

Bodies Under This Rockslide?

RACE AGAINST TIME—Bulldozers, directed by Army Engineers, are racing rising waters to move 350,000 cubic yards of rock for a 200-foot wide spillway over the earthquake-caused mountain slide damming the Madison River in West Yellowstone in Montana. The spillway is to

prevent flooding downstream. Engineers must finish the task before the new lake (in background) reaches the top of the dam. Water is rising at the rate of nine feet each day. Bodies of 19 persons missing since the quake may lie entombed beneath the slide, officials say.

Monitors Demanding Hoffa Purge 3 Teamster Officials

WASHINGTON (UPI)—Teamster President James R. Hoffa came under new pressure today from his union court-appointed monitors to purge three Teamster officials on grounds they are corrupt.

Formal recommendations by the monitors demanded Hoffa suspend the presidents of three Teamster locals. They are Joey Glimco of Local 777, Chicago; Harold Gross of Local 320, Miami; and Anthony Provenzano of Local 560, Hoboken, N.J.

In addition, the monitors want Hoffa to permit independent audits of the books of all three locals and to appoint a trustee to manage the affairs of Local 777. The recommendations, issued last night, may lead to a showdown between Hoffa and the "watchdog" monitors. The three-man board was set up in January 1958 by Federal Judge F. Dickinson Letts as part of a compromise settlement of a suit by 13 rank-and-file Teamsters who challenged Hoffa's election as president of the big truckdrivers union.

ORDER CLARIFIED

Hoffa has ignored, with apparent impunity, other monitors' cleanup recommendations. The three issued yesterday were the first following a July Court of Appeals decision clarifying the relationship between the monitors and the union.

If Hoffa flouts these latest demands, the monitors may ask Letts to order him to obey.

News Flashes

WASHINGTON (UPI)—The House Ways and Means Committee today approved a bill raising interest on "E" and "H" savings bonds. But the committee again refused by a 14-11 vote to grant President Eisenhower's request to repeal the 4 1/2 per cent interest ceiling on government securities maturing in five years or more.

WASHINGTON (UPI)—The House Appropriations Committee refused today to approve a new public works bill stripped of projects which caused President Eisenhower to veto an earlier measure.

Instead it voted 23-19 to give a subcommittee the job of drafting an entirely new measure to replace the vetoed bill.

Assault on Formosa?

TAIPEI, (UPI)—The chief of Nationalist China's general staff, Gen. Peng Meng-Chi, warned yesterday that the Chinese Communists are "making active preparations" for another assault on the Formosan Straits and "large scale war may break out anytime." His speech marked the observance here today of Armed Forces Day.

Gas Tax Hike Looms

President Calls on NATO Group to Calm Fears

Is Fresh and Relaxed;
Gets Along Famously
With De Gaulle

PARIS (AP)—President Eisenhower today gave the West a blueprint for peace: Refuse to retreat one inch from principle and stay flexible tactically.

"Then there will be no war . . . there will be peace," the President told the North Atlantic Council during a surprise visit.

The President sandwiched the quick visit to NATO headquarters into a tight schedule of talks with Western leaders, and French President Charles de Gaulle.

Arising fresh and apparently relaxed after a late white state dinner with De Gaulle, Eisenhower plied vigorously into the last day of his European tour.

His appearance at the council was designed to calm the fears of the smaller powers that his coming meetings with Soviet Premier Nikita Khrushchev spelled a lessening of their roles in NATO.

"NATO is a matter of spirit, of determination to work as partners and to preserve the ideals we all cherish," the 68-year-old President said.

"If we are firm among ourselves, if we refuse to retreat one inch from principle, if we remain flexible so far as tactics are involved, if we give NATO the same patriotic, deep devotion we give to each of our own nations, then, there will be no war. There will be peace."

"The United States seeks no position in NATO except that of an equal position, ready to work with all member nations regardless of their size.

This reference was aimed at both the smaller NATO powers and De Gaulle, who is giving Eisenhower a spectacular welcome in France as a demonstration of the nation's friendship for the United States.

The two wartime comrades — only a month apart in age — continued their discussions at a lunch Eisenhower gave at the U. S. Embassy residence. From all outward appearances they are getting on famously on a personal level.

SANTA MONICA, Calif. (UPI)—Actor Leo Carrillo, 68, was in critical condition today after extensive abdominal surgery at a hospital Wednesday. Carrillo became ill last week while on a personal appearance tour in the East.

Bruce M. Taylor, 32-year-old Pontiac butcher accused of the brutal beating of an 18-year-old baby sitter he said he thought was his estranged wife, has been found sane and capable of standing trial on a charge of assault with intent to murder.

Circuit Court Judge Frank L. Doty delivered the ruling this morning after hearing the testimony of three court-appointed psychiatrists at a sanity hearing requested by the defense.

Doctors Ivan J. LaCore, Clinton J. Mumby and Maurice E. Willis concurred that Taylor is sane enough at this time to assist his counsel in the defense of his case.

The slight and balding man's clean shaven face was expressionless throughout the half-hour proceedings.

Each of the psychiatrists gave Taylor a one-hour examination. Willis said, "He understands the nature of his acts."

Mumby told the court, "He is an infantile person . . . but he knows right from wrong."

DISTURBED BUT SANE
LaCore testified, "He has emotional disturbances, but they are not strong enough to make a break with reality or constitute a psychosis. He is sane."

Taylor, of 306 Mt. Clemens St., admitted beating Phyllis Jean Keel of 55 Wall St., on June 22. He told police he

House Gets It Tomorrow

Senate to OK Labor Bill

WASHINGTON — An adjournment-minded Senate awaited the chance today to stamp approval on the compromise labor reform bill and send it to the House for final congressional action.

Democratic leader Lyndon B. Johnson (Tex.) called the senators in early (9:30 a.m. EDT) to take up the bill and said he would hold them late tonight, if necessary, to get it passed. The House was expected to follow suit tomorrow.

The measure will then go to Eisenhower.

Virtually everyone in the Senate except Sen. Wayne Morse (D-Ore.) looked forward to this chore although many were not entirely pleased with all the provisions in the bill.

Another highly displeased person was Teamster President James R. Hoffa, whose giant truckdrivers union was the prime target of the bill. Hoffa called it "a black day for labor."

Eisenhower's approval is considered certain since the final product meets most of his specifications.

The compromise bill worked out Wednesday writes into federal law for the first time detailed controls over internal operations of unions on such points as finances, elections, trusteeships and rights of members.

But it also—and this is the part which caused the long and difficult conference — beefs up the Taft-Hartley law on such bitterly disputed points as secondary boycotts and organizational picketing.

In the end, the conferees accepted the basic pattern of the broader Landrum-Griffin House bill on the Taft-Hartley changes in the seventh and final title.

LIMIT PROVISIONS

But Sen. John F. Kennedy (D-Mass.) and the other Senate Democratic conferees succeeded in getting into the measure limitations on the new Taft-Hartley provisions aimed at protecting legitimate union rights.

On the first six titles dealing with internal union procedures, the compromise follows the framework of the Senate measure originally worked out by Kennedy last year. But some House sections.

The compromise won almost unanimous praise from Congress members on both sides of the dispute over the bill. But there were reservations by those most sympathetic to labor's position.

The bill was almost sure to be disappointing to labor. The AFL-CIO had criticized the measure in the form it passed the Senate, and strongly assailed the Landrum-Griffin version.

Secretary of Labor James P. Mitchell said he was "extremely pleased" with the bill and added, "No honest trade union or employer has cause to fear this legislation."

Pontiac area residents can expect fair and continued cool temperatures tonight with a low of 58.

The weatherman forecasts a sunny tomorrow, turning a little warmer. Following an 82 high Friday afternoon, the mercury will dip once again to a 58 low that night.

Westerly winds, recorded at 10 miles per hour at 10:30 this morning, will diminish tonight.

Lowest temperature preceding 8 a.m. today was 60 at 6 a.m. The thermometer read 78 at 1 p.m.

Slate Kangaroo Court at Hawthorne Dedication

Mayor Philip E. Rowston will don judicial robes and preside, gavel in hand, at a kangaroo court on Labor Day during an all-day festival in honor of the dedication of Hawthorne Park.

Self-appointed Keystone Cops intend to haul quite a few law-breakers before Judge Rowston for sentencing.

Fines will run in the nickel, dime and quarter category. They'll all go into the fund that the Weaver-Owen-Hawthorne Community Club is building to help finance park improvements.

Just what actions on the part of festival attendees will be in violation of the festival's ordinances, no one seems prepared to say.

Perhaps you'll be arrested for wearing socks that match. Maybe because (in rare instances) they don't match. Perhaps, again, the

law won't be concerned with socks at all.

You probably won't know what the law is until you've been arrested for violating it.

That way, the club will collect more funds, it's figured.

FUN IN EARNEST

The fun reflects the serious endeavor behind the festival. Hawthorne is the city's newest—and potentially the biggest of the municipal parks.

In appreciation of the club's drive to help make the park's beautiful potential a reality, the City Commission recently decided to make the park's traditional name official.

The park will be the first one in Pontiac that has been dedicated with an official name.

Ceremonies will be at 4 p.m. with city commissioners in attendance.

Participating will be Rowston, City Commissioner Floyd P. Miles; Mrs. George W. Gray Sr., club chairman; Leslie H. Hudson, festival chairman; State Rep. Arthur J. Law, and David R. Ewalt, director of Parks and Recreation.

Besides refreshments, the festival will offer a variety of attractions for youngsters, games and contests, a used car auction and talent show, and a teenage dance from 7-10 p.m.

RAWLINS, Wyo. (UPI)—Careful driver Don Elbridge of Salem, Ore., approached an intersection and thrust out his arm to indicate a stop. A boxer dog bounded alongside, eyed Elbridge's dangling fingers and bit him on the hand.

House May Vote Today to Avoid Work Stoppage

If Levy Goes Through
State Residents to Pay
1 Penny Plus

WASHINGTON (UPI)—The House, under pressure from leaders of both parties, appeared ready today to give its reluctant approval to a one-cent gasoline tax boost.

The federal action could mean the second gasoline price increase within a short span of time for Michigan motorists.

The state's disputed one-cent use tax, which went into effect Tuesday, is included in the price of gasoline as three-tenths of a cent per gallon. (Individual station operators, however, may choose to withhold this charge.)

For car owners, the federal bill would add another \$1,050,000,000 to motor taxes for the next 21 or 22 months until July 1, 1961, by raising the gasoline tax from 3 to 4 cents a gallon.

Its enactment was called necessary to avert a construction stoppage on the 4,000-mile network of superhighways planned to link the nation's principal cities by 1972.

The states bear 10 per cent of construction costs, the federal government 90 per cent.

The issue was put to the House on a take-it-or-leave-it basis—like the tax a penny a gallon or allow construction of the interstate highway network to bog down drastically.

Even so, many House members intended to vote against the tax increase. And those who favored it hoped that a formal rollcall would not be required so they wouldn't have to go on record for higher taxes.

Many lawmakers were plugging for highway financing schemes that didn't involve a tax boost. Most of these plans called for dipping into the treasury to beef up the highway trust fund.

But the sponsors had no chance to offer these amendments to the bill because the measure was being considered under a procedure barring amendments from the floor.

The picture could change in the Senate where there is no amendment ban.

President Eisenhower called in his budget message last January for a 1 1/2-cent increase in federal gasoline taxes, which now stand at 3 cents a gallon. Congress balked.

Judah Lake Estates — a Growing Subdivision

IN PICTURESQUE COUNTRYSIDE—This aerial shot, taken from over Judah Lake and looking north, shows part of the 200 acres devoted to Judah Lake Estates. Started about four years ago, the Orion Township subdivision has had its biggest growth in the past year. One hundred and thirty homes in the \$10,000 to \$12,000

class are built. There are 500 lots in the subdivision. The character of the rolling countryside has been kept and 33 acres on the lake are set aside for the use of the residents. Most of the buyers are from the Pontiac area. This subdivision has several models of the Viking all-aluminum home.

Expects Falcon to Send European Imports Home

(Continued From Page One)

m.p.h. may be maintained, and it has good passing characteristics, engineers said. Top speed has been 50 on the test track.

Cost of parts replacement and repairs are expected to be between 30 and 50 per cent below those of standard models, it was predicted.

Automatic transmissions will be available, and air conditioning will be optional later. No convertible models are planned, but station wagons and pickup trucks will be introduced later.

Ford entry into the smaller car field was not without a good deal of testing and considerable experience for many years in making smaller Fords in England and in Europe, it was pointed out.

Tests of the Falcon rolled up more than 1 1/2 million miles, and several of the cars had 100,000 miles logged.

Similar to the many foreign imports, the Falcon will not be changed as much each year as the regular size units of the Ford line.

A question about whether Ford has any plans for a small car, the same size as the foreign imports, brought the answer that nothing of this type was on the drawing boards.

The company said market research, carried on extensively on small cars since 1954, indicated potential buyers of such a car were interested first in high gas mileage and second in low initial cost. These surveys, the company said, indicated these two factors were far more important than compactness.

James O. Wright, a Ford vice president and general manager of the Ford Motor Division, said production has begun on a two-shift basis at plants in Lorain, Ohio and Kansas City, and the car also will be made in San Jose, Calif.

Of the 14 Ford plants in Michigan expanding their operations to produce components of the new car, two are in the Oakland County area.

The Northville plant is making

Isolated Rains Dampen Parts of Plains, South

By THE ASSOCIATED PRESS

Isolated thunderstorms damped parts of the central Plains and the South today but elsewhere over the country the weather generally was mostly on the pleasant side.

Hail stones described as golf-ball size were reported at Sunny, Tex., 90 miles north of Amarillo. Precipitation occurred in the Tennessee Valley, Florida, Georgia and parts of New England. Cooler weather moved into the central Mississippi Valley and continued eastward.

Union Leader Host to Nikita

James B. Carey Plans to Offer Peace Plan to Khrushchev

WASHINGTON (AP) — Union leader James B. Carey said today he will propose in a dinner meeting with Soviet Premier Nikita Khrushchev Sept. 20 at San Francisco that both the Soviet Union and the United States drastically reduce defense expenditures and devote the money to promoting peace.

Carey, president of the International Union of Electrical Workers, will be host at the dinner. Half a dozen other union leaders will attend.

"We want a frank exchange of views," Carey said. "We're not interested in just socializing."

Carey said he already has sent word through the Soviet Embassy he wants to discuss with Khrushchev the possibility of drastic U.S. and Soviet arms cuts, perhaps as much as 50 per cent of defense expenditures, with the money devoted to helping backward peoples of the world.

Red Press Warns About U.S. in Laos

MOSCOW (AP) — The Soviet press today stepped up its campaign against what Red Star called "gross U.S. interference in the affairs of Laos." Red Star, the Soviet Defense Ministry or

gan, pictured Laos as threatened by foreign military invasion. "Pretexts are being prepared in advance for the movement of foreign troops into Laos. Plans are being worked out to transform its territory into a U.S. military springboard against the democratic Viet Nam republic, against the Chinese People's Republic, against Cambodia and other countries in Southeast Asia," Red Star said.

March in Parade or Pay Fine, Says Union to Workers

NEW YORK (AP) — It's march in the Labor Day parade or be fined, about \$500, workers, demonstrators and paperhangers have been told by their union.

The edict was announced Wednesday by Martin Barback, secretary-treasurer of District Council 9 of the union. A union spokesman declined to estimate what the fine may be.

The parade next Monday will be the first in 30 years to be sponsored by organized labor in New York.

Asks U.N. Council to Meet Regularly

UNITED NATIONS, N.Y. (AP) — U.N. Secretary General Dag Hammarskjöld suggests that the Security Council hold periodic private meetings to discuss any aspect of the international situation which may prove of concern to it. He also says the Economic and Social Council should set up brief special sessions at the ministerial level looking toward international economic policies.

Hammarskjöld made the suggestions in the introduction to his annual report, made public late Wednesday. By doing this, he said, the U.N. could better serve the world's needs.

This Burns Reds Up

TOKYO (AP) — Ryozo Igarashi told police he set fire to the northern Tokyo chapter office of the Communist party because the party expelled him.

Reds Only 12 Miles Away

Laotians Gird for Battle

VIENTIANE, Laos (AP) — Lao-tian government troops threw up a defense line against advancing Communist rebels today only 12 miles from Sam Neua, the royal army's military headquarters in northern Laos.

Over forces since Sunday have overrun lightly manned outposts. Advance units were reported with in 12 to 18 miles of Sam Neua in what shaped up as a major offensive.

CHAMPS HAVE THEIR DAY — The North Pontiac Kiwanis Club honored its championship baseball team yesterday at a special luncheon at the Green Parrot Inn. Team members are shown here with special guest speaker, Neal "Doc" Fenckel, publicist of the Detroit Baseball Co., (back row, center) and their coach, Bob

Richer, next to Fenckel. The team won top honors in Pontiac's Class F Little League. Fenckel, in talking to the boys, emphasized the importance of overcoming weaknesses both in baseball and everyday life. An extensive question and answer period followed his talk.

Brooklyn Youth Stabbed in Third Attack by Gang

NEW YORK (UPI) — An 18-year-old youth was stabbed and seriously wounded and three companions were beaten in an unprovoked attack by a teenage gang on a Brooklyn street corner yesterday. It was New York's third outbreak of youth violence in 11 days.

Gov. Nelson A. Rockefeller and Mayor Robert F. Wagner planned separate conferences today to deal with the problem. The wounded youth, Dominick Scudiere, told police he was talk-

ing with three friends when a band of about 15 youths, believed to be Puerto Ricans and members of a gang called the Majestics, approached and asked if they were members of either of two gangs.

Scudiere and his friends said they were not but one of the band, believed to be the leader, said, "You took care of our boys and now we're going to take care of you."

The attackers then set upon the

Merchants in Dither Over New Use Tax

LANSING (UPI) — Michigan's 4 Supreme Court would rule the levy per cent use tax, designed to help solve the state's financial woes, was causing woes of its own for merchants as it went into its third day today.

The biggest question of course was whether or not the State

Another question was: "How should it be applied?"

That answer was: "As directed by the Michigan Retail Merchants Assn."

"Confusion reigns pretty generally among Michigan merchants," admitted O. F. Cook, executive vice president of the retail organization.

Cook said his telephone has been ringing regularly since merchants received conflicting breakdowns from his organization and from the State Revenue Department.

The breakdowns designated ranges for use-sales tax collections. For instance, the MRMA bracket levied a tax of one cent on sales from 17-37 cents.

The version offered by the revenue department put a penny tax on sales between 13-17 cents.

However, Clarence W. Lock, deputy commissioner of revenue, indicated merchants should follow the MRMA bracket recommendation.

"Our bracket system applies to transactions involving only the use tax," Lock said.

The MRMA bracket setup is for the combination sales-use tax.

Collection of the use tax spread over confusion and uncertainty today.

A new ruling by state officials rolled away troubles for auto dealers, but contractors still awaited an attorney general's opinion on their problems.

Taxpayers were advised by Atty. Gen. Paul L. Adams that it might be advisable to keep separate records of sales and use taxes they pay until the State Supreme Court decides whether the new law is constitutional.

Adams said he had taken under advisement a request for an opinion on contracts signed by contractors before the new law took effect. All transacted before Tuesday assumed payment at a three per cent rate on materials.

The Day in Birmingham

Art Exhibit Has Aspects of National Church Event

BIRMINGHAM—What began as the school parking lot. But, according to Police Chief Ralph W. Moxley, the school district's wish to have a full-time policeman at the lot would cut the number of patrolmen for the rest of the city by a fourth.

A check of police reports shows that the parking lot has been the scene of continued vandalism and thievery as well as traffic jams.

Ross will be on duty at the school starting with opening day Tuesday.

He has been a member of the police department here since 1936 and was promoted to sergeant in 1951.

Birmingham has scored another first—this time at the 82nd annual meeting of the American Bar Assn. at Miami Beach, Fla.

The city was named recipient of an Outstanding Accomplishment Award in the Field of Traffic Court Procedure.

The award cites Birmingham as first in the 25,000 to 50,000 population class.

Sales stimulating plans for the exhibited works in original paintings, sculpture, metal work, ceramics and textiles are being made, Father Davidson said.

The exhibition will be opened formally Oct. 15, and will run through Oct. 26. Deadline for submission of entries is Sept. 18 and further information may be obtained from Father Davidson at the Holy Name Parish House, 645 Woodland Ave.

The Awards Jury is made up of William Woolfenden, curator of education, Detroit Institute of Arts, Zoltan Sepeshy, director of Cranbrook Academy of Art and the most Rev. Alexander Zaleski, auxiliary bishop of Detroit.

City Police Sgt. Malcolm (Scotty) Ross, 39, is retiring from the force but not from life as a policeman here.

He has been hired by the Birmingham School District to maintain law and order in the parking lot at Seaholm High School.

In the past, the Birmingham Police Department has taken care of

Commerce Man Critical After Auto Accident

A 61-year-old Commerce Township man, Albert J. Sternhager, was in critical condition today at Pontiac General Hospital with injuries suffered in an auto accident early this morning.

Oakland County sheriff's deputies said Sternhager's car collided with auto driven by Melvin Spencer, 20, of 5663 Carbert St., Walked Lake, at W. Maple and Halstead roads in West Bloomfield Township at 12:40 a.m.

Sternhager, who lives at 8437 La-goon Dr., suffered head, rib, arm and leg injuries. Spencer was in satisfactory condition with head and back injuries.

Deputies were unable to take a statement from Sternhager. They said Spencer told them he ran a stop sign at the intersection.

Report 3rd Theft at Avon Twp. Bar

Oakland County sheriff's detectives today were investigating the third burglary this summer from an Avon Township bar.

Richard James, owner of Jay's Bar, 54 W. Auburn Rd., reported the break-in yesterday. Thieves broke a side window to enter the building and pried open vending machines as in two previous break-ins last July.

The burglars escaped with a total of about \$304, including approximately \$100 taken from a cash register, James said.

thought it was his wife sleeping on the living room couch.

Mrs. Juanita Taylor was working at Pontiac Osteopathic Hospital when the beating occurred at her home, 223 W. Rutgers St.

Taylor's six-year-old daughter, Valerie, testified at an earlier examination, "I saw my daddy beating the baby sitter with a ball bat." Phyllis Keel was unconscious and in critical condition for more than a week.

Trial is scheduled for the third week in September. If convicted, Taylor could receive a maximum sentence of life imprisonment, the same as that for second degree murder.

Assigned by the court as defense counsel, William Whitefield said, "This does not preclude raising the question of sanity at the time of the crime when Taylor stands trial."

The executive committee of the Montgomery Improvement Assn., a Negro group, said no planned effort to enter white schools would be made now.

The Rev. Martin Luther King Jr., said the organization, of which he is president, wants to give the school board a chance to make a voluntary step toward desegregation before any further action is taken.

But he made it clear that a court suit is coming unless school authorities make a start toward integration within a reasonable time.

Negroes Biding Time in 'Bama

MONTGOMERY, Ala. (AP) — Schools reopened in Montgomery today with Negro leaders advising their people to make no attempt to enroll in white classrooms at this time.

The executive committee of the Montgomery Improvement Assn., a Negro group, said no planned effort to enter white schools would be made now.

The Rev. Martin Luther King Jr., said the organization, of which he is president, wants to give the school board a chance to make a voluntary step toward desegregation before any further action is taken.

But he made it clear that a court suit is coming unless school authorities make a start toward integration within a reasonable time.

Red Paper Slams Nixon

MOSCOW (AP) — Izvestia, the government newspaper, today accused Vice President Richard M. Nixon of trying to cool the friendly feelings of plain Americans toward the Soviet people and the Soviet Union.

Enthusiasm High at Navy Base

Bound for South Pole?
Take Golf Clubs Along

By MAURICE CUTLER
LITTLE AMERICA V, Antarctica (UPI)—Memo to prospective visitors to the Antarctica: Take your golf clubs with you.

Enthusiasm for golf runs high at this U. S. Navy base some 750 miles from the bottom of the world. With the arrival of summer, proponents of the grand old game don their "muckluck" snow boots and take to the "greens."

Called the "Sam Snead of Antarctica," Navy Capt. Eugene H. Maher, of Ogden, Utah, is promoting the sport as a recreational activity here. Maher is the officer in charge of the seven U. S. bases in the Antarctic and makes his headquarters at Little America.

Among the advantages of golfers around here is the fact that they can play it 24 hours a day, since the sun never sets during the seven months of summer from September through April.

Maher, a husky-looking man in his late 40's, introduced this correspondent to South Pole golf late this month in a one-hole contest played on the deep snow that covers the base.

All you need, he said, is a club, preferably an iron; a ball, prefer-

ably of soft material and for obvious reasons any color other than white, and someone to carry your camera and take pictures, because no one is going to believe you when you get back home.

We opened the Captain's back door and found a pile of snow about five feet high. Maher climbed out with a club and a ball for each of us and helped me through the hole in the snow into the sunshine.

After selecting his club, a four-iron, Antarctica's pioneer golfer handed me the other club, a number five, and a ball apparently made out of twine. It weighed a little less than a normal golf ball, and it was a bright red.

When I asked for a tee, Maher said "that's not necessary," and scooped up a pile of snow, placed his ball on the "tee" and announced that the first hole was a half-buried radio pole about 100 yards away.

My experienced adversary addressed the ball and drove it about 30 yards, leaving the snowy tee intact. After two attempts to lift the ball off the snow, I managed to drive it some 10 yards where it landed in a trough of hard snow.

Most of Shore Private

The Pacific shoreline of the United States from Mexico to Canada extends 1,700 miles, but the National Park Service found that 1,448 miles of this is privately owned

and not available for public recreation.

U. S. Has Lace Center

PROVIDENCE — One-half the lace produced in the U. S. comes from Rhode Island.

Ice Cream Common

Almost one-third of all American homes have ice cream on hand on an average day and about one-half of them serve ice cream as a dessert at least once

a week, according to the Minnesota Dairy Industry Committee.

Frisco Rice Center

More rice is exported through San Francisco than is grown throughout China.

Rise to 8,000 Feet

The Balkan Mountains extend through the center of Bulgaria, rising to a height of 8,000 feet.

One out of eight Americans will enter a hospital this year.

Pennsylvania's greatest income is from coal and steel industries, but more than half the land area of the state is in farms.

The price of coal per ton at the mine is approximately the same today as it was in 1948.

New Technique Used on Nursery Stock
Halts Insect Infection

LANSING — The Conservation Department's development of an effective and inexpensive method to prevent shipment of insect-infected nursery stock has stirred considerable interest among forestry officials of neighboring states.

The technique was introduced after the European pine shoot moth was discovered in several nursery beds in the fall of 1957.

Applying and expanding research data obtained from the

Canadian Department of Agriculture, the department built fumigation chambers at Higgins Lake and Wyman nurseries. After nursery stock was baled and ready for shipment, it was placed in these chambers and methyl bromide gas was injected.

During the fall of 1957 and spring of 1958, more than 8,500,000 red pine seedlings and transplants were treated. Jack pine and white spruce species were also experimentally treated and planted.

The fumigation project's effectiveness in killing larvae while not being injurious to treated stock, has prompted forestry officials to continue its use on red pine and to test other tree species on an experimental basis.

Legion Leaders Criticize Diggs

Negro Post Commander Chides Congressman for Running From Fight

DETROIT (AP) — The Negro commander of American Legion Post 184 has criticized Rep. Charles Diggs (D-Mich.) for resigning from the legion in protest against what Diggs called racial discrimination.

Diggs, a Negro from Detroit, announced his resignation last week because the Legion's national convention rejected a proposal to integrate its 40 & 8, a fun-making auxiliary.

John M. Harris, commander of Post 184, of which Diggs was a member, said he had written the congressman urging him to reconsider.

"I have always held you in highest esteem for being a fighter for the civil rights of Negroes," Harris wrote Diggs. "Yet you quit in the face of a fight."

Harris, of Ford Motor Co. electrician, said his post currently is all Negro, but has had white members in the past.

Death Notices

ROY WHITE — VOY White, infant son of Mr. and Mrs. Samuel White of 181 Cedar St., died Wednesday morning at Pontiac General Hospital.

Surviving besides his parents are three brothers, Donnie, Norman and Lawrence, and two sisters, Jean and Barbara.

Prayer service for the one-day-old infant was held at 11:30 a.m. today at the William F. Davis Funeral Home with burial in Oak Hill Cemetery.

EDMUND F. KROSS — CLARKSON — Service for Edmund F. Kross, 87, of 35 Washington St., will be held at 2 p.m. Saturday at Sharpe-Goyette Funeral Home here. Burial will be in Andersonville Cemetery.

Mr. Kross died yesterday at Glen Acres Rest Home after an illness of four weeks.

Surviving are a sister, Mrs. Louise Hoxie, and two nieces, Mrs. Harry Anderson and Mrs. Earl Campbell of Pontiac.

Psychological Warfare Part of Defense Course

A discussion of psychological warfare, Communist style, will be a new feature of the Medical Emergency Course, about to begin its third year in Pontiac under the direction of the Oakland County Office of Civil Defense and the Oakland County Health Department.

The 13-week course will be held from 8 to 10 p.m. Thursday nights at Mark Twain School, beginning with registrations at 7:15 p.m. Sept. 10.

"The course offers training in the event of any medical emergency, whether it be natural disaster, an enemy-borne disaster, accident or family illness," said the course supervisor, Mrs. Herminio Rodriguez Jr., a nurse who acts as coordinator for medical training for the county civil defense office.

The lecture on psychological warfare will be given by Mrs. Rodriguez. She said it would cover the background of Communist plans and tactics and the present techniques used by Communist infiltrators.

Other subjects will include first aid, medical emergencies arising out of nuclear warfare, sanitation, home protection, basic nursing techniques and artificial respiration.

Films will be shown and the final class will be devoted to a field exercise in which the school will be converted into a temporary hospital.

The course is open to the public. It is sponsored by the Pontiac Office of Civil Defense.

Big Parade Opens Fair Tomorrow

DETROIT (AP) — A three-mile-long parade, including more than 3,500 persons in 110 units, will open the 110th Michigan State Fair in Detroit tomorrow.

The procession will move from the downtown business district to the state fairgrounds, beginning at 11 a.m.

Among persons participating will be Maj. Gen. Ulysses S. Grant III, grandson of the famous Civil War general, who is coming for dedication of the restored Grant House on the fairgrounds.

Gen. Grant, now 80, will view the house where his grandfather resided in Detroit 110 years ago.

Thirty of 52 beauty queens entered in the Miss Michigan State Fair contest will ride in some of the 100 convertibles in the parade. There will be 20 floats, 300 animals and more than 20 bands.

The fair runs through Sept. 13.

Pick Ferndale Attorney for Lawyer Honor

David C. Pence, 885 W. Oakridge, Ferndale, an attorney with offices in the Pontiac State Bank Building, has been inducted into the American College of Trial Lawyers.

Pence was among 106 attorneys so honored in Miami Beach, Fla., at the organization's annual banquet.

Criminal Lawyer Dies

DETROIT (AP) — Edward H. (Ted) Kennedy, 59, well known criminal lawyer of the prohibition era and a city official during the administration of the late Mayor Edward J. Jeffries Jr., died today. He suffered a heart attack several days ago.

Paris Thunders Welcome to Eisenhower

By REILMAN MORIN

PARIS (AP) — Dwight D. Eisenhower the diplomat rode down the Champs Elysee Wednesday. A million or more Parisians cut loose in frenzied enthusiasm equaled only on the liberation of the city from the Germans by the forces of Dwight D. Eisenhower the general.

Choking with emotion, the President gave his thanks in his halting French: "Je vous aime, tous" — "I love you, all."

"We love you too, Ike," came the thunderous response, in spirit if not in those exact words.

For Eisenhower, on another mission in a quest of peace, it

was a day poignant with memories. And the French put on a show of pageantry to make it a day to remember for the first American President to visit France since Woodrow Wilson after World War I.

The rousing welcome began the moment Eisenhower's jet touched down from London and carried on into the night. The early evening drive up the Champs Elysee brought the crowning climax.

Parisians 20 deep lined the famous thoroughfare to shout themselves hoarse — "Vive eek (Ike)." Eisenhower and President Charles de Gaulle stood up in the open car as they proceeded up the avenue to the Arch of Triumph. Eisenhower beamed broadly, bowed repeatedly, held both hands over his head again and again.

He wore a dark civilian suit. De Gaulle wore the general's uniform of the French army he led in World War II under Eisenhower's over-all command.

The vast throng fell silent as the two old soldiers reached the tomb of France's unknown soldier under the arch.

Massed there were French and American veterans of both world wars — a man with a mutilated,

grotesque mask of a face... a man limping on a wooden leg... a blind man behind dark glasses... and a cluster of generals and admirals.

Two Americans, a Negro Army sergeant and an Air Force sergeant, handed the President the wreath.

Eisenhower gently placed the wreath and then, in a symbolic ritual, he took a sword and increased the eternal flame that flickers at the head of the tomb. A ruffle of drums that swelled in crescendo broke the silence. A band played the "Sonnerie aux Morts," the French Taps.

Eisenhower kept his eyes on the tomb and the flickering flame about it.

The band struck up "The Stars and Stripes Forever" as the President walked through the ranks of war veterans, French and American.

With the conclusion of the solemn ceremony, the crowd burst again into cheering as the two presidents rode away for the city's official welcome at the hotel de ville, the Paris city hall.

To the huge crowd waiting in the square there, De Gaulle said: "Although the years pass, nothing can efface the memory of the victory won under his command by the Allied armies and, naturally

in France, with the soldiers of France.

"Proof that one does not forget? Paris has just given it."

Eisenhower — if he had prepared notes — discarded them in reply. Looking across the vast audience he said: "When the heart is full, the tongue is very likely to stumble. Should I try to express to you today the true feelings, the true sentiments that

now inspire me, I should be completely unable to speak at all."

Burst of applause interrupted him. The President swallowed hard as he went on: "We have been allies for many years, from the days of Lafayette. To this very moment, America cherishes the friendship, the loyal cooperative effort that have always been here whenever she needed it from France."

Fire in Oven Vent Hard to Extinguish

A stubborn fire, confined to a baking oven, kept Pontiac firemen at the Pontiac Motor Division Foundry Plant for several hours this morning.

Plant protection officers said the fire was caused by an excess of residue in the ventilating system of the oven. It did not cause much

damage but was difficult to extinguish due to its location.

Trucks were called to the plant at about 7:30 a.m. One pumper remained there until shortly before noon. No damage estimates have been announced.

Michigan State Fair Opens Tomorrow for 10 Days

The colorful Michigan State Fair, the nation's oldest and one of the biggest, opens the doors for the 110th time tomorrow and General Manager Donald L. Swanson anticipates the largest attendance in history.

The Fair will have a 10-day run concluding on Sunday, Sept. 13, at the fairgrounds on Woodward avenue near McNichols road in Detroit.

Visitors will see more Michigan livestock and farm products than have ever been shown at the State Fair in its entire history.

The veterans will have their

big day on Saturday, Sept. 5, climaxed by the naming of the "Veteran of the Year" with appropriate ceremonies in front of the Music Shell. All veterans will be admitted free by presenting suitable identification.

Dr. Reuben Youngdahl, pastor of Mt. Olivet Lutheran Church in Minneapolis and one of the nation's foremost Protestant leaders, will deliver the sermon at the ninth annual Sunrise Service this Sunday. He is expected to address a crowd of more than 10,000.

Union and labor organizations

will step into the spotlight on Labor Day, Monday, with an unusual program arranged for the entire day.

The kiddies will have their chance to participate in the Fair activities on Tuesday in the annual Children's Day festivities. There'll be pie eating contests, pony-tail events for the girls and a full day of events for the young.

Governor William Milliken will bring limelight on Wednesday, the traditional Governor's Day and Agriculture Day at the Fair. He'll

make a tour of the grounds in the morning, lunch with the bevy of beauties vying for the Miss Michigan State Fair title, participate in the auctioning of the grand champion livestock in the afternoon in the Coliseum and then crown "Miss Michigan State Fair" in the evening in the Music Shell.

Many as old as 90 or more, will be honored guests on Thursday, Sept. 10, and will be the first nine days and nights of the fair. The show for the first time a day in the grandstand for the 250-mile new stock car race in the Coliseum on the first day, Sunday, Sept. 13, and a gigantic free fireworks display day and night on Sept. 13 and 14. The Coliseum will feature its appearance of the Detroit

selection of "Mrs. Michigan State Fair" on Friday, Sept. 11; Teachers Day on Saturday, Sept. 12, at which many of the state's outstanding educators will be honored; and the windup comes on Sunday, Sept. 13, with the huge International Day festival.

In addition, there'll be free shows, barnyard games, Sparkletones and the first nine days and nights of the 250-mile new stock car race in the Coliseum on the first day, Sunday, Sept. 13, and a gigantic free fireworks display day and night on Sept. 13 and 14. The Coliseum will feature its appearance of the Detroit

traditional stage shows during the first four days and nights with Dick Clark, Frankie Avalon, Duane Eddy, The Coasters, LaVern Baker and 10 other acts. The show for the final three days and nights will be featured by Tony Bennett, The Mills Brothers, Connie Francis, Richard Hayman, the Black

Mounted Police drill team, the Ionia 4-H Saddle Club and a nightly parade of champions from the junior livestock competition and the senior division judging.

Eldon McLachlan, director of agriculture exhibits, reports that there will be on view a record number of 575 beef cattle, 1,300 sheep, 1,200 swine, 850 horses, 625 dairy cattle, 700 rabbits and caviar, 2,100 chickens and turkeys and 1,400 pigeons.

Many of the entries will come from Oakland County.

Livestock will be judged in the Coliseum as follows:

Percherons, Hitch and Ponies, Sept. 8; 4-H Saddle, Sept. 8; Appaloosa, Arabian and Morgan, Sept. 10; Beef and Dual Purpose Cattle—Sier Herford and Milking Shorthorn, Sept. 8; Shorthorn and Polled Shorthorn and Angus, Sept. 9; Red Poll, Sept. 10.

Dairy Cattle—Guernsey and Jersey, Sept. 8; Ayrshire and Brown Swiss, Sept. 9; Holstein Friesian, Sept. 10; Sheep—Pat Lamb, Suffolk, Cotswold, Corriedale, American Merino, Black Top Delaine, Romney, Sept. 7; Columbia, Montadale, Hampshire, Delaine Merino, Shropshire, Karakul, Sept. 8; Rambouillet, Lincoln, Southdown, Cheviot, Dorset, Sept. 9; Oxford, Market Woad, Classes, Sept. 10.

Swine—Barrows, Carcase Class, Sept. 5; Barrows, Sept. 7; Chester White, Spotted Poland China, Berkshire, Poland China, Sept. 8; Duroc, Yorkshire, Hampshire, Tamworth, Landrace, Sept. 9; O.C., Sept. 10.

Poultry, pigeons and rabbits will be judged Sept. 8.

Agriculture, horticulture, vegetables, horticulture, dairy products and apiculture will be judged Sept. 4, and maple products, Sept. 5.

SEEKS PRIZE — Merrill Sikorski, 12, of Ski Valley Farms in Bloomfield Hills, plans to enter his four-month-old Shetland pony in competition at the Michigan State Fair which opens tomorrow, lasting for 10 days. This year's event will present more livestock for judging and viewing than ever before in the fair's 110-year history. Many of the entries will be from Oakland County.

County Officials in State Parley

3 Will Play Major Roles in Conference Dealing With Juvenile Problems

Three Oakland County officials who work with juvenile problems will take major roles beginning next Wednesday at a joint meeting and conference of the Michigan Juvenile Court Officers Assn. and the County Agents Assn.

Attending the three-day conference at the Wenonah Hotel in Bay City will be Probate Judge Arthur E. Moore, James W. Hunt, director of Children's Services, and James H. VanLeuven, assistant director and president of the Juvenile Court Officers Assn.

On Thursday afternoon Judge Moore will join four other Michigan probate judges in a panel discussion on necessary changes to modernize the state's adoption laws, one of Judge Moore's goals. Wayne County Probate Judge Nathan J. Kaufman will also participate.

In a question and answer period, Hunt will discuss with other juvenile officers from around the state juvenile court probation.

Gov. G. Mennen Williams and Michigan Supreme Court Justice George Edwards are expected to address the conference, whose purpose is to have juvenile court personnel exchange ideas and discuss problems of mutual interest with the view to improvement of service to the children of Michigan.

Oxford Board OKs Two New Principals

OXFORD—The Board of Education of the Oxford Area Community Schools has approved the appointment of two new principals in the district.

Roy Cloud will be the new Junior High School principal, and Philip Kelis will be the teaching principal at Leonard Elementary School.

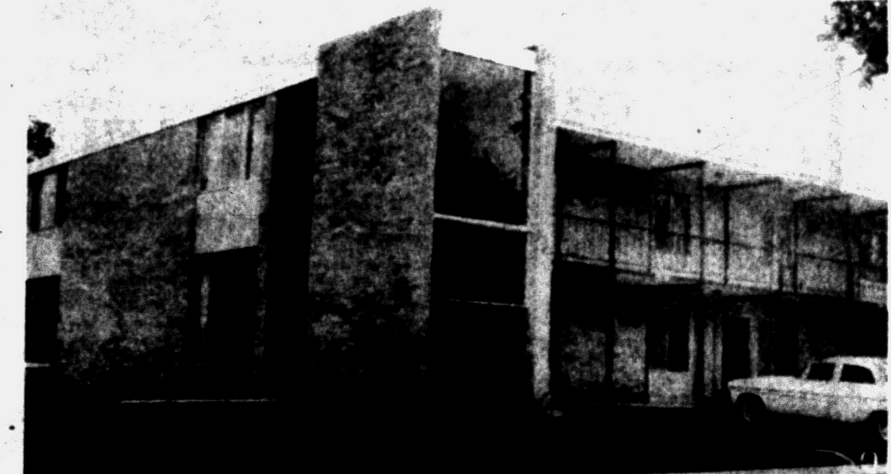

Cloud has a bachelor's degree from Michigan State University and a master's degree from the University of Indiana. He was an exchange teacher in England during the past year. Previously he was the social science teacher in the local high school.

Kelis is a graduate of the University of Colorado and currently is taking advanced courses at Eastern Michigan University. He previously taught in Jackson County.

Tomorrow Last Day to Buy Books, Enroll

WALLED LAKE—Tomorrow is the final day for senior high school students to purchase books or make any necessary changes in class schedules.

New pupils who have not done so already are asked to enroll now to avoid delay when school opens next Thursday. The bookstore will be open from 8 a.m. to 3:30 p.m., but will not be open next week.

NEW IN ROCHESTER — This new motel, located at the corner of Main and Terry streets in Rochester, contains 43 units and will be completely furnished and ready for occupancy in about a week. Rochester Village officials will

tour the building before the regular Council meeting Sept. 14. Called the "Spartan Motel," it features efficiency apartments and is the first motel located within the village limits.

Council Refers Request to Vacate to City Attorney

WALLED LAKE—The city council has referred to Albert Herzog, city attorney, a request from Roy Dewey that the council vacate a piece of property 81 by 117 feet between Agnes and Wellsboro streets.

Dewey owns the lots on either side of the strip which has been dedicated a street but never used as such, and a part of which has been vacated for the Junior High School.

In other action, the council has authorized Mayor Waldo Proctor to sign a contract with the State Highway Department renewing the maintenance agreement for Pontiac Trail.

The council also is considering purchasing the radio equipment now used in its police cars from the Michigan Bell Telephone Co., but seeks information on the cost of maintaining the equipment before taking final action.

Blames NCO in Burglaries

Polish Youth, on Bond, Says ROTC Instructor Accepted Loot

A 17-year-old Polish youth released on \$1,000 bond from the Oakland County Jail yesterday pending examination Sept. 11 on a breaking and entering charge has incriminated an ROTC instructor formerly at Cody High School in Detroit.

Albin Kurylczuk of Hamtramck, claimed yesterday that the instructor, a sergeant in the regular Army, encouraged him to commit 40 burglaries.

State Police of the Redford Post, who are handling the investigation, refused to name the sergeant pending charges. He has been transferred out of the country, they said.

Kurylczuk, an unidentified 16-year-old youth, and Angel Jaime, 33, of 28252 Shawansee St., Farmington, were arrested in connection with burglaries committed in the Farmington-Redford-Detroit area.

The Polish youth told troopers that he and the other boy had turned over their loot to Jaime and the Army sergeant and that the latter encouraged them to "get" other items for him to buy from them. Jaime has denied the charge.

State Police have asked the U.S. Army to question the sergeant.

Kurylczuk, who has been living with his mother and stepfather in Hamtramck, has said that he wants to become a U.S. citizen and join the Marines. Now he is afraid that he will be deported instead.

PEACHES FROM A QUEEN — High point of yesterday's tour of Washington, D. C. for Romeo Peach Queen Lorelei Hoxie, 18, of Armada, was her meeting with House Speaker Sam Rayburn. Here she presents him with a basket of prize

Romeo peaches while Representative William S. Broomfield (R-Oakland County) watches the proceedings. The queen is scheduled to make a similar presentation to Vice President Richard M. Nixon today.

Students Report Wednesday Schools to Open in Oxford

OXFORD—All children in grades one through eight in the Oxford Area Community School District will report to their respective schools at 9 a.m. Wednesday. Sole exception is the Lakeville School where the starting time is 8:30 a.m.

The Leonard School kindergarten which will also serve children in the Lakeville School area, will open on Sept. 10. Kindergarten children, who have not yet registered will report on Wednesday for registration purposes only.

The first session at the Daniel Axford School kindergarten will be held Sept. 11. Kindergarten children, not already registered, will do so Wednesday or Thursday.

Senior high students, who have completed their registrations, will report to school on Sept. 10.

School buses will make their first runs on Wednesday and return all students at noon. Full day sessions start the following day.

Superintendent of Schools R. A. Ambrose will greet 11 new staff members at the pre-school teacher's meeting to be held next Tuesday.

Four Men Arrested in Rochester Brawl

ROCHESTER—A brawl on Main street here early this morning ended with the arrest of the four participants, two from Troy and two from Pontiac, and treatment of one for minor injuries at Pontiac General Hospital.

The four men now lodged in Oakland County Jail were Rex Chambers, 24, of 1480 Cadmus St., Troy; William J. Swinson, 21, of 1475 Cambra St., Troy; Curtis E. Watson, 24, of 4050 Baldwin St., Pontiac; and Jerry B. Fisher, 23, of 53 S. Edith St., Pontiac.

Chambers was treated at the hospital for an injured finger, according to Police Chief Sam Rowlett.

Arresting officers were William Woehl and Robert (Jerry) Cannon. "All four brawlers are charged with disorderly conduct and will appear before Justice of the Peace Luther Green in Rochester."

They're Learning Early

MILWAUKEE (UPI) — A new boys' club here is preserving the sanctity of its grounds with the sign "No Girls Allowed."

Has 370 Problems

HARTFORD, Conn. (UPI) — There are 315 lawmakers in Connecticut's state legislature — and 370 registered lobbyists.

Queen's Ball to Kick Off Gala Event Tomorrow

ROMEO — Parades, dances, free stage shows and a colorful coronation ceremony will be featured in Romeo's 27th annual Peach Festival which officially opens tomorrow night.

The first major event will be the Queen's Ball to be held from 9 p.m. to 1 a.m. at the Romeo Community Youth and Civic Center.

Peach Queen Lorelei Hoxie, 18, of Armada, and her escort will lead the grand march. Falling in behind them will be the 10 members of her court and their dates.

Queen Lorelei Gives Basket to Rep. Rayburn

Romeo Peach Queen Lorelei Hoxie, 18, of Armada, yesterday presented a basket of prize Michigan peaches to House speaker Sam Rayburn in Washington, D.C. In turn, she won an admiring glance from the speaker and an admission that peaches are his favorite fruit.

With Lorelei for the presentation ceremony in Rayburn's office were her chaperone, Mrs. W. A. Parks, of Romeo, and Congressman James G. O'Hara (D-Macomb County) and William S. Broomfield (R-Oakland County).

The queen was scheduled to present a basket of peaches to Vice President Nixon today and then return to Michigan tonight.

Lorelei will continue her public appearances in Detroit tomorrow. In the morning she will ride in the Michigan State Fair parade, and in the afternoon she will be a guest at the Tiger baseball game at Briggs Stadium.

Free acts again are scheduled for 2 and 9 p.m. at the Lions Field. A concert will be presented by the Romeo Council of Church Women in the First Congregational churchyard at 7 p.m.

COBINATION SUNDAY

Highpoint of Sunday's program will be the coronation ceremony set for 9 p.m. at the stadium.

Governor G. Mennen Williams will pay his annual visit to Romeo to crown the peach queen before the hundreds of spectators who traditionally attend the impressive event.

Monday is Parade Day in Romeo. The day-long program will open with the Children's Parade at 10 a.m. It will feature large and small floats, walking groups and single entries. Judges will award prizes in all four divisions.

Theme of this year's parade is "These 50 United States."

In the afternoon, beginning at 2 p.m., the spectacular floral Parade will start on its route north on Main street from one end of the village to the other.

FLOATS TO PARADE

Chairman Robert C. Inwood said there will be 25 gaily decorated floats, 10 high school bands, the Chrysler Klite Band, baton twirling units and the Macomb County Sheriff's Possee in the parade.

The floats will be judged by former Governor Murray D. Van Wagner, prominent artist John Coggan of Bloomfield Hills and Pontiac Press columnist Joe Haas.

Climaxing the day's activities will be the Mummies' Parade slated to start at 8 p.m. Entries customarily include clowns, novelty bands and floats constructed purely for comic or satiric effect.

A spectacular fireworks display will conclude the four-day program at 9:30 p.m. Monday.

Both the carnival set up at the Lions Field and an art exhibition in the old A&P building will be open Saturday through Monday.

Dr. Penberthy, 73, Dies After a Varied Career

DETROIT (AP)—Dr. Grover Cleveland Penberthy, 73, for 30 years surgeon-in-chief at children's hospital in Detroit, died yesterday.

He was professor of surgery at Wayne State University's medical school.

Dr. Penberthy, a native of Houghton, was graduated from the University of Michigan Medical School in 1910 and began his Detroit practice in 1913.

SHARON LEE WILES

An October 24 wedding is planned by Sharon Lee Wiles and Richard H. Tyson. She is the daughter of Mr. and Mrs. Martin Wiles of 3151 Avalon Rd., Auburn Heights. Her fiancé is the son of Mr. and Mrs. Harwell Tyson of Boothwyn, Pa. He is attending the Baptist Theological Seminary at Grand Rapids.

Visitors have been asked to bring their own lunches and picnic on the gently sloping, wooded campus, college officials said.

Young people interested in attending the new college are invited to stop in at the office and talk to college administrators during the open house.

A master plan has been drawn by Wyeth and Harman Architects of Port Huron for developing the entire acreage. A total of 14 college buildings is planned to border Lake Norecentra.

The three-story structure will house the student social-dining center and 60 dormitory rooms with an adjacent wing for administrative offices and temporary classrooms.

Senior high students, who have completed their registrations, will report to school on Sept. 10.

School buses will make their first runs on Wednesday and return all students at noon. Full day sessions start the following day.

Superintendent of Schools R. A. Ambrose will greet 11 new staff members at the pre-school teacher's meeting to be held next Tuesday.

WED 50 YEARS — A High Mass will be said by the Rev. Lawrence Edward at St. Mary Church in Milford in commemoration of Mr. and Mrs. Charles Reed's golden wedding anniversary Monday. An open house will be held in their honor the same day from 12 noon to 3 p.m. at the "Old Clyde Schoolhouse" on White Lake road. Mr. and Mrs. Reed both attended the school together as youngsters. They have raised five sons and two daughters, and have 22 grandchildren and one great-grandchild.

It Works on Monkeys and Cats

Can Man Be Made an Electronic Slave?

WASHINGTON (NEA)—A frightening thing has happened. Scientists have learned how to shoot electronic impulses into a monkey's brain, and make him perform "like an electrical toy." Will this happen to man next?

So far the scientists have only performed these experiments on animals. They've only been able to succeed so far by actually hooking wires onto the brain.

But they've been able to take cats that were good friends, make them fight at will, then stop fighting at electronic command.

They've made boy cats or monkey cats. They've taken Casper Milquetoast animals and made them leaders. They've taken lead-

AF Gives Up Search for 'Ghost Bomber'

WIESBADEN, Germany (AP)—The U.S. Air Force has given up its search for the remains of a World War II "ghost bomber."

The American fliers parachuted into the Libyan desert from their B24 bomber 16 years ago after blasting Naples, Italy.

Believe Deckhand Dead

PORT HURON (AP)—Frederick Ferguson, 38, of Buffalo, N.Y., was reported missing Wednesday from the tug boat Lydon and was presumed drowned. Ferguson, a deck hand, disappeared in the lower Lake Huron channel.

Two Million Flee West

ESSEN, Germany (UPI)—About two million East Germans have fled to West Germany since 1949, the Institute for Economic Research reported today. This was more than 11 per cent of East Germany's population, the report said.

TAKE THAT! — Rhesus monkeys normally are aggressive as indicated in the top photograph. But after electronically stimulating a certain portion of the same monkey's brain, the researcher could safely stroke the animal's chin with his bare hand as in the bottom picture.

lated the tectal area of the brain of one cat a number of times. The tectal area is deep in the back part of the brain.

By exciting electronically the amygdale portion of the brain—deep beneath the ears—cats were made to rub and nuzzle against other cats.

Once started, the cats kept up this nuzzling for days afterward. Spine chilling is the report by experimenters that the monkeys and cats seemed to like this electronic stimulation—or some of it anyway.

The scientists rigged an apparatus that would let the monkeys and cats seemed to like this electronic stimulation—or some of it anyway.

The scientists rigged an apparatus that would let the monkeys choose what brain stimulation they wanted—or none at all. They chose the electronic guidance.

Does that mean that animals—and perhaps men and women—prefer to be electronic slaves?

Pledges to Lift Ban on Negroes in Legion

NEW YORK (AP)—The American Legion's new national commander, Martin B. McKneally, says the legion "should be in the forefront in promoting brotherhood and should be the leader in allaying prejudice."

He made the statement in promising action to have racial restrictions lifted by the legion's fun-making organization, the 40 & 8.

The 40 & 8 limits its membership to whites and American Indians. The legion has no racial restrictions.

Dies in Car Accident

NILES (AP)—Elmer Christ, 25, of Niles was killed today when his car went off a curve on M40 and overturned three miles north of Niles. State police said Christ apparently was racing with another car.

The United States Weather Bureau has been administered by the Department of Agriculture since 1891.

GETS NEW BEAT — London police constable Norman Niblo, has been chosen to tour the United States and Canada. The "bobby" was picked by the British Travel and Holidays Assn. to tell Americans and Canadians about Britain. Niblo, 45, will fly to New York on Oct. 10, and visit Chicago, San Francisco and Los Angeles before moving on to Canada.

University Library Buys Coronation Manuscript

URBANA, Ill. (AP)—The University of Illinois Library has purchased a manuscript used in 1326 at the coronation of Charles IV as king of France.

The library paid \$9,500 for the intricate, hand-lettered Latin document, which was used to show the order of liturgy for French coronations in the 14th Century. The manuscript was sold by a New York firm.

Americans Photo Bugs

ROCHESTER, N. Y.—About 26 million families in the U.S. take upwards of 500 million photographs a year, an increasing number of them in color.

Big Traffic Jam, —That's Jakarta

88,000 Autos, 250,000
Bicycles and Only Two
Signal Lights

JAKARTA, Indonesia (UPI) — Take 88,000 motor vehicles, 12,000 motorized bicycles or motorcycles, 20,000 pedicabs, 250,000 bicycles, 3,000,000 pedestrians and two traffic lights and you have quite a traffic jam. Jakarta certainly does.

"Yes," admitted Baron Winoto of the city's police department, "we have some traffic problems."

But the biggest of them all, he explained, is not the number of vehicles or traffic lights. It is the lack of traffic police.

Jakarta has a total of 250 persons in the police department's traffic control section. But, according to Winoto almost half of them are administrative personnel, leaving only about 130 for traffic duties, many of them part time.

To make matters worse, the two lights are installed in areas where traffic is lightest. They were put up just before the Bandung Conference in 1955.

At the time, officials had a grand plan for giving the city more than a dozen traffic signals. But the plan ran into hard times and bogged down in Indonesia's endless bureaucracy.

The idea was to install a string of lights running through one section of Jakarta. In fact, a commitment of \$12,000 had been obtained from the U.S. International Cooperation Administration to cover the cost of the equipment.

But the project floundered as soon as customs officials pointed out to city officials that the lights were luxury items and they would therefore have to pay more than \$30,000 in duty just to import the \$12,000 worth of material.

But even with only about 130 traffic cops, only two traffic lights and no stop signs at all, Jakarta suffered only 131 traffic fatalities in 1958, Winoto said. There were 2,932 reported accidents with 1,978 injuries.

UF President Tells Goal for Detroit Drive

DETROIT (AP) — The United Foundation says its goal for the 1959 torch drive in Detroit will be \$17,650,000.

Genson Ford, UF president, said the goal was "the largest ever set by any community in the nation. But even though this figure is larger than the amount we raised last year it is the minimum amount necessary to meet the needs of our 195 agencies."

The drive will be staged Oct. 13 through Nov. 5.

Up in Smoke? Naturally!

GRAND RAPIDS (AP) — It figured, when about \$800 in merchandise went up in smoke Tuesday night in a fire started by an electrical wiring short circuit at a business place operated by S. Abraham and Sons. The firm is a wholesale tobacco shop. No one was injured.

How did the Vatican get its name? Some scholars say the word is derived from a vanished Etruscan town called Vaticum. Others suggest Vatican Hill was where a soothsaying king of legendary Rome declared his "vaticinia," or messages from the gods, about 600 B.C.

AERIAL WATCHDOG — A bolt from the blue may strike motorists on the Kansas Turnpike who think the road's 80-m. p. h. speed limit is too low. State police, flying the Cessna 182 above have nabbed 117 violators through July of this year — one-fifth of the total of speeding arrests. All have been upheld in court. Mile markers on the highway, plus a stop watch in the plane, enable

troopers to accurately clock the speed of a car some 1,000 feet below them. When a speeder is identified, a radio message alerts a highway patrol car, which issues the ticket. Kansas' air-and-ground campaign has pushed speeding several steps down on the list of causes of turnpike accidents.

AAA Awards 2 National Honors

Praises State for Safety

LANSING (UP) — Michigan has been named for two national safety honors from the American Automobile Association for cutting pedestrian death rates more than a third in three years.

The awards were for first place among the 11 largest population states and for tie with Connecticut for grand prize among all 50 states in the AAA national pedestrian protection contest for 1958.

Gov. G. Mennen Williams was presented with the awards yesterday.

Ralph Thomas, former AAA president, said Michigan was tops in school traffic safety programs, use of pedestrian accident records and in traffic engineering.

In 1955, there were 458 pedestrians killed in traffic and 7,181 injured. Last year, pedestrian deaths were cut to 302 and injuries to 6,183.

Thomas said the record was "the result of years of diligent, concentrated efforts by persons who spend practically every hour of the working day making this a safer state for all."

Air Guardsman Wins Trophy

Mount Clemens Man Takes Ricks Trophy for Aerial Photos

MIAMI, Fla. (AP) — A Michigan Air National Guard pilot won the sixth annual Ricks Memorial Trophy competition, a test of speed and photographic skill, yesterday. Another Michigan air guardsman was third.

Capt. Donald K. Reid, 36, of Mount Clemens, capitalized on camera skill and a bit of luck at peering through clouds in winning against nine other pilots in a simulated combat photo mission from Memphis, Tenn., to Miami.

Capt. Merwin F. Read, flying for the 107th squadron at Detroit, was third.

Reid, first of the 10 to take his Republic RF84F Thunderflash jet reconnaissance aircraft off the Memphis airport, placed second from the standpoint of speed, averaging 570 miles per hour for an elapsed time of one hour, 29 minutes and 10 seconds for the 850 miles.

The second pilot into the air, Lt. Robert G. Graham of Nashville, Tenn., flew the fastest race — 1:28:39 for a new unofficial speed record of 580 m.p.h. between Memphis and Miami.

However, Graham's reconnaissance photographs were unacceptable. Of the three targets he photographed only one was clear enough to qualify.

Orders Arrest of 17 in Argentine Revolt

BUENOS AIRES, Argentina (AP) — Secretary of War Elbio Anaya today ordered the arrest of 17 generals in a speedy counterattack against a large scale rebellion within Argentina's army.

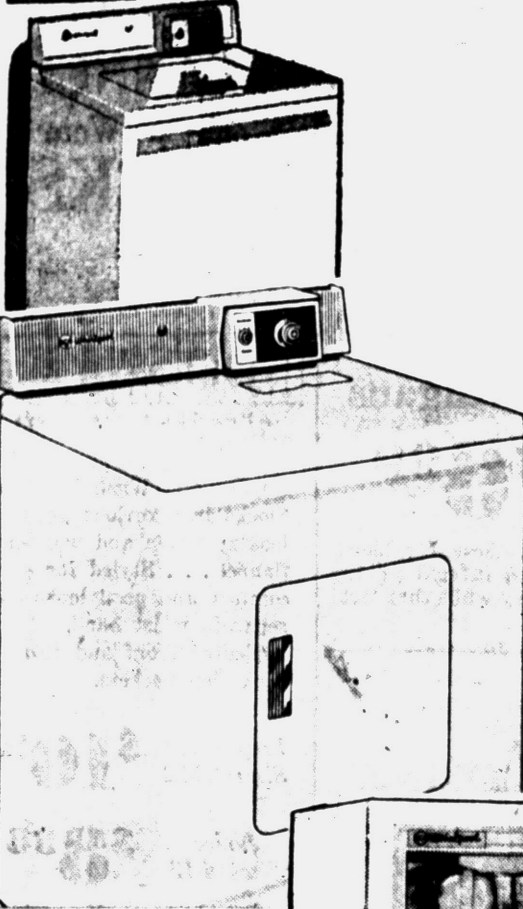

Garrisons throughout the country pledged allegiance to Gen. Carlos Toranzo Montero, who was fired by Gen. Anaya Wednesday. The rebellious stand in the army erupted into a fresh military crisis for President Arturo Frondizi's government, which has been rocked by a series of conflicts within the armed forces since it took power 16 months ago.

Beware Flying Objects

GRANITE, Okla. (AP) — While driving to nearby Hobart, the Rev. and Mrs. Walther Haefker saw a sign warning of a nearby missile range and adding: "Watch for flying objects." Just then a piece of gravel from the road flew up and made a hole in the windshield of their car.

He Liked His Victim

LOS ANGELES (AP) — Steve Otero, 34, was arrested for allegedly holding up the same market four times. "I kept going back there because the owner was so nice," he told police.

Diners Counted Calories

By JANET ODELL
Pontiac Press Home Editor

Out at Four Towns church last week the women of Elizabeth Russell Guild put on a dinner. There is nothing unusual about that, as they have several dinners each summer. But what they served and the way they served WAS unusual.

Realizing that many people nowadays are calorie conscious and prefer not to eat a large meal, the women decided to present each food separately and to give their customers a number of choices. It was cafeteria service with a difference.

The menu was clearly printed who was a hearty eater had no trouble getting all he wanted. No butter was put on the vegetables; after several of the more caloric foods. The calorie count of each portion was also noted.

Turkey Dressing Too many
Corn on the Cob
Butter
Mashed Potatoes
Mashed Beans
Roll
Low Calorie Cake
Cantaloupe
Mashed Potatoes
Mashed Beans
Gravy—no cost: Horrible!
Garden Salad
High and Low Calorie Dressings
Pie—No! No!
Watermelon
Coffee Tea and Milk

Although this idea was suggested to emphasize the calorie total, we think it is one that might well be copied by other church groups. The waste of food at church dinners is appalling when the whole meal is served on a plate.

Family style is another way of cutting down on the waste, but that doesn't take into consideration the person who doesn't want any dressing or who prefers a tossed salad to a gelatin one or fruit to dessert.

We talked with the chairman of the dinner, Mrs. Louis Hanna. She said it wasn't any more work than any other dinner. Her committee felt it was a success. We should like to add that the food was presented in a most attractive manner and that hot foods were hot and cold foods really cold.

Members of Mrs. Hanna's committee were Mrs. Chester Amann, Mrs. Stanley McClellan, Mrs. Douglas Shatto, Mrs. Dan Simpson and Mrs. William Hurtubise.

A HARD CHOICE: — Whether to choose a low calorie slice of chilled cantaloupe or a high calorie slice of homemade pie was difficult for patrons of the church dinner held at Four Towns last week. The committee in charge gave every one a chance to pick his own meal combination. Mrs. Dan Simpson (left) of Williams Lake road and Mrs. Chester Amann of Sarvis were on the dinner committee.

Slivered almonds, Brazil nuts or walnuts sauteed in butter, give a crunchy texture and unusually delicious flavor to cauliflower and favorite green vegetables.

Which came first the chicken or the egg? No one has answered this puzzle. But both these nutritious foods are featured in this delectable Chicken Loaf. Chopped cooked chicken is flavored with broth and well-seasoned enriched yeast-raised bread crumbs, baked and served with a pretty Egg Sauce. It provides an inexpensive and tasty second time chicken dinner.

Chicken Loaf
1 cup butter or margarine
1/2 cup onion, chopped
2 tablespoons chopped green pepper
1/2 cup flour

1 cup chicken broth
1/2 cup rich milk
4 cups chopped cooked chicken
1 cup soft bread crumbs
1/2 cup onion, chopped
Salt and pepper
Melt butter or margarine in saucepan. Saute onions and green pepper until tender. Stir in flour, then chicken broth and milk. Cook, stirring constantly until thickened. Combine with remaining ingredients.
Put the mixture in a greased loaf pan and bake at 350 degrees F. until the loaf is well-browned, about 1 hour 15 minutes. Serve cold.

Egg Sauce
2 hard-cooked eggs, separated
1/2 teaspoon prepared mustard
1/2 teaspoon salt
Dash of pepper
1/2 cup salad oil
1/2 cup vinegar
1/2 cup India relish, drained
1/2 cup chopped celery
1/2 cup chopped chives
Pinch of tarragon
Chop the egg whites and set aside. Mash the hard-cooked egg yolks with a fork until smooth. Add salt, mustard and pepper. Add oil, a few drops at a time, beating vigorously until 2 tablespoons have been added. Then add in a thin stream beating all the time. Add vinegar a small amount at a time whenever mixture becomes very thick. Add the chopped egg whites and remaining ingredients. Serve with cold chicken loaf.

Add curry powder and lemon juice to mayonnaise and serve over sliced hard-cooked eggs and romaine for a noontime salad.

Mr. and Mrs. James Gollogly of Birmingham recently took a cruise to the West Indies. Here they are photographed on the deck of the S.S. Evangeline, which sails from Miami, Fla.

Geraldine Marie Thomas Wed in Mount Clemens

Geraldine Marie Thomas and Robert Joseph Adams were married Saturday noon at St. Peter's Church, Mt. Clemens. The Rev. Harold Merrill officiated at the double ring nuptial high mass before 350 guests.

Parents of the couple are Mr. and Mrs. George E. Thomas of Mt. Clemens and Mr. and Mrs. Daniel Adams of Clifford street.

The bride wore a gown of mist tulle and Chantilly lace with a Sweetheart neckline of lace flowers outlined with seed pearls. The floor length skirt formed a lace chapel train. Her fingertip veil was held by a lace coronet accented with seed pearls and she carried a cascade bouquet of chrysanthemums, stephanotis and ivy centered by a white orchid.

Mrs. Gerald Gombert, the bride's sister, was matron of honor. She wore a ballerina length blue nylon floral print dress and carried a cascade bouquet of deep pink gladioli. Bridesmaids were Georgene Cornille, Mrs. James McEvers and Beverly Adams. They wore dresses like the matron of honor's and carried cascade bouquets of light pink gladioli.

Flower girl Marie Kline wore a powder blue silk organza dress appliqued with flowers.

Daniel Adams Jr. was his brother's best man. Ushers were George Rastigue and Frank Rastigue. Gerald Gombert, James McEvers and Jerry St. James were groomsmen.

A reception was held at American Legion Hall. Following a honeymoon to Canada, the couple will live in Utica.

Mrs. Thomas wore an ice blue lace and tulle sheath with white accessories and a pink carnation corsage. Mrs. Adams was dressed in beige.

linen suit with brown accessories and a yellow carnation corsage.

The bridegroom attended Pontiac Business Institute.

MRS. ROBERT J. ADAMS

Women Voters League to Kick Off Fund Drive

League of Women Voters started its annual financial drive Tuesday with a kickoff breakfast at the home of Mrs. Jack Couzens of Orchard Lake road.

Taking part in the program were League president, Mrs. Theodore Diehm, chairman of the drive; Mrs. Frank Vaclavik, cochairman; Mrs. Merle Schneider, Mrs. Graham Overgard, Mrs. Leonard Meldman and Mrs. W. H. Bretzlaff Jr.

The League is a nonpartisan organization. Its purpose is to promote political responsibility through informed and active participation of citizens in government. All work is done by volunteers. Cost of membership is at a

Jr. Attendants Can Now Dress Modern

Junior members of modern wedding parties are wearing pretty party outfits, in place of the period costumes that were chosen to put pagantry into yesterday's nuptials.

Mothers of popular young attendants will rejoice at the highly wearable and washable Sunday-best suits and dresses now favored by brides. Gone are the useless hoop-skirted frivolities and the page-boy's velvet knee-pants!

White is still favored for these outfits, but now it's practical because it's washable in soap or detergent suds—ready for the next party on the young social calendar.

Beth Jacob School Has Informal Dinn

Temple Beth Jacob Nursery School had an informal dinner Tuesday evening for parents and teacher, Mrs. Bess Stenbuck. Mrs. Marvin Talon of Colrain drive was hostess. She introduced new officers and parents.

A new gym is a recent addition to school play equipment. Plans for the coming year were discussed.

Dear Abby Says:

Mind Her! Put That Apron On; You'll Avoid the Spots, Spats

By ABIGAIL VAN BUREN

DEAR ABBY: How does a 24-year-old married woman, who is the mother of two children, deal with a mother who is the world's champion nagger?

I love my mother, but her nagging will drive me out of my mind. When she is at my house or even if I'm at hers and we do a little something together in the kitchen, she will say, "Put an apron on!"

I could be only putting jello in the refrigerator, but she yells, "put an apron on!"

ABBY

Now, if I am old enough to be married and have children, I don't need to be told to put an apron on. If I spot my dress, it's my dress, isn't it? How can I get her to stop nagging at me?

NAGGED: By this time you should know how irritated your mother becomes when she sees you in the kitchen without an apron. You're a big girl now. Simply put an apron on and don't make a federal case out of it. You may avoid a spot and a spat as well.

DEAR ABBY: Every morning when I take my garbage out, I find my trashcan filled to the brim with empty beer cans. This burns me up!

Someone in this neighborhood (and I'm pretty sure I know who the guilty party is) drinks about a case of beer a night. She is ashamed to have her garbage man see them, so she puts the empties in my trash can.

Should I have it out with this neighbor, or should I haul the empties back to her trash-can?

NO BEER DRINKER

DEAR NO: Don't take any chances. You might haul the "empties" to the wrong neighbor.

bor. Talk to the party you suspect and bring the matter to a head.

DEAR ABBY: I am getting married in October. I am experienced. He is not. Should I tell him?

DEBATING: I vote no. If you are experienced and he is not, there will probably be no questions asked.

DEAR ABBY: I am a 15-year-old girl who went on a diet last winter and lost 30 pounds! Never have I received so many compliments. I feel as though I have started a new life full of fun.

I want to tell every overweight teenager in the world that it can be done. All it takes is will power and a desire to have a happy life.

WALKING ON AIR

DEAR WALKING: Your letter should be an inspiration to other teenagers who need to unload some excess poundage. A word of warning however: Don't attempt any crash diets without first consulting your doctor.

What's your problem? For a personal reply, write to ABBY in care of this paper. Enclose a stamped, self-addressed envelope.

Civic Baby Doll Is Washable

In Chicago there's a washable doll—infant size—which has a steady job helping teach folks how to save lives.

This doll has tiny lungs that really "breathe" when nurses, policemen, firemen, and others give the "baby" oxygen. Thus, these public servants learn the technique for administering oxygen in emergencies. And this public service doll, which is made of vinyl plastic, works so hard that she has to have a soap-and-water bath as often as a real infant.

Iraq Caldron Holds Meeting

The first fall meeting of Iraq Caldron No. 70 was held Wednesday at the Pontiac Federal Savings and Loan Building. Founders Day was celebrated and the past mighty chosen ones as well as charter members were honored.

Arrangements were discussed to send delegates to the supreme session at Youngstown, Ohio, Sept. 30 through Oct. 2.

At the next regular meeting on Oct. 7, officers will be elected and annual reports given. Mrs. Wayne Scott served refreshments.

Glamour Trick Is Ruinous

The habit of wearing dark glasses in restaurants, movies and theaters is one that some women seem to have borrowed from Hollywood.

It's a bad habit, ruinous to the eyes. Dark glasses were not intended for artificial light. They were meant to cut the glare of the sun. When they

are worn indoors, they can definitely damage the eyes. So don't copy what appears to be a glamour trick unless you want to pay for it with poor eyesight.

Only constant care will cut down on enlarged pores. Steaming the face with a hot washcloth when bathing helps open up the pores. If you tend toward this condition, use tepid water for bathing, finish with a splash of cold water in the face or run an ice cube over the face for a few minutes.

Predict Fall Interests of Teenagers

By EUGENE GILBERT

First thing, our young people. Speaking of entertainment, the read much aside from school as teenagers still hold fast to the idols signments. When they do find they revered before school doors time, they go mostly for best sellers. Closed last spring, Marion Brando, Tony Curtis, Debbie Reynolds and Kim Novak are Hollywood favorites. Ricky Nelson, Pat Boone, Frankie Avalon, Connie Francis, Debbie Reynolds again, and Dody Stevens are top songsters. In television, "Peter Gunn," "Gun-bowling is going to continue gain popularity," and "77 Sunset Strip," with Edd (Kookie) Byrnes, are will be wear special bowling favorites of the high school crowd. Such interests fail to keep these youngsters from reading, although dates. Such outfits come in a variety of colors and designs.

Another clothes fad item will be a fleecy, bulky outfit including sweater, jacket and pants. Some will be in solid, vibrant color, some in bold stripes. Some will have boat or crew necks. For more ordinary wear, the seamless trim-fit stretch tights will still be a common sight. They'll come in assorted colors as well as black, and will be teamed with black skirts and black sweaters. But of course the old skirt-and-sweater combination will retain its ascendancy.

One fad that looks like a good bet is the fur garment, whether full length coat, car coat, jacket or smaller piece. Fur items in lower priced lines are being designed especially for young people's needs and pocketbooks. That Cleopatra look—at least around the eyes—will be big as eye makeup gains increased popularity with the girls.

For the boys, the new emphasis will be on fit rather than on startling styles. For casual wear, it's still slacks and sweaters. But when it comes to suits, the youngsters favor fitted waists and natural shoulder lines.

Whereas automobiles remain the No. 1 interest of young men—whether it be driving them, tinkering with them, or talking about them—boys remain the No. 1 interest of the girls.

With thoughts set on early marriage the girls are giving early thought to hope chests. They study silver, china and crystal patterns with as much relish as they savor latest fashions, and are apt to request such things for Christmas.

Increasingly conscious of complexions and diet, the teenagers are apt to be eager to try a host of acne-care products, and to go in for weight watching, calorie counting and the like. But don't sell the pizza short!

One fad that has shown a flurry is the one of zany bookcovers with such titles as "Embalming Can Be Fun," by Maude Lynn, or "101 Ways to Make Blubber," by S. Kimo.

Take a Good Look at Special Man

By RUTH MILLETT

Before she decides that she can't live without a young man, a girl ought to figure out if it is going to be easy to live with him. He won't be easy to live with if—

He is so jealous that he resents the time she spends with other girls, checks on her constantly, and goes into a sulk if she seems even faintly interested in anyone else.

He is inconsiderate, often being late for dates or calling one off at the last minute, or refusing to take her to a dance because he doesn't like to dance.

He rates her parents low, telling her they are too strict and that she is silly to let them tell her where she can go, what time she should be in, and so on.

He lacks ambition and is content to drift along, hoping for a "lucky break" some day.

He doesn't get along with his own parents and shows little respect for their wishes or their ideas.

He isn't honest in small matters and is obviously proud of being able to lie his way out of an unpleasant situation.

He can't take criticism from anybody but is very good at dish-ing it out.

He isn't as much in love with her as she is with him.

He doesn't like her friends or seem to care about having good friends of his own.

He deliberately tries to make her jealous.

He is a practical joker who laughs like crazy when he puts someone else in an awkward or embarrassing situation.

A young man with only a few of these strikes against him should prove easier to live without than to live with in holy matrimony.

H. KATHRYN O'NEAL

Mrs. James H. O'Neal of Hazel Park announces the engagement of her daughter Hazel Kathryn to Kim Lyman Newton, son of Mrs. Carl Newton of North Parke street and Mr. Newton of Warsaw, Ind. A June wedding is planned.

Oily Skin a Problem? Here's Aid

Oily skin can be a real trial for a gal. But she can do something about it.

To begin with, she should understand that its cause is over-active glands. Their action can be controlled, to some degree, by a diet which leaves out sweets, fat and starch and stresses, instead, lean meat, salads, fresh fruits and lots of fresh vegetables.

Exercise will step up your circulation and therefore also be a help. Cleanliness is an absolute must. You should wash your face with hot water and soap three times a day. Use a thick terry cloth and really give yourself a good scrubbing. Follow this with an astringent in the interests both of removing dirt and drying out your skin.

Avoid moisturizing cream and never put new make-up on over old. (This is a good rule for any woman.) You should see improvement if you stay with this program.

Sometimes shoppers amaze you with the things they would rather have than money.

First 'Spacemen' Shampooed Too

The pilots chosen for participation in Project Mercury—our first official "spacemen"—underwent a full week of vigorous physical examination before the final designations were announced.

Frequent shampooing was one of the pleasanter aspects of the testing, for each man had to wash his hair thoroughly on nights preceding the mornings set aside for brain-wave measurements. These repeated latherings insured that no foreign matter would interfere with the electro-encephalograph readings!

Have You Tried This?

Homemade Chili Sauce Blends Tomatoes, Fruit

By JANET ODELL
Pontiac Press Home Editor

Homemade chili sauce is such a delicious accompaniment to meat that we like to make it every year. This year we are using a recipe from Mrs. Neil Warren of Birmingham. Hers is a fruit chili sauce.

Mrs. Warren has for many years been an active worker in the American Association of University Women and is a past state president of the organization. She enjoys gardening and has a flair for interior decorating.

FRUIT CHILI SAUCE
By Mrs. Neil Warren

10 tomatoes
8 pears
6 peaches
6 onions
1 green pepper
1/2 pound raisins
4 cups sugar
1 quart vinegar
6 teaspoons salt
2 tablespoons mixed pickling spices

Peel and cut up tomatoes, pears, peaches, onions and green peppers. Put spices in small bag. Mix all ingredients and cook slowly until thick. Seal while hot in sterilized jars. Makes about 7 pints. A delicious thousand island dressing may be made with this chili sauce, mixing it half and half with mayonnaise.

September Starts Out Big

Americans are making regular payments on a record installment debt.

The cost of living, at a record high at the last official tally, seems sure to have climbed even higher since.

The federal debt has crossed the 290-billion-dollar mark for the first time in history and is expected to go five billion dollars higher before it stops.

Businessmen are paying the most for bank loans since the early 1930s.

The U.S. Treasury is paying more to borrow money—to support the federal debt in the manner to which it's now accustomed—than any time since the banks were closed in 1933.

And Americans are paying a larger tax total to federal, state

and local governments than ever before—and are warned they'll pay still more.

The rise in interest rates and the totals of various forms of debt is expected to continue. Bankers are now waiting for the Federal Reserve Board to drop the other shoe and raise the discount rate.

This is what it costs member banks to borrow to swell the funds they can lend businessmen or in statement plan consumers.

The rate is now 3½ per cent and is expected to rise to 4 per cent. The U.S. Treasury is paying more than that now to borrow—which it must as the debt rises to new peaks.

Bank loans to businessmen who are their best customers and have the best credit will now cost 5 per cent. If you aren't that gold

plated you'll probably pay up to 6 per cent for a loan.

Demand for such loans continues to rise—to finance the movement and processing of crops and to carry inventories for fall and Christmas trade. The increase in demand has been sharper in many cities than in New York.

Charges for consumer credit also are rising slowly. But that doesn't deter many persons. Total installment debt has climbed to 36½ billion dollars. In July alone Americans took on more than four billion dollars in new on-the-cuff obligations, the largest amount for any month on record. Non-installment debt has increased to nearly 11 billion.

Home mortgages cost more now than a year ago. And as money tightens, finding someone to take the mortgage may get a little harder.

September also is bigger in other ways.

Americans are importing record volumes of some types of foreign goods while other Americans are trying harder to hold their domestic and foreign markets against foreign competition.

The nation is using more electricity than ever before. Part of this is due to rising industrial activity in areas untouched by strikes. Part of it is for air conditioning as a particularly hot and humid summer lingers on in many sections.

It all adds up to a record gross national product. This is the dollar volume of all goods produced and services performed in the nation. Latest GNP figures of 483½ billion a year are for the period before the steel strike. But if they should dip a bit now, they are expected to climb even higher when the strike is over.

'Things' That Go Bump, Scratch, Perplex Family

LAKEWOOD, N.J. (AP)—Things that go bump in the night and a mysterious scratching in the wall have driven a rural family from their home.

The strange noises come every night, say Mr. and Mrs. Aaron Salomon. Specialists and exterminators who have been called in have failed to find the cause.

"We don't know what to do," says Mrs. Salomon. "We've tried everything. But still the bumping continues."

The Salomons say they spend the nights with neighbors most of the time. They have sent their 17-year old daughter, Miriam, to stay with relatives.

The Salomons said the scratching and thumping sounds began coming from the walls of their farm house in nearby Whitesville about six weeks ago.

The Salomons acted on the theory that some sort of animal was trapped in the walls.

They called an exterminator, then a game warden, and then a farm specialist from the Department of Agriculture.

The men searched, set traps and tried various poisons.

The noises continued.

A contractor rejected the theory that the house was making settling noises.

Now the family is calling on an assistant wildlife specialist from the Department of the Interior, stationed at Rutgers University.

Watch Take-All Disease

Farmers shouldn't follow wheat with wheat where they have noticed "take-all" disease, says Richard L. Kiesling, plant pathologist at Michigan State University. This disease causes yellowish, stunted plants around heading-out time. It can ruin yields.

Offer Building Plans

Farmers can now get plans for a 50-foot wide clear-span farm building, says Michigan State University agricultural engineer Robert Aldrich. This large, economical building has no internal braces making it handy for storage and livestock housing.

Keychain Treatment Only for Headstrong

NOGALES, Sonora, Mex. (AP)—Newspaper publishers in this Mexican border city complained that their newsboys were being swatted across the head with keychains.

Customs collector Emilio Caranza investigated. He said officers at the port of entry told him this was the best method of keeping the newsboys from running in front of autos crossing the border.

Louisiana Has Totaled 10 State Constitutions

CHICAGO (AP)—Louisiana has had 10 constitutions, more than any other state. Its documents have totaled an estimated 301,427 words.

Rhode Island, the smallest state, has had one constitution between the West and the which happens to be the shortest Communist bloc are to improve in the nation — 6,600 words are "all barriers in international cording to the Book of the States, trade must be removed" to let

Try Peaceful Coexistence or Face War, Says Nikita

NEW YORK (AP)—Nikita Khrushchev says the West must fall in with the Soviet policy of peaceful coexistence of communism and capitalism or face "the most destructive war in history."

"There is no third choice," the Soviet Premier said in an article appearing in the current issue of Foreign Affairs, quarterly review of the Council on Foreign Relations, a private organization of prominent Americans.

Khrushchev said that if relations between the West and the Communist bloc are to improve, in the nation — 6,600 words are "all barriers in international cording to the Book of the States, trade must be removed" to let

international life develop normally. The Soviet Premier confidently predicted that the Communist system eventually will win out in what he called peaceful competition. But he said this does not mean Communist interference in the affairs of other nations.

Khrushchev accused the North Atlantic Alliance of letting the West Germans convert NATO into an instrument for aggressive plans that could "plunge the whole world into the chaos of a devastating war."

He called West German Chancellor Konrad Adenauer a potential stumbling block to the improvement of East-West relations. Khrushchev wrote: "Some say the Soviet people are unduly sensitive. Can one assume that West Germany is now in a position to precipitate another world war? Those who put the question thus forget that Western Germany is at present acting in the world arena not alone but within the military North Atlantic bloc."

"She plays a paramount role in this bloc. It is not at all impossible, therefore, that Western Germany, taking advantage of her position in the North Atlantic Alliance, might provoke hostilities in order to draw her allies into it and plunge the whole world into the chaos of a devastating war."

The Soviet Premier said the Big Four foreign ministers conference in Geneva brought the two sides closer together but there are still substantial differences on a number of questions.

State Sniper Makes Sailing Tourney

WAGONER, Okla. (AP)—Canny Ted Wells of Wichita, Kan., led a field of 24 skippers into the first round of the U.S. snipe sailboat championships today.

Wells, a three time national and two-time international champion, won another heat yesterday to wind up far ahead in the qualifying rounds at nearby Fort Gibson Lake.

His total of 776 points assured him the Crosby Trophy for leading qualifiers.

The last race, Henninger Trophy series — for the championship — gets under way with two races scheduled today.

The 24 qualifiers, their finishes and final points include: Larry Coon, Grand Rapids, Mich., 2241; 12-6-400.

'Standuppers' Spook Away From Boats

NEW YORK — Don't stand up in that boat if you want to keep the fish from seeing you.

Recent tests have shown that fish, viewing "the world from their water habitat, are restricted to a view between 90 and 37 degrees. Usually, a fisherman standing in a boat falls within this field of vision.

A low silhouette boat, however, can approach within several yards of fish without bothering them.

Braille System Old

Louis Braille's system of printing for the blind was introduced in 1829.

HOPING — West Allis, suburb of Milwaukee, Wis., has its first hospital building. City fathers chose this unusual method of promoting thoughtful driving pending its completion.

Will Restore Luther Burbank's Childhood Home

LANCASTER, Mass. (UPI)—The birth site of the late Luther Burbank, famous horticulturist, will soon be restored.

Piles of bricks are all that are left of the house where Burbank was born 110 years ago. Troops at nearby Fort Devens have used the property as an assault training area.

Army engineers will clear the property, cut the grass, fill in the foxholes and dugouts and replace dead elms with sugar maples.

Later, a concrete obelisk bearing a bronze plaque will be placed on the spot where the house stood.

Consumes Little Wheat

WASHINGTON—An average American consumes less than three bushels of wheat during the course of an average year.

No Hail in Morning

Most hail storms occur during afternoon and evening.

The Gothic Library of Parliament in Ottawa is Canada's equivalent to our Library of Congress.

It's East of Reno

RENO, Nev. — Los Angeles, Calif., lies to the east of this city in Nevada.

James Hoban, an Irish architect, designed the White House.

Whale Most Happy Fella

LOS ANGELES (UPI) — Scientists who want to record the heartbeat of the whale have found it necessary to make him a most happy fella before he'll cooperate.

How it's done was described by Dr. Frank G. Nolan, a Los Angeles physician and founder of the Marine Heart Research Foundation, whose group harpooned its first whale off the California coast this past winter.

The whale had its heart beat

Kent County Election Spurs GOP Hopes

LANEING (UPI)—Results of the special legislative election in Kent County reflected "the resurgence of Republican strength in Michigan," state GOP chairman Lawrence B. Lindemer said yesterday. "This is another straw in the wind blowing for a Republican victory in 1960," Lindemer said about the Monday victory of Martin D. Butth in the third legislative district.

Lindemer said Butth received 82 per cent of the total vote, compared with 65.5 per cent by the late Rep. Glenn Hunsberger (R-Grand Rapids) in 1958.

Never Too Old to Take Classes, Say Universities

DETROIT (AP)—You're never too old to learn at Wayne State University and University of Michigan.

Adult education divisions of the two schools are allowing anyone over 65 to enroll in courses for a \$2 fee. The normal charge is \$10 to \$20.

The universities said: "These courses can give the older person a greater appreciation of the things which he now has time to enjoy."

recorded, which is a boom to research involving the human heart since the two are so basically alike.

Dr. Nolan, who has compared the results of his work with President Eisenhower's heart specialist, Dr. Paul Dudley White of Boston, has been sailing Pacific coastal waters from Mexico to British Columbia for some time in his attempt to subdue — not kill — a whale.

To do this, especially when the whale is heading home for the Arctic and is in an unsociable mood, Dr. Nolan developed a technique of using a "cold" harpoon. It is not loaded with high explosives but with Serpasil, the tranquilizing drug; Xylocaine, an anesthetic, and Tetracycline, an antibiotic.

This made for a happy whale who was ready to hold still for injections of electrodes into each shoulder and one into the tail section.

Then, because the whale wasn't hurt, the first whale electrocardiograms in history were taken. At this point, the whale was alive, a 42-foot mammal weighing 25 tons, and in a mood for study as it lolled through the water for nearly two hours.

When the electrocardiogram was completed, the whale finally was killed so that Dr. Raymond Truex, Philadelphia anatomist, could go to work on the huge heart section.

The object was a complete study of the whale's cardiovascular system, which Nolan and Truex agreed could provide many clues on congenital heart ailments, blood coagulation problems and many other ailments involving the basic cardiac system.

The whale's heart, they found, weighed about 350 pounds. It took the two doctors about three days to remove the sections they wanted from it for their research.

LSU Again Seen as Nation's No. 1 Grid Team

Diamond Dust

By CHUCK ABRAHAM

Summer baseball for youngsters had its greatest season in history in Auburn Heights thanks to the rapidly-growing Boys Club there and a guy named Sam Sheehy. Sam was the darling of the mothers, the envy of the fathers and the idol of the players for the way he conducted the program and handled the players. The 1956 graduate of Avondale High coached the club's team in the various divisions of the Pontiac Parks & Recreation setup and finished with a good overall record.

With Sam it was not just a case of being coach. He was adviser, friend and all-around leader to his players and other boys in the area. "It amounted to almost a 24-hour-a-day job for Sam the way the boys were always calling him or hanging around his house," one mother told the Press.

"Sam took the boys to the zoo, to Detroit Tiger games and many other places, on his own. Many of the kids would be waiting on his doorstep when he woke up in the morning and they would keep him going until dark," was the comment of Mrs. Douglas Hall. "It's a comforting feeling for parents to know their children are in good hands and the folks in Auburn Heights certainly had that with Sam."

The 21-year-old people's choice will be returning to Wayne State soon where he is majoring in physical education. He likely can have a summer job for life directing baseball teams for his neighbors.

AP Wirephoto

IN THE ROUGH — This is how the baseball diamond in San Francisco's Candlestick Park looks today from high in the grandstand. The park is the future home of the Giants baseball team. Presently the Giants are ending a month long home stand in Seals Stadium in their bid for the National League pennant.

Old Woes for U-D Coach

DETROIT (UPI) — Jim Miller, 44-1 record—were lost through graduation. The new coach is switching from the winged-T to the straight T-formation this season, but he lacks an experienced quarterback to handle the team under the new system.

Lou Faoro, leading passer for the last three years, is working with the squad this season, but as an assistant trainer and not as quarterback. He was one of the graduates. Replacing Faoro at the signal calling position is Tony Hanley, a junior from Palo Alto, Calif. Hanley was used sparingly in his sophomore season.

Nicklaus Leads Eight Into National Amateur
CINCINNATI (AP) — Jack Nicklaus, 19-year-old Walker Cup player from Columbus, Ohio, fired a brilliant 5-under-par 65 Wednesday to lead a field of eight into the National Amateur Golf Tournament from Cincinnati's rain-delayed 36-hole regional qualifying.

Nicklaus' 65 went with a 71 scored Tuesday for a total of 136 over the par 70 Carmichael Country Club course. The course is 6,670 yards long.

Tigers Favored to Repeat in National Poll

Top Team for '58 Has 30 Lettermen Returning This Season

ATLANTA (AP) — Louisiana State's colorful Tigers are the defending national and Southeastern Conference football champions. So it comes as no surprise that down in Dixie they are favored to be No. 1 again this fall.

It is not merely a case of the long with the winner. There are 31 pre-season crystal ball boys riding solid reasons for putting the championship monkey on LSU's back. Those reasons include All-America halfback Billy Cannon and 30 other lettermen Coach Paul Dietzel welcomes back from his imaginative, perfect record marauders of last year. Only four veterans were lost.

But LSU's task, even at the conference level, is not simple. Powerful Auburn, unbeaten in 24 games and No. 1 in the nation two years ago, and swift-striking Mississippi are eager—and perhaps able—to shoulder LSU from the pinnacle. In the Midwest, MADISON, Wis. — Wisconsin coach Milt Bruhn is working veteran quarterback Dale Hackbart with the first string, while promising sophomore Jim Bakken is hearing the second unit.

IOWA CITY, Iowa — Halfback Bob Jeter, veteran Iowa swiftly, dislocated a finger on his left hand and will not be able to engage in heavy contact work until next week.

LAFAYETTE, Ind. — Quarterbacks Ross Fichtner, Wayne Jones and Bernie Allen have been throwing to wingmen Leonard Jardine, Dick Brooks, Manzie Winters and John Elwell. BLOOMINGTON, Ind. — Coach Phil Dickens has named senior end Ron Miller, Green Bay, Wis., junior tackle Moses Gray of Conemaugh, Pa., and senior blocking back Eddie Fritz of Whiting, Ind., as possible kickoff specialists.

MINNEAPOLIS — Minnesota is working on improving the weak passing attack which hampered the Gophers' offense last season. EVANSTON, Ill. — Coach Ara Parseghian has moved Al Fauroe, 185-pound sophomore from Marion, Ind., into the first string right halfback spot to replace Northwestern's injured regular halfback, Al Kimbrough of Galesburg, Ill.

COLUMBUS, Ohio — Coach Woody Hayes says quarterback Jerry Fields and Tom Matte appear to be the best Ohio State passers.

AP Wirephoto

BREEZING ALONG — With his mane out straight in the breeze, Diller Hanover with Frank Ervin in the saddle is crossing the finish line to win the Hambletonian in two straight heats at DuQuoin, Ill., yesterday. The winning horse is owned by the Hall stables of Watertown, N. Y. and it is trained by Ralph Baldwin. Circo with Bill Houghton driving was several lengths behind.

Steelers Trade Hall to Cards

CALIFORNIA, Pa. (AP) — Halfback Ken Hall, acquired by the Pittsburgh Steelers only two days ago from the Baltimore Colts, was traded to the Chicago Cardinals Wednesday in exchange for end Gern Nagler.

Steelers Coach Buddy Parker got Hall from the Colts on Monday in return for an undisclosed draft choice.

Nagler, who has played in the National Football League five seasons, has caught 127 passes for 2,940 yards and 22 touchdowns during his NFL career. Meanwhile, Parker made two changes in his lineup as the Steelers prepare to meet the Colts in an exhibition game at Miami Friday night.

Detroit Legion Titlist

BLOOMINGTON, Ill. (AP) — Detroit's Thomas A. Edison Post defeated West Allis, Wis., 9-5, yesterday and won the Midwest Regional championship of the American Legion Junior baseball tourney.

Detroit will face Hartford, Conn., Eastern champion, Sunday in the first game of Little World Series at Hastings, Neb. Hampton, Va., meets Phoenix in the other game.

Name 'Star Coaches

AIR FORCE ACADEMY, Colo. (UPI) — Ben Martin, who coached the Air Force Academy football team to an unbeaten season in 1958, has agreed to help direct the Southwest All-Stars in the Dec. 26 Copper Bowl game at Tempe, Ariz. Frank Kush of Arizona State will share coaching duties with Martin against the National All-Stars.

Ingemar to Visit Florida

FORT LAUDERDALE, Fla. (UPI) — Heavyweight champion Ingemar Johansson will fly to Florida sometime after Sept. 15 for a two-week visit. The Swedish titleholder is due in California early in October for a television appearance and to start work in a motion picture.

Rest for Diller Hanover After Hambletonian Win

By The Associated Press
DU QUOIN, Ill. (AP) — Diller Hanover, winner of harness racing's richest plum, is headed for a vacation.

"He's been racing awfully hard," trainer Ralph Baldwin explained today. "He deserves a rest. I don't think he'll start at Indianapolis."

The Horseman Futurity in Indianapolis Labor Day is the next big-time test for 3-year-old trotters.

Diller Hanover is the colt to beat for this year's trotting triple crown after his impressive straight heat victory yesterday in the \$125,284 Hambletonian, largest purse ever put up for a harness race.

The bay son of Star's Pride dashed the first mile in 1:25 seconds. On the last trip he threw a shoe a quarter mile from home. Ordinarily this would throw a horse off balance and perhaps cause him to break stride. It had no obvious effect in Diller.

Only big leaguer among the three horses owned by Hall Stables of Watertown, N.Y., Diller Hanover captured the second leg

of trotting's triple crown in the Hambletonian.

Frank Ervin, whose ambition to win the Hambletonian had eluded him eight times, stepped in yesterday as Diller's pinch-hit driver.

He moved the colt up front just before reaching the half-mile pole in the first heat and withstood pressure applied in the stretch by Tie Silk to win by a neck.

Ervin hesitated a little longer in the final trip, and brought Diller to the fore after three-quarters of a mile, then charged home easily by 2½ lengths.

Sports Briefs

For many months of every year the sun never sets on the arctic tundra. No other migrant travels so far. Annually a tern may travel 25,000 miles.

A dragonfly's head is mostly eyes with which it can see the tiniest prey for away.

The alligator snapping turtle of the central-southern United States, may grow to a weight of 200 lbs. and is consumed in great quantity.

The record speed for any animal is held by a bird — the frigate bird. It has a flying speed of over 100 miles an hour and has been credited with a hard-to-believe record of over twice this speed.

Archer Totals 2716

Dave Keaggy took top honors in the two-day Archery Fair tournament by scoring a total of 2176 in three different types of shooting, the Chicago Round, the Hunter's Round and Fifty-Six field shoot.

He shot an 804 in the Chicago, 432 in the Hunter's and 940 in the field.

Charles Thompson was second with a 2119 total.

Motorist Kills 4 Deer

HARRISONBURG, Va. (AP) — Jennings Whitmer, game warden for Rockingham County, Va., thinks a motorist here set a record. He killed four whitetail deer in one accident. The car was not badly damaged.

Nautical Jive

BULKHEAD — A vertical, transverse partition used to separate various areas in a boat.

RAIL — The top edge of a boat's side.

SCUPPERS — Openings for carrying away water which has been taken aboard from spray or waves.
