

Rights Movement Slowed, but Not Halted—Wilkins

By PAT McCARTY
The civil rights movement has been checked, but not halted, in 1966, Roy Wilkins told an Oakland University audience yesterday.

The executive director of the National Association for the Advancement of Colored People (NAACP) addressed nearly 1,000 persons, mostly students, in OU's Sports and Recreation Building.

Wilkins listed setbacks Negroes have faced in education, housing, employment, police

relations and legislation, and said the worst was the failure of the Congress to enact a 1966 civil rights bill.

The effect of "white backlash" in the elections of members to the 90th Congress cannot be ignored, he said, but this will not deter Negroes in their striving for equal opportunity.

"The mere existence of rejuvenated opposition to the civil rights movement is testimony to its forward movement," Wilkins said at a press conference fol-

lowing his speech. "If there were no forward movement, there would be no frantic effort to stop it."

MORE SUBTLE

It remains to be seen, he said, whether Negroes and their friends will be able to combat the more subtle forms of opposition to the civil rights movement today.

Wilkins said it is presumed the U.S. is entering a period when congressmen will use the Viet Nam war, inflation and other issues to confuse and "hamstring" the war on poverty and civil rights causes.

Demonstrations in behalf of civil rights are not as useful as they once were, he noted. They have served two purposes — to call attention to a long-ignored situation and to involve people on a wide scale.

Now, Wilkins suggested, young people could better channel their energy into such projects as voter registration drives, tutorial programs and slum dwelling surveys. The NAACP is encouraging programs in these directions, he said.

'UNREALISTIC'

Wilkins described as "extremely unrealistic" the theory that Negro leaders should be able to "control" Negro urban concentrations.

Wilkins suggested a society in which "murderers of Negroes go free . . . police mistreatment is glossed over . . . civil rights legislation is killed and the enforcement of existing laws is hamstringing."

When these conditions exist and "housing, employment and school policies represent stubborn stand-patism, no honest Negro leadership can ignore the cold facts and seek to generate confidence in a zero."

Wilkins noted that in a very real sense the fate of racial peace is in the hands of white Americans.

"If, as some predict and others fear, we are to have a 'conservative' Congress, then the maintenance of racial peace will present problems," he said.

"Contrary to the popular tale, the Negro is now so far down in all categories that any slowdown imposed on his forward movement will be in effect a complete halt."

GIs Are Losing Circulation War to Viet Cong

SAIGON, South Viet Nam (AP) — The Ivy Leaf is a weekly newspaper published by the U.S. 4th Infantry Division and being only a month old it is having circulation troubles.

The Viet Cong are getting copies before the infantrymen.

Troops of the division's 2nd Battalion, 22nd Infantry, were searching a guerrilla tunnel recently southeast of Saigon and found a copy of the paper that had been printed in Saigon only two days earlier.

There was a brief break in the search while the GIs read and received.

Dark, Dismal Dreary Days Due

Dark, dismal and dreary with rain is the outlook for Pontiac area residents tonight, tomorrow and Friday.

Temperatures are expected to register a balmy 43 to 50 to night, rise to a high of 50 to 56 tomorrow, then turn colder Friday.

James H. Curran Shows Where He Was On USS Oklahoma During Attack

2 Local Men Relive Pearl Harbor Attack

By LOIS MANDIBERG

Some war stories read like fiction but are true — like the accounts of Wilbur Hinsperger and James H. Curran, two Pontiac men who were on the USS Oklahoma the day the ship "turned turtle" in Pearl Harbor.

Hinsperger, today a mail carrier, was a 22-year-old gunner's mate on Dec. 7, 1941.

He was ready to leave when he heard an officer's

voice over the intercom: "Everyone man battle stations."

He thought it was strange because the sailors rarely drilled

Photos, Page A-10

on Sunday — until he heard the next order, "Man stations on the double. Japs are after us."

Describing how he ran toward his position in the turret of a 14-inch gun, Hinsperger recalled the torpedoes hitting; the ship shaking intensely.

SHIP LISTED

As the ship listed starboard, he and nine others ran into the shell room.

Then, as the Oklahoma rolled upside down and water flooded the rooms, they began swimming — into an ammunition room.

"Miraculously," says Hinsperger, "one of the men had a flashlight. We found a trunk, a passageway going straight up and down, and swam to it."

The water was within two feet of the room's ceiling when the men climbed up the trunk, — really going one story deeper into the overturned ship — where they found a "lucky bag," a water-tight compartment for storing clothes.

'LUCKY FOR US'

"And it was lucky for us," Hinsperger said.

They closed the door before the water reached them and waited. They slept, talked and thought for uncounted time.

"It all happened so quickly that no one had time to react emotionally. But as we waited, no one seemed to panic. I don't think any of us really realized the situation we were in, and I'm not sure many of us thought we'd get out alive," he recalled.

OU VISITOR — Roy Wilkins (left), executive secretary of the NAACP, chats with Oakland University Chancellor D. B. Varner before delivering his speech on "Human Rights in 1966" at the university yesterday. Nearly 1,000 persons, mostly students, turned out to hear the third nationally prominent person to appear in OU's current University Speakers Series.

Chrysler Layoff Set for Jan. 3

DETROIT (AP) — Chrysler Corp announced yesterday it will lay off several hundred of its employees making it the second of the nation's Big Three auto makers to cut employment because of waning sales.

General Motors announced Nov. 18 a two-stage production cut totaling 8.3 per cent. The first step took effect this month with several thousand GM employees laid off around the country.

Both Ford Motor Co. and American Motors said they had no immediate plans for layoffs but added they were considering some form of cost-cuts.

Earlier this week, GM and Chrysler announced production cutbacks that would put industry-wide December auto production at least 70,000 units below the same month last year.

From Conference in Chicago

Call for Draft Overhaul Expected

CHICAGO (AP) — A national draft conference is expected to call today for a major overhaul of the nation's Selective Service System — with the emphasis on limiting the authority of local draft boards.

The consensus seemingly emerged after more than four days of wrangling debate on the draft and its alternatives.

The conferees made it clear that they agreed, along with Sen. Edward M. Kennedy, that the present draft laws are a haze of inequities.

The Massachusetts Democrat told a news conference last night that revision of the draft will emerge as "one of the most important and significant issues Congress will address itself to in the next few months."

"There is a concern around the country about the draft," Kennedy added. "It is in the forefront in the minds of our young people."

He predicted Congress would act because the present Selective Service laws are not always fair, lack flexibility and have no degree of predictability.

MARGARET MEAD

The conferees listened yesterday to at least four proposals for national service, including anthropologist Margaret Mead's suggestion that everybody — women, too — be asked to perform some national duty.

Her proposal was bluntly criticized by other delegates, some of whom described it as just another form of coercion because young men would be faced either with the draft or with compulsory national service.

The extent of quibbling among the conferees, most of whom are in academics, reached a zany zenith last night when nearly an hour was spent arguing whether television networks should be permitted to broadcast today's closing sessions.

After much talk, nothing was decided.

Man Is Charged With Slashing 4 D.C. Paintings

WASHINGTON (AP) — A man wielding a pair of open scissors has slashed four oil paintings in the House wing of the Capitol.

Capitol police arrested a man yesterday they identified as George Palakian, 27, of Paterson, N.J., and charged him with destroying government property.

Chief J. M. Powell of the Capitol police force said Palakian admitted slashing the paintings.

The largest and most valuable of the damaged works was a 20-by-30-foot painting depicting the signing of the Constitution.

Young Gunmen Assassinate Viet Politician

One of Pair Caught, Reportedly Confesses He's a Cong Terrorist

SAIGON, South Viet Nam (AP) — Two youthful gunmen assassinated a leading South Vietnamese politician in Saigon today, and police announced that one of the assassins confessed he was a Viet Cong terrorist.

The gunmen, firing at close range from a motorcycle, killed 58-year-old Tran Van Van as he rode in his car to his office.

A short time later, one of the pair was seized when he fell off the motorcycle near the residence of U.S. Ambassador Henry Cabot Lodge. The other assassin escaped.

The captured youth was identified as Vo Van En, about 20.

After questioning him all day, the police made the announcement that he was a Viet Cong ordered to kill Van.

LEADER IN ASSEMBLY

Van, a wealthy, Paris-educated lawyer long prominent in Vietnamese politics, was a leading member of the Constituent Assembly which is writing a constitution for South Viet Nam.

His playing a few blocks from Premier Ky's office overshadowed war developments.

Only minor ground actions were reported from the fighting fronts although U.S. bombers kept up their raids over North Viet Nam. U.S. destroyers shelled supply barges just off the North Vietnamese coast.

U.S. officials reported the discovery of two 62-pound satchel charges in an ammunition dump at Saigon's Tan Son Nhut Airport, which was attacked by a Viet Cong suicide force last weekend. The explosive charges were disarmed by demolition experts.

Birmingham Road Safety Effort Lauded

By JANICE KLOUSER
Birmingham received a verbal pat on the back from the National Safety Council yesterday for its traffic safety efforts in 1965.

State Police Sgt. Fay Johnson, who presented the annual traffic inventory for the Safety Council, said if the council had given awards this year, Birmingham would have won.

Shoppers Find Something for All in Glittering Silver

(EDITOR'S NOTE — This is the second in a nine-part series on shopping tips for Christmas gift buying.)

By JEANNE NELSON
If all that glitters isn't gold, it must be silver. Shoppers will find the shimmering color in great abundance this Christmas season throughout area stores.

Chiffon scarfs in vivid colors are bordered in silver sequins to wear after dark. They can be purchased for about \$3. Pinching pennies is "in" with a silver plated "piggy bank" that costs about \$7.

For teens following the pierced-ear fad, there are tiny silver earrings under \$2. Pendant watches, too, will tick away the hours of 1967 in their

silver settings. Prices run from \$12 to \$30.

Just right for the glamor gal is the new hostess ensemble. This is nothing but layer upon layer of silver sequins over white silk. The top is sleeveless with graceful long cutlottes. The price is about \$100. High-heeled silver slippers for less than \$9 complete the look.

Silver plate bread baskets will add elegance to any holiday table. These run from \$5 to \$16. Long-burning butane candles can be found this season in a silver color priced close to \$5.

CHARMS FOR BIG AND LITTLE

For big girls and little ones, too, there are sterling silver charms to add to her collection. Most run from \$1.50 to \$4. Real stones are found in antique reproductions of pierced earrings with sterling silver mountings. These semiprecious jewelry items run from \$18 to \$60.

Men will come in for the silver treatment, too. A six-ounce bottle of popular cologne is contained in a silver caddy at \$10. With the return of the identification bracelet, shoppers will be able to choose between silver plate or sterling from \$5 to \$17.

Ask \$9 Billion More for War

AUSTIN, Tex. (AP) — President Johnson estimates Viet Nam war costs between now and next June 30 will exceed earlier budget projections by \$9 billion to \$10 billion.

He plans to ask Congress next month for a supplemental anti-tax increase, but said funds

needed to make a decision are falling into place.

Although Johnson had predicted earlier that war outlays would top the budget figures by anywhere from \$5 billion to \$15 billion, the figures he cited at the news conference were at

least a bit lower than many observers had expected.

AID TO DECISION

Since the chief executive had long been citing the forthcoming Viet Nam money request as a major item to be planned down before the decision, he was asked if the new estimate — as well as a recent federal forecast that business spending on plant expansion would slow down — would help him make such a decision.

3 Memphis Murders Curb Police Leaves

Cheyz Trial Is in Third Day

In the wake of three murders in as many days — including that of Dr. Neil H. Sullenberger, noted former Pontiac surgeon — the police chief of Memphis, Tenn., has canceled all leave days for detectives in search of the killers.

His career had been marked by medical praise and public criticism.

The only solid clue in Sullenberger's death so far is the discovery of his car on a farm near Memphis.

Sullenberger, 51, was found beaten and shot to death Sunday.

His body was discovered floating in a water-filled sand pit in Memphis by two youths. An autopsy revealed that it probably had been there since he was reported missing Nov. 17.

The owner told police that four youths had left it there Nov. 29 after telling him that it had broken down.

With this lead, Police Chief J. C. MacDonald said his department had a better chance in finding Sullenberger's assailant than it had in two other murders since Monday. He would not elaborate.

Shortly after midnight yesterday, police found the body of Roy S. Johnson, a 56-year-old retired machinist, on the lawn of a vacant home in a near-deserted section of the city.

He had been beaten about the head. Police said, however, that they believe there is no connection with the bludgeoned death of Sullenberger.

Last night, the body of a part-time clerk was found inside a liquor store where he worked.

He was identified by police as Hillman Robbins Jr., 30, the father of Hillman Robbins, well known golfer and national amateur champion in 1957.

Robbins hands were bound behind his back. He was shot four times in the back of the head, "execution-style," according to police.

WENT TO TEXAS

Following his dismissal from Pontiac and subsequent psychiatric treatment at the veteran's hospital in Battle Creek, Sullenberger went to Texas, practicing in Spur and Roscoe.

He had been named head of the emergency room at the John Gaston Hospital in Memphis only two weeks before he disappeared.

The last time he was seen alive was as he left work the evening of Nov. 17.

His wallet was found on his body but it contained no money, police said.

It was at the urging of Sarah Hale that President Lincoln first made Thanksgiving Day a national holiday.

DETROIT (AP)—Emil Mazey, secretary-treasurer of the United Auto Workers Union, declined comment today on reports the UAW is behind in its per capita tax payments to the parent AFL-CIO and faces suspension unless it pays up by Dec. 15.

Defense Continues to Quiz Mrs. Dawson

By JIM LONG

Detroit attorney Joseph Louisell today continued his cross-examination of Mrs. Estelle Dawson to establish her role leading up to the arrest of White Lake Township Supervisor Edward Cheyz.

The trial before Circuit Judge William J. Beer and a jury of eight men and five women is in its third day.

Cheyz, 39, is charged with conspiracy to bribe and bribery involving the rezoning of a 10-acre parcel of land for an apartment project proposed by Mrs. Dawson in the township.

Before the trial was adjourned yesterday afternoon, Mrs. Dawson, in answer to a question from Louisell, said that when Cheyz gave her the name of a public relations man to promote the development, she left the meeting not thinking that there was anything irregular with the suggestion.

When the rezoning matter eventually came before the Township Board, members, including Cheyz, voted against the rezoning.

SEN. ROBERTS MENTIONED

Yesterday, the name of State Sen. Farrell E. Roberts was injected into the trial by Louisell when he asked Mrs. Dawson if she had ever offered Roberts any money to help promote an apartment project she once planned to build on an island she owns in White Lake.

"I've never talked to Mr. Roberts," she said.

Following yesterday's hearing, Roberts, who was in the courtroom for a meeting with Circuit judges, told newsmen that he had never been offered money by Mrs. Dawson.

"I'm not sure if I even know the woman," said Roberts.

MAY TESTIFY

Roberts was elected a judge on the Oakland County Circuit bench in the November election and will take office in January.

Louisell said yesterday that he would probably call Roberts to testify.

Asst. Prosecutor James Roberts is expected to call Richard Hanson as the next prosecution witness.

Hanson was named by Pratt as the coconspirator with Cheyz, but was granted immunity from charges.

'U.S. Estimate Low on Soviet Missiles'

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara says U.S. intelligence experts underestimated the number of ocean-spanning missiles the Soviet Union will have in place by mid-1968.

But he says U.S. estimates of

the number of long-range missiles now deployed by the Soviets are "remarkably accurate." He added that the error in assessing Moscow's missile production plans has "no basic impact" on U.S. offensive requirements.

Safety Plaudit to Birmingham

(Continued From Page One)

mington would have received one for its "outstanding report."

Although the report shows that fatal accidents in 1965 increased 100 per cent over a previous three-year average, the figures are somewhat misleading, Johnson said.

McNamara's disclosures, made Tuesday as he talked with newsmen at President Johnson's Texas office, followed his postelection announcement last month that the Soviets are erecting an antimissile defense around major cities.

The Pentagon chief was in Texas for discussions with the President on future military needs and spending.

McNamara made these points:

- The United States still maintains a 3 or 4 to 1 advantage over the Soviet Union in intercontinental ballistic missiles.
- Even if new intelligence estimates for mid-1968 Soviet nuclear strength are correct, the United States will hold a "substantial quantitative and qualitative lead" without taking any actions beyond those already planned and financed this fiscal year.
- Hedging against a possible intelligence error, the United States accelerated development of the submarine-launched Poseidon missile, pushed work on new penetration aids to insure that missiles get through any enemy defense, and decided to deploy the improved, land-based Minuteman III ICBM.

It strongly recommended that citizens become more involved in traffic safety. The key to traffic safety is teamwork, the report stated, and officials and citizens must work together with each assuming their rightful responsibility.

The city's traffic engineering is in "excellent shape," according to the report, but its record for arrests of violators in accidents is less impressive.

The council recommended that an effort be made to discover and arrest a higher proportion of violators in accidents.

One of the few criticisms was leveled at the number of convictions on pedestrian violation charges. There were none in 1965.

Late News at a Glance

CHICAGO (UPI) — At least one person was killed and nearly two dozen injured today when an elevated train skidded on rain-slick rails and derailed during the morning rush hour.

DAMASCUS, Syria (AP) — Dr. Nureddine Atassi, Syria's chief of state, today pledged earnest support to what he called the "current public rebellion" in Jordan in a bid to overthrow King Hussein.

CAPE KENNEDY, Fla. (AP) — A sparkling new "public benefactor" satellite sent toward a lofty Pacific outpost today, aiming to test advanced techniques for space communications and weather forecasting.

DETROIT (AP)—Emil Mazey, secretary-treasurer of the United Auto Workers Union, declined comment today on reports the UAW is behind in its per capita tax payments to the parent AFL-CIO and faces suspension unless it pays up by Dec. 15.

FBI Joins Probe in Killings of State Girl, Women

DETROIT (AP) — The FBI Nov. 25. She was shot to death. Tuesday moved into the investigations of the slayings of two suburban Detroit women. Police said they still were not sure whether there was any connection between the two murders. The FBI's Detroit office said it would check to see if any federal law had been violated.

The victims, Eileen Marie Alex, 19, of Allen Park, Mich., and Mrs. Janet Stewart, 22, of Dearborn Heights, Mich., had lived in adjacent suburbs. The body of Miss Alex was found near South Bend, Ind.,

at the time of her disappearance, near Bagge, Wyo., Sunday. Sheriff C. W. Ogburn of Carbon County, Wyo., said he believed the two men, sought on a burglary warrant in Wyoming, were headed for Mexico.

"Gawne was in Lincoln Park around the time when Miss Alex disappeared," said Sgt. John L. Morin of Dearborn Heights Police.

He said Gawne and Banks returned to Lincoln Park and left again about the time Mrs. Stewart vanished.

Morin said the two men and the victims "ran around pretty much with the same crowd" but he said he had no evidence that the victims and Gawne and Banks were acquainted. Morin said he hoped to question Philip Adkins, a friend of Mrs. Stewart, who reportedly was on his way to Detroit from South Portsmouth, Ky.

The possibility of a link between the two slayings cropped up Sunday when police in Rawlins, Wyo., said Gawne and Banks may be connected with the two killings.

Sheriff William J. Locks of St. Joseph County, Ind., said later, however, he knew of no information placing one of the two fugitives in the missing Alex car. She was driving a 1965 bronze Plymouth when she vanished. Locks said evidence linking the slayings was "pretty sketchy."

Mrs. Stewart left Dearborn Heights in a yellow Mustang 10 days before she was found slain.

The American Geographical Society was founded in 1852.

2 Local Men Relive Pearl Harbor Attack

(Continued From Page One)

sound. The tremendous water pressure beat the door in, and water began streaming around the sides.

"It was hard to say whether we would escape before the water covered us," Hinsperger recalled.

The water was up to his shoulders when the rescuers pulled him out.

"9:30 a.m.," Hinsperger asked a man for the time.

"9:30 a.m.," he was told.

"We were in there an hour," Hinsperger recalls remarking.

"The man looked at me strangely and said it was Monday."

25 HOURS
When I realized I'd spent 25 hours in that room I began to get scared," added Hinsperger.

He didn't have very long to react as he spent a night in the hospital and checked into another ship.

The rest of the war, he spent in the Pacific theater, with time out in 1943 to marry his wife, Charlotte.

They live with their two sons, Thomas, 19, and Jerry, 16 at 61 Putnam.

They live with their two sons, Thomas, 19, and Jerry, 16 at 61 Putnam.

A few blocks to the east lives the James H. Curran family whose head was also on the Oklahoma 25 years ago today.

He and Hinsperger say they've never met.

Curran, who works in plant protection at GMC Truck and Coach Division was in the ship's mail room when he first learned of the attack.

A blast blew the 26-year-old

marine 19 feet across the room. Then he heard a voice over the intercom announcing the Japanese attack.

"By that time I was trying to reach the deck as the ship was badly listing," he said.

REACHED TOPSIDE
Curran reached the deck and tried to crawl and pull himself to the port rail.

He said he realized if he

WILBUR HINSPERGER
Now a Postman

went off on the listing side he would have been sucked under the ship.

"A bomb exploded near me blowing off all my clothes, except my shoes, but its force flung me to the railing and jumped overboard," said Curran.

He swam to the U.S.S. Maryland, climbed aboard and helped man a "Chicago piano," a four

JAMES H. CURRAN
GMC Truck Employee Today

barrel antiaircraft gun, during the remainder of the attack.

He received a letter of commendation for his actions but adamantly insists his story is negligible compared to accounts of other Pearl Harbor survivors.

"It was like a nightmare. You had flashes of reality, but the scope of action was too big to believe it was actually happening to you but you were in it."

"I was scared stiff," he admits. "But the instinct of self-preservation keeps you going. And as the shock wears off, a pride in country and corps keeps you running."

Curran spent much of the remainder of the war in South Pacific battle areas.

WHITE TINGES
Today, Curran, whose once black hair now has white tinges, lives with his wife, Beatrice, and seven children at 86 N. Johnson.

Curran and Hinsperger no longer think very often about Pearl Harbor.

They both consider themselves very lucky to be alive.

NOTICE OF TAXES
CITY OF PONTIAC

The 1966 County taxes in the City of Pontiac will be due and payable at the office of the Pontiac City Treasurer, December 12, 1966, through February 14, 1967, without fees. On February 15, 1967, a collection fee of 4% will be added to all County taxes paid through February 28, 1967. On March 1, 1967, all unpaid County and 1966 City and School taxes will be returned to the Oakland County Treasurer's office, and must be paid there with additional fees. Payments made by mail must be postmarked not later than February 14, 1967, to avoid penalties.

Churchwomen to Hear Review

Mrs. Marian Athay, administrative assistant for adult education at Christ Church Cranbrook will review the book "Shanting Compound" for the Episcopal Churchwomen on Dec. 13. Holy Communion will be at 10 o'clock in St. Dunstan's Chapel.

The book, authored by Langdon Gilkey, depicts life in the prison compound.

Mr. Gilkey wrote the book

while engaged as a young teacher in China with other western administrators, business men, missionaries and

Knits Are New

Camp Fire Girls Plan Tree Sale at Camp Oweki

Families may select and cut the Christmas tree of their choice at Camp Oweki. The annual sale is sponsored by Pontiac Area Council of Camp Fire Girls and the Mens' Club of the Church of the Resurrection.

All trees are \$2 each. Week-end hours are from 10 a.m. until 5 p.m. Camp Oweki is located near Clarkston off I-75 and Walden Road.

Further information may be obtained by contacting the Area Camp Fire office.

Stop Floor Squeak

Stop the squeak in a floor-board. Pour hot melted soap in the crack. Usually, this works.

Why Grow Old?

By JOSEPHINE LOWMAN

Sleep habits are almost as individual as fingerprints. People vary greatly in the amount of sleep they need and what puts one person to sleep will keep another awake.

For instance, some people are put to sleep by music from a nearby radio as others are lulled by the sound of the surf pounding on a beach. On the other hand, the pounding of the surf makes some nervous while any noise at all keeps others awake. So, whether you listen to radio before trapping some shut-eye, or don't, is up to you. It seems reasonable that the radio program should not be too exciting, but soothing, that is, if you really want to get to sleep.

Some advice: "Never try to read yourself to sleep," I disagree! Of course, it does depend somewhat on the kind of book you are reading. If it is a book which is so intriguing or exciting that you cannot put it down until 2 a.m., that's no good. However, a book which is mildly interesting, takes you out of the everyday world and breaks the cycle of your usual routines, thinking, and worries.

Of course, the very best and most luxurious sleep-trapper, if you can manage it, is to have someone read to you.

STRONG HOLD

Habits have such a very strong hold on us! Therefore it is wise to go to sleep at about the same time every night, as a general rule. I know that you may not be able to do this, if the baby has colic, unexpected guests arrive, your loved dog has to be rushed to the vet, or the plumbing goes haywire. However, sincerely, this is a sound scientific idea, and I hope you can swing it!

Whether or not to eat before going to sleep, that's a question! It depends on what you eat just like it does on what you read or listen to on radio. Don't make it heavy and rich, just something simple like a glass of warm milk and a few crackers. That will put you to sleep. There is a scientific reason for a very light something or other.

I do not have to tell you that if you sleep on a lumpy mattress or your covers are

too heavy or the room is too hot, or you are harassed by loud noises, you will not sleep well. I do hope that if you investigate my nonsense I may have brought you some helpful suggestions.

And, as you know, I believe that a couple of stretching, relaxing, and deep breathing exercises are conducive to sleep. Here is one of them. Stand erect with your feet comfortably separated and your arms at your sides. Slowly, raise your right arm forward-upward to overhead. As you do so inhale deeply. Stretch toward the ceiling with your right arm. Lower your arm to your side in a slow relaxed manner as you exhale. Do the same thing with your left arm. Continue, alternating.

This exercise should be done in a slow, stretching, deep breathing, relaxed way, and it will relax you.

Larry Evons Honeymoon After Vows

Pfc. and Mrs. Larry Francis Evons left for a trip to Burlington, Iowa and Chicago after recent vows and reception in the Auburn Heights United Presbyterian Church.

The former Pamela Jane Grayhek is the daughter of Mrs. Frank Grayhek of Rochester. The bridegroom, son of the Francis J. Evons of Hunters Ridge Drive, will return to Fort Dix, N.J.

A gown of white peau de soie and French lace for the bride was styled with ruffled hemline and back panel forming her train.

She wore a tiered veil of silk illusion and carried white Sweetheart roses, carnations and ivy.

Norma Luther was maid of honor with bridesmaids Jane Shelton, Carol Haag and Shirley Evon, the bridegroom's sister.

With the best man, Robert Roy, were groomsmen Thomas Wilson, Wendell Parton and Michael King. Dennis Graham and Richard Claxton were ushers.

Oxford Warned of 15-Year Wait for Sewer Arm

OXFORD — Village and township officials were told last night that it may be as long as 15 years before the Paint Creek arm of the Clinton-Oakland Sewer is extended to their area.

In the meantime, if the area wishes a sewage treatment plant it will have to go to considerable expense to build one, and it would be allowed only on a temporary basis.

So stated Donald Ringle, deputy director of the Oakland County Department of Public Works, speaking before an informal gathering called by Township Supervisor Lee Valentine.

Oxford for the past four years has been seriously considering some type of sewage treatment system to replace its septic tanks. The south portion of the township has now asked that it be included in any plans.

Two alternatives which arose to the Clinton-Oakland extension plan were that of a lagoon system of disposal in the township and the participation by Oxford and Oxford Township in a Lake Orion sewage disposal plant.

STATE ORDER

Lake Orion has been ordered by the State Water Resources Commission through the Circuit Court to build a plant which would be in operation by 1969.

Pollution of Paint Creek by part of the village is cited as the reason.

Temporary repair of facilities has improved scattered pollution situations in Orion Township—cited along with many other municipalities in the area.

The repair work has eased the necessity of that township's participation in a sewage plant, though Orion Supervisor John Lessner told The Pontiac Press this morning that his board would be willing to study the problem and would perhaps go along with a common plan.

MOVE FEASIBLE

Oxford area officials felt construction of an interceptor south-easterly toward Lake Orion would be financially more feasible than construction of lines two miles northwest of town to the only available area for a lagoon disposal system.

The interceptor toward Orion, they felt, could become a part of the Clinton-Oakland system once the Paint Creek arm is extended.

Ringle said probable delay in the interceptor extension is based on the financial ability of the area. Such an arm at this time could be expected to service only about 8,000 people, he said.

TOP DAIRY FARMERS—Oakland County Dairy Farmers of the Year received a trophy from The Pontiac Press at the Oakland County Dairy Banquet last night. Howard Heidenbrand (left), editorial writer for The Pontiac Press, presents the trophy to John and Douglas Canfield, 5724 Grand River, Lyon Township.

Press Gives Trophy County Dairy Farmers Feted

The top producers of milk and butterfat received awards at the annual Oakland County Dairy Banquet last night.

Highlight of the event was the presentation by The Pontiac Press of a trophy to the Oakland County Dairy Farmers of the Year.

Recipients of the award, presented by Pontiac Press editorial writer Howard Heidenbrand, were John and Douglas Canfield, 5724 Grand River, Lyon Township.

Their herd of 31 Holsteins produced 15,049 pounds of milk and 555 pounds of butterfat per cow.

Certificates were also presented to Clark Miller, 2885 Seymour Lake, Brandon Township; Edward and David Bourns, 2800 Martindale, Lyon Township; and Carlos and Douglas Long, 2845 Sleeth, Commerce Township.

Board Okays Pay Addition for 3 Rochester Teachers

ROCHESTER — In response to a grievance filed by the Rochester Education Association (REA), the Board of Education has voted to increase compensation to three teachers.

The three to benefit are those who teach a sixth class during the day at the junior high schools in place of having a sixth hour study hall period.

The teachers will receive an added \$6 a day while they teach the extra class.

The board reiterated its feeling stated in a letter to the REA last Nov. 23 that there was no grounds for a second grievance concerning lunch hour duty for teachers.

Settlement of the grievances was discussed by the board during executive session.

EVENING USE

Harlan Johnson, director of instruction and personnel, proposed evening use of the senior high school library for students two or three evenings a week.

He reported that elementary students from the four-room Avon School are being transported to Brooklands School twice a week for use of the library there.

Reports on a meeting to explore the need for a community recreation plan were presented and another meeting Dec. 15 at the school board offices was announced.

A report on bids to construct Long Meadow School and addition to Woodward and North Hill was made by Schools Supt. Douglas Lund. He said bids would be opened at 3 p.m. Dec. 22.

Richard Huizenga, assistant superintendent in charge of business, reported on summer maintenance projects at the schools.

Lapeer Acts on Site, Cost for City Hall

LAPEER — A new city hall may be provided here under provisions of a projected urban renewal project.

City Manager Arnold Whitney reported that under the Public Acts of 1966 a city hall would be considered part of an urban renewal project.

He said the federal government would pay as much as 25 percent of the total or \$3.5 million, which ever is less.

Councilmen instructed him to take soil boring tests on two pieces of property in the central business district, now being considered for urban renewal.

He was asked to investigate site costs as well.

PLANNING GRANT

The council passed a resolution permitting acceptance of a \$117,539 planning grant for its proposed \$2.2-million urban renewal project in the business district.

In other business last night the council adopted a new codification of city ordinances effective Jan. 1.

An amendment to the tavern regulation ordinance prohibiting the employment of anyone under 21 was passed.

The council voted to purchase a \$7,000 billing machine and to secure cost estimates on a sidewalk renovation program for 1967.

Saturday Sale by Goodfellows

PONTIAC TOWNSHIP — Firemen and Metropolitan Club members of Pontiac Township's three stations will sell Goodfellows newspapers Saturday at main street intersections in the township.

A goal of \$1,000 has been set to pay for the annual Christmas parties for underprivileged children and baskets for needy families. Some 2,500 issues of The Pontiac Press have been ordered for the sale.

Fire Station No. 1 will play host to the children at 7:30 p.m. Dec. 14 at the Auburn Heights Fire Hall, Douglas Sparks is chairman.

Co-sponsoring the affair are the Hill-Gazette American Legion Post No. 143 and the Auburn Heights Lions Club.

The Station No. 2 Christmas party will be at 2 p.m. Dec. 18 at the hall on Opdyke. Glen Hartung is party chairman.

The Station No. 3 party will be 1 p.m. the same day at the Jo-Jo Avenue fire hall, Leonard Bauro is chairman.

Gets State Labor Post

LAPEER — Lynn E. Mantikeski, 26, assistant personnel officer at the Lapeer State Home, has been named to a new post in the State Labor Department. He will be administrative assistant to Thomas Reumell, director of the department.

Services Sought by Subdivision

FARMINGTON — residents of Woodcroft Subdivision in the newly annexed section want the city to install sewer and water lines in their area.

In response to petitions received Monday night, the city council authorized City Manager John Dinan to have engineering plans and cost estimates drawn up.

The 457 acres, formerly part of Farmington Township, were annexed to the city in the Nov. 8 election.

In other action Monday night, the council voted to accept the minimum standards for police training set up by the Law Enforcement Council in order to be eligible for state aid.

Dinan was instructed to draft an ordinance meeting the minimum standards. He said it would probably be adopted at its \$11,000 share of the cost of paving Nine Mile from Farmington Road to I-96 out of the general fund.

Dinan said it was decided to finance the project this way rather than through general obligation bonds to avoid the interest costs.

News of the Area

Board Fills Vacancy in Farmington Twp.

FARMINGTON TOWNSHIP — James Skillman, 28235 Forestbrook, has been appointed to the Township Board to replace Thomas Duke who recently resigned.

The board appointed Skillman to serve out the remainder of Duke's term ending April 1969.

An attorney, Skillman was formerly chairman of the zoning board and a member of the board of review.

In other action the board approved a special assessment district for a \$71,300 water main project in the Brookhill Estates Subdivision on 12 Mile.

Supervisor-Elect to Fill Webber Seat

ADDISON TOWNSHIP — Billy Van Arsdel, winner in the Nov. 8 race for supervisor, has been appointed by the board to fill the unexpired term of Frank Webber.

Van Arsdel would normally take office April 10. Webber, a long-time supervisor, declined to run in the November election. He resigned Nov. 15.

The board also accepted the resignation of Fire Chief Elmer Powell who said the hours were too long.

Powell, who will remain in the department, was replaced by John Hoch, former fire lieutenant. Harold Klein was elevated to the lieutenant's position.

Robert McCallum, township treasurer, remains assistant fire chief.

Parkedale Appointee

ROCHESTER — Appointment of James F. Nykanen as section head in the Parkdale Biological Division of Parke, Davis & Co. has been announced. He resides with his wife and son at 330 Parkdale, Royal Oak.

EFFECT OF MERGER

The Board of Commerce, the Jaycees and the League of Women Voters have undertaken the study in an attempt to determine what effect unification would have on each community.

In other action the board agreed to match funds with the West Bloomfield Township Board and with the Ward Eagle Elementary School PTA to construct a sidewalk in front of the school.

Each township will pay a cost not to exceed \$1,000 or up to 25 percent of the cost.

FIRST PUBLIC HEARING

The board also held the first public hearing on construction of a sewer system on Orchard Lake Road between Bond and Burbank.

The \$89,000 project would serve numerous businesses in the area.

A study recently undertaken on the possibility of consolidation of the city of Farmington, the township, and the villages of Wood Creek Farms and Quakertown received tacit approval from the board.

Yule Party Slated

ADDISON TOWNSHIP — Every child in the township has been invited to a Christmas party at 8 p.m. Dec. 17 in the township hall.

Addison Township firemen will play host, and will also fill baskets for needy families for distribution at Christmas.

Outdoor Editor, Pontiac Press

Part of Swamp Now Sanctuary

By DON VOGEL

The Andersonville Swamp, largest piece of near virgin land remaining in Oakland County, has long been avoided by developers because the cost of draining and backfilling would be prohibitive.

As the population continues to grow and the demand for housing and commercial buildings increases, all available land in the county will be utilized.

This will not happen for another generation or two. By then the engineers will have perfected enough ways to drain such large swamplands as the 900-acre Andersonville.

Even after the land fill experts get done with their work, there should be at least one parcel still in a wild state.

That will be the 160-acre Timberland Swamp Nature Sanctuary.

The sanctuary has been created by the Eastern Michigan Nature Association which hopes to add smaller parcels to the present site in the years to come.

Andersonville Swamp is located south of Davison in southeastern Springfield Township. It is bounded by Andersonville, Hilltop, Crosby Lake and Big Lake roads.

NEXT APRIL
When the sanctuary is opened to the public April 30, 1967, access will be from the south end of War Road.

EMNA, a nonprofit organization dedicated to the preservation of local native wildlife, established the Lakeville Swamp Nature Sanctuary in northeastern Oakland County in 1963. The organization was then known as the Macomb Nature Association.

The same was changed in 1965 and the members have a goal of 20 new sanctuaries in Southeastern Michigan in the next three years. Timberland is the sixth.

Ralph O'Reilly Jr. of Davison is the EMNA member who did much of the legwork in acquiring the property for Timberland.

"It's very wild country," he said. "I would recommend that anyone going into the Andersonville Swamp carry a compass. Just last week I guided a lost deer hunter out."

It is this type of wilderness that the EMNA is trying to preserve.

In its nature sanctuary brochure, EMNA declares that "such swamps as remain today are of great scientific and human interest, being the last strongholds of native plants and free-roaming animals."

The brochure describes Andersonville Swamp as a "swamp hardwood forest with elevated dry islands."

"Here basic cycles of nature continue in age-old patterns in a wooded fastness that has been

bypassed by development and suffered only the disturbances of logging and occasional fires."

There are no roads into the swamp.

The Timberland committee is attempting to raise \$4,000 by March 1, 1967 to complete the goal of funds needed for Timberland.

Miss Bertha A. Daubendiek of Saginaw, executive director of EMNA, said the committee hopes to obtain the funds from within a 20-mile radius of the swamp.

Purchase funds were made available by EMNA members, McGregor Fund and the Ralph C. Smith Foundation. Pontiac Audubon Club and several Pontiac area residents also have contributed.

At CAI Building

Kennel Club Show Set Jan. 22

Premium lists are being distributed for the Pontiac Kennel Club's annual winter all-breed dog show.

The show is scheduled Jan. 22 at the Community Activities, Inc. (CAI) building on Williams Lake Road, Waterford Township. Deadline for entering is noon, Jan. 10.

Lists are available from Bow Dog Show Organization, 9999 Broadstreet, Detroit, 48204. Bow

HITCHHIKER — A mother opossum gives one of her young a ride in the newly established Timberland sanctuary. The area also has other wildlife, including a large herd of deer.

Restrictions Requested for Deadstream Area

A proposal to dedicate the Deadstream Swamp area west of Houghton Lake, so as to protect its wilderness values will be presented to the Conservation Commission.

The commission will meet tomorrow and Friday in Lansing.

Also on the agenda is a proposal to ban all fishing in the federal government's newly acquired 18,000-acre Sylvania Tract until May 1.

The Conservation Department's statement of dedication calls for restricting all motorized land equipment to public roads and designated interior roads in 17,000 acres of the Deadstream Swamp, which overall embraces over 25,000 acres.

Exceptions for travel would be made under special permits issued by the department for the temporary harvest of timber, wildlife habitat development, all operations and improvements within a limited part of the total area.

The proposed restrictions would not interfere with these activities, but would prevent the area from being sliced into a disorderly network of motoring routes as the result of wholesale trailblazing, which is becoming a growing problem.

BOATING RULE
Another protective measure would place a 7½-horsepower limit on all boats launched from state lands within the area's 2,000-acre impoundment.

The reason for this is to maintain the flooding for wildlife production and as a unique wildlife showcase for public viewing rather than let it become a water arena for speedboaters.

As proposed, the stiffer controls on water and land travel within the area would go into effect June 1, 1967.

The fishing restriction covering Sylvania, located in the western Upper Peninsula, would go into effect immediately.

State Obtains Splake Eggs From Ontario

Plans of the Conservation Department to help rejuvenate fish populations of Lake Huron starting within the next few years got another shot in the arm last week when about 20,000 splake eggs donated by Ontario were flown to Sault Ste. Marie.

The eggs, taken from a hybrid strain of lake trout and brook trout developed by the Ontario Department of Lands and Forests, were immediately transported to the Thompson State Fish Hatchery near Manistique.

Fish hatched from the eggs at Thompson will be transferred early next year to the department's Marquette hatchery for rearing as brood stock for introduction into Lake Huron in 1969 or 1970.

Rochester Hunter Wins Heaviest Deer Contest

Now that the deer season has come and gone, hunters have started stoking the hot stove fires with stories and comments on big game hunting in Michigan during 1966.

The topics of conversation probably will include:

1. Fewer hunters than a year ago.
2. Continuance of weekend openers.
3. Antlerless deer permits.
4. The new deer tags.
5. The improved kill in Southern Michigan.

The most frequently heard story will be "How I got my buck." It will be told countless times.

One hunter will get something extra for his big deer. Wilford McKel, 521 E. Hamlin, Rochester, will receive \$150 in savings bonds for entering the heaviest buck in the Pontiac Press Big Deer Contest.

He downed the 212½-pounder near Oxford. It carried eight point antlers.

This is the second straight year that the contest winner has come from the Oakland County area. Last year's top buck was taken near the Oakland-Livingston county line.

Although no figures are yet available, hunter numbers probably declined about 100,000 from the record 600,000 of 1965. Several factors were involved in the drop, but the most important was the cutback in antlerless deer permits.

STILL GRUMBLE
Many hunters still grumble over the taking of does and yearlings and will insist on a moratorium. But the protesters aren't expected to reach the furor of the 1965 season.

Hunter pressure for returning opening day to Nov. 15 isn't expected to be as strong this time around. Possibly the openers for the next three years will be an influencing factor.

All three fall on the same Saturday.

The 1967 season for both peninsulas will start Nov. 15. The following year it will be Nov. 16. In 1969, the season will open on the old date of Nov. 15. The U.P. again will open earlier in 1970.

The Conservation Department, however, is requesting legislation to go back to the Nov. 15 opener for the entire state. The legislature will be given this proposal in January.

Hunters success on bucks in Oakland County increased over a year ago. In the northwest corner, over 50 bucks were checked by the Conservation Department, including 14 last weekend.

The kill was up slightly in the northeast section, but down in the Highland area. Twenty-two bucks were known to have been taken in Macomb County.

25 Years After Pearl Harbor

War Benefits Japan

Trading Is Active

Stock Mart Makes Advance

NEW YORK (AP)—The stock market advanced in active trading at the opening today.

Opening blocks included Ford Motor, unchanged at 39 1/2 on 8,000 shares; Chrysler, up 1/2 at 63 1/2 on 6,300 shares; Jersey Standard, up 1/2 at 64 1/2 on 4,000 shares; General Motors, up 1/2 at 66 on 10,400 shares.

Opening on blocks of 3,000 shares, Bethlehem Steel dipped 1/2 to 28 1/2 and Consolidated Edison eased 1/2 to 31 1/2.

RCA advanced 1 1/2 to 45 1/2 on a block of 3,800 shares.

General Dynamics added 1/2 at 52 on a block of 2,500 shares.

Union Friction Laid to Reuther

Trying to Encourage AFL-CIO Militancy

DETROIT (AP)—The current friction between Walter Reuther, president of the United Auto Workers Union, and George Meany, president of the AFL-CIO, is the result of Reuther's attempt to "show the way" to greater militancy in the AFL-CIO, a UAW source said Tuesday.

By JOHN CUNNIFF
AP Business News Analyst
NEW YORK—On this 25th anniversary of the Japanese attack on Pearl Harbor, the economy of that once "defeated" land is booming.

Industrial might has replaced military power. Reflecting this, his people once led by military dictators, seem dedicated to peace. But in 25 years a cruel irony has developed, and now much of Japan's good life is sustained by a war in Viet Nam.

Hundreds of millions of dollars flow into Japan because of the war. The estimate has been placed as high as \$1 billion, but that is an extreme and unlikely figure.

These sales, of course, are primarily to the United States and South Viet Nam.

Reuther recently engaged in a public quarrel with Meany over AFL-CIO foreign policy. He contended that AFL-CIO actions undermined President Johnson's efforts to ease tensions with the Communist world.

He did not attend a special AFL-CIO executive council discussion on foreign policy which he had requested. He said an executive board meeting in Detroit the same day kept him from the discussion.

The UAW source said Reuther's union is the prime influence on the AFL-CIO political arm, the Committee on Political Education.

"If the platters and painters union, for example, pay no head to COPE, then it is not as effective an organization as it could be," the source said.

He said strong action by Reuther and the UAW could mean support of election candidates other than those supported by the AFL-CIO.

Overall action "There is a program of overall action" the labor movement "should have," the source said. He added that Reuther hopes to see that the movement gets such a program.

Food Company Names Director of Private Label

Lloyd Jackson, a corporate vice president of Allied Supermarkets, Inc., Detroit, was re-appointed to the position of director of private label for the company.

Roy Kaschky was also appointed director of manufacturing to assume the responsibilities vacated by JACKMAN.

JACKMAN of 31198 Pickwick, Beverly Hills, joined the company 15 years before he was assumed his newly created position.

Kaschky of 3555 Quaker Valley, Quaker Town, had been general manager of the company's dairy operation since joining Allied Supermarkets in 1966.

Charles Hallenbeck is a trustee, Charles Maloney is second vice president, Charles Lumley is third vice president and Charles Williams is secretary.

businessmen of both nations that are really remarkable. Prototypes and counterparts are found in each. A "typical" American businessman is much more different from a "typical" Japanese businessman.

Partly because of American aid, which began immediately after the war, partly through American technology, and a good deal through Japanese inventiveness, ingenuity and good sense, Japan quickly recovered from World War II.

During this period a mutual respect developed among commercial interests and is now sometimes referred to as the "Pacific partnership" of Japan and America.

TRADE IN BILLIONS
Annual trade between the two nations now is close to \$4.5 billion, perhaps the greatest trans-oceanic commerce ever developed between two nations.

It may be argued, and it has been, that modern Japan's well-being results from its need to fulfill the demands of its people through commercial rather than military means.

Modern Japan is no better off in natural resources than it ever was. In fact, it is far shorter of resources than its Atlantic counterpart, Britain, or any of the heavily industrialized nations of Europe.

Japan has attempted to solve through commerce what its previous military leaders would not have believed possible.

MUST IMPORT COAL, IRON
For example, it must import its coal, some even from the United States. It must import scrap steel from North America and iron ore from Australia. But, nevertheless, it still exports finished steel to the United States.

Much of this ability results from the wages of the Japanese worker, which are much lower than in the United States. But this is not entirely the cause. Japanese steelworkers receive wages comparable to those in several European nations.

Other factors enter the situation. Because steel is dependent on ocean trade, Japan has learned to build ships many times larger than anything the world has previously seen. Some of them approach 300,000 tons. And so Japan succeeds.

There are many measures of this success. Here are a few: A very large percentage of the cheap transistor radios sold in America, even some which carry well-known American trademarks, are made in Japan.

Japan is the world's largest shipbuilder and its steel mills are the third most productive in the world.

Despite her need to import raw materials, she is dependent on ocean trade, Japan has learned to build ships many times larger than anything the world has previously seen. Some of them approach 300,000 tons. And so Japan succeeds.
