**NEW CUBAN SYMBOL** — A peasant waves his machete knife in greeting to Premier Fidel Castro who lashed out with a fiery anti-American tirade last night. The farmer holds a Cuban flag atop a guard tower outside the presidential palace. Below him were gathered several hundred wildly cheering Cubans who heard Castro call for approval of another wave of firing squads.

**ONE VICTORY FOR McDONALD** — Edgar Kaiser, left, board chairman of the Kaiser Steel Corp., and David J. McDonald, president of the United Steelworkers Union, shake hands Monday night on their separate agreement. McDonald still faced the court's decision on the Taft-Hartley back-to-work injunction, due at 4:15 p. m. today.

## Williams, Legislators in Huddle Over Cash

LANSING (AP)—Gov. Williams said today he is contacting some business leaders and considering a statewide telecast in moves to cope with the "utter disaster" threatening Michigan.

In advance of a conference on emergency taxes with a score of key legislators at 2:30 p.m. today the governor scheduled a preliminary huddle with House Speaker Don R. Pears and Rep. Allison Green (R-Kingston).

Green is Republican floor leader in the House.

Williams told newsmen he did not intend to appeal for pre-payment of states taxes in "off-the-record" talks with businessmen. He declined to mention any names.

**Last spring, big businesses and industries staved off a developing cash pinch by early payment of over 30 million dollars in taxes.**

He said his purpose generally was to make clear the urgency for speedy action.

**GETS A PROMISE**

The governor said he was "gratified" at assurances from Sen. Frank Beadle of St. Clair, Senate GOP leader, that no state services will be diminished in the new crisis.

**From early morning until nearly midnight, state and local officials and educators streamed into the governor's office yesterday to evaluate dismal prospects threatened by sharply reduced state revenues.**

The Democratic governor, plainly worried, told leaders of the Republican-dominated Legislature he would accept almost any tax plan **they proposed if it would produce sufficient revenues.**

With no new tax money, he said, the state financial structure faces collapse and state agencies and services "utter disaster."

Lawmakers will tackle the problem Thursday when they return after an eight-day recess.

**Williams, though still supporting an income tax as the best solution to the state's money woes, said he was ready to go for a wholesalers' tax, removal of sales tax exemptions, a state property tax and a variety of "nuisance taxes"—in any combination.**

But, he said, they must yield at least 75 million dollars by June 30, the end of the fiscal year. That's roughly what the increased use (sales) tax would have produced in seven months if the state Supreme Court hadn't thrown it out last week as unconstitutional.

**PREDICT CHAOS**

Answering the governor's summons, state officials, educators and municipal and county officials took more than 12 hours to predict what might happen if lawmakers can't agree on a substitute for the penny increase in the three-cent use tax and state agencies are forced to take an across-the-board 27.6 per cent cutback in general fund appropriations. In substance:

★ ★ ★

State universities and colleges would close their doors or dismiss students and faculty members wholesale. 422 state policemen would lose their jobs, custody staffs at prisons would be sharply reduced, admission cut off at mental hospitals, welfare programs drastically trimmed.

Neither the governor nor state

## First Snowfall Forecast Made

### Colder Than Normal Through Wednesday, Says Weatherman

Snow was expected in Pontiac today.

Occasional light rain mixed with snow was forecast for today, with the city's first snowfall of the season expected to end tonight.

A freeze warning for tonight has been issued by the U. S. Weather Bureau with themometers in Pontiac expected to plunge into the 20s.

**The high today will be 40.**

The storm center which had dumped up to nine inches of snow on Michigan's Upper Peninsula will move into the lower part of the state today.

★ ★ ★

The U.S. Weather Bureau warned that some areas of lower Michigan might receive as much as two inches of wet snow during the night and driving conditions were expected to be hazardous in many **areas.**

Gale warnings were in effect on Lake Michigan and Lake Superior and small craft warnings were posted on the rest of the Great Lakes.

From 10:15 a.m. yesterday until the same time this morning .10 of an inch of rain fell in the downtown area. Afternoon winds northerly at 5 miles an hour will diminish tonight.

The lowest temperature preceding 8 a.m. at The Pontiac Press was 37 degrees. The thermometer registered 36 at 2 p.m.

## GM Names Harvey to Head Division

DETROIT (AP) — William Harvey III today was named general manager of the Motors Holding Division of General Motors by President John F. Gordon.

The division provides capital financing for retail dealers in General Motors automobiles.

Harvey, a native of Jamaica, N. Y., was graduated from Cornell University in 1948. He succeeds Herbert M. Gould, who will retire Dec. 31 after 33 years with General Motors.

## So That's How They Do It

LANSING (AP) — A letter from the Indiana State Police with a legend on the envelope reading "Indiana — where we live within our income" has been received by Lansing detectives. The officers took possession of the communication after paying four cents postage due.

## 6 Admit Guilt as Vandals in Clarkston

Appeals of their 25-day jail sentences were dropped today as six Clarkston area vandals pleaded **guilty** to a **rare charge of** throwing missiles, before Circuit Judge Theodore F. Hughes.

Two others maintained their innocence and Judge Hughes ordered an early trial for them.

**After about an hour discussion in the judge's chambers, two attorneys for five of the boys announced before the bench that their clients decided to change their original pleas to guilty.**

The attorneys, Brakie J. Orr and Emmett J. Leib, emphasized that the reason they had appealed was to protest the severity of the jail sentences imposed by Independence Township Justice William H. Stamp.

★ ★ ★

"The sentence was way out of proportion to the seriousness of the crime," Orr told Judge Hughes.

**After presentence investigations by the Probation Department, the six who pleaded guilty could receive up to 90 days in jail. They will be sentenced Nov. 23.**

They were arrested as part of a gang of 12 nabbed Oct. 8 when they made the mistake of tossing eggs at the car of Sheriff's Deputy Kenneth Hirt.

**LIST OFFENCES**

Police also accused the vandals of barricading roads, building a bonfire in the middle of a road, spreading oil and sharpening cans on U.S. 10, letting air out of school bus tires, and heaving other foodstuffs at motorists.

**Pleading guilty today were: Kenneth F. Stock, 18, Jerry W. Terry 18, James B. Lowe, 19,**

## Area Firm Joins Kaiser to Widen Impasse Split

PITTSBURGH (AP) — United Steelworkers President David J. McDonald today announced a contract agreement with Detroit Steel Co., the nation's 16th largest producer.

McDonald said the agreement was on the same basis as the settlement in Washington yesterday with Kaiser Steel Corp., the nation's ninth largest producer. Detroit Steel has an annual steel ingot capacity of 1,500,000 tons.

McDonald made the announcement at a news conference in a midtown hotel here.

The strike-ending pact signed by Kaiser and the union left uncertain whether steel price increases by the company may follow later.

Detroit Steel has not been strikebound. It has been operating under a contract extension with the union. They employ about 4,300.

The record 105-day steel strike, its obstinateness cracked slightly by the two agreements with the United Steelworkers, headed for another showdown today in federal court.

The U.S. 3rd Circuit Court of Appeals will announce at 4 p.m. whether the 500,000 striking steelworkers must return to work for 80 days under a Taft-Hartley injunction or may continue their strike.

The ruling, however, will not be released until about 4:45 p. m. because appellate courts here usually wait until after the country's stock markets close to hand down decisions which affect stock prices.

**Meanwhile, 7,500 Kaiser employes returned to work at plants in California under a new agreement which will be in force until June 30, 1961.**

And the nation's biggest steel maker, United States Steel Corp., today tells the world how much money it is losing as a result of the steel strike.

Several other companies, completely shut down by the strike, have reported huge losses. Some smaller companies, not shut down by the strike, have reaped sharply higher profits.

**This is the regular date for U. S. Steel directors to meet and issue the third quarter earnings report. It will be announced shortly after the New York Stock Exchange closes.**

## Fisher Body to Shut Down

### Steel Strike Cause of 2,400 Plant Layoffs in First Local Closing

Fisher Body Division's Pontiac plant will lay off 2,400 production workers tomorrow because of steel shortages.

★ ★ ★

Production will halt when the first shift leaves the plant at 3 p.m., a divisions spokesman said. Only about 350 maintenance and tool and die workers will remain on the job.

**The shutdown will be the first in Pontiac caused by the nationwide steel strike.**

Pontiac Motor Division and GMC Truck & Coach Division are expected to announce more layoffs before the end of the week.

Pontiac Motor laid off 2,000 production workers Friday, leaving 6,000 on the job.

The Fisher Body shutdown will cut off the supply of automobile bodies at Pontiac Motor.

★ ★ ★

Auto industry layoffs due to the steel strike climbed towards the 125,000 mark today with reports of planned cutbacks totaling 5,500 workers at two General Motors plants.

Officials at GM's Buick-Oldsmobile-Pontiac assembly plant at Doraville, Ga., announced they would lay off 2,500 more workers at the end of the Thursday shifts. The Thursday layoff will halt all truck and automobile production in the Atlanta, Ga., area by GM.

Another 3,000 employes at the GM assembly plant in Linden, N. J., will be laid off Friday because of materials shortages.

**GM previously had announced layoffs totaling 115,000.**

Chrysler Corp. has announced layoffs totaling 2,300. Ford, American Motors and Studebaker-Packard have not yet been affected by the steel strike.

★ ★ ★

At Milwaukee, the A. O. Smith Corp. announced it would have to shut down its automotive division completely and lay off another 1,600 to 1,700 employes within the next week or 10 days. The automotive division is a major producer of car and truck frames.

### Then You're in Trouble

## *Need a Drink at Dawn?*

Waiting for an alcoholic to "hit bottom" and ask for help is wrong, a Canadian physician told the Michigan Institute for Alcoholism yesterday.

Dr. R. Gordon Bell of Toronto's Bell Clinic said the theory that those who treat alcoholics must wait until the alcoholics seek them out is false.

**Approximately 75 representatives from 13 alcoholic treatment facilities throughout the state are attending the two-day meeting at Haven Hill Lodge in Highland Township.**

Representatives from Pontiac are Mrs. Francis Zalants, director of the Pontiac Alcoholism Information Center; Dr. Leon F. Cobb; Major Ernest Alder of the Salvation Army; the Rev. William LaFountain, pastor of the Lutheran Church of the Ascension; and Mrs. Yvonne Rocheleau, secretary of the Pontiac center.

Members of the Michigan Legislature are discussing with the Institute today the state's program for treatment of alcoholics and means of financing it.

**They are Rep. Lloyd Anderson (R-Waterford Township) and Rep. Joseph A. Gillis Jr. (D-Detroit), both members of the House Health Committee, and Rep. Andrew Cobb, (R-Eaton), of the House Liquor Control Committee.**

**When a person begins to need a drink in the morning he already is treating his dependence on alcohol and has burned out his tolerance, Dr. Bell told the Institute.**

He said the alcoholic goes through several stages before becoming addicted to drink.

"The drinker first feels the welcome effects of alcohol," Dr. Bell said. "Being a social drinker, his life still includes his family, his **community and occupational activities.**

"Gradually he drinks more and starts dropping his friends and activities."

**The problem, said Dr. Bell, is that many persons do not recognize they are on the road to becoming alcoholics.**

Once someone starts depending on morning drinks, Dr. Bell said, he is in serious need of treatment.

"Many morning drinkers have hallucinations and aren't aware of it," he said. "They hear 'voices' and believe they actually exist.

"Without the morning drink, they would be subject to shakes and convulsions, but they don't know it. The drink is there."

★ ★ ★

Alcoholics finally begin having guilt feelings and invent alibis such as "it's part of my job to entertain," Dr. Bell said.

**Finally, he said, the alcoholic breaks down completely, and drinking is his life.**

Dr. Bell urged treatment for drinkers before they become addicted.

The legislators this morning discussed the possibility of increasing the shares of the state liquor license fees turned over to the State Board of Alcoholism for support of local programs."

## City Bus Fares Up 5 Cents for Adults Next Monday

Bus fares are rising a nickel in Pontiac Monday, it was announced today.

The adult fare on Pontiac City Lines, Inc. buses will become 25 cents, said Earl W. Dreasher, manager. But tokens will be back for the first time in a year, selling at five for $1.10, he added.

This puts the price of a token at 22 cents, only two cents more than the current cash fare, Dreasher pointed out.

**There will be no change in children's rates, Dreasher said. They will remain 15 cents for students 12 years old or older and a dime for children 6 to 12.**

The new prices will be comparable with fares charged in most Michigan cities, Dreasher said.

★ ★ ★

Most municipal bus lines are faced with the same economic problems as Pontiac's — a steady decline in patronage in the face of ever-increasing operation costs.

**Dreasher said that operational costs ate up an average 96.7 per cent of the compny's gross earnings in the 11-month period between Sept. 1, 1958 and Aug. 1 of this year.**

The percentage rose to over 99 per cent in July and August of this year, he said.

★ ★ ★

The company has an agreement with the city not to boost fares unless the ratio of operating costs to earnings reaches the 90 per cent point.

**BOOST HELD OFF**

It has held off boosting fares for more than a year, Dreasher pointed out.

**Patronage averaged between 104,000 and 122,000 this summer, roughly the same as last summer, Dreasher said. In comparison, during the World War II years, the company was enjoying a patronage five times as high.**

Dreasher said there are no cutbacks contemplated in service.

The bus lines manager pointed out that higher wages for bus drivers was not a factor in the rise in fares. Drivers asked for a pay increase when their contract ran out in March. But a new contract has not been signed yet.

## Pneumonia Assails Last Civil War Vet

HOUSTON, Tex. (UPI) — Col. Walter Williams, the lone survivor of the war between the states, has suffered another attack of pneumonia but is recovering, his doctor revealed today.

★ ★ ★

Williams, who will be 117 years old Nov. 14, contracted pneumonia last Thursday and was placed in an oxygen tent for four days, Dr. Russel Wolfe, his physican said.

★ ★ ★

Dr. Wolfe said the aged veteran is recovering from the attack and added that his condition today was considered "pretty good."

CARSON CITY, Nev. (UPI) — Carson City authorities rushed into action when they received a report that two carloads of teenagers were involved in a running "gun battle" on city streets.

The guns were water pistols.

## *Pontiac Schools Escape Tax Pinch for Now*

As school systems throughout the state, financially on their knees, await the coup de grace from Gov. Williams, Pontiac faces no immediate effect of the tightening cash bind, it was reported today.

Officials of school systems, such as Birmingham and Oxford, who have been operating on borrowed monies, last night learned they also are existing on borrowed time.

Williams told 19 educators at a late session yesterday that the state might have to skip a 22 million dollar payment due local districts next month.

**With credit waning, many representatives said the move would close school doors in their districts before the end of the year.**

Pontiac Superintendent of Schools Dana P. Whitmer expressed hope that the state will have found some source of revenue to pay the school systems by the time Pontiac feels the pinch sometime in early spring.

Whitmer explained that the school system has received its share of local taxes from the summer collection, "sufficient to carry us through the first eight months of the school year."

**In jeopardy now are the school systems where local taxes are not collected until December. They have been operating on borrowed funds.**

The 22 million dollar installment of the primary school interest fund from the state is due this month. Pontiac's share, due Oct. 25, is approximately $200,000.

The Pontiac school system is slated for $3,211,545 in state aid paid in six installments, August, October, December, February, April and June.

The state already has fallen 40 million dollars behind in school obligations.

★ ★ ★

Present at last night's meeting with the governor was Norman Wolfe, assistant superintendent of Birmingham Schools and president of the Michigan Association of School Board Officials.

**He asked Williams: "Isn't there a constitutional injunction requiring that the primary school interest fund installment be paid?"**

Williams replied, "It's a constitutional injunction, but if you've got no money any kind of an injunction doesn't do you much good."

R. A. Ambrose, superintendent of Oxford Schools and a representative of the Michigan Association of School Administrators, said it appeared local schools might not be able to last out the school year.

★ ★ ★

"If we don't get some money," said Ambrose, "we're going to be out of business before the end of the year. We've got to raise 75 or 100 million dollars in new taxes, besides getting the ready cash in the Veterans Trust Fund.

"The school people have got to do something to educate the people as to the unusual needs. The time is coming when the schools are just going to have to close their doors unless we get some money."

Five or six of the educators brought up the state income tax in one way or another in a discussion of possible tax remedies, although none gave it strong endorsement.

★ ★ ★

**Wolfe said Michigan schools lost 120 million dollars with the abolishment of the use tax. The state owes the schools 25 million from last year and $40,300,000 already this year.**

"We need the Veterans Fund for emergency relief," he said. "The Legislature will meet on this problem again Thursday, but the majority of legislators have gone on record that they don't want to touch it for fear the money will not be paid back.

★ ★ ★

"As for Birmingham, if we don't get any more money, we'll get hit sometime after the first of the year. The majority of the school systems will get hit by the first of December.

"They won't have the neces-

# World Hails Soviet Moon Pictures

AP Wirephoto

**WHAT RUSSIA SAYS IS HIDDEN SIDE OF MOON** — Russia claims this is the hidden side of the moon as photographed by instruments in their Lunik III. According to the Russians, identifiable places are: 1—Large 300 kilometer in diameter sea crater, "Moscow Sea;" 2—"Astronauts Bay" of "Moscow Sea;" 3 — Continuation of South Sea on moon's reverse side; 4 — Crater of main "Tziolkovsky Hill;" 5 — Crater of central "Lomonosov Hill;" 6 — "Joliot Curie" crater; 7—"Sovietsky" mountain range; 8—"Dream Sea." Solid line across diagram shows moon's equator; dotted line is border line between seen and unseen part of moon from the earth. Solid lines around objects show absolutely established objects determined in preliminary processing. Dotted lines around objects show objects needing form clarity; fine dots around objects show objects on which clarification is now taking place. Remaining parts — further processing now taking place on received photo material. Objects with Roman numbers are those on seen side of moon: I — Gumboldt Sea; II — Sea of Crisis; III — Regional Sea; IV — Sea of Waves; V — Smith Sea; VI — Sea of Fertility; VII — South Sea.

## Shots of Planets May Be Possible

### Russia Loses No Time Naming All Mountains and Seas Visible

MOSCOW (AP) — The Soviet Union boasted today that Lunik III's history-making transmission of pictures of the hidden side of the moon heralds photographic surveys of the planets beyond.

Tass, the official Soviet news agency, said the successful operation of the space vehicle and its picture-taking apparatus "opens up broad prospects for studying the planets beyond."

★ ★ ★

A Soviet scientist, Vasiliy Lobastov, said Lunik's transmission of its moon shot "has inaugurated the most perfect method of studying planets — through rocket photography."

★ ★ ★

The world got its first look today at the far side of the moon. Photographs released Monday night indicate the area is covered mostly with mountains, Tass said, with only a few of the craters that pockmark the side the earth sees.

**MORE MOUNTAINS**

First reports indicated the hidden side of the earth's natural satellite was largely unmarked plains, "considerably more monotonous than the side turned toward the earth," as one announcement said.

Scientists in America and throughout the world hailed the Soviet photographs as a remarkable scientific achievement. Many said the pictures fitted in with their preconceived notions of the landscape of the moon's far side.

★ ★ ★

The Soviets lost no time naming visible features. They called a 180-mile wide depression north of the lunar equator "The Sea of Moscow." A bay in the southern part of the depression was named "The Bay of Astronauts."

A team of Soviet scientists also tagged six other landmarks. Scientists from many countries participated in naming the so-called seas, mountains and craters located on the moon's side facing the earth.

**NEW YORK (AP) — The Russians may get to name everything on the back side of the moon. Through the centuries, the discoverer traditionally has had the right to decide what to call his discovery.**

**This likely will hold if Russia can map all the moon's other side before the United States. And Soviet prospects appear good, considering the success of its recent moon-scanning rocket.**

Moscow newspapers today carried detailed information on the design and operation of Lunik III, which was launched, and took its pictures during a 40-minute period Oct. 7, then returned from its moon journey Oct. 18 to begin an orbit around the earth.

Tass said the 614-pound traveler was between 37,284 and 43,498 miles from the moon when its photographic equipment was switched on.

★ ★ ★

"The taking of the photos," Tass continued, "was timed so that the station on its orbit should be between the moon and the sun, which lit about 70 per cent of the unseen side of the moon."

**CONTROLLED FROM EARTH**

The news agency said all equipment aboard Lunik was "controlled from posts on the earth through a radio line and autonomous program devices on board."

"This combined system," it said, "makes it possible to control scientific experiments in a most convenient way and to obtain information from any section of the orbit within the limits of radio visibility from the observation posts on earth."

★ ★ ★

To carry out its photographic assignment, the flying laboratory was equipped "with a system of orientation and photo television and photo television apparatus with special equipment for automatically processing the film."

★ ★ ★

The Soviet reports did not indicate when the pictures were transmitted to earth. They did say the operation was carried out over distances up to 290,000 miles.

## Campaign Days in Philippines Violent; 50 Dead

MANILA (AP)—The death toll in the Philippine national election campaign has risen to more than 50, with five killed and nine wounded Monday.

★ ★ ★

The nation's largest newspaper, the Manila Times, called for an end to "this wave of slaughter." It termed the bloodshed unprecedented even in the Philippines, where violence has marked every election since the nation gained independence from the United States in 1946.

★ ★ ★

At stake in the elections are governorships and local posts in many provinces and cities where leaders were formerly appointed by national government.

Winners will have jobs for faithful followers at their disposal, and a third of the Philippine work force is unemployed or underemployed.

## Two Hurt in Crash at Baldwin Corner

Two persons suffered minor injuries in a two-car accident at the intersection of Mansfield and Baldwin avenues last night.

Douglas Tribble, 29, of 200 Sanderson Ave., and three-year-old Becky Jo Tribble, same address, were treated for bruises at Pontiac General Hospital and released.

★ ★ ★

Tribble was driving south on Baldwin when his car collided with one driven by Nellie R. Thompson, 33, 6140 Waldon Rd., Independence Township.

She was driving west on Mansfield.

LARRY HEALEY

## Williams Lake Area Knows Carrier Healey

Ten Pontiac Press newspaperboys have received award certificates from the Inland Daily Press Association as outstanding carrier boys.

**This is the first in a series of sketches about them, telling how they have benefitted from their routes.**

All Press readers in the Williams Lake area know 14-year-old Larry Healey.

A freshman at John D. Pierce Junior High School, Larry, who lives at 3250 Warringham St., Waterford Township, has been a Press newsboy for two years.

After finishing high school, Larry plans to go to business college in Ypsilanti. Michigan State University Oakland is another possibility, he says.

His hobbies are skeet shooting and playing the cornet.

He has his own instrument, paid for with his route earnings. His job as a carrier has enabled him to purchase a motor scooter and he also buys his own clothing.

**The Day in Birmingham**

## No Water Rate Hike Here — for the Present, at Least

BIRMINGHAM — Residents here are not in for a hike in water rates, at least not right now.

The present water charge will remain unchanged until a city-conducted study is completed.

The study will determine what effect an area blanket rate increase made by the Southeastern Oakland County Water Authority will have on the financial position of the city's water department.

The City Commission decided on this action last night after following a recommendation made by City Manager L. R. Gare, in a report.

**The Water Authority had been notified by the Department of Water Supply of Detroit that a rate increase of 12 cents per 1,000 cubic feet would become effective Nov. 1.**

The Authority had been informed that it would be necessary to increase the present rate of $1.30 per $1,000 cubic feet to $1.42.

This increase will cost Birmingham about $15,000 more a year.

The Water Authority had notified area municipalities it would absorb the rate increase for November and December. This will cost the Water Authority about $13,000.

Gare, in his report, said that if at a future date it appears any adjustment is necessary, a report will be submitted to the commission.

The commission also at last night's meeting accepted $7,032 donated by the Central Business District Development Committee to defray cost of securing the services of a planning consultant.

The consultant, who would be paid $100 a month for 24 months, would work on a central business district development plan.

In offering the money to the city, Wilbur Mason, chairman of the CBDD committee, said that "very few strings were attached to the money."

**Mason told them the CBDD committee will assume the responsibility of keeping its members and contributors informed as to the direction, progress and cost of the program.**

"By accepting these funds," Mason said, "we do not obligate the city to put into effect any program or project resulting from the study. However, we do expect that any resulting plans or reports be made available ot the public."

Authorization to negotiate with the State Highway Department in an attempt to re-install a traffic light at Woodward avenue and Chapin street was given Police Chief Ralph W. Moxley by the Commission.

Moxley said that a report from Traffic Consultant T. M. Vanderstempel showed that "a traffic signal at this location appears to be most desirable from the standpoint of vehicles attempting to cross either portion of the intersection."

**"With the heavy volumes of traffic on Woodward," the report said, "the gaps in traffic on the street are very limited during rush hours. We realize the necessity of moving these heavy volumes on U.S. 10 with a minimum of interruption to their flow.**

"We therefore feel that a signal should be re-installed at this intersection, if it can possibly be interconnected and synchronized with those signals to the north and south so as to cause a minimum of interference with U.S. 10 traffic."

## Await Steel Decision After Kaiser Settles

(Continued From Page One)

dustry's solid front Monday night by signing a separate peace with the union after nearly five hours of behind-doors negotiations in Washington.

**WON'T WAVER**

But the other 11 big companies said Kaiser's defection would not affect their determination to resist what they termed an inflationary settlement.

The new contract calls for an added 10 cents in fringe benefits for the first year and 12½ cents more the second year, including a 7-cents-an-hour pay boost. Company officials declined to say what Kaiser workers made before the strike began. The industry-wide average was $3.11 an hour.

★ ★ ★

Union committees meet again today with some of the other companies in Pittsburgh and other sections of the country.

Top-level talks between the union and the industry's regular four-man bargaining team have been recessed. R. Conrad Cooper, chief industry negotiator and vice president of U.S. Steel Corp., said no further meetings are scheduled.

★ ★ ★

Top-level talks had been scheduled Monday in Pittsburgh but were called off after Steelworkers' president David J. McDonald went to Washington to meet with Kaiser officials.

No matter what the three-judge panel rules today, the union or the government is expected to appeal to the Supreme Court. This could bring another delay in execution of the injunction.

## Nims Reveals Tax Possibilities

LANSING (AP)—There are plenty of untapped tax sources, but each has barriers, shortcomings or unpopular features, says State Revenue Commissioner Louis M. Nims.

At the request of Gov. Williams, Nims dug into the Revenue Department files yesterday and put together a list of potential revenue sources for the Legislature to consider.

He cited these possibilities:

1. Wholesale tax of 1½ of one per cent, which would produce about 47 million dollars a year, or 28 millions for the final seven months of fiscal 1959-1960. This, said Nims, might clash with the constitutional ban against a sales tax exceeding three per cent.

2. Elimination of sales tax exemptions on agricultural equipment and industrial processing, worth 50 millions a year or 30 millions in seven months. Strong farm and industry lobbies are opposed to this.

**3. One mill state property tax, figured on a state assessed valuation of $22,438,384,100, which would produce 22½ million dollars in 1960 by making it effective Jan. 1.**

4. Penny boost in five-cents-per-pack tax on cigarettes, worth nine million dollars a year, $5,250,000 during the seven months.

5. Doubling beer taxes from $1.25 per barrel, a seven million dollar annual yield and four millions in seven months.

6. A 20 per cent wholesale tobacco tax — three millions and $1,750,000.

**7. One million increase in business activities tax, retaining the present credit clause and making it retroactive to July 1 — six million dollars.**

8. Three per cent tax on foreign insurance company premiums — seven millions and $4,200,000.

9. Two per cent gross income tax modeled on the Indiana Plan, together with repeal of present sales, use, intangibles, business activities and other taxes — 185 millions and 105 millions.

10. Flat rate income tax of one half per cent based on federal exemptions — 60 millions and 48 millions.

★ ★ ★

11. Two per cent personal income tax, combined with repeal of corporation franchise, BAT and intangibles taxes — 140 millions and 112 millions.

**12. Five per cent corporation income tax, combined with repeal of corporation franchise, BAT and intangibles taxes — 110 millions and 99 millions if retroactive to July 1.**

13. Repeal of existing inheritance tax and enactment of estate and gift taxes at rates ranging from six to 2 per cent with a $30,000 exemption and a $50,000 life insurance exemption — 7[illegible] millions if retroactive to July 1.

**14. Piggyback personal income tax at seven per cent of the federal income tax — 128 millions and 103 millions.**

15. Removal of sales tax exemptions on services such as dry cleaning and haircuts — 25 million dollars a year.

Missing was a proposal by Frank Seidman, Grand Rapids accountant and chairman of the Citizens Advisory Group to the Conlin Legislative tax committee, to double the business activities tax, currently producing about 60 million dollars a year.

Williams also asked Nims to figure yields on a variety of other small "nuisance taxes" such as real estate transfers.

## Sheriff Facing Furniture Suit

### Seek Return of Goods Taken From Home as Result of Divorce Plea

Legal action to force Oakland County Sheriff Frank W. Irons to return a household of furniture to a 14-room Bloomfield Township home has begun. The furniture was taken as the result of a divorce suit.

Through his attorney Philip E. Rowston, James P. Chapman, a Detroit public relations man, seeks a writ of mandamus in Circuit Court to force Irons to return all property taken July 31 from the Chapman home at 3300 Lone Pine Rd.

Mrs. Chapman is the granddaughter of the late Edward C. Kinsel, founder of the Kinsel drug store chain.

**The petition said Deputy Herbert R. Radunz "completely stripped" the home of furniture, appliances, china, silver, glassware, clothing, pets and livestock.**

"They even took a soap dish," Rowston said.

He said Chapman, who was sued by his attractive wife, Betty Ellen, for cruelty, has had to stay with friends since.

A hearing has been set for next Monday to determine whether the writ should be issued.

The property, now housed in a storage firm, was removed under a writ of replevin action started by Mrs. Chapman.

This began after Judge William J. Beer refused a divorce in June. It has been appealed to the State Supreme Court.

**On Aug. 3 Judge Clark J. Adams ordered all property held by Irons under the writ of replevin returned forthwith to Chapman since it had "no especial value to" Mrs. Chapman.**

Rowston's request for writ of mandamus said Irons and his deputies "have steadfastly failed, neglected and refused to return the property."

## Three Nations Resume Nuclear Test Ban Talks

**GENEVA (AP) — The United States, Britain and the Soviet Union resumed their nuclear test ban treaty talks here today after a two-month recess.**

**Britain's Sir Michael Wright presided over the closed session in Geneva's Palace of Nations. Ambassador James J. Wadsworth represented the United States, and Semyon Tsarapkin the Soviet Union.**

**Circuit Court Cracks Down**

## 8 Burglars Go to Jackson

A crackdown on county burglars was evident in Oakland County Circuit Court yesterday as Judges William J. Beer and Frank L. Doty sent eight to Jackson Prison.

There had been a rash of burglaries in the area.

**Judge Beer, who earlier this month said he intended to be "far more severe" with burglars, imposed stiff prison sentences on four men for breaking and entering and on two who pleaded guilty to larceny from buildings.**

Judge Doty sentenced two to prison for the July 26 burglary of $400 from the safe at the Richardson Farm Dairy, 7350 Highland Rd., Waterford Township.

Joseph J. F. Crampton, 20, of 32328 Brush St., Madison Heights, received 1½ to 15 years, while his companion William D. O'Guin, 25, of 327 W. Otis Ave., Hazel Park, received 5 to 15 years. Both pleaded guilty Oct. 8 to a second count of breaking and entering in the nighttime.

★ ★ ★

For the theft of three rifles, cigarettes and $19 from a hardware store, Raymond T. Wilson, 21, of 9082 Ashdown St., and Jack H. Neville, 19, of 9138 Mandon St., both of Milford, received 2 to 15 years and 1 to 15 year sentences, respectively, from Judge Beer.

★ ★ ★

A 19-year-old Ortonville youth, Robert L. Thompson, of 211 Seymour Lake Rd. was sentenced to six months to 15 years in prison for taking items ranging from candy bars to motor oil from a gas station in Independence Township in September.

★ ★ ★

**Robert E. Thompson, 42, of 15 S. Williams Lake Rd. was sentenced to Jackson for the fourth time since 1949 for breaking into a gas station at 714 Baldwin Ave. last month. Thompson, who was caught in the act, pleaded guilty Oct. 5. He received 4 to 15 years.**

Judge Beer handed out a 2 to 4 year term to David B. Wilson, 20, of 29 Cooley Lake Rd., for the theft of a wallet containing $531 and a revolver from a city home in August. Wilson pleaded guilty Oct. 5 to larceny in a building.

★ ★ ★

Upon his arrest, Wilson also admitted a string of 25 other burglaries, police said.

★ ★ ★

After pleading guilty to larceny from a building David Cummings, 19, of 2909 Woodelm St., Auburn Heights, was given 1 to 4 years in prison.

★ ★ ★

He pleaded guilty Oct. 12 to the theft of $150 and a .22 caliber pistol from a Troy home last month.

## Trying to Locate 2 in Knifing

### Police Hunting Heavy, Short Man; Also Tall Chap in Beer Brawl

Sheriff's detectives today were trying to locate a short, heavy man and a tall, thin man in connection with the knifing of three men in an Auburn Heights brawl early Sunday.

★ ★ ★

Most seriously injured in the fight was Louis Vanitvelt, 26, of 45 Franklin Rd. He has not regained consciousness since being slashed across the chest, neck, right arm and left side of his body.

**Vanitvelt remained in critical condition today at St. Joseph Mercy Hospital. He was one of five men who fought with two unidentified men in front of an Auburn Heights bar shortly before 2 a.m. Sunday.**

Detectives said lie detector tests were given last night to two of the men involved, Ronnie Shane, 21, and Clarence Reed, 21, both of Lake Orion.

"The tests indicate that five men attempted to take some beer away from one of the unidentified men, causing the fight," said Undersheriff Donald M. Francis.

★ ★ ★

One of the unidentified men was described as being 6-feet 4, of slim build, wearing a blue gas station attendant's uniform. He was carrying a chain in one hand and a knife in the other, deputies were told.

**The other man was about 5-feet 9, of heavy build, about 26 years old, wearing a brown and white checkered shirt and khaki slacks. He was carrying a bag of beer bottles.**

Also injured in the fight were Robert Leach, 21, of 3440 Indianwood Rd., and Richard Cooper, 21, of 65 Sipples St., both of Orion Township.

They were reported "doing satisfactorily" today, by a hospital spokesman.

## Can't Explain Weather

LOS ANGELES (UPI) — The U.S. Weather Bureau's office here took note of yesterday's unexpected rain by reporting "Drizzles continued and in fact increased in some local areas to traces of rain although there still is no real good reason for it."

## 6 Admit Their Guilt on Vandalism Count

(Continued From Page One)

**Gary P. Beach, 18, Kent R. See, 20, and Thomas F. Robey, 19.**

Many of the boys' mothers, fathers and relatives appeared with them today in court.

Cecil H. Weber, 17, and James B. Price Jr., 19, demanded trials.

★ ★ ★

The boys served but four days of the sentence and were released on $500 bonds each upon notification of appeals.

Two other members of the gang, Gary L. Norman, 18, and Gilbert L. Holman, 17, did not appeal and are serving their 25 days.

Justice Stamp cut short the term for Paul D. Smith, 18, so he could enter the Army.

## Objections to Delay Air Service for City

Approval of airline service for Pontiac will be delayed while other Michigan cities fight for more service for themselves.

Seven have demanded more, and their pleas will be the subject of a hearing by the Civil Aeronautics Board late this year or early next.

Until the CAB reaches a decision, the plan for more short-haul service in Michigan will be held up.

**No objections have been filed with the CAB on the proposal to include Pontiac as a stop-off on a Detroit-Cheboygan route of North Central Airlines.**

Nor has anyone complained to the CAB that Pontiac should be granted more service than this at the present time.

But Kalamazoo, Midland, Bay City, Saginaw, Reed City, Traverse City and Muskegon all took exceptions to service proposed for them in the recommendations of CAB examiner Barron Fredericks.

**NOT ENOUGH**

The cities claim that Fredericks is not proposing enough north-south short-haul service to meet the state's needs.

Frederick's report, turned in last month, climaxed a three-year study of the lack of air service in the Great Lakes region.

**More than a dozen exceptions to Frederick's proposals have been received so far and more are expected by the deadline Friday.**

**The CAB will conduct open hearings in Washington sometime in December.**

**Pontiac officials expect that the local service, if approved, will begin shortly after completion of the terminal-tower project next summer.**

## Key Legislators Meet With Gov. Williams

(Continued From Page One)

officials thought there was a chance this would happen.

**"The people should know the story but should not be taken in by scare propaganda," said Sen. Frank D. Beadle (R-St. Clair), Senate majority leader and one of the group meeting with Williams today.**

"I am confident that the Legislature will find the ways and means to meet essential budget commitments without crippling cuts in any program," he said.

"Economy should be the watchword in all government operations. Not a penny should be spent except for essential purposes in this emergency situation.

"But all necessary and essential services should and will be maintained."

**WILLIAMS TALKS**

Said Williams:

"I hope both sides will throw politics in the ashcan for the time being and get a program."

Meanwhile, he said, the Legislature must agree to make use of the 50-million-dollar veterans trust fund.

"We need the trust fund for the cash crisis and it's a one-shot thing," he said. "The cash crisis and the revenue crisis cannot be treated as separate items. Otherwise, we are only buying more trouble in the future."

**With the state facing a $93,500,000 cash shortage Nov. 30, Revenue Commissioner Louis M. Nims told the governor an income tax holds the only long-range solution to Michigan's money troubles.**

Republican legislators, however, have fought against an income levy.

## As a 3-Year-Old Sees It

LONDON (UPI) — The Daily Telegraph today published a letter from a mother who described her three - year - old daughter's first comment on airplane skywriting.

"He's writing again," said the girl.

"Who?" asked the mother.

"God," replied the child.

## Medical Society Official to Speak on Mental Health

Dr. Everette Gustafson, public service officer of the Oakland County Medical Society, will speak tonight on "Mental Health . . . Its Beginnings" before a Michigan State University Oakland Cooperative Extension group. The speech is at 8 p.m. in the Will Rogers School.

Gustafson was active in a La Crosse, Wis., mental health committee which dealt with community mental health problems before he came to Pontiac.

Tonight's talk is the first of a series set up by the Society as a speaker's bureau.

★ ★ ★

The bureau provides area doctors to speak on topical subjects before local service clubs, civic, community and educational groups as a public service.

Some of the topics include, "So You Are Neurotic," "Maternal Welfare," "Costs of Medical Care," "Telephone Medicine," "How to Choose a Doctor," "Illegitimacy Is on the Rise," and many others.

Participating in the new program are doctors Charles P. Barker of Birmingham; J. R. Blakeney of Pontiac; Douglas Chandler of Birmingham; Alan L. Cline of Pontiac; Roger E. Crum of Pontiac; William J. Donnelly of Pontiac; Harold A. Furlong of Pontiac; Ferdinand Gaensbauer of Pontiac; Edward M. Gates of Pontiac; Everette Gustafson of Pontiac; Merle A. Haanes of Pontiac; Michael C. Kozonis of Pontiac; Robert T. Lyons of Pontiac; Robert Mason of Pontiac; E. J. Mueller of Birmingham; John F. Naz of Clarkston; M. G. Prosser of Pontiac; James R. Quint of Pontiac; Donald S. Smith of Pontiac; and F. H. O. Warner of Drayton Plains.

# Kennedy Eyes Dramatic Bid

## Senator May Decide to Move Into California to Gain July Lead

WASHINGTON (AP) — Some friends reportedly are urging Sen. John F. Kennedy (D-Mass) to challenge Gov. Edmund G. Brown in the California primary in an effort to nail down the 1960 Democratic presidential nomination.

Brown has told all of the party's presidential hopefuls in unmistakable language to stay out of California's June 7 presidential primary. He has said he wants to head a unified delegation as a favorite son.

★ ★ ★

California law would bind the 81-vote delegation to the primary winner until two-thirds of the state delegates decided to change.

★ ★ ★

Brown has left open his own availability for top place on the ticket.

There is a growing belief among Kennedy's friends that Brown feels that if his party wants a Roman Catholic as its No. 1 nominee it ought to take a look at him as well as at the Massachusetts senator.

Among Kennedy's friends in California there is also the feeling that Brown would not be invincible if the senator should decide to make an all-out campaign in the primary.

★ ★ ★

Some of these supporters believe Kennedy may be faced with the necessity of making some such bold move if he is to go into the July convention in Los Angeles with a lead which would make it difficult for opponents to put together a stop-Kennedy movement.

# High Court to Review Loyalty Oath Ruling

WASHINGTON (AP) — The Supreme Court Monday agreed to review a decision upholding the right of the State of Washington to require a loyalty oath of all its employes.

The decision by the Washington State Supreme Court was appealed to the highest tribunal by two professors of the University of Washington.

★ ★ ★

The professors, Howard L. Nostrand and Max Savelle, challenged the loyalty oath requirement on the ground it violated U.S. constitutional guarantees of freedom of speech, association and assembly, and the guarantee of due process of law.

★ ★ ★

State employes who refuse to take the oath face dismissal. Those who take it are required to state whether they are members of the Communist party or other subversive organization.

## Williams Heads Dinner Set by U.S. Democrats

WASHINGTON (UPI) — The Democratic National Committee's annual Citizenship Awards Dinner, sponsored by the party's Nationalities Division headed by Gov. G. Mennen Williams, will be held in Philadelphia Sunday, Nov. 29.

Paul M. Butler, the party's national chairman, said the dinner program will include a day-long conference on recommendations for the 1960 Democratic platform.

The awards consist of a replica of the Statue of Liberty given to men and women selected for their service to the cause of Americanism.

## New Owners Acquire Pavilion at Fruitport

FRUITPORT (AP) — A Lansing couple, Mr. and Mrs. Walter J. Stevenson, has acquired the Fruitport Pavilion, long a popular west Michigan summer attraction for dancers and bathers.

Financial details were not disclosed in the Saturday transaction with Mr. and Mrs. Frank Lockage, operators of the pavilion for 30 of its 58 years. The pavilion offers big name band attractions and the new owners plan expensive renovations for expanded catering to boaters arriving via Spring Lake.

### Watches Her Build Roads Pointing South

# Pakistan Fears Strong Red China

By PHIL NEWSOM
UPI Foreign Editor

Pakistan believes that Red China will be in a position to attack both Pakistan and India in five years.

Both countries share a common apprehnsion over the network of roads being built by Soviet Russian engineers in Afghanistan and by the Red Chinese in conquered Tibet.

**One road newly built by the Red Chinese allegedly with Tibetan slave labor cuts directly across the disputed territory where Indian and Chinese troops already have clashed.**

The latter runs from China's Sinkiang province to Tibet, through the towering Himalaya mountains where any road at all is a major engineering feat.

It, like the Russian-built roads in Afghanistan, points south, toward the heart of Pakistan and India. Red Chinese airfields also dot the area.

★ ★ ★

The fear uniting the two nations provides the best possibility now that they will settle their own frequently bloody differences in a common defense against a greater enemy.

One immediate result has been announcement of settlement of a long-standing border dispute between India and East Pakistan. There are indications that a better atmosphere has been established for settlement of the Kashmir dispute between the two nations, each of whom now holds a part of Kashmir territory along a shaky cease-fire line.

**The long-standing dispute over use of Indus River waters also seems virtually settled.**

The Indus has its headwaters in the deep gorges of that part of Kashmir held by India. Thence it flows into Pakistan's Punjab which without it would be desert.

★ ★ ★

Both nations have a vital interest in the areas now claimed by China.

No formal demands yet have been made on Pakistan by the Reds but Red Chinese maps claim Pakistan as well as Indian lands.

The Ladakh area where Red Chinese surprised an Indian police patrol, killing 17 of its members and taking others prisoner, is valuable only strategically.

**It has little arable land and is thinly populated by a people who have been the pawns of conquerors for 2,000 years.**

Its huge mountain peaks include such famous names as Godwin Austin (K-2) and Broad Peak, all noted challenges to ambitious mountain climbers.

★ ★ ★

The general area long has been known as Indian Tibet. Its people are of Tibetan origin and its for bidding geography also matches that of Tibet. For hundreds of years the people of Ladakh, itself a part of Kashmir, paid tribute to or were under the domination of Tibetan rulers at Lhasa.

**LANSING (AP) — Message to young goblins, ghosts and witches from Sec. of State James M. Hare:**

**"Please don't soap or wax up car windows on your Halloween excursions."**

**"At this time of the year with wet leaves, early darkness, autumn drizzles and many adult and children pedestrians under way at dusk, our safety problem gets abruptly worse," said Hare, who also is State Safety Commission chairman.**

# Cold Snap Ends '59 Hurricanes

## Gracie Called Worst in Past Decide; Killed 5, Damage in Millions

MIAMI (UPI) — Florida's first cold snap apparently has written a chilly but welcome finale to the 1959 hurricane season, the Miami Weather Bureau reports.

The official recap won't come until later, but there was little question that this season produced, in Hurricane Gracie, one of the fiercest storms of the past decade.

**Ten tropical storms were spawned, the average in recent years. Five of them turned into hurricanes, again the average.**

But there was nothing average about Gracie, which rammed into the South Carolina coast near Charleston Sept. 29 with winds of more than 150 miles an hour. Gracie was tropical storm No. 7.

At least five deaths were attributed to the storm. Several other persons died in boating and automobile accidents indirectly caused by it. Property damage estimates were in the millions.

Although the official hurricane season doesn't end until Nov. 15, the weather bureau said the weekend cold front would stamp out one of the "ingredients" which tropical storms need to form — warm air and sea.

The infant died yesterday at St. Joseph Mercy Hosiptal, Pontiac, 11 hours after birth.

Surviving besides the parents are a sister, Robin, and a brother, Gene, both at home.

## Detroit FHA Inspector Dies of Heart Attack

DETROIT (AP) — Roland F. Loeffler, 69, chief inspector for the Detroit office of the Federal Housing Administration, died Monday of a heart attack.

Loeffler operated a construction firm before joining the government agency in 1938. Funeral service will be held Thursday in Detroit.

**"CREDO" STAMP** — This is the first of the four-cent "credo" stamps. It features the words of George Washington. The stamp, printed in red and blue on white, will be issued in January, 1960, at Mount Vernon, Va. The initial six of this series will include words by Thomas Jefferson, Benjamin Franklin, Patrick Henry, Francis Scott Key and Abraham Lincoln.

## Enters Innocent Plea; Denies Youth's Plan

Oakland County Circuit Judge William J. Beer refused to accept a guilty plea from an 18-year-old accused burglar from Utica who said he was told by two Rochester police detectives he might get a lighter sentence if he told the truth.

William H. Dickson, of 2121 Burnham St., was returned to the county jail after Judge Beer entered a plea of innocent for him. The judge told Chief Assistant Prosecutor George F. Taylor to look into Dickson's charge.

Dickson had pleaded guilty to breaking into the Carmichael School Bus Lines garage Oct. 17. The youth, who police said stole $600, was arrested by Rochester police when he was reported spending a lot of money in local stores.

## Olds Sales Manager Dies After Illness

ANN ARBOR (AP)—Victor H. Sutherlen, 45, general sales manager for Oldsmobile Division of General Motors for three years, died here yesterday after a brief illness.

A native of Fullerton, Calif., Sutherlen joined Oldsmobile at Los Angeles in 1936 and was promoted to general sales manager in 1956 at Lansing.

He is survived by his wife, Mary, and five children. Funeral arrangements were incomplete.

"Naval stores," the trade term for turpentine and rosin, were given that name back in the days when pitch and tar were used to lubricate the ropes and to calk the seams of wooden sailing vessels.

Don't Invite Tragedy

# Beware That Ghostly Eve!

By PHYLLIS BATTELLE

NEW YORK — With "beggars' or "trick-or-treat" night just around the next witching hour, the time has come to offer some safety tips for the preservation of small spooks.

They come from the National Safety Council, the group which issues those frightening, and reasonably accurate, predictions of holiday weekend fatalities and household accidents.

**NSC does not, thank goodness, anticipate an horrendous Halloween season this year; but it does beg to remind our witches not to chew on their broom handles, and warns our skeletons that candy leads to cavities.**

Here are their other reminders to Americans:

★ ★ ★

1—Be sure a child's Halloween costume is flameproof and light-colored, so it's easier to see at night. A one or two-piece skelton suit can be shipped up in a hurry from inexpensive muslin.

2—Be certain the outfits aren't tripping hazards, and that they won't catch on bushes, hedges, or fences.

**3—Paint false faces on children. Masks are dangerous because they restrict vision. They also provide a danger of suffocation. Use cosmetics and burnt cork for an adolescent goblin look.**

4—Use replecting tape, liquid, or bands on children's costumes, capes, jack-o-lanterns, broomsticks and hats.

★ ★ ★

5—Don't allow a child to use candles or torches. If he carries a lantern( a good idea for safety) make sure it's lighted by flashlight batteries.

NO SWORDS

6—never let the child carry a knife, sword, or other sharp instrument. If he must appear vicious — make a dummy weapon.

7—Remind even the savviest spook not to wash between parked cars, to play in the street or to cross the street without looking both ways.

**8—Motorists should slow down, keeping in mind that there will be more children in the streets than usual.**

9—If children come to your door on beggar's night and you plan to give them cookies or other sweets, be sure they're wrapped to keep them clean.

10—For safety, keep a porch light on, and remove all breakable objects and, if feasible, furniture from your lawn, steps and porch.

★ ★ ★

The National Safety Council has no special advice to householders for preserving the safety of windows, shrubbery, garbage cans, etc., against cute little neighborhood vandals.

Guess they figure the annually-harrassed householder is more in need of psychiatric counsel than safety council.

## Legion Will Seek Negro Showdown

SAN FRANCISCO (AP)—American Legion Commander Martin B. McKneally says he will press for a legal showdown within 30 days on whether the 40 et 8 should admit Negroes.

The 40 et 8 is the Legion's fun-making auxiliary.

**"The use of the word 'white' in the 40 et 8's eligibility requirements is offensive and illegal," the New York lawyer told interviewers.**

He said if the Legion's lawyers fail to persuade the 40 et 8 to eliminate the discriminatory wording and bring their eligibility into line with that of the Legion within 30 days, the Legion has "certain available remedies."

★ ★ ★

"One of these is to revoke their license to use the name 'American Legion' he said. "Or we could go to court seeking a declaratory judgment."

McKneilly is on his first nation-wide tour since assuming office.

About 98 per cent of the white population of New Zealand is said to be of English ancestry.

## Chinese Solon Talks to Race

### Tells Them to Join the Countries They Adopt, Says Color Line Fading

SINGAPORE (AP)—The first U. S. senator of Chinese origin called on overseas Chinese in Southeast Asia to throw in their lot with the countries of their adoption.

Sen. Hiram Fong, son of an immigrant Chinese who settled in Hawaii, told a news conference Monday: "I would suggest foreign citizens assimilate themselves into the countries of their adoption."

★ ★ ★

Fong said he had been asked by certain governments why they were not receiving more American aid.

"I am amazed at the tremendous aid being given to Asian countries," he said. "I am sure the American people will be surprised."

★ ★ ★

Newsmen asked him about the Negro problem and pointed to Little Rock, Ark. He said he was glad the color problem had come to the forefront and added, "the fact that my President sent troops to Little Rock is proof the government intends to see Negroes get their rights."

## Curb Your Car, Please

MONTPELIER, Vt. (UPI)— Municipal Judge Joseph Foti fined Robert Perry, 19, of Allentown, Pa. $10 for a motor vehicle violation and told him "good looking boys don't have to drive on sidewalks to attract girls."

## U.N. Team Can't Find Any Red War in Laos

Leaks from a United Nations fact finding team of members from Argentina, Tunisia, Italy and Japan make it clear that nothing was found to support the Laotian claim of an invasion.

At the same time the government of Laos in a face saving move reports that rebels aided by forces from Communist North Viet Nam "appear to have been driven out of the kingdom."

**Over two months ago frightening accounts started to come out of Vientiane, the capital, of the capture and burning of 80 villages in the north, of prisoners taken, of casualties, etc. Laos appealed to the U. N. for emergency aid. We sent more military assistance.**

★ ★ ★

The U.S. has given to this remote, strategically centered Asian kingdom more military and economic aid per capita than to any other country in the world. Most of this went to maintain the 25,000 man Laotian army. At the present time there are in Laos 70 American military men administering the military aid program and nearly 100 civilians instructing in the use of weapons.

★ ★ ★

Reports from Washington indicate that the trouble had its origin in domestic politics, not on the military front. The few skirmishes which may have occurred probably were commercial rather than ideological. A radio report from Vientiane states that part of the trouble was the slowness with which U.S. aid reached Laos. However, there has been an investigation into waste of U.S. funds in that country.

★ ★ ★

**The Laotian government has hurt not only its own cause, but that of the free world. If it has been crying "wolf" when indeed there was no wolf, help against Communists may be slow in coming when and if it should be needed. It is difficult to deal with a government guilty of naive and childlike actions.**

## Miner Bird Sanctuary Extends Welcome to All

What one newspaper has called "The Wonder of the World" is the Jack Miner Bird Sanctuary at Kingsville, Ont.

And the best time to visit it is the last week in October or early in November. It is open every day but Sunday.

★ ★ ★

**Then the southern migration of our feathered friends is at its height, and millions of them make it a stopover. The best time is three to five o'clock.**

A cordial welcome awaits you. Before his death, JACK MINER decreed that never should any admission charge be made, no tips allowed and nothing sold on the premises.

★ ★ ★

And this haven of God's winged creatures, who often exhibit more intelligence than many humans, is only 50 miles from Pontiac.

## Cheap Atomic Power Coming Ever Closer

Although this continent has vast quantities of coal, oil, natural gas and water power, there are parts of the United States as well as foreign countries where these conditions do not exist.

★ ★ ★

**For these regions atomic power now promises to provide an abundance of comparatively cheap fuel. Evidence of this comes from the Westinghouse Electric Corp. which has been a leader in designing and building nuclear power plants.**

The company claims to have two new reactors capable of producing "competitive" electricity. Heretofore high cost to the users of atomic power has slowed down its development for peaceful purposes.

★ ★ ★

Best estimates in the past have been that atomic energy would not be competitive even in high cost areas for at least 10 years. Westinghouse quotes 7.3 mills per kilowatt but this figure may be called into question as to whether it includes direct and indirect subsidies. Enriched uranium ore is heavily subsidized.

★ ★ ★

However, we can be sure that the day of atomic power is fast approaching. It would mean much to the development of backward areas all over the world.

The Man About Town

## Are Passing Out

### Grain Elevators in Area Go the Way of Progress

**Autumn: What flirts too much with winter.**

Time was when nearly every railroad station in the Pontiac area had a grain elevator to handle the products of the farm in its community. Many of them were built by the railroads to draw the car loadings for shipment. In many cases the elevator was the principal business at that station.

But with the coming of the auto truck, the development of industry and the general centering of trade, most of these business enterprises have passed out of existence. The latest is the elevator at Dryden, now being dissolved for back taxes and debts.

Several of the railroad stations themselves have been abandoned. In Oakland County, the elevator at Thomas for many years shipped more wheat than any other point on that railroad between Detroit and Bay City. Now it has gone the way of the station.

David Lawrence Says:

## Vicious Red Spy Ring Grows in SA

WASHINGTON — In the upper strata they talk of "summit" meetings and "the spirit of Camp David" but in the lower strata—where the battles of the "cold war" continue to be fought every day—there is no let-up in the fierce struggle by the Soviet spy apparatus inside the free countries of the world to subvert governments and secure victories for Communist imperialism.

LAWRENCE

The latest revelation of the plot by the Soviet government to spy on the American embassy in Moscow and to kidnap and force into espionage a United States officer is no surprise to those in our government here familiar with the Communist spy system.

**Does Nikita Khrushchev really think the American people will ever trust a government which perpetrates such a crude plot as that just uncovered against Russell Langelle; the U. S. security officer who was ousted from Moscow last week after refusing to become a Communist spy?**

Langelle now has told his story to American newsmen here with the permission of the State Department. He said that the Soviets have tried to subvert other embassy personnel and that he was picked on because he had been successful in "frustrating and obstructing" Soviet attempts to spy on the American embassy.

He was constantly at odds with Soviet officials because it was his task to protect embassy documents and communications and to keep the personnel from being compromised.

In this week's issue of "U. S. News & World Report," a dispatch from Montevideo, Uruguay, reads in part as follows:

"Working quietly in the free-and-easy atmosphere of Uruguay, the Russians are speeding the build-up of Communist subversion and sabotage throughout the whole of South America.

"At least 70 Russian officials are busy in seven different buildings in Montevideo. This city is capital of a little country with half as many people as there are in greater Chicago.

"The Red build-up in Montevideo has reached such proportions that even Uruguay's tolerant government is getting ready to crack down. A proposal put before the government would require the Russians to cut their mission down to the size of Uruguay's mission to Moscow. That would trim the Soviet staff from 70 to 6.

**"What finally has alarmed the Uruguayans is the overwhelming evidence of the size and strength of the web which the Russians are spinning out from Montevideo. This web stretches all over South America. Within this web, the Communists are spending upward of 100 million dollars a year."**

Here are some of the high spots of Communist encroachments in South America as outlined in the Montevideo dispatch:

1. Venezuela—In 18 months Reds have tripled their strength and are infiltrating the Venezuelan press.

**2. Ecuador—Local Communists are plotting to sabotage the coming inter-American conference.**

3. Peru—Reds are gaining ground among students, bank workers and among farmers.

4. Brazil—Communists are trying to make a comeback and are stirring up revolutionary mobs.

**5. Chile—Reds almost elected a president recently and, using various "left wing" parties, have won strength in the Parliament.**

6. Argentina—Riots and strikes have been led by Communists. The government now has outlawed the Communist Party.

7. Bolivia—Communists are trying by strikes and other subversive activities to frustrate the government's recovery plan.

Dr. William Brady Says:

## *The Heart Must Receive Fresh Blood Constantly*

Coronary means "of or pertaining to, or of the nature of a crown." The name is given to the arteries that feed the wall of the heart, because the ancients saw a resemblance to a crown in the way these vessels, branching from the aorta at the top of the heart spread over the heart.

DR. BRADY

In medieval England the coroner or crowner was an officer whose royal duties were not at all what the coroner's duties are today — and even the coroner of yesteryear is being replaced nowadays by a medical examiner who is a competent pathologist, not an officer of the law.

Being the first arteries, branching from the great artery (aorta) immediately after it leaves the ventricle, the coronary arteries, right and left, deliver the freshest, purest and most completely oxygenated blood to the heart muscle.

★ ★ ★

Any other muscle or muscles in the body can do without a supply of fresh blood, for a while.

**The heart muscle must receive an uninterrupted flow of fresh blood (oxygen). The heart can't knock off working, as other muscles can if the oxygen supply fails temporarily.**

If the heart skips more than a beat or two at any time the individual is likely to pass out — the higher brain centres can't survive more than a few seconds anoxia—lack of oxygen.

**CONSTRICTING FACTORS**

Factors which constrict the coronary arterioles or rather their finest branches (arterioles) and thus restrict or prevent delivery of oxygen to the heart muscle are:

**Digitalis, sometimes if not always, constricts the coronary arterioles, and therefore some physicians believe it is dangerous in cases of angina pectoris and coronary thrombosis.**

Unpleasant emotions, particularly fear and anger, constrict the coronary arterioles. John Hunter, famous 18th Century surgeon, said "his life was in the hands of any rascal who chose to annoy and tease him," and he did kick the bucket during a fit of anger.

★ ★ ★

Not persons in good health but persons who have angina or coronary insufficiency may be really scared to death.

**Worry, which is diluted fear, tends to constrict the coronary arterioles.**

**MORE LIKELY**

The old timers put too much emphasis on overexertion.

In emergencies where great fear and anxiety prevail, overexertion may bring on coronary thrombosis, but as a general rule angina or coronary thrombosis is less likely to occur when the individual is engaging in moderate work or play than when he is at rest—statistics in a large series of cases warrant this conclusion.

**Alcohol, when it reaches a concentration of 0.1 per cent in the blood (one part of alcohol in a thousand parts of blood), causes constriction of the coronary arterioles and a reduction in the flow of blood or supply of oxygen to the heart muscle.**

Moderate consumption of coffee (not more than two or three cups daily) not only does not constrict the coronary arterioles but dilates them and therefore persons with angina or coronary insufficiency may and should enjoy good coffee with breakfast and with dinner if the coffee is not taken within three hours of bedtime.

Signed letters not more than one page or 100 words long pertaining to personal health and hygiene, not disease, diagnosis, or treatment, will be answered by Dr. William Brady, if a stamped, self-addressed envelope is sent to The Pontiac Press, Pontiac, Michigan.

## *Reluctant Union Member Asks if It's Constitutional*

Is a "closed shop" unconstitutional? I believe it is. When I started working for the company I'm with there was a union, but no one was compelled to belong.

★ ★ ★

**After a few years things changed, and one was forced to join or give up his job. I stayed on my job, paying their every demand and so serving involuntarily in their party, which is in complete violation of Article 13 of the Amendments to the Constitution, which reads in part, "Neither slavery nor involuntary servitude shall exist in these United States."**

Case Records of a Psychologist:

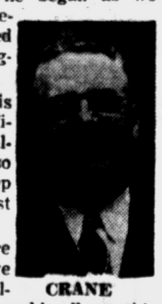

## Colleges Must Be More Efficient

*Prexy Milo offers the standard problem of the small college in America. But it can be solved quickly and easily by imitating the greater efficiency shown by our city high schools. Colges should be self-supporting by tuition alone, for they are tax-exempt and have their buildings donated.*

**By DR. GEORGE W. CRANE**

CASE C-480: Prexy Milo heads a small Liberal Arts college.

"Dr. Crane," he began as we dined together recently, "I need some psychological advice.

CRANE

"My college is in dire straits, financially. Our salary scale is also so low we keep losing our best professors.

"And if it were not for the fact we are a church-affiliated school, we would collapse this year. Thus far, however, the church has helped subsidize us, but it is becoming harder each year to coax it to underwrite our losses.

"So isn't there some psychological strategy by which we can get on our feet?

★ ★ ★

"I know you are a great rooter for the small college, so maybe you can give us some pointers."

**COLLEGE LIFE PRESERVERS**

A few years ago I was asked to address the College Presidents of the North Central Association.

**And they, too, asked this same question, for confiscatory taxes have whittled down the number of wealthy donors who can hand over big sums to colleges.**

When I asked Prexy Milo how many students his school averaged per faculty member, he said "Nine."

Tuition at his college is $600 per year, so each teacher attracts only $5,400 total revenue to the school. Tuition corresponds to "sales" in business.

But Prexy Milo tries to maintain an average pay scale of $5,000 so his "sales" don't meet bare overhead.

**The solution is simple. Jump the student-teacher ratio from the present meager 9:1 ratio upward towards 20:1 or even higher.**

At a 20:1 ratio, and with the same $600 annual tuition, each teacher would then attract $12,000 to the school.

Then his own salary could be raised greatly and still leave 5 or 6 times as much surplus for the general overhead of the college.

**COLLEGE "HORSE SENSE"**

"But colleges pride themselves on their small student-teacher ratio," Prexy Milo protested.

★ ★ ★

That is true enough, but such colleges are growing obsolete and will soon become bankrupt, except for a few heavily endowed old eastern schools.

**This is a new age when efficiency must finally be applied to college administration. In city grade schools, the student-teacher ratio is now 32:1. In the Chicago high schools it runs 24:1.**

Thus, if high school teachers can easily handle 24 pupils per faculty member, why shouldn't college profs be equally capable of doing so?

★ ★ ★

Many colleges, too, haven't analyzed their physical plant properly. They could often salvage 25 to 50 more classrooms just by scheduling classes at the noon hour and staggering the lunch periods of college folks from 11 a.m., through 1 p.m., as city high schools long have done.

**Colleges no longer can expect to be coddled by indulgent wealthy donors, so they must learn to stand on their own feet and use "horse sense" in their inner business operations.**

A lot of "braintruster" professors dislike this type of expose, but education CAN be self-supporting

in America, even without handouts from Uncle Sam via federal aid to education.

★ ★ ★

Since self-support is the keynote of our American "free enterprise," anyway, let's see more of it on the college campuses!

## Mile No. 300 of Special Roads Will Open Soon

LANSING (UPI) — The 300th mile of controlled access expressway will be open to traffic late this month, highway commissioner John Mackie said Monday.

Mackie said much of Michigan's 800 miles of four-lane, divided highday was free access. He made the statement today as newsmen prepared to take an air tour of about 120 miles of expressways under construction and more than 160 miles of other expressway recently opened.

★ ★ ★

The new stretch of expressway putting Michigan over the 300-mile mark of controlled access type, will be an eight-mile section of the Detroit-Muskegon Expressway near Grand Rapids.

Mackie warned some work may be postponed because of the recently announced federal cutback in highway funds which will cause Michigan's program to be about 9 million dollars less than expected this fiscal year.

### Kremlin Tours Popular

MOSCOW (UPI)—Soviet officials have announced that nearly 30 million persons have toured the Kremlin since it was opened to the public in July, 1955.

Roughly 500,000 new housing units are required annually in the United States just to replace those lost through urban renewal, expressway construction and other federal and state building programs.

## 2 U.S. Moons Fall From Skies

### Burning of Explorer IV, Discoverer VI Leaves Half Dozen in Orbit

WASHINGTON (AP)—Two U.S. satellites, Explorer IV and Discoverer VI, disappeared from the skies last week.

Tracking scientists said both artificial moons burned up upon reentering the earth's atmosphere.

Explorer IV had been aloft for a year and three months, Discoverer VI for two months.

Their demise left in orbit six U. S. satellites, three of them actively broadcasting information to the earth, and two Soviet voyagers, both still transmitting.

In addition, two artificial planets, the Soviet Lunik I and the U.S. Pioneer IV, launched early this year are still in orbit around the sun.

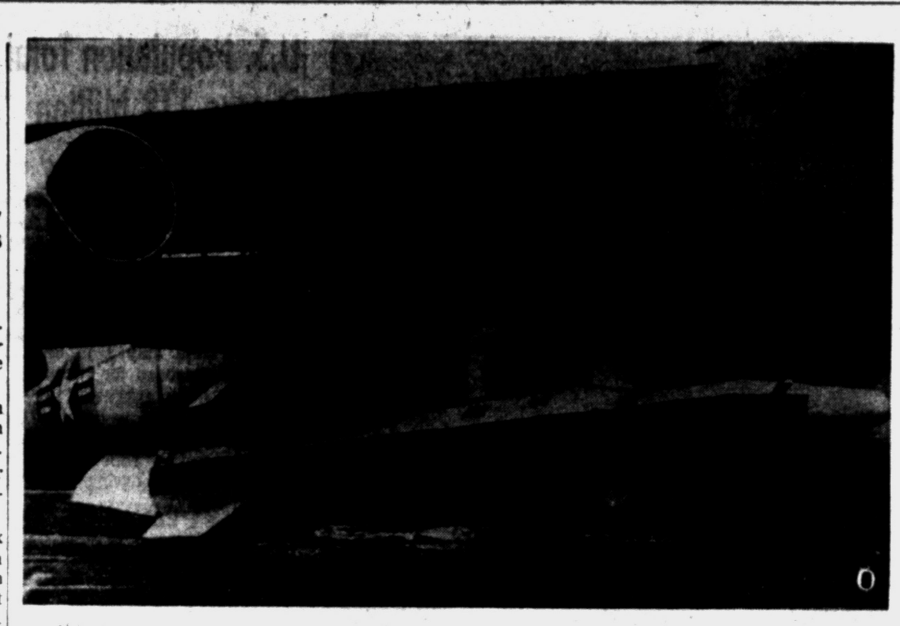

The loss of the two satellites became known Monday when reports from the tracking agencies reached headquarters. Their ends had been predicted at about this time.

Explorer IV, a tube 80 inches long and weighing 38.43 pounds, was launched from Cape Canaveral, Fla., July 26, 1958. It confirmed the existence of deadly radiation bands first discovered by Explorer III. It fell from the low point of its orbit, 178 miles above the earth, last Thursday.

Discoverer VI, weighing 1,700 pounds, was launched from Vandenberg Air Force Base, Calif., Aug. 19.

It was designed to eject a 300-pound capsule more than 24 hours after launching for recovery by airplanes waiting to catch it as parachutes lowered it toward the Pacific. However, the capsule was ejected at the wrong time and there was no recovery.

Discoverer VI was found to have dropped out of orbit a week ago today on its 965th trip around the earth.

**POWERFUL BABY** — Nestled under the wing of a B47 is this two-stage ballistic missile, the Bold Orion. This is the rocket that was recently fired from a B47 at the Explorer VI satellite as it streaked around the earth at 26,000 miles an hour, 146 miles above the earth. Designed to test the feasibility of launching ballistic missiles from aircraft, the new rocket is said to have passed within four miles of the paddle wheel satellite. This is one of the first photographs of the missile released.

### Powerful Talent Stilled

## Winnie Lays Pen Aside

LONDON (UPI) — Sir Winston Churchill has put down the pen that mobilized the English language on the side of the Allies in the last war and also made him one of history's highest paid authors.

A close associate said Monday it was "highly improbable" the 84-year-old statesman would ever again write for payment.

★ ★ ★

With his writing desk cleared for the first time in 61 years, Churchill plans to devote the additional time to politics.

**"He has no intention of retiring from anything other than being a professional author," said the associate. "He seems to be taking just as keen an interest in his duties in the House of Commons as he has ever done.**

Churchill completed his grand writing design — one of the few authors to have had that satisfaction—with his monumental "history of the English Speaking Peoples" in 1958.

★ ★ ★

During the years from 1898 he wrote novels, histories, biographies and commentaries on public events —all touched with the sonorous, rolling prose that was worth an Army to his nation when he rallied Britain in the perilous days of 1940.

★ ★ ★

In 1953 he received the Nobel Prize for literature—largely for his six-volume history of the second World War which made him possibly the only Englishman to earn as much as 1,000,000 pounds ($2,800,000) since the armistice.

More than half the patients in U.S. veterans' hospitals are being treated for non-service-connected disabilities.

## Reds Menaced U.S. Embassy

### Envoy Ousted From Moscow Cites Steady Penetration Efforts

WASHINGTON (AP) — The U. S. diplomat expelled from the Soviet Union as a spy said Monday the Russians are constantly attempting to penetrate the American embassy in Moscow to subvert its personnel.

★ ★ ★

Russell A Langelle, embassy security officer until 10 days ago, said there has been "a notable increase in such (Soviet) activities recently."

**Flatly denying he has ever been a spy, Langelle expressed belief at a State Department news conference that the Russians expelled him because of his zeal in protecting the American embassy against Soviet penetration efforts.**

"As embassy security officer," he said, "I frustrated and obstructed many of the activities they targeted."

★ ★ ★

The 37-year-old Langelle, calm and composed, declined to answer questions about these Soviet activities.

**But, he said, they involved Soviet maneuvers in the "physical, technical and personnel" fields.**

In replying to questions, Langelle said there also has been a stepping up of Soviet penetration efforts against some other embassies. He did not identify these embassies.

The largest Chinook salmon ever caught weighed 125 pounds.

A record 94,793,000 persons made recreational use in 1958 of the hundreds of water resource projects of the U. S. Army Corps of Engineers. This was about six times the figure for 1950.

Bob Considine Grateful:

# We Were Coached for TV

NEW YORK—People . . . places . . . fixes . . .

The Considine family was coached in advance of our appearance on Edward R. Murrow's 'Person to Person" show on CBS a couple years ago, Dr. Frank Stanton momentarily will be relieved to learn. And just as well! We had to appear in a variety of rooms on cue in a house and porch filled with 50 miles of TV cable. My wife and I were wired for sound, and had to have our batteries replaced right in the middle of a run-through. Embarrassing. Even painful.

Then there was the question of what to show —including an early Toots Shor original showing a bum entering 51 West 51. But the only complaint I heard at the time about coaching came from Debbie, our little girl. When Ed's voice boomed through our household, and, pointed at Debbie, asked, "How are you, Debbie" Our little girl paused and turned to her brother Mike, seated next to her on camera.

**"What's his name again?" she whispered, coast-to-coast.**

**We needed more coaching, Dr. S. not less.**

Isn't it about time the administration cleared its throat, manfully, and barked something like "Listen here, Buster!" to Dr. Fidel Castro?

* * *

This increasingly odd character is slowly but surely whipping his people into a genuine froth about this country. We have become the whipping boy and to make the poor benighted Cubans forget that Castro and his bearded idealists and lift-wingers have made a miserable botch of running a government.

He has cut off the American tourist trade and thus throttled the second best source of dollars Cuba traditionally needs to support its economy.

He has frightened away much if not all of U.S. companies that would have been glad to invest in a Cuba liberated from the murderous Batista.

**His suppression of free speech and branding of those who resign as "traitors" is rudimentary totalitarianism, and worthy of our official contempt.**

Instead, we seem too timid to say "ouch!" When he slugs us.

**TAKING TEA BREAK** — Norwegian Crown Prince Harald sips tea after a seven-hour night march in northern Norway, where he, as a lieutenant, is second in command of an infantry group. The prince sips his brew from a cup bearing a crest, while the soldier beside him drinks from a regulation metal container.

## New Flynn 'Will' Favors Protege

### It's Neither Signed Nor Witnessed — Revealed by Miss Aadland

NEW YORK (UPI) — A legal battle shaped up over the estate of the late Errol Flynn when a second "will," unsigned and unwitnessed, was filed in court Monday naming 17-year-old Beverly Aadland, his "true, loyal associate," as a major heir.

The document, dated Dec. 22, 1958, and written in long hand on four pages of stationery bearing the imprint of the Hotel Nacional, in Havana, Cuba, was sent to surrogate Samuel di Falco by Flynn's attorney, Justin Golenbock.

**The attorney was said to have told the surrogate that the document was given to him by Miss Aadland, who was with Flynn when he died in Vancouver, B. C., Oct. 14, of a heart attack.**

A signed, witnessed will prepared by the swashbuckling actor April 27, 1954, when Miss Aadland was only 11, was filed for probate here last Wednesday. It left the bulk of his estate to his estranged third wife, Patrice Wymore and the rest to two daughters and a son.

* * *

The document sent to court today left one-third of Flynn's large estate in Jamaica, after taxes, to Miss Aadland and two thirds to his daughters, Deidre, 14, and Rorey, 12, children of his second wife, Nora Eddington Flynn Haymes.

It apparently made no mention of his son, Sean, 17, by his first wife, Lili Damita. Sean was named in the will filed last week.

**In referring to Miss Aadland, the document filed Monday, says "Beverly Aadland has been a true, loyal associate and is greatly held in my esteem.**

". . . If there is an issue between myself and Beverly Aadland, that is, the issue is male, he should be sent to Trinity College in Dublin for his education. The decision should be left to his mother. In all events, his mother is to be trustee of all money bequeathed to her."

## Ontonagon Copper Men May Strike Wednesday

ONTONAGON (UP)—Employes of White Pine Copper Co., Michigan's largest copper firm, say the plan is to strike tomorrow if contract demands are not met.

Workers are asking higher wages and improved fringe benefits. The workers favored the strike by a 932-52 vote.

The company is located in Ontonagon County near here in Michigan's rich Upper Peninsula copper country.

The Baltimore oriole is said to get its name from the fact that the orange and black of its plumage were the colors of Lord Baltimore's family.

## U.S. Population Total Passes 178 Million

WASHINGTON (UP) — The nation's population increased by 3,050,000 to 177,103,000 during the fiscal year that ended last June 30, the Census Bureau said Monday.

The Bureau estimated the population increased further to 178,252,000 as of Sept. 1. Part of the increase from July 1 to Sept. 1 reflected statehood for Hawaii.

During fiscal 1959, the Bureau estimated, there were 4,280,000 births and 1,646,000 deaths. Civilian immigration added 264,00 to the population during the 12 months, it said.

On Jan. 1, 1950, the population was 150,552,000. It is expected to reach 180,000,000 before the mid-1960s.

## To Cheer the Day Sir Walter Lost His Gallant Head

**LONDON (UP) — London's newest statue, a life-size figure of Sir Walter Raleigh, will be unveiled Wednesday.**

**The following day a group of strong-willed citizens will offer public thanks that Sir Walter had his head chopped off.**

**Raleigh, the explorer perhaps best known for gallantly spreading his cape on the mud for Queen Elizabth I, was beheaded Oct. 29, 1618.**

**The National Society of Nonsmokers will celebrate the execution Thursday. They blame Sir Walter for introducing tobacco into England.**

# Quick Thinking Saves 19 of 20

## Former Combat Officer Took Charge as Plane Crashed on Takeoff

SANTA MARIA, Calif. (UPI) — The decisive action of a former combat officer and quick work by firemen led to the miraculous escape last night of 19 of the 20 persons aboard a Pacific Airlines twin-engine plane that crashed on takeoff.

"It was a miracle that everyone was not killed," said a fireman who was among the first at the scene. "They — everything, plane and passengers — were just floating in gasoline."

**Copilot Joe Flanagan, 31, Mountain View, Calif., was killed and pilot Capt. Charles Craig, 42, San Mateo, Calif., was injured seriously.**

But all 18 of the others aboard escaped serious injury. There were 3 crewmen and 17 passengers aboard the Los Angeles to San Francisco craft.

★ ★ ★

Phillip French, Paso Robles, Calif., a rancher and a former combat army captain, told newsmen that after the crash he turned to the other passengers and announced:

"Everybody be calm. Just follow me."

## Gets 1-5 Years for Carrying Pistol Into Bar

For carrying a .22 caliber pistol into a bar, Coy C. Prestriedge, 38, of 218 W. Sixth St., Royal Oak, yesterday was sentenced to 1 to 5 years in Jackson Prison by Oakland County Circuit Judge Frank L. Doty.

After originally standing mute to the carrying concealed weapons charge, Prestriedge changed his plea to guilty Oct. 7.

**Assistant Prosecutor Jerome K. Barry Jr. said he found no basis for official action on a report from a Royal Oak taxi driver that Prestriedge tried to hire him to murder his wife.**

The alleged plot came out last month the day before Prestriedge was to be arraigned on the weapon charge. His original bond canceled, Prestriedge was confined to the county jail when he was unable to post a higher $2,000 bond invoked because of the reported threat.

## Chrysler's Valiant to Be Higher Priced

NEW YORK (AP) — Prices of Chrysler's compact Valiants will be slightly higher than those in competing new General Motors and Ford Lines.

Chrysler said today that factory retail prices on the Valiant will range from $1,874 on the V-100 series to $1,946 on the V-200 series. Both series are four-door models.

**The Valiant will go on sale Thursday. The Chrysler product is somewhat longer, heavier and more powerful than other recently introduced compact cars, the Ford Falcon and the Chevrolet Corvair.**

The lowest Valiant price compares with $1,860 for the lowest-priced Corvair and $1,803 for the lowest-priced Falcon model.

Prices do not include distribution costs, excise taxes, freight charges or state or local taxes.

## Tavernkeepers Seek Repeal of Cabaret Tax

GRAND RAPIDS (UPI)—The nation's tavernkeepers called for a complete repeal today of the cabaret tax in adopting legislative goals at the 10th annual convention of the National Licensed Beverage Assn. here.

The 1,500 delegates attending heard the association's legislative goals outlined in a report by the group's governmental affairs committee.

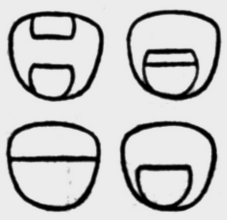

Other aims were:

—Maintenance of the present retail and service exemption in the Federal Wage and Hour Law.

—Legislation that would compensate for a business destroyed by urban redevelopment or a new federal highway.

—A change in the "discriminatory" policy of the Small Business Administration which bans loans to persons deriving a substantial portion of their income from sale of alcoholic beverages.

**Excused After Heart Attack**

# Trial On Minus Bonanno

NEW YORK (AP) — A federal court trial of some of the delegates to the Apalachin, N.Y., underworld convention has started without Joseph (Joe Bananas) Bonanno.

Bonanno, 54, of Tucson, Ariz., was granted a severance of trial Monday after a heart specialist examined him at the court's direction.

★ ★ ★

Selection of a jury from among 800 prospects finally began after a delay resulting from the defense announcement that Bonanno had suffered a heart attack Sunday night.

The 22 remaining defendants dressed conservatively in business suits, sat quietly in the crowded courtroom. They are charged with conspiring to give federal grand juries and other investigative agencies false information about the nature of the Nov. 14, 1957, meeting at the Apalachin home of the late Joseph Barbara Sr.

★ ★ ★

All have said they were there to attend a party or just to pay their respects to Barbara, who they said was sick. Barbara died of a heart attack last June 18.

Authorities have said the meeting was arranged to discuss rackets in narcotics, certain labor unions and industries.

If convicted, the defendants would face up to five years in prison and $10,000 fines.

## Ford and S-P Report 10-Day Sales Record

DETROIT (UPI)—Ford Division of Ford Motor Co. and Studebaker-Packard Corp., so far unhampered by steel shortages, report record 10-day period sales.

★ ★ ★

Ford Division said today that sales of its 1960 models averaged 5,728 per day for the Oct. 11-20 period—one-third greater than the daily average for the first complete 10-day period after introduction a year ago.

★ ★ ★

S-P reported a 46 per cent increase in retail deliveries of new Larks during the first 10-day period following public introduction, compared with the same period of last year.

## Conservatives Hope to Start Third Party

CHICAGO (AP) — Conservatives have banded together to form what they hope will be the nucleus of a third national political party.

Representatives of conservative political organizations in 12 states yesterday formed the National Committee of Constitutional Parties and named William Robert Plumme, of New York City, its acting chairman.

**Plumme, chairman of the Constitution Party of New York, said his group hopes to nominate candidates for president and vice president and place them on the ballot in all 50 states.**

The committee adopted provisional rules and agreed to arrange a future meeting of delegates to include two elected committeemen and the chairman of each state party. One of the committeemen must be a woman.

Groups represented at the charter conference included the Tax Cut Party of Michigan.

Meerschaum, out of which many smoking pipes are made, is a soft white mineral which dries and hardens when exposed to the sun. Much of it comes from Esisehir, Turkey.

# Killer Paralyzed in Theft Goes to Electric Chair

WETHERSFIELD, Conn. (AP) —The violent life of Frank Wojculewicz came to an end Monday night as he sat paralyzed, an invalid, in the electric chair.

For seven years he had lain in state prison, awaiting execution for the slaying of two men in a robbery in which he himself was shot in the spine. His appeals failed.

He was pushed into the death chamber in a wheelchair. Four guards lifted his wasted body and strapped him to the death chair which had been specially modified because his legs could not bend.

★ ★ ★

Electricity coursed through Wojculewicz for about two minutes. Then his body was taken away.

Thus ended the life of a 41-year-old man who was a juvenile delinquent at 10 and later a robber, thief, bootlegger, attempted rapist—and killer.

The crime that brought his execution was the slaying of Police Sgt. Walter Grabeck and a bystander, William Otipka, in a New Britain packing house robbery in 1951.

A police bullet injured his spine. He never recovered. He was convicted in 1952 as he lay in court on a hospital cot.

★ ★ ★

He based several appeals on the ground that his injury had left him in such a mental condition that he was not equipped to cooperate with counsel and get a fair trial. He said he had not received adequate medical care.

The state countered by saying his condition was of his own making and the crime was not committed while he was ill.

## Probe Last Days of Man Found Dead in Macomb

MOUNT CLEMENS (AP)—Deputies sought today to trace the last movements of a Canton, Ohio, steelworker who was murdered after attending a baseball game in July.

The body of Thomas W. Toulson, 30, was found in a suburban Clinton Township field over the weekend. Toulson died from a blow on the back of the head.

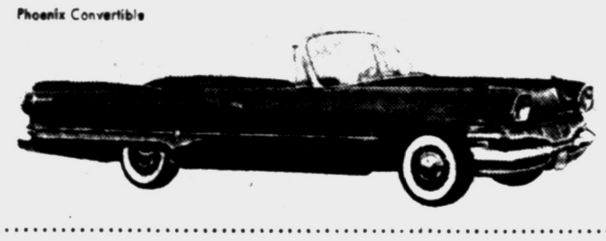

Toulson's wife Shirley identified the body yesterday after police had made tentative identification from papers found on the body.

# License Tabs Debut in State

## Auto Registration Will Begin Monday; You'll Only Get Date Button

LANSING (AP)—For the first time in history Michigan motorists will get a date tab instead of a full-sized license plate when the 1960 vehicle registration year starts next Monday.

The tabs with a green 1960 on a yellow background were promoted by Secretary of State James M. Hare as an economy measure. He estimates their use will save the state $266,000 in the current fiscal year.

**Commercial vehicles, however, will continue to get full-sized plates. The damage to plates on these vehicles is much greater than that of passenger automobile plates.**

Hare originally planned on issuing full-sized plates for passenger vehicles every third year with tabs being used in the intervening two years.

This plan was upset when the Legislature passed a bill to make motorists pay a 35-cent fee for reflectorized license plates.

But the law won't become effective until 90 days after final legislative adjournment. Thus, if the Legislature continues in session until December—a definite possibility—most motorists registering before the March 1 deadline won't pay the extra 35-cent fee.

**Those assessed the extra fee later, Hare said, are likely to complain, particularly since the reflectorized plates won't be issued for 1960 anyway.**

Hare suggested one way out of the mess would be for the Legislature to repeal the reflectorized plate law and pass a new law with immediate effect.

Meanwhile, to confound the confusion, three new bills dealing with the glow-in-the-dark plate law have been filed in the Legislature. One would repeal the law altogether, another would boost the fee for the plates from 35 to 60 cents a year and a third would defer collection of the fee until the 1961 registration year.

## To Take Bids in January on Lansing Building

LANSING (AP)—Bids will be taken in January for construction of a multi-million-dollar municipal building in Lansing, city officials announced yesterday.

The structure will house the city board of water and light, and the Ingham County circuit courts and their staffs.

The building, with 140,000 square feet of office space, will be erected on the site of the recently razed old city hall.

### Promises Return of Firing Squads

# Castro Thunders at U.S.

From Our News Wires

HAVANA — Prime Minister Fidel Castro angrily promised a wildly cheering crowd of several hundred thousand Monday night to once again hand over the enemies of his revolution to military tribunals and firing squads.

In a fiery speech of more than three hours, devoted largely to his most violent anti-American tirade yet, Castro also:

**1. Gave a strong hint his government may try to drive the United States from its naval base at Guantanamo in southeastern Cuba.**

2. Said Cuba will buy airplanes anywhere — apparently meaning from the Communist bloc — if its overtures to buy jets from Britain fail.

3. Virtually signed the death warrant of Maj. Hubert Matos, former commander of the armed forces in Camaguey province and key figure in the latest government crisis.

★ ★ ★

"Firing squads! Firing squads!" the crowd roared as Castro asked them to approve the execution of Matos, who accused the regime of going Communist.

**Then Castro replied: "Because it is necessary to defend our nation against aggression, to defend it from aerial attacks from foreign bases, the cabinet will meet tomorrow to discuss and decree for the time necessary the re-establishment of military tribunals."**

He asked and received a roaring approval for executions by firing squads if necessary.

It was a repetition of "Operation Truth," the public rally Castro drummed up last January when the speedy executions of so-called war criminals were being severely criticized abroad.

But there was one big difference. In January at least a million persons turned out.

**The Prime Minister called for the same turnout Monday, but estimates of the crowd varied between 250,000 and 400,000. By the time he finished speaking, a large part of the audience was gone.**

Castro electrified the crowd with an announcement that a plane—which he implied came from Florida—dropped a fire bomb on a house in western Cuba and dropped anti-Castro leaflets.

"How is it possible that in return for our allowing them to have a military base on our territory," he demanded, "that the homes of our peasants, our sugar mills, and the lives of our citizens are exposed to attacks from United States territory?

"How is it possible that a powerful nation with limitless technical resources to intercept even guided missiles admits they are incapable of stopping planes coming to bomb defenseless Cuba."

★ ★ ★

"I ask myself," Castro declared, "would the United States be so careless as to permit Russian immigrants residing in Alaska to go over and bomb Russia?"

In Miami a federal judge Monday refused to begin extradition proceedings against the former chief of the Cuban Air Force until Cuba produces details of the alleged crimes of murder and attempted murder.

Judge Joseph Lieb declined to issue a warrant for the arrest of ex-Major Pedro Diaz Lanz, who fled to this country charging Communists had infiltrated the government of Fidel Castro.

## Hadley Road House Damaged by Fire

An estimated $500 to $1,000 damage was caused by a fire which swept through an unoccupied house at 9748 Hadley Rd., Independence Township, early this morning.

Township firemen brought the blaze under control in about 30 minutes. The fire was believed by firemen to have started in defective wiring in the basement.

Damage was confined mainly to the basement, a stairway, and part of the ground floor of the empty one-story wood frame bungalow, Oakland County sheriff's deputies said.

## Area Man Bound Over on Negligent Homicide

FARMINGTON TOWNSHIP — Gerald W. Horn, 27, of 26375 Powers Rd., whose drivers license has been revoked twice, was bound over yesterday in Detroit for trial on a charge of negligent homicide in the death of a woman in an automobile accident.

Horn is charged with running a red light and striking another car on Oct. 20. A passenger in the car, Mrs. Arley Burnham, 53, died four days after the accident. Horn's bond was continued at $1,000.

## Sallade's Rockefeller Boom Branches Out

LANSING (AP) — Rep. George W. Sallade (R-Ann Arbor) said yesterday the Citizens for Rockefeller for President Committee has set up units in Illinois and Florida. Sallade is national chairman of the group backing the New York governor.

Units previously were formed in Michigan, Iowa, Massachusetts, Indiana and Alabama.

Delegates from these seven states, Sallade said, "cannot be counted as committed to the vice president."

He noted that the states with Rockefeller organizations already in existence will send 234 of the 1,206 delegates to the 1960 Republican National Convention.

### Decision Wrecks City Budget

# Hamtramck Dodge Assessment Cut

LANSING (AP) — The State Tax Commission has whacked Hamtramack's ascsessment of the Chrysler Corp. Dodge Main Plant from $49,559,000 to $29,185,855.

The effect was to shave about 15 per cent off the city's property tax base and municipal revenues from that source, producing acute budget pains.

In its appeal, Chrysler aked a reduction to $25,648,000, thus getting most of what it sought.

**In another decision announced yesterday, the Tax Commission pared $14,510,380 from the $99,862,520 in assessments placed on Detroit Edison Co. properties in 17 cities and 13 townships of Wayne County.**

A third decision slashed the valuation put by Redford Township on the General Motors Corp. Diesel plant, although not as deep as a year ago.

★ ★ ★

An original assessment of $31,527,500 was chisled to $16,340,000, compared with last year's Tax Commission determination of $11,908,300 and the township's valuation of $12,800,000 in 1957.

The state agency said it was bringing the diesel plant assessment in line with valuations for other property in the township.

**OTHERS REDUCED**

Other Edison Co. valuations in Macomb and Monroe counties have been reduced the Commission said However, the decisions are in the hands of field men and details were temporarily unavailable in Lansing.

As to the six-story Dodge Main Plant, Crysler contended it is outmoded and contributes to high manufacturing costs. The trend in recent years has been to build manufacturing facilities of this type on one level.

**The real property figure assigned by the city for land and buildings was reduced from $19,559,000 to $11,161,400, and the personal property assessement from 30 million dollars to $18,024,455.**

Chrysler said the real property couuld not be sold for more than $5,000,000. It urged an assessment of $10,648,000 "in the interest of equity."

The tax commission is nearing the end of hearings on 1,167 appeals filed from all parts of the state on all classes of property. Only about 50 of them still are undecided.

★ ★ ★

One of these is an Edison Co. appeal from a City of Detroit assessment of property there in the amount of $163,168,260.

### To Present Study on Project

# Would Breed Super Race

BLOOMFIELD, Ind. (AP) — Selective human breeding which would produce a superior human race will be advocated by Dr. Hermann J. Muller, Nobel Prize-winning geneticist, at a meeting in Chicago next month.

Muller, a faculty member at Indiana University, said he will present a 16,000-word study on the project during an international celebration at the University of Chicago marking the 100th anniversary of Darwin's theory of evolution.

**The geneticist maintains that artificial insemination would produce a race with the qualities of Lincoln, Einstein and Pasteur.**

He said there are two ways of achieving human improvement. They are:

1. A method of artificial insemination in which women are impregnated with the seeds of superior men.

2. A gradual method in which superior couples would raise more children than they can support and turn them over to others for adoption.

"Those consenting to do this would truly be social minded," Muller asserted.

"When one considers how much the world owes to single individuals of the order of capability of an Einstein, Pasteur, Descartes or Lincoln, it becomes evident how vastly society would be enriched if they were to be manifold," he added.

# Gift Would Have Been Better Idea

By EMILY POST

"Dear Mrs. Post: I became ill the other day in a department store and the young woman who had been showing me dresses took me in charge and fanned me and brought me water, and did no end of kind deeds for me. She even telephoned my husband to come to the store to take me home.

"Before leaving I casually slipped a bill into the pocket of her dress and told her to get something with it. She seemed embarrassed and returned the money and hurriedly walked away. Was I wrong to try to show a little of the appreciation I felt?"

Answer: The social status of the average clerk in a department store is above tipping and any gentlewoman would resent your repayment of her kindness in money. What you should have done was to take a small gift to her when you next went to the store.

"Dear Mrs. Post: I would like to give a baby shower for a neighbor of mine who has been very kind to me. However, I do not know all of her friends, but can get a list from her mother. My problem is whether or not it would be proper to invite these strangers to a shower at my house? As I am a comparative newcomer here, I do not want to do anything that will invite criticism."

Answer: It is quite proper that a hostess invite intimate friends of the guest of honor to a shower for her, even though strangers to the hostess. The main point is that they must be friends of the one who is to be showered.

"Dear Mrs. Post: My husband will soon be celebrating his fiftieth birthday and I would like very much to give a party for him. Would it be proper to state on the invitations that it is a birthday party, or would this obligate them to bring presents?"

Answer: Because an invitation to a birthday party does indicate that a guest should bring a present, I feel that only family and very intimate friends should be invited to one for a grown person. If, however, you wish to give a larger party and do not want to obligate anyone to bring a present, you could add at the bottom of the birthday invitations, "No gifts please!"

# *Mrs. Mapely Honored With Baby Shower*

Mrs. Carl Mapley was honored at a baby shower given by Mrs. James Downing and Sally Jane Mapley at the Downing home on Canterbury drive.

**Take Him to a Physician—Abby**

# Body Needs Help but Soul's OK

By ABIGAIL VAN BUREN

DEAR ABBY: I got myself a husband who is the greatest Commandment breaker since Judas. Name the Commandment and he's broke it. He lies all the time. If he told me the house was on fire, I wouldn't move until I saw the flame.

ABBY

Now here is the part that you will never believe. Where do you think he spends all his time? In church!

This has been going on for a long time. How long is it supposed to take before the preacher's message starts to show results?

SAVED

DEAR SAVED: You can't complain too much about a husband who spends all his spare time in church. A person who lies continually could be mentally ill. He appears to be doing all he can for his soul. Why don't you get him to a physician and have his physical and mental condition checked?

DEAR ABBY: I hope you will find this worthy enough to print in your column. It is meant for every woman who is trying to forgive an unfaithful husband:

Dear Wife,

I lived with an unfaithful husband. I had to do without many things because of his "expenses." Words cannot describe the tears I've shed over him. I was young then, and I thought I would die because I couldn't bear the pain. But you can bear it. For I am writing these words 22 years later. I kept my home together and raised my children who are all grown and married and highly respected in their own communities. I thank God I didn't drag my trouble through the divorce court. That hurts children and solves nothing.

This took plenty of understanding, patience and prayer. So let me tell you women who are fighting this kind of battle, keep your eye on the future and live right. Lavish love on your home and children. Be kind and patient with your husband. And one day they will rise up and call you blessed. And you will be happy because in your heart you will know that you did the right thing.

STOOD THE TEST

DEAR ABBY: I have nothing but problems. My husband is the kind who lets everybody walk all over him. Especially his relatives. They borrow money from him and forget to pay it back. Whenever they need an extra pair of hands they call him and he runs to help them.

Our son is also a big fool. He lets his wife's family run him. They take so much advantage of him it isn't even funny. But he never complains. He has a sweet smile for everybody. He's crazy. Just like his father.

I worry so much about my poor husband and my son. I wish I knew some way to help them.

FULL OF PROBLEMS

DEAR FULL: I have some wonderful news for you! YOU have no problems. If your husband doesn't mind helping his relatives without thanks, appreciation or repayment, don't let it worry you.

If your son is happy, you should be happy, too. Some people enjoy being walked over, stepped on and used. Don't take the pleasure out of it for them.

CONFIDENTIAL TO "CHOIR BOY": You'll never win her telling ME how wonderful she is. Sing it in her ear, boy!

# Legs Need Attention Too

By JOSEPHINE LOWMAN

Skirts certainly have gotten shorter this past year and the upward climb does not seem to have stopped. I am sure you noticed as I did that last summer's dresses looked long this year and had to be altered again.

For this reason legs are even more important in the figure ensemble than they have been for some time. While I do not believe that the majority of women will wear their skirts above their knees, they no doubt will wear them higher than they have for a few years. There is a margin of several inches in which every woman can find her most flattering length and still be in style. The following exercise is splendid for leg contour.

**WORK WITH CHAIR**

Place a chair with its back against the wall to keep it from moving. Stand with the left foot on the floor and the right foot on the chair. Place your hands on hips. Keep your back straight as you bend your right knee and push forward with the body bending the knee as far forward as possible. Keep the left knee straight.

**You should be far enough away from the chair so that you now can straighten your right knee. Continue bending and straightening the right knee, keeping the trunk erect and the left knee stiff. After a while stand with the right foot on the floor and the left foot on the chair and bend and straighten the left knee, keeping the right knee stiff.**

Another; Stand tall. Walk forward four steps, high on the toes, heels raised. Lower heels to the floor and walk four steps. Continue briskly, walking four steps up on the toes and four steps with heels lowered.

With cooler weather upon us the legs and feet will look prettier if we are faithful in the nightly application of a body lotion. The legs need this treatment also to combat chapping.

★ ★ ★

If you would like to have my leaflet "Take Steps Toward Lovely Legs" which gives you corrective exercises for the most usual defects in leg contour, send a stamped, self-addressed envelope with your request for leaflet No. 13. Address Josephine Lowman in care of this newspaper.

Tomorrow: "Think of the Time Element in Brushing Your Teeth."

*With skirts steadily getting shorter, we want to make sure that our legs are as attractive as it is possible for them to be. This exercise, walking on the toes, is splendid for leg contour.*

# Baked Celery Casserole Topped With Cheese

By JANET ODELL
Pontiac Press Home Editor

Something new in the vegetable line is always welcome, especially if you entertain often with buffet suppers. Mrs. David Gee's recipe for Celery au Gratin is sure to find a place in your recipe file.

★ ★ ★

As president of the Detroit Society of Women Painters, Mrs. Gee heads a group with interests that match her own. Painting is her first choice of leisure time activity. She has a job and is active in church work. She loves to have the grandchildren come for visits.

**CELERY AU GRATIN**
**By Mrs. David Gee**

3 cups celery cut in inch long strips, ½ inch wide
1 cup medium white sauce
½ cup sharp cheese, grated
Cracker crumbs

Cook celery in boiling salted water until just crisp tender. Drain. Add white sauce, cheese and salt and pepper. Mix.

Pour into greased casserole. Top with cracker crumbs, more grated cheese and dots of butter. Bake 20 minutes at 350 degrees. Serves 6 to 8.

# Women Can Exhibit Some Ugly Traits

By RUTH MILLETT

The ten most common feminine faults are:

**TALKING TOO MUCH.** Or to put it more bluntly, talking constantly. Some women never shut up long enough to consider what they are going to say, to reflect on the effect it is having on their listeners, or to give anybody else a chance to get a word in edgewise.

**BOSSINESS.** A bossy woman not only tries to dominate her husband and her children, she is sure she knows what is best for all her friends and neighbors.

**CATTINESS.** Some women not only never say anything sincerely and wholeheartedly flattering about another woman, they can't bear to have anyone else do so and are only too glad to point out the shortcomings others seem to have overlooked.

**DISHONESTY.** Some women just can't resist chiseling in small ways and can find all kinds of logical reasons why it doesn't hurt to tell a "little" lie or leave a false impression or save a few cents by some shabby little trick.

**DISLOYALTY.** Some women haven't the foggiest notion of what it means to be loyal to a husband, to friends, or to a group. They'll betray confidences, low-rate others to build themselves up, and drop a friend when the friend is no longer "useful."

**DISORGANIZATION.** The woman who has no organization whatsoever in her life is always running around in circles complaining about how overworked she is. She keeps busy but she doesn't accomplish much and there is a frantic air about her that is anything but attractive.

**MENTAL LAZINESS.** Some women never read, never try to learn anything new, have no curiosity about anything but the details of their friends' lives.

**SOCIAL CLIMBING.** The social climber's one interest in the people she meets is, "What can they do for me?"

**NARROW - MINDEDNESS.** A narrow-minded woman is convinced that only her ways are right and she is never willing to give anyone the benefit of the doubt.

**POSSESSIVENESS.** A possessive woman thinks and acts as though she owns her husband, her children, and even her friends.

## Woman's Club Fashion Show Attracts 180

The Drayton Woods Woman's Club held a fashion show and card party at the Drayton Plains school, recently, with 180 guests attending. Mrs. Gene Shell was chairman. Fashions were by Cecile's and modeling by Mrs. Lin Lincicome, Mrs. B. R. Everett, Mrs. R. R. Rippberger and Mrs. Howard Sullivan.

Judy Madill modeled teen-ager fashions and Mike Heaney, Tina Barnes, Debbie Slade and Larry Preston, children's clothes.

Mrs. Byron Arkles was narrator.

# Square Set Dance Club Holds Hard Time Event

The Square Set Dance Club held its second dance of the season Saturday evening at the Herrington Hills School.

Hard times costumes and a Halloween motif set the theme. Decorations were by Mr. and Mrs. Thomas Callahan.

★ ★ ★

James Thompson, master of ceremonies, conducted the workshop preceding the dance.

Other callers were Sidney Olson, Arthur Yarger, Sam Healander, Ralph Price and Mr. and Mrs. Robert Spence.

Refreshments were served by Mr. and Mrs. Charles Hocevar and Mr. and Mrs. Robert Wales.

★ ★ ★

Guests were Mr. and Mrs. Thomas Kennedy, Mr. and Mrs. Jack Ralph, Mr. and Mrs. Robert Gangler and Mr. and Mrs. Spence.

The next dance will be Nov. 14.

Picture Talk by Bill Nichols Travel MOVIES

Today's Story
"Trick-or-Treat"

Ordinarily the sound of the front door bell awakens no air of mystery. But on Halloween it's an invitation to one spooky surprise after another. You can't be sure if your caller will be a pirate, a cowboy, or a goblin. But you CAN be sure all of these trick-or-treaters will make good flash pictures.

What I did last year was to have another member of the family swing open the front door and then I would fire away with my flash camera. We got a swell collection of pictures showing wide-eyed, open-mouthed neighborhood children.

If you'd like to try the same stunt this Halloween, some words of advice. Have your camera pre-focused on a spot a foot or two outside the door. Hold the camera about waist high and fire away at the small fry.

Did I hear someone out there say they DIDN'T have a flash camera? No great problem. We have plenty of them. If you have the camera and no flashholder, we're whizzes at solving that situation, too. Take your pick of a whole slew of flash holders.

Just to play it safe, don't depend on your flash satisfying those kids. Better have a good supply of candy on hand too.

# New Car Sales Best Since '55

## Average 21,862 a Day From October 11-20 Compacts 16.6 Pct.

DETROIT (UPI) — Ward's Automotive Reports said Monday new car sales for the Oct. 11-20 period were the best for any new model introductory period since 1955.

Sales of 1959 and 1960 models between Oct. 11 and 20, the statistical agency said, climbed 20 per cent in the daily rate over Oct. 1-10.

**The sales totaled 174,899 and averaged 21,862 a day, compared with an average of 18,174 in the first ten days of the month when total sales were 163,566.**

Sales from Oct. 1-20 totaled 338,465, nearly equaling the total of 349,600 for the entire month of September.

Sales of the new compact cars in the Oct. 11-20 period totaled 29,000, Ward's said, or 16.6 per cent of the total. Rambler led the compact sales, with Ford's Falcon and Chevrolet's Corvair in a dead heat for second, followed closely by the Studebaker Lark.

★ ★ ★

Ward's predicted that October sales would exceed factory production by 10 per cent or more and said that some dealers were selling 1959 and 1960 models above the suggested factory retail price.

NEW HOME FOR BISSELL FIRM — Board chairman M. R. Bissell Jr., left, brushes off the original cornerstone of his company, which now flourishes in a new $3,500,000 suburban Grand Rapids plant. President of the carpet sweeper firm is nephew M. R. Bissell, right.

### Celebrates Sweeping Success

# Bissell Gets New Grand Rapids Plant

GRAND RAPIDS (AP) — Only the cornerstone remains of a building from which came a cleaning device whose trade name gained international status as a household word.

It holds a place of honor in a new $3,500,000 plant which produces Bissell carpet sweepers and allied items.

Taken from its building which is being razed in downtown Grand Rapids for parking space, the cornerstone bears the following inscription:

"Established by M.R. Bissell, 1876. Bissell Carpet Sweeper Co., organized and building erected in 1883. Burned & rebuilt in 1884."

**The firm moved this year to a suburban location. It employs about 500 persons and Bissell officials predict they will have a total of 675 workers by next year.**

The operation is a far cry from that launched by Melville R. Bissell who started by turning out 12 sweepers a week. The sweeping device evolved from a dust catcher Bissell designed to help him in dusting his father's crockery shop.

**SPARKS BOOM**

Bissell sales last year were reported at 10 million dollars, exceeding the company's 1957 mark by 125 per cent.

Much of the new boom's clean sweep is credited to 38-year-old M. R. Bissell III, ambitious grandson of the company's founder. He started as a salesman with the firm in 1945.

In the next few years he became vice president in charge of marketing with a hand-picked staff engaged in boosting the firm to a new position of importance in the housewares industry.

**One of his major tasks was revitalizing the carpet sweeper business which, Bissell says, seemed to be slipping perceptibly after World War II despite a population boom and steady increase in consumer buying power.**

Part of the solution was in reversing the company tradition of under-promoting its product. In the early 1950s, says Bissell, the advertising budget was about $150,000 a year. Today it is two million dollars.

★ ★ ★

Bissell took over presidency of the firm in 1956.

At his urging, the board of directors approved a complete overhaul in design and production of the sweepers and a start on research for a new product to fit in with the traditional output.

★ ★ ★

A rug shampoo kit proved to be the answer. It was responsible for 70 per cent of the towering sales mark of last year.

More success is expected from company research into new materials.

**The company started as a family operation. The founder's widow, Anna, took over as Bissell president after her husband died in 1889 and served later as chairman of the board until her retirement in 1930.**

Bissell's uncle, M. R. Bissell Jr., currently serves as board chairman.

The young president's wife, Betty Bissell, is director of the Bissell Home Institute which she developed to work out improved methods of housecleaning.

# State College Named 'Triland' by Contestant

**MIDLAND (AP)—Mrs. Audrey C. Eichler of Saginaw has won the "Name the College Contest" aimed at selecting a name for the new two-year college currently under construction in Bay County.**

**Mrs. Eichler's name of "Triland College" won her a $600 scholarship.**

**The contest was sponsored by the Kiwanis clubs of Saginaw, Bay City and Midland. The new college is located about equally distant from these three cities and will draw primarily on them for its enrollment.**

WASHINGTON (UPI) — Laotian Prime Minister Phoui Sananikone says he would be satisfied to see a United Nations team permanently stationed in his troubled country.

# See Long Delay in French Tests

## A-Bomb Explosion Said Impossible for 9 Months by West's Scientists

WASHINGTON (UPI) — American and British scientists believe it will be technically impossible for France to explode an atomic bomb for at least nine months and probably a year.

French government sources have been saying the bomb will be set off in the near future, possibly soon after Jan. 1.

**The delay is expected to have considerable significance in western and East-West diplomacy. French President Charles de Gaulle had counted on joining the United States, Russian and Britain in the "Nuclear Club" before spring.**

However, western scientists familiar with the French program said France's atomic reactors will not be able to produce the raw material for a bomb in time for a test shot before late next summer or fall.

# Oakland Man Sentenced to Prison for Rape

Oakland County Circuit Judge Frank L. Doty yesterday sentenced Harry Thornton Jr., 22, of 1225 E. Walled Lake Dr., Walled Lake to 2 to 10 years in Jackson Prison for the rape of a 42-year-old woman last May.

A jury convicted Thornton Oct. 9.

# U.S. Exports Rise Sharply in September

WASHINGTON (UPI) — U. S. exports rose sharply in September, the Commerce Department reported Monday.

Excluding military shipments, exports totaled $1,427,000,000, up 10 per cent from August and 15 per cent from September 1958.

★ ★ ★

It was the fourth straight month exports exceeded year-ago levels. This bolstered official hopes that American sales abroad are recovering from a slump.

**Higher exports would cut down the nation's deficit in its international accounts and reduce the outflow of gold and dollars.**

Walther Lederer, a Commerce Department trade expert, said the September export total was "a lot higher than we had anticipated." He said, however, that some of the gain may have reflected a speed-up of shipments in advance of a longshoremen's strike which tied up East and Gulf Coast shipping for several days earlier this month.

# Clifford H. Smart High Is Dedicated at Walled Lake

WALLED LAKE — "A good name is rather to be chosen than great riches." With these words from Chapter 22 of Proverbs, Dr. William J. Emerson, superintendent of Oakland County Public Schools began the dedicatory address for the Clifford H. Smart Junior High School here Sunday.

First employed by Superintendent of Walled Lake Schools Clifford H. Smart, and long a personal friend of the Walled Lake educator, Dr. Emerson pointed out several reasons why the school should take pride in its name.

Among these were that Smart is known as "a keeper and purveyer of truth, an exemplary citizen, and is devoted to the best interests of the pupils."

**Dr. Emerson suggested that the building be dedicated "to the service of boys and girls as a keeper of truth, a purveyor of culture and as a producer of good, neighborly and loving citizens such as typifies the man after whom it is named."**

He concluded by saying that the school should always reflect Smart's good name and purpose if it is to be remembered.

Mrs. Charles A. Scully, president of the Walled Lake PTA Council presided at the ceremonies held in the school gymnasium.

Supt. Smart welcomed and introduced the guests. Also speaking was Murray L. Adams, principal of the high school; Mrs. Jorma Sarte, president of the school PTA; and Johnna MacDonald, Student Council president.

★ ★ ★

Others were Mrs. Myrtle Wierenga, representing the Walled Lake District of the Michigan Education Assn.; the Rev. Raymond E. Jones of St. William's Catholic Church, who delivered the invocation; and the Rev. William L. Rieker of the Crossroads Presbyterian Church, who gave the benediction.

★ ★ ★

Julius Nelson, president of the Board of Education, accepted the building from the architect, Walter T. Anicka.

CLIFFORD H. SMART

**Members of the junior high school band and choruses with Frank Balaam and Eugene Guettler directing, provided music.**

Following the ceremonies several hundred persons toured the building with guides. They inspected the 13 regular classrooms, two science rooms, two shops, two home economics rooms and art, band and chorus rooms.

In addition, they saw the library, combined cafeteria and activities room and the gym. Other special rooms include the principal's office, two counseling rooms, health room, small student meeting room, book store and teachers' lounge.

★ ★ ★

With 600 students now in grades 7, 8 and 9, another wing will soon be built to complete the master plan of the building. This was authorized at the lasting meeting of the school board.

A committee of teachers, administrators, parents and students worked on the plans.

Following the tour refreshments were served in the cafeteria by the Walled Lake PTA Council.

Will Village Finally Lose 'Eyesore?'

# Rochester Hotel for Sale, May Be Razed

By LEE WINBORN

ROCHESTER — Climaxing a month-long investigation of the hotel property located on the southwest corner of Main street and West University drive, the Rochester Village Council learned last night that it is up for sale.

The asking price is $60,000.

Village Manager Paul York and several Council members recently had conducted a survey of the property to see if the building extends onto the public right-of-way.

**This was one of many moves planned to see if something could be done to either improve the building or force its condemnation and removal.**

After a thorough investigation of the records, the investigating committee found that the plats for the property dated so far back that they were illegible and the markers used to determine boundaries had long since been destroyed.

The Council has thought for many months that something should be done to either renovate the hotel building, now termed an "eyesore," or to condemn it and tear it down.

**"It is a choice site — right on the main intersection in the center of town, and we would like to see it turned into an attractive business property of which the village may be justifiably proud," said Village President Clarence M. Burr.**

The council committee had contacted the executor of the hotel estate, William H. Wilmot of Pontiac, who revealed that the heirs were not interested in making any extensive alterations, realizing that after it was sold it would probably be torn down.

WILL INVESTIGATE

Wilmot did tell the committee, however, that he would investigate the cost of painting the structure.

**The Village Clerk was directed to thank Wilmot for his consideration of the committee's problem and his reception of the village delegation at his office.**

In other discussion, Burr emphasized that Rochester needs a planning commission of its own. He was expressing his concern that the village has no voice in the work being done by the Avon-Pontiac Townships Regional Planning Commission.

★ ★ ★

Burr suggested that Rochester send a representative to the regional commission meetings to see that the village's interests were being taken into consideration as plans for development of the Michigan State University Oakland community progress.

★ ★ ★

Commission member Sidney Q. Ennis pointed out that the commission, under its statues of organization, was concerned with the 22 square miles immediately surrounding the new university which did not include Rochester.

The boundaries were defined in the creation of the commission not by its members, he said.

Ennis added that anyone from Rochester was welcome to attend any meetings of the commission which are open to the public and to make their wishes known.

'EYESORE' FOR SALE — The Rochester Hotel, called an "eyesore" by the Rochester Village Council, is up for sale. Located at the intersection of Main street and West University drive, the building which occupies a 40 by 150-foot site, has been the subject of council concern for many months. Members want it either renovated or torn down to improve the looks of this main corner in the hub of Rochester's business district.

# Young Church Group Adopts Ten Teen Rules

OXBOW LAKE — Teenagers of St. Patrick Catholic Church Teen Club here have adopted ten rules to live by for the 64 members of the organization that was founded last spring.

"The ten teen-age commandments, as we call them are not original," said Mrs. Charles J. Prochaska, publicity chairman for the club, "but they may be inspirational to other clubs in the area or even instrumental in forming new clubs."

The teen-age commandments go like this:

1. Don't let your parents down —they brought you up.

**2. Be humble enough to obey. You will be giving orders yourself someday.**

3. At the first moment turn away from unclean thinking.

4. Stop and think before you drink . . . and then don't.

**5. Choose a date who would make a good mate.**

6. Go to church faithfully. The Creator gives you the week; give Him back at least an hour.

7. Choose your companions carefully. You are what they are.

**8. Avoid following the crowd. Be an engine — not a caboose.**

9. Don't show off driving. If you want to race go to Indianapolis.

10. Or even better — keep the original Ten commandments.

★ ★ ★

Members of the steering committee of the teenage club are Mrs. E. W. Grenewicki, chairman; Mrs. Bernard Conrad, secretary, and Mrs. Arthur Havel and Mrs. C. M. Humble, refreshments.

★ ★ ★

The club will sponsor a "Sadie Hawkins" square dance Nov. 9 at 7 p.m. in the basement of church.

# Gala Halloween Evening Planned

## Auburn Heights Lions Sell Flares, Set Parade for Saturday

AUBURN HEIGHTS—An evening of fun is planned for Auburn Heights residents on Halloween by the local Lions Club which is conducting its 12th annual sale of flares to help support the project.

The flares, to be set up in the front of local homes and business places, will be lighted at the sound of the fire siren at about 7 p.m. Saturday.

**The parade of children in costumes augmented by the Avondale High School band and several floats is scheduled to form at 7:45 p.m. at the intersection of Cherryland and Auburn roads.**

The costume judging and awarding of prizes will take place on the Auburn Heights School grounds.

★ ★ ★

Free cider and doughnuts will be served to everyone present, according to Dr. Edward D. Barrett, general chairman of the Flare Night program.

**A community dance will be held at the American Legion Hall as soon as the activities at the school are concluded.**

Cochairmen of the Halloween Night festivities are Harold C. Newingham and Richard L. Barcome. Parade chairman is Carl Pike, and Harold Davis is handling the publicity.

★ ★ ★

Flare chairman is Marvin Bailey, and Thomas W. Shearer Jr. has charge of the judges.

## WSCS Schedules Bazaar and Dinner

ORION TOWNSHIP — The WSCS of the Howarth Methodist Church will hold a bazaar and turkey dinner at 5 p.m. tomorrow at the church, on the corner of Silver Bell and Bald Mountain roads.

Dinner chairman is Mrs. Wilton Andrews, and cochairmen of the bazaar are Mrs. Albert Priestap and Mrs. Charlotte Thomas.

# Barbara Jean Jentzen Weds Fredric Kuretich

ROCHESTER — Barbara Jean Jentzen and Fredric L. Kuretich were united in marriage recently by the Rev. J. Douglas Parker at St. Paul Methodist Church here.

The bride is the daughter of Mr. and Mrs. Robert C. Jentzen of 409 W. Second St., Rochester. The bridegroom's parents are Mr. and Mrs. Rudolph J. Kuretich of 3734 Fernleigh St., Troy.

★ ★ ★

The bride chose a gown of French lace and tulle over taffeta with a Basque waistline and long, tapered lace sleeves.

Iridescent sequins and pearls outlined the Sabrina neckline, and the floor-length skirt was designed in tiers of pleated tulle with a lace peplum ending in a chapel sweep.

★ ★ ★

She carried a cascade arrangement of stephanotis and mums centered with a white orchid.

Sharon Schell of Auburn Heights was maid of honor. Bridesmaids were Marianne Tessmer of Rochester, Mary Ann Hayward of Troy and Betty Jentzen of Rochester, sister of the bride.

★ ★ ★

Another sister of the bride, Beverly Jentzen, was flower girl.

Best man was Robert Samel of Troy. Seating the guests were James Blevins of Troy, Kenneth Kuretich of Utica, brother of the bridegroom, and Jack Jentzen of Rochester, brother of the bride.

A reception was held in the American Legion Hall, Auburn Heights, after the nuptials. Following their honeymoon trip to Niagara Falls, the newlyweds are residing in Troy.

# He Shares Birthday With 300 Children

BUFFALO, N.Y. (UPI)—Jacob A. Smith, owner of a furniture store, likes to share his birthdays with children . . . lots of them.

★ ★ ★

On his 57th birthday, he held his fourth annual birthday party in front of the store for nearly 300 children who played with balloons, rode merry-go-rounds and devoured ice cream, lollipops and soft drinks dispensed by their host.

Smiling happily as he talked about the affair, Smith said the party keeps the youngsters off the street and gives them a chance to "raise the dickens" under supervision.

★ ★ ★

"I give them a little talk on how important it is to behave themselves, too," he said. "Harsh words to the kids years ago didn't help much. I've found this is better."

HONORED AT BANQUET — Four of Oxford's five new Eagle scouts were guests of honor at a scout banquet last night at Daniel Axford School. Pictured, left to right, are George Trask, 14; Scoutmaster Charles Brucker, Darryl Lambertson, 14, and Paul White, 15. In front is Mike Marshall, 14. All are members of Oxford Boy Scout Troop 32. The fifth youth to earn the highest scout award during the 1958-59 school year was Ed LaDouceur. He is now in the Army.

Michigan Bureau Head Says:

# Huge Farms Will Not Prevail

LANSING (UPI)—The trend toward less farmers and bigger farms continues in Michigan but Michigan Farm Bureau official said he didn't think the state would soon become an area of corporate farms.

★ ★ ★

"Michigan probably has more diversified farming than any other state," said Stanley M. Powell, legislative counsel for the Bureau, himself a farmer near Ionia. "The family farm is still the most important type in the state."

**Erwin D. Canham, head of the U.S. Chamber of Commerce and editor of the Christian Science Monitor, said last week the time has come for big farms to take over the production of agricultural products and that the family farm has become outdated.**

But unlike some states, Michigan is better equipped for medium-sized farms because of its diversity in products, irregularity of land and different soils and climate.

BIGGER THAN THEY LOOK'

"Farms are bigger than they look in Michigan," Powell said. "One farmer may cultivate land which belongs to one or more of his neighbors, while the neighbor may just live in a farmhouse, work in a factory and do a little farming at night."

He said some farms are obviously too small but that this doesn't mean they should all be great corporate enterprises.

"I doubt whether corporate farming would really work in Michigan," he said. "A family which runs its own farm is far more interested in working it than hired hands who come in and the cost of farm labor might be prohibitive."

"The farmer works an eight-hour day—eight hours before dinner and eight hours after," he said.

**Farming is relatively healthy in the state, Powell said, despite the fact that some areas have found the going tough after a few good years.**

"We have a distinct advantage over some areas in that we are close to the market," he said. "Michigan's demand exceeds supply so local farmers should have a distinct advantage over farmers of other states who must ship their produce several hundred miles."

Despite the diversity of products, Powell said, dairy farming makes up one-third of the state's farm economy.

## Lutheran Church Marks Its First Anniversary

ROCHESTER — The Abiding Presence Evangelical Lutheran Church, organized Oct. 26, 1958, celebrated its first anniversary Sunday by receiving 22 adults and 28 young people as members.

The congregation has 176 confirmed members and 318 baptized members, according to the Rev. M. F. Fontz, pastor.

MRS. CHARLES G. PASSAGE

Mr. and Mrs. Claude Hamilton of Lake City, Tenn., announce the marriage of their daughter, Jo Ann, to Charles G. Passage, son of Mr. and Mrs. Albert Passage of 32 Davison St., Oxford. They were united in marriage Oct. 17 at Jellico, Tenn. and are making their home in Clinton, Tenn.

## Exchange Senior From Austria Is Pumpkin Queen

SOUTHFIELD — A 16-year-old senior at Southfield High School and exchange student from Austria, Heidi Fasching, reigns as Pumpkin Queen for Southfield Kiwanis Club's pumpkin sale now in progress.

Heidi is spending her first year out of her native Austria.

**After graduation she will return to Austria where she lives with her 15-year-old sister and mother, a widow who lost her husband in World War II. Heidi hails from Loipersbach, near the Hungarian border.**

Her home in Southfield is with Mr. and Mrs. George Clixby, 22115 Fairway Dr.

★ ★ ★

On Saturday she will adorn the float sponsored by Southfield Kiwanis Club which will participate in the giant Halloween parade being sponsored by the Berkley Kiwanis Club.

Many local and neighboring organizations are participating in this parade. A tour of local areas will be made.

# Detroit Broach of Avon Unveils Industrial Presses

A new line of precision industrial presses built to exacting machine tool standards for improved production, quality, and efficiency has been introduced by Detroit Broach & Machine Co. of Avon Township.

The wide range of compact, self-contained presses, which can perform simple or complex broaching, assembly or straightening operations, are the result of an intensive research program geared to produce highly flexible, trouble-free machines which can perform one or a combination of manufacturing operations.

**"We have designed these machines with the twofold goal of making them completely sensitive to delicate straightening yet providing maximum reliability for heavy broaching, riveting, forcing, marking swaging or complex special applications," explained E. H. H. Graf, vice president in charge of sales for Detroit Broach.**

"The new presses have been designed and built to machine tool specifications for ease of operation, long maintenance-free life, and low-cost operation," Mr. Graf said.

★ ★ ★

Variable press speeds and fluid power assure finger-tip operator control of ram speed, force, travel, and direction of movement through each phase of press operation. Fully automatic and semi-automatic electrical controls also are available.

**Built to specification, the new presses are available in sizes from two to several hundred tons. Their flexible design permits addition of interchangeable work handling devices, indexing mechanisms, hopper feeds, tool handling attachments, straightening fixtures and specialized production aids.**

In addition to the new precision presses, Detroit Broach & Machine Co. designs and manufactures broaching machines, broaches, cutting tools, gauges and fixtures as well as special machine tools to specification for a wide variety of manufacturing operations.

## Big Beaver Church Unit Plans Annual Bazaar

TROY — The W.S.C.S. of the Big Beaver Methodist Church will sponsor its annual bazaar Nov. 4 and 5 at the church.

In addition to booths where fancy work, novelties, plants, white elephants and rugs will be sold, a tea is planned for 4 p.m. on opening day.

A turkey dinner with all the trimmings will be served from 5 to 8 p.m. on Nov. 5.

A bake sale will be held both days, and a special seasonal attraction will be the Christmas decoration room.

# Village Protects Its Protector

## Residents Won't Stand for Replacement of an Old Mountain Statue

SALTA, Argentina (UPI) — There's a comparatively modern legend in this colonial city about the day the mountain rumbled until the peasants made their peace with God.

According to the legend, one day loud sounds rumbled from the depths of San Bernardo mountain, one of the peaks rising above the ranches, farms and houses of this town. The peasants held a council and decided it was time to pay homage to God.

**So, with the aid of soldiers from the second artillery regiment, they raised on San Bernardo a massive monument of Christ the Redemptor. The rumbling was heard no more.**

For more than half a century, the figure of Christ with right hand upraised looked down on the city from its pedestal atop the 1,000-foot mountain.

Salta is a quiet town of 65,000 people, considered by many to be one of Argentina's prettiest. Strict zoning laws preserve its colonial atmosphere. It is in the semi-tropical north of the country, but it is high above sea level, about 3,500 feet, so it has an agreeable climate.

A few years ago, a more forbidding cloud appeared over the beloved statue of San Bernardo.

**In 1954, the governor of the province commissioned sculptor Juan Carlos Iramian to undertake a monument that would replace the Crist the Redemptor of San Bernardo. The new statue would be the biggest in the world —rising 91 feet from a 65-foot pedestal.**

Iramain has now finished his master work. Chisled from 240 pieces of rock, the new statue weighs about 300,000 tons and took two and half years to fashion. At the base are carvings showing scenes from the life of Christ.

Casual criticism swelled to a full-blown campaign of protest. The people of Salta wanted their old statue.

Officials appealed to them, pleaded with them, argued with them. "The bigger the Christ statue, the greater the protection," they said. The people were unmoved.

**There is talk of placing "Iramain's Christ," as it has come to be known, atop another mountain.**

The people of Salta will accept that. But Christ the Redemptor of San Bernado stays, they say.

# *Breakfast With La Monroe? What a Yolk!*

NEW YORK — Interested in having breakfast with Marilyn Monroe? Before answering, consider what Mrs. Miller has to eat in the morning. Warm milk, two raw eggs and a vitamin pill. Still interested?

That's Marilyn's secret breakfast menu. Here are some of the other strange breakfasts consumed by the stars, as revealed in a current magazine.

★ ★ ★

David Niven, for instance, eats in an all-black room and allows only whispers. "That's the way breakfast should be," he says.

Alfred Hitchcock's coffee is "black as a witch's heart, and hot as a freshly shot gun."

Cary Grant, for contrast, always eats in bed, and always has the same orange juice and weak coffee, the publication reveals.

Cheery Dinah Shore is just the same way in the a.m. She serves biscuits under her avacado tree along with a big southern-style meal.

# Sentenced in Beating of Ex-Wife's Mate

A Pontiac man who savagely beat his wife's former husband in a Grand Rapids hotel room Aug. 4 has been sentenced to six to 20 years in Southern Michigan Prison.

Herbert O. Wilson, 30, of 607 Granada St. pleaded guilty earlier of assault with intent to commit murder.

**Wilson attacked disabled war veteran Jack Levandoski, 32, of Grand Rapids, with the base of a table lamp.**

Wilson was sentenced yesterday by Kent County Circuit Judge Claude VanderPloeg.

Grand Rapids police said there had been tension between the two men since Wilson's marriage to Levandoski's wife.

Wilson was arrested by Pontiac state trooper shortly after the beating.

Hayden was forbidden to take the children on the trip by a Los Angeles judge.

## Annual Payroll 335 Million Dollars

# 85 Companies in Kaiser Network

**By United Press International**

Kaiser Industries Corp. in slightly more than 30 years has grown into a vast network which encompasses 51 active companies, subsidiaries and Kaiser-managed affiliates in 18 states and five foreign countries, with assets of 1.7 billion dollars and a billion dollars a year sales.

Its tremendous growth can be attributed largely to Edgar F. Kaiser, the 51-year-old president and chief executive officer who followed in the footsteps of his famous father, Henry J. Kaiser.

**At the age of 25, Edgar Kaiser was project manager for the construction of the main spillway at Bonneville Dam—one of the first major Kaiser ventures.**

At 34, he moved into shipbuilding—and the Kaiser company gained international renown for producing more vessels than any other shipbuilder in history.

★ ★ ★

The Kaiser shipyards constructed 1,490 ships during World War II—

EDGAR F. KAISER

approximately one-third of the entire U. S. merchant shipping—turning them out in as short a time as 4½ days from keel-laying to launching.

★ ★ ★

At three plants in the Portland, Ore., area, the company produced 50 small aircraft carriers to take the offensive against submarines and carry the war to the Japanese-held islands in the Pacific.

**When the Kaiser organization went into the automotive business in 1945, Edgar, then 37, became general manager of the company's plant at Willow Run.**

Today the Kaiser complex operates 85 plants and facilities turning out 300 products and services from aluminum foil to dams and mass housing. It employs 55,800 workers with an annual payroll of 335 million dollars.

★ ★ ★

Kaiser plants mine bauxite in Jamaica, build jeeps and Kaiser cars in Argentina and Brazil, produce aggregates and cement in California, quarry gypsum in Mexico, mill steel at Fontana, Calif., and produce aluminum and chemicals at some 25 sites spanning the continent from Mulberry, Fla., to Spokane, Wash.

★ ★ ★

Kaiser engineers venture throughout the world, building steel mills and power plants in India and South America, hydro-electric projects in Australia, military bases in Iran and atomic reactors in the western United States.

**Edgar Kaiser has ranged around the world to spread American know-how, assist under-developed countries, and enhance America's reputation.**

He personally has visited 17 countries in Europe, South America, Australia and the Far East, traveled 250,000 miles during the past four years meeting with leaders of foreign governments and businesses.

★ ★ ★

Kaiser was married to the former Sue Mead in Washington, D.C., in August 1932. They are the parents of six children, and reside at Lafayette, Calif.

## Plenty Planes to Carry Leaflets

# *Hard to Halt Cuba Pilots*

MIAMI (UPI) — Federal and local officers in South Florida, ordered to stop leaflet-dropping planes bound for Cuba, have a job about as easy as lassoing a quail in a canebrake.

"There must be 200 usable airstrips south of Daytona Beach, Fla.," said Tyler C. Winton, senior border patrol officer at Miami.

And there are thousands of small airplanes handy for rent or borrow. Also available are scores of pilots.

**One soldier of fortune, not engaged in the leaflet business because he lined up a better paying job further south, said it is easy to escape the eye of authorities on flights to Cuba.**

The pilots, he said, rent or borrow a plane, file a local flight plan, then hop to the Florida Keys. There your contact man shows up with the leaflets and maybe a supply of fuel for the short overwater flight to Cuba.

"It can be dangerous getting into Cuba now and getting back, but the pay is good," the flier said.

# *Martha Raye Takes Verbal Sock at Mate*

COVINGTON, Ky. (UPI)— Comedienne Martha Raye, here for a two-week engagement, said yesterday that her estranged husband, ex-police officer Bob O'Shea, "Never earned a dime since I married him and he cost me over $100,000 in the past year."

★ ★ ★

The singer, who appeared at the Beverly Hills Country Club at this Ohio river city, said O'Shea "ran out on me when I ran out of money."

She said she married O'Shea, her sixth husband, "because I loved him, but obviously he was interested in how much he could get out of me."

★ ★ ★

"I am tired of paying for his ex-wife's alimony and his many acquired extravagances and I no longer can afford him."

The couple separated last July.

Miss Raye came here with her manager, Nick Condos, a former husband.

# Soviet Unveils Biggest Budget

## Spending Goes Up for Almost All but Defense —That Is Unchanged

MOSCOW (AP) — The Soviet government today unveiled the biggest budget in its history, with spending increased for almost everything except defense.

Deputy Finance Minister Vasilli Garbuzov told 1,335 members of the Supreme Soviet — the nation's parliament — that revenue would be 772,100,000,000 rubles and expenditures 744,800,000,000 rubles, leaving a surplus of 27,300,000,000 rubles.

★ ★ ★

Defense expenditures were set at 96,100,000,00 rubles — exactly the same as last year, which means the percentage of the budget devoted to defense has actually been reduced.

At the official exchange rate, the ruble is worth 25 cents. But it is difficult to fix the exact defense expenditure since some military items may be listed under civilian categories. Rocket research, for example, may come under the heading of scientific research.

★ ★ ★

The total government expenditure also is misleading to westerners. Under the Communist system of government ownership of all production and distribution facilities, the budget includes economic costs which are usually the burden of private corporations in non-Communist countries.

# *Tyrone Power's Widow Weds Producer Loew*

LAS VEGAS, Nev. (AP) — Tyrone Power's widow, Deborah Minardos Power, was married Monday to film producer Arthur Loew Jr.

It was the third marriage for Mrs. Power, 27, and the first for Loew, 33, often termed Hollywood's most eligible bachelor.

★ ★ ★

Power died of a heart attack in Spin Nov. 15, 1958. A son was born to his widow two months later.

The new Mrs. Loew said she had known Loew six months and that they became engaged last August. Few Hollywood friends knew of the romance.

SANTA MONICA, Calif. (AP)— Joan Perry Cohn Karl, widow of Columbia Pictures president Harry Cohn, wants to end her brief marriage to shoe chain owner Harry Karl.

Karl was twice married to actress Marie (The Body) McDonald. He married Mrs. Cohn Sept. 1 in Chicago. They separated 23 days later.

Her divorce suit, filed Monday, charged extreme cruelty and alleged Karl caused her grievious mental suffering. Each is 45.

## Hollywood Headlines:

# *Huge Promotion Planned for New Linkletter Book*

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD—Can the literary world take the big sell?

The test will come this month as Art Linkletter launches his new book, "The Secret World of Kids." Says the veteran emcee: "This is the biggest promotional job ever done for the kickoff of a new book."

THOMAS

Linkletter is superlative - prone, but he could be right in this instance.

He outlined the program for the new volume: condensation in a women's magazine with the cover line billing it as "Next year's No. 1 best-seller," a TV special title "The Secret World of Kids" on NBC tonight with the book featured throughout; ads concerning the show on the network all week; ample mentions on the Linkletter shows, "House Party" and "People Are Funny," and monster autograph rallies in New York City, Long Island and Hollywood.

**'NOT ASHAMED'**

"I'm not ashamed of it," the author remarked. "If I were selling a cheap, trashy book it would be wrong. But I put a lot of work and effort into this book, and I think it's a good one. It's about the greatest achievement a man can have—the creation of a good happy family."

Linkletter is in the book business to stay. After the amazing success of his "Kids Say the Darndest Things" — 460,000 hardcover, 2¼ million paperback—he decided books needed better selling.

★ ★ ★

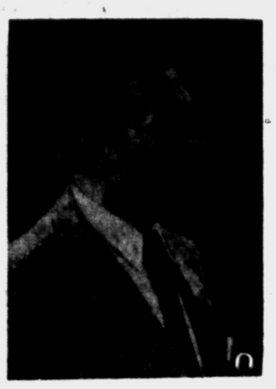

"The book business wasn't being run like a business," he complained. He gathered some potent friends—his partner John Guedel, rival emcee Ralph Edwards, Jack Bailey and the "Queen for a Day" group, the quiz tycoons Goodson-Todman, Groucho Marx, plus the backers of the Diners Club and some big magazines.

They formed a publishing firm called Bernard Gets Associates, headed by the editor who prodded Linkletter into writing "Kids Say the Darndest Things."

**'NOT IN FOR MONEY**

"We're not in it for money," Linkletter claimed. "As you can tell from the list, none of us needs to make any more money.

"None of the partners has made any promises about selling the

ART LINKLETTER

books. But we are aiming at achieving a wider audience among book readers and we will use our outlets to do what we can toward that goal."

The enterprise has already brought criticism from book journals and rival publishers as bringing a circus atmosphere to the literary scene.

"That doesn't bother me in the least," said Linkletter.

"I think more people should be reading books. If they get started with one of ours, they'll read others, too. How can that be bad?"

## British Getting Ready to Lower Barriers

# Gap Grows Less in Value of U.S. Dollar

By SAM DAWSON
AP Business News Analyst

NEW YORK (AP) — Uncle Sam's many-pronged drive to strengthen the dollar and halt the loss of gold, while helping Americans to sell their goods and services abroad, seems to be making progress today.

The British are getting ready to lower some more of their barriers against American goods.

They and other nations with import quotas and prohibitive tariffs are being told by the International Monetary Fund that the dollar gap is a poor excuse now because it was closed some time back.

U.S. delegates to the meeting in Tokyo this week of a 37-nation trade group are pushing hard to get these discriminations against the dollar and American goods junked. The 37 are members of the General Agreement on Tariffs and Trade.

And at home the U.S. government is putting pressure on recipients of its foreign aid to spend these dollars here instead of elsewhere.

We have been losing gold and seeing some other currencies go to a premium over the dollar because the money we spend on our growing imports, plus the money for overseas military and economic aid, has been exceeding the amount foreigners spend on American goods.

★ ★ ★

With this surplus of dollars other lands — mainly the industrial ones—have been building up their reserves and using some of the dollars to buy our gold or U.S. securities which they could use to buy gold.

They have also used American aid since World War II to build up their industries. They now compete with Americans in world markets, and often with the help of lower price tags because production costs are lower overseas.

★ ★ ★

Most import quotas and tariff barriers against American goods were raised after the war to keep financially shaky nations from losing scarce dollars.

This is no longer necessary. The trend has been reversed in the last two years. Now the quotas and tariffs are retained to protect local industries that are in trouble or to help new ones grow.

The Saskatchewan Rough Riders defeated the Winnepeg Blue Bombers, 37-30, in the final game of the 1959 Western Interprovincial Football Union season, but the victory showed only on the scoreboard. Commissoner G. Sydney Halter forfeited the game to the Bombers because the Riders used coach Frank Tripucka, who is ineligible to play.

## Kuenn Second Among Hitters

### Only Williams Tops Tiger Among AL Active Players

NEW YORK (AP) — Detroit's Harvey Kuenn has a lifetime batting average second only to Ted Williams among the American League's active players.

The Tiger right fielder's .353 average in 1959 gave him the batting title and boosted his life-But Williams, nearing the end of time mark six points to .314, his days as an active player for the Boston Red Sox, still ranks supreme among all major league players with a .346 lifetime average.

The lifetime leader in the National League is Stan Musial of the St. Louis Cardinals with a .337 average.

Williams and Musial are in the twilight of their careers and had poor seasons in 1959. Williams hit .254. Musial one point higher. Both had three points shaved off the lifetime standards.

Tied for third among the American Leaguers is the Tigers' Al Kaline, according to figures compiled by The Associated Press. Kaline, tied with New York's Mickey Mantle, has a .311 lifetime average. The Tiger center fielder finished second to teammate Kuenn in the batting race last season.

Williams ranks fifth among modern batting leaders (since 1900). Ahead of him are Ty Cobb, a Tiger immortal (.367), Rogers Hornsby (.358), Joe Jackson (.356) and Lefty O'Doul (.349).

### Parker Scoring King

WINNIPEG, (AP) — Jackie Parker of the Edmonton Eskimos, a former Mississippi State back, captured the Western Interprovincial Football Union scoring title. Statistics released today showed that Parker collected 109 points on seven touchdowns, 31 converts and 12 field goals. Parked missed four out of 16 games due to injuries.

### Earl Will Start Against 49ers

## Morrall Gets 2nd Chance

SAN FRANCISCO (AP) — The Detroit Lions aren't going to break up a winning combination—now that they have found one.

Earl Morrall will remain the Lions' starting quarterback — at least for next Sunday's revenge game with the San Francisco 49ers. Tobin Rote will stay on the bench where Morrall had languished since early last season.

**Coach George Wilson was pleased with Morrall's emergency performance last Sunday. The ex-Michigan State All-America guided the Lions to their first victory of the National Football League season, a 17-7 upset of the Los Angeles Rams.**

"Earl did such a good job," said Wilson, "that I'd say he was to start at quarterback against the 49ers. He gave us our first victory, didn't he?"

★ ★ ★

Morrall got his chance when Rote's left thumb was fractured in the 34-13 defeat by the 49ers at Briggs Stadium Oct. 18. The veteran could have played Sunday. But Wilson decided to try Morrall with Rote held in readiness on the sidelines. Rote never left the bench.

**If Morrall turns in a repeat performance at San Francisco, it could be the start of another NFL Cinderella story. Baltimore's Johnny Unitas, now considered the NFL's top quarterback, received his first chance a few seasons ago the same way.**

George Shaw, the Colts' regular quarterback, was hurt, giving Unitas an opportunity to show his ability. The ousted Shaw never regained his job. Unitas, of course, was the strongman in the Colts' surge to the world championship last year.

★ ★ ★

Morrall's passing against the Rams was not sensational. But it was the best aerial job Detroit has had all season.

**His play calling also impressed the Lions' coaching staff.**

"He was using his head out there," said Aldo Forte, offensive line coach.

★ ★ ★

Morrall called the play that propelled the Lions to their first touchdown and eventually meant victory. He sent John Henry Johnson through the line for a 39-yard gain when a pass play appeared to be the proper call.

**But Morrall saw the way the Rams had lined up defensively and signalled the surprise play that exploited their alignment.**

Detroit's patched-up defense came in for a share of the praise too.

★ ★ ★

"I can't remember when our defense played a better game," said defensive coach Buster Ramsey, who molded the great units of the Lions' championship days.

## Expenses Not Incentive Cited by Club Leaders

### $100 Paid Each Player at Los Angeles Called Routine

PHILADELPHIA (AP) — Each of the Detroit Lions is $100 richer, but the National Football League has agreed with club officials the money was for expenses—not an incentive to beat the Los Angeles Rams.

**League rules forbid offering a player any bonus of money or a valuable gift for winning a regularly scheduled game.**

Published reports said Lion President Edwin J. Anderson promised the Lions $100 each last Friday "if they beat the Rams." But Anderson said yesterday at Palm Springs, Calif., that the $100 was for expenses normally given the players on their two-week West Coast road trip.

★ ★ ★

The Lions snapped a four-game losing streak Sunday by upsetting the Rams 17-7.

Austin Gunsel, acting NFL commissioner, said here last night that there would be no investigation of reports that the Lions received the money as an incentive.

"Anderson told me that the incentive reports were false," Gunsel said. "And I must believe him."

**Anderson said he gave the money to coach George Wilson to be distributed to the Lions Friday.**

"I just plain forgot about it," said Wilson last night at Palo Alto, Calif., where the Lions are preparing for next week's game with San Francisco.

★ ★ ★

"I was given the money when we left Detroit and was instructed to give the players their money when we got off the plane in Los Angeles.

"I forgot to give it to them and just got around to giving it to them Monday. When you're not winning, you don't think of everything."

One report yesterday said Anderson met with directors Lyle Fife and Spike Briggs after Sunday's game and decided to restore the $100.

**"We've got a good team," Wilson said, "and we don't need $100 extra to make us win. That $100 means nothing as incentive. It would have to be at least $1,000 to make it worthwhile."**

The Lion players obviously were ordered to keep quiet about the matter.

★ ★ ★

But one veteran player told The Associated Press: "I don't know why such a fuss is being made over it. That's just a little money for expenses, we've always received it. As far as the $100 being a great incentive to beat the Rams, we just had to win a football game, that's all. I don't think the $100 had anything to do with the outcome."

★ ★ ★

"Perhaps this whole affair is a matter of discipline," said Gunsel, a former FBI man. "I don't think there is anything in it for the commissioner's office to investigate so I'm dropping the whole matter."

# Majors May Start Expansion Soon

## American Loop Studies Jump to Ten Teams

### Possibilities Include the Switching of NL Club to AL

NEW YORK (AP)—A revolutionary expansion plan may be in the works in the major leagues, The Associated Press has learned.

According to an authoritative source, this is the proposed plan:

**1. The expansion-minded American League is seriously considering a 10-team format in the near future, possibly even next year. Two new franchises, Minneapolis and New York, would be added.**

**2. The new franchise in New York, already American League territory, then would be offered to the National League in exchange for either Pittsburgh or Philadelphia.**

The ambitious plan faces many problems, however. The biggest is to get the status quo-minded National League to accept the proposition. Unlike the American, which announced yesterday it definitely is considering expansion, the National League is content to remain as is. The prospect of reacquiring a franchise in New York might change the minds of some of the owners, however.

The American League plans to meet again tomorrow, ostensibly for a schedule meeting. It is conceivable that the expansion committee may have something to announce then.

**The committee met yesterday with commissioner Ford Frick and league presidents Joe Cronin of the American and Warren Giles of the National. Afterward, Cronin issued the following statement:**

"The fact finding committee of the American League met with commissioner Frick and Warren Giles today and informed them that the American League planned expansion in the future."

Cronin did not mention when the league expected to expand, how many teams would be involved or what cities might have new franchises.

**According to the AP informant, four AL teams favor the interleague exchange idea — Washington, Cleveland, Detroit and Chicago. It takes six affirmative votes to make any kind of a franchise change.**

Should the plan become a fact, the American League, the source said, would permit the Washington Senators to move to Minneapolis but would retain possession of the Washington franchise and put another team in the nation's capital.

## Bowlerama Champs Have Plans for 'Loot'

By CHUCK ABAIR

The 1959 Pontiac Press Bowlerama champions have big plans for the "loot" they won Sunday in the finals of the singles handicap tournament held at Huron Bowl.

Joe Myers, the young St. Michael Sophomore from Rochester, didn't need time to think when asked about what he would do with his $500 check.

**"It's going in the bank towards college," said the 15-year-old. Women's victor Marvel Szot also had her mind made up in a hurry. Her $300 will make it possible for her to go to Denver for the next WIBC tourney.**

Myers credits Rochester Lanes proprietor Harold Hintz and his wife, Gerry, for his success as a kegler. Now a member of three leagues, he started out three years ago with Gary Hintz, Mike Dzuris and several others. All have come along fast.

The Hintz boy, a member of the St. Michael football team, missed by only one pin of making the finals with his buddies. Dzuris finished 4th.

**Mr. Hintz plans to join the boys as a team and go to the coming ABC tournament at Toledo. "The way they are bowling now I have as much chance with them as anyone," says Hal.**

Myers' main interest is bowling. It is the first time he has won any money doing anything.

★ ★ ★

For Mrs. Szot determination paid off. She had been in the money once and eliminated the other time in the two previous events. But this time she had things all her own way.

**The big victory at the new Huron Bowl overshadowed fond memories she had been carrying about the former keg house operated by Joe Bonfiglio and Dominic Mazza.**

"I had a 279 for the highest women's game ever bowled at the old place," she disclosed following her easy Sunday triumph.

The actual invitational pacesetters Bob Gormong and Jay Lovett are considered "old pros" among the local keglers but they were just as thrilled as the lesser known winners.

Gormong credited some pointeds by rival Lou Koprince during a practice session for sharpening up his delivery before firing the 651. Lovett said his 635 was the best he had bowled recently.

## Titan Coach Miller Makes 2 Changes

DETROIT (AP) — Coach Jim Miller has juggled up the University of Detroit's lineup again for Friday night's Boston College game.

Ted Karpowicz has been installed as starting fullback after previous tours at both halfback slots. Karpowicz replaced Ray Davis, who has been out with the flu and restricted to punting in Detroit's last two games.

Steve Stonebreaker moved into the No. 1 right end position, replacing John Pretto. Pretto is bothered by a leg injury.

# IOC May Clarify Chinese Situation

SEVILLE, Spain (AP) — There were widespread reports today that the International Olympic Committee may call a special meeting soon to clarify its stand on the muddled Chinese situation.

Avery Brundage, president of the IOC who is vacationing here, declined comment other than to say he will have a definite statement to make at a press conference at Madrid Wednesday.

**The IOC dropped a bombshell last May when it ruled nationalist China no longer could compete in the Olympic Games under the Chinese banner, but would be compelled to adopt a new name such as "Formosa" or "Taiwan."**

The ruling was that the Nationalist Chinese no longer represented all of the Chinese nation.

★ ★ ★

At the same time, the IOC told the Communist Chinese, who had quit the Olympic body because of recognition of Nationalist China, that they could regain admission by making formal application through the various sports federations.

**The IOC action drew repercussions from all over the world, and particularly in the United States, where even President Eisenhower criticized the move.**

The U.S. House of Representatives immediately voted to prohibit the use of Army personnel and equipment in the 1960 Winter Games at Squaw Valley, Calif., if any free nation, such as Nationalist China, was barred from the competition.

★ ★ ★

Organizers of the Squaw Valley Games announced that the Communist Chinese definitely would not be permitted to compete there. The American Legion withdrew its support from fund-raising drives.

**The executive committee of the Amateur Athletic Union (AAU) of the United States condemned the IOC for withdrawing recognition of the Nationalist Chinese. The AAU, which controls most amateur sports in the United States demanded that the IOC "rescind immediately its unjustified action."**

The U.S. Olympic Committee joined in the widespread clamor against the ruling body of the international sports festival.

The U.S. committee deplored the action, pointing out at the same time that it has no vote in the IOC, does not elect representatives to the group and does not participate in the deliberations.

**Brundage, Chicago hotel owner who rose from president of the U.S. Olympic Assn., to president of IOC, insisted that the IOC action was misunderstood.**

"The wording of the resolution," he said, "was unfortunate and certainly did not express the intent of the meeting. The IOC action was merely a move to identify properly the athletes living on Taiwan (Formosa)."

## Pistons, Yardley Resume Feud

### Detroit Opens Home Season Against Nats Tomorrow

DETROIT (AP)—The Detroit Pistons resume their feud with George Yardley tomorrow night — this time on a basketball court.

It'll be the Pistons' home opener of the National Basketball Assn. season. Yardley will make his first Detroit appearance against his old teammates since he was traded after a flurry of hot words to the Syracuse Nationals.

★ ★ ★

The trade was made at Yardley's request late last season.

**Detroit has split in two road games. But the two Piston appearances indicate they are slightly improved over last year. Coach Red Rocha says rookie Bailey Howell's play has made the difference.**

Rocha also is encouraged by Ed Conlin's work. Conlin was the player Detroit received from Syracuse for Yardley.

The Nats have lost their only NBA game — but Yardley was their big scorer.

The Pistons will play without holdout Walter Dukes unless he changes his mind and comes to terms at the last minute. The seven-footer has missed the two previous games.

### Skaters Embark on Trip

## Wings Not Scoring Enough

DETROIT (AP)—The Detroit Red Wings are guarding against a letdown now that their long unbeaten streak has ended.

"We had to lose one sometime," said coach Sid Abel. "We couldn't expect to go on winning forever — especially because we haven't been scoring too many goals.

**"But I'm just sorry it had to be such a tough one to lose."**

The Wings finally were beaten 2-1 Sunday after tying their first game and winning the next five. It took the world champion Montreal Canadiens to bring the Wings down from the clouds.

There were some claims that Bernie (Boom Boom) Geoffrion's winning goal with 78 seconds left came after an offside. The television tape of Sunday's game seemed to bear this out. But there was no official protest from Abel.

The Wings embark on a three-game road trip tomorrow before returning to Olympia Stadium Sunday. That means four games in five nights.

**Detroit plays at New York tomorrow, Boston Thursday and Montreal Saturday. Chicago visits Olympia Sunday.**

★ ★ ★

Somewhere along the line, Abel hopes the Wings develop a little more scoring punch. The highlight of their unbeaten surge was Terry Sawchuk's goaltending. He has allowed seven goals — a brilliant average of one a game. His mates have scored only 17, which is sub par production.

★ ★ ★

"We've got to get some more goals for Terry," said Abel. "He can't win every game with goaltending alone."

## 'Rassling' Can Be Real Smelly

If you plan on going to the "rassling" matches at the Pontiac Armory, you better wear a gas mask or douse yourself with some pleasant smelling deodorant.

It so happens that Gentleman Jim Hady, the present junior heavyweight champion of the world may have a tough time being a gentleman when he meets the Terrible Turk, Ali Bey in the feature exhibition next Wednesday night.

**If the crowd is also objectionable toward the Terrible Turk, they will have reason.**

Unlike our modern day athletes, The Turk trains on garlic. He claims this is responsible for his excellent health and fine physical condition.

★ ★ ★

Everything else in his training program, including his daily schedule of calisthenics, takes second place in his devotion to garlic.

**Aside from any questionable physical benefits he derives for it, garlic has helped The Turk to many victories.**

He knows the effects garlic has upon the eyes when rubbed near them, so very often he uses this knowledge to advantage while blinding his opponents.

★ ★ ★

He also has a psychological advantage. His opponents are reluctant to get near him, because of the strong odor about him.

**Gentleman Jim plans a counter-attack in his strategy against the garlic odors by dobbing himself in some sweet scenting solution or powder.**

This could turn out to be quite a smelly situation Wednesday night.

## Presbyterian Named to Tangerine Bowl

ORLANDO, Fla. (AP) —Presbyterian College of Clinton, S.C., undefeated and untied in six consecutive games, last night accepted an invitation to play in the Tangerine Bowl football game here Jan. 1.

★ ★ ★

The announcement was made by Grady Cocksey, commissioner of the Elks Lodge Tangerine Bowl Commission which sponsors the annual charity game for the benefit of the Harry-Anna Crippled Children's Home at nearby Umatilla.

★ ★ ★

The invitation was extended after Presbyterian College defeated the University of Tampa last Saturday, 27-0, and was accepted last night by Coach Frank Jones.

## Geoffrion Tops NHL

MONTREAL (AP)—One of the reasons for the Montreal Canadiens' surge to the top of the National Hockey League has been the play of Bernie (Boom Boom) Geoffrion.

★ ★ ★

The Canadiens won three games last week with Geoffrion sparking them with three goals and three assists. This output boosted the hard-shooting right-winger into the scoring lead with 14 points.

Figures released by the league today showed Boom Boom with six points during the week to move into a second-place tie with Andy Bathgate of the New York Rangers. Each has 11.

Bronco Horvath of the Boston Bruins, the leader a week ago, accounted for only one goal. He fell into a fourth-place deadlock with the Rangers' Dean Prentice with 10 points apiece.

★ ★ ★

Terry Sawchuk of the Detroit Red Wings continues to boast the lowest average among the goalies; Has allowed 1.00 goals per game, giving up just seven tallies in seven games. Sawchuk also has the most shutouts, two.

The scoring leaders:

## Rest Cure Is Prescribed for MSU Gridders

### No Crippling Injuries as Spartans Get Ready to Play Ohio State

EAST LANSING (AP)—Coach Duffy Daugherty is giving his Spartans a rest cure this week in preparation for Saturday's Big Ten football test at Ohio State.

There were no crippling injuries in the 14-6 win over Indiana, but the MSU troops took a good battering from the stonewall goal line stand and from stopping the likes of burly end Earl Faison, the 6-5, 235-pound import from Virginia.

**"No one was hurt but they're awfully sore and bruised," said Daugherty in explaining an easing off of contact sessions. "One of the most important things in football is to want to play football."**

Dr. James S. Feurig, team physician, had a similar report.

★ ★ ★

"They are bumped and bruised, lame and limping, aching and anxious," Feurig said. "But I think they'll be in good shape by Saturday."

"Nothing serious is in sight," Feurig added.

Fullback Blanche Martin, who didn't start against Indiana, was among the players expected to benefit from the easing off of the hitting.

**Martin, bothered by rib and leg bruises, carried only for the most vital yardage but made 35 yards in six tries against the Hoosiers.**

The practice field was soggy from a drizzling rain yesterday afternoon and the entire squad was sent in early. The first two units only jogged around the field and ran through a few plays in the limbering up session.

★ ★ ★

Daugherty warned his players they could be running into an ambush at Columbus despite the Ohio State record of one win and two Big Ten losses — the latter to Illinois, 9-0, and to Wisconsin, 12-3, on Saturday.

"Don't forget they blanked Purdue 15-0," Daughterty said. "That should be a tip off."

**AID THAT DIDN'T HELP** — Attendants try unsuccessfully to restore consciousness to Los Angeles bantamweight Walt Ingram who collapsed in the ring from terrific blows by world champion Jose Becerra last Saturday night at Guadalajara, Mexico. ### Biggest Test Set Saturday

## LSU Holds No. 1 Position

**Associated Press Sports Writer**

The Louisiana State Tigers held on jealously today as the No. team in college football, but theirs was a hazardous, uncomfortable position.

They face their biggest challenge Saturday night at Baton Rouge, La., against a high-flying Mississippi machine which forged into third place in The Associated Press' weekly poll and missed the No. 2 spot by the slender margin of 30 points — the equivalent of three first place votes.

★ ★ ★

In the game, LSU risks its proud position as national champion, holder of an 18-game winning streak and leader of the poll on 13 straight occasions.

In the biggest ballot of the campaign—182 votes—the Tigers received 71 first place votes and a total of 1,556 points to beat out the perennial poll runnerup, Northwestern.

Northwestern received less first place votes than Mississippi—25 to Ole Miss' 46—but drew enough general favor down the line to hold the No. 2 berth. Points are awarded on the basis of 10 points for a first place vote, 9 for second, etc., in the poll of sports writers and broadcasters.

Athough the week-end games ran generally to form, there was a mild shakeup in the top ten.

★ ★ ★

Texas, 28-6 winner over Rice, fell from third to fourth, yielding to Mississippi, which crushed Arkansas 28-0. The two Eastern surprises, Syracuse and Penn State, both moved up a notch on the strength of impressive victories.

Syracuse jumped to fifth by beating West Virginia 44-0. Penn State advanced to seventh by nudging Illinois, a respected Big Ten power, 20-9. That meant Auburn, although 21-6 victor over Miami (Fla.), fell from seventh to eighth.

The top ten with points based on 10 for a first place vote, 9 for second, etc (first place votes and won-lost records in parentheses:

### Beccera Mourning Ring Victim

## *Heartsick Bantam King Postpones Next Bout*

GUADALAJARA, Mexico (AP) —A grieving, heartsick world boxing champion went into hiding today.

Jose Becerra, who won the world bantamweight title only three months ago, had caused the death of a fellow boxer with his fists.

Walt Ingram, 24, died yesterday after taking a battering from Becerra in a non-title bout last Saturday night. Becerra was so shaken that he asked matchmaker George Parnassus to postpone a Nov. 19 bout against Danny Kid in Los Angeles.

"The death of Walt has been very painful for me," he said, "because I never thought that some day I was going to cause tragedy with my fists.

"I don't know what to do. I want to rest for some time and go to some place where I can meditate alone away from everybody. I don't want to think of anything connected with boxing.

"But I would be willing to give a benefit fight to raise funds for the family of my friend, Walt Ingram. And if I can do more, I will."

★ ★ ★

Meanwhie, plans were being made to ship the body of Ingram to the United States for burial. His widow was reported to be at Laredo, Tex., to accompany the body back to Ingram's birthplace, Weirton, W. Va. Ingram also leaves three small children.

Ingram stood up to Becerra's barrage for most of nine rounds. His seconds threw in the towel in the ninth round, and then he fell. He was operated on early Sunday for a cerebral hemorrhage. An attending physician said death was caused by a heart attack following a respiratory interruption.

Ingram, who would have been 25 Nov. 4, had won 13 bouts in his professional career, which began in 1956. Three wins were by knockouts. He lost six and had one draw. This year he had lost three of four fights before meeting Becerra.

Except for an exhibition, this was Becerra's first bout since he took the 118-pound title from France's Alphonse Halimi in July at Los Angeles.

Becerra said he got up at 6 a. m. yesterday. He went out to buy a newspaper to learn about Ingram's condition and saw a headline that Ingram was dead.

He remained home the rest of the day while his family told callers they didn't know where he had gone. He and the family planned to remain with the body until the train departs for Laredo.

## *Horvath Avoids Loop Suspension*

BOSTON (AP) — The Boston Bruins breathed a sigh of relief today when it was learned high scoring center Bronco Horvath did not draw a suspension from National Hockey League President Clarence Campbell.

The fiery Horvath, enraged by called on him at Montreal last minor and misconduct penalties Sunday night, dropped his gloves and challenged Referee Eddie Powers.

Powers gave him a game misconduct and Campbell followed up with a total of $75 in fines but Coach Milt Schmidt was glad the punitive action went no farther.

## Shaw Named Best Sophomore in AL

NEW YORK (AP) — Bob Shaw, the physical culture addict who won 18 games for the pennant-winning Chicago White Sox, today was named American League sophomore of the year by a healthy margin.

Shaw drew 132 votes of the 170 cast by members of the Baseball Writers' Assn. of America in the annual Associated Press poll. He is a 6-2, 190 pound right-hander who thrives on vitamins and exercise. Milt Pappas of Baltimore, another right-handed pitcher, was a distant second. He was named on 24 ballots.

★ ★ ★

Others receiving consideration for sophomore honors were Jim Grant of Cleveland and Barry Latman of the White Sox, 3 votes each; Ryne Duren of New York, 2; and Gary Geiger and Bill Monbouquette of Boston, Jim Landis of Chicago, Albie Pearson, who played for Washington and Baltimore and Gary Bell of Cleveland, 1 vote each.

# College Football

by "RED" BLAIK

Ben Martin, coach of the exciting Air Force Academy team, which meets Army before a sellout crowd in Yankee Stadium Saturday, is a perfect example of a very talented young man, age 37, who could be climbing toward the top in some other career but finds football an irresistible mistress.

Martin played wingback and end on Coach Billick Whelchel's strong Annapolis teams in 1942-'43-44 and was always a solid, smart performer. He was graduated in 1945 as the sixth highest man academically in a class of 1045. He also held the rank of Brigade Commander, the highest Annapolis can bestow. Ben was probably just as outstanding an all-around Midshipman as Pete Dawkins was a Cadet at West Point some 15 years later.

After his graduation, Ensign Martin served aboard the USS Helena in the Atlantic Fleet. Considering his ability, character and personality, it is reasonable to believe he could have risen to an admiral, if he had stayed in service. But an injury forced his retirement. In 1947, he returned to Annapolis as assistant plebe football coach and rose to top assistant under Eddie Erdelatz.

**WANTED TO COACH NAVY**

At West Point, we were sharply aware that Navy's 1948 tie with us and their victories in '50 and '54 traced considerably to Martin's astuteness in analyzing our attack and recommending proper, percentage-wise defenses.

**Martin's natural ambition was some day to become Navy's head coach. But since the Erdelatz regime was successful, Ben, at 33, decided it was time he quit coaching and in the spring of 1955 he entered business. Again, it is logical to assume that his talents would have brought him success in a relatively few years. Yet, when the chance to become head coach at Virginia was proffered in 1956, he grabbed it.**

He built solidly with the Cavaliers. He conceived clever defenses and infused a sustained spirit into his men, so that they harassed superior enemy forces. In '57 we had to come from behind to win at Virginia, 20-12.

★ ★ ★

After the '57 season, Col. George B. Simler, director of athletics at the Air Force Academy, an old Maryland player himself, sought a successor as head coach to Buck Shaw. Buck had built well at the Air Force, but private business interests prevented him from devoting full time to the job.

Col. Simler asked my advice. I recommended two men, one of them Ben Martin.

Martin was Col. Simler's choice and the wisdom of it is etched in the Air Force record. Actually, Ben's teams of the future will be even better than last year's undefeated Falcons and this year's team, which Army realizes will be a tough opponent Saturday.

## Redskins Fire End and Back

WASHINGTON (AP) — Mid-season isn't too late for a shake-up when you're losing — and sore about it. The Washington Redskins started revamping Monday, discharging end John Carson and defensive back Bill Stits.

Filling Carson's place as a pass receiver, Coach Mike Nixon gave unemployed Ken McAfee a job. McAfee, who made his reputation with the New York Giants, was dropped last week by the Philadelphia Eagles.

These unexpected moves followed Washington's second defeat in a row, (a 34-7 flogging by the Cleveland Browns. The setback dumped the Redskins into a tie for fourth in the National Football League's Eastern Conference with a 2-3 record.

## Shhh . . . Someone May Be Listening

# Find Illegal Wiretaps Increasing

NEW YORK (UPI) — Wiretapping and electronic eavesdropping are on the increase in the United States with little heed paid to laws against such practices, it was reported Monday.

The report, based on a two-year study of nine American cities, cites the use of listening devices private investigators and business firms on a broad scale.

**The report was made by Samuel Dash, a former district attorney in Philadelphia, and published under the title "The Eavesdroppers" by the Rutgers University Press. The study was financed by a $50,000 grant from the Ford Foundation.**

The study found that:

—Law enforcement agencies use listening devices even when prohibited by law.

—There is little difficulty in making illegal telephone wiretaps with telephone companies having a general policy of not taking action against employes who help.

**TUNE IN ON RIVALS**

—The use of microphones, tape recorders and other electronic equipment is widespread and used by business firms to eavesdrop on competitors and its own employes.

The nine cities covered in the study were New York, Chicago, Boston, Los Angeles, Philadelphia, San Francisco, New Orleans, Baton Rouge and Las Vegas.

**Dash said most of the private wiretapping is done in New York City. He said it usually involved dishonest telephone company employes, but added that the company usually just fired an employe involved in wiretapping without prosecuting him. A city-by-city breakdown revealed the following:**

New York: Although less than 1,000 wiretaps are authorized by court order, there are as many as 30,000 taps each year . . . Most of the private wire tapping in the world is done in New York . . . Police and district attorneys use mikes and cameras as well as wiretaps.

★ ★ ★

Boston: Law enforcement agencies in Boston deny they wiretap, even though it is legal, because they fear the state Legislature would strip them of the right if it realized how effective wiretaps are . . . the Boston police department does not wiretap officially, although a number of officers possess their own equipment.

Philadelphia: Prior to passage of a Pennsylvania law banning wiretaps in 1957, "there was no hesitancy about wiretapping on the part of the policy or the district attorney . . . some wiretapping policemen "leaked information to gamblers" and helped to tap other policemen . . .

**Los Angeles: Police in Los Angeles, although prohibited by state law, wiretap against the express orders of the police chief . . . There are "at least 10 to 20" auto dealers in Los Angeles who use microphones to listen in on customer's conversations . . . Microphones are used in jails and prisons to eavesdrop on conversations between prisoners and visitors.**

San Francisco: Wiretapping is used "constantly" by San Francisco police with a number of taps operating daily . . . The department uses non-police experts to do its tap work . . . The district attorney uses taps when it is felt it would be useful in an investigation.

Chicago: Despite the ban on wiretapping in Illinois, Chicago police "make wide use of wiretapping . . . Although the police commissioner insists that the department does not wiretap, a special unit operating out of his office is responsible for wiretap jobs . . . The police involved do not want it legalized.

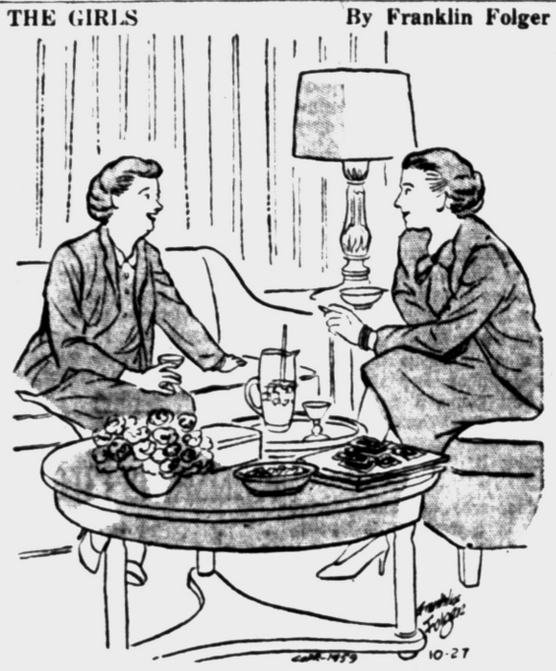

**AIMED AT PROSTITUTES**

Las Vegas: Although illegal, police wiretapping is aimed mainly at the call girl racket . . . Although the police believe they are doing a good job, other agencies insist that "Las Vegas is controlled by racketeers who run the gambling casinos" . . . All the law agencies "get excellent cooperation from telephone company employes" . . .

**New Orleans: The police do "considerably more wiretapping" than is generally supposed . . . The police disclaim wiretap activity although it is legal in Louisiana . . . The wiretaps are handled through two phone company test boards.**

Baton Rouge: The police and district attorney's office "use wiretapping for law-enforcement purposes without hesitation" . . . Most of the taps are done at the phone company by its personnel . . . However, wiretap evidence is never used in court, mainly on the insistence of the phone company.

# Judge Drops Dismissal Suit

### Throws Out Action by Branch Manager to Keep State Job

DETROIT (UP) — A secretary of state branch manager's suit to prevent his dismissal on grounds that it was "predicated on intra-party warfare" was thrown out yesterday by Wayne County Circuit Court.

★ ★ ★

John A. Mellon's suit against Democratic Secretary of State James M. Hare was dismissed yesterday by Judge Frank B. Ferguson, who held that Hare's right to hire gave him the right to fire.

**Mellon had been manager of a secretary of state's branch office in Detroit since 1955. Hare notified Mellon Oct. 16 he intended to close the branch and open another under civil service.**

Judge Ferguson had issued a temporary restraining order stopping Mellon's dismissal after Hare's notification.

"This legal victory gives me no personal satisfaction," Hare said in Lansing, adding that a closing audit of Mellon's books would start today.

★ ★ ★

"It only serves to remind me that under the present patronage system any secretary of state has the authority to dismiss 100 or more branch managers at any time he wishes."

★ ★ ★

Hare had opened a new civil service branch Oct. 15, but Mellon was kept on the job by the temporary restraining order.

Mellon said his dismissal resulted from "intra-party warfare within the 14th Congressional District.

★ ★ ★

Mellon had been charged with not cooperating with the district's Democratic organization. He had opposed Marvin Taormina, recently elected district chairman who replaces Bert F. Donlin. Mellon had been supported by Donlin for the branch managership.

## Officers Are Named by Huguenot Society

# New 8-Mile Drain Plan Just Matter of Time

It's just a matter of waiting now before Oakland County scraps old and adopts new financing plans for the Eight Mile Road storm drain project.

Circuit Judge William J. Beer said yesterday the case was now out of his hands, except that he must sign a forthcoming consent decree dismissing a lawsuit which protested the original assessing plan for the drain.

**Robert Allen, county corporation counsel on drain matters, said he expected to have the decree entered by Nov. 11.**

The latest in a long list of delays is necessary, Allen said, to allow some of the original petitioners for the drain to file protests against throwing out the first plans.

The way was cleared for establishing a new financing plan for the $4,760,000 sewer when Southfield and Oak Park petitioned for it under a 1956 law.

**This would allow the two cities to pay off their assessments for the drain in any manner they wish.**

A group of Southfield residents filed a suit contending that original assessments were confiscatory. These were established on a $2,006-per acre basis set up by Drain Commissioner Daniel W. Barry's office.

While they waited word on when the taxpayers' suit would be tossed out, Oakland supervisors yesterday referred back to its Drain Committee the question of what to do about the old assessments.

They will be deleted probably from the county's overall 1959 drain assessments when the consent decree is made final, Allen said.

## $530,000 Project Gets Unanimous 'Yes' by the County Supervisors

Unanimous approval was given yesterday by the Oakland County Board of Supervisors for the county's Department of Public Works to build a $530,000 sanitary sewage disposal system serving Keego Harbor.

**Hiland M. Thatcher, secretary of the Board of Public Works, said the project is the first to be built by the county for a single municipality.**

The DPW was created by a special act of the Legislature in 1957 to build sewage and water systems where an individual or a combination of governmental units could not.

★ ★ ★

Thatcher said Keego Harbor's 20-mill charter limitation prevents the city from building or financing the project.

**However, he emphasized to the supervisors that the project does not obligate the county to pay should the city default on payment of the contract bonds.**

He said the project will be completed to hook into the larger Farmington interceptor sewer by June of next year.

# Unionist Slayer Wins Acquittal

## Malcolm R. White, 49, Had Been Accused of Killing Organizer

NEWBURGH, N. Y. (UP)— An Orange County court jury today acquitted Malcolm R. White, 49-year-old industrialist accused of the first degree murder in the shooting of Union organizer Alfred F. Dugan.

The jury of seven men and five women had received the case yesterday. Unable to reach a verdict after nine hours of deliberation, the jury was locked up overnight.

**During the 26-day trial, White claimed self-defense in the shooting of Alfred F. Dugan, 52, an ex-convict, last Nov. 13.**

Dugan was the leader of a jurisdictional strike by a small union against White's Chester Cable Corp., at Chester, N. Y.

White testified he thought Dugan had a gun and was about to shoot him when he himself opened fire.

Dugan later was found to be unarmed. White testified he had been in great fear of Dugan, largely because of his criminal record.

# Grain Futures Market Levels

CHICAGO (UP)—The grain futures market leveled off today with prices slightly easier on the Board of Trade and early transactions at a somewhat slower pace.

Brokers said there appeared to be no significant bearish factors and that the increased selling appeared to be a continuation of the moderate profit taking which began late yesterday after substantial advances in corn and soybeans.

**Pakistan was in the market grain for small amounts of wheat and Yugoslavia has requested offers later today on about 700,000 bushels.**

After about an hour prices turned monstly narrowly mixed with wheat ¼ cent a bushel lower to ¼ higher, December $2.00⅜; corn ¼ lower to ⅛ higher, December $1.11½; oats ¼ lower to ¼ higher, December 74⅝; rye ⅜ lower to ⅜ higher, December $1.36⅛; soybeans ⅜ to ⅝ lower, November $2.16¼.

# Market Rally Momentum Hit

NEW YORK (UP) — Industrials paced the stock market into the third day of its current rally but the going was getting heavier early this afternoon. Trading was active.

Some brisk profit taking shaved gains of electronics and other space age stocks which have been enjoying a bull market of their own recently.

**Trading interest rotated to the badly battered and neglected oils which put on their best performance in weeks. Chemicals, nonferrous metals and most of the motors also did well.**

Steels were mixed and rails did nothing on average. The separate steel strike settlement made by Kaiser steel and the imminence of a court decision late this afternoon on use of the Taft-Hartley Injunction to send the steelworkers back to the mills were overhanging uncertainties.

★ ★ ★

Wall street also awaited third quarter reports on dividends and earnings by U.S. Steel, the No. 1 steelmaker, after the market close.

**Trading was very heavy at the start and the ticker tape was late on two occasions as big blocks were traded. American Motors and Studebaker-Packard continued to reign as trading favorites. Both were at new highs, American Motors up about 2 and Studebaker ahead about a point.**

Recent big gains among the "glamor" stocks were cut back to the tune of about 3 for Texas Instruments and more than a point each for Lear, Varian Associates and Thiokol. Ampex dropped about 3. Motorola added a point. Polaroid ran up another couple of points.

# Detroit News Lays Plans for Building

DETROIT (AP) — The Detroit News petitioned City Council today to close all streets and alleys in a six-block area on the south side of East Jefferson avenue to permit land clearance for a new newspaper plant.

Besides Jefferson, the site, bounded by Brush, Atwater and St. Antoine, is a block east of the Detroit-Windsor Tunnel entrance and across Atwater from the Grand Trunk Western passenger depot.

The News said all property in the six-block area had been acquired or optioned by its owner, the Evening News Assn.

**Warren S. Booth, News president and publisher, said "no details regarding either the project or the construction timetable are ready for announcement at this time."**

Booth disclosed, however, that preliminary plans for a newspaper plant are being prepared by the Detroit architectural firm of Giffels & Rossetti and William Ginsburg Associates of New York.

The News' present plant covers a block bounded by Lafayette, Fort, Second and Third. It was considered a model plant when opened Oct. 15, 1957.

# Firemen Investigating $2,500 Morning Blaze

INDEPENDENCE TOWNSHIP—An empty house owned by Ernest Hickey at 9748 Hadley Rd. caught fire at 1:30 a.m. today causing $2,500 damage, according to Independence Township firemen who answered the call.

Firemen said Hickey had moved out of the $5,000 frame dwelling two days ago. They are investigating the cause of the fire.

# AFL Picketing May Resume

## But 899 Business Agent Feels Monday Deal at Hall Proved Point

AFL pickets may return to the Pontiac Teamster hall, scene of an eight-hour picket line yesterday.

About a dozen members of Carpenters' Local 998, AFL-CIO, in Berkley paraded before Teamster Local 614 headquarters protesting the taking of carpenters into the Teamster fold.

"We may demonstrate again," said Grady Pinner, Local 998 business agent.

**"But I feel we have made our point. We are not trying to force carpenters into the AFL but we do object to teamsters doing carpenter's work."**

Involved in the dispute are about 25 carpenters who became Teamsters when the Michigan Gas Attendants Union merged with Local 614 this summer.

Pinner claimed the Teamster carpenters' wages were lower than that of AFL carpenters', resulting in unfair competition.

Teamster officials said there were no plans at present to expel the carpenters.

A spokesman for the carpenters, Dale McIntyre, said the men preferred the Teamsters to the AFL. McIntyre is secretary-treasurer of the Southeastern Michigan Building Contractors Assn., a group that employs the carpenters.

# U.S. Warning of Tariff Action

## Dillon Tells World Trade Group We Must Protect Gold Balance

TOKYO (UPI) — The United States warned today it may be forced to take retaliatory measures unless discriminatory restrictions on trade are ended promptly.

The warning was made by Undersecretary of State C. Douglas Dillon in an address before the 37-nation General Agreement on Tariffs and Trade (GATT) which opened its 15th plenary session yesterday.

**He said recent developments have opened the way to a "period of great progress in international trade."**

"But," he added, "unless we move forward while we can there is the unpleasant prospect that the opportunity for progress may be lost. If forward steps are not now taken, I am afraid that the trend toward greater freedom of trade may be reversed."

★ ★ ★

He said the "present situation is inherently unstable" and "either we move ahead to get rid of outmoded trade restrictions or we can expect a resurgence of protectionism and restrictive action."

**Dillon said the United States deficit in the net transfer of gold and dollar assets to the rest of the world is expected to total 4-billion-dollars this year.**

"Deficits of this magnitude cannot, of course, continue," he said. "For our part we have adopted domestic fiscal and monetary policies directed toward financial stability, including a balanced budget in the current fiscal year."

★ ★ ★

He said there were some signs of improvements in U.S. exports but "if this deficit is to be reduced to proportions consistent with healthy trade, prompt action is required by other countries as well."

Cuba is about the size of New York State while Costa Rica is smaller than West Virginia.

# Waterford Board OKs New Building System

After months of study, the Waterford Township Board last night adopted a procedure for new land developments, regarding lots, buildings, street and enclosure elevations.

Until this time there has been no set of rules for land developers building new homes, other than those required by the state.

**From now on a developer must submit four preliminary land plans with copies of letters of intent, stating type of streets and lot grading, intentions on water, sewers, pumping stations, sewage treatment plants and any other proposals he may have.**

After the Township Board has reviewed the plans for the proposed subdivision, and the inspecting engineer has given final approval of the requirements, the developer may proceed with construction.

In other business, it was announced that only one bid was submitted for a 4½-yard dump truck for the township. Robert Simpkins' bid, with trade-in, was $8,608. The bid was tabled for further consideration.

The Board approved the purchasing of 12 fire extinguishers costing a total of $355 from the Lakeside Fire Service for township owned vehicles. Some will be placed in strategic areas in the Police department and Township Hall. The Lakeside Service company's was the only quotation considered, because "they all run about the same," according to Township Clerk James Seeterlin.

**A date for considering the annexation of a portion of Waterford Township to the city of Pontiac for part of the new county courthouse site has been set for Nov. 9. The area is bounded by Telegraph road, West Boulevard, and the Grand Trunk railroad near Pontiac Lake road.**

Board members ran into a two-hour long discussion when real estate developer Carl Bird asked the Board to reconsider an increase of a $150 for a water hookup fee established March 9.

Prior to that time, the township had been charging new developers $50 to tap into township operated water lines. Bird said a former Board had approved his subdivision plats, and he understood that the $50 fee would cover all of his 400 new house connections.

Board members admitted that notifications of the $150 increase should have been made to developers before final action was taken last March. Supervisor Elmer R. Johnson said, "I'm sorry, but on this matter we goofed." However, he added that with rising costs the new tap-in fee of $200 was not out of line.

Bird has some 70 homes to finish in one of his three subdivisions, Cherokee Hills, on Scott Lake and Elizabeth Lake roads. The tap-in fee increase, which Bird says he learned about only last week, would amount to some $10,500 more than he had expected to pay the township.

After the long and heated discussion, with trustee John Colemen siding with Bird, the Board voted 5 to 1 to "stand pat" on its March decision. Later the Board decided to give the matter more consideration.

A letter of resignation submitted by police officer Donald Kretz, because of ill heath, was tabled for further study. Kretz was one of the last policemen hired six months ago when the Board authorized an increase in the department's personnel.

# Burroughs' Earnings Up in Past 9 Months

DETROIT (UP) — Burroughs Corp. today reported net earnings of $5,312,000 for the first nine months of 1959, equal to 80 cents a share, compared with $4,225,000, or 68 cents a share, in the similar period of 1958.

Net income for the third quarter amounted to $2,101,000 on total revenue of $88,404,000. In the third quarter of last year Burroughs' net was $1,621,000 on revenue of $68,772,000.

The company reported a backlog of orders for commercial and military products of 212 million dollars on Sept. 30.

## Conservation Men Test Farmers

# *Hunters Not Welcomed*

LANSING (UPI)—Something is going wrong with hunter-farmer relations, according to a conservation department survey.

Several conservation men made an opening-day check on farms throughout Southern Michigan last Tuesday and found they were not given permission to hunt as much as a year ago.

"The cases varied," said game specialist Vic Jansen, "and sometimes there were too many hunters already on the farm or they were reserving hunting for friends or relatives."

**The better hunting areas, such as the Thumb and the Ottawa-Allegan part of the state, the conservation men were allowed on half or more of the farms where they asked permission to hunt.**

But in most other parts of the state, permission was hard to get and in other areas, they were allowed on only about 25 per cent of the farms.

Most of the refusals came in the more populated counties such as Oakland, Livingston, Genesee, Jackson, Washtenaw and Lenawee. The survey crews did not identify themselves as conservation people because they wanted farmers to treat them as ordinary hunters.

# Pleads Guilty to Mail Fraud

### Former GOP Chairman in Muskegon County Awaits Sentencing

GRAND RAPIDS (UP) — Wendell S. Holcomb, former Muskegon County Republican chairman, changed his plea yesterday to guilty on charges of mail fraud involving an estimated $100,000.

Holcomb, 45, earlier had stood mute after a grand jury indictment.

The former Muskegon businessman and political leader changed his plea before U.S. District Judge Raymond W. Starr, who ordered Holcomb's bond of $7,500 continued pending sentence Nov. 20.

Holcomb entered the plea for himself and his defunct Inquiry Service Inc., mail discount catalogue operation.

He and the firm were indicted March 25 on 10 counts of devising a plan to induce doctors, lawyers, dentists and other professional persons to buy a special discount catalogue of equipment for $6.

Holcomb operated the firm from 1954 to 1958. He said earlier patrons had paid for merchandise they never received. He placed the blame on his poor business management and poor judgment in personnel selection.

"I had no knowledge of what was going on and when I discovered it I began steps to correct the situation," Holcomb said then.

# *Bank-Box Trick Man Returns to Jackson Prison*

George Vichos, 25-year-old ex-convict from Detroit, was headed back to Jackson Prison for 1½ to 2½ years for his fake bank night-deposit-box trick which backfired.

Oakland County Circuit Judge Frank L. Doty yesterday sentenced Vichos who pleaded guilty Oct. 9 to attempted larceny by conversion.

He was arrested Aug. 28 after he had convinced a representative of a furniture firm to deposit $10,087 in his improvised box, declaring the regular Detroit Bank & Trust Co. box out of order. He had plugged up the regular one.

The incident occurred at the bank's branch office at Northland Center in Southfield Township.

Vichos, of 4836 Avery St., was arrested an hour later by police when another depositer, who wasn't fooled, called the police.

# Halt Proposed Hike Sought by Panhandle

WASHINGTON (UP) — The Federal Power Commission said yesterday it has suspended a proposed $8,653,700 or 8 per cent annual wholesale natural gas rate increase sought by Panhandle Eastern Pipe Line Co., Kansas City, Mo.

The commission set Dec. 8 for a hearing in Washington on the matter.

The company had proposed to make the increase effective today. It would affect 61 utility customers in Michigan, Kansas, Missouri, Indiana, Illinois and Ohio.

**The increase would have been in addition to two other annual increases which Panhandle already has put into effect subject to refund if not ultimately approved by the commission. One of those increases amounted to $12,059,000 annually and the other $7,134,000.**

Panhandle based the new increase proposal primarily on an increase in the cost of gas purchased from its subsidiary, Trunkline Gas Co., Houston, Tex. Trunkline's proposed $9,580,000 annual increase was suspended by the commission last month pending hearing and decision.

In suspending the latest rate increase proposal, the commission said Panhandle Eastern has failed to show that such an increase is justified. The increase was suspended for five months, to next March 26, when it may be put into effect subject to refund if the proceedings have not been concluded.

There are now about 12 and a half million Americans who own stock in U.S. businesses. This compares with fewer than six and a half million in 1952.

## Senate Water Group Plans Detroit Hearing

WASHINGTON (UP) — A special Senate Committee studying the nation's water problems will hold a one-day hearing in Detroit Thursday.

Sen. Philip A. Hart (D-Mich) said Gov. G. Mennen Williams of Michigan would head a list of some 20 witnesses on the water problems of Michigan and the Great Lakes basin.

In a statement commenting on the hearing, Hart said it would go far in developing information and ideas as to the ways which the Great Lakes states can fully utilize and protect our great abundant resources — water.

## Report Wayne County Deficit at $2,800,000

DETROIT (UPI) — The Board of Auditors reported yesterday that Wayne County will end its next fiscal year with a deficit of about $2,800,000.

The board presented its report to the supervisors' ways and means committee which is conducting hearings on the 1959-60 budget.

## In Memoriam 2

IN LOVING MEMORY OF Michael McGinnis, who passed away October 25, 1957.
A bud the Gardener gave us,
A pure and lovely child.
He gave it to our keeping,
To cherish undefiled.
And just as it was opening,
To the glory of the day,
Down came the Heavenly Father
And took our bud away.
Sadly missed by Mother, Father, Sisters and Brothers.

wanted with car. Some mechanical ability helpful. Apply 2397 Elizabeth Lake Road, Wednesday, Oct. 28th, 10 a.m.

AN EXCEPTIONAL OPPORTUNITY
If you are one of those young men that graduated in the upper 10% of your class but was unable to go to college due to financial circumstances, this opportunity may appeal to you.
As you know, a four year course in college costs approximately $4,000.00 or more and your only income is from extra activities in addition to your studies. Then, when you have graduated from college you must find employment and start from somewhere near the bottom.
We have an opportunity for a young man willing to learn and not afraid to study and work, with an excellent opportunity for advancement and steady employment who could take charge of the business after he had proven his ability to do so, at a salary above the average for college graduates.
If you think you are qualified and if you are willing to undertake such a challenge, please give age, educational preparation, list past experience, name and address of former employers, personal references and any other data that would be of interest to a future employer. Address — confidential. P. O. Box 7, Pontiac, Michigan.

## Subcommittee Wants Viet Nam Aid Reports

WASHINGTON (AP)—A Senate Foreign Relations subcommittee is trying to force the administration to give it confidential reports on foreign aid to South Viet Nam.

The subcommittee has a new law, passed by the last session of Congress, to back up its demand.

★ ★ ★

Congress wrote this into the foreign aid money bill. It provides that money for economic aid would be shut off within 35 days for any country or project on which the International Cooperation Administration withholds information from Congress, unless the President personally forbids the disclosure.

In that case, the President would have to certify that he had forbidden disclosure and give his reasons.

★ ★ ★

Sen. Mike Mansfield (D-Mont), who heads the subcommittee that has been looking into foreign aid operations in the Asian country, confirmed Monday night that he has invoked the new law.

The subcommittee's hearings on South Viet Nam grew out of a series of Scripps-Howard newspaper articles that said the foreign aid program in that country amounted to a scandal.

## Pappy to Marry TV Actress in Denver Today

DENVER (AP) — Gregory (Pappy) Boyington, Marine flying ace of World War II, is scheduled to be married here today to Delores Tatum Shade, an actress.

She gave her address as 6745 La Jolla Dr., Riverside, Calif. Sources there identified her as Dee Tatum, a television actress, who was divorced two months ago from C. J. Shade, operator of a plane service for spraying crops and water bombing brush fires.

★ ★ ★

A friend said the Shades were married about seven years.

Frances E. Boyington divorced the flier last Oct. 13 in Los Angeles. She testified he had temper tantrums and "for the past two years he didn't come home practically at all."

★ ★ ★

Boyington is author of the best seller, "Baa Baa Black Sheep," based on his wartime exploits and postwar experiences.

## Waterford Area Man Sentenced 2-14 Years

For forging a $22 check, Richard L. D. Inglsbee, 28, of 1845 Masee St., Waterford Township was sentenced to 2 to 14 years in Jackson Prison yesterday by Oakland County Circuit Judge William J. Beer.

Inglsbee pleaded guilty to uttering and publishing Oct. 5.

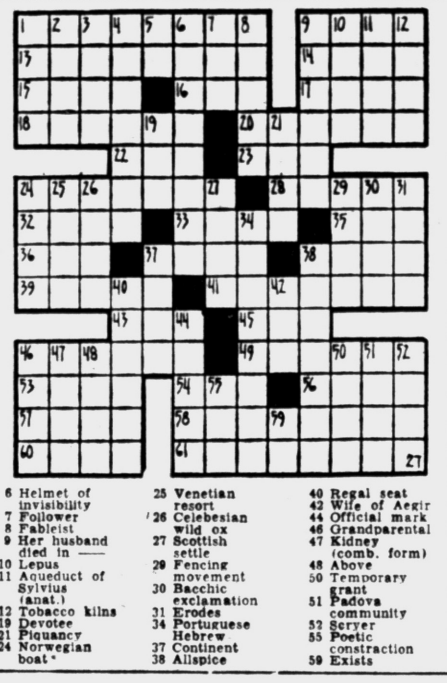

One of seven men in the U.S. armed forces wears eyeglasses.

## Fire, Blood of 'Winterset' Flashes Through Tube

By FRED DANZIG

NEW YORK (UPI)—The poetic melodrama of Maxwell Anderson's "Winterset" received a surprisingly faithful reading last night as the season premiere of NBC-TV's Hallmark Hall of Fame series.

To find the fire and blood of this 24-year-old drama bouncing along in a TV drama sponsored by greeting cards—where fluffier stories were presented in past seasons—was noteworthy in itself.

**Anderson's allegorical "Winterset," of course, is a showcase for the bitter dialogue and cynicism born of a spiritual and economic depression. But it ends in a triumphant bath of newly discovered love. The going gets sticky at times, but the message is worth it.**

Robert Hartung's adaptation remained true to the original, although references to radicals, overtones of political corruption and a sharp discourse on judicial expediency were missing. Still, Hartung was extremely skillful in his editing and his script was given a mighty assist by the gloomy setting of a New York City bridgehead and the delicate touches of Producer-Director George Schaefer.

★ ★ ★

Since Anderson's characters are highly charged types who synthesized many of the attitudes of their times, I think some of the acting went overboard, especially for the TV tube's intimacy.

**Don Murray, as Mio, the revenge-seeking son of an executed man, was generally convincing, but he had trouble pacing his anger in the second act.**

to Mio, Piper Laurie was sensible to Mio( Piper Laurie was sensible and sensitive, except for an awkward final scene. Charles Bickford was an excellent Judge Gaunt.

Martin Balsam and Anatol Winogradoff handled their assignments as the Messrs. Esdras, son and father, with skill. George C. Scott, the perennial TV villain, was as evil as ever, although he managed to work in a smile now and then. It was most becoming.

The Hall of Fame and its new producer for 1959-60 gave us something different last night. And the nice thing about this was—it came off in fine style.

**THE CHANNEL SWIM:** Comedienne Carol Burnett, who made her network TV debut on Garry Moore's daytime show back in 1955, becomes a permanent member of Moore's Tuesday night cast starting Nov. 3. . . . "George Burns in the Big Time," a nostalgic salute to vaudeville, is an NBC-TV special slated for Tuesday, Nov. 17. George's act will include three newcomers: Jack Benny, Eddie Cantor and George Jessel.

**ABC-TV reports that its Friday night detective series starring Robert Taylor scored a 25.7 Trendex, better than the combined ratings of CBS-TV's Twilight Zone and NBC-TV's Fight.**

"Murder and the Android," a science fiction drama that gets an NBC-TV Sunday Showcase airing Nov. 8, will star Kevin McCarthy, Rip Torn, Vladimir Sokoloff and Suzanne Pleshette.

CBS-TV is expected to alternate hour-long specials with Desilu Playhouse after Jan. 1, when Desilu goes to alternate weeks.

## Motherwell Trial Decision Today

DOWNIEVILLE, Calif. (AP)—Sierra County's grand jury is to decide today whether Larry Lord Motherwell should stand trial for the death of his elderly and well-to-do traveling companion, Pearl Putney.

Only four minor witnesses remain to be called before the 12 men and 6 women hearing Dist. Atty. Gordon I. Smith's plea for a murder indictment.

★ ★ ★

Monday 16 persons told the jury in closed hearing what they knew of Motherwell's associations with the 72-year-old Washington, D.C., matron and of their cross-country trip.

Her remains were found 18 miles east of here in forested country last Aug. 16. The last time she was seen alive was Aug. 15, 1958, in Marysville, south of here, where she and Motherwell, 43, registered in a motel as Dr. and Mrs. Motherwell.

★ ★ ★

The husky, jut-jawed, itinerant construction worker was invited to testify but declined. He denies any responsibility for Mrs. Putney's death.

About 98 per cent of all the persons in the U.S. have received some form of dental care and treatment.

## Reign of Pope Ends First Year

### On the Anniversary Tomorrow, He Faces Future Interfaith Talks

VATICAN CITY (AP) — Pope John XXIII, completing the first year of his pontificate tomorrow, faces the complex details of the ecumenical council he has called.

Dedicated to unity of the world's Christian forces, the council could well prove to be the outstanding event of the Pope's reign.

**At least another year will be required to prepare for the council, the first in nearly 100 years. More than anything else the Pontiff has done in the past year, announcement of the congress brought into sharp focus the great task the former cardinal Patriarch of Venice shouldered as the 262nd supreme ruler of the Roman Catholic Church.**

The council will bring to Rome delegates of the church from all parts of the world. Because of the church's growth in the past century, the meeting possibly will be the biggest ever held in the church's 2,000 years of history.

★ ★ ★

The Pontiff's announcement of the event finally set aside the notion of some observers here before his election that the reign of Pius XII's successor would be a "mark time" affair.

The 77-year-old Pope acted quickly against that notion. Less than a day after his election on Oct. 28, he used radio to give his blessing to the world and to indicate that his reign—like that of his predecessor—would be dynamic.

## The Truth, and Nothing but the Truth, Will Do

By EARL WILSON

NEW YORK — FLASH: Truth-loving, sham-hating CBS President Frank Stanton's planning a Christmas Eve spectacular for the kiddies. On the show, Santa's false beard'll be ripped off, the pillows will be pulled out from his tummy, and the kiddies will see that he's really their father. They'll also be told that it was a big, carefully-rehearsed lie about the reindeer being red-nosed; it was their daddy who had the red beezer, due to a little office cocktail party.

WILSON

"By the way, that's supposed to be a joke due to Dr. Stanton's big cleanup campaign.)

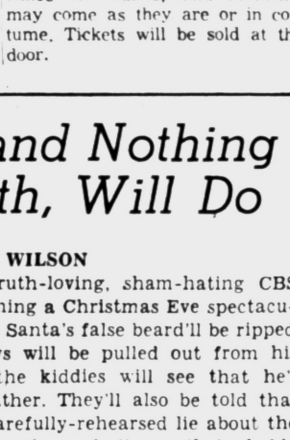

Another Flash:' Sam Levinson just phoned that he's certain one contestant wasn't given any answers: Randolph Churchill.

Some of my best friends are quizmasters—and I never thought of them being "lame-brains."

**So if I were Jack Barry, Hal March, George de Witt, Bert Parks, Bob Paige, Jack Narz, Ralph Storey, Warren Hull, Bill Leyden or Johnny Carson, I'd be miffed about a novel called "Hot Half Hour" which says that the ideal quizmaster is "a nice-looking, lovable young shnook . . . no brain . . . but not really a jerk."**

Who, in an emergency, could say "something clever like 'Hi ya, everybody'!"

The author of the book, Robert L. Foreman, is vice president of B.B.D. & O. ad agency, which formerly served the sponsors of the two $64,000 shows—and a blurb says "It's all hers—the business about controlling the answers and everything."

DE WITT

Quizmaster George de Witt says the author must have flipped his wig; that the quizmasters are mostly educated gents. George is, by the way, giving up TV, which he figures gave him a raw deal, and going to Hollywood to go into the movies.

**Wife Regrets Suicide Try**

## Says 'Dillon' Spurns Her

HOLLYWOOD (UPI) — Virginia Arness, 38, wife of the star of the "Gunsmoke" television series, Monday called her suicide attempt in Honolulu a "stupid thing" and said she was sorry for the trouble she caused.

"It was a stupid thing I did, and I'm very sorry," said the wife of James Arness, who plays Marshal Matt Dillon on television.

**Mrs. Arness told reporters of her marital difficulties with the handsome actor when she arrived at Los Angeles International Airport from Honolulu. She had slashed her wrists in her room at the Royal Hawaiian Hotel Saturday, police said.**

Honolulu officers said Mrs. Arness told them she tried to commit suicide because she was "having difficulties with her husband at home the last three years."

★ ★ ★

Although Mrs. Arness told police she hoped for a reconcilliation, she told newsmen there is little chance of the marriage being saved.

"I have been despondent on him for so long that I decided to try to be independent for the first time in my life," the former actress said.

**"So I went on a long trip to London, Vienna, Greece, Hong Kong, and finally Honolulu, where I realized that the closer I got to home the more I needed Jim.**

"So I phoned him, hoping he had had a change of heart—but he had not. There is no chance for a reconciliation," she said.

"He doesn't want one and I can't make it without him.

"What I did in Honolulu was stupid. I brought it on myself and it won't do me any good to cry now. I must hold myself together for my children's sake."

**LONDON (UPI) — Fourteen-year-old Wendy Hyde bowed Monday to authority and said she would attend classes in loose fitting skirts and flat-heeled shoes.**

**Wendy, who wants to be a model, was banned from school by headmaster James Rimmer because she kept showing up in spike heels and tight dresses.**

★ ★ ★

**Rimmer met her at the gate 24 times in the past 13 days when Wenday showed up for school in the "unsuitable" clothing and informed her she would have to wear sensible clothes or stay home.**

**But Wendy had a last word: "I'm going to wear the high heels to the school and change into my flatties for classes and put my heels back on when I walk home."**

## Guinea President Talks to Ike Today

WASHINGTON (AP) — President Sekou Toure of Guinea, Africa's newest republic, talks today with President Eisenhower at the White House.

### Russian Successful on Two Dogs

# Doctors May Replace Humans' Hearts

DR. VLADIMIR DEMIKHOV

By ALINE MOSBY

MOSCOW (UPI) — Replacement hearts for victims of heart disease may result from the experiments being carried on with dogs at the laboratory of grafting specialist Dr. Vladimir Demikhov.

Demikhov, who has attracted the attention of the medical world in recent months with his two-headed dogs, announced Sunday he has successfully added an extra heart to two dogs and hopes to try the operation on humans.

**On Oct. 16 and 23, the doctor completed grafting operations on two stray dogs named Andrei and Svetlana. Both hearts are still beating in both animals.**

He said he hopes to try the same operation on one of the many persons who have volunteered "before the end of the year or the beginning of next year."

He intends to attach the spare heart to the patient's system by his own grafting process. The heart will remain outside the patient's body until Demikhov is sure it is working, then will be inserted inside the body. It will either ease the load on the diseased heart or replace it completely.

"Many people die from heart attacks and heart disease," he said. "We may be able to give the heart of a young man to an old man and thus prolong his life. Or we could stop people from dying of heart attacks when they are young."

**The 43-year-old doctor has performed 21 head grafting experiments, in which a spare head is attached to a dog and both heads continue to live and function. His latest was in his laboratory Sunday. A huge black dog had the brown, fuzzy head of a puppy grafted to his neck.**

The twin-heart dogs showed no effects of the operation other than a bandage where the incision had been made.

Dogs will not be used in another unprecedented operation Demikhov plans. He hopes to graft a leg from a dead person on to a young woman who has lost a third of one of her legs in an accident.

★ ★ ★

The leg will be taken from a person who has recently died and attached to the woman's system by one blood vessel. It will remain beside her bed for about three weeks to see if her bloodstream can nourish it, then will be grafted on. Nerves and tissue will be connected as well as the blood vessels.

Demikhov said he cannot get animals to remain still enough for the operation and must try it on humans without a preliminary trial. But because the woman who lost her leg has tried to commit suicide, he feels he may be saving her life by taking the risk.

## Ann Arbor Youth Faces Examination

ANN ARBOR (UP) — Lanky James D. Vogel, 17, accused of shooting his younger sister to death, faces examination next Monday on a first degree murder charge.

Vogel was arraigned before Municipal Judge Francis L. O'Brien yesterday. Charged with the shotgun slaying of his sister Gwendolyn, 14, and the wounding of Mary Elaine Root, 22, Saturday, Vogel told Judge O'Brien he lacked the funds for a defense attorney.

Judge O'Brien appointed one for the Ann Arbor High School senior, who says he admires dictators and wanted to be like one.

Patrolman Charles Anderson, 25, also was wounded as Vogel tried to flee after the shooting of his sister in the family home. Vogel was captured by Anderson in a park near his home. Miss Root, a bystander outside the Vogel home, was shot as the boy tried to get away.

The Mesa Verde in Colorado has one of the largest concentrations of prehistoric ruins in the U. S., but only a few of its hundreds of archaeological sites have been scientifically excavated.
