

The Oakland County Road Commission now has three road-improvement projects under way and is about to start a fourth, according to Commissioner Robert O. Felt.

Work has been started on the blacktop resurfacing of West Maple Road over a 6.2 mile span between Orchard Lake Road and Pontiac Trail.

The Ann Arbor Construction Co., of Ann Arbor, is doing the work at cost of $142,502. The federal government and county are splitting the expense.

General Motors Road is being resurfaced with blacktop over 2.48 miles from Milford to the west county line at cost of $60,611. The Detroit Concrete Products Co. has the contract.

The Detroit firm also is pouring blacktop over the present gravel on a half mile of Crescent Lake Road from Pontiac Lake Road to Highland Road at cost of $7,140. The project is being financed by Waterford Township and the local school district.

A contract was let this week to Detroit Concrete for the blacktop resurfacing and widening of Ten Mile Road over 3.56 miles from Southfield Road to Ridge Road.

The firm was low bidder for the contract at $68,048.

George Urging China Meeting

Says Dulles Should Sit Down With Chou to Settle Problems

WASHINGTON (AP)—Sen. George (D-Ga) renewed today his call for an early foreign ministers' conference with Communist China—the time for which Secretary of State Dulles says has not arrived.

George, who heads the Senate Foreign Relations Committee, expressed surprise at Dulles' news conference announcement yesterday that U. S. Ambassador U. Alexis Johnson will sound out his Red Chinese counterpart at Geneva next week on the Peiping government's attitude toward a cease-fire in the Formosa Strait.

George said he has no objection to such probings, but that he doesn't think any substantial progress will be made toward relieving Far Eastern tensions until Dulles sits down with Chou En-lai, Communist China's premier and foreign minister.

More Parking Lots Planned by City

(Continued From Page One)

the city. The fee will be five cents an hour with a 3-hour time limit.

Mayor William W. Donaldson, who with Commissioner John A. Dugan (District 5) led the Commission in lauding the plan, said the program would "insure the preservation of the downtown business district and possibly influence retaining the courthouse at its present location."

He added that it will also more than compensate for the 50 meters which are to be removed from the streets to facilitate traffic movement.

"Congestion is caused by people, like myself, who come downtown and who are just too 'Scotch' to pay 35 cents an hour to park. We drive up and down the downtown streets looking for a meter space. If you know there is a municipal lot you drive right to it."

Dugan, long a municipal parking advocate, predicted the only opposition will come from private lot owners.

FIRST LOT A SUCCESS

Pontiac's first crack at municipal parking is proving a thumping success. Nickels and dimes are rolling into the meters in the 250-car lot at E. Pike and Parke Sts. and the 80-car lot on Mill street at the rate of $30,000 a year.

It was just a little over a year ago that the big lot was opened. The Mill street lot, located on the former site of the City-County Market, was opened this February.

Willman told the Commission revenue of $21,000 a year is expected from the two new lots. Parking meters on the streets now bring a yearly return of $50,000.

Attorney Ewart indicated the condemnation proceedings will be handled under a state law which provides for a jury of 12 Pontiac taxpayers. In a previous parking lot condemnation suit, the case was plied under a law which called for jurors from anywhere in the county.

VERDICT IS FINAL

"The only 'hooker' is that the verdict of the taxpayer jury must be accepted," Ewart said. He asserted the belief a jury of local citizens would make awards which would not be unreasonably high.

The city's move follows a pattern being established across the country as downtown districts strive to keep customers coming to town rather than go to outlying shopping centers where parking is no problem.

"We've got to keep downtown attractive and convenient," Willman declared. "Some cities are reported losing downtown business at the rate of 3 or 4 per cent a year."

As long ago as 1948, a report by a citizens parking study committee recommended the construction of 10 lots to provide space for 1,885 cars. Including the present lots and those planned in the program, the city will be providing slightly more than 600 spaces.

New Military Reserve Bill to Affect All Servicemen

WASHINGTON (INS)—President Eisenhower has on his desk today a compromise military reserve bill which will directly affect millions of Americans in the coming years.

The President was expected to sign the measure although it falls short of what he requested.

The Senate approved the measure yesterday by a voice vote, less than 24 hours after the House passed it, 315 to 78.

BILL EXPLAINED

Provisions of the bill—one of the "must" items of the President's legislative program—are explained by these questions and answers:

Q. What does the "Reserves Force Act of 1955" mean to me if I am a draft eligible?

A. It means that if you are drafted for two years' active duty, you also become subject to three

(See James Marlow's Article on Page 12.)

years' compulsory service in the "Ready Reserve."

Q. Does that mean I will be in uniform for five years?

A. No. The "Ready Reserve" is a civilian organization, with drills conducted at night and in summer camps.

Q. Then what is compulsory?

A. If you do not report for at least 48 evening drills and at least 17 days of summer camp annually for three years, you can be drafted for 45 days of additional active duty. If you fail to serve the additional duty, you could be court-martialed.

Q. Will I be paid for service in the Ready Reserve?

A. Yes. The pay for one year in the Ready Reserve will amount in most cases to between two and three months of active duty pay.

Q. Suppose I enlist for three years' active duty?

A. Then your period of compulsory service in the Ready Reserve will be reduced from three to two years.

ALTERNATIVE EXISTS

Q. Is there any alternative?

A. Yes. You could go on active duty for 30 days in each of the years for which you are responsible to the Ready Reserve.

Q. Suppose I am not drafted and do not enlist?

A. Then there is no reserve obligation. The Selective Service Act remains unchanged, and so far as the law is concerned the chances of escaping the draft are the same.

Q. Suppose I am already in military service?

A. Then the Act does not affect you. Persons already in military service are exempt from compulsory features of the Reserve act.

Q. Are there any benefits a man already in military service might realize?

A. Yes. A total of 150,000 soldiers may be released from active duty a year before their terms expire if they volunteer before July 1, 1957 for four years in the Ready Reserve.

REDUCES SERVICE

Q. Doesn't the new law actually reduce a draftee's reserve obligation from six of four years—three years in the ready and one year in the stand-by reserve?

A. Yes. However, the present six-year reserve obligation is voluntary and, except for the fact that a man is subject to call in an emergency, it is largely ignored. The stand-by reserve is a similar pool—without compulsory features except in an emergency.

Q. Will the Act satisfy the military establishment's requirements for a ready reserve of about 2,800,000 men?

A. Eventually, yes. But the exemptions granted for men now in service means that the full reserve strength will not be achieved until 1961 or 1962, instead of in 1959 as provided in the Administration's original bill.

Four Supervisors Renamed in County

Four of Pontiac's seven appointed members on the Oakland County Board of Supervisors were re-appointed by the City Commission last night.

The four are R. C. Cummings, who has served since 1927; Willis M. Brewer, a supervisor since 1947; Carl L. Hunter, appointed in 1950, and Mrs. Margaret E. Hill, on the board since April 1954.

Under a new state law, Pontiac had to cut down its representation on the board from 10 to 7 members, of whom 4 are appointed. Rounding out the list are the city attorney, finance director and city assessor.

Dropped were appointees John K. Irwin, Charles H. Harmon and Mrs. Marie Johnson.

Automotive Trade Group to Hold Outing Tuesday

The Pontiac Automotive Trade Association Tuesday will hold its 9th annual outing at Indianwood Country Club in Lake Orion.

Tickets are limited to 500, and 100 prizes will be awarded at the affair. A noon golf session and a 7 p.m. dinner and entertainment will be included in the program. Refreshments will be served.

Tickets are $9 each and may be obtained from any new Pontiac car dealer. For prize donations call Bob Oliver or Ralph Humphries, FE 2-9101.

Becomes Dad at 75

NEW YORK (AP) — Vincent Ferraro, a 75-year-old great-grandfather, is passing out cigars on his own account again. The retired furniture polisher, who had eight children by his first two wives, is celebrating the birth of an 8-pound, 2-ounce son to his third wife Antonetta, 34.

Henry Defends Big Universities

Illini President - Elect Hits Fallacy of Size Hurting Quality

EAST LANSING (AP)—The president-elect of Illinois University today struck back at critics who argue universities can get too large.

Dr. David D. Henry, now executive vice chancellor of New York University, addressed a Michigan State University centennial education symposium.

He said, "There is an illogical dread of institutional size and a lot of unthinking references are made to the incompatibility of quality and quantity as opposites.

"Anyone who understands how the modern university works knows," Dr. Henry said, "that quantity and quality are not contradictory terms. The institution that is large can also have quality. The institution that is small may not have quality. Quality is a matter of resources and purposes, not of size. It is a matter of standards, not numbers. It derives from people, not statistics."

Small institutions, he said, have a "distinct and important place in American higher education, but its spokesmen do it no service by pretending that the large institution is deficient in comparative quality or that the university is indifferent to the individual life of the student."

Dr. Henry said, "The large institution has just as many square feet per student, just as many teachers per student, and is very likely to have, in addition, a variety of opportunities, instructionally and in extra-curricular life, that derives from its size."

Road Employes Will Vote on Social Security

Employes of the Oakland County Road Commission will vote Oct. 7 on coming under federal social security, according to Robert O. Felt, commission member.

The balloting was approved by Goveror Williams on request of the Board of Supervisors.

Commission workers now have a pension plan under which 168 employes are covered and 198 are not, said Felt. Only those participating in the present plan will vote on the social security program.

The federal pension plan would provide broader coverage and encourage employes to remain with the commission, Felt pointed out.

Any workers over 55 years old when the present plan was launched couldn't take part. It also excludes employes under 30, he explained.

About 99 per cent of the air is a mixture of oxygen and nitrogen.

Ontario Forests Still Blazing

6,000 Volunteers Fight Inferno as Slight Rain Gives Little Relief

By THE ASSOCIATED PRESS

Rain fell over Ontario's burning forests today.

But with it came severe lightning storms, disrupting communications and possibly starting new fires.

Exact effects of the rain and lightning could not be learned immediately. Piecemeal reports from northern Ontario indicated the rainfall was heavy enough to be of at least some help.

The lightning played hob with telegraph and telephone communications, knocking out lines to the Sault Ste. Marie area, where the worst fires were burning. Telephone lines had not been restored to the Sault early today.

It was 40 miles north of Blind River, 90 miles east of the Sault, that 100,000 acres of prime timberland was ablaze yesterday in what was described as the most uncontrollable outbreak since 1948.

Another 40,000 acres, much of it pine, balsam and assorted hardwoods, were ablaze in other uncontrolled fires in the Sault Ste. Marie district. In all, 150 fires were burning over more than 200,000 acres.

Nearly 6,000 men were at the fire fronts, camping out in tents, sleeping when they can on the ground or on twig beds. They cook and eat outdoors and, like soldiers on the battlefields, remain mobile at all times.

They have battled from dawn to dusk and sometimes longer, for 70 consecutive days, fighting with hand axes and shovels, bulldozers and water hoses.

Four Area Persons on Truman Project

Four Oakland County persons are included in a 75-member committee appointed by Governor Williams today to head a campaign for contributions to the Harry S. Truman Library.

A national committee is seeking $1,750,000 to finance a memorial library already being constructed at Independence, Mo.

The list includes newly appointed Circuit Judge Clark J. Adams, of Waterford Township, Dr. Howard H. McNeill, of Pontiac, Mrs. Donald E. Adams, of Waterford Township, and Mrs. Robert Phillips, of Huntington Woods.

Austria Free Today

VIENNA (AP) — After seven years of Nazi rule and ten of Allied occupation, Austria finally became a free and independent nation today.

Ninety per cent of New England's corporate communities are governed by town meetings.

MRS. FLOYD T. BLANZY

Mrs. Blanzy Named to Board of UF

Elected to the Board of Trustees of the Pontiac Area United Fund is Mrs. Floyd T. Blanzy, according to William B. Hartman, UF president.

Mrs. Blanzy, of 4024 Ledgestone Dr., Waterford Township, was named to fill out the unexpired term of Mrs. Albert M. Kisshauer, of 3645 Oakshire, Pontiac, who resigned recently.

The new trustee is chairman of Pontiac Office Workers Local 72 (CIO). A member of the First Presbyterian Church, of Pontiac, she has two children, Joyce, 16, and Charles, 11. The UF trustees total 15.

Talbott Fate Hinges on Probe Results

(Continued From Page One)

further witnesses unless new information is produced.

He also touched on these subjects:

Red China — The President said he cannot guess now as to the possibility of a U. S.-Red China meeting on the foreign ministers level.

Dixon-Yates — Eisenhower disclosed that former Budget Director Joseph M. Dodge, who initiated the controversial project, will go before Congress to tell complete details of the matter.

Most of the newsmen present had shucked their coats, a departure from precedent. It was steaming hot in the room and Eisenhower noted the lack of air-conditioning.

* * *

The President himself was dressed in a light gray double breasted suit with gray tie. He kept his coat on.

Indict Ford Workers

DETROIT (AP)—Five former officials or employes of the Ford Rouge Employes Credit Union were indicted by a Federal Grand Jury today for alleged conspiracy to defraud the Credit Union.

The Day in Birmingham

Planning Commission Elects Dr. George Marin

BIRMINGHAM—With only four members present at last night's meeting, the Planning Board elected Dr. George Marin as its temporary chairman. He is serving the last year of his second three-year term on the board.

Moving on to the agenda, members adhered to a policy of approving the vacation of alleys in residential areas, and will recommend such vacation to the City Commission in the case of an alley running north from Wallace street.

The alley is adjacent to property owned by W. E. Dove, 640 Wallace, who requested the vacation. The City Commission has already scheduled a public hearing on the matter for Aug. 8.

The board will further recommend that consideration be given to the vacation of other alleys in that area.

In a rezoning request, members debated the merits of two plans for providing parking for a proposed business at the southwest corner of Larchlea and West Maple Avenue.

Petitioners Mr. and Mrs. Manley Bailey asked that their lot directly south of the property they own on Maple be rezoned from single family residence to a parking classification.

Originally they had submitted plans for an access drive and parking on the Maple land, which was selected by Planning officials last night as the best solution to meeting the city's off-street parking requirements.

* * *

Getting rid of the old to make way for the new is keeping Community House workers busy. Mrs. Ewald Schaffer, director, says they've "cleaned house" in anticipation of the rummage sale they will hold tomorrow and Friday from 9:30 a.m. to 4:30 p.m.

On the list of saleable items are records, dishes, pool tables, a grill, a dishwasher, sewing machine, bookcase, victrola, Japanese lanterns, a soft drink cooler and a few sick room supplies.

Mrs. Schaffer said the lost and found department includes "everything from straw hats to ear muffs." The sale was brought about by the kitchen modernization now under way.

* * *

Police Chief Ralph W. Moxley received a verbal pat on the back from both the Automobile Club of Michigan and the City Commission this week.

The Automobile Club informed lawmakers that Birmingham is to receive the Award for Excellence of Pedestrian Record in 1954, through the AAA National Pedestrian Protection contest sponsored annually by the AAA. The city had no pedestrian deaths last year.

Another recent award to come the city's way, was one of honorable mention for traffic law enforcement from the International Chiefs of Police, for which Birmingham competed with cities of similar size.

* * *

James C. Allen of West Maple avenue, accompanied by Mrs. Allen, has been attending the Council of State Government at Mackinac Island, which ends today. Allen is a city commissioner and heads the Michigan Corporation and Securities Commission.

* * *

Lifetime Birmingham residents Mr. and Mrs. Harry J. Johnson of Merrill street, celebrated their 50th wedding anniversary on Sunday, with an open house given at their home by their two daughters.

They are Mrs. Joseph Hauser of Holland avenue and Mrs. T. H. Millington of East Maple avenue. Their late son's only daughter flew from California as a surprise.

Also present were the W. G. Donaldsons of Romeo, who served as best man and maid of honor at the Johnsons' wedding. Mrs. Donaldson is a sister of Mr. Johnson.

* * *

Between $1,200 and $1,500 damages were estimated by Bob Adams of the Bob Adams Shell Station, 120 South Hunter Blvd., after a car struck and knocked down a gasoline pump, setting it on fire early today.

Adams said the recently-installed pump was destroyed and another knocked out of place. They were accidentally hit by a car driven by Warren G. Ulmer of Detroit. Firemen quickly extinguished the blaze.

In another fire, sparks from an incinerator ignited the roof of the W. M. Brown home at 640 Shirley Dr. yesterday, causing an estimated $150 damage, according to Fire Chief Park Smith.

* * *

Wabeek State Bank and Detroit Trust Co. stockholders in Detroit yesterday unanimously approved a merger of the two banking firms, which will now be known as Detroit Wabeek Bank and Trust Co.

The move presents a $170,000,000 consolidation. A Wabeek branch is located here.

Salary Overpayment Returned by Hubbell

An accidental salary overpayment to former Oakland County Sheriff Clare L. Hubbell, which neither he nor the Board of Auditors knew about until 1954 county books were audited, was returned by Hubbell yesterday.

The $134.62 sum amounted to one week's salary, said Auditor John C. Austin.

The error was not detected until the State Auditor General reported on a check of 1954 county records and directed Prosecutor Frederick C. Ziem to secure restitution.

"Hubbell did not know he was overpaid until he read about it in the paper," Ziem said today.

About one wife in four has a job outside the home today compared to 15 per cent of U.S. wives in 1940 and 6 per cent in 1900.

Pontiac City Affairs

Two New Moves Started to Hound Ice Cream Men

Aiming to "hound" ice cream vendors out of the city via an ordinance making life so miserable for them that they will seek less regulated areas, the City Commission last night took the first step to slip two more teeth into the law.

Given first reading was an amendment to the already much-amended peddler's ordinance, this one providing for the removal of all bells or chimes from vendor's trucks. It also calls for a second man on the truck to protect "small children from traffic hazards."

Frankly determined to chase the frozen confection vendors from the city by clamping on irritating and profit-reducing regulations, the commission is taking the round-about action because the courts have ruled the vendors cannot be outlawed directly.

In other action, the commission awarded a $9,100 contract for sidewalk, curb and gutter behind the new City Hall to Fremont Thoe.

REQUEST FILED

A request for a Class C liquor license at 404 Orchard Lake Ave. was received and filed, and the City Plan Commission was given a request for vacating an alley connecting Arlene and Madison avenues.

Approval was given for removal of a portion of Beaudette Park from the master plan so it can be used in connection with the Telegraph-Orchard Lake grade separation.

The commission accepted a deed from Baldwin Rubber Co. for land to establish an alley on four lots in Ferry Farm Addition.

Passed on to the Plan Commission was City Attorney William A. Ewart's request that the planning board be asked to change its rezoning recommendation in connection with a plating company on Short street. A circuit court case is now pending and Ewart feels the plan board's recommendation will weaken the city's case.

Public necessity was declared for sanitary sewers in Baldwin avenue and the alley behind it from Montcalm to Owen, and in a portion of Eastside Park Subdivision.

The commission followed a series of recommendations from the Plan Commission in connection with streets around a new junior high school on the north side. Of main importance was the planned extension of Joslyn avenue to Mount Clemens street.

ESTIMATES GIVEN

Engineer's cost estimates were given and public hearings set for next Tuesday for the following:

Curb, gutter and drainage on Kinney road from Oakland to Stanley.
Combined sewer on Hollywood avenue from Kennett to St. Louis, and on St. Louis from Hollywood to Baldwin.
Curb, gutter and drainage of St. Louis avenue from Baldwin to Hollywood.

The city assessor was authorized to prepare special assessment rolls for the following after public hearings were held:

Curb, gutter and drainage on Anderson street from Elm to M.A.L. Railroad.
Curb, gutter and drainage on Edna avenue from Telegraph to Dawson Mill Pond.
Curb, gutter and drainage on Park Place from Hovey to O'Riley.
Curb gutter and drainage on Marshall street from Elm to M.A.L. Railroad.
Sidewalk on east side of Marquette street from Nelson to Edison.
Sanitary sewer on Russell street from Osmun to north line, Murphy Park.

Confirmation was deferred on a special assessment roll for sidewalk on both sides of East boulevard from Perry south to the west lines of two subdivisions.

A hearing was set for next week on special assessment rolls for curb, gutter and drainage on Elm street from Marshall to point east of Going; Edward street from Myra to Orchard Lake, and Nebraska avenue from Bagley to Franklin road.

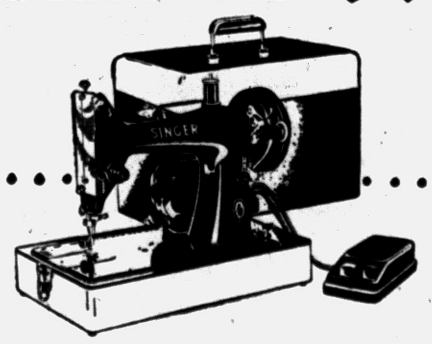

Special assessment rolls were confirmed for the following:

Black-top on Bondale avenue from Earlmoor to east line Woodward Estates Subdivision.
Black-top on Harrison avenue from Franklin to Bagley.
Curb, gutter and drainage on Ypsilanti avenue from Baldwin to University.
Sanitary sewer:
Arlene street from Perry to First.
Madison avenue from Arlene to Fuller.
Mansfield avenue from Arlene to Fuller.
Tennyson avenue from Arlene to Fuller.
Beverly avenue from Arlene to Fuller.
First avenue from Arlene to Fuller.

Deleted from the 1955 capital improvements program was a curb, gutter and drainage project on Ivy street from Perry to Kennett. Three applications from sewer and sidewalk contractors were disapproved.

Alaska Called 'The Happy Marrying Ground'

By PHYLLIS BATTELLE

ANCHORAGE, Alaska (INS) — Alaska is the land where a girl can latch onto a marriage proposal without much ado. The record, reportedly eight hours and a few decisive minutes, was set in '37 by an Idaho doll thereafter known as "Mushy Molly."

* * *

It should be noted here, however, to prevent a romantic rush that might upset the economy—not to mention the local girls—that self-support, while you're hunting a man, comes high.

Until a girl meets a man, she must pay from $100 to $200 for a respectable unfurnished apartment.

To keep up her health and good looks, she must eat plenty of vitamins, and vitamins are premium priced in Anchorage. Milk, 40 cents a quart; eggs, $1.25 a dozen; lettuce, 80 cents the head, and meats are plain ridiculous unless you like roast mountain goat or swan's neck in season.

"But the greatest problem of all," says Beverly Reed, a 26-year old schoolteacher from Lincoln, Nebraska, "is that jobs are not so easy to get anymore, and a girl could run out of subsistence before she runs into the right man."

Beverly, a blonde and wholesome home economics instructor, arrived here three summers ago with three Lincoln lassies who were, like herself, tired of the well-ordered structure of society in Nebraska. They were not looking for men, at least consciously. "We just had itchy feet, is all," she says, "like the old pioneer gals."

DROVE ALCAN ROAD

They packed up, three schoolmarms and a doctor's receptionist, in a car and drove the Alcan highway for seven days, and here they were.

Of the four, two fell in love with young men and got married. Beverly fell in love with Anchorage and got a job. And the remainder got homesick and returned to the States.

"It is very, very easy to have as many dates as you want here, I suppose," Beverly says, musing about her unwed state. "But I would say that the chances of finding a suitable man—one who has the same interests as you do, and so on—are just about the same as they are in Lincoln.

"And the dangers of getting involved with a married man who is away from home and lonely are 100 per cent higher."

No one can actually pin down the ratio of men to women in the Anchorage area, but it seems to add up to about one and one-half man per woman in the metropolitan (30-thousand pop.) area. And if you include the Army and Air Force installations, it rounds out to maybe 50 to one.

* * *

"Even so . . . " and Beverly Reed's voice tapers off skeptically.

Because of her attractive personality and well-educated brain, she had no truble finding a job as ticket-agent with Northwest Airlines, which flies big DC-6Bs into Anchorage from Seattle daily and does enough business to employ from 10 to 12 girls at all times. But she had to answer plenty of questions on why she was coming to Alaska, what she had heard about Alaska before coming, and so on.

JOBS SCARCER

"Employers," she points out, "don't want to hire women if they feel they might have just another girl looking for a happy marrying ground. It is not conducive to efficient output."

Fortunately, all city jobs and Civil Service jobs at the military bases allow a 25 per cent cost-of-living increase for the ladies who come here, to help meet the upped prices of imported foods, clothing and rents. But jobs are not so easy to find now, she adds, because the word has gotten round that this is not such a rugged settlement and for the last two years the girls have been flooding in from everywhere.

"We even have TV stations, you know," she says proudly, "and in case you're a trifle persnickity about your dates, a television set is a great help to keep you from being lonely."

On dates, the girls in the summertime go golfing (you can usually play until 10 p.m. when the sunlight gets a bit dim), and fishing ("I never liked fishing because I couldn't catch anything, but here you can't help getting fish"), and to the movies.

* * *

In the wintertime, when it is dark from 1 or 2 p.m. on, she says, the gals ski, ice-skate, go to movies, "and so on."

About 600,000 matches are struck every minute of the day in the United States.

Noncommittal British

LONDON (AP)—A British airline asked 300 passengers in a questionnaire: "Are you in favor of backward or forward facing seats?"

Nearly half replied: "Yes."

Hal Boyle Says:

Morning Brings Forth the Best in Menfolk

NEW YORK (AP) — Curbstone reflections of a pavement Plato:

What is a man's time of day — and a woman's time of day? When do they feel most important?

Everybody knows that weather affects people and they talk about it a lot but very little has been done about it. And little has been written about the way different periods of a single day affect the contrary sexes.

My theory is that, basically, morning is a mascuine time — and that evening is a woman's hour.

Right or wrong, here's the idea:

Noon to man is morning.

To a woman morning is duty. . . taking care of the baby . . . bringing her husband tea in bed (does not every wife do this still?), then routing him out and serving him a hot meal and sending him off to his daily chores.

Morning is twilight to a wife. This done, she crawls back into the vacated bed space left by her husband and dozes in the male warmth he's left — sleepily alert for the baby's awakening movement or dawning cry.

But once he is a-foot and pawed the sleep out of his eyes, morning is a magnificent adventureland for a man. It's his time, his prime.

* * *

He steps out his front door . . . and back through 20 centuries . . . or 30 hundred centuries.

He lifts his nose and tones the air like a dog. His shoes touch the earth and he feels the crunch up to his temples. He is miraculously aware, every sense is honed, he is a fluid part of the morning. Nature has given him the pep pill she thinks he should have at the time she thinks is best for him — and, well, she's still the doctor.

* * *

It was night only so soon ago, the last lonely depths of night when people who maybe once counted sheep to go asleep now count their breaths to stay alive . . . and become weary, and cease to count, and do not count again ever.

The temperature falls. A coolness spreads. Usually a breeze springs up, and whatever it touches it stirs to the limit of being. To leaf or man it says, "Now is the time to arise and move."

* * *

Morning has a special magic to a man. An energy flows through him then that doesn't at other hours, when his will to endure the old or dare the new is subjected to the quiet discipline of the sun's hot yellow thumb or the doubts that crowd the dark.

Forever a man remembers morning, when he stood on a peak and, whether he knew what he saw or not, at least wasn't afraid to look in all directions.

* * *

Across America if, in any town, large or small, you will stroll through any public park in clear weather just before the sun begins to ride the sky you will often see old men. They may be just strolling, or, if the benches are dry, they'll just be sitting, admiring the new day, or remembering an earlier one.

HONEY QUEEN—Roberta Dyer of Detroit was named Michigan Honey Queen by the Michigan Beekeepers Asso., during their meeting at Ionia, Mich.

You will see few old ladies abroad at that hour, nursing their cats, although there are more old ladies than there are old men. And it isn't because the old ladies are afraid to be out at that time. If old ladies are afraid of anything, it is to be alone in houses at night.

* * *

The elderly men hobble out, not because their beds are uncomfortable, but because of a pull deeper than they know.

They may be retired from a job, but they are called forth by the majestic summons of morning, as all men are, and they live again earlier mornings gone before, in the days when they cast a longer shadow than they do now at sunset.

* * *

Morning always has blown a bugle cry to the heart of man, and will forever on this spinning earth until it halts, and we all fall off.

Pontiac Libraries Add 18 New Books

Eighteen new books arrived at the Pontiac Municipal Libraries this week, librarian Adah Shelly reported yesterday.

Included in the new selections are a dozen works of adult nonfiction and six books of adult fiction. They are:

Adult Fiction

Beast in View, Margaret Millar
Father Vikenty, Paul Chavchavadze
The House That Died, J. E. Gill
The Man in the Gray Flannel Suit, Sloan Wilson
Portrait With Love, S. L. Jenkins
Search the Dark Woods, Myrick Land

Adult Non-Fiction

The ABC's of Play Production, Howard Bailey
All About Aircraft, D. M. Desoutter
The Care of Your Skin, Herbert Lawrence
The Cranbrook Booth Family of America, H. S. Booth, comp.
Engineering Mechanics, Archie Higdon
Eden, the Making of a Statesman, A. C. Johnson
Famous Signers of the Declaration, D. H. McGee
The Land They Fought For, Clifford Dowdey
Out West, J. W. Schaefer, ed.
Tiger of the Snows, Tenzing Norkey
Western Europe in the Middle Ages, J. R. Strayer
The World's Fighting Planes, William Green

Employment Peak Set by Chrysler of Canada

WINDSOR, Ont. (AP)—Reporting all-time record employment levels, Chrysler of Canada has announced that for the first time in the history of the corporation, the number of employes has passed the 10,000 mark.

Of this number, there are approximately 9,400 employed in Windsor, also a new record.

The corporation said the new figure is an increase of 66 per cent over a year ago.

New Township CD Directors Appointed

Two new township civil defense directors have been appointed, according to Oakland County CD Director Lewis C. Jarrendt.

Charles Morell, of Rochester, has taken over from John Marmon, of Rochester, as Avon Township director. Morell's jurisdiction does not include Rochester.

Edward J. Bossardet, of Oxford, has begun duties as Oxford Township director. The post had been vacant for three years.

IT'S PERFORMANCE THAT COUNTS!
CAPTAIN JAMES E. FRANKUM uses Phillips 66 Flite-Fuel

"I fly one of Trans World Airlines' new Super-G Constellations. I know that Phillips 66 Aviation Gasoline delivers top performance, because I fly with it regularly. One reason it's so good is Di-isopropyl.

"In my car, I use Phillips 66 FLITE-FUEL. It's the only *automobile* gasoline with added Di-isopropyl. Like Phillips 66 Aviation Gasoline, FLITE-FUEL always delivers top performance . . . *and it's performance that counts!*"

James E. Frankum
Captain James E. Frankum, Trans World Airlines

Flite-Fuel puts the Accent on Performance!

Accent on Higher Octane! Both new FLITE-FUEL and new Phillips 66 Gasoline have been fortified for increased power and higher octane. New FLITE-FUEL is the only gasoline to which is added the super aviation fuel component Di-isopropyl. And today's FLITE-FUEL is better than ever.

Accent on Long Mileage! Proven ability to deliver long mileage under all driving conditions is another reason why FLITE-FUEL has won new users at a record breaking rate. Prove it in your own car, with your own gas gauge.

Accent on Cleanliness! Today's new FLITE-FUEL and new Phillips 66 Gasoline are made with high purity natural gasoline components which *burn clean.* So they don't need an anti-fouling additive.

It's Performance that Counts! And the way to judge gasoline performance is *in your car.* Drive in today for a tankful at your neighborly Phillips 66 Dealer's.

Okinawa Prime Target in Event of Asian War

KADENA AIR BASE, Okinawa (AP)—Ask the name of the most likely—and most vulnerable—target for the Communists in any all-out war in Asia and the answer probably will be Okinawa.

Its importance speaks for itself.

Only 380 air miles east of Shanghai, it's the nearest U. S. base to Communist China's industrial complexes spread along the central mainland coast.

This is one reason Okinawa has been developed as the forward base for the Strategic Air Command's big B36 superbombers and B47 jet medium bombers.

It also is home base for two jet wings of the 5th Air Force and the central link in a huge air defense radar network arching across the Pacific.

* * *

The Army governs the island, but militarily speaking, it's an Air Force show.

Its proximity to China probably serves as the best existent deterrent at this time to any warlike ideas Peiping might entertain. Conversely, the Communists by overt aggression could use Okinawa as a base from which to launch attacks on U. S. bases guarding the western approaches of the United States.

The Army keeps a regimental combat team on the island. There are also two antiaircraft battalions and a regiment of Marines which just moved here from Japan.

Present plans call for the movement here of the rest of the 3rd Marine Division—less one regimental combat team now in Honolulu.

* * *

The Army could also use Okinawa to stage troops for movement elsewhere. It could accommodate at least seven divisions.

How do Americans on Okinawa feel, being so close to the front lines?

They're not worried.

"If they bomb us here, they're going to have to bomb us in Chicago, Detroit or Los Angeles too," says M. Sgt. William MacMillan, who flew in B26s in the Korean War.

His is the stock answer on Okinawa when airmen and soldiers are asked about the safety of their more than 9,000 dependent wives and children who live here.

"We feel a man is going to be a better soldier if he has his family with him and his morale is good," says Maj. Gen. James Moore, the Army's deputy governor for the Ryukyus command.

* * *

Americans here have good reason to feel safe.

Day and night, the roar of the swift, all-weather F86 Sabre Jets rumble across the Ryukyuan skies, guarding the approaches to this strategic outpost.

On the ground at Naha, the Okinawa Air Defense Command keeps a close eye to the west. Radar stations are tactically set throughout this archipelago which stretches from the southern reaches of Japan to the waters above the Nationalist stronghold on Formosa.

Sabre Jets of the 51st Fighter Interceptor Wing can be scrambled within five minutes to investigate any unidentified aircraft which shows up on the air defense radar screen.

There can be no delays, says Col. Hilmer Nelson, deputy commander for air defense on Okinawa.

* * *

"High-performance enemy jets, flying with the jet stream which moves south during the winter months, could be over Okinawa in 25 or 30 minutes," he says.

"That doesn't give you much time to get your planes alerted and at the target before he can hit you."

Nelson's nerve center can trigger air defense warnings for U. S. bases in the Philippines, Formosa, Southern Japan and the mid-Pacific.

* * *

This onetime stepchild of the East military picture is rapidly coming of age as America's most important Pacific bastion—and it looks more permanent every day.

With the shift in important military and political developments to Southeast Asia, there are those here who look for eventual transfer of Far East Command headquarters from Tokyo to Okinawa.

Next: Forces on the Line

Gyroscope Wife Settles in U.S.

German Bride Moves Household 5,000 Miles in Troop Switch

FT. RILEY, Kan. (AP)—Blue-eyed, auburn-haired Emilie Turney has just finished the task of moving her household—some 5,000 miles.

Emilie is an Army wife whose husband is among the thousands of soldiers participating on Operation Gyroscope. In this gigantic move, 9,000 members of the 1st Infantry Division in Germany are trading places with the 10th Division at Ft. Riley.

The vanguard of the 1st Division arrived here Monday.

* * *

Today Emilie, her two children and her husband, C.W.O. Vale Turney, are established in a rented house in nearby Junction City—and already are talking about buying a home of their own.

Emilie's task of setting up a new household in the United States has an added complication. In addition to her household duties and caring for her 16-month-old daughter Patricia and 4-month-old son Billy, she has a language barrier.

A German girl, she speaks and understands a little English but her husband still must interpret fast-moving conversation for her.

She loves the supermarket. "It's good, fine. You can buy anything there," she said.

* * *

She added that over here "everything's bigger — the shops, the cafes—but the service is not equal to Germany. A young man there has an apprenticeship — studies three years to be a waiter. Dresses cost less here, but they're made better in Germany, I think."

With her husband's coaching plus special classes at Ft. Riley to help the wives adjust to life in America, the Turneys figure the language problem will be solved shortly.

* * *

Unmarried soldiers had few problems. They went to barracks to live.

Almost 200 enlisted men and officers, plus 31 dependents, were in the group arriving Monday. Two smaller advance units came earlier. The movement will continue into December.

Slapping Witness Adds Extra Time to Arson Term

WINSTON-SALEM, N. C. (AP) — Doris Gordon, 20, started out of Superior Court yesterday to face a two to three-year prison term for setting fire to the apartment house in which she lived.

A few minutes later she faced another one to two years.

On the way out she gave state witness Louise Stanton a resounding slap on the face.

Judge Walter E. Johnston rapped for order, reopened the case and told the woman she was getting more prison time to cool her temper.

Mrs. Gordon admitted setting fire to her husband's clothing June 19 after an argument in their apartment.

Paralyzed Couple Wed in Catholic Church Ceremony

CAMARILLO, Calif. (AP) — A couple sharing the mutual tragedy of paralysis of the legs rolled into St. Mary Magdalena Catholic Church in wheel chairs and were married yesterday.

Margaret Elizabeth Flynn, 24, was stricken with polio six years ago just after graduation from Santa Clara High School in nearby Oxnard.

William Lee Doctorman, 27, was paralyzed 11 years ago in a hunting accident near his home at Christopher, Ill. He now is a graduate of a Los Angeles radio-television school and is seeking a career in electronics. He drives a hand-controlled car.

The couple met four years ago when both were paralysis patients at the Kabat-Kaiser Institute in Santa Monica.

Israeli Plane Lands as Bulgar Guns Fire

TEL AVIV, Israel (AP) — An Israeli Constellation airliner carrying 50 passengers and a crew of seven made a forced landing today in Bulgaria after being fired upon by Bulgarian antiaircraft guns, an airline spokesman said.

The plane had taken off from Vienna's Schwechat Airport early today for Istanbul — its last stop before proceeding to Lydda, Israel.

Bulgaria has an air corridor over which certain planes are permitted to fly on the Vienna-Istanbul route.

The Greek - Bulgarian frontier area is mountainous and politically touchy. Relations between Greece and Bulgaria have been poor for years.

Tin cans are actually about 99 per cent steel.

new floor beauty!

Made with Alki-therm Qt. $1.85

It's easy to keep your floors "new looking" with O'Brien's Floor and Deck Enamel. Use anywhere — indoors or outdoors — on wood or cement. Easy to use. Dries quickly. Lustrous finish is extra tough, extra durable. Resists hard wear. In 10 popular colors.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

WEDNESDAY, JULY 27, 1955

Senate Should Stand Pat on Foreign Aid Funds

In an overwhelming vote the Senate gave President Eisenhower an important victory by restoring virtually all the funds cut by the House from his foreign aid bill.

The final vote on the measure was 62 to 22. This leaves the total funds in the bill at $3,205,841,750, or only $60,800,000 less than the President had asked. The House had cut the total to $2,638,741,750.

★ ★ ★

Contrary to the pattern of recent months, more Republicans than Democrats voted with the President in the upper House. During the long debate six separate attempts to take large bites out of the total appropriation were rejected with the votes crossing party lines.

The result is that before the week is out there will be a red hot conference fight over the House and Senate versions of this bill. That was assured when floor managers in both chambers announced they would stand by their respective appropriation totals.

★ ★ ★

The President asked for no more money than he felt he needed to carry out that phase of his foreign policy. For that reason we think the Senate's stand on this issue should prevail.

Iowa's Russian Guests

The favorable atmosphere which has prevailed is an outstanding feature of the Russian delegation's tour of Iowa farms.

Not only have the Soviet visitors been accorded the utmost in hospitality, but they have responded with gifts and warm friendliness. This atmosphere of good will has helped the Russian experts in their search for the secret of how their hosts turn tall corn into number one hogs at a handsome profit.

★ ★ ★

The very fact of their visit and every question they ask are admissions that something is sadly wrong with the collectivist agriculture of their homeland. Not even unqualified acceptance of Marxist doctrine, we suspect, could blind these visitors to the fact that the profit incentive is a large part of the secret of capitalist Iowa's farm prosperity.

★ ★ ★

Incidentally, it is a pleasure to record that American farm visitors to the Ukraine are receiving an equally cordial welcome. Everywhere they go the roads are lined with cheering crowds. At a banquet given by the Ukrainian Scientific Research Institute for Animal Husbandry, the menu included vodka, champagne, caviar, steaks, fresh raspberries and ice cream.

There is much to be said for these farm tours. Beyond question they will increase American-Russian understanding. That, in turn, cannot help but improve the possibilities for world peace.

Reclaiming Negeb Desert

Completion a few days ago of a 65 mile pipeline marks an important step in an ambitious project aimed at reclaiming the Negeb Desert in southern Israel.

Through this pipeline will flow the waters of some 400 springs to irrigate that arid waste. By next Spring it is hoped that 50,000 acres can be reclaimed for agricultural use. Eventually the government expects to irrigate 50,000 additional acres, serve 60 settlements and support 25,000 Israeli families.

★ ★ ★

Back 2,000 years ago in the Roman era settlers in the Negeb hills irrigated the soil with water stored in underground cisterns. Only partial success was achieved a few months ago with a revival of that method at Sde Boker, south of Beersheba. That experiment, however, proved the need for a well financed, large scale reclamation effort.

★ ★ ★

With sympathetic support of the United States, the Israeli government and Jewish agencies in Israel and abroad, this epic project became a reality. Work already done gives promise not only of making waste land bloom but of returning incalculable benefits to the young republic of Israel.

Beware of These Fakers

William Aho, Pontiac's parks supervisor and former city forester, has issued a timely warning against "traveling tree surgeons" who say they can cure Dutch elm disease.

★ ★ ★

He says there is no cure. Pointing out that it is a fungus and is spread by elm bark beetles which thrive on dead wood, he said one effective control method is careful pruning. He also advised against allowing elm firewood to accumulate in back yards as the beetles likewise thrive there.

The other control measure is twice yearly spraying. For this purpose a 12 per cent solution of DDT is used when the trees are dormant and six per cent when they are in leaf.

★ ★ ★

Dutch elm disease is a growing problem here. There were only two cases in 1953, 30 in 1954 and so far this year there have been 50.

If you want to help fight this pest, remember that only pruning and spraying get results.

The Man About Town

'Vacation States'

Many of Their Residents at Lakes in the Pontiac Area

Child: A person sentenced to grow up to be an adult.

The lakes in the Pontiac area are favorite vacation spots for the inhabitants of other states, not only with those who may own cottages upon their shores, but also with those visiting with permanent residents there. A check during the past month on out-state license plates on 257 cars parked at homes on 12 lakes shows a great many from other so called "vacation states." The lakes were Cass, Orion, Pontiac, White, Oakland, Williams, Union, Walled, Cooley, Silver, Wolverine and Watkins. The plates were divided as follows: California, 21; Florida, 20; Texas, 19; Ohio, 17; New York, 17; Illinois, 15; Pennsylvania, 13; Indiana, 11; Ontario, 10 Wisconsin, 10; Georgia, 10; Kentucky, 9; Tennessee, 8; Missouri, 8; Alabama, 7; Louisiana, 6, and the other 56 were divided among 17 states.

The people of our nation could all go riding at one time in automobiles with none of the rear seats occupied. And a casual observation most any evening on Pontiac's streets makes us wonder if our young people are not trying to do it.

Sometimes when our plans may be given a knock by the weather,

Lyle Abel,

County Ag. Agent, suggests that we soft pedal our complaints—perhaps our farmers need the rain. And they're feeding us.

Celebrating her eighty-sixth birthday next week,

Giving Him a Rough Time

David Lawrence Says:

Inquiry Into Talbott's Business Interests Revives Old Question of Ethical Conduct

WASHINGTON — Just what is "ethical" or "unethical" in the day-by-day conduct of persons who enter the government service from business and the professions?

The case of Harold Talbott, secretary of the Air Force, sharpens the issue. He told the Senate committee, when he was confirmed for his present post in 1953, that he was giving up all his connections except one, his special partnership in Paul B. Mulligan & Co., a management engineering firm. He said in recent testimony that he had not in any way promoted business for the Mulligan company in connection with Air Force contracts.

Testimony was adduced that Mulligan had solicited business from contractors who had defense contracts with the government, and some of them had a negligible amount with the Air Force. Was it ethical for Talbott to continue this partnership after his confirmation, and should the Senate committee have told him that it was unethical when he was confirmed? Should any official engage in a sideline of a money-making nature while drawing a salary from the government as a full-time employe?

The late President Franklin D. Roosevelt didn't see anything improper in allowing his private secretary, Louis Howe, to receive more than $1,000 a week from a public utility company for a broadcast over a national radio network. Nor did Roosevelt see anything improper in intervening from the White House with business men to help his sons in their commercial endeavors.

UNDER DEMS

But all of this was under a Democratic administration. Officials of the Eisenhower Republican administration are supposed to be above such things.

It develops, however, that Talbott, while secretary of the Air Force, wrote letters to friends of long standing and told them about the services of the engineering company, which it appears saved a lot of money for its clients because of the introduction of efficient methods.

If Talbott's action is considered now to be unethical, what was the responsibility of the Senate committee which confirmed him and failed to look into it?

GET FEES

Many members of Congress act as attorneys in local and state courts for labor unions as well as corporations, and receive fees while they are serving in the House of Representatives or the Senate. Is it ethical for this practice to be continued?

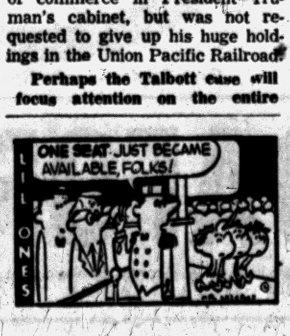

Many members of Congress make speeches and receive large sums as "honorariums." Some of these fees come from labor unions and from trade associations, many of which are interested in legislation pending before Congress. Is it ethical for members of Congress to accept such fees?

Averell Harriman was secretary of commerce in President Truman's cabinet, but was not requested to give up his huge holdings in the Union Pacific Railroad.

Perhaps the Talbott case will focus attention on the entire issue of ethics in the government, but the biggest single phase will probably not be touched. It is that substantial contributions to campaign funds of members of Congress are made by individuals connected with companies or labor unions which have a continuing interest in legislation before Congress. Until and unless Congress passes a law prohibiting campaign contributions in excess of a nominal sum—$10 or $25—members of Congress will still be beholden, theoretically at least, to the large campaign contributors.

This correspondent many years ago suggested that campaign contributions be limited by law to very small sums, but the argument has always been made in rebuttal that the cost of soliciting small contributions is prohibitive and consumes virtually all the receipts. The fact is that it has never had a trial, and that's about the only way to resolve the issue.

Examine Wrist for Signs of Potential Skin Wrinkles

By WILLIAM BRADY, M.D.

Numerous fine furrows, markings or wrinkles in the skin on the front (palmar surface) of the wrist of a young person, or on the back of the wrist of an elderly person, give the appearance of a pavement of diamond or lozenge shaped tiles, even in a person of better-than-average nutritional condition.

* * *

Now, if you scrutinize your wrist closely, with or without a magnifying glass, and discover this pavement appearance, remember it is just a characteristic of the human race. Even the "smoothest" skin of the entire body is more or less covered with such potential wrinkles.

Whether these incipient or potential wrinkles will mature early or late depends, not on what kind of soap or cream you use, but on your nutritional condition.

Nutritional deficiency—which the old-timers called "malnutrition"—whether from illness, ill-advised "dieting" or substituting the tea-and-toast, coffee-and-roll-or hot-dog-and-pop snack for an adequate breakfast, inevitably changes the smooth, soft skin of youth into the wrinkled, dry parchment skin of age.

MASSAGE USELESS

Wrinkles cannot be rubbed or massaged away.

No oil, cream or hormone applied to the skin can be absorbed and utilized as food or nourishment for the skin or any other part of the body.

* * *

No lotion or liniment applied to the unbroken skin "penetrates" the skin or enters the body to "get to work."

In fact no medicine, drug, chemical, food, oil, vitamin, mineral or other substance that does not itself burn, blister or break the skin is absorbed when applied to or rubbed on the skin.

Many times I have offered to submit my skin to a properly controlled test of this, before any scientific committee but it seems that the people who profit from the notion that the skin absorbs things had rather let the lie lie.

In an earlier piece I said that milk is the best food source of riboflavin (formerly called vitamin B2 or vitamin G)—Grade A Raw from tuberculin-tested herd, any milk scalded (brought to a boil for one minute or less) or pasteurized (which means par-boiled, heated to about 145 degrees F. for 20 to 30 minutes and then cooled again), evaporated milk or dried milk.

RIBOFLAVIN NEEDED

I quoted the dictum of McCollum that an optimal intake of riboflavin "tends to preserve the characteristics of youth."

One of the characteristics of youth is a good complexion. So the daily consumption of at least three glasses (1½ pints) of milk is a must for anyone who wants to prevent premature wrinkling of the skin.

Many complaints about the poor condition of skin, hair and nails are manifestations of the national malnutrition, due principally, I believe, to inadequate daily intake of three vitamins and three minerals, namely, thiamin, riboflavin and D, Ca, P and I. In the pamphlet Young Folks and Old Folks, for which send stamped, self-addressed envelope, I tell how everyone who has to subsist on the ordinary refined diet of most Americans can supplement his diet with these six essential factors—essential for good nutrition.

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. William Brady if a stamped, self-addressed envelope is sent to the Pontiac Press, Pontiac, Mich.

(Copyright 1955)

Case Records of a Psychologist

Young Sailor Advised to Go to College Rather Than Get a Job and Buy a Car

Joe is finishing four years in the U. S. Navy but he is going to cheat his wife and children out of an extra $10,000 if he doesn't take advantage of the free college education Uncle Sam offers his soldiers and sailors. Study this case; then send for the booklet below. Don't let greed for a jalopy blind you to facts.

By DR. GEORGE W. CRANE

Case 0-393: Joe K., aged 22, is a sailor who sat beside me when I flew to Anderson, S. C., recently.

"How much longer do you have in the Navy?" I inquired, and he told me he had only six months left of his four years.

"What do you plan to do then?" I casually asked.

"Oh, I'm going to get a job in a textile mill and buy a car," he added.

"Are you a high school graduate?" I continued, and he said he was. "Then why don't you go on to college, at least for one year?

"Uncle Sam will pay you about $110 per month, if you do, and it will be worth an extra $10,000 to you in the years to come."

* * *

"Well, I don't know," he replied, hesitatingly. "I have a buddy who got out last year and he's at Clemson University. He's been urging me to go to school, too, so I might do that."

NEED BEN FRANKLIN

"An investment in knowledge," said wise old Benjamin Franklin, "always pays the best dividends."

So I told Joe this fact. Then I reminded him of what would be true in a year if he went directly from the Navy into a textile mill.

He wouldn't have a penny left from his year's pay checks, but would have an automobile, partly paid for, but now a used car even if he had purchased it new, when he entered the mill.

Against that, if he went to college he'd have a year of higher education to his credit.

"Now, Joe, which do you think will give you more leverage for

prying out better jobs or bigger pay in the future—your half paid-for car, or that year in college?"

He confessed that the college would probably be worth more.

* * *

"You're right," I added, "for that automobile will be in a junk yard within five years, and of no value to you the next 40 years. But the year of college will be lifelong job insurance.

JOB INSURANCE

Then I explained how business and industrial firms operate. Suppose they advertise "Help Wanted".

Maybe 100 men apply. But they might need only 10, so how do they weed out the 90 in a hurry?

"How many of you are high school graduates?" is the first query, and maybe 50 report they have their diplomas.

"Sorry, we don't have anything available at the moment, says the personnel manager to the 50 lacking high school diplomas.

"But we'll keep your names on record and if anything opens up later on, we'll get in touch with you."

That's a diplomatic "runaround". It gets rid of the 50 who are deemed either too dumb or too lazy in this competitive modern age to take advantage of the free education America offers everybody through high school age.

ONLY TEN NEEDED

Now the original 100 applicants are down to 50, but the firm needs only 10 men.

"How many of you are college men?" is the next query, and if 25 are not, they are tactfully steered out the door, like the 50 men who lacked high school diplomas.

The remaining 25 are then given aptitude and achievement tests and weeded down to 12 or 15, who may finally receive personal interviews from the big shot of the company.

So a high school diploma and at least one year of college enable you to hurdle the first two obstacles to good jobs in the future.

Send for my "Vocational Guidance Kit", enclosing a stamped return envelope plus a dime, and see how to insure your future 45 working years.

Always write to Dr. George W. Crane in care of The Pontiac Press, Pontiac, Michigan, enclosing a long 3c stamped, self-addressed envelope and a dime to cover typing and printing costs when you send for one of his psychological charts.

(Copyright 1955)

Voice of the People

Wants Interstate Permits for Vacationing Fishermen

Letters will be condensed when necessary because of lack of space. Full name address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature

Having been an employe of General Motors plants in Pontiac for 26½ years, I am enjoying retirement and social security.

However, I find that we cannot dunk a worm in a roadside puddle in any state without a non-resident fishing license. Each state requires a license ranging from $3 for ten days to $5 for seven days.

Many times we won't be in the state more than two days and would enjoy an hour of fishing, but the price is too much, particularly since each individual must possess a license.

May I appeal to the Press, the Conservation Department, the Sportsman's Clubs and the recreation department of the CIO to sponsor a program to provide a fishing license which would be recognized and honored wherever and in the same manner the auto license is accepted.

While traveling we patronize the motels, gas stations, and spend plenty on food. We put a little wear and tear on the highways which we pay for in the form of gas tax and car license.

But when it comes to fishing, it's plain flattery to suggest that one who has spend his life working six or seven days a week might deplete the trout streams. For instance, in Oregon I spent $36 for cabins and $6 for bait and caught two fish. Of course, there was more or less wear and tear on the water, but it's still usable.

Bright Smiles at Geneva Won't Erase Tenseness

By MERRYLE S. RUKEYSER
INS Economic Commentator

Perhaps the significance of the Geneva summit talks can be better grasped if they are examined in the realistic spirit in which securities are appraised in Wall Street.

* * *

The competent security analyst, in judging corporate investments, looks beyond the publicity pageantry and the ballyhoo to the visible actualities and the reasonable expectancies for the future. The usefulness of the analyst, or investment counsel, depends on his ability to steer a middle course between the recklessness of the speculator, on the one hand, and the futile search of the timid soul for a riskless financial adventure, on the other.

* * *

Maybe the leopard can change his spots, but the late Henry Proudfoot, keeper of the records of the ethics and standing of security vendors, once told me that his own efficiency was high when he related conclusions about men and firms to their history as recorded on his office cards, but that his blunders occurred when he listened to the siren-cry of those who implored him to overlook their early career and give weight to their recent virtue.

NEED SELF RULE

Instead of getting lost in a mass of detail, it should be apparent that the free world would be vastly more flexible and compromising toward the East if those peoples took over and instituted democratic self-government. In such circumstances, their signature on notes, bearing promises for the future, would be accepted at par, whereas under present circumstances they are quoted at a tremendous discount reflecting awareness of past duplicity and intrigue, as recorded since the Bolshevik October Revolution in 1917.

* * *

When the Bolsheviks took over they recognized a conflict between their label, People's Government, and the reality of a dictatorship by the elite in the Communist Party. They purported to resolve the dilemma by presenting the dictatorship as a temporary trusteeship to rule in the name of the people until they were trained for self government.

But more than a generation has since elapsed, and it is high time for the conscience of the world to present a note payable and remind the Communist rulers of their commitment to end the temporary trusteeship.

BEST TIME NOW

The time is now more propitious for this than in the past. The dictator Stalin was oversold as an image and as a symbol. When he died, the Soviet leadership was left without a trade-mark, and that is one of the circumstances that contributes to a more conciliatory tune.

On top of that, the Marxian dialectic expectation of a windfall in the form of a postwar economic collapse which the Communists had vainly predicted for the United States has upset the timetable. If the pressures behind the Iron Curtain for peace and properity are genuine, the way is open for international conciliation.

Though reluctant to substitute the pledged word of the commissars for physical defense measures, the West would put a vastly higher credit rating on the promissory notes of democratically run countries in the East.

While coexistence with heterogeneous societies is theoretically feasible, this is quite different from asking prudent statesmen to forget what they know, and hence be willing to rely on promises of those who historically have kept them only when convenient.

Portraits

By JAMES J. METCALFE

Our greatest happiness is that . . . We cherish and we yearn . . . That we love people, and we hope . . . They love us in return . . . To be a part of others and . . . To share the daily weather . . . And in so many common ways . . . To live our lives together . . . To ride to work and hurry home . . . When time is running out . . . As Junior and his sister Sue . . . Are gadding all about . . . To hear the ringing telephone . . . And feel no longer haunted . . . By any loneliness, because . . . We know that we are wanted . . . to love and to be loved by all . . . Wherever they may be . . . And hold a place forever in . . . Their fondest memory.

Fire Is Lowest Bidder

BREVARD, N.C. (UP)—After taking bids on the raizing of an outmoded house on the campus, Brevard College took a cheaper way out and had the building burned.

Cooperating was the fire department, which used the flaming structure for a fire-fighting demonstration.

Knows Right People

MILWAUKEE (UP)—The clever campaigning of 8-year-old Karen Heimsch resulted in her unanimous election recently to her school's Student Council. In her platform Karen promised autographs to all her constituents from Eddie Matthews of the Milwaukee Braves. Karen's mother is an aunt of Mrs. Virjean Mathews, wife of the player.

Smarter Collegians

STILLWATER, Okla. (UP)—Today's students have a scholastic edge over those of 20, 40 or 100 years ago, according to research figures compiled by Dr. Reed Russell, superintendent of Stillwater schools. He said college freshmen have proved in tests that they have more "savvy" than students of one and two generations ago.

Electronic Scales

RICHMOND, Va. (AP)—An electronic weighing device is being tested by the Virginia Highway Department and Bureau of Public Roads. It will make it unnecessary for trucks with legal limits to pull off the highway for weighing. But when an overloaded truck crosses the device a red light is flashed at the weighing station and the offending truck will be weighed on regular highway scales.

First Deaf Schools

Clarke School for the Deaf at Northampton, Massachusetts, and New York City's Lexington School for the Deaf, both founded in 1867, started the movement in America to teach deaf children to speak and read lips, the oral method of education.

LOST 45 POUNDS
4 Inches Off Waist Line
Corunna Man Likes Rennel

"I started taking Rennel Concentrate three and one-half months ago weighing 220 lbs. Up to now I have lost 45 pounds and feel a lot better. I eat as much as I did before I started taking Rennel. Not only have I lost weight but I also lost four inches at the waist. I know Rennel is doing me a lot of good. All this has been done with just a very few bottles of Rennel and I will continue to take it until I reach my correct weight," so writes Joe Diguard, Box No. 141.

Results like these are pleasing and necessary to both men and women. Make Rennel work for you. If not pleased with the very first bottle return it to the manufacturer for your money back. Priced at $1.40. For best results get Rennel.

Walt Disney's True Life Adventures

Find Scientists Early

NEW HAVEN, Conn. (AP) — Psychological tests administered to grammar school children could, in time, alleviate the shortage of scientists in the United States, says Frank Auld Jr., assistant professor of psychology at Yale. These tests, Auld adds, would show which children have the talent required to pursue a scientific education.

Harvard Expert Defends Big Business, Mergers

PALO ALTO, Calif. (AP)—Harvard University Economist Summer H. Slichter said today that neither big business nor the recent rash of mergers in business and industry is to be feared.

In fact, he said in an address prepared for delivery to the Stanford Business Conference, there are not enough mergers—"many small companies and companies of medium size could advantageously combine."

Slitcher, the keynote speaker at the annual conference, was discussing the relations of American business and democracy.

He said that business, no matter how large, must grow to offer opportunities to its eemployes and that a business that does not grow "is not a healthy environment for human beings."

As to any belief that big business threatens political and economic liberties, the economists said:

UNFOUNDED

"The argument that bigness threatens our political liberties is without foundation. If there is any one handicap that bigness possesses, it is lack of political influence. Let any group or organization become large and economically powerful and its political influence drops. That is true of both labor and business . . . one thing we need not fear from bigness is loss of our political liberties."

On economic liberties, he said: "There is no evidence to support the notion that big firms in general are able to get a competitive advantage of observing lower standards of business conduct than are observed by their smaller competitors. The fact that a concern is larger than any of its rivals means that most of its policies and activities are conspicuous and must stand up under the scrutiny of competitors, suppliers, customers and government officials."

Public policy with respect both to bigness and to mergers, the economist said, should be one of keeping hands off. He said it would be a "blunder" to attempt to place a limit on the size of business enterprises and it would interfere with the freedom of consumers to buy what they choose.

Newest thing in Room with a View

It's the 4-Door Riviera—
the stunning new hit of America's Hardtops

WHEN Buick introduced this nation's first hardtop—the Riviera—folks went for it, and fast.

They liked the Convertible look of this 2-door beauty—long, low and rakish. They liked the added security of the steel roof overhead. And they certainly liked the absence of center posts in the side window areas—which gave a completely unbroken view left and right.

People liked it all so well that, over the past six years, they made the Riviera the biggest-selling hardtop in the world, bar none. *And it still is.*

Now Buick has come up with another great advance in hardtops—*the 4-Door Riviera*—and it's a sensational hit.

It has everything the original 2-Door Riviera has—plus separate doors for rear-seat passengers, and a whale of a lot more room for them.

Rock-solid *half*-pillars on either side are what latch the front doors and hinge the rear ones. So there's no center post above the door line—*and a completely open sweep of view to both sides.*

And the roominess provided by this gorgeous new hardtop is really something—*over 9 inches more hiproom and 5 inches more legroom in the rear.*

Why don't you come see this brand-new kind of automobile that's heading up the parade of the hottest-selling line of Buicks in history?

That way you can also try Buick comfort, Buick power, Buick ride and handling and roadability—plus the electrifying action of Buick's Variable Pitch Dynaflow.*

Do it this week—tomorrow would be fine—and you'll see what record volume really means in the way of record-high trade-in deals.

**Variable Pitch Dynaflow is the only Dynaflow Buick builds today. It is standard on ROADMASTER, optional at modest extra cost on other Series.*

Thrill of the year is Buick

Woman, 76, Paints Dunes of Allegan From Memory

HOLLAND (AP) — The dune area south of Holland has been captured in oils by the memory and skill of Mrs. James Boyce, 76-year-old great-grandmother from Laketown Township in Allegan County.

Mrs. Boyce has devoted regular hours to her hobby of painting for the past six years. She says she is heeding the advice of her mother who many years ago urged her to plan for a retirement activity.

Since her 70th year, Mrs. Boyce has produced 52 oils of the dune country which has been her home for more than 40 years.

Most of the scenes occupy places of honor in the homes of her children, grandchildren and great-grandchildren. Of her own family of nine children, five still are living, plus 16 grandchildren and 18 great-grandchildren.

PROVIDE MARKET

They provide a demanding "market" for her work.

Mrs. Boyce produced the bulk of her painting in the first two years after she took up painting. Lately, she says she has settled down to an average of about four paintings a year.

Eye trouble, not a slackening of interest, is responsible for a decreased output, she reports. Mrs. Boyce has cataracts in both eyes, and one eye virtually is sightless.

She says judging depth and perspective is more difficult now and she is forced to rely on her memory in order to continue with her art.

Mrs. Boyce is self-taught but judges report there is nothing of the primitive in her work. They call her drawing and perspective excellent, with an accurate grasp of colors that make up her favorite scenes.

WORK SHOWN

Mrs. Boyce has shown her works —mainly at the insistence of her family—at amateur art shows in Western Michigan and in the West. But, family requests also have the paintings in a closed market.

On June 13, she celebrated her 76th birthday with 21 members of her family on hand.

Her children include: James, Allegan County treasurer; Mrs. Willard G. Meengs, whose husband is pastor of Trinity Reformed Church in El Monte, Calif.; Mrs. Robert Pratt of Los Altos, Calif; Mrs. Ben Quinn, of Reno, Nev.; John, of San Francisco, and Mrs. Robert Vandersluis, of Casper, Wyo. Two other sons, Fred and Richard, died in recent years.

Mrs. Boyce's late husband, James Sr., an industrial chemist, was the first to produce vegetable shortening and his process led to the development of oleomargarine, she says.

Meanwhile, despite failing eyesight and a heart ailment which has hospitalized her several times, Mrs. Boyce's painting and bright outlook on life have brought her peace and happiness.

She credits her planned activity with filling years that many find empty.

Says Atlantic Union Is Misunderstood

WASHINGTON (AP)—Mrs. Chase S. Osborn, widow of Michigan's former governor, told a Senate committee yesterday that some patriotic groups have a misconception that the Atlantic Union idea approves world government.

Mrs. Osborn testified before the Senate Foreign Relations Commitee in support of a resolution offered by Sen. Kefauver (D-Tenn) and 14 other senators that the North Atlantic Treaty Organization sponsor an international conference on Atlantic Union.

Patriotic groups are by no means solidly opposed to what is now proposed, Mrs. Osborn said. She added that more than 700 American Legion posts have approved the idea of an exploratory conference.

Sen. Kefauver told the group that such a conference "would electrify free men everywhere" and would also help in current dealings with Russia.

He said delegates should report "to what extent their peoples might further unite within the framework of the United Nations.

The richest lead and silver deposits in the world are believed located at the Broken Hill mines in Australia.

Says to Retire at 65; Begin Working at 66

RICHMOND, Va. (AP)—Men should retire at 65 to make way for youngsters. But at 66 they should go back into something else.

That's the advice of Benjamin D. Margerison, who came to Richmond in 1948 after retiring as a bookkeeper in Yorkshire, England.

He is now a timekeeper for a restaurant.

A colony of beavers can chop down half a dozen young fruit trees in a single night.

Isle of Syke Is Site of MacLeod Reunions

The largest of the Inner Hebrides, off the Scottish coast, is Skye Island. In many respects the island is more Scottish than Scotland itself. The Hebrides have the same tumbled mountains, cliff-lined lochs and dark pine forests plus an unmechanized citizenry that still speaks Gaelic.

During Skye Week, there is a reunion of MacLeods from all parts of the world as Dame Flora MacLeod, 28th Chief of the Clan, plays hostess at the 700-year-old Dunvegan Castle.

Fall for Clever Trap

WINNSBORO, La. (AP)—Hub Dear believes crows are superstitious. This, says Dear, makes them a cinch to kep out of watermelon patche. Just drive stakes at intervals through the patch and stretch string from stake to stake.

"Thinking the string is some kind of trap, he will not light in the patch where the string is placed," said Dear. "The crow is a smart bird but he is also very superstitious."

Dear discovered this version of the traditional scarecrow in 1917 and has used it since.

Wind Tunnels Tiny but Rough

Small Device at UM Can Tear Off Heads Despite Small Size

ANN ARBOR (AP)—It's so powerful it can shear off a man's head or his arm—but it looks like a harmless metal box with air tanks at both ends.

It's part of the new, to-be-constructed aeronautical engineering building on the University of Michigan's North Campus. Actually it's not a human torture chamber—it's a super-sonic wind tunnel.

Wilbur C. Nelson, who heads the university's aeronautical department, explains that this is just one part of the new laboratories where scientists will work out the principles which keep man in the air.

In two high speed wind tunnels, they can chart the flow of air, moving many times the speed of sound, around objects that will help them find new improvements in aircraft design.

SMALL IN SIZE

The largest supersonic wind tunnel in the new building will only be 8½ inches high and 13 inches wide in the middle. But enough air can pass through in 20 seconds to raise the air speed to Mach 4, four times the speed of sound or about 3,000 miles per hour.

Nelson explains that men working with this particular tunnel have to use extreme safety precautions because the power of the air could pull a carelessly placed hand or other extremity against sharp metal sides.

But the purpose of the wind tunnels is to show engineering scientists super-sonic winds pass about various shapes, such as cones, spheres and other variations.

USE MODELS

The work is usually with small scale models. Nelson says:

"We find we can do the unusual and cook ideas and let someone else work on the heavy hardware . . . we make use of our brainpower rather than building large, elaborate setups because we're not equipped to do that scale of work. We specialize in smaller, more flexible setups."

The second supersonic tunnel, Nelson says, is only four inches by four inches in the middle where the specimen is placed.

Besides these two, the new center will also contain a low turbulence wind tunnel where propeller driven air will travel at sub-sonic speeds.

The center will also contain a propulsion laboratory where small jet propulsion components can be studied, such as cylinders from turbojets, and ram jets. Larger engines can be worked on in the new automotive laboratories under construction nearby.

MANY PUMPS

But all of this howling, shreaking air, needed for aeronautical research, has to be trapped and tamed. To do this, the lab will contain $700,000 in pumping apparatus, allocated from the Atomic Energy Commission.

The pumps will take all the air out of vacuum tanks on one side of the super-sonic air chambers. On the other side, air will be gathered into a large collapsible sphere and dehydrated. Then, when a test is ready, the air from the sphere will be released through the wind tunnel into the vacuum tanks.

Nelson says that if the tunnel is used to its highest capacity which sometime in the future it will, the air speed will reach many times over the Mach 4 speed.

New Military Reserve Bill Explained and Compared With Obsolete Measure

By JAMES MARLOW

WASHINGTON, (AP)—This is an ABC on the military reserve bill just passed by Congress to build up a pool of trained men. President Eisenhower is expected to sign it into law shortly. It will go into effect at that moment.

First look at the reserve program as it stands under a law passed in 1951.

Under that law everyone discharged from the armed forces, unless he served eight years, must then go into the reserves so that his total active and reserve service is eight years.

* * *

There are three kinds of reserves:

1. Ready reservists who train. They drill one night a week, from 12 to 48 weeks a year, and spend 17 days a year in camp. They get paid, according to rank, for the days and nights they drill.

2. Ready reservists who don't do any training. They get no pay.

3. Standby reserves. They, like the second group of ready reservists, do no drilling.

* * *

Both groups of ready reservists, in case of war, would be called into active service ahead of the standby reserves. Who, under present law, goes into the ready reserves and into the standby reserves?

1. Anyone with less than five years in the armed forces must, upon his discharge, go into the ready reserves. But whether or not he takes reserve training is voluntary. If he doesn't take the reserve training, he must stay in the ready reserves until his eight-year obligation is up.

2. Anyone who has had five years in the armed forces, or a total of five in the armed forces and the trained ready reserves, can ask for a transfer into the last-to-be-called standby reserves until his eight years are up.

* * *

That's the way it is now. It will remain that way for all those who enter the armed forces before Eisenhower signs the new bill: they have a total obligation of eight years on active service and in the reserves.

For those who enlist or are drafted after the new bill becomes a law, the total obligation will be six years instead of eight.

They will have to put in combined service of five years in the armed forces and the trained ready reserves, and one year in the standby reserves.

They won't have a choice — as exists now — of choosing to go into the nontraining ready reserves when they get out of the armed forces. They'll have to go into ready reserve training.

* * *

Examples: Jones gets out of the Army after two years' service. He must go into the trained reserves for three years. Then for another year he is in the standby reserves. Congress made a special provision for men already in the armed forces. When they get out, since they're covered by the old law, they can choose to go into the nontraining ready reserves.

But Congress said the government — in limited numbers and only until July 1957 — could offer them this deal, which they could take or reject:

* * *

A man in active service for 12 months can be discharged provided he agrees to go into the trained ready reserves for a period which, when added to his active service, would total four years. Then, since under the old law he still has an eight-year obligation, he could serve his remaining four as a standby.

Or a man who has filled out his enlistment or draft term, if he volunteers to go into the trained ready reserve, will have to serve only one year in that group. Then he'd serve out the rest of his eight year obligation as a standby.

This is what the new law will also do — but again only for a limited number — for predraft youths under 18½:

* * *

They can become exempt from the draft by volunteering for special training of three to six months, followed by 7½ years in the trained ready reserves.

A high school student who volunteered for the trained ready reserves under this arrangement could defer his required active training until he graduated or reached 20. Meanwhile, he'd be credited for the ready reserve drills he attended.

* * *

Under present law a youth who joins the National Guard before he's 18½ can avoid the draft, provided he agrees to stay in the Guard until he's 28. Under the new law he can shorten his term in the Guard to eight years by volunteering for three to six months of active training at some armed force post.

Astronomers Watching Halley's Comet Again

WASHINGTON—Halley's Comet, one of history's notable sky spectacles, is again heading toward the sun, says the National Geographic Society. The comet was named after Edmund Halley, a British astronomer who believed the comets of 1531, 1607 and 1682 were the same. He predicted the comet would return about 1758. It did.

Halley's Comet appeared in 240 B. C. and has returned 27 times since then at average intervals of 76 years, 9 months. The most recent trip near the sun was in 1910. The comet thus is due back in the mid-1980's.

He's Hard-Luck Kid

ELDORADO, Ill. (AP)—Harry Gene Devillez, 7, was rushed to a doctor's office for treatment when a door slammed on his thumb. Within a short time he was back with a head laceration after the family

"Take It From Me, there's nothing like it in Detroit"

SAYS WAITER TED VARAS

"I've been around here a long time, and you can take it from one who has served cabinet members, industrial leaders, the top names in sports and show business, even royalty: there is no greater pleasure than serving a satisfied guest.

"Our Chef, Mr. Hervieux, comes to us with a national reputation. Our four restaurants, the swank Book Casino, the intimate Casino Lounge, the attractive Cafe Cadillac, the smart Motor Bar, offer a range in service and prices that will appeal to all. Our guests are very happy with the Sheraton Cadillac cuisine."

Powerama to Feature GM's New Lightweight Train

General Motors has designed and is building, at the request of railroad officials, a lightweight, low-cost passenger train representing a "new concept" in railroad transportation.

The revolutionary train will be able to carry 400 passengers in "air ride" comfort, reaching speeds of over 100 miles per hour for sustained stretches. It will be demonstrated on all of the major railroad systems in the United States soon after it is shown to the public for the first time at the General Motors Powerama in Chicago Aug. 31-Sept. 25.

Disclosing that GM is building the Diesel-powered train at the request of a committee of railroad presidents looking for ways to reduce an American railroad passenger deficit estimated at $700,000,000 a year, Curtice said:

"General Motors has no intention of going into the railroad passenger car building business. It is primarily interested in the promotion of the use of its Diesel motive power and presents the new cars as a service to its customers in the hope that they may offer a solution to the passenger deficit problem."

The GM train was designed after the committee of railroad presidents asked car builders and locomotive manufacturers to come up with new ideas for passenger hauling equipment that would reduce equipment investment, reduce operating and maintenance costs, lower the center of gravity, increase average speed, improve riding comfort—and greatly reduce the railroads' passenger deficit.

"Because of its experience in the design and building of both the power plants and car structures for hundreds of gasoline-electric rail cars and for many thousands of Diesel locomotives," Curtice said, "our Electro-Motive Division at La-Grange, Ill., was in a unique position to make a substantial contribution to the problem, and the project was undertaken."

Six years ago General Motors designed and built the "Train of Tomorrow," introducing many features which since have become standard on a number of well-known American trains.

The new GM train, consisting of 10 coaches and a one-unit Diesel locomotive, is even more startling.

For example, one objective set for manufacturers by the railroad presidents' committee was a car that could be sold for less than $1,000 a seat when built in volume production.

"We feel that we have met this goal," Curtice said.

OUTSTANDING FEATURES

Other outstanding features of the new train include:

1. The cars are adapted from the body of the GMC Truck & Coach Division's 40-passenger inter-city type highway coach, with completely air-ride suspension. Many of the suspension parts are interchangeable with standard GMC Sceni-Cruiser construction. One car end contains a lavatory and a pantry for serving meals. The other end is a vestibule with entrances on both sides. Doors and steps are arranged so that the entrances will serve either high or low station platforms.

2. Baggage compartments are under the floor, as in modern buses. This means passengers will ride at a higher level than in other lightweight trains, giving them a better view of scenery. Yet the center of gravity of the new cars is 10 inches lower than in present standard railroad coaches.

3. The graceful exterior lines and interior trim of the train were designed by General Motors Styling Section, which styles GM automobiles and other products.

4. The low center of gravity and light weight of the train will permit much faster average speeds than are reached with present equipment. The Diesel locomotive, powered by one 12-cylinder General Motors Diesel engine with 1,200 horsepower for traction, will be capable of hauling the train and 400 passengers at over 100 miles an hour. Fuel consumption will be approximately 1.3 gallons per mile at top speed with full load in level country.

5. Strength and safety features are far in excess of government and railroad requirements.

The challenge offered by the railroad presidents' committee gave General Motors an opportunity to design an entire train as a single unit. In the past, locomotives have been designed to provide the best possible compromise to meet the wide variance in existing passenger equipment.

FIRST OPPORTUNITY

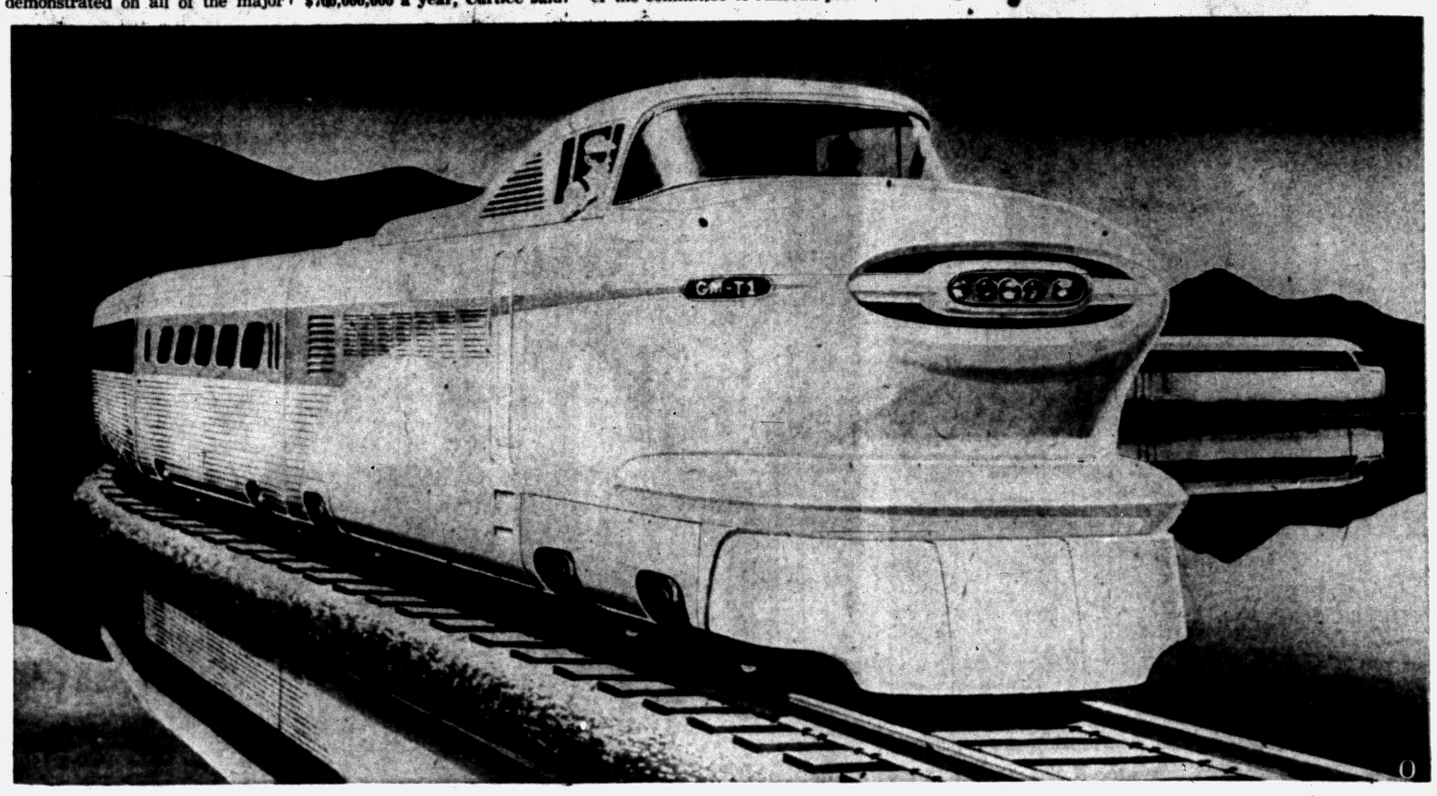

"Here, for the first time," Curtice said, "was an opportunity to select the most economical prime mover and match it with a train to obtain the ultimate in utilization and economy.

"The size of the Diesel propulsion engine, the size of the auxiliary engines, the size and weight of the cars, for example, have been determined by the contribution each makes to the most successful whole, from the standpoint of performance, first cost, operating cost, maintenance, repair costs, and safety."

General Motors has added another principle of its own to the ground rules set by the railroad presidents — the principle that existing proven components should be used in the new train wherever feasible. This means economy because the components already are in mass production —and reliability because they have been long tested.

As a result, the locomotive of the new train will contain standard General Motors Diesel engines, and Electro-Motive generators, traction motors and control apparatus used in thousands of locomotives throughout the world.

The car bodies will be from GMC Truck & Coach Division in Pontiac, air conditioning from GM's Frigidaire Division, auxiliary Diesel engines for train heat and air conditioning from Detroit Diesel Engine Division, and auxiliary generators from Delco Products Division.

REVOLUTIONARY TRAIN — Here is an artist's conception of the revolutionary lightweight train that will be one of the highlights of the General Motors Powerama in Chicago Aug. 31-Sept. 25. With its highride design, passengers will ride at a higher level than in other lightweight trains, giving them a better view of scenery. Yet the center of gravity of the new cars is 10 inches lower than in present standard railroad coaches.

Five States Ratify Great Lakes Pact

MACKINAC ISLAND (AP) — Officials from five states announced ratification of the Great Lakes Basin Compact yesterday. The program is aimed at development and conservation of water resources in the Great Lakes area.

The delegates, representing Michigan, Illinois, Indiana, Minnesota and Wisconsin, met at the Council of State Governments regional conference. They said their state legislatures already had ratified the compact.

It authorizes a commission to make recommendations to the states and federal government on public works, pollution control, water levels and shore erosion in Great Lakes states.

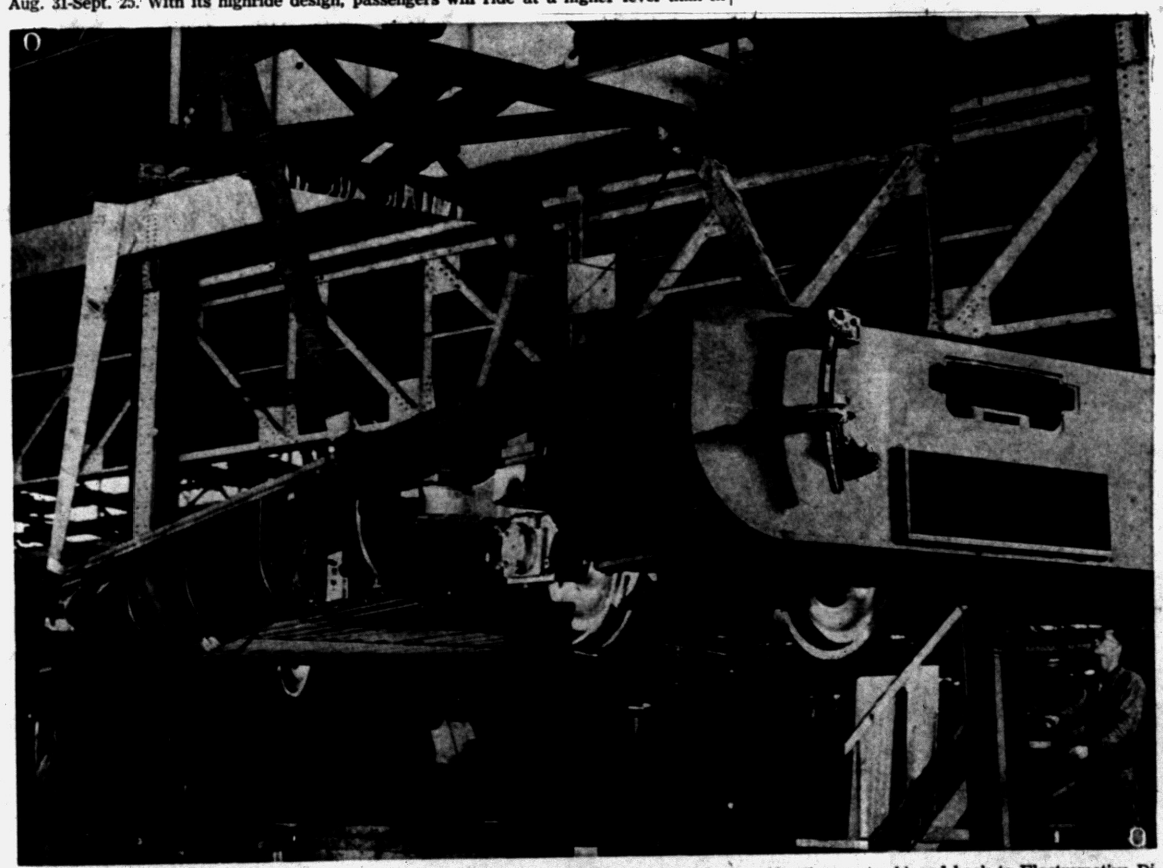

4,000 Vote on Contract at Three Edison Plants

DETROIT (AP) — The outcome hung in the balance today as 4,000 CIO Utility Workers at thre Detroit Edison Co. plants began voting on ratification of a new contract.

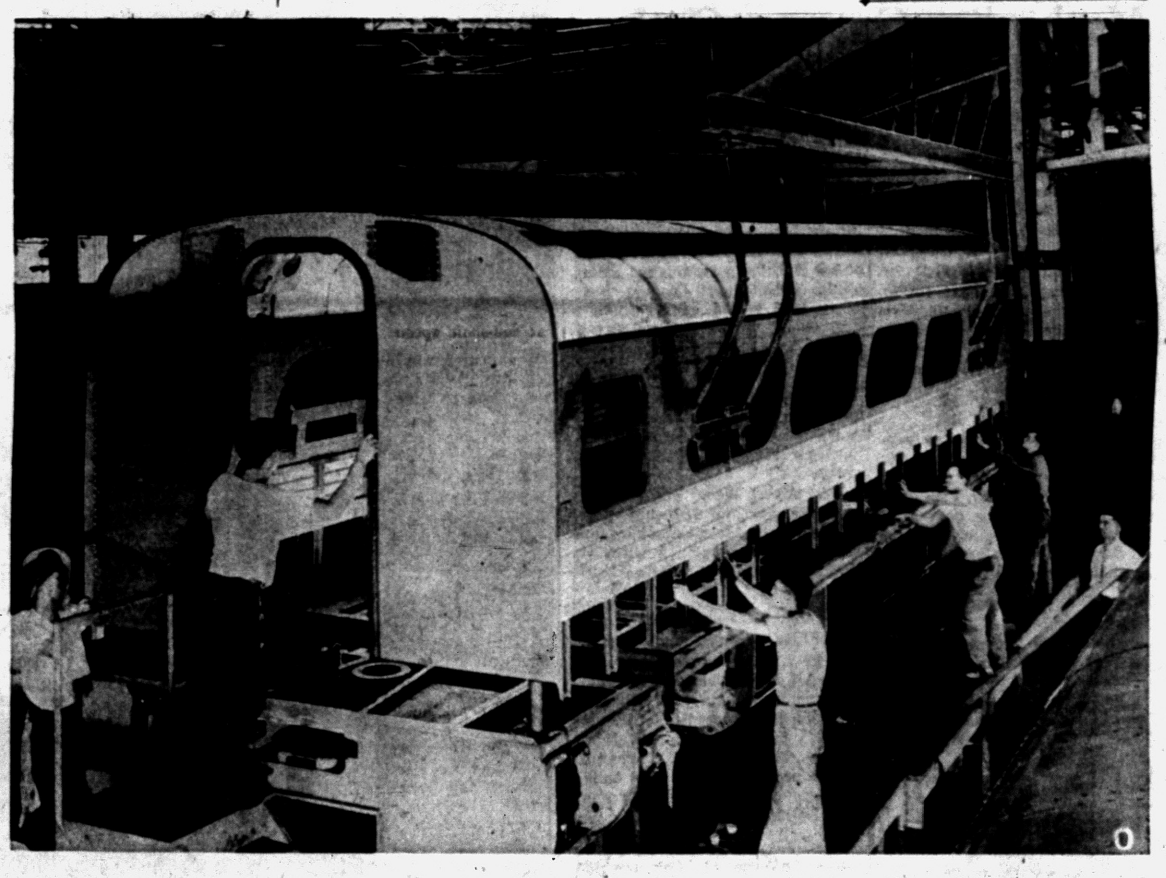

The pol at Edison plants in Detroit, suburban Trenton and Marysville is expected to be completed Friday night.

The outcome is in doubt because the union's bargaining committee declined to recommend either rejection or acceptance of the company offer.

Martin O'Dell, president of Local 223, said the refusal was based on the company's unwilingness to include a union shop clause in the new pact.

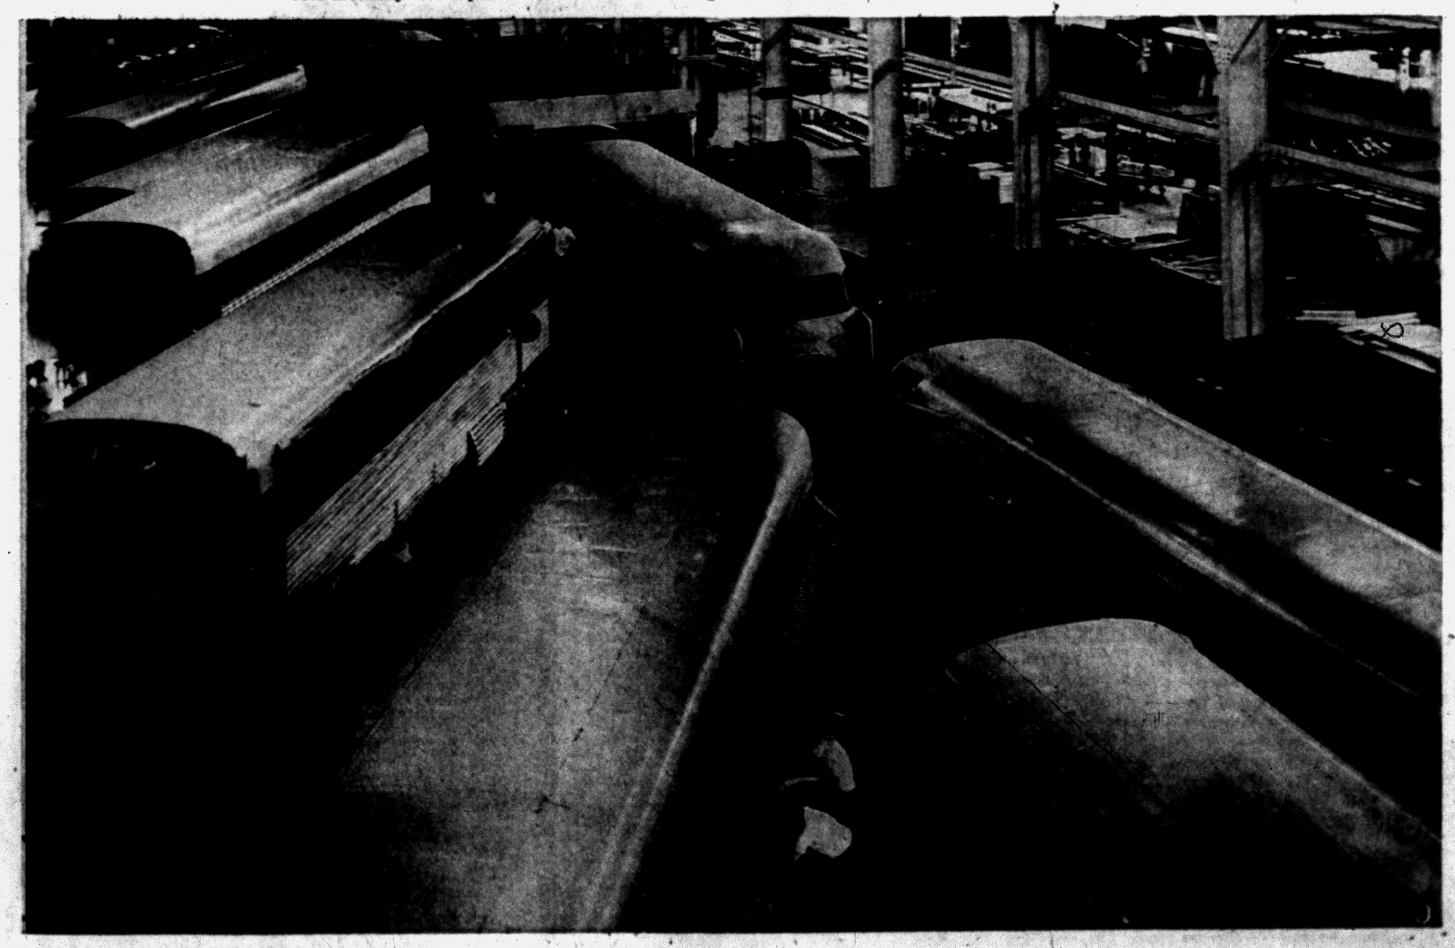

UNDERCARRIAGE — An overhead crane hoists the undercarriage for a car on to a leveling fixture at the GMC Truck and Coach Division. The undercarriage is manufactured at the Electromotive Division in LaGrange, Ill., and shipped by rail flat car to Pontiac for final assembly. After final assembly, the car is shipped back to Electromotive Division where it is finally equipped, given a series of final tests and then included in the train.

COACH IS BORN — As the roof assembly comes to rest on the undercarriage, a coach for GM's lightweight train suddenly is born. The roof assembly is comparable in structure and design to a GM motor coach. However, it is 114¾ inches wide, compared to a motor coach width of 96 inches.

LUXURIOUS INTERIOR — Solid seating comfort is found in the train by Janet Anderson (left) and Ann Hogan as it is being assembled at the GMC Truck and Coach Division. Janet is an employe in GMC's service tabulating department while Ann works in service billing. Note the picture windows in the background.

TRAIN ASSEMBLED — Assembly line for GM's train is shown here. The undercarriage and roof assembly come together at extreme upper left then are hoisted by crane on to the tracks. Note the last car for the train with its distinctive "tail" about to enter the paint spray booth (center).

Prove to Lad You Care by Dating Attitude

By ELIZABETH WOODWARD

"Dear Miss Woodward: I've been dating this boy for quite a while now and I like him more than any other boy I've gone with. I'm positive he likes me, and I'd like to settle down and go steady with him. I think he's got the idea I don't like him as much as he likes me. How can I show him that I do care?"

Answer: You're ready to settle down and go only with him, so why not do just that? You don't have to say anything to anybody about it, you can just date him and no one else. When he realizes that you have put all your eggs into one basket — his — he'll also realize that it's for only one reason. You like him — you like him best.

ATTITUDE IS PROOF

Your attitude when you're with him can be a clinching argument, too. You can make it obvious that what he says and does matters tremendously to you. His

There are five pages in today's Women's Section

opinions and his decisions are right for you both. His mood is your greatest concern. His comfort and happiness are your main object in life. All of this is true, of course, if you really like him. It oughtn't to be too hard to let it show.

If such maneuvers don't persuade him to take you seriously, change your mind about wanting to settle down with him. Make up your mind that he doesn't want to settle down with you. So accept him on a casual basis, and start dating other boys. And be sure the next basket you select for carrying all your eggs is strong enough to carry the load.

"Dear Miss Woodward: I'm 14 and have been asked to go steady by a boy that I like. He's 16. My parents don't approve of him at all. They haven't a very high opinion of his parents, and don't like some of the things they do.

"They're afraid of the influence this boy would have on me. Also, the club I belong to objects to dating boys out of the club. So please may I have your friendly advice?"

Answer: A girl wants everybody in her immediate circle to approve wholeheartedly of the boy she picks to go steady with. Her family, most of all, should approve of the lad, have confidence in him, be fond of him. It makes life so much smoother. And the fun is more fun if her crowd likes him, too, accepts him, and puts the stamp of approval on him.

This boy you like at the moment is odd man out. Your family turns thumbs down. Your club has its own rules. You, of course, can go stubbornly independent and buck them all. But the going is likely to be rough. And the rewards will be far from worth the price.

(Copyright 1955, by United Feature Syndicate, Inc.)

Pontiac Press Photo

Mary Alice and Martha Alice Cowan, 15 year old daughters of Mrs. J. Earl Cowan and the late Mr. Cowan of Wenonah drive are choosing a party dress. The girls, identical twins, not only dress alike but like the same sports, entertainments, had diseases at the same time and even fell off their bikes together. Mary and Martha are especially interested in music. Mary plays the B flat clarinet in the Pontiac High School Band and Martha plays the flute. Mary is at the left.

Identical twins, Charlene Jeannette (left) and Carol Jean Hewitt are enjoying a game of croquet on the lawn. They love all sports, especially swimming. The girls, blond and blue eyed, are the 11-year-old daughters of Mr. and Mrs. David Hewitt of North Jessie street. They are students at the Central School.

Methodist Groups Gather

Several circles of the First Methodist Church met recently in members' homes.

Anna

Mrs. Orion Hettinger of Texas avenue opened her home for a dessert luncheon of the Anna Circle. Devotions were presented by Mrs. Walter Long who chose for her topic, "In God's Hands."

Guests were Mrs. Harold Hannan, Mrs. Robert Tallman, Mrs. Helen Baughn and Mrs. Lonzo Deevey. The next meeting will be held with Mrs. Nettie Kremer of Union Lake.

Elizabeth

The Elizabeth Lake Shores home of Mrs. Chester Arnold was the meeting place of the Elizabeth Group, with Mrs. John Trerice as assistant hostess. The next meeting will be a picnic at the home of Mrs. Robert Burnsworth of South Roslyn drive.

Joanne

Mrs. Feliz Mayo of James street was hostess to Joanne Group at a dessert luncheon. Prayer was presented by Mrs. Robert Daisy. Mrs. J. Wendell Green will be hostess at her Watkins Lake home for the picnic.

Julia

"Stewardship" was the devotional topic given by Mrs. A. J. Zimmerman when Mrs. Perc Parsons entertained the Julia Circle at her Buckthorn Lake home for a picnic. Mrs. Stuart Conway was in charge of the program and Mrs. Glenn Williams came as a guest.

Leah

Mrs. Herbert M. Clemence was hostess to the Leah Circle at her Auburn avenue home for a dessert luncheon, assisted by Mrs. Dudley Colby.

Mrs. Albert Weber chose "Personal Service" for the subject of her devotions. Ellen Hamel served as program chairman. A guest of the afternoon was Mrs. Floyd Calvert.

Lois

The Lois Circle of the church met for a dessert luncheon at the home of Mrs. Charles Chapman on Silverdown drive. Mrs. Chester Caughell presented "Loving Hands" for devotions, and Mrs. Robert Tallman was in charge of the program, "Our 15th Anniversary." Coming as a guest was Mrs. Bernie Pearce.

Mary

Mrs. LaVerne G. Cox opened her Fourth avenue home to the Mary Circle, with Mrs. Beatrix Vogel using the Psalms for devotions.

"Do Scientists Believe in God?" was the program topic for the day, under the leadership of Mrs. Morton Jorgensen. Mrs. Glenn Fries was a guest for the afternoon. Mrs. Talmage Shelton of Summit avenue will be the next hostess.

Rhoda

Members of the Rhoda Circle met for a family picnic at Elizabeth Lake Shores.

Sarah

The Sarah Circle members also went picnicking with their families. The group will meet next with Mrs. John Rawley of Elizabeth Lake road for a cooperative supper.

Asks if Tot Can Answer Telephone

By EMILY POST

A mother writes: "I have a seven-year-old daughter who has my permission to answer the telephone when it rings. I have instructed her to ask "Who is calling."

"My brother-in-law resents this very much and says that a child has no business asking who is calling. She only asks when she doesn't recognize the voice and does it in a polite manner. Will you please tell me if I am wrong in having her ask this question.?"

Answer: I think it is quite proper to have her ask the question and nobody should criticize. It is very convenient to know who's calling you, and especially who has called you when you were out.

"Dear Mrs. Post: I received a very pretty lazy Susan from a friend for my anniversary. I would like to know if it is proper to leave it on the dining table between meals, sort of like a centerpiece, or must it be put away and taken out when it is to be used?"

Answer: There is no rule either for or against this; it is entirely a question of your personal choice.

"Dear Mrs. Post: When attending a wedding reception, a debut or other function at which there is a receiving line, is it customary or required that a guest seek out the hostess before leaving to express one's thanks for a pleasant afternoon, or evening, as the case may be?"

Answer: If she is still receiving, then you would go without saying good-bye because of the impression given that you are leaving very soon. Otherwise, you should find her to say good-bye.

Polaseks Hold Family Reunion

Mr. and Mrs. Frank Polasek of Auburn Heights played hosts for a family reunion Sunday held in honor of his sister, Mrs. John B. McMillan of Atlanta, Ga.

Cohosts for the occasion were Frank Polasek of Clarkston and Mr. and Mrs. George Polasek.

Mrs. McMillan's daughters, Mrs. Myron Owen of Royal Oak and Mrs. Charles F. English, were on hand for the day's festivities with their families.

Nieces and nephews of the honored guests attending the affair were Mr. and Mrs. Jack Burgdorf, Frank Polasek Jr., of Auburn Heights, Mr. and Mrs. Thomas Polasek, Mr. and Mrs. George Polasek, Mr. and Mrs. William Polasek, Mr. and Mrs. George Polasek Jr., and Mr. and Mrs. Les Gustafson. Others were Mr. and Mrs. Ray Polasek and Mr. and Mrs. Bernard Faust of Clarkston and Mr. and Mrs. Joe Polasek Jr. of Birmingham.

Pontiac Press Photo

Taking turns on the two wheel bike are twins, Brian Ross and Brenda Joyce Woodworth, six year old son and daughter of the Ross Woodworths of Hazel street. Brian and Brenda will be in the first grade at Webster School in September.

James and Joyce are 16 year old twins, whose parents are the Rev. and Mrs. Howard C. Artz of Dwight avenue. Both young people have blue eyes but James has blond hair and Joyce's hair is auburn. They like music, school, their church and enjoy doing things together. Their father is pastor of the Free Methodist Church on Lafayette street.

Basking in the sunshine while they build castles in the sand are Marlene and Jim Janka, two year old twins of Mr. and Mrs. Leo G. Janka of Maybee road. Both children have blond hair. Marlene has gray eyes and Jim's eyes are blue. Their mother says Jim wears clothes a size larger than his twin, and both have happy dispositions.

Geoffrey Richard (left) and Gregory Robert Proven are the eight month old twin sons of Mr. and Mrs. C. Richard Proven of Cameron avenue. Geoffrey is blonde and blue eyed while Gregory has brown eyes and hair. The family lives in East Lansing where Mr. Proven is working on his master's degree. He was graduated in June from the school of liberal arts of Michigan State University.

Shower Given for Bride-Elect Ruth McCulloch

Mrs. Turris McCulley and her daughter, Betty, of St. Joseph avenue, Sylvan Center, entertained recently for Ruth Ann McCulloch, bride-elect of James A. Traver.

Ruth is the daughter of Mr. and Mrs. W. J. McCulloch of Nelson street and James is the son of the Glenn Travers of Fourth avenue. The couple will be married July 30 in Bethany Baptist Church.

Invited to the affair besides the honor guest and her mother were Mrs. Roy Ward, Mrs. Lillian Hilton, Elda Sutter, Mrs. Mark Cheney, Mrs. Clarence Myers and Mrs. Harry Buehring.

Mrs. John Sheehan, Naomi Cheney, Mrs. I. M. Lewis, Mrs. H. Guy Bevington, Mrs. A. P. Webb, Mrs. Irving Zuehlke and Mrs. Alfred Coles were other guests.

Starch Cotton Rugs

If your cotton loop carpets get soft and wrinkle up easily, try what one homemaker did. She washed and dried hers, then turned it over and patted thick, cooked starch all over the back and dried it again. It stayed stiff until next washing.

Personal News of Interest in Pontiac

2nd Lt. and Mrs. Brooke Bennett are vacationing with his parents, the J. L. Bennetts of Illinois avenue. Lt. Bennett is en route from Chanute Air Force Base in Illinois to his new assignment at McGuire Air Force Base, N. J.

Trust Inspires Respect for Truth

By MURIEL LAWRENCE

Steve's bedtime is 9 p.m.

The other night, because he was allowed to stay up for the end of a TV program, he was late. But by 9:25, he was tucked, kissed and good-nighted. His lamp was turned out and his mother rejoined his father downstairs.

* * *

Fifteen minutes later, tiptoeing upstairs so as not to waken him, she saw the bar of light under his door. As she opened it, there was a flurry of movement under the bedclothes—and Steve switched off his lamp. Said he into the darkness, "I just turned on the light for a minute to see if my window was open."

His mother reached for the half-hidden comic book he had shoved under his sheet. "You were reading," she said. And sinking down on his bed, stared at him with anguished eyes.

"Oh, Steve, you lied," she said. "Why did you do it? Why did you tell me you turned on your light to check your window when you turned it on to read? How can I trust you if you don't tell me the truth? Oh, Steve, how can I make you understand how important it is to tell the truth? Nobody ever gets anywhere in this world by telling lies . . ."

And so on.

It makes no sense to children.

ADULTS EXPERIENCED

Look. You and I have been around here quite a while. We have seen liars tie up their lives into all kinds of complicated knots by untruthfulness. We have told lies ourselves and felt sullied by our own self-betrayal.

Our trust of truthfulness is the product of our experience. Living has tested its worth for us. Experience and intelligence have combined to turn it into a moral value for us.

That is not the position of the child.

His respect for truthfulness is not real. It's second-hand. For he has not lived long enough to make his own first-hand tests of its value and comfort. It is "good" to him only because we said it is. His trust of it is the exact measure of his trust of us.

To see this is one of the most vital insights a parent can get. For it at once simplifies treatment of a lie. Knowing that our son's trust of truthfulness is dependent on his trust of us, we seek his trust of it by demonstrating our trustworthiness.

Right before his eyes, we overcome fear. Right before his eyes, we prove ourselves a leader who cannot be dismayed. Right before his eyes, we show our love unmoved.

* * *

We say quietly, "You lied because you feared the truth. Don't lie awake and worry about it Fear cannot separate you and me. It was a mistake to let it make you tell me you'd turned on the light to check your window. Now get up and put your comic book on your shelf, darling. Have a good, quiet sleep. Good night."

MR. and MRS. GERALD SULLIVAN

Married Saturday at 10 a.m. in the Rectory of St. Michael Church were Marian J. Measel, daughter of the Roy Measels of Lafayette street and Gerald A. Sullivan. He is the son of Mr. and Mrs. John Sullivan of Sorrento road.

Republican Women Meet

The newly elected officers of the Pontiac Republican Women's Club took up their official duties Monday afternoon when they met at the West Iroquois road home of Mrs. W. E. C. Huthwaite.

* * *

Thirty members and three guests attended the meeting. Mrs. Janette Bathum gave a report on citizenship and Mary Chapman reported on taxation.

Mrs. Grace Shultz, president, announced her committees for the year.

Mrs. Lulu Luby is membership chairman; Mrs. William Paetow, publicity; Mrs. Sadie Patten, citizenship and legislative; Mrs. William A. Daugherty, social, and Mrs. George Brown, program.

Mrs. Charles Barrett and Mrs. Frank McGregor are serving on the ways and means committee; Mrs. Chapman is auditor and taxation chairman; Mrs. Maude Place, house chairman, and Mrs. J. L. Slaybaugh, parliamentarian.

Mrs. William Streiter of Detroit, secretary of Coalition for Constitutional Government, was speaker of the day. She used as her topic, "Techniques of communism." The speaker was presented with a gift by Mrs. George Brown, past president.

Patricia Lou Yasmer, daughter of the Boyd R. Yasmers of Sparks, Nev., became the bride of Melvin C. Wassemiller, Saturday afternoon. He is the son of Mr. and Mrs. Jake Wassemiller of East Walton boulevard.

MR. and MRS. M. WASSEMILLER

Couple to Reside in City Following Wedding Trip

Honeymooning in northern Michigan and Canada are Mr. and Mrs. Melvin C. Wassemiller.

The bride is the former Patricia Lou Yasmer, daughter of Mr. and Mrs. Boyd R. Yasmer of Sparks, Nev. Melvin is the son of Mr. and Mrs. Jake Wassemiller of East Walton boulevard.

The Rev. Ralph Claus performed the 3 o'clock ceremony Saturday afternoon at St. Trinity Lutheran Church, before the families of the bride and bridegroom. Altar was decorated with bouquets of white and pink gladioli.

A ballerina - length gown of blue shadow net over blue taffeta was worn by the bride. The skirt was fashioned with ruffles. A headpiece of white flowers secured her veil and she wore a white orchid corsage.

The bride carried a lace heirloom handkerchief belonging to the bridegroom's family.

Mrs. Wayne Thomas, cousin of the bride, from Garden City was the matron of honor. She wore a ballerina - length gown of pink net and lace over matching taffeta. Her headpiece was of pink flowers and net and her corsage was composed of pink feathered carnations.

ATTENDS BRIDEGROOM

Elmer Wassemiller, brother of the bridegroom, was best man.

A reception was held following the ceremony at the Oakland County Sportsmen's Club in Waterford.

Mrs. Wassemiller wore a two-piece silk crepe dress of dusty rose with white accessories and a corsage of carnations and roses.

When the new Mrs. Wassemiller left on the wedding trip with her husband, she was wearing a pink cotton dress with pink and white accessories and a corsage of carnations.

The newlyweds will make their home in Pontiac.

Shirley Duke, Carl F. Church Exchange Vows

Honeymooning in northern Michigan are Mr. and Mrs. Carl Francis Church. She is the former Shirley Elwanda Duke, daughter of Mr. and Mrs. L. D Duke of North Saginaw street. Carl is the son of Mr. and Mrs. Kenneth Church of West Colgate avenue.

* * *

The Rev. Milton Hastings performed the wedding ceremony Saturday in Church of Christ. Arrangements of white gladioli decorated the altar.

The bride wore a gown of white Chantilly lace over satin. Mother-of-pearl flowers studded the crown which secured her veil and she carried a bouquet of white roses.

Betty Jo Sutherland of Kansas City, Mo., wore a pale blue ballerina-length gown with white accessories for her duties as maid of honor. Jack Womack served as best man.

* * *

For a reception at the Community Hall in Auburn Heights the bride's mother wore a navy dress with white accessories. A dress of light blue with white accessories was the choice of the bridegroom's mother.

When the couple left for their wedding trip the new Mrs. Church was wearing a dress of white voile.

Filing Career Offers Great Future

By ANNE HEYWOOD

"I am very good at keeping things in order," a young high school student writes, "and my teachers have suggested that I consider a career in filing.

* * *

"They tell me it offers a great future, but I am not sure about what it does offer. What kind of jobs are there, besides just being a file clerk? What kind of training should I have? Also what kind of fields require good filing ability?"

Filing is a growing field and does offer a great many kinds of jobs. Of course if you plan to go to college, you might consider getting your degree in library science, which requires the same kind of aptitudes and which broadens your choice of fields.

But for the girl who wants to enter the field right out of high school, the best bet is to begin as a filing clerk in a large company. All companies have files and records and need many filing clerks. It pays, even then to select a company whose business interests you.

SPECIAL INTERESTS

For example, if you have an interest in food—or plastics or magazines or cameras—select companies in that line. You will be handling their letters and matter they are concerned with records all day, so the subject must be of interest to you.

* * *

Once you get started, check with your local university and sign up for a course in filing and in library training. Also as you go along take courses in salesmanship and psychology since the ability to get along with people well is very important in the filing field.

You might end up as supervisor of the files, which is interesting and lucrative.

For more information about this field, I recommend a little book called "File This, Please." It costs forty cents and may be ordered from the Dartnell Corporation, 4660 Ravenswood Avenue, Chicago 40, Illinois.

Custard Pie Is a Smooth Dessert

Brush Raw Pastry With Egg White to Prevent Soaking

By JANET ODELL
Pontiac Press Food Editor

Just the other day a recent bride told us her husband's favorite pie is Custard Pie. She will be happy to see the recipe Mrs. William Willson gives us today.

We would remind her and all other cooks that such pies must be refrigerated in the summer time. Otherwise, you run the risk of poisoning your families. Don't ever let custards of any kind set out at room temperature at this season of the year.

Mrs. Willson says her children are her hobby. The fourth one enters school this year which will leave their mother a little freer for part of the day. The Willsons live out in one of the new subdivisions and do a lot of swimming. Mrs. Willson has just started sewing for her two little girls.

CUSTARD PIE

By Mrs. William Willson

4 eggs, slightly beaten
2-3 cup sugar
⅛ teaspoon salt
2 2-3 cups scalding hot milk
1 teaspoon vanilla

Mix in the order given and pour in a 9-inch pastry lined pan. Bake just until a silver knife comes out clean, about 30 minutes at 425 degrees. The center wil lstill look a little soft. If baked too long, the custard will be watery.

To keep the crust from becoming soaked, brush a little unbeaten egg white over the pastry as soon as it is made. Place crust in refrigerator until filling is ready.

Nancy McClure Feted at Shower in Birmingham

A miniature bridal party and floral bouquets carried out the decorations for a miscellaneous shower given recently for Nancy McClure by Mrs. Charles Buell of Birmingham. The bride-elect is the daughter of Mr. and Mrs. Harvey McClure of Beverly street.

* * *

Nancy is the bride-elect of Pvt. Harold W. Johnson, son of Mr. and Mrs. Sam T. Johnson of Oliver street. He is stationed with the military police at Camp Hanford in Washington.

The ceremony has been planned for 4 o'clock Aug. 13 at Church of Christ.

Mrs. Charles R. Buell, sister of the prospective bridegroom, will be matron of honor and another sister, Ruth Ann Johnson, will be a bridesmaid.

Charles R. Buell will attend his brother-in-law as best man. Ushers will be Harvey McClure, Erwin Madson and Richard Allen.

* * *

Mrs. William Wall and Mrs. Gerald O'Dean were also hostesses at a recent miscellaneous shower honoring Nancy. A large wedding cake centered the refreshment table for the affair which was held at the Hamilton street home of Mrs. O'Dean.

Suds Gloves Inside

Gloves should be washed inside as well as outside, especially in hot weather. Soil and perspiration from the hands collect inside of gloves which need to be sudsed clean on both sides.

The Oakland Avenue United Presbyterian Church was the setting Saturday for the marriage of Marian Arlene Reeder and Jerry Gray Lawrence. Their parents are the Herman G. Reeders of Corwin court and Mr. and Mrs. Thomas L. Lawrence of LeBaron avenue.

MR. and MRS. JERRY G. LAWRENCE

Marian Reeder Repeats Vows Before 300 Guests

In the presence of 300 guests in the Oakland Avenue United Presbyterian Church Saturday, Marian Arlene Reeder exchanged vows with Jerry Gray Lawrence.

* * *

The Rev. Theodore R. Allebach performed the evening ceremony at 8 o'clock before an altar banked with large baskets of flowers and palms.

Marian is the daughter of Mr. and Mrs. Herman G. Reeder of Corwin court, and Jerry's parents are Mr. and Mrs. Thomas L. Lawrence of LeBaron avenue.

The bride's gown was of white lace and nylon tulle. Several layers of the tulle formed the skirt and the neckline was fashioned of French illusion. A face veil enhanced her cap of seed pearls and sequins.

Wearing a single strand of white pearls and earrings, the bride was carrying white carnations centered with an orchid.

GOWNED IN BLUE

Mae Jane MacAllister of Bloomington, Ind., attended the bride as maid of honor wearing a floor-length gown of light blue crystallette fashioned with a shirred bodice and bolero. She was carrying white daisies.

* * *

Other attendants were Judith Ann Morrow and Suzanne Kay Lawrence, sister of the bridegroom. Their floor-length dresses were of colonial blue crystallette with shirred bodices and sleeves. They carried arrangements of white daisies.

William John Klinert was the bridegroom's best man and John Schwartz and Terry Walsh seated the guests.

A shaded pink and rose nylon chiffon gown with shirred bodice, rose velveteen shell hat and purse was chosen by Mrs. Reeder for her daughter's wedding. Pink jewelry, white gloves and shoes completed her costume.

* * *

The bridegroom's mother chose a light blue orlon gown with which she wore dusty pink gloves, shoes and hat.

CHURCH RECEPTION

A reception was held in the church parlors immediately following the ceremony.

The bride was wearing a Black Watch plaid suit with white accessories, the orchid from her bridal bouquet and avocado shoes and purse when she left with her husband for a wedding trip to northern Michigan.

Coming Events

Huron Gardens Eagles Auxiliary 2887 will meet this evening at 8 in the hall at 4405 Highland Rd.

Sunset Club will meet Thursday at 1 p.m. at Oakland Park. In case of rain the group will be in the Adah Shelly Library.

Clean Child's Game Is Soapsud Painting

There couldn't be a cleaner child's game than soapsuds painting. Using soap and a small amount of water, whip up a bowl of "dry" suds with an eggbeater.

Add a few drops of food coloring for an appealing pastel tint. Delightfully soft and slippery, the suds can be smeared with the hands on a sheet of wrapping paper, or on a plastic or oilcloth table cover.

And it's so easy to clean up when the session is over!

Practical Drop Leaf

If your kitchen is roomy and you'd like to save steps when you're working alone, see if you can arrange to attach a drop leaf to the right bit of wall space or to the side of a lower cupboard you don't use too often.

A well spaced working surface will save miles!

Brush Off Dry Mud

Mud stains on clothing should be allowed to dry before you try to remove them. Then brush off all the loose particles and wash in soap and water.

Beauty Clinic

By Edythe McCulloch

Good Grooming

. . . is an indefinite quality, but basically we will no doubt agree. It can be defined as the routine of the four brushes (hair, tooth, clothes & shoe brushes). Plus one or two other items.

In this group the hair brush is probably the most neglected, yet it will perform miracles if used regularly. Daily brushing gives the hair luster and makes its manageable. The soft sheen of healthy hair must not be mistaken for the artificial sheen produced by many shampoos.

This type of shampoo while producing a high luster at first, often proves detrimental if used constantly. It causes the hair in time to become dry, snarly and brittle.

Obviously a good Permanent cannot be given to such hair.

Many vegetable color rinses also rob the hair of its natural gloss and elasticity.

The best care for the hair is the simplest. Mild soap, soft water, good hair cream, daily use of a hairbrush and a good Permanent properly given is the surest way to that lovely head of hair you have often dreamed of.

SUDDENLY I COULDN'T RAISE MY ARM

"WHEN ARTHRITIS STRUCK, IT FRANKLY SCARED THE TAR OUT OF ME - - - O-JIB-WA BITTERS FIXED ME UP THOUGH."

"I'm more than glad to tell everyone about my experience with arthritis, and how I was fortunate enough to discover the merits of O-JIB-WA BITTERS, in time to prevent a lot of needless suffering. I had arthritis for about five years, but quite mild. I know now that I should not have neglected the danger signals, but at the time, it didn't bother me too much, so I just let it go. Then, two years ago, I went ice fishing and had to walk quite a ways out to the ice hole, carrying the minnow bucket. Well, when I got out there, and set the bucket down, something happened that just scared the tar out of me. I couldn't raise my right arm. My elbow and the right side of my neck were also stiff and ached with pain, and my knees hurt when I walked. I'm a millwright in the factory, and do an awful lot of walking, so you can see, I was in a pretty bad way. When arthritis strikes, then you want to do something for it right away ,and so I took shots which relieved the pain a little, but it was still bad, and I wasn't getting any better. I read another testimonial for O-JIB-WA BITTERS in our paper, and wondered if it would possibly help me. I gave it a pretty religious trial, and was rewarded, as in three weeks, I began to notice an improvement. I could walk good again, and before very long, my arms and neck were all better, and I could get around swell again without any pain whatsoever. I was formerly bothered with a sour stomach, but O-JIB-WA straightened that out too. I have recommended this wonderful medicine to many people, and I know that lots of them have taken it, and received the same amazing results that I did."

AT ALL DRUG STORES

REDUCE ROOM MOISTURE AS MUCH AS 25%!

"Cone Style" DEHUMIDIFIERS

The De-Humidifiers are simple in operation yet very effective in the removal of excess room moisture and the prevention of damage to room and its contents. They employ Flake Calcium Chloride which is economical, clean, odorless and harmless, which, when exposed to moisture laden air, draws the moisture, condenses it and allows it to fall into the bucket over which the unit is placed. It will absorb up to three times its own weight.

NOW A QUALITY PUMP AT A LOW PRICE FOR THOSE BEYOND CITY WATER LINES!

MYERS EJECTO JR.
Shallow or Deep Well Pump

Convertible. For deep or shallow wells. Your dealer will merely supply special "convertibility" ejector package depending upon the type well you have.
Compact. 11-gallon tank is only 24" high for undersink installation if desired. Pump and tank are mounted as a unit. Just connect pipe to well and make electrical connection.
Self-Priming. Primes on suction lifts as high as 30 feet at sea level. Ideal for drive point wells.
Quality construction. Bronze impeller is impervious to rust and finely finished and balaned; screwed to pump shaft. Pump casting is close-grained iron, fitted with renewable bronze wearing rings. Stainless steel pump shaft. Air volume control is fast and positive in operation. Rotary steel is same size and type as used on all Myers Ejecto Pumps.
Complete. Each unit furnished complete except for conversion package. Includes pump, motor, pressure swith, pressure gauge, air volume control, tank and discharge fittings.
Specifications. Maximum rated capacity: 575 gallons per hour at 10' suction lift. Electric motor is 1/3 hp, AC current. Tank capacities of 11 or 21 gallons.

Ann Sheridan Named in Will

Steve Hannagan, Press Agent for F.D.R., Gives $218,399 to Actress

NEW YORK (AP)—A tax appraisal shows that press agent Steve Hannagan left a gross estate of $1,109,551, with $218,399 going to movie actress Ann Sheridan, his friend for many years.

After taxes and other expenses, the net estate was valued at $768,098 in a report filed in Surrogate's Court yesterday.

Hannagan died of a heart attack at the age of 53 while traveling in Africa in February 1953.

Miss Sheridan's share of the estate was in the form of insurance policies that named her as beneficiary. Hannagan, twice married and twice divorced, often escorted Miss Sheridan. They were frequently rumored to be about to marry.

The tax appraisal valued Hannagan's public relations business at $407,056. Other assets included notes for $40,000 signed by Miss Sheridan. She said Hannagan loaned her the money to buy two movie scripts. She eventually settled the debt with the estate for $15,000.

* * *

Hannagan's will provides an annuity of $1,500 for his sister-in-law Elizabeth Nichols, of Lafayette, Ind. There were a number of other bequests to former employes and friends. The remainder was left in trust for his brother Frank C. Hannagan, of Grand Rapids, Mich.

Gen. Donovan's In-Law Killed by Sleeping Pills

SOUTH DARTMOUTH, Mass., (AP)—The death of Mrs. Mary Donovan, 37, daughter-in-law of Maj. Gen. William J. "Wild Bill" Donovan, today was listed as caused by "barbiturate poisoning—circumstances undetermined."

The cause of death was reported by a medical examiner after an examination of Mrs. Donovan's vital organs. Her body was found in bed Monday by the general's wife at the Donovan summer home here. She had come from her home in Berryville, Va., only two days earlier with her daughter, Patricia, 14, eldest of five children.

Mrs. Donovan, the former Mary Grandin of Warren, Pa., married the general's son, David, in 1938.

Gen. Donovan was head of the Office of Strategic Services during World War II.

Mexican Walrus Sore After Trip to Japan

TOKYO, (AP)—A two-ton bull walrus is on a hunger strike, apparently in mute protest at being moved from his native Mexican waters to Japan.

A Kobe animal dealer, who paid $6,000 for the animal, said it had refused all food aboard the liner President Arthur, which docked here yesterday.

The dealer said his walrus was the second to be imported to Japan. The first, brought over last April, also refused to eat, and died two weeks later of starvation.

10,000 Mourn Eva in Silent Procession

BUENOS AIRES, Argentina, (AP)—Ten thousand Argentines paraded silently before President Juan D. Peron last night on the third anniversary of the death of his wife Eva.

A congressional resolution lauded Mrs. Peron, who died of cancer, as the "spiritual chief of the nation." In several towns in Buenos Aires province, however, monuments and posters erected to her memory were defaced.

Britain Plans Halt to Inflation Spree

LONDON, (AP)—In a 290-231 vote along party lines, the House of Commons last night endorsed the Conservative government's anti-inflation program to check the British buying spree.

Chancellor of the Exchequer Richard A. Butler insisted the British economy is sound.

The Labor opposition, however, described it as "gloomy and depressing."

Butler rejected the Labor demands for more restrictions on dollar imports.

The chancellor on Monday increased the down payment for installment purchases of automobiles and household appliances from 15 to 33 1-3 per cent and called for a sharp reduction in capital expenditures by public and private bodies.

Reds to Film Pictures by Van Gogh for MGM

HOLLYWOOD (AP) — The Soviet government is going to film four pictures for Metro-Goldwyn-Mayer. The studio says there won't be any Communist propaganda in them either.

These pictures are paintings by French artist Vincent Van Gogh, and they now hang in the Moscow Museum of Art. MGM explained yesterday that it asked the Russians to film the four works for use in MGM's version of Van Gogh's biography, "Lust for Life."

200 Prisoners Riot in Texas

Felons Blame 3-Hour Revolt on Short Rations in San Antonio Jail

SAN ANTONIO, Tex. (AP)—More than 200 prisoners rioted for nearly three hours last night at the Bexar County Jail.

The riot came to an end shortly before midnight after promises were made that no one would be punished. A reinforced crew of jailers stood guard through the night.

* * *

Some prisoners claimed insufficient food caused the disturbance.

Nobody was seriously injured but damage done to the fourth and fifth floors of the jail was extensive. Sheriff's officers said some of the rioting prisoners suffered "bumps and cuts." None of the scores of officers who tried to quell the riot was reported hurt.

Some jailers who tried to stop the disturbance with fire hose had the hose taken from them and were themselves driven from the floor with the high-pressure torrents.

* * *

Plumbing was ripped from the walls. Prisoners hooted and catcalled at officers.

"Everything was soaked," one officer said.

Chief Jailer Bob Beckman, whose promises to the prisoners finally ended the disturbance, said he doubted if "insufficient food" was the cause of the riot as one prisoner claimed. He said several ringleaders "just made bad apples of the whole barrel."

Heiress Expecting Only Small Share

CINCINNATI (AP)—The niece of a San Diego newspaper vendor who left an estate of $50,000 said today she did not feel like an heiress.

"After all the nieces and nephews are located, we'll each get about $5 o t of the $50,000," said Miss Hazel Parkins.

Her uncle, Phillip L. Silbert, 73, died July 20. She had not been in contact with him for 35 years.

A brother, Joseph, and an aunt are other heirs already discovered.

Miss Parkins said, "Life will be miserable for me at the office." She works for the Cincinnati Bureau of Unemployment Compensation.

Spellman Won't Stop

NEW YORY (AP) — Francis Cardinal Spellman has messaged his office that he will stay out of Argentina, scene of recent church-state feuding, even though his ship makes a call there. He has been in South America in connection with the Roman Catholic Church's eucharistic congress in Brazil.

Promoter Plans to Move Himself

Industry Developer Set to Pull Out Own Firm From Connecticut

WATERTOWN, Conn., July 26 (AP) — The man who's supposed to help bring new industry into Connecticut said today he's planning to move out a division of his own company.

Joseph R. Neill, president of the Watertown Mfg. Co., coupled his announcement with a blast at Watertown in particular and stagnating "Yankee ingenuity in general. eral.

A former Republican state senator, Neill is chairman of the Connecticut Development Commission — a state agency designed to help new industry locate in the Nutmeg state.

Neill said the commission was "fully aware" of his plan to move before Democratic Gov. Abraham Ribicoff named him chairman recently.

Watertown Manufacturing employes more than 400 persons in making plastic products, Neill said he plans to move a division to the Midwest to be nearer his customers but hasn't decided exactly where to locate. About 100 employes would be involved.

"A lot of our New England towns have somewhat gone to pot," he said. "We're proud of our Yankee ingenuity and we ride along on that, but we fail to take into consideration that other people are progressing while we're standing still."

Neill said Watertown "just isn't too friendly to industry." He cited taxes, "very little in the way of police protection," zoning and the water supply.

"No industrialist in his right mind is going to come to this town to pay your bills for you," he wrote Tax Collector Irving F. Smith.

Smith had asked him to see if he could bring more industry to Watertown.

The tax collector had no comment.

Ribicoff declined to comment.

Saginaw Safety Drive Rated Best in Michigan

SAGINAW (AP) — The Greater Saginaw Safety Council's program has been adjudged the best of any city's in Michigan by the National Safety Council. It featured a volunteer vehicle safety checkup during May and June.

John Wallace, Saginaw council chairman, said he was advised of the selection today and that the Inter-Industry Highway Committee and Look magazine joined in the National Safety Council's selection.

Didn't Get the Word

HOLLYWOOD (AP)—Crooner Bing Crosby is getting a kick out of showing his pals a telegram from Phil Tanner, a San Francisco night club man, who offered him a two-weeks contract to appear there. "And, if you make good, will hold you over extra two weeks," the wire read.

Thank Eskimos for Role in Saving Downed Fliers

GAMBELL, St. Lawrence Island, Alaska (AP)—Old Moses Soongarook, toothless and 69, didn't understand a word of what was said but he nodded happily, clutched his certificate and shuffled away as fast as his mukluks would allow.

Soongarook couldn't stay to see the rest of the ceremony here yesterday. He and 59 other Eskimos of this St. Lawrence Island community were given medals and certificates for their work in rescuing the 11-man crew of a U. S. Navy patrol plane shot down by Russian fighter planes June 27.

He couldn't stay because it was time for him to go on duty at the Ground Observer Corps post from which a constant watch is kept on the shores of Siberia only 38 miles away.

The Eskimos have a clear view of the Asiatic mainland and can see two Soviet bomber bases and one MIG fighter base. The whole community of 300—except for the man in the GOC post—turned out for the ceremonies.

The Eskimos were at the scene of the wreckage of the Navy plane in less than an hour after it crashed. They carried blankets, first aid kits and coffee in their little skin boats.

Seven injured men were among the 11 crewmen who were waiting about 300 yards from the still-burning plane and first aid was quickly given.

Rescue planes soon reached the fliers and took them to Fairbanks.

The ceremony yesterday was the official "thank you."

NOW reduce pounds in mere days without hunger...or MONEY BACK

With New Sensational APPETAKE PLAN, eat well, yet grow thin steadily (*not actual photos, for illustrative purposes only*)

New Method lets you lose pounds without Exercise or Hunger Diets

APPROVED!! Absolutely safe! A most effective and easy REDUCING PLAN is drugless, harmless.
Avoid excess fat from over-eating that weighs you down mentally and physically. Never again feel hungry while you cut down your food intake and lose layers of ugly fat. Delicious candy-like APPETAKE tablets curb hunger . . . appease your appetite . . . give you that satisfied "full-up" feeling, that won't let you overeat.

New APPETAKE . . . one of the most effective and easiest REDUCING PLANS, with most delicious taste, drugless, harmless.
This basic formula is probably known by your doctor, and the Appetake reducing plan, free in each package, is approved because it is effective and safe.

Under this Plan you can even eat our recommended desserts, sauces gravies and still lose.

With Appetake to curb your between-meals eating, and by following the plan, you can eat all you feel like, can grow thin steadily.

APPETAKE PLAN, the Reducing Discovery that GUARANTEES Wonderful Results.
No matter what you have heard about exercise, massage, baths or drugs as a means of reducing weight . . . No matter what you have heard about the "settling down" of middle age as the cause of obesity . . . here are the facts which any doctor can confirm:—
The average man or woman becomes over-weight for one, and only one reason—because he or she eats more food calories than the body can use up! This extra food turns to FAT . . . men usually becoming fatter in front, and women behind.

Absolutely Safe Method lets you lose pounds and pounds in mere days.
See for yourself how Appetake sweet tablets in the Appetake Plan can help cut down your food intake, letting you lose pounds and pounds healthfully, safely.

THIS TIME you will succeed or we give you YOUR MONEY BACK!

Get APPETAKE the sensational NEW Reducing Plan Now!

10 DAY NO-RISK TRIAL
Your scales must show you have lost weight and have an improved figure. You must look better or you get YOUR MONEY BACK WITHOUT QUESTION. Get handy, delicious APPETAKE TABLETS and Plan today.

Thousands and thousands of people have used this speedy, time-tested Appetake Plan.

Take these delicious, candy-like Appetake tablets as directed before each meal . . . follow the amazing, simple Appetake Plan and see how rapidly you'll lose pounds and pounds without feeling hungry . . . see how the amazing Appetake method helps you lose weight rapidly . . . without ever feeling hungry.

Bob Considine Says:

World Cooperates in the War on Narcotics

GENEVA (INS)—The ghosts of many a derelict dream haunts the Palais des Nations where for a full generation the major powers—minus the U. S.—searched for an honest peace with the flickering lamp of the League of Nations.

But surprisingly the Palais remains a beehive a'buzz with the operations of a dozen hardy international groups that either survived the sinking of the league or have been planted therein by U. N.

Wandering through the place the other day, seeking out Clemenceau or Lloyd George for an exclusive interview, I noted an arrow pointing down a dim hall and over it the legend "Permanent Central Opium Board."

"The world can get along without many of its laws but it would be in a much worse shape if it didn't have legal machinery for controlling narcotics," Dr. A. Lande, longtime authority, told me.

"Drug addiction has been reduced over great parts of the world. This could not have been done entirely on a national basis.

"If Canada did not cooperate loyally with the world body, for example, the U. S. would have to open every letter from that country, searching for potent bits of drugs, and recipients of such shipments could escape punishment by denying knowledge of any deal."

U. S. IS BIG USER

Dr. Lande reported that the U. S. now consumes half the legally manufactured drugs made annually in the world.

"The more medical care a country provides for its people, the more narcotics it uses. Backward countries treat their sick as their grandmothers did. Hence the tremendous consumption in America, where there is more advanced medical care than anywhere else."

* * *

I asked about the illegal traffic in the U. S.

"America has made itself a target for such trade," he replied. It is a rich land whose addicts will pay dearly for drugs. It is a land of dollars and those dollars encourage the runners to take the most desperate chances to supply the demand.

"There is something else," he continued, thoughtfully. "In a land of great opportunity a shoemaker's son is never resigned to being a shoemaker himself, as in so many other countries. He strives to improve his lot in life. There is no limit to what he may obtain.

* * *

"But it follows, too, that there are biter frustrations. A man or woman sometimes doesn't reach the height he or she feels could or should have been reached.

"There is some frustration, an unavoidable result emitting from all the good things about America. It is true of any society that is not stable. We find that consumption goes up in any area of tension, too."

T. R. GETS CREDIT

Teddy Roosevelt is regarded in Geneva as the father of international narcotics control. The annexation of the Philippines brought to his attention the widespread opium smoking among its Chinese residents.

* * *

He was a guiding light behind the 1909 meeting in Shanghai of the first International Opium Commission. The first treaty was signed in 1912. The League of Nations took over the work in 1919 and directed it until 1946, when U. N. assumed the role.

The United States never joined the league but took an active part in its narcotics activities from the start and paid its share of the costs. Today open narcotics traffic is outlawed in every country except Thailand, though several nations reserve the right to license opium smoking for oldtimers who once smoked it without reservation.

Egypt has an estimated one million addicts, it has reported in the course of revealing facts and figures sent to the old league building by the 90 members states involved in control laws.

* * *

"We'll never be able to prevent all the traffic in illegal drugs, Dr. Lande said. "But our work has its effect on each generation. For example, a much greater percentage of drug addiction showed up among drafted Americans in World War I than in World War II."

He looked out the window at the hustle and bustle caused by the departure from the Palais of the Big Four. "I hope they reach accord," he said. "The cold war has created a fresh demand for drugs. Such things mean much to us."

Students Show Skill at Clipping, Shaving

DETROIT (AP)—With the aid of shaggy-haired and bearded friends, 170 Michigan student barbers are now busily clipping and shaving their way through final examinations.

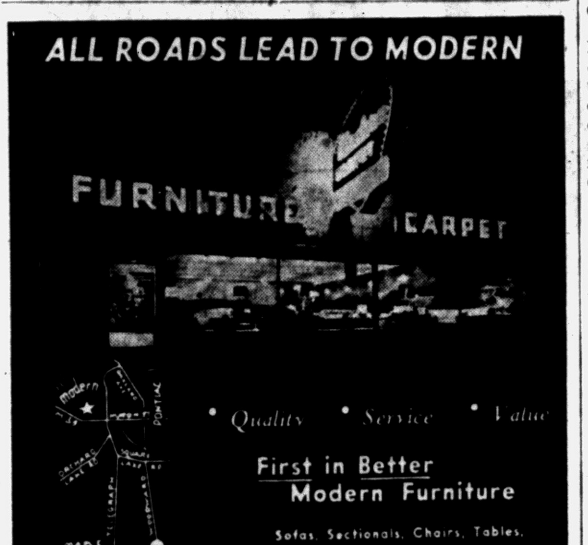

Besides supplying his own tools, each student is required to have a long-haired and bearded pal to serve as a guinea pig in tests before the State Board of Examiners of Barbers.

The exam also includes a written test on skin, muscle structure, nerves, bones and blood circulation.

A score of 75 points out of a possible 100 wins an apprentice license good for two years. After two years of practice under a licensed barber, the apprentice then must take the exam again to get a professional license.

Although meteorites have been observed for thousands of years, it was not until 1803 that modern astronomers were convinced that they reach the earth from outer space.

Telling America About OUTSTATE MICHIGAN

The advertisement below is another in a series through which Consumers Power Company is telling America about the industrial advantages of OUTSTATE MICHIGAN. It is appearing in Newsweek, U. S. News and World Report, Business Week, Dun's Review and Modern Industry, Chemical Week and Wall Street Journal.

PI-C-4672-52

OUTSTATE MICHIGAN

Offers Future Leadership for Your Industry

Every industry needs young people with alert and eager minds . . . young people who will develop into the leaders and the managers of tomorrow.

Outstate Michigan has plenty of future industrial leaders. Many are students in Michigan's universities and colleges.

Within the area served by Consumers Power Company are Michigan State University and sixteen senior colleges.* Construction of the first building for a Flint branch of the University of Michigan is under way. Close by, in Ann Arbor, is the University of Michigan itself, and, in Detroit, Wayne University and University of Detroit. Combined enrollment of Michigan's 40-odd colleges, universities and technical institutions is about 100,000 students.

From Michigan's educational centers come the kind of young men and women that industry needs today and will need even more acutely in the future.

Young people of every degree of skill and training are among the many assets Outstate Michigan offers to industry.

* Adrian, Albion, Alma, Aquinas, Calvin, Ferris Institute, General Motors Institute, Hillsdale, Hope, Kalamazoo, Madonna, Nazareth, Olivet, Siena Heights, Central Michigan, Western Michigan

TODAY'S ASSIGNMENT FOR:

JUNIOR EDITORS

JUNIOR EDITORS SEE AMERICA—3

Natural Bridge

Bridges aren't all made of steel and concrete. Some are made by nature from rock, and building them takes hundreds or thousands of years.

There are more than 50 natural bridges in the United States. Junior Editors traveling in almost any part of the country might see a natural bridge before their trip ends.

One of the most famous is in Rockbridge County, Virginia. It is 215 feet high and from 50 to 150 feet wide. Its span is 90 feet long and 50 feet thick.

Once a natural tunnel, the roof fell away, leaving just the bridge. Visitors view the great arch from below, and traffic passes over the road on top of it.

Thousands of tourists travel every year to see this bridge. One of its first admirers was Thomas Jefferson, third President of the United States. In 1775 he paid the small amount of 20 shillings for 157 acres of Virginia land, including the bridge.

Here is your picture of the Natural Bridge in Virginia, to add to your collection of things to see in America.

Paste the picture on cardboard and when it is dry, color it the way you think it should look. Then you can cut out the opening under the bridge.

Tomorrow: Cape Cod

Duncan Hines of Yeggs Rates Cincinnati Best

CINCINNATI, Ohio (INS) — A professional burglar, who considers himself something of a Duncan Hines of the lock - picking set, rates Cincinnati the nation's best city to burglar in and Indianapolis the worst.

The offender, who was returned from Seattle to face charges as a habitual offender, admits at least 50 thefts in Cincinnati—"A burglar's paradise" — and hundreds throughout the country.

Queen City housewives, he explained, always keep a lot of cash around the house. Indianapolis housewives never have any.

Teacher Takes 4,500 Mile Trip

Engineering Instructor at University of Alaska Comes Home

BATTLE CREEK (AP) — He drove home 4,500 miles for a vacation from his post as engineering teach-

That's Raymond B. Roof of Battle Creek, taking a summer's rest from his post as engineering teach er and radar research worker at the University of Alaska.

He finds Michigan's steamy heat quite a contrast from his winter post, where parkas, heavy boots, several layers of clothing and snowshoes are fashionable campus garb.

However, the Alaskan summer had started when Roof left Fairbanks in June and he reported the temperature was between 70 and 80 degrees "But the air was much drier than here."

Roof returned by way of the Alaska Highway, traveling 1,227 over its dusty length. Long summer days that far north made it possible for him to take color slide photographs at midnight.

He says high salaries continue in Alaska — with high living costs to match. Haircuts cost $2.50; milk 50 cents a quart; bread 45 cents a loaf and gasoline 49 cents a gallon. Eggs, which must be shipped in by air, are $1.09 a dozen.

Roof, on two-year leave from his Central High School science classes here, teaches electrical engineering at University of Alaska and does upper atmosphere radar research at the world famed Geophysical Institute.

The Institute, located on the campus, carries on extensive studies in earth magnetism, the Aurora Borealis and other phenomena of the upper atmosphere in the far north.

The University has a student body of some 400 men and 50 women. Class is small. Many have as few as three students and in cases of specialized study there may be just one student.

Most of the enrollment is from Alaska, Roof said, but students also come from the neighboring Yukon Territory, British Columbia, and the state of Washington and Oregon. They can earn degrees in Liberal Arts, Mining Engineering and Civil Engineering.

The County of Oakland Offers the Following Described Properties

CITY OF PONTIAC — NORTH SECTION

(Vacant Residential Lots)

Highwood Subdivision: Lots 277, 278, 279, 286 and 287 located on East Third Street; Lots 323, 324 and 325 on East Second Street; Each approximately 50'x130'. Two Lake Orion Men Are Sentenced in Theft

Robert P. Jackson, 22 and Jack V. Young, 24, both of Lake Orion, yesterday were sentenced by Oakland County Circuit Judge H. Russel Holland after they admitted July 11 stealing a safe from a Holly auto agency July 6.

Jackson was placed on five-year probation and assessed $250 court costs and Young was sentenced to 3 to 15 years in Jackson state prison.

Police said the pair also took safes from car dealerships in Lake Orion, Oxford, Rochester, Lapeer and Davison.

Expensive Jump

BENTON HARBOR (UP)—It cost an Air Force parachutist $15 to make a demonstration jump. Airman 1c. Phillip Beilfus, stationed at Selfridge Air Force Base, said his wallet containing $15 popped from his pocket as he hit the water in a jump at nearby Silver Beach.

Sweden Enjoys Happy Crayfish Season Fete

The biggest gastronomic whoop-te-doo in Sweden comes in late summer during the crayfish season. Crayfish time is considered reason enough for all manner of celebrations.

Fireworks light up the sky and banquets are held throughout the land. The crayfish resemble small red lobsters and are washed down with schnapps and beer. The aim is to eat as many as possible with twenty considered a minimum serving.

THE BERRYS By Carl Grubert

Skiing goes on the year around on the perpetual snows of Mount Hood.

More than half the chronically ill people in the United States are under 45 years old.

The number of Navajo Indians has increased from 7,000 in 1867 to more than 70,000 today.

The planet Mars has a mean distance of 141,650,000 miles from the Sun.

Some Mushrooms Lethal

WASHINGTON — Although some mushrooms are edible, poisonous species may be violently lethal, says the National Geographic Society. Only experts dare gather the woodland delicacies. Mushrooms lack chlorophyll, the green substance with which most plants manufacture food. Hence, they feed on the remains of other organisms, penetrating decaying plants and trees with rootlike structures that secrete chemicals to dissolve the woody fibers. Mushrooms remain hidden until ideal conditions of warmth, moisture and food supply bring them popping to the surface.

Farmer Gets Sentence for Chaining Up Son

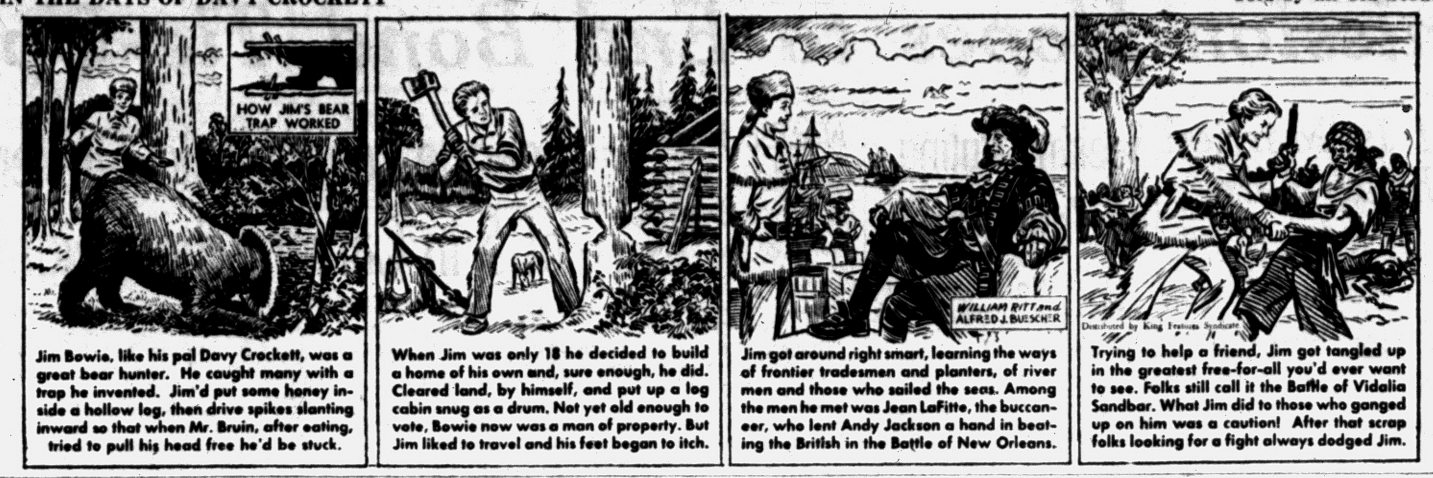

DRUMHELLER, Alta. (UP) — William Robert Ferguson, 68, a farmer, has been sentenced to a year's hard labor for chaining his 8-year-old son by the neck in a filthy barn.

Police testified at his trial yesterday that the boy was confined in the barn on a chain 20 feet long which allowed him to move barely outside its door. They said Ferguson explained he felt the chain would make the boy behave because it had improved his dog's behavior. The farmer was quoted as saying the child had been first chained when he was 5.

IN THE DAYS OF DAVY CROCKETT

Told by an Old Scout

Jim Bowie, like his pal Davy Crockett, was a great bear hunter. He caught many with a trap he invented. Jim'd put some honey inside a hollow log, then drive spikes slanting inward so that when Mr. Bruin, after eating, tried to pull his head free he'd be stuck.

When Jim was only 18 he decided to build a home of his own and, sure enough, he did. Cleared land, by himself, and put up a log cabin snug as a drum. Not yet old enough to vote, Bowie now was a man of property. But Jim liked to travel and his feet began to itch.

Jim got around right smart, learning the ways of frontier tradesmen and planters, of river men and those who sailed the seas. Among the men he met was Jean LaFitte, the buccaneer, who lent Andy Jackson a hand in beating the British in the Battle of New Orleans.

Trying to help a friend, Jim got tangled up in the greatest free-for-all you'd ever want to see. Folks still call it the Battle of Vidalia Sandbar. What Jim did to those who ganged up on him was a caution! After that scrap folks looking for a fight always dodged Jim.

Paper Salvage Off

CHICAGO (UP)—Americans are salvaging less waste paper—in proportion to production—than at any time since 1909, D. C. Everest, chairman of Marathon Corp., told the 42nd annual convention of the National Association of Waste Material Dealers.

How To Hold
FALSE TEETH
More Firmly in Place

Do your false teeth annoy and embarrass by slipping, dropping or wobbling when you eat, laugh or talk? Just sprinkle a little FASTEETH on your plates. This alkaline (non-acid) powder holds false teeth more firmly and more comfortably. No gummy, gooey, pasty taste or feeling. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH today at any drug counter.

The mole lemming uses its teeth for digging.

Finance Commission Hopes to End Bond Tie-Up

Dillman Service Set for Friday

Rochester Woman Was Children's Aid Leader; Succumbs Tuesday

ROCHESTER — Mrs. Arthur R. (Ethel E.) Dillman, a village resident for 40 years, succumbed yesterday at her home, 1315 N. Main St. She had suffered a three-month illness.

Mrs. Dillman was born in North Webster, Ind. Service will be held at 2 p. m., Friday, in St. Paul Methodist Church, with entombment in White Chapel Memorial Cemetery. She will be at the William R. Potere Funeral Home until noon Friday.

She was a member of the Women's City Club of Detroit, the Rochester Garden Club, the St. Paul Methodist Church, and an honorary member of the board of directors of Oakland County Children's Aid Society.

Surviving are her husband, Arthur; a sister, Mrs. O. T. Allen of Rochester; a brother, Thomas K. Warner of Dearborn; a son, Charles of Rochester; a daughter, Mrs. William Fenner Jr., of Dearborn, and three grandchildren.

Mrs. Dillman was the owner of the Springwells Lunch Factory in Dearborn.

The family has requested that memorial tributes be made to the Oakland County Children's Aid Society.

Detroit Broker Dies After Heart Attack

DETROIT (AP)—Fred J. Winckler, 64, investment broker and former president of the Detroit Stock Exchange, died yesterday following a heart attack.

He had been convalescing at the Old Club on Harsen's Island from a recent operation.

He was born in Fort Wayne, Ind., but his parents, natives of Detroit, returned here when he was three weeks old. He was educated here and began his career with the Packard Motor Car Co.

Age of Miracles

LONDON (INS) — The full text of President Eisenhower's broadcast of the American people Monday night was the lead item on a radio Moscow newscast heard in London last night.

Eileen L. Haff Is Married to Harley Richard Herr

MRS. HARLEY R. HERR

UTICA — St. John Lutheran Church was the setting for the Sunday afternoon marriage of Eileen Lorraine Haff and Harley Richard Herr.

The bride's parents are Mr. and Mrs. Edwin Haff of Utica, and he is the son of Mr. and Mrs. John Herr of Rochester.

For her wedding, the bride chose a gown fashioned with an imported Belgian lace bodice and a paneled lace and tulle skirt. A coronet of seed pearls, rhinestones and sequins secured her fingertip veil of silk illusion. She carried a bouquet of carnations, roses, stephanotis, and ivy centered with a purple orchid.

Serving as matron of honor was the bride's sister, Mrs. Royce Reitmeyer, and bridesmaids were Patricia Malzahn, Beverly Herr, the bridegroom's sister, and June Mueller.

The bridegroom's brother, Gerald Herr, served as best man with Fred Malzahn, Ernest Malzahn Jr., and Robert Kahler as ushers.

Kathy Herr, niece of the bridegroom, was flower girl, and Loren Malzahn, nephew of the bride, was ring bearer.

A wedding supper was served in the church basement, followed by a reception at the home of the bride's parents.

After a northern Michigan honeymoon, the newlyweds will reside in Rochester.

Soviet Chiefs Leave Berlin

Bulganin, Khrushchev Fly Home After 3-Day Visit in East Sector

BERLIN, (AP) — Soviet Premier Bulganin and Communist party boss Nikita S. Khrushchev left East Berlin by plane today for Moscow after a three-day visit with the East German Communist regime.

Prime Minister Otto Grotewohl and his Cabinet, along with top Soviet officials and East European diplomats, saw the Russian leaders off.

The Soviet chiefs stopped here on their way from the Big Four summit conference.

Before boarding the Russian plane, Bulganin in a brief speech said he was impressed by the workers, industry and intellectual circles in East Germany. He wished "continued success for the German Democratic Republic in its fight for a unified, democratic and peace-loving Germany."

Khrushchev in an address last night to a crowd of 250,000 in East Berlin's Red Square restated the Soviet position that Germany must be united only within an all-European security pact. The Soviets, he declared, could not expect the East Germans to be willing to be absorbed by a West Germany "that is rearming as a partner in the North Atlantic Pact."

Omaha Bans Comic Book Sale to City Youngsters

OMAHA (AP) — The Omaha City Council yesterday clamped down on sale of comic books. A new ordinance makes unlawful the sale of "any comic book, magazine or other publication, which read as a whole is of obscene nature."

Another provision makes it unlawful to furnish to persons under 18 any publication which depicts by drawings a specific list of 27 crimes or incidents "inducing disgust or horror."

Greatest Living Christian Subject of Sunday Speech

ROCHESTER—Roger Forbush, a member of the First Congregational Church here, will present the sermon at the 9:30 a.m. worship service Sunday, in the absence of the pastor, The Rev. E. John Yuells.

A Michigan State University student, Forbush will speak on the subject, "Albert Schweitzer—The Greatest Living Christian."

Seeking Ruling on Vote Legality

Say State Amendment Allows Unlimited Tax for 25 Years

LANSING (AP) — The Municipal Finance Commission expressed hope today that by next Tuesday it can break a bottleneck holding up at least six school bond issues.

Included in the six is a $750,000 bond issue approved by voters in the Lake Orion school district.

The bond issue would finance a new high school. It was approved at the polls May 9.

The Commission said it hopes by Tuesday to have a decision from the Attorney General as to whether school districts must advise their voters on the ballot and by election notice that the constitution now permits bond issue taxes to be levied in unlimited amounts for 25 years.

This became possible under the 100 million dollar school construction loan fund authorized by the voters in April.

In addition to four bond issue approvals delayed earlier, the commission today tabled action on a $990,000 issue for Allegan and a $480,000 issue for the Houghton Lake public school district.

Lake Orion's bonds, along with those of several other school districts, were approved in elections which do not state that they permit unlimited tax increases.

State Attorney General Thomas M. Kavanagh has said he was disturbed that school district voters were being asked to approve bond issues without being told that their taxes can be raised for 25 years for an unlimited amount of additional millage.

Germans Select Army Officers

Hitler Assassination Plotters Named to Top Rank in Military

BONN, Germany, (AP)—Two of the 1944 bomb plotters against Hitler, Adolf Heusinger and Hans Speidel, have been named to the top ranks in the new West German army.

They headed a list of officer appointments approved last night by the Security Committee of the Bundestag, lower house of Parliament.

They will serve first in a 6,000-man volunteer force to be raised this year as the nucleus to the 500,000-man armed force West Germany has pledged to the Atlantic Alliance.

* * *

There was no indication what posts they will hold. They will have their former rank of lieutenant general.

The new army will include only one full general. He will not be appointed until organization of the armed forces is well under way.

Both Heusinger and Speidel were arrested after the 1944 attempt on Hitler. Heusinger was released after two months. Speidel escaped and was in hiding when the war ended.

Globe-Circler Lands, Takes Off From Paris

PARIS (AP) — Susan Bryan, 21, flew into Paris today and took off 36 minutes later in an attempt to set an arioud-the-world speed record by commercial plane.

Miss Bryan, who has been dubbed "Miss San Francisco International Airport," barely had time to check through airport formalities at Orly Field and change from Pan American to Air France for the third leg of her trip.

She started from San Francisco yesterday and hopes to make it back there by 11:30 a.m. Saturday, for a record of 106 hours 55 minutes. The present mark is 115 hours.

Local Guardsman Given Silver Bars

Promoted today to the rank of first lieutenant in the Michigan National Guard was James R. Crawford, 56 Oriole Rd.

He works in the plant safety department of Pontiac Motor Division, is married and has three children.

Crawford has served six years in the National Guard and from 1941 to 1945 was a bomber-navigator in the Air Corps.

2 Michigan Men Killed as New Car Crashes

DETROIT (AP)—With only 200 miles logged on their new car, two Detroit area men were killed last night when the auto crashed into a concrete bridge support.

Killed were Anton Anderson, 71, of Dearborn and George A. Kish, 70, of Ecorse. Both were retired steelworkers.

'Not So Bad!' Russian Says of Miss Monroe

SPENCER, Iowa (AP)—"She's not so bad!" said Boris Savelev of the Soviet farm delegation last night after seeing Marilyn Monroe in "The Seven-Year Itch."

"Of course," he added, "for us it's not entirely a motion picture of the type to which we are accustomed."

* * *

"She has a beautiful body!" said Petr Babmindra, also of the Russian group.

"It seems to me," he declared, with a certain amount of justification, "that she's not there for the sake of the motion picture but instead the motion picture exists for the sake of her."

"When she does mimicry," Babmindra said, "she sometimes distorts her face."

"If you publish this," he added, "she'll be angry at me."

* * *

Marilyn emerged from the searching examination of five pairs of Russian eyes tonight much better off than Jane Russell. One of the Russians made remarks disparaging the famous Russell charms—most of them—after seeing her in a motion picture Monday night.

Troy Township Tells Zoning Decisions

TROY TOWNSHIP — The Troy Township Board has reported decisions made earlier by the Township Zoning Board on three zoning issues including denial of a request to rezone for light industrial, a twenty-acre parcel south of the Dynamic Manufacturing Co.

James G. Sutermeister, 4695 Rochester, sought rezoning to build a small machine shop next to Dynamic. Nearby residents had complained to the zoning board that they wanted no more industry in that area.

The township board agreed to permit rezoning to commercial four lots at the corner of Harris and Rochester. Retail sorces and similar businesses may be built there.

The zoning board had recommended that the property not be used for tavern purposes.

Rezoned also was a lot next to the new Drive-In Theater on 15 Mile at Stephenson, for commercial use. The property is owned by Donald Sawyer, 1635 East Maple.

Spirit lake in north Idaho has a bottom of solid stone.

League Leader Asks Ouster of 5 in Carver School Fight

ROYAL OAK TOWNSHIP—The George Washington Carver school board meeting last night was another in the series of tumultuous gatherings which have marked the history of the school district.

Otis Eaton, chairman of the Citizens Improvement League, charged Principal Adelaide Long with receiving $300 from Julius Mallard in return for a teaching job in the school.

Eaton charged teachers Dorothy Posey, Dorothy Harris and Assistant Principal James Satterwhite "unworthy to be teachers because they did not cooperate with the Board of Education at the secret hearing of ousted Superintendent Walter Buffington."

Cash C. Bates, maintenance employe of the school, was charged by Eaton of entering an agreement to defraud the school district of $3,000. He asked dismissal of all.

Principal Mrs. Long and Bates, who were present, denied the charges.

The board is to set a date for a hearing in the matter. Mrs. Long said today she would fight the charges.

Crash Widows Seek Damages

File New Lawsuits for $850,000 Against TWA, Castleton Corp.

DETROIT (AP)—Widows of three passengers killed in the collision of a Trans World airliner and a private plane over Burlington, Ky., have filed damage suits totaling $850,000 in federal court here.

Fifteen persons were killed in the crash Jan. 12.

The suits named both TWA and Castleton Corp., owner of the private DC3, as defendants.

Castleton is a holding company owned by Mrs. Frances Dodge Van Lennep, heiress to part of the Dodge automotive fortune, and her husband, Frederick Van Lennep, a Detroit sportsman.

Widows of passengers aboard the airliner filed the three suits yesterday. They are Mrs. Bernice Reinwold of Chicago, widow of Harry C. Reinwold; Mrs. Sybil C. Reler of Highland Park, Ill., widow of Robert H. Reler; and Mrs. Ruth H. Ronney of Lewiston, Idaho, widow of Harry N. Ronney. Mrs. Reinwold asked $350,000 and the others $250,000 each.

Other suits totaling $2,650,000 have been filed against the Castleton Corp. TWA sued for two million dollars. Survivors of the pilot, co-pilot and stewardess aboard the TWA plane have asked $650,000.

Margaret Sanger Ill

HOLLYWOOD, (AP)—Mrs. Margaret Sanger, 71, internationally known advocate of birth control, was reported resting comfortably today at Cedars of Lebanon Hospital. Mrs. Sanger, of Tucson, Ariz., was visiting friends in Los Angeles when she suffered a heart attack. She was hospitalized yesterday.

County Deaths

Mrs. Nestor J. Allard

MILFORD — Service for Mrs. Nestor J. (Alida) Allard, 10310 Mary Lee, Route 2, will be held at 10 a.m. Friday in St. Patrick Church, Oxbow Lake, with burial in Holy Sepulchre Cemetery. Rosary for Mrs. Allard, who died at her home yesterday, will be recited at 9 p.m. Thursday at the Donelson-Johns Funeral Home, 855 W. Huron St.

Mrs. Jessie Willer

MARLETTE—Service was held yesterday at the Marsh Funeral Home for Mrs. Jessie Willer, 76, who died Saturday.

Exchange Farm Youth Will Convene at MSU

EAST LANSING (AP) — The International Farm Youth Exchange Conference will attract 95 exchangees from 26 nations and 150 "alumni" from nearly every state in the union to Michigan State University Aug. 4-7.

The exchangees will don national dress and dine on a menu of national foods at an international dinner Aug. 6.

A continuing study by the Population Reference Bureau shows that U.S. college graduates are having more children but do not yet have enough to replace their own numbers.

Davy Crockett Frontier Is Gone Forever; Atomic Opportunity Still Unlimited

WASHINGTON (INS)—Farm Bureau President Charles B. Shuman figures that Davy Crockett would find things pretty dull if he were alive today.

Speculating along that line, Shuman pointed out that the Indians are now mostly well protected wards of the government, that there are few bears left to kill in Tennessee, and that nobody wants to patch the crack in the Liberty Bell.

Writing in the farm organization's monthly magazine, the farm bureau federation leader conceded that the "government at Washington could stand considerable fixing," but he did not spell out just what he meant.

The point Shuman was leading up to is that while there are practically no physical frontiers for modern Davy Crocketts to explore, the field is wide open for the scientific explorer, agricultural or otherwise.

He said: "There is even now opening up to us the possibility of an atomic age so marvelous that human imagination can scarcely glimpse its promises.

"The big question is whether or not we will have the courage to press relentlessly onward in our search for new knowledge on the frontiers that can only be conquered by human minds."

Shuman pointed out that agricultural progress has paralleled agricultural research ever since President Lincoln signed legislation bringing the nation's first effective federal farm program into being.

Work done in laboratories and at experiment stations, he said, has aided farmers in doubling and redoubling crop yields and livestock productivity.

But Shuman added: "There remain vast new possibilities of increasing farm production through research. The application of atomic radiation and federal farm program into being. **untouched field.**

"In addition to the challenging opportunities for production research, there are other areas of agricultural research that offer almost as many possibilities."

In the latter group, the AFBF president placed the urgent need for more research to improve what he called antiquated and inefficient marketing practices and systems.

He declared that farmers quite properly want to know why consumer prices for food and clothing have remained relatively steady while prices of farm commodities have dropped 24 per cent since 1951.

Shuman took the position that farmers would be better served by the government if more effort were directed toward securing an accurate and rapid picture of changes in consumer demand than in trying to stabilize prices without regard to the market.

Finish Blacktopping at West Bloomfield

KEEGO HARBOR—Blacktopping of the parking area at the West Bloomfield Township High School was recently completed by the Smith Ferguson Co. of Dearborn.

At a recent special meeting of the W. Bloomfield School Board a contract was given to the Stewart Supply Co. of Pontiac to remove 2 partitions on the top floor of the Roosevelt school and replace them with one partition, thereby making two regular size class rooms from three small ones. The rooms are to be ready in September for the opening of school.

The board has asked the State Department of Public Instruction for an advance of $40,000 to help with the teachers' salaries.

County Calendar

Sashabaw Plains

Annual meeting of the Sashabaw Cemetery Assn., open to the public, will be held at Sashabaw Presbyterian Church Saturday. Potluck dinner will be held at 12:30 p.m., with business meeting to follow.

Commerce

Commerce Gay Timers square dance club will hold a combination square dance and hay ride at Hal Brown's barn Saturday from 8:30 to 11:30 p.m. Members may bring guests. Weinie roast to follow, bring own hot dogs and buns.

U.S. Agriculture Picture Sent Overseas

WASHINGTON (INS) — The U.S. Information Agency is beaming overseas a whole series of short-wave radio programs aimed at giving the world a better picture of American agriculture.

At the outset, foreign listeners were told that there is no such thing as the typical American farm for the simple reason that the size of the country and extreme variations in types of soils and climate make such a thing impossible.

In attempting to give a general idea of how the U. S. farmer makes his living, the series of broadcasts dwells on at least seven major types of farming operations.

These include ranching, wheat production, dairying, cotton growing, corn - livestock operations, specialty cropping, and subsistence farming.

Voice of America broadcasters make it clear, however, that their discussions cannot begin to tell the whole story of just how diverse U.S. agriculture actually is.

They point out, for instance, that there are two distinct types of dairy farms — those clustered about the big cities to take advantage of a concentrated market for whole milk and those in the midwestern dairy belt where the bulk of the milk goes into butter, cheese, and other products.

This particular script says further: "People don't get into the dairy business to make vast sums of money but to establish a way of life."

When word of this broadcast reached Capitol Hill there was some sharp criticism by at least one member of Congress who has taken a dim view of recent government price programs to assist the dairy industry.

Another program in the series describes present-day ranching as a curious combination of the old West and modern production, complete with mechanization, soil and water conservation, and up-to-date marketing methods.

As for the South, the script recognizes that considerable progress has been made toward diversification, but it adds:

"In the deep South — in the cotton belt — cotton is still king. More cotton is used than any other fiber in the world, and the United States produces more cotton than any other nation."

The final broadcast in the series describes the subsistence or self-sufficient type of farm, where a family grows foodstuffs on a small acreage primarily for its own use, but sometimes sells off a surplus.

Foreign listeners also are told that this type of farm family often supplements its income by selling handicraft products or by working for some nearby industry or larger farm.

Information agency officials said this probably will be a revelation to most of the audiences overseas because of the widely-held belief that all American agriculture is large-scale and mechanized.

Work, Sleep, Play In Comfort
Without Nagging Backache
Nagging backache, headache, or muscular aches and pains may come on with over-exertion, emotional upsets or day to day stress and strain. And folks who eat and drink unwisely sometimes suffer mild bladder irritation ...with that restless, uncomfortable feeling.
If you are miserable and worn out because of these discomforts, Doan's Pills often help by their pain relieving action, by their soothing effect to ease bladder irritation, and by their mild diuretic action through the kidneys —tending to increase the output of the 15 miles of kidney tubes.
So if nagging backache makes you feel dragged-out, miserable...with restless, sleepless nights...don't wait...try Doan's Pills... get the same happy relief millions have enjoyed for over 60 years. Get Doan's Pills today!

Hollywood Headlines

Alan Ladd Buys Thriller for Independent Company

(While Louella O. Parsons is on vacation her column will be written by Dorothy Manners.)

By DOROTHY MANNERS

HOLLYWOOD (INS)—So keen is Alan Ladd on the suspense-thriller appearing in this month's Cosmopolitan magazine, "All Through the Night," that he's bought it for his Jaguar Productions even though he himself won't be the star.

The reason he'll seek another actor is that Wade Miller's story is about a middle-aged detective whose grown daughter is kidnaped by a psychopathic killer, and it calls for a character star.

This marks the first time Alan hasn't been in one of his independent pictures for Warners release, having completed "Drumbeat" and "The Darkest Hour" as top man.

GRACE RENTS HOUSE

One of the deals Grace Kelly completed on her flying trip to Hollywood to fit gowns for "The Swan" was to rent Gayelord Hauser's house for four months.

It's in the lease that the furnishings remain "as is," which means that Grace will awaken each morning under the melancholy eye of Greta Garbo as painted in oil by Edith Stevenson Wright.

Although Grace's rent starts this week, she won't be back until early in September to start the MGM picture, preferring to spend her vacation time with her family in New York.

BOON FOR BONITA

The only woman in the cast of "The Lone Ranger," which rolls at Warners Friday, is Bonita Granville, and she plays the wife of the heavy.

The kids of the country would let out an awful howl if producer Willis Goldbeck wrote a "romance" into the movie for the stalwart and solitary ranger, who will be played by Clayton Moore.

Bonita, who is Mrs. Jack Wrather socially, worked previously for Goldbeck in "The Glass Key" and for director Stuart Heisler in the old "Andy Hardy" series at MGM.

STORK KEPT BUSY

Hollywood in shorts: Babies are arriving from all directions around Jack Benny, Shirley Mitchell, his dumb telephone operator Mabel on his radio show (Mrs. Julian Frieden), welcomed a son Monday morning.

* * *

Apparently Dolores Del Rio had no further difficulties with immigration authorities because she flies in from Mexico tomorrow to attend the wedding of Hernando Courtright and Marcella Cuillery.

* * *

Bill Goetz's "Man From Laramie" is Jimmy Stewart's 50th movie.

* * *

Speaking of Goetz, his wife Edith leaves with her friend Claudette Colbert Thursday for Falmouth, Mass., where Claudette opens in "A Mighty Man Is He."

Circumstantial Evidence

OWENSBORO, Ky. (AP)—Police Lt. Owen Bradley had proof that the absent owner of a parked car had slugged the meter. He waited for the owner to return, then gave him a citation.

The proof? The meter's coin box didn't have a cent—nothing but four slugs.

Keeps Gobbler Title

SAN FRANCISCO (AP)—California again led all other states in turkey production in 1954. Growers turned out 9,998,000 birds or 16 per cent of the national total.

Ford Ignores Tradition, Beats Cary for PGA Title

Pontiac Press Photo

'FLUBBED' — Once in a while, like the average duffer, "big name" golfers flub a shot. Here Cary Middlecoff gets one up out of a trap on the 29th (11th) hole at Meadowbrook CC yesterday in his title match with the eventual champion, Doug Ford.

Pontiac Press Photo

PROUD SON — Making the long trek over the Meadowbrook CC course yesterday, sticking close to his father, was 10-year-old Doug Jr., son of the new PGA champion (above, left and center). Young Doug gave his dad a big hug after the match with Cary Middlecoff (right) ended on the 33rd green. He was a proud son, and Ford liked the adulation.

Comes From Behind Early Deficit, Shoots Sub-Par Golf to End Match on 33rd Hole

By H. GUY MOATS

Doug Ford, Kiamesha Lake's husky young pro golfer, doesn't believe in superstitions, or traditions.

And because of that—or in spite of it—today he's the new Professional Golfers Association national champion.

Ford outplayed the redoubtable Dr. Cary Middlecoff to win his crown as only the 2nd "first timer" ever to turn the trick. He also became the 5th medalist to go all the way.

Both these points are regarded as unlikely to happen to one golfer, but Ford ignored tradition to beat them both at the same time.

The steady-going, fast-shooting Ford moved from an early deficit to catch Middlecoff on the 26th hole, where Cary conceded after taking two to get out of a side trap. From there on Doug never trailed. He closed out the match on the 33rd (No. 15) with a par 4 while Cary took 5 after being trapped on his 2nd from the fairway.

The match was close practically the whole distance. But Cary wasn't as sharp on his approaches and putting as against Tommy Bolt.

Ford, on the other hand, continued his sub-par play straight down to the end.

Middlecoff turned in only two under-par rounds Tuesday. He turned the 1st nine in 32, but went only one-under for 35 on the back nine. Ford compiled three 34s in a row, and took 21 for the 6 holes played on the final nine, with three left. He was 5-under for the 33 holes.

Early in the match Cary took

1st Ad PGA Golf—Comes From Behind 9

Here's the medal cards:

Par out	454	443	434—35
Ford out	454	442	434—34
Middlecoff out	35	443	333—32
Par in	435	344	454—36—71
Ford in	434	245	444—34—68
Middlecoff in	435	334	454—35—67

(2nd 18)

Ford out	454	443	434—34
Middlecoff out	545	543	444—37
Ford in	424	434	
Middlecoff in	445	345	

(Ford wins 4 and 3).

Almost immediately after receiving the winner's rewards, in a brief ceremony, Ford and his family of wife Marilyn, and three youngsters, took off for Akron, where Doug said he was going to "look for a little more cash" in another tournament.

The new PGA king even left a pile of unopened mail and telegrams on his locker in the clubhouse.

He received $5,250 in cash, and the big PGA cup, plus another trophy as medalist. Middlecoff took home $3,000.

On his way to the title Doug disposed of George Fazio, Ted Kroll, Wally Ulrich, Fred Hawkins, Shelly Mayfield and finally Dr. Middlecoff. He finished the long grind 39 under par for 191 holes.

It was during the afternoon round that Middlecoff began to fall apart. Ford, however, kept banging away and was much stronger at the finish. After the match Ford declared that he felt "just as good as I did the 1st day of this tournament."

Ford's last tournament victory was last August when he won the Ft. Wayne, Ind. Open. He's been close on several others, however.

He was so good yesterday that Middlecoff, talking to the fans said, "If they put Swaps and Nashua in a two-mile race, I'd bet on Ford."

Earlier, Cary, complaining of the heat, said he "saw the handwriting on the wall at the 17th. Some horses can run a mile, others a mile and a half." He added that he thought it "a great thing for Doug to win this one."

Ford's victory automatically placed him on the U.S. Ryder Cup team.

'Chip Shots' From PGA

Middlecoff Loses, but He Won't Go Hungry

By JACK SAYLOR

NORTHVILLE—Cary Middlecoff took several minutes to line up a dinky 5-foot putt on the 14th green, where he was faced with a 2-down situation in his National PGA championship match with Doug Ford Tuesday.

When the crowd grew visibly uneasy over the long wait, Cary offered in explanation: "This means money to me."

Doc missed his putt by 2 inches, Ford tapped in a 3-footer for a birdie to go 3-up and ended the match on the next hole.

Shed no tears for the good doctor, however, despite his reference to the money. The $3,000 he pulled down as runnerup should keep him in groceries until he's in the money again—which undoubtedly will be the next tournament he plays.

The $3,000 puts Middlecoff's earnings (from tournaments alone) in the neighborhood of $25,000 for the 1st 7 months of 1955—and that's a pretty fancy neighborhood.

The $5,250 for the title and medalist prize gave the Ford family quite a financial boost, too. Doug jumped from 15th to 6th on the PGA's money-winning list.

The gallery was largely pro-Ford, probably swayed by the fact that he hadn't won a tournament this year and never had copped a big one. In addition, the crowd always loves an underdog, which Ford was despite his steady sub-par shooting.

The quick-playing New Yorker was a fantastic 39 strokes better than par figures for a total of 191 holes played over the Meadowbrook course.

* * *

Middlecoff fired a brilliant 67 to take a 1-up lead after 18 holes, but he reserved his poorest play for the last 18, when it counted most. He was 3-over par on the front side and 2 over par for the 6-hole duration of the match on the back nine.

Cary held the lead 4 different times, but couldn't hold it or add to it. He bogied twice to blow 1-up margins early in the afternoon round. Then he flubbed a "sure" birdie after whaling one of the great tee shots of the entire tournament.

Cary cut the corner slightly on the 380-yard 5th hole, caught downhill roll just right and rolled within 10 feet of the green. He stubbed his approach badly and had to 2-putt for a par.

The 12th hole was good to Ford on both rounds. In the morning, his drive struck a tree bordering the rough, but the ball bounced back into the fairway. Doug won the hole on a birdie when he parked his wedge approach 4 feet from the pin and sank it, while Middlecoff was parring.

Another great break for Ford—possibly the big one as far as Middlecoff was concerned—came at the same hole in the afternoon. Middlecoff pitched from the rough and his ball rolled up-hill 12 feet past the pin—and held.

Ford played a similar shot, his ball rolling about the same distance past the pin. It held for a second—then trickled slowly back down the incline and stopped 4 feet from the hole.

That saved Ford a tough downhill putt and Doug slipped in the 4-footer for a commanding 3-up lead. Three holes later he was an elated 4 and 3 victor, crowned PGA champion for '55.

3 Upsets Are Recorded in City Softball League

Softball teams in the city league didn't follow the form sheet very closely in Tuesday night's play at Beaudette and North Side Parks. Only one result stuck to the script, with three mild upsets being recorded.

Mike's Used Cars inflicted a 6-0 whitewashing on Pontiac & Opdyke at Beaudette in the lone expected outcome. Lloyd Harper hurled a neat one-hit shutout, a 1st-frame single by lead-off hitter Bee Savedge the only safety he allowed. Mike's garnered eight hits off Bob DeBell.

Chuck & Louie's Market outscored Drive-In Cleaners, 11-7, in a slugfest at Beaudette to highlight the parade of upsets. The runner-up Drive-In nine fell behind, 10-1, after three innings, and late rallies were short of the mark. Bob Volk homered for one of the losers' 11 hits. Chuck & Louie's collected 12 safe blows.

American League runner-up Stadium Inn was rudely bounced by General Motors, 9-1, at North Side. Stadium's steady pitching and sound fielding deserted it last night and GMC's Doug (No-Hit) Hall tossed a nifty three-hitter. The winners banged out nine hits off Ed Miller, including a home run by Alan Dennis.

GMC, holding 2nd place in the girls loop, was upended by Shaw's Jewelers, 5-0, at North Side. Shaw's girls tallied all of their runs in the first three innings and role along on Jackie Thasher's five-hit blanking.

Strader Likes Looks of His 49er Pro Team

Raves Over Backfield, Especially McElhenny, Y. A. Tittle

MORAGA, Calif. (AP)—Red Strader back in big-time football after a five-year lapse, thinks his current National Football League team is a lot better than his last one.

"This looks like a pretty strong squad," Strader said today as he watched his San Francisco 49ers troop into the St. Mary's College locker room after a workout. "No, I won't make any predictions because this is a tough league all the way through, but it's a better looking squad than I had back in 1950."

* * *

Strader, who took over as head coach of the 49ers after dismissal of Lawrence (Buck) Shaw, was talking about the New York Yanks whom he coached five years ago. Although never really out of football since—he helped Shaw in between, sometimes as an assistant, more recently as a scout—this is his first season as a head coach since leaving the Yanks.

* * *

The 1950 Yanks had a pretty fair country backfield, Strader admitted — George Ratterman, George Taliaferro, Buddy Young and Zollie Toth. So do the current 49ers—Y. A. Tittle, John Henry Johnson, Hugh McElhenny and Joe Perry.

"That Ratterman was—still is—a good quarterback," Strader said, "but Tittle can do everything he can and a few more things. And all better.

"That goes for Perry and Johnson, too. McElhenny? There's not one of 'em could even carry his shoes. Maybe there isn't a back in the whole league that could."

Strader said he plans no changes in the 49ers' basic offense with the four veteran backs available.

* * *

Several Minor Leagues Plan Major Shakeup

Texas Circuits May Link Into Ten-Team Class A Loop

CORPUS CHRISTI, Tex. (AP) — A major realignment of faltering minor leagues loomed today as minor league president George Trautman called for meetings is Texas and in the Southeast.

Trautman, here for conferring with President Howard Green of the Big State League and with officials of the Corpus Christi club in that league, said he would meet with representatives of the Class B Big State and West Texas-New Mexico and Class C Longhorn Leagues at Abilene tomorrow.

These circuits may figure in a Class A League that might have 10 members.

Next month Trautman will hold a meeting involving the Class B Carolina and Class C Tri-State Leagues and he said the Class A Sally and Class B Piedmont Leagues also may be included.

Keego Hardware Wins

Keego Hardware edged White Brothers in a Waterford Township Junior Softball League game Tuesday as Chuck Schlunt drove in the winning run. In the Little League, Jack's Service won by forfeit over Waterford Village.

Pastrano Tests Former Spartan Boxing Star

Light-Heavy Hopeful Meets Chuck Speiser in TV Bout

CHICAGO (AP)—Willie Pastrano, a 19-year-old from New Orleans with hopes of some day taking over the light heavyweight championship, meets Chuck Speiser of Detroit in Chicago Stadium tonight.

The 10-round bout will be televised nationally. (ABC 9 p.m. EST).

* * *

The nimble and shifty Pastrano's last bout was with Joey Maxim, the Cleveland spoiler. Willie outsped and outpointed Maxim, who had previously beaten both Floyd Patterson and Paul Andrews, a pair of promising light heavies.

Pastrano's trainer, Angelo Dundee, is convinced Willie is ready to move to the top.

"This boy can't miss going to the top," said Dundee. "That fight with Maxim was just what he needed. It gave him confidence in himself.

"Eventually Archie Moore will have to give up the light heavy title. When he does, we intend to have Willie ready to succeed him."

Pastrano has a record 31 victories, 8 losses and 4 draws and is a 3-1 favorite over Speiser.

Speiser, an ex-Michigan State and Olympic fighter, has had 17 pro bouts with 15 victories, 10 of them by knockouts.

It'll be Speiser's first main event in Chicago Stadium.

Women's Medal Play Test Set

City Golf Tournament on Saturday; Only 13 Entries So Far

Annual Pontiac City Women's Medal Play golf championship has been set for Saturday over the Municipal Course. Entries are now being taken, but so far only 13 have registered. Tourney directors hope to have 25 or 30 by tee-off time.

Defending titlist is Mrs. Zadah DeBolt veteran competitor in Pontiac area golf events. Runnerup last year was young Betty Sue Syron, who this year may pose a real threat for top honors. She paired recently with Glenn Harding to win their 3rd successive mixed-two-ball title.

Mrs. DeBolt fired an 83 last year to edge Betty Sue by a single stroke.

Entry of the 1953 champion, Edith Wright, lends an interesting angle to the tourney. Edith has an idea she may have a pretty good chance for her 2nd title.

Event will be over a 1-hole route. Winner and runnerup will receive trophies. Entries may be filed by calling FE 5-1702.

Wiffi Faces a Tough Foe in Women's Western Test

CHICAGO, (AP)—Four Illinois contenders, headed by giant-killing Mrs. Dwight Anneaux, and three from the state of Washington dominated today's second round of the 55th Women's Western Amateur golf tourney.

The title chase appeared wide open in this test of the nation's top feminine play-for-fun golfers after the only former champion and last year's runner-up were eliminated in yesterday's first round at Olympia Fields Country Club.

It was Mrs. Anneaux, an attractive Chicago regular, who knocked out the highly-rated Beverly Gammon, St. Paul, Minn., school teacher, 1954 finalist, with a solid 5 and 4 drubbing.

* * *

The lone returning ex-champion Marjorie Lindsay of Decatur, Ill., was bounced to the sidelines by Ruth Jessen, 18-year-old Kenmore, Wash., blonde, 2-up.

Mrs. Anneaux, a lithe lady who had been knocking on the door of big time feminine golf for some time, today faces Mary Patton Janssen, of Charlottesville, Va.

Miss Jessen, the lesser known of three sweet swingers who have survived from the state of Washington, takes on Mrs. Scott Probasco, an experienced shooter from Chattanooga, Tenn.

The meet's two co-medalists still are very much in the running, but 18-year-old Wiffi Smith of St.Clair, Mich., runs into a tough second round foe in Toledo's Barbara McIntire.

* * *

Stately Carol Diringer of Tiffin, Ohio, who matched Miss Smith's par-matching 75 in qualifying, apparently has an easier test against Charlene Cross of Winchester, Ky.

Virginia Dennehy of Lake Forest, Ill., a fine 21-year-old competitor, takes on unheralded Vonnie Pico of Galesburg, Ill.

This year's collegiate champion, Jackie Yates of Honolulu, was ousted yesterday by Marge Burns, Greensboro, N.C. Miss Burns, 30, making her Western Amateur debut, today encounters Seattle's talented Pat Lesser.

The fourth Illinois lass in the second round is slim Nan Berry of Quincy, who takes on experienced Mrs. Mae Murray Jones.

Pontiac Press Photo

VICTORY'S REWARD — Here's the reward the National PGA golf champion earned (besides $5,250 in cash) for his efforts over Meadowbrook's layout yesterday. Above, Doug Ford, the winner, receives the big silver championship bauble from Harry Moffitt, PGA president, during ceremonies that followed the close of the tourney. Ford defeated Cary Middelcoff, 4 and 3.

Single in Eighth Gives Overtime Win to GM Nine

McGlashen's Hit Snaps Pitching Duel for 3-2 Victory

Catcher Daryl McGlashen's single in the 8th inning enabled General Motors to score a 3-2 overtime victory over CIO 594 in a Class A City League baseball game Tuesday night at Wisner Field.

McGlashen's extra-inning smash broke up a fine pitching battle between GMC's Jack Hruska and Bob Wagner and the union's Steve Kebler. Wagner relieved Hruska in the 6th inning and received credit for the win.

Les Stone led off in the victorious 8th frame with a single and stole 2nd base. Stone advanced to 3rd on an infield out, but appeared doomed to die there when Ernie Zubalik walked and Al Barkeley fanned. MceGlashen's clutch hit followed.

Coaches were riding a 2-0 advantage until the 6th when the CIO scored twice to knot the count and bring in Wagner in favor of Hruska. Singles by Jim Long and Paul Osika, a double by Jerry Hesse, a base on balls to Tom Studt, and Bob Turnbull's single forced the game into extra stanzas.

Wes Roberts' single, a fielder's choice, and an error scored the Coaches' 1st run in the 2nd. Bob Fell's lead-off walk, a sacrifice by Stone, and Terry Thomas' single brought in the 2nd run in the 3rd frame. Zubalik doubled in the inning, but he and Thomas were stranded.

GMC, playing the All-Stars this Sunday at Wisner during Amateur Day, were outhit by the CIO, 8 to 6. Kebler struck out 11 batters in his mound stint and probably deserved a better fate. It was the Coaches' 12th league triumph in 13 contests.

CIO 594	000	002	00—2	8 2
GMC	011	000	01—3	6 3

Kebler and Osika, Lesar; Hurska, Wagner and Roberts, McGlashen.

Liddle in 6-5 Rut

CHICAGO (AP)—The odds must be about 6-5 that New York Giant lefty Don Liddle will win his next game by a 6-5 score.

Liddle, who received credit for yesterday's 6-5, 12 inning victory over the Cubs, has three in a row, all by the same score.

Irish Draw Crowd Mark

Michigan State's record home football crowd was 52,472 for the Notre Dame game of 1952 which State won 21-3.

Linscott Boosts His Road Work to Five Miles

Speeding up his conditioning program for the Aug. 4 outdoor battle with Al Andrews in Wisner Stadium, Gene Linscott this week moved up his daily road work to five miles.

He is also sparring six rounds daily with John L. Perry and Tommy Darrough at the Wessen and Lull gymnasium, where fans may see him without charge. He begins workouts at 1 p.m.

"Gene is confident of his chances," says Don Frayer, comanager, who also reported today that "he is coming along very nicely on his conditioning."

Gene, according to Frayer, has just been named by Nat Fleischer, of Ring Magazine, as "ring prospect of the month."

Homer Hitters Pick Poor Time to Connect

NEW YORK (AP) — Major league players didn't get much mileage out of their home runs in yesterday's games.

Of the 11 homers hit, 10 came with the bases empty. Only Ernie Banks connected with a man on base. The Chicago Cubs shortstop homered with Bob Speake on base in the third inning against the New York Giants. The Giants won 6-5.

Low Putting Day

Low putting day was held Tuesday in the Women's Silver Lake Golf League with Mrs. Fred Collins of Pontiac winning the event on 13 putts. Mrs. William Merritt and Mrs. Glenn Theobald tied for medal honors with a net of 40 strokes.

Lions Stretch Waterford Lead

Keith's One-Hitter Earns 3-0 Win Over Gidley Club

The league-leading Waterford Lions padded their margin in the Waterford Township Softball League Tuesday night with a 3-0 victory over Gidley Electric.

The Lions won their 13th game in 15 starts on a near no-hitter by Harlan (Fat) Keith. He whiffed 9, didn't issue a pass and the lone hit was a high bounder over Keith's head by Harold Smith in the 6th inning.

Tom Studt and Art Ruelle paced the Lions, accounting for 5 of the 7 hits made off Ken Spears. Studt singled in the 2nd, moved up on a wild pitch and scored on Ruelle's single.

In the 6th, Studt singled, Ruelle doubled and both came home on an error and a wild pitch. The loss left Gidley's at 8-8 for the season.

Waterford Lions	010	002	0—3	7 2
Gidley Electric	000	000	0—0	1 1

Keith and Ruelle; Spears and Lesar.

Husband-Wife Teams Win 4-Ball Tourney

Mr. and Mrs. D. M. Schaffee of Birmingham and Mr. and Mrs. R. E. Leahy of Franklin were the winning teams in Sunday's mixed four-ball foursome golf tournament at the Orchard Lake Country Club.

Mr. and Mrs. Schaffee shot a low net score of 163 in the 18-hole, medal-play event for honors in that division. The Leahys were low gross winners and also tied for low net with a total of 175.

Trophies were awarded to the victorious couples. Fifteen teams participated in the tourney.

Father, Son Team Wins 'Double' at Northville

A father-son team drove the winners in the daily double that paid $136.80 at Northville Downs harness track last night.

Jack Williams Sr. drove Main K. Guy, owned by Frank Johnson of Jackson to victory in the 1st race.

Young Nimrod Helps Farmer; Bags Red Fox

Joe Carter, 12-year-old son of Mr. and Mrs. E. C. Carter, 4625 Baldwin Rd., Pontiac, aided a neighboring farmer in distress Monday afternoon.

Joe bagged a red fox, that had been causing some damage in the farmer's hay field, on his property near Big Morgan Lake. Joe shot the young female with a 20-gauge automatic shotgun, felling her with the 1st blast.

Jimmy Shover, 381 Osmun, Pontiac, son of Mr. and Mrs. James E. Shover, was Carter's hunting partner. Jimmy is also 12.

No Hasty Action, Inglis Promises

BENTON HARBOR (AP) — Michigan racing commissioner James Inglas has promised Berrien and Cass county residents "there will be no hasty action taken" on an application for a harness track near Dowagiac.

Thomas Woodworth, Kalamazoo trucking executive, heads a sportsmen's group whose application for a track has been approved unanimously by the Silver Creek Township board.

Inglis said the commission, before granting approval for construction of a track, would hold a public hearing in the area which is five miles north of Dowagiac in Silver Creek Township.

Yama Bahama Easy Victor Over Savage

DETROIT (AP) — Yama Bahama, hard-punching British West Indies welterweight champion, drubbed Mickey Savage of Detroit last night on his way to a unanimous decision in the Motor City Arena.

Bahama won every round and ran away with it, winning 80-66 on all three official cards.

Savage was a last minute substitute for Rocky Casillo who took sick and stepped down.

Ex-Middie Fullback Gets Athletic Post

ANNAPOLIS, Md. (AP) — Cmdr. Emmett W. Wood, high scoring Navy fullback during the 1937-39 seasons, will become physical education officer at the Naval Academy Aug. 10.

He succeeds Cmdr. R. C. Giffen Jr., who will be executive officer of the academy's department of physical education relieving Cmdr. Charles S. Minter Jr. Minter has been assigned to the National War College at Fort McNair in Washington, D.C.

Moczarski Stops Cubs

No-Hitter, Several Low-Hit Games Mark Play in City's Knothole Loop

CLASS E

Community Market 10, St. George 9

Boys Club 8, Vivian's Beauty 4

CLASS F

Dick & Wes 15, Don Nicholie 12

KNOTHOLE

North Side Aces 20, Whitfield Cubs 2

Boys Club 11, GMC 0

Athletics 16, Earl's Market 6

Tigers 4, Dick & Wes 3

Low-hit games, including a no-hitter, featured play in the Knothole League of the Pontiac sandlot baseball program Tuesday.

The hitless game was authored by Dave Moczarski, who struck out 9 in the 4-inning game won by Northside Aces, 20-2 over Whitfield Cubs. Tom Charlton had 4 straight hits for the Aces.

Roger Hayward held Earl's Market to 1 hit as the Athletics scored a 16-6 decision, and the Tigers nosed out Dick & Wes, 4-3, although getting only 1 hit off Ronnie Joseph and Ronnie Strivel.

The lone hit didn't figure in the scoring as the Tigers used 13 walks and a hit batsman to good advantage. Boys Club shut out General Motors, 15-0, as Darryl Thorpe and Bob Rabaja limited the losers to 2 hits.

In Class E, a 7th inning rally by St. George fell one run short as Community Market took a 10-9 triumph. Tom Harding homered for St. George in the 7th.

The other "E" game also was decided by one run as Boys Club edged Vivian's Beauty Shop, 5-4. Once again the winner got its runs early and had to put down an uprising in the final inning.

In the lone Class F contest, Dick & Wes out-lasted Don Nicholie, 15-12, scoring 7 runs in the 6th inning.

Double Win Keeps Tigers in AL Race

BALTIMORE (AP) — Though they haven't been a 1st division club for several weeks, the Detroit Tigers can't be counted out of the running in the battle for the American League pennant — not by any means.

With a mere four games separating the front-running New York Yankees from the 4th place Boston Red Sox, the AL flag race is fast developing into one of the tightest struggles in years. And constantly nipping at the heels of the leaders are Bucky Harris and his Tigers, now a respectable seven games out.

It's a far different picture from July 27 of last year when Detroit was trailing Cleveland by 25 games as the Indians surged toward the pennant and an American League record of 111 victories.

A doubleheader victory over the Baltimore Orioles last night left Detroit with 10 victories in the last 12 games, including three straight over the mighty Yankees.

The Tigers had to go 12 innings to take the opener against Baltimore 8-6, but ran away with the nightcap, 7-2.

Al Kaline's misjudging of a fly inning fly in the 1st game almost lost the game for Detroit as Baltimore pushed across two runs to tie the score at 6-6 and send the game into extra innings.

Kaline, appearing before hometown fans, committed his miscue when 1st baseman Gus Triandos socked a high fly to rightfield with two out. Kaline apparently never got the ball sighted in, breaking first to the right and then to the left before the ball finally dropped for a triple.

Jimmy Dyck, who had singled, crossed the plate on the hit and Triandos scored the tying run on another single by Hal Smith.

Big Ray Boone saved the game for the Tigers by doubling in a run in the 12th inning for his 2nd two-bagger, 4th hit and 4th RBI of the game. Bubba Phillips brought Boone across with a single.

Ned Garver racked up his 10th conquest against nine losses in the 2nd game as the Tigers built up a 3-1 lead in the 4th and clinched the victory by scoring four more in the 6th.

In that victory, Boone was credited with "batting in" two runs without getting a hit. He lofted a sacrifice fly and drew a 6th inning walk with the bases loaded.

Bob Wilson and Bill Tuttle collected three hits apiece, including a double for each.

Tigers will meet Baltimore in another twi-night doubleheader tonight before moving on to Boston for a four-game series with the Red Sox.

MSU Has Two New Foes

Michigan State will meet two brand-new gridiron opponents this fall — Illinois and Stanford — both at East Lansing.

Fullmer Wins Nod Over Del Flanagan

BUTTE, Mont. (AP) — Gene Fullmer, the eighth-ranked middleweight challenger, from Salt Lake City, punched his way to a unanimous decision over veteran Del Flanagan of St. Paul, Minn., last night before a Butte Civic Center crowd of 2,300.

Fullmer has been mentioned as a possibe opponent for the winner of the Bobo Olson-Ray Robinson middleweight title fight which is in the works for late this summer or early next fall. He did not convince ringside reporters last night that he is ready for the likes of champion Olson who has fought here in the past.

General Staff, one of two horses ever to win three stakes races at Monmouth Park in a single season, will send his 1st crop of offspring to the races next January.

Drobac-Paton Team Wins Net Tourney

Stanley Drobac and Andy Paton, a pair of former Big 10 singles champions, won the annual Invitational Doubles tennis tournament Sunday at Orchard Lake Country Club.

Drobac, Big 10 singles champ at Michigan State University in 1952-53, and Paton, conference singles titlist at the University of Michigan in 1948, defeated the River Rouge team of Vic Pritula and John Landis in the finals in straight sets, 6-2, 6-3.

Drobac and Paton, 2nd-seeded, annexed the invitational crown with comparative ease after their tiring opponents had pulled the prime upsets of the tourney.

Pritula and Landis, an unheralded tandem, ousted the top-seeded, defending champion team of Fred Otto and Don McKay in the 1st round; then eliminated Bill Bogley and Al Reynolds, seeded 3rd. But they met their match against the Drobac-Paton team.

Downs Racing Season Has One Week to Go

Northville Downs will begin its last week of harness racing Monday (Aug. 1) closing its 12th season Saturday night, Aug. 6.

It appears that all records of mutuel handle and attendance will be broken this year, according to John J. Carlo, executive general manager.

The all-time record for a single night's wagering was set last Friday (July 22) when fans poured $349,150 through the betting windows during the annual $10,000 Michigan Pacing Derby.

Racial Issue Arises Over Baseball Loop

Negro Team Carolina Champs When Whites Pull Out of League

GRENVILLE, S.C., (AP)—The racial issue reared its head and left a Negro team South Carolina's Little League champion by default today.

The state's 55 white teams withdrew after the Cannon Street YMCA Negro team of Charleston, was given permission by Little League headquarters at Williamsport, Pa., to compete in playoffs next week at nearby Donaldson Air Force Base.

Daniel H. Jones of Charleston, director of the state Little League program, resigned Saturday charging entrance of Negro teams in Little League play "may be used in an attempt to overthrow the laws and established customs of South Carolina."

Jones advised white teams to enter competition known as the "Little Boys Tourney" sponsored by the state recreational society.

Marion Says 5 Teams Still in AL Race

NEW YORK (AP)—Marty Marion predicted a five-team race "right down to the wire," and declared today the team that gets the best pitching from now on will win the pennant.

The tall, lanky White Sox manager nominated the fifth place Detroit Tigers and fourth place Boston Red Sox along with the three top contenders, New York, Cleveland and Chicago, as possible pennant winners.

* * *

"I agree with Casey Stengel when he says there are five first division clubs in the American League this year," he said.

Marion declined to give any club an edge over the other four but conceded that "the Yankees have the best club, aside from pitching."

"The Yankees have the most power, the best speed and the tightest defense," he said. "They lack only pitching. Any club high in those four departments has got to win. It remains to be seen whether their three strong points —power, speed and defense—can overshadow their pitching shortage."

Marion acknowledged that topflight pitching has been responsible for the current position of the White Sox.

"Pitching has carried us so far," he said. "It has made up for our lack of power. Do you realize our outfield has a collective batting average of around .240? Minnie Minoso, who is supposed to be our big power guy, has been a bitter disappointment.

"If you recall, I said during spring training that we had a good chance to win the pennant.

* * *

"I was basing my prediction on the premise that Minoso would do at least as well as last year when he batted .320, hit 19 or 20 home runs and drove in 103 runs. Minnie was the greatest all-around player in the league last year. No player helped his team more than Minnie helped us.

"Had I been able to foretell that Minnie would be hitting .260 at this late date, with only three home runs and 35 runs batted in, I wouldn't have given a nickel for our chances. In fact, I'd have felt we didn't have a chance to finish in the first division, let alone fight for the pennant.

* * *

"I just can't understand it about Minoso. Every day I keep expecting him to get started but every day it's the same. It's not for lack of trying. He has a great deal of determination and tremendous pride. He's hustling and no one tries any harder. If there is such a thing as over-trying, this is it."

Marion named catcher Sherman Lollar, second baseman Nellie Fox, third baseman George Kell and pitchers Dick Donovan and Billy Pierce as the key figures in Chicago's success story.

"We've also been getting some help lately from Jim Busby, Chico Carrasquel and Walter Dropo."

'Charity Begins at Home'

Linscott Doesn't Regard Al Andrews Bout as Gamble — Only an Opportunity

Gene Linscott, Pontiac's punching postman, will have "special delivery" marked on every left hand he throws in the direction of Al Andrews when they meet in the 10-round feature bout at Wisner Stadium in Pontiac on Thursday night, Aug. 4.

Linscott is fully aware that the Iraq Grotto, the sponsoring group, will use a portion of the receipts to help cerebral palsy victims.

Gene also believes that charity begins at home. He wants to earn enough money in the ring to set up his parents in pleasant surroundings with as few cares as possible.

The Gene Linscott Fan Club has already established a reputation for helping the underprivileged. The club, composed mainly of Pontiac teen-agers, uses its membership dues to provide athletic equipment for the Oakland County Children's Home.

Linscott knows that if he can beat Andrews, a high-ranking middleweight from Superior, Wis., he is "made" in the boxing world and will get many lucrative fights.

Only 24 years old, Linscott has plenty of fighting ahead of him. He doesn't feel that he is gambling against Andrews in spite of the difference in their records. Linscott feels he is getting an opportunity that he must make the most of.

Tickets are on sale in several locations in Oakland County, including Jack Decker's Restaurant and Van Welt's Car Lot in Drayton Plains; Kelly's Hardware in Clarkston and in Holly, Lake Orion, Rochester and Novi.

In Pontiac, tickets are available at Griff's Grill, Richard's Tavern, Cavern Cafe, Manny's Ringside, Woodward's Bar-B-Q, Triple X Sandwich Shop, and Frayer Refrigeration.

DOLLAR SIGN — Art Schult takes dead aim at a metal-trimmed $100,000 knothole in a sign on the left field fence of Sick's Stadium in Seattle. Fred Hutchinson shows Ray Orteig that the hole is slightly larger than a baseball. A television station offers the rich prize to any Pacific Coast League player who drills a ball through it.

STRIKEOUTS—Jones, Chicago, 128; Roberts, Philadelphia, 115; Newcombe, Brooklyn, 107; Conley, Milwaukee, 105; Haddix, St. Louis, 93.

CURVES AND LINES — Ardith Ulrich, left, and Lois Wagberg of Denver sought better fishing up a Colorado creek. They're laughing apparently because they forgot something, perhaps bait.

Braves Beckon Murff

33-Year-Old Pitcher Earns Promotion to Majors on Work With Dallas Nine

DALLAS (AP)—At an age when most of them are coming down, John (Red) Murff, the lean willowy righthander of the Dallas Eagles, is getting a trip to the big leagues.

The 33-year-old balding redhead, who has won 22 games in the Texas League this season and goes after his twenty-third tonight against Houston, has been sold for a reported $40,000 to Milwaukee of the National League. Murff will be one of the oldest rookies ever to go to the majors but won't report until the Texas League season ends—or until after the Dixie Series, should Dallas get into that.

* * *

Murff started in professional baseball when he was 28. He was working in his native Texas City, playing softball and refereeing basketball on the side, when he decided that baseball might be a soft touch. "It looks like an easy way to make a living," he mused.

So the big fellow signed with Baton Rouge in the Evangeline League and won 17 games in 1950. He was with Texas City in the Gulf Coast League in 1951, winning 19. He went to Tyler of the Big State League in 1952 and had his greatest year, taking 23 decisions. He came to Dallas in 1953 and won 17. He got only 10 victories last season with a last-place club, being handicapped by injuries received in an automobile accident.

* * *

This season the 6-3, 190-pounder has pitched 220 innings, 21 complete games and registered eight shutouts. He has given up 169 hits and has an earned run average of 2.01.

Irish Will TV Football Games

At Least 3 Contests Set on Closed-Circuit Setup

SOUTH BEND, Ind. (AP) — Notre Dame will telecast at least three of its football games this fall on a closed circuit that will reach 13 cities.

The Rev. Edmund P. Joyce, executive vice president of the university, who made the announcement yesterday, said other cities may be added later.

Cities included on the network will be New York, Chicago, Boston, Baltimore, Washington, Rochester, N.Y., St. Louis, Cleveland, Cincinnati, Detroit, Philadelphia, Indianapolis and Providence, R.I.

Games to be televised will be against Miami Oct. 7, Navy, Oct. 29, Iowa, Nov. 19 and possibly the Southern California game, Nov. 26.

Grimm Wishes He Could Recall Braves' Castoffs

MILWAUKEE (AP) — Charlie Grimm glanced at a list of the American League's earned run leaders today, spotted the names of two Milwaukee castoffs near the top and sighed, "Sure they could have helped us."

The "They" the likeable manager of the pitching-troubled Braves referred to were journeymen Jim Wilson of Baltimore and Diek Donovan of Chicago, currently two-three in the junior circuit's ERA averages.

The fine showings of Wilson and Donovan held added significance in view of the Braves' wobbly pitching in their last Eastern swing and the shoulder injury suffered by lean Gene Conley, their winningest hurler.

The 6-8 righthander has an appointment with a specialist today to determine what the trouble is and how long he'll be out of action.

Dr. Charles Lacks, team physician, said he believes the ailment is in the muscles and hopes Conley, whose record is 11-7 will miss only a turn or two. So does Grimm.

A healthy Conley and a pair of steady performers like Wilson and Donovan could make a big difference to any club.

Scortichini Says Manila Boxing Fans Too Fanatic

NEW YORK, (AP)—Pop bottles are fine for drinking, but not throwing. That's the message Italo Scortichini, the Italian middleweight, brings back from Manila.

The squat 5-7 gentleman from sunny Fabriano still wears a patch on his noggin as a souvenir of his trip to The Philippines. Italo also brought back the Philippine middleweight title but they can have it.

"I don't think I like to go back," he said last night. "The people, they are nice, but at the boxing ring they give you no protection. When they come at you with bottles and knives, you can get yourself killed quick. They are too — what you say — fanatic."

* * *

Scortichini fought in Australia in April, going 10 rounds to a draw with George Barnes. Then he decided to try Manila. When he knocked out Young Paulino in four rounds, he won the Philippine championship because both men were under 160 pounds.

Pleased with himself after his successful tour, Scortichini decided to stay over a day and greet his old friends, Sandy Saddler, the world featherweight champ, and Charlie Johnston, his manager. Saddler fought Flash Elorde July 20 and lost the decision — but that's getting ahead of the story.

"I'm working in Sandy's corner" said Scortichini. In the first round the people start to holler about Sandy using his elbow.

"By the fourth round, they're climbing up near the ring, hitting Sandy in the back and loosening up with bottles. I tried to help my friend. Next thing I know I am hit on the head by a Coke bottle."

Scortichini expects to start training today for his Aug. 10 non-title match at Madison Square Garden with welterweight champ Carmen Basilio. Doctors have assured him that the cut will be completely healed long before fight time.

Rich Steeplechase Set

OCEANPORT, N.J. (AP) — The United Hunts Racing Assn. met at Monmouth Park today to complete plans for the world's richest steeplechase race—the $50,000 Memorial Handicap at Belmont Park on Oct. 21.

Sugar Ray Robinson Bounces Back Into Boxing Ratings as Number 3 Challenger to Bobo Olson

NEW YORK (AP)—Sugar Ray Robinson came back with a bang today into the monthly boxing ratings issued by Ring Magazine, and is rated the No. 3 challenger to world middleweight champion Bobo Olson.

Sugar Ray wasn't even in the first 10 last month, but his split decision over Rocky Castellani recently at San Francisco moved the former champion right back into contention. Robinson takes over the third place of Joey Giardello who was left out of the rankings because of his prison sentence on assault charges.

* * *

France's Charley Humez retains the No. 1 challenger role, although the International Boxing Club has selected Sugar Ray of New York as the next opponent for Olson, of Honolulu. Holly Mims of Washington moved from third to second place, and Castellani, of Cleveland, dropped to fourth.

Archie Moore of San Diego, the lightheavyweight champion, remains the No. 1 challenger for Rocky Marciano's heavyweight crown, and Floyd Patterson of Brooklyn moved into the No. 1 spot as the lightheavyweight contender.

* * *

Patterson changed places with Harold Johnson of Philadelphia, and Yolande Pompey of Trinidad moves from fourth to third place. Germany's Gerhard Hecht is now fourth, and Willie Pastrano of New Orleans, who defeated Joey Maxim is No. 5.

Wallace (Buddy) Smith of Cincinnati forced a change in the lightweight ranks when he lifted the title from Jimmy Carter, New York, who dropped to No. 1 challenger. Ralph Dupas of New Orleans, the leading contender last month, now is second and European titleholder Dulio Loi of Italy, third.

* * *

Flash Elorde of the Philippines, who defeated Sandy Saddler, the featherweight champion from New York, in Manila, now is rated seventh. France's Ray Famechon still is the No. 1 contender.

Hoad's Hospital Visit Cheers Young Patient

LOUISVILLE, Ky., (AP) — Little Timmie Cooper's eyes sparkled like the Davis Cup itself yesterday during a hospital visit by Australian tennis star Lew Hoad.

Hoad, a bigger hero to Timmie than even Davy Crockett, presented the 3-year-old with a gun and holster. But it meant more to Timmie that Hoad brought the gift himself.

Confided Timmie:

"I've always liked him after seeing his pictures in the papers. I like his whole face, all the way up over his head."

Timmie is nursing a broken leg and a severe ankle injury after being hit by a car.

Duke University's football team under coach Bill Murray has won three Atlantic Coast Conference championships in four years.

Fishing Good, Despite Heat

By JACK PATTERSON

Fishermen don't often agree on much of anything, but if there is one rule on which there is a meeting of the minds it is the ancient maxim that prolonged hot weather slows fishing down to a standstill. Every fisherman knows that. It is basic and indisputable. It is also untrue, sometimes anyway.

PATTERSON

Take this season, for example. It started to get hot early and has pretty consistently stayed that way. And yet it has been, so far, one of the best seasons in recent memory.

Look at the muskie situation on Lake St. Clair. Not only is it getting better every year, but it continues good right up through the hot weather, even now.

And local rainbow fishing. Well, there's a fish that is supposed to be just about uncatchable afte rthe lakes warm to bath-tub temperatures.

But day after day they are being taken, even in this tropic weather, in lakes like Union, Oxbow, Orchard and Angelus.

* * *

Pike are supposed to go off their feed, too, when midsummer arrives, but we have noticed no particular slackening in results by seasoned pike fishermen.

* * *

Bass are creatures of the evening in this kind of weather. Except that we've seen them chasing minnows in the shallows at high noon this past week. And some very decent daytime catches are being made on bass too, by those who enjoy being broiled by a brassy sun.

Even middle-of-the-day trout fishing is paying off these hot days, if the fisherman uses a grass-hopper fly where and in the manner it should be used. Which incidentally, few fishermen know, or if they know, take the trouble to practice.

So, if hot weather isn't the ruination of fishing, and said hot weather is apparently going to last forever, where is the fishing good right now?

* * *

Starting at Lake St. Clair, where there is still some late afternoon and evening muskie fishing, the fisherman can find variable perch fishing right up to the Thumb. He shouldn't overlook walleye possibilities in the St. Clair river on the way, either.

* * *

Smallmouth fishing around Port Austin is fair to good. In Saginaw Bay largemouth fishing is good in the Rose Island area. On up the east coast perch fishing is fair to good with areas around the Tawases and Alpena maybe the best.

Smallmouth fishing in Cecil Bay and around Waugoshance point, west of Mackinaw City is good, with excellent smallmouth fishing reported from Munoskong Bay on the east end of the U.P.

Inland in the lower Black, Burt and Mullett Lakes are turning up splendid walleye fishing on nightcrawlers and June Bug spinners. Fletcher backwaters on the Thunder Bay river are tops for bass and good for pike.

* * *

Trout fishing on the big streams averages good. In the U.P. stream fishing for trout is generally very good. Nice rainbows are being taken at night in the St. Mary's rapids. Lake trout fishing from Grand Marais to Munising is picking up steam.

When Washington State plays Kansas, Sept. 24, it will mark the 1st football meeting between the schools.

Tourney Postponed

The Ted Powers Memorial best-ball golf tournament set for Sunday at the Pontiac Country Club was postponed because of tournament conflicts elsewhere. The tourney has been re-scheduled for Aug. 13.

Cards Sign Irish Pair

Former Notre Dame tackle Tony Pasquesi and guard Ed Cook have signed contracts to play with the Cardinals.

Solunar Tables

By JOHN ALDEN KNIGHT

Schedule of Solunar periods, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory during these times, if you wish to find the best sport that each day has to offer.

Major periods begin at the times shown and last for an hour and a half or two hours thereafter. Minor periods are of somewhat shorter duration.

For this week:

	A.M. Min.	A.M. Mjr.	P.M. Min.	P.M. Mjr.
Wednesday	11:55	5:45		6:05
Thursday	12:20	6:35	12:45	6:55
Friday	1:00	7:25	1:35	7:50
Saturday	2:05	8:20	2:30	8:45
Sunday	3:00	9:10	3:20	9:35
Monday	3:50	10:00	4:10	10:25
Tuesday	4:40	10:50	5:00	11:15
Wednesday	5:30	11:40	5:50	11:55

Sam Snead's Golf Clinic

If you don't hold a left toe-grip with the ground you will almost always overswing. This player has swung around so far that his left foot is in almost perpendicular position. That's wrong! Your left heel should never leave the ground more than enough to keep your knees level. That's never more than a few inches. If you release

your left toe grip on the ground, you also release the power stored up by hip-and-shoulder pivot.

With an over-swing, it is nearly impossible to bring the club back to the ball at the correct mechanical instant. Pictured at the right, note the grip in the address position. The arrows inserted show you how the right and left hands work against each other—in order to help each other—at impact. As the left hand presses backward on the top of the shaft, the right hand is pressing forward. And there comes the crack-the-whip snap you want.

Wins 40 Games in 1908

Ed Walsh of the White Sox won the 1908 American loop mound title with a mark of 40 won and 15 lost.

Keep Rules for Migratory Birds

Only Slight Changes in Regulations in Sight Hunting in '55

LANSING (UP)—Hunting regulations for woodcock, snipe, rails and gallinules will be only slightly changed this year, state conservation authorities said today.

The U.S. Department of Interior recently announced a framework of basic regulations on these migratory birds. Each state chooses its own season within the limits of the federal framework.

Woodcock bag limits of four per day and eight in possession are the same as last year. Season dates also remain the same: Oct. 1-Nov. 1 in the upper peninsula; Oct. 1-Nov. 9 in the northern Lower Peninsula; and Oct. 20-Nov. 9 in the southern Lower Peninsula.

A bag limit of 15 per day and 15 in possession on sora rails and 25 per day and 25 in possession on gallinules and other rails also was authorized. The season on these birds will coincide with other waterfowl regulations, to be announced in August.

Hunting hours will start one-half hour after sunrise and end at sunset.

Husky Pike Fails to Make Press Contest

Geography Obstacle to Entry--Lucky Angler Was Detroiter

Herman Emmer experienced the thrill of landing two nice fish, but was doomed to disappointment in the annual Pontiac Press "Big Fish Derby," now in its 6th week.

Emmer, who lives at 4279 Clements, walked into the Pontiac Press sports department Monday with two pike, one of which was heavy enough to become the new leader in that division.

But the "Motor City" fisherman learned, much to his consternation, that he was ineligible for the contest because he was not an Oakland County resident.

Emmer caught the fish about 7:45 Monday in Walled Lake. The larger pike was 32½ inches long, 11½ inches in girth, and scaled six pounds, 10 ounces. The smaller specimen, which was hooked 1st, was two feet in length, 8½ inches around, and weighed two pounds, nine ounces.

So, due to geography, the six-pound, two-ounce pike caught by Clarkston's Ronald R. Bird 11 days ago still heads the field.

Feller Wins 20 Often

Bob Feller won 20 or more games a season six times in his major career over a span of 14 seasons.

Pontiac Press Photo

MISSED CONTEST — Herman Emmer, of Detroit, who landed the two pike he is holding, thought he had a Pontiac Press contest entry. But contestants must be from Oakland County, and that let his fish out. The big one weighed 6 pounds and 10 ounces. The smaller went 2 pounds 9 ounces.

Handy Lures Bush Away From Dearborn

BAY CITY (AP) — Bay City Handy High School, seeking to build up a football contender in the Class A Arrowhead Conference, has hired Allen W. Bush away from Dearborn High.

Bush's teams at Dearborn have won 22 of 26 games in the past three years and last year's team went undefeated.

Bush succeeds Chuck Gilbert, who resigned last month.

Best in Years

Writer Says This Year High for Sports Fishing

By MORT NEFF

We are in a fairly good position to judge fishermen's luck in Michigan, thanks to our weekly TV show upon which lucky anglers are invited to appear. And from the response since the opening of the bass season in mid-June it is now apparent that 1955 will go down in the books as one of the best years Michigan has ever experienced for sports fishing.

NEFF

The great northern pike is the single exception, with fewer catches of large fish reported anywhere in the state. A few ranging up to 14 pounds were captured from Upper Peninsula waters, but in other years 16 and 18 pound pike are not uncommon by midsummer.

Bass fishing generally has been excellent. A number of large mouth bass topping seven pounds have been entered in various contests, and while this is far from the state's 11 pound record, it is still exceptional.

Hundreds of 5 and 6 pound bass have been taken and some in the five pound class have been small mouths—a catch that's rare indeed!

Perch fishing, particularly in the Great Lakes is topping all records—for sheer quantity, at least. The Lake Huron shoreline all the way from Tawas down around Saginaw Bay, across the Thumb and down to Port Huron has seen literally tons of yellow perch taken by hook and line. Boat liveries and party boat operators report sensational catches day after day, all season long. Perch up to 16 inches have been taken at Port Hope and Harbor Beach.

Never before in the memory of man has the muskie fishing been anywhere near its present peak in Lake St. Clair. One boat livery alone is recording over 100 muskelonge brought in by anglers each week!

Fire Loss Boosted

LANSING (AP)—Last week's serious forest fires in the Newberry area boosted the state's forest fire loss for the year to 4,480 acres.

The conservation department said 41 fires burned over 949 acres of forest and grass lands last week.

According to a report by the National Golf Foundation, 126 new courses were opened in 1954 compared with 52 in 1953.

'Bonanzagram'

Have Fun! Win $100!

"Bonanzagram" is an exciting new puzzle in which the Pontiac Press offers both fun and a $100 cash prize. BUT before you try your hand at "Bonanzagram" **be sure and read the rules** at the bottom of this page. Solution will appear in the Press Aug. 5.

CLAIM CHECK

Below is a duplicate of the "Bonanzagram" entry you send in to contest headquarters. It is ESSENTIAL that you fill it in and save it until the correct solution to "Bonanzagram" No. 21 is published Friday, Aug. 5. Unless you do so, you will be unable to collect the prize if you should send in a winning solution. Check the rules below for further details.

Bonanzagram No. 21

Story Clues

On the first warm Sunday of summer, Mr. and Mrs. Smith and their son set out for a day at the beach. Junior, aged ten, had been cooped up, recovering from chicken pox, and was eagerly looking forward to the outing. The beach was crowded—a mass of people, umbrellas and beach chairs. The Smiths found a good spot and rented an umbrella. They swam and loafed and had their lunch. In the early afternoon, Mr. and Mrs. Smith dozed off. When they woke up, Junior was nowhere to be seen. They thought nothing of it at first; the boy was filled with natural curiosity, liked to explore everything, and made friends easily. But it came time to go home, and still no Junior. The parents were in search of him, one going up the beach, and one down. They arrived at their umbrella without finding him, and discovered that, during their absence, he had returned and left a note—a newsy account of his adventures and of where to find him. But the note was scribbled on a piece of waxed paper left over from a sandwich wrapping, and needed a good deal of filling in where letters had failed to show. However, they did succeed in figuring out the message, and located their wandering boy. Can you, too, work out what the boy was telling them?

How To Play 'Bonanzagram'

Solve the "Bonanzagram" by filling in all the missing letters, as indicated by the underscores, in the message. Insert only one letter above each underscore. Many clues to the missing letters are hidden in the story, or anecdote, accompanying the message itself, and, in a few cases, the contestant's general knowledge should provide the correct letter. The contestant will note that the message is unpunctuated. Punctuation will help solve the message but is not necessary to win.

All missing letters must be correctly inserted to win a Bonanzagram prize. Punctuation will not be considered in judging a correct answer.

When properly filled in, the "Bonanzagram" will spell out a clear message that will conform in every way with the clues. In many cases it will seem that more than one word would be the correct one. That's part of the fun! You should weigh the clues and select the BEST possible word in each case.

How to Submit Entries

1. After solution is completed, "Bonanzagram" should be clipped and pasted to a two-cent postcard with your name and address.

2. Entries will be received at the Pontiac Press office, 48 W. Huron St., until 5 p. m. Tuesday, Aug. 2. Mail entries must be postmarked before midnight Tuesday, Aug. 2 for Bonanzagram No. 21. Address "Bonanzagram, %, Pontiac Press, Pontiac, Mich.

3. Entries may be mailed in envelope but contestant's full name and number of puzzle must be printed in upper left corner of address side of envelope.

4. Copies of the Press need not be purchased to enter. Facsimiles made by hand and corresponding as closely as possible to the original "Bonanzagram" printed in the Press will be accepted but are limited one to a family. Mimeograph, duplicator or other unofficial mechanical reproduction is forbidden.

How to Collect the Prize

The entrant must work out and keep duplicate solution as a claim check. When the solution is published in the Press, he should compare his "claim check" with the published solution, and, if his claim check is identical, he should call in person with his claim check at the Press office, 48 W. Huron St., before 5 p. m. on the Monday following publication of the solution.

If a winner cannot call at the Press office in person, he should mail his solution to "Bonanzagram Editor." This letter must reach the Press not later than 5 p.m. the Monday after publication of the answer. Correct answers are void unless the contestant reports his claim by the deadlines listed here.

About Eligibility, Information, Etc.

1. Anyone is eligible for the "Bonanzagram" contest except employes of the Press and members of their immediate families. (Immediate family means all those living in an employe's household.)

2. No question as to winners will be answered by phone.

3. The Press will award a prize of $100 to the winner of each weekly Bonanzagram. If more than one winning answer is received, the prize will be divided equally among the winners. If no correct solution is received, the $100 will be added to the next week's prize. If the winner is a subscriber of record to the Press a $20 bonus will be added to the $100.

4. Only one winning entry from a family will be eligible for the prize, but there is no limit on number of entries.

5. The Press retains the right to correct typographical errors.

6. Judges' decision will be final and contestant's submission of entries indicates acceptance of these rules.

7. No liability is accepted for entries that fail to reach us.

8. The Press reserves the right to alter rules and/or discontinue the contest at its discretion.

North Works on Rail Problem

LANSING (UP)— A shining coach, racing across the Upper Peninsula at speeds up to 90 miles an hour, next month will carry the hopes of saving railroad service for Northern Michigan.

Maurice E. Hunt, member of the State Public Service Commission, disclosed today that the Duluth, South Shore and Atlantic Railroad plans to put into service shortly a fast 90-passenger diesel coach between St. Ignace and Ishpeming.

The air-conditioned, stainless steel coach is expected to make the run in three hours and 10 minutes, compared to the five-hour trip now required by a conventional diesel engine with baggage and passenger cars.

Hunt said "This is the last try. If this doesn't break even you can kiss railroad passenger service in the upper peninsula goodby."

Hunt told the story of a last-gasp effort to halt the snowballing effect of railroad service cancellations in the northern counties.

He said the D.S.S. and R. asked permission a year ago to cancel its No. 7 and 9 trains from Marquette. They were losing money heavily.

CAN'T USE FORCE

Hunt said the Commission had no alternative but to let the trains go because the courts have held that it cannot force railroads to operate at a loss.

He said the Commission persuaded the D.S.S. and R. to try the rail diesel car made by the Budd Manufacturing Co. The railroad bought the flashy looking job for $165,000 and the commission agreed to let it cancel the Duluth run, switching the mail shipments to trucks between St. Ignace and Superior, Wis.

If the new car proves a success, Hunt said, there is a possibility the D.S.S. and R. will extend the service to Houghton and possibly the New York Central might convert its Detroit-Upper Michigan service to the same method.

Hunt refused to comment on reports that if the St. Ignace-Ishpeming run had been dropped completely, Michigan Central Railroad service to the Straits of Mackinac would have been dropped, too. This connects with the D.S.S. and R. at St. Ignace and would have had no connections to make if the service across the Straits was gone.

Hunt did say, however, that "these Northern Michigan service cancellations have a snowballing effect. One piece is dropped, and then another and soon all of them are gone. The New York Central was forced to cancel in stages all down the west side of the state."

'THE HOPE CAR'

Hunt said the D.S.S. and R. expects to receive its "Hope Car" about July 29 and put it into service the first week in August.

It is planned to leave St. Ignace at 9:01 a.m., reach Marquette at 12:19, leave Marquette at 12:30 p.m., arrive at Ishpeming 12:55 p.m., leave Ishpeming 1:50 p.m., leave Marquette 2:20 p.m. and be back in St. Ignace at 6 p.m. It will stop at Trout Lake, Newberry, Seney, Shingleton and Wetmore. It will operate six days a week.

It will carry no mail or express and will be operated by only two men.

* * *

A commission source said the hope for the operation lies in the fact that the new car can be operated for 86 cents a mile compared to $3.50 a mile for more conventional trains.

Hunt said the railroad union has agreed to the two-man crew and to other concessions in the hope that the innovation will save Northern Michigan railroad service from complete collapse.

Population Shifts

ORANGE, Tex. (UP)—Three years ago the school board decided it might as well close the Manley Elementary school because there just weren't enough pupils to keep it going. They didn't though, and this year reported Manley was the most over-populated school in the city.

Skin Diver Employed on Pipe Line Project

CARBONDALE, Ill. (UP)—Dale Harry is skin diving for pay in the laying of a mile and a half of pipe on the bottom of Crab Orchard Lake.

The pipeline will be floated on barrels and slowly sunk. The project engineer, Buddy Powers, figures Harry can dive and free the barrels. He will also make an underwater inspection tour of the pipeline route across the bottom of the lake before the welded line is installed.

Queen to Be Selected for Paul Bunyan Days

CADILLAC (UP)—The 1955 Paul Bunyan Days committee said yesterday a queen, and court of two, will be announced Aug. 1 to preside over the annual civic celebration Aug. 4 and 5.

Paul Bunyan Days commemorates the gigantic woodsman of lumbering country fable, who is associated with Cadillac as a former lumber center.

The celebration includes a water show, tennis tournament, boat races, outdoor sports demonstrations, the queen coronation and a traditional Paul Bunyan parade.

Sen. Patrick V. McNamara (D-Mich) is scheduled as guest of honor Aug. 6.

Farm experts say ewes should be bred as soon as possible after the lambs are sold.

Canary Island Farmers Extract Water From Air

WASHINGTON—Farmers extract water from the air on Lanzarote in the Canary Islands, where annual rainfall may be only two inches a year, says the National Geographic Society.

Lanzarote has no wells for irrigation. Consequently farmers strew seeds on arid ground; then four or five inches of lava are spread over them. The lava acts as a condenser, drawing moisture from the sea air.

Corn, alalfa, chick-peas, and grapevines grow under these conditions. The plants are stunted but hardy. Cornstalks little more than a foot tall bear fully developed ears.

Had Good Upbringing

RUIDOSO, N. M. (AP)—A housewife returned from a shopping trip to find a pan of cinnamon rolls, a jar of jelly and a carton of milk gone. But the thief was well-mannered enough to wash the dishes.

How goes the battle?

Grain Prices Drift Aimlessly

CHICAGO (AP) — Grains drifted aimlessly on the Board of Trade today, never getting far from previous closing prices.

It was a slow market, consisting mostly of small buying and selling orders from commission houses. A meager run of news provided no incentive for important action by local traders, who appeared to have come to the board primarily to enjoy the air-conditioning.

Wheat near the end of the first hour was unchanged to ¼ lower, September $1.99⅛; corn ⅛ lower to ⅛ higher, September $1.34¾; oats unchanged to ⅛ lower, September 60¼; rye unchanged to ¼ lower.

Grain Prices

Wolfson Buys 2 More Firms

East Coast Companies Join Construction Unit of Merritt-Chapman

NEW YORK (AP)—Acquisition by Merritt-Chapman & Scott Corp. of the Savin Construction Corp., East Hartford, Conn., and its subsidiary, the Whaling City Dredge & Dock Corp., Grotton, Conn., has been announced by Louis E. Wolfson, Merritt-Chapman president.

The two companies will operate as members of Merritt-Chapman's construction division, which engages in a broad range of industrial, building, chemical, marine and heavy construction.

Headed by William Denny, executive vice president and general manager, the division currently has approximately 70 major projects under way throughout the United States and abroad in New Zealand, Australia, India, Greece, Spain, Cuba, the Dominican Republic and Canada.

A. I. Savin, who founded the Savin firm in 1928 and Whaling City Dredge in 1944, continues as president and treasurer of both companies, and will direct operations. Purchase of the two companies, both privately held, was effected through an exchange of 283,333 shares of Merritt-Chapman common stock.

State Architects to Hold Annual Meeting Aug. 4

Twelve paintings by Muralist Marvin Beerbohm will feature the annual Midsummer Conference of the Michigan Society of Architects, Aug. 4 through 6 at the Grand Hotel on Mackinac Island.

C. Allen Harlan, a Detroit industrialist, who commissioned the works, will appear with the artist Aug. 5 when they will speak on the philosophy of the paintings.

Also scheduled for next Friday morning is "The Future of Plastics in Building", a seminar which will be moderated by Dow-Chemical President Amos Ruddock. Linn Smith of Birmingham, past president of the society, will preside.

Harvey Campbell, executive vice president of the Detroit Board of Commerce, will be guest speaker when the conference closes Aug. 6 with the Midsummer Banquet in the Terrace Room of the hotel.

Campbell's topic will be "Where is Michigan Going?", a talk in the coming development of the St. Lawrence Seaway.

Toastmaster for the banquet is Adrian N. Langius of Lansing.

News in Brief

Kenneth Peterson, 20, of Lake Orion, pleaded innocent to reckless driving yesterday when he was arraigned before Pontiac Township Justice Robert W. Hodge. Peterson was released on a $100 bond pending his appearance Aug. 5.

Jim Heard, of 583 N. Perry St., told Pontiac Police yesterday that his bicycle was stolen from in front of 584 N. Perry sometime Monday. Police stated that the bicycle was not licensed and that it's value was $35.00.

After pleading guilty to reckless driving yesterday, James Menard, 27, of Walled Lake, paid a $40 fine and $10 costs. He appeared before Walled Lake Justice Logan Sparks.

DETROIT EGGS

DETROIT, July 26 (AP)—Eggs, f.o.b. Detroit, case included, federal - state graded:

Whites — grade A jumbo 55-56 weighted average 55, large 48-51 wtd avg 43½; medium 38-43 wtd avg 39½; grade B large 43-45 wtd avg 43½; peewees 22.

Browns — grade A large 47, medium 38, small 27-29 wtd avg 27½, grade B large 42, grade C large 27.

Checks 21.

Commercially graded:

Whites — grade A extra large 46, large 39½43, medium 38, grade B large 34.

Browns — grade A extra large 44-45, large 39-42, medium 33½-36, small 26½, grade B large 33½-34.

Market firm on good quality packs of large with supplies of these barely ample to short for a relatively good demand. Medium steady and supplies ample and clearing to a fair demand. Smalls easy as receipts are excessive to the present light demand and volume of production is not large enough to create regular sales outlets. Undergrades slow to clear.

DETROIT POULTRY

DETROIT, July 27 (AP)—Prices paid per pound f.o.b. Detroit for No 1 quality live poultry up to 10 a.m.

Heavy hens 24-27, light hens 18-20; heavy roasters (over 4 lbs) 28-31; heavy broilers or fryers (2½-3½ lbs): whites 29, gray crosses 28-30, Barred Rocks 30-31; caponettes (4-5 lbs) 37-38; ducklings 27-30.

Market weak on hens and steady on fryers and caponettes. Dealers limited receipts close to needs due to the continued hot weather and restricted demand.

CHICAGO POULTRY

CHICAGO, July 26 (AP)—Live poultry about steady; receipts in coops 695 (yesterday 719 coops, 129,064 lb); f.o.b. paying prices unchanged; heavy hens 21-25; light hens 17.5-18.5; broilers or fryers 28-29; old roosters 13.5-14; caponettes 4¼ to 5 lb 32-24, over 5 lb 35.

CHICAGO BUTTER AND EGGS

CHICAGO, July 27 (AP) — Butter steady; receipts 1,108,815; wholesale buying prices unchanged; 93 score AA 56.75; 92 A 56.75; 90 B 54.5; 89 C 52.5; cars 90 B 55; 89 C 53.5.

Eggs steady to firm; receipts 9,304; wholesale buying prices unchanged to 1 higher; U.S. large whites 60-69.9 per cent A's 40; mixed 39.5; mediums 34; U.S. standards 31; dirties 23.5; checks 23; current receipts 24.5.

CHICAGO POTATOES

CHICAGO, July 26 (AP)—(USDA)—Potatoes: arrivals 90, on track 317, total U. S. shipments 193; supplies moderate, demand moderate and market about steady. Carlot track sales: California long whites 3.00- 3.25, three outstanding cars (late Monday) 3.50, round reds 2.85-3.00; Nebraska round reds 2.65-2.75.

Livestock

DETROIT LIVESTOCK

DETROIT, July 27 (AP)—Hogs—Salable 250. No early sales; demand rather narrow undertone weak.

Cattle—Salable 250. Largely a cow run; market generally steady on available supplies; about two loads choice fed steers 22.50-23.50; virtually no sales utility and commercial offerings; most utility cows 11.00-13.00, including load heavy Holsteins at 13.00; canners and cutters unevenly 9.00-12.00; utility and commercial bulls 13.50-15.50; some lightweight cutter and low utility bulls unevenly 8.50-12.50.

Calves—Salable 100. Market opening slow; few early sales steady to weak; individual head high choice and prime vealers up to 30.00; few sales good and low choice 18.00-24.00; not many of lower grades sold.

Sheep—Salable 100. No early sales; late Tuesday, small lot rather highly mixed for weight and grade, but mostly goo dand low choice spring lambs 23.00.

CHICAGO LIVESTOCK

CHICAGO, July 27 (AP)—Salable hogs 7,500; moderately active, around 25 lower on U.S. No. 1 and 2's 200-225 lb butchers; all other butchers and sows around steady; most mixed U.S. No. 1 and 2's 200-225 lb 17.00-17.25; a double deck mostly No. 2's with No. 1 and 200 lb at 17.35; 60 head mostly No. 1's at 17.40; other sales mostly No. 2 and 3's 190-260 lb 16.75-17.00; 270-310 lb 16.00-16.75; a few small lots 3's 190-260 lb 16.75-17.00; 270-310 lb 16.00-16.75; a few small lots up to 350 lb down to 15.00; a few 160-180 15.00-16.75; a few 140-160 lb 13.00-15.50; sows 400 lb and lighter 14.00-15.50; a few 270-300 lb as high as 16.00; bulk 400-500 lb 13.00-14.25; a few up to 600 lb and above downward to 12.00 and less.

Salable cattle 12,000; salable calves 300; slaughter steers and heifers generally active, steers mostly steady, instances strong; heifers steady to 25 higher; cows slow, steady to 25 lower; bulls about steady; vealers steady; two loads prime steers 24.75-25.50; a few loads prime steers 24.00, but most choice and prime 21.50-23.75; a load 900 lb utility Holstein steers 14.25; several loads prime heifers 23.00-24.00; mixed choice and prime 22.25-22.75; most good and choice heifers 19.50-22.00; utility and commercial cows 11.00-13.25; canners and cutters 9.25-12.00; utility and commercial cows 11.00-13.25; canners and cutters 9.25-12.00; utility and commercial bulls 14.00-15.50; good and choice vealers 17.00-22.00, a few head prime 23.00; cull to commercial grades 10.00-16.00; stockers and feeders about steady; a few loads and lots medium and good feeding steers and yearlings 800 lb down 17.00-20.00.

Tavern Issued Warning

Charles F. Manz, owner of Chuck's Shack, a tavern located at 28 Opdyke Rd., was issued a letter of warning on charges that he allowed his establishment to remain open after legal hours, the Michigan Liquor Control Commission said today. The letter followed a hearing held in Detroit June 7.

Market Down in Early Deals

NEW YORK (AP) — The stock market headed lower today in early dealings.

The slide away wasn't too pronounced with losses running to around a point at the outside. There were a number of gains, mostly small.

Steels were depressed with U.S. steel off around a point in profit-taking following its high earnings report and declaration of the usual dividend.

Honolulu Oil gained 4½ at 88 on a block of 1,200 shares. Yesterday after the close the company proposed a two-for-one split and raised the dividend.

Copper - Bessemer was up a fraction on a 50-cent dividend, the same as a year ago. United Air Lines lost ground after reporting second quarter earnings equal to $1.39 a share as against $1.34 a year ago.

Among major divisions lower or mostly lower were steels, motors, rubbers, aircrafts, and utilities. The railroads were mixed, while oils were higher.

POGO PLANE IN FLIGHT — The Navy's XFY1 "Pogo" fighter plane races through the air at more than 500 miles an hour during a test flight over San Diego. The plane takes off straight up and lands straight down, settling gentle on the four caster-like wheels set into the tips of its wings and vertical fins. Arrow at right center points to the small spot required on the Lingberg Field runway for the straight up takeoff. The pogo's "runway" is only 90 feet square. The plane is made by Convair.

New Autos to Emphasize Safety, More Eye-Appeal

By DAVID J. WILKIE

DETROIT (AP)—New model automobiles, to come out earlier than usual this year, will emphasize safety developments, enhanced eye-appeal and even greater driving ease.

* * *

One development that has had practically no advance notice is the possibility of colored aluminum exterior trim. Colored grilles are included in this effort.

The emphasis on safety features probably is a logical development. Use of safety seat belts, padded dashboard and steering wheel top to lessen crash impact, have been getting wide publicity in recent months.

Chrysler and Ford already have announced safety belts as optional extra-cost equipment. Some car makers are working on a collapsible steering wheel assembly. Improved door latches and brakes are coming in 1956.

* * *

A couple of the higher-priced models may offer pushbutton gear shifting tied in with improved automatic transmissions.

FEW BIG CHANGES

Generally, there are going to be few major design changes. Wholly new body shells are coming for the 1956 Lincoln, due in September, and, of course, for the revived Continental to be known as the Mark II. The latter is scheduled for October introduction.

* * *

There will be some further increase in horsepower output of the car engines and more producers will introduce four-door hardtop models.

Industry sources say heavy dealer inventories of 1955 models may affect the car makers' plans for 1956 model introductions. However, present planning indicates the new Ford and Mercury cars will be introduced in October, both with some styling changes.

Some changes in the body shells of all the General Motors cars are understood to be in the making. Most of the GM lines are scheduled for November presentation with the possible exception of Chevrolet, which may have its 1956 models ready somewhat earlier.

* * *

Chevrolet reported has important grille and trim changes ready for its 1956 cars. Chrysler's various makes also are scheduled for November debuts. There will be adornment changes but the basic body shells are expected to be retained.

PUSHBUTTON SHIFTING

Some Chrysler lines probably will have pushbutton shifting as will Packard when it introduces its 1956 cars in October.

Studebaker reportedly is aiming at November introduction of its 1956 line with numerous appearance changes designed to enhance eye-appeal. Also scheduled for November are the new Nash and Hudson standard-size models.

The smaller Rambler, including a four-door hardtop model, is scheduled for production in December.

Kaiser-Willys, which has produced only 6,661 passenger cars this year, has disclosed no elaborate plans for competing in the 1956 car market. It will continue to emphasize its effort in the commercial field. It has built more than 45,000 vehicles in that classification so far this year.

Ford, of course, has another car model on its drafting boards. It is intended to provide Ford with a car in every price line. Trade sources understand the new car will be named the Edsel, after the only son of the late Henry Ford.

* * *

Edsel Ford, who died in 1943, was mainly responsible for development of the first Lincoln Continental.

Cadillac Ruled Out as Air Force Base

WASHINGTON (AP) — The House Appropriations Committee ruled out Cadillac, Mich., today as a site for a multimillion dollar air base. The Air Force had insisted on building the air base there.

* * *

Chairman Cannon (D-Mo) told secretary of the Air Force Talbott in a letter that the committee "recognizes the need" for a base in the area of Traverse City, Mich., but that the Cadillac site would cost too much money.

Cannon suggested another place in that vicinity "which can be justified on a basis of military and cost factors."

Congress last year voted 8½ million dollars for a base in the Traverse City area.

But the money has been tied up by the committee because it says Talbott had been unable to justify the Cadillac site.

In his letter today, Cannon listed four other sites in the area which he said would cost a million dollars or more less than the one at Cadillac.

* * *

The Cadillac site, he said, would cost $13,858,805 compared with these other site cost estimates:

Benzie County site, $12,084,285; Kalkaska site, $12,231,435; Manistee site No. 2, $13,241,756; Manistee site No. 3, $11,985,061.

Wonder What Thief Will Do With Loot?

Local police and U. S. Army Recruiting personnel are wondering today what possible use a person would have for an army tank aerial socket.

This all came about when police reported that this object was removed from the tank, which has been on display at Huron and Saginaw streets.

Sgt. Thomas Murphy of the Army recruiting office told police that the socket was valued at $15 and was removed sometime Monday evening.

Mrs. N. J. Elliott Taken by Death

Shoe Store Proprietor Dies Suddenly Here This Morning

Mrs. Neil J. (Mary E.) Elliott, 69, proprietor of Economy Shoe Co., 552 N. Perry St., died suddenly at her home, 276 Whittemore St., at 7 a.m. today. She had carried on her husband's business since his death in 1951.

Born in South Bend, Ind., April 18, 1886, she was the daughter of John A. and Sarah Reish. She came to Pontiac 36 years ago and was a member of First Methodist Church.

Surviving are two daughters, two sons, Mrs. Arnold Thingstad, Mrs. Harry Bell, George D. and Charles R. all of Pontiac and nine grandchildren.

Also surviving are a sister and two brothers, Mrs. Ella Pamcoast of Monroeville, Ohio, Charles R. Reish of South Bend and George D. Reish of Kalamazoo.

The body is at the Sparks-Griffin Funeral Home.

Pontiac Chief Mobile Homes Being Shown

Pontiac Coach Co. of Drayton Plains announces completion of the new 1955 Pontiac Chief mobile homes.

Notable among the many improvements that have been made are the rugged steel chassis and 7-inch firwood frame, ventilated closets that reduce the chance of mildewed clothing, freeze resisting plumbing, heavy duty house-type wiring, and a quick draining, leak-proof roof.

Pontiac Coach Co. has taken a big stride forward in the mobile home industry by offering air conditioning in additioin to a new International oil furnace. Both furnace and air conditioner are controlled from one thermostat.

Four lengths are available, ranging from 32 to 47 feet. Each model has a full bath with shower and a powder room in one unit.

Say Chrysler Pact Report Premature

DETROIT (AP)—Chrysler Corp. and the CIO United Auto Workers say reports that they have reached general agreement on a new contract are premature.

Sources close to the closed bargaining sessions had said the company and union appeared agreed on a broad area of a new contract to replace one which runs out Aug. 31.

After a four-hour session yesterday, however, the two parties issued a statement declaring that "newspaper reports that Chrysler and the UAW-CIO are near an agreement are premature. The parties are continuing negotiations in an effort to reach s aatisfactory agreement."

Pontiac Deaths

Mrs. Julia Grove

Word has been recieved here of the sudden death of Mrs. Julia Grove, in Coldwater on Tuesday. Mrs. Grove was the mother of H. W. Grove of Crawford-Dawe-Grove Agency.

Funeral will be at 1:30 p.m. Thursday from McConkey-Putnam Funeral Home in Coldwater.

J. Guy Newton

J. Guy Newton, of 406 W. Iroquois Rd: died at 9 a. m. today in Pontiac General Hospital. Mr. Newton suffered a broken hip Monday evening and failed to survive the shock.

The body is at Sparks-Griffin Funeral Home.

Joseph F. Palace

Joseph F. Palace, 97, of 2979 Edgewater, died at his residence at 4:30 p. m. Tuesday after an illness of four months.

Born in Italy Sept. 22, 1857 he was the son of Joseph A. and Vincent Cuchinelle Palace. He married Monica Briguglio in April 1894 and came to the United States in 1899. He was a retired employe of Pontiac Motor Division.

Besides his widow he is survived by four sons and a daughter, Joseph D., Paul, Augustine and Samuel and Mrs. Ange Marganelle, all of Pontiac.

Also surviving is a sister, Mrs. Roseland Fesalle of New Orleans.

Rosary service will be Thursday at 8 p. m. in Huntoon Funeral Home. The funeral will be at 10 a.m. Friday from St. Benedict Catholic Church, of which he was a member. Burial will follow in Mt. Hope Cemetery.

John H. Richardson

Funeral for John H. Richardson, 4800 Kempf St., Detroit will be at 2 p. m. Thursday from Huntoon Funeral Home. The Rev. James Luther of Silvercrest Baptist Church will officiate and burial will be in the Drayton Plains Cemetery.

Mr. Richardson, who is survived by his widow, Florence, died Tuesday in Receiving Hospital, Detroit.

Mrs. Olive Blair Rose

Funeral for Mrs. Olive Blair Rose, 57, of 21104 Renselear in Farmington will be Friday at 1 p. m. from the VanValkenburg Funeral Home at Redford. Burial will be in Park View Memorial Cemetery at Farmington.

Born in England Jan. 22, 1898, she came to Boston when she was five years old and to Pontiac 25 years ago. She moved to Farmington about five years ago and lived with Mrs. Reva Slaine there.

She died Monday at her home.

Kathy Sue Schroeder

Graveside service will be at 10 a. m. Thursday in Oak Hill Cemetery for Kathy Sue Schroeder infant daughter of Gary and Florence Lawson Schroeder of 280 Pioneer Ave. The Rev. Otto G. Schultz, pastor of Grace Lutheran Church, will officiate. The body is at Sparks-Griffin Funeral Home.

The baby died 10 hours after birth Wednesday in Bloomfield Hospital.

Besides her parents she is survived by a sister, Cynthia Ann.

Kim Allen Verke

Funeral for Kim Allen Verke, nine-day old son of Karston G. and Joyce Day Verke of 38 Hazel St. will be Friday from the Olson Funeral Home at Bemidji, Minn. The body was taken there from the Donelson-Johns Funeral Home today.

Born July 17 in Pontiac, the baby was taken to Pontiac General Hospital where he died Tuesday afternoon following an illness of a few hours.

Besides his parents he is survived by a brother and sister, Bruce and Karen at home.

Sherman June Sales Biggest in History

Continuing its record-a-month pace, Sherman Products, Inc., Royal Oak, chalked up the biggest June sales mark in its history—and thereby gave a barometer reading of the construction industry.

The $593,056 June sales, in fact, were second only to the April all-time high of $688,093 for any month since the firm established itself in 1946 as a pioneer in the postwar-developed manufacture and distribution of earth-moving and excavating equipment for small tractors.

The June sales figure brought the total for the first four months of the current fiscal year to $2,457,217—a 34 per cent increase over the $1,828,919 figure for the same period in 1954.

Strippers' Acts Booked for Show in Detroit Court

DETROIT (AP)—Michelle, Suzanne and Torchy three strip teasers charged with going too far in their strip routine, may find themselves performing before a court jury next Tuesday.

* * *

The three bump and grind artists were held in $1,000 bail each yesterday for trial after police said they offended public morals with their routine at the Empress theater.

"We're going to demand an all-male jury," declared their attorney, Gabriel Cohn. "And to prove how innocent those girls are, I am going to insist that they be permitted their exotic dances in court."

Recorder's Judge O. Z. Ide allowed as how he "might just possibly" authorize such a performance.

* * *

Cohn entered a plea of innocent for the three, whose formal names are Mary Ann (Michelle) Patrick, 23, Emily (Suzanne) Parker, 21, and Velma (Torchy) Mock, 23.

GM Says Auto Sales Ride High

Retail Car Purchases in First July Period Break Company Record

Retail sales of General Motors passenger cars in the United States during the first 20 days of July were the highest in history for that period, President Harlow W. Curtice announced today.

* * *

New marks also were set for the second 10 days of July and for the period January 1 through July 20, Curtice said. The new records were established in both new and used car sales by GM dealers.

New car sales by GM dealers during the first 20 days of July totaled 187,799, or 137.1 per cent of the figure for the same period last year. This included 107,787 sales during the second 10 days of the month, which was 147.7 per cent of the 1954 total for the corresponding period.

Retail sales of new cars during 1955 through July 20 totaled 2,134,593, highest in history for that period and 138.4 per cent of the total for the corresponding period in 1954.

* * *

Every GM passenger car division — Pontiac, Chevrolet, Oldsmobile, Buick, and Cadillac — recorded all-time record sales during the first 20 and second 10 days of July and for the period January 1 through July 20.

Used car sales totals were: First 20 days of July, 238,813, or 122.5 per cent of the 1954 figure for the period; second 10 days, 138,879, or 135.2 per cent of the 1954 total in the same period; and January 1 through July 20, 2,749,800, or 130 per cent of last year's figure for the period.

Business Notes

R. H. Gathman has been named manager of the new Fisher Body stamping plant to be built at Mansfield, Ohio, it was announced today by James E. Goodman, vice-president of General Motors and general manager of Fisher Body.

Gathman joined Fisher Body as a die engineer in Detroit in 1933 after his graduation from the General Motors Institute at Flint.

Since 1954, he has been executive assistant to S. J. Sabourin, general factory manager of all Fisher Body stamping plants.

James J. Edwards has been named manager of the new Fisher Body stamping plant to be built at Marion, Ind., it was announced today by James E. Goodman, vice-president of General Motors and general manager of Fisher Body.

Edwards was born in Waterloo, Iowa, in 1914. He graduated from the University of Iowa with a degree in mechanical engineering and joined General Motors in 1940 as a product engineer with the Ternstedt Division.

In 1953, he was appointed manager of Fisher Body's aircraft plant in Grand Rapids.

DD MKT

Construction Pay Jumps

WASHINGTON (AP)—The Labor Department said today average wage scales for union construction workers rose 6 cents an hour during the three-month period ended July 1.

NOTHING LIKE A "LOST AD" to recover a loss! To reach the finder, dial FE 2-8181.

Inflation Worries Foreign Nations

By SAM DAWSON

NEW YORK (AP) — Americans have been enjoying a stable cost of living for some time. But inflation hasn't bowed off the stage in some other lands.

They still watch prices climb. And worry is increasing even here lest the economic scenery is being shifted again by recent wage increases, so that inflation, waiting in the wings, can make a return appearance.

* * *

Inflation, a chief problem in most Latin-American countries and in some parts of the Far East, still haunts a few European nations and threatens England anew.

Special conditions seem to account for inflation's hold on these spots.

On a world wide basis, commodity prices taken as a whole have been remarkably steady for three years. Metal prices are rising. But farm product prices are falling. Rises and declines just about cancel each other out.

Increased industrial capacity in the United States and Western Europe have licked most shortages and competition holds most prices in line.

Governmental financial difficulties and currency juggling trouble parts of Latin America, however.

Prices and wages soar in Chile—

Stanton Farmer Will Be Honored at MSU Event

EAST LANSING (AP) — A young Michigan couple wil be among three farm families honored in connection with the centennial of farm mechanization at Michigan State University Aug. 15-20.

Alvin and Helen Hansen of Stanton, Montcalm County, will be cited as typical "centennial farmers" along with families from California and Pennsylvania.

Hansen previously had been named as Michigan's outstanding young farmer and was picked by the National Junior Chamber of Commerce as one of the top four outstanding young farmers in the nation.

Nine years ago the Hansesns were $37,000 in debt for a run-down farm covered with weeds and brush. Today they have a farming operation valued at nearly $200,000.

Credited with contributing to this succes sare hard work, a definite goal, machines to fit the job, use of fertilizer, the taking of calculated risks and the use of practices learned from the county agricultural agent and Michigan State University.

AN ORDINANCE GRANTING TO Consumers Power Company, its successors and assigns, the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges and other public places, and to do a local gas business in the Township of Waterford, Oakland County, Michigan, for a period of thirty years.

Section 1. The Township of Waterford, Oakland County, Michigan, hereby grants to the Consumers Power Company, a corporation authorized to transact business in Michigan, its successors and assigns, hereinafter called the "Grantee" the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges and other public places, and to do a local gas business in the Township of Waterford, Oakland County, Michigan, for a period of thirty years.

Section 2. In consideration of the rights, power and authority hereby granted, all of which shall vest in the Grantee for a period of thirty (30) years as aforesaid, said Grantee shall faithfully perform all things required by the terms hereof, and such performance by the Grantee shall be in lieu of all license fees, rentals, or charges of every name and nature, except property taxes, which the Township might otherwise levy and impose.

Section 3. No highway, street, alley, bridge or other public place used by said Grantee shall be obstructed longer than necessary during the work of construction or repair, and shall be restored to the same good order and condition as when said work was commenced. All of Grantee's pipes and mains shall be so placed in the highways and other public places as not to unnecessarily interfere with the use thereof for highway purposes.

Section 4. Said Grantee shall at all times keep and save the Township free and harmless from all loss, costs and expenses to which it may be subject by reason of the negligent construction and maintenance of the structures and equipment hereby authorized. In case any action is commenced against the Township on account of the permission herein given, said Grantee shall, upon notice defend the Township and save it free and harmless from all loss, cost and damage arising out of such negligent construction and maintenance.

Section 5. The rights, power and authority herein granted, are not exclusive. Either manufactured or natural gas may be furnished hereunder.

Section 6. Said Grantee shall from time to time extend its gas distribution system to and within said Township, and shall furnish gas to applicants residing therein whenever the amount of gas to be furnished thereby shall provide an adequate and reasonable return upon the cost of making such extensions and providing such service.

Section 7. Said Grantee shall be entitled to charge the inhabitants of said Township for gas furnished therein, the rates as shown by the schedule now on file in the office of the Township Clerk, unless and until the Michigan Public Service Commission or its successors, to which Commission the authority and jurisdiction to fix and regulate gas rates in said Township is hereby granted and conferred for the term of this franchise, shall fix and establish different rates, in which case the rates so fixed and established, if just and reasonable, shall prevail. Such rates shall be subject to review and change at any time upon petition therefor being made by either the said Township or by said Grantee.

Section 8. This ordinance shall cease and be of no effect after thirty days from its adoption, unless within said period the Grantee shall accept the same in writing filed with the Township Clerk, subject to confirmation of the grant hereof by at least a majority of the electors of said Township voting thereon at a regular or special township election to be held in the manner provided by law. Upon the acceptance and confirmation hereof, this ordinance shall constitute a contract between said Township and said Grantee for a period of thirty years from and after the twenty-third (23rd) day of August, 1956.

NOTICE OF SPECIAL TOWNSHIP MEETING AND ELECTION AND OF REGISTRATION OF VOTERS

Whereas, at a meeting of the Township Board of the Township of Waterford, Oakland County, Michigan, held on the 25th day of July, 1955, a franchise ordinance was adopted, entitled as follows:

An Ordinance, granting to Consumers Power Company, its successors and assigns, the right, power and authority to lay, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges and other public places, and to do a local gas business in the Township of Waterford, Oakland County, Michigan, for a period of thirty years.

Whereas, said Consumers Power Company has heretofore filed its written acceptance of said franchise, and has requested that the question of confirming the grant thereof be submitted to the qualified electors of the Township, at a special election to be held for that purpose, and has also paid to the Township Board the estimated expense of holding such special election; and,

Whereas, there has been heretofore filed with said Board, a petition signed by at least twelve electors, requesting that a special township meeting and election be called for such purpose;

Now, therefore, pursuant to resolutions adopted by said Board, notice is hereby given that a special meeting and election will be held in said Township at:

Precinct No. 1: Jayno Adams School 3810 Clintonville Road, Pontiac
Precinct No. 2—Fire Station No. 2 4580 W. Walton Blvd., Drayton Plains
Precinct No. 3—Waterford Village School Steffens Street, Waterford
Precinct No. 4—Williams Lake School 2525 Airport Road, Pontiac
Precinct No. 5—Township Hall 4095 W. Huron, Pontiac
Precinct No. 6—Hudson Covert School 1150 Scott Lake Rd., Pontiac
Precinct No. 7—Donelson School 1200 W. Huron, Pontiac
Precinct No. 8—Stringham School 4350 Elizabeth Lake Rd., Pontiac
Precinct No. 9—Oakland Coin Company 5236 Cooley Lake Rd., Pontiac
Precinct No. 10—Lambert School Cass-Elizabeth Lake Rd., Pontiac
Precinct No. 11—Knights of Pythias Hall Voorheis Road, Pontiac

on Wednesday, the 7th day of September, 1955, for the purpose of voting on the confirmation of the action of said Township Board in granting such franchise.

The polls of said election will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and will be held open until 8 o'clock p.m. Eastern Standard Time. The Township Clerk will be in his office on the 8th day of August, 1955, said date being the thirtieth day, as determined by statute, preceding the date of said election, for the purpose of reviewing the registration, and registering such of the qualified electors of the Township as shall appear and apply therefor, which registration may be made on said date between the hours of 9 o'clock a.m. and 8 o'clock p.m. Eastern Standard Time.

Said franchise as granted by said Board is on file with the undersigned Township Clerk for the purpose of inspection by the qualified electors.

By Order of the Township Board.
LOUIS G. BARRY,
Township Clerk.

Dated: July 25, 1955. July 27, 1955

Malaya Votes for Lawmakers

People of Protectorate Will Elect Majority of Solons Today

KUALA LUMPUR, Malaya (AP)—Malaya's multiracial population elects a majority of its legislators today for the first time in history.

At stake in the general election are 52 seats in the Federation of Malaya's 98-member Legislative Council. The high commissioner of the British protectorate, Sir Donald MacGillivray, will appoint the other 46 members.

* * *

The British government views the election as an important step toward self-government for the federation, composed of the nine Malay states and the former Straits Settlements of Penang and Malacca.

The party winning the most seats will form a cabinet to head most of the government departments but the high commissioner will retain a veto. Because the peninsula's six million people are about half Malays and half Chinese or Indians, most leaders are not anxious for immediate removal of Britain's moderating influence.

* * *

More than 10,000 armed police guarded the federation's polling stations today, on the watch for Communist guerillas battling the government since 1948.

Over a dozen political parties entered varying numbers of candidates but the main contest was between the Malay-Chinese-Indian Alliance and the largely Malay Negara (National) party. The alliance was favored to come out ahead.

GI Paternity Action Filed in Frankfurt

FRANKFURT, Germany (AP) — The first postwar paternity suit against an American by a German woman has been filed in a German court here.

The suit, expected to provide a precedent for similar cases, asks that an American Army captain provide 750 marks ($35.70) a month for support of an 8-year-old girl until she is 16.

* * *

The complaint said that because of the sovereignty granted West Germany last May, it is now possible for German courts to act to prevent "violation of natural laws against humanity." Allied occupation regulations previously had barred such suits.

The suit was filed yesterday by Louis Jedlhauser, a Munich lawyer. He and court officials refused to divulge the names of the principals. A trial date has not been set.

German welfare authorities estimate that fathers in the American occupation forces have left 50,000 illegitimate children in Germany.

Clouting Unruly Kids Is a God-Given Right

LOS ANGELES, (AP) — Parents have a God-given right to punish their children, within reason, Superior Judge Clement D. Nye commented as he dismissed child beating charges against a meat cutter, Salvador Mora.

Mora told the court yesterday he beat his sons Mario, 9, and Salvador Jr., 7, with a belt when they "misappropriated" some breakfast food.

"I don't want my boys to grow up to be juvenile delinquents,' he testified.

Death Notices

ALLARD, JULY 26, 1955, MRS. Alida, 10310 Mary Lee, Milford, Rt. 2, age 82; beloved wife of Nestor J. Allard; dear mother of Jules J. Allard, Mrs. Marguerite Leavell and George C. Allard; dear sister of Louis Blanck. Funeral service will be held Friday, July 29, at 10 a.m. from St. Patrick's Church, Oxbow Lake. Interment in Holy Sepulchre Cemetery, Detroit. Recitation of the Rosary will be held at Donelson-Johns Funeral Home Thursday evening at 9 o'clock.

ELLIOTT, JULY 27, 1955, MARY E., 276 Whittemore St., age 69; dear mother of Mrs. Arnold Thingstad, Mrs. Harry Bell, George and Charles R. Elliott; dear sister of Mrs. Ella Pamcoast, Charles R. Reish, and George D. Reish. Funeral service will be announced later by the Sparks-Griffin Funeral Home.

PALACE, JULY 27, 1955, JOSEPH F., 2979 Edgewater, age 97; beloved husband of Monica Palace; dear father of Joseph D. Palace, Mrs. Ange Marganelle, Paul Palace, Augustine and Samuel Palace; dear brother of Mrs. Roseland Pesalle. Funeral will be held Friday, July 29, at 10 a.m. at St. Benedict's Church with Rev. Fr. Thomas officiating. Recitation of the Rosary will be held Thursday at 8 p.m. at Huntoon Funeral Home. Interment in Mount Hope Cemetery. Mr. Palace is at the Huntoon Funeral Home.

RICHARDSON, JULY 27, 1955, JOHN M., 4800 of Florence Richardson. Funeral service will be held Thursday, July 28, at 2 p.m. at Huntoon Funeral Home with Rev. James Luther officiating. Interment in Drayton Plains Cemetery. Mr. Richardson is at the Huntoon Funeral Home.

ROSE, JULY 27, 1955, MRS. OLIVE Blair, 21104 Renselaer, Farmington, age 57; dear friend of Mrs. Reva Slaine. Funeral will be held Friday, July 29, at 1 p.m. at VanValkenburg Funeral Home. Interment in Park View Memorial Cemetery. Mrs. Rose is at the VanValkenburg Funeral Home, 22250 Grand River Ave., Redford, Mich.

SCHROEDER, JULY 27, 1955, Kathy Sue, 280 Pioneer, beloved infant daughter of Gary and Florence Schroeder; dear sister of Cynthia Ann. Graveside service will be held Thursday, July 28, at 10 a.m. with Rev. Otto G. Schults officiating. Interment in Oak Hill Cemetery. Baby Kathy is at the Sparks-Griffin Funeral Home.

VERKE, JULY 26, 1955, KIM ALLEN, 38 Hazel St., beloved infant son of Karsten and Joyce Day Verke; dear brother of Bruce and Keren Verke. Funeral service will be held Friday, July 29, from Olsen Funeral Home, Bemidji, Minn. Baby Kim was taken this afternoon from the Donelson-Johns Funeral Home to Bemidji, Minn.

Card of Thanks 1

WE WISH TO THANK OUR friends and neighbors for the beautiful flowers, cards and other acts of sympathy during our recent sorrow. Special thanks to Rev. Roberts, the women of the New Hudson Methodist Church, also Mrs. Howard Campbell. There was one basket of flowers without a card so whoever sent it, to them goes our sincere thanks. Mr. and Mrs. Lorin McNulty.

In Memoriam 2

IN LOVING MEMORY OF MRS. Belle Jennings, who passed away July 27, 1934. Sadly missed by her family.

IN LOVING MEMORY OF MY Mother, Mrs. Belle Jennings, who passed away July 27, 1934
"A picture painted on my mind,
that time will never fade, My Mother"
Mrs. Henry Evans

IN LOVING MEMORY OF MOTHer, Isabella Watson, who passed away July 27, 1953.
Gracious, gentle Mother. Always sweet and kind.
You only saw the good in folks, and to their faults were blind;
God's taken you to Heaven—Where all is joy and mirth.
But the place you left so empty.
No one can fill on earth.
Sadly missed by her husband, and son and daughter-in-law.

O'NEIL
PERMA-STONE FOR LASTING BEAUTY — and an income for security! It's an A-1 2-family with 5 full size rooms for owner, plus a good 4-room rental. Conventional construction with everything private in each unit. Better east side location, near schools, stores, and bus. At $14,700 it'll be hard to beat.

CHARMING — is the word for this most attractive 2-bedroom modern bungalow. Tastefully decorated inside and out with many added features. Quiet reserved location with lake privileges, and school bus at door. $44 per month includes taxes and insurance.

WEST SIDE BUNGALOW — Built in '48. Carpeted living and dining room, efficiency kitchen with plenty of cupboards, full tile bath, 2-bedrooms on first floor, extra large bedroom up. Full basement, gas furnace, fenced lot. Paved street. Be first to see this solid value at $11,800. 4 per cent interest on balance.

MACEDAY GARDENS — Want a quality home for only $8900? Built in '53, on large lot 156x250. Picture window in the pleasant living room, large kitchen with dining space, (plenty of cupboards, too). 2-bedrooms, full bath, part basement, oil furnace. We're sure you'll like this immaculate home.

WISNER & LINCOLN — The school district for occupants of this neat 2-bedroom bungalow. Built in '46. Maintained with pride! Priced so very low. Only $6750.

5:45—(7) Jumbo Theater.

Cancer Return Kept From Wife

Ailing Movie Actress Suzan Ball Didn't Know About Disease Revival

By BOB THOMAS

HOLLYWOOD (AP)—Richard Long today told how the news of the recurrence of cancer was kept for months from his wife Suzan Ball.

Doctors told the actor about her condition almost a year ago, but the pair went ahead with night club engagements.

"It was what Suzan wanted to do," Long said, "so we did it." They teamed in a song and dance act and played Tucson, Palm Springs and Buffalo.

* * *

He managed to keep her unaware of the return of her cancer until three months ago.

"It's a strange disease," he explained. "It can be going on in your body without you knowing it. Unless it touches a nerve, there is no pain or discomfort.

"When Suzan did have some trouble, we managed to camouflage the symptoms as something else. The doctors thought it would be better that way, in order to keep up her mental attitude."

The 21-year-old beauty whose leg was amputated Jan. 12, 1954, because of cancer is now at the City of Hope Medical Center in nearby Duarte. Long makes the 30-mile drive to the hospital every night after his movie work.

"She is in wonderful spirits," he reported, "and feeling much better. She can't walk now because it is harder for her to walk after losing so much strength. But I take her out for rides in a wheel chair."

Suzan has remained on the payroll throughout her illness. The Universal-International Studio also has picked up the medical expenses, which have been reported at $70,000.

Long did not say where cancer has now attacked the actress.

Runaway Poodle Aids Cub Scouts

CANOGA PARK, Calif. (AP) — Movie producer Rowland V. Lee's black French poodle Tony disappeared in pursuit of a fox near the Lee home.

Tony didn't catch the fox. Instead he became tangled in myriads of burrs in the rough terrain. The dog was in great pain when he was found by George Padgett, a Cub Scout.

Padgett spent two days removing the burrs from the poodle, then returned him to Lee, who had offered a reward. Lee wrote a $100 check yesterday for Padgett's scout pack and they're going to take in Disneyland on it. Padgett pocketed an additional $15.

Rail Joins Asian Reds

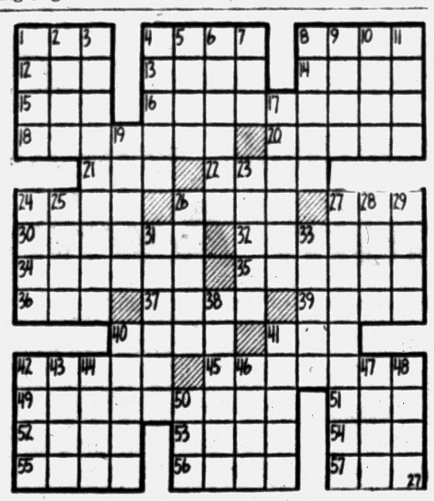

TOKYO (AP) — Direct railway traffic between Red China and North Viet Nam will start next Tuesday, a Peiping radio broadcast reported today.

Answer to Previous Puzzle

Big Four Should Meet at Stage Barber Shop

By EARL WILSON

LONG BEACH, Calif.—Here I was amidst all the Miss Universe beauties—but, honest, I wasn't even looking. I was thinking of a story told me when I got crew-cutted in Joe DiMaggio's favorite barber shop on 7th Ave., New York.

A one-legged newsdealer, Paul Franklin, who sells papers near Lindy's, comes into the Stage Barber Shop regularly.

He always gets a shoe shine . . . for the shoe of his one foot, the right one . . . and he always pays the full price, 15 cents.

WILSON

But the other day he talked it over with his two barbers, Francisco Garzanito and Roberto Desiderio—for, you see, Guiseppe DiMaggio's favorite shop is Irish—and then he said to Norman, the shoe shine boy:

Listen, you bum, you been charging me 15 cents to shine one shoe.

"It ain't right, so you got to shine two shoes for me like for everybody else!"

So he stuck out his foot, which was in a black shoe, and he handed him another right shoe he'd brought along, which was brown . . . and Norman shined the two right shoes. Everybody was happy . . . for the one-legged newsdealer tipped Norman on the basis of getting two shines.

I wish Ike'd hold a Big Four meeting in the Stage Barber Shop. Roberto's and Francisco's logic could solve everything.

★ ★ ★

Taffy Tuttle heard mention of a well-known character famous for never working, and asked, "What's he not doing now?"

★ ★ ★

Texas now says George Washington was a native son. As Tommy Griffin of New Orleans relates it, little George cut down a big cactus plant. "George," said his father, "did you cut down this cactus plant?" **Little George whimpered, "I cannot tell a lie. I did it with my little hatchet."**

His father roared, "If you can't lie any better'n that, get the h--- out of Texas!"

So George sneaked over to Virginia and grew up there, because Texas couldn't tolerate such untalented prevaricating.

★ ★ ★

To get back to those Miss Universe girls, I thought they were the prettiest ever assembled in the whole world. Ginny Simms and Myrna Hansen were among my fellow judges.

Bob Russell, the m.c., on looking at the beauties, in their bathing suits, said, "I speak to them in their native language. The trouble is I keep thinking about them in English."

★ ★ ★

THE MIDNIGHT EARL in N.Y. . . .

While Dean Martin gave his big H'wood party, Jerry Lewis sat quietly at home with friends . . . The Clark Gables ordered a dozen "his" and "hers" shirts from Billy Eckstine's factory . . . Mike Wallace (Buff Cobb's ex) married again.

CINDY LOU

Toots Shor told announcer Jack Lescoulie he'd be disguised as a bum on "Masquerade Party." Jack said, "Come as a bum and they'll spot you right away!" And they did! . . . Benny Goodman and drummer Gene Krupa are icy on "The Benny Goodman Story" set . . . Local model Cindy Lou Bayes has two screen test offers.

Atty. Jerry Giesler is coming east to handle Rob't. Mitchum's lawsuit against Confidential . . . A syndicate wants to build a huge television city on Ellis Island . . . Grace Kelly, now in H'wood, rented her Park Av. apartment to MGM . . . Gant Gaither bought "The Wild Shores of Love" as a play for Rita Gam.

Ezio Pinza gave his "Fanny" co-star, Walter Slezak, his pet mynah talking bird; it talks with an Italian accent . . . Tab Hunter will portray Red Sox outfielder Jim Piersall (who recovered from a nervous crackup) on CBS-TV's "Climax."

Buddy Rogers won a suit against a wrestler who called himself Nature Boy Rogers . . . Newest wrinkle in the bop set: Reefers inside cigars, to escape detection.

WISH I'D SAID THAT: "A golfer is a guy who can walk miles lugging 100 pounds of equipment, but who has junior bring him an ash tray."—Quote.

TODAY'S BEST LAUGH: Rob't. Q. Lewis doubts that a certain H'wood marriage will last: "She's already refering to him as her first husband."

Jan Murray claims he saw a sign on a bar: "We accept resignations from Alcoholics Anonymous." . . . That's earl, brother.

Teen Thiefs Await Court Arraignment

DAYTON, Ohio (AP) — Two of six youths being held in the $82,000 theft from Dayton baker Alfred Frowein are scheduled to be arraigned Friday in Municipal Court.

The pair are Duane Link, 18, charged with grand larceny, and Clarence Gook, 19, accused of receiving and concealing stolen money.

Disposition of the cases of the other four juveniles, including Frowein's 15-year-old son Frederick, has not been announced.

Police said Link and two others also face charges of burglary of a dwelling at night, which carries a maximum life sentence upon conviction.

Tungsten does not begin to melt until it is heated to 3,380 degrees centigrade.

Suspense Tales Start in October

Director Believes That Scare Dramas Serve Serious Purpose

By EMILY BELSER

HOLLYWOOD (INS) — The home screens of the nation are in for thrill-packed, super-duper face-lifting this fall when Alfred Hitchcock, the master of suspense, moves his famished frame over to television.

* * *

"Hitch," who has gone from 300 pounds to a sylph-like 195, is venturing into the realms of TV at the prodding of his agents who think it's about time he spreads out — his talents, that is.

Naturally, the Hitchcock dramas will be exciting, insidious and hair-raising. They will begin in October, on film, and run for the usual 39 installments.

Asked how he became so engrossed in the business of mayhem and murder, the director smiled angelically and replied:

"Because I was a God-fearing little boy minding my own business and needed an outlet for all my repressions!"

* * *

The Hitchcock repressions are good entertainment any way you look at them — in the movie theater or at home — and the once portly thrill-maker says they serve a serious purpose as well.

THRILLERS FILL NEED

"Danger stories fill a psychological need," he said. "Everyone has a fear complex. We all like to see people in worse situations than our own.

* * *

"And we like to feel safe and comfotable and able to grab on to the nice soft arm of a chair while they're going through their agony up on the screen.

"It's like a roller coaster," he added. "People scream and laugh when they're on one of these contraptions because they know they're going to come out of it alive, but if they thought this was to be their last ride it would be a different kind of scream."

The director, who was sitting in his studio office between scenes of his new film, "The Man Who Knew Too Much," glanced over at a giant bottle of protein tablets and a smaller bottle of vitamin pills and shrugged.

* * *

"Cary Grant brought me this stuff," he said, "I'm gonna try to take 'em but I don't believe in 'em."

COFFEE AND A CIGAR

Hitch may not believe in pills (he reduces by eating no breakfast and having a cup of coffee and a cigar for lunch), but he believes in suspense and he also believes in giving an audience a breathing spell after punching them in the stomach.

* * *

"Like the time in 'The Woman Alone' (1936) where I had a small boy carrying a bomb across London. He dawdled all the way past the hour when the bomb was to explode. The audience leaned back in vast relief, then three minutes later the bomb went off.

"When I did this I broke the cardinal rule and caught hell from a famous woman critic and a lot of other people for doing it!"

The director admitted this was one time when he over-released his repressions.

Missing Money Sought After Banker's Arrest

TWENTYNINE PALMS, Calif. (AP) —What happened to the $678,000?

That's question No. 1 today in Twentynine Palms, an oasis where the financial well has run dry.

The doors of Joshua National Bank, the only banking facility in 50 miles, have been closed by the federal government, and the bank's vice president and chief cashier, Roscoe D. Coon, 46, is in San Diego County Jail.

* * *

Bank examiners closed the doors Monday when an audit showed $687,000 missing. Coon, owner of a racing stable, was arrested at the Del Mar race track on a federal embezzlement charge. He is accused of keeping $10,000 ordered from the Federal Reserve Bank in Los Angeles for deposit to the Joshua National.

* * *

Coons yesterday sought to have his case transferred from San Diego to Los Angeles, but the request was denied. His preliminary hearing was set for Aug. 19 and he was returned to jail in lieu of $50,000 bail.

Other officials of the Twentynine Palms bank said that the deposits were insured for up to $10,000 by the government and that not more than a dozen depositors had accounts over that amount. The little desert town's big trouble is doing business without a bank.

* * *

A Riverside bank, with a branch in Banning, 50 miles distant, is seeking government permission to establish another branch in Twentyine Palms.

Charge Indiana Woman With Bilking Resorters

LANSING (AP) — Resorters on the west coast of Michigan were warned today against an Indiana woman who has been selling shortweight chickens in the area.

Miles A. Nelson, chief of the Bureau of Foods and Standards of the State Department of Agriculture, said the woman has been touring the Grand Haven-Muskegon area taking orders for dressed chickens on consignment. When delivered, he said, the are short weight.

Nelson said a warrant has been issued for the woman, Mrs. Cleo Miller of Cromwel, Ind.

U.S. railroads paid 861 million dollars in taxes in 1954.

Allied Fliers Warned to Shun Dollar Meccas

MOENCHEN GLADBACH, West Germany (INS) — Members of the 2nd Allied Tactical Air Force in Germany, most of them British Royal Air Force men, got a warning today from headuarters.

It's "steer clear of spots catering to American tourists" when visiting France on leaves this summer. The warning said such places were "scaled to dollar wallets."

Germans Invading West to Avoid Soviet Army

BERLIN (INS) — West Berlin refugee officials reported today that more than 25,000 youths up to age 24 have fled to West Germany from behind the Iron Curtain.

Most of them reported they feared conscription in Soviet controlled East Germany.

France has about 2¼ million horses.
