

2 Found Slain in Detroit Bar

DETROIT (AP) — A man and a woman were found bound and shot to death in a near northside bar today, 10 blocks from another bar where two men and a woman were found slain in February.

The killer or killers bound and shot the victims at both bars. Two unidentified men were reported the last patrons of both bars.

In both instances the victims included the bar porters.

County's Equalized Value Should Stand

Vance Fouts, chairman of the equalization committee of the Oakland County Board of Supervisors, said today that the estimated county equalized value figure of \$2.68 billion previously projected in the county's tentative 1967 budget should stand up.

A breakdown of the county's equalized valuation per municipality will be ready Friday, Fouts said.

Current county equalized value is \$2.44 billion.

Abductors Shoot, Free Caterer

AP Photo/Max

TWISTED NEIGHBORHOOD — This aerial view shows the Overland Park, Kan., neighborhood which was struck by a tornado yesterday. The funnel skipped by the elementary school at left and hit the homes across the street. An estimated two dozen homes were destroyed or damaged.

Damage Tops \$1.5 Million

Fierce Spring Storm Slackens

By the Associated Press
A cold and violent spring storm showed signs of weakening today after lashing portions of the West, northern Plains and the midlands. It brought snow, frost and freezing temperatures, hail, rain, strong winds and tornadoes that caused damage in excess of \$1.5 million.

Three men were killed in storm-related auto crashes in Colorado and Wyoming and at least five persons suffered minor injuries in a tornado.

A residential section of Overland Park, Kan., a suburb just southwest of Kansas City, Mo., and the Valley View subdivision of Lombard, Ill., west of Chicago, suffered extensive damage from the tornadoes yesterday.

Other tornadoes touched down in rural areas of north Iowa. Thousands in the metropolitan area of Kansas City, Mo., watched a slender funnel that dangled ominously from a dark, swiftly moving cloud and was brilliantly outlined by a sunny sky near the horizon.

There were no deaths. Five persons suffered minor injuries. Police Chief John Kenyon of Overland Park, who estimated the damage at over \$1 million, said 35 houses suffered up to 50 per cent damage and 15 others were destroyed.

About six hours later, a tornado struck Lombard's Valley View subdivision. There were no known injuries.

Most of the homes damaged or destroyed in Overland Park and the Lombard area were valued at \$25,000 to \$30,000.

Freighter Is Aground South of Miami

MIAMI (UPI) — An unidentified freighter, described as being in the 417-foot Liberty class, was hard aground on Ajax Reef 23 miles south of Miami in heavy seas, the Coast Guard said today.

The Coast Guard reported it did not know how many crewmen were aboard the ship or whether it was in immediate danger of sinking.

Work Begins on Hospital

Children's Unit Going Up at Pontiac State

Ground breaking for the \$2.1-million children's hospital at Pontiac State Hospital was held at 1:30 p.m. today.

The new facility, scheduled for completion in September 1967, will contain 80 beds. It will be located west of the main hospital.

To be known as Fairlawn Center, the new hospital will provide a comprehensive treatment program for emotionally disturbed children.

The present children's facilities in the main hospital complex, hospital officials said, are extremely crowded and fail to provide a suitable therapeutic environment.

The new building will provide four 20-bed residential units for boys and girls under age 17 as well as day care facilities for another 40 children.

DAY CARE
Day care facilities will essentially service the immediate Pontiac and Oakland County areas as these children will be at the hospital only during regular school hours.

The administration wing of the new facility will accommodate most of the professional staff.

Dr. James W. Johnson, presently director of Pontiac State Hospital's Child Psychiatry Department, will be director of the children's facility which will function as a division of the state hospital.

Dr. Charles Hoyt will head the adolescent section of the new facility and Dr. Lorraine Aweas will direct the day care program.

EXISTING FACILITIES
Fairlawn Center will complement existing children's facilities at Pontiac State Hospital, which serves a 10-county area.

Officials of the state hospital feel that Fairlawn Center will (Continued on Page 2, Col. 4)

ROBERT B. ROSENBERG

City Blames Waterford for Talk Delay

Pontiac city officials claimed last night any delay in arranging a meeting between Waterford Township and the city to discuss pollution problems was the fault of the township.

Mayor William H. Taylor Jr. charged that meetings have been set up and twice delayed by the township.

"We're still waiting for them to indicate a time for a meeting. I'm sure we can work this out with the township," said Taylor.

A "we are available" letter was ordered sent to township officials by the City Commission.

The commission action and Taylor's comments came in reply to public comments by township officials over the city's request last week for a report on township efforts to combat pollution in the West End Storm Drain.

They got the report, but township officials let it be known they were irked at the asking.

Township Trustee William Dean Jr. complained Monday, "They (city commissioners) haven't found time to meet with us on mutual problems."

The city had indicated concern over township pollution of (Continued on Page 2, Col. 4)

Man 'Serious' After Surgery

Left by Kidnapers Near Ohio Border

ERIE (AP) — Missing Southfield caterer Robert B. Rosenberg, freed by abductors suspected of having robbed him, staggered into a motel near the Ohio border early today with a gunshot wound in his back.

State Police said Rosenberg, well-to-do 32-year-old father of four who vanished Good Friday, had been shot and dumped from his captors' car.

A 22-caliber revolver, which police said could have been used in an attempt to kill Rosenberg, was found not far from the motel.

Rosenberg, incoherent after collapsing at the motel, underwent surgery at Mercy Hospital in Monroe.

The operating surgeon, Dr. D. W. Douglas of Monroe, said Rosenberg had been shot only hours beforehand by a small-caliber gun. Rosenberg's condition was described as "serious but not critical."

Police organized an immediate search for abductors who, they said, may have fled into Ohio. The FBI kept in touch with state and local police.

Rosenberg, last heard from in a mystifying telephone call to his home, walked dazedly to the Silver Blue Motel on Telegraph Road at 1:20 a.m. The motel contacted police.

'NO DOUBT'
Cpl. Edmund Burke of the Erie State Police post said there "wasn't any doubt" that Rosenberg had been a victim of abductors.

Burke said Rosenberg had marks on his wrists and ankles, indicating he had been trussed up, and also a growth of beard.

Rosenberg's wife, Joyce, 30, went from the family home to the Monroe hospital upon being informed by police.

Only yesterday Mrs. Rosenberg had expressed fear her husband had met with foul play. (Continued on Page 2, Col. 5)

CRANBROOK SCHOOL — Fronting Lone Pine in Bloomfield Hills, Cranbrook School for Boys is one of the six institutes built on the former estate of George G. and Ellen Booth. The tower near the center of the picture originally was the silo on the old Booth farm. It is adjacent to Harry D. Hoey Hall, the administration building named for the independent school's immediate past headmaster. At the other end of the quad are the three dormitories and, on Lone Pine, the dining hall. The school's athletic facilities are at the left. A portion of the Cranbrook Academy of Art buildings can be seen at the extreme right. Cranbrook School, opened in 1927, now has an enrollment of 390. With classes averaging 15 students, Cranbrook instructors stress individual instruction geared to preparation for college. The Cranbrook buildings were designed by the late Eliel Saarinen.

U.S. Planes Bomb Closer to Key Port of Haiphong

SAIGON, South Viet Nam (AP) — U.S. Navy bombers edged closer to Haiphong Tuesday in the third straight day of raids on North Viet Nam's vital Red River Delta, blasting a railroad bridge 10 miles north of the country's chief port, a U.S. spokesman said one span of the bridge was destroyed.

Four Soviet-built surface-to-air missiles were fired at the attackers but missed their marks, the spokesman reported today.

More Political Strife in S. Viet Predicted

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara predicted today that more internal political turmoil probably is ahead in South Viet Nam.

He told the Senate Foreign Relations Committee that Viet Nam, like other undeveloped nations, is undergoing "a period of birth pains."

"I can't predict when Viet Nam will shift from an unstable set of political institutions to a stable set," he testified.

But he said South Viet Nam took one step in that direction when the government and its critics agreed to hold elections. WON'T BE USED

McNamara said American troops were used to try to stop the Communist Viet Cong if they seek peacefully to participate in the elections.

But he said it was "not conceivable to me that the Viet Cong will try to participate."

When pressed by Sen. Albert Gore, D-Tenn., about what action would be taken if the Viet Cong did seek to take part in the elections, he said:

"I am sure the government of Viet Nam will welcome them as voters and we will do nothing to prevent that."

He added that the American goal in Viet Nam is to let the people choose the kind of political and economic institutions they want.

McNamara said Communist forces in South Viet Nam are taking their orders "not only day to day but hour to hour" from Hanoi.

The Vietnamese war, he said, stems from flagrant Communist aggression and intervention.

He offered that description of the Asian struggle after Chairman J. W. Fulbright, D-Ark., asked whether U.S. treaty commitments cover intervention in a civil war.

STRONGLY DISSENT

McNamara said if Fulbright was implying the Vietnamese struggle is a civil war "I strongly dissent."

"That is one of the most flagrant cases of outside intervention and outside aggression in the past decade," he said.

McNamara said that before U.S. combat troops were sent into South Viet Nam thousands of Communist North Vietnamese had infiltrated into the south.

Today, McNamara said, 20,000 or more North Vietnamese fighting men are in South Viet Nam.

TAKE OVER CONSULATE — Indonesian students, shown hauling away mattresses atop a car, yesterday ransacked and occupied the deserted U.S. consulate in Jakarta. They said the Jakarta military command had given them permission to use the consulate as a headquarters. Seizure of the consulate building was the second anti-Chinese action in four days. The Chinese embassy was ransacked last Friday.

Man Held in Attack on Woman

A 43-year-old Pontiac Township woman was beaten, cut on the face, and raped yesterday in her home, according to Oakland County Sheriff's officers.

"Sheriff's detectives said a suspect in the assault was apprehended later yesterday and is being held for questioning at the county jail."

The victim, who lives alone and is unmarried, is reported in fair condition at Pontiac General Hospital.

Detective Alphonse Anderson said, however, the woman was still in a state of shock and unable to give information other than her own name.

Pontiac Patrolman Charles A. Lindeberg, who arrested the suspect at North Perry and East Walton about 4 p.m., said the man wore scratch marks on both arms.

FINDS SHOTGUN

In addition, Lindeberg said he found a 16-gauge shotgun underneath a blanket in the rear of the car and a 38-caliber starter's pistol in the glove compartment.

Deputies who answered the call said they found the back door window of the victim's home broken out.

Entering the home, they discovered the victim bound with a clothes line, her face bloodied.

Telephone wires to the home had been cut, and a butcher knife and pocket knife were lying on the floor near the victim, according to deputies.

Hospital Drive to End Today

The closing dinner and final report meeting of the St. Joseph Mercy Hospital Building Fund Campaign will be at 6:30 p.m. today at the Pontiac Elks Temple.

More than 400 volunteers are expected to attend and hear the results of their efforts in behalf of the hospital.

The campaign started nearly a year ago. Since then, more than 1,000 workers from the Pontiac area have participated in the drive by serving on various committees.

Presiding at tonight's meeting will be E. M. Estes, a General Motors vice president and general manager of the Chevrolet Motor Division. He formerly headed the Pontiac Motor Division.

Estes, who will call upon committee chairmen for final reports, said he expected that the minimum goal of \$3.25 million would be exceeded.

struggle committee" in the northern city with responsibility for a grenade blast that wounded four persons Monday night. Two of the injured were Catholics.

In Quang Ngai, 80 miles south of Da Nang, a mysterious explosion Tuesday at the headquarters of the Viet Nam National People's party killed three persons and wounded four after a clash between armed Buddhists and supporters of the Conservative party.

Area Accidents Fatal to Two

Man Killed in Troy, Boy Dies in Shelby

A Royal Oak man was killed in a two-car collision yesterday on South Boulevard near Livermore in Troy.

Virgil E. Lazarus, 69, died after his car collided with one driven by Hector M. Courvreur, 68, of Grosse Pointe Farms.

Courvreur is in fair condition and his passenger, Mrs. Elizabeth Cote, 49, of St. Clair Shores, is in satisfactory condition at St. Joseph Mercy Hospital.

2 in City Head Penal Group

Two Pontiac-based men have been named head of the Michigan Corrections Association, which concluded its annual three-day convention in Grand Rapids today.

Theodore W. Bly, senior parole agent was elected as president. Joseph DeAgostino, Detroit, Morris Shaw, district supervisor of probation in Pontiac, was named vice president.

Waterford Girl Hit by Car Said Critical

A 6-year-old Waterford Township girl was critically injured yesterday when struck by a car in front of her home at 777 Scott Lake.

Scheduled to undergo surgery today in Pontiac General Hospital is Gwen Lewallen, daughter of Mr. and Mrs. Walton Lewallen.

Work Is Begun Today on State Hospital Facility

(Continued From Page One)

provide a program in child psychiatry comparable to any in the nation when planned staff in-services are realized.

Participants in the brief ground-breaking ceremony were hospital officials, representatives of various organizations devoted to helping children, city and county officials and representatives of the State Department of Mental Health.

Senate OKs Vehicle Check by State Police

LANSING (UPI)—Spot motor support for a compulsory motor vehicle inspection.

However, such tests according to some senators, would be too costly, about \$10 for each inspection.

Another bill, to provide closer analysis of traffic accident reports, also passed.

The bill would require all police agencies throughout the state to report traffic accidents on a uniform reporting form to State Police headquarters in East Lansing. The bill passed, 30-0, and went to the House.

Another attempt was expected today to win approval for a measure to protect motorists whose insurance companies became insolvent by allowing them to draw on the uninsured motor vehicle accident claims fund.

The protection would only be

The raid near Haiphong followed up an attack by Navy bombers on the Uong Bi power plant 14 miles northeast of the city Monday night. On Sunday Air Force fighter-bombers hit two missile sites, 15 and 17 miles south of Hanoi, and knocked out a major highway linking Haiphong and Hanoi, 60 miles to the west.

The Navy pilots returning from the new raids on the Haiphong area reported that highway traffic between the cities had been virtually halted, the spokesman said.

Birmingham Area News

Pontiac Firm Awarded Contract for 31 Buses

BLOOMFIELD HILLS — The board of education last night awarded a \$195,672 contract for 31 new school buses and paved the way for the letting of construction bids on a new elementary school.

The school buses will be purchased from Matthews-Harvey Chevrolet Co. of Pontiac, lowest of five bidders.

Cost of the vehicles will be carried on a title-retaining contract with one-quarter of the total cost being paid each year for four years.

W. Bloomfield Firemen Stay on Their Jobs

West Bloomfield Township firemen remained on the job today despite a threat to walk out at noon if their demands for higher wages were not met.

The five full-time firemen and 11 volunteers who issued the ultimatum have scheduled a meeting with the township fire committee at 7:30 p.m. next Tuesday, according to their attorney, Frederick Evans of Keego Harbor.

Man Turns Up Shot in Back

(Continued From Page One)

Her last word from him had been a telephone call from him the night of his disappearance in which she said he told of being "held," but cautioned her not to call police.

FOUR CHILDREN

The Rosenbergs have four children. The family lives in a \$35,000 home in Southfield. Rosenberg owns Rosenberg's Holiday Catering of Oak Park.

Man Turns Up Shot in Back

Opl. Burke said Rosenberg was incoherent when police reached him at the motel.

However, he told of being "kidnaped and shot and tied up and blindfolded." Burke said. He collapsed upon entering the motel, Burke said.

The motel is near Temperance and 2 1/2 miles north of the Ohio line.

Kiermaier, said he was looking up for the night when Rosenberg staggered up the driveway.

"I thought he had been hit by a car," Kiermaier said. "Then he mumbled that he thought he was carrying."

Mrs. Rosenberg said yesterday she was breaking a pledge of secrecy to the FBI in disclosing details of her husband's disappearance.

Three days after the ester's disappearance, Detroit police found his convertible car near the downtown Detroit district. Rosenberg's empty wallet and papers were found strewn in the car.

Municipal Employees Union Seeks Election

City Manager Joseph A. Warren disclosed last night that Pontiac Municipal Employees Association has filed with the State Labor Mediation Board for a representative election.

The association seeks to represent salaried employees.

Two bills exempting the Public Health Department from liability suits also were passed.

However, the bills do not apply where "the damages were sustained as a result of negligence by the health officer" and other health department employees.

AMENDMENT FAILS

But, he added, "It is equally reprehensible" for a policeman to strike a citizen. He offered an amendment to the bill to also make it a felony for a policeman to strike a citizen. The amendment failed.

Preliminary approval also was given to a series of bills to modernize the county coroner system.

One measure would abolish the elected county coroner system and require physicians be appointed to the posts as medical examiners.

Two bills exempting the Public Health Department from liability suits also were passed.

However, the bills do not apply where "the damages were sustained as a result of negligence by the health officer" and other health department employees.

MARRYING KIND — Eric Tomb, 20, of Cleveland is one of 13 eager Harvard University students lined up for interviews with a Radcliffe coed who says she wants to get married for one year to escape dormitory life. The coed made the proposal in the classified section of the Harvard Crimson.

Coed Seeking Hubby for Year

CAMBRIDGE, Mass. (AP) — The Harvard boys are lining up for interviews with a Radcliffe girl who says she wants to get married for one year to escape dormitory life.

Only married students at Radcliffe College can live off campus, so to get around the regulation she has placed this advertisement in the Harvard Crimson:

"One-year marriage? Seems to be the only way for a Cluffie to get out of the dorm. I'll share expenses, am a good cook. Other details? We can work it out. Contact Crimson Box 2000."

So far 13 eager boys have snapped at the offer to try to work out the terms of the proposed one-year marriage.

Richard Appleby, 20, of Great Neck, N.Y., replied by mail, "You sound interesting. Maybe we can work something out."

He said he would wait until he had a chance to meet her before deciding whether to accept the offer.

"The trouble with American marriages is that we don't have enough practical experience. Maybe this sort of thing is just what we need," he said.

The Radcliffe girl declined to identify herself because she didn't want "a whole bunch of nuts calling me."

"I just want to live off campus and earn my degree in history," she said, because it's "quieter there and I can get more work done."

BLUE EYES

She said she has blue eyes, auburn hair and is five feet tall.

"I really want a roommate, not a husband," she said, "but he's got to marry me to satisfy Radcliffe."

Eric Tomb, 20, of Cleveland, Ohio, a junior, also answered the ad in the student newspaper, and commented: "I'd been planning to put an ad in myself for a female roommate. A girl who can cook and there might be other fringe benefits, like washing my socks."

Wayne Jones, 21, of Wayne, Mich., said he answered the ad because he wanted to meet a girl with "that kind of a sense of humor."

The Radcliffe student said today, "I really didn't expect this great harvest. Now I'll have to weed them out, eliminate those who don't understand the point of all this and then interview the rest."

She said she placed the ad as a "kind of joke" to protest the Radcliffe regulations.

DOES ASTHMA

Make You Short of Breath?

At the first sign of wheezing, difficult breathing or coughing from recurrent bronchial asthma or bronchitis, aggravated by air contamination by smoking, smog, dust and pollen, take quick action with MENDACO. It combats allergy, relaxes bronchial tubes, thins and helps remove thick, sticky mucus. This usually eases breathing, restores energy, stops sneezing, hives, itchy eyes. MENDACO at drugstore. On Districting Bill

Dirksen Predicts Win

WASHINGTON (AP) — Sen. Everett M. Dirksen predicts victory in a Senate vote today on his reapportionment proposal aimed at skirting the Supreme Court's one man, one vote ruling. But opponents predict defeat for the proposal.

At stake is Dirksen's proposed constitutional amendment under which one house of a state legislature could be apportioned on

the basis of geography and political subdivisions, in addition to population.

The high court ruled in 1964 that both houses of state legislatures must be apportioned on a basis of population.

With a two-thirds majority needed for approval, Dirksen claimed he was going to win his long fight.

HAVE VOTES?

However, Senate backers of the court's decision said after a recheck of their forces they have the votes to block the proposed amendment.

Agreement was reached to vote two hours after the Senate's noon meeting hour.

Dirksen, the Senate Republican leader, battled for a similar amendment last year. But after two weeks of Senate debate, it fell seven votes short of the necessary two-thirds majority. The vote was 59 for and 37 against.

Dirksen says his proposal would insure effective representation "of the various groups and interests making up the electorate."

ALTERNATIVE

But any such plan of apportionment would have to be approved by a majority of the voters in a statewide referendum.

Dirksen said he would like to see the plan based solely on population would have to be submitted to the people.

Dirksen agreed Tuesday to a change in the ratifying clause of his amendment to require both houses of a legislature to be apportioned on a population basis before acting on ratification.

Sen. Frank Church, D-Idaho, said in offering this that it would leave away any possible legal challenge to the ratification process and also "take care of the point urged by some senators that compliance with the court's apportionment decisions must precede ratification of the proposed amendment."

Constitutional amendments, before becoming effective, must be approved by a two-thirds majority in both branches of Congress and also by three-fourths of the state legislatures.

In W. Bloomfield School District

\$7-Million Issue on Ballot

News of the Area

WEST BLOOMFIELD TOWNSHIP—Requests for a \$7-million building bond issue and a 7-mill increase in the operating levy will appear on the June 13 ballot in the West Bloomfield School District.

Also to be sought is renewal of a 2-mill operating levy due to expire this year.

School trustees plan to finance the building program with no increase in taxes by borrowing the money from the state at a low interest rate and extending the bond retirement over a longer period of time.

State funds can be borrowed in this manner by rapidly-growing school districts already collecting 7 mills for debt retirement.

West Bloomfield's current levy of 28.8 mills includes \$7.50 per \$1,000 of state-equalized valuation for debt retirement.

5-YEAR PROGRAM
The proposed five-year build-

ing program was recommended by a citizens' committee headed by Dr. Joe U. Davenport.

The group, which has been studying curriculum and financial requirements of the district since October 1965, predicted that school enrollment would jump 500 to 600 students annually for the next five years.

A record jump this year took the enrollment figure from 2,247 in 1964-65 to the current 2,782.

Committee members estimated the district will need 130 new classrooms by the 1970-71 school year.

Featured in the proposed building program is a new high school, expected to cost \$3.5 million.

The new high school, to house 1,000 students, would be built in about three years on a 56-acre site the district owns on the east side of Orchard Lake Road south of Lone Pine.

Also proposed is a 24-classroom addition to the district's junior high school, which went into operation last fall.

"We would want to start immediately on this addition," said Schools Supt. Dr. Leif A. Hougen.

With construction of a new high school, the present high school would be converted to a junior high. That building would be improved with an addition to its cafeteria.

RAN OUT OF MONEY
"This was in our present bond

issue, but we ran out of money," Hougen said.

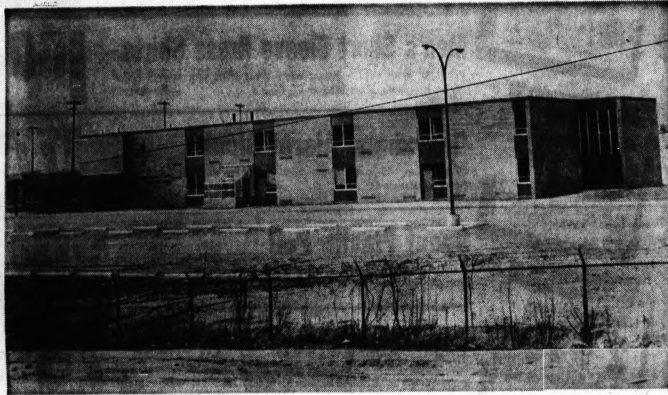

One new elementary school is included in the proposed package—a 14-room unit on Walnut Lake Road between Middle Belt and Orchard Lake roads. The school board now is holding an option on a 13-acre site there.

Also recommended is a six-room addition to an elementary school now under construction on Maple. The 14-room unit is scheduled to open in September.

New classrooms also would be constructed in the Scotch Elementary School area. Board members are considering either a new unit there or an addition to the present school.

NEW SCHOOL SITES

The bond issue proposition also includes funds for the purchase of new school sites. The citizens' committee estimated four to six sites would be needed in the next five years, Hougen said.

Pontiac Press Photo

HURON VALLEY'S NEWEST—Some 587 pupils now are attending classes in the new Muir Junior High School in Milford while adult citizens of the Huron Valley School District are worrying about the need for more new classrooms. The junior high school was opened four weeks ago, a half-

year after the completion deadline. The unit was included in the district's last building bond issue of \$2.2 million, approved in December 1964. School board members now are considering asking property owners to back another building package, which could cost \$3.5 million to \$7.1 million.

Students Get Taste of Government Duty

FARMINGTON—Students from Farmington High School yesterday got some firsthand information on what it takes to keep a city and a school system running.

The annual student government day in the city and school district found 26 young people in official posts.

As mayor, Mike Gregory headed the City Council composed of Kurt Dembeck, Mark Foster, Dennis Moore and Theo Schwartz.

Ron Lee was city manager, Loris Rhodes clerk, Connie Aldrich treasurer and Jim Foulkrod assessor.

Other officials included Paul Bennett, municipal judge; Wayne Johnston, associate

Judge; Greg Kelch, attorney; Tom Ruelle, director of public safety; and Dick Bayer, director of public services.

OTHER POSTS

Also holding city posts for a day were Dan Bruce, building inspector; Ray Lardie, water and sewer foreman; Dian Sheridan, public works foreman; Marsha Smigilewski, superintendent of public works; and Gary Walker, public safety sergeant.

Board of education members were Sandy Cossin, Sue Cossin, Beverly Lord, Tim Patrick, Mike Perry, Linda Taylor and Lynn Watkins.

The youthful officials were treated to lunch at the Roman House and dinner at the Botsford Inn.

Sweet Adelines Will Compete

The Utica-Rochester Chapter of Sweet Adelines will participate in chorus competition Saturday at Cass Technical High School, Detroit.

The Chantones, a quartet from the chapter will compete with 13 other quartets during convention activities.

New officers of the chapter will be installed May 9 at Avon Township Hall.

Officers include Mrs. Dean Evanson, 1167 Brewster, Avon Township, president; Mrs. Fred Neiger, 449 South Blvd., Avon Township, vice president; Mrs. Richard Bloomfield of Roseville, corresponding secretary; Mrs. Douglas Mickelson, 4322 Kingmark, Shelby Township, recording secretary; and Mrs. Ronald Frank, Ferndale, treasurer.

9 Seek Posts on New City Charter Unit

LAKE ORION—Nine residents filed nominating petitions for the nine-member city charter commission before yesterday's deadline, according to Village Clerk Mary Parkinson.

Candidates on the June 6 cityhood ballot will be J. C. Armstrong of 630 Detroit; Mrs. Charles Robbins, 622 Detroit; Mrs. Arthur Pangel, 28 Highland; and Frank Volant, 63 Park Island.

Others will be Arthur Pangel Sr., 25 Highland; Jessie Smith, 356 Newton; Mrs. Harold Roberts, 195 Lake; Alfred Kochanowski, 118 Highland; and Mrs. Roy McMorran, 288 Lakeview.

A five-member village charter commission, elected March 14, is now working on a new home rule village charter.

Village Attorney Robert V. Parenti said if a new village charter is adopted, a new city charter could still be drafted and put to a vote.

If the new city charter were adopted, it would supersede the village charter, Parenti said.

School Funds to 4 Districts

Four area school districts have been allocated funds from the federal government's Title I program to improve services for children from low-income families.

Lapeer will get \$53,097; Holly, \$33,427; Oxford, \$28,124; and West Bloomfield, \$17,160.

The program was established under the Elementary and Secondary Education Act of 1965 to encourage better study habits for students from families in the \$2,000-a-year, or less, income bracket.

Clarkston PTA to Hear Court Case Worker

CLARKSTON—Ralph Straum, probate court case worker for the area, will be the guest speaker tomorrow at the 7:30 p.m. meeting of the Clarkston Elementary PTA. He will speak on the "Prevention of Juvenile Delinquency."

Election of officers will also be held and the PTA Safety Committee will present a report of safety conditions around the school.

Ask Changes in Estate Plans

Modification of Avon Development Urged

AVON TOWNSHIP—Several changes are to be made in the proposed development on the Howard L. McGregor estate on Walton Boulevard before the Regional Planning Commission makes a recommendation on rezoning.

Planning Commission members last night indicated that they feel the over-all plan submitted by Slavik Builders, Inc., of Oak Park is good but that a few changes should be made.

Slavik Builders propose to develop a nine-hole golf course, a 300-unit apartment complex, a shopping mall and a residential area on the 417-acre estate.

Planning consultant Robert Shaddock of Villac-Jordan and Associates of Southfield suggested that the apartments be relocated so that some single-family homes would act as a buffer between them and another residential development nearby.

He also questioned the use of the entire 20 acres on Walton for professional offices. He said they are located across the street from another 14 acres zoned for professional office.

417 ACRES

Slavik is seeking rezoning for 300 acres in the township and 117 acres in the Rochester village limits for the development.

First to be developed will be the nine-hole private golf course. McGregor's home is to serve as the club house and a pool on his estate will serve as the club pool.

The developers have estimated that the entire project will take from seven to 10 years to complete.

The rezoning request will be presented to the Zoning Board tonight.

Area Club Sets Sale

WALLED LAKE—The Wallad Lake Business and Professional Women's Club will hold a rummage and bake sale from 9 a.m. to 5 p.m. Saturday at Stonecrest on Pontiac Trail at Barnston.

Many Cry for Baby Sitters

By JANICE KLOUSER

AVON TOWNSHIP—What do you do if you are a young bride and your husband is put on the night shift and you're afraid to stay alone?

You call Mrs. Richard Albyn and ask her to send a baby sitter to stay with you.

Although Mrs. Albyn was unable to fill this request, she has come to the rescue of many Rochester area mothers through her baby sitting service.

The young mother of two has run the Rochester Baby-sitting Service since 1962 when she took it over from a friend.

"It's ideal for me," she says, "because I can run it from home and be here when my children are here. I can work and not have to get a baby sitter," she added with a smile.

TWO CHILDREN

Mrs. Albyn, her architect husband and their children, Keith, 13, and Lisa, 11, live at 1921 Washington.

Mrs. Albyn employs 13 women and would hire more if she could find them. Most of her sitters are "mature women" between the ages of 40 and 60. She hires no one under 21.

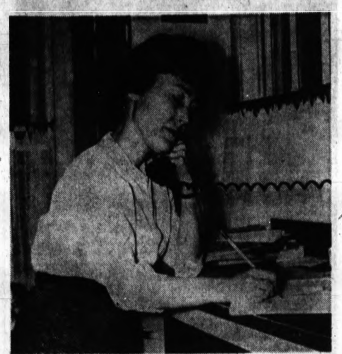

She says she is very particular about the women she hires. She prefers that they have children of their own and have experience baby-sitting. She judges them on capability, experience and personality.

"I interview them in their own homes," she said, "because I can tell more about them that way. I wouldn't send someone from a dirty home to take care of a sweet baby."

SPECIAL TRAINING

Her first criterion, however, is that she won't hire someone she wouldn't want to leave with her own children.

A woman doesn't have to be a nurse or have a special training in order to become a baby sitter. She simply must love children and enjoy taking care of

Pontiac Press Photo

Nancy Albyn Keeps 13 Baby Sitters Busy

them, according to Mrs. Albyn.

Mrs. Albyn feels that her employees benefit in other than monetary ways. She says that for widows whose families are grown it fills a void in their lives.

"The children grow to love their sitters and vice versa," she said. "A sitter will remember the children's birthdays, and families have even invited their sitter for Thanksgiving dinner so she won't be alone."

UNUSUAL REQUESTS

Mrs. Albyn's service has brought some unusual requests and situations.

Once a mother left instructions with the baby sitter and said her husband would pay her when he got home from work.

When the husband came home he had no idea where his wife had gone. The baby sitter found out later that she had simply packed her bags and left home.

Just last week a client wanted a dog sitter while the family was on vacation.

SUMMER SEASON

As summer approaches and many businesses prepare for

their slack season, Mrs. Albyn's business begins to pick up.

"People are beginning to go on vacation," she explained, "and want someone to stay with the children while they are away."

The fall is also a busy period with football weekends and clubs and committees starting up. She says she is swamped at Christmas time when mothers want to go shopping.

Afternoon bowling leagues and church groups often employ Mrs. Albyn's baby sitters to stay with the children in one part of the building while mothers attend to their activities in another room.

MANY REQUESTS

Mrs. Albyn often has more requests for sitters than she is able to fill. So far this week she has had 37 calls.

She said the frequent calls often interrupt her home-making chores and sometimes confine her to the house when she would like to go out.

"On the whole, I thoroughly enjoy it," she said, "although sometimes I feel like a combination pediatrician, child guidance expert and marriage counselor."

Final Voting Stage

Broker, Coroner Bills Before Senate

LANSING (AP)—The questions of how to deal with money lenders and sudden death were to come up for Senate consideration today.

A bill to license and regulate brokers in secondary mortgages and high interest installment loans ran into trouble Tuesday, primarily over the issue of how much interest should be allowed.

Sensors also wanted to take another look at a measure which would abolish the coroner system and require medical examiners to look into any sudden or unusual deaths.

An issue was whether counties under 10,000 population should be required to make the change.

BILL PACKAGE

The coroner measure was part of a four-bill package introduced by Sen. Sander Levin, D-Berkley. The other three bills

advanced to the final voting stage Tuesday.

They would provide for a state pathologist to assist local medical examiners, permit ex-aminers to conduct an autopsy without the consent of relatives and prohibit hospital staff members from handling the investigation themselves of unusual deaths in the hospital.

The hospital provision, Levin said, stemmed from three recent deaths at Pontiac Osteopathic Hospital. The deaths allegedly resulted from improper handling of anesthetic drugs.

The lending measure would limit interest on secondary mortgages to a basic rate of 14 per cent and specify what other service fees could be charged. A rate of 18 per cent would be allowed for installment loans, with no other fees allowed.

Sen. Basil Brown, D-Highland

Park, chairman of the Senate Judiciary Committee, said the bill resulted from an investigation by the Corporation and Securities Commission and the attorney general. It would prevent abuses found by the investigators, he said.

Voters Show Faith in City Fathers

Pontiac voters Monday spoke their minds with ballots and re-elected all incumbent city commissioners for a two-year term.

The decisiveness of the vote was clearly a vote of confidence for the city officials who had given Pontiac two years of effective government and civic progress.

But as much as has been accomplished during the short space of 24 months, much more remains to be done. It is, therefore, gratifying to know that the reins of local government are to remain in the same capable and experienced hands.

Inevitably, there were other well-intentioned candidates for the commission supported by substantial blocs of voters. For them, the outcome held disappointment. But in true democratic tradition the majority prevails; and the losers may confidently be expected to accept the verdict in good spirit and join in support of the common goal of a bigger and better Pontiac.

The Press congratulates the commissioners on their victory and the electorate on its good judgment in retaining them.

Dr. Joseph Maddy

It is safe to say that no figure in modern times contributed more to the Nation's culture than Dr. JOSEPH MADDY, the maestro of Interlochen's National Music Camp and Arts Academy.

Now dead at 74, he established a northwoods summer music camp in 1927 with an idea and a borrowed \$15,000. Its concept widened and its facilities expanded into the present \$5-million institution that now attracts 2,000 young musicians each summer.

Although his formal education

MADDY

stopped short of high school completion. Dr. Maddy held several honorary academic degrees and served on college faculties for a number of years.

A native of Kansas, he joined the music department of the University of Michigan in 1924 and organized the first high school band in 1926. It was this interest that led to the innovation at Interlochen.

From this beginning grew the year-round college preparatory school for students gifted in the arts that opened in 1928.

Dr. Maddy's ranking place among the Nation's music geniuses will not be dimmed by time nor the inspiration he gave to thousands of young artists.

Authority Evaluates Man's Mind Over Matter

We worry a lot about the balance of payments problem. The United States, like every other nation, keeps careful account of the inflow and outflow of gold, the import and export of raw materials and manufactured goods, the status of national resources and manufactured facilities.

In the opinion of MARION HARPER Jr., president and chairman of the board of Interpublic, the import and export of brains is looming as a matter of more serious concern than the flow of gold or the import or export of goods.

"The vital difference between nations," says Harper, "is fast becoming one of human capability."

We have traditionally thought of rich and poor countries, of countries endowed or not endowed with ma-

terial resources or production skills. It may now be more accurate, he says, to think of the "capable nation" or the "less capable nation."

At the same time as there is a gap between rich and poor nations, there is a more truly widening gap between the capable and the less capable. The United States currently enjoys a surplus "balance of payments" in the brainpower department.

In international dealings in currency, notes Harper, we have mechanisms like the International Monetary Fund to correct imbalances. "Perhaps we should develop some kind of International Brain Bank to correct imbalances in brains."

Or, say we, get more and more people of all nationalities to use the brains they have.

Fulbright's Assumptions Dubious

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — Sen. J. W. Fulbright has complained that President Johnson didn't nail down his facts. But he sometimes operates on assumptions himself.

Fulbright, Arkansas Democrat and chairman of the Senate's Foreign Relations Committee, has been increasingly and persistently critical of Johnson's foreign policy, especially in Viet Nam and the Dominican Republic.

In foreign policy, of course, waiting to nail down all the facts may make action too late to be useful.

In the midst of the Dominican Republic revolt, after the U.S. had sent in troops, Fulbright criticized Johnson in the Senate, saying the President got bad information from his advisers.

But then Fulbright agreed that the Communists had tried to take control of the revolution. His complaint was that there was no proof that they ever actually got control.

So, he said, the administration was mistaken in acting in the belief the Communists had taken control. He called this a mistake of "make and mend."

Marshall Lin Piao, who is also deputy premier, outlined a program for Communist world conquest by which revolutionaries in underdeveloped countries could be used to encircle and defeat the capitalist nations. Lin called Viet Nam the testing ground.

Secretary of Defense Robert S. McNamara took the Red Chinese at their own say-so and Secretary of State Dean Rusk later indicated it may be a generation before the Chinese change their aggressive ways.

But Fulbright proposed trying to make a deal with them: the United States would withdraw its forces from Southeast Asia if Red China would let its neighbors alone.

Look magazine says Fulbright would consider McNamara's view — that Red China wants to become the dominant force in Asia, Africa and Latin America — "childish" — although Fulbright doesn't have any more factual information about China's intentions, and probably not as much, as McNamara.

MENACE IS ASSUMED

In short, he is assuming they are not the menace they say they want to be, as he assumed the Communists in the Dominican Republic were not the menace Johnson said he thought they were.

He opposed American intervention in Viet Nam — again on an assumption — because, he said, he believed that even if all went Communist it would be a buffer state against Red China, which is something he can't prove.

"You Can See He's Not Really Trying!"

David Lawrence Says:

Minority Favoring Pullout Small

WASHINGTON — Some of the Republicans and Democrats in Congress, returning from their visits with the folks back home during the Easter recess, may be misjudging the sentiment of the nation.

These senators and representatives believe the people want to get America's military forces out of Viet Nam by LAWRENCE

any means possible, stop foreign aid everywhere, and let the rest of the world get along as best it can. A small minority may feel that way in all sincerity, but it is inconceivable that any majority would concur.

There are voters, to be sure, who often don't realize that for a nation to pull out and become detached in a critical situation is, according to the record of history, likely to be interpreted as a weakness and can lead to a major war. This could be forced on the American people when they are least prepared for it.

The current war is not with the North Vietnamese alone. It is with the governments of Red China and the Soviet Union, which are supplying munitions and airplanes to help kill American boys in Viet Nam. Few critics are keeping their eyes on the real enemies.

Today the United States is moving cautiously on some fronts and boldly on others. Bombardment of enemy supply lines in Viet Nam is growing in intensity. But nothing is being done to restrain either the Soviet Union or the Red Chinese from carrying on their war against American forces. As long as there is such immunity, the American military effort can be agonizingly long.

Yet trade between Red China and the United States in

nonstrategic goods is being openly advocated by some members of Congress. Relations with Russia are regarded by many people, in and out of Congress, as friendly and as requiring more and more concessions in trade.

This trend is getting cursory criticism when Congress as a whole should be demanding drastic steps, including embargoes, against Red China and the Soviet Union. Also, the military chiefs in Washington should be given a free hand to fight the Viet Nam war.

Members of Congress today may think they can win election by demanding that the United States get out of Viet Nam and accept peace at any price. Certainly there are some voters who think only of the immediate future and not of the dangerous years that can follow.

The vast majority of the people, however, will not accept the devices of appeasement and surrender when they realize fully the consequences that can result.

(Copyright 1966, New York Herald Tribune Syndicate)

Bob Considine Says:

Dose of the Opera Spells Doze for This Columnist

NEW YORK — Spent the whole day in makeup having a lump put in my throat before heading for the fair farewell performance at the Metropolitan Opera house.

The lump came in handy now and then. "What a beautiful house!" Leo CONSIDINE pined. Stokowski exclaimed poignantly when he turned on the jammed opera buffs after conducting "Entrance of the Guests," from Wagner's Tannhauser. "And splendid acoustics! Help us save this magnificent building!"

We didn't know whom to boo. The name of the guy who was freeloading on the ratty old place wasn't listed in the program.

All through the long evening and, two hours into Sunday morning, there were repetitive mournful cries of "Save the Met!" from scattered parts of the house. One such cry awakened me from an overdose of the immolation scene from Götterdämmerung.

For a moment I thought the crier had said, "Save the Met!" Then I knew this could not be possible. There is little relationship between the Met and the Met. The Met has been steadily losing money with steady losses.

WITHOUT COSTUME
Most of the performers engaged in this last and salute to their old stamping grounds appeared without costume, which shook the imagery but somehow was in keeping with a place that has been stripped of much of its time and grandeur and trappings by souvenir and bargain hunters.

Robert Merrill is my favorite baritone, but his Eri Tu, from *Un Ballo in Maschera* by Verdi, needed a somewhat more splendid costume than Bob's dinner jacket.

However, Irving Geist's box where we sat with the Ed Sullivan and John Dalys was

wet with tears when Robert finished and left the stage. Cheers of frustration. We wanted to hear him sing "Some Enchanted Evening," or "Shortnin' Bread."

We were awakened once again about 1:45 a.m. by a tremendous crash in the kettle drums department. The curtain swept back to reveal the full company bowing and gesticulating against an Egyptian backdrop.

MADE IT EASIER
"Nasser must have been re-elected," we said sleepily to our host, Mr. Geist. He was kind enough to explain that it was merely the Triumphal Scene from *Aida*.

That made it easier to go back to sleep.

Reviewing Other Editorial Pages

Infinite Wisdom

The Digest of World Reading

Two six-year-olds were having a discussion. "You know," said Cynthia, "you have to have a man to have a baby."

"You do!" exclaimed Amanda. "Why?"

"Well," Cynthia reasoned, "somebody has to pay for everything."

Tax Dilemma

The Oklahoman

Taxes are as much a part of the individual's living costs as they are the corporation's costs of doing business. Therefore it's a passing strange that the government should be telling both personal and corporate income taxpayers that the way to curb their rising living costs is to raise their taxes. For higher taxes plainly mean higher living costs in the case of the individual and higher costs of doing business in the case of the corporate taxpayer.

The argument favored by the government's economists is that higher taxes will re-

Voice of the People:

Readers State Opinions on Viet Nam Involvement

I'm not sure whether it's wiser to drop the bomb or go home — but either one is better than what we're doing now. Our course in Viet Nam is the most dastardly, cruelest and uncalled for murder of American boys in all history. The administration can answer to God for the deaths of these patriotic thousands and thousands of great, young Americans. It's the biggest calamity of all time. And we have accomplished absolutely nothing at all.

WORLD WAR ONE VET

Monday's editorial listing three choices in Viet Nam is too true. Our current "appeasement" tactics are a flop. I favor a note telling them the big bomb will be dropped 24 hours later unless they back down — and then use it. We might better fight World War III now than later when the 700,000,000 Chinese may become unbeatable. Viet Nam has been stalled long enough. We get nowhere. We've let Red China get more and more powerful. Let's end it.

H. H. P.

On Monday's three choices in Viet Nam: I vote for coming home right now. We have no support, no allies and no assistance. Why should one nation fight the battles and die for three billion?

EX-LIEUTENANT

It is time that the American people are told exactly why we are in Viet Nam and what the stakes are. I've read no clear-cut explanation and doubt that there is one. One can find conflicting statements on nearly any issue about the struggle in Viet Nam.

Most of us want to feel we can justify back our country in any of its efforts and be proud to do so. Most of us would also like to know what we are backing and why. We should definitely decide on one of the programs referred to, but before we can make a sane decision we should have the whole truth and definite, morally right reasons for what we are doing.

D. W. E.

That editorial with the three Viet Nam choices is right. I favor coming home. Some say "we'll lose face." We haven't any to lose, anymore. The worldwide chant is: "Yank Go Home." Let's go home from Viet Nam.

B. G. G.

Drop the Big Bomb and find out the truth. Why wait until we've killed several hundred thousand fine, clean, courageous American boys? If World War III results, we'll have a lot of allies which we don't have now.

JETTY

It seems a shame that we have to have a war every few years. It's too bad, in a country where we probably have a million people better qualified for the job than the last five Democratic presidents, that just once in a hundred years the Democrats couldn't pick someone who was not a warmonger.

Wilson's war cost us 118,116 lives, Roosevelt's War 465,239; Truman's war 54,246; and for everyone killed 22 were wounded. Eisenhower got the boys out of Korea and Johnson put them back in Viet Nam.

When 95 per cent of all casualties are under 25 years of age and 45 per cent are under 12, it is no wonder we have so much juvenile delinquency when all our young boys can look forward to it to be sent to some jungle and get killed so some Democrat can be a war president.

WAR WEARY

The Viet Cong enemy requires daily 500 tons of supplies from North Viet Nam. Some 800 enemy trucks and thousands of porters and sampans deliver these supplies via land and sea. The enemy now enjoys Washington-dictated sanctuaries; one is around Hanoi with a 30-mile radius; another is around Haiphong with a 10-mile radius.

The Washington-dictated war objective remains "restrained harassment" until the enemy agrees to unconditional discussions. This objective could be achieved, according to Air Force Chief of Staff General McConnell, "virtually overnight" if present restrictions on air and seapower were lifted: this is the only quick and humane way.

CITIZENS FOREIGN AID COMMITTEE
WASHINGTON, D. C.

How does the interest increase on Savings Bonds affect the older bonds which I own? What happens to them?

Y. S.

REPLY

Outstanding E and H Bonds purchased prior to Dec. 1, 1965, will earn 4 1/10 of one per cent more interest for the remaining period to next maturity, starting with the first interest period of five months or more which begins on or after Dec. 1, 1965.

Reviewing Other Editorial Pages

Infinite Wisdom

The Digest of World Reading

Two six-year-olds were having a discussion. "You know," said Cynthia, "you have to have a man to have a baby."

"You do!" exclaimed Amanda. "Why?"

"Well," Cynthia reasoned, "somebody has to pay for everything."

Tax Dilemma

The Oklahoman

Taxes are as much a part of the individual's living costs as they are the corporation's costs of doing business. Therefore it's a passing strange that the government should be telling both personal and corporate income taxpayers that the way to curb their rising living costs is to raise their taxes. For higher taxes plainly mean higher living costs in the case of the individual and higher costs of doing business in the case of the corporate taxpayer.

The argument favored by the government's economists is that higher taxes will re-

ers, and editors long to have been cognizant of what is fair and proper in connection with criminal cases.

We are encouraged by a statement by New Jersey Superior Court Judge W. Orvil Schackley denying a change of venue in a murder trial after the defense attempted to show that publicity surrounding the case had denied the defendants a fair trial.

"Saturation of homes with news is part of an era in which we live. Along with the saturation comes enlightenment for people, enabling them to make a judgment of events. The mere fact that people are informed cannot be construed to mean that they cannot make a fair and impartial determination of guilt or innocence of anyone accused of a crime."

Two Adrift 36 Hours Said Okay

TWO RIVERS, Wis. (AP)—Two Milwaukee area men who drifted for nearly 36 hours in their disabled outboard motorboat on choppy, fog-shrouded Lake Michigan made shore safely Tuesday seven miles north of Two Rivers.

The two men, suffering from exposure but later reported in good condition at the Two Rivers Memorial Hospital, were Larry Pagenkopf, 46, of West Allis and Charles Rocheleau, 27, of Hales Corners.

They drifted ashore between 5:30 and 6 a.m. yesterday one mile north of Point Beach State Forest, knocked on the door of several homes before getting a response from Thomas Le-Clair, 34, a commercial fisherman. He gave them coffee, notified the police and Coast Guard and drove them to the hospital. "I thought the man had wings and a halo," said Rocheleau.

Pagenkopf and Rocheleau set out Sunday morning in Pagenkopf's 18-foot outboard motorboat, the "R-Bay-Bee," powered by a 90-horsepower engine, for a trip across Lake Michigan. They made the crossing in three hours, had lunch at Whitehall on White Lake, and started the return trip for Milwaukee at 2:45 p.m. Soon they encountered rain and dense fog.

NO GAS
Early Sunday evening they ran out of gas. Huddled under a canvas shelter in the bow, they broke up wooden water skis and built a small fire in the bottom of the boat. They had a few sandwiches, a candy bar and a little coffee.

Pagenkopf, a diabetic, worried because he had no insulin.

All day Monday and throughout Monday night, they continued to drift in dense fog. Water broke over the sides of the boat and they bailed.

Shortly after dawn they saw clay banks along the shore and finally drifted on a sand bar.

Denies Killing Boy, 2, in State

TOLEDO (AP)—Alberto Sanchez pleaded innocent Tuesday to charges of second degree murder in the death of two-year-old Eddie Montalvo. Sanchez was arraigned in Lucas County Common Pleas Court.

Eddie was the son of Miss Carolina Montalvo, 20, a friend of Sanchez. The boy's body was found stuffed into an outhouse on a deserted farm in Monroe County, Mich.

Since his arrest in Texas Feb. 8, Sanchez has been in jail in lieu of \$10,000 bond.

Alcoholism Said Among Top U.S. Health Problems

WASHINGTON (AP)—The Health, Education and Welfare Department ranks alcoholism with cancer, heart disease and mental illness as one of the nation's four major health problems.

This was revealed in testimony today before a House Appropriations subcommittee by officials backing a \$7-million 1967 budget request for programs on alcoholism.

They said there are nearly 5 million alcoholics in the United States, with 200,000 new cases each year. About 2 million of these are job holders.

Job Corps Aims at Crisis Spots

WASHINGTON (AP) — The Neighborhood Youth Corps, one of President Johnson's leading weapons in the war against teen-age lawlessness, is beefing up its summer programs in potential big city trouble spots.

To do it, it's cutting back some programs elsewhere.

Officials indicated in interviews today that projects in some predominantly Negro, low-income areas such as Watts and Harlem will be increased by 50 per cent or more.

Over-all plans still are tentative, but the Job Corps expects to take 190,000 teen-agers off the streets this summer and put them to work — 50,000 more than a year ago.

PRESIDENTIAL BOOST

The program was given a presidential boost last week when Johnson ordered the corps to extend its summer program to an additional 25,000 boys and girls as part of the government's youth opportunity program.

But getting more spots to fill won't solve all the problems, sources said. For example, at the time of the Watts riots in Los Angeles last summer, more than 1,000 jobs were authorized but unfilled.

"Part of the program is getting them filled," said one Job Corps aide. This summer Job Corps officials have arranged transportation to take the Watts youths to and from work — a problem many of them cannot cope with in the sprawling Los Angeles area.

Despite the unfilled Job Corps quota in Watts last summer, it has been classified as a potential crisis spot and will be given more Job Corps attention.

More prosperous areas can expect smaller job authorizations this summer. Job Corps Director Jack Howard said the more than 700 youth projects across the nation have been surveyed since January and expect smaller projects to provide more funds for the massive summer program. The survey was known informally as "Operation Recapture."

Howard acknowledged that many communities have complained about the cutbacks in their year-round programs but added, "We're not firing any kids — just lowering the ceiling."

It's part of the Job Corps drive, said an aide, "to reach deep into the bowels of poverty."

to find those kids who haven't chance to work for \$1.25 hourly in jobs such as clerk-typists, maintenance men and hospital orderlies. The government pays 90 per cent of their salaries.

The program, authorized by the 1964 Economic Opportunity Act, began operating in January 1965.

Strike Likely at NY Papers

NEW YORK (AP) — Bertram A. Powers, president of New York Typographical Local 6, announced a breakdown in contract negotiations today and expressed the opinion that three merging newspapers would be unable to publish next Monday as scheduled.

Asked if the breakdown in the talks meant a strike against the new corporation on its first day of scheduled publication, Powers said:

"There'll be no composing room."

No publisher representative was available for comment at the office of the Newspaper Publishers Association of New York City, where Powers reported to newsmen.

The newspapers, planning to merge as the Herald Tribune, Journal-American and World-Telegram & Sun.

Powers talked with newsmen following a closed conference with the printer chapel chairmen of the three newspapers.

He reported to the chapel chairmen after an eight-hour session with publisher representatives.

He told the newsmen that efforts to reach agreement on a contract broke down over the union's key demand for additional severance pay for printers who lose their jobs in the merger.

The printers' current contract provides for three weeks severance pay.

Pauling Suit Against Editor Is Dismissed

NEW YORK (UPI) — State Supreme Court Justice Samuel J. Silverman yesterday threw out Nobel Prize winner Linus Pauling's \$1-million libel suit against William F. Buckley Jr., editor of the magazine National Review.

Pauling had based his suit on two articles in the National Review, one of which had referred to him as a "fellow traveler."

The six-week trial put in direct confrontation two of the country's leading exponents of the liberal and conservative viewpoints.

Pauling has been awarded Nobel Prizes for biochemistry and for peace. Buckley ran for mayor of New York City on the Conservative party ticket in 1965.

Silverman based his decision on a U. S. Supreme Court ruling which held that public officials are limited in recovering damages for libel unless they can prove actual malice or reckless disregard of the truth. In effect, he extended the ruling to cover public figures as well as public officials.

PUBLIC FIGURE

"It is clear that, if any private citizen has, by his conduct, made himself a public figure engaged voluntarily in public discussion of matters of grave public concern and controversy, Dr. Pauling has done so," Silverman said in his 13-page decision.

Doctor Warns of Abuses

Use of Wonder Drugs on Children Hit

NEW YORK (AP) — A noted pediatrician who pioneered in the treatment of "blue-babies" said today some doctors are abusing the use of antibiotics for children.

"There is no denying that the introduction of wonder drugs has changed the practice of medicine," Dr. Willis J. Potts said in an interview. "But there are too many instances where the administration of such drugs to children is being abused."

Noting that a patient may build up an immunity to wonder drugs, he advised that they should be used sparingly — or else, you will destroy their usefulness.

Dr. Potts, a native of Sheboygan, Wis., who is now retired, made medical history 20 years ago when he performed an operation on a 21-month-old "blue-baby" girl that allowed more blood to flow from her heart to the lungs.

NOW A STUDENT

The girl, Diane Schnell of

Westbury, N.Y., is an art student today at the New York Institute of Technology.

"She was as blue as a blotter when I first saw her," the doctor recalled. "Look at her today. She's normal and would have died in a few weeks if we hadn't operated on her."

Miss Schnell plans to attend the launching this week of a new book by Dr. Potts entitled "Your Wonderful Baby."

"I answer most of the questions anxious mothers usually ask about their children," Potts said. "And I try and show them how foolish it is in many cases to get all worked up and call the doctor in the middle of the night when the child may be suffering just some everyday ailment that will go away with proper care at home."

On the subject of wonder drugs, Dr. Potts said they "don't do one bit of good in battling a common cold or a minor virus. The physician should make certain before prescribing

such drugs that the case warrants it."

Dr. Potts was also critical of doctors and parents who "lie to children about what to expect when they have to undergo surgery." He said a child beyond the age of 3 or 4 should be told what to expect.

For 3 Animals

Model's Mauler Traded

WINFIELD, W. Va. (AP) — The West Virginia Zoo has traded a monkey, a bear and a baby llama for the lion which mauled a model at the International Automobile Show in New York.

"He is not a mean animal," said Zoo Director Bob Hatfield. "I think he is going to make a good exhibit."

Hatfield said the 225-pound lion was battered away from the Tote-Em-In Zoo, Wilmington, N.C.

The model, Nell Thesdale, 22, underwent plastic surgery after the lion with which she had posed scratched and bit her April 8.

Moors Trial Lawyer's Kin Is Slain

MANCHESTER, England (AP) — Police today sought the motive for the slaying of the sister-in-law of a defense lawyer in Britain's murder-on-the-moors trial.

Rachel Hellpern, 51, was found stabbed Tuesday night in a dress shop she managed in a Manchester suburb, only 30 miles from the courtroom in Chester where two persons are on trial for the grisly murders that horrified the nation.

There was no apparent connection between Mrs. Hellpern's death and the moors murders, but the case has aroused strong feeling in the whole Manchester area and sparked police fears of reprisals.

The dead woman's brother-in-law, Godfrey Hellpern, is defending Myra Hindley, a 23-year-old stenographer who is charged with her lover, Ian Brady, 28, of murdering two children and a teen-ager for thrills. Both have pleaded innocent.

CONTAINED MONEY

Mrs. Hellpern's fully clothed body was discovered just before midnight. The cash register of her shop was open but still contained money. Detectives said they could not be certain what, if anything, was stolen. If robbery was the motive, investigators said the haul was small for business was slack after Easter.

In Chester, Brady and Miss Hindley were brought to court in a closed police van under heavy guard this morning as the trial went into its second day. A small crowd stood waiting in a chill rain.

Inside the courtroom, located in an ancient castle, the two defendants are protected by a bulletproof glass screen around the prisoners' dock.

Battered Liner Sails Again

NEW YORK (AP) — The luxury liner Michelangelo — battered last week in a North Atlantic storm — sets sail again today with 870 passengers in another transatlantic voyage.

Temporary repairs were made on the 49,000-ton vessel after she docked here Saturday on a trip from Genoa, Italy, with a damaged superstructure. Final repairs are to be made when the Michelangelo reaches Genoa on the return trip.

Three persons died aboard the ship last week and 12 others were injured when gigantic waves pounded the liner.

'Little Black Sambo'

Wanted off Shelves

COLORADO SPRINGS, Colo. (AP) — The Colorado Springs chapter of the National Association for the Advancement of Colored People wants the children's classic, "Little Black Sambo," taken from the shelves of the nation's school libraries.

The chapter will introduce a resolution to the effect at the regional convention of the NAACP in Topeka, Kan., this month.

NOW A LIGHTWEIGHT — Wesley Cox, 19-month-old resident of Denver, Colo., sheds a fearful tear or two as the barber wraps a towel around his neck before trimming off

the thick curls. Then, with curls gone and tears over, Wesley looks a bit pensive under his brand new haircut.

Eliminating Night Work Helps Teachers, Students

By LESLIE J. NASON, Ed. D.

A new teacher often is overwhelmed by such things as overcrowded classrooms, apathetic students, playground duties and a mountain of student homework to be checked.

She gets little help from her older colleagues in this respect, because many experienced teachers have continued year after year working all day and grading papers at night.

The supervisor, or an efficiency expert, should help each teacher, new or old, devise schemes of giving the student an immediate appraisal of much of the work done, thus eliminating unnecessary night work.

This also helps the student. It is the effort put forth by the student in the process that results in learning, not the time spent by the teachers.

If the teacher carries papers home, grades them, hands them back the next day, the learning process has been interrupted for so long a time as to make the whole procedure futile.

The student needs the reinforcement of knowing that he was correct. But the reinforcement must be administered at the time of the effort, not 24 hours later.

If the student fails to understand, his thinking should be straightened out on the spot. Allowing incorrect thinking to exist for any period of time builds a tolerance for hazy thinking that becomes a roadblock to learning.

Homework should be assessed at the beginning of the next day's class period—before further development is made in the topic. A three-minute test, corrected immediately, does much to straighten out a student's thinking.

At the same time, it can give the teacher a clearer picture of the effectiveness of his teaching procedures.

Urges Cavanagh

'Recognize N. Viet'

DETROIT (UPI) — Mayor Jerome P. Cavanagh, pushing his candidacy for the United States yesterday to recognize North Vietnam, urged the United States to help Red China get a seat on the United Nations Security Council.

Cavanagh called for a cease-fire in South Viet Nam, creation of political parties under U.S. prodding if necessary, a free election and U.S. support of whatever government is chosen, even if it is dominated by the Viet Cong.

He likened his position to that of former President John F. Kennedy and said the U.S. should help institute social reforms in South Viet Nam even if the country chooses a Communist government.

"This is not the time to disarm the American military or withdraw from our base abroad," Cavanagh said in a position paper distributed at a news conference.

"But we must recast our thinking about the size of our commitment and the strength of the peril we face. We must offer mainland China a seat among the great powers on the United Nations Security Council."

Cavanagh said his position was more realistic than that of

former Gov. G. Mennen Williams, Cavanagh's opponent in the Democratic primary race for the Senate.

"He supports President Johnson's policy," Cavanagh

Private Eyes Introduced in Store Mix-Up

DETROIT (AP) — Things at a discount department store have reached the stage where you can't tell the detectives from the shoplifters with a scorecard.

Detroit police said the store hired several private police after being plagued by petty thefts.

Tuesday night, one of the private policemen saw a woman walking out of the store wearing a new pair of shoes he had seen her put on earlier. He grabbed her and called police, who discovered the woman was another secret agent from the same agency as the man who had nabbed her.

The woman said she put on her new shoes because her feet got tired as she walked about the store.

said of Williams. "I have indicated what I support. If that makes me opposite to Johnson's position, so be it."

The mayor said he did not think U.S. forces should pull out of Viet Nam. But he said the war should take a back seat to the war on poverty and other domestic projects.

Cavanagh said the South Viet Nam cease-fire should be negotiated among the South Viet Nam government, North Viet Nam and the Viet Cong.

He said recognition of North Viet Nam would be no more damaging to the United States than its recognition of Yugoslavia.

Williams said he saw "nothing of substance new in the mayor's statement."

Boy, 6, Lands Uninjured in Fall From Bridge

CINCINNATI, Ohio (AP) — "Nothing hurts me! Nothing hurts me!" exclaimed Timothy Weinberg, 6, who landed on his feet after falling 40 feet from a bridge.

Timothy was trying to walk a railing on the bridge when he fell off Tuesday police reported. He was treated at a hospital for a scratch of the forehead and a slight abrasion on his left arm.

Tobacco Exec Blasts Attacks

Health of the Industry Said 'Never Better'

RICHMOND, Va. (AP) — The health of the tobacco industry has never been better, says a tobacco company official.

But "amazingly it is under more vicious and more unwarranted attack than ever before in its history," the official said.

Speaking at the annual meeting of the Virginia State Chamber of Commerce, Addison Y. Yeaman said Tuesday night there are "forces in this country today who puritanically would deprive us of our freedom of choice to smoke or not to smoke."

Yeaman, vice president and general counsel of Brown & Williamson Tobacco Corp., said, "The thesis seems to be that anything you enjoy is either sinful or fatal or both."

'RELATED TO HEALTH'

The burden of the attack, he said, is that the cigarette is "in some undisclosed and unknown way casually related to human health."

"Who has the greatest possible interest in the truth, whatever the truth may be, about tobacco and human health?" he asked.

"We do," he said "It is our livelihood, our lives and our pride."

Dr. Wayne G. Brandstadt Says:

Itching Is Traced to a Modern Hazard

A severe itching eruption covering most of the body appeared suddenly in five members of a family.

After considerable sleuthing, a doctor found that the mother had washed a pair of glass fiber curtains in a machine along with the family underwear.

BRANDSTADT

Minute bits of glass fiber thereby became impregnated in the family's clothing and produced the itch which is said to be worse than that of woolen undergarments.

That is what might be called learning about modern hazards the hard way.

This should serve as a warning not to go and do likewise.

Q — Is it possible to learn while sleeping by means of records?

A — Since the first reports of a foreign language and improve

sleep learning were published, commercial interests have promoted the sale of a variety of records for this purpose.

Although the process has its enthusiasts, most scientists believe that it is impractical.

Any learning that is accomplished by this means occurs only when the subject is in a drowsy or half-waking state. Since this is true, authorities believe that the subject may suffer some of the effects of deprivation of deep sleep.

One observer states that, before a subject can profit from sleep learning, he must first undergo a course of hypnotic suggestion.

MOST DETERMINED

This would eliminate all but the most determined candidates.

The method has been used along with hypnosis to help break children of such habits as bed-wetting and nail biting but with questionable success.

It has also been used to teach

the vocabulary but, if the instruction gets mixed up with the dream state that often accompanies dropping off to sleep, what is learned may be a confused jumble of fact and fancy.

Some persons are slow learners and others learn quickly by the conventional methods.

Q — I read recently that when sauerkraut is cooked in an aluminum utensil, aluminum chloride is formed and that this causes poisoning. Is this true?

A — False. Aluminum exposed to the air forms a thin layer of aluminum oxide which is not only harmless in itself but does not dissolve when exposed to sauerkraut or any other food.

If this were not so there would be thousands of deaths from this cause every day.

Do FALSE TEETH

Rock, Slide or Slip?

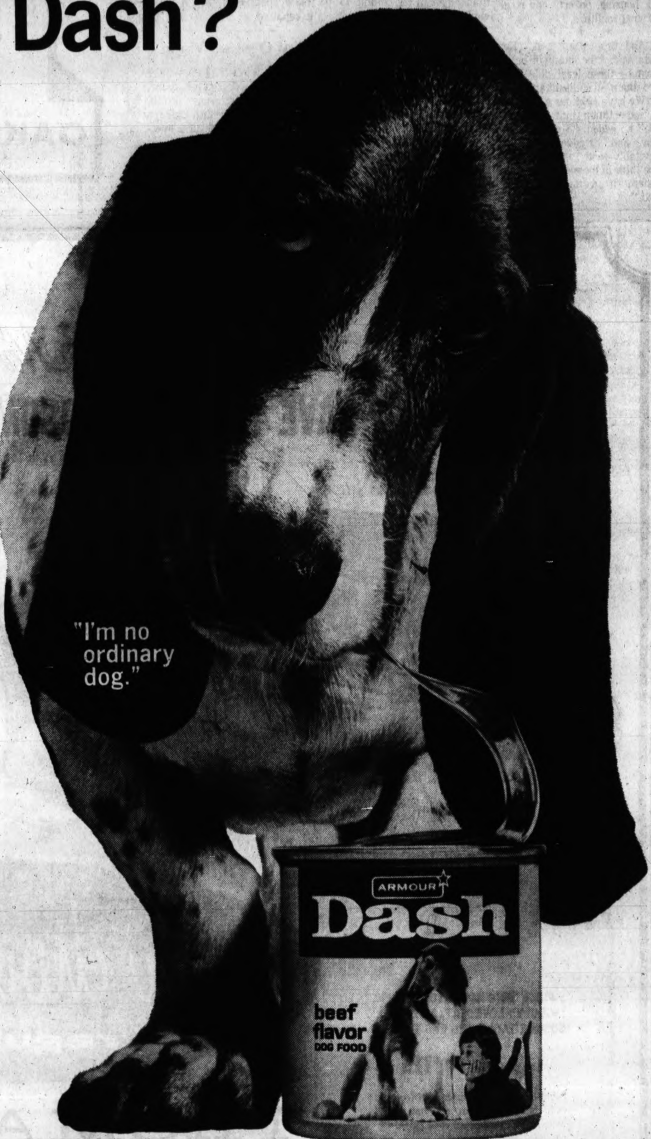

PASTENTH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. PASTENTH is tasteless (non-salty). Does not sour. Checks "plate odor breath." Get PASTENTH at drug counters everywhere.

He attempted to grab Miss Minnie Newman's purse; they struggled; she fell to the ground, breaking a finger.

The thief helped Miss Newman to her feet, handed over the parcels she dropped, then he

(AP) — The purse snatcher fled empty-handed but he never forgot his manners.

Ordinary dog opens new zip-top Dash?

New DASH is the first and only dog food in an aluminum zip-top can. So easy to open even this dog can do it. And, for variety, new DASH now comes in three distinctive flavors—beef, chicken, liver. Each is a complete balanced diet, with 30% more meat. Dogs love it. New zip-top DASH—from Armour, the meat people.

CENTER OF ATTENTION — President Johnson was the center of attention at a White House reception for hundreds of Democratic women yesterday. The gathering filled several rooms and overflowed on the south lawn. The women were winding up a two-day campaign. AP Photos

Bobby Lashes LBJ for Cuts Dem Women Mob LBJ at Big D.C. Reception

KERHONKSON, N.Y. (AP) — Sen. Robert F. Kennedy, D-N.Y., has criticized the Johnson administration for cutting some domestic programs because of the war in Viet Nam.

In a speech Tuesday night at a human relations award dinner, the senator took exception to cuts in education funds for disadvantaged children, college aid, housing, poverty and neighborhood facilities.

“And time after time,” Kennedy said, “the cuts will be felt most by those least able to afford them—the disadvantaged...”

“We have held out a hope and an expectation that we would act,” he added. “Those who are poor and disadvantaged will inevitably and understandably lose faith in us and in the entire system if we fail to make good.”

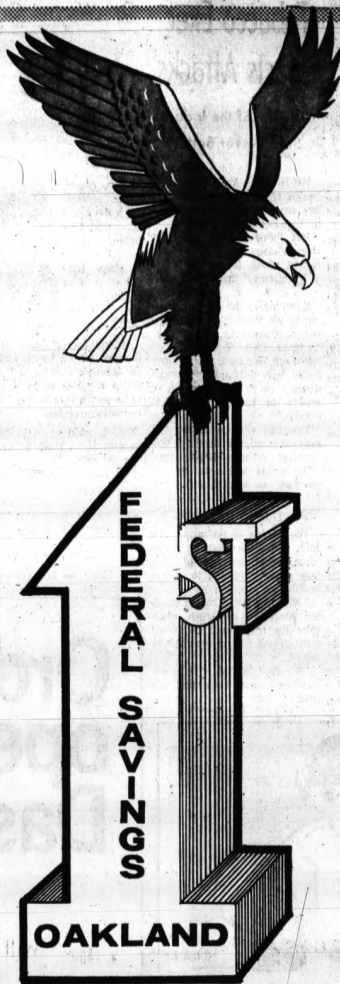

But one woman, caught in the squealing, pushing crush when the President entered the room, remarked: “My husband’s never going to believe I was at a convention. You should see my black and blue marks.”

President Johnson, who visited each of the three shifts for about 10 minutes each, found himself surrounded by women trying to get close to the man of their minute. But one woman, seeing the sharp elbows ahead of her, turned to kiss the presidential beanie instead.

Antique furnishings also fell before the surge. A bust of Henry Clay was pushed over and taken to safety by aides. An Empire torchere mounted on a mahogany base and nearly 150 years old was broken. White House spokesmen said it could be repaired.

First Overseas Visitor

SOUTH HAVEN (AP) — For the second consecutive year, the freighter Caroline Smith, owned by the Swedish-Chicago Line, has become the first overseas visitor of the season at South Haven. The vessel from Stockholm, Sweden, docked Tuesday at South Haven with a cargo of paper pulp.

A HOUSE BECOMES A HOME...

When you put PEOPLE in it!

Houses are put together with wood and brick and steel and concrete. They're full of nails and wires and pipes... all these things create a "house."

The metamorphosis occurs the moment you put people inside... it is with a warm feeling of satisfaction we are able to put "people"... like you and the neighbors around you, into houses to make them "homes."

OPEN MONDAY, THURSDAY, FRIDAY 'TIL 9

Despite a dismal April drizzle crowds thronged All Saints Episcopal Church Tuesday for the opening of its annual antique show. Dealers from throughout the state have numerous eye-catching and comprehensive exhibits arranged for the popular show which continues through Thursday from 11 a.m. to 10 p.m.

Mrs. William H. Heller, East Hamond Lake Drive, was bubbling with good-natured curiosity when asked to pose with these peculiar objects. To her laughing, "What on earth is it?" photographer Noble teased, "See tomorrow's Pontiac Press." It's a cigar mold, Mrs. Heller, from the shop of Wanda MacKinnon of Royal Oak.

Mrs. Charles E. Sturm of Chippewa Road, was taken with this flashing red and yellow railroad lantern, exhibited by H. Thayer Fletcher of Flint. Mrs. Sturm is the wife of the associate rector at All Saints Episcopal Church.

Can you identify these? They're kitchen items from the Detroit antique shop of former Pontiac resident Leonard Berry. In the center is a potato boiler basket which dates to the late 18th century. It is flanked by late 1800 utensils, a wire trivet (left) and a pot scrubber—an "1890 chore boy," as one bemused antique buff commented.

MSU Alums Will Dance

Jaycee Group Sets Date of Luncheon

A luncheon is scheduled Saturday by the Waterford Jaycee Auxiliary at Silverlake School for the state auxiliary project competition. Mrs. Richard Gilchrist is the state chairman.

Mrs. John Radenbaugh of Elinore Drive opened her home for the Monday meeting where Mrs. Calvin Kerr was a guest. Assisting Mrs. Radenbaugh were Mrs. Gary Krifeld and Mrs. John Trulu.

Announcements were made of the May 4-7 convention to be held in Lansing and the mother-daughter banquet on May 21 at Ted's Restaurant.

The auxiliary has contributed funds for equipment for the new adolescent ward at Pontiac State Hospital.

Mrs. Tim Patterson was named chairman of the story hour program that will be held during the summer months at the Waterford Township Library.

Her Yawn Upsets Them

By ABIGAIL VAN BUREN
DEAR ABBY: My husband and I have a puzzling problem. It's my mother and her noisy yawn. She can yawn any time

of night or day, and when she does, she gives out with a LOUD, exhalant kind of sigh that sounds like "HA...AAAAA...AAAAHH!" It just sends cold chills thru my body and sets my husband's nerves on edge. Mother probably doesn't even realize she is doing this. If I said something to her about it do you think it would hurt her feelings? And do you think this is something she could control if she knew about it?

Mother lives with us so it isn't something we can overlook temporarily.

COLD CHILLS

DEAR COLD: By all means, mention it. But when calling one's attention to an annoying habit (especially when the offender is one's own mother) the utmost in diplomacy is required.

And if she has a sense of humor, you are home free.

DEAR ABBY: What do you think of a 44-year-old man who meets his girl (she is 37) on the street corners because he's afraid if someone sees his car stop in front of her house they might tell his mother?

I have put up with this for 10 years and I am sick of it. Bud's mother has a regular detective ring working for her to find out every move her son makes. If I want to call Bud at home I have to ask my brother or some other man to ask for him because his mother won't call him to the phone if it's a woman's voice. He is scared to death of her. He's an only son and she's a widow. It's not that she doesn't like me. She's never even MET me. As I understand it, there is a lot of money there and Bud will get it all when his mother dies.

But she's not yet 65 and is healthy as a horse. I love him, Abby, but I can't take much more of this hiding. Any ideas?

BUDDY'S GIRL

DEAR GIRL: A 44-year-old "boy" who meets his girl on street corners has a lot of

Tell Mother With Tact

Sorority to Host State Unit

Beta Mu chapter of Epsilon Sigma Alpha sorority will host the 16th annual state convention, Friday through Sunday, in the Kingsley Inn. Cohosts are Alpha Alpha and Beta Chi chapters, both of Pontiac.

Officers for 1966-67 were elected Tuesday in the home of Mrs. Lawrence Hartman on Crosby Lake Road, Sterling Township.

Mrs. David Witt is incoming president; Mrs. Wayne Francioli, vice president; Mrs. Fred Vollrath, recording secretary; Mrs. Hartman, corresponding secretary and Mrs. Joseph Mendoza, treasurer.

A dinner-dance for members and husbands at the Elks temple in May will close the chapter's social events for the season.

Beta Chi Chapter

Mrs. James Vincent installed officers for Beta Chi chapter in a candlelight ceremony, Monday at the home of Mrs. Donald Murphy on Locklin Drive, West Bloomfield Township.

The incoming president, Mrs. James Stone, named committee heads: Mrs. Robert Boli, Mrs. Louie Scharr, Mrs. Fred Mueller, Mrs. Jean Safford, Mrs. Vincent and Mrs. Lacey Schlefer.

Others are Mrs. Murphy, Mrs. Ralph Allen, Mrs. Rudy Mazza, Mrs. Rex Parker, Mrs. James George, Mrs. William Leigh, Mrs. Dale Girdler and Mrs. John Crouse.

Mrs. Harry Rhodes and Mrs. Carl Rose, head the dance and bridge committees respectively.

Mrs. Gordon Carlson who is moving to Jackson was presented with her 10-year service pin and a gift from the group.

Assisting the hostess with refreshments were Mrs. Schlefer, Mrs. Rhodes and Mrs. Safford.

Dots and Clocks Mark His Socks

Men's socks are looking up and moving out of the era of solid black.

Patterned socks are coming back. Muted dots, clocks, heringbones, stripes and other subtle patterns are among new sock patterns for spring.

But don't expect to see any on your banker or stock broker. Their dignified business uniform still calls for dark socks.

Ever combine tomato juice and clam juice for a cocktail? Chill well!

Open House Slated

Mrs. Elwyn Tripp, president of the Northern Oakland County Girl Scout Council will officially open the newly-leased headquarters in the Tel-Huron Shopping Center at a ribbon-cutting ceremony at noon on April 29.

Four scouts, one from each level of Girl Scouting, will conduct an opening flag ceremony.

There will be an open house for the public from noon until 7 p.m. both Friday and Saturday.

Prior to the ribbon-cutting, there will be a buffet brunch in Holiday Inn for Girl Scout board members and guests.

Girl Scout adults with lengthy tenure in the movement will be honored during the open house.

Easy on Thumbs

Save your fingers when pushing in thumb tacks by using a thimble.

Don't Let Stain Dry on Clothes

When you accidentally put a colored garment in the washer with white clothes and it fades, never dry the stained clothes without removing the stain, as drying sets the dye.

Use a dye remover and follow directions on package.

Wash the tips from your decorating set as soon as you have used them so the frosting mixture won't clog them.

PTA Heads Gather for Breakfast

The annual "Presidents' Breakfast," given by the Pontiac Council PTA took place Tuesday morning in the First Congregational Church.

Some 80 new presidents, principals and past presidents were honored.

A musical program was presented by the 9th grade choir of Jefferson Junior High School under the direction of Phillip Carey.

Seated at the guests table were Gerald White, Victor Lindquist, William Lacy, Richard Fell, Mrs. William Wright, Mrs. Charles Neidrett and Mrs. William White.

Besides Mrs. White, other committee members who worked on the breakfast included Mrs. Benjamin Shelton, Mrs. Vernon McFarland, Mrs. Thomas Bartle and Mrs. Robert Anderson.

Pontiac Press Photo

Booker T. Yancey, assistant principal at Whittier School, chats with Mrs. Charles Rounds (left) of South Astor Court and Mrs. Barton Schmucker of Rosewood Avenue at

the annual Presidents' Breakfast sponsored by the Pontiac PTA Council Tuesday in the First Congregational Church.

Polly's Pointers

Use Damp Cloth

POLLY'S PROBLEM

DEAR POLLY—I crocheted a jumper for a 4-year-old girl. The pattern called for a bead elastic at the waistline and no one seems to know what a bead elastic is. I do hope you or some of the readers can help me as I do not know if this is to be crocheted or if it is an elastic that one buys.

DEAR POLLY—If you should happen to forget to remove those permanently pressed clothes from the dryer and find they are wrinkled when the dryer shuts off, simply dampen a facecloth or small towel, roll it up making them too tight in place in the dryer with the wrinkled clothes, run the dryer for about 10 minutes and the clothes come out without a wrinkle.—ANNE

DEAR POLLY—I am a semi-invalid and must find easier ways to do things. When my tableware is to be put away it is bundled in napkins and placed in an oblong dish with a cover that can be kept on the table.

To bundle, place a napkin flat and the knife crosswise about two inches from a corner, fold the small corner and lay the fork on top to prevent scarring and then fold the corner again for the spoon before tightly rolling the rest of the napkin.

Four items are ready to be passed or placed at each plate, which saves time, confusion and steps.—MRS. E. S. B.

DEAR POLLY—To keep books from looking messy by being shoved back on a bookshelf, I put the rolls from paper towels, etc. behind the books.—DANILIE

DEAR POLLY—I find that a stenographer's notebook is an excellent reminder as to whether or not I have answered letters. At the top of the perpendicular line dividing the page I put the month and to the left of the line I list IN mail, and to the right OUT.

This way I can always check when I have received a letter and the date I answered it if I have done so. If not, it is a reminder not to forget.—GRACE

Local Couple Honeymoons in Carribean

Seaman I.C. and Mrs. Wayne Norbert Hanson (Lanie Marie Conley) left for a honeymoon in the Virgin Islands after recent vows in the San Juan Naval Base Chapel, Puerto Rico.

Reception in the Flamingo Hotel followed the ceremony performed by Chaplain Robert Schuch.

Parents of the couple are the Fred Conleys of Lakeview Road, Oxford Township and the Norbert Hansons of Fernloch Drive, also in Oxford Township.

Their attendants were Maria J. Cantino of Rio Piedras, Puerto Rico, and Robert Langbehn of Bethpage, N.Y.

Mrs. William White of Rapid Street (left) and Mrs. Robert C. Anderson of Silver Side Avenue, decorating and hospitality chairmen, respectively, check final details for the PTA council breakfast.

SEW SIMPLE By Eunice Farmer

DEAR EUNICE: I don't know where to start the neckline zipper at the back of my dress or blouse. I can't seem to get the facing turned under the neck edge without a thick lumpy fold of excess material, and there's never a place for a hook and eye. Mrs. J. S.

DEAR MRS. J. S.: When placing your neckline zipper in position keep the key or tab of the zipper at least one-half inch below the SEAMLINE, or in other words, about 1 1/4 inches from the cut edge of the garment. I always prefer a lapped-type zipper to one that has each side meeting at the center of the zipper.

Turn each end of the facing down over the zipper tape, mitering the ends. Cut out any excess fabric from this area before whipping the ends down to the zipper tape. You will find ample room for the hook and eye above the tab of the zipper if you follow these instructions.

TAILOR TRIX WINNER

Mrs. John Rohr, Lafayette, Ind., wins a new Tailor Trix Pressing Board for the following ideas.

"I do alterations at home, so I have a lot of ripping to do. I keep a rubber and metal suede brush handy to remove all the little threads that are hard to pull out from a ripped seam. Use the side of the brush best suitable to your fabric.

"Another invaluable aid: Fold a large piece of wax paper several times until you have a six- or seven-inch square pad. This works perfectly! Just run over it with your iron and it will keep the iron from sticking."

DEAR EUNICE: So many of the new patterns have gathers around the entire waistline instead of darts. The last one I have doesn't even have a side seam and yet the dress is a sheath-style dress. I am just plain not thin enough for even this amount of gathering. Is there anything I can do to make the dress less bulky at the waist? Mrs. C. B.

DEAR MRS. C. B.: You can always remark your pattern, (especially the skirt back) and put the back darts in your skirt. Then you can add a shaped dart at the side tapering it from about one inch at the waistline to nothing seven inches below the waist. This would be the same shape you would have if there were a side seam. Try keeping the ease in the skirt front; it shouldn't be too much and will look very new.

Fitting skirts successfully is easy when you follow my step-by-step instructions in my latest booklet "Your Pattern and You." For your copy, send 25 cents and a long, self-addressed, stamped envelope with your request to Sew Simple, in care of this paper. You'll love the simplified pattern alterations and the many sketches.

PAUL'S SHOE STORE

35 N. Saginaw, Pontiac

We Accept "Michigan-Bankard" Charge Plates!

Sister Theresa of St. Benedict's School beams with pride as she watches two of her students make posters for the Saturday fair. Both Brian Carry of West Iroquois Road

and Chris Browning of Fernberry Drive put their artistic talents to work on colorful posters for the event.

Why Grow Old?

Are you just five or 10 pounds away from a lovely figure? We are so likely to let that many pounds linger on because the situation doesn't seem so terribly drastic. However, that much overweight can make the difference between a truly beautiful silhouette and one which has the stamp of middle age on it. This is the second day of my 9-Day Diet.

It will help if you plan as little social life as possible during this nine days. It seems unappreciative not to eat and enjoy the wonderful food your hostess has prepared for you. If you do accept an invitation during this

short time pass up the items with a high calorie content if you can without being conspicuous. Otherwise, take a small serving.

BE TRUTHFUL

If you are really serious about losing 10 pounds in a hurry, I think the best plan is to just say that you are on a strict diet for nine days. If necessary, you could take your own food to the party. Many persons who have special diets for health reasons do this. I am sure that your friends will forgive you for just nine days of eccentricity.

If you wish, you can add two level teaspoons of butter or margarine and two level teaspoons of sugar to your daily intake without drastically changing the results you obtain. However, make the teaspoon measurements LEVEL, and do not take any other liberties with the menus.

BREAKFAST

One-half grapefruit
One thin dry piece of whole wheat toast
Black coffee

MID MORNING

Glass of skimmed milk or buttermilk

LUNCHEON

One poached egg
One thin dry piece of whole wheat toast
One-half cup broccoli
One glass skimmed milk

DINNER

Two crisp raw carrots
Baked fish (medium portion)
One-half cup green peas
Shredded lettuce salad,
lemon dressing
Fresh fruit cup

At lunch you can substitute any green leafy vegetable for the broccoli if you wish or if it is not available at a restaurant.

If you would like to have my 9-Day Diet booklet which gives you all the menus, send 10 cents and a stamped, self-addressed envelope with your request for it. Address Josephine Lowman in care of The Pontiac Press.

Tomorrow: "Throw Out Your Bulges While Spring Cleaning."

WSU Group Slates Show

Several local women are working on arrangements for the third annual dessert smorgasbord and fashion show of Wayne State University Home Economics Alumni Association.

This takes place May 7 at Crowley's in Detroit.

Mrs. Tom Reese of Orchard Lake is president of the organization.

Joining her in committee work are Mrs. Robert Hague, Mrs. William Ersthaler and Mrs. John Norcia of Birmingham; Mrs. Gerald Frenicks, Pontiac; Mrs. Owen Goodrich, Troy and Mrs. Carl Welt of Farmington.

Annual Fair Is Scheduled

St. Benedict's 10th annual Carnival Capers will be held Saturday from 4 to 8 p.m. in the school on Lynn Street.

St. Gertrude's Auxiliary is sponsoring the gala with proceeds going to the school. Mrs. Thomas Carry and Mrs. Grant Browning are co-chairmen with assistants, Mrs. Robert Einbuser, Mrs. William Tremer, Mrs. August Boucher, Mrs. Frank Weger, Mrs. Louis Fairbrother, Mrs. Herman Steir and Mrs. Lionel Freiberg.

Attractions will include a cake walk, plant room, dig for gold, bowling and a bake sale.

PRINTED PATTERN

One Must Practice Tact

By DR. GEORGE W. CRANE
CASE Y-481: Lois G., aged 20, is the wife of a Navy enlisted man.

"Dr. Crane," she began, "we have two babies and live in a little 4-room cottage near the base here in California. During the fall, my parents visited us for a week."

"They brought us a supply of food and Mother helped with the babies and did my washings while she was here. But the 2nd day after their arrival, my husband's uncle and his wife and 3 daughters dropped in on us unexpectedly."

"They stayed for 5 days, despite our crowded cottage. I wouldn't have minded that so much if they had tried to help with the housework. But they furnished only one meal for the crowd in the entire 5 days, though my husband and I are on such a small budget we can hardly feed ourselves."

"And his son simply sat, smoking cigarettes and drinking black coffee every morning while Mother and I did the work."

"One of their daughters bought a carton of soft drinks but she hid them under the bed so nobody else could have any."

"And her mother brought out their accumulated week's laundry for us to do for her! 'What is wrong with people when they are so selfish and tactless?'"

TACT AND MUSIC
Tact is like skill at the piano keyboard for both must be learned.

Neither one is inherited! And to learn, we need specific problems which we must be assigned and on which we must be graded.

If these relatives who descended on Lois had been unable to play a piano, she would not have held it against them, would she?

For the general public doesn't feel that everybody must be a pianist.

But there is a general opinion that at least by the time we reach adulthood, we should be reasonably tactful.

Alas, thousands of adults remain tactless, selfish and spongers.

And they don't even seem to realize how they appear to other people who have a more cultured training in etiquette.

The usual in-laws of a young couple, struggling to make ends meet while the husband is in military service, will try to help out their budget by buying food or taking the

young couple out to a restaurant meal.

Or they will help around the house and try to relieve the harassed mother of her daily chores.

But some families not only don't teach unselfishness to their children, but actually set daily examples of greedy avariciousness.

This visiting family thus shows a perfect example of "like mother, like daughter," for the daughter hid the soda pop to avoid sharing it!

Imagine the dilemma of this girl's future husband if she later marries?

Which is why you young people better look into the background of your future mate, for good looks can disguise a selfish personality.

So be sure to send for the 200-page "Rating Scale for Sweethearts," enclosing a long stamped, return envelope, plus 20 cents.

It helps you shatter blind infatuation and analyze your sweetheart logically!

(Always write Dr. Crane in care of The Pontiac Press, P.O. Box 100, Saginaw, Mich. 48601. Send 20 cents to cover printing costs when you send for one of his booklets.)

Pancakes and music will be on the agenda at the Douglass Houghton School PTA "Family Fun" night Saturday from 5 to 7 p.m. Charles Gauthier of Sandy Ridge Drive, White Lake Township, practices the drums for the talent portion of the evening while Mrs.

Ted Lewis, Union Lake, who is in charge of the entertainment, hangs a poster. Rhonda Thronsted, also of Union Lake, warms up on the keys. Cochairmen of the event are Mrs. James McCutcheon and Mrs. Joseph Gauthier.

Three Chapters Tell News

Four women were initiated into Xi chapter, Delta Kappa Gamma society at a dinner meeting Tuesday evening in the Haven Hill Lodge.

New members are Mrs. Gordon T. Barr, Mrs. Robert D. Boyer, Mrs. Robert Madden and Mrs. George H. Putnam.

The state convention will take place at Shanty Creek Lodge on May 13-15.

AWARD
On May 18, the group will present an award to the editorial board of Origins, the Pontiac Central High School creative writing magazine.

Mrs. Max Sells was assisted by Mrs. R. H. Kempf and Mrs. Charles Wait for the initiation ceremonies. Hostesses were Florence Gullstrom, Mrs. Walter Greenacre and Myrtle Huntley.

Alpha Beta
Eugenia Keller will assume duties as president of Alpha Gamma chapter, next year.

The election of officers took place at a recent dinner meeting in Greenfield's Restaurant, Birmingham.

Others elected are Mrs. Charles Bessolo, first vice president; Mrs. G. E. Meads, second vice president; Mrs.

Bernard Mousseau and Mrs. R. H. Matson, secretaries and Mrs. Harold Houck, treasurer.

INITIATED

New members initiated at this time were Mrs. Edward Bowen, Mrs. G. C. Dunn, Mrs. C. A. Ellis, Mrs. Theodore Grabman, Mrs. B. A. Hill, Mrs. C. J. Johnson, Mrs. H. P. Martiny, Mrs. R. C. Pulley and Virginia Thurn.

Alpha Beta
Reports were given on the Dorothy Sells Future Teacher Grants in Aid at the Tuesday evening meeting of Alpha Beta chapter, held in the Donelson School.

Applications for the current grants will be received by Mrs. Chester Arnold, Helen Bulla and Jolene Nebeker.

New officers elected at this meeting were Jean Lukins, president; Mary Lu Robertson, first vice president; Mrs. Donald Tick, second vice president; Mrs. Robert Elliott and Mrs. Gordon Earhart.

secretaries; and Mrs. Clara Hubbell parliamentarian.

DELEGATES

Delegates elected to the state convention were Miss Lukins, Mrs. Arnold, Mrs. Gertrude Ely, Mrs. Hubbell and Mrs. Michael Sheridan.

Mrs. O'Dell was hostess for this meeting, assisted by Mrs. Stuart Choate, Miss Bulla and Miss Nebeker.

More Women Insured Today
NEW YORK (UP) - Women own well over \$120 billion in a variety of life insurance policies, the Institute of Life Insurance reports. This is double the amount ten years ago.

Studies by the Life Insurance Agency Management Association indicate that approximately 60 per cent of all adult women own some form of life insurance, the most popular being individually-purchased policies.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Junior Editors Quiz on VIOLIN VARNISH

QUESTION: Did the varnish used by the old-time violin makers really improve their tone?

ANSWER: It is usually agreed that the wonderful violins made in the 1500s to 1700s in the town of Cremona in Italy are the finest ever created.

They possess that remarkable singing tone which seems able to express the performer's inmost feelings—a quality which has led to the description of the violin as the king of instruments.

There has been much discussion as to why these violins are so brilliant and sensitive in tone.

Such makers as the three generations of the Amati family; Antonio Stradivari, the prince of all violin makers; and Strad's close rival, Giuseppe Guarneri, used only the finest of woods in their instruments and worked over them with the most exacting care.

It is generally believed that the varnish used on a violin has an effect on its tone.

When exactly the right varnish is used on wood which has seasoned for exactly the right time, the varnish will penetrate the pores of the wood and preserve its elasticity, that is, its ability to vibrate.

Some think the old makers had a secret varnish recipe which has been lost, but others feel that it was the warm sunny climate of Italy, in which violin varnish could be slowly and evenly dried, which was responsible for the beautiful tone of the old violins.

FOR YOU TO DO: Try to color the scene of Strad working in his violin shop to get the effect of sunlight pouring in, and then get this golden glow on the Stradivarius violin the girl is playing.

Color-Feel Theory Is Supported

By Science Service
NEW YORK—A man can stick his hand in a completely dark box and sense the difference between a polished plate and one painted black without ever touching either.

In his theory of skin sensitivity, Dr. W. L. Makous of the International Business Machines Corporation Research Center, Yorktown Heights, N. Y., was able to demonstrate that man can indeed tell the difference between light and dark colors, and between painted and polished surfaces, through his skin.

The means is heat—not heat given off by objects in the black box, but the different rates at which these objects will absorb heat from the hand.

For instance, the black paint absorbs skin heat and the man's hand cools slightly. But the polished surface rejects heat and his hand stays warm. So distinct are the different absorption rates that people can sense changes in warmth about 90 per cent of the time, explained Dr. Makous.

Actually, color has very little to do with it. Infrared wave lengths or heat do not determine hue, said Dr. Makous. Therefore, how do people sense colors, as so many reports have claimed?

SENSE DIFFERENCE

They probably do not, Dr. Makous said, but if two colors are distinctly different, in lightness and darkness, and if they are very brightly illuminated—as by a 100-watt light bulb one foot away—skin could again sense the difference.

In this case, the lighter color would be reflecting heat from the bulb instead of from the hand, enough to raise skin temperature to a perceivable level. As for telling the difference between red and blue chips—it is doubtful.

Tashkent Accord Puts Russia on Spot

NEW DELHI, India (AP) — with Pakistan in an effort to head off more trouble of the type that exploded into war last September.

Prime Minister Indira Gandhi of India told Parliament that India-Pakistan Tashkent peace declaration, the Soviet Union now is faced with making it work. This is proving difficult.

Neither India nor Pakistan has implemented fully the Jan. 19 declaration and Moscow is busy behind the scenes, trying to get things rolling.

The United States, though once it does not carry the burden of making something work in South Asia, is supporting the U.S.S.R.

IN TOUCH

A reliable source says the Soviet Union has been in touch

with Pakistan in an effort to head off more trouble of the type that exploded into war last September.

Prime Minister Indira Gandhi of India told Parliament that India-Pakistan Tashkent peace declaration, the Soviet Union now is faced with making it work. This is proving difficult.

Neither India nor Pakistan has implemented fully the Jan. 19 declaration and Moscow is busy behind the scenes, trying to get things rolling.

The United States, though once it does not carry the burden of making something work in South Asia, is supporting the U.S.S.R.

MOVED IN BOLDLY

After watching the United States try for more than a decade to solve the India-Pakistan dispute, the U.S.S.R. moved

in boldly. The Tashkent declaration was claimed to be a resounding Soviet victory.

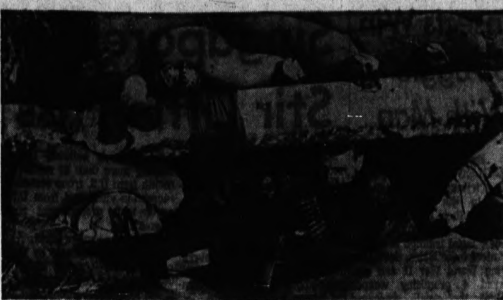

Moscow, and Kossygin especially, got a boost in popularity. Now, it appears the Soviet Union will have to work hard to maintain it.

Each side accuses the other of interference in internal affairs, although this is banned under the declaration.

The sticking point for the Soviet Union — as for the Americans in the past — is the Indian-Pakistan quarrel for possession of the Himalayan state of Kashmir.

Rat Control Grant

WASHINGTON (AP) — A \$1.9-million grant for a comprehensive rat control program in Chicago has been approved by the Office of Economic Opportunity.

MACHINE GUN READY — Pfc. Clark Richie checks his field of fire in his bunker near Cu Chi, South Viet Nam. Richie shares

the bunker with two other men and is stationed near heavy fighting.

AP Photo/John

A Week of War—3

Why Are We Fighting? For All People

(EDITOR'S NOTE — It was now Wednesday and the scuffle but said: Only two more days and then it's hit the Viet Cong. For Young Clark Richie it was a day of mummification: "We are fighting for more than our own skins." The following is the story of the third of five agonizing days in the life of a fighting American soldier in Viet Nam.)

By JOHN NANCE

CU CHI, South Viet Nam (AP) — Propaganda loudspeakers blared in Vietnamese toward the jungled plantation where the Viet Cong was fortified in decades-old tunnels and trenches: "Give up, you are doomed. Turn yourself in, you won't be harmed."

On the perimeter of an American camp, stop his bunker just

SAIGON (U) — Pfc. Clark Richie, 22, of Jay, Okla., whose story of five days in South Viet Nam is being told this week in a series by the Associated Press, has been awarded the Air Medal with an Oak Leaf Cluster, the 25th Infantry Division announced yesterday. It was awarded for meritorious achievement as an aerial door gunner while he was on temporary duty in Viet Nam in 1965.

a rifle shot from the enemy plantation, a young soldier set this Wednesday night huddled over a small transistor radio. He was near Cu Chi, a town 20 miles northwest of Saigon in the heart of a Communist stronghold. The soldier and the others thank you. How are you."

of the 2nd Brigade, 25th Division, had battled for every yard in establishing this base camp. In the dark, the chatter of the propaganda broadcasts made a strange background for the voice coming over the little radio. It was the President of the United States.

His words faded from time to time and blasts from American artillery drowned them out every few minutes.

Clark Richie, 22, of Jay, Okla., put his ear next to the radio. He caught the President saying the United States stands for the self-determination of all people — that is why Americans are in Viet Nam.

Richie, unmarried, with a 66-year-old widowed mother and an 18-year-old girlfriend at home, lay silent when the speech ended. Earlier this week he had said he figured America was here because if it didn't fight in Viet Nam now it would someday have to fight closer to home.

But with shells screaming overhead, loudspeakers calling and the echo of Johnson's words in his head, he thought it over. "It makes you sorta proud," he said.

He slapped at mosquitoes boring through the repellent he had lathered on.

"It makes me think we are fighting for more than our own skins." He remembered the dark-eyed little girl he had instructed in their first English lesson the day before at Cu Chi. The children had looked up at the tall, red-haired Oklahoman and repeated after him: "Fine hold. The soldier and the others thank you. How are you."

"I guess we're fighting for them, too," Richie said.

Richie had spent six months as a helicopter gunner in Viet Nam last year, but said ground fighting is "much rougher, messier."

At dawn this same Wednesday, the guerrillas had opened up on the 1st Battalion about 200 yards left of Richie and his three buddies in Bunker 14 of B company, 2nd Battalion.

Richie was standing guard at the bunker then, while the others ate breakfast at the mess area.

As the sun rose behind them, the men washed and shaved under the bamboo that shrouded the bunker. It was starting to be uncomfortably warm by 9 o'clock.

Later Richie said the relations between the white and Negro boys in the company were first-rate. "We've got a close outfit," he said. "We're together out here all the time. We depend on each other. We get along fine."

The heat reached its near-100 peak about 2:30. The men grumbled about the dust and ants and mosquitoes. But most talk was about the operation coming up against the Viet Cong. It appeared set for Friday, two days away, according to the best information they could get. Official word was due Thursday.

The men talked about being scared. Dusk came, then night, and the propaganda speakers bawled out to Charlie: "Give up, you are doomed."

(Richie, The soldier and the others thank you. How are you.)

Charge!

Why should we fight you?

A charge account is for your convenience... there doesn't seem much point in making it a difficult thing.

That's why we have several charge plans. Each one tailored to you and your budget. (Just the way our famous brand name men's suits are tailored to fit you.)

Try it out. Head for Osmun's. Take a look at the labels. Like 'Botany' 500, McGregor, Van Heusen, Dobbs, Petrocelli, etc. Select your suit or topcoat or sport coat or sweater or shirts or whatever, and show your charge card. (If you don't have one, come in and get one. It only takes 3 minutes.) Then all you have to do is sign your name.

It's a case of the pen being mightier than the sword.

zzzzing!

Arrow Vodka puts more zing in your drink!

You may not taste the Arrow—but you'll know it's there. Arrow Vodka transforms a plain Martini, Bloody Mary, or Screwdriver into a zzzzzing-drink! What's the secret? Arrow is filtered once to make it vodka—then whirled to perfection by a special process to make it Arrow. So always follow the Arrow to better drinks.

One-Fourth of Mankind

(3) The Will of Heaven

by Don Oakley and John Lane

Shang Craftsmanship—
to Please the Living

Sacrifice—
to Appease the Dead

The First of the Chou — the Last of the Shang

In the Shang era the first and most original element of (Chinese) culture was born — a pictorial script. . . . Chinese psychology shaped this strange structure and was shaped by it in its turn over thousands of years.

—Amaury de Rencour

While no archeological proof exists for the Hsia, China's

first dynasty, the remains of the next, the Shang, indicate there must have been many centuries of previous development.

Shang skill in working bronze has never been surpassed. Pottery making was of a high order. Writing on shells and oracle bones was in an advanced script, showing many

of the basic forms of modern Chinese.

Inscriptions found on Shang tombs, excavated only in the 20th century, give an insight into the way of life of a people who flourished nearly 40 centuries ago.

The king was both king and priest, intermediary between the people and Heaven, represented by Shang Ti, the Supreme Lord.

The king, as Son of Heaven, led the rituals and sacrifices which insured that the behavior of men on earth was attuned to the rhythm — the "Yang and Yin" — of the celestial order.

INTERPRETATION
Priests divined the will of Heaven by interpreting the cracks in the heated bones of animals.

Worship of ancestors was already a strong element in Chinese religion.

Sacrifices — sometimes human — were made to them and to other potent spirits of nature to insure success in mortal undertakings.

Below and around the king were nobles, who lived in luxury and served as governmental functionaries.

TOILING PEASANTS
Below them were the ignorant and toiling peasants, upon whose bent backs the entire structure of Shang — as of later — society rested.

There was as yet no nation that could be called China (or as the Chinese

know it, the Middle Kingdom).

The authority of the Shang was limited and challenged by rival city-states and shaken by frequent wars.

As was to happen again and again in Chinese history, the ruling dynasty fell into decadence and was overthrown.

VIOLENT UPHEAVAL
After six centuries, in 1122 B.C., the Shang succumbed in violent upheaval to the warlike Chou clan from the western frontiers.

Now began the third dynasty, the Chou, which was to be the longest — 800 years — in China's history.

NEXT: The Warring States

Two Michigan Marines

Killed in Viet Action

WASHINGTON (AP) — Two Michigan Marines are among servicemen listed by the Defense Department Tuesday as killed in action in Viet Nam. They were Cpl. William H. Johnson, son of Mr. and Mrs. Jewell Johnson of Ann Arbor, and Lance Cpl. Gerald W. Engel, son of Mr. and Mrs. Howard C. Engel, Detroit.

Insects Win Struggle With Man

By Science Service
ENGLEWOOD CLIFFS, N. J. — The triumphant insects continue to win many survival rounds in their ancient struggle against man and nature. Their latest triumph is against chemical insecticides, developed during World War II and considered a promising weapon against the small six-legged pests that destroy man's food, bring him sickness and death, tear down his buildings and devour his clothing.

The amazing ability of houseflies and other insects to develop a resistance to DDT and other insecticides has sent scientists back again to the laboratories for more effective weapons, reports Dr. Ross E. Hinchins, entomologist with the Mississippi State Plant Board and department chairman at Mississippi State College.

Man now finds himself having to study and understand the varied life habits of these tiny creatures in order to keep them in line, Dr. Hutchins points out in his recent book, "Insects" (Prentice-Hall, Inc., Englewood Cliffs, N. J.).

For the past 300 million years, insects have been winning many other battles against nature. They have been beset by and have overcome every conceivable calamity including massive ice Ages, volcanic eruptions, upheaving mountains and submerging seas.

These successful insects are now so populous that they constitute about 80 per cent of the world's known animals and are found in almost every conceivable location in every continent, living at high altitudes, in desert sands, in Antarctic snow and ice and in tropical lushness.

Singapore GIs Stir Little Fuss

SINGAPORE (AP) — U.S. troops have landed in another Asian land, on a peaceful mission.

Despite fears of leftist protests, a trickle of American servicemen have been coming to Singapore since the government's recent decision to welcome about 80 a week for combat leaves from Viet Nam.

So far the program has hardly caused a ripple in the island state, which has the largest British garrison east of Suez.

The GIs arrive quietly in civilian clothes by commercial airliner and are hardly distinguishable from other Western tourists or residents in Singapore.

LIST OF CENTERS
U.S. officials added Singapore to the list of rest and recreation centers for American forces in Viet Nam because the American troop build-up has taxed facilities in Bangkok, Tokyo, Hong Kong and other leave cities.

Some officials were concerned that the Communists might kick up demonstrations, but none has occurred.

Once Singapore's Premier Lee Kuan Yew condemned U.S. intervention, not only in South Viet Nam but in the whole of Southeast Asia. Last week, he said: "It is a crime against humanity. But to say who is committing the crime would be taking sides."

The economy of this 214-square-mile tropical island state has been deteriorating since its separation from the Malaysian Federation Aug. 8. Lee said shortly after separation that Singapore would "trade with the devil" if it had to in order to survive.

Singapore is believed to be making more than \$2 million a month from U.S. troop rest-and-recreation visits and from U.S. government procurement purchases here.

It expects to make more. Each GI is estimated by U.S. officials here to spend \$50-\$81,000 in the five-day periods they spend in Singapore. Singapore is virtually a free port and is loaded with bargain buys in cameras, watches, tape recorders and other items.

U.S. government procurement purchases here are estimated to be running at more than \$1 million monthly. Post exchanges in South Viet Nam stock up on a lot of their foodstuffs from here. Beef from Australia is brought here, and other fresh foods are flown up to Saigon.

95 'M' Grads to Start

Internships on July 1

ANN ARBOR (AP) — Some 95 spring graduates of the University of Michigan medical school will begin internship in Michigan hospitals July 1. Another 91 will intern in hospitals outside the state and four will work in Army hospitals, the school said.

Little Surinam Has Big Problem

LONDON (AP) — Three centuries ago, the Dutch gave Britain a hunk of North America in exchange for a slice of South America.

The bit of North America the Dutch released became New York.

The land they took over from the British now is called Surinam, 62,500 square miles in area, population 350,000.

But if you think that old 17th-century transaction is in the limbo of forgotten things, read on.

OLD HEADACHE

The British Foreign Office has announced that Joseph Lane, foreign minister of Holland, is coming to London today to talk about Surinam. He is going to make a new try to settle an old headache about Surinam's disputed frontier with the colony of British Guiana.

Surinam, like British Guiana, runs its own domestic affairs but foreign and defense matters still are vested in The Hague and London.

The border dispute for years has baffled diplomats, lawyers and politicians of the two countries. They blame it all on those old-time British, Dutch, Spanish, French and Portuguese who, in searching for the legendary city of El Dorado in the 16th and 17th centuries, opened up the northeast shoulder of the South American continent.

These trailblazers sailed down the Courantyne River, which rises in Brazil and flows northward into the Atlantic. The mighty Courantyne for generations served as a natural front-line between Surinam and British Guiana.

Not so very long ago, it was discovered that 250 miles or so heading toward statehood.

from its mouth, the Courantyne forked in two directions — one southeast, the other southwest.

The British, on behalf of the Guianians, have been insisting that the eastern branch of the Courantyne is the true frontier. The Dutch assert the western branch should be taken as Surinam's frontier.

In between lies dense, unpopulated jungle. But it could be rich in minerals. Perhaps the El Dorado of olden-day dreams may be uncovered there.

Luns, accompanied by Surinamese envoys, is hoping for a friendly settlement and he may have a compromise up his sleeve. Lord Walston, a junior partner in the Surinamese firm, will talk with him. Both Surinamese representatives, will talk with him. Both Surinamese representatives, will talk with him.

WOW!!! Here it is, my Annual Warehouse Sale. My 8 stores are loaded with merchandise and I've slashed prices on every item in stock. Washers, Dryers, Refrigerators, Ranges, TVs (portables, consoles, and color sets), Freezers, etc. If you need any household appliance this is the time to buy it. Some are of a kind, crato marred, repossessions; but many are 1964 models still in their original factory cartons. Not all items at all stores. Merchandise subject to prior sale.

Commission to Study Proposal

Revised Galloway Creek Sewer Plan Pact Received

A revised city-county agreement for the construction of a projected Galloway Creek sanitary sewer along the northeast end of the city was presented last night to the City Commission.

The agreement was referred to the next informal meeting of the commission for further study.

City Engineer Joseph E. Neippling, in presenting the contract from the Oakland County Department of Public Works, noted the proposal should be thoroughly evaluated before final action.

The sewer currently is part

of a master interceptor system proposed for eight Pontiac area communities.

Generally, the sewer is to follow the creek bed from a point on the north city limits to just below Galloway Lake on the east and then southward to the sewage treatment plant.

TOTAL CITY COST

Neippling estimated the total city cost of the Galloway Creek sewer at \$566,000. He said the 33-year bonds could be paid from proceeds from the sewage disposal fund.

The proposed trunk sewer was originally planned as a

city project, but last fall the county proposed its Clinton Oakland Interceptor system, which would include the section of pipe in Pontiac.

Neippling said the creek sewer was planned for construction this year. However, he said it

now appears remote that construction will get under way in 1966.

Revisions in the interceptor agreement have caused the delay. Each participating community must approve the agreement.

INTERCEPTOR COST

The total interceptor system is to cost \$16,500,000, according to Neippling.

In other business last night, the commission received a letter and hearing report from the Oakland County Office of Economic Opportunity (OEO).

Mayor William H. Taylor Jr. turned over the report to the city's minority group housing committee with little comment. He indicated the OEO statistics on Pontiac housing might be useful.

In still other business, the commission approved a contract amendment with the State Board of Alcoholism for an added \$550 state appropriation to the Pontiac Alcoholism Information Center.

The total state contribution for 1966 was hiked to \$2,550.

In a 5 to 1 vote, the commission directed City Manager

Joseph A. Warren to write a letter to officers of the Pontiac Transit Corp. for a meeting on the bus firm's contract with the city, which expires May 1.

Warren, who reported he had talked to the head of the bus company, said he would write the letter if directed to do so by the commission.

Commissioner Robert C. Irwin cast the lone "no" vote on the motion. Irwin said Warren had already indicated he had sought such a meeting.

A dance permit was approved last night for Bud & Lou's Tavern,

417 Auburn, after favorable reports from city departments.

A public hearing was set for May 16 on rezoning to residential-2 land on the southwest corner of State and Prall for expansion of a nursing home there.

Requested rezoning to residential-3 of property on Yale, just west of Baldwin, was referred to the City Planning Commission.

Proposed commercial rezoning for a 45-foot strip of land at the northeast corner of Auburn and Tasmania was also referred to city planners.

GM Truck Highlight: Camper Pickup

Scout Attains Eagle Rank

A pickup engineered for campers and bearing a camper name is the center of attraction in GMC Truck & Coach Division's big round-up of 1966 recreational trucks.

Sharing the spotlight with this camper pickup are these GMC headlines:

• **Handi-Van and Handi-Bus** trucks, each with 211 cubic feet of space and each boasting camper conversion units.

• **Suburban station wagons** with GMC truck strength and passenger car comfort.

• **Country-Cruiser Jr. Van** with galley, bath and lounge.

• **Tough truck chassis** especially suited for frame-mounted campers.

• **Coachette Cruiser**, a hotel on wheels featuring a GMC school bus chassis.

Although GMC Truck & Coach Division was a pioneer in the field of heavy-duty recreational equipment, this is the first year the division has offered a pickup specifically identified as a camper vehicle.

Previously, GMC offered enough heavy components to convert any of its pickups for camper use; now all of these components are combined in a single package called the Camper Cruiser.

Camper Cruisers are available in three-quarter or one-ton versions, either as chassis mount for campers or with pickup boxes.

They feature In-Line 6 or V6

engines, three body lengths, and two body styles.

CAMPER WEIGHTS

The three-quarter ton Camper Cruiser is engineered to handle camper body weights of from 2,000 to 3,000 pounds, while the one-ton Cruiser is big enough for campers up to 4,500 pounds.

Equipment available to enhance the appearance includes bucket seats with vinyl upholstery, carpeting and storage console between seats, deluxe air flow heater and defroster, and tinted glass windshield for added safety.

In addition to the Camper Cruiser, GMC also offers half-ton pickups with components ideally suited for lighter weight camper bodies — particularly the shell-type campers.

And if the camper enthusiast wishes, he can pick three-quarter ton or even one-ton models with heavier components for a cab-over-engine or chassis-mounted camper without specifying the Camper Cruiser package.

One GMC heavy-duty vehicle which is especially suited for rugged camper usage is four-wheel drive.

Four wheelers are available as GMC pickups, Suburban station wagons, and multipurpose cab and chassis vehicles.

Unlike conventional passen-

ger car wagons that often require overload springs for heavy loads, the GMC Suburban takes heavy work in stride because it features a truck chassis and heavy-duty design.

Seating up to eight passengers comfortably, it provides plenty of cargo space, and it can haul boat, utility and travel trailers with ease.

SLEEPS TWO

Seats can be easily repositioned or removed, thus providing room to sleep two adults comfortably.

Together with available space for 1,000 pounds of gear, the sleeping accommodations are ideal for camping.

Properly equipped as a tow vehicle, the Suburban offers steady V6 pulling power and its interior is designed for comfort on long cross-country hauls.

Like GMC pickups and the Camper Cruiser, the Suburban features door locks that are engineered for safety, securing even when the door is partly closed.

SAFETY GLASS

Solid, safety sheet glass windows in the lift gate and panel doors mean plenty of visibility for parking or backing with a trailer.

Handi-Bus and Handi-Van trucks, which feature several camping conversion units, are available with two proven high-torque engines.

Besides serving as versatile campers, the Handi-Bus is a smooth functioning personnel carrier and the Handi-Van has won wide acclaim for its dependability as a delivery van.

As a delivery van, the Handi-Van offers 211 cubic feet of cargo space and a load capacity ranging up to 2,200 pounds.

10 COMBINATIONS

It can be equipped optionally with up to 10 different door and window combinations.

The Handi-Bus has all-around windows, including optional swing-out rear door windows, and it can seat up to eight adults comfortably.

It features a wide selection of luxurious optional appointments including such attrac-

tions as foam-padded twin bucket seats, padded dash, bright metal exterior molding, large outside rear view mirrors and color-keyed interior trim panels.

Factory-installed camper conversions for either the Handi-Bus or the Handi-Van feature four variations including a unit that sleeps two adults and another that sleeps two adults and two children.

GALLEY, BATH

Installed by Highway Sleeper Corp. on busy GMC chassis, the Country Cruiser features a standard "L" shaped lounge that seats up to five adults, fully equipped galley area, compact bath facilities, con-

venient storage areas, and a fold-away panel for easy access through the rear door.

It also has a 20-gallon water storage tank, color-coordinated draperies and vinyl covered wall and ceiling panels, a horizontal 20-pound gas bottle, and an 8,000 BTU space heater that is thermostatically controlled.

Available optionally is a second foldaway dinette table, quality carpeting, porch type awnings and extra bunks, and pressure flushing marine toilet.

Mounted on a GMC school bus chassis that features the famed Toro-Flow diesel engine, the Coachette Cruiser is the ultimate in elegant mobile living. Manufactured and installed by the Coachette Co., the body

features an all-steel floor and one-piece bows which span the ceiling.

The rich body interior includes these standard features:

• Four cubic-foot gas or electric refrigerator.

• Kitchen sink.

• Lavatory with flush toilet, shower and 80-gallon septic tank.

• Resilient tile floor.

• 80-gallon water tank and pump system.

• Built-in convertible dinette and seats.

Still other features include a four-seat dinette that converts to a three-quarter size bed, wardrobe, two rear area divans that convert to four berths, a swivel-seated armchair for the driver, and screened and curtained windows.

Former Pontiac Press carrier Steven M. Newton has been elevated to Eagle rank in Boy Scout Troop 51.

The son of Mr. and Mrs. George M. Newton, 2925 Woodbine, Waterford Township, Steven attends Isaac E. Cray Junior High. He is 14.

He is in the process of building a full size rowboat.

Hunting wild turkeys is a popular pastime in Florida. Game commission officials estimate there are 80,000 turkeys roaming the fields.

Four Honorary OU Degrees to Be Given at Graduation

At its Saturday commencement, Oakland University will grant honorary degrees to two scientists, a corporation executive and a government official.

Recipients will be Matthew S. Meselson and Franklin W. Stahl, biologists at Harvard University and the University of Oregon, respectively; Roger M. Kyes, an executive vice president for General Motors Corp.; and Sargent Shriver, director of the Office of Economic Opportunity.

Meselson, 35, and Stahl, 36, worked as a research team at California Institute of Technology in the late 50s.

They gained considerable attention in the field of science for their development and application of the ultracentrifugation technique in research on reproduction of the molecule.

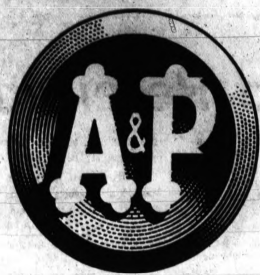

Kyes, 40, who is an honors graduate of Harvard, resides at 445 Cranbrook, Bloomfield Hills. Following a rising career with several companies, he joined the General Motors in 1946, and became a vice president in 1960.

He was deputy secretary of defense from 1953-1954.

dergraduate and law degree from Yale University. He was called to government service from industry in 1961 by President John F. Kennedy as director of the Peace Corps.

In August 1964, he assumed a second post, heading up Presidential Johnson's war on poverty as director of the Office of Economic Opportunity. In January following a rising career with several companies, he joined the General Motors in 1946, and became a vice president in 1960.

One hundred seventy-eight students will receive degrees at the commencement exercises, beginning at 6 p.m. in the Sports and Recreation Building.

GGG sums up summer's elegance

... by looking far beyond the expected in fabric — and finding it in the most luxurious lightweights the world can offer: tropical worsteds, fine Dacron-worsteds, imported mohair. By choosing colors that continue the look of easy elegance: gentle stripings, subdued iridescents, muted plaids, soft patterns, rich solid shades. And by expressing this well-bred opulence in styling that is deft, distinctive and beautifully detailed. These are the qualities that always distinguish GGG. Only more so this spring. **\$135 to \$185.**

YOUR CHOICE!

Deluxe mattress with 612 coils...or 7 inches of springy Ward-Foam*

SO SUPERIOR IN QUALITY IT'S GUARANTEED 14 YEARS**—REGULARLY 69.95

You want your mattress to be a little firm, but not hard... soft, but not too soft. That's why this one is a happy choice! It packs 612 coils or 7 inches of foam* for the support you need... the filling on top is quilted to a thick layer of foam* for the softness you want. And all this comfort is wrapped in a rich rayon damask cover that's flannel-tinged... stays wrinkle-free. The incompressing box side guards to prevent edge sag... the foam* mattress is so lightweight, it makes bedmaking easy! Mattress box spring... **\$48.88** 177.20 Queen-size set now... **\$129** 248.88 King-size set now... **\$199**

Call today ... your decorating consultant is waiting.

SAVE NOW!

Beautiful Style House[®] carpeting in DuPont nylon or Acrilan[®]—completely installed with sponge pad!

CHOOSE FROM MANY LUXURIOUS TEXTURES IN A WIDE SELECTION OF EYE-PLEASING COLORS AND PATTERNS

Wards Style House[®] broadloom offers you the finest in wear performance, high-fashion patterns, and colors that range from soft muted tones to sensational rosy reds. Colors are dyed in the yarn in man-made fibers, to stay bright and clear after years of active family use. Dense pile shows unusual resistance to crushing, is soil resistant and easy to clean because spills wipe up quickly. All carpets shown are mothproof.

SPONGE PAD INCLUDED!

Our springy sponge rubber padding adds years of life to your carpeting while giving you truly luxurious comfort under-foot.

NYALLÉ DuPONT NYLON 501[®] CARPET
A magnificent value—dense hi-lo loop pile so heavy it exceeds DuPont 501[®] standards! Cobblestone, scroll or tweed in 23 hues.

DYNASTY DuPONT NYLON 501[®] CARPET
Deep luxurious pile unsurpassed for quality and long wear. 3 patterns: random sheared, hi-lo loop or tweed—choice of 16 colors.

ESTRELLE ACRILAN[®] ACRYLIC CARPET
Our heaviest acrylic pile in sheared loop or cut-and-loop pile. Has rich, warm appearance of wool—pile stays new and springy!

MONTGOMERY WARD

Did You Know?

Skilled chemists develop new, advanced products in Wards own modern paint factories. For example, they have developed a process in which alkyd oil is added to an acrylic latex base to produce Acrylic Latex 401—the only paint we know of that promises 1-coat coverage over any previously painted chalking surface—without priming! 401—an example of Wards continual quest to develop the best, through research... then better it.

1.49

Here's how we can put more quality paint in the can and still sell it for only...

266

PER GALLON

Paint is like a doctor's prescription—composed of a number of ingredients, each intended to perform a specific job. Some give the paint hiding power, color stability, washability, adhesion. These are the *quality* ingredients—the ones that work for you! There are other ingredients—they work for the paint. They give it body, thickness, liquidity. Wards gives you more of the ingredients that work for you, the *quality* ingredients.

How can we afford to give you more quality for your money? Well, there's a lot more room in the can for quality when the middleman's profits are gone... and Wards eliminates them. We formulate the paint ourselves, building in from the start the features you've asked for.

We manufacture and test the paint in our four giant factories across the country. We distribute and sell it ourselves, thus removing the middleman's profit. The extra money goes where it belongs... into the paint.

This extra quality means more "real" paint, better paint for lower prices. For instance, our economy interior latex. It glides onto walls smoothly, odorlessly and then dries in just 30 minutes to a soft, washable matte finish. Find out today what extra quality looks like on your walls... try Wards interior latex at this special price!

**WOULD YOU PUT ANY OTHER PAINT THAT
COSTS SO LITTLE ON YOUR LIVING ROOM WALLS?**

"MARKET IS SHOT" — Lloyd Mollhagen Jr., a fourth-generation Michigan fisherman, peers from a door in his fishing boat, Faith II. Mollhagen, whose home base is St. Joseph, said, "The market is shot." He com-

mented on a recent shipment of fish to Chicago in which he was quoted a price of 12 cents a pound on the open market. His actual return was eight cents a pound.

State Fishing—1

Industry Fights for Life After Comeback

(EDITOR'S NOTE — Michigan's commercial fishing industry is fighting for survival against a strong comeback after the botulism scare of two years ago. In the first of a three-part series, Associated Press newsman Ed Markality takes a broad look at the business today.)

By EDWARD J. MARKALITY
Associated Press Writer

The flash tragedy of deaths caused by botulism traced to smoked Great Lakes fish in October 1963 was followed immediately by predictions commercial fishing on the inland seas was doomed.

Shaken to a halt until corrective measures overcame the threat of recurrence, a dwindling fleet of fishing tugs returned to work.

But problems continued to mount.

Besides the botulism scare and an invasion by predatory lampreys from the Atlantic Ocean, Lake Michigan catches are endangered by a smothering explosion of alewives.

GROUNDS POLLUTED

The fishing grounds in recent years, also have been polluted by the very industrial boom that lures boatmen ashore and some of those remaining catches have edged prices downward.

Hardest hit by the botulism outbreak—though cleared of any responsibility—was the Harold J. Dornbos processing firm in Grand Haven.

A former supplier of smoked chubs to major supermarkets with some 900 outlets, Dornbos now has quit the fish-smoking business.

Voicing concern for "precious human lives," he voluntarily shut down his processing plant and recalled his product from dealer shelves at considerable cost in 1963 when botulism was traced to one shipment of vacuum-packed smoked chubs to Tennessee.

Dornbos and his wife now have a \$50,000 suit pending in Ottawa County Circuit Court

against Kroger Co. and four trucking firms. They charge loss of business and damages to personal health resulted from alleged negligence in moving and selling the 1963 shipment without proper refrigeration.

Dornbos and his firm have won praise for cooperation with state and federal research on a new smoke fish processing guidelines.

The regulations were set in 1964, with fishing industry help, by the Foods and Standards Division of the Michigan Department of Agriculture. They provide, in essence, for 180 degrees of heat to cook the fish for 30 minutes prior to smoking, continuous subsequent temperatures of 36 degrees in transit and storage, plus removal of the product from sale after 14 days from the date of processing.

Federal Food and Drug Administration rules also prohibit shipping smoked fish across state lines unless the product is frozen.

DOUBTED BACK

"Really," says processor Don Ulrich of Spring Lake, "when this thing came along, I didn't think the industry ever would come back. We have a lot of people who come in and buy at the retail level. But there are a lot of stores in the state who are not handling smoked fish."

His firm, he says, is only one of three or four remaining in Michigan who smoke fish on a "real commercial level." The others, he said, are in St. Joseph and in Detroit.

Ulrich estimates his operation now smokes some 2,000 to 3,000 pounds of chubs per week. It was up to 5,000 pounds before all the new regulations were enforced last year.

"For jobbers, the refrigeration rules are so hard to maintain they'd just rather not handle smoked fish," says Ulrich. "The state is aware of this, and is considering changes," he adds.

Ulrich and Roy Jensen of Escanaba, executive secretary of the Michigan Fish Producers

Association, say research by the University of Michigan, the U.S. Department of Interior's Bureau of Commercial Fisheries and the National Fisheries Institute may hold an answer to the problem.

"They're working on an additive to put in the brining process which would eliminate possible contamination of fish," the two report. "It's already being used in smoked and processed meat. As it gets state approval, you'll see a big change — maybe a boom — in the smoked fish industry."

Jensen says Wisconsin and Minnesota already have approved the development.

"There are areas, mostly in Wisconsin, where the smoked fish is going over better than before," says Jensen. He mentioned Fort Washington specifically.

SALES GOOD

In Michigan's tourist resort areas, Jensen says, "individual small smokers report sales going good. Visitors want smoked fish. But you have to have the big market in the big cities."

He said that living up to Michigan regulations would prove to be a good product. "We have federal rules on interstate fish transportation could be relaxed."

"We've been trying to get them to raise the shipping temperature to 40 degrees which we feel is more than enough protection," Hensen says. He also said a pilot plant at Hancock to test the chemical additive is the work of the government Fish and Wildlife Service with a \$185,000 grant through the Upper Peninsula Community Action Program UCAP.

"They're going to see if the additive can lead to extended freezer 'life' of herring and possibly get into new products," he says.

"The fishing industry couldn't do this by itself," Jensen adds, "but the results are what we're looking for."

U.S. Action Squad Members Have Price on Heads

THUY LUONG, South Vietnam (AP) — The Viet Cong have placed a price tag on their heads. The villagers have grown to love them.

There are 10 of them, all volunteers. They are nine U.S. Marines and a Navy corpsman. They form one of seven Marine combined action squads operating in South Vietnam.

TRAINING MISSION

Their mission is to train local village militiamen to fight, and to help protect the villages from the Viet Cong. This is part of the Marine pacification program, in three Marine enclaves — Da Nang, Chu Lai and Hue Phu Bai.

Combined Action Squad 1 is located in this hamlet of 4,832 persons 430 miles north of Saigon. It is just outside of Hue Phu Bai.

The 10 live dangerously. Five-man patrols are conducted around the clock. Their area of responsibility is 35 square miles bordering a river 45 miles south of Communist North Viet Nam's border. The other side of the river is Viet Cong controlled.

Z-SHAPED HUT

The Marines' home is a Z-shaped bamboo-thatched hut located near the edge of the village. They have to electricity. Briefings at night are by candlelight. Their only defense — outside of their rifles — are hundreds of sharply pointed bamboo stakes six feet high that

form a perimeter around the camp. The Viet Cong have placed a price tag of 10,000 piasters — about \$15 — on each Marine's head — dead or alive. But the villagers have been won over by the Marines.

As Sgt. Thomas Cleary, 23, of Los Angeles, commander of the squad, put it: "If any Viet Cong were within 1,000 yards of the village, we would have many of the villagers at our gate yelling, 'VCI VCI!'"

Recently, when the Marines were on patrol, the Viet Cong moved in and attacked the village headquarters. The patrol heard the shooting and returned in time to beat off the attackers.

But still, the men have one big complaint: "There just isn't enough action."

MAY BE SOON

There may be soon, though. The rice harvest is due next month. The Viet Cong are hungry and need to replenish their rice. They will have to come down from the hills into the rich valleys to get it. Since the seven squads began operating last September, they have hit the Viet Cong where it hurts — in the stomach and in the wallet.

Before the Marines moved in, many villagers were paying taxes to the Viet Cong as well as helping them gather the rice crop. The Marines put a stop to that.

Capt. John Mullen, 30, of Phil-

adelphia, Pa., commanding off-

knocking off Viet Cong snipers, and have just found out that the cer of the squads, said his units with a sniper scope, said he had people here are exactly like us, had gathered a great deal of intelligence from villagers.

VILLAGERS ADMIRER

The Marines also have grown to admire the villagers. Capt. Loren C. Wright, 19, of Des Moines, Iowa, an expert in

never got to like Orientals.

Nearly every man in Clear's squad speaks some Vietnamese. They picked it up through text-

But now, says Wright, his attitude has changed since "I'm books and simply by being getting to learn the language around the militiamen."

Superplane Competition Worries the British

LONDON (AP) — British aviation experts fear the supersonic Concorde airliner they are building jointly with the French will be unable to compete with huge subsonic jets now on U.S. drawing boards. The French do not share their concern.

The Concorde will be a 135-passenger plane. The projected U.S. planes are the 400-passenger Boeing 747 and the similar size Douglas DC10.

Boeing and Douglas feel these huge planes—"jumbo jets"—the British call them—will permit reductions in transatlantic fares. Concorde passengers are likely to have to pay even more than at present.

Additionally, the "jumbo jets" can offer state-rooms, stenographer service, bars and other luxuries the weight-conscious Concorde must pass up.

Pan American World Airways' recent order for 25 of the Boeings 747s and the probability that competitors will follow suit have not diminished French confidence in the supersonic project.

The French remember that they got in early with their Caravelle medium-range jet and made a tidy profit. They hope to do the same with the Concorde by beating an American supersonic plane, still under study, into the air.

Spoken for by SUD Aviation and British aircraft Corp., the two main designers of Concorde, say the billion-dollar venture is right on schedule.

The plane's central fuselage and wing roots already are being assembled in SUD Aviation's Toulouse plant. Britain's

Bristol Siddeley Co. began testing the engines nearly two years ago. The first flight is expected in February 1968, and delivery to airlines in 1971.

DEVELOPMENT COSTS

But since the project was begun, estimated development costs have jumped from \$420 million to \$1.12 billion. The British government still is paying its share only because the French threatened legal action in 1964 when Britain tried to get out of the project.

Adding to the uncertainty here is speculation that the state-owned British Overseas Airways Corp. soon will order six Boeing 747s costing \$112 million. BOAC also is considering the purchase of long-range Boeing 707-320C Cargo planes and 265-passenger Douglas DC8-63s.

Air France says it also is studying the Boeing 747.

As the flag airlines of the countries building the Concorde, BOAC and Air France tentatively have agreed to take eight Concordes each at a price of \$17 million per plane.

Boeing promised to deliver Pan American's 25 planes within eight months in 1969-70. British aviation experts interpret this as meaning Boeing anticipates ultimate sales of up to 100 aircraft per year.

SPENDING RATE

If so, world airlines would be spending \$2 billion on Boeing planes at the time the Concordes are expected to hit the market.

The British fear world airlines would thus have little ready cash to spare to buy Concordes. Concorde backers see it hav-

ing a three-year head start over an American rival, and they say it will prove its worth on long runs.

Reindeer OK, but...

TOFTE, Minn. (AP) — Saw-bull Lodge, a summer vacation resort north of Tofte, reports moose damage to its roof.

Caretaker Ken Omsan said a moose, ambuling over roof-high snow drifts, walked over the roof, cracked boards over the dining area and poked one leg through the roof over the kitchen.

The lodge is closed during the winter months.

AP Photo/Ex

CENTRAL PARK PLAYGROUND — Jimmy McLean, 4, frolics with his dog, Claudia at "Dog Hill" in Central Park, New York. The area is used by many famous families to walk their dogs, otherwise cooped up in crowded Manhattan.

Cooped-Up Canines Caper on 'Dog Hill' in New York

NEW YORK (AP) — Hard by the Metropolitan Museum of Art and across from 5th Avenue's paladins of patrician-class apartment houses lies a scruffy half-acre of Central Park, blowing with dust in the wind.

The neighbors — Kennedys, Fords and Rockefellers live nearby — call the place "Dog hill."

And it's where their leashes lead them on weekends. During the Sunday rush hour — 1 to 2 p.m. — there are sometimes up to 30 or 40 dogs from Manhattan's best East Side addresses getting the kinks out from a week spent indoors.

DOG'S LIFE

Wallowing in the dust, stick-chasing and the good, long lope unavailable on sidewalk tours with \$10-a-week exercise boys — they're okay on Dog Hill. Okay, too, is conversation between owners and admirers. A young lady who might not even say hello in a bus or elevator will probably fall for a gambit like "How's your Weimaraner?"

Link Frank, a model living on Riverside Drive, takes a cross-town bus and a subway to bring her poodle "Bucky" to the hill. She could turn him loose in a park across from her doorstep, but says "That's no fun. I'm not going to see anybody interesting there and neither is Bucky. Last Saturday, Gary Merrill walked by here. For me, the trip over is worth the carfare."

DOG WATCHERS

There is a crowd of dogless regulars, too, who just come and watch.

They have their favorites. The

biggest whoop usually goes up when two pony-sized Irish wolf-hounds called "Devon" and "Gleason" are sighted dragging their masters in from the direction of Park Avenue.

They also like "Junior," a fox terrier and consistent stick-chasing winner; "Kaintuck," a no-so-domesticated coon bounding down time in the big city; and "Jeffrey," a sheep dog who once distinguished itself when it jumped into a passing baby buggy.

Newcomers get no special treatment. Once their leash is off, they either like the rough-house and start mixing it up on their own, or sulk to the sidelines.

DOGLESS VISITOR Heria Schmidt, a German student studying here, has been walking by the hill at 78th Street on Sundays for more than a year even though she has no dog.

"We're all cooped up in New York," she said, "but the dogs, they're worse off. Somehow it gives me satisfaction to see them running around and barking like mad. It puts things back into balance."

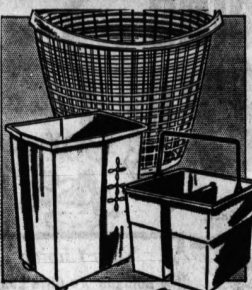

Pipes, Cigars Said

Oral Cancer Threats

MILWAUKEE, Wis. (AP) — Cigarette smokers who switch to cigars or pipes to avoid lung cancer may be courting oral cancer, says the president of the American Dental Association.

In fact, said Dr. Maynard K. Hine, "scientists have found that there is a causal relationship between lip cancer and pipe smoking."

SEE THIS ONE — Mrs. Diane Place (left) of the U.S. Food and Drug Administration spoke at a luncheon Tuesday on guarding today's foods. With her are Mrs. Clarence Kremer, Marie Circle, West Bloomfield

Township, chairman of the luncheon; and Mrs. Josephine Lawyer, Oakland County consumer marketing information agent. The event at Oakland University was attended by about 75.

By JANET ODELL
Pontiac Press Food Editor

Some 75 area women heard Mrs. Diane Place, consumer consultant, Detroit District Food and Drug Administration, speak Tuesday on "Watchdogging Your Food Supply."

The occasion was the annual meeting of the marketing council for the Oakland County consumer marketing program in the Gold Room of Oakland University.

With the advent of new types of food — unfamiliar textures, new shapes and different processes, the consumer is going to have to read and heed labels even more.

The 1958 federal food, drug and cosmetic act protects the

food shipped from state to state and Michigan laws give even more stringent protection.

Mrs. Place reviewed for her audience the "law of the label." Each label must:

- Tell the whole truth and nothing but the truth.

- Be exact and not mislead the buyer by vignette (that's a sketch) or picture.

- Use and list the common or useful name of the product.

- If not genuine, must say the product is imitation.

- List all ingredients in order of predominance in the product. The label must be in English or in English and any other language desired.

- Give the name of the distributor, packer or shipper.

There are some food products for which standards are set — like macaroni, jams, mayonnaise, jams and jellies or tomato products. These need not list all the ingredients, but must list any optional ingredients.

These standards have been established after lengthy hearings during which time government representatives, home economists, nutritionists, medical men and consumers are heard.

At present, such a hearing is being held on peanut butter.

Standards are not to be confused with grades. Standards spell out the quality below which a product may not fall.

Standards of enrichment tell exactly what nutrients are restored to the food product and keep enrichment uniform. Thus, all enriched bread is enriched in the same manner.

A new standard has just been set for non-alcoholic beverages. The labels on all cola and other beverages will contain information on the amount of caffeine therein; it will be about what is contained in an average cup of coffee.

Other beverages containing caffeine must list it as an ingredient.

Mrs. Place concluded by reminding her audience that food additives are as old as food itself. Salt, for instance, has always been used to pre-

serve food. The government keeps a strict watch on chemical additives, on pesticides and on coloring.

In the past, it was not always safe to use the peel of Florida oranges, but it now is. And lipstick coloring, gals, is also a food color.

Consumers who would like to receive regular mailings on activities of the USDA may be put on a mailing list. Send requests to U.S. Food and Drug Administration, 1560 East Jefferson, Detroit, Michigan 48207.

To separate slices of bacon easily, heat prongs of a fork in hot water and run the warm prongs between the slices.

New Pork Cooks in Shorter Time

Pork has changed. Some people still have the image of pork as fat meat. This is no longer true. Farmers have made tremendous strides in producing a new, meat-type hog which has more of the lean cuts of meat preferred by today's diet-conscious homemaker.

This new meat-type hog now favored by hog producers is a far cry from the plump, jowly hog of grandfather's day, the American Meat Institute reports. Today the average serving of cooked pork has much more protein, much less fat and far fewer calories than it did a dozen years ago.

One hundred grams of cooked pork, about three and one-half ounces, contain an average of 23.5 grams of protein, compared with 23.3 grams for the old pork. The protein content is up one-fifth.

The fat content has dropped more than half, from 30.7 grams for the old pork to only 13.1 grams for the new. Calories are

off 36 per cent—down to 240 calories from 377 calories previously.

With these significant changes, it is not surprising that some cooking procedures need revision also. Studies reported by Dr. Agnes F. Carlin of Iowa State University revealed that pork loin roasts cooked to an internal temperature of 170 degrees F. require less cooking time, have less cooking losses and have better eating quality than those cooked to 185 degrees F., the former recommended internal temperature.

Here are revised roasting directions that you might want to clip to keep your cookbooks up-to-date.

FRESH PORK ROASTS

The loin, leg (fresh ham) and shoulder cuts should be roasted. Sprinkle roast with salt and pepper. Place fat side up on a rack in an open roasting pan. Roast in a slow oven (325 degrees) until meat is well done.

The use of a meat thermometer is recommended. Insert it into the center of the thickest muscle. Roast according to the following schedule:

In the midst of all this change, there are some things that remain the same, fortunately. Pork still remains high in nutritional benefits. In addition to providing high quality proteins, pork is an excellent source of essential vitamins and minerals. It is one of the best sources of thiamine and contains substantial amounts of riboflavin, niacin and iron—all necessary to continued good health. Pork continues to be good for you and good eating, too.

Serve Over Ice

Serve this fruit drink over ice. • Dissolve ¼ cup sugar in ½ cup water; add unsweetened pineapple juice and unsweetened orange juice, (a 1 pt. 2 fl. oz. size can of each); chill. Just before serving time, add a 12 fl. oz. can or bottle of chilled lemon lime carbonated beverage. Garnish each glass with a slice of lime. Eight to nine servings.

Cut	Weight (lbs.)	Approx. Roasting Time (hrs.)	Internal Temperature (degrees)
Leg (fresh ham—whole)	8	4½	185
	10	5½	185
	14	6½	185
Leg (fresh ham—butt or shank portion)	4 to 6	3 to 3½	185
Loin, center	3 to 5	2½ to 3½	170
Loin, half loin	4 to 6	2½ to 3½	170
Loin, end	3 to 4	2½ to 2½	170
Shoulder (butt portion), bone-in	4 to 6	3½ to 4½	185
Shoulder (butt portion), boneless	4 to 6	3 to 4½	185
Shoulder (picnic), bone-in	4 to 6	3 to 4½	185

Beef in Salad

Leftover cooked beef makes a good salad when it is combined with mayonnaise. Use leftover cooked vegetables if they are on hand, or cook a package of frozen mixed vegetables for this salad.

Try dropping a few dill seed in the water for cooking shrimp.

Add butter, curry powder, currants (washed and drained) and pine nuts to cooked rice; reheat. Delicious served with chicken or lamb.

ICE CARVINGS — When Gov. George Romney met with Oakland County community leaders recently, the food service technology department at Oakland Community College prepared ice carvings in his honor. Each displayed the state seal. With Gov.

Romney are (from left) Shirley Buffmyer, Milford; Allen Abend, Highland; Gov. Romney; R. L. Simesed, associate professor, food service technology; Paul E. Kriewall, instructor at OCC; Gordon Schroeder, Island Park Drive; and Tom Unruh, Ranch Lane.

Sherry Puts Interest in Old Recipe

A small amount of wine transforms a Cinderella salad into something very grand, indeed. As good cooks all over the country are discovering, molded salads are greatly improved when some of the usual liquid in a gelatin recipe is replaced by an equal amount of wine.

This Gingered Carrot Salad is the familiar Sunshine Salad, dressed up with California Sherry and chopped candied ginger.

The sherry adds tang to the lemon-flavored gelatin and the sweet pineapple, making this a salad that is especially good with a seafood dinner.

Still another wine complements a fish dinner well—a white dinner wine—when it is served as the accompanying beverage. It should be chilled for two or three hours in the refrigerator to be most refreshing.

Gingered Carrot Salad
1 (6-oz.) package lemon flavored gelatin
1½ cups boiling water
1 (13½-oz.) can pineapple tidbits
Cold water
2 tablespoons lemon juice
½ cup California Sherry
2 cups grated carrots
3 tablespoons finely chopped candied ginger
Dissolve gelatin in boiling water. Drain syrup from pineapple into pint measuring cup. Add cold water to make 1½ cups. Add to dissolved gelatin along with lemon juice and sherry. Chill until mixture thickens.

Fold in carrots, drained pineapple and ginger. Turn into 5 cup mold or individual molds. Chill until firm.

Unmold and serve on crisp salad greens with French dressing or mayonnaise thinned with sour cream. Garnish with radishes and carrot curls if desired. Makes 6-8 servings.

Olives Are Good

To add a gourmet touch to peas or green beans add 2 tablespoons canned chopped ripe olives to ¼ cup melted butter. Toss with cooked vegetables or pass separately. Enough for 6 servings.

CHERRY PUDDING — Highlight this home-style cherry cottage pudding with a unusual, sprightly Lemon Sauce. Dairy sour

Hollow in French Loaf Holds Tasty Mixture

Let them eat bread — French bread, that is—for weekend supper or holiday lunch. Appetites will soar, chairs scrape closer to the table, and noses lift appreciatively to the crusty fragrance of baked bread with a heady suggestion of moist, tomato-cheese filling within.

Accept compliments gracefully and prepare to serve seconds as you slice through the hot bread and the crust and rye filling are laid open on the cutting board.

Family and guests are your willing slaves as they put a fork to this intriguing dish.

Stuffed French Loaf
4 hard cooked eggs

GINGERED CARROT SALAD — A molded salad of carrots and pineapple may get a ho-hum reaction from the family until they taste the new flavorings that make it

something very special. California Sherry replaces some of the usual water in the recipe and chopped candied ginger gives it lots of zip.

Cherries Add Color

Sour Cream Used in Pudding, Sauce

Some people might call this a cake rather than a pudding, but by either name it's wonderful eating, topped with a light, bright Lemon Sauce. The quick, time-saving method of mixing the batter results in a somewhat coarser texture than you'd have in a regular cake.

Dairy sour cream is added along with the milk to give it extra moistness. Tart red cherries, drained and halved, go right into the batter, with a portion reserved to brighten the top of the dessert.

If you're looking for a versatile dessert sauce, this Lemon Sauce is just about perfect. It's not too tart, not too sweet; just right for a honey dessert like Cherry Cottage Pudding.

Yet the same sauce can go over ice cream for a parfait or sundae. It makes a delicate flavor accent for fresh or canned fruit, and an excellent topper for fruit cake or other leftover cake slices.

Cherry Cottage Pudding
1 can (1 lb.) tart red cherries, water pack
¼ cup (½ stick) butter
¾ cup sugar
¼ teaspoon almond extract
1 egg
2 cups sifted regular all-purpose flour
2 teaspoons baking powder
1 teaspoon baking soda

¾ teaspoon salt
1 cup dairy sour cream
¼ cup milk
Drain cherries, halve and pat dry with absorbent toweling. In a large mixing bowl cream together butter, sugar and almond extract until light and fluffy. Beat in egg. Sift together flour, baking powder, baking soda and salt.

Fold flour mixture alternately with sour cream and milk into creamed mixture beginning and ending with dry ingredients. Fold in one-half of cherries.

Pour into a buttered 9x9x1-inch square pan; top batter with remaining cherries and press into batter. Bake in a preheated 375 degree oven 40-45 minutes. Serve warm with Lemon Sauce. Serves 8.

Lemon Sauce
½ teaspoon grated lemon
3 tablespoons fresh lemon juice
¾ cup sugar
4 tablespoons (½ stick) butter
1 egg, beaten
¾ cup dairy sour cream
In one-quart saucepan combine lemon rind and juice, sugar and butter; cook over low heat until butter is melted and sugar dissolved. Remove from heat. Blend a little hot mixture into egg; return to saucepan. Cook over medium heat, stir-

cream, gently folded into a lemon sauce, gives it a smooth creamy consistency and a new twist.

Booklet Can Help You Eat Properly

"Your Age and Your Diet" is title of an American Medical Association booklet available for 10c (100 for \$2) from AMA, 535 North Dearborn St., Chicago, Ill. 60610.

Says the booklet: "Nutritious foods can help a teen-ager to be a peppy, more attractive person, a more rugged athlete and a more alert student. . . Teen-agers are often careless about food selection at meals. The foods most neglected are fruits, vegetables and milk." (Various age levels are dealt with, from infancy to old age.)

Ever mix cream cheese with a little cream or milk and chopped dates and nuts to use as a filling for spice layer cake? Nice!

Mashed Potato Hides Bit of Vienna Sausage

Appetizers should be bite-sized, designed to pique the appetite rather than satisfy. These tiny treats do just that and more. Each crispy sphere hides a surprise filling — a plump Vienna sausage encased in a tasty mashed potato mixture.

Served piping hot to your guests, these are a perfect way to start a party. They're unusual enough to start conversation buzzing, too, when everyone tries to discover how you've made the Surprises.

Satisfying to guests, these appetizers are equally popular with the hostess for they're easy to prepare. The ingredients are shelf staples that can be put together at a moment's notice.

Canned Vienna sausages and

packaged mashed potato flakes are the two master ingredients that you'll use; and the only problem you'll have is keeping enough on hand as these are both items that are used often for both party and family meals.

Vienna Surprises

2 tablespoons butter
2 tablespoons finely chopped onion
1 cup water
¼ teaspoon salt
¼ cup milk
1½ cups mashed potato flakes
1 egg, separated
5-ounce can Vienna sausages
¼ cup mashed potato flakes
¼ cup butter

Saute onions in butter in saucepan. Add water and salt; bring to a boil. Remove from heat; add milk. Stir in 1½ cups mashed potato flakes. Let stand until flakes are soft and moist, about ¼ minute; whip lightly with fork. Stir in egg yolk; cool slightly.

Cut sausages in half crosswise and mold about 2 tablespoons potato mixture around each piece. Dip in slightly beaten egg white, then in potato flakes.

Melt butter in shallow baking pan. Place potato-covered sausages in pan and bake at 400 degrees for 30 minutes, turning once. Serve warm on picks.

VIENNA SURPRISES—You'll like these meat and potato appetizers. They're quickly and easily made with mashed potato flakes and canned Vienna sausages. Try them for yourself.

Bake Pineapple With Macaroons

Part pineapple makes a festive dessert. Pour off half the juice from a number two can of pineapple chunks. Empty the fruit and the remaining juice into a baking dish.

Add ¼ cup of cognac; dot with 2 tablespoons of butter and sprinkle with the crumbs of 8 coconut macaroons. Heat in a preheated 350-degree oven until bubbly. Serve with whipped cream. Makes 4 to 6 servings.

ring constantly, until thickened. (Do not boil.)

Fold in sour cream. Serve on Cherry Cottage Pudding. Makes 1½ cups sauce.

Dill Pickle Juice, Seed Varies Braising Liquid

When preparing a pot-roast, try the juice from dill pickles as the braising liquid just for variety. With this, a bit of dill seed may also be used as a seasoning.

Seasoned with dill, leftover pot-roast may be sliced for tasty sandwiches, particularly good on rye bread.

Use Salted Water to Cover Potatoes

To save time, you can peel and cut raw potatoes several hours ahead, say U.S. Department of Agriculture home economists — provided you cover the ready-to-cook spuds with salted water. Potatoes will remain white this way for hours, but it is not recommended for longer storage times.

Celery salt is an excellent flavoring for stewed tomatoes.

PATROL TRAINEES—Two candidates for the U.S. Border Patrol practice unarmed self-defense at the Port Isabel Academy at Port Isabel, Tex., during their 14-week training period. Only one per cent of all those applying are chosen, and the elite few who finished the rigorous course are added to the 1,500-man force charged with keeping out the thousands of persons who try to enter the U.S. illegally each year.

Border Patrol Men Are Tough

(EDITOR'S NOTE — The course is 14 weeks and it makes boot camp look easy. Although thousands apply, only 1 per cent are chosen. This is the Border Patrol, guarding America's frontiers, and the training center is in a place where trainees can practice what they are taught.)

By BOB M. GASSAWAY
PORT ISABEL, Tex. (AP)—They come from as far away as radio procedure, security, Maine and Washington. Some are ex-police, others have never held a gun.

But, after 14 weeks, they have a lot in common — a handy knowledge of Spanish, a head full of law and the legend-backed badge of a border patrolman.

They are drawn to the southern tip of Texas by the U.S. Border Patrol Academy, just a few miles from the Texas-Mexico boundary.

Each year, the academy adds a handpicked group of men to the 1,500-man force charged with preventing illegal entry into the United States.

NEAR RESORT

The campus is an air base the Navy abandoned when it cut back pilot training. It is on the Gulf of Mexico near the resort and fishing community of Port Isabel.

Trainees learn Spanish in 14

weeks. Native speakers, using the latest teaching aids, turn out linguists able to hold their own in conversation or interrogation in a region where they need as much Spanish as English.

Students become crack pistol shots, but they also learn unarmed self-defense. They study law, first aid, use of vehicles, radio procedure, security, smuggling control, history, ethics, tracking, public relations and other skills.

John E. Eager, chief patrol inspector, a 24-year veteran of the Immigration and Naturalization Service, is headmaster.

'ROUGH COURSE'

"We have a rough course here," says Eager. "The men spend seven hours a day in classrooms, have an hour of physical training a day, spend several hours a night on homework, and then on weekends they're assigned to field duty with regular border patrolmen."

"We accept less than 1 per cent of the men who take tests all over the nation. Then, during the first year, about 10 per cent of these men wash out or quit."

"I've got a terrific staff here," the tall, muscular Eager said. "We screen about 700 men to select our instructors."

"We have people from all over the world come here to study our training technique — from almost every free country in the world, particularly from Central and South America," he said.

START CLASS

The class started with 90 men. Three or four dropped out, Eager said, because of "wife and family situations. One wanted physical training program in his old job back where he was making more than the \$6,200-per-year paid probationary patrol-

men; one was offered the job of police chief in his home town, and one said he just didn't like it."

Some of the recruits come from nearby. J. A. Hinojosa, 27, grew up speaking Spanish in Rio Grande City, 75 miles west of the academy.

He resigned as a lieutenant in the McAllen, Tex., police force to start at the academy, and the family situation. One wanted physical training program in his old job back where he was making more than the \$6,200-per-year paid probationary patrol-

GLENWOOD PLAZA — North Perry at Glenwood

LONG SANDWICH—A hearty lunch that can be made in a hurry, "Broiled Sandwich Loaf" features an oregano-seasoned cheese butter, topped with ham and tomatoes. The

prepare-ahead butter can be kept in the refrigerator, making this one of the easiest meals to make in a hurry.

Herb-Garlic Butter Is Spread on French Loaf for Sandwich

Need a quickie lunch for the crowd? "Broiled Sandwich Loaf" hits the spot. It's the type that's hearty, tasty and filling yet goes together in a jiffy. The seasoning is in the cheese-butter that can be prepared ahead and kept ready in the refrigerator.

A hearty blend of Parmesan and Cream cheeses, the mix is robustly seasoned with garlic and Oregano. Keep the toppers of ham and tomatoes close-by in the refrigerator, to be put together at the drop of a hat.

This is a man-size sandwich that is perfect for an easy Sunday supper as well, served with a tossed green salad and fruit for dessert.

Broiled Sandwich Loaf
1 long loaf French bread
1 pkg. (8 oz.) cream cheese
½ cup butter
½ cup shredded parmesan cheese

1 teaspoon paprika
½ teaspoon oregano
¼ teaspoon garlic powder
8 slices boiled or baked ham
2 large tomatoes

Slice French loaf through the middle lengthwise. Beat together cream cheese, butter, Parmesan cheese, paprika, oregano and garlic powder until well-blended.

Spread about ½ of butter

mixture on cut surfaces of bread. Arrange ham slices over butter. Slice tomato into thick slices. Place tomato slices over ham. Spoon remaining butter mixture into center of tomato slices.

Place under broiler about 3 inches from source of heat 4 to 5 minutes until bread is warmed through and cheese mixture is bubbly and browned. Makes 6 servings.

Brussel Sprouts Served With Dilled Sour Cream

Brussels sprouts Hungarian style are served with dilled sour cream. To make 8 servings: Cover and cook 3 (10-ounce) packages of frozen brussels sprouts in 3 cups of beef bouillon 10 minutes. Cover and chill in liquid. Blend 1 pint of sour cream with 1 tablespoon of chopped fresh dill, adding white pepper, salt and onion juice to taste. Chill, then serve with drained sprouts.

CAKE FOR SPRING—Use two layers of yellow cake. Beat ¾ cup smooth peanut butter with ½ cup marshmallow creme until smooth. Gradually add ½ cup evaporated milk; beat smooth. Gradually beat in 2¼ to 2½ cups sifted confectioner's sugar and ¼ teaspoon cinnamon. Fill and frost cake layers; allow to set. Decorate cake with orna-

mental frosting in a floral pattern. To prepare ornamental frosting: (Makes about ¾ cup.) Beat 1 egg white until frothy; add ¼ teaspoon cream of tartar. Beat until almost stiff. Gradually add 1½ cups sifted confectioner's sugar and ¼ teaspoon vanilla, beating until stiff.

Serve Tasty Chicken Bake Italian

For supper tonight serve Chicken Bake Italian. In saucepan cook ¾ cup sliced onion and ½ teaspoon oregano in 1 tablespoon butter or margarine until onion is tender. Combine with 1 package (9 ounces) frozen Italian green beans (cooked)

in bottom of shallow baking dish (9x8x2").

Arrange 4 servings sliced chicken over beans; pour on 1 can (10½ ounces) chicken gravy; sprinkle with grated Parmesan cheese. Broil, 4 to 5 inches from heat, about 8 minutes until bubbling hot and lightly browned. Makes 4 servings.

Browned Potatoes

What tastes better with roast pork than oven-browned potatoes? Parboil medium-size, peeled potatoes and then place in the roasting pan with the pork a couple of hours before the meat is done. Baste the potatoes with the drippings in the pan and turn the spuds as necessary.

Why do we keep putting that precious oil in Miracle Whip?

ONE QUART
KRAFT
Miracle Whip
Salad Dressing

CREATED BY KRAFT
KRAFT FOODS, CHICAGO 90, ILL.

You can make salad dressing with a third less oil. One brand does. But they have to add extra starch and water to keep the volume up. ■ Starch and water don't do a thing for flavor. Fine, delicate vegetable oil (the kind Kraft uses in Miracle Whip) does a lot. Take out a third of the oil and you ruin the delicate flavor balance, the spices begin to bite. ■ The brand that skimps on oil costs as much as America's favorite. So why not go first class? Kraft never stints on oil—or anything else—in making the first class dressing, the one and only Miracle Whip.

Get the first class dressing
GET 25¢ BACK!

Mail a 1 quart Miracle Whip label (or 2 pint labels) to Kraft. Get back 25¢ in cash!

Try this Comparison Test:

MIRACLE WHIP OTHER BRAND

Spoon Miracle Whip on a bite of bread or a plain cracker. Spoon the salad dressing made with less oil on another bite. Taste both... Mmmmmmm! Wouldn't you rather go first class with smooth-tasting, one and only Miracle Whip?

MIRACLE WHIP OFFER
P.O. Box 811, Chicago, Illinois 60677

I see what you mean about first class flavor! Here's a 1 quart label (or 2 pint labels) from Miracle Whip Salad Dressing. Please send me my 25¢.

If you plan to invest in a new television set

we strongly urge you to consider Zenith

You don't have to be an engineer to see the quality in Zenith handcrafted TV. Each week thousands of families who know quality choose Zenith Color TV and black/white TV. Quality is the extra ingredient in Zenith. It is not one thing. It is many things. It is the extra ingredient in engineering, design and manufacture. It assures the Zenith buyer of the highest performance standards. Each set is handwired for greater dependability and fewer servicing problems. Millions of Zenith owners who have experienced a high measure of operating dependability and low operating costs recognize Zenith's emphasis on quality as the greatest value in home entertainment instruments. All Zenith merchandise is the same high quality . . . Only the dealer makes the difference! And what a difference there is! When you purchase your Zenith from Highland you are buying it from Michigan's LARGEST ZENITH DEALER. Because Highland buys and sells more Zenith merchandise—more SAVINGS are put in your pocket! You will always find a BIGGER SELECTION to choose from at Highland . . . And it's only natural that Highland should provide the best in expert service after the sale—to make Zenith's few service problems even fewer. As always, your complete satisfaction is assured at Highland. Yes, we urge you to consider buying Zenith. When you do, consider buying it at Highland.

Red Wings Slip Hawks, 3-2, to Reach Finals

McLain, Sherry Cool Red Sox

BOSTON (AP) — Denny McLain and a touch of Sherry put the Red Sox to rest in the second series of the Detroit Red Wings' four-game sweep.

The Tigers split a Patriot's Day doubleheader with the Boston Red Sox, dropping the opener 7-0 as the Sox manhandled ex-teammate Bill Monbouquette, and winning the nightcap 6-4 on a sharp relief performance by Larry Sherry.

Everyone in the American League figured the Tigers had outfoxed the Red Sox last winter in dealing off their stringers George Smith and George Thomas for Monbouquette, a veteran right-hander who had labored tirelessly in the fruitless Red Sox vineyard.

But Boston bats bombed Monbouquette for six hits and six runs in the first two innings for the first time since 1954.

Boston victory of the year. Carl Yastrzemski's three-run homer in the second sealed the victory.

FOUR DOUBLES

McLain had a one-hit shutout going until the eighth inning of the nightcap when Boston exploded for four doubles and three runs.

Manager Charlie Dressen brought in Orlando Pena who served up a run-scoring single to Tony Conigliaro and a walk to keep the Red Sox rally going.

In came Sherry to slam the door and preserve McLain's second victory of the year.

McLain drove in two runs with a single in the fifth and two more scored on Norm Cash's bases-loaded single in the seventh.

Dave Moorhead and Ken Sanders combined to blank Detroit on five hits in the opener.

Dave Wickham is expected to start today's final game of the Red Sox series.

WINGS SCORE — Detroit Red Wings' Andy Bathgate (21) sent his teammates in to a 1-0 lead in the first period last night when he slapped this loose puck into the net against goalie Glenn Hall (1) in the sixth game of the Stanley Cup semifinal series. No. 5 is Hawks Matt Ravlich. Chicago moved in front, 2-1, in the second period, but the Wings came back with two goals in the final period to take a 3-2 victory and win the series, 4-2. Detroit journeys to Montreal to open a best-of-seven final series Sunday.

Dean Prentice Sinks Chicago With 2 Goals

Detroit Nets Winning Tally Late in Third; Montreal Next Too

DETROIT (AP) — The last thing Dean Prentice expected when he suited up for the start of the 1965-66 National Hockey League season was to be playing in the Stanley Cup finals.

Prentice, acquired by Detroit from Boston in a late-season trade, almost single-handedly carried the Red Wings into the Stanley Cup finals with an assist and a pair of dramatic goals in the 3-2 victory over the Chicago Black Hawks Tuesday night.

Prentice tied the score with 3:35 remaining in the game and came back 63 seconds later to get the winner.

"It was the biggest goal I have ever scored in my life," Prentice said. "What made it more important was the fact that it puts me in the finals for the first time in my 14-year career. I don't have to tell you what a thrill that is."

The goals were the third and fourth for Prentice in the series. He scored six goals and added nine assists in 19 regular season games for the Red Wings and entered the playoffs with a career record of two playoff goals and seven assists.

PLAY SUNDAY

The triumph gave the Red Wings a 4-2 edge in the semifinal series. They will meet Montreal in the first game of the best-of-seven final series in Montreal Sunday afternoon.

Goalie Roger Crozier, who Chicago Coach Billy Reay said was the deciding factor in the game, stopped Stan Mikita just before Prentice's first marker and preserved the triumph with two quick saves on Kenny Wharram soon after the winning goal.

The Red Wings, who defeated the Black Hawks once in 14 regular season games and were held to six power play goals in that span, got their 16th with a man advantage in the series when Andy Bathgate scored at 2:51.

Pat Esposito got that one back on the first game tally and Pat Stapleton shot Chicago ahead with a 75-foot slap shot which skipped past Crozier.

BOUNCED AWAY

"I saw the puck coming all the way," Crozier said. "It took one bounce in front of me and skipped under my arm as I reached for it. I never touched it."

The Black Hawks protested the lead and appeared to be on their way back to home ice for a deciding game before the Prentice fireworks.

Referee John Ashley handed out 17 penalties in the game, 12 of them in the first period.

Chicago's Bobby Hull and his shadow, Detroit's Bryan Watson, went off together three times in the first period.

After the game, the game was called briefly as the players shook hands.

"I just told him that I thought he was the greatest and was sorry I had the job of checking him so close," Watson said. "He just wished luck. What else could he say?"

SPREADING FINE

Watson was reminded that a spearing penalty in the second period would cost him \$25. "Is that all?" he asked. "I would have paid that much to see this game. The scarpers were getting \$30."

Manager Coach Sid Abel said he was undecided as to what strategy he would employ against Montreal.

"We'll take tomorrow off, then skate here Thursday," Abel said. "I'll have a talk with the boys and we'll know more about what we think should be done against the Canadiens."

Abel would not hazard a guess as to the outcome of the finals but Tommy Ivan, general manager of the Black Hawks, picked the Canadiens.

"They'll be on their home ice at Montreal and that is a big advantage," Ivan said.

Ready predicted Montreal would win in less than seven games.

SPORTS

White Sox Trim Angels, 3-1

Chicago Outfielder Finds Range

By The Associated Press

Tommye Agee, whose head was the target of a Venezuelan whisky bottle this winter, may finally be zeroing in on major league pitching.

Agee, making his fifth attempt at gaining a permanent spot in the majors, hit a home run and ignited the winning rally with a single Tuesday night as the Chicago White Sox defeated California 3-1 and spoiled the Anaheim debut of the Angels.

The 23-year-old center fielder hit torridly in spring training but then managed only one hit in his first 10 at-bats of the season.

Now he has three hits in his last seven trips, indicating he's ready to stay in the starting lineup.

An overzealous fan in Venezuela knocked Agee out of the lineup this past winter. He was playing for Magallanes and in one game hit a grounder go through his legs for an error.

"Those fans are very enthusiastic," he explained. "I was up against the fence when the ball went through my legs. The next thing I knew my head was spinning."

BIG LUMP

A Magallanes fan was so furious with the error that he fired a whisky bottle at Agee.

"For a long time I had a big lump," he said.

The White Sox hope Agee now will place a few lumps himself.

Brother Rice Triumphs in Opening Golf Match

Birmingham Brother Rice opened his Detroit Catholic League Central Division golf tournament in a determined bid to regain the edge in quest of an eighth straight National Basketball Association championship.

The Celtics evened the best-of-seven series 1-1, overpowering the Lakers 129-109 with a sharp-shooting attack and tight defense Tuesday night before a sellout crowd of 13,909 at the Garden.

"I'm not happy yet," Boston Coach Red Auerbach said. "They still have an edge on us because the next two games are in Los Angeles. And we're not going to be deluded into thinking things are going to be easy out there."

The Celtics, who blew an 18-point lead and lost 133-129 in overtime in the opener, took the cue from Auerbach, but hopes were high.

Larry Siegfried, who scored 16 of his 20 points in 8 1/2 minutes of the second period as Boston roared to a 71-47 halftime lead, called the Celtics' defense the key in the Los Angeles games tonight and Friday.

Abel would not hazard a guess as to the outcome of the finals but Tommy Ivan, general manager of the Black Hawks, picked the Canadiens.

"They'll be on their home ice at Montreal and that is a big advantage," Ivan said.

Ready predicted Montreal would win in less than seven games.

In other American League games, Cleveland defeated New York 5-1. Boston downed Detroit 7-0 before losing 6-4, Baltimore outlasted Washington 14-8 and Kansas City edged Minnesota 3-2.

Agee's sixth-inning homer drove in three runs with two singles in Baltimore's victory. Curt Blefary added four RBI, three on an eight-inning homer. Don Blasingame knocked in three Washington runs with a single and a double.

Rookie Chuck Dobson and Low Krausse produced homers on six hits while Kansas City took advantage of two dropped fly balls by right fielder Tony Oliva. The pair of two-base errors led to two unearned runs against Camilo Pascual.

Frank Robinson collected three hits, including a two-run homer, and Brooks Robinson drove in three runs with two singles in Baltimore's victory. Curt Blefary added four RBI, three on an eight-inning homer. Don Blasingame knocked in three Washington runs with a single and a double.

PAINFUL ENDING — Kenji Kimihara of Japan displays his blistered left foot in the dressing room after his victory yesterday in the Boston Athletic Association Marathon race. Kimihara and his three teammates took the first four places in the 26-mile, 385-yard event. Story on Page E-2.

Olympic Site Decision Near

Munich Hoping Salt Lake Worrying Over Missing Exhibit

Detroit Also Bidding to Play Role of Host

MUNICH, Germany (AP) — This city of beer and brass bands is hoping to be the host of Germany's first summer Olympics since the elaborate 1936 games of Hitler's Third Reich.

Munich, with the full support of the West German government has bid for the 1972 Games.

The International Olympic Committee, which will choose the site at its Rome meeting beginning Thursday. Other cities bidding for the summer games are Detroit, Montreal and Madrid.

Munich faces a stiff fight because some Communist nations already have vowed their opposition and the Latin delegates are expected to support Madrid.

Canada and Spain have never played host to the summer Olympic Games. The United States was host in 1904 and 1932. Germany had the Winter Games in Garmisch-Partenkirchen in addition to the Summer Games in Berlin in 1936.

Munich's problem with the Communist could help Detroit. Reports indicate that Madrid will withdraw.

BIG OUTLAY

Munich is planning an outlay of about \$140 million, to be shared evenly by the West German government, the state of Bavaria and the city.

The German planners stress the fact that the games would be centralized only 2 1/2 miles from downtown Munich in an area known as Obersiebenbrunn.

Building plans call for a main stadium to hold 100,000; a multipurpose hall for gymnastics, boxing, basketball, tennis and equestrian events with a seating capacity of 12,000; a hall seating 8,000 for wrestling and fencing; a swimming stadium accommodating 10,000 spectators, a cycle track, and an Olympic training village for 8,000 athletes and officials.

Some 10,000 parking spaces will be provided. The site is only a 30-minute walk from downtown and a subway system is expected to be completed by 1972.

Only rowing would have to be held at a distance — either in Kiel, on West Germany's Baltic Sea coast, or on a Bavarian lake.

Milford Golfers Win

Milford's golfers battled in the rain yesterday in downing West Bloomfield, 166-172, at Highland Hills in the opener for both teams. Dennis Weeks carried a 40 for the winners and Bill Joyce matched that score for the losers.

ROME (AP) — Representatives of Salt Lake City, Utah, seeking the 1972 Winter Olympics, were still hoping today that their missing exhibit would arrive here for the site deliberations.

"It's most come," said J. W. Gallivan, publisher of the Salt Lake City Tribune and a member of the city's organizing committee.

The 1,000-pound exhibit was to have arrived in Naples Monday and then brought here for the 12-member International Olympic Committee meeting at which the site of the 1972 Summer and Winter Games will be chosen.

Gallivan learned that the plane carrying the exhibit had been grounded at the U.S. Air Force Base at Mildenhall, England, by engine trouble.

Later, he was told a flight officer was arranging to fly the exhibit to Milan on a private airliner.

A spokesman for the air base in Mildenhall said the exhibit left the base Tuesday night for a flight from London Airport. But Gallivan said early today he still had no word of its whereabouts, either from the officer who was to accompany the exhibit to Milan or from IOC officials in Rome.

It was learned that the exhibit had been sent to Rome Tuesday by a commercial carrier. Air National Guard pilot Don Phil, captain of the carrier stalled in England with the exhibit, had called his wife from London with the information.

Should the exhibit not arrive in time, Salt Lake City would still press its bid. Gallivan said. All IOC officials have been sent a detailed book of the city's proposals for conducting the games.

The IOC will decide by secret ballot next Tuesday the sites for the games.

Along with Salt Lake City, Banff, Canada; Sapporo, Japan; and Lahit, Finland, are seeking the Winter Games. Banff is favored.

Barons Take Track Opener

Bloomfield Hills' Barons opened the 1966 track season yesterday with a 63-46 victory over Milford on a rain-slowed track.

In Waterford League

Softball Rule Is Changed

A significant rule change has been announced by the Waterford Township Recreation Department as it plans the 1966 men's softball program.

Currently striving for a 14-team, two-league setup by Monday night's second organizational meeting, the department has revealed a change in its roster requirements.

Instead of the previous five non-resident player limit, all teams now need only have six Waterford resident members.

A resident is listed as any one living within the township school system, any employee of a firm paying township taxes or of the township or of the school system, or anyone paying property taxes to the township.

No one living outside the county or below 14 Mile Road is eligible to participate unless he participated last season.

MEETING
All teams desiring to play in the program should be represented at the meeting 7:30 p.m. Monday in Room 103 at Schoolcraft Elementary School.

The sponsor fee is \$30 for all teams except those having

new sponsors outside the township. For those it is \$50.

The player registration fee is \$5 for residents, and \$7 for non-residents. The league season is set to open Monday May 9th.

Additional information is available at the recreation office.

Top Drag Racers in Sunday Match

Motor City Dragway will have a best-of-five match race Sunday afternoon featuring two of drag racing's top competitors.

K. S. Pittman of Los Angeles will duel George Montgomery of Ohio — both of whom have national reputations as National Hot Rod Association racers.

Each will drive an A-Gas class car capable of reaching nearly 150 miles per hour from a standing start on a quarter-mile drag strip. The race series will begin at 2 p.m.

Griddler Wilson to Tail for Dad on Miami Unit

MIAMI, Fla. (AP) — George Wilson, coach of the new Miami team in the American Football League, has acquired draft rights to his son, George Jr., a quarterback from Xavier University at Cincinnati.

Young George lost his signal-calling job to Carroll Williams last season, but his father said Tuesday "he is quite a punter and I think he has the potential of a good pro quarterback."

Wilson added that he had told assistant coaches not to give his son a break, and said he would cut the boy from the squad if he didn't measure up.

Rights were obtained from the Buffalo Bills. Young George was a future draft choice of both the Bills and the Detroit Lions of the National Football League. His father chose him as a Detroit future when he was head coach of the Lions in 1964.

Club Elects President

BOSTON (AP) — Scott D. Hamilton of Anchorage, Alaska, was elected president of the Road Runners Club of America.

Cranes Down Kettering in Track

Although the weather left most outdoor facilities in poor shape for high school athletics yesterday, several track meets were held as squads prepared for big events later in the week.

Waterford Kettering stumbled at Cranbrook while trying to get ready for Saturday's Waterford Relays, dropping a 65-44 verdict to the Cranes.

Walled Lake, which will meet Pontiac Northern in a big Inter-Lakes meet Thursday, finished second in a triangular with Detroit Thurston and Redford Union. Thurston ran away with the meet, posting 77 5/6 points.

The Vikings just slipped Redford for second, 29 2/3 to 29.

Brother Rice, meanwhile, readied itself for the defense of its own Relays Meet title Saturday with a 66-43 conquest of University of Detroit High.

Cranbrook won eight of the 11 events from Kettering. Ed Randle won both the 100 and 200 yard dashes for the Cranes and ran a leg on the winning 880 relay team.

THREE FIRSTS
The Captains' Bill Penozo won three events, including wins in 1966.

Pole vaulter Bill Saffo went 12-1 to set a school mark in that event for the Warriors. Rob Zellinski (880 run) and Tom Kurkowski (440 run) had individual firsts plus helping the mile relay team to a 3:11.8 winning time.

Cranbrook at Kettering
Shot Put — Clint Jones (Green) 47-26.
Discus — Bill Penozo (K) 104-10.
Javelin — Tom Kurkowski (K) 104-10.
Pole Vault — Bill Saffo (K) 12-1.
800 Run — Rob Zellinski (K) 3:11.8.
400 Run — Tom Kurkowski (K) 1:04.
200 Run — Ed Randle (K) 29 2/3.
100 Run — Ed Randle (K) 15 1/2.
500 Run — Bill Penozo (K) 2:04.
1 Mile — Bill Penozo (K) 3:11.8.

Giants' Slugger Near HR Milestone

Mays Lowering Boom on Durocher

By The Associated Press
Willie Mays is closing the boom on Mel Ott and lowering the boom on Leo Durocher. Woodrow Williams crashed four hits — including his third home run of the young season — as the San Francisco Giants cut lasted Durocher's Chicago Cubs 11-10 Tuesday for their sixth victory in seven games.

The home run — 500th of Mays' 15-year career — left him three short of Ott, the late Giants slugger and National League record-holder. Mays, who belted 52 homers last year, should pass Ott, as well as Williams, 521, and Jimmy Fox, 534, this season. That would put him in the No. 2 spot on the all-time list behind Babe Ruth's 714 total.

All three of Willie's 1966 blasts have come off Chicago pitchers and two have helped beat Durocher, his former manager and biggest booster. Mays homered in the Giants' 9-1 season-opening victory over the Cubs at San Francisco last week before spelling Durocher's Chicago debut Tuesday.

TIED FOR LEAD
The Cubs have dropped three of four to San Francisco and six of seven over-all.

Pittsburgh remained tied with the Giants for the National League lead by pounding Cincinnati 7-3 for its fourth straight. Houston knocked out Don Drysdale and whipped Los Angeles 6-5; Atlanta edged Philadelphia 4-3 and St. Louis trimmed New York 5-2.

The Gains paraded eight pitchers against the Cubs — tying a league record — before Bob Bolin got the last out with the bases loaded in the ninth. Trailing 9-8 in the eighth, San Francisco struck for three runs — one on Mays' third single and two

on Don Landrum's two-out double — to pull it out.

The Pirates rocked Cincinnati's Sammy Ellis and two successors for 17 hits, Don Clendenon leading the way with four singles. Winning pitcher Steve Blass, meanwhile, scattered seven hits, including rookie Tommy Helms' first major league homer. Blass also snapped Vada Pinson's carry-over hitting streak at 31 game SECOND START

Drysdale, making his second start for the Dodgers, departed in the middle of Houston's four-run fifth inning uprising that erased a 5-2 Los Angeles lead. Jim Wynn applied the clincher with a two-run homer off reliever Bob Miller in the eighth.

Atlanta starter Wade Blasingame keyed a two-run rally in the third inning with a bunt single and reliever Clay Carroll checked Philadelphia on one hit over the last five innings. Blasingame's safe bunt, singles by Gary Geiger and Felipe Alou, a force play and Dick Groat's throwing error produced the deciding runs in the third.

Tim McCarver's bases-loaded triple in a four-run fifth inning rally shot the Cardinals past the Mets as rookie Larry Jaster outpitched New York's Jack Fisher, who has lost 10 straight. Ex-Cardinal Ken Boyer hit a bases-empty homer for the Mets, who dropped back to the 500 mark with a 2-2 early-season mark.

Bulgaria Team Triumphs Over Albania Five

TOKYO (AP) — Bulgaria's Spar basketball championship team defeated the Dynamo of Communist countries at Pe team of Albania 77-43 in the King Tuesday.

THE GMC LIGHT HEAVYWEIGHT CHAMPIONSHIP

THE SALES EVENT OF THE CENTURY

See a first-round K.O. in the GMC Truck showroom.

Your GMC dealer has a one-two combination that's certain to flatten any contender. One, he's got the champ. A GMC pickup. Go a few rounds with it. It's just waiting to show you the kind of footwork and hard-hitting punch that make it the all-time champion. Two, your dealer's ready to unleash his Sunday punch—price. He wants you to pocket the title. Make him prove it. You ought to go home with the champ in your corner. Like today.

Your GMC Truck dealer invites you to do some roadwork with the champ.

3. Road Hazard—Any tire that fails due to Road Hazard during the designated number of months guaranteed will be replaced or repaired.
4. Workmanship and Material—Every tire sold by us is guaranteed against all failures or defects in workmanship and material for the life of the original tread.
5. Complete Customer Satisfaction—If you are not completely satisfied, we will replace or repair the tire at no charge.

CHIMNEY DUCK — Dane Guisbert, 283 Granger, Ortonville, holds a hen wood duck he pulled out of the fireplace chimney at his home last week. It is believed the duck fell into the chimney while exploring the opening as a possible nest site. Wood ducks prefer to nest in hollow trees.

Expect Over 175 Entries for Dog Obedience Match

Over 175 dogs are expected to compete for honors Sunday in the annual Southern Michigan Obedience Training Club's sanctioned spring fun match.

Judging will get under way at 11 a.m. in the Bloomfield Hills High School gym.

"We could have as many as 200 entries," said Reg. Armstrong, president of SMOTC. "It's difficult to say because registrations won't close until 10:45 a.m. the day of the show."

There will be nine obedience classes, including sub-novice and brace.

The sub-novice dogs are those that have never been shown in any obedience match or AKC show. All will be shown on leash.

Mrs. Grace Williams will have charge of four rings on the gym floor. Judges and their assignments are as follows:

David Riglot—Novice A; Eleanor Bennett—Novice B and Open B; Ray Chiasson—Open A, Graduate Novice and Brace; Bill Wells—Utility, Sub-Novice and Versatility.

Braces will be judged after all other classes.

TRPHY LIST

The dogs will be trying to win one or more of the 97 trophies and special awards being offered.

The entries are grouped in the various classes according to how proficient a dog is in obedience. The more accomplished a canine becomes, the higher the advancement — novice to open and then utility.

Campground Fee Hike Scheduled to Start June 1

Starting June 1, vacationers will pay 25 to 50 cents more a day to stay at modern-equipped state park campgrounds in Michigan.

The exact increase in their camping fee will depend on the extent of electrical service available at campgrounds they use.

At all first-class campgrounds where every site has electricity, the current daily camping charge of \$1.50 will be raised to a flat \$2 fee.

The basic camping rate will be increased only 25 cents at these campgrounds; the other 25 cents is a built-in cost covering the standard charge for electrical service.

The new fee for campgrounds having modern facilities but lacking complete electrical service is \$1.75 per day, also effective June 1. As before, another 25 cents will be charged daily at these campgrounds for the use of electricity where it is offered.

Webbed Feet Major Clue to Noisy Flu

"I knew it was a bird, but it really startled me when I saw these webbed feet coming out."

This is how Dane Guisbert describes the rescue of a hen wood duck that may have been stuck for a week in the fireplace chimney at his home in Ortonville.

"We first heard a noise in the chimney Easter Sunday," said Guisbert, 283 Granger. "Then we didn't hear it again until Thursday."

"Finally, John, my son, stuck a wire up in there and we heard wings flapping so we thought it was a bird. I took the damper off — it was closed and that's what kept the duck in the chimney — and reached up in."

He extracted the duck and it was placed in a cage.

Hunger and thirst overcame a captive wild duck's normal inclination not to eat. The hen has been regaining her strength on a diet of cracked corn and will be released this week.

Conservation Department waterfowl experts say wood ducks falling into chimneys isn't as unusual as it may sound. These ducks nest in hollow trees and occasional one will investigate a chimney with disastrous results.

New Trout Record Claimed in West

HELENA, Mont. (P) — A brown trout caught in southwestern Montana may be a record breaker for North America, George Holton of the Montana Fish and Game Department said Monday.

Based on a national sports magazine records up to 1961, Holton said, the 29-pound trout caught last week by E. H. Bacon of Three Forks, Mont., topped his record of 27.99 pounds.

The known record holder, the record brown trout listed was 26 pounds, two ounces, caught from Dal Hollow near Tailwater, Tenn., in 1958. Bacon caught his brown in Wade Lake.

Theunker of lunners, however, was a brown trout weighing 39½ pounds, caught in Loch Awe, Scotland, in 1866. The magazine lists this as the world's largest brown.

Bush Lake New Site of Event

Holly Canoe Races Scheduled Sunday

The leading canoe racers in Michigan are expected to compete Sunday in the annual races at Holly.

There is a change of format this year. Instead of the race being from Holly to Fenton on the Shiawassee River, the event will be staged on Bush Lake.

The first race will get under way at 1 p.m.

A \$250 prize list has been set for the professional class which is limited to racing canoes.

Ralph Sawyer, of Oscoda, six-time Au Sable River race winner and his partner, Stan Hall, will compete. Norm Rogers and Blain Brown of Roseville, first place winners in the Michigan

Canoe Racing Association's official contests last year, have entered.

Four Holly men — all winners of the Texas Water Safari — may compete in the pro class. They are Al and Pat Widig and Ed Adams and Leroy Widig.

Sponsored by the Hulet-Brace Post of the VFW, and son, the races will start and end at the beach area. Adams, vice president of the MCRA, will direct the races.

There will be several junior and senior events, both amateur and professional.

In the Junior B class, boys 16-18 year old will compete in firemen being rated a slight edge "because they know more about water," according to one race official.

No entry fee will be charged. Same age range.

Girls and Girl Scouts, 11-15, will compete in non-racing canoes.

There will be mixed amateur class races for father and son, brother and sister and father and daughter in non-racing craft. Trophies and arm patch will be awarded for various placings.

Junior teams from as far north as Alpena and from the Rockford area have entered.

The Holly firemen and police are tentatively scheduled to match paddle strokes with the edge "because they know more about water," according to one race official.

No entry fee will be charged. Same age range.

Girls and Girl Scouts, 11-15, will compete in non-racing canoes.

There will be mixed amateur class races for father and son, brother and sister and father and daughter in non-racing craft. Trophies and arm patch will be awarded for various placings.

Junior teams from as far north as Alpena and from the Rockford area have entered.

The Holly firemen and police are tentatively scheduled to match paddle strokes with the edge "because they know more about water," according to one race official.

No entry fee will be charged. Same age range.

Girls and Girl Scouts, 11-15, will compete in non-racing canoes.

Doctor School Growth Cited

LANSING (AP) — Michigan medical schools will jump their enrollments by nearly half within three years, the State Board of Education was told Tuesday. Deans of Wayne State, Michigan and Michigan State Medical schools wrote the board the increase would be "one of the most significant expansions in medical education in the United States."

Expansion plans are: Michigan State—open its new two-year medical school to 25 students this fall. The number will eventually rise to 64 per class. After two years, students will transfer to other medical schools.

Wayne State—admit 130 freshmen in 1967 instead of the present 125 and increase to 200 by 1969 if plans for a new building proceed as scheduled. It would eventually accommodate 250 per class.

Michigan — increase enrollment from 200 to 210. The letter said the three schools, given financial support, "could expand their efforts to help hospitals throughout the state strengthen their intern and residency programs."

JOINS NEW FAMILY — Actress Eleanor Parker (left) reaches up to pat the cheek of her new stepdaughter, Laurie, 15, daughter of Raymond N. Hirsch (center) in Chicago yesterday. Hirsch, a Chicago businessman, and Miss Parker were married Sunday in

Nevada. The actress has three children by her first husband, the late Bert Friedlob, and one by her divorced husband, artist Paul Clemens. Hirsch is a widower and has two daughters.

He's Vigorous at 70

Iturbi Likens Age to Sunset

By BOB THOMAS
AP Movie-Television Writer
HOLLYWOOD — Jose Iturbi's reflections at 70:

"How do I feel? No different. It is like looking at the sun. You see it in the sky, and it does not appear to be moving. But if you go away and come back to look at it, you can see that it has moved. And then the sun sets, and you know for sure that it has moved."

THOMAS

Iturbi at 70 is far from the sunset of his years. Despite a flu attack that had prompted him to cancel several concerts, the pianist-conductor appeared for an interview in his Beverly Hills home with his usual vigor. "It was rough," he admitted, "a very bad flu. But every day I am getting stronger and I am able to do more. Once more I am beginning to exercise, and that is important in my work."

"Physical condition means a great deal in piano playing; so much of it is muscular. That's why I have always prided myself in remaining in top shape." Such a philosophy has preserved his position as one of the top attractions of the concert world for more than four decades. His achievements will be saluted next month by a 70th birthday concert with the Los Angeles Music Festival, which is celebrating its 20th year at UCLA.

WORLDWIDE
In addition, Iturbi will be displaying his muscular style at the keyboard and on the podium

in concert halls all over the world.

"I am a great believer in air travel," he remarked. "I have piloted my own plane, and I like nothing better than to be setting out in a jet for a far-off concert. My dog, whom I love, is now 8½ years old — my age! — and he has accompanied me on 42 trips across the Atlantic, not to mention flights to South Africa, South America and wherever."

He and his dog have slowed their pace, he admitted. From a one-time high of 132 concerts in one year, the Spanish-born musician has dropped to 50 to 60, and that's the way he would like to keep his schedule.

"I would like now to enjoy my

home," said Iturbi, who for 20 years has lived in a Spanish-style house with paintings by Renoir, Braque, Modigliano, Utrillo, etc. "One year I was home only five days — five days! It was madness."

LITTLE LEISURE
His life at home, as on the road, permits little leisure. His passion for condition dictates a rigorous schedule of exercise, particularly at the punching bag. Piano practice is a never-ending discipline.

"I work on technique for an hour and a half — two hours," he said. "Then I take up the work that is current. That can mean two-three hours — whatever is required." He is constantly adding new works to his repertoire.

How long will he continue to play? "I will play only as long as I feel I can play. In that regard I have an artistic conscience."

British Space Scientist Raps Furor on UFOs
BOSTON (U) — A leading British space scientist, Sir Bernard Lovell, says the current furor in the United States over unidentified flying objects is "incredible nonsense."

"The UFOs," he said last night, "are natural phenomena or hoaxes. The people who see them must be tremendous emotionalists."

Sir Bernard, director of the Jodrell Bank Observatory and here on a speaking tour, added: "Besides, does it ever occur to them that we have sent up a lot of things and that some of them might be coming back, such as nose cones and rockets?"

"Could anyone be seeing those?"

Satellite Relay Use

Employed by First Ship

HONOLULU (AP) — The Navy says the guided missile cruiser Canberra has become

the first U.S. ship to make operational use of a satellite communications relay.

The circuit, between the Canberra and the naval communications station in Hawaii, uses the Syncom 3 satellite.

Hiked by Five Cents

FLINT (AP) — Riders of city buses will have to dig a little deeper into their pockets starting Wednesday. Rides are going up a nickel each.

SINGLE-HANDED CAPTURE — Pretty Mrs. Sue Imbomone, 24, of Metairie, La., looks over the pistol she used yesterday to capture a man accused of burglarizing a coin-operated machine outside her apartment. Mrs. Imbomone, wife of a deputy sheriff, held the suspect at gunpoint until police arrived.

Owners Roaring No Lion Around, Says Town

PIEDMONT, Calif. (AP) — The Piedmont City Council describes Simba as a potential danger. They passed an ordinance Monday night banning lions throughout Piedmont, a San Francisco East Bay area residential community of 11,000. Simba is the only lion in town.

"BABE IN WOODS"

Simba's owners said the beast is just a babe in the woods—not a ferocious king of the jungle.

"The lion has visited the park, but on a leash and we let no one touch it," Quailie says. "It only runs loose in our house."

Quailie and Clay, young graduate students in mathematics at the nearby University of California Berkeley campus, describe the lion with such adjectives as "lovable," "cool" and "lion-hearted."

Believe Dead Jet Stowaway Fleeing Reds

PARIS (UPI)—Suspicion grew today the unidentified stowaway found dead in the wheel pit of a French airliner was a political refugee fleeing the Iron Curtain.

The dark-haired, lightly clad man apparently perished 30,000 feet over Eastern Europe in the freezing, cramped wheel compartment of an Air France jetliner.

Officials said the stowaway might have slipped aboard the Caravelle jetliner either in Moscow or Warsaw Sunday despite the heavy guard mounted on it in both airports.

The tiny compartment where he was found is under the right wing of the plane and when the wheel was retracted shortly after takeoff forced him to bend double in seated position.

He was found with his face buried in his knees and two earplugs torn from his shirt stuffed into his ears.

"SUFFERED TERRIBLY"

Pending publication of autopsy details, it was believed he died of a combination of suffocation in his unpressurized prison and the minus 40-degree temperatures at high altitudes.

"He must have suffered terribly before he died," one medical source said.

The body was found early Monday by an Air France mechanic overhauling the plane after it returned from a busy weekend flying between Paris, Barcelona, Spain, and Munich, Germany as well as Moscow and Warsaw.

Air India Jet Damaged

BOMBAY, India (AP) — Air India said one of its Boeing 707 jetliners was slightly damaged while landing at Bombay's Santa Cruz Airport this morning. The airline said the undercarriage was damaged but the plane was hurt in the plane, which was on a practice flight.

ARTHRITIS

Research at SPEARS has opened the door to health for thousands of sufferers who had been led to believe there was no help for their arthritic and rheumatic agonies. If YOU are interested in the treatment that has released so many from the bondage of pain and inactivity, write for free literature; and see your local chiropractor.

Hijack Ring Is Broken

CHICAGO (UPI) — The Federal Bureau of Investigation has broken a ring of crime syndicate-connected road agents who specialized in hijacking silver bullion shipments. The thefts totaled more than \$1 million.

The FBI said Tuesday it had arrested 11 men in the Chicago area and one in Staten Island, N.Y. The agents were armed with federal indictments naming 18 men—the result of a painstaking two-year investigation.

Marlin W. Johnson, head of the FBI office in Chicago, said none of the taken by the hijackers has been recovered.

The indictments, which charged kidnaping, theft and conspiracy, specifically involved the theft of \$380,000 in silver bullion from a truck in LaRue Park, a reputed syndicate hoodlum, John (Johnny) the Bug Varella, 40, River Forest, a suspected syndicate musician Morris (Mashie Baer) Saletko, hijacking of a truck containing \$230,000 in silver in suburban Cicero, Ill., April 19, 1965.

Also covered in the indictments was the \$104,000 theft of photography equipment Aug. 24, 1964, from a truck in Melrose Park, Ill.

The indictments charged some of the accused with the actual stickups, others with aiding and abetting the hijackers and/or helping dispose of stolen goods.

The indicted men included Willie (Potatoes) Daddano, 53, Riverside, the reputed syndicate boss for Chicago's West Side; Ernest (Rocky) Infelice, 47, Mel-feller at the executive management of an idea."

One Rockefeller Wears Pajamas to Reception

ALBANY, N.Y. (AP) — Nelson A. Rockefeller Jr., wearing brightly colored pajamas, met with about 100 newsmen Tuesday night.

Young Nelson, who will be 21 next month, ambled downstairs during an hour-long reception given by Gov. and Mrs. Rockefeller at the executive management of an idea."

Says Sites Needed to Develop Ideas

WASHINGTON (AP) — Secretary of Health, Education and Welfare John W. Gardner says regional educational research centers and laboratories are needed to permit "first class development of an idea."

"Until eight years ago," he told a House Appropriations subcommittee in testimony given Tuesday, "the mathematics curriculum was 300 years old without a single change. A good idea will lie around for years without being adequately tested."

Gardner said the research centers and laboratories sought in HEW's proposed 1967 budget of \$9.2 billion "is an attempt to set up in this country the kind of research and development that will permit first class development of an idea."

By Gov. Romney

Viet Bungling Charged

PROVIDENCE, R.I. (AP) — legitimate reason for being there except to the extent that the people of South Viet Nam want us there."

Romney said the Johnson administration's handling of the Viet Nam war and general dissatisfaction among the public with the war "could be a consideration" for the expected Republican gains in Congress this fall.

As for his own political intentions, Romney said "I have made no decision with respect to '68."

"People of Ethiopia are a mixture of Hamitic, Semitic and Negroid races."

Business and Finance

Healthy or Feverish?

Economy Is All Aglow

By SAM DAWSON
AP Business News Analyst

NEW YORK — Rising prices are giving an unexpected glow to the economy. Is it the glow of fever?

The three big spenders — consumers, business and government — all have been paying out more dollars for their increased outlays in the last few months than they have in the last few years.

Still, the rate of increase is larger than at any time since 1950 when consumer panic buying at the outset of the Korean war sent the economy soaring in terms of dollars if not of health.

The unexpected gain this year has been due more to a blizzard of price increases than to a few years back, but mainly because sales and profits have been soaring to record heights.

Government has more to spend because the larger incomes of individuals and corporations have produced big tax increases.

Business has more to spend this year, partly because it too enjoys lower rates than a few years back, but mainly because sales and profits have been soaring to record heights.

The legislation would: Provide for "pooling" many loans together and selling participations in the pool rather than having the government make a number of relatively small and uncoordinated offerings of loans in the market.

Centralize sale of pool participations in a single agency — the Federal National Mortgage Association — so that all agencies will have each agency sell its own loans.

In cases where federal interest rates are below those of the private market, allow the government to "make supplementary payments to the trustee of pool to cover the interest deficiency."

This would be subject to advance authorization by appropriations committees of both houses.

BUDGET RESOURCES Johnson said "The Participation Sales Act of 1966 will permit us to conserve our budget resources by substituting private for public credit while still meeting our credit needs for the interest deficiency."

"It will enable us to make the credit market stronger, more competitive, and better able to serve the needs of our growing economy," he added.

"But above all, the legislation will benefit millions of taxpayers and the many vital programs supported by federal credit. The act will help us move this nation forward to a better life to all the people."

Johnson said the volume of federal loans outstanding as of last June 30 exceeded \$33 billion and involves programs to help farmers, businessmen, home buyers, veterans, students, colleges and schools.

For your purposes, I suggest American Telephone 5% of 2001 selling at 100% to yield 5.05 per cent. I also like Commonwealth Edison 5 1/8 of 1966 offering at 5.01 per cent basis. Among industrial issues, I recommend United Bank 5 1/2 of 1966 which would give you a 5.8 per cent return, and Beneficial Finance 5 1/2 of 1966 selling at 97 1/2 per share.

It is a great many years since bonds of good quality have offered such high returns and I believe you would be justified in acquiring some.

For the corresponding period of 1964-65, they were \$350,992,789. Net earnings of the company for the 12 months ending March 31, 1966 were \$56,000,000, or \$2.01 per share.

For the previous 12 months ending March 31, 1965, net earnings were \$54,453,346 or \$1.89 per share.

Federal Call Is Issued for Bank Statements

WASHINGTON (AP) — The comptroller of the currency today issued a call for a statement of the condition of all member banks at the close of business Tuesday, April 5.

Similar calls were issued by the Federal Reserve Board for member banks and by the Federal Deposit Insurance Corp. for insured state banks which are not members of the federal reserve system.

(Copyright, 1966)

collections even at lower rates. income will be clipped some. And also the government debt with larger tax withholding has risen, meaning Uncle Sam has borrowed to get the dollars larger expenditures, both at home and in Viet Nam.

But few expect the rate of the growth in the economy to be chilled much. Even some areas which have been experiencing their own private slowdown now report an increased tempo, promising a revival of the boom.

The dollar figures for the nation's boom are impressive. The Gross National Product — the total spent for goods and services — was running at a seasonal rate of \$714 billion in the January report. This was \$16.9 billion higher than in the final three months of 1965 and the largest jump since the \$17.7 billion spurt in the third quarter of 1960.

Rails, Industrials in Stear

Stock Mart Rallies Vigorously

NEW YORK (AP) — The stock market mounted a vigorous rally early this afternoon. Trading was heavy.

The Dow Jones Industrial average at noon was up 6.41 at 948.05.

Steel showed little change and coppers were scrambled as they reacted to the further rise in copper prices.

Boeing was outstandingly weak in the aerospace group.

The Associated Press average of 60 stocks at noon was up 2.1 at 351.0 with industrials up 3.1, rails up 2.0 and utilities 2.

The Dow Jones Industrial average at noon was up 6.41 at 948.05.

Steel showed little change and coppers were scrambled as they reacted to the further rise in copper prices.

Boeing was outstandingly weak in the aerospace group.

Investor Role

Is Target of Bill

LBJ Seeks to Boost Private Participation

WASHINGTON (UPI) — President Johnson today asked Congress to make it easier for private lenders to take over federal loans through pooling of government credits and other steps to encourage investor participation.

Johnson proposed to send the House and Senate a "Participation Sales Act of 1966" aimed at replacing \$6 billion in public credit with private funds.

The measure would go into effect in the fiscal year and also apply in the fiscal year beginning July 1.

In a letter accompanying the measure, the President stressed the long-term importance of replacing public credit with private loans for reasons ranging from taxpayer savings to strengthening the credit market.

The legislation would: Provide for "pooling" many loans together and selling participations in the pool rather than having the government make a number of relatively small and uncoordinated offerings of loans in the market.

Centralize sale of pool participations in a single agency — the Federal National Mortgage Association — so that all agencies will have each agency sell its own loans.

In cases where federal interest rates are below those of the private market, allow the government to "make supplementary payments to the trustee of pool to cover the interest deficiency."

This would be subject to advance authorization by appropriations committees of both houses.

BUDGET RESOURCES Johnson said "The Participation Sales Act of 1966 will permit us to conserve our budget resources by substituting private for public credit while still meeting our credit needs for the interest deficiency."

"It will enable us to make the credit market stronger, more competitive, and better able to serve the needs of our growing economy," he added.

"But above all, the legislation will benefit millions of taxpayers and the many vital programs supported by federal credit. The act will help us move this nation forward to a better life to all the people."

Johnson said the volume of federal loans outstanding as of last June 30 exceeded \$33 billion and involves programs to help farmers, businessmen, home buyers, veterans, students, colleges and schools.

For your purposes, I suggest American Telephone 5% of 2001 selling at 100% to yield 5.05 per cent. I also like Commonwealth Edison 5 1/8 of 1966 offering at 5.01 per cent basis. Among industrial issues, I recommend United Bank 5 1/2 of 1966 which would give you a 5.8 per cent return, and Beneficial Finance 5 1/2 of 1966 selling at 97 1/2 per share.

It is a great many years since bonds of good quality have offered such high returns and I believe you would be justified in acquiring some.

For the corresponding period of 1964-65, they were \$350,992,789. Net earnings of the company for the 12 months ending March 31, 1966 were \$56,000,000, or \$2.01 per share.

For the previous 12 months ending March 31, 1965, net earnings were \$54,453,346 or \$1.89 per share.

Federal Call Is Issued for Bank Statements

WASHINGTON (AP) — The comptroller of the currency today issued a call for a statement of the condition of all member banks at the close of business Tuesday, April 5.

Similar calls were issued by the Federal Reserve Board for member banks and by the Federal Deposit Insurance Corp. for insured state banks which are not members of the federal reserve system.

Meeting May Pick Director of Interlochen

INTERLOCHEN (AP) — A meeting of the National Music Camp and Interlochen Arts Academy Board of Trustees is scheduled Thursday morning but its subject matter is not definitely known.

The meeting precedes funeral services for Dr. Joseph Maddy, 74, founder-president of both world famed units, who died Monday.

John Merrill, one of three vice presidents, said: "I can't say whether the trustees will consider naming a successor, but it would be logical to assume."

Bert Gordon of Grand Rapids, a member of the trustees' board, said he "would be greatly surprised if any successor is named immediately." He expected operations of the Music Camp and Arts Academy would continue under direction of present officers.

TAIL FITTINGS REPLACED — Jack Gilderoy, airplane overhaul manager, in San Francisco for United Airlines, shows a fitting that was replaced on a Boeing 720 after small cracks were found in the bolt holes. The fitting is one of several that hold the vertical tail section of 707s and 720s to the fuselage. The checks were ordered by Boeing and the FAA after cracks were found in a 707 that crashed, killing 124, in Japan. The company said the cracks were not responsible for the crash.

Bank Holdup Action Packed

MUSCLE SHOALS, Ala. (AP)—The holdup of the Muscle Shoals National Bank yesterday contained all the ingredients of a movie script—a 40-minute gunfight, police commandeering a car, and a bandit who shot himself.

Police Chief C. G. Ayers said Grover Laske Tidwell Jr., 26, Sheffield, Ala., and Johnny Wilson Holland, 27, Tusculumbia, Ala., are being held on federal bank robbery and state robbery charges.

A bank teller started the chain of events by setting off a burglar alarm when one of the gunmen ordered, "Fork over the money."

Ayers and officer H. N. Smith, about four miles from the bank, were alerted by police radio and began speeding toward town. But their car overheated and stalled.

The police chief flagged down Homer N. Longshore, an insurance man of nearby Florence, and commandeered his car — without explanation.

EMERGED FROM BANK

As the officers approached the bank, lo-

cated on the main street in this north Alabama city, the masked men started out.

The policemen ran toward Tidwell, who shot himself in the hip while attempting to raise his gun. He was captured.

Holland ducked back into the bank and held off officers during a fierce 40-minute gunfight. Bank employees and customers huddled on the floor.

Ayers and Smith were joined by police from adjoining Florence, Sheffield and Tusculumbia during the battle.

BULLETS IN CHEST

During a lull in the shooting, the officers moved into the bank and found Holland with two bullets in his chest, Ayers said.

Next to him was a pillow case which the police chief said contained \$25,500 in cash.

After returning the borrow car, Ayers praised the owner's cooperation, saying, "We couldn't have made it without his car."

Ex-Mayor of Pontiac Dies at 87

F. Homer Newton, 87, of Grand Rapids, a former Pontiac mayor, died Monday after a long illness.

Service will be at 10 a.m. tomorrow in the Melville Funeral Home, Grand Rapids.

His body will be brought to the Sparks-Griffin Funeral Home at 4 p.m. tomorrow for a last service at 1:30 p.m. Friday with burial in Oak Hill Cemetery.

A graveside service will be conducted by the Grand Lodge of Michigan and Pontiac Lodge No. 21.

Surviving are a daughter, Mrs. Everett C. Vallin of Birmingham, and five grandchildren.

Newton was elected to the City Commission in 1934 and served as mayor from April 1935 to November 1936 when he resigned to assume a high state Masonic post.

A past grand master and past grand secretary of the Michigan Grand Lodge, Newton was a member of Pontiac Lodge and Order of Eastern Star No. 228.

MANY AREAS
He had served in many areas of the Masonic Lodge as past high priest of Chapter No. 4 of the Royal and Select Masters, Detroit Consistory, Past Commander Knights Templar No. 2, and honorary leader of 19 Blue Lodges of Michigan.

One of his official duties of the Grand Lodge was the laying of the cornerstone of the Detroit Masonic Temple.

When in Pontiac he served as an officer and taught a Sunday School Class at First Methodist Church.

In 1910, Newton resigned from work at the Pontiac Post Office to engage in the manufacture of fine lettering pens, ink and commercial and school lettering supplies. He consolidated several small concerns into the Newton Automatic Lettering Pen Co.

He was a director of the former People's State Bank. The family suggests any memorials be made to the Omenia Presbyterian Church, Omena.

Troy Man Accused in Warren Holdup

Detroit (AP)—A 35-year-old Troy man already awaiting examination on a burglary charge, was accused Tuesday in the \$65,000 holdup of a credit union cashier in suburban Warren.

The warrant for Robert Blaine Coleman was issued after the cashier, Michael Scherb, identified Coleman from a photograph as the man who slugged him and fled with the money April 14.

Coleman is under \$10,000 bond and scheduled for examination April 27 on a Madison Heights burglary charge.

The warrant for Robert Blaine Coleman was issued after the cashier, Michael Scherb, identified Coleman from a photograph as the man who slugged him and fled with the money April 14.

Coleman is under \$10,000 bond and scheduled for examination April 27 on a Madison Heights burglary charge.

Castro Hails Cuba's Progress, Hits U.S.

HAVANA (AP)—Prime Minister Fidel Castro said today the United States has failed to make the Alliance for Progress work, while Cuba is making economic strides without U.S. aid.

It is true that Cubans have ration books while other Latin American countries do not, he said, "but this is so because we have taken care of all the people, not fed a small, rich minority."

Castro said the United States has been forced to admit its failure recently by telling Latin American countries that much of its aid money had been squandered.

Speaking at a rally in Havana's Chaplin Theater marking the fifth anniversary of the Bay of Pigs invasion, Castro claimed U.S. aid is leading countries of the American continent, including the United States, in education and health care.

Despite this, Cuba still faces many problems, Castro said. There is still poverty and many people are poorly housed.

"Tens of thousands" of miles of road have yet to be constructed, he said.

Castro said his regime was aiming for "the largest sugar harvest in the history of our country next year." This year's crop will fall short of its original goal of 6.4 million tons due to the drought in 60 years, he continued, but next year "shall be without a doubt a great agricultural year, possibly the best in the eight years of the revolution."

'ILLUSIONS'
Imperialism has "infantile illusions" that Cuba's Communist revolution is weak, Castro said, "but never has the revolution been stronger or more united."

Contrary to belief abroad, there have been no great purges in his regime," he said.

His government has "disciplined a very few" and rid itself of some undesirables, "and with that the revolution gains in respect and in confidence of the masses," he asserted.

"There's no trace, rest, arrangement or reconciliation possible" with Cuba's enemies, he declared.

"Imperialists will never rest on this soil," he went on. "If they do, there will be no prisoners taken. They will be puppets without heads."

Castro derided exiles in the United States who talk of invading Cuba again and called them "fools" who have never sweated a shirt.

'CAN HIT U.S.'
In Bonn, the weekly West German magazine *Bunte Illustrierte* said Castro told an interviewer Cuba still has Soviet rockets capable of hitting the shores of the United States. He did not say whether they have nuclear warheads.

The magazine said Castro denied he held a grudge against Nikita S. Khrushchev for pulling Soviet intermediate-range missiles out of Cuba during the missile crisis in 1962.

Castro said in place of those missiles the Soviet Union had supplied him with economic aid of a more important nature.

"Besides," he added, "today we still have Russian rockets, smaller, but we can still hit America's shores with them."

At the nearest point, Cuba lies 90 miles from the U.S. mainland.

CAPE KENNEDY, Fla. (AP)—Electrical workers limited their picketing today to one gate at this space center as the spotlight on their strike shifted to California.

During the first two days of the strike, the 52 members of the International Union of Electrical Workers, AFL-CIO, picketed the one gate policy, which closed 12,000 other workers passed through the lines, but more than 400 construction men honored them.

The agreement to march at only the south gate to Cape Kennedy enabled the construction workers to return to their jobs most of them at the Merritt Island moonport.

The strikers, who work on the Air Force Titan 3 space rocket, agreed to the one-gate policy as a temporary measure while the government seeks to mediate their dispute with United Technology Center, a division of United Aircraft Corp.

2 From Area Reach Finals of Contest

A Birmingham youth and a Springfield Township girl are among 77 finalists in the annual \$65,000 educational fund awards program sponsored by Great Books of the Western World.

Competing in the final round of the contest are Ronald C. Fairchild, 1893 Humphrey, Birmingham, and Carolyn R. Cooper, 9960 Dixie, Springfield Township.

They have completed tests and essays in the competition, which lists a \$5,000 first prize.

Viet Youths Pelt Yank Pacifists

SAIGON, South Viet Nam (AP)—A news conference called by six American pacifists wound up in pandemonium today as angry Vietnamese youths hurled tomatoes and eggs at the Americans and shouted, "Go home, go to North Viet Nam!"

The six pacifists, members of the U.S. Committee for Non-Violent Action, had expressed their opposition to the war in Viet Nam and were answering questions when several youths demanded that they say whether they were "South Viet Nam's friends or Communists."

Despite half a dozen answers, the youths kept repeating the question and then swarmed around the speakers' table at the conference in the Saigon City Hall.

Antiwar posters hung by the pacifists were ripped from the wall and torn up.

A light bulb smashed against the wall and other missiles followed. Eggs splattered the face of William Davidson, 39, a physics professor at Haverford College in Pennsylvania. A paper ball struck Bradford Little, 36, of Volantown, Conn.

Fifty young Vietnamese men who said they were students at Saigon University shouted and pounded on the desks, and several threatened the pacifists.

The pacifists, who were in Saigon for a week, were in the city to promote a book, "The War in Viet Nam," by the U.S. Committee for Non-Violent Action.

The book, which was published by the U.S. Committee for Non-Violent Action, was a collection of essays by pacifists who had been in Viet Nam.

Paris Bonn Accord Seen

PARIS (UPI)—French Foreign Minister Maurice Couve de Murville said today he is confident of reaching an agreement with Bonn on keeping French troops in West Germany after they are withdrawn from NATO July 1.

Government sources said Couve de Murville told Charles de Gaulle's cabinet this was his impression after two days of talks with West German officials in Bonn last weekend.

The foreign minister reported to de Gaulle and his advisers that the cabinet meeting today was an opposition center motion in the French Parliament attacking de Gaulle's NATO plans appeared headed for certain defeat.

The centurion motion, signed by some 50 non-Communist legislators, condemned de Gaulle's NATO action as harmful to France and America and the other western allies.

However, all leftist forces of overturning the Gaullist government on the issue disappeared last night when Communist party leaders announced they would abstain in the crucial vote.

Deaths in Pontiac Area

LESTER HOCKEY
Service for former Pontiac resident Lester Hockey, 58, of Lansing will be 3 p.m. tomorrow in the Hutton Funeral Home with burial in Oak Hill Cemetery.

Mr. Hockey, a retired employee of Fisher Body Plant, died yesterday.

Surviving are two sisters.

MRS. T. C. LAMOREAUX
Service for Mrs. Thomas C. (Florence) Lamoreaux, 84, of 121 Prall was last night at Hutton Funeral Home, with burial in Woodlawn Cemetery, Detroit.

Mrs. Lamoreaux died Sunday after a long illness. She was a member of All Saints Episcopal Church and Episcopal Churchwomen.

Surviving are two stepsisters, Rex of Pontiac and Lee of Rochester.

MARK VINCENT CAMPAGNA
SHELBY TOWNSHIP—Requiem Mass for Mark Vincent Campagna, 13-year-old son of Mr. and Mrs. Orazio Campagna of 3139 Bloomcrest, will be 10 a.m. Friday at St. Kieran's Catholic Church. Burial will be in Resurrection Cemetery, Mount Clemens, by the William R. Potere Funeral Home, Rochester.

The boy was killed yesterday in a traffic accident. A member of Boy Scout Troop 90 and St. Kieran's Catholic Church, he attended Shelby Junior High School.

Surviving besides the parents are two brothers, Paul and Robert, both at home; three sisters, Kathleen, Carol and Julie, also at home; and a grand-mother.

JOSEPH R. CARPENTER
ATTICA TOWNSHIP—Service for Joseph R. Carpenter, 84, formerly of 4088 Peppermill, will be 2 p.m. Friday at Muir Brothers Funeral Home, Lapeer. Burial will be in Stiles Cemetery, Lapeer.

Mr. Carpenter died yesterday after a long illness. He was a retired farmer.

Surviving are five daughters, Mrs. Agnes Bernier of Flint, Mrs. Shirley Warren of Attica, Mrs. Goldie O'Leary of Attica, Mrs. Josephine Farrington of Attica, and Mrs. Phyllis Houghton of Sylmar, Calif.; a son, Don of Lapeer; 33 grandchildren; and 21 great-grandchildren.

ALVIN K. HODGES
DRYDEN TOWNSHIP—Service for Alvin K. Hodges, 66, of 3230 Hodges will be 1:30 p.m. Saturday at the Muir Brothers Funeral Home, Lapeer. Burial will be in Metamora Cemetery.

Mr. Hodges died yesterday of a heart attack. He was a retired farmer.

Surviving are four sons, Austin of Imlay City, Burton of Lapeer and James and Victor, both of Dryden; a daughter, Mrs. Mary Ann Thompson of Lapeer; and 33 grandchildren.

RAYMOND G. LEIGHTON
TROY—Raymond G. Leighton, 43, of 1087 Larchwood died yesterday. His body is at Price Funeral Home.

Coast Guard Cutter

Cited in Cuban Role

KEY WEST, Fla. (AP) — Cmdr. James H. B. Morton, captain of the Coast Guard cutter Diligence, has been cited for his work during the exodus of Cubans in small boats last fall.

The Diligence made 54 "assists."

There were a lot of divorcees there (there always are anyplace nowadays) and I wondered what some of them thought when Leslie sang from Alan Jay Lerner's "On a Clear Day" the song, "What Did I Have That I Don't Have Now?" If she changed it to "What Did I Have Now That I Didn't Have Then?" I guess the answer'd be "Alimony."

Leslie Uggams opened at the Copacabana with talent equal to Barbara Streisand... (comic Billy Butler was great, too) of those shorts he imports from Singapore... Richard Adler, Michelle Lerner, Christina Paozoli, Catherine Milneaire, Julie Gabor.

There were a lot of divorcees there (there always are anyplace nowadays) and I wondered what some of them thought when Leslie sang from Alan Jay Lerner's "On a Clear Day" the song, "What Did I Have That I Don't Have Now?" If she changed it to "What Did I Have Now That I Didn't Have Then?" I guess the answer'd be "Alimony."

'NY Students Making Drug'

DA Says Crackdown by Schools in Works

NEW YORK (UPI) — College and high school students in Brooklyn are making the hallucinogenic drug LSD in chemistry classrooms, Brooklyn Dist. Atty. Aaron Koota said yesterday.

He said there would be a crackdown by school officials.

Koota would not reveal how many schools or how many students were involved in the relatively simple manufacture of the consciousness-expanding drug, branded as the "most dangerous drug in the nation" by the New York County Medical Society. He said student use of LSD was on the upswing.

The danger lies in the lack of knowledge of LSD's ultimate effect on the user.

The drug was dropped from production by its only commercial maker several days ago amid mounting pressure to curb its use.

Legally, LSD has been used only in experiments in psychotherapy under close medical supervision.

Koota made the charge at a news conference attended by representatives of the board of education, board of higher education and the police narcotics squad.

In Kingston, N.Y., yesterday, U.S. Sen. Robert F. Kennedy, D-N.Y., called for federal legislation to deal not only with the question of narcotics but also "with all dangerous drugs."

Kennedy said he would like to see laws enacted that would deal stiff penalties to those who import drugs and push them across state lines, and establish a system that would help persons who do become addicts.

He said he did not feel the nation has made a great enough effort in rehabilitating drug addicts. He said the problem must be "dealt with at the state level as well as national."

Barbra Streisand Eying Limited August Tour

LONDON (AP) — Barbra Streisand may make a limited tour in the United States in August before she stops work to have a baby in December, her manager said today.

The original deal called for Miss Streisand to sing in 20 U.S. cities this fall. It would have paid her a million dollars.

Washington News Highlights

Public's Civil Defense Interest Sagging

WASHINGTON (AP) — The United States' civil defense program is encountering increased public apathy. Citizen concern has not escalated to match the pace of the Viet Nam war.

Administration aides concede public interest has sagged steadily since the 1962 Cuban missile showdown. "People don't get stirred up until there's a direct confrontation of nuclear powers, as in the Berlin and Cuba crises," one official said.

Despite this, more than 1 million new shelter spaces are being located and marked each month. The Office of Civil Defense is stocking shelters with emergency food and medical supplies at the rate of 8 million a year.

An official said there could be another civil defense upsurge "with home shelter salesmen and all the trimmings" if Communist China "should begin to threaten a nuclear capability over Viet Nam."

WASHINGTON (AP) — The Pentagon acknowledges that 30,000 or more U.S. soldiers may be withdrawn from Europe to help form new combat units in the United States and to train draftees and recruits.

The Defense Department stressed that the net reduction would not exceed 15,000. Officials say the Army's over-all strength in Europe will drop to about 210,000 about midyear and go back up to 225,000 by the end of the year.

The Pentagon disclosed the figures after being asked about a statement of Sen. John Stennis, D-Miss., on the ABC radio-television program "Issues and Answers."

WASHINGTON (AP) — The Food and Drug Administration has prohibited drug manufacturers from claiming products containing nitrates or nitrate are effective for any heart condition other than angina pectoris. This is the first time the agency has taken such action.

Officials said 180 manufacturers produce one or more of the products, known as "coronary vasodilators." These manufac-

GOP Will Seek

Moderate in '68, Predicts Ely

HARTFORD, Conn. (AP) — Republicans will be looking for a presidential candidate of moderate philosophy in 1968, Mrs. Ely Peterson, GOP state chairman of Michigan, said Tuesday.

Mrs. Peterson, the only woman GOP state chairman in the country, told a news conference the party may lean on such men as Mark Hatfield of Oregon, Robert Taft of Ohio, George Romney of Michigan, Gov. Nelson Rockefeller of New York, Edward Brooke of Massachusetts, Gov. Tim Babcock of Montana and Lt. Gov. Raymond Shafer of Pennsylvania.

She was in Hartford to speak at a testimonial luncheon for Mrs. Anna-Mae Switski, who has been vice chairman of Connecticut's GOP State Central Committee for 16 years.

Near Halfway Mark

WASHINGTON (UPI) — The 41,000-mile interstate highway system, begun in 1956, is about half completed with 21,377 miles of the dual-lane, limited-access roads open to traffic as of March 31.

The FDA said it recognizes that the drugs "are safe and are widely regarded as useful," in treating angina pectoris. But it said that other claims made by manufacturers will be not be allowed until their effectiveness for other purposes is proven.

Border Battle Claims Israeli

JERUSALEM, Israel (UPI) — An Israeli soldier was killed and another wounded yesterday during a six-hour duel with automatic weapons and mortars.

Israel and Jordan troops fought most of the day despite three cease-fires arranged by the United Nations. Each side accused the other of violating the cease-fires.

There were conflicting reports on how the fighting started.

An Israeli spokesman said Jordanian forces opened fire on a routine Israeli patrol near a 40-mile settlement at Tel Aviv.

(The Jordanian spokesman accused the Israeli forces of opening fire on the villages of Umirnah and Anja.)

Both sides said the fight began with automatic weapons fire and that later, both forces used mortars.

Answer to Previous Puzzle

Bias Blamed in School Unrest

DETROIT (AP) — A teacher tried to block publication of an editorial criticizing academic standards at the predominantly Negro high school, also testified the belief by many instructors that "Negro students are sub-human beings."

E. J. Vanderline, a social science instructor and representative of the Detroit Federation of Teachers (AFL-CIO) at Northern, testified at a board of education hearing.

Vanderline charged Northern Principal Arthur T. Carty "kept a blacklist" of Northern teachers and that "he lied in secret reports" to Dr. Hulda Fine, school field executive.

"Our students are often treated with less than human dignity," Vanderline said, adding that at an assembly, teachers once called the students "rats and bums" and "several teachers referred to Northern as a blackboard jungle."

STUDENT LEADER

Charles Colding, student leader of the revolt which began April 7 when Carty allegedly

Arms Charges Dropped for Two Hunting Suspect

LIVONIA (AP) — Concealed weapons charges against two men seeking a Michigan man for trial in Texas have been dismissed.

Livonia Municipal Judge Robert H. Lorton Monday dismissed the charges against Paul Anderson, 49, of Marshall, Tex., and Marion Darrell, 55, of Shreveport, La.

The men were arrested on the charges last Friday while seeking William Davis, a Livonia city employee, for allegedly failing to appear on a traffic citation in Marshall, Tex.

AF to Launch Space Glider in Fall

CAPE KENNEDY (UPI) — The Air Force plans to launch a miniature space glider 100 miles high in November for a soaring sweep back to earth in a preview of returns for manned spaceships of the future.

Four scientists took the wraps off the 46-inch, 800-pound delta-shaped craft yesterday in a highly detailed paper presented to a space conference of the American Institute of Aeronautics and Astronautics.

The Martin Co. is building four of the gliders for an Air Force program called Prime.

It is designed to lead the way toward development of larger

craft that one day may enable astronauts to land at jetports on return from space.

"This program is expected to produce technology that could be applicable to manned, maneuverable reentry," the scientists said.

They pointed out that the glider's flight will simulate conditions that would be encountered on a return from low earth orbit.

Such craft, called "lifting bodies" because they are able to produce lift like an airplane in earth's atmosphere, would do away with costly ocean recovery fleets like

those now needed for present manned spacecraft with little maneuvering ability.

As a bonus, the paper said, "these vehicles are potentially reusable with minimum refurbishment and are economical, reliable and have growth potential in payload capability and size."

The Air Force first disclosed general plans for the program last year, but until yesterday specific details of the glider were classified.

The paper was presented with Air Force approval by three scientists from the Aerospace

Corp. and one from the Martin Co.

The Air Force, in reply to a query, told UPI the first of the spacecraft is scheduled for launch on an Atlas rocket in November from Vandenberg Air Force Base, Calif.

Subsequent flights are set for February, April and June of next year.

The glider, designated the SVS, is wingless with a flat bottom, rounded top and two beryllium paneled vertical tail fins. It is constructed of standard aluminum skin and framework covered with a silicon heat protective surface.

Missing Man Turns Up Wounded

Pontiac Blames Waterford for Delay on Pollution Talk

Pontiac city officials claimed last night any delay in arranging a meeting between Waterford Township and the city to discuss pollution problems was the fault of the township.

Mayor William H. Taylor Jr. charged that meetings have been set up and twice delayed by the township.

2 Found Slain in Detroit Bar

DETROIT (AP) — The bodies of a man and woman, both bound and shot, were found today in the Verdi Bar on Detroit's near North Side.

Police identified the victims as Ann Slazenger, 45, night barmaid and Edmund Thompson, 48, a porter.

TWISTED NEIGHBORHOOD — This aerial view shows the Overland Park, Kan., neighborhood which was struck by a tornado yesterday. The funnel skipped by the elementary school at left and hit the homes across the street. An estimated two dozen homes were destroyed or damaged.

Damage Tops \$1.5 Million

Fierce Spring Storm Slackens

By the Associated Press

A cold and violent spring storm showed signs of weakening today after lashing portions of the West, northern Plains and the midlands. It brought snow, frost and freezing temperatures, hail, rain, strong winds and tornadoes that caused damage in excess of \$1.5 million.

Three men were killed in storm-related auto crashes in Colorado and Wyoming and at least five persons suffered minor injuries in a tornado.

A residential section of Overland Park, Kan., a suburb just southwest of Kansas City, Mo., and the Valley View subdivision of Lombard, Ill., west of Chicago, suffered extensive damage from the tornadoes yesterday.

Other tornadoes touched down in rural areas of north Iowa. Thousands in the metropolitan area of Kansas City, Mo.,

watched a slender funnel that dangled ominously from a dark, swift moving cloud was brilliantly outlined by a sunny sky near the horizon.

The funnel darted suddenly into a housing development, brushing an elementary school.

As it struck the homes, Emory Holland, who was driving home from work, said he saw "sparks fly from the snapped power lines and the air was filled with debris."

There were no deaths. Five persons suffered minor injuries.

Police Chief John Kenyon of Overland Park, who estimated the damage at over \$1 million, said 35 houses suffered up to 50 per cent damage and 15 others were destroyed.

The Katherine Carpenter Elementary School suffered minor wind damage.

About six hours later, a

tornado struck Lombard's Valley View subdivision. There were no known injuries. Police said more than 20 homes were damaged or destroyed.

Most of the homes damaged or destroyed in Overland Park and the Lombard area were valued at \$25,000 to \$30,000.

News Flash

Vance Fouts, chairman of the equalization committee of the Oakland County Board of Supervisors, said today that the estimated county equalized value figure of \$2.88 billion previously projected in the county's tentative 1967 budget should stand up. A breakdown of the county's equalized valuation per municipality will be ready Friday, Fouts said. Current county equalized value is \$2.44 billion.

'U.S. Military Might Greatest in History'

WASHINGTON (AP) — Secretary of Defense Robert S. McNamara said today the nation's military strength is so great that it has been able to commit 325,000 men to the Viet Nam war without calling up Reserves or controlling the economy.

Work Begins on Hospital

Children's Unit Going Up at Pontiac State

Ground breaking for the \$21-million children's hospital at Pontiac State Hospital was scheduled for 1:30 p.m. today.

The new facility, scheduled for completion in September 1967, will contain 80 beds. It will be located west of the main hospital.

To be known as Fairlawn Center, the new hospital will provide a comprehensive treatment program for emotionally disturbed children.

The present children's facilities in the main hospital complex, hospital officials said, are extremely crowded and fail to provide a suitable therapeutic environment.

The new building will provide four 20-bed residential units for boys and girls under age 17 as well as day care facilities for another 40 children.

DAY CARE

Day care facilities will essentially service the immediate Pontiac and Oakland County area as these children will be at the hospital only during regular school hours.

The administration wing of the new facility will accommodate most of the professional staff.

Dr. James W. Johnson, presently director of Pontiac State Hospital's Child Psychiatry Department will be director of the new facility.

Dr. Johnson said the new facility will be ready for occupancy in September 1967.

Dr. Johnson said the new facility will be ready for occupancy in September 1967.

Dr. Johnson said the new facility will be ready for occupancy in September 1967.

Caterer Said Kidnap Victim

Sluggers Into Motel Near Ohio Border

ERIE (AP) — Missing Southfield caterer Robert B. Rosenberg staggered into a motel near the Ohio border early today with a gunshot wound in his back.

State Police said Rosenberg, well-to-do 32-year-old father of four who disappeared Good Friday, had been kidnapped but that where and when he was shot was unknown.

Incoherent after collapsing at the motel, Rosenberg was taken to Mercy Hospital in Monroe and placed under surgery. The hospital reported his condition "serious but not critical."

Police organized an immediate search for abductors who, they said, may have fled into Ohio. The FBI kept in touch with state and local police.

Rosenberg, last heard from in a mystifying telephone call to his home, walked dazedly to the Silver Blue Motel on Telegraph Road at 1:20 a.m. The motel contacted police.

"NO DOUBT"

Cpl. Edmund Burke of the Erie State Police post said there "wasn't any doubt" that Rosenberg had been a victim of abductors.

Burke said Rosenberg had marks on his wrists and ankles, indicating he had been trussed up, and also a growth of beard.

Rosenberg's wife, Joyce, 30, went from the family home to the motel.

Rosenberg's wife, Joyce, 30, went from the family home to the motel.

Rosenberg's wife, Joyce, 30, went from the family home to the motel.

Showers Forecast for Tonight

Showers and thundershowers, night yesterday measured 1.0 inch.

Forecast for tonight will give an inch.

Friday's outlook is partly cloudy and cooler.

Southerly morning winds at 10 to 20 miles per hour will shift to northwest tomorrow.

A balmy 60 was the low recording prior to 8 a.m. in downtown Pontiac. The mercury had zoomed up to 72 by 1 p.m.

CRANBROOK SCHOOL — Fronting Lone Pine in Bloomfield Hills, Cranbrook for Boys is one of the six institutes built on the former estate of George G. and Ellen Booth. The tower near the center of the picture originally was the silo on the

old Booth farm. It is adjacent to Harry D. Hoey Hall, the administration building named for the independent school's immediate past headmaster. At the other end of the quad are the three dormitories and, on Lone Pine, the dining hall.

A portion of the Cranbrook Academy of Art buildings can be seen at the extreme right. Cranbrook School, opened in 1927, now has an enrollment of 390. With classes averaging 15 students, Cranbrook instructors stress individual instruc-

tion geared to preparation for college. The Cranbrook buildings were designed by the late Eliel Saarinen.

U.S. Planes Bomb Closer to Key Port of Haiphong

SAIGON, South Viet Nam (AP) — U.S. Navy bombers edged closer to Haiphong Tuesday in the third straight day of raids on North Viet Nam's Red River Delta, blasting a railroad bridge 10 miles north of the country's chief port. A U.S. spokesman said one span of the bridge was destroyed.

Four Soviet-built surface-to-air missiles were fired at the attackers but missed their targets, the spokesman reported today.

Three other U.S. jets were lost elsewhere over North Viet Nam in the past 24 hours, raising the number of American planes shot down since the raids began 15 months ago to 213. One of the pilots was rescued in a blaze of enemy fire. The other two were presumed captured or dead.

In the south, Viet Cong raiders damaged two big U.S. Air Force Hercules troop transports in a hit-and-run attack on a

small airfield in the central highlands but caused no casualties. Officials said the four-engine planes could be repaired.

LITTLE CONTACT

Allied forces reported little other contact with the Communists as the bill in the ground war continued. Only South Korean forces reported a brush of any significance, in a sweep on the central coast.

A grenade thrown by a motorcyclist wounded a Vietnamese woman and two children on a Saigon street tonight. Police said the target apparently was a small U.S. billet, but the grenade exploded in an alleyway instead. The terrorist escaped.

Political turmoil continued in the northern part of the country despite the truce between the government and Buddhist leaders. An estimated 3,000 Roman Catholics marched on the outskirts of Da Nang, charging the Buddhist antigovernment "struggle committee" in the northern city with responsibility for a grenade blast that wounded four persons Monday night. Two of the injured were Catholics.

In Quang Ngai, 80 miles south of Da Nang, a mysterious explosion Tuesday at the headquarters of the Viet Nam National People's party killed three persons and wounded four after a clash between armed Buddhists and supporters of the Conservative party.

The raid near Haiphong followed up an attack by Navy bombers on the Uong Bi power plant 14 miles northeast of the city Monday night. On Sunday Air Force fighter-bombers hit two missile sites, 15 and 17 miles south of Hanoi, and knocked out a major highway bridge linking Haiphong and Hanoi, 60 miles to the west.

The Navy pilots returning from the new raids on the Hai-

phong-Hanoi area reported that highway traffic between the cities had been virtually halted, the spokesman said.

"Other Air Force and Navy jets battered a wide range of communication targets up and down the North Vietnamese panhandle. Pilots reported cutting roads in 10 places, cratering a river ford, destroying an anti-aircraft position and a highway bridge and blasting four truck parks."

'U.S. Strength Tops'

(Continued From Page One)

Dirksen also said "You don't demean the chief magistrate of your country at a time like this when the war is on. You stand up and be counted."

Man Turns Up Shot in Back

the Monroe hospital upon being informed by police.

Only yesterday Mrs. Rosenberg had expressed fear her husband had met with foul play. Her last word from him had been a telephone call from him the night of his disappearance in which she said he told of being "held," but cautioned her not to call police.

FOUR CHILDREN

The Rosenbergs have four children. The family lives in a \$35,000 home in Southfield. Rosenberg owns Rosenberg's Holiday Catering of Oak Park.

Cpl. Burke said Rosenberg was incoherent when police reached him at the motel.

However, he told of being "kidnaped and shot and tied up and blindfolded," Burke said. He collapsed upon entering the motel, Burke said.

EXAMINATION

Burke said that from hasty examination it was impossible to tell when Rosenberg had been shot but that the wound "didn't appear to be new."

The kidnappers apparently dumped Rosenberg out of their car, Burke said.

Mrs. Rosenberg said yesterday she was breaking a pledge of secrecy to the FBI in disclosing details of her husband's disappearance.

Three days after the caterer's disappearance, Detroit police found his convertible car near the downtown Detroit district. Rosenberg's empty wallet and papers were found strewn in the car.

The Weather

Pontiac & Vicinity — Showers and thunderstorms continued today, high 64 to 74. Occasional showers and thunderstorms tonight with little temperature change, lows 55 to 60. Thursday, showers ending and turning cloudy, highs 55 to 64. Southerly winds 10 to 20 miles today and tonight shifting to northwest Thursday, Friday: partly cloudy and cooler.

NATIONAL WEATHER — Showers and thunderstorms will spread from the lower Mississippi Valley into New England tonight. It will be cooler in the central part of the nation and milder in the Southeast and in the Plateau states and northern Plains.

STUDENTS SACK EMBASSY — Indonesian students haul away mattresses atop a Red Chinese car preparatory to burning them after sacking the Peking regime's embassy in Jakarta. Yesterday, the students sacked and burned the Chinese consulate in Jakarta. Some of the students were of Chinese descent and were demonstrating resentment with Peking's antagonistic policy toward the new Jakarta government.

Man Held in Attack on Woman

A 43-year-old Pontiac Township woman was beaten, cut on the face, and raped yesterday in her home, according to Oakland County Sheriff's officers.

Sheriff's detectives said a suspect in the assault was apprehended last yesterday and is being held for questioning at the county jail.

The victim, who lives alone and is unmarried, is reported in fair condition at Pontiac General Hospital.

Detective Alphonse Anderson said, however, the woman was still in a state of shock and unable to give information other than her own name.

Pontiac Patrolman Charles A. Lindeberg, who arrested the suspect at North Perry and East Walton about 4 p.m., said the man bore scratch marks on both arms.

FINDS SHOTGUN

In addition, Lindeberg said he found a 16-gauge shotgun underneath a blanket in the rear of the car and a 38-caliber starter pistol in the glove compartment.

Deputies who answered the call said they found the back door window of the victim's home broken out.

Entering the home, they discovered the victim bound with a clothes line, her face bloodied.

Telephone wires to the home had been cut, and a butcher knife and pocket knife were lying on the floor near the victim, according to deputies.

Hospital Drive to End Today

The closing dinner and final report meeting of the St. Joseph Mercy Hospital Building Fund Campaign will be at 6:30 p.m. today at the Pontiac Elks Temple.

More than 400 volunteers are expected to attend and hear the results of their efforts in behalf of the hospital.

The campaign started nearly a year ago. Since then, more than 1,000 workers from the Pontiac area have participated in the drive by serving on various committees.

Presiding at tonight's meeting will be E. M. Estes, a General Motors vice president and general manager of the Chevrolet Motor Division. He formerly headed the Pontiac Motor Division.

Estes, who will call upon committee chairmen for final reports, said he expected that the minimum goal of \$3.25 million would be exceeded.

Indonesia Students Move Into Red Chinese Embassy

JAKARTA, Indonesia (AP) — Indonesian students have occupied Communist China's deserted consulate in Jakarta after ransacking it again.

More than 100 members of the anti-Communist student organization Karni took over the building Tuesday, burned remnants of furniture and bundles of papers in the yard and painted anti-Chinese slogans on the walls.

The seizure of the consulate building was the second anti-Chinese action in the Indonesian capital in four days. About 2,000 Indonesians of Chinese descent ransacked the Chinese Embassy in another part of the city last Friday. The attack brought a stiff protest from Peking.

SECOND ACTION

The seizure of the consulate building was the second anti-Chinese action in the Indonesian capital in four days. About 2,000 Indonesians of Chinese descent ransacked the Chinese Embassy in another part of the city last Friday. The attack brought a stiff protest from Peking.

Strong anti-Communist and anti-Chinese sentiments have swept Indonesia since the pro-Peking Indonesian Communist party backed an unsuccessful coup attempt last Oct. 1. Peking was accused of supplying arms to some of the Communist rebels.

Foreign Minister Adam Malik said "an excess of the people's wrath" was responsible for the anti-Chinese outbursts and the strained relations between Indonesia and China, the official news agency Antara reported today.

"This is natural if we relate these excesses to the present situation of Indonesian society," Malik told representatives of Christian students.

Malik did not explain further but implied Communist activities in the country were responsible for the anti-Chinese outbursts.

Chinese dominate much of Indonesia's big business and most of its middle-class shops.

IMPLICATION

Malik did not explain further but implied Communist activities in the country were responsible for the anti-Chinese outbursts.

Chinese dominate much of Indonesia's big business and most of its middle-class shops.

Area Accidents Fatal to Two

Man Killed in Troy, Boy Dies in Shelby

A Royal Oak man was killed in a two-car collision yesterday on South Boulevard near Livernois in Troy.

Virgil E. Lazarus, 69, died after his car collided with one driven by Hector M. Couvreur, 68, of Cross Pointe Farms.

Couvreur is in fair condition and his passenger, Mrs. Elizabeth Cote, 49, of St. Clair Shores is in satisfactory condition at St. Joseph Mercy Hospital.

Troy Police are still investigating the accident.

In a Shelby Township accident last night one boy was killed and four others injured in a two-car collision at 23 Mile and Mound.

Mark Campagna, 13, of 3139 Bloomcrest died several hours after the car in which he was riding collided with a car driven by George A. Hivley of 5005 Shelby, Shelby Township.

Township police said Mark's father, Orazio P. Campagna, was driving a group of Boy Scouts home after a meeting when the accident occurred.

Admitted to St. Joseph's Hospital, Mount Clemens, where Joseph Flore, 13, of 53910 Sophia, Utica, Randy Kush, 12, and his brother Philip, 11, both of 53207 Bruce Hill, Shelby Township, a fifth boy, Timothy Rohr, 11, of 3282 Lakeside, Shelby Township, was treated and released.

Hivley, his daughter, Cindy and wife, Barbara, were also treated and released.

Police said the accident is still under investigation.

2 in City Head Penal Group

Two Pontiac-based men have been named to head the Michigan Corrections Association, which concluded its annual three-day convention in Grand Rapids today.

Theodore W. Bly, senior parole agent was elected association president last night, succeeding Joseph DeAgostino of Detroit. Morris Shaw, district supervisor of probation in Pontiac, was named vice president.

Both have offices at 534 W. Huron.

Bly lives in St. Clair Shores, and Shaw, at 6331 Canfield, Troy.

Merwin S. Kirchner, deputy warden of Southern Michigan Prison at Jackson, was named secretary, and parole officer Theodore Koehler of Lansing was elected treasurer.

Birmingham Area News

Pontiac Firm Awarded Contract for 31 Buses

BLOOMFIELD HILLS — The board of education last night awarded a \$195,672 contract for 31 new school buses and paved the way for the letting of construction bids on a new elementary school.

The school buses will be purchased from Matthews-Harmon Chevrolet Co. of Pontiac, lowest of five bidders.

Cost of the vehicles will be carried on a title-retaining contract with one-quarter of the total cost being paid each year for four years.

In purchasing the buses, the school board is replacing nearly one-half of its transportation fleet. The order includes 25 replacements and six additional buses.

Arrival of the new buses, expected before the start of the 1966-67 school year, will raise the school system's total number of vehicles to 64.

FINAL PLANS

The board last night also approved final plans for a new three-unit elementary school.

These two buildings, along with a new bus garage which is now on the drawing boards, will use up the last of the funds in a \$7.6-million building package approved by district property owners in 1964.

As these funds are used, school officials will begin to put forth portions of the \$11-million bond issue approved earlier this month.

Stall Blamed W. Bloomfield Firemen Stay on Their Jobs

(Continued From Page One)

saw such work begin nearly 20 years ago.

Neippling also said that the entire pollution problem of Crystal Lake would not be solved but that the bulk of the problem would be.

"There are other elements," said Neippling, "but this will help isolate remaining problems."

STRAINING STAND

The city engineer added that there was every evidence that the township was taking a strong stand on the need for sewers.

Neippling also disclosed that the city has not yet initiated investigation of the separate problem of alleged pollution of the north side of Sylvan Lake.

He said the city was charged with the responsibility of investigating Sylvan Lake pollution from storm drain outlets from Pioneer Highlands subdivision, located west of Telegraph.

LESS THAN \$6,000

"These men don't want to resign," Evans said, "but you can't expect a man to raise a family on less than \$6,000 in this day and age."

Evans was optimistic about the chances for a settlement, saying that he believes the committee is bargaining "in good faith."

Township voters April 4 defeated a two-mill proposal which would have provided additional funds for the fire and police departments.

Schedule to undergo surgery today in Pontiac General Hospital is Gwen Lewallen, daughter of Mr. and Mrs. Walton Lewallen.

According to the driver of the car, Twyla H. Kugler, 35, of 1415 Hira, Waterford Township, the girl was standing alongside the road, then suddenly ran into the street.

Waterford Girl Hit by Car Said Critical

A 6-year-old Waterford Township girl was critically injured yesterday when struck by a car in front of her home at 777 Scott Lane.

Schedule to undergo surgery today in Pontiac General Hospital is Gwen Lewallen, daughter of Mr. and Mrs. Walton Lewallen.

According to the driver of the car, Twyla H. Kugler, 35, of 1415 Hira, Waterford Township, the girl was standing alongside the road, then suddenly ran into the street.

Urges Cavanagh

'Recognize N. Viet'

DETROIT (UPI) — Mayor Jerome P. Cavanagh, pushing his candidacy for the United States Senate yesterday, urged the United States Senate to recognize the North Vietnamese government and help Red China get a seat on the United Nations Security Council.

Cavanagh called for a cease-fire in South Viet Nam, creation of political parties under U.S. prodding if necessary, a free election and U.S. support of whatever government is chosen, even if it is dominated by the Viet Cong.

He likened his position to that of former President John F. Kennedy and said the U.S. should help institute social reforms in South Viet Nam even if the country chooses a Communist government.

"This is not the time to disarm the American military or withdraw from our base abroad," Cavanagh said in a position paper distributed at a news conference.

"But we must recast our thinking about the size of our commitment and the strength of the peril we face. We must offer mainland China a seat among the great powers on the United Nations Security Council."

Cavanagh said his position was more realistic than that of

former Gov. G. Mennen Williams, Cavanagh's opponent in the Democratic primary race for the Senate.

"He supports President Johnson's policy," Cavanagh said.

The mayor said he did not think U.S. forces should "pull out of Viet Nam. But he said the war should take a back seat to the war on poverty and other domestic projects."

Cavanagh said the South Viet Nam cease-fire should be negotiated among the South Viet Nam government, North Viet Nam and the Viet Cong.

He said recognition of North Viet Nam would be no more damaging to the United States than its recognition of Yugoslavia.

Williams said he saw "nothing of substance new in the mayor's statement."

DETROIT (AP) — Things at a discount department store have reached the stage where you can't tell the detectives from the shoplifters with a scorecard.

Detroit police said the store hired several private police after being plagued by petty thefts.

Tuesday night, one of the private policemen saw a woman walking out of the store wearing a new pair of shoes he had seen her put on earlier. He grabbed her and called police, who discovered the woman was another secret agent from the same agency as the man who had nabbed her.

The woman said she put on her new shoes because her feet got tired as she walked about the store.

Tobacco Exec Blasts Attacks

Health of the Industry Said 'Never Better'

RICHMOND, Va. (AP) — The health of the tobacco industry has never been better, says a tobacco company official.

But "amazingly it is under more vicious and more unwarranted attack than ever before in its history," the official said.

Speaking at the annual meeting of the Virginia State Chamber of Commerce, Addison Y. Yeaman said Tuesday night there are "forces in this country today who puritanically would deprive us of our freedom of choice to smoke or not to smoke."

Yeaman, vice president and general counsel of Brown & Williamson Tobacco Corp., said, "The thesis seems to be that anything you enjoy is either sinful or fatal or both."

'RELATED TO HEALTH' The burden of the attack, he said, is that the cigarette is "in some undisclosed and unknown way causally related to human health."

"Who has the greatest possible interest in the truth, whatever the truth may be, about tobacco and human health?" he asked.

"We do," he said "it is our livelihood, our lives and our pride."

Dr. Wayne G. Brandstadt Says

Itching Is Traced to a Modern Hazard

A severe itching eruption covering most of the body appeared suddenly in five members of a family.

After considerable sleuthing, a doctor found that the mother had washed a pair of glass fiber curtains in a machine along with the family underwear.

Minute bits of glass fiber thereby became impregnated in the family's clothing and produced the itch which is said to be worse than that of woolen undergarments.

That is what might be called learning about modern hazards the hard way. This should serve as a warning not to go and do likewise.

Q — Is it possible to learn while sleeping by means of records?

A — Since the first reports of

sleep learning were published, commercial interests have promoted the sale of a variety of records for this purpose.

Although the process has its enthusiasts, most scientists believe that it is impractical.

Any learning that is accomplished by this means occurs only when the subject is in a drowsy or half-waking state. Since this is true, authorities believe that the subject may suffer some of the effects of deprivation of deep sleep.

One observer states that, before a subject can profit from sleep learning, he must first undergo a course of hypnotic suggestion.

MOST DETERMINED This would eliminate all but the most determined candidates.

The method has been used along with hypnosis to help break children of such habits as bed-wetting and nail biting, but with questionable success.

It has also been used to teach a foreign language and improve

Purse Snatcher Polite to Finish

MOUNT STERLING, Ky. (AP) — The purse snatcher fled empty-handed but he never forgot his manners.

He attempted to grab Miss Minnie Newman's purse; they struggled; she fell to the ground, breaking a finger.

The thief helped Miss Newman to her feet, handed over the parcels she dropped, then he

Q — I read recently that when sauerkraut is cooked in an aluminum container, aluminum chloride is formed and that this causes poisoning. Is this true?

A — False. Aluminum exposed to the air forms a thin layer of aluminum oxide which is not only harmless in itself but does not dissolve when exposed to sauerkraut or any other food.

If this were not so there would be thousands of deaths from this cause every day.

Open House for Girl Scouts' New Office

Mrs. Elwyn Tripp, president of the Northern Oakland County Girl Scout Council will officially open the newly leased headquarters in the Tel-Huron Shopping Center at a ribbon-cutting ceremony at noon on April 29.

Four scouts, one from each level of Girl Scouting, will conduct an opening flag ceremony.

There will be an open house for the public from noon

until 7 p.m. both Friday and Saturday.

BUFFET

Prior to the ribbon-cutting, there will be a buffet brunch in Holiday Inn for Girl Scout board members and guests.

Girl Scout adults with lengthy tenure in the movement will be honored during the open house.

A huge framed scroll, created by a local artist, will provide a permanent record

for the signatures of individuals who have been members of the council during its 46 years in the area.

CHAIRMEN

Under the guidance of chairman and vice chairman of the open house, Mrs. Fred Hoppe and Mrs. K. V. Keener, will be several committee members.

They are Mrs. Tripp, Mrs. Albert-Latendresse, Mrs. Loyal Joss, Mrs. Ernest Pierce, Mrs. DuWane Jones,

Mrs. B. Terry Marshall, Mrs. William Shunck and Mrs. Richard F. Morgan.

More are Mrs. Rex Kelley, Mrs. Francis H. Swan Jr., Mrs. Harold E. Chamberlin, and Mrs. Gay Hall.

Easy on Thumbs

Save your fingers when pushing in thumb tacks by using a thimble.

PTA Heads Gather for Breakfast

The annual "Presidents' Breakfast," given by the Pontiac Council PTA took place Tuesday morning in the First Congregational Church.

Some 80 new presidents, principals and past presidents were honored.

A musical program was presented by the 9th grade choir of Jefferson Junior High School under the direction of Phillip Carey.

Seated at the guests table were Gerald White, Victor Lindquist, William Lacy, Richard Fell, Mrs. William Wright, Mrs. Charles Neldrett and Mrs. William White.

Besides Mrs. White, other committee members who worked on the breakfast included Mrs. Benjamin Shelton, Mrs. Vernon McFarland, Mrs. Thomas Bartle and Mrs. Robert Anderson.

Booker T. Yancey, assistant principal at Whittier School, chats with Mrs. Charles Rounds (left) of South Astor Court and Mrs. Barton Schmukey of Rosewood Avenue at

the annual Presidents' Breakfast sponsored by the Pontiac PTA Council Tuesday in the First Congregational Church.

Polly's Pointers

Use Damp Cloth

POLLY'S PROBLEM

DEAR POLLY—I crocheted a jumper for a 4-year-old girl. The pattern called for a bead elastic at the waistline and no one seems to know what a bead elastic is. I do hope you or some of the readers can help me as I do not know if this is to be crocheted or if it is an elastic that one buys

DEAR POLLY—If you should happen to forget to remove those permanently pressed clothes from the dryer and find they are wrinkled when the dryer shuts off, simply dampen a facecloth or small towel, re-place in the dryer with the wrinkled clothes, run the dryer for about 10 minutes and your clothes come out without a wrinkle.—ANNE

DEAR POLLY—I am a semi-invalid and must find easier ways to do things. When my tableware is to be put away it is bundled in napkins and placed in an oblong dish with a cover that can be kept on the table.

To bundle, place a napkin flat and the knife crosswise about two inches from a corner, fold the small corner and lay the fork on top to prevent scarring and then fold the corner again for the spoon before tightly rolling the rest of the napkin.

Four items are ready to be passed or placed at each plate, which saves time, confusion and steps. —MRS. E. S. B.

DEAR POLLY—To keep books from looking messy by being shoved back on a bookshelf, I put the rolls from paper towels, etc. behind the books.—DANILIE

DEAR POLLY—I find that a stenographer's notebook is an excellent reminder as to whether or not I have answered letters. At the top of the perpendicular line dividing the page I put the month and to the left of the line I list in mail, and to the right OUT.

This way I can always check when I have received a letter and the date I answered it if I have done so. If not, it is a reminder not to forget. —GRACE

DEAR POLLY—I am tall and sweaters seem to get shorter and shorter no matter how carefully I wash them. I have cast around for some way of stretching them in length without making them too tight in width.

Finally, I placed a plastic bag from the dry cleaners over my dress form, padded the shoulder lightly with a small towel to smooth out the divided places, put the damp sweater on it and buttoned it up.

I pull the bottom of the sweater down as far as necessary and even pin it to a strip of material fastened tightly around the hip section of the form. Be sure and place the pins close together to prevent points on the bottom. My sweaters now fit just right and the plastic protects my dress form. —MRS. J. H. S.

Local Couple Honeymoons in Caribbean

Seaman I.C. and Mrs. Wayne Norbert Hanson (Lanie Marie Conley) left for a honeymoon in the Virgin Islands after recent vows in the San Juan Naval Base Chapel, Puerto Rico.

Reception in the Flamboyant Hotel followed the ceremony performed by Chaplain Robert Schneek.

Parents of the couple are the Fred Conleys of Lakeview Road, Oxford Township and the Norbert Hansons of Fernlock Drive, also in Oxford Township.

Their attendants were Maria J. Cantino of Rio Piedras, Puerto Rico, and Robert Langbein of Bethpage, N.Y.

Mrs. William White of Rapid Street (left) and Mrs. Robert C. Anderson of Silverside Avenue, decorating and hospitality chairmen, respectively, check final details for the PTA council breakfast.

SEW SIMPLE By Eunice Farmer

Dear Eunice: I don't know where to start the neckline zipper at the back of my dress or blouse. I can't seem to get the facing turned under the neck edge without a thick lumpy fold of excess material, and there's never a place for a hook and eye. —MRS. J. S.

Dear Mrs. J. S.: When placing your neckline zipper in position keep the key or tab of the zipper at least one-half inch below the SEAMLINE, or in other words, about 1½ inches from the cut edge of the garment. I always prefer a lapped-type zipper to one that has each side meeting at the center of the zipper.

Turn each end of the facing down over the zipper tape, mitering the ends. Cut out any excess fabric from this area before hand whipping the ends down to the zipper tape. You will find ample room for the hook and eye above the tab of the zipper if you follow these instructions.

TAILOR TRIX WINNER

Mrs. John Rohr, Lafayette, Ind., wins a new Tailor Trix Pressing Board for the following ideas.

"I do alterations at home, so I have a lot of ripping to do. I keep a rubber and metal suede brush handy to remove all the little threads that are hard to pull out from a ripped seam. Use the side of the brush best suitable to your fabric."

"Another invaluable aid: Fold a large piece of wax paper several times until you have a six- or seven-inch square pad. This works perfectly! Just run over it with your iron and it will keep the iron from sticking."

Dear Eunice: So many of the new patterns have gathers around the entire waistline instead of darts. The last one I have doesn't even have a side seam and yet the dress is a sheath-style dress. I am just plain not thin enough for even this amount of gathering. Is there anything I can do to make the dress less bulky at the waist? —MRS. C. B.

Dear Mrs. C. B.: You can always remark your pattern, (especially the skirt back) and put the back darts in your skirt. Then you can add a shaped dart at the side tapering it from about one inch at the waistline to nothing seven inches below the waist. This would be the same shape you would have if there were a side seam. Try keeping the ease in the skirt front; it shouldn't be too much and will look very new.

Fitting skirts successfully is easy when you follow my step-by-step instructions in my latest booklet "Your Pattern and You." For your copy, send 25 cents and a long, self-addressed, stamped envelope with your request to Sew Simple, in care of this paper. You'll love the simplified pattern alterations and the many sketches.

We Accept "Michigan-Bankard" Charge Plates!

Sister Theresa of St. Benedict's School beams with pride as she watches two of her students make posters for the Saturday fair. Both Brian Carry of West Iroquois Road

and Chris Browning of Fernberry Drive put their artistic talents to work on colorful posters for the event.

Why Grow Old?

By JOSEPHINE LOWMAN

Are you just five or 10 pounds away from a lovely figure? We are so likely to let that many pounds linger on because the situation doesn't seem so terribly drastic. However, that much overweight can make the difference between a truly beautiful silhouette and one which has the stamp of middle age on it. This is the second day of my 9-Day Diet.

It will help if you plan as little social life as possible during this nine days. It seems unappreciative not to eat and enjoy the wonderful food your hostess has prepared for you. If you do accept an invitation during this

short time pass up the items with a high calorie content if you can without being conspicuous. Otherwise, take a small serving.

BE TRUTHFUL

If you are really serious about losing 10 pounds in a hurry, I think the best plan is to just say that you are on a strict diet for nine days. If necessary, you could take your own food to the party. Many persons who have special diets for health reasons do this. I am sure that your friends will forgive you for just nine days of eccentricity.

If you wish, you can add two level teaspoons of butter or margarine and two level teaspoons of sugar to your daily intake without drastically changing the results you obtain. However, make the teaspoon measurements LEVEL and do not take any other liberties with the menus.

BREAKFAST

One-half grapefruit
One thin dry piece of whole wheat toast

Black coffee
MID MORNING
Glass of skimmed milk or buttermilk

LUNCHEON

One poached egg
One thin dry piece of whole wheat toast
One-half cup broccoli
One glass skimmed milk

DINNER

Two crisp raw carrots
Baked fish (medium portion)
One-half cup green peas
Shredded lettuce salad,
lemon dressing
Fresh fruit cup

At lunch you can substitute any green leafy vegetable for the broccoli if you wish or if it is not available at a restaurant.

If you would like to have my 9-Day Diet booklet which gives you all the menus, send 10 cents and a stamped, self-addressed envelope with your request for it. Address Josephine Lowman in care of The Pontiac Press.

Tomorrow: "Throw Out Your Bibles While Spring Cleaning."

WSU Group Slates Show

Several local women are working on arrangements for the third annual desert smorgasbord and fashion show of Wayne State University Home Economics Alumni Association.

This takes place May 7 at Crowley's in Detroit. Mrs. Tom Reese of Orchard Lake is president of the organization.

Joining her in committee work are Mrs. Robert Hague, Mrs. William Ersthaler and Mrs. John Noraison of Birmingham; Mrs. Gerald Freckles, Pontiac; Mrs. Owen Goodrich, Troy and Mrs. Carl Carl Well of Farmington.

Pancakes and music will be on the agenda at the Douglass Houghton School PTA "Family Fun" night Saturday from 5 to 7 p.m. Charles Gauthier of Sandy Ridge Drive, White Lake Township, practices the drums for the talent portion of the evening while Mrs.

Ted Lewis, Union Lake, who is in charge of the entertainment, hangs a poster. Rhonda Thronsdet, also of Union Lake, warms up on the keys. Cochairmen of the event are Mrs. James McCutcheon and Mrs. Joseph Gauthier.

Three Chapters Tell News

Four women were initiated into Xi chapter, Della Kappa Gamma society at a dinner meeting Tuesday evening in the Haven Hill Lodge.

New members are Mrs. Gordon T. Barr, Mrs. Robert D. Boyce, Mrs. Robert Madden and Mrs. George H. Putnam.

The state convention will take place at Shanty Creek Lodge on May 13-15.

AWARD

On May 18, the group will present an award to the editorial board of Origins, the Pontiac Central High School creative writing magazine.

Mrs. Max Selle was assisted by Mrs. R. H. Kempf and Mrs. Charles Wait for the initiation ceremonies.

Hostesses were Florence Gullstram, Mrs. Walter Greenacre and Myrtle Huntley.

Alpha Gamma

Eugenia Keller will assume duties as president of Alpha Gamma chapter, next year.

The election of officers took place at a recent dinner meeting in Greenfield's Restaurant, Birmingham.

Charles Bessolo, first vice president; Mrs. G. E. Meads, second vice president; Mrs.

Bernard Mousseau and Mrs. R. H. Matson, secretaries and Mrs. Harold Houck, treasurer.

INITIATED

New members initiated at this time were Mrs. Edward Bowen, Mrs. G. C. Dunn, Mrs. C. A. Ellis, Mrs. Theodore Grabman, Mrs. B. A. Hill, Mrs. C. J. Johnson, Mrs. H. P. Martiny, Mrs. R. C. Pulley and Virginia Thrun.

Alpha Beta

Reports were given on the Dorothy Selle Future Teacher Grants in Aid at the Tuesday evening meeting of Alpha Beta chapter, held in the Donelson School.

Applications for the current grants will be received by Mrs. Chester Arnold, Helen Bulla and Jolene Nebeker.

New officers elected at this meeting were Jean Lukins, president; Mary Lu Robertson, first vice president; Mrs. Donald Tick, second vice president; Mrs. Robert Elliott and Mrs. Gordon Earhart,

secretaries; and Mrs. Clare Hubbell parliamentarian.

DELEGATES

Delegates elected to the state convention were Miss Lukins, Mrs. Arnold, Mrs. Gertrude Ery, Mrs. Hubbell and Mrs. Michael Sheridan.

More Women Insured Today

NEW YORK (AP) — Women own well over \$120 billion in a variety of life insurance policies, the Institute of Life Insurance reports. This is double the amount ten years ago.

Studies by the Life Insurance Agency Management Association indicate that approximately 60 per cent of all adult women own some form of life insurance, the most popular being individually-purchased policies.

Start Rehearsals Early

One Must Practice Tact

By DR. GEORGE W. CRANE
CASE Y-481: Lois G., aged 20, is the wife of a Navy enlisted man.

"Dr. Crane," she began, "we have two babies and live in a little 4-room cottage near the base here in California. During the fall, my parents visited us for a week."

"They brought us a supply of food and Mother helped with the babies and did my washings while she was here. But the 2nd day after their arrival, my husband's uncle and his wife and 2 daughters dropped in on us unexpectedly."

"They stayed for 5 days, despite our crowded cottage. I wouldn't have minded that so much if they had tried to help with the housework. But they furnished only one meal for the crowd in the entire 5 days, though my husband and I are on such a small budget we can hardly feed ourselves."

"And his aunt simply sat, smoking cigarettes and drinking black coffee every morning while Mother and I did the work."

"One of their daughters bought a carton of soft drinks but she hid them under the bed so nobody else could have any."

"And her mother brought out their accumulated week's laundry for us to do for her!"

"What is wrong with people when they are so selfish and tactless?"

TACT AND MUSIC

Tact is like skill at the piano keyboard for both must be learned.

Neither one is inherited!

And to learn, we need specific problems which we must be assigned and on which we must be graded.

If these relatives who descended on Lois had been unable to play a piano, she would not have held it against them, would she?

For the general public doesn't feel that everybody must be a pianist.

But there is a general opinion that at least by the time we reach adulthood, we should be reasonably tactful.

Alas, thousands of adults remain tactless, selfish and spongers.

And they don't even seem to realize how they appear to other people who have a more cultured training in etiquette.

The usual in-laws of a young couple, struggling to make ends meet while the husband is in military service, will try to help out their budget by buying food or taking the

young couple out to a restaurant meal.

Or they will help around the house and try to relieve the harassed mother of her daily chores.

But some families not only don't teach unselfishness to their children, but actually set daily examples of greedy avariciousness.

This visiting family thus shows a perfect example of "like mother, like daughter," for the daughter hid the soda pop to avoid sharing it! Imagine the dilemma of this girl's future husband if she later marries?

Which is why you young people better look into the background of your future mate, for good looks can disguise a selfish personality.

So be sure to send for the 20-page "Rating Scale for Sweethearts," enclosing a long stamped, return envelope, plus 20 cents.

It helps you shatter blind infatuations and analyze your sweetheart logically!

(Always write Dr. George W. Crane in care of The Pontiac Press, enclosing a long stamped, return envelope, plus 20 cents to cover typing and printing costs when you send for one of his booklets.)

LUCKY BINGO

Each Free Lucky Bingo Number Ticket has two portions. One part has your Lucky Bingo disc—which you punch out to reveal two Bingo numbers. The other half is your Sweepstakes Entry Blank—which you detach, fill out, and deposit at Wrigley for big Sweepstakes prizes each week!

1. Get one FREE Lucky Bingo concealed number ticket every time you visit Wrigley—no purchase necessary!
2. Punch out discs and insert into slots on Lucky-Bingo card with matching numbers.
3. Fill a line vertically, horizontally or diagonally—and you win \$1,000 or \$100 according to the amount at the top of your card.
4. Bring your card to Wrigley and claim your prize!

If your disc shows the words "you win \$1.00" or a picture of a Wrigley Food Product—you may turn it in immediately for the prize indicated!

FREE! GET FREE BINGO CARDS THIS WEEK!

also
\$100 CASH

000 CASH

DOUBLE THE WINNERS

DOUBLE THE PRIZES!

Over 1/4 million prizes in all which mean an average of 3 out of 5 customers win something. So hurry to your Wrigley store and start today!

DOUBLE THE CARDS!

You can get game cards at Wrigley. This gives you the opportunity to play extra cards... FREE.

DOUBLE THE BINGO NUMBERS!

Over twice as many chances for you to win, because twice as many bingo number discs will be in circulation. Every game disc contains two playing numbers... not just one.

Mart Moves Generally Higher

New York (AP)—The stock market moved generally higher at the opening today in active trading. Fractional gains predominated.

Boeing showed continued weakness, however, losing 5 1/2 at 168 on a block of 11,000.

General Motors rose 3/4 to 40 on 4,000 shares.

Trade Brisk at Opening

New York Central opened on 16,700 shares, up 1/4 at 67 1/2.

Opening blocks included: Chrysler, up 1/4 at 49 1/4 on 5,000 shares; American Telephone, unchanged at 57 on 8,700; and Pan American World Airways, up 1/4 at 73 1/4 on 3,800.

On openers of 3,000 shares, United Aircraft rose 1/4 to 96 1/4; Ford rose 1/4 to 61 1/4; Douglas Stock Exchange.

Investor Role Is Target of Bill

WASHINGTON (UPI)—President Johnson today asked Congress to make it easier for private lenders to take over federal loans through pooling of government credits and other steps to encourage investor participation.

Johnson proposed to send the House and Senate a "Participation Sales Act of 1966" aimed at replacing \$8 billion in public credit with private funds.

The measure would go into effect in the current fiscal year and also apply in the fiscal year beginning July 1.

In a letter accompanying the measure, the President stressed the long-term importance of replacing public credit with private loans for reasons ranging from taxpayer savings to strengthening the credit market.

The legislation would:

• Provide for "pooling" many loans together and selling participations in the pool, rather than having the government make a number of relatively small and uncoordinated offerings of loans in the market.

• Centralize sale of pool participations in a single agency—the Federal National Mortgage Association—rather than have each agency sell its own loans.

• In cases where federal interest rates are below those of the private market, allow the government to "make supplementary payments" to the Federal National Mortgage Association to cover the interest insufficiency.

This would be subject to advance authorization by appropriations committees of both houses.

BUDGET RESOURCES

Johnson said "the Participation Sales Act of 1966 will permit us to conserve our budget resources by substituting private for public credit while still providing for the needs of the government."

Johnson said the act will help us move this nation forward and bring a better life to all the people.

Johnson said the volume of federal loans outstanding as of last June 30 exceeded \$33 billion and involves programs for farmers, businessmen, home buyers, veterans, students, colleges and schools.

Waterford Township police are investigating the theft of \$111 from an office at Pierce Junior High School, 5145 Hatchery.

Birmingham Unitarian Church, Spring Rummage Sale, Friday, April 22, 9 a.m. to 4 p.m.; Saturday, April 23, 9 a.m. to 12 noon. 651 Woodward, Bloomfield Hills.

Rummage Sale, April 22, Fri. 9-5 p.m. St. Paul's Methodist Church, 620 Rome St., Rochester.

Rummage Sale, Thursday, April 21, 9 a.m. to 5 p.m., and Fri., April 22, 9 a.m. to noon. First Methodist Church of Birmingham, W. Maple at Pleasant. Snack Bar and free parking.

Rummage Sale, Congregational Church, 1315 N. Pine, Rochester, Fri., Apr. 22, 9-7 p.m. Sat., Apr. 23, 9-11 a.m.

Crash Takes 2nd Life

GRAND RAPIDS (AP)—Thomas D. Darling, 16, of suburban Belmont, died Tuesday at Butterworth Hospital, the second victim of a Saturday night auto crash. Police said he was the driver of a car which skidded on a Kent County road and struck a tree, killing 15-year-old Steven H. McConnell of Belmont, a passenger.

Residential Construction Shows Increase in County

Detroit Metropolitan Area Regional Planning Commission indicates that multiple housing continues to be a major factor in total construction activity.

A total of 1,495 single-family and 775 multiple-family units were issued in Oakland County during the first quarter of this year.

This compares with 1,270 single-family and 713 multiple-family units for the quarter a year ago.

A total of 2,270 permits were issued the first quarter this year in Oakland County. Taking into account 82 demolition permits, the net total was 2,188.

Last year in the first quarter, 1,983 construction permits were issued and there were 75 demolitions for a net of 1,908.

Authorizations for new dwelling construction in the four-county metropolitan region showed a 22 per cent increase in the first quarter of this year over last year.

Washington County experienced an increase of 181 per cent on 371 permits for the first quarter of 1965 and 1,044 this year.

Wayne County with 2,339 permits issued during the first quarter this year had the highest gross total but demolitions amounting to 1,237 left a net of 1,102.

The other county in the region, Macomb, issued 2,011 permits, netted 1,000 and recorded 24 demolitions for a net of 1,000.

Packaging Bill at Vital Point

WASHINGTON (UPI)—A "truth in packaging" bill to give housewives an even break when they do their shopping today advanced to a crucial stage in Congress.

A compromise proposal was expected to come out of the Senate Commerce Committee, possibly with some Republican-sponsored changes that could broaden its scope.

"If we don't make it now, it looks like we never will," said one supporter of Sen. Philip A. Hart, D-Mich., who has been seeking a way of protecting consumers since 1961.

According to best estimates, the compromise measure would resemble generally the Hart proposal, but basically, gives the government the power to set standard weights and measures for products sold in markets and drugstores.

This power would be exercised by the Federal Trade Commission and the Food and Drug Administration.

Reid Donaldson, 6665 Halyard, Birmingham, Ala., local agent for Allied Van Lines, Inc., reported that Allied's gross operating revenues were \$11,269,330 last year.
