GUNACA IN PONTIAC—John M. Gunaca, former UAW organizer from Detroit, appeared briefly in Oakland County Circuit Court yesterday afternoon to waive a hearing and announce he was ready to return to Wisconsin to stand trial for the alleged beating of two men during picket line violence in the Kohler Co. strike in Sheboygan.

Wisconsin Sends Escort to Take Gunaca Back

Central Figure in Row Between States Ready to Stand Trial

Wisconsin police officers were headed for Detroit today to return John M. Gunaca, central figure in a legal and political battle which strained relations between Michigan and Wisconsin for four years.

After being arrested by two Michigan State Police detectives at his Detroit home yesterday morning, Gunaca, 35, appeared before Oakland County Circuit Judge Frank L. Doty to waive a right of a habeas corpus hearing.

Gunaca's attorney, D. Charles Marston, told Judge Doty his client was "willing and able and would like to surrender himself to the proper authorities in Wisconsin immediately."

While Gunaca, a Detroit bartender, was held in a Detroit jail overnight, Chief of Police Henry Billman, of Sheboygan Falls, Wis., and the sheriff of Sheboygan County were en route to Detroit by car this morning to take Gunaca back.

Gunaca is charged with being one of three UAW organizers who beat William Bersch Sr., and his son, William Jr., at a gas station in Sheboygan Falls, July 1, 1954.

Gov. Williams yesterday ended four years of strained relations between the two states when he signed an extradition warrant sending Gunaca back to Wisconsin to stand trial.

For four years the governor had refused to extradite Gunaca, claiming he would not get a fair trial because of the tension growing out of the Kohler Co. strike.

Williams said he had changed his mind now, convinced tensions in Sheboygan were "as calm as they are likely to be in the foreseeable future."

One of the first things Marston said he would do upon his arrival in Sheboygan would be to petition for a change of venue, which, if approved, would permit Gunaca to be tried out of strife-torn Sheboygan County.

Gunaca told reporters Wednesday that he realized he would go back eventually. "There was (Continued on Page 2, Col. 3)

MISSILE CENTER SAVED—Flames from a roaring brush fire near Malibu Beach, Calif., leap near a newly-completed modernistic building in the Malibu hills during the height of the brush

fire which burned 18,000 acres. The building, not yet occupied by the Potter Pacific Missile Research Co., was saved by firemen.

State Tax Plan Must Be 'Sold'

Legislator Says Next Step in Program Should Be Educating Public

LANSING (P)—Now that the Conlin Advisory Committee plan for overhauling the state's tax system is afloat, what next?

"There has to be a period of public education, an increase in public understanding before much else can be done," said Rep. Rollo G. Conlin (R-Tipton), the program's godfather.

But technical work to prepare the tax package for legislative consideration early next year will go forward without pause, he said.

Conlin, greatly fatigued, was a little hazy about what would be done to educate and inform the public.

Frank Seidman of Grand Rapids, chairman of the Citizens Advisory Group which formulated and approved the recommendations, told newsmen he had given no thought to mustering broad scale support for legislative adoption.

However, he said the group would continue to function and had no intention to disband.

Conlin said his legislative group, which sat in an advisory committee discussions but took no part, will meet in a week or two to decide whether to give the package its unqualified endorsement.

Meantime, plans will go ahead for preparation of the final advisory committee report which, besides containing the substance of the recommendations, also will include a "rationale" for the program—a carefully stated argument in support of it.

Despite the recommendation for a state income tax and other far-reaching top to bottom changes in the state tax structure, Conlin said, no angry protests were communicated to him yesterday.

And no warm commendations.

29 Homes in Ashes, 18,000 Acres Black

From Our Wire Services

MALIBU BEACH, Calif.—The three-day-old fire monster writhed on today, most of its crackling fury spent, leaving:

About 18,000 mountain and seaside acres near this movie colony charred.

An estimated 29 homes in ashes.

Some 2,000 smoke-grimed fire fighters in control of 55 per cent of the fire's 37-mile perimeter.

The disastrous conflagration at one time forced several thousand residents including a number of movie and television personalities to flee their homes in the Santa Monica mountains.

The 2,000 men on the firelines concentrated mainly on hot licks of flame which endangered a populated section near Webster School and two other hot spots along a five-mile perimeter on the east and west lines.

"All men and equipment are being held. No one has been released except the injured," the fire department announced.

More than 1,000 servicemen from nearby Navy, Army and Marine camps were assisting in the firefighting.

Lew Ayres' \$50,000 home was among those destroyed. Others lucky were actor Glenn Ford, Bob Hope and Ronald Reagan whose properties were spared but who managed to save their homes.

And scenes like: Chains of children's swings dangling above blackened ground, the wooden seats gone in flames along with the house beyond.

A housewife crying in a little cement-block laundry house next to a chimney and rubble that once was a refrigerator, a stove and bedsprings—all that's left of her home.

Silence, like that of deserted battlefields. Chimneys standing like tombstones, marking where big homes once stood. Children's toys, flame-twisted their paint blistered.

New Exchange in Phone Book

Add Ulysses Numbers to Designate Homes East of Pontiac

"Ulysses" is being introduced in the new Michigan Bell Telephone Co. directory distributed in the Pontiac area today.

The name of the Greek mythological hero will be the new exchange for telephones in homes east of Pontiac, Raymond H. Storm, Michigan Bell district manager, announced.

About 4,000 telephone users in the Auburn Heights area will begin using the new Ulysses exchange at 2:01 a.m. Sunday, Storm said.

The change affects portions of both Pontiac and Avon townships between Pontiac, Rochester and Troy. Telephone users there have had Federal and OLIVE exchanges.

The new Ulysses numbers in Auburn Heights are listed in a separate alphabetical section in the new telephone directory.

Storm noted another change in the new directory. The yellow classified pages are bound separately.

"Each book can be used independently of the other and in the future each book can be issued at the time that best serves our customers," said Storm.

"Each book can be used independently of the other and in the future each book can be issued at the time that best serves our customers," said Storm.

Ike Settles Space Feud

Army Releases Jet Lab Control

Keeps Missile Agency, Scientists; NASA Gets Pasadena Facility

WASHINGTON (AP) — The Army has given up control of its principal space research laboratory in a sharing of facilities with the new civilian space agency.

A compromise plan ordered into effect by President Eisenhower Wednesday gave the Army continuing control of the Ballistic Missile Agency at Huntsville, Ala., where a team of space age scientists led by Wernher von Braun developed the Redstone, Jupiter and other Army missiles.

LOSES JET LAB

The Jet Propulsion Laboratory at Pasadena, Calif., operated for the Army by California Institute of Technology, was put under control of the National Aeronautics and Space Administration.

Each will continue to use the other's facilities at least for a time, but the orders indicated that NASA will make increasing use of the Huntsville facilities on what Eisenhower called "a fully cooperative basis."

The Army, on the other hand, was authorized to continue certain specific military projects under way at the laboratory through 1959, with arrangements after that time to be made by mutual agreement.

The space administration had sought to take over major functions at both facilities. Army space officials objected strenuously, especially to the possible loss of its Huntsville facilities and the team of scientists there. A compromise resulted in the presidential order to CUT DUPLICATION.

In announcing it, Eisenhower said the agreement "prevents unnecessary duplication and effects economies in space research and development."

"This development will enhance close cooperation between the National Aeronautics and Space Administration and the Department of Defense to the end that the peaceful use of space will rebound to the benefit of all mankind."

The agreement was explained to newsmen by Deputy Secretary of Defense Donald A. Quarles and Space Administrator T. Keith Glennan.

Rainfall Shields Threat of Cold Air From Canada

By The Associated Press
Widespread, but light rainfall partly shielded an onrushing thrust of cool Canadian air today that sped rapidly through the northern Plains, tumbling temperatures.

During the early morning, the cold blast had edged into the upper Mississippi Valley.

Gusty northwesterly winds, measured at 30 to 40 miles an hour, buffeted the Dakotas and Minnesota. In the Dakotas, 20-degree readings were reported still plummeting in the path of the cold flow.

By late today, the new cold shot was expected to reach most of the Great Lakes region, the Ohio Valley, northern sectors of California, Nevada and Utah, and even northern portions of Texas.

To the east, lower-than-normal morning temperatures in the 20s were recorded over the Appalachians and northern New England.

VICTORY LUNCHEON — Some 75 district and area chairmen of the Women's Division United Fund chairmen were feted at a victory luncheon yesterday afternoon at the Old Mill. The division went 19.6 per cent over its campaign goal of \$20,790. All received corsages from the

Lewis Furniture Co., which sponsored the dinner. Seated (from left) are Mrs. Noel Buckner, Pontiac co-chairman; Mrs. Robert Giroux, Waterford co-chairman, and Mrs. Donald E. White, Women's Division chairman. Congratulating them is Leonard Lewis, U-F president.

License Plate Sales Up

LANSING — A total of 206,838 sets of Michigan 1959 auto license plates were sold last month, up 38,000 from November last year, the Department of State reported yesterday.

Mental Patients Short 1,500 Beds

(Continued From Page One)

bed. Thus, the Legislature would have to provide \$11,250,000 if new facilities were built just to take care of the 1,500 persons now on the waiting list.

He and Williams agreed that every effort should be made to utilize every available hospital bed now empty.

Moore quoted State Health Commissioner Dr. Albert E. Heustis as reporting 967 vacant beds in 20 state, county, municipal and private sanatoria.

The judges' committee also called for legislative action on a program which would:

1. Place all state medical, hospital and sanatorium facilities under one head—a doctor-administrator to be known as the state health and hospital commissioner. He would be empowered to use these facilities for any public health need.
2. Prohibit the admission to mental hospitals of persons more than 60 years of age whose chief need is custodial—rather than psychiatric—care.
3. Return to county care all presently committed persons whose chief need is custodial—rather than psychiatric—care.
4. Require payment from counties failing to take back such patients. Payment would be equal to the ordinary cost of care of similar patients in general county institutions in the state.
5. Set up an expanded program of mental facilities for children including diagnostic centers and guidance clinics.

Wisconsin Sending Escort for Gunaca

(Continued From Page One)

no argument there," he said. "It was just a question of getting a fair trial."

It was back in September of 1954 when Gunaca was arraigned before Judge Doty on a fugitive warrant from Wisconsin. Gunaca was freed on a \$1,500 bond set by the judge while he awaited an extradition hearing before Gov. Williams.

The Governor continually refused to extradite Gunaca. He remained free on the bond until yesterday.

This refusal thus became a bone of contention for Republicans in both states who claimed the Governor was sheltering the fugitive to assure himself of continuing political support from the UAW.

While he awaited transportation to Detroit yesterday, Gunaca was quick to come to the defense of the Governor when a reporter asked whether Williams hadn't held up his extradition "because of union pressure."

"That remark doesn't hold a bit of water," Gunaca snapped. The dapper Gunaca denied he was ever in a union scuffle, but said he had participated in several picket lines.

He displayed a continued lapse of memory when questioned by reporters where he was at the time of the beating of Bersch and his son. "I could have been in or out of town, I don't remember," he said.

The elder Bersch died 15½ months after he was beaten. The death certificate listed a chronic heart ailment as the cause of death, but Bersch's son told the Senate Labor Rackets Committee last spring he believed the beating caused the death.

Gunaca, a member of Detroit UAW Local 212 and Bartenders Union Local 562, said he was representing Local 212 at the time of the strike violence.

Admitting that his status as a fugitive had "made a nervous wreck of myself," he expressed doubt whether he still could get a fair trial.

He said he felt that the prosecutor of Sheboygan County "has it in for me."

The strapping six-footer, 200-pounder asked:

"How would you like going back where people are calling you a killer, murderer. When everybody gets so worked up, how can I be assured of a fair trial?"

'Draft Romney' Plan a Surprise

Auto Executive Says He Doesn't Know Man Who Started Campaign

George Romney, American Motors Corp. president from Bloomfield Hills, said he didn't even know the gentleman who is sparking a draft-Romney-for-governor movement.

Reached at his new Hills home at 1830 E. Valley Rd. this morning, Romney declined to comment on whether he favored having his name tossed into the political grab-bag.

Neither would Romney say whether he would accept the 1960 Republican gubernatorial candidacy if it were offered him.

Romney's name suddenly became a topic of political talk when Allen B. Clink, a Detroit insurance agent, filed papers with the Wayne County Clerk yesterday indicating formation of a "Citizens Committee to Draft George Romney for Governor."

Clink is a former Young Republican National Committeeman for Michigan.

Expect U.S., Russia Moon Shots Soon

(Continued From Page One)

Assn., organized by scientists at Redstone Arsenal with Dr. Wernher von Braun as one of the leaders.

Reports suggest the Soviet moon probe will be radio-tele-directed from earth, relaying moon pictures back, Wakeford says.

In Washington, the government yesterday announced a far-reaching satellite launching program that may include a five-ton artificial moon—far bigger than any shot off by Russia so far.

The ambitious undertaking, dubbed "Project Discoverer," also calls for the launching of satellites carrying monkeys and mice as a giant step toward eventually shooting a man into orbit and returning him to earth.

The program was announced by Roy W. Johnson, director of the Defense Department's space agency. It will get under way at Vandenberg Air Force Base near Lampoc, Calif., in about 30 days.

Further launchings will follow throughout the coming year at the rate of about one a month.

The Day in Birmingham

Local Residents Will Hear Air Raid Sirens Sunday

BIRMINGHAM — Civil defense director Robert Kenning said today that Birmingham will take part in the siren test to be conducted in the metropolitan Detroit area Sunday.

Sirens will sound a steady two minute blast at 2 p.m. to represent the alert in an actual attack. The warning signal which will follow will be the "take cover" warning.

The usual Saturday noon tests will be omitted this month. The Sunday test, Kenning said, will be siren warnings only and Birmingham will not have simulated emergencies.

About 35 area adults attended the meeting last night on the formation of a snow ski club here. It was outlined what the club would do such as planning family trips as well as those for individuals.

At next Wednesday's meeting at the Community House, the bylaws and constitution will be presented for approval. Instructional classes are being planned, probably to be held after the holidays.

An art exhibit will be held at the City and Country School, Bloomfield Hills, Sunday from 1 to 6 p.m. to help raise funds for educational projects for the school's gifted children.

The exhibit, presented by the

development and education of the gifted child.

The annual school of instruction was held at a special meeting of Birmingham Chapter 221 OES in the Masonic Temple yesterday. Russell C. Monroe, worthy grand patron of the Grand Chapter of Michigan, instructed new officers in the ritualistic work.

Robert Thom, noted Birmingham artist, will speak at the Senior Men's Club meeting at the Community House tomorrow. The discussion group will have as their subject the criticism which has been aimed recently at the state and national courts.

Ike Settles Space Feud

Army Releases Jet Lab Control

Keeps Missile Agency, Scientists; NASA Gets Pasadena Facility

WASHINGTON (AP) — The Army has given up control of its principal space research laboratory in a sharing of facilities with the new civilian space agency.

A compromise plan ordered into effect by President Eisenhower Wednesday gives the Army continuing control of the Ballistic Missile Agency at Huntsville, Ala., where a team of space age scientists led by Wernher von Braun developed the Redstone, Jupiter and other Army missiles.

LOSES JET LAB

The Jet Propulsion Laboratory at Pasadena, Calif., operated for the Army by California Institute of Technology, was put under control of the National Aeronautics and Space Administration.

Each will continue to use the other's facilities at least for a time, but the orders indicated that NASA will make increasing use of the Huntsville facilities on what Eisenhower called "a fully cooperative basis."

The Army, on the other hand, was authorized to continue certain specific military projects under way at the laboratory through 1959, with arrangements after that time to be made by mutual agreement.

The space administration had sought to take over major functions at both facilities. Army space officials objected strenuously, especially to the possible loss of its Huntsville facilities and the team of scientists there. A compromise resulted in the presidential order to CUT DUPLICATION.

In announcing it, Eisenhower said the agreement "prevents unnecessary duplication and effects economies in space research and development."

"This development will enhance close cooperation between the National Aeronautics and Space Administration and the Department of Defense to the end that the peaceful use of space will rebound to the benefit of all mankind."

The agreement was explained to newsmen by Deputy Secretary of Defense, Donald A. Quarles, and Space Administrator T. Keith Glennan.

Rainfall Shields Threat of Cold Air From Canada

By The Associated Press
Widespread, but light rainfall partly shielded an onrushing thrust of cool Canadian air today that sped rapidly through the northern Plains, tumbling temperatures.

During the early morning, the cold blast had edged into the upper Mississippi Valley. Gusts northwesterly winds, measured at 30 to 40 miles an hour, buffeted the Dakotas and Minnesota. In the Dakotas, 20-degree readings were reported still plummeting in the path of the cold flow.

By late today, the new cold shot was expected to reach most of the Great Lakes region, the Ohio Valley, northern sections of California, Nevada and Utah, and even northern portions of Texas.

To the east, lower-than-normal morning temperatures in the 20s were recorded over the Appalachians and northern New England.

VICTORY LUNCHEON — Some 75 district and area chairmen of the Women's Division United Fund chairmen were feted at a victory luncheon yesterday afternoon at the Old Mill. The division went 19.6 per cent over its campaign goal of \$20,790. All received corsages from the

Lewis Furniture Co., which sponsored the dinner. Seated (from left) are Mrs. Noel Buckner, Pontiac co-chairman; Mrs. Robert Giroux, Waterford co-chairman; and Mrs. Donald E. White, Women's Division chairman. Congratulating them is Leonard Lewis, U.F. president.

License Plate Sales Up

LANSING — A total of 206,838 sets of Michigan 1959 auto license plates were sold last month, up 38,000 from November last year, the Department of State reported yesterday.

Mental Patients Short 1,500 Beds

(Continued From Page One)

bed. Thus, the Legislature would have to provide \$11,250,000 if new facilities were built just to take care of the 1,500 persons now on the waiting list.

He and Williams agreed that every effort should be made to utilize every available hospital bed now empty.

Moore quoted State Health Commissioner Dr. Albert E. Heustis as reporting 967 vacant beds in 20 state, county, municipal and private sanatoria.

The judges' committee also called for legislative action on a program which would:

1. Place all state medical, hospital and sanatorium facilities under one head—a doctor-administrator to be known as the state health and hospital commissioner. He would be empowered to use these facilities for any public health need.
2. Prohibit the admission to mental hospitals of persons more than 60 years of age whose chief need is custodial—rather than psychiatric—care.
3. Return to county care all presently committed persons whose chief need is custodial—rather than psychiatric—care.
4. Require payment from counties failing to take back such patients. Payment would be equal to the ordinary cost of care of similar patients in general county institutions in the state.
5. Set up an expanded program of mental facilities for children including diagnostic centers and guidance clinics.

Wisconsin Sending Escort for Gunaca

(Continued From Page One)

no argument there," he said. "It was just a question of getting a fair trial."

It was back in September of 1954 when Gunaca was arraigned before Judge Doty on a fugitive warrant from Wisconsin. Gunaca was freed on a \$1,500 bond set by the judge while he awaited an extradition hearing before Gov. Williams.

The Governor continually refused to extradite Gunaca. He remained free on the bond until yesterday.

This refusal thus became a bone of contention for Republicans in both states who claimed the Governor was sheltering the fugitive to assure himself of continuing political support from the UAW.

While he awaited transportation to Detroit yesterday, Gunaca was quick to come to the defense of the Governor when a reporter asked whether Williams hadn't held up his extradition "because of union pressure."

"That remark doesn't hold a bit of water," Gunaca snapped. The dapper Gunaca denied he was ever in a union scuffle, but said he had participated in several picket lines.

He displayed a continued lapse of memory when questioned by reporters where he was at the time of the beating of Bersch and his son. "I could have been in or out of town, I don't remember," he said.

The elder Bersch died 15½ months after he was beaten. The death certificate listed a chronic heart ailment as the cause of death, but Bersch's son told the Senate Labor Rackets Committee last spring he believed the beating caused the death.

Gunaca, a member of Detroit UAW Local 212 and Bartenders Union Local 362, said he was representing Local 212 at the time of the strike violence.

Admitting that his status as a fugitive had "made a nervous wreck of myself," he expressed doubt whether he still could get a fair trial.

He said he felt that the prosecutor of Sheboygan County "has it in for me."

The strapping six-footer, 200-pounder asked:

"How would you like going back where people are calling you a killer, murderer. When everybody gets so worked up, how can I be assured of a fair trial?"

WHOOOOPS! — This housewife is dressed for a fall, one that will have youngsters running to see if Santa plopped into the fireplace. High heels may flatter the legs but flat shoes give

safer support. And a steady ladder makes a better height reacher than a stool. Also, trim trees with fireproofed ornaments and tinsel for home safety.

Keep Christmas Accident-Free

December Is 'Danger Month'

Many persons look upon Christmas as something other than a festive, fun-filled occasion. It has a different meaning to the thousands of persons injured in the home each year during the holiday.

December, according to the National Safety Council, has more accidental deaths than any other month. It tops all others in accidental deaths from motor vehicles, falls, fire burns, railroads and poison gases.

Much of the December danger in the home results from the hustle-bustle, the conviviality

that goes with the occasion, and the very things that are supposed to make Christmas a special time: trimmings and trees.

"Though harmless in themselves, trimmings and trees, if used improperly or without caution, can turn the holiday into a time of tragedy," the Council says.

Trimming and trees contribute to the main causes of home accidents at Christmas. These are falls and fires.

Falls take the lives of about 2,000 persons each December.

The main causes of home falls at Christmas time are:

- (1) Leaving toys and boxes around for someone to trip over.
- (2) Climbing too high to hang decorations.
- (3) Using chairs or other objects as stepladders.
- (4) Slipping on icy walks and steps.

Safety men say to throw out boxes and wrappings just as soon as possible, leave the climbing to the young and agile, and use a

stepladder — one that's in good condition — when climbing.

Fires, the other major causes of home accidents at Christmas, kill more than 1,000 persons each December.

The danger of fire can be reduced if the decorations that brighten homes are fireproof or fire-resistant and caution is taken with the dry trees.

Your Favorite Man May Go for Shoes

Put Christmas at his feet this year and give your favorite man handsomely styled shoes in the elegant new lightweight leathers. Such a gift is bound to be a sure hit because eight out of ten men are short on shoes.

Heading shoe news is the shoe with the new slimly tapered and squared-off toe. Seen most often in leathers with a fine grain, it comes in many variations of the slip-on style or in two or three eyelet ties for both street and casual wear.

Any man would welcome a three-eyelet blucher in a highly polished smooth leather, detailed with the new inverted seam. This lighter-looking seaming will be featured in a great many shoe styles.

For his casual attire, he'll be easy to please with hand-sewn moccasins or the popular ankle-high chukka boot in soft brushed leathers with flexible leather soles.

Chief Catches Juvenile

BETHEL, Conn. (UPI) — Police Chief Louis Jackman stopped at St. Mary's Church on his birthday to say some prayers. As he was leaving he picked up a juvenile trying to rob the poor box.

OLD FRIENDS — When Jerry Burd, of Cleburne, Tex., was just a toddler, a friend gave her a bantam hen. When Miss Burd celebrated her 20th birthday recently, the other bird was still around, dressed in its best feathers. The hen even lays an egg occasionally, which must be another record of some kind.

Child Population Rises but Orphans Decrease

NEW YORK — The number of orphans in the United States dropped from 6,400,000 in 1920 to 2,700,000 at the start of 1948, even though the child population climbed from 39,000,000 to 60,000,000 during that time.

Also noted during the period was a 93 per cent decline in the number of children with both parents dead. Less than one out of every 1,000 American children today is a full orphan—that is, one with both parents dead.

Greeting Card Display Made in Tree Shape

A tree-shaped display for greeting cards makes an attractive home ornament during the holiday season.

The main trunk is made of a piece of 1x12-inch lumber 49 1/2 inches long, with a series of steps or shelves 6 inches high and 1 1/2 inches deep. The base is also cut from 1x12-inch lumber, 9 inches long. A 4 1/2-inch slot in the trunk and in the base are cut to the thickness of the lumber. When fitted together the trunk and the base form a solid rest for the tree.

Make branches of 1x2-inch lumber. The top branch is 6 inches long, and each succeeding lower branch is 5 inches longer than the one above it. Miter the ends of each branch 45 degrees.

Attach the branches to the trunk using two No. 8, flathead wood screws 1 1/2 inches long, countersunk. At the end of the holiday season the screws may be removed and the base disassembled for flat storage. Sand the unit smooth and round all sharp edges.

Attach greeting cards to the branches with thumb tacks on the inner leaf of the card so they may be examined without removing them from the tree.

Tailless Cats Scarce

DOUGLAS, Isle of Man — Most people associate the mountainous Isle of Man, situated in the middle of the Irish Sea, with its special breed of cats, the tailless Manx. But most cats on the island today have tails. Motorcycle fans know the tale for its 37-mile race course, reputedly the toughest test in the world, with every type of corner and grade.

A farmer explained why he raises hogs, although there's more decide what she'll buy — but only money in cotton: "Well, for one a few seconds to decide who'll pay thing, hogs don't need 'hoing' for it. — Earl Wilson.

New York Firemen Hunt School Hazards

NEW YORK (UPI)—Two hundred New York fire companies have begun a check of possible fire hazards in 1,500 public, private and parochial schools in the city.

The cellar to roof check was ordered by Fire Commissioner Edward F. Cavanagh Jr. in order to prevent a disaster such as the Chicago fire. The investigation is expected to take about a week. Gov. Averell Harriman ordered a similar check on a statewide basis and ordered immediate correction of fire hazards already reported.

Cavanagh said it would be "unrealistic" to say it couldn't happen in New York. But he said New York school authorities had been working for a long time to avoid such a tragedy. He noted, however, that there are still four wooden school structures in use in the borough of Queens.

Worst Water Shortage in Century Hits Spain

MADRID (UPI)—A five-month drought threatened central Spain today with its worst water shortage in nearly 100 years.

The newspaper said that Madrid's own water supply was running dangerously low. At the same time, eastern Spain was undergoing one of its wettest seasons in history.

Alcorn Fails to Explain Why GOP Lost

By JAMES MARLOW

WASHINGTON (AP)—Today Meade Alcorn, chairman of the Republican National Committee, sought to explain why the Republicans lost the 1958 elections. It was a shallow analysis. He still doesn't seem to understand the disaster.

Or maybe he understands but doesn't want to be overly blunt about it.

His committee released here excerpts from the explanation he prepared for the National Assn. of

Manufacturers in New York. Alcorn said: "There was a definite tide running for the opposition party from Maine to California."

He not only fell far short of explaining the full cause of the tide but skipped over the fact that this was not a new tide but a steady one which had crushed the Republicans three times in a row: in 1954, in 1956, and again this year.

Paul Butler, chairman of the Democratic National Committee, followed Alcorn at the manufacturers' meeting with an explanation of why his party won. Butler was aggressive where Alcorn was defensive.

What Alcorn didn't explain was why the voters—in three successive elections—preferred to have the Democrats run Congress. He concentrated on his party's disaster this year, and listed these as reasons:

The big increase in unemployment in 1958; not enough campaign funds from business and professional people; lack of support from some Republicans who didn't like parts of the Republican program; injection of right-to-work proposals in several state elections, reviving the image of big business versus big labor; and tremendous financial and other help to the Democrats from organized labor.

But the most obvious possibility for the Republicans' defeat was the one Alcorn didn't mention: voters' dissatisfaction with the Re-

publicans' performance and ideas in running the government.

Alcorn summed up: "The Republican party can never hope to recapture control of Congress until we match in money, in manpower and in organization work the efforts now being put forth by the opposition. . . . I know we have the better product to sell."

But we lack the sales force."

This makes it seem as though all the Republicans have to do to win in 1960 is rake in enough campaign money and ring enough doorbells. He did not mention, in his excerpted speech, a primary requisite for any party to win an election:

A performance in deeds that

will make it more attractive to the voters than the opposition. Butler in effect said the Republican party still doesn't know what time it is. He accused the Republicans of still living in the 19th century in their "scare" approach to a political campaign.

He ridiculed them for their tactics in trying to make the voters

think the Democrats were "radicals" and "Socialists" and "big spenders." He asked: "How often and how badly does the Republican party have to be beaten before it decides to give up those ridiculous tactics?"

He agreed with Alcorn that right-to-work proposals—in most

of the states where they were an issue—helped drown the Republicans. But the Democrats made a national sweep and Butler said the party won on national issues.

He interpreted the 1958 election results as "a ringing repudiation of the Eisenhower administration and its failure to provide aggressive, full-time and forward-looking leadership in the areas of economic growth, employment, cost of living, labor legislation, education, defense, human rights and foreign policy."

BARRED—Like a flame burning behind a fireplace grate is this pillow of black straw and red velvet in London. Designed for end-of-season wear with furs, the chapeau has "bars" of black straw held by flimsy tulle.

Ice Threatening to Trap 38 Ships

Vessels Caught Between Montreal, Great Lakes, May Be In for Winter

MONTREAL (AP)—About 38 ships are in danger of being frozen in for the winter between Montreal and the Great Lakes, a spokesman for the Federal Transport Department's signal service said.

Ice in the locks of the LaChine Canal, which knifes through Montreal Island, has trapped 18 eastbound vessels in nearby Lake St. Louis, he said.

Another eight eastbound ships are tied up at Cascades Point at the eastern entrance of the Soulanges Canal, 40 miles west of Montreal, because of frozen locks in the Soulanges.

Ice began forming over the weekend and is getting thicker, the spokesman said. Twelve of the trapped ships are ocean-going.

Eastbound ships got through the LaChine Canal yesterday but one had to break ice with her anchor to do it.

Twelve westbound ships are caught in Montreal Harbor, unable to get through the canal back to the Lakes, the signal service spokesman said. He added that the only thing that could get traffic moving again would be a warm spell.

AP Wirephoto

ARRESTED — John Petersen, 49, who resigned several days ago as vice president and cashier of the Sun Valley, Calif. National Bank, has been arrested by FBI agents on a charge of making a false entry in bank records, amounting to more than \$800,000.

Indicates Long Search

SAN DIEGO, Calif. (AP) — A note on the College Avenue Baptist church bulletin board read: "Two books have been missing from the library for a long time — 'How to Pick a Wife' and 'How to Choose a Husband.' If whoever has them would return them, we would be most grateful."

Gov. Williams Cites Need, Others Differ

Voice Opinions on Michigan's Proposed Tax Revision

LANSING (UPI)—Release of a proposed revision of Michigan's tax structure put the spotlight on the tax opinions held by leaders in government, business and labor.

Here are some of those opinions including excerpts from the first reactions to the proposed revision:

Dr. Harvey E. Brazier, University of Michigan tax expert who was paid \$100 a day to assist in preparation of the proposed revision—"If this package proposal becomes law, Michigan will have a tax structure second to none in the country."

Gov. G. Mennen Williams—"Obviously, there must be some new taxes or the state will not be able to maintain such things as our colleges and universities, the mental hospital system, the State Police and state aid to local schools."

Supreme Court Justice Leland W. Carr—"It is questionable if any tax law could be devised that would result in absolute equity under all circumstances."

UAW Vice President Leonard

Woodcock (a member of the Citizens' Tax Committee)—"The proposed revision 'is not a seek-the-rich program.'"

'Magnetic Mice' Less Vulnerable Against Radiation

BLOOMINGTON, Ill. — Researchers at the University of Illinois have found that mice kept in a strong magnetic field for two weeks before irradiation can withstand significantly larger doses of radiation than comparable animals not kept in a magnetic field.

Blood counts showed that the white cells of magnetic-field animals dropped only to 3 per cent of normal after irradiation compared with 2 per cent of normal for control animals.

A possible explanation, the researchers say, may lie in the recent surprising discovery that mice exposed to a magnetic field have higher than normal whitecell counts.

C. G. Bunting, an executive of the Fenestra Corp., Detroit, and also a member of the Citizens' Tax Committee—"The proposed revision is 'like a salad. Some people may not like the carrots in it.'"

Sen. Edward Hutchinson (R-Fennville), an influential leader in the State Senate—"I think the Governor should propose whatever tax program there is and be responsible for it. Unless he is in favor of more taxes, none ought to be enacted."

Lansing State Journal—"The Welfare of Michigan taxpayers would have fared much better if a citizens' study commission had been appointed to survey ways and means of economizing in state and local governments, rather than merely to search for new schemes for more taxes."

Robert S. Ford, University of Michigan professor of economics—"The present structure is like an old family home . . . to which additions have been made from time to time to take care of the children of successive generations, and it serves none of them too well."

Two members of the committee — E. C. Hayhow, Hilldale publisher, and Tyrone Gillespie, assistant to the president of Dow Chemical Co., Midland — issued a minority report which termed the graduated income tax "sufficiently vicious to discourage middle income."

The minority group said the income tax would place the heaviest impact on families with incomes between \$5,000 and \$25,000 and was of doubtful constitutionality.

The other member reported to have voted against the majority proposal—John H. Carton, Battle Creek Insurance executive, did not sign the minority report.

New Air-Drop for Fuel

NEW YORK — "Saucers" made of rubber have been developed to drop fuel, water, and other liquids to stranded troops, explorers, and hunters. The saucer-like containers, 30 inches in diameter, hold 5 gallons of liquid. They have oil-resistant liners for petroleum and rubber liners for water. Test drops from altitudes of up to 2,000 feet have not burst them.

'Rockets Away' Promises to Be Popular Holiday Cry

UNCLE SAM'S missiles land under the Christmas tree in the form of scale model kits. This is a Nike-Hercules.

TRAIN keeps satellite in orbit as it whizzes around O-gauge track. This Kusan-Auburn set also has radar car.

Youngsters who don't blast off and orbit around the Christmas tree this year are probably counting down for their playmates.

Outer space has whirled into their world of fantasy and parents can expect an onslaught of satellite jargon at the breakfast table after Santa comes.

Christmas boxes will yield such things as a satellite train with a styrofoam satellite that floats in the air; an Alpha 1 ballistic missile that travels 150 to 200 feet when launched with bottled water and bicarb, and a satellite launcher that fires two flying saucers, and also has a rocket gun to shoot them down.

But that is only the beginning. There is a variety of toys to make home base as complete as Cape Canaveral.

Included are space helmets with antenna and a cosmic ray protector shield. Spacewomen will have a complete space cadet costume while boys generally must settle with a helmet.

However, there is a cardboard robot outfit for the boys with plastic claws for handling "hot" metals while in an atom lab.

Hobbyists will have a field day

with model kits of atomic cannon, launching platforms and missiles. Kusan-Auburn, for example, has kits for the Honest John Talos, Corporal, Nike and on down the giant missile line.

When youngsters aren't launching rockets, they may be bouncing about on rocket shoes. Or more sedate earth creatures can get in the satellite spirit with a flying saucer game. Dad might like this one—it is a space-age version of pitching horseshoes.

Quemoy Quiet Again

TAIPEI, Formosa (U)—Communist batteries across from the off-shore islands fell silent again today, an even-numbered day. The Nationalist Defense Ministry said the Communists fired 515 shells at the Quemoy's Wednesday.

Rolling Arsenal Gun Salesman Avoids Cameras

RAVENNA, Ohio (UPI)—Traveling salesman James N. Zeh is one of the most popular callers at police stations in Ohio, Pennsylvania and New York. He's also the most camera-shy.

Zeh sells pistols, riot guns, tear gas, leg irons, blackjacks, handcuffs and similar hardware to policemen in the three-state area. When he hits the road in his station wagon he's a rolling arsenal. "I've got about 30 revolvers in my car," Zeh said. "All I need is to have some thug see my photograph so he could hijack me. He'd have the arsenal, complete with bullets."

Picker Mishaps Costly

CHICAGO — The average medical and hospital expense involved as a result of corn-picker accidents in 1952, according to a survey by the National Safety Council. Three out of four corn-picker accidents result in permanent disability and 3 per cent are fatal.

Lifetime of Sobriety Worth \$7,500 Cash

BOSTON, Mass. (AP)—A federal jury sympathized with Hans Furberg, 38, in his story that he faces a life of abstinence and awarded him \$7,500.

Furberg sued the Moonlight Products, Inc., of New Bedford on grounds he suffered damaged kidneys and liver through inhalation of poisonous fumes aboard the fishing vessel Moonlight.

He said two hospitals advised him to avoid alcoholic beverages. He argued this presented a particular hardship for fishermen who look forward to a drink ashore after weeks at sea.

Tranquilize Animals

KANSAS CITY — Drug-firm executives say that tranquilizers for animals are being sold at the rate of \$1,000,000 a year. Total sales of \$10,000,000 a year are predicted within two or three years, so fast is the market growing.

New Sausage Meal Time Aid

Greet your family at suppertime with a platter of Barbecued Sausage on Rice. Meaty brown 'n' serve sausage nestled on a bed of fluffy white rice and topped with a peppery sauce is an easy yet satisfying meal to prepare after a busy day of Christmas shopping. Broccoli from the freezer and a simple tossed salad complete the menu. You may want to add a few Christmas cookies for dessert.

The brown 'n' serve sausages are precooked and ready for the table with but a few minutes' heating. They are tender, juicy sausages which are made from carefully selected cuts of meat and tastily seasoned.

A hit for breakfast with eggs or hot cakes, brown 'n' serve sausages are also welcome as hot appetizer tidbits or the main dish of a meal.

Barbecued Sausage

4 ounce package brown 'n' serve sausage links
1/2 cup chopped onion
1 cup catsup
1/2 cup water
2 to 3 tablespoons vinegar
1 teaspoon Worcestershire sauce
1/2 teaspoon salt

Pan-fry sausage and onion in a heavy skillet. Add remaining ingredients. Cover. Simmer over low heat about 15 minutes. Serve on hot fluffy rice.

Here's Hearty Eating for Sunday Night

You'll never call slices of cooked beef, veal, pork or lamb just "those leftovers" again... especially not after you've seen what an unusual role they play in this recipe called Sunday Supper Sandwich.

It would be difficult to find a more appropriate name for this combination since Sunday evening presents the homemaker with many opportunities to experiment.

From the two-fisted man in your household to the hungry teenagers, this Sunday Supper Sandwich simply can't help be awarded their hearty approval.

Sunday Supper Sandwich

4 slices cooked beef, veal, pork or lamb
4 slices bread
Butter or margarine
1 package (3 ounces) cream cheese
1 tablespoon Roquefort or blue cheese, crumbled
1 teaspoon prepared mustard
1 tablespoon finely chopped onion
1 teaspoon chopped parsley

Toast bread on one side. Butter untoasted side. Place meat on buttered side of bread slices. Cream together cheeses, mustard and onion. Place 2 tablespoons mixture on each sandwich and spread to within 1/2 inch from the edge of the meat. Sprinkle parsley on top. Bake in a hot oven (450 degrees) for 8 to 10 minutes. Yield: 4 servings.

Surprise in Bun Is Sardines

This is an all-new member of the family — a sardine burger. Made of refrigerated biscuits (the kind that come in a can) with a flavorful sardine mixture baked in the middle, they actually bear very little resemblance to the more traditional burger, the meat patty on a bun. But — Oh they are good! and very versatile, too!

They might be served as the main course at a light supper or lunch. The sardine surprise burgers could be quickly prepared as a snack for hungry youngsters returning home from school, or for the teen-age member of the family when he or she bursts into the house with a group of "simply ravenous" friends.

They take their place handsomely, too, on the platter of hot hors d'oeuvres at a party, or as your new piece de resistance at a club or committee meeting. And the sardine burgers travel well, to a church supper or in a picnic basket.

Sardine Burgers

1 4oz. can Maine sardines, mashed
2 hard-cooked eggs, chopped
1 teaspoon prepared mustard
1 teaspoon grated onion
1/4 cup mayonnaise
1/4 cup cocktail sauce
2 cans refrigerated prepared biscuits

Preheat oven to 450 degrees or hot. Combine sardines, eggs, mustard, onion, mayonnaise and cocktail sauce. Open cans of biscuits and pat each biscuit into a paper-thin round about 3 1/2" across; place 10 on ungreased baking sheet.

Spoon sardine mixture into the center of each, moisten the edges and cover with another flattened biscuit round. Pinch edges of each biscuit "sandwich" together, cut a small slot in the top, and brush with melted butter. Bake 10 to 12 minutes or until nicely browned. Makes 10 burgers.

Pineapple Sweetens Pork Sausage Patties

Gather ye 'round and try these delicious Sausage Cornettes. To prepare, simply combine 1 1/2 pounds bulk pork sausage with a 14-ounce can of crushed pineapple. Be sure the pineapple is drained.

Shape this mixture into 8 patties, about 1/4 inch thick. Dip patties into beaten egg, then roll in crushed corn flakes. Brown patties in melted lard, turning occasionally until done, about 45 minutes.

Try sprinkling hot cereal with nutmeg sugar. Blend 1/4 teaspoon ground nutmeg with each 1/2 cup sugar.

SHERBET IN ORANGE CUPS — This smooth tasting frozen dessert is delightful at any time, but will taste especially good during the holiday season. It is a good way to end a hearty meal. Best of all, the smallest members of the family can enjoy it too. Save your orange halves from breakfast and "carve" them into pretty servers.

Notched Orange Shells Hold Cool Fruit Sherbet

Excitement is in the air. You can feel it. You can almost touch it. Stars seem to shine more brightly—and the brightest stars of all are in the eyes of little children.

Small wonder little folks are on tiptoe with excitement when confusion swirls around them. They tag along, eager to be part of the fun, the mystery, the festive meals and first thing you know, are overtired, over-fed. Even sturdy grown-ups have been known to wilt during the holidays.

Naturally holidays are family days, so when the high chair is drawn within the family circle, the toddler likes to get a few tastes of those tempting "same as you" goodies. Try to plan some dishes that may be safely shared by young and old at holiday time. Serve a deliciously simple sherbet such as this Fruit Sherbet in Orange Cups.

Rarebit Is Different Served on Sardines

Add extra protein, flavor and heartiness to a cheese rarebit with meaty Maine sardines. Melt 2 tablespoons butter; blend in 2 tablespoons flour, 1/2 teaspoon dry mustard, 1/4 teaspoon salt and 1/4 teaspoon pepper. Slowly stir in 1 cup milk and cook, stirring, till smooth and thick. Add 1 cup grated sharp Cheddar cheese and 1/2 teaspoon Worcestershire; stir until cheese is melted.

Meanwhile heat sardines in skillet and arrange on toast. Cover with cheese sauce and serve to 4.

Sherry Basted Shrimp Served With Rice

Shell 1 pound shrimps, leaving tail on. Heat 1/4 cup peanut oil in pan, add 2 chopped scallions, 1 crushed garlic clove, 1/2 green pepper diced fine, and 1/4 teaspoon powdered ginger. Cook until onion is tender, then add shrimp, cook 2 or 3 minutes longer. Add 2 tablespoons very dry Spanish sherry, cook 1 minute longer. Remove shrimp.

Blend 3 tablespoons soy sauce, 2 teaspoons cornstarch and 1/2 teaspoon sugar into a paste with 1/4 cup water. Add to pan; cook until sauce is thickened and smooth. Return shrimp to pan, cook 30 seconds longer. Makes 4 servings. Serve with rice.

French Weekly Seized by Police

Paper Agrees to Remove Attack on Record of Soustelle in Algeria

PARIS (AP)—The free-swinging weekly newspaper L'Express was seized by police and failed to appear on newstands today because of an attack on the Algerian record of Information Minister Jacques Soustelle.

The Defense Ministry rescinded its seizure order when the paper agreed to publish Friday with an offending paragraph removed.

The paper is one of the few anti-Communist journals in open opposition to many of the policies of Premier Charles de Gaulle. It is a firm supporter of former Premier Pierre Mendes-France, who lost his seat in the National Assembly in the recent elections after opposing De Gaulle's new constitution.

L'Express has often been seized in the past for similar attacks on government ministers and on actions of the French army in Algeria. But this was the first seizure of an independent newspaper in metropolitan France since De Gaulle came to power last May.

Perhaps significantly, De Gaulle is out of Paris on a five-day trip through Algeria.

The offending paragraph in L'Express said that during and just after Soustelle's tenure as governor general of Algeria some 22,000 Moslems had been arrested and 3,000 of these "became cadavers."

Reliable sources said Soustelle himself was angered by the Defense Ministry order to seize the paper.

Delivery Truck Sliced in Half to Free Boy

LANSING (AP)—A small boy, trapped by a delivery truck, was screaming. So the truck was cut in half to free him.

The victim was 10-year-old Richard Massuch. The truck was one of those ten cent toy jobs you find in any department store.

Richard, downtown with his mother on a Christmas shopping expedition, found a hole in the truck that exactly fitted his small finger.

Then the finger wouldn't come out. A clerk tried greasing the finger but it swelled up and stuck faster.

Firemen gave it a try but Richard screamed louder. Richard and the truck were taken to the St. Lawrence Hospital emergency room.

Surgery on the truck with tin snips solved the problem. But Richard won't get any trucks with finger-size holes for Christmas.

LANSING (AP)—The attorney general's office has issued an opinion holding that the admission of children under five years of age to school in a primary district is within the discretion of the local school board.

The opinion was requested by Rep. Ben E. Lohman (R-Hamilton).

The local board has inherent authority to admit qualified persons under the age of five under its constitutional mandate to encourage the means of education, the opinion said.

Deaths Elsewhere

BY THE ASSOCIATED PRESS
NEW YORK (AP)—Sergei Sergeyev-Tsenskoy, 84, Russian author of historical novels and high-ranking member of the Soviet Academy of Culture, died Wednesday in Alutka, Crimea. The Soviet news agency Tass reported. Death followed a long illness, but the ailment was not given.

CHICAGO (AP)—William Garland, 59, secretary of the Board of Trustees of the Moody Bible Institute and president of the Johnson Glass Co., died Wednesday of a heart ailment.

CHAMPAIGN, Ill. (AP)—Dr. Albert Austin Harding, University of Illinois bandmaster for 40 years, died Wednesday of cancer. He was 78.

CLEVELAND, Ohio (AP)—Harry A. Pinney, a suburban Shaker Heights industrialist who was a director of the Remington Arms Co., died Wednesday in Lakeside Hospital. He had been a patient for several weeks. Previously, Pinney was factory manager for the National Cash Register Co., Dayton, Ohio. He was born in Ellington, Conn.

SINUS SUFFERERS

Just recently, many new products have been offered for temporary sinus relief. But Trumac tablets, based on actual testimony by users, may well afford you blessed permanent relief. Marketed for 9 years, Trumac has been praised by thousands. If you'd prefer blessed, long lasting benefits to mere temporary relief, try Trumac. You will also notice the mucous no longer forms in your sinuses. Accept no substitutes. Sold by leading drug stores in the U.S. and Canada. Trumac Laboratories, Inc. Detroit 27, Michigan

Nuclear Plane Accident Could Start War—Reds

LONDON (AP)—The Soviet Union claimed today that an accident to a nuclear-armed U.S. plane—such as took place last week at Lake Charles, La.—could one day accidentally touch off World War III.

An Air Force B47 medium jet bomber caught fire on the flight line at Chennault Air Force Base Nov. 26 while carrying a nuclear weapon. The fire did not reach the weapon. The U.S. government has said repeatedly there is no possibility of an atomic or hydrogen bomb being exploded accidentally.

"Accidents of this kind have become routine events in the U.S. Air Force," said Pravda, the Soviet Communist party newspaper, in a comment quoted by Moscow radio.

The Soviet government, Pravda said, "repeatedly has warned of the terrible danger of regular flights of American planes carrying nuclear loads over the territories of a number of states."

Divorced for 9 Days, She's Still With Him

LONDON (AP)—For six years Mrs. Margaret Lingham-French took husband John his morning cup of tea in bed. She was still doing it this morning though they were divorced nine days ago.

"It's hard to break the habits of six years of marriage," explained Mrs. Lingham-French, dark-haired and 36. "Even though we are divorced, I still cook his meals and do the washing up. And when I've done the washing up, I'll be darning his socks."

Mrs. Lingham-French won her divorce on the ground of cruelty and moved into another bedroom. But she can't move out of the house because she hasn't yet found an apartment she can afford on the 5 pounds (\$14) a week he agreed to give her for herself and their three children, Margaret 5, Hillary 4, and Katrina 2.

Wednesday she went back to the divorce court and got an order forbidding John from molesting her while they are under the same roof.

"I'm still very fond of him," she confessed. "When he's being pleasant, he can be very good company."

Deaths in Pontiac and Nearby Areas

MISS GRACE E. ARMSTRONG
Miss Grace E. Armstrong, 78, of 77 Fairgrove Ave., died yesterday of a heart condition in Grove Crest Manor, after a long illness.

She was a member of Central Methodist Church.

Surviving are two brothers, Charles of Detroit and Harry of Pontiac.

Service will be at 3 p.m. Saturday from the Huntoon Funeral Home with burial in Oak Hill Cemetery.

WILLIAM L. MURPHY
William L. Murphy, 82, of 50 Niagara St., died early this morning in Pleasant View Rest Home after an illness of several years.

He was a retired employee of Eames & Brown, plumbers.

Surviving are a daughter, Mrs. Ralph Ensforth of Pontiac, one grandchild, and a brother.

Service will be at 1 p.m. Saturday from the Donelson-Johns Funeral Home with burial in Perry Mt. Park Cemetery.

MRS. FLOYD WHITE
Mrs. Floyd (Charline) White, 29, of 238 Franklin Rd., died Tuesday in Pontiac General Hospital from injuries received in an automobile accident Monday evening on W. Huron street, Waterford Township.

She was a member of Trinity Baptist Church.

Surviving are three children, Geraldine, Joe Ann and Loretta, all at home; several brothers and sisters in Covington, Ky.

Her body will be at the Frank Carruthers Funeral Home until midnight Friday when it will be taken to Covington for service and burial Sunday.

ERROL ANTON
MILFORD — Service for Errol Anton, 62, of Milford road, will be held at 10 a.m. Saturday at the Dryer Funeral Home. Burial will be in Greenwood Cemetery, Sandusky.

Mr. Anton died Wednesday in a local hospital, following a long illness.

Surviving are a sister, Mrs. Mary Brune of Detroit, and one nephew.

WILLIAM HINKEL
ROCHESTER — Service for William Hinkel, 80, of Pine St., will be held at 3 p.m. Saturday at the Pixley Funeral Home.

Burial will be in Rochester Cemetery.

Mr. Hinkel died early this morning at a Pontiac hospital following several months illness.

Surviving are a son, Hollis of Rochester and a daughter, Mrs. Marion Fritz of Mount Clemens, 11 grandchildren and three great-grandchildren.

MRS. CARNEY J. JONES
MOUNT VERNON — Service for Mrs. Carney J. (Ollie L.) Jones, 65, of 60651 Mt. Vernon Rd., will be held at 1 p.m. Saturday at the Pixley Funeral Home, Rochester.

Burial will be in Mount Vernon Cemetery.

Mrs. Jones died Wednesday at Avon Center Hospital, Rochester, following a heart attack.

She was a member of the Mt. Vernon Methodist Church.

Surviving are her husband, Carney J.; three sons, Garlan and Fred, both of Rochester and Paul of Pontiac; a daughter, Mrs. Marcella Hamelback of Rochester; two brothers, three sisters and nine grandchildren.

MRS. EDITH NEWLIN
HOLLY — Service for Mrs. A. C. John Henry Smith Jr., 21, Edith E. Newlin, 76, of 205 E.

Maple St., was held at 1:30 today at the Dryer Funeral Home. Cremation was at the White Chapel Cemetery, Troy.

Mrs. Newlin died Monday at the Green Valley Nursing Home, Holly, following a long illness.

Surviving is one sister, Mrs. Olive Thompson of California.

WILLIAM D. ABERGOLD
ORCHARD LAKE — Service for William D. Abergold, 57, of 7266 Arrowwood St., will be held at 10 a.m. Saturday at the Our Lady of Refuge Church. Burial will be in Holy Sepulchre Cemetery.

The Rosary will be recited at 7:30 p.m. Friday at the C. J. Godhardt Funeral Home, Pontiac.

Mr. Abergold died suddenly yesterday at Pontiac General Hospital.

He was a member of Our Lady of Refuge Church and had been employed at the Pontiac Motor Division.

Surviving are his wife, Irene; a son, Thomas William at home, and a daughter, Judy Lee of Ferris Institute.

JOHN H. SMITH JR.
LAKE ORION — Service for A. C. John Henry Smith Jr., 21, of 2756 Adams Rd., will be held at

2 p.m. Saturday at Allen's Funeral Home. Burial and a military graveside service by Charleston-Poland Post 233 will be in East Lawn Cemetery.

Smith was killed in an auto accident Monday in Kingston, Pa. He was at the air force stationed in New York.

He was a member of the Lake Orion Community School and the Lake Orion First Baptist Church.

Surviving are his parents, Mr. and Mrs. John H. Smith of Lake Hope of McKeesport, Pa.; two sisters, Janet Grace of Central Michigan College and Marian, at home.

Hope of Special Session of Legislature Fades

LANSING (AP)—Chances dimmed today for a special session of the Legislature later this month on increasing lawmakers' salaries, now \$5,000 a year counting a flat \$1,000 for expenses.

Rep. James Goulette, Republican lame duck from Iron Mountain and chief promoter of the idea, said procedural questions had arisen that cast some doubt on whether he could muster the necessary support. In addition, the passing of time—with the new Legislature due in Jan. 14—worked against the plan.

Researchers Discover How Parathion Kills

ITHACA, N. Y. — The killing method of parathion insecticide has been discovered by researchers at the Cornell University.

Seeking to learn why spraying trees with parathion several weeks before insect eggs were laid could prevent hatching, the researchers found: poison vapor seeps into the eggs, then either kills at once or is delayed until the embryo stage, and the accumulating poisons in the embryo cause its death.

Log Cabin Models Sold as Playhouses

HOLDENVILLE, Okla. — (UPI) — L. O. Moore is turning a hobby into a profitable enterprise by making miniature log cabins, house,

which he sells as playhouses for children. The houses are four-by-five feet and 52 inches high. Moore uses rough pine lumber, the kind sawmills toss away in order to get to the better wood beneath. He makes an average of three of the cabins each week in a small workshop behind his house.

The amateur carpenter turned to the hobby after undergoing an operation a year and a half ago. His occupation is oil field driller. The American Foundation for the Blind estimates that there are between 11,000 and 14,000 blind children in the nation's schools.

Historic Island of Mackinac Spurns Planes

LANSING (UPI)—The Mackinac Island Park Commission, which vows it will never let cars on its 2,400-acre fortress of 17th Century living, came within one vote Monday of allowing an airplane to touch its soil. Commission Chairman Stuart S. Woodfill read and said he favored a proposal to allow one plane to make shuttle trips from Pellston to the island during the summer. Alfred H. Whittaker, Grosse Pointe, said it was about time planes were allowed to land because "sooner or later someone's life will be saved by being able to get off the island in a hurry." But Mrs. Mariana B. Rudolph, a resident commissioner and owner of a ferry service that now links the island with the mainland, objected.

"It opens the whole island to more modernization," she said. Henry E. Naegley Jr., Saginaw, said he wanted the motion tabled and the commission agreed. The commission's effort to gear the island to the period of about 1812 appeared to be paying off. It reported that 118,000 persons paid to see the restored Fort Mackinac last summer, compared with only about 10,000 in previous years when there was no charge to see the fort. The commission already has spent about \$50,000 in bond money to restore the fort. Another \$75,000 will be spent before the 1959 season opens.

Only 5,000 Still Live in Old City of London

LONDON — A century ago the square-mile heart of the metropolis, the ancient City of London, had a resident population of more than 100,000, but as merchants' houses became shops and offices, the residents moved out. Today about 400,000 people work in the City by day, but when the evening rush is over, about 5,000 remain—mostly caretakers.

shower after shower after shower

there's always plenty of hot water

the new electric water heater way

GET IT HOT...GET A LOT every time. A new electric water heater provides plenty of hot, hot water for showers and all the family's needs. Detroit Edison has a new Super Supply Plan which makes heaters even more efficient and economical.

Here's the most convenient, modern way to **GET IT HOT** ... **GET A LOT** for an operating cost as low as \$3.88 per month.

Only electric water heaters give you all these important advantages:

- ☒ Efficient—the heat goes into the water
- ☒ Install anywhere—need not be near a chimney
- ☒ Automatic—all the time
- ☒ Long life—meet Edison's rigid standards
- ☒ Fast—new, more efficient heating units
- ☒ Outer shell—cool to the touch all over
- ☒ Safe—clean—quiet—modern
- ☒ Edison maintains electrical parts without charge

Johnson Denies Plan to Meet With Dems.

BEAUMONT, Tex. (AP) — Contrary to published reports, Senate Majority Leader Lyndon B. Johnson (D-Tex.) says he has no plans to confer with new Democratic senators.

Johnson said Wednesday that any senator is welcome to visit him but he has not asked any group to meet with him.

In a special news story from Washington, the Chicago Sun-Times said earlier that Johnson would seek to cement party unity by meeting with Democratic liberals and moderates in Washington this weekend. It said most of the 15 new Democrats in the Senate would be there.

NOTICE OF SALE
School District of the City of Pontiac, Oakland County, Michigan.
Sealed bids for the purchase of School District Bonds to be issued by the School District of the City of Pontiac, Oakland County, Michigan, of the par value of \$2,000,000, will be received at the Board of Education, No. 40 Patterson St., in the City of Pontiac, Michigan, until 5:00 o'clock p.m., Eastern Standard Time, on Monday, the 15th day of December, 1958, at which time and place said bids will be publicly opened and read.

Said bonds will be dated November 1, 1958, will be coupon bonds in the denomination of \$1,000 each, will be numbered consecutively in the direct order of their maturities from 1 upwards, and will bear interest from their date at a rate or rates not exceeding 5% per annum, payable on July 1, 1959 and thereafter semi-annually on January 1 and July 1. Each bid shall state the annual interest rate or rates upon which it is limited, expressed in multiples of 1/4 of 1%.

The interest rates for each coupon period on any one bond shall be the rate only. Accrued interest at date of delivery of such bonds must be paid by the purchaser at the time of delivery.

Said bonds will mature serially on the first day of January in each year as follows: \$5,000 on January 1 in the year 1961, \$50,000 on January 1 in each of the years 1962 through 1965, \$100,000 on January 1 in each of the years 1966 through 1968, \$150,000 on January 1 in each of the years 1969 through 1971, and \$800,000 on January 1 in each of the years 1972 through 1985.

Bonds maturing in the years 1972 through 1985 are subject to redemption by the school district prior to maturity, in its entire discretion, on any one or more interest payment dates on and after January 1, 1971, at par and accrued interest plus a premium on each bond in accordance with the following schedule:

\$50 if called to be redeemed on or after January 1, 1971 but prior to January 1, 1972.
\$25 if called to be redeemed on or after January 1, 1972 but prior to January 1, 1973.
\$20 if called to be redeemed on or after January 1, 1973 but prior to January 1, 1974.
\$15 if called to be redeemed on or after January 1, 1974 but prior to January 1, 1975.
\$10 if called to be redeemed on or after January 1, 1975 but prior to January 1, 1976.

Notice of redemption shall be published not less than 30 days prior to the date fixed for redemption, at least once in a newspaper or publication circulated in the City of Pontiac, Michigan, which carries as a part of its regular service, notices of the sale of municipal bonds. The remaining bonds will not be subject to redemption prior to maturity. Both principal and interest will be payable at such bank or trust company as shall be designated by the original purchaser of the bonds.

The bonds are to be issued for the purpose of defraying the cost of erecting and equipping new school buildings and additions to existing school buildings in said school district, and will be the general obligations of the school district which is authorized and required by law to levy upon all the taxable property therein such ad valorem taxes as may be necessary to pay said bonds and the interest thereon, without limitation as to rate or amount as provided in Section 27 of Article 2 of the Michigan Constitution.

For the purpose of awarding the bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified in the bid, the total dollar value of all interest on the bonds from January 1, 1959 to their respective maturities and deducting therefrom any premium. The bonds will be awarded to the bidder whose bid on the above computation produces the lowest interest cost to the school district. No proposal for the purchase of less than all of the bonds or at a price less than their par value, will be considered.

A certified or cashier's check in the amount of \$40,000 drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the school district must accompany each bid as a guarantee of good faith on the part of the bidder to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest shall be allowed on the good faith checks and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or registered.

Bids shall be conditioned upon the unqualified opinion of Dickinson, Wright, Davis, McKean & Cudlip, (Clark, Stevens & Counsel), attorneys, Detroit, Michigan, approving the legality of the bonds. The cost of said legal opinion and of the printing of the bonds will be delivered at Detroit, Michigan.

The right is reserved to reject any or all bids.
Envelopes containing the bids should be plainly marked "Proposal for Bonds," dated December 3, 1958.
Approved: December 1, 1958.
Municipal Finance Commission
WALTER L. GODSELL,
Secretary of the Board of Education

NOTICE OF SPECIAL TOWNSHIP MEETING AND ELECTION OF REGISTRATION OF VOTERS
Whereas, at a meeting of the Township Board of the Township of Independence, Oakland County, Michigan, held on the 2nd day of December, 1958, a franchise ordinance was adopted, entitled as follows:

An Ordinance, granting to Consumers Power Company, its successors and assigns, the right to own, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges and other public places, and to do a local gas business in the Township of Independence, Oakland County, Michigan for a period of thirty years.

Whereas, said Consumers Power Company has heretofore filed its written acceptance of said franchise, and has requested that the question of confirming the grant thereof be submitted to the qualified electors of the Township, and a special election to be held for that purpose, and has also paid to the Township Board the estimated expense of holding such election;

Whereas there has been heretofore filed with said Board, a petition signed by at least twelve electors, requesting that a special township meeting and election be called for such purpose.

Now, therefore, pursuant to the provisions adopted by said Board, notice is hereby given that a special meeting and election will be held in said Township at Precinct No. 1 Town Hall, 90 North Main Street, Clarkston.

Precinct No. 2 Fire Station No. 2, 7635 Sahabaw Road, Independence Township.
Precinct No. 3 School at 5275 Mayber Road at Sahabaw Road, Independence Township, on Wednesday, the 21st day of January, 1959, for the purpose of voting on the confirmation of the action of said Township Board in granting such franchise.

The polls of said election will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and will be held open until 9 o'clock p.m., Eastern Standard Time. The Township Clerk will be in his office on the 22nd day of December, 1958, said date being the thirtieth day, as determined by statute, preceding the date of said election, for the purpose of reviewing the registration, and registering such of the qualified electors of the Township as shall appear and apply therefor, which registration may be made on said date between the hours of 9 o'clock a.m. and 5 o'clock p.m., Eastern Standard Time. Said franchise as granted by said Board is on file with the undersigned Township Clerk for the purpose of inspection by the qualified electors.

In order of the Township Board.
Dated: December 2, 1958.
HAROLD J. DOEBLER,
Dec. 4, 1958.

Poland Wins Heart of Pianist Julius Katchen

WARSAW (UPI) — Poland is far off the concert circuit for most western musicians but brilliant young American pianist Julius Katchen says the rewards in appreciation and gratitude are worth every mile of the journey.

"In my first appearance in Warsaw two years ago, I played 11

cores before I could leave," he recalls.
Katchen's chief French wife, Ariette, adds, "He only stayed in the dressing room then because I barred the door and wouldn't let him go back. He was exhausted for days."

On the 1956 trip, Katchen played in Warsaw and Katowice. His present tour of Poland will last nearly a month and is taking him to nine cities, with a total of 13 performances.

Even more noteworthy is the number and variety of concertos

Katchen scheduled for the second Polish tour. He is giving the Brahms First and Second, Beethoven Emperor, Prokofiev Third, Tchaikovsky First and Schumann Concerto in A Minor.

ROCKED HALL
In his first of two appearances in Warsaw with the Warsaw Philharmonic, the traditionally fashionable and stiff Friday night audience rocked the rebuilt concert hall with their applause and the Polish encore demand which to American ears sounds like a combination boo and hiss.

The following Sunday morning concert, for students and music lovers, exploded into thundering bravos and cries of "Bis, bis" (more, more). Katchen was tired out but delighted.

"That's what makes these trips worthwhile," he said. "That's why I'm willing to play for zlotys I can't take out of the country. The audiences here are wonderful. 'Coming to Poland again, just like my first tours here and in Czechoslovakia, I feel I'm doing something useful in keeping up the

contact between East and West, at least in music."
From Elberon, N.J., to Warsaw, Poland, has been a long trek for the 32-year-old pianist, who made his professional debut with the Philadelphia Orchestra and Eugene Ormandy as a child prodigy of 11.

His father, Ira J. Katchen of Elberon, a lawyer, deflected his son into a broad general education at Haverford College.

Katchen, majoring in philosophy and English literature, was top man in his graduating class in 1946 and was an international class table tennis player before returning to his musical career with a French government scholarship.

Since then he has played more than 100 concerts a year in 43 countries around the world. In few of them, he said, has he found more enthusiasm and welcome appreciation of his musicianship than in Poland.

His schedule here opened in Lodz on Nov. 18, and continues through Warsaw, Katowice with the radio orchestra, Cracow with the Cracow Philharmonic, Szczecin (Stettin)

Aged Slayer May Return to Italy for Christmas

WALLA WALLA, Wash. (AP) — Guido Grassi, an aged, convicted murderer who gambled the last years of his life for a pardon, may be home for Christmas.

Home to the 78-year-old Grassi is Italy, a country he left 48 years ago as a penniless immigrant.

The last 35 of those years Grassi has spent in the Washington State Penitentiary for murdering three men in Aberdeen in 1923.

Grassi had been sentenced to hang after his conviction. But the execution was postponed after he was judged insane.

Last September, in a bid to return to his homeland, he went before a court and was declared

sane. The old death sentence was automatically reset, this time for 12:01 a.m., Dec. 5.

The move was necessary in order that Grassi might petition the governor for a pardon.

Wednesday, Grassi, who speaks only a few words of English, was led from his death row cell to a meeting with Warden Bob Rhy. "Explain to him," Rhy told an interpreter, "that he will get a pardon from the governor after three stipulations are met."

Tears welled in Grassi's eyes and a smile spread over his lined face as he heard Rhy's words translated.

He was told Gov. Albert D. Rosellini had commuted his death sentence to life imprisonment and had left the door wide open for a pardon.

The governor said if psychiatrists find Grassi sane to be at large, then a request for a pardon may be granted on condition Grassi remain in custody until he leaves this country, returns to Italy at no expense to the state and never again enters the United States, its territories or possessions.

Grassi said nothing until he was told he must return to his homeland at no expense to the state. "Where are they going to get the money?" he asked.

His fellow convicts say they have the answer. They have pledged the necessary funds to return Grassi to Italy, where he has three sons. Grassi's wife died there eight years ago. Another son was killed during World War I.

"I know you will be disappointed you are not going home tomorrow," Rhy told the old man, "but let's hope for Christmas." Grassi, who was known as the prison's "forgotten man" and who seldom spoke to anyone, answered with two of the several English words he knows: "America good!"

Policeman's Son, 24, Named in Kidnaping

HOUSTON, Tex. (AP) — Detectives working with the accused man's father charged the son of a Rock Island, Ill., policeman Wednesday with kidnaping a Houston schoolteacher.

Officers lodged the complaint against Thomas Raisbeck, 24, after the teacher, Mrs. Betty Jo Martin, 28, examined a photograph supplied by the elder Raisbeck. The son is not in custody.

Mrs. Martin said her abductor freed her unharmed six hours after crowding into her car outside a grade school Monday, taking \$6 from her purse and forcing her to cash a \$300 check at the drive-in window of a suburban bank.

She said the man asked directions to Mexico before releasing her two blocks from home and driving away in the car.

In Albuquerque, police said that Raisbeck had been reported at Roswell, in southeastern New Mexico, and a statewide alert was out.

For the purpose of awarding the bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified in the bid, the total dollar value of all interest on the bonds from January 1, 1959 to their respective maturities and deducting therefrom any premium. The bonds will be awarded to the bidder whose bid on the above computation produces the lowest interest cost to the school district. No proposal for the purchase of less than all of the bonds or at a price less than their par value, will be considered.

A certified or cashier's check in the amount of \$40,000 drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the school district must accompany each bid as a guarantee of good faith on the part of the bidder to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest shall be allowed on the good faith checks and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or registered.

Bids shall be conditioned upon the unqualified opinion of Dickinson, Wright, Davis, McKean & Cudlip, (Clark, Stevens & Counsel), attorneys, Detroit, Michigan, approving the legality of the bonds. The cost of said legal opinion and of the printing of the bonds will be delivered at Detroit, Michigan.

The right is reserved to reject any or all bids.
Envelopes containing the bids should be plainly marked "Proposal for Bonds," dated December 3, 1958.
Approved: December 1, 1958.
Municipal Finance Commission

Sound Waves Reveal When Bone Has Knit

HINES, Ill. — Surgeons at the Veterans Administration Hospital at Hines report the development of a method of using sound waves to follow the progress of healing in a fractured bone.

X-ray pictures sometimes indicate that a poorly joined bone is sound, the physicians say, but with the sonic method sound velocity approaches that through a normal bone when healing is nearly complete and equals that of a normal bone when the fracture is fully joined.

He was told Gov. Albert D. Rosellini had commuted his death sentence to life imprisonment and had left the door wide open for a pardon.

The governor said if psychiatrists find Grassi sane to be at large, then a request for a pardon may be granted on condition Grassi remain in custody until he leaves this country, returns to Italy at no expense to the state and never again enters the United States, its territories or possessions.

Grassi said nothing until he was told he must return to his homeland at no expense to the state. "Where are they going to get the money?" he asked.

His fellow convicts say they have the answer. They have pledged the necessary funds to return Grassi to Italy, where he has three sons. Grassi's wife died there eight years ago. Another son was killed during World War I.

"I know you will be disappointed you are not going home tomorrow," Rhy told the old man, "but let's hope for Christmas." Grassi, who was known as the prison's "forgotten man" and who seldom spoke to anyone, answered with two of the several English words he knows: "America good!"

For the purpose of awarding the bonds, the interest cost of each bid will be computed by determining, at the rate or rates specified in the bid, the total dollar value of all interest on the bonds from January 1, 1959 to their respective maturities and deducting therefrom any premium. The bonds will be awarded to the bidder whose bid on the above computation produces the lowest interest cost to the school district. No proposal for the purchase of less than all of the bonds or at a price less than their par value, will be considered.

A certified or cashier's check in the amount of \$40,000 drawn upon an incorporated bank or trust company and payable to the order of the Treasurer of the school district must accompany each bid as a guarantee of good faith on the part of the bidder to be forfeited as liquidated damages if such bid is accepted and the bidder fails to take up and pay for the bonds. No interest shall be allowed on the good faith checks and checks of the unsuccessful bidders will be promptly returned to each bidder's representative or registered.

Bids shall be conditioned upon the unqualified opinion of Dickinson, Wright, Davis, McKean & Cudlip, (Clark, Stevens & Counsel), attorneys, Detroit, Michigan, approving the legality of the bonds. The cost of said legal opinion and of the printing of the bonds will be delivered at Detroit, Michigan.

The right is reserved to reject any or all bids.
Envelopes containing the bids should be plainly marked "Proposal for Bonds," dated December 3, 1958.
Approved: December 1, 1958.
Municipal Finance Commission
WALTER L. GODSELL,
Secretary of the Board of Education

NOTICE OF SPECIAL TOWNSHIP MEETING AND ELECTION OF REGISTRATION OF VOTERS
Whereas, at a meeting of the Township Board of the Township of Independence, Oakland County, Michigan, held on the 2nd day of December, 1958, a franchise ordinance was adopted, entitled as follows:

An Ordinance, granting to Consumers Power Company, its successors and assigns, the right to own, maintain and operate gas mains, pipes and services on, along, across and under the highways, streets, alleys, bridges and other public places, and to do a local gas business in the Township of Independence, Oakland County, Michigan for a period of thirty years.

Whereas, said Consumers Power Company has heretofore filed its written acceptance of said franchise, and has requested that the question of confirming the grant thereof be submitted to the qualified electors of the Township, and a special election to be held for that purpose, and has also paid to the Township Board the estimated expense of holding such election;

Whereas there has been heretofore filed with said Board, a petition signed by at least twelve electors, requesting that a special township meeting and election be called for such purpose.

Now, therefore, pursuant to the provisions adopted by said Board, notice is hereby given that a special meeting and election will be held in said Township at Precinct No. 1 Town Hall, 90 North Main Street, Clarkston.

Precinct No. 2 Fire Station No. 2, 7635 Sahabaw Road, Independence Township.
Precinct No. 3 School at 5275 Mayber Road at Sahabaw Road, Independence Township, on Wednesday, the 21st day of January, 1959, for the purpose of voting on the confirmation of the action of said Township Board in granting such franchise.

The polls of said election will be opened at 7 o'clock in the forenoon, or as soon thereafter as may be, and will be held open until 9 o'clock p.m., Eastern Standard Time. The Township Clerk will be in his office on the 22nd day of December, 1958, said date being the thirtieth day, as determined by statute, preceding the date of said election, for the purpose of reviewing the registration, and registering such of the qualified electors of the Township as shall appear and apply therefor, which registration may be made on said date between the hours of 9 o'clock a.m. and 5 o'clock p.m., Eastern Standard Time. Said franchise as granted by said Board is on file with the undersigned Township Clerk for the purpose of inspection by the qualified electors.

In order of the Township Board.
Dated: December 2, 1958.

Forests Occupy a Third

TORONTO — Forests occupy nearly one third of North America and Europe and more than 40 per cent of South America. In Asia they occupy 20 per cent of the land, in Africa 28 per cent, and in Russia 30 to 40 per cent.

Hollywood Headlines

'Young' Tim McCoy at 67 Still Hard-Riding Cowboy

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD, Calif. (AP) — "I know I could do pictures again, but I also know I could never convince the producers of that. So I've found another field for myself — the circus."

This was the realistic view of Tim McCoy, Hollywood's only authentic Western star. He's a colonel, but not the Kentucky kind. Before coming to Hollywood in 1922, he actually served with the Army among the Indians in western America.

McCoy is 67, looks 40, and could outdraw and outride most of the younger cowboys on the TV range.

Tim was one of MGM's brightest stars (one of his leading ladies was Joan Crawford), later made Western series for Columbia and Monogram.

"I walked out of Monogram to go into the Army during the war," he said. "When I came back, everyone had forgotten me. I decided I wasn't going to fight them. So I got a place in Bucks County, Pa., and decided I would retire."

It turned out otherwise. He met and married Inga Arvad, then a magazine beauty editor and once a Hollywood correspondent. When they had the first of their two sons, Tim decided to come back to Hollywood and brave the new adventure of television.

He made a rousing success of a local show in which he demonstrated his vast knowledge of Western lore. He even won an Emmy from the Television Academy.

"That was the kiss of death," he sighed. "Three months later, I was without a sponsor."

Films beckoned him but only briefly. He did a cameo appearance in "Around the World in 80 Days" and a one-day vignette in an RKO Western — "The director was working with the cavalry and Indians, but it never occurred to him to ask me if he was doing it right."

Then came an offer to go with the Carson-Barnes Circus. Tim had toured three years with Ringling Brothers-Barnum and Bailey, but didn't think he wanted to go back under the big top. His wife persuaded him to give it a try.

"And I've had the time of my life," he admitted.

Tim makes a grand entrance on a white palomino, dismounts to crack a 12-foot whip, shoot balls out of the air with a shotgun, lasso racing horses and perform other crowd pleasers. During the summer months, Inga and the two boys join him.

He'd like to spend his winters making TV Westerns, "but it's hard to convince producers that Tim McCoy isn't 90 years old."

Israeli, Syrian Guns Rumble

Nations Swap Charges on Reason for Hourlong Artillery Duel

JERUSALEM (AP)—Israel and Syria swapped charges today over an hourlong artillery duel during which six or more Israeli villages came under heavy fire.

Neither side acknowledged any casualties in the shelling Wednesday of villages in the central Jordan Valley, although Israeli residents were terrorized and some property damaged. Both sides agreed that an Israeli shepherd was killed in an incident which preceded the duel, but disagreed whether the shepherd was on his side of the border.

The gunfire ended at nightfall, 15 minutes after the U.N. truce supervision organization called for a cease-fire. A U.N. report was being prepared.

A spokesman for the United Arab Republic's 1st Army in Damascus, capital of the Syrian Province, said armed Israelis with a herd of cows penetrated almost half a mile into Syria. When Syrians in the village of Raiyah tried to drive out the cows, the Israelis opened fire and withdrew, leaving one dead man in Syria.

About four hours later Israeli artillery opened up in a "feverish attempt... to cover their earlier unsuccessful aggression against Arab villages," the U.A.R. spokesman said.

Syrian gunners replied with "severe and merciless fire" on six Israeli villages, leaving "undetermined but heavy casualties" and flaming ruins, he added.

Scientists Assume Sputnik Rocket Gone

CAMBRIDGE, Mass. (AP)—Scientists carefully assumed today that the Soviet rocket which launched Sputnik III into orbit last May 15 plunged to a fiery death Wednesday.

The Pullman-car-sized, rocket weighing between two and five tons was last seen in orbit Wednesday morning. There have been no sightings of it since.

From Oslo came a report that some people claimed they saw the last ride of the Soviet carrier rocket moving in the direction of Sweden.

Reports from near the Swedish border said a burning rocket was seen in mid-afternoon.

Despite the size of the rocket, scientists said, very little, if any part of it at all, would remain intact as it reached the earth.

They explained that friction from the earth's dense atmosphere would cause the satellite to burn and disintegrate.

The plunge of the Sputnik III rocket leaves four man-made satellites still circling the globe — Sputniks I, II and three American satellites.

Man Forced to Share Pecans With Squirrel

HOUSTON, Tex. (UPI) — Sig Frucht, Houston produce executive, is ready to settle "on a 50-50 basis" with a big squirrel for the pecans on a tree in Frucht's yard.

Frucht said the squirrel had been eating his pecans for days when he caught him and took a swipe at him with a broom.

"Instead of running," Frucht said, "he bared his teeth and growled at me. I thought he was going to charge me. Now I'd be willing to settle on a 50-50 basis with him."

CAT SHOW CUTUP — Nod, a sassy housecat, registers his reaction to some 250 other pedigreed and common cats competing in the third annual cat show in Indianapolis, Ind. It would appear the feline was giving the rest of his species the cat's meow.

Calls On Local Law to Stamp Out Bigotry

WASHINGTON (AP)—FBI Director J. Edgar Hoover said today hate bombings by what he called criminal bigots can be fought most effectively by local law officials.

Hoover thus underscored repeated statements by the Justice Department that no legal grounds existed for federal authorities to take over the primary job of hunting down and punishing those responsible for recent bombings of Jewish centers and racially integrated schools.

However, an editorial by Hoover in the current issue of the FBI Law Enforcement Bulletin also stressed that FBI facilities always are available to help local police in fighting crime.

"Just as experience proves that crime is a local problem," Hoover said, "so this present threat can be most effectively diagnosed and combated on the local level."

"Citizens in every city, county and state rightly look to their local law enforcement agency for protection against real or threatened violence. This is the primary duty of duly constituted local police authority—the first line of defense against criminal acts."

At the same time, the FBI chief said there is no more powerful weapon against hatred and bigotry than overwhelming public indignation, embracing all creeds and races.

1st Native Champagne

America's first bottle of native champagne, made from the juice of the Catawba grape, was introduced about 1820 by Nicholas Longworth, of Cincinnati, Ohio.

Alabama Vote Report Slated

At Least Six Counties Involved in Hearing on Discrimination

MONTGOMERY, Ala. (AP) — Two Civil Rights Commission agents returned to Washington Wednesday night after confirming that at least six Alabama counties are involved in next Monday's hearing on Negro voting.

Federal agents Burton Stevenson and B. I. Bernhard said they would make a final report to the year-old commission before the hearing — its first — on charges of discriminatory voter registration policies.

The investigators, who had been here several days serving subpoenas for county officials and their voter files, refused to identify the counties summoned.

Counties known to be involved, according to local officials in each, are Macon, Barbour, Bullock, Dallas and Lowndes, all of which have heavy Negro populations.

The sixth county to come under investigation, in what is apparently shaping into an extensive and spreading probe, has not been learned.

Meanwhile, the first commission staff member arrived here. David Koonce, former Washington Star newsman and now the agency's press representative, said the six commission members and seven others on the staff probably will arrive this weekend. The commission met one obstacle when it subpoenaed records in Barbour and Bullock counties.

Arbitrary Term Used

The term "Near East" is an arbitrary one. Generally speaking, the area embraces Cyprus, Egypt, Iran, Iraq, Israel, Jordan, Lebanon, Syria, Turkey and the countries of the Arabian peninsula.

Hitchhiker Confides Plan to Wrong Man

DETROIT, Mich. (AP) — "I've got a gun, a mask and a pair of gloves, and I'm all set to pull a robbery," Miguel Atkins confided to a motorist who gave him a ride.

"All I need is a getaway car. Maybe you'd like to join up," Atkins said his regular partner was in jail after a supermarket holdup.

The motorist, J. D. Washington, an off-duty policeman, pulled into a precinct station driveway and arrested Atkins.

Atkins was held for investigation of armed robbery.

Democrats to Pick 2-Year Policy Aims

WASHINGTON (AP)—The Democratic Advisory Council will meet here next Sunday to draw up a policy statement on "the Democratic task in the next two years." The 24-member group includes former President Harry S. Truman and Adlai Stevenson.

The council was formed after the 1956 election to develop and

push party programs between national conventions. It has met from time to time since then.

Its meeting next Sunday will come just a month before the 86th Congress convenes with greatly increased Democratic control of both House and Senate.

When the council was organized, top Democratic leaders in Congress declined invitations to join. House Speaker Sam Rayburn of Texas said then that as a member of Congress he did not deem it proper to join any outside party group of this kind. But Rayburn

said he would be glad to confer with council members and receive their advice.

Senate Democratic Leader Lyndon B. Johnson of Texas took a similar position.

Woman Driver Again!

PUTNAM, Conn. (UPI)—When mechanic Hector Cote pointed out to a woman motorist that the reason her car wasn't working properly was because the choke was pulled all the way out, she replied, "Oh, I thought that was to hang my pocketbook on."

U.S., Allies Propose Inspection System

GENEVA (AP)—The United States and the four Allies today suggested the establishment of a globe-girdling inspection system to lessen the danger of surprise attack by ballistic missiles.

In a detailed document introduced in the surprise-attack conference, the Western powers defined a series of warning methods.

The Soviet bloc countries at the 10-nation conference were urged to join the Western nations in a technical study of the whole problem. The first Soviet reaction was negative, Western sources said.

Bags Rare Albino Deer

HILLSBORO, N. C. (UPI)—George Hays bagged a deer with his car, but he won't be dining on venison. The animal was a rare albino, and he turned it over to the biology department of North Carolina State College.

U.S. Has \$1.4 Billion in Unused Plants

WASHINGTON (UPI)—The Armed Forces told a house subcommittee that the government owns nearly one and a half billion dollars worth of industrial plants that are producing nothing. Reports submitted to a House Armed Services subcommittee by the Army, Navy and Air Force showed that the unused plants originally cost the government

\$1,409,391,221 but would cost much more than that to replace now. The reports said the government is spending about 31 billion dollars a year to maintain the plants.

Families Paint Homes

NEW YORK—A survey of painting habits reveals that in 71 per cent of the homes the interior painting was last done by family members. Professional painters did 18 per cent of the jobs; the rest were done by handymen or household servants.

Convicted Slayer Gets Life Sentence Reduced

ELGIN AIR FORCE BASE, Fla. (UPI)—A reviewing officer reduced the life sentence of airman, Wallace Millard Wheeler Jr., 22, convicted of killing a German woman in 1957, to 20 years at hard labor.

Wheeler had entered a plea of guilty to the fatal stabbing in Weisbaden, Germany.

Meat packers sell their beef within 14 days after it is slaughtered.

IGY Scientists Probe Secrets of the Seas

LISBON (UPI) — While some scientists have spent this International Geophysical Year hurling satellites into space, other dedicated men have been sweating out the I.G.Y. looking at the bottom of the deep blue sea.

What do they hope to find there? This is a question that the men most concerned — scientists aboard the 1,000-ton British Royal Research Ship Discovery II — hesitate to answer directly.

"Any chance of unearthing vast new reserves of metals down there?" a reporter asked M. N. Hill, geologist of Cambridge University, who is with the ship making a survey off the Portuguese coast.

"We are working in water much too deep for practical purposes like that," Hill answered.

Panama Limit Extension Tried

New Offshore Bill Gets Wide Support; Will Be Voted On by Assembly

PANAMA (AP) — A bill to extend Panama's territorial waters to 12 miles offshore has been introduced in the National Assembly with wide support.

The measure also would extend Panamanian sovereignty to the air space over nine-mile strips of Caribbean and Pacific water.

The bill was drafted by Deputy Aquilino Boyd, a former foreign minister, and was submitted with the signature of one deputy of each political faction in the Assembly.

Enactment of the bill might pose an international question involving the Canal Zone. The 1903 treaty giving the United States use of a 10-mile strip through Panama for the canal also granted U. S. jurisdiction over the seas three miles out from each end of the canal.

Extension of Panamanian sovereignty would create corridors hemming in access to the canal, although the bill guarantees the right of innocent passage to foreign ships using the canal.

The United States has consistently refused to recognize territorial water claims beyond three miles which have been made by a number of nations in recent years. The bill noted that the Panamanian delegation to an international conference on the sea in Geneva earlier this year had favored extension of territorial waters. The conference ended in disagreement.

'I Hate Rabbits' Drive Launched by Britishers

LONDON (UPI) — Britain's Rabbit Advisory Council declared war today on Br'er Rabbit, Bugs Bunny and Peter Cottontail.

There never was a good rabbit, the council ruled, and all those bedtime stories describing the long-eared beasts as cuddly little creatures never should have been written.

Rabbits are mean. They're thieves. They're villains. They're all evil—which about sums up the council's thinking on the subject.

The council, made up of farmers and people who don't even like rabbit stew, launched a psychological warfare campaign to change people's thinking on the subject and make all rabbits public enemies.

Maj. Ralph Verney, one of the council's top officials, explained the campaign.

"A long lineage of children's books have established the rabbit as a cuddly creature," the major snorted. "We want to tell children just what harm the rabbit does, and to put across the rabbit's real characteristics."

He suggested that if writers wanted to eulogize animals, they should follow Kenneth Grahame's example and choose self-respecting ones like the water rat, the toad and the mole.

Israeli Polio Less in '57

JERUSALEM — Israel had only 55 cases of polio in 1957, less than 10 per cent of the average annual incidence of the disease in the previous five years. Twenty of the cases involved children who had not been inoculated with Salk vaccine.

"But one day perhaps science will be able to exploit such underwater ores?" the newsmen persisted.

"I would rather not go into that," Hill said.

Do they expect to find the lost continent of Atlantis?

Hill and his men are not dreamers. But they know that the Azores are merely the tops of mighty underwater mountains, and that the ocean bed of the Atlantic is studded with other mountain chains.

"We have found some that are 10,000 and 12,000 feet high," Hill said. "They are all deep and well below the surface. We noted some about 120 miles northwest from Oporto that might have once formed part of a protruding land mass."

The British scientists get their clues from rocks and mud and slime they haul up from the sea bottom in tubes rammed 21 feet into the sea bed, from magnetic surveys and from the study of temperatures at the sea bottom.

They have a cable rig 30,000 feet in length, plus modern sounding devices, and one of their number, Dr. A. S. Laughton, formerly of Cambridge, is a specialist in underwater photography. His flashlight shots expose the secrets of the depths.

"We think you can learn about the bottom of the sea without going down in a bathyscope," Hill said.

He said the business of charting the ocean bed is in its infancy — a science that interested nobody until World War II.

J. C. Swallow of the National Institute of Oceanography is abroad Discovery II studying currents.

NEW METHODS

He has an ingenious new method

for determining the flow of deep currents — an apparatus is lowered to a set depth and then floats with the current emitting radio signals which operators in the ship pick up, enabling the course of the apparatus to be checked.

Swallow has established that in some places the vast deep sea water mass 13,000 feet below the surface sometimes moves as much as three miles in a day, but usually less.

There seems to be no set pattern for its movement. It varies from place to place in both speed and direction and measurements made in the same area several weeks apart show marked changes.

Ask Swallow what practical application this knowledge has and he answers:

"None immediately. It keeps in directly to an understanding of fishery problems because the deep waters are rich in the nutrient salts on which fish depend. It also helps perhaps to further our understanding of climatic conditions because of the influence of water on air temperatures."

Why then a lifetime of dedication to the study of water on the ocean floor?

"Well," said Swallow, "we scientists like to know as much about the world as possible and one never knows what one is going to stumble across next."

Detroit Loan Official Murdered in Robbery

DETROIT (AP) — A 51-year-old credit union manager was pistol-whipped and shot to death yesterday by a gunman he struggled with in an effort to prevent a robbery.

Claude A. Richards was slain as he fought off the bandit.

Richards was just about to hand some bills to a customer when an armed man entered the Plymouth Employees Federal Credit Union, jumped a counter and shouted, "I'll take that," making a grab for the money.

Richards, clutching the bills, jumped up and struggled with
