

Historic Cloture Vote Ends Rights Filibuster

Altered Budget Nixon Keeps Door Open OK'd by City; Up \$787,225

Levy of \$5,022,648
Requires Tax Boost;
Billings Start in July

The City Commission last night unanimously adopted a \$7,556,111 total city budget for 1964 and ordered City Assessor Edward C. Bloe to begin preparing tax bills for mailing next month.

Pontiac's revised budget requires a tax levy of \$5,022,648, or \$45,400 over the 1963 levy.

Bloe said that an equalized city tax rate of \$17.16 per \$1,000 of assessed property value would be needed to meet the required levy.

This is a \$1.06 hike over the \$16.10 per \$1,000 tax rate last year.

It will take two or three weeks to get the tax bills ready, he estimated.

This year's revised budget is \$607,877 above the 1964 budget tentatively adopted in January, and \$787,225 over last year's total budget.

HIKE TRACED

Most of the hike over budget figures proposed in January is due to separate financing of sewage treatment plant bonds, the fact that a layoff of city employees never took place and a shorter work week for firemen.

These three items total \$463,000 of the \$607,877 increase.

The January budget figure was originally based on the fact that 63 city employees would be laid off.

Former City Manager Robert A. Carter, however, chose to balance the January budget by cutting back on services and not filling vacancies as they occurred, rather than by laying off employees.

"The problem here," according to Finance Director Marvin M. Alward, "is that those vacancies never occurred, so we must put about \$185,000 back into the budget to make up for it."

SEWAGE BONDS

Sewage plant bonds have been paid annually from the capital improvement fund, which ranges between \$500,000 and \$600,000.

The annual bond payments (Continued on Page 2, Col. 8)

School Board President Robert E. Field. Sandra George, a junior at the school, assisted Field with the diplomas.

on Romney's Candidacy

BALTIMORE (AP)—Richard M. Nixon left Maryland Republican headquarters under the impression today that Gov. George Romney of Michigan might still become a candidate for presidential nomination despite disavowals by Romney at the National Governors' Conference in Cleveland.

Nixon planned to fly today from New York to London on a business trip and return by the weekend.

He said an alternate candidate to Sen. Barry Goldwater, R-Ariz., will emerge clearly this week or the nomination will be Goldwater's on the first ballot at the national convention in San Francisco July 13-16.

The boomlet for Romney de-

veloped after Nixon visited the National Governors Conference yesterday. He urged the Michigan governor to make the race.

Romney said he would consider it but later told newsmen he would not be a candidate. An aide said Romney would be acceptable to a draft.

STILL POTENTIAL

Nixon, who talked by telephone with Romney after the announcement reported from Cleveland, told a news conference he regarded the Michigan governor as still a potential candidate although he is under pressures from his home state not to formally announce.

He said if it weren't for commitments in Michigan—a Romney pledge not to seek national office this year—"he would get in this immediately."

Nixon said he still expects Romney "to make the fight" for principles in which he believes and which he believes are contrary to those stated publicly in the past by Goldwater.

Nixon said he would regard this as a healthy situation for the party and for Goldwater, as well, if he wins the nomination as now appears likely.

He said Goldwater would have opportunity to express more moderate views on civil rights, foreign affairs and other issues which would enable more moderates in the party to support him.

DENIED PLAN

He denied his encouragement of Romney's candidacy was part of any "stop Goldwater" move.

If the national convention is an open-and-shut affair, Nixon said, Republicans will suffer from a lack of publicity such as that going daily to President Johnson.

He said the odds are against nomination of anyone other than Goldwater but that a politician never closes the door completely.

He indicated, however, he now regards Gov. Nelson Rockefeller of New York and Gov. William Scranton of Pennsylvania as being out of the picture and feels prospects of his own candidacy are "very remote."

The party is looking for a new face, Nixon said.

Grads Told of Role in World Ahead

Dr. Harold E. Sponberg told the more than 300 Waterford Kettering High School graduates last night that the world is crying for educated youth to take their place in a fast-moving society.

Speaking at the school's third annual commencement, Sponberg, president of Washburn University, Topeka, Kansas, assured class members that they would have a part in shaping the world ahead.

He encouraged them to always be courageous as they travel the road of life.

Supt. of Schools Don O. Talbot introduced the speaker, and the class was presented by James S. Fry, school principal.

School Board President Robert E. Field awarded diplomas as graduates marched single file from their seats in the school gym to the stage.

Judith Hoffmann delivered the valedictory message to her fellow graduates and the Rev. Robert L. Adams, pastor of Crescent Hills Baptist Church, gave the invocation and benediction.

Twisters Seen as High Winds Lash at State

Three Houses, Barn
Damaged by Tornado
in Saginaw Area

By The Associated Press
Severe electrical storms, accompanied by winds up to 80 miles an hour, lashed wide areas of Lower Michigan last night, causing property damage and communitywide power blackouts.

State police said a tornado touched down near Saginaw, hurling timbers from a barn 100 yards into three houses along Williamson Road.

A sheriff reported seeing two tornadoes at Kalkaska, but said they apparently did not touch down.

Flying timbers damaged roofs of the Roger Charette and Arthur Cotton residences near Saginaw and crashed into the basement of the Mary Herrod home, but no one was injured.

State Troopers Calvin Glassford and Melvin Bigelow said the damage was the result of a tornado.

No serious injuries were reported in any areas, but close calls were common as trees and power lines came down.

Area police reported only a few instances of wind damage yesterday; a fallen tree across Baldwin in Orion Township in the afternoon and an electrical wire down on Henry Clay Street last night.

HEAVY LOSS

Most of the heavy damage was reported along a line from Grand Rapids to Kalkaska and Alpena.

WHEELCHAIR VOTE — A cheerful Sen. Clair Engle, D-Calif., recuperating from two brain operations, arrives to cast vote in historic cloture move. Engle voted with the majority to choke off the 75-day-old southern filibuster against the civil rights bill.

Essex Workers Back; Troops Leave Town

HILLSDALE (AP)—More than 40 union workers returned to the production line at Essex Wire Corp. today after a 102-day strike, and National Guard troops packed up their gear after 13 days of keeping the peace.

Forty to 45 union men went back to their jobs on the day shifts and 50 to 60 more were recalled for the afternoon and mid-

night shifts, said Italo Bragalone, plant manager.

Hillsdale, a city of some 7,600 in southern Michigan, began reverting to normal yesterday when members of International Union of Electrical Workers

Local 810 ratified a new 4-year contract by an 83-34 vote.

Bragalone said more workers would be recalled as production picks up. Resumption of full production and recall of all union men "depends on business conditions," he said.

George Gould, international representative of the IUE, said 15 men accused by the company of sparking picket line violence have been dropped to the bottom of the back-to-work list.

Bragalone said nonunion workers employed at Essex Wire during the strike were finished at Hillsdale, although some might be recalled after the full IUE back-to-work list is exhausted.

OTHER JOBS

Gould said about 25 of the original 180 strikers reportedly have found other jobs.

Senate Move Likely Assures Bill's Passage

Galleries Packed as
Solons Set Debate at
1 Hour Per Speaker

WASHINGTON (AP) — The Senate voted today, in a history-shattering move, to choke off the 75-day-old Southern filibuster against the civil rights bill.

Each senator's time to debate the bill and all amendments will now be limited to one hour.

This appears to assure Senate passage of the far-reaching bill, possibly before the end of next week.

The House passed the bill on Feb. 10 by a vote of 296-130. The Senate has been battling over it since March 9, with Southern opponents mounting a record-breaking filibuster against it.

GALLERIES PACKED

The Senate's public galleries were packed as the crucial vote on cloture was taken.

Tight security was maintained around the Capitol as additional persons pressed for a chance to get in.

The vote followed an all-night session of the Senate at which Sen. Robert C. Byrd, D-W.Va., made a marathon speech attacking the civil rights bill and urging his colleagues not to shut off the debate.

Byrd began his speech at 7:30 p.m. and continued until 9:52 a.m. The Senate took an eight-minute recess, then went back (Continued on Page 2, Col. 2)

Fair, Cooler Day Forecast for Area

A high of 92 yesterday afternoon tied the record for the day set in 1914, the highest June 9 since records began in 1872. It was also a new high for the season in the Pontiac area.

Tomorrow will be fair and cooler, the high 70 to 76. The low is expected to fall to near 50 tonight.

The low recording in downtown Pontiac prior to 8 a.m. was 64. At 2 p.m. the reading was 82.

REP. R. L. BAKER

Republican Set to Run Again

Represents New State House District 44

Republican Rep. Raymond L. Baker today announced his intention to run for a third term, representing the new State House District 44.

Baker served as representative from the old 4th District which covered Lyon, Novi and Farmington townships and the cities of Southfield, Berkeley and Oak Park.

Under the new apportionment plan, Novi, Farmington are combined with Milford and Commerce townships to form the 44th District.

Baker is presently chairman of the House Metropolitan Affairs Committee, and during his second term served on the conservation, insurance, drainage and liquor control committees.

He has been appointed to the 1964 interim study committees working on liquor laws, Copper County Tuberculosis Sanatorium, vending stands, state waters and liquor control committees.

A Berkley resident, Baker was graduated from Detroit Institute of Technology College of Pharmacy and formerly owned a drug store.

He is a member of several pharmaceutical and professional groups, Exchange Club, Elks, and Phi Delta Chi fraternity.

Red Space Couple Has a Baby Girl

MOSCOW (U-P) — The world's only space woman, Valentina Tereshkova, gave birth to a daughter Monday, an official announcement said. Mother and daughter are well.

The child of the blonde, who orbited the earth 48 times last June, and her spaceman husband, Andriyan Nikolayev, weighed three kilos 160 grams (6 pounds, 13½ ounces), said usually reliable sources.

The sources said the baby was delivered by caesarian section at 2:10 a.m. Monday. There was no official confirmation.

U.S. Warning in Cyprus Strife

GENEVA (AP)—U.S. Undersecretary of State George W. Ball set out today on an emergency mission to warn Greece and Turkey of the Johnson administration's concern about the Cyprus crisis.

Informed sources said Ball carried word that the United States is ready to take sharp measures if their nature unspecified—to prevent the conflict from degenerating into a Greek-Turkish war or otherwise disrupting the eastern flank of the North Atlantic Treaty Organization.

Before boarding a plane here, Ball told newsmen "It is utterly impossible for war to break out between the two North Atlantic treaty partners because of the serious consequences this would have for the whole free world."

Ball, who has spent two days at the closing phase of the U.N. trade and development conference, canceled a scheduled trip to London to undertake his mission in Athens and Ankara.

DIRECT ORDERS

Ball charged his plans on direct orders from President Johnson.

He is meeting Greek Premier George Papandreu in Athens tonight and will leave for Ankara later in the night for talks with Turkish leaders. He is due back in Washington late Thursday to report to Johnson.

He said his trip was not intended as a mediation effort.

Senate Approves Cloture Vote on Rights Filibuster

(Continued From Page One) into session. It had agreed yesterday to meet at 10 a.m. today.

PREVIOUS FAILURES

Since the adoption of the cloture rule in 1917, all previous attempts to use it to cut off a filibuster against a civil rights bill had failed.

Leaders of both parties became convinced in the face of the all-out opposition of the Dixie forces to the present bill that debate-limitation had to be obtained if the bill was to pass.

Voting for cloture were 44 Democrats and 27 Republicans. Opposed were 23 Democrats and 6 Republicans. One of the Republicans voting against was Sen. Barry Goldwater of Arizona, the leading contender for his party's presidential nomination.

The actual vote was dramatic with the crowded Senate chamber silent as the names of the 100 Senators were called.

because "this problem can only be solved by the parties directly involved."

"Any solution will require a great deal of realism and generosity on all sides," he added. Earlier today, he scrapped a planned major speech to the development conference, telling the delegates of 122 nations the measure of agreement was insufficient to warrant a review of their accomplishments.

President Makarios of Cyprus, leader of the Greek Cypriots, called Tuesday night for an urgent meeting of the U.N. Security Council meeting to "denounce threats of the Turkish government to invade our island."

In a note to heads of state and government he charged that Turkey "has now amassed a great number of naval and air forces ready for immediate invasion of Cyprus."

He accused the Turks of repeatedly violating air space over Cyprus and dropping arms to Turkish Cypriots.

DENTON F. HASSELL

Sales Executive to Run in 47th

Bloomfield Twp. Man for GOP Nomination

Sales executive Denton F. Hassell said today he will be a candidate for the Republican nomination as state representative from the newly formed 47th House District.

Hassell, 48, of 3219 Pebble Lane, Bloomfield Township, has long been active in party work and has been a campaign aide to Congressman William S. Bloomfield.

The 47th District comprises the cities of Birmingham, and Bloomfield Hills, Bloomfield and Southfield townships, including the villages of Franklin, Beverly Hills and Bingham Farms.

Hassell is sales manager for Wal-Mart-Cleats Division of Wal-Mart Corp., a cemented carbide products manufacturer. He previously was distributor sales manager for Carmet Division of Allegheny Ludlum Steel Corp.

He is also past president of Ferndale Kiwanis and a Kiwanis division lieutenant governor; has been a Camp Oakland director since 1952; and headed United Fund industrial collections in Oak Park.

OTHER POSTS

Hassell is a member of the National Account Marketing Association, and is educational committee vice chairman for the American Supply Machinery Manufacturers Association.

Listing his legislative plans, Hassell said he was concerned with traffic safety, diminishing water supplies, establishment of "halfway houses" and mental health care of emotionally disturbed children.

Rusk, Dobrynin Confer, but Subjects Secret

WASHINGTON (AP)—Soviet Ambassador Anatoly F. Dobrynin called on Secretary of State Dean Rusk today, but neither he nor the State Department said what the meeting was about.

The Russian envoy, after 15 minutes with Rusk, would tell newsmen only that several subjects were discussed. The meeting was at Dobrynin's request, the department said.

POWERFUL PUNCH—Survivors waited for rescue yesterday at the edge of Highway 89, three miles south of Choteau, Mont., where floodwaters of the Teton River ripped out this concrete bridge. The action isolated several families who later were rescued by helicopters.

AP Photos

Death Toll at 30 as Flood Ebbs

GREAT FALLS, Mont. (U-P)—Montana's floodwaters receded today leaving behind a vast trail of death and destruction. At least 30 persons were dead, 38 missing and thousands homeless.

See Stories, Page A-10

As deadly floodwaters inched downward at Great Falls, weather observers expressed concern about conditions on the Missouri 200 miles upstream from Great Falls.

Normally shallow mountain streams still were running like rivers today on both sides of the Continental Divide, pouring thousands of cubic feet a second into upstream flood control reservoirs.

A big dam at Canyon Ferry near Helena held back the heavy upstream flow to allow downstream crests to recede. Upstream crests are not expected before Friday on the Missouri.

DANGER UNKNOWN

"We cannot say at the present time just how dangerous this upstream flooding will be," Richard A. Dightman, government river district official, said. "However, it is not expected to be too serious."

There was no immediate danger to communities downstream from Great Falls, although officials evacuated Loma, a community of 280 at the junction of the Teton River and the Missouri.

Pounding waters washed out a major highway bridge at Loma, leaving only one major highway open into Great Falls. Two thousand were homeless in Great Falls.

School Supt. Bruce Milne said there were two known dead in the Valier area. Both were youngsters who presumably drowned in a flash flood that rushed down Birch Creek after a torrent of water broke an earthen irrigation dam.

State Dems, GOP Politicos Blast Romney

LANSING (AP)—Democrats and conservative Republicans took swipes at Gov. George W. Romney Tuesday, calling him "politically ambitious" and charging him with "extreme personal partisanship."

Meanwhile, Romney said at the Cleveland Governor's Conference that he definitely would not seek the GOP presidential nomination. But former Vice President Richard M. Nixon said later he still regarded Romney as a potential candidate.

"It will come as no surprise to us if Gov. Romney declares himself a candidate for the nomination," said State Democratic Chairman Zolton Ferency. "It would be a typical performance on the part of a politically ambitious man."

During an intraparty power fight last weekend, Sen. Barry Goldwater, R-Ariz., emerged as the primary contender for the nomination. Romney took the lead in a suddenly aborted move to halt Goldwater's bid.

URGE VOTES

Goldwater's victory Tuesday prompted the Conservative Federation of Michigan to urge unpledged Michigan delegates to the Republican National Convention to vote for him.

The federation charged Romney with "extreme personal partisanship" and warned of reprisals at the state election next fall. Romney is running for reelection.

The federation said he has "broken the pledge" for an unpledged delegation at San Francisco. "We believe all Goldwater supporters in the Michigan delegation now are at liberty to vote for Goldwater on the first ballot. We urge that they do so," the group said.

"RUDE AWAKENING" Ferency said Goldwater is in for a "rude awakening" from Romney.

"He is learning what we have learned over the past 18 months, that you just can't trust George Romney, Ferency said.

"Romney went out of his way to assure the Senator that he would not be part of an anti-Goldwater movement. That promise was not even a week old when he came out against Goldwater at the conference," Ferency declared.

This means, in effect, the city must operate for six months each year before it gets any tax income.

Birmingham Area News

765 to Be Graduated From Seaholm, Groves

BIRMINGHAM — A total of 765 graduates will receive diplomas in commencement exercises at Birmingham's two high schools tomorrow.

The larger class, numbering 521, will be graduated from Seaholm High School at 10 a.m.

Dena Rose, assistant vice president of Michigan Bell Telephone Co., will deliver an address entitled "The Day After Tomorrow." He will be introduced by Mrs. Mary Beier, a school board member.

Robert Swanson, son of Mr. and Mrs. Robert Swanson of 915 Norwich, Troy, is valedictorian and Judith Steere, daughter of Mr. and Mrs. Robert Steere of 4247 Far Hill, Bloomfield Township, salutatorian.

Dr. Kenneth Gass, rector of St. James Episcopal Church, will deliver the invocation. Greetings and the class gift will be presented.

Mary is the daughter of Mr. and Mrs. George W. Murphy. Mr. and Mrs. Edward E. Coder are the parents of Ellen.

Dr. John B. Smith, superintendent of schools, will present the diplomas in the gymnasium of each school.

presented by Charles Bethel, senior class president.

GROVES HIGH SCHOOL. Ceremony for the 254 Groves High School graduates will be at 8 p.m.

Commencement speaker is Lee Iacocca, vice president and general manager of the Ford Division, Ford Motor Co. His topic is "The Growing Responsibilities of Youth."

E. Ross Hanson, president of the school board, will introduce Iacocca.

The invocation and benediction will be given by Rabbi Mordecai Halpern, Congregation Beth Shalom, and Rev. Thomas F. Shields of St. Regis Church.

TOP SCHOLARS

Top scholars in the class are Mary A. Murphy, valedictorian, and Ellen Coder, salutatorian, both of Beverly Hills.

Mary is the daughter of Mr. and Mrs. George W. Murphy.

Dr. John B. Smith, superintendent of schools, will present the diplomas in the gymnasium of each school.

Altered Budget OK'd by City

(Continued From Page One)

In excess of \$200,000. Thus, they put a squeeze on actual funds available for capital improvements, Alward explained.

This year's bond payment — \$240,000 — is being paid through a separate levy of 84 cents per \$1,000 of assessed value.

The capital improvement fund is being maintained at its normal level — about \$546,000. "The method of bond payment accounts for most of the estimated tax rate increase and a large portion of the budget increase," Alward said.

Because construction of the sewage treatment plant resulted from a court order, the city may pay off bonds through a separate levy without getting approval of the general public at an election.

The hike in the Fire Department budget is \$38,000 over the figure proposed in January to cover six months (July through December this year) under the new five-hour work week for fire fighters.

Voters approved the 56-hour week on the April 20 general election ballot.

Another ballot proposal, asking for a mill tax hike to help finance city operating costs, was defeated April 20.

The rest of the hike from January's budget total lies in funds restored to departmental budgets which were severely cut to balance the original 1964 budget.

Administrators said that the final, revised total "is still an austerity budget."

The lone major comment last night came from Commissioner John A. Dugan.

"I was very disturbed by a Fire Department budget that would stand at the polls and tell voters the 36-hour work week wouldn't necessitate a tax increase," he said.

"I'd like to know how it can be done without costing money. It's about time we learned this is a two-way street."

"I don't say the firemen don't deserve 36 hours of work," Dugan concluded, "but if they're going to ask for something, they should step up and tell the people they'll have to pay for it."

The total budget increase was made possible largely when Pontiac's tax base went up about \$15-million in April.

When the January budget was adopted, the tax base stood at about \$268-million. It is now about \$283-million.

The \$7.5-million budget total consists of \$6,179,586 for operating costs; \$546,000 for capital improvements; \$422 for sanitation and waste disposal; \$240,000 for the sewer plant bonds and \$188,000 for Pontiac General Hospital expansion bonds.

The tax levy will be supplemented by an estimated \$2,533,463 in revenues from other sources such as license fees, fines, and revenues from rentals, sales and services.

CHRISTIAN F. POWELL

Attorney Announces Candidacy

Attorney Christian F. Powell announced today he will be a Republican candidate for the State House of Representatives District 45, which covers Waterford and West Bloomfield Townships.

Powell, 33, of 7618 Barnsbury, West Bloomfield Township, is senior partner in the law firm of Powell, Peres, Carr & Jacques, Waterford Township.

He was an unsuccessful legislative candidate in 1960, was later appointed to the West Bloomfield Township Planning Commission, serving from 1961 to this year.

A graduate of Ferris State College, Powell received his law degree from Detroit College of Law in 1960.

Before entering private practice he was controller and general counsel for Dynamic Manufacturers, Inc., Troy, and before that financial analyst for Ford Motor Co. and tax accountant at Wyandotte Chemicals Corp.

Powell is a member of county, state and national bar associations, and is a county director for the Claims Council of America; is a member of Delta Theta Phi fraternity and Union Lake Optimists.

The 45th District contains Sylvan Lake and Keego Harbor within the two townships it covers.

Community College OK a Wise Move by Voters

Oakland County voters got their educational funds and their pocketbook wishes together Monday at the polls.

This time they approved the millage for a community college, as well as voting to establish the college. Last year the college was okayed, but voters vetoed the cost proposal.

Approval of the community college is but a step in meeting the bulging problems of education which face this area. It is an important move, and we hope the project will get started with all dispatch.

The two-year college will be able to provide technical training, and also a start on a college education for many students who cannot afford to live away from home.

The major colleges and universities of this State will not be able to handle the floodtide of applicants in the next decade, even with vigorous expansion programs. The key to the problem is community colleges throughout the State.

Oakland voters have made a wise decision, even if a year late. Another delay would have harmed the project a great deal.

Hoffa's Legal Bills Add Up to Tidy Sum

Reports that Teamster boss JAMES R. HOFFA is selling some of his personal assets to pay his mounting legal bills leave us strangely unmoved.

It is estimated that Hoffa's legal defense in his recent jury-tampering conviction in Nashville, Tenn., and the fraud-conspiracy trial in Chicago will set him back \$1 million.

The Teamster Union had been picking up the check for its president's court skirmishes, but discontinued the practice when the Labor Department questioned it as a possible violation of the Landrum-Griffin Act.

Brushing with the law, as Hoffa has discovered, can incur a pretty heavy payoff. We suggest that less exposure to courtrooms would also pay off heavily.

Morse Finally Speaks Words of Wisdom

Sen. WAYNE MORSE, Oregon's Democratic Senator, broke precedent the other day and spoke a little sense.

He told his self-conscious colleagues that the American public has an unerring habit of arriving at the sum of four when the figures to be added are two and two.

The Senator had in mind the infamous BOBBY BAKER case and the inconclusive investigation given it by a Senate committee.

That BAKER is small potatoes in the scandal is as plain to everyone as the dome on the Capitol wherein he toiled and spooled, implied Morse, and if the inquiry is to end with him, the general conclusion will be that the Senate was anxious to protect its own members at the expense of its fair-haired boy.

Morse added a pious mouthful with, "Secrecy and resistance to

reform always create the impression of wrong-doing — in this case, profitable wrong-doing."

To which we add an approving Amen—sure, too, that no senatorial voice will be audibly raised to debate the point.

With reference to "leaning over backward," that's what women who want to maintain their modesty have to do when wearing some of the latest styled dresses.

LBJ Starting Campaign Early

By JAMES MARLOW
Associated Press News Analyst

WASHINGTON—President Johnson acts like a man who can't wait for the 1964 presidential campaign to start. It actually has started, although it is not supposed to until after this summer's political conventions.

Johnson already has begun firing at complaints Republicans are making and seem sure to continue until Election Day, one way or another. More than that, he sounds as if he takes for granted that Sen. Barry Goldwater will be his opponent.

A speech last week was a direct answer to Goldwater's misgivings about American defenses. Monday he hit at another Goldwater complaint: that government is getting too big and endangering freedom.

There's a touch of the Republican campaign of 12 years ago when Dwight D. Eisenhower himself got into the act Monday with one of his favorite themes of 1952: cut government spending.

This is one of Goldwater's favorites, too. BALANCED BUDGETS

At the governors conference in Cleveland Monday, Eisenhower, who has been super-cautious about making any suggestions in a Republican presidential contest, urged a constitutional amendment requiring balanced budgets every two years.

In the course of his talk to the governors, Eisenhower took a crack at Johnson's antipoverty program. Johnson could not have known, when he prepared his own speech, what Eisenhower was going to say Monday.

What Johnson said, while undoubtedly aimed at Goldwater, answered Eisenhower, too, on the question of government bigness. Johnson said the nation need have no fear it was getting too big for the freedom-loving individual.

Goldwater has been playing his warning about bigness over and over like a record.

GOLDWATER SAYS
As long ago as 1960, in his book, "Conscience of a Conservative," Goldwater was saying:

"How did our national government grow from a servant with sharply limited powers into a master with virtually unlimited powers? In part we were swindled."

"All too often we have put men in office who have suggested spending a little more on this a little more on that, who have proposed a new welfare program, who have thought of another variety of security."

"We have taken the bait, preferring to put off to another day the reapture of freedom and the restoration of our constitutional system."

SOCIAL SECURITY

Johnson said government neither subverts, undermines nor lessens freedom "through the Social Security System, or by bringing electricity to the farm... by controlling floods, by ending bank failures... by providing school lunches for our children."

Goldwater has toned down his statements about the Social Security System. He suggested putting it on a voluntary basis, although how it could then survive he never explained.

After he lost the New Hampshire primary in March his campaign manager there said he had pulled a major bone in advocating a voluntary Social Security System.

Since then Goldwater has been saying he simply wants to improve Social Security, not end it, by keeping the dollar sound.

The News Isn't All Bad

David Lawrence Says:

Ike Offers Power-Grab Remedy

WASHINGTON—Former President Eisenhower has put his finger on one of the biggest weaknesses in the operation of the American constitutional system today.

In his latest pronouncement he did not mention the arbitrary use of power by the Supreme Court, but he did emphasize the centralization of power in Washington by both LAWRENCE the executive and legislative branches of the government.

As a remedy for this situation, Eisenhower, in speaking before the conference of governors held at Cleveland this week, called attention to a provision of the Constitution which has never been used but which could put an end to usurpation of power in Washington.

No longer would the Supreme Court be able — if the states object — to continue to let the state legislatures or county supervisors or governing councils of American cities that they must, in effect, appropriate money for this or that purpose — a ruling which was proclaimed only a few weeks ago and is unprecedented in American history.

Nor would the court be able to go on telling the states how to apportion the districts in a state legislature — if the states decide by themselves to nullify these rulings by an amendment-taking away such powers from the judiciary.

Eisenhower did not single out any particular government action, but referred in broad terms to the excesses of today when he said that if a provision in the present Constitution which has never been used were to be put into effect, "those in Washington power centers would never again feel at ease in their restless work to extend the federal reach or to use tax money to attract voters."

The former president added that presidential power is such today that an end should be put to "costly pork barrels" in the executive and legislative branches in allocating public funds to certain states in order to attract their votes, while denying tax money for proper uses to other states.

COLLUSION HIT

Eisenhower was saying really that the best interests of the American people have not been served by the collusion between the executive and legislative branches in allocating public funds to certain states in order to attract their votes, while denying tax money for proper uses to other states.

The provision in Article V of the Constitution, which Eisenhower referred reads as follows:

"The Congress, whenever two-thirds of both houses shall deem it necessary, shall propose amendments to this Constitution, or on the application of the legislatures of two-thirds of the several states, shall call a convention for proposing amendments, which, in either case, shall be valid to all intents and purposes, as part of this Constitution, when ratified by the legislatures of three-fourths of the several states, or by conven-

tions in three-fourths thereof, as the one or the other mode of ratification may be proposed by the Congress . . ."

The difficulty, however, with Article V quoted above is that Congress still remains as a part of the amending process and at present could block the calling of a national constitutional convention even if one were requested by the states.

To overcome this, the National Council of State Governments would revise Article V.

But adoption of such an amendment first requires action by Congress.

This means that only if public opinion in America now is sufficiently aroused against the usurpation of power in Washington can there be enough pressure exerted to cause Congress to pass an amendment to the Constitution that bestows upon the states their right to initiate a constitutional amendment.

Capital Letter:

'Uninhibited' Computer Could Select Nominee

By RUTH MONTGOMERY
WASHINGTON: Mere man a winter, up in the middle after this spring's Republican primaries. He's been proved smarter than the professional pollsters, but dumb as the computer machines.

To a political columnist, no news is more cheering than the downfall of the all-knowing pollsters, who have chalked up a bygone era. RUTH MONTGOMERY misses in the MONTGOMERY nation's most crucial primaries: New Hampshire, Oregon and California.

Were it not for those hydra-headed computers, a political reporter could breathe easily again. But like Mount Everest, the computers are there!

The possible effect of these soul-less monsters on presidential nominating conventions of the future is rather chilling to contemplate.

It is human nature, particularly among politicians, to be on the winning side.

Let us pretend, therefore, that the rollcall of states is under way at the Republican convention in San Francisco next month.

Alabama, polled first, casts its votes for Barry Goldwater. Alaska, next up, gives one each to Lodge and Nixon, and seven to Rockefeller.

REHEARSAS SPEECH

The Arizona delegation goes solidly for Goldwater. Arkansas splits three ways, and California's 86 votes go to Goldwater.

Then, Illinois casts 40 of its votes for Goldwater, eleven for Nixon and nine for Scrantom.

Indiana is on its feet, but before its 32 votes can be recorded for Goldwater, a network computer announces that on a projection of the votes, Richard M. Nixon is declared the winner.

The word spreads wildly through the convention hall, and

undecided delegates begin scrambling onto the Nixon bandwagon.

BARRY FAILS

Goldwater fails to capture the necessary majority on the first ballot.

By the second, delegates who were committed to Goldwater only for the first ballot begin switching to Nixon, and by the third ballot he goes over the top. Sounds fantastic? It probably is, but the psychological impact cannot be discounted in a tense, sweating, jam-packed throng of politicians who want to be with the winner.

Nothing but Best

The Wall Street Journal

In a speech, the president of the Machinery Dealers' National Association called attention to a paradox of foreign aid.

As Belford Small says, a U. S. manufacturer who is expanding may well decide to buy used, rather than new, equipment.

Largely because of such decisions Mr. Small's association expects U. S. dealers this year to sell \$225 million of used metal-working machines.

What disturbs Mr. Small is that so-called underdeveloped nations aren't using any of their U. S. foreign aid grants or loans to buy such machines. There's nothing in U. S. laws or regulations to prevent it, he says, but "in practice used equipment is barred."

In some cases this may make economic sense. But the new machines in many cases are simply uneeded.

Cited is an aluminum company in Ethiopia which is seeking U. S. aid to help equip a plant to turn out a small volume of utensils.

The company wants two new presses, costing a total of \$80,

Voice of the People:

'Contented Americans Afraid to Speak Out'

While Americans sit around watching TV, eating snacks and living the life of Riley, Communists terrorists are pushing Americans out of Viet Nam. Americans are well aware of the problems and threats facing them, but no one will fight or even try to work them out.

We no longer have any backbone and are afraid that if we speak out, we'll be rejected. Speak up! America will stand behind you. Now is the time to show our bravery to Communist-dominated countries which seek our help in freeing them.

The U. S. is dead without our help. If we don't even try we'll torture ourselves to death. Freedom is a sacred thing—let's keep it that way. May God bless you if you fight now for your country.

More Voice Opinions on Drag Strip

Pontiac needs a drag strip. Dragging is a sport enjoyed by many, not just teen-agers. A VOP writer stated that even if we had drag strips teen-agers would still drag on the streets. This had to be for a few but the majority would not. Why should the careful drivers be deprived of a drag strip?

THOMAS POWERS
18 TACOMA

It's true drag strips are noisy but it should be taken into consideration that many people are now disturbed by cars dragging and racing on the city street. Kids are going to drag race, but there's one big difference—on our streets they could kill or maim someone whereas on a legal drag strip there is constant supervision.

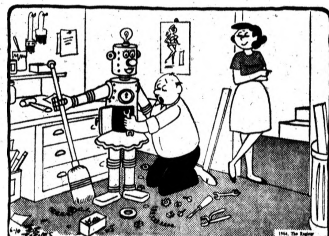

FUTURE DRAG STRIP RACER

Letter writers Mr. and Mrs. Martin say we need a drag strip so our children can learn safe driving and to abide by state and local laws. On a drag strip there are crossroads, stop signs, no-crossing lines, school buses, kids on bikes, oncoming traffic, etc.

If these children have money to speed up cars they have money for a strip. If taxpayers put more money they should be for more law enforcement to protect people from the dragsters when they are not on a strip.

NON STRIP

The Better Half

"If this thing works the way I expect it to, I won't be needing you any more."

\$309 billion and on the next day to the permanent limit of \$335 billion.

Perhaps we should rejoice that Mr. Dillon is not asking for the \$330 billion limit which he said last fall would be needed by 1965.

The deficit for 1964 is going to be a few billion dollars lower than expected, thanks to good business conditions, and the March and April tax receipts have caused an actual reduction in the debt. Of course it will shoot up again in the fall.

But good business conditions, after all, are what the administration has been telling us would enable it to balance its budget and eliminate the deficit altogether. Instead, it faces an \$8 billion deficit this year and another next year of \$4 billion.

How good does business have to be to satisfy the government?

Congo Nearing Dark Days Even as U.N. Troops Leave

BACKGROUND OF THE NEWS

SPECIAL REPORT

By ROBIN MANNACK

LEOPOLDVILLE, the Congo (AP)—Lights burn late at U.N. headquarters in Leopoldville. Senior officers of the world organization's Congo army wear harassed and even guilty looks. The Congo apparently is heading for dark and violent days, but they are getting out. By June 20, the Congo's fourth independence day, the last of 3,465 U.N. soldiers from 12 nations will have gone home, their job finished.

Finished?

In Kivu, on the Congo's eastern border, Communist-backed pygmy-like Bafulero warriors routed five companies of Congolese soldiers and threatened Bukavu, the provincial capital.

SHORT REVOLT

At Albertville, capital of North Katanga, a short-lived revolt against Provincial President Jason Sendwe took more than 100 lives. Wives of two U.N. civilians were raped.

Farther west, young warriors invaded the South Kasai town of Mwene-Ditu and murdered five citizens by forcing them to swallow pill-pill, a tiny, fiendishly hot red pepper used to season food.

To the north, Stanleyville, once the late Premier Patrice Lumumba's area and still a hotbed of extremism, seethes with discontent. The central government has named a resident minister to supervise Provincial President Paul Isembuma, deposed by his provincial assembly but reinstated by Leopoldville.

In the center, Peking-trained ex-education Minister Pierre Mulele leads a rebellion in Kivu. His warriors also burn and kill in neighboring provinces.

'IN PRISON'

In Leopoldville, nightfall turns more than 1.2 million people in to prisoners inside their homes.

A dusk-to-dawn curfew is the government's answer to plastic bomb attacks against churches.

3 Men From Local to Attend Confab

President Robert J. Parker will lead a three-man delegation from Pontiac Local 4012, Communications Workers of America, to the union's national convention June 17 in Cleveland.

Parker, who will serve on the convention credentials committee, said the gathering will feature an address by President Johnson.

Attending with Parker will be delegates Lawrence DeNo and Dan Butler. Local 4012 represents Michigan Bell Telephone workers in the Pontiac area.

Rip Van Winkle couldn't sleep with nagging backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exercising or stress and strain—you want relief—want it fast! Another disturbance may be mild bladder irritation following wrong food and drink—often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1. by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains, 2. by soothing effect on bladder irritation, 3. by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the large size. Get Doan's Pills today!

Doan's

electric power installations and the capital's railroad to the sea. Saboteurs made an unsuccessful bid to blow down the wall of Makala prison in broad daylight. Across the river in Brazzaville, capital of the Congo's sister republic, excited extremists plot Premier Cyrille Adoula's violent overthrow, bribing soldiers to act as hired assassins.

"These are the darkest days since 1960," declares one high U.N. officer, recalling the Congolese army mutiny only seven days after independence which sent the country into an orgy of killing, looting, raping, destruction and secession. That brought the United Nations here.

Its rank and file soldiers do not try to conceal their impatience to be gone. Departure dates are ringed with red on wall calendars.

"It can be argued that putting down the rebellions in Kivu and Kwilu is no business of the United Nations.

"Lots of countries have internal security problems," says a U.N. political official who insists on remaining anonymous. "We have to leave one day—we can't stay here forever."

NOT FINISHED

To a large extent, the Congo's present woes are unfinished business. Four years of crisis-ridden independence have been too short to solve deep-rooted tribal, political and economic questions.

Add to this the bewilderment of the ordinary Congolese trying desperately to belong to the 20th century. All the wisdom of his

tribal forebears means nothing when he confronts the complexities of modern society.

Add to this a leadership crisis that was inevitable the day this vast, rich nation was handed by

its Belgian colonial rulers to 14 million people of whom less than a score had university de-

grees and even fewer any real experience of accepting responsibility.

Almost all observers are agreed that Adoula and some of his close collaborators have grown in political stature in battling for survival.

NOT POPULAR

But their measures to keep the country afloat have been misunderstood by the bulk of Congolese. The leaders are unpopular.

Flying on the agony is the inefficiency of corruption, laziness and tribal favoritism displayed by the administration Adoula commands. He rarely knows whether his subordinates will obey him. Ministers fight viciously among themselves.

"Anarchy, civil disobedience and bone idleness are the prime factors of Congolese life," says union leader Alphonse Kithima. Next comes racism. Most Con-

golese know that their country cannot survive without help from white technicians. But they resent it.

MONKEY TAG

On the other side of the racial coin, many whites still lump all Congolese into the "macaque" (monkey) category.

Top this off with a lavish dash of cold war—Peking style. Most experts on communism here are convinced the Chinese are flexing their muscles in Africa, probing for weaknesses.

The sum of all these factors equals indifference by a lot of Congolese toward their country's ultimate fate.

Perhaps the greatest tragedy is that the Congo, thanks to energetic government measures and foreign aid, was on the brink of economic recovery when assailed by the Communist-supported revolts in Kwilu and Kivu.

Britain Mourns Loss of Beaverbrook

LONDON (UPI)—An atmosphere of mourning hung today over Fleet Street—Britain's newspaper row—for Lord Beaverbrook, one of the most dynamic and controversial in British journalism.

The cabinet minister of two world wars, political kingmaker and Conservative press magnate died yesterday at his country estate in Surrey. He was 85.

The union Jack waved at half-staff today atop the Fleet Street headquarters of Beaverbrook's empire, its telephones no longer buzzing with "What's the news?"

The newspapers did not die

with Beaverbrook. His son, Max Aitken, said last night the mass circulation Daily Express, Sunday Express and Evening Standard, "will continue with the same policies. I will be at the head of them."

Sir Winston Churchill, the only other man to hold cabinet rank in Britain in both World War I and World War II, led the nation in paying tribute to the publisher.

"I am deeply grieved at the loss of my oldest and closest friend, who served his country and his comrades valiantly and was the most loyal and devoted of comrades," Churchill said.

Beaverbrook served as minister of aircraft under Churchill in the dark days of World War II, coordinating the production of planes Britain needed to defeat Hitler's Luftwaffe.

Beaverbrook was British minister of information in World War I.

But publishing was Beaverbrook's first love. He bought the struggling Daily Express in 1918 and built it into Britain's second largest daily newspaper with a circulation of more than 4 million.

The Evening Standard and the Sunday Express were added later.

CHEVELLE by Chevrolet

FRISKY AS IT CAN BE...FINE A BUY AS YOU CAN GET (even finer now!)

Trade 'N' Travel Time is running out at your Chevrolet dealer's. This is about your last chance to get in a whole summerful of fun with a beautiful buy like a Chevelle Malibu wagon.

Allow us to point out some of its less obvious pleasures:

It has curved side windows—not just for looks, but to give you more shoulder room. It has 86 cu. ft. of cargo space, so you can go on vacation with everything but the kitchen sink if you have to.

It has a Magic-Mirror acrylic lacquer finish for protection against the sun, road tar and chipping.

It has those self-cleaning rocker panels beneath the doors that

FOR THE GREAT HIGHWAY PERFORMERS

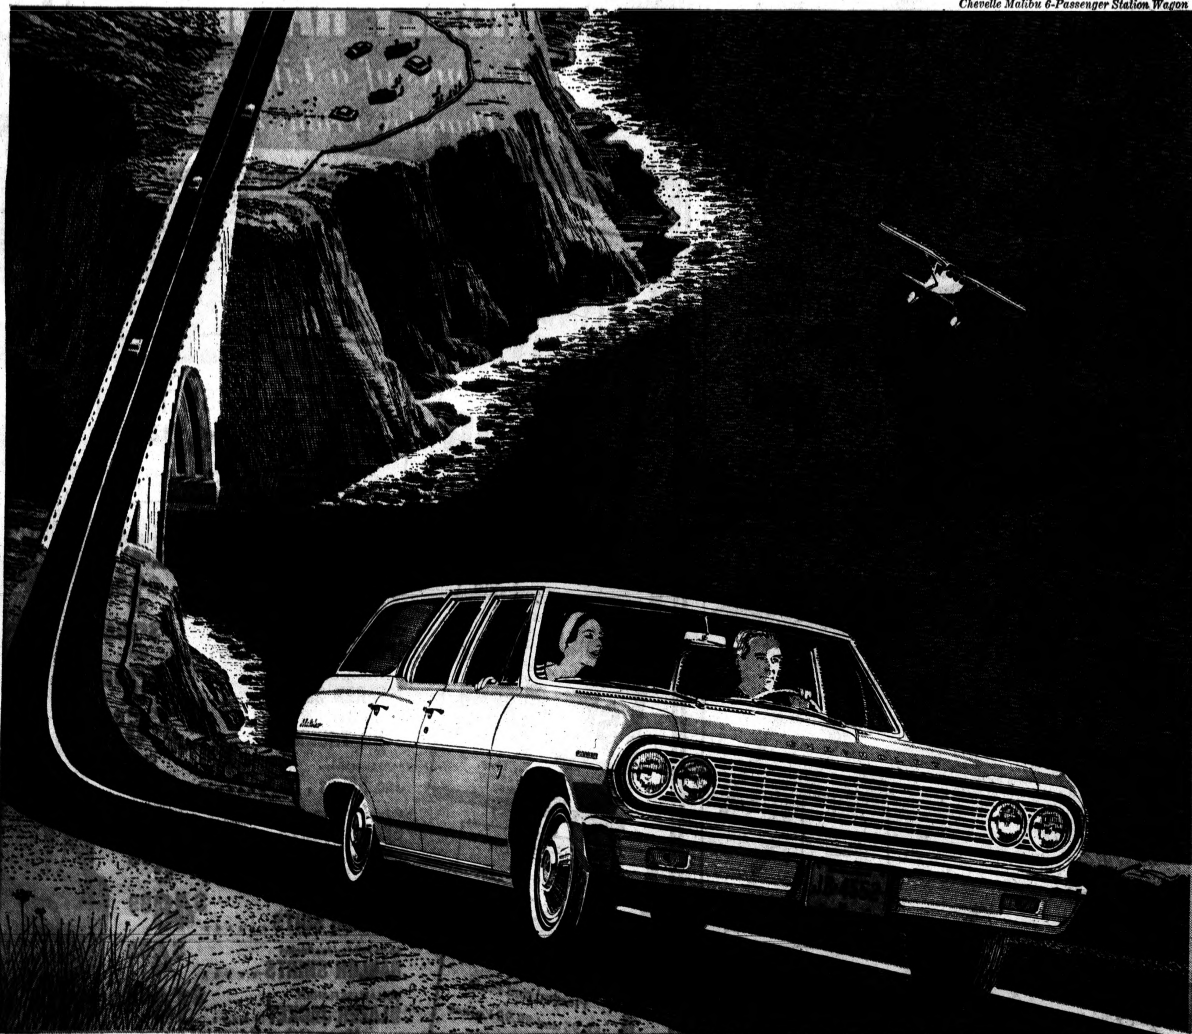

resist rust by flushing themselves free of salt and dirt.

Inside, the upholstery over its wide foam-cushioned seats is soft, durable color-keyed vinyl. All vinyl. The floor carpeting is deep-twist and long-wearing, door to door.

We don't want anything playing havoc with Chevelle's good looks if we can help it.

All in all, there are 11 different Chevelles being offered during Trade 'N' Travel Time. Spacious station wagons, coupes, Super Sports with bucket seats, convertibles, sedans. One's as beautiful a buy as the other. It's up to you. But hurry, whatever you do!

Cleanup Begins for Bewildered Montana

(EDITOR'S NOTE — The graphic eye-witness accounts which follow describe the devastation left by the Montana floods. Bob Williams, a freelance writer, and farmer-plotter Jim Sobel landed their plane in the center of destruction at Holy Family Mission. Associated Press writer Doug Hougen flew over the flood-swept sections including hard-hit Choteau.)

We flew on to nearby Birch Creek, normally a placid trout stream about 30 feet wide and shallow enough to wade. Birch Creek appears to be another Two Medicine. An earthen irrigation dam burst here Monday, sending a 30-foot wall of water down the valley.

Now it's a huge mud flat. There had been at least 30 families in this area—prime Black-foot Reservation land. We landed in a field of rocks.

8 of 10 Tourists in UP Listed as Sightseers

IRONWOOD (AP) — Eight of every 10 tourists visiting the Upper Peninsula come as sightseers, a State Highway Department official said today.

John Murray, Department of Public Information director, said 64 per cent of all tourists stopping at information centers last year listed sightseeing as their primary purpose for traveling in Michigan.

Murray spoke at the dedication of the department's new information center at Ironwood.

The Upper Peninsula was well above the statewide average, Murray reported. He said 78 per cent of the tourists stopping at the temporary Ironwood center last year listed sightseeing as their primary objective. The figure was 83 per cent at Montomine and 89 per cent at Mackinac City.

Role of Grandmother Goes to Mary Martin

NEW YORK (AP)—Mary Martin is a grandmother. A son, Timothy, was born yesterday in New York's Lenox Hill Hospital to Mr. and Mrs. Anthony Weir. She's the former Heller Halliday, daughter of Actress Martin and her husband, Richard Halliday, New York theater producer.

and walked along the shore of what is now still a huge river. Everywhere there were trees uprooted, branches off, peeled like white potatoes, sitting upside down or sideways like teeth.

ROARING RIVER

Birch Creek still is a roaring river a half-mile wide in places. Marooned cattle roam in many places.

In the background, the majestic towering peaks of Glacier Park looked down upon this desolation.

It was deathly quiet, except for the lapping water.

By DOUG HOUGEN

CHOTEAU, Mont. (AP)—Flying over a flood provides the extreme in contrast. The land below is either clean and green or squalid, filthy, desolate. It will be that way in northwestern Montana for a long time.

Most of what you see is the destruction. That's where the few people visible are working—helping friends, helping strangers.

Buildings sit on their sides or upside down in the mud, left behind by a flood crest now causing grief and destruction somewhere downstream.

Ribbons of highway suddenly end in what used to be a quiet, clear stream. Now it's a mud wallow alongside brown, thick water.

TOSSED ASIDE

Bridges are buckled, bent—or tossed aside completely.

The flooding Sun River along the east slopes of the Continental Divide surround numerous farms. Small herds of livestock huddle together on a spot of high land or in the shallowest part of the field.

Birch Creek, the stream that became a torrent when an upstream reservoir broke, looked like a narrow segment of battlefield in a huge field of green.

Remaining trees and vegetation were all bent one direction.

Strewn among this waste was a corner of roof, a scrap of sheet metal from a farm grain bin, a car with all four

wheels in the air.

The town of Choteau appeared to be as quiet as it was Monday night after its 2,000 residents moved to higher ground. Streets were canals. The town swim-

ming pool was half full of muddy water.

Travel in all directions from Choteau was blocked by flooded highways or washed-out bridges.

Dr. Wayne G. Brandstadt Says:

Have Doctor Make Patch Test for Irritant

Q — Every time I wore a dark blue suit I bought last year, my legs broke out with a severely itching rash.

I wrote to the manufacturer and he said that the material (wool and dacron) was handled daily by many employees and worn by thousands of customers without causing any reaction.

Do you think my trouble was due to the material or the dye? Is there any way I can be immunized against the cause?

A — You should have your doctor make a patch test with small samples of wool of different colors and samples of da-

cron as well. This should narrow the cause down to one of the materials or to a dye.

If the dye is at fault, ask the manufacturer to give you a complete list of its components. Then, if possible, you should have patch tests made with pieces of white cleansing tissue to which each ingredient has been added.

When you have discovered the specific cause it may be possible for your doctor to desensitize you — a tedious process at best — or you may be able to avoid further contact with the irritant.

Q — My nose is sore on the inside summer and winter, in damp weather and dry. It cracks and never stays healed longer than two or three days at a time. What can I do to heal it?

A — The nose bruises and bleeds easily. Its mucosal lining is very thin and covers a dense network of blood vessels.

Removing hard crusts can easily cause cracking and slight bleeding. If hard crusts are a part of your trouble, you should keep the lining membranes softened with a thin coating of petroleum jelly.

If this does not help, have your doctor see whether you have a small ulcer that needs to be cauterized.

Q — I have a congenital heart defect called patent ductus arteriosus. I am 20 and I am able to swim, play tennis and dance

without causing heart symptoms. What are my chances of living a normal life span?

A — This type of congenital heart leakage is due to a failure of the communication between the pulmonary artery and the aorta to close.

The size of the leak varies greatly in different individuals and the smallest opening may cause the loudest murmur and the least interference with normal circulation.

The fact that you can lead an active life without cardiac symptoms is evidence that yours is a very slight defect. It should not affect your life span.

(Written for Newspaper Enterprise Assn.)

Long Time Before Jury Will Decide Hoffa's Fate

CHICAGO — Seven weeks after the start of his \$20 million mail fraud and conspiracy trial, James R. Hoffa still has a long way to go before a jury retires to decide his fate.

Since April 27 the chunky, energetic president of the Teamsters' Union has sat impassively in U.S. District Court while government prosecutors produced documents and testimony they hope will result in his conviction.

The government charges Hoffa and seven codefendants concocted a complicated scheme to loot the Teamsters' pension fund and extricate Hoffa from a bankrupt Florida homes development in which he was financially involved.

Specifically, the eight are accused of fraudulently arranging more than \$20 million in real estate loans from the pension fund over a 4½ year period and diverting in excess of \$1 million to their own use.

The legal battle has been a bitter one with daily sharp exchanges between government lawyers and a battery of nine defense attorneys.

Judge Richard B. Austin, presiding in a sweltering courtroom in the old U.S. courthouse, has estimated the trial will continue at least another two months.

MANY DOCUMENTS

The government has introduced more than 4,000 documents relating to 14 huge loans the defendants allegedly obtained from the pension fund through fraud. Some 40 witnesses have given testimony.

Much of the testimony has dealt with kickbacks allegedly paid some of the defendants by persons or corporations that received the loans.

Whether Darwinian Theory Should Be Taught

'Monkey Trial' Shaping Up in Arizona Election

PHOENIX, Ariz. (AP)—Thirty-nine years ago a jury was asked to decide whether the theory of evolution should be taught in the schools of Tennessee.

This November, half a million voters may decide whether the Darwinian theory should be taught in the schools of Arizona.

The famed "monkey trial" of 1925 was staged in the Tennessee hamlet of Dayton with a biology teacher, John Scopes, as the central figure. Scopes deliberately violated an antievolution law to force the court test.

For Arizona, the trial may be staged in voting booths. Behind the test is the Rev. Aubrey Moore, a Southern Baptist minister who once said, "Either God is a liar or evolution is a liar."

BALLOT BID

Moore is circulating petitions to place on the general election

ballot a proposed state constitutional amendment to prohibit the teaching of evolution in public schools.

He needs 54,878 signatures to bring the measure before the voters.

Moore says he has 7,000 petitions in circulation and expects at least one-half to be returned. Each petition contains the space for 20 signatures.

The Moore proposal already has driven a wedge into the ranks of the Arizona clergy.

BAN ATTACKED

Forty-three Methodist ministers and Rabbi Albert Plotkin of Temple Beth Israel, Phoenix, issued a letter attacking a ban on the teaching of evolution.

The Tennessee jury of four decades ago found Scopes guilty and fined him \$100.

Moore's proposal calls for a fine of \$100 to \$500 with automatic revocation of a violator's teaching certificate.

Arizona's fight over evolution started last fall when Harold Bates of Phoenix, member of the Nazarene Church, appeared before the State Board of Education.

He said schools were using science books that offered contents in conflict with the Bible. He insisted if evolution could not be barred, then teachers should take the initiative in excusing from classes all children whose parents consider the material objectionable.

ADVICE SOUGHT
The board asked State Atty. Gen. Robert Pickrell if it had the power to prohibit instructions in evolution.

Pickrell said a decision should be reached through a contested court case.

"Although the teaching of a particular subject may or may not infringe on the constitutional rights of a citizen, we must also be mindful that to prohibit the teaching of a particular subject which has long been accepted might well infringe on a valuable right of others—the right to receive an education," he said.

Moore criticized the board that, too.

Rep. E. Ross Adair, R-Ind., told a newsmen several alternative money-saving amendments have been prepared and developments on the House floor would determine which would be offered.

He said he planned to attempt no cuts in the military assistance portion of the bill, which amounts to \$1,055,000,000. But he said another Republican might make a stab at cutting that, too.

ADVERSE EFFECT

Secretary of Defense Robert S. McNamara, in presenting the military aid request to the House Foreign Affairs Committee, stung Republicans by saying a large cut last year adversely affected U.S. security. He laid the blame on the Republican doorstep.

The debate Tuesday on the always-controversial bill was far milder than in previous years.

President Johnson's request was a billion dollars less than was asked of Congress last year by the late President John F. Kennedy. It was presented as a rock-bottom, essential program.

This year, for the first time since foreign aid began, the Foreign Affairs Committee did not cut the amount. It even added the extra funds for the war in Viet Nam.

Non-whites represent about 11 per cent of U. S. population — a far smaller proportion than in 1790 when it was 19 per cent. The low point came in 1930 and 1940 when the non-white proportion was 10 per cent.

for its failure to take a position on evolution.

Leader of a successful fight against a Phoenix housing code and an unsuccessful City Council candidate, Moore carried his cause on statewide television.

His debate dare was taken by U.S. Atty. Carl A. Muecke, a Roman Catholic.

They argued at the Jewish Community Center in Phoenix while a lone picket marched outside carrying a sign that

read—"Don't let Muecke make a monkey out of you."

Muecke argued that "the Bible is not a book of science, but a book of revelations. An individual can believe in God and still believe in evolution."

Moore said, "The teaching of evolution contradicts God's words as related in the book of Genesis. Such instruction has led to delinquency among the young people. Today's youth has no moral responsibility to God."

The Rev. Hugh Shelby Lee, pastor of the Phoenix First Congregational church, said, "I am very much opposed to this thing that Mr. Moore is doing. Under his initiative petition it is conceivable that you could not teach literature or anything else without a bias based on religion."

The Rev. Edward A. Sheldon, pastor of the Faith Evangelical Lutheran church, Phoenix, said "To bar the teaching of evolution in the schools is to say that you cannot have any teaching except what you believe. I think this is wrong."

Dr. Davis C. Hass, pastor of the North Phoenix Baptist church, Phoenix, said, "Evolution should be taught as a theory only. It should take its place alongside a host of other theories."

Tourism revenue in the Virgin Islands has more than doubled since 1958, rising to \$41 million in the last fiscal year.

Canada's French population was granted freedom of language, religion and customs in 1774.

try this recipe with **Shedd's Italian Dressing**

BLUE CHEESE DRESSING

1/2 cup Shedd's Chef Italian Dressing
1/2 cup sour cream
4 tablespoons Blue or Roquefort cheese
Dash blue cheese with a spoon or fork in a mixing bowl. Shake bottle of Chef Italian Dressing vigorously to obtain a uniform mix. Measure immediately 1/2 cup of the dressing. Add 2 or 3 tablespoons of the dressing to the cheese and mix. Blend in sour cream. Finish by adding remainder of Chef Dressing and mixing smooth.

The dressing will keep nicely for several days if stored in the refrigerator.

ALL SHEDD'S DRESSINGS ARE POLY-UNSATURATED

Gift of Gown Refused

'Creepy' Remark Hurts

DEAR ABBY: I read about the kind, considerate woman who was given a box of good clothing that once belonged to her dearest friend who had died.

She asked you if you thought it might sadden members of her friend's family to see their mother's clothing being worn by someone else.

I was pleased that you told her to go ahead and wear

them as it would give them pleasure. I know, I lost a beautiful daughter in her early 20s.

She had closets full of lovely clothes. After she passed away, I divided them up and gave them to her friends.

I was deeply hurt when I offered a brand new evening gown to one young woman and she replied, "Thanks a lot, but I don't think I could ever put it on. It would give me the creeps."

HURT DEEPLY

DEAR ABBY: When my father died we distributed his clothes to needy men all over town. Dad had a horse blanket type jacket he wore for fishing, which we gave to Old Rudy, the janitor who worked at our plant.

One evening mother and I were walking down the street and I spied Old Rudy—who was exactly daddy's size—walking toward us in that familiar fishing jacket.

My heart skipped a beat, and I tried to distract mother, not knowing how she would react.

She saw him, of course, and then she said to me, "Oh, look. There's Old Rudy in dad's jacket. Wouldn't that be pleased to know that Old Rudy is getting some good out of it?" Dad always thought so much of him!

DAD'S GIRL IN WAUSAU

DEAR ABBY: As is usually the lot of the eldest daughter, I was called upon to dispose of all my mother's usable clothing after she had passed away.

My mother, in her lifetime, had always been a very gen-

Medical Staff to Host Night at Hunt Club

Interns and resident doctors of St. Joseph Mercy Hospital will dine and dance as guests of the medical staff Friday evening at the Bloomfield Open Hunt Club.

The affair is given as a salute to doctors recently completing their training at the hospital and as a welcome to new residents taking their positions on July 1.

Dr. Norman F. Gehring is head of the medical staff committee making arrangements for the party.

Among those interns completing their training this July are doctors Robert Brantley, LeBaron Foster, John Graca, Rodney McFarland, Gary Robertson and Elaine Tan.

The two interns who will start resident training in July are Richard Browne, M.D., starting in radiology and Patrick Quigley, M.D., starting in pediatrics.

Recital Scheduled

Mrs. Everett E. Harris will present a number of her pupils in a piano recital Friday evening at 8 p.m. in the Rose Kneale Room of All Saints Episcopal Church. The concert is open to the public.

Auxiliary President Is Mrs. Schwab

Waterford Jaycee Auxiliary members celebrated the installation of new officers with a banquet Tuesday evening in the Airway Lounge.

Mrs. James Curd, outgoing president, passed the gavel to Mrs. Richard Schwab.

Assisting the new president will be Mrs. Whitney Carnahan, vice president; Mrs. Jeffery Cornish, corresponding secretary; Mrs. Raymond Freebury, recording secretary; Mrs. John Radenbaugh, treasurer; and Mrs. Frank Larkey and Mrs. Ralph Radford, directors.

Awards were presented to Mrs. Schwab, key woman; Mrs. Radford, Jaycette of the year; and Mrs. Freebury, outstanding new Jaycee.

Current plans for the group include an evening at the Northland Playhouse.

Localite Honored by MOMS Unit

Mrs. Duncan McVean, newly elected national president of the MOMS of America, Inc., was honored at a Tuesday luncheon and business meeting of Unit 2.

Mrs. and Mrs. George L. Chel opened their South Lapeer Road home for the affair.

Members will attend a fun night June 15 with the Oxford Unit 34.

On July 17 the past presidents of zone one will sponsor a smorgasbord and card party in the Perendale community building. Proceeds will be used to help a girl attend a college of nursing. The affair is open to the public.

A cooperative picnic has been planned by the group for July 14.

REPORTS

Mrs. S. Edgar Thomas reported on the recent national convention in Altoona, Pa.

Guests of Mr. Chel were Duncan McVean, C. E. Hickmott and Harry Luxon.

HER DAUGHTERS

Wrist-Skimmers, Wizards, Eyelets and Self-Cording

For Summer Gloving, Steps to Being Chic

Short and sweet are the words for summer gloving. To snap up all manner of warm weather outfits there is now a collection of shortie gloves, each pair a guarantee that good things come in small packages.

On a show of hands, summer should be "Wizard" this year. Not a phrase borrowed from the British, but a look borrowed from the reptile world. The Wizard gloves are Aris designs interpreted in a lizard textured nylon.

These brief little charmers run the gamut from a classic wristbone shortie with elastic snugging it to the hand to a slightly more detailed glove, its top edged in self cording that ends in a decorative loop.

PRACTICAL NOTE

A smart note for a daytime cotton dress or suit, the "Wizards" also add a practical note by laundering easily, the better to retain their fresh manerisms.

It's a brief glove that meets no resistance to wearing when the temperature soars. So Aris designed an entire group of the briefest gloves ever. Called wrist-skimmers, they barely hit the wrist bone, then are cut to a shallow scoop on the back of the hand.

One in sparkling white cotton marks its scoop with an overlay of delicate embroidery, making it the perfect glove to partner with a frothy summer dance dress.

Another in a more tailored vein outlines its scooped-out top with a row of self stitching, while still a third opens up to compliments, via an inset of

openwork just within the scoop. Perfect glove notes for attendants to the June bride, the wrist-skimmers also hand you the ideal solution to as

what glove to take on a summer vacation, since they are versatile enough to wear at almost any hour of the day.

With more conventional

manners, but equally smart in their many wearways, are the classic shorties, both in doe soft cotton and in nylon that button snugly inside the wrist.

Wonderfully cool looking in icy white, these are gloves to have also in black or beige for a well rounded summer glove wardrobe.

Aris created this "Peek-a-Boo" glove to keep your hands in fashion right through the warmest weather. In soft and washable cotton this brief charmer is just long enough to cover the wristbone and is flirtatiously edged in a border of open airy eyelets. The eyelets continue as a touch of trim on the slit at the inner wrist. About \$3.50.

For the smartest look this side of summer wear something with a reptile touch. Aris translates the texture of lizard into nylon and turns it into short gloves. Smartly and snugly buttoned at the inside of the wrist, these versatile little hand covers have all the verve of a leather glove, add the practicality of being easy to wash and speedy to dry. About \$3.

Personals

Mr. and Mrs. Joseph B. Jewell of Oneida Road will spend the weekend with their daughter and family.

Awaiting a visit from their grandparents are Eric and Richard Susherspedt, children of Mr. and Mrs. R. H. Susherspedt of Cleveland, Ohio.

Brooke Michal will travel from Chicago, Ill. this weekend to spend some time with her parents, Dr. and Mrs. A. J. Michal of Bloomfield Hills.

Mr. and Mrs. E. H. Lerchen and Mr. and Mrs. William Baldwin will share honors as they give a supper party for bride-elect Christine Wallace. Some 50 out-of-town guests will dine at the Lerchen residence in Bloomfield Hills June 18.

An Italian party is being planned for June 27 at the Ben D. Mills residence in Bloomfield Hills. It will be a reunion for some 10 couples who were in Rome in April when Mr. and Mrs. Mills were on a European tour.

Following an Italian cocktail hour, will be dinner at the Bloomfield Hills Country Club. The party will then return to the Mills residence where each couple will show 10 minutes of slides taken on the vacation. Party date also happens to fall on Mrs. Mills' birthday.

Phi Chapter Has Officers

Mrs. Russell Farnum will lead the Phi chapter of Beta Sigma Phi sorority in their activities for the coming year.

Other officers installed Monday in the Lansdowne Street home of Mrs. Farnum were Mrs. George J. Felice, vice president; Mrs. Roy Stuart, secretary; and Mrs. Thomas Drohn, treasurer.

Plans were completed for the chapter to spend the July 4 weekend at the Houghton Lake cottage of Mr. and Mrs. Drohn.

Mrs. Albert Padar Jr. will host the next meeting.

Localite Elected State Lecturer

Mrs. Paul Antilla was elected state lecturer at the Orange convention in Detroit Friday, and Saturday.

Others who attended from the Daughters of Pontiac 186 Orange Lodge include Mrs. Earl Brobst, Mrs. Mary Burmeister, Mrs. William Cummings and Mrs. Louis Murthum.

New Ring Bearer

Hang large cup hooks in the bathroom and kitchen and put your rings and watch on them before putting your hands in water.

Don't Let Tensions Build

First Spat Upsets Couple's Bliss

NEW YORK (UPI) — Weavers of dreams and wedding guests wouldn't bet on it, but mental health experts and marriage counselors declare it happens.

Joe and Joan, oblivious to all but angelic tinkling of heavenly bells on their wedding day, will have a fierce fight or two during the first year of marriage.

ATTACK

Suddenly one morning, that dreamboat of a bridegroom turns into a destroyer. Full steam ahead, he growls, "Dear, you burned the coffee AGAIN this morning."

The apple of his eye, little Joan snorts back, "But you forgot to turn down the gas, AS I ASKED YOU."

"My mother was right," he snarls, "after awhile, the SHREW in you surfaces."

It's the first spat of the marital voyage, but if one of the partners remembers to keep cool, there is little chance of going on the rocks. Two proven peacemaking tactics are:

• Waving the ringed third finger, left hand, saying: "Hey dear, remember. I'm on your side."

• Reciting: "A reporter, interviewing a couple on the occasion of their 50th wedding anniversary, asked the woman, 'Did you ever think of divorce?'"

"Divorce, never," she replied. "Murder, yes."

In addition to throwing jokes into the peace machine when discord threatens to blacken stars in newlyweds' eyes,

there are perfectly acceptable serious techniques to use.

ADVICE

Some of these are cited in a book "Master Your Tensions and Enjoy Living Again," by Dr. George S. Stevenson and Harry Milt of the National Association for Mental Health.

In a capsule, the authors suggest, not looking for heaven in marriage, but looking

and working for "a good and happy married life."

"In general, happiness in marriage . . . depends very much on tolerance and understanding . . . on a readiness to meet each other more than half way and to work out compromises on a recognition that there are going to be difficulties and problems that you have to work at resolving."

Together with one of the limitations of marriage, Milt and Stevenson note that one of the most tension producing factors in marriage is the mere state of being together day after day, month after month, year after year.

"No two people, no matter how deeply in love, can be together almost continuously . . . without having tensions build up on occasion," they report.

NEED SOLITUDE

The friction comes from the fact that married humans need to be alone sometime, just as single humans do. When tensions build, the best course is to discuss them and make some arrangements for one partner to get off alone.

Another source of tension: clashes resulting from differences in temperament, tastes, interests, outlook and personal habits.

You think you know the person you married. But no mat-

ter how observing you were, time will reveal other characteristics, including some you don't like.

Other irritants come from unconscious forces.

"Everyone," says Milt and Stevenson, "carries into marriage some unconscious insecurity which he seeks to relieve through an excessive demand for love, attention, admiration and sympathy."

Among other hidden personality factors a person brings to marriage are resentments and grudges from childhood. You relieve these buried and forgotten feelings on the innocent husband or wife.

DISCUSS PROBLEMS

When a marriage does start heading for the rocks, you can do more than just resign yourself to misery. Talk it over. Try to be reasonable about resolving conflicts. Try to settle one argument at a time.

If you can't keep discussions moving in the direction of compromise, try a marriage counselor. These experts are relatively new in the scheme of things but are valuable in helping couples find peace and happier lives.

Stiffen Then Sew

Spray sheer washable fabric lightly with starch before sewing and the cloth will have enough body to work with.

Jolene Gaines became Mrs. Robert Lewis Baroff in a recent ceremony in the Zion Church of the Nazarene. Their parents are Mr. and Mrs. Edwin Gaines, North Cass Lake Road and the Henry L. Baroffs, LeBaron Street. The bride wore white lace over satin.

Leisure Cushions From Bed Pillows

To convert those big, comfortable bed pillows into cushions for double duty "leisure" use in den or family room, make slipcovers of any colorful fabric that is washable.

Close these decorative "shams" with grippers or zippers for convenient laundering.

City Pilot Club Arranges Gesture of Goodwill

The patriotic emblems committee of the Pilot club of Pontiac has arranged an exchange of flags between Canadian and the United States clubs as a gesture of international goodwill.

Mrs. DeLisle Wilson, chairman of the committee, will present a flag to Elaine Weber, president of the Pilot club of Windsor.

DINNER MEETING

The ceremonies will follow a 7:15 p.m. dinner meeting Monday evening in the Norton Palmer Hotel, Windsor.

Mrs. Lewis Egerer of the Pontiac club will accept a Canadian flag from Miss Weber.

These flags will then be displayed at all meetings of the clubs, together with flags of other countries where the Pilot club is in existence.

Mrs. Karl Wile of the St. Clair Shores club and Helen Caughill of the Windsor club will also be on the program. Mrs. John Bahr of the Pontiac club is helping to coordinate arrangements for the event.

To Stay Barrette

Glue a tiny piece of sponge rubber inside of your little girl's barrette and it will stay put all day.

Great plain or fancy.
(our Ginger Ale)

Mr. and Mrs. Brant C. Davis of West Newport Street announce the engagement of their daughter Elaine Anieta to David Arthur Meacham, son of the Ray Meachams of Clara Street. A July wedding is planned.

Bad Pockets for Washing

When the men of the house buy washable clothing, each garment should be checked to make sure that all parts are washable.

This includes waistbands, pockets, linings, elastic and other finishings.

Since washability cannot be gauged by sight, it is safer to buy a good brand made by a "name" manufacturer — who can be relied upon to provide dependable washability down to the last detail.

Save Furniture With Sense, Good Cleaning

Before having your furniture covered or reupholstered the National Institute of Rug Cleaning suggests that you investigate the possibilities of having it professionally cleaned.

While furniture may appear to be beyond saving in its present state, a thorough professional cleaning will often give the piece new life and prolong its period of usefulness. You will also realize a considerable savings in that the cost of professional furniture cleaning is much less than the cost of reupholstering.

Many professional cleaners also offer a tinting and dyeing service for upholstery. If your upholstery fabric has become faded, it can be tinted to give it a new freshness or dyed to conform with a changed decorating scheme.

Planning a July 18 wedding are Judith Claire Thompson, of Summerhill Drive, Independence Township, and Ernest Lee Hickey, son of Mrs. James P. Harbin of West Hopkins Street and Ernest Hickey of Blaine Avenue. The Elmer R. Thompsons of Midland Street are the bride-elect's parents.

Annalee Buck Given Shower

Annalee Buck, fiancée of Charles E. Hartly Jr. of Sylvan Lake, was honored at a recent bridal shower in the home of Mrs. J. A. McCurry on Marquette Street.

Mrs. Lee Johnston of St. Clair Shores also honored Miss Buck at a shower in the Hartly home, with Mrs. Clyde Cady cohostess.

The June 27 bride-elect is the daughter of the B. J. Bucks of Sandy Ridge Drive, White Lake Township.

Correct Budgeting Makes Saving Easier

By MARY FEELEY
Consultant in Money Management

Dear Miss Feeley:
I would like to make a deal with you. You take my pay-check, my bills, pay them and save money. If you save me any money I will give you half of what you save me.

MARY FEELEY
I earn over \$9,000 a year and take home \$147.46 per week. I have two children ages 5 and 2.

I pay \$88 per month rent with gas and electric included, \$45 for a monthly bank payment on my car, \$29 union dues per month, \$103 a year for life insurance and \$153 a year for car insurance.

I also use my car every day for work, going over a toll bridge to get there.

One more thing, my family and I like to eat good food and lots of it, too.

Dom, Bronx, N.Y.

Dear Dom:
I'll take on that deal. And don't give me any backtalk on the food allowance I've set up in the following budget. Face the fact that you can't eat your money and save it, too.

Since you are paid by the week, it may prove simpler—in the beginning, anyway—to break down all your expenses by the week, even though some you will actually pay by the month or the year.

So here goes a weekly plan:

Housing, \$22; household operating costs, \$6; food at home, \$30; clothing, including upkeep, \$12; life insurance, \$2; car loan, \$11.25; personal allowances (yours, \$10, hers,

\$2.50), \$12.50; union dues, \$7.50; miscellaneous (church, gifts, etc.), \$6.71; medical costs, \$5; recreation and vacation, \$5; newspapers, books, magazines, \$2.50; car operating costs (tolls, gas, insurance, depreciation), \$17; SAVINGS, \$8. Total, \$147.46.

Now before you roar at the idea of the four of you eating on \$30 a week, let me tell you that the Department of Agriculture's Low-Cost Plan for a family that

size allows only \$97 a month! So at least I'm giving you the benefit of a Moderate-Cost estimate.

It's nutritionally sound, too. After all, the starvation pangs of an empty bank account eventually hurt worse than the anguish of a disciplined diet.

Don't let the odd cents allowed for the various budget categories drive you crazy. Once you really learn just how

far your money will go in one week, you'll begin to think in round figures—and by the month and by the year. In the meantime, being precise isn't going to do you any harm.

Keep this in mind, too: three months of the year have more than exactly four weeks. During those months you will come out a little ahead with your budget, using the above weekly plan. This bit of extra money can be directed where it's needed most.

Nobody expects you to enjoy this initial experience of watching every nickel and dime. But your letter implies that saving money is the big aim in your life right now. So why not give it a try?

P.S. Put my half of the savings in the bank so it will be earning interest until I call for it.

Dear Miss Feeley:

After I finish high school this month I would like to take some training to help me get a job as an airline stewardess. I understand there are schools which specialize in such courses. Can you give me details on this?

W. W., Cincinnati O.

Dear W. W.:

The best thing to do is check with the airlines and find out what their requirements are. Ask them to recommend a school or a training program, then you'll be sure you're working in the right direction.

Unfortunately, some young people have been the victims of fly-by-night, phony "airline training schools" whose standards are low but whose prices are high.

A recent investigation into such practices was begun not so long ago in New York City, when one such "school" told prospective students that they would be supplied with uniforms free of charge and that the husbands of "stewardesses" would be given free passage to anywhere in the world!

These promoters also told students a starting salary of \$400 a month was assured.

Any airline will be glad to give you the real facts.

Lt. James Owen Shaw of Stratford-on-Avon, son of the John Shaws of Auburn Avenue, received the degree of doctor of medicine at the recent University of Michigan commencement exercises. He has been assigned to the U.S. Naval Hospital, San Diego, Cal., to report July 1. He is affiliated with Alpha Omega Alpha national honorary medical fraternity.

Douglas J. Spurlock of Pingree Avenue received a bachelor of science degree and a secondary certificate from Western Michigan University, Kalamazoo. He is the son of the Roland Spurlocks.

To Retain Color

Dyed cloth will retain its color longer if you put them through wash and rinse waters as quickly as possible using mild soaps, and hang wrong side out in the shade to dry.

Cooked Pudding Subs for Liquid in Cake

By JANET ODELL,
Pontiac Press Food Editor

Is there room in your recipe file for another chocolate cake recipe? For a good one, of course there is.

Mrs. H. N. Stoutenburg shares her recipe today with Press readers.

She does substitute teaching during the school year, belongs to a church group and the Faculty Wives club of Oakland University. Her hobbies are sewing and reading.

SPECIAL CHOCOLATE CAKE

By Mrs. H. N. Stoutenburg
1 package milk chocolate or malted milk chocolate cake mix

1 package chocolate pudding mix (not instant)

¼ cup salad oil

Prepare pudding according to directions and let cool.

Prepare cake according to package directions with these additions: in place of the liquid called for, add the cooled pudding; add the salad oil before beating.

Pour into greased 9x13-inch pan. Bake as directed. Let cake cool.

Melt one small package chocolate bits and spread on cooled cake.

TAILOR TRIX WINNER

"For a few cents and a little time you can make a SLEEP COAT for any gal from 8 to 80. It's especially great for anyone who is bedfast!"

"Remove the collar from a man's or boy's shirt depending on needed size. Bind the neck and sleeves in a pastel or checked bias binding. Finish with a flat bow at the neckline."

"Pick up the color you decide on and embroider a lazy-daisy stitch on each end of the buttonhole and replace button. For the 'last word,' make a matching hair bow."

"If the neckline should be a little too large, you may add a few gathers on each of the fronts before applying binding."

Mrs. G. Herman, Clayton, Missouri, is this week's winner of a Tailor-Trix Pressing Board for this suggestion.

A few weeks ago, I suggested using grosgrain ribbon on the fronts of your sweaters. I neglected to tell you a very important fact—if you intend washing your sweater, the grosgrain ribbon must be preshrunk before applying it to the sweater. This type of ribbon shrinks considerably and would tend to "draw" up the front of the sweater.

Dear Eunice:

"What causes my skirts to hike up at the hemline in front? I have a large stomach, and am making the darts smaller at the waist as you suggested, but I still have this other problem."

Mrs. J. B.

Dear Mrs. J. B.:

The smaller darts will give you the room where you need it and also avoid a skirt that is too large below the darts. Skirt patterns are usually curved down from the side to the center front.

Since you need extra room in front, you must cut your pattern almost straight across the front. This extra fabric at the waistline should keep the lower hem of the skirt nice and even. Please send your questions and suggestions to Sew Simple in care of The Pontiac Press.

HAVE YOU DISCOVERED STRATA SOLE? It's so fabulous, you'll think you're walking on cushioned sidewalk! Your whole body feels light and little when you step out on this pulsating, shock-absorbing sole of softness. And Cobbies adds it to a famous little "shankless wonder" for pure perfection.

TOURIST, 12.99

Polly's Pointers

Print New Address

By POLLY CRAMER
DEAR POLLY — Upon completing arrangements to move to a new location, I contact a fast-service printer for name and address stickers.

I have them printed with the new address and send one or two with a note to all who should have them.

They can paste this over the old address in their address books or files.

It is much easier, quicker and neater than having to cross out and write in the new information. —A. S. G.

DEAR POLLY — As I really enjoy all the helpful hints I felt that my mother who lives in Nebraska would also find the column helpful.

I cut out the columns and send them to both mom and sis once a week. They, too, really enjoy them and join me in thanking you.

Maybe some other readers will do the same thing after reading this letter if they have folks and friends living elsewhere. —MRS. V. M. M.

DEAR POLLY — Summer vacations are upon us, so perhaps this will help those taking small children on long car trips.

I take my television trays off their stands and put one for each child in the car.

The tray serves as a desk

and keeps crayon, books and so on from falling to the floor each time a corner is turned or a sudden stop is made.

They are also wonderful for catching cookie and cracker crumbs. —MAXINE

DEAR POLLY — One of the handiest things for holding a quantity of cracker filler when patching walls is saucer lid.

The knob makes it easy to hold and turns the shallow dish-like cover into a palette.

—ANNA

DEAR POLLY — In times of death or sudden illness, friends often wonder what they can do to help.

Mine is a list of some of the things our wonderful friends did when we suffered a sudden loss.

One drove me to town for some necessary shopping. Another stayed at our home to be with the children and take any phone calls that came.

Still another raked the falling leaves and tidied up the yard. A friend who is not too well herself asked to do our extra linens in her washer-dryer.

Another pressed clothes, cleaned and shined the family's shoes. Of course, there were the many, many welcome gifts of food, all prepared and ready to serve. —MRS. O. W.

DEAR POLLY — I am a college student and must research several different topics at the same time.

I found that using a special color index card for each subject helps.

No longer do the cards get mixed up nor do I arrive at the library with the wrong set of notes. —JANE

Share your favorite home-making ideas . . . send them to Polly in care of The Pontiac Press. You'll receive a bright, new silver dollar if Polly uses your idea in Polly's Pointers.

Mark Your Way

Before cutting material that ravel easily, make a wide mark around the pattern with a wax crayon. Cut on the mark and the material will not ravel.

Allen T. Howze, son of Mr. and Mrs. Harold Howze of Dilmor Avenue was awarded a bachelor of science and elementary certificate at the recent commencement exercises at Western Michigan University.

Sorority Picnic to Be Held in Birmingham

Bermuda shorts and box lunches will be the order of the day when the South Oakland Association of Kappa Delta host the annual metropolitan picnic.

Mrs. Tunis Rice will open her Birmingham home Tuesday for the 6:30 p.m. affair.

All alumnae in the area are welcome and special guests will be Kappa Deltas from four active chapters in Michigan, including Albion, Michigan, Michigan State and Wayne State, who live in the area. Mrs. Rice will be taking reservations.

Scrubbed Face Helps Tolerance

Classmates and teachers should strive to conquer their "subtle prejudices" against underprivileged pupils who come to school ill-dressed or unscrubbed, according to Dr. Harry B. Scribner, a New Jersey Superintendent of Schools.

Perhaps the best way to eliminate the prejudice is to eliminate the cause — by setting a shining clean example.

All mothers can help to "preach" the propaganda of soap and water by sending their own children to school with just-washed faces and freshly laundered clothes.

Child-Husbands Just Require Mommies

By MRS. MURIEL LAWRENCE
DEAR MRS. LAWRENCE:

We have two boys, 5 and 7, who fight a lot, particularly before supper when my husband comes home.

As I am busy with our baby girl as well as cooking at this time, I can't keep the boys quiet. But my husband says I should.

If he comes home and finds the kids fighting, he either takes the car and eats downtown or starts bawling me out because I am spoiling the boys and don't give him a peaceful home.

ANSWER: Are you asking me to change your husband? I can't, you know. I can't go back into time and alter the circumstances which shaped his conviction that he's entitled to a "peaceful home" without lifting a finger to get one.

I can do absolutely nothing about the mother who taught him that all he had to do to get what he wants is to ask a woman to give it to him.

I can't do anything about the other thousands and thousands of little boys who are being taught the same manhood - destroying lesson by other Mother Goddesses in America's homes.

It's how things are, God help us.

And if the girls they marry don't like it, there are only two things they can do about it: they can walk out on their child-husbands or get along with them by becoming their mommies.

CAN'T CHANGE

But they can't change them into men. That was the job of their husbands' fathers. Psychoanalysts can sometimes do.

But generally speaking, children are too comfortable being children to be able to deliver the wish to grow without which psychoanalysts cannot work.

So, if you want to get along with yours, protect him against quarrelsome children. Feed them before he gets home at night.

Then tranquilize them with television until their bedtime. By filling their stomachs, you can divert their many little energies to digesting instead of fighting—and so produce the unbothering, "peaceful" home that is demanded of you.

I think it's a dreadful solution.

But then I am feeling sad today.

Because I spent two hours in a police station last Sunday listening to a woman scream hate at a just-raped daughter of 16 while her husband stood by, silent, a little drunk, lifting neither voice nor finger in behalf of the

exhausted, terrified child he had fathered.

I came home to read your letter about another child-man who doesn't want to be bothered with his child.

The awful thing is that it's our sex which destroys the manhood of little sons.

"After Six" Dress Suit Rentals

The oldest Baptist Church in Illinois, the First Baptist Church in Elizabethton, was the setting for the recent marriage of Janet Ann McAnnally to Bobbie Clay Harper. Parents of the couple are the Omer McAnnallys of Oak Beach Street. Mrs. Eloise Harper of Norton Street and Raymond Harper of Paducah, Ky. Rev. W. G. Wodickie performed the ceremony. Mrs. Wodickie and Thomas Harrelson of Eldorado, Ill. attended the couple.

Impromptu Rack for Drying Things

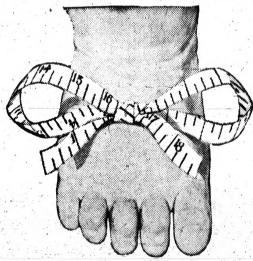

An impromptu drying rack for baby's sweaters — and other miniature knits which should dry flat — can be contrived with a snack table and a bath towel.

Remove the tray, fold and pin the towel across the table frame. Then spread and shape the damp "wash" over the towel.

Put the two great fabrics together and you can come up with this fresh summer look. The one-piece dress has a striped Helanca top, dacron/cotton pleated skirt, and white patent belt. The top has a long, long, back zipper for easy entry. By Country Set, it retails for about \$18. From the "Boutique Dress Collection" coordinate group in sizes 3 to 15. Country Set fashions are carried by local merchants.

STAPP'S . . . carry these in stock . . .

In Combat, One Can't Go Home Again

Truth of a Battlefield Remains Hidden

By HIAL BOYLE
NEW YORK (AP).—Nobody remembers war altogether as it happened. No one can tell the truth of a battlefield.

They forget its actuality as they grow older, and change it to suit their age. Nobody can find out the true story of combat, not even five minutes after an event occurs.

A battlefield is a great mystery while it is being fought. No one has the full story then or later. There is an involvement with the enemy. The chaos of clash is immediate; it can never be accurately reassembled by recall. Too much happens all at once.

That is why I feel a bit sorry for those who went back to Normandy last week for the 20th anniversary of one of mankind's more memorable military adventures.

Going back to a place you knew in war is a journey even more lonesome in peace than it was when the ignition of danger and the purpose of a mutual endeavor threw a glare upon the commonplace. You can never quite find what you look for.

IT'S TRUE.

I found this to be true when I went back to France five years after it was invaded by the Allies. I found it even more true when I went back 10 years after.

It was my wish to return again last week two decades after those strident days of thunder and nights of flare when the breaking of the St. Lo position

wheeled the Allies toward victory.

But I knew it would be a visit into the past, a stroll into legend.

The moment a situation in war changes, it is gone forever. The fact of war defeats the recognition of it.

NO RETURN

In combat, more than any where else in life, you can never go home again. There are too many variances of viewpoints for them ever to be fully reconciled.

Two return to the scene of action. Even if it be but an hour all is different. What actually happened there? One knows a part of it, another knows another part of it, and neither knows all.

Once the bodies are picked up, the blood is dried, the position is changed, the vehicles are regrouped, the possible truth is forever gone.

Give a battlefield a few days, or months, or years, and what really happened there is even more impossible to find out.

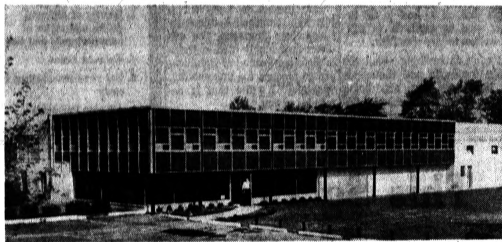

GREAT RENEWAL

The soldier returns and looks across a field where the grass and trees have renewed their greenery and forgotten their scars; where the stinking bodies of cows inflated by death have been removed, where a farmer walks in duty where a foe once held a direness.

The soldier says: "Yes, it was there that I, we, or, no, was it over there that? Anyway, I'll never forget—Don't you remember that the both of us—I think you were with me when—I all comes back so clear that—"

But his honest reach for the truth is clouded by conjecture. It all looks so different.

Landscapes forget the people who fight across them. People who try to remember the landscapes they fought across can never come back afterward and be quite sure that this is the exact place where once they felt they learned more about life and death than they ever could afterward.

NEW QUARTERS — The Hartford Roofing and Siding Co. has moved into its recently completed office and plant, Scott Lake and Pontiac Lake roads, Waterford Township. The 21-year-old firm, headed by Walter Hartford, employs 30.

Tense Nerves Block Bowels

Your colon has nerves that control regularly. When you are tense or nervous, normal bowel impulses may be blocked—and you become constipated. New Colomax tablets relieve this misery with a new principle—a unique colonic nerve stimulant plus natural bulking action as recommended by many doctors. Result? Colomax puts your colon back to work—gently—without constipation overdrive. You feel great! Get clinically-proved Colomax today. Introductory size 43¢

Fruit and Bran Flavor Bread

Whole bran cereal mixed with sugar, and sprinkled onto this loaf before it is baked makes a delightful topping that sticks in place attractively during baking. To slice, use a very sharp knife and a gentle sawing motion. This bread can be frozen, after being wrapped in saran — by the slice, or partial loaf. Excellent toasted!

Pineapple-Bran Bread

1 cup whole bran cereal
1 cup syrup drained from canned pineapple or milk
3 cups sifted all-purpose flour
¾ cup sugar
3 teaspoons baking powder
¼ teaspoon soda
1½ teaspoons salt
¾ cup chopped nuts
¾ cup well-drained canned crushed pineapple
2 eggs, beaten
¾ tablespoons melted shortening or cooking oil

Combine whole bran and pineapple syrup or milk; let stand 15 minutes. Sift together the flour, sugar, baking powder, soda, and salt. Stir nuts, crushed pineapple, eggs and shortening into bran mixture. Add dry ingredients and stir just until blended.

Turn into a greased 9x5x3 inch loaf-pan. If desired, sprinkle a mixture of 1 tablespoon sugar and 1½ tablespoons whole bran over dough and press in slightly with back of spoon.

Bake in a slow oven (325 degrees) until done, about 1½ hours. Cool bread in pan on rack 5 minutes; turn loaf out of pan and finish cooling on a rack.

Yield: 1 loaf.

Non-Oily Dressing Good on Greens

A favorite and easy dressing that holds up very well on tossed greens is called "Shaker Dressing." Although she does not take credit for originating the idea, Mrs. Martha V. Hocker, Cafeteria Supervisor of Chula Vista City School District, California, submitted the following recipe:

Shaker Dressing

3 cups water
1 cup vinegar
1 cup sugar
Shake together in a jar that will hold five cups. (Same proportions are used for any quantity.) Wash salad greens, cabbage or other fresh vegetables. Drain and cut as desired. Shake enough of this dressing over the prepared vegetable to moisten well. (An excess amount is wasted.) Store in plastic bags or in vegetable crisper. The vegetables can be prepared 24 hours ahead and refrigerated.

Wine Punch for Wedding

NEW YORK (UPI) — Here's a recipe for the most festive ornament at the wedding reception, the punch bowl:

Collect one quart of champagne, 2 quarts of white wine, 2 ounces of Benedictine, 1 cup pineapple wedges, 1 cup strawberries, sliced. Pour Benedictine over pineapple wedges and chill in refrigerator for four or more hours. Chill wines.

To serve, place pineapple mixture in punch bowl resting on cracked ice. Pour in wines and stir. Add strawberries. Serves 25.

now! Tasty Finger Food For Toddlers

Best news ever for self-feeders! Gerber Meat Sticks make a nutritious finger food for toddlers. These baby-style sausages are made from special cuts of pork and beef selected by Armour. Nonfat dry milk is added to increase the protein content and provide other important nutrients. What's more Gerber Meat Sticks are low in fat and mildly seasoned to suit the tastes of toddlers. For an added flavor surprise, do try the new Gerber Chicken Sticks. Mmm.

Gerber MEAT STICKS

Try Different Salad Dressings

By JANET ODELL
Pontiac Press Food Editor

We Americans eat salads any time of the year. Perhaps more are consumed during the hot weather, but the nutritionists have succeeded in their attempts to make salads important any time.

Knowing that you will be wanting some variety in the coming summer days, we've hunted up some salad dressing recipes to share with you.

Shelf after shelf in the supermarket is filled with salad dressings. But there is a distinctive flavor about homemade dressings that can't be copied in commercial ones.

With a basic french dressing recipe, you can go on almost indefinitely with variations. Furthermore, by controlling the amount of oil you use, you control the calories.

Basic French Dressing

¾ cup vinegar
¾ cup salad oil
¼ teaspoon paprika
¼ teaspoon salt
1 teaspoon sugar
Combine ingredients. Shake vigorously. Chill. Shake before serving. Makes 1 cup.

Note: For a tangier, lower-calorie dressing, use ½ cup vinegar and ¼ cup salad oil.

Roma Dressing

To 1 cup Basic French Dressing add 2 cloves garlic, split. Let stand overnight to blend flavors. Makes 1 cup.

Basil French Dressing

To 1 cup Basic French Dressing, made with wine vinegar, add 1 tablespoon crushed basil leaves and 1 clove garlic, split. Makes 1 cup.

Mint French Dressing

To 1 cup Basic French Dressing, made with salad, white or cider vinegar, add 1 or 2 tablespoons crushed mint leaves. Makes 1 cup.

Roquefort and blue cheese dressings are commonplace. Have you ever tried a Swiss cheese dressing? It is good on tossed salads or those made with seafoods.

Edelweiss Salad Dressing

6 slices Swiss cheese, finely

Peppers Provide Color, Taste in Cabbage Slaw

Tired of lettuce? Try a cabbage salad for a change. Cabbage is almost as versatile as lettuce in making salads. We all know about cole slaw, but cabbage can be basic to many other salad dishes.

For example, try this pepper cabbage recipe. Its piquant taste will pep up almost any meal. And you will find this crisp, flavorful salad will add variety to your salad standbys.

Pepper Cabbage

1 cabbage, about 2 pounds
1 green pepper
1 sweet red pepper or carrot
1 stalk celery
1 cup sugar
½ cup vinegar
½ cup water
2 tablespoons salt

Grate cabbage fine. Chop peppers and celery; mix with grated cabbage. Combine sugar, vinegar, water and salt. Taste to see if you have enough vinegar. Add this mixture to vegetables; toss. Yield: 6 servings.

Pineapple Mold Is Creamy Dish

A Make-ahead dessert.

Pineapple Cream

1 can (1 pound, 4 ounces) crushed pineapple
1 envelope unflavored gelatin
¼ cup strained orange juice
¼ cup sugar
¾ cup heavy cream, whipped
Drain pineapple until there is 1 cup of syrup and about 1¼ cups fruit. In a medium bowl, soften the gelatin in the orange juice.

Heat pineapple syrup just to

boiling point and add to softened gelatin; stir until gelatin dissolves. Add sugar and stir until dissolved. Chill until slightly thickened; beat until fluffy. Fold in drained pineapple and whipped cream.

Turn into a 1-quart mold; chill until firm; unmold. Serve with custard sauce. Makes 8 servings.

Forget the Soda

Never use baking soda when you bake or boil beans. Baking soda robs the dish of many of its vitamins and minerals and add salt only after the beans are almost cooked. Salt delays cooking time.

Lady Bird Has Pet Recipe for Nut Brownies

Mrs. L. B. Johnson has little time to call her own these days, but enjoys getting into the kitchen occasionally to whip up a batch of pecan brownies for her active family. This is one of her pet recipes that will be one of yours, too, once you've tried it.

Mrs. Johnson's Pecan Brownies

1 cup of sugar
2 eggs, beaten
¾ cup flour

1 teaspoon vanilla
¼ teaspoon salt
¼ cup melted butter
2 squares baking chocolate
¼ cup coarsely chopped pecans

Gradually add sugar to beaten eggs, beating until fluffy and lemon-colored. Stir in flour, vanilla and salt. Melt butter and chocolate and gradually add to flour mixture.

Add pecans and pour into a well-greased 8x8x2-inch pan and bake at 375 degrees for 20 to 25 minutes.

The next time you have grapefruit, wash off the seeds and plant them in shallow bowls for some household greenery.

It's here...it's free...it's the giftiest! Top Value Stamps New Gift Catalog

With Top Value Stamps new gift catalog you can...

Teen-Agers Rape Stricken Woman

DETROIT (UPI) — "Pick me up and help me." Those were the words Mrs. Virginia Nixon, 34, spoke last week when she suffered a stroke and fell from a telephone booth on a residential street. She spoke them to a crowd of teen-agers that gathered around her — three girls and five boys.

Two of the boys picked her up and carried her to a porch. But a woman shouted, "Get that woman off the porch."

Then the boys dragged her through a gangway between two houses. They crossed an alley and laid her body in a space between two garages. Then they raped her.

Word spread through the neighborhood like wildfire. "There's a naked woman in the alley," others came, lit matches and looked at the forlorn body. She was raped twice more.

Finally at 9:22 p.m. last Thursday, a woman in the area called police. When they arrived, they found Mrs. Nixon — her clothes torn away. The alley was empty.

And at 3 a.m. Friday, Mrs. Nixon died.

CATCH BOYS
Detectives pieced together the last horrible hours of Mrs. Nixon after they rounded up four boys.

Two admitted the crime in school, a third in the squad car on the way to the station and the fourth, located Saturday, told of his part in the station under questioning.

All repudiated their confession Monday. They will be

brought before a Juvenile Court.

Mrs. Nixon's death was due to "natural causes," the impersonal medical report read. Dr. Clara Haven, deputy Wayne County medical examiner, said she doubted if the woman could have been saved even if medical help had been provided immediately. She said Mrs. Nixon suffered a cerebral hemorrhage.

"I think it is so vile," Dr. Haven said. "It is savagery. She had no chance."

Chief trial attorney for the Wayne County prosecutor's office John W. Coury called Mrs. Nixon's violators "animals. To have ignored her pleas for help is the height of immorality."

Conference in D. C. for County Official

The Oakland County Road Commission plans to send Safety Supervisor Joseph Davis to President Johnson's conference on occupational safety in Washington June 23-25.

Conference theme is "Mobilizing Leadership for a Safety Breakthrough," recognizing that over-all occupational accident rates have remained close to the present level in recent years.

Conference participants from throughout the nation will try to devise new techniques to bring the accident rate down.

Cattle Rustlers Now Bee Stealers in West

MINCO, Okla. (AP) — It used to be cattle rustlers in this part of the West. Now it's bee stealers.

Glen Gibson, executive secretary of the American Bee Keeping Federation, said Tuesday bee hive thefts are on the increase. A single colony, he said, will bring as much as \$30.

White Gangs Stage Attack on St. Augustine Marchers

ST. AUGUSTINE, Fla. (AP) — Gangs of screaming white men and youths attacked white and Negro marchers with fists and feet in bold defiance of the law in this old city.

The slugging, kicking attacks moved in on the victims—marching two abreast on a downtown sidewalk—and then

Police headquarters said there were no arrests.

REDUCE BAIL

The march came within a few hours after a federal judge in Jacksonville ordered police to lift their ban on night demonstrations and to reduce bail for a group of marchers arrested earlier.

"Despite what happened, we are going to continue protesting unjust discrimination," said the leader of the march, the Rev. Andrew Young.

Young was struck in the mouth, knocked down and beaten but not hurt seriously. Wiping at a cut on his lip, Young shrugged off questions whether he would ask for federal protection.

He is an aide to the Rev. Martin Luther King Jr., head of the Southern Christian Leadership Conference, who was scheduled to arrive here today.

SLAVE MARKET

Tuesday night's march started from St. Mary's Baptist Church, a few blocks from the downtown area. The target, as in past marches, was the old slave market, where the city park near the riverfront.

Nearly 300 demonstrators walked quietly downtown toward incident. As they headed back toward the church they ran into trouble. White marchers were singled out.

A big white man, weighing about 230 pounds, pummeled to the pavement the Rev. William England, 33, Boston University chaplain, who is white. The assailant then methodically kicked and stomped the chaplain, slumped with his hands over his head.

PUNCTUATED WITH GROANS

The thud of the kicks—were punctuated with groans from the victim. A slender Negro boy about 12, threw his body over the chaplain.

Policemen attempted no arrests of the assailants.

An injunction by U.S. Dist. Judge Bryan Simpson opened the way for a renewal of night marches, banned by police order May 28 after white youths attacked newsmen during a night protest.

The clash between Negro demonstrators and police was the first outbreak of racial violence in this heavily industrialized community since the Audreine Lucy riot eight years ago. Miss Lucy, the first Negro enrolled as a student at the university, was driven from the campus by an angry white mob. Later she was expelled for accusing university authorities of conspiring with the rioting crowd.

Way Clear on Vote to Cut Excise Taxes

WASHINGTON (AP)—In the news from Washington:

EXCISES: The way has been cleared for the House to vote this week on repealing excise taxes on some of the items dear to women: furs, cosmetics, jewelry and luggage and handbags. Republicans want to halve the 10 per cent tax this year and eliminate it entirely next year.

In an action Tuesday, the Rules Committee made it possible for the GOP proposal to be taken up in conjunction with a bill—cleared for debate Thursday—to extend a variety of excise taxes for another year.

The proposed excise cut was opposed by Rep. Wilbur D. Mills D-Ark., chairman of the Ways and Means Committee, who has scheduled hearings, beginning next week, on the full range of excise taxes.

SPENDING KEY
Mills told the Rules Committee he thinks some excises should be reduced but "our thinking must be limited by what Congress does on spending."

ARMS CONTROL: President Johnson called Tuesday for redoubled efforts toward gaining effective arms controls at the Geneva disarmament conference resumed its sessions.

He instructed William C. Foster, chief U.S. negotiator at the 17-nation conference, to leave no stone unturned in attempting to

find safeguarded alternatives to the arms race.

Johnson said in his statement: "We have taken the first steps

down the pathway to disarmament. Last year saw the test-ban treaty, the direct communications link and the U.N. resolution against nuclear weapons in space. This year both the Soviet Union and the United States have announced reductions in the production of fissionable material for nuclear weapons.

"We must not hesitate now that the journey has begun. We must redouble our efforts until it is completed."

EXTRA FUNDS: President Johnson signed Tuesday a \$1,336,687,143 emergency appropriations bill which included \$41,370,000 to help Alaska recover from its recent earthquake.

The largest allotment, however, was \$1,003,200,000 for the cost of military pay raises voted last year.

Another \$20 million was for the manpower development and

training program which is part of Johnson's antipoverty program.

Helicopter Crash Injures 3 Persons

BENTON, Ky. (AP)—An excursion helicopter crashed near Benton Tuesday, injuring three persons, including a child who was reported in serious condition.

The pilot, John M. Clark of Greenville, Mich., told police the craft struck a power line.

Injured in the crash were Molly Webb, 9, reported in serious condition; Stewart Lasley, who was being treated to a helicopter ride on his 10th birthday, and his father, Lloyd Lasley, all of Metropolis, Ill.

Clark was treated and released.

Failing Fifth Grade

12-Year-Old to College

COCOA, Fla. (AP)—Billy Green, who is failing his fifth grade subjects, is going to college this summer.

Billy, 12, scored 200 on an intelligence test administered by the University of South Florida. The genius category starts at 140.

County school Supt. Woodrow Garden says Billy reads eight to 12 advanced science books a week but struggles with his fifth grade work, perhaps because it doesn't challenge him.

The board of Brevard Junior College voted yesterday to allow Billy to enroll in one course.

MATH. SCIENCE

Billy, son of Mr. and Mrs. William C. Green of Eau Gallie, Fla., probably will take a mathematics or science course.

"We want to determine what kind of program he should have," said Garden.

Taft's Son a Professor

NEW HAVEN, Conn. (AP)—

Horace D. Taft, son of the late Sen. Robert A. Taft, Republican stalwart from Ohio, has been promoted to full professor at Yale University. The appointment of Taft, a physicist, was announced yesterday.

V. SARAJEVO: Royalty Walks into a Trap

7 Assassins Waited for the Archduke

(EDITOR'S NOTE — This is another in a continuing series on World War I, appearing in The Pontiac Press this summer.)

By Philip Van Voren Stern, Drawings, John Lane

There was no urgent reason for Archduke Franz Ferdinand, heir to the Austrian throne, to go to Sarajevo to see the military maneuvers being held in Bosnia.

He almost called the journey off, when he decided to proceed, the train trip became strangely difficult.

His private parlor car went out of commission because a wheel developed a hot box. Farther along the route, the electric wiring in the substitute car stopped working, so candles had to be used.

The Archduke said that their light made the occasion look like a funeral.

The man who was supposed to succeed his uncle, 84-year-old Emperor Franz Joseph I, knew that he was unpopular at home and would be hated in Sarajevo.

GOOD HUNTER

Franz Ferdinand was cold, aloof, arrogant and withdrawn. He was at his best with a gun in hand, for he was a crack shot and a mass slayer of game.

He was also a fabulous collector of nearly 4,000 images of St. George and the Dragon. This distant aristocrat, amazingly enough had married against his uncle's wishes and was genuinely devoted to his morganatic wife Sophie and their children who could never hope to inherit the throne.

Sophie stayed at a spa near Sarajevo while her royal husband attended the maneuvers.

On Sunday morning, June 28, 1914, they took a train to the capital where they were to be received at the City Hall and

have lunch at the Governor's Residence.

SEVEN KILLERS

Waiting for them in Sarajevo was not one but seven assassins. The three leaders were only 19 years old, from poor homes where their childhoods had been unhappy, and all three were suffering from the same disease—tuberculosis.

Believing that they had not long to live, they wanted to sell their lives dearly. They thought that killing the Archduke would free their country from the Austrian yoke.

They were Serbian patriots willing to die. They carried phials of cyanide so they

could commit suicide when captured.

EAGER PATRIOTS

They were eager, idealistic patriots, but this was not their plot. They also had small government manufactured bombs and good imported revolvers.

They were merely pawns in the first of the millions of

pawns that were about to be pushed off Europe's chessboard.

The plot had been originated by the chief of the Serbian Intelligence Department who was also a leader of the secret Black Hand organization.

He wanted the Archduke put out of the way because he thought his plans for reorganizing Austria-Hungary might im-

prove the lot of its South Slavs so much that they would lose interest in making Serbia great.

SHEER NONSENSE

This was sheer nonsense; so was the plot. But the bombs and the pistols were very real.

The Archduke and his wife arrived in Sarajevo at 10 a.m. The next hour was to wreck Europe in an explosion that would affect the entire world.

Cong Holding Two Marines?

SAIGON, Viet Nam (UPI) — Two U.S. Marines are missing and may be prisoners of the Communist Viet Cong, an American military spokesman said today.

Their disappearance was noted by American military authorities Sunday, but news of the incident was withheld today, because it was thought the two might still turn up at their unit.

The spokesman said an extensive air and ground search of the area where the marines disappeared "has not produced any results."

If it is determined that the two enlisted men have fallen into Communist hands, it will bring the total number of American servicemen known to be captives of the Communist guerrillas to nine.

The spokesman said the two marines vanished about 12 miles south of the coastal city of Danang, where they were assigned to the U.S. Marine Helicopter Squadron.

Added School Levy Urged for Utica Area

UTICA — Residents of the Utica School District will be asked to okay at least a \$6.3-million bond issue and an additional 5.5-mill operational levy Oct. 3, if the school board follows advice of the Citizens Advisory Committee.

Last night the study group presented results of its school district analysis to some 150 residents at Eppler Junior High School.

It also recommended solutions to the problems facing the system.

For operation of schools during the next three years, a minimum 5.5 additional mills will be required, according to the committee.

The group's report states that additional millage will be necessary to support an estimated \$6.3-million bond issue which it considers an "absolute essential need."

NEW HIGH SCHOOL

The citizens committee is recommending that a new senior high school be built with funds from the issue, should it be requested and okayed by voters.

Three new elementary schools, a new senior high library, and additions to Switzer and Flickinger Elementary schools are also at the head of the committee's need-priority listing.

School Board members have had the report for three days. They are expected to discuss it at the June 22 session, when the budget will also be considered.

Before working on the 53-page brochure, the citizens committee set up a three-point goal. Their purpose is to determine:

- What kind of system Utica has.
- Whether it is typical, and if not, to analyze ways in which it is unique.
- What the present obvious needs of the district are.

The group is split into four subcommittees, covering the areas of finances, buildings and facilities, curriculum and public relations.

General chairman is Harold P. Coates. William G. Agnew is secretary. The four subgroups are headed by Nicholas E. Gallopoulos, Thom F. Harcourt, Mrs. Beryl Bliederback and E. Burdell Clark.

After wrapping up work on the report the committee arrived at three general conclusions.

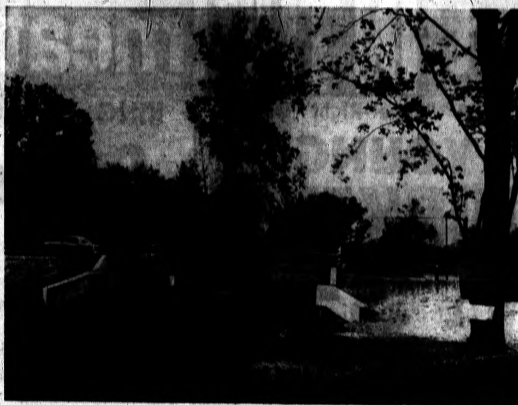

- Members contend that as a result of voter rejection of the January bond and millage issues, the school system will be "unable to provide an adequate program in 1964-65."

POPULATION RISE

The group's report says the district can ultimately expect a school population of some 50,000 children.

"Neither the citizens, the school board, nor the school administration are currently prepared for this growth," the report states.

The citizens committee is attempting to correct this apparent lack of planning.

Pontiac Press Photo

PROJECT COMPLETED — This new bridge on Avon Road near Livernois, Avon Township, is one of nine started last fall by the Oakland County Road Commission. Costing some \$57,000, the two-lane crossover

replaced an old one-way truss bridge. Construction was financed by the county and a grant from the federal government. Future plans call for straightening of Livernois near the Avon-Livernois intersection.

At Rochester Country Fair

'Good Old Days' in Style

ROCHESTER — Straw skimmers, striped jackets and spats will be back in style at the County Fair Saturday on the lawn of St. Paul's Methodist Church.

The church's Men's Club is busy preparing for a number of activities designed to attract the whole family.

A gala midway with pony rides, a children's train, mer-

ry-go-round and games of skill will all open at 2 p.m.

Races, contests, and other activities will keep the children busy beginning at 3 p.m.

Variety shows are also planned as major fair attractions, performed on the church stage at 4 and 7 p.m. Jack Ralph and Vic Zink will supervise the productions.

CHICKEN BARBECUE

Throughout the day Chef Art Watts will direct preparation and serving of the "Methodist Men's Barbecued Chicken." Outdoor camping and cooking displays will be sponsored by St. Paul's Boy Scout Troop 123. The event will close with dancing in the streets. Caller Ralph Price will lead square dancing at 8 p.m.

General chairman of the fair is Herb Hanes. He will be assisted by Robert Cummer and Vincent Baugh.

Annual Social Set by PTA

AVON TOWNSHIP — The old-time delight of an ice cream social will be offered to area residents on the grounds of Elmwood Elementary School from 5:30 to 9 p.m. tomorrow.

Sponsored by the school's PTA the annual "Ice Cream Social and Spring Festival" will be open to the public.

Ice cream, cake and other refreshments will be served. Games will be arranged for the children. Elmwood school is at 2751 Auburn, west of Crooks.

New Wolverine Lake Plan Cuts Cost of Renovation

WOLVERINE LAKE — Cost estimates on the renovation of Wolverine Lake have been cut nearly in half.

Engineer John R. Snell has presented to the Wolverine Lake Rehabilitation Association a report indicating the cost of the project would be about \$530,000.

Oakland County Drain Commissioner David Barry, who said last year the project was unfeasible on the basis of a \$995,000 cost estimate, will receive the new report tomorrow.

Engineers Hubbell, Roth and Clark of Birmingham had prepared the original study which included the confiscatory cost estimate and the prediction that hydraulic dredging would empty Wolverine Lake a quarter of the way through the project.

Snell, who heads a Lansing firm, did the engineering for the Long Lake dredging project, reportedly the first of its kind. His study is based on the equipment used there.

DEEPEEN LAKE

The undertaking described by Snell would deepen the lake to an average of eight feet. The 272-acre body of water now averages 3.8 feet in depth.

The original report was based on providing a six-foot average depth.

The rehabilitation association, which represents about 220 families, was formed at the height of controversy over the project last year.

The group collected money for a second study because the village's lake improvement fund had been exhausted on the first one.

USABLE FRONTAGE

Proposed work on the lake would include the dredging and work on the usable frontage.

The second report will be delivered to Barry tomorrow morning by E. B. Thompson, chairman of the rehabilitation

unit, and Councilwoman Mrs. Clara Miller, also a member of the committee.

Further study and action will be up to Barry, Thompson said. "We hope the drain commissioner will look at this sympathetically," Thompson said. "Now we have a report that contradicts the first one. Whether or not he will see fit to move on it is another question."

SHARLYN FRANCIS

Job's Daughters Will Install Queen

COMMERCE TOWNSHIP — Sharlyn Francis will be installed as honored queen of Job's Daughters-Bethel No. 23 Saturday night.

She is the daughter of Mr. and Mrs. Max Francis, 774 Polvadera.

The public installation will be held at 7:30 p.m. at the Commerce Masonic Temple.

Other line officers are Bette York, senior princess; Linda Herron, junior princess; Lynda Ryland, guide; and Christine Rogg, marshal.

NEWS OF THE AREA

Woman Heads Troy Sewer Digging Is Under Way

Mrs. Eunice Ganzel, one of the few women barbers in the state, has been installed president of Interlakes Local 40 of the State Barbers Association.

The local for the western half of Oakland County includes 60 barbers.

Mrs. Ganzel, 619 N. Milford, Highland Township, also will be among the unit's seven delegates to the state convention in Lansing Monday.

Other new officers are Louis B. Nelson, 2987 Orange, Waterford Township, vice president; Donald Skinner, 7366 Highland, Waterford Township, secretary-treasurer; and Robert R. Allen, 2840 Cloverdale, Highland Township, recording secretary.

Rotary Club Honors Senior

AUBURN HEIGHTS — The Rotary Club here has donated \$100 to the Avondale High School library fund in honor of Sandra Bragen, an outstanding 17-year-old senior.

The club is citing Sandra by placing her name on a permanent plaque, displayed in the library, and donating books in her behalf.

Picked over several other senior candidates, Sandra is the daughter of Mr. and Mrs. Carlyle Bragen, 3062 Auburn.

Troy Sewer Digging Is Under Way

Ground-breaking ceremonies yesterday launched construction of a \$3-million sewer trunk system in Troy.

The system will replace septic tanks and enable further home and business development in the city. Sewage will flow to Detroit for treatment through a connection into the Dequindre Interceptor Sewer now nearing completion.

The trunk system is slated for completion early next year.

The Oakland County Department of Public Works is supervising the project for Troy. Seven contractors will be working on the job.

The project is being financed by a 30-year bond issue to be paid back by Troy from revenues.

Baked Ham Dinner Set by Lake Orion Church

LAKE ORION — The Reorganized Church of Jesus Christ of Latter Day Saints will hold a baked ham dinner tomorrow at the church, 531 E. Flint.

Serving will be family style from 5 to 7 p.m.

YOU CAN HAVE A POUND OF
A&P BEAN COFFEE
GROUND TO ORDER...

in just 15 seconds!

• Fifteen seconds is all it takes to grind a pound of rich, fresh, A&P Bean Coffee and it delivers fresh-ground flavor you can't get in a can. There is no finer coffee in any package at any price than these A&P bean coffees. So why pay the extra 6c to get your coffee in a can.

Once coffee is ground, flavor fades faster even in a can. Spend 15 seconds — have your choice of A&P bean coffee ground before your eyes. Then taste the difference! Money-back guarantee of satisfaction.

Mentions Four Eastern Moderates

Goldwater Eying Potential Running Mates

WASHINGTON (AP) — Sen. Harry Goldwater, standing on the threshold of the Republican presidential nomination — is eying four Eastern GOP leaders as he thinks about a running mate.

To his closest associates, Goldwater has mentioned these names as possible vice presidential choices:

— Pennsylvania Gov. William W. Scranton.
— Sen. Thurston B. Morton of Kentucky.
— Rep. William E. Miller of New York.
— Gov. James A. Rhodes of Ohio.

Goldwater hasn't ruled anybody in or out of the running, a source close to the Arizona senator said today.

But Goldwater has said he thinks the Republican National Convention will want to balance the ticket—if he heads it—with a moderate Republican from the East.

The four men associates say Goldwater has mentioned all fit that pattern.

Publicly, Goldwater usually bypasses questions about a vice presidential choice. "I'm looking for delegates, not vice presidents," is his stock reply.

He has talked about Scranton, suggesting the Pennsylvania governor would be well advised to consider the vice presidential nomination.

That way, Goldwater said Sunday, if the ticket lost, the governor would be in a position to capture the presidential nomination in 1968.

High School Workshop on Local Government

EAST LANSING (AP) — A three-week workshop in local government will get under way for some 100 high school graduates at Michigan State University June 15. Expenses, including room and board for the students, will come from a grant by the Alvin M. Bentley Foundation, set up by the former Congressman from Owosso.

Scranton questioned whether a ticket pairing him with Goldwater would make sense. He said they would disagree on how best to implement some Republican principles.

But Goldwater described their areas of disagreement as very minor.

With his delegate strength mounting steadily toward the 655 votes he needs for the nomination, Goldwater was said by an aide to be viewing the vice presidential spot in terms of how best to strengthen the ticket next November — not with an eye to building his convention power.

An Associated Press survey now puts his delegate total at 540—with indications he could push it past the nominating number next week.

EFFORTS COLLAPSE

Efforts to blunt his drive appeared to have collapsed at the National Governors Conference in Cleveland.

"I will have open ears and an open mind to anybody the party suggests to run with me," Goldwater said in Los Angeles the night he won the California primary.

Nevertheless, a top aide said Goldwater "contemplates handling this in the orthodox way. He will have a very strong hand in the selection of a running mate."

The aide pointed out that three of the four men Goldwater has mentioned privately are from states that rank among the most potent in the Electoral College: New York with 43 votes, Pennsylvania with 29 and Ohio with 26. Kentucky has 9.

SECOND BID

Rhodes, 53, is a former Ohio State auditor who became governor in 1963, winning in his second bid for the office.

Scranton, 46, long rated a dark horse contender for top spot on the ticket, served a term in the House before he became governor. The Pennsylvania leader was a World War II flier and still is a member

of the Air Force Reserve unit Goldwater commands.

Morton is 57, and a former chairman of the Republican National Committee. He was elected

to the House in 1946, served three terms, and was an assistant secretary of state from 1953 until 1956, the year he won his Senate seat.

Miller is retiring from Congress—and as Republican national chairman—after 14 years in the House. The 50-year-old party chairman also served as

chairman of the Republican Congressional Committee. He plans to return to his law practice in northwestern New York State.

Enter the Star-Kist Color TV Sweepstakes! WIN AN RCA COLOR TV!

A SET A DAY EVERY DAY

FREE JUNE 17 - AUGUST 1

Look for me—Charlie—on television in glorious color. And look for those lip-smacking Star-Kist Tuna dishes, too. It'll make you hungry for Star-Kist—so better stock up now!

Nothing to write but your name and address!

SWEEPSTAKES RULES:

1. Print your name and address on the back of any Star-Kist Tuna label, if you have one, or on a plain sheet of paper on which you have hand-written in plain letters the words "Star-Kist Tuna."
2. Mail entries to Star-Kist Tuna Sweepstakes, BOX 2880, St. Paul 12, Minn. Enter as often as you like. Each entry must be submitted according to all rules, and mailed in a separate envelope.
3. Forty separate drawings—one each

weekday June 17 through August 1, 1964. Winners will receive one RCA 21" color TV set. Winners will be notified by mail.

4. Offer not open to employees and their families of Star-Kist Foods, Inc., its advertising agency, and Spotts Corporation—judges. Entries from Wisconsin must be on a plain sheet of paper only. Offer is void in any locality or State where a sweepstakes is contrary to law. Federal, State and local government regulations apply.

News From Around the World

Thai Teams Sent to Borneo for Guerrilla Pullout Check

BANGKOK, Thailand (AP)—Thailand ordered advance teams to Borneo today to set up a communications network for Thai teams that will verify withdrawal of Indonesian guerrillas from Malaysian Borneo.

Foreign Office sources said Malaysian and Indonesian negotiators still have not reached agreement on all details of the verification procedure.

Malaysian Prime Minister Abdul Rahman has insisted that Indonesia must pull out enough guerrillas to show good faith before he will join summit talks, scheduled to open in Tokyo Monday, between President Sukarno of Indonesia and President Diosdado of the Philippines.

UNITED NATIONS, N.Y. (AP)—The U.N. Security Council

voted a new appeal to South Africa Tuesday to stop handing out death sentences to those who run afoul of its racial policies. The vote was 7-0, with the United States, Britain, France and Brazil abstaining.

The resolution, sponsored by Morocco and the Ivory Coast, also called on South Africa to call off trials of persons opposing racial segregation, and to

grant amnesty to those imprisoned.

South Africa rejected earlier appeals by the council and General Assembly, contending that the trials were internal matters.

HAVANA, Cuba (AP)—Cubans were told Tuesday night it doesn't matter whether the Democrats or the Republicans

win the U.S. election because both will be bad for Latin America.

Communist leader Blas Roca said in a radio-television appearance: "There are some candidates who wouldn't be as bad as that madman Goldwater but both parties are enemies of Latin America."

SAN JUAN, Puerto Rico (AP)

Pablo Casals paid tribute to the late President John F. Kennedy Tuesday night with a memorial concert at the annual Casals Music Festival.

The 87-year-old cellist ignored friends' advice and conducted the entire program.

A small group of students favoring Puerto Rican independence distributed leaflets and

carried anti-Yankee signs outside.

OTTAWA (AP)—The House of Commons Tuesday night approved a government bill to replace the chiefs of staff of Canada's three armed forces with a single defense chief.

The bill still must get a third reading in the Commons—a formality—and approval by the Senate.

SAIGON, South Viet Nam (AP)—A pair of teen-age lovers soaked each other in gasoline at Tay Ninh last weekend, embraced and touched a match to themselves because they had been refused permission to marry, the Saigon Post reported today.

Both were badly burned and are not expected to live, the paper said.

EMOTIONAL DRAMA — "The Chalk Garden," featuring (from left) Elizabeth Belars, Hayley Mills and Deborah Kerr, is a tense drama about the twisted lives of a 16-year-old and her relatives and governess. The film, which also stars John Mills (Hayley's real-life father) and Dame Edith Evans, starts at the Miracle Mile Drive-In today.

Wife to Add to Oswald Testimony

DALLAS (UPI) — Marina Oswald plans to fly to Washington tonight for her second appearance before the Warren Commission, apparently still convinced her husband killed President Kennedy.

The 22-year-old widow of Lee Harvey Oswald will be accompanied by her lawyer, William A. McKenzie of Dallas, her sister-in-law, Mrs. Robert Oswald, and will take along the older of her two children, June Lee, 3.

She has already testified before the commission, shortly after it was set up. Unlike her mother-in-law, Marguerite Oswald, she has accepted the assassination charge against her dead husband as true.

Marguerite Oswald hired a lawyer to show that her son either did not pull the trigger last Nov. 22, or was the tool of others in a plot.

Chief Justice Earl Warren was in Dallas last Sunday and spent three hours talking to Jack Ruby, the striptease club manager who made Marina a widow with one shot in the basement of the Dallas police station.

Much of Warren's trip was a

cloaked in secrecy, but as far as is known, he did not see Marina on that trip. His conversation with Ruby, who has been sentenced to death, was not disclosed.

Marguerite Oswald earlier spent some time before the Commission, but Warren said she added "nothing new" to the evidence. Dallas Dist. Atty. Henry Wade testified Monday. Sources said he made no new revelations.

Mild Winter Cheap

LANSING (AP)—A mild winter saved the state more than \$1 million in snow removal costs this year, reports the State Highway Department. The department had budgeted \$6 million for winter maintenance but spent only \$4.85 million. Snow removal costs last year came to \$5.93 million.

CAN YOU NAME FIVE WAYS THAT A WANT AD CAN HELP YOU AT VACATION TIME?

Just to refresh your memory, consider these important services which only a low cost Pontiac Press Want Ad can perform during the vacation season:

1. If you have idle vacation equipment which you no longer use, you can find a "cash-in-hand" buyer quickly through a Want Ad.
2. If you are looking for good used vacation equipment such as a boat, or camping equipment, read the For Sale Ads, or better still, use a "Wanted to Buy" ad to find exactly what you want.
3. A Want Ad can help you find a desirable renter for your summer place during the weeks when you do not occupy it.
4. If you are looking for a place to spend your vacation, read the Cottages and Resorts For Rent ads.
5. Good used furniture works fine in a summer cottage, and there is no better place than through the Want Ads to sell or buy the used furniture.

It is a very simple matter to place an ad. Just dial 332-8181, ask for an ad-visor. She will give you complete information on wording, and placing your ad.

Be Sure To Order The Thrifty 6-Time Rate!

PONTIAC PRESS WANT ADS

Record 3,460 Degrees

EAST LANSING (AP)—A record 3,460 students will be gradu-

ated from Michigan State University, Sunday.

Bachelors degrees will be conferred on 2,763 and advanced degrees on 697.

Wife-Slayer Dr. Finch

LOS ANGELES (AP)—Dr. R. Bernard Finch, now serving life in prison for killing his wife, has lost his license to practice medicine and surgery.

Loses Medical License

The California State Board of Medical Examiners announced yesterday that it had revoked Finch's license. Earlier this year, the state attorney gen-

eral's office had asked the revocation "for the protection of society."

The United States bought the Virgin Islands from Denmark in 1917 for \$25 million.

Drowns While Boating

GRAND RAPIDS (AP)—Shirley Block, 28, of Grand Rapids drowned Tuesday in the Grand River when she was thrown from a 14-foot outboard motor-

boat with her brother, Jerry, 25. The brother managed to swim to safety after failing in efforts to keep his sister afloat, police said. Miss Block's body was recovered.

Two Bars Fined \$150 for Selling to Minors

The Keg Kanteen, 84 Auburn, and Red & Marty's Bar, 3435 Ormond, Springfield Township,

have each been fined \$150 by the Michigan Liquor Control Commission for selling alcoholic beverages to minors. In addition to the fine, Red & Marty's received a 10-day suspension, effective June 22.

Study Highway Plan

LANSING (AP)—State Highway Department survey crews have started gathering information for a proposed modernization of some 21 miles of M28

from the Alger-Marquette County line, near Sand River, to Munising. The department said contracts for the \$1.5-million project will be let in late 1965 and early 1966.

Program to Advise Drivers in Trouble

LANSING (AP)—An extension of group interview-discussion programs for drivers in violation trouble for the first time has been announced by the Driver Improvement Section of the Secretary of State's office. Three pilot programs, held in Lansing will be followed by meetings at Muskegon, Niles

and Port Huron, at dates yet to be set.

Nearly a third of the minerals and vitamins in canned vegetables are lost when the liquid is poured off.

A Junior Editors Quiz About WORLD HISTORY

QUESTION: Who first discovered England?

ANSWER: It isn't possible to give an exact person and date for the discovery of England as one can give Columbus and 1492 for America.

The earliest known inhabitants of England were the Iberians, a short, dark-haired race, whose ancestors came from the Mediterranean Sea area in the Stone Age period and are thought to be the forefathers of the Italian and Spanish peoples (Spain is often called the Iberian Peninsula).

At some unknown time these people spread to England, where they used stone tools and later discovered the use of bronze. The remarkable ruins at Stonehenge, England, are probably remains of a primitive Iberian religious temple of some kind.

About 600 B.C. another race of people from the European mainland, the Celts or Kelts, invaded England.

The first wave of these tall, war-like people, whose women fought along with the men, were the Gaels, who crossed to Ireland, and another group, the Brythons or Britons, became established in England, which became called Britain.

Then came the Romans in 40 A.D., followed later by Germanic tribes, such as the Angles, Saxons and Jutes. Fusion of these various peoples produced the Anglo-Saxon or English race.

FOR YOU TO DO: We have purposely left out another most important race of conquering people who came from Europe. See if you can find out who they are.

Court Plans to Be Open in Summer

More than a score of prisoners in Oakland County jail won't have to face an added 90 days behind bars this summer waiting for jury trials.

Circuit Court Judge Phillip Pratt, who will be presiding during the July-August court session, said there will be an abbreviated jury term to permit trials which would not otherwise come up until September.

Usually there are no jury trials in the summer.

The decision affects defendants awaiting trial on serious charges, and lesser offenders who were unable to post bond. Judge Pratt, who conferred with fellow Circuit Judges before scheduling the jury session, admitted it would cause vacation problems for some attorneys, witnesses and police officers.

But he said the need outweighed the difficulties, since about 15 persons are already in jail awaiting trial and the number is increasing by three or four a week.

The summer jury term, set for July 14-24, prevents a three month gap, since the present May-June jury cases are finished.

The next regular four-week jury sitting would not begin until sometimes in September.

Oakland County Circuit Court will not observe shorter summer working hours as does the Wayne County bench, although some of the seven judges will be away on vacation.

Man Sentenced

to 60-Day Term for Abortion Role

Second of two men convicted for his part in an abortion ring, Melvin O. Springer, 46, yesterday was sentenced to 60 days in the county jail. Circuit Court Judge Phillip Pratt ordered the jail term as he placed Springer on two-years probation.

Springer, of 39 Tacoma Ct. and Kenneth Redwitz, 42, of Flint, had earlier been found guilty of abortion in a non-jury trial before Pratt.

Redwitz was sentenced last week to a 3-to-4-year prison term. He was already serving a 4-to-5-year sentence in Southern Michigan Prison at Jackson for larceny from a building in Flint.

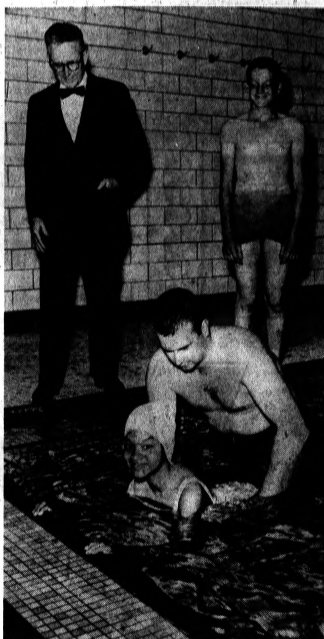

They were charged with performing an abortion of a 39-year-old woman after Redwitz was arrested in a Waterford Township motel in May, 1963. State Police accused Springer of being a contact man for Redwitz, who they said performed a number of abortions in this area.

Pontiac Civitan Club

to Install New Officers

Installation of new officers of the Pontiac Civitan Club, including Dr. Maurice Thome of 1040 James K. as president, will be held this evening at the Edgewood Country Club, Commerce Township.

Other officers are Eldon Gardner Jr., president-elect; William M. Gokay Jr., secretary; and Ivan T. Knight, treasurer. Vice presidents are Robert V. Reynolds and Richard Benham. Retiring club president is Edward S. Ladd of the Community National Bank.

FREE LESSONS — Registrations are being taken this week at the Pontiac YMCA for the Rotary Club-YMCA sponsored learn-to-swim program for youngsters 9 years old and up. Shown receiving instructions from Y aquatic director John E. McClure is Marcella Rodges, 267 S. Edith. Looking on are Gerald E. White, Rotary swim campaign chairman, and Robert E. Northrop, 445 Sterling, another nonswimmer who has enrolled in course. The deadline for registering is Saturday with five 45-minute classes to begin Monday.

In Army Engineer Corps

Urge Other Activity Disclosure

WASHINGTON (AP) — A House Armed Services subcommittee recommended Tuesday the Corps of Army Engineers require its personnel to disclose any outside activities that might constitute conflict of interest.

The recommendation came in a report critical of procedures used in the 1958-59 construction of runway paving at Selfridge Air Force Base at Mount Clemens, Mich.

The report said James E. Hampton, employed by the Army Engineers at the time, recommended the action which resulted in the approval of American Aggregates Corp. as the source for the aggregate for the concrete in the project and later became sales manager of the corporation. The aggregate for the concrete came from the Oxford pit of American Aggregates Corp. The Oxford pit was listed as an approved source for aggregate by the Detroit District of Army Engineers, but later was removed from that designation. However, it subsequently was reinstated.

The report said runway failure was attributed primarily to

the presence of chert in the coarse aggregate used in the concrete mix.

Ex-Leader's Son Dead

ENSENADA, Mexico (AP) — Juan Rodriguez, 39, son of a former president of Mexico, was killed Tuesday when his twin-engine plane hit a power line on takeoff. He was the son of Gen. Abelardo Rodriguez, who was Mexico's president in 1932-34.

Must Remove Arm Once Reattached

NASHVILLE, Tenn. (AP) — Doctors have told John Bossard they must remove the left arm which they reattached after he accidentally severed it with a power saw last week.

The operation is tentatively set for today.

The forearm, severed two inches above the wrist, was replanted by a six-hour operation at St. Thomas Hospital here.

One of the surgeons said yesterday optimism was high for several days that the reattached forearm and hand would live. However, discoloration started Sunday and has grown progressively worse.

Bossard's condition is generally good, doctors said, so there is no reason to rush the amputation.

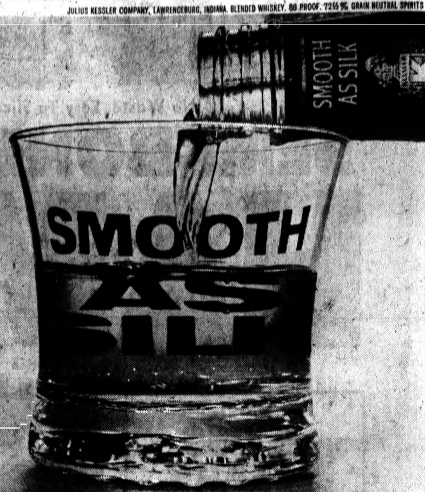

Surgeons here said although under ideal conditions bones,

blood vessels and muscle tissue can be put back together, there is little experience in accomplishing this with nerves.

Because of this, they do not know how much of a limb's function can be restored.

Prince Philip Now 43

LONDON (AP) — Prince Philip, husband of Queen Elizabeth II, was 43 years old today.

No smoother whiskey ever came out of a bottle. No matter what the price. Compare Smooth As Silk Kessler with the whiskey you're now drinking and you be the judge. **\$3.94** a fifth.

"Mommy, you forgot...every litter bit hurts!"

It happens in the best of families! Mom or Dad forgets that every litter bit hurts. And forgetting is the main cause of the litter mess that mars America's highways—your highways. That first bit of trash you thoughtlessly tossed away is the beginning of a pile-up that costs millions of tax dollars to clean up. But that's not all that's bad

about littering. Remember—as the twig is bent, so grows the tree. A bit of your children's good citizenship training goes out with every litter bit you toss away. So, Mom, Dad—lead the way to the litterbag. Carry one in your car at all times. And use it. Make it a family project to Keep America Beautiful!

Tiger Hurling Sharp in Rout

DETROIT (AP)—The rarity of a complete game by a Detroit pitcher was sweetened Tuesday night by the Tigers' hitting over Minnesota.

Rookie right-hander Denny McLain was the recipient of the team's biggest night of the season, though he pitched well enough to win even the closest of contests.

McLain scattered seven hits, while striking out eight and walking four, as he turned in the ninth complete game by a Detroit hurler.

His only mistake was a home run pitch to Harmon Killebrew in the fourth. It was the 1st for the American League leader.

"The big difference between tonight and Saturday (when he lasted less than three innings in Chicago) was the curve ball," McLain confessed.

"I threw 27 curves in 60 pitches Saturday and was really beat when they took me out," he continued. "Tonight, I bet I didn't throw 20 curves. That was the difference."

THREE ERRORS

The Tigers were aided by three Minnesota errors in the first four innings as four of their first five runs were unearned. Twins' starter Jim Katt committed two of the errors.

For the second night in a row, Minnesota Manager Sam Mele used five pitchers in an attempt to halt the surging Detroit batters.

And for the second time in as many nights, the Tigers beat the Twins in the home run department.

position on the team. Both he and Bill Freehan have 23. Norm Cash leads with 39.

Freehan got four more with a two-run homer in the fifth and a two-run triple in the seventh when the Tigers crossed the plate eight times.

Though he only batted in a single run, Al Kaline picked up a pair of doubles and a single to fatten his batting average, which now stands at .298.

McLain breezed through the first eight innings but had trouble in the ninth when, he admitted, he was just trying to get the ball over the plate.

No. 7 Helps Clippers Top Collision, 7-6

Wild Throw Scores Deciding Run in Extra Inning Contest

CLASS A BASEBALL

Clippers 6
C/O No. 34
PBL
Talbott
M. G. Collision

The Clippers found the number seven their lucky one last night as they beat M. G. Collision, 7-6 for their fourth straight win after an opening loss.

The game went eight innings; but were it not for a leaky defense by the losers, the winners would have seen their string end at three.

M. G. Collision committed seven errors in the tilt, the seventh was the one that ended its hopes for win No. 1 this season.

A wild throw permitted Gene Cox to come home with the deciding marker. With one out in the eighth, Cox had singled and taken second base on an error.

The losers held a 6-1 lead entering the fifth inning and the only marker for the Clippers was an unearned one. Three walks, two singles and a wild pitch drew the Clippers close.

They tied it the following frame aided by Cox's run-scoring triple. Bob Tuck went the route for his second win, although touched for nine hits.

Larry Quick had three singles and Herm Bishop had a two-run double. They both accounted for three runs.

Tonight Cranbrook will go after its third in a row when it meets winless Talbott Lumber at 8 p.m. under the lights at Jaycee Park.

Al Lopez Selected for All-Star Spot

BOSTON (AP)—Manager Al Lopez of the Chicago White Sox was named today to manage the American League team in the 1964 All-Star baseball game.

American League President Joe Cronin picked Lopez to replace Ralph Houk, who managed the New York Yankees to the American League pennant last year but since has been elevated to the post of general manager.

Lopez led the White Sox to a second place finish a year ago. Cronin said he felt Lopez has earned the honor with his performance last year "as well as in recognition of his distinguished career as an AL manager."

College World Series Continues

Missouri Now Meets USC 9

OMAHA, Neb. (AP)—Missouri's tourney-wise seniors are in good position in their third shot at an NCAA baseball crown but Coach Hi Simmons is wary of Southern Cal, a team he's never beaten in the college world series.

USC's defending champions, 40-13, had to use their two best pitchers to win a rain-suspended game from Mississippi 3-2. Walt Paterson went four innings Monday night and Larry Fisher finished Tuesday night.

This disrupted their pitching rotation for tonight's big one

with Missouri, which was impressive in whipping Arizona State 7-0 on Keith Weber's seven-hitter. It was Missouri's 23rd straight victory in a 24-3 season. In the first winner's bracket game tonight, Minnesota, 28-11, faces Maine, 19-6. In the loser's bracket this afternoon, Texas A&M, 19-7, meets Seton Hall, 24-4, and Mississippi, 24-6, faces Arizona State, 43-6.

USC eliminated Missouri in the fourth round last year, 12-3. The Trojans beat Simmons' club in 12 innings for the 1958 championship.

The white-haired 58-year-old

Missouri coach is in his sixth college world series. His Tigers won the 1964 NCAA crown and finished second in 1962 and 1968. He declines to compare teams, but it's obvious he's happier about his pitching than last year. The Big Eight champs have six seniors playing in their third straight NCAA tourney.

"I just might start Dennis Musgrave—he's a pretty cool customer for a sophomore," Simmons said. "USC has seven right-handed batters and he throws right. But it might be Jack Stroud."

We make a cheery Cherry, too.

FIRST PLACE — William H. Kinney, 11, Pleasant, Oxford, is leading the Pontiac Press Big Fish Derby's bass division for the second straight year with this 5-pound one-ounce largemouth caught last week on Tan Lake. Kinney won the bass division in 1963 with a 6-pound 10-ounce fish.

STRINGER FULL — Katie Dee, 677 W. Walton, Waterford Township, caught this limit string of black bass, including a pair of four-pounders, at Upper Silver Lake. She used night-crawlers during the morning hours.

TAKES LEAD — This 12-ounce bluegill leads its division in the Press Derby. Larry Howe, 44 E. Romeo, Addison Township, led the bluegill and several others like it at Tan Lake.

Detroit Shooter Triumphs

Neve Peressini of Detroit won the high over-all championship and the Michigan Wreckers made a shambles of the 5-man team competition in the Mid-America Open Skeet Shoot last weekend at the Detroit Gun Club.

Peressini broke 395 of 400 targets in the all gauge, 20, 28 and 410 classes. The Wreckers took everything in their specialty with 1,927 x 2,000.

Pontiac's Bob Thieles, Larry Smith of Bloomfield Hills and Detroiters Jack Paty, Lynn, Howard Conner and Chet Crites makeup the Wreckers.

Lynn Becker, South Lyon, Thieles and Dr. Jack Wiant of Birmingham were involved in an 18-way shootoff for the All gauge title after tying with perfect 100s.

Dick Menzel, of Oskosh, Wis., finally came out on top after 175 extra clay birds.

ALL GAUGE
Champion — Dick Menzel, Oskosh, Wis.; Runner-up — Ed Scherer, Warren, Mich.; Third — Larry Smith, Bloomfield Hills; Fourth — Bob Thieles, Pontiac; Fifth — Dick Menzel, Oskosh, Wis.; Sixth — Dick Menzel, Oskosh, Wis.; Seventh — Dick Menzel, Oskosh, Wis.; Eighth — Dick Menzel, Oskosh, Wis.; Ninth — Dick Menzel, Oskosh, Wis.; Tenth — Dick Menzel, Oskosh, Wis.

Bloomfield Open Hunt Plays Host

The Detroit Horse Show and Fair will feature a week of high calibre competition topped off by the big, new Fort Riley Classic jumping event.

This year's show at the Bloomfield Open Hunt will run June 22-28 with the popular jumping events providing the big attraction Saturday and Sunday in the concluding hours of the annual extravaganza.

Entries from more than 25 states (including Seattle, Wash.) and four Canadian provinces have been received.

The Detroit Horse Show is rated an Honor Show by the American Horse Shows Association, one of few so designated by the ruling body of U.S. horse shows.

It is the largest outdoor show for hunters and jumpers in the country; and there are \$15,000 in cash prizes and almost \$3,000 in additional premium awards.

The big item for the competition this year will be the Fort Riley Classic, a new jumping event slated for Saturday night, June 27th.

It will have a \$1,000 first prize plus the Frances Hopkins Duffy Memorial Trophy. The course will be laid out based on the prominent features of Fort Riley, Kans., a celebrated U.S. Army cavalry post.

HONORARY CHAIRMAN
Mrs. Duffy was the daughter of a cavalry officer and once lived at Fort Riley. Her husband, Col. Irving Duffy, is the honorary chairman for this year's show after heading it for many years.

The Colonel I. L. Kitts Memorial Trophy class also has been added for the first time, as well as the Motor City Special Hunt championship bonus awards.

The latter is special prize money totaling \$2,000 and donated by American Motors, Ford and General Motors Corporation.

The Kitts memorial trophy will be presented opening night, June 22nd, for a special dressage class. The horse and rider must perform a compulsory five-minute test and a free-style five-minute maneuver.

It is an event that has been held rarely, if ever, in the U.S. and has been popular in Europe for some time.

The Bloomfield Open Hunt offers facilities and grounds for outdoor horse shows that rank with the best in the country.

2 Local Boaters Pick Up Wins in Sail Races

Local boaters found success in Detroit and Erie, Pa. regattas last weekend.

Chuck Cartwright took first place in the sure-water catamaran class of the Erie Center Regatta on the Detroit River. His one hour, 18 minutes, 17 seconds elapsed time was best for the entire 223 entries in the seven-mile regatta.

Cartwright of Orchard Lake, finished almost three minutes ahead of the next boat and was a half hour in front of his nearest division competitor.

Bob Scott of Pontiac was fourth in the lightning division with a one hour, 58 minute timing.

Ed Sack, Cass Lake, also had the best elapsed time in the Erie One-Of-A-Kind Regatta. He came in seven seconds ahead of the next best craft.

RECORD MOOSE — Ralph DeGraff, 339 Ridgemoor, Boone and Crockett Club listings. The Addison Township resident shot the moose as it was charging horses used by the hunters.

Boone and Crockett Club listings. The Addison Township resident shot the moose as it was charging horses used by the hunters.

Moose Charges Into Record Book

A large Wyoming moose shot by an Addison Township hunter last fall literally charged its way into the Boone and Crockett record book.

Ralph DeGraff, 339 Ridgemoor, Boone and Crockett Club listings. The Addison Township resident shot the moose as it was charging horses used by the hunters.

the recent Boone and Crockett Club competition banquet in Pittsburgh. His moose scored 166½ points and is the largest Shiras taken since 1960 and the second largest since the 1955 competition.

"I don't know where it will place in the record book because several large heads shot prior to 1958 were entered for the first time. The club's new record book is coming out soon and it will be listed in there."

Boone and Crockett Club keeps the official records of all North American big game.

The Shiras moose is native to Wyoming and averages slightly smaller than those found in northern Ontario. The antlers from DeGraff's bull have a 49½-inch spread.

DeGraff, his wife, guide William Risby and a couple of wranglers were heading toward the ranch last October when the action started.

9,000 FEET
"We rode into a grove of trees at about 9,000 feet," related DeGraff, "and suddenly we heard grunting sounds."

"One of the men yelled, 'get off quick.' I dismounted in a hurry and it's a good thing I did. This big moose, with head lowered was charging the horses. I dropped to one knee, centered the scope on his chest and fired."

"The moose went to his knees, started to get up, and I put him down for keeps with another shot in the chest. He dropped 100 feet from where I was kneeling."

DeGraff was using a 390 Weatherby magnum stuffed with special handloads. They were 180-grain Nosler bullets in front of 78 grains of 4350 powder.

"Both bullets traveled almost the entire length of the moose," said DeGraff.

Moose can be hunted by permit only in Wyoming. Last year was the first time he had applied for one.

"Now, I'm trying for a big-horn sheep permit. We saw several very good heads last fall." He also tagged a mule deer with a 27½-inch spread.

DeGraff measured the moose's antlers when he returned home. He was assisted by Conservation officer Cy-Adams of Lake Orion. It scored over 170 points, but shrinkage over the required 60 days before official measurement by B & C officials reduced the count.

The antlers are currently at the Carnegie Museum in Pittsburgh.

Woodcock Near Record; Game Men to 'Bug' Deer

The first game bird tallies of the year indicate that woodcock numbers are at a near record high in Michigan this spring while the count of the ruffed grouse population remains about the same.

Woodcock made a near 11 per cent gain over last year in the Upper Peninsula and the numbers are about the same in the Lower Peninsula, the State Conservation Department said.

There are more ruffed grouse expected in the Upper Peninsula but the population count is down in the northern Lower Peninsula.

Conservation Department men are readying a game research program which is really going to be "on the beam" when it comes to charting the comings and goings of wildlife.

The project has to do with a new Department venture in which movements of game animals will be tracked through the use of electronic equipment.

'BUGGED'
Later this year, deer, elk and small game animals will be captured and "bugged" with tiny transmitters attached to collars, harnesses, and leg bands.

After the animals are released...

Solunar Tables

The schedule of Solunar Periods, as printed below, has been taken from John Alden Knight's Solunar Tables. Plan your days so that you will be fishing in good territory or hunting in good cover during these times.

Family Teaches Social Graces

Leisure Time Crucial in Child Training

By LESLIE J. NASON, Ed. D.

When I was a boy, we used to chant on the last day of school: "No more pencils, no more chalk, no more teachers' assy talk."

As far as the feelings of most youngsters go, things probably haven't changed too much in this day and age. But otherwise, things have changed a lot.

NASON

Under modern living conditions children today find it more difficult to make good use of the sudden abundance of leisure time that now lies before them.

Of course, they need per-

iods for relaxation, playing and just fooling around. But too much leisure often leads to boredom, and certainly is unproductive.

More likely than not your child needs help to cope with summer.

Especially during the first days of vacation, mothers should take a hand. Careful planning, not just of entertainment but of worthwhile activities, can set the pattern for a worthwhile summer.

Wise mothers will have a great variety of plans ready.

Swimming classes, supervised recreation, arts and crafts and many other activities are offered by community recreation departments to help absorb free time, and also to provide opportunities for individual development.

Family picnics, travel and

home projects are used by thoughtful parents to maintain family unity. The family is still the most important influence in the training of children.

While no two families can follow an identical pattern, parents should make a conscious effort to build their family into a unit that provides opportunities for training.

Much of the best training takes place during routine family living.

The Rowe family makes excellent use of this principle. Mr. and Mrs. Rowe are determined their children will gain early many of the social customs and graces they achieved only after marriage.

When guests are entertained they may be greeted at the door by the 12-year-old daughter. She already has acquired the knack of making guests feel welcome and comfortable.

By OSWALD JACOBY

This may be mistake week in this column, but you can't really charge North and South with an error in getting to the slam.

As a matter of fact 12 out of 14 pairs in a duplicate game got there and JACOBY two succeeded in making it when the defense slipped.

The play started out the same way at both winning tables. South drew trumps, stripped the hand of hearts and diamonds and led a club toward dummy.

One West played made the mistake of playing the jack of clubs. Now all South had to do was take dummy's ace and lead a second club from either hand.

West could either play his king and catch his partner's queen or let East make his queen. Whereupon East would have to give declarer a ruff and discard.

At the other winning table,

Astrological Forecast

By SYDNEY OMARR

The wise man controls his destiny. Astrology points the way.

ARIES (Mar. 21—Apr. 19): Recognize when luck goes against you. Don't "pad" or worry needlessly. Your best will be enough. Money question indicated. (Mar. 21—Apr. 19): Recognize when luck goes against you. Don't "pad" or worry needlessly. Your best will be enough. Money question indicated.

CANCER (Jun. 21—Jul. 21): Cycle high. Gain indicated through association with ARIES person. Wonderful evening for dining out, attending theater. Be with one who stimulates you. Be with one who stimulates you. Be with one who stimulates you.

LEO (Jul. 23—Aug. 22): Don't be too hard on yourself. Those who mean much to you do understand. Behind-the-scenes activity favors your cause. Patience aces as a r. Gain emotional strength through association.

VIRGO (Aug. 23—Sept. 22): Fine for giving, receiving gifts. Remember anniversaries. Birthdays. Gesture on your part. Be generous. Especially where loved one is concerned. Emphasize beauty, harmony.

LIBRA (Sept. 23—Oct. 23): What means most to you is the line. Maintain position. Stick to ideals. Give. Be service. Acceptance. Incompleteness as challenge. Means strive for perfection.

SCORPIO (Oct. 23—Nov. 21): Good lunar aspect continues to highlight projects. Your point of view must be "big." Resist tendency to labor over minor matters. You are moving in right direction. Celebrate.

SAGITTARIUS (Nov. 22—Dec. 21): Key is acceptance. Go in direction where you are encouraged. Don't attempt to break into unknown fields. Play it safe. No time to be impatient. Impulsive but good for future planning.

CAPRICORN (Dec. 22—Jan. 19): Temptations indicated. Stress practical action, decisions. Appointments should be kept. But be sure you maintain perspective. Don't let your mind be taken out of principles. Stand fast.

AQUARIUS (Jan. 20—Feb. 18): See situation as a whole. Don't be bogged down with details. Use imagination. Preserve possibilities. The more daring you are, the more you will like you are. Don't disappoint them!

PISCES (Feb. 19—Mar. 20): Prophecies (Feb. 19—Mar. 20): Prophecies indicated which will require special consideration. May involve your own. Break from routine. Take time to be "interested." Avoid smug attitude.

IF THURSDAY IS YOUR BIRTHDAY Your birthday is the most important day of your life. You are a natural diagnostician.

GENERAL INDICIES Cycle high for CANCER, LEO, VIRGO. Special word to AQUARIUS. Take consideration of associates. You are being observed. (Copyright 1964, General Features Corp.)

CARD SPIN

Q—The bidding has been:
South West North East
1♠ Pass 1♥ Pass
1♥ Pass 1♥ Pass
1♥ Pass 1♥ Pass

You, South, hold:
♠A2WKJ75 ♠A32 ♠Q1087
What do you do?

A—Pass. You have a minimum opening with a no-trump pattern.

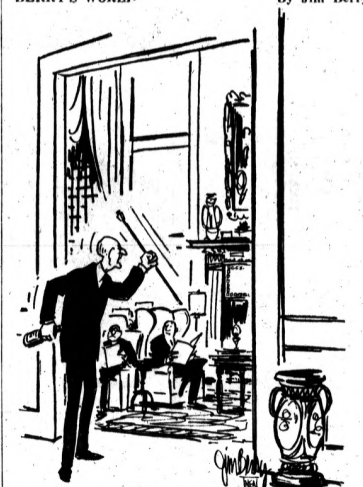

TODAY'S QUESTION

Instead of bidding one no-trump, your partner bids one spade over your one heart. You rebid to one no-trump and he raises to two. What do you do now?

(EDITOR'S NOTE—William Schall is president of The Reading Laboratory, Inc., and one of the foremost authorities on rapid reading and comprehension for adults and children. Here, in the first of three articles, Schall explains the workings of a remarkable reading device — the Initial Teaching Alphabet — which is gaining increased service in classrooms across the nation.)

are the technically unemployed.

STANDARD OF LIVING

With our present high standards of living, the highest in the world today, can we, as Americans, afford to have 38 million Americans unable to understand even the rudimentary concepts of the technological words which demand our attention?

So much in this world depends on the ability to read well!

Why is it so difficult to learn to read?

First of all, when you learn to read, you are really learning to break a code — a code in which the letters of the alphabet stand for sounds which make words we know.

The principles of code-breaking are undoubtedly known to you today, but what about a child who has no notion of what the word "code" means?

FOR INSTANCE

As a for-instance, take this sentence:

"Hvv gsv qvg kozmy ozmw."

Looks a little tough, doesn't it? Well, so does our traditional alphabet to a beginner-reader. If you were supplied with the clue, V equals "e" sound, one could move ahead.

The key to the code is the alphabet backwards, Z equals A, and so on. Or, one would think, once we established the fact that G stands for the "t" sound, we could read; but look at this problems we run into.

The sentence, as you have probably figured out by now, is: "See the jet plane land." The "e" sound is pronounced differently in three places and is silent in a fourth place, and certainly the "t" sound in the "the" is not the same as the "t" in "jet."

JUST FOR CONFUSION

Just to confuse things further, imagine the child's dismay at having learned that the R in Run can also look like the r in run, so that the child is learning at least two alphabets and possibly more if there be a great

variety of type in the books in his life.

So, if we take the 26 letters of the English alphabet with caps and lower case and script, you will begin to see the problems you had as a child.

The major problem for the beginner, however, lies in the fact that, even with this immense desire to learn, we still have only 26 letters which have to somehow accomplish the 40 or more sounds, the phonemes.

Thus, the sound in pie may be spelled many ways. If a first-grader knows how to spell pie and is then asked to spell buy, sigh, aisle, island, kite, he's being perfectly logical if he writes pie, sie, iel, leland, kiet.

WHERE TO GO?

If he learns that "read" (I can read) is spelled the same as "read" (I have read), when he meets the word "near" which way should he go from "here"?

You should be beginning to wonder by now how you ever learned to read! But you can see that the first-grader might well distrust his abilities and have to rely on his teacher for the answers.

Logic will get him nowhere!

That tremendous beginning

desire has now, due to frustration, begun to sour. In many cases he has had enough to turn him against reading, writing, schools, teacher, and even himself.

ENGLISH WORDS

The English-speaking world has not been lacking in an awareness of this problem. Various scholarly investigators have attempted to practice a more logical alphabet.

In the middle of the 1800s, something called a Public Instruction was used for the beginning reader in 10 schools in Waltham, Mass.

This was followed by a trans-

ition to conventional spelling. Subsequent experiments used this original two-stage technique.

Sir James Pitman has devised a teaching tool called the Initial Teaching Alphabet (ITA) that makes it easier for our children to read our traditional grown-up alphabet, once they have mastered the ITA of Sir James.

SUPERINTENDENT VISIT

Dr. Charles H. Boehm, state superintendent of public instruction in Pennsylvania, after visiting some classrooms where ITA had been taught for four months wrote:

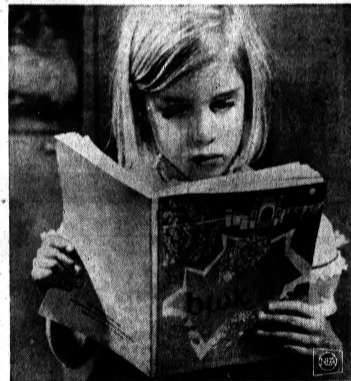

"My hope of many years is

approaching realization, namely, that all normal children may be effective readers at six years of age, and that nonreaders will be a rarity in our schools.

It was not so many years ago that as many as one-third of the pupils did not progress through the first grade in one year."

(A free copy of the I/T/A story may be obtained by writing I/T/A, 30 East 40th St., New York City, N.Y. 10017.)

NEXT: Learning to read with ITA.

'Crime Clinic' Here Warns of Bankruptcy Schemes

Top law enforcement officials turned their attention to crime ranging from illegal business

Warns Against JP Fee Suit

'May Mean Chaos in Rural Enforcement'

A lawsuit disputing the fee system for justices of the peace, which has been filed in Oakland County Circuit Court, could reduce rural law enforcement to chaos, County Justice Courts Coordinator Gerald Terrien warned today.

Under the present system, justices of the peace are compensated for their services from the county's general fund, and court costs collected from violators go into the general fund, according to Terrien.

The suit filed by a Detroit attorney on behalf of a Lansing woman brought before the Michigan Township Justice of the Peace James Van Leuven claims this fee system is in violation of the new Michigan Constitution.

The suit further claims that Van Leuven therefore is without authority to try the traffic case in question.

A Circuit Court ruling in favor of the plaintiff on these grounds would upset lower court procedures in townships by setting a new precedent, Terrien noted.

CANT AFFORD IT

"If the JPs can't collect fees, they won't be able to afford to administer justice at the local level," he said.

"The fee system is eliminated under the new constitution, but an attorney general's opinion last December said the system could continue for five more years.

The constitution abolishes the justice courts by 1969 and instructs the legislature to draw up a new court system and means of compensation.

Terrien said the lawsuit could be an effort "to kindle a fire under the legislature."

UNCERTAIN EFFECTS

If the suit is upheld, even the county's corporation counsel is uncertain at this time how local laws can be enforced.

"I suppose criminal cases originating in a township could be brought before the nearest municipal court judge," Corporation Counsel Robert Allen said.

He admitted that their dockets might become unwieldy before the legislature establishes a new system for justice of the peace courts in the townships.

Rocky, Lodge Win OU Vote

There is no need for a "Stop Goldwater" effort at Oakland University for the senator finished out of the money in a primary yesterday at the school.

Conducted by the Young Republican Club of OU, the primary attracted a total vote of 221. Goldwater garnered only 8 percent of the vote, tying Richard Nixon for fourth with 17 votes.

New York Gov. Nelson A. Rockefeller and Henry Cabot Lodge, ambassador to Vietnam, topped the OU primary. Each of the presidential aspirants drew 59 votes from the students and faculty.

William W. Scranton, governor of Pennsylvania, was third with 40 votes, while Sen. Margaret Chase Smith received nine votes, Harold Stassen four and Michigan Gov. George Romney eight votes.

manipulations to state civil rights law violations in a high-level conference here yesterday. Called by Atty. Gen. Frank J. Kelley, the meeting was part of a series of information exchanges, and the first of its kind held in Oakland County.

Kelley issued a special warning about a bankruptcy reorganization racket that has hit the appliance and discount business.

He explained it does not kill the general public, but unsuspecting merchants suppliers.

It comes about when a new business orders great quantities of goods, retails them, then goes into bankruptcy before paying the manufacturers.

TIP OFFERED

The only way to halt the racket, said Kelley, is for suppliers to carefully check references and credit ratings of their customers.

Oakland County Prosecutor Richard P. Condit said the racket so far has had no major effects here, and violates only federal bankruptcy laws. But he said it could involve other business practices.

Among other items discussed was the possible preempting by the new State Civil Rights Commission of actions normally taken by county prosecutors.

Condit said there is a question whether county law officials or the commission should handle rights complaints, such as violations of public accommodations provisions.

"Meanwhile, we'll handle such complaints here," said Condit, who explained the matter would be worked out once the Civil Rights Commission completes its organization.

The conference also discussed the need for uniform state law covering photographic literature to replace the "confusing patchwork" of local laws, and tightening the law against harassing a criminal trial witness.

Stronger statutes also were urged against illegal abortion, mainly over the present problem of obtaining evidence only when drugs or instruments are used against a pregnant woman.

Attending the half-day meeting were Kelley; Assistant U.S. Atty. Paul Komives; Macomb County Prosecutor George P. Harris; Genesee Prosecutor Robert Leonard; Oakland County Sheriff Capt. Leo Hazen and city Detroit Police Department officials.

GM Expands, Moves Fast

Dozers Work While Rezoning Is Pending

Pontiac's city commissioners and officials are glad to see Pontiac Motor Division expand, but they want to make sure they follow the rules.

Recently, General Motors asked the city to rezone manufacturing 2 all the land bounded by Kennel, Joslyn, Montcalm and Glenwood.

The corporation has recently purchased the land and is currently tearing down structures in that area. It is marked for parking near the new foundry.

A similar request from GM, asking the city to vacate streets and alleys in that area, came before commissioners last week and is slated for final action July 7.

Commissioner John A. Dugan (a Pontiac Motor employee for more than 35 years) began the record of comments.

ONLY FAIR

"That land already looks like a cyclone hit and it seems to me the only thing GM would ask for zoning and vacating before tearing it all up."

Dugan suggested Mayor William H. Taylor Jr. "at least ask them what's happening." Taylor, too, works for Pontiac Motor — as assistant national advertising manager.

Taylor agreed, "this certainly is not right" and asked City Manager John F. Reineck to write a letter to Mr. Estes (E. M. Estes, general manager of the division) stating we have certain procedures and asking GM to follow them."

Commissioner Robert C. Irwin disagreed.

"To suggest they ask for rezoning before tearing down homes on the land is rather silly," he said. "Anyone can park and clear it if they want to."

Dugan replied, "They didn't ask us to vacate streets until last week, but trees and sidewalks were already torn up anyway."

Waterford Twp. Youth Hurt in Cycle Mishap

A Waterford Township youth was injured shortly before midnight last night when his motorcycle went out of control on Andersonville Road near Clem in Independence Township.

In a hospital condition at Pontiac's St. Joseph Hospital, with a possible fractured shoulder, he is Patrick R. Wolfe Jr., 19, of 6691 Windward. He told sheriff's deputies he crashed after his motorcycle was struck by a stone thrown up by a car.

Attending the half-day meeting were Kelley; Assistant U.S. Atty. Paul Komives; Macomb County Prosecutor George P. Harris; Genesee Prosecutor Robert Leonard; Oakland County Sheriff Capt. Leo Hazen and city Detroit Police Department officials.

He admitted that their dockets might become unwieldy before the legislature establishes a new system for justice of the peace courts in the townships.

State Jobless Hits 7-Month Low in May

DETROIT (AP) — Michigan's unemployment in May dropped to 3.6 percent — lowest in eight years.

The Michigan Employment Security Commission said today.

Nonfarm employment in Michigan reached 2,733,101 in May 15, an increase of 22,300 over the April figure. The state's labor force climbed 16,400 to 2,954,100.

Unemployment for May 15 one year ago was 4.7 percent for Michigan and 4.3 percent for Detroit.

Thomas Romet, MESC director, said advance estimates show continuing high industrial activity and aggressive expansion in the nonmanufacturing field. A large part of the current increase was in construction, he said.

Kuru, the "laughing dead" is an ailment peculiar to the natives of the eastern highlands of central New Guinea. No outsiders ever catch it and no one who catches it lives very long. The disease is characterized by involuntary muscle spasms and cries.

Reds to Tap Earth's Heat

MOSCOW (AP) — Big plans are being made to heat Soviet cities by tapping the high temperature regions of the earth.

A scientific conference in Moscow recently discussed plans for a 1.5-mile-deep borehole that is expected to supply water at about 135 degrees Fahrenheit to heat homes in Siberia.

The scientists estimated that between 100 and 150 million barrels tons of coal could be saved annually by tapping underground heat.

PRESTWICK, Scotland (AP)—A U.S. Air Force fighter pilot who survived a crash and 13 hours on a tiny life raft died today after being pulled from the Atlantic 400 miles off the Irish coast by the crew of the Weather Ship Juliet.

The filer was Capt. James H. Davis, 32, of Washington, D. C.

Four U.S. Air Force medics who parachuted into the water to help the downed pilot were taken from the sea by the Juliet.

Capt. Roy L. Dehart of Oak Ridge, Tenn., an American Air Force doctor flown to the rescue vessel, attributed Davis's death to exposure.

He had been buffeted all night before his rescue by eight-foot waves at a temperature of 36 degrees.

Exposure Kills Rescued Pilot

He had been buffeted all night before his rescue by eight-foot waves at a temperature of 36 degrees.

Heroic Medics

The four heroic medics, who parachuted to the ocean off an air-sea rescue plane, were Tech. Sgt. Clarence Bales, 34, Shepheard, La.; Staff Sgt. Tom Genter, 26, Ferguson, Mo.; Airman Chalmers Harris, 26, Evansville, Ind.; and Airman Ernest Peterson, 21, Kingston, N.Y.

Davis ejected with a dinghy last night when his F100 jet fighter, one of a group flying from the United States to Europe, developed mechanical trouble.

Three U.S. Air Force air-sea rescue planes from Prestwick flew spotted Davis in his dinghy about 20 miles from the Juliet's patrol station.

The four medics parachuted with their dinghies to Davis and administered first aid while the Juliet set off to the rescue.

Radio Message

A radio message from the weather ship said she had picked up all five men.

A U.S. Air Force amphibious plane from Germany winged out to meet the Juliet. Weather permitting, the crew of the amphibious plane hoped to land on the water, load the five rescued men aboard and fly them back to Prestwick.

Wife Outbids Husband for Old Movie Set

VENTURA, Calif. (AP)—In 1937 Ray Corrigan paid \$11,354 for a 1,611-acre ranch that for years afterward was seen by millions of Western movie fans. He made it into Corriganville, a movie-set ranch.

When he tried to buy it again in September Court Tuesday—he had lost half of it to his ex-wife in a 1954 property settlement—he was outbid by her.

She got full possession. The price tag, \$2,507,000.

Corriganville soon will be the scene of a housing development instead of stage coach chases.

Broken Leg Suffered in Auto Crash

Waldo Leipprandt, 56, of 6733 Fortune, Waterford Township, in satisfactory condition at Pontiac General Hospital with a broken left leg suffered in an auto accident yesterday.

Leipprandt was injured in a collision with a car on the Elizabeth Lake Road and Linbury, Waterford Township.

The accident occurred on Elizabeth Lake Road, slowed to turn left on Linbury and was struck in the rear by a car driven by Russell Gottschall, 19, of 8435 Buffalo, Commerce Township.

The impact of the crash drove Leipprandt's car into one driven by Ronnie Scall, 19, of 983 Bacon, Waterford Township, according to police.

NOTICE OF SALE OF \$32,000.00 of "Sealed Bids" for the Public Agency, Michigan, June 3, 1964. The Public Agency, Michigan, will accept the highest bid for the purchase of the Public Agency, Michigan, on June 3, 1964. The Public Agency, Michigan, will accept the highest bid for the purchase of the Public Agency, Michigan, on June 3, 1964. The Public Agency, Michigan, will accept the highest bid for the purchase of the Public Agency, Michigan, on June 3, 1964.

After Conviction

George John Gessner, 28, former Army nuclear weapons maintenance technician, states from federal court in Kansas City, Kan., yesterday after he was convicted of giving nuclear secrets to Russia and was sentenced to life imprisonment.

Bus Code Shift Said Risky

LANSING (AP)—The State Safety Commission was told Tuesday that the recently enacted law bringing smaller vehicles under the Michigan bus code could create a dangerous highway hazard.

Homer Earle, in charge of school bus driver training at Western Michigan University, said this was particularly true of station wagons and other private vehicles used as school buses.

"They are required to observe the same laws as school buses, but they don't look like them," he objected. "The average driver doesn't recognize them as such."

The greatest danger of an accident, he said, comes when the vehicles stop to pick up and let off children.

Peril, Noted

"Vehicle approaching from behind and not expecting them to stop could mean their lives," he said. "Such an accident has happened to other state with two children killed."

The commission agreed to take the matter under advisement for possible revision of the law.

Thirteen of the 20 highway fatalities during the past Memorial Day weekend occurred in rural areas, State Police Commissioner Joseph Childs reported. He said the total was down one from the 21 fatalities previously reported as one was found to be an industrial accident.

Children warned that the weekend fatality toll will go up during the summer months. There were an average of 23 persons killed last year over the weekend from May through September.

NEW YORK (AP)—The three major radio-television networks and The Associated Press will pool the collection of election returns in the November presidential, senatorial and gubernatorial races.

The announcement Tuesday, issued after a meeting of officials of the organizations, said the service will use more than 100,000 reporters to cover returns at the precinct or county level.

The announcement said: "Network Election Service will be administered by a board of directors consisting of one representative from each network. They will be Arnold Snyder, manager of election coverage for ABC News; William Eames, editorial director of the CBS News election unit; and Frank Jordan, manager of election coverage for NBC News. The Associated Press will participate as a nonvoting member of Network Election Service."

BOARD PLANNED

"Network Election Service will be administered by a board of directors consisting of one representative from each network. They will be Arnold Snyder, manager of election coverage for ABC News; William Eames, editorial director of the CBS News election unit; and Frank Jordan, manager of election coverage for NBC News. The Associated Press will participate as a nonvoting member of Network Election Service."

"Returns will be reported simultaneously to each of the three individual networks, which will post such returns on a state-by-state basis in their respective studios on election night. In addition, statewide totals will be relayed to a single tabulating center in New York, which will maintain the running national tabulation on presidential returns. The tabulating center will

then transmit its national totals to each network, so that the same national figure will be available to each network simultaneously.

Under the agreement reached at meetings today, each network is free to continue in individual election analysis systems which in the main involve the analysis of returns from representative precincts. Each network will bear the responsibility of manning such precincts and communicating the results. These returns, however, will not be included in network election service returns posted by the networks."

Elmer Lower, president of American Broadcasting Co. News; Fred W. Friendly, president of National Broadcasting System News; William R. McAndrew, National Broadcasting Co. executive vice president in charge of NBC News; and Wes Gallagher, general manager of The Associated Press, commenting on the step taken, said jointly.

"The creation of Network

Election Service, is, we believe, a great step forward in the gathering and dissemination of news. The American voter and the public at large will be the beneficiaries of faster, and more accurate returns. At the same time, Network Election Service will do much to eliminate the confusion created by several different vote counts, based on reports from different precincts. We expect Network Election Service to become the authoritative source of returns in all future elections."

One Potato, Two Potato

At the station, Rigg appeared to be semiconscious, so deputies took him to the Montrose sheriff's station although nobody on the bus was hurt.

Called SUICIDE

Authorities said the cause of Rigg's death was undetermined pending toxicological tests, but he did take something, some unknown substance. It was apparent suicide on his part.

Coroner's deputies believed Mrs. Rigg drowned. Authorities said Rigg told them his wife had been drinking and he had carried her into the bathroom and set her in the tub for a bath.

He then returned an hour or so later and found her dead.

Sheriff's homicide detectives said Mrs. Rigg had "a slight, superficial bruise on forehead, but the coroner found no trauma and there was no sign of a struggle in the bathroom."

Detectives said they made a thorough investigation at the Rigg home and found no clues to the cause of the couple's death. The couple "appeared very happy," detectives said.

TUNE IN THE BIBLE ANSWERS BY FRANK & ERNEST</

Eisenhower, Scranton Vacillate

Stop-Barry Forces Have No Effective Leaders

By LYLE C. WILSON
United Press International
The moderate Republican forces engaged now in trying to bar Sen. Barry Goldwater from

next month's presidential nomination have put their faith in leaders who speak double-talk and who will not lead.

For every step Gen. Dwight D. Eisenhower has taken toward the stop-Goldwater leadership, he has taken at least a full stride to the rear. A strange maneuver for a professional soldier.

Gov. William W. Scranton of Pennsylvania seems not to be able to make up his mind. Dispatches are referring to him as the Harrisburg Hamlet.

Gov. Nelson A. Rockefeller of New York is beginning to look good in terms of frankness in comparison with the nonleaders and double-talkers. He knows he is licked but still considers himself to be best fitted for the presidency.

Moreover, he rates Goldwater as unfitted and he says that, too.

ROMNEY FRANK
Rockefeller is matched for frankness by Gov. George Romney of Michigan who says Goldwater won't do and promises to oppose his nomination by all means.

But Romney is not a Republican leader. He is, in fact, scarcely a Republican and the party regulars distrust him if they do not actually dislike him.

Romney's frankness will not surprise anyone who knows him well. The Michiganian is a forthright man. He scorns double-talk and he never runs away from honorable controversy.

Romney is a man of decision. If this paragraph reads like a prescription for what the moderate Republicans urgently need in the way of a leader, then, so be it. They have no such leader now.

Richard M. Nixon matches Romney for mind speaking. Nixon has said in language and under circumstances warranting belief that he will not join a stop-Goldwater movement, be-

lieving that such a maneuver would wreck the Republican party.

Nixon says also that he absolutely will support Goldwater if the senator is nominated.

The Republican party, thus, knows where Nixon, Rockefeller and Romney stand. The party does not know where Eisenhower and Scranton stand. Or if they do know, they are not saying.

Goldwater says he might be stopped if Ike, Nixon and Scranton teamed up against him. And if they did that, Goldwater says he probably would withdraw because the maneuver would destroy the party.

So, there you have it. Goldwater has stated the strategy that would kill his candidacy for the presidential nomination.

There seems to be no chance that Nixon would join in any such. But Goldwater's prescription is a direct challenge to Ike and Scranton to come out and fight.

Small chance. Eisenhower's dislike of politics and his dismay when confronted by political controversy are well established. He is a professional soldier but has no stomach for what House Republican

Leader Charley Halleck calls political gut-fighting.

Political pacifism is like any other pacifism—admirable perhaps, but ineffective.

Ike's political pacifism has created a Republican leadership vacuum. A vacuum is against the laws of physics and of politics. Somebody will take over and that somebody probably will be Goldwater.

Partial Accord With Gas Firm

Report No Progress for Detroit-Ann Arbor

DETROIT (AP)—Michigan Consolidated Gas Co. reached agreement on a new contract covering some 250 employees in its Grand Rapids District Tuesday, but reported no progress in negotiations aimed at settling the four-day strike of some 2,000 Building Service Employees in the Detroit-Ann Arbor areas.

A company spokesman announced acceptance of its offer by Local 132 of the International Chemical Workers, AFL-CIO, representing Michigan Consolidated employees in the Grand Rapids area.

The spokesman said the offer was the same one which was rejected Saturday night by the striking Detroit-Ann Arbor area servicemen, meter readers and maintenance personnel.

Terms of the contract include a provision for a 23-cents-an-hour increase over two years, the spokesman said.

FIRST NEGOTIATIONS
Negotiations in the Detroit-Ann Arbor area strike, the first in the company's 113-year history, got under way here Tuesday. Paul R. Ricketts of the Federal Mediation and Conciliation Service said he saw little chance of a quick settlement.

"We are going to make some progress in the next few days," he said, "but we haven't even begun talking about the economic issues yet."

Negotiations are to resume here Friday at 10 a.m.

Meanwhile, the company announced that the strike will not alter service to its 724,000 gas customers even if it were to continue for three or four weeks.

"A gas strike has been going on in Chicago for more than three weeks now," a company spokesman said, "and it hasn't affected service there."

About 2,000 workers—half of the company's Detroit-Ann Arbor area work force—went on strike at midnight Saturday following rejection of a proposed new contract.

NEW TEMPO HAS FAR MORE CHARCOAL

THAN IN PREVIOUS FILTER DESIGNS
for a taste that's too good to miss!

FAR MORE ACTIVATED CHARCOAL

THE FIRST BONDED CHARCOAL FILTER*

New, exclusive process* bonds activated charcoal granules together into a firm filter cylinder. Result—a more uniform density that allows Tempo to utilize more activated charcoal for smoother taste.

A SECOND FILTER UNIT IS ADDED

Tempo's second filter is white ESTRON®, a fiber used as the only filter in many leading brands.

A STATEMENT FROM THE MAKERS OF TEMPO

No health claim is made for Tempo...only the promise of an easy draw and smoother taste than you have ever before experienced.

RIGHT IN TASTE WITH THE TIMES

A product of R. J. REYNOLDS TOBACCO COMPANY, America's largest manufacturer of filter cigarettes.

DELAYED DECISION — Michigan's Gov. George Romney appears in deep thought after returning to his chair yesterday for a session of the governors' conference in Cleveland. Romney had been urged by former Vice President Richard Nixon to seek the GOP presidential nomination, and Romney considered the advice. Later, an aide announced the governor would not seek the nomination.

Nixon Keeps Door Open on Romney's Candidacy

BALTIMORE (P) — Richard M. Nixon left Maryland Republicans under the impression today that Gov. George Romney of Michigan might still become a candidate for presidential nomination despite disavowals by Romney at the National Governors' Conference in Cleveland.

"The door is open," the former vice president and 1960 presidential candidate insisted as he left a Republican fund raising dinner here late last night.

Nixon planned to fly today from New York to London on a business trip and return by the weekend.

He said an alternate candidate to Sen. Barry Goldwater, R-Ariz., will emerge clearly this week or the nomination will be Goldwater's on the first ballot at the national convention in San Francisco July 13-16.

The boomlet for Romney developed after Nixon visited the National Governors' Conference yesterday. He urged the Michigan governor to make the race.

Romney said he would consider it but later told newsmen he would not be a candidate. An aide said Romney would be acceptable to a draft.

STILL POTENTIAL

Nixon, who talked by telephone with Romney after the announcement reported from Cleveland, told a news conference he regarded the Michigan governor as still a potential candidate although he is under pressures from his home state not to formally announce.

He said if it weren't for commitments in Michigan—a Romney pledge not to seek national office this year—"he (Continued on Page 2, Col. 5)

Essex Workers Set to Return; Troops Leave

Contract Is Ratified by Union at Hillsdale; Violent Strike Over

HILLSDALE (P) — National Guard troops packed up their gear today as striking workers prepared to return to the Essex Wire Corp., scene of a violent 102-day strike.

Hillsdale, a city of some 7,600 in southern Michigan, began reverting to normal late yesterday when members of Local 810 of the International Union of Electrical Workers, AFL-CIO, (IUE) ratified a new four-year contract by an 83-34 vote.

Gov. George W. Romney's office at Lansing said the 200 Guardsmen who remained here since the weekend would be pulled out of Hillsdale today.

Halo Bragalone, manager of the Essex plant, said about 100 men would be recalled immediately. He said others would be called back as production picks up.

George Gould, international representative of the IUE, said 15 men accused by the company of sparking picket line violence have been dropped to the bottom of the back-to-work list.

OTHER JOBS

He said about 25 or 30 of the original 180 strikers reportedly have found other jobs.

Gould, who said the strikers "got the most they could have got," reported that IUE members would receive a wage increase of 36% cents an hour spread over the four-year period.

The first year of the contract calls for a 10 cent boost, he said.

Gould said the pay hike was 3% cents higher than the one agreed upon last weekend when negotiators reached a tentative settlement in the dispute.

NOT APPROVED

Members of Local 810 did not approve the agreement Sunday.

Instead they turned it back to the bargaining committee for clarification.

Gov. Romney, who had called out the National Guard two weeks ago, took a personal hand in the weekend talks at Lansing.

Gould said the governor had played "a significant role in the final settling of the strike." NO COMMENT — Romney had no immediate comment on the ratification vote.

The first dose of vaccine was administered in April. Now, eight weeks later, an identical dose will be given.

Plans for the second feeding are essentially the same as those for the April feeding, said Dr. Henderson.

Some 93 polio immunization stations have been set up throughout Oakland County. A communication network will again connect each station with two central supply points, one in the south end and one in the north of the county.

Amateur radio operators will again furnish the communications for the feeding operation.

Hours for the Oakland County feeding will again be 11 a.m. to 6 p.m. A donation of 50 cents will be asked, but no one will be turned away for lack of funds.

Fair, Cooler Day Forecast for Area

A high of 92 yesterday afternoon tied the record for the day set in 1914, the highest June 9 since records began in 1872. It was also a new high for the season in the Pontiac area.

Tomorrow will be fair and cooler, the high 70 to 76. The low is expected to fall to near 50 tonight.

The low recording in downtown Pontiac prior to 4 a.m. was 64. At 1 p.m. the reading was 62.

Historic Cloture Vote

Halt Rights Filibuster

Winds Rip State; Twisters Sighted

By THE ASSOCIATED PRESS

Severe electrical storms, accompanied by winds up to 80 miles an hour, lashed wide areas of Lower Michigan last night, causing property damage and communitywide power blackouts.

State police said a tornado touched down near Saginaw, hurling timbers from a barn 100 yards into three houses along Williamson Road.

A sheriff reported seeing two tornadoes at Kalkaska, but said they apparently did not touch down.

Flying timbers damaged roofs of the Roger Charette and Arthur Cottam residences near Saginaw and crashed into the basement of the Mary Herrod home, but no one was injured.

State Troopers Calvin Glassford and Melvin Higlow said the damage was the result of a tornado.

No serious injuries were reported in any areas, but close calls were common as trees and power lines came down.

HEAVY LOSS

The U. S. Weather Bureau attributed the storms to a collision of "very warm and very cool air masses."

Areal police reported only a few instances of wind damage yesterday, a fallen tree across Baldwin in Orion Township in the afternoon and an electric wire down on Henry Clay Street last night.

Most of the heavy damage was reported along a line from Grand Rapids to Kalkaska and Alpena. The U. S. Weather Bureau attributed the storms to a collision of "very warm and very cool air masses."

The town of Kalkaska, in northern Grand Rapids appeared to have been hardest hit.

Sheriff Earl Woodman of Kalkaska County told newsmen he sighted two funnel clouds at Kalkaska, a town of 1,300 about 20 miles east of Traverse City.

Woodman said power was still out in most of Kalkaska early today. The Kalkaska Health Center was without power and operated with candles, he said.

Authorities reported electrical power blackouts in Grand Rapids, Kalkaska, Houghton Lake and Ionia.

HAIL REPORTED

A hail storm struck Alpena. A rain squall hit Lansing but no serious damage was reported by police. A house trailer was flipped over at Ionia.

Valentina, whose married name according to Russian custom is Nikolayevna-Tereshkova, is 27. Nikolayev is 35.

LONG-AWAITED MOMENT — Wayne Patrick Ehlers (right), one of 312 Waterford Kettering High School graduates, receives a diploma and a congratulatory handshake from School Board President Robert E. Field. Sandra George, a junior at the school, assisted Field with the diplomas.

SEEKS STATE CROWN — Judi Soule, Miss Rochester of 1964, has been entered in the Miss Michigan Pageant by the Rochester Area Chamber of Commerce. Daughter of Mr. and Mrs. Cameron Soule, 259 Red Oak, Avon Township, she is a 1963 graduate of Rochester High School. The state pageant is set for July 26-31 in Muskegon.

Cosmonette Gives Birth to Daughter

MOSCOW (P) — The world's only space woman, Valentina Nikolayevna Tereshkova, gave birth to a daughter Monday, an official announcement said today. Mother and daughter are well.

The child of the blonde, who orbited the earth 48 times last June, and her spaceman husband, Andriyan Nikolayev, weighed three kilos 100 grams (6 pounds, 13% ounces), said usually reliable sources.

The sources said the baby was delivered by caesarian section at 2:10 a.m. Monday. There was no official confirmation.

The first announcement by the official Soviet News Agency Tass said the baby was born Sunday. Moscow radio later corrected this to Monday.

Before her marriage, Valentina orbited the earth with Valery Bykovsky, who was riding a twin space ship; in June of 1963, Nikolayev also in a flight of twin space ships, orbited the earth in August of 1962 with Lt. Col. Pavel Popovich.

Valentina, whose married name according to Russian custom is Nikolayevna-Tereshkova, is 27. Nikolayev is 35.

Senate Move Likely Assures Bill's Passage

Galleries Packed as Solons Set Debate at 1 Hour Per Speaker

WASHINGTON (P)

The Senate voted today, in a history-shattering move, to choke off the 75-day old Southern filibuster against the civil rights bill.

Each senator's time to debate the bill and all amendments will now be limited to one hour.

This appears to assure Senate passage of the far-reaching bill, possibly before the end of next week.

The House passed the bill on Feb. 10 by a vote of 290-130. The Senate has been battling over it since March 9, with Southern opponents mounting a record-breaking filibuster against it. The vote was 71 to 29.

GALLERIES PACKED

The Senate's public galleries were packed as the crucial vote on cloture was taken.

Tight security was maintained around the Capitol as additional persons pressed for a chance to get in.

The vote followed an all-night session of the Senate at which Sen. Robert C. Byrd, D-W.Va., made a marathon speech attacking the civil rights bill and urging his colleagues not to shut off the debate.

Byrd began his speech at 7:38 p.m. and continued until 9:52 a.m. The Senate took an eight-minute recess, then went back into session. It had agreed yesterday to meet at 10 a.m. today.

Since the adoption of the cloture rule in 1917, all previous attempts to use it to cut off a filibuster against a civil rights bill had failed.

Leaders of both parties became convinced in the face of the all-out opposition of the Dixie forces to the present bill that debate-limitation had to be obtained if the bill was to pass.

2,000 Flee Flood Waters in Montana

GREAT FALLS, Mont. (AP) — Flood waters chased at least 2,000 persons from their homes here last night after leaving 30 or more dead and hundreds homeless upstream.

Gov. Tim Babcock estimated damage from the flood; Mont.

See Stories, Page A-10

tana's worst, at \$10 million. President Johnson declared a northwest counties a disaster area.

In the northwest, his first by the three-day flood, waters receded and rescue teams started mopping up.

The Sun River crested 11 feet over its flood stage of 12 feet at midnight in this city of 70,000. A spokesman for the Air Force and National Guard's rescue operations estimated 2,000 to 3,000 persons were evacuated from homes here and in the flooded areas to the west and north.

Tom Sullivan, manager of a Red Cross shelter, said he made records of about 1,200 persons evacuated from homes west of Great Falls and from an exclusive residential area surrounding a country club and golf course.

(Continued on Page 2, Col. 4)

Altered Budget OK'd by City

Calls for Tax Boost; Billings Next Month

The City Commission last night unanimously adopted a \$7,556,111 total city budget for 1964 and ordered City Assessor Edward C. Bloe to begin preparing tax bills for mailing next month.

Pontiac's revised budget requires a tax levy of \$5,022,648, about \$45,400 over the 1963 levy.

Bloe said that an equalized city tax rate of \$17.16 per \$1,000 of assessed property value would be needed to meet the required levy.

This is a \$1.06 hike over the \$16.10 per \$1,000 tax rate last year.

It will take two or three weeks to get the tax bills ready, he estimated.

This year's revised budget is \$607,877 above the 1964 budget tentatively adopted in January and \$787,225 over last year's total budget.

HIKE TRACED

Most of the hike over budget figures proposed in January is due to separate financing of sewage treatment plant bonds, the fact that a layoff of city employees never took place and a shorter work week for firemen.

These three items total \$463,000 of the \$607,877 increase.

The January budget figure was originally based on the fact that 63 city employees would be laid off.

Former City Manager Robert A. Carter, however, chose to balance the January budget by cutting back on services and not filling vacancies as they occurred, rather than by laying off employees.

"The problem here," according to Finance Director Marvin M. Alward, "is that those vacancies never occurred, so we must put about \$155,000 back into the budget to make up for it."

SEWAGE BONDS

Sewage plant bonds have been paid annually from the capital improvement fund, which ranges between \$500,000 and \$600,000.

The annual bond payments

U.S. Warning in Cyprus Strife

GENEVA (AP)—U.S. Undersecretary of State George W. Ball set out today on an emergency mission to warn Greece and Turkey of the Johnson administration's concern about the Cyprus crisis.

Informed sources said Ball carried word that the United States is ready to take sharp measures if their nature unspecified to prevent the conflict from degenerating into a Greek-Turkish war or otherwise disrupting the eastern flank of the North Atlantic Treaty Organization.

Before boarding a plane here, Ball told newsmen "it is utterly impossible for war to break out between the two North Atlantic treaty partners because of the serious consequences this would have for the whole free world."

DIRECT ORDERS

Ball changed his plans on direct orders from President Johnson.

He is meeting Greek Premier George Papandreu in Athens tonight and will leave for Ankara later in the night for talks with Turkish leaders. He is due back in Washington late Thursday.

He said his trip was not intended as a mediation effort because "this problem can only be solved by the parties directly involved."

"Any solution will require a great deal of realism and generosity on all sides," he added.

Earlier today, he scrapped a planned major speech to the delegates of 122 nations the measure of agreement was insufficient to warrant a review of their commitments.

President Makarios of Cyprus, leader of the Greek Cypriots, called Tuesday night for an urgent meeting of the U.N. Security Council meeting to "denounce threats of the Turkish government to invade our island."

In a note to heads of state and government he charged that Turkey "has now amassed a great number of naval and air forces ready for immediate invasion of Cyprus."

He accused the Turks of repeatedly violating air space over Cyprus and dropping arms to Greek Cypriots.

IVORY COAST

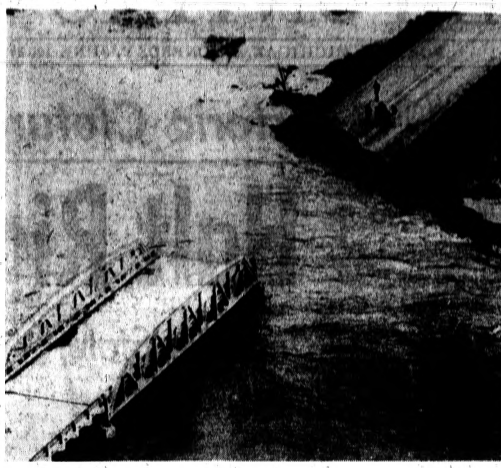

Foreign Minister Spyros Kyprianou, dispatched by Makarios to arrange for the council meeting, told newsmen he planned to see Council President Arsenio Assouan of the Ivory Coast today.

Kyprianou, whose plane landed in Boston because of weather conditions over New York, said Cyprus was relatively calm, but "in view of statements and information we have, we anticipate trouble from Turkey."

Makarios called for council action after repeated invasion alarms had been sounded in both Nicosia and Athens.

There was no indication in Turkey that an invasion force was poised to attack the island where Turkish and Greek Cypriot factions have been engaged in a bitter struggle. The Ankara government has warned, however, that it would invade if it considered it necessary to protect the rights of Turkish Cypriot minority.

The Security Council is scheduled to meet June 17 to debate continuance of the U.N. peace-keeping force on Cyprus. The Cyprus government apparently believed the situation was too crucial to wait until then.

POWERFUL PUNCH — Survivors waited for rescue yesterday at the edge of Highway 89, three miles south of Choteau, Mont., where floodwaters of the Teton River ripped

out this concrete bridge. The action involved several families who later were rescued by helicopters.

2,000 Flee State, Dems, GOP

Flooding in Montana

(Continued From Page One)

The shelter is in West Side Junior High School, where more than 200 residents slept last night.

BRIDGE HOLDS

The 14th Street bridge in Great Falls held fast despite a heavy pounding by water, trees, parts of farm buildings and other debris.

A natural gas pipeline under the 6th Street bridge burst with a shudder that was felt by onlookers.

Air Force teams said they rescued at least 200 persons from rural areas. The Air Force was using Malmstrom Air Force Base at Great Falls for a headquarters for 11 helicopters and other craft.

Pilots made 38 flights yesterday and were prepared to take additional supplies to flood victims evacuated to other areas.

RELIEF AREAS

At least 400 were homeless in the northwest counties of Cascade, Chouteau, Flathead, Glacier, Sanders, Teton and Toole, those designated for federal disaster relief. Hardest hit was the Blackfoot Indian Reservation.

Highway 2 was opened to East Glacier, the eastern gateway to Glacier National Park, and U.S. 89 was opened for the first time since Monday, allowing rescue operations to reach Bab, near the Canadian border.

A road was opened south of Browning to the Two Medicine Creek, but washed-out bridges and roads still had the Birch Creek area isolated. It was the Swift Reservoir dam on Birch Creek that broke Monday, sending a 30-foot wall of water downstream.

This water surged into the Marias River. Other flooding creeks pushed the Teton River over its banks. Both rivers flow into the Missouri River near Loma, population 200, which was evacuated last night.

A 15-foot crest was expected to hit Loma at midmorning.

Politicos Blast Romney

LANSING (AP)—Democrats and Republicans took swipes at Gov. George W. Romney Tuesday, calling him "politically ambitious" and "chargin' him with 'extreme personal partisanship.'"

Meanwhile, Romney said at

"It will come as no surprise to us if Gov. Romney declares himself a candidate for the nomination," said State Democratic Chairman Zolton Fereny.

"It would be a typical performance on the part of a politically ambitious man."

During an intraparty power fight last weekend, Sen. Barry Goldwater, R-Ariz., emerged as the primary contender for the nomination. Romney took the lead in a suddenly aborted move to halt Goldwater's bid.

URGENT VOTES

Goldwater's victory Tuesday prompted the Conservative Federation of Michigan to urge unpledged Michigan delegates to the Republican National Convention to vote for him.

The federation charged Romney with "extreme personal partisanship" and warned of reprisals at the state election next fall. Romney is running for re-election.

The federation said he has "broken the pledge" for an unpledged delegation at San Francisco.

"We believe all Goldwater supporters in the Michigan delegation now are at liberty to vote for Goldwater on the first ballot. We urge that they do so," the group said.

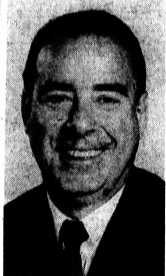

"RUDE AWAKENING"

Fereny said Goldwater was in for a "rude awakening" from Romney.

"He is learning what we have learned over the past 18 months, that you just can't trust George Romney," Fereny said.

"Romney went out of his way to assure the Senator that he would not be part of an anti-Goldwater movement. That promise was not even a week old when he came out against Goldwater at the conference," Fereny declared.

The party is looking for a new face, Nixon said.

DENTON F. HASSELL

Sales Executive to Run in 47th

Bloomfield Twp. Man for GOP Nomination

Sales executive Denton F. Hassell said today he will be a candidate for the Republican nomination as state representative from the newly formed 47th House District.

Hassell, 48, of 3219 Pebble Lane, Bloomfield Township, has long been active in party work and has been a campaign aide to Congressman William S. Bloomfield.

The 47th District comprises the cities of Birmingham, Bloomfield Hills, Bloomfield and Southfield townships, including the villages of Franklin, Beverly Hills and Birmingham Farms.

Hassell is sales manager for Wal-Mart-Clears Division of Wal-Mart Corp., a cemented carbide products manufacturer. He previously was distributor sales manager for Carmet Division of Allegheny Ludlum Steel Corp.

He is also past president of Ferndale Kiwanis and a Kiwanis division lieutenant governor; has been a Camp-Oakland director since 1952; and headed industrial United Fund industry collections in Oak Park.

OTHER POSTS

Hassell is a member of the National Account Marketing Association, and is educational aids committee vice chairman for the American Supply Machinery Manufacturers Association.

Listed his legislative plans, Hassell said he was concerned with traffic safety, diminishing water supplies, establishment of "halfway houses" and mental health care of emotionally disturbed children.

Rusk, Dobrynin Confer, but Subjects Secret

WASHINGTON (AP)—Soviet Ambassador Anatoly F. Dobrynin called on Secretary of State Dean Rusk today, but neither he nor the State Department said what the meeting was about.

The Russian envoy, after 15 minutes with Rusk, would tell newsmen only that several subjects were discussed. The meeting was at Dobrynin's request, the department said.

Birmingham Area News

765 to Be Graduated From Seaholm, Groves

BIRMINGHAM — A total of 765 graduates will receive diplomas in commencement exercises at Birmingham's two high schools tomorrow.

The larger class, numbering 52, will be graduated from Seaholm High School at 10 a.m.

Dana Rose, assistant vice president of Michigan Bell Telephone Co., will deliver an address entitled "The Day After Tomorrow." He will be introduced by Mrs. Mary Beler, a school board member.

Robert Swanson, son of Mr. and Mrs. Robert Swanson of 915 Norwich, Troy, is valedictorian and Judith Steere, daughter of Mr. and Mrs. Robert Steere of 4247 Far Hill, Bloomfield Township, salutatorian.

Dr. Kenneth Gass, rector of St. James Episcopal Church, will deliver the invocation. Greetings and the class gift will

be presented by Charles Bethel, senior class president.

GROVES HIGH SCHOOL

Ceremony for the 234 Groves High School graduates will be at 6 p.m.

Commencement speaker is Lee Iacocca, vice president and general manager of the Ford Division, Ford Motor Co. His topic is "The Growing Responsibilities of Youth."

E. Ross Hanson, president of the school board, will introduce the speaker.

The invocation and benediction will be given by Rabbi Mordecai Halpern, Congregation Beth Shalom, and Rev. Thomas F. Shields of St. Regis Church, TOP SCHOLARS

Top scholars in the class are Mary A. Murphy, valedictorian, and Edward E. Codner, salutatorian, both of Beverly Hills.

Mary is the daughter of Mr. and Mrs. George W. Murphy. Mr. and Mrs. Edward E. Codner are the parents of Ellen.

Dr. John B. Smith, superintendent of schools, will present the diplomas in the gymnasium of each school.

Altered Budget OK'd by City

(Continued From Page One)

are in excess of \$200,000. Thus, they put a squeeze on actual funds available for capital improvements, Alward explained.

This year's bond payment — \$240,000 — is being paid through a separate levy of 84 cents per \$1,000 of assessed value.

The capital improvement fund is being maintained at its normal level — about \$546,000.

"The method of bond payment accounts for most of the estimated tax rate increase (\$1.06 over the \$1.06 rate last year) and a large portion of the budget increase," Alward said.

Because construction of the sewage treatment plant resulted from a court order, the city can pay off bonds through a separate levy without getting approval of the general public at an election.

The hike in the Fire Department budget is \$38,000 over the figure proposed in January to cover six months (July through December this year) under the new 56-hour work week for fire fighters.

Voters approved the 56-hour week on the April 20 general election ballot.

PLAN LOSSES

Another ballot proposal, asking for a 1-mill tax hike to help finance city operating costs, was defeated April 20.

The rest of the hike from January's budget total lies in funds restored to departmental budgets which were severely cut to balance the original 1964 budget.

Administrators said that the final, revised total "is still an austerity budget."

The lone major comment last night came from Commissioner John A. Dugan.

"I was very disturbed by a Fire Department that would stand at the polls and tell voters the 56-hour work week wouldn't necessitate a tax increase," he said.

"I'd like to know how it can be done without costing money. It's about time we learned this is a two-way street."

"I don't say the firemen don't deserve every bit of it," Dugan concluded, "but if they're going to ask for something, they should step up and tell the people they'll have to pay for it."

The total budget increase was made possible largely when Pontiac's tax base went up about \$15-million in April.

When the January budget was adopted, the tax base stood at about \$200-million. It is now about \$225-million.

The \$7.5-million budget total consists of \$6,179,586 for operating costs; \$546,000 for capital improvements; \$422 for sanitation and waste disposal; \$240,000 for the sewer plant bonds and \$168,000 for Pontiac General Hospital expansion bonds.

The tax levy will be supplemented by an estimated \$2,333,463 in revenues from other sources such as license fees, fines, and revenue from rentals, sales and services.

REP. R. L. BAKER

Republican Set to Run Again

Represents New State House District 44

Republican Rep. Raymond L. Baker today announced his intention to run for a third term, representing the new State House District 44.

Baker served as representative from the old 4th District which covered Lyon, Novi and Farmington townships and the cities of Southfield, Berkley and Oak Park.

Under the new apportionment plan Lyon, Novi and Farmington are combined with Milford and Commerce townships to form the 44th District.

Baker is presently chairman of the House Metropolitan Affairs Committee, and during his second term served on the conservation, insurance, drainage and liquor control committees.

He has been appointed to the 1964 interim study committee working on liquor laws, Copper County Tuberculosis Sanatorium, vending stands, state waters and TB treatment.

A Berkley resident, Baker was graduated from Detroit Institute of Technology College of Pharmacy and formerly owned a drug store.

He is a member of several pharmaceutical and professional groups, Exchange Club, Elks, an Phi Delta Chi fraternity.

Buses Covey of Quail Minus a Shootin' Iron

ASHLAND, Ky. (AP)—Charles McGuire, an assistant football coach at Blazer High, bagged a quail dimer and never fired a gun.

McGuire was sitting in his office when a covey flew against a window, killing the birds.

Traffic Death Toll 806

EAST LANSING (AP)—Traffic accidents have killed 806 persons in Michigan so far this year, provisional figures compiled by state police showed today. The highway death toll at this date last year was 674.

The Weather

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Variable cloudiness, windy and colder today, high 65 to 72. Clearing and cool tonight, low 18 to 24. Thursday continued fair and cool, high 70 to 76. Winds west to northwest 15 to 25 miles today diminishing to 8 to 15 miles tonight and Thursday. Friday outlook: Mostly fair, warmer.

Congo Nearing Dark Days Even as U.N. Troops Leave

BACKGROUND OF THE NEWS SPECIAL REPORT

By ROBIN MANNOK

LEOPOLDVILLE, the Congo (AP)—Lights burn late at U.N. headquarters in Leopoldville. Senior officers of the world organization's Congo army wear harassed and even guilty looks. The Congo apparently is heading for dark and violent days, but they are getting out. By June 30, the Congo's fourth independence day, the last of 3,405 U.N. soldiers from 12 nations will have gone home, their job finished.

Finishes... In Kivu, on the Congo's eastern border, Communist-backed pygmy-like Bafulero warriors routed five companies of Congolese soldiers and threatened Bukavu, the provincial capital.

SHORT REVOLT
At Albertville, capital of North Katanga, a short-lived revolt against Provincial President Joseph Ssendwe took more than 100 lives. Wives of two U.N. civilians were raped.

Farther west, young warriors invaded the South Kasai town of Mweke-Ditu and murdered five citizens by forcing them to swallow pill-pili, a tiny, fiendishly hot red pepper used to season food.

To the north, Stanleyville, once the late Premier Patrice Lumumba's area and still a hotbed of extremism, seethes with discontent. The central government has named a resident minister to supervise Provincial President Paul Isemboma, deposed by his provincial assembly but reinstated by Leopoldville.

In the center, Peking-trained ex-Education Minister Pierre Mulele leads a rebellion in Kivu. His warriors also burn and kill in neighboring provinces.

'IN PRISON'
In Leopoldville, nightfall turns more than 1.2 million people in to prisoners inside their homes. A dusk-to-dawn curfew is the government's answer to plastic bomb attacks against churches.

3 Men From Local to Attend Confab

President Robert J. Parker will lead a three-man delegation from Pontiac Local 4012, Communications Workers of America, to the union's national convention June 17 in Cleveland.

Parker, who will serve on the convention credentials committee, said the gathering will feature an address by President Johnson.

Attending with Parker will be delegates Lawrence DeNio and Dan Butler. Local 4012 represents Michigan Bell Telephone workers in the Pontiac area.

Rip Van Winkle couldn't sleep with nagging backache

Now! You can get the fast relief you need from nagging backache, headache and muscular aches and pains that often cause restless nights and miserable tired-out feelings. When these discomforts coffee on with over-exertion or stress and strain— you want relief— want it fast! Another disturbance may be mild bladder irritation following wrong food and drink— often setting up a restless uncomfortable feeling. Doan's Pills work fast in 3 separate ways: 1, by speedy pain-relieving action to ease torment of nagging backache, headache, muscular aches and pains. 2, by soothing effect on bladder irritation. 3, by mild diuretic action tending to increase output of the 15 miles of kidney tubes. Enjoy a good night's sleep and the same happy relief millions have for over 60 years. For convenience, ask for the large size. Get Doan's Pills today!

Its rank and file soldiers do not try to conceal their impatience to be gone. Departure dates are ringed with red on wall calendars.

It can be argued that putting down the rebellion in Kivu and Kivu is no business of the United Nations.

"Lots of countries have internal security problems," says a U.N. political official who insists on remaining anonymous. "We have to leave one day—we can't stay here forever."

NOT FINISHED

To a large extent, the Congo's present woes are unfinished business. Four years of crisis-ridden independence have been too short to solve deep-rooted tribal, political and economic questions.

Add to this the bewilderment of the ordinary Congolese trying desperately to belong to the 20th century. All the wisdom of his

tribal forebears means nothing when he confronts the complexities of modern society.

Add to this a leadership crisis that was inevitable the day this vast, rich nation was handed by its Belgian colonial rulers to 14 million people of whom less than a score had university degrees and even fewer any real experience of accepting responsibility.

Almost all observers are agreed that Adoula and some of his close collaborators have been misunderstood by the bulk of Congolese. The leaders are unpopular. Piling on the agony is the inefficiency of corruption, laziness and tribal favoritism displayed by the administration Adoula commands. He rarely knows whether his subordinates will obey him. Ministers fight viciously among themselves.

golese know that their country cannot survive without help from white technicians. But they resent it.

MONKEY TAG

On the other side of the racial coin, many whites still lump all Congolese into the "macaca" (monkey) category.

Top this off with a lavish dash of cold war—Peking style. Most experts on communism here are convinced the Chinese are flexing their muscles in Africa, probing for weaknesses.

The sum of all these factors equals indifference by a lot of Congolese toward their country's ultimate fate.

Perhaps the greatest tragedy is that the Congo, thanks to energetic government measures and foreign aid, was on the brink of economic recovery when assailed by the Communist-supported revolts in Kivu and Kivu.

Britain Mourns Loss of Beaverbrook

LONDON (UPI)—An atmosphere of mourning hung today over Fleet Street—Britain's newspaper row—for Lord Beaverbrook, one of the most dynamic and controversial in British journalism.

The cabinet minister of two world wars, political kingmaker and Conservative press magnate died yesterday at his country estate in Surrey. He was 85.

The union Jack waved at half-staff today atop the Fleet Street headquarters of Beaverbrook's empire, its telephones no longer buzzing with "What's the news?"

The newspapers did not die

with Beaverbrook. His son, Max Aitken, said last night the mass circulation Daily Express, Sunday Express and Evening Standard, "will continue with the same policies. I will be at the head of them."

Beaverbrook served as minister of aircraft under Churchill in the dark days of World War II, coordinating the production of planes Britain needed to defeat Hitler's Luftwaffe.

Beaverbrook was British minister of information in World War I.

But publishing was Beaverbrook's first love. He bought the struggling Daily Express in 1918 and built it into Britain's second largest daily newspaper with a circulation of more than 4 million.

The Evening Standard and the Sunday Express were added later.

Sir Winston Churchill, the only other man to hold cabinet rank in Britain in both World War I and World War II, led the nation in paying tribute to the publisher.

"I am deeply grieved at the loss of my oldest and closest friend, who served his country and his comrades valiantly and was the most loyal and devoted of comrades," Churchill said.

CHEVELLE by Chevrolet

FRISKY AS IT CAN BE...FINE A BUY AS YOU CAN GET (even finer now!)

Trade 'N' Travel Time is running out at your Chevrolet dealer's. This is about your last chance to get in a whole summerful of fun with a beautiful buy like a Chevelle Malibu wagon.

Allow us to point out some of its less obvious pleasures.

It has curved side windows—not just for looks, but to give you more shoulder room. It has 86 cu. ft. of cargo space, so you can go on vacation with everything but the kitchen sink if you have to.

It has a Magic-Mirror acrylic lacquer finish for protection against the sun, road tar and chipping.

It has those self-cleaning rocker panels beneath the doors that

resist rust by flushing themselves free of salt and dirt.

Inside, the upholstery over its wide foam-cushioned seats is soft, durable color-keyed vinyl. All vinyl. The floor carpeting is deep-twist and long-wearing, door to door.

We don't want anything playing havoc with Chevelle's good looks if we can help it.

All in all, there are 11 different Chevelles being offered during Trade 'N' Travel Time. Spacious station wagons, coupes, Super Sports with bucket seats, convertibles, sedans. One's as beautiful a buy as the other. It's up to you. But hurry, whatever you do!

Dr. Wayne G. Brandstadt Says:

Have Doctor Make Patch Test for Irritant

Q — Every time I wore a dark blue suit I bought last year, my legs broke out with a severely itching rash.

I wrote to the manufacturer and he said that the material (wool and dacron) was handled daily by many employees and worn by thousands of customers without causing any reaction.

Do you think my trouble was due to the material or the dye? Is there any way I can be immunized against the cause?

A — You should have your doctor make a patch test with small samples of wool of different colors and samples of da-

cron as well. This should narrow the cause down to one of the materials or to a dye.

If the dye is at fault, ask the manufacturer to give you a complete list of its components. Then, if possible, you should have patch tests made with pieces of white cleansing tissue to which each ingredient has been added.

When you have discovered the specific cause it may be possible for your doctor to desensitize you — a tedious process at best — or you may be able to avoid further contact with the irritant.

Q — My nose is sore on the inside summer and winter, in damp weather and dry. It cracks and never stays healed longer than two or three days at a time. What can I do to heal it?

A — The nose, bruises and bleeds easily. Its mucosal lining is very thin and covers a dense network of blood vessels.

Removing hard crusts can easily cause cracking and slight bleeding. If hard crusts are a part of your trouble, you should keep the lining membranes softened with a thin coating of petroleum jelly.

If this does not help, have your doctor see whether you have a small ulcer that needs to be cauterized.

Q — I have a congenital heart defect called patent ductus arteriosus. I am 20 and I am able to swim, play tennis and dance

without causing heart symptoms. What are my chances of living a normal life span?

A — This type of congenital heart leakage is due to a failure of the communication between the pulmonary artery and the aorta to close.

The size of the leak varies greatly in different individuals and the smallest opening may cause the loudest murmur and the least interference with normal circulation.

The fact that you can lead an active life without cardiac symptoms is evidence that yours is a very slight defect. It should not affect your life span.

Long Time Before Jury Will Decide Hoffa's Fate

CHICAGO (AP) — Seven weeks after the start of his \$20 million mail fraud and conspiracy trial, James R. Hoffa still has a long way to go before a jury retires to decide his fate.

Since April 27 the chunky, energetic president of the Teamsters Union has sat impassively in U.S. District Court while government prosecutors produced documents and testimony they hope will result in his conviction.

The government charges Hoffa and seven codefendants concocted a complicated scheme to loot the Teamsters' pension fund and extricate Hoffa from a bankrupt Florida homes development in which he was financially involved.

Specifically, the eight are accused of fraudulently arranging more than \$20 million in real estate loans from the pension fund over a 4½ year period and diverting in excess of \$1 million to their own use.

The legal battle has been a bitter one with daily sharp exchanges between government lawyers and a battery of nine defense attorneys.

Judge Richard B. Austin, presiding in a sweltering courtroom in the old U.S. courthouse, has estimated the trial will continue at least another two months.

MANY DOCUMENTS

The government has introduced more than 4,000 documents relating to 14 huge loans the defendants allegedly obtained from the pension fund through fraud. Some 40 witnesses have given testimony.

Much of the testimony has dealt with kickbacks allegedly paid some of the defendants by persons or corporations that received the loans.

MARKETS

The following are top prices covering sales of locally grown produce by growers and sold by them in wholesale package lots. Quotations are furnished by the Detroit Bureau of Markets as of Tuesday.

Produce

Table with 2 columns: Item and Price. Includes Apples, Asparagus, Beans, Broccoli, Cabbage, Carrots, Cauliflower, Celery, Cucumbers, Eggplants, Green Beans, Lettuce, Onions, Peas, Potatoes, Pumpkins, Radishes, Spinach, Tomatoes, Turnips, Zucchini.

GREENS

Table with 2 columns: Item and Price. Includes Lettuce, Spinach, Kale, Collards, Broccoli, Cauliflower, Cabbage, Carrots, Celery, Cucumbers, Eggplants, Green Beans, Onions, Peas, Potatoes, Pumpkins, Radishes, Spinach, Tomatoes, Turnips, Zucchini.

Poultry and Eggs

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

Livestock

Table with 2 columns: Item and Price. Includes Cattle, Hogs, Pigs, Sheep, Goats, Deer, Rabbits, Guinea Pigs, Hamsters, Mice, Rats, Squirrels, Chipmunks, Skunks, Weasels, Otters, Possums, Raccoons, Badgers, Martens, Fish, Reptiles, Birds, Insects, Mollusks, Crustaceans, Amphibians, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

Stocks of Local Interest

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

OVER THE COUNTER STOCKS

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

MUTUAL FUNDS

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

STOCK AVERAGES

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

Tuesday's 1st Dividends Declared

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

DOWN-JONES NOON AVERAGES

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

10 Higher Grade Stocks

Table with 2 columns: Item and Price. Includes Detroit Poultry, Eggs, Butter, Cheese, Lard, Tallow, Suet, Fat, Oil, Vinegar, Pickles, Relishes, Condiments, Spices, Herbs, Mushrooms, Truffles, Fungi, Nuts, Seeds, Grains, Legumes, Beans, Lentils, Peas, Potatoes, Turnips, Zucchini, Squash, Pumpkins, Melons, Fruits, Vegetables, Herbs, Spices, Condiments, Pickles, Relishes, Vinegar, Oil, Fat, Suet, Tallow, Lard, Cheese, Butter, Eggs, Poultry, Detroit Poultry.

Fairly Active Trading

Stock Market Still Rallying

NEW YORK (AP)—The stock market continued to rally today in fairly active trading.

Gains of most key stocks were fractional.

Du Pont buttressed the averages with an advance of more than 2. A scattering of key stocks were unchanged or showed small losses.

Wider gains were made by some higher-priced or more volatile issues.

Continued recovery

Texaco Gulf Sulphur, in a continued recovery, rose 1/4 to 47 1/2.

An opening block of 10,000 shares and stretched its gain to more than a point later.

Xerox was in heavy demand, rising 3/4 to 117 on a block of 15,000 shares.

IBM rose 1/2 to 240 1/2. Polaroid and Control Data added a point each.

The trend was generally higher among steels, motors, rubbers, airlines, tobacco, rail, utilities, nonferrous metals and electronics.

Tuesday the Associated Press average of 60 stocks rose 1.5 to 301.9.

Prices were narrowly mixed on the American Stock Exchange. Gainers included Mead Johnson (ex dividend), Tri-

continental Warrants and Data-Control Systems.

American Stock Exch.

Figures after decimal points are eighth.

Table with 2 columns: Item and Price. Includes American Stock Exchange, Mead Johnson, Tricontinental Warrants, Data-Control Systems.

Kidney Patient Still Critical

Underwent Transplant Operation Monday

ANN ARBOR (AP)—Officials at the University of Michigan Medical Center said the 18-year-old boy who underwent a kidney transplant operation Monday remained in critical condition today.

A spokesman for the hospital said there was "no change" in the condition of Daniel Davidson.

An early-morning announcement Tuesday said Davidson "had a bad night."

Two four-man teams of surgeons took five hours to perform the operation, in which Davidson was given the kidney of an unidentified 5-year-old boy.

The boy, who gave up one of his two kidneys for Davidson's sake had to lose a kidney for an "unrelated condition."

KIDNEY FAILURES

Davidson, a former Battle Creek serviceman, had been the victim of a kidney failure, the hospital said.

The kidney transplant was Michigan's first between non-relatives. Twin 15-year-old girls participated in a kidney transplant March 30. Both girls are at home and going to school again.

Doctors said months might be required to determine if Davidson's operation was a complete success.

News in Brief

Break-ins were reported yesterday at the Northside softball field, Edison and Montclair, where thieves entered the press box and took cigarettes and candy, and at Oakland Park, where sports equipment valued at \$12 was stolen.

R. H. Lynn, 60, of 97 Seneca told Pontiac police yesterday that his garage was entered and 10 cigarette lighters worth \$70 stolen from a sample case.

David Able, 4460 Motorway, Waterford Township, yesterday reported the theft of a \$75 record player and a \$44 television set from his car.

Johnson Dedicates 1965 to Serve Mankind's Need

WORCESTER, Mass. (AP)—President Johnson said today that the world's most serious problems will persist beyond the cold war, and outlined a far-flung program for attacking them.

He said he intends to dedicate 1965 to the search for new techniques to make man's knowledge serve man's welfare.

To commemorate the United Nations' 20th birthday, 1965 has been designated as International Cooperation Year.

Taking note of that in a speech prepared for commencement exercises at Holy Cross College, Johnson said:

"Let this be the year of science, let it be the turning point in the struggle—not of man against man, but of man against nature. In the midst of tension, let us begin to chart a course toward the possibilities of conquest which bypass the politics of the cold war."

ALL RESOURCES

"For our part, we intend to call upon all the resources of this nation—public and private—to work with other nations to find new methods of improving the life of man."

Johnson spoke of poverty, of disease, and of diminishing natural resources in enumerating menaces to man's welfare.

He said there is no simple solution at all; but, today, "the constantly unfolding conquests of science give man the power over his world and nature which bring the prospects of success within the purview of hope."

Among other scientific advances that he mentioned was a breakthrough, in the past several months, in the use of large-scale atomic reactors for commercial power.

He said the development of the large-scale reactor offers the dramatic prospect of transforming sea water into water suitable for human consumption and industrial use.

Security Tight After News of Escapee

WORCESTER, Mass. (AP)—The escape of a Worcester state hospital patient described as "having political dislikes" was made known today a few hours before President Lyndon B. Johnson was due to arrive in Worcester to deliver the commencement address at Holy Cross College.

Police said the man had been missing since 8:30 p.m. yesterday. He was identified as Harold Hardy, 34, formerly of Jackson Heights.

N.Y. Hospital authorities said he had been a voluntary patient off and on since 1961.

Police issued a bulletin every 20 minutes saying Hardy is considered dangerous and could resort to violence. It was stressed also that he had political dislikes, the nature of which was not disclosed.

Extraordinary security precautions had been set up even before the escape.

Business Notes

Jack W. Hoffman, former area weekly newspaper editor, has been named public relations representative for GMC Truck & Coach Division.

He will assist John A. Hoffman, public relations director.

Before joining the division, Hoffman served six years with the Sliger Corp.

HOFFMAN families serving the Northville, Novi, South Lyon and Whitmore Lake area. He was managing editor of all four publications for the last two years.

A native of Flint, Hoffman is married and has five children. He and his family live at 134 University, South Lyon.

Mr. and Mrs. Louis Davidson of Lor-Mor Jewellers will leave tomorrow for a three-week tour of Europe, including visits to watch factories in Geneva, Switzerland, and diamond cutting factories in Antwerp, Belgium.

Kresge Sales Jump

DETROIT (AP)—S. S. Kresge Co. Tuesday reported its May sales totaled \$46,618,910, up 26 per cent from the same month a year ago.

Kresge said sales so far this year have been running 23.5 ahead of year-ago figures.
