GENERAL MOTORS DONATION — John Z. DeLorean (center), chairman of the General Motors plant city committee hands a \$165,000 check to Dr. Don O. Tatroe, general chairman of the Pontiac Area United Fund Drive as Alger V. Conner, U.F. GM-Industrial chairman, watches. The check is a corporate gift from GMC Truck and Coach, Fisher Body and Pontiac Motor divisions.

UF Reaches 72.8 Pct. Mark With \$165,000 GM Boost

The United Fund campaign reached the 72.8 per cent mark after a healthy \$165,000 boost from General Motors Corp., Dr. Don O. Tatroe, general campaign chairman, announced today.

The corporate gifts announced at a division heads' progress report meeting yesterday pushes the total to \$759,044 in the drive scheduled to end Friday.

With 27.2 per cent of the \$1,042,000 goal still lacking, concentrated efforts are being made to complete plant, firm and employee solicitations in the remaining three days of the drive.

Victim of Cancer Knifed; Mate Held

INDIANAPOLIS, Ind. (AP) — A woman cancer patient was stabbed early today by her husband because he didn't want her to suffer anymore, police said.

The woman, Mrs. Oren Boyer, 47, was listed in critical condition.

Boyer, 54, a factory worker, was held on a charge of assault and battery with intent to kill.

"I stabbed her because I love her. I didn't want her to suffer any more," police quoted Boyer as saying.

The GM Industrial Division, headed by Alger V. Conner, has collected 86 per cent of its \$694,064 goal including the GM gift.

The residential drive organized by the women's units collected \$35,601 or 100.1 per cent of their goal. Chairman Mrs. James Cowen said each of the individual women's units had reached their quotas.

67.2 PER CENT
Howard H. Fitzgerald II, chairman of the Advance Gifts committee, said his division had reached 67.2 per cent of its goal.

Commercial Division Chairman Charles Woodhead reported in at 43.6 per cent. Division leaders met this morning to make plans for contacting workers for commercial progress reports.

Manufacturing Division reports indicate that 24.5 per cent of the goal has been collected.

Chairman Robert Anderson said many manufacturers had been slow in instituting plant campaign activities.

BIG INCREASES

All campaign divisions have reflected significant increases during the past week, according to Tatroe.

He reminds citizens that "the once-a-year drive for 54 agencies depends on the combined support of every community resource and every individual within the area to do his fair share."

"Thousands of fellow neighbors need the services provided by these voluntary contributions," Tatroe said.

Taste of Winter Wonderland on Tap for the Area

Of Man Winter is heading this way.

The weatherman predicts the first snow flurries of the season will blow in tonight with the mercury hovering near 28 to 32.

Mostly cloudy and cold with a few light snow flurries is tomorrow's forecast. Fair and cold is Thursday's outlook.

Morning northwesterly winds at 15 to 25 miles per hour are expected to shift to northerly tonight.

Thirty-nine was the low preceding 8 a.m. today. At 2 p.m. the recording was 41.

Bell Accord Is Rejected by Workers

DETROIT (AP) — Communications workers rejected a proposed contract with Michigan Bell Telephone Co. by a vote of 7,018 to 4,825, a ballot count showed yesterday.

Officials of Bell and the Communications Workers of America Union said they were willing to resume negotiations quickly.

"Rejection of the proposed 36-month contract, a pact Bell estimated would have cost the company \$10 million a year, came in a mail ballot."

Results were announced today by the Detroit accounting firm, Ernst and Ernst.

Wayne R. Osborn, chairman of Bell's negotiating team and assistant Bell vice president, said the rejected proposal would have given the firm's 17,000 employees "the biggest wage and fringe benefit package ever negotiated by Michigan Bell and the Communications Workers of America."

Tricksters Find Yolk's on Them

Police Put Damper on Oxford Small Fry

The high cost of groceries... the object of recent picketing actions — may bother housewives, but it made little difference to affluent hobgoblins.

Egg prices varied from 41 cents to 65 cents a dozen, but the cost wasn't too much for small fry in Oxford at Lake Orion, north of Pontiac, who decided Halloween, 1966 ought to be the "year of the egg."

"Grocers who stayed open during last night's festivities experienced a lot of business at the dairy counter."

Oxford police, appropriately disguised by using their own cars, noted the purchases by the would-be pranksters. They moved in.

And what they did proved most effective — messy, but effective!

EGGS SMASHED

Police smashed the eggs in the pockets and in the hands of young hobgoblins.

A similar run on eggs was (Continued on Page 2, Col. 8)

Airman Is Charged as Spy for Soviets

LOS ANGELES (AP) — A German-born U.S. airman has been arrested and a Soviet diplomat ordered to leave the country in the fourth major American spy case reported since July by the FBI.

Staff Sgt. Herbert William Boeckenhaupt, 23, was seized yesterday by FBI agents at March Air Force Base in Riverside, Calif.

He was arraigned here on a charge of conspiring to commit espionage to deliver to a Soviet diplomat "information relating to the national defense of the United States."

Boeckenhaupt, who lived in Superior, Wis., with his family since immigrating to the United States in 1948, pleaded innocent. He was ordered held on \$50,000 bail.

After the FBI announced the sergeant's arrest, the State Department asked Aleksey R. Malinin, "commercial counsel at the Soviet Embassy in Washington, to leave the country as soon as possible."

MET SECRETLY

Boeckenhaupt, stationed at the Pentagon from April 1964 to August 1965, allegedly met secretly with Malinin in June 1965 and April 1966. He had enlisted in the Air Force in 1960 at the age of 17.

The FBI did not disclose whether any money was involved in the alleged meetings, nor whether any information was actually passed.

"Agents also refused to say where Boeckenhaupt's duties were at the Pentagon, although he was a communications repairman at March."

The FBI said Boeckenhaupt met with Malinin in June 1965, in an Arlington, Va., suburb where Malinin questioned the serviceman about his duties at the Pentagon.

ALLEGED SLIDE

The men reportedly met again in a bowling alley parking lot last April, and Malinin gave Boeckenhaupt a 35mm slide that pinpointed "drop areas" and selected places, the FBI said.

Boeckenhaupt lives with his wife near March Air Force Base. Agents said his apartment was searched with the sergeant's consent last week.

U.S. Commissioner Russell R. Herman set a preliminary hearing on the case for Nov. 18.

"I'm not guilty," the tall, dark-haired sergeant told newsmen.

"It's a good thing we were toasting good luck, we're really going to need it."

Late-Breaking News Flashes From the Wire

DETROIT (UPI) — A settlement was reached today between carpenters and contractors in five southeastern Michigan counties, apparently ending a month-long strike by 17,000 carpenters. See earlier story, page A-4.

WASHINGTON (AP) — A White House emergency board recommended today three 5 per cent wage hikes over a 32-month contract for some 12,000 Pan American World Airways mechanics, ground service workers and flight personnel.

ABERDEEN, Scotland (AP) — Part of a seven-story building being built for Aberdeen University collapsed today. Police said perhaps a dozen men were trapped in the wreckage. Working in torrential rain and sleet, rescuers tore into the rubble with cranes, shovels, picks and their bare hands.

St. Michael's Pupil Wins the Big Treat

Top elementary school winner in yesterday's "Mystery Treat" contest was John Thompson, 7, of 1120 Cherrylawn.

John, a second grader at St. Michael's, won the bicycle.

Second prize of a radio went to a Herrington pupil, Viridous Lawson, 10, of 1192 Maurer with the five-silver-dollar third prize awarded Wissner pupil, Terry Pack, 10, of 24 Blaine.

In addition, each local school had three winners of \$1 each.

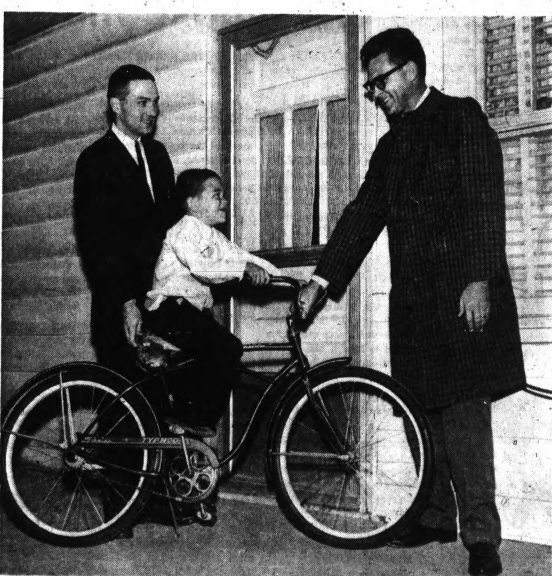

Winner of the first prize watch in the junior high school division was Jefferson's Kenneth Jones, 14, of 469 Fildew.

A Madison pupil, Brian Saltee, 14, of 556 E. Beverly won the second-prize pen and pencil set.

THIRD PRIZE
Third prize of five silver dollars was awarded Andrea Smith, 14, of 2182 Pontiac. Andrea attended Washington Junior High.

In the senior high school competition, Ed Zall, 17, of 185 Navajo won the wrist-watch. Ed is a student at Pontiac Central.

The pen-and-pencil second (Continued on Page 2, Col. 3)

THE WINNER — John Thompson, 7, of 1120 Cherrylawn prepares to ride the new bicycle he won in the "Mystery Treat" contest. Steadying

the bike are Pontiac Jaycees Gordon Scuphorm (left) and Ron Lockhart. John is the son of Mr. and Mrs. Joseph Thompson.

Food Price Cut Tied to Service Cutbacks

WASHINGTON (AP) — A national supermarket spokesman says food prices can be reduced substantially only if stores cut out services he says the public demands.

But in Portland, Ore., a leader of a housewives organization planning to picket 170 stores says it would be fine to eliminate some of those services.

Elsewhere, there was scattered evidence that the burgeoning housewife revolt against high prices was inching ahead.

Wirtz Hears Apple Growers

(Continued From Page One)

pared text took to task a campaign pamphlet circulated by Farnum's opponent, Jack H. McDonald, purporting to show the inflationary rise of food prices during the Democratic administration.

FIGURES DUBIOUS

He said the figures are misleading since the brochure doesn't point out that three of the eight years mentioned, 1958-1965 — were Republican years when rising costs nearly equaled the five years of the Democratic administrations.

Wirtz said that there is a better approach to keeping prices in line than boycotting supermarkets, and suggested that housewives do a "little selective bargaining."

"For example, buy chuck roast rather than rib roast. It's only risen one per cent during the period."

On Viet Nam, Wirtz said, "This problem has to be worked on and worked out right this time."

"You cannot negotiate from weakness and you can't negotiate from retreat. It must be realized that there are no shortcuts."

U.S. Judge Rejects Suit on Viet Vote

DETROIT (AP) — A federal judge Monday threw out a lawsuit aimed at preventing suburban Dearborn residents from voting Nov. 8 on whether the United States should withdraw its troops from Viet Nam.

U.S. District Judge Fred Kaess ruled that the suit was not within his jurisdiction.

It was filed by former Democratic State Rep. Harold M. Ryan against Mayor Orville Hubbard, a Republican, and five Dearborn councilmen.

NATIONAL WEATHER — Precipitation tonight will be confined to some snow flurries in the Great Lakes region and showers in the northern New England and southern Atlantic coastal states. It will be cooler in the Midwest.

October Skies Were Bright

Like a placid, happy child, October smiled and smiled and smiled. Twenty-six of the month's 31 days found sunshine spreading its welcome rays on the Pontiac area. However, not once during the month did the mercury climb to 80 as it did in 1965.

The highest thermometer reading of 75 occurred Oct. 28.

October's low of 26 on the 31st was 14 degrees below the 40 low recorded for September.

Last month there was 1.1 inches of rainfall while in October 1964 there was 1.49 inches.

On the ninth, the heaviest rain for the month was recorded, 4.45 inches.

Normal average temperature reading for October is 53.8 with average rainfall, 1.63.

LAST RITES FOR CHILDREN — The Very Rev. Harold B. Robinson, fire chaplain, performs last rites over bodies of five children, ages 2 to 4, who perished in a fire yesterday in Buffalo, N.Y. Assisting is Deputy Fire Commissioner Joseph D. Dehler.

Westinghouse Plants Struck as Pact Ends

PITTSBURGH (AP) — The Westinghouse Electric Corp. and the nation's largest electrical products manufacturers was struck today by the 14,000-member AFL-CIO International Brotherhood of Electrical Workers.

Picket lines were reported at a few Westinghouse locations throughout the country at 12:01 a.m. when the IBEW contract expired.

Extent of the strike was not clear as the union and the company issued conflicting reports. A spokesman at the IBEW's bargaining headquarters said "pickets are up at all locations at the present time," but "as far as we know, no plants in the circuit have given indication they will strike."

The union said it represents 14,000 workers at more than 60 plants.

The company said the IBEW represents workers at only 46 plants and that negotiations here directly affect only about 800 employees at 22 facilities.

Gertrude Ederle was the first woman to swim the English Channel, in 1926.

COED SLAIN — Cheri Jo Bates, a coed at Riverside (Calif.) College, was found stabbed to death on the campus today.

Romney Try to Bar Dem Ad Claimed

By THE ASSOCIATED PRESS
Democratic gubernatorial candidate Zolton Ferency charged Monday that Gov. George Romney "attempted to intimidate" a television station manager into canceling a paid Democratic program.

Ferency accused Romney of trying "to enforce an information blackout in the gubernatorial campaign."

The Democratic state chairman said Romney sent a telegram to Eloy Strand, general manager of WLUC-TV in Marquette, in regard to a 28-minute debate between Romney and Ferency.

The telegram told Strand: "Expect you will consider carefully any showing of such a program inasmuch as the debate consumed two hours and any edited version for partisan purposes would undoubtedly misrepresent the context of the full debate."

Ferency said the telegram was signed: "Governor Romney, Lansing."

Ferency said Strand first canceled the 45-minute paid program, which included the tape, and a half-hour later Monday took back his stand.

Strand said he "temporarily canceled" the program and this was not necessarily the result of Romney's telegram.

A spokesman for Romney said the telegram was not an attempt to halt broadcast of Ferency's program.

THIS AFTERNOON
The program was to be broadcast this afternoon.

The telegram attributed to Romney also said the governor wrote Monday to August Scholle, state AFL-CIO president, protesting the proposed television use of the edited version of the debate with Ferency.

The debate was sponsored by the Committee on Political Education of the AFL-CIO.

46 PLANTS
The company said the IBEW represents workers at only 46 plants and that negotiations here directly affect only about 800 employees at 22 facilities.

Gertrude Ederle was the first woman to swim the English Channel, in 1926.

Birmingham Area News

Nov. 28 Hearing Stated on Cycle Agency Code

BIRMINGHAM — The City Commission last night set Nov. 28 as the date for a public hearing on amending the zoning ordinance to include a restriction regulating location of motorcycle rental agencies.

By placing the restriction, which prohibits such agencies from locating within 500 feet of residential property, in the zoning ordinance instead of the licensing ordinance, it will not be retroactive.

If it remains in the licensing ordinance, according to Assistant City Manager John Saeck, it will be retroactive and affect existing businesses.

The commission also voted to participate in the Voluntary Council of Local Governments as proposed by the Committee of One Hundred, an organization of local government leaders from southeastern Michigan.

The cost of membership in the Council is \$1,350 per year for those communities in the population range of 25,000 to 30,000.

The council would provide an opportunity for local governments to resolve problems and develop policies and plans that are common and regional in nature.

BIRMINGHAM — A report on flexible scheduling programs will be given tonight at the Board of Education meeting.

This program went into operation at Seaholm High School in 1965. It is an attempt to permit teachers a higher degree of specialization, make class time also more realistic and group students on some established criteria in order to make for greater learning efficiency.

The presentation will be given by Robert Ford, Derby Junior High School principal and chairman of the new program, and Ross Wagner, principal of Seaholm High School.

The 8 p.m. meeting will be held in the band room of Seaholm High School. Meetings are held the first and third Tuesdays of the month.

Oxford Small Fry Find Yolk on Them

(Continued From Page One)
reported in Lake Orion. However, police report the emphasis was switched to bathroom tissue paper.

There was tissue around trees, on lawns, draped around cars, and this morning the Lake Orion police station was full of tissue paper.

Shelby Township police meanwhile, said the township looked like a garbage dump this morning, with eggs, pumpkins, cabbage and assorted items strewn around the streets.

Traffic Injuries Claim 2 Lives

Injuries suffered Aug. 25 in an accident at Carroll Lake and in a car crash in Commerce Township claimed the life of a Commerce Township woman last night.

In addition, a Pontiac man died yesterday of injuries received Sunday when his car went off a White Lake Township road and rammed a tree.

Dead are Mrs. Frederick W. Britt, 36, of 367 W. Grand Traverse and William C. Lovejoy, 46, of 89 State.

Mrs. Britt's death was the third to result from accidents at the intersection this year. Four other persons have been hospitalized following mishaps.

Mrs. Britt was a passenger in a car driven by her husband which collided with another vehicle.

Oakland County sheriff's deputies said the second car — driven by Michael L. Utter, 18, of 311 Eleanor, Highland Township — failed to observe a stop sign at the intersection.

Lovejoy, according to sheriff's deputies, was alone in his car when it skidded off Union Lake Road near the intersection of Hutchins about 2 a.m. Sunday.

He died at Pontiac General Hospital shortly before noon.

In other business tonight, the commission is to take final action on an amended dog ordinance that stiffens the regulations on dogs.

Also, the commission will take up an ordinance to regulate sale of Christmas trees, establishing a license fee and a deposit.

Peru Quake Indelible Memory for Area Pair

(EDITOR'S NOTE—The following report on the recent earthquake in Lima, Peru, is written by area residents who experienced the event.)

By JERRY WILSON AND JEAN FITZGERALD

The day seemed remarkably still and the air depressingly heavy.

That ominous Monday morning, we had arrived by jeep from New York. Since we'd been up all night on the plane, we slept for several hours in our hotel.

Although still tired, we were anxious not to miss anything. Since it was no siesta time and everything was so new, we decided to take a taxi to several museums near the coast.

Our hotel was next to a large square called the Plaza San Martin. Here we found a taxi.

The driver was a fatherly fellow, elderly man who insisted that, if he drove us, he would stay and wait, since the distance was great. The offer seemed extravagant at the time but little did we know how important this taxi would be.

20-MINUTE DRIVE
During the 20-minute drive to the first museum we chatted with the driver in our limited Spanish. We inquired about the coming election for the mayor of

Lima. Colorful political banners were prominently displayed everywhere.

The city was especially colorful because of the bright purple dresses and ties on many of the people. The driver explained that during the month of October, there is a series of religious processions.

The image of the Christ of the Miracles is transferred from church to church followed by masses of worshippers. This image is believed to be the source of protection against earthquakes. It all seemed very festive despite the very still day and high humidity.

We arrived at the archeological museum at 3:00. It houses a fine display of ancient Peruvian artifacts, including pottery, tools and costumes. There were Inca mummies, wrapped with funeral garb in a prental pose, bundled with possessions for their afterlife.

WALKED NEXT DOOR
At 3:45 we walked next door to the adjacent Historical Museum. Typical of Spanish architecture, it is built around a courtyard filled with Peruvian plants and trees and small paths. Surrounding it was a court with large glass windows looking out on a garden.

We strolled around the interior of the museum looking at huge oil portraits of the past Peruvian leaders.

WIND COMES UP
At 4:00 we were in the hall surrounding the courtyard. A wind had come up which seemed to blow around us and refreshing. We were looking at a gigantic painting of the Peruvian conquistadores, which covered one wall.

We shall never forget that painting!

Suddenly it began to sway and move forward us. The floor beneath began to vibrate. Our footing became unsure.

Peggy's first reaction was that the furnace had gone on but she immediately realized this was an old building — there was no furnace.

We looked at each other terrified.

RACE DOWN HALL
Jean said, "It's an earthquake!" and raced down the hall, weaving from side to side.

The noise was deafening. The wrenching stresses and strains of the old building sounded like a jet overhead.

Peggy's feet were glued to the floor. When she finally could move, her legs were jelly.

The plaster from the high ceiling was toppling around us. The

windows on the courtyard were shattering explosively at our feet. The eight-foot-tall paintings were precariously pitching outward from the wall.

UNDER ARCHWAY
A young museum guide pushed us under an archway. Jean roared covering her head with her arms.

Thoughts of home, children and husbands raced through our minds. Those 50 seconds seemed endless.

Suddenly it was still again. The guard prodded us outside. He then told us a second tremor was likely. He had cut his hand quite badly and went off for help.

The shaft-square outside the museum was filled with terrified people crying, praying and searching frantically for their families.

SAT DOWN
We sat down among them on a small bench and gazed at each other in utter disbelief.

Our clothes and hair were gray with plaster. We were shaking so badly that it was difficult to talk coherently.

Our taxi driver came running up to us, showing genuine concern. His was a welcome face.

We asked him when the next earthquake would come and if

it would be larger or smaller than the first one.

He assured us it would be smaller, but naturally we were skeptical.

GUIDE REAPPEARS
The young guide who had rescued us reappeared to see if we were hurt and if we had transportation. This, in a strange land, was comforting.

GOP Hopes for State House Control Rising

By The Associated Press
The Republicans aren't expected to gain control of the Michigan House of Representatives in the election a week from today—but it's hard to find a Republican who says it can't be done.

To gain a majority in the lower chamber, they'd have to win in 19 districts besides those they already represent.

"A month ago, I would have said we had no hope," said one source—a state GOP headquarters' adding:

"But based on the type of the candidates we've got—and the kind of campaigns they're running, I'd say it could be done. It's still a long shot, but there's a chance."

DEMOS SKEPTICAL
Democrats, of course, are skeptical. They outnumbered the GOP 73-37 at the start of the 1965-66 session and, though some concede they expect that margin to be cut, they expect

a comfortable edge when the next Legislature is organized.

Republican strategy appears aimed at several of the 42 freshmen Democrats who won their first House terms in the Lyndon Johnson landslide of 1964. The GOP source lists 16 of these as among 19 Democrats who stand "a very good chance" of getting beaten.

Both Republicans and Democrats have a little added incentive for campaigning hard this fall. Effective with the coming session, lawmakers' pay climbs from \$10,000 to \$12,500 a year. Michigan legislators, among the highest paid in the nation, also are allowed \$2,500 a year for expenses.

(Political Advertisement)

Among the 19 the Republicans say they hope to beat are W. Scott Ensign of Battle Creek, Robert Dingwell of Lansing, Francis Crowley of Clarkston, Robert Slingerland of Lake Orion, Victor Steeh of Mount Clemens, George Siemens of Wyoming, F. Charles Raap of Muskegon and Eugene Cater of Ludington.

A total of 66 Democrats and 30 Republicans are running for reelection. In only 14 districts are there no incumbents. Nine House members, six of them Democrats, were defeated in the August primary election.

ISSUES VARY

Issues in the 110 different House campaigns, of course, vary from one district to the next, but some generalizations can be made.

Democrats, by and large, are pointing with pride to the record of the first Democratic Legislature since the 1930s. They claim important accomplishments in education, mental health, agriculture, labor and conservation.

Many of the Republican candidates, on the other hand, are pointing to areas in which, they say, the Legislature didn't do enough—citing traffic safety, Mackinac Bridge refinancing and fiscal reform as examples. House Speaker Joseph Kowalski, a Democrat, charges that Republicans in some districts are using "doctored attendance records" which falsely indicate the Democratic incumbents had excessive absences from the Legislature.

'WRONG RECORD'

"In every case reported to our office," Kowalski said, "the attendance record used by the GOP candidate has been wrong."

End Window Problems!

"You save money by converting to Nu-Sash!"

AFTER

Why Put Up With Old, Worn-Out House Windows Another Winter?

Nu-Sash gives a clean, modern appearance while giving superior insulation; keeps out dirt, dust, and noise; snap-out for easy inside-the-house cleaning; increase property value; raise easily—never stick or bind.

Nu-Sash is a window specifically designed to replace old, drafty, out-of-date house windows at amazing new low cost.

Old, loose fitting, rattling, out-of-date house windows—the major cause of cold, drafty, breezy rooms and sooty inside window sills—are a thing of the past since Nu-Sash. Homeowners everywhere are finding that by converting to Nu-Sash-aluminum replacement windows, complete and maximum comfort is gained without major remodeling and other unnecessary and costly home improvement projects.

Nu-Sash is a window specifically designed to replace old, out-of-date windows. Furthermore, the Nu-Sash window is fully tested and proved by one of the greatest testing laboratories in the building products field.

One of the greatest features of Nu-Sash is that the window is installed without touching inside plaster and woodwork. This means no dusty and dirty installation work. Expert workmen remove the old sash and track, insert new aluminum

jam liners and tracks, then custom fit Nu-Sash securely into place. Complete installation, which is included in the new low cost of Nu-Sash, is done fast, safely and expertly.

Savings in heating bills will pay for a Nu-Sash conversion. Most time and money saving features in Nu-Sash are gained since the anodized aluminum unit never needs paint, putty, caulking and other yearly household work and maintenance.

Nu-Sash quality for low-interest home improvement loans. The window is rated superior to standards set up by FHA for new construction requirements.

The Nu-Sash window recently appeared in issues of the Better Homes & Gardens magazine. It was awarded the guarantee seal of that publication. For additional free literature on Nu-Sash, mail the coupon below. Price samples are also available upon request.

Old County Bank Moves to New Site

OXFORD — One of the oldest banks in Oakland County, in terms of organization, moved into shiny new colonial-style quarters at 60 S. Washington yesterday.

An open house is planned for Thursday, Friday and Saturday to introduce customers to the new facility.

The new building, of red brick construction, contains 5,500-square feet. There is parking space for 50 cars and two drive-in windows to accommodate customers.

Harold A. Pickford, executive vice president and cashier, said the building features the latest in banking equipment.

Oxford Savings Bank will put its old building up for sale.

Pontiac Press Photo

NEW QUARTERS — Oxford Savings Bank officials cut the ribbon to officially open new headquarters at 60 S. Washington, Oxford. Participating in the cutting are (from left) George Tunstead, bank president and son of one of the original founders in 1884; Lee B. Valentine, Oxford Township supervisor; Edmund Unger, village president; and Harold A. Pickford, bank executive vice president and cashier.

School Merger Vote Suit Filed

ALMONT — A motion to set aside results of the recent Lapeer County Intermediate School District election which united Retherford Primary District with Almont schools has been filed in Lapeer Circuit Court.

Plaintiff is James Lee of 8329

Thubsping, a resident of the Retherford district in Almont Township and secretary of its school board.

His complaint has been added to an earlier one filed by St. Clair Intermediate District and Gould School District which is based on the premise that a school district cannot cross county lines.

Lee seeks to have the election set aside and the merger voided.

Traffic Death Autopsy Set

TROY — An autopsy has been ordered in the early morning death today of John M. Brown, 40, of 2027 Bethune, Ferndale. He was dead on arrival at William Beaumont Hospital, Royal Oak, following an accident at 6:45 a.m. on I-75 a half-mile north of Maple.

Troy police say Brown's car left the road, went through a fence and struck a tree. He was alone in the car at the time.

Dormitory Loan

WASHINGTON (AP)—The Department of Housing and Urban Development announced Monday approval of reservation of a \$800,000 loan to North Central Michigan College at Petoskey, Mich., to construct two dormitories.

Wildlife researchers have found that rabbits sometimes have a craving for certain minerals and this hunger could be used to kill them.

Pet Pony Is Shot

Cruel Trick on Avon Family

AVON TOWNSHIP — It was a bleak post-Halloween morning at the Richard Ayers home, 3901 S. Rochester. Instead of nine happy children counting candy treats and working out trades, there were sobbing of unhappiness.

The reason—the Ayers' Shetland pony, "Timber," fell victim last night to a warped Halloween prankster.

Ayers told The Press that when he went to work last night at Fisher Body plant in Pontiac, the pony was safely locked in its quarters, a small barn and pen built especially for him.

When Ayers came home at 3:30 a.m., he saw Oakland County Sheriff's department cars and others gathered along Rochester Road not far from his home.

SHOT 5 TIMES

Stopping to investigate, Ayers learned a pony had been shot five times in the stomach. It was still alive and Ayers soon determined it was his.

A veterinarian was called in from Utica, but the decision was to put the horse out of its misery.

The 4-year-old pony was purchased only this summer for the Ayers children's enjoyment.

Today they had to pass its lifeless body on their way to school.

More Than Labor Shortage Behind High Apple Prices

The price of apples will be up this year, higher than in the past several years, but the labor shortage only plays a small part, according to area agricultural officials.

Much has been said about the lack of apple pickers, but a small apple crop caused by late spring freezes is the real culprit in driving prices higher, said one.

The shortage of labor, said one official, does tend to make the farmer leave his marginal apples, those that are bruised or blemished, in the orchard, thus contributing to the shorter crop, which in turn drives prices higher.

Scientists, meanwhile, are trying to develop machines that can handle apples and apple trees as gently as experienced human pickers do.

Not many apple harvesting machines are now in use be-

cause enough apples fall from natural causes, and farmers don't want to shake any more down with machines.

APPLE JUICE
Apples that fall to the ground are not lost. But they generally are bruised and must go into processing, mainly into juice, rather than to grocery store counters.

The Michigan Farm Bureau estimates that because pickers weren't available in time, the wind knocked down five to 10 per cent more apples than normal this season.

Another approach may be to grow smaller trees, say officials, and save the time a picker now spends in lugging a ladder around.

Agricultural scientists have been developing dwarf trees, which a man can pick clean without using a ladder.

LARGE SAVINGS
These could provide large savings at harvest time, the scientists say.

Other factors which caused problems this year included the economy's general high rate of employment which hurt growers who depend entirely on local help and have no housing for migrant workers.

Ohio's tomato picker dragged on later than usual and many migrant workers did not arrive as early as usual, meaning farmers with early maturing varieties had problems.

Accused Slayer Pleads Innocent

BRUCE TOWNSHIP — Melvin Bell, a fruit picker at Stony Creek Orchards, 2961 32 Mile, pleaded innocent yesterday to a charge of first degree murder.

He was arraigned yesterday in Mt. Clemens Justice Court in the fatal stabbing of Robert Broughton, 44, of New York held Thursday. Burial will be in early Sunday at the orchard.

Bell was held without bond and his examination was set for 10 a.m. Monday.

Pontiac Press Photo

START OF A WATER SYSTEM—Ground was broken yesterday for Keego Harbor's \$732,500 water supply system. Welding the shovels are (from left) Russell Gries, city councilman; Mayor William Graves; Con-

gressman Billie S. Fargum, D-19th District; Charles M. Haar, assistant secretary for Metropolitan Development, Department of Housing and Urban Development; and Vernon Edward, city councilman.

Keego Harbor Starts New Water System

KEEGO HARBOR — Local, county and federal officials participated in ground-breaking ceremonies yesterday for the city's \$732,500 water supply system.

Guest speakers at the event were Congressman Billie S. Fargum, D-19th District, and

Charles M. Haar, assistant secretary for Metropolitan Development, Department of Housing and Urban Development (HUD).

Other speakers included Delos Hamlin, chairman of the Oakland County Board of Supervisors; Mayor William Graves; and Councilman Vernon B. Edward.

The new water system is to be financed with a federal grant of \$302,500 plus \$430,000 in Oakland County bonds.

It is the first project in Michigan to be awarded a grant under the Water and Sewer Facilities Grant program.

MAXIMUM DEMAND
The system is designed to serve an ultimate population of 4,395 persons with a maximum demand of 1.76-million-gallons per day or 400 gallons per person per day.

Plates on Sale

LANSING (AP) — Michigan's 1967 auto license plates go on sale today at Secretary of State branch offices. Secretary of State James M. Hare reminded applicants to remember to take along proof that they carry liability insurance. A charge of \$35 is required of uninsured motorists.

With 20 County Farmers

Ponds a 'Splash' Hit

Twenty Oakland County farmers have "gone fishing" this year in a little-noticed federally supported program to increase the number of farm ponds.

Constructed and often stocked with fish by the farmer, the ponds provide for greater water and wildlife conservation and thusly make the federal government happy.

Marshall L. Mohney, county office manager of the Oakland Agricultural Stabilization and Conservation Committee (ASCC), said farmers can often collect up to \$1,000 from the government on the cost of such a pond.

Providing certain specifications are met, he said the government will pay 50 per cent of costs up to the \$1,000 figure.

Such a program has been

in operation since 1938, according to Mohney, but, up until this year, only 80 such ponds were constructed in Oakland County.

ADDITION TOWNSHIP

Five of the twenty undertaken this year have been in Addition Township where Mohney and his crew took an inspection tour last week.

The ponds, he reported, besides providing sport for fishermen, have lured as many as two and three hundred ducks. Farmers tell of seeing deer drink at the ponds and deer tracks are in evidence around many other ponds.

Mohney cited benefits derived from the ponds. They have been used as irrigation and fire fighting sources and are a means of conserving runoff water.

Most of the ponds are pit-

type construction, according to Mohney, although a few have been formed by damming streams.

FED BY SPRINGS

Some are spring-fed, others filled entirely by runoff. The farmer is required to keep the ponds at a minimum 10-foot depth in order to receive federal aid.

Anyone interested in the program, Mohney said, must request permission of the county ASC. The project is referred to a soil conservation technician who determines feasibility and engineers the plans.

The farmer constructs the pond according to plans, the finished project is checked by the ASC.

If it meets all specifications upon completion, the project percentage costs are refunded to the builder.

Jaycee Auxiliary in Rochester to Host Toy Party

ROCHESTER — The Jaycee Auxiliary will host a toy party at 8 p.m. Thursday at Avon Township Park Pavilion. Proceeds from the sale of toys will aid the Auxiliary's Story Hour program held twice a month at Avon Township Library.

Mrs. Ed Sullivan will be story teller for Saturday's program 10:30 to 11:30 a.m. Girl Scout Troop No. 242 will assist.

Programs are designed for children four years old through the first grade, but all are welcome, according to Mrs. Emil J. Zawada, 111 S. Alice.

Dean Is Elected

ANN ARBOR (AP) — Dr. William N. Hubbard Jr., dean of the University of Michigan Medical School, has been elected president of the Association of American Medical Colleges.

Carpenter Strike May End Soon

DETROIT (UPI) — A month-long strike by 17,000 carpenters in five Southeastern Michigan counties appeared nearer an end today as building contractors apparently have dropped their opposition to a prime contract issue.

The associations have stopped fighting secession by the Brotherhood of Carpenters and Joiners of America, AFL-CIO, from a six-union insurance fund.

While the contractors have

not announced formal end to their opposition of the secession, the first meetings between the Employers Committee of the Detroit and Vicinity Construction Workers Insurance Fund and union officials were permitted during the weekend.

But union and contractor spokesmen indicated they are still far apart on how much money the contractors should pay into a separate pension fund.

Entertainment License OK'd

Vehicle Insurance Contract Awarded

The Waterford Township Board last night awarded a contract to State Farm agent Leo Huffman of Pontiac for coverage on the township's fleet of vehicles for a one-year period. State Farm had submitted the

low bid of \$5,350, the previous week, outbidding four other firms.

In other business last night, the board gave its approval to a request by Larry and Garry

Crake for an entertainment license at the 300 Bowl, 100 S. Cass Lake.

The Michigan Liquor Control Commission will take final action.

The township police department recommended to the MLCC that go-go girls and strippers not be allowed to perform at the establishment.

Tabled one week was a review of the recreation department agreement between the Township Board and board of education.

FBI Director Decries Protests, 'Legal Jousting,' Public Apathy

WASHINGTON (AP) — FBI justice under law favored by Director J. Edgar Hoover said today the United States "wears a yoke of infamy — a yoke made of greed, hate, violence, apathy and lawlessness."

In a message in the FBI's monthly Law Enforcement Bulletin, Hoover assailed demonstrators, the courts and the apathy of many citizens for what he called a "criminalistic burden" that grows heavier from year to year.

"How is the cause of equal

Official Says Vaccine Can End Measles

WASHINGTON (AP) — Effective use of vaccine this winter and spring could wipe out common red measles from the United States in 1967, the government said today.

Dr. William H. Stewart, surgeon general of the U.S. Public Health Service, said 15 million children have been vaccinated since rubella measles vaccine was licensed 3½ years ago.

But several million other children remain susceptible and must be protected during coming months in order to eradicate the disease, he said.

In San Francisco, Dr. H. Bruce Dull, assistant chief of the health service's Communicable Disease Center at Atlanta, outlined these four steps for eradication:

—Immunization of all infants when a year old.

—Immunization upon entering school of all children not previously immunized or stricken by the disease.

—Intense effort at all levels to see that all measles cases are reported.

—Epidemic control, including verification of diagnosis, tracing sources of infection, detection of unreported cases and administration of vaccine to susceptible children.

Tank Contract

WASHINGTON (AP)—A \$3.5-million Army contract to General Motors Corp., Indianapolis, Ind., for 911 transmission power transfer units for M561 Sheridan tanks was announced Monday by the office of Sen. Birch Bayh, D-Ind.

The Underachiever—2

Using Correct Study Method Can Mean Quick Improvement

(EDITOR'S NOTE — This is the second in a 12-part series on the severe problem in today's schools—the underachiever — by Dr. Leslie J. Nason.)

By LESLIE J. NASON, ED. D.
University of Southern California

"How do you inspire a student to work harder?"
"How do you get a student to

become interested in his work?"

"What do you do about a lazy student?"

These are three of the questions most often asked by parents and teachers and, sometimes, by

DR. NASON

the students themselves. Taking the last question first, I don't know what to do with a lazy student — I've never seen one.

RESULTS UNSATISFACTORY

In my experience, the student who appears to be lazy usually goes about his schoolwork in an inefficient fashion, with unsatisfactory results. In consequence, he has lost interest.

It is impossible to motivate such a student through encouragement alone. Nor are rewards or threats of punishment effective.

The approach I have found successful is to help him work out programs of study that will develop interest. The first essential is a spurt of study that will build up background in a subject and make its further study more enjoyable.

For example, Jeffrey was making a "D" in history. His explanation was, "I'm not interested in history. I know I should study but I can't seem to make myself do it."

EASY TO THINK

I explained to Jeffrey that the

more one knows about a subject, and the better the knowledge is organized in the mind, the easier it is to think about it and to learn still more about it.

To start this action in motion he must at first exert the energy to increase his knowledge of history. The easiest way was to work to learn all that he could of the history and, at the same time, get it straightened out and organized in his mind.

Two or three weeks hard work would make all the rest of the year, not only more successful but easier.

Together we set up a five-point plan for Jeffrey's study of United States history.

Point One. Before studying a chapter Jeffrey was to give it a general preview from the Table of Contents and chapter headings. Knowing in advance the major events to be covered would make it possible for him to fit things together as he read — an important process.

Point Two. He was to associate each event with WHERE it happened. Geography was to be made the anatomy of

history. Events were to be visualized as occurring at a specific place on a map.

Since Early American history is centered about the colonies he was to practice sketching a map showing their location. With his book closed and a blank sheet of paper, Jeffrey was to draw the East coast area putting in such detail as he could remember and then, opening the book, check his map for accuracy making corrections and adding any missing important elements.

Then he was to draw another sketch. Each time as he added new elements he was to THINK about their location in relation to the ones he had already mastered.

MENTAL MAP

His aim in this exercise was to develop a mental map sufficiently detailed to be used in a memory system for early American history.

Point Three. As he read the text and as he listened in class Jeffrey was to envision each event as happening at the appropriate spot on his mental map.

He was to carefully associate men, events, causes and effects to the main episodes of the period: He was to let no detail stand by itself.

Point Four. He was to use a time line to keep dates in their proper sequence. Assume that the period in question is from 1400 to 1800. He would draw a line across the page, divide it into equal parts labeling it 1400, 1500, 1600, 1700 and 1800. He was to mark on it known dates in their proper position.

RIGHT DATES

For example, the date 1492 when the Moors were driven out of Spain and Columbus discovered America; 1776 and others. He should now open the book to make sure he was right regarding each of these dates and then check to see what other dates he should have known.

Each new date added to the time line must be thought into place in relation to a date nearby.

For example, the Boston Tea Party in 1789 is thought of as he was going to think about as seven years prior to the signing of the Declaration of Independence.

As with the map, the history and study when the time next time he did this practice for study arrived. Especially at first, he would have to strive to keep his mind filled with plans.

Point Five. To make history a living thing Jeffrey was to associate men and their ideas with events and their causes.

Jeffrey was hesitant about adopting the plan saying, "This is all sounds logical but I have made good resolutions in the past only to find that when the time came to sit down and study I got distracted by radio or TV programs and let the history go, thinking I might do it the next day."

HADN'T LEARNED

Jeffrey had not learned the secret of controlling his actions. It is not done by resolutions alone. Actions result from planning.

I assured Jeffrey that if he continuously revised his plans of WHAT he was going to do as he studied, HOW he was going to think as he read, as well as what he was going to think about as he studied in class, he would be able to keep his mind on

Three weeks of intensive study was all it took for Jeffrey to acquire an interest in history. He not only became an expert on dates but his grades improved markedly.

(Next: Combating the fear of failure.)

Boy, 10, Killed

PINCKNEY (AP)—A 10-year-old Pinckney boy was killed Monday night when he dashed from a group of trick-or-treaters and was struck by a car on McPortage Lake. The accident occurred in Washtenaw County south of the County line. William R. Rooke was dead on arrival at St. Joseph's Mercy Hospital in Ann Arbor. The driver of the car was not held.

The advantages of buying a 1967 General Motors car start here.

One reason more people are buying GM cars this year is because GM cars cost less to buy. Your Chevrolet, Pontiac, Oldsmobile, Buick or Cadillac dealer, in fact, can show you on paper that, not only is the base price lower in most cases, but when you add the optional equipment

you want, the price advantage of a GM car becomes even greater.

And because it is a GM car, you get all the advantages of a GM car. The uncommon luxury of Body by Fisher, for instance. Such new safety features as the GM-developed energy absorbing

steering column. And styling leadership that has made GM cars the best-selling in the world.

All of which is still just the beginning. You also have the traditionally high resale value of a General Motors car to enjoy. On top of all the other advantages you've heard about.

Look to the General Motors mark of excellence

Claims of Brazil Plot Hit

WASHINGTON (AP) — A Ark., who escaped last week Brazilian official says allegations of intrigue related by a Cutcheon, 36, also of Fort Smith. The plane is still held in Brazil.

Brasilia Police Chief Jurandir Palma Cabral said Truhill's charge was "ridiculous," since the security police force "can use air force planes whenever it needs them."

The Texan, pilot Joseph A. Truhill, 47, of Richardson, said his conviction resulted from plans of Gen. Rho Grandino Krueger, former chief of Brazil's federal security police, to seize a B26 aircraft for use in a search for a missing 400-carat diamond named 007.

The plane was owned by Sam Sexton Jr., 41, of Fort Smith, honey production.

Sheppard Jury at Slaying Site

CLEVELAND, Ohio (AP) — Samuel H. Sheppard's jury in the murder of his first wife visited today the suburban lakefront home where the couple once lived and where she died in 1954 with 37 bone-deep gashes of the head.

Their view of the scene will be followed with opening court arguments, in Sheppard's second-degree murder retrial, now in its second week. This original jury conviction 12 years ago was upset by the U.S. Supreme Court.

Guinean Anti-U.S. Acts Mount

ACRRA, Ghana (AP) — Anti-Americanism is rising in Guinea following the refusal of Ghana's government to release a Guinean delegation held hostage in Accra.

Guinea charged that the United States had a hand in the detention of the 19 Guinean diplomats and students who were taken off a plane Saturday night when it stopped in Accra en route to a meeting of the Organization of African Unity in Ethiopia.

Ghana cleared the United States of any complicity and the

U.S. State Department denied it played any part in the affair. But a broadcast from Guinea said 50,000 persons paraded in front of the U.S. Embassy in Conakry, the capital, Monday shouting "Down with the Yankees!" and "Yankees get out of Africa!"

INVADED HOME

A U.S. State Department spokesman, Carl Bartsch, said in Washington that anti-American demonstrators also invaded the U.S. ambassador's residence in Conakry, breaking windows and some furniture.

U.S. Ambassador Robinson McIlvaine was put under house arrest in Conakry Sunday, but the State Department said he was allowed to leave his residence without a guard Monday. However, Bartsch said other members of the U.S. Embassy staff were under some sort of "office arrest."

The Conakry broadcast indicated the Guinean government felt the United States was involved because the Guineans arrested in Ghana were flying on an American airline, Pan American World Airways.

AF Orders New Missiles, Jets

By CHARLES W. CORDDRY
United Press International
WASHINGTON (UPI) — The Air Force is arming itself with two new weapons — a short-

range, bomber-carried missile for nuclear war and a jet fighter for conventional wars like Viet Nam.

★ ★ ★

At least \$700 million was earmarked for the two programs ordered into production yesterday by the Air Force. The total to be spent for the new weapons was expected to run higher.

The Boeing Co. of Seattle, Wash., will develop and produce the SRAM, or short range attack missile. It will have a nuclear warhead and will be carried by FB111 bombers and possibly by late model B52 bombers.

Development cost for SRAM was set at \$142.3 million and the first production quantity was fixed at \$93.5 million.

Ling-Temco-Vought Aero Space Corp., Dallas, Tex., was allocated \$19.1 million in a contract to start production of ATD Corsair jet attack planes.

367 PLANES

Congress was told production will run eventually to an estimated 367 planes at a cost of \$380 million. In addition, \$100 million was earmarked for British Spey engines for the ATDs.

The SRAM missile, which will have a 100-mile range, was first announced by President Johnson in January 1965 as a new strategic weapon.

He said that bombers armed with SRAMs would be able "to attack a far larger number of targets and to do so from beyond the range of their local defenses."

Unscaled Peak Due Challenge

BOSTON (AP) — Woodrow Wilson Sayre, a grandson of President Woodrow Wilson, leaves Wednesday to seek the "beauty and solitude" of climbing an unconquered mountain.

Sayre, 47, chairman of the Springfield (Mass.) College philosophy department, says he will challenge Vinson Massif, the highest peak in Antarctica, 17,000 feet of windswept, icy rock.

"Sure, it will be dangerous," he said Monday. "I don't think the climb will be too rough, but the weather at the pole is always a big hazard."

Sayre will fly to Buenos Aires to meet Roger A. Hart, a geologist working in Ecuador; Paul H. Davis, a geologist, and Peter Bruchhausen, an Argentinian. All are expert climbers.

"I want to climb the massif because no one has ever tried it before," Sayre said.

"The way population is exploding, climbing an unconquered peak is the only way to be really alone."

Sayre speaks of the "beauty and solitude" of climbing and of how "a man needs physical danger because it cleans and tests him."

Cambridge: Time Is Ripe for Negro Actor

By BOB THOMAS
AP Movie-Television Writer

HOLLYWOOD — This is a good time to be a Negro actor, as Godfrey Cambridge can testify. Once limited to roles as servants or as protagonists in occasional films on racial themes, Negro actors are now being cast in important movie and television roles in which their race is immaterial. You can see them playing detectives, lawyers and ordinary citizens in television series. You will be seeing them more and more in costarring roles in features.

THOMAS

Comedian Cambridge is one of the major recipients of this new benefit. Experienced in the New York theater — "Pete Victorious," films — "The Last Angry Man," and television — "Naked City," etc., he finds himself in demand for roles in which his race is not an element of the plot.

Last summer he costarred with Edward G. Robinson, Raquel Welch, Vittorio de Sica and Robert Wagner in MGM's "The Biggest Bundle of Them All," which was filmed in France and Italy. Cambridge played one of a gang of inept thieves who attempt a \$5-million platinum haul.

KNOWS ENGLISH

"It's a role that any actor could play, white or black," he remarked. "At first they wanted me cast as a jazz musician, but I was against it. I'm bored with that 'dig' and 'crazy man' talk. 'I'm literate. I don't need a local option to speak English. I learned how to speak the language at a school in Canada, where you got punched in the nose if you didn't talk correctly.' Born in New York City, he was sent to grammar school in Sydney, N. S., where his parents had first emigrated from British Guiana.

Cambridge finally played a concert violinist in "The Biggest Bundle of Them All." Recently he portrayed another fumbling gangster in "The Busy Body."

with Marty Ingels as his partner. The ultimate will come when I can go into a rural postmaster. Bill Cosby of casting office and be accepted or rejected solely on the basis of whether I can handle the role. Right now he's up for a role in "The Comedians," starring Richard Burton and Elizabeth Taylor, and for a television serial.

Special Education Classes Develop Skills at Central

By CHRIS BLAKENEY
The special education department of Pontiac Central gives selected students the help they need to develop into valuable citizens of the community. They learn useful skills which will prepare them to hold jobs after high school.

Under the instruction of Gordon Earhart, these students, work on several projects.

They address envelopes for a society, repair basketballs for the Pontiac School System, repair archery equipment for a community camping program, and have a subcontract in terminal assembly with a company in Clawson.

The money earned from these projects is paid to the students through the school system.

3 Cheers to the Crew at Clarkston

By LINDA HEATH
Oct. 22 is a day long to be remembered at Clarkston High School.

Clarkston's varsity cheerleaders went to Midland, competed in Northwest Institute's 5th annual statewide cheerleaders' conference and brought home the first-place trophy.

On Clarkston's squad are Pam Affolder, Caroline Giles, Cheryl Mansfield, Jan Peters, Shayla Smith, Nancy Weiss and Karen Caldwell, alternate.

Besides the top trophy, individual distinction went to Shayla Smith, daughter of Mr. and Mrs. Ernest Smith, 6240 Eastlawn, Independence Township.

Each squad chose one girl to represent them in the queen's contest. Because of Shayla's future plans to attend Northwest Institute, she was tapped to represent Clarkston.

FOURTH PLACE
Shayla came in fourth place, and was awarded a \$200 scholarship to Northwest.

Joette Schultz, daughter of Mr. Anita Schultz, 114 Wampole, Clarkston, has been chosen as Daughters of American Revolution award recipient for 1966-67.

In December, Joette will attend a DAR tea with other area winners and receive a pin.

Clarkston's principal, Milford Mason, announced that Timothy Wall has been named as a semifinalist in the National Merit Scholarship Program.

CLARKSTON SENIOR
Tim, a senior at Clarkston, is the son of Mr. and Mrs. Frank Wall, 4555 Major, Waterford Township.

Four other senior boys have received letters of commendation. They are John Gettel, Jack Frost, Terry Dutcher and Edward Ellert, a transfer student from Fort Collins, Colo.

The annual vocal music Fall Festival will be held tonight in Pontiac Northern's gym at 8.

Among the groups featured will be A Cappella Choir, Senior Girls, Senior Boys, Sophomore Choir, Madrigals, and the Harmonies.

Henry McShan, counselor, has completed a survey of the graduating class of 1966. In comparison to the class of 1965, several changes were noted.

The percentage of students who continued in postgraduate training was 51.53 compared to the 39.64 of 1965.

DEGREE PERCENTAGE
Those who attended degre-granting institutions totaled 32.42 per cent compared to the 24.84 in 1965.

Enrollment in a two-year college is 12.96 per cent as compared to the 9.21 of the previous year.

Scholarship students made up 8.36 per cent of the 1966 class in comparison to 1965's 5.76.

The General Richardson Chapter of the Daughters of the American Revolution will sponsor its annual program recognizing outstanding girls in local high schools.

REPRESENTATIVES
These girls represent dependability, service, leadership, and patriotism.

Central has chosen Lynne Chandler as its "good citizen."

The voting is done in a manner designated by the D.A.R. Each senior homeroom chooses a representative. The list of these girls is voted on by the senior homerooms, and the names of the three leaders are given to the faculty members for the final decision.

Lynne will write papers concerning good citizenship, and be entertained at a banquet given in honor of the local winners before facing state competition.

FOUR-DAY WEEKEND
Students are preparing for their four-day weekend this week.

School will not be held Thursday and Friday due to a teacher's convention.

School plans for the vacation include the A Cappella Choir holiday Nov. 3 and the Michigan Competitive Examination Nov. 5.

Exam Week at SLHS

By JAMES PAKLEDINAZ
At St. Lawrence High School the end of October and the start of November mean quarterly exams.

The new quarter begins on Nov. 7 and classes will go back to normal schedules.

This week is marked by free days. Tuesday is off because it is a holy day of obligation. All Soul's Day.

Thursday and Friday are free

HARD AT WORK — Teen-agers in the special education classes put their talents to work. Pictured are (from left) Mary Kaercher of 290 Dick, Pontiac Central; Beverly

Drum of 393 Pittsfield and Dave Emerson of 26 E. Fairmont, both Pontiac Northern students; and Nathaniel Goldsmith of 582 California, Pontiac Central.

Utica Prepares for 'Camelot'

By SUSAN OWEN

Choir classes are designing posters for the spring play, "Camelot." They recently took time off to attend the opera "La Boheme."

This year's officers for the varsity choir are Diane Fisher, president; Michael Reinhart, vice president; and Nancy Fuson, secretary.

Librarians in charge of music are Cathy Pledger and Richard Linden.

Points earned for work out of class are supervised by seniors Janice Coldwell, Dawn Cook, Timothy Burg and Gary Nelson. Girls' Glee Club and Mixed Chorus are combining their efforts to help the Varsity Choir with the production of "Camelot."

Officers of the Girls' Glee Club are Kathi McNamer, president; Janice Day, vice president; Sandra Palmer, librarian; and Carol Dickinson, Merits.

Mixed Chorus officers are Elizabeth Alexander, president; Karen Kortas, vice president; Peggy LaGassa, secretary; and Pearl Bahr and Regina Vollmar, librarians.

Utica's junior class will soon select its class ring. Homeroom representatives met and chose three styles for the entire class to vote on.

SCHOOL NEWS ROUNDUP

North Farmington

By KATHY KOURTJIAN
Friday a special gymnastics assembly was presented by Eddie Cole, a U. of M. graduate to North Farmington High School.

A 1959 NCAAT Trampoline Champion, Cole's routine included a colorful demonstration of Spaceball (a combination of volleyball and basketball) and many amazing trampoline stunts.

In the homecoming queen and court race are Debbie Bramlage, Mary Jo Hopkins, Judy Mackey, Kathy MacLean, Mollie Schelling and Sandy Wilcox, seniors.

Junior nominees are Chris Ansell, Diane Crump, Judy

Cranbrook Again Has Talk Group

By RICHARD BOSLEY
Once again, Cranbrook School will have a political discussion group called the Forum.

It is sponsored and organized by senior Reed Statkin and Ralph Gordon, junior Mike Kinsley and Ronald Penny, history and English instructor.

The Forum does more than bring guest speakers to Cranbrook. It organizes groups to work at the Republican and Democratic headquarters in Birmingham and Pontiac.

Recently, it hosted Dr. Sheil Salasnick, Detroit's primary advocate of LSD.

He said that although each "trip" differs according to the personality of the individual taking the drug, three variables can and should be controlled.

- the dose
- an understanding of the experience and an expectancy of the results
- the external stimulus input, i.e. music, lights, surroundings confronting the person who has taken the drug.

However, Dr. Salasnick advises extreme caution and says that it is dangerous for students to get together and try it for fun.

GUIDED TRIP

"Any normal person can benefit from a guided trip, that is one where the previous cautions are observed in the presence of a person who has had experience with LSD."

"LSD takes you to the brink of insanity, and this brink becomes a very real and tangible thing; a mature, balanced person will return from the brink after the trip, while the unstable person will not."

He also said that one "trip" was exactly like the revelations or confrontations which many religious people say they have, and it left him completely certain of the existence of God.

Others have found that LSD increases their creative powers and have expressed themselves in words and by painting.

Brother Rice

By GARY MILLER
Brother Rice High School Radio Club is moving full speed ahead. Old as well as new members have joined the club.

Moderators of the club are Brother Markert and Brother Kennedy.

In September equipment was installed giving members new hope of even better results. One of the first stations contacted was Czechoslovakia.

During the past few months the Radio Club has contacted twenty-five states and fifteen countries.

Milford
By PAULA MIREAU
The Milford High School Drama Club has chosen "Anne Frank: The Diary of a Young Girl" for its fall production.

Miss A. A. Lappala is the drama coach.

In the cast are Darlene McDonald, Ann; Randy Smith, Peter; John Austin, Mr. Frank; and Connie Parks, Mrs. Frank. Others are Leslie Salminen, Margot; Bruce Watson, Mr. Van Dusen; Linda Etherington, Mrs. Van Dusen; Wendy Geiger, Meip; and Kevin Lawrence, Mr. Dussel.

Our marching band was invited to perform at the last Detroit Lions home game.

BAND BOOSTERS
The Band Parents' Booster Club meets tonight at 7:45 in Juana Brass, a 10-man band, the west cafeteria, giving parents a chance to direct the band tops the agenda.

Sacred Heart

By MARY ELLEN QUINN

Last weekend, Melinda Churches, Mary Vieson and Wendy Sundberg went to St. Louis, Mo., to attend a meeting of Sacred Heart students from all over the United States.

Each school sent three representatives. They stayed at Villa Duchesne in St. Louis.

The girls attended workshops and discussions to compare schools. They also had a chance to visit Maryville College and the shrine in St. Charles.

The Duchesne Mission Unit recently sponsored a sugar-drive under the direction of Nancy Huber, the special events chairman. The sugar was contributed to the Dominican sisters.

On Tuesday, Wednesday, Thursday and Friday of last week, the first cycle of tests was administered to the middle and senior schools.

Rochester

By KARIN HEADLEE

Rochester High School's Junior Rose Bowl will be held Nov. 9, when the junior girls play the seniors.

Senior captain will be Jackie Bird and the junior captain, Joann Brower.

Coaching the game will be Barbara Cischke for juniors and Carol Avery for seniors.

The event is sponsored by Theo Guillaume, gym teacher and GAA sponsor.

Sophomores are still glowing over their victorious homecoming float. "The winning theme was 'The Birds and the Bees.'"

Seaholm Picks 2 AFS Finalists

By HOLLY ALFS

Juniors Sara Wickizer and Bruce Purvis were chosen as Seaholm's AFS finalists for next summer. Their names will now be sent to New York in hopes of placing. There were 11 applicants for AFS and the decision was difficult.

Sara and Bruce were both members of the Seaholm chapter of AFS last year and are good workers. AFS is planning its annual Thanksgiving Dance.

Sara is heading the publicity committee. Nancy Underwood is chairman of decorations; Barb Miller, tickets; Jeff McClain, public address announcements; and Doug Campbell, entertainment.

The theme this year hasn't been decided upon.

The Halloween Dance, sponsored by the Birmingham merchants, was Monday night in the cafeteria.

Activities include a pie eating contest, a pumpkin carving contest and, of course, dancing. Refreshments and the band

are paid for by the Birmingham merchants, who hold this each year to keep teenagers off the streets on Halloween.

The dance is not limited to Seaholm students; all Birmingham area teen-agers are invited. Dances are also held at the junior highs.

Seaholm's Pep Club, exceptionally active this year, will place many inspiring banners throughout the school on Fridays.

PEP CLUB MEMBERS
Membership in the Pep Club has an increase of 800 per cent over last year, with 180 members.

Mrs. Betty Kinnison is the originator and sponsor of the club.

Determined that this year the Pep Club is going to be one of the school's finest clubs she holds meetings each Friday afternoon in the Little Theater to practice card sections for the football games and sees that we always have a big cheering section.

Providing student buses for the cheerleaders and students to the away games is another one of the many services offered by the school's "revised" Pep Club.

COLLEGE PROSPECTS
Each week many college representatives, public and private, are visiting Seaholm to talk to prospective students.

The University of Michigan came and accepted students on the spot.

Turn out to see the college representatives have been good.

In two weeks the Betty Crocker Scholarship Test will be given to interested home economic students.

LAST YEAR'S WINNER
Last year's first place winner was Seaholm's Sue Smith, who is now using her scholarship at Michigan State University.

The test covers all phases in the home economics field, including cooking, sewing, child care and household duties.

Mrs. Margaret Houston is the faculty coach; Ann Fitzgerald is the varsity student coach and Nancy Schreiber is the reserve team coach.

Charlon McMath is the team manager; she was prevented from playing this year by a broken foot.

S. Lyon Girls in Grid Battle

By JIM LAMOTTE

South Lyon High School's Powder Puff football game, held Tuesday, was a big success.

The freshman-first team defeated the girls of the sophomore and junior classes by the score 25-6.

Seniors set the game afire. Two of the girls, Rosey O'Neil and Janice Hutchins scored most of the points.

But the football game was not the only attraction. The Mari Club meets tonight at 7:45 in Juana Brass, a 10-man band, the west cafeteria, giving parents a chance to direct the band tops the agenda.

Another Seaholm home economic student, sophomore Toney Williams, has entered the Michigan Wool Contest. For entrance Toney had to make a two-piece wool suit with lapels and buttonholes. She will model her suit next week in Lansing and if she places, will go on to the national contest.

A. A. Ulrich's sophomore homeroom will sell the Maple "Clan" in homeroom soon. The Clan is the school directory. Included are student names, grades, homerooms, home addresses and phone numbers.

Hockey Swings at Kingswood

By CINDY GRISSOM

Athletic fields at Kingswood School resound with the slap of sticks striking sticks and enthusiastic cheers. The field hockey season is in full swing.

Opportunities are provided for intramural and interschool competition for interested and qualified girls.

A varsity hockey squad and a reserve team play other hockey teams from this area. Its season reaches a climax Saturday at the annual Hockey Play Day.

Play Day will be held at Liggett School this year. The performance of the participants is judged, and the top players are awarded positions on the All-Detroit-Varsity and the All-Detroit-Reserve teams.

Mrs. Margaret Houston is the faculty coach; Ann Fitzgerald is the varsity student coach and Nancy Schreiber is the reserve team coach.

Charlon McMath is the team manager; she was prevented from playing this year by a broken foot.

SUPPORTS TEAM

The team is urged on by the cheerleaders, a card section, and the faithful mascot, a paper-mache aardvark.

The girl who shows the best citizenship and ability on the varsity is awarded the McLean Trophy in the spring.

For intramural competition the student body is divided into Green and White teams. The team winning the most points in competition and service wins the banner.

The captains of these teams in each grade are members of the Athletic Council. The Council inspires interest in sports and assists the physical education department. The president this year is Jean Rosello.

OUTSTANDING GIRLS

The girls who show outstanding achievement in sports are given "K's." The "K's" Club promotes school spirit. The president this year is Cynthia White.

STATE WINNERS — Clarkston High School's varsity cheerleaders display their trophy won at Northwest Institute's fifth annual statewide cheerleaders' conference. In the front row (from left) are Caroline Giles,

Pam Affolder, Cilla Wice, manager, Shayla Smith and Karen Caldwell. In the back row are (from left) Coach Jan Gabier, Nancy Weiss, Jan Peters and Cheryl Mansfield.

LET'S GIVE A CHEER — Jean Rosello (right) of 32000 Mountaineer, Franklin, leads Kingswood's girls in a cheer as student coach Ann Fitzgerald (left) of 4820 Echo, Bloomfield Township, and Alexa Kachinok of

1271 Lake Park, Birmingham, battle for the ball. The girls are practicing for the annual Hockey Play Day to be held Saturday at Liggett School, Grosse Pointe.

There are more than 11,000 lakes in Michigan. The state's resort income averages \$727-million annually.

OFFICIAL NOTICE OF SALE
WATERFORD-TOWNSHIP SCHOOL DISTRICT
OAKLAND COUNTY, MICHIGAN
Series 1966

"What's a GAS INCINERATOR got that I haven't?"
"Maybe I don't look so good . . . but I do lend a bit of atmosphere to the place. And I'm quite a drawing card when it comes to flies and varmints! What's so great about a Gas Incinerator . . . always bragging about its health and cleanliness—that it doesn't even smoke when it consumes rubbish and refuse. Well, I'm not taking any more 'garbage' from them! You'll see . . . replacing me with an automatic Gas Incinerator will make a big difference in their life!"
You, too, can end trash and garbage problems by switching to a new, smokeless, odorless Gas Incinerator

Cold War GI Bill Now Aiding 246,000

WASHINGTON (AP) — Some 246,000 of America's "old war" veterans have streamed onto college campuses this fall to continue their education with the aid of the new GI Bill, officials reported today.

Settlement of the Viet Nam war and the subsequent return to civilian life of many of the 338,000 troops now committed to the conflict would send the total zooming upward, they said, perhaps causing severe overcrowding in some schools.

Under the measure — commonly known as the "Cold War GI Bill" — signed by President Johnson on March 3, 1950, honorably discharged veterans with more than 180 days active military service since Jan. 31, 1955, are eligible for educational, housing and other benefits.

The program, approved by Congress without a dissenting vote, amounts to an extension of World War II and Korean War GI benefits, but on a reduced scale.

BENEFIT CHECKS

The Veterans Administration said 211,000 October benefit checks had been mailed by last Friday to veterans enrolled in colleges, universities and other institutions — such as vocational or business schools. Files of 35,000 applicants were being processed Monday, a spokesman said.

Officials said they expect the figure to level off at about 240,000 this school year. About 64,000 veterans attended summer classes after the program went into effect June 1.

The new bill covers veterans who served in the war in Viet Nam. But VA officials said their records do not show that veterans of the Viet Nam conflict are benefiting from the measure.

OU Paper to Host Collegiate Press

Some 100 Michigan college newspaper staffers are expected to gather at Oakland University Friday and Saturday for the sixth annual convention of the Michigan Collegiate Press Association.

The university's student newspaper, the Oakland Observer, will host the event, which begins with registration from 4 to 6 p.m. Friday.

Among the speakers and discussion leaders will be two representatives of The Pontiac Press.

Sidney Gregory, production coordinator, will discuss newspaper layout, while advertising salesman Arthur Sanford will speak on advertising revenue.

Road Work OK'd

DETROIT (AP) — The Roads and Bridges Committee of the Wayne County Board of Supervisors Monday approved a \$34-million highway construction program. Some of the major projects include widening of Beech-Daly from Grand River to Eight Mile, reconstruction of Middle Belt from North Line to Eureka into five lanes and the widening of Oakland Avenue in Highland Park from Davison to the suburb's southern city limits.

There have been some complaints of delays in getting benefit checks to students, but officials said the same problems were encountered in the early days of the World War II and Korean War GI bill programs.

"There haven't been many hardship cases," one official said.

Under the new program, an unmarried student can collect \$100 a month in educational aid.

A married student with no children \$125 a month and a student with two or more dependents \$150 monthly.

A veteran is entitled to one month's benefits for each month spent in uniform — with a 36-month limit. Thus a veteran with three years of active service can receive payments

spread over four nine-month school years.

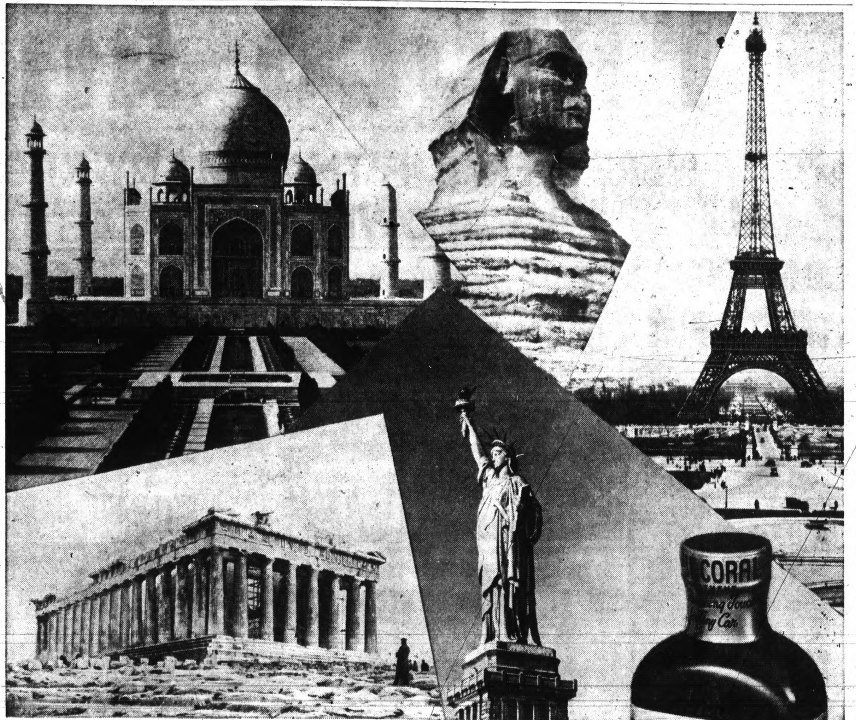

All told, an unmarried veteran can receive \$3,600 from the government to help finance his education, a married veteran up to \$4,800. Payments are scaled down for part-time students.

\$50 a month, for example, for an unmarried veteran attending college half-time.

Of the program's estimated \$335-million over-all first year cost, officials estimate about \$327 million will go for educational benefits. Program costs are expected to reach about \$500-million a year after five years and climb to \$1.65 billion by the year 2000. The original GI Bill cost \$20 billion during its eight-year life.

To Benefit Hospital Day Clinic

Cranbrook Group Will Have Fair

Mrs. Clarke F. Andree, Bloomfield Village, is delighted with the antiques she has collected for the benefit fair the Cranbrook branch, Woman's National Farm and Garden Association, is holding next Tuesday at the Birmingham Masonic Temple. Proceeds will be used to help the Pontiac State Hospital Day Clinic. Sale hours are 10 a.m. to 4 p.m. and the public is invited.

Mrs. Austin Conrad, Burning Bush Road, collects the last apples to make applebutter for the upcoming fair. As chairman of the pantry corner, she had other WNFGA members canning and preserving all summer.

Mrs. Lloyd C. Sherwood (left) and Mrs. Carleton A. Smith, both of Bloomfield Hills, pile up boutique items made by the branch for the fair. Most of the 40 members have been working since late spring to get merchandise ready. It looks as if this pool table is temporarily out of commission.

Patients in the Pontiac State Hospital Day Clinic are also hard at work making fair items for the Cranbrook branch benefit sale. Garden club members work weekly in this clinic. From the left are Mrs. Bruce Jennings, arts and crafts instructor at the hospital; Mrs. Dean K. Johnson, Bloomfield Hills, general chairman of the fair; and Mrs. Walter F. Kuckelman, Birmingham, cochairman.

WOMEN'S SECTION

A Mother Should Keep Out of Her Grown Son's Love Life

By ABIGAIL VAN BUREN

DEAR ABBY: Will you please give me your opinion of a 21-year-old girl who drives 60 miles to see a boy instead of waiting for him to go to see her?

She is supposed to be a smart girl, and I understand she holds a good job. She lives 60 miles from here, and ABBY she's in town every time he turns around. The boy is my son.

He is 26, and I can't see what he sees in her. She is loud and forward and he is quiet and shy. I am so afraid that poor kid will get talked into marrying her. I don't know where to turn. He has his service behind him so there is nothing stopping him. What should a mother do?

WORRIED

DEAR WORRIED: Nothing. And don't waste your sympathy on a poor 26-year-old "kid" who has a girl dragging her coals to Newcastle. Maybe he likes it that way.

DEAR ABBY: I know you must get billions of letters every day so my letter will probably go unread and unanswered. It is really important though, as I know lots of teenage girls my age with this problem, and it might even help some of the boys who read it, too.

Whenever I walk down the street, boys in cars stop and honk, etc. Some of them are very nice and quite cute, but if a girl stops and talks to them, or goes for a ride with them,

she gains a reputation as a pick-up.

On the other hand, if she doesn't, the boys consider her a stuck-up snob. Which would be better, to stop and be sociable or to act like a snob?

SOCIABLE PICK-UP

DEAR SOCIABLE P.U.: One of the first things a mother teaches a little girl who is old

enough to walk down the street alone is, "Don't talk to strangers, or ever get into a car with one!" Whether the girl is 6 or 16, the advice is still good.

To ignore invitations from strangers in automobiles to socialize is not snobbish, it's sensible.

Parliamentary Study Club to Discuss Amendments

Parliamentary Study Club will meet Wednesday at 1:30 p.m. in First Federal Savings of Oakland Building.

Demonstration of an annual meeting will be led by Mrs. H. N. Watson. Special procedures to be discussed are precedence of motions, and amendments.

Sponsor for this meeting is Mrs. Harold Knisley.

For 42 years this group has met to study parliamentary law,

using Emma Fox for reference. All members participate in the programs which are carried out in formal fashion.

One club member acts as a sponsor for two consecutive meetings and works with her committee beforehand. Each month, a regular and an annual meeting are demonstrated.

Any interested woman in the Pontiac area may attend a meeting of the club.

PSH Clinic Will Benefit From Fair

Cranbrook branch, Woman's National Farm and Garden Association is sponsoring a fair on Tuesday, in the Birmingham Masonic Temple.

Proceeds will benefit the Day Clinic at Pontiac State Hospital and the branch scholarship fund.

For many months, this 40-member group has been conducting workshops at the hospital with staff therapists and day patients to develop the interest and skills of these patients.

Funds for the purchase of materials have been donated by the branch and many articles have been made by the patients and Cranbrook branch members, working together.

TO SHOW PUBLIC

For its project this year, the branch will hold the fair to sell these workshop items and to bring the event to the community rather than just to the hospital staff and friends.

There will be holiday greens and decorations, also a pantry shop with novelty foods for desserts and parties.

Included in the antique or "collectibles" sale are many fine pieces of furniture and bric-a-brac, including an Oriental rug.

A coffee and tea hospitality area, also excellent parking facilities will be provided. The fair is open to the public.

Is Symbol of Resistance

By GAY PAULEY

UPI Women's Editor

NEW YORK — Olga Guillot, often called Latin America's counterpart of Judy Garland, Pearl Bailey and Barbra Streisand, knows what it's like to have a price on one's head — placed there by Fidel Castro.

"I love my country, but I was never in politics there," she says. "But now I seem a symbol of resistance to Castro. All Cubans who have left hope we go back — but when? Who knows now? We hoped it'd be with the invasion (The Bay of Pigs Invasion which failed in 1961).

Miss Guillot already was a leading supper club, recording and movie star known in Europe and South and Central America when she fled Havana six years ago. Castro, who was soon to embrace Communism, had taken over the government eight months earlier.

Miss Guillot was not active then in any anti-Communist activities. "It was that I loved Cubans," she said, "so therefore I was linked politically.

"There was a price on my head. Three times I was detained and questioned."

A CAPITALIST

"I knew I had to leave," she continued. "There had been anti-Castro riots from the beginning. I was probably the number one woman in Cuba in salary — not rich, but the Castro people called me a capitalist.

"This money I had earned must go back to the people. I told them I come from poor people." Her father, Frank, is a tailor now working in New York. Her mother is dead.

The Venezuelan ambassador helped her get to Caracas, but she left behind a number of

relatives (she didn't want to specify how many for fear of reprisals) and all her properties.

"Almost all Cuban families have been split by this man (Castro)," she said.

I talked with the dusky Latin singer, who today lists Mexico City as her residence, as she closed out a long engagement at the Libreria Supper Club in New York. She understands English but speaks it haltingly.

Miss Guillot now returns to Mexico City to make a film, then tours Panama, Columbia, Venezuela, Peru, Chile, Argentina and Ecuador.

The throaty-voiced singer had no trouble re-establishing after she fled Cuba. She'd already toured as a singer and appeared in movies filmed in Spain and Mexico City.

Miss Guillot got her start on

amateur type of radio program and by 1946 was a popular radio performer. She studied for seven years at the Cuban Conservatory in Havana.

Now, she's not only performer but outspoken propagandist against the Castro regime, often speaking before organizations opposing his rule—"every country has one," she said.

What Time Is Correct to Arrive?

By ELIZABETH L. POST

Dear Mrs. Post: When someone asked about proper time of arrival of a guest, I cannot understand why you wrote the proper time as five to 15 minutes late.

Every hostess should expect her guests to arrive five to 10 minutes before time set, not after. I do my own cooking and serving, and I appreciate my guests arriving on time so the food can be eaten at its best and do me justice. — Amy

Dear Amy: I also do my own cooking and serving and I would have a fit if my guests arrived five or 10 minutes early. A few minutes leeway gives the hostess a chance to cope with last-minute emergencies that occasionally arise.

I plan my meal to be ready a few minutes after the hour for which the guests are invited, which allows for a period of greetings and conversation and also avoids embarrassment to those who may be unavoidably delayed.

Unique Party for Society

The Woman's Auxiliary to the Oakland County Dental Society is sponsoring a Millionaires' Party, Saturday, in the Northwest Sportsmen's Club beginning at 9:00 p.m.

According to Mrs. Russell Jokela, auxiliary president, the affair will benefit dental health and education throughout Oakland County.

Assisting Mrs. Dean Fields, chairman are Mrs. Jokela, Mrs. William Daines, Mrs. Charles Lewis, Mrs. Ronald Jenkins and Mrs. Gerald C. Dietz.

Others helping are Mrs. Edward Barrett, Mrs. Calvin Taylor, and Mrs. Harlow O. Bates.

Selecting music for the Millionaires' Party, Saturday, in the Northwest Sportsmen's Club are members of the Woman's Auxiliary to the Oakland County Dental Society. From left, are Mrs. William Boeh-

ringer, Long Lake Shores Drive; Mrs. Jack Funky, Birmingham; and Mrs. Russell Jokela of Kenmore Road, who is chairman for the benefit.

Pontiac Press Photo

Calendar

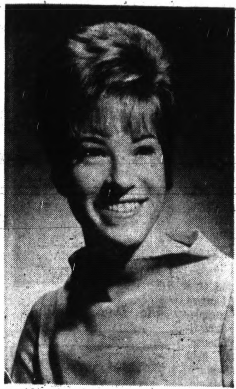

WEDNESDAY

Woman's World Series, 10 a.m., The Pontiac Mall. Professional fashion show by Bloomfield Fashion Shops.

YWCA Ladies Day Out program, noon, "Y." "Cooking on the Run" theme of this program which includes luncheon.

THURSDAY

Friendship circle, Welcome Rebekah Lodge No. 246, noon. John Hocking home on Second Avenue. Cooperative luncheon. Oakland Writers' Workshop, 1 p.m., YWCA.

LINNE UNDERDOWN

Linne Underdown, daughter of David J. Underdown of Birmingham and the late Mrs. Underdown, and John M. Forester, son of John E. Forester and Mrs. Robert Hagge both of Wausau, Wis. are planning a summer wedding. Both attend University of Wisconsin at Madison.

Mrs. Wright Will Speak to Pontiac PTA Council

The Pontiac PTA Council will meet this evening at 7:30 p.m. in the Longfellow School. Mrs. William Wright will speak on the topic "PTA Council — Why?"

Delegates and representatives of each local PTA will be asked to vote on the proposed Community Center Project.

An invitation will be extended for all program chairmen of PTAs to attend an information session on available aids from the Audiovisual department of the Board of Education.

This meeting will take place

Nov. 15 at 1:00 p.m. in the Board of Education Building Library on Wide Track Drive.

Frilly Bedroom

If you prefer frilly bedroom decor, you can now find blankets bound with pretty laces. These are feminine but practical because the blankets are made of Acrilan and the lace bindings of nylon — a perfect combination for machine washing and drying.

Up-to-Date Look for Long Hair Not Difficult

By DOROTHEA ZACK HANLE
Editor, Hair-Do Magazine

If you're one of the many who wear their hair long, you should know of the very special ways of caring for it—and the more ways in which it can be styled.

Whatever your reason for preferring long hair, don't fall into the body trap of feeling that it's easier to handle, or saves money and time at the hairdresser.

VARIETY

There are up-to-date ways to drape long locks, to swirl them, twirl them, pin them in practically limitless ways. And long hair, to be truly an asset, must be more than flattering to your face and your stature: it should be a thing of beauty in and of itself.

Why keep it long if it's not for the sheer beauty of it, the radiance of the silken length of it? If it's to be just that, then more than any other kind, long hair must be cared for tenderly, groomed to look

and behave like satin.

Cleanliness comes first, for who can admire long dirty hair. Every inch should be conscientiously cleaned, from scalp to ends. If your hair is more oily than average, that may mean you should have three latherings rather than the usual two. Your hair, like any other, should be washed as often as washing is needed.

If that means, in your case, twice weekly sessions, allow for them in your schedule (or seriously consider some cutting).

Knots and tangles can pose a problem at shampoo time, for wet hair tends to tangle far more easily than dry. Your shampoo technique can prevent some of this after-shampoo trouble.

Working your fingers under the hair, close to the scalp, and moving them outward and fanning them from there, helps to separate the strands, keep them from matting. Then, for after-shampoo

combing, use a very strong comb with long, widely spaced teeth. Comb the ends first, grasping the hair a little way up from the ends. Then comb through a little higher and on up until you are combing from the scalp. No impatient pulling and yanking, please.

You may think that long hair doesn't require setting. Why, ask yourself, when it's simply going to be wrapped and pinned? The

reason is not, as with short hair, for curl specifically but for wave, body and direction.

It gives the hair lift, mass and guidability. So, if you would have an attractive, manageable, long-hair style, you must set your locks.

If your hair is fine, choose medium-size rollers; coarser hair requires the larger ones. And unless you have hours to devote to drying your hair, you'll find a home dryer with

a hood that is extra roomy an invaluable speed-up.

Daily brushing is of utmost importance for distributing the natural oil the length of the long hair strands. That applies even if your hair is oily because undistributed oils tend to pool on and near the scalp.

Bringing Up Baby®

Hints Collected by Mrs. Dan Gerber, Mother of Five

FEEDING FACTS FOR LITTLE ONES

"Do new babies need water?" asks many a mother. Depends on your baby (and which baby is not an individual)? Some want water right from the start. Others apparently get enough liquid from milk and juices. Best solution for thirst satisfaction is to offer an ounce or two, once a day, between meals. Water, of course, should be boiled and cooled.

Liquids baby will like... Gerber Strained Fruit Juices... early entries in a baby's diet. Gerber Orange Juice, the traditional starters, are delightfully mild and rich in vitamin C. That, as you may know, is an important contributor to strong bones and teeth... sound gums and other body tissues.

As baby advances he'll enjoy the other brightly distinctive Gerber combination juices, too. All are equally rich in vitamin C.

Trick for a toddler treat. For a little something extra-special, try pouring Gerber Orange Juice or Orange-Pineapple Juice over sliced bananas. Delicious for breakfast or a snack bonanza. And so grown-upish. Bet you'd like it, too.

Iron information. It's an established fact that a baby's natural supply of iron diminishes a couple of months after birth. The Gerber Cereals that you mix with milk or formula are designed to help replenish that supply. They're enriched with a selected form of iron that's easy for wee ones to absorb.

Six to mix for mealtime interest. Gerber Cereal Sixes are ideal for introducing your darling to cereal variety. This convenient sextet contains small boxes of Rice Cereal, Barley, Mixed Cereal, High Protein Cereal and Two Oatmeal. (Just-right sizes for pint-size appetites.)

Flavors are bland but distinctive. The texture is ever so smooth to the tongue. Gerber's Baby Products, Box 33, Fremont, Michigan.

Polly's Pointers

Carpet Gets Baggy

DEAR POLLY—Some of these most. What can be done to keep nylon or continuous filament "baggy"? —IVA

DEAR POLLY — I am answering Mrs. R. M. who wanted to know if it is bad manners to give a baby shower for one's own sister. In my opinion, it is always in questionable taste to give a shower of any sort for a close relative.

Since Mrs. R. M.'s sister was having her third child there are probably many usable items left over from the other two children so I suggest that she utilize the cash that would be spent on a shower to purchase any needed supplies. I am sure the would-be shower guests will add their usual little gifts after the baby arrives. — VMS, L. C.

DEAR POLLY — There is a tidy way to save gift-wrapping ribbons, or the ribbons, or clip them with clothespins, to a coat hanger. This shows, at a quick glance, which length and color to choose for the package being wrapped.

Ribbons stay neat and unwrinkled, and gift wrapping is easier and more fun. — THEA

GIRLS — Hold your hats on, particularly you younger ones. Ruth said it, I didn't, but perhaps those television commercials for headache compounds brought about that last sentence.

POLLY — Plastic spoons are perfect for keeping in baby's diaper bag. They are small and light, and there are no worries over a lost one as there would be if his silver spoon were left somewhere. — MRS. D. W. S.

Anyone submitting a Polly's Problem, a solution to a problem or a favorite homemaking idea will receive a dollar if Polly uses the item in Polly's Pointers.

Members of Philia Theta have given a record player and other equipment to the school at Oakland County Children's Village. From the left are Mrs. Robert Brown, Waldon Road, Independence Town-

ship, president of the group; Mrs. Joy Beaudry, English teacher at the school and Mrs. Leon Cross, Second Avenue, a new member of Philia Theta.

Vows Said
in Rochester
for Couple

A recent ceremony and reception in the First Church of the Nazarene in Rochester marked the vows of Christina Slavens and Lloyd Ralph Greenleaf.

The bride wore floor-length white Chantilly lace over satin with silk illusion veil and carried cascading white carnations.

Donna K. Slavens attended her sister and Michael Waite was best man. Seating guests were the bride's cousins, Daniel Largent, Rochester, and Robert Evans.

Back Home

Mr. and Mrs. Ludwig Engelhardt of Whittetore Street, recently returned from a four-month European tour, have been visiting their son-in-law and daughter, L. L. and Mrs. Tom Lovell in Urbana, Ill. and relatives in Oshkosh, Wis.

(Political Advertisement)

She Does Sculpture in Wood

ALBANY Calif. (UPI) — In the basement studio of Catherine Webb's cottage are jammed thousands of pieces of wood, of all sizes and shapes.

A fine film of sawdust covers everything, including a sander, a table saw, a band saw, a lathe, a drum sander and a finisher.

In her cluttered workshop Mrs. Webb creates abstract wood sculptures.

"Wood responds," she said. "When you touch it, there is a communication that doesn't require words."

She calls her creations "touch sculpture," indicating they are to be held and felt.

A favorite creation, for example, is the "fellee," a smooth piece of wood shaped for the palm of the hand that is meant to be held while one thinks.

But Mrs. Webb has another talent. She carves things that sell.

"For the past five or six years, I've made thousands of chignon clasps — they're my bread and butter item."

It is this talent that she hopes to transmit to poor, un-

skilled Negroes in Mississippi when she goes there in the next few weeks under the sponsorship of the Poor People's Corporation.

The corporation was formed a year ago to provide technical and financial assistance to poor persons in the southern state, and to help develop worker-owned and operated cooperatives.

While she is in Mississippi, Mrs. Webb will be paid \$20 a week and living expenses by the corporation.

Send also for Quilt Book 1 — 16 complete patterns. 50 cents.

Miss Dodds
Takes Vows
on Saturday

Vows were exchanged by Sandra Lee Dodds and U.S.N. Fireman Dennis Edward Findlay, Saturday, in the Lake Orion Methodist Church.

Their parents are Mrs. Robbie V. Dodds, Lake Orion, Farrel W. Dodds of Twilight Hill, Commerce Township, and the Budd Findlays of Troy.

LACE ACCENTS

Alencon lace accented U.S. bride's chapel-length Empire gown of white satin complemented by a lavender lace tiara and veil of silk illusion. Her colonial bouquet held white roses and carnations.

With Mrs. Richard Mason, her sister's matron of honor, were bridesmaids Patricia Dixon, Connie Rowden and Sue Findlay.

Tim Findlay was his brother's best man with Robert Vaden, Ferndale; Alfred Fosmolen, Clawson, and Joel Smith as ushers.

Kimberly Mason and Charles Thompson Jr. were flower girl and ring-bearer.

After a reception for 300 in the Gingiville Community Center, the couple left for Norfolk, Va. where he is serving on the U.S.S. Dupont.

Take a dip in the Fountain of Youth

Fluffy clouds against a sapphire-blue sky... tiny rosebuds opening into beautiful blossoms... a crystal-clear pond reflecting delicately scented flowers... your skin radiating the loveliness provided by 2nd Debut. Only 2nd Debut creates such loveliness... after glowing skin that is all yours... not an illusion... 2nd Debut contains an element called C-E-F (C-E-F 1200 for double potency). When spread over the skin's surface... C-E-F-Cellular Expansion Factor encourages the skin to absorb molecules of pure water that expand the cells to plump up and fill in facial lines on the surface to make them less visible. Get 2nd Debut, regular or double potency at your drug or department store today.

ARRIVALS LTD., CHICAGO, U.S.A.

MRS. G. S. SMITH

Gregory Scott Smiths Now on Honeymoon

The Gregory Scott Smiths (Janett Marie Hobson) left for a northern honeymoon after their recent marriage in the Christ Lutheran Church.

Their parents are the Ernest W. Hobsons, Hillsdale Street, Independence Township, and the L. K. Smiths of Terrell Street.

White peau satin and Chantilly lace fashioned the bride's gown and tiered chapel train

worn with illusion veil. She carried white pompons and yellow roses.

With maid of honor, Sherri Russell were the bridesmaids, Christine Woodward and Sue Powell.

On the esquire side were Bud Bruckman, best man, with Louis Fitzpatrick and Wally Hopp, ushers.

Reception in the American Legion Post on Churchill Road followed the evening rite.

Moving Dinner for Sorority and Husbands

A progressive dinner Saturday evening for members of Alpha Alpha chapter, Epsilon Sigma Alpha sorority and their husbands took on an international theme.

France was represented at the Rochester home of Mr. and Mrs. B. T. Tompkins and the Netherlands in the Clarkston home of the A. F. Grands.

The Bert Anselmis of Deer Run Road took on the look of the Hawaiian Islands, and the Calvin Warners of Sunnybeach Boulevard ended the evening with a Danish atmosphere.

Guests were Mr. and Mrs. Ernest Mallory and the Robert Krauds.

Mothball Center for Yarn Balls

Place a couple of mothballs in the wrapper that came around a hank of yarn and make a ball of it. Use as the core for winding the hank of yarn.

The mothballs keep moths out of the yarn. When you use up the yarn and need more, the wrapper will tell you the correct brand and color to go by.

Junior Editors Quiz on PONIES

SHETLAND PONY
WELSH PONIES
LITTLE HORSES WHO FOUND HOMES IN AMERICA

QUESTION: What is the history of the Welsh pony?

ANSWER: A pony is any horse under 14 hands high at the shoulder, or less than 58 inches. Only a few of the various breeds of horses are ponies. When the Romans took over Britain in 43 A.D., they found the natives using little horses.

Later, other horses were brought in, and much larger English strains developed. But several of the original little breeds remained. From them came the ponies of today.

There is the Shetland pony, coming from the rugged Shetland Islands, where their small size helped them to get along on the small amount of forage available.

Then there is the Welsh pony. The Welsh people were never conquered by the Romans, but retreated to wild mountains, taking their little horses with them. These are the same Welsh ponies (with a trace of Arabian blood added) which are so popular everywhere today. Standing about 12-13 hands high, they are ideal for children to ride, being both gentle and intelligent.

The smaller Welsh mountain pony is about right for youngsters in the 6-10 year old group. Beside the Shetland and Welsh pony breeds, there are several others which come from England, such as the Connemara, Exmoor and Fell.

FOR YOU TO DO: Color the picture. The ponies can be white, brown, red or black.

Government Rent Supplements for Low-Income Families Near

WASHINGTON (AP) — The tenants in housing owned by government soon will send out the first checks to help some low-income families live in housing they couldn't otherwise afford.

Most likely recipients will be some families in the northeast Harlem area of New York City, a Puerto Rican neighborhood.

Six months after Congress provided the first funds for the controversial program, the U.S. Department of Housing and Urban Development has signed contracts for just two projects.

The department has made fund reservations for about 115 projects in 100 cities to provide 15,000 housing units.

'RAIN-FREE ROOF'
That would use most of the initial \$12 million Congress provided last May so that, as President Johnson put it, some families "can now give their children a rain-free roof and a rat-proof bedroom."

A bill signed in September by Johnson provided \$20 million more. A Housing Department spokesman said "we now have in the pipeline" requests for fund reservations for \$15 million in projects to provide about 20,000 units.

"We've used up about all (the money) we have right now," the spokesman said.

The rent supplements will go

Market Irregular

NEW YORK (AP)—A rebound by glamor stocks and advances by rails, airlines and selected issues featured an irregularly higher stock market early this afternoon. Trading was moderately active.

Electronics, tobacco and drugs also were generally higher but the trend was to the downside among stocks, nonferrous metals and motors.

It was a tricky market, said analysts, because there was considerable consolidation needed after the strong, October recovery.

Du Pont dropped more than 3 points, erasing its gain of yesterday and affecting market averages.

The Dow Jones industrial average, which was dampened by some key stocks selling ex-dividend, was off 50 at noon and 86.57 but other averages were slightly higher.

The Associated Press average of 60 stocks at noon was up .6 at 295.5 with utilities up .6, rails up 1.5 and industrials up .4.

Prices were generally higher in moderate trading on the American Stock Exchange, up about 2 were Prentice-Hall and Solitron Devices.

Westinghouse Electric, faced with a strike, was a fractional loser.

Rails RISE
Despite published reports of new legal barriers impeding their merger, Pennsylvania Railroad rose 1 and New York Central more than that. Santa Fe was up about a point and the entire rail section improved, despite scattered fractional losses.

Glamor Stocks Make Rebound

NEW YORK (AP)—Following is a list of stock transactions on the New York Stock Exchange with noon prices:

AMP MARKET

The Dow Jones industrial average, which was dampened by some key stocks selling ex dividend, was off .50 at noon to 6.57 but other averages were slightly higher.

The Associated Press average of 60 stocks at noon was up .6 at 5.5 with industrials off .6, rails up 1.5 and utilities up .4.

★ ★ ★

The New York Stock Exchange index at noon also was higher.

NFL's Latest Franchise Going to New Orleans

Historic Southern City Becoming 16th Member of Pro Loop

NEW ORLEANS (AP)—The historic city becomes the 16th member of the National Football League today.

A news conference was scheduled for today to announce the awarding of the franchise to New Orleans.

NFL Commissioner Pete Rozelle—who will be the czar of the super-league when the National and American leagues complete their merger in 1970—quietly arrived in town late Monday night for the announcement session.

JOIN SESSION

Scheduled to join Rozelle for the session were Sen. Russell B. Long and Rep. Hale Boggs, Louisiana Democrats; Gov. John McKeithen; Mayor Victor Schiro; Lamar Hunt, owner of the AFL Kansas City Chiefs and probably several other club owners.

New Orleans will field a team in the NFL next season. The name, most frequently mentioned for the team is the New Orleans—or Louisiana—Saints, from the city's Dixie-land heritage. Today, incidentally, is All Saints Day.

However, it will be up to the owner of the franchise to select the team name. Rozelle said at a visit here last week that the NFL would study the applications for ownership after announcing the franchise city and decide on the owner within a few days.

Louis J. Roussel, a 44-year-old New Orleans street car motor-man as a teen-ager who himself has a fortune exceeding \$150-million, is the leading candidate and probable choice, The Associated Press learned.

Roussel, an oilman and banker, has close ties with Sen. Long.

It was Long, assistant majority leader of the Senate, and Boggs, his counterpart in the House, who steered legislation through the waning days of Congress last month to give the pro merger an exemption from anti-trust laws.

New Orleans has been seeking a pro franchise since 1960. The prime mover in the drive was David Dixon, who has promoted NFL exhibition games here for several years.

RIPE FOR FRANCHISE

Dixon once told The Associated Press he decided New Orleans was ripe for the pro sport after watching Tommy Mason, now a star with the Minnesota Vikings, pack fans into Tulane Stadium while playing for the university's team.

"Tulane didn't have a very good team and not much chance of winning," Dixon said. "But Tommy was an exciting player and he gave the fans their money's worth. One week Tulane drew 60,000 for Alabama, the next week 70,000 for Ole Miss."

Dixon came within a whisker a few years back of getting a franchise in the AFL for the city. He was ready to conclude a deal to move the Oakland franchise here, it was learned, but the negotiations fell through at the 11th hour and the Raiders remained in California.

FOOTBALL TALK—Michigan State athletic director Biggie Munn (left) and Notre Dame football coach Ara Parseghian talk football during a football luncheon in Chicago yesterday.

Munn, Irish For Key Horse Show Cup

Coach Swap Small Talk

CHICAGO (P)—Biggie Munn, Michigan State athletic director, extolled Monday the great friendship between his university and Notre Dame.

"Notre Dame befriended us when we needed it," said Biggie. "We are on Notre Dame's football schedule through 1970 and, I hope, for all time—at least as long as I am athletic director."

Coach Ara Parseghian of the Irish was listening.

"These athletic directors—like Biggie and our Moose Krause—have scheduled us for the 11th hour and the Raiders remained in California."

State Slates Ref Meetings

The Michigan High School Athletic Association is sponsoring 14 Lower Peninsula Basketball Rules Meetings for coaches and officials this week and next. All will start at 7:30 p.m. There are three meetings through Wednesday night, and the other 11 will be next week at various locations.

The closest meetings to Pontiac are at Port Huron and Ann Arbor high schools next Monday, Flint Central High School, next Tuesday and Ferndale High School, Wednesday Nov. 9.

SPORTS

Cards Regain Lead With 24-17 Victory

ST. LOUIS (AP)—Two mighty defensive units dominated Monday night's National Football League game between St. Louis and the Chicago Bears, and the difference was Larry Wilson, a 190-pound defensive safety for the Cardinals.

Wilson intercepted three passes, including one that he returned for a touchdown, as St. Louis moved back into first place in the Eastern Conference with a hard-fought 24-17 victory over the Bears.

St. Louis regained the lead in the Eastern Conference as a result of the victory. The Cardinals are 6-1-1, just ahead of Dallas, 5-1-1. Chicago, a member of the Western Conference, is 3-4.

FAST MARGIN

John Roland bullied over from

the three for two first-quarter touchdowns to give St. Louis a quick two-touchdown margin. Captain Rudy Bukich's sneak and his 80-yard pass play to Gale Sayers enabled Chicago to keep within a touchdown of the Cardinals.

Wilson intercepted three passes, including one that he returned for a touchdown, as St. Louis moved back into first place in the Eastern Conference with a hard-fought 24-17 victory over the Bears.

Wilson said quietly in the dressing room after the game and had little to say about his performance. However, his coach, Charley Winner, did the talking.

"He's played great football all year," Winner said. "I don't think he's capable of playing a bad game."

"You can tell how much Lar-

ry means to the team when the touchdowns in their team six games, collected 39 first-

Wilson's first pass interception came in the first period after the Cardinals moved to a 7-0 lead on Roland's three-yard scoring dash around right end. On the first play after the kick-off, Wilson snatched a Bukich pass at the Bear's 35 and returned it 17 yards.

In the fourth quarter, Wilson intercepted a Bukich pass at the Bears' 29 and dashed into the end zone for a touchdown that gave St. Louis a 24-10 lead.

However, Wilson wasn't through. With 2:50 remaining in the game and the gap closed 24-17, he intercepted another Bukich pass, this one on the Cardinals' 14.

NULLIFIED TD

Bukich also had an 80-yard touchdown pass to end Dick Gordon nullified in the fourth period by a holding penalty.

Plan Would Produce Top 11 in Nation

EAST LANSING (AP)

A post-season college football playoff, proposed Monday by Michigan State Coach Duffy Daugherty, received preliminary approval today from Walter Byers, executive secretary of the National Collegiate Athletic Association (NCAA).

Daugherty's proposal "called for elimination of the traditional New Year's Day bowl games in favor of an eight-team playoff between the champions of six major college conferences and two leading independents."

"I don't see any reason why college football cannot follow the same national collegiate playoff pattern as all other intercollegiate sports enjoy," said Byers, spokesman for the ruling body of intercollegiate athletics.

"This means, of course, that the playoff arrangement in football would have to conform to the same basic requirements as national collegiate (NCAA) championships in other sports," he added, saying:

"In addition, it would be critical that the very legitimate interests of the traditional friends of intercollegiate football, who through the years have conducted the various bowl games, would be adequately protected. All this could be accomplished in the best interests of all parties concerned."

INCLUDES ALL CHAMPS

Byers did not elaborate, but his statement issued in Kansas City implied a playoff which would include games at the various bowl stadiums and possible inclusion of additional conference champions.

Daugherty said his plan, which he said had the approval of some fellow coaches and Notre Dame, would call for a playoff among the Big Ten, the Big Eight, Southeastern, Southwestern, Pacific Coast and Atlantic Coast conferences, plus two at-large teams.

His main points were that it would provide—once and for all—an undisputed national collegiate football champion among major colleges and would produce a financial bonanza for NCAA members from television receipts.

The plan is not new. Bud Wilkinson, the former Oklahoma coach, has played for such a playoff as have others. "The television revenue from an NCAA playoff would be tremendous," said Daugherty. "I would cut in at 120 NCAA member schools on the television receipts—let each school do with the money what it wants. It would bring each school in the NCAA at least \$20,000."

Stofa, who played his collegiate football with Indiana, was with Lakeland of the North American Football League where he threw 27 touchdown passes in seven games.

Nebraska Climbing in Football Poll

By the Associated Press Nebraska's convincing 35-0 victory over Missouri enabled the unbeaten Cornhuskers to move into sixth place in the Associated Press major-college football poll today.

Georgia Tech and Arkansas also gained ground while Notre Dame maintained a solid first-place margin over runner-up Michigan State.

Southern California, upset by Miami of Florida, tumbled four places to ninth, and Tennessee climbed into the Top Ten, replacing Wyoming.

place votes and 475 points in the latest balloting by a national panel of 49 sports writers and broadcasters. The Irish trampled Navy 31-7 last Saturday.

Michigan State held the No. 2 position with 427 points, including 60 for six first-place votes. The Spartans blanked Northwestern 22-0 for their seventh victory without a defeat.

UCLA and Alabama held third and fourth places, respectively, the Bruins with 366 points and the Tide with 348. Points were awarded on a basis of 10 for a first-place vote, 9 for second place, and so on.

UCLA downed the Air Force 38-13 and Alabama defeated Mississippi State 27-14.

The Top Ten, with first-place votes in parentheses, season records and total points on a 10-0-0-0-0-0 basis:

1. Notre Dame (9) 10-0-0-0-0-0 415
2. Michigan State (8) 10-0-0-0-0-0 427
3. Georgia Tech (11) 9-0-0-0-0-0 366
4. Arkansas (10) 9-0-0-0-0-0 348
5. Southern California (10) 9-0-0-0-0-0 366
6. Florida (10) 9-0-0-0-0-0 366
7. Tennessee (10) 9-0-0-0-0-0 366
8. Alabama (10) 9-0-0-0-0-0 366
9. Miami of Florida (10) 9-0-0-0-0-0 366
10. Wyoming (10) 9-0-0-0-0-0 366

OSAA receiving votes, listed alphabetically: Arkansas, Georgia Tech, Alabama, Florida, Mississippi, Purdue, Southern Methodist, Syracuse, Wyoming.

Jets' Namath Seeing Other Side of Coin

NEW YORK (AP)—Joe Namath, who has a 10-inch thick llama rug in his living room and 18 karat gold fixtures in his ears, has the sound of several thousand boos in his ears.

The darling of "New York's football fans" who collected the rug and the fixtures with his 18-garage tour of Japan, collected the rug and the fixtures with his 18-garage tour of Japan.

And so Namath, who collected the rug and the fixtures with his 18-garage tour of Japan, collected the rug and the fixtures with his 18-garage tour of Japan.

"Yeah, that's the first time they booed me at home," Namath said as he slouched in front of his cubicle in the dressing room after the game.

"Why make so much out of it? My father used to boo me every time I came home. It's not going to depress me."

Battle Creek Remains Atop Prep Poll

Arrows Think of Post-Season

**Judge Cools
Bronco Fan's
Enthusiasm**

DENVER, Colo. (AP) — A Denver Broncos football fan, Harvey E. Thompson, 37, was fined \$50 Monday for throwing ice cubes at the Kansas City Chiefs during their 34-10 victory over Denver Oct. 23.

"You can't let your enthusiasm get away with you," County Judge George Manerbio said in fining Thompson, a hotel bartender.

Thompson said he became upset when three Kansas City players piled on Bronco linebacker John Bramlett.

Presently, Madison, Wis., and Waukegan, Ill., have won their respective Northern and Southern divisions of the CFL, and they will face each other Saturday.

A contract is due Wednesday from the Central State's Conference against the CFL Saturday Nov. 12 in the city of the CFL winner.

The Arrows will also be host to the annual Midwest Football League all-star game.

The game is set for Sunday, Nov. 20 but if the contract from the CFL does not arrive, Abel then noted that the All-Star game would be played at Winger Stadium, Sunday Nov. 13th.

The MFL All-League teams will be announced this week and all of the players chosen, except the Pontiac players, would be invited to meet the Arrows in the All-Star game.

TRACY TO COACH

Tom Tracy, coach of the runner-up Ypsilanti Vikings, was chosen to coach the All-Stars with Flint's Bob Suci and Dayton's Ed McCracken as his assistants.

Last year, on a cold bitter evening, the Arrows as MFL champions played and defeated the All-Stars 7-6.

Pontiac is in trouble at this point for a place kicker. Ed McQueen who was injured in the game at Dayton two weeks ago, missed the Lansing game won by the Arrows 30-13.

The Rouge team is in its first year in the league and has failed to win in eight starts. Pontiac should be a heavy favorite to whip the Steelers and finish with an 8-0-1 regular season mark.

**2 New Coaches
Joining Phillies'
Staff for 1967**

PHILADELPHIA (AP) — A shake-up of the Philadelphia Phillies' coaching staff will bring Andy Seminick back to Connie Mack Stadium where as a catcher he helped boost the 1950 Whiz Kids to a National League pennant.

Veteran minor league manager Larry Shepard will also join the Phils as a new coach, according to General Manager John Quinn, who announced the changes Monday.

Quinn said that George Myatt, back for his fourth season, will be the only member of the 1966 coaching staff around next season.

Leaving are Peanuts Lowrey, 48, who will enter private business; Cal McLish, 40, who will scout major league teams for the Phils, and Bob Oldis, 37, who will scout for the Phils in the Midwest.

Auto Firm Back on Track

CARMEL, Calif. (UPI) — Lincoln-Mercury division of Ford Motor Co., today announced its reentry into racing and said two of the nation's top race car drivers have gone over to the L-M side.

Paul F. Lorenz, Ford vice president and general manager of the Lincoln-Mercury division, said Mercury would be back in active competition in 1967 after a two-year absence from all tracks except the drag strip.

He said a team of the company's new sport-car, the Mercury Cougar, would be entered in the Trans-Am American Sedan Championship series of road races, and that Mercury prototype sports cars would compete in the World Endurance Racing championships (timed by the 24-hour road race at Le Mans, France, next June).

In addition, he said, Dan Gurney, of Costa Mesa, Calif., would captain the Cougar team of drivers at Le Mans, and Parnelli Jones will be the lead driver in the sedan racing.

Gurney is the country's foremost international driving star and Jones is an Indianapolis 500 winner.

Lorenz made the announcement of Mercury's reentry into factory-backed racing to newsmen gathered at a three-day product evaluation conference and Cougar rally along California's famous Big Sur coastline.

CUERNAVACA, Mexico (AP) — Four young soccer players were killed and 25 others injured Monday when a bus taking them home from a game failed to make a curve on the Cuernavaca-Mexico City highway.

Antonio Medina, driver of the bus, was detained by police.

The athletes had taken part in a tournament in Oaxaca, State of Mexico, and were en route to their homes in the village of Emiliano Zapata in the state of Morelos.

The bus went into a canyon after it left the road.

The dead youths ranged in age from 18 to 25.

Eight Tickets Selling

HOUSTON (AP) — Earl Gilliam, the Texas boxing Enterprises promoter, said Monday that boxing fans have bought \$225,000 worth of tickets for the Nov. 14 Cassius Clay-Cleveland Williams world title heavy-weight fight in the Astrodome and prospects for a million dollar gate remain good.

Entry Deadline Nearing for Boys' Ice Tourney

Dondero Grabs Third Position

Sunday is the deadline for entering teams in the third annual Thanksgiving Holiday Hockey Tournament at Gordie Howe Hockeyland, St. Clair Shores.

The tournament is open to 48 teams of boys 4-14 years old in Michigan and Ontario with entries being on a first-come, first-served basis. There will be four days of action.

All age bracket teams through the bantam level are eligible. This covers Mites (up to 8 years), Squirts (10-and-under), Pee Wee A and B (12-and-under) and the Bantam A and B (14-and-under).

The competition will be Michigan Amateur Hockey Association sanctioned but not affiliated with the Silver Stick Tournament.

An organizational meeting and tournament draw will be Sunday however.

DETROIT, third last week, took over second in Class A after beating Detroit Kettering 62-7. Royal Oak Dondero jumped from fifth to third after beating Monroe 13-7.

CLASS A

Team	Record	Class A	Poll Pts.
1. Battle Creek Central	(7-0)	10	19

In Pontiac Jamboree

Moore Paces '700' Keglers

Bowling proved a tonic Sunday and that was the entire purpose of the first 700 Club of Pontiac Jamboree at 300 Bowl.

Monroe Moore was the stand-out although he didn't feel up to joining the more than 80 bowlers

who bowled has a sanctioned one to his credit.

There were four divisions for the contestants and each chapter had at least one winner. The Flint 700 Club's Ron Reid led the lower bracket with a 567, and Mel McEwan paced the upper division with 591.

Ann Arbor's Max Martin had 636 in the middle bracket, while the ailing Moore's 731 led all the classic entries. "Mo" lost first game honors, though, to Pontiac's George Chichovsky who had a 254 to Moore's 236.

Ann Arbor, who will next fall's jamboree, took home the giant Jamboree Team Trophy with a 2282 by its four (one from each division) nominees: Martin, George Winchester, Chuck Kaenger and Ray Campbell.

Pontiac's crew posted 2228 to Flint's 2222. The bowlers and their wives enjoyed a buffet meal after the competition.

Admission is \$1.75 for adults and 50 cents for children. The show hours are 4 p.m.-midnight Friday, 1 p.m. to midnight Saturday and 1-10 p.m. Sunday. The show is at the Light Guard Armory on East Eight Mile in Detroit.

The film will be shown 12 times daily during the show.

The theater also will be the scene of a Ski Chalk Talk featuring Stevi Erikson, former Pine Knob ski school head and world renowned skier, and artist Frank Covino.

Their program will analyze and illustrate various maneuvers using live demonstrations and simultaneous drawings three times daily.

ACROBATICS

Art Furrer, skicrobat with clowning tendencies, is slated 8 p.m.

This is the first show of its kind and later performances are slated for Chicago and New York City. Tickets are 95¢, 45¢ and 25¢ (patrons' tickets \$25) and are tax deductible as contributions.

The benefit will include the New Christy Minstrels singing ski songs, the Dick Barrymore color ski film "The Lonely American," an appearance by U.S. Ski Team coach Bob Beattie plus surprise guest stars and ski personalities.

The show also will serve as a preview to the annual Michigan International Ski and Winter Sports Show Friday, Saturday and Sunday at the Light Guard Armory in Detroit.

More than 135 displays and exhibits, plus demonstrations and films will be offered at the Armory show on East Eight Mile.

Neely already had been adjudged the property of Houston in a case that went to the U.S. Supreme Court and Dallas has been awaiting a ruling from the trial court at Oklahoma City.

Now, said Erich Klein of Dallas, attorney for the Cowboys, he has filed a suit against Neely and the Oilers asking that the Dallas contract be ruled valid.

Klein explained that Dallas had not as yet been a party to the suit, that only Neely and Houston were involved, and "We want to find out who we stand."

N.Y., Wings Pace Scorers

NEW YORK (AP) — Detroit and New York have managed only three victories between them so far this season, but a look at the National Hockey League's scoring figures shows seven Red Wings and Rangers bunched among the top ten individual scorers.

Figures released by the NHL today show only Chicago's Stan Mikita and Bobby Hull and Montreal's Bobby Rousseau breaking the Detroit-New York dominance.

Florida Ace Wins AP Grid Award

By the Associated Press
Steve Spurrier's right arm still is Florida's most valuable football property, but the Gators are cashing in on his right foot too.

The Florida quarterback, who completed 27 passes against Auburn last Saturday before kicking a 40-yard field goal that gave the unbeaten Gators a 30-27 victory, was named The Associated Press' "Back of the Week" today for the second time this season.

Spurrier passed for 259 yards and a touchdown, ran for another score, punted five times for a 46-yard average and booted the winning field goal with two minutes to play.

BOWLING

Elva Vick of Johnson's Asphalt Paving recorded a strong 220-224-624 series Thursday to highlight the Huron Ladies Classic League activity.

Her teammate Laura Chenoweth had a 217-575 duo but lost individual runner-up honors to Marie Reynolds of Spartan Air Conditioning. Mrs. Reynolds posted 222-214-604 figures.

Another fine pair was the 212-562 of Fran Durso for The Vineyards.

The Paving team women had 920-938-2690 combined totals for the season high series.

League-Leading Patriots Pacing Ground Defense

NEW YORK (AP) — Now that Boston has taken over first place in the American Football League's Eastern Division, maybe Coach Mike Holovach ought to get his defensive linemen and defensive secondary together.

Figures released by the AFL today credit the Patriots with the league's top rushing defense. Boston has allowed a mere 64 yards per game. The passing defense is quite another story. The Pats are running last there with yield of 232.6 yards per game.

Winter Sports Show Whets Ski Appetites

The weather hasn't been appropriate but ski talk is creeping into conversation now and after this weekend the winter probably won't come soon enough for the devotees of the snow-covered slopes.

The annual Michigan International Ski and Winter Sports Show — one of the oldest in the country — will open 4 p.m. Friday with more than 135 displays and exhibits slated for viewing.

In addition, the film "The Cold Rush" by Dick Barrymore (prize winning ski photograph) will have its premiere in the "Nickelodeon" room. Admission will be five cents in the form of a donation to the U.S. Ski Team.

The film will be shown 12 times daily during the show.

The theater also will be the scene of a Ski Chalk Talk featuring Stevi Erikson, former Pine Knob ski school head and world renowned skier, and artist Frank Covino.

Their program will analyze and illustrate various maneuvers using live demonstrations and simultaneous drawings three times daily.

Cowboy 11 Files Suit in Battle to Keep Tackle

DALLAS, Tex. (AP) — The Dallas Cowboys filed suit Monday to have their fight in court in the case of Ralph Neely, the offensive tackle who signed contracts with both Houston of the American Football League and Dallas of the National Football League.

Neely already had been adjudged the property of Houston in a case that went to the U.S. Supreme Court and Dallas has been awaiting a ruling from the trial court at Oklahoma City.

Now, said Erich Klein of Dallas, attorney for the Cowboys, he has filed a suit against Neely and the Oilers asking that the Dallas contract be ruled valid.

Deaths in Pontiac Area

William F. Bluth

Service for William F. Bluth, 82, of 154 Cottage will be 1:30 p.m. Thursday at Donelson-Johns Funeral Home with burial in Perry Mount Park Cemetery.

Mr. Bluth, a retired employee of Pontiac Motor Division, died yesterday after a long illness. He was a member of First Methodist Church.

Surviving are a son, Fred B. of Bloomfield Hills; two daughters, Mrs. John S. Edstrom of Rochester and Mrs. Eleanor Ogden of Little Rock, Ark.; four grandchildren; eight great-grandchildren; and a sister.

Mrs. Mamie L. Dawson

Service for former Pontiac resident Mrs. Mamie L. Dawson, 72, of Columbus, Ohio, will be 11 a.m. Thursday at the Rutherford Funeral Home, Columbus.

Mrs. Dawson, a former member of Baldwin Avenue Evangelical United Brethren Church of Pontiac, died yesterday.

Surviving are a son, Galen of Waterford Township, and three daughters, Mrs. Phyllis Anderson of Sylvan Lake, Mrs. Sybil Rompl of Allen Park and Christine Dawson of Waterford Township.

Also surviving are a sister, a brother and four grandchildren.

William C. Lovejoy

Service for William C. Lovejoy, 47, of 89 State will be 11 a.m. Thursday from Allen's Funeral Home, Lake Orion, with burial there in East Lawn Cemetery.

Mr. Lovejoy, a self-employed landscaped gardener, died yesterday from injuries received in a traffic accident early Sunday morning. He was a former employee of GMC Truck & Coach Division.

Surviving are a sister, Mrs.

Charles F. Holloway

TROY — Former resident Charles F. Holloway, 58, of Fraser died this morning. His body is at Price Funeral Home.

Albert W. Reinke

OAKLAND TOWNSHIP — Service for Albert W. Reinke, 78, of 2911 Adams will be 11 a.m. Thursday at the Harold R. Davis Funeral Home, Auburn Heights. Burial will be in White Chapel Memorial Cemetery, Troy.

Mr. Reinke, a retired setup man with Ford Motor Co., died yesterday. He was a member of Chief Pontiac Post No. 377, American Legion.

Surviving are his wife, Ella; three daughters, Mrs. Elberta McCauley of Auburn Heights, Mrs. Anna Craddock of Pontiac Township and Mrs. Dorothy Morning of Lima, Ohio; a son, Jay W. of Livingston County; and 12 grandchildren.

Miss Susie E. Prior

MILFORD — Service for former resident Miss Susie E. Prior, 70, of Miami, Fla., will be 2 p.m. tomorrow at Richardson-Bird Funeral Home. Burial will be in Oak Grove Cemetery. Miss Prior died Sunday after a long illness.

A sister survives.

Everybody Jails Him

AMRITSAR, India (AP) — Mustaq Ahmed, appearing in court as a suspected illegal entrant from Pakistan, told the judge he is beginning to feel no one likes him.

Ahmed said he left his home and crossed over to Pakistan a year ago and was arrested. After three months in jail he was deported to India where he was jailed for two months, then deported to Pakistan. The Pakistanis arrested him and jailed him for three more months. On his second deportation from Pakistan he was arrested by Indian border police at Wagah.

The judge authorized bail while he considered the case.

State Hospital Bed Space Cut

Decrease Is in Line With Michigan Plans

The capacity of State Hospital officially was cut by another 38 beds today, giving the facility a bed census of 2,586. Dr. D. W. Martin, the hospital's medical superintendent, said the change is part of a systematic program to reduce state hospital capacities throughout Michigan.

During the last three years, Pontiac State Hospital's capacity has been decreased by about 400 beds, he said.

"As we have a more active treatment program, we are able to discharge patients at an even faster rate," Dr. Martin said.

He noted reductions also are aimed at bringing capacity in line with the fire marshal's standards.

The State Department of Mental Health, which authorized the capacity reduction effective today, announced a year ago it planned to decrease the bed census in all state hospitals by one-third within five years.

Corn Good for Insulation

WASHINGTON (AP) — Scientists have determined that one bushel of common yellow field corn can provide adequate insulation for the exterior walls of a 50-by-25-foot modern house.

First, starch would be extracted from the corn. The starch would be made into polyether by a process developed by U.S. Department of Agriculture scientists in 1963.

The polyether is used to make a lightweight foam that, when dry, is said to provide an excellent wall insulation in an inch-thick layer.

Fishing Can Run Both Hot, Cold

LOUISVILLE (AP) — Byron Watson went fishing and was sunburned and frosted in little more than 24 hours.

When he started, the sun boiled up into the 90s and at the end of the day Watson was squirming with a burned back. That night, he returned to the lake and fished all night.

The temperature dropped into the 20s and one of his fingers was frosted.

Ice Is Relief to His Grass on Torrid Days

AMARILLO, Tex. (AP) — Thurman A. Blake has ice on his lawn when the temperature is 95 degrees. He says it helps to keep his grass green. The delivery superintendent at the Amarillo Ice Company has been icing his lawn with batches of waste ice for several years.

Though the ice does wonders for the grass, Blake doesn't recommend it for everyone. The average sprinkling with ice selling for \$12 a ton would cost a customer about \$100.

"If I were using good ice," Blake said, "my wife would think I had flipped my lid."

Will Persist in Struggle Till End--Peking

HONG KONG (UPI) — Communist China, in a double-barreled warning to its enemies at home and abroad, said today it would press the current internal purge and carry on the struggle against the United States and Russia "to the very end."

Peking Radio, in a broadcast heard here, said Yao Wen-Yuen, an official in Mao Tse-tung's cultural revolution committee and editor of the Shanghai "Kuangming Daily," made the warning at a Peking mass rally last night.

The broadcast said more than 100,000 persons attended the rally held in commemoration of the 30th anniversary of the death of Chinese writer Lu Hsin.

Peking Radio broadcast Yao's lengthy speech early today.

Yao was quoted as saying that the current purge, aimed at eliminating all Western influences in China and internal opposition to Mao's regime, will not stop "halfway."

'TO THE VERY END'

At the same time, he promised that the "struggle against the imperialists, headed by the United States, and modern revisionists, headed by the Soviet Union, will be carried on to the very end."

He accused Russia of abandoning the teachings of Lenin, and "honey-mooning with U.S. imperialism."

Americans are buying color television sets at the rate of 20,000 a day and about 14 percent of the nation's homes are now equipped with color TV.

Yanks Destroy Cong Junk Fleet, but Reds Sink Minesweeper

SAIGON (UPI) — U.S. Navy river patrol boats destroyed a fleet of Viet Cong junk and sampans on the My Tho River but the Communists sank a Navy minesweeper with heavy losses today and fired on survivors and rescue vessels.

As the bitter river war heated up, U.S. infantrymen reported the Viet Cong hit and sank in the Long Tau River, 11 miles southeast of Saigon.

The Viet Cong poured heavy automatic fire on the wreckage and on other craft.

U.S. forces rushed in troops to the banks, sped in river patrol craft and called in planes. But the guerrillas slipped away.

Much of the mercury used in the United States comes from a mine at Almaden, Spain. This mine may have been operated as early as 400 B.C.

They killed two guerrillas and

2-Car Crash Hurts Waterford Woman

A Waterford Township woman is reported in satisfactory condition at Pontiac General Hospital following a two-car collision last night.

Judy Runyon, 21, of 587 Cambridge was injured, according to Pontiac police, when the car she was riding in collided with another at Elizabeth Lake and North Johnson about 10:40 p.m.

Mrs. James Craft, 21, of 375 Lamoth, driver of the car, sustained a serious injury, as did Effie M. Powell, 20, of 838 Stanley, driver of the second vehicle.

Fund in Honor of Consultant Speaker of Late Official for Exchange Club

Totals \$2,390

Members of the Oakland County Board of Supervisors, county to the Pontiac Exchange Club employees and friends have contributed \$2,390 to date to the John A. MacDonald Memorial Fund.

The fund, established last association, will speak on "Principles of the supervisors, has value Enterprise at the Cross—a two-fold purpose.

It will provide for a medal to be affixed to the new courthouse wing now under construction.

The building addition has been designated by the supervisors as the John A. MacDonald East Wing.

The fund also will establish a scholarship program at Oakland University for students living in Oakland County who are majoring in government.

SERVED 27 YEARS

Cost of the medal will be underwritten by contributions of supervisors and employees.

The scholarship fund will be established through contributions from friends of the late John A. MacDonald, who served 27 years as chairman of the County Social Welfare Board.

Contributions designated specifically for the memorial fund can be sent to the attention of Oakland County Treasurer James E. Seeterlin who was named by the supervisors as fund treasurer.

'No Ambulance on Medicare'

ESCANABA (UPI) — An ambulance operator said today he refused to take an elderly stroke victim to a hospital because of the difficulty in collecting fees under the federal Medicare program.

The patient, Mrs. Teckla Swanson, in her 60s, was reported in critical condition today.

Dr. Ray Hockstad said she suffered "a stroke of some kind." But he said the delay in getting her to the hospital probably did not worsen her condition.

Police drove Mrs. Swanson to the hospital late yesterday in a neighbor's station wagon after James Schwalbach, owner of City Ambulance Service here, refused the call when the patient had no money and he would have to collect through Medicare.

"A friend of Mrs. Swanson called, and told me she was coming to the hospital," Schwalbach said. "I asked if they had the cash. He (the friend) said no, they didn't have any money at all."

"I've been here six years and that's the first call like I've turned down," Schwalbach said. "I hate to turn down a call like that. But I've got a family to feed."

He explained that Medicare regulations require ambulance operators to obtain the patient's signature on a form and a note from a physician certifying the ambulance trip was necessary.

"If the patient isn't able to sign then, you've got to go back," he said. "Then you send it to Medicare. They pay 80 cent of it."

For welfare patients, he said, Medicare pays the other 20 percent, but to obtain it "you have to go through the same thing again" with forms from the patient and doctor.

MORE THAN ONCE

"Sometimes a patient gets transferred a couple of times," Schwalbach said. "I've got them all over the county now. I can't even find some of them."

"I've almost got to hire somebody just to do the paperwork, and it's really not worth it."

Schwalbach said he had taken several patients under the Medicare program and yet to finish the claim paperwork for any of them.

NO. 11410

STATE OF MICHIGAN: The Probate Court for the County of Oakland, in and for the City of Pontiac, do hereby certify that the within and foregoing is a true and correct copy of the original thereof as the same appears from the records of said court.

It is ordered that on November 1, 1966, at 11 a.m. in the Probate Court, Pontiac, Michigan, there be held the probate of the will of the late John A. MacDonald, deceased, of the County of Oakland, State of Michigan.

Publication and service shall be made as provided by Statute and Court Rule. Dated October 13, 1966.

Covering Rome Revelations, He Uncovers Liz's Nudity

By EARL WILSON

ROME-PARIS-LONDON—On this World Beat that I zoom around in, I'm always uncovering huge exclusives such as, for example, the shocking fact that when Liz Taylor does nude scenes as "Reflections in a Golden Eye" with Marlon Brando and Robert Ross in Rome, she won't really be nude.

"She'll look nude but wearing leotards and flesh-colored soufies," her secretary, Dick Hanley, told me. He had yawned up to me on the steps of the Excelsior.

Richard Burton passed on the word that Liz was on a cooking spree.

"And if she doesn't get off it, we're going to lose all our kitchen help!"

In Rome I met a beautiful American model and actress from St. Louis and Hollywood, Mary Arden, who was in "Blood and Black Lace" and just finished the lead in "A... As In Assassin" . . . in London Jacqueline Susann and Irving Mandel were headlined; they were there huckstering "Valley of the Dolls" . . . George Raft was back there hosting the Colony gambling casino . . . there'd been rumors that he was leaving, but he swore to me he wasn't, and his word was good, as it always has been.

Sean Connery looked back in a chair at Pinewood Studios, London, and said he'd fly to New York for a week to set up the play, "The Secret of the World" (about a Communist) which he intends to direct on Broadway, and told me proudly that his wife Diana Ciento is finishing a novel, "The Manipulator," which will make a good movie. Maybe he can act in it.

THE MIDNIGHT EARL

Kim Novak sent an "old" cable note to Richards' Army-Navy store (in Times Sq.) with orders to make it a lining for an inexpensive peacock. **Alana Sherman** hassled with the Basin St. E boss over how long he'd stay on stage—and quit the show . . . **Dorothy Strain** wore a fortune in gems at Sherry's—and a \$19 evening gown made of paper.

Buddy Rich, leading his band at the Paramus Steak Pit, carried a TV set onstage, so he could watch himself on the Tony Bennett show . . . **the Jean Paul Viganes** (a new Bridget Bar-leu) expect their first in May . . . There's a cast change in "Holly Golightly," with **Merryn Vye** joining the show.

Weeks Of Back Pain Now Relieved

"After weeks of pain in my back and hips, I tried DeWitt's Pills—got instant relief," says Mrs. R. Gardner, Waterloo, Iowa.

DeWitt's Pills act fast with a proven analgesic to relieve pain of backache. Their mild diuretic action helps eliminate retained fluids and flush out irritating bladder wastes. If pain persists, see your doctor. DeWitt's Pills often succeed where others fail, relieve minor muscle aches, too. Insist on the genuine DeWitt's Pills. At all drug counters.

Election II — Atty. Gen. By The Associated Press

The little-known candidate struggles for recognition against the apparently popular incumbent.

And while he tries to familiarize the public with his name, the incumbent makes news almost at will through the activities of his key state office.

And to top it all off, polls show that the incumbent with a margin political observers consider almost too comfortable.

Democratic challenger Zolton Ferency versus Gov. George Romney?

No. Republican challenger Lawrence Lindemer versus Atty. Gen. Frank Kelley.

In the race to head Michigan's largest law firm, the big issue this year is crime.

POINTS TO REMEMBER

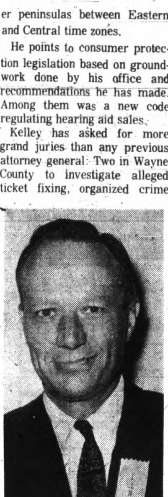

Kelley points to the record four grand juries he has asked for and been granted in the past 14 months as evidence of a strong, vigorous campaign against organized crime.

Lindemer uses the same evidence in his attempt to show Kelley's fight against crime increased in intensity in inverse ratio to the length of the time left before the election.

The attorney general is the chief law enforcement officer of the state. Heading a staff of some 85 lawyers he also serves as the primary and official legal adviser to state officials and county prosecutors.

Romney, the Legislature and State Department must turn to Kelley for interpretations of their powers, duties and rulings on the meaning and effect of new state laws.

Kelley, seeking his third elected term, has made use of the built-in public forum his office provides. His most recent pronouncements included recommended legislation aimed at ending the mounting death and accident toll involving motorists and an announcement that he will fight to keep the federal government from splitting Michigan's Tipper and Lower

LAWRENCE LINDEMER

peninsulas between Eastern and Central time zones.

He points to consumer protection legislation based on ground work done by his office and recommendations he has made.

Among them was a new code regulating hearing aid sales.

Kelley has asked for more grand juries than any previous attorney general: Two in Wayne County to investigate alleged ticket fixing, organized crime

one in Oakland to investigate horse racing and one in Kent to inspect and unlicensed slaughterhouses was reaching the consumer.

The 41-year-old former Detroit lawyer who went to Alpena in 1954 to become a "bigger fish in a smaller pond," frequently smiles with pride to another record he has set since becoming the largest fish in the Michigan legal community.

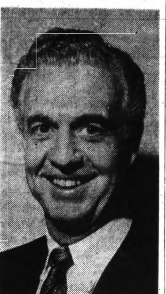

Only one of the 575 opinions he has handed down since he was appointed in 1961 has been overturned in court.

EVERY FIELD

Kelley's activities extend into virtually every field of Michigan, and Midwest, life. These include the St. Lawrence Seaway, Great Lakes water diversion and pollution and even the 1835 "Toledo War," which still smolders in a Michigan-Ohio boundary dispute in Lake Erie.

Kelley serves as first vice president of the National Association of Attorneys General, and is due for the presidency next year.

He won his first election, in
