

United Fund Drive Soars Past Goal

Avoid Late Lineup

BUY LICENSE PLATES NOW — Pretty Bonnie Abbott, 18, reminds drivers there's a new reason why it's wise to buy 1959 license plates early. Besides a sample, green-and-yellow license plate, the Clarkston miss is holding up a vehicle license application, which in previous years was mailed to drivers but this year is available only at Secretary of State branch offices. Purchase your 1959 license now, advises Bonnie, and avoid waiting in long lines while you fill out your application. The deadline is Feb. 28.

Alaskans Brave Snow and Cold to Cast Ballots

More Than 40,000 of 60,000 Eligible Voters Expected at Polls

JUNEAU, Alaska (AP) — Paths to many of the 287 precincts were spread with fresh snow and it was near zero in much of the Northern territory today as eager Alaskans voted in their first state election.

Upwards of 40,000 were expected to brave the weather to cast ballots. About 60,000, including those 19 and 20 years old, were eligible to vote out of a population of some 210,000.

Being chosen are two new United States senators, a congressman, governor and 60 members of the first Alaska Legislature.

The territory will become the 49th and largest state in December or January after the election has been certified and a presidential proclamation issued.

This election will increase the permanent membership of the Senate to 98 and raise House membership to 436.

Democrats already had an edge of 63-34 in the U.S. Senate and 283-183 in the House and were likely to add to the margin here today.

Democrats held a commanding majority in the 1957 Territorial Legislature of 21-3 in the House and 11-5 in the Senate and were expected to win by about the same margin in the new state setup of 20 senators and 40 representatives.

VICTORY LIKELY — The campaign has drawn well-known political figures from the States. Among those, touring the territory were Vice President Richard M. Nixon, Interior Secretary Fred M. Seaton and Sen. John F. Kennedy (D-Mass.).

Democrat E. L. (Bob) Bartlett, 54, for 14 years Alaska's nonvoting delegate to Congress, was considered almost a certain winner in a Senate bid against Republican R. E. Robertson, 73, and Independent Keith Capper.

The other Senate race appeared

Hunting Season Deaths Mount to Toll of 20

By The Associated Press
The hunter death toll stood at 20 today as Michigan's deer hunting season entered its final days. The season opened Nov. 15 and closes Nov. 30. Seven hunters have died of accidental gunshot wounds thus far and at least 13 others have suffered fatal heart attacks while in the field. The latest heart attack victim to be reported is Euris York, 60, of Flint. He died while hunting in Gladwin County.

Court Blocks Airline Strike

Temporary Order Halts American Walkout Over Thanksgiving

MIAMI, Fla. (AP) — An 11th-hour court order blocked a pilots' strike at American Airlines and prevented the Thanksgiving holiday air travel crisis from becoming worse. Two other airlines are paralyzed by strikes.

The Air Line Pilots Assn. had threatened to strike American at midnight. Federal Judge Frederick V. P. Bryan issued a temporary restraining order Monday night enjoining the walkout.

Eastern Air Lines, the country's largest air passenger carrier, shut down operations Monday as flight engineers and mechanics went out. Trans World Airlines has been struck by 6,700 machinists since Friday.

The strike at Eastern sent holiday travelers rushing for alternate accommodations.

Other airlines were expanding their schedules and railroads added facilities to handle the Thanksgiving Day throngs. But it appeared that thousands of students, servicemen and others would not get home.

Judge Bryan's order required the pilots association to show cause by Friday why it should not be enjoined from striking. If sufficient cause is not shown, the order remains in effect while negotiations continue on the association's demands for higher pay, a shorter work schedule and other rule changes.

American asked for the restraining order on the grounds that a walkout by its 1,500 pilots would violate Railway Labor Act requirements for mediation and other compulsory "cooling off" measures. The association argued it had fulfilled all such requirements.

About 7,500 Eastern employees stopped work, and both sides prepared for what they predicted would be a long strike. A company spokesman expressed doubt that it would be settled by Christmas.

Meanwhile, Capital Airlines said it would return to normal operations by today. A machinists' strike at Capital more than a month ago has been settled.

A spokesman for the Pennsylvania Railroad said the line has been carrying extra equipment since the Capital strike.

Eastern serves 124 cities in 25 states, Canada, Mexico, Puerto Rico and Bermuda. Neither party to the strike has reported any move to straighten out contract differences that touched off the strike.

Blast Reduces Building to Rubble

FIREWORKS PLANT DESTROYED — This is a general view of the ruins of the main building of the Rockland Fireworks Co., of Randolph, Mass., which was destroyed by explosions yesterday. In the background are other buildings of the firm, which were damaged.

116.7 Per Cent of Its \$501,000 Aim Is Reached

Workers Hear Report on Mark-Cracking Success at Victory Luncheon

The Pontiac Area United Fund drive is over the top, with 116.7 per cent of its \$501,000 goal raised.

Campaign chairman Philip J. Monaghan told workers attending a victory luncheon at noon today at the Elks Temple that \$584,568 has been pledged or received.

"I'm extremely proud of the fine job registered by the 4,500 volunteer workers for the 55 community service agencies—this represents the best job they have ever done," said Monaghan.

An overflow crowd of 500 volunteer workers attending the luncheon cheered the 1958 campaign chairman as he disclosed the final figure.

Final returns from the Industrial Division under S. E. Knudsen, pushed this year's campaign far over its goal, according to Monaghan.

In spite of lower employment, Pontiac Motor, Fisher Body, GMC Truck & Coach and many of the smaller industrial firms managed to boost the average pledge and employ participation in their in-plant solicitations.

The Industrial Division raised a total of \$372,346.94.

Included in today's Industrial Division report, announced by George Watson, Pontiac Manufacturers' Assn. Plants Chairman, were the final returns from the employees of Pontiac Motor Division. They pledged \$116,035.

The General Motors Division is the largest single source of contributions in the area, and its employees have maintained an increasingly successful record of giving during the ten-year history of the Pontiac Area United Fund campaigns.

PRAISES EFFORTS

William Brace, plant chairman at Pontiac Motor received special recognition from Watson for "a difficult job well done."

Watson praised the fine efforts of the 1,700 foremen and supervisors in industrial plants in the Pontiac area whose jobs prevent

East German Boss Ready to 'Negotiate' With Big 3

BERLIN (AP) — East German Communist boss Walter Ulbricht today said his regime is prepared to negotiate with the Allies about their access to isolated West Berlin.

Ulbricht's declaration bore out the belief of many observers that the immediate Communist aim is not to drive the Western Allies from Berlin but to force them into negotiations the Reds could propagandize as recognition of the East German regime.

At the same time Ulbricht kept the record straight by asserting the Allies have no legal right to be in Berlin, that "there is... no legal basis for the presence of foreign occupation powers in Berlin."

But he said there is no reason to fear that the Communists will blockade the city because, as he put it, there exists the possibility of negotiations.

When the Russians carry out their threat to withdraw from the four-power occupation control of Berlin, one of their first acts is expected to be a transfer to the East Germans of control over the surface and air routes used by the Allies to supply their garrison in West Berlin.

Chancellor Konrad Adenauer's West German government wants the Allies then to defy East German control with tank-guarded supply convoys. The Allies more likely will negotiate with the East Germans but only on the basis

100 Autos Crack Up in LA Smog

LOS ANGELES (UPI) — More than 100 autos were involved in crashes yesterday when a thick fog bank and dense smog combined to reduce visibility to less than half a mile.

One person was killed and 110 others injured in the traffic accidents.

More smog was predicted for today.

Most of the traffic mishaps occurred early in the day when the fog was at its worst. But as the day progressed smog became worse and added to motorists' troubles by causing their eyes to water.

Many office workers stayed in their air-conditioned buildings during the lunch hour rather than face the eye-irritating blanket of dirty air which shrouded the basin area.

Air pollution control district workers, besieged by hundreds of calls from irate residents, explained the fog acted as a lid over the basin, preventing smog-causing air pollutants from escaping.

Steal Police Spotlight

LA JOLLA, Calif. (UPI) — Someone stole a spotlight from a police patrol car yesterday while officers William E. Gutte Jr. and Vane W. Estergren were off making a routine check of a bar.

MORE HEATERS NEEDED!

The advertiser who placed the little Want Ad reproduced below said he received about a dozen calls for the oil heater which means there are several buyers still looking for heaters. If you have any kind of heating equipment for sale now is the time to get a cash buyer quickly.

Telegraph Smashup Claims 4th Victim

A three-car smashup which occurred on Telegraph road Saturday claimed its fourth life this morning.

One of the seven victims, Mrs. Lorraine Frazer, 42, of 728 W. Main St., Owosso, died at 10:20 a.m. after remaining on the critical list at St. Joseph Mercy Hospital since Saturday.

She had suffered head and rib injuries. Her husband, Edward, 49, and Mrs. Rose Gewirtz, 62, of Chesaning, still remained in critical condition, said the hospital.

The collision had previously claimed the lives of a Redford couple and an elderly Owosso woman. The accident took place at Kemper St. and Telegraph, in Bloomfield Township, less than a mile south of Orchard Lake Rd.

Cloudy, Windy, Cold With Snow on Way

Cloudy, windy and turning colder, with rain tonight changing to snow flurries tomorrow is the weatherman's prediction for the Pontiac area. Tonight's low will dip to near 28 degrees.

Wednesday's high will be a freezing 32. Partly cloudy and cold with scattered snow flurries is the outlook for Thursday. Gale warnings are up on the Great Lakes.

This morning's 15-25 mile an hour winds are expected to become westerly at 35-50 miles tonight, with rain changing to snow.

Twenty-nine was the lowest temperature in downtown Pontiac preceding 8 a.m. The mercury rose to 40 at 1 p.m.

Drivers Urged to Use Caution During Holiday

LANSING (AP) — Gov. Williams has urged all motorists to exercise special caution during the Thanksgiving weekend in view of a "disturbing upturn in highway accident deaths."

Two weeks ago the governor proclaimed Nov. 16 as Traffic Safety Sunday in Michigan. Ironically, 31 persons were killed on the road that weekend—the worst weekend toll since Christmas of 1955 when 48 died.

Highway deaths in November are running 16 above the figure for the same period of 1957.

"This," Williams said yesterday, "indicates motorists are relaxing their caution. If this trend continues, Thanksgiving may be a tragic holiday."

Search in Flint Near Dead End

LEADS MEAGER ON GIRL MISSING SINCE FRIDAY, BUT HUNT CONTINUES

FLINT (AP) — The search for 7-year-old Adele Wells who disappeared Friday continued today, but police said they were almost at a dead end in their investigation of the puzzling disappearance.

Genesee County sheriff's officers and local police continued to sift clues, but said their leads were meager.

Adele, daughter of Karl W. Wells, a Flint factory worker, and member of a family of nine, disappeared while walking to school shortly before noon Friday.

Early reports by some of the girl's playmates that they saw her forced into a pink and white automobile near her home Friday have been discounted by the police.

More than 1,000 persons searched for the girl Sunday, but found nothing and officers said there would be no more mass searches, although all police have been instructed to be especially watchful for the child.

Another report that a small girl was seen being put in a car by a man at about the time Adele disappeared still is being investigated. Police are checking tire marks in the area where the car was seen.

Police said the man was reported as being young and either white or a light-skinned Negro, Adele is a Negro.

Most Countries Pay Off

WASHINGTON (UPI) — President Eisenhower has reported that most foreign countries are making scheduled payments on their World War II lend-lease obligations.

61,118 at Auto Show

DETROIT (AP) — The Detroit Auto Show drew 61,118 in its first three days, including 20,037 Sunday. It ends next Sunday.

CHARLES F. KETTERING

Kettering in Coma After Second Stroke

DAYTON, Ohio (AP) — A turn for the worse was reported today in the condition of Charles F. Kettering, famed automotive inventor and engineer. His condition now is serious. He is in a coma.

Dr. G. Douglas Talbot issued a bulletin which indicated the 82-year-old Kettering has suffered a second and more severe stroke. Kettering suffered a light stroke Sunday.

Dr. Talbot said "We are using all medical treatments available" for the aged "Boss Kettering" whose ideas, inventions and improvements have had a profound effect on a dozen industries.

At first it was understood that Kettering, developer of the first successful self-starter, had suffered a coronary attack. Dr. Talbot said later that an electrocardiogram indicated the heart and blood pressure were good.

Nixon Arrives Safely

Plane Delayed by London Fog

Vice President Forced to Circle Airport for Hour Before Landing

LONDON (AP)—U.S. Vice President landed in England today after an anxious hour during which his special plane circled the fog-bound London area.

The fog, one of Britain's worst in some time, had closed in the London Airport during the night. At one time Nixon's pilot radioed he would divert to Frankfurt, Germany, but the slow lifting of the mist in some parts of the London area made this unnecessary.

Nixon came to Britain to represent President Eisenhower at the dedication of the American Memorial Chapel in St. Paul's Cathedral. Awaiting him was a crowded four-day schedule.

As Nixon walked through the Gatwick terminal building, he called out to a crowd of airport workers gathered to see him: "I had a fine trip—a beautiful airport. I am just admiring it."

Gatwick is the huge, new airport constructed as an alternate for London's overcrowded airport.

Mrs. Nixon said the fog and the diversion of the plane were "sort of fun." She said she and the vice president lived in Los Angeles and were "very familiar with fog, particularly in the morning."

Nixon commented: "It makes us feel at home."

In an arrival statement, Nixon said Eisenhower had asked him to "extend his warmest greetings and best wishes to the people of Britain, for whom he has such a deep personal affection."

"The friendship and alliance which we enjoy," he continued, "has never been more important than now when the common heritage and great principles which we share are threatened in so many parts of the world."

"We together share an unshakable belief in the principles of peace with honor, justice and dignity of the individual. I am convinced that we will continue to maintain our close relationships as we jointly pursue these goals."

Gets \$3 Million Contract

WASHINGTON (UPI)—The Chrysler Corp. missile plant in Center Line, Mich., has received a \$3,337,183 contract for work on components and engineering services for the Jupiter missile.

The announcement was made yesterday by Rep. Thaddeus Machrowicz (D-Mich.).

Gale Warnings on Great Lakes

Storm Heading This Way

KANSAS CITY (AP)—This severe weather bulletin was issued by the weather bureau today for Michigan, the Dakotas, Kansas, Nebraska, Iowa, Minnesota, Wisconsin, Oklahoma and the Great Lakes area:

"A deep storm in the central and eastern Dakotas this morning is moving rapidly northeastward. The following warnings are in effect: "Gale warnings are displayed over Lake Superior, Michigan and Huron."

"Heavy snow warning of four or more inches for eastern and North Dakota, Northern Minnesota, extreme north Wisconsin."

CHOPPER RESCUES CHOPPER — A Coast Guard helicopter, used for rescue work, is shown being rescued by a Marine helicopter near Englehart, N. C. after it developed engine trouble on a training flight. The tail section of the craft was severed by the main rotors, and considerable time and effort would have been spent in recovering it had it not been for the Marines' giant HR2S Sikorsky 'copter.

Small Nations Lead Effort U.N. Compromise Sought for Outer Space Proposal

UNITED NATIONS, N.Y. (AP)—An army of small nations pressed a last-ditch effort today to head off a Soviet boycott of a new U.N. committee to study peaceful use of outer space.

The compromise seekers hoped to get the United States and the Soviet Union together before the Assembly takes final action authorizing establishment of the new committee. But their chances of success appeared slight.

A parade of the smaller countries appealed for Soviet-American accord Monday night after the U.N.'s 81-nation Political Committee voted 54-9, with 18 abstentions, for a resolution sponsored by the United States and 19 other nations.

The resolution would create an 18-nation committee to do the groundwork for a permanent U.N. body to coordinate use of outer space for peaceful purposes. The resolution nominates the Soviet Union, Poland and Czechoslovakia to the space committee, but the Soviets still disapproved of the lineup and announced they would boycott the group. The nine votes against the resolution came from the Soviet bloc.

Most of the abstainers were Asian or African nations. The Political Committee rejected a last-minute proposal by India, Burma and the United Arab Republic. It would have brought the United States and the Soviet Union together again in private talks in an effort to reach an agreement on composition of the new committee.

Chief U.S. Delegate Henry Cabot Lodge said such talks at this time would be pointless and might only aggravate tension.

Despite the bleak prospect, Ireland, Mexico and several Asian nations appealed to East and West to make one more try at getting together.

The Soviet Union had insisted that the study group include three Soviet satellites as well as the Soviet Union. Soviet Deputy Foreign Minister Valerian Zorin said no progress would be made without the Soviet Union taking part. Zorin withdrew a Soviet resolution calling for an 11-nation committee, including four Western members, four Soviet bloc nations and three neutrals.

Lodge said the study group would prove fruitful even without the Soviet Union on it. He said inclusion of four Soviet bloc nations on the committee was not justified and that Soviet insistence on this point had brought the collapse of last week's Soviet-American negotiations.

The Western resolution names to the study group the United States, Britain, France, the Soviet Union, Australia, Belgium, Canada, Italy, Japan, India, Iran, Sweden, the United Arab Republic, Mexico, Brazil, Argentina, Poland and Czechoslovakia.

"Diminishing winds and clearing skies are expected over the plains states late tonight and Wednesday."

Wintry weather, with cold, snow and strong winds whipped across the northern Rockies and northern Plains today and headed into the northern Midwest areas.

Coldest weather of the season and heavy snowfalls were reported as the blast of icy air, sweeping down from the Yukon district, fanned across the northwest Plains.

Temperatures dropped to zero during the night in northern Montana and cold wave warnings were in effect in North Dakota and Wyoming. The same warnings were issued for today and tonight southward through the plains as far as northwest Kansas.

Montana got the worst of the storm Monday. Winds up to 70 m.p.h. and snow up to 12 inches were reported as the storm battered most of the state. Schools were closed in most communities.

Cold weather moved into the Northeast and spread into the mid-Atlantic states. Temperatures dropped to freezing and below, and snow of more than 2 inches covered most of the northwestern slopes of the Appalachians.

Heat records for the date were set at Macon, Ga., with 81 degrees; Sarasota, Fla., with 89; Tampa, Fla., with 88; and Chattanooga, Tenn., with 75.

Printers Strike 9 Newspapers

Booth Dailies in State Halt Publication Today as Pickets Posted

GRAND RAPIDS (AP)—A strike of the International Typographical Union today prevented publication of Booth Newspapers, Inc. in eight Michigan cities.

In all, publication of nine Booth dailies was halted. Their combined circulation exceeds half a million. None is in Detroit.

The Grand Rapids Herald, only morning newspaper in the group, was struck last night and pickets today prevented publication of the afternoon Grand Rapids Press.

Other Booth papers closed by the strike were: The Bay City Times, Ann Arbor News, Jackson Citizens Patriot, Flint Journal, Kalamazoo Gazette, Muskegon Chronicle and Saginaw News.

All Booth newspapers were picketed, but employees other than printers reported as usual today and went through as near as possible the motions of publishing. News was gathered and edited.

Members of the American Newspaper Guild on Muskegon and Bay City staffs reported. Guildsmen at Muskegon said it was at the suggestion of the ITU. Those at Bay City said the ITU offered no objection. Members of the guild at the Grand Rapids Herald said they would not cross ITU picket lines. Only these three among the Booth group have guild staffs.

The Booth strikes brought to 12 the number of Michigan papers where ITU workers currently are on strike. The Ypsilanti Daily Press, Iron Mountain News and Escanaba Press are the other papers involved.

Carl Linder, international representative of the ITU from Des Moines, said the newspapers had offered no "acceptable contract" in four to five months of negotiations.

The Press and the Herald said in a statement last night that "for the first time since these newspapers were established we are forced to cease publication because of a strike."

"Our relations with the International Typographical Union extending over half a century in Grand Rapids heretofore had been friendly and cooperative. We deeply regret the breach which now interrupts the service of news and advertising."

"We have offered the union wages which are in excess of the national average for comparable newspapers. Our welfare policies have been models for the trade."

"The present break follows a period in which the union failed to negotiate in accordance with honored custom. They have persisted in demands which are far in excess of any settlement in the newspaper business."

In critical condition was Lewis Messere, 32, Randolph, one of the family of nine brothers who owned the firm, and Mrs. Emily (Magnussen) Morrell, 22, Randolph, who had gone to the plant looking for work.

Both were found amid the ruins severely burned and cut, most of their clothing blown from their bodies.

Countless unexploded percussion caps and aerial bombs were strewn for half a mile around the shattered plants.

Three thunderous explosions swept the 32-acre enclosure housing the Rockland and Bay State fireworks companies.

Damage was estimated by Plant General Manager John Messere at \$100,000.

Justice Finley Seeks Circuit Judge Post

Berkley Justice of the Peace Ralph F. Finley has announced that he will be a candidate for Oakland County circuit judge in next year's spring election.

Finley, 53, of 3347 Coolidge Rd., has served as justice for Berkeley since 1953. Before that he was city attorney and a city representative on the Board of Supervisors.

The judicial candidate in the 1959 non-partisan balloting has been president of the Oakland County Judicial Assn., Berkeley Chamber of Commerce, Berkeley Exchange Club in 1940, alumni chapter of the Delta Theta Phi law fraternity, and former director of the Boy Scout Executive Council.

Other judicial posts Finley has held include his appointment in 1928 as deputy clerk in the old Detroit Justice Court, and later in the Detroit Common Pleas Court. Finley has lived in Berkeley since 1938. He is married and has a son and daughter.

Coffee Break Blues

LOUISVILLE, Ky. (AP)—One cup of coffee to a coffee break.

"Any more and you may give yourself an ulcer. "Discipline yourself a little bit and appreciate that the common things we do, if done to excess, can cause difficulty," said Dr. Robert W. Zollinger, head of surgery at Ohio State University.

Coffee, tea, alcohol, smoking and cola drinks stimulate the secretion of digestive acids, he said.

Too much acid: ulcer. Dr. Zollinger told Louisville physicians that stomach acids also aggravate such conditions as pancreatitis or inflammation of the pancreas gland, source of certain powerful digestive juices.

The Day in Birmingham Lake Park Drive Drain on City Agenda Tonight

BIRMINGHAM — Another attempt to eliminate the problem of standing water on Lake Park Drive will be made soon, Birmingham city commissioners decided last night.

A drainage system project, tabled last summer, it will be discussed at a public hearing Dec. 15.

Commissioners also sought a solution to the problem of opening of Fairway avenue between Pleasant and Ardmore street. D. H. MacAdam Jr., who owns a lot on Fairway, has asked that either the street be opened or an access drive be constructed across the West Lincoln well property.

City Manager L. R. Gare said that although the Fairway opening had failed to get approval several times in the past, he feels it is the proper solution to MacAdam's problem.

Gare said area residents who have opposed the project in the past might be more receptive to the idea now that the area has been further developed.

HEARING SET. A hearing to determine whether a special assessment district should be set up for the project will be held Dec. 15.

James Howlett, city attorney, told commissioners he has contacted the Department of Internal Revenue in Washington concerning income tax deductions for monies paid on parking lot assessments.

He had been directed by the Commission to find out if a recent tax ruling in Bismarck, N. D., permitting such deduction, could also apply in Birmingham.

The Birmingham Recreation Board today announced that the artificial ice rink at Elton Park will be open from 5 to 7 p.m. Thanksgiving day for the first time this fall. No admission will be charged.

Skating lessons again will be given this year. Registration deadline is 4 p.m. Dec. 2 at the Municipal Building.

Robert Girardin, recreation director, said Friday is the final day for boys between 13 and 17 years of age to sign up for junior and intermediate hockey leagues. Tryouts for teams will be held the morning of Dec. 6.

Saturday and Sunday will mark the opening performance of the children's play, "The Broken Doll," by members of the Will-O-Way Apprentice Theater.

The play will be presented as part of the open house program prior to the winter season's beginning Dec. 3.

The special children's program will be presented at 2, 4 and 6 p.m.

Abner M. Heggen. Service for Abner M. Heggen, 53, of 4121 Echo Rd., Bloomfield Hills, will be held at 2 p.m. tomorrow at Kirk-in-the-Hills Presbyterian Church.

His body is at William Vasu Funeral Home, Royal Oak.

Associate counsel for the real estate and construction department of the Ford Motor Co., Mr. Heggen suffered a heart attack yesterday afternoon at his office. He was dead on arrival at Oakwood Hospital, Detroit.

Mr. Heggen was a graduate of the New York Law School and had done graduate work at Columbia University Law School. He practiced law in New York City until 1947 when he joined Ford.

Mr. Heggen was a member of the Detroit, Michigan State and the American bar associations.

Surviving are his wife, Viola; a son, Donald of Bloomfield Hills; one sister and two brothers.

Mrs. James Frank. Service for Mrs. James Frank, 66, of 990 Burnham Rd., Bloomfield Hills, will be held at 3 p.m. tomorrow at Bell Chapel of the William R. Hamilton Co. Burial will be in White Chapel Cemetery.

Mrs. Frank died yesterday at her home following a long illness.

Surviving are her husband; a daughter, Mrs. Fotis Takis of Bloomfield Hills and a son, George J. of Royal Oak.

Managing Editor Named at Press

Harry Reed Takes Post; Joel Rippa Appointed New City Editor

Two Pontiac Press editorial department promotions have been announced by Editor John W. Fitzgerald.

City editor Harry J. Reed has been named managing editor, succeeding the late Robert B. Tarr. Suburban editor Joel M. Rippa has been appointed city editor.

Reed came to The Press in 1952, shortly after graduation from the University of Michigan. He served as a copy reader, reporter and manager of the Birmingham office before becoming county editor for the past three years.

Rippa formerly was employed by the Houghton Daily Mining Gazette for three years, where he was associate editor.

A graduate of Michigan State University, he came to The Press a year ago.

It Didn't Even Hurt. VICKSBURG, Miss. (UPI)—Montie Bailey of Brandon, Miss., was knocked down and run over by a three-ton packing roller yesterday. He got up and went back to his construction job after doctors said they couldn't find anything wrong with him.

Oakland GOP Spent \$35,561 on Election

The Republican Committee of Oakland County spent \$35,561 for the Nov. 4 election campaign, according to a report submitted by Chad M. Ritchie, committee treasurer.

The Democratic Committee of Oakland County had not submitted its contribution-disbursement lists to Mrs. Mabel Child, county election clerk, at Monday's deadline for campaign expenses. These must be submitted 20 days after the general election.

All candidates must submit their expenses by the same time. There were still some delinquent accounts missing when Mrs. Child closed her office at 5 p.m. yesterday.

In Ritchie's report, it showed that during the year contributions totaling \$76,557 had been made to the GOP county committee. There were 58 pages of contributors dating back to Jan. 6. The largest single contribution was \$1,000.

Of the \$76,000 total, the Republican State Finance Committee kicked in \$9,500 to aid the GOP cause here.

Forms submitted to Mrs. Child showed that Congressman William S. Broomfield (R-Oakland County) spent \$13,722 in winning a second term in Washington, while the man

he conquered, Democrat Leslie H. Hudson, spent \$9,077.

Hudson's figures were contained in an affidavit turned in by Mrs. Margaret G. McCall, treasurer of the "Hudson for Congress Committee."

Mrs. Child said Hudson would be required to also submit a personal campaign expense account, although Mrs. McCall said he had spent no money of his own.

Her statement listed donations, among others, to the Hudson cause of \$5,500 from two congressional dinners in Pontiac, \$1,500 from the Michigan Committee on Political Education (COPE), \$500 from a "Committee for Good Government," \$500 from the Democratic County Committee, \$250 from the National Democratic Congressional Committee, and \$100 from the Detroit Building Trades Council.

Broomfield's winning campaign was strengthened by three committees working toward his reelection in addition to contributions to himself.

Broomfield's total receipts from these four sources totaled \$13,852.

The four sources received and spent the following amounts: Broomfield Congressional Campaign Committee, spent, \$2,306; received \$2,130; Broomfield for Congress Committee, spent, \$4,980; received \$5,000; Republican Committee of Oakland County for William S. Broomfield's Campaign for Congress, spent, \$3,399; received, \$3,500; Broomfield himself, spent, \$3,037; received, \$3,322.

Deaths in Pontiac and Nearby Areas

MICHAEL W. BUCK
Michael W. Buck, three-month-old son of Mr. and Mrs. William G. Buck of 7750 Austere St., Waterford was found dead in bed this morning.

Surviving besides his father and mother are two brothers, Jeffrey and Christopher, both at home. Prayers will be offered at 4 p.m. Wednesday from the Donelson-Johns Funeral Home. Burial will follow in Oak Hill Cemetery.

MRS. FRED W. COPELAND

Mrs. Fred W. (Dora) Copeland, 88, of 485 Lowell St., died yesterday in Bloomfield Hospital after a brief illness.

She was a member of Oakland Park Methodist Church and the Golden Age Group of the YWCA. Surviving are a daughter, Mrs. James George of Pontiac; two grandchildren; and three great-grandchildren.

Service will be at 11 a.m. Wednesday from the Donelson-Johns Funeral Home. Her body will be taken to Hastings for burial in the Riverside Cemetery.

MRS. CHARLES G. McDONOUGH

Service for Mrs. Charles G. (Edna) McDonough, 79, of 1254 Bramble St., Waterford Township will be at 2 p.m. Wednesday from the C. J. Godhardt Funeral Home, Keego Harbor.

She is survived by her husband. Mrs. McDonough died yesterday in her home after an illness of two months.

MRS. HERMAN EHRCKE

WALLED LAKE—Service for Mrs. Herman (Mary) Ehrcke, 74, of 6330 Halstead Rd., will be held at 1:30 p.m. tomorrow at Richardson-Bird Funeral Home. Burial will be in Oakland Hills Cemetery.

Mrs. Ehrcke died yesterday at Pontiac Osteopathic Hospital following an illness of six weeks.

Surviving are her husband; two sons, Carl M. of Walled Lake and William J. of San Diego, Calif.; three daughters, Mrs. Irene Robertson and Mrs. Arthur Graham, both of Walled Lake and Mrs. Ivan Graham of Farmington.

A sister, Mrs. Max Richman of Pontiac also survives.

ALVIN H. PEARSALL

ROCHESTER—Service for Alvin H. Pearsall, 78, 137 Terry St., who died early this morning at his home following an extended illness, will be held at 2 p.m. Friday at Pixley Funeral Home. Burial will be in White Chapel Cemetery.

He was a member of the Rochester Congregational Church and Inlay City Masonic Lodge. Mr. Pearsall was formerly employed by National Twist Drill and Tool Co.

Surviving are his wife, Larena; two daughters, Mrs. Phyllis Fortune of Evanston, Ill., and Mrs. Virginia Madden of Rochester; two sons, A. Harold of Pontiac and Murland of Rochester; seven grandchildren and one sister, Mrs. Ella Kerr of Rochester.

JAMES RYERSE

LAPEER—James Ryerse, 83, of 91 Hartley St., died Monday night. His body is at Baird Funeral Home.

Surviving are two sons, Albert of Marquette and George of Manistique; three daughters, Mrs. Leo Braun of Saginaw, Mrs. Clara Conner of Attica, and Mrs. Ralph Flanigan of Lapeer; one sister, Mrs. Mike Behe of Mount Clemens, 18 grandchildren and 16 great-grandchildren.

MICHAEL J. STEPHENS

Service for Michael J. Stephens, nine-year-old son of Harry J. and Jane Stephens of 734 Alpeana St., will be at 1:30 p.m. Wednesday from the Voorhees-Siple Chapel. Burial will follow in Perry Mt. Park Cemetery.

Surviving are his mother and father; a brother, Robert, and grandparents, Michael A. Jockwig, Mrs. Nettie Jockwig and Mr. and Mrs. Alla Stephens, all of Pontiac.

Michael, a student at Hawthorne School, died when he was buried alive Sunday in a sand and gravel pit cave in.

France Imports Coal

PARIS—French coal production, which in 1949 amounted to 53,000,000 tons, rose to 59,100,000 tons in 1957. But in the last two years consumption rose from 70 to 81 million tons, leaving an increased deficit to be covered by imports. In 1957 France imported nearly 7,500,000 tons of coal from the United States.

Southwest U.S. leads in world production of borax but Chile is a contender in second place.

Iraq Limits Amounts Banks Invest Abroad

BAGHDAD—The amount that banks operating in Iraq are permitted to invest abroad has been reduced from 50 per cent to 30 per cent of their capital and deposits.

The Minister of Finance said the step was taken because of the country's tight money position and its need of capital for development purposes.

Of all the people of the world, an estimated 750 million have accepted Christianity as their basic religion.

Deaths Elsewhere

HOLYOKE, Colo. (AP)—Dr. Raymond R. Lanier, 44, prominent scientist, was fatally injured Monday in a jeep accident while pheasant hunting. He was chief of the University of Colorado Medical Center's department of radiology in Denver since 1950 and formerly was an instructor and assistant professor of roentgenology at the University of Chicago. He was born in Louisville, Ky.

HOLLYWOOD (AP)—Johnston McCulley, 75, novelist, who was the creator of "Zorro," died Sunday after a series of operations. A former newspaperman, McCulley wrote dozens of books during his career. He also wrote several plays and motion picture stories. He was born in Ottawa, Ill.

BALTIMORE (AP)—James S. Reed, 86, owner of one of Baltimore's leading piano companies for more than 40 years, died Sunday. He was born on a farm near Louisville, Ky.

KARACHI, Pakistan (AP)—Spyros Paxinos, honorary secretary of the Greek consulate-general in Pakistan, was stabbed to death Monday. Police said his attacker escaped.

DELAND, Fla. (AP)—Joe Luke, 111, a former slave who would have observed his 112th birthday Dec. 24, died Sunday. He was born in Coosa County, Ala., and often told about watching Gen. Sherman march through the countryside during the Civil War.

Squanto's Thanksgiving

By DON OAKLEY and RALPH LANE

Strongly Against FCC Censorship

Commissioner Points to Subtle Controls Over Radio, Television

WASHINGTON (AP)—T. A. M. Craven, a federal communications commissioner, said today FCC has long exercised a subtle form of censorship over radio and TV programming.

He said he is strenuously opposed to this.

Craven expressed his views in a lengthy dissent to a commission proposal to revise and simplify some of the forms filled out by applicants for new broadcasting stations and by stations seeking license renewal.

The forms require the applicant to state what percentage of his air time has been or will be devoted to various types of programs, such as religion, agriculture, news and sports.

Craven said that if the forms were to be revised, it would be a good time to get rid of these listings. He said they inevitably suggested what FCC wanted the station to handle in its daily programming.

The commission has always

taken the position these categories were simply designed to serve as guideposts for the broadcast industry.

But Craven said the applicant filling out the forms "knows full well that his views are destined to be evaluated in the light of preconceived opinions of the regulating agency."

In general, he said, the commission "should leave the task of programming in the public interest exclusively to the licensee where it belongs as a matter of right and duty."

Death Knocks Twice, Sisters Taken Together

WINDSOR, Ont. (AP)—Art Hall, of nearby Amherstburg, Ont., called his mother Sunday but got no answer. He wanted to tell her that her only living sister, Mrs. Isabel Meder, 74, who lived with him, was dead.

After failing to get an answer Hall decided to go to the home of his mother, Mrs. Anna Hall, 80. When he arrived, he found his mother dead.

And That Ain't Hay

NEWPORT NEWS, Va. —The Patrick Henry airport here is making hay and reaping dividends therefrom. Officials estimate that 150 tons of hay will be reaped this year. It helps finance the airport.

Both Age-Old Natural Foes

China Reds Claim Victory Over Flood and Drought

TOKYO (AP)—Red China claims it is winning a fight against two age old natural enemies—flood and drought.

Some Japanese observers believe the claims are well founded. Shozo Otani, a Japanese agricultural expert who recently returned from a visit to Communist China, says the mainland is becoming one of the world's leading agricultural nations "at a surprisingly speedy rate."

Red China's agricultural production this year, he said, will double that of last year.

An Indian Cabinet minister, Dr. Pankaj Panchabhai Deshmukh, who made a five-week tour of Red China and Japan, also reported that many of the things the Communists are saying about their "leap forward" campaign in agriculture appear to be true.

Elimination of weeds, greater use of fertilizer and liberal employment of insecticides are some

of the factors in the increased production, he reported.

But he noted that the so-called volunteer workers employed in many agricultural projects are not paid.

Otani, a professor of agriculture and technology at Tokyo University, said the rapid agricultural development was greatly aided by irrigation and water control projects.

These projects are among the main subjects of the unceasing propaganda beamed by Peiping radio to extol the virtues of the Communist regime.

In a recent broadcast, Peiping said a giant shelter belt of trees more than 3,000 miles long will be completed in Kansu province this year.

"This will transform the dry climate of Kansu," add 1,600,000 acres to farmland and boost timber production, the radio said.

Phone Company Swamped With Suggestions

Bears Attacking Poles to Get Honey

LACONIA, N.H. (AP)—The New England Telephone Co.'s area wire chief stared at the stack of letters on his desk and murmured, "We've got a bear by the tail."

Ernest Goland has a problem that's stirring nationwide interest—and suggestions.

Two weeks ago the telephone company disclosed that black bears were wrecking 50 of its poles at Warren in a misguided search for honey.

The bears, apparently mistaking the noise of humming wires for that of beehives, stand on their hind legs and swat the poles. Some of the poles have been gouged out to a depth of three inches.

Details of the telephone company's troubles were spread across the nation and Canada in an Associated Press story.

Proposed solutions promptly poured in by letter and telephone. The company has received mail from points as far apart as Dartmouth, N.S., and Dallas, Tex.

Most of the letter writers suggested that the company sheath the poles with metal but the firm noted that linemen must sink their climbing spurs into the poles occasionally and climb them.

"Perhaps," mused Goland, "we could fit the poles with metal jackets and put zippers on the jackets so linemen could easily remove them."

A man from Pemberton, N.J., suggested dousing the poles in ammonia or attaching steel wool to them.

From Little Rock, Ark., came a suggestion that the company mix a batch of red pepper with just enough flour to make it stick to the poles.

A man in Gary, Ind., suggested that the bears aren't really looking for honey. "It's salt they're

after," he wrote. His suggestion: Place salt at intervals to satisfy the bears.

Turn your loss into profit, said a man in Wilkes-Barre, Pa. "Get farms."

Teamsters' Movie Protests Hearings

ST. LOUIS (AP)—The Teamsters Union has made a movie to protest recent hearings by the McClellan labor racket committee. It's a 33-minute film called "Trial by Committee." It consists of excerpts of testimony before the committee by Harold Gibbons, St. Louis vice president of the Teamsters, and James R. Hoffa, Teamsters president.

Edwin D. Dorsey, St. Louis Teamsters official, said, "We feel 'Trial by Committee'... demonstrates the unfairness of the McClellan hearings. The tactics and statements of the committee members prove how these hearings are

a threat to organized labor and the rights of citizens everywhere." The picture is available to unions and organizations that request it.

Children's accidents, according to a report to the Canadian Medical Association, are most likely to occur on the afternoon of a warm day.

Hollywood Headlines

Producer Happy to Pay Stars \$750,000 Apiece

By JOE FINNIGAN
UPI Hollywood Correspondent

NATCHEZ, Miss.—Marty Rackin, a producer making his first independent picture in which stars John Wayne and William Holden get paid \$750,000 each, says he's willing to sign up the pair for six films at that price.

Rackin, and fellow writer John Lee Mahin, formed their own company recently and bought "The Horse Soldiers" from author Harold Sinclair for \$30,000.

"I'll tell you this," Rackin said, "when we bought the book we didn't have the money to make the picture."

"But, the moment we had the book, the script and John Ford to direct the picture, we could get all the money we needed."

"It was just a matter of deciding who we would let loan us the money."

With a \$5,000,000 budget, the picture is one of the biggest being shot today.

On location here for some Civil War scene, the 40-year-old Rackin said stars can be gotten for an independent motion picture venture if the story is good enough.

"Everyone thinks a producer to

day has to have handmade suits and Cadillacs to attract stars," he opined.

"And, when John and I decided to go into business for ourselves, everyone in Hollywood tried to talk us out of it."

"But, we believed that today, because stars are no longer under contract to studios, they can be attracted. And the things that attract them are good stories."

"No matter how big a star a man is, he knows that people won't come to see him in a bad story," he added.

Once they had the book, the producer-writer team took five pages from it and co-authored the script for the picture.

The story revolves about a Union cavalry group that raids through Confederate territory cutting supply lines.

Besides getting among the biggest salaries in movie history, Wayne and Holden also own part of the picture, a fact which could earn them even more money.

And, Rackin, whose company pays the huge salaries, says the two top box office attractions are worth every cent of it.

"Some people resent stars getting big salaries, but we don't have big buildings and overhead, nor all the relatives on the payroll, so we can pay Wayne and Holden that much," Rackin said.

"The only people who don't resent paying them that money are the ones who pay it," he added.

"We'd sign a contract for six pictures with them at that price tomorrow, anytime, any place."

Highlight of Show Repeated for Royalty

COPENHAGEN (AP)—The sexy bathroom seduction scene from Francoise Sagan's ballet "The Broken Date" was repeated specially Monday night for the heir presumptive to the Danish throne, Prince Knud, and his wife.

The royal couple attended a benefit performance of the ballet but their seats were so far to the side they couldn't see the controversial scene which is the chief attraction. When the crowd left, the theater owner had the dancers repeat the sequence for the Prince and Princess Caroline Mathilde.

Minister Ranks Next to De Gaulle

Soustelle's Power Rises

PARIS (UPI)—If Premier Charles de Gaulle is still the most powerful man in France, Sunday's national elections showed that Soustelle, a dynamic Information Minister Jacques Soustelle is not far behind.

The royal couple attended a benefit performance of the ballet but their seats were so far to the side they couldn't see the controversial scene which is the chief attraction. When the crowd left, the theater owner had the dancers repeat the sequence for the Prince and Princess Caroline Mathilde.

Dramatically enough, it was Soustelle who was the first of Sunday's candidates to receive the required vote majority for election as a National Assembly deputy.

He was running as a candidate of the Union for the New Republic (UNR), a brand new right-center party he himself had formed only a few weeks ago. Furthermore, the UNR—now generally considered the main "Gaullist" party in France—ended up with 17.6 per cent of the popular vote, making it almost certain that a UNR man would become the Fifth Republic's first premier.

The question today was whether that man is Soustelle.

Some political experts claim that Soustelle, 46, a bespectacled 200-pound, one-time Marxist intellectual turned right-wing political wire-puller, is too far to the right of De Gaulle to be named premier.

This may prove true. Even so, Soustelle's personal and party victory, his youth, energy and intellectual brilliance

(he speaks 10 languages), plus the undoubted allegiance he commands among the powerful French right, give him a mighty springboard toward even greater political power than he has now.

Soustelle, who was De Gaulle's trusted wartime lieutenant, is best known as the chief engineer of the revolt of rightist settlers and army officers in Algiers last May that brought down the Fourth Republic and paved the way for De Gaulle's return to power.

To mastermind that uprising on the spot, he slipped past a supposedly tight police guard placed around his Paris home during the French government crisis last May and made his way to Algiers via Switzerland.

One of De Gaulle's early acts as premier last summer was to name Soustelle his minister of information. This appointment was bitterly attacked by the Communists and viewed with deep misgivings by many liberals.

As information minister Soustelle had complete control of the state-owned French radio-television network and, according to his enemies, lost little time in exerting pro-government censorship against the nation's press.

He is credited with responsibility for the new majority system elec-

toral law designed to sharply pare down the number of Communists in the national assembly. Judging from the results of yesterday's balloting, the law will have its desired effect.

Soustelle, a former French governor-general in Algiers (1955-56) is also known as a leading advocate of making Algeria a French province.

This has made him public enemy number one of the Algerian Nationalist rebels.

Last September, in fact, he narrowly escaped an assassination attempt when Algerian gunmen tried to shoot him down as he was driving to his office.

Canned Pop Sales Big

NEW YORK—Canned soft drinks account for nearly 70 per cent of the dollar value of carbonated-beverage sales to United States military personnel in the Japan-Korea area and nearly 63 per cent in Europe.

Believes Threat of Bomb a Hoax

Wood Cylinder Found in School's Cloakroom Stuffed With Paper

CONCORD, N.C. (AP)—Principal Luther Adams says the bomb threat which caused evacuation of the nearby Mount Pleasant High School Monday "looks like a hoax."

A wooden cylinder found in a cloakroom after the 9:30 a.m. deadline for the explosion turned out to be stuffed with paper. The cylinder was a roller used in clay modeling classes at the racially segregated school of 1,200 pupils.

There has been no agitation for integration in the area. Classes resume today at the consolidated school in this village of 1,000 population seven miles east of Concord.

Deputy Sheriff Parks Mullis received a telephone call at the Mount Pleasant police headquarters at 9:15 a.m. from a man he described as "crying while talking and apparently hysterical." The caller said the bomb would explode about 15 minutes later, but gave no reason for his act.

A fire alarm was sounded at the school, and the pupils marched out in orderly fashion, not knowing of the bomb threat. They were dismissed for the day.

Wrong Use of Tools Sends Man to Jail

WASHINGTON (AP)—George Blackstone, 57, explained in court that he was swinging a hammer at his wife when his son-in-law stood up.

"He got in my way and he wasn't even in the argument," Blackstone said.

Judge George D. Neilson asked the defendant if he had been in jail before for assaulting someone with an ax.

"Oh, no, your honor," Blackstone said. "It was with a hatchet."

"This man doesn't quite know the legitimate purpose of tools," Judge Neilson said and sentenced him to a year in jail for assaulting his son-in-law with a hammer.

Local Man Sentenced for Theft From Store

For taking \$130 from an auto parts store, Arnold Taylor Jr., 23, of 1221 E. Harry St., Hazel Park, yesterday was ordered confined to the State Prison of Southern Michigan at Jackson for a period of from 1 1/2 to 15 years.

Taylor pleaded guilty to breaking and entering Nov. 3. He was sentenced by Oakland County Circuit Judge Frank L. Doty.

Rubber consumption in the U.S. is 18 pounds per capita.

MAKE OVER PAGES

He'd Rather Forget Foiled Store Holdup

SAN FRANCISCO (AP)—Someone in San Francisco there's a man about 35 who would just as soon forget what happened Monday night.

He sidled up to a clerk in a dress shop of Market Street, his hand in his pocket, and ordered her to open the cash register.

"I won't," said Isabel Ramirez, 29.

"I'll blow your head off," he "I'm not going to open it," said Isabel.

He tried opening it himself. Isabel screamed as loud as she could.

That did it. He fled. Police are still looking for him.

Almost one-fifth of the food planted by man is destroyed by diseases or insect pests before it can be made ready for consumption.
