House Speeding to Freeze Farm Price Supports

Brush Off Veto Threat, Push for Early Vote on Senate-Passed Bill

WASHINGTON (AP)—The House Agriculture Committee, operating under speed-up orders, was expected to approve today a Senate-passed resolution which would freeze farm price supports at last year's level.

House leaders brushed off the threat of a presidential veto to push for completion of preliminaries in time for a final House vote on the resolution before the end of the week.

Despite farm bloc differences over the proposal, the resolution was expected to pass the House by a substantial margin and go to President Eisenhower by Thursday or Friday.

Its fate at the White House was uncertain.

Secretary of Agriculture Benson told newsmen last week he would recommend the veto of any price support change.

His assertion was backed up by some GOP House members who oppose the proposal as undesirable "stop gap" legislation.

★ ★ ★

By holding the level of government farm aid at 1957 figures, the bill would cancel out Benson's plans to drop dairy price supports April 1 to the legal minimum and to move in the direction of further lowering of basic crop supports.

But the resolution was viewed as a symbol of defiance to Benson by Democrats and a bloc of rebellious Midwestern Republicans who have been gunning unsuccessfully for Benson's ouster.

How Navy Expects Vanguard to Operate

★ ★ ★ ★ ★ ★

CAPE CANAVERAL (AP)—This is the way the Vanguard launched today is programed to operate:

The first stage, 44 feet long, was to burn for about two minutes.

Designed to provide about 65 per cent of the energy needed to raise the satellite to orbital altitude and 15 per cent of the required orbital velocity, the first-stage engine would push the missile to an altitude of 38 miles some 28 miles down the missile test range extending southeastward across the Atlantic.

Six explosive bolts would separate the first stage from the second, and the spent first stage would fall away and drop into the Atlantic about 230 miles from Cape Canaveral.

The second stage contained the guidance "brain" of the Vanguard rocket, a basketball-sized device containing three ultra-accurate "floated" gyroscopes and a maze of electronic devices.

This system was to guide the vehicle through the first and second stages of powered flight and the third coasting phase of the flight. Just before the third stage and its satellite were nudged ahead into an orbit, the guidance system would provide a final heading control to assure a successful orbiting.

★ ★ ★

The second stage, 31 feet long and 32 inches in diameter, also had in its nose—within what actually was the nose of the composite vehicle—the third - stage rocket and the satellite.

Shortly after the second-stage engine was to take over, an explosive bolt would release a spring which would split the nose cone. The cone, shielding the fragile satellite from air-friction heat of 1,500 degrees, would no longer be needed in the thin atmosphere more than 35 miles above the earth and would fall away.

The second-stage engine was designed to burn for 2 minutes, boosting the rocket speed to 9,000 miles an hour, and would sputter out at an altitude of about 130 miles.

After its burnout, the second (Continued on Page 2, Col. 4)

Blow to Hopes for Car Tax Cut

Reduction Firmly Tied to General Levy Slash Proposal in Washington

WASHINGTON (AP) — Hopes for a reduction in the auto excise tax appeared firmly tied today to prospects for a general tax cut despite efforts of Michigan congressmen.

Futile Michigan attempts for quick and separate action on the auto tax last week left in their wake:

1. General belief here that all the conversation about a decrease in auto prices through tax reduction will further discourage buying at a time that it is needed most.

2. A serious strain in the previously cordial relations between Sen. Potter (R-Mich) and the White House.

Michigan congressmen of both parties have contended that the longtime unemployment situation in Michigan and the automotive industry's key position in the economy makes emergency action imperative.

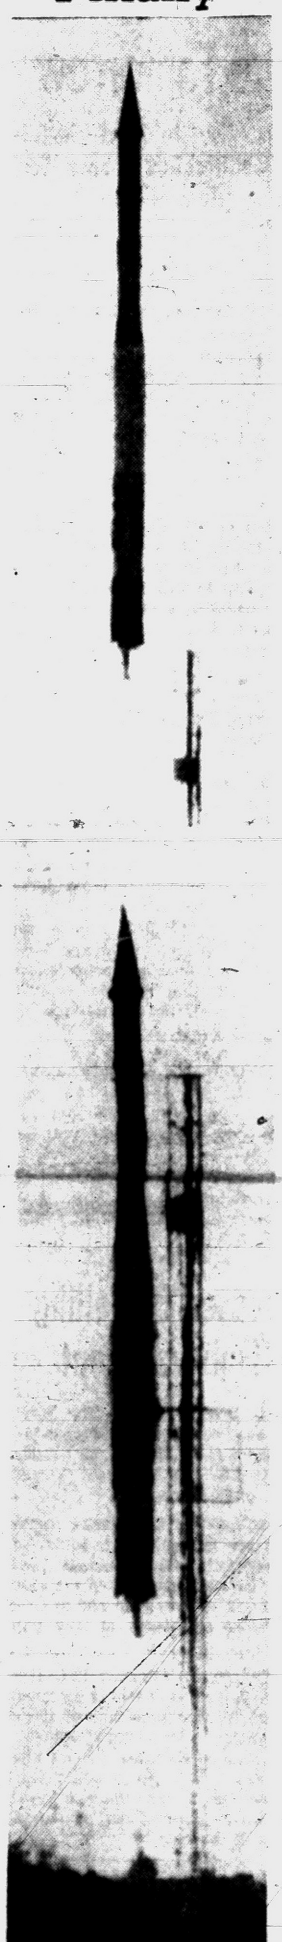

★ ★ ★

But they have been faced by a formidable bipartisan coalition of congressional and administration leaders who don't think the auto tax should be treated any differently than any other tax.

ONLY CHANCE

Potter conceded today that the only chance for auto tax relief (Continued on Page 2, Col. 1)

Finally Navy's Rocket Soars Perfectly to Launch Moon

Ike Reveals Success 2 Hours, 23 Minutes After Blast-Off

CAPE CANAVERAL, Fla. (AP) — The Navy's Vanguard rocket hurled the second U. S. satellite into orbit around the earth today.

With its back to the wall after two highly publicized failures, the Navy launched the Vanguard on one of the most perfect flights ever seen at the nation's missile test center.

Belching fire and smoke, the slender gray-green rocket left its launching pad at 7:16 a.m.

Two hours and 23 minutes later, President Eisenhower told the world the trouble-plagued Vanguard had succeeded in the the space mission for which it was created.

His announcement that the Vanguard's tiny "moon" was circling the earth with the Army's Explorer I and the Soviet Sputnik II touched off a celebration in Navy circles here and among personnel of the Martin Co., which built the rocket.

★ ★ ★

The Army launched Explorer I with the Jupiter - C missile here Jan. 31.

PERFECT PRECISION

In sharp contrast to previous Vanguard countdowns, today's preparation of the rocket went off with perfect precision.

★ ★ ★

So smoothly did the rocket make its way into space, observers here were certain long before the President made it official that the Vanguard had done its job.

Test-range instruments indicated that the rocket's three stages and the small "moon" in its nose separated successfully, Cmdr. Vincent Thomas told reporters in Washington.

John P. Hagen, director of the Vanguard project, flashed a broad grin and sighed, after hearing a telephoned description of the Vanguard's smooth flight.

★ ★ ★

The Vanguard thundered off its launching stand to the cheers of watchers who had seen two previous firings end in flames and discouragement.

The launching was primarily an experiment in the capability of the three-stage rocket to climb 200 or more miles and then angle into a horizontal course.

SHEER PROFIT

If it succeeded also in depositing the 6.4-inch sphere in its nose into an 18,000-m.p.h. orbit, this would be sheer profit with the Vanguard satellite joining with Explor-

120,000 Marching in St. Pat Parade

NEW YORK (INS)—Sure and the weather man says here might be a few nippy little clouds over the 120,000 t. Patrick's Day marchers on New York's Fifth Avenue oday, but not enough to put the Irish in the shade.

Not, of course, as if any thing really could on the day f days for the Shamrock.

In Boston, the first of an anticipated 200,000 viewers oday braved snow flurries to gain choice viewing spots or the annual parade, highlight of the dual observance of St. Patrick's ay and Evacuation Day.

New York's grand parade in honof Ireland's patron saint is exected to be the biggest ever.

It was scheduled to start moving at noon, sharp, and proceed up Fifth Avnue a distance of 2½ miles with the last marcher passing the finish line about supper ime.

Ex-Dublin Lord Mayor Robert iscoe will be on the official reewing stand, along with the pres- incumbent, James Carrol. Also hand will be a couple of Irish-a-day, New York Mayor Robert Wagner and Gov. Averell Harman.

★ ★ ★

And they won't be the only ones. me 800,000 were expected to be t in spring-like fortyish temperares to watch the 54-battalion colnn of marchers stride up the enue.

On the steps of St. Patrick's athedral, Francis Cardinal pellman and other Roman Cathlic prelates will review the vent.

Fifth avenue itself has a green ip painted down the middle in nor of the day.

★ ★ ★

But the marchers may find one ck where the green stripe has en freshly painted over a diftent color. That's the spot where lice officers last night found four llege youths redoing the stripe th orange paint.

Police details worked all night ting out wooden barriers to hold ck the predicted crowd of specors.

Green Topknots Distinguish 5 in Milford Family

Celebrating St. Patrick's Day in **true Irish fashion, five of the six** Noon children in Milford dyed their hair green last night, as their unsuspecting parents watched television.

Archie Noon's children, whose ages range from 15 months to 15 years, live in a big house at 405 Hickory St., along with their grandma, Mrs. Bridget Noon, who was born in Dublin, Ireland.

The children are not "green" at this stunt, as they did the very same thing last year. Their mother had warned them not to get into the food coloring again this year, but because "their gramdma came from Ireland," the fun-loving inherited characteristics won over parental discipline.

★ ★ ★

All but 15-month-old Brian are topped with green. There is Ned, 8, Deidre, 9, Susan, 11, Erin, 13, and Bridget, 15, all attending school in Milford. Their father owns and operates an insurance agency on Main street.

Recession Nearing End?

CLEVELAND (INS) — Steel Magazine said today five business barometers indicate that the recession may be nearing its end. The metalworking publication noted that some favorable signs have appeared in the field of construction, machine tool orders, car sales, coal and freight carloadings.

DSR Transfer Costs 5c

DETROIT (INS) — Detroiters start paying five cents for DSR bus transfers today but they had better not drop their nickels in the fare box. The DSR points out bus drivers will have to pay for every transfer they give out so patrons must give their nickels to the operators. Riders who mistakenly put their nickels in the box can get a refund slip they can use to get their money back.

Sukarno's Army Rising in Revolt

Fall of Sumatra's Port of Medan May Spread Rebellion in Islands

SINGAPORE (AP) — The fall of North Sumatra's key port, Medan, to a rebellious army garrison touched off speculation today that North Celebes and other island sectors soon would join the spreading war against President Sukarno's regime.

The central government confirmed rebel reports that some 2,000 troops under U.S.-trained Maj. Boyke Nainn Golan had seized the city of 300,000 — Sumatra's largest — yesterday in the second major development since the rebellion in the Outer Islands turned into a civil war nearly two weeks ago.

Obviously alarmed over the turn of events, Sukarno ordered reinforcements dispatched to the Medan area.

★ ★ ★

In North Celebes, in east Indonesia, the rebel commander, Lt. Col. Ventje Sumal, was expected to launch an offensive soon. There also were indications the strongly anti-Communist garrison in West Java might join the spreading revolt.

Neutral South Sumatra also showed signs of swinging over to the rebels.

Sukarno announced that his forces had captured the town of Siak Sri Indrapura in Central Sumatra. He claimed the seizure consolidated the central government's control of the east coast of Central Sumatra. The rebels still hold the west coast and its big port, Padang.

Sukarno also authorized the U.S.-owned Caltex Oil Co. to resume operations in the Central Sumatran oil fields around Pakanbaru. The company suspended operations when the Jakarta forces invaded.

Winter Won't Ease Grip on Pontiac Area

Winter certainly is being persistent.

The U. S. Weather Bureau predicts continued mostly cloudy and rather cold, with intermittent snow flurries tonight and tomorrow in the Pontiac area.

★ ★ ★

The low tonight will be near 30 degrees and the high tomorrow 36-40.

The Weather Bureau's five-day forecast predicts temperatures will average slightly below the normal high of 45 and normal low of 28.

Temperatures are not expected to vary much from day to day. Daily highs will be mostly in the 30s and daily lows near 30. Light snow flurries are expected through the week.

★ ★ ★

The lowest recorded temperature in downtown Pontiac preceding 8 a.m. was 29. The reading at 1 p.m. was 38.

Delay Hoffa Trial for Three Weeks

NEW YORK (AP) — Retrial of James H. Hoffa, president of the International Brotherhood of Teamsters, and two others on wiretap charges was postponed today until April 8.

The retrial, set to start today, was put over because U.S. Atty. Paul Williams is tied up on another case and to avoid recesses during the pre-Easter period.

Hoffa, Owen Bernard Brennan, president of Detroit Teamsters Local 337; and Bernard Spindel, wiretap expert, are charged with conspiring to tap telephones in the union's Detroit offices. Their first trial ended in a hung jury Dec. 20.

Reds Free U. S. Jet Pilot Downed in North Korea

PANMUNJOM, Korea (AP) — The Communists today handed back a U.S. jet pilot shot down over the Red side of the Korean truce line.

Capt. Leon Pfeiffer of Kenosha, Wis., appeared nervous and tense but in good health as he spoke at a brief news conference.

"I am happy to be back," he said, smiling weakly. "It is a wonderful feeling. I am very tired."

Pfeiffer parachuted March 6 after his F86 Sabre Jet was hit by Red ground fire.

He was not hurt and was returned to U.N. control at a meeting of the Military Armistice Commission.

Air Force security officers took him to Seoul to question him about his experiences.

★ ★ ★

Pfeiffer's plane veered over the truce line during maneuvers with the South Korean army on the U.N. side of the demilitarized zone. A Sabre Jet flying with Pfeiffer's escaped.

★ ★ ★

The U. N. Command acknowledged that both planes had violated North Korean air unintentionally, but it accused the Reds of making "an unnecessary armed attack."

Five Burglaries Occur in City

Weekend Robberies Net Little or Nothing Here for Most Part

Five burglaries occurred in Pontiac over the weekend with little or no loot taken in most of them.

★ ★ ★

A grocery store at 48 Putnam St. was entered Saturday through a rear door. Nothing is reported missing.

Taylor's Grocery, 373 S. Paddock St., also was burglarized Saturday by breaking out a glass pane in the front door. Nothing is reported missing.

The home of Mable Sage, 309 Prospect St., was entered Saturday but nothing reported missing.

★ ★ ★

Bethune School was hit by burglars over the weekend through a furnace room window. The main office and supply room were ransacked, but it is not known what is missing.

★ ★ ★

Tiny's Service Station, 984 Orchard Lake Ave., was entered Saturday and Earl's Market, 701 Orchard Lake, was burglarized Sunday. The gas station lost $1 in pennies and $13 in Canadian coins.

The grocery reported its safe forced open, but an inventory of loss has not been made as yet.

Blow to Hopes for Car Tax Cut

(Continued From Page One)

is general tax relief. He voiced hope the auto tax matter would be discussed at tomorrow's White House policy conference between President Eisenhower and GOP congressional leaders.

★ ★ ★

The Michigan proposal for scaling down the 10 per cent auto excise tax to 5 per cent would bring an average reduction of $100 for a low-priced car if the tax relief is passed along by manufacturers and dealers. The 10 per cent tax produced $1,144,000,000 in revenue last year.

Potter, a staunch administration supporter who faces a tough re-election fight this year, came out with a sharp anti-administration line last week as a result of the auto tax battle.

★ ★ ★

He accused the Eisenhower administration of "foot dragging" on the issue after last Tuesday's GOP policy meeting failed to mention auto tax reduction. Potter said Eisenhower had promised him the matter would be discussed.

By E. H. SIMS

Do you know where the ionisphere begins and the stratosphere ends? What is the difference between these two regions?

The ionisphere begins, theoretically, at about 250,000 feet, or 50 miles, from the surface of the earth. The stratosphere begins very near the surface of the earth, only about eight miles out, or at about 40,000 feet.

There is really no good reason for saying that the ionisphere begins at 50 miles out and the stratosphere extends out to that point. In fact, the air is so thin out that far (50 miles) little difference is noticed over a distance of several miles.

In time one of the terms might be dropped and everything beyond the 40,000-foot altitude might be known as the stratosphere or the ionisphere. These names were given the outer spaces before much was known about conditions in these distant altitudes.

EUGENE H. PEARCE

Pontiac Sailor's Rite Tomorrow

Fatally Injured While Hitchhicking Home Last Thursday Night

Last rites for a young Pontiac sailor, fatally injured in a hit-run accident while hitchhiking home on leave Thursday, will be conducted here tomorrow.

Service for Seaman Apprentice Eugene H. Pearce, 19, will begin at 1 p.m. at Donelson-Johns Funeral Home with Dr. Milton H. Bank, pastor of Central Methodist Church, officiating. Burial will be in White Chapel Memorial Cemetery.

Son of Mr. and Mrs. Thomas H. Pearce, 61 Vinewood St., Eugene was on 30-day leave from his ship in San Francisco when the accident occured on U.S. 40 near Collinsville, Ill. east of St. Louis.

Relatives said troopers found his uniformed body lying along the roadside Thursday night. They did not know who was driving the car.

★ ★ ★

The Pontiac youth had just completed his initial cruise aboard his first ship, the aircraft carrier Midway. He joined the Navy in Pontiac Dec. 31, 1956 and underwent recruit training at the Great Lakes (Ill.) Training Center.

Born July 19, 1938, Eugene was graduated from Webster and Washington Junior High schools and before enlisting attended Pontiac Central High School through the eleventh grade.

★ ★ ★

Besides his father and mother, Iva, he is survived by four brothers, a half-brother and two sisters. They are Robert, William, Russell and Diana Pearce, all at home; Leonard G. Barker, 987 Berwick Blvd. and Mrs. Alice Johnson, 2253 Hampton Rd., White Lake Township.

Accused of Stalling in Embezzlement

DETROIT (INS) — The Wayne County Prosecutor's office has been accused of stalling in the handling of the $15,000 Nephrosis Foundation embezzlement.

Officials of the charity organization charged that Arthur J. Koscinski, chief assistant prosecutor who investigated the case, refused to prosecute and advised against a release of any publicity.

William J. Kronner, Detroit attorney, confessed taking the money while he was president of the organization's Michigan chapter.

Koscinski defended his action by saying it is police policy not to prosecute if restitution is made. Kronner returned the money plus $250 of his own.

Weather Gloomy in Most Sections of United States

By THE ASSOCIATED PRESS

Skies were clear in the Southeast today but gloomy weather with cloudiness, snow or rain, prevailed in most other sections of the country after a weekend of storms in some areas.

★ ★ ★

More snow fell in much of the northern and central Rockies as late winter storms dumped heavy snow in Colorado and Wyoming. The snow increased in Kansas during the night while flurries fell in a belt eastward across southern Missouri and into the Ohio Valley.

★ ★ ★

Showers spread eastward from the Southern Rockies into Texas the Southern Plains produced freezing drizzle through western and central Oklahoma. Rain was indicated through the lower Mississippi Valley and into northern sections of the Gulf states.

★ ★ ★

Violent winds and heavy snow struck New England over the weekend. Thousands of homes were without power as utility poles snapped in winds up to 70 m.p.h. Hardest hit were areas in Maine, southeastern New Hampshire and Massachusetts. Snow in some seations measured 15 inches.

★ ★ ★

Local flooding hit many sections of southern California after five straight days of heavy rains.

Kin of Mamie Testifies Today

FCC Probers Argue Over How Far to Look Into Moore's Affairs

WASHINGTON (AP) — Col. George Gordon Moore, a brother-in-law of Mrs. Mamie Eisenhower, goes before a House subcommittee today amid disagreement among its members over how deeply his affairs should be probed.

★ ★ ★

Moore volunteered earlier this month to repeat under oath his denial of allegations that he played a key role in the Federal Communications Commission's award of a valuable TV license in Miami to a subsidiary of National Airlines.

The subcommittee has been investigating charges of influence on behalf of various applicants for TV Channel 10. A federal grand jury also is looking into the matter, and the FCC has moved to reconsider its grant.

★ ★ ★

In a letter to Subcommittee Chairman Harris (D-Ark), Moore acknowledged a social acquaintanceship with G. T. Baker, National Airlines president. But he said allegations that he engineered the award to the National Airlines subsidiary had "no basis whatever in fact." He also said he has "no interest, financial or otherwise in that or any other application" before the FCC.

★ ★ ★

Moore's denial came after A. Frank Katzentine, a Miami Beach radio station operator who lost his bid for Channel 10, testified a friend told him Moore arranged the grant to National. But last Thursday Alfred Barton, the friend, denied giving Katzentine such information. He said Katzentine misinterpreted a telephone conversation.

★ ★ ★

There also has been testimony that Moore was associated with two National Airlines directors in a Dominican Republic shipyard venture in which funds allegedly were furnished by dictator Rafael Trujillo. The two directors were named as George W. Gibbs Jr., Jacksonville, Fla., and John W. Cross of Washington—not the John Cross recently nominated to the FCC.

★ ★ ★

During the weekend, Harris and Rep. Joseph P. O'Hara of Minnesota, senior Republican on the investigating subcommittee, said they were against questioning Moore on this Dominican venture unless it relates to the Channel 10 case. Several committee informants said investigators had not established a connection between the two matters.

★ ★ ★

But Rep. Moulder (D-Mo) said the "understanding" while he was subcommittee chairman was that Moore's affairs would be examined more deeply. "They just haven't made any investigation of it," he said.

Income Tax-Fax

Information on preparing your income tax return, issued by the Internal Revenue Department.

MORE THAN ONE-HALF SUPPORT

In order to claim children as dependents you must provide more than one-half the support of each child claimed. In the event the child was under 19 at the end of 1956, and earned any amount of money, you can still claim him as a dependent if you furnished over one-half of his support.

For each child under 19 that over one-half support is furnished you can claim a $600 exemption deduction.

If a child earned $600 or more and provided one-half or more of his support, he is nobody's dependent. If a dependent was born or died during the year an exemption deduction of $600 can be claimed if the above tests are met for that part of the year in which the dependent was alive the full $600 should be claimed.

★ ★ ★

It is not necessary that a dependent's income be added to yours—even though you are entitled to the exemption deduction.

Pontiac Press Photo

IT'S THAT DAY — Two Hollywood Irishmen, Pat O'Brien and Jimmy Gleason, display elfin grins for St. Patrick's Day. O'Brien had harsh words for "professional Irishmen."

Begorrah, Indeed, Pat Declares

Sure, and O'Brien Slaps at Professional Irishmen

HOLLYWOOD (AP) — Pat O'Brien, — that's right, Pat O'Brien — said today he can't stand professional Irishmen.

★ ★ ★

"You know the kind," the actor told a reporter, "the guy who cries in his green creme de menthe the minute a high-pitched whisky tenor breaks into 'Ireland Must Be Heaven.'"

His remarks startled his colleagues on the Columbia sound stage where he is making "The Last Hurrah," a story of a famed Irish political boss. His coworkers boast such fine Italian names as Spencer Tracy, Frank McHugh, Jimmy Gleason, Edward Brophy and director John Ford, who changed his name from Sean O'Feeney.

"I know this set looks like a road company of Dublin's Abbey Players," said O'Brien, "but I still hate professional Irishmen."

O'Brien admitted his hi-fi collection includes a dozen albums of Irish songs but only "because my kids like them."

The O'Brien children are named Mavourneen, Sean, Terry and Kathleen Brigid. His wife picked the names, O'Brien explained.

★ ★ ★

Pat also drives a big limousine painted kelly green but that, he said, is just a coincidence.

"It was the only color in the salesroom when I was ready to buy."

Another O'Brien peeve: the guy who is a rabid follower of Notre Dame football although he never saw or attended the school.

★ ★ ★

O'Brien's biggest pain is the guy who uses expressions like "begorrah."

"I spent time in Ireland and I never once heard the word. Actually, it was invented by an American burlesque comic, Pat White."

As he talked, an assistant director interrupted to tell him that director Ford wanted him on the set.

"The back of me hand to him," said O'Brien.

Americans averaged 238,000,000 phone calls a day in '57. And most of these, says the Arkansas City Traveler, came just as the family was sitting down to dinner . . . Isn't it amazing how every generation comes up with a new way to waste its precious youth? — Earl Wilson

How Navy Expects Vanguard to Operate

(Continued From Page One)

stage would continue to coast upward until it reached orbital altitude of about 300 miles. This 3½-minute coasting period was a crucial one because it was here that the electronic guidance must make sure that the Vanguard was on its proper course. During this powerless glide the vehicle's stability would be controlled by small jet motors fired by propane gas.

★ ★ ★

The final stage of a Vanguard rocket must spin in order to have directional stability. The third stage was scheduled to start spinning when it was 877 miles east off Cape Canaveral, by means of small rockets along the rim of a spin table. Reverse thrust rockets would slow the second stage so that the final stage could coast clear. The "dead" second stage would tumble into the Atlantic about 1,550 miles from Florida.

By this time the rocket speed would have slowed to about 8,500 miles an hour. At this point the third-stage rocket, ignited by a delayed-action fuse, would in 30 seconds double the rocket's speed to the 18,000 miles an hour necessary to maintain an orbit. This would occur 10 minutes after the launching.

A spring mechanism was timed to separate the satellite from the spent third stage and nudge it ahead.

★ ★ ★

With a launching to the east on an equatorial orbit, the satellite would have an inclination to about the latitude of about 35 degrees. This meant it would swing as far south as the southern tip of Agrica and about as far north as Raleigh, N. C.

It was expected to follow an eliptical course ranging between the altitudes of 300 and 1,500 miles, and to circle the earth every 90 to 100 minutes.

In Festivities June 26-28

To Dedicate Straits Span

ST. IGNACE (AP)—Michigan will dedicate its new 100 million dollar Mackinac Bridge during three days of pageantry and fanfare June 26-28. The span was opened Nov. 1.

★ ★ ★

The three-day celebratoin will include three parades, an air show by the Navy and Air National Guard, a beauty contest, a parachute drop by the 101st Airborne Division and a major historical pageant.

Eighty-three girls, one from each Michigan county will vie for the title of Mackinac Bridge queen. A musical concert will be presented by a 200-piece orchestra from the Interlochen National Music Camp.

Other attractions will be power boat, sailboat and canoe races, fly and bait casting exhibitions, and a sports show.

★ ★ ★

Labor leaders will participate in dedicating a plaque honoring five men who lost their lives in building the bridge across the Straits of Mackinac.

Dedication ceremonies in the center of the bridge June 28 will be telecast through a closed circuit to screens at either end for viewing by spectators.

The Day in Birmingham

Elm Street Assessments for Paving Slated Tonight

BIRMINGHAM — Confirmation of the special assessment district for the paving of Elm street from Hunter boulevard to Bower street is scheduled to be made at tonight's City Commission meeting.

The project will include proper sewer and drainage construction to be connected with the existing sewer on the West side of Woodward.

Commissioners also will consider the proposal of the Troy Fire Department to permit the use of Birmingham fire hydrants located near the Watt's Electric Co. on east Maple road.

The request was made by the firm so that it might obtain more favorable fire insurance rates.

Three classes for prospective members of the Congregational Church of Birmingham will begin at 8 p.m. today in the church. Subsequent classes will be held March 25 and April 1.

Seventh and eighth grade pupils will meet Saturday mornings at 9:30 with the pastor.

New members from these groups will be received into the church at a special service April 3.

Frank X. Gross

Service for Frank X. Gross, 6-month-old son of Mr. and Mrs. Franz X. Gross, will be held at 11:30 tomorrow morning at Manley Bailey Funeral Home. Burial will be in White Chapel Cemetery, with the Rev. Harold DeWindt of Kirk in the Hills Presbyterian Church officiating.

The baby died Sunday at the home of his grandparents, Mr. and Mrs. George A. Gross, 1304 W. Long Lake Rd., four days after his arrival here from Germany.

Other survivors are his maternal grandparents, Mr. and Mrs. Adam Voelker in Germany.

Byron L. McNellis

Service for Byron L. McNellis, 69, a former Birmingham jeweler, now of Milford, will be held at 3 p.m. tomorrow at Bell Chapel of the William R. Hamilton Co.

Burial will be in Evergreen Cemetery.

Mr. McNellis died Saturday at Pontiac Osteopathic Hospital after a long illness. A native of Ontario, he operated a jewelry store in Birmingham for 22 years.

Surviving are his wife, Mary F.; a daughter, Mrs. Charles Williams of Milford; a son, Philip J. of Birmingham; two sisters and a brother.

Pamela Diane Peifer

Service for Pamela Diane Peifer, 10-year-old daughter of Mr. and Mrs. Albert G. Peifer, 594 Roanoke St., Blomfield Township, will be held at 8 p.m. tomorrow at Bell Chapel of William R. Hamilton Co.

The body will be taken to Decatur, Ill., for burial.

Besides her parents, she leaves two sisters, Cynthia and Alicia Ann, and grandparents Mr. and Mrs. H. A. Peifer of Decatur and Mr. and Mrs. J. A. Fraser of Colorado City, Tex.

Vanguard Launches 2nd U.S. Satellite

(Continued From Page One)

er I and with the Soviet Sputnik II in looping the earth.

★ ★ ★

The 72-foot Vanguard started up from its launching stand, belching flame and smoke at 6:16 a.m.

The missile climbed vertically for more than 10 seconds, a beautiful sight in the morning sunlight.

The giant rocket put out a trailer of white smoke and part of the rocket could be seen to break away.

This may have been the first stage falling away from the main part of the rocket.

The missile then put out a pink trail of vapor.

SHAMROCK FUEL

Observing that it was St. Patrick's Day, one newsman said, "They must have fueled it with distilled shamrocks."

★ ★ ★

The count-down proceeded with amazing smoothness, even more rapidly than had been the case with the Army's much simpler Jupiter-C rocket that put Explorer I into the skies.

For an hour before the launching the tall gantry crane, or working tower, was rolled away leaving the Vanguard rocket fully exposed to view.

Fifteen minutes later the rising sun highlighted the missile and the frost accumulating on its midsection, icy cold from its liquid oxygen content.

The rising sun pinpointed a huge weather balloon 72 feet tall, the same length as the Vanguard rocket, floating at an altitude of about 40,000 feet.

City Hospital Head Faces Drunk Charge

Carl I. Flath, 49, director of Pontiac General Hospital, was arrested by Orchard Lake Police early Sunday on a drunk and disorderly charge.

Flath was held for three hours at the Oakland County Jail before being released on a personal bond. His arraignment before West Bloomfield Justice Elmer C. Dieterle is scheduled for Wednesday morning.

Flath's car had left Orchard Lake road and smashed through a wooden fence which surrounds the Pontiac Yacht Club property at Wards Point drive on the outskirts of Keego Harbor officers said.

Knight Likely to Win

SAN JOSE, Calif. (INS) — California Gov. Goodwin J. Knight seemed assured today of winning the GOP nomination for the U.S. Senate in the June primary election.

Lenten Meditations

By ROBERT L. DIEFFENBACHER, D.D.

Our failures are very discouraging. They are even more serious when others criticize us and ridicule what we have tried to accomplish. Sneers seem to devastate our whole beings.

Men are so hard on each other. They look down condescendingly on their fellow men.

Failure makes us want to go up or surrender our ambitions. It makes us want to hide.

God is so much more magnanimous than are men. He is more sympathetic. He is completely understanding and patient.

God never gives up. He never recognizes defeat.

Regardless of how badly we fail, God does not forsake us. He is ever present to give us another chance.

He forgives sins which men hold against their friends through life. God never sees man as worthless.

He always holds out a helping hand and offers salvation. We must be doubly aware of God's love during Lent, and treat others as God treats us.

Deaths in Pontiac and Nearby Areas

IRA L. BUFORD

Ira L. Buford, 47, of 443 Harvey St., died Friday after a short illness.

He is survived by his children John W., of Louisville, Ky.; and Theophilus of Pittsburgh, Pa.

Service will be held at 2 p.m. Tuesday at New Hope Baptist Church with burial in Oak Hill Cemetery. The Rev. F. B. Reed will officiate. His body is at Frank Carruthers Funeral Home.

LEVI BUCK

Levi Buck, 85, of 58 Norton Ave., died of a heart attack Saturday at his home.

A city resident for 50 years, Mr. Buck had been in the real estate business in Pontiac, and was formerly a member of the Pontiac Real Estate Board.

He was a member of Roosevelt Lodge 510, F&AM.

Surviving are his wife Adah, his son Albert E., of Grand Rapids and two daughters, Mrs. Albert W. Kleino, of Pontiac and Geraldine, of Detroit. Five sisters also survive.

Service will be at 3 p.m. Tuesday at Donelson-Johns Funeral Home with burial at Oak Hill Cemetery. Dr. Milton H. Bank of Central Methodist Church will officiate.

LESTER G. CARPENTER

Former Pontiac resident Lester G. Carpenter, 67, of Delray Beach, Fla., died suddenly Saturday at his residence there.

He was a Garnd Trunk engineer for 44 years. He was a member of the Brotherhood of Locomotive Engineers and Veterans Association of G.T.R., Detroit Division No. 3.

Surviving are his wife Grace and a son Allister, of Auburn Heights. Two brothers and two sisters also survive.

Service will be at 11 a.m. Tuesday from Dudley H. Moore Funeral Home with the Rev. Theodore R. Alfeback officiating. Graveside service will be held at 2 p.m. at Elkland Cemetery, Cass City.

OTIS COLE

Otis Cole, 73, of 12 Downing Ct., Waterford Township died Saturday at St. Joseph Mercy Hospital after a brief illness.

He was a retired Pontiac Motor Div., employe.

Surviving are his wife Edith, his sons and daughters Mrs. Ronald Dubay, of Leslie; Mrs. Marvin Dubay, of Saginaw; Donald and Jack, of Walled Lake; Mrs. Harry Allen, of Rochester; Mrs. Wendell Stacey of Pontiac, a sister and a brother and 17 grandchildren.

Services will be held at 11 a.m. Tuesday at Sparks-Griffin Funeral Home with the Rev. L. A. Parent officiating. Burial will be in Saginaw.

MRS. WILLIAM W. COCHRAN

Former Pontiac resident Mrs. William W. (Mary Jane) Cochran, 82, of Royal Oak died Saturday after a long illness.

She is survived by her daughters, Mrs. Dorothy Batt, of Bloomfield Hills and Mrs. Margaret Byford, of Holt-Norfolk, England. One sister, of South Wales, also survives.

Service will be held at 2 p.m. Tuesday from St. John's Episcopal Church, Royal Oak, with burial at White Chapel Cemetery. The Rev. Charles C. Jatho will officiate. Her body is at the William Sullivan and Son Funeral Home, Royal Oak.

EBER HAGADONE

Eber Hagadone, 76, of 1490 N. Opdyke Rd., died Saturday in Clearwater, Fla.

He was a retired Grand Trunk employe and a member of Masonic Lodge of Caseville and Brotherhood of Maintenance Employes.

Surviving are his daughters, Mrs. James Shelton, of Clearwater, Fla.; Mrs. Donald Harris, of Rochester, and a son Clare, of Pontiac. His brother John, of Imlay City and sister Mrs. Harry Embee, of Dunedin, Fla., also survive.

Service will be held at 2 p.m. Thursday from Eparks-Griffin Chapel, with burial at Perry Mt. Park Cemetery. The Rev. Douglas Parker, of St. Paul's Methodist Church will officiate.

MRS. ADOLPH HEBENTON

Former Pontiac resident Mrs. Adolph (Ethel M.) Hebenton, 66, of 3454 Springle St., Detroit died Saturday at Detroit Receiving Hospital after a sudden illness.

Besides her husband she is survived by her daughter, Mrs. Richard Day, of Detroit, and a son Glenn E. Newman, of Lansing. A brother, Charles Lake, of Pontiac also survives.

Service will be at 1:30 p.m. Tuesday at Voorhees Siple Chapel with burial at Oak Hill Cemetery. The Rev. James H. Luther of Silver Crest Baptist Church will officiate.

BABY GIRL HOWARD

Graveside services for Baby Girl Howard, infant daughter of Mr. and Mrs. Homer Howard, of 455 W. Walton Blvd., who died Saturday will be held at 9:30 a.m. Tuesday with burial in Babyland of Perry Mt. Park Cemetery. The Rev. Ralph Claus, of St. Trinity Lutheran Church will officiate. Her body is at Sparks-Griffin Funeral Home.

ALFRED E. PORTER

Former Pontiac resident Alfred E. Porter, 56, of Phoenix, Ariz., died suddenly Saturday in Phoenix.

Surviving are his wife, Donna, and children, Margaret Ann, Nancy Jane and Robert, all at home. His mother, Margaret A. Porter of Pontiac, and a sister, Mrs. Nancy Vance of Loon Lake, and one brother also survive.

Service will be held at 2 p.m. Tuesday at the Mercer Mortuary, Phoenix.

JAY W. WELLINGTON

Former Pontiac resident, Jay W. Wellington, 51, of Lewiston, died Sunday morning at Grayling Mercy Hospital after a brief illness.

While in Pontiac, he was employed at Pontiac Motor Div.

He was a former member of the Pontiac Elks, BPOE No. 810, a charter member of No. 581, F&AM, Lewiston; past high priest of Gaylord Chapter No. 119 RAM, and president of the Lions Club, International of Lewiston.

Surviving are his wife Vivian, a son, Robert, of Mt. Morris, a daughter, Mrs. Donna Smith, of Flint, a brother James of Pontiac and a sister Mrs. A. Eveland, of Caro. Nine half brothers and sisters also survive.

Service will be at 2 p.m. Tuesday at the First Congregational Church of Lewiston with the Rev. O. Weber officiating. Graveside service, at Lewiston Cemetery, will be conducted by No. 581 F&AM. His body is at Masonic Temple, Lewiston.

MRS. BELLA SCHOOLEY

DAVISBURG — Service for Mrs. Bella Schooley, 88, of 371 Broadway St., who died Saturday, will be held at 2 p.m. Wednesday at the Davisburg Methodist Church. Officiating will be the Rev. Marshall Saunders with burial in Davisburg Cemetery.

The body will be at the Bendle Funeral until noon Wednesday.

Abraham Lincoln was an enthusiast for new inventions. In the U.S. Patent Office is the model of an invention that Lincoln patented in 1849, a bellows device for lifting ships over shallow shoals.

JUDITH ANN LAKE

Service for Judith Ann Lake, 17, of 228 Florence Ave., will be held Wednesday at 2 p.m. from All Saints Episcopal Church.

Miss Lake, daughter of Mr. and Mrs. Robert Lake, died yesterday at St. Joseph Mercy Hospital after an illness of several weeks.

An 11th grade student at Pontiac Central High School, Miss Lake is survived by her parents and her grandparents, Mr. and Mrs. James Apsey, of Lincoln, and Mr. and Mrs. Lloyd Lake of Birmingham.

She is also survived by her brothers, Robert Lake Jr. and Warren G. Lake, and a sister, Manette Marie Lake, all at home.

Her body is at Sparks-Griffin Funeral Home until 1 p.m. tomorrow; Burial will be in White Chapel Cemetery with Rev. George Widdifield ofifciating.

Deaths Elsewhere

MIDDLETON ON SEA, England (AP)—Charlie Kunz, 61, an American who was one of Britain's best known entertainers for more than 25 years, died yesterday. Kunz, a pianist, was born in Allentown, Pa.

★ ★ ★

SYOSETT, N.Y. (AP) — Robert Elisha Walker, 51, a partner since 1949 in Kuhn, Loeb and Co., Wall Street investment banking firm, died yesterday of a heart ailment. He had been with the firm since 1935.

★ ★ ★

OMAHA (AP)—Ignatius J. Dunn, 90, who nominated William Jennings Bryan for president in 1908, died Saturday. Dunn, who practiced law in Omaha for 60 years, was closely associated with Bryan for many years.

★ ★ ★

CAMBRIGE, Mass. (AP) — Prof. Robert H. Pfeiffer, 66, of Harvard College, one of the world's authorities on the Old Testament and archeological research, died yesterday. He was Hancock professor of Hebrew and other Oriental languages at Harvard and curator of Harvard's Semitic museum since 1931. He had been at Harvard since 1922.

Heart Attack Takes OCKC Veep

Jackson Expires in Ring

One of the Pontiac area's most prominent dog show men and the breeder of a national champion (Frejax Royal Salute) springer spaniel (Madison Square Garden) at the famed New York Westminsters show, is dead. Fred Jackson, who lived in Oak Park, died in the show ring at Flint's IMA, Sunday at 1:30 p.m. while showing his latest Frejax strain springer. For more than 20 years, Jackson had bred and shown springers.

Jackson had apparently been in fine spirits just before the seizure, although he had suffered several heart attacks in recent years, according to his friend, Dr. Bud Buttram of Detroit. Dr. Buttram was first to reach the stricken Oakland County Kennel club's vice president, but he apparently had expired immediately.

Many other OCKC members, who were showing their dogs were shocked at the incident, said Mrs. Fred (Julia) Gasow of Birmingham. Fred's dog was the one that recently won the breed honor at New York. "Mr. Jackson was doing the thing he loved more than any other, when he suddenly collapsed and expired," Mrs. Gasow said today.

The body is at the Crosby Funeral Home in Highland Park, and funeral will take place Thursday.

Says Dems Slow Aid to Jobless

National Chairman for GOP Speaks to Women at Conference

WASHINGTON (AP) — Republican National Chairman Meade Alcorn today accused Democrats in Congress of dragging their feet on a three-year-old Eisenhower proposal for special aid to areas of chronic unemployment.

"Their amazing lack of concrete action stands in sharp contrast with their pious words about the plight of jobless workers," Alcorn said in a speech prepared for a Republican women's national conference.

Alcorn said the Democrats, who control Congress, should stop trying to "sow the seeds of panic" over the recession and get to work on President Eisenhower's proposals aimed at economic recovery.

★ ★ ★

Eisenhower will discuss the economic situation tomorrow in a speech to the roughly 1,700 women gathered for the two-day conference. Vice President Nixon and women at a reception last night.

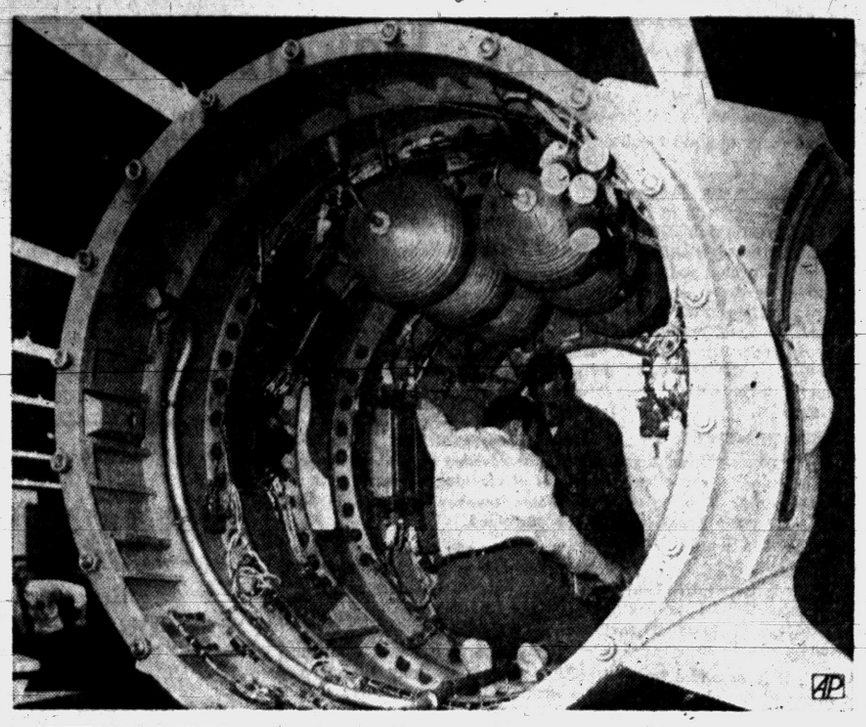

Alcorn, listing steps Eisenhower has taken to reverse the recession, predicted the "effects of these actions will be felt strongly in our economy during the weeks and months ahead."

★ ★ ★

The President's antirecession proposals will have "strong Republican support," Alcorn said, adding: "The Democrat leadership in Congress could make a real contribution to quick economic recovery by taking immediate action on these proposals and by permitting immediate action upon several additional important administration recommendations which have been pending for some time."

★ ★ ★

He said Eisenhower's recommendations for tax relief and other help to small business have been either ignored or enacted in part.

SETTING UP A SECTION — Workmen install equipment in tail section of Redstone missile in Detroit plant. Missile's engine fits into this area in complete assembly. Modified Redstone was first stage of Jupiter C missile in launching U. S. satellite into orbit.

Speakers in Australia Condemn Own Money

PERTH, Australia (AP) — Speakers at the Australian Teachers' Federation here condemned Australia's currency system.

They supported a motion to introduce a system of decimal coinage in place of the present 12 pennies to a shilling and 20 shillings to a pound.

The conference recommended that: The present 10 shillings be made a dollar. The shilling be one-tenth of a dollar. The penny be one-tenth of a shilling.

Collect Data for Giant Missiles

Tiny Rockets Map Space.

FT. MONMOUTH, N.J. (AP) — Small Army rockets that can leap 54 miles into space are probing ahead of giant missiles for information to help the monsters land on target.

★ ★ ★

The diminutive Loki II rockets carry a packet of aluminum confetti which is released and then tracked by radar on the ground as swift air currents carry it away. The device has a 40-inch shaft propelled by five-foot rocket engines.

It provides a quick, accurate map of wind speed and direction, according to the Army Signal Engineering Laboratories, which developed the technique in experiments at White Sands Proving Grounds, N.M., and Cape Canaveral, Fla.

★ ★ ★

Information on winds which have velocities of up to 200 m.p.h. is needed to deliver an intercontinental ballistic missile on target.

The high-altitude winds buffet the rockets and significantly alter their courses over long trajectories.

The Army said the wind charting is also helping develop new weather forecasting theories.

Mass Celebrated by Ousted Priest

BUDAPEST, Hungary (AP) — A Roman Catholic priest who has been excommunicated for serving in Hungary's Red Parliament celebrated Mass here yesterday, claiming he has not been informed officially of the Vatican's action.

★ ★ ★

The Rev. Richard Horvath told newsmen, after officiating in one of Budapest's main churches, that the same position was being taken by two other excommunicated priests — the Revs. Miklos Beresztoczy and Janos Mate. He added that he had made no move to quit Parliament and did not believe the others had either.

★ ★ ★

He defended his work in Parliament, declaring that people came to him to get help for relatives in internment camps or get licenses to work as private craftsmen.

Ontario Town Aids Fatherless Italians

OAKVILLE, Ont. (AP)—This Lake Ontario community of 10,000 people has donated nearly $2,000 a day for an immigrant Italian family who arrived to learn that the father had been killed a week earlier.

More than $10,000 has been put in a trust fund for the two children of Mrs. Carmela Pasut, 35, who arrived from Italy last week to join her husband. He had fallen while working on a railway bridge and been killed, and the news was kept from the family until they reached Oakville.

★ ★ ★

The fund campaign to aid 9-year-old Allisandro and 7-year-old Illiano was started on a local radio station's Italian language program. The Knights of Columbus are sponsoring a benefit concert next Sunday.

Crash Ordeal Kills Airman

Second Flier Survives Accident, 4-Day Trek Through Wilderness

CASTLE AIR FORCE BASE, Calif. (AP)—One of two airmen who struggled through a snowy wilderness for four days after a High Sierra plane crash died last night.

Kenneth Riggs, Merced County coroner, said he believed pneumonia brought on by the 15-mile trek caused the death of Joel Parker Blair, 19, Lewisburg, Mo. He scheduled an autopsy for later today.

★ ★ ★

Blair and Gail Robert Stiles, 20, an airman from Long Beach, Calif., were flying to visit Stiles' father and stepmother at China Lake, Calif., when they crashed late last Monday on 10,000-foot Slate Mountain 35 miles east of Porterville, Calif.

The two Castle Air Force Base airmen hiked through waist - deep snow down the mountainside until Friday, when they met a hermit Indian at the Tule Indian reservation. They had shared some powdered milk and sugar they found the day before in an abandoned trailer.

"For a while it didn't look like we were gonna make it," the two, appearing in good physical condition, said after reaching civilization. "We were a little beat and a little hungry."

★ ★ ★

Stiles was piloting their rented single-engine light plane when they took off for China Lake. He said the plane tore into a tree on the peak after bad weather forced them to a low altitude.

When marriage as last makes a man happy, it's probably his daughter's . . . By the time a woman says to her phone-pal, "Now, I don't want to mention any names . . .," they both understand who she's gonna talk about. —Earl Wilson.

Hal Boyle Says:

Most Shillelaghs Coming From Germany

NEW YORK (AP)—Things a columnist might never know if he didn't open his mail:

That since Ireland lost its great oak forests, most shillelaghs now come from Germany.

★ ★ ★

That there are more than 1½ million people named Smith in the United States, which probably explains why your neighbor may prefer to be known as Smythe.

That a poll recently showed the average corporation president is 50 years old, a college graduate, earned $68,000 a year, and his favorite card game is bridge. Hope they never poll us poker players!

That the reason playing cards are called "pasteboards" is: They are made by pasting together two thin sheets of specially treated paper.

★ ★ ★

That women's hosiery now comes in 450 tints and shades. Isn't that odd, considering that if a man buys a black car today they call him a show-off?

That smoking at one time was prohibited in New England taverns. Today it's all you can do to keep some people from lighting up in church.

That—what can a man believe?—there are more than 1,000 islands in the Thousand Islands. And most Panama hats are made in Ecuador.

★ ★ ★

That Robert Q. Lewis says: "A spinster is a woman who knows all the answers, but nobody asks her the questions."

That probably the smallest religious sect in the country is the Society of Primitive Friends. It has fewer than a dozen members.

That King Henry II of France was a real key executive. He placed three locks on the door of one of his mistresses. And his key—one of the first known master keys—alone would open all three locks.

★ ★ ★

That if you want to become rich and famous, here's a way: simply invent a household paint that will smell pleasant while drying.

That Irwin H. Kramer of the Hotel Edison, after talking to 10,000 guests, has reached this conclusion: "People will believe anything if you tell them it's a rumor."

That spring gardeners might hoe even harder if they realized weeds cost the national economy five billion dollars a year, or $100 a family.

★ ★ ★

That you're an oldtime movie fan if you can remember the name of the first actor to win an Oscar. It was Emil Jannings of Germany.

That Utah has the highest birth rate and the lowest death rate.

Stole Jailhouse Spoons

DALLAS, Tex. (INS) — A prisoner who had served a sentence for theft in city jail was being transferred to county jail on another charge when a jailer noticed the man's clothing was bulging in strange places. A frisking revealed he was trying to leave with 18 city - owned spoons.

U.S. Capitol Building Bursting at Seams

WASHINGTON (AP) — The U.S. Capitol is bursting at the seams, but lots of people don't want to let out the waist line.

For more than two decades there have been proposals to extend the center section of the 165-year-old Capitol's east front.

Now, there is a concerted drive under way to advance the east front by 32.6 feet. A commission set up by Congress recently gave the go-ahead—over loud and bitter opposition.

Architect Frank Lloyd Wright said it would be "absolutely profane" to tamper with the Capitol.

★ ★ ★

Mrs. Frederick Groves, president-general of the Daughters of the American Revolution, called it "vandalism."

Historical societies adopted protest resolutions and sent them to Washington.

But thus far the stand-patters have been repulsed at every turn. The Senate last Tuesday beat back a move to hold up the remodeling plans temporarily.

Foes of the project haven't given up. They're still hopeful of winning passage for a bill by Sen. H. Alexander Smith (R-NJ) that would permit consideration of other plans to add working space to the Capitol.

★ ★ ★

Backers of the extension say it is needed to (1) provide more room for Congress, (2) bring the center section in line with the House and Senate wings and (3) provide a full base for the great dome whose eastern curvature juts into space.

In addition, chunks of the east front's sandstone walls have been dropping away. Thus, say the advocates, now would be the best time to undertake one big expansion project. The sandstone would be replaced with marble.

All of this would cost about $10,100,000, or so it's figured.

However, Sen. Robertson (D-Va) argued it might cost much more—upwards of 110 millions.

★ ★ ★

Capitol architects have long advocated extending the east front. In 1863, Thomas U. Walter reported to Congress:

"The eastern portico of the old building will certainly be taken down at no very distant day, and the front be extended eastward."

Little did he know.

PAY CHECK TOO SMALL?

If time payments and other bills eat away your paycheck, a Seaboard "Package Loan" may help you KEEP more of it.

With our "Package Loan" you may tie your bills together and have the advantage of one account at one place and one convenient, sensible monthly payment instead of the many you may have now.

So why magnify your paycheck shortage? Ask Seaboard about EXTRA CASH NOW!

GOES UP IN FLAMES — Two Romeo volunteer firemen battle to contain fire to barn on Washington Township farm owned by Owen W. Kirkwood. Half filled with hay, the structure was a mass of flames before firemen could get to the scene. They concentrated on saving adjacent and nearby buildings. A neighborhood boy admitted accidentally dropping a match, which set off the blaze.

Lapeer Youth, 20, Charged With Arson in Six Fires

Confession Ends Long Mystery

LeRoy Roberts to Be Arraigned in Justice Court Today

LAPEER — The mystery surrounding the origin of a series of Lapeer fires was lifted today with the issuing of a warrant today for the arrest of a 20-year-old Lapeer youth.

LeRoy Roberts Jr., of 1432 N. Saginaw St. was charged with arson. He has confessed setting six fires, Lapeer Police Chief Matthew Dougherty said.

★ ★ ★

Insurance paid off for five of the fires amounted to $17,383, according to Dougherty. The sixth blaze destroyed a barn on the farm of C. W. Weiblen, 3355 Newark Rd., in 1957. The insurance amount at that barn could not be learned because the owner is away.

Roberts, who lives with his parents, Mr. and Mrs. LeRoy Roberts, made a full confession Saturday when arrested by Dougherty. He became a prime suspect when it was learned he had been in the immediate vicinity of most of the fires.

Dougherty had asked the assistance of State Police Arson Detective Donald Hynes of the Flint Post. Saturday, Hynes examined all the data gathered by local police and stated it was sufficient to make the arrest.

Roberts is in custody in Lapeer County Jail.

According to Dougherty, the youth confessed setting fires to:

1. His own home, when the family lived at 3376 Newark Rd., on April 9, 1957.

2. The home of his grandparents, Mr. and Mrs. James Bird, 1432 N. Saginaw St., on Jan. 30, 1957.

3. An empty house owned by John Weir, 1420 N. Saginaw St., on Jan. 16, 1958.

4. A barn on the Weir farm, 1410 N. Saginaw St., March 4.

5. An eight-room house, 1564 N. Saginaw St., belonging to Arthur Lynch. The house was formerly occupied by Lynch's grandmother, Mrs. Nicholas Stone, until her death.

6. The Weiblen barn, also last year.

The warrent specifically charges Roberts with burning the Lynch home, Prosecutor George D. Lutz said. The youth will be arraigned in justice court this afternoon, he said.

★ ★ ★

Roberts denied any connection with the two barns which burned recently in Elba Township. Since he doesn't know how to drive a car, this eliminates any possibility of him being implicated, the distance being too great, Dougherty said.

LeRoy is a graduate of Lapeer High School, 1956, with a major in art. He was employed for a time at night in a local grocery market.

He was a good student, particularly interested in art, his teachers said.

★ ★ ★

Roberts at first gave what appeared to be an ironclad alibi regarding his whereabouts when the fires were investigated.

The fact that all the places burned were underinsured freed the owners of any suspicion, Dougherty said.

"I feel the boy may need psychiatric treatment," Dougherty said. "He said he loved his mother dearly and was sorry to cause her this unhappiness."

★ ★ ★

Dougherty also said the boy apparently had no close friends.

Police Sgt. Edward Flynn arrested Roberts at the time of the Lynch fire, but he said there wasn't sufficient evidence to hold him.

TO AUCTION CALF IN OXFORD — "Beautena," a registered Holstein heifer calf, will go on the block Friday at a public auction to be held by Oxford High School Future Farmers of America. Scientifically fed for five months at the M. A. Kamm Feed and Granary, Oxford, she is being donated to the local FFA group by her owner, Lionel J. Kamm. Ralph Hickmott Jr. has volunteered his services as auctioneer in the bidding scheduled for 3:30 p. m. at Kamm Mill. Kamm (left), is shown handing the registration certificate to Richard Daly, faculty adviser, while Wayne Moshier (center), Oxford FFA president, admires calf.

Spectacular Blaze Costs $12,000

Barn Set Afire by Youngster

ROMEO — A large barn, valued at about $12,000, was destroyed in a spectacular fire in Washington Township Saturday afternoon. The barn belonged to Owen W. Kirkwood of 11220 30-Mile Rd., two miles south of Romeo.

★ ★ ★

A young boy from a neighboring subdivision admitted setting the fire accidentally when he dropped a match in the hay which half filled the barn, Mrs. Kirkwood said.

The youngster summoned Mrs. Kirkwood when the blaze broke out, then returned to the burning building to lead a riding horse and a pony to safety.

In addition to the barn and hay, a garden tractor and saddles were consumed in the blaze.

★ ★ ★

The fire was out of control before it was reported, so Romeo volunteer firemen concentrated their efforts on saving adjacent out buildings, the garage and house.

The barn was partially covered by insurance.

Fanned by high winds, the flames were visible for miles, drawing hundreds of spectators to the scene.

Son of Madison Heights Mayor

Held for Market Robbery

MADISON HEIGHTS (AP) — Kenneth Ferguson, 19-year-old son of suburban Madison Heights Mayor Lloyd H. Ferguson, is in the city's jail on a burglary charge.

★ ★ ★

Madison Heights police arrested the youth and Larry Morgan, 22, of 23213 Dequindre, Hazel Park, after the A & M Market, 25402 John R, was robbed of about $200 worth of cigarettes, beer and groceries Saturday night.

Kenneth is the youngest of seven children. His father was elected mayor when Madison Heights was incorporated as a city in 1955. It has a population of about 30,000.

"I don't know why he did it," Mayor Ferguson said yesterday. "He didn't need the money. He had been living at home and there was no reason for it."

The youth has been employed in an auto body shop since his recent discharge from the Army.

★ ★ ★

Morgan is unemployed and the father of four children.

Potluck Supper Set at Imlay by Girl Scouts

IMLAY CITY — The Intermediate Girl Scouts will have a potluck supper in the school gym tomorrow at 6:30 p.m. Their mothers will be guests.

★ ★ ★

This is International Friendship Night and costumes and decorations will carry out the theme with each patrol representing a foreign country.

★ ★ ★

Mrs. Jacob Raila, Mrs. Agnus Klikna and Mrs. George Shular will wear costumes from their native country, Lithuania. They will demonstrate how flax is corded, spun, woven and show samples of woven linen.

The Junior High patrol has charge of the flag ceremony.

Library Offering Teenagers More Books Rent-Free

WALLED LAKE — In recognition of National Library Week, Walled Lake Community Library will offer teenagers a wider range of books without special rental fees.

★ ★ ★

National Library Week, with "Wake Up America and Read" as the theme, is from March 16-22.

On Tuesday, Community Library personnel will remove books which appeal mainly to teenagers from the rental shelf and place them on regular shelves.

The library board has granted another special benefit, declaring Saturday as "no fine" day. Persons with overdue books normally pay fines in accordance with the number of days involved.

The volunteer staff is making an effort to compile a history of Walled Lake and Commerce Township.

Mrs. Dorothy Meagley, in charge of community relations for the library, asks persons with historical knowledge of the area to contact her at MA 4-2873.

Senator Urges Reviving RFC

Must Prevent Any Big Business From Folding, Bridges Specifies

WASHINGTON (AP)—Sen. Bridges (R-NH) said today he will lay before President Eisenhower tomorrow a proposal for revival of the Reconstruction Finance Corp. on a standby basis.

★ ★ ★

Bridges, who heads the Senate Republican Policy Committee, expressed confidence the economy will turn upwards soon. But he added in an interview that the upturn might be threatened if some big business enterprise were to crash financially. He mentioned railroads specifically.

★ ★ ★

"We have established almost every kind of setup needed to step in and help the economy except one to take care of a threatened crash of a big business, which could have a terrific psychological impact," Bridges said.

★ ★ ★

"We have provided for small business, we are stepping up public works to help provide jobs and we are providing for the economies of other nations through mutual security.

★ ★ ★

"I think we should revive the RFC on a standby basis and have it ready for action if it is needed. It saved many situations in the past and it could do so again if it became necessary."

★ ★ ★

The RFC officially went out of business June 30 last year, although its lending activities were halted Sept. 28, 1953. It was established in January 1932 during the major depression. From then until it died, it loaned more than 50 billion dollars to banks, railroads, factories and most other kinds of American business.

★ ★ ★

Bridges' proposal topped a series of weekend moves designed to bolster an economy which many members of Congress were saying was fundamentally strong but which needed a stimulus.

★ ★ ★

Sen. Lyndon B. Johnson (D-Tex), who has been active in pushing through the Senate a series of antirecession measures, told reporters he thinks things are looking up somewhat.

★ ★ ★

"I have a great deal more confidence in the economic outlook now simply because the wheels have been set in motion and the government is actively at work to combat unemployment," the Senate Democratic leader said.

★ ★ ★

"The immediate problem is 5,200,000 men and women who need jobs. We are moving rapidly — in cooperation with the executive agencies — to find ways of creating those jobs."

Two Hurt Fighting Washington Blaze

WASHINGTON — Two Washington Township volunteer firemen were injured slightly fighting a fire Saturday night at the home of Michael Cain, 59241 Van Dyke, Washington.

★ ★ ★

Kenneth Buckman, 33, stepped on a nail and Jack Atkins, 35, was hit on the face accidentally by an ax handle.

The fire was discovered by 15-year-old Vernon Cain who was sitting with his three younger brothers and sisters while his parents were in Detroit.

Fire Chief Ralph Sheldon said an overheated wood stove set fire to the chimney. Flames destroyed one interior wall, spread to the attic and partially burned the room. Damage was estimated at about $2,000.

★ ★ ★

Twenty-two township firefighters battled the blaze for about three hours before bringing it under control.

Students Gain National Merit

Seniors in High School at Farmington Score High in Competition

FARMINGTON — Three Farmington High School students, Alayne Celinske, Patricia Johnson and Ronald Rainson, have been commended by the National Merit Scholarship Corporation for their outstanding performances on a nationwide college aptitude test.

The students were Michigan runners-up in the 1957-58 Merit Scholarship competition.

John M. Stalnaker, president of NMSC, believes that the students who received the commendation are in the top one or two per cent in ability in the senior classes of their states.

"While these students did not quite reach the finals of the competition, each of them has demonstrated highly superior ability and outstanding promise to benefit from college training," Stalnaker said.

More than 260,000 outstanding seniors in 14,000 high schools entered the competition this year. Some 7200 students are now in the finals.

Over 1,000 four year Merit Scholarships worth an estimated $5 million will be awarded about May 1.

The Hanging Gardens of Babylon were planted about 600 B.C.

Township Body to Study Budget

Farmington Board to Hold Special Session Tuesday Evening

FARMINGTON TOWNSHIP — The Farmington Township Board will meet in special session tomorrow evening to discuss the budget for the coming year.

When a budget has been agreed upon by board members, it will be published, prior to the April 5 annual township meeting. This will afford township taxpayers an opportunity to study the proposed budget before it is presented at the meeting, said Supervisor Frank J. Stephenson.

This annual township meeting, as provided by law, allows the individual taxpayer a voice in his local government, he said. If items in the budget do not meet with the approval of taxpayers, they can be changed, or other expenditures can be added at this meeting, it was pointed out.

The site for this year's meeting has not yet been selected, but board members are expected to name a site at tomorrow's meeting.

Imlay Girl Scouts Begin First Aid Class Today

IMLAY CITY — The Senior Girl Scouts will begin a first aid class today at the Congregational Church house. Mrs. Harold Schonfeld and Mrs. William Mason will conduct it.

The class will be divided into advanced. This evening the Explorer Boy Scout troop will join them to view two Red Cross movies.

As a gneral rule, it has been majority of voters in countries found that women constitute the which grant equal suffrage.

Wolverine Council to Name Candidate

WOLVERINE LAKE — A special meeting of the Wolverine Lake Village Council will be held tonight at the Village Hall to nominate an eighth Council candidate to appear on the April 7 election ballot.

★ ★ ★

The village charter states that at least two persons shall run for each council position, according to John Finlayson, village clerk.

★ ★ ★

Inasmuch as four Council positions will be open, the village must carry at least eight candidates on the ballot. Since only seven village resident filed nomination petitions, the Council must nominate one candidate by resolution.

Sylvan Manor Group Will Meet Tonight

WEST BLOOMFIELD TOWNSHIP — A special meeting on sewers and roads has been called for 8 p.m. today at the West Bloomfield Township Hall by Stanley Poag, president of the Sylvan Manor Civic Association.

At the meeting, open to all residents of the subdivision, the question of which should come first, sewer projects or the black-topping of roads, will be discussed.

First official United States census was taken in 1790.

Area Students Receive Awards at Fair

Six Get Science Grand Prizes

Four Pontiac students, one from Waterford Township and one from Clarkston each received grand prizes for the science project they entered in the fourth annual Science Fair held Friday and Saturday at Pontiac Central High School.

★ ★ ★

The fair was sponsored by the Linnean Society, PCH biology club.

Special awards were given to three PCH boys for their thoroughness, accuracy and scientific contributions, instead of presenting one grand prize in the biology classification.

Ronald Hoekman, 1740 Hamilton Dr. was awarded a grand prize in zoology for his project, "The Evolution of the Vetebrate Heart."

★ ★ ★

The grand prize in botany, another new award, was given to Richard Serwin, 189 Oneida Rd., who entred a project called "The Effects of Hormone on Plant Growth."

TO BE DISPLAYED

Both projects will be displayed at the Regional Science Fair Saturday at Bowling Green State University in Ohio along with more than 1,200 other projects. Both projects also were displayed at a national science meeting in Indiana in December.

★ ★ ★

"The Classification of the Animal Kingdom," a project entered by John Roush, 326 W. Iroquois Rd., was also granted a special award in the biology division.

★ ★ ★

Reference books were also awarded to the following students for their first-place rating in specific divisions:

Linda Ross, 304 S. Draper Ave., Webster School for the project on rock and minerals in the elementary science division; Frank Spraker of Isaac Crary Junior High School, Waterford Township, for his model of a rocket in the general science division; and Paul Bennett of Clarkston, for the top award in the physics division. Bennett displayed a telsa coil project.

Jon William Gary, 17 Prall St., of Crofoot School, also received superior rating in the elementary science division, as did William Bank, 58 Franklin Blvd., of Pontiac Central, for his project in the chemistry division.

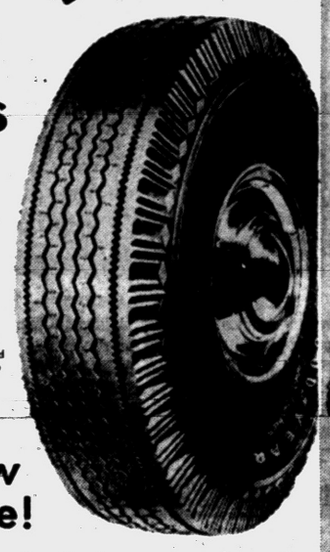

★ ★ ★

Superior ratings in the biology division also were awarded to Bruce Berg 1030 James K Blvd.; John Blamy, 358 W. Iroquois Rd.; James Chamberlain, 557 Montcalm St., and Tony Jerome, 1140 Ottawa Dr. They are all Pontiac Central High School students.

Manfred Husacher of Waterford Township High School also received superior rating in the physics division.

Kearns Goes Out on Limb... Sees Tigers in 2nd

(After spending three weeks in Lakeland, Fla., the winter home of the Detroit Tigers, besides getting a look at all American League teams training in Florida, Bruno L. Kearns, sports editor of The Pontiac Press, has gone out on the limb to pick the Tigers to finish second in the 1958 American League race. Here is the way Kearns sees the major league race.)

EN ROUTE TO PONTIAC—Picking the Tigers to finish anywhere higher than 5th place would be to admit that the trades with Kansas City and Cleveland were good enough to strengthen Detroit to win 15 or 18 more games this season.

At least this is what it would take to go as high as second place ahead of the White Sox and the Red Sox behind the New York Yankees.

★ ★ ★

Making a comparison of the batting averages of the traded players doesn't actually support the Tigers' jump from fourth place to a contender.

Kansas City got Bill Tuttle (.251), Jim Small (.214), Frank House (.259), Kent Hadley (.279 at Augusta) along with pitcher Duke Maas (10-14). Detroit got Gus Zernial (.236), Lou Skizas (.245), Billy Martin (.257), Tim Thompson (.204) along with pitchers Mickey McDermott (1-4) and Tom Morgan (9-7).

Cleveland got J. W. Porter (.250) and Hal Woodeshick (0-0), while the Tigers got Jim Hegan (.216) and lefthander Hank Aguirre (0-1).

★ ★ ★

One thing is almost certain, Kansas City will do well as a result of the trade.

There are no lusty bats anywhere among the new names, yet, how can it be figured that the Tigers will do better in the victory column?

Another question being asked is—will Jim Bunning repeat as a 20-game winner this year? Most likely answer is NO.

★ ★ ★

This answer again does not support an upward move by the Tigers. Then how can the Tigers hope to move up?

We see Detroit making its move on the basis of two factors:

1. **Recovery of form of players like Al Kaline, Harvey Kuenn, Frank Lary and Paul Foytack; a stronger fist for manager Jack Tighe and a better bench at the plate.**
2. **Better balance in the American League with Kansas City and Cleveland winning a few more from the Yanks and White Sox, with pitching their only asset.**

The Tigers have always been rough with the Yanks. This year, unlike last season, it appears that Detroit may be able to scrape up a few more wins with the long ball in Boston, Cleveland, Kansas City and Baltimore.

★ ★ ★

"Potential" is the key word in the 1958 season. The Tigers proved their potential on the team in 1956 with Kaline, Kuenn, Maxwell and Boone all hitting over .300. Last year the same potential was there, but it failed. It could fail again, but this is where we feel the success lies.

All four should be able to come back and hit .300 or close to it. All four are capable of hitting over 20 homers. Frank Bolling can add 20, Zernial if he gets the chance can get another 20 and Skizas is capable of 20. Several are capable of more.

The big flaw statistically last year was in the RBI column. The Tigers failed in the clutch, they were 6th in the league in runs-batted-in.

★ ★ ★

Zernial, Jim Greengrass, John Groth and Gail Harris should give Detroit better plate strength as pinch hitters in comparison to Porter, Finigan or Dave Philley or Jack Dittmer.

Bunning surprised even himself in winning 20 games, while Lary was having more tough luck than a black cat on 13th street. I doubt that Bunning will repeat with 20 because Lary and Foytack should be able to win more. Tom Morgan should be able to win 10 in relief and as an occasional starter, and rookie Bob Shaw could do likewise.

Billy Hoeft should not be expected to get more than 10 or 12 wins. The big lefthander will have to get more serious to do better or equal his 1956 record of 20-14. The "gopher ball" has always been Hoeft's fault. Even Tiger rookies in training camp have thrived with Hoeft on the mound.

★ ★ ★

In supposition, Lary, Foytack and Bunning are capable of 54 wins among them. Morgan, Hoeft, Shaw, McDermott, Aguirre and Sleater should be able to add 36 and these 90 wins should be good enough for second place.

Of course as was mentioned, help must and should come from teams like Kansas City, Cleveland and Baltimore. The White Sox claim one of the best balanced pitching staffs in the league, yet not good enough to handle the Yanks. Big key on the Chisox staff besides Billy Pierce is Dick Donovan whose 16-6 record last year was instrumental to Chicago's position.

The White Sox expect big things from pitcher Early Wynn and Kalamazoo's Ron Jackson at first base this year. There is great doubt in this corner that 38-year-old Wynn will compensate for the loss of Minnie Minoso's bat in the trade with Cleveland.

★ ★ ★

The Athletics appear headed for the first division and the Indians are capable of taking a few more games from Chicago and New York this year.

If Ted Williams has a bad year (which appears unlikely) Boston could fall from third place to rock bottom, and as for the Yankees—let's say it's just habit. The Yankees will win again.

Here's how we see the 1958 American League race:

1. **NEW YORK—Another year and another rookie find for the Yanks. Add Norm Siebern to rookie-of-the-year, Tony Kubek, along with Mickey Mantle (going after $100,000), Yogi Berra (mad over his pay cut), Gil McDougald, Bill Showron, Hank Bauer, along with seven pitchers in double figures of victories, and it looks like the pennant is safe on Yankee Stadium's flag pole.**
2. **DETROIT—This is the time for the .300 hitters and 20 game winners of 1956 to join hands with Jim Bunning of 1957 and some plate help for 1958. Hegan needs only to hit .250 but his experience in catching such greats as Bob Feller, Bob Lemon and Early Wynn may brush off on the Tiger "kids."**
3. **CHICAGO—Disappointment is in store for Al Lopez and the Chisox. Billy Pierce still hasn't found the formula to beat the Yanks and there just aren't enough .300 hitters on the club to move up, in fact there are less without Minoso.**
4. **KANSAS CITY—Thanks to Detroit, the A's will probably surprise a lot of people. House will probably hit better than any Tiger catcher, Jim Small will have his best year and Bill Tuttle will save a lot of games with his ball hawking.**
5. **BOSTON—Still no infield in Beantown. Pitching only fair, but the Sox always manage to stay high up in the batting statistics of the league. As Williams goes so go the Sox, and that appears to be slightly downward.**
6. **CLEVELAND—Herb Score and Bob Lemon aren't enough. The Indians will help the situation by having these two beat the White Sox and Yankees once in a while, but there's nothing in the batter's box to frighten the rest of the league.**
7. **BALTIMORE—The Orioles will hurt at key times, but Kell is gone and Tiger-killer Ray Moore is now in Chicago. Doby won't make a big difference.**
8. **WASHINGTON — Cookie Lavagetto still has Roy Sievers but what else? Tough luck pitcher Charley Stobbs will have another year of woes.**

NATIONAL LEAGUE RACE

Milwaukee looks stronger as does Cincinnati and St. Louis while the other teams show no great improvement. With an improved pitching staff the Redlegs should be able to win a few more games from the Braves, but possibly not enough to push Milwaukee out of the top spot.

1. **MILWAUKEE**
2. **CINCINNATI**
3. **ST. LOUIS**
4. **PHILADELPHIA**
5. **BROOKLYN**
6. **PITTSBURGH**
7. **NEW YORK**
8. **CHICAGO**

Senators Hint Offer for Reno Bertoia

★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★ ★

Neil Chrisley Leads Nats to 10-6 Victory

Foytak Rapped Hard; Griffith Wants Detroit to Make Trade

ORLANDO, Fla. — Saturday the Washington Senators were talking about the possibility of obtaining an outfielder from the Detroit Tigers.

Yesterday the Nats turned their trading thoughts with Detroit to the infield after outfielder Neil Chrisley, who was with Indianapolis last year, blasted out three homers to drive in six runs as the Senators whipped the Tigers, 10-6.

One of the two round trippers he hit off Paul Foytack came with the bases loaded. His third blast was hit off Mickey McDermott.

Manager Jack Tighe left most of his hitters back in Lakeland for fear of injury on the poor playing field at Orlando, where three Tigers players last year fell down because of the bumpy field.

★ ★ ★

Harvey Kuenn, Billy Martin, Al Kaline, Frank Bolling and Gus Zernial missed the trip.

Detroit had 10 hits, two by shortstop Inman Veal plus a homer by Bill Taylor.

Meanwhile amid front-office talk, president Calvin Griffith of the Senators says his club would like to trade "if the Tigers realize they have to give up something to get something."

His aim is to get third baseman Reno Bertoia. Saturday he thought there might be a chance of getting an outfielder.

The Tigers have made it known they would like to get either Clint Courtney or Lou Berberet of the Nat catching corps.

Local Regional Champs Play Flint Tech Wednesday

Troy Gains Quarter-Finals

By CHUCK ABAIR

The unbeaten Troy Colts were three victories away from becoming Oakland County's 1st state champion since 1933 today as they began preparations for Wednesday's rugged quarter-final tussle against Flint Tech.

A win in that one would advance the Colts into the semifinals for the 2nd time in four years. Troy was eliminated by Buchanan in 1955. Orchard Lake St. Mary took Class C honors in '33.

A couple of guys named Wayne Figley and Dick Booth and a tight defense makes Troy a strong threat to keep right on rolling.

Coach Peyton Goodwin has combined his high-scoring pair and close - guarding style successfully all season and did so in gaining Class B regional honors at the Pontiac Central gym Saturday night.

★ ★ ★

The Colts led all the way, despite some anxious moments in the 3rd quarter, in bursting Brighton's bubble 51-36 to make it 20 straight triumphs for the season.

Figley and Booth totaled 29 points for the night and the defense did the rest. The Colts had Brighton scoring ace Brian Watson and his mates bottled up everywhere they turned allowing few good shots.

Brighton made its only real bid early in that 3rd session with eight straight points to decrease the Troy edge to four at 25-21 but the dependable Mr. Figley took over from there just as he has all year for the Oakland B power in crucial situations.

★ ★ ★

The hard-working guard hit three goals in four shots in 4½ minutes and Troy was able to maintain a comfortable edge from late in the period until the final whistle.

Figley's 17 gave him 36 in two regional starts. Booth added 12. Russ Hudson made only one of 15 floor shots but converted 9 of 10 fouls to match teammate Don Appleton with 11 for the losers.

A 14-for-18 free throw record, including seven straight in the 3rd period when Troy started cold, helped keep Brighton in the game.

★ ★ ★

There are no other county quintets still in contention.

BRIGHTON	FG	FT	TP	TROY	FG	FT	TP
Hudson	1	9-10	11	Morgan	1	1-1	3
Appleton	5	1-2	11	Harned	4	0-0	8
Watson	4	0-1	8	Booth	6	0-1	12
Wright	0	2-2	2	Figley	7	3-3	17
Paddock	0	2-2	2	Harris	1	5-13	7
Verellen	1	0-1	2	Roat	1	2-3	4
	11	14-18	36		20	11-21	51

Score by Quarters

Troy	13	12	9	17	—51
Brighton	5	8	13	10	—36

SPORTS

REGIONAL CHAMPS — The Troy Colts won their 3rd trophy of the season by walloping Brighton 51-36 in the Class B regional final at Pontiac Central Saturday to move into Wednesday's state quarter-finals against Flint Tech. Troy stars Dick Booth (14) and Wayne Figley (11) are shown holding the tourney award. Others shown who had a hand in the title clincher are Dave Roat (16), Gary Littleson (10), Don Harned (3), Sandy Morgan (13) and Rod Harris (17).

TUESDAY'S SCHEDULE
Philadelphia at Syracuse

6-3 Triumph Gives Redshirts 3rd Place

Wings Wallop Boston

BOSTON (AP) — The Detroit Red Wings stand alone today in third place in the National Hockey League but they must win two of their four remaining games to clinch the position.

The Wings overcame a year-old jinx and took a 6-3 victory over the Boston Bruins last night. It was the first time since March of 1957 that the Wings had beaten the Bruins in Boston.

The triumph broke a Boston-Detroit deadlock for third place in the NHL. The Wings can clinch the position by winning two of their remaining four games.

Alex Delvecchio and Norm Ullman wielded the big sticks in the Detroit attack, each connecting for two goals. Gordie Howe and Johnny Wilson added the other two.

★ ★ ★

Detroit coach Sid Abel employed an unusual defensive alignment which continually hamstrung Boston bids for breakaways. Delvecchio and Forbes Kennedy alternated in playing behind the Detroit defensemen in the Wings' zone, intercepting Bruin passes and players.

Detroit bunched its first three goals in a 4½-minute stretch late in the first period and the score remained 3-0 until the final stanza. Fleming Mackell, Johnny Pierson and Buddy Bone scored for the Bruins in the finale.

The injury-riddled Montreal Canadiens defeated the New York Rangers, 3-2, Sunday night and tied an NHL scoring record in the process. Jean Beliveau's winning goal in the 3rd period was Montreal's 236th goal of the season, matching the number of goals fired by the Red Wings during the 1950-51 season.

★ ★ ★

In yesterday's other NHL game, the Chicago Black Hawks staved off a 3rd period rally by Toronto for a 3-2 victory over the Maple Leafs.

Union Champ Wins 2 in CIO Tourney

Defending champion Local 594 is in the driver's seat after the first weekend of play in the UAW-CIO League basketball playoffs at Lincoln Junior High gym. The "594" cagers posted two weekend victories in the double elimination tournament.

★ ★ ★

Scoring sprees by Mel Taylor sparked both triumphs. Sunday Taylor pumped in 33 points as the champs handed Local 653 No. 1 a 67-51 trouncing. He made 21 points on Saturday to pace a 69-58 win over Local 596 No. 1.

★ ★ ★

The "653" No. 1 team chalked up a 62-47 victory over the "653" No. 2 unit Saturday behind Chuck Franklin's 19 points. In yesterday's other game, Local 653 No. 2 was eliminated by Local 596 No. 1 as Jim Pembroke tallied 19 points to lead a 97-52 win.

NHL Standings

Snaps St. Fred's Winning Streak

"There's always an end to all things," says St. Frederick girls basketball coach, Joan Mazza, today after her club dropped a heartbreaker, Sunday to Detroit Immaculate, 24-23, in Visitation gym. With the loss went a chance at the Metropolitan area title. The Pontiac girls had been unbeaten in several years and were defending West Side titlists.

City Champs in Tourneys

Three Pontiac basketball champions—Lakeside Royals in Class A, Griff's Grill in Class B and Auburn 5 & 10 in Class D—will represent this city in state recreation cage tournaments starting tonight.

Pontiac Central High's gymnasium will be the host for the Michigan Recreation Association Class A district tourney tonight and Tuesday. The winner of the four-team district earns a trip to the state finals at Ypsilanti.

Birmingham, Roseville, Mt. Clemens and the Royals comprise the "A" field at PCH. The Royals will meet Birmingham this evening at 7 o'clock, followed by an 8:30 clash between Roseville and Mt. Clemens. Winners collide Tuesday at 8 for district honors.

Griff's enters the Class B Inter-City tournament at Detroit's Lasky Recreation Center, 13200 Fenelon, tonight through Thursday. Eleven teams make up the field with Griff's facing the Livonia-Dearborn winner tomorrow night at 8:30.

★ ★ ★

Auburn is Pontiac's hope in the Class D Inter-City tourney at the Hamtramck High School boy's gym. Eight teams are in the "D" field with Auburn meeting Highland Park at 8:30 tonight. Finals are slated Thursday night at 7:30.

Playoffs in all classes are single elimination. There is no tourney offered for Class C teams.

Berra, Mantle Start Hitting

Yankee Bombers Find Range

By THE ASSOCIATED PRESS

Mickey Mantle and Yogi Berra, the big bombers of the Bronx Bombers, have started to get the bat squarely against the ball and today the word went out: "Beware the Yankees."

★ ★ ★

The New York sluggers snapped their slumps and unleashed their lethal power yesterday, leading the Ameican Leaguers to a 4-1 exhibition victory over the World Champion Milwaukee Braves. It was the first meeting between the two teams since the World Series.

Mantle and Berra aroused the entire Yank cast from its lethargic play and lifted New York's Grapefruit League record to 4-5. The Yanks got some solid pitching from veteran Art Ditmar and youngsters Ryne Duren and Al Cicotte, who combined for an eight-hitter.

Mantle stroked two doubles, scoring twice and accounting for one run driven in. Berra slashed a double, added a single and picked up two RBIs.

★ ★ ★

Cleveland's Indians also got a boost when ace pitcher Herb Score finally made his exhibition debut. Sidelined last year when a batted ball struck him in the eye, Score suffered an ankle sprain early in spring training. A 20-game winner in 1956, the young Cleveland fastballer gave up two runs and four hits in a three-inning stint as the Indians bowed to San Francisco 6-5 for their fourth consecutive loss to the Giants.

★ ★ ★

Elsewhere along the Grapefruit and Cactus trail, St. Louis defeated Cincinati 6-3; Los Angeles knocked off Boston 5-1; Pittsburgh edged Philadelphia 6-5 in 10 innings, and Chicago's White Sox clubbed Kansas City 8-2. Chicago's Cubs and Baltimore were rained out.

★ ★ ★

A crowd of 7,872 watched the Yankee sluggers go to work early. Berra doubled Mantle home in the first and the Yanks added a run in the second on hits by Tony Kubek and Jerry Lumpe. Doubles by Gil McDougald and Mantle and a single by Berra accounted for the final two runs in the fifth. Duren gave up the lone Braves tally, wild-pitching it across in the eighth.

★ ★ ★

Score picked up the loss for Cleveland as the Giants stayed on top of the standings with a 5-1 record. Johnny Antonelli started for the Giants and picked up the win, aided by Bob Schmidt's homer.

Stan Musial's three run homer, highlighting a five run eighth, brought the Cardinals their victory. Veteran Hal Jeffcoat was the victim of the Redbird blasting.

New Champs Assured in City Keg Tourney

There will be new champions in every division of the 25th annual City Bowling Tournament for women when the titles are decided this weekend at Huron Bowl.

That became a certainty Saturday and Sunday as all the 1957 winners saw action and were eliminated from contention.

Twin Pines of Pontiac replaced Huron Bowl No. 3 as the team leader with a 3072 total although Poirier's Real Estate posted the high actual series of 2447.

Won't Give Up Texas Areage

Gun - Toting Woman Pitches Tent, Prepares to Fight for Land

WALLER, Tex. (AP) — Mrs. Irene Cliett, 59, remained in her tent today with a loaded shotgun, ready to shoo away anyone who tried to move her from 350 acres.

She has said she will not give up the 350 acres which the federal court in Houston has ruled does not belong to her.

★ ★ ★

She pitched a tent and moved in some household goods. Some neighbors have said they would fight beside her.

Mrs. Cliett said she provided for an old family friend, George Scott, from 1920 until he died in 1933. She said Scott was just a family friend but the courts have ruled he was a partner and his heirs, who sued, were entitled to half of the 703 acres Mrs. Cliett owned.

★ ★ ★

Mrs. Cliett disagreed.

Mrs. Kathryn Matthews, chief clerk of the U.S. marshal's office, said the marshal could take no action until requested to do so by the court.

ABCs on Jobless Pay: Where It Stands Currently

Associated Press News Analyst

WASHINGTON (AP) — This is an ABC on jobless pay — unemployment compensation (UC) — and how it started and where it is. There'll be plenty of talk about it in the next few weeks.

UC is not a dole. The federal government puts no money into it. Neither do the states. The money comes entirely from a tax on employers, based on their payrolls, and in a few states a tax on employes too.

★ ★ ★

The money goes into a fund administered by the federal government which invests it in interest-bearing bonds. Each state has its own account in this fund and draws from it as it needs to.

The fund now has about 8½ billion dollars. In bad years — recession years — more money is taken out than is put in. In the 1954 recession year the fund collected $1,136,000, and put out just over two billion dollars.

NOW OVER $1 BILLION

In the present recession, with unemployment climbing, the fund has put out over a billion dollars since September. When unemployment forces a state to exhaust its part of the fund, the government can lend it money.

Right now there are 5,200,000 unemployed. Over three million are drawing UC. But many workers have used up already all the UC payments for which they were eligible and now are entitled to nothing.

NO HELP TO SOME

About 43 million workers are covered by UC. But millions of working people are not. And, if they lose their jobs, these people cannot turn to UC for help. For example: excluded are farm workers, self-employed, domestics and employes of nonprofit organizations.

★ ★ ★

The UC system was created by Congress in 1935 as part of the Social Security program, with the understanding all states would take part in it. All now do. But each state is allowed to make its own laws for handling UC.

Therefore, there's a wide variation among states on how much a jobless man can get and for how long.

Benefit payments range from a minimum of $3 a week in Mississippi to a maximum of $41 in Wyoming and $45 in Alaska. The average UC payment is $30 a week. A few states give additional amounts to jobless men with dependents.

The length of time a jobless man can draw UC varies too. Thirty-one states have a maximum of 26 weeks. Pennsylvania is the highest with 30. Florida has 16 weeks. Organized labor and some members of Congress call for 39 weeks for all states.

The tax on an employer started out to be 3 per cent on the first $3,000 of each employe's pay. But the government lets states lower that tax for various reasons. Now the tax is running at a national average of about 1.2 per cent on the first $3,000 of payroll, though in some states and on some industries the tax going into the states' funds ranges as high as 2.7 per cent.

Another three tenths of 1 per cent goes to the federal government to cover the cost of administering the fund.

★ ★ ★

So a jobless man who may have earned $5,000 or more a year does not get UC which is a percentage of $5,000 or more. His UC will be a percentage of no more than the first $3,000 of his pay. And the percentage varies by states. A few states pay a percentage on the first $3,600 of income.

WHAT HAPPENS?

With a time limit on weekly payments, many thousands in this recession already have exhausted all the UC benefits they're entitled to. What happens to them?

They're out of luck. President Eisenhower has proposed—in such cases—that the federal government out of its own funds continue giving them jobless pay. He did not say for how long. He may spell it out this week.

★ ★ ★

But this would be a dole, the first of its kind in American history. Congress, of course, will have to pass on it. There'll be a fight—and for many reasons.

★ ★ ★

Some business groups don't want the dole or any enlargement of a UC system. Organized labor shies away from the dole, wanting Congress to pass a bill forcing states to make permanent improvements in their UC systems. And members of Congress have varying ideas of their own.

Jinxed Home of Detroiters Finally Struck

DETROIT (AP) — Michael Payne, 63, and his wife Evelyn, 60, don't have to wait any longer. What they feared for many years would happen has happened.

★ ★ ★

The Paynes live on a jog in a busy street. Between their house and the street is an mpty lot.

Four years ago, a car ran across the lot and hung itself on a fence. Then a car tipped over and landed four feet from the house. A year ago, a car rammed into the Payne garage.

Saturday night, a car smashed into the home.

★ ★ ★

"I thought it was the furnace exploding," Payne said.

No one was injured. No tickets were issued. The driver of the car said she swerved to avoid an oncoming truck. The Paynes are cleaning up.

Company Tools Used

ROANOKE, Va. (AP)—Thieves who cracked the safe of the Southern Refrigeration Corp. here used the company's own tools to do the job. However, they didn't take the tools away with them.

1 Dies as Bus, Car Collide in California

SAN DIEGO, Calif. (AP) — A bus and a car collided in a rain storm a few miles north of San Diego yesterday, throwing the bus to the edge of a 40-foot embankment.

★ ★ ★

The bus' 30 passengers escaped while the vehicle teetered on the edge of the embankment.

★ ★ ★

On person riding in the car was killed and four others were injured in the collision on Highway 101 north of Solana Beach. Two of the injured were aboard the bus.

Dead is Stanley B. Rossi, 31, Long Beach, Calif.

Ohio Air Squadron Has Outclassed Itself

COLUMBUS, Ohio (AP)—The 166th fighter squadron will not join other Ohio Air National Guard units for training at Phelps Collins Field near Alpena, Mich., next summer.

Squadron leaders say the Alpena base's runway is not long enough for the unit's new F84F jets. The 166th will remain at its home station, Lockbourne Air Force Base near Columbus.

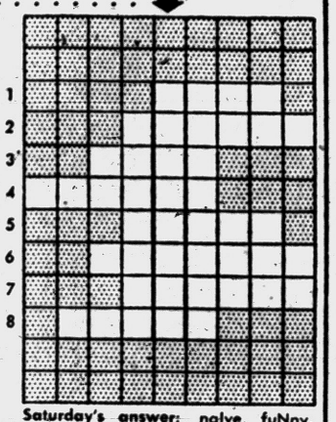

WHAT'S MY LINE?

Hollywood Headlines

Name King Vidor Director of 'Joseph and Brethren'

By LOUELLA O. PARSONS

HOLLYWOOD (INS) — The top of the morning to you, and I have this St. Patrick's day a most interesting bit of news.

King Vidor, whose "War and Peace" was one of the big pictures last year, takes over "Joseph and His Brethren" and it will go before the cameras next summer with Tony Curtis as Joseph. Frank Capra, who was originally set as director, couldn't get together with Columbia and left the studio a few days ago.

This brings out in the open that King Vidor will also direct "The Number One" for George Sidney's own company with a Columbia release and George is negotiating with Tony to be his star.

This emphasizes stronger than ever there will be no letup of motion picture production at Columbia.

Vic Mature, who has been more or less well groomed in recent roles, is getting ready to flex his muscles again playing Messala in "Ben Hur." Without a word leaking out, Vic made a test on a closed sound stage at MGM and now comes up with the second-best part next to Charlton Heston's in the chariot classic.

Vic is a boy who likes to travel so he should be delighted that he gets a long location trip to Rome to film the classic.

★ ★ ★

The most perfect St. Patrick's movie set currently is Walt Disney's "Darby O'Gill and the Little People." This is an Irish special and to add to the gaiety Estelle Winwood, one of Broadway's greats and famed far and wide for her playing of eccentric characters, checked in to play an Irish troublemaker.

Estelle recently finished a film at U-I called "This Happy Feeling" and I hear tell she all but stole the show. "The Madwoman of Chaillot" was Estelle's latest success on the stage.

★ ★ ★

After being in town exactly two days Tommy Sands returned to New York today to enter Lee Strasberg's drama school until a picture now being planned by 20th is ready for him.

Snapshots of Hollywood collected at random: With the birth of a boy to Princess Grace and Prince Rainier the talk has been renewed that Rainier will become king and Grace queen of Monaco.

Vera Newton, widow of the late Robert Newton, is asking for an accounting of Bob's percentage earnings on the picture "Long John Silver" and the TV series based on it.

Frank Sinatra collected $35,000 for his week's engagement in Miami Beach.

The broken left ankle which gives writer-director Philip Dunne a limp resulted from a fall he had when he was chasing a filly—the four-footed variety—on his ranch.

★ ★ ★

You can understand Dean Martin being thrilled over his reviews in "The Young Lions." He's even better than they say he is.

Home looks very good to Greg Peck after those weeks in Mexico shooting "The Bravados."

That's all today. See you tomorrow!

Frank's Sickness Cancels 3 Shows

MIAMI BEACH, Fla. (AP)—Singer Frank Sinatra, who said he is suffering from a sore throat, failed to make three scheduled appearances at a hotel night club last night, leading to a noisy demonstration by disappointed patrons.

★ ★ ★

A spokesman for the hotel said it's hoped Sinatra will be able to appear today. If he can, his performances will be staged in a ballroom to provide room for last night's customers as well as for today's audience.

★ ★ ★

Rumors he and Lauren Bacall plan marriage have kept Sinatra in the news lately.

Great Lakes Historian Dies

Herman Runge Taken From His Marine Data Collected Over Years

MILWAUKEE (AP) — Herman G. Runge, 83, an amateur historian who was nationally recognized as an authority on Great Lakes shipping, died yesterday at a suburban convalescent home.

The elderly bachelor had been in the convalescent home for two months. Before that he lived alone in his small frame cottage, which was jammed with marine data that represented almost 70 years of collecting.

His files, which even were stacked high beside his kitchen stove, included dimensions, tonnage figures and other data on some 90,000 Great Lakes vessels, plus 15,000 pictures of ships. The oldest picture was a drawing of La Salle's Griffin, which sank in 1679.

Runge used to make annual tours of all principal Great Lakes ports, visiting shipping offices, customs houses and steamboat inspectors.

Shipowners, captains and seamen often consulted him to compile the histories of their ships.

Despite his deep interest in shipping, Runge never was a seaman. He began his hobby while he was an apprentice glovemaker here. He later worked for a railroad and was a storekeeper for the Milwaukee Road when he retired in 1933 to devote full time to his hobby.

Traffic Kills 7 Over Weekend

Overcast Weather and Snow Flurries Make Roads Hazardous

By THE ASSOCIATED PRESS

Seven persons died in Michigan traffic over winter's last weekend as overcast weather, sometimes sloppy from wet snow flurries, made driving hazardous at times.

Spring arrives officially on Thursday.

★ ★ ★

The Associated Press weekend traffic death count begins at 6 p.m. Friday and ends at midnight Sunday.

Roosevelt Dillard, 46, of Detroit was injured fatally Sunday when his car and a panel truck collided at a Detroit intersection.

Daniel W. Ivankovics, 33, of Taylor Township was killed Sunday when his pickup truck hit a tree near Taylor Township.

Elmer E. Woizeschke, 59, of Reese and Loretta Sharon, 55, of Bay City were killed Saturday in a two-car collision on M15, eight miles east of Saginaw.

★ ★ ★

Sidney Parketon, 38, of Fremont was killed Sunday when his car collided with another on M82 in Newaygo County.

Elsie Cisco, 20, of Ypsilanti was killed Saturday night when she was struck by a car while walking on M153 in Washtenaw County.

George T. Purdy, 88, of Greenville was injured fatally Sunday in a two-car collision on M57 near Greenville.

Death Notice

ROLLA L. BROWN

HOLLY — Service for Rolla L. Brown, 79, of 1820 Rose Center Rd., who died Friday at his home, will be held at 2 p.m. tomorrow at the Bendle Funeral Home. Officiating will be the Rev. Lewis Sutton of Holly Methodist Church with burial in Rose Center Cemetery.

Surviving is his wife, Dora.

News in Brief

Wallace Trego, of 1927 Grandview Rd., Orion Township, reported to Oakland County Sheriff's Deputies Saturday that someone had broken into his garage and stolen three auto batteries worth an estimated $30.

A two-car collision on Elizabeth Lake Rd. near Lockhaven Rd., Waterford Township, Saturday, slightly injured Shirley Bitler, 8, daughter of Mrs. Maxine Bitler, 28, of 7145 Elizabeth Lake Rd., Waterford Township.

West Side Van & Storage. FE 4-4864. Formerly Smith Moving Co. —Adv.

10-20 Year Sentence for Blasting Home

Terrance McGowan, 58, was sentenced today to 10 to 20 years in prison for the dynamiting of the home of his estranged wife.

★ ★ ★

McGowan made a motion for a new trial after Circuit Judge Frank L. Doty pronounced sentence. The motion was promptly denied and the judge said, "If it wasn't for your age you would have got a straight 20 years."

McGowan threw dynamite into the basement of the modest frame home of his wife, Mae, at 370 S. Edith St., on Nov. 15. She narrowly escaped injury.

McGowan's comment after sentencing was that the trial was unfair.

★ ★ ★

"I only had 25 minutes to consult with my attorney before the trial began," he said. "They didn't take into consideration that I had mixed drinking with the taking of barbiturates."

Passengers Escape as Airliner Burns

MELBOURNE, Fla. (AP) — An Eastern Air Lines plane en route from Jacksonville to Melbourne and Tampa burned at the airport today after hitting a pile of gravel and rupturing a fuel line. All the passengers left the craft safely.

The plane was coming in for a landing when one wheel hit one of several piles of gravel at the end of a runway. This damaged a fuel line.

The plane coasted in for an otherwise normal landing and then began to burn as the seven passengers filed out.

The pilot, R. J. Seibert of Miami, said the gravel blended in with the runway and he did not see it. He said the fire probably started in the brakes about half way down the runway. It blazed up as the passengers got out.

Stockholm Canals Offer Panorama of City

STOCKHOLM — As no one can explore Venice without drifting up the Grand Canal in a gondola, no one can view all the charms of Stockholm without a boat ride through Lake Malar. The Swedish capital, like Venice, is a city of islands, bridges and waterways, a city of ancient stones, sea gulls and fish nets.

Tourists can board a motor launch for a tour of this watery metropolis at the Royal Gardens. The fare is a matter of a few cents for an afternoon's cruise under the bridges and around the islands of the archipelago.

★ ★ ★

Across the rushing channel from the boat pier stands the Royal Palace, a massive structure with hundreds of rooms, completed in 1760. Among the lavish royal apartments open to the public is the Hall of State, which contains the king's silver throne. The king occupies this throne once each year when he addresses the opening session of parliament. This ceremony, an affair of great pomp and tradition, takes place on January 11.

NO ROYAL GUARD

Weekdays, another ritual, the changing of the guards, goes on in front of the palace. Unlike the soldiers in other kingdoms of Europe, the Swedish guards wear field instead of dress uniforms and carry pistols instead of swords. The king himself, by the way, moves about Stockholm without any guard whatsoever. The late Gustav V was once asked where his guards were. "Look around you," he said, pointing at the people, "I have seven million of them."

★ ★ ★

The palace remains in view until the excursion boat moves under a low bridge, heads past the National Gallery and along the fashionable boulevard of Strandvagen. Approaching the park island of Djurgarden, the launch turns into a narrow, tree-lined canal which opens onto a broad, main shipping channel. The passage is jammed with ships en route to the islands and out to the windy waters of the Baltic.

There are 10 thousand islands in the archipelago, criss-crossed by canals and indented with bays.

Everywhere there are parks and playgrounds, modern facades and ancient spires. Credit for the architectural harmony of the city goes to the Stockholm "Beauty Council," an outfit set up to pass judgment on the design of all proposed buildings. Visible from the excursion boat are rows of towering apartment houses, their walls plastered in pastels and their balconies decked with flowers.

PRISON WITHOUT BARS

Aside from the classic monuments of the city, the guide points out a 5,000-room hospital, built ten years ago. Though Swede.1 has not been occupied since 1520, the hospital has an underground section ready for use in case of invasion. Less enormous is Stockholm's handsome, old prison. Few jails in Sweden, incidentally, have bars, and leaves are granted to certain prisoners as often as four times a year.

The launch glides past Waldemarsudde, former home of Sweden's Painter Prince Eugen, who left his art treasures to the Swedish people. High on a bluff overlooking the city, the flags of Skansen flutter in the breeze. This vast open - air museum reflects, in miniature, the cultural history of Sweden. Whole farms, churches and Lapland camps have been moved to this site from all parts of the nation.

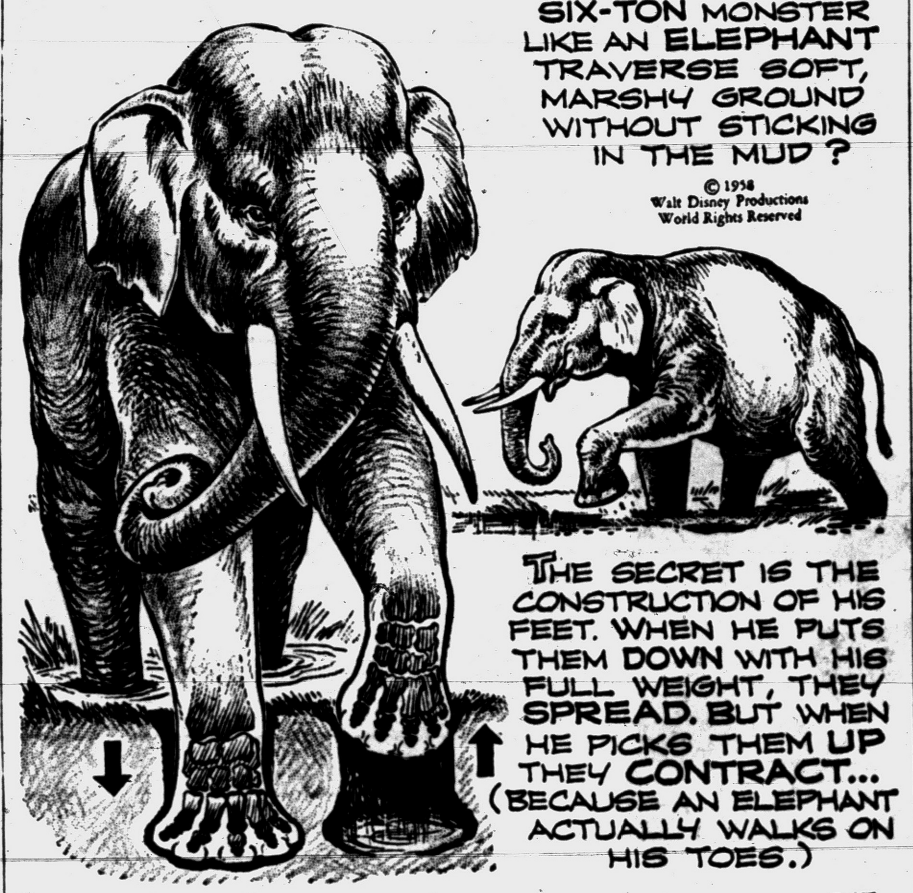

As the cruise returns to its starting point, passengers glimpse Skeppsbron, a long quay where Baltic ships tie up. In the background are the narrow lanes of the Old Town, a part of the city which dates from the Middle Ages.

★ ★ ★

Dominating an ancient square in the Old Town is the Swedish Academy, which awards the Nobel Prize in literature. A splendid ceremony, incidentally, accompanies the presentation of the Nobel prize for chemistry, literature, medicine and physics at Stockholm's Concert Hall on December 10.

When the cruise is over, tourists have seen almost every physical aspect of Stockholm. Few cities in Europe can offer sightseeing on a grand scale in so much comfort.

Basketball Colors Life in Harbor Springs

Strange Things Happen in State Town

HARBOR SPRINGS (AP)—Strange things are happening in this small community at the tip of Michigan's Lower Peninsula.

Four senior girls at Harbor Springs High School had their hair dyed orange and black, four women teachers had their's dyed a fiery red and five men teachers had new brush cuts.

And that's not all—the floor of a favorite town dance hall has settled four inches.

★ ★ ★

The event that touched off this bizarre course of events is the school's basketball team which advanced to the state quarterfinals in the Class C Tournament Saturday night after a so-so 12-5 season's record.

The excitement reached fever pitch when the team defeated Traverse City St. Francis 63-47 at nearby Petoskey.

★ ★ ★

Two Harbor Springs fire trucks picked the team up and brought it back to town where sirens wailed, horns blared and fireworks went off as most of the town's 1,412 residents turned out to cheer in subfreezing weather.

The celebration was climaxed by a dance at a vacant restaurant. But, unaccustomed to the weight of some 200 persons, a cedar post bracing the floor began to crumble. The celebrants evacuated the place.

★ ★ ★

The floor had sunk four inches by the time the last of the merrymakers got out and moved to the high school gymnasium where the celebration continued.

The four girls who dyed their hair the school colors vow they won't change it until the team has won or lost the championship.

The team meets Crystal Falls Wednesday night.

Fire Razes Stores in Clearwater, Fla.

CLEARWATER, Fla. (AP) — A spectacular fire raged through most of a city block of stores here today, causing damage estimated at at least 1½ million dollars.

It was brought under control three hours after its discovery at 1:26 a.m.

Three stores, a stock brokerage office and a supermarket were destroyed.

★ ★ ★

A fire wall in the office of the brokerage firm prevented the fire from spreading to other stores and a four-story department store, one of the largest stores in this area.

Mayor Lewis Homer, who made the damage estimate, said the fire was the worst in the history of Clearwater, a west Florida Gulf Coast city of 40,000.

Equipment from five neighboring cities, including Tampa and St. Petersburg, rushed to aid the Clearwater Fire Department.

There were no injuries.

Cause of the fire was not immediately determined.

Farmington High Gives Vocal Concert Tuesday

FARMINGTON — "This Is My Country," the annual spring concert, will be given by the Farmington High School Vocal Department tomorrow.

★ ★ ★

This American heritage theme will feature Negro spirituals, show tunes and folk songs that typify American life. Among them are "Blue Tango," "Indian Love Call," "In the Still of the Night," "Elijah Rock" and "America the Beautiful."

The Falconnaires, the Twelve Tones, the choir and glee club will all sing in the program.

★ ★ ★

The concert, under the direction of Mrs. Dorothy Feucht, will begin at 8 p.m. in the high school gymnasium.

All families should have at least three children, so that if one of them turns out to be a genius, there will be two others to support him. . . A gentleman is one who holds the door open so his wife can carry in the packages without trouble.—Earl Wilson.

Solves Many Space-Trip Problems

Plan Railroad to 'Chute Pilot

DALLAS (AP)—A little railroad is part of a new system to parachute pilots safely home from the edges of space.

The pilot stays inside a closed capsule. The whole capsule is shot out of the plane along a short set of rails. Then it parachutes to earth.

★ ★ ★

Designed for planes flying far faster than sound and many miles high, this escape system solves many problems which would face future space voyagers.

Some such system might be used to bring men safely off a manned satellite circling the earth.

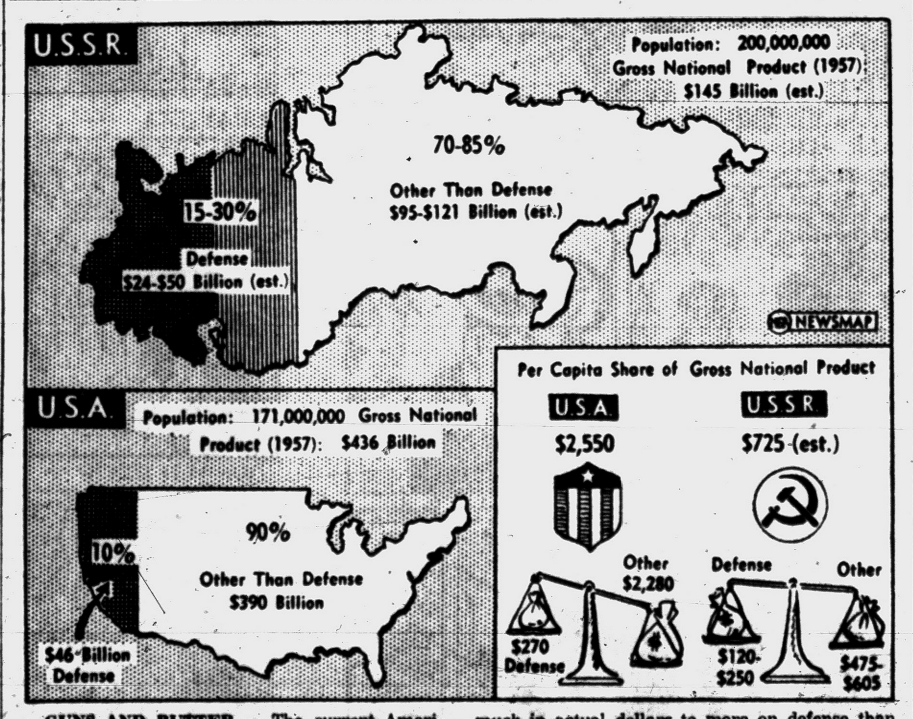

The bail-out capsule was described to an aviation conference sponsored by the American Rocket Society and American Society of Mechanical Engineers by C. W. Russell, assistant project engineer of Republic Aviation Corp., Farmingdale, N.Y.

★ ★ ★

Shooting the capsule downward out of the bottom of the plane along guide rails gets it free safely, Russell said.

But it has to be strongly engineered to stand up when it hits the airstream.

The pilot has to be securely harnessed, so he doesn't hit his head on the top when the capsule shoots downward, or get thrown forward when it hits the airstream. He has to be saved from too-vicious jolts when parachutes open and the capsule lands.

GUNS AND BUTTER — The current American problem of financing defense and also maintaining a high living standard has its counterpart in the Soviet Union. Newsmap, above, based on estimates by General Electric, shows that Russia, with a larger population and smaller gross national product, spends anywhere from half as much in actual dollars to more on defense than does the United States. The result, shown in right-hand corner, leaves the individual Russian with roughly one-fourth a U.S. citizen's living level. Because of inadequate reports, Russian figures have to be given in a wide range of percentages.

Senate Relaxes After Big Push

Starts on Minor Bills Following Rush to Act on Booster Measures

WASHINGTON (AP)—The Senate set a slower pace for itself this week after a series of overtime sessions to handle antirecession and other legislation.

Last week's activities included a special money bill, major housing legislation, two resolutions calling for more civil and military public works spending, and an insurance tax bill through which some senators tried unsuccessfully to cut personal income and excise taxes.

★ ★ ★

Senate Democratic Leader Lyndon B. Johnson pushed the Senate to act on them so the House will have time to act before a 10-day Easter recess April 3. The drive brought overtime sessions for five consecutive nights.

The Senate begins this week with passage of minor bills under a unanimous consent routine. An objection by one senator blocks approval of any bill, but others are disposed of rapidly.

Johnson hopes to handle the first of the regular annual appropriation bills, providing $4,108,108,000 for the Treasury and Post Office departments, during the week.

★ ★ ★

Johnson also pressed a Senate-House conference committee to reach a compromise on a $2,869,406,403 supplemental appropriation bill carrying funds for use prior to June 30. It includes extra money for soil bank payments.

Johnson said the Senate will begin consideration next week of a stepped-up federal highway program.

Five Air Force C-54 planes are now being reconverted into air-sea rescue planes at the General Dynamics Corporation plant in Fort Worth, Texas. When completed the planes will be sent to Portugal under the Mutual Assistance Program.

State Bank No. 807

REPORT OF CONDITION OF

Pontiac State Bank

of Pontiac in the State of Michigan at the close of business on March 4, 1958. Published in accordance with a call made by the Commissioner of the Banking Department pursuant to the provisions of Section 82 of the Michigan financial institutions act.

ASSETS

Cash, balances with other banks, including reserve balances, and cash items in process of collection		$ 3,888,096.73

VIRGINIA E. STARK,
(Seal) Notary Public, Oakland County, Michigan.
My commission expires March 14, 1961.
Mon., Mar. 17, '58.

Envoy Says Nikita Would Come to U.S.

WASHINGTON (INS) — Soviet Ambassador Mikhail Menshikov has put out another feeler to get Russia's Nikita Khrushchev invited to the U. S. for a summit parley.

★ ★ ★

Menshikov, in his first appearance on a live American television program, yesterday said Khrushchev "certainly" would come to Washington for a summit meeting if he were invited by the U. S.

The Soviet ambassador added that Russia would like to have a summit conference "as soon as possible."

Menshikov however opposed any discussion at a summit conference of German reunification. He said it was a question for East and West Germany to settle themselves.

★ ★ ★

At the same time, U. S. officials said that President Eisenhower is willing to attend a summit conference if Russia provides prior evidence of settlement of one or more vital political problems.

Four officials from Pakistan recently visited Denmark and studied agriculture, the cooperative movement, industry, and crafts.

OAKLAND COUNTY'S newest, most beautiful cocktail lounge

Henry's Miracle Lounge

(Formerly Henry's Bloomfield Inn)

The specialty of the house is an atmosphere of complete relaxation, cocktails the way you like them, and a luncheon and dinner menu to please the most discriminating palate.
