U.S., Soviets Hold Private Talks on Arms

Agreement Sought to Prevent Spread of Nuclear Weapons

GENEVA (UPI)—The United States announced today it has been holding private talks with the Soviet Union on a possible agreement to prevent the spread of nuclear weapons.

American disarmament negotiator Adrian S. Fisher accused the Russians of blocking agreement, however, by presenting political arguments against the projected Multilateral Nuclear Force (MLF) for the North Atlantic Treaty Organization (NATO).

Soviet chief negotiator Semyon Tsarapkin, in a follow-up speech before the 17-nation disarmament conference, said the United States "prefers a nuclear alliance with the Bundeswehr (West German Army) than to have an agreement on nonproliferation."

West German participation in the MLF has long been the target for Communist propaganda attacks.

"We have, as the (disarmament) committee knows, been discussing privately with the Soviet Union a proposed agreement on the nonproliferation of nuclear weapons," Fisher said.

PRIVATE TALKS

These discussions have been between Fisher and his Soviet counterpart, Semyon K. Tsarapkin, in their private meetings as conference cochairmen.

"There is general agreement that preventing the spread of nuclear weapons to nations not now controlling them is an urgent matter," Fisher said.

"But an effort is being made to becloud this issue with essentially political arguments against the projected multilateral force."

The Soviet Union charges that the MLF is merely an excuse for giving West Germany control over nuclear arms.

Fisher denied this claim and said the plans for MLF contain nothing contradictory to proposals for preventing the spread of nuclear weapons.

PASCHOAL MAZZILLI

PORTO ALEGRE, Brazil (AP)—President Jose Goulart left this southern city by plane today for exile. About noon the Brazilian president departed by plane with 15 persons. It was not known immediately whether his destination is Uruguay or Paraguay.

RIO DE JANEIRO (AP)—Congress declared Joao Goulart shorn of the presidency today and he was reported fleeing from the country, bowing to a two-day rebellion by anti-Communist generals. Paschoal Ranieri Mazzilli was sworn in as president.

Last night Goulart fled to his home state in southern Brazil and from Porto Alegre defiantly called the action by Congress a farce, declared himself still

president and predicted a popular reaction against the generals.

Today a broadcast heard in Argentina quoted the mayor of Porto Alegre as saying Goulart had decided not to resist, because he wanted to avoid bloodshed.

An Argentine foreign ministry official said he had word that Goulart would seek asylum in Montevideo, Uruguay.

A radio station in Porto Alegre called "chain for legality" went off the air shortly before noon and Rio de Janeiro took that to mean Goulart resistance there had been broken. The station had been broadcasting support for Goulart.

Another station in Sao

Paulo began announcing that the vanguard of the anti-Goulart 3rd Army from Santa Maria and five other points was converging on Porto Alegre.

Reports circulated that Gen. Amaury Krueger, leader of the revolt against Goulart's policies, had sent this ultimatum to the 3rd Army commander at Porto Alegre: Surrender forces guarding Goulart or face an invasion.

There was no official confirmation.

APPEARS CALM

Appearing calm, Goulart talked with reporters a few hours after Congress at the inland capital of Brasilia installed

(Continued on Page 2, Col. 2)

SEARCHING FOR BOY — Small boats patrolling shallow water and skin divers working deep areas of a Lake Sherwood inlet made a vain effort yesterday to locate the

body of Brian McKendrick. The 14-year-old youth presumably drowned late Tuesday afternoon while sailing his boat.

Recover Body of Area Youth

Pulled Out of Lake Shortly After Noon

The body of a 14-year-old Commerce Township boy was recovered from Lake Sherwood shortly after noon today.

The youngster, Brian L. McKendrick, 5121 Surfwood, had been missing since Tuesday when his small, sailing craft was found capsized on the 165-acre lake near Milford.

The Oakland County sheriff's office reported that the body was recovered at 12:19 p.m., four hours after the search was resumed this morning by 25 skin divers.

A U.S. Army helicopter, equipped with underwater detection devices, had been

Oakland Drowning Toll in '64

1
Last Year to Date 0

BRIAN

pressed into service because freezing water was giving some divers serious cramps.

Yesterday, 22 divers from five sheriff's offices spent 42 hours underwater searching for the body of the Milford Junior High School 15th grader.

Brian is the son of Mr. and Mrs. Lorne McKendrick, whose home fronts on the man-made lake.

LOOK FOR BOY
Searchers spent three hours looking for the boy after he was reported missing at 7:39 p.m. Tuesday and from 8 a.m. until 6 p.m. yesterday.

His mother Shirley told police he went sailing about 9:30 a.m. that day, first with his 13-year-old brother Stuart, and then later by himself.

McKendrick said his son "wasn't supposed to be out on the lake Tuesday, but weather never bothered him."

Oral Vaccine Stations Listed

"Feeding stations" for the oral polio immunization program were announced today by the Oakland County Medical Society.

Manned by volunteers, the stations will be the sites where oral polio vaccine will be given out on sugar lumps on April 19 and June 14.

The immunization program is a tricontinent effort at mass immunization against polio.

Each station will be open from 11 a.m. to 7 p.m. on each of the dates.

Area feeding stations by school district will include:

Pianist Dies After Concert

DETROIT (AP)—Concert pianist Boddar Kunc of New York City collapsed in the wings and died of a heart attack after playing one of his own compositions with the Detroit Symphony Orchestra last night.

The 49-year-old Yugoslavian composer, teacher and pianist was stricken while his sister, Metropolitan Opera Co. star Zinka Milanov, finished a song.

Few of the 1,900 persons attending the benefit performance at Ford Auditorium were aware of the tragedy.

In a 20-minute performance of his piano Concerto in B Minor, a work which demands virtuosity of pianist and orchestra, Kunc wiped his brow three times and once momentarily rested his head in his arms, witnesses said.

As Miss Milanov finished an encore just 25 minutes later, stage manager C. P. Kennedy "turned and looked back into the wings, and there he was lying on his back and breathing heavily."

DOCTOR CALLED

Kennedy summoned a doctor from the audience. The physician worked over Kunc among the tangle of ropes and pulleys. Miss Milanov came to her brother's side.

Kunc was dead on arrival at Receiving Hospital.

Both decisions were announced yesterday by the White House after Johnson conferred with Alaska's senators.

Democrats E. L. Bartlett and Ernest Gruening, and-by telephone—with William A. Egan, governor of the stricken state.

AP Photo/

LBJ Pushes Alaska Action

WASHINGTON (AP)—President Johnson, with personal telephone calls to Senate leaders, pushed today for speedy congressional approval of \$50 million of federal emergency funds for Alaska.

Senate Democratic leader Mike Mansfield of Montana and Republican leader Everett M.

See Story, Page A-10

Dirksen of Illinois both said they had talked with the President and agreed to prompt Senate action.

Mansfield forecast Senate action early next week. The House must act first.

In order to act on the appropriation, the Senate must put aside temporarily its lengthening battle over the civil rights bill. Mansfield told newsmen he expected no problems in getting unanimous consent for this.

Along with the decision to request a \$50 million emergency appropriation, Johnson has

DISCUSSES EARTHQUAKE — President Johnson confers with Alaska senators yesterday with Sens. E. L. Bartlett (left) and Ernest Gruening, Alaska Democrats, on the earthquake damage.

MacArthur Suffers Another Downturn

WASHINGTON (AP)—Gen. Douglas MacArthur has suffered a "further waning" of his heart and kidney function, Walter Reed Army Hospital announced today.

A bulletin at 10:16 a.m. said continuing deterioration of the five-star general's kidney function has necessitated institution of a semiautomatic means of stimulating kidney function.

The technique involves making two incisions in MacArthur's abdomen and inserting two tubes.

The purpose is to attempt to wash out from the general's blood poisonous materials which cannot be efficiently filtered out by his own failing kidney system.

The resulting products are pumped out through the other tube.

BAD REPORT

The new downturn followed a terse and gloomy report from the doctors yesterday that the outlook was not good.

That was the last report yesterday when doctors had noted a slight improvement in the 84-year-old general's lowered blood pressure and control of the troublesome and sporadic internal bleeding.

Asked flatly if the general would recover, Dr. Henry S. Murphy, a brigadier general and hospital commandant answered: "We hope so."

The tube which had been inserted through MacArthur's esophagus and into his stomach remained in place. But the pressure of a small balloon against broken veins—designed to retard bleeding in the esophagus—was all but removed.

'No Passage on Crime Bill'

Roberts Says Senate Won't OK Measure

State Sen. Farrell E. Roberts, R-Oakland County, said today that a bill which law enforcement officials claim would benefit organized crime will not pass the Senate.

Roberts is chairman of the Senate Judiciary Committee where the bill now rests.

County Senior Assistant Prosecutor Robert L. Templin contacted Roberts yesterday after meeting with State Attorney General Frank J. Kelley and prosecutors from other counties in Detroit Tuesday.

Templin, Kelley and the other prosecutors all oppose the bill which would reduce maximum sentences for persons convicted of conspiracy from five years to as low as 90 days in some cases.

"It's the type of bill that certainly would have the support of people involved in organized crime," Templin said.

CRIPPLE ENFORCEMENT

"It would completely cripple law enforcement in the area of organized crime and gambling," he said. "They'd just pay their fines and go right on breaking the law."

Templin said such a bill would seriously hamper police and prosecution in cases such as the gambling conspiracy case now pending against 24 men arrested in a raid at the Sieras Assembly Club in Madison Heights last fall.

The bill would prevent judges from imposing stiffer sentences for conspiring to break a law than the law permits for actually breaking that law.

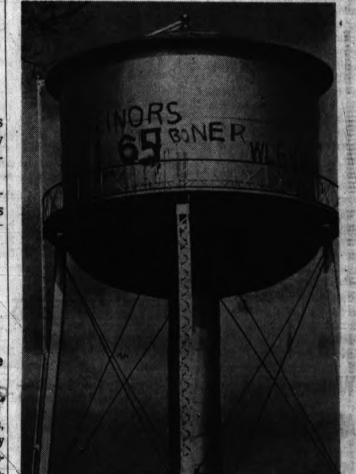

At present, conspiracy carries a five-year maximum sentence regardless of the maximum for the crime that is the object of the conspiracy, Templin explained.

GANGING UP

Templin said, "It's the ganging up to break the law repeatedly that's vicious in itself."

Roberts agreed. "It's the only way to go after the big fellows in gambling," he said. "I don't think it's a good bill and I don't think it will get out of committee."

The bill was passed by the House.

Pontiac Press Photo

CREATIVE EFFORTS?—By the looks of the "art work" on this water tower, a few of the "seniors" at Walled Lake High School may not pass their spelling tests. In fact, they probably won't get any prizes for originality. Of course the students who displayed their talent on the tower, near Commerce and Union Lake roads in Commerce Township, would probably argue that it's difficult to be artistic at night.

County Judges' Decision May Cost Them Votes

By JIM DYVERT

Rejection of a Republican party recommendation will cost a few judges some party support at the polls, according to the chairman of the county GOP, Charles L. Lyle.

Lyle said there will be a "lot less enthusiasm" among Republicans for "those judges who didn't follow the party's recommendation" of Robert L. Templin for appointment as county prosecutor.

Showers Due by Tonight

Light rain or showers may be expected this evening and tonight.

The weatherman predicts temperatures will be somewhat

LIGHT SHOWERS

warmer tonight, the low ranging from 36 to 42. Highs will rise to the upper 40s tomorrow.

Partly cloudy and a little cooler is the forecast for Saturday.

Southeasterly morning winds at 10 to 18 miles per hour will increase to 15 to 25 m.p.h. tonight and become northeast at 10 to 25 miles Friday.

Thirty-two was the low temperature in downtown Pontiac preceding 8 a.m. By 2 p.m. the reading was 36.

Will GOP Withdraw Support?

(Continued From Page One)

They will get the next time they come up for election."

Though Lyle would not say how many or who among the five went against the GOP's bidding, it was learned from other sources that his "ruse substitution" comment applied to Circuit Court Judges Stanton G. Dondoro and Frederick C. Ziem.

Judges Dondoro and Ziem have served on the bench for several years and will come up for election next in 1966. They were the staunchest proponents of the principle of non-involvement of the nonpartisan bench in the intraparty issue.

GIVES MAJORITY

Their vote plus those of the two judges with Democratic backgrounds would have made a majority.

The other three judges with GOP backgrounds were appointed last year by Gov. George Romney. Facing their election this year, they may have been more conscious of the value of the party's support.

Lyle denied that the GOP's endorsement of Tempin amounted to circumventing a party policy against backing a candidate in a primary by giving him an edge over his fellow senior assistant prosecutors and announced candidates, Jerome K. Barry and William E. Lang.

"It's ridiculous to think we can control a primary," he said. "We didn't think we were mixing in the primary."

The party favored Tempin because he has been the most active of the three in the GOP, and Lyle said, because he would make the best campaigner while being equally qualified.

Democratic charged the GOP endorsement of Tempin was a "internal Republican politics" and called upon the judges not to blindly follow the recommendation.

County Democratic Chairman Sander M. Levin yesterday applauded what he called "the independent action" of the judges in appointing Condit.

Woman Still Alive After 7-Story Jump

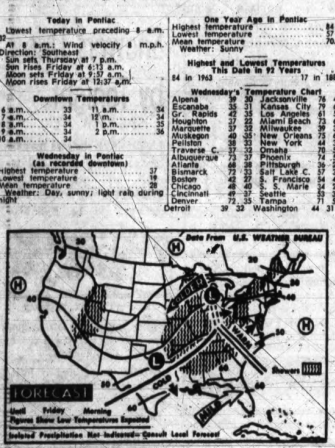

LOS ANGELES (AP)—Police said a woman who came to town looking for a tall building leaped from the seventh story of a downtown hotel at midnight. She was identified as Alexandra Cohen, 39, of Livermore in northern California.

Officers said her luggage was broken by a 20-foot wire stretched from the building to a giant palm tree.

The Weather

PONTIAC AND VICINITY — Cloudy and warmer today with scattered showers and thunderstorms, high 45 to 57. Rain or showers tonight, low 37 to 42. Showers ending Friday and cooler, high 42 to 50. Winds southeast to south 10 to 15 miles increasing to 15 to 25 miles this afternoon and tonight and becoming northeast to north 10 to 25 miles Friday. Saturday outlook: partly cloudy and cool.

NATIONAL WEATHER — Showers are predicted tonight for the central Plains and Rockies, the Mississippi, Ohio and Tennessee valleys and the Appalachians. Colder weather is expected in the western half of the nation and little change elsewhere.

Iron Workers Strike Halt Urgent Space Job

CAPE KENNEDY (UPI) — More than 300 iron workers failed to report to work today at this space center, halting major construction on the nation's largest moonport project and an urgent Air Force job.

The iron workers' walkout complicated another labor flare-up that erupted yesterday when about 2,500 of 4,100 construction workers were turned back by picketing guards.

The guards' picket lines remained up today. Some building trades workers began to trickle back to work, however, but the new iron workers' dispute brought steel work on the three biggest projects at the vast center to a standstill.

"None of the iron workers showed up," said a spokesman for the American Bridge Division of U.S. Steel. "We can't work without people."

The iron workers were erecting steel on a huge \$83 million moon rocket assembly building and on two structures at the huge Air Force Titan-3 project.

TIGHT SCHEDULE

The Titans job was on a tight schedule to meet the first launch date for the mighty military space booster scheduled for 1965. The rocket will be used to hurl large manned space laboratories into orbit.

It was the second major work stoppage at the Kennedy Space Center within six weeks.

Government and building trades union leaders last night urged the construction workers to get back to work. "But it will take some time to get them back in," said a labor spokesman.

Trans-World Airlines, supplier of transport services at the Merritt Island moonport, asked the National Labor Relations Board yesterday in Tampa, Fla., to look into the guards' picketing.

Federal mediator Robert A. Berman stepped in yesterday to try to solve the iron workers' dispute and also to avert a clash over job rights between the Teamsters' union and operating engineers.

The iron workers contract expired Tuesday night. Union members Monday night agreed a strike vote, but no official action was taken.

An attempt by Berman last night to help the iron workers and the Patrick Contractors Association to reach an agreement failed.

He was named chief of the South Oakland County department a year and a half later.

A Republican, Irons has held the top county law enforcement office since he was first elected to the post in 1955.

"I will actively campaign as I have in the past," said Irons, who has been in police work since 1924 when he joined the Berkley department as a patrolman.

Opposing them are the "2-story" candidates. Former Commissioner Robert Frye, 1255 Trowbridge, filed a nominating petition to seek a 2-year term.

However, two of the commissioners who favored it are running—James A. Beresford for a 2-year term and John Blanchard for one year.

Another candidate for a 2-year term is Edward A. Schirmer, 456 Lone Pine Court.

The code which passed the commission by a 4-1 vote will become effective Saturday.

OUT OF RACE

The sole dissenter, Henry Woolfenden, is not seeking reelection.

Two propositions to be decided concern the sale of property in Troy and reorganization of the city's board of review.

SEEK PERMISSION

Voters will be asked for permission to sell 70 acres of city-owned land in Troy. Now unused, the property once was a well site and refuse disposal area.

The other proposal would alter the board of review membership to three persons appointed for three years.

Sheriff to Seek His 6th Term

Sheriff Frank W. Irons announced today that he will seek reelection to a sixth term this year.

Nominating petitions are now being circulated to place the name of Irons on the primary ballot this fall.

The 64-year-old Irons has held the top county law enforcement office since he was first elected to the post in 1955.

"I will actively campaign as I have in the past," said Irons, who has been in police work since 1924 when he joined the Berkley department as a patrolman.

Election in Bloomfield Drawing High Interest

BLOOMFIELD HILLS — A campaign dominated by the city's new zoning ordinance plus the appearance of two sticker candidates late in the season are drawing voter attention to Monday's election.

City Clerk Robert Stadler is predicting a record turnout in the neighborhood of 80 per cent for the election of three city commissioners.

Announcement of a "2-story slate" including a former commissioner and two sticker candidates was made last week.

The trio is opposed to the recently adopted zoning ordinance which includes provision for 3-story multiple residences.

The code which passed the commission by a 4-1 vote will become effective Saturday.

Turk Troops Remain; Clash Closes

NICOSSIA, Cyprus (UPI)—Turkey's refusal to remove troops from a strategic position outside Nicosia increased the danger today of a major clash with Greek Cypriot forces.

The Turkish action was in direct defiance of Greek Cypriot President Makarios and put pressure on the United Nations peace force supervising a truce between the warring Greek and Turkish Cypriots.

The troops in question are the 650-man contingent of the regular Turkish Army. The

Turks have been dug in along the Nicosia-Kyrenia highway running through a Turkish Cypriot stronghold. The Turkish troops are in Cyprus under terms of the 1960 independence treaties.

On Tuesday Makarios demanded that Turkey send its troops back to their barracks on the ground there was no need for their presence along the highway. Heavily armed Turkish Cypriots also are dug in there.

Yesterday Turkey rejected the demand, saying withdrawal would be feasible only after "the security and constitutional order were completely restored throughout the island."

GOVERNMENT NOTE

A Turkish government note to Makarios said the Turkish troops were "compelled" to move into their present positions along the highway for security reasons following the Christmas week fighting that

started the crisis. The note said the troops would remain in position for the time being.

One unconfirmed report said Makarios had delivered an ultimatum to the United Nations to clear the highway although no time limit was set. Greek Cypriot roadblocks must be re-

moved to permit free passage of Greek Cypriots on the key road.

Lt. Gen. P. S. Gyi of India, the U.N. commander, had warned previously that failure to open the Nicosia-Kyrenia road could lead to Greek Cypriot military action.

Paris Painter Sails for U.S. on Small Craft

LA ROCHELLE, France (UPI)—Jean de Kat, 23-year-old sailor and painter from Paris, left for New York last night aboard his 35-foot sailboat Ombre.

De Kat hopes to reach New York June 22 after stops at Vigo, Spain; the Canary Islands; Guadeloupe and Bermuda. De Kat took along canned food, fishing tackle, a two-way radio and painting supplies. His only companion is a parakeet.

School Board Ponders Issue

What Are 'Professional Negotiations'?

By L. GARY THORNE
A little-noticed problem lies on the egg-shaped table in the second-floor Pontiac School Board room at 40 Patterson.

The problem begs a solution like a fresh crossword puzzle. It is nearly as complicated. Board members have reached for their dictionaries.

The knotty question—that of professional negotiations—was presented to the seven board members in February by the Pontiac Education Association (PEA), a teachers group.

News Analysis

Professional negotiations, according to the PEA, are a set of procedures for bargaining and/or negotiating items of mutual concern to teachers and the school board.

The school board accepted the PEA request like a judge in court, indicating a "we'll consider it" attitude.

NEGOTIATIONS REST

Obscured by the more dramatic "integration issue," professional negotiations have rested on the table and in the minds of the board members.

Although little noted in for-

mal sessions, the question nevertheless has provoked some concern and appreciation.

In fact, a private dinner meeting—usually reserved for weighty matters—has been scheduled prior to the next board meeting to give full, and again private, consideration to professional negotiations.

The PEA expressed a firm "no strike" position in presenting its request to the school board. However, one provision in the negotiating procedures troubled some board members.

THIRD PARTY

Some means of mediation was proposed. This means that a mutually agreed upon third party could impose a final settlement in the event of an impasse.

Board members found this idea particularly hard to digest.

Professional negotiations were inspired and fostered by the PEA—an affiliate of the National Education Association—while the collective bargaining approach is advanced by the American Federation of Teachers, which also has a local affiliate.

Essentially, there are no start-

ling differences between collective bargaining with the teachers' union and professional negotiations with the teachers' association.

EXTEND POWER

The association is prone to extend professional negotiations beyond simple wages, hours and working conditions. When such negotiations flood over into areas of policy, school boards are equally apt to object.

Meantime, teacher unions confine bargaining to the areas—wages, hours, and working conditions—reserved for unions in industry.

The differing approaches of the two teacher groups is a primarily philosophical rather than on specific issues.

While the union regards the strike as their final weapon, the association imposes sanctions, which means teachers refusing to sign contracts and urging other teachers to boycott a particular school district.

LARGER GROUP

The PEA is larger than the Pontiac Federation of Teachers, according to PEA officers.

Pontiac School Board members are interested observers of the Detroit controversy over teacher representation and a sole bargaining.

Following a pattern that is slowly becoming more and more common, the Detroit board has adopted a plan calling for proportionate representation between teacher groups on a negotiating committee.

Under this plan, a bargaining committee would be made up of representatives from both teacher groups on the basis of their total membership.

DETROIT UNIT

The proportionate committee idea was prompted by a request from the Detroit Federation of Teachers for a collective bargaining election to designate a sole bargaining agent for all Detroit teachers.

Detroit school board members substituted its own plan, setting an April 8 election for a teacher advisory vote on whether the proportionate plan is acceptable.

However, the BFT has further complicated the Motor City controversy.

The union has scheduled a strike for April 15 if the vote favors its position, meaning the proportionate committee plan is rejected by the teachers.

The Detroit school board has warned against a strike.

The legal profession, judges and even teachers agree that teachers are prohibited from striking as public employees. Nevertheless, teachers have struck and mass firing has not resulted.

Why? So far, teachers have reasoned correctly that firing is impossible because 10,000 teachers cannot be "canned" all at once.

Civil Service Turns Down Bid by Hare

LANSING (AP) — The State Civil Service Commission has rejected an attempt by Secretary of State James Hare to delay a ruling that license plate office branch managers in nine major cities, including Pontiac, must come under civil service starting in July.

Hare asked for a postponement until Dec. 18. He outlined a plan that would use an employment list being prepared by civil service for salaried workers. He also proposed that appointments be continued on a fee basis and be required to furnish their own quarters.

The commission, in rejecting the proposal, said the 38 fee offices in the nine cities do a sufficient volume of business to be manned by merit employees appointed by civil service.

Continued operation on the present basis would be in violation of the State Constitution, the commission said.

"To give civil service status to certain politically-appointed fee branch managers would freeze them in their jobs," the commission said.

The offices affected are located in Detroit, Pontiac, Lansing, Grand Rapids, Kalamazoo, Bay City, Flint, Saginaw and Muskegon. They do an annual license plate and other fee business of about \$600,000 a year.

AP Photo

SCOFFLAW QUEEN — Miss Hermena Perimutter of Elizabeth, N.J., a lawyer specializing in defending persons accused of traffic violations, became New York's scofflaw queen yesterday when she pleaded guilty to 257 unanswered traffic summonses in Criminal Court. She was fined \$3,410. Trial was set June 1 on a charge of driving without registration, which she denied.

Cuba to Shoot 'Traitor' Today

Trial Brought Out Split in Red Party

HAVANA (AP) — A firing squad today was expected to execute Marcos Rodriguez, whose trial was a Batista informer brought an apparent split in Cuba's Communist party into the open.

The Cuban Supreme Court yesterday confirmed the verdict of Rodriguez' second trial, during which Prime Minister Fidel Castro testified in an effort to keep his regime from breaking into two hostile camps.

Castro devoted most of his 4½ hours on the stand to the quarrel between his young supporters and old-guard Communists.

He scolded both the old Communists, who had cooperated with ex-dictator Fulgencio Batista, and his younger supporters for letting the political fight come before the public.

Rodriguez, 26, a pro-Castro Communist, was convicted of tipping off Batista's police in 1967 to four revolutionaries who had tried to assassinate the dictator. The four were executed.

SECOND TRIAL

Though Rodriguez had been convicted and Castro himself said he was guilty, he ordered a second trial with maximum publicity because of published reports that testimony in the first trial had been suppressed to spare old-line Communists in the government.

The prime minister angrily criticized Transport Minister Faure Chomon, Rodriguez' chief accuser in the first trial. He accused Chomon of making the trial a political one and speaking of matters which should have been taken up only in secret party councils.

Bureau Founder Dies

NEVADA, Mo. (AP) — Chester H. Gray, 84, a founder of the American Farm Bureau Federation, died Wednesday.

Vibrations Allow Measurement of Quake Rupture

PASADENA, Calif. (AP) — Bell-like vibrations of the earth will enable scientists to determine the length of the rupture in the earth's crust which caused the earthquake in Alaska last Friday.

So says the California Institute of Technology, on the basis of data collected from seismometers in Peru, on the island of Oahu in Hawaii, and in California's Sierra Nevada. This network measures the frequencies of vibrations.

Dr. Frank Press, director of Caltech's seismological laboratory, said Wednesday that analysis of the vibrations will provide a pattern of the quake's extent.

Army Engineers Fail to Find 'Buried Loot'

FT. SILL, Okla. (AP) — Treasure-hunting Ft. Sill army engineers yesterday failed to uncover \$60,000 legend says was buried on the post by a wounded outlaw in 1890.

Local legend says the loot was buried 10 feet south of an old well on what is now a housing area at Ft. Sill. A national magazine recently carried the story of the legendary treasure and touched off numerous requests from civilians wanting to seek the loot.

Killed in Collision

MONROE (AP) — Former Monroe School Superintendent George Cantrick, 72, was killed Wednesday night in a truck-car collision on US 25.

His wife, Laura, also 72, was injured critically.

Lighting experiments indicate your chances of being struck by lightning are about 365,000 to one.

Boston Common, set aside in 1634 as public property, ranks as America's oldest public park. In 1830 the city fathers drove off the cows and planted trees and flowers.

Dominican Republic Leaders Struggle to Rebuild Country

Our current Inter American Press Association director's meeting was held in the Dominican Republic, the one-time stronghold of tyrant TRUJILLO.

The picture is heartening. Better days lie ahead.

Few countries in modern times have been methodically ravaged and sacked as ruthlessly. He wrested one of the most luxurious livings in this hemisphere from a destitute people and left them gasping and groping and hungry. Finally a fusillade of bullets motivated by righteously indignant officers ended his machinations on his way home (from a mistress) in an unmarked and "secret" automobile. I shook one of the hands that provided the fatal machine gunning and was proud to do so. President Reid characterized him as "the fiercest and bloodiest tyrant ever to sink his claws in any country in our hemisphere."

Bringing some semblance of order out of the chaos and privations is a truly monumental task. But now we see an enlightened and wholly benevolent republic replacing a dictatorship of the lowest and most destructive character.

It's a full swing of the pendulum and it will be attended by an obvious amount of heartache and misunderstanding. But the brightest spot in the whole picture is the character of the new administrators.

The Dominican Republic is governed by "El Triunvirato" — the triumvirate. The President is Donald J. Reid Cabral, an exceptionally personable man. His associates are Ramon Tapia Espinal and Manuel E. T. Espallat. These three strong, capable and comparatively young men are giving themselves completely to the establishment of a permanent form of democracy.

My wife was captivated by Mrs. Reid (and I was, too, but that's confidential). These are the ruling powers during this period of transition and they relinquish the reins to an elected tribunal in September of 1965. The island was completely bankrupt as TRUJILLO lived in absolute luxury and profligacy in all its aspects. In the meantime, activated purely by patriotism and the love of their own fine people, these three undertake the early steps of restoration.

The task is tremendously complicated. Trujillo's successors start bravely forward with idealism and honesty as their guiding principles. The island desperately lacks employment, money and the economy is at a low ebb, but these three patriots plow determinedly forward.

They struggle against another ominous foe in addition to the mess TRUJILLO left. The Communists always lick their dirty chops over situations such as this. They're infiltrating through every known avenue and constantly seek to undermine the constructive work of the triumvirate. Castro may have made Santo Domingo as his primary goal for the downfall of another republic. Radio Havana is never idle — day or night.

President Reid humbly lists these

as the first achievements of his trio:

- Law and order without force.
- Court procedures without interference.
- Tiny but definite economic progress.
- Freedom of speech and specifically newspapers.

German OWENS, publisher of El Caribe, says that neither he nor any of his associates receive any type of censorship or dictatorial second guessing.

Juan Bosch was the first elected president and when a military coup threw him out, the world looked askance and the U. S. promptly stopped foreign aid. However, subsequent events disclosed the complete ineptness of the ousted man and President Johnson restored governmental relations and provided a modicum of food for the hungry. President Reid and his associates recognized the setback but went ahead undaunted. Santo Domingo needs money. She needs jobs.

She needs stability and an improvement in general living conditions. Actual hunger and a lack of education are disheartening foes anywhere on the globe. They're the basic first step toward real existence. There are discouraging days ahead and unseen forces oppose progress and the Communists are undermining everything they can, especially among the younger and more impressionable people. The three great patriots are giving themselves without stint or reservation to the advancement of their countrymen. They have the capabilities and general confidence.

In September, the schools teach farming to the young people so they can ultimately wrest a living from the soil with a pride and incentive which have been dormant through 30 years of subjugation. Santo Domingo seeks foreign capital and can prove it has the opportunities "for those who seek to invest."

The "oldest Christian country of the Americas" faces a challenging future.

The whole world watches. Decency and decadence are at war. And the Communists slip through every available crack. Personally, I'll bet on the triumvirate and the Dominican Republic of tomorrow, although tomorrow is down a rocky road. But victory lies ahead.

—HAROLD A. FITZGERALD

"A RUSSIAN recently walked 15,835 miles." — Press report. He was doubtless walking around Russia's perimeter, trying to find a sizable hole in the iron curtain.

BEATLE dolls soon be placed on the market in the U.S., immediately following which there will be an unprecedented widespread outbreak of nausea.

"MAN Killed; Hazy About Details." — Headline. Being killed is said to be enough to make almost anybody hazy about anything.

Verbal Orchids To —

- Mrs. Robert Cascadan of Rochester; 94th birthday.
- Mr. and Mrs. David Beattie of West Bloomfield Township; 51st wedding anniversary.
- Mr. and Mrs. Charles Winegar of Lapeer; 59th wedding anniversary.
- Mr. and Mrs. Charles E. Groves of Auburn Heights; 61st wedding anniversary.
- Arthur Cunningham of 782 Cortright; 83rd birthday.
- Clara Howell of Holly; 88th birthday.

Unshaken!

David Lawrence Says:

Expect Scranton to Make Move

WASHINGTON — Throughout the country, in Republican political circles, there is a general expectation that Gov. William Scranton of Pennsylvania will make in the next few days an announcement which will be construed as endorsement of his supporters to become active in obtaining for him the Republican presidential nomination at the convention in July.

The Pennsylvania governor has been under pressure from his friends to make an unequivocal statement — telling clearly his intentions.

This is because of widespread comment among professional politicians that Gov. Scranton cannot afford to remain silent any longer if he really wants the nomination.

Naturally, the admirers of Gov. Scranton think he would make a good candidate, and the mention of his availability has indeed evoked a good deal of comment in political circles and in the press.

One professional politician on the Republican side sized up, for this correspondent, the situation as being largely related to seven big states — New York, New Jersey, Pennsylvania, Ohio, Michigan, Illinois and California.

INDUSTRIAL STATES

He says the Republicans must win in four of these and that the Republican candidate is most likely going to be the man who can carry at least four of the seven.

Ohio and Illinois are believed to be leaning strongly in the Republican direction.

New York is a state considered by many Republicans to be in the doubtful class.

So the question finally resolves itself into who has the best chance to carry Pennsylvania, California, Michigan and New Jersey.

KNOWN IN EAST

This is where Gov. Scranton comes under consideration, because he is known in Pennsylvania and New Jersey.

The California primaries on June 2 will, of course, have an important bearing on the whole Republican contest.

Two men who may eventually emerge as the candidates are former Vice President Nixon and Gov. Scranton.

This is one reason why it is being openly stated by many

politicians that, if Gov. Scranton doesn't do something soon, the big prize will fall into Nixon's lap without much effort.

MORE STRENGTH

The supporters of Nixon are convinced that, in the final analysis, he will go to the convention with more strength than appears on the surface.

The important argument on the Nixon side is that he was for eight years vice president of the United States and that he lost in 1960 by a narrow margin.

To counter this, proponents of

other candidates declare that the country is not interested in the past, but in new faces.

The big question is, however, how familiar will they be with the various candidates by convention time.

If Gov. Scranton announces his candidacy soon and makes a few speeches, the voters will at least have several weeks in which to become familiar with the Pennsylvania governor and decide whether the new face is satisfactory.

Bob Considine Says:

Humphrey Gets a Slogan After Outdoor TV Ordeal

WASHINGTON — Bob Jensen, a publicity aide for Sen. Hubert Humphrey, has a slogan for the Minnesota who would like to be President Johnson's running mate in November.

"Hubert wears no man's collar but any man's coat," Bob said at the National Press Club the other night.

A story went with it. Seems that CBS has camped on the steps of the Capitol for the duration of the civil rights filibuster.

From time to time, a senator is lured out into the cold to say a few words on TV, since TV cannot go to the mountain.

Humphrey accepted such an invitation and discovered that he had no coat for protection against the wintry blasts sweeping about.

FORGOT OVERCOAT

His own overcoat was in his office, blocks away.

So Jensen ducked into the nearest available office, seized a coat that looked like one a veep would wear, fled with it, and put it on Humphrey just in time to avoid having him appear to be some kind of fresh air nut.

A fine broth of an Eskimo boy named Timothy J. Williams of Akia, a five-hut village in Alaska, distinguished himself in the emergency work carried out in the wake of the frozen hell of the recent earthquake.

So did a lot of other Eskimos who make up an unsung and courageous arm of the U. S. military.

Two battalions of Alaska National Guard Scouts were in what they call "summer training" at Camp Denali on Good Friday when the earth went into its gruesome dance.

They are resourceful troops these Eskimos.

HANDLED JOB

They fanned out, pitched in, and handled the job of digging for the wounded and dead in

nearby Anchorage and elsewhere.

They patrolled the battered streets, and no looter dared test them.

They're tough as walrus blubber.

They seemed to work 'round the clock and sometimes actually did.

In Washington:

Future Bright for Quake Alert

By RAY CROMLEY
WASHINGTON (NEA) — At the very time the Alaska earthquake struck, there was a confidential proposal in government hands for a co-ordinated government-university research attack aimed at producing some of the basic facts necessary to build an earthquake warning network.

It has not yet been approved.

Recent break-throughs in instruments and methods have opened the door to a whole new world of earthquake research possibilities which scientists say could end the frustrations of the past 30 years.

Geophysicists interviewed here say we now have the tools to do the research needed to develop a crude earthquake-prediction system for major communities — probably within 10 years, certainly within 20.

It would, of course, only predict quakes likely to cause important damage to people and property. The system would likely skip predictions of quakes occurring in the wilderness and in deserts unless they produce nasty effects at a distance.

Such warnings would not be correct every time any more than weather predictions are. Scientists would be happy if

Voice of the People:

'Taxpayers Can't Afford McNamara in Viet Nam'

Please, Mr. President, don't send McNamara to Viet Nam anymore. Taxpayers can't afford it. Why don't you make him vice president on your ticket next fall? The Republicans wouldn't care a hoot.

Better yet, leave a Ford pink slip on his desk and call Ford to put him in charge of the \$2 billion tax-free foundation. Then he would have private money to squander.

Mr. President, you are no slouch in spending either. The \$3.4 billion you plan to give away would build 34 Mackinac bridges. It cost Michigan \$100 million to build one and it employed thousands. Politicians are giving all over the world but they don't hire one of our unemployed. It does help solve foreign unemployment though.

Victim

Writes About Quick Divorces in City

Pontiac is missing a good chance to make money. Just advertise quick divorces. Reno and Mexico are pikers compared to Pontiac.

A wonderful Christian woman's husband left her and her children for another woman. He wanted a divorce but his wife didn't. Her lawyer told her to be in court and that she needed no witnesses as it was a preliminary hearing. It was over in three minutes and only when the lawyer told her the cost did she realize it was a divorce.

A week later she got the papers saying she was free to marry. She does not want a divorce — only a home for her two children. Were these lawyers in this together that this was done so quickly and quietly?

Indignant

'Waterford Justices Need Courtrooms'

Waterford Township justices need courtroom badly. The atmosphere of a courtroom would certainly have a more pronounced effect. Our officials don't want to start yammering about courtroom needs, but didn't these officials go against the people's vote and allocate \$30,000 for a library?

It's always asked: "Why don't people vote?" When officials can find sneaky, unethical loopholes to go over the voters' veto, you then get your answer.

I'm sure these entrusted public servants can find a satisfactory solution that will lend more dignity to our competent judges. 5923 Dwight

The Better Half

"You choke up and tip them off with your heavy breathing."

Senator Sees Cuban Revolt

Rebel Aid Urged as Dodd Rips Fulbright

WASHINGTON (AP) — Sen. Thomas J. Dodd, D-Conn., today demanded "open and increasing assistance" to Cuban freedom fighters.

Dodd, in a speech prepared for Senate delivery, predicted that in the not too distant future Cuba "will be the scene of another popular revolt against Communist brutality," and declared:

"And on the day when the pent-up wrath of the Cuban people explodes, our action or inaction may make the difference between victory or defeat."

CUBAN POLICY

Without mentioning Chairman J. William Fulbright, D-Ark., of the Senate Foreign Relations Committee, Dodd took sharp issue with Fulbright's Senate speech last week urging a change in Cuban policy.

Fulbright suggested that Fidel Castro's Cuba should be looked upon as "a distasteful nuisance but not an intolerable danger."

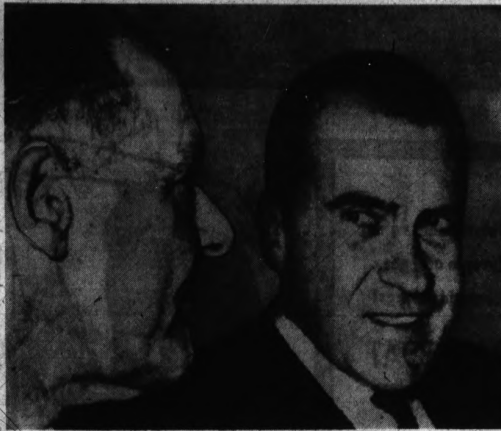

While Fulbright said Castro communism posed a "grave threat" to other Latin-American nations, he contended this could be dealt with by prompt and vigorous use of antiaggression machinery of the Organization of American States.

CASTRO FALLACY

Dodd described as a "fallacy of the do-nothing policy" any argument that "the Castro regime, while admittedly a nuisance, does not pose any mortal threat to our security."

"It is perplexing to note that some of these who understand the illusion of 'Fortress America' isolationism have now become the advocates of an essentially identical brand of isolationism," he declared. "They appear to believe that our security and our freedoms would not be threatened even if the major part of the hemisphere and, for that matter, of the Free World, were to go Communist."

Dodd, a member of Fulbright's committee, said the United States "should use all the resources of diplomacy, not excluding economic countermeasures, to discourage allied and friendly nations from slipping critical materials to Cuba."

RUNNING MATES OF 1960 — Richard Nixon (right) confers with Ambassador Henry Cabot Lodge in Saigon yesterday. Nixon is on a world tour. The two men were Republi-

can president and vice presidential candidates in the 1960 election. No details of what the two men discussed were released.

Viet Nam War Rages On While Nixon Pays Visit

SAIGON, Viet Nam (AP)—South Vietnamese forces clashed with Communist guerrillas in the Mekong Delta today within 20 miles of an area Richard M. Nixon was visiting.

Casualties were believed to have been heavy. The former vice president apparently did not get near the action.

Nixon had flown by helicopter to Tan An, 20 miles south of Saigon, to inspect some hamlets the government has set up in a crash program to push out the Viet Cong.

U. S. sources said the firing began when the government mounted an operation earlier in the day.

Nixon also conferred with Gen. Paul D. Harkins, commander of U. S. forces in Viet Nam, and scheduled another meeting with U.S. Ambassador Henry Cabot Lodge, his vice

presidential running mate in 1960.

ON WORLD TOUR — Nixon arrived here yesterday on a world tour.

Nixon, who has not shut the door on a draft for the Republican presidential nomination, said it was natural that he and Lodge should talk politics.

But neither he nor Lodge would reveal what they said. "We're old friends," Lodge said. "I briefed him about Viet Nam. I think we'd better let it stand at that."

Lodge, surprise winner of the Republican presidential primary in New Hampshire by a write-in vote, is bound by foreign service regulations from engaging in politics.

Nixon said he hoped Viet Nam would not become a political issue this year.

Claims Swede Spy for Both U.S., Russia

STOCKHOLM, Sweden (AP)—Swedish Air Force Col. Stig Wennerstrom, who goes on trial April 9 on charges of spying for Russia, also spied for U.S. intelligence, the newspaper Aftonbladet claimed today.

Wennerstrom is accused of providing U.S. and Swedish military secrets to the Russians during the last 15 years.

The newspaper said Wennerstrom had also told police he was a spy for American intelligence and received thousands of dollars from the Americans.

Authorities have made no official disclosure of any links between U.S. intelligence and Wennerstrom.

The paper, however, said that Wennerstrom spontaneously told the police that he delivered secret information to the Americans while military attache in Washington from 1952-57.

Made Moms Feel Secure

Name School After Driver

FAIRHAVEN, Mass. (AP)—For 20 years, school bus driver LeRoy L. Wood picked up and delivered his band of youngsters to the little schoolhouse on Scitucket Neck.

He never had an accident. He never was late. The children's mothers felt secure knowing the kids were in his care.

The Fairhaven School Committee decided to name a new school on Scitucket Neck the LeRoy L. Wood School.

The white-haired Wood said yesterday: "My goodness, I was speechless there for a while" when informed of the school board's decision.

Wood, now 60, retired two years ago. When he left his job, the children on his route chipped in and bought him a good watch.

To Resume Talks in Hillsdale Strike

HILLSDALE (AP)—Officials of Essex Wire Corp. and of the International Electrical Workers Union prepared today to resume talks in a bid to end a 34-day-old strike.

Hillsdale police were investigating management reports that five cars belonging to company personnel were smeared with green paint Tuesday night and that the windshield of another car, belonging to a company guard, was broken by a rock. Negotiations had been scheduled to resume Wednesday but a delay was granted at the request of Local 810 of the I.E.W.

Diploma Not Needed

MIAMI BEACH, Fla. (AP)—Miami-Dade Junior College has a "dropout" problem.

More than 1,500 students have enrolled in the college's data processing program, started in 1960. Only one has completed the two-year course.

It's not a question of flunking. The students are too successful. "They take five or six of the courses and then are grabbed off by industry," said President Peter Maslo Jr. today.

Tell of Taking Church Funds for Payoffs

WYOMING (AP) — Three young victims paid extortion demands with some of the more than \$300 stolen from church collections, police in this Grand Rapids suburb said Wednesday. Detective John Lind said the victims—ages 13 and 14—told of taking the money from the Palm Sunday collection at one church. Lind said two claimed it was their first theft of church funds while the third admitted previous larcenies from collections.

Wyoming police said the extortion came to light Monday night when one victim told his father of the shakedown, including threats of violence and exposure, by three older youths of 14, 15 and 16.

Lind said the older youths Tuesday admitted receiving about \$100 in tribute. He added that investigators learned that the balance of the stolen church collection funds were spent or banked by the extortion victims. All six youths have been turned over to juvenile authorities.

Marquette U. Gets Luci's Test Scores

MILWAUKEE, Wis. (AP) — Marquette University's admissions office said Wednesday it had received the college examination board scores for Luci Baines Johnson, 16.

The director of admissions said receipt of the score did not constitute an application for admission or an inquiry about information about admission. He said when high school students took college entrance examinations they listed the colleges and universities to which they wanted the scores sent, in case applications to the schools were made later.

Miss Johnson is a junior at National Cathedral School for Girls in Washington. The White House said that it had no information on whether Miss Johnson wanted to attend Marquette.

'Accident-Prone' Driver Loses License in Test Case

LANSING (AP) — A Lansing bus driver with a record of 26 accidents since 1953 has had his license lifted Wednesday in a test case aimed at accident-prone drivers by the secretary of state's office.

A three-man license appeal board voted unanimously to revoke the license of Frank Patterson, 32, a driver for Lansing Suburban Lines for the past 10 years.

Secretary of State James Hare is pushing the case to test his powers to take away the licenses of drivers he considers "incompetent" or "accident-prone."

"Women caused 75 per cent of those accidents," objected Ray Hotchkiss, attorney for Patterson. Hotchkiss said he immediately would appeal the decision to Ingham County Circuit Court and would ask restoration of the license pending outcome of the case.

NO DEATHS

Patterson was found at fault in only two of the 26 accidents, Hotchkiss said. There were no deaths, he said, the injuries were minor in all the accidents and the property damage also was minor. The one serious injury involved a drinking driver who struck the bus and was found at fault, the attorney said.

"One woman stopped to look at a hitchhiker and so hit the bus. Another opened a car door and it hit the bus. Still another came out of a driveway and said she didn't see that big green bus," Hotchkiss said.

Hotchkiss said he knew the decision would be against Patterson before the hearing started, "because Hare wanted a test case."

Patterson has only four points against him on moving violations. He drives on the Michigan Ave. route between downtown Lansing and East Lansing, busiest in the city.

DRIVING HOURS

Patterson told the appeal board his regular hours call for 60 hours driving a week and that he sometimes drives up to 76 hours a week on overtime. He said he averages between

1,000 and 1,200 miles a week behind the wheel and up to 100,000 miles a year.

Hotchkiss said the area is the most-policed in the state and has one of the highest accident records in the state.

Patterson, a Korean veteran and father of two children, said he needed his license for his livelihood.

"This man is not a malicious, intentional killer-driver," pleaded his attorney.

Members of the three-man board said they were taking away his license "in the interest of public safety."

They said a study of the accidents showed he could have been found at fault in 17 of the 26 cases and termed him "accident-prone."

Truck Output Tops Last Year

'Big Three' Reports First-Quarter Marks

DETROIT (AP)—First quarter passenger car and truck production in excess of the first quarter of last year was reported Wednesday by General Motors, Ford and Chrysler.

The January-March reports from the "Big Three" were in line with all recent gauges of the auto industry's healthy condition.

The first-quarter production included increases for March as compared to March of last year.

General Motors said it turned out 1,266,751 passenger cars the past quarter as compared with 1,149,459 for the first quarter in 1963.

Ford reported 545,456 cars as against 467,902 for the first quarter last year. Chrysler reported 394,357 as against 250,445.

Comparative total vehicular production, including both cars and trucks, were: General Motors 1,481,014 this year and 1,307,781 last year; Ford 660,447 and 574,042, and Chrysler 322,135 and 275,905.

Giant Task Remains Ahead of Alaskans

Anchorage Is Taking On an Air of Normalcy

ANCHORAGE, Alaska (AP)—day he would ask Congress for \$50 million in emergency relief funds.

Gov. William A. Egan, who plans to meet with President Johnson in Washington, probably Monday, says he will ask for \$500 million in federal aid. Robert G. Baker, president of Matanuska Valley Bank, says he thinks the request should be for \$1 billion.

Both men said the money should be grants, not loans, so the hardest individuals and businesses will not be burdened by additional debt.

Egan said the state would do its utmost, but probably could contribute no more than \$50 million for rehabilitation.

The massive tremor crippled business and industry in Anchorage, Alaska's largest city and virtually wiped them out in Seward, Valdez and Kodiak.

One of the biggest immediate problems is getting the youngsters back to school.

Of Anchorage's two high

schools, one was so badly damaged it cannot be used until major repairs are completed. One elementary school was destroyed. Double shifts are planned at the other high school and at another grade school.

"We hope to have some, maybe all, of the schools open early next week," says Dr. Don Dafoe, superintendent.

Earthquake Noted in North Sumatra

MOSCOW (AP) — An earthquake of medium force, apparently centered near the northern tip of Sumatra, was recorded at the Moscow seismic station early today.

The quake was recorded at 3:22 a.m.

A spokesman at the seismic station said the quake registered a force of 6.5 on the 10-point Richter scale. The Alaskan earthquake last week was measured at 8.2 and 8.7 points.

Pupils evacuated from Valdez, along with their teachers, now are attending schools at Gulkana, Copper Center and Glenallen. The schools in Kodiak and Seward are being used as emergency centers. In the Kodiak Island village of Old Harbor, the school is standing but the village it was supposed to serve is gone.

Transportation facilities are getting emergency repairs.

STATE RAILROAD

Henry Roloff, state commissioner of economic development and planning, said the government-owned Alaska Railroad,

the only one in the state, should be open north to Fairbanks and south to Whittier in three weeks.

Repairing it from Whittier south to Seward "will be a long haul" because of the number of bridges out, he said.

The highway to Seward is out and the town is being supplied by air. The Alaska Highway to Seattle and the Richardson Highway to Valdez are open, however.

Docks at Anchorage, Cordova and Homer are operable, but the one at Valdez was destroyed. Tides at the latter city have been running 14 feet lower

than normal, indicating that the land in that area raised 14 feet in a massive uplift.

Thief Goes to Court, Takes Judge's Wallet

SAN FRANCISCO (AP)—Municipal Court Judge Harry Brauer, who has faced many a thief across the bar of justice, just missed facing another one in his chambers.

While he was on the bench, the judge's wallet containing \$30 was taken from the pocket of his coat he had left in his chambers.

CORE Calls Off Boycott in D. C.

WASHINGTON (AP) — Plans to boycott Washington public schools April 20 have been called off by the Congress of Racial Equality after school officials agreed to most of 14 proposed changes in the school system.

Julius W. Hobson, chairman of the local CORE group, said School Supt. Carl F. Hansen had agreed to all but two of CORE's proposals.

The two involve free bus transportation for students who choose to transfer from overcrowded to under-capacity schools, and complete removal of police from all schools.

Ex-Wife of Auto Heir

Files Second Claim

DETROIT (AP) — Former showgirl Gregg Sherwood filed another claim — for \$225,813 — against the estate of her late husband, auto heir Horace E. Dodge, Wednesday. She said he owed her that sum. She already had brought suit for nearly \$2 million.

"CHARGE IT" AT KRESGE'S

Let's talk about the advantages of shopping

... at Osmun's

We've been taking a poll.

Nothing scientific, mind you. Just some questions we asked to find out why Osmun's customers keep coming back after the first sale. The answers, we think, speak for themselves.

1. "I don't feel like a 'Customer' here. Everybody is very helpful,—but they're not pushy."
2. "High quality of the clothing . . . so many famous brands that I know whenever I buy a suit it's going to fit right."
3. "It's very convenient having more than one charge plan to choose from."

4. "You feel very flattered when somebody offers to sew on a button or touch up the press on your trousers just to help out."

5. . . . I mean it helps to get advance notice of important sales before they're announced in the newspaper. Those extra few days give me the best selection."

These (and other) comments make us feel very happy because they reflect the kind of thinking that has made Osmun's your store.

Is our poll accurate?

It ought to be. It's been going on for over 30 years.

Rocky Charges Lodge Is Politicking From Viet 'Sanctuary'

SAN FRANCISCO (AP)—Ambassador Henry Cabot Lodge has become the chief target of Gov. Nelson A. Rockefeller in the battle for the Republican nomination for president.

Brushing aside Lodge's repeated statements that he is not a candidate and does not intend

to become one, Rockefeller argued that Lodge "is running and running hard from the privileged sanctuary of diplomatic immunity."

The New York governor maintained, in an interview Wednesday that Lodge, U.S. ambassador to South Viet Nam, was "a part of the Democratic administration and he is a candidate for the GOP nomination who is working from out there very hard."

The statements were Rockefeller's sharpest criticism to date of the ambassador.

By his remarks, Rockefeller not only challenged Lodge's denial of candidacy but also was in conflict with President Johnson, who has accepted the ambassador's statement that he is not a candidate.

Rockefeller said Wednesday that Lodge should resign as ambassador and return to the United States to participate in the contest for the GOP nomination.

Rockefeller said Wednesday that Lodge should resign as ambassador and return to the United States to participate in the contest for the GOP nomination.

Junior Editors Quiz on
ZIP CODE

QUESTION: Why the "zip" in "zip code"?

ANSWER: Postal service is very important to the citizens of our country for in our complex society we all need to communicate with each other.

The postal service has worked out many ways to speed letters for everyone's benefit, one such way being the use of numbers. If a letter is addressed to "New York 28," the clerk knows the general area of the city it is to go to. The zip code is the latest number improvement.

"Zip" stands for "Zoning Improvement Plan." There are always five digits to a zip number. The one on the left is for large areas; for example, 1 covers New York State and Pennsylvania.

The next two numbers mean a certain section of this area, and the last two to the right, mean a community within the section.

If your zip code was 12551, 55 would mean the Poughkeepsie-Newburgh section in New York State, and 51 would show you were in the City of Newburgh.

Seeing this number, postal clerks know exactly where to put the letter so that it may move the fastest.

It is expected that electronic machines will soon be able to read the zip numbers and sort the mail automatically.

FOR YOU TO DO: You can help the postal service if you will memorize your zip number and put it under your return address on the upper left of your letters—also, of course, adding the zip number to the person's address to whom you are writing, if you know it.

Line Up for Houses Not Even Built Yet

LONDON in—Seventy-five from London. The builders advertised that they would erect 150 houses this year and would sell them on a first-come-first-served basis. The prices range from 3,500 to 4,395 pounds (\$9,800 to \$12,000).

JEWELERS

BUDAPEST, Hungary (AP) — Soviet Premier Nikita S. Khrushchev today carried his message of the Communist "good life" to Hungarian farmers in the countryside near Budapest.

Khrushchev, here for a 10-day visit to seek additional sup-

port in the Moscow-Peking ideological struggle, hit back at Communist China's militant policies in a speech to factory workers yesterday.

In an obvious reference to the Chinese, who said this week that revolution is the only way of extending communism, Khrushchev said:

"There are some in the world who while calling themselves Communists and adherents to Marxist-Leninist principles, deny the necessity of striving for a better life. They call only for revolution, revolution."

"The revolutionary impulse is in itself not enough. We also need a good plate of goulash, good books, and good housing."

MIXED ADVICE

Khrushchev's trip today to a horse-breeding farm and a state farm was closed to Western correspondents. But diplomats here expected him to mix agricultural advice with further criticism of China.

Khrushchev's speech, which followed two days of closed-door talks with Hungarian Premier Janos Kadar, may have set the line he intends to follow in rebutting Peking.

Instead of replying with per-

sonal attacks and ridicule such as the Chinese have been using, Khrushchev may consider it wiser to convince Russians and Eastern Europeans that their standard of living will go up if they follow Moscow's policies.

One of the keystones of Khrushchev's peaceful coexistence policy is defeating the West through economic competition rather than war. He stressed this competition yesterday, admitting that for the present, the Communist world was behind.

BY WORKERS'

"The capitalists produce good products, but these products are not produced by the capitalists themselves but by the workers," he said.

"If they can do it, why shouldn't our workers, our engineers, be capable of the same quality production?"

As Khrushchev toured the

country, the Sino-Soviet dispute was being fought out on a smaller scale in the sessions of an international conference of Communist lawyers here.

Mrs. Han Yu-tung, head of the Chinese delegation, charged yesterday that the Soviet leadership was kowtowing to "imperialism." This is what Peking said in two propaganda blasts against Khrushchev as he journeyed to Budapest this week.

Soviet delegate Ley Smirnov said he had not heard such language even during the Nuremberg and Tokyo war crimes trials.

The Michigan Education Association Representative Assembly was to open today at Lansing's Civic Center. Five area teachers were to be delegates.

Some 500 educators throughout the state are expected to attend the three-day policy-making assembly.

Attending from Pontiac school district are Miss Kay Stickle and Mrs. Hilda Webb, both of Baldwin School, and Tom Everett of Washington Junior High School.

William Abersold and Jack McCaffrey were to represent Waterford Township Schools.

Home Market Is Big, Varied

Ex-City Dwellers Spur Waterford Rise

By JOE MULLEN
(Second in a series)

Former Pontiac residents have contributed more than any other group to the population growth of Waterford Township in the past 10 years.

This and the fact that Waterford has a widespread market valuation in its existing homes were points brought out in a study on housing as part of a comprehensive plan for the township.

The study, prepared by the Township Planning Department and planning consultants, also reveals that Waterford has an extremely high home ownership percentage and that most housing is relatively new.

In a survey of 261 families who moved to Waterford in the past 10 years, more than half

133 of those polled—migrated from Pontiac.

A total of 88 families came from elsewhere in the Detroit metropolitan area, and the remaining 40 questioned came from various other locations.

ALL COSTS BRACKETS

Results of a housing valuation survey, in which 520 home owners were polled, reveals that Waterford has housing at high, low and in-between cost levels.

The majority, or 34.6 per cent of those questioned, listed their property valuations, as between \$5,000 and \$14,900.

Between the range of \$14,900 and \$17,500 were 111 families, or 20.6 per cent of those polled. Some 24.7 per cent valued their property between \$17,500 and \$35,000.

Nearly 2 per cent of the respondents listed their property valuations as in excess of \$35,000 and just over 1 per cent felt their property was below the \$5,000 valuation.

HOMEOWNERS

The survey also points out that 94.6 per cent of township

residents own or are buying their homes as opposed to renting.

This figure far exceeds the 88 per cent rate of home ownership in the entire Detroit metropolitan area, which is considered one of the highest metropolitan area percentages in the nation.

Though seemingly desirable, the high rate of ownership points up the predominantly single-residence pattern of development. More multiple dwelling is considered necessary for better balance.

Figures compiled on ages of dwelling units in the township reflect the rapid recent growth of the community.

NEW HOMES

Of 404 households polled, 20 per cent were less than five years old and 55 per cent were from five to 10 years old.

The total of housing 10 to 15 years old amounted to 21 per cent and only 4 per cent were over 15 years old.

A survey on rentals paid by monthly range of from \$50 to non-home owners indicates a \$119 with the average about \$75.

GRAND FORKS, N.D. (U)—The superintendent of schools, Richard Barnhart, says he has declined to invite a regional meeting of the Music Educators National Conference to Grand Forks, although several groups, including the Chamber of Commerce, were hoping for it.

"I'm getting tired of all these things that keep people from teaching," said Barnhart last night.

"We have whole weeks where I'm not getting any service out of certain people of this district because of special events like basketball tournaments."

1st Gemini Test
Set for Tuesday

CAPE KENNEDY, Fla. (AP)

The long-awaited first test flight in the two-man Gemini program, an attempt to orbit an unmanned spacecraft, is scheduled Tuesday.

A National Aeronautics and Space Administration announcement Wednesday said major goals of the test will be to check the orbital ability of the Titan 2 rocket, spacecraft structural integrity and compatibility of the rocket-capsule combination.

If the flight and a second unmanned mission scheduled for next summer are successful, two astronauts are to ride a Gemini craft on a three-orbit ride in November or December. Technical difficulties with the Titan 2 and the spacecraft have delayed the program nearly a year.

Take care.

Vote on Officials, Issues

6 Area Elections Slated Monday

Voters in six area municipalities will go to the polls Monday to elect officials to run their local governments and in three also to decide local issues.

Balloting will be conducted from 7 a.m. to 6 p.m. in Keego Harbor, Lapeer, Troy, Wixom, Walled Lake and Wolverine Lake.

Following is a roundup of candidates and proposals in each community:

Keego Harbor

Two vacant seats on the City Council will be filled here Monday along with the positions of constable and justice of the peace.

Seeking reelection, Justice of the Peace James Southard

is the only candidate not opposed.

Seeking three-year terms on the council are incumbent Vernon B. Edwards, mayor; William H. Graves, 3020 Norcott; and George Stocker, 3032 Stapleton.

Joseph Weichsel is retiring from the council this year.

Running for the two-year constable term are incumbent Stanley Lobov and Clayton Hess, 2250 Maddy.

Wixom

Nine candidates are vying for the favor of electors who will choose five city officials Monday.

There are contests for each office, although two names were

cut from the ballot in the Feb. 18 primary.

Opponents for the top job are incumbent Mayor Wesley E. McAttee and Justice of the Peace William Welke.

Seeking the post to be vacated by Welke are Elwood Grubb of 23001 Beck and Harry Wimmer of 1752 Wixom.

Each of these candidates survived a primary race. At the polls Monday, a mayor will be elected for two years and justice of the peace for four.

FIVE RUNNING

There are five men running for the three vacant City Council seats. The three incumbents, Oscar Simmons Jr., G. Gary Mettala and Fred Beamish, are being challenged by Donald Nis-

sen of 3808 W. Maple and Gene Kohlhorst of 1412 Morning Dove.

Lapeer

Two three-year commission slots will be filled here Monday, as well as the one-year unexpired term created by the death last year of Commissioner Arthur Lynch.

John Roberts, appointed to fill Lynch's position, will be seeking reelection to the post. Roberts is unchallenged.

Incumbent commissioners Joseph Gwin and Leland Moore are both seeking reelection to three-year terms. Vying with them on the ballot will be local pharmacist Lloyd G. Moore of 1291 Barry.

The terms of Mayor Wellington Rowden and Commissioners George Farrand and John Haner do not expire this year.

Monday's nonpartisan balloting will be carried out on a city-wide basis, as all commissioners are commissioners-at-large.

Troy

Troy's 8,298 registered voters will elect two commissioners Monday, determine what they will be paid and decide the outcome of a proposed civil service program for police and firemen.

Candidates seeking office are incumbent Commissioner James F. Carey, former Police Chief David E. Gratzop, Ronald Runsvale and Clancy A. Fonth.

Two three-year positions on the commission are up for grabs. Carey's expired term and the slot being vacated by Commissioner Robert Barger. Barger is not seeking reelection.

In the Feb. 17 primary election, Gratzop led the field of six contenders, tallying 333 more votes than second place candidate Fonth, who garnered 724 votes. Carey tallied 602 votes and 509 votes were cast for Runsvale.

The former chief was fired last August, after City Manager David E. Firestone charged Gratzop lacked the ability to handle the 17-man department and failed especially in the administrative portion of the job.

Besides Gratzop's candidacy for commission, another outgrowth of his ouster is the Civil Service act to be proposed on the ballot.

More than 10 per cent of the registered voters here signed petitions to put the question of Act 78, a special civil service law, on the ballot.

Since it was put up for voter decision, the city commission has adopted a civil service program which covers all city employees. The commission is urging defeat of Act 78.

Also on the ballot will be a question asking if the pay of City Commissioners should be raised from \$10 to \$20 per member per meeting. A part of this proposal hikes the maximum annual earnings from \$600 to \$1,200.

Walled Lake

A contest for the city's first directly elected mayor, competition for three council seats and a charter amendment face voters here.

Two city councilmen are competing for the mayoralty. They are Mayor Pro Tem Wendell G. Kellogg and Marshall E. Taylor, Walled Lake's representative on the County Board of Supervisors.

Bidding for the council positions are incumbent Donald M. Post; former Mayor Louis E. James, 1765 Ashland; former Fire Chief Frank E. Hamblin, 1338 Nolte; and John E. Nall, 1348 Decker.

Hamilton and Nall filed petitions in protest to the council's handling of fire department reorganization following Hamilton's resignation as chief.

The three council seats are available for two-year terms, as is the mayoralty. Council terms expiring are those of Kellogg, Taylor, Post and William C. Staman, who is not seeking reelection.

AMENDED CHARTER

After watching lengthy strug-

gles to fill the mayor's post from within the council, Walled Lake voters last spring amended their charter to provide for direct election of the top officer.

This year a charter amendment which would establish a municipal court here is up for consideration.

The four-year justice of the peace term also is to be filed at the polls Monday. The single candidate is incumbent Gene Schmelz.

Wolverine Lake

Voters here will elect five village councilmen from a slate of 10 while deciding whether they want to change the election process.

One of two propositions on the ballot would provide that village elections be held every other year rather than annually. It would be put to use for the first time next year and continue for odd-numbered years.

Other charter changes proposed in the same amendment would facilitate the time change. Four of the seven village councilmen would be elected every two years on an at-large basis.

If the amendment is approved, the three top vote-getters in the council race will receive three-year terms and the next two one-year terms.

All of the incumbents are seeking to retain their posts. They are Oscar Fritz, Walter L. Davies, Russell J. Garland, Mrs. Clara M. Miller and Joseph W. Kalona.

SEEKING OFFICE

Also making bids for the council are Clyde W. Johanson of 2104 Glenview, Gordon R. Breeding of 890 Wolverine, Arthur C. Richards of 2113 Shankin, Mrs. Mary A. Franklin of 650 Wolverine and David R. Kay of 2570 Roselawn.

The second proposition to be considered asks for annexation of 20 acres of Commerce Township property which would square off Penny Lake Estates subdivision.

The bill under consideration in the Senate, would limit cities to imposing a one per cent income tax, and limit taxation on

Pontiac Press Photo

WED 64 YEARS — Mr. and Mrs. Charles B. McNulty will observe their 60th wedding anniversary at an open house Sunday at their home, 3328 Bald Mountain, Pontiac Township. Hosting the 3-4 p.m. affair will be their son-in-law and daughter, Mr. and Mrs. Sol D. Lomerson. The McNultys also have two grandchildren and one great-granddaughter.

Vigilance Tax Unit Head Asks to Testify at Hearing

DETROIT (UPI) — Vigilance Tax Committee head George Kuhn last night asked Senate Tax Committee Chairman Clyde Geertings, R-Holland, for an opportunity to testify before the committee on a Senate bill to limit city income taxes.

Kuhn, who is mayor of suburban Berkley, said that Detroit Mayor Jerome Cavanagh had asked an opportunity to oppose the bill, and that "it is only fair that all parties involved should be heard at such a hearing."

Kuhn said he understood a hearing would be held next Tuesday.

Kuhn said he represented 228 mayors in the state who have expressed opposition to the taxing of non-residents, along with a quarter of a million citizens who have signed petitions demanding an end to non-resident taxation.

The bill under consideration in the Senate, would limit cities to imposing a one per cent income tax, and limit taxation on

non-residents who work in the city to one-half of one per cent.

He estimated that Detroit collects approximately \$10,000,000 a year from persons who work in Detroit but live in suburbs.

"I could name you half a dozen other cities which have passed local income taxes or have them on the table, but also would oppose any limitation," said Kuhn. He listed Grand Rapids, Flint, Saginaw and Hamtramck among them.

On the panel are Schools Supt. Frank Bartlett, High School Principal Gerald Hartman, Junior High Principal Donald Burns, Athletic Director Fred Girhard, Science Coordinator Mrs. Lawrence Conroy and Architect Henry Haberkorn.

Fund Requests to Be Detailed

Board to Explain for South Lyon Voters

SOUTH LYON — The trio of fund requests facing voters in the South Lyon Community School District will undergo further scrutiny at an informational program Tuesday night.

The board of education has set the meeting to deal with all details of the three propositions on the special school ballot April 11.

Divided during more than a year of controversy on building proposals, the board is seeking help from school administrators in explaining a millage proposition.

The three questions being considered by voters include a request for an \$5-million operational levy increase.

Making its third appearance in a year is a high school proposition seeking construction of a \$1.6-million building to house 800 students.

Supporters believe it is basically different from the one turned down by a 783-641 vote in January. That called for a \$1.3-million, 650-student building.

Also on the ballot will be a request for a \$600,000 bond issue to finance additions to existing buildings. This was placed before the electorate by 286 petitioners in February.

The 8 p.m. meeting Tuesday will be held in the South Lyon High School gymnasium. Chairman will be school board member Harry Colestock, elected to the job after President Wilford Heidt declined to preside.

ON PANEL

On the panel are Schools Supt. Frank Bartlett, High School Principal Gerald Hartman, Junior High Principal Donald Burns, Athletic Director Fred Girhard, Science Coordinator Mrs. Lawrence Conroy and Architect Henry Haberkorn.

State Road Toll at 478

EAST LANSING (AP)—Traffic accidents have killed 478 persons in Michigan so far this year, provisional figures compiled by state police showed today. The highway death toll at this date last year was 330.

STEEL GOES UP — The first structural steel for the largest automotive plant ever built by Chrysler Corp. is being erected at the company's Sterling Stamping Plant, at Van Dyke and 15 Mile, Sterling Township. When completed in mid-1965, the plant will produce car hoods, roofs, fenders and other metal

stamping for the company's car lines. Viewing the progress are (from left) Walter B. Connolly, general plants manager, Stamping Group; James Savage, Sterling Stamping Plant manager; and Robert G. Hunt, president of Huber, Hunt & Nichols, Inc., Indianapolis, general contractors.

2 Bills Filed to Alter Vote Laws

LANSING (AP)—Two bills to revamp Michigan's election laws were filed for introduction Wednesday in the House as part of legislative plans for meeting the apportionment crisis.

One of the bills calls for a massive shift in election dates—a total of some 23 changes in election laws—and shifting of the primary from Aug. 4 to Sept. 8.

ABOLISH PARTY TICKET

The other would abolish the party ticket ballot and replace it with the so-called "Massachusetts ballot" which lists candidates by office.

Both were sponsored by Rep. Russell Strange, R-Clare, chairman of the House Elections Committee. They were drafted by Secretary of State James Hare's office.

Hare said he would recommend the changes in the election dates as necessary adjustments to delays brought on by confusion over legislative and congressional apportionment.

A number of dates would be pushed back, including the deadline for filing of nominating petitions, from June 15 to July 28.

DATE NOT FIRM

Hare emphasized that the Sept. 8 primary date is not firm, but appears to be the most logical place on the schedule for it.

"It is impossible to move it to a later date since it would not allow sufficient time for recounts if they occur," ahead of the Nov. 3 general election, Hare said.

HARE STATEMENT

Strange said he considered the bill vital in the event of an at-large election of legislators or congressmen this year. It carries no provision that it would apply only in case of an at-large election, however.

The bill would institute a ballot modeled after one used in Ohio which would require a voter to cast a vote for each candidate.

To vote a straight party ticket the voter would have to cast his vote for every candidate offered by that party, instead of merely pulling a party lever as at present.

Strange called it a "Republican one man, one vote" plan.

Hare, in a statement today, said he thinks there is "no doubt that a Massachusetts ballot favors Republicans more than Democrats, because more straight party tickets seem to be voted by persons of Democratic persuasion."

He said it also would favor incumbents, "name" candidates and "political mavericks" by lessening party ties and discipline at the voting booth.

Farm Bureau Official Feted at Luncheon

Mrs. William Scramlin, recently elected chairman of the Michigan Farm Bureau Women, was honored at a surprise luncheon attended by some 150 guests yesterday in Waterford Township.

Members of the Oakland County Farm Bureau, Mt. Bethel Church, Holly, and county extension agents were among those present.

Dies in Oak Park

OAK PARK — Dr. E. Elshah W. Caster, a founder of Highland Park General Hospital, is dead at 84.

Bureau's State Board of Directors

She is former state vice president of Michigan Farm Bureau Women and has been active in the organization for more than 12 years.

Community Presbyterian Church, Waterford Township, was the setting for the luncheon.

Highlighting the affair was presentation of a watch to Mrs. Scramlin by the Oakland County Farm Bureau board and a reading of a tribute by Mrs. Milton Miller, the first county farm bureau chairman.

Musical entertainment was provided by the Ortonville 4-H Club. Main speaker was Mrs. Marjorie Karker of Lansing, coordinator of women's activities for Michigan Farm Bureau.

Introducing
Contemporary American Classics
by FOUNDERS ...

This is a look completely new, completely comfortable, relaxed by design. Its straight lines have a substantial, yet airy, feeling, so well suited for today's American home. A rare blend of sophistication and earthiness, even the materials used — walnut, travertine, solid, metal ones, satin wood, ebony — suggest this successful combination of sturdy ruggedness and quiet restraint. The exquisite walnut veneers were selected to bring out and emphasize the most interesting grain patterns; oiled to bring out the mellow warmth of the wood.

It is truly an achievement in order and balance, as is any true work of art. Subtle quality details invite your inspection.

Designed by Jack Cartwright.

Try This Henpecked Test: Find Out Who Rules Roost

By HAL BOYLE

NEW YORK (AP) — "Am I henpecked? How can a man tell if he is henpecked?"

A young fellow new to the double harness routine asked me these questions recently.

They rather took me aback—they seemed so old-fashioned.

It was almost as if someone had suddenly inquired seriously, "Do you favor a protective tariff on high-button shoes?"

American wives, by and large tend to feel rather complacently that they allow their husbands a pretty long leash.

European men and women, on the other hand, are convinced that all American husbands are abject slaves of their wives.

The truth probably lies pretty well in between, although no one can question the rise of feminine authority in this country.

This is shown by the widespread decline in wife-beating, now a vanished art.

In most households today a man would even rather try to whip his teen-age kids than risk a fight to his queen bee's chin.

THERE ARE WAYS

But there are positive ways to tell how henpecked a husband is. Here's a guide. He is more of a mouse than a man if—

He never cashes his own paycheck.

LUNCH MONEY

Four or more days out of the week he has to ask her for lunch money before leaving for work.

When he is explaining at a cocktail party the difference between nuclear fusion and fusion she interrupts and says, "That's not it at all—you've got it backward."

She keeps the car keys in her purse, but allows him to have a photo of her in his wallet.

The clerk at the supermarket hands him the sack of groceries to carry—but looks to her to pay the bill.

When Mama tells the kids they can't do something, they never think to ask Papa to overrule her verdict.

It is supposed to be his bath-

room, but there are always her nylon stockings hung up to dry.

The friends he used to have never call anymore; her old friends are now the family chums.

His mother-in-law visits at the house regularly; her mother-in-law is lucky to get a nickel card from them at Christmas.

SETS HIS WATCH

If his watch says it is 8 o'clock, and it is 8:06 by her watch, he sets his watch up five minutes.

When they are going out, she no longer has to ask him to zip up the back of her dress. He's there, ready and waiting.

Everybody says what a happy well-adjusted couple they are because they never seem to raise a voice to each other, let alone quarrel.

Actually what we have here, however, is a henpecked husband turned into one of life's losers by being married to a woman with winning ways.

DOUBLE TROUBLE — Mothers of this group in Wichita, Kan., found their troubles came in double doses, so they formed the

Wichita Mothers of Twins Club to share the problem.

It Takes More Than Love

To Fit A Pair of Feet

"Children's feet come in all shapes and sizes," noted John C. Batte, manager of the HACK SHOE STORE at 235 Pierce St., Birmingham. "but we have the sizes to fit all of them. Imagine our widths for first walkers: A, B, C, D, E, EE, EEE and EEEE! And, if needed, we can make them up in EEEEE."

"This makes it easy to fit each child correctly so that growing feet can develop properly," he concluded.

Mr. Batte, like all the other members of the Hack Shoe Company staff, is an experienced shoe fitter, dedicated to quality, fit and service — in the 48-year-old HACK tradition.

Despite Common Hatred of Israel

Arab Unity Goal Virtually Unattainable

By PHIL NEWSOM
UPI Foreign News Analyst
BEIRUT, Lebanon — Here in this bustling port of the Middle East the first impression is of the intense effort going into attempts to reach Arab unity.

The next is all the reasons, both internal and external, which make it unlikely if not impossible.

Indeed if it were not for a common hatred of Israel, it seems more probable that many of these nations quickly would be at each others' throats.

Jordan's King Hussein, in the unaccustomed role of friend to Egypt's President Nasser, flits from capital to capital for conferences with the Kuwaitis, the Saudi Arabians and the Iranians.

Arab foreign ministers meet to put the final touches on the message they jointly will carry to world capitals presenting their case against Israel and its determination to divert Jordan River waters into the Negev to provide new arable land for its burgeoning population.

Arab League delegates meet in Cairo, more or less in a spirit of amity, seeking a solution to the Yemen dispute.

OUTWARD RESULTS
These are the outward results of last January's Arab summit meeting in Cairo.

But already old quarrels are coming back to the surface and some new problems have been added.

For example, the Baathist Socialist regime of Syria continues its quarrel with the Nasser Socialist regime of Egypt and now has a new quarrel on its hands with Iraq when a Baathist regime was overthrown by followers of President Abdul Salam Aref.

Syria has complained to other Arab countries that Aref's attacks upon Syria violate the spirit of the Cairo summit.

ACCUSED REGIME
Aref accused the Syrian regime of being imperialistic agents supported by Israel.

Nasser's Middle East news agency carried the Aref statements.

Syria has been arresting Nasser sympathizers.

In addition to her other troubles, Syria also is suffering from a deteriorating economy.

YEMEN QUARREL

It is acknowledged that both Saudi Arabia and Egypt would like to rid themselves of the quarrel over Yemen.

But Saudi Prime Minister Prince Faisal charges that while Saudi Arabia has lived up to its part of an agreement to withdraw aid to the opposing factions, Nasser still re-

tains his 20,000 to 30,000 troops there.

Nasser has suffered heavy casualties in Yemen and has reason to want out.

But on the other hand, there is a fear that if Egyptian troops left, then desert tribesmen supporting the deposed Imam would move into the cities for mass slaughter of followers of the new regime.

TRIUMPHS IN QUARREL

Faisal meanwhile triumphed in his quarrel with his brother, King Saud, and Saud's sons, who oppose his campaign to modernize Saudi Arabia which, among other things, would put women on television.

Lebanon backs the other Arab states against Israel but actually is not anxious for a quarrel with anyone.

Lebanon is a funnel for goods flowing in and out of the Middle East and prospers on peace.

Oil money flowing in from Saudi Arabia and Kuwait helped to put up handsome new apartment buildings and a growing volume of tourists helps to support equally handsome new hotels.

The country faces new elections which will be concluded in May, and the regime is nervously aware that it was in 1953, under similar conditions, that it

was only help from United States forces that averted civil war.

Detroit Mayor Gets Support in Tax Fight

DETROIT (AP) — Mayor Millard Vandervoort of Battle Creek pledged support Wednesday to Detroit Mayor Jerome P. Cavanagh's fight against state legislation limiting a city's power to levy an income tax.

Mayor Vandervoort wired Cavanagh that Battle Creek would be "glad to join with you in action you may be planning."

Vandervoort assailed the proposed legislation as a "complete disregard of local government taxing power granted under the new state constitution."

He also termed it "arbitrary and inexcusable" and said it "denotes the irresponsibility of those who have fostered the bills in the legislature."

Legislation passed by the House would place a one per cent ceiling on city income taxes and limit the tax on non-residents to one-half of 1 per cent. All city income taxes also would have to be approved by referendum of the voters.

Improve Your Reading—IV

Prereading Technique Is a Time-Saver

(Editor's Note—This is the fourth article in a 20-part series on improving your reading skills. Time your reading of this column and compare your speed with that indicated at the end. The expected improvement is daily 5 per cent improvement.)

By THE READING LABORATORY, INC.
Written for Newspaper Enterprise Association

Prereading will be the best time-saver in reading you'll ever learn. And it is impossible to compute how much more understanding you'll get from your reading using this technique.

You've done a little prereading in the columns on concentration, but now we'll go into it fully.

When and when not to preread is the first thing to learn. When you read for style appreciation (Dickens, Frost, Shakespeare), forget prereading.

When you read for information or opinions, preread. Here's how it's done.

Take your book in the sub-

ject you least like. Let's make it European history this time. Turn to the title page. The title and subtitle should tell you the subject of the book.

BOOK TITLE

Most books will have something like this: NINETEENTH-CENTURY EUROPE. That's some help; not much. The subtitle tells you more: CHIEF MILITARY ALLIANCES.

Now look under the author's name for his credentials. This may tell you whether he is a real specialist and perhaps whether he has an axe to grind.

Now read the table of contents. You'll learn the steps to be taken where you'll be going and the relation of one step to another.

You'll learn where emphasis will be placed, and you'll want to know why. One of the steps may tie in with some personal like of dislike or something you've always been curious about.

INTEREST GAINED

This will involve your interest. Know the table of contents

and you know the outline of the book.

Now turn to the preface. You may never have read one before. It's what the author writes last. The preface tells you where the author is taking you in his book and will clear up many questions unanswered by the table of contents.

Generally the opening two paragraphs and the closing two will fill the bill.

So far, you know where you're going, the steps to get there, who's taking you. If this little

prereading has raised as many questions as answers, splendid! Now you'll look for answers.

FIRST CHAPTER

Turn to the first chapter. Read the title and whatever else precedes the main body of type. Now read the first two paragraphs.

The opening paragraphs give you an idea where you are going; the divisions are the steps along the way and the concluding paragraphs sum up the trip. Now do the same with each chapter.

If the text has an index, take a quick look through it. A name

may strike a familiar chord. Look it up and see where it fits into the pattern.

If it's a pet personality, see how the author treats him. You'll get further involved with the author's plans.

GET IN HART

Get into the habit of prereading what we call practical prose as opposed to fiction, poetry, drama.

It gives you a very acute sense of direction for your thorough reading.

(You should have completed this reading in 75 seconds.)

(Note: No questions asked, no answers.)

Head of Episcopal Church Will Quit Due to Disease

NEW YORK (UPI)—The Rt. Rev. Arthur Lichtenberger announced today that he will resign in October as presiding bishop of the Protestant Episcopal church because of medical difficulties resulting from Parkinson's Disease. His normal term would have ended in 1970.

The ailing 64-year-old spiritual leader of 3.5 million Episcopalians made known his decision in a letter addressed to all Episcopal bishops.

He said he had been "working constantly and steadily to overcome this disability" but had made "little progress" in speech therapy.

"This decision, as you surely know, does not fill me with joy!" Bishop Lichtenberger wrote: "I do wish I could continue, but since I should not and cannot, I believe I am ready by God's grace to accept this necessity not in sorrow but in gladness of heart as His Will."

It was announced last March that the Bishop was suffering from the preliminary stages of Parkinson's Syndrome, a progressive disease for which there is no known cure. His condition was complicated last fall by surgery for hernia and later a bout with phlebitis.

A SHOCK

Clifford P. Morehouse, president of the Episcopal Church's House of Deputies, said Bishop Lichtenberger's announcement came as a "shock."

He noted that the Bishop was one of the nation's great spiritual leaders, the first head of an American church to meet with Roman Catholic Pope and one of the first to support the civil rights movement.

Bishop Lichtenberger, son of an Oshkosh, Wis., grocer, began his career as a missionary and professor of Divinity in China. He later served in Cincinnati, Brookline, Mass., and Newark, N.J., taught at the General Theological Seminary, New York, and was elected bishop coadjutor of the Diocese of Missouri in 1960.

He was named to his denomination's highest office in 1963 and had expected to continue as presiding Bishop until 1970 when he reached the retirement age of 70.

He is a member of the Board of the National Council of Churches, vice president of its department on international affairs, and until recently chairman of its commission on religion and race.

A successor will be chosen by the Episcopal House of Bishops.

Dies of Crash Injuries

TRENTON (AP)—Thomas F. Behn, 22, of Wyandotte, died Wednesday of injuries suffered March 21 when the car in which he was riding collided with a truck in Detroit. The driver of the car, Thomas Williams, 24, of Wyandotte, died March 23.

Quebec Separationists See Efforts Turning to Violence

By FRED COLEMAN
MONTREAL (AP)—You hear all sorts of threats when you talk with some of the terrorists who would like to see Quebec become a separate nation.

"If Canada does not want people to die by the thousands, it will get rid of Quebec," says one.

Another predicts "there will

be violence, you can count on that," if Queen Elizabeth II visits Quebec this fall as planned.

Call them Georges and Robert. They represent only a handful of French-Canadians in Quebec who view Canada's English-speaking majority as a colonial power and believe their French-

speaking province must fight for independence.

Most French-Canadians, working for stronger provincial self-rule within Canada, denounce violent tactics.

MINORITY FAVOR

Only 13 per cent of Quebec's population favor independence, a recent survey showed. Few of those want violence. But in the

vast sea of misunderstanding between French and English Canadians, the small group of separationists poses a constant threat of pushing Quebec farther than it wants to go.

Neither Georges nor Robert will start violence by himself. They were suspected last year after a 12-week wave of bombings in an English-speaking suburb of Montreal killed one man and maimed another.

LIBERATION FRONT

Both were members of the FLQ or Quebec Liberation Front, the band behind the bombings.

They now are marked men. They claim police follow them and tap their telephones. They charge the police best FLQ members arrested last year.

SPECIAL REPORT

The FLQ is now dead. Its apparent successor, the Quebec Liberation Army or ALQ, is very much alive. The army raised Quebec armories in February and escaped with enough weapons to outfit a small army.

Georges and Robert deny they are army members. They say they do not know its size but believe it is organized on a cell basis.

MIDDLE-CLASS YOUTHS

Liberation army members are believed to be mostly middle-

class youths. Police are mainly concerned with getting to the leaders.

Georges and Robert say they have appealed for financial help in the United States and from student movements in Mexico and elsewhere—but not in Communist countries. "We are not Communists and we do not believe in the Communists to come in and take over our revolution," Georges said.

The majority of separatists

seeking an independent Quebec are nonviolent students influenced by Socialist thinking in France.

More than half of Quebec's population is between the ages of 17 and 35. A new law granting the vote to 18-year-olds will allow 500,000 new voters, or 10 per cent of the population, to cast ballots in provincial elections in 1966. This factor could swing an election. It may force provincial political leaders to move closer to separatism.

But Georges and Robert are not willing to wait.

"In two years I may be married and have a good job," said Robert. "I won't want to fight then. If I am ever going to fight, I have to do it now."

FAT OVERWEIGHT

Available to you without a doctor's prescription, the CORINEX plan, you must have your fat or your money back. One of the basic problems of being overweight is your inability to stick to a planned diet. The CORINEX plan contains a tiny tablet and is easily swallowed. When you take CORINEX, you simply don't have the urge for extra portions because CORINEX depresses your appetite and increases your desire for food. Thus making it easier and more comfortable for you to diet. Your weight must come down because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. Of course CORINEX can't do all the work for you alone. But if you really want to cut down on your eating, and lose weight CORINEX can be a powerful helper. The CORINEX plan costs \$3.00 and is sold on this guarantee: If not satisfied for any reason, just return the package to your druggist and get your full money back. No questions asked. The CORINEX plan is sold with this guarantee:

In the Wine-Tasting Corps

Bottle Fatigue From Service

By DICK WEST

WASHINGTON (UPI)—I spent the best years of my life in the Army. At least the best years between 1942 and 1946. But nothing in my service career quite prepared me for this.

The "this" I am referring to is a recent issue of the Army-Navy-Air Force Journal & Register. If I can believe my eyes, it contains an item about an organization

called the Order of Military Wine Tasters.

Gad, Sir! I had heard reports that the armed forces were becoming increasingly specialized. But I never dreamed they had gone that far.

According to the Journal & Register, "The Order of Military Wine Tasters, founded in '59, has 11 chapters throughout the United States."

It has a membership of active duty, reserve and retired members of all the armed forces and the objective of bringing together service personnel with

a mutual interest in wine and food."

BUDS DETERIORATE

I must say that this is a commendable program. Taste buds, as you know, are inclined to deteriorate in peacetime. The OMWT apparently provides the training necessary for our servicemen to keep their palates in fighting trim.

In event of an emergency, there will be a corps of trained connoisseurs ready to go into action at a moment's notice.

During the last emergency, a lot of valuable time was wasted teaching rookies which wine to serve with creamed chicken or beef on toast.

The Journal & Register did not go into details, but I assume that members of the Order of Military Wine Tasters who are wounded in action are decorated with the purple grape.

WITH CLUSTER

Those who are wounded twice undoubtedly become eligible to wear the purple grape with vine leaf cluster.

I have not had any sort of military connections since World War II, but I am tempted to dig out my old uniform and join the OMWT.

At the time of my discharge, I carried the rank of technician fifth grade. That should enable me to enroll in the OMWT as a wine taster second class.

In the beginning, I suppose, I would be assigned to a bottle opening brigade for basic training.

BAD LUCK

It would be just my luck, however, to get involved in some big SNAFU, like maybe pouring red wine with the fish course. Which would get me drummed out of the order with loss of pay, allowances and canteen.

Nevertheless, if duty calls I stand ready to serve. At room temperature. And I regret I have but one liver to give to my country.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Two Men Show the Way

Courage and Tenacity Can Overcome Handicap of Blindness

(Editor's Note—For those with courage and tenacity, blindness is not an overwhelming handicap. The following special report tells of two cases—in Phoenix, Ariz., and Gettysburg, Pa.)

By BOB WOOD
PHOENIX, Ariz. (AP) — John Vanlandingham is one of the 80 members of the Arizona House of Representatives.

Like most, he's a Democrat; like some, he's an attorney, like none other, he's blind.

"Being blind may limit your sight," Vanlandingham says, "but it certainly shouldn't bother your vision."

LOOKS TO ELECTION

Vanlandingham's vision is to become the attorney general of Arizona in the forthcoming elections.

Thirty-seven years ago on a

ranch in Kingman County, Kan., when he was 5—John Vanlandingham was stricken with scarlet fever. The disease brought glaucoma, an ailment that slowly blinded him.

Through the lower grades and into high school, Vanlandingham attended a class for the blind in Kansas City.

"Then I decided it was time to try a public high school. I had to live the rest of my life with the sighted," he explained.

BROTHER HELPED

"My younger brother had the job of reading to me from the textbooks," Vanlandingham recalls. "He hated the task and would read as fast as he could, rushing over page after page."

"It was the finest training possible for both of us. He became an excellent reader and I an excellent listener."

Two years later Vanlandingham entered Washburn University at Topeka, Kan., where he received a law degree.

After graduation in 1944, Vanlandingham served a term as Kingman county attorney and then was forced by illness to seek the warmth of Arizona.

PASSED EXAMINATION

With the help of a reader, he passed the Arizona bar examination and entered private law practice.

Elected to the Arizona House in 1962, Vanlandingham became an expert in picking legal flaws in legislation. He would have each bill read once, then once again. By the session's end, he had stored in his mind the basic wording of some 600 bills.

"I hope no one will be too shy in the coming campaign concerning my blindness," Van-

landingham said. "I will not mention this fact, nor will I try to hide it."

"I hope they ask me, 'How the hell can a blind man do the job of attorney general.' By golly, I'll tell them how."

He is married and the father of four children.

By MICHAELA S. PYLE

Gettysburg Times
GETTYSBURG, Pa. (AP)—Educators here are observing a blind student teacher in an experiment that could open new horizons for sightless men and women.

While local administrators view the project with some apprehension, 69 students of Spanish at Gettysburg High School are enthusiastic about William J. Shoemaker Jr., whose other senses are so acute that no student dares to be obstreperous or inattentive.

Blind from birth, the 21-year-old language major at Gettysburg College will complete a 14-

week student teaching program at the local high school in mid-May. He will receive his B.A. degree in June and will begin graduate studies at the University of Pennsylvania in September.

ONE OF TWO

Shoemaker is one of two blind children of Mr. and Mrs. William J. Shoemaker Sr., Valley Stream, N.Y., elementary teacher in the New York City school system. Bill and his sister, Ruth, a sophomore at Gettysburg College, both were born

blind, victims of optic nerve atrophy. Each is determined to teach in public schools.

When Shoemaker came to Gettysburg College four years ago, Dr. Russell Rosenberger, head of the department of education, questioned the advisability of his going into education.

"But I soon realized that his determination to become a teacher was much stronger than any of the obstacles I thought he faced," Rosenberger said.

Shoemaker recognizes the ob-

stacles, but he believes he can meet them successfully.

His teacher-adviser, Jose M. Perez, says he is amazed at the resource Shoemaker receives from the students.

"Perhaps they feel a sense of humility, for they must admire his courage; however, he has a forceful manner. His pronunciation is excellent, and I'm sure the students realize that he's determined that they will learn Spanish."

Shoemaker acquired his college education by carrying a

portable tape recorder to class and, through a special mouthpiece, dictating notes to the machine without disturbing other students. When he returned to his dormitory room he transcribed the recording to Braille notes.

SPEAKS FREELY
Shoemaker speaks freely of his blindness.

"I learned to accept it many years ago and was determined that the loss of sight would not keep me from doing everything in life there is to do," he said.

LEGISLATOR 'BORROWS' EYES Mrs. Betty Ross reads the text of a new bill to Arizona State Rep. John Vanlandingham, blind since he was 5 years old. Vanlandingham

Sees Cloture as Only Way to Break Filibuster

LBJ Shuts Door on Rights Bill Compromise

By JACK BELL

WASHINGTON (AP) — President Johnson apparently is giving his legislative lieutenants little room to maneuver toward any compromise that might insure Senate passage of the civil rights bill.

The President was described by close associates today as being hard-core firm against any changes in the House-passed measure. They said he has maintained this attitude in private strategy conferences as well as in his public statements.

Johnson, an expert on how to get things done in the Senate, is

said to have told the bill's managers they should plan for eventual around-the-clock sessions in an attempt to break a Southern filibuster.

The President reportedly has little hope that Dixie opponents will ever permit passage of the legislation without the invoking of the cloture rule. This means that two-thirds of those voting would have to approve applying a debate limitation.

HUMPHREY'S DILEMMA

Therein lies the dilemma of Sen. Hubert H. Humphrey, D-Minn., floor manager for the bill, and the Democrats and Re-

publicans who are backing his efforts to bring it to a vote. There is no practical way —

FBI Man Sues in NY Beating

NEW YORK (AP) — An FBI agent is suing for \$750,000 damages for injuries suffered in a beating by members of a Brooklyn family that authorities say has connections with Cosa Nostra.

The agent, John P. Foley, 42, filed the suit yesterday in federal court. He was in a hospital for six weeks with a fractured skull and other injuries. His suit says some of the injuries were permanent.

Foley was beaten, kicked and clubbed April 3, 1963, outside Immaculate Heart of Mary Roman Catholic Church in Brooklyn while photographing of persons attending funeral service for Carmelo Lombardo.

The suit named as defendants the four Lombardos and two relatives arrested in connection with the attack. Five of the men were sentenced to 20-month jail terms for assault. One Lombardo was acquitted.

State Treasury Tally

LANSING (AP) — Income into the state treasury totaled \$51.3 million last week, Treasurer Brown reports. The state paid out \$19.6 million in the same period, he said, leaving a total balance of \$213.96 million in all state funds.

and Humphrey is the first to admit it — of getting the necessary two-thirds vote unless Senate Republican Leader Everett M. Dirksen of Illinois is willing to go along.

Dirksen wants some changes in vital sections of the bill. He has said he will propose about a dozen amendments to the provision dealing with fair employment practices but has no wish to "emasculate" it.

He also is expected to offer a substitute to a section banning racial discrimination in hotels, motels, restaurants, theaters, gas stations and sports stadiums. He has not spelled out his proposal yet.

GOP SUPPORT

Dirksen said he has substantial Republican support for efforts to change the fair employment section. He has not tested GOP reaction to the public accommodations section.

But the Republican leader has predicted flatly that before any bill is passed it will be amended. He has left the impression that he and Republicans who follow him on the matter will

U.S. Envoy to Japan

Continues to Improve

TOKYO (AP) — Edwin O. Reischauer, U.S. Ambassador to Japan, sat up in bed today for the first time since he was stabbed by a mentally retarded Japanese youth March 24.

A bulletin issued by the Tokyo hospital where Reischauer is being treated said "the ambassador's condition continues to improve."

Says GOP Won't Weaken Measure

WASHINGTON (AP) — A sharp denial that Republican senators will back "weakening amendments" to the controversial civil rights bill came today from Sen. Jacob K. Javits.

The New York Republican, a leader in the bipartisan group now trying to push the House-passed measure through the Senate, flatly denied reports "that Republicans in the Senate will take this administration 'off the hook' by insisting on certain amendments as the price for enactment of the bill."

With debate now in its 20th day and showdown decisions apparently far in the future, Javits and Sen. Wayne Morse, D-Ore., teamed up to explain and support the "public facilities" section of the complex measure.

This part of the bill aims at making it easier to end racial discrimination in parks, golf courses, swimming pools, art museums and other government owned or operated facilities.

COURT TESTS

Supreme Court decisions and existing federal laws now ban such discrimination but court tests or similar action to bring compliance now must be started and usually financed by individuals or groups.

Senators got advance notice

Senate OKs Fund for Halfway Houses

LANSING (AP) — The Senate Wednesday passed and sent to the House an appropriation requested by Gov. George W. Romney to establish two halfway houses in Detroit before June 30.

The allowance for \$13,500 is included in a general supplemental appropriations bill which passed unanimously.

Called "group care facilities" in the legislation, the two units are proposed as a stage between detention and freedom for youthful lawbreakers.

By County Committee

Mental Health Funds OK'd

A tentative \$262,000 appropriation to conduct a community mental health program in Oakland County next year was recommended yesterday by the county supervisors' ways and means committee.

The recommendation is for \$7,810 more than was sought by the county's Community Mental Health Board, but it includes \$86,000 to operate Child Guidance Clinics.

The mental health board hadn't anticipated adding the clinics to its program so soon. A separate appropriation has been made for the clinics in previous county budgets.

Ways and Means Chairman

David Levinson said he sees no reason why the clinics should not come under the mental health board's direction by 1965.

County auditors had recommended only a \$40,000 appropriation for the new mental health board, while continuing to treat the child guidance clinics separately in the budget.

SUFFICIENT FUNDS

Robert Lilly, secretary member of the board of auditors, said they felt that \$40,000 would be sufficient until such time as a county mental health program has been developed.

Mental health board members, William Wagner, appeared before the committee yesterday to say that a program has been developed for budget purposes and should be enacted before next year.

He said the program contemplated would cost \$58,106 in 1965, and that at least half of the money would be furnished by the state.

The program calls for the hiring of a nonmedical director and retaining a psychiatric consultant on a part-time basis.

INTENSIVE NOW

Wagner said the board is interviewing candidates for director now and expects to fill the position by May 8.

The real nucleus of the program is centered on plans to establish outpatient clinics at strategic locations throughout the county.

These would provide early psychiatric diagnosis and treatment intended to help emotionally disturbed persons before their cases are allowed to become critical and require commitment to institutions.

In-patient care for more severe cases would be provided at general hospitals in the area.

DAY CARE CENTER

The program also envisions establishing a mental retardation center to provide day care, and improvement to the pre-date court psychological clinic.

The program is intended to provide more modern care and treatment for the mentally ill and retarded and reduce costs of operating institutions.

Proposed locations for outpatient clinics are the present child guidance centers, Pontiac State Hospital, county health department, Pontiac General Hospital and William Beaumont Hospital.

The clinics would receive both voluntary and those referred by the courts.

INTENSIVE STUDY

Wagner said the program is the result of intensive study by the mental health board of community mental health programs already enacted in New York and California and numerous meetings with state mental health officials in Michigan.

"We have been assured by the state officials that ours is the most realistic program submitted to them to date," said Wagner.

Committee member Harry Horton noted the county currently spends more than \$1.5 million annually for mental care, mainly through commitments to state institutions.

He expressed the committee's hope that these costs could be reduced by early treatment under a community-level program.

LOCAL REDUCTION

Wagner said it could be assumed that local, clinical treatment could have reduced last year's 432 commitments from the county by at least 10 per cent, at a savings of \$85,000.

The percentage could be expected to grow as the program caught on and became able to treat more emotionally disturbed persons earlier, he added.

Deaths in Pontiac Area

MRS. JOHN C. HUTCHCOEN
Mrs. John C. (Alfreda A.) Hutchcoen of 2534 Cilroy, Waterford Township, died yesterday after a long illness. Her body is at the Donaldson-Johns Funeral Home.

Mrs. Hutchcoen was a member of First Methodist Church and Rebekah Lodge No. 450.

Surviving are two daughters, Mrs. Katherine Morton of Waterford Township and Mrs. Marjorie Laurance of Cleveland, Ohio; two grandchildren; three great-grandchildren; two brothers; and a sister.

MARTIN J. KWIAKOWSKI
Service for Martin J. Kwiatkowski, 50, of Hotel Roosevelt will be from the Christian Funeral Home in Cheboygan Saturday. Burial will be in the Calvary Cemetery. His body was taken to Cheboygan by the Voores-Siple Funeral Home.

Mr. Kwiatkowski, an employee of Pontiac Motor Division, died after an illness of three months. Surviving are his mother, Mrs. Martha Kwiatkowski of Cheboygan; two sons, Thomas of Pontiac and Michael, of U.S. Navy; a sister; and six brothers.

MRS. HARRY G. LAWRENCE
Service for Mrs. Harry G. (Viola R.) Lawrence, 72, of 651 Lenox will be at 2 p.m. tomorrow in the D. E. Pursey Funeral Home with burial in Ottawa Park Cemetery.

Mrs. Lawrence died Tuesday.

LEE J. CONRAD
COMMERCIAL TOWNSHIP — Service for Lee J. Conrad, 78, of 3075 Pontiac Trail will be at 1 p.m. Saturday at the Richards-Bird Funeral Home, Walled Lake.

Graveside service and burial will follow in Oakland H'11s Memorial Gardens, Novi, under auspices of Lodge No. 528, P.S.M.

BOND BOOM — A campaign to increase the number of U. S. Savings Bond buyers at Pontiac Motor Division hit its goal this week by adding 2,340 employees to the payroll savings plan. Admiring the large-scale bond replica are (from left) employee Edgar Linden, who has been in the savings plan since 1941; Buel Starr, Pontiac works manager and chairman of the division bond campaign, and Randall Penhale, U. S. Treasury representative.

Backers of Local College Having Financial Problems

By L. GARY THORNE

A financially weak but spiritually strong citizens group learned last night that their efforts for a proposed community college have entered a critical period.

Wendell Brown, chairman of the Community College Citizens Committee (CCCC), said that every sector of the county must be covered in the next nine weeks.

A vote is slated June 8 on the three-part college question.

Brown verbally lashed members of the committee and stated it was time to coordinate campaign activities.

"We have a fine organization on paper," he said, "but we must work as a team."

FINANCE PROBLEM

Money remains as the number one problem. The committee had a bank balance of \$2.24 prior to last night's meeting, according to Treasurer Cedric V. Fricke.

He said a printing bill of \$200 was outstanding. Fricke passed the proverbial bat among the 40 committee members last night and picked up \$23. Another \$30 was turned in from two units of the Michigan Education Association.

Thus, the CCCC enters its

critical period with \$61 as its sole financial assets.

However, Fricke is hopeful that campaign funds will be donated. He said 500 letters soliciting money went out last week and another 700 were to be mailed today.

TOO EARLY

The CCCC treasurer thought it was too early to give up on the letters sent last week, explaining that most were directed at organizations and meetings would probably have to be held to free money for the CCCC.

Speakers Bureau Chairman Mrs. John May reported that 70 speakers were available to speak to clubs and organizations in the county.

She said talks have been scheduled in the most parts of the county. Only Brandon and Clarkston have not been covered.

Twelve talks have been given in Pontiac with three to come, while Waterford Township has had two talks with 45 to come.

INTENSIFY CAMPAIGN

Campaigning will be intensified during the next two months. As one committee member joked, "We're reaching the people that go to meetings, now we must reach the great unwashed masses."

Telephone campaigns are scheduled for areas, radio interviews will be set up for late May and literature will be distributed door-to-door during the last days of the campaign.

Mrs. George Mosher, vice-

president of CCCC, said that the effects of House Bill 807 on the community college vote have been nullified by actions of the county school board.

Bill 807, which has cleared the House and is in the Senate, would permit a college board of trustees to levy a 1-mill tax without voter approval for support of a community college.

The three-part college question on June 8 ballots authorizes the same thing.

A recent resolution of the county school board changes the ballot propositions so that in the event that Bill 807 passes a total millage of 1-mill is all that can be levied to operate the proposed two-year school.

Flowers for Men No Longer 'Sissy'

DURBAN, South Africa (U.N.) — An ingenious Durban florist came up with a new gimmick — bunches of flowers for men — and the idea is proving surprisingly successful.

Mrs. Vida Waggett got the idea when she was asked for some flowers to send to a man in the hospital.

She decided to make up special "masculine" arrangements in sturdy beer tins, novelty bottles and giant ashtrays that could never be considered "sissy."

Some of the younger male patients didn't like the idea and thought it was effeminate to receive flowers.

But the older patients, many of whom had their own gardens, were delighted.

Housing Unit Recommended

Planners Consent on Hospital Facilities

The City Planning Commission last night recommended rezoning property at 456 Mount Clemens for construction of a proposed two-story, 15-unit apartment complex for Pontiac Osteopathic Hospital interns and employees.

Preliminary plans drawn by Sarko Associates Architects, Detroit, were unveiled at the April planning commission meeting in connection with the request for a Residential-3 zoning on the land.

It is currently zoned Residential-1.

Harry Whitlow, administrator of Pontiac Osteopathic Hospital, said today that the development is roughly estimated to cost around \$400,000.

The building would be U-shaped with the bottom of the U facing Mt. Clemens, and the top facing the Clinton River.

WITH RESERVATIONS

Planners recommended that the city rezone the land contiguous on side driveways being a minimum of 15 feet wide.

Plans called for 12-foot side drives. Fire Chief James R. White recommended they be at least 15 feet wide to allow easy access by fire trucks in the event of a fire at the rear of the building.

Tentatively, plans call for 15 apartments on each floor of the brick veneer structure. They would be one- and two-bedroom units.

Off-street parking for one car per unit is provided at the rear of the building. Whitlow said there "is also a good possibility we'll put a swimming pool in the court" formed by the U-shaped building.

Finding quarters for interns and resident staff doctors is a rapidly-growing problem at three of Pontiac's major hospitals.

This is the first locally-taken step to try and solve that problem on a large scale through a major housing project.

He's on the Dean's List; Is That Good or Bad?

GEORGETOWN, Tex. (U.N.) — Yusuf Aranki of Jerusalem, Jordan a freshman at Southwestern University, was puzzled, a D and a D- in his first semester.

"Dean's list? What have I done to him?" the young drama major exclaimed. He was relieved to hear it meant only that he had made high grades for the first semester.

Planners Deny Request for Huron Land Rezoning

The City Planning Commission last night recommended that a request for commercial zoning of land at 707 W. Huron be denied.

Planning commissioners also recommended that another request for a personal service zoning on the property be denied.

It was the latest chapter in a long history of zoning requests on the property, which housed Paderewski's Chiropractic Health Studio.

The owner had requested rezoning of the land three times in the last seven years. All three requests were denied.

Surrounding residents objected to the property being rezoned. It lies in Seminole Hills Subdivision where deed restrictions limit the use of subdivision lots on W. Huron to "single private dwellings, not less than two stories high."

Planners felt the owner should file a suit in Circuit Court asking that deed restrictions be lifted before requesting a new zoning.

The land is now zoned Residential-2.

RIGHT TO CHANGE

In a legal opinion, City Attorney William A. Ewart advised that the planning commission should have the right to recommend a rezoning contrary to deed restrictions if the character of the neighborhood had shown a marked change since the restrictions were written.

In other business, planners recommended that a request for commercial zoning be denied for a triangular parcel bounded by Mansfield, Hollywood and Kennett.

Universal Oil Seal Co. had asked the zoning so it could put a parking lot on the site to compensate for present parking space which is being eyed for future expansion of the plant facilities.

Residents adjacent to the land objected, arguing that such a zoning would lower the value of their homes.

BOARD OF APPEALS

Planning commissioners suggested that the matter be referred to the zoning board of appeals which could grant the company permission to use a portion of the land for parking without permanently rezoning the parcel.

Commissioners also recom-

mended that a commercial zoning for property at 592 Oakland be denied.

Nearby residential property owners objected to the proposed use of the land for a used car lot.

In another move, commissioners approved a proposed ordinance calling for the rezoning of a lot at 17 Waldo from residential to commercial for use as a parking lot.

The ordinance will come before the City Commission for a public hearing and final adoption April 14.

City Planners Reject Zoning Ordinance

The City Planning Commission, employing a rarely-used tactic, refused to approve a zoning ordinance at its April meeting last night.

The ordinance, drafted by City Attorney William A. Ewart and accepted by the City Commission a week ago, calls for the rezoning of 16 acres in the Michigan-Tasmania area for a proposed multiple housing project.

Charles L. Langs, the city's major urban renewal developer, has proposed to build a 200-unit town house-type housing project on the site which is outside the urban renewal project area.

The action of planning commissioners last night will have no effect on future action on the ordinance, according to Ewart and Planning Commission Secretary Henry Smith.

"The ordinance will still come up for a public hearing and final adoption at the April 14 City Commission meeting," Ewart said.

Smith, a veteran of the planning staff, said he could remember only two or three times in the last 10 or 15 years that the planning board refused to okay an ordinance.

"It is normally just a customary standard procedure."

In effect, planning commissioners reaffirmed their stand

opposing the rezoning a month ago. They recommended at the March 4 meeting that the request be denied.

The City Commission rejected this and accepted a planning staff recommendation that the request be okayed contingent to Langs' providing more detailed plans and information on how the project is to be financed.

COMMISSION FEELING

Wayne Weaver, a planning commission member, summed up the feelings of the majority of commissioners present.

"I cannot approve an ordinance this month which calls for a rezoning that I opposed last month," he said.

Loy L. Ledford, who refused to go along with the others, said, "You can't do this. You have no right to reject something already okayed by the City Commission."

Planning commissioners, however, did approve the legal description of the land as written in the ordinance.

FARED BETTER

Langs fared better in his request for a Residential-3 zoning on some 15 acres south of Bethune School where he proposes to build an identical project of 175 units, with the exception that there would be no basements as in his east side development.

The planning commission recommended that this request be approved by a 5-1 vote, contingent on Langs providing the same information as requested for final approval of his other request.

Voting against the rezoning was Robert C. Irwin, who argued that recent listings show there are 493 VA and FHA homes on the market or repossession in Pontiac at this time.

He argued that these were for moderate income families, just as Langs' cooperative housing projects are.

Langs pointed out that his proposed structures would cost tenants less per month and were better built than most VA and FHA homes in this price range.

Voting in favor of the rezoning were Daniel R. Veazey board chairman, and William F. Davis, William J. Winters, Weaver and Ledford.

The recommendation will now go to the city commission for further action.

Detroit Attorney Heads State Service Group

LANSING (AP)—The Senate today confirmed 29-3 the appointment of Detroit attorney Peter Spivak as chairman of the State Public Service Commission.

He replaces Robert McIntosh who resigned to become Gov. George W. Romney's legislative aide. Spivak's term expires July 2, 1967.

Union Pacts Due May 1

Deadline for Builders

The tap of hammers and roar of bulldozers could come to a halt throughout Oakland County if a construction industry strike materializes May 1. But, though negotiations are under way between building unions and contractors, there is no indication of a strike at this time.

If even some of the about 25 construction trades unions do not negotiate new contracts by that time, it would paralyze residential, commercial and public building programs.

Dick Kirby, city commissioner and business agent for the Wayne-Oakland-Macomb Building and Trades Council, said only initial bargaining has begun, "but from what I hear the contractors are going to put up quite a fight."

Kirby said contract demands vary from union to union, but all are generally similar at raises of 25 cents per hour, fringe benefits which would add several more cents, and a cut in the workweek from 40 to 35 hours.

He estimated a Detroit area construction strike would affect some 12,000 tradesmen who live or work in Oakland County. They range from members of asbestos workers, millwright and glaziers unions, down to bricklayers and laborers.

NO INDICATIONS

Kirby said initial bargaining sessions produce no indication of strike possibilities "since no serious bargaining takes place until just before the deadline."

4 Different Districting Bills Before Legislature

LANSING (AP)—At least four different versions of new congressional districting were before the legislature today as both houses hurried to meet the reapportionment crisis.

A panel of federal judges has ordered Michigan to redistrict or hold at-large elections Nov. 3.

LI Gov. T. John Lesinski had his plan, crossing the boundaries of four counties, introduced

in each house under Democratic sponsorship.

Sen. Haskell Nichols, R-Jackson, introduced a bill identical to a measure passed by the Senate in 1962 but subsequently killed.

Sen. Farrell Roberts, R-Pontiac, introduced a bill based on the present districts, and emphasized it is a starting point, expected to be amended to approach equal distribution of population among districts.

Reps. James Folks, R-Horton

and Roy Spencer, R-Attica, introduced two bills, to be used by House Republicans as "vehicles" for drafting a new plan.

Each of the Folks-Spencer bills carried an additional section with a key provision allowing to election law changes.

One of the bills would allow for the parties to nominate a candidate for Congress from each of the state's 19 districts at a convention, this year only. This is intended to solve the

problem of an impossibly-overcrowded primary ballot that might arise in the event of an at-large election.

The other bill calls for a general primary Sept. 8—the date to which Secretary of State James Hare proposes to shift the primary now scheduled for Aug. 4—and sets a nominating petition deadline of July 28.

House Republicans were briefed Wednesday night on the reapportionment plans.

1 tablespoon poultry seasoning
hot water

Run cranberries through food chopper, using fine knife. Combine with apples, celery and parsley. Melt butter; add apple mixture; cook gently 5 minutes. Add sugar; stir to dissolve. Remove from heat.

Add crumbs and seasonings; mix well. Add enough hot water to moisten to desired degree. Makes enough stuffing for 10 to 12 pound turkey or goose, or 2 large ducklings.

Ground Beef Filling for Main Dish Pie

Meat-eaters will love this one—it's a tender, flaky pie crust brimful of good beef. Why go to the trouble of rolling out a pie crust? Just wait'll you see—and taste—how it helps bring out the good meat flavor by providing a crisp, golden crust.

Added enhancement comes from the savory cheese sauce you make so easily by just adding grated Cheddar to a can of zesty tomato sauce.

If you want a really strong flavor in your sauce, try sharp Cheddar—otherwise the medium or mild types work well. Serve the sauce in a separate bowl (a gravy boat is ideal) to let everyone add his individual gourmet touch to this hearty, wholesome meat pie.

Hamburger Pie with Cheese Sauce
2 cups all-purpose flour
1 teaspoon salt
1/4 cup pure vegetable oil
1/4 cup milk

Mix flour and salt. Add pure vegetable oil and milk and stir to mix. Divide in 2 equal

parts; roll one part out between waxed paper to fit 5-inch pie plate. Prepare meat filling for pie:

1 tablespoon pure vegetable oil
1 small onion, minced
1 small green pepper, chopped
(reserve 1 tablespoon for sauce)
1 pound lean ground beef
3 tablespoons chopped parsley
1 teaspoon salt
1/4 teaspoon pepper
1/4 teaspoon dried marjoram
1 (8-ounce) can tomato sauce
1/2 cup grated Cheddar cheese

Cook onion and green pepper in pure vegetable oil. Add beef and cook until lightly browned. Pour off excess fat. Add remaining ingredients, except tomato sauce and cheese; mix well.

Fill pastry shell with meat filling. Roll out top crust and fit on pie. Crimp edges and cut air vents in top. Bake at 400 degrees for 30 minutes.

Make cheese sauce to serve over the pie by heating tomato sauce to serving temperature and adding grated cheese and green pepper the last few minutes of cooking, stirring until sauce is smooth. Makes 5-6 servings.

Cheese Sauce Mix Is Ideal on Ham Divan

Convenience foods are the modern woman's blessing. And they are fun to fix, taste delicious, and make gourmet cooking a breeze. The R.T. French Company, makers of a line of convenience products, say a gourmet dish can be prepared from food in the freezer. They suggest a ham divan.

Cook a package of frozen broccoli or asparagus. Arrange in a shallow baking dish; top with sliced ham or cooked Canadian bacon. Prepare packaged cheese sauce mix according to package directions. Pour over ham; bake 12 to 15 minutes in a 375 degree oven. Serve at the table from baking dish. 3 to 4 servings.

Don't Waste It

A little chili sauce or catchup left in the bottom of that bottle? Add it to a meat-loaf mixture. If milk is going into the loaf you can "wash out" the bottle with the milk so you get every smidgen of the chili sauce or catchup.

Horseradish Is Secret in Salad

A glowing molded salad to brighten your table is beet and horseradish salad. Garnished with crisp greens and scored and sliced cucumbers, the beet red salad is a beauty either in one large mold or in smaller individual molds.

Just enough horseradish is used with the shredded beets and crunchy diced celery to give a nippy flavor without being too strong. All this in a good base of lemon flavored gelatin and evaporated milk.

A good "go with it" dish would be a casserole full of scalloped potatoes topped with finger strips of canned luncheon meat.

Beet and Horseradish Salad
1 package lemon flavored gelatin
1 cup boiling water
1/4 teaspoon salt
1 cup evaporated milk
1/4 cup cider vinegar
2 tablespoons prepared horseradish
1 cup cooked or canned beets, drained and shredded (1 11-ounce can)
1 cup diced celery

Empty gelatin into medium size mixing bowl. Add boiling water and stir until gelatin is completely dissolved. Stir in salt. When gelatin mixture is cool, stir in evaporated milk, then vinegar and horseradish.

Chill until mixture is the consistency of unbeaten egg white. Stir frequently while chilling to keep mixture smooth. Fold in beets and celery.

Turn mixture into a 1-quart mold or into six 1/2 cup molds. Chill until set, about 3 or 4 hours.

Unmold on chilled salad or chop plate and garnish with cucumber slices and crisp greens. Makes 6 to 8 servings.

Cracker Sandwiches

Are Chocho-Nutty

Melt 1 1/2-ounce package semi-sweet, chocolate pieces with 3 tablespoons water in a saucepan over low heat. In a mixing bowl combine melted chocolate with 1 12-ounce jar chunk style peanut butter and 1/2 cup milk. Beat with electric mixer or by hand until well blended. Chill.

Allow to stand at room temperature about 15 minutes to soften. Sandwich between graham crackers. Makes about 2 1/2 cups spread.

Hot Appetizer

Stuff whole pitted fresh California dates with apple or sharp cheese wedges. Wrap a partial-

ly-cooked half-slice of bacon around each stuffed date. Secure with toothpicks and broil 1 to 2 minutes on each side until bacon is crisp. Serve warm as party appetizers.

Bake Beef Patties

Top ground beef patties with slices of cheddar cheese and tomato sauce and bake in a moderate oven for about half

an hour. Serve on buttered, toasted buns.

Ever add drained, canned whole-kernel corn to cornbread or corn muffins?

Hour and a Half Is Time Enough for Rolls

If your culinary I.Q. is up to date you'll know that "casserolls" are simply rolls baked in a casserole. And Crusty Casserolls like these are especially easy to prepare because they require no kneading or shaping. The batter is dropped by spoonfuls into melted margarine in a casserole.

After baking the rolls are tender and golden brown, need no spread—except perhaps honey or preserves to satisfy your sweet tooth.

Crusty Casserolls
2 1/2 cup milk
1 tablespoon sugar
1/4 teaspoon salt
4 tablespoons (1/2 stick) margarine
3 1/2 cup warm water (106 degrees—115 degrees)
1 package or cake yeast, active dry or compressed
2 cups unsifted flour
Scald milk; stir in sugar.

Serve Scallops in Patty Shells With Sauce

Scallops and eggs, scrambled together and served in warm flaky patty shells, make an excellent entrée for your Lenten dinner. To complete your menu serve buttered carrots, broccoli, and lemon wedges.

Scallop Scramble
1 package frozen patty shells
2 tablespoons butter or margarine
1 pound fresh or thawed frozen scallops
8 eggs, beaten
1/4 cup light cream
1/4 teaspoon salt
Dash pepper
Snipped parsley

Prepare patty shells according to package directions. In skillet, melt butter. Add scallops and simmer until golden.

Combine eggs, light cream, salt, and pepper. Add to scallops. Cook over low heat, stirring until cooked but not dry. Add parsley. Spoon into frozen patty shells. Serves 4 to 6.

salt and 1 tablespoon of margarine; cool to lukewarm. Melt rest of margarine; set aside to cool.

Measure warm water into large warm bowl. Sprinkle or crumble in yeast; stir until dissolved. Stir in lukewarm milk mixture and flour. Beat until smooth and elastic, about 50 strokes. Brush top lightly with some of melted margarine.

Cover; let rise in warm place, free from draft, until doubled in bulk, about 25 minutes. Meanwhile, pour half of melted margarine into shallow casserole, 1 1/4 quart capacity, or 9 x 9 x 2-inch square pan.

Stir batter down. Drop by large spoonfuls into melted margarine in casserole. Spoon remaining margarine over rolls. Cover; let rise in warm place, free from draft, until doubled in bulk, about 35 minutes.

Bake in hot oven (400 degrees F.) about 20 minutes, or until done. Serve in casserole, slightly warm.

New Desserts for Spring Parties

By JANET ODELL
Pontiac Press Food Editor

Even if the weather won't cooperate, it is spring. Lent is over and everyone's in a party mood.

Asking friends in for dessert is a pleasant way of entertaining. Mothers with small children can manage this kind of an evening party if they have only dessert to prepare.

What will the dessert be? We think Sugaring-Off Pie is a splendid spring dessert, using as it does maple-flavored syrup. Nothing says you can't use real maple syrup if you have it. Then, we'd omit the maple flavoring.

Here's a time-saving hint: Prepare cereal crumbs by placing them in a quart measuring cup. Crush with an ordinary water glass, mortar and pestle style.

Sugaring-Off Pie

Crust

- 2½ cups bite size shredded rice biscuits crushed to ¼ cup
- ¼ cup sugar
- ¼ cup finely chopped salted peanuts

PINK CLOUD DESSERT

- 3 tablespoons soft butter or margarine
- 2 teaspoons hot water

Heat oven to moderate (350 degrees). Butter 9-inch pie plate. Combine crumbs, sugar and peanuts. Add butter and water. Blend until uniform. With back of teaspoon, pack crumbs firmly and evenly onto bottom and sides of pie plate. Form an edge around top of crust, not on rim of plate. Bake 10 minutes. Cool.

Filling

- ½ cup sugar
- ¼ cup cornstarch
- ½ teaspoon salt
- 2 cups milk
- 1 cup maple-flavored syrup
- 3 egg yolks, beaten
- 1 tablespoon butter or margarine
- ½ teaspoon maple extract

Combine sugar, cornstarch and salt in saucepan. Gradually stir in milk and syrup. Cook over medium heat, stirring constantly, until mixture thickens and boils.

Gradually beat at least half of hot mixture into egg yolks. Blend egg yolks into remaining hot mixture. Cook and stir over low heat until mixture is very thick and will mound when dropped from a spoon.

Remove from heat. Add butter and maple extract. Mix well. Cool slightly. Pour into baked pie shell. Chill until firm.

To serve garnish with whipped cream and peanuts. Yield: 1 (9-inch) pie.

Note: For easy removal, dip pie plate in hot water for 1 minute before cutting.

Pink Cloud Dessert is as delicate as its name. You'll need your prettiest glass bowl to serve this golden custard with puffs of strawberry meringue sailing around the top. Pass the cookies.

PINK CLOUD DESSERT

- 1 envelope unflavored gelatin
- ¼ cup fresh lemon juice
- 4 eggs
- ¼ teaspoon cream of tartar
- 2-3 cup sugar
- 1 (10-ounce) package frozen strawberries, thawed
- 4 cups milk
- 1-3 cup sugar
- 1 tablespoon cornstarch
- ½ teaspoon salt
- ½ teaspoon almond extract

Soften gelatin in lemon juice; dissolve over hot water. Separate 3 eggs and add cream of tartar to the whites; beat until foamy. Gradually beat in sugar. Beat until stiff. Add dissolved gelatin to strawberries; slowly beat into meringue.

Place bowl in a larger bowl, containing ice water. Chill, stirring occasionally until meringue is quite stiff. Using a small ice cream scoop or spoon, scoop meringue onto waxed paper (makes about 22 scoops).

Chill 4, 5 hours or until firm. Heat ¾ cups milk until

bubbles appear around the edges. In top of double boiler beat the whole egg, egg yolks, remaining milk, sugar, cornstarch and salt until well blended. Gradually pour hot milk into egg mixture, beating constantly.

Cook over hot water, stirring constantly, until custard coats a metal spoon—about 10 minutes. Cool. Stir in almond extract. Refrigerate until well chilled, about 2 hours. Cover with waxed paper while chilling.

Just before serving, pour custard into large shallow glass bowl, place strawberry clouds on top. Serve with cookies. Makes 8 servings.

If you have never served coffee cake, fresh from the oven, as a dessert, both you and your guests are in for a treat.

Bonny Berry Bread is a blueberry concoction. Layers of rich dough alternate with blueberry pie filling.

P.S. This makes wonderful eating at breakfast time, too.

BONNY BERRY BREAD

- ½ cup butter
- ¼ cup sugar
- 1 egg
- 1-3 cup milk
- 2 cups sifted all-purpose flour

- 2 teaspoons baking powder
- ½ teaspoon salt
- 1 No. 2 can (2½ cups) blueberry pie filling
- Cream butter and sugar; beat in egg. Blend in milk. Sift together dry ingredients

and add to creamed mixture. Spread half the batter in a greased 8x8x2-inch pan; cover with ¼ can blueberry pie filling. Spread remaining batter over pie filling; top with remaining pie filling.

Mix ½ cup sugar, ¼ cup flour and ¼ teaspoon cinnamon; cut in 2 tablespoons butter. Sprinkle crumb mixture over bread. Bake at 375 degrees for 30 to 40 minutes.

BONNY BERRY BREAD

Liver Is Best When Cooked Very Slowly

Nutritionists urge families to serve liver once a week.

Liver and Onions

- 1 pound liver, sliced ½-inch thick
- 2 tablespoons flour
- Salt and pepper
- 3 medium onions, cut into thin strips (about 3 cups)
- 2 tablespoons butter
- 1 to 2 tablespoons salad oil

Remove skin from outside of liver slices; cut into 1½-inch squares removing tubers. Mix together the flour, 1 teaspoon salt and ¼ teaspoon pepper; coat liver with mixture.

Heat butter in a 8- or 10-inch skillet; add onions and cook very slowly, stirring of-

ten, until tender-crisp or very soft (to suit taste); add salt and pepper to taste. Remove onions and keep warm.

Heat the oil in the skillet; add liver and cook over moderate heat until brown and barely cooked through; to turn easily, use a wide spatula. Serve liver around onions. Makes 4 servings.

Don't Throw Out Shells When Cooking Shrimp

Save the shells when you remove them from raw shrimp when the shrimps are to go "au sauté" into some dish. Make a stock of the shrimp shells with a couple of cups of water, a small sliced onion, a bay leaf and a few peppercorns by boiling for about 15 minutes.

Strain this stock and use in a seafood chowder for extra good flavor.

SUGARING-OFF PIE

This bread may very well make the best toast you ever tasted

Monks' Bread has a flavor you can't toast away. Even butter can't hide it. It has a goodness you don't find in most bread. It's a bread that wasn't meant to be sold. It began as simple sustenance for the monks at the Abbey of the Genesee—men who eat no meat, no fowl. All the good things the monks baked into their full-flavored loaf naturally toast up better.

Try Monks' Bread tomorrow, toasted.

The Ward Baking Co. bakes Monks' Bread for you, using the exact prepackaged formula delivered to the bakery, special Monks' Bread pans, and following a strict preparation schedule, under guidance of the Abbey.

Figs in Wine Get Sour Cream Top

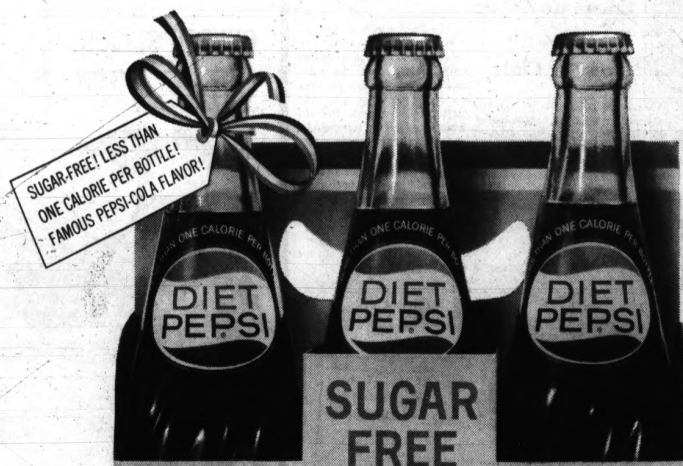

An ideal dessert for dinner guests — prepare figs the night before and add finishing touches at serving time.

- 15 dried figs
- 1 cup water
- ½ teaspoon grated lemon peel
- 1-3 cup granulated sugar
- ½ cup Sauterne wine
- 1 cup dairy sour cream
- 1 tablespoon powdered sugar
- ¼ cup flaked coconut

Heat dried figs in saucepan with water, lemon peel and granulated sugar; simmer for 10 minutes. Remove from heat; pour wine over figs and chill several hours or overnight.

Blend sour cream and powdered sugar. Spoon over figs. Garnish with coconut. Makes 5 servings.

Now you can have your cola and diet too!

DIET PEPSI

It's all taste... no aftertaste!

BOTTLED BY PEPSI-COLA BOTTLING COMPANY OF DETROIT, INC. UNDER APPOINTMENT FROM PEPSI-COLA COMPANY, N.Y., N.Y.

Roasted Nuts Add to Cooky

Fanatics of chocolate and almonds have a double-barreled treat awaiting them in "Chocolate Almond Crisps." Semi-sweet chocolate pieces and roasted diced almonds are used in preparing these cooky delights. Almonds lend unique flavor and decided crunch to an array of cookies, pies and cakes.

Chocolate Almond Crisps
1 cup butter or margarine
2 cups sifted powdered sugar
2 egg yolks
1 tablespoon almond extract
2 cups sifted all-purpose flour
1/4 teaspoon salt
1 cup roasted diced almonds
1 package (6-oz.) semi-sweet chocolate pieces
Blend butter with 1 cup sugar until fluffy. Beat in egg yolks and extract. Add all remaining ingredients except sugar and stir until well mixed. Drop by spoonfuls onto well greased cooky sheet.
Bake in 375 degree (moderately hot) oven 10 to 12 minutes or until lightly browned. While still warm, dust with remaining sugar. Cool. Store in tightly covered tin. Makes 4 dozen cookies.

Tiny Cookie Is Studded With Pecans

A not-too-sweet version of a popular and delicious cookie.

Pecan Tits
1/2 cup butter or margarine
1/2 cup firmly packed light brown sugar
1 large egg, separated
1/2 teaspoon vanilla
1/2 cup sifted flour
3/4 cup (about) medium-coarse chopped pecans
Cream the butter and sugar; beat in thoroughly the egg yolk and vanilla. Stir in the flour until blended. Chill thoroughly so dough will be easy to shape.
Using level tablespoons of the mixture, roll between palms to form balls. Dip the slightly beaten egg white and roll in the pecans.
Bake, about an inch apart, on an ungreased cookie sheet in a moderate (375 degrees) oven for about 13 minutes or until cookies are lightly browned and nuts toasted. Remove to wire rack to cool. Makes about 2 dozen. Store in tightly covered container.
Note: Only half of the egg white will be needed, the remaining portion may be refrigerated and used for other glazing.

Diet Drink Used in Dessert Whip

Try this dessert on your dieting friends.

Chocomalt Whip
1 1/2 envelopes (1 1/2 tablespoons) unflavored gelatin
1/2 cup water
2 cans (10 ounces each) chocolate malt flavored liquid diet food, chilled
1/2 teaspoon vanilla
1 egg white, stiffly beaten
1 ripe banana
In the top of a small double boiler, sprinkle gelatin over cold water to soften; place over boiling water and stir until dissolved. Mix with diet food and vanilla.
Chill until thickened but not set. Beat until thick and fluffy; fold in stiffly beaten egg white. Turn into 4 large dessert dishes; chill until firm.
Garnish with thinly sliced bananas. Makes 4 servings, 100 calories each.

Cut First, Then Chill
Know how to make radish fans for garnishing hors d'oeuvre plates and salad bowls? Cut thin slices, fairly close together, almost through the radish, then chill in ice water—storing in the refrigerator—until the slices fan out slightly.

Whose Taste?
How much salt should you add to meat when a recipe says "add salt to taste"? In general, use 1 teaspoon salt for each pound of meat. If this proves saltier than you or your family like, then cut down to 1/2 teaspoon to a pound.

Pontiac Press Photo

MEAT, MEAT, MEAT—Josephine Lawyer, District Extension Agent, checks hams with Joe Romeo of Kroger's (left) and Andy Leili of Savon Foods. All three are working on plans for the Food Information Week program at the Pontiac Mall, April 6 through 11. Exhibits and daily food demonstrations are scheduled.

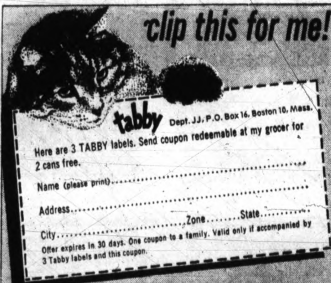

See Mall Food Shows

Mon. a.m. Meat on the Move—how meat gets from the farm and ranch to your dinner table.
April 6 p.m. Buying Meat for My Family—learning to select quality meat, meat grades, buying for freezing.
Tues. a.m. Detroit Edison Company—demonstration of meat cookery including frozen meats.
April 7 p.m. Cooking Meat to Perfection—meal preparation methods.
Wed. a.m. Detroit Edison Company—demonstration of meat cookery including frozen meats.
April 8 p.m. Sleight of Hand with Unusual Meat Cuts—identifying cuts with unusual names and showing how to cook them.
Thurs. a.m. More Meals from the Pork Loin—ways to cut and use the pork loin to better advantage.
April 9 p.m. Know Your Meat Cuts—identification of the popular and less popular cuts with suggestions for use.
Fri. a.m. Consumers Power Company—demonstration of meat cookery including broiling, casseroles, etc.
April 10 p.m. Consumers Power Company—demonstration of meat cookery including broiling, casseroles, etc.
Sat. a.m. Help for the Working Wife—more meals from one cut of beef (5th & 6th ribs).
April 11 p.m. Meat Carving Made Easy—how to carve ham, pork loin, and Boston butt.

Crepe de Cacao Put Dessert in Glamour Class

Shimmering Buffet Mocha Mold provides a spectacular dessert for your guests. Because it is made with unflavored gelatin, little cookery is required—only the few minutes needed to dissolve the gelatin.

Buffet Mocha Mold
2 envelopes unflavored gelatin
1/2 cup sugar
1/4 teaspoon salt
1/4 cup powdered instant coffee
3 cups water, divided
1/2 cup brown crepe de cacao
1 cup heavy cream, whipped
Mix together in saucepan gelatin, sugar, salt, and instant coffee. Add 1 cup of the water and place over low heat, stirring constantly, until gelatin and sugar are dissolved. Remove from heat. Stir in remaining 2 cups water and crepe de cacao.
Divide mixture in half. Pour one half into 6-cup mold; chill just until mixture begins to set. Chill remaining half of gelatin mixture until consistency of unbeaten egg white. Fold into whipped cream. Turn into mold on top of mocha jelly layer.

Set 2nd Annual Food Information Week

For the second year Food Information week is being celebrated at the Pontiac Mall. This community service program, sponsored by the Michigan State University Cooperative Extension Service and the shopping center, is set for April 6-11.

Approximately 25 food companies will have exhibits, many with free samples. Among the educational exhibits being prepared are those by the extension service, county health department, American Red Cross, Detroit Dairy Council and the Food and Drug Administration.

Film Will Dissolve

If you are making hot chocolate (from cocoa or chocolate) at home, don't remove any film that forms at the top because it holds calcium and protein; just beat the beverage before serving.

changes in the food industry and to familiarize food shoppers with MSU's consumer marketing information program.

"Meal Magic with Meat" demonstrations will be given daily at 9:30 a.m. and 1:30 p.m. in the community room.

Participating in these programs will be Harriet Cannon and Barbara Zimmerman, home service advisers at Consumers Power Company; Jean Hardy, electric living adviser, Detroit

Edison; Mary Jane Van Meter and Josephine Lawyer, extension agents; Marguerite Hague, free lance home economist; and Janet Odell, Pontiac Press food editor.

The demonstrations are open to the public on a first-come first-seated basis.

Ever added chunky peanut butter and a little mayonnaise to deviled ham? The kids will love this sandwich treat!

Unexercised Areas Are More Tender

Exercise, or lack of it, is what makes some cuts of meat more tender than others, says USDA's Agricultural Marketing Service. The neck, shoulder, and leg portions of cattle, for example, are constantly in motion, which develops the connective tissue and makes the meat less tender.

This is why steaks—which come from the rib section of the animal—are so much more tender than chuck, rump roast, or boiling beef.

No wonder they're smiling! Mrs. Ivan Schram, president of General Motors Girls Club, presents a \$1,500 check to J. King Ward Jr. of Berkeley.

King accepted the contribution for the Oakland County Society for Crippled Children and Adults.

Donation Given by Girls Club

The largest single contribution ever made by the General Motors Girls Club went to the Oakland County Society for Crippled Children and Adults.

Mrs. Ivan Schram, president of the group, presented a check for \$1,500 to the organization with the recommendation that most of it go toward the summer day camp program.

The 675 members of the Girls Club raised the money with bake sales, sales of model cars and candy, fashion shows and other projects.

Organized to promote friendliness and good will and to encourage the cultural and professional welfare of its members, the Girls Club meets monthly for a social event.

Chairman for the past two years of the charity committee has been Frances Harrington. Working with her as co-chairmen were Lucy Kinelen and Mrs. Margaret Francis. The three represent the three divisions of General Motors Corp.

Pontiac Press Photo

Momirate Over Decision That Lets Dropout Teach

DEAR ABBY: Our children go to elementary school in a state where salaries are low and there is a shortage of teachers.

A woman I shall call Mrs. X is a supply teacher. She is also a crossing guard, and must excuse herself in order to direct traffic.

Mrs. X married at 14 and had her first child at 15. She did not even finish JUNIOR HIGH SCHOOL!

Yet we hear that the principal is making her a full-time teacher next year.

When we complained, the principal said he "thought" she took a correspondence course and finished high school.

Is this fair? Many high school grads would like to forego the expense and work of college, and go right into teaching.

Mrs. X must have cast a spell over this principal. What can be done?

ANGRY PARENTS: Qualifications for teaching vary vastly in the individual states.

But apparently Mrs. X qualifies to teach in yours.

If she hasn't also "cast a spell" over the superintendent and the school board, they can explain it to you.

DEAR ABBY: What makes a 57-year-old man suddenly decide to go on a diet, and to take an interest in clothes and grooming?

CURIOS: A woman.

DEAR CURIOS: My front porch is being used for a public bus stop.

When it rains, my porch is

crowded with strangers who are waiting for the bus.

Some of them leave newspapers on the floor, and I even find cigarette butts that have been crushed by their heels. My porch is my private property.

I hate to be mean, but I am getting tired of cleaning up after the public. I can't help it if my house is right on the corner a few steps from the bus stop.

What should I do?

BAD BACK

DEAR BAD: (1) You could ask either the "city" or the transportation company to provide a shelter for that bus stop.

(2) You could enclose your porch and put a lock on the gate.

(3) You could stick your head out the door and remind folks that they are trespassing on private property.

Number Two would be my choice.

DEAR ABBY: A very cute boy shouted across the campus to me, "C.Y.K." I didn't know what he meant, so the next time I saw him I asked him and he told me to ask you. So I am asking.

DEAR DEBBIE: It means, "Consider yourself kissed."

Young at 89

Prefers Politics to Rocking Chair

WASHINGTON (AP)—Most women, when and if they reach 89 years, have retired from public life and are content to sit in their rocking chairs whiling away the hours.

But not Emma Guffey Miller, whose appearance belies her age, is wearing the campaign button of Genevieve Blatt, the state's secretary of internal affairs. Miss Blatt is seeking the Democratic senatorial nomination against the organization candidate, State Supreme Court Justice Michael A. Musmanno.

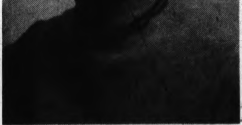

At 89, Mrs. Miller is still go-

JANE ELLEN COOK

August vows are planned by Jane Ellen Cook, daughter of the Foster W. Cooks of Dearborn and Richard William Thies, son of Mr. and Mrs. William T. Thies of Orchard Lake.

Both are graduates of University of Michigan. Mr. Thies is working on his doctorate at University of Wisconsin.

JANE ELLEN COOK

ing strong on a political career which she says began in 1880. Then she was six and wore the campaign button of Gen. Winfield Scott Hancock, the Democratic presidential nominee at that time.

This year, Mrs. Miller, whose appearance belies her age, is wearing the campaign button of Genevieve Blatt, the state's secretary of internal affairs. Miss Blatt is seeking the Democratic senatorial nomination against the organization candidate, State Supreme Court Justice Michael A. Musmanno.

From her office across the street from the U.S. Supreme Court Building, Mrs. Miller mails letters to Pennsylvania voters urging support of Miss Blatt's candidacy.

She is confident of victory in the April 28 primary election and said if Miss Blatt wins — "as I'm sure she will" — she will campaign actively throughout the state for the Johnson-Blatt ticket.

"I'll be 90 in July but that won't stop me," Mrs. Miller said during an interview at the headquarters building of the National Women's party of which she is chairman.

CONVENTION DELEGATE As Democratic national committeewoman, she will be

present at the party's annual convention in Atlantic City, N.J., this August.

She was the first committeewoman, having been named to the post in 1932. She is now the oldest, both in age and service.

Mrs. Miller now divides her time between Washington, during winter, and her farm near Slippery Rock, where she spends each summer.

She is the sister of the late Sen. Joseph P. Guffey, a long-time Pennsylvania political power. Her husband, the late Carroll Miller, was an interstate commerce commissioner for 16 years during the Roosevelt and Truman administrations.

EQUAL RIGHTS

As chairman of the National Women's party, Mrs. Miller is engaged in a drive to win equal rights for women in all phases of American life.

The group is seeking enactment of a constitutional amendment to do this.

"There are over 1,000 discriminations against women in the United States," she said.

In some states, women can't serve on juries while in South Carolina a woman does not legally own her own clothes — they belong to her husband, Mrs. Miller added.

WOMEN'S SECTION

Lake Angelus Woman Holds Exhibit

Compulsive Painter Has Showing

By MADELEINE DOEREN

"There is never enough time to satisfy the ever-demanding compulsion to paint," according to Mrs. Von Polhemus whose exhibition in the Grosse Pointe War Memorial opens on Sunday.

Before the Polhemus family moved to Lake Angelus, their summers were spent at Broken Rocks Point on Lake Huron.

Apart from swimming and sailing activities which are still family firsts, vacations meant painting time for Mrs. (Charlotte) Polhemus.

FRIENDS SPONSOR

Former next-door summer neighbors, Mr. and Mrs. Miles McKee of Grosse Pointe Park, have continued their enthusiastic interest in the painting pursuit enough to sponsor the exhibit which will run through April 12.

Many out-of-town friends and relatives will join area guests at the invitational opening tea-reception in the War Memorial on Saturday.

Flying in from Milwaukee for the reception will be the John Parkers and the David Siebers. Mrs. Polhemus' sister and brother-in-law, the Charles Hooks and their daughter Marilyn will come from Columbus, Ohio. Mr. and Mrs.

Alva Phelps of Kenilworth, Ill. are also expected.

The Robert Helms (Susan Polhemus) and daughter Jean will arrive from Freeport, Ill. Dr. and Mrs. Stephen Capps (Joan Polhemus) have three children and entirely too many

horses, dogs and other animals to leave their farm near LaCrosse, Wis.

Although painting is primarily a hobby, Mrs. Polhemus does sell many of her works. She and her husband who

spend most of their winter weekends at the Otsego Ski Club have just returned from two weeks at Vail and Aspen in Colorado.

Through continued experimenting with different techniques and media for as long as she can remember, the artist is able to express changing impressions of light, color and forms that have their origin in nature.

After studies at Ball State Teachers College in Muncie, Ind. and at the Cincinnati (Ohio) University, Mrs. Polhemus taught art in the public schools at Anderson, Ind.

MANY SHOWS

Previous showings have been at Plymouth, Franklin, Bloomfield Art Association, the Birmingham Festival, and the Philadelphia Academy Biennial with the Detroit Institute of Arts.

Still others are The J. L. Hudson Company and the Grinnell Galleries, and currently in the Detroit Artists Market and the Kenilworth Gallery, Birmingham.

Mrs. Polhemus' paintings have also been reproduced for the French Revue des Arts Moderne.

MRS. VON POLHEMUS

ABWA Chapter Installs Fourteen New Members

Fourteen new members of Tipacan Chapter, American Business Women's Association, were installed by Maxine Davison, president, following a dessert Wednesday in Airway Lanes.

John Hirlinger, past president of the Pontiac Area Chamber of Commerce related highlights of his work as a travel consultant.

He is flying to Scotland on Friday to bring two young boys to join their families here.

His armchair tour included Mexico, Jamaica, Puerto Rico and countries devastated by Hurricane "Flora."

Mrs. Roy Hamm gave a vocational talk.

Committee for the future "woman of the year" contest includes Mrs. Ossie Gates, who presently holds that title; Miss Davison and Mrs. Charles Irish.

Edgewood Country Club will be the setting for the annual Toss Night dinner next Wednesday.

The Northeastern District meeting is scheduled for May 22-24 at the Harris Motel in Kalamazoo. Added to the membership roster were Mrs. Billy Vaughn, Mrs. Everett Monroe, Mrs. Hugh Dana, Mrs. George F. Ennis, Mrs. Donald Esser, Mrs. Charles Weaver, Mrs. Arthur Tyrrell, Mrs. Burleigh French, Mrs. William Dumas, Mrs. Wayne Santala, Mrs. Teresa G. Brumit, Mrs. Larry Nichols, Mrs. Hazel Sawyer and Mrs. Donald Gregory.

Guests for the installation were Mrs. Svend Brandrup, Mrs. Robert Thompson and Mrs. Hirlinger.

The chapter will honor mothers of members at the next meeting which will be in the Waldron Hotel.

Landscaping Lecture Given WNFGA Group

Mrs. Donald Lloyd of Tilmor Drive opened her home to the Lorraine Manor Branch, Women's National Farm and Garden Association, Tuesday evening.

Robert W. Bills of Orchard Lake used architectural drawings to highlight his lecture on landscape design.

Mrs. Robert J. Smith and Mrs. Lloyd were chairmen of an Easter presentation of decorated eggs and candies to the boys at the Lapeer State Home and Training School.

Officers will be elected at the annual meeting April 29 in the home of Mrs. Fred Barnfather on Lorberta Lane.

Altar Society Card Party Announced

A spring garden setting will highlight decorations for the annual card party sponsored by St. Michael Altar Society.

Codirectors for the event, to be held in the parish hall on Lewis Street Tuesday at 8 p.m., are Mrs. George McCormick and Mrs. Michael Harbert with Mrs. Gayle Coulson as general chairman.

Assisting them are Mrs. Wilbur Kah, Mrs. Al Schlicht, Mrs. James Hurren, Mrs. Adam Kravetz and Mrs. Lewis Swartz of the St. Rose Unit, who are handling refreshments.

St. Monica Unit with Mrs. Robert Myers, Mrs. William Brown and others will assist with serving.

Miss Rose Griffin and Mrs. Omer DeConick have tickets which may also be purchased at the door.

Tables, chairs and cards will be arranged by Mrs. Joseph Emmert, Mrs. Jean Mills, Mrs. Roy Weigandt and Mrs. John O'Neill of St. Theresa Unit.

PRIZE CHAIRMAN

Special prizes will be handled by Mrs. Gordon Gillette and Mrs. Edwin Backes.

Table prizes in charge of Mrs. John Myers and Mrs. Merle Berry are small lace tabbies.

Arranging decorations are Mrs. Joseph-Cassaban and Sue Koehl.

Caring for the altar is the duty of members of the St. Michael Altar Society. The group will sponsor their annual card party Tuesday at 8 p.m. in the parish hall. Clearing the altar are (from left), society

members Mrs. Wilbur C. Kah of Saginaw Street, Mrs. George D. McCormick of Kemp Street and Mrs. Michael R. Harbert of Glenwood Avenue.

Picky Problems for Fruit Pickers

The California Department of Agriculture has urged fruit pickers to bathe twice a day, and to change to clean clothes after working with insecticide sprays.

This soap-and-water health precaution applies to home gardeners as well as to farmers and agriculture workers.

Fair Collection of Many Dolls

One of the most fascinating hobbies—and one that attracts all age groups—is collecting dolls. The 1964 World's Fair will be a dream come true for these collectors.

Every nation will have a variety of dolls to show. Some will be priceless and the collector must be content with viewing. Others will be for sale.

Rae-Vens Drill Team Gives 4th Annual Fashion Show

The Rae-Vens drill team will sponsor their fourth annual fashion show "Festival of Fashions" April 15 at 8 p.m. in the Elks Temple.

Fashions by the Bobette Shop will be modeled by team members and their mothers. Murray's Beauty Academy will provide hair styles.

Team models include Helen Collins, Betty Williamson, Theresa Rolfe, Claudia Beecham, Maria Tamayous, Becky Troy, Kathy Swain, Shelly Higgins, Linda Hayden and Gail Caughill. Mothers who will model are Mrs. Arthur Voorheis, Mrs.

David Ruelle and Mrs. Donald C. Burnett.

Proceeds from the style show will be used for equipment and a travel fund. The team is hoping to make a trip to Philadelphia to the nationals this summer.

How to Keep Cool When Heat Is On

The home hair dryer is one of the greatest beauty boons of the age. But the inventors forgot one thing.

They should have designed, an air-conditioner inside their hair conditioner. Next time you feel hot under the hood, try this cool tip. Soak a cotton pad with good quality witch hazel and bathe the forehead and neck frequently. After removing the hood soothe the redness left by the elastic with applications of witch hazel.

Tilt Candle Mold

When making candles at home tilt the mold while pouring in the wax to prevent air bubbles.

** FOR SPRING! **

The saucy, whimsical look of spring sparkles beneath a straw hat. The look is repeated in bright, blushing coral lipstick, nail polish and the slightly wicked fragrance created by the same firm.

Fringe Benefits

Femininity Triumphant

By MIRIAM NEAL

There's a delightful trend in fashion this spring. It starts with a flurry of ruffles and softer lines and is topped by a gentle collection of curls.

Fashion has decided to let us be women again—the feminine kind.

In clothes, styles range from wild to wicked to winsome, but leave no doubt that the wearer is female.

Cosmetic foundations are light and made to look natural. Rouge is back to add a glow to the death-whiteness that haunted fashion magazines.

CAMOUFLAGE

One company has created what it calls "toning white" which can, with pale polli-

ness, narrow a wide nose or make a receding chin more prominent. This touch of white can also be used as a magic glow for highlights or camouflage.

In addition, both lipsticks and eye shadows are paler, more subtle.

To go with shorter, softer hairdos even fragrances are lighter, brighter.

If this firmly feminine fashion reflects the new American woman, three cheers! Maybe there WILL be a woman president.

The airport in Pittsburgh opened in 1952, was generally believed to be the second largest in the United States at that time.

Let's Knit

Simple, Chic Sweater

The sweater is simplicity in itself and yet very chic. Any beginning knitter is able to fashion this garment. The collar can be worn either opened flat or buttoned into a turtleneck. We trimmed the front panels and the collar

with a brocade to give it a decorative touch.

Included in the instructions you will also find a pattern that can be knitted into the garment. Either plain or fancy, this sweater has many uses.

Instructions for Sweater No. 25 comes in sizes 10 through 14 for daughter and sizes 12 through 20 for Mother. All sizes are included on one pattern.

Pattern for Sweater No. 25 may be obtained by sending 50 cents in coin, check, or money order to:

Ursula duBois, The Pontiac Press Pattern Dept., Box 3307, Van Nuys, Calif., 91407.

A total of 25,784 books were published in the United States last year, according to Publishers' Weekly. Of this total, 19,057 were new books.

Sun May Run Favorite Colors

Think twice before you air your clothes in the sun.

If they are green, blue or white, they could change color. Many green and blue dyes in silk and wool are susceptible to sunlight and will fade.

Your white garments may contain a fluorescent whitening dye which is destroyed by sunlight causing the garment to yellow.

Polly's Pointers

Tips on Toothbrushes

By POLLY CRAMER

DEAR POLLY—I made the sort of toothbrush holder I wanted for our bathroom.

A strip of white twill tape was thumbtacked to the inside of the bathroom cupboard door.

The tacks are placed just far enough apart for a toothbrush to hang in between two tacks.

We now have a holder which works satisfactorily. — MRS. R. H.

DEAR POLLY—When we change our furnace filters, we write the date on the new filter as it is put into the furnace.

White crayon does the job and lets us know when it is time for another new one.—MRS. M. A. McP.

DEAR POLLY—Your column is the topic of conversation among all my friends.

May I suggest that when mothers of small children go visiting for dinner that they take (the type sold and used for protecting rugs in inclement weather) and put it under the dining chairs the children use.

The children can then drop and spill to their hearts' content and nobody worries. Your hostess will appreciate this — I know from experience.

Any large piece of plastic would do. — MRS. F. L. C.

DEAR POLLY—My hint is for the mothers of babies who are about to graduate from a crib to a regular bed.

Put a pillow or pillows along the edge of the bed, between

the mattress and springs, and baby will not fall out. I used this trick for both of my children and it really works. — MRS. R. O'C.

DEAR POLLY—A nut pick makes a perfect awl for metal eyelet holes. Force the pick through the belt or garment twice and the eyelet slips in perfectly. — MRS. R. E. B.

DEAR POLLY—Drill a hole in the top of a small white plastic top of a spray can to replace a broken plastic tassel on a venetian blind.

The hole should be the size of the cord which is run through the top and knotted underneath. — MRS. C. P.

Share your favorite home-making ideas ... send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses ideas in Polly's Pointers.

Tie Color Reveals Traveler's Origin

Necktie expert Stuart Bart insists that it is possible for a traveler to tell in which city he is by simply noting the predominant color of men's neckwear.

In Philadelphia and Boston, ties with red predominate. In Chicago, green ties outsell all others, and necktie-wise, Dallas is blue and Baltimore purple.

KERCHAL ARMSTRONG

Church Women to Hold Card Party, Luncheon

St. Monica's Guild of St. Andrews Episcopal Church will have a luncheon and card party April 10 in the church on Hatchery Road.

"Luncheon is Served" is scheduled for 1 p. m., according to general chairman Mrs. Joseph Houghton.

Professional baby-sitting will be available for the entire afternoon. Reservations may be made with the church or with Mrs. Houghton, Cooley Drive. Tickets will also be sold at the door.

Plaster 'n' Paraffin

Dip a nail into melted paraffin before driving it into a plastered wall, and the plaster will not crumble.

Area Boy Is Returning as Director of Chorale

Like Mark Twain coming back as the town hero, a former Pontiac resident is returning accompanied by the sound of many singing.

Kerchal Armstrong will direct the Moody Chorale, the a capella choir of Moody Bible Institute, Chicago, in their performance at 7:30 p. m. April 11 at the Oakland Avenue United Presbyterian church.

Armstrong, the son of Mr. and Mrs. Howard Armstrong of Prentiss Street, is a graduate of Pontiac Central High School. He was manager of the high school band, under Dale Harris, for two years.

NOW INSTRUCTOR

He is currently an instructor of brass, hymnology and church music in the institute's sacred music department. He is also director of the school's orchestra.

A graduate of Moody Bible Institute, Wheaton College and the Chicago Music College of

many local appearances, giving from forty to fifty performances in a season. Its annual tours have taken the choir into almost all of the United States and many parts of Canada. In 1964 and 1966 the group sang in Western Europe. The program will include master works of sacred choral music and gospel song arrangements as well as church hymns.

Use Washer, Dryer to Get Bedding, Linens Sparkling

Blankets, bedspreads and quilts are all ready for a good dunking about this time of the year. With an automatic washer and dryer in the house, it's easy to freshen up all the bedding.

Tests were made with blankets of wool, part wool and man-made fibers. Wash only one large blanket at a time. A two-minute wash time is recommended for a blanket with an average amount of

soil. Pre-treat heavily soiled areas and bindings with a paste of soap or detergent — or use a liquid detergent.

Either a light duty or heavy duty detergent may be used for washing blankets. Use warm water to hold down shrinkage and to preserve the bright colors found in today's blankets. Slow wash action is gentle and yet adequate to loosen soil from the fabric.

For rinsing, use either warm or cold water. Cold

water does a fine job, releases hot water for other uses, and helps to dispel suds more quickly.

Normal spin speed is recommended to extract as much water as possible. This hastens drying. Quicker drying means less shrinkage in woolen blankets.

To dry the blanket in an automatic dryer, place 6 or 7 large Turkish towels in the dryer and preheat using highest heat for about five minutes. Then add the blanket and allow to tumble for just 20 minutes. Remove blanket and allow to air dry. Press binding with a pressing cloth and warm iron.

The same procedure may be followed for washing electric blankets providing the manufacturer states the blanket is machine washable. Most manufacturers do not recommend dry cleaning because some cleaning materials are injurious to the wiring system.

Draperies, curtains, bedspreads can all be laundered in an automatic washer, but always follow the manufacturer's recommendation for washing. Just be sure that the fabric is colorfast and pre-shrunk. Before washing, shake curtains well to remove loose dust. Select normal wash action and normal spin speed in the normal cycle.

With the aid of an automatic washer and dryer, it doesn't take long to have the bedroom and all bedding as sweet and clean as the spring washed air. These handy appliances eliminate all that back-breaking spring-cleaning spree that used to upset households for days.

SKIM MILK

FRUIT MILK BLEND FOR CEREAL
1 pk. (10 or 12 oz.) sweetened frozen
peaches, raspberries or strawberries
1 qt. Skim Milk

Cut frozen fruit package contents into
squares. Combine fruit and milk in
blender or use egg beater... blend
until smooth. Use on regular or pre-
sweetened corn flakes or any cereal
you prefer. Yield: Enough for six serv-
ings.

SNOWY CUSTARD
5 egg whites
1/2 cup sugar
1/4 teaspoon salt
1 teaspoon vanilla
1/4 teaspoon nutmeg
2 1/2 cups skim milk (warm but not
scalded)

Beat egg whites slightly, add sugar,
salt, vanilla and nutmeg, beat gently
just enough to blend. Gradually stir in
the warm milk until blended. Pour in-
to five 6 oz. custard cups. Place cups
in a pan of warm water so that water
is as high as custard. Bake in a slow
(325°) oven until knife inserted halfway
between the outer rim and center of
custard comes out clean, 45 to 60 min-
utes. Remove custard from water and
cool. Cover and refrigerate. Serve with
fresh fruit 5 servings.

PRUNE WHIP
1 envelope unflavored gelatin
1/4 cup cold skimmed milk
1/2 cup hot skimmed milk
1 cup sugar
2 tablespoons lemon juice
1/2 teaspoon grated lemon rind
1/4 to 1 cup prune pulp (use baby food
or cooked, puréed, dried prunes)

4 egg whites

Soften gelatin a few minutes in cold
skimmed milk. Add hot milk and mix
until gelatin is dissolved. Stir in sugar,
lemon juice, lemon rind, prune pulp.
Chill until syrupy. Beat frothy. Fold in
egg whites, beaten until stiff. Chill un-
til set. Spoon into serving dishes.
Makes 6 to 8 servings.

"THE BARBER OF SEVILLE"

OU Series Closing on Rossini

The throat and rib tickling tunes of the comic opera, "The Barber of Seville" will be heard in Pontiac Northern High School auditorium at 8:15 p.m. April 11.

Gioacchino Rossini's opera will be presented by the Turnau Opera Players as the final program of this season's Oakland University—Community Arts Council concert series.

The three acts of the nineteenth century comic opera will be sung in a new English adaptation which reproduces the vigor of the Italian libretto.

PURSUIT OF LOVE

Its plot centers around the amorous pursuit of the beautiful Rosina by the romantic Count Almaviva and the elderly Dr. Bartolo.

The Turnau Opera Players is a seven-year-old company which has staged over 250 performances of 30 operas. Company manager is Ward Pinner and the musical director is Yehudi Wyner.

Appearing in the April 11 performance will be Alan Baker, Lucille Sullam, Carolyn Christian, J. B. Davis, Don Yule and Marie Pinner. Tickets are available by contacting the Division of Continuing Education, Oakland University.

"Appointments not always necessary"

Police Talks to Fashionettes

A Pontiac police officer from the traffic enforcement bureau discussed his department at the Tuesday evening meeting of the Fashionette Club in the Adah Shelly Library.

Officer James Lewis Ockerman, also of the public relations department, explained how the department tries to prevent accidents through traffic control education, enforcement and engineering.

Members Mrs. John Hoffman and Mrs. Frederick Root also participated in the program.

As They Are Bent So Do They Show

Greater variety in arrangements using pussy willow can be attained if some of their stems are curved.

To do this, the Society of American Florists suggests: Grasp the stem end firmly with thumbs underneath and fingers on top. Curve the stem over the thumbs, gently softening fibers with both thumbs.

Continue this to the tips, working carefully between catkins.

Mr. and Mrs. J. D. Morse of South Johnson Avenue announce the engagement of their daughter, Ruby Carol Millikan to Robert Lloyd, son of the John Lloyds of South Rose-lawn Drive.

Set Stole Softly on Your Shoulders

A stole, whether fur, wool or silk, is a graceful item of feminine attire.

Let it fall softly about your shoulders. You won't look graceful if you clutch it firmly in front as though you would freeze without it.

OUR PONTIAC MALL STORE IS OPEN EVERY NIGHT TO 9 P.M.

The government of Saudi Arabia has an adult education program designed to combat illiteracy including 87 literacy schools with an enrollment of 9,000.

These Pupils Concentrated for Honors

Central Michigan University has placed 625 students on the honor roll for the fall semester, according to Dean C. Milton Pike.

From Pontiac are: Francis A. Cinque, Priscilla M. Dawe, Joanne Dembinski, Mabel C. Dickinson, Louella E. Ely, Barbara J. Hillier, Kathryn A. Kesti and Robert W. Murphy.

Birmingham students Donna Jean Conrad and Susan Whittlessey were honored, also Teri G. Thomas, Bloomfield Hills.

OTHERS HONORED

From Orchard Lake are Michael F. Paddy and James W. Watkins; Linda Joyce Meyers, Keego Harbor; Charles L. Stewart, Orionville; Judith A. Redman, Oxford; Elizabeth Ann Venie, Union Lake; James W. Balkwell, Walled Lake.

Still others are Joan L. Cogdill, Lawrence Kupferschmidt and Kathryn Lynn Murphy, Farmington; Leslee J. Thomas, Highland; Jeffery A. Bennett and James E. Huber, Holly.

Fifty years ago today Mr. and Mrs. William H. Hulliker of Pingree Avenue were wed in Pontiac. She was 18 and he 21. They now have three daughters, Mrs. Benson Savedge, Mrs. Raymond Fair of Ferndale and Mrs. Faustin Dobski; nine grandchildren and eight great-grandchildren. The couples' daughters and their husbands will take them to the Elks Saturday for a dinner celebration.

Silver Lake Unit Attends Luncheon

Mrs. Benjamin D'Arcy opened her Huntington Park Drive home to members of the Silver Lake Branch, Woman's National Farm and Garden Association for their Wednesday luncheon meeting.

Sharing hostess honors were Mrs. Forest Bouck and Mrs. James Stein. Mrs. L. E. Carter of Cherokee Lane discussed landscaping with shrubs. Slides were shown.

Rockers and legs of chairs that are waxed will not mar floors.

Cure Chills With Hot Water

When children develop chills, due to prolonged and excessive chilling of wet or damp feet, medical authorities recommend this simple treatment: a foot bath every evening with plenty of soap and hot water; thorough, brisk drying with a towel; and a dusting of powder or ordinary corn starch.

Check Wardrobe for New Season

This is a good time to check over your spring wardrobe. Try on all of last year's clothes, have alterations made if needed, and discard anything that you know you won't wear.

Emotionally Disturbed Children

Clinics, Special Teams, Programs Aid Patients

(Editor's Note—The following is the third of four articles on the plight of emotionally disturbed children in Michigan. The series was written by William E. Cote, Ypsilanti Press staff writer, for the Associated Press.)

By WILLIAM E. COTE
Ypsilanti Press Staff Writer
YPSILANTI (AP) — Dick, 16, attended an area high school. He was intelligent and, although his grades shifted from one extreme to the other, he was very quiet and caused no trouble.

Actually, he was a human bomb, ready to explode. He was, doctors later diagnosed, a "paranoid schizophrenic" — a person with a "split personality," who suffered from delusions and felt others were persecuting him. He might have decided suddenly to kill his "enemies" and himself.

Fortunately, Dick didn't explode. His mother asked for psychiatric help for him and he was placed in Ypsilanti State Hospital.

EXTREME CASE

Dick's case was extreme, but teachers, parents, guidance workers, psychologists and psychiatrists are working to spot and help children with emotional problems before they go as far as Dick.

No one fully aware of the problem is satisfied with resources now available to help disturbed children. But the Ypsilanti — Ann Arbor — Wayne area, for example has several ways to attack the problem, including these established facilities:

Huron Valley Child Guidance Clinic in Ypsilanti, Ypsilanti

State Hospital, Children's Hospital-Psychiatric Unit of the University of Michigan Medical

Tax Tips

(EDITOR'S NOTE — The following income tax information is furnished by the Internal Revenue Service as a public service.)

Q: In 1946 I purchased a house for \$5,000. In 1963 I sold it for \$10,000 and purchased a new home for \$15,000. Do I have a taxable gain of \$5,000?

A: If you sell your residence at a gain, and within one year before or after the sale you purchase and occupy another residence, none of the gain is taxable at the time of sale if the cost of the new residence equals or exceeds the sales price of the old residence. You must report the sale on Schedule D, but do not include the gain in taxable income. The \$5,000 gain must be subtracted from the cost of the new residence. The basis of your new residence therefore is \$10,000.

You may obtain from your local Internal Revenue Service Office, Form 2119, "Statement Concerning Sale or Exchange of Personal Residence," to show the details concerning the sale of the old residence and purchase of the new one.

For the answer to YOUR question, you should call your local Internal Revenue Service Office.

Center, the University of Michigan Neuropsychiatric Institute and special departments in the school systems themselves.

In most cases, a child's emotional problems are first and most easily seen when he enters school; faces different conditions and can be compared with other youngsters.

If the classroom teacher decides she cannot do enough for a child, he is referred to visiting teachers, who talk to the teacher, parents and child to try to work out a solution.

SAMPLE CASE

"At this point, a visiting teacher once discovered the reason one boy wasn't talking much was that his parents were deaf mutes and not because he was 'retarded or disturbed,'" said David P. Weikert, Ypsilanti School District psychologist.

If the child, his problems, and his home situation are very involved, the visiting teachers often recommend parents take the youngsters to the Huron Valley Child Guidance Clinic.

A screening appointment is

scheduled for both the child and his parents, coupled with a physical examination by the child's physician.

The whole clinic team of social workers, psychologists and psychiatrists then meets to pinpoint the child's problem. Another team conference lays out a treatment plan and parents are then asked to discuss it.

INTERVIEWS

There usually have been five or six preliminary interviews by this point and these may be enough to solve the problem, Miss Shoecraft said.

Emergency cases receive immediate attention. Miss Shoecraft said.

Charges to parents for clinic service are based on ability to pay. They accounted for about 10 per cent of the total clinic budget of \$106,344 in 1962. The remaining 90 per cent came from the State Department of Mental Health, county boards of supervisors, school districts, Community Chests and contributions.

Still more help can be obtained through private psychologists or psychiatrists.

But some troubled youngsters are found and helped too late. Some are never found at all. For them, the unhappiness and torment of a child's world too often follows them into the adult world where the stakes are even higher.

Next: How schools and other organizations attack the problem of disturbed children while there's still time to help them.

Prison Term Given for Part in Burglary

A 1½- to 4-year prison term was handed to 30-year-old Gary Crandall, 20, of 981 Cameron Tuesday for his part in a Jan. 30 break-in at a Pontiac gas station.

Crandall was permitted to draw a previous guilty plea to a burglary charge and plead to the lesser offense of larceny in a building.

He and Frederick Elmy, of 25 W. Tennyson, originally were accused of breaking into Bingley Sunoco station, 1153 N. Perry.

Elmy also pleaded guilty to larceny in a building and is awaiting sentencing.

Both were arrested after another Pontiac man being questioned by police implicated them in a number of burglaries.

Birth Records Quiz Thwarted

Moore said last night the records were "privileged matters" and refused to open them. He said he has "just begun my investigation" and

Jacoby on Bridge

Now you have Analyzed the lead and Reviewed the bidding. You Count 10 winners and three losers—provided you can make three diamond tricks.

There are nine winners and four losers if West can get in a diamond ruff.

Since you have decided that West's lead was a singleton you must take that first diamond and go after trumps.

If East has the ace of spades nothing is going to do you any good, but West has it and you wind up losing one spade, one heart and one diamond.

JACOBY

West might have led low from the king, but that seems most unlikely. He almost surely opened a singleton or doubleton and a little more thought should convince you that the lead was a singleton.

Committee Not Expected to Cut Romney's Proposed Budget

LANSING (AP) — House Republicans were told by the chairman of the House Ways and Means Committee Wednesday not to expect any cuts in Gov. George W. Romney's proposed \$232.7-million budget.

The word was given by Rep. Arnell Engstrom, R-Traverse City, in a Republican caucus following a brief evening session that ended the Easter recess.

House Speaker Allison Green, R-Kingston, told newsmen afterward that the ways and means committee, which has a reputation for severe cutbacks in requested appropriations, probably won't make any cuts in this year.

MINOR ADJUSTMENTS

"Engstrom's position was that there will be some minor adjustments within the budget bills themselves but the totals probably will be the same as requested by the governor," Green said.

"In some cases, they may even be a little higher," he said, adding that this applies in particular to capital outlay.

The committee may be ready to report out budget bills next Tuesday, moving them into position for debate by Wednesday, the speaker said.

The committee has been studying and holding hearings on some of the budget bills while the Senate Appropriations Committee worked on others.

BACKS SPECULATION

The report by Engstrom to the GOP caucus tends to bear out speculation that Romney would succeed in getting the bulk, if not all, of his record budget approved.

In 1963, the legislature approved a \$550-million budget, also a record. That was about \$5 million higher than the governor had originally requested, but contained internal changes.

Since proposing his 1963-64 budget, the governor has called for an additional appropriation of \$8 million from current surplus funds to accelerate the state's capital outlay program for new office buildings and community colleges.

The capital outlay increase was proposed, as part of a \$20 million combined spending and tax reduction plan, to take advantage of newly reported increases in state income.

The capital outlay acceleration plan would be financed by supplemental appropriations to the current budget but also would need ways and means committee approval.

Green said he foresees the budget bills and the congressional apportionment prob-

lem coming together in the legislature, possibly creating a logjam of activity.

He indicated, however, that

consideration of the appropriations bills probably would take priority over redistricting "unless it is clear we can get quick

action."

bipartisan agreement on redistricting."

In Wednesday night's action, the House approved Senate

amendments to a bill concerning temporary appointments of officials to fill vacancies and send it to the governor, and re-

ferred some other bills, tabled earlier, back to committees.

Only brief sessions were slated today as legislators pre-

pared for a three-day visit to Detroit.

The lawmakers and their wives, plus some staff mem-

bers, are to be guests of the city, with the bills paid by private industry and commercial interests.

Nixon Backers Anger Barry

LINCOLN, Neb. (UPI) — A concentrated write-in campaign for Richard M. Nixon in the Nebraska presidential primary has touched off demands by supporters of Sen. Barry Goldwater that Nixon repudiate the move.

Nebraska gave Nixon more votes by population than any other state in the 1960 election.

Goldwater is the only Republican presidential hopeful whose name will appear on the printed ballot for the May 12 election.

State Sen. Marvin Stromer of Lincoln, unofficial coordinator of the Nixon write-in drive, said more than 30 persons, including some Republicans holding official positions in the party, are behind the drive. He declined to name any party officials.

"This is an organized effort," Stromer said, "to write in the name of the former vice president." Stromer said the group feels "Nixon is prepared to do battle in the field of foreign affairs," adding the backers of Nixon feel U.S. foreign policy "will be the key issue in the 1964 presidential campaign."

NONE INVOLVED

Nebraska Republican National Committee Chairman Donald Ross of Omaha said he knew of no such GOP official who was "involved in this venture."

"Both of our U.S. senators, all three of our congressmen, most major state candidates and officeholders and most of our state party officials, including the state chairman and myself, have publicly stated that we are backing Sen. Goldwater," Ross said.

Ross pointed out that Nixon has a "nonpolitical" speech scheduled in Omaha a few days before the May 12 primary.

"If Mr. Nixon does ask them to stop this write-in campaign," Ross said, "his appearance just before the primary could no longer be considered nonpolitical."

Heart Is a Sturdy Organ Capable of Taking Punishment

(Editor's Note—This is the fourth article in a series on diseases of the heart and blood circulation system generally known as cardiovascular disease. The series is produced in cooperation with the Michigan Heart Association, a member of the United Fund.)

A heart is one of the most efficient one-way type pumps ever evolved or designed. The hearts of almost all mammals, from mice to whales and including man, are very much alike, except for size.

The bigger the heart, generally the slower the beat. The heart of a big person is usually a little slower than that of a small person.

Dr. Paul Dudley White, former President Eisenhower's heart specialist and one of the world's leading researchers on hearts, once was able to record the heart beat of a whale and learned it was 15 times a minute, contrasted to 84 for man, and several hundred for mice.

The Michigan Heart Association, discussing some aspects of hearts and heart and artery disease for readers of the press says that the work the human hearts does in a life time adds up to enough energy to lift a battleship 14 feet out of water.

LESS THAN POUND
"It weighs less than a pound and is only a little larger than a fist," the association explained. "It is a four-chamber affair, really a double pump."

"The heart itself doesn't suffer from many ailments. But it is not an organ performing chemical functions, like a kidney or liver, but a pump, doing a mechanical job."

"The fact that its job is all important, that without it life ceases, does not change the character or nature of what it does."

Perhaps because it is so all important, the heart is rather a sturdy organ.

TAKES ABUSE
"It can take abuse, quite a bit of abuse, but this varies from individual to individual, and any individual is smart to keep that abuse to a minimum," the association said.

Blood passes through the heart twice, first to the lungs, then to the body, in its routine circulation.

The blood goes to the body through the arteries, and after being used and giving up its oxygen and food, is returned to the heart through the veins.

There it enters the first of the double pumps, the right auricle and ventricle, which drives it to

the lungs where it gets rid of waste carbon dioxide and picks up fresh oxygen.

RED BLOOD

The bright red blood then comes back to the other double pump, the left auricle and ven-

tricle, where it is pressured into the great aorta—the big artery which leads to all parts of the body.

Because it has the biggest job, the left ventricle is the biggest and strongest muscle in the heart.

The upper chambers, the auricles, have a double job; they act as gathering chambers for blood coming to the heart. Then they contract to push the blood into the ventricles, which in a coordinated, electrically controlled rhythm, give it a second and more powerful impulse.

A check valve between the two chambers keeps blood from flowing back.

Experiments indicate that the contractions of both chambers are needed to build up enough

pressure to push an adequate supply of blood to all parts of the body; the ventricles alone do not have enough power.

The heart has a tough muscular wall (myocardium), is surrounded by a fiber like bag (pericardium) and is lined by

a thin, strong, membrane (endocardium).

A wall (septum) divides the heart cavity down the middle into the "right heart" and "left heart." Each of its four chambers has a valve at both ends, a total of six.

Each valve, though made of delicate filaments, acts like a ball check, and opens and closes in response to blood pressure. This is why a valve can be replaced surgically with an artificial valve, which is just a ball in a tight-fitting seal.

Red Wings Bid for 3rd Semifinal Win

Detroit Squad Meets Chicago on Home Ice

Victory Would Give Motor City Team a 3-1 Lead

DETROIT (AP) — Everything's been going for the Detroit Red Wings and if the pattern holds they may make it three-in-a-row over the Chicago Black Hawks in their Stanley Cup hockey semifinal series tonight.

The Wings, 3-1 over the Hawks after their 3-0 shutout victory Tuesday night, would take a commanding margin if they win the fourth contest.

SUNDAY GAME

A fifth game will be played in Chicago Sunday night. If the Hawks lose tonight they would have to come out on top in three straight games to survive for the finale.

All the shots seemed to have been going the Red Wings' way. Coach Sid Abel's Wings have hamstrung Chicago's great scoring pair, Stan Mikita and Bobby Hull. Hull has yet to score in the series and Mikita has counted but once.

Detroit's defenders also have done a thorough checking job on Kenny Wharram.

"The Wings have been going after Mikita, catching Hull fast and Wharram just isn't getting to the puck," said a worried Chicago coach Billy Reay.

Reay said he had some changes in mind but he didn't disclose them.

Both Reay and Hull praised the Red Wings.

TEAM EFFORT

Detroit is getting a "real team effort," said Hull, admitting the Wings have "outskated and outstuffed us."

"They did the same thing to us last year," Hull recalled ruefully.

Last year the Wings dropped the first two games of the semifinals to the Hawks and came back to win the next four.

Reay said the Detroit defense has been "in the right place at the right time."

Detroit's injured goalie Terry Sawchuk planned the same program today as he had Tuesday — from the hospital to the ice rink at Olympia Stadium.

Terry, who hurt back muscles in Sunday night's game, went from Detroit to the game Tuesday night to mark up his 11th NHL playoff shutout. His traction treatments continued at the hospital and he'll be going from bed to rink tonight again.

Weather Postpones Oxford-Holly Meet

The weatherman cast his chilly shadow over the field at Oxford Tuesday, forcing the postponement of the scheduled Oxford-Holly track meet.

Oxford was leading 24-12 at the end of the field events, but the coaches agreed to postpone the remaining contests because of the condition of the track.

No date for a rematch was set.

Ex-Piston Ends Pro Cage Career

BALTIMORE (U) — Gene Shue, at one time the highest scoring guard in the National Basketball Association, announced today his retirement from professional basketball.

The ex-Detroit Piston player made wound up his 16-year career in his home town. The Baltimore Bullets acquired Shue early this season along with center Paul Hogue in a deal which sent center Billy McGill to the New York Knicks.

Shue's retirement came as no great surprise. He was used sparingly by the Bullets during the last half of the season, and did not dress for a number of games.

"I feel that the time has come for me to leave the active playing end of professional basketball," Shue said.

Shue, who was at Bullets coach Bob Leonard's right hand during every huddle on the professional basketball.

GENE SHUE

the Baltimore bench, did not say whether he has plans to continue in the game in any other capacity.

Shue, who lives in suburban Timonium, said he will continue his association with a Baltimore insurance company.

Shue started his career at the University of Maryland. He scored 10,657 points in his pro career and played in five NBA All-Star games.

Shue played five seasons at Detroit, one at Fort Wayne, one-half season at Philadelphia and 2½ seasons with New York before coming to Baltimore.

During his stay at Detroit, Shue became the highest scoring guard in pro basketball history. His highest average with the Pistons was 22.8 points a game.

'Spare Man' Stars in Tiger Loss

Jake Wood Bidding for Job

LAKELAND, Fla. (AP) — Jake Wood has been doing his best to land a regular spot in the Detroit Tigers lineup but played 47 games there despite a .333 batting average and capable fielding in the pinch.

Wood collected two of Detroit's six hits Wednesday as the Tigers bowed to the New York Yankees 4-2.

Wood played shortstop after Dick McAuliffe reported he had a fever and was sent home.

IMPRESSED

Manager Charlie Dressen has been impressed with everything Wood has done this spring but feels he owes Don Wert the

chance to make the grade at third base.

Wert did not play the position at all in spring training last year but played 47 games there after the season started.

If Wood is to break into the lineup at all it would be at third base.

"When we got Jerry Lumpe in the trade with Kansas City," Dressen said, "I knew we had to get a utility man to play all the positions especially in the infield. I felt Wood was our man."

"Sure, he is doing a good job and probably could fill the bill at third. But I have to give Wert the chance."

"Who knows, maybe Wood will wind up as our third baseman. But if today were opening day, Wert would start there," he concluded.

2 BAD PITCHES

Except for two bad pitches, Detroit starter Phil Regan held the Yankees in check Wednesday.

The two bad pitches resulted in a lead off homer by Tony Kubek in the fourth inning and a three-run circuit blast by Johnny Blanchard later in the same frame.

Regan retired the first nine New Yorkers he faced and had a 1-0 lead going into the fourth

as a result of Wood's first inning triple and a sacrifice fly by Lumpe.

The Yankees got just two more hits off Regan in the next three innings. Dick Egan was just as stingy, giving up a lone single in two innings of relief. The Tigers were held to three hits through the first five innings by Bud Daley.

Detroit picked up its final run in the eighth inning with Bob Meyer on the mound. Don Demeter doubled and raced home on Norm Cash's second single of the game.

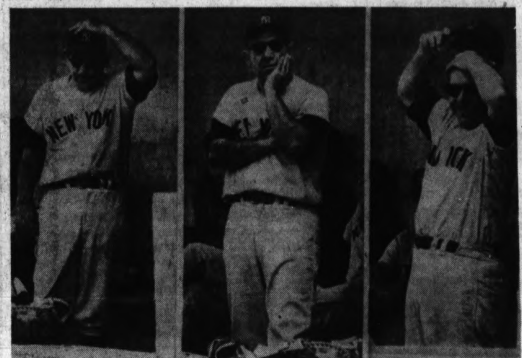

Dressen was not disturbed by Regan's bad inning and commented, "I bet he doesn't throw that pitch to Blanchard again." Dressen accompanied the Detroit "B" team to Tampa Wednesday morning where it played a 2-2 tie with the Cincinnati "B" squad.

Gordon Coleman's two-run homer in the ninth inning off Bill Paul gave the Reds the tie. Joe Spurnia pitched the first six innings for Detroit and did not walk a man while giving up one hit.

George Smith had three of the Tigers seven hits off Jim Maloney, while Parn Goffey had a pair. One of Smith's hits was a home run. Bill Roman's sacrifice fly brought in the other Detroit run.

The Box Score:

Skiing Okay at Four Sites

GRAND RAPIDS (AP) Four area winter resorts had skiing very good to excellent, according to reports Wednesday through the West Michigan Tourist Association here.

Boysie Highlands at Harbor Springs had an 8 - inch base and 6 inches of packed powder snow with skiing excellent; Boyne Mountain Lodge at Boyne Falls had 10 to 60 inches base, 6 inches packed powder and skiing excellent; Nub's Nob at Harbor Springs had 30 inches of base, skiing excellent and open through Sunday, and Thunder Mountain at Boyne Falls had a 12 - inch base, 4 inches of new snow and skiing very good.

St. Louis Five Trims Warriors

SAN FRANCISCO (AP) — St. Louis finesse keeps the pressure on the muscular young San Francisco Warriors in the National Basketball Association's Western playoff finals and the pressure proved too much, at least in the opening game.

Leading by 20 points four minutes into the second quarter, the Warriors faltered and the heads up play of such veterans as Richie Guerin, Cliff Hagan and Bob Pettit through the Hawks a 116-111 victory.

GAME TONIGHT

So in the West the St. Louis club leads 1-0 and meet the Warriors at the Cow Palace in game

No. 2 on Friday night. Boston leads Cincinnati 1-0 in the East with their second meeting tonight in Boston.

Wilt Chamberlain hit 16 points as the Warriors built a 32-0 first quarter lead and they built it to a 47-27 advantage before the Hawks began surging back. Hagan held the hot shooting hand with 13 second quarter points as the Hawks narrowed the count to 58-54 at the half. Pettit took over the guarding of Chamberlain for the period and held him to five.

In the second half it was Guerin's turn and he scored 23 points, bringing his total to 32, second only to Chamberlain's 37. Fourteen of Richie's points came on free throws.

Hagan suffered a bruised knee in the second half and Len Wilkens turned an ankle, but both are expected back in action for the Hawks on Friday night.

Hagan, used sparingly in the second half, scored 23 for St. Louis. Center Zelmo Beaty hit for 24 including 18 in the second half.

At Boston, the Cincinnati club still hopes for improvement in their injured ace rebounder Jerry Lucas. The Royals lost to the defending NBA champs 108-87 in their opening playoff game Tuesday.

YANKEES DO 'CASH' IN — Detroit Tigers' Norm Cash was an easy victim on this force play that came in the sixth inning of a game with the New York Yankees at Lakeland, Fla., yesterday. Phil Linz, Yankee shortstop, tried to complete a double play but Tigers' Billy Bruton beat the toss to first. Yankees won, 4-2.

Lakeland, Fla., yesterday. Phil Linz, Yankee shortstop, tried to complete a double play but Tigers' Billy Bruton beat the toss to first. Yankees won, 4-2.

Tebbetts Suffers Coronary

Howe's Punch Brings Suit by Hawk Fan

CHICAGO, Ill. (AP) — Gordie Howe was sued for \$25,000 damages Wednesday by a Chicago Black Hawks fan who says the Red Wings star punched him in the mouth.

"Howe's unprovoked attack," charged Robert Rosenthal, 20, "humiliated, embarrassed and held (me) up to public ridicule."

Howe, in his words Monday, "punched an abusive Chicago Black Hawk fan a good one." It happened as the Red Wings left Chicago Stadium after their 5-4 victory over the Hawks Sunday night, Howe said.

Rosenthal's earlier attempt to obtain a warrant against Howe was thwarted by Judge John Sullivan of Monroe St. Court.

"On the basis of the evidence you've given me," Sullivan said, "any judgment in my opinion would find Mr. Howe not guilty, since you admitted you provoked him."

It took eight stitches to close a cut on his lip, Rosenthal said in the suit, adding the cut became infected.

AP Photo

HOSPITALIZED — Cleveland Indian manager Birdie Tebbetts is in a Tucson, Ariz., hospital today after suffering a coronary attack Wednesday. He is believed in no danger.

Coach to Run Squad; Pilot in No Danger

TUCSON, Ariz. (UPI) — Birdie Tebbetts, manager of the Cleveland Indians, suffered a heart attack Wednesday night and doctors indicated he might not be able to resume his duties during the coming season.

General Manager Gabe Paul said today third base coach George Strickland would take over for Tebbetts "until such time as we come to a decision on what must be done."

Tebbetts was reported in satisfactory condition and out of danger at St. Mary's Hospital.

He played golf Wednesday and had dinner Wednesday evening at the Highway House Motel, where the American League team is staying during spring training.

Tebbetts' wife, Mary, said he complained of a pain in his chest just before being taken to the hospital.

Tebbetts was a catcher during his 1-year major league career with the Detroit, Tiger, Boston Red Sox and Cleveland. He quit as a player in 1952 with a .270 lifetime batting mark.

The Providence, R.I., College graduate was the American League's All-Star Game catcher three times.

He managed the National League Cincinnati Redlegs from 1954-56, and in 1958 joined the Milwaukee Braves as executive vice president.

Tebbetts, however, left the post of 11 years to manage the Braves from the latter part of the 1961 season and in 1962. He became Cleveland's manager that fall.

Last season his rookie dominated club finished fifth in the AL standings, 25½ games behind the champion New York Yankees.

Tebbetts is starting the second year on his three-year contract as manager of the Indians.

PBA Top Spot Held by Cox

DENVER (U) — Darryl Cox of Bellingham, Wash., held a 46-pin lead over runnerup Jerry McCoy of Fort Worth, Tex., today at the halfway mark in the 24-game qualifier of the Professional Bowlers Association's \$26,000 Denver Open.

Cox put together six-game blocks of 1,239 and 1,339 for a 2,578 total. McCoy had 1,244 and 1,286 in his two sets Wednesday for 2,532.

Cox also had the highest single game of the day, 277. Bill Lillard of Dallas, Tex., shot the highest mark series, 1,340.

Pontiac's Monroe Moore rallied from a slow start (1,113 for six games) to climb to 45th place with a 1,251 second block and a 2,344 total.

This includes evening highs of 234-226 and an afternoon spread of 169-204.

Show Dog Goes Astray Missing in Cat Chase

LA GRANGE, Ill. (U) — Beau-A-Rill Crest Chief, a very special dog, is lost, and it happened in a very ordinary way.

In dog fence circles, the beagle is known as Ch. Beau-A-Rill Crest Chief. The Ch. standing for champion because the dog was the third top show winner in the United States in 1963.

In the home of his owners, John T. Refuena and his wife, Jean, the champion beagle answers to Beau.

Beau has been missing since March 16 when the dog spied a cat in the Refuena's back yard and took off after it just like any other dog.

Beau disappeared over the back yard fence and hasn't been seen since.

"I'm certain Beau wasn't struck by an auto because I've been up and down every street," said his worried owner. "I think somebody just decided to adopt the dog as a pet."

Refuena is offering a reward in hopes of getting the dog back in time to enter it in the International Kennel Club of Chicago Dog Show which opens Saturday.

Tourney Favorite a Loser in Pro-Am

ST. PETERSBURG, Fla. (AP) — Marilyn Smith established herself as a favorite to win the St. Petersburg Women's Open Golf Tournament starting today when she turned in the low card in the pro-am preliminary.

However, she didn't get the \$1,000 prize money because her amateur was disqualified when an amateur member was discovered who had posted a wrong card. Her round of 76, four under women's par on the 4,237-yard Sunset Country Club course, was lowest in the field of 37 pros.

They tied off today in quest of the \$10,000 in prize money offered for the 72-hole tournament.

In Inter-Lakes Baseball Action

PNH, Vikings Pre-Season Favorites

(EDITOR'S NOTE: This is the first in a series of pre-season roundups of county high school baseball leagues. Today we scan the Inter-Lakes Conference.)

If the ball takes the bounces anticipated by pre-season pollsters, look for Pontiac Northern and Walled Lake Vikings to slug it out for the Inter-Lakes League baseball title.

The two squads ran two-three behind league champion Berkeley last year, but the Bears graduated their championship team and will open the new campaign in a darkhorse role.

Waterford could pull a few surprises if coach Stu Thorell finds some strength in his newcomers, and the same story holds true for Farmington and Southfield.

Southfield was slated to start the season with a home date against Ferndale Friday. The other five teams in the loop open April 14.

12 LETTERMEN

PNH coach Arnie Wilson has 12 lettermen returning from the 1963 squad that racked up an overall mark of 12-3.

Much of the Huskies' success may ride on the pitching arms of Roger Hayward, Mike Burlew and Bruce Weber.

Burlew, team captain, chalked up a 5-0 record last year on the mound and batted over .400 while sharing the shortstop assignment.

Hayward, a senior, was an all-league selection last year. He turned in a 1-3 record on the mound and batted .350 while holding down the first base position.

Sharing the catching duties will be seniors Doug Ingamells and Bruce Mann.

The Huskies have a lot of speed in the infield with Jim Kimmel at second, Burlew or Dave Tinkus at shortstop and John Krouse at third. Steve Daniels will alternate with Hayward at first.

Two outfield positions are

taken. Wilson is turning the left field job over to Bob Turner, who batted over .500 with the junior varsity last year. Fleet Jim DeFlorio will cover center-field.

"We're flipping coins for the right field job," Wilson said. Hayward or Daniels will get the first call. "But if Roger is pitching and Daniels is on first, then I don't know who will be in right."

10 RETURNES

Coach Al Roepke has 10 hard-hitting veterans returning at Walled Lake.

On hand to worry enemy pitchers will be Dave Fagerlie (.370), Jim Broome (.380), Dick Trudeau (.380) and Don Freeman (.380).

Starting mound duties for the Vikings will be John Thomas, Don Rickard (.83) and John Lundquist (.2-2).

Roepke indicated he will go with Fagerlie (.1st), Broome (2nd) and Trudeau (ss) in the infield. Freeman and Don Robinson will roam the outfield.

Three positions are up for grabs - catcher, third and an outfield vacancy. Thorell has a few holes to patch up at Waterford.

Hitting may be his biggest problem. Chuck Swenson, one of six returning lettermen, is the top batter (.310) back from the '63 squad that compiled a 7-9 mark.

Two experienced hurlers are back - Larry McGuffey (4-1) and Gary Grant (2-1). Other veterans are Dennis Annen, catcher, Larry Hould, infield, and Vince Deni, outfield.

The Skippers will open the season April 14, playing host to Rochester.

Farmington has six veterans from the 1963 squad that chalked up a 5-9 record.

The club has a lot of depth in the pitching staff in Gary Heist, Bill Freeman and Steve Page, a lefthander, is a transfer student from Missouri.

Other returning lettermen are Keith Watson, Carl Mick, Dick Johnston, Jim Stephenson and Terry Neilson.

Municipal Pro Dies

ANN ARBOR (UPI) — Bob Applegate, 49, long-time pro at the Ann Arbor municipal golf course, was found dead late Wednesday in his apartment at the Huron Towers.

Pontiac Press Photo

PLANNING AHEAD — Pontiac Northern baseball coach Arnie Wilson (left) discusses plans for the Inter-Lakes League race with letter-winning catcher Doug Ingamells. A 1963 regular, Ingamells may share the duties this year with Bruce Mann.

Jack Dempsey Asks Damages

NEW YORK (UPI) — Former heavyweight boxing champion Jack Dempsey has filed a suit asking \$3 million damages from Time, Inc., for an article in its magazine, Sports Illustrated, which said he used loaded gloves to beat Jess Willard for the title in 1919.

The suit, filed yesterday in state supreme court in Manhattan, said the magazine "falsely charged" Dempsey used weighted gloves to gain the title.

The article, which appeared in the Jan. 13 issue of Sports Illustrated, was signed by Jack (Doc) Kearns, who was in Dempsey's corner during the fight. The article quoted Kearns as saying Dempsey did not know the gloves were loaded.

Florida State 9 Hands Spartans 1st Road Loss

TALLAHASSEE, Fla. (UPI)—Michigan State's touring baseball team was out for revenge today for the first defeat it has suffered on its 1964 spring road trip.

The Spartans play a second game against MSU Coach Danny Lewishier's old charges, Florida State, who inflicted Michigan State's first defeat Wednesday by winning 10-5. Florida State, incidentally, is coached by Fred Hatfield, former third baseman for the Detroit Tigers.

It was a big seven-run fifth inning that proved Michigan State's undoing in Wednesday's game. Bill Collins, who started for the Spartans, was charged with all the runs and took the defeat.

Cliff Ranew was credited with the victory.

Jerry Sutton, MSU's star first baseman, hit a two-run homer in the sixth inning that went nearly 400 feet into deep right center.

After today's game, Michigan State travels to Winston Salem, N.C. to play Wake Forest on Friday. That game wraps up the 1964 spring training trip for the Spartans.

Olympic Games Preview Likely

Top Talent Opens AAU Swim Meet

BARTLESVILLE, Okla. (AP)—An Olympic flavored match between some of the world's best swimmers highlighted today's opening of the Men's National AAU Indoor Swimming and Diving Championships.

The first event, the 400-yard individual medley, pitted West Germany's record-holding Gerhardt Hetz against America's top all-round swimmers.

In the second opening-day feature, Roy Saari started his bid for a third straight triple victory against a 1,650-yard freestyle field led by high school boy Don Schollander.

Preliminary competition this afternoon determined the six finalists who will meet tonight in the individual medley finals. The winner of the 1,650 will be determined by comparative times of heats this afternoon and tonight.

Hetz' coach, Janos Satori, said the winner of the medley here could turn out to be the

Olympic champion to be crowned next fall in Tokyo.

He named the chief challengers as Rich McGeah of the University of Southern California, who set an American record of 16.4 minutes at last week's National Collegiate Championships; Dick Roth, a Santa Clara, Calif. high school junior, and possibly Ed Townsend, a close runner-up to McGeah last week.

This will be Hetz' first competition in an American meet and first try at the 400-yard distance, though he holds the world's record in the 400-meter medley.

Saari won the 400-yard medley at last year's AAU, but is expected to pass it up this year. The Saari-Schollander duel features an unorthodox swimmer against a technically perfect swimmer.

Saari, defending champion in the 1,650 and holder of the world's record at 1,500 meters, uses the regular flutter kick only when he shifts to his "speed stroke." Most of the time he uses a sort of a side stroke scissors kick. Schollander sticks to the standard flutter kick with a style regarded as

beautifully correct. Schollander, also a Santa Clara high schooler, has been Saari's chief rival in the distance events.

Saari, described by Satori as "fantastic," is expected to try to add an AAU title in a different event this year.

In the last two AAU indoor meets, Saari has won the two long free style events twice, the 200-yard freestyle and the 400-yard medley once. This year he's expected to try the 200-yard medley, which he won in record time at the NCAA meet.

The top six Americans in each event will qualify for Olympic trials next July.

Kentucky Derby Favorites May Meet in Tuneup

LEXINGTON, Ky. (AP)—Hill Rise and Northern Dancer, the early favorites for the Kentucky Derby, probably will get a chance to find out which is the best horse 10 days before the classic Run for the Roses.

Bill Finnegan, who trains Hill Rise, indicated Thursday he is pointing the El Peco Ranch colt for the \$25,000-added Blue Grass Stakes at Keeneland and an early showdown with Northern Dancer, the even-money favorite to win Saturday's Florida Derby.

Horatio Luro, who trains Dancer, has said he would send his colt in the 1 1/4-mile event at Keeneland.

"We'll just separate the men from the boys then," Finnegan said, adding that if Hill Rise went in the Blue Grass he would not have a race over the Churchill Downs surface before the Derby.

The Blue Grass, at 1 1/4 miles is the last distance prep for the Derby and will be run April 23. The Derby is May 2.

San Francisco Giants

Reduce Roster to 28

PHOENIX, Ariz. (AP) — The San Francisco Giants trimmed their roster to 28 players, the number allowed when regular season play opens in San Francisco April 14.

Sent to the Giants' minor league training base at Casa Grande were pitcher Frank Linzy, catcher Dick Dietz and outfielders Arlo Engel and Dan Markowski.

Ralph Kercheval, former football star, trains horses for financier Robert Lehman.

Seek Boxing Commissioner

Ring Writers Make Petition

Telegraph Resolution to Senator Hart

NEW YORK (AP) — The Boxing Writers' Association (BWA) added its voice today to the chorus asking for a national boxing commissioner.

Barney Nagler of the New York Morning Telegraph, president of the BWA, telegraphed a "commissioner" resolution to Sen. Philip A. Hart, D-Mich., in Washington, D. C.

Senator Hart is chairman of Senate's sub-committee on anti-trust and monopoly, which has been holding hearings recently on the sport.

The resolution, voted unanimously at Wednesday's BWA luncheon, assured the senator that the BWA was wholeheartedly behind his committee's effort to get "Bill S. 1474" enacted into legislation.

That bill, drawn up by the late Sen. Estes Kefauver of Tennessee when he was head of Senator Hart's sub-committee, was designed primarily "to curb monopolistic control of professional boxing and to establish within the Department of Justice the office of the national boxing commissioner."

Bill S. 1474 was introduced into the Senate by Sen. Kefauver on March 29, 1961. It was read twice and then referred to the judiciary committee, where it still remains.

Windsor Team Coasts

WINDSOR, Ont. (AP) — The Windsor Bulldogs scored four goals in less than six minutes in the first period Wednesday night and coasted to a 6-2 victory over the Fort Wayne Komets before 1,645 fans.

The Bulldogs' victory tied the best-of-seven International Hockey League semifinal series at 1-1. The third game is in Fort Wayne Saturday with the fourth here Sunday afternoon.

MSU Gridders Await Spring Drills Monday

EAST LANSING (AP) — The end of the offensive backfield is gone with graduation . . . the two top quarterbacks are with the baseball team . . . there are big holes to be plugged in the line.

"Problems again," sighed coach Duffy Daugherty as he faced the start of his 11th season as head football coach at Michigan State.

Daugherty successfully solved a host of similar problems last year, with a 6-2-1 season. But his final reach for glory was frustrated when Illinois beat the Spartans 13-0 in the final game, beating them out of the Big Ten title and the coveted trip to the Rose Bowl.

Spring football workouts start Monday for the Spartans. If it snows, Daugherty says he'll take his squad indoors to Jenison Fieldhouse.

"We'll have to find a completely new offensive backfield," he said in summing up the job ahead. "There will be a lot of experimenting and position changes."

MAY 9 GAME

The Spartan squad will work afternoons only, four days a week for five weeks, with the windup the annual inter-squad game on May 9.

Fourteen lettermen are gone, including a dozen of the top 22 men from the 1963 season. About 85 candidates are expected and the roster will have more than 50 per cent freshmen. There will be 22 lettermen returning.

The No. 1 and No. 2 quarterbacks, Steve Juday and Dick Proebstle, are with the baseball team. So is Buddy Owens, the top center. All three will be back in the fall, however.

The top four ground-gainers from last season—fullback Roger Lopes and halfbacks Sherman

Lewis, Dewey Lincoln and Ron Rubick—all have used up their eligibility.

LINEMEN MISSING

Linemen missing include such solid performers as Earl Lattimer, Dan Underwood, Matt Snorton, Ed Lohamer, Dave Herman and Charlie Brown.

The Spartans are strong in one department, the defensive backfield. Returning will be kicking specialist Lou Bobich, Don Japenga and Charlie Migyanka.

Michigan State dropped a 13-10 decision to Southern California and tied Michigan 7-7 in the 1963 season.

"We meet Michigan and Illinois again this season," Daugherty observed, "and they look to be the two strongest teams in the Big Ten as far as depth and experience of returning players are concerned."

Trading Active

Market Continues to Rally

NEW YORK (AP)—The stock market continued to rally early this afternoon with motors, airlines, steel and cigarette stocks showing prominent gains. Trading was active.

Gains of key stocks went from fractions to a point or so.

Comment on the booming economy, rising auto production, a pickup in cigarette sales and profits for airlines accompanied the rise.

RAILS AHEAD

Utilities settled downward irregularly following their firm

showing yesterday. Coppers were mixed. Rails pushed ahead on average.

A rising trend prevailed among office equipments, aerospace issues, drugs, oils and farm implements.

Rubbers and mail order retailers were mixed.

The Associated Press average of 60 stocks at noon was up .8 at 302.5 with industrials up 1.4, rails up .4 and utilities up 1.7.

RAILS AHEAD

Utilities settled downward irregularly following their firm

by some sizable blocks: 37,500 of Electrical & Musical Industries; 21,400 of Southern California Edison; and 33,800 of BVD.

Prices were higher with airlines advancing in heavy trading on the American Stock Exchange. Mohawk Airlines spurred more than a point after trading was halted due to a pile-up in buy orders following the company's report of the first profit it ever made in a first quarter.

Corporate bonds were mixed. U.S. Government bonds were mostly unchanged.

Lifetime Title for Haiti Chief

Tightens Dictatorship in Poor Island Nation

PORT-AU-PRINCE, Haiti (AP)—Dr. Francois Duvalier has taken the title of lifetime president on his tight dictatorship over Haiti.

The country doctor turned politician took the step as another in a series of measures which, since his election in 1957 for a six-year term, have given him an iron rule over this poverty-stricken Caribbean nation of 4 million people.

New Cars Whet the Appetite

By CHARLES C. CAIN Associated Press Auto Writer

DETROIT—In the spring, many a young man's fancy turns to have—on a new car.

And, to whet his appetite, auto makers both in the U.S. and abroad are bringing out some new, attractive models.

Aimed at Young Enthusiast

Chrysler Corp., for example, unveiled today its Plymouth Barracuda, a sporty two-door hardtop designed to have special appeal to young, sports-minded people.

Among the car's features are individually adjustable bucket seats in the front and simulated passenger model with the rear area becoming a seven-foot storage area. Chrysler said, "The car thus offers the cargo space of a station wagon but retains the sleek styling of a hardtop."

Duvalier, 54, accepted the lifetime title and the officers' oath and told them he considered himself the kind of man the United States should produce only every 50 or 75 years.

Duvalier singled out Gen. Gerard Constant, the chief of staff, and reminded him that he was a lieutenant when he sided with Duvalier in the 1957 campaign "and now you are a general."

Duvalier has bested rebels inside and outside Haiti as well as the opposition of the United States since he took office.

Relations between Haiti and the United States were broken off last year after Duvalier extended his presidential term by means of a rigged election. Relations were restored late in 1963.

Another "first" at the New York show will be a showing of American Motors' newest car, a two-door hardtop named the Typhoon. The Rambler Classic car is powered by a new high performance six cylinder engine and has a flashy basic body color of yellow, topped by a black roof panel. The basic price tag is about \$2,500.

Ford will introduce its new sports model, the Mustang, at the New York World's Fair on April 13. The much discussed Mustang will be available in six-cylinder car will be available.

Setbacks Continue in Grain Futures

CHICAGO (AP)—The weaker trend continued in the grain futures market today with setbacks ranging to a cent a bushel or more during early transactions on the Board of Trade.

May wheat was down more than two cents at times on selling which dealers called off their liquidation to cash profits. They said the failure of the contract to rally Wednesday was viewed as an indication that buying power may have been exhausted for the present.

Trade was virtually at a standstill near the end of the first hour with wheat 1/4 lower to 1/8 higher, May \$2.02 1/4; soybeans 1/4 to 1/8 lower, May \$2.59 1/4; corn unchanged to 1/8 lower, May 64 1/2; rye 1/4 to 1/8 lower, May \$1.34.

Grain Prices

OPENING GRAIN (CHICAGO, AP)

landstill near the end of the first hour with wheat 1 3/4 lower to 1/8 higher, May \$2.02 1/4; soybeans 1/4 to 1 1/4 lower, May

LION GETS NEEDLE — Shiedwan, a Shrine circus lion of 600 pounds, gave a little roar when Tulsa veterinarian Dr. A. C. Mohr jabbed him with a needle. The performing cat was injured in a fight with another animal last week in Dayton, Ohio, and was seriously ill when the troupe arrived in Tulsa. Shiedwan is improving with the treatment and shots. When asked how to treat a lion, Dr. Mohr said — "like a cat, only more so."

Today in Washington

White House Observes Bard's Birth

WASHINGTON (AP) — In the news from Washington: WHITE HOUSE — SHAKE-
SPEARE: The White House observed the 400th anniversary of William Shakespeare's birth Wednesday with a special performance of scenes from "The Taming of the Shrew."

The show was introduced by 16-year-old Luci, Lynda and Lynda's room-mate, Warren Lynn Smith of San Antonio, Tex., mingled with the guests and chatted with the cast. Mrs. Johnson shook hands with the cast and guests in a receiving line.

SILVER CERTIFICATES: A Federal Reserve official says the government will probably stop issuing \$1 silver certificates next summer. The \$1 silver certificates are being replaced with the new \$1 Federal Reserve note authorized by Congress last year.

Even after issuance of silver certificates stops, it will be some time before they disappear from circulation. A dollar bill lasts an average of 18 months, but some last longer.

The Treasury plans to continue issuing \$5 silver notes.

COMMUNIST PROPAGANDA: The U.S. Information Agency says Communist propaganda aimed at the West reached a record high of 4,388 hours a week in 1963.

This represents an 11 per cent increase over 1962, USIA said Wednesday.

Among the 67 languages the Communists use to beat their propaganda are such obscure ones as Bambara — spoken by only about 3 million people in West Africa — and Guarani — a dialect of Indians in Paraguay.

Some 1,084 hours of propaganda were broadcast each week to the Far East, an increase of 11 per cent.

COLLINS: Gen. James F. Collins has succeeded Gen. Alfred M. Gruenther as president of the American Red Cross.

Collins, who was U.S. Army commander in the Pacific before his retirement from active military service, took over the \$30,000-a-year job Wednesday. Gruenther retired from the post Tuesday.

Warhead, Rockets Launched by Atlas
CAPE KENNEDY, Fla. (AP) — An Atlas missile hurled a deceptive new warhead 5,000 miles today and simultaneously served as an airborne launching pad for two small research rockets.

The piggyback rockets were fired from a seven-foot canister protruding from the Atlas and carried three radiometers to measure radiation flowing from the Atlas engine exhaust. Information was radioed to the ground.

The experiment, being conducted to determine radiation characteristics of a rising missile, could help develop spy satellite instruments for spotting a hostile missile the instant it is launched.

Editor Dies in Ohio
ELYRIA, Ohio (AP) — J. Clare George, Jr., editor emeritus of the Elyria Chronicle-Telegram, died Wednesday of a heart attack. He was editor of the Chronicle-Telegram from 1925 until his retirement in 1960 and had been a consultant with the newspaper for the last four years.

The Lincoln Memorial in Washington, D.C., was dedicated on Memorial Day, May 30, 1922.

ELYRIA, Ohio (AP) — J. Clare George, Jr., editor emeritus of the Elyria Chronicle-Telegram, died Wednesday of a heart attack. He was editor of the Chronicle-Telegram from 1925 until his retirement in 1960 and had been a consultant with the newspaper for the last four years.

The Lincoln Memorial in Washington, D.C., was dedicated on Memorial Day, May 30, 1922.

Editor Dies in Ohio
ELYRIA, Ohio (AP) — J. Clare George, Jr., editor emeritus of the Elyria Chronicle-Telegram, died Wednesday of a heart attack. He was editor of the Chronicle-Telegram from 1925 until his retirement in 1960 and had been a consultant with the newspaper for the last four years.

The Lincoln Memorial in Washington, D.C., was dedicated on Memorial Day, May 30, 1922.

April 18 Deadline Set for Absent Voter Ballots

Absent voter ballots for the April 20 city election are now available at the city clerk's office on the main floor at City Hall.

City clerk Olga Barkley said today that the deadline for getting absent voter ballots is 2 p.m., Saturday, April 18.

The clerk's office is open from 8 a.m. to 5 p.m. Monday through Friday; it will be open 8 a.m. to 2 p.m. the Saturday before the election.

Mrs. Barkley urged residents to obtain their absentee ballots early so they could mail them in plenty of time before the April 20 election.

Some absentee ballots are received late and never counted at nearly every city election, mainly because people wait until the last moment to mail them.

TOO LATE
One such ballot, mailed from an Air Force Base outside of Michigan five days before the March 2 primary, didn't reach City Hall until the day after the election.

Pontiac Postmaster William W. Donaldson joined Mrs. Barkley in urging early mailing.

He said that because there is a considerable amount of written and printed material on absentee voter ballot envelopes, "they are occasionally mistaken for third class mail by postal employees."

Mrs. Barkley explained that absentee ballots are intended for use by persons who will be out of town April 20, or shut-ins and persons otherwise disabled to the extent that they can't go to the polls.

Any one wanting an absentee ballot must first sign an application form. The ballots are

Ex-Champs Chasing ABC Tourney Title

OAKLAND, Calif. (AP) — The Brentwood Bowl Club of San Francisco, surprise classic division champions in 1961, will start chasing another title at the American Bowling Congress Tournament here Thursday night.

Brentwood bested the largest field in classic division history, 83 teams, in taking the 1961 pro division bowling honors. Three members of that team — Joe Jacques, Jack Middleton and Captain Bob Will — will be in the lineup again. Ed Bourdase and Vern Downing, a pair of California's outstanding pro stars, were also in the lineup in 1961.

There were no changes in the standings of any division in Wednesday's play. The best effort was turned in by the youngest team on the lanes, the Pepsi Kids, Kenmore, N.Y., with 2,955 total. Team members range from 18 to 21 and two players, Ed Hohenes, 19, with 626 and Ken Kasprzak, 20, with 600 were the stars.

CREATIVE EFFORTS?—By the looks of the "art work" on this water tower, a few of the "seniors" at Walled Lake High School may not pass their spelling tests. In fact, they probably won't get any prizes for originality. Of course the students who displayed their talent on the tower, near Commerce and Union Lake roads in Commerce Township, would probably argue that it's difficult to be artistic at night.

Oral Vaccine Stations Listed

"Feeding stations" for the oral polio immunization program were announced today by the Oakland County Medical Society.

Manned by volunteers, the stations will be the sites where oral polio vaccine will be given out on sugar lumps on April 19 and June 14.

The immunization program is a tri-county effort at mass immunization against polio.

Each station will be open from 11 a.m. to 7 p.m. on each of the dates.

Area feeding stations by school district will include:

New Chief Named in Brazil

U.S., Soviets Hold Private Talks on Arms

Agreement Sought to Prevent Spread of Nuclear Weapons

GENEVA (UPI)—The United States announced today it has been holding private talks with the Soviet Union on a possible agreement to prevent the spread of nuclear weapons.

American disarmament negotiator Adrian S. Fisher accused the Russians of blocking agreement, however, by presenting political arguments against the projected Multilateral Nuclear Force (MLF) for the North Atlantic Treaty Organization (NATO).

Soviet chief negotiator Semjon Tsarapkin, in a follow-up speech before the 17-nation disarmament conference, said the United States "prefers a nuclear alliance with the Bundeswehr (West German Army) than to have an agreement on nonproliferation."

West German participation in the MLF has long been the target for Communist propaganda attacks.

"We have, as the (disarmament) committee knows, been discussing privately with the Soviet Union a proposed agreement of nuclear weapons," Fisher said.

These discussions have been between Fisher and his Soviet counterpart, Semjon K. Tsarapkin, in their private meetings as conference cochairmen.

"There is general agreement that preventing the spread of nuclear weapons to nations not now controlling them is an urgent matter," Fisher said.

"But an effort is being made to keep this issue with essentially political arguments against the projected multilateral force."

The Soviet Union charges that the MLF is merely an excuse for giving West Germany control over nuclear arms.

NO CONTRADICTION

Fisher denied this claim and said the plan for MLF contains nothing contradictory to proposals for preventing the spread of nuclear weapons.

The county's seven Circuit Court judges yesterday named attorney Richard P. Condit to serve as prosecutor for the balance of 1964 in place of Republican George F. Taylor, who resigned to devote full-time to his campaign for Congress.

Condit was appointed on the understanding he would not seek election this fall as the judges sought to avoid mixing in Republican politics by appointing Templin or any other announced candidate for election to the post.

Lyle said he was "disappointed that the judges did not follow the recommendation" but (Continued on Page 2, Col. 4)

DISCUSSES EARTHQUAKE — President Johnson confers at White House yesterday with Sens. E. L. Bartlett (left) and Ernest Gruening (right), on the earthquake damage.

To Chart Rebuilding Program

Alaska Planning Unit Named

WASHINGTON (AP)—President Johnson has named a special commission to plan rehabilitation of the earthquake-ravaged Alaskan economy and help

See Story, Page A-10

will ask Congress for \$50 million for emergency relief. Both decisions were announced yesterday by the White House after Johnson conferred with Alaska's senator, Democrats E. L. Bartlett and Ernest Gruening, and by telephone with William A. Egan, governor of the stricken state.

The \$50-million appropriation is generally viewed as a first-step measure to help rebuild vital roads, bridges, utilities and other publicly owned facilities.

To the three Alaskans it is a bare one-tenth of the federal aid that will be needed to restore their state's economy.

At least \$500 million is required to cope with "the worst disaster that has ever struck any state," Gruening declared.

OUTRIGHT GRANTS
In Anchorage, Egan said outright grants of at least that much will be needed to reconstruct housing, business and industrial facilities. "We can rebuild in no other way," he said.

Usually federal funds are available only for clearing debris and rehabilitating public buildings and highways, but Bartlett and Gruening hinted that the President may request congressional authority to provide direct financial assistance to private industry.

There was no official confirmation of the Alaskans' suggestion, although the idea is known to have been discussed in high administration quarters.

To head the 12-man special commission, Johnson named Sen. Clinton P. Anderson, D-N.M.

One of its tasks presumably will be to weigh proposals for helping to rebuild the fishing and canning industries on which the Alaskan economy was based.

The secretaries of defense, interior, labor, agriculture, commerce and welfare will serve on the panel—the Federal Reconstruction and Development Planning Commission for Alaska—along with Edward A. McDermott of the Office of Emergency Planning, the Federal Housing Administrator, the Federal Aviation Administrator, the Federal Power Commission chairman and the chief of the Small Business Administration.

The 60-year-old Yugoslavian composer, teacher and pianist was stricken while his sister, Metropolitan Opera Co. star Zinka Milanov, finished a song.

Few of the 1,900 persons attending the benefit performance at Ford Auditorium were aware of the tragedy.

In a 20-minute performance of his piano Concerto in B minor, a work which demands virtuosity of pianist and orchestra, Kunc wiped his brow three times and once momentarily rested his head in his arms, witnesses said.

As Miss Milanov finished an encore just 25 minutes later, stage manager C. P. Kennedy "turned and looked back into the wings, and there he was lying on his back and breathing heavily."

DOCTOR CALLED
Kennedy summoned a doctor from the audience. The physician worked over Kunc among the tangle of ropes and pulleys. Miss Milanov came to her brother's side.

Kunc was dead on arrival at Receiving Hospital.

Goulart Calls Action Farce; Vows to Fight

President Picked by Congress, Was Head of Legislative Body

RIO DE JANEIRO (AP)—The Brazilian Congress today declared Joao Goulart was shorn of the presidency by a two-day rebellion of right-wing generals and installed his successor.

But from a haven in Porto Alegre, Southern Brazil, Goulart called the action by Congress a farce, announced he still is president, and predicted the people will react against the generals.

Last night he had vowed "a fight to the death."

Reports circulated that Gen. Amaury Krul, leader of the revolt against Goulart's policies, had sent this ultimatum to the 3rd Army commander at Porto Alegre: Surrender forces guarding Goulart or face an invasion.

There was no official confirmation.

APPEARS CALM
Appearing calm, Goulart talked with reporters a few hours after Congress at the inland capital of Brasilia installed Paschoal Ranieri Mazzilli as the new president.

As president of the Chamber of Deputies, Mazzilli was next in line of succession to the presidency.

There also were reports that Gov. Idio Meneghetti of Goulart's home state of Rio Grande do Sul, was marching on Porto Alegre, the state capital, with 5,000 military-trained state police.

Meneghetti fled from Porto Alegre yesterday and joined the rebellion when the 3rd Army demanded he surrender his state troops.

MARCH INTO CITY
In Rio de Janeiro, the vanguard of revolutionary troops who launched the uprising Tuesday in the big state of Minas Gerais marched into the city.

The new down-turn followed a tense and gloomy report from the doctors yesterday that the outlook was not good.

That was the last report yesterday when doctors had noted a slight improvement in the 84-year-old general's lowered blood pressure and control of the troublesome and sporadic internal bleeding.

Asked flatly if the general would recover, Dr. Henry S. Murphy, a brigadier general and hospital commandant, answered: "We hope so."

The tube which had been inserted through MacArthur's esophagus and into his stomach remained in place. But the pressure of a small balloon against broken veins—designed to retard bleeding in the esophagus—was all but removed.

"He is markedly composed," has asked for his wife many times and she has visited him frequently," Murphy said.

Weather Tonight
to Bring Showers
That Are Light

Light rain or showers may be expected this evening and tonight.

The weatherman predicts temperatures will be somewhat warmer tonight, the low ranging from 36 to 42. Highs will rise to the upper 40s tomorrow.

Partly cloudy and a little cooler is the forecast for Saturday.

Southeasterly morning winds at 10 to 18 miles per hour will increase to 15 to 25 m.p.h. tonight and become northeast at 10 to 25 miles Friday.

Thirty-two was the low temperature in downtown Pontiac preceding 8 a.m. By 1 p.m. the reading was 33.

PASCHOAL MAZZILLI

MacArthur Suffers Setbacks

WASHINGTON (AP)—Gen. Douglas MacArthur has suffered a "further waning" of his heart and kidney function, Walter Reed Army Hospital announced today.

A bulletin at 10:16 a.m. said continuing deterioration of the five-star general's kidney function has necessitated institution of a semiautomatic means of stimulating kidney function.

The technique involves making two incisions in MacArthur's abdomen and inserting two tubes.

The purpose is to attempt to draw out from the general's blood poisons and materials which cannot be efficiently filtered out by his own faltering kidney system.

The procedure is technically known as "peritoneal dialysis." It involves continuous running of liquid chemicals, somewhat similar to those used by the kidneys, through one of the tubes into a cavity between two blood-filled membranes within the abdomen which are known as the "peritoneum."

The resulting products are pumped out through the other tube.

BAD REPORT
The new down-turn followed a tense and gloomy report from the doctors yesterday that the outlook was not good.

That was the last report yesterday when doctors had noted a slight improvement in the 84-year-old general's lowered blood pressure and control of the troublesome and sporadic internal bleeding.

Asked flatly if the general would recover, Dr. Henry S. Murphy, a brigadier general and hospital commandant, answered: "We hope so."

The tube which had been inserted through MacArthur's esophagus and into his stomach remained in place. But the pressure of a small balloon against broken veins—designed to retard bleeding in the esophagus—was all but removed.

"He is markedly composed," has asked for his wife many times and she has visited him frequently," Murphy said.

Dominican Republic Leaders Struggle to Rebuild Country

Our current Inter American Press Association director's meeting was held in the Dominican Republic, the one-time stronghold of tyrant TRUJILLO.

The picture is heartening. Better days lie ahead.

★ ★ ★

Few countries in modern times have been methodically ravaged and sacked as ruthlessly. He wrested one of the most luxurious livings in this hemisphere from a destitute people and left them gasping and groping and hungry. Finally a fusillade of bullets motivated by righteously indignant officers ended his machinations on his way home (from a mistress) in an unmarked and "secret" automobile. I shook one of the hands that provided the fatal machine gunning and was proud to do so. President Reid characterized him as "the fiercest and bloodiest tyrant ever to sink his claws in any country in our hemisphere."

Bringing some semblance of order out of the chaos and privations is a truly monumental task. But now we see an enlightened and wholly benevolent republic replacing a dictatorship of the lowest and most destructive character.

★ ★ ★

It's a full swing of the pendulum and it will be attended by an obvious amount of heartache and misunderstanding. But the brightest spot in the whole picture is the character of the new administration.

★ ★ ★

The Dominican Republic is governed by "El Triunvirato" — the Triumvirate. The President is Donald J. Reid Cabral, an exceptionally personable man. His associates are Ramon Tapia Espinal and Manuel E. T. Espallat. These three strong, capable and comparatively young men are giving themselves completely to the establishment of a permanent form of democracy.

★ ★ ★

My wife was captivated by Mrs. Reid (and I was, too, but that's confidential). These are the ruling powers during this period of transition and they relinquish the reins to an elected tribunal in September of 1965. The island was completely bankrupt as TRUJILLO lived in absolute luxury and profligacy in all its aspects. In the meantime, activated purely by patriotism and the love of their own fine people, these three undertake the early steps of restoration.

★ ★ ★

The task is tremendously complicated. Trujillo's successors start bravely forward with idealism and honesty as their guiding principles. The island desperately lacks employment, money and the economy is at a low ebb, but these three patriots plow determinedly forward.

★ ★ ★

They struggle against another ominous foe in addition to the mess TRUJILLO left. The Communists always lick their dirty chops over situations such as this. They're infiltrating through every known avenue and constantly seek to undermine the constructive work of the triumvirate. CASTRO may have made Santo Domingo as his primary goal for the downfall of another republic. Radio Havana is never idle day or night.

★ ★ ★

President REID humbly lists these

as the first achievements of the trio:

- Law and order without force.
- Court procedures without interference.
- Tiny but definite economic progress.
- Freedom of speech and specifically newspapers.

German ORRIS, publisher of *El Caribe*, says that neither he nor any of his associates receive any type of censorship or dictatorial second guessing.

★ ★ ★
Juan Bosch was the first elected president and when a military coup threw him out, the world looked askance and the U. S. promptly stopped foreign aid. However, subsequent events disclosed the complete ineptness of the ousted man and President Johnson restored governmental relations and provided a modicum of food for the hungry. President Reid and his associates recognized the setback but went ahead undaunted. Santo Domingo needs money. She needs jobs.

She needs stability and an improvement in general living conditions. Actual hunger and a lack of education are disheartening foes anywhere on the globe. They're the basic first step toward real existence. There are discouraging days ahead and unseen forces oppose progress and the Communists are undermining everything they can, especially among the younger and more impressionable people. The three great patriots are giving themselves without stint or reservation to the advancement of their countrymen. They have the capabilities and general confidence.

In September, the schools teach farming to the young people so they can ultimately wrest a living from the soil with a pride and incentive which have been dormant through 30 years of subjugation. Santo Domingo seeks foreign capital and can prove it has the opportunities "for those who seek to invest."

★ ★ ★
The "oldest Christian country of the Americas" faces a challenging future.

The whole world watches. The whole world waits. Decency and decadence are at war. And the Communists slip through every available crack. Personally, I'll bet on the triumvirate and the Dominican Republic of tomorrow, although tomorrow is down a rocky road. But victory lies ahead.

—HAROLD A. FITZGERALD

"A RUSSIAN recently walked 15,835 miles." —Press report. He was doubtless walking around Russia's perimeter, trying to find a sizable hole in the iron curtain.

BEATLE dolls will soon be placed on the market in the U.S., immediately following which there will be an unprecedented widespread outbreak of nausea.

"MAN Killed; Hazy About Details." —Headline. Being killed is said to be enough to make almost anybody hazy about anything.

Verbal Orchids To —

Mrs. Robert Cascadden of Rochester; 84th birthday.

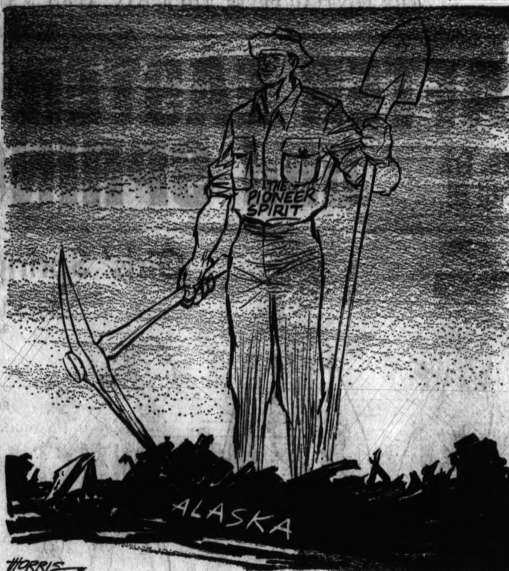

Mr. and Mrs. David Beattie of West Bloomfield Township; 51st wedding anniversary.

Mr. and Mrs. Charles Winegar of Lapeer; 59th wedding anniversary.

Mr. and Mrs. Charles E. Groves of Auburn Heights; 51st wedding anniversary.

Arthur Cunningham of 752 Cortright; 83rd birthday.

Clara Howell of Holly; 80th birthday.

Unshaken!

David Lawrence Says:

Expect Scranton to Make Move

WASHINGTON — Throughout the country, in Republican political circles, there is a general expectation that Gov. William Scranton of Pennsylvania will make in the next few days an announcement which will be construed as an LAWRENCE encouraging his supporters to become active in obtaining for him the Republican presidential nomination at the convention in July.

The Pennsylvania governor has been under pressure from his friends to make an unequivocal statement — telling clearly his intentions.

This is because of widespread comment among professional politicians that Gov. Scranton cannot afford to remain silent any longer if he really wants the nomination.

Naturally, the admirers of Gov. Scranton think he would make a good candidate, and the mention of his availability has indeed evoked a good deal of comment in political circles and in the press.

One professional politician on the Republican side sized up, for this correspondent, the situation as being largely related to seven big states — New York, New Jersey, Pennsylvania, Ohio, Michigan, Illinois and California.

He says the Republicans must win in four of these and that the Republican candidate is most likely going to be the man who can carry at least four of the seven.

Ohio and Illinois are believed to be leaning strongly in the Republican direction.

New York is a state considered by many Republicans to be in the doubtful class.

So the question finally resolves itself into who has the best chance to carry Pennsylvania, California, Michigan and New Jersey.

KNOWN IN EAST

This is where Gov. Scranton comes under consideration, because he is known in Pennsylvania and New Jersey.

The California primaries on June 2 will, of course, have an important bearing on the whole Republican contest.

Two men who may eventually emerge as the candidates are former Vice President Nixon and Gov. Scranton.

This is one reason why it is being openly stated by many

THOUGHTS FOR TODAY

The people of the land have practiced extortion and committed robbery; they have oppressed the poor and needy, and have extorted from the sojourner without redress. —Ezekiel 22:29.

The sins ye do by two and two ye must pay for one by one. —Rudyard Kipling.

politicians that, if Gov. Scranton does do something, the big prize will fall into Nixon's lap without much effort.

MORE STRENGTH

The supporters of Nixon are convinced that, in the final analysis, he will go to the convention with more strength than appears on the surface.

The important argument on the Nixon side is that he was for eight years vice president of the United States and that he lost in 1960 by a narrow margin.

To counter this, proponents of

other candidates declare that the country is not interested in the past, but in new faces.

★ ★ ★

The big question is, however, how familiar will they be with the various candidates by convention time.

★ ★ ★

If Gov. Scranton announces his candidacy soon and makes a few speeches, the voters will at least have several weeks in which to become familiar with the Pennsylvania governor and decide whether the new face is satisfactory.

(Copyright 1964, New York Herald Tribune Syndicate, Inc.)

Bob Considine Says:

Humphrey Gets a Slogan After Outdoor TV Ordeal

WASHINGTON — Bob Jensen, a publicity aide for Sen. Hubert Humphrey, has a slogan for the

nearby Anchorage and elsewhere. They patrolled the battered streets, and no looter dared test them. They're tough as walrus blubber.

★ ★ ★

They seemed to work 'round the clock and sometimes actually did.

★ ★ ★

Seems that CBS has camped on the steps of the Capitol for the duration of the civil rights filibuster.

From time to time, a senator is lured out into the cold to say a few words on TV, since TV cannot go to the mountain.

Humphrey accepted such an invitation and discovered that he had no coat for protection against the wintry blasts sweeping about.

★ ★ ★

His own overcoat was in his office, blocks away.

★ ★ ★

So Jensen ducked into the nearest available office, seized a coat that looked like one a vesp would wear, fled with it, and put it on Humphrey just in time to avoid having him appear to be some kind of fresh air nut.

A fine brood of an Eskimo boy named Timothy J. Williams of Atkin, a five-bit village in Alaska, distinguished himself in the wake of the frozen hell of the recent earthquake.

So did a lot of other Eskimos here say we now have the tools to do the research needed to develop a crude earthquake-prediction system for major communities — probably within 10 years, certainly within 20.

It would, of course, only predict quakes likely to cause important damage to people and property. The system would likely skip predictions of quakes occurring in the wilderness and in deserts unless they'd produce nasty effects at a distance.

★ ★ ★

They are resourceful troops, these Eskimos.

★ ★ ★

HANDLED JOB They fanned out, pitched in, and handled the job of digging for the wounded and dead in

In Washington:

Future Bright for Quake Alert

By RAY CROMLEY
WASHINGTON (NEA) — At the very time the Alaska earthquake struck, there was a confidential proposal in government

circles to launch a coordinated government-university research attack aimed at producing some of the basic facts necessary to build an earthquake warning network.

★ ★ ★

It has not yet been approved.

★ ★ ★

Recent break-throughs in instruments and methods have opened the door to a whole new world of earthquake research possibilities which scientists say could end the frustrations of the past 30 years.

Geophysicists interviewed here say we now have the tools to do the research needed to develop a crude earthquake-prediction system for major communities — probably within 10 years, certainly within 20.

It would, of course, only predict quakes likely to cause important damage to people and property. The system would likely skip predictions of quakes occurring in the wilderness and in deserts unless they'd produce nasty effects at a distance.

★ ★ ★

Such warnings would not be correct every time any more than weather predictions are.

Scientists would be happy if

Voice of the People:

'Taxpayers Can't Afford McNamara in Viet Nam'

Please, Mr. President, don't send McNamara to Viet Nam anymore. Taxpayers can't afford it. Why don't you make him vice president on your ticket next fall? The Republicans wouldn't care a hoot.

★ ★ ★
Better yet, leave a Ford pink slip on his desk and call Ford to put him in charge of the \$2 billion tax-free foundation. Then he would have private money to squander.

★ ★ ★
Mr. President, you are no slouch in spending either. The \$3.4 billion you plan to give away would build 34 Mackinac bridges. If cost Michigan \$100 million to build one and it employed thousands. Politicians are giving all over the world but they don't hire one of our unemployed. It does help solve foreign unemployment though.

★ ★ ★

Writes About Quick Divorces in City

Pontiac is missing a good chance to make money. Just advertise quick divorces. Reno and Mexico are pikers compared to Pontiac.

★ ★ ★
A wonderful Christian woman's husband left her and her children for another woman. He wanted a divorce but his wife didn't. Her lawyer told her to be in court and that she needed no witnesses as it was a preliminary hearing. It was over in three minutes and only when the lawyer told her the cost did she realize it was a divorce.

★ ★ ★
A week later she got the papers saying she was free to marry. She does not want a divorce—only a home for her two children. Were these lawyers in this together that this was done so quickly and quietly?

★ ★ ★

Indignant

'Waterford Justices Need Courtrooms'

Waterford Township justices need courtrooms badly. The atmosphere of a courtroom would certainly have a more pronounced effect. Our officials don't want to start yammering about courtroom needs, but didn't these officials go against the people's vote and allocate \$30,000 for a library?

★ ★ ★
It's always asked: "Why don't people vote?" When officials can find sneaky, unethical loopholes to go over the voters' veto, you then get your answer.

★ ★ ★

I'm sure these entrusted public servants can find a satisfactory solution that will lend more dignity to our competent justices.

5932 Dwight

Willard Largent

The Better Half

"You choke up and tip them off with your heavy breathing."

what size slips and something about how long it takes for a particular overstrain to result in a slip, then they'll be on the way toward making crude predictions.

★ ★ ★
As a preliminary, this involves a major co-ordinated study of an important earthquake fault. One proposal favors the great San Andreas fault in California.

By seismic, geodetic, magnetic, gravimetric and geologic measurements they'd attempt to determine the elastic properties of the rock formation in the area, the vertical extent of the fault line, how much strain has so far been accumulated over the region of the fault line and carefully map the lines of stress through the region.

All this earthquake work will have a major by-product. The more U.S. scientists find out about earthquakes, the better they will be able to detect and pinpoint Russian underground nuclear explosions.

The big problem now is that it's impossible to distinguish between some earthquakes and some types of camouflaged underground nuclear explosions.

The other technique is to measure the speed at which sound waves move through the rocks. (The speed varies according to the strain which the rock is undergoing.)

If the earthquake specialists can determine how much strain different types of rock formation and fault lines endure before slipping, what strains cause

Senator Sees Cuban Revolt

Rebel Aid Urged as Dodd Rips Fulbright

WASHINGTON (AP) — Sen. Thomas J. Dodd, D-Conn., today demanded "open and increasing assistance" to Cuban freedom fighters.

Dodd, in a speech prepared for Senate delivery, predicted that in the not too distant future Cuba "will be the scene of another popular revolt against Communist brutality," and declared:

"And on the day when the pent-up wrath of the Cuban people explodes, our action or inaction may make the difference between victory or defeat."

CUBAN POLICY

Without mentioning Chairman J. William Fulbright, D-Ark., of the Senate Foreign Relations Committee, Dodd took up a new issue with Fulbright's Senate speech last week urging a change in Cuban policy.

Fulbright suggested that Fidel Castro's Cuba should be looked upon as "a distasteful nuisance but not an intolerable danger." While Fulbright said Castro communism posed a "grave threat" to other Latin-American nations, he contended this could be dealt with by prompt and vigorous use of antiaggression machinery of the Organization of American States.

CASTRO FALLACY

Dodd described as a "fallacy of the do-nothing policy" any argument that "the Castro regime, while admittedly a nuisance, does not pose any mortal threat to our security."

"It is perplexing to note that some of those who understood the illusion of 'fortress America' isolationism have now become the advocates of an essentially identical brand of isolationism," he declared. "They appear to believe that our security and our freedoms would not be affected even if the major part of the hemisphere and, for that matter, of the Free World, were to go Communist."

Dodd, a member of Fulbright's committee, said the United States "should use all the resources of diplomacy, not excluding economic countermeasures, to discourage allied and friendly nations from shipping critical materials to Cuba."

RUNNING MATES OF 1960 — Richard Nixon (left) confers with Ambassador Henry Cabot Lodge in Saigon yesterday. Nixon is on a world tour. The two men were Repub-

lican presidential and vice presidential candidates in the 1960 election. No details of what the two men discussed were released.

Viet Nam War Rages On While Nixon Pays Visit

SAIGON, Viet Nam (U-South)

Vietnamese forces clashed with Communist guerrillas in the Mekong Delta today within 20 miles of an area Richard M. Nixon was visiting.

Casualties were believed to have been heavy. The former vice president apparently did not get near the action.

Nixon had flown by helicopter to Tan An, 30 miles south of Saigon, to inspect some hamlets the government has set up in a crash program to push out the Viet Cong.

U. S. sources said the firing began when the government mounted an operation earlier in the day.

Nixon also conferred with Gen. Paul D. Harkins, commander of U. S. forces in Viet Nam, and scheduled another meeting with U. S. Ambassador Henry Cabot Lodge, his vice

presidential running mate in 1960.

ON WORLD TOUR

Nixon arrived here yesterday on a world tour.

Nixon, who has not shut the door on a draft for the Republican presidential nomination, said it was natural that he and Lodge should talk politics.

But neither he nor Lodge would reveal what they said. "We're old friends," Lodge said. "I think we'd better let it stand at that."

Lodge, surprise winner of the Republican presidential primary in New Hampshire by a write-in vote, is bound by foreign service regulations from engaging in politics.

Nixon said he hoped Viet Nam would not become a political issue this year.

Claims Swede Spy for Both U.S., Russia

STOCKHOLM, Sweden (U-S)

Swedish Air Force Col. Stig Wennerstrom, who goes on trial April 9 on charges of spying for Russia, also spied for U. S. intelligence, the newspaper Aftonbladet claimed today.

Wennerstrom is accused of providing U. S. and Swedish military secrets to the Russians during the last 15 years.

The newspaper said Wennerstrom had also told police he was a spy for American intelligence and received thousands of dollars from the Americans.

Authorities have made no official disclosure of any links between U. S. intelligence and Wennerstrom.

The paper, however, said that Wennerstrom spontaneously told the police that he delivered secret information to the Americans while military attaché in Washington from 1952-57.

Made Moms Feel Secure

Name School After Driver

FAIRHAVEN, Mass. (U-S) — For 20 years, school bus driver LeRoy L. Wood picked up and delivered his band of youngsters to the little schoolhouse on Scituate Neck.

He never had an accident. He never was late. The children's mothers felt secure knowing the kids were in his care.

The Fairhaven School Committee decided to name a new school on Scituate Neck the LeRoy L. Wood School.

The white-haired Wood said yesterday: "My goodness, I was speechless there for a while" when informed of the school board's decision.

Wood, now 69, retired two years ago. When he left his job, the children on his route chipped in and bought him a good watch.

To Resume Talks in Hillsdale Strike

HILLSDALE (AP) — Officials of Essex Wire Corp. and of the International Electrical Workers Union prepared today to resume talks in a bid to end a 34-day-old strike.

Hillsdale police were investigating management reports that five cars belonging to company personnel were smeared with green paint Tuesday night and that the windshield of another car, belonging to a company guard, was broken by a rock.

Negotiations had been scheduled to resume Wednesday but a delay was granted at the request of Local 810 of the IEW.

Diploma Not Needed

MIAMI BEACH, Fla. (U-S) — Miami-Dade Junior College has a "dropout" problem.

More than 1,300 students have enrolled in the college's data processing program, started in 1960. Only one has completed the two-year course.

It's not a question of thinking. The students are too successful. "They take five or six of the courses and then are grabbed off by industry," said President Peter Masiko Jr. today.

Invitation to the modern way to see...

CONTACT-LESS LENSES

Unique plan lets you actually wear these THINNER, LIGHTER Contact-Less Lenses without obligation to buy

Have you wondered whether YOU can wear Contact-Less Lenses? Now you can find out—thanks to our 30-Day Trial Wearing Plan. We give you a complete eye examination, make lenses to your prescription and carefully fit them. Then you wear them for 30 days. If you are one of the exceptions who prefer not to keep your lenses, you may return them for a complete refund... just only the examination fee.

then and now... THE SEARCH FOR A BETTER WAY TO SEE From the laboratories of Donald L. Golden, pioneer in Contact Lenses, have come many important advances—eliminated today's LIGHTER, THINNER, TINNER lens that rests on a natural layer of tear. Come in and SEE without glasses... through the magic of modern Contact-Less Lenses.

Tell of Taking Church Funds for Payoffs

WYOMING (AP) — Three young victims paid extortion demands with some of the more than \$300 stolen from church collections, police in this Grand Rapids suburb said Wednesday. Detective John Lind said the victims—ages 13 and 14—told of taking the money from the Palm Sunday collection at one church. Lind said two claimed it was their first theft of church funds while the third admitted previous larcenies from collections.

Wyoming police said the extortion came to light Monday night when one victim told his father of the shakedown, including threats of violence and exposure, by three older youths of 14, 15 and 16.

Lind said the older youths Tuesday admitted receiving about \$100 in tribute. He added that investigators learned that the balance of the stolen church collection funds were spent or banked by the extortion victims. All six youths have been turned over to juvenile authorities.

Marquette U. Gets Luci's Test Scores

MILWAUKEE, Wis. (AP) — Marquette University's admissions office said Wednesday it had received the college examination board scores for Luci Baines Johnson, 16.

The director of admissions said receipt of the score did not constitute an application for admission or an inquiry about information about admission. He said when high school students took college entrance examinations they listed the colleges and universities to which they wanted the scores sent, in case applications to the schools were made later.

Miss Johnson is a junior at National Cathedral School for Girls in Washington. The White House said that it had no information on whether Miss Johnson wanted to attend Marquette.

Rocky Charges Lodge Is Politicking From Viet 'Sanctuary'

SAN FRANCISCO (AP)—Ambassador Henry Cabot Lodge has become the chief target of Gov. Nelson A. Rockefeller in the battle for the Republican nomination for president. Brushing aside Lodge's repeated statements that he is not a candidate and does not intend to become one, Rockefeller argued that Lodge "is running and running hard from the privileged sanctuary of diplomatic immunity."

The New York governor maintained in an interview Wednesday that Lodge, U. S. ambassador to South Viet Nam, was "a part of the Democratic administration and he is a candidate for the GOP nomination who is working from out there very hard."

By his remarks, Rockefeller not only challenged Lodge's denial of candidacy but also was in conflict with President Johnson, who has accepted the ambassador's statement that he is not a candidate.

Rockefeller said Wednesday that Lodge should resign as ambassador and return to the United States to participate in the contest for the GOP nomination.

Home Market Is Big, Varied

Ex-City Dwellers Spur Waterford Rise

By JOE MULLEN

Former Pontiac residents have contributed more than any other group to the population growth of Waterford Township in the past 10 years.

This and the fact that Waterford has a widespread market valuation in its existing homes were points brought out in a study on housing as part of a comprehensive plan for the township.

The study, prepared by the Township Planning Department and planning consultants, also reveals that Waterford has an extremely high home ownership percentage and that most housing is relatively new.

In a survey of 261 families who moved to Waterford in the past 10 years, more than half

133 of those polled—migrated from Pontiac.

A total of 88 families came from elsewhere in the Detroit metropolitan area, and the remaining 40 questioned came from various other locations.

ALL COSTS BRACKETS

Results of a housing valuation survey, in which 520 home owners were polled, reveals that Waterford has housing at high, low and in-between cost levels.

The majority, or 54.6 per cent of those questioned, listed their property valuations as between \$5,000 and \$14,900.

Between the range of \$14,900 and \$17,500 were 111 families, or 20.6 per cent of those polled. Some 24.7 per cent valued their property between \$17,500 and \$35,000.

Nearly 2 per cent of the respondents listed their property valuations as in excess of \$35,000 and just over 1 per cent felt their property was below the \$5,000 valuation.

HOMEOWNERS

The survey also points out that 94.6 per cent of township

residents own or are buying their homes as opposed to renting.

This figure far exceeds the 60 per cent rate of home ownership in the entire Detroit metropolitan area which is considered one of the highest metropolitan area percentages in the nation.

Though seemingly desirable, the high rate of ownership points up the predominantly single-residence pattern of development. More multiple dwelling is considered necessary for better balance.

Figures compiled on ages of dwelling units in the township reflect the rapid recent growth of the community.

NEW HOMES

Of 404 households polled, 20 per cent were less than five years old and 55 per cent were from five to 10 years old.

The total of housing, 10 to 15 years old amounted to 21 per cent and only 4 per cent were over 15 years old.

1st Gemini Test Set for Tuesday

CAPE KENNEDY, Fla. (AP)

—The long-awaited first test flight in the two-man Gemini program, an attempt to orbit an unmanned spacecraft, is scheduled for Tuesday.

A National Aeronautics and Space Administration announcement Wednesday said major goals of the test will be to check the orbital ability of the Titan 2 rocket, spacecraft structural integrity and compatibility of the rocket-capsule combination.

If the flight and a second unmanned mission scheduled for next summer are successful, two astronauts are to ride a Gemini craft on a three-orbit ride in November or December.

Technical difficulties with the Titan 2 and the spacecraft have delayed the program nearly a year.

He Calls Halt to 'Hooky' by the Teachers

GRAND FORKS, N.D. (AP)

The superintendent of schools, Richard Barnhart, says he has declined to invite a regional meeting of the Music Educators National Conference to Grand Forks, although several groups, including the Chamber of Commerce, were hoping for it.

"I'm getting tired of all these things that keep people from teaching," said Barnhart last night.

"We have whole weeks where I'm not getting any service out of certain people of this district because of special events like basketball tournaments."

Mental Health Funds OK'd

A tentative \$282,000 appropriation to conduct a community mental health program in Oakland County next year was recommended yesterday by the county supervisors' ways and means committee.

The recommendation is for \$7,810 more than was sought by the county's Community Mental Health Board, but it includes \$66,000 to operate Child Guidance Clinics.

Planners Deny Request for Huron Land Rezoning

The City Planning Commission last night recommended that a request for commercial zoning of land at 707 W. Huron be denied.

Planning commissioners also recommended that another request for a personal service zoning on the property be denied.

It was the latest chapter in a long history of zoning requests on the property, which houses Paderewski's Chiropractic Health Studio.

The owner had requested rezoning of the land three times in the last seven years. All three requests were denied.

Surrounding residents objected to the property being rezoned. It lies in Seminole Hills Subdivision where deed restrictions limit the use of subdivisions lots on W. Huron to "single private dwellings, not less than two stories high."

Planners felt the owner should file a suit in Circuit Court asking that deed restrictions be lifted before requesting a new zoning.

The land is now zoned Residential-2.

RIGHT TO CHANGE

In a legal opinion, City Attorney William A. Ewart advised that the planning commission should have the right to recommend a rezoning contrary to deed restrictions if the character of the neighborhood had shown a marked change since the restrictions were written.

In other business, planners recommended that a request for commercial zoning be denied for a triangular parcel bounded by Mansfield, Hollywood and Kennett.

Universal Oil Seal Co. had asked the zoning so it could put a parking lot on the site to compensate for present parking space which is being eyed for future expansion of the plant facilities.

Residents adjacent to the land objected, arguing that such a zoning would lower the value of their homes.

BOARD OF APPEALS

Planning commissioners suggested that the matter be referred to the zoning board of appeals which could grant the company permission to use a portion of the land for parking without permanently rezoning the parcel.

Commissioners also recommended that a request for commercial zoning be denied for a triangular parcel bounded by Mansfield, Hollywood and Kennett.

Universal Oil Seal Co. had asked the zoning so it could put a parking lot on the site to compensate for present parking space which is being eyed for future expansion of the plant facilities.

Residents adjacent to the land objected, arguing that such a zoning would lower the value of their homes.

Planning commissioners suggested that the matter be referred to the zoning board of appeals which could grant the company permission to use a portion of the land for parking without permanently rezoning the parcel.

Commissioners also recommended that a request for commercial zoning be denied for a triangular parcel bounded by Mansfield, Hollywood and Kennett.

Union Pacts Due May 1 Deadline for Builders

The tap of hammers and roar of bulldozers could come to a halt throughout Oakland County if a construction industry strike materializes May 1. But, though negotiations are under way between building unions and contractors, there is no indication of a strike at this time.

If even some of the about 25 construction trades unions do not negotiate new contracts by that time, it would paralyze residential, commercial and public building programs.

Dick Kirby, city commissioner and business agent for the Wayne-Oakland-Macomb Building and Trades Council, said only initial bargaining has begun, "but from what I hear the contractors are going to put up quite a fight."

Kirby said contract demands vary from union to union, but all are generally aiming at raises of 25 cents per hour, fringe benefits which would add several more cents, and a cut in the workweek from 40 to 35 hours.

He estimated a Detroit area construction strike would affect some 12,000 tradesmen who live or work in Oakland County. They range from members of asbestos workers, millwright and glaziers unions, down to bricklayers and laborers.

NO INDICATIONS

Kirby said initial bargaining sessions boding no indication of strike possibilities "since no serious bargaining takes place until just before the deadline."

David Levinson said he sees no reason why the clinics shouldn't come under the mental health board's direction by 1965.

County auditors had recommended only a \$40,000 appropriation for the new mental health board, while continuing to treat the child guidance clinics separately in the budget.

SUFFICIENT FUNDS

Robert Lilly, secretary member of the board of auditors, said they felt that \$40,000 would be sufficient until such time as a county mental health program has been developed.

Mental health board members, William Wagner, appeared before the committee yesterday to say that a program has been developed for budget purposes and should be enacted before next year.

He said the program contemplated would cost \$386,106 in 1965, and that at least half of the money would be furnished by the state.

The program calls for the hiring of a nonmedical director and retaining a psychiatric consultant on a part-time basis.

DAY CARE CENTER

The program also envisions establishing a mental retardation center to provide day care, and improvements to the probate court psychological clinic.

The program is intended to provide more modern care and treatment for the mentally ill and retarded and reduce costs of operating institutions.

Proposed locations for outpatient clinics are the present child guidance centers, Pontiac State Hospital, county health department, Pontiac General Hospital and William Beaumont Hospital.

The clinics would receive both voluntary cases and those referred by the courts.

INTERVIEWS NOW

Wagner said the board is interviewing candidates for director now and expects to fill the position by May 8.

He expressed the committee's hope that these costs could be reduced by early treatment under a community-level program.

LOCAL REDUCTION

Wagner said it could be assumed that local, clinical treatment could have reduced last year's 432 commitments from the county by at least 10 percent, at a savings of \$58,000.

The percentage could be expected to grow as the program caught on and became able to treat more emotionally disturbed persons earlier, he added.

FINANCE PROBLEM

Money remains as the number one problem. The committee had a bank balance of \$2.24 prior to last night's meeting, according to Treasurer Cedric V. Fricke.

He said a printing bill of \$200 was outstanding. Fricke passed the proverbial hat among the 40 committee members last night and expected to see \$28,000 was turned in from two units of the Michigan Education Association.

Thus, the CCCC enters its critical period with \$61 as its sole financial assets.

However, Fricke is hopeful that campaign funds will be donated. He said 500 letters soliciting money went out last week and another 700 were to be mailed today.

TOO EARLY

The CCCC treasurer thought it was too early to give up on the letters sent last week, explaining that most were directed at organizations and meetings would probably have to be held to free money for the CCCC.

Speakers Bureau Chairman Mrs. John May reported that 70 speakers were available to speak to clubs and organizations in the county.

She said talks have been scheduled in the most parts of the county. Only Brandon and Clarkston have not been covered.

BOND BOOM — A campaign to increase the number of U.S. Savings Bond buyers at Pontiac Motor Division hit its goal this week by adding 2,240 employees to the payroll savings plan. Admiring the large-scale bond replica are (from left) employee Edgar Lin, who has been in the savings plan since 1941; Buel Starr, Pontiac works manager and chairman of the division bond campaign, and Randall Penhale, U. S. Treasury representative.

Backers of Local College Having Financial Problems

By L. GARY THORNE

A financially weak but spiritually strong citizens group learned last night that their efforts for a proposed community college have entered a critical period.

Wendell Brown, chairman of the Community College Citizens Committee (CCCC), said that every sector of the county must be covered in the next nine weeks.

A vote is slated June 8 on the three-part college question.

Brown verbally lashed members of the committee and stated it was time to coordinate campaign activities.

"We have a fine organization on paper," he said, "but we must work as a team."

Housing Unit Recommended

Planners Consent on Hospital Facilities

The City Planning Commission last night recommended rezoning property at 456 Mount Clemens for construction of a proposed two-story, 15-unit apartment complex for Pontiac Osteopathic Hospital interns and employees.

Preliminary plans drawn by Sarko Associates Architects, Detroit, were unveiled at the April planning commission meeting in connection with the request for a Residential-3 zoning on the land.

It is currently zoned Residential-1.

Harry Whitlow, administrator of Pontiac Osteopathic Hospital, said today that the development is roughly estimated to cost around \$400,000.

The building would be U-shaped with the bottom of the U facing Mt. Clemens, and the top facing the Clinton River.

WITH RESERVATIONS

Planners recommended that the city rezone the land contingent on side driveways being a minimum of 15 feet wide.

Plans called for 12-foot side drives. Fire Chief James R. White recommended they be at least 15 feet wide to allow easy access by fire trucks in the event of a fire at the rear of the building.

Tentatively, plans call for 15 apartments on each floor of the brick veneer structure. They would be one- and two-bedroom units.

Off-street parking for one car per unit is provided at the rear of the building.

Whitlow said there "is also a good possibility we'll put a swimming pool in the court" formed by the U-shaped building.

Finding quarters for interns and resident staff doctors is a rapidly-growing problem for all three of Pontiac's major hospitals.

This is the first locally-taken step to try and solve that problem on a large scale through a major housing project.

He's on the Dean's List; Is That Good or Bad?

GEORGETOWN, Tex. (AP) — Yusuf Aranki of Jerusalem, Jordan a freshman at Southwestern University, was puzzled and alarmed when told he was on the Dean's List.

"Dean's list? What have I done to him?" the young drama major exclaimed. He was relieved to hear it meant only that he had made high grades for the first semester.

Flowers for Men No Longer 'Sissy'

DURBAN, South Africa (AP) — An ingenious Durban florist came up with a new gimmick — bunches of flowers for men — and the idea is proving surprisingly successful.

Mrs. Vida Waggott got the idea when she was asked for some flowers to send to a man in the hospital.

She decided to make up special "masculine" arrangements in sturdy beer tankards, novelty bottles and giant ashtrays that could never be considered "sissy."

Some of the younger male patients didn't like the idea and thought it was effeminate to receive flowers.

But the older patients, many of whom had their own gardens, were delighted.

Mrs. George Mosher, vice president of CCCC, said that the effects of House Bill 807 on the community college vote have been nullified by actions of the county school board.

Bill 807, which has cleared the House and is in the Senate, would permit a college board of trustees to levy a 1-mill tax without voter approval for support of a community college.

The three-part college question on June 8 ballots authorizes the same thing.

A recent resolution of the county school board changes the ballot propositions so that in the event that Bill 807 passes a total millage of 1-mill is all that can be levied to operate the proposed two-year school.

Deaths in Pontiac Area

MRS. JOHN C. HUTCHEON
Mrs. John C. (Alfreda A.) Hutcherson of 2324 Girty, Waterford Township, died yesterday after a long illness. Her body is at the Donelson-Johns Funeral Home.

Mrs. Hutcherson was a member of First Methodist Church and Rebekah Lodge No. 450.

Surviving are two daughters, Mrs. Katherine Morton of Waterford Township and Mrs. Marjorie Laurance of Cleveland, Ohio; two grandchildren; three great-grandchildren; two brothers; and a sister.

MARTIN J. KWIAKOWSKI
Service for Martin J. Kwiatkowski, 50, of Hotel Roosevelt will be from the Christian Funeral Home in Cheboygan Saturday. Burial will be in the Calvary Cemetery. His body was taken to Cheboygan by the Voorhes-Siple Funeral Home.

Mrs. Kwiatkowski, an employee of Pontiac Motor Division, died after an illness of three months.

Surviving are his mother, Mrs. Martha Kwiatkowski of Cheboygan; two sons, Thomas of Pontiac and Michael, and the U. S. Navy; a sister; and six brothers.

MRS. HARRY G. LAWRENCE
Service for Mrs. Harry G. (Viola R.) Lawrence, 72, of 651 Lenox will be at 2 p.m. tomorrow in the D. E. Pursley Funeral Home with burial in Ottawa Park Cemetery.

Mrs. Lawrence died Tuesday.

LEE J. CONRAD
Service for Lee J. Conrad, 79, of 3075 Pontiac Trail will be at 2 p.m. Saturday at the Richardson-Bird Funeral Home, Walled Lake.

Graveside service and burial will follow in Oakland Hills Memorial Gardens, Novi, under auspices of Lodge No. 528, F&AM.

A retired contractor, Mr. Conrad died yesterday after a long illness.

He was a member of the Interdenominational Church, the Scottish Rite Valley, Detroit, the Moslem Shrine and Pontiac Elks Lodge No. 810.

Mr. Conrad was also past worshipful master of Olean N.Y. Lodge No. 253, F&AM, and a life member of Walled Lake Lodge No. 528, F&AM, and Monroe Chapter of Royal Arch Masons.

Surviving are his wife, Ruth Hall Conrad; two sons, William H. of Fort Lauderdale, Fla., and Elmer L. of Walled Lake; two daughters, Mrs. Presley Hatch of Detroit and Mrs. Amers Colby of Midland; eight grandchildren; and a great-grandchild.

CHARLES F. CUMBERWORTH
INDEPENDENCE TOWNSHIP — Charles F. Cumberworth, 75, of 9160 Sashabaw died this morning. His body is at the Sparks-Griffin Funeral Home, Pontiac.

SIDNEY H. TURNER
WHITE LAKE TOWNSHIP — Service for Sidney H. Turner, 61, of 4916 Cedar Island will be at 1:30 p.m. tomorrow at the C. J. Godhardt Funeral Home, Keego Harbor. Burial will follow in Commerce Cemetery.

Mr. Turner, a retired farmer, died Tuesday after a prolonged illness.

Surviving are three daughters, Mrs. Theodore Bauman of Davison, Mrs. Austin Acord of Olivette and Mrs. Mamie Turner of Detroit; a son, Andrew J. of Valdez, Alaska.

Picky Problems for Fruit Pickers

The California Department of Agriculture has urged fruit pickers to bathe twice a day, and to change to clean clothes after working with insecticide sprays.

This soap-and-water health pre-caution applies to home gardeners as well as to farmers and agriculture workers.

Fair Collection of Many Dolls

One of the most fascinating hobbies—and one that attracts all age groups—is collecting dolls. The 1964 World's Fair will be a dream come true for these collectors.

Every nation will have a variety of dolls to show. Some will be priceless and the collector must be content with viewing. Others will be for sale.

Rae-Vens Drill Team Gives 4th Annual Fashion Show

The Rae-Vens drill team will sponsor their fourth annual fashion show "Festival of Fashions" April 15 at 8 p.m. in the Elks Temple.

Fashions by the Bobette Shop will be modeled by team members and their mothers. Murray's Beauty Academy will provide hair styles.

Team models include Helen Collas, Betty Williamson, Theresa Rolfe, Claudia Beecham, Maria Tamayous, Becky Troy, Kathy Swain, Shelly Higgins, Linda Hayden and Gail Caughill. Mothers who will model are Mrs. Arthur Voorheis, Mrs.

David Ruelle and Mrs. Donald C. Burnett.

Proceeds from the style show will be used for equipment and a travel fund. The team is hoping to make a trip to Philadelphia to the nationals this summer.

How to Keep Cool When Heat Is On

The home hair dryer is one of the greatest beauty bones of the age. But the inventors forgot one thing.

They should have designed an air-conditioner inside their hair conditioner. Next time you feel hot under the hood, try this cool tip. Soak a cotton pad with good quality witch hazel and bathe the forehead and neck frequently. After removing the hood soothe the redness left by the elastic with applications of witch hazel.

The soft and winsome look of spring is reflected in the swoops of this hairdo created by Frederic Jones. Hair is brushed smoothly into a light wave near the eye from a center part. The top is lightly tossed to create large curls.

The saucy, whimsical look of spring sparkles beneath a straw hat. The look is repeated in bright, blushing coral lipstick, nail polish and the slightly wicked fragrance created by the same firm.

Fringe Benefits

Femininity Triumphant

By MIRIAM NEAL
There's a delightful trend in fashion this spring. It starts with a flurry of ruffles and softer lines and is topped by a gentle collection of curls. Fashion has decided to let us be women again—the feminine kind.

In clothes, styles range from wild to wicked to winsome, but leave no doubt that the wearer is female.

Cosmetic foundations are light and made to look natural. Rouge is back to add a glow to the death-whiteness that haunted fashion magazines.

CAMOUFLAGE
One company has created what it calls "toning white" which can, with pale polli-

ness, narrow a wide nose or make a receding chin more prominent. This touch of white can also be used as a magic glow for highlights or camouflage.

In addition, both lipsticks and eye shadows are paler, more subtle.

To go with shorter, softer hairdos even fragrances are lighter, brighter.

If this firmly feminine fashion reflects the new American woman, three cheers! Maybe there WILL be a woman president.

The airport in Pittsburgh opened in 1962, was generally believed to be the second largest in the United States at that time.

San Francisco Giants

Reduce Roster to 28

PHOENIX, Ariz. (AP) — The San Francisco Giants trimmed their roster for the 1964 National League pennant chase Wednesday by releasing four more players.

The reduction cut the team's roster to 28 players, the number legally allowed when regu-

lar season play opens in San Francisco April 14. Sent to the Giants' minor league training base at Casa Grande were pitcher Frank Lirio, catcher Dick Dietz and outfielders Arlo Engel and Dan Markowski.

Ralph Kercival, former football star, trains horses for financier Robert Lehman.

Seek Boxing Commissioner

Ring Writers Make Petition

Telegraph Resolution to Senator Hart

NEW YORK (AP) — The Boxing Writers' Association (BWA) added its voice today to the chorus asking for a national boxing commissioner.

Barney Nagler of the New York Morning Telegraph, president of the BWA, telegraphed a "commissioner" resolution to Sen. Philip A. Hart, D-Mich., in Washington, D. C.

Senator Hart is chairman of Senate's subcommittee on anti-trust, and monopoly, which has been holding hearings recently on the sport.

The resolution, voted unanimously at Wednesday's BWA luncheon, assured the senator that the BWA was wholehearted behind his committee's effort to get "Bill S. 1474" enacted into legislation.

That bill, drawn up by the late Sen. Estes Kefauver of Tennessee when he was head of Senator Hart's subcommittee, was designed primarily "to curb monopolistic control of professional boxing and to establish within the Department of Justice the office of the national boxing commissioner."

Bill S. 1474 was introduced into the Senate by Sen. Kefauver on March 29, 1961. It was read twice and then referred to the judiciary committee, where it still remains.

Windsor Team Coasts

WINDSOR, Ont. (AP) — The Windsor Bulldogs scored four goals in less than six minutes in the first period Wednesday night and coasted to a 6-2 victory over the Fort Wayne Komets before 1,643 fans.

The Bulldogs' victory tied the best-of-seven International Hockey League semifinal series at 1-1. The third game is in Fort Wayne Saturday with the fourth here Sunday afternoon.

MSU Gridders Await Spring Drills Monday

EAST LANSING (AP) — The entire offensive backfield is gone with graduation . . . the two top quarterbacks are with the baseball team . . . there are big holes to be plugged in the line.

"Problems again," sighed coach Duffy Daugherty as he faced the start of his 11th season as head football coach at Michigan State.

Daugherty successfully solved a host of similar problems last year, with a 6-2-1 season. But his final reach for glory was frustrated when Illinois beat the Spartans 13-0 in the final game, beating them out of the Big Ten title and the coveted trip to the Rose Bowl.

Spring football workouts start Monday for the Spartans. If it snows, Daugherty says he'll take his squad indoors to Jenison Fieldhouse.

"We'll have to find a completely new offensive backfield," he said in summing up the job ahead. "There will be a lot of experimenting and position changes."

MAY 9 GAME

The Spartan squad will work afternoons only, four days a week for five weeks, with the windup the annual inter-squad game on May 9.

Fourteen lettermen are gone, including a dozen of the top 22 men from the 1963 season. About 85 candidates are expected and the roster will have more than 50 per cent freshmen. There will be 22 lettermen returning.

The No. 1 and No. 2 quarterbacks, Steve Juday and Dick Proebstle, are with the baseball team. So is Buddy Owens, the top center. All three will be back in the fall, however.

The top four ground-gainers from last season—fullback Roger Lopes and halfbacks Sherman

Lewis, Dewey Lincoln and Ron Rubick—all have used up their eligibility.

LINEMEN MISSING

Linesmen missing include such solid performers as Earl Lattimer, Dan Underwood, Earl Shorton, Ed Lothamer, Dave Herman and Charlie Brown.

The Spartans are strong in one department, the defensive backfield. Returning will be kicking specialist Lou Bobich, Don Japunga and Charlie Migyanka.

Michigan State dropped a 13-10 decision to Southern California and tied Michigan 7-7 in the 1963 season.

"We meet Michigan and Illinois again this season," Daugh-

erty observed, "and they look to be the two strongest teams in the Big Ten as far as depth and experience of returning players are concerned."

BLACK & LIGHT

in a handsome sport set by Hart, Schaffner & Marx

The look is relaxed but sophisticated. Very masculine, in a very distinctive sportcoat of large black and white Glen Plaid. The model: 3-button with side vents, slanted flap pockets. The slacks are solid black in a one-plaid model. Both in fine-spun worsted blended with Dacron® to hold a crease, shed a wrinkle. Sizes for regulars, shorts and longs. Coat and slacks ensemble 89.95
