Rocky, Nixon Trade Blasts, Ask for Unity

WASHINGTON (AP)—Richard M. Nixon has fired at Gov. Nelson A. Rockefeller as a "spoils sport" and been called "peevish" in return as the fight for control of the Republican party breaks into the open. But like former President Dwight D. Eisenhower, they appealed for unity.

The party struggle — essentially an effort by moderates to wrest control from Goldwater conservatives — had been pretty much off-stage until yesterday. But then, at a news conference in New York, Nixon spoke up.

The former vice president, who campaigned widely for Barry Goldwater, said Rockefeller, who was cool to the Arizonan's campaign, "got his pound of flesh."

Romney Skirts GOP Disputes

Puts Emphasis on Unity, Forward Look

LANSING (AP)—Michigan Gov. George Romney is skirting clear of postelection grumbling in the Republican Party.

White former Vice President Richard M. Nixon was berating Gov. Nelson Rockefeller of New York and other leaders were calling for the ouster of National Chairman Dean Burch, Romney put emphasis on unity and the forward look.

As an impressive reelection winner amidst the Lyndon Johnson crash, Romney is now at the fore of potential GOP leadership.

He called yesterday for a meeting of Republican governors. Within hours, Gov. Robert Smylie of Idaho, chairman of the GOP governors, announced such a meeting would be held, probably about Dec. 1 in Chicago.

Romney is refusing to castigate Sen. Barry Goldwater, even though he refused to endorse Goldwater's presidential candidacy. Romney says leadership questions must await an indication of what the Arizona senator plans to do.

TALK PREMATURE
The Michigan governor also says talk of ousting Burch—Goldwater's hand-picked GOP chairman—is premature. Smylie and John Martin, national Republican committeeman from Michigan, want Burch out.

Romney partially based his refusal to endorse Goldwater on the belief that the Michigan campaign should concentrate on the state's economic progress.

"The evidence is conclusive we were correct in focusing the state campaign on the Republican record of progress in Michigan," Romney said yesterday. The evidence—Romney's victory.

Romney said yesterday he'll take a vacation the last two weeks of November—just before the governors' convalesce.

Unity Appeal Made at Moscow Confab Unsettled Talks at Local Level Spur Walkouts

MOSCOW (AP)—With Red Chinese Premier Chou En-lai literally looking over his shoulder, Soviet leader Leonid I. Brezhnev appealed strongly for unity today and for a world conference with the split in Communist ranks.

Brezhnev, successor to Nikita S. Khrushchev, who stirred the Soviet dispute with China to a bitter state, made his appeal as Peking was expressing confidence the quarrel could be settled but indicating its terms would have to be met.

Khrushchev, too, had supported a world meeting to deal with the split, but the tone of the call now seemed changed to an approach smacking more of conciliation than condemnation of China's attitude.

Chou was the only one among leaders from a dozen Communist-governed nations who failed to applaud the call for a world Communist meeting.

The Chinese premier did applaud vigorously later when Brezhnev said Communists have one common goal.

Brezhnev told a crowded Kremlin theater on the eve of the 47th anniversary of the Bolshevik Revolution that the Soviet Communist party and government.

"Deem it to be their sacred duty to do everything necessary to strengthen the unity of the socialist countries on the reliable basis of Marxism-Leninism and proletarian internationalism."

He added that a world Communist meeting should be held with a motto of cohesion on this same basis plus "unity of brother Communists in the struggle for our great common goals."

He said the Soviet Communist party "will do everything it can to achieve this unity."

Turning to foreign policy, Brezhnev in an 80-minute speech seemed to try to mollify his Chinese listeners. He reasserted Soviet support for Red Chinese claims to Nationalist-held Formosa, and he declared there was "no other basis for safeguarding European peace" than solution of the German question.

Mariner 3 was to have crossed 300 million miles of space in 8 1/2 months, skimming within 8,600 miles of Mars next July 17.

During a brief encounter with the planet, the craft was to have snapped pictures and gathered scientific data.

There were indications that the failure resulted because a fiberglass shroud did not separate from the spacecraft.

The shroud was designed to protect Mariner 3 from aerodynamic stresses during the upward push through the earth's atmosphere, then was to eject.

Probe Doomed by Malfunction

NASA Turns Attention to New Mars Mission

CAPE KENNEDY, Fla. (AP)—The stricken Mariner 3 spacecraft whirled through space as a helpless hulk today, unable to fulfill its mission as the first spacecraft to probe the planet Mars.

With Mariner 3 a \$25-million loss, the National Aeronautics and Space Administration turned attention to Mariner 4, a twin spacecraft which officials hope to launch within two weeks.

Exact date for the launching depends on evaluation of information from yesterday's failure.

The space agency has until Dec. 1 to fire the Mariner 4 rocket.

RESTS AFTER VICTORY — President Lyndon Johnson is reported today to be resting up at his ranch in Johnson City, Tex., after his sweeping win in the election. He has

no plans to return to Washington for a few days but is keeping in touch with his top aides and advisers by telephone.

Released After Treatment

Four in Family Overcome by Fumes

Four members of a West Bloomfield Township family, overcome by fumes from a defective furnace early today, were treated at Beaumont Hospital and then released.

Treated were Mrs. Harold Lindsey of 6006 Halstead and

children, Sandra, 7; Harold Jr., 5; and Marion, 4. Lindsey and another daughter, Janice, 11, were in the house but did not require treatment.

Mrs. Lindsey said she noticed fumes in the house last night. She said she called the furnace company and was told there was nothing to worry about.

When she woke up at 5 a.m. today, the fumes were much worse, Mrs. Lindsey said, and she woke her husband who turned off the furnace.

Lindsey then opened doors and windows on the first floor of the house and went upstairs to get the children from their bedrooms.

TWO PASS OUT

Two of the youngsters, Sandra and Harold, Jr., passed out but revived when they were taken outside.

Janice who was in a separate bedroom with the heat vent closed was unaffected by the fumes.

Fumes were much less noticeable in the upstairs part of the house than downstairs, Mrs. Lindsey said.

The family moved into the new house just three weeks ago. Firemen from the West Bloomfield Fire Department, state police and sheriff's deputies all responded to the emergency.

Mrs. Lindsey said that a furnace repair man came to the house this morning and put the furnace in proper working condition.

"We have \$256,525 raised to date, but we need the balance just as much as we need this fine start. Without the total, we're licked. A luncheon meeting has been called for Thursday noon, at the Elks to discuss ways and means, and I urge every public-spirited citizen of the community who can assist us financially to attend and volunteer."

The big institution was definitely scheduled for Lansing, but the picture was changed when Michigan State University announced plans for opening a medical college of its own. Ingham County isn't big enough to support two.

Viet Premier Urging Chance for New Regime

SAIGON, Viet Nam (AP)—Premier Tran Van Huong called on the Vietnamese people by radio tonight to give his two-day-old government a chance to rule before tearing it to pieces.

Huong urged unity and national discipline to save the nation from communism. He spoke as various religious and political elements appeared to be planning an all-out campaign against his infant civilian regime. Student demonstrations were expected this weekend and the situation was tense.

Huong conferred earlier in the day with U.S. Ambassador Maxwell D. Taylor on the problem. U.S. officials are known to be deeply concerned about the new crisis that appears to be developing.

"I urge all persons of all classes," Huong said, "especially by religious groups, political parties, youths and students and the whole people to help us to restore the authority of the country and to restore discipline in building up the country against communism."

"As for the government, as many people have noticed, it has some weaknesses that displease some people. But these people are persons of good will who must take into consideration that this is a transitional government made up of brave people who will not hesitate to

Back Osteopath Center, Mayor Asks

"I'm puzzled to find that many local people think the osteopathic college is coming to Pontiac for sure," Mayor William H. Taylor Jr. said today.

"That isn't true."

"The facts are that it will locate here if we raise the \$375,000 to buy the land. To date, we have \$256,525 and we simply have to find the remaining \$118,475."

"The proposition is very simple and straightforward. The osteopaths will finance the several-million-dollar institution, if the city provides sewers, water and a site. Our city will definitely come through with the sewers and water. And certainly, asking for a site, in view of their huge expenditures and the annual

payroll, is a very modest request.

"We have \$256,525 raised to date, but we need the balance just as much as we need this fine start. Without the total, we're licked. A luncheon meeting has been called for Thursday noon, at the Elks to discuss ways and means, and I urge every public-spirited citizen of the community who can assist us financially to attend and volunteer."

Nothing New at Fisher Body

100 Per Cent for UF

Salaried employees at Pontiac's Fisher Body plant have contributed 100 per cent to the United Fund drive, with significant increases in contributions.

According to United Fund records this is not a first at Fisher Body.

Henry J. Stack, supervisor of employment and UF company chairman, reported that this year's gifts from salaried employees totaled \$28,344.80.

An increase of 7.2 per cent over last year's contributions.

The amount raised constitutes an average of approximately \$40 per employee and brings the overall campaign progress to \$470,935 or 57.7 per cent of the \$815,500 goal.

"Solicitation of hourly employees has been delayed due to the strike but will commence within the next two weeks," according to Stack.

"We feel confident that all employees will wholeheartedly support the many worthwhile services available through the drive."

Stack pointed out that members of Fisher Body families used these services extensively during the past year.

Scout, YMCA, YWCA and other recreational activities alone totaled \$20 persons, while family and child care agencies served 148 Fisher Body families.

Additional statistics also point to benefits derived from health, planning, research and other community agencies.

EVERYONE GAVE—Salaried employees at the Pontiac Fisher Body plant were awarded this 100 per cent banner this week for full participation in this year's Pontiac Area United Fund campaign. Thomas Withers, division manager (left) and Henry J. Stack, supervisor of employment, beam over the success of the Fisher Body salaried employee program.

GOP: Wait 'til Next Time

Democrats Said New Power in County

The "haven't got a chance" attitude of the Oakland County Democratic vote is a thing of the past, according to a party official.

In winning the majority of state legislative seats and handing losses to two Republican favorites for county offices in Tuesday's election, Democrats showed their strength as never before, said James McNeely, deputy Democratic chairman.

The upset in the two key county offices — prosecutor and clerk — was a major defeat for the Republicans. No records can be found to show that a Democrat has ever held the county clerk's job and the last time a Democrat was elected prosecutor was in 1936.

"The Democratic trend will continue," said McNeely.

Citing a 20,000 increase in Democratic votes over the last presidential election, McNeely said the most significant aspect was "the fact that Democrats got out and voted."

VOTE WILL COUNT

"The Democratic voter knows now his vote will count," he said.

McNeely said Democrats have been in the majority in Oakland County for four or five years but it was only now that they have been heard from.

"I don't think the Republicans lost many votes," he said. "We just got our people to the polls."

GOP COUNTY CHAIRMAN

Charles Lyle, who says Republicans still hold a 55 to 45 percent edge in Oakland, blamed President Johnson's landslide for sweeping so many Democrats into office.

THINKS AHEAD

"But we will run them out next time," he said.

On the county scene, Republicans note that both defeated candidates were relatively new to county politics and that their names had not been before the public as long as the three incumbents who retained their posts.

The successful incumbents are Sheriff Frank Irons, Treasurer Charles A. Sparks and Drain Commissioner Daniel W. Barry.

The defeated Republicans are Clerk David R. Calhoun, former mayor of Huntington Woods, who was appointed to the post in January, and Robert L. Temple, a senior assistant prosecutor.

JANUARY DUTIES

Assuming their duties in January will be prosecutor-elect S. Jerome Bronson, a 34-year-old Madison Heights attorney, and clerk John D. Murphy, a Royal Oak journeyman die maker, who has served in various government posts in Wayne County.

Sander Levin, Democratic County chairman, credited two factors for the rise in party stature: "First, the very substantial development of the organization in Oakland County, and second, the Republican party in Oakland County, as elsewhere, paid a high price for the capture of the national Republican party by extremist elements."

Rocky, Nixon Battle

(Continued From Page One)

landslide victory. They gained one statehouse.

And in the reelection of Michigan's Gov. George Romney despite a Democratic sweep of the state, some professed to see the building of a possible presidential candidate.

NEW FACE

That the party needs a new face was the consensus of many of its leading lights as they picked their way among the ruins.

A notable exception was Goldwater's running mate, Rep. William E. Miller of New York.

In Augusta, Ga., where he was on a golfing vacation, Eisenhower called for a period of contemplation among party leaders to discuss the GOP image—an image which Eisenhower said "has confused so many of our citizens and led them to think of it as a political doctrine defined primarily for the rich and privileged."

Nevertheless, Eisenhower said, the GOP must represent a wide spectrum of political thinking.

DEFINES GOP

He then went on to define the GOP in these terms: "We are a party of peace. We believe that in today's world we can be secure only as we are strong—morally, economically and militarily—using that strength always to support every reasonable effort to settle international friction by negotiation, not by battle."

"Above all, we are dedicated to the security and progress of all Americans."

"These views, I believe, are substantially shared by every official, leader and member of the Republican party. Around these convictions and purposes we can unify our party."

As for Nixon, Eisenhower described his vice president as a man of great ability and great astuteness who would play a great part in unifying the party.

In Harrisburg, Pa., Gov. William W. Scranton, who tried to head off Goldwater for the nomination and was snubbed under, refused to describe Johnson's victory as a repudiation of Goldwater's philosophy.

Discussing the campaign at a news conference, he said that where "traditional Republicans" were used, they "were not repudiated."

And, looking ahead, he said the first big job facing the GOP is erasing the impression "that it is opposed or indifferent to so-called ethnic or minority groups."

Scranton said he favored a meeting of the Republican governors—and so did Romney at a news conference in Lansing, Mich. Romney said he discussed the matter by telephone with Scranton and with Rockefeller.

Taking great pains to be removed from what he called a "liberal moderate" classification, Romney said, "I regret the fact that in the past several months I've been thrown into that group."

ROMNEY PHILOSOPHY

"I'm trying to be as conservative as the U.S. Constitution, as progressive as Theodore Roosevelt and as liberal as Abraham Lincoln."

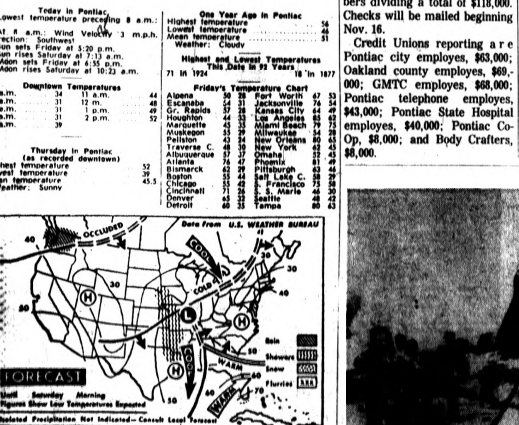

In Lockport, N. Y., Miller, flatly disagreed with those who term Johnson's massive victory a "complete repudiation of the conservative policy. What's more, he said it would not necessarily set off a power struggle within the party."

Miller said it was "natural" that as a result of Johnson's 15-million-plus plurality there would be calls for Dean Burch to quit as Republican national chairman and for conservatives to yield leadership of the party to others.

NEW CLASSROOM - This science room at the new John F. Kennedy Junior High School is among the 25 classrooms to be dedicated Sunday at the school. An open house will permit parents to tour the new Pontiac school at 1700 Baldwin.

Dedication Set for New City Junior High

Dedication of the John F. Kennedy Junior High School is scheduled for 3 p.m. Sunday at the school.

Opened this fall, the new junior high school is located on a 25-acre site at 1700 Baldwin.

Sunday's program will include formal presentation of the school. School Supt. Dana P. Whitmer will present the school to School Board President William H. Anderson.

Charles Sherman, representing Odell, Hewlett, Luckenbach, Birmingham architects, will present a gift to the school.

Greetings from the community will be given by Mrs. Vern Rulligan, PTA president. A choral reading will complete the program.

An open house will follow the program.

670 STUDENTS

Daniel Hutchins is principal of the \$1.2-million school, which houses 670 students in grades 7-9.

The one-story building, which could be expanded in the future to accommodate 1,000 students, has a total of 25 classrooms and a faculty of 30 teachers.

Build at a cost of \$12.50 per square foot, the school features a cafeteria, a combination cafeteria and auditorium, a special education unit and a library.

Aussie Winds Up Broke, Sends Self Home C.O.D.

SYDNEY, Australia (AP) — An Australian athlete had himself shipped home C.O.D. from Britain in a wooden crate because he couldn't afford a passenger ticket for the 11,000-mile flight.

Reginald Spiers, 22, of Adelaide, spent 68 hours in the stalled box without food or water, Sydney newspapers reported. Friends and relatives in Adelaide confirmed the story today.

The accounts said a friend nailed up the box Oct. 17 in London and Spiers landed at Perth Oct. 20 on an Air India flight, then hitchhiked 1,800 miles to Adelaide.

"There was enough space between the planks to give me air and allow me to pee out," he said.

BIG CRATE

An Air India spokesman said an empty wooden crate big enough to hold a man was found today at the air cargo depot in Perth. Sent C.O.D., it was consigned to a nonexistent shoe factory at a nonexistent address.

"My blood runs cold when I think of the terrible risks he ran," the spokesman said. "The cargo could have been offloaded and left in some tropical depot over a weekend. Or he could have been discovered en route and thrown into jail. Or he could have been packed with other freight and suffocated. Or the pressurization in the cargo hold might have failed."

Sidney newspapers said Spiers, a 170-pound javelin thrower, worked his way to London by ship in hopes of winning an Australian Olympic team berth in trials but failed and, because he was broke, seized on the idea of flying home in the crate.

He gave notice to Air India that he wanted to consign a crate of plastic emulsion to a Perth firm. He said he climbed inside the box Oct. 17 and friends drove him to the airport.

SIT UP

The crate, 5 feet long and 3 feet wide, was big enough to allow him to sit up with his legs stretched out and tight enough to prevent him from being tossed about.

At Bombay, he was taken out on a forklift, held aloft, then manhandled into another Boeing 707 and soon was flying again.

"This big one for us," Spiers heard someone say when he landed more than 24 days later at Perth.

Spiers said "The crate was dumped in a shed and after a few hours I decided to break senger ticket for the 11,000-mile flight."

He crawled out dizzy and weak, he said. After resting awhile, he cut his way through a wire mesh door and hitchhiked home to his wife and daughter in time to attend a brother's wedding.

Spiers said the crate with him inside weighed about 500 pounds and the freight charge was about \$950. That is \$280 more than the passenger fare, but passengers can't travel C.O.D.

"As far as I know, no freight payment has been collected on this consignment," said the Air India spokesman.

UAW Strikes 9 Ford Plants

(Continued From Page One)

"They apparently were so close to agreement they decided to put off using their strike authorization."

The UAW said it had authorized a strike at a stamping plant at Bedford, Ohio, but the unit reached local agreement this morning.

Ford has about 160,000 production workers and a total of 90 bargaining units around the country.

In recent weeks the company's 17 assembly plants have been producing about 10,000 cars and 1,800 trucks per day.

TENTATIVE AGREEMENT

Ford and the UAW reached tentative agreement Sept. 18 on a new three-year national labor agreement.

Today's strikes came over local-level contracts which supplement the national pact and generally cover at-the-plant working conditions.

Denise said, "We have worked diligently with the UAW... to settle hundreds of unresolved issues—many of which should not even be on the bargaining table."

"We have brought to the local bargaining tables in the plants that have struck this morning the same reasonable approach that resulted in a national agreement and agreement in the great majority of our local plant negotiations," Denise said.

Barry in Capital Before Vacation

PHOENIX, Ariz. (AP) — Sen. Barry Goldwater flies to Washington today for a brief business stop before going on a vacation, reportedly to Jamaica.

The defeated Republican presidential nominee planned to take care of some business from the Senate job he is leaving.

Goldwater and his wife planned to go to their Washington apartment, where the senator said he will keep although he is going to move back to Phoenix.

Women Painters' Group Sets Annual Exhibition

BIRMINGHAM—The 20th annual exhibition of the Birmingham Society of Women Painters will open Sunday at the Birmingham Art Center.

The display will continue through Dec. 5. The galleries of the center at 1516 S. Canbriok are open from 2 to 5 p.m. daily except Monday.

Albert Mullen, artist and professor of art at the University of Michigan, has assisted the group in selecting the paintings to be displayed and will work with the committee which hangs the exhibition.

Mrs. James Allen, society president, noted that many of the group's original members remain active painters and contribute new pictures each year.

The custom of the society is to exhibit at least one picture of each of the 50 members.

ART CENTER

The group provides classes, criticism and lectures for its members at the Birmingham Art Center.

Among the well-known area artists who have directed classes for the group are Mullen, Francis de Erdely, Sarkis Sarkisian, Emil Weddige, Jerome Kamrowski, Robert Broner and Nicholas Buhals.

Kelley Reply Due Romney

Governor Asks More Data on His Powers

LANSING (AP) — Citing two provisions of the Michigan Constitution, Gov. George Romney has asked Atty. Gen. Frank Kelley for additional information on the governor's power in respect to the Michigan military establishment.

An answer is expected today, Romney said in a news conference.

"Until we get it, we won't know whether any additional action is necessary," he said.

A spokesman for the attorney general's office said, "we expect to communicate with the governor today on those things he obviously needs to know today."

3 RELIEVED

Romney relieved three top-ranking officers from active duty Oct. 8 in the wake of an auditor general's report of administrative irregularities in the military establishment.

Removed from state active duty were Maj. Gen. Ronald McDonald, adjutant general; Brig. Gen. Carson Niefert, quartermaster general; and Lt. Col. Versel Case, aide to Niefert. Niefert has since requested a court martial.

Kelley told Romney Saturday that he had acted illegally, and Romney retorted that he had acted on Kelley's advice.

The constitutional provisions he cited said the governor has the power to remove from office any elected or appointed official upon proof that there had been "gross neglect of duty... corruption in office... any malfeasance or misfeasance..." and that "the military shall in all cases and at all times be in strict subordination to the civil power."

Referring to Kelley's controversy, Romney asked, "Is this a new concept: that the military is a power unto itself?"

Viet Leader Asks Chance for Regime

(Continued From Page One)

At a noisy meeting, the student group that initiated demonstrations which led to the resignation of Premier Nguyen Khanh called for dissolution of the new government.

The students were reportedly displeased with the regime's announced policy of separating politics from the classroom.

The key speaker at the student meeting was to be Nguyen Xuan Chu, who resigned as chairman of the High National Council yesterday because political factions were not represented in the new cabinet. He said it therefore could not be representative.

LEADING MEMBER

Father Kiern, a leading member of Father Hoang Quyen Roman Catholic church, said Catholics and Buddhists were determined to unite against the new government.

He said both faiths were dissatisfied because Premier Tran Van Huong had not formed religious leaders before forming his new government.

He also said that two other influential sects, the Hoa Hao and the Cao Dai, were also opposed to the government.

Main Concern Over NATO N-Fleet Proposal

French Fear Mandate Will Go to LBJ's Head

PARIS (AP) — French officials fear that President Johnson, now that he has an overwhelming election mandate, may try to impose the U.S. will on major questions of allied policy opposed by France.

Chief of these is the proposed NATO fleet of surface vessels armed with Polaris missiles and manned by crews from all North Atlantic Treaty Organization nations that agree to participate.

France is opposed to this project, and no other members of NATO are enthusiastic except the United States and West Germany. French officials give several reasons for opposition, ranging from the contention that the fleet's military value is questionable to the assertion that it isn't necessary for European defense.

The basic reasons seem to be: It would put a German foot in

the door of the nuclear club, and nullify President Charles de Gaulle's dream of a "European Europe." In the Polaris force, the decision to use nuclear weapons would remain with the United States.

GERMAN-U.S. TREATY

Premier Georges Pompidou told the French Parliamentary Assembly Thursday that there have been thoughts that this multilateral force might boil down to a German-American treaty.

"If it should lead to a German-American alliance of high order, this would not at all represent a European policy."

"We can wonder if such a project, a multilateral force, is not a destructive agent for Europe, a provocative agent for certain other countries and finally directed more or less against France."

The multilateral force could become a breaking point in friendly relations between France and the United States, widening the rift between France and Germany and bringing about a

French rupture with the North Atlantic Treaty Organization. The Gaullist party organ, *Le Nation*, said Thursday: "One wonders if the United States will take the risk of permitting a serious crisis to arise in Europe

among its allies when there is no profound reason for a crisis developing." "As one French official put it: 'The North Atlantic Treaty Organization was born of crisis. We do not think that crisis now

exists, and we are opposed to the present structure of NATO.' Another French official said: 'We appreciate everything America has done for us. But we are grown up now and we want to stand on our own feet.'

Long, Pastore Head Dem Whip Aspirants

WASHINGTON (UPI) — Sens. John O. Pastore, D-R.I., and Russell B. Long, D-La., loomed most prominently today in speculation to fill the post of Senate Democratic whip being vacated by Vice President-Elect Hubert H. Humphrey.

The odds appeared to favor Pastore, although few senators wanted to declare themselves openly. Long has made no secret of wanting the assistant leader's post. And others also have been mentioned.

Sen. George A. Smathers, D-Fla., one of those who figured in early speculation, took himself firmly out of the picture. Smathers said he definitely was not interested and was not a candidate.

The Florida Democrat, a personal friend of both President Johnson and the late President John F. Kennedy, currently is part of the Conference of Democratic Senators, which automatically makes him part of the party's Senate leadership.

Senate Democratic leader Mike Mansfield, Mont., who won reelection to a third term Tuesday, is regarded as certain to continue as the party's floor leader.

UP TO THEM "But that's up to the Democratic senators," Mansfield noted.

All officers for each party must be elected by party conference before the opening of the new Congress on Jan. 4.

Humphrey, elected to the whip post when Mansfield moved up to vice president in 1961, is expected to resign his Senate seat shortly before the new Congress convenes.

This would allow his appointed successor to gain a slight break in seniority over three other new senators who cannot take office until Jan. 4.

PEPPERY SENATOR The peppery Pastore, who keynoted the Democratic convention in Atlantic City, won a smashing reelection victory Tuesday. The 57-year-old Italian-American, son of an immigrant tailor, is one of the Senate's most vigorous workers and a fiery orator.

Although generally classed as a liberal, Pastore is regarded as acceptable to all elements in the broad-ranging Democratic coalition. He first came to the Senate in 1950.

Both he and Long definitely are known to be interested in the party's No. 2 leadership

post. Other names, however, still are being mentioned as possibilities.

These included Sens. A. S. Mike Monroney, D-Okla., Albert Gore, D-Tenn., and Daniel K. Inouye, D-Hawaii. Inouye, however, has only two years of Senate experience and his election with Mansfield would give both leadership posts to Far Western states.

SENATE VETERAN Long, son of the late Huey P. (Kingfish) Long, is a veteran of 16 years Senate service at the age of 46. He is the second-ranking member of the powerful Senate Finance Committee and effectively served as floor manager for the administration's tax cut bill in the last Congress.

He also ranks second among Democrats on the Senate Small Business Committee and fifth on the Foreign Relations Committee.

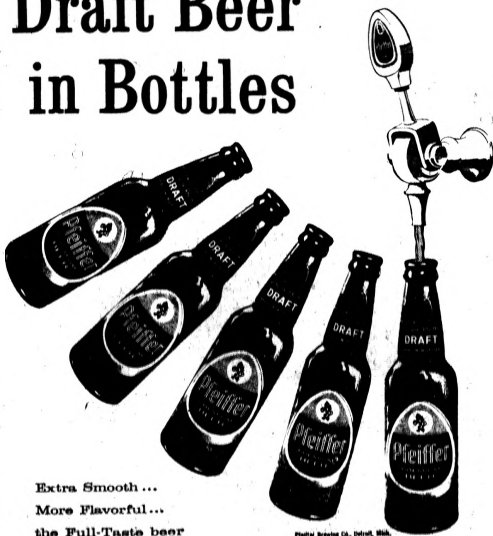

But working against Long is his long-time opposition to civil rights legislation and Louisiana's failure to go Democratic in President Johnson's national landslide.

On most other legislation, however, he is classed as an "economic liberal," especially on Social Security and veterans affairs.

Senate Democrats are certain to renominate 87-year-old Sen. Carl Hayden, D-Ariz., dean of the Senate, to continue as president pro tempore.

Postage stamps

Honor John F. Kennedy

NEW YORK, Nov. 6 (EN)—A very unusual series of large diamond shaped postage stamps honoring John F. Kennedy was issued recently by the Kingdom of Yemen... half the stamp bears a striking portrait of JFK with appropriate inscription—the top section depicts American space craft in flight... This very unusual set of three stamps sold out day of issue and are now quite scarce.

Because of the intense interest in JFK memorial stamps issued by foreign nations, Elmont has prepared a collection containing recently issued John F. Kennedy stamps from Colombia, Argentina, Chile, and Togo, plus the popular Yemen set mentioned above.

Interested collectors may obtain this extraordinary collection of 9 different stamps memorializing John F. Kennedy by sending \$1.00 to Elmont Stamp Co., Queens Village 29, N.Y. Approvals and other offers included.

Maryland Neighbors Find Hubert Still the Same

WASHINGTON (AP) — Sen. Hubert H. Humphrey has told his neighbors he'll still play basketball with the kids and doesn't want to move away from Coquelin Terrace now that he's been elected vice president.

Grimacing, hoisting a youngster aloft, shaking bottles, he came home to a warm, sign-waving welcome Thursday night after two days of victory celebrations with President Johnson in Texas.

"For he's a jolly good fellow," the kids sang a little weakly, as the Humphreys drove up in a big, shiny black limousine.

Beforehand, police, acting on Secret Service orders, had herded the crowd of about 100 friendly neighbors — kids, grownups and even the dogs — behind a rope and told reporters and cameramen to stand across the street from the Humphrey house.

RESTORED INFORMALITY

But Humphrey quickly restored the informality of his

suburban Chevy Chase, Md., block, stepping out to acknowledge the greetings of long-time friends and telling the kids with hand-lettered placards, "golly, those are good-looking signs."

Roses are red, violets are blue, don't move away cause we all love you," said a big sign held by 12-year-old Lynda Scates, who heard that people were suggesting the new vice president needed more sumptuous housing.

Humphrey looked at his modest four-bedroom green and white house and said, "We love this home very much. We love the neighbors. We've been as comfortable, secure and happy here as we could be any place."

Then, with a fond smile, he admitted it was "patched and fixed up a bit — but we love it." Besides, he said nostalgically, "I've lived here longer than in any house in my life — 16 years this December."

Telephone men have been busy installing three White House telephones — in the den, family room and master bedroom.

Bruce Solomonson, Humphrey son-in-law, picked one up and was surprised when a White House operator answered promptly.

"I just wanted to see what would happen," he told her sheepishly.

"Well, now you know," she said.

TOOK UP VIGIL. Outside, Secret Service men took up vigil over the neighborhood.

But, everybody seemed to love the excitement. And they found the Humphreys were still the same Humphreys.

"We've lost a basketball player, but gained a vice president," said a sign held by Steven McGovern, 12, son of next-door

neighbor, Sen. George McGovern, D-S.D.

"Not on your life," was Humphrey's assurance to his young player friend. He said he'd be back on their driveway court.

Cuba Running Out of Liquor Bottles

MIAMI, Fla. (AP) — Havana Radio says members of Castro Cuba's revolutionary defense committees have a new job—collecting wine and whisky bottles to meet the Christmas demand.

The defense committees, with a member in each block of householders, distribute food and clothing ration cards and report counterrevolutionary activity to the authorities.

A broadcast Thursday, monitored in Miami, said the government asked that 3.5 million wine and liquor bottles be turned in for refills.

N-Blast Burns Out Huge Cave in Test of Ways to Get at Oil, Minerals

LAS VEGAS, Nev. (AP) — A nuclear blast has burned out a huge cave 1,320 feet underground in a test of new ways to get at oil and mineral deposits. The cave is big enough to hold a 20-story building.

It kicked up by the job, was seen over the Nevada test site yesterday, but Atomic Energy Commission scientists said no radioactive material escaped.

The scientists expected the blast, equivalent to 10,000 tons of TNT, to create a cavity

up to 220 feet in diameter but said it would be several days before exploratory holes are drilled into this bubble.

This was the first time a nuclear blast has been set off in carbonate rock, a type which frequently contains mineral de-

posits and reservoirs of oil and gas. Earlier underground blasts were in softer material such as granite and tuff.

MAIN OBJECT

An AEC spokesman said the main object of yesterday's detonation was to test the potential

of nuclear energy for breaking up huge masses of mineral-bearing rock at extreme depths and for creating cracks through which oil and gas can be recovered.

Mining and oil companies cur-

rently use conventional explosives to get at underground deposits, but atomic energy is expected eventually to do the job more economically.

Yesterday's blast, called "Project Handcar," was part of the AEC's program to find

peaceful uses for nuclear energy.

Negro voting registration in the South increased by 527,834 electors between 1960 and last March, Southern Regional Council Voter Education project officials report.

Under the Railroad Unemployment Insurance Act, an average of more than 30,000 jobs a year has been found for claimants over the past 10 years.

Socialist Face Masks State Control Design

Unless Americans act promptly and forcefully, another basic freedom—the right to decide their own business careers for themselves will be slowly eroded under the euphemistically-labeled "War on Poverty" program. Such is the tenor of a recent article in *Reader's Digest* by GOP Rep. FRANK P. BOW of Ohio, a ranking member of the House Appropriations Committee.

Inherent in this latest socialistic measure of the Federal administration is the pervasive arm of the U. S. Employment Service (USES), a division of the Labor Department's ubiquitous Bureau of Employment Security (BES).

But USES, instead of confining itself to the training and placement of the nation's five million unemployed, is resorting to every related political and social pressure to extend its dominion over ALL the country's workers.

USES was originally established as a World War I labor-mobilization agency with a lowly \$1 million annual budget, until in 1933 the Wagner-Peyser Act beefed it up to encompass the nation's 13 million unemployed, aimed at job procurement.

Today, the bureau's budget, which has doubled in five years, is \$200 million. But even more alarming than this fiscal mushrooming is the fact that USES is now concentrating less on finding jobs for the unemployed than on spreading into areas of employment where it is neither needed nor wanted.

If this is permitted to continue, it can only result in absolute control of American manpower: its requisition and allocation. Then the surrender of our free enterprise system will be complete.

The way for this total control has already been prepared in enabling legislation now before Congress. The measure would empower the Secretary of Labor to hand-pick a special committee to draft new laws that would make all job-placement activities "exclusively a public service." In short, a Federal closed shop would be clamped on the whole nation.

Revelatory of the philosophy with which this Federal branch of government is impregnated are expressions of its functionaries in Congressional hearings last summer when the legislation was under consideration.

For two examples, one contended that all employers should be made to register all job openings with the government, and placement made by the USES. He held up Sweden's Socialist manpower monopoly as the shining example America should emulate.

Another, the director of the Colorado State Employment Service openly boasted: "In five years, if we are not hampered by new restrictions, and if we can get adequate funds from Congress, we'll be handling 90 per cent of the (job-placement) business. We are not living in a free-enterprise system, but rather operating under a controlled economy."

What can you do to protect yourself against this latest of a long series of abridgments of American freedom? Plenty. You can write your Congressmen and Senators to:

- Vote down funds that fuel USES expansion.
- Demand that Congress force the Bureau of Employment Security (USES) to live within its budget. No

fewer than five times since 1954, BES has gone back to Congress for supplementary appropriations totaling \$133.3 million.

• Request state legislators to pass laws limiting state employment offices, through which BES functions, exclusively to finding jobs for unemployed people.

In 1790, with prophetic foresight, John Philpot Current warned: "Eternal vigilance is the price of liberty." Americans never had more cause to be vigilant than right now.

Kids' Bath Allergy Barely Holds Water

Countless generations of kids have known it intuitively, but at last there is scientific proof:

Some people are allergic to contact with water.

Two physicians in Philadelphia, writing in the *Journal of the American Medical Association*, told of studies of three patients who developed hives after contact with water or sweat.

That's the rub—er—rash, kids. Unless you can break out in one, may as well face the fact that you and that bathtub are going to have lots of encounters.

World Watches Chou at Kremlin

By WILLIAM RYAN
AP Special Correspondent

The journey to Moscow this weekend by Red China's Premier Chou En-lai and his delegation may spell little but trouble for the post-Khrushchev regime.

Ostensibly, Premier Chou's trip is for the purpose of exploring ways and means to restore world Communist unity. Under present conditions, that seems an opportune time for Red China to use subtle diplomacy. Axioms-sounding pronouncements under the new Soviet leadership hint that the turmoil in high places in Moscow is not ended.

The new regime, with Leonid I. Brezhnev commanding the party and Alexei N. Kosygin the government, still has a rather fragile, transitional look, and it is beset by innumerable contradictory problems.

The Bolshevik Revolution anniversary provides an opportunity for an international meeting of Red leaders to survey the ailments of the world Communist movement against the background of Nikita Khrushchev's dethronement.

Now that there is a new Soviet regime, Peking can claim it is willing to listen, to be reasonable. This display of reasonableness could serve later on as a new club for beating Russians over the head, if Moscow should finally reject China's price for muzzling the dispute.

The Russians have their own demands. They likely would require the Chinese to stop trying to crowd them out of Asia and to ease up their drive for total domination of the revolutionary movement in underdeveloped areas.

The Chinese price would require much from the Russians, including abandonment of what Peking calls revisionist theory, willingness to support all violent revolution regardless of risk, greater and more significant aid to China at the expense of nations like India, and a harder Soviet policy toward the United States.

The Soviet party is having a painful time. It has failed to convince European Communists why Khrushchev had to be ousted if policy was not to be changed, why it was necessary to inject still more confusion into an already confused Communist movement.

WATCHING WORLD
So, while the weekend Moscow meeting is important to a watching world, it seems unlikely to produce more than platitudes about an effort to heal the split of the two Red giants. The noise may be stilled for a while, but the split looks permanent and now may become even deeper.

If Other Aggressors Would Fight Like That

David Lawrence Says:

Landslide Often Has Short Effect

WASHINGTON—How long do landslide political victories last?

History tells us that they have often been wiped out in less than two years.

The headlines of the last couple of days have proclaimed that President Johnson has won in LAWRENCE the biggest landslide since 1936.

But it so happens that two years later—in 1938—Franklin D. Roosevelt suffered a setback in the congressional elections. Republican strength in the House almost doubled, rising from 89 to 164, and the number of Republicans in the Senate increased by seven.

But this wasn't the only instance. In the 1920 election, Warren Harding, Republican, swamped James M. Cox, Democrat, and received the biggest popular majority which had been registered up to that time by any president. He got 60.4 per cent of the total vote.

But two years later, in 1922, the Republicans lost 76 seats in the House of Representatives and eight seats in the Senate, retaining only a narrow majority.

Herbert Hoover won by a landslide in 1928—with 56 per cent of the popular vote and all but 87 of the electoral votes. Yet in 1930 the Republicans lost the House of Representatives and barely held the Senate.

DEFEATED IN 1932
Hoover was defeated for reelection in 1932, when he got less than 40 per cent of the popular vote and only 59 electoral votes.

Roosevelt won in 1936 by the biggest landslide of electoral votes any candidate has ever received, exceeding even that which President Johnson got this week.

The Democratic majority in both the House and Senate was the largest ever attained by either party, but it balked at FDR's plan in 1937 to "pack" the Supreme Court.

Gen. Eisenhower won by a landslide of electoral votes in both 1952 and 1956. But after his first two years, his party did not have a majority in Congress during the remaining six years he was in office.

BUSINESS RECESSION
Why, it may be asked, does a president win by a landslide vote and yet fail to carry Congress, or suffer considerable losses in both houses two years after a landslide victory?

Smiles
Don't let your conscience be your guide if you need somebody else to guide your conscience.
Soon will be the season for home-made pumpkin pies. Cheese it!

Often a business recession is primarily responsible. This was the case in 1922, 1930, 1938 and 1958.

If the Republican party remains a party of opposition instead of acquiescence, it may repeat the experience of the past when the party out of power has made substantial gains in Congress in the election held two years after a landslide victory by the other party in a presidential election.

Quarrels inside the Republican party will be confusing for a while, and will interfere with attempts to unify. But, in the long run, sensible politicians will appraise public opinion.

If they find it is opposed to the administration, they will join in the protest instead of adopting what has been called the "me-too" policy—namely, acceptance of the doctrines of the dominant party.

Junket Season Is Here for U.S. Congressmen

By EDMOND LEBRETON
WASHINGTON (AP)—Faraway places—the glitter of Paris, the sunny shores of Hawaii and Jamaica, the exotic lands of the East—are beckoning and many members of Congress are answering the call.

They will soon be off on official trips.

Stay-at-home taxpayers will pick up the tabs for these journeys which critics of Congress call junkets.

But defenders of legislative customers say it is proper for those who have to decide on such things as foreign aid, international agreements, the building of bases abroad and the like, to see firsthand what is being done with the taxpayers' money.

As one committee aide put it when he said his group has no travel plans, "I'm not proud of it. I think we should have."

SUITCASES PACKED

At any rate, Congress is in recess, the big election campaign is over, and many suitcases are being packed.

The list of congressional trips already planned includes:

• Attendance by a large group at the NATO parliamentary meetings next week in Paris, a regularly scheduled event.

• Inspection by members of the House Science and Astronautics Committee of a number of installations in the Far East and the Pacific, especially along the satellite tracking line.

• A study of housing and urban problems in Hawaii by members of the House subcommittee on housing.

• Attendance by members of the House Judiciary Committee at the semiannual meeting of the Intergovernmental Committee on European Migration, in Geneva.

• A trip by House Agriculture members to the Near East and

Africa to study the program for using farm surpluses abroad.

• Individual inspection trips by three members of the House Armed Services Committee to the Far East and Europe.

INSPECTION TRIPS

• About three inspection trips, not yet finally arranged, by members of the House Appropriations Committee.

• Attendance by a Senate delegation at the Commonwealth Parliamentary Association meeting in Jamaica.

It was reported that several members of the Senate Appropriations Committee are arranging an overseas trip, but no definite plans have been announced.

President Johnson said that he had received an encouraging message from the new Soviet Russian Premier, Alexsei N. Kosygin, apparently sent orally through the U. S. Ambassador in Moscow. Our President told a group of Latin American diplomats the message "shows that the leaders of the world are not trying to figure out ways to destroy you. They are trying to evolve means to save humanity."

Oh, how we wish we could be so sure of the Russian intentions! Free people may only pray that our President isn't naively forgetting that President Kennedy complained the Russian ambassador had lied to his face about the Soviet nuclear buildup in Cuba, or that Japanese diplomats were sitting deceitfully in the White House while their bombers were over Pearl Harbor.

Even should this new Russian leadership publicly repudiate the Khrushchev boast that communism will bury us, we

Sewer Problem Discussed by Residents

We have a sewer problem in the north end of town. At night the odor is so bad we can hardly breathe.

Mr. Hudson says if we get the proposed city income tax they will have the money for a new sewer system. This one is old and not able to handle this area. Then, the city will give us a special assessment tax so we can pay for it again.

I think the city should consider the health of its citizens first.

DISGUSTED VOTER

I am concerned about the terrible odor coming from Terry and Osmon lakes, caused by the sewer system on this end of the city. It appears to be a health hazard.

In this block one child had polio in 1953 and another had leukemia in 1963. I wonder if the sewer-lake situation had anything to do with this. The percentage runs extremely high as there are only five houses in our block.

against bombers they feared they were being readied for a strike against North Viet Nam; retaliation for American reprisals following Communist raids in the Gulf of Tonkin last August; display of Communist strength and South Vietnamese weakness at the very moment a new civilian government was taking over in Saigon. Washington also seems to seek comfort in the thought that matters might have been worse if the Communists had attacked another, still bigger American air base in the area.

But none of this meets the immediate question: why and how were we caught by such an attack and who is responsible?

The Communists are reported to have come within 800 yards of our men and planes before firing their mortars. If we can't secure our soldiers and bombers for a distance of 800 yards a South Viet Nam, then they have no business being there. Whoever put them there obviously was confident he could secure them over a much greater distance than that.

Then who fell asleep and what happened? The question needs answering.

We are offered a variety of possible motives for their attack: a "preventive" stroke

Vermont Dems Pinching Themselves

MONTPELIER, Vt. (AP)—Most Vermonters were surprised everyone in traditionally Republican Vermont when Democrats won the entire

state of state offices in Tuesday's election. But no one seemed more startled than the candidates themselves.

"I was interested in the job," said Atty. Gen.-elect John F. Conroy today. "But I didn't think I had a chance, so rather than wage a half-hearted campaign, I waged no campaign at all."

President Johnson, Gov. Phillip H. Hoff and Lt. Gov.-elect John J. Daley piled up big winning majorities as most prediction predictions said they would.

But it was a different story for the jobs on the lower part of the ticket, which had been exclusive Republican property for as long as anyone could remember.

"I was simply startled beyond belief," Conroy said. "You know, I just got on that ballot to fill the ticket."

PUZZLED BY WIN

Peter J. Hincks, 51-year-old banker from Middlebury, expressed puzzlement over his victory in the race for state treasurer.

He beat George H. Amidon, one of Vermont's best-known Republicans and a 15-year veteran in the post.

"George Amidon has done a good job as treasurer and he's a fine guy," Hincks said. "I told him I was awfully surprised about being elected and said I hadn't been expecting to be taking his job away."

Hincks said he "campaigns hard at all."

COASTAL RIDING

Harry Cooley, 71-year-old retired teacher and farmer, is Vermont's next secretary of state, replacing Republican Howard E. Armstrong, who was seeking his eighth 2-year term.

"I didn't think the landslide would reach down this far," Cooley said. "We shouldn't call it coastal riding, but that's about what it amounts to."

Jay Gordon, 34, an accountant, knocked off Republican David V. Anderson, who has been auditor for 23 years.

Gordon called the Democratic sweep a "mandate for progress" and said he was "tremendously pleased that everyone did so well."

STRAIGHT TICKET

The sweep indicated a tremendous amount of straight-ticket voting for statewide offices, which were all on a single ballot.

But despite the sweep, Republicans Winston L. Proby and Robert T. Stafford were returned to the U.S. Senate and House, respectively, with comfortable margins. Their offices were printed on separate ballots.

Armstrong, ousted as secretary of state, said the lack of enthusiasm for Sen. Barry Goldwater probably contributed substantially to the defeat of the Republicans on the lower part of the ticket.

Deputy Secretary of State

Helen Burbank, shocked about the upsets, burst into tears when visitors began discussing them.

Hoff's aide, Benjamin M. Collins, conceded the Democrats had a tough time finding candidates to fill out the slate.

"Some of those we approached were reluctant to run because they did not foresee they would be carried into office," Collins said.

Mother, 3 Children Found Dead in Car

CLIFTON, N.J. (AP)—A mother and her three pajama-clad children were found dead in their garage today in a car with a hose running from the exhaust pipe into the interior.

The dead were Lucia Sirmelin, 41, who was dressed in street clothes, and her children, Paul 11; Carl, 4, and Joan, 23 months.

Police Chief Joseph Ne called the deaths an apparent suicide and triple homicide and said there was no sign of a struggle inside the car. No note was found, Ne said.

'64 U.S. Road Toll Races for Record

CHICAGO (AP) — The nation's traffic deaths in the first nine months this year hit an all-time record, and the toll appeared racing to a record high in 1964.

The National Safety Council said today there were 34,370 deaths on highways from Jan. 1 to Oct. 1. The total was an increase of 10 per cent over the 31,310 killed in traffic accidents in the corresponding three quarters of last year.

The council said the nation's traffic fatalities, which for 20 consecutive months have exceeded those of the same month

of a year earlier, apparently will reach a toll of about 48,000 this year. That would be an all-time high after the previous record of 43,600 deaths last year.

Highway deaths for the 12-month period up to Oct. 1 totaled 46,860, an increase of 10 per cent over the 42,655 in the preceding 10 months.

4,070 KILLED

Traffic fatalities in September totaled 4,070, a record for the month. The council said the increase of 2 per cent over the 3,990 deaths in September last year reflected a curb on the

rising accident death record, adding the August toll of 4,870 was 13 per cent up from 4,310 in August 1963.

The death rate, which has been accounted for partly by a sharply increasing rate of automobile and truck use, has been zooming even faster than the number of miles traveled by motorists until September.

It was 6.1 deaths per 100 million miles traveled in September this year compared with 6.3 in September a year ago.

But for the nine months, this year's death rate per 100 million

miles was 5.5 compared with 5.4 for the same period of 1963.

Statisticians noted that about half of the increase in traffic deaths had resulted from collisions between vehicles. This was an indication, they said, that congestion had a bearing on the rise.

Other factors included a swelling number of young drivers, product of the postwar baby boom, and, apparently, an increasing number of high-performance compact cars in use.

The Safety Council estimated that during the first nine months this year about 1.2 million persons had suffered inju-

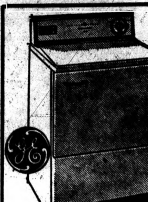

ries in traffic accidents which incapacitated them beyond the day of the accident.

Rebels Lose Town on Congolese Road

ELISABATHVILLE, the Congo (AP)—The Congolese Army reported today it had recaptured Kindu, last rebel stronghold on the road to the rebel capital of Stanleyville.

A brief message from the advancing motorized brigade

said the European population was unharmed. The message indicated little or no resistance was met when Kindu fell Thursday night.

The town, 250 miles south of Stanleyville, had been in insurgent hands for several months.

DAMASCUS, Syria (AP)—After battling for more than two years for control of Yemen, the republicans and the royalists have agreed to cease firing Sunday and to open talks Nov. 23 on their Red Sea country's future.

Mecca Radio said the agreement was reached during a secret meeting of the warring factions at Erkowit, in the Sudan.

Saudi Arabia backed the royalists while the United Arab Republic sent almost 40,000 troops to Yemen to support the regime of President Abdullah al-Sallal.

LONDON (AP)—British Foreign Secretary Patrick Gordon Walker and Italian Foreign Minister Giuseppe Saragat agree that members of the North Atlantic Treaty Organization should strive "for the closest possible nuclear interdependence."

The two leaders also said in a communique Thursday night after a one-day conference that the strength of the alliance should be preserved.

The statement appeared to be the first official expression of British nuclear policy under the new Labor government, which in its campaign promised to end Britain's independent nuclear role.

Preliminary Briefing for 4 Dem Winners

Senate Newcomers in D.C. Trying to Get Adjusted

WASHINGTON (AP) — Like any new kid in the neighborhood, new senators have to find out the essentials.

But instead of where's the school, the candy store and who's the toughest guy on the block, they need to know: What committee posts are open, how much staff is allowed, where is my office?

Four of the five newly elected Democratic senators — Ross Bass of Tennessee, Fred R. Harris of Oklahoma, Robert F. Kennedy of New York and Joseph M. Montoya of New Mexico — were on Capitol Hill Thursday getting preliminary briefings.

The two new Republicans — Paul J. Fannin of Arizona and George Murphy of California — have not checked in for a look around. Nor has Democrat Joseph D. Tydings of Maryland.

INFORMAL MEETING

After an informal meeting with the four who visited the Capitol, Senate Democratic Leader Mike Mansfield said the

Democratic newcomers in the "class of '65" are a "distinguished addition to the party."

"We're here to get instructed," grinned Bass, adding each received some "sage advice" from Mansfield.

They also got a word of greeting from President Johnson and Vice President-elect Hubert H. Humphrey by telephone from the President's ranch in Texas.

"They talked so long, I was beginning to worry about the bill," quipped Mansfield.

'I MEANT IT'

Harris said Johnson told him, "When I told the people of Oklahoma to send me Fred Harris, I meant it."

The 33-year-old attorney who beat former football coach Bud Wilkinson also said the President claimed he was worried about the Oklahoma returns until he found out the rural vote was not in.

Bass wanted to know of Humphrey. "What are you doing to that Tennessee walking horse?"

Pictures of Humphrey riding on the Johnson ranch show him apparently less than at home in the saddle.

Felton Johnson, secretary of the Senate, and his staff advise the new senators about things they'll need to know such as staff, quarters, printing and so forth.

How much money a senator

gets to run his office depends upon the size of his state basically, but it is up to him to decide on the size of his staff.

The Senate Rules Committee makes the office assignments, and the party leader committee assignments. Mansfield promised each new Democratic member "at least one major committee."

Senators also get free haircuts and there's a gym available. A dispensary is handy for aspirin, too.

Says Idaho Gov. Smylie

'GOP on Wrong Side of All Big Issues'

BOISE, Idaho (AP) — The chairman of the Republican Governors Association said today his party was "on the wrong side of every major issue" in this year's presidential campaign and must change leadership.

Otherwise, said Gov. Robert E. Smylie of Idaho, the GOP will court more defeats in 1968 and another disaster in 1968.

He said that in view of Tuesday's landslide defeat on the national ticket he believes even Sen. Barry Goldwater will recognize the need to broaden the appeal of the party. Smylie suggested Thursday that Gov. John Anderson of Kansas, who describes himself

as a middle of the road Republican, be named national party chairman to replace Dean Burch.

NO COMMENT

Anderson had no comment on that.

Smylie said Goldwater was considered an advocate of right to work legislation, which apparently alienated working people, and that he was considered by many voters as opposed to Social Security.

It was apparent, said Smylie, that the party lost its former support among Negro voters because of the national ticket's stand against the civil rights law.

"In 1968 we have to worry about governorships in New York, Pennsylvania, Ohio, Iowa, Nebraska, North Dakota, South Dakota, Colorado, Wyoming, Idaho, California and Oregon, among others," said Smylie.

TERRIBLY IMPORTANT

"These are states that are terribly important in terms of national electoral majorities," he said. "If we don't win there in 1968, we are in trouble in 1968."

"This is the arithmetic of the electoral college, and its very compelling arithmetic. If we don't somehow broaden the appeal of the party we are starting disaster in the face."

"We can't always be on the minority side of every question," said Smylie. "Sooner or later we have to begin to accumulate the majorities that are required to win."

2 Area Women Attend Meeting of Dental Aides

Among the Michigan delegates at the 40th Annual Session of the American Dental Assistants Association (MDAA) which opened today in San Francisco are two area women.

Margaret Miller, 615 S. Troy, Royal Oak, president elect of the MDAA and Lucille F. Horton, 1020 Ironquills, Waterford Township, MDAA secretary, will attend along with six others from the state.

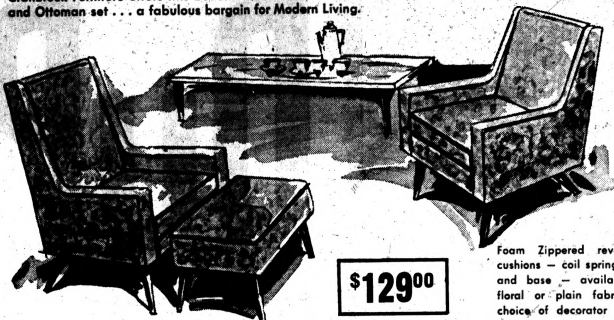

Some 1,000 delegates from all 50 states, Canada and Puerto Rico are expected to attend.

Pony Grazes —on Her Rug

HUTCHINSON, Kan. (AP) — Mrs. Everett Crank returned from taking her daughter Teresa to school and found a horse grazing on her living room rug. While she was gone a neighbor child came to play with her daughter, found no one at home and left a door open. Teresa's Shetland pony wandered in and began chewing on the rug.

The new tenants put up their sign a little hastily, giving the suggestion that the firm of Goldwater-Miller has gone into a new business, perhaps selling old campaign material, such as bumper stickers and sweat shirts.

Star-spangled gift idea

You can put \$50 into someone's future with U. S. Savings Bonds—and the cost is only \$37.50. You can also be pretty sure your gift will be used for something pretty important. Because most people hang onto their Savings Bonds until something important comes up. Like college tuition, a new baby, and retirement day. Something else. You give more than money with U. S. Savings Bonds. In a small—but vital—way you give freedom, too. Because Bond dollars do a lot to help Uncle Sam stand tall in this troubled world of ours.

Prices start at just \$18.75 for the \$25 size. Why not give Bonds

to all the special people on your list this year? Yourself included.

Quick facts about Series E Savings Bonds

- You get back \$4 for every \$3 at maturity (7½ years)
- You pay no state or local income tax and can defer payment of federal tax until the Bonds are cashed
- Your Bonds are replaced free if lost, destroyed or stolen
- You can get your money when you need it

Dance Will End Active Hills Week

By KAREN TRIMMER

Tomorrow night will conclude the seventh annual homecoming week in Bloomfield Hills High School.

With the ending of the dance Saturday night, the returning alumni will return to their various colleges, and BHHS students will again become absorbed in their school plans.

But right now, everyone is actively participating in the homecoming activities.

To begin this homecoming, The Shield, the school newspaper, sponsored a pancake supper last night. Following this, the annual bonfire was held and Holly was burned in effigy.

Main event of the week is being held today when the Baron football team meets the Holly Broncos after school. At this time the class floats are judged and the 1964-65 homecoming queen is to be announced.

FLOAT TRADITION

Class floats are a tradition at BHHS. Every year, all three classes construct a float with their hopes pinned on victory.

The sophomores this year decided upon a theme of "Wahle Em." Juniors were represented by a cannon and the subtitle of "Blast Em," and seniors chose a dog, declaring "Lick Em."

The football team, as usual, chose the homecoming court which consists of five seniors, one junior, and one sophomore.

This year's court includes seniors Joan Carter, Marilyn Jamieson, Barbara Calhoun, Deborah Martin, and Barbara Deeb; junior princess Carl Christensen; and sophomore princess Diane Jones.

CHOOSING CONTEST
Also a tradition at BHHS is the interclass contest in cheering. Every year the three classes vie for the trophy which honors the class which has demonstrated the most spirit and pep throughout the year.

This year the contest was held in the pep assembly today right after pep skits by both the "B" club and pep club.

To conclude the week, the Saturday dance is held. The Fugitives will entertain this year with their music for both the alumnae and the students.

Form Groups at Walled Lake

Eleven are Chosen
for Musical Ability

By VIVI METTALA

Alexander Zerbán, Walled Lake High School's vocal music instructor, recently organized an extracurricular activity called simply, "The Group."

Its membership is limited to 11 students chosen on the basis of musical ability and interested in singing for enjoyment.

"The Group" includes Cynthia Wieland, Pamela Jeffery, Nancy Shull, Sue Schultz, Brenda Steiner, Dianne Smith, Linda Bliss, Barry Wagner, Don Mussen, Carl Grapentine and Kenneth Spence.

Another new organization is the business club. Formed by business students the club acquaints 16 members with job responsibilities as well as those schools which offer good business courses.

Mrs. Mary K. Townsend of the business department sponsors the club. Officers are president: Sandstedt, president; Pamela McFarland, vice president; and Marilyn Fellows, secretary.

FIRST ISSUE

Twenty-seven students of Walled Lake's journalism class published their first issue of "The Leaf," the school newspaper, in time for homecoming last Friday.

Fred Ferguson is the winner of the homecoming game's "Most Violent Viking" award.

Required Mass Attendance Reduced to Once a Week

By HERVEY LAVOIE

Once again the hallowed halls of learning at St. Michael High School have seen a change in honored tradition.

It was announced by the Rev. James Hayes that high school pupils would be required to attend Mass only once a week.

Juniors and seniors will go to Mass every Friday; sophomores will attend on Wednesday, and freshmen on Monday.

Classes have the option of hearing Mass or taking a study period on days other than these.

Father Hayes emphasized that the purpose of the new schedules is to foster a greater appreciation of the liturgy of the Mass and to remove all perfunctory pretenses of student participation in the Mass.

USE OF ENGLISH

In addition, the smaller congregations will facilitate the task of adapting students to the use of English in the Mass.

Sister Mary Callista is taking orders for the annual Michellie yearbook which is distributed in June.

The yearbook, which contains 32 pages of pictorial highlights of the school year, is compiled by the Michellie staff and financed by private subscriptions.

Seniors treasure the yearbook as a vivid memorial to the four wonderful years they spent in high school.

angles in their study of marriage. Supplementing the course this week in a series of lectures by Loren O'Dea dealing with the psychological aspects of marriage.

O'Dea can speak with the voice of experience as he is a marriage counselor at the Michigan State Hospital.

A representative from the DeVry Institute of Technology spoke with junior and senior boys yesterday.

He explained the range of technical study at DeVry and distributed literature to interested students.

STIFF WORKOUT

Math students gave their arithmetic and algebra a stiff workout Thursday morning. Sister Mary Edwina administered the Michigan Math Prize Competition test to all students who had registered.

College scholarships and certificates will be awarded to the high scorers of the state wide test.

In an effort to meet its quota of the \$1,000 pledge to the high school building fund, the student council is sponsoring the "Bulldog Bounce" tonight from 8:30 to 11:30 p.m. Dress is casual.

WBHS Ski Club Chooses Teams

By SUSAN LaFEHR

The ski club of West Bloomfield High School has been gazing hopefully at the blue sky as plans for the forthcoming season of snow are being made. Ski teams and captains have been chosen and uniforms were displayed at the recent meeting.

Reservations for the ski trip to Wallon Hills are being made as members look forward to the long four-day weekend. Walter Poe, history instructor, is the club adviser.

The American Field Service is sponsoring an after dance tonight. This fund raising dance will help finance the winter swimming party all members are anticipating.

The Johnson Administration's antipoverty bill—which includes sections with educational implications—passed the Senate by voice vote on August 11 and went to the White House for the President's signature.

The bill gets up a job corps that will eventually enroll 100,000 youth in remedial education and job training programs.

In addition, the bill establishes work training to keep as many as 200,000 teen-agers from dropping out of school.

Clarkston Pupils Receive Proofs of Class Pictures

By CATHY RICHARDSON

Freshmen, sophomores and juniors at Clarkston High School received their class pictures recently. In the past weeks seniors have been receiving their proofs from Powell Studios.

From these poses will be selected the pictures to be ordered.

Last week Clarkston held its first nonpop assembly of the year.

Presented by the student government, the assembly was entitled "This Atomic World." It was sponsored by the United States Atomic Energy Commission.

David Liner explained the basic principles of atomic energy and its beneficial applications. Several of Clarkston's students helped Liner in his explanations.

Stagemasters Present Play

Zany Family Show
to Close Tomorrow

By PENNY YOUNG

The antics of a zany family will fill the Waterford Kettering High School stage for the last time tomorrow as the curtain rises on the Stagemasters' first production of the year, "You Can't Take It With You."

Written by Moss Hart and George S. Kaufman, the comedy tells the story of the unconventional, unsophisticated, but lovable Vanderhoff family which refuses to conform to the rules of society.

The play opened last night under the direction of dramatics coach Pat Looman and with the help of student director Penny Young.

Cast in the leading roles are Penelope Sycamore and Grandpa Vanderhoff are Judith Beilfuss and John Peterson.

Tony Kirby and Alice Sycamore, the young lovers, are played by John Van Roekel and Cynthia Carr.

OTHER ROLES

Essie is Mary Strohmeyer; Kolenkhov, Charles Merz; Paul Sycamore, Peter Teeuwissen; and Ed Carmichael will be performed by Gregory Baker.

Also cast are Robert McNab, Corrine Jones, Andrew Blain, Pat Young, Ralph Dikeman, David Swain, John Basch, Mary Colgrove, Nancy Frankowski and Thomas Ojaya.

The final performance tomorrow will begin at 8 p.m.

Spectators at last Friday's homecoming game observed a new addition to the WKHS athletic field. An electric score-

board has been purchased with money donated from various organizations. The scoreboard was erected just in time to record last Friday's winning score.

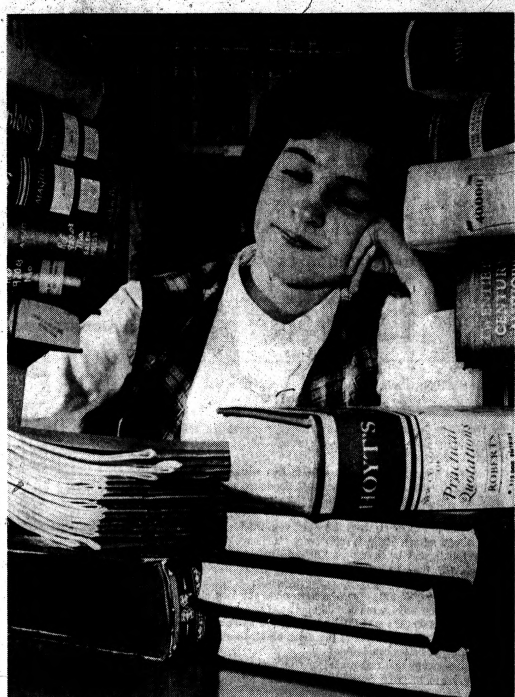

RECREATION NIGHT

A recreation night was conducted by the H-Y Wednesday in the gym. Members spent from 7 to 9 p.m. playing volleyball, basketball and other indoor sports.

Interested junior and senior math students participated in the Michigan Mathematics Prize competition yesterday morning.

Students who qualify will take part two of the test Dec. 10, and the highest scores throughout the state will be eligible for valuable scholarships.

Underclassmen were dismissed from study halls Tuesday to have their pictures taken.

BRIEF REST — Our Lady of the Lakes High School students took their quarter finals this week. Next week is the parents' meeting where report cards will be handed out.

Ellen Palawski of 141 Preston rests her eyes for a few minutes as she does some last minute cramming, a fairly common procedure around test time.

Council at St. Frederick Maps Plans for November

By JANIS QUARLES

The student council of St. Frederick High School is lining up its agenda for the month of November. It was agreed upon by the members that there will be a continuation of "Dues Day."

The entire student body is asked to submit a quarter bi-annually to help the council financially. "Dues Day" is just one idea to raise money without having to put on dances.

Two talent shows will be sponsored by this organization. One will be held at night under the direction of Carmen Mitchell through the parents club. The other talent show will be held later in the school year.

Student council will hold two meetings before the entire stu-

dent body, one at the beginning and the end of the year. Purpose of these meetings will be to acquaint the students with the procedures of the organization and how their representatives are working for the classes.

The first meeting will be next Friday.

Some of these ideas affect the present constitution of the student council. A committee has been formed under the direction of Marilyn Larson to revise the constitution.

HAY RIDE

A hay ride is being planned by the Catholic Youth Organization (CYO) Saturday at French's. All members will meet at school at 6:30 p.m. to board the buses.

A hootenanny is also includ-

ed in the program, which has Maribeth Shore and Karen Larson as cochairmen.

Seniors are filling out applications, signing papers and making plans to attend college or preparing for their careers once they leave high school.

Many are filling out forms for the State of Michigan comparative scholarship program of the Scholastic Aptitude Test (SAT) which is required by some colleges.

ON DISPLAY

Various pamphlets about the colleges are displayed in the student homeroom for the students' use by Sister Ann David, senior adviser.

The first quarter ends today, report cards will be handed out Monday.

At Avondale High School

Nurses Club Picks Officers

By LINDA TONG

The Future Nurses Club of Avondale High School has elected new officers for this year. They are Rebecca Parent, president; Sherry Setter, vice president; Virginia Pryde, secretary; Linda Brogen, treasurer; and Marjorie Morse, historian.

The club has made plans to take the Seminole Nursing Home as their yearly project.

The cast for the junior-senior class play "A Little Honeymoon" by William Davidson was selected last week after tryouts.

The plot involves the colorful life of a typical American family. From the moment the kid sister decides to enter her pet frog in a jumping contest through the trials of having grandma come to live with them.

Included in the cast will be Edward Granger as Albert Parker, Joseph Emmerth as Roger Minton, Karen Burt as Diana, Charity Wilson as Eve Tyler and Lois Cornell as Martha Minton.

OTHER PARTS

Other parts went to Linda Connors as Scots, Judith Newby as Mrs. Simmons, Paul Veen as Tom Corning, Lawrence Peterson as Jerry Minton, Sharon Tompkins as Delores, and Sandra Melberg as Grandma Thornton.

Phyllis Grisham and Barry Brown will be student directors and Pat Feibly will serve as production manager.

The faculty at AHS last week chose Ginger Catterfield, a senior, for the Daughters of the American Revolution award.

Two Receive Merit Letters

By BOB GORSLINE

Two Milford High School students, Donald Hackhardt and Ronald Benson, received letters of commendation from the National Merit Scholarship corporation for their fine performance on the test administered last spring.

Open house for the parents of MHS students is scheduled Wednesday. Beginning at 7:30 p.m., parents will follow an abbreviated version of their child's schedule during a normal school day.

Those who attend will be able to meet with members of the faculty and learn about the curriculum of Milford.

Also on Wednesday the National School Studies will visit the high school to take underclassmen pictures.

Another "monkey trial" — testing the validity of the teaching of evolution in the public schools — may take place this year.

Junior Editors Quiz on MOSS

QUESTION: One finds moss on some tree trunks. But how can it get water from the soil?

ANSWER: Most plants live with their roots in the soil so that water and minerals may be brought up to help the leaves make plant food.

A few plants, however, are able to live without roots touching the soil. These "air plants" condense moisture and certain food materials directly from the air, getting other needed materials from the rocks or tree trunks. The lichen (upper right) is the most remarkable of these since it can attach itself to bare rock surfaces. You can usually tell lichens by their beautiful light gray-green colors and the way they lie on tree trunks and rocks like little circular mats.

Mosses are little tufts of rich green; when you look closely into them you will see many minute shapes like palm trees. The caps on the top of the long stalks are spore cases, spores serving as the seeds of the moss plant. In exposed places, lichens often come first.

They then decay and make a bit of soil which helps mosses when they begin to grow there. The familiar "Spanish moss," actually not a moss but a flowering plant, can also absorb moisture while hanging in the air.

FOR YOU TO DO: Get a magnifying glass and look closely at the moss and lichens growing near your home. You will find them fascinating.

Disease Costs City \$1 Million

HOUSTON, Tex. (AP) — C. A. Pigford, city health director, estimates Houston's recent outbreak of encephalitis — or sleeping sickness — cost the community \$1 million.

He said Thursday the figures include \$122,000 for chemicals, about \$200,000 for salaries for various government agency workers and about \$190,000 to hospitals in treating patients with the illness.

He said businessmen lost about \$500,000 in revenue because of the outbreak and fear among out of town people and local residents who stayed away from stores.

Health officials said the illness, transmitted by the culex mosquito, was suspected to have taken 32 lives, of which 19 were confirmed. More than 700 cases were reported and 200 of these were confirmed.

Local Hairdresser Is 2nd in Contest

James LaVergne, 277 E. Pike, an employee of Philip's Silhouette Hair Designs salon, 694 W. Huron, was winner of second place in a hair-styling contest this week. The contest was sponsored by Beaute Craft Supply Co. and Revlon. More than 12,000 hair stylists from Michigan and Ohio attended the convention at the Sheraton Cadillac Hotel in Detroit. The confab ended Monday night. The common tarantula of North America is clothed in rusty brown hair. His body is two inches long and his width, from tip to tip of his hairy toes, is about five inches.

Pat Reynolds admits she was wrong!

(She was sure electric dryers were more expensive. Then we showed her these money-saving facts.)

- 1 Gas dryers cost a couple of pennies less per load to operate; we'd be the first to admit it. But with electric dryers you still come out ahead. Read on.
- 2 Electric dryers cost less to buy. Model for model, prices run about \$20 to \$40 lower than gas dryers.
- 3 And now, for a limited time, this lower price includes installation and wiring, if needed. For details, see your dealer.
- 4 Electric dryers cost nothing for electrical repairs or labor. According to manufacturers' service policy premiums, the average dryer requires about \$200 worth of repairs over a 10-year period. But, of course, if your dryer is electric, Edison comes out, repairs it, and leaves without leaving you a bill! (It's the only no-charge dryer repair service offered by a utility company in this area.)

Add up ALL the costs and you'll see what Pat Reynolds saw—electric dryers actually cost less to own.

initial cost—up to \$40.00 savings
repair costs—200.00 savings
\$240.00 total savings

To get that kind of savings with a gas dryer, you'd have to dry 2 loads of clothes a day for about 10 years! (And, confidentially, we couldn't wish that much wash on any woman.)

EDISON

Dr. Wayne G. Brandstadt Says:

'Magic Pills' Doctors Use Are Tested

Anything that improves your health or cures disease has always been looked upon as some sort of magic.

This difference between the magic of the witch doctor and your family physician is that the latter uses drugs that have been scientifically tested first on anti-BRANDSTADT mals then on human volunteers.

The tests involve large series of persons, control studies with mock pills that have no active ingredient, and careful statistical analysis.

As a result of improved drugs and other medical advances the death rate in the United States has been reduced about 45 per cent since 1900. Two-thirds of all the drugs sold today had not

been heard of 25 years ago. The more powerful drugs of today are not, however, without their hazards.

For that reason you should follow your doctor's directions for their use precisely.

If after taking a drug for a few days you have not improved you should consult your doctor. He may want to adjust the dosage, reassure you that improvement will come, or advise a different course of treatment.

Under the law all drugs are divided into two categories: prescription drugs and over-the-counter drugs. Those that can be legally sold only on a doctor's prescription are so classified for your protection.

DESIRED EFFECTS

Your doctor will base the dosage on your age and weight

and the effects desired. For this reason the drug should not be passed on to other members of the family or neighbors who appear to have the same symptoms.

They may need a different dosage or may have an entirely different disease.

By the same token, any remnant of your prescription should not be used at some later date when you think you have the same condition without consulting your doctor. The drug may have deteriorated or the symptoms may have a different cause.

Over-the-counter drugs are to be taken only for minor complaints that should normally clear up in a few hours or a few days. Do not use them over a prolonged period without your

doctor's knowledge and approval.

Above all don't fall for the glowing sales talk put out over radio and television.

For example, everyone does not need to take vitamin pills to supplement their diet. Nor is everyone suffering from a deficiency of iron or other essential minerals. Pills to help you lose weight without dieting are a dangerous hoax. Lotions and creams alone will not cure pimples.

These and many other important facts about drugs have been set forth in simple language for you by the Food and Drug Administration in a pamphlet entitled "First Facts About Drugs." It is available from the Superintendent of Documents, U.S. Government Printing Office (Washington, D. C., 20402) for 15 cents a copy.

Country Still Far From Stable

General New Bolivia Leader

LA PAZ, Bolivia (AP)—Vice President Rene Barrientos, a general and former air force chief of staff, has emerged from the Bolivian revolt as president just as ousted President Victor Paz Estenssoro said he would.

Barrientos, a leader of the revolt against Paz, flew from his home in Cochabamba to La Paz Thursday, and the chief of

the armed forces, Gen. Alfredo Obando Candia, announced he and the vice president would be co-presidents.

An hour later Barrientos appeared before a cheering crowd in front of the National Palace and announced Obando had decided to resign in his favor "to cooperate in the reestablishment of tranquility in the country."

Obando had taken control in the capital after Paz fled to Peru Wednesday morning, but the crowd in front of the palace booed the announcement that he would be co-president. Civil groups and students who participated in the overthrow of Paz considered Obando's instal-

lation a "continuance" of the previous regime.

Obando's withdrawal in favor of Barrientos eased the tense and chaotic situation, but the country still was far from stable.

The army has taken possession of public buildings in La Paz, but armed civilian bands roamed the streets. Possibly 40 persons were killed and 150

wounded in fighting Wednesday and Wednesday night between supporters and opponents of the deposed president.

About 200 officials of the Paz regime were said to have taken refuge in foreign embassies.

Civilian politicians were split into at least six factions. A critical question for the military rulers was whether the

United States would recognize them and continue the financial aid which kept the Paz regime afloat. Bolivia received \$300 million dollars from the United States in the 12 years after Paz first took office.

Paz had accepted Barrientos, a rightist, as his running mate in the election last May under military pressure. He said in Lima Thursday the vice president led the revolt against him "because of his rabid personal ambitions to be president." He predicted then that a power struggle between Barrientos and Obando would ensue.

BLUE SHIELD ANSWERS YOUR QUESTIONS

dependents can be added to your Blue Shield coverage...

I have Blue Shield coverage for myself. How can I get it for my mother whom I support?

Blue Shield gives you the opportunity to add any and all dependents to your own coverage. The only requirements are that your group must approve the additional coverage and the person must also appear as a dependent on your income tax statement.

Are Blue Shield and Blue Cross one and the same?

They are two distinct organizations with separate management and personnel, who work together closely to provide the finest and the most economical health-care protection. Blue Shield pays your doctor. Blue Cross pays your hospital. Most people prefer to, and do, belong to both plans; so you often hear them referred to together—as Blue Cross-Blue Shield.

What does the term, "participating doctor," mean in relation to Blue Shield?

A "participating" doctor simply agrees to abide by the conditions of payment established by Blue Shield. As a matter of fact, the majority of doctors accept the Blue Shield fee as full payment for the service they render to all subscribers with an income of less than \$7500 a year.

Are all Michigan doctors "participating" doctors?

No. About 70%. Remember, though, that the Blue Shield fee may be paid to any qualified doctor—whether he is a participating doctor or not. Blue Shield gives you 100% freedom of choice in picking your doctor.

Does Blue Shield protection cover emergency first-aid?

Yes. Benefits are provided for surgical emergency first-aid when rendered by a doctor in or out of his office within 24 hours after the accident. Suturing, fracture care and other surgery are covered without time limit.

Do you have a question about your Blue Shield coverage? Just write Dept. 54, Michigan Medical Service, 441 E. Jefferson, Detroit, Michigan 48226.

Now! Join Blue Cross-Blue Shield without belonging to a group if you are under 65. Get your application from your doctor, hospital or nearest Blue Cross-Blue Shield office.

Eye Purchase of Food Chain

Farm Bureaus Will Decide at Convention

COLUMBUS, Ohio (AP)—The Ohio Farm Bureau Federation will decide in December if it will participate in the purchase of a national food chain—reportedly A&P, the Columbus Dispatch said Thursday in a copyrighted story.

The Dispatch reported that D. R. Stanfield, executive director of the federation, did not say which chain was being considered but quoted Stanfield as saying "A&P fits our plans."

Stanfield said the Farm Bureaus in other states have been asked to participate in the purchase and that the decision will be made during the American Farm Bureau Federation convention early next month in Philadelphia.

Stanfield said the purchase would require the combined effort of at least 10 state federations.

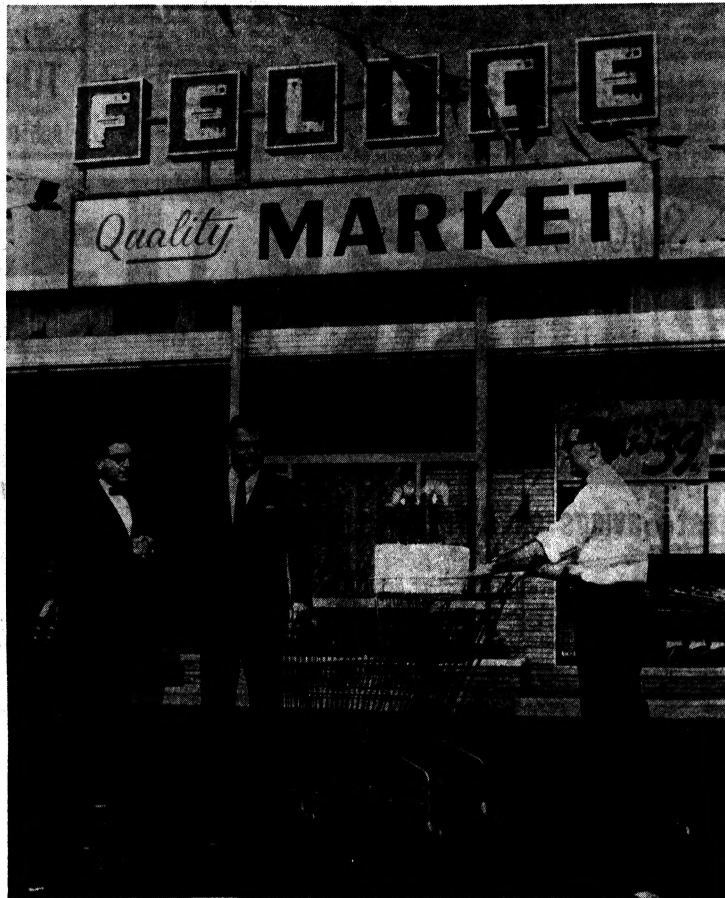

RECEPTIVE TO PLAN

He said "A&P is receptive to the plan."

In a speech prepared for the convention, Stanfield will say that "farmers have the financial muscle" to purchase any of several food chains. Specifically mentioned are A&P, Safeway and American.

The money would be raised, Stanfield said, by sale of stock to farm families and through sale of 20-year debenture bonds. He estimated it would take about \$400 million to gain controlling interest of one of the major chains.

The purpose of buying a food chain would be to "create economic power for the farmer and establishment of a marketing association," Stanfield said.

Foreign News Commentary

What's De Gaulle Cooking Up Now?

By PHIL NEWSOM
UPI Foreign News Analyst

Once more the feeling is that French President Charles de Gaulle is up to something. The question is, what?

A spate of rumors of the North Atlantic Treaty Alliance (NATO) and the six-nation Common Market, either or both.

Washington dispatches say that the United States expects a major crisis to erupt at about the time of the NATO ministerial council meeting in Paris on Dec. 15.

The speculation and the rumors all boil down to the same thing, namely, that:

De Gaulle is more than ever

convinced that Britain is not ready for political union with the continent and that there is an Anglo-American conspiracy to retain sway over Western Europe.

DISAPPOINTED
De Gaulle is disappointed at the results of the French-German accord signed two years ago and irritated by West German refusal to lower grain prices according to the Common Market schedule.

De Gaulle continues to oppose the U.S.-proposed mixed-manual nuclear surface fleet for NATO as inimical to the interests of a United and independent Europe.

And, finally, that now is the time to settle these and related issues once and for all.

Militarily, there seems agreement that de Gaulle could withdraw his 27 air squadrons and

his two understrength army divisions from NATO without greatly weakening the organization. It would, however, deny French bases and communications to NATO.

DOUBTFUL
There is doubt that de Gaulle seriously contemplates withdrawal from the Common Market which has helped to boom French industry although not solving the problem of French agricultural surpluses.

And if, as the French continue to insist, de Gaulle really does seek increased economic and political unity, he scarcely could abandon the one vehicle set up to accomplish it.

The de Gaulle pressure vastly increases the problems of West German Chancellor Ludwig Erhard.

As an enthusiastic exponent of the Common Market, embracing West Germany, France, Italy, Belgium, The Netherlands and Luxembourg, Erhard is committed to the abolishment of all trade barriers within the six.

GRAIN PRICES
But government support for grain prices is higher in Germany than in France, and, with an election coming up next year, Erhard is reluctant to risk the important farm vote by lowering them.

Erhard also has been among those demanding that Britain be allowed in the Common Market. But on that issue, the British Labor party shot the ground from under him by showing no interest at all in Common Market membership.

At home, Erhard is under renewed attack from former Chancellor Konrad Adenauer in what seems a clear attempt to drive him from office even before next year's elections. Adenauer is one of the strongest supporters of close cooperation with France.

Meantime, de Gaulle, demonstrating that he believes he is operating from strength, shows no sign of compromise.

Want to Know Peace,
Not to Grow Peach

LOS ALAMOS, N.M. (AP) — Officials of the International Peace Film Festival at Los Alamos were somewhat concerned when the first entry arrived and the movie was on how to grow better peaches.

Then a hasty recheck of the mailing label showed the film had been addressed to "The International Peach Film Festival."

Howard Sautter Gives His Leo A Bath With Service Station Hose

Pet Lion Ordered Out of Town

ABINGTON, Pa. (AP) — The Abington Township commissioners have ruled that Howard Sautter's pet lion has to go.

Sautter's full grown, 300-pound lion, Leo, has been living in his backyard for about 21 months. He keeps Leo either in a cage in the yard, or in the garage.

Sometimes, Sautter goes out on jobs in his tow truck with the lion sitting on the seat beside him.

A petition was presented this week to the township commissioners signed by 55 of Sautter's neighbors. They asked that the lion be banished from the community.

The commissioners said there is no township ordinance forbidding a resident to keep a lion. Chickens and pigs are outlawed, but not lions.

MAY BE AMENDED

Perhaps, it was suggested, the ordinance could be amended and would come under the ordinance forbidding public nuisances.

Finally, the commissioners decided that if the lion made noise, it constituted a nuisance and would come under the ordinance forbidding public nuisances.

Sautter, 53, a former race car driver now operating a service station and garage, wasn't at the meeting. Informed of the

commissioners' action, he denied a charge the lion roared at night. He said it used to, but he rigged up an intercommunication system, so that he could talk to Leo from his bedroom.

DOGS BARK

The only noise at night, adds Sautter, is the barking of his neighbors' dogs. "They bark all night," he complained.

Fire 42 Stories Up

Showers Glass Below

NEW YORK (AP) — Fire in the top floor of a building at Madison Avenue and 49th Street broke windows Thursday night and sent glass crashing 42 stories to the street below. There were no reports of injuries.

Firemen put the blaze out in about 20 minutes. They said a short circuit apparently caused it.

By W. Germany's Erhard

High-Level Europe Unity Parley Urged

BONN, Germany (AP) — Chancellor Ludwig Erhard's government called today for a meeting of the foreign ministers of the six Common Market countries to discuss a political grouping that could be a first step toward a United States of Europe.

The six countries are France, West Germany, Italy, Belgium, the Netherlands and Luxembourg.

The way it is to be left open for other European countries to join, but the British government's eagerness to get in at the beginning of the talks was ignored.

The West German plan calls first for consultations among the six governments to set the conditions for other nations to participate.

It proposes an "advisory council" appointed by the six

governments to take part in the consultations and speak for the interests of the area as a whole.

NOT SPECIFIED

The size of this council, its powers and the date of the proposed conference were not specified.

Economic proposals would be discussed within the Common Market organizations which, under the proposal, would be unified.

They are the European Economic Community, the European Coal and Steel Community and Euratom, the European atomic agency.

The Bonn government also proposed "true parliamentary powers" for the existing European parliament, which now can only make recommendations.

"The proposed cooperation should serve the strengthening of the Atlantic alliance," the Foreign Ministry said.

But there was no specific mention of the North Atlantic Treaty Organization (NATO), which President de Gaulle of France wants to reform radically.

Nor did the statement refer to the plan for a multilateral nuclear surface fleet, in which the United States and West Germany propose to cooperate with other members of the alliance. De Gaulle opposes this plan.

A high West German official said the European cooperation on defense that West Germany is proposing could eventually cover the multilateral force. He did not suggest how this would come about, in view of de Gaulle's opposition.

Soft Music Is Proper at Dinner

By The Emily Post Institute
Q: My husband loves music and at every opportunity he plays our hi-fi. Even when we have guests in to dinner he turns it on.
I don't think it is right to play it during dinner.
He argues that a great many of the restaurants have music while guests are dining and that it adds to the enjoyment of the meal.

A: If the music is subdued and in no way interferes with conversation at table, there is no objection to playing music during dinner.

Q: My son was married and divorced and now is planning to marry for a second time. It will be the first marriage for the girl and her parents are planning a rather large wedding and reception.

They have asked us for a list of guests we wish invited. My son's first wife had a large wedding and all our relatives and friends were invited.

Would it be an imposition to invite these same guests a second time?

A: As the wedding is to be a fairly large one, your relatives and friends will almost certainly feel slighted if they are not invited.

There is no obligation for anyone to send a present a second time.

The Emily Post Institute cannot answer personal mail, but all questions of general interest are answered in this column.

Re-elected as officers of the Rosary Altar Society of Our Lady of the Lakes Catholic Church Wednesday, were Mrs. Joseph Baxter, president, and Mrs. Leonard Methner, secretary.

Mrs. Leo Halpeny will serve as vice-president and Mrs. Herman Nelson as treasurer.

Directors will be named at a later date.

Max M. Fisher of Franklin. The announcement of the season's leaders was made by recently re-elected association president Wilber H. Mack of Grosse Pointe at the group's annual meeting.

At the gathering, Chancellor D. B. Varner of Oakland University was named to the board of directors. Frank W. Donovan of Grosse Pointe was re-elected chairman of the association.

Mrs. Townsend was cochairman of the 1964 opera season.

She spent her early years in Ann Arbor where her father was a University of Michigan professor and was graduated from the university.

Now a vice president of the Birmingham chapter of the American Association of University Women, Mrs. Townsend is a trustee of the Children's Hospital of Michigan. She is also a member of the Needlework Guild of America, Inc.

Her cochairman, Mrs. Fisher, was born in Louisville, Ky. and attended college in Washington D.C. She is a former board member of the Merrill-Palmer Institute, Detroit.

An active member of the Founders' Society, Detroit Institute of Arts, Mrs. Fisher is also a board member of the Women's Division of the Jewish Welfare Federation of Detroit.

Mrs. Theodore O. Yntema of Bloomfield Hills was named honorary chairman of the 1965 opera season and a member of the executive committee of the association.

Travelers Arrive Home in Time for Election

By SIGNE KARLSTROM
Waiting in line to exercise their privilege of voting Tuesday were many who had rushed home from various vacation points.

Mr. and Mrs. Walker A. Williams who have been at their summer home in Minnesota, and visiting their two sons in California, arrived at their new apartment, the Burlington Arms, just in time to vote.

Mrs. Arthur Welland who commutes between her Bir-

mingham and New York residences hurried back to Birmingham to vote and spent the evening with the Fredrick G. Richardsons to watch the election results.

ELECTION PARTY

The Gilbert F. Richards had a large non-partisan election party, cocktails and dinner in their home on Goodhue Road.

Dr. and Mrs. Thomas S. Torgerson left on Thursday for Las Vegas and San Francisco to attend the Oral Surgery and Medical Convention.

Many area music patrons plan to attend a scholarship benefit concert for Interlochen sponsored by Birmingham Musicale next Friday in Kingswood School auditorium.

CHORALE

Highlights of the program by the Kenneth Jewell Chorale, will be Vivaldi's "Gloria," featuring Ruth Killeen and Shirley Schlorff, also Copeland's "In the Beginning" with Carolyn Grimes as soloist.

In the audience will be the William Arlunds, the Duncan Augustines, the Burke Bartlett, the Carl B. Blacks, the Herbert H. Gardners, the Elwin C. Greeners and Mr. and Mrs. Howard E. Hallas.

The list continues with Dr. and Mrs. Lyle A. Hartick, Mr. and Mrs. Harry Gross, the Charles Hunttons, Mr. and Mrs. Leonard T. Lewis, Mr. and Mrs. Robert J. McBridge Jr., the James S. Moons, the Dean M. Murdocks, the Clifford A. Nelsons, Dr. and Mrs. Wilson P. Richards and the Delbert Tate.

Others will be Mesdames John H. Abbott, Vernon L. Veuman, Alice Engram and Edson K. Pool.

Mrs. Lewis Crew, Berwick Boulevard, looks for the name of the artist on the back of a picture. Herself an artist, Mrs. Crew is interested in what other members of the Pontiac Society of Artists are exhibiting in the current show.

Mrs. Jean Culbert, Percy King Court (right), and Mrs. Mason H. Thompson, Sterling Street, were among the first visitors at the "fall show and artists' market" of the Pontiac Society of Artists. Opened

Thursday evening in the auditorium of the Pontiac City Library, East Pike Street, the show will continue from noon to 6 p.m. today and 9:30 to 5 p.m. Saturday.

Office Party Mandatory?

By ABIGAIL VAN BUREN

DEAR ABBY: The letter about the office hayride party prompted this comment because, for the past 10 years, that is what I have been arguing with my husband about.

He works for a big company and almost every other weekend they have a party for someone who is being married, transferred, retired, or for any other reason they can think up.

Husbands and wives are not invited. I've heard my husband and some of his coworkers talk about what goes on at these parties, and believe me, I don't like it.

There is drinking and dancing, and the young unmarried girls fall all over the married men.

My husband always has the money for these office parties, but just let me ask him for a few dollars for something the kids or I need, and he doesn't have it.

He claims he HAS to go to these parties. I say, like heck he does. When the company stopped the annual Christmas party, and each employee a turkey instead, I was so happy.

What do the management

permit these other parties to go on? It only causes hard feelings between the employees and their families.

NOT INVITED

DEAR NOT: If you will investigate, you'll probably find that the management has nothing to do with these parties.

They are organized by the employees (usually one or two with unsatisfied drives).

Management bends over backward to encourage family unity and to discourage the kind of togetherness outside the office that you describe.

And only those who want to participate do so.

Two Artists to Make Musicale Appearance

Lyle Vette, Pontiac Central High School senior and Michael P. Church, assistant director for cultural activities at the University of Michigan extension services, will appear at Pontiac Tuesday Musicale.

Seventeen-year-old Lyle is the 1964 winner of the Dora Dawson Scholarship presented by Tuesday Musicale.

He began his studies as a percussionist in the third grade in the Pontiac school system under Frederick West and later studied marimba with Robert Clark of the Detroit Concert Band.

Timpani instruction came from Salvatore Rabbio of the Detroit Symphony Orchestra.

Lyle is an honor student and has received first division ratings in all festivals since sixth grade. He will be accompanied by Mrs. Walter Schmitt.

Michael P. Church is one of Michigan's best known figures in the creative and cultural arts.

Before assuming his present position, Church had been the extension service's supervisor of special projects for 10 years in art, music, theater, writing and regional history.

He studied at the Wicker Art School, Cranbrook Academy, Wayne State University and the University of Michigan.

At present he is executive secretary of the Cultural Activities Board for Michigan Week.

The Pontiac Tuesday Musicale will meet in the Fellowship Hall of Central Methodist Church at 1:30 p.m.

Assembling layettes made by the Carol Brooks Section, Needlework Guild of America, Inc., Thursday, in the YWCA are president Mrs. Robert G. Isgrigg, Menominee

Road (from left), with board members Mrs. John A. Riley, Illinois Avenue and Mrs. William S. Isgrigg, Cherokee Road.

Section Bundles Over 75 Layettes

The Carol Brooks Section, Needlework Guild of America, Inc. bundled and packed layettes Thursday in the Young Women's Christian Association building.

The yearly quota exceeds 75 layettes which consist of nightgowns, shirts, blankets and diapers.

Some 33 years ago, the section had its inception when Mrs. Vern C. Markley heard of the Visiting Nurse Association's urgent need of layettes for emergencies.

HELP ORGANIZE

She asked Mrs. Harold A. Fitzgerald and Mrs. Harold E. Howlett to help organize a group of women interested in sewing layettes once a month.

The group later became affiliated with the Pontiac branch of the Needlework Guild.

Officers are Mrs. Robert G. Isgrigg, president; Mrs. Robert

Alton, vice president; Mrs. Bruce Hubbard, secretary; Mrs. Edmund Rogers, corresponding secretary and Mrs. Robert Greenhalgh, treasurer. Board members include Mrs. John A. Riley, Mrs. William S. Isgrigg, Mrs. Kenneth Vandenberg, Mrs. H. J. Wetlaufer, and Mrs. Russell H. Galbraith.

Per capita income in Japan in fiscal 1963 was about \$320, a considerable increase over the \$118 of fiscal 1961 and the \$461 of fiscal 1962.

'Ducky' Day for Policeman in Wisconsin

MILWAUKEE, Wis. — Four ducklings got special attention from the police and humane society here.

Eight ducklings and their mother waddled across a busy highway in the rush hour.

An unidentified woman motorist stopped her car and waved others down until the procession went by. Across the highway, the mother and four of her babies managed to jump the curb and continue on the way.

OOFS!

Four fell through a sewer grating at the curb and plunged to a water-filled basin where they swam out of sight into a 12-inch lateral.

Nearly two hours later, when they reappeared, a policeman managed to block the lateral and scoop the ducks out with a fish net.

Since the mother had disappeared, the orphans were taken to a private farm.

During one of many local mailing parties, women prepare the initial announcement of the Oakland University Scholarship Committee's 1965 lecture series for mailing. From left are Mrs. W. Harold

Knisley of Orchard Lake, Mrs. James Aldrich of Mohawk Road and Mrs. Franklin B. Read of East Hammond Lake Road, hostess. The theme of the series is "Explorations in Education."

Fashionette Club Has Birthday Celebration

The 11th anniversary of the Fashionette club was observed this week with a banquet held at Alban's Country Cousin restaurant near Oxford. Forty-one members attended.

Mrs. Harry Ault was general chairman for the event. Assisting her were Mrs. John Reichert, Mrs. Charles Meier, Mrs. John Reichert and Mrs. Frank Reichert who served as mistress of ceremonies.

During the program, "It all depends on you," members who have achieved and maintained their ideal weight over a given period of time received pins.

Presiding over the evening's festivities was Mrs. George

West. "Mrs. Fashionette, 1964," Mrs. John Kendrick gave a report on members who are in the running for the title of "Mrs. Fashionette, 1965."

"Fats LaLanne," an original skit by Mrs. Robert Hoffman, club president, was presented by her with Mrs. Lloyd A. Lewis and Mrs. Larry Moore.

The Fashionette club, sponsored by Pontiac Parks and Recreation, meets each Tuesday, 7:30 p.m. in the Ad-h. Shelly Library. Women interested in losing weight are welcome to attend.

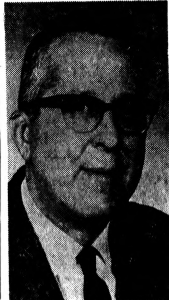

Group Elects New Secretary

Mrs. Ross Elliott was elected recording secretary of the executive board at the Wednesday meeting of the Parliamentary Study club.

Held in the Masonic Temple, the meeting was devoted to a lesson in "Motions." Among those participating were: Mrs. I. J. Goin, Mrs. William Pfahler, Mrs. E. H. Learned and Mrs. Ralph Schowalter.

Mrs. Arthur Cox, Mrs. Lester Oles, Mrs. Eugene Perko, Mrs. Harry Eaton, Mrs. Stanley Warwick, Mrs. Harry Vernon and Mrs. George Albert also participated.

Mrs. Glenda Taylor was elected to membership at the gathering.

H. Allan Barth, executive director of the Michigan Hospital Association, will be the speaker at Pontiac General Hospital's adult volunteer award luncheon Tuesday at the Holiday Inn.

ABWA Unit Has Annual Election

Julie O'Brien was named president of Tipacan charter chapter of the American Business Women's Association at a Wednesday meeting in the Holiday Inn.

Annual election of officers highlighted the business meeting as some 75 members present named new leaders.

Maxine Davison, retiring president, installed Mrs. Lee A. Weston, vice president; Mrs. Virginia Sommerville, recording secretary; Mrs. Joseph Beas, corresponding secretary; and Mrs. Frank Syron, treasurer.

Mrs. Beas shared with the group colored slides taken on her recent trip to England as she toured the country and visited relatives.

Mrs. Hugh Dana gave a vocational talk relating her responsibilities at a local car dealership.

Dec. 2 at Holiday Inn is the next scheduled meeting.

OU Committee Sets Lecture Series

Area residents will soon receive the initial announcements of the Oakland University Scholarship Committee's 1965 lecture series entitled, "Explorations in Education."

Cochairman Mrs. Walter Reuther of Rochester and Mrs. E. L. Windeler describe the series as one "designed to improve public understanding of the critical issues facing education today."

Those working on the series include Mrs. Frank Winton and Mrs. John K. Bagby of Birmingham, Mrs. Noel A. Buckner and Mrs. Winston T. Ely of Orchard Lake and Mrs. Neil A. Buckner.

From Rochester, committee members are: Mrs. R. A. Featherstone, Mrs. Robert Hoopes, Mrs. James I. Arcure, Mrs. William Beardmore, Mrs. Arthur Carthers, Mrs. Dan S. Holecia, Mrs. Thomas Kruger and Mrs. Charles Krumrine.

OTHER MEMBERS

Other committee members are: Mrs. Frank Atkinson of Utica, Mrs. Albert Stanker of Union Lake, Mrs. Hans Rasmussen of Warren, and Mrs. William Spunk of Waterford.

During the series six prominent educators will discuss current problems in education.

The first program will be held at 10 a.m. Jan. 22. Dr. Carl Marburger, director of Detroit's "Great Cities Project," special consultant to the U.S. Commissioner of

Education and member of the Wayne State University faculty will speak.

His topic will be "Effective Education for the Culturally Deprived."

All lectures will be held in

the Gold Room of the university's Oakland Center. Ticket information is available from committee members and OU's foundation office.

Proceeds will go into the University Scholarship Fund.

Want furniture that looks expensive, but isn't? Then . . . now's the time for Drexel!

If you're among the many with more taste than money, you just can't take chances. Every penny counts.

Perhaps you've shied away from Drexel furniture because it looks like it must cost more than you can afford.

Surprise! It doesn't. It just looks more expensive because we planned it that way.

In fact, we work at it.

The technical skills and production know-how developed during 60 years of manufacturing furniture has made it possible for you to give you

high quality at the lowest possible price. It's the kind of quality that used to be available to the relatively few people who could spend a small fortune.

What's your pleasure? Provincial, Traditional, Early American, Contemporary or Mediterranean . . . you'll find them all in fine furniture by Drexel at Lewis Furniture.

Come see for yourself. Discover how little it will cost to live as well as you'd like.

Got the message? Good! See you soon!

Two Chapters Hear Reports

Two chapters of Epsilon Sigma Alpha met earlier this week.

Alpha Alpha

A report on a recent meet of the Pontiac Foundation was given at the Thursday gathering of the chapter held in the "300" Bowl.

Mrs. Anthony Gravel, Mrs. William Roy, Mrs. Edmund Smith and Mrs. Edward Hummel gave the report of the organization which has trans-

ferred the monies it raised for a civic auditorium to the new Ostopathic Hospital.

The group's second benefit sale this year will be held from 8 a.m. to 12 noon Nov. 21 at the UAW hall on Pike Street.

A basket of food for a needy family will be given at Thanksgiving. Mrs. Edward Hummel is chairman of the event.

Beta Mu

Mrs. Robert McClendon, director of the day care center for mentally retarded children at the Covert Methodist

Church, spoke at the Tuesday meeting of the chapter.

At the gathering held in West Side Lanes the group learned that the center is conducted by the North Oakland Association for Retarded Children and is the second such center to be started in the Pontiac area.

The center is parent-operated and licensed by the state. It was chosen as the chapter's project for the year.

Mrs. Vern Lovse, rushing chairman, announced an afternoon tea to be held Nov. 15.

Commentator to Be Featured at Town Hall

Ellie Abel, state department and foreign affairs commentator for one of the major broadcasting companies, will speak Thursday and Friday on "Strategy for Peace" at Birmingham Town Hall.

Both talks are scheduled for 11 a.m. and will be followed by 1 p.m. luncheons at the Bloomfield Open Hunt Club.

Special guests at the Thursday luncheon will be Mr. and Mrs. Richard Van Dusen, Jack Shand, Mrs. George Carey, Mrs. Ralph Backus and Mrs. Sidney Huff.

Special guests at the Friday luncheon will be: Mr. and Mrs. David Kendall, Mr. and Mrs. Robert Spitzley, Mrs. Norville Hubbard and Mrs. Harlan Walter.

The engagement is announced of Sharon Lynn Huwaere, daughter of Mrs. Frank G. Meyer of Briarcliff Knoll and Robert C. Huwaere of Detroit, to Richard Thomas Scholz. His parents are Mr. and Mrs. John E. Scholz of Glen Grove Drive. A May wedding is being planned.

New Regent to Preside at Meeting

Mrs. Robert Adams, new regent of Our Lady of the Lake Circle No. 479 of the Daughters of Isabella will preside at a Monday meeting.

Following a short business meeting Rev. William A. Ross will show colored slides of New Guinea. Father Ross has been there since 1923.

Others taking charge of Monday's meeting will be new officers recently installed by Mrs. Jerome Kozlowski, state trustee from New Baltimore.

Those officers include Mrs. John Denihan, past regent; Mrs. Theodore Boga, vice regent; Mrs. Louis Koprinice, financial secretary; Mrs. Frank O'Neil, recording secretary; and Mrs. Rudolph Stingle, treasurer.

OTHER OFFICERS

Others installed were Mrs. Daniel Scott, Mrs. Mildred Palmer, Mrs. Susan Cary, trustees; and Mrs. Frank Wurgess, Mrs. Stella Wetzel, Mrs. Fern Sturman, Ann Williams, Rose Griffin, Mrs. Joseph Emmerth, Mrs. Andrei Calki, Mrs. Paul Miller and Mrs. Julia Edwards. Marshals are Mrs. Norma Ashton and Mrs. Lawrence Severy.

AFS Unit Discusses Objectives

Three objectives for the year were discussed at an adult meeting of the American Field Service.

They included welfare of the foreign student, stimulation of interest for Americans abroad and foreign students in America, and making the community more conscious of the American Field Service.

Mrs. Charles McLaughlin, president of the group, opened her home for the Wednesday meeting.

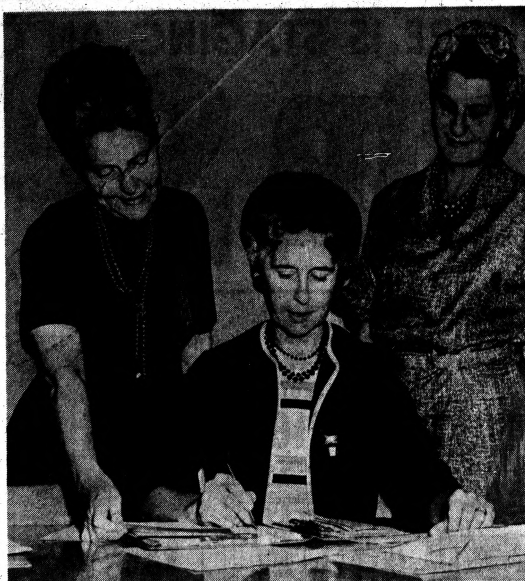

STUDENT GUESTS

Guests present included Marja Bruin, foreign exchange student from Holland, who was accompanied by her adopted parent, Mrs. Fred A. Froede; and Sue Moore, Connie Weber, Ann Devereaux, and Karen Lane, officers of the AFS club at Pontiac Central High School.

Miss Moore, president of the club, reported on "Students Day" which will be held in February. At this time eight foreign exchange students in this area will be entertained for the weekend by Central students.

MRS. ROBERT ADAMS

Mrs. Peter Maringer, Eason Street and Mrs. Clarence McAllister, Clintonville Road (standing, left and right) are local members of the committee for the second annual card party sponsored by the Menscola Guild of Lourdes. Seated is

Mrs. Peter Ward, Livonia, chairman of the party. Proceeds from the 8 p.m. benefit Wednesday at Detroit K of C Council hall will go to the new Lourdes home for the aged and chronically ill on Watkins Lake Road.

Chiefs, Huskies Don Traveling Garb Titles on Line Tonight in 3 Area Leagues

A few area league races will come to a close tonight as the prep gridgers enter the home stretch of the 1964 campaign.

Championships will be at stake in the Wayne-Oakland, Oakland A and Southern Thumb loops, and a real doubt exists only in the latter.

In the W-O, Milford (6-0) is a heavy favorite to take Clareville (1-5) and pick up the title.

Holly (5-1), playing at Bloomfield Hills (3-3) this afternoon, needs a win to stay in contention. Even with a victory, the Broncos should need a Milford upset to share the title.

Other games in the loop have Clarkston (1-5) at West Bloomfield (2-4) and Brighton (2-4) at Northville (4-2).

TROY LEADS

Troy (5-1) has the situation well in hand in the O-A. The Colts can take the title with a win over Lake Orion (0-6) on the Dragons' field.

Madison (4-2) is at Fitzgerald (3-2-1) and Warren Cousino (3-3) travels to Clawson (4-2), and both Madison and Clawson, with

victories, could share the crown if Troy falters.

The other contest in the O-A has Avondale (1-5) at Rochester (3-2-1).

Rochester has been the surprise in the league. The Falcons were picked to occupy one of the bottom rungs on the loop ladder, but the team found itself battling for the lead last week at Troy.

The Falcons took a 33-7 loss at Troy, but they could still remain in the first division with a win over Avondale.

TEAM SLIPS

Brighter things were predicted for Avondale, but the Yellow Jackets have lost the close ones and will finish seventh. The squad will enter the Rochester tilt with a four-game losing streak.

A number of combinations could develop in the cluttered Thumb race.

Anchor Bay (5-1) and Dryden (5-1) share the lead with defending champ New Haven (4-1-1) and Almont (4-1-1) holding onto the second spot.

Dryden has the easiest assignment—a date at Memphis (1-5)

—and a win gives the squad a share of the title.

If New Haven's Rockets, playing host to Anchor Bay, trim the Tars, the Rockets could win the title if Dryden loses.

Almont is in the same boat. A win over Capac (0-6), coupled with losses by Dryden and Anchor Bay, would leave the team in a tie with New Haven.

The other game on the slate finds Brown City (2-4) at Armada (2-4) in a battle for fifth place.

'Moose' Krause, Vows No Bowl for Notre Dame

OCALA, Fla. (AP)—Notre Dame's athletic director says there's "not one chance in a million" that the school's football team, No. 1 in the nation, will play in a post-season bowl.

"Notre Dame's policy will remain the same as it has been since 1925," Ed (Moose) Krause told the Ocala Quaterback Club Wednesday night. "We're not going to any bowl game." Krause was asked by a newsmen if "there is one chance in a thousand" Notre Dame will accept a bowl bid. "There's not one in a million, or perhaps one in a billion—in other words, none," Krause replied.

DePaul, Oklahoma City Top-Seeded in Tourney

OKLAHOMA CITY (AP)—Newcomer DePaul and host Oklahoma City University are seeded first and second in pairings for the 29th annual All-College Holiday Basketball Tournament Dec. 28-30.

Xavier is seeded No. 3 and Creighton No. 4. Other entries in the eight-team tourney are Rice, Louisiana State, Brigham Young and Florida State.

Time Off for Matmen

Professional wrestling is taking a week off in Pontiac. No bouts will be held tomorrow night. The matmen return Nov. 13.

Chance, Koufax Top ERA Pitchers in Two Leagues

New York (AP)—Dean Chance of the Los Angeles Angels and Sandy Koufax of the Los Angeles Dodgers, leading candidates for the Cy Young Award as the majors' outstanding pitcher in 1964, each has another credit mark next to his name today.

Chance captured the American League earned run championship with a 1.75 average the past season while Koufax won the NL crown for the third straight year with a 1.74 mark, figures compiled by The Associated Press revealed.

Koufax posted the lowest National League ERA since Carl Hubbell of the New York Giants finished with 1.66 in 1933. Chance's average was the AL's lowest since 1943 when Spud

Chandler of the Yanks wound up at 1.64.

BIG WINNER

Chance won 20 games and Koufax 19. The Dodgers' ace southpaw was sidelined for the final six weeks of the campaign. He worked 223 innings, 61 more than required to be eligible for an earned run title. He was the ERA leader in 1962 with 2.54 and in 1963 with 1.88.

Don Drysdale, another Dodger, was the NL runner-up with a 2.19 average. He was followed by Chris Short, Philadelphia 2-20 and Juan Marichal, San Francisco, 2-48.

Chicago's Joel Horlen was second in the AL at 1.92. Then came Whitey Ford of the Yankees 2-13 and Gary Peters of the White Sox, the 1963 champion, with 2.50.

Central Visits Flint Opponent

PNH at Wyandotte;
Kettering vs. Bears

Pontiac Northern and Central continue the gridiron campaign on the road tonight, the Huskies seeking to halt a six-game losing streak and the Chiefs trying to extend a modest two-game winning string.

Northern (1-6) takes on Wyandotte (4-3) and the Chiefs (2-4) tangle with Flint Southwestern (2-5) in a Saginaw Valley Conference tilt.

The Chiefs posted wins over Bay City Handy (7-0) and Saginaw (12-4) in their last two outings with solid defensive performances.

A win for coach Paul Dellerba and the Chiefs would give them sole possession of sixth place in the SVC race if Saginaw (2-4) loses to Flint Northern (2-2-1).

After the Southwestern scrap, the Chiefs return home for their final two engagements—Flint Northern Nov. 13 and Pontiac Northern Nov. 20.

OFFENSE BETTER

The Huskies' offense perked up a bit last week at Port Huron, and the team could give the Wyandotte crew a battle. After Wyandotte, the Huskies take a week off before meeting Central.

Games tonight in the Pontiac area include, Lapeer at Waterford, Kettering at Berkeley and Royal Oak Bondero at Birmingham Seaholm.

Moving outside, Walled Lake plays at Plymouth, Ferndale at East Detroit, Royal Oak Kimball at Port Huron, North Farmington at Jackson, Mount Clemens at Hazel Park, Romeo at Lutheran East, Dearborn at South Lyon and Utica at South Lake.

On the Saturday slate, Cranbrook plays host to Nichols School in an 11 a.m. contest and Whitmore Lake takes on Detroit Country Day at 10 a.m.

AFTERNOON TILTS

In games set for 2 p.m., Oxford travels to Lamphre, Birmingham is at Clintondale, Livonia Franklin at Bentley and Emmanuel Christian entertains Richmond St. Augustine.

L'Ause Creuse has a 1:30 date with Chippewa Valley and Oak Park will battle Harper Woods Saturday night.

On the Sunday schedule, St. Michael entertains Orchard Lake St. Mary in a 2:30 tilt at Wisner Stadium, and Farmington Our Lady of Sorrows has a 2:30 date at Ann Arbor St. Thomas.

Hoople Sees Illinois Outlasting Michigan

By MAJOR AMOS B. HOOPLE
Father of the Belly Series

Egad, friends, my football forecasts have been buffeted about severely in recent weeks in the turbulent air generated by the political orators.

Now that the campaign has ended, perhaps we can expect things to return to normal. I trust all of your favorite candidates were successful and that you bear no ill will toward their defeated opponents.

Again this year — um-m — I was compelled to order my loyal supporters to desist in their efforts to elect me to public office.

Some wished me to run for the House of Representatives, others preferred I offer my services to the U.S. Senate — har-rumph!

(Ed. Note: He got two write-in votes for assistant dog catcher).

Enough of politics. Now back to the business at hand.

There are several important conference clashes on this week's card. Most prominent are the LSU-Alabama meeting in the Southeastern loop.

In the Big Ten, Bump Elliott, the Michigan coach who has never lost a game to his brother Pete's Illinois teams, is in for a bumpy afternoon at Ann Arbor.

I predict the invading Illini will capture a thrilling battle, 17-14 — Kaff-kaff!

MANAGER OF THE YEAR — Hank Bauer, manager of the Baltimore Orioles, was named the American League's Manager of the Year today by the Associated Press. Bauer, who took over as Oriole pilot this year, and his wife are shown in their Prairie Village, Kan., home.

Hank Bauer Named Manager of Year

NEW YORK (AP) — Hammerin' Hank Bauer, whose Baltimore Orioles almost nailed down their first American League pennant in a torrid battle with New York and Chicago, was named the circuit's manager-of-the-year today. He won by an overwhelming margin over Al Lopez of the White Sox and Yogi Berra of the victorious Yanks.

Bauer drew 53 votes from among the 83 baseball writers participating in the annual Associated Press poll. Lopez was named on 19 ballots and Berra on eight. Bill Rigney of the Los Angeles Angels collected the other three.

"I'm very flattered," Bauer said at his Kansas City home. "This is quite an honor."

ALL-STAR BREAK
Bauer took over a fourth place club from Billy Hitchcock last season and directed it to first place at the All-Star break. The Orioles were No. 1 for most of the season's second half, finally succumbing to the Yanks, who came on strong to win by one game over Chicago.

The Orioles finished third, two games behind New York and 12 in front of fourth-place Detroit. Bauer, a former Marine and star Yankee outfielder, helped bring out the best in two rookies, pitcher Wally Bunker and outfielder Sam Bowens. Bunker won 19 games and Bowens slammed 22 homers and drove in 71 runs.

The past season was Bauer's third as a big league manager. He piloted the Kansas City Athletics in 1961 and 1962, moving to Baltimore as a coach for the '63 campaign.

Lopez' White Sox, hampered at the start by an injury to hard-hitting third baseman Pete Ward, went into high gear in mid-May and remained in contention for first place the rest of the way.

CHANCE GONE

Maples Defend Harrier Crown

Birmingham Seaholm's harrier team will be looking for its second state, Class A cross-country title in a row tomorrow at Eastern Michigan University in Ypsilanti.

There are 13 schools in the Class A field, including Milford and Royal Oak Dondero. Milford ran second to the Maples last week in the regional meet at Cass-Benton Park.

Seaholm also has a candidate for individual honors in Scott Bradley. Other county runners shooting for the title include Bill Nelson of Milford, Tom Kearney of Bloomfield and Bill Hollis of Pontiac Central.

Eleven schools will be trying to knock off Vicksburg in the Class B division, and 37 teams will be trying to dethrone Ann Arbor St. Thomas in Class C-D.

Liston Makes Concession

'The Look' Changes Plans for 'Lip'

PLYMOUTH, Mass. (AP) — Sonny (The Look) Liston grudgingly admits Cassius (The Lip) Clay is a "fair" fighter. But he hastily adds it is entirely his own fault he no longer is heavyweight champion.

Liston plans to rectify that Nov. 16.

"I'm planning a lot more strategy for this fight than for the last," Liston told a press conference Thursday.

The strategy may have been tipped by one of his aides who watched Clay drill in Boston, took some verbal fire from the titleholder and then snapped back: "Champ, you don't need a sparring partner, you need a pall bearer."

SHOULDER OKAY

Alternately frowning, scowling or staring expressionless at his sparring partners and interviewers, Liston said the left shoulder which prevented him from going beyond the sixth round in his title loss at Miami "is perfect."

Liston, an 11-to-5 choice in the New York line with little action recorded, said he wouldn't try to compare Clay and Floyd Patterson, adding: "I would say Clay is a fair fighter."

"But I just fought a stupid fight," Sonny continued. "I shouldn't have run after him like I did."

"I beat myself. I had something Clay wanted. I should have let him come and try to get it."

Liston does not feel now that Clay has something he wants Sonny will have to do the chasing.

"I don't think so," Liston said. "He has to stop running some time. The referee is entitled to tell him to fight, isn't he?"

FAIR FIGHT

In answer to a question about the Eddie Machen fight, Liston said: "I never did land any good punches with Machen running. I would say it was a fair fight anyway."

The Clay camp frankly wants Liston to get mad. Says handler Angelo Dundee: "Cassius will do everything he can to get Sonny mad. He knows Sonny goes wild when he blows his stack and he forgets all the things he's learned about fighting."

Self-control is one thing Liston has promised himself this time.

"I'm bitter about losing the title but not enough to lose my head this time," Liston said. "As soon as I catch Clay he'll know I'm there."

Boxers of the Month

TORONTO (AP) — The World Boxing Association named Joey Archer, New York middleweight, and Paulie Armstead, Los Angeles lightweight, co-boxers of the month for October in its monthly ratings Thursday.

They also were ranked the No. 1 contenders in their divisions.

Heads Baseball Writers was elected chairman of the New York Chapter of the Baseball Writers' Association on Thursday.

Boilermakers' Mentor Worried About Flying

EAST LANSING (AP) — All football coaches have their pet superstitions.

Like Purdue Coach Jack Mollenkopf is worried because his team plans to fly in and practice in the Spartan Stadium today before the Saturday game that means so much to the Boilermakers.

"This will be our first road trip since Notre Dame," explained sports publicist Karl Klages. "We worked out there and you know what happened to us there—our only defeat."

"In the other two road trips, against Iowa and Michigan, we worked out at home and won. So you can't blame Jack for being a little bit superstitious."

Michigan State badly wants to be a spoiler against the

Boilermakers to help avenge the 6-0 defeat in 1953 that ended a 28-game win streak and the 1957 and 1961 losses that stopped Spartan conference hopes.

NO OFFERS

Purdue has never made a Rose Bowl. The closest the Boilermakers ever came to extra-season honors was in 1943, a war year, when they went undefeated but had no offers.

In 1952, they were tied with Wisconsin for conference honors with identical 4-1-1 records but the nod went to the Badgers.

Klages reported Purdue was in "surprisingly good shape" as far as injuries were concerned. The only players left behind this trip will be Bob Hopp, a starting middle guard, and Rich Ruble, a sophomore end. Both are out with ankle injuries received in the victory over Michigan.

"The theme this week has been to remember the 23-0 shut-out Michigan State handed us last year," said Klages.

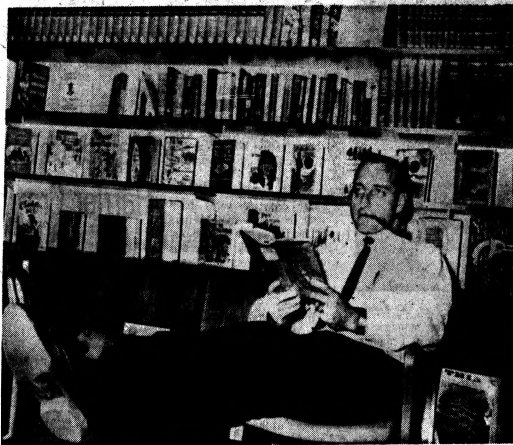

"We know," he said, "that every game from now on is a must. We can't depend on Michigan beating Ohio State to let us sneak in. We've got to win on our own."

Meanwhile, Klages reported, Purdue has great respect for Michigan State as a team that will pose one of the toughest tests of the season.

MORE SLEEP

"Our scouts say the Spartans have finally found themselves. They've combined the running and passing to start clicking with a vastly improved defense," he said.

Mollenkopf threw off one good quip. "I'm sleeping better these nights," he confided to a meeting of downtown coaches. "No more sleeping pills. I'm down to tranquilizers."

COACH LIKES HISTORY — Vincent Dooley, who was on the verge of becoming a history professor until picked by the University of Georgia to be its football coach, sits among books in the university's library. He has directed the Bulldogs to a 4-2-1 record.

Grid Mentor Studies History

Coach's Request Stuns Librarian

ATHENS, Ga. (AP) — If the librarian at the University of Georgia was shaken when the university's new football coach walked in and asked for a guided tour, what do you think the professors will think when the coach shows up for class?

Vincent Joseph Dooley didn't see anything unusual about his interest in the library, but the speechless librarian, W. Porter Kellam, hadn't been around many football coaches who behaved in this manner.

Kellam was soon to find out, however, that the 32-year-old Dooley is as much of a man of letters as he is of the rough and tumble world of college football.

Now Dooley says he may return to the classroom to study more about his first love—history.

PRIVATE FILE

A visit to this young coach's office reveals that one deep file drawer in his desk is filled with leaflets and data about places of historic interest. His present reading material consists of a book about Georgia and another about Germany in the time of Adolf Hitler.

Dooley was graduated from Auburn in 1954 and then spent two years in the Marine Corps, from which he was discharged as a captain in 1954. He immediately returned to Auburn and earned his master's degree in history. He received the degree in 1963 while a member of the school's football coaching staff.

His master's thesis, on Jeffersonian Democrats in Alabama in the 1930s, was considered of doctoral quality by the men who graded it. It also put Dooley at the point of decision—whether to teach history or coach football.

"I didn't give much thought to teaching until I got my Masters," Dooley confided. "But there I was, at Auburn and an assistant coach and with not much chance of going anywhere as a head coach."

SECURITY VIEW

"I tried to look at the thing with a long-range plan—from the money standpoint, the security and all that," he said. But before Dooley could settle back with his pipe to study and teach history, one of his long-time friends, athletic director Joel Eaves of Georgia, tapped him for Georgia's head coaching job.

Dooley has coached the Bulldogs to a 4-2-1 record this year and is in the thick of the battle for the Southeastern Conference championship. His job hasn't been easy; Georgia

city of Georgia to be its football coach, sits among books in the university's library. He has directed the Bulldogs to a 4-2-1 record.

was picked to finish ninth in the 11 team SEC race.

"Football has taken all my time since coming to Georgia," Dooley said. "But I still manage to read some history every day—even if it's just 30 minutes before I go to sleep at night."

"It's very relaxing to me to be able to think about something besides football—to escape from all of it," he said. "I missed a lot of courses in college that I still want to study and would like to go back to school here as soon as time permits."

"By the way," he added. "This little chat has stimulated my interest in the subject all the more. I wish I had time to go to the library now."

Suburban 11s Raising Funds Through Tilts

Members of the Walled Lake Beavers and Lakeland Lakers Suburban Midget Football Conference organizations are busy promoting their annual fund raising games this week.

Six of the nine units will be playing at West Bloomfield High School stadium beginning at 1 p.m. Sunday. They will include the freshmen, junior varsity and varsity squads of the Walled Lake Beaver Red Devils and the Lakeland Lakers.

The Walled Lake Beaver Blue Devils will journey to Troy where they will meet the Comets in their annual fund raising games, also starting at 1 o'clock.

There are 10 organizations having three teams each in the conference. They are only permitted to charge admission in the final game of the season.

Proceeds from the game ticket sales and the annual pre-season candy sale go to provide uniforms, equipment and to cover expenses incurred during the season.

Tickets are priced at \$1.

Illini Invade U-M Saturday

Last Home Game for 'M This Season

ANN ARBOR (AP) — Michigan displays its nationally top-rated rushing attack and its conference-leading defense before the home fans for the last time this season when it plays host to Illinois Saturday.

The Wolverines have two more Big Ten games on their football schedule after the game with the Illini—at Iowa next Saturday and at Ohio State a week later.

Much of the attention paid to this game stems from the fact that the rival coaches, Michigan's Bump Elliott and Illinois' Pete Elliott, are brothers. And Pete hasn't seen his team defeat his older brother's boys in four previous meetings.

The roles of the two teams are almost reversed from what they were a year ago.

Then, Illinois was on its way to a league title and the Rose Bowl game. Michigan, floundering for much of the season, came up with its best game and defeated the Illini, 14-8.

Illinois had to scramble but defeated Michigan State on the last day of the season and went on to win in the Rose Bowl.

Michigan has the chance to make the trip this year but anything short of a victory Saturday will just about eliminate the Wolverines.

Illinois leads the league offensively in pass completion average and in fewest number of fumbles lost.

Defensively, it has allowed four touchdowns in 12 first downs a game, limited them to an average of 58 plays a game, intercepted more than three passes a game and boasts the conference's best pass defense.

Michigan has an average of 22 first downs, has averaged slightly less than 375 yards a game—283 of them coming on the ground—has averaged 4.5 yards a rush and has had fewer passes intercepted than any team in the league.

BEAT MSU

On defense, the Wolverines have held their opponents to only 206 yards gained per game, an average of 3.4 yards a play, and are second in number of first downs allowed with 13.

Michigan quarterback Bob Timberlake, the league scoring leader with 44 points, still is the main cog in the Wolverines' attack.

He is the league's fourth leading rusher with 190 in rushing and third in total offense.

Michigan has scored five straight victories and leads in the series, 32-17.

Shirley Spork Wins Pro-Am Tourney

MIDLAND, Tex. (AP) — Mickey Wright is the pre-tournament favorite but it was Shirley Spork, a reformed from Palm Desert, Calif., who made off with low pro honors in the Tall City Open Pro-amateur Thursday.

Miss Spork fired a three-under par 68 to lead the field of five of the women pro bettered regulation in the tune-up event for Friday's start of the \$9,000 Open.

Miss Wright, the leading money winner, was one stroke back of Miss Spork. Joann Prentice, with a 72, led the winning pro team.

The Pro-amateur distributed \$1,000 in prize money.

Colts' Rookie Back Fined for Incident

BALTIMORE, Md. (UPI) — Rookie fullback Joe Don Looney was fined and placed "on probation" by the Baltimore Colts pro football team today as a result of his run-in with the law on an assault charge.

But at the same time, Colts general manager Don Kellert said that Looney, a former University of Oklahoma star, "shouldn't be castigated where this has happened just once."

Looney got into hot water Tuesday night when he called at a Baltimore apartment occupied by Robert Schu and his family.

Schu said in a complaint later that Looney, who was unknown to him, was looking for girls who had formerly occupied that apartment.

"Where are the girls?" Schu quoted Looney as asking. When told that they no longer lived there, Schu said Looney went

away but later returned with a friend, Preston Smith of Dallas, Tex., and battered down the door of the Schu apartment.

Schu said Looney and Smith then assaulted him and a guest while Schu's wife and infant child looked on.

Looney and Smith were fined \$150 yesterday by municipal court Judge J. Sewell Landin, who told them, "If this had happened at my house, I would have shot you both."

The amount of the fine levied on Looney today by the Colts was not disclosed.

Colt's coach Don Shula, who announced the fine, said, "He is now on probation with us. He violated a club policy and committed an act detrimental to the team. What happens from now on will depend on his conduct."

Looney is sorry this happened and is sorry, too," said Shula. "He has worked real well since he came to us. I have no complaints on that subject."

Although Looney never has had trouble with the law before, he had a stormy career in football. At the University of Oklahoma, he was dropped from the squad in his last year after a slugging incident involving a student assistant coach.

Johnston Leading Aussie Pro Tourney

SYDNEY, Australia (AP) — Colin Johnston of Australia shot a seven-under-par 65 today in the second round of the Australian Professional Golf Championship for a two-round score of 132.

Johnston's score was the lowest ever at the halfway point in a major Australian tournament. The championship is being played at the Monash course where Johnston, the defending champion, is the club pro.

His 65 broke the course record of 66 set in the opening round by Eric Crenn of Australia Thursday.

Crenn, who had a 69 today for a midway total of 135, trailed the leader by the strokes. Ted Ball of Australia ranked third with 137, followed by Australian Bruce Devlin at 139.

Arnie Palmer Tops at Bank

DUNEDIN, Fla. (AP) — Arnold Palmer continues to lead the way to the bank among professional golfers, with Jack Nicklaus at \$19 behind.

The Professional Golfers Association reported Thursday that Palmer's winnings amount to \$111,703 and Nicklaus' are \$111,384.

Bill Casper Jr. was third with \$90,653; followed by Tony Lema at \$74,130 and Bob Nichols at \$74,012.

It will be bon voyage next Wednesday for the five 300 Bowl team members that comprised the 1964 American Bowling Congress regular division team champion as they fly to the Federation Internationale des Quilleurs zone competition at Caracas, Venezuela.

Team captain Larry Crake, Joe Foster, Les Rothbarth, Bob Murphy and coach George (Chico) Chicosky (fresh from a bout with appendicitis) have been anxiously awaiting their departure.

They will represent the United States along with nine other 1964 ABC and Women's International Bowling Congress tournament stars in the amateur bowling tournament that is rapidly gaining international fame.

Top Passer at Austin College

Football for Fun Yields Bowl Bids

SHERMAN, Tex. (AP) — At Austin College, where football is strictly for fun and there are no scholarships, a bowl team appears to be brewing.

The brew master is Jerry Bishop, who flings the ball high, wide and handsome. He's among the nation's small college passers with 111 completions for 1,483 yards and 14 touchdowns in six games. His

completion average is a gaudy .609. It has brought the team a 5-1 record.

Austin College already has a bowl bid — Mexico City has invited it to play the champion of that city's eight colleges Dec. 5.

BIG SHOW
But the Kangaroos have just returned from Mexico City where Bishop put on a big show

in leading Austin College to a 38-27 victory over Mexico Poly. He completed 28 of 38 passes for 411 yards and three touchdowns.

They liked that in Mexico and thought he would be quite an attraction in their Astor Bowl. But Coach Floyd Gass says Austin College hardly would want to return to Mexico City — they've already seen everything down there.

But Austin College has a feeler from a bowl game it might like to play in — the Mineral Water Bowl at Excelesior Springs, Mo. Austin College was in this game in 1960, losing 21-20 to Emporia, Kan., State.

"We'd like to play in a bowl game," said Gass, "but we have three games to play and will have to see how we come out in those first."

ANOTHER YEAR

Bishop, who has another year at Austin College, came to the school from Olney, Tex., where he was on the team with Harold Phillips of Texas and Jim Grisham of Oklahoma.

Jerry wanted to play here because he liked the pro offense of Gass, former Oklahoma high school coach. Jerry was interested in a place where he might throw the ball.

He got a lot of other folks interested in it, too. Two pro teams already have scouted the 6-foot-1, 185-pound quarterback.

At Austin College they give no scholarships, don't even have spring training, but Gass said he had found it very pleasant and rewarding to coach here.

"We get a smart boy in the first place because of our stiff entrance examinations," he explained, "and they go all out, even if all they've got and ask little in return. They play for fun."

The Kangaroos think it would be fun to play in a bowl game, too.

Rider Peeved Over Figures on Race Firsts

SAN MATEO, Calif. (AP) — For a man about to be honored and photographed again, Johnny Longden was uncharacteristically peevish.

The 57-year-old reinsman stepped into the winner's circle at Bay Meadows Thursday and shook hands with former world's light-heavyweight boxing champion Archie Moore as camera flash bulbs ignited.

"Hazel is right," snapped Longden. "And I will bet on her figures."

The modest ceremony mainly was for Longden's 5,900th lifetime winner, more than any other jockey in history.

But Longden contended he had 5,903 winners in his 37-year career which were faithfully recorded on a mechanical device by his wife, Hazel.

DOUBLE CHECK

Dick Nash, public relations man at Santa Anita, also was around. He said a check, research and rechecking uncovered only 5,900. The Daily Racing Form says 5,903.

Longden, oldest active jockey, is well ahead of Willie Shoemaker who picked up his 5,000th winner two weeks ago.

The \$2,000 claiming race was named the Archie Moore Purse. Longden won on Wake Landling.

Severed Arm Functions

Cager Passes 1st Crisis

OKLAHOMA CITY (AP) — Basketball player Bob Swaffar passed the first crisis successfully Thursday in an aftermath to surgery to reimplant his severed right arm.

Surgeons say perfect function of the arm if all goes well is not to be expected. Swaffar would face a long period of physical therapy and carefully regulated activity.

Doctors said the first critical period would be the first 72 hours following the reimplantation. That period passed at 8 a.m. Thursday with no complications.

'LOOKS GOOD'
The hospital said the reimplanted arm "looks good and circulation is good." Swelling also had decreased. Swaffar's mental outlook was described as "as good as could be expected."

Swaffar's arm was severed when it was caught in a water extraction machine in the OSU athletic department's laundry Sunday night. The arm was

packed in ice. Swaffar was given emergency treatment and sped 66 miles to Oklahoma City, where a team of surgeons reimplanted the arm in a six-hour operation.

California's heavy hitting Mike Epstein will get a tryout with the Baltimore Orioles next spring after signing a bonus contract with the American League baseball club.

Epstein gave up his final season of eligibility to take the offer after leading the Cal batters last spring and also compiling the best average on the U.S. team which toured Japan in conjunction with the Olympic Games.

County Roads Get \$1 Million

Funds Are Distributed
From State Collection

The Oakland County Road Commission will receive \$1,047,714 as its share of third-quarter Motor Vehicle Highway Fund collections, the State Highway Department announced today.

The City of Pontiac will receive \$145,885 from the same fund.

All state gasoline and diesel fuel taxes and license plate fees go to the Motor Vehicle Highway Fund.

The State Highway Department keeps 47 per cent, Michigan's 82 counties receive 35 per cent and 18 per cent goes to the 521 incorporated cities and villages in the state.

Wayne County will receive \$3,394,789, the largest amount to be distributed. The village of Lake Angelus will receive the smallest amount, \$227.

Other Oakland County cities and villages will receive the following shares:

Birmingham, \$37,551; Bloomfield Hills, \$6,358; Clarkston, \$1,333; Holly, \$6,138; Keego Harbor, \$3,864; Lake Orion, \$4,206; Leonard, \$1,221; Milford, \$7,733; Orchard Lake, \$2,962; Orionville, \$1,480; Oxford, \$4,383; Rochester, \$2,547; Sylvan Lake, \$4,327; Wolverine Lake, \$4,553.

Bomber Crash Toll Climbs to 10 Dead

EL CENTRO, Calif. (UPI) — A 10th person has died as the result of last week's jet bomber crash and fire during a Navy day observance at the Naval air facility here, officers reported.

Mrs. Shirley Thompson, 27, wife of serviceman Joe Thompson and mother of six, died yesterday at the Naval hospital in San Diego, Calif.

Nine other persons were killed when the twin-engine Navy bomber crashed in flames into the Navy post exchange complex Oct. 27. More than 20 others were injured. Cause of the crash is under investigation.

Runaway Ox Hurts Four in South Africa

JOHANNESBURG, South Africa (UPI) — An ox escaped from a slaughterhouse yesterday and charged down this city's main street. Four persons were injured, including an elderly woman who was gored.

The animal leaped through the plate glass window of a furniture store before police shot it to death.

Woman With Political Savvy

'Tigress' Leads Tammany Hall

NEW YORK (U) — A pretty, 40-year-old brunette has become the first woman to rule Tammany Hall.

Mrs. Charlotte Spiegel, 100 pounds of political savvy, says she's "quite breathless" about heading the Manhattan Democratic organization, even though the job may last only a few weeks.

Mrs. Spiegel, wife of Judge Samuel A. Spiegel of Civil Court and mother of two teenage daughters, was put in the chief's chair by Edward N. Costikyan when he resigned yesterday as New York County (Manhattan) party leader to devote full time to his law practice.

Costikyan's resignation won't become effective until Dec. 5. But he said he had asked Mrs. Spiegel — first woman elected as chairman of the Democratic County Committee's Executive committee — to serve as acting leader until the Executive Committee elects a successor.

Mrs. Spiegel, a former schoolteacher with a master's degree in English, will have to spend much of her time talking with party district leaders on the telephone and in her Democratic clubhouse on the Lower East Side.

She has the job of keeping the Tammany "Praves" happy and maintaining peace in the wigwam.

Mrs. Spiegel has been co-leader of her largely Puerto

Rican district for nine years. And if there's any place where political know-how is a must, it's in a Lower East Side party clubhouse.

She did so well that Costikyan put her in as chairman of the County Executive Committee in 1963.

Charlotte Spiegel looks nothing like a politician. She's 5 feet 1, has a youthful figure and is quiet-spoken. Yet she's been close to politics since childhood when her uncle, Isidore Greenbaum, was an official of a Democratic club.

Mrs. Spiegel follows a long line of noted and notorious male predecessors as chief of Tammany Hall — founded in 1787 as the Society of Tammany and

21 Koreans Die as Bus Plunges off Big Cliff

SEOUL, Korea (U) — Twenty-one Koreans were killed and seven others seriously injured today when a passenger bus plunged 300 feet off a cliff near Kwasan, 70 miles southeast of Seoul, National Police reported. Police said most of the injured were in critical condition. Police said a tire came off a front wheel of the bus on a steep mountain road.

Accused in Slayings

Gravlin Exam Starts Monday

Preliminary examination of William Gravlin, 30, will begin again Monday at 1:30 p.m. in Troy Municipal Court before Judge Charles H. Losey.

Gravlin is accused of slaying his wife, daughter and five stepchildren on Sept. 27 in their small frame home in Troy.

The examination was halted three weeks ago when a sanity hearing was requested by Robert A. Rann, Gravlin's court-appointed attorney.

The accused slayer was declared mentally competent to stand trial by Circuit Judge James S. Thorburn after hearing the testimony of a panel of doctors and a lawyer on Oct. 29.

Gravlin has been undergoing further mental tests in Ann Arbor this week.

Take It or 'Leaf' It Alone

Squash That Dislike for Okra

By DICK WEST

WASHINGTON (UPI)—I have discovered within the past few weeks that we have in this country a hard core of resistance to okra.

This shocking state of affairs became apparent to me in the letters I received regarding my recent report on a new organization

WEST

called the Okra Institute of America.

Most endorsed the institute's contention that okra is one of mankind's greatest blessings and untapped natural resources.

But some came from children of darkness who shrink from the glow of truth and enlightenment.

Typical of the anti-okra reaction was this missive from a citizen of Lansing, Mich.:

SOUTHERN GIRL
"Having married a girl from the South, I have been subjected to continual pronouncement concerning the virtues of said vegetable. Nevertheless, I have steadfastly refused to embrace okra in my diet."

"After reading your column, I think I see a way to strike back at my tormentor. If you can supply me with the address of the Okra Institute, I would like to make arrangements to enroll my mother-in-law as a charter member."

Gad, sir, are there no longer any limits to decency? Apparently this revenge-mad Yankee believes that enlistment of this dear, sweet southern lady in the okra crusade would sabotage the entire venture.

All that he has done, however, is display his own ignorance by implying that okra is a regional dish, adored only on the Dixon side of the Mason-Dixon Line.

ANCIENT HISTORY
Actually, of course, the love of okra is as old as history and knows no boundaries. Okra devotion is as endless and deep as the ocean.

Pope Presides at Ecumenical

Missionary Role of Church to Be Aired

VATICAN CITY (UPI)—The Ecumenical Council comes to grips with the missionary role of the Catholic Church today in a precedent-shattering session presided over by Pope Paul VI.

Not since the Middle Ages has a Pontiff attended a council session in a working role. Pope Paul normally monitors council debate on closed-circuit television in his study.

The Pope's appearance before the 2,000 cardinals and bishops dramatizes his interest in Catholic mission work. He plans to attend the Ecumenical Congress in Bombay early next month, a further indication of the priority he has given the missionary church.

Pope Paul VI and his predecessor, the late Pope John XXIII, have stayed out of the actual working proceedings of the council in order to leave the delegates as free as possible to express their own views.

Paul appeared at the opening of the current session. Pope John attended the closing session of the 1962 council, but it was an informal appearance in which he saluted the delegates.

INTERRUPTED DEBATE
Pope Paul's presence today interrupted council debate on the role of the church in the modern world to take up the missionary question.

Propositions in a missionary document called for increased activity by mission priests in underdeveloped countries and lamented the "de-Christianization" which has occurred in many areas of the world.

In recently enumerating some of the wonders of okra, I pointed out that it holds promise as a blood plasma substitute and as a treatment for ulcers. Let me now enlarge this list.

New research indicates that okra stalks can be used in the manufacture of paper. Other experiments involve the use of okra as a material for fabrics.

There is an okra seed oil and an okra seed meal. The Okra Institute has hopes that some company will soon bring out an okra baby food.

OKRA-COLA?
These developments barely scratch the surface of the okra potential. I'll wager that some day we'll have an okra beverage okra-cola and an okra dessert.

Fantastic, you say. It may seem so, but I'm convinced that the country that conquers okra will rule the world.

Says Starlings Destroy \$2.5 Million in Fruit

Fire-Hit Firms Want Return to Old Site

LAKE ORION — Two businesses forced into temporary quarters by the Oct. 25 fire which gutted the Masonic Temple building on Flint are willing to move back in, if and when a new building is constructed.

Both Gaylord's Insurance & Real Estate and gift shop operation and Burde's Variety Store are in temporary locations at present.

And both are giving shop-

pers the advantage of half-price or better on merchandise on the shelves at the time of the \$100,000 fire.

For owner Lawrence W. Gaylord, the object of the sale is to get the partially damaged stock off his shelves at the old Shafer Motor Sales showroom at 135 S. Broadway.

Gaylord said that Christmas goods are already coming in,

but that shipments will stay unopened until the damaged merchandise is gone, probably in less than two weeks.

READY TO GO

He said he is ready to move back into the Flint Street location if the Masonic Building Association elects to rebuild the burned structure, and that he has informed that group of his willingness to do so.

W. E. Burde, however, said that he wants to wait until he is sure that he can move into a store fifth essentially the same advantage the old one had.

That includes a four-corner location and "refixturing," according to Burde.

Burde's damaged goods are also on sale right now, but he has made no definite plans for the future when the merchandise is sold.

TEMPORARY QUARTERS

Temporary quarters for the Burde operation are one block north of the old location, at 103 N. Broadway.

Burde said that he sustained more than \$30,000 in damage because of the fire, and that it was almost completely covered by insurance.

Gaylord estimated damage to his gift items as about \$2,500, but said that this was a very rough guess. He was covered "to a good extent" by insurance.

The two organizations which lost their headquarters because of the blaze are using temporary meeting places, too.

HOLD MEETINGS

Orion Chapter No. 340, Order of the Eastern Star, met at the Methodist Church House last night, and the Oxford Lodge is acting as host for the Orion Masonic Lodge No. 46 meetings.

Walls of the upper floor Masonic Temple are still standing, but they remain a hazard to passersby and the sidewalk is ripped off.

Bricks have been falling, but it is not known if the entire wall is likely to collapse.

Smorgasbord in Commerce

COMMERCE TOWNSHIP—A variety of good things to eat will be offered to those attending the annual fall smorgasbord at Commerce Methodist Church tomorrow.

Dinner will be served from 5:30 to 7:30 p.m. at the church, 1158 W. Commerce. Tickets can be purchased at the door or by telephoning Mrs. Leslie Parrish, 4980 Ponderosa.

NEWS OF THE AREA

Guest Preacher to Speak at Big Beaver Methodist

TROY—Guest preacher at the Big Beaver Methodist Church Sunday will be Rev. Maurice E. Glasgow of Muliken. He will preach at both the 9:30 and 11 a.m. worship services.

The Rev. Mr. Glasgow comes to Troy as part of the Michigan Outreach program of the Methodist Church. There will also be a special preaching mission at 7:30 p.m. Sunday, Monday and Tuesday with the Rev. Mr. Glasgow as the principal preacher.

As another feature of the program the Big Beaver pastor, Rev. Albert E. Hartog, and the guest minister will conduct prayer and Bible study sessions at 10 a.m. Monday and Tuesday.

The Rev. Mr. Glasgow is a

3 Musical Programs Scheduled

WALLED LAKE — Three special musical programs have been scheduled for this weekend in conjunction with evangelistic services now being held at the Walled Lake United Missionary Church.

Rev. Joshua Stauffer, Bible teacher at Owosso College, will conduct the last of the weekday services tonight at 7:30.

Appearing with him are Margaret Kellogg at the pianino and pianist Betty Rastrick.

They have planned a special children's program featuring music and puppets for 1:30 p.m. tomorrow.

A youth night program is scheduled for 7:30 p.m. Saturday and will be geared to the interests of young people.

SACRED MUSIC

At 3 p.m. Sunday Miss Rastrick and Miss Kellogg will present a concert of sacred music, both vocal and instrumental.

A Sunday school rally will be held at 10 a.m., with regular services at 11 a.m. and 7 p.m. The church is located at 1795 Pontiac Trail.

Guest Minister in Avon Twp.

AVON TOWNSHIP—Elmwood Methodist Church will have as guest minister Rev. Donald Russell of Byron Center for services Sunday through Tuesday.

Rev. Russell will provide leadership in the Elmwood Church for the Michigan Methodist Outreach Program, speaking each day at 7 p.m.

He also will conduct three seminars on visitation and two studies in the practice of prayer. This preaching, teaching, visitation program is a part of the Michigan Area Evangelistic emphasis of the Methodist Church to reach the unconcerned, the indifferent and the unburied people of the community.

Mr. Russell is pastor of the Byron Center Methodist Church where he has been ministering for the past four years.

Mrs. Lena Winegar's Party Is Tomorrow

100th-Birthday Fete for Area Woman

OXFORD TOWNSHIP—If the old saying, "The first 100 years are the hardest" carries any weight, Mrs. Lena Winegar today faces an easy life ahead.

The spry little old lady reached the century mark yesterday, but her celebration will be tomorrow so about 45 members of her family can be on hand to mark the event.

Hosts for the party will be her daughter and son-in-law, Mr. and Mrs. C. H. Teague of 255 Spetia, with whom she had made her home since her husband died in 1931.

Besides Mrs. Teague, Mrs. Winegar has another daughter, Mrs. Charles Butler of Three Rivers; two daughters-in-law, Mrs. Clare Winegar and Mrs. George Winegar, both of Morrice; 11 grandchildren, 35 great-grandchildren and six great-great-grandchildren.

Her daughters, daughters-in-law and about 40 of her other descendants will gather at the Teague home tomorrow to honor the matriarch of the family.

QUITE ACTIVE

Born in the small Shiawassee County community of Morrice, named after her grandfather, William Morrice, the charming centenarian was quite active socially in her younger days.

Among the organizations she joined then was the Order of the Eastern Star of which she is a life member.

Mrs. Teague says she is al-

ways trying to find "busy things" to keep her mother occupied.

Mrs. Winegar reads and sews a lot and is vitally interested in the doings of every member of her family.

TEMPERATE WOMAN

According to her daughter, she may have lived a hundred years because she has always been a temperate woman.

She practices moderation in everything, especially eating. She eats just small portions of food and has never had any extended illnesses.

Mrs. Winegar is alert to all that goes on around her and occasionally wears glasses to read or sew.

But visiting with her family is her chief delight, and she'll have plenty of opportunity to do just that tomorrow.

Alaskan Tour Slides

to Be Shown to PTA

ROCHESTER — An Alaskan vacation tour, by means of slides and narration, awaits the members and guests of North Hill PTA when that group meets at 8 p.m. Monday.

Ray Beran will present a firsthand report on his trip to Alaska as the program for the evening. President Lyle Windigland will conduct the business session.

Lively Board Session Expected

To Air School Plans in Holly

HOLLY — A give-and-take public session on a proposed \$775,000 school building program will be held here Monday night.

Members of the Holly Area Board of Education will give residents their reasons for formulating the bond issue they will offer for voter approval Dec. 14.

They then will take suggestions from those present on various aspects of the proposition, possibly incorporating them into school plans.

Board members also hope to receive the support of local citizens at the meeting which will kick off the bond-issue campaign.

While urging everyone to attend the 8 p.m. program in the Holly High School student center, they have sent special invitations to residents who previously have demonstrated an interest in the schools.

EXTRA \$2

If approved, the building program is expected to cost district taxpayers an extra \$2 per \$1,000 of assessed property valuation.

The 2-mill levy would be added to the present 22.7 mills, seven of which are used to retire bonds, according to schools Supt. George Garver.

The board is seeking the new issue to construct additions to Davisburg and Patterson elementary schools.

The larger portion of the sum—\$660,000—would be used for

a 31,000-square-foot addition to Patterson.

MORE THAN DOUBLE

The construction would more than double the size of the unit which opened last January. It would include 15 classrooms and a large multiuse area.

Incorporated into the multiuse area would be administrative offices, a library, eating area, facilities for a limited

physical education program and a kitchenette to serve public meetings held at the school.

A 5,000-square-foot wing at the Davisburg unit would provide four classrooms and some auxiliary space.

Estimated cost of the construction, which also would bring the existing building up to state fire marshal's specifications, is \$115,000.

Orchard Lake Petitions Due by Tomorrow Noon

ORCHARD LAKE — Candidates for Orchard Lake's first city council and its first municipal judgeship have until noon tomorrow to file their nominating petitions.

A six-member council and a judge will be elected Dec. 8 to take office if the proposed city charter is adopted then.

Nominating petitions, due with the village clerk by noon tomorrow, must bear the signatures of at least 25 but not more than 50 of the village's registered voters.

The last day to register for the December election is Monday and the Village Hall will be open from 8 a.m. to 8 p.m. then to sign up voters, according to Clerk Mrs. Lucille Smith.

Under the proposed charter, the city council would correspond to the present village commission, now headed by a president. A mayor would be elected from within the council.

COUNCILMEM'S TERMS

In the initial council race, the two highest vote-getters

would serve for three years, the next two for two years and the next for one year. Thereafter, all council terms would be for three years.

One difference in the proposed council and the existing commission is that a councilman would not be paid the \$1-a-month now allotted to a commissioner.

515 Steers Make Trip by Water

NEW YORK — In one of the longest cattle drives in history, the cattle didn't walk a mile.

Last year a herd of 515 Santa Gertrudis steers traveled 2,536 miles from deep in the heart of Texas to a town south of Pittsburgh entirely by the inland waterway system.

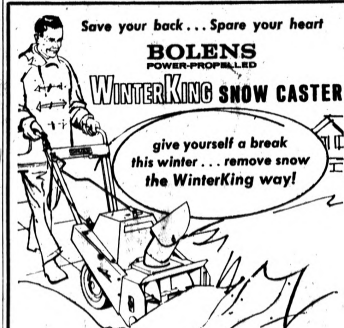

Steelways magazine, published by American Iron and Steel Institute, says the trip was so smooth that the animals gained an average of 70 pounds per head, instead of losing that much, as often occurs during such a long trek.

The cattle drive is an example of the rising amount of cargo being carried over the 29,000 miles of navigable inland waterways in the U.S.

In 1962 a total of 19.7 billion ton miles traveled by inland waterways, according to U. S. Army Corps of Engineers.

Pupils and Teachers Meeting in Chicago

John Adomitis, 327 E. Walton, Pontiac Township, and his science instructor, Alan Garwood, 5420 Brunswick, of Pontiac Northern High School, are among six Michigan top science students and their instructors who are guests of Consumers Power Co. at the Sixth National Youth Conference on the Atom in Chicago.

Purpose of the conference is to present to a group of the United States' most able high school science students and teachers an authoritative and inspiring picture of peaceful uses of the atom, according to Charles F. Brown, manager of Consumers Pontiac Division. Authorization for the trip was given by the individual school boards.

Sixty-two investor-owned electric utility companies serving 38 states are cooperating with the Future Scientists of America Foundation and the National Science Teachers Association.

More than 700 persons from all parts of the country are participating in the three-day conference which ends tomorrow.

Included in the conference is a tour of the Argonne National Laboratories, the U.S. Atomic Energy Commission experimental station 25 miles southwest of Chicago and the Dresden Nuclear Power Station.

Find Stolen Writings at Yale Library

NEW YORK (AP)—Yale University has discovered that eight rare Greek manuscripts stolen from the Library of Saragossa cathedral in Spain at least 20 years ago are in a Yale Library in New Haven, Conn., the New York Times said today.

The Times said the manuscripts are among the 200,000 library treasures in the recently opened Beinecke Library of Rare Books and Manuscripts.

The newspaper, reporting that the discovery was made yesterday, said the books were traced by Francisco Rodriguez Adrados, professor of Greek philosophy at Madrid University, a few weeks after the conviction of four men accused of the theft in Saragossa.

The professor said in part: The professor said a collection of priceless books, dated from the beginning of printing and stolen at the same time as the manuscripts, was in the British Museum in London. Heitman W. Liebert, the Beinecke librarian, checked catalogues and said in a telephone interview yesterday that Yale acquired the manuscripts in 1957 "in good faith from a highly respected American dealer." He declined to identify the dealer.

AGAINST POLICY

Yale authorities said it is their practice not to disclose the prices or values of library acquisitions.

Defeated Keating Plans to Stay Active in Politics

WASHINGTON (AP)—Despite his defeat in last Tuesday's election, New York's Sen. Kenneth B. Keating intends to remain active in politics.

"I've no plans to seek another elective post," the 64-year-old Republican said in an interview in his Washington office, "but I'm not going to retire."

His plans are still up in the air and he's in no hurry to rush them now. He expressed hope they might include some form of government service.

First, however, is an extended vacation on St. Thomas in the Virgin Islands, beginning Sunday.

DEFEATED BY BOBBY

The white-haired senator was defeated by Democrat Robert F. Kennedy in an election which saw President Johnson carry New York State in a massive landslide. Johnson won New York over Sen. Barry Goldwater by more than 2.6 million votes. Kennedy bested Keating by about 650,000 votes.

Keating feels that he ran a good race and said he was gratified by the record number of New Yorkers who split their tickets to vote for him.

He harbors no ill feelings toward Kennedy and has already agreed to brief the former attorney general on New York congressional matters when he returns from the Caribbean.

Both were members of a delegation which appealed Thursday

at the Pentagon for continued operation of the Brooklyn Navy Yard.

IN GOOD SPIRITS

Keating, who appeared relaxed and in good spirits after more than two months of intense campaigning, said he felt good but had lost 11 pounds since the early part of September.

After he leaves office in January, he plans another extended

vacation when he hopes to decide his future.

Keating said he has already had some "friendly feelers" but declined to say who they were from or what type of work they involved. He expressed hope that some form of public service might lie in his path but said he had had no contact with administration leaders about this possibility.

Keating wasn't specific about the type of public service he had in mind, but two possibilities

might be service in the diplomatic corps or appointment to a regulatory agency.

BASEBALL CZAR

He also has been mentioned in some circles as a possible successor to Ford Frick, retiring baseball commissioner, but Keating said no one in baseball had contacted him about that.

He doesn't count out returning to the practice of law and said he'd also like to help the Republican party rebuild itself in a

moderate image. He talked of no specific role for himself, however.

Keating already has called for the resignation of Dean Burch as Republican national chairman and said Ray Bliss, Ohio state chairman, might be a good choice to succeed Burch and unite the GOP.

Keating's 18 years of congressional service — six in the Senate and 12 in the House — entitle him to a pension in excess of \$10,000 a year.

School Board OKs Formation

Waterford Citizens Unit Clears Hurdle

Waterford Township Board of Education members last night put their stamp of approval on the creation of a proposed citizens advisory committee on community problems.

Suggested by Supt. of Schools Don O. Tatroe, the committee would consist of several persons appointed jointly by the school board and township board.

The question of establishing the committee will be on the night agenda.

General purpose of the committee which would include clergymen, businessmen and professional people would be to study and offer recommendations

for the remedy of social problems where they exist.

Among the social problems cited by Tatroe that would receive committee attention were juvenile delinquency, the school dropout situation and absenteeism.

EXAMINE CONDITIONS

Besides studying problem areas and making recommendations for correction, the committee also will be charged with examining conditions which contribute to social problems.

If the committee concept is approved by the township board, the two governing units then would begin considering appointments.

The comprehensive community problem study probably would take a year, Tatroe said.

In other business last night, the school board authorized establishment of a planning committee to prepare curriculum recommendations and educational specifications for new high school facilities.

FOLLOWED REPORT

The action followed a report from Roy J. Alexander, secondary school coordinator, that expanded high school facilities will be needed by the 1967-68 school year.

Presently the high school enrollment total is 2,776 in two buildings. Alexander estimated an enrollment figure of 3,354 by 1967.

The planning committee's study is expected to determine whether a new high school building will be required or if present facilities can be expanded to meet needs.

Also last night the board heard a report on the school system's cooperative educational program presented by Dr. Burton Thorn, director of vocational education, and teachers Richard Shupe and Ronald Koski.

CO-OP PROGRAM

Students in the co-op program attend classes half-time and work the other half. Only 12th graders participate.

The program is designed to help the student become a

more efficient employee and develop basic competencies for later full-time employment.

Several area business establishments participate in the retail and office co-op program with the school system. Pontiac Osteopathic and Mt. Carmel Mercy hospitals employ nursing co-op students.

Also last night the board passed a formal resolution of appreciation to Louis Schimmel of the Michigan Municipal Advisory Council for his advice to the school district in financial matters.

RESULTS IN SAVING

Board members indicated that Schimmel's counsel in the recent \$2-million bond issue resulted in a saving of several thousand dollars to the school system.

A suggestion by William Beals, one of several persons on the Grayson School area attending the meeting, that the board use its influence to help get snailly magazines off the newsstands will be explored further.

John Boardman, board president, acknowledged that this was a growing problem and said it merited the board's attention.

Monkey Business

PHILADELPHIA (AP) - Frank Rizzo, bartender at the Swarthmore Hotel, called the Pennsylvania Society for the Prevention of Cruelty to Animals yesterday to report a monkey in the bar and dining room.

He said it apparently had got in after closing hours Wednesday night.

Rizzo asked that no one come for the monkey until after 2:30 p.m. - "after the lunch patrons leave. We don't want to disturb them."

Rhodesian Returns Overwhelmingly OK Independence Law

SALISBURY, Rhodesia (UPI) - First returns from Rhodesia's referendum today showed overwhelming approval for securing independence under this nation's present white minority government.

An 80 per cent "yes" vote could figure in the first unilateral declaration of independence from Britain by far-flung white settlers since the American colonists of 1776.

Returns from 2 of Rhodesia's 50 constituencies totaled 3,651 "yes" votes and 370 "no" votes. Sixty-four votes were invalidated.

"Are you in favor of ... Rhodesia obtaining independence on the basis of the 1961 constitution?" was the question posed yesterday to the country's 105,000 registered voters.

Tabulation of the voters began this morning, but no definitive results were expected for several hours.

EVENTUAL RULE

The 1961 constitution, drafted by the white minority leadership of the country, provided for eventual rule by the 3.6 million black Africans.

But supporters - and opponents - of Prime Minister Ian Smith believe he would change the constitution in the event of independence to perpetuate rule by Rhodesia's 217,000 whites.

Nine - tenths of the voters were white. Smith reportedly

had hoped for a 65 per cent turnout and a "yes" vote on 80 per cent of those ballots.

ADDED WORDS

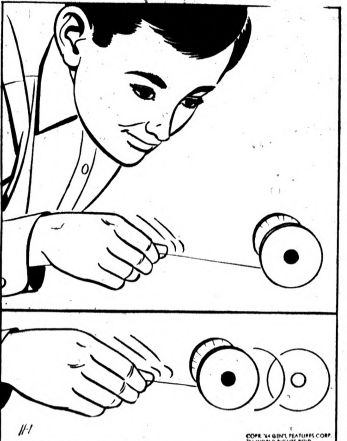

There were indications that many voters had marked "yes" on their ballots, but added "not by unilateral declaration of independence." The government had warned that ballots with anything other than "yes" or "no" on them would be invalidated.

It was feared that Smith would use a "yes" majority as a "mandate" to declare unilateral independence from Britain. The British Labor government has threatened in this eventuality to sever Rhodesia from the Commonwealth.

Violence marred the balloting yesterday in the southwestern township of Bulawayo, a restricted area for black African nationalist leaders. In incidents before and during the voting, one African was shot by police and four others were wounded by flying stones.

The African nationalist parties are illegal, and many of their leaders have been arrested or restricted. However, they had called for a boycott at the polls to diminish the significance of the vote.

Smith's government has stated repeatedly that the referendum is to be used only as evidence in negotiating for independence with Britain, but many observers here believe that Smith's extreme supporters will pressure him to act unilaterally.

PROBLEM: The Mystery Spool.

NEEDED: A spool with thread wound around it.

DO THIS: Place the spool on a level surface. Pull the thread as if to unwind it, and the spool will roll toward you winding up more thread.

HERE'S WHY: The frictional force acting where the spool makes contact with the surface causes a greater torque about the center of the spool than does the force due to the pull on the string.

The result is angular motion in a direction to wind up the string.

Final Tally May Take Days

Vote Tabulation Drags On in Illinois

CHICAGO (AP) — Speed was the keynote in naming winners in Tuesday's election, but not in Illinois.

Teams of counters plugged away today, three days after

the voting, on the mammoth job of determining the 177 winners from 235 at-large candidates for the Illinois House of Representatives.

The candidates were listed on

an orange-colored paper ballot three feet long, and voters could pick as many of the candidates as they wanted, up to the 177 limit.

It was the first time in the

country's history that a legislative chamber was elected from an entire state, rather than from districts.

VOTES TALLIED

Although some of the smaller of the state's 102 counties had their votes tallied Thursday, counting in the larger cities, especially Chicago, dragged on, with the end still several days off. By Thursday only about one-third of the vote in the densely populated Chicago area had been counted.

Political parties accused each other of delaying the counting, and in Chicago three Democratic candidates filed suit in Circuit Court charging that the Republicans were delaying the count by failing to provide enough tally clerks.

Democratic Mayor Richard J. Daley of Chicago accused the GOP of a "determined slow-down" in the counting. Republican leaders blamed the confusion on the Democrats and called for two 12-hour shifts each day, instead of the around-the-clock marathon.

State law provides that the two major parties be responsible for providing tallying teams. Some 12,000 extra employees were recruited for the Cook County (Chicago) tally in 31 counting stations.

OUTSIDE CHICAGO

Outside the Chicago area, officials reported that the counting was nearing an end. St. Clair County, across the Mississippi River from St. Louis, was halfway through its 132 precincts. Officials said there would be no letup until the count is completed today or Saturday.

Prior to the election, officials speculated that many voters would check one of the two party circles at the top of the ballot, skipping the option of voting for 59 additional individual candidates of the other party and avoiding 177 x marks which would be required to vote for individual candidates.

Voting for more than 177 candidates voids the entire ballot. Democrats and Republicans nominated 118 candidates each for the at-large election under an agreement reached last spring to insure minority party representation.

STRAIGHT PARTY

An official said 90 per cent of the St. Clair County vote was cast along straight party lines, with voters skipping the balance of their option.

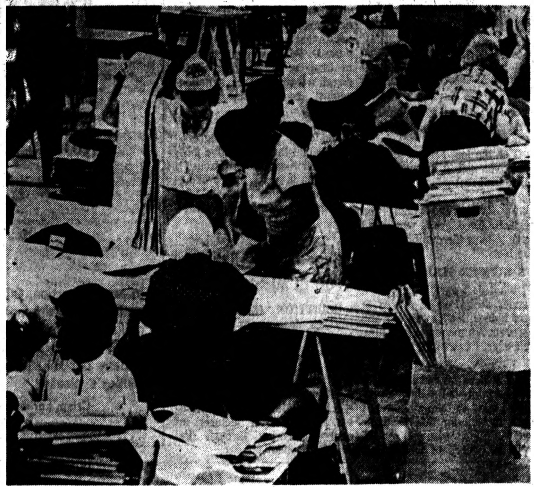

The ballot—compared in size with a bath towel—snarled polling places Tuesday for an

LONG COUNT — Special teams are working around the clock in three shifts in Chicago to tabulate results of voting for the Illinois State Legislature. The woman in center holds

Bonnie Day Due for Student

BELLINGHAM, Wash. (AP)—Justice will be rewarded today when Bonnie flies over the mountains. Justice is Harry Justice, 21, a college junior, and Bonnie is his girl. She is Bonnie

Laverige, 19, of Colorado Springs, Colo.

They'll be reunited today thanks to a "Bucks for Bonnie" drive conducted by Justice's fellow students at Western Washington State College here.

It all started, Justice said last night, when talk at his dorm dining table turned to homecoming festivities, and his thoughts turned to Bonnie.

"We just got tired of seeing him mope around the place, and decided to do something about it," said Neal Suckerman and Larry Stewart, prime movers in the drive.

"I thought it was a joke when they said they were going to bring Bonnie here," said Justice. "And I couldn't believe it when they actually collected money."

The students raised \$150 for the "mercy flight."

Justice, an economics major, met Bonnie, a petite brunette, about a year ago after his father was transferred to Ent Air Force Base at Colorado Springs, where he is a staff sergeant. The family formerly lived in Tacoma, Wash.

Justice will meet Bonnie in Seattle and the couple will drive here for a student mixer tonight. Homecoming fun ends with a grand ball tomorrow night. Bonnie returns home Sunday.

Toronto May Have Birth Control Units

TORONTO (UPI) — Toronto may soon have city-supervised birth control clinics.

The board of control has approved in principle the establishment of such clinics. Previous legislation permitted hospitals to dispense birth control information only to persons on relief.

To facilitate establishment of the clinics, City Solicitor William Callow will investigate the city's legal authority and Welfare Commissioner Robena Morris will report on suitable locations.

FAT OVERWEIGHT

Available to you without a doctor's prescription, the ODRINEX plan. You must take up to 10 pills a day. One of the basic problems of losing weight is your inability to stick to a planned diet. The ODRINEX plan contains a tiny tablet and is easily swallowed. When you take ODRINEX, you simply don't have the urge for extra portions because ODRINEX depresses your appetite and decreases your desire for food thus making it easier and more comfortable for you to diet. Your weight must come down because as your own doctor will tell you, when you eat less, you weigh less. Get rid of excess fat and live longer. Of course ODRINEX can't do all the work for you alone. But if you really want to cut down on your eating, and lose weight ODRINEX can be a powerful helper. Remarks Hard on the Ears of Lowly Cat

By HAL BOYLE
NEW YORK (AP) — Remarks a cat gets tired of hearing:

"What good is a cat anyway? I never heard of one giving up its life for its master!"

"Cat, Pomfrey! get off the sofa this very moment!"

"Ever since we took Pomfrey to the veterinarian, he has had a much more subdued personality."

NO WATCH CATS

"You hear a lot about watchdogs, but never anything about watchcats. If robbers ever came into our house, Pomfrey would probably lead them to the loot."

"If that cat scratches one of the children again, I'm going to throw him out the window — and I really mean it."

"Mama! Mama! This time Pomfrey bit me — and I hardly even touched his old tail. I wasn't pulling it at all."

"He gives me the creeps — always rubbing against my legs right when I'm busy trying to cook a meal."

PROBABLY RUN

"I wonder what he'd do if he saw a mouse? Probably run under the bed and hide."

"Daddy, the dog next door

will sit up and beg for his food. Why won't Pomfrey? Is he just too dumb?"

"I read in the paper that some nutty spinster left \$50,000 to her cat. If I leave anything to Pomfrey in my will, it'll be a bill for all the furniture he's ruined."

"Oh, what is that — a cat? Please put it in another room. I

can't stand them. They make me so nervous."

WORSHIPED CATS

"I know that the ancient Egyptians worshiped cats — but look what happened to the ancient Egyptians."

"You mean to tell me that the cat hotel wants to charge \$2 a day to take care of Pomfrey while we're on vacation? Why, that's more than it cost me to go through college."

"Maybe we ought to trade him in on a second-hand canary. At least a canary can sing."

"I don't care if he is hungry. I'm hungry, too. You can feed him later."

"For the last time, Pomfrey, can't you get it through your thick skull that this is a scratching post? See, you put your claws here, and then you scratch. Good grief, why do I have to have the dumbest cat in the block?"

ON HUNGER STRIKE

"What do I care if he's on a hunger strike? If he's tired of beef kidney, let him go out and earn enough money to buy himself a liver. I can't afford to."

"Why does he have to have his box in my bathroom? Every time I want to take a shower, I have to wait for him to come out."

"If he really has nine lives, I

can't stand them. They make me so nervous."

OLD TRADITION — President Johnson and defeated Barry Goldwater are depicted by masked riders in the same wagon of a postelection parade in Georgetown, Del., yesterday.

And Relives History

Party Ends Election Tension

GEORGETOWN, Del. (AP) — After roasting each other politically in the election campaign, Democratic and Republican rivals got together Thursday and roared an ox.

Winners in Tuesday's election, instead of forcing the losers to eat their words, salved hurt

feelings by sharing with them a traditional roast ox sandwich. Democrats and Republicans paired off in automobiles in the parade, and parading in horse and busses patrolled election results read from the court house balcony and cheered the tally as if they were hearing the count for the first time.

The occasion for the post-election harmony was Return Day, the traditional Thursday-after-election day custom that started in the days before rapid communications.

ELECTION RESULTS

It was then that people in southern Delaware's Sussex County would journey to Georgetown—usually bringing their own oyster sandwiches, fried chicken and whiskey — and gather at The Circle in front of the courthouse to hear the returns.

The winning party usually did the celebrating.

Return Day was revived to celebrate the Democratic victory of 1936, when Franklin D. Roosevelt carried all but two states, and Georgetown's merchants — mostly Republicans nowadays — revived the holiday as a promotion stunt.

Thursday about 6,000 Dela-

wareans — including Democratic Governor-elect Charles Terry — dressed in 19th century costume, and parading in horse and busses patrolled election results read from the court house balcony and cheered the tally as if they were hearing the count for the first time.

Promotion Given

Yank Killed in Viet

Thomas D. Whitlock, 40, former Pontiac resident who was killed in a communist mortar attack in Viet Nam last Saturday, has been granted a posthumous promotion to lieutenant colonel by President Johnson.

Military rites will be held for Lt. Col. Whitlock, a veteran of nearly 20 years of army service, at Arlington National Cemetery Tuesday or Thursday.

He is survived by his wife and three sons, who live in Alexandria, Va.; a married daughter who lives in Washington, D.C.; his mother, Mrs. Lee Whitlock of Pontiac; a sister and a brother.

To Deliver A-Bomb?

Peking-Building Rocket?

LONDON (UPI)—Red China is believed in British scientific circles to be developing a rocket parallel with the project that recently brought her the successful detonation of her first atomic bomb.

These circles feel the Chinese would not have tied up so many of their scientists on the bomb if they were not also confident of having the means to deliver it.

There has been considerable rethinking in Europe on China's entry as the fifth nation in the world's "nuclear club."

The Chinese were not expected to have a hydrogen bomb before 1969, since the normal development from the atom bomb takes four to five years.

QUITE POSSIBLE

Now British scientists think it quite possible for Red China to explode a hydrogen bomb as early as 1966.

Red China has no aviation industry to speak of. Therefore the initial feeling was to down-

grade Red China's atom bomb to a gesture, on the grounds it would be of no military value without some means of delivery.

But for some years now—even since Russian technicians pulled out of China because of the Sino-Soviet split—Chinese scientists have been collecting scientific papers on rocketry. The British Interplanetary Society, among others, has been asked for material.

94 Uninjured in Emergency Jet Landing

SAN FRANCISCO (AP) — All 94 occupants of a crippled jet airliner scrambled to safety within a minute Thursday night after the plane skidded more than a mile down a San Francisco International Airport runway in an emergency landing.

No one was hurt. The United Air Lines jet from Seattle, Wash., circled the field 40 minutes as veteran pilot Virgil W. Vaughan, 56, of Denver, Colo., tried unsuccessfully to lower the plane's wheels. Vaughan said that the four-engine plane landed on its main wheels, rolled until most of its speed was gone and then tipped "lithely" forward on its nose.

"It wasn't a pretty landing, but it was about the best I ever saw — considering how it turned out," said Vaughan, a UAL pilot for 32 years.

Doctors at Parkland Hospital said the transplanted organ began functioning immediately. They added that both the donor, Nancy, and the recipient, Mary, appeared to have come through surgery fine.

Physicians said they thought the fifth-graders were the youngest identical twins to undergo the operation.

Mary Freeman was born with kidneys too small. She weighs only 37 pounds, whereas her healthy sister, Nancy, weighs 100 pounds.

The girls' parents are Mr. and Mrs. D. C. Freeman of Dallas.

Form Club to Get Pay for Teachers

RINGGOLD, Ga. (AP) — Citizens of Georgia County have formed a club to raise funds to keep the public schools open in the face of a threatened pay cut by teachers over their salaries.

The Lakeview High School has been closed since 19 teachers walked out Monday. The 196 teachers at the other schools in this northeast Georgia county have voted to walk out on Nov. 25 unless provisions are made to pay them.

The situation developed after School Supt. Fred Williams told the teachers that because of a shortage of funds there was no assurance their November salaries could be paid.

Leading to the situation was a new law passed by the 1964 Georgia Legislature in which local schools must pay an expanding share of the school financing costs, including teacher salaries.

OLD LAW

Under the old law, local systems paid 15 per cent of the costs, while under the new setup they will increase their pro rate share to 20 per cent during the next five years.

A group of citizens met Thursday and formed the "375 Club" to be composed of 375 individuals each willing to make an interest-free \$100 loan to the Catonsville School Board.

Lesser amounts will be accepted, however. There are between 25,000 and 30,000 persons in the county.

A total of \$1,000 was raised the first day of the campaign.

\$37,500 NEEDED

About \$37,500 is needed to enable the county meet its local fair share of school support as required by the new law.

The county at present has about \$99,000 of the \$136,000 needed. The county faces possible curtailment of state education funds from the state if the amount needed locally is not provided.

Catonsville Commissioner Meredith Foster has promised to call a referendum on property reevaluation early in December. Such a program might provide the additional school money, but not in time to prevent the teacher walkout.

LONDON (AP) — Princess Margaret's doctor put her to bed today with a catarrhal infection. A spokesman said the princess had to cancel attendance at the English Folk Dance and Song Society dance tonight.

If You Don't Succeed -- Fly, Fly, Fly Again

LONG BEACH, Calif. (UPI)—Mrs. Lee Decker Kearns, an attractive 38-year-old student pilot, today was looking forward to her first unaided solo cross-country flight.

Previous attempts this week resulted in:

- An unauthorized landing at Tijuana, Mexico.
- A crash landing at Palomar Airport in the San Diego Mountains.

HECTIC WEEK

The hectic week began last Monday when Mrs. Kearns took off to fly to Palomar and return.

"I flew the correct course of 120 degrees," she said, "but I didn't reckon on a strong tailwind and a cross-drift that took me far out to sea."

"Going by time, I turned inland at what I thought was the right place, saw an airport, and landed. It wasn't until a Mexican customs agent came out that I realized I was in Tijuana."

"But they were very understanding and helpful—got me headed to Lindbergh Field, and I told the airport I was on the way," she said.

RECEIVER QUITS

"While flying over San Diego, Mrs. Kearns discovered that the radio receiver in her single-engine Taylorcraft plane had quit. The transmitter, however, was functioning unbeknownst to her."

"Without clearance, I didn't dare land at Lindbergh until my fuel was almost gone," she recalled. "When I did, an FAA (Federal Aviation Agency) man told me my flight in from the sea to Tijuana had been monitored by air defense."

Mrs. Kearns' husband, a professional flight instructor who taught her to fly, flew the plane back to Long Beach on Tuesday.

On Wednesday, Mrs. Kearns continued, "Lee told me, 'now go and find Palomar.' I did, without trouble, but I misjudged my landing and bounced. I knew I was going over — just grabbed the ceiling and hung on. The plane tipped on its nose."

EVERYONE'S NICE

"But everyone was very nice about it. The airport manager said, 'You gave me a few more gray hairs until I saw you climb out.' And when the same FAA man flew up from San Diego, all he said was, 'I see you finally found Palomar.'"

Damage to the plane totaled about \$500, Mrs. Kearns said, adding that she can't wait to try cross-country flying again.

"But I'll fly in another direction," she said. "The FAA man told Lee, 'next time head her north. It takes longer to reach the Canadian border.'"

NASA Orbits 'Explorer 23'

WALLOPS ISLAND, Va. (AP) — The space agency launched a cylindrical satellite into orbit today and designated it Explorer 23.

Scientists turned on all the experimental equipment aboard the eight-foot-long, two-foot-diameter spacecraft by radio command signals from the ground, and reported that all were operating successfully.

The space agency said 2 1/2 hours after the launching that it had confirmed that the 265-pound satellite was in orbit and gathering information on meteoroids in space.

USEFUL LIFE

The National Aeronautics and Space Administration said in advance of the launching that it hoped the satellite would have a useful life of one year.

The satellite roared from the launching pad at 7:02 a.m. aboard a four-stage Scout rocket. NASA reported shortly afterward that all four rocket stages had fired as planned.

It is one of the Explorer series and is a successor to Explorer 16 launched Dec. 16, 1962. Meteoroids are known as meteors when they burn upon entry into the atmosphere. Those which reach earth are called meteorites.

Risky Feat Left to Peck by Fearless Stunt Double

By EARL WILSON
NEW YORK — Gregory Peck was lounging around Central Park ... between scenes for a film called "Mirage" ... and he suddenly asked, "Did you see that fellow who looks like me — only is better looking?"
Up came tall Buddy Van Horn of Hollywood, Peck's "stunt double."

"What doubling have you done for Peck so far?" I asked Van Horn, who's also stunt-double for Gary Cooper and Jimmy Stewart.
"I've got a car accident to do for him, and a lot of running" — the picture's a chase, about an amnesiac who's pursued by murderers in Central Park — "but so far Greg's done the most dangerous part himself," said Van Horn.
"What was that?" I inquired.
"Running across the street in New York traffic!" asked Peck, who greatly aided LBJ's campaign, what Cabinet post he wanted.
"I've got more sense than that," he said. "I like what I'm doing."

But he told a tale he heard at the White House. ★ ★ ★
A reporter, covering the vice presidential campaign of Rep. William E. Miller, had played bridge with the Republican nominee between stops — and owed Miller about \$200.
"Will you give me a chance to get even?" the reporter asked Miller. "Will you bet me \$200 that you win the election?"
"Of course not!" Miller howled with laughter. "Do you think I'm crazy?"

Washington News in Brief

October Job Figures Are Reported Improved Over Last Year

WASHINGTON (AP) — Unemployment in October continued at the 5.2 per cent mark, but the Labor Department reported that the monthly job figures were considerably improved over last year.

The department Thursday listed the number of Americans with jobs last month at 71.1 million — an increase of 300,000 — and the number of jobless at 3.3 million.

Compared with last October, employment was up 1.2 million and unemployment was down about 200,000.

A spokesman for the Bureau of Labor Statistics noted that there was a significant drop in persons working part-time because they could not find full-time jobs, and a significant rise in unemployment among men 20 years and older.

United States has asked the new Soviet leaders to use their influence and position to restore neutrality to the Southeast Asian kingdom of Laos.

The Soviet Union and Great Britain are cochairmen of the 1962 international agreement guaranteeing Laotian neutrality and independence.

Secretary of State Dean Rusk, in a 35-minute meeting Thursday with Soviet Ambassador Anatoly Dobrynin, stressed "the importance the United States attaches to the principle that all the signatories of the 1962 accords on Laos were to bring about a restoration of those accords which are designed to guarantee the neutrality and independence of Laos."

The spokesman who reported this said he could not say what Dobrynin's reply was.

WASHINGTON (AP) — A presidential emergency board recommended Thursday that some 27,000 firemen, hostlers and helpers on approximately 160 railroads receive a two-year wage increase totaling 18 cents an hour.

President Johnson appointed the board to head off a rail strike threatened in a dispute between the railroads and the AFL-CIO Brotherhood of Locomotive Firemen and Engineers.

A wage increase of \$1.75 per day, instead of the hourly increase, was recommended for several hundred engineers represented by the union.

Under the recommendations, the firemen's increase would be retroactive to Jan. 15 and the engineers' to June 1.

Union and management negotiators plan to meet Monday in Chicago to discuss the board's proposals.

WASHINGTON (AP) — Alaska and Hawaii are the two newest states in the union, and they have the youngest populations, too.

The Census Bureau said yesterday that about 84 per cent of Alaska's population and about 79 per cent of Hawaii's are under 45. The national average is 71 per cent.

About 9.3 per cent of the nation's population is over 65. But only 2.6 per cent of Alaska's and 4.9 per cent of Hawaii's is.

WASHINGTON (AP) — The White House Historical Association will publish on Dec. 2 an 80-page color book on the presidents of the United States.

It will be the association's first publication since the White House Guide Book inspired by Mrs. John F. Kennedy, which has sold almost 1.2 million copies in two years.

The new book, an idea of the late President John F. Kennedy, was written by Dr. Frank B. Friedel Jr., a Harvard University history professor.

A half-million copies are being printed. The book will sell for 50 cents with paper cover and \$1.50 in a clothbound edition. Mail orders which cost 25 cents more are being accepted by the White House Historical Association (1815 H St., N.W., Washington, D.C.).

Be Elite by Thinking Offbeat

LITTLE ROCK, Ark. (AP) — Dr. Rodney Tillman, head of the National Education Association's department of elementary education, says offbeat thinkers are often creative and should be encouraged.

In a speech to the Arkansas Education Association's convention Thursday, Tillman reported on an experiment in which a photograph of a smiling airplane passenger with a faraway look on his face was shown to elementary school pupils. Most pupils, said the Minneapolis educator, interpreted the picture thusly: "He is returning from a successful business trip."

But, said Tillman, the most creative pupil said: "He is returning from Reno where he has just divorced his wife."

Rocky, Nixon Trade Blasts, Ask for Unity

WASHINGTON (AP)—Richard M. Nixon has fired at Gov. Nelson A. Rockefeller as a "spoiled sport" and been called "peevish" in return at the fight for control of the Republican party breaks into the open. But like former President Dwight D. Eisenhower, they appealed for unity.

The party struggle — essentially an effort by moderates to wrest control from Goldwater conservatives — had been pretty much off-stage until yesterday. But then, at a news conference in New York, Nixon spoke up.

The former vice president, who campaigned widely for Barry Goldwater, said Rockefeller, who was cool to the Arizona campaign, "got his pound of flesh."

Romney Skirts GOP Disputes

Puts Emphasis on Unity, Forward Look

LANSING (AP)—Michigan Gov. George Romney is skirting clear of postelection grumbling in the Republican Party.

While former vice president Richard M. Nixon was berating Gov. Nelson Rockefeller of New York and other leaders were calling for the ouster of National Chairman Dean Burch, Romney put emphasis on unity and the forward look.

As an impressive reelection winner amidst the Lyndon Johnson crusher, Romney is now at the forefront of potential GOP leadership.

He called yesterday for a meeting of Republican governors. Within hours, Gov. Robert Smylie of Idaho, chairman of the GOP governors, announced such a meeting would be held, probably about Dec. 1 in Chicago.

Romney is refusing to castigate Sen. Barry Goldwater, even though he refused to endorse Goldwater's presidential candidacy. Romney says leadership questions must await an indication of what the Arizona senator plans to do.

TALK PREMATURE

The Michigan governor also says talk of ousting Burch—Goldwater's hand-picked GOP chairman—is premature. Smylie and John Martin, national Republican committeeman from Michigan, want Burch out.

Romney partially based his refusal to endorse Goldwater on the belief that the Michigan campaign should concentrate on the state's economic problems.

"The evidence is conclusive we were correct in focusing the state campaign on the Republican record of progress in Michigan," Romney said yesterday.

The evidence—Romney's victory.

Romney said yesterday he'll take a vacation the last two weeks of November—just before the governors' convolve.

Strikes Hit Key Ford Plants

AP Photo/Phil

RESTS AFTER VICTORY — President Lyndon Johnson is reported today to be resting up at his ranch in Johnson City, Texas, after his sweeping win in the election. He has no plans to return to Washington for a few days but is keeping in touch with his top aides and advisers by telephone.

Released After Treatment

Four in Family Overcome by Fumes

Four members of a West Bloomfield Township family, overcome by fumes from a defective furnace early today, were treated at Beaumont Hospital and then released.

Viet Students, 2 Faiths Oppose New Regime

SAIGON, South Viet Nam (AP)—Buddhists, Catholics and students were reported dissatisfied today with South Viet Nam's two-day-old government.

It was considered likely that any or all of the three factions would demonstrate tomorrow or Sunday in Saigon.

At a noisy meeting, the student group that initiated demonstrations which led to the resignation of Premier Nguyen Khanh called for dissolution of the new government.

The students were reported displeased with the regime's announced policy of separating politics from the classroom.

The key speaker at the student meeting was to be Nguyen Xuan Chu, who resigned as chairman of the High National Council yesterday because political factions were not represented in the new cabinet. He said it therefore could not be representative.

Father Kiem, a leading member of Father Hoang Quyen's Roman Catholic faction, said Catholics and Buddhists are prepared to unite against the new government.

He said both faiths were dissatisfied because Premier Tran Van Huong had not consulted religious leaders before forming his new government.

He also said that two other influential sects, the Hoa Hao (Continued on Page 2, Col. 7)

children, Sandra, Harold Jr., 5; and Marion, 4. Lindsey and another daughter, Janice, 11, were in the house but did not require treatment.

Mrs. Lindsey said she noticed fumes in the house last night. She said she called the furnace company and was told there was nothing to worry about.

When she woke up at 5 a.m. today, the fumes were much worse, Mrs. Lindsey said, and she woke her husband who turned off the furnace.

Lindsey then opened doors and windows on the first floor of the house and went upstairs to get the children from their bedrooms.

Two of the youngsters, Sandra and Harold, Jr., passed out but revived when they were taken outside.

Janice who was in a separate bedroom with the heat vent closed was unaffected by the fumes.

Fumes were much less noticeable in the upstairs part of the house than downstairs, Mrs. Lindsey said.

The family moved into the new house just three weeks ago. Firemen from the West Bloomfield Fire Department, state police and sheriff's deputies all responded to the emergency.

Mrs. Lindsey said that a furnace repair man came to the house this morning and put the furnace in proper working condition.

China Asks Russia to Unite Against U.S.

TOKYO (AP)—Communist China's top leaders today extended their "sincerest and warmest" greetings to the new leaders of the Soviet Union and expressed hope the two estranged Communist giants would "unite closely" to oppose the common enemy — the United States.

"Let imperialism headed by the United States tremble before our strong unity: Long live the eternal, unbreakable friendship between the Chinese and Soviet peoples," said the Chinese message to Moscow, broadcast by Peking Radio.

The message was telegraphed from party chairman Mao Zedong, President Liu Shao-chi, Marshal Chu Teh and Premier Chou En-lai to the Soviet leaders on the occasion of the 47th anniversary tomorrow of the Bolshevik Revolution.

Chou and a delegation of ideological experts arrived in Moscow yesterday for the celebrations and for talks aimed at quieting, at least publicly, the Soviet-Chinese dispute.

MOSCOW (AP)—With Chinese Premier Chou En-lai sitting directly behind him at a Kremlin meeting, Leonid Brezhnev, the new chief of the Soviet Communist party, appealed today for unity of Communist nations.

The tension has eased perceptibly since the ouster of Nikita Khrushchev, but neither the Chinese nor the Soviets are expected to retreat from their conflicting positions.

The Peking message of good will was tempered by a separate declaration which warned the Soviet Union against invading or occupying any part of Sinkiang Province in northwest China on the Soviet border.

Uranium-rich Sinkiang was the site of the Chinese nuclear explosion on Oct. 16. Last year the Chinese accused the Soviets of abducting thousands of its inhabitants and stirring up bloody incidents.

In Moscow, Pravda, the Soviet party newspaper, made a veiled reference to Khrushchev's ouster last month and claimed the Soviet Communist party is stronger than ever.

Nothing New at Fisher Body

100 Per Cent for UF

Salaried employees at Pontiac's Fisher Body plant have contributed 100 per cent to the overall campaign progress to date. This is not a first at Fisher Body which boasts a 100 per cent giving record for at least 12 of the 18 years the local UF drive has been in existence.

Henry J. Stack, supervisor of employment and UF company chairman, reported that this year's gifts from salaried employees totaled \$230,448.90 ... and increase of 7.2 per cent over last year's contributions.

The amount raised constitutes an average of approximately \$40 per employee and brings the overall campaign progress to \$870,935 or 57.7 per cent of the \$1,500,000 goal.

"Solicitation of hourly employees has been delayed due to the strike but will commence within the next two weeks," according to Stack.

"We feel confident that all employees will wholeheartedly support the many worthwhile services available through the drive."

Stack pointed out that members of Fisher Body families used these services extensively during the past year.

Scout, YMCA, YWCA and other recreational activities alone totaled 920 persons, while family and child care agencies served 148 Fisher Body families.

Additional statistics also point to benefits derived from health, planning, research and other community agencies.

EVERYONE GAVE—Salaried employees at the Pontiac Fisher Body plant were awarded this 100 per cent banner this week for total participation in this year's Pontiac Area United Fund campaign. Thomas Withers, division manager (left) and Henry J. Stack, supervisor of employment, beam over the success of the Fisher Body salaried employee program.

Back Osteopath Center, Mayor Asks

"I'm puzzled to find that many local people think the osteopathic college is coming to Pontiac for sure," Mayor William H. Taylor Jr. said today.

"That isn't true. The facts are that it will locate here if we raise the \$375,000 to buy the land. To date, we have \$256,525 and we simply have to find the remaining \$118,475."

"The proposition is very simple and straightforward. The osteopaths will finance the several-million-dollar institution, if the city provides sewers, water and a site. Our city will definitely come through with the sewers and water. And certainly, saving for a site, in view of their huge expenditures and the annual payroll, is a very modest request."

"We have \$256,525 raised to date, but we need the balance just as much as we need this fine start. Without the total, we're licked. A luncheon meeting has been called for Thursday noon, at the Elks to discuss ways and means, and I urge every public-spirited citizen of the community who can assist us financially to attend and volunteer."

The big institution was definitely scheduled for Lansing, but the picture was changed when Michigan State University announced plans for opening a medical college of its own. Ingham County isn't big enough to support two.

Cloudy but Mild Weather Forecast for This Weekend

Variable cloudiness is the outlook for the weekend. Temperatures will be mild.

Tonight's forecast is increasing cloudiness with lows expected around 36 to 42.

Tonorrow's weather picture is partly cloudy and slightly warmer. Highs predicted are 50 to 60.

Sunday's weather also will be partly cloudy and mild. Winds today are variable at five to 16 miles an hour. They will blow southeasterly at 10 to 20 miles an hour tomorrow. The low mercury reading this morning was 31. By 1 p.m. the area had warmed up to 49.

Section Bundles Over 75 Layettes

The Carol Brooks Section, Needlework Guild of America, Inc. bundled and packed layettes Thursday in the Young Women's Christian Association building.

The yearly quota exceeds 75 layettes which consist of nightgowns, shirts, blankets and diapers.

Some 23 years ago, the section had its inception when Mrs. Vern C. Maricley heard of the Visiting Nurse Association's urgent need of layettes for emergencies.

HELP ORGANIZE

She asked Mrs. Harold E. Howlett to help organize a group of women interested in sewing layettes once a month.

The group later became affiliated with the Pontiac branch of the Needlework Guild.

Officers are Mrs. Robert G. Isgrigg, president; Mrs. Robert

Alton, vice president; Mrs. Bruce Hubbard, secretary; Mrs. Edmund Rogers, corresponding secretary and Mrs. Robert Greenhalgh, treasurer.

Board members include Mrs. John A. Riley, Mrs. William S. Isgrigg, Mrs. Kenneth Vandenberg, Mrs. H. J. Wetlaufer, and Mrs. Russell H. Galbraith.

Per capita income in Japan in fiscal 1963 was about \$320, a considerable increase over the \$118 of fiscal 1961 and the \$161 of fiscal 1962.

'Ducky' Day for Policeman in Wisconsin

MILWAUKEE, Wis. — Four ducklings got special attention from the police and humane society here.

Eight ducklings and their mother waddled across a busy highway in the rush hour.

An unidentified woman motorist stopped her car and waved others down until the procession went by.

Across the highway, the mother and four of her babies managed to jump the curb and continue on the way.

OOPS!

Four fell through a sewer grating at the curb and plunged to a water-filled basin where they swam out of sight into a 12-inch lateral.

Nearly two hours later, when they reappeared, a policeman managed to block the lateral and scoop the ducks out with a fish net.

Since the mother had disappeared, the orphans were taken to a private farm.

Two Chapters Hear Reports

Two chapters of Epsilon Sigma Alpha met earlier this week.

Alpha Alpha

A report on a recent meet of the Pontiac Foundation was given at the Thursday gathering.

Commentator to Be Featured at Town Hall

Elie Abel, state department and foreign affairs commentator for one of the major broadcasting companies, will speak Thursday and Friday on "Strategy for Peace" at Birmingham Town Hall.

Both talks are scheduled for 11 a.m. and will be followed by 1 p.m. luncheons at the Bloomfield Open Hunt Club.

Special guests at the Thursday luncheon will be Mr. and Mrs. Richard Van Dusen, Jack Shand, Mrs. George Carey, Mrs. Ralph Backus and Mrs. Sidney Huff.

Special guests at the Friday luncheon will be Mr. and Mrs. David Kendall, Mr. and Mrs. Robert Spitzley, Mrs. Norville Hubbard and Mrs. Harlan Walker.

Opening of the chapter held in the "300" Bowl.

Mrs. Anthony Gravel, Mrs. William Roy, Mrs. Edmund Smith and Mrs. Edward Hummel gave the report of the organization which has trans-

ferred the monies it raised for a civic auditorium to the new Osteopathic Hospital.

The group's second benefit sale this year will be held from 8 a.m. to 12 noon Nov. 21 at the UAW hall on Pike Street.

A basket of food for a needy family will be given at Thanksgiving. Mrs. Edward Hummel is chairman of the event.

Beta Mu

Mrs. Robert McClendon, director of the day care center for mentally retarded children at the Covert Methodist

Church, spoke at the Tuesday meeting of the chapter.

At the gathering held in West Side Lanes the group learned that the center is conducted by the North Oakland Association for Retarded Children and is the second such center to be started in the Pontiac area.

The center is parent-operated and licensed by the state. It was chosen as the chapter's project for the year.

Mrs. Vern Love, rushing chairman, announced an afternoon tea to be held Nov. 15.

AFS Unit Discusses Objectives

Three objectives for the year were discussed at an adult meeting of the American Field Service.

They included welfare of the foreign student, stimulation of interest for Americans abroad and foreign students in America, and making the community more conscious of the American Field Service.

Mrs. Charles McLaughlin, president of the group, opened her home for the Wednesday meeting.

STUDENT GUESTS

Guests present included Marja Bruin, foreign exchange student from Holland, who was accompanied by her adopted parent, Mrs. Fred A. Froede; and Sue Moore, Connie Weber, Ann Devereaux, and Karen Lane, officers of the AFS club at Pontiac Central High School.

Miss Moore, president of the club, reported on "Students Day" which will be held in February. At this time eight foreign exchange students in this area will be entertained for the weekend by Central students.

The engagement is announced of Sharon Lynn Huoare, daughter of Mrs. Frank G. Meyer of Briarcliff Knoll and Robert C. Huoare of Detroit, to Richard Thomas Scholz. His parents are Mr. and Mrs. John E. Scholz of Glen Grove Drive. A May wedding is being planned.

New Regent to Preside at Meeting

Mrs. Robert Adams, new regent of Our Lady of the Lake Circle No. 479 of the Daughters of Isabella will preside at a Monday meeting.

Following a short business meeting, Rev. William A. Ross will show colored slides of New Guinea. Father Ross has been there since 1923.

Others taking charge of Monday's meeting will be new officers recently installed by Mrs. Jerome Kutowski, state trustee from New Baltimore.

Those officers include Mrs. John Denihan, past regent; Mrs. Theodore Boga, vice regent; Mrs. Louis Koprinice, financial secretary; Mrs. Frank O'Neil, recording secretary; and Mrs. Rudolph Stingle, treasurer.

OTHER OFFICERS

Others installed were Mrs. Daniel Scott, Mrs. Mildred Palmer, Mrs. Susan Cary, trustees; and Mrs. Frank Wurgess, Mrs. Stella Wetzel, Mrs. Fern Sturman, Ann Williams, Rose Griffin, Mrs. Joseph Emmert, Mrs. Andrei Cskli, Mrs. Paul Miller and Mrs. Julia Edwards. Marshals are Mrs. Norma Ashton and Mrs. Lawrence Sevigny.

Add Some Punch to Your Holidays

Some glass punch sets, including cups and ladle, cost less than the punch!

With the holidays ahead, even one festive occasion justifies their purchase.

To give the set extra spar-

kle, wash all pieces in hot soap or detergent suds, rinse with hot water, and polish with a lintless soft cloth.

Little Change in Key Stocks

NEW YORK (AP)—Many key stocks showed little change as the stock market moved unevenly today.

The list seemed to be going through a further consolidation process, brokers said.

Some steels were resisting further decline. Bethlehem and Jones & Laughlin held un-

changed. Fractional declines were posted for U. S. Steel and Republic Steel. Lukens slipped more than a point.

Ford had a strike and the stock moved nowhere. General Motors and American Motors were unchanged while Chrysler dipped fractionally.

Studebaker met a burst of demand and rose 7/8 to 7 on an opening block of 15,000 shares.

Thursday the Associated Press average of 60 stocks declined 2 to 3/8.

Prices were narrowly irregular on the American Stock Exchange.

Seek Top Job in Steel Union

McDonald Opposed by Long-Time Ally

PITTSBURGH (UPI)—L. W. Abel, secretary-treasurer of the United Steelworkers, announced today he would run for president of the million-member union against David J. McDonald, his long-time ally.

Abel said that he, Walter J. Burke of Milwaukee and Joseph P. Molony of Buffalo, would be candidates for the union's three top offices. Burke is a director of USW District 3 and Molony the director of District 4.

Burke will run for the office of Secretary-treasurer and Molony for the vice presidency. All were active in the formation of the USW in the early days of the Congress of Industrial Organizations (CIO) when the steelworkers were headed by the late Philip Murray.

The election will be held next February.

Abel said his ally has been assured of the support of a number of the present district directors, many USW staff workers and a majority of the membership.

The three issued the following statement:

"The United Steelworkers of America has been a great organization fashioned by its first president, the beloved Philip Murray. We intend to see that it remains a great union, owned by and responsible to the will of the membership."

Abel, a native of Magnolia, Ohio, was a former steelworker in mills in the Canton, Ohio, area. He became a staff member of the now defunct Steelworkers Organizing Committee (SWOC) and attended its first constitutional convention in 1942, the year he became a director of District 2.

He served as a district director until November, 1952 when he became the USW secretary-treasurer a post he has held since that time.

Abel's announcement came five days before the USW's executive board is scheduled to meet here.

NEW TEST ROAD—L. C. Goad (left), 271 Lone Pine, Bloomfield Hills, General Motors executive vice president, and Harry F. Bar is a continuous 2.6-mile, two-lane divided freeway with access only at the south loop.

States in Struggle to Attract Industries

By JACK LEFLER

AP Business News Writer

NEW YORK — Many states are engaging in a frantic, costly scramble to attract new industries.

They are spending millions of dollars and much ingenuity to lure factories to their areas. And they are offering many inducements.

The advertisements, usually placed by state development agencies, stress such factors as nearness to markets, available labor supply, fast population growth, adequate transportation, pleasant living conditions and favorable tax benefits.

One estimate puts annual state spending on industrial advertising at \$25 million a year.

At the beginning these ads concentrated on the business aspects of their areas. More recently they have begun to stress almost equally the desirability from a living standpoint, emphasizing climate and recreational possibilities.

Business Week magazine has conducted a plant site survey in which 1,000 executives of manufacturing industries in 19 cities were queried.

EXECUTIVES QUERIED

These executives were asked: "Whether their company was investigating possibilities for new plant sites, or planned to do so in the next five years."

What general geographical areas would be considered in the event they did decide to select new plant sites.

What specific states, metropolitan areas or cities would be favored.

California, which has been conducting an intensive advertising campaign, came out on top.

States ranking just below California were Texas, Georgia and Illinois. Top-rated geographical areas included the South Atlantic, East North Central, Pacific and Middle Atlantic.

SOUTH CAROLINA

South Carolina is an example of a state with an enterprising approach to attracting new industries.

Last year, South Carolina engaged an advertising agency to improve the state's image. A budget of \$200,000 was set up.

The resulting ads published in several management publications linked the state's industrial potentials and its potential for comfortable living and low taxes.

Swift Cleaners, 908 W. Huron, has been accepted for membership in the National Institute of Drycleaning, according to an announcement from the Institute, which was confirmed by R. L. Harwood of Swift Cleaners.

Two Pontiac physicians, Dr. Paul W. Trimmer, 881 Bloomcrest, Bloomfield Township, and Dr. M. C. Worcester, 1012 W. Huron, Warren, Michigan, have returned from a session of the American College of Osteopathic Surgeons in New York City.

More than 1,500 osteopathic physicians and hospital administrators attended the four-day session last week which featured a number of sessions dealing with the latest medical advances in surgery and other specialties.

Peter G. Finn, 5395 Kensington, Bloomfield Township, has been appointed executive director, Detroit area, for Industry Data Interchange, Inc., an international organization based in Houston, Tex.

Finn will be in charge of the development and planning of client services with personal direction on an executive level.

Business Notes

Theodore Luderowski, 4655 Franklin Road, Bloomfield Township, and James H. Carmel, 1288 W. Long Lake, Bloomfield Township, have joined forces and formed a new company, Luderowski and Carmel, Inc., design and planning, with offices at 91 West Long Lake in Bloomfield Hills.

Luderowski, an architectural designer, formerly was on the staff of Eliel & Eero Saarinen and for six years was chairman of the department of design at the Cranbrook Academy of Art.

Carmel has been with the Cranbrook Institute of Science for the past 10 years.

John F. Radenbach, 5585 Elizabeth Lake, Waterford Township, has been appointed Pontiac district manager for the Equitable Life Assurance Society of the United States.

Radenbach has been serving as assistant district manager since 1962. The district office is located in the Pontiac State Building.

Three area insurance representatives were honored recently by the Columbus, Ohio, Life Insurance Co. of Columbus, Ohio.

Hillary and John Talbot ranked fifth and tenth among more than 1200 company representatives. The Talbotts are associated with the Talmy Insurance Agency of Union Lake and have their own offices at 2600 Haggerty, Commerce Township, and Middle Atlantic.

Donald C. Nolta, another representative of Columbus, also was among the top 15 in total campaign production. His agency, Nolta Insurance Agency, is located at 283 Daines, in Birmingham.

Swift Cleaners, 908 W. Huron, has been accepted for membership in the National Institute of Drycleaning, according to an announcement from the Institute, which was confirmed by R. L. Harwood of Swift Cleaners.

OLD TRADITION — President Johnson and defeated Barry Goldwater are depicted by masked riders in the same wagon of a postelection parade in Georgetown, Del., yesterday. The parade is part of "Return Day" in the town, when residents gather to hear the election results as they did in pre-war service days.

Party Ends Election Tension

GEORGETOWN, Del. (AP) — After roasting each other politically in the election campaign, Democratic and Republican rivals got together Thursday and roasted one another.

Winners in Tuesday's election, instead of forcing the losers to eat their words, salved hurt

feelings by sharing with them a traditional roast ox sandwich. Democrats and Republicans paired off in automobiles in a parade, losers patted winners on the backs and the winners said what great guys their opponents were.

The occasion for the post-election harmony was Return Day, the traditional Thursday-after-election day custom that started in the days before rapid communications.

ELECTION RESULTS

It was then that people in southern Delaware's Sussex County would journey to Georgetown—usually bringing their own oyster sandwiches, fried chicken and whiskey — and gather at The Circle in front of the courthouse to hear the returns.

The winning party usually did the celebrating.

Return Day was revived to celebrate the Democratic victory of 1936, when Franklin D. Roosevelt carried all but two states, and Georgetown's merchants — mostly Republicans nowadays — revived the holiday as a promotion stunt.

Thursday about 6,000 Dela-

wareans — including Democratic Governor-elect Charles Terry — dressed in 19th century costume, and parading in horse and buggies heard election results read from the court house balcony and cheered the tally as if they were hearing the count for the first time.

Award Promotion

Yank Killed in Viet

Thomas D. Whitlock, 40, former Pontiac resident who was killed in a communist mortar attack in Viet Nam last Saturday, has been granted a posthumous promotion to lieutenant colonel by President Johnson.

Military rites will be held for Lt. Col. Whitlock, a veteran of nearly 20 years of army service, at Arlington National Cemetery Tuesday or Thursday.

He is survived by his wife and three sons, who live in Alexandria, Va.; a married daughter who lives in Washington, D.C.; his mother, Mrs. Lee Whitlock of Pontiac; a sister and a brother.

Peking Building Rocket?

LONDON (AP) — Red China is believed in British scientific circles to be developing a rocket parallel with the project that recently brought her the successful detonation of her first atomic bomb.

These circles feel the Chinese would not have tied up so many of their scientists on the bomb if they were not also confident of having the means to deliver it.

There has been considerable rethinking in Europe on China's entry as the fifth nation in the world's "nuclear club."

The first belief that China's Oct. 16 blast was only a crude plutonium bomb was shattered by American air samples showing that the Chinese had been able to explode uranium-235, thus short-cutting the way to the hydrogen bomb.

The Chinese were not expected to have a hydrogen bomb before 1969, since the normal development from the atom bomb takes four to five years.

QUITE POSSIBLE

Now British scientists think it quite possible for Red China to explode a hydrogen bomb as early as 1966.

Red China has no aviation industry to speak of. Therefore the initial feeling was to down-

Kidney Switch

DALLAS (AP) — Ten-year-old twin sisters were doing well today, after a kidney transplant from one to the other yesterday in an hours-long operation.

Doctors at Parkland Hospital said the transplanted organ began functioning immediately. They added that both the donor, Nancy, and the recipient, Mary, appeared to have come through surgery fine.

Physicians said they thought the fifth-graders were the youngest identical twins to undergo the operation.

Mary Freeman was born with kidneys too small. She weighs only 37 pounds, whereas her healthy sister, Nancy, weighs 100 pounds.

The girls' parents are Mr. and Mrs. D. C. Freeman of Dallas.

grade Red China's atom bomb to a gesture, on the grounds it would be of no military value without some means of delivery.

COLLECTING DATA

But for some years now—ever since Russian technicians pulled out of China because of the Sino-Soviet split—Chinese scientists have been collecting scientific papers on rocketry. The British Interplanetary Society, a nongovernmental group, has been asked for material.

94 Uninjured in Emergency Jet Landing

SAN FRANCISCO (AP) — All 94 occupants of a crippled jet airliner scrambled to safety within a minute Thursday night after the plane skidded more than a mile down a San Francisco International Airport runway in an emergency landing.

No one was hurt.

The United Air Lines jet from Seattle, Wash., circled the field 40 minutes as veteran pilot Virgil W. Vaughan, 56, of Denver, Colo., tried unsuccessfully to bring the plane to a safe landing.

Vaughan said that the four-engine plane landed on its main wheels, rolled until most of its speed was gone and then tipped "twasn't pretty!" forward on its nose.

"It wasn't a pretty landing, but it was about the best I ever saw — considering how it turned out," said Vaughan, a UAL pilot for 32 years.

Form Club to Get Pay for Teachers

RINGGOLD, Ga. (AP) — Citizens of Calous County have formed a club to raise funds to keep the public schools open in the face of a threatened walk-out by teachers over their salaries.

The Lakeview High School has been closed since 19 teachers walked out Monday. The 196 teachers at the other schools in this northeast Georgia county have voted to walk out on Nov. 25 unless provisions are made to pay them.

The situation developed after School Supt. Fred Williams told the teachers that because of a shortage of funds there was no assurance their November salaries could be paid.

Leading to the situation was a new law passed by the 1964 Georgia Legislature in which local schools must pay an expanding share of the school financing costs, including teacher salaries.

OLD LAW

Under the old law, local systems paid 15 per cent of the costs, while under the new setup they will increase their pro rata share to 20 per cent during the next five years.

A group of citizens met Thursday and formed the "375 Club" to be composed of 375 individuals each willing to make an interest-free \$100 loan to the Calous County School Board.

Lesser amounts will be accepted, however. There are between 25,000 and 30,000 persons in the county.

A total of \$1,180 was raised the first day of the campaign.

\$37,500 NEEDED

About \$37,500 is needed to enable the county meet its local fair share of school support as required by the new law.

The county at present has about \$99,000 of the \$136,000 needed. The county faces possible curtailment of state education funds from the state if the amount needed locally is not provided.

Calous Commissioner Meredith Foster has promised to call a referendum on property re-evaluation early in December. Such a program might provide the additional school money, but not in time to prevent the teacher walkout.

If You Don't Succeed -- Fly, Fly, Fly Again

LONG BEACH, Calif. (UPI) — Mrs. Lee Decker Kearns, an attractive 38-year-old student pilot, today was looking forward to her first unmarried solo cross-country flight.

Previous attempts this week resulted in:

- An unauthorized landing at Tijuana, Mexico.
- A crash landing at Palomar Airport in the San Diego Mountains.

HECTIC WEEK

The hectic week began last Monday when Mrs. Kearns took off to fly to Palomar and return.

"I flew the correct course of 120 degrees," she said, "but I didn't reckon on a strong tailwind and a cross-drift that took me far out to sea."

"Going by time, I turned inland at what I thought was the right place, saw an airport, and landed. It wasn't until a Mexican customs agent came out that I realized I was in Tijuana."

"But they were very understanding and helpful—got me headed to Lindbergh Field, and I told the airport I was on the way," she said.

RECEIVER QUITS

"While flying over San Diego, Mrs. Kearns discovered that the radio receiver in her single-engine Taylorcraft plane had quit. The transmitter, however, was functioning unbeknownst to her."

"Without clearance, I didn't dare land at Lindbergh until my fuel was almost gone," she recalled. "When I did, an FAA (Federal Aviation Agency) man told me my flight in from the sea to Tijuana had been monitored by air defense."

Mrs. Kearns' husband, a professional flight instructor who taught her to fly, flew the plane back to Long Beach on Tuesday.

On Wednesday, Mrs. Kearns continued. "Lee told me, 'now go and find Palomar.' I did, without trouble, but I misjudged my landing and bounced. I knew I was going over... just grabbed the ceiling and hung on. The plane tipped on its nose."

EVERYONE'S NICE

"But everyone was very nice about it. The airport manager said, 'You gave me a few more gray hairs until I saw you climb out.' And when the same FAA man flew up from San Diego, all he said was, 'I see you finally found Palomar.'"

Damage to the plane totaled about \$500, Mrs. Kearns said, adding that she can't wait to try cross-country flying again.

"But I'll fly in another direction," she said. "The FAA man told Lee, 'next time head her north. It takes longer to reach the Canadian border.'"

NASA Orbits 'Explorer 23'

WALLOPS ISLAND, Va. (AP) — The space agency has launched a cylindrical satellite into orbit today and designated it Explorer 23.

Scientists turned on all the experimental equipment aboard the eight-foot-long, two-foot-diameter spacecraft by radio command signals from the ground, and reported that all were operating successfully.

The space agency said 2½ hours after the launching that it had confirmed that the 250-pound satellite was in orbit gathering information on meteoroids in space.

USEFUL LIFE

The National Aeronautics and Space Administration said in advance of the launching that it hoped the satellite would have a useful life of one year.

The satellite roared from the launching pad at 7:02 a.m. aboard a four-stage Scout rocket. NASA reported shortly afterward that all four rocket stages had fired as planned.

It is one of the Explorer series and is a successor to Explorer 16, launched Dec. 16, 1962. Meteoroids are known as meteors when they burn upon entry into the atmosphere. Those which reach earth are called meteorites.
