U. S. Wins Fast Down-the-Line Victory in U. N.

Heat to Continue; 97 Forecast Friday

Yesterday's 96 Matches Record Reached in 1948

2 P.M. Reading of 95 Today Keeps Mercury Boiling for 3rd Day

6 a. m.	68	10 a. m.	87
7 a. m.	68	11 a. m.	92
8 a. m.	73	12 m.	93
9 a. m.	80	1 p. m.	94
		2 p. m.	95

Even hotter weather is forecast for the Pontiac area Friday after yesterday's sizzling 96 degrees matched the record high for that date.

The U. S. Weather Bureau predicts a high of 97 degrees Friday.

The mercury climbed to 95 degrees at 2 p. m. today in downtown Pontiac, giving this area the third straight day of above 90-degree weather.

Today's 95 is only two degrees below the record for this date in 1948.

Record water pumpage is expected in Pontiac this month due to the heat wave.

Joseph Gable, acting water superintendent, said a total of 161,003,354 gallons of water were pumped from Aug. 15 through Aug. 25, a new record for the 10-day period.

Wednesday's high of 96 degrees was recorded here about 2:30 p.m. It matches the record high for Aug. 26 established in 1948.

Uncomfortable sleeping weather is on the way tonight, with a low of only from 70 to 74 degrees.

Most of the eastern two-thirds of the nation baked in the heat wave yesterday. Record readings for the date were reported in many cities, including 97 in Chicago and 96 in Milwaukee.

Water shortages were reported in many Chicago suburbs and some industrial and commercial plants halted operations in suburban Maywood.

Skies were mostly fair today from the Midwest eastward to the Atlantic Coast, except for showers in Western Pennsylvania, sections of New York and the New England states.

Pumps Work Overtime

DETROIT (AP)—Detroit pumped a record 693,500,000 gallons of water yesterday and city officials warned they may have to clamp down further on water usage. Leo V. Garrity, assistant general superintendent of the water department, warned that week-day restrictions on lawn sprinkling may be extended over the week-end if there is no let-up in the hot, dry weather. Detroit bans sprinkling from 2 p.m. to 9 p.m. Monday through Friday.

Takes Fund Post

EARL A. MAXWELL

Industrial division chairman for this fall's Pontiac Area United Fund campaign will be Earl A. Maxwell, personnel director, GMC Truck & Coach Division. Appointment was announced today by Harold A. Fitzgerald, United Fund president.

Extended Drouth Threatens Crops

Rain Must Come Soon; Next Year's Yields Also May Suffer

The drouth which has gripped Oakland County for more than two weeks is approaching the critical stage, according to Edmund W. Alchin, Oakland County agricultural agent.

"Unless a good soaking rain falls within the next week, quality and yield of such maturing crops as potatoes, corn and fruits will be seriously harmed," he stated.

The last measurable rainfall was recorded in Pontiac Aug. 7 when .34 of an inch of rain fell.

Next year's wheat crop may also receive a setback, Alchin reported, because area farmers are finding soil too dry for plowing. September 12 is the date when wheat planting usually begins, he stated.

"Continued dry conditions also may seriously hamper next year's hay crop," the agent said.

New seedings and second-cut hay will not take root and develop without late summer and fall rains, he explained.

No immediate relief from the drouth is in sight, according to a long-range forecast of the U. S. Weather Bureau.

Although the bureau predicts scattered showers over the weekend, only one-tenth of an inch of rain is expected.

Brownell Calls Lawyers' Guild Red Mouthpiece

Group Must Clear Self or Else Be Put on List of Subversives

BOSTON (AP) — Atty. Gen. Brownell today described the National Lawyers Guild as the legal mouthpiece for the Communist party and announced he proposed to put it on his list of subversive organizations.

Brownell made the announcement in an address prepared for the American Bar Association (ABA) in convention here.

He said he had, earlier in the day, served notice on the guild of its proposed inclusion on the list which the government uses in checking the affiliations of federal workers in relation to their loyalty and security.

The notice means the guild has 10 days in which to ask for a hearing, if it desires to present evidence on why the organization should not go on the list.

The Brownell announcement followed adoption by the ABA House of Delegates of a resolution declaring that Communists should be barred from the legal profession in this country.

It was included in a speech devoted to board policy pronouncements in which the new attorney general said:

1. The lawyer who leaves government service to join up with "the other side" in pending litigation against the United States with which he is familiar "commits a crime," and he has instructed the U. S. district attorneys to start a program of prosecutions in this field. Brownell asserted the law forbidding such activity within two years after leaving the government has never been enforced.

2. The Justice Department

Son Is Released in Slaying Quiz

But May Be Questioned Further; Police Rule Out Ionia Escapee

David Perkins Jr., 37, was released by Pontiac and State Police yesterday after taking two lie detector tests in connection with the slaying of his mother, Mrs. Hallie Perkins, 55, whose body was found in a weeded field at Baldwin and Beverly Aves., Aug. 15.

Detective John DePauw, coordinating the investigation, and Captain Clark M. Wheaton, chief of Pontiac detectives, who questioned David after both tests, said the results of the polygraph examinations were "inconclusive."

Wheaton, who added that David may be recalled for further questioning, also revealed that a first lie test was given David the week of Aug. 17. The results of that test, he said, were similar to yesterday's showings.

Meanwhile, Thomas Martinelli, 20, of Detroit, an Ionia State Hospital escapee who was sought in connection with the slaying and the attack on a teenager, was definitely ruled out as a suspect yesterday.

The 16-year-old girl, attacked in a field two blocks from where Mrs. Perkins was found bound hand and foot, was unable to identify Marinelli in a police show-up.

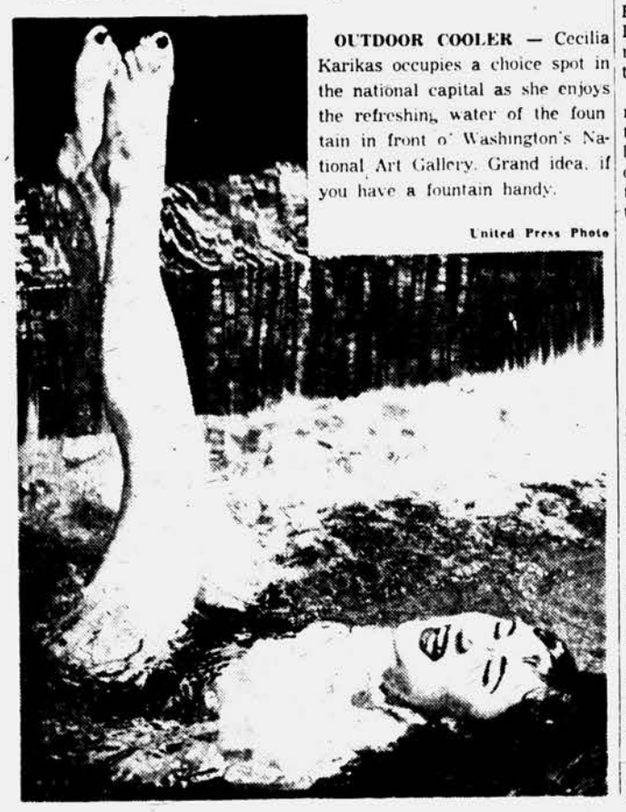
Marinelli was captured in Detroit Tuesday night by Detroit Police.

So far 17 persons appeared in show-up lines and were released after the teen-age girl failed to identify them. A total of 43 suspects have been questioned.

Wheaton said that two other persons are being sought for questioning and show-ups. He added that a lie detector test is being scheduled for another person.

Back to school clothes. Open 7-9. Sun. 10:30-2:30. R & M Dept. Store, corner Cooley Lk. Rd. & Union Lk. Rd.

Idea for a Day Like This



OUTDOOR COOLER — Cecilia Karikas occupies a choice spot in the national capital as she enjoys the refreshing water of the fountain in front of Washington's National Art Gallery. Grand idea, if you have a fountain handy.

REUNITED AFTER NINE MONTHS — Three-year-old Monika Gray and her parents, Mr. and Mrs. Edward P. Gray of 21 Cooper St., beam happily after being separated for nine months. Monika, the daughter of Edward's German wife, flew to the United States recently. The girl had to remain in Germany until regulations permitted her entry into the United States.

POW From City on Death List

Sgt. Robert J. Cloutier Reported by Reds as Among Casualties

Hope that their son is still alive all but ended today for Mr. and Mrs. Arthur E. Cloutier of 526½ S. Saginaw St. when the Communists reported he had died in a Korean prison camp.

SGT. CLOUTIER

A message from the Secretary of Army office in Washington, D. C., said the name of Sgt. Robert J. Cloutier, 21, was carried on the Red list of Yanks who died in Camp No. 5 in Pyoktong, North Korea.

The office pointed out, however, that this was merely a Communist report and had not been confirmed.

After Sgt. Cloutier was reported missing in action Dec. 1, 1950, Mr. and Mrs. Cloutier learned from Army sources that their son was believed captured by the Reds and alive.

Sgt. Cloutier joined the service in 1949. Prior to his enlistment he attended Pontiac High School. He has two brothers and six sisters.

3 Murder Suspects Are Cleared by Alibi

DETROIT (AP)—State Police said today that three men sought in the bludgeon slaying of Mrs. Clara Reuter, suburban Ecorse township grandmother, have been cleared of suspicion.

The men were located in Des Moines, Ia. yesterday and cleared when they proved they were in that city eight hours after Mrs. Reuter was murdered Monday.

State Police detective Karl W. Lutz of the Flat Rock Post said Des Moines police found the men checked into a cabin there at 11 p. m. Monday. Police have determined Mrs. Reuter, 47, was murdered in her rose garden about 3 p.m. that day.

Forest Fires Damage Thirty Michigan Acres

LANSING (AP)—A total of 25 fires, the highest total in recent weeks, damaged 30 acres of Michigan wildland in the past week, the conservation department said today.

The higher toll stems from dry conditions, the department said.

Child Flies From Germany to Join Parents in City

"Nine months is a long time not to see your little girl, but now that she's here everything is fine," beamed Mrs. Edward P. Gray as she and her husband were reunited with their three-year-old daughter, Monika.

The chubby blonde baby was reunited with her mother and stepfather at Willow Run after long months of negotiating with the American consulate in Frankfurt, Germany.

Gray, 24, married Margarete, 21, while serving with the Army in Germany for 13 months. He was discharged last Dec. 2 and his wife followed him home to Pontiac a week later.

Little Monika was prevented from coming over because she was Mrs. Gray's child by a previous marriage and not Gray's own child. The consulate in Frankfurt advised them before they left that Mrs. Gray would have to come to this country first, then send for the child.

In the meantime, Monika stayed with Mrs. Gray's mother and father in Frankfurt.

Six months of weekly letter writing to the consulate requesting a visa for the child were met with silence. Finally, in desperation, the Grays appealed to Con-

150 More Americans Are Released Today

PANMUNJOM (AP)—One hundred and fifty Americans rode eagerly from Red captivity today, three of them men their buddies had feared would be kept in North Korea after they disappeared mysteriously from their prison camps.

One returning prisoner said 45 more Americans sentenced only a month ago to prison terms were in the Red grouping center at nearby Kaesong awaiting release.

Freed Americans have told of prisoners jailed by the Reds in late July when the armistice was signed on such charges as "instigating against peace." Their sentences ranged from 1 to 3 years.

However, three who said the Reds called them "convicts," came back in Thursday's group of 250 South Koreans and 150 Americans.

FBI Can't Join Parmenter Hunt

McIntire Claims Case Is Outside Jurisdiction of Federal Agency

The Federal Bureau of Investigation has "no jurisdiction whatsoever" in the hunt for Eugene A. Parmenter, Pontiac stock broker, charged with larceny by conversion, according to Fred H. McIntire, head of Detroit's FBI office.

McIntire said that under the Unlawful Flight Statute, the FBI may enter a case only when the offender flees the state to avoid prosecution for murder, kidnaping, burglary, robbery, mayhem, rape, assault with a deadly weapon or extortion with threats of violence.

Yesterday Pontiac Police Chief Herbert Straley said he would be willing to ask the FBI to enter the case if police found it necessary after it had been established that Parmenter has left Michigan.

Parmenter, 53, of 6366 Thurber Rd., Birmingham, an employe of the W. H. Protiva brokerage, fled Pontiac Aug. 14 when a state check of the company's books indicated he had used patron's stock as collateral for a $12,500 bank loan.

Despite a suicide note Parmenter sent to his wife a few days after his disappearance saying that he was going to drown himself because his misuse of client's securities had been discovered, authorities believe he is still alive.

Lodge Is Victor Over Vishinsky on Peace Setup

India to Be Kept Out, Only Fighting Nations In, With Russia Invited

UNITED NATIONS, N. Y. (AP)—India failed today to win sufficient U. N. support to give her a seat at the Korean peace conference.

She received a majority of the votes cast in the 60-nation political committee, but fell short of the two-third majority required for approval by the General Assembly which acts tomorrow.

The vote was 27 for, 21 against, 11 abstaining and India not participating.

It was a victory for the United States, who had split with Britain and other Western Allies over the issue and had fought vigorously against India's inclusion.

The committee also:

1. Recommended seats at the conference for all the 16 countries who fought under the U.N. banner—if they desire to do so. The vote was 42-7, with 10 abstaining and India not voting.

2. Rejected a Soviet proposal that the conference be made up of six belligerent countries and nine "neutrals." The votes: 5-41, with 13 abstaining and India not voting.

3. Voted to include Russia in the parley "provided the other side desires it." The vote was 55-2 with two abstaining.

(Russia made an unsuccessful attempt to delete the phrase lining her up on the Communist side, but then voted for the proposal as a whole, indicating she would attend as a representative of the Communists.)

4. Gave the United States the authority to consult with the two sides and work out arrangements as to the time and place of the conference. Geneva is generally considered the most likely site.

5. Recommended that no decisions of the conference be binding on countries which do not agree to them. This means any of the countries who have to

Car Works Well on Downgrade; Balks Going Up

Late for an appointment last night, Pontiac Municipal Court Clerk Leo F. McDonald dashed out of his home at 37 Omar St, and jumped into the car. It wouldn't start.

He pushed the car to the crest of a small hill and let it roll down. The motor still balked.

Disgusted, Leo called a mechanic who found the trouble at once.

Today Leo called the Pontiac Police Department and reported the theft of his battery.

5,500 Attend Preview Last Night

GM Parade of Progress Opens to Public for Four Days

General Motors "Parade of Progress" opened its doors to the public today after some 5,500 guests previewed the show Wednesday night.

The huge caravan of science started its four-day series of free shows this afternoon.

The series of demonstrations and a stage show in the Aerodrome tent will run several times daily today through Sunday between 2 and 10 p. m. at Washington Junior High School grounds.

Harry J. Klingler, General Motors vice president in charge of the passenger car and truck divisions, was main speaker for the first of Wednesday night's three previews.

Some 1,200 civic officials, business and professional men and key GM executives turned out for the early show

General Motors supervisory personnel were guests at two later shows Wednesday and at a special morning preview today.

A color film, showing how new auto designs are born in the mind of the auto stylist, transferred to his drawing board, and finally built into test models, opened the program.

A short talk by Mayor Arthur J. Law preceded Klingler's address, with Robert M. Critchfield, GM vice president and general manager of Pontiac Motor Divison, as master of ceremonies.

Pontiac Press Photo

WELCOME GUESTS — Harry J. Klingler (left) GM vice president in charge of passenger car and truck divisions, and Robert M. Critchfield, GM vice president and general manager of Pontiac Motor Division, were among corporation executives on hand at the preview of the GM Parade of Progress last night to welcome guests.

"We in General Motors," Critchfield said, "are very proud of this 'Parade of Progress' and its aims and objectives. We who live and work here are very happy that Pontiac was selected as one of its stops."

Mayor Law added the parade's visit to Pontiac is fitting, as "Pontiac itself is a city of progress.

"GM has been a good neighbor and a good citizen — very helpful both in an economic way and in good citizenship," the mayor added.

Klingler explained GM's attitude toward style changes and summed up the aims of the "Parade of Progress."

"None of us in the auto industry dares to get too radical," he said. "We make progress through changing models gradually — through evolution, not revolution."

Speaking of the "Parade of Progress," Klingler said that "we have nothing to sell directly but friendship and good will.

"If this show," he said, "should stimulate some young man, or a

Birmingham Ranks 7th in Nationwide Survey of Traffic Safety During 1952

(From Our Birmingham Bureau)

BIRMINGHAM — Birmingham's 1952 traffic safety record was given a "generally high" rating in every category, placing it 7th in 407 cities included in the 1952 inventory of traffic safety activities made by the National Safety Council.

Corp. Joseph Chaput, Michigan State Police, this week presented a plaque to the city commending its performance. He then reported this year's findings to a group of city officials.

With only one 1953 traffic death, the city was below average figures in both deaths-per-100,000-population and fatalities-per-10,000-registered vehicles.

The survey advised establishment of more one-way streets.

"A correct one-way street system smoothes traffic flow without interfering with accessibility," Corp. Chaput explained.

The report commended traffic law enforcement practices, but noted that only two of five traffic planning supervisors had the recommended two weeks of traffic control training.

Chief Moxley said Michigan State College had instituted a course in traffic administration which he hoped some of his officers would take soon.

Increased emphasis on teaching pedestrian safety and driver training in the high school was asked. Chief Moxley noted that an expanded program has been set-up in Birmingham Senior High School since the last figures were submitted.

Birmingham's activities aimed at educating the public to proper traffic and pedestrian habits met 59 per cent of the recommended performance, the report stated. This tied for 37th place in the 407 city grouping.

* * *

A request from the Disabled American Veterans to hold its annual forget-me-not sale Sept. 18 and 19 was approved by city commissioners this week, provided the group restrict the sale to one of those two days, in keeping with city policy.

* * *

Bloomfield Hills youngsters, except kindergartners, will attend their opening school day Sept. 9, a day later than the Birmingham School district.

First day will be a half-day session for both areas, Bloomfield's Superintendent of Schools Eugene L. Johnson said, and kindergarten will begin Sept. 10.

Mrs. Hazel MacNirr, Vaughan School principal, will be in her office this week and next to enroll new elementary pupils, Johnson said. Richard Spiess, high school principal, will take enrollments tomorrow and all next week, for new students.

Johnson added that buses are available for all students and time schedules will be issued opening day.

* * *

Absent from this week's City Commission meeting was City Manager Donald C. Egbert. He is vacationing and will return home Aug. 31.

Dr. William P. Lemon, summer supply minister at Kirk in the Hills Church, has been elected the church's moderator by the Detroit Presbytery.

Dr. Lemon, minister emeritus of the First Presbyterian Church of Ann Arbor, has been supplying for Kirk in the Hills since the retirement of the Rev. Dr. Leslie A Bechtel in July. A church official said today that Dr Lemon will stay on into the fall months, until a replacement has been made.

* * *

City commissioners decided this week to await the city manager's report before setting a hearing date to install new sewers on Maple from Adams to Worth, on Knox from Worth to Poppleton and on Ridgedale from Worth west 240 feet.

City Engineer L. R. Gare presented a breakdown of the cost estimate of $30,200. He also pointed out that the estimate includes a saving of about $5,000 if the top 12 inches of backfill used is road gravel, instead of using nothing but a sand backfill.

This will cause some inconvenience for about a year, Gare said, because there is a certain amount of settling, but he felt the saving would compensate for the year's annoyance.

Mrs. James R. Adams

BLOOMFIELD HILLS — Rosary service for Mrs. James R. Adams, wife of James R. Adams, president of MacManus, John and Adams, Inc. will be tonight at 8 o'clock in the Bell Chapel of William R. Hamilton Co. in Birmingham.

Funeral will be Friday at 10 a.m. from St. Hugo of the Hills.

Mrs. Adams died Tuesday in St. Joseph Mercy Hospital in Pontiac.

Pontiac Deaths

Henry Calvin Jr.

After an illness of seven months, Henry Calvin Jr., 46, of 201 Hughes St. died at his residence at 4:50 p. m. Wednesday.

Born in Manling, La., Aug. 15, 1907, he came to Pontiac eight years ago and was employed as a grinder at Pontiac Motor Division.

Besides his widow, the former Sarah Walker, whom he married in Baton Rouge, La., he is survived by his mother, three sisters and two brothers.

The brothers and sisters are Mrs. Anna Booker, Mrs. Lennie Davis, Mrs. Ann Gilmore and Willis Calvin of Baton Rouge and King Calvin of Lake Charles, La.

The body will be at the Frank Carruthers Funeral Home after 7 p.m. tonight and will be sent from there to Baton Rouge for service and burial on Monday at 2 p. m.

George Melkonian

After an illness of several months, George Melkonian, 69, of 421 Central Ave., died at his home at 4 a.m. today.

MELKONIAN

Born in Armenia March 12, 1884, he came to Pontiac in 1916 and married Sirpoohi Nazarian here March 12, 1921.

He retired from Baldwin Rubber Co. in 1952.

Besides his widow, he is survived by a daughter, Mrs. Isabelle Simonson; two sons, Dodge and Zaven; three grandchildren and one great-grandchild.

The body is at the Sparks-Griffin Funeral Home.

The family suggests that friends might like to make memorials to the American Cancer Society in lieu of flowers.

Sydney G. Shafto

After an illness of 10 months, Sydney G. Shafto, 65, of 16 Portage St. died at his home at 5 p.m. Wednesday.

Born in Ireland June 23, 1888, he was the son of William and Jane Morris Shafto. He married Eleanor A. Porter at Watford, Ont., June 7, 1913 and came to Pontiac from Canada 40 years ago. He was a citizen of the United States.

Mr. Shafto was last employed as a machinist at Superior Metal Products Co. in Auburn Heights.

He was a past chancellor of Lodge 19, Knights of Pythias.

Besides his widow, he is survived by a daughter, Mrs. Violet Gilmore of Green Lake and a son, Gordon Shafto of Oxbow Lake. A brother, Lawrence and two sisters, Miss Violet Shafto and Mrs. Lillian Saywood, are in England. Also surviving are two grandchildren.

Funeral will be Saturday at 1:30 p.m. from the Farmer-Snover Funeral Home, with burial in White Chapel Memorial Cemetery.

Frank Suchocki

Frank Suchocki, 29, of 127 Elm St. died at Pontiac General Hospital at 6:38 p. m. Wednesday.

Born at Westfield, Mass., June 2, 1924, he was the son of Charles and Stefania Murawka Suchocki. He came here three years ago and was employed at Tony's Barber and Beauty Shop as a barber.

He is survived by his parents and two sisters, Rigina and Anna Marie in Westfield.

The body is being sent from the Huntoon Funeral Home to the Czelusniak Funeral Home at Westfield for service and burial in St. Mary Cemetery.

Rotarians Meet New PHS Football Coach

Ed Graybiel, new football coach at Pontiac High School, appeared before members of the Pontiac Rotary Club at their noon luncheon today.

The former Traverse City mentor explained the setup of the National High School Athletic Federation to the members and told how PHS is regulated through the Michigan High School Athletic Association and the national body.

Graybiel also told Rotarians about the makeup of the coaching staff and the Chiefs' schedule for this fall. PHS meets, in order, Wyandotte, Hamtramck, Lansing Sexton, Flint Central, Bay City, Arthur Hill, Royal Oak, Flint Northern and Saginaw High.

PREVIEW PROGRESS PARADE — John E. Ryan (left), director of General Motors Parade of Progress, points out details of the "World of Science" exhibit to Howard M. Van Dusen (center), managing director of Waite's Department Store, and George M. Watson, personnel director of Pontiac Motor Division. The latter two men were among guests at the show's special preview Wednesday night at Washington Junior High School grounds.

Pontiac Press Photo

U. S. Wins in U. N. on Peace Setup

(Continued From Page One)

implement decisions of the conference would have a veto.

Under the committee's decisions, the conference could be expected to include Red China, North Korea and Russia on the Communist side, and South Korea and probably 10 other countries on the U.N. side.

Some of the 16 U.N. countries which sent troops to Korea have indicated they would not participate.

India's majority was much smaller than had been anticipated.

The voting came after U. S. Ambassador Henry Cabot Lodge Jr. told the committee Russia's attitude, if persisted in, would make peace impossible.

He said Soviet Delegate Andrei Y. Vishinsky yesterday had made a veiled threat that the Communists would boycott the peace conference unless they got their way in picking the participants. Vishinsky denied he had made any threat.

The Soviet delegate made it clear, however, that the Communists would object to the U.N. decisions and would transmit their objections to the General Assembly.

This raised the possibility that the whole question might be reopened at the beginning of the fall session of the General Assembly Sept. 15.

This was in part what Lodge referred to when he spoke of Vishinsky's "veiled threat" that the Communists might wreck chances for the conference.

Flies From Germany to Join Parents Here

(Continued From Page One)

gressman George A. Dondero for aid.

"Mr. Dondero said he would help us," Gray recalled. And he did. Within seven weeks of the first letter to him Monika was winging her way to New York on an airliner.

The baby was cared for by a registered nurse, furnished by the airline, during her flight to the United States.

The Grays were worried about the tiny traveler's journey from New York to Willow Run because nurses were not furnished on the local airliner.

But then they found that flying baby sitters are available for just such cases. One was dispatched to New York, and within a day the 4,000 mile journey was completed and Monika and her parents were together.

Gray said Monika will probably become a citizen as soon as her mother gets her final papers in two years. By marrying an American citizen Mrs. Gray automatically received her first citizenship papers, he explained.

Gray is employed in the electric meter shop at Consumers Power Co.

The now-whole Gray family is staying with Ed's parents, Mr. and Mrs. George Gray, 21 Cooper St.

The new Mrs. Gray plans to devote all her time to housekeeping and raising little Monika.

Plenty of help will be forthcoming from her mother-in-law, too. "We're teaching Monika to speak English," the elder Mrs. Gray said, "and she's picking it up very quickly. She can already say 'Mommie,' 'Daddie,' 'Grandma,' and 'Grandpa.' "

Birmingham Man, 28, City's 2nd Polio Victim

BIRMINGHAM — A 28 year old man taken to St. Joseph Mercy Hospital, Pontiac, Tuesday night, marks the city's second case of polio this summer.

City Health Nurse Mrs. Anyce Gillette said the patient is suffering from a paralytic type. "Thus far," she said, "he has some muscle weakness in the thighs, but it is still early to tell if he has a progressive case."

Women Voters Plan Big Fair on Government

BIRMINGHAM—County officials will take an active part in the County Government Fair which the League of Women Voters has scheduled for Sept. 19 at the Birmingham High School gymnasium.

To be held from 10 a.m. to 3:30 p. m., its purpose is to better acquaint the citizens with their county government and help them realize its effect on them as individuals and property owners.

Most of the city's service clubs and women's clubs are participating in the project. Each organization will be in charge of decorating a booth representing one phase of county government.

Some of the outstanding features will include the sheriff's posse and a display of county road equipment. A new check-writing machine from the county treasurer's office will distribute checks for the sum of $0.00 and movies will be shown.

The county officials will mingle with all those attending a noon luncheon and maps, graphs and charts pertaining to the county will be distributed to anyone for the asking.

The vast undertaking has been in the planning stages all summer, under the chairmanship of Mrs. Bernard Magruder, chairman of the league's voters service committee, with Otis Thompson of the Rotary Club as co-chairman.

Boy Fractures Nose Running Into Auto

Six-year-old Gary Kautto of 1646 Union Lake Rd. is reported in fair condition in Pontiac General Hospital today with a compound fracture of his nose, suffered when he ran into the side of an auto yesterday afternoon.

Harry L. May, 66, of 1861 Grove St., White Lake, told Michigan State Police of the Pontiac Post that he was rounding a curve on Union Lake Rd. near Cooley Lake Rd. when the boy ran into the side of his auto.

The boy was taken to the hospital by his parents, Mr. and Mrs. Rudy Kautto, and May was released after making a statement to police.

Brownell Describes Law Guild as Red

(Continued From Page One)

will continue a vigorous crackdown on the underworld through denaturalizations of racketeers with acquired citizenship, deportations of alien criminals, and stricter interpretations of the income tax laws designed to punish the syndicated hoodlums.

3. The department will seek legislation requiring communications companies to refuse telephone or telegraph service to those using these facilities for gambling purposes.

Of the National Lawyers Guild, long under the fire of the House Un-American Activities committee, Brownell said:

"It has been clear that at least since 1946 the leadership of the guild has been in the hands of card-carrying Communists and prominent fellow travelers.

"On every major issue since then it has steadfastly followed the party line and its programs and actions have been consistent with it, excepting only those issues so notorious that their espousal would too clearly demonstrate the Communist control.

It has become more and more the legal mouthpiece for the Communist party and its members, and it has consistently opposed all laws or investigations which have sought to curb or expose Communist activity in the United States.

"It is because the evidence shows that the National Lawyers Guild is at present a Communist dominated and controlled organization fully committed to the Communist party line that I have today served notice on it to show cause why it should not be designated on the attorney general's list of subversive organizations."

Award Paving Contract for Eight Mile Road

The Michigan Highway Department today announced award of a contract for construction of 2.9 miles of widening and concrete on Eight Mile road to the Denton Construction Co. of Detroit.

The bid of $475,221 was low for construction of the stretch from Grand River Avenue to Wyoming Avenue in Southfield, Royal Oak, Farmington and Redford Townships, and Detroit and Oak Park.

Figy's Ouster Blamed on Lab

It Failed to Find Dope in Racing Horse Tests; 'One of Many Reasons'

WILLIAMSTON (AP) — Failure of the State Agriculture Department Laboratory to discover that race horses were doped was one of the reasons for the firing of Former Director Charles Figy, a State Agriculture Commission director said today.

"It wasn't the main cause but it was one of the many things that built up over the years," said Clarence B. Smith of Williamston, one of the commissioners who joined the 3-2 majority that ousted Figy.

Smith, a Democrat, said if the firing of Figy was political "he would have been fired years ago."

The Agriculture Department Laboratory tested the urine and salivar samples taken when doping was suspected.

"Loaded" samples, full of dope, were sent up for testing when reliability of the tests was questioned.

The laboratory returned negative reports and the testing was switched to a private firm in Chicago.

"This was one of the many reasons for the dismissal," Smith said. "There was low morale in the department and internal friction. It all built up over a period of years."

Questioned on a possible succesor to Figy, Smith said "we're looking for the best possible man available. We want to make the department the finest in the country."

Pontiac Police Seeking Widow, Billy Ann Cole

Pontiac Police have been requested by Kansas City, Mo. authorities to locate Mrs. Billy Ann Cole, 35, whose husband has died in Kansas City this week.

Mrs. Cole is believed to have moved from Grand Rapids to Pontiac two weeks ago. Capt. Clark M. Wheaton, chief of detectives, said Mrs. Cole is asked to contact Mrs. Evelyn Priest by telephoning FInley 1140 in Kansas City.

In Russia, non-political prisoners get a vacation of one or two weeks a year.

DR. LYNN F. WEBBER

Acting medical superintendent at the Oakland County Tuberculosis Sanatorium is Dr. Lynn F. Webber. He has been on the sanatorium staff since 1951 and has been assistant medical superintendent since May, 1952.

GM Hourly, Salaried Rates Up on Sept. 7

General Motors late Wednesday announced an upward revision of one cent per hour in its cost-of-living allowance to approximately 390,000 hourly rate employes resulting from an increase in the nation's cost of living index.

The one-cent increase in the cost-of-living allowance for hourly-rate employes becomes effective with the pay period beginning on Sept. 7.

Under the GM wage formula wages are reviewed quarterly and adjusted in line with changes in the revised Consumers' Price Index of the U. S. Bureau of Labor Statistics.

Approximately 100,000 eligible salaried employes will also receive an equivalent increase in their quarterly cost-of-living allowance of $5.

First Pact in 100 Years

VATICAN CITY (UP)—Spain and the Vatican signed an agreement today recognizing the Roman Catholic Church as "the only true religion of the Catholic nation" of Spain. It replaces the one concluded between Queen Isabella of Spain and Pope Pius IX in 1851.

Board Approves TB San Policies

Administration Dispute Comes Before County Committee Today

The operation and management of the Oakland County Tuberculosis Sanatorium was given unanimous endorsement by the members of the Tuberculosis Committee of the Board of Supervisors today.

This action was taken after a hearing requested by Dr. George H. Phillips who recently resigned committee at first heard his comas medical superintendent. The plaints as to the management of the Sanatorium.

They then heard the three members of the Board of Trustees, Albert Weber, George Scott and Joe Haas.

Their resolution which was adopted without a dissenting vote of the six members present calls nation "logical and reasonable," and further states that "this comthe acceptance of Phillips' resigmittee has complete confidence in the management as directed by the trustees, and that the sanatorium is being conducted in an efficient, fair and business like manner."

The report offers no adverse criticism of any kind on the trustees or the business management of the sanatorium.

Wins Weather Oscar

NEW YORK (UP) — The Almar Weather Research Bureau's award for contributions to a better understanding of meteorology will be presented today to Dr. Ernest B. Christie, head of the Weather Bureau here. Christie will receive a raincoat.

Is Your Boy BIG for-His-Age?

No more ill-fitting adult tailored pants just because your boy is husky. Simms offer correctly proportioned pants that fit big-for-his-age youngsters.

U. N. Considers Morocco Talks

Inclusion on Council's Agenda Still Appears Unlikely

UNITED NATIONS, N. Y. (AP)—The U. N. Security Council settled down today to a week or so of debate over whether to take up Asian - Arab complaints against France's dethroning of the Sultan of Morocco.

With the United States, Britain and France all lined up against U. N. discussion of the French North African protectorate—which France contends is a domestic problem all her own, there appeared little chance the issue would win a place on the council's agenda.

* * *

The 15 Asian and Arab nations hoped, however, to give their complaints a full public airing during the council's current deliberations over whether to discuss them formally.

* * *

In Paris, meanwhile, a French government spokesman said the Foreign Ministry was preparing a series of constitutional reforms for Morocco. Foreign Minister Georges Bidault will seek cabinet approval of the program within three weeks, the spokesman said. It then will be presented to Moroccan authorities for study.

Drop Antitrust Suit After Eight Years

BOSTON (AP)—Asst. Atty. Gen. Stanley N. Barnes said today the Justice Department is withdrawing its eight-year-old antitrust suit against the Cement Institute and 89 institute members.

Barnes, who heads the department's Antitrust Division, made the announcement in an address prepared for the American Bar Association's section on antitrust law.

Abandonment of the litigation, he said, had been decided upon because "most of the primary objectives of the suit had been attained through voluntary actions of the defendants.

MEMBER OF AUDIT BUREAU OF CIRCULATIONS

THURSDAY, AUGUST 27, 1953

Dr. Astin Reinstated

Reinstatement of Dr. Allen V. Astin as director of the Bureau of Standards should calm the storm created by his dismissal last March.

In announcing this action, Secretary of Commerce Weeks said he had changed his views and had made Dr. Astin "a member of my team in the best interests of the bureau and the public." He added that the reinstatement had the unanimous approval of a committee of scientists he had asked to find a successor to Astin.

★ ★ ★

Weeks fired Astin after the bureau reported its tests of a battery additive made by a West Coast manufacturer showed the product to be worthless. Later, following criticism of the dismissal by scientists, Dr. Astin was asked by Weeks to stay on temporarily while his successor was found.

In the six page reinstatement notice announcement also was made of "broad improvements" at the bureau. These are aimed at better balance in testing products and elimination of certain defects in organization.

★ ★ ★

As a result general bureau supervision was placed in the hands of James C. Worthy, Assistant Secretary of Commerce for Administration. This formerly was the responsibility of Craig Shaeffer, assistant secretary for domestic affairs. He made the investigation which led to Astin's dismissal.

By reinstating Dr. Astin, who still insists the battery additive is worthless, Secretary Weeks is acknowledging and correcting the mistake he made in firing him. That still leaves unexplained, however, the action of the Post Office Department in lifting the fraud order against the additive manufacturer the day before the reinstatement.

GM's Parade of Progress

Arrival of General Motors Parade of Progress from Flint was colorful notice to Pontiac folk of their opportunity for four days of free education and entertainment.

In the parade were 10 giant Futurliners built by GM's Truck and Coach Division, and 34 cars, trucks and trailers. These carried exhibits showing the progress of science and the equipment to be set up on Washington Junior High School grounds.

★ ★ ★

Because they are home town products, the Futurliners were of special interest in this automotive community. Air conditioned, equipped with dual front wheels, power steering and brakes and automatic transmissions, these huge vans house built-in scientific exhibits.

A special feature of the show is the entertainment tent. Its aluminum frame is so designed that nothing obstructs the view from any of its 1,250 seats. On its stage there will be such interesting demonstrations as the making of synthetic rubber in a pop bottle, heatless cooking and transmission of sound by micro wave.

★ ★ ★

Beginning Thursday and running through Sunday the Parade of Progress will be open from 2 p. m. to 10 p. m. with six stage shows daily.

Don't miss this opportunity to see and hear how science and engineering are contributing to our national progress. A visit to the show not only will be entertaining but rewarding in the deeper understanding it will give everyone of our American way of life.

Bad Atomic Relations

The manner in which the news of Russia's hydrogen bomb test was handled should be humiliating and disturbing to all Americans.

Following Premier Malenkov's announcement that our monopoly of the H-bomb is ended, many in high places here hastened to cast doubt on his claim. Some tried to reassure the country by saying we are two years ahead of the Russians. Others called it pure propaganda.

★ ★ ★

Then came the startling revelation that Central Intelligence had in fact detected Russia's test of thermonuclear reaction. But the news was withheld until Russia beat us to the propaganda punch by announcing the test.

This is bad atomic relations.

On the very day of the experiment Secretary Dulles expressed doubt that the Russians had the H-bomb.

★ ★ ★

We aren't questioning Mr. Dulles' sincerity. We suspect the whole trouble centers around the secrecy written into the Atomic Energy law. The law was enacted when we did have a monopoly. That may have been the reason for Mr. Dulles' lack of up-to-date information.

Besides making it clear that our monopoly no longer exists, events of the past few days emphasize two needs. One is for revision of the Atomic Energy law to relax the secrecy now gagging our officials. The other is for a frank Government statement on our A-bomb and H-bomb positions to restore public confidence.

The Man About Town

Lake Orion Speaks

Likes Its Neighbor Village but Has Little Envy for It

Daffynition

Comic strip: What you see on the bathing beach.

Since this column said some kind things about Oxford, several Lake Orion residents have registered boosts for that village! We hasten to say that these two beautiful Oakland County villages, only a few miles apart, have equal though different attractions. They are equally good home towns. According to their own slogans, Oxford is "the gravel capital of the world," and Lake Orion is the place "where living is a vacation." Perhaps we have been a little partial to Oxford—because they first asked for it. In order to square matters, the Pontiac Press shortly will run an airplane view of the superb body of water, Lake Orion, and tell you a little about the village on its shore. Anyway, we like the home town patriotism of

Village President W. C. Leipprandt

of Lake Orion, who says: "Oxford doesn't worry us one bit. It is a fine neighbor. But most people going there to look it over must pass through Lake Orion, and when they see our village they will not go any further."

In our neighboring Lapeer County oil well drilling operations have been suspended, no traces of the "black gold having been found. But a similar attempt in our own Springfield Township is going forward now at a depth of over a mile.

People of Pontiac and vicinity who have had dial phones so long that we've almost forgotten how to make a call otherwise will be interested to learn that many Michigan cities still are using the old system. According to Assistant Manager

Robert A. Sutton,

the Michigan Bell Telephone Company now has 87 per cent of its subscribers on dial.

A hollyhock and sunflower in the garden of

Mrs. Andrew Merryweather

at Rochester are running a race. The sunflower did not overtake the hollyhock until they were above the ten foot mark. However, it is three inches ahead at 12 feet and looks like a winner.

A tomato that weighed exactly two pounds was picked Tuesday in the garden of

George Moyer

at Keego Harbor. It is of the "beefsteak" variety, and when sliced looks like it.

Home grown peaches now are at their best —and you know that best is better than those from any other section. Late varieties promise to carry over into September.

A native of Howell, in Livingston County.

Harold E. Howlett

at this season every year tells about the wonderful cantaloupes they grow over there.

The City of Bloomfield Hills, which almost touches the Pontiac city limits on the south, in its

Supervisor Elmer Kephart

has a booster who never fails to call attention to its many distinctive attractions.

Although he has only a few trees,

Manley Hockmyer

of Romeo for many years has produced mammoth peaches. His largest this year weighs 12 ounces. Can't we beat that in Oakland County?

Work on Pontiac's new city hall is making such good progress that we'll soon be in position to poke fun at the building that has served Detroit so long.

Voice of the People

'M. J. W.' Believes First POW Returning to City Should Be Greeted With Festivities

(Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests, unless the letter is critical in its nature.)

On television you see POWs returning to their hometowns and receiving a huge key to the city, parades, parties and warm welcomes by all.

What about our first POW to return to Pontiac . . . Don't you think a reception like that would help him to forget the year or years he spent in a Communist prison camp? I do.

M. J. W.

Favors Changing U. S. but by Peaceful Means

If the gentleman who called my residence around 11 p. m. on Aug. 3, concerning a letter of mine that appeared in the Press will kindly contact me at a reasonable hour and act accordingly, I will be happy to discuss the subject with him.

If this is impossible, or if he does not wish to reveal himself, I would like to inform him that the F.B.I. is paid to investigate all anti-American activities, but there is no law that prohibits anyone from advocating the peaceful overthrow of our present day society.

It would appear that the only solution for those who can't take competition on their trend of thought would be to try and have our Constitution amended or abolished and therefore get a monopoly on all ideologies. But, this could hardly be called democratic or progressive.

If we have to instill Faschism to preserve Capitalism we may as well give up the ship.

Samuel Hagon

3110 Garden Court.

Urges American Jews to Support John Dulles

Mr. Dulles' June 1 report covering his visit to the Middle East contains profound implications for American Jews.

The Dulles statement clearly calls for impartiality between Israel and the Arab States. Impartiality can no longer mean that the United States regards Israel as the bastion of democracy in the Middle East; or as the power friendly to the West.

It means that the United States can no longer tolerate either political or economic activities among American Jews that result directly or eventually in discrimination against, or exclusion of, Arabs in the Middle East.

Mr. Dulles was not anti-Israel. He distinguished accurately among Israel, Zionism and Judaism. If the policy suggested by the Dulles talk conflicts with Zionism, there will be no grounds for American Jews to claim infringement upon their inherent rights to religious freedom.

American Jews must see the Dulles recommendations as a statesmanlike effort to deal with a complex problem.

Such an effort demands of American Jews the kind of loyal support which so many of us have given, along with funds, to many less worthy causes.

The American Council for Judaism in good-will offers its help to all who, sobered by an awareness of the present situation, seek understanding as a basis for constructive action.

Norman Buckner

2720 Pine Lake Road

Suggests Bloodhounds to Help Track Criminal

Since the murder of Mrs. Perkins other horrible things have been going on in this area. Many more incidents are bound to happen if this criminal is not captured.

I think we should use bloodhounds to help track him down.

Grandma

THOUGHTS FOR TODAY

Get wisdom, get understanding: forget it or not; neither decline from the words of my mouth.—Prov. 4:5.

* * *

He who learns the rules of wisdom without conforming to them in his life is like a man who plows in his field but does not sow. — Saadi.

Requests for Report on Reds in U. S. Piling High on Senate Committee Desks

By DAVID LAWRENCE

WASHINGTON — Mail is piling high in the office of the Internal Security Committee of the Senate as the public asks for copies of its latest report, which for the first time pieces together the story of the Communist conspiracy in the United States.

It was mentioned here that copies of the new report could be obtained by writing to the internal security subcommittee.

The correct address is Room 423, Senate Office Building, Washington D. C.

It is significant that the public is taking such a wide interest in the story of Communist infiltration.

Up to now it has been taken for granted that a mere refusal of a person to testify on the ground that to do so would tend to incriminate him would relieve him of the necessity of giving testimony.

Federal Judge Frank A. Picard of Michigan is the first jurist to express a doubt whether the Constitution was intended to give such immunity to persons who were lying and could be proved to be liars.

His comment was given in the case of Guss Polites, who admitted being a member of the Communist Party until 1938, when he says he resigned.

The issue was whether he had sworn falsely when he said he had not been for ten years before he asked for naturalization a member of an organization advocating the overthrow of the United States government by force.

Judge Picard ordered the citizenship revoked, but he felt the occasion justified a comment as to the possible limitations which courts might consider some day with respect to the fifth amendment's immunity. He wrote in his formal opinion:

"There are those in this country who undoubtedly believe that the fifth amendment should justifiably be utilized whenever the occasion presents. This court does not impugn their sincerity. We only question the rationale of their conclusions. For the ordinary crimes prohibited by our Constitution or acts of Congress —yes.

"But we are not fully convinced it was the intention of the founding fathers that the fifth amendment should be available where one's loyalty to that Constitution becomes suspect by refusal to answer a question of this nature.

"New conditions alter cases. The situation in the world is not normal. Security at home today demands trust in each other.

"As in times gone by, Cicero gave emphasis to pride of country by shouting 'I am a Roman,' it is our opinion that all true Americans should be even more anxious to cry out 'I am an American' at every opportunity, and if denying membership in a certain organization is deemed the slightest aid to promoting our security, denunciation of membership therein should be considered a supreme privilege if not a duty. . .

"In the case at bar, it is a paradox that this defendant seeks protection of the Flag in an American court but evidently only long enough so that the party or philosophy in which he will not deny membership can destroy that Constitution and trample upon that Flag, robbing everyone else of the very liberties and freedoms of which he now takes advantage.

"His current refusal to testify is in our opinion more evidence of his fraud at the time he took the oath."

(Copyright 1953)

Aunt Het

Jennie is makin' a mistake. Lyin' to the children gets to be a habit, and after a while you start doin' it when you ain't talkin' to children.

Case Records of a Psychologist

Some Wealthy Children Don't Respect Property

Professional "Do - Gooders" would have us believe that underprivileged homes are the main cause of crime. This is plain boloney. Lincoln grew up in an underprivileged home. And the youths described below are living in overprivileged neighborhoods, yet they still cause their local police much trouble.

By DR. GEORGE W. CRANE

Case H-370: Harry X., aged 35, is a Lieutenant of Police in an eastern city.

"Dr. Crane, I am especially interested in juvenile problems," he began.

"Our city of about 20,000 population is one of the highest in America in family income level.

"For it is chiefly a residential city, adjacent to a large metropolis where many of our citizens are employed.

"We have no slum area. Our school system is excellent and the I.Q. of our children in all the schools runs around 120.

"But our problem is overprivileged children! For many of our teenagers have developed without a sense of responsibility. They seem to have no respect for property.

"So it isn't slum areas and underprivileged families who are the sole cause of crime. As you once said in your column, modern plumbing and a TV set don't spell the panacea for crime.

"It requires specific teachers to train youth in moral habits. Teenagers can live in veritable palaces but still develop into criminals if their parents or teachers don't train them to be honorable."

Then Lieutenant Harry handed me a list of investigations that were classified in the Juvenile De-

linquency category for his wealthy town.

Malicious mischief, which includes damage to property (55 cases).

Air rifles and sling shots (28). Disorderly conduct (21). Larceny, including shoplifting (14). Firecrackers (8).

Breaking and entering (8). Runaways (5). Driving without a license (5). Assault and battery (4). Truancy (4). Fires (3). Stolen bicycles (2).

These are only a part of the wide variety of crimes evident in an overprivileged community.

So we must never make the mistake of thinking that modern plumbing, plus an auto for every family, will immediately bring the millenium.

Since 1932, there has been the "Do-Gooder" fallacy in America to the effect that if Uncle Sam just takes over the welfare of all citizens and then assures them free food, medicine, shelter, etc., crime will vanish.

That's baloney of psychological buncombe! Extreme poverty may incite more cases where people steal bread.

But the theft of food is a minor factor in crime, even in underprivileged populations.

Furthermore, modern bath tubs don't keep shouting to our children, "Thou shalt not steal."

Shiny automobiles likewise don't drill our youth on the other ethical laws of the 10 Commandments.

And well furnished houses never preach a word about the Golden Rule.

Al Capone, in the heyday of the crime syndicate in Chicago, occupied an entire floor in a Michigan Avenue hotel, luxuriously furnished.

So please get wise to the fact that it is God-fearing parents or teachers who train children to be sober, honest and morally upright.

And those parents or teachers can still teach moral behavior, even in slums!

Abraham Lincoln grew up in what our professional Do-Gooders would call an "underprivileged" home.

But wealth and scientific household furnishings, plus TV sets, and swanky automobiles, do not produce character.

So get behind your churches and Boy Scouts, YMCA, CYO, etc. Put first things first.

(Always write to Dr. Crane in care of this newspaper, enclosing a long 3 cent stamped, addressed envelope and a dime to cover printing and typing costs when you send for one of his psychological charts.)

STORM DEATHS in the East mount to 47; damage totals over ten million.

LIGHTNING KILLS eight-year-old Pontiac boy; stuns two others.

FIRST ARREST made in Pontiac as a result of racket inquiry.

Baering Down

By ARTHUR "BUGS" BAER

(International News Service)

Ever figure that a middle-aged citizen has been in more trouble than a near-sighted dentist?

He's seen two world wars, a police excursion in Korea and is hep the third world war is around the corner. With its engine running.

We ran up and down that peninsula like a shoe clerk on a ladder.

Syngman Rhee is right about the 90-day pause for reinforcements. That's not truce. Malenkov is taking stock.

He says the Commies have got the improved H-bomb with the double clicker and the instantaneous hotfoot.

We can stop him colder than a rock garden in January. Don't lend him any wax dummies.

We did okay with our paraffin population at Yucca Flats. We didn't care whether they were neutral or not.

Confidentially we think Malenkov is sounding off through his toupee. He's talking bigger than an educated elephant.

Remember when General Mark Clark said the next time we go to the bat we're using a board with a nail in it? That meant we were going all out like a pretzel baker with a new curve.

We are going to throw everything including that franchise, the dishes and the H-bomb.

Well, we figure Malenkov was whipping up a counter-threat for home consumption. If he had the egg he would have made an omelet.

Portraits

By JAMES J. METCALFE

Friendship in God

There is no friendship worth our while . . . Unless we strive to give . . . Some help to other humans in . . . The way they ought to live . . . We must be conscious of their souls . . . As surely as their hearts . . . And keep in mind the welfare true . . . Of all their moral parts . . . There is no friendship on the path . . . Where sin and Satan meet . . . As we connive for someone else . . . To lie or steal or cheat . . . A friendship has no meaning if . . . The end in sight is crime . . . Because its very purpose will . . . Defeat itself in time . . . The only friendship worth our while . . . Is helping one another . . . To keep The Lord's Commandments as . . . A sister or a brother.

(Copyright 1953)

People Should Seek to Find Out Cause Before Treating High Blood Pressure

By WILLIAM BRADY, M.D.

At the suggestion of her physician, said H. K., she requested that I send her my pamphlet on high blood pressure.

In reply I said I have no such pamphlet and, as a health adviser, I think your blood pressure is none of your business.

Anyway, for the sake of your health I will try to explain what I mean.

It is not improbable that H.K. may be one of those determined dowager-type characters who insist on treatment for blood pressure, nerves or starchy indigestion and no nonsense, until they go far away to the big clinic.

I wonder if H. K. inclosed 25 cents with stamped, self-addressed envelope for Little Lesson No. 2, C V D, a booklet about heart and artery troubles which tells all I think a layman should know about blood pressure.

One with a grain of common sense would not seek a remedy, diet or treatment for high temperature (fever) without trying to find out what causes it.

By the same token one who takes medicine or other treatment or follows this or that diet for high blood pressure without trying to find out what causes it is a nin—)you finish it, I'm forbidden to).

High blood pressure does not signify that one has too much blood. The practice of venesection (drawing off blood) has no value.

High blood pressure does not signify that one's blood is too rich.

The opposite state, poor, watery blood (anemia) accompanies high blood pressure more frequently than plethora (too rich blood) does.

I cannot suggest or recommend medicine, diet or any type of treatment for high blood pressure, because I wouldn't monkey with anything of the sort if I had high blood pressure.

High blood pressure is not the fault of the blood. Narrowing of the calibre or contraction or construction of the smallest arteries—arterioles, not capillaries — raises the blood pressure.

In talks to follow I'll try to tell you what I think you should know about the arterioles.

For the present, fix this fact firmly in mind: Blood pressure is too high or too low in consequence of your way of living or of what ails you.

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, will be answered by Dr. Brady if a stamped self addressed envelope is enclosed.

Former Kresge Wife Wed to Aluminum Heir

DETROIT (AP)—Friends have disclosed that Mrs. Ann Kresge, divorced wife of millionaire clubman Howard Kresge, married William Terrence Markey in Chicago last Thursday.

Markey is the son of Peter Markey, former president of the Bohn Aluminum and Brass Company in Detroit. He was divorced in 1947.

Mrs. Kresge, the former Ann Walker, received a $500,000 trust fund in June 12 in an uncontested divorce from Kresge. Howard Kresge is a son of Sebastian S. Kresge, multi-millionaire dime store owner.

The Markeys are honeymooning in Miami.

Ask French Boycott

BEIRUT, Lebanon (AP)—Arab Nationalist leaders have called on the Lebanese government to enforce an economic boycott against France if the Paris government refuses to reinstate the deposed Sultan of Morocco. The demands were voiced at a series of anti-French mass meetings in Beirut and Tripoli last night.

GOP Senators Scolded by Ives

Tells Complainers Ike Doing Fine and They Should Cooperate

WASHINGTON (AP)—Sen. Ives (R-NY) told complaining Republicans today that if they and the American people generally don't support the Eisenhower administration program the nation may be "faced with complete disaster."

Ives' observation was made in letters in which he is replying to Republicans dissatisfied with high taxes and critical of the administration. It followed a blast by Rep. Hugh D. Scott (R-Pa), former GOP national chairman, against GOP "obstructionists" in Congress.

Scott named Sen. Malone (R-Nev) as one of these and Malone had this to say in reply:

"Time always determines who is right and who is wrong. I remember that Mr Scott was a fine young man who was running the Republican party at one time. I hope he will settle down and protect the interests of his country and I think he will."

* * *

Ives, one of the early supporters of President Eisenhower for the nomination last year, said in letters to constituents he believes "the President is doing a far better job than is generally realized."

* * *

Scott criticized Malone and Sen. McCarthy (R-Wis), as well as several House members. He said Rep. Mason (R-Ill) insists that Eisenhower is doing a fine job but "has opposed virtually every measure on the President's legislative program."

Korea, India Trade Despite U. N. Rivalry

NEW DELHI, India (AP)—South Korea, which has threatened to boycott the Korean peace conference if India is invited to attend, has no objection to coal from Indian mines.

And India, which has had some harsh things to say herself about South Korean President Syngman Rhee, is glad to have him as a customer.

Production Minister K. C. Reddy told a questioner in Parliament today that Rhee's government bought 101,296 tons of coal from India during 1952. India welcomes "this new market for our coal," Reddy added.

Group to Get Business to Bankroll Colleges

NEW YORK (AP)—A council for financial aid to education was formed yesterday—not to raise or spend money but to get businessmen interested in providing funds for privately operated colleges.

Among council sponsors are Alfred P. Sloan Jr., chairman of the board of General Motors, and Frank W. Abrams, board chairman of Standard Oil.

Support also will be sought from labor unions, foundations and other organizations.

Leaves and outer stalks of celery are higher in vitamin A and vitamin C than the inner stalks and "hearts."

HINDU HOLY BEGGAR—A member of the Hindu sect worshipping Vishnu, this boy is begging on the streets of Calcutta, India. His tongue is pierced by a bamboo needle bearing the Vishnu sign of the trident and he is draped with Hindu Rosaries. In his right hand the boy carries a bell which he rings to attract attention and in his left he carries a bowl for alms.

Dunbar Police Put Nickel in Overtime Meters

DUNBAR, W. Va. (UP) — The city government is proving its slogan, "Dunbar, the friendly city," with a policy of putting nickels in overtime parking meters.

An envelope is slipped under the motorist's windshield wiper with a request that he mail in the amount the policeman has contributed.

Mayor D. H. Salisbury says the system has worked fine in the short time it's been in operation. Most people mail in nickels, and some enclose thank-you notes.

Strange Customer Code Puzzles Milkman's Wife

TONKAWA, Okla. (AP) — Mrs. Paul Brooks readily agreed to take care of her husband's milk route during his second vacation in 20 years. She had two strong sons to help. But the three did not know about the code system set up by Brooks with his customers for their orders. And it took nearly all the vacation period to figure it out.

For instance one empty bottle on one front porch meant: "There are two more empties on the back porch. Bring three quarts. You'll find the money in one of the bottles on the back porch."

Marines Halt March While Dog Has Pups

CAMP PENDLETON, Calif. (AP) — A night training march by B company, 9th U. S. Marines, came to a halt here while its mascot dog had pups.

The spaniel named "Gale" was then returned to quarters and relieved of further military duties while she cares for her litter of seven.

Australians have about 15 telephones, 12 cars and 29 radio sets for every 100 peopl. compared with 29 telephones, 28 cars and 39 radios for each 100 Americans.

Blind Graduate Wins AB Degree Without Sight Aid

CHARLESTON, W. Va. (UP) — Cue M. Canterbury, 25, blind from birth, wants to give help—not receive it.

Canterbury was graduated recently from Morris Harvey College with a bachelor's degree in social science. The ministry is his aim.

Morris Harvey, a small college, provides no special aids for the blind. Canterbury had to rely mostly on his memory to make above-average grades.

"If the blind are going to compete with others in life, they must get ready for it in school," he said.

That was why he left the state school for the deaf and blind and took his senior year in high school at nearby Clendenin.

At Morris Harvey, he got around campus without a seeing-eye dog. His toughest courses were philosophy and geometry, the latter because of the need for visualizing figures.

"I started to study law," said Canterbury, "but as things went on I decided that the world's ills are spiritual, not legal — so I changed my field."

He plans to enter a Methodist seminary after a year of practice in the pulpit.

Dog Takes Center of Busy Highway

READING, Pa. (AP)—Humane Socity officials patrolled the busy Pottsville Pike near here today in search of a brown and black sheep dog with a penchant for road hogging.

For five hours yesterday, the determined pooch defied fate and heavy traffic by marching down the center of the busy highway. Horn - blowing motorists veered sharply to the shoulders to avoid hitting him.

Some motorists tried unsuccessfully to lure the dog off the road with food.

U. S. Gambling Tax Turns Out to Be Flop

CLEVELAND (AP) — T. Coleman Andrews, commissioner of internal revenue, says the government gambling tax has proven a flop.

In an interview yesterday, he said enforcement of the wagering tax laws has been too costly and the proceeds too small.

Americans Have Ze Big Poosh of Ze Button

ST. LOUIS (AP)—What do Americans have that Europeans lack? A French nun visiting in St. Louis has the answer.

It's "poosh."

"Everywhere,' said the Rev. Mother Jeanne Corneau of Paris, "you poosh the button and something happens. Lights go on, shoes are shined and sandwiches, cigarettes and soft drinks come tumbling out of machines."

Mother Corneau, superior general of the Religious of the Cenacle, is on a worldwide tour with other members of her order.

Hunt Jewel Thieves

ST. TROPEZ, France (AP)—Police combed the Riviera coast today for a band of daring gunmen who snatched an estimated $300,000 worth of uninsured jewelry and cash from a hotel here. Some of the gems belonged to a Paris jeweler whose wife had borrowed them from his store.

Air Liners Collide but Land Safely

MICHIGAN CITY, Ind. (AP)—Two commercial air liners, carrying a total of 57 persons, collided last night at 11,000 feet, but pilots landed them safely and no one was injured.

The planes, twin-engine Convairs from American Air Lines and United Air Lines, had left Chicago about a minute apart. The collision over Michigan City, about 60 miles east, occurred about 25 minutes later. Both planes were slightly damaged.

Peripatus a worm-like animal which is one of the oldest types of creature on earth, is found in scattered locations in Asia, Africa, Australia and Central and South America.

Comments on India

ROCKY FORD, Colo. (AP)—Experts are trying 200 ways to improve the lowly onion.

At the Arkansas Valley branch of the Colorado A&M College experiment station, hybrids are being developed which are good yielders, disease resistant and have excellent storage qualities. They are expected to become available in about three years.

If ice at a temperature of exactly 32 degrees Fahrenheit is put into water of the same temperature the ice will not melt nor will the water freeze.

Boy Requests Bandage to Avoid Homework

HARTFORD, Conn. (UP)—After injuring his hand in a baseball game, 11-year-old Joe Luzzi asked the doctor to "put on the smallest bandage you've got so I can play in the next game."

But after being told that he'd be sidelined for a week, the youngster said:

"O. K. Put on the biggest bandage you've got—then I won't have to do my homework."

FATHERS OF FLIGHT — The Wright Brothers (4)

By Wade Jones and Ralph Lane

Hal Boyle Says:

Little Jughead Has Talent for Music, Current Events

NEW YORK (AP)—When you try to educate a child it is hard to say who learns most—you or the child.

"Little Jughead," a tiny miss who came to our house recently for what we hope is a permanent visit, is right at the formative stage — too old to be kept in ignorance, but too young for college.

As a matter of fact she is only two months old. But, operating on the theory that a girl can't start learning too soon, I have begun her formal education already.

The first things I am teaching her are music and international affairs. I do this by playing the phonograph for her and reading her the newspaper.

"You are positively crazy, Rover," said my wife, Frances. She has the feminine idea that just because a baby can't walk or talk it can't appreciate the finer things of life—like culture, and all that stuff.

But I know better. Take music for example. Little Jughead and I are having a wonderful time exploring the world of music. She likes Beethoven, but he puts me to sleep. When I play a record by Haydn, we both fall to sleep. But Mozart we both love. The other day Jughead started a strange crooning, and I yelled for my wife.

"Now what's wrong," she said.

"Can't you hear what the baby is doing?" I asked excitedly.

"Certainly," said Frances. "She is making happy noises."

"Happy noises nothing. Listen again. She is humming Mozart."

"You are positively nuts," said Frances, going back to the kitchen. Well, that just goes to show you how much more fathers appreciate daughters than mothers do. A musical genius in the family—and her own mother won't even admit it.

Reading the newspaper to Little Jughead is something of a problem. We both like the sports page, but she gets restless when I try to read the comics. I like them, but they bore her to angry squalls—so I read them fast.

On the other hand nothing contents her more than the editorial page, which I sometimes find heavy going.

The longer and duller the editorial the better she likes it. She lies there smiling, gnawing her hand with her gums, and nodding thoughtfully.

She is also keenly interested in foreign affairs, and really knows more about them than I do. For example, some time ago I read her a piece about the Shah of Iran flying to Rome.

"How do you like that, kid?" I said. "I guess the shah's had it. Old Mossadegh kicked him out to stay, eh?"

I looked over at Little Jughead, and she shook her head violently in the negative. She didn't agree.

Sure enough, a few days later old Mossadegh got bounced — and the Shah started back home. When I read that to Little Jughead, she leered up triumphantly, smug as any woman whom time has proved right.

One thing worries me about our mutual cultural and enlightenment program. The last couple of days she hasn't been listening to the phonograph or my newspaper reading. Just lies there on the floor flexing her leg muscles and doing pushups.

Oh well, maybe it's time for me to buy her a glove and a bat. What if Little Jughead doesn't want to become an intellectual. We could use a good lady softball pitcher in the family.

GOP Fails to Curb HCL, Says Reuther

DETROIT (AP) — CIO President Walter P. Reuther blames what he claims is the Republican Party's failure "to fulfill its campaign pledge to curb inflation" for a new record cost-of-living peak.

Government experts announced in Washington yesterday that the cost-of-living index rose two-tenths of a point in the month ending in mid-July and thus set a record for the second straight month. The indes was 114.7 compared with 100 for the 1947-49 average.

"The latest inflationary surge comes at a time when the direct and indirect military defense demands are starting to taper off," Reuther said. "It makes even greater the danger of a snowballing deflation when the full impact of reduced defense expeditures is felt."

Between 1939 and 1952, users of electricity in Great Britain increased from 10 to 13½ million.

CAPTURED—Mildred McDonald, 25, of Somerville, Mass., has admitted, according to New York City police, the murder of the 14-year-old sister of the boy friend who jilted her. The brunette stenographer said she killed Mary DiRocco in the girl's Somerville home because "she remarked about her brother's successful marriage and I took this as an inference that I was being belittled."

(Adertisement)

KIDNEYS MUST REMOVE EXCESS WASTE

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

AWOL Soldier Admits Killing

Shot Ohio Man in Car After Hitchhiking Ride From Columbus

ZANESVILLE, Ohio (AP)— An AWOL soldier today admitted he shot and killed the assistant director of the Ohio Industrial Relations Department last night after the official had given him a ride in his car, the state Highway Patrol said.

Harold St. John, 25, of Dorchester, Mass., was captured by highway patrol Cpl. C. E. Wells a little over a mile from the scene of the slaying on U. S. 40 west of here.

Wells said St. John, AWOL from Camp Atterbury, Ind., since yesterday, admitted he shot Joseph W. Harding, 53, during a struggle in the car when he tried to rob the state official.

Harding was killed a short time after he left a farewell party for his retiring chief, Albert A. Woldman. Gov. Frank J. Lausche was reported considering Harding as successor to Woldman, who leaves today to assume a juvenile judgeship in Cuyahoga County.

The patrol said St. John stated Harding picked him up as he hitchhiked on the outskirts of Columbus. St. John had two pistols, a .32 caliber and a .45 caliber he had stolen from a guard at a Camp Atterbury stockade yesterday morning, he told officers.

Harding stopped the car in front of a motel about five miles west of Zanesville and shouted, "Call the cops! This guy has a gun!"

Patrolman Wells said St. John was wounded in the leg during the struggle for the gun. Harding was shot twice, once in the head and once in the abdomen.

Ray Bush, 25, a truck driver of Linden, Ind., heard the struggle and the shots and saw a man flee from Harding's car. Harding's body was found hanging out the car door. The motel attendant had gone inside to phone the sheriff.

Roadblocks were set up throughout the area.

Wells, driving a patrol car, spotted St. John coming onto U. S. 40 from the brush about 5:30 a. m. and took him into custody without resistance. St. John was carrying the .45 caliber pistol in his belt. The other gun was found in the car.

St. John is held at Zanesville police headquarters.

Recent discoveries of art and craft work in the city of Ife, Nigeria, indicate a lost culture flourished there 800 years ago.

Second Group of B36s Wings Toward Japan

TOKYO (AP)—A second flight of B36 intercontinental bombers, 10-engine planes capable of carrying the atomic bomb on flights up to 10,000 miles, will arrive in Japan tomorrow from the United States, the Far East Command said tonight.

An undisclosed number landed Tuesday after a nonstop trip from U. S. bases that was cloaked in military secrecy.

The armor of an armadillo is modified skin, like fingernails.

Singer Haymes Faces Trouble

Sweats Through Long Deportation Hearing; Served 3 Subpoenas

LOS ANGELES (AP)—The deportation blues piled up on Crooner Dick Haymes today as he surveyed the discordant score: a second exportable charge by the government, and three subpoenas.

The harried Haymes sweated through a 5½-hour preliminary hearing yesterday at which he admitted filing an application for relief from military service during World War II as a citizen of a neutral country. He said he thought the application was only for temporary deferment and "never realized what the effect would be.'

* * *

The hearing also brought out that Haymes had a previously undisclosed marriage—his first—to Edith Harper, also a singer, in Chicago in 1939. It lasted only two or three weeks, he said.

Haymes admitted owing Uncle Sam an income tax bill but said he didn't know offhand just how much. He was told to bring exact figures to a subsequent session.

Before the day was over three process servers handed the singer subpoenas. In one, his second wife, Joanne Dru, says he's behind in alimony payments. The second was notification of a divorce filed by current wife Nora Eddington. The final subpoena claimed he owes a department store $415.

Council of Churches Will Meet in U. S.

NEW YORK (AP)— Contrary to reports, a World Council of Churches officers says, the council's 1954 assembly will be held in the United States and not in Canada.

Dr. W. A. Visser't Hooft, council general secretary, told officials here yesterday by telephone from Geneva, Switzerland:

"You cay say with the strongest possible emphasis that we are going forward with our plans for the assembly in Evanston, Ill., and nowhere else."

Early in the week, Dr. Gordon Sisco, general council secretary of the United Church of Canada, said the assembly might be held in Toronto because Iron Curtain delegates possibly would be barred from the United States under the McCarran Act.

Thieves Cart Away Truck Firm Safe

A safe containing about $2,000 in cash and $5,000 in paychecks was stolen from the Associated Truck Lines at 1410 Franklin Rd., Bloomfield Township, early this morning, according to Oakland County Sheriffs deputies.

The thieves smashed a window to get into the building and broke down an office door to gain access to the safe, deputies said.

The safe was then wheeled to a loading platform to the rear of the building and hauled away in a small truck, deputies surmised.

Operations manager Edward Knickerbocker, who reported the theft, said the company had been broken into about a year ago and a safe containing $150 was carted away.

State Welfare Groups Receive Large Grants

GRAND RAPIDS (AP) — Michigan chapters of the Red Cross and cancer society are among the beneficiaries of a million dollar foundation established by the late Mr. and Mrs. Wade E. Sackner of Grand Rapids.

This was disclosed following the death today of Mrs. Viola Sackner, 61, widow of the Grand Rapids industrialist who died in November, 1950.

NO Money Down for fine SCHOOL CLOTHES at Peoples CREDIT CLOTHING 8 N. SAGINAW EASY TERMS

Surprise Is in Store for John Martin Dam

ALBUQUERQUE (AP)—The Engineer Corps has a letter from a Denver firm addressed to Mr. John Martin Dam.

It says, "Your name has been referred to us" concerning a need for high fidelity radio and television equipment.

Helpfully, the corps is forwarding the letter to John Martin Dam—a dam on the Arkansas River in Colorado.

Rhee Told of Cash Aid to Half Million Dollars

SEOUL (AP)—Gen. James A. Van Fleet, former 8th Army commander, called on President Syngman Rhee today and gave him the good news that South Korea is about to receive almost half a million dollars.

Van Fleet, a member of the American-Korean Foundation mission headed by Dr. Howard A. Rusk, presented his old friend with a report outlining 86 grants which the mission has handed over in the past seven days.

Indiana's Poetic Police Accept Fine With Verse

MUNCIE, Ind. (UP)—The traffic department acknowledged payment of a $1 parking meter fine with a bit of verse, answering a rhyme included with the payment.

Here's a sample of the police poetry:

Thanks for the poem
And also the dollar
We hate to take it, but the
Boss would holler—
If we didn't collect for violations
So the meters could stay in operation.

Jumpin' Jehoshaphat!

MEMPHIS, Tenn. (UP) — Mr. and Mrs. J. W. Wilcox have seven children and each child's first name begins with J. There's John Jr., Jerry, Joe, Janice, Jeff, Jeanette and Joyce.

Lake Huron to Oakland Pipeline Studied by State

COOL FIGURE — Pontiac's hot weather worries will end abruptly tomorrow for June Sapelak, 20, when she leaves for Chicago to begin rehearsals with Barbara Ann Scott's Hollywood Ice Revue. Miss Sapelak poses at the North Side Community Club where she twice reigned as ice carnival queen. Her parents, Mr. and Mrs. Mike Sapelak, live at 143 Wolfe St.

Williams Vetoes Special Session

Says GOP Would Not Cooperate in Revision of Unemployment Law

LANSING (UP)— Convinced the Republican majority will not cooperate with him, Gov. Williams has decided not to call a special legislative session.

The executive office released a statement that the governor would not call the lawmakers to revise unemployment compensation "in view of the obvious attitude of the Republican majority against any increase in weekly benefits."

Instead, the statement said, Williams will:

1 — Urge Rep. Roy Brigham (R-Battle Creek), chairman of a legislative committee created to study unemployment compensation to get started.

2 — Ask State Banking Commissioner Maurice C. Eveland and the Michigan Employment Security Commission to report on the credit position of the thousands laid off by the fire at the General Motors transmission plant in Livonia. A moratorium on installment payments and mortgages has been proposed.

3 — Continue his own efforts to reach an understanding on unemployment compensation with labor, management and legislative leaders.

On Tuesday, the Republican Policy Committee said it would not interfere with Williams' right to call a special session if he wanted to.

It added that the Republican Legislature had made every effort to increase compensation payments.

Williams said that the committee has "made it clear that they believe that those laid off by the Livonia fire are getting enough unemployment benefits."

He said he was convinced the Republicans "would merely re-enact the measure I vetoed last spring."

That bill, he said, "puts the cart before the horse, reducing the employers' premiums while allowing the employes' benefits to remain at too low a level." He said he would have to veto the measure again.

USO SKATERS — M.Sgt. James Ball, left, son of Mr. and Mrs. William R. Ball, 1931 Emily Ct., puts wheels under junior hostess Verna Templer during a roller-skating party at the USO club in Belleville, Ill. A.3.C. James F. Brown of Pahine, Va., looks on. More than $8,000 was allocated to the USO from last fall's United Fund campaign in the Pontiac area.

Water Shortage Termed Critical

Resources Body Mulls Request for Survey of Area Requirements

LANSING (UP) — A request for a survey of the water needs of Oakland County — first step to possibly obtaining a water supply from Lake Huron — was under State Water Resources Commission study today.

Rep. William S. Broomfield (R-Royal Oak) made the request. He declared that the water situation in Oakland County was "critical."

"We have many reports of wells running dry," he said. "We can expect an acute water shortage some time in the future."

Broomfield said Oakland County's population is building up rapidly to aggravate the situation.

"When the St. Lawrence Seaway is built," he said, "and I'm convinced it will be, there will be a rush of industry to the area."

Broomfield said he thought a legislative appropriation could be obtained to help finance the study. He said he thought construction of a pipeline to carry water to the area from Port Huron would be the best long-range solution to the problem.

Rep. Harry J. Phillips (R-Port Huron) backed his proposal.

"We're blessed with too much water up there," Phillips said. "We'd be glad to give some of it away and lower our lake level."

Phillips said easements for the pipeline and access to the lake could easily be obtained.

Broomfield said he thought some sort of Metropolitan Authority could be set up to construct the pipeline if there is enough interest in the proposal. He estimated it would cost more than $20,000,000.

"We'd like to make the study for you," said commission secretary Milton P. Adams, "but we just haven't got the manpower."

If such a study is authorized, commission members said, the first step would be to canvass Oakland County cities and see how many would help finance it.

The commission directed its staff to study Broomfield's request and to come up with a recommendation at the next meeting.

There also was talk of making such a study a state-wide project after commission members mentioned that such widely-scattered cities as Grand Rapids, Flint and Pontiac all have water problems.

The commission received a report from the advisory board to the international joint commission on control of pollution in the boundary waters of the St. Clair River and Lake St. Clair.

The advisory board said it was scheduling a special meeting at Windsor Sept. 17 and 18 to take testimony on the problem. The board also recommended that a survey of the situation and a progress report be made in the spring of 1954.

GM Worker Here Predicts Downfall of Reds in Italy

Complete downfall of communism in Italy was predicted Wednesday by a retired GMC Truck and Coach Division worker who has just returned from a year's visit to that country.

"There are no real Communists in Italy," according to Frank M. Palopoli, of 279 S. Marshall St. "And as soon as economic conditions improve more there will be no Communists at all in Italy," he declared.

Palopoli feels that those now looking to the Communist movement for a higher standard of living will leave the party in droves when higher wages and lower prices enable the average working man to share the "luxuries of life" under the democratic system.

Palopoli, 66, and his wife Tomasina, 63, landed in New York last week after visiting a son and a daughter still living in their home province of Cosenza, in southern Italy.

Conditions there have improved greatly since Palopoli's last trip in 1924, but there is still much room for advancement, he said, especially in the southern region.

Workers in the industrial north earn from 2,000 to 3,000 lire a day and thus are able to purchase automobiles, refrigerators, and radios. Those in the more agricultural southern region, however, make but 1,000 lire ($1.50) for an eight-hour day's work, so only the southern rich can afford such luxury items.

Goods are plentiful throughout the country, according to Palipoli. "There is everything you want if you have the money. The stores are full."

For recreation, the Italian people enjoy movies, radio and such sports as football, basketball, and cycling, Palopoli said. Two large cities, Genoa and Tourine, even have television.

Palopoli migrated to this country in 1919. His wife joined him in Chicago in 1927 and they moved to Pontiac in 1928. Three children Salvatore, 36, Marie, 32, and Sahra, 28, also live in Pontiac.

341 Ancient Cars in Glidden Tour

Cleveland-Detroit Trip to Last Three Days; Starts Sept. 13

WASHINGTON (UP)—The American Automobile Association said Wednesday 341 antiquated autos—"the finest and largest collection of old cars ever assembled"—will take part in the 1953 Glidden tour.

The tour will begin Sept. 12 in Cleveland and wind up three days later in Detroit.

Although some of the cars are more than 50 years old, all will run under their own power.

The AAA conducted the orginal Glidden tours from 1904 to 1913 when it was trying to convince the public that the automobile was a reliable means of transportation The event was revived in 1946, and has been held annually since then.

Of the cars scheduled to make the tour this year, 230 were built before 1915. The oldest is the 1898 Autocar no. 2. There also will be an 1899 Locomobile Steamer and two Stanley Steamers.

Other collectors' items entered include 12 Pierce-Arrows, 10 Overlands, eight Mercers, seven Franklins, six other Locomobiles, five Marmons and four Maxwells.

The cavalcade will be rounded out by 73 Fords, 31 Cadillacs, 26 Buicks and 13 Packards.

Declares Study Not for Reform

No Changes Proposed, 'Policy Up to People,' Says Dr. Kinsey

LOS ANGELES (UP) — Dr. Alfred C. Kinsey Wednesday defended his controversial sex studies as the findings of a scientist and said they were not an attempt to change or reform American sexual behavior.

The graying University of Indiana zoologist, author of the Kinsey reports on male and female sexual habits, would make no direct answer to criticism of his latest work, "Sexual Behavior in the Human Female."

"We do not propose or advocate any policies, sexually or otherwise," he said in a news conference here. "We are scientists. When it comes to social policy it is up to the people themselves."

Kinsey made his remarks before addressing a near-capacity audience at the Greek theater here on behalf of the Southern California Society for Mental Hygiene.

The scientist denied that the clergy was united in opposition to the publication of his latest work. He said he received active cooperation from every denomination, but admitted that individuals in every denomination had either declined or denied cooperation.

Kinsey's findings, based on a survey of more than 5,000 women, have been criticized with varying intensity by many churchmen since reviews of the book appeared last week.

Leonard Favors Vote to Test Bingo Feeling

DETROIT (UP) — Police Commissioner Donald S. Leonard said today he felt putting the bingo question before Detroit voters would be a valuable aid to the State Legislature in making future gambling laws.

The Common Council was studying whether to order an advisory vote in November to get voter reaction on legalizing bingo and other charity gambling. Members postponed a vote after receiving a letter from the Detroit Citizens League which said that "an advisory vote in a matter which the City Council can do nothing is inconceivable."

Leonard joined Council members in emphasizing the advisory vote alone would not supersede state law. And until the law is changed, he said, Detroit police will continue to prosecute gaming law violators.

Coolies, Hong Kong Press Crowding U. S. Battleship

HONG KONG (UP)—The war in Korea was never like this for the battleship New Jersey. On a courtesy visit here it found itself:

1. Attacked in the newspapers as too timid to come into Hong Kong narrow harbor.

2. Confronted with a near riot of Chinese curious around its armored sides when it threw itself open to public inspection today.

Take the near riot, first. Anchored in junk bay outside one entrance to Hong Kong harbor, the New Jersey has been the object of thousands of curious eyes.

Junks circled it. Only yesterday 13,000 Chinese made the two-hour trip by ferry to look at the great battlewagon from a distance.

So the officers decided to let the public come aboard today for a closer look at its gleaming brass its ponderous superstructure and the mighty 16-inch rifles.

The decision to keep the battleship out of the harbor lest it ground in turning in the narrow inner channel made a lot of old Hong Kong residents sore.

Their civic pride was outraged. They wrote angry letters to the editors saying any battleship afloat could come into Hong Kong harbor and the New Jersey ought to be ashamed of itself.

And so hot words fly thicker than Communist shells and bullets ever did when the New Jersey was shooting up targets on the North Korean coast.

Cadillac Woman Marks 103rd Birthday Sunday

CADILLAC (UP) — Mrs. Mary Morehouse of Cadillac, the city's oldest resident, will observe her 103rd birthday Sunday at the home of her daughter, Mrs. Maude Eley.

Mrs. Morehouse is a native of Redford and lived in Elmira for 60 years before she came to Cadillac 34 years ago.

Town Asks Briefing on Too Short Shorts

WINCHESTER, Ky. (UP) — How short do shorts have to be before they become indecent?

The city commission here tossed this question into the lap of the city attorney last night after 30 persons representing five churches appeared to protest the practice of women wearing shorts on city streets.

The delegation told the commission women who appear in public dressed in shorts are "ruining the morale of the people."

The commission pointed to a state law forbidding indecent exposure. But when asked for a definition of indecent exposure, the governing body replied that was a matter for the courts to decide.

National Guard Needs Recruits

Offers Men Training, Chance for Advance to Officers Ranks

"At least 100 recruits are needed for duty with the 107th Ordnance Co., of the National Guard," according to its commander, Capt. Carl G. Yarling, "and we'll be glad to train them completely."

The unit's total strength at this time is 31, with 27 enlisted men, one officer and two warrant officers.

The Pontiac ordnance company, with headquarters in the Water Street Armory, is now at Camp Grayling on two weeks maneuvers, the first summer encampment since being activated for Korean duty in 1950.

Ordnance men are an indispensable group, being responsible for the maintenance of anything mechanical from a pistol to a tank. They are charged with the upkeep of all weapons and mechanized equipment and are trained in the intricacies of motor overhaul and the weapons repair.

Interested persons are not required to have previous training to join the National Guard and while serving with the Guard will be able to advance through the ranks and become officers if qualified.

Anyone interested in the advantages of belonging to the 107th Ordnance Co., may contact Capt. Yarling at the Armory.

State Boy Kills Brother

OWOSSO (UP)—Richard Yamik, 13, of Vernon Township, was accidentally shot and killed by his brother, LeRoy on Wednesday. They had been shooting at tin cans with a rifle. LeRoy said both thought the gun empty. He tripped the trigger. Richard died en route to a hospital. Another brother, Eugene, 7, was killed two years ago when he fell under a tractor.

Hay Fever Dean Back

CHEBOYGAN (UP)—The dean of Cheboygan's hay fever colony is back for his 49th straight year. He is Charles Presley of Sharon, Pa.

Jackson Commission May Pass Traffic Law

JACKSON (AP)— The Jackson City Commission is expected to give final passage Tuesday to an ordinance empowering municipal judges to send to jail anyone convicted of a moving traffic violation. Now there is no provision for jail terms instead of, or in addition to, fines.

Regrets Resignation of State Controller

LANSING (UP) — The resignation of State Controller Robert F. Steadman has been accepted "with profound regret" by Gov. Williams, the executive office said today.

Steadman, who has been controller since Jan. 1, 1949, will return to Wayne University as professor of public education. He has been on leave from the university since he was appointed to the $12,000 a year job by Williams.

Frank M. McLaurey is expected to be named Michigan's acting controller until a successor is selected.

AT EASE — Four members of Pontiac's 107th Ordnance Co. relax in their tent after the first week of maneuvers at Camp Grayling with the Michigan National Guard. The summer encampment is scheduled to end Saturday. From left to right are Cpl. James R. Gunton of 2700 Weaverton Rd., Rochester; Pfc. Gordon Walrath of 1331 N. Woodward Ave., Birmingham; Cpl. Ned D. Sigmon of 124 S. Johnson St.; and Cpl. William J. Mervyn of 24233 Wagner Rd., Van Dyke.

Truce Teams of Satellites Eat Behind Glass Curtain

By STAN CARTER

INCHON (AP) — The Communist Poles and Czechs have succeded in remaining aloof in the lavatory. That is quite a feat.

There are 8 Polish, 11 Czech, 4 Swiss and 3 Swedish members of a neutral nations armistice inspection team living at the bachelor officers quarters on Wolmi Island off Inchon.

The Poles and Czechs attempt to have as little as possible to do with the American officers and civilian newsmen billeted on Wolmi.

At first the neutral nations team ate in the officers club with the American officers and civilians. But, at the insistence of the Poles and Czechs, the table where the team sat was separated from the rest of the dining room by glass screens. The Americans called the screens the Glass Curtain.

Now the team has its own dining room. However, the Swiss and Swedes sometimes come to the club to eat.

Until their own lavatory is completed, they must use the facilities frequented by Americans.

The lone woman with the Communist group — an intense, thin Polish interpreter—shares a shower and lavatory with about 20 American Red Cross and U.S. Army special Service girls.

Some of the Poles and Czechs cannot speak English. So you must excuse the man standing before the wash basin next to you if he answers with only a faint smile when you say, "Golly it's hot."

Uusually the Poles and Czechs do not even smile. They are completely aloof. They come in and brush their teeth, or take a shower in the midst of singing, nude Americans, and go out again without saying a word.

A fortnight ago, a flash flood broke the water main between Inchon and Seoul. For five days there was not enough water for showers. The weather was hot and sticky. The Americans — and even the Swiss and Swedes — complained loudly. The Poles and Czechs did not comment. They took sponge baths.

Old Steam Engines Hobby for Brothers

AMHERST, O. (UP)—Some men collect stamps, others collect old automobiles, but Frank and Robert Hasenflue collect old steam engines.

Frank, 63, had his eye on an ancient coal-fed steam engine for a long time before he felt he and Robert, 67, could buy it. They took over the old engine, once used for powering threshing machinery, and repaired it over the winter.

"We paid more than it was worth," Frank said. Now, in top condition again, the engine is valued at more than the purchase price.

The two brothers repainted it in red, green and silver.

The machine, which has five brass whistles, soon will go to work again at its original job. It's neither economical nor efficient, compared with more modern power units, but it satisfies the nostalgic desires of the brothers.

Scout Conference Ends After Picking '55 Site

VIENNA, Austria (UP)—The Boy Scout world conference ended a meeting in Vaduz, Liechtenstein, Wednesday after picking Canada as host for the next conference and scout jamboree in 1955.

There was no indication of where in Canada the two simultaneous meetings will be held.

The conference announced that there are 5,562,000 Boy Scouts of all ranks in 55 countries, more than three million of them in the U. S.

Innocent Man Loses $300 on Confidence Game

COOS BAY, Ore., (INS)—This old confidence game didn't even have a new twist but it cost Mort Fillmore $120 in cash and a check for $180.

Fillmore, a service station operator, told police a man stopped for a spark plug. While there he brought out a device consisting of a revolving plastic barrel with a pair of dice inclosed.

A card of numbers with payoff odds went with the setup, and he wanted to leave it for Fillmore to try out.

Fillmore said he refused the device but the man left it anyway, saying he'd be back in a day or so to pick it up

The next day two men stopped for gas and, while waiting, saw the device and played it several times, losing 50 cents. They returned again several days later for repairs to a leaking oil pan.

Before he knew it, Fillmore said, they were playing the game for bills and in five minutes had won $300. He gave them $120 and a check for $180 before he realized he had been bilked.

Russia Holds Hostages

NEW YORK (UP)—The Voice of America says the Soviet Union still holds more than three million prisoners of World War II and is using them for political blackmail.

Cruiser Kept Busy

TOKYO (UP)—The Navy announced today the return of the cruiser Helena for her fourth tour of duty in Far Eastern waters since the start of the Korean War.

Pisa Tower Draws Sightseeing Crowds

PISA, Italy (UP)—The leaning tower of Pisa, which has been giving tourists criks in the neck for 600 years, is at the top of her tipsy glory these days.

For reasons pleased Pisans do not entirely understand, their tilting tower is drawing the biggest crowds of sight-seers in her history.

Visitors are jamming this city of 70,000 population so tightly it's hard to find a place to park a car. Some drivers, intent on a view of the tower, park near the city outskirts and return to the center by horse-drawn carriage.

"Nothing like this has ever happened before," announced the Pisa tourist office, rubbing its hands.

Chop Boy From Trunk in Time to Save Life

FLINT (UP) — Young Kenneth Klugle nearly had his name added to the list of children who suffocated recently while locked inside such things as old iceboxes.

Kenneth was playing with a group of his young friends Wednesday in an old steamer trunk in a garage. Kenneth climbed inside and the lock snapped shut.

Firemen rushed to the garage but the boy's mother, Mrs. Leonard Klugle, acted first. She smashed the lock with a hatched and freed her son.

Fighting Family Name

BOSTON (UP)—The five Sullivan brothers of Iowa, who perished when the cruiser Juneau sank in the Solomons a decade ago, have their Boston counterparts. The five Boston Sullivan brothers in the service are sons of Mr. and Mrs. William Sullivan.

Tokyo Workers Delay Second Strike Planned

TOKYO (UP)—Some 126,000 Japanese workers employed by the U. S. Security Forces today called off a second 48-hour strike scheduled tomorrow.

They reported some progress in negotiations for a new contract.

Security Force workers staged their first 48-hour strike Aug. 13.

Reds Execute 16 as Riot Leaders

Bonn Ministry Reports Russian Military Courts Jail Many Others

BERLIN (UP)—The West German government reported today that at least 16 East Germans have been executed as leaders of the June 17 anti-Communist uprising but said that its figures were only a minimum.

A survey by the Bonn Ministry of All-German Affairs said also that three rioters had been given life terms and 164 others had been sentenced to a total of 800 years in prison by the Red tribunals.

The survey covered only "proved and documented" cases handled up to Aug. 12. Two more life sentences were reported this week, and the West has received reports that the Russians and their German Communist satellites have carted off several hundred additional rioters to unknown fates.

The ministry said all 16 persons known to have been executed were sentenced by Russian military courts. A German Communist court—in Halle—imposed a 17th death sentence — on former Nazi camp guard Erna Dorn—but it has never been confirmed that she was killed.

West Berlin authorities say 55 of their citizens still are among the missing since the June flareup. They claim 21 of these have been sentenced to prison terms.

Meanwhile, West Berlin's handouts of free American food for hungry East Germans resumed in high gear today after an 11-day slowdown for reorganization.

Once more thousands of East Germans eluded border controls and jammed the 17 food distribution stations to get the precious parcels of lard, milk and flour.

Since the German-American campaign fo rtfie East Germans opened July 27, the stations have distributed 2,860,000 food parcels. Another million packages now are ready for the stepped-up giveaway.

Thomas Jefferson sent cork oak acorns from France to a friend in South Carolina.

CAPITAL BEAUTY—Helen Fiske Smith, 19, of Bel Air, Md., suburban Washington, D.C., will represent the nation's capital at the "Miss America" beauty contest in Atlantic City, Sept. 7-12.

It Must Be Good

CLINTON, Miss. (UP)—Although there are several outstanding colleges within walking distance of his New Orleans home, Norman Bell drives 200 miles each Saturday to attend classes at Mississippi College here because he thinks this Baptist institution is "the finest school I have ever knwn."

People who do not get enough vitamin A have poor vision at night.

High-Compression Engine

A touch of the accelerator provides proof that Pontiac's big high-compression engine gives you all the power you'll ever need. And because Pontiac offers America's most highly-perfected engine, you get economical, carefree performance with a minimum of maintenance expense.

122" Wheelbase

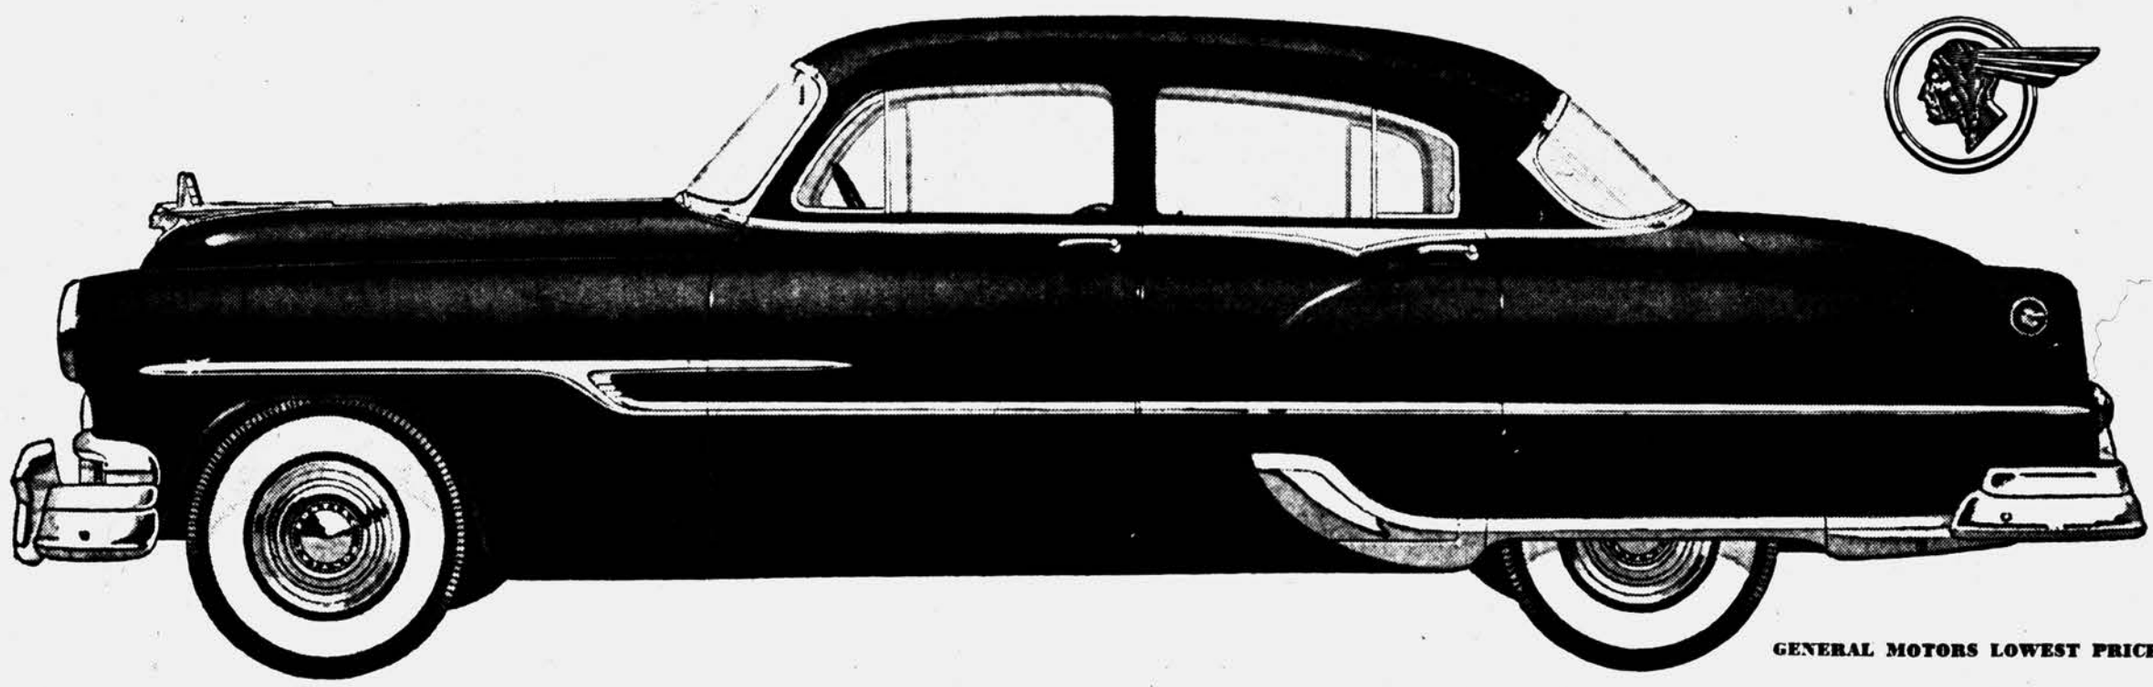
Pontiac is a big car—in fact no car so big is priced so low. This extra size gives you more room and contributes greatly to Pontiac's smooth, relaxing, road-hugging ride—a ride that gives you a wonderful feeling of solid security wherever you go.

Power Steering

Pontiac's Power Steering* takes over almost all the work of turning and parking and provides driving as effortless as modern engineering can make it. It's the same type of power steering you get in the finest cars. **Optional at extra cost.*

Body by Fisher

Inside Pontiac's big, roomy body you'll find luxury and comfort far beyond Pontiac's modest price. Its de luxe Color-Keyed interiors are finished with the same fine attention to detail as America's costliest cars.



GENERAL MOTORS LOWEST PRICED EIGHT

Put yourself in the driver's seat of a Pontiac and immediately some very wonderful things happen. First, you find yourself in command of a big, high-compression engine that responds so eagerly you know there's power to spare. You control this big 122-inch wheelbase Pontiac with almost no effort. And you know that you're driving a car that's admired everywhere for its distinctively beautiful styling. But only after you've driven it for many thousands of miles do you realize that Pontiac's outstanding point of extra value is more than its low first cost. It is Pontiac's famed dependability, long life and amazingly low operating and maintenance cost. And this great Pontiac quality is *proved beyond question by its accepted high resale value.* Come in and get the facts and we feel sure you'll be a Pontiac owner very soon.

Only Final Firing, Says Labor Board

WASHINGTON (AP)—The National Labor Relations Board ruled 3-2 yesterday that a worker can be fired under a union shop contract for failing to join a union, but lesser pressure can't be applied against him.

The majority decision held that it was illegal to withhold vacation pay from three employes of the Krambo Food Stores of Milwaukee, Wis., in an effort to compel them to join the union.

workers were not fired for not joining the union, but that the employer and union cooperated to withhold vacation pay due them. The NLRB's majority decided that this withholding of vacation pay was "additional discrimination, over and above the threat of discharge" and illegal.

Potential waterpower in Canada is estimated to be approximately 18 million horsepower of which only about 8 per cent has been developed commercially.

Rubber Workers Strike at Firestone

CLEVELAND (AP)—The CIO United Rubber Workers union struck the big Firestone Tire & Rubber Co. throughout the nation today. Negotiators failed to reach a new wage agreement before a midnight deadline.

Union and company representatives talked far into the early morning and scheduled another session today.

The strike involves 24,000 production workers in eight cities, including 10,00 in Akron, Ohio.

While it never has given specific details of its demands, the union says they include a 'substantial" wage increase and better pensions. It also is seeking adjustment of what it calls inequities in wage rates for some classifications.

Opposes Aid to Arabs

NEW YORK (AP)—The president of the Zionist Organization of America says it opposes U. S. military aid to Arab states until they agree to make peace with Israel.

Truckload of Eggs Upset but Few Are Damaged

PLACERVILLE, Calif. (AP) — Charles Nixon of Albert Lea, Minn., was driving a trucktrailer, carrying 600 cases of eggs.

The rig ran off the road and overturned near Kyburz on U. S. Highway 50.

But, investigating officers said only 10 per cent of the egg load was damaged in the accident.

the district, only eight turned out to vote.

Will Up Taxes if Necessary

Regardless of Expense, U. S. to Have Defense, Says Humphrey

WASHINGTON (AP) — Secretary of the Treasury Humphrey says that "if we have to increase defense spending, we can increase taxes to meet these expenditures."

But he added, in an ABC Radio interview last night, that he did not think there is yet any need for increased outlays for defense.

Regardless of the expense, he declared, the nation will have adequate defense.

"I hope we don't have to increase taxes." he continued. He said all means of taxation, including sales and manufacturing taxes, were being studied.

* * *

Humphrey said he did not think Congress would be called into special session to raise the 275 billion dollar debt limit, which it refused earlier this year to hike to 290 billion, although the national debt was 2½ billion dollars from the ceiling.

The government will be able to operate within the limit, he said, "if we can collect all the taxes due . . . encounter no unexpected expenditures and continue to reduce expenses."

Ike, Slicing Watermelon, Looks Like Scout Leader

By MERRIMAN SMITH
(United Press White House Reporter)

DENVER (UP) — Backstairs at the summer White House:

Sherman Adams, the assistant to the President, has this to say about Mr. Eisenhower's job:

"This job is a perfectly stupendous one and often takes a terrible toll of the President's health. I don't know just what the best remedy would be — proper staffing or a better distribution of the presidential load."

Adams and other members of the Eisenhower staff have studied the records of past Presidents closely and have resolved that their man won't be ground to bits as other Presidents have been by the senseless pressure of minor detail.

In this resolve, the President's secretariat is attempting to protect him as much as possible here in Denver from callers whose business is something less than urgent. Consequently, there are hurt feelings in some political areas of the land by people who would like to be summoned to the vacation White House. One senator called for days, inviting himself to be invited to Denver.

Mr. Eisenhower is in no particular hurry to receive a first-person report from Adlai Stevenson on the 1952 Democratic nominee's recently concluded around-the-world tour. This is in no sense a back-of-the-hand attitude, but the White House was somewhat surprised to read speculation that Stevenson might come to Denver to report to the President.

Watching the President roast corn, fry fish and slice watermelon for his friends at the Bal F. Swan ranch the other day, a friend observed:

"This looks for all the world like the 14-mile hike of the Bear Patrol, Troop 128 of the Boy Scouts."

The President got down on his hands and knees in a mountain pasture outside Pine, Colo., the other day and industriously swatted grasshoppers with his sky blue felt hat to provide fishing bait for members of his party.

When Mr. Eisenhower is fly casting in midstream and lands a rainbow trout, he walks to the nearest bank, unhooks the fish, then with a firm grip on the forepart of the fish, smacks its head on the nearest rock. When the fish quits flipping, the President then stows it away in the rear pouch of his fishing jacket which he lines with wet grass to keep the fish fresh and moist. He won't use a creel under most circumstances because it just adds to the trappings an earnest trout fisherman must carry anyway.

Appeal for Workers to Aid in Rebuilding

Flint Chamber of Commerce and Flint Building Trades Council joined this week in an appeal for volunteers for a rebuilding project, "Operation Tornado," to be held this weekend.

Dick M. Kirby, Oakland County Building Trades Council organizer, said Flint leaders will try to enlist enough building tradesmen to rebuild 200 totally-demolished homes in a giant building bee Saturday and Sunday.

American Red Cross, Kirby said, is giving money totalling 20 per cent of their mortgages, to the homeless to buy materials for the weekend operation. Red Cross personnel will serve free doughnuts and coffee to workers.

Volunteers may sign up at a registration tent near Beecher School at Coldwater road and Saginaw street in Flint.

Thomas Jefferson lived at Monticello, his Virginia home, from 1770 until his death in 1826.

Cottage cheese also is called Dutch cheese because they were the first to make it.

Hidden "finger" panels shape and support you naturally . . . control those "Calorie-Curves"!
Non-roll top stays up without a stay . . . flatters your waistline beautifully!

Bricker Says Lausche May Appoint Huffman

WASHINGTON (AP)—Sen. Bricker (R-Ohio) said today that as a "pure guess" he thinks Gov. Frank Lausche may name former Sen. James W. Huffman, a Democrat, to succeed the late Sen. Taft (R-Ohio).

Huffman, a 58-year-old Columbus lawyer, was appointed to the Senate in 1945 to fill the vacancy created by the appointment of Harold M. Burton to the Supreme Court. Bricker defeated him in 1946.

Spider Versus Driver

GRAND HAVEN (UP) — Kenneth Retzlaff, 19, blamed his traffic accident on a spider that dropped in front of him while he was driving. Retzlaff swung at the spider and missed it. His car struck two parked autos.

Lamb Falls, Beef Rises as Pork Remains High

(By the Associated Press)

Here's the meat situation this week, as summed up by an official of one of the country's large food chains:

"Lamb is a little lower, beef has started up again, and pork is still sky-high."

This sad state of affairs doesn't rule out weekend specials, of course. And while items like rib roasts have edged up a couple of cents in some stores, fair-sized reductions will be posted in others. Pork chops also show a mixed picture: they're up as much as 10 cents a pound in some sections of the country and down about four cents in others.

Leg of lamb prices are unchanged from a week ago to down around four cents a pound.

A number of food merchants have chosen smoked picnic hams and roasting and frying chickens as weekend specials, with price cuts of several cents a pound.

One meat specialist observed that beef prices ordinarily hold up pretty well until late September or early October, when a decline usually occurs, at least in the "good" grade. Choice grade beef may remain high, he added.

Egg prices continued to increase in many parts of the country, with boosts of one to two cents a dozen. Butter prices generally were left unchanged.

Most grocers gave prominent display to California seedless grapes and pronounced them an excellent buy. Also featured in the fruit department were peaches. Canteloupes and honeydews were other specials, although it was conceded that they were not in the class with grapes and peaches.

There were plenty of good buys in vegetables. Produce men named green beans, eggplant, onions, potatoes and peppers as good values. Cabbage, one market man said, "is really a bargain." Tomatoes were described as "an as "an extra-good buy."

Lettuce, high in price in recent weeks, is getting into a more reasonable range, produce men added.

Flying Feline Mascot Breaks Sound Barrier

CHICAGO (AP)—Some members of the 62nd Fighter-Interceptor squadron at O'Hare Field are calling Zero, their six-toed cat mascot, the "Fling Tiger"—one of the first cats to have passed the sound barrier.

Maj. Richard Garrett, commanding officer of the 62nd, piloted Zero in his F86-D jet plane yesterday in a flight over Lake Michigan. When the plane broke the sound barrier at about 700 miles per hour the cat atop the instrument panel flattened itself out limply.

"But it didn't bother Zero at all," Garrett said.

An ancient church custom, the "Blessing of the Animals," is still observed in several countries, including the United States.

MRS. MESTA IN LONDON—Mrs. Perle Mesta, left, former U. S. Minister to Luxembourg, is greeted by her sister, Mrs. George Tyson of Newport, R. I., after she debarked from the Russian ship Belo Ostrov which docked in London after a voyage from Leningrad. Mrs. Mesta made a two-month, 12,000-mile tour of the Soviet Union and said her trip only increased her conviction that the "free world is the only place to live, the only place where you can say what you want to."

GM's Parade of Progress Opens for 4-Day Showing

(Continued From Page One)

group of young men, to become auto designers — and successful ones — or top notch engineers — or to do something better—then we are well paid for the expense of bringing it to Pontiac and other cities."

Later in the evening Klingler told the Pontiac Press of the growth of GM activities in Pontiac since he came to the Pontiac Division in 1933.

"When I first came here in 1933, General Motors employed less than 9,000 people in the Pontiac area. Until recently, when the Detroit Transmission division plant at Livonia was destroyed by fire, more than 30,000 people were employed here by the Pontiac Motor Division, GMC Truck and Coach Division, and Fisher Body.

"The total payroll in 1933 was $11,300,000—and this year, before the fire, it had been running at a rate of more than $170,000,000. Twenty years ago, General Motors occupied only about 5 million square feet of space in Pontiac. Today we occupy more than 20 million square feet of plant area.

"The fire has seriously affected our operations.

"But the entire GM organization is doing its utmost to get back into hydramatic production as speedily as possible. At the same time, we are going ahead with other plans to keep our automobile production lines rolling.

"When we speak of production, it is interesting to look back and see what the record has been since 1933. In that year, Pontiac Motor Division produced about 86,000 cars.

"Since then, we have turned out cars by the millions. In fact, they tell me that sometime next year the 5 millionth Pontiac should come along.

"Similar growth and progress has taken place at GMC Truck and Coach Division and Fisher Body in Pontiac. Twenty years ago, GMC Truck sold only 6,600 trucks in an entire year. In 1951—the last year of unrestricted truck production — more than 100,000 GMC trucks were built and sold.

"While making this tremendous progress in the production of cars and trucks, Pontiac people have played a dual role in our war and peace economy by putting wheels under our armed forces and producing a variety of complex equipment and material for the defense of our country.

"Through the Parade of Progress we hope to dramatize the role played by science, by research, by engineering — backed up by an economic and political system that over the long run has given people freedom to think, create and compete and has rewarded those who make better products and help people live better.

"One hundred years ago four-fifths of our power came from animals. Fifteen per cent came from human muscles. Only five per cent from machines.

"Today the picture is just reversed. More than four-fifths of our power—84 per cent—comes from machines. And 12 per cent comes from animals. Only 4 per cent is now a tax on human muscles.

"The great significance of these figures is that whereas in the old days mankind was limited by the number of men and animals that could be put to work, today the only limit is the amount of power that can be coaxed from machines. And, as Mr. Kettering emphasizes, the power potentialities of the future are virtually unlimited.

"And that brings me to another objective of the Parde of Progres.

"Because technological progress had been so rapid over the past few years, with new discoveries opening up so many new avenues of research, the available supply of young scientists and engineers falls far short of the demand.

"The Parade seeks to interest youth in making a career in the technical professions."

John E. Ryan, parade director, then introduced lecturer Frank Bredeweg of Detroit, who presented the first stage show.

In Bredeweg's hands a glass bottle drove a nail through a two-inch board. Synthetic rubber leaped from a pop bottle. Liquids changed colors as they were poured from one beaker to another. An egg was fried in a pan over a paper napkin, leaving the napkin unscathed.

Bredeweg's running commentary explained how useful scientific developments of the past few years have been—and gave a glimpse into the possible future.

"Many things are needed for progress," he said.

"Men, money, freedom, enterprise—all are needed.

"But there are two main essentials of progress: research and engineering."

Traffic Hurts Citrus

RIVERSIDE, Calif. (AP) — Traffic fines cause poor citrus production along major highways in Southern California, Dixson Tubbs, agricultural commissioner for Orange County, said the damage affects the first four rows of trees on the side subject to the windblown gas attack. Conditions at "stop" corners show up the worst.

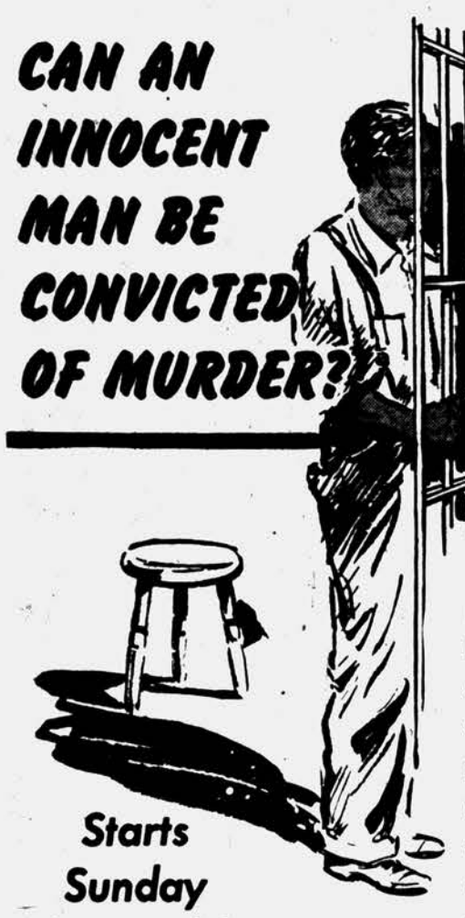
CAN AN INNOCENT MAN BE CONVICTED OF MURDER?



The Strange Case of WILLIE CALLOWAY

Eight years ago a young Detroit Negro lad, Willie Calloway, was sentenced to Jackson Prison for life for murder. He has never ceased protesting his innocence. Kenneth McCormick, Free Press Pulitzer prize winner, has studied the records and raises questions about Willie's conviction. In a series of dramatic articles, he presents his findings, of immediate interest to every citizen.

Rebellious Iran Last Gap in Red Line Across Asia

WASHINGTON — Iran's ancient Peacock Throne still stands, the monarchy safe for the present, after the second Persian crises in 12 years.

Here is a word sketch of the land ousted Premier Mohammed Mossadegh and the victorious Shaw fought over:

Bordered by Turkey and Iraq on the west, Russia on the north, and Afghanistan and Pakistan to the east, Iran lies largely on a hot, winds-wept tableland averaging 4,000 feet above sea level. A giant V of snow-capped mountain ranges points toward its northwest corner. Beyond, toward Russia, Iran's most fertile region falls away to the lush tropical shores of the Caspian Sea. In the south and east stretch uninhabited deserts, among the most desolate regions on earth.

* * *

Population is hard to pin down in Iran. A United Nations survey estimated it at 20,000,000 in 1951. At least a sixth are nomadic tribes — Bakhtiari, Kashgai, Kurds, and Lurs, plus lesser groups — that are virtually independent of government control.

Iran's chief wealth, and largest industry until a few years ago, was petroleum. Beneath sandy shores and tumbled mountains lies one of the greatest pools of liquid gold known on earth. It has been largely this oil, vital in the modern world, that feeds the strife and uncertain future of the kingdom of Omar Khayyam.

* * *

Were Communism to come to power in Iran, the Iron Curtain would stretch from the Artic Ocean to the Arabian Sea, chopping the world in half. Across this high plateau, roamed by mountain nomads and tilled by Biblical times, lies the only land bridge left between the Mediterranean and Indian open to the free world.

One of history's most ancient lands, Iran has seen kings come and go for more than 4,000 years. The mountain kingdom of Elam existed for nearly two milleniums before the Assyrians, who finally overthrew it in the seventh century B. C.

Cyrus the Great welded the Medes and Persian peoples into the first empire to embrace most of the lands of modern Iran. He conquered Lydia and Babylon.

His son, Cambyses II, overthrew Egypt. Darius and Xerxes continued Persia's power, until it was crushed by Greek sea power and the mighty army of Alexander, marching toward India.

* * *

The name Iran is both old and new. It is associated with the first migrating peoples to invade the lands east of the Tigris and Euphrates Rivers. But for 25 centuries, the kingdoms that followed were called Persia. Only in 1935, by government decision, did Iran return to the name of its most ancient inhabitants.

Montana Wild Animals Get Minerals in Salt

HELENA, Mont. (AP) — Montana's big game animals are getting plenty of minerals in their diet this year.

Robert F. Cooney, director of wildlife restoration for the Montana Fish and Game Department said about 80 tons of specially mineralized block salt were placed on big game ranges throughout the state.

MR. and MRS. LLOYD LINDSEY

Married Saturday in St. Michael Church were Ruth Julick and Lloyd Lindsey. She is the sister of Mrs. Anthony Renne of Fourth avenue and his parents are the Gordon Lindseys of Sault Ste. Marie, Canada.

Newlyweds to Live Here

Honeymooning in Canada are Mr. and Mrs. Lloyd Lindsey who were married Saturday morning in St. Michael Church.

The bride, the former Ruth Julick of East Fourth avenue, is the daughter of the late Mr. and Mrs. John Julick. The Gordon Lindseys of Sault Ste. Marie, Canada, are the bridegroom's parents.

Her cousin, Mrs. Carl Beerman of Marquette, was matron of honor and her brother, Joseph Julick of Milwaukee, Wis., performed the duties of best man.

Seating the guests were Anthony Renne and Marshall Spak. A reception was held at Hotel Roosevelt in the afternoon.

Following a honeymoon trip in Canada, the couple will reside in Pontiac.

Miss Dudley Now Home From Tour

Jacquelyn Reports Paris Experiences During Strike

Jacquelyn Dudley, daughter of the Harold Dudleys of East Iroquois road, arrived home safely Monday after a 10-week tour of Europe. She escaped the strike tie-up in Paris when her group hired a special bus to take them to LeHavre and the ship.

Among the countries she visited were Brittany, Holland, Switzerland, France, Italy and Germany. While she was in Munich, Germany she spent three days with the Donald Noggles.

Jacquelyn soon will be on the go again. She is planning to take a plane on Sept. 7 for Manhattan Beach, California, where she will be teaching school this winter.

* * *

We hear that former resident, Mrs. Esther Van Wagoner Tufty, now of Washington D. C., is on on trip around the world. She is the sister of J. L. Van Wagoner of Maceday Lake and Murray D. Van Wagoner of Birmingham.

* * *

Mr. and Mrs. Allan Monteith and daughters, Barbara, Joan and Peggy of Avondale Avenue, are spending a vacation at Houghton Lake.

* * *

Mr. and Mrs. Gerald M. Millar (nee Dorie Voss) of Detroit announce the birth of a daughter, Lauren, Aug. 20. Grandparents are the Berkeley Vosses of Ottawa drive and Mr. and Mrs. George Millar of Dearborn.

Ann Cudney Is Bride of Charles Ferrer

The Rev. Milton H. Bank of Central Methodist Church performed the candlelight ceremony when Ann Martha Cudney, daughter of Dr. and Mrs. Ethan B. Cudney of Marlborough drive, spoke her vows with Charles Martin Ferrer of Washington, D. C., Wednesday evening in First Methodist Church of Birmingham.

Ann wore a gown of traditional white Chantilly lace over satin with a full skirt and train. The bodice featured a bateau neckline defined in a petal motif of lace embroidered in pearls and sequins set on a tulle yoke. Long sleeves in the petal design ended over her wrists.

A princess cap of pearl embroidered lace secured the tiered veil of silk illusion and she carried a cascade bouquet of white roses, stephanotis and ivy with an orchid in the center.

MRS. CHARLES MARTIN FERRER

Preceding her down the aisle was Ann Paige of Washington, D. C. As maid of honor she wore an ice blue floor length gown of nylon lace tulle with a fitted bodice complemented by a bolero jacket of lace with a Peter Pan collar. She carried Burma glamelias and wore a satin and net hat matching the color of the gown.

The bridesmaids, Patty Jean Peterson of Arlington, Va., Eleanor Boja of Bloomfield Hills and Mrs. Ralph O. Allen wore gowns styled like the honor maid's and carried bouquets of pink glamelias.

A. J. L. Moritz Jr. came from Lookout Mt., Tenn. to be best man for Charles who is the son of Mrs. W. L. Hoeke of Washington, D. C. and the late C. M. Ferrer.

His other attendants were Frank O'Meara of Birmingham, Mr. Allen and DeVere Games.

Mrs. Cudney chose for her daughter's wedding, a dress of dusty pink lace and crepe in floor-length style with dusty pink accessories. Her corsage was composed of orchid glamelias.

The bridegroom's mother wore a light blue lace floor length dress with light blue accessories and a corsage of pink glamelias.

A reception at Orchard Lake Country Club preceded a honeymoon trip to Canada for which the bride chose a three piece blue suit with black accessories and the orchid from her bridal bouquet.

They will reside in East Lansing where the bridegroom will continue his studies at Michigan State College. He is a graduate of Cheshire Academy and she was graduated from the University of Michigan.

Friends Fete Ruth Houghton at Shower

Dolores Bixler of Perry Lake road opened her home to a group of friends and co-workers Tuesday evening for a pre-nuptial shower honoring Ruth Houghton.

Patricia Rose was co-hostess for the event.

Among those present were Irene Perreault, Mary Jean Faust, Mary Lou Sibley, Mrs. Howard Compau, Joyce Brooks and Pauline Brutus.

Others were Pauline DeQuis, Barbara Hoffman, Pat Henshaw, Nancy Gray, Alice Bouford, Ruth Winters, Pat Young, Dorothy Phelps and Madah Mack.

Ruth, who is the daughter of Mr. and Mrs. George Houghton of Drayton Plains, will speak her vows with A2/c Ronald Fiscus, Sept. 5. He is the son of Mr. and Mrs. Albah Fiscus of Drayton Plains.

Benefit Staged by Youngsters in Paddock Area

Joanne Goodsell and Sharon Ostrander, both of South Paddock street, were chairmen for a neighborhood polio benefit which they organized in the McConnell School area.

The event took place Wednesday evening on the school grounds, starting with the talent show in the evening.

Backed by their parents, the children also had booths and a white elephant sale to raise money for the National Foundation for Infantile Paralysis.

Others who helped with the benefit are Mrs. Earl Luchenback of Willard avenue, Mr. and Mrs. Edwin Ostrander and Mrs. Leo Goodsell, all of South Paddock street, and Mrs. Sidney S. Fellows of Cottage street.

Couple Planning Sept. 12 Wedding

Mr. and Mrs. Shelby N. Davis of Plainfield, Ill. have announced the engagement and approaching marriage of their daughter, Shirley Ann, to Ralph F. Rouse.

Ralph is the son of Mr. and Mrs. Ralph O. Rouse of North Nelson street. The couple have planned a Sept. 12 wedding in the Plainfield Methodist church.

Breens Announce Daughter's Plans

Announcing the engagement of their daughter, Jacqueline Lou, to Edward R. Trancik, are Mr. and Mrs. Q. Donald Breen of Berwick boulevard.

Edward, who is the son of Mr. and Mrs. Edward Trancik of Dearborn, is a student at the University of Michigan. Jacqueline attends Hillsdale College. The couple have set no date for the wedding.

Youngsters Present Red Cross Benefit

For the benefit of the Red Cross fund, children in the neighborhood of Mohawk road presented a variety show Monday evening in the yard of Mr. and Mrs. Irving Gillies of Mohawk road.

Planning the affair were Mary Lou McLaughlin, Mary Inman, Vicki Sue McLaughlin and Ann Gillies

New Book Offers Sound, Practical Aid for Women Raising Youngsters Alone

By ANNE HEYWOOD

Much of my mail comes from mothers who are on their own either because of divorce or because they are widows.

In these cases, the psychological and emotional effects on children and parents are, of course, a very important aspect of the problem.

But so, also are the financial and legal aspects, as well as the general problems of everyday living.

I have just read a very interesting book which handles these latter aspects in a forthright and practical way.

It is called, aptly enough, "Mothers On Their Own," and the author's name is Elbrun Rochford.

While we all agree that every child needs a father, there is much a mother can do on her own to compensate for the absence of a father, and Mrs. Rochford describes this intelligently.

She discusses the civic and community services which are available to the mother with a small income, and the problem of the mother as a breadwinner and as the only parent.

There is an excellent chapter on legal problems and how to handle them on a low budget. She discusses plans such a mother should make for her future after the children are grown.

Best of all, I think, are her practical suggestions concerning housing arrangements, and shortcuts to get the very most for your money without giving the children a feeling that they suffer materially in comparison with children who have fathers.

The best present I can think of for the recently widowed or the recently divorced mother is this book which handles a very difficult topic with an admirable combination of practical pointers and inspiration.

The Best Friend Your Feet Ever Had!

72 West Huron FE 2-2492

The black lace sheath of heavy lace is a friend to the models. Wide-skirted dresses are for the rest of us not-so-slim.

Mrs. F. P.—The lace dress has stepped out of the "classic" fashion. The type of lace denotes the character of the dress. The heavy sheath for the young, the fragile wide-skirted lace for everybody else.

Answer to Previous Puzzle

Many Fail to Respect U. S. Anthem

Should Be Attentive During Rendition of National Song

By EMILY POST

Today's first letter says: "I do wish you would write something in your column about the behavior that should be displayed during the playing of the Star-Spangled Banner.

"At several of the sporting events which I have attended lately, I noticed that many of the spectators either talked or fussed with their belongings throughout the playing of our National Anthem. I cannot believe that these people mean disrespect, but are just unthinking.

"Therefore, I feel a reminder in your column would bring this to the attention of the offenders, and in the future they will be more attentive during the playing of the National Anthem."

Answer: I sincerely share this reader's opinion and am more than glad to print her letter.

Dear Mrs. Post: Very often when I am out with my girl friend she will stop and buy a chocolate bar or a bag of peanuts, etc., and walk along the street eating whatever it is.

Of course, she always offers me some but I refuse because I think it is bad manners to walk along the street eating.

I have told this to my friend but she won't believe it until she sees it in black and white. Don't you agree, Mrs. Post, that this is not good manners?

Answer: I agree with you that walking along a city street conspicuously eating is very bad manners!

Dear Mrs. Post: At a wedding, is one who arrived early and was given an aisle seat impolite if she, or even he, doesn't give it up to others who come later?

At a recent wedding I kept the aisle seat and made later guests pass in front of me to take the other seats. They seemed very annoyed at this and I've been wondering if I was wrong.

Answer: The advantage of being the first comers is that they have the right to keep the aisle seats!

To be expected to give them up, would be very unfiar — in fact, that is why they came early! Even a man may properly keep the aisle seat.

From office to date, this career girl has discovered that this new nail polish with an iridescent luster complements all costumes.

Iridescent Polish Has 4 Shades

Essence Added to Formula Results in Shimmering Glow

By ALICIA HART

Girls who like the iridescent luster type of nail polish will be glad to know that one firm now has it available in four new shades.

The shimmering glow results from a sparkling pearl essence added to the formula. The makers claim that this material gives longer wear as well as special beauty.

The pearl essence will remain in suspension for a long time before stirring becomes necessary, they say.

To relate the shades to your clothes colors, the makers suggest their pastel rose for black, right blue or gray and their pastel pink for navy or pink.

There's also a flaming shade and an absolutely white shade that's like the pearl itself.

Your pearly irridescent finish will be smooth and even if you're careful to use smooth, even strokes during application.

Don't overload the brush nor yet have so little on it that you can't finish the stroke out to the nail tip.

Judging the right amount is simply a matter of practice. For long wear, don't be hasty about putting on your second coat. Let the first one dry thoroughly.

Wedding Custom Has Roots in Past

Authorities differ as to the origin of the throwing of shoes at weddings, but they agree that the real significance of the custom has always been associated with power, ownership and good luck.

It is also generally accepted that the shoe is potentially a lucky charm, especially for a new venture in matrimony. In Scotland and Ireland, old shoes are not only thrown at the bride and groom, by way of wishing success, but at anyone who starts on a new project.

Ages ago, the placing of a shoe on a tract of land was a symbol of ownership. To close a contract for a land purchase, the ancient Assyrians and Hebrews handed a sandal to the buyer.

Girl Who Attracts Lads but Can't Hold Onto Them May Be a 'Firecracker'

By ELIZABETH WOODWARD

"Dear Miss Woodward: I suppose I'm lucky, really—I'm quite attractive to look at and I'm popular with both girls and boys. But I can't keep a boy friend long! My record is three months.

"Other girls manage to keep their boy friends sticking around for as long as a year. But not me. I'm lucky if I'm not dropped flat after the second or third date.

"Isn't there some way I can make myself more interesting so I can keep a boy attracted to me?"

Some girls give the impression of being dating skyrockets. The outside of the package is dazzling to see. They seem gay and lively, as though they'd be fun to be with.

Lots of free-lancing boys are attracted into taking a chance, only to find that appearances are deceiving. The dazzle is still there, but she's so conscious of it she embarrasses him.

The gaiety (on closer inspection) is a sort of nervous hysteria which wears a man down. The skyrocket goes off on the first date with a blinding light—leaving empty darkness in its wake.

There's lots of chatter — but nothing really worthwhile to say. There's a terrific concern with the impression she's making, the stir she's creating, the fun she's having.

Her thoughts are so turned in on herself that she presents a pretty blank wall to the lad who's trying to impress her. She sits back waiting for his admiration and attention—instead of sitting forward giving him hers.

Such a girl is only interested in the number of dates she has. Not in carefully, quietly, slowly turning acquaintances into boy friends.

She thinks dating behavior is different from ordinary getting along with people. She puts on such an act that a guy who's attracted to her at 10 a. m. can hardly recognize her in her 8 p. m. "dating disguise."

One, two, three dates with such a girl — that's about all a boy can take.

Now you may not be the firecracker type. You may know boys who haven't much dough to date with. Parhaps they aren't the sticking kind.

Perhaps their personalities just don't click with yours somehow. Perhaps you've been leaving too much of the initiative up to them without making any contribution of your own to make your relationship last.

My free booklet, "Date Data," will show you how to turn a first or second date into the beginning of a really big thing.

You can have a copy for your own by just writing me for it in care of Pontiac Press, enclosing a stamped, self-addressed envelope with your request.

Loosen Stains With Soaking

Long soaking of clothes is no longer considered necessary. But a short soak period of about 10 minutes in lukewarm suds helps loosen stains which might be set by hot water.

Excessively soiled spots, as at neckbands, should be rubbed with soap jelly before soaking. Colored clothes shouldn't soak more than five minutes, and not at all if they tend to run.

Residing on Baldwin avenue are Mr. and Mrs. Vernon J. McVety, who were married Aug. 15. The bride, the former Mattie Lou Davidson, is the daughter of the Jonah O. Davidsons of North Saginaw street. The John R. McVetys of Falmouth are the bridegroom's parents.

MR. and MRS. VERNON J. McVETY

* * * * * *

McVetys on Wedding Trip

At a candlelight service Aug. 15 in the Apostolic Church of Christ, Mattie Lou Davidson became the bride of Vernon James McVety of Going street.

She is the daughter of Mr. and Mrs. Jonah O. Davidson of North Saginaw street and the John R. McVetys of Falmouth are his parents.

The bride's floor-length gown was fashioned of French Chantilly lace and nylon net over slipper satin accented with nylon tulle accordion pleats.

Her finger-tip veil was held by a bonnet style headpiece of Chantilly lace and slipper satin accented with seed pearls and she carried a cascade arrangement of white gladioli and roses.

The bride was attended by her sister, Barbara, Mrs. Harold Rudd, Katherine Archer, Mrs. Alan McVety Ruth Hills, Loretta Davidson and Lillian McVety.

Clare McVety, the bridegroom's brother, was best man. The other attendants were Alan McVety, Verner Barnes, Charles Fandale of Royal Oak and David Bowen.

After a reception in the church parlors the newlyweds traveled to Niagara Falls and Washington, D. C. for their honeymoon. They will reside on Baldwin avenue.

Bridal Reception Held at Oxford

At an evening ceremony Aug. 22, Mrs. Jane Dernberger of Williams street exchanged vows with Alex Baldwin of Oxford at the home of Mr. and Mrs. Dexter Garbet in Oxford with the Rev. A. L. Howlett officiating.

Attending the couple were Mr. and Mrs. Allen Secord.

A corsage of rubrum lilies and white pompons accented the bride's orchid lace dress. A reception was held in the Oxford Veterans Building.

Blue Star Mothers Donate to GI Home

Blue Star Mothers, Chapter 4 met Tuesday evening at the YMCA. A donation was given to help a GI, and 25 per cent of the returns on their money making project was given to the Blue Star Mother's Rehabilitation Home.

Members reported on the Flint reception for department president, Mrs. Frank Drayton, which was held recently. Plans were made to attend the district meeting at Rochester on Sept. 3, and the Sept. 21 dinner at the YMCA was discussed.

Will-O-Way Last Play Planned

"Here Today," a witty comedy by George Oppenheimer, will open Tues. Sept. 1 at Will-O-Way Playhouse as the final offering of the season by the Bloomfield straw-hat theater.

* * *

The play will continue through Sept. 12 on the apple farm stage on West Long Lake road near Telegraph.

Highlighting the cast are Minnie Jo Curtis of television prominence, as Mary Hilliard, brilliant and incurably playful playwright, Gerald Harrington as Philip Graves, Mary's ex-husband novelist, and Robert Bryson as Stanley Dale, wise-cracking friend of both Mary and Phil.

* * *

Supporting roles are filled by Bettie Toti as Claire Windrew, charming Boston Back Bay heiress; Teresa Way Merrill as Mrs. Windrew. Claire's blue-blooded mother, and Burton Wright as Spencer Grant, also of Back Bay vintage and one of Claire's suitors.

Elmwood Club Elects Officers

Mrs. Jack Wilds was elected chairman of the Elmwood Extension Club when the group met Tuesday evening at the home of Mrs. George Miller of Devondale road.

Other officers elected were Mrs. Herbert Johnson, vice chairman; Mrs. John Olsen, secretary- treasurer; Mrs. Henry Lockwood, reporter; Mrs. Leon Casper, community leader; Mrs. George Kipp, recreation leader and Mrs. Carl Johnson, project chairman.

The new officers will hold an organization meeting Sept. 22 at the home of Mrs. Herbert Johson of Lowell street.

Manners MAKE FRIENDS

Dorothy entertains her husband's relatives as often as she entertains her own. But she just can't resist sighing a little to her friends when it is George's relatives she is cooking for and entertaining. That may be human nature, but it isn't good manners.

And it isn't being very loyal to George.

Oak Floors Need Polishable Wax

Oak, maple, fir, pine and other wood floorings should be sealed for protection. Varnish, lacquer or shellac is suitable. This finish will not easily become ground off from dirt and foot-treads if regular wax care is given to it.

The best type of wax to use on wood floors is the kind requiring polishing. Deteriorated wood floors, in particular, should be given polishing, rather than self-polishing, wax treatment.

Right, a tweedy cotton in smart dark tones, with nosegay and velvet sash.

Old Superstitions Set Clothing Styles

In our society restraint prevails against radical changes in men's attire, but in some parts of the world men still wear a comb and skirt, while women wear trousers or pantaloons.

One simple example of how superstition has carried through in fashion today is the fact that men's clothing buttons to the right side of the body, while women's clothing buttons to the left.

Ancient man divided his body in half. The right side of the body became the masculine side, due to the use of the right side in throwing, spearing, hammering, and so forth. Because man heard his heart beating on the left side, he was frightened by this mysterious occurence. It symbolized the unknown or feeling side of his nature, and thus became the feminine side of his body.

Press in Tissue

To avoid a shine while pressing over double thickness, such as seams, collars, cuffs and hems, press over two layers of cheesecloth or tissue paper.

Gloves Still Carry Symbolic Meaning

There are many glove superstitions starting way back in antiquity. Leather gloves were used at a very early period in war and hunting, but women did not wear them until 1300A. D., when the glove industry began.

Since biblical days, gloves have been given as a pledge, and the practice survives in the Orient.

We find that gloves were symbols of death when worn on the hands of victorious army, and were symbols of rank and authority on the hands of kings, who bequeathed their gloves to the heir to the throne.

It has been estimated that it is possible to grind eyeglass lenses in 11,132,544 different combinations of curvature.

Jack Post Levels Sag in Flooring

Device Adjusted to Brace Spot From Basement

By HUBBARD COBB

When people get old they are likely to sag a little and so are floors. Floors will also sag if undersize joists were used or if too heavy a load such as a set of grand pianos has been placed in one spot.

Sometimes a floor will sag because the wood has shrunk too much and the joists are no longer getting any support from the girder. In any event, most people don't like sagging floors and want to do something about them.

The best cure for a sagging floor is a metal adjustable jack post. The post can be adjusted to approximately the correct height and placed under the floor at the center of the sag.

The jack on the post is then turned to lift the floor back into place. After this the post can be just left there to provide support or it can be replaced with a 4 x 6-inch wood post.

A post that is going to support a good portion of the floor should rest either on a thick concrete floor or a special concrete footing. If you set it directly on a thin floor the floor will crack.

It's also a good idea to place a heavy beam or plank on top of the post running at right angles to the floor joists. This will allow the post to support several of the joists rather than just one.

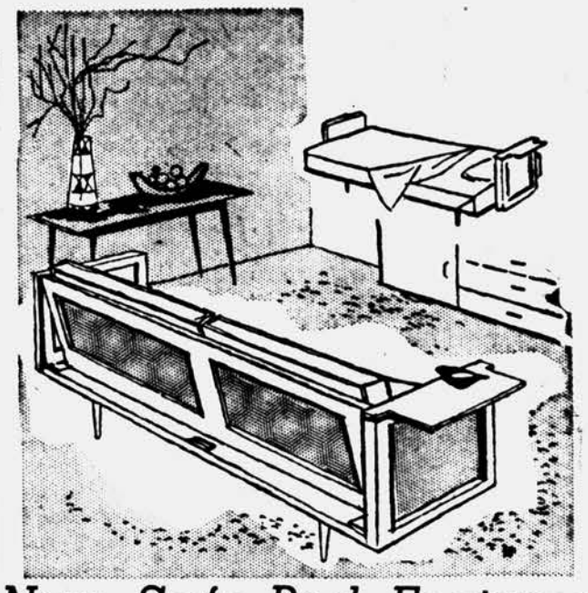
Once the post is in place it should be turned up very gently —a turn or two each few days.

If you try to level off a sagging floor in one operation it may cause some of the plaster in the rooms above to crack.

Wash Diamonds

Diamonds that are worn often should be cleaned once a month to keep their sparkle. Detergent in a cup of steaming water is all the cleaning matter necessary.

A honeybee swarm consists of 10,000 to 60,000 bees.



New Sofa-Bed Features Smartness With Comfort

By ELIZABETH HILLYER

The little room that isn't there on the floor plan is there when new furniture takes over.

There may not be a separate guest room with four walls dedicated to no other use, but there's guest room for sleeping as comfortably as in a four-poster in the new sofa beds.

Sketched is designer Edward J. Wormley's newest idea for a handsome sofa that turns into a wide bed.

It wouldn't be a Wormley design if it weren't especially handsome as a sofa, styled as it is in mahogany with woven cane back and arm panels and with legs of rosewood, and if it weren't wonderfully comfortable, with trim cushions of foam rubber — Mr. Wormley was the first designer to use foam rubber for upholstered furniture for the home.

The seating piece becomes a bed in a new way. The back drops down and the four seat and back cushions are placed across the unit to form today's new sleep favorite, a foam rubber mattress, which measures 42½ inches wide.

Novel usefulness for both a sofa and a bed is the wide table arm at one end.

* * *

Mrs. T. J. Y. — "I want to make cushions for the window seats of the dining room in a house we have just bought, and believe that the usual soft pillow stuffing will not be right or keep a trim shape. What should the cushions be stuffed with?"

Layers of hair and felt, or foam rubber, make trim cushion shapes that stay that way. Finish seam edges with weltings.

Mrs. A. C. — "I have a large L-shaped living room with dark green walls and a pale green ceiling.

"My sofa is old rose, one chair is dark green, one gold and one a neutral color. My rug is crimson. I'm at a loss to know what color draperies and cornices should be."

Patterned draperies can tie the several colors of the room together. However, your colors are bold, and too bold patterns should be avoided.

A subtle pattern with gold, green and perhaps a little crimson on white or pale natural background should be successful. Cover the cornices with the drapery fabric.

Soda Cleans Bowl

A solution of two tablespoons baking soda, poured into the toilet bowl every day and allowed to stand a few minutes before flushing, will keep the bowl deodorized and sparkling.

Fashion Emphasis on Dress Back

Fashion turns around this season, to put fashion emphasis on the back view of young fashions. Back interest dresses appear everywhere, detailed with rows of buttons, back-bow necklines, contrast skirt panels, all drawing attention to a pretty look coming or going.

Coat fashions take to back interest, too, with deep pleats, back yokes, lowered back belts, even back-pleating adding to the accent on the backward glance.

Metamora Hunt Club Busy Planning Sept. 5-6 Show

By RUTH SAUNDERS

BLOOMFIELD HILLS — Metamora Hunt is readying the club and riders for its annual Hunter Breeder Show there Sept. 5 and 6. Mrs. Edward C. Parker is general chairman of the show assisted by Mary Margaret Sweeney and Mrs. Edward E. Rothman.

Junior olympic teams will be represented for the first time at this show and a few of the young entrants include Lydia Rothman, Polly Deming, Martha McDonald, Carolyn Clark, Ann Higbie, Susan Everell and Peter Fisher, Jinx McLucas, Carol Gurney, Teddy and Alice MacManus, Ann Severs, and Marie and Peter Lindquist.

Mr. and Mrs. Charles D. Pierce will give a cocktail party on Saturday at their Metamora farm "Fox Covert," and the nevt day L. F. Cote will give a similar affair for out of town guests at his Oxford farm.

Mrs. Marcus E. Cunningham and her sons, Charles and Peter, are traveling in Europe, Charles and Mark will return soon to their respective schools, Yale University and Cranbrook, and Mr. Cunningham will go over to join Mrs. Cunningham for a Scandinavian cruise next week.

Mr. and Mrs. Robert Craig have issued invitations for a cocktail party Sept. 12 in their Cranbrook road home.

Mr. and Mrs. Hugh Martin Jr. of Barbour Terrace have spent the month of August with their children at Michilinda Beach. They will return home after Labor Day.

Mr. and Mrs. B. J. Gillen have come from Florida for a visit with their sons-in-law and daughters, Mr. and Mrs. T. F. MacManus Jr. and Mr. and Mrs. John J. Ellwood of Stonycroft.

Mr. and Mrs. Theodore O. Yntema have returned to their home on Franklin road after a stay at Hidden Valley..

Mr. and Mrs. Arthur B. Tilton have had as their house guests this week, Mr. and Mrs. Wendell Wilcox of Winter Park, Fla. who formerly lived in Birmingham.

Mr. and Mrs. John F. Gordon are at their summer home near Harbor Springs until after Labor Day.

Mrs. A. J. Browing with her daughter Martha and her mother, Mrs. Irene Montague, are motoring through New England, Quebec and Montreal.

Mr. and Mrs. David Nathan Viger announce the birth of a son, Peter Edward, Aug. 9. Mrs. Viger is the former Mary Louise Kern, daughter of Mr. and Mrs. Otto Kern of East Long Lake road.

Suzanne Anderson was hostess at at steak roast Tuesday evening in the E. J. Anderson home on Orchard Ridge road. Guests included Mr. and Mrs. Thomas W. Miner, Mr. and Mrs. Richard W. Miner and Mr. and Mrs. John L. Bones.

A first purchase in every home should be a step-stool or step-ladder. A chair or table used as one (or a rickety step-ladder) can cause a nasty fall.

Demands France, Italy Set Own Houses in Order

FREDERICKSBURG, Tex. (AP) — Sen. Johnson (D-Tex), who last week said he had voted for his last foreign aid bill unless some European countries changed their ways, has pinpointed his objections.

He told this German-American community last night that France and Italy must "set their houses in order." The Senate minority leader said inability of Italy to form a new government and of France to end her strikes are evidence the two countries "are unable to meet the primary test of our foreign aid program."

Johnson declared West Germany has "more than proved its right to full and equal membership in the family of free nations."

"The key to Europe is Germany," the senator said.

Takes Practice

BUFFALO, N. Y. (AP)—Twelve-year-old Carl H. Ernst Jr. shot an arrow at a cardboard box in a field in suburban Williamsville yesterday. he arrow came down in a creek and speared a small rock bass.

More than half of all Americans wear glasses.

Plywood, Pulp Mills Utilize Wood Waste

SEATTLE, Wash. (UP) — Sawmills, plywood and pulp plants are materially reducing wood waste according to reports made public by the Washington Institute of Forest Products.

Compiled by Thomas E. Collins, logging engineer for the institute, the report shows how the wood residue is being utilized and what volume is being reclaimed.

"The important point that is emphasized," says Collins, "is the trend toward a high economic value for wood materials that in former years have been burned as waste."

Collins pointed out that "458,000,000 board feet of chips derived from sawmills and plywood plants in 1952 were used in the manufacture of pulp—equivalent to the volume of logs harvested from 10,000 acres of woodland."

Olean Sets Fine, Jail for Abandoning Icebox

OLEAN, N. Y. (AP)—Olean's Common Council, alerted by the suffocation of nine children in other cities this month, has made it a misdemeanor to abandon an icebox be endangered.

Violations are punishable by a $100 fine or 30 days in jail.

Fined Golfer May Get Refund on Ball Bond

LUDLOW, Vt. (AP)—Police Chief Robert Kathan hopes to get out of the rough today by driving a bargain with 18 golf balls.

The balls were put up as surety by a man Kathan identified as professional golfer Edwin B. Hamilton of San Gabriel, Calif., whom he had stopped for speeding.

he golfer didn't show up for court so Chief Kathan and Justice of the Peace Anthony C. Marro paid the man's $10 fine plus $4.35 court costs—and wound up as owners of the golf balls.

Kathan said he hopes to sell the balls for $1 apiece today and send the surplus $3.65 to the golfer.

Brooms Can Be Made of Chicken Feathers

LOS ANGELES (AP) — The latest thing in brooms may be chicken feathers.

A University of Southern California research chemist, Dr. Alan Woofin, has announced after a year's study that chicken feathers contain keratin, a chemical protein which can be made into fibers capable of sweeping.

TOMATO SHRIMP ASPIC—A frosty cool gelatin salad adds glamour to any luncheon. Here popular tomato juice teams up with luscious shrimps for a sparkling picture-pretty salad. It's a make-ahead dish to have ready when meal time rolls around.

Tomato Juice Magic Adds Zest to Workaday Meals

Now is the time to stock up on tomato juice. It can be called a magic ingredient, for it can be used in so many ways to give flavor and variety to your meals. Remember, too, it runs high in vitamins C and A.

Below are two recipes for Tomato-Shrimp Aspic. One is made with unflavored gelatin and tomato juice, the other with ready-made tomato aspic. Either will make a tempting salad.

Tomato-Shrimp Aspic

1 envelope unflavored gelatin
2 tablespoons cold water
1 No. 2 can tomato juice (1 lb. 4 oz., 2½ cups)
1 tablespoon grated onion
1 teaspoon sugar
1 teaspoon lemon juice or vinegar
¼ teaspoon worcestershire sauce
Dash of pepper
1 5-or 7-oz. can shrimps

Soften gelatin in cold water. Combine tomato juice, onion, sugar, lemon juice or vinegar, worcestershire sauce and pepper in medium-sized saucepan. Simmer 5 minutes; add softened gelatin and stir until dissolved. Chill until syrupy.

Place five or six shrimps in bottom of lightly oiled 1-quart ring mold; spoon tomato mixture over shrimps. Chill several hours, or until aspic is firm.

At serving time unmold on bed of fresh greens; serve with mayonnaise or salad dressing and rest of canned shrimps. Serves 4.

Quick Tomato-Shrimp Aspic

Heat 2 cans tomato aspic in top of double boiler or over low heat, stirring often. Arrange five or six shrimps (from one 5- or 7-oz. can) in bottom of lightly oiled 1-quart ring mold; spoon aspic into mold. Chill until set.

Italian Prunes Make Fine Jam

Italian prunes, or what most of us call plums, make delicious jam. This recipe makes a spicy product that calls up pictures of good winter eating.

Italian Prune Relish

3½ cups finely chopped Italian prunes (about 2 lbs.)
1 medium lemon, juice and grated rind
6½ cups sugar
½ cup vinegar
½ bottle fruit pectin
¼ teaspoon cinnamon
¼ teaspoon cloves

Wash and pit fully ripe Italian prunes. Cut into small pieces or chop finely. Measure 3½ cups of fruit into large saucepan. Add spices, lemon juice and rind, sugar and vinegar, bring to a full rolling boil and continue boiling for 1 minute, stirring constantly.

Remove from heat and stir in pectin. Stir and skim for 5 minutes, cooling slightly. Ladle quickly into hot sterilized glasses and seal. Yield—about 10 six-ounce glasses.

Protect Good Berries

Protect the good quality of the berries you buy — don't wash or stem the strawberries until just before you use them. This avoids rapid spoilage if the berries are bruised in handling. Store the berries in the refrigerator so they have plenty of air circulation. A tray or colander makes a good storage container.

Eggs Better in Butter

Allow a tablespon of butter to every two eggs when you are preparing scrambled eggs. Have the butter melted in a hot skillet before you add the slightly beaten eggs; then turn the heat low and as the eggs set draw them toward the center.

PUMPKIN ICE CREAM CAKE—An ice cream treat is in store for the family when you serve them pumpkin ice cream cake. A gingersnap crumb crust gives added zip to the mellow pumpkin-nut flavor; a novel tasty combination.

Pumpkin Ice Cream Cake Takes Gingersnap Crust

Why limit the mellow flavor of pumpkin pie to just one season? Actually a pumpkin pie is a custard pie — good summer or winter.

But for a change make this . . . freeze a pumpkin filling in a snappy crust and you have the best ice cream dessert of the year . . . pumpkin ice cream cake.

There's a flavor surprise in this treat, too, as the pumpkin-nut combination in a gingersnap crust has a smooth richness the family will applaud. And, you'll appreciate this easy no-beat recipe that gives such tempting results with so little work.

Pumpkin Ice Cream Cake

1¼ cups gingersnap crumbs
⅓ cup melted butter, or margarine
½ teaspoon cinnamon
¼ teaspoon nutmeg
½ teaspoon salt
½ cup coarsely chopped nuts
1 cup canned pumpkin, or squash
½ cup milk
¾ cup sugar
1 cup whipping cream

Mix crumbs and butter; pat in bottom and around sides of refrigerator tray. Add spices, salt and chopped nuts to pumpkin. Heat milk and add sugar; stir until sugar is dissolved and pour into pumpkin mixture. Mix well and chill. Fold in whipped cream.

Pour into the crumb-lined tray. Garnish with whole nuts, if desired. Freeze until firm. Six servings.

Marshmallow Tops Over Ice Cream

Ice cream is no longer a Sunday best dessert. It's everyday family fare in most homes especially on sizzling hot summer days.

Try the following marshmallow sauce the next time you whip up a batch of ice cream and you'll have a fancy sundae to set before your family and friends any day of the week.

Marshmallow Praline Sauce

1¼ cups firmly packed brown sugar
¾ cup light cream or top milk
¼ pound marshmallows (about 16)
⅛ teaspoon salt
¼ cup butter or margarine
1 teaspoon vanilla
½ cup coarsely chopped nuts

In a saucepan, combine sugar, cream, marshmallows and salt. Cook, stirring constantly, until sugar and marshmallows are melted. Boil 15 minutes; remove from heat and add butter and vanilla. Stir until ingredients are combined; cool and add chopped nuts.

5 Tempting Fish Fillings Offer Sandwich Variety

Just to read the recipes for the delectable sandwich fillings made from the great variety of fish and shellfish make you rarin' to go on a picnic. Here are a few ideas which use easily-available fishery products. (Ingredients, of course, may be varied as to amounts.)

Sardines: Mash a can of sardines. Add ½ cup chopped stuffed olives, 1 tsp. chopped onion, 1 tbsp. chopped parsley, 1 tbsp. lemon juice and enough salad dressing to make a spread.

Tuna: Flake 1 small can tuna. Add ½ cup chopped celery and ½ cup chopped nuts. Moisten with mayonnaise.

Salmon: Flake small can of salmon. Add ¼ cup chopped pickle, 1 tbsp. lemon juice and enough mayonnaise to moisten.

Crab: Flake 1 small can crab meat. Add ½ cup chopped celery, 3 tbsp. chopped olives, 1 tsp. lemon juice, 1 tbsp. chopped pimiento. Moisten with mayonnaise.

Shrimp: Chop finely 1 can shrimp or 1 cup cooked shrimp. Mix with 2 tbsp. butter. Add a cup diced cucumbers, 1 tsp. lemon juice, and season to taste with salt and pepper. Moisten with French dressing, or mayonnaise thinned with milk.

Bavarian Pie Uses Gelatin Fill

Salmon Party Loaf Conversation Piece

Something to talk about — a Salmon Salad Loaf. Be sure it comes to the summer aprty.

Scoop out the center of a loaf of bread leaving one-half inch side walls and bottom. Fill with your favorite salmon salad. Spread outside of loaf with the following mayonnaise mixture:

Soften one tablespoon plain gelatin in one tablespoon of vinegar and dissolve over hot water. Slowly combine dissolved gelatin in mayonnaise. Add teaspoon cayenne pepper and ½ teaspoon Worcestershire sauce.

Spread mixture over loaf and garnish with slices of hard cooked egg. Refrigerate 12 hours before serving. Yields 8 servings.

Lowly Wiener Becomes Real Party Attraction

Hot dogs are removed from the picnic class but good, after this treatment! Select extra large wieners, split down the center after cooked. Spread with mustard and top with monosodium glutamate seasoned mashed potatoes.

Or if you feel partyish, squeeze potatoes out of a pastry decorating bag. Cover with grated cheese and pop into broiler until cheese melts.

Adds Gourmet Touch

Whole cloves and cooking wine will add a gourmet touch to canned consomme. To a medium-sized can of clear consomme, add one teaspoon of cooking sherry and two or three whole cloves. Heat for about fifteen minutes and serve.

PEACH BAVARIAN PIE—Cooling as a dip in a crystal clear lake, this Peach Bavarian Pie is a perfect dessert for August meals. Fresh peaches are folded into a Bavarian Cream. The filling contrasts well in color and texture with the chocolate crumb crust.

Indians Gave Man Corn; America Roasts It in Foil

By JANET ODELL
(Pontiac Press Food Editor)

Wherever civilization has gone and where maize will grow, there you will find the fields of waving corn. To us Mid-Westerners the field of corn is a commonplace sight, so commonplace that we seldom give it a second thought. During the all too short season when corn is ripe, we enjoy it thoroughly, yet who of us ever questions its origin.

According to the book, "Foods America Gave the World," corn is so old that its beginnings are lost in antiquity. Long before Columbus invaded the new world corn was a domesticated grass, one that was and is absolutely dependent upon human beings for cultivation. There is no such thing as wild corn. Left to itself it would die out completely. Though we have developed some 900 new breeds, there isn't a single true variety that the pre-Incan races hadn't cultivated centuries ago.

Furthermore, the white man has been able to discover only one or two ways of serving corn that the ancients did not know. Corn flakes is one example, but popped corn, roasting ears, sweet corn, grits and hominy, corn pudding, stewed corn, cornmeal mush, Johnny cake — all were popular dishes in use by the Indians.

Let us now get back to modern summer eating. Any farmer will tell you that the ideal time to pick corn is just after you put the water on to boil. That assures perfect freshness. We realize everyone is not fortunate enough to have a corn patch., So get the freshest corn you can and try some of the following outdoor ways of cooking it.

Roasted Corn

Leave husks on corn. Dip each ear in water briefly, wrap in aluminum foil, seal with the drugstore fold and place on coals of open fire. Corn will steam in its wrappings and emit a heavenly odor in a short time. Cook 15 to 20 minutes, turning often.

Grilled Corn

Husk corn and place on outdoor grill. Be sure the fire has burned down to coals; there must be no flame. Brush with melted butter, turn often, and watch carefully. Corn will get golden brown if properly done.

However you may decide to fix sweet corn the next time, top to recall with gratitude those prehistoric farmers who tamed this "grass we call corn" and developed it into one of our most delicious vegetable treats.

Sweet Potato Mix Will Serve Four

An interesting dish to serve for a luncheon is Yam Souffle. It makes use of the golden potatoes in an entirely different manner.

Louisiana Yam Souffle

4 eggs, separated
1¼ cups mashed, cooked yams
1½ tablespoons minced onion
Salt and pepper to taste

Beat egg yolks together until light and fluffy; add onion, salt and pepper to taste. Beat egg whites until stiff but not dry; fold beaten egg whites into yam mixture. Turn into greased 1½-quart casserole and bake in moderate oven (325°) 1 hour, or until souffle is done. Four servings.

Let Tots Make Supper by Cutting French Toast

Vacation-time rainy days can be doubly long for mother and children alike. Let the youngsters help prepare lunch or supper. Even a three-year-old, with holiday cookie cutters, can produce fascinating animals from bread slices. The brown rabbit and the white chickie become French Toast at suppertime. Slightly stale bread will cut easily and make an economical dish.

Growing thyme in your garden? Add a pinch or two to a fish or vegetable chowder.

Cookies Form Crumb Crust

Since It's Served Cold, This Dessert May Be Made Early

A recipe which boasts "no cooking" is a welcome one to summer cooks. This delectable pie can be made well in advance of serving time, eliminating any last minute rush. Once you have tried the chocolate crumb crust, you will find other pies for which to use it.

Peach Bavarian Pie in Chocolate Crumb Crust

Crumb Crust:

1¼ cups chocolate cookie crumbs
⅓ cup (⅔ print) melted margarine

Crush cookies to fine crumbs with a rolling pin. Stir in melted margarine. Press evenly in a greased 9-inch pie pan covering bottom and sides. Chill thoroughly before adding filling.

Peach Filling:

1 cup sugar
1 teaspoon grated lemon rind
1 tablespoon gelatin
¼ cup cold water
¼ cup boiling water
3 tablespoons lemon juice
1 cup crushed peaches
1 teaspoon almond or vanilla extract
⅛ teaspoon salt
2 egg whites
½ cup heavy cream, whipped

Combine sugar and lemon rind. Soak gelatin in cold water, add boiling water and dissolve. Stir in sugar until dissolved. Combine lemon juice, peaches and extract. Add to gelatin mixture and chill slightly. Beat with a rotary beater until light and fluffy. Add salt to egg whites and beat until stiff. Fold gently into peach mixture. Fold in whipped cream. Pour into crust. Chill at least 4 hours. Yield: 6 to 8 servings.

Dietetic Foods More Plentiful

There are over 11 million persons in the United States today who are under doctors' orders to watch their diets very carefully.

Two million of these persons are diabetics who must adhere to a rigid dietary discipline. Food manufacturers are rapidly responding to the needs of these people with increased production of special dietetic foods, particularly low-fat dairy products, foods with low-sodium content, and the use of synthetic sweeteners.

The 1953 pack of canned dietetic foods, including low calorie products, is expected to exceed 10 million cases, which would represent an increase of 100 per cent over the 1951 pack.

In the field of low-sodium foods alone there are already 57 different products, and food processors have been stimulated to increase their production of low-sodium bread, cereal, crackers and milk.

It is to be noted that the processing of low-sodium foods involves far more than the mere elimination of the addition of salt. Among other things, the sodium content of water must be considered; and brine separation and salt soaks must be minimized or avoided.

Strips of peeled avocado and sections of grapefruit or orange make a delicious first-course for a company dinner; serve on salad greens with French dressing.

TERRACE SUPPER BISCUITS — As light and tempting as summer breeze, and just as welcome on a hot summer evening, are these Terrace Supper Biscuits. Frosted with a zippy cheese spread, they're broiled until bubbly.

Keep Picnic Basket Cold With Novel Canned Ice

NEW YORK (UP) — If you want to keep your picnic basket cold or preserve fish and game on a long hunting trip, you can do it with a type of canned ice.

The product consists of a vacuum can filled with a liquid chemical compound.

You simply put the can in the refrigerator, and after the liquid freezes solid, pack it in your picnic or camping kit.

The ice substance keeps food cold for 72 hours and is designed to be the equivalent of three pounds of ice.

The compound may be refrozen and used again.

It's also handy for storing film in insulated boxes during hot weather.

Santa Fe, second oldest city in the U.S., was founded in 1605.

Aluminum Not Hurt

The fact that an aluminum saucepan will turn bright inside when rhubarb, tomatoes and acid fruits are cooked in it, has led some people to believe that some of the aluminum dissolves during the cooking process. This is not so. Only the mineral compounds that caused the saucepan's surface to darken are removed; there is no evidence that these compounds have ever harmed anyone.

Terrace Supper Biscuits Perfect With Cold Meal

On warm summer evenings it's so refreshing to have a light supper on your porch, terrace or out in the backyard. So everyone in the family can enjoy it, the meal should be easy to prepare and serve.

Perfect for an outdoor supper are these Terrace Supper Biscuits. biscuits with smooth cheese spread broiled quickly, they are the ideal companion for a salad, cold cuts, or whatever you choose.

The old rule of serving a hot dish with a cold meal is answered very quickly with these frosted biscuits.

The secret of the frosting is the quick blending of a jar of cheese spread and margarine. Try sharp, smoky, and bacon cheese spread to add variety. They're all delicious.

Use your favorite baking powder biscuit recipe. Make them ahead of time to save last-minute work. Then frost the tops of the cooled Frosted with cheese spread and and broil for a few minutes until the cheese bubbles and is lightly browned.

Sharp or Smoky Cheese Spread

1 bar (½ cup) margarine
1 5-ounce jar sharp or smoky cheese spread
1 teaspoon Worcestershire sauce

Let margarine soften in mixing bowl, then cream thoroughly with mixing spoon. Add cheese spread and Worcestershire sauce and cream until well blended. Yield: About 1 cup or enough to frost three batches (4 dozen) baking powder biscuits.

Bacon Cheese Spread

1 bar (½ cup) margarine
1 5-ounce jar bacon cheese spread
Dash of smoked salt (optional)

Let margarine soften in mixing bowl, then cream thoroughly with mixing spoon. Add cheese spread and smoked salt and cream until well blended. Yield: About 1 cup or enough to frost three batches (4 dozen) baking powder biscuits.

Savory Herb Sauce Dresses Up Salad

A perfect dressing for a salad of cucumber and tomato slices bedded on crisp greens, or a combination salad, is this savory herb dressing. The dressing can be whisked together in a jiffy.

Savory Herb Salad Dressing

¼ cup evaporated milk
¼ cup salad oil (not olive oil)
2 tablespoons wine vinegar
½ teaspoon salt
Few grains freshly ground pepper
1 small clove garlic, peeled
½ teaspoon sweet basil, crumbled
½ teaspoon thyme, crumbled

Measure ingredients for dressing into a jar which holds at least a half pint. Cover tightly and shake vigorously for about a minute.

Chill thoroughly. Before using, remove garlic glove. Makes about 2-3 cup dressing (enough for four salads).

Kansas is the world's largest producer of hard winter wheat.

NEVER BEFORE SOLD IN CANS

Old Fashioned, Home Baked, GRANDMA BROWN'S BAKED BEANS

SOAKED OVERNITE

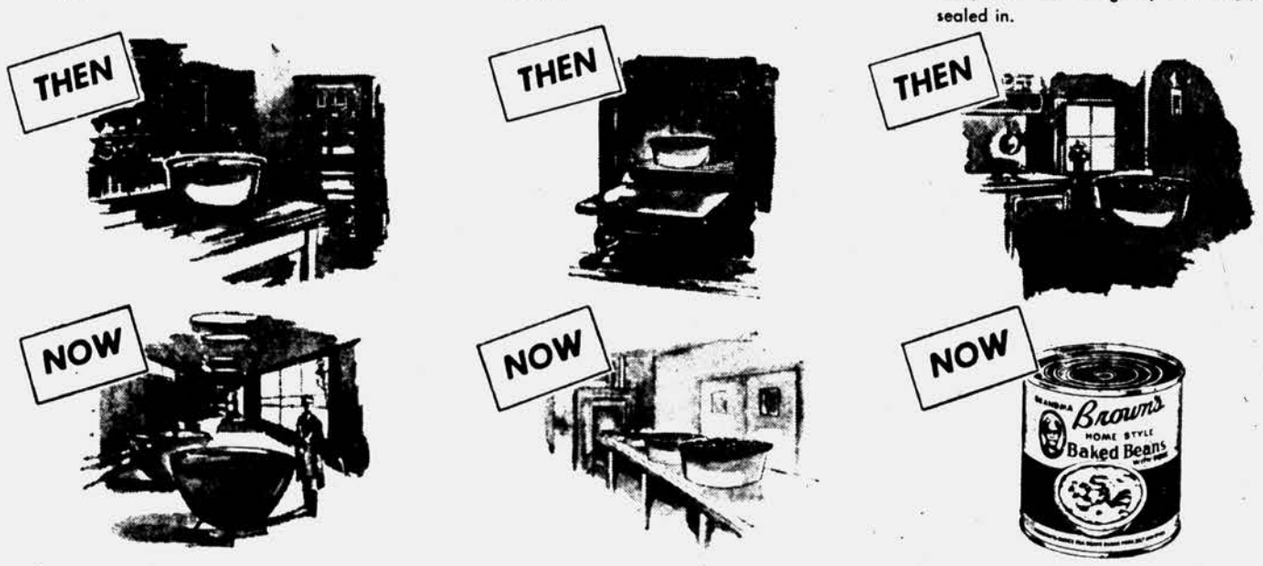
The same painstaking, step-by-step old fashioned method of baking beans is carefully followed in the modern B W B Foods plant. Carefully selected beans are soaked overnight in individual pans to make them plump and tasty.

PAN BAKED

Individual pans are still used to bake Grandma Brown's beans so that true, rich flavor is retained. No impersonal, huge factory-style pans — but real, home-style pans, the kind that Grandma used in her own old-fashioned range.

READY TO SERVE

Here they come, piping hot from the oven! With a golden brown crispy top. Grandma Brown's recipe for baked beans always turned out a dish fit for the hungriest appetite. Today, these same wonderful beans come to you in cans, with all the good, real bean taste sealed in.



JUST LIKE GRANDMA USED TO BAKE!

The story of how Grandma Brown's Home Baked Beans have today become a household word reads like an adventure story. An adventure in good eating, too! In the village of Mexico, many years ago, Grandma Brown would always bake her special-recipe baked beans (which do not include tomato sauce or other seasoning) for Church Suppers and County Fairs, and word started getting around about their wonderful flavor, and deep down goodness. So many people wanted Grandma Brown's generation-old recipe that the idea began to emerge . . . why not give others a chance to enjoy this mealtime treat? Demand kept increasing—and then the efficient method of canning was added so that more and more could enjoy these real home-baked beans. The popularity of Grandma Brown's beans keeps growing. So they've got to be good!

and look! WE'RE GOING TO BUY YOU YOUR FIRST CAN OF GRANDMA BROWN'S BAKED BEANS

Just send in the label to: GRANDMA BROWN'S, Mexico, N. Y., and on the back print carefully, your name, address and the price you paid and your money will be immediately refunded.

COOL COFFEE TRIO—Here's your chance to try out a number of coffee drinks. The Coffeola Cooler at the left combines coffee, cocoa an.. cola. In the center is a double coffee soda, made with coffee ice cream. The mocha frost is light and bubbly.

Cool Coffee Trio Pleases Huge Variety of Tastes

How do you like your cool drinks — dark and zesty, smooth and creamy or light and bubbly? You might choose any member of this cool coffee trio on looks alone, but the big test will come when you sample them. They are perfect examples of the amazing variety of tastes and textures you can base on the lively flavor of coffee.

With such luscious drinks to be made from ingredients readily available in every home, there's no need to regard them as something you can enjoy only when you visit the soda fountain.

You can whip them up right in your own kitchen, whenever you feel in the "coffee cooler" mood.

Coffeola Cooler

Dissolve 1 tablespoon sweet cocoa mix in ¼ cup hot water; cool. Add 1 cup cold, strong coffee; beat with rotary egg beater or electric blender until thoroughly mixed. Pour equal amount in each of 3 tall glasses. Fill glasses with ice-cold cola beverage. Top with whipped cream.

Double Coffee Soda

Put a generous scoop or two of coffee ice cream in each tall glass. Fill glasses with ice-cold carbonated coffee beverage.

Mocha Frost

Combine 2 cups strong, cold coffee, ½ cup chocolate syrup, ½ cup heavy cream and 2 teaspoons vanilla. Pour over ice in 4 tall glasses. Fill glasses with ice-cold sparkling water.

Skillet Sandwich Blends Egg, Ham

Sometimes all you want for lunch on a hot day is a sandwich and a glass of milk. This deviled ham and egg skillet sandwich should be adequate even for a hungry man.

Deviled Ham and Egg Skillet Sandwich

4 tablespoons butter or margarine
4 slices white or whole wheat sandwich bread
1 can deviled ham
4 eggs
2 tablespoons water*
Salt, pepper and MSG to taste
Minced parsley (optional)

Melt about a teaspoon of the butter or margarine in a heated skillet, just enough to grease the bottom. Place bread flat in skillet and quickly brown on one side. Remove to serving platter browned side down. Generously spread each slice with deviled ham.

Melt remaining butter, or margarine, in skillet. Lightly beat eggs, water and seasonings together. Pour into pan and scramble with fork until soft and creamy. Heap spoonfuls of hot scrambled eggs on deviled bread slices, and sprinkle with parsley, if desired. Serve at once while hot and flavorful. Makes 4 servings.

* Using water, rather than milk, makes for more tender eggs.

Popular Package

The DuPont Company reports that the method of packing foods in fractional or inner sealed unit packages is rapidly gaining favor with housewives.

The firm says some of the foods now being sold in fractional packages are crackers, pretzels, ice cream cones, potato chips, brown sugar, breakfast cereal, candies, nuts, dates and several varieties of frozen foods.

To vary French dressing beat in a little chili sauce and some cottage cheese; serve over hearts of lettuce.

Toast Ice Cream

Was there a surplus of cake at the summer picnic? Your leftover angel food, sponge or pound cake will make delicious ice cream sandwiches for the porch supper on the following day. Between slices of toasted cake, place a serving of ice cream or a layer of brick ice cream.

Ice Cream Stays Firm

Serving ice cream for dessert often in hot weather? It's a good idea to chill the serving dishes in the refrigerator at least an hour ahead of serving time to prevent ice cream from softening too rapidly.

Luscious FRUIT Drink

Featured at your favorite food store!

Vitamin C Enriched

Manage the thirst problem at your home, and on outings, the thrifty way—with delicious Hi-C in big handy cans. Less than a nickel a glass. No deposit, no bottles to return. Save carry-home weight, save space in your refrigerator and car. Mothers are always happy to serve Hi-C because it isn't carbonated. But what everyone likes best about Hi-C is the tingling flavor—the wonderfully luscious tang of sun-ripened fruit in Hi-C Orange Drink and Hi-C Grape Drink. They're Vitamin C enriched, too. Take home a supply of Hi-C today. Youngsters love it. So will you!

Not Carbonated—Drink All You Want

FREEZE BARTLETT PEARS—The lady in the picture is preparing Bartlett pears for freezing. She is packing them in jars after dipping them in hot syrup and chilling them in the refrigerator. Try this method as advocated by the fruit growers.

Don't Forget to Freeze Bartlett Pears for Winter

Fresh Bartlett pears are coming into the markets in good supply and of such high quality that we can bask in their goodness and use them in all the ways the family loves best.

And while we're enjoying fresh pears for out-of-hand eating, for summer fresh fruit salads, and for fresh pear pies and other desserts, be sure to schedule time for freezing a supply of pears for winter use.

Bartlett pears freeze very successfully, retaining the delicate orchard fresh fruit. The method for freezing differs from the way in which other fruit is frozen but freezing pears is still an easy and economical way of processing them.

Slices or quarters of pears are dipped in boiling hot syrup before being chilled and packed in cold syrup for freezing.

In selecting pears for freezing, choose ripe but firm pears. They should be yellow and yield to gentle pressure. Wash, pare and core fruit. Cut in quarters, or slices. Dip in boiling 40 per cent syrup for 1-2 minutes, then chill on trays in refrigerator.

When chilled, pack pears into freezing containers and cover to within ½ inch of top of jar with cold 40 per cent syrup to which ascorbic acid has been added.

Forty per cent syrup is made in the proportion of 1 part sugar to 1½ parts water. Use ¼ teaspoon ascorbic acid to each cup of cold syrup. Add ascorbic acid to syrup just before using with a minimum of agitation. Allow head space for expansion and insert crumpled cellophane to hold pears under syrup.

Pears frozen in this way may be used in the salads and desserts we enjoy with fresh pears and as breakfast fruit or a dessert fruit sauce. Use frozen pears quickly upon thawing, while some ice crystals are still present.

Zippy Main Dish Is Tomato Salad

This, like all stuffed salads, makes a lovely plate with simple sandwiches and a few potato chips on the side. Sound cool?

Main Dish Tomato Salad

6 medium tomatoes
1 cup diced luncheon meat
½ cup chopped celery
1 hard boiled egg, chopped
1-3 cup chopped walnuts
1-3 cup mayonnaise
3 tablespoons cream
2 tablespoons vinegar
½ tablespoon salt
Dash pepper
½ teaspoon dry mustard
Dash curry powder

Cut a slice from the top of each tomato and scoop out centers. Sprinkle with salt and place upside down in refrigerator to drain and chill. Combine meat, celery, egg and nuts.

Blend remaining ingredients for dressing and add half to meat mixture. Stuff tomatoes with mixture. Top with remaining dressing and serve on salad greens.

Main Dish Salad Features Herring

The people who live in countries where fishing is the main industry have evolved many, many fish dishes. From Finland comes this suggestion for a delicious main dish salad using herring.

Finnish Salad

To one cup boiled, diced potatoes, ½ cup each, boiled diced carrots and beets, add one cup diced, cooked, leftover meat and one medium, sliced onion.

Mix in bowl and add one chopped herring fillet, ¼ cup spicy french dressing and one hard boiled egg, sieved. Place mixture on crisp lettuce leave and garnish with paprika.

TreeSweet Orange Juice Tastes So Much Better!

Here Are a Few Home Freezer Tricks to Try

If you own a home freezer, you will welcome these freezing tricks.

Freeze fresh herbs—for flavoring stews, soups. Bag small bunches of herbs in cheesecloth. Pack in freezer carton; store.

Wrap freezer packages with colored cord for easy identification; beef with green, pork with red, and so on.

Left-over egg whites can be frozen in foil-lined muffin cups. When set, remove filled foil cups; fold tops to close; pack in a round carton and return to freezer.

Grind frozen cranberries for relish. Juice won't squirt, as when they're ground "fresh."

CRUNCHY COFFEE CAKE—Hot or cold, morning, afternoon or evening, this coffee cake will win praises. Molasses, butter, nuts and rice cereal combine to make a tasty, unusual hot bread. Bake it in round or square pan, or in a one-quart mold.

Hot Coffee Cake Snap to Prepare

Weather or not, you can depend on your family wanting good tasting, appetite-tempting food. There's no need for them — or for you — to settle for cold breakfasts — especially when mouthwatering hot breads can be prepared almost as fast as the morning cereal.

Here's a coffee cake that combines a favorite breakfast cereal with a quick biscuit mix, blending them together with molasses and crunchy chopped nuts.

Make this easy coffee cake for breakfast — or for the perfect afternoon or evening snack. Served as a dessert topped with whipped cream accompanied by iced coffee, it's a perfect flavor and texture blend — and so iron-rich, it's extra-nutritious, too.

Quick Coffee Cake

2 tablespoons melted butter or margarine
⅓ cup light molasses
⅓ cup chopped nuts
1 cup popped rice cereal
2 cups biscuit mix
¼ cup sugar
1 egg
⅓ cup milk

Mix together butter, molasses, nuts, and cereal. Spread around bottom of greased pan. Combine biscuit mix and sugar. Beat egg and add milk. Add to biscuit mix and stir until mixed.

Spread in greased pan over molasses cereal topping. Bake at 400 for 30 minutes or until toothpick inserted in center comes out clean. Turn out of pan while hot. Makes 6 servings.

Serve Filled Pears

Chill large ripe pears in your refrigerator. Then try this. Pare and scoop out the cones. Fill pears with lime sherbet. Serve with icebox cookies. These cookies can be made in advance, kept in wax paper in the refrigerator and sliced quickly, just the right number, and baked in a moderate oven.

Can Unusual Foods Now; Give Them at Christmas

By JANET ODELL
(Pontiac Press Food Editor)

Can your own luxury items. How many times have you wished you could buy that jar of special pickles or unusual marmalade, but the budget said no? This is the time of year to think about such food specialties and to do something about getting them. While you're putting them away for yourself, mentally make out your Christmas list and decide on the lucky recipients of gifts from your kitchen. Put the food in interesting containers that can be reused, store it away until December and get ready for thank-yous.

We read recently of a woman in Texas who puts up hundreds of jars of dill pickles each year, sending them to her friends in lieu of Christmas cards. If you have a pickle or jam specialty, make it up now for later giving.

A relish that is delicious to serve with chicken is made from cherries. Cover pitted red cherries with vinegar. Let stand over night. Drain off vinegar and take cup for cup of cherries and sugar. Let stand for a few days, stirring occasionally. Seal in sterilized jars.

Should you be lucky enough to have a pot of old-fashioned rose geranium, use some of the leaves to add an unusual flavor to jelly.

Rose Geranium and Orange Jelly

1 cup orange juice
¼ cup lemon juice
3 cups sugar
Red vegetable coloring
½ cup bottled pectin
Rose geranium leaves

Strain orange juice and lemon juice through fine-mesh cheesecloth; mix with sugar in large saucepan. Bring to a boil quickly. While mixture is coming to a boil, add enough coloring to tint light rose. Mix thoroughly. As soon as mixture boils, add pectin, stirring constantly. Bring to full rolling boil; boil hard one-half minute. Remove from heat; skim.

Place rose geranium leaf in each of four 6-ounce jelly glasses. Pour jelly into glasses. Paraffin at once. Serve with crackers and cream cheese, fruit salads and custards.

Gingered pears will make a welcome addition to the relish tray or on the fruit salad plate.

Gingered Pears

8 pounds pears
¼ pound candied ginger cut
4 pounds sugar
Juice of one orange
Juice of 4 lemons

Add ginger and sugar to pears. Cover and let stand over night. In the morning add the fruit juices and cook 2½ hours. Seal in sterilized jars.

Ham on Rye

Try this for a club sandwich: Toast rye bread golden, crispy, brown. Then use sliced ham, cheese and tomatoes adding horseradish for flavor.

Mello-Pop Yams Make Savory Dish

Here's a new idea for all you outdoor cooks, be you scouts or just people who like to eat outside. Mello-pop yams use those old favorites, marshmallows, in an original way.

Mello-Pop Yams

6 yams
Salt
Pepper
18 marshmallows

Clean yams and wrap in aluminum foil; place in hot coals and bake 45 minutes, or until yams are tender. Remove from fire and unwrap; split yams and season with salt, pepper and butter.

Place three marshmallows in each split yam and press sides of yams together to melt marshmallows. Serve immediately. Serves six.

Tomato Aspic Easy to Make, Delicious

Tomato aspic looks delightfully cool and tastes delicious. It is so easy to make.

If you have some leftover vegetables in your refrigerator, or wish to substitute cooked frozen ones (chilled, of course), your salad will be good.

Tomato Vegetable Aspic

2 envelopes unflavored gelatin (2 tablespoons)
1 can condensed tomato soup
¼ teaspoon salt
½ teaspoon Worcestershire sauce
½ teaspoon MSG
Pinch celery salt
1½ cups tomato juice
1 avocado, diced
1 (No. 2) can mixed vegetables (2 cups)
1 teaspoon lemon juice

Combine gelatin and tomato soup in top of bouble boiler. Let stand 3 to 5 minutes. Place over hot water; heat until gelatin is dissolved (about 10 minutes). Add salt, worcestershire sauce, MSG and celery salt.

Remove from heat; add tomato juice, avocado, and mixed vegetables. Turn into 8½x4½x2½-inch loaf pan or 1½ quart casserole. Chill until firm. Makes 6 to 8 servings as salad or 10 to 13 smaller slices or cubes for garnish.

Pear Is Fancy Salad

Take either a fresh or canned pear, fill the center half with currant jelly, add your homemade boiled dressing, garnished with chopped nuts and something green. Serve this luncheon salad with little hot cheese biscuits and coffee.

Keep a dampened kitchen sponge handy on baking day with which to wipe off counter tops quickly and easily. The sponge is a help with sticky fingers, too!

LIGHT-A-BIKE DAY — "Safety-conscious bike riders grow into good drivers," might well be the slogan for Rochester's bicycle safety campaign. Set for Sept. 12, the campaign is under the sponsorship of Rochester Police and Fire Departments in co-operation with the National Twist Drill and Tool Co. here. Shown taping bicycles (left to right) above are Fire Chief George Ross, Carla Hash of 124 Glendale, Pete Long of 202 E. Third St., and Harry Little, local businessman and member of the volunteer fire department.

Polio Up, but Is Under '52 Level

Last Week's Total Is High for Year, but Far Below 1952 Rate

WASHINGTON (AP) — Infantile paralysis continued to increase last week but the total of 2,253 new cases reported to the Public Health Service was 35 per cent below the 3,501 in the corresponding 1952 week.

Last week was the first time this year in which the weekly total of new cases has exceeded 2,000, the health service said today.

For this year, since the seasonal low point about April 1, there have been 14,464 cases compared with 18,637 in the similar 1952 period. For the calendar year 1953 there have been 15,978 cases, compared with 19,830 in the similar period a year ago.

A record 57,626 cases were listed in preliminary reports for 1952.

The health service said new cases reported last week in New England exceeded those in the previous week by 50 per cent and in the Mountain States there was a 50 per cent increase.

In the Middle Atlantic and West North Central states there was a 6 per cent increase, in the East North Central states totals were up 26 per cent, and in Pacific Coast states there was a 10 per cent increase.

The South Atlantic state totals remained about the same as in the preceding week and there was a decrease in the South Central states.

Over the nation 28 poliomyelitis deaths were reported last week, as follows: Michigan and Minnesota, 7 each; Ohio 4, Oklahoma 3, Virginia and California, 2 each; and one each in New York City, Illinois and Colorado.

Pontiac Press Photo

FARMER CHAIRMAN — Wallace Hodges of 1644 Brewster road, Rochester, was selected as chairman of the recently formed Rochester Citizens' Advisory Committee for schools. Caught by the photographer when he was mowing a second cutting of alfalfa, Mr. Hodges operates a 462 acre farm and is the father of two young school-age sons. On one corner of Hodges farm, the former Brewster school, now part of the Rochester Community School District; is located.

Lacks Funds, Ziegler Says

Bridge Being Repaired; Highway Department to Study Situation

ROCHESTER—Hopes in the near future for a wider bridge over the Clinton River and a wider Rochester Road (M-150) were dimmed by a letter from Charles Ziegler, State highway commissioner.

Ziegler said that his department was doing only the necessary repairing to the understructure of the bridge because of a lack of funds.

Rochester officials and the Avon Township Board have requested that the bridge and a portion of Rochester Road be widened to accommodate four lanes in order to relieve a traffic bottleneck on the road.

Ziegler said the bridge should be able to handle the rush of traffic in all but a few days of the year, but if it should become inadequate, it could be widened to a three-lane highway by constructing sidewalks on the outside of the bridge.

However, Ziegler said the State Highway Department was concerned about the conditions and would make a study of them within the next few months.

Councilmen suggested that townspeople send personal letters to the department after hearing the communication.

In other business this week the council:

Awarded a contract for the sewer project on Campbell, Hiel and Fraser Streets to George Landgraf for $5,074. Property owners were told that the cost would be $1 per lineal foot with the owners to be billed on completion of the work.

Received a suggestion from the Planning Commission that the village manager furnish the proper papers to interested parties for petitioning the village to rezone several lots on Woodward Street.

Moved that Manager Slone be authorized to hire an extra policeman.

Placed the ordinance to raise water and sewer rates on second reading with the third reading to be held Sept. 14.

Heard requests from seven residents to rezone portions of two lots on South Street from heavy industry to multiple dwelling and suggested that the residents present a signed petition at the next meeting.

WHAT GOES INTO OUR PRESCRIPTIONS!

Rochester Schools Give Starting Days by Grades

ROCHESTER — School opening schedule for the Rochester Community Schools was announced today by Superintendent Donald Baldwin.

Registration for the junior and senior high school students will be Sept. 10 and 11. Seventh and ninth grades will enroll on Sept. 10.

The 8th, 10th, 11th and 12th grades will report on Sept. 11. All elementary grades will meet for a half-day on Sept. 11 and buses will begin their scheduled runs that morning.

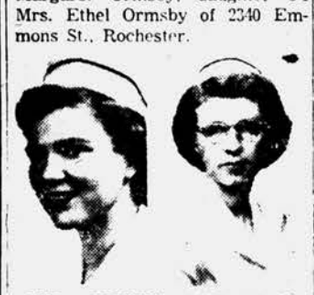
First full day of classes will be Sept. 14 with parents of kindergarten children to be informed by mail which session their children will attend.

Book stores, said Superintendent Baldwin, will be open for book sales for elementary grades from Harrison-Central, Woodward, Avon and Hamilin on Aug. 31 through Sept. 4. High school sales will be ready for Sept. 8, 9, 10 and 11.

2 County Nurses Are to Graduate September Fifth

Two Oakland County student nurses will be among those graduating Saturday, Sept. 5, from Henry Ford Nursing School in Detroit.

The girls are Loraine Coon, daughter of Mr. and Mrs. J. Coon of 2295 Davista Dr., Milford, and Margaret Ormsby, daughter of Mrs. Ethel Ormsby of 2340 Emmons St., Rochester.



MISS ORMSBY MISS COON

Loraine and Margaret will be completing three years of general nursing training in the school and will be graduated as registered nurses.

The girls plan to remain at Henry Ford Hospital after graduation.

Western Knitting Mills Holds Reunion Saturday

ROCHESTER—The seventh annual reunion for former employes of the old Western Knitting Mills here will be Saturday at 12:30 p.m. in Avon Park pavilion.

Families and friends are being urged to attend the picnic which will highlight the affair.

Fishermen Get Pollution Action

Conservation Clubs Say Railroad Waste Killed Dowagiac Trout

LANSING (AP)— Irate fishermen demanded — and got — action from the State Stream Control Commission here last night to stop a recent rash of fish killings caused by pollution.

The commission also moved to force the city of Adrian and industrial plants there to halt the dumping of aluminum wastes in the Raisin River.

There have been complaints that the wastes were polluting the Blissfield water supply.

Representatives of three conservation clubs complained the New York Central Railroad allowed phenol wastes from its roundhouse at Niles to seep into Fly Creek, which feeds into Dowagiac Creek.

Railroad representatives said they were taking steps to take care of the wastes. The phenol was in a compound used by the railroad to clean aluminum parts of locomotives.

The commission authorized preparation of an order to prevent reoccurrence of the pollution.

In the Blissfield case, Dr. C. W. Muehlberger, state health department pathologist, testified that the aluminum wastes, if taken in repeated doses, could cause kidney trouble.

Blissfield has to depend on the Raisin River for its water supply.

The City of Adrian, the Gerity-Michigan Corp., Buckeye Products Corp., Hurd Lock Co. and Bohn Aluminum and Brass Co. all were charged with allowing the wastes to seep into the river.

The commission voted to ask the attorney general's office to prepare a brief directing the City of Adrian to show cause why it should not be held in contempt of a 1949 Lenawee County Circuit Court order forbidding the dumping of untreated sewage and dangerous industrial wastes in the river.

A separate order will be drafted similarly restricting the Buckeye Corp. and the Hurd Lock Co. from polluting the river. The other two companies use the city sewer system and so come under the contempt complaint.

The village of Almont and the Hurd Lock Co. there were charged with allowing cyanide wastes to leak into the Clinton river and cause fish-killings.

The commission also authorized preparation of an order charging that the Reichhold Chemical Co. of Ferndale, the City of Ferndale and the Southeast Oakland County Sewage Disposal District violated instructions to stop dumping wastes into the Ferndale sewer system.

Leukemia Kids Feted at Picnic by Foundation

ROCHESTER — Victims of leukemia and other allied blood diseases, 100 children from all over Michigan were entertained Tuesday at a picnic here.

The children, from such cities as Birmingham, Detroit, Farmington and Royal Oak, were brought to the farm home of Mrs. J. C Pickering on Adams Road. Mrs Pickering is co-chairman of the toy committee of the Childrens' Leukemia Foundation of Michigan.

Pony rides, a hay ride, fish pond prizes and the farm animals were enjoyed by the children.

The East Orion Extension Club assisted the foundation committee in preparing and serving the children a lunch at Avon Township Park. Special attention was given to children who required a salt-free diet.

Leader Dog School Starts Addition

ROCHESTER — Construction is under way on a dormitory addition at Leader Dog School for the Blind at 1039 Rochester Rd.

According to head trainer Fred Maynard, the building will have eight bedrooms and four bathrooms.

At present the school capacity is six students per month, but Maynard said the new addition will double the capacity.

The brick structure will be attached to the present school and is expected to be completed by the first of next year.

County Deaths

Mrs. William Harman

ARMADA—Service for Mrs. William Harman, 70, will be 2 p.m. Friday at the Clifford D. Hensch Funeral Home, Richmond, with burial in Richmond Cemetery. She died Tuesday at Mt. Clemens General Hospital.

Mrs. Louise Dopp

ROCHESTER — Service for Mrs. Louise Dopp, 87, widow of the late Fred Dopp, will be 2:30 p. m. Saturday at Pixley Funeral Home with burial in Mt. Avon Cemetery. She died early today at her home, 1227 John R Rd.

A resident here for the past 50 years, she is survived by four daughters, Mrs. Julia Werth, Mrs. Anna Ross and Mrs. Pearl Day of Rochester, and Mrs. Emma Norway of Dearborn. Eleven grandchildren and 13 great-grandchildren also survive.

Mrs. Emma Marie Pike

FARMINGTON — Service for Mrs. Emma Marie Pike, 85, of 23026 Maple Ave., will be Saturday at 2 p. m. from Spencer J. Heeney Funeral Home with burial in Franklin Cemetery. She died yesterday at a Pontiac hospital after a long illness.

George R. Russell

HUNTINGTON WOODS—Service for George R. Russell, 53, of 10094 Talbot Ave., will be 4:30 p.m. today at Sullivan & Son Funeral Home, Royal Oak, with burial tomorrow at East Jordan.

He died Tuesday at Harper Hospital, Detroit. Surviving is his widow, Emily Louise.

Albert J. Hebherz

ROCHESTER — Rosary service for Albert Joseph Hebherz, 70, will be Friday at 8 p.m. from William R. Potere Funeral Home, Rochester. Requiem Mass will be Saturday at 10 a.m. at St. Mary's Church, Brown City, with burial there. He died Wednesday at a Pontiac hospital.

Surviving are two sisters, Mrs. Isabelle Picking of Detroit, and Mrs. Rose Hubner of Rochester.

Wallace Hodges, Chairman

Rochester Man Confident of Solving School Issues

"The schools are everybody's business," declares Wallace Hodges, chairman of Rochester's Citizens Advisory Committee for Schools.

Named this week at a mass meeting of citizens to head this new group, Hodges will work with a 15-member committee representing the original districts now combined in the Rochester Community School district.

"Although much of this is new to me, I feel that this committee will want to study thoroughly our crowded school situation, try to get the pulse of the community as to what they want to do about it and prepare a recommendation to be presented to the board of education," Hodges said.

A farmer who has 462 acres under cultivation at 1644 Brewster road, he believes that a sound education is every child's rightful heritage and that it provides the foundation for his entire future.

"Everyone is concerned about their schools, but when you have children of your own facing half-day sessions, you suddenly come face-to-face with the reality of this problem," said Hodges.

Hodges turned down a career in the industrial world for one of scientific farming. He has a masters' degree in economics from Dartmouth.

Stating that he feels the committee will solicit the help of all civic organizations in town in solving the school problem, Hodges pointed out that basically he is sure everyone is interested in providing a good education for the community's youngsters.

"Just what method the community wants to employ is up to us to find out and up to the citizens to help furnish this information," he said.

In reviewing the rapid growth of citizens' committees from coast to coast during the past eight years, Hodges said it is a healthy sign that people are interested in their schools.

"They are constructive organizations whose one object is aid for the schools. Rochester's committee is representative of all interests and I am sure that with community assistance, we can find a solution."

Hodges will preside at his first meeting in the Rochester School tonight when they will set up the study policy.

School building bond issue defeats twice this summer prompted the formation of this organization.

Garden Club Plans to Open Fall Season

ROCHESTER — The Rochester Garden Club will open the fall season with a meeting Sept. 15 in Avon Memorial Library.

"New Trends in Landscaping" will be the topic of featured speaker Mrs. Frank R. Chapman. She will also display pictures on the subject.

An added feature of this year's programs will be a roll call on topics of the day.

County Calendar

Rochester

WSCS Executive Board, St. Paul's Methodist Church, will meet Wednesday in the Church House at 11 a.m. The regular meeting will follow in the church basement with a dessert lunch at 1:30. Mrs. Lewis Crissman will be in charge of entertainment.

Displays Paintings at Waterford Home

WATERFORD TOWNSHIP—Paintings completed during the past six years by Albert Richmond of 6606 Highland Rd. went on display today at his home.

The show, which will run through Sunday, will feature portraits, landscapes and many other works will begin at 10 a.m.

Open to the public, the show at 6 p.m. daily.

A resident of this area all his life, Richmond, 43, has been painting for about 20 years.

But It's Really Very Simple

Spanish Family Names Take Bit of Explanation

MEXICO CITY (AP)—Names in the Spanish style seem to confuse Anglo-Saxon visitors more than any other single feature of Mexican life.

Yet the explanation is very simple: The name of the father's family comes first, then the name of the mother's family.

* * *

For instance, President Adolfo Ruiz Cortines is the son of a man named Ruiz. His mother's family name was Cortines. In old Spain, his name would be "Ruiz y Cortines" but the "y," meaning "and" is seldom used here.

* * *

Whether or not to use the double name in addressing a man depends on his personal choice. The President prefers to be called Ruiz Cortines; former President Miguel Aleman never used his mother's family name of Valdes.

Sometimes a man will use only the initial of his mother's name, giving rise to such names as Onofrio Martinez O.

The big difficulty comes when a family decides to keep on using the name of both mother and father. This can give rise to such lengthy names as one which appeared in the news recently:

* * *

"Senora Maria Teresa de la Fuente Parres y Fernandez del Rivero Viuda de Gonzalez."

Her Christian names are Maria and Teresa. One of her male ancestors was named "de la Fuente" and he married a senorita Parres. The children of that marriage decided to continue using both names. Thus her father's family name was "de la Fuente Parres." Her mother's mother may have been a senorita Fernandez. She married a man named Rivero, making her name legally Fernandez del Rivero.

* * *

Maria Teresa, when she was born, thus became a De la Fuente Parres y Fernandez del Rivero. In due course, she married a man named Gonzalez, making her legally "Mrs. Maria Teresa de la Fuente Parres y Fernandez del Rivero de Gonzalez." A married woman keeps her maiden name, merely adding the word "de" (of) and the family name of her husband.

When the husband dies, she is no longer De Gonzalez. She becomes "Viuda de Gonzalez"—the widow of Gonzalez. This rule does not apply to a man—he never becomes viudo (widower).

It's really very simple although a long name does have to be parsed like an exercise in grammar. At the same time, the long name does throw quite a lot of light on family history.

Carpenters May Rejoin AFL

Hutcheson-Meany Talk Could Herald End of Union Rift

WASHINGTON (AP)—A two-week-old secession of the powerful Carpenter's Union from the AFL may soon come to an end now that William (Big Bill) Hutcheson, long the union's top man, is suing for peace.

It was learned that Hutcheson already has conferred with AFL President George Meany about bringing the 822,000-member union back into the AFL fold, perhaps before the AFL's annual convention opens in St. Louis Sept. 21.

* * *

Bill's son Maurice, who became Carpenters Union president early last year, suddenly pulled the union out of the AFL at the AFL Executive Council's meeting in Chicago two weeks ago.

* * *

The secession was a protest against the AFL agreeing to a "no-raiding" pact with the CIO. Maurice Hutcheson said the AFL itself hadn't yet set up a system for settling disputes between its own unions.

Meany said at the time he didn't believe this was the real reason, adding that the carpenters were at the root of many of the troubles between AFL unions anyway.

Big Bill, as first vice president of the AFL, was long reported to "run things" on the council when the late William Green was AFL president. Meany succeeded Green as AFL chief last fall and this was the first clash he and Big Bill had.

Employment and Pay Both Go Up in Britain

LONDON (AP) — Employment in Britain went up last month—and so did wages.

The Ministry of Labor reported that only 272,700 persons were out of work in mid-July, 25,100 less than the previous month. Weekly pay increases totaling 207,000 pounds ($579,600) were handed out to 1,134,000 workers during July.

POOR BOB!—The whole Bob Crosby clan planned a Honolulu vacation this year and all of them made it . . . except Bob who stayed to rehearse for his many radio and TV commitments. Going up the stairs are Mrs. Crosby and baby Junie Malial, Cathy 13, Steve 5, Bob 8, and Chris 10. But Bob caught up with them early this month.

Four Alike Tops, Bing Quips Back

Bob, 18 Years in Show Business, Has Two Girls and Three Boys

NEW YORK—When Bob Crosby, star of television's new afternoon musical series, the "Bob Crosby Show," welcomed his second daughter, Junie Malia, to his hearth, he wired brother Bing: "Now I have two girls and three boys. . . a full house. Try to top that!"

Bing, father of four boys, wired back: "Check the poker rules, son. Four of a kind still beats a full house!" Bob was really topped that time, but after all it's hard to get a comeuppance on the smooth, sharp-brained Groaner.

Bob Crosby doesn't usually come out on the short end like this in his give-and-take on and off the air. He has a flair for repartee and other comedic subtleties.

Like Bing's, his funmaking is good-natured and happy-go-lucky, and it's become his trademark as one of the nation's leading batoneers and broadcasting stars.

Bob Crosby has been a show business figure for the last 18 years. He also is a major recording artist. On television he has been a guest star on Television's "Jack Benny Show," the "Alan Young Show" and other programs.

Off the air, he has been a stellar attraction with his orchestra in vaudeville, nightclubs and leading national festivals, concerts, and many outdoor events.

Bob, the youngest of five Crosby sons, was born George Robert Crosby in Spokane, Wash. At Gonzaga University in Washington State, he gained an early taste of fame as a successful all-around athlete.

In 1935, eleven New York music makers approached Bob Crosby with an offer to lead their new band. This marked the start of the famed Crosby Bobcats, featured on the new "Bob Crosby Show." By 1938, the group had hit big time, racking up play dates at swank supper clubs and night spots throughout the country.

Later the Bobcats moved on to Hollywood, where they appeared in such films as "Let's Make Music," "As Thousands Cheer," "See Here, Private Hargrove," "Pardon My Rhythm" and many more musical hits.

Crosby disbanded his famed Bobcats in 1942. Later he reassembled them for a Dixieland Concert which made musical history in the Los Angeles Shrine Auditorium.

Interested in all sports, he concentrates mostly on swimming, golf and handball. For relaxation away from the microphones and recording sessions, he enjoys participating in "bull-sessions" with musician friends.

Bob is six feet tall, has dark brown hair and blue eyes. He and his family — wife June and their children,—make their year-round home in Brentwood, Calif., near Hollywood.

Canadian Seafarers to Have Strike Vote

MONTREAL (AP)—The AFL International Seafarers Union called last night for an immediate strike vote among its 8,000 Canadian members after rejecting an arbitration award in a wage and hours dispute.

A walkout in the union's dispute with four companies operating 300 vessels would tie up most Canadian Great Lake and East Coast deep-sea shipping.

Children Are Given Polio Inoculation

MARION, Va. (AP)—More than 2,000 Smyth County children — 2 months to 9 years old — were slated to get the needle today as health authorities continued mass inoculations of gamma globulin in an effort to check an outbreak of polio that has resulted in 42 cases in about a month.

A total of 4,577 youngsters were given shots yesterday as the inoculations began at two clinics. The disease is believed to have broken out in Smyth County as a result of last month's epidemic in the adjoining area of Washington County and Bristol, Va.-Tenn.

James Doolittle Dedicates Plaque Atop Pikes Peak

COLORADO SPRINGS, Colo. (AP)—"Quality" is the decisive edge in the present race for superior aircraft and armaments, Lt. Gen. James H. Doolittle said at ceremonies atop Pike's Peak dedicating a bronze plaque to the late Dr. Sanford A. Moss, inventor of the turbo-supercharger.

The first test of the turbo-supercharger was carried out on 14,110-foot Pike's Peak in August 1918.

* * *

"Air supremacy can only be achieved by consistent, long-range scientific and technical programs of design, planning and development," the retired Air Force general declared yesterday.

* * *

The bronze plaque is attached to a five-ton boulder near the spot where General Electric Co. scientists and Air Force officers tested the supercharger, a device that enables engines to operate at high altitudes.

Saves Children, Tires; He's Reeled to Safety

SARASOTA, Fla. (AP)—An exhausted swimmer who had just saved his two daughters from downing was himself saved yesterday by a fisherman who made a perfect cast from the beach.

Chester Fisher, 29, of Sarasota grabbed the line, wrapped it around his wrist just before losing consciousnes, and the fisherman reeled him in to safety.

Although there are water falls higher and wider than the Niagara which sometimes carry larger volumes of water, there are no falls as high which carry as much year-around volume as Niagara.

$35 Million Estate

CHICAGO (AP)—The estate of Stanley R. McCormick, youngest son of Cyrus McCormick, inventor of the reaper, was placed at 35 million dollars in a final accounting filed yesterday in Cook County Court. The accounting was approved by George L. Kandlick, assistant PRobate Court judge.

Stamp Stealing Strange Trade

No One Knows Where Thieves Rid Themselves of Valuable Loot

NEW YORK (AP)—A stamp thief plies a mysterious trade. Nobody knows for certain what he does with his loot.

Police and stamp dealers know he is a active. In 10 years, more than one million dollars worth of valuable stamps have been stolen. Very few have been recovered.

* * *

Peter G. Keller, executive officer and secretary of the American Stamp Dealers Association, believes stamp thefts are organized by a ring which will steal anything. He says:

* * *

"These are not merely stamp thieves. They probably are cleverly directed, well-organized gangsters who also steal furs, diamonds and anything else of value."

Keller thinks stamp thieves may have the help of philatelic experts, who help direct robberies. They are the ones, he says who keep a close watch on a dealer's shop, noting where the more valuable items are kept. Then they relay the information to the ring.

That's where the safe crackers step in. They break into a stamp shop, jimmy the safe and make off with the loot. In some cases, complete collections have been stolen from dealers' shops.

* * *

This same method of operation, repeated time after time, is what leads Keller to think there's an organized ring.

One of the biggest difficulties facing investigators is the ease with which a collection can be broken up and sold piecemeal. Then it's almost impossible to identify a given stamp as having been stolen. Keller thinks some stamps are sold in foreign countries, and may even come back to the United States as part of other collections.

GOING HOME—Philippine President Elpidio Quirino, weary after hospitalization in Johns Hopkins Hospital, is pushed into a hotel lobby by a bellhop after his arrival in San Francisco. He will spend five days in San Francisco and then return to his homeland to campaign for re-election.

Assault Charges Dropped Against Adolph Spreckels

COSTA MESA, Calif. (AP)—Adolph Spreckels II, sugar fortune heir, won dismissal of charges of assault upon his ex-wife Kay Williams, but the case may be reopened.

The court dismissed the charge when Miss Williams failed to appear as the complaining witness yesterday. But Dep. Dist. Atty. J. Parley Smith, who said Miss Williams was too ill to come, said he would refile charges, perhaps in a week or 10 days, when she has recovered.

Miss Williams, former actress, is said to be suffering from a severe concussion. Spreckels, 41, was arrested last Thursday on her claim that he knocked her down and beat her with one of her own shoes after an argument over custody of their children. She was his fifth wife.

There are about 3,000 cross ties per mile of railroad track.

Radio Pioneer Expects Color TV in 2 Years

HOLLYWOOD (AP)—The grand old man of electronics, Dr. Lee de Forest, is 80 and fuvl of confidence for the future of television and radio.

The inventor of the radio vacuum tube, at his birthday party yesterday, predicted network color television by 1955 and said lines will soon be eliminated from TV

He presented the annual Lee de Forest award to Joyce C. Hall, president of Hallmark Cards, for the firm's radio and TV dramatic series which last year included Maurice Evans' two-hour production of "Hamlet." The award is for cultural achievement.

Seeing is just as much an acquired art and skill as dancing or playing the piano, says the Better Vision Institute.

San Antonio Families Report Ball Lightning

SAN ANTONIO, Tex. (AP) — The Weather Bureau said a phenomenon which scared several people here yesterday was apparently ball lightning, described in the dictionary as "extremely rare."

Witnesses agreed it was six feet above the ground, about the size of a watermelon, round, glowed like fire, and then exploded with a blast that sent sparks flying above the heads of several terrified children. It happened just above a bush in the driveway of Mrs. Everett Barnhill, witnesses said.

Dies in Coma

ROCK HILL, S. C. (AP)—Mrs. Rosa McFadden, 74, in a coma for two years after an automobile accident, died here yesterday. She never regained consciousness.

GI Claims 1,700 Soldiers Died in One Prison Camp

BIRMINGHAM, Ala. (AP) — An Army sergeant said last night that 1,700 American, British and Turkish prisoners died of starvation or were killed by brutal Chinese guards in the prison camp where he was held.

Sgt. Ellis C. Jackson, who survived a 326-mile death march to Prison Camp 5 in North Korea, told of being tortured because he refused to sign a statement that he believed in communism.

Lucky Foul Ball

BRISTOL, R. I. (UP)—John P. Andrade, an outfielder on the Bristol High School baseball team, chased a foul ball during a recent practice session and found $15 cached near Guiteras Athletic Field.

Ex-Chisox Players Haunting Former Employers

Alpena Gridder Stars in Prep All-America Tilt

Dave Kaiser Runs and Punts East to 22-13 Win at Memphis

MEMPHIS, Tenn. (UP) — The East, sparked by the power running and booming punts of Dave Kaiser of Alpena, Mich., kept its All-America high school winning streak Wednesday night with a 22-13 victory over the West.

Kaiser, a 1952 all-state choice, didn't score a touchdown but his offensive show was one of the highlights as the Easterners swept to their fifth straight victory in the annual series.

Kaiser, who has enrolled at Notre Dame, nearly hit the scoring column in the second period but was dragged down on the four-yard-line after a 31-yard sprint. On the next play his teammate, John Black of Drew, Miss., fumbled and the West recovered to end the threat.

East jumped to a two-point lead in the first period when Pete Cook of Alexandria, Ala., nailed Ronnie Knox of Santa Monica, Calif., in the end zone for a safety.

Kaiser, who set the Westerns back with punts twice in the first period, had his third attempt blocked in the second period and it resulted in the West's first touchdown.

Another of Kaiser's punts led to the first of two TD's scored by the East in the fourth period. He booted to the West three-yard-line where the ball was received and fumbled. Dan Coyle of Birmingham, Ala., scooped it up and scored.

Another drive was sparked by a pass from Blalack to Kaiser to the three from where Paige Cothren of Natchez, Miss., plunged over four minutes from the final whistle.

Harold (Red) Drew of Alabama coached the Easterners, while the losers were piloted by J. B. Whitworth of Oklahoma A & M.

Keith's 1-Hitter Wins for Sports

D&W Club in Top Spot After Win Over Drug 9 at Drayton

Dick & Wes Sports moved into the driver's seat in the Waterford Township Softball league playoffs by handing Drayton Drug a 3-0 defeat Wednesday night at Drayton Plains.

Again it was one-hit shutout pitching that sparked the Sports nine.

Harland (Fat) Keith struck out nine and walked only one in registering the victory. Lone hit came in the third inning, a single by Bob Turnbull.

D&W tallied all its runs in the first inning on five singles and a hit batsman. Don Herr paced the winner's seven-hit attack with a single and triple.

Dixie Recreation won by forfeit over Richardson Dairy in the loser's bracket game. It was Richardson's second loss, eliminating them from the playoffs. No action is slated until next week in the two-game knockout test.

Baseball Wage 'Bulge' Gone

By GAYLE TALBOT

NEW YORK (AP)—Could it be that our baseball players, once considered the most fortunate of muscle merchants, have suddenly awakened to the fact they no longer have a monopoly on making money and that they might even have been smarter to have concentrated on another form of athletic endeavor, say basketball or emotional wrestling?

* * *

The thought would have been silly a few years back, but it isn't now. Something has caused the rank and file of big leaguers to feel that their pay is not what it should be. They have broken every tradition of the game by hiring a lawyer to voice their demand for a better slice of the gravy, among other things.

The average ballplayer can read the sports pages, and it has not escaped him that, for the time and energy expended and the money involved at the gate, his salary is not keeping pace with that paid in other and newer branches of professional sports.

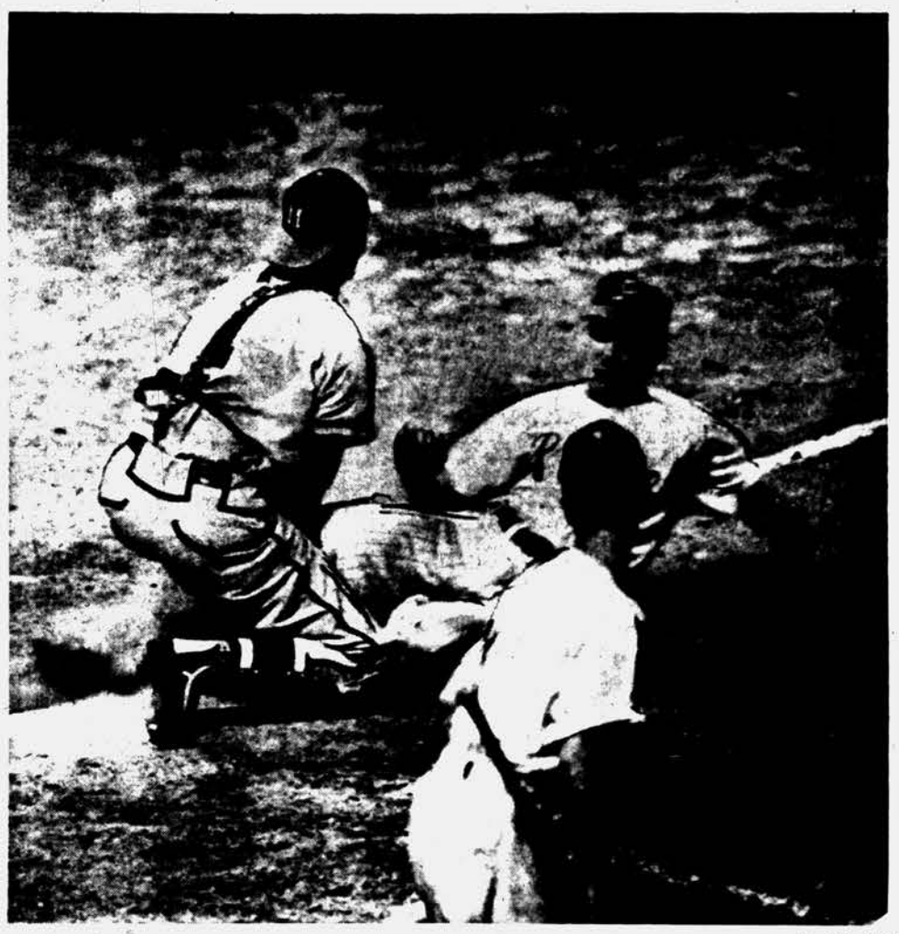
* * *

The present minimum, certain to be raised, is $5,000 and the average rookie can expect to make little more than that his first season. We learn, by comparison, that no rookie in the National Basketball Association is paid under $6,500, and that if he is a real tall boy he is certain to draw at least $10,000 in his first season.

* * *

He sees the pro basketballer and the pro footballer step right from the college campus into a salary perhaps bigger than his own. He knows that their seasons are not as long as the baseball grind, and that they will have that much additional time and opportunity to make outside money.

It is small wonder that the baseball player, especially if he isn't a New York Yankee or a Brooklyn Dodger and thus has no chance at World Series share, has looked around him in recent years and begun to do some tall thinking.



AP Wirephoto

TAGGED AT HOME — Ted Kazanski, Phillies' bonus rookie shortstop from Detroit, is tagged out at the plate by Milwaukee's Del Crandall after Kazanski came in from third on Earl Torgenson's fly to center fielder Bill Bruton in the fourth inning of Wednesday's game at Philadelphia. Bruton's throw after the catch was well in hand as Kazanski slid in. Phillies won, 6-5.

Feller Thinks Players Need Right to Bargain

Bob Dislikes Restriction on Off-Season Baseball Employment

CLEVELAND (AP) — A union isn't the answer, he says, but Bob Feller believes baseball players "desperately need some way of sticking up for their rights to work as they see fit in their chosen profession."

"I'm talking about these restrictions on when and where a major leaguer can play ball out of the regular season," the veteran Cleveland Indian pitcher told a reporter.

Feller, long a vigorous players' representative for his teammates, described big league players as "bound 365 days a year by the teams for which they work a few months a year."

"Obviously, a union isn't the answer because ball players use a basis of individual performance when they bargain for salaries. But somehow we ought to get the same freedom to work that other Americans have."

"Suppose you were a lawyer," Feller said. "Would you think it fair if you were told you could practice law just so long each year?

"It's a matter of the almighty dollar. Like everyone else, baseball players like to earn as much as they can, while they can."

Feller said he didn't wish to comment yet on the recent action of Ralph Kiner, National League player representative, and Allie Reynolds, official spokesman for American Leaguers, in delegating attorney J. Norman Lewis to act in the players' behalf with club owners.

"But at the worst, it can't hurt anything," he said.

Robby, Philley Help Keep Hose Far Behind NY

A's Beat Chicago Club for 12th Time; Castoffs in Starring Roles

By ED CORRIGAN
(AP Sports Writer)

Want to know one of the big reasons why the Chicago White Sox are languishing 10½ games back in second place today instead of fighting it out with the New York Yankees for the American League pennant?

The answer is none other than the poor, old Philadelphia Athletics, loaded with a bunch of ex-Pale Hose players who are coming back to haunt Paul Richards and his hirelings.

The A's have beaten the Sox 12 times against 8 losses. On the other hand, they've won only 5 from the Yanks and dropped 15. If the White Sox had been able to do as well against the A's as the Yanks did, they'd be just 3½ games out of first place.

In the last two days, White Sox castoffs have taken care of their former mates very emphatically.

Yesterday, the A's beat the Sox 10-8.

Who did the bombarding? Eddie Robinson, who was traded for Ferris Fain during the winter, hit a home run and Dave Philley, who put in four campaigns with the Sox, hit a home run and two triples to knock in two runs.

The White Sox protested yesterday's loss because Philley was given a triple when pitcher Mike Fornieles' glove flew off his hand while he was trying to field a grounder. The rules give a batter an automatic triple if a fielder throws his glove at the ball. The Sox claimed the ball knocked Fornieles' glove off.

Fornieles was knocked out in the fifth and took the loss while Alex Kellner, who went eight innings for the A's, got credit for the triumph.

Elsewhere in the American League, the Yanks nipped the Detroit Tigers 5-4 and the Cleveland Indians polished off the Washington Senators 9-5. The St. Louis Browns and the Boston Red Sox were not scheduled.

In the National League, the Chicago Cubs pummeled the Brooklyn Dodgers 13-4; the New York Giants clobbered the St. Louis Cardinals by an identical 13-4, and the Philadelphia Phillies edged the Milwaukee Braves 6-5.

Four home runs by the Indians made the task of Dave Hoskins and Art Houtteman easy. Harry Simpson, Jim Hegan, Larry Doby and George Strickland all hit for the circuit against the Nats and their blows accounted for six runs.

Karl Drews and Jim Konstanty teamed to tame the Braves for the Phils. The winners collected 16 hits, including a two-run homer by Del Ennis.

Pontiac Press Photo

SURVEY WORK — Tom (Arky) James (left) and Vern Keebaugh look over the improvement work taking place at North Side Softball park. Graders are being used to rebuild the infield. Outfield grass will be sown and a fence already has been constructed. Beaudette Park and Wisner Field also are slated for work within the next month as part of the Pontiac parks and recreation department's general fall maintenance program. James and Keebaugh toil as groundskeepers for the department.

Worsham Signs Rich Exhibition Pact With May

'World' Title Winner to Receive $35,000 for 35 Shows

CHICAGO (AP) — Lew Worsham, PGA's current top prize money winner with $32,007, has signed a $35,000 golf exhibition contract with promoter George S. May.

Worsham boosted his income by $25,000 with a 140-foot eagle wedge shot to win May's 1953 "world championship" at Tam O'Shanter Aug. 9. May, the Tam promoter, said Worsham's exhibition contract for one year guarantees the Oakmont, Pa., professional 35 exhibitions at $1,000 each, plus expenses for each event.

Figures released by the Professional Golfers Association yesterday show Doug Ford is second among the money winners with $21,986, followed by Lloyd Mangrum with $20,636; Cary Middlecoff with $18,246, and Chandler Harper with $17,776.

Kroll Favorite for Hartford Insurance Open

But Unknown Moore Qualifies at 63; Walt Burkemo in Field

HARTFORD, Conn. (UP) — Defending Champion Ted Kroll was the man who had to be ranked as the favorite today as a field of 150 teed off in the first round of the Insurance City Open Golf Tournament.

But dark-horse Joe Moore was sure to attract just as large a gallery.

Moore, who had to qualify to play because he's not yet a full-fledged member of the PGA, whacked three strokes off the Wethersfield Country Club course record Wednesday with an eight-under-par 63.

The spectacular performance by Moore, who is pro at a course in White Plains, N.Y., bettered the course mark of 66, which was equalled during last year's tournament by Skee Riegel of Tulsa, Okla.

Kroll, skinny shotmaker from New Hartford, N.Y., captured the inaugural presentation of this $15,000 tourney last year with an 11-under-par 273 for the 72-hole distance.

Riegel is back again this year, as are the two men he tied for second place—Earl Stewart Jr. of Dallas, Texas, and Lawson Little of Monterey, Calif.

Among the other top-flight stars entered are 1952 U.S. Open Champion Julius Boros of Mid Pines, N.C., former British Amateur Champion Frank Stranahan of Toledo, Ohio, Australian Champion Peter Thomson, PGA Champion Walt Burkemo of Franklin, Mich., Ed (Porky) Oliver of Wilmington, Del., Doug Ford of Harrison, N.Y., Dutch Harrison of Ardmore, Okla., Bob Toski of Northampton, Mass., and Jim Turnesa of Briarcliff, N.Y.

Recruiting Troubles

Climb to Top Hasn't Been Easy for MSC; Big 10 Has Made Going Rough En Route

By ROBERT E. VOGES

EAST LANSING (AP) —Michigan State has two burning ambitions this year: to win the Big Ten championship and go on to the Rose Bowl.

If the Spartans make it, it won't be cause the road to football succes has been strewn with roses. There have been set-backs and frustrations a-plenty in the MSC success story.

In his first year here, coach Biggie Munn pulled a boo-boo.

In a talk before a Lansing luncheon club, Munn was defending Michigan State's Jenison scholarships for athletes—since outlawed.

"At least we don't pay them off under the table like some of the Big Ten schools do," he said. The remark provoked bitter rebuttals from the brethren of the Western Conference.

Conference schools might forgive —as they apparently did when Michigan State was voted a membership—but they didn't forget. Although the Spartans were approved for the Big Ten in 1949, they weren't allowed to start playing football as a conference equal until this fall.

"Scheduling difficulties," was the official explanation.

Complaints about Michigan State recruiting tactics make the headlines at least once a year. Most of them come from the direction of Ann Arbor.

Last February, the Big Ten announced that Michigan State had been put on indefinite probation as a conference member. Investigators dug into the activities of the now defunct Spartan Foundation and found the foundation had loaned money to some members of the unbeaten 1951 football team.

Michigan State was publicly paddled for allowing the old grads to help out the footballers.

The NCAA ruling, outlawing the platoon system, has forced a drastic change in the football philosophy at Mchigan State. Munn and his able asistants went to the top through their refinements of the platoon system. In several games he played up to 62 men.

Michigan State still has the manpower. But it will take the game scores to determine whether or not the Spartans can successfully make the shift from the platoon system to two-way football.

STRIKEOUTS — Roberts, Philadelphia, 160; Erskine, Brooklyn, 148; Mizell, St. Louis, 124; Haddix, St. Louis, 113; Spahn, Milwaukee, 108.

WEDNESDAY'S STARS

BATTING—Dusty Rhodes, New York Giants, hit three home runs—the first time this year a major leaguer has accomplished the trick—as the Giants swamped the St. Louis Cardinals 13-4.

PITCHING—Turk Lown, Chicago Cubs, stopped the Brooklyn Dodgers, after relieving Bubba Church in the fifth inning. Cubs went on to win, 13-4.

Cheering Fans Spill Racetrack Benches

HAGERSTOWN, Md. (AP)—Cheering fans set off a chain reaction at Hagerstown Race Track yesterday that caused four benches to topple to the concrete concurse sending 16 persons to the hospital.

Two of the 16 remained at the hospital overnight. A Baltimore newsman present at the track estimated that about 25 more were shaken up in the melee but were not taken to the hospital.

The accident happened during the eighth race. Fans standing and sitting on the last of four benches went into action to cheer the favorites with such gusto that the bench fell forward.

As is did, it spilled the other three benches in succession "like a pile of dominoes," according to a witness.

Campers Didn't Want to Get New Tent Wet!

It looked like rain at Rochester-Utica recreation area one afternoon last week, but area manager Harold Guillaume assured two familes of prospective campers that they'd be safe in their tents and, anyway, it didn't look too much like rain.

Nonetheless, the apprehensive campers kept a weather eye on the sky and eventually decided they'd better pack up and go to a nearby motel.

They explained they didn't think they'd better take a chance on getting their new tents wet.

Two for Lighthill

DETROIT (AP)—Driver Joe Lighthill produced the only double triumph at the Wolverine Harness Raceway last night, winning with Dusty Ginny in the fifth race and Melvin Dale in the ninth.

A crowd of 5,708 passed $268,624 through the mutuels windows.

Twenty years ago — Mac Smith won the Western Open golf tournament with a 282 score.

Former BG and Marine Star on Brown's Roster

PARRIS ISLAND, S. C. (AP) — Bob Schnelker, trying for an end position with the Cleveland Browns football team, caught 39 passes with the 1952 Parris Island Marine eleven. He scored 10 touchdowns and gained 766 yards. He also played basketball and baseball for the Leathernecks.

Schnelker is 6-3 and weighs 205 pounds. He played college football at Bowling Green State U.

It's Time Out!

"You should have seen the one that got away—seven feet tall, if he was an inch!"

Senior, Junior Myles Favored in Tourney

GRAND RAPIDS (UP)—Reggie Myles, Jr., of Lansing, state amateur gold champion, and his father, have filed entries in the Grand Rapids Country Club father-son tournament which will be held here this week end.

The Lansing father-son combination was established as favorite today for the tournament which has nearly 50 father-son combinations entered. It will be a two-ball affair with fathers and sons alternating strokes.

Shoots Double-Eagle

First time a double-eagle has ever been turned in on Bald Mountain's 478 yard, par-5, 18th hole took place first of the week.

According to Ken Wilson of the picturesque layout, Ralph Coin, Pontiac Fisher Body League golfer, banged his second wood shot (a No. 4) to the green. The ball ran up and into the cup for a deuce. Ralph carded a neat 34 for the round.

Record Chance Foiled

Giants' Rhodes Powers 3 Homers Against Cards

By JOE REICHLER

NEW YORK (AP)—Quick now, who is the only major league player to hit three home runs in one game this season?

Eddie Mathews? Mickey Mantle? Ralph Kiner? Stan Musial? Al Rosen? Gus Zernial? Roy Campanella? Nope. Guess again.

Give up? Okay, his name is Jim Rhodes, better known as Dusty Rhodes. Never heard of him? Thats not surprising. Not many fans have. He's hardly played in enough games to merit a line in the batting averages. And his mark is so low you need a microscope to find it.

But yesterday Rhodes was Babe Ruth, Ted Williams and Lou Gehrig rolled into one. In three consecutive times at bat, Rhodes slammed three home runs to drive in five runs and lead the New York Giants to a 13-4 victory over the St. Louis Cardinals.

Rhodes faced a grand opportunity to equal the record of four homers in one game when he came to bat with two out in the eighth inning. But after running up a full count, the southpaw swinging utility outfielder missed a third strike thrown by lefthander Alpha Brazle.

"He threw me a curve," Rhodes complained later. "That so-and-so. Imagine him curving me on a 3-2 pitch? And me expecting a fast one right down the middle."

Rodes is the young man who came up to the Giants in the summer of 1952 and immediately set tongues wagging by pounding eight home runs in 11 games.

Then, as fast as he shot into prominence, he slid into oblivion. It didn't take long for the pitchers to discover his weakness. Inside of two months his batting average had shrunk from .400 to an anemic .250. He hit only two more homers in his next 56 games.

With Monte Irvin recovered from his broken akle, Rhodes rode the bench this season. His nickname, Dusty, became a misnomer since he owned the cleanest uniform on the club. Now, Irvin is out again and Dusty has a new chance.

Elks Bowlers Meet

Members of the Elks Bowling League will confer tonight in the lodge rooms of BPOE No. 810, to talk over plans for the coming winter season. Prexy Oscar Eckmand invited all Elks who wish to bowl this winter, to attend the session, starting at 8 o'clock.

Larry MacPhail's Theory That Pitchers Should Be Judged on Margin of Wins Over Losses Has Merit

By GRANTLAND RICE

NEW YORK — Robin Roberts' desperate effort to become the first 30-game winner since Dizzy Dean turned this festive trick 19 years ago is one of the high spots of the season.

* * *

The Philly star reached the 20-game mark around the middle of August, leaving him six weeks to bag the remaining ten. As pitching with the lively ball is much tougher than it used to be, it is still a question as to Roberts' ability to travel these six weeks at his average pace.

He has shown signs of weariness once or twice lately and the pace may tell if he has to crowd in a few extra dates.

* * *

Which counts most—the number of games won or the winning percentage? Larry MacPhail, a very smart operator in almost any sport, says that the margin of wins is all that counts.

* * *

"If a pitcher wins 20 games," he said, "loses 15, he has contributed only five wins to his team. You must take the 15 losses from the 20 victories. I would rather have a pitcher around who won 15 games and lost eight. His winning margin would be seven games. He would leave the team two games better off, seven against five."

Roberts has won 20, lost 10 at this writing while Warren Spahn has an 18-5 record, making him three games ahead of Roberts, according to MacPhail's rating.

For example, back in 1908, Ed Walsh won 40 games and lost 15. That gave him a net total of 25 winning games for the year. In 1904 Jack Chesbro won 41 and lost 12. Jack finished with a margin of 29 games that season. In 1913 Walter Johnson won 36 and dropped seven. Johnson also had a margin of 29 victories.

* * *

"This is the system pitchers should be judged on," MacPhail says. "A pitcher who has won 21 games and dropped 20 has actually contributed one game to his team. The fact that he won 21 is offset by the 20 losses."

* * *

There is much logic to this idea.

Very few pitchers in a complete season now have a winning majority of 10 games. It would be an incredible event to have any one approach the records of Walter Johnson and Jack Chesbro with 29 net victories for one year.

Dizzy Dean's top mark was made in 1934. He won 30 and lost seven, giving him a net total of 23 games. Hal Newhouser one season won 29 and lost nine, which was 3 games below Dean's mark.

* * *

Before pinning too many laurels we should take up the case of the real modern leader. His name is Robert Moses Grove. In 1931 he won 31 games and lost four. This gave him an amazing margin of 27 games.

Stengel Sees Tigers as Improved Club

By JOE FALLS

DETROIT (AP)—Casey Stengel was holding court. The sun scorched the turf in Briggs Stadium but it was cool in the Yankee dugout and Stengel felt like gabbing. That was before the champs handed Detroit a 5-4 licking.

"It's an aggressive team," the wrinkle-faced, 63-year-old manager said. "But it's a question of how much they'll improve."

"You mean the Yankees?" a reporter asked.

"No," said Stengel. "I mean the other side. Over there." He was pointing to the Detroit Tigers' dugout.

"The guy has gone from being ordinary to fair. He knows where to hit the ball."

"Which guy?" the same reporter asked.

"That fellow over there," replied Stengel. (He meant Tiger shortstop Harvey Kuenn.) "He doesn't hit at bad balls. And, listen, he's improved in the field.

"And, over there, they got that guy from the other guys because he can hit some home runs in this park."

"Do you mean Kuenn?" the reporter asked.

"Nope," replied Stengel. "That feller at third base. (He meant Ray Boone, acquired from Cleveland.) He'll field a lot better for you, too, now that he's not on shortstop any more.

"And the youngster out there can throw strikes. And when you can get a kid to throw strikes for you, you're okay."

"Who do you mean this time?" the reporter asked, somewhat exasperated.

"That Miller kid—that's who," replied Stengel. (This time he meant Bob Miller, 18-year-old southpaw.)

"I keep reading in the papers," said Stengel, "that these guys are going to trade some of their kid pitchers. Well, tell 'em to come see me. We'll take some of them."

Yankees swept the two-game series to move closer to their fifth straight pennant.

Clutch relief pitching by Vic Raschi and a leaping one-handed catch by Hank Bauer saved this one for the New Yorkers.

Raschi replaced winner Johnny Sain in the seventh and had to work out of three jams in the last three innings.

Most troublesome was the ninth, when the Tigers filled the bases with one out.

Matt Batts drilled a high drive to right field. It looked as if it would drop into the seats, or at least bounce against the screen.

But, at the last minute, Bauer leaped for the ball and it stuck in his mitt as he crashed against the fence. One run scored but, moments later, Raschi retired Jerry Priddy for the last out.

Ted Gray failed to finish for the 17th time this season. He has lost 13 times against 7 wins.

Top-Seeded Entry Gains Quarter-Final of Tourney

PHILADELPHIA (AP)—First seeded Mary Ann Eilenberger of San Diego, Calif., meets Jacqueline Johannes of Dallas, Texas, today in the quarter final round of the U.S. Girls Lawn Tennis singles Championship matches at the Philadelphia Cricket Club.

Miss Eilenberger scored an easy 6-3, 6-2 win over Patricia Shaffer of St. Petersburg, Fla., yesterday. Miss Johannes eliminated Lois Weinstein of St. Louis, 6-2, 5i7, 6-1.

Pontiac Shooter Takes Part in National Event

WASHINGTON, D. C. — Fred T. Mayer, 532 Franklin Road, Pontiac 19, Mich. will compete for the crown of top high-power rifle marksman in the nation when he fires in the 68th renewal of the National High Power Rifle Championships at Camp Perry, O., Aug. 31 to Sept. 7, National Rifle Association announced here today.

Mayer joins the field of more than 600 high power rifle shots from all over the country who will fire against defending champions Major Robert A. Dawson, USMC, for the national service rifle title and Lt. Col. Walter Walsh, USMC, for the national match rifle crown.

Mrs. Vasu, Mosack Win Women's Golf Crowns

Women's golf championships were decided at two area clubs Wednesday.

Mrs. C. E. Daniels, three-time champion at Red Run Country Club, was dethroned by Mrs. William Vasu, 1-up, in the finals.

Meanwhile, Clara Jane Mosack won the club championship at Plum Hollow for the fourth time in the last six years. Mary Dwyer was her victim in the final round

State Outlook for Pheasants Good This Fall

Duck Hunting Likely to Be About Same as in 1952

LANSING (AP)—Pheasant hunting in Michigan should be about the same as or better than last year and duck hunting about the same, the state conservation department said Tuesday.

Prediction on pheasants was based on a survey just completed by rural mail carriers as they made their rounds in the pheasant range.

The carriers reported spotting nearly 5,000 broods, 32 per cent more than they saw last summer. The population increase was general throughout the 32 southern counties surveyed.

Highest population figures were turned in again by the counties in the Thumb district. Second again was the Ottawa and Allegan County area. Southeastern counties placed third, central counties fourth and southwestern counties last.

Duck prediction was based on observations of an excellent breeding season by local ducks. This will just about offset a reduced breeding season reported from the Canadian prairie provinces which send migratory ducks through Michigan.

Little Mo Is Ready for National Singles Test

EAST HAMPTON, N. Y. (AP) — There need be no fear. Maureen Connolly is in tip-top shape for defense of her National Singles tennis crown in the championships starting at Forest Hills Saturday.

Little Mo passed up the singles of the Madistone Invitation tournament this week, electing to sharpen up her strokes in the doubles with Julie Sampson of San Marino, Calif., as her partner.

She and Miss Sampson eliminated Lolly Goodrich of Southampton, N. Y., and Anne Cook of Quogue, N. Y., 6-1, 6-1 yesterday.

50,000 Crowd Expected for Lion-Giant Tilt

Dallas Exhibition to Give 'Native Sons' a Spot in Limelight

DALLAS, Tex. (UP) — Nearly 50,000 Texas football fans were expected to turn out Friday night to see their "native sons" in action when the Detroit Lions meet the New York Giants in an exhibition game.

But injuries may keep one Texan out of Detroit's starting lineup while providing room for another one.

Star quarterback Bobby Layne, who played college football at Texas University, was expected to be sidelined by a knee injury suffered in the College All-Star game two weeks ago.

However, Harley Sewell, an All-America from Texas, was expected to get a chance to play because Laverne Torgeson was injured in the game against the Pittsburgh Steelers last week. Sewell was expected to play offensive guard in place of Jim Martin who will be shifted to linebacker to fill the vacancy left by Torgeson.

Doak Walker will head a group of four other Texas players who will be ready for action before the fans of their home state.

Tom Dublinski was expected to fill in for the injured Layne at quarterback.

Chicago Team Trips Ivory Rangers, 8-6

Mike Wacker paced Fred Lutzow's All-Stars from Chicago to a 8-6 polo victory over the Ivory Rangers Wednesday in a shortfield match at Ivory Polo Field before a crowd of 2,000 fans.

Wacker featured the All-Stars spurt in the second chukker which gave them a lead they never relinquished. Wacker had four goals and Lutzow, three. Mac Stefani had three for the Rangers.

It was the first loss in eight starts for the Rangers on the shortfield course and their second loss in 20 games overall.

U. S., British Golfers Spoil Canada's Hopes

MONTREAL (AP)—Canada's hopes of taking its own amateur golf title rested today on two youngsters and a veteran campaigner—and the prospects weren't too bright. The competition from experienced American and British golfers appeared to be too much.

Seven Americans and six Britons joined the three Canadians in the round of 16.

Heading the American contingent is Don Cherry of Wichita Falls, Tex., member of the U.S. Walker Cup team. He whipped Ted Homeniuk of Yorkton, Sask., 6 and 5 in the third round and followed it with a one-up decision over Bob Fleming of Victoria, B.C. in the afternoon.

Givic Pride, Grid 'Fever' Bolster Canuck Pro Game

By JACK SULLIVAN

TORONTO (AP) — Eight football teams scattered across 2,500 miles of Canada from Edmonton in northern Alberta to metropolitan Montreal will spend more than $2,000,000 in this boom season — most of it on American players who have been lured to Canada by higher salaries than they can make in the United States.

Both the Interprovincial Union —(the Big Four)—in the east and the Western Interprovincial on the praries are putting out record sums for American "imports." And enlarging and building new stadiums.

Teams in the big four—Montreal Alouettes, Ottawa Rough Riders, Toronto Argonauts and Hamilton Tiger-Cats—expect to draw almost 800,000 fans.

Those on the more sparsely-populated prairies — Saskatchewan Rough Riders, Winnipeg Blue Bombers, Edmonton Eskimos and Calgary Stampeders—have set their sights on drawing another 500,000.

Canadian teams are hiring the best of American football talent name players like Billy Vessels of Oklahoma and Tom Stolhandske, two-way end from the University of Texas.

How can small prairie centers such as Edmonton (population 159,000), Calgary (129,000) and Winnipeg (235,000) outbid large American cities?

Explanation is in part civic pride and in part football madness.

In western centers the fans have a deep interest in helping the local team make the national final. Fans join booster clubs at $10 a membership, wealthy oil and cattle men become "sponsors" at $100 each and commercial firms buy ads in programs.

Too, large salaries are paid only a few players. Clubs carry 24 men but only eight may be American "imports."

In the east the set-up is slightly different. Clubs in Toronto and Montreal have populations of 1,000,000 or more to draw on and the emphasis on booster clubs and such money-raisers is less.

Gavilan Gets Nod Over Jones

AP Wirephoto

BOXING BALLET — Kid Gavilan (left) and Ralph (Tiger) Jones ballet through the first round of their bout Wednesday night in Madison Square Garden. The Kid rallied in the late rounds to take a unanimous decision in his first bout as a full-scale middleweight.

Weight Limit for Basilio Is No Problem

Gavilan Is Sluggish as Middleweight, but Too Good for Tiger

NEW YORK (AP) — Although he weighed a hefty 154 pounds in scoring a warmup victory over middleweight Ralph Jones, Welterweight Champion Kid Gavilan said today he doesn't expect to have any trouble making the 147-pound limit Sept. 18.

That's when the Cuban Flash defends his welter crown against Carmen Basilio in Syracuse, N. Y.

"After I beat Jones I finish weighing 147 pounds. Monday I start training again at Summit, N. J. Don't you worry, I make it."

The champ seemed somewhat sluggish at the weight — second heaviest of his career—through the first three rounds of his 10-rounder with the Yonkers, N. Y., Negro but he gave the pro-Jones crowd of 5,063 (gross gate $16,620) a dazzling exhibition the rest of the way to earn the unanimous decision in Madison Square Garden.

Gavvy, who outweighed the middleweight by two pounds, elected to slug it out with the sturdy Jones for three rounds and trailed. In the fourth he switched to boxing — jabbing and circling — although the fans booed. He boxed through the middle rounds and then handed the Westchester Tiger a good thumping with solid smashes the rest of the way.

Jones said he hurt his right thumb in the sixth and had to stop pressing. Dr. Vincent Nardiello said the thumb was dislocated and possibly fractured.

Gavilan said he decided to slug it out with Jones in the early rounds "to give the fans a show."

His manager, Angel Lopez, said: "Then I told him I would hit him with the stool if he did that in the fourth round. I told him to go out there and box and beat him to the punch."

The votes, all favoring Gavilan, were: Referee Al Berl, 5-4-1; Judge Arthur Susskind, 6-4, and Judge Jack Gordon, 7-3. The AP scorecard had Gavilan in front 6-3-1.

The defeat was the first for Jones in his last eight fights. Gavilan scored his third straight victory and the 94th of his career. He has lost 13 times.

No-Hit Pitcher Loses as Foe Matches Feat

MORGANTOWN, W. Va. (AP) — Pony League pitcher Charles Lonetti hurled a no-hitter here recently and lost the game in the 11th inning. The victory went to pitcher Bill Barber, who also pitched a no-hit game.

An error broke the ice of the extra-inning double no-hitter as one of Barber's mates walked, took second and third on an overthrow and then stole home for a 1-0 triumph.

Both pitchers were chosen to represent Morgantown in regional all-star competition in the Pony League for players from 13 to 15 years of age.

Most cork produced in the U.S. comes from old trees in California.

2 Small-Bore Titles for U. S.

American Team Breaks Record in Regaining Dewar Trophy

CAMP PERRY (AP) — American colors flew today after victories in both of two small bore rifle contests with British and Canadian teams.

A 20-man American team broke the record with 7,984 out of a possible 8,000 points yesterday to regain the Dewar Cup trophy from England at the National Rifle and Pistol championships.

The English team, which fired in England last June, had 7,977 — then a new record — and the Canadians turned in 7,960 early this month in Canada.

In the Pershing Trophy match, a 10-man American team fired 3,990 out of a possible 4,000 to retain the cup. England trailed with 3,980 and Canada with 3,966.

No further competition in the championship will be conducted until the high power rifle events open Monday.

Boy Born to Wife of Ace Jockey L. C. Cook

DETROIT (AP)—Jockey L. C. Cook was bragging today about his "Wednesday winner," although he didn't ride a single horse at the Hazel Park Race Track yesterday.

The "winner" was a five-pound son born to the jockey and his wife, Jeane, 21, at a Detroit Hospital.

Cook cancelled all his seven mounts yesterday to be around for the event, then announced the name would be Stephen Jo.

Yanks Surprised, but Not Upset by Red Strong Men

STOCKHOLM (AP) — The Americans are getting their first look at Russian athletes since last year's Olympics at the world weightlifting championships which entered their second day of competition today.

And the Yanks are surprised, but not exactly bewildered at the Russians' power.

Ivan Udodov sent the Russians away winging in the team race yesterday by winning the bantamweight division. There were no Americans entered in this test and Udodov's victory was not exactly unexpected since he holds the world record in the division.

"I know the Russians are good, but they still have a long way to go before they can beat us," observed Clarence Johnson of Detroit, team manager, and newly elected vice-president of the international Weightlifting Federation.

Russia has several hundred thousand weightlifters to recruit for its team," he said. "I'm sure we still have the cream of the world. But we'll have to keep improving to keep our leadership."

Johnson, a 48-year-old certified public accountant, still thinks the United States will win every event it enters.

Gomez Back in Baseball, This Time as Umpire

OWENSBORO, Ky. (AP) — Lefty Gomez, former Yankee pitching great, became an active member of baseball again recently. While attending a game here between Owensboro and Hopkinsville of the Kitty League, Umpire John Leo Freyder was forced to retire due to the excessive heat. Gomez took over for the last five innings as he volunteered his services.

'Drag' Races Open Sunday at Pasture

Hot-rodders, sport car drivers and motorcycle drivers will have a full day of "drag racing" Sunday over the new drag strip at Partington's Pasture Speedway.

This is a new kind of racing in which anyone with an urge to find out how fast their car or motorcycle will go through electrically-timed traps may enter.

Time trails and races will continue from 11 a.m. to 5 p.m. Track is located on Ryan Road, north of 15-Mile road.

Chicken Pox Forces Net Star, 11, to Default

BURLINGAME, Calif. (AP)—Ever long to be a boy again?

Bobby Sitka, only 10, recently won not only his 11-year old divisions of a San Francisco tennis tourney.

Monday he started in the U. S. Junior Hard Court Championships here—seeded No. 1 among 11 years olds, No. 3 among the 13s and No. 6 among 15s.

He breezed through first and second round matches.

Yesterday officals had to post "default" opposite Bobby's name in all three groups.

Reason: Chickenpox.

Kings, Queens Meet

'Little Davis Cup' Looms in Nationals

Brawl Marks Minor Leaguer's Rhubarb

TOPEKA, Kan. (AP) — A pitcher was knocked cold and another player received a huge black shiner in a brawl that marred a Western Association baseball game here last night.

The rhubarb came in the fifth inning of a game between Topeka and St. Joseph, Mo. Topeka centerfielder Ronald Alexander, irked over some close balls thrown by St. Joseph's Roger Fister, tangled with the pitcher and that started a free-for-all.

A St. Joseph pitcher, Ed Donnelly, was flattened and had to be carried from the field. Alexander's eyes were blackened.

Topeka won, 5-4.

Presko and Piersall Get New Pacts, Pay Hikes

NEW YORK (AP)—The most recent bulletin from Baseball Commissioner Ford Frick's office shows that pitcher Joe Presko of the St. Louis Cardinals and outfielder Jim Piersall of the Boston Red Sox signed new 1953 contracts. Usually new contracts mean one thing—a pay raise.

Gained 2,000 Yards

Pete Retzlaff, rookie fullback with the Detroit Lions, rushed for more than 1,000 yards in each of two years at South Dakota State. In 1951, Retzlaff rolled for 1,016 yards in 10 games and rambled 1,009 yards in nine games in '52.

COMPETITION—First Baseman Joe Collins of the New York Americans hardly had a chance going after a pop foul into the box seats at Yankee Stadium and bumping into a youngster who stashed the ball away.

State Streams Get First 5,500 'Educated' Trout

LANSING (AP) — First 5,500 educated trout from the Oden Fish Hatchery special school have been planted in northern Lower Peninsula, the conservation department reported today.

Psychologists taught the fish to feed and forage like wild trout with special feeding techniques and electric shocking devices. The educated fish were tagged to keep track of them.

It is hoped that the training will reduce the percentage of hatchery fish which succumb to predators and anglers.

Horse 'Honours' Jockey

PORTLAND, Ore. (AP) — Britain's great jockey, Sir Gordon Richards, said he felt honored—he spelled it honoured, naturally—to have a horse named for him. He wrote to James Margulis here, replying to an inquiry, to say that "I have no objection whatever of your naming your yearling colt 'Sir Gordon', in fact I feel honoured and hope he turns out as good as the horse Pinza on which I won the English Derby."

Broken Neck Fails to Stop Navy Lineman

Eisenhauer Becomes All-America Despite Prep Injury

By PAT ROBINSON

NEW YORK (INS) — When the boys at Annapolis chant "We Like Ike" they are not referring to the President of the USA but rather to their All-America guard, Stephren Swartz (Ike) Eisenhauer.

This 200-pound future admiral is reason why no team gets anywhere hitting the middle of the Navy line.

That he was tops as a guard last fall is attested by coaches of rival teams who should know, such as Frank Leahy of Notre Dame, Jim Tatum of Maryland, Lefty James of Cornell, Bill Murray of Duke and Jackie Freeman of William & Mary.

Most remarkable thing about Ike is that he plays football at all, for he broke his neck playing the game in high school.

He suffered the injury on the first play after the kick-off but despite great pain finished out the game. His father, principal of the Sheffield Pa. High School, noticed the boy carried his neck at an angle for the next few days.

He insisted on an X-ray examination which disclosed the broken neck.

His father says: "Some miraculous medical attention at Hamot Hospital in Erie, Pa. and the construction of several casts saved him. One more head-on play during the game, one more snap, would have killed him. The good Lord surely was watching over him."

DeRyke Is Named at Woodland High

WOODLAND (UP) — James De Dyke of Grand Rapids, former assistant coach at Grand Ledge High School, has been named head football and basketball coach and athletic director at Woodland High School, superintendent Charles Goulding announced today.

De Ryke is a former Grand Rapids Creston High School and Central Michigan College star athlete.

Draw Puts Four Top Challenge Stars Together

Seixas, Aussies' Hoad in Top Half, Trabert, Rosewall in Lower

FOREST HILLS, N. Y. (AP)—If everything goes according to form, there should be a "Little Davis Cup" challenge round in the semi-finals of the National Tennis Championships which get under way at the West Side Stadium Saturday.

* * *

In the four quarters of the draw made yesterday are Vic Seixas, Tony Trabert, Lewis Hoad and Ken Rosewall. They're the four who will carry the hopes of the United States and Australia in their expected challenge round meeting in December.

* * *

Seixas, Wimbledon victor, was ranked No. 3, although is rated domestic list, followed by Trabert. Rosewall topped the foreign list, followed by Hoad and Mervyn Rose, another Aussie.

Seixas and Hoad are in the same half and Trabert and Rosewall are in the other half, so they could be the semi-finalists.

Aging Gardnar Mulloy was ranked No.3, although ie rated No.1 in the country in the seeding of the United States Lawn Tennis Assn. Mulloy was given the top ranking on the basis of having advanced to the finals of last year's tournament against Australia's Frank Sedgman, now a pro.

* * *

Art Larsen, the last American to win the National title—in 1950—is seeded fourth followed by Hamilton Richardson, the National Intercollegiate champion from Tulane; Straight Clark of Pasadena, Calif.; Budge Patty of Los Angeles and Tom Brown of San Francisco.

* * *

Maureen (Little Mo) Connolly of San Diego is at the top of the women's list. Behind her come Doris Hart of Coral Gables, Fla., Shirley Fry of Akron, Ohio, Louise Brough of Beverly Hills, Calif. and Mrs. Margaret du Pont of Wilmington, Del.

Foxes Caught, but 388 Pheasants Are Killed

NORWALK, Conn. (AP) — Pretty foxy, these foxes. Two of them hung around a large coop until a heavy rain washed out a hole beneath the wire fence. Then they slipped in and killed 388 pheasants being raised by the Norwalk Rod and Gun club for stocking purposes.

Club members proved equally foxy. They hung around the hole until the foxes re-appeared. Two well aimed shots finished the marauders.

Stretch Run Takes Rich 'Pat' Stakes for Queen

CHICAGO (UP)—Queen hopeful won the $107,490 Princess Pat stake, charging up from the pack to run her race in the stretch, edging Chorus Khal by three-quarters of a length.

Queen Hopeful, with Johnny Adams up, was a 5 to 2 favorite. She sped the six furlongs Wednesday in 1:11, two seconds off the track record.

The Hasty House two-year-old, trained by Harry Trotsek, pulled a $68,220 winner's share, raising her earnings to $155,340. She also won the Arlington Lassie Stakes this year and has been in the money in all starts.

The dark brown filly paid $7.80, $4.20 and $2.40 for her close win over Chorus Khal, which finished five lengths ahead of show horse Clear Dawn.

Beanir, ridden by Eddie Arcaro, took a temporary lead along the backstretch, but faded as the field of 13 rounded the hometurn.

Dearborn Still in Running for NABF's Crown

ALTOONA, Pa. (UP) — Michigan was assured of at least one survivor after this morning's round of the 10th National Amateur Baseball Federation tournament here.

The Dearborn team, which came through with a perfect record in the first two rounds Wednesday, drew a bye for this morning's round.

Other Michigan team in the tournament, Detroit, was matched against Ft. Wayne, Ind., in a battle that pitted the only teams, other than Dearborn, that survived with perfect records.

In the first two rounds, Dearborn defeated Louisville, 7-5, and Chicago, 17-1, while Detroit beat Altoona, 7-5, and Pittsburgh, 7-3. Ft. Wayne downed Dayton, 3-1, and Youngstown, 7-5.

Six other teams left in the tournament have all suffered one defeat.

Chattanooga Hurler 'Tough Luck' Champ

CHATTANOOGA, Tenn. (AP)—Hard luck pitcher? Jim Pearce of the Chattanooga Lookouts has a pretty claim to that title.

The 6-6 righthander lost five of his first seven decisions since being sent down to the Class AA Southern Association team from the Washington Senators in mid-season.

In each of his losses the Lookouts didn't score a run for him.

He want the route four times, losing 1-0, 2-0, 3-0 and 5-0. In the fifth game he was behind 6-0 when taken out.

In two of his losses, his opposing moundsman pitched a one-hit game and it was left to Pearce to break up one of these potential no-hitters with a single.

Tech, Tigers to Meet

ATLANTA (AP)— The Georgia Tech-Auburn football game, annually played in Atlanta, is one of the most colorful rivalries in the South. When the Yellow Jackets and Tigers tangle here this season it will be their 56th meeting in 61 years. Tech holds a 28-14 victory edge. Three contests have ended in ties.

Catcher Roy Campanella of the Dodgers was the first hitter in the majors to drive home 100 runs this season.

Mountain Is Moved for Baseball Diamond

VALLE CRUCIS, N. C. (AP) — Ben Ward, 57, a wealthy mountaineer, loves baseball. He loves it so much he paid $15,000 to have a mountain peak removed to make a baseball diamond on this Tennessee border town in the Smokies.

Ward bought a bulldozer which leveled the 3,100 foot peak. The time consumed was 3,000 bulldozer hours.

The altitude here plays optical tricks. Outfielders with nothing to judge the height and speed of the ball except the small grandstand, sometimes charge in for a drive and then ruefully watch it sail 10 feet overhead. Outfielders are wary also of chasing line smashes that fall near the fence—4½ feet high and of the picket type.

Behind the short fence is a quarter of a mile drop to a river below.

Tiger Tales

DETROIT (AP) — Overheard in Briggs Stadium:

Bily Hoeft, injured in Tuesday's game, will not miss his pitching turn. Tiger trainer Jack Homel says Hoeft shows no signs of pain after suffering a bone bruise in his right ankle. Hoeft was struck by a batted ball.

Al Kaline, Detroit's 18-year-old bonus baby, got a big chance against the Yankees Wednesday — but flubbed it. He came to bat in the ninth inning with the bases filled and nobody out. He fanned. But he needn't feel too badly about it. He was whipped by one of the game's best moundsmen — Vic Raschi.

Ah-well dept:

Walt Dropo, whose last homer was July 30, was benched in favor of Jerry Priddy. So in the eighth inning, Dropo pinch-hit a double to left — Tigers' only base hit of the game. They had 13 singles.

Anyway you cut it, the Tigers biggest series of the season will take place in Briggs stadium Sunday, Monday and Tuesday. They'll meet the A's in a five-game series and if they're going to pass the Philadelphians and take over sixth place, that'll be the time to do it.

The two teams will play a doubleheader Sunday, a twi-night double-header Monday and a single game Tuesday.

Today a year ago — Yogi Berra slammed two home runs as the Yankees defeated the Browns 12-7 and stretched their American League lead over the Indians to two games.

WAHOO!—Stanley Nager of New York smiles broadly next to the 71½-pound wahoo boated after a 20-minute battle on Challenger Bank off the southwest coast of Bermuda. The 63-inch beauty is the largest of the season in those waters.

Doubles Champs Keep 'Shoe Title

Skaggs and Cook Come From Behind in Finals to Win City Crown

Leonard Skaggs of Pontiac and Walter Cook of Keego Harbor retained their City Horseshoe doubles championship Wednesday night at Oakland Park in a come-from-behind effort against Mark Klocko and Robert Gallagher.

Skaggs and Cook dropped the first game, 14-25, but came back strong in the next two sets, 25,11, 25-23.

For Skaggs it was added honor. He won the singles championship of the parks and recreation department tournament Tuesday night.

Skaggs-Cook team had disposed of Bud Leslie and Sparky Barkham in the first round, 25-4, 25-3. Klocko and Gallagher gained the finals by downing But Brezee and Milton Swigert, 25-8, 25-8.

Leonard Buzz, parks and recreation department official who handled the tourney, stated that some form of league competition probably will be installed next season, climaxed by the annual tournaments.

Marilyn Concerned Over Golf Progress

HOLLYWOOD, Calif. (AP)— Marilyn Monroe, filmdom's No. 1 glamour gal, is still drawing raves — but this time on the golf links.

Boy friend Joe DiMaggio bought her a set of golf clubs. Marilyn supplies her own form. She plays regularly but is puzzled about the status of her progress.

"All the men gather 'round the tee to watch me. All of them say I have a beautiful swing, yet I seldom hit the ball."

Baltimore Colts Grant Players Expense Cash

BALTIMORE (AP)—The Baltimore Colts owners have decided to give players $15 per week spending money until the season opens and the boys begin drawing their pay.

The National Football League team is not required to pay those players who report for the nine weeks practice session and then fail to make the squad.

"It's a lot to expect any man to come to work for a nine weeks' trial and then tell him he either stays or is cut," said William Hilgenberg, Colt treasurer.

BRAKE Adjustment $1.19

HERE'S WHAT WE DO:

- Remove front wheels and inspect lining.
- Inspect brake drums. Check and add brake fluid if needed
- Inspect, clean and repack front wheel bearings
- Adjust brake shoes to secure full contact with drums.
- Carefully test brakes.

FRONT END ALIGNMENT $1.98

Miss Faulk Is Popular Favorite

By HUGH FULLERTON JR.

PROVIDENCE, R. I. (AP) — The girl whom most of the golfers would like to see win the 53rd U.S. Women's Amateur Championship (if they can't do it themselves) has been playing by far the best golf of the tournament so far.

* * *

And if Mary Lena Faulk isn't still in there tonight, when the field has been whittled down to four semifinalists, there will be a lot of unhappy people around the Rhode Island County Club.

* * *

Miss Faulk, a 26-year-old Thomasville, Ga., girl who works in her father's automobile agency when she isn't playing in tournaments, is one of the most popular of the top-flight golfers. And she still has to win a "big" one although she has taken a lot of fairly important tournaments and went to the semi-finals of the British Women's Championship last spring.

When she started practicing for this tournament, she thought the 6,371-yard Rhode Island Country Club course was too long—especially some of those 480-plus yards par 4s.

* * *

"But Tuesday I started to go after the ball more and found my swing with my wood clubs and began playing pretty well," she said.

That was a notable understatement. She was the only player who had broken par of 38 on the front nine until Cookie Swift of Great Neck, N. Y., did it with a 37 yesterday afternoon, and just a few minutes later Miss Faulk came in with a 35, the best nine-hole score of the tournament.

* * *

That carried her to a 4 and 2 victory over a former champion, Mrs. Mar A. Porter of Manoa, Pa.

* * *

Ex-Champion Dorothy Kirby of Atlanta, Ga., 1951 winner, also had her troubles. She beat out clouting Theodora (Pippy) Rooney, a New Centre, Mass., physical education instructor, on the 18th green after trailing up to the 14th.

In addition to these three, the last 16 going into today's two rounds included four members of the 1952 Curtis Cup team—Pat O'Sullivan, Orange, Conn., Polly Riley, Fort Worth, Tex., Mrs. Grace Demoss Smith, Portland, Ore., and Mrs. Marjorie Lindsay McMillen, Decatur, Ill

JERRY IS READY—Capt. Jerry Coleman of the U. S. Marines gets his final physical checkup before being discharged in San Francisco August 24. The doctor, Lieut. Ronald Norris, USNR, of Houston, Texas, found the former Yankee baseball star in tip top shape. Capt. Coleman plans to join the Yankees right away.

Golf Clinic: Here's How

By SAM SNEAD

It takes a lot of mental discipline to think of the golf swing as a matter of timing and rhythm, rather than brute force.

Somehow this drawing symbolizes that concept for me, however. I see potential energy in the wound-up hips and shoulders and the cocked wrists. It's poised momentarily, waiting for the application of this power.

But at no point is this hurried or forced. There's a smooth wind-up, and then a smooth uncoiling of the body. The downswing starts

slowly, gradually accelerates, and gains its greatest momentum with the uncocking of the wrists just before impact.

School yourself to think of this game as one of rhythm, and forget it as a powerhouse proposition. Concentrate on accuracy and placement, rather than distance, and you'll do much better.

As a matter of fact, as your rhythm and timing increase, you will find yourself getting longer and more accurate shots, but don't even think about this. Keep the smooth flowing swing in mind, let the shots fall where they may.

Bengals Sign Negro Player

DETROIT (AP) — Detroit Tigers now have a Negro baseball player in their farm system.

He is Claude Agee, 18, an outfielder from McKeesport, Pa., who was signed by Detroit's Class D Pony League farm at Jamestown, N. Y.

Agee, scouted by general manager Charley Gehringer, is the first Negro ever signed to a Tiger contract. He bats left handed and throws right handed.

He played last week in the Hearst newspapers' All-Star game for boys in New York, where Gehringer was one of the managers First reports on Agee came from Tiger scout Ed Katalinas.

Detroiter in ABC Family

MILWAUKEE, Wis.—Seven new directors were appointed or elected in the 1952-53 season, Matthew Robert Bennie of Washington, D.C. and William Warren McCulloch of Portland are from areas never before represented officially. The other directors are Raymond Edward Naber of Buffalo, N. Y.; John Thomas Henry of Minneapolis, Minn.; James Francis Walsh of Detroit, Mich.; Lawrence August Kluener of Cincinnati, Ohio; Harry Glen Sherwood of Burbank, California.

ABC Prexy Is Given Big Inauguration Day

KANSAS CITY, Mo.—William E. "Bill" Kuster, member of the American Bowling Congress' official family since 1933, was inaugurated as the 40th president of the ABC.

Scores of bowling dignitaries, including the retiring president George Obenauer of Buffalo, N. Y., attended the event.

Kansas City Mayor William Kemp and the City Manager L. P. Cookingham appeared on the program. Mayor Kemp had proclaimed "Bill Kuster Day" in Kansas City.

Highlighting the program was the presentation to Kuster of a new automobile.

Hunter-Breeder's Show Looms as Record-Breaker

Advance entries in the annual Metamora Hunter - Breeder Show Sept. 5-6, indicate that records will be broken not only numerically, but also by the appearance of National winners.

Both Mrs. J. Deane Rucker's "Spanish Mint," and horses from C. D. Pierce's Fox Covert Farms come with ribbons won at the National Show Madison Square Garden and the top shows of Virginia and Pennsylvania.

Mrs. Everell E. Fisher will bring six horses from her stables. A dozen entries carry a challenge from Battle Creek.

In the breeding division, a unique feature of this show will be the appearance of young foals with their mothers.

For the hunters, many of the classes will use the outside course, with natural jumps simulating fox-hunting conditions.

An innovation this year will be the junior Olympic teams, competing in three events under International Equestrian Federation rules. Show is licensed by the American Horseshow Association, with an accredited judge, Jack Prestage of Boyce, Va., officiating.

Opening time is 9:30 a.m. Saturday, and 10 a.m. on Sunday Luncheon will be served on the grounds by wives of the professional horsemen.

Show committee is headed by Mrs. Edward C. Parker with Miss Mary Margaret Sweeney and Mrs. E. E. Rothman as co-secretaries. Show will be held at the Alger Race Course.

A FASHION FUTURE!

The "Jet"

by Oxford Hall

The "Jet" has the electrifying impact of a 3-dimensional movie! It's an entire new dimension in style, fabric and color. This fashion-of-the-future features the one-button jacket, smart new semi-peak lapels and patch pockets.

If you want to dress ahead of your crowd in a suit that's completely individual, the "Jet" was made for you.

Flint Needs Volunteers for 'Operation Tornado'

FLINT (UP) — M. F. Borgman, chairman of the committee planning "operation tornado" said today some 5,000 volunteers still were needed for the weekend work bee in which 186 twister-damaged homes are scheduled for repairs.

"The volunteers don't have to be electricians or carpenters or plumbers," he said. "All they need is a hammer or saw and a willingness to help their neighbors."

B'way's Drake Is Warding Off Movie Offers

By BOB THOMAS

HOLLYWOOD (AP) — Alfred Drake, here for a pre-Broadway run in "Kismet," is warding off the movie offers that come his way. He doesn't want to repeat his film fiasco.

Drake presents a dazzling performance nightly in the Oriental fantasy that will hit New York this fall. The former star of "Oklahoma!" and "Kiss Me Kate" has been talking to a couple of producers about picture work. But he expects to turn down their proposals.

"I like the stage," he explained, "and I think I'm fairly accomplished at it. I don't want to repeat the mess I got into the last time I signed for pictures."

Drake was snapped up by Columbia after he made his hit in "Oklahoma!"

"I was expecting to be drafted," the actor explained. "I thought I had better pick up some easy money before I had to leave in the army. So I signed. Then it turned out that I was 4F. But I was stuck with the Columbia contract.

"Harry Cohn (Columbia boss) had me into his office. He asked me what kind of pictures I would like to make. I said that I wasn't handsome—I would never give Tyrone Power or those boys any competition. I told him I was at home in costumes. Perhaps this had something to do with the fact that my forebears are Italian or because of a juvenile idolatry of Douglas Fairbanks, Sr.

"I sat for 10 weeks, doing nothing but drawing a handsome salary. Then they told me I was going to do 'Tars and Spars.' They put me in a costume, but it was a sailor's uniform! I looked like a million other guys in the same fix.

"The only good thing in the picture was Sid Caesar. I was awful. After that, I turned down script after script, even though I had no right to do so under my contract. Still they kept me under salary.

"Finally Cohn called me into his office. 'Don't you want to make pictures?' he asked. 'No,' I replied. So he let me go."

Drake went back to Broadway and continued his string of successes. He may have another one in "Kismet." Most of the L. A. critics agreed the show has the elements of success and that Drake is tops on the musical stage.

"The show has reached the point where the people know the changes have to be made, but everyone hesitates to make the first move," Drake observed.

"Actually I grew it for my own comfort and safety," he said. "Having had experience with a variety of beards on the stage, I know how they can itch.

"Besides, I read about a singer at the Metropolitan who swallowed his mustache not long ago. Damned near choked to death."

I asked if "Kismet" was in as good shape as "Oklahoma!" and "Kiss Me Kate" during their tryouts.

"Not quite," he said. "Very little was done to 'Oklahoma' except for taking out one number and switching a couple of scenes. The producers were very worried about the show, but those in the cast knew it would be a hit.

ICE BLONDE MAKES DEBUT — Football teammates Tony Curtis (left) and Richard Long become rivals over Mamie VanDoren in the picture "All American." Miss VanDoren, called the "ice blonde," bows in the Universal-International picture with stars Lori Nelson, Curtis and a number of gridiron stalwarts such as Herman Hickman and Jim Sears.

Abandoned Baby Boy Found by 14-Year-Old

DETROIT (UP) — A week-old baby boy found abandoned three miles southwest of New Boston was under doctors' care at Wyandotte General Hospital today.

Doctors said the boy was healthy and apparently had been well cared for. he infant was found along a roadside by Joyce Picumpey, 14, Tecumseh, who was visiting relatives.

Traffic Fatalities Grow

MT. PLEASANT (AP) — Isabella County recorded its seventh traffic fatality in eight days with the death of Earl A. Schafer, 24, of Beal City, early today. His car hit a bridge abutment 10 miles northwest of here.

It was the 14th traffic fatality in the county so far this year.

Featherbed No More

HAGERSTOWN, Md. (UP)—The city council agreed when residents of a suburban section asked that the name of their street be changed from Featherbed Lane to Antietam Drive. There was "something about" the old name that they didn't like.

Lansing Cowpokes Corral Wild Steers

LANDING (AP) — Police held an impromptu rodeo early today in the downtown business district when two steers jumped from the rear of a Decatur-bound truck.

At least 13 police officers and sundry bystanders turned cowboy in a half-hour battle to corral the ornery critters.

One of stters was rounded up in a hurry by rope-tossing officers.

The other made a more determined bid for freedom. It dashed in the side of a police squad car in a charge for the open range. It was finally captured five blocks and a half-hour away after much chasing by the "cowboys."

The steers, the property of Steerburn Bros. of Decatur, were turned over to the care of a professional cattle handler until they could be loaded back on the truck.

Hear Any Commercials?

NEW ALBANY (UP) — L. O. Dunlap is deaf but he says he hears soft music all the time —without any hearing aid or radio set.

Switzerland has four official native languages.

Allies Ask Free Travel in East-West Germany

BONN, Germany (AP)—The three Western allies urged the Russians today to permit all Germans to travel freely between the Bonn Republic and Communist East Germany.

The request was made in three similar letters from the high commissioners of the United States, Britain and France to Soviet High Commissioner Vladimir S. Semyenov.

The three Western occupation powers took the action at the request of the West German government, which proposed free travel as a preliminary requirement for national elections throughout all zones.

The Thomas Jefferson Memorial Foundation maintains Monticello, Jefferson's home.

Army Escapee Still at Large

Rugged Mountain Hunt for Grand Rapids Boy Called Off

HOT SULPHUR SPRINGS, Colo. (UP)—An 18-year-old escapee from the military stockade at Camp Carson, Colo., was still at large today after eluding a 50-man posse that combed the rugged mountain country in this area for a day and half.

The escapee, Pvt. Frank Brink of Grand Rapids, has been sought by military, state and local officers since he escaped with another prisoner Monday night.

Grand County Sheriff Chancy Van Pelt said Brink apparently had gotten "clear out of the country." He called off the search Wednesday night.

Brink escaped from the Camp Carson guardhouse Monday night with Pvt. Benedict A. Barango, 21, of Chicago. Barango was captured near Fraser Tuesday when state patrolman Guy Miles closed in on the pair.

Van Pelt said he was "pretty sure it was Brink" who broke into a lodge at Hideaway Park near here and took food and clothes. The sheriff said pickup orders have been out on the youth, and expressed confidence that "they'll get him eventually."

Bricker to Call Treaty Question

Dulles Says Proposed Amendment Calamitous on Foreign Affairs

By JACK BELL

WASHINGTON (AP)—Sen. Bricker (R-Ohio) served notice today he will force Senate action on a proposal to limit treaty powers despite the "calamitous effect" Secretary of State Dulles said its adoption would have on world affairs.

Dulles yesterday told the American Bar Association meeting in Boston that the constitutional amendment proposed by Bricker would put Congress in charge of the conduct of foreign affairs and "have a calamitous effect upon the international position and prospects of the United States."

* * *

Bricker said in an interview that Dulles "either does not understand the Constitution or he does not understand the Senate resolution."

* * *

"My resolution in no way impairs the power of the President in dealing with foreign nations," the Ohio senator declared. "It would prevent the President and the Senate from making domestic law by treaties."

Bricker's resolution, which has 63 other senators as co-sponsors, would provide that no treaty should override domestic law unless Congress acted affirmatively. It also would give Congress power to "regulate" executive international agreements. As a constitutional amendment, it would require two-thirds approval of both houses of Congress and ratification by three fourths of the states.

Ban Fair Girlie Shows

KALAMAZOO (AP) — The Kalamazoo County Fair looks even less like its old self today. There aren't even any girlie shows now. The board of managers decided to close the girlie shows Wednesday. Bingo and pitch-till-you-win games were ruled out before it opened.

Cascade tunnel of the Great Northern railway through the Cascade mountains is believed the longest in the western hemisphere. It extends for a length of 7.79 miles.

Launch 1954 Campaign:

GOP Women Hope to Convert Chicago Rally Into Counter Move Against Dems

WASHINGTON (AP)— Republicans are converting their big meeting of 1,500 midwest and southern women leaders in Chicago Sept. 18-19 into a counter offensive to the Democratic rally there Sept. 14-15.

The Republican National Committee announced today that the two-day meeting, which will get the party's 1954 congressional elections campaign started months earlier than usual, has been enlarged to include representatives from 18 states. Postmaster General Summerfield will make the major address at a Sept. 18 dinner.

Plans also are being discussed for a simultaneous meeting of the state chairmen from 21 midwestern and western states, which would be another counter move against the Democrats. The latter also plan a meeting of midwest state chairmen to discuss strategy for this battleground area.

With Republicans and Democrats just about dividing House and Senate seats evenly these days, it is easy to see how important these Chicago meetings can be.

In the 18 states to be represented at the "precinct level and working for victory" conference of Republican women, nine Democratic and five Republican senators and 94 Democratic and 96 Republican House members are coming up for reelection next year. A sixth Republican senator will be up if Gov. Lausche of Ohio appoints a Republican to succeed the late Sen. Taft.

Republican officials said their Chicago meeting will be keynoted at the Sept. 18 opening session by National Chairman Leonard W. Hall, Govs. William G. Stratton of Illinois and Walter J. Kohler of Wisconsin, conference hosts, also will speak, as will Sen. Dirksen (R-Ill), head of the Senate Campaign Committee. Republican Reps. Marguerite S. Church, Illinois, and Ruth Thompson, Michigan, will be honored along with Miss Marian Smith, Little Rock, Ark., newly-elected co-chairman of the Young Republican National Federation.

Unlike the Democrats who will feature Adlai E. Stevenson, their 1952 presidential candidate, and former President Truman at a $100 a plate dinner, the Republicans are not planning their Chicago meeting to raise party funds.

They pointed out that President Eisenhower has arranged to speak at two $100 a plate fund-raising Republican meetings, in Boston Sept. 21 and at Hershey, Pa., Oct. 13. These are expected to raise more than half a million dollars.

The Republicans will put major emphasis on techniques for victory-making campaigns at their Chicago conference, which will be under the direction of Miss Bertha S. Adkins, assistant to the national committee chairman.

The Chicago conference is the second in a series of four women's regional meetings arranged by the Republicans for campaign training. A far-west conference will be held at Yellowstone National Park Sept. 11-12; the third at Atlantic City, N. J., Oct. 1-2, and the fourth at Boston Oct. 8-9.

Arrangements for a possible conference of midwest and western GOP state chairmen during the Chicago sessions are in the hands of Ohio State chairman Ray Bliss.

The 18 states to be represented at the women's meeting in Chicago are:

Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Ohio, Oklahoma, South Dakota, Tennessee, Texas and Wisconsin.

Eight Practical Tips Increase Hog Production

CARBONDALE, Ill. (INS) — Harvey Woods, Southern Illinois University experiment farm manager, says farmers in the hog business need to carry out at least eight practical suggestions if they wish to make money.

His sow-raising-for-pay pointers include:

1. Select pig parents from large, fast-growing litters.
2. Breed gilts or sows to farrow in late February or March for spring pigs and in September or October for fall pigs — so that they will hit high markets at six months of age.
3. Feed the sow a good ration — grain, protein, legume hay or pasture.
4. Have a sanitary house — cleaned with boiling lye water, free of drafts and having guard rails and provisions for heat during farrowing.
5. Scrub the sow with soap and water when putting her in the house two or three days before farrowing.
6. Be on hand for farrowing to save pigs.
7. Keep sows on a good rationing after farrowing.
8. Get sow and pigs on clean legume pasture when the pigs are two-three days old.

A frightened armadillo sometimes jumps straight into the air.

Build Paper Mill to Serve All Israel

HEDERA, Isreal (UP) —A $4,000,000 paper mill that will supply all of Israel's paper needs is going up here on the coastal plain between Tel Aviv and Haifa.

An American, Joseph M. Mazer, promoter of this enterprise, says it will save Israel $700,000 in foreign currency annually.

Paper manufacturers from Europe, Australia, Argentina and Israel are partners in the undertaking. Investors include the Israel Economic Corporation Inc., printing establishments.

The Government has appropriated 400,000 pounds from its development budget as a long-term loan to the enterprise.

Israel's entire consumption of 3,500 tons of newsprint for next year is expected to come from this plant, which is scheduled to begin operating by the end of 1953.

The science that deals with the history, collection, identification and use of drug plants is known as pharmacognosy.

Corn Only One Resisting Sales

CHICAGO (AP) — Most grains dipped under moderate selling pressure on the Board of Trade today. They gave up ground rather easily in view of the fact selling wasn't heavy.

Corn alone showed resistance to the pressure. Continued hot, dry weather in the midwest stirred up a little demand for this cereal. The weather didn't help soybeans, however.

Ike Prepares for Quiet Days in the Rockies

DENVER (AP) — President Eisenhower packed his trout rod and his oil paints today and prepared to head for a six-day "complete vacation" in the Colorado Rockies.

The President was scheduled to leave Denver at 10 a. m., EST, on a 70-mile drive to Fraser, Colo., on the western slope of the Continental Divide.

There he will stay at the secluded ranch of an old friend, Aksel Nielsen, who was accompanying the President. They may be joined later in the week by other friends.

When the President leaves Fraser next week he will return to Denver and remain until after Labor Day, perhaps until about Sept. 15, before returning to Washington.

Livestock

DETROIT LIVESTOCK

DETROIT (AP)—Hogs salable 125. Demand narrow for small receipts; barrows and gilts weak to 25 cents lower; most 180-260 lb barrows and gilts 24.50-25.00; top 25.00 for 200-220 lb choice offerings; few 160-175 lbs 23.25-24.00; scattering sows under 400 lbs 20.75-22.00; few heavier sows 18.50-20.25.

Cattle salable 200; calves 75. Receipts include three loads grassers; general market mainly a peddling, catch bid affair, prices about in line with Wednesday's close; fairly good inquiry for high good to prime fed steers and yearlings; few small lots good and choice fed steers and yearlings 23.00-26.00; few good fed heifers 22.00; no sales grass slaughter cattle; most sales utility and commercial cows 9.50-12.00; canners and cutters 7.50-10.00; most bulls cutter and low utility under 1400 lbs at 11.00-15.00; few part load lots medium and good around 500 lb stockers 14.00-15.00 sizable sprinkling common dairy type stockers 9.00-11.00; vealers slow, weak, quality very unattractive; few high good to prime vealers 24.00-29.00; top 29.00; sizable supply commercial and low good 16.00-23.00; some cull and utility grades 10.00-15.00.

Sheep salable 125. No reliable outlet for lambs or sheep. All local packers out of

CHICAGO LIVESTOCK

CHICAGO (AP) — Salable hogs 5,500; butchers 200 lb and heavier moderately active, generally steady; top 15 lower; 160-180 lb steady to 50 lower; sows steady to 25 higher; choice 190-270 lb butchers 24.75-25.25; top 25.35; 160-180 lb 22.00-24.50; most sows 400 lb and lighter 21.50-23.25; 400-510 lb 19.74-21.10.

Salable cattle 3,000; salable calves 300; steers and heifers extremely dull, mostly 50 to 1.00 lower; cows off more than 1.00 on kinds grading low-choice and below, but few sales high-choice and prime steers only 25 lower; cows steady to 50 lower; bulls 50 to 1.00 lower; vealers and slaughter calves steady to 1.00 lower; few loads high-choice and prime 975-1350 lb steers 26.00-27.25; small lots 1125 lb 28.00; good and choice steers 18.00-25.50; utility and commercial 11.50-16.50; good and choice heifers 16.50-22.50; utility and commercial 10.00-15.50; utility and commercial cows 8.50-12.00; canners and cutters 6.50-9.00; utility and commercial bulls 11.00-14.50; commercial to prime vealers 14.00-22.00; cull vealers and calves down to 7.00.

Salable sheep 1,500; slaughter lambs weak; yearlings 50 or more lower; slaughter ewes steady; bulk choice native slaughter lambs 22.00-22.50; top 23.00 paid sparingly; culls 10.00-15.00; bulk good and choice yearlings 16.00-18.00; ewes 4.00-6.50, mostly 4.50-6.00.

Lamiman-Carpenter Vows Spoken at North Branch

NORTH BRANCH — In a private ceremony at Baptist Church Saturday, Jean Carpenter and Roy Lamiman exchanged wedding vows.

Attendants were Mrs. Geraldine Fricke of North Branch and William Lamiman of Mayville, brother of the bridegroom.

After a honeymoon of two weeks the couple will live on South Saginaw Street in North Branch.

County Deaths

Albert F. Newport

WALLED LAKE — Service for Albert Franklin Newport, 73, of 3936 Fieldview, Route 5, Pontiac, will be 1 p. m. Saturday from Richardson-Bird Funeral Home, Walled Lake, with burial in Walled Lake Cemetery.

Born at Sharon, Pa., he lived in the county since 1949 and died this morning at home.

Surviving are his widow, Elsie; two daughters, Themla Overfelt of Philadelphia, Pa. and Helen MacKay in Germany; three sons, Vernon of Warrenville, Ohio, Clayton of Pontiac and Robert of Cleveland, Ohio; three sisters and three grandchildren.

Miss Addie L. Fisk

CLARKSTON—Service for Miss Addie L. Fisk, 74, of 9180 Highland Rd., will be Friday at 2 p.m. from Sharpe Funeral Home with burial in Waterford Center Cemetery.

A resident here all her life, she died yesterday at the home in which she was born.

Surviving are two brothers, Fred of Pontiac, and Ira at home; a sister, Mrs Ruth Ingamells of Hadley; and nine nieces and nephews.

The National Geographic Society says nearly 20,000 English men settled in and around Massachusetts Bay Colony from 1630 to 1642.

Notice is also hereby given that the Commission and the Assessor of the City of Pontiac, will meet at the Municipal Court in said City, on the 1st. day of September A. D., 1953 at 8:00 o'clock P. M., to review said assessment, at which time and place opportunity will be given all persons interested to be heard.

Dated August 26, 1953

ADA R. EVANS,
City Clerk
August 27, '53.

Notice of Intention to Construct combined sewer on north and south side of Walton Boulevard from New York Street to Stanley Avenue; and in Stanley Avenue from Walton Boulevard to Brooklyn Avenue and in Chicago Avenue from Stanley Avenue to Carlisle Avenue.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held on the 25th day of August, 1953 by resolution, it was declared to be the intention of the City Commission to construct combined sewer in North and South side of Walton Boulevard from New York Street to Stanley Avenue; in Stanley Avenue from Walton Boulevard to Brooklyn Avenue and in Chicago Avenue from Stanley Avenue to Carlisle Avenue at an estimated cost of $31,773.50 and that the plan, profile and estimate of said improvement, is on file in the office of the City Clerk and may be found there for inspection.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to benefits and that the following lots shall constitute the special assessment district to defray $16,117.42 of the estimated cost and expenses thereof and that $15,656.08 of the estimated cost and expenses thereof shall be paid 40% from the Sewage Treatment Funds and 60% from the Capital Improvement Funds.

Marimont Subdivision—Lots 49 to 83 incl., 385 to 426 incl., Lot 519 Pontiac Telegraph Road Subdivision—Lots 212 to 240 incl., 248 to 259 incl., Assessor's Plat 156—Lots 1 to 35 incl. that the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

NOTICE IS HEREBY GIVEN

That the Commission of the City of Pontiac, Michigan will meet in the Municipal Court on the 1st day of September, 1953 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

W. O. 2593

Dated August 26, 1953.

ADA R. EVANS,
City Clerk
August 27, '53.

Death Notices

CALVIN, JR., AUGUST 26, 1953, Henry, 201 Hughes St., age 48; beloved husband of Mrs. Sarah Walker Calvin; dear brother of Mrs. Anna Booker, Mrs. Linnie Davis and Mrs. Ann Gilmore, Willis Calvin and King Calvin. Funeral service and interment will be held in Westfield, Massachusetts. Mr. Suchocki was sent to the Czelusniak Funeral Home. Funeral arrangements by the Huntoon Funeral Home.

In Memoriam 1

IN MEMORY OF OUR BELOVED son Garry M. McCurdy, who passed away August 27, 1952, is sadly missed by his dad, mother, sister and brother.

OUR SON

A Bud that blossomed in our home,
And filled our hearts with cheer,
Brought sunshine to our hearts and minds,
Each day a bright new year.

Each day a solace, each a smile,
Till death untimely call,
Brought heartbreak, sorrow to our lives,
In darkness like a pall

Each day brings parting's sorrow,
And only God can know,
The lonely hearts that miss him
No matter where we go.

We know he walked with Angel Bands,
Under the heavenly care,
And love and tenderness are his
Because he's in God's care.

Card of Thanks 2

WE WISH TO EXTEND OUR heartfelt thanks and appreciation to our many friends and neighbors for their acts of kindness, messages of sympathy and beautiful floral offerings received during our recent bereavement in the loss of our husband and father, Charles A. Seaton. Special thanks to the Rev. Howard Schoof and the Huntoon Funeral Home. Mrs. Charles Seaton and family

BOX REPLIES

At 10 a.m. today there were replies at the Press office in the following boxes:

8, 14, 15, 18, 25, 27, 28, 29, 56, 57, 82, 84, 88, 101, 102, 105, 115.

The Pontiac Press
FOR WANT ADS
DIAL FE 2-8181
From 8 a.m. to 5 p.m.

All errors should be reported immediately. The Press assumes no responsibility for errors other than to cancel the charges for that portion of the first insertion of the advertisement which has been rendered valueless through the error. When cancellations are made be sure to get your "kill numbers." No adjustments will be given without it.

Closing time for advertisements containing type sizes larger than regular agate type is 12 o'clock noon the day previous to publication.

Transient Want Ads may be cancelled up to 9:30 the day of publication.

FIRST TELETYPE MESSAGE — Oakland County Sheriff Clare L. Hubbell looks at the first message received on the county police teletype system which links 10 cities with the sheriff's department. The system which went into operation Wednesday, also connects with Wayne County sheriff's, Detroit police, and Secretary of State's teletype lines. The network will speed up emergency police reports.

Law Would Invalidate Licenses in Skid Rows

LANSING (UP)—A new law permitting local officials to invalidate liquor licenses in skid rows was proposed today by the Republican policy committee.

The committee suggested that local officials be permitted to designate "blighted areas" in which all liquor licenses would be eliminated.

The proposal is an effort, a committee statement said, "to come to the aid of Detroit officals."

U. of D. Adds Librarian

KALAMAZOO (UP)—Wade Noggle, Kalamazoo College librarian, has resigned to become documents librarian at the University of Detroit Sept. 1.

Gibson Reveals Plans

GREENVILE (UP) — The Gibson Refrigerator Co. plans to return its refrigerator manufacturing operations from Belding as soon as it completes its current contract for airplane frames. President C. J. Gibson Jr. said no new air frame contracts would be sought, but that the company would continue to manufacture shells.

Berlin 'Off Limits'

BERLIN (UP)—The Soviets and East German Communists today put Berlin "off limits" to all East Germans seeking to reach the city to collect "Eisenhower food parcels."

Cornell Cosmopolitan in Student Enrollment

ITHACA, N. Y. (UP)—Cornell University is developing a really cosmopolitan student body.

Lates figures from the university disclosed that 448 students were enrolled from 69 foreign countries. Fifty-four are women.

Canada has the largest representation, with 86, followed by China with 35 and Germany with 33.

If a boy in El Salvador wants to serenade his girl friend in traditional Spanish fashion he must first pay $2 for a permit.

Know a Prepugnalegiast? There Are Millions!

BALTIMORE (UP)— How many prepugnalegiasts are there in the United States:

The match industry says there are probably 29 million. And what is a prepugnalegiast? It is a person who reads the match book cover before striking the match.

At least, so he's been defined by Dr. J. E. Schmidt, a Baltimore lexicographer. At any rate, surveys show that three out of every eight persons who carry match books — and there are 79 million of them in the United States — can recall the message on the match books in their pockets without looking to check up.

Scientists can tell where porcupines were most numerous in past years by boring trees and noting which rings are gnawed the most.

(Adertisement)

FOR ATHLETE'S FOOT A KERATOLYTIC IS A MUST

What is a keratolytic? An agent that deadens the infected skin. It then peels off, exposing more germs to its killing action. Get T-4-L, a keratolytic, at any drug store. If not pleased IN ONE HOUR, your 40c back. Today at Simms Bros.

Not 1—Not 2—Not 3 BUT 4 BLANKETS

Yes, it's true—4 blankets—to cover the whole family, and all 4 for what you'd expect to pay for 2—on pin-money credit terms. You've seen these famous CANNON blankets advertised in the better magazines. You've admired them in the better homes. You'll revel in their luxury, warmth and beauty in your own home. They're as soft as a cloud and will wrap you in such snugly warmth, you will be lulled into restful sleep every night—for years.

4 Decorator Colors

Alpine Green *Wild Rose* *Hawaiian Coral* *Midnight Blue*

You get all 4 of these famous CANNON Blankets one of each color—Alpine Green, Midnight Blue, Wild Rose and Hawaiian Coral, closely woven, fleecy soft, rich in texture and will launder perfectly. 5% wool, 25% rayon, 70% cotton. Beautifully tailored with a shimmery, rayon satin binding and big enough—72 x 84 inches—to tuck in securely. The value is so outstanding they're sure to sell out. Better order your set of 4 blankets today. You'll be glad we urged you.

3 In. Satin Binding
