President on Way to Far East

WASHINGTON (AP) — President Johnson departed on a momentous, 25,000-mile mission to the Far East today with a vow to "do my best to advance the cause of peace and of human progress."

Johnson tempered this pledge with word that "I know that I can wave no wand" or offer any

promises to work magic on his aerial expedition to at least six Asian and Pacific nations.

Yet, he said, he was undertaking "a hopeful mission."

It was 9:26 a.m. when Johnson's big Air Force jet lifted off the runway at Dulles International Airport, 25 miles northwest of Washington. It swung westward toward the first stop at Honolulu, 4,500 miles and 10½ hours away.

Beyond, lay state visits to New Zealand, Australia, Malaysia, the Philippines, Korea, Thailand—and the Manila conference of nations combatting Communist aggression in South Viet Nam.

SHORT SPEECH

In a short departure speech at a ceremonial send-off at the air-

port, Johnson said he was inspired by the presence of leaders of Congress and members of his Cabinet and the "unity of the American people."

It was a cool, crisp, sunny morning, with the temperature up from near-freezing to around 50 degrees when the President and Mrs. Johnson stepped out of a helicopter that had brought them from the White House to the airport for a spectacular farewell of the type usually used in reverse to welcome chiefs of states from other lands on their arrival.

There was the stirring music of trumpeters and bandmen, the crashing roar of a 21-gun salute, the flags of all the states whipping in the breeze and a review of an honor guard of

crack ceremonial units to all the armed services.

And there was the actual red carpet, carefully swept, for the walk to the ramp of the plane, with handshakes and brief words for the upper echelons of Washington officialdom and members of the diplomatic corps along the way. A wife or two got a presidential kiss on the cheek.

FRIENDLY POSTERS

On the observation deck far above the field, spectators held aloft unanimously friendly posters bearing such inscriptions as "All 4 U," "U.S.A. backs LBJ" and "Luck from Snoopy."

At the doorway to the plane, the President and Mrs. Johnson turned for a moment, waved, then disappeared inside.

For the first leg of this presi-

dential pioneering trip, Johnson was in his customary dark business suit with a Silver Star emblem in the lapel. Mrs. Johnson was wearing a tailored green coat with a double row of buttons down the front and a green and purple turban-like hat.

Congress Has Huge Agenda

Key Bills Face Action in Adjournment Drive

WASHINGTON (AP) — Driving hard for adjournment by Saturday, Congress has crowded into this week's program more major legislation than it has considered in any previous month this year.

Bills dealing with billions of dollars in appropriations and the War on Poverty, food for peace, aid to education, public works, water pollution, unemployment compensation, public health, "truth in packaging" and urban rehabilitation are carded for final action in the headlong rush to quit.

Prospects were good for all of them to get through before members of Congress end their work in Washington for the year and hurry home for final campaigning in advance of the Nov. 8 elections.

There was some talk of quitting Thursday or Friday.

Most big spending bills previously cleared the Senate and the House and are now in compromise form and subject to limited debate.

MAJOR FUND BILL

The 15th and final major appropriation bill of the session starts through the House tomorrow.

It would allot \$4.9 billion for miscellaneous activities, including aid to elementary, secondary and higher education and the War on Poverty.

It still has to go through the Senate.

Three other appropriation bills are in the compromise stage and in a position to be disposed of in a hurry.

They would provide about \$4 billion in funds to finance the State, Justice and Commerce departments, the federal judiciary, the District of Columbia government and military construction.

LANDMARK DESTROYED — The 150-foot spire of our Lady of Mt. Carmel Catholic Church in Emmett, Mich., was destroyed by fire yesterday. A total of 175 firemen from 15 departments tried to save the 69-year-old Gothic structure.

Band of 350 Seizes Land in New Mexico

ALBUQUERQUE, N.M. (AP) — A band of 350-Spanish-Americans has laid claim to 500,000 acres of federal land in northern New Mexico.

The members of the Federal Alliance of Land Grants established a community, camping out in the Carson National Forest near Abiquiu.

The alliance says the federal government has refused since 1848 to recognize their ownership of the land.

Don Seaman, supervisor to Carson National Forest, said he would meet in Albuquerque today with William D. Hurst, Southwest regional forester, and the U.S. Forest Service's general counsel to determine what might be done.

Alliance President Reyes Lopez Tijerina said the community had a mayor and had passed an ordinance forbidding Forest Service personnel to trespass.

PROTECT CLAIM

Thirty armed men remained at the scene to protect the alliance's claim, Tijerina said. The others left for their homes after a weekend stay.

He said the alliance was claiming the old Spanish land grant town of San Joaquin del Rio de Chama, established Aug. 1, 1806 by Don Carlos IV, king of Spain.

The judicial powers of the town still are alive under the 1848 treaty of Guadalupe-Hidalgo between the United States and Mexico and the alliance is reviving these powers, Tijerina said.

"The move was taken in view of the fact that the U.S. government has ignored all pleas and petitions relative to these land grants," he said.

'REVIVING' TOWN

"The town didn't cease to exist just because it hasn't been alive. It was never dissolved and we are reviving it under the terms of the treaty of Guadalupe-Hidalgo."

Seaman said the Forest Service's view was that the alliance members are "just visitors to the national forest which always has been open to the public."

But he said the alliance had indicated it would restrict access to the land by other members of the public. This would be a violation of forest service regulations, he said.

Accidents Are Fatal to 4 in Area

A West Bloomfield Township man died early today of injuries suffered in an accident Saturday, and two Pontiac men lost their lives yesterday morning in a head-on collision in Avon Township.

In addition, a Utica man died last night when he had an apparent heart attack and hit another car from behind, according to Troy police.

Dead were Harry Phillips, 37, of 6751 Wild Ridge; Joe E. Hutchinson, 24, of 580 Utah; Horace J. Baker, 38, of 637 Northway; and Donald Clark, 46, of 43264 Frontence.

Injuries suffered when his car went out of control on West Maple in Commerce Township claimed Phillips' life about 3:30 a.m. today in St. Joseph Mercy Hospital.

Oakland County sheriff's deputies said the accident occurred about 12:15 a.m. Saturday a half-mile west of Haggerty.

Witnesses told deputies Phillips' car had passed a line of traffic before leaving the highway and rolling over. The victim's wife, Natalie, 35, escaped serious injury.

ABOUT 4:10 A.M. Hutchinson and Baker were killed, deputies said, when their automobiles collided head-on on Walton near Old Perch about 4:10 a.m. yesterday.

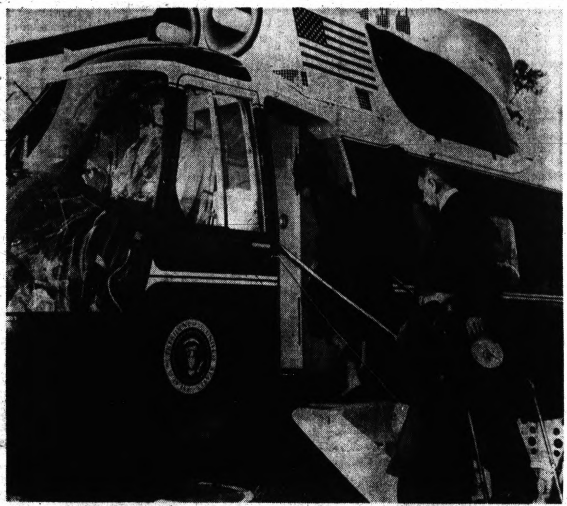

Both men were alone in their cars at the time of the collision, deputies said.

Investigators said one of the cars apparently crossed the center line just before the accident.

Clark was with his wife and one-year-old son when he was apparently stricken while driving on Long Lake Road east of John R in Troy.

Police said Clark was dead in his car shortly after the accident at 5:20 p.m. His wife, Marie, 40, was treated at William Beaumont Hospital for injuries and released.

The drivers of three other cars involved in the chain-collision escaped serious injury, police said.

AP Wirephoto

BEGIN JOURNEY — President Johnson follows the first lady today as they board a helicopter at the White House and head for nearby Dulles Airport to take off on a flight for the Far East and an extended tour of at least six Asian countries.

Threats to LBJ Are Reported in Australia

SYDNEY, Australia (AP) — Newspapers in Adelaide and Sydney said today they had received telephone calls saying an attempt would be made on President Johnson's life when he visits Australia this week.

The papers said anonymous calls had been referred to the Australian Security Service. It declined to comment, but a senior police officer in Sydney said it was not unusual for the police to receive all sorts of telephone calls and threats to important visitors to Australia.

A caller told a reporter on the Adelaide News that a group from Adelaide planned to take a rifle with a telescopic sight to Sydney to shoot President Johnson.

Although the call appeared to be a publicity-seeking hoax, the security men treated it seriously because President John F. Kennedy was shot with a rifle with a telescopic sight.

The Sydney Daily Mirror said it had received a call from a man who said: "I'm going to blow Johnson's head off." The newspaper said the man told it his 19-year-old son had been killed in Viet Nam recently.

Warm Trend Due to Accompany Rain

Though the Weather Bureau is calling for rain tomorrow, it offers a bit of solace in a predicted warming trend. The expected highs will range from 45 to 62.

A partial clearing is expected this evening with tonight's low temperatures 16° to 20° below normal.

\$30,000 City Church Fire Believed Set in Break-In

Fire apparently set during a break-in caused an estimated \$30,000 damage last night to the Joslyn Avenue United Presbyterian Church at 1106 Joslyn.

Pontiac Fire Marshal Charles F. Metz said flames broke out in three different sections of the church building about 10 p.m.

Three engines and a ladder truck directed by Asst. Fire Chief Charles Marion fought the flames more than two hours.

Marion credited firemen with preventing total destruction of the church by breaking open a ventilation hole in the church roof soon after their arrival.

"Hot gases had nearly filled that dome," Marion said. "If they had ignited in the roof, I don't think we could have saved the building."

A 70-foot ladder was needed to reach the high chapel roof and smash open a hole to release the hot air and gases.

Firemen remained at the scene until about 1:35 a.m. today.

Church pastor Edmond Watkins told police his office had been ransacked. Watkins said he could not immediately determine what had been taken.

Fire broke out recently at a Pontiac elementary school under similar circumstances, but flames were extinguished before serious damage was done to the building.

L'I L ONES

"Inflation is being good twice as often for the same amount of candy."

Pontiac Press Photo

COSTLY BLAZE — Damages are estimated at \$30,000 following a fire which swept the Joslyn Avenue United Presbyterian Church in Pontiac last night and early today. Quick work by firemen is credited with averting possible destruction of the entire building. Arson is suspected in the fire, which investigators said broke out in three separate locations in the church.

Pontiac Youth Is Fatally Shot Hare Urges 'Refresher' for Bad Drivers

Slain at City Home; Self-Defense Claimed

A Pontiac youth is dead after being shot in the head with a pistol early yesterday at a friend's house.

Robert Williams Jr., 17, of 315 Central died at Pontiac General Hospital at 12:40 p.m. yesterday. He had been struck with a single shot from a 22-caliber derringer, according to Pontiac police.

Held at the Oakland County Jail on a charge of carrying a concealed weapon is Prince A. Carr, 23, of 495 Luther.

Carr was arrested by Sgt. Robert W. Verhine about 3 a.m. at the scene of the shooting at 584 Montana.

Police said Carr told them he shot Williams in self-defense after Williams attacked him with a straight razor.

FOUND OUTSIDE

An apparent razor-cut along one side of Carr's face did not require medical attention, police said.

Williams was lying outside the house, bleeding, when police arrived. Underneath him, police said, was an open razor.

Verhine said Carr came from the house as the victim was being removed and handed Verhine a pearl-handled pistol.

LANSING (AP) — Problem drivers in the 18-20-year age group should be required to take refresher driving courses, Secretary of State James Hare said today.

This age group, Hare said, is involved more often than any other in accidents and has the greatest problems under the state's violation point system.

The refresher courses, he said, would fit in with the probationary licenses, for which his department is now gearing up.

"There should be emphasis on the problems of drinking and driving and the refresher program for problem drinkers and underage alcoholics," he said, adding:

"In some counties, there already exist the mechanics for such refresher schools through the county driver safety schools."

Denver Housewives Set to Boycott Stores

DENVER, Colo. (AP) — Housewives in the Denver metropolitan area today are ready to boycott five major grocery chains in an effort to get lower food prices.

The boycott has become a Colorado political issue. It appears to have caused one chain to reduce prices, and it may mean a visit to Denver by a presidential aide.

State Opinion Wanted on Exceeding Tax Limit

Oakland County Treasurer James E. Steerlin said today he has asked the County Board of Supervisors to obtain a state attorney general opinion on whether a governmental body can exceed the 15-mill tax limitation.

Steerlin has maintained that those who drafted the new constitution had the intent that the fixed tax limitation could not be exceeded without a vote of the people.

Erhard Ouster Is Seen in Bonn

BONN, Germany (AP) — There is a widespread feeling in Bonn that Chancellor Ludwig Erhard is on his way out.

The most active candidates to succeed him are people in his own party who would like to turn West German policy more toward that of President Charles de Gaulle of France.

Erhard's chief hope for survival seems to be that his enemies fight more with one another than they do with him. This is important in West Germany because the only legal way to replace a chancellor who won't quit is for a majority of the Bundestag to get together and elect a new one.

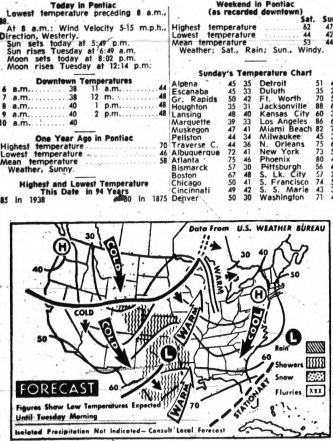

Some think Erhard will have to go before he is on Feb. 4. But at least two of the four political leaders reported to have agreed in this deny that they are preparing any such birthday present.

Others think he will have to go prior to the local elections in the Rhineland and Schleswig-Holstein next spring—or at least some time next year so that there is time to build up a successor who can win the 1969 national elections.

Still others say he may be forced to quit after the returns come in next month from the local elections in Hesse—the area around Frankfurt—and in Bavaria.

The Weather

Full U.S. Weather Bureau Report
PONTIAC AND VICINITY — Partially clearing this afternoon, high 45 to 57. Partly cloudy and cool tonight, low 38 to 45. Cloudy tomorrow with rain and slightly warmer, high 54 to 62. Westerly winds 5 to 15 miles becoming south to southeasterly tomorrow. Wednesday outlook: Cloudy with rain ending and little temperature change. Percentage precipitation probability today 20, tonight 20, tomorrow 60.

NATIONAL WEATHER — Tonight showers and thunderstorms are expected over the central and southern plains with flurries falling over the northern plateau regions. Cooler temperatures will prevail in the mid-Atlantic coastal states with warmer weather throughout most of the Plains region and the Mississippi Valley.

The housewives are shopping at independent grocers and boycotting Miller's, Furr's, King Soopers, Red Owl and Safeway chains.

TRIP CONFIRMED
McVicker said Mrs. Peterson told him, "I'm a housewife and I know what I'd be doing if I were in Denver." McVicker expected confirmation of her trip today.

Mrs. Paul West, leader of the housewives group, is gathering signatures on a petition calling for federal and state investigations into the cost of food. She said Sunday night more than 25,000 signatures have been received.

The petition will be sent to President Johnson, Gov. John A. Love, and the state congressional delegation.

Democratic congressional candidates have thrown their support to Mrs. West's group, although one Republican candidate claimed to be first. Mrs. West decries the political support and said, "It's our horse, and we want to ride it."

She said she didn't want the issue to become a political football.

REACTION VARIES
Reaction to the boycott by supermarket officials has been varied. McLeod Hittson, division manager of Miller's Super Markets, said Sunday that all 43 stores in Colorado would be closing today "and our people will work the entire day at reducing prices."

Hittson said there would be other cutbacks. Promotions will be halted, a controlled policy of check-cashing will go into effect, grocery carryout service will be eliminated, and store hours will be shortened, he said.

Officials at King Soopers and Safeway called for an immediate federal investigation of the increased cost of food. Lloyd J. King, vice president of King Soopers, said the investigation should not only cover the "alarming rise in prices in the food industry, but of all basic needs of the average family."

Red Owl President James A. Watson said the housewives' complaints are not justified. "Prices are already as low as they can be," he said. He said that he doesn't think he can do anything from his main offices in Minneapolis, and he won't come to Denver.

LBj Sets Quiz on GE Strikes
NEW YORK (AP) — President Johnson set up a Taft-Hartley board today to look into widespread strikes against General Electric Co. plants in a half-dozen states.

The strikes have idled more than 30,000 of the firm's 125,000 unionized workers, despite ratification of a new national contract by the AFL-CIO International Union of Electrical Workers. A presidential panel helped reach the national settlement which averted a nationwide strike.

The presidential board of inquiry will start by examining a walkout by 6,000 at a jet engine plant in Evendale, Ohio, which has slowed production of engines for planes used in Vietnam.

Under the Taft-Hartley law the board can recommend injunctions against strikes if it finds they interfere with national defense.

The strikes which hit plants from Massachusetts to Indiana were called by locals of the IUE and other unions. Ten other unions negotiated jointly with the IUE but have not yet ratified agreements.

Police units were ordered to watch for a "hot" Ford Mustang containing Wilson's umbrella, a pair of shoes and a bundle of Wilson-for-sheriff pamphlets.

Three hours and a political rally later, Wilson was on his way home when his face reddened. He remembered he parked the Mustang, one of three cars he owns, on Wells Street while attending a party last Tuesday.

Sure enough, it was there—with a parking ticket stuck on the windshield.

'PONY-TAILED' GI — With a woman's hair piece found in a Viet Nam village stuck in his helmet band for decoration, Sgt. Leslie D. Wilson of Fort Campbell, Ky., scans the central coastal area while on Operation Irving last week. Wilson is with B Company, 1st Battalion, 12th Cavalry of the 1st Air Cavalry Division.

Visions of Life on Mars Rekindled by New Study

SAN FRANCISCO (AP) — New U. S. S.-French studies of the atmosphere of Mars rekindle hope of finding life on that planet, says Dr. Lewis D. Kaplan of the California Institute of Technology's Jet Propulsion Laboratory.

High-resolution spectroscopic studies in the past year indicate surprisingly large amounts of hydrogen compounds in the Martian atmosphere. Dr. Kaplan reported at the American Chemical Society's Western meeting today.

Hydrogen compounds are considered necessary to life. Many scientists have argued recently that life on Mars is impossible because the planet's gravity seems too weak to prevent hydrogen, the lightest element, from floating off into space.

But a French couple, Drs.

Oxford Man Faces Charge After Chase

An Oxford patrolman chased a car at speeds up to 115 miles per hour on M4 and Brockley yesterday before the car hit a tree.

Billy Joe Mann, 24, of 56 1/2 Park, Oxford, was due to be arraigned this morning before Justice George Meade on a charge of reckless driving.

His passenger, Douglas Sayre, 26, of 56 Park is in Pontiac General Hospital in good condition with a broken leg and lacerations.

Mann was treated at the hospital for bruises and lacerations and released to the custody of officers.

Oxford patrolman Leo Misenar said he was on patrol in the village at 3:06 a.m. yesterday when he gave chase to Mann's car, following it for a distance of about seven miles until it crashed into a tree on Brockley, off M24.

Assistance on the call was provided by Oakland and Lapeer County Sheriff's departments.

Queen at WMU

KALAMAZOO (AP) — Rita Hemela, 20, a junior from Washington, Mich., was named Homecoming Queen Sunday at Western Michigan University. The elementary education major was selected by a vote of the students.

Electoral Vote Suit Is Denied

WASHINGTON (AP) — The Supreme Court refused today to permit Delaware to file a suit challenging constitutionality of the state unit vote system of choosing presidential electors.

The court, in a brief order, merely said the complaint for "leave to file a bill of motion is denied."

The high tribunal gave permission to Kentucky, Pennsylvania, North and South Dakota, Oklahoma, Utah, Wyoming, Florida, Iowa, Arkansas, Kansas and West Virginia to line themselves up with Delaware as prospective complainants. Then it turned back the whole action.

David P. Buckson, Delaware attorney general, had asked permission to file an original suit in the high tribunal under the Constitution's grant of authority to the court to settle controversies between states.

Birmingham Area News

Speed-Curb Bumps Opposed

BIRMINGHAM — Physical impediments or "bumps" in local streets as a means of controlling speed or volume of traffic are not satisfactory, according to reports to be presented to the City Commission tonight.

At the request of the commission, City Manager R. S. Kenning contacted traffic organizations and police officials around the country for opinions.

As the result of his inquiries, he said he strongly recommends that the city take no action to construct the physical impediments.

Replies to Kenning's inquiries indicated that the bumps cause accidents or damage vehicles, affect emergency use of the roadway, impede street cleaning and snowplowing, and

increase deterioration of pavement from tire impact.

It was also pointed out that they are detrimental to the safe and convenient flow of traffic and that they do not slow down traffic.

STRONG OPPOSITION
City Engineer William T. Killen reported that none of the engineers contacted recommended the use of bumps and several strongly opposed their use.

The commission tonight also was asked to consider a compromise agreement with the Philip Stevens Building Co. regarding extension of a parking lot on Adams south of Bowen into the public right of way.

Kenning points out in his report that the parking lot extending into the right of way cuts down on the clear sight distance for cars exiting onto Adams.

He said the commission has three possible choices. It can require that all of the asphalt be removed back to the property line or that a licensing agreement be entered into permitting Stevens to utilize the area between the property line and approximately four feet six inches from the sidewalk for private parking.

RIGHT OF WAY
Kenning suggests a compromise requiring the parking area to be moved back to 12 feet from the east edge of the sidewalk but permitting the company to use about 14 feet of public right of way.

It was also suggested that if this is approved, that the owners of the adjoining A & P property be granted a license to extend their parking lot into the right of way so that there is a continuous line on the east side of Adams.

Druggist Cited for Failure to Answer Judge

A druggist from Royal Oak this morning was cited for contempt of court for refusing to answer questions put to him by Oakland County one-man grand juror Philip Pratt.

Emil Pavlovics of 1110 Edgewood street mute to the charge when he appeared voluntarily before Bloomfield Township Justice Alice L. Gilbert.

He was released on \$250 bond pending a preliminary court examination at 10 a.m. Oct. 25.

Pavlovics of Liddell Drugs, 28905 John R. Madison Heights, failed to cooperate with Judge Pratt when he appeared as a witness in the judicial investigation Friday, according to the indictment.

NO ANSWERS
He declined to give answers to questions concerning his age, address and birthplace and was excused by the court.

Content of court is punishable by a \$1,000 fine, one year in jail or both.

O'Brien Trial Asked: Throw Testimony Out

LANSING (UPI) — The lawyer for a state senator accused to making legal suggestions to a coed today asked the court to throw out testimony from five other women who claimed they also were solicited for immoral acts.

Attorney John D. O'Connell said the case against Sen. Bernard O'Brien, a husky Detroit Democrat, must "stand and fall" on the testimony of the coed who brought the charges.

Marion Lukens, a music major from Santa Ana, Calif., broke the case against the father of four by charging that he asked her to perform in pornographic movies.

O'Connell said the five other women, four of them coeds, were voluntary witnesses and not relevant to the case.

Prosecutor Donald Reisch, however, argued that the five other women were an important part of the case because they showed O'Brien had a "scheme, plan or system" for the acts he is accused of.

RULING DELAYED
Lansing Township Justice Court Judge George Hutter said he would delay ruling on the request.

More character witnesses were presented by the defense today to back up testimony from four persons last week that O'Brien was in the state capitol building at the time the alleged incident took place.

Top Cuba Reds in Moscow on Surprise Visit

MOSCOW (AP) — Cuban President Osvaldo Dorticos Torrado and Defense Minister Raul Castro arrived today, apparently to join East European Communist leaders in a meeting on Red China and to see a Soviet space launching.

The official announcement on the arrival of the Cubans said only that they came at the invitation of the Soviet Communist party leadership. The arrival came as a surprise.

Communist sources have reported plans for both the Soviet blue meetings on China and the space launch. According to these reports, never officially confirmed, only East European Red chiefs were expected.

Raul Castro, the brother of Prime Minister Fidel Castro, is a deputy prime minister and a member of the Politburo of the Cuban Communist party.

Griffin Serious as Soapy Jokes

DETROIT (AP) — U. S. Sen. Robert Griffin, apparently taking nothing for granted despite the obviously friendly and predominantly Republican atmosphere, moved straight to the attack today in his first and probably only debate with G. Menen Williams.

While Williams, the former governor who is locked in a close race with Griffin for the U. S. Senate, left off his remarks today in the Economic Club of Detroit with jokes, Griffin was all business.

Some 1,500 of the city's civic and industrial leaders crowded a sold-out Cobo Hall ballroom for a debate which followed closely the lines of the George Romney-Zolton Ferency debate of two weeks ago before the same group.

Deaths Linked to Gas From Refrigerator

Propane gas leaking from an apparently faulty refrigerator suffocated a Pontiac Township man and his wife this weekend at their cabin near Harrison, according to Clark County sheriff's deputies.

Found dead Saturday afternoon were Duane L. West, 39, and his wife, Jane, 37, of 2366 Birmingham.

A coroner's report fixed the times of their deaths as between 10 p.m. and midnight Friday.

Deputies said the two were discovered by a friend shortly before 1 p.m. Saturday.

Wrenches and other tools were found near the refrigerator, deputies said, indicating that West had attempted to fix the appliance before going to bed Friday.

The cabin is located in Deer Haven subdivision three miles south of Harrison.

City Fire Victim, 13, Now 'Satisfactory'

The condition of a Pontiac boy severely burned 11 days ago in a house fire has improved to "satisfactory," according to a spokesman at Pontiac General Hospital.

Jerry Green, 13, son of Mr. and Mrs. Johnnie Green of 431 Moore, suffered second- and third-degree burns over 45 percent of his body in a fire Oct. 6.

His condition had been listed as serious since being admitted to the hospital.

Chrysler Alone on Budget Cutback

DETROIT (AP) — General Motors Corp., Ford Motor Co. and American Motors Corp. say they don't plan to follow the action of Chrysler Corp. in ordering cuts in salaries, employment and other cost factors.

A spokesman for Chrysler, the nation's third largest auto maker, Sunday said the firm has urged its nonproduction departments to slash 10 per cent from budgets.

The action is necessary to make up for an estimated \$40 million the firm said would be lost because it had trimmed its original 1967 car prices by about \$24 a car.

"It is inevitable that some people are going to have to let go," a Chrysler spokesman said. About 30,000 persons work

in general administrative jobs at Chrysler.

"We have not instituted any across-the-board cut such as reports indicated Chrysler did," a Ford spokesman said.

General Motors and American Motors said the same.

"The AMC spokesman added, 'We have been in a basic cost-cutting program for more than a year now. We, along with the auto companies, have been well aware of the rising cost factor in the auto industry and we have a constant campaign to eliminate any waste.'"

Last month, Chrysler announced increases in its 1967 model prices, saying they averaged \$92 per car.

PRICE ROLLBACK
After GM announced price hikes averaging \$56, Chrysler and Ford rolled back their intended price tags to remain competitive. The new Chrysler figure averaged \$88 per auto.

Poll Shows Food Price Concern

By the Associated Press
Sen. Robert P. Griffin, R-Mich., today said 64 per cent of Michigan housewives replying to his "statewide inflation survey" believe rising food prices have hurt their budgets the most.

More than 1,000 Griffin volunteer campaign workers passed out the "Operation Price Tag" survey forms, and 3,000 returns have been tabulated, the Republican senator said.

"The survey was three-fold,"

Griffin said. "We wanted to spotlight the wage earners' shrinking dollar, to find out what increases were most noticeable and to learn what people thought should be done to curtail the inflationary trend."

He said 64 per cent of the 3,000 returns stated food prices had hurt budgets the most. Clothing cost increases were cited by 12 per cent as the largest factor in budget increases, Griffin said.

'EXCESSIVE SPENDING'
Fifty per cent listed "excessive government spending" as "the cause of inflation." Nineteen per cent cited wage increase demands by unions; 4 per cent Viet Nam war costs; and 25 per cent "No opinion, but want inflation stopped."

Asked what the federal government should do to combat inflation, the survey reported 25 per cent want "government 'Give-away' programs halted. Eighteen per cent, Griffin said, advocated price ceilings on foods; 13 per cent foreign aid cuts; 11 per cent elimination of Great Society programs, and 17 per cent miscellaneous opinions. Some 100,000 survey forms were distributed at shopping centers and supermarkets around the state, Griffin said.

Griffin today debates for the first time in the campaign with his Democratic opponent, G. Mennen Williams. They face each other before the Economic Club of Detroit.

Williams called Saturday for a cutback in the government's space program as an anti-inflation step.

"Some government spending—the space program and some public works, for example—could certainly be reduced or stretched out," Williams said in Detroit.

Repeating his opposition to an increase in the federal income tax as a means to curb inflation, Williams said: "I am opposed to it as a tax increase."

RIGHTS QUESTION
At a political seminar, Williams has asked for his opinion on the civil rights battle.

It has "peaked for the moment," he replied.

Zollner Ferency, Democratic gubernatorial candidate, planned to appear today in Muskegon to address a United Auto Workers meeting.

Gov. George Romney told a Polish-American gathering Saturday night in Hamtramck that his administration will con-

centrate on five areas of aid to older persons. Included, he said, would be medicare, housing, relief for elderly renters and greater utilization of older citizens and of the Older American Act.

In Detroit, Billy Shuttleworth, Republican candidate for the 7th State Senate District, said Sunday he would give the state a rebate of \$2,500 for each of the four years in the term if he wins election.

'OBIGATION'
Shuttleworth, who faces incumbent Democrat Raymond D. Dzendzel, said he would have

"a moral obligation to accept as much of this salary as is fair pay for the job." He said that would be the \$10,000 annual pay legislators received before they passed a \$500 pay hike this year.

Detroit Holdup

DETROIT (AP)—Four bandits held up Mr. and Mrs

Pollution Edict Up for Airing

LAKE ORION — The State Water Resources Commission order two years ago to the Village to find a way to stop pollution of Paint Creek is due for another airing in Circuit Court Oct. 31.

Summons Goes to Lake Orion

Ex-Assessor Wants \$700 in Back Pay

LAKE ORION — Village Attorney Robert Parent has reported that the parent has been served with a summons allowing 20 days to answer a charge by Robert J. Swen that he is owed \$700 in back pay.

Swen was elected village assessor by a narrow margin in March 1965.

In April, one month later, he submitted a letter of resignation, reportedly withdrew the letter, then found the council accepting his resignation belatedly.

Swen brought suit against the village in Circuit Court charging that he had been unjustly deprived of his elected office. He was unable to obtain a ruling.

The matter remained unsettled until the election of Albert J. Rhodes as assessor last March.

ANNUAL SALARY
Swen contends he is owed the money as salary, for the period of April 1965, to March 1966.

He bases his contention on a March 15, 1965, resolution requiring the payment of \$700 as annual salary to a village assessor.

Church Speaker

WHITE LAKE TOWNSHIP — Rev. Richard L. Ehrhart, evangelistic and educational missionary to Liberia, will speak at services Wednesday at Christ of the Lakes Lutheran Church.

A family style dinner at 6 p.m. will precede the 7 p.m. talk.

Troy C. of C. Endorses Caswell House Project

TROY — Troy Chamber of Commerce has thrown its weight behind the movement to raise funds for restoration of the Caswell House.

The Troy Historical Society is attempting to raise \$18,000 to move the 134-year-old home from its present location on North Adams to a site near the old city hall at Livernois and Wattles.

The house was given to the city and plans are to restore it as a museum attraction.

The house is the exact reproduction of a house Solomon Caswell admired in Springfield, Mass., the only exception being a door he added at the side for convenience.

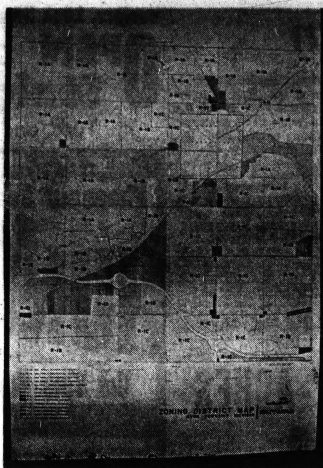

The front part of the house was built in 1832 and, in 1856, Grandchild added a back wing. His grandchildren added a screened porch in 1922 for summer enjoyment.

The Caswell house depicts the American history of progress, as the outside doors still hold

Ground Broken for Troy Building

TROY — Ground was broken last week by Northland Moving and Storage Co. for new headquarters and storage facilities at East Maple and Chicago.

The cement block building containing 10,000 square feet of storage space with 25-foot ceilings will be completed in about five months, according to David W. Leonard, president.

Pontiac Press Photo

NEW AVON ZONING MAP — A new zoning code and map, which eliminates all general farm area in Avon Township, comes up for public hearing at 7:30 p.m. Wednesday at the township hall. The map allows for a light industrial area between the Grand Trunk Railroad tracks and Auburn and along the new M59 freeway in the Adams to Livernois section. Parke, Davis Co. property east of the village of Rochester, formerly zoned general farm, has been changed to research-office district.

In Clarenceville

Early Language Training Eyed

FARMINGTON TOWNSHIP — Clarenceville School District officials are considering introducing French and Spanish into the second and third grade curriculum.

A study of the possibility was authorized by the board of education recently based on the success of an after-school program.

For three years, youngsters have been spending time after school to learn a second language.

Featured guests will include Mrs. Robert P. Griffin, wife of Sen. Robert P. Griffin, and Jack McDonald, Republican candidate for Congress from the 19th district.

Also attending will be Eugene Artur Moore, candidate on the nonpartisan ballot for probate judge.

PTA Open House Set
AVON TOWNSHIP — Elmwood PTA will host an open house to introduce teachers at 7:30 p.m. Thursday at the school, 2751 Auburn.

Three teams of club members will take to suburban streets between the hours of 1 and 5 p.m. Saturday.

Sirens on accompanying fire department vehicles and loud callopo music will herald the sale.

Four other teams will cover the village on Monday.

Downtown businesses and local industries are currently being contacted for donations by a committee headed by Edwin H. Forbush, 312 Highland.

Flares will be lighted at 7 p.m. Halloween night to brighten youngsters on their yearly "Trick or Treat" foray.

LAPEER — The new Lapeer State Police Post opened today on a limited service basis with a staff of eight men housed in newly renovated quarters at city hall.

Sgt. Raymond Dedenbach and Cpl. Wilbur Bond have been at work in Lapeer since Aug. 21, making preparations for the opening.

Calls in their new area were formerly answered by State Police posts in Flint, Romeo, Bridgeport, Sandusky and Pontiac.

On the staff with Dedenbach and Bond are Troopers Dennis Banks of Battle Creek, John Koneska of Bay City, Herbert Marklein of Niles, Gerald Mansolf of Cheboygan, Gerald Milne of Iron Mountain and James Nunn of Wayland.

Dedenbach says a minimum staff is comprised of 10 troopers. He will attempt to reach that number as soon as housing is found for the current crew.

The post now answers all complaints and does some patrolling, Dedenbach reports.

St. Lawrence Yearbook Cited
UTICA — The St. Lawrence Jewel, yearbook of St. Lawrence School, has won a Columbia University Scholastic Press Association award.

The award was made for yearbooks printed by the offset method in schools of a 301 to 600 enrollment.

A total of 48 Michigan high schools and Central Michigan University won awards in the 32nd annual contest.

LEARNING CENTER — Little Maria Mastromatteo, 292 S. Broadway, Lake Orion, examines a book and science kits on sale at the Educational Development Institute, 302 S. Broadway, Lake Orion. The salesroom is part of a comprehensive service, including testing and tutoring, which William W. Beer, director, recently inaugurated for troubled students. It is the only institute of its kind in Oakland County, he said.

Swen was elected village assessor by a narrow margin in March 1965.

In April, one month later, he submitted a letter of resignation, reportedly withdrew the letter, then found the council accepting his resignation belatedly.

Swen brought suit against the village in Circuit Court charging that he had been unjustly deprived of his elected office. He was unable to obtain a ruling.

The matter remained unsettled until the election of Albert J. Rhodes as assessor last March.

State Weekend Road Toll 18

By the Associated Press

Two nurses drove, as usual, toward Wayne County General Hospital where they worked the midnight shift.

Less than an hour later, their bodies were brought to the hospital in suburban Detroit.

Miss Eunice Curtis, 59, and Mrs. Beatrice L. Collier, 55, both of nearby Westland, were killed Saturday night when their car was struck broadside, police said.

Mrs. Collier was chief of the hospital's intensive care unit on her shift.

They were among 18 persons killed during the weekend in traffic accidents in Michigan.

NEAR ROCHESTER

Other victims: Joe E. Hutchinson, 24, of Rochester, and Horace J. Baker, 38, of Pontiac, when their cars collided head-on Sunday on a road four miles west of Rochester in Oakland County.

John J. Morris, 53, of Inkster, in a two-car collision Sunday at a Detroit intersection.

Mrs. Edward Oehring, 73, of Detroit, when the car driven by her husband, Edward, 72, went out of control while turning a street corner Saturday in suburban Hazel Park.

Mr. and Mrs. Alex Murphy of near Bangor when their car veered off a Van Buren County road near Bangor and hit a utility pole Saturday night.

Garry P. Ryskamp, 17, of Portage, when his car ran off a road near Vicksburg in Kalamazoo County Saturday night and struck a tree.

Mrs. Olive J. Dunn, 39, of Flat Rock, in the head-on collision of her car and a truck Saturday on a street in Flat Rock.

Frank Gondko, 67, of Detroit, when the auto in which he was a passenger veered off an expressway ramp and ran into a ditch Saturday in Southfield.

Mercury, the Man's Car, believes in being top cat.

Mercury believes a Man's Car should have taller, heftier, tougher ideas—the stuff that better cars are made of.

Apparently you agree. Our showrooms have been crowded with car buffs, demonstration riders, and buyers.

The wild, new Cougar has been drawing rave comments, of course. But what's wilder is that people are talking about the entire Mercury line of 28 cars as if they were Cougars.

Reasons? Lots of 'em. Man's Car ideas like the front seats in the Marquis. They split into two "club chairs," so a man can have the legroom he wants without disturbing his wife.

And options such as a foot-easing speed control that's up where it should be, where it's handiest—works from a

button on the turn signal lever. Man's Car ideas! Top-cat thinking! See it all in Cougar—and all its cousins—now.

It Seems to Me:

Citizens Puzzled by UAW's Prejudiced Blast at Pontiac

Many local citizens are puzzled—and hurt—by the current blast in the UAW Solidarity publication against the City of Pontiac.

Published in Detroit, this magazine assails Pontiac's slums, dregs, ancient and overloaded sewers, deteriorating houses, blight, poor schools, exorbitant rents, vacated stores and "General Motors plants which sprawl across Pontiac like ugly blotches."

Imagine that last! In Friday's Press, Mrs. GERALD WAGONER answered these charges beautifully. If you didn't see her letter, we recommend you look up Friday's paper.

Surely this city has its regrettable flaws and shortcomings. So have all other cities our age—including Detroit with a capital "D." If the

publication devotes the same thought and attention to its home city—Detroit—it can exhaust a complete edition with loud lamentations, walls and civil mourning.

One thing puzzles me. With this "condition" developing here over the past half century, why haven't UAW officials used some of the millions and millions of dollars they've collected in dues from our local workers to rectify the housing of their own members?

Don't they deserve to have some of their own money devoted to their own predicaments?

A hefty move citywide is now under way. KENNETH MORRIS has had a straightforward pledge from all segments to assist him on housing with enthusiasm, time, money and planning.

Mr. MORRIS, where do we start?

Housing Relief

It's heartening to see that the City Commission is bringing "1270" forward for immediate consideration. This is one of the provisos that may be halting quick action in our move for better homes and replacements for those that are outdated.

Certainly, the seven men on the Commission are in a better position than the rest of us to evaluate the situation and offer the quickest and best solutions. Citizens in general are glad that "1270" is on the agenda for im-

mediate study. Housing is sufficiently critical to justify an evaluation of every avenue that contributes to a solution of the pressing demands.

Citizens who have suffered through the lack of adequate dwellings deserve the best and fastest relief possible.

The Press has tried to evaluate the situation from all angles and we believe the best interests of the community will be served by rescinding "1270."

JCs: Community Good

I notice the Pontiac Junior Chamber of Commerce comes out forthrightly for the Taubman Plan.

This alive, assertive and civic-minded organization is invariably in the forefront of all things that stand for the good of the communi-

ty in general. It's a tremendous credit to itself and to the whole area.

Certainly this is one of the very top civic organizations in the entire area.

And in Conclusion

Notings from the well-thumbed notebook of your peripatetic reporter:

H. H. HUMPHREY has been told to "tend store" steadily while President JOHNSON is touring the East. Hence, he won't be available for many electioneering visits. The University of Michigan proposes to freeze the total number of students at whatever figure 1966 eventually shows until 1969. Insider's Newsletter says the Japs are going all out to knock the Volkswagen for a loop with a tiny car. They've already done a noble job in Europe with cameras, binoculars, transistor radios and tape recorders.

Golf Digest magazine names Sharron Moran as the most beautiful feminine golfer of 1966. She has a five handicap and has won several titles.

Well, well, well. Masculine designers say that knickers are due for a comeback in the relatively near future. I hate to see that GARRY MOORE show falling, but it's on the skids—and simply doesn't measure up to the days gone by. And if you saw CAROL BURNETT's special the other evening, I hope you didn't feel as let down as I did. It was just a ho-hum deal at best. Dept. of Cheers and Jeers: the C's—Pontiac Press photographic department for that marvelous photo of MARY ELLEN WASSERBERGER last Wednesday; the J's—NICKLAUS, for bad manners in a British tournament.

—HAROLD A. FITZGERALD

'How Do I Look, Mr. RFK?'

David Lawrence Says:

Red Rebuff to LBJ Predictable

WASHINGTON — It shouldn't have been a surprise to read the comments of Leonid I. Brezhnev, the Communist party leader in Moscow, that President Johnson is suffering from a "strange and persistent delusion" if he thinks Soviet-American relations can be improved while the United States continues its "aggression" in Viet Nam. Nor should the Brezhnev statement be regarded as discouraging.

For unless one is familiar with the history of the tactics and stratagems of the Communists in what they say to the outside world, the remarks made by Brezhnev do seem to present a hopeless negative.

But anyone who thinks an American president can butter up a Soviet foreign minister in a White House conference and expect a change the next day doesn't realize how long it takes and what has to be done before a Communist position on important questions is modified.

The process is slow-moving and requires lots of consultations and, in this instance, more information on the reaction of the Red Chinese and the North Vietnamese.

Certainly no Moscow leader would think of announcing a change in policy on Viet Nam until all the cliques on the Communist side had been consulted to determine whether the main course should be altered.

LITTLE LIKELIHOOD

Unquestionably the Soviet government would like to improve its relations with the United States. However, until Russia can get a clearer idea of Red China's mood, there is little likelihood that Moscow will make any real change in its attitude toward the United States.

President Johnson was perhaps rightly advised to make the attempt but shouldn't be disappointed that it hasn't yet borne fruit.

Meanwhile, so far as the Soviet government is concerned, it must maintain, outwardly at least, an adherence to the "party line," which is that the United States is the "aggressor."

What, then, is the American policy likely to be in the interim?

Verbal Orchids

Mr. and Mrs. Earl Burt of Commerce; 55th wedding anniversary. Elmer Reynolds of 21 Elizabeth Lake Road; 85th birthday. Mrs. Effie Wing of Rochester; 83rd birthday. Mr. and Mrs. Walter Ash of Brandon Township; 51st wedding anniversary.

The next step is not necessarily less peace talk but an intensification of the military effort for at least six months.

The hope is that, once it is proved that the United States will not curtail its combat operations until the other side does likewise, there will be an "agonizing reappraisal"

In Hanoi, in Peking and in Moscow.

It is more realistic, therefore, to say that Brezhnev, by his latest comments, has not stopped peace talks but has only suspended them temporarily.

Bob Considine Says:

Newsmen Rated Highly for Courtroom Conduct

NEW YORK — Some joker of a judge has been quoted as stating that the next trial of Jack Ruby, who had about 100 million witnesses to his murder of Lee Oswald, will be free of the "carnival air" which the press allegedly provided during the first Ruby trial.

It's time, I think, to offer an objection to what may be brewing into a wholly false public concept of the functions and deportment of the press at a criminal proceeding.

I've been covering trials, mostly cases of violence, for nearly 30 years. By and large, the conduct of the working reporters in the courtroom has been clearly more impeccable than that of the average lawyer — prosecution or defense.

The press wins high marks, too, if there must be a comparison between it and the jury, as the Supreme Court tried to press home. In the antipress sections of its reversal in the Dr. Sam Sheppard case.

Melvin Bell and Joe Tonzilli of Ruby's defense repeatedly made embarrassing flattery reference to many of us, by name, in the course of the proceeding.

LAWYER TURNED DOWN

Another lawyer was having a documentary TV show being made around him at Dallas, and asked reporters covering the trial to serve as extras. They refused, on the ground of taste.

Judge Brown often browsed through the reporters' work room during court breaks, reading over their shoulders as they tried to write against their deadlines and offering suggestions.

Absolutely contrary to the Supreme Court's majority opinion in the Sheppard case, there was never any "bedlam" in the Cleveland courtroom of Judge Blythin, or in the street outside.

There was only the buzz of Sheppard's relatives and his dead wife's relatives arching — leaning over the reporters, who were trying to work, and asking us to de-

nounce this or that witness — as if we could.

REPORTERS ANNOUNCED

The other predominant sound in that room would be the hallowed baritone of defense attorney Bill Corrigan, theatrically announcing the arrival in court of any reporter he recognized.

Some detractors of the courtroom press would have you believe the reporters spend all their time hounding juries, judges, principals, witnesses and assorted members. Actually, we're a much too discriminating lot to associate with such riffraff.

Smiles

Take good care of your health and it will do the same for you.

Modern dancers really mean it when they call a discotheque their stamping grounds.

Voice of the People:

Laws Called to Attention of Election Campaigners

The laws of our State prohibit the affixing of signs to trees upon any public highway or the placing of unauthorized signs within county rights of way. The laws provide for both civil and criminal liability for violation.

Aside from their unsightliness and the ill feeling sometimes generated among candidates, there is an expenditure of Road Commission funds in removing illegal signs which we feel could be better used for the maintenance and construction of highways.

We do not believe it to be the desire of any candidate to knowingly violate the laws. Therefore, we ask cooperation in an effort to see that our highways are kept free from all political advertisements during the election campaign.

BOARD OF COUNTY ROAD COMMISSIONERS
ROBERT O. FELT, CHAIRMAN

Says Ancient Saying Is Appropriate Today

I recently came upon this ancient Greek saying in a book of proverbs: "Beards create lice, not brains." Seems appropriate to the times.

MARY B. DAVIS

'Mass Meetings Are Not to Be Ignored'

The editorial on "Mass Meetings" was noted with appalling shock. To think that a newspaper in the United States would intimate that our duly elected officials are not to be bothered by "mass meetings" is beyond comprehension.

Do you believe that General Motors would ignore a mass meeting protesting an unsafe model? That the UAW-CIO would ignore a mass meeting protesting an excessive dues assessment? That Min Osnum would ignore a mass meeting protesting the quality of Osnum's merchandise? That a School Board would ignore a mass meeting of parents and/or a PTA group protesting a particular policy? You have your head under a bushel basket.

You stated, "Public mass meetings have their place. They're indispensable, etc." Just what better general pattern can you think of? Your basic "between the lines" philosophy is dangerous and undemocratic. Don't try to sucker the taxpayers and voters into a complacent do-nothing attitude.

W. STODDARD
BIRMINGHAM
(Editor's Note: Sorry, but it's still true; big business, little business, government business and miscellaneous business are not run by mass meetings.)

'Let's Get Started on City Improvement'

Congratulations to Mayor Taylor and the City Commission for their approval of the Taubman Shopping Center Plan.

We want a City our children and grandchildren can be proud of and we can enjoy. Much work and time has been spent by fine people to bring this shopping center plan to Pontiac. Let's get started on this improvement and go through with it and not lose heart.

NOBEL CHIROOP

Question and Answer

At one time Henry Ford caused quite a furor by raising workers' wages to \$5 a day. What year was that?
REGULAR READER

REPLY

It was Jan. 5, 1914 that Ford Motor Company raised basic wage rates from \$2.40 for a 9-hour day to \$5 for an 8-hour day.

Reviewing Other Editorial Pages

Modern Times

Family Weekly

The principal heard shouting and laughter as he passed one room. He opened the door to see one credulous youth shouting and dancing down the aisle. He seized the lad, dragged him into the corridor, and told him to stand there. After giving a long lecture on discipline, he asked if there were any questions. "Yes," one student said. "When are you going to let our teacher come back in the room?"

Space Treaty

The Chicago Sun-Times

The drafting of an international treaty to govern space exploration has been blocked in the United Nations by the Soviet Union. The Russians demand that nations which grant satellite tracking facilities to any government must make the same facilities available to all, without reciprocity, and without regard to the wishes of the nation granting the facility.

The United States and most of the 20 friendly governments which harbor U.S. tracking facilities have objected strongly to this demand

Green Sheen?

The (Portland) Oregonian

The hiring by an Illinois contractor of a large number of British bricklayers, whom he will pay about three times as much as they earned at home, has been compared with the "brain drain" of British scientists and technicians to the United States.

Officials in Britain have been concerned about this exodus to America of highly educated persons. If the bricklayers are followed by a substantial number of workers, as a result of threatened unemployment at home, the "brain drain" will add to the problem, it is suggested.

Whatever the sociological consequences may be, one cannot accept the term used for the latest migration. "Brain drain" was an inspired phrase, expressing exactly the effects of proffered U.S. money on professional people. But "brawn" doesn't substitute satisfactorily for "brain." Some other way of expressing the situation is needed. "Gone brawn," perhaps, or "labor lure."

S. Viet Militiamen Claim 168 Cong Slain

SAIGON, South Viet Nam (AP) — South Vietnamese militiamen claimed today they killed 168 Viet Cong, captured 26 others and seized a quantity of arms and ammunition in two operations near the Cambodian border.

A military spokesman said one militia force with the support of tanks and Vietnamese special forces killed 147 Viet Cong and took 17 prisoners in a search-and-destroy operation Sunday in Kien Tuong Province, about 114 miles southwest of Saigon.

The government force also seized 87 rifles, four machine guns and numerous cases of ammunition, the spokesman said.

The militiamen reported 21 enemy killed and 9 captured in another engagement in Kien Phong Province, also southwest of Saigon on the Cambodian border.

Government casualties were said to be light.

The U.S. military command

reported no significant ground action in South Viet Nam Sunday and said air strikes against the north were reduced sharply for the second straight day because of poor weather.

In Saigon, terrorists exploded a homemade claymore mine near a bus stop for U.S. servicemen, killing an American soldier and an elderly Vietnamese woman. Twelve others were wounded, including seven Americans. Three of the latter were hurt seriously, military officials said.

On the political front, Premier Nguyen Cao Ky's effort to put the rebellion by southern members of his cabinet on ice until after the Manila summit conference was threatened when Finance Minister Au Truong Thanh announced he would resign unless the crisis was resolved to his satisfaction. Civilian ministers who are natives of South Viet Nam are kicking up a fuss because they resent domination of the government by natives of North Viet Nam who

came south after the Communists took control in 1954.

TRIBESMEN RALLY

But things were reported going the government's way in another political sector. The official Viet Nam Press reported that primitive mountain tribesmen who rebelled against the Saigon government last year are "rallying to the national cause." The report said 960 Montagnards allied themselves with the central regime in the past few days at a meeting of highlanders and lowlanders in Pleiku.

Ground action was generally light over the weekend, but a battalion of U.S. Marines took Viet Cong-dominated village by surprise five miles southeast of Da Nang and, after two days of hard fighting, reported killing 22 Viet Cong and capturing five.

In other scattered ground fighting over the weekend, allied troops reported killing 76 Communists.

Two U.S. Army reconnaissance planes collided 55 miles south of Saigon Sunday. A crewman aboard one plane was killed and the pilot was missing. The two-man crew of the other plane managed to land safely. The U.S. military command said air strikes against North Viet Nam Sunday heavily damaged a highway bridge 27 miles south of Thanh Hoa, blasted cargo barges on the coast between Vinh and Thanh Hoa, and set off two secondary explosions and a fire at a storage depot and oil dump southeast of Dong Hoi.

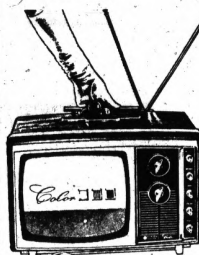

Superconducting magnets that could serve as an efficient radiation shield for men in space can operate even under atomic bombardment much heavier than that encountered far from the earth's protective atmosphere.

Hope Dims for Miami Kidnap Victim

MIAMI, Fla. (AP)—In the such precautions at their home in the fashionable suburb of Surfside. But it was through an unlocked door, that a gunman came in the night last March 28 and kidnapped the Goldmans' son, Danny, 17. Screaming "Help! Murder!" Danny was dragged away—into oblivion. Nearly seven months later, this is the only unsolved ransom kidnapping on FBI case-books.

IT'S UNIQUE

Is there a lead left, any hope? "Some day," said an FBI agent, "we'll have to find him. But I've never seen a case like this, and I never expect to see another one."

Jolted awake by the screaming of his wife, Goldman saw the silhouette of a short, stocky man, standing just inside the patio door, holding a gun.

"You cheated me," the figure said softly. "I'm here to get even."

Danny, also awakened, entered the room in his pajamas. The intruder told him to keep quiet.

"I want \$10,000," he said. "I don't keep that kind of money in the house," Goldman replied. "There's \$150. You're welcome to that."

BOY IS SECURITY

The gunman ordered Danny to get dressed, and told Goldman, "The price is \$25,000 now and I'll hold the boy as security. If it is not paid by tonight, it will be doubled."

He promised to telephone instructions for payment of the ransom, but the Goldmans still wait. Of a month Goldman, a millionaire contractor, kept \$25,000 in small bills in the house. Friends have offered \$15,000 more for Danny's safe return.

The money is in a place where it can be obtained quickly, Goldman says, and it will be paid with no questions asked to any go-between the kidnaper will select.

"We believe Danny is still alive," Goldman insists. "We must keep believing it."

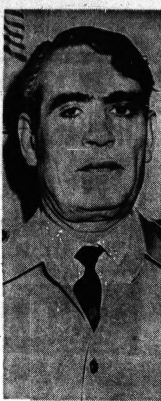

REWARD FOR BODY

But Goldman also offers "a small reward" for location of the body. It is small, he says, "so someone wouldn't profit heavily by killing him."

In the faint hope the call still will come, Mrs. Goldman hasn't left the house except for a few brief periods when a sister sat by the phone.

The FBI, with a room full of records on the case, says it has checked every relative of the Goldmans, some as far away as Israel, every friend and every associate.

Two-thirds of all bank employees are women.

EYE'S RIGHT — Tawfik Dimachki, a Lebanese police official who came to this country seeking restoration of the sight in his right eye, got his wish. An eye transplant made in Kansas City, Mo., has given him 20-40 vision.

Ford Boosts Its Turbine Engine for Trucks

WASHINGTON (AP)—The Ford Motor Co. said Saturday a new research gas turbine engine promises increased revenues and lower operating and maintenance costs for truck owners beginning perhaps in the early 1970s.

Also, the low noise level of the engine should be good news for talkative truck drivers and for folks trying to sleep in homes close to truck routes, officials said.

Among other potential advantages over conventional reciprocating automotive engines of the piston and cylinder type, they said, are "far lower levels of objectionable exhaust emissions" compared with current gasoline or diesel engines.

POWER PLANT

"There will be no smoke with the turbine," said Philip Caldwell, Ford's truck operations manager, one of several officials exhibiting the new development in conjunction with the annual meeting of the American Trucking Associations.

Ford said the new 375-horsepower engine is the first such power plant specifically designed for a current model vehicle.

Saying the engine might be ready for marketing by the early 1970s, Herbert L. Mich, Ford vice president for engineering, said in another statement:

"Past vehicular turbine engines have been either part of experimental research programs or have had unique vehicles designed around them. The 707 (the new research model) represents a significant step beyond that level of development."

"As far as we at Ford are concerned, the gas turbine has come down out of the blue skies and we can see a definite place for it in the trucking industry's future."

In a conventional engine, there are successive explosions of a compressed fuel-air mixture in the cylinders, and the up-and-down motion of the pistons within the cylinders must be transformed to the rotary motion of the crankshaft.

In a gas turbine engine, there is a continuous combustion process. Inflowing air is compressed, heated, and fed into a chamber where it's mixed with fuel, ignited and caused to burn continuously. The resulting high temperature gas ultimately the energy for propelling the drives a turbine which provides vehicle.

You don't believe a 6 can act anything like an 8?

With our new Overhead Cam Six you'd better believe it.

A few short years ago automotive engineers were struggling to coax 165 hp out of a four barrel V-8 using premium gas. Remember? Our single barrel OHC 6 gets 165 hp on regular. And 215 from the premium gas four barrel option.

Most American sixes (and some underprivileged V-8s) don't even come close. Naturally, expensive European sports machines do. But they're overhead cams, too. In fact, they inspired us. But we, like to think ours is better.

Our OHC 6 is standard on Tempests and Le Mans. To say nothing of new styling, new interiors, new colors, new options (like that hood-mounted tach) and new standard safety features (like passenger-guard door locks, General Motors' new energy absorbing steering column and a four-way hazard warning flasher). We've said enough. If a test drive won't convince you, nothing will.

Teens Find North Woods a Worthy Foe

NETWORK HEAD — Matthew J. Culligan, one-time chairman of the board of the Curtis Publishing Co., yesterday was named the new president and chief executive of the Mutual Broadcasting System. He lives in Rye, N.Y.

DETROIT (AP)—Sustained by apples, porcupine meat and roasted rye kernels, 25 suburban Warren high school students came home Sunday, disheveled but cheerful after conquering nature in a 72-hour battle.

One hunter suffered porcupine quill wounds of the left forearm in knocking one of the beasts down from a tree during a quest for food.

"I'm okay now," said Michael Arwood. "I'm still pulling out quills."

Arwood, who was treated at a hospital, and the other students spent 72 hours in wilderness near Lupton, 200 miles north of their homes in the Detroit suburb of Warren. They began the trek with no weapons and little more than their wits, warm clothes and tents to sustain them.

THE REASON

Why did they go? "Our parents are always telling us that we never face any of the predicaments they had to," said Helmut Kolke, 17, like the others a student at Woods High School in Warren.

He added, "We went out there and got porcupine."

"We ate it. We did something their ancestors did. They never did it," Kolke said.

THUNDERSTORM

Peter Coutsas, 23-year-old psychology teacher who led the expedition, said the students "had everything against them," including a thunderstorm Friday night.

Apples were the only food the youngsters found from Thursday night through Saturday afternoon.

Then Robert Noe and Kolke spied a porcupine in a tree. They climbed up and knocked the animal down.

On the ground, it was killed by Dan Pappas and George McNabb. Dennis Armstrong skinned it.

Hope College Eyes Expansion

HOLLAND (UPI) — Hope College has announced a \$9-trillion, 10-year expansion program and a plan to control enrollments for an orderly growth.

The master plan was outlined by Hope Board Chairman Ekdal J. Buys at the Hope Centennial awards banquet Saturday.

The program calls for modernization of current buildings and a new science building, a cultural-social center, an international education center, a men's physical education building and a woman's residence hall.

We have just replaced THE RANGES in the following school districts and offer their

Computer Proving to Be Valuable New Tool in Education Field

By LESLIE J. NASON, ED. D.

Computers have been a part of business and military operations for some time. Now they are moving into the educational field.

DR. NASON
are being watched to determine

just how this can be accomplished while aiding the learning process at the same time.

All cadets at the U. S. Military Academy at West Point, N. Y., must learn to operate computers. They are being taught to formulate their own problems, program them for the computer and thus come to understand computer operations.

In the Altoona, Pa. area school district, high school students learn how to use computers in math and science.

Teletypewriters have been

placed in various classrooms in the junior and senior high schools of the district so that students and faculty members may use the computer without having to be in the computer room.

Math classes make use of this system as a tool to demonstrate and clarify basic concepts of mathematics. In science, especially physics, the computer aids in solving complex scientific problems which would otherwise be impracticable in the limited time of a class session.

In Santa Barbara, Calif., six

high school physics teachers have been working since February at a computer headquarters, preparing to use a time-sharing computer in their teaching of mathematics and physics.

This "think factory" works on problems for industry, the military and now, education. It is hoped that, through the cooperation of private industry with education, the possible uses of computers as aids in the learning processes can be discovered.

One fundamental point is already clear: In all three of the experiments cited, the student

not only becomes familiar with computers and their use, but is forced to think out his problem specifically and in detail in order that it may be successfully presented to the computer.

This is the kind of thinking required for success in science and mathematics. While it can be encouraged and attained without the use of computers, it is often overlooked and neglected by both teachers and students, resulting in mediocre work or failure. When computers are used, there is no way for the student to avoid meticulous thinking.

Start at The Top and Put Your Face in a Frame

EDITOR'S NOTE: Both the amount of money and the amount of time spent on hair care in the U.S. is staggering. Helping women of all ages spend that time and money to their best advantage is the job of Dorothea Zack Hanle. The series of articles which begins today is adapted from her best-selling book, "The Hairdo Handbook."

By DOROTHEA ZACK HANLE
Editor, HairDo Magazine

Would you believe that there are three-quarters of a million hairdressers in this country? Would you believe over 600,000? Well, you better believe it—because there are!

And they're working 10 to 12 hours a day—cutting, curling,

conditioning, coloring, waving and unwaving, shampooing, rinsing and conditioning enough hair to cover this planet plus Venus, Mars, the Moon and Jupiter.

Even if you never go to a beauty salon yourself, you're still contributing to the explosive success of one of the biggest businesses today.

During the last year, women of all ages—from subteens to great-grandies—have used enough hair spray, coloring, conditioner, wave set, shampoo, curling and uncurling products and hairdressing equipment to account for over \$1 billion (yes, billion!) worth of sales.

The wig and hairpiece business has doubled in the year, and one in every three women

you know (it could be you) is coloring her hair.

Why all this hair mania? Think about it. How important is your hairdo to you? What bothers you most when you get caught in a downpour? Not your clothes—but your hairdo!

And isn't it true that a pretty new coif can send your spirits soaring, just as a dreary one can depress you?

What's more, a man's head is often turned by lovely hair—and he's quickly repelled by messy, dirty, over-sprayed and overbleached hair.

Unlike any other fashion or beauty accessory—for that is what our hair really is—a hairdo can truly express your individuality.

The nice part, too, is that no matter your income or station in life, you can have a custom-made coif that's uniquely yours, distinctly you.

Beautiful hair is possible for every woman, young or old—so very easily possible that there is no excuse for not having hair that frames your face with glowing color, touch-me texture, and loveliness of line and arrangement.

You may achieve this yourself—and that big world of highly developed hair cosmetics offers you a tempting array of delightful aids.

GET HELP

But you will probably be happiest, most confident of success and assured of perfect-for-you

styling if you first get help from a well-trained professional. He or she can guide you to the most appropriate and attractive hairdo for you, can advise you on the basic care for your particular kind of hair.

After that, should budget or time dictate that you "do-it-yourself," arm yourself with a good book on how. How to set, shampoo, brush out styles, condition, rinse and cope with the special problems of your own hair—that's what this series will tell you in the days to come.

The latest fad in hairdos is, of course, straight hair. It's not a style for everyone or every age but, for those who can wear it, there will be up-to-date advice on how to wear it well.

There will be special articles of particular interest to teenagers. Others will focus on the problems of handling and styling long hair and what to do when your hair has turned gray.

Business girls and career women know the special value

of looking their best—often the decisive factor in securing a position and achieving success—and looking lovely begins at the top—with your hairdo.

This series with additional material, including other hair styles, is available in book form. Use coupon below.

Mrs. James Dillard of Crescent Drive presents a contrast in glamour next to this sleek '67 Bonneville Pontiac classic. The late evening ensemble worn by Mrs. Dillard is one of the many to be shown at

the "My Fashion Fair Lady" show, sponsored by the General Motors Girls Club at the Huron Theatre Wednesday. Alvin's will dress the models. The event, open to the public, will begin at 7:30 p.m.

Fur on tweed, the "Pants" look and General Motors Girls Club members, Mrs. colorful basket weave set this trio of Beverly Williams, Paulsen Avenue; Joanne smart, but casual outfits in the fall-winter St. Louis of Lakewood Drive; and Mrs. '67 lineup. Shown from left are these Roger Biron of Sashabaw Road.

Observe National Week

BPW Clubs Have Breakfast

The opening of National Business Women's Week was observed by District 10, Michigan

Federation of Business and Professional Women's Clubs, at a breakfast, Sunday, in Green-

field's Birmingham Restaurant. Reba Craig of the Hazel Park club gave the call to worship to some 100 members of 23 district clubs. Lee Ann Wolf, soloist, was accompanied by Ruth Carlson.

Dr. Elizabeth Crandall of the staff of the University of Rhode Island who was voted Woman of the Year by her club was a special guest.

Committee for the breakfast included Mrs. Smith (Detroit club), Mrs. Norine Ballentine (Troy), Mrs. Mabel Spencer and Mary Trambush (Hazel Park) and Mrs. Madeline Vick (Birmingham).

Pontiac BPW members present were Mesdames: Leo McDonald, G. A. Flessland, George Brinkman, E. C. Carlson, E. Cleo Wiley, Eva Clark, and Lucinda Wyckoff.

Others were Vera Bassett, Roberta Rapoport, Helen Kinney, Mabel Smith, Lulah McCull, and Rosamond Heberle.

Seen at the Cinderella Ball in Detroit Saturday evening were Mrs. J. D. Richardson Jr. of Bloomfield Village (left) and Mrs. Edward N. Cole, Bloomfield Hills.

WOMEN'S SECTION

Gramp's Playful Patient

BY ABIGAIL VAN BUREN

DEAR ABBY: I would like your opinion of a 71-year-old man who has a wife, six living children (all married), and 21 grandchildren, who seems to be enamored of a 21-year-old student nurse? He was recently hospitalized and that's where he met her.

He writes her letters and even includes some little love poems

ABBY

He writes her letters and even includes some little love poems

which he copies out of a book. He gets plenty of attention from his family who all love him very much. What do you think should be done?

CONCERNED WIFE

DEAR WIFE: Don't worry. It's all in grandpa's head. When the 21-year-old nurse starts sending HIM love poems, you'll have something to be concerned about.

DEAR ABBY: What exactly is an alcoholic? My wife says she is not an alcoholic because she never drinks until after four in the afternoon. She says all alcoholics start drinking in the morning and they drink all day. My wife drinks every day,

starting at four o'clock. If we go out she will take a couple of drinks before we go.

If our friends serve only a couple of drinks before dinner, she will ask for "doubles" as she claims it takes more than just a few drinks to "relax" her. Please advise what time of day an alcoholic starts to drink so I will know if my wife is an alcoholic or not.

UNINFORMED

DEAR UNINFORMED: The time of day one begins drinking does not determine whether or not he is an alcoholic. An alcoholic (technically) is one who cannot control his drinking once he starts.

Mrs. Matheny Continues Post

Mrs. Edna Matheny was re-elected president of the Chapter No. 9, American Gold Star Mothers, Inc. at a luncheon Saturday.

Others assuming new duties at this time are Mrs. Sybilla Stevens, first vice president; Mrs. Daisy Langton, second vice president; Mrs. Mary Lee Hawkes, secretary; Mrs. Earl Duemler, treasurer; Mrs. Ralph Graham, Mrs. John E. Bray, Mrs. Henry Hight and Mrs. Hilda Lalonde.

Mrs. Duemler was hostess for the meeting in her Dartmouth Road home.

Calendar

TUESDAY

Book Review Group, 10 a.m., YWCA. Mrs. A. W. Selden will speak on Irving Stone's "Those Who Love."

Cass-Sylvan extension study group, 10 a.m., Ralph Wilson home on Dunmore Court. "New Fabrics" will be topic.

National Council of Senior Citizens, noon, YMCA. Annual anniversary dinner. Members may bring guests.

Franklin Forum, 1:15 p.m., Franklin Community Church. C. Gregory Gay of the United Kingdom desk, U.S. State Department, will speak.

Oakland County Dental Hygienist Society, 7:30 p.m., Northland Office of Michigan Bell Telephone Company. Dr. Robert Becker will speak.

These three wives of heads of state will greet Mrs. Lyndon B. Johnson when she accompanies President Johnson on his tour of six Far Eastern countries. They are: Mrs. Chung Hee Park, wife of South Korea's President; Mrs. Ferdinand Marcos, wife of the President of the Philippines; and Queen Sirikit, wife of the King of Thailand.

Who's watching over him? Who found him a hotel room, got him theatre tickets, sat down and advised him on his future . . . and will wake him up so he gets back to his ship? His USO and your USO too. Because but for you and millions of other Americans who have contributed to it, there wouldn't be any USO.

The USO is still very much in business, since there are still well over

2,700,000 men and women in uniform. The USO is a home away from home for lonesome trainees, a place for servicemen overseas to relax, to meet friends and the friendly people of allied nations. And no matter how remote his post overseas, the famous USO shows come to him, to make him forget for a moment just how far away he is from everything and everybody that he loves.

400 Writers Attend Oakland University Conference

Mrs. Charles Main, Depew Street, West Bloomfield Township, a participant at Oakland University's writers' conference on Saturday discusses her fox hat with Ben East of Holly, East, senior field editor of "Outdoor Life," conducted workshops at the conference.

Kay Smith, of Birmingham, chairman of the OU writers' conference Saturday, takes movies of two area women. From the left are Mrs. Larry Gelstein, Orchard Lake, and Mrs. Leland S. Reese, Littleell Street, West Bloomfield Township. Over 400 attended the fifth annual session of this conference.

R. J. Blakemans Are Wed

Revena Lola Rocheleau exchanged nuptial vows with Ronald James Blakeman, Friday evening in St. Michael Catholic Church.

After a reception at Maurice's, they left for a wedding trip to the Pocono Mountains in Pennsylvania.

Their parents are the Richard J. Rocheleaus of Stirling Avenue and the Edmund H. Blakemans of Fairfax Street. A Alencon lace embroidered with pearls accented the bride's gown and train of white peau de soie, worn with silk illusion veil. She carried cascading white roses and ivy.

Mrs. William Burch Jr. was matron of honor with Jean Meredith and Carolyn Morris, bridesmaids.

With Paul Thompson, best man, was Ted Blakeman, the bridegroom's brother who ushered with Michael Cullen.

File Spices

Use ordinary loaf pans to help keep your pantry shelves neat. Consolidate your various seasonings for salad dressings in one, your baking powder, flavorings and cake decorations in another, etc.

VFW Auxiliary Adds Members

Two new members were initiated at the recent meeting of the City of Pontiac Auxiliary to Post No. 1370, Veterans of Foreign Wars.

Mrs. Earl Hall and Mrs. Arthur Lees were the two honored at the meeting in the VFW Hall on South Saginaw Street.

Frieda Hanson, the group's president will be chairman of an upcoming benefit slated for Saturday.

Donations were approved for the Pontiac Area United Fund, and the VFW National Home at Eaton Rapids.

Mississippi Is Home for These Newlyweds

Airman Z.C. and Mrs. John Joseph Skorupski Jr. left for Keeler AFB, Biloxi, Miss. by way of the Smoky Mountains after Friday vows in Our Lady of Refuge Catholic Church.

Parents of the former Cheryl Diane Robinson are the Nelson J. Robinsons, Maybury Street, West Bloomfield Township.

The bridegroom is the son of Mr. and Mrs. John J. Skorupski of Wolverine Lake.

LACE ACCENTS

Chantilly lace accented the bride's gown of white organza over taffeta styled with cathedral-length train, worn with illusion veil. She held white orchids and Stephanotis.

Sandra Kay Robinson was her sister's only attendant at the ceremony followed by a reception in K-Falls Lounge.

With best man, Thomas C.

E. Royal, were the ushers Sherwin Roberts and Richard Messell.

MRS. SKORUPSKI JR.

For David H. Culberts

Reception Follows Vows

Buffet reception in the Village Woman's Club followed the recent marriage of Jennifer Agnes Jackson to David Holbrook Culbert of Chicago, in the Birmingham Congregational Church.

Their parents are the Walter N. Jacksons of Birmingham and the Robert Culberts of Washington, D.C.

The bride chose an Empire gown of white satin with lace bodice and carried miniature white roses.

Lillian Jackson of Providence, R.I. was her sister's maid of honor, with bridesmaids Mrs. Kenneth Welch, Bloomfield Hills, and Martha Keedy of Cambridge, Mass.

With Peter Culbert of Buffalo, N.Y., his brother's best man, were the ushers Nathan Jackson, Carl Silverman and

Robert Lohr, all of Oberlin, Ohio.

The couple are graduates of Oberlin College. She will study at the Illinois Institute of Technology and he will complete his doctorate in history at Northwestern University.

Clothing Style Sets Mood

In ancient Rome, before the Empire engaged in battles leading to its downfall, youths began to wear military-styled togas, called "Laticlavian."

And there are dozens of other examples of how military styling in the clothes worn by young men eventually found favor among older males — foreshadowing the outbreak of a major conflict, says Ron Postal, director of the National Council of Men's Fashions.

With the current trend toward military styling in togs for males, Postal wonders if it adds up to alarming evidence we are heading toward a major war.

Quick lunch: heat cubes of cooked ham with creamstyle corn and spoon over crisp buttered toast. Serve a salad with this main dish.

Haywards Wed

Go to Islands

MRS. R. L. HAYWARD

Off on a honeymoon in the Bahamas are the Roger Lynn Haywards (Cathy Lark Chambers) who were wed Saturday in the Oakland Park Methodist Church.

Reception in the Knights of Columbus hall, Lake Orion, followed the candlelight rite attended by their parents, the Earl E. Hagans, West Yale Avenue, and the Orville A. Haywards of First Avenue.

White Chantilly lace over pale pink crepe fashioned the bride's Empire gown and train worn with veil of imported pink illusion. Her bouquet held pink and white pom-poms, Sweetheart roses and Stephanotis.

Gail Hagan was her sister's honor maid, with Carolee Tuttle as bridesmaid.

Attending their brother were Albert Hayward, best man, with William, Gerald and Donald Hayward as ushers.

Broil Outside

Charcoal fires produce carbon monoxide. Helen Becker, University of Nebraska Extension health specialist, warns that in case of rain while doing outdoor cooking, do not drag the charcoal cooker inside a closed garage or porch. The biggest enemy of carbon monoxide is fresh air.

Tailored shirt, hemmed and cuffed with Ecru lace becomes a pants suit that's right from home to seashore. Designed by Hal Wharton for Internationale Set, the stovepipe pants complete a chic two-part story in Capistrano cloth.

For the at-home story, Alex Colman's culotte look tops the best seller list. He writes brand new excitement into leisure wear with this exquisite print named Symphony Scroll. With this novel look, all endings should be happy. Graceful design zips up the back for ease of wearing, and ties smartly at waist with a contrasting sash.

The engagement of Sally A. McManus to U.S.M.C. Lance Cpl. Cecil Beasley Jr. of Cherry Point, N.C. is announced by her parents Mr. and Mrs. Vaughn B. McManus of Dorothy Lane. His parents are the senior Beasleys of Pontiac Lake Road.

Swimwear Fashion Flattery Defies Age

California designer, Elizabeth Stewart shows a swim ensemble for next summer. The two-piece sheer cotton maillot of bias cut stripes has its own matching beach dress. Line carried locally.

What's happening is a new fashion generation—a generation that's 53 per cent under 25. But, just as important, the 47 per cent that's over 25 has its own fashion identity. The 1967 California swimwear story is completely new for each group.

CUT: The bikini with surplice-cut 'natural' bra-tops, less often boned. There's the hip-riding look to the bottom, most often with boy-cut legs.

Exciting, too, one-piece suits made to look like two-piece suits—cut so sparingly, joined together so minutely, they are totally teasing.

Swim-dresses bring new elegance to swimwear. Here the tunic is used to marvelous advantage in an eased fit that skims over the body.

The body suit in its 1967 version gains much of its newness from fabrics. V-necked tank tops and front-panel skirts are details of figure flattery.

FABRICS: Feather-weight one and all. Look for nylon jerseys, bouclés, ribbed knits and chiffons, power lace, metallics — especially silver — and a spectacular weightless fluorescent matte jersey.

Keep Household on Move

The average household has a surprisingly large number of parts which are designed to slip, slide or swing with a minimum of effort. When they stick, don't dose them with makeshift lubricants such as soap or ordinary greases. There are many special household lubricants that will cure sticking locks, doors and furniture, but basically they fall into one of two categories — wet or dry. The expertise comes in knowing which type to use, on what. Wet or dry, many home lubricants contain graphite as one of their ingredients.

Graphite is a material which is insensitive to heat or cold and is unaffected by weather. Here are some tips from the Joseph Dixon Crucible Co., makers of hundreds of graphite-based products.

Don't use wet lubricants on locks because wet oils tend to

accumulate dirt which eventually gums up the fine mechanism of a lock. Use a dry, powdered graphite. Dixon states that a balky lock can frequently be put into good working order simply by rubbing the lock with a tip of your pencil, for the "lead" in your pencil isn't lead at all—it is graphite. This is not an entirely unselfish recommendation because Dixon is also one of the nation's leading pencil manufacturers.

Don't scrape or plane balky windows, doors or furniture drawers to get them moving freely again. Use a dry graphite lubricant, rubbing it along the edges much like ordinary crayon.

Soft-shell crabs may be grilled over that charcoal fire. Roll the crabs in melted butter and then in seasoned flour and grill in a hinged wire toaster.

SAVE 30% to 40% on reupholstering or new, custom-made furniture!

This saving is yours because of Wright's you're buying direct from the manufacturer — eliminating the usual "middle-man" cost. You can be sure of fine quality and superior workmanship. All workmanship guaranteed 5 years.

Junior Editors Quiz on OXEN

CATTLE PROVIDED
THE PIONEERS
WITH FOUR THINGS

MILK
MEAT
POWER

QUESTION: Why did the pioneers use oxen to pull their wagons instead of horses?

ANSWER: Men domesticated cattle thousands of years ago. The reason for this is clearly shown at the top of our picture. Cows give milk, and all types of cattle yield meat and leather.

Oxen (you may have heard the phrase "As strong as an ox") provided power which enabled the early farmers to break the hard ground in order to plant crops.

Cattle were brought to Plymouth Colony in 1634. Because of their great value to the pioneers, they were taken west in the covered-wagon days.

Our picture shows the use of oxen in hauling a heavy covered wagon over extremely rough terrain. Since oxen already did the hard jobs, most pioneers used them as they traveled West.

But it is not true that horses were never used for this purpose; many pictures of the old west show them hitched to covered wagons. Horses also were ridden by the caravan leaders whose job it was to scout the trail and watch out for Indians.

Such a mounted horseman appears in our picture. He is watching the wagon carefully as it bumps over the dangerous trail.

FOR YOU TO DO: Keep an eye open for pictures of covered wagons and see if oxen or horses are shown pulling them.

Put a Grinding Halt to Crash Programs

By DICK WEST

United Press International

WASHINGTON — Of all the picturesque phrases in a congressman's vocabulary none is more popular than "crash program."

Our lawmakers picked that term up from the Pentagon a number of years ago and now seldom a day goes by that somebody does not call for a crash program of one sort or another.

Few, however, are as startling as the one proposed recently by Rep. Richard L. Ottinger, D., N. Y.

He called for a crash program to reduce jet aircraft noise.

That noise is pretty annoying all right, but Ottinger's remedy sounds a bit drastic.

Given a choice, I think, I would prefer a program advocated by Rep. Craig Hosmer to reduce auto traffic jams.

BRAVE DRIVERS

Hosmer is a Republican from Southern California, land of the freeway and home of the brave. (A Southern California freeway is no place for cowards.)

As such, he is looking forward to the development of small battery-powered cars.

When that day arrives, traffic jams caused by large gasoline-powered autos will be eliminated.

Instead, we will have traffic jams caused by small electric cars.

Realizing this, Hosmer has come forth with a "new mass transit concept." Instead of transporting masses of people, it would transport masses of small electric cars.

As explained in a press release, the system "would be designed to pick up the small private electric automobile —

passengers and all—and transport the entire package from point to point.

"A computer would drive from his home to a convenient mass transit pickup point, deposit his fare, dial his destination and be speeded to a nearby exit.

There his automobile would be unlocked from the public system by computer.

NO DELAY

"The discharge and return of vehicle control to the driver would be at an appropriate speed to allow him to drive on to his exact destination with no delay."

If you can visualize all of this without the aid of LSD, your imagination works better than mine. My mental picture fades out where the computerized computer begins to dial his destination.

We stand on our heads,
tie ourselves in knots, bend over backwards
to please you!

Ask an Installer to put your phone in an unusual location. He'll put it there.

Ask a Service Representative to explain one of our new special calling plans. She'll explain it clearly and thoroughly.

Ask the Operator to locate a hard-to-find number. She'll find it if it's possible.

Well—that's the way we'd like it to be! But frankly, once in a while we goof! We're

making a tremendous effort to keep up with the rapidly increasing demand for telephone service here in Michigan. Business, industry and population are growing almost faster than we can supply them with telephone service. So perhaps you can understand why the occasional slip-up.

But if and when we do goof, please tell us. That way we'll do better next time.

\$180 Million for Growth and Improvement

That's how much Michigan Bell will spend this year to meet the surging demand for telephone service. It's the largest construction program in the company's history—\$45 million more than last year. The result will be telephone service that's even more dependable, convenient and valuable to you.

TIMES THAT TRY MAN'S SOUL — In times like this, when a fella can't set down those sharp-pointed cups and risk losing some of his drinks, a helping hand could sure come in handy. The photographer, however, waited until he had his picture before coming to the rescue of 2-year-old Frank Bustamante on a San Antonio, Tex., street corner.

Tin Lizzie Rises From Its Grave in Detroit

DETROIT (AP) — Perry Andrews' Model T Ford was out of the ground and Police Lt. Arthur Allen was out on one lawn today after a weekend community dig that easily replaced the hunt for the Egyptian Valley of the Kings.

More than 800 people showed up over the weekend to watch or dig for the 1911 Tin Lizzie which the sentimental Andrews buried 40 years ago because he couldn't bear the thought of someone altering its classic lines.

It took Andrews, chief photographer for Ford Motor Co. at the time of his death in the 1920s, three days to bury the car.

It took half a dozen men and a mechanical shovel 10 hours of digging in the rain Saturday just to find it. And it took another 10 hours Sunday to get it out of the hole.

The equipment was donated and the workers were all volunteers. Permission to dig was given by the American Con-

crete Institute which owns the land and loaned it to Allen to use for a lawn. The only condition was that workers refill the 15- to 25-foot across and seven- to 10-foot deep hole and replace the sod.

Harvey Versteeg of the Detroit Historical Museum and Bud Guest, a local radio personality and son of the late poet Edgar A. Guest, were the prime movers in the project. Both men said they would see that any damage was paid.

"Boy old Andrews must have been pretty sore at someone or pretty fond of that car," said

Queen Named
MIDLAND (AP) — Pamela Reghi, a 19-year-old psychology major from Warren, has been named queen of Northwood Institute's 1966 Homecoming at Midland. A graduate of West Branch High School, Pamela is a part-time commercial model.

Dave Murly, 35, one of the diggers from first to last. All things considered, the old car was in pretty good shape although Andrews would probably have been shocked to see what mother Nature did to those classic lines he admired so much.

Volunteers Aid Tornado-Battered Town

BELMOND, Iowa (UPI) — Helped by the willing hands of hundreds of volunteers, this town of 2,600 staggered back to its feet today.

The task of cleaning up and rebuilding after a tornado lanced down U.S. 89, killing six, injuring hundreds and destroying 85 per cent of its business district, was being met with determination.

"The optimism of these people is remarkable," said Dan Romine, a Red Cross official from St. Louis. "There doesn't seem to be near the shock

here as there has been in other localities (suffering similar disasters)."

The Red Cross said 85 per cent of Belmond's business buildings were destroyed, 116 homes, were demolished, 100 more dwellings suffered major damage and 388 houses were damaged less severely.

One hundred and seventy-two persons were injured to the extent of requiring either hospitalization or medical treatment, and 46 remained hos-

pitalized yesterday, the Red Cross said.

HEED CALL

An estimated 800 volunteers heeded a call for help yesterday. They were brought into Belmond by convoy from the Wright County sheriff's office in Clarion, 14 miles away.

From 7 a.m. on, convoys left at 20-minute intervals as the volunteer help began restoring order in the chaos the Friday hurricane left in its wake.

The volunteers were respond-

ing to an appeal from Gov. Harold E. Hughes who said Belmond "doesn't have the financial ability to rebuild itself."

A disaster relief fund to receive donations was set up by a committee headed by Lurin B. Cox, president of the First State Bank of Belmond.

A touch of normalcy cropped up here and there yesterday. Some electrical, gas and telephone service was restored and stores that could, opened for business.

PIN-WORMS A FAMILY AFFAIR

Fiddling, nose-picking, a tormenting metal fish are often telltale signs of Pin-Worms. Only parasites that medical experts say infect 1 out of every 3 persons examined. Bitter families may be victims and not know it. To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W tablets do... and here's how they do it: First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredient goes right to work—kills Pin-Worms quickly and easily. Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge, small, easy-to-take tablets... special sizes for children and adults.

SERVICE CLUB BLAZE — More than 1,000 sailors and marines at the Memphis, (Tenn.) Naval Air Station helped civilian firemen early yesterday in futile efforts to control a stubborn fire which burned out of

control in a service club for 2 1/2 hours. One sailor, who entered the burning structure with firemen, was killed. Damage was put at \$1 1/2 million.

LBJ Reiterates Rights Appeal to Descendants of Immigrants

WASHINGTON (AP) — Bidding a temporary farewell to the congressional election campaign, President Johnson has urged Americans whose forebears fled the sting of discrimination to remember that bitter heritage and become champions of Negro equality.

Johnson never used the term backlash, but his message was clear.

Twice in the days before the Asian mission, which begins today, Johnson had appealed to people he called newer members of the American majority to make the cause of Negro rights their own.

He sounded that summons Sunday at a Polish-American shrine on a wind-swept hilltop near Doylestown, Pa. He issued an almost identical call last Wednesday to Italian-Americans in a crowded Brooklyn hotel ballroom.

REPORTS OF RESISTANCE

In a year of demonstrations and reports of mounting resistance to the Negro drive for equality, Johnson said millions of Americans were fighting for freedom from discrimination and told a vast crowd of Polish-Americans: "Their struggle is our own affair. Let us make it our cause as well."

Sub Teachers to Aid in Inner City of Detroit

DETROIT (AP) — Public school officials Sunday said more than 100 clergymen and laymen, including some 25 who participated in recent housing demonstrations, are to begin work as substitute teachers Oct. 24.

Most will work in the inner city where the worst shortage of substitute teachers exists, said Dr. Norman Drachler, acting superintendent of Detroit schools.

Faced with a shortage of more than 400 substitutes, the board of education recently relaxed qualifications. A substitute is required now to have 60 hours of college credit and experience in allied fields.

The program was announced jointly by Drachler; the Rev. Mr. Thomas Johnson, president of the West Central Organization, which recently staged housing demonstrations in which some clergymen were arrested, and the Rev. Mr. Stephen P. Spittswood of the Detroit Council of Churches.

Because several million people have used O-Jib-Wa Bitters with great success, I highly recommend that you try AMERICA'S NO. 1 HERB TONIC if you too would like to enjoy better health. Ask your druggist for O-Jib-Wa Bitters.

Dogs Have Better Senses Than Humans

By HAL BOYLE

NEW YORK (AP) — Things a columnist might never know if he didn't open his mail:

Dogs can smell up to 40 times as well as people and hear up to 10 times better than man.

Martini drinkers will be pleased to learn that Spanish green olives were first brought to the New World by Christopher Columbus on his pioneering voyage in 1492. Gin and vermouth came much, much later.

Household hint: Leather chairs will retain their gloss better if washed with milk instead of soap and water.

Ever try massaging your bald head to try and grow a new crop of hair? Well, Julius Caesar tried that same remedy about 2,000 years ago — and it worked for him about as well as it probably did for you.

For insomniacs, they now sell pajamas with heavy weights in the sleeves and legs of the trousers. The idea is that after twisting and turning umpty-ump times, you'll fall asleep from sheer exhaustion.

Asked once what weapons would be used in the event of a third world war, Albert Einstein said that because of rapid scientific developments he couldn't be sure, then added: "But I can tell you what they'll use in the fourth world war. They'll use rocks."

To tell the age of a salmon, you count its "earrings." It adds a layer of ear bone every year, just as a tree adds a ring of growing wood.

Worth remembering: "If you look back too much, you will soon be heading that way."

Folklore: A girl who marries

in a yellow dress is secretly ashamed of her bridegroom. It is a sign of impending death when a broom falls to the floor.

Riding a black horse brings good luck. If you get a nose-bleed, it's an indication you are lovelick.

Having 29-30 vision doesn't mean you have perfect eyesight. It merely means you can read a test chart at 20 feet. More im-

portant to most of us is how well we can see at normal reading distance — less than arm's length.

It was Don Herold who observed, "Women are too much, but they are the best other sex we have."

It is estimated that 37 million Americans will take an auto vacation of some kind during this year.

Higgins and Frank

268 W. MAPLE BIRMINGHAM, MICH.

Gentlemen's Clothiers Since 1913

OPEN TONIGHT and EVERY NITE TILL 9 P.M. SATURDAY TILL 6 P.M.

AFTER 43 YEARS

A drastic re-organization has been voted and ordered by the board of directors of Higgins & Frank. We must raise cash to buy out the interests of two of our major stockholders. We will eliminate our men's shoes and boys' clothing departments and expand our men's wear departments under this new policy. First, we must sell out every item in our present stocks of traditional high quality clothing and furnishings. To enable us to convert inventory to cash immediately, we offer you the chance to buy famous Higgins & Frank quality at a fraction of its true value.

REORGANIZATION SALE

Dance Troupe Can Be Topped

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD — To bare or not to bare is the somewhat extraneous issue that follows Les Ballets Africains during its tours of the United States.

The troupe of dancers from the Republic of Guinea has begun a third tour amid the usual controversy of whether the women should appear with exposed bosoms. They danced topless in Honolulu, but in Los Angeles ran up against a police ruling that female performers must cover their breasts, at least with a pastie.

Les Ballets Africains management at first declared the ruling would be defied because the dancers were merely depicting their native culture, not engaging in a peep show. This decision was reversed after intercession by the operators of the Huntington Hartford Theater. The Guinean women danced in halters.

INCONSISTENCY CITED
The irrelevance of the issue is demonstrated by the Los Angeles Times review by Martin Bernheimer, who termed the show "a tremendously exciting theatrical experience." He decried the fact that local censors considered exposure of the women morally dangerous when such exposure was "not erotically motivated, simply natural."

Bernheimer cited the inconsistency that police place no restrictions on "nude" movie theaters "when the exhibition is blatantly lascivious."

How do the Guineans themselves feel about the issue?

"We would rather have the girls dance covered up," said Sekko Sekou, general manager of Les Ballets Africains. "That is the way women dance in Guinea today. They wear the national costume, which covers them completely in robes."

Sissoko Bakary, a principal dancer and interpreter for the French-speaking Sekou, explained that nudity was outlawed, even in remote villages, after Guinea achieved independence in 1958. Why? "Because men have more respect for women when the women are covered," said Bakary.

If Guinean women no longer dance with bare breasts, why do they so appear on tours outside the country?

"Because that is Guinea of yesterday," explained Bakary.

Despite the feelings of the company, it's probable that the dancers will resume the bare policy after leaving these skin-sensitive environs. The backers of the tour prefer the ethnically authentic version and obviously have no aversion to the controversial aspects of the issue.

No trouble is expected in the next stop, San Francisco, already the hippest capital of the U.S. St. Louis is a question mark, but the producers see no police problems in Philadelphia, New York, Boston — yes, Boston — or Washington, D.C.

Meeting Set on Zionist Incident Amid Demands U.N. Move Out of NY

UNITED NATIONS, N.Y. (AP) — Secretary General U Thant planned to meet U.S. Ambassador Arthur J. Goldberg today to relay an Asian-African protest against the Zionist invasion last week of Syria's U.N. mission. The incident focused attention on renewed demands from some delegates that the United Nations move from New York.

A group of 19 young American Zionists, carrying such signs as "Peace in the Middle East" and "Stop Syrian Aggression," marched into the Syrian offices to hold a prayer vigil. New York police arrested them and a

court hearing is set for Nov. 25, and their premises" and also the 62-nation African-Asian group asked Thant to protest the violation of the Syrian premises to the United States. Since the incident occurred, the Syrian Ambassador George J. Tomah has had police protection at home and on his diplomatic rounds.

The Zionist invasion was made Friday as the U.N. Security Council was meeting to decide whether to take up an Israeli complaint that Syria sends demolition squads into Israel. The council was to continue its debate this afternoon.

Goldberg, who signed charges of trespassing, unlawful intrusion and disorderly conduct against the Zionists, apologized three times in the council Friday for their actions but finally observed that perhaps the United Nations "ought to consider the question of the sanctity of

diplomatic missions everywhere, to determine whether our prompt action in this matter is being reciprocated."

Saudi Arabian delegate Jamil M. Baroudy told a newsmen he will suggest to the General Assembly's budget committee that the United Nations consider moving its headquarters to Europe — preferably Switzerland. New York, he said, is too crowded and too expensive. Negro delegates suffer racial slights and diplomats generally are harassed by "pressure groups" and promoters.

Bill Is Signed Aiding Indians

WASHINGTON (AP) — A bill authorizing \$1,850,000 in aid for the Menominee Indian tribe in Wisconsin has been signed by President Johnson, the White House announced Saturday.

Appropriation of the money will be subject to separate action by Congress later.

The tribe was freed from federal supervision in 1954 by act of Congress. The tribe includes most of the 3,200 residents of Menominee County.

Since then, Congress has provided \$660,000 to help finance school expenses and \$438,000 for sanitation facilities. But neither the county nor the state has been able to meet all the health and educational needs of the tribe.

Congress said in a report on the bill that there is no doctor, dentist or hospital in the county and that residents have been unable to defray the costs of county government or local school and health facilities.

Red Guards Vilify Aged, Confucius

HONG KONG (AP) — Since long before the birth of Christ, the Chinese have respected their aged and their dead, venerated their ancestors and worshiped their ancestor sages.

Today, Communist China's rapacious young Red Guards are trying to destroy all that to make aging Mao Tse-tung the only god of Chinese thought.

Reports reaching Hong Kong from Canton say the teen-age guards have brutalized the aged, robbed bodies, forbidden the care of graves, and verbally spit on the memory of Confucius, the great Chinese philosopher-teacher who died 478 years before Christ was born.

Arrivals from Canton report that on Confucius' 2517th birthday last week, young militants marched in the streets with banners labeling him "demon," "snake" and "devil."

There were reports also of wall posters charging that Confucius' memory and teachings were being used by revisionist or pro-Russian enemies of Mao and the Chinese Communist party.

Other wall posters reportedly warned that "anyone caught 'sweeping the graves' of his ancestors during the Chung Yung festival this week would be 'branded' as 'monsters, snakes and devils' and 'treated as counterrevolutionaries who must be reformed.'"

Commerce Post \$7,000 Break-In
DETROIT (AP) — George A. Duff, 35, of Detroit has been named executive vice president of the Greater Detroit Board of Commerce. He is a graduate of Wayne State University.

DETROIT (AP) — Police reported Sunday that thieves broke into Delfield Co. in Detroit over the weekend and escaped with restaurant cabinets and coolers valued at \$7,000.

Engines Conk on Two Planes

PHOENIX, Ariz. (AP)—Two four-engine cargo planes carrying delegates to the 88th annual general conference of the National Guard Association of the United States landed Sunday with an engine out of order.

An engine on a plane bringing 38 delegates from Ohio began to backfire before landing, and the pilot switched it off.

Three minutes later, an engine on a plane bringing 44 officers from Lansing, Mich., developed an oil leak and was turned off.

The two planes, among 46 bringing delegates, were both landed without incident while firemen stood by.

The four-day conference opened today. The list of speakers includes Air Force Secretary Harold Brown and Asst. Secretary of Defense Thomas D. Morris.

WRECKAGE FOUND — Wreckage of a plane which had been sought since disappearing last Sunday was found near Dowagiac early Saturday. All six persons aboard the plane were reported dead. The plane crashed near the edge of a wooded area 2 1/2 miles northeast of Dowagiac.

China Blasts U.S. Feelers to Soviet Bloc

TOKYO (UPI) — Communist China today bitterly denounced President Johnson's bid for closer ties with Eastern Europe as a conspiracy to lure Soviet Bloc nations to capitalism and enable the United States to shift its military might from Europe to Asia.

An article in the official People's Daily, the Chinese Communist party publication, accused the Soviet Union of working hand-in-glove with the United States in "a great conspiracy of naked collusion . . . to carry out their counterrevolutionary global strategy."

The article, broadcast by the New China News Agency

and monitored here, said a U.S.-Soviet alliance was "already in existence" but it was "simply inconvenient" at the present time for American and Russian leaders to make it public.

President Johnson made his appeal for broader trade and cultural contacts with Russia and its East European allies in a speech Oct. 7.

He also said the United States would be willing to reduce its military forces in Western Europe if the Soviets did the same in Eastern Europe.

Rare Fly Believed a Missing Link

By Science Service
SYDNEY — A German scientist has arrived here to hunt for a fly which he believes can prove that Australia and South America were once part of the same continent.

Prof. Joachim Illies of the Max Planck Institute, Holstein, is searching for the stone fly, one of the world's oldest insects.

A few years ago Prof. Illies discovered new types of stone flies in the mountains of Chile, South America. They were closely related to stone flies found in Australia.

The flies are only found near cold-water streams and part of his search will be made in the Snowy Mountains area of New South Wales.

WHATEVER YOUR SIZE OR COMFORT REQUIREMENTS, WE HAVE A SEALY POSTUREPEDIC® JUST RIGHT FOR YOUR NEEDS!

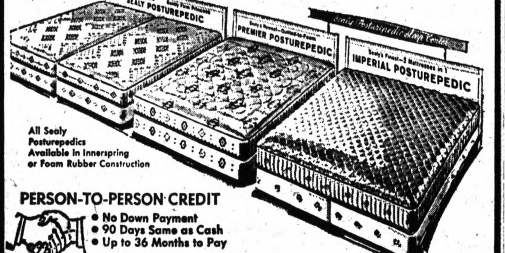

Among the six different sizes there is a Posturepedic made for you . . . long enough, wide enough or both. And, regardless of which you prefer, you have a choice of extra-firm or gently-firm comfort . . . you have the assurance that your Posturepedic was designed in cooperation with orthopedic surgeons to give you comfortably firm support.

FIRESTONE

146 W. HURON ST. 333-7917

Dr. Wayne G. Brandstadt Says:

Lotion, Paste, Powder Best for Chafing

Q—My skin chafes very easily, especially the inner surface of my thighs. Will using rubbing alcohol in this area strengthen the skin?

A—The chafed area should be clean and dry. Calamine lotion, Lassara's paste or zinc stearate powder would be more effective than also. BRANDSTADT hol.

Over-treatment or infection would tend to aggravate this condition, in which case it is best to have a doctor decide what treatment to use.

Q—What causes the abdominal cramps of colitis? Can certain foods do it?

A—For colitis a bland diet with no roughage (bran, vegetable and fruit) is essential.

When all vegetable and fruit is eliminated from the diet it is necessary to take vitamin supplements.

The medicines given for colitis include antifoaming agents, enzymes, mineral replacements, modifiers of the type of bacteria in the bowel, relaxants that work on the intestinal muscles, sedatives and tranquilizers.

Many drugs are available in each of these categories. Let your doctor decide which you need, if any.

Q—What causes the abdominal cramps of colitis? Can certain foods do it?

A—For colitis a bland diet with no roughage (bran, vegetable and fruit) is essential.

When all vegetable and fruit is eliminated from the diet it is necessary to take vitamin supplements.

The medicines given for colitis include antifoaming agents, enzymes, mineral replacements, modifiers of the type of bacteria in the bowel, relaxants that work on the intestinal muscles, sedatives and tranquilizers.

Many drugs are available in each of these categories. Let your doctor decide which you need, if any.

Q—I have had a pernicious anemia for 20 years and have been taking medicine before meals all that time.

Recently I went to a new doctor and he told me to quit taking it.

He is giving me injections of vitamin B-12. What is your opinion?

A—Vitamin B-12 is now recognized as the most effective treatment for this disease.

Although some doctors prefer to inject it into the hip muscles, tablets that can be taken by mouth are also available.

Public Bank Group Seeks to Cut Loss

DETROIT (AP) — A second committee of Public Bank stockholders plans to meet today to discuss ways to recover losses suffered when the bank was sold last week.

The new group is called Shareholders' Protection Committee of Public Bank.

Another group, calling itself the Public Bank Shareholders' Committee, will meet Tuesday to discuss ways to rescind the purchase of the bank.

Public Bank was sold to the Bank of the Commonwealth after being put into involuntary receivership.

West Germany's network of four-lane autobahns will be doubled by 1975 to 4,395 miles.

'Belt of Air' for Conveyor Developed

LONDON — A "belt of air," this thin film of air does away with surface contact and thus practically eliminates friction.

This is why the heavy loads will move with a force of only a few ounces — or under gravity used in assembly lines — if the chute is inclined by as little as half a degree or even less.

Previous attempts at using air cushions have suffered from the disadvantage of needing continuous air flow or incorporating mechanically-operated valves which required a physical contact with the goods being transported.

This gives rise to continuous mechanical shocks and increased opposition to the movement of the loads.

The special valve took two years to develop, during which

time 20 designs were tried and rejected before the final solution was accepted.

The manufacturer, Spencer division of Elliott-Automation Ltd., says the system could be used in assembly lines in asplains, moving goods on warehouse floors, baggage systems in airports and many other areas.

FALSE TEETH That Loosen Need Not Embarrass

Many wearers of false teeth suffer embarrassment because their plates drop, slip or wobble at just the wrong time. Don't live in fear of this happening to you. Just sprinkle a little PASTERE, the non-acid powder, on your plates. Holds false teeth more firmly on they feel more comfortable. Checks denture breath. Desires that fit are essential to health. See your dentist regularly. Get PASTERE at all drug counters.

Pump to Ease Brain Water

By Science Service
SAN FRANCISCO — Hydrocephalus, commonly called water on the brain, can soon be treated by a miniaturized implantable pump the size of a paper clip.

The pump has already been tested on nine infants with an average age of three months. Drs. Ernest Mathews and Joseph Ranshoff of New York University Medical Center told the American College of Surgeons.

The average time the babies remained on the pump was 100 hours, the least being 21 hours and the longest being 400.

The aim of the pump, which is expected to be an improvement over the recent "fluid shunt" system, is to maintain a depressed fontanel, the "soft spot" that is normal in all babies, and a slowly decreasing head circumference.

Results showed that the condition could be controlled by the removal of small amounts of fluid, but that a means of rate control may be required outside the body.

Syria Crisis Threatens to Plunge Arab East Into New Turmoil

CAIRO (AP) — In the heart of the Arab East — only a few years ago the storm center of a world crisis — anxious watch is being kept on developments which once again could plunge this area into turmoil.

Eyes are fastened on a chaotic Syria. Observers often refer to it as the Red Chinese situation in miniature, one which could explode from internal pressures and place Syria's neighbors in jeopardy.

From guarded remarks, one gathers that Egyptian leaders,

from President Gamal Abdel Nasser down, are far from happy about developments.

As viewed in Cairo, Syria seems in the hands of an irrational regime, headed by representatives of the far-left splinter of the Baath — Arab Social Revolution — party.

Like Red China, its leaders seem to be lashing out in all directions at real and imagined enemies.

Like Red China, its increasing isolation could impel it to mea-

sure which would involve other nations.

This month marks the 10th anniversary of the crisis in the Arab East which grew from the Suez imbroglio. At the end of October 1956, Britain, France and Israel launched a synchronized attack on Egypt, attempting to seize the canal zone.

In a rare show of togetherness, the Soviet Union and the United States put a stop to that.

TENSION RISING

Today tension is rising again, and once again the crisis has

discouraged the Communists' interest in establishing their influence in the area and gave each succeeding upheaval the look of an international crisis.

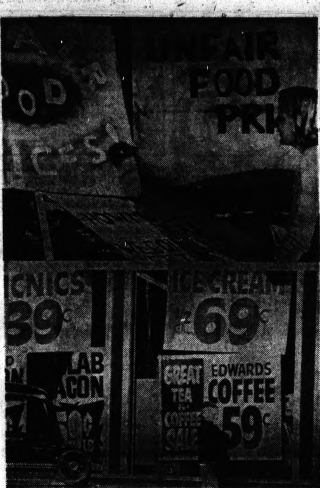

Since 1959 this element has faded.

CAUTIOUS OUTLOOK

Soviet policy regarding the area, whose oil supplies European industry, became markedly cautious. The Arab's own inter-Arab disputes came more and more to be regarded as internal affairs. The threat of involving big powers diminished.

But now world attention is again being focused on the area. The United Nations Security Council is looking into Israel's charges of Syrian border aggression. Tension is rising on the frontier between Jordan and Syria. The Soviet Union has cautioned Israel against using force in the new dispute, thus bringing Moscow back into the picture.

A pill, trade-named Cylert, has improved the memory of some senile patients on which it was tested.

AP Wirephoto

HOUSEWIVES TO MARCH — Mrs. LaVonne Stiermer (top) of Commerce City, a Denver, Colo., suburb, works on some of the signs the Housewives for Lower Food Prices plan to carry as they prepare their boycott of supermarkets. The housewives say the boycott, which goes into effect this morning, will be continued until they get satisfaction. They are urging their members not to shop at supermarkets (bottom), "no matter how tempting the 'specials' seem."

Sheriff's Job Open Again

COALGATE, Okla. (AP) — Bynum Coffee has quit as Coal County sheriff.

"I'm just not cut out for the job," he said. "There's just too much to put up with, drunks, fights and everybody else's trouble."

Coffee was the county's fourth sheriff to quit in less than 12 months.

Children Warned About Molesters

PROVIDENCE, R.I. (AP) — Rhode Island has begun a statewide program to warn youngsters about child molesters.

About 225,000 leaflets will be distributed at public, private and parochial schools.

QUICKER, LONGER LASTING RELIEF FOR PAIN OF HEMORRHOIDS

with **tranquuo**

the hospital-type medication

Because tranquuo is both anesthetic and anti-inflammatory it serves as a double-duty medication for hemorrhoids and related discomforts. Tranquuo's high, pain-killing potency comes from its hospital-type formula of 12% benzocaine. It actually relieves pain in seconds and sustains relief for hours. Tranquuo's anesthetic properties help fight infection and speed up the healing process.

'Dear John: I'd Write Offener, but the Cost ...'

By TOM TIEDE
Newspaper Enterprise Assn.
PORT LEE, N.J. — Every evening, Linda Galoaldi, age 20, of this city, writes several pages of airmail letters to Pvt. John Riley, age 22, at Anh, Viet Nam. Each letter costs her eight cents.

Frequently, she wraps up four or five pound packages—canned cookies, small cakes, sour-milk donuts—and sends them to her infantry-enlisted boyfriend.

They cost her "about \$5" apiece.

If she sends 365 such letters in the coming year and two such packages a month—which she insists she will—she will spend nearly \$150 on postage alone to mail more to Pvt. Riley during his 12-month tour of the war.

"Gee," she observes, "it's expensive."

EXPENSIVE TAB
With countless Americans now sending thousands of pounds of mail every day to soldiers in Southeast Asia (some 5,000 more tons are expected before Christmas), the total tab for state-siders is millions of dollars.

Because of this cost, many families must keep mail to GI relatives at a minimum. And a few people—say the wife of a Pvt. E-2 earning \$87.50 a month—cannot afford any packages whatsoever.

Linda Galoaldi thinks it's a shame. "So," she says, "some of my friends and I have gotten together a petition in northern New Jersey. It asks that some kind of legislation be passed in Washington to eliminate the postage of mail being sent to servicemen in the war. The signatures and enthusiasm generated have been encouraging."

Signatures? "More than 2,000 of them so far."

Enthusiasm?

"Even the post office people are signing," she giggles.

The petition argues that no warfront soldier should be kept from maximum homefront mail because of economic reasons. It also implies that, since the United States is now spending \$2 billion a month toward increasing the machinery to wage the war, it can also afford some money toward increasing the morale to wage it.

From time to time, similar petitions have circulated throughout the country. Unfortunately for the campaigners, none has ever raised dust. So it has been with any conceived legislation on the subject.

Rep. Dominick Daniels, D-N.J., for example, placed a bill (HR 13071) before the House last February. His aides say, frankly, "It got nowhere fast."

Daniels' proposal, which would eliminate postal charges on first-class letters and parcels (five pounds or less) not exceeding 60 inches in length and girth, "hasn't a chance this session," his office says. "We're not optimistic about next session, either."

The trouble is, according to representatives of the House Post Office Committee, there has been no popular backing for such a law.

"This kind of minor legislation," says one House aide, "must have the support of many large groups. As of now, it appears nobody cares one way or the other."

Except Linda Galoaldi, of course.

"I intend to keep harping," she says.

How?

"First thing I'll do is write to Lady Bird Johnson. I understand she personally reads most of the mail she gets, so perhaps this will catch her eye. She seems very understanding. I'm sure she'll do what she can."

Then Linda expects to write for wider congressional help, write for military assistance, write for aid from veterans' groups such as the VFW, and even write friends in other states, urging them to write their friends to write their friends to write...

Obviously, she admits, it'll take a lot of stamp picking. But then, Pvt. Riley's girl has planned a large postal budget this year anyway.

In California Birch Issue Erupts

LOS ANGELES (AP)—Reagan's Santa Barbara, "I don't think you support extremists."

"From now on, if anyone wants to ask about the Birchers, ask the governor. He seems to know more about it."

The object of the dispute has some vocal supporters in California, although nobody knows how many. The Birch Society keeps its membership totals secret.

The society has been a point of contention for years in California. Republicans have been deeply divided over whether their party should repudiate the mer Vice President Richard conservative organization. For M. Nixon told the Birchers he didn't want their help against Brown in the 1962 gubernatorial race, which Nixon lost.

Reagan has not repudiated the society, and Democrats are making an issue of it. "Birch members in this state are the storm troopers" in Reagan's campaign, Brown claims.

Reagan cannot repudiate them, Brown says, because he needs their contributions and precinct organizations this year, and wants their help for his aspirations "to the presidency or vice presidency in 1968."

"CAMPAIGN OF FRIGHT"
Reagan has replied that Brown has conceded he cannot win on his record and is embarked upon a campaign to "frighten" the voters.

"I don't think extremism is an issue," Reagan told a rally in

MARY CARTER PAINTS

HOW TO RUN A BUSINESS — Some 250 teen-agers are operating 12 miniature companies from the Pontiac Junior Achievement Business Center, 20½ E. Pike, to learn how to run a successful corporation venture. The

young businessmen and women decide what product or service to merchandise, research the market, sell stock, and manufacture and sell their output aided by advisers from area corporations.

TV Set Is Stolen

Thieves who apparently climbed through a second-story window stole from a Pontiac home a color television set valued at \$400. Pontiac police were told.

Nathaniel Milton, 21, of 337 S. Jessie said the burglary took place Saturday night when he was absent from the house.

Deaths in Pontiac, Neighboring Areas

Mrs. William H. Ashley

Mrs. William H. (Vertie G.) Ashley, 78, of 584 Northfield died yesterday. Services and burial will be in Marked Tree, Ark.

Surviving are 12 children, including William and Gary of Pontiac; Basil of Joiner, Ark.; John E. of Fayetteville, N.C.; Gillette of Memphis, Tenn.; Allen of Pass Christian, Miss.; and Vernon of Oakland, Tenn.

Other surviving children are Oscar of St. Joseph, Leroy of Goshen, Ind., Charles of Dyess, Ark., Mrs. John Edwards of Lake City, Fla., and Mrs. Eldon Goode of West Memphis, Ark.

Also surviving are 47 grandchildren.

John Beane Sr.

Service for John Beane Sr., 94, of 294 Dellwood will be Wednesday at Hunt's Funeral Home in Baldwin, Mich. Burial will be in Eden Township Cemetery, Irons.

Mr. Beane died Saturday following a long illness. Surviving are four daughters, Mrs. Ellwood Bonner and Mrs. William Nelson, both of Pontiac; and Mrs. Robert Davis and Mrs. Chris James, both of Chicago, and five sons, John Jr., Hiram, Hartwell and Clifton, all of Irons, and Louis of Chicago.

Also surviving are 20 grandchildren, seven great-grandchildren and one niece.

Roy H. Clothier

Service for Roy H. Clothier, 74, of 148 N. Genesee will be 11 a.m. Wednesday at Donelson-Johns Funeral Home, with burial in Burlington Cemetery, North Branch.

Mr. Clothier died yesterday after a long illness. A retired owner of an automobile service station, he was a member of F & A M Lodge No. 21 and the High Twelve and Low Twelve units of the lodge.

Surviving are his wife, Alena; two sisters, Mrs. Mildred MacDonald of Marlette and Mrs. Fred Bowerman of Lapeer; and a brother, Bruce of North Branch.

A Masonic service is scheduled for 7 p.m. tomorrow at the funeral home.

Memorial tributes may be made to the building fund of Central Methodist Church.

William J. Kerr

William J. Kerr, 82, of 1130 Lakeview, Waterford Township, died yesterday following a long illness.

The body is at Donelson-Johns Funeral Home.

Mr. Kerr was a retired pipe fitter at Pontiac Motor Division. Surviving are his wife, Rose; four sons, Harvey R. and Creighton, both of Pontiac;

Area Girl, 15, Struck by Car

A Commerce Township girl struck by a car yesterday afternoon is listed in satisfactory condition at Pontiac General Hospital.

Cynthia M. Van Sickle, 15, daughter of Mr. and Mrs. Richard Van Sickle of 3345 Glen Iris, was hit on Commerce Road west of Union Lake Road in Commerce Township, according to Oakland County sheriff's deputies.

William I. Stiles, 31, of 109 Hulbert, White Lake Township, driver of the car, said the girl suddenly stepped into the road in front of him.

Total domestic and foreign quotas for sugar imports now amount to 10.1 million tons for 1966.

Service for Mrs. Keymon (Lula) Nance Sr., 68, of 269 Nebraska will be 1 p.m. Wednesday at Macedonia Baptist Church with burial in Oak Hill Lake City, Fla., and Mrs. Eldon Goode of West Memphis, Ark.

Also surviving are 47 grandchildren.

Jesse B. Ray

Service for Jesse B. Ray, 68, of 31 Thorpe will be Thursday in Pontiac, Mich.

Mr. Ray died yesterday following a long illness. A member of the Masonic Lodge in Pontiac, he was employed in plant protection at the Fisher Body Plant.

Surviving are a daughter, Mrs. Duane Kreial of Utica; a brother, John Ray of Pontiac; three sisters; and five grandchildren.

Mrs. Allen F. Striebach

Service for Mrs. Allen F. (Helen A.) Striebach, 52, of 2331 Wisner, Waterford Township, will be 2 p.m. tomorrow at Coats Funeral Home with burial in Lakeview Cemetery.

Mrs. Striebach died Saturday from injuries received in an automobile accident near Linwood.

Surviving are her husband; a daughter, Mrs. William Brown of Waterford Township; a brother, Clyde Watson of Waterford Township; and five grandchildren.

Maudie I. Van Arsdale

Service for former Pontiac resident Maudie I. Van Arsdale, 86, of Lowell will be 11 a.m. tomorrow at the Roth Funeral Home, Lowell, with burial in Oakwood Cemetery.

Miss Van Arsdale died Saturday after a brief illness. She was a former teacher at Pontiac Central High School. She also was a member of the Episcopal church.

Gerald H. Wixom

Service for former Oakland County resident Gerald H. Wixom, 53, of Bartow, Fla., will be 11 a.m. tomorrow at the Thayer Funeral Home, Farmington, with burial in North Branch Cemetery.

Mr. Wixom died Saturday. A carpenter, he was a member of Farmington First Methodist Church.

William Bedard

BIRMINGHAM — A Requiem Mass for William Bedard, 78, of 728 Humphrey will be 11 a.m. tomorrow at Our Lady Queen of Martyrs Church. Burial will be in Holy Sepulchre Cemetery.

Rosary will be 8 tonight at Manley Bailey Funeral Home.

Mr. Bedard, a retired machine operator for Ford Motor Co., died yesterday.

Surviving are his wife, Mary; six daughters, Mrs. Paul Merchberger of Troy, Mrs. Vern Fouracre of Birmingham, Mrs. Vincent Ziegenfelder and Mrs. Joseph Gonzales, both of Royal Oak, Mrs. Louis Agnaga of Pontiac and Miss Rosemary Bedard of Birmingham; seven sons, William and Carl, both of Royal Oak, Francis and Russell, both of Troy, John of Farmville, George of Fife Lake and George of Birmingham; 47 grandchildren; 20 great-grandchildren; one sister; and one brother.

Percy G. Cox

AVON TOWNSHIP — Service for Percy G. Cox, 73, of 2550 Rochester will be 11 a.m. Wednesday at Piskie Memorial Chapel, Rochester. Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Cox, a self-employed carpet layer, died Saturday after a short illness. He was a life member of Rochester F&AM No. 5.

Surviving are his wife, Mary; two sons, Percy John and Rob-

Mrs. Timothy Hamlin

DRYDEN — Service for Mrs. Timothy (Millie) Hamlin, 87, of 4114 S. Mill will be 2 p.m. tomorrow at Pilgrim Holiness Church. Burial will be in Dryden Center Cemetery by Muir Brothers, Almont.

Mrs. Hamlin died Saturday after a short illness. She was past president, and member of the Ladies Library Association.

Surviving are three sons, Howard of Port Huron, John of Dryden and Blaine of Colorado; four daughters, Mrs. Marian Leach of Lake Orion, Mrs. Ione Stocker of Dryden and Mrs. Beryl Pettibone and Mrs. Allen Whiteman, both of Pontiac; one sister, Mrs. Margaret Putnam of Pontiac; 18 grandchildren, 39 great-grandchildren; and one great-great-grandchild.

George L. Johnson

INDEPENDENCE TOWNSHIP — Service for George L. Johnson, 43, of 5188 Maybee will be 4 p.m. tomorrow at the Coats Funeral Home, Waterford Township, with burial in Emanuel Lutheran Cemetery, Skandia.

Mr. Johnson died Saturday. He was a postal carrier.

Surviving besides his wife, Mary, are a son, Charles at home; a daughter, Mrs. Glenn Cito of Pontiac; and a brother, Charles of Pontiac.

Nestor Kangas

WIXOM — Service for Nestor Kangas, 81, of 2058 Euna will be 1 p.m. tomorrow at Richardson-Bird Funeral Home, Walled Lake. Cremation will be at White Chapel Memorial Cemetery.

Mr. Kangas, a decorator and painter, died Saturday. Surviving is a sister.

Earl E. Klusendorf

TROY — Service for Earl E. Klusendorf, 59, of 868 Troywood will be 1:30 p.m. Wednesday at St. Augustine Church. Burial will be in White Chapel Memorial Cemetery by Price Funeral Home.

Mr. Klusendorf died Saturday after a short illness. A self-employed farmer, he was a former owner and partner of Beaver Feed Co., a former member of the Big Beaver School Board, the Metropolitan Activities Club, Troy Fire Department Station No. 1, Oakland County Farm Bureau, Avon Township, and a former congregation vice president and trustee of St. Augustine Church.

Surviving are his wife, Lydia; three daughters, Mrs. Cameron Kage of Troy, Mrs. James Kirkpatrick of Warren and Mrs. Donald Salmea of Calumet; three sons, Roy E. of Rockledge, Fla., Lloyd W. of Houghton and Harold J. at home; a sister, Mrs. Fred Eichbrecht of Utica; and 14 grandchildren.

Memorials can be made to Outdoor Beautification of St. Augustine Church.

Mrs. John Marshall

BLOOMFIELD HILLS — Mrs. John (Katherine) Marshall, 80, of 2000 Woodward died yesterday. Her body is at the C. J. Godhardt Funeral Home, Keego Harbor.

Mrs. Marshall was a member of Our Lady of the Lakes Church, Waterford Township.

Surviving are seven daughters, Mrs. Walter Walsh of

George S. Patterson

WEST BLOOMFIELD TOWNSHIP — George S. Patterson, 46, of 3676 Woodview died today. His body is at the C. J. Godhardt Funeral Home, Keego Harbor.

A member of Our Lady of Refuge Church, Orchard Lake, Mr. Patterson was a house painter with the West End Paint Co. of Pontiac.

Surviving besides his wife, Madeline D., are three sons, Frank A. of Detroit, James V. of the U.S. Navy, and George S. at home; a daughter, Vicki L. at home; three sisters, Mrs. Elsie Eicholtz and Mrs. Phyllis Gray, both of Tucson, Ariz., and Mrs. Irene Hauser of Waterford Township; and three grandchildren.

Glenn G. Perry

MILFORD — Service for former resident Glenn G. Perry, 76, of Clearwater, Fla., will be 1 p.m. Wednesday at the Richardson-Bird Funeral Home, with burial in Oakland Hills Memorial Gardens, Novi.

Mr. Perry died Saturday. He was a farmer and a member of Milford Lodge No. 165, F&AM and American Legion Post 9422. A lodge service will be at 8 p.m. tomorrow.

Surviving besides his wife, Sadie, are two daughters, Mrs. Roy Elmore of Milford and Mrs. Patricia Walters of Ypsilanti, and 13 grandchildren.

Car Hits Tree; Two Teen Girls Are Hospitalized

Two teen-age girls are in Pontiac General Hospital following an accident Saturday night in which their car went out of control and hit a tree in Groveland Township.

In satisfactory condition are Christine V. Parenti, 17, daughter of Mr. and Mrs. Robert Parenti of 562 Tanview, Oxford, and Deborah Kelley, 14, daughter of Mr. and Mrs. Hugh Kelley, of 1880 Lakeview, Oxford Township.

Oakland County sheriff's deputies said the car, driven by the Parenti girl, skidded off Dixie Highway near Buckle Lake Road about 11 p.m.

Four other girls in the car were treated at Pontiac General for injuries and released.

Edison Reports...

900 ELECTRICALLY HEATED SCHOOLROOMS IN S.E. MICHIGAN

1958 was the first year of record for electrically heated schools in the area served by Detroit Edison. In that year there were 26 classrooms completely heated in this modern, efficient way. Now there are 38 all-electric schools with 900 classrooms in use, under construction or approved for construction.

This is just another example of the rapid growth for electric power in Southeastern Michigan. To remain ahead of increasing electrical demands, Detroit Edison has a seven-year \$800 million expansion program under way. This expansion will increase generating capability by 76 per cent.

Soviet Press Makes Sweeping Attack on Peking as European Red Chiefs Gather

MOSCOW (AP) — The Soviet work for a common blast of Soviet paper, carried three separate attacks on Peking today. All were summary articles reviewing prior criticisms. But it appeared significant that Pravda should carry three such articles on a day when Soviet bloc leaders were arriving for talks on China.

The controlled Soviet press was clearly laying the ground-organ and the most influential

division between China and Viet Nam and elsewhere. All Communist said that in blocking unity, recent statements by Communist parties in other countries and the lack of Communist unity in forces.

One commentary summarized the political course to accuse the Soviet union of "naked collusion" with the United States to carry out counter-revolutionary strategy.

HUNGARIAN ARRIVES

Hungarian boss Janos Kadar arrived Sunday night. Polish party chief Wladyslaw Gomulka has remained in Moscow after official talks last week. Tags, the Soviet news agency, said Romanian leaders, headed by Nicolae Ceausescu, were en route.

Others are expected from East Germany, Bulgaria, Czechoslovakia and possibly Mongolia.

The Pravda articles all pictured the split with Peking as a

Subandrio Lays Blame on Ruler

JAKARTA, Indonesia (AP) — Former Foreign Minister Subandrio said during a tearful defense summation at his treason trial today that army strongman Gen. Suharto was partly to blame for the attempted Communist coup last year.

Subandrio, 51, said Suharto, as head of security then, should have been aware of rumors of the coup and should have reported them. Suharto led the group of military officers that crushed the Sept. 30, 1965, coup movement and later took most of President Sukarno's power.

Subandrio, slender and wearing glasses, wept at the end of his 3½-hour plea during which he denied charges that he had helped the coup plotters and had misused \$500,000 of public funds. He said the prosecution had presented no evidence to support the charges.

He also denied that he had written the section of a speech by Sukarno last year that called for a new Peking-Jakarta axis. "It was the president, himself, who did this, not me," Subandrio said.

A verdict by the military court that heard the trial is expected this week. The death penalty was asked Friday in a four-hour summation by the prosecutor.

Out of town call collect

MSU Aerial Needed to Beat OSU

Spartans' QB Shows He Is Pass Threat

Jimmy Raye Brings State From Deficit to 11-8 Triumph

EAST LANSING (AP) — Yes, despite wind and rain and thousands of unbelievers, Jimmy Raye can pass — and so can barefooted place kicker Dick Kenney.

Otherwise, No. 1 ranked Michigan State would have lost its undefeated record Saturday on a slippery Columbus, Ohio, field which ruined the Spartans' favorite wide running plays.

The Spartans came out with an 11-7 victory and the MSU fans in the crowd of 84,282 came out still shaking.

Despite a dogged and tricky defense, Ohio State lost its third game in a row — something no Buckeye team has done since 1943.

"It's psychological," said Raye. "When it rains, the passer is supposed to have a bad day."

So, with MSU behind 8-3 in the last quarter, Raye did what the OSU defense and other doubters weren't figuring on.

He passed — 28 yards to Gene Washington, 14 yards to Al Brenner and 17 yards to Brenner, then, with third and 10 on the OSU 12 — yard line, he hit Washington on the two.

SMASHED OVER
Four plays later, Bob Apisa smashed over for the winning touchdown on about an eight-yard plunge.

The turning point, said MSU Coach Duffy Daugherty, came on the next play. Kenney came in and lined up — with one shoe off — to kick the extra point.

But the ball holder, Charlie Wedemeyer, sprinted off to the side and Kenney caught the center snap and passed to Wedemeyer, who scored a two-point conversion, giving MSU the 11-8 margin.

"That meant a field goal wouldn't win (for Ohio State) and it changed their strategy," said Daugherty. "I think they would have tried to grind it out and, with the wind, (Gary) Cairns could have hit a field goal from midfield."

LONG PASS
Instead, OSU quarterback Bill Long tried the long pass. With the Buckeyes on the MSU 35, MSU's Jimmy Summers stole one pass.

OSU regained the ball on a punt and moved into its best 2-20 record going into its last next Saturday with Purdue, which has a 2-0 conference record and its 4-1 over-all, with a loss to Notre Dame, 26-14.

OSU scored first — a safety when Ron Ranieri centered the ball over Kenney's head and out of the end zone when MSU was in punt formation in the first quarter.

MSU came back in the third quarter with a 27 — yard field goal by Kenney.

Then Kenney made a good save on another high pass from center. Standing on his own two yard line, he knocked the ball down and managed to kick it to the MSU 47.

But on the first play of the fourth quarter, OSU caught the Spartans using some of their backs to rush the passer and Long fired a 47-yard touchdown pass to Billy Anders.

"The rain doesn't take that much away," he said. "If you just do the things you've been doing all along."

He shrugged and added: "In the first four games I didn't pass much (average nine tries a game) and they probably figured I wouldn't pass here."

OPENING UP — Clinton Jones (26) of Michigan State moved through this gap for a short gain against Ohio State's Buckeyes Saturday. Fullback Bob Apisa (45) delivered the

block that gave Jones a little running room. The MSU Spartans won, 11-8.

Blanda Leads 24-0 Win

Jets Fall Into AFL Beaten Ranks

By The Associated Press
George Blanda happened to the Jets, but look what happened to the Jets. Kansas City Chiefs — Hewitt Dixon.

Blanda threw two touchdown passes and kicked a field goal Sunday as Houston coasted to a 24-0 victory over New York, the last undefeated team in the American Football League.

The Jets prevented the Chiefs from taking a commanding 2-4 game lead in the Eastern Division.

Then there were the Chiefs, who had thought of beating Oakland and grabbing sole possession of first place in the Western Division. But they ran into Dixon — or to be more exact, Dixon ran through them — and wound up on the wrong end of a 34-13 score.

Light Heavy Champion Wants Crack at Cassius

SAN JUAN (U) — Light heavyweight champion Jose Torres against Clay, whose normal weight is 207.

Nat Fleischer, the editor of Ring Magazine, was in San Juan for the Torres-Caldewald match and discussed the possibility of a Clay bout with the light heavy champion.

"I told him there are two things he must take into consideration if he makes up his mind to go into the heavier division," Fleischer said. "First, how much weight he can take without hurting his speed. Secondly, what affect the big difference in weight would have on him in a 15-round fight."

Next Bout
Torres, a Puerto Rican-born New Yorker, would like to fight Clay in New York after meeting Dick Tiger in a Dec. 12 title bout at Madison Square Garden.

And Torres' chief financial backer, Cain Young, says he will guarantee Clay \$250,000.

Torres' easy victory over the 29-year-old Caldewald — a top-ranked challenger according to Ring Magazine and flanked 10th by the World Boxing Association — came as a surprise.

The scheduled 15-round fight opened with both fighters sparred cautiously. Suddenly, Caldewald walked into a right hook to the jaw and the fight was over.

Scoring Pass
Snead capped a 60-yard drive with a nine-yard scoring pass to Brown in the fourth quarter. Midway through the period, Joe Scarpati picked off a pass from quarterback George Izo at the Pittsburgh 12.

Two plays later Snead connected on another touchdown pass, an 11-yard heave to Ron Goodwin moving Philadelphia ahead 28-14. Sam Baker added a 51-yard field goal to ice the game.

Chicago's other goal was by Doug Mohs early in the final period.

Toronto goals were by Larry Jeffery in the first period and Ron Ellis in the third.

Flipper Flips for Dolphins

First Victory Gives Chance to Show Off

MIAMI, Fla. (AP) — Until Sunday night, the football season had been long and dull for Flipper, the Dolphin movie star with the built-in grin.

Flipper leaps high out of his tank in the end zone when the Miami Dolphins score in an American Football League game. But he didn't get many chances to show off for the first as Miami lost all its early games.

Sunday night, the Dolphin mascot splashed salt water all over the end zone palm trees as Miami made its maiden victory in the league a decisive one over Denver, 24-7.

Flipper could have put on a much bigger show if the Dolphins hadn't fumbled away two probable touchdowns and lost another on a penalty.

LONG NIGHT
"It was a long time coming," said Miami's Coach George Wilson after his quarterback son, George Jr., engineered the breakthrough into the victory column.

Wilson threw a short pass which Billy Joe turned into a 67-yard scoring play in the first period and Miami took a 10-0 lead on a 25-yard field goal by Gene Mingo.

After that, despite all the mistakes, the Dolphins were in full command.

European Wins
MIAMI FINALLY won after losing five times, taking the lead in the first quarter on George Wilson's 67-yard touchdown aerial to Billy Joe and never relinquishing it. Joe Auer ran for two touchdowns in the second half for the Dolphins.

SAN FRANCISCO (AP) — Raymond Cusumano of Belgium, defending world champion, beat William Hynes of Los Angeles, 60-50 in 76 innings, Sunday night in the World Three-Cushion Billiard Tournament.

TD COMING UP — Halfback Carl Ward of Michigan vaults over air taking a pitchout and moves the ball to Purdue's one-yard line on this third-quarter play.

Fourth Down Plays Ruin U. of M., 22-21

ANN ARBOR (AP) — Football, they say, is a game of third downs, but three of the four key plays that led to Michigan's defeat by Purdue Saturday came on fourth downs.

The Boilermakers knocked off the Wolverines 22-21 to enhance their own Rose Bowl chances and just about knock Michigan out of any chance at the Pasadena extravaganza.

"Purdue is a good football team," said Rich Volk, Michigan defensive back.

"But we're better. We had them locked up. We were pushing them all over in the second half, and then we lost it. It's hard to believe."

Michigan outgained the Boilermakers on the ground, 222 yards to 178, and outpassed them to 17, and outpassed them to 19, but Vidmer completed 13 of 19 for 206 yards and no interceptions.

The Wolverines shut off Bob Griese with seven completions in 17 tries for 63 yards. The Michigan secondary picked off two Griese passes.

But four plays made the difference as Wolverines mistakes gave Purdue the victory.

LONG DRIVE
Michigan drove 80 yards in 12 plays early in the third period. Carl Ward, Jim Detwiler and Dave Fisher hammered the Purdue line. Detwiler scored on a one-yard drive and Rick Sygar kicked the extra point to make it Michigan 21, Purdue 14.

English Player Leading Bowls
SYDNEY (AP) — England's David Bryant scored three victories today to lead in the World Bowls Championships at Kyeenagh.

Drawing superbly and showing the form which has made him the recognized world champion, the 35-year-old school teacher downed Jersey's Gordon Bewlay 21-12, rallied to clip Cliff De Rungway of Kenya 21-17, then defeated America's Arthur Hartley 21-9.

- (50) Superman
- (56) What's New
- 5:50 (4) Political Talk
- 5:55 (4) Here's Carol Duval

In a Pinch, He'll Do Utmost to Propitiate NY Visitors

By EARL WILSON

NEW YORK—Anything to introduce American customs to our pretty visitors, I always say. Rosanna Schiaffino, the truly beautiful Italian sexpot, had visited New York, Boston, Hollywood, Washington, Chicago and Texas several times, and had never been pinched by an American male . . . but I remedied that.

Interviewing her at the Plaza about her new film, "Arrivederci, Baby," I asked her: "How is Bernice Schwartz in the picture?" "Bernice Schwartz?" The shapely brunette who pronounces it "Sheafens" looked mystified. "I am sure you say he's good, he's good. But I don't know Bernice Schwartz."

"That's Tony Curtis' real name . . . Bernice Schwartz from the Bronx . . . the very Cary Grant," I explained, "we New Yorkers are very proud of Bernice Curtis, or Tony Schwartz. "And tell me," I asked, "who pinches more . . . American men or Italian men?" "How you mean 'pinch'? I have never been 'pinch'! What does 'pinch' mean?" "That is pinch!" And I hauled off and pinched one of the loveliest girls living—on the hip, where pinching is usually done in America.

Miss Schiaffino was wearing a rather stiff thick turquoise wool dress. I didn't have the heart to tell her that several soft materials are better for pinching—American style.

THE MIDNIGHT EARL . . . Charlotte Ford Niarcho and baby are off to Europe to join Stavros Niarcho, the absentee husband and father, which'll set off all sorts of rumors again . . . Mary Pickford's quite ill. Judy Garland's got a new very young escort, Hollywood publicist Tom Green.

Burgess Meredith exercised jumping horses for an hour without damage—then fell in his home and busted a wrist . . . Gregg Dodge Moran bought a Palm Beach apt. house that her husband'll manage . . . Bob Crosby opened at the Rainbow Grill, and his son Chris (vocalist with the group) introduced Gary Crosby as "the man from Uncle's."

WISH I'D SAID THAT: Nowadays there are just two kinds of people—skinny ones who tell you how fat they're gonna be, and fat ones who tell you how skinny they're gonna be.

REMEMBERED QUOTE: "Some people boast about getting up early, as though that were a virtue, and spend the day resting on their laurels."

EARL'S PEARLS: One trouble with government is that it doesn't come in a large economy size—Arnold Glasow. John Huston was shrewd in taking the role of Noah in "The Bible," writes Wilkie in the Norfolk Virginian-Pilot: "Every time it rains, he gets free publicity." That's earl, brother.

Bond Vote Delayed After FDR Jr. Steps In

JEROME, Ark. (AP)—The 35 registered voters in Jerome, a small southeast Arkansas farm market town, will have to wait to vote on an ambitious plan to float a \$20-million industrial bond issue.

The election was scheduled for today but Mayor C. C. Gibson Jr. announced late Sunday night that it had been postponed "because we have some things we want to clear up that might cause us some trouble."

"We haven't given up on anything," Gibson said. "We will call another election when we've gotten everything cleared up."

Gibson declined to say what the trouble was or how it was caused.

NOT A FACTOR

He did say that Franklin D. Roosevelt Jr. "didn't have anything to do with it."

Roosevelt, the Liberal party candidate for governor of New York, said Thursday that he had sent telegrams to federal officials urging that they investigate the Jerome proposal to see if it is "a legal scheme to defraud the government of tax-

es."

Roosevelt charged that thousands of manufacturing jobs are being lost in New York State because of "runaway shops" moving to Arkansas and other Southern states.

"They are being lost because of the ability of unscrupulous businessmen to get around the tax laws," Roosevelt said.

RATHER FUNNY

Gibson said he thought it "was rather funny that he would pick up a morsel like this to enhance his political stature. Roosevelt should keep his mouth shut and mind his own chickens."

Gibson said the City Council, which called the election, unanimously adopted a resolution postponing it, "until such times as certain contingencies that are pertinent to the said bond issue are satisfied, at which time sufficient notice will be given to each and every elector in Jerome, Ark., and said election will be held in compliance with proper election procedures."

The bonds would have financed construction of a knitting mill in this town of 82 persons.

The firm asked that it not be identified until after the election and Gibson has declined to identify it. He said the company is based in South Carolina.

ARKANSAS LAW

The bonds would have been issued under an Arkansas law which provides for tax-exempt revenue bonds to finance industry.

If the company buys the bonds, it would collect tax-free interest and would escape property taxes because the plant would be owned by the city of Jerome.

Several firms using the financing procedure in Arkansas have bought the bonds for their own plant.

now you can machine-wash 'n'-dry these luxurious pure virgin wool shirts by Puritan

They're Aquawool sport shirts . . . proudly bearing the wool mark label attesting to their luxurious hand and long wear. And they're all automatic wash-and-dry. Johnson Departs on Far East Trip

Road Mishaps Fatal to 4

A West Bloomfield Township man died early today of injuries suffered in an accident Saturday, and two Pontiac men lost their lives yesterday morning in a head-on collision in Avon Township.

Oakland Highway Toll in '66 113
Last Year to Date 120

In addition, a Utica man died last night when he had an apparent heart attack and hit another car from behind, according to Troy police.

Dead are Harry Phillips, 37, of 6751 Wild Ridge; Joe E. Hutchinson, 24, of 580 Utah; Horace J. Baker, 38, of 637 Northway; and Donald Clark, 46, of 43264 Frontence.

Injuries suffered when his car went out of control on

West Maple in Commerce Township claimed Phillips' life about 3:30 a.m. today in St. Joseph Mercy Hospital.

Oakland County sheriff's deputies said the accident occurred about 12:15 a.m. Saturday a half-mile west of Haggerty. Witnesses told deputies Phillips' car had passed a line of traffic before leaving the highway and rolling over. The victim's wife, Natalie, 35, escaped serious injury.

ABOUT 4:10 A.M.

Hutchinson and Baker were killed, deputies said, when their automobiles collided head-on on Walton near Old Perch about 4:10 a.m. yesterday.

Both men were alone in their cars at the time of the collision, deputies said.

Investigators said one of the cars apparently crossed the center line just before the accident.

Clark was with his wife and one-year-old son when he was apparently stricken while driving on Long Lake Road east of John R. in Troy.

Police said Clark was dead in his car shortly after the accident at 5:20 p.m. His wife, Marie, 40, was treated at William Beaumont Hospital for injuries and released.

The drivers of three other cars involved in the chain-collision escaped serious injury, police said.

Congress Has Huge Agenda

Key Bills Face Action in Adjournment Drive

WASHINGTON (AP) — Driving hard for adjournment by Saturday, Congress has crowded into this week's program more major legislation than it has considered in any previous month this year.

Bills dealing with billions of dollars in appropriations and the War on Poverty, food for peace, aid to education, public works, water pollution, unemployment compensation, public health, "truth in packaging" and urban rehabilitation are crowded for final action in the headlong rush to quit.

Prospects were good for all of them to get through before members of Congress end their year and hurry home for final campaigning in advance of the Nov. 8 elections.

There was some talk of quitting Thursday or Friday.

Most big spending bills previously cleared the Senate and the House and are now in compromise form and subject to final debate.

MAJOR FUND BILL

The 15th and final major appropriation bill of the session starts through the House tomorrow.

It would add \$4.3 billion for miscellaneous activities, including aid to elementary, secondary and higher education and the War on Poverty. It still has to go through the Senate.

Three other appropriation bills are in the compromise (Continued on Page 2, Col. 4)

Strike Inquiry Called by LBJ

WASHINGTON (AP) — President Johnson took a preliminary step today to prevent scattered strikes at General Electric plants from hampering defense production.

Before taking on his Asian trip, the President signed an executive order setting up a board of inquiry.

Members of the Federal Alliance of Land Grants established a community, camping out in the Carson National Forest near Albuquerque.

The alliance says the federal government has refused since 1948 to recognize their ownership of the land.

Don Seaman, supervisor to Carson National Forest, said he would meet in Albuquerque today with William D. Hurst, Southwest regional forester, and the U.S. Forest Service's general counsel to determine what might be done.

Alliance President Reies Lopez Tijerina said the community had a mayor and had passed an ordinance forbidding Forest Service personnel to trespass.

PROTECT CLAIM

Thirty armed men remained at the scene to protect the alliance's claim, Tijerina said. The others left for their homes after a weekend stay.

BEGIN JOURNEY — President Johnson follows the first lady today as they board a helicopter at the White House and head for nearby Dulles

Airport to take off on a flight for the Far East and an extended tour of at least six Asian countries.

Threats Against LBJ Are Made in Australia

SYDNEY, Australia (AP) — Newspapers in Adelaide and Sydney said today they had received telephone calls saying an attempt would be made on President Johnson's life when he visits Australia this week.

The papers said anonymous calls had been referred to the Australian Security Service. It declined to comment, but a senior police officer in Sydney said it was not unusual for the police to receive all sorts of telephone calls and threats to important visitors to Australia.

A caller told a reporter on the Adelaide News that a group from Adelaide planned to take a rifle with a telescopic sight to Sydney to shoot President Johnson.

Although the call appeared to be a publicity-seeking hoax, the security men treated it seriously because President John F. Kennedy was shot with a rifle with a telescopic sight.

The Sydney Daily Mirror said it had received a call from a man who said: "I'm going to blow Johnson's head off." The newspaper said the man told it his 13-year-old son had been killed in Viet Nam recently.

Feeling in Australia is high over involvement in Viet Nam where the country has some 4,500 troops.

OFPOSTED TO POLICY Most think Australia has to be in the war, but many are opposed to the present policy of sending draftees.

Some hold President Johnson personally responsible for the fact that their loved ones are in Viet Nam.

American security men who have checked the President's route have said they do not consider there is any great security risk. Johnson will be using his own bulletproof car.

Warm Trend Due to Accompany Rain

Though the Weather Bureau is calling for rain tomorrow, it offers a bit of solace in a predicted warming trend. The expected highs will range from 45 to 62.

A partial clearing is expected this evening with tonight's low temperatures to hover between 38 to 45.

Today's westerly winds from 5 to 15 miles are due to shift to south-southeasterly by tomorrow. The weatherman predicts that the rain will end by Wednesday with little temperature change.

Prior to 8 a.m. in downtown Pontiac, the low mercury reading was 38. By 1 p.m., the thermometer inched to 47.

LI'L ONES

"Inflation is being good twice as often for the same amount of candy."

Top Officials Hear Mission Aim Expressed

'Promotion of Peace and Human Progress' Vowed by President

WASHINGTON (AP) — President Johnson, getting a red carpet send-off on his 25,000-mile Pacific-Asian journey, said today "I shall do my best" to promote peace and human progress.

Standing on a bunting-draped platform at Dulles International Airport in the nearby Virginia countryside, Johnson said:

"I leave you to undertake a hopeful mission. I ask for your prayers. I shall do my best to advance the cause of peace and of human progress."

The top layer of Washington officialdom gathered under the flags of the 50 states in front of the airport's futuristic terminal building to say their farewells to the President and Mrs. Johnson.

The President, who will visit at least six countries in the next 17 days, said he wants to learn "of their progress and problems, their hopes and their concerns."

A seventh country not listed on Johnson's itinerary — South Viet Nam — stands at the focal point of his arduous travels, however. Viet Nam claimed greatest attention in his departure statement.

ON CONFERENCE

Referring to the seven-nation Manila conference set for Oct. 24-25, Johnson said:

"A small Asian nation is under attack and defending itself with extraordinary courage and endurance. I go to confer with its leaders and with the leaders of those other nations that have committed their young men to defeat aggression."

"We shall review the state of military operations; but we shall mainly devote our attention to the civil, constructive side of the problem of Viet Nam."

"We shall together seek ways of bringing about an honorable peace at the earliest possible moment."

Johnson, though obviously in a buoyant mood for the past week, sounded a note of caution yesterday. Appearing at the dedication of a Roman Catholic shrine at Doylestown, Pa., he said "we cannot wave away and we do not expect to achieve any miracles" — at home or abroad.

The carefully staged airport ceremony was attended by a broadly representative official farewell committee.

Filing of Suit on Electoral Vote Denied

WASHINGTON (AP) — The Supreme Court refused today to permit Delaware to file a suit challenging constitutionality of the state unit vote system of choosing presidential electors.

The court, in a brief order, merely said the motion for "leave to file a bill of complaint is denied."

The high tribunal gave permission to Kentucky, Pennsylvania, North and South Dakota, Oklahoma, Utah, Wyoming, Florida, Iowa, Arkansas, Kansas and West Virginia to file themselves up with Delaware as prospective complainants. Then it turned back the whole action.

David P. Buckson, Delaware attorney general, had asked permission to file an original suit in the high tribunal under the Constitution's grant of authority to the court to settle controversies between states.

Pontiac Press Photo

COSTLY BLAZE — Damages are estimated at \$30,000 following a fire which swept the Joslyn Avenue United Presbyterian Church in Pontiac last night and early today. Quick work by firemen is credited with averting possible destruction of the entire building. Arson is suspected in the fire, which investigators said broke out in three separate locations in the church.

\$30,000 City Church Fire Believed Set in Break-In

Fire apparently set during a break-in caused an estimated \$30,000 damage last night to the Joslyn Avenue United Presbyterian Church at 1106 Joslyn.

Pontiac Fire Marshal Charles F. Metz said flames broke out in three different sections of the church building about 10 p.m.

Three engines and a ladder truck directed by Asst. Fire Chief Charles Marion fought the flames more than two hours.

Marion credited firemen with preventing total destruction of the church by breaking open a ventilation hole in the church roof soon after their arrival.

"Hot gases had nearly filled the church," Marion said. "If they had ignited in the roof, I don't think we could have saved the building."

A 70-foot ladder was needed to reach the high chapel roof and smash open a hole to release the hot air and gases.

Firemen remained at the scene until about 1:35 a.m. today. Church pastor Edmond Watkins told police his office had been ransacked. Watkins said he could not immediately determine what had been taken.

Fire broke out recently at a Pontiac elementary school under similar circumstances, but flames were extinguished before serious damage was done to the building.

Squatters Grab U.S. Land

ALBUQUERQUE, N.M. (AP) — A band of 350 Spanish-Americans has laid claim to 50,000 acres of federal land in northern New Mexico.

The members of the Federal Alliance of Land Grants established a community, camping out in the Carson National Forest near Albuquerque.

The alliance says the federal government has refused since 1948 to recognize their ownership of the land.

Don Seaman, supervisor to Carson National Forest, said he would meet in Albuquerque today with William D. Hurst, Southwest regional forester, and the U.S. Forest Service's general counsel to determine what might be done.

Alliance President Reies Lopez Tijerina said the community had a mayor and had passed an ordinance forbidding Forest Service personnel to trespass.

PROTECT CLAIM

Thirty armed men remained at the scene to protect the alliance's claim, Tijerina said. The others left for their homes after a weekend stay.

He said the alliance was claiming the old Spanish land grant town of San Joaquin del Rio de Chama, established Aug. 1, 1806 by Don Carlos IV, king of Spain.

The judicial powers of the town still are alive under the 1848 treaty of Guadalupe-Hidalgo between the United States and Mexico and the alliance is reviving these powers, Tijerina said.

"The move was taken in view of the fact that the U.S. government has ignored all pleas and petitions relative to these land grants," he said.

'REVIVING' TOWN

"The town didn't cease to exist just because it hasn't been alive. It was never dissolved and we are reviving it under the terms of the treaty of Guadalupe-Hidalgo."

Seaman said the Forest Service's view was that the alliance members are "just visitors to the national forest which always has been open to the public."

But he said the alliance had indicated it would restrict access to the land by other members of the public. This would be a violation of forest service regulations, he said.

Denver Housewives Set to Boycott Stores

DENVER, Colo. (AP)—Housewives in the Denver metropolitan area today are ready to boycott five major grocery chains in an effort to get lower food prices.

The boycott has become a Colorado political issue. It appears to have caused one chain to reduce prices, and it may mean a visit to Denver by a presidential aide.

State Opinion Wanted on Exceeding Tax Limit

Oakland County Treasurer James E. Seiterlin said today he has asked the County Board of Supervisors to obtain a state attorney general opinion on whether a governmental body can exceed the 15-mill tax limitation.

Seiterlin has maintained that those who drafted the new constitution had the intent that the fixed tax limitation could not be exceeded without a vote of the people.

Erhard Ouster Is Seen in Bonn

BONN, Germany (AP)—There is a widespread feeling in Bonn that Chancellor Ludwig Erhard is on his way out.

The most active candidates to succeed him are people in his own party who would like to turn West German policy more toward that of President Charles de Gaulle of France.

Erhard's chief hope for survival seems to be that his enemies fight more with one another than they do with him. This is important in West Germany because the only legal way to replace a chancellor who won't quit is for a majority of the Bundestag to get together and elect a new one.

Some say Erhard will stay before he is 70 on Feb. 4, but at least two of the four political leaders reported to have agreed in this deny that they are preparing any such birthday present.

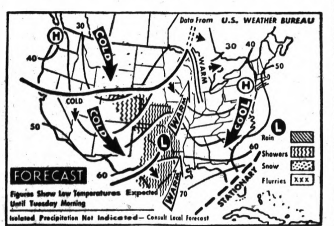

Others think he will have to go prior to the local elections in the Rhineland and Schleswig-Holstein next spring—or at least some time next year so that there is time to build up a successor who can win the 1969 national elections.

Still others say he may be forced to quit after the returns come in next month from the local elections in Hesse—the East area around Frankfurt—and in Bavaria.

NATIONAL WEATHER—Tonight showers and thunderstorms are expected over the central and southern plains with flurries falling over the northern plateau regions. Cooler temperatures will prevail in the mid-Atlantic coastal states with warmer weather throughout most of the Plains region and the Mississippi Valley.

The housewives are shopping at independent grocers and boycotting Miller's, Fur's, King Soopers, Red Owl and Safeway chains.

TRIP CONFIRMED
McKicker said Mrs. Peterson told him, "I'm a housewife and I know what I'm doing if I were in Denver." McKicker expected confirmation of her trip today.

Mrs. Paul West, leader of the housewives group, is gathering signatures on a petition calling for federal and state investigations into the cost of food. She said Sunday night more than 25,000 signatures have been received.

The petition will be sent to President Johnson, Gov. John A. Love, and the state congressional delegation.

Democratic congressional candidates have thrown their support to Mrs. West's group, although one Republican candidate claimed to be first. Mrs. West decried the political support and said, "It's our house and we want to ride it." She said she didn't want the issue to become a political football.

REACTION VARIES
Reaction to the boycott by supermarket officials has been varied. McLeod Hittison, division manager of Miller's Super Markets, said Sunday that all 43 stores in Colorado would be closed today, "and our people will work the entire day at reducing prices." Hittison said there would be other cutbacks. Promotions will be halted, a controlled policy of check-cashing will go into effect, grocery carryout service will be eliminated, and store hours will be shortened, he said.

Officials at King Soopers and Safeway called for an immediate federal investigation of the increased cost of food. Lloyd J. King, vice president of King Soopers, said the investigation should not only cover the "alarming rise in prices in the food industry, but of all basic needs of the average family."

Red Owl President James A. Watson said the housewives' complaints are not justified. "Prices are already as low as they can be," he said. He said that he doesn't plan to do anything to help the situation in Minneapolis, and he won't come to Denver.

Closing Perils Lebanon Banks

BEIRUT, Lebanon (AP)—The doors of Lebanon's 86 banks stayed shut today to prevent a run on deposits after the closing of Intira Bank, the Middle East's biggest financial house.

The bank holiday ordered by the government brought financial paralysis to this Middle Eastern commercial capital and was expected to have effects in other Arab countries.

The Central Bank of Iran, however, said Iran's 26 banks are stable and the closing of Intira Bank would not affect them.

In New York, state bank examiners began reviewing the records of Intira's New York branch. It was uncertain whether the branch would open today.

A spokesman for the branch bank, said to have \$1.5 million on deposit, expressed confidence that it could meet all customers' demands.

The Lebanese government, following an emergency Cabinet meeting Sunday, ordered the country's banks closed through Tuesday.

Indicated that the Intira Bank would remain closed.

Ready for final action is a water pollution control compromise calling for expenditure of \$3.7 billion over four years.

Candidate's Face Is Red

CHICAGO (UPI)—Minor Keith Wilson, who resigned as Chicago No. 2 policeman to run for county sheriff, wasted no time in alerting authorities when he found his car missing Saturday night.

The former top aide to Chicago's police superintendent reported his car stolen when he went to the garage of his post North Side apartment building and saw his assigned space empty.

Police units were ordered to watch for a "hot" Ford Mustang containing Wilson's belongings, a pair of shoes and a bundle of Wilson's sheriff pamphlets.

Three hours and a political rally later, Wilson was on his way home when his car reappeared. He remembered he parked the Mustang, one of three cars he owns, on Wells Street while attending a party last Tuesday.

Sure enough, it was there—with a parking ticket stuck on the windshield.

'PONY-TAILED' GI — With a woman's hair piece found in a Viet Nam village stuck in his helmet band for decoration, Sgt. Leslie D. Wilson of Fort Campbell, Ky., scans the central coastal area while on Operation Irving last week. Wilson is with B Company, 1st Battalion, 12th Cavalry of the 1st Air Cavalry Division.

Visions of Life on Mars Rekindled by New Study

SAN FRANCISCO (AP)—"spectra 10 times better than any we have had on Mars before."

He said his analysis showed that gaseous compounds containing hydrogen were the most likely explanation for new absorption bands seen in the near-infrared spectrum of Mars obtained by the Conesses at the Observatoire de Haute-Provence last year.

The hydrogen compounds observed on Mars probably included methane derivatives and perhaps methane itself, Dr. Kaplan said.

HYDRO-CARBON
Methane appears on earth as a gaseous hydrocarbon product of the decomposition of organic matter in marshes and mines. It is sometimes called marsh gas and is known to be produced by anaerobic bacteria — bacteria that do not require the oxygen that is essential to most life on earth.

Dr. Kaplan warned that discovery of the hydrogen compounds on Mars is not proof that life exists there.

If any does exist, he said, "it would be extremely primitive and not dependent on oxygen."

Dr. Kaplan was a member of the Cal Tech-JPL team that reported the first conclusive detection of water vapor on Mars. The same team showed in 1964 that the Martian atmosphere is three to four times thinner than formerly believed — dimming hopes of finding life there.

Congress Has Huge Agenda

(Continued From Page One)

stage and in a position to be disposed of in a hurry.

They would provide about \$4 billion in funds to finance the State, Justice and Commerce departments, the federal judiciary, the District of Columbia government and military construction.

Heading into the conference room for adjustment of differences is a bill that would authorize a \$1-billion, 10-year program of urban renewal in selected demonstration cities. It passed the House Friday.

In the same category is an investment tax credit bill passed Friday by the Senate.

Still in conference are highly controversial bills that would boost unemployment compensation benefits and speed sales and gifts of American food to friendly foreign nations.

Ready for final action is a water pollution control compromise calling for expenditure of \$3.7 billion over four years.

The Canadian destroyer, which hoisted the capsize Puffin on board, is expected in Lisbon, Portugal, Tuesday.

If the original Puffin is found to be seaworthy, I would like to make my attempt in that," said Thirle.

SIMILAR BOAT
"Otherwise I shall have a similar boat built." Thirle said he planned to cross the Atlantic with two companions, from the United States to Land's End in 50 days, starting next May.

Queen at WMU

KALAMAZOO (AP)—Rita Hemle, 20, a junior from Washington, Mich., was named Homecoming Queen Sunday at Western Michigan University. The elementary education major was selected by a vote of the students.

Speed-Curb Bumps Opposed

BIRMINGHAM — Physical impediments or "bumps" in local streets as a means of controlling speed or volume of traffic are not satisfactory, according to reports to be presented to the City Commission tonight.

At the request of the commission, City Manager R. S. Kenning contacted traffic organizations and police officials around the country for opinions.

As the result of his inquiries, he said he strongly recommends that the city take no action to construct the physical impediments.

Replies to Kenning's inquiries indicated that the bumps cause accidents or damage vehicles, affect emergency use of the roadway, impede street cleaning and snowplowing, and

increase deterioration of pavement from tire impact.

It was also pointed out that they are detrimental to the safe and convenient flow of traffic and that they do not slow down trucks.

STRONG OPPOSITION
City Engineer William T. Killean reported that none of the engineers contacted recommended the use of bumps and several strongly opposed their use.

GE Accord OK'd; Some Plants Idled

NEW YORK (AP)—Leaders of the AFL-CIO International Union of Electrical Workers have ratified a new contract with the General Electric Co., but several union locals called strikes over local issues.

Some 20,000 workers at a jet engine plant in Evendale, Ohio, and GE installations at Schnectady and Auburn in upstate New York already have walked out.

Strike threats also loomed at Louisville, Ky., Pittsfield, Mass., and Utica, N.Y., affecting another 20,000 employees.

At Louisville, a strike vote was scheduled for 11 a.m. EDT today by 300 members of the Skilled Craft Guild. The plant employs 12,000 workers, with 10,000 being represented by the IUE. The IUE voted Sunday to honor the Guild picket line.

WARREN PLANT
At Warren, Mich., some 1,100 United Auto Workers struck GE's Carboly Division after a fruitless weekend bargaining session.

Carboly, which has some defense contracts, is the only producer of man-made diamonds in the United States.

The GE contract, worked out in Washington Friday under presidential pressure, was approved by the IUE's General Electric Conference Board. The contract terms also met the approval of 10 other unions with which the IUE held coordinated negotiations. The IUE represents 80,000 of GE's 125,000 workers in 160 plants.

The ratification vote, according to IUE President Paul Jennings, was 45,000 members in favor of the three-year pact and 11,000 opposed.

AVERAGE RISE
The new contract means an average rise in wages from the present \$2.94 an hour to \$3.12 an hour over the contract length. Including fringe benefits, the workers' package comes to 15 cents an hour over the three years.

Jennings termed the contract one of the best it ever obtained from GE, adding: "By getting a wage and benefit settlement of over 5 per cent, we broke the national guideline and forced the company to bargain with us genuinely."

The following locals were on strike today:—Schenectady, N.Y., nearly 10,000 members of Local 301, IUE.

—Auburn, N.Y., 1,500 members of Local 967 of the International Association of Machinists.

—Evendale, Ohio, some 6,000 members of the International Association of Machinists and the United Auto Workers walked out in a GE plant employing about 11,000 workers.

A nationwide strike against GE had been scheduled for Oct. 2.

Ruler Shuffles Syria Ministers

DAMASCUS, Syria (AP)—Syrian Premier Youssef Zayn, locked in a war of nerves with Israel, awarded his government Sunday in what appeared to be a move for broader political support at home.

Four ministers were replaced and four new ministers were added, bringing the Cabinet to 27 members.

Seven of the eight new members were reportedly not members of the ruling Baath Socialist party. This appeared to be a new political voice into the government.

All the new members, however, were reported to be leftists, and one is a member of the Socialist Union movement, which supports President Gamal Abdel Nasser of Egypt.

Oxford Man Faces Charge After Chase

An Oxford patrolman chased a car at speeds up to 115 miles per hour on M24 and Brooker's early yesterday before the car hit a tree.

Billy Joe Mann, 24, of 56 Park, Oxford, was due to be arraigned this morning before Justice George Meads on a charge of reckless driving.

His passenger, Douglas Sayre, 26, of 56 Park, is in Pontiac General Hospital in good condition with a broken leg and lacerations.

Mann was treated at the hospital for bruises and lacerations and released to the custody of officers.

Oxford patrolman Les Misnar said he was on patrol in the village at 3:05 a.m. yesterday when he gave chase to Mann's car, following it for a distance of about seven miles until it crashed into a tree on Brooker, off M24.

Assistance on the call was provided by Oakland and LaPeer County Sheriff's departments.

First 2 Days of Trip by LBJ Outlined

WASHINGTON (AP)—Here is President Johnson's itinerary for today and Tuesday, the first two days of his 17-day Asian-Pacific trip — times are local:

TODAY
Depart Honolulu 9:20 a.m.
Arrive Honolulu 1:20 p.m.

TUESDAY
Depart Honolulu 7:30 a.m.
Arrive Pago Pago 11:35 a.m.
Depart Pago Pago 1:25 p.m.
Crosses international date line
Arrive New Zealand's Oakea Airport 4:30 p.m.
Depart Oakea 4:40 p.m.
Arrive Wellington 5 p.m.

The commission tonight will also be asked to consider compromise agreement with the Philip Stevens Building Co. regarding extension of a private parking lot on Adams south of Bowers into the public right of way.

Kenning points out in his report that the parking lot extending into the right of way cuts down on the clear sight distance for cars exiting onto Adams.

He said the commission has three possible choices. It can require that all of the asphalt be removed back to the property line or that a licensing agreement be entered into permitting Stevens to utilize the area between the property line and approximately four feet six inches of the sidewalk for private parking.

RIGHT OF WAY
Kenning suggests a compromise requiring the parking area to be moved back 12 feet from the east edge of the sidewalk but permitting the company to use about 14 feet of public right of way.

It was also suggested that if this is approved, that the owners of the adjoining A & P property be granted a license to extend their parking lot into the right of way so that there is a continuous line on the east side of Adams.

Doctor's Aid Averts Death of Policeman

LOS ANGELES (AP)—"I think he's going," said the doctor as he bent over a 27-year-old policeman shot through the mouth and skull.

But an attendant noticed a pulse "so weak I wasn't even sure." The doctor quickly performed a tracheotomy — cutting a breathing hole in the throat and massaged the heart externally.

Moments later, policeman Keith Dupuis began breathing normally.

TRADE SHOTS
He had been shot Sunday when he and another officer stopped a car moving erratically. The officer and a man in the car fired at each other almost simultaneously, police said.

The other man, identified by police as E. J. Robinson, was wounded in his left arm and his back. He was recovering.

Officers said Robinson and a cousin were looked on suspicion of assault with a deadly weapon, with intent to commit murder.

Dupuis, the father of three and a policeman for six years, remained in critical condition.

Chrysler Alone on Budget Cutback

DETROIT (AP)—General Motors Corp., Ford Motor Co. and American Motors Corp. say they don't plan to follow the action of Chrysler Corp. in ordering cuts in salaries and other cost factors.

A spokesman for Chrysler, the nation's third largest auto maker, Sunday said the firm has urged its nonproduction departments to slash 10 per cent from budgets.

The action is necessary to make up for an estimated \$40 million the firm said would be lost because it had trimmed its original 1967 car prices by about \$24 a car.

"It is inevitable that some people are going to have to let go," a Chrysler spokesman said. About 30,000 persons work

in general administrative jobs at Chrysler.

"We have not instituted any across-the-board cut such as reports indicated Chrysler did," a Ford spokesman said.

General Motors and American Motors said the same.

The AMC spokesman added, "We have been in a basic cost-cutting program for more than a year now. We, along with the auto companies, have been well aware of the rising cost factor in the auto industry and we have a constant campaign to eliminate any waste."

Last month, Chrysler announced increases in its 1967 model prices, saying they averaged \$92 per car.

PRICE ROLLBACK
After GM announced price

hikes averaging \$56, Chrysler and Ford rolled back their intended price tags to remain competitive. The new Chrysler figure averaged \$98 per auto.

"Other factors besides the price rollback figured in the picture," a Chrysler spokesman said. "Among them were increased labor and materials costs."

The firm, whose 1967 model sales were running well ahead of last year's pace, said its earnings on sales totaled 4.4 per cent last year. Ford's earnings ratio was an estimated 5 per cent; GM's 6 per cent.

Chrysler officials declined to say how many employees might be laid off or discharged.

You don't believe a 6 can act anything like an 8?

With our new Overhead Cam Six you'd better believe it.

A few short years ago automotive engineers were struggling to coax 165 hp out of a four barrel V-8 using premium gas. Remember? Our single barrel OHC 6 gets 165 hp on regular. And 215 from the premium gas four barrel option.

Most American sixes (and some underprivileged V-8s) don't even come close. Naturally, expensive European sports machines do. But they're overhead cams, too. In fact, they inspired us. But we like to think ours is better.

Our OHC 6 is standard on Tempests and Le Mans. To say nothing of new styling, new interiors, new colors, new options (like that hood-mounted tach) and new standard safety features (like passenger-guard door locks, General Motors' new energy absorbing steering column and a four-way hazard warning flasher).

We've said enough. If a test drive won't convince you, nothing will.

Teens Find North Woods a Worthy Foe

DETROIT (AP)—Sustained by apples, porcupine meat and roasted rye kernels, 25 suburban Warren high school students came home Sunday, disheveled but cheerful after conquering nature in a 72-hour battle.

One hunter suffered porcupine quill wounds of the left forearm in knocking one of the beasts down from a tree during a quest for food.

"I'm okay now," said Michael Arwood. "I'm still pulling out quills."

Arwood, who was treated at a hospital, and the other students spent 72 hours in wilderness near Lupton, 200 miles north of their homes in the Detroit suburb of Warren. They began the trek with no weapons and little more than their wits, warm clothes and tents to sustain them.

THE REASON

Why did they go?
"Our parents are always telling us that we never face any of the predicaments they had to," said Helmut Kolke, 17, like the others a student at Woods High School in Warren.

He added, "We went out there and got porcupine."

"We ate it. We did something their ancestors did. They never did it," Kolke said.

THUNDERSTORM

Peter Coussas, 23-year-old psychology teacher who led the expedition, said the students "had everything against them," including a thunderstorm Friday night.

Apples were the only food the youngsters found from Thursday night through Saturday afternoon.

Then Robert Noe and Kolke spied a porcupine in a tree. They climbed up and knocked the animal down.

On the ground, it was killed by Dan Pappas and George McNabb. Dennis Armstrong skinned it.

Hope College Eyes Expansion

HOLLAND (UPI) — Hope College has announced a \$9-million, 10-year expansion program and a plan to control enrollments for an orderly growth.

The master plan was outlined by Hope Board Chairman Ekdal J. Buys at the Hope Centennial awards banquet Saturday.

The program call for modernization of current buildings and a new science building, a cultural-social center, an international education center, a men's physical education building and a woman's residence hall.

Tin Lizzie Rises From Its Grave in Detroit

DETROIT (AP) — Perry Andrews' Model T Ford was out of the ground and Police Lt. Arthur Allen was out on one lawn today after a weekend community dig that easily rivaled the hunt for the Egyptian Valley of the Kings.

More than 800 people showed up over the weekend to watch or dig for the 1911 Tin Lizzie which the sentimental Andrews buried 40 years ago because he couldn't bear the thought of someone altering its classic lines.

It took Andrews, chief photographer for Ford Motor Co. at the time of his death in the 1920s, three days to bury the car.

It took half a dozen men and a mechanical shovel 10 hours of digging in the rain Saturday just to find it. And it took another 10 hours Sunday to get it out of the hole.

The equipment was donated and the workers were all volunteers. Permission to dig was given by the American Concrete Institute which owns the land and loaned it to Allen to use for a lawn. The only condition was that workers refill the 15- to 25-foot deep hole and replace the sod.

Harvey Versteeg of the Detroit Historical Museum and Bud Guest, a local radio personality and son of the late poet Edgar A. Guest, were the prime movers in the project. Both men said they would see that any damage was paid.

"Boy old Andrews must have been pretty sore at someone or pretty fond of that car," said

Queen Named

MIDLAND (AP) — Pamela Reghi, a 19-year-old psychology major from Warren, has been named queen of Northwood Institute's 1966 Homecoming at Midland. A graduate of West Branch High School, Pamela is a part-time commercial model.

SERVICE CLUB BLAZE — More than 1,000 sailors and marines at the Memphis, (Tenn.) Naval Air Station helped civilian firemen early yesterday in futile efforts to control a stubborn fire which burned out of control in a service club for 2½ hours. One sailor, who entered the burning structure with firemen, was killed. Damage was put at \$1½ million.

Volunteers Aid Hurricane-Battered Town

BELMONT, Iowa (UPI) — Helped by the willing hands of hundreds of volunteers, this town of 1,800 staggered back to its feet today.

The task of cleaning up and rebuilding after a tornado lanced down U.S. 69, killing six, injuring hundreds and destroying 85 per cent of its business district, was being met with determination.

"The optimism of these people is remarkable," said Dan Romine, a Red Cross official from St. Louis. "There doesn't seem to be near the shock here as there has been in other localities (suffering similar disasters)."

The Red Cross said 85 per cent of Belmont's business buildings were destroyed, 116 homes were demolished, 100 more dwellings suffered major damage and 368 houses were damaged less severely.

One hundred and seventy-two persons were injured to the extent of requiring either hospitalization or medical treatment, and 46 remained hospitalized yesterday, the Red Cross said.

HEED CALL

An estimated 800 volunteers heeded a call for help yesterday. They were brought into Belmont by convey from the Wright County sheriff's office in Clarion, 14 miles away.

From 7 a.m. on, convoys left at 20-minute intervals as the volunteer help began restoring order in the chaos the Friday hurricane left in its wake.

The volunteers were responding to an appeal from Gov. Harold E. Hughes who said Belmont "doesn't have the financial ability to rebuild itself."

A disaster relief fund to receive donations was set up by a committee headed by Lurin B. Cox, president of the First State Bank of Belmont.

A touch of normalcy cropped up here and there yesterday. Some electrical, gas and telephone service was restored and stores that could, opened for business.

MAKE OVER PAGES PIN-WORMS

A FAMILY AFFAIR

Pigeonhole, nose-picking, a tormenting mental itch are often telltale signs of Pin-Worms... only parasites that medical experts say infect 1 out of every 4 persons examined. Entire families may be victims and not know it.

To get rid of Pin-Worms, they must be killed in the large intestine where they live and multiply. That's exactly what Jayne's P-W Tablets do... and here's how they do it.

First—a scientific coating carries the tablets into the bowels before they dissolve. Then—Jayne's modern, medically-approved ingredients go right to work—kill Pin-Worms quickly and easily.

Don't take chances with dangerous, highly contagious Pin-Worms which infect entire families. Get genuine Jayne's P-W Vermifuge... small, easy-to-take tablets... special size for children and adults.

LBJ Reiterates Rights Appeal to Descendants of Immigrants

WASHINGTON (AP) — Bidding a temporary farewell to the congressional election campaign, President Johnson has urged Americans whose forebears felt the sting of discrimination to remember that bitter heritage and become champions of Negro equality.

Johnson never used the term backlash, but his message was clear.

Twice in the days before the Asian mission, which begins today, Johnson had appealed to people he called newer members of the American majority to make the cause of Negro rights their own.

Sub Teachers to Aid in Inner City of Detroit

DETROIT (AP) — Public school officials Sunday said more than 100 clergymen and laymen, including some 25 who participated in recent housing demonstrations, are to begin work as substitute teachers Oct. 24.

Most will work in the inner city where the worst shortage of substitute teachers exists, said Dr. Norman Drachler, acting superintendent of Detroit schools.

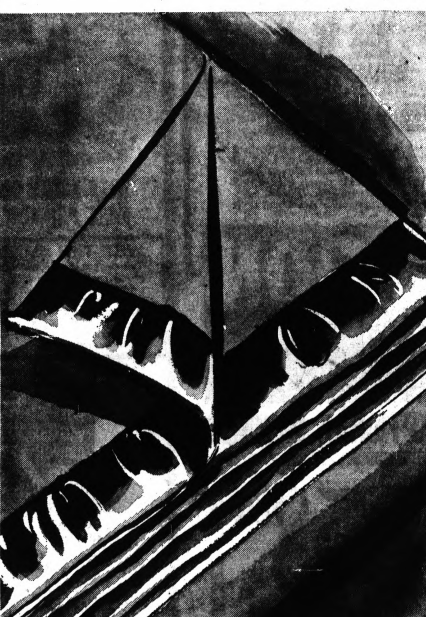

Faced with a shortage of more than 400 substitutes, the board of education recently relaxed qualifications. A substitute is required now to have 60 hours of college credit and experience in allied fields.

The program was announced jointly by Drachler, the Rev. Mr. Thomas Johnson, president of the West Central Organization which recently staged housing demonstrations in which some clergymen were arrested, and the Rev. Mr. Stephen F. Spottswood of the Detroit Council of Churches.
