

Pentagon Study Urges Drafting of Younger Men First

WASHINGTON (AP) — A long-awaited Defense Department study concluded today that the draft should be redesigned to induct the youngest eligible men first and not men nearest 26 — "Those who are the most settled in their careers."

The change would shift the

emphasis to the 18-20 age bracket.

"Combat commanders prefer the younger age group," the study said, "and about eight of 10 volunteers are in the age group under 26."

The study, presented to the House Armed Services Committee by Asst. Secretary of De-

fense Thomas D. Morris, made these other principal points:

- The United States cannot look forward to discontinuing the draft in the next decade unless changing world conditions reduce needs substantially below the force levels required since Korea.
- An all-volunteer force cannot

be justified because it would cost anywhere between \$4 billion and \$17 billion to increase military pay enough to attract the volunteers needed even for a pre-Viet Nam force of 2.7 million. More than three million are in service now.

- The present deferment system is "basically sound."

Morris, in charge of manpower for the Defense Department, testified as the committee wound up its hearings into the operations of the Selective Service System.

The Pentagon study was ordered by President Johnson two years ago but had not been made public, despite some grumbling from Congress.

Morris told the committee the report indicates that volunteer service should continue to be emphasized and civilians should replace military men wherever possible.

In addition, he said, the nation should "perfect techniques of remedial training and physical rehabilitation."

Turning to what he described as the "most undesirable feature" of the present draft selection — the drafting of older men — Morris said the induction of younger men would cause less disruption of school plans "since it would permit men to fulfill their obligation after high school and before college" if they prefer.

U. S. Bombers Hit Hanoi Area 2nd Day in Row

SAIGON, South Viet Nam (AP)—American bombers attacked Communist fuel depots in the vicinity of Hanoi for the second straight day today, the U.S. command announced.

Both Navy and Air Force planes participated in the raids, which hit fuel dumps around the capital of Communist North Viet Nam.

Chevy to Add Sports Model

By HARRY J. REED
Managing Editor,
The Pontiac Press

Chevrolet will add a new line of "personal-size" cars this fall, named Camaro.

Division General Manager E. M. Estes made the announcement yesterday, saying the addition will be in the fast growing personal sports-type market pioneered by Chevrolet's Corvette in 1963.

ESTES continued the policy of naming Chevrolet lines with a C. Reports have been widespread in the auto industry for months that Chevrolet was coming out with a new sports car to battle the Mustang, which has bolstered Ford sales.

Most of the details of the new car were withheld pending the official preview and sales date of Sept. 28. Estes did say that it would be a front-engine auto, and termed it a "four-passenger package of excitement."

It will be offered in both a convertible and a coupe, and Chevy has earmarked 12 per cent of its production, or 1,350 units a week for it.

COMPETITIVE PRICES

It will have a 108-inch wheelbase, and would be competitive with other sport car prices, Estes said.

Explaining the name, Estes said, "In French, it means 'comrade' or 'pal.' Thus, it suggests the real mission of our new automobile: to be a close companion of its owner."

Other Chevrolet models are the Corvair, Chevy II, Chevelle and Corvette.

Car-Train Crash Kills Family

A Lapeer Township family of six, including a pregnant mother, died in a car-train accident yesterday about three miles east of Lapeer.

Killed in the accident, which occurred about 5:15 p.m., were Donald E. Johnston, 28; his wife, Margaret, 23; and their four children — Donald Jr., 5; Mary Jo, 4; Tracy E., 2; and Richard, 1.

They lived at 2737 Peppermill, Lapeer Township.

Lapeer County Sheriff Kenneth Parks said the family apparently was on its way home after grocery shopping in Lapeer when the collision occurred east of town at a Grand Trunk Western dirt-road crossing on Wilder.

France to Lose U. S. N-Arms

Yanks: NATO Pullout Cancels Agreement

PARIS (UPI) — The United States told France today it is withdrawing the nuclear warheads with which French rockets are equipped because of President Charles de Gaulle's walk-out from the North Atlantic Treaty Organization (NATO) military command.

A memo delivered to the Foreign Office by U.S. Ambassador Charles E. Bohlen said that, as a result of the NATO pullout, the bilateral agreements governing control of the warheads no longer apply, and the United States is withdrawing them.

France formally leaves NATO tomorrow.

Informed sources said the communication handed by Bohlen to Herve Alphand was a reaffirmation of an earlier note of April 12.

That note warned the French that the "two-key" system now governing the nuclear warheads would no longer apply if France left NATO.

Under the system, the warheads can only be fired after both a French and an American officer have each turned a key to activate them.

French troops in West Germany are equipped with Honest John missiles which will now become virtually useless.

American sources said the warheads would now revert solely to U.S. control.

The U.S. decision was one of several related developments on the eve of France's formal withdrawal.

He said groceries were scattered along the track where the auto wreckage had been tumbled.

Parks said the car apparently was moving across the tracks

when the freight struck it. He said the car may have been trying to beat the train across the intersection.

The impact of the train ripped the car in two, carrying the

front portion about 60 feet down the tracks, according to sheriff's deputies.

The freight train was en route from Battle Creek to Port Huron. The engineer was Clarence William Kilgore of Bellevue.

All members of the family except two were dead at the scene.

Tracy and Richard were taken to Lapeer County General Hospital and Hurley Hospital in Flint where they died a short time later.

Johnston, who has apparently lived in the area most of his life, was employed at the Corey and Hartwick Construction Co. in Hadley.

The family had reportedly lived for a while in Iowa until they moved to their present address about a year ago. The mother was eight months pregnant.

The bodies are at the Reigel Funeral Home in Flint.

WHERE FAMILY DIED—Six members of the Donald E. Johnston family of 2737 Peppermill, Lapeer Township, were killed here yesterday when their car was sheared in half by a freight train on Wilder, east of Lapeer, at a Grand Trunk Western dirt-road crossing. The accident occurred about 5:15 p.m.

Irons: Must Turn Attention to Drivers Closer to Home

Pontiac area motorists should exercise special care in driving over the July 4 holiday weekend, especially if they're not going far from home, according to traffic experts and police.

Citing statistics from the Memorial Day weekend during which 40 persons were killed throughout the state, a spokesman for the Automobile Club of Michigan said all but six of the victims died within 25 miles of their homes.

"We have concentrated on drivers making the long trips on major highways," commented Oakland County Sheriff Frank W. Irons.

"Maybe we were wrong. It is evident we must turn our attention closer to home."

The Auto Club analysis of the Memorial Day weekend showed that the drivers killed in accidents had an average of 6.1 moving violations and were involved in mishaps driving on roads or streets familiar to them.

'DEFINITELY DRINKING'

In addition, according to the survey, 10 of the motorists had "definitely been drinking" while 17 others were cited as having possibly been drinking.

Irons, pointing to the cutback in road deaths in the county this year (67 through today, compared to 78 last year), asked for continued cooperation from drivers in avoiding a tragic holiday.

"We can enforce the laws 24 hours a day," he said, "but it won't do any good unless motorists drive with caution and common sense."

As part of the holiday campaign,

the Michigan State Safety Commission urges motorists to drive with headlights on even during daylight hours starting tomorrow and continuing through noon Tuesday.

Other driver recommendations from the commission include a check on tires, brakes, and other equipment; keeping a pair of sunglasses handy, and wearing seat belts.

Readying themselves for the (Continued on Page 2, Col. 1)

Get Ready to Sizzle in the Sun

TODAY'S TEMPERATURES			
4 a.m.	72	10 a.m.	85
6 a.m.	69	noon	89
8 a.m.	76	2 p.m.	91

Sunbathers sitting in the sun will sizzle and sizzle in searing temperatures another two days.

Following a brief respite from last week's hot weather, the U.S. Weather Bureau says we're in for more 90-degree temperatures at least through Saturday.

The bureau shows little pity on area residents as it forecasts highs of 90 to 95 tomorrow, and sunny and continued hot Saturday.

Lows are expected to register a warm 64 to 70 tonight.

Today's east to southeast winds at 5 to 12 miles will become mostly southwest Friday.

L'I L ONES

"Well, that's one myth destroyed. Everybody doesn't love a clown."

CENTER OF ATTENTION—The Viet Nam news agency broadcast this picture from Hanoi today, claiming it shows captured U.S. Air Force pilot Murphy N. Jones during an improvised press conference in Hanoi. Jones was shot down during raids over Hanoi yesterday. (See story, page A-7.)

Iraq Apparently Crushes Pro-Nasser Coup Attempt

BEIRUT, Lebanon (UPI) — The Iraqi government today apparently crushed a pro-Nasserite coup attempt led by former Iraqi Premier Aref Abdul Razzak.

Baghdad radio earlier broadcast announcements by Razzak's "revolutionary council" which he tried to set up to run the country and restore Iraq's former close relations with the United Arab Republic.

Later broadcasts said president Abdel Rahman Arif would shortly broadcast to the nation in his capacity as chief executive and commander-in-chief of the armed forces. This indicated he was still in control.

The coup leaders had announced their move against the president "to save the country."

Razzak, supported by certain army units, entered Iraq from Syria.

Razzak was the army brigadier who fled to Egypt in an air force plane earlier this year after his attempted coup was quashed by Arif, then head of the Iraqi army.

Arif's brother, Abdel Salam Arif, was president at the time

but out of the country. He subsequently was killed in a plane crash and was succeeded by his brother.

ABDEL RAHMAN ARIF

Deadline for Primary Vote Nears

Pontiac area residents are reminded that Tuesday is the final day for registering for the Aug. 2 primary election at village, township and city clerk's offices.

Citizens who are 21 or older and who have not voted or registered in the last two years must do so to be eligible to cast ballots next month.

Persons who have recently moved from one governmental unit to another must also register in their new place of residence.

Persons who have moved to a new address in the same city, township or village should notify their clerk's office to be sure they are registered in the correct precinct.

Workable Plan Status Unclear

Letter Hints Program Application Rejected

Recertification of Pontiac's 1966 Workable Program for Community Improvement by the Urban Renewal Administration was uncertain today.

The question arose as a result of letter received by local officials of the National Association for the Advancement of Colored People (NAACP) that indicated the application had been rejected.

Meantime, city officials said that they have received no communication from the regional office of the Housing and Urban Development (HUD) department in Chicago that the plan had been turned down.

Recertification of the workable program required annually for the city to receive federal funds.

The letter, written by Herman J. Wharton, acting commissioner for the Urban Renewal Administration in Washington, said that HUD is recommending refusal for recertification because there is no evidence of adequate minority group representation on the city's Citizens Advisory Committee.

MAKE DEMAND

The NAACP is one of two groups that demanded the workable program be held up because the city had not complied with HUD regulations. The other is the Progressive Action Committee for Political Equality.

Wharton said that he will ask HUD officials to meet with NAACP officers to continue its investigation into the city's ordinance prohibiting public housing.

Sheriff Warns Area Drivers

(Continued From Page One)

weekend along with the sheriff department's uniformed division are the county's water deputies, who patrol area lakes.

Their efforts are also likely to be crucial to a safe holiday, as evidenced by the fact that more persons drowned last weekend throughout the state than lost their lives in traffic accidents.

Heavy Rains Postpone Lunar Satellite Launch

CAPE KENNEDY, Fla. (AP) — Heavy rains from a tropical disturbance today forced the space agency to postpone an attempt to launch a Lunar Explorer satellite toward an orbit around the moon to investigate radiation and other potential dangers to astronauts.

The launching tentatively was rescheduled for 11:02 a.m. EST Friday.

Man Killed by Train

ROYAL OK (AP) — A Grand Trunk Western commuter train yesterday struck and killed Howard Book, 65, of Royal OK at a grade crossing. Police said the train crew reported Book crawled from a field onto the tracks.

Motor Scooter, Auto Collide; Youth Is 'Critical'

A Waterford Township youth is in critical condition at St. Joseph Mercy Hospital today after his motor scooter collided with an automobile last evening.

Ronald J. Turcasi, 15, of 6259 Elizabeth Lake suffered head injuries in the accident, which occurred about 4:30 p.m. at the intersection of M24 and Waldon in Oakton Township.

Oakland County Sheriff's Deputy William Nolin said the driver of the car, Karen A. Maulding, 18, of 350 Waldon failed to yield the right of way as Turcasi crossed a left turn at the intersection.

Miss Maulding and a passenger in her car were uninjured.

Happiest Years Are Now for Ike, Mamie

DWIGHT EISENHOWER MAMIE EISENHOWER

GETTYSBURG, Pa. (AP) — Ike and Mamie Eisenhower, looking back over 50 years of married life, have decided "these last years" are the happiest.

For former President Dwight D. Eisenhower, it's because he has more time for such things as exploring supermarkets or painting "anything that intrigues me."

For his wife, the former Mamie Geneva Doud, it's because she has a home of her own for the first time since she married a young Army lieutenant in the parlor of her mother's red brick house in Denver July 1, 1916.

In a rare joint interview, the famous couple reviewed their lives together.

'NO SLAVE'

Eisenhower said he didn't want anyone to think he was a "downtrodden slave" in the White House. He considered the eight years — the longest they ever lived in one place — a

'Pseudoscientific' Breeding Tied to Dog Deformities

By Science Service

LONDON — Deformed dogs have resulted from "pseudoscientific practices" in breeding, a British veterinarian said here.

Dr. Michael Young, president of the British Small Animal Veterinary Association, said he hoped that those responsible for the breeding of cats and dogs would note some of the farcical results produced in the past.

"In some cases they have produced offspring destined to live out their life with congenital deformities which are a disgrace to the human race — which has defied the laws of nature to produce them."

"The nose of the bulldog has been so shortened that they have difficulty in breathing," Dr. Young said. "Some die in hot weather through simple lack of oxygen."

very thrilling, very exciting, very humbling experience."

At the interview they had gaiety about them — Ike at 75 and Mamie at 68. They looked younger than their years. As grandparents, they expressed optimism about the youth of America.

Eisenhower said he believed the good, finely educated, understanding youngsters would "take over from the cockeyed looks," whose exhibitionist antics "make us look terrible."

Sitting in leather arm chairs in his office on the campus of Gettysburg College, the Eisenhowers took note of the milestone in their lives.

OFFER ADVICE

They had a bit of advice amid the nostalgia.

Discussing moral standards, Ike pointed to the lesson of the fall of a Roman civilization which he said had disappeared "when licentiousness became habit."

Asked whether he thought Victorian morals should be revived, the former president said, "I don't think the Victorian was really an ideal age." He said he liked the present "more independent style of thinking" because "we are more frank."

Mamie had a word for brides. "Times haven't changed," she said, since she was 19 and took her marriage vows with a West Point graduate of 25. "Marriage is something you really have to work at — it just doesn't happen."

Ike acknowledged that marital bickering is a constant factor but "the older you grow, the less important" the quarrels are. "The first difficulty you ever had you thought your wife didn't love you and wanted to take off and go to Argentina, but now it's matter of fact. I think differences of opinion disappear very quickly."

But, Mamie commented, Ike "doesn't argue, he just walks out."

CELEBRATE FRIDAY

At the home of their son, John, in Phoenixville, Pa., members of the family — as many as can make it — will gather Friday to celebrate the golden anniversary.

The milestone also will be noted throughout the world. Many governors have proclaimed "Eisenhower Golden Wedding Day."

Mrs. Eisenhower's greatest wish on their anniversary is "Just to keep him (Ike) well — and myself, too."

There is a nationwide drive to mark the Eisenhowers' golden anniversary with donations toward a "living monument" — Eisenhower College. It is a new, liberal arts college at Seneca Falls, N.Y., with the first class of 300 freshmen to start in the fall of 1967.

Eisenhower had some sympathetic words for the generation of his grandson, David, 18. Their generation he said, "is the finest we've ever produced, certainly the best educated, and it is more mature and certainly more intellectually active in what's going on around us."

The general cited the "great tragedy" when his first son, Doud Dwight Eisenhower, died of scarlet fever when just a little more than 3 years old.

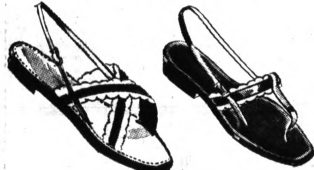

One of the saddest things he said he ever had to do was send troops to Little Rock, Ark., in 1957 "to see that the governor did not violate orders of the federal government."

"One of the toughest moments," he said, "was that of urging and arguing that France and Britain and Israel should not attack Egypt."

The Fifth Rose. You don't see it. You drink it.

The Fifth Rose is what we call our new taste. This new taste makes Four Roses one of those rarest of things: a whiskey that actually tastes good. Not just smooth, and not bland. But good. And if that's not enough for you, this whiskey has another thing going for it: it holds its own in a mixed drink. (A trick that supposedly only the old-fashioned heavy whiskeys could pull off.) As you'd expect, this new taste wasn't something we came up with overnight.

Far from it. For one thing, we had a cupboard full of 1,500 different whiskeys to work with. And before we found just the right combination (some 50 different tasting whiskeys and grain neutral spirits in all) a lot of new gray hairs had appeared on the scene. If you want a good tasting whiskey that stays good tasting no matter what you mix it with, ask for the whiskey with the Fifth Rose. Better known as Four Roses.

\$452 \$285

PENNEY'S MIRACLE MILE STORE HOURS: 9:30 A.M. to 9:00 P.M.

Be a Traffic Statistic---a Live One

As motorists set out with pleasurable anticipation on the long Fourth weekend trip, some somber statistics inevitably accompany them.

Safety agencies foresee mass travel on Michigan highways of 509 million miles during the 78-hour holiday period—an all-time record and 11 per cent above a year ago. National figures show 1966 highway traffic up 13 per cent with fatalities running 11 per cent over the rate that last year claimed the lives of 50,000 Americans.

Thanks to the "Bring 'Em Back Alive" (BEBA) campaign of the Automobile Club of Michigan that zeroes in on the three summer holiday weekends, Michigan's own fatality rate for the pinpointed periods has declined in the face of rising trends nationwide. Initiated last year, BEBA will again be in the forefront of the drive to make driving safe over the upcoming holiday stretch.

Statistics on highway casualties in most cases are simply a record of what transpired. They are by no means an inexorable portent of future experience.

It is you and you and YOU who make motoring statistics. It is within your power to influence them favorably by your performance at the wheel.

A long list of "Do's" and "Do Not's" for drivers could be offered, but they are all neatly packaged in the "3-C's" of the road—Courtesy, Caution, Common Sense. General observance of them would drop highway casualty figures drastically.

The Press wishes One and All a Happy and Safe Holiday.

Nation's Universities Beckon to Eager Minds

Although the 1965-66 school year is now history and the end of the scholastic trail for a multitude of young Americans, tens of thousands of others see it as a prelude to a plunge into the halls of higher learning.

For those, the 8th annual education survey by *Changing Times* should hold personal interest.

The survey indicates that of the 1,200 universities queried, 450 expect to increase the size of their 1966 entering classes, making room for 53,500 additional freshmen.

Enrollment openings are pretty general across the land with fewest in New England, the most in the Midwest and South.

Transfer applications for sophomore and junior classes are still being welcomed at many colleges, and nearly 300 schools report a special effort being made toward enrollment of graduates of 2-year colleges.

Here's Proof That Hair Doesn't Make the Man

Despite all the columns of well-deserved praise that have been heaped on the Gemini astronauts, one of the most significant lessons of their accomplishments has been overlooked.

This is the fact that cranial foliage is not a prerequisite for individual achievement in the conquest of space.

If thinly-thatched John Glenn left any doubts about that, shiny-pated Thomas Stafford has removed them completely.

In a day when eyebrow-length, earlobe-length and collar-length hair—the bushier and shaggier the better—is the accepted sign of youthful male virility, an "aging" baldy has given the world unmistakable proof of what untold millions of his fellows have known all along.

What's on top doesn't count at all. It's what's inside.

U.S. Reds Are a Pathetic Lot

By JAMES MARLOW
Associated Press News Analyst
WASHINGTON — The Communist party, U.S.A., this month held its first convention since 1959. It was a pitiful sight in more ways than one.

This in turn raises questions to the so-called new left which is supposed to be developing in this country, although not connected with communism, which is said to look out of date to the new radicals.

Congress, courts, the FBI and changing times made a wreck of the American Communist party. It claims a membership of 10,000 to 12,000, way down from the 80,000 to 100,000 it claimed in depression days 30 years or so ago.

In a way the New York convention looked a little like an old folks' home. The 212 delegates and 42 alternates from 36 states were mostly up in years and had been in the party for years.

Many got bored and walked out the opening night when Gus Hall, the general secretary, hit them with a three-hour speech. Hall, 55, has been a party member most of his life.

The party wants to attract young people, and there was some infighting with newcomers anxious to wrest control from the oldsters. The oldsters held fast.

VAGUE, PATHETIC
It's not just the fractured condition of

MARLOW

David Lawrence Says:

Appeasement in U.S. Dangerous

WASHINGTON — The most dangerous development in the Viet Nam war today is not the attack by American planes on oil facilities in North Viet Nam but the speech — making by a minority of members of Congress who are, LAWRENCE in effect, calling for surrender by the United States.

The 280,000 American troops in Viet Nam are entitled to the use of maximum power against military operations of the enemy. But, judging by the comments of some senators, the American forces are not supposed to take the offensive against the enemy or to defend themselves against attack no matter how high our own casualties may go.

Never in history have members of Congress openly interfered in the military conduct of a war by insisting that operations shall be limited while the enemy keeps on killing American troops.

Some members of Congress are arguing that, instead of the war now being shortened, it will be expanded by reason of the American bombing and that peace will be more difficult to get.

Exactly the contrary view is held by the vast majority in the Senate and the House, who feel that at last the United States is showing its determination to drive the enemy out of South Viet Nam.

PROLONGING WAR
The truth is that the appeasers and the advocates of "peace at any price" have really been responsible for prolonging the war. They have misled the enemy into believing that the United States was about to withdraw and would not fight it out.

Something had to be done to convince the Communists that this was not true. It was natural for the President to order an effective bombardment by air, with little or no damage to civilians in North Viet Nam.

The United States has done the logical thing in bombing the supply lines of the enemy. This has been called for by many American spokesmen for several months.

LAWRENCE

Instead of increasing the intensity of the war, it is likely to end it earlier, for both Communist China and the Soviet Union now know that the United States is not going to withdraw its forces but is, indeed, ready to face whatever contingency may arise.

It was precisely such resoluteness at critical stages which enabled the United States and its Allies to win World War I and World War II.

The bombing of oil facilities in North Viet Nam, therefore, is perhaps the most encouraging development since the war began.

It could mean an early termination of the conflict and a peace conference within the next few months.

Capital Letter:

Senate Unit Will Probe Snooping via Telephone

By RUTH MONTGOMERY
WASHINGTON — A Senate subcommittee probing invasions of privacy will shortly take a look at Washington's Bell Telephone system, to insure that operators who have stopped listening in on the conversations of private citizens and government officials.

They will also expand the investigation to other sections of the country.

What bugs the senators is how to determine that the bugging has actually ceased, even though an order went out to cease and desist as of June 1.

Chairman Edward V. Long, D-Mo., of judiciary's subcommittee, on administrative practices and procedures, points out that since telephone operators still need only turn a switch to overhear private conversations, the danger exists that Communist spies could "get jobs as operators, or cultivate operators, in order to learn our defense secrets."

Reminding that Bell Telephone operators do not have security clearance, he says they have never been able to monitor the calls of senators and other law-abiding citizens, as well as Defense, State Department and White House officials.

Under such a system, an operator can be listening in while an automotive executive discusses trade secrets, a gay kothario makes a date with another man's wife, or the President of the United States discusses a Viet Nam problem with the secretary of defense.

CONTINUING CHECK
Sen. Long says his subcommittee will make a continuing check to ensure that the Internal Revenue Service does not resume its use of snooping devices, and that the postal service does not again resort to its unlawful practice of opening first class mail.

With bugged martinis-

Ruth Montgomery

lives, hidden microphones and monitored phone calls we may yet have to adopt Ivan's habit of walking on Moscow streets if he wants a private conversation with a comrade.

But would we even then be safe from Big Brother?

In this age of electronic marvels microphones could also be concealed in the tiepins or earrings of our companion.

(Distributed by King Features Syndicate)

In Washington:

Cong Weary of Fruitless War

By RAY CROMLEY
WASHINGTON (NEA) — "Despite our increased air power and military victories in Viet Nam, the Viet Cong control about the same amount of territory they held a year ago in our province," said the man just from a district on the Cambodian border.

"In our province, the government holds about 100 hamlets, the Viet Cong about 80 and around 60 or so are disputed and belong to whoever has a patrol out that day."

"Yet it's certain Viet Cong morale is going down. There are around 80 VC deserters a month now in our province, compared with around 20 a month a year back."

"These men, when you talk to them, sound discouraged."

"Yet the Viet Cong are not short of weapons or ammunition. They bring it in across the Cambodian border by trail or water or by boat along the seacoast. I know the Navy says these routes are closed. They stop large numbers of fishing boats. A lot of fishermen must get stopped two or three times a day each."

"But most inspections are perfunctory. The inspectors don't know what's really down in the bottom of the boats."

"The VC seem to have enough food. They're even sending rice out to Cambodia. Chinese and North Vietnamese products are smuggled in readily across the borders for sale on the black markets."

"Their guerrilla troops move in and out of Cambodia freely."

"But things aren't going so well inside VC territory — in the hamlets they control. They have upped the rice tax on the farmers to something over 50 per cent and that isn't setting well."

"The men in the guerrilla units are finding it more difficult to get back to the hamlets in government hands at night to see their families."

"The guerrillas who defect say the constant bombing keeps them on the move and they don't have enough time to rest."

"They were led to expect victory and it hasn't come."

"The Associated Press is entirely untruthful in its report of the number of local news articles in this newspaper, as well as all AP news dispatches."

"The Pontiac Press is delivered by carrier for 25 cents a week, when mailed in Oakland, Geneseo, Litchfield, and Westfield, Mass. The Pontiac Press is a daily newspaper, and all other places in the United States take a full rate subscription. Please send a check for the full rate to Pontiac, Michigan, Member of ABC."

"They're getting war-weary. "In talking to them, you get the feeling they believe they have been let down by their leadership."

"The Viet Cong defecting where I am average out in their mid-twenties. More teen-agers are coming in — a lot of 15-year-olds. Most of our VC defectors have been in for less than two or three years."

"I think the time is ripe to move in hard politically on the Viet Cong territory in our province. But the government teams sent out thus far to reconquer the VC and contested hamlets to the government side so far have mostly failed."

"They turn in optimistic reports. Then they move on to another hamlet and the one they just left drops back into VC hands. Their reports are just so much paper."

"Sometimes the teams don't move out to the contested hamlets. They stay at the district town and go out by day to the hamlets they're supposed to be winning over. But that isn't enough."

"I hope that with the new training these teams are now getting, things will go better. It's too early to tell."

"But if this doesn't work, then something else will. Now is the time to strike in our province — when the VC are discouraged."

CROMLEY

Voice of the People:

Say Cooperation Needed to Keep Good Neighbors

I'm sure there are few persons who hate children, cats, dogs, etc. They only dislike parents who allow their children to spend endless hours visiting their neighbors. If parents would not allow their children to visit a neighbor without an invitation, it would create better neighborhood relationships and kindness to the children.

No wonder some mothers become grouchy. They are just worn out from taking care of the neighbors' children as well as their own.

WORN OUT

Recipe for living in a grouchy-free neighborhood:

1. Put a fence around your yard.
2. Let your children help with housework in the mornings.
3. Keep the children and dogs in the yard afternoons. Invite the neighborhood children to share the swings and sand box. Supervise the group.
4. Do the laundry after the children are asleep.

We never knew a grouchy. The neighbors loved us and gave us many gifts. We now have a nice yard and wouldn't consider ourselves grouchy if we objected to its being trampled by wandering children and contaminated by wandering dogs.

M. B. C.

Feels Overhead Spraying Is Dangerous

The fact is that malathion and many insecticides build up in essential parts of the body on continued exposure. Anyone who believes that "parts per million" is not dangerous should be informed that after body tolerance is reached, this poison can cause serious illness and death.

There are many in Oakland County who object to overhead spraying as it is difficult to protect children, pets and wild life from this hazard. The bee people are also very concerned—no bees, no honey, no pollination.

Cemetery Desecration Saddens Mother

Not far from here is a small country cemetery where, for more than 35 years, we have brought our loved ones who have reached the end of the trail.

Today that little cemetery was a scene of desecration. Young gangsters had used it as an outlet for their vandalism. Headstones were knocked off their bases and many of the tall ones were broken. It made me sick to realize human beings could be so low. The cemetery would never be the same.

A MOTHER

Question and Answer

Why don't they have all left turns at the intersection at Huron, Williams and State? This is a dangerous, congested intersection, even with the current ban of left turns for West Huron onto Williams. Also, we need a ban on left turns at West Huron at Wide Track.

ANN HOWICK

REPLY

According to Mr. Koren, Traffic Engineer, alterations of traffic patterns on state trunklines are customarily made after state and local officials confer and reach agreement. The present left-turn ban at Huron and Williams was made because left turns block a lane of through traffic on the trunkline (Huron); other left turns do not. Mr. Koren says a possible ban of on-street parking could relieve congestion at other points, such as the one you mention at Wide Track. However, he says the traffic situation on Huron all the way from State to East Wide Track is a controversial issue now under study by state and local traffic engineers, and solution to the problems has not yet been decided.

CAPT. MURPHY JONES

Yank Airman Said Captured

Hanoi: He's Sorry for
'Criminal Bombing'

MOSCOW (UPI) — North Vietnamese officials captured an American pilot shot down yesterday's raids on the suburbs of Hanoi and paraded him through the streets in an open car, Moscow television reported.

The Communist Viet Nam news agency identified him earlier as Air Force Capt. Murphy Neal Jones, 28, and quoted him as saying he was "sorry for his criminal act against the Vietnamese people."

It said he was from Louisiana but did not give his home town.

A Viet Nam broadcast monitored in Tokyo said Jones was flying an F105 jet from a U. S. air base at Takli, Thailand.

It gave his service number as FP-0906 and said he was with Tactical Fighter Squadron 333, Tactical Fighter Wing 355, at Takli Air Base.

'SMACK IN FACE'

"His sheer presence was a smack in the face of the U. S. aggressors who hastily claimed that no U. S. aircraft were lost during today's escalation strikes on Hanoi and Haiphong," the Viet Nam news agency said.

It quoted an excerpt from a tape-recorded deposition of what Capt. Murphy allegedly said at the news conference, as follows:

"On 29 June 1966, I was ordered to fly an F105 from Takli Air Base, Thailand, to attack a target in Hanoi. While I was approaching the target, my aircraft was hit by your heavy ground fire.

"I had only enough time to bail out. When I landed on the ground, I was immediately captured by your armed local people and militiamen.

"I am very much sorry for my criminal act against the Vietnamese people."

The Viet Nam news agency said Murphy was still in his khaki fly suit as he was brought into the conference hall.

It said bruises were visible on his face and his left arm was bandaged as a result of the injuries he received during his jump.

It said while the American pilot stood in the conference hall, huge crowds milled around outside and shouted "Death to the U. S. imperialist! Let us severely punish the air pirates to defend our beloved capital city."

Man Blamed in Killings of Kin and Self

CHEBOYGAN (AP)—In what State Police described as apparent murder and suicide, 76-year-old Paul Baller and his 49-year-old daughter-in-law, Mrs. Georgia Baller, were shot to death Wednesday at the Baller home five miles west of Cheboygan.

Baller was a widower; his daughter-in-law, whose husband, Edward, was killed by deer hunters in November, 1964. There was a record of trouble between the daughter-in-law and father-in-law.

Police said Baller apparently blasted his daughter-in-law with a shotgun in the utility room of the home they shared, then walked to a barn and shot himself.

Mrs. Baller's body was found by one of her two daughters, asleep in an upstairs bedroom when she was shot. Sandy, 13, walked half a mile to a neighbor's to call authorities. Wendy, 8, is the other daughter.

New Auxilians Are Feted

Pontiac Press Photo by Ed Vanderwerf

The Women's Auxiliary to Pontiac General Hospital observed its annual membership tea Wednesday at the picturesque St. Jude Drive home of Mrs. James Clarkson. This threesome was photographed before a splashing ledge-rock waterfall facing Loon Lake. From left are Mrs. A. L. Drury and Mrs. William L. Mack, both of Birmingham, and Mrs. Peter Hoogerhyde, Chippewa Road.

Mother Frets Concerning Daughter's Friends' 'De-scent'

By ABIGAIL VAN BUREN

DEAR ABBY: My daughter, a high school girl, has been having a lot of boys and girls over to the house lately. Among them are some boys of foreign extraction, and whether it's something they eat, or because they don't bathe or change their clothes regularly, I do not know, but they smell to high heaven! I think it would be a kindness for someone to tell them.

My daughter says that she doesn't want to hurt their feelings, and after a while she does not even notice it.

Abby, when I open our front door I know whether those boys are here or not! Is there a nice way to solve this problem?

OFFENDED

DEAR OFFENDED: Apparently your daughter's odoriferous friends are not as offensive to her as they are to you. I know no "nice" way to tell people they "smell to high heaven." One of their best friends will surely pick up the scent some day and rescue them from social suicide.

DEAR ABBY: Where do you stand on this? An extremely well-to-do gentleman recently presented his bride with a VERY expensive diamond ring, and I mean EXPENSIVE!

She is his second wife and he is her second husband, both having "lost" their former mates in the divorce courts. The bride has confided to a few friends (I am one) that she has agreed in her will to leave her diamond to her husband should she die before he does, the idea being that he shall give it either to his next wife, or to his daughter by his first wife. How do you like that?

The bride also has a daughter by her first husband. It seems to me that when a man gives his wife a diamond ring, it is *HERS*. And she should have the privilege of leaving her ring to her own daughter if she so chooses. Isn't this a rather strange kind of deal?

CURIOS

DEAR CURIOS: There's nothing strange about it. The gentleman invested in a diamond, and he's letting his bride wear it as long as she lives. But it is *HIS* diamond and *THEIR* deal. And it's also *THEIR* business.

DEAR ABBY: There is this boy I like a lot, and everytime he sees me, he says, "Marcy, I'll call you tonight!" But he never calls. I told him if he is going to call, to just call, but if he's not going to call not to tell me

he is. Can you give me some advice? I don't want to lose him.

THIRTEEN

DEAR THIRTEEN: LOSE him? If he promises to call and doesn't, you have yet to get him. Pay no attention to him when he says he'll call. And if he calls, it will be a delightful surprise.

CONFIDENTIAL TO "QUESTIONS GALORE" IN PASA-

DENA: After he asks you to marry him you can discuss the plans for your wedding, honeymoon, housing, etc. Remember the recipe for making rabbit stew? It begins with, "First, catch the rabbit."

Problems? Write to Abby, in care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

Mrs. James Clarkson (left), hostess for Wednesday's Pontiac General Hospital women's auxiliary membership tea, was assisted by Mrs. L. E. Howlett in carrying trays to the gay flower-bedecked refreshments table.

Five Inducted Into Society

Five area residents were among 270 Ferris State College alumni recently inducted into the college's Society of the Golden Eagles at the annual alumni reunion.

Golden Eagles are graduates who attended the college at least 50 or more years ago.

Recognized were: Cecil F. Charlton, Birmingham, a 1913 graduate; Marie O. Christofferson Falor, Lakeville, 1915; Robert C. Moran, Tecumseh Street, 1909; Lula Boyer Moyes, Hira Street, 1915; and Bertha Sleppu Rudloff, Hammond Street, 1916.

Potpourri of Area Groups' Events

The Pontiac Lake home of Mrs. David DeShoter was opened Tuesday evening for the annual picnic of Lambda Chi Omega sorority, Beta Omega chapter.

Mrs. Robert Hutchings and Mrs. Ronald Milburn, delegates to the sorority's national convention in Detroit gave reports on the three-day meeting.

Committees for the coming year were appointed, and plans discussed for a husbands' night in July.

WEIGHT WATCHERS

Weight-Watching Jills will meet tonight at Pontiac Unity Center. By-laws are to be voted on at the 7 p.m. meeting.

CHAMBER MUSIC

Eugene Istomin, Isaac Stern and Leonard Rose will be presented in a special benefit cham-

ber music concert July 19 in Baldwin Pavilion.

The Detroit chapter, Brandeis University National Women's Committee, is sponsoring this concert. It will be the first chamber music concert on the Meadow Brook Music Festival grounds.

Further information about the concert and tickets may be had from Mrs. Milton Zussman, 6359 Hendrie Boulevard, Huntington Woods.

Brandeis University at Waltham, Mass. is the first Jewish sponsored non-sectarian university in the country. It was established in 1948.

SIGMA BETA

Mrs. James DeFlorio and Mrs. Ezio Bisogni installed new officers of Sigma Beta Sorority, Inc., Gamma Theta chapter, at

a dinner held at Ted's Restaurant Monday night.

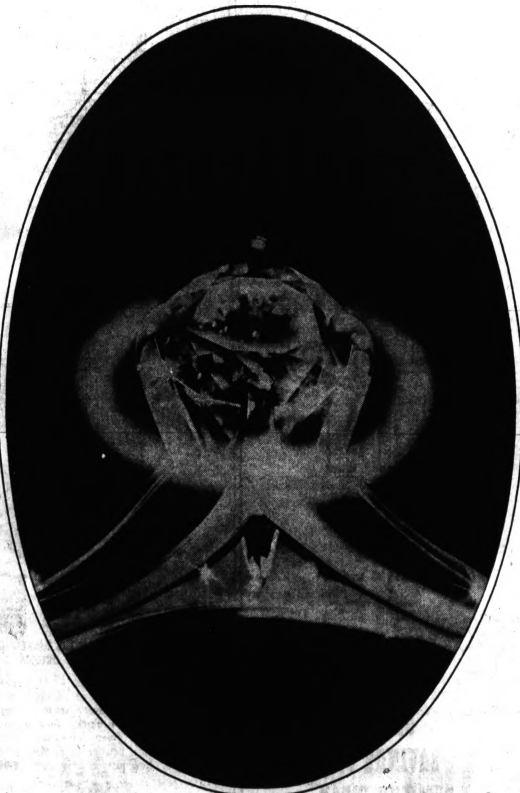

Installed were Mrs. Gary Burnett, president; Joan Davis, vice president; Mrs. Louis Norberg, secretary; Mrs. Michael Marcum, treasurer; Mrs. Kenneth Hall, editor and Mrs. Dennis Hubble, parliamentarian.

Two new pledges, Carolyn Cudobutsky and Mrs. Donald Lemmert were initiated.

Mrs. Palmer Bundy, E. E. Barker Wed

Mrs. Palmer Bundy of Davisburg and Edward E. Barker Jr. of Cherokee Road were married recently in St. Rita's Catholic Church, Holly.

They will be at home on Cherokee Road after Aug. 1.

Polly's Painters

Shine Comes Back

DEAR POLLY — I carry a small suede brush in my purse to keep my suede shoes clean during my day at the office. But for leather ones I use a piece of paper, adding machine tape or any kind of stationery

that has been tossed in the basket. Rub the smooth paper over leather shoes and the bright shine quickly comes back. Doing this once or twice a day makes a surprising difference in one's appearance. — MARYLYN

DEAR POLLY — My hint is for those mothers who bathe their young babies in a small double sink. Wet, soapy babies are hard to hold and hard to wash when sliding around in a slick sink. I tried putting baby on a cloth to prevent this but did not find it too satisfactory.

One morning, in desperation, I grabbed a clean sponge and sat her on that. There was no more slipping or danger of baby bumping her head on the edge of the sink. — MRS. C. C.

DEAR POLLY — Save those old bathroom seat covers and put one over the mop, pull up the drawstrings tight and use for wiping down the walls and ceiling. — C.H.W.

DEAR POLLY — I, too, received many letters and cards while in the hospital recuperating from surgery. Also I found it a real effort to open them at first.

The Gray Lady who brought my mail opened it with a nail file she said she always carried in her pocket to use for just that.

When packing your suitcase for a trip to the hospital take along a nail file which will serve for more than its intended purpose. — MRS. R. G. W.

Anyone submitting a Polly's Problem, a solution to a problem or a favorite homemaking idea will receive a dollar if Polly uses the item in Polly's Pointers.

Arrive Unruffled

Follow the sun in suitcase packables. Those Ban-Lon knits in fiery prints, gardens in full bloom and subtle pastels are a girl's wrinkleproof best friend.

An open house Sunday at St. Philip's Episcopal Church, Rochester, will mark the golden wedding anniversary of Mr. and Mrs. Frank W. Guthrie of Rochester. Hosting the 2 to 5 p.m. event will be their sons and daughters, Dan and Ralph, Rochester; Frank, California; Mrs. Ira Starnes, Maryland; Mrs. Walter Haynack, Phoenix, Ariz.; Mrs. J. T. Beasley and Mrs. Ray Frank, both of Rochester. The couple were wed June 28, 1916 in Detroit. There are 19 grandchildren and six great-grandchildren.

Mr. and Mrs. Maurice Van Haezebrouck of Florman Road, will celebrate their golden wedding anniversary Sunday at a buffet dinner in the Mountain View Country Club on Maceday Lake. They were married July 1, 1916 in Detroit. They have one son, Gustave, also of Florman Road, and one granddaughter.

It's Time to Dream..

Once again you are a young man alive with youthful radiance. Tonight you make your debut... Ah! There, your gown... surely the most lovely creation in all of the world... and the shoes... truly Cinderella must live again. Softly you brush your hair... a halo for your lovely young face. Would you like to recapture that night of long ago? Debust has a very special line-erasing formula that goes a long way toward bringing back that youthful look. It makes your facial skin drink small but sufficient quantities of water... facial line temporarily smooth out, as the water beneath the skin's surface pushes them upward out of sight. And Debust-formulated with C-E-F 600 for normal skin—with C-E-F 1200 for double potency. Get it at your drug or department store today. ARRIVALS LTD., CHICAGO, U.S.A.

Area Pair Is Engaged

Mr. and Mrs. Wilford A. Butler of Holland announce the engagement of their daughter, Charlotte Louise, to Michael Terry, son of the Paul A. Terrys of West Long Lake Road.

Both are graduates of Michigan State University where Mr. Terry affiliated with Phi Delta Theta social fraternity.

A late summer wedding is planned.

Camouflage Chips

Improve the appearance of cracked china by boiling the china in milk for 45 minutes.

Girl Pianists Go to CMU Program

Two area piano students are living on campus at Central Michigan University, attending a two-week music instruction session for high school students. Participating in the program, which ends Saturday are Donna Luenberger, daughter of Mr. and Mrs. George Luenberger, Oriole Road, and Diane Haskell, whose parents are the Clyde Hasskils, Woodbine Drive.

Salt Sets It

When shrinking material before cutting to sew, make a solution of four gallons of water and one-fourth teaspoon salt. Soak material for at least an hour. Salt sets the color.

Newest Watches Charming

NEW YORK (UPI) — High color charm watches that can be worn as accessories just about anywhere, including the wrist, are a fashion trend in timepieces.

"This new trend toward color in fashion watches fits in with recent findings of psychologists who report that most women dream in color, while most men dream only in black-and-white," says George Keyo, women's fashion expert for a well-known watch-making company.

"Traditionally, women have preferred yellow gold color watches with yellow gold color dial markings and hands. Now this traditional feminine preference is enhanced by the bright reds, yellows, blues, greens, and other high colors found on the newest charm watches."

He noted that the color appeal of the new watches enhances their versatility as fashion accessories that can be worn from the lapel, around the neck, from a belt, on an epaulette, or draped, hung or pinned on a hat, hair-do, handbag, furpiece or scarf.

But one question remains? Will color on the watch help to get the woman to the meeting place on time? Only time will tell.

Check Upholstery

When buying upholstered furniture, look for fabric that is rugged as well as attractive. Avoid fabrics with long, floating threads if the furniture is to get rough treatment. These threads tend to break and snag.

Flowers in the centerpiece and on the tablecloth bring freshness and summer brightness to your table. Each motif measures one and one-half inch in diameter. They are stitched in a double row around the border, table edge and center of linen cloth. Free instructions available by sending stamped, self-addressed envelope to the Needlework Editor, The Pontiac Press, with request for leaflet S 446.

You don't need a green thumb to add this bit of cheer to your bathroom, just a crochet hook and mid-rose, hunter green and dark brown to make these cherry sprays. Put on any color towel. For free instructions send self-addressed envelope to the Needlework Editor, The Pontiac Press, with a request for leaflet TW 355.

Australian Missionary Will Speak

A missionary couple and an American Red Cross representative will be on the program when West Side Christian Women's Club meets for a luncheon Wednesday at Devon Gables.

Mr. and Mrs. Richard Innes will speak and provide music. Mr. Innes of Brisbane, Australia, has been in the United States over seven years, training to return to his native land as a missionary evangelist. He attended Moody Bible Institute, earned a B.A. degree from Greenville College, attended Trinity Divinity School and presently is ministering at East Lansing's Maple Grove Baptist Church.

Mrs. Innes, a soprano soloist, attended MBI and currently is studying at Michigan State University.

Movies and a demonstration of rescue breathing will be presented by American Red Cross representative Mrs. Anita Schultz of Clarkston.

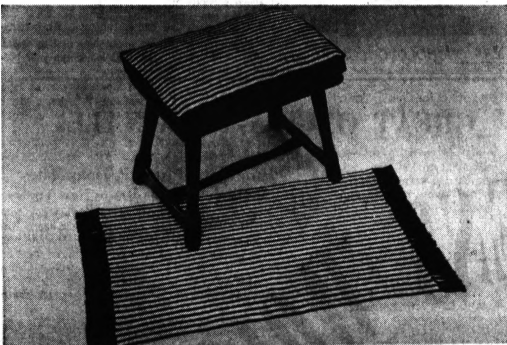

Reservations may be made by calling Mrs. Jack Wilkerson of Hollingsworth Drive, Walled Lake.

Save Zippers

To keep a zipper from continually sliding open, insert it upside down in any garment that you sew except skirts.

If you don't want to go to this, put a hook and eye at the top of the zipper to relieve strain on the zipper. Either method works well.

Needlecraft Adds Charm to Any Room

"Cutting a rug" is easy, but to crochet one and a cushion, too, takes real talent. Crochet bright stripes of aqua and chartreuse or watermelon and Spanish red, or even black and white stripes. Then, divide the colors for the fringe. The

rug is 24 by 36 inches and the pillow, 15 by 22½ inches. Free instructions are available by sending a self-addressed, stamped envelope to the Needlework Editor, The Pontiac Press, with your request for leaflet PC 8461.

Ironing Not Fit for Dog

YOUNGSTOWN, Ohio (U)—Local housewives showed an interest in an advertisement in the personal column of the Youngstown Vindicator.

It read: "Part German shepherd and collie puppy. Will do ironing, reasonable."

But the newspaper hastened to report in a later edition there was something of a mix-up in the ad. Mrs. John Mag-

alotti "will do ironing, reasonable." And "Tramp" is just a puppy with no housewifely skills who needed a home.

Tootsie Tips

A balm rubbed well into the skin of your feet daily keeps them soft and stimulates circulation. A daily dusting of foot powder or spray also helps to keep feet refreshed.

Oxtails should be slowly cooked for a long time so that there's no struggle when eaters take the meat from the bones!

Newlywed Osborns Travel West

Off on an extended honeymoon in the Canadian Rockies and Yellowstone National Park are the Gerald Lee Osborns (Sharon Diane Reedy) who were wed recently in the Milford Presbyterian Church.

The couple greeted some 300 guests in the Wixom UAW Hall following the ceremony performed by Rev. Frank Williams.

Their parents are Mrs. Ar-

thur T. Reedy, Hillcrest Drive, White Lake Township, the late Mr. Reedy, and the Lee Osborns, Houghton Road, Milford Township.

LACE OVER TAFFETA

Chantilly lace over white taffeta fashioned the bride's bouffant gown and train worn with illusion veil.

With Mrs. Frank Kulesza, were bridesmaids Mrs. Charles Bann, Mrs. Gerald Hagerstrom and Mrs. Gerald Hornung. Laurie Woods was

flower girl and Craig Kulesza, ring-bearer.

James Corget was best man, with ushers Jerry V. Rosen, Vincent Ruggers and Henry Franklin.

The couple will reside in Milford.

Mrs. Instead of Dr.

ALPINE, Tex. (U)—Dr. Mary Simons teaches English at Sul Ross College here. She instructs her students at the beginning of each term to call her Mrs. Simons and not Dr. Simons.

She lets them know first thing that "the Mrs. is a lot harder to come by than the Ph.D."

Very Pretty, but Are They Best for You?

How do you decide on the right earrings for you? First of all, your choice of earrings should depend upon the effect they have on your facial features as well as on the attractiveness of the jewel.

In choosing earrings, you should observe their effect on your face from several angles beside the profile and the front. Then try them on without a hat — and observe their effect when you are wearing a hat. Only now are you in a position to select the "perfect" earrings for the "new you."

The following descriptions give examples of the relation of earrings to face shapes and features.

• If there is a space between your ear lobes and your cheeks, this breaks the harmony line. It should be covered by the earring and worn as closely as possible to the face.

• If your cheekbones are large or high, suggesting hollows below, a properly placed large earring will help fill out your face.

• If you have a long neck, your should try to tempt the eye of the viewer to minimize the distance between your ear lobes and your shoulders. Dangling earrings, or earrings with pendants, will produce this effect — provided they are not too wide. Width in an earring makes the neck look narrower.

• If you have a round face, earrings should cover your ear lobes and be worn close to your cheeks. Large domes at the side of your cheeks tend to reduce the width of your face. Obviously, small earrings should be avoided as they will make your face seem broader and your features heavier.

• If your face is long, your earrings should be broad at the base to give the appearance of width. Drops should round — for example, pearl balls.

Late October vows are planned by Beverly Ann Austin and David Arthur Buckingham, former students at Flint Community Junior College. Their parents are Mrs. Robert W. Austin, the late Mr. Austin and the William E. Buckinghams, all of Ortonville.

Early spring vows in 1967 are being planned by Carol Sue McDermid, daughter of the J. Blaine McDermids of East Third Avenue, and Arthur Nicholas Halsey, son of the Floyd A. Halseys of Troy. Her fiancé is a graduate of Pontiac Business Institute.

A Beauty Hint

Margaret Merrill advises that it is quite simple for every woman to promote an English countryside complexion. Her hint to gain a peaches-and-cream loveliness is to damp a cloth with cold water from your refrigerator and press it over your face for a few minutes once or twice a day. Then, to hold the good of the complexion, use a beauty cream or a little tropical oil of Olay. This oil is rather scarce and expensive but your drug store should be able to get you a small supply.

Mobile Home Now Plush Dwelling

LOUISVILLE, Ky. — The mobile home may well be the "Cinderella" of modern housing.

Mobile, or relocatable, homes which began originally as small trailer units hitched behind cars have been transformed into glamorous, full-scale residences, designed for comfortable and convenient living.

Often larger than average new conventional dwellings, mobile homes now emphasize luxury, comfort and convenience. They feature decorator-styled interiors and fully equipped kitchens with the most modern appliances, says F. L. Cappert, president of one of the nation's major producers of relocatable housing.

A buyer of a new mobile home can choose from a variety of decorator styles, Mr. Cappert says, and adds that the most popular are Early American, Contemporary and French Provincial. "All the modern facilities are available in surroundings of true elegance. Many of the homes have features such as formal dining rooms, air conditioning and multiple bathrooms."

"With mobile homes becoming less mobile all the time, there is a trend toward developing a more permanent type of structure that embodies the convenience and cost advantages associated with relocatable units," Mr. Cappert says.

As an example he cites Magnolia Mobile Home's new house type unit.

The new home, which is mobile to the chosen site, is being shown along with a variety of the firm's relocatable units, Mr. Cappert says. All have interiors planned by professional decorators and

are furnished with the latest style furniture and equipment — from wall-to-wall carpeting to wall ovens.

The new home, which has a gabled roof, easy-care vinyl lap siding exterior and simulated brick foundation, is a three-bedroom, one-and-one-half bath model.

Furnished in the French Provincial style, the model being shown features a spacious living room paneled in wood and is completely carpeted. It has a convenient grouping of furniture upholstered in luxurious fabrics; floor-length, tie-back dra-

peries over sheer curtains; and attractive lamps and tables to complement the decorative scheme.

A full dining room has a built-in, pass-through sideboard, a wrought iron and wood chandelier, a round table and ladder-back chairs with gingham-checked seat pads. The kitchen has a modern range and wall oven, large refrigerator with freezer, formica-topped counters and a laundry area with washing machine. Space also is provided for an automatic dishwasher and clothes dryer which are optional features.

Linda L. Baker Is a Bride

MRS. NICHOLPOULOS

Vows were taken by Linda Louise Baker and William Nicholopoulos, before Rev. Chesley Collins, Monday, in the Church of God parsonage.

Parents of the couple are the Seigle L. Robertsons of Chandler Avenue and Mr. and Mrs. George Nicholopoulos, also of Chandler Avenue.

Mr. and Mrs. James Garris attended the couple.

Wet Suction Cup

A suction cup stays in place longer and more securely if the edges of the cup are rubbed over a moist cake of soap before you press it against the wall.

WILLIAM L. LEWIS

JAMES E. LEWIS

William L. and James E. Lewis, sons of Mr. and Mrs. W. A. Lewis of Auburn Road, Pontiac Township, recently earned degrees. William received his B.A. degree from Western Michigan University. He currently resides at his parents' home with wife and son David. James was granted a philosophy doctorate from the University of Georgia where he earned his M.A. Dr. Lewis received his B.S. degree from Eastern Michigan University. He has accepted an assistant professorship at Baton Rouge where he will reside with wife and son James Jr. after Aug. 1.

If your chinline is a pain in the neck there are things you can do about it. When thinking about how first to attack the situation, check your posture instead of your age.

Naturally age has some influence on our chinline, no matter what we do, BUT, one of the most important factors is posture. I have often observed young women of 20 and have been able to visualize what they will look like 10 or 20 years later.

Even at that tender age you can predict the future double chin or dowager's hump because of their posture.

The important thing to remember is to hold your head so that you neither duck your chin into your neck nor lead with your chin. Try to carry yourself so that your chin is parallel to the floor.

If you do this, your spine through the neck region will be stretched, not collapsed!

As we grow older our muscles atrophy and become less rounded and have less bone. Facial and chinline exercises will help win that battle. Also the muscles under the chin have a tendency to shorten unless stretched.

So what should we do? Think of posture constantly, and stretch the spine through the neck region and stretch and tone the muscles under the chin. Here are two exercises which will do that for you.

• Stand tall and place your hands on the top of your head. Push up with the top of your head (chin parallel to the floor) while you resist with your hands. Make this a slow push and resist with your hands for a few moments. Relax. Repeat.

• Still standing tall, lower your head and touch your chin to your chest, or come as near as you can. Raise head and continue, slowly.

Skin lubrication is very important in keeping the neck youthful. You should give your neck the same treatment you give your face.

If you would like to have my exercises for the chinline send a stamped, self-addressed envelope for the leaflet "Is Your Chinline A Pain In The Neck?" Address Josephine Lowman in care of The Pontiac Press.

Be Aware of Flag Etiquette

By ELIZABETH L. POST
This is the week to remind readers of the way to display and treat our country's flag. Test your knowledge today and abide by tomorrow's answers when you display your flag on Monday, July 4. Can you pick the one incorrect answer to each of the following questions?

1. When is the flag displayed?
(a) The flag may be flown every day in the year between sunrise and sunset.
(b) The flag may be displayed at night as part of a patriotic decoration or demonstration.
(c) The flag is flown every day from 6 a.m. to 6 p.m.

2. In what situations is it wrong to use the flag?
(a) It is wrong to use a flag as a costume.
(b) It is wrong to display a flag in a church.
(c) It is wrong to use the flag as a tablecloth, as for instance, at a speaker's table.

3. How is the flag placed when it is displayed with other flags?
(a) When carried in a row of flags in a parade, the American flag is on the marcher's left.
(b) When flown with another flag from crossed staffs, the flag of the United States should be on the left from the viewpoint of a person facing them.
(c) When flown with a flag of another nation the two flags are flown from separate staffs of the same height.

4. What are the rules for raising and lowering the flag?
(a) When raising a flag to half staff it is hoisted to the peak first and then lowered to the half-mast position.
(b) The flag should be raised very slowly and lowered briskly.
(c) When a flag is being lowered it should be caught before it touches the ground.

The clothes of the bride's and groom's parents as well as those of the wedding guests are described in the booklet, "Correct Clothes for a Wedding Reception." To get a copy, send 10 cents in coin and a stamped, self-addressed envelope to Elizabeth L. Post, in care of The Pontiac Press.

Don't Quibble, Face Reality

Acceptance of Existence

By DR. GEORGE W. CRANE
CASE Z-453: Cathy, aged 5, is one of our granddaughters. At kindergarten she developed a great fondness for a classmate by the name of Andy.

"He's taller than I am," she explained to her daddy, "just as you are taller than mamma."

Notice how this height differential becomes an early ingrained attitude of most women.

Actually, there is no inexcusable reason why a short man should not marry a taller wife. In fact, we have maybe a million such marriages right now in America.

Cathy shows another early attribute of the female sex.

"Mommy," she demanded, "what dress may I wear tomorrow?"

"I can't wear this one for Andy saw it today."

Again, this female desire for a dominant shows up very early.

Cathy added another comment when she said:

"I just can't keep my hands off Andy."

This is expressed in older girls during their dating stage by the feminine desire to

stroke her man's hair and feel his cheek against her own.

While Cathy was at our home, I telephoned Mrs. Crane, who was baby-sitting for a few days with the brood of another of our children.

So I let Cathy talk to her cousins, including 6-year-old Matthew.

Cathy, immediately modulated her voice and slowed the tempo, as she affected a more formal type of conversation.

"Dr. Crane," you may ask, "aren't these characteristics innate or an inborn trait of the female?"

That is difficult to answer, even for us professional teaching psychologists.

For a child can be almost "marked" subconsciously by its home environment even before it learns to walk.

It is thus very difficult to divorce innate traits from the effects that a child's early surroundings thus exert on him.

But it is rather academic, anyway, to quibble about how these traits originated.

The essential thing for dealing with people is to recognize

these facts as they now exist and react accordingly.

Girls show more interest in persons; boys, more attention to things.

Girls very early relish dolls and want to play house. Boys may cooperate till the age of 5 or 6, but then they usually avoid such "family" play-acting.

Girls don't show the zest at contact sports or fist fighting. Boys are thus more pugnacious.

Girls are neater and more docile about following orders, which is one reason why they make higher grades in school.

Boys are more independent. Girls, being smaller, early learn to use their wits, so they are better psychologists. Boys depend more on brute force.

So send for my "Behavior Tests for Teen-Agers," enclosing a long stamped, return envelope, plus 20 cents.

Halt Frying

You can mend small tears in some curtains by applying colorless nail polish.

SPADEA DESIGNER PATTERN

The beloved overblouse continues its sensational success. In the accepted manner, Mollie Parnis retains a soft unrestricted fit in her model, but adds the distinctive touch of deep scalloped around the little sleeves and lower edge.

The neckline is a shallow curve, the buttoning is done in reverse. Carrying out the easy theme, the separate skirt hangs straight from the hips with slight gathering released below the waistline. A perfect desk-to-date fashion in silk or rayon crepe, any sheer wool or fine tweed.

Also, faille or brocade for important little evenings, and linen, shantung, raw silk or cottons for southern wear. Spadea's exclusive ready-to-wear sizes produce a better fit. See chart for size best for you.

Also, faille or brocade for important little evenings, and linen, shantung, raw silk or cottons for southern wear. Spadea's exclusive ready-to-wear sizes produce a better fit. See chart for size best for you.

Misses Size 12 requires 1 1/2 yards of 54" fabric for the two-piece dress. Junior Size 13 requires 1 1/2 yards of 54" fabric for two-piece dress. To order Pattern No. N-1066, state size, send \$1.25. For Pattern Books No. 28 and No. 29 send 50c for each. Duchess of Windsor Pattern Book with 55 designs is available for \$1.00. Address SPADEA, Box 981, G.P.O., Dept. P-6 New York, N.Y. 10001.

Short Skirts Should Show Pretty Knees

BY ALICIA HART
NEW YORK — (NEA) — Members of the Society of Leg Watchers, Inc., have polished their eyeglasses and now go around with a Cheshire-cat smile. The reason for their happiness? The nutty, knacky, kicky, miniskirts sweeping, so to speak, the fashion world.

The skirts which often ride three to five inches above the knee are cute on pretty little girls—say in their teens. However, women being women, some pushing 45 (and over) are joining the parade and flaunting their fashion freedom. Fashion freedom? Any mature woman who insists on dressing half her age is as ridiculous as a lemming following its suicidal leader.

For those who turn to short skirts, brush up on your leg and knee beauty tricks.

Your legs require special attention during their exposure. Be certain to keep them smooth and clean.

Knees, especially, present a special problem since the Leg Watchers report most women have knobby, ugly knees. But cosmetics come to the rescue here. Unattractive knees can be camouflaged.

Banana Cake Given Creamy White Icing

By JANET ODELL
Pontiac Press Food Editor

If you haven't made a banana cake for a long time, perhaps that is the kind to plan for the upcoming holiday weekend. It is a favorite with many people.

Mrs. Jack Andress of Pontiac shares her recipe for both cake and frosting.

BANANA CAKE

By Mrs. Jack Andress

1 1/2 cups sugar
1/2 cup vegetable shortening

2 large eggs
2/3 cup sour milk
2 1/2 cups cake flour

1 1/2 teaspoons soda
1 1/2 teaspoons baking powder

1 teaspoon salt

3 mashed bananas

1/2 cup chopped nuts
Cream shortening and sugar; add eggs and beat until fluffy. Add sifted dry ingredients alternately with sour milk. Mix well. Add mashed bananas and nuts.

Pour into greased 9x9 pan. Bake at 350 degrees 40-45 minutes.

Frosting
1 cup sugar
1/2 cup scalded milk, cooled

1/2 cup vegetable shortening
1/2 cup margarine

1 egg
1 teaspoon vanilla
1/2 teaspoon salt

Place all ingredients in a bowl and beat until light and fluffy.

A spring wedding in 1967 is planned by Darlyne Ann Morey of Fox Bay Drive, White Lake Township, and Earl Stanley Gardner, son of Mr. and Mrs. William Gardner, Old Salem Road, Pontiac Township. She is the daughter of Mr. and Mrs. Maurice Morey of Humphrey Street, Bloomfield Township.

Hose Won't Run

Nylons may soon lead runless lives, thanks to a new stocking finish which invisibly coats hosiery to prevent runs and snags. After a one-minute-soak, the finish is said to last through a few launderings.

However, this treatment is no substitute for soaks, and hose will still need to be laundered with soap or detergent after each wearing.

TURNCOAT ARRIVES IN U. S. — Korean war turncoat Clarence Adams, 37, of Memphis, Tenn., who refused expatriation at the end of the hostilities, arrived back in the U. S. yesterday for the first time in 15 years. With Adams in Honolulu are his wife and their son, Louis, 3, and daughter, Della, 4.

Infiltrators at Gitmo Halted by Big Lights

GUANTANAMO BAY, Cuba — A 17.4-mile boundary fence. So far, there isn't enough money to floodlight the perimeter of its big base here. Officers said today the move appears to have halted after-dark infiltration attempts from the Cuban side.

"These lights have been a tremendous deterrent to infiltration," said Navy Capt. Ray Gosson, chief of staff of the base which is ringed on three sides by hostile Cuban territory.

Eventually, the Navy hopes to mount floodlights all around the

Installation of the lights began in March after a series of infiltration attempts from the Cuban side.

episodes, the most recent on May 21 when a U.S. Marine sentry shot a Cuban soldier who the Defense Department has said, ignored a warning after penetrating the six-foot chain link fence.

REPORT MADE

Officers at the base, declining to say much about the shooting, reported an investigation had been completed and a report forwarded to higher command.

The Marine involved has left the base, they said. This was described as routine procedure. The Marine was not identified, nor was there any indication of any disciplinary action.

Meanwhile, both the Cubans and the Americans are strengthening their opposing fortifications and strongpoints. Navy and Marine officers showed not great concern about the Cuban development of a network of pillboxes, reinforced trench lines and similar positions.

LEISURELY PACE

Gosson said the Cuban fortification activity began in 1964 and has moved ahead in the past year in what he described as a leisurely pace.

"We're not overly worried about any of this," the chief of staff said. "We do not think they intend to attack."

Week's 3rd Quake Jolts California

PASO ROBLES, Calif. (AP) — A strong earthquake, the third in three days, has jolted a wide area of central California. It caused little damage, however, because of the remoteness of its epicenter.

Seismologists at the University of California recorded the quake at 12:35 p.m. yesterday. It was followed by a large number of aftershocks.

The two previous quakes, originating in the same area of Monterey County about 20 miles northeast of Paso Robles, struck Monday night and caused a two-inch slippage along the San Andreas Fault.

Women Find Many Advantages to Serving in Armed Forces

(EDITOR'S NOTE — This is the final article in an eight-part series about what every young person should expect from the military service. The articles have been reprinted, with additional detail, in a booklet which may be obtained through The Pontiac Press for \$1.)

By ELTON FAY
Associated Press News Features

About 23,000 women are in the five U.S. armed forces today. They hold the same ranks, draw the same base pay and often have the same assignments as the men, but do not go into combat arms operations.

The ratio of women to men in service is lower now than in World War II, but that is due, in part, to the ceilings on strength fixed by the Defense Department.

There are about 10,000 in the Women's Army Corps (WAC); 5,500 in the Women in the Navy (WAVES); 1,800 Women Marines; 5,700 in the Air Force (WAF); and about 250 in the Coast Guard.

Expectedly, the official answer given as to why women who are in no danger of being drafted, volunteer is: the desire to serve, patriotism.

When the women themselves are asked, other reasons appear.

A recent survey of WAC enlisted women indicated that 25 per cent joined the army because they believed there were advantages for individual training in various skills, 24 per cent because of opportunity for additional formal education, 19 per cent because they could get to travel.

The balance included those who gave independence and security as among their reasons.

Some of the services think the Viet Nam war has influenced women to join up, but other services discount this.

MANY CAREERISTS
Unlike the other four forces, the Coast Guard does not enlist or commission women in the regular establishment at this time. Those on active duty are reservists.

Do women reenlist or even make the service a career?

Generally, reenlistments by enlisted women seem to compare favorably with or exceed those of men, especially after the first one or two years of active duty.

About getting into service and what you get there:

Although the armed forces draft men without regard to their education, the volunteer system for women has a basic requirement — recruits must be high school graduates or have equivalent education.

MUST BE 18
To enlist, a woman must have reached her 18th birthday and, if under 21, have written consent of parents or a guardian.

She must not be married nor have dependents. Minimum enlistment for the WACs is two years; for the WAVES is two years; three years for the

PICK UP POINTERS — WAVE officers learn about navigation during familiarization course at a Navy line officer school.

WAVES WAFs and Women Marines.
Although a woman must not be married upon entering service, she may marry after completing basic training.

If she marries, she may be released from active duty, on her request, after one year which does not include basic or specialty training.

SAME BENEFITS
If while still in service, during which time she has married, she becomes pregnant she is released from service, automatically.

One reason for this is that an enlisted woman, unlike an enlisted man, may not claim dependency allotments.

In addition to receiving pay

after taking courses in officer training schools.

Women may enlist in the WACs and, if they have had two years of college, seek a commission through the officer candidate school.

More women Marines move up from enlisted ranks: 16 per cent of the present officers are former enlisted women.

BARRED FROM COMBAT

Women are barred by law from being assigned to combat in any form, on the land, in combat planes or aboard military ships other than transports or hospital ships.

However, service women are assigned overseas, usually to big U.S. bases or headquarters in such places as Europe, Japan, Okinawa, Hawaii, the Caribbean area.

Except for certain provision in choice under the WAC program, enlisted women in the services get no guaranty of specialist training for an assignment of their own choice.

During basic training, assignment for specialty training is made, using as a guide aptitude tests, civilian background, educational abilities and similar factors.

'ADMINISTRATIVE' JOBS

The greater portion of women are in what is labeled as "administrative" assignments — clerical work, typing, record-keeping.

Many are in communications, including not only radio but radar and traffic control towers at air bases.

Some work as medical or dental technicians, assigned to hospitals. Others may become office workers in military intelligence or photo interpreting or has some male nurses, composing about 17 per cent of the present nurse corps strength.)

About 8,500 women are in the Full-fledged nurses in military nurse corps of the Army, Navy service must be registered and Air Force now, but there is a need for many more. (The Army rank

need for many more. (The Army rank

This makes recruiting more of a problem than for other nurse services, especially since the military must compete with heavy demand for registered nurses in the civilian field.

However, there are some educational programs available for women who make the service a career, leading to eventual promotion to registered nurse rank.

The professional nurses of the military are in addition to WAC, WAVES and WAF enlisted personnel who are assigned to aid in phases of the medical programs in the United States and overseas.

UP LOOKING DOWN — State Police Capt. Jack P. Foster (right) checks his stopwatch to find out whether his air patrol has found a speeder on the marked section of highway below. Three state police planes will be on patrol starting tomorrow.

Police Brace for Speeders With Operation 'Eye in Sky'

EAST LANSING (AP) — For motorists racing to get somewhere, Michigan now has 20 highway sections marked with a starting line and a finish line, with an official timer in an airplane overhead.

If you cover the one-eight-mile course in, let's say, 4.9 seconds—you lose.

A state trooper parked about a mile down the road will receive a radio report that you are going exactly 91.84 miles an hour and let you know—with a traffic ticket.

The State Police "Eye in the Sky" program starts Friday. Three planes will be patrolling the marked sections, circling above them at about 1,000 feet.

USE STOPWATCHES

Both the pilot and an observer in the plane will have stop-

Artist Drawings Subject of Suit

U. S., French Involved
in Ownership Dispute

NEW YORK (AP) — The French government has asked U.S. District Court here to declare it the owner of eight stolen sketches done by the French impressionist Paul Cezanne.

The pencil-and-ink sketches of men, women and horses, on both sides of four sketch pad sheets 5 x 9 inches, had been in a sketchbook used by Cezanne when he was an art student.

They reportedly were stolen from the Cezanne Museum at Aix-On-Provence, France, where the painter lived. The sketch pad had been lent to the museum by the Louvre in Paris in 1954, believed the year of the theft. No one is sure of the date.

The FBI, acting on information from an art dealer to whom the sketches had been presented for sale, seized them from a New York City artist in 1962 and placed them in the custody of the U.S. government.

BOUGHT SKETCHES

The artist, Harry Jackson, 42, says through his attorney that he purchased the sketches for \$90 in 1954 from a caretaker of Cezanne's old studio in Aix.

An attorney for the French government said it does not believe that Jackson knew the drawings were stolen when he bought them.

After the FBI seizure, Jackson sued U.S. government representatives in State Supreme Court, asking \$20,000 damages and return of the sketches. At that time, an art authority said the sketches had no great value. The case has since been transferred to federal court because of U.S. government involvement.

Wednesday, France moved in federal court to be made a party to the suit and asking to be declared rightful owner of the sketches.

Car Kills Bicyclist, 11

BAY CITY (UPI) — Eleven-year-old Delinda Jacobs was killed yesterday when she rode her bicycle into the path of a car just outside Bay City near Evesville.

Miss Dearborn Gains State Semifinals

MUSKOGEEON (AP) — Miss Dearborn, Gayle Ann Chancey, won the Miss Michigan swim-suit competition last night to go with her opening night talent title and thus assured herself of being among 10 semifinalists.

The 19-year-old beauty stands 5-foot-4 and measures 34-23-34. She has brown hair and blue eyes.

She captured the opening night talent competition with a Hawaiian hula dance.

Miss Monroe County, 18-year-old Linda Lee Piedmonte, won last night's talent competition with what pageant director Jack C. Bushong described as the best tap dance routine he had seen in 10 years among competitors.

Miss Piedmonte stands 5-foot-3½, weighs 111 and measures 36-23½-35. She has brown hair and eyes.

DETROIT ENTRY

Claudia Sand, 19, of Detroit won the opening round swim-suit competition Tuesday night.

Roughly a third of the 49 girls are put through one of the various competitions—swim-suit, talent or evening gown—nightly.

One group also is interviewed by the judges before going on.

Evening gown scoring is kept secret until semifinalists are chosen.

NAMES of the 10 who will compete in the finals tomorrow will be announced after tonight's competition.

NOTICE OF TAXES CITY OF PONTIAC

1966 City and School taxes will be due and payable at the office of the City Treasurer July 1, 1966 through August 1, 1966, without fees.

August 1, 1966, a collection fee of 1% will be added and 1% additional will be added on the first day of each month thereafter on any unpaid City and School taxes. Payment made by mail must be postmarked not later than August 1, 1966, to avoid penalties.

After February 28, 1967, all unpaid 1966 real property taxes will be returned to the Oakland County Treasurer for collection with additional penalties as provided by State law. Personal property taxes are not refundable and must be paid by August 1, 1966.

Scallop Top of Watermelon to Make Salad Container

Some fifty years ago watermelon growers took pride in growing watermelons of show-off size which could weigh nearly 100 pounds. Today it would take a couple of people to wrestle such a jumbo into a grocery shopping cart.

A fine melon weighing around 35 pounds has more heart—that is seed-fresh flesh—than do smaller ones and that's why we find most commercial melons weighing somewhere between 25 and 40 pounds.

The watermelon is surprisingly nutritious. A 4x8-inch wedge, which is just a sample for a real watermelon eater, provides more than a third of the recommended daily dietary allowance of vitamin C and half the allowance of vitamin A as well as a good contribution of other vitamins and minerals.

Watermelon Boat With Turkey Salad

2 quarts cooked turkey, cut in large chunks
4 cups seedless green grapes
3 cups diagonally sliced celery
1 cup French dressing
4 teaspoons fresh lemon juice
½ cup mayonnaise
1 teaspoon salt
¼ teaspoon ground black pepper
Watermelon balls

Scalloped Watermelon Boat

In large bowl, combine turkey, grapes and celery. With fork or wire whisk, mix French dressing, lemon juice, mayonnaise, salt and black pepper until well blended. Add dressing to turkey mixture; toss lightly to moisten ingredients. Cover; refrigerate until ready to serve.

Place in Scalloped Watermelon Boat along with watermelon balls cut from boat. Yield: 12 servings.

Scalloped Watermelon Boat

1. Cut watermelon in half lengthwise 1-inch above the center.
2. Remove pink fruit with melon ball cutter or ½ teaspoon measuring spoon. Remove seeds. Scrape out remaining fruit and drain well.
3. Measure around rim to decide how wide to make scallops. If it measures 45 inches there is room for 15 1-inch scallops or 30 ½-inch scallops.
4. Cut a cardboard pattern the desired width of the scallops at the bottom edge.
5. Trace pattern with knife tip around outside edge of melon. Cut with small sharp knife.
6. Chill melon bowl until ready to fill with melon balls and turkey salad.

WATERMELON BOAT—A scalloped watermelon shell makes a delightful and colorful "boat" for turkey salad. This combination of fruit and fowl is particularly delicious.

CHICKEN DIPWICHES INDIENNE — A crispy corn coating makes a chicken sandwich a special luncheon treat. It's a sandwich in full dress with a spicy curry accent.

Sandwiches Given a Crumb Coating

Unexpected guests for lunch?

Here's a special luncheon idea prepared from ingredients you're sure to have on the shelf. Serve Chicken Dipwiches Indienne, sandwiches in full dress!

Start by making sandwiches with two slices of bread just as you always do. Most any favorite sandwich filling is fine—but if your cupboards carry canned chicken spread, you'll find this convenience product an extra fine filling!

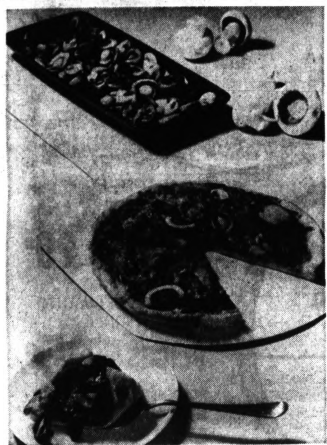

Now a quick dip in a curry flavored custard mixture, and then into corn flake crumbs with these luncheon sandwiches. Brown each crispy crust to a golden brown, and luncheon is served!

Carrot and celery sticks could in the egg mixture, then in corn round out the luncheon menu flake crumbs. Brown each side and of course, the ever-faithful sandwich on lightly greased potato chip is always great with hot griddle. Serve hot.

No need to be "Spread 6 slices of bread with caught without an appropriate canned chicken spread; top with luncheon menu when you can remaining slices. 2 cans (4½ oz. quick dip a sandwich into a each) chicken spread makes 6 sandwiches.

Chicken Dipwiches Indienne

½ cup evaporated milk
2 eggs
1 teaspoon curry powder
¼ teaspoon salt
6 chicken sandwiches*
2 cups cornflake crumbs
Place evaporated milk, eggs, curry powder and salt in a shallow dish; beat with a fork until well blended. Dip one side of the sandwich, then the other.

MUSHROOM PIZZA PIE—Make your favorite pizza, or use a mix. Roll extra thin and fit into pan. Brush with oil, then with one small can tomato paste. Sprinkle with oregano, next with ¼ pound Italian sausage well browned. Now add ¼ pound mozzarella cheese pulled into bits and ¼ pound slightly sautéed sliced or quartered mushrooms. Sprinkle Parmesan cheese on top and bake in 450 degree oven for 15 to 20 minutes. Servé hot!

Creole Shrimp Salad Uses Cooked Rice

Among America's regional cookery, none is so distinctive as the Creole cookery of Louisiana. While it is essentially French, there are Spanish undertones enhanced by contributions made by the Negro and the Choctaw Indians. If asked to name five creole dishes, one would surely be Shrimp Creole.

A modern adaptation of the classic dish, developed by the Shrimp Association of the Americas, is this Shrimp Creole Salad.

room temperature or on refrigerator shelf. Combine rice with pimientos, tomato, celery and green pepper.
In small jar or bowl, combine salt with sugar, mustard, vinegar and oil. Shake or beat well until blended. Add to rice; mix well.
Turn rice into plain or ring mold, or arrange on large platter; chill well. At serving time, top rice with shrimp. Surround with salad greens.
Pass Remoulade Sauce to be served over shrimp. Makes 8 servings.

Remoulade Sauce

Blend together ¼ cup finely chopped sour pickles; 2 tablespoons drained, finely chopped capers; 1 tablespoon prepared mustard; 1 tablespoon chopped parsley; 1 teaspoon chopped chives; and 2 cups mayonnaise. Chill.

Use Your Blender

You may want to use your electric blender when you puree raspberries for a dessert sauce; but if you want to get rid of the seeds, you'll have to strain the puree—after blending through a very fine-meshed strainer.

Serve Real American Food for the Fourth--Beans

By JANET ODELL
Pontiac Press Food Editor

Hang out the flag, take the kids to the beach and plan a picnic. It's the Fourth of July, that strictly American holiday. With a forecast of more hot weather for the weekend, you won't want to spend any more time in the kitchen than necessary. Let the chief of the grill take over outside.

Buy a fully cooked ham, some cans of baked beans and brown bread for one of your picnic meals. The work involved is little.

Heat the beans in a slow oven or on the grill . . . ditto for the bread. The ham kabobs are grilled too.

HEAVENLY BEANS

2 1 lb. 6 oz. jars (4 cups)
1 small to medium cabbage
5 strips bacon
1 medium onion, coarsely chopped
2 teaspoons dry mustard
2 tablespoons brown sugar
1/4 cup Curacao
(1/2 cup orange marmalade may be substituted for brown sugar and Curacao)

Saute the bacon until partially cooked. Drain, dice, and com-

bine with rest of ingredients. Pour into a bean pot or casserole, cover, and bake in 325 degree oven 1 hour. Serves 8.

While the beans are baking, open cans of brown bread, slice, spread with melted butter, wrap in foil, and heat in the oven.

HAM KABOBS

String squares of boneless, fully cooked ham on skewers, along with pineapple chunks and green pepper. Broil over coals, brushing pineapple and peppers with melted butter, and the ham with the following glaze:

1 cup brown sugar
1/2 cup honey
1/2 cup orange juice

BEST-EVER COLE SLAW

1 small to medium cabbage
1 small green pepper
1 large onion
Chop or shred the above ingredients and sprinkle with 1/2 cup sugar.

Bring to a boil:
1 tablespoon sugar
1/2 teaspoon celery seed
1/2 teaspoon dry mustard
1/2 teaspoon salt
1/2 cup vinegar
1/2 cup salad oil

Pour while hot over cabbage

mixture. Cover, cool, and refrigerate several hours or overnight. Serves 8.

Nutty Fudge Squares make delicious dessert; they are more confection than cookie, but can be eaten out of hand.

NUTTY FUDGE SQUARES

1/2 cup (1 stick) butter, melted
1/2 cup sugar
22 graham cracker squares, coarsely broken
1 cup evaporated milk
1/2 cup semi-sweet chocolate pieces
1/2 cup coarsely chopped walnuts
Vanilla Ice Cream
Easy Fudge Sauce

Combine melted butter, sugar, graham cracker pieces, evaporated milk, chocolate pieces and nuts in a large size mixing bowl. Blend well. Spread in a well-buttered 8-inch square pan. Bake in preheated moderate oven (350 degrees) for 30 to 35 minutes. Cool.

Cut into squares. Top with

scops of vanilla ice cream, then pour on Easy Fudge Sauce. Makes 8 to 10 servings.

Easy Fudge Sauce

1 package (6 oz.) semi-sweet chocolate pieces
1/2 cup evaporated milk

In a small saucepan add chocolate pieces to evaporated milk. Stir over low heat until chocolate is melted and sauce is smooth. Serve warm or cool over ice cream and Nutty Fudge Squares. Makes approximately 1 1/2 cups sauce.

If your tastes run more to pie than cookies for a holiday dessert, make Nectarine Cheesecake-Pie. This will give you top rating as a cook.

NECTARINE CHEESECAKE-PIE

2 or 3 fresh nectarines
Unbaked 9-inch pastry shell
3 eggs

1/2 cup whipping cream
1 1/4 cups powdered sugar
2 packages (3 oz. each) cream cheese, softened
1 teaspoon grated lemon rind
1 teaspoon lemon juice

Slice enough nectarines to measure 1 1/2 cups; arrange in bottom of pastry shell. Beat 2 eggs lightly with cream and 1 cup powdered sugar; pour over fruit.

Beat cheese with lemon rind and juice and remaining egg and sugar; gently turn into pastry shell over fruit. Bake in 375-degree (moderately hot) oven 30 minutes. Cool thoroughly.

Cut 6 or 8 nectarine slices; arrange petal-fashion in center of pie. If you wish, blend additional cream cheese with milk until soft; dollop into center of pie. Makes 6 to 8 servings.

Add More Than Calories in Snacks

Plagued with the problem of the energy and nutrients required for children? This is a question that puzzles many mothers. And, there is no one or simple answer that applies to every child.

But, unless there is a problem of obesity or some other medical problem, nutritionists and medical authorities agree that snacks are as much a part of growing up as story time, comic books and television. In fact, they recommend wisely-chosen snacks for active, growing children.

Preschool children particularly need the extra nutrients that between-meal snacks provide. This is a period of very rapid growth and most young children, at the day's regular meals, simply cannot crowd enough nourishing food into their small stomachs to provide

3 eggs or 1 cup non-fat dry milk powder

Reconstitute frozen orange juice concentrate with water. Add sugar and stir until dissolved. If eggs are used, beat lightly until blended (do not overbeat or mixture will be too foamy).

Stir eggs or milk powder into juice mixture. Blend well. Pour mixture into popsicle forms, paper cups or individual gelatin molds; insert wooden stick or sturdy straw into each.

Place in freezer until frozen solid.

*If desired, substitute frozen tangerine, grapefruit or apple juice concentrate for the orange juice concentrate.

Makes 12 to 16 popsicles, depending on size of form used.

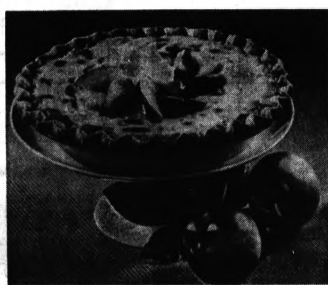

Plastic popsicle forms and wooden popsicle sticks can be found at food stores and houseware sections of department stores.

Frozen Juice Popsicles
1 can (6-oz.) frozen orange juice concentrate*

3 cans water
1/4 cup sugar

FROZEN JUICE POPSICLES — Snacks for children provide important nutrients when they are frosty popsicles made with frozen juice concentrates fortified with eggs or dry milk. The illustrated plastic popsicle forms obtainable at food stores and houseware sections are not necessary. Paper cups or individual gelatin molds can be substituted.

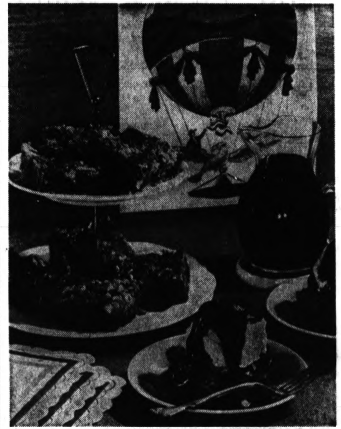

NECTARINE CHEESECAKE-PIE

Sweet Treats for the Kids

As a change from cookies and cakes you'll find that plain doughnuts can double in brass for you.

They can be used as the basis for an ice cream sandwich, can be split and served with chocolate pudding between the halves or a ball of peppermint ice cream can be placed over a doughnut and topped with hot fudge sauce.

Day-old doughnuts can be cut in half, spread with fruit jelly and chopped walnuts, then heated in a slow oven for five minutes. Sprinkle confectioner's sugar over top of each one before serving.

Softened Ice Cream, Dessert Topping and Strawberries Make Up a Special Sauce

Once again strawberry season, that glorious time of good eating, is here. And everyone agrees no dessert is more pleasing than one made with this favorite of the berry world.

Beef's Good, Too for Western Sandwich

In making Western Sandwiches, scrambled eggs are enriched with onion, green pepper and ham for the filling. But, if you like, you may use dried beef instead of the ham. Just saute the beef with the onion and green pepper before adding to the beaten eggs.

strawberries — alone, in pies or parfaits, or in a sauce. One of the most versatile sauces is this Strawberry Romanoff Sauce. You'll find it a smooth, rich complement to the perky flavor and soft, light texture of Lemon Snow and ideal to keep on hand in the refrigerator for summer desserts of fruit, ice cream, sherbet, or sponge cake.

The fluffy texture of this sauce comes from whipped topping mix, a handy product that can be stored conveniently on your pantry shelf, saving precious refrigerator space.

When you want a topping for summer desserts or iced beverages, just add milk to the mix and whip 2 or 3 minutes. Any leftover topping can be stored in the refrigerator to be used a day or two later — it would still or separate.

There is a Difference

When a recipe calls for "stewed" tomatoes, buy that variety to use. Some cooks confuse stewed tomatoes with plain canned tomatoes; the former are packed with bits of onion and green pepper and are well seasoned. The stewed tomatoes come in 4-serving cans and also in buffet cans to serve two.

Strawberry Romanoff Sauce
1 envelope whipped topping mix
¼ cup cold-milk
¼ teaspoon vanilla
1 pint vanilla ice cream, softened
¼ cup cointreau liqueur
2 tablespoons brandy
1 tablespoon rum
¼ cups sweetened sliced fresh

strawberries
Lemon Snow
Prepare topping mix with milk and vanilla as directed on package. Measure 1 cup; fold into ice cream. (Store the remaining whipped topping in the refrigerator for other desserts.) Gradually add liquors and pour over the strawberries. Stir until mixture is slightly thickened. Serve as a sauce

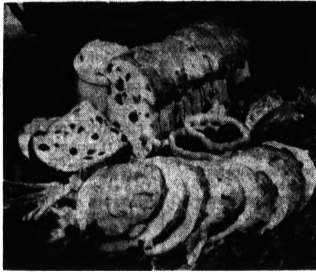

over Lemon Snow. Makes about ¾ cups or 12 servings.
Lemon Snow
1 package (3 oz.) lemon flavor gelatin
2 tablespoons sugar
¼ teaspoon salt
1 cup boiling water
¼ cup cold water
¼ cup lemon juice
¼ teaspoon grated lemon rind
1 egg white

Dissolve gelatin, sugar, and salt in boiling water. Add cold water, lemon juice, and lemon rind. Chill until thickened. Place bowl in another bowl of ice and water. Add egg white to gelatin. Whip with electric mixer or rotary beater until fluffy and thick — about double in volume. Pour into 8-inch square pan and chill until firm.

To serve, cut into squares and top with Strawberry Romanoff Sauce. Makes about 8 servings.

Rinse and Drain

Note to cooks who like to try foreign recipes: grape leaves, packed in brine, should be rinsed and drained before using. The grape leaves take to interesting rice stuffings.

AS YOU LIKE IT—Let everyone choose what he wants to put between slices of raisin bread. Offer an antipasto assortment and a pot of herb butter. Interesting and different.

Most Foods Good on Raisin Bread

"Perche No" means why not in Italian. And why not this inspired sandwich for your next round table discussion?

Between the slices of store bought raisin bread your guests can heap all the flavors of the great antipasto. The bread should be lightly spread with this good herb butter. After that the creator is on his own.

Provolone, cold roast veal, pimiento, green pepper rings, pitted ripe olives, green onions, anchovies — you name it.

This Perche No sandwich doesn't really require that all this be heaped between the

bread slices. There's plenty here for a salad on the side. The whole point of this sandwich is to show you how compatible raisin bread is with all sorts of undreamed of foods.

PERCHE NO ... AS-YOU-LIKE-IT ON RAISIN BREAD

¾ cup butter
¼ teaspoon lemon juice
1 teaspoon chopped parsley
¼ teaspoon mixed Italian herbs
1 (1-pound) loaf raisin bread
Sliced cold roast veal
Sliced Provolone or Fontina cheese
Whole pimientos
Green pepper rings

Anchovies
Connect California ripe olives
Blend softened butter with lemon juice, parsley and herbs. Arrange a tray of raisin bread with seasoned butter, veal, sliced cheese, pimientos, pepper rings, anchovies and olives for make-your-own-sandwich service. Makes 8 sandwiches.

Pep Up Dressing

A dash of cayenne can give spirit to homemade mayonnaise. If you like, you can also add a dash of the pepper to commercial mayonnaise; this combination is particularly good in seafood salads.

Chill in Special Pan

Frost Fish Mold With Creamy Mask

If you find making fish sandwiches a bore, yet can't think of anything to serve on fast days, here's a suggestion for a dish that is fun to make and a delight to serve.

It is the Salmon or Tuna Mousse covered with a mask of real mayonnaise. The mousse is made in a fish-shaped mold. Make it and mask it ahead, adding garnishes to suit your whim.

For supper, serve it with hot vegetables and a green salad. For lunch, serve it with a bowl of soup, and if sandwiches they must have, let them slice the

mousse and eat it sandwich fashion.

MASKED FISH MOUSSE

2 envelopes unflavored gelatin
¼ cup cold water
2 cups boiling water
¼ cup vinegar
¼ cup ketchup
2 teaspoons grated onion
1 teaspoon Worcestershire sauce
¼ teaspoon salt
¼ cup real mayonnaise
¼ cup heavy cream, whipped
2 (7½-ounce) cans tuna or salmon, flaked
¼ cup sliced celery
¼ cup sliced pimiento stuffed green olives

1 recipe Mask (below)
Pimiento, green pepper and olives for garnish

Sprinkle gelatin over cold water; let soften 5 minutes. Add boiling water and stir until gelatin is completely dissolved. Mix in vinegar, ketchup, onion, Worcestershire sauce and salt.

Chill until mixture holds its shape when dropped from spoon. Blend in real mayonnaise and whipped cream with rotary beater. Fold in canned fish, celery and olives.

Pour into 1½-quart fish-shaped mold. Chill until firm. Unmold onto serving plate. Spoon Mask over mousse.

Garnish immediately with an olive slice for an eye, pimiento and green pepper strips to outline tail and fins. Cut a way and remove any mask left on the plate. Chill. Makes 8 servings.

Mask

½ envelope unflavored gelatin
¼ cup hot bouillon or fish stock
¼ cup dairy sour cream
¼ cup real mayonnaise

Sprinkle gelatin over hot bouillon. Stir over hot water until gelatin is completely dissolved. Blend sour cream with mayonnaise, then stir in gelatin.

Let stand at room temperature until cool and slightly thickened, about 30 minutes. (If mixture becomes too thick to pour, melt over hot water.) Makes 2 cups.

Defrost Meat Out in Room if Hurried

Frozen meats can be cooked starting while they are still frozen but, how long will it take to thaw them if you want to cook them after they have thawed or defrosted?

Defrosting in the refrigerator will take a large roast four to seven hours per pound. A small roast will defrost in the refrigerator at three to five hours per pound. An inch-thick steak will take 12 to 14 hours.

Faster defrosting can be done at room temperature. It will take two to three hours per pound for the large roast.

For the small roast, allow one to two hours a pound. That inch-thick steak will thaw in two to four hours.

Always defrost or thaw meat in the wrapping in which it was frozen.

New Cooling in Surgery

By Science Service

LONDON — A new cooling technique that could be useful in neurovascular surgery has been reported successful in animals. The body temperature remains nearly normal during the cooling procedure.

A team of Western Reserve University physicians, Cleveland, Ohio, reported in the British scientific journal *Nature* that no functional or neurological abnormality could be detected in 25 young healthy anesthetized dogs after repeated cooling over a period of two weeks.

Within 10 minutes of terminating the cooling perfusion, the spinal cord temperature returned to normal levels. A volume of isotonic saline at 39.2 to 42.8 F. was continuously recirculated over the exposed spinal cord. The investigators used a DeBakey roller type pump, a Mayo pediatric heat exchanger and a submersible pump as a cooling reservoir.

The Incomparable EXPONOR 4/40

Solid-State Stereophonic High Fidelity Portable Photograph by SYLVANIA

Realism

...that rivals the concert hall!

It's like putting a handle on a concert hall! The most outstanding stereophonic high fidelity instrument of its kind. If you can't make room for a console and won't settle for less than professional quality in your stereo system, discover the incomparable 4/40. Superior styled and with custom-matched professional caliber components, balanced for maximum performance . . . it has no peer in its field.

- 40 watt RMS Solid-State Amplifier—70 watts peak power. Enough power in reserve for clearest response at all levels from both channels. Solid tone. Crisp mid-ranges. Full, round highs. And, because it's solid-state, it picks its power in space that belies its mighty performance.
- Air Suspension Speakers. This is the air-circled system that permits professional-quality performance in limited space. 4 speakers are enclosed in sealed extendable compartments that snap into the compact carrying cabinet.
- Garrard Custom Professional Turntable. The world-famous automatic 4-speed changer that meets precision component requirements. 11-inch weighted turntable. Shaded 4-pole motor assures correct musical pitch, minimum hum. High compliance ceramic cartridge. Diamond LP Stylus.
- Padded, leather grained carrying case. Accessory input jacks for headphones, tape, TV and tuner. "Master Touch" Audio Function Control Center.

Come in for a thrilling demonstration and listen to the World's Finest Portable Stereophonic Instrument by SYLVANIA

Tough Issues Face Congress After Recess

WASHINGTON (AP) — Congress will return from its prolonged July 4th holiday with more tough problems ahead of it than behind it.

The House calls it quits after a perfunctory session today. The Senate may hold a brief session Friday.

When the two branches return to work on July 11, their decisions on some knotty issues will be influenced by what the members find out back home during the recess.

The target date for final adjournment — barring unexpected developments — is early October, one month before the general elections in which all 435 House seats and 35 Senate seats will be filled.

MUST DECIDE
Between now and then, Congress must decide what to do about the foreign aid program, civil rights, the war on poverty, urban development in a selected group of demonstration cities, automobile safety, minimum wages, unemployment compensation, food for freedom, creation of a department of transportation, pay raises for federal employees and a batch of bills involving more than \$100 billion in appropriations.

Ready for House action after the recess are two of the more controversial measures of the year.

One would extend the foreign-aid program for two years with a price tag of about \$2.3 billion, subject to appropriations in a later bill.

The other would step up the administration's antipoverty program at a cost of \$1.75 billion. Recognizing the controversial nature of this bill, House leaders have scheduled it for a full week of floor action. That would

be the longest debate of the session for the House.

Another sizable bill being readied for House action is a new civil rights measure with a hotly contested housing provision. It, too, has been considered by the Senate. It has cleared the House Judiciary Committee but needs a go-ahead from the rules committee before it reaches the House floor.

An automobile safety bill passed by the Senate is tied up in the House Interstate Commerce Committee but is expected to be approved by that group later next month.

Widow's Quest for Trust Funds Stirs Legal Snarl

LANSING (AP) — An \$820,000 trust established by a Lansing man who died in 1964 and his widow's efforts to gain some of the funds in the trust have set eight lawyers to work on some brand-new legal issues.

The trust agreement of Herbert Halstead, established in 1948, provided that when he died, the trust would be liquidated and the money given to various charities and friends.

His widow, Hazel Halstead, 76, contends in Ingham County circuit Court that this deprived her of her legal 50 per cent share of her husband's total worth. Halstead's total worth was estimated at nearly \$1 million.

Lawyers for both sides say there is no precedent in Michigan law covering points at issue in the case.

Defendants in the civil case before Judge Sam Hughes are the trust beneficiaries, including several Lansing-area hospitals.

Job-Finding Just Too Easy

EAST LANSING (AP) — Anyone who really wants a job today can get one — and for college graduates, job-finding may be even too easy, the director of Michigan State University's Placement Bureau said Wednesday.

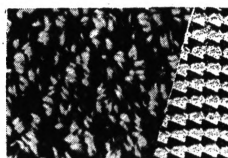

Many of the employers who came to MSU looking for graduates this year — and offering more than \$665 a month in some cases — left without filling their quotas, said Jack Shingleton.

"This means there are still many unfilled jobs in business and industry," he said.

One problem, he added, is that "whenever there is an abundance of jobs, the effort on the student's part becomes less. Consequently, he doesn't always get the best job that's available."

The \$665 was the average starting salary offered to electrical engineers with bachelor's degrees and no experience.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Status of Major Legislation

14B Repeal Dead for Session of Congress

WASHINGTON (UPI) — Status of major legislation:

LABOR

RIGHT TO WORK — President asked for repeal of section 14B of the Taft-Hartley law, under which 19 states have outlawed union shop contracts between management and unions. House: Approved. Senate: Filibuster blocked action, repealed dead for this session.

WAGE-HOUSE — Administration and labor now supporting legislation to raise the \$1.25 hourly minimum wage to \$1.40 on Feb. 1, 1967, and to \$1.60 on Feb. 1, 1968.

Also would give new minimum wage coverage to about 8 million workers for the first time, including farm hands and service industry workers. House: Approved bill with \$1.50 step delayed until 1968. Senate: Subcommittee considering House bill.

UNEMPLOYMENT COMPENSATION — Johnson asked Congress to liberalize and make uniform unemployment compensation payments in the states. House: Passed bill leaving out provision that would set federal minimums and standards for paying benefits. Senate: Finance committee hearings start July 13.

PICKETING — Administration is supporting a bill sought by organized labor that would repeal secondary boycott restrictions of building trades unions picketing construction sites. House: Education and labor committee approved; floor action indefinitely postponed. Senate: Waiting for House.

WELFARE — Congress will review authority for continuation of war-on-poverty for a third year. President has asked for \$1.7-billion authorization, and an actual appropriation of \$1.6 billion compared to the \$1.3 billion requested and got last year.

House: Education and labor committee approved \$1.75-billion bill, with new restrictions on program administration. Senate: Labor subcommittee has held hearings.

CIVIL RIGHTS

HOUSING — JURIES — President's omnibus civil rights request would outlaw racial discrimination in the sale or rental of housing; seek fair selection of state and federal court judges; provide new legal protection against violence directed at Negroes and rights workers; and give the Justice Department new power to seek school and public facilities desegregation.

House: Judiciary Committee has approved all sections but housing which it takes up Monday. Senate: Hearings under way before judiciary subcommittee.

JOB DISCRIMINATION — The President has endorsed legislation that would give the new equal employment opportunities commission authority to enforce its own findings of illegal discrimination against employers or labor unions instead of going through the federal courts. House: Passed. Senate: No action.

CRIME — President has asked prohibition on mail order sales of firearms except through federally licensed dealers and manufacturers. Senate: Judiciary subcommittee has approved bill. House: Ways and Means Committee has held hearings, awaiting Senate action.

NARCOTICS — Administration is supporting reforms of narcotics laws to provide civil commitment for medical treatments instead of mandatory jailing of offenders. House: Approved. Senate: Hearings under way in juvenile delinquency subcommittee.

REDISTRICTING — House approved a bill to limit gerrymandering by requiring that congressional districts be compact and composed of population within 15 per cent of the "ideal" average for each state. Senate: Judiciary Committee approved a revised bill, prospects clouded.

HOME RULE — Administration has requested legislation to permit Washing-

ton, D.C., to elect its own local government. Senate: Approved. House: Approved differing version, requiring vote of citizens on home rule question. Efforts to reconcile the two bills have apparently failed.

FOREIGN AFFAIRS

FOREIGN AID — Administration asked \$3.38 billion in overseas economic and military aid during the year starting July 1 plus an unspecified amount of assistance to South Viet Nam. Also called for authorizing program for five years instead of present one year.

House: Foreign affairs committee approved almost entire money request and endorsed two-year authorization. Senate: Foreign relations committee cut \$142 million but refused to go more than one year on extension.

CONSUMERS

TRUTH-IN-LENDING — President Johnson proposed on March 21 that lenders be required by law to tell borrowers the true annual interest and total amount of interest for consumer credit. Legislation has not yet been submitted. Senate: Has similar bill by Sen. Paul Douglas, D-Ill., which is stalled in banking committee. House: No action.

TRUTH-IN-PACKAGING — The administration has endorsed

legislation to require more packaging and labeling information for the consumer on the quantity, quality and price of supermarket type goods. Senate: Approved. House: Commerce committee plans hearings soon.

FARM

President Johnson has asked for a five-year, \$3.3-billion annual "food for freedom" program to sell and give food to hungry nations. House: Approved a \$3.3 billion annual program for only two years. Senate: Agriculture committee hearings completed.

EDUCATION

ELEMENTARY-SECONDARY — Administration asking four-year extension of grade and high school aid law enacted last year with authority to spend \$1.4 billion in 1967-68.

House: Education subcommittee approved \$2.2-billion authority for 1966-67, \$1.1-billion total authority for four years. Senate: Education subcommittee hearings completed.

COLLEGES

Administration asked \$900 million in new one-year authority for higher education construction aid, with proposal to begin cutting back direct federal loans to college students under heavy fire. House: Approved \$2.95 billion three-year construction loan program. Senate: No action yet.

State Girl, 15, Drowns

GLADSTONE (AP) — Ann Cole, 15, of Gladstone, drowned Wednesday in Little Bay De Noc at the top of Lake Michigan. Carline Bruntjes, 15, also of Gladstone, told authorities she and Ann were wading when the latter suddenly slipped over her depth and went under.

Radiation-Transmitting Glass Is Out

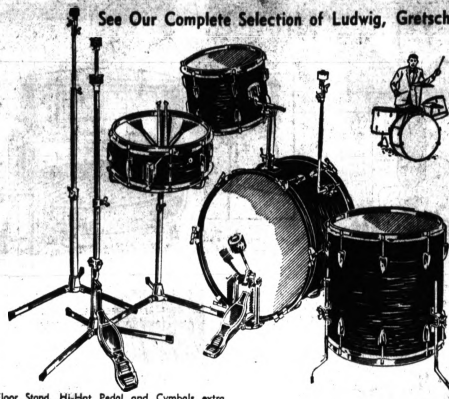

By Science Service
CORNING, N.Y. — A new glass that transmits a high range of infrared radiation is expected to find wide use as a dome for heat-seeking missiles and in optical instruments. The glass is called Cortran

Code 873 by its manufacturers, Corning Glass Works, here. It transmits about 85 per cent of the infrared energy at from four microns, or 40,000 Angstroms, down to four-tenths of a micron.

For missile applications, the glass has excellent corrosion resistance, mechanical strength and rain erosion properties. It is being marketed by Corning's Advanced Products Department.

ALONE IN A CROWD—A guy and his girl, unaware they are central figures in this summertime beach scene at Dodge Park No. 4 on Cass Lake, are lost in a sweet embrace. They are typical of the thousands of swimmers,

sunbathers and sweethearts who will flock to area lakes and beaches over the three-day July 4 holiday weekend.

Area Youths Named to U.S. Academies

The appointments of six Pontiac area youths to United States service academies has been announced by Congressmen William S. Broomfield, R-18th District, and Billie S. Farman, D-18th District.

Ronald J. Lewis, 17, son of Mr. and Mrs. Howard Lewis, goes to West Point Military Academy. Lewis, of 1021 Argyle is a Pontiac High School graduate.

Also going to West Point are Joseph E. Aldrich, 18, of 124 Glendale, Rochester, and Kery C. Lawrence, 18, of 2327 Whiteleigh, Birmingham.

Aldrich, son of Mr. and Mrs.

Edwin M. Aldrich, attended the Rochester Senior High School and Phillips Exeter Academy in Exeter, New Hampshire.

Lawrence, 18, son of Mr. and Mrs. Jack Howard Lawrence, graduated from Seaholm High School in Birmingham.

AIR FORCE

Appointed to the Air Force Academy is David L. Smith, 18, son of Mr. and Mrs. Kenneth C. Smith of 20636 Kensington Court, Southfield. He was attending Michigan State University.

Chosen for the Naval Academy are Raymond J. Kaufman and Richard E. Walton, both 18.

Kaufman, son of Mr. and Mrs. John H. Zich, 6100 Indianwood Trail, Birmingham, has graduated from Bloomfield Hills High School.

Walton, 6251 Willow, West Bloomfield Township, son of Mr. and Mrs. Otis Walton, graduated from West Bloomfield High School.

Staff Project Funds, Pay Hikes Sought

Salary increases for administrators and financing of special staff projects which could boost the 1966-67 school district budget by some \$200,000 were presented to the Pontiac Board of Education at its regular meeting last night.

The proposed expenditures are in addition to the estimated \$525,000 cost of higher teacher salaries and, if adopted, will push Pontiac's school budget for next year some \$535,000 above the district's estimated income.

Supt. Dr. Dana P. Whitmer said the over-the-budget expenditures could be met with funds from the district's unallocated cash reserve and would not affect the tax rate.

Training Plan Is Endorsed

A \$1,041,964 school district training project met with the general approval of Pontiac School Board members last night, but one board member at the meeting expressed a hope that future programs would aim for better jobs.

Dr. Robert R. Turpin, commenting on a proposal to finance training of 165 adults and 115 youths in seven different job categories, indicated he had some reservations about the jobs offered.

Included in the project, which has already received approval of the Pontiac office of the Michigan Employment Security Commission (MESC), are training in auto body repair, food services, building maintenance, and domestic skills.

"I would hope to see us get into something that would really be profitable to the persons involved," Turpin said.

"What about the skilled building trades — plumbing, carpentry and so forth?"

Maurice M. Proffengeier, director of vocational education for the schools, said the jobs were based on an MESC survey by 18 months ago of "definite employment needs."

"Since that time there has been an increase in the need for higher paying skilled labor," he said, "but when we drew up the proposal we had to go with the jobs the MESC said were needed."

The proposal, entitled a Basic Education Multi-Occupations Program, will receive federal funds under the Manpower Development and Training Act and is subject to final approval by the State Department of Education.

Chief beneficiaries of the district's salary agreement with the Administrators' Association are administrative assistants at

Pontiac School Board

junior high schools and elementary school principals.

First-year administrative assistants will receive \$10,738 a year compared to \$9,682 previously.

Elementary principals are scheduled to go from \$11,474 to \$13,245 in the top experience classification, with part of the raise coming next year and the remainder in 1967-68.

The entire salary package for administrators, which also includes a group life insurance plan, will cost the district an estimated \$74,486 for the fiscal year 1966-67.

Administrative secretaries were voted a \$250 pay raise for next year by the board, calling for an additional expenditure of \$4,500 above the preliminary budget figure.

OTHER EXPENSES

Other proposed expenditures, which will face final action by the board at its July 13 meeting, include \$15,000 to finance a \$3 a day raise for substitute teachers; \$13,450 for additional instructional personnel; and \$105,616 for staff projects ranging from an additional community school program to curriculum development in secondary mathematics.

Teacher Gets Aide Position

C. Gale Hixson Jr., 27, presently a physical education instructor at Kennedy Junior High School, last night was appointed by the Pontiac School Board as an administrative assistant at the same school.

Hixson was first employed by the school district in 1960 after receiving his B.S. in education at Ohio State University. He completed work on his master's degree from Michigan State University this spring.

A specialist in educational administration, Hixson has served as teacher vice president of the Kennedy Parent Teacher Association and for four years has been recreation leader of the city's Department of Parks and Recreation.

Joint Board Formed by Avon, Rochester

A joint water and sewer authority was created by the Avon Township Board and the Rochester Village Council last night to handle all future water and sewer problems faced by the two municipalities.

The authority was set up at a joint meeting which had been called to discuss mutual water and sewer problems.

Appointed to serve on the new board were Roy Rewald, village councilman; William Blackie, village manager; Charles Vigor, chairman of the township's advisory water and sewer board; and James Carlisle, a member of the township's advisory water and sewer board.

The group is scheduled to hold an organizational meeting tonight.

Township Supervisor Cyril E. Miller said he was very pleased with the action taken last night. He said he felt it was one of the most fruitful meetings between the two municipalities.

"I feel we're really going to make some progress now," he said.

Last night's meeting had been called specifically to discuss a supplemental agreement for sewage treatment in connection with the proposed Clinton-Oakland Sewage Disposal System.

The township is trying to get its share of the cost of the proposed system reduced before signing an agreement with the Oakland County Department of Public Works.

In the meantime, the township is considering a supplemental agreement whereby it would use the village's sewage treatment plant. However, several legal problems must be straightened out first.

Financial consultants at Stratton Associates, Inc., of Detroit, suggest that such an agreement would assist both the township, in providing an immediate source of sewage disposal treatment, and the village, in re-

ceiving additional revenue from the treatment of the sewage. Also discussed last night was sewer service from the village to the township to service the new Crittenton General Hospital and other projects.

Both groups directed their engineers to determine what areas could be served, the capacity required and the rate which the village would charge the township.

Pontiac Press Photo

ROOSTER? WHAT ROOSTER? — Sunday the cat and Fluffy the rooster seem to think they are sister and brother, according to their owners, Mr. and Mrs. Richard Strangway, 377 South Blvd., Avon Township. The two were raised together, and Fluffy spends all his time with Sunday and the other cats. He refuses to acknowledge the other fowl, which Strangway raises as a hobby.

'Signatures Lacking'

Judge Cancels Vote in Avon

AVON TOWNSHIP — A referendum election scheduled for Aug. 2 on a zoning question has been canceled by an Oakland County Circuit Court order.

Judge Arthur E. Moore yesterday ruled that the township cannot conduct the election because a sufficient number of signatures were not on the petition demanding the vote.

Nearly 1,400 township residents had petitioned the Township Board to place the zoning of 46 acres on South Livernois near Hamlin from agricultural to light industrial on the ballot.

The board rezoned the property last March on the request of the owner, R&C Robertson, Inc. The decision was made over 1960 census.

the protest of neighboring home owners living in the area.

CHALLENGED PETITIONS Early this month, developers of neighboring property, Robert Cascadian, Calvin Robertson and Robert Tachick, challenged the referendum petitions and presented their arguments at a show-cause hearing before Moore June 20.

Moore took the matter under advisement until yesterday when he gave his opinion.

According to Moore, the referendum petitions required a minimum 3,201 signatures to be valid, or 15 per cent of the 21,377 residents in the township in the 1960 census.

Michigan Fair Season Under Way

Michigan's 1966 fair season will open tomorrow, heralding a period when hundreds of thousands of citizens will attend fairs and exhibitions in various parts of the state.

The season opener will be a four-day event at Lake Odessa, according to James Hall of the Michigan Department of Agriculture's county fair section.

Oakland County's 4-H Fair is scheduled for Aug. 9-13. Largest of the 75 fairs planned will be the Upper Peninsula State Fair Aug. 16-21 at Escanaba and the Michigan State Fair Aug. 26-Sept. 5 in Detroit.

Those that have announced dates are:

Sparta, July 8; Vassar, July 11-16; Crosswell and Marne, July 18-23; Hartford and Hastings, July 25-30; Fowlerville, Greenville, and Big Rapids, July 26-30; Hale, July 27-30; Jackson, July 31-Aug. 6.

Ann Arbor, Aug. 1-5; Cadillac, Holland, Monroe, Harrison, Mason, and Caro, Aug. 1-6; Chatham, Aug. 6; Ravenna, Aug. 2-6; Adrian, Aug. 7-13; Alma, Aug. 8-9; Bad Axe, Cassopolis, Bay City, and Coldwater, Aug. 8-13; Jona, Aug. 6-15; Grand Blanc, Aug. 9-11.

Pleas Issued for Holiday Safety

LANSING (UPI) — Safe driving pleas were issued by the State Police, secretary of state and the State Highway Commission today on the eve of the long July 4th weekend.

"Drive as if your family were in every other car on the road," Secretary of State James M. Hare urged motorists.

He also reminded drivers of the "lights on for safety" campaign during the weekend.

State Police Director Frederick E. Davids said 23 persons died in highway accidents and 12 in water mishaps in Michigan during the July 4th holiday period last year.

Even worse, he said, were the 43 traffic deaths and 19 drownings during the recent Memorial Day holiday.

ACTIVE EFFORT "Michigan's road and water accident tolls can be reduced through active efforts by holiday celebrants for the safety of themselves and others," Davids said.

"Whatever activities you plan, they can be more happily enjoyed if sensibly and safely done."

The highway commission said up to 2,300 vehicles an hour will move past one spot on a busy highway during the peak travel hours of the holiday.

Heaviest traffic is expected from 4 p.m. to 9 p.m. tomorrow and from noon to 8 p.m. Monday.

BUSY ROUTES

To be avoided during the peak traffic periods when possible, the commission said, are north-south routes leading from metropolitan centers to recreational areas.

Some of the busier highway sections noted by the commission were U.S. 27 from Lansing to Clare; I-75 and U.S. 27 from Clare to Macinac Bridge; I-75, U.S. 23 and U.S. 10 from Flint to Saginaw; U.S. 22 from Brighton to Flint; I-96 from Detroit to Brighton; and I-44 from Detroit to New Buffalo.

Contract Is Let for Post Office Utica Board of Education Names New School Aide

HOLLY — A contract has been awarded to the Northland Construction Co., Detroit, to build the new post office in Holly and lease it to the U.S. Post Office Department.

The new building at 104 Mile will represent an estimated total investment of \$71,500 by the successful bidder.

It will be leased to the post office department for 10 years with renewal options running through 20 years at an annual rental of \$7,500 for the basic term.

The one-story building will have an interior space of 3,276 square feet with the area for parking and movement of postal vehicles totaling 9,555 square feet.

The post office is expected to be completed about April 1, 1967, after plans are approved.

Capital investment of the department will be limited to postal equipment. The building remains under private ownership with the owner paying the taxes.

UTICA — Arthur Woodhouse has been appointed by the board of education to succeed Floyd Ebbling as assistant schools superintendent.

Ebbling will become principal of the Jack Harvey Elementary School.

WOODHOUSE, 6477 Mound, Washington Township, has had 12 years of service in the Warren School System.

As the first principal of Warren's Mott High School, he is credited with introducing modular scheduling.

This computer-generated master schedule is designed to provide more efficient utilization of the student and teacher's time.

ALSO A COACH

He was also baseball and football coach in the Warren School System.

Woodhouse is a former member of the Warren City Council and the Macomb County Board of Supervisors.

Presently, he is serving as a member of the board of directors of the National Bank of Warren and as a member of the central county committee of the Macomb Action Program, a part of the Economic Opportunity Program.

Building Suppliers See Boom

WALLED LAKE — A future as the building supply capital of southeastern Michigan could be in store for Wallied Lake — if several of the building suppliers have anything to say about it.

"We visualize a whole little complex of suppliers," said Marvin Rosenthal, president of the National Lumber Co.

His Warren-based firm has plans to relocate on the east side of Decker, north of the Grand Trunk Western Railroad Co. tracks.

Michigan Building Components Inc. recently moved from Birmingham into a new facility on the south side of the tracks.

Holding property on Welch for future moves into the area are the Beatty Lumber Co. of Birmingham and Asa Building Supply Inc. of Madison Heights.

ALREADY HERE Already in Wallied Lake are two lumber companies, a door company and a wood products manufacturer.

"There are going to be more," Rosenthal said, noting other suppliers are considering the area for sites.

National Lumber Co., which owns a 25-acre parcel, probably will start building its headquarters here next winter, he said.

Standing in the way of construction is the swampy site, which must be filled before building can get under way.

ALSO PLANNED

Also planned for the site is a group of offices to be leased to contractors.

Rosenthal said his company employs more than 100 persons and has a \$10-million-a-year business volume.

The suppliers are convinced, Rosenthal said, that the area soon will be involved in a building boom which should last for 25 years.

Trustee Quits Township Post

FARMINGTON TOWNSHIP — Thomas A. Duke, township board trustee, has resigned from public office.

Duke's letter to the board stated he was quitting because of the demands of personal business. He asked that his resignation be effective immediately.

Duke has been a member of the board since 1960.

No one has been appointed yet to fill Duke's office.

Why do more Scotch Thinkers drink McMaster's?

Great taste—Great price! Yes, sir, McMaster's gives you a smooth \$7 Scotch value for just \$4.97. How come? Ingenuity. They ship it to this country in barrels, bottle it after it gets here. Guardsmen Battle Forest Fire

CAMP GRAYLING (AP) — Four hundred Michigan National Guardsmen turned out Wednesday to help fight a forest fire which burned over 100 acres, threatening several cottages, four miles east of Grayling.

With the help of some 100 Conservation Department fire fighters, the guardsmen were able to stem the blaze's advance and extinguish it, despite bone-dry conditions prevailing in the area.

Comedian 'Caps' Career

Toothy Smile Wins Play Lead

By BOB THOMAS
AP Movie-TV Writer
HOLLYWOOD — "Enter Laughing," and with a brand new smile: Reni Santoni.

Who is Reni Santoni? He is a young New York comedian who is playing the lead in "Enter Laughing," a fictionalized version of Carl Reiner's advent into show business.

"My teeth," he points out, exposing them happily. "They're new. Cost me thirty-five hundred dollars. Like them? You'd better."

I liked them. So does Reni (short for Renaldo). He smiles often and the effect is beguiling.

SCREEN CREDIT DUE

"This is something new for me," he admitted. "I never used to smile much. Or if I did, I'd smile on one side of my mouth, because my teeth were crooked on the other side. Now it's different. I'm so happy about it that I think there should be screen credit: 'Mr. Santoni's teeth by'."

Orthodontist's gift to Hollywood has reason to smile these days. He is starring in his first film with a cast that includes Jose Ferrer, Shelley Winters, Elaine May, Jack Gilford and Janet Margolin. All this because the producer's wife happened to be watching television.

The producer is Joseph Stein, who authored the play "Enter Laughing" from Reiner's novel.

Like many a Hollywood star, Reni had his teeth capped. His new appearance, his natural ebullience and youthful appearance — he's 27 but can pass for 18, as required in the script — won him the role.

Reiner comes from the Bronx, as did Reiner. He studied journalism at Syracuse University and as a teen-ager handicapped the horses for a Perth Amboy newspaper.

He rattled around television, off-Broadway and nightclubs for a few years with spectacular results.

Goldberg Denies Rumors He's Unhappy, Feuding With Rusk

UNITED NATIONS, N.Y. (AP) — As he nears the end of his first year as U.S. chief delegate to the United Nations, Ambassador Arthur J. Goldberg says he is ready to remain in his post as long as the State Department wants him to stay.

In a half-hour interview, he brushed aside reports that he is unhappy in his job and that he is feuding with Secretary of State Dean Rusk. He expressed hope that after 11 months in office he is doing a useful job.

He hinted that he sometimes disagrees with Rusk, but denied that he wants Rusk's job or any other. He declined comment on the U.S. bombing of Hanoi and Haiphong oil facilities.

A U.S. delegation spokesman told correspondents published reports "of Mr. Goldberg's happiness or unhappiness I would characterize as hogwash."

The reports said Goldberg is unhappy because Rusk is against scaling down the Vietnam war and is keeping U.N. Secretary General U Thant from President Johnson.

"I took this job not to enjoy myself," he went on. "I took this because I thought it was a duty assignment for our country. I still think it is. I haven't changed my mind. Anything insinuating to the contrary is not well founded."

NO FEUD

As to the reports he was displeased with Rusk, Goldberg declared: "I have no feud with the secretary of state, as you say myself. He expressed himself. That's normal in the government. But we are very good friends. We have the most amicable and congenial relations."

"I also have no desire or ambition to become secretary of state or hold any other office other than the one I now hold."

He said he still feels as he did last July 20, when he accepted the U.N. post and told White House reporters his Supreme Court service would always be "the most enjoyable experience" of his life.

NO DIRECT REPLY

Goldberg himself did not reply directly when asked if he regretted he had left the Supreme Court to come here, saying: "Once I make a decision, I make a decision. It's kind of futile to look back. You have to look forward in life."

"I'm a grown man, I've made a decision and I'm busily engaged in what I'm doing now."

He said he still feels as he did last July 20, when he accepted the U.N. post and told White House reporters his Supreme Court service would always be "the most enjoyable experience" of his life.

Hotel Astor Calls It Quits in NY Today

State Ranks 4th in Aid Tentatively Allocated

NEW YORK (AP) — The Hotel Astor, which has stood along gaudy Times Square like a maiden aunt for nearly 62 years, calls it quits today.

This morning, her last 150 guests will check out, the 450 employees will leave their jobs, and the wrecking crew will take over. The Astor, a Broadway landmark, is coming down to make way for a 40-story office building.

"It's sad. Any passing is sad," said Erwin O. Schel, the hotel's general manager.

Henry Pottinger, the assistant bell captain, looked across the red-carpeted lobby and said, "The Astor's just out of this world. It's been like a second home to me. I've spent half of my life here."

For years, the Astor was home to presidents and show business people. Every president since 1833, and also, according to favorite Astor legend, a man went to sleep thinking he was president — and woke up a loser.

He was Charles Evans Hughes, who bedded down in the presidential suite in 1916 after hearing the favorable early returns. But, during the night, the California vote came in and put Woodrow Wilson in the White House.

The lobby of the Astor didn't full-time equal children actually means that he may have night. Guests still were check-ups of 30,000 children of migrant workers in the state had to turn down hundreds of reservations that continued to pour in.

HEAT HELD CAUSE OF MANY DEATHS

Michigan Studies Show That Frequency Rises After 60

ANN ARBOR, Mich.—A University of Michigan scientist says that "a killer of a heat wave" can be more than an expression; it often poses a real threat to human life.

According to Dr. Stanley H. Schuman, there is strong evidence that prolonged summer heat waves cause a striking number of deaths. But medical and engineering advances can prolong life and protect persons in homes, cars and industries from unusual heat stress. Thus many persons are surviving despite low physiological tolerance for high temperatures and humidity, he says.

While these people are clearly in jeopardy during severe heat waves, the actual extent of the problem is still unknown. Dr. Schuman explains that "heat illness or heat stroke has never been a cause of death noted frequently on routine death certificates."

Recent studies show "remarkable" increase in mortality in large urban populations from periods of sustained, but not necessarily record-breaking, heat," according to Dr. Schuman, an assistant professor of epidemiology.

With James T. Oliver, principal statistician of the Detroit Health Department and assistant professor at Wayne State University, Dr. Schuman collected data on the number of deaths that occurred in 108 United States cities on days with "unusually high temperatures" in the last three summers.

"They compared this information with mortality statistics for periods with normal mean temperatures and discovered, for example, that 1,665 'excess deaths' occurred during June and July, 1963.

Dr. Schuman pointed out that these unexpected deaths often result from cerebral strokes.

"Over the past 10 years, strokes have consistently accounted for about 10 per cent of the deaths in Michigan, but in periods of heat stress during 1962 and 1963, the number of such deaths in the state rose to 15 per cent," he said.

He also found that "excess deaths" frequently occurred among those more than 60 years old, adding: "There is a fixed pool of susceptibles among the elderly who are unable to survive sudden stresses, such as influenza or unusual heat."

However, this is not exclusively a problem for the elderly, he said, explaining: "Preventable deaths will continue to occur among youngsters engaging in competitive sports, among military recruits, and among summer workers."

OWN PROGRAMS

Under current plans, Polley said his department could conduct its own programs or contract with local school districts or nonprofit organizations.

"We know most of these children are with us during the summer months only," Polley said. "Thus, the estimated 1,129 full-time equal children actually means that he may have upwards of 30,000 children of migrant workers in the state had to turn down hundreds of reservations that continued to pour in."

Junior Editors Quiz on
BEAUTY

QUESTION: Who was the prettiest lady in history?

ANSWER: Our questioner has given us a bit of a problem here. How could we answer without having looked at all the beautiful women who ever lived?

And if we did find one, she would be only our favorite. Others might disagree.

Standards of beauty are different in different countries, and in different historical periods.

We have, however, selected three lovely ladies which, at different times, have been considered as being tops in feminine attractiveness.

The distinguished looking lady at upper left is Queen Nefertiti, the wife of the Egyptian King Akhenaton, who ascended his throne in 1370 B.C.

Her finely chiseled, aristocratic face reflects the Egyptian ideal of beauty.

The lady with the flowing hair is from a picture of Venus by Botticelli, painted in the days of the Italian Renaissance. Venus, of course, was a goddess, not an actual person. We are all familiar with the charm and beauty of Jacqueline Kennedy, deserving a top place in any period.

FOR YOU TO DO: Inside the heart, in the fourth square, we leave a space for you to draw a beautiful lady of your own choice. We give marks for the top of her head, center of eyes, nose and chin.

Says C. of C. Chief

Guidelines 'Disruptive'

DETROIT (AP) — M. A. Wright, president of the Chamber of Commerce of the United States, said today there is fear the government wage-price guidelines "may eventually become legally sanctioned by Congress and enforced on a formal basis."

So far, Wright said in speech prepared for delivery before the Economic Club of Detroit, "application of the guideline concept has been limited almost exclusively to business."

He added "labor leaders have openly opposed the whole concept" of guidelines in which President Johnson suggested that wage gains be limited to 3.2 per cent, or the amount of productivity gain, to avoid necessity for price increases.

FIRST MAJOR SPEECH

Asserting that guidelines have "disrupted the free play of the marketplace," the Humble Oil & Refining Co. president also said in his first major speech since becoming chamber president.

"With the uncertainties that lie ahead in an increasingly complex world, we can ill afford to experiment with concepts which are untried and of questionable value."

"If inflationary pressures should intensify, non-defense expenditures should be reduced and other restraining measures should be employed."

"To make such measures more effective and precise, it would be well for the govern-

ment to consider the establishment of a highly qualified, non-political commission to explore the advantages and disadvantages of the various monetary and fiscal controls available to the government."

"It might... reveal a way of removing politics from the administration of fiscal controls, in the same way that politics was removed from monetary controls many years ago."

Wright urged fellow businessmen to participate in such a commission if it were created. He said they too often stand aloof and then complain when "we see government taking what we are convinced is the wrong course."

Second Try Fails
to Revive Surveyor

PASADENA, Calif. (AP) — Scientists failed a second time Wednesday night to awaken America's lunar photographer, Surveyor I, after the frigid, two-week lunar night.

A Jet Propulsion Laboratory spokesman said another attempt would be made tonight to reactivate the picture-taking craft.

If those efforts fail, the spokesman said, JPL will discontinue efforts until July 9 — two days after the lunar noon — when the sun will focus directly on Surveyor's solar panels.

DOG DAYS — In this hot weather, it doesn't take much to make this dog jump with joy. Gypsy, a collie (of sorts), delights in jumping five or six feet in the air each time his master, Jim McEwan, 10, squirts water at him. The setting is a Brantford, Ont., park.

LONDON (AP) — As Britain's merchant seamen headed back to their ships today — grumbling that their 45-day strike had gained them little or nothing — experts estimated that the tie-up may eventually cost the country as much as \$280 million.

LONDON (AP) — As Britain's merchant seamen headed back to their ships today — grumbling that their 45-day strike had gained them little or nothing — experts estimated that the tie-up may eventually cost the country as much as \$280 million.

What editorials called "this terrible cost" cut clear across Britain's shaky economy — from lost wages and depleted union treasuries to lost exports and into the vaults of the Bank of England.

Some foreign currency dealers estimated the bank had to spend \$140 million to support the pound against new attacks in world money markets during the strike, with its inflationary threats.

Added to this were the losses to the ship owners.

The cost to the public — in higher prices for food and other commodities — could not be estimated accurately yet.

STRIKE BENEFITS

The Seamen's Union estimated it paid out the equivalent of about \$750,000 in strike benefits.

Ship owners and exporters were anxious to get the ships out of clogged ports as quickly as possible. But they faced more delay — the strike will not end officially until midnight tomorrow. Union leaders said they needed more time to explain the settlement to their angry rank and file.

[illegible]

Arms Spending Accord

WASHINGTON (AP) — A "structure is not in the national interest," the House and Senate Conference Committee has agreed on a compromise \$17.4-billion military authorization bill.

UNIFIED VOICE

The measure would provide funds the administration didn't seek or want, including money for a controversial nuclear powered frigate for the Navy and an additional \$20 million for items connected with construction of a second one.

The conference quickly agreed Wednesday on a final draft of language intended to express congressional intent the nuclear frigate should be built.

As approved, the bill says the contract for construction of the barge for which funds are authorized in 1967 "shall be entered into as soon as practicable unless the President fully advises the Congress that its con-

Robert Kennedy Says Fair Election Holds Best Hope for U.S. in S. Viet

GOING BACK TO VIET — Army Pvt. John Albert Jones, 19, was loaded on a Viet Nam bound plane at Travis Air Force Base Tuesday on request of his unit of the 25th Infantry Division. The Knoxville, Tenn., soldier let another man take his place at the front line. He agreed at a San Francisco party last June 18 to let a 47 civilian go back in his place.

By JACK BELL
WASHINGTON (AP) — Sen. Robert F. Kennedy said today the fair election of a civilian government offers the best hope of gaining world support for American actions in Viet Nam.

Kennedy, New York Democrat who has contended the Johnson administration has not gone far enough in trying to get peace talks under way, said the possibility for major talks he had said the United States Nam targets is going to make more difficult any attempts to negotiate an end to the fighting.

Wednesday's bombing of oil storage facilities in the Hanoi and Haiphong areas also made the possibility for major talks he had said the United States Nam targets is going to make more difficult any attempts to negotiate an end to the fighting.

Kennedy said that just as free

elections "rectified the damage" of U.S. intervention in the Dominican Republic — an action which he had criticized — they could help convince the world that the United States seeks only self-determination for the people of South Viet Nam.

In a wide-ranging interview with the Associated Press, Kennedy said:

The International Control Commission made up of Canada, India and Poland should be asked to supervise the preparations and actual voting in the

projected September South Viet Nam elections.

President Johnson should send more "high level people" to Africa and boost U.S. economic aid to a continent that now gets an annual amount equal to the cost of five days of fighting in Viet Nam.

It would be "a major political mistake" to reduce the U.S. troop commitment in Europe at this point but he favors exploring the possibility with the Soviet Union of reciprocal withdrawals.

QUESTIONS, ANSWERS

Here are some of the questions and answers:

Q. Do you believe that the elections in South Viet Nam will produce in time a viable civilian government?

A. I think that it is difficult to accomplish but I am in favor of taking that step. I think that the

United States should actively encourage elections and that we should provide for the supervision of the elections by either the United Nations or by the ICC, asking them to increase their numbers to supervise the elections.

A. No, but I think our position is much, much stronger if we made that request and made that effort. I think international observers should be in there during the period prior to the elections to insure that there is no intimidation so that the people in Viet Nam and around the world would have some confidence in the election.

Daniel Boone Gets Permit for Pistol

ST. JOSEPH (AP) — A sign of how times have changed: To carry a pistol while hunting, trapping or target shooting, Daniel Boone got a gun permit from the Berrien County clerk's office Wednesday.

This Boone is 29 and lives in neighboring Benton Harbor. He was obeying Michigan law in getting the permit.

Q. Suppose there is no super-vision of the election by an international body? Does that mean the results cannot be accepted?

A. No, but I think our position is much, much stronger if we made that request and made that effort. I think international observers should be in there during the period prior to the elections to insure that there is no intimidation so that the people in Viet Nam and around the world would have some confidence in the election.

Q. In your judgment will the escalation of bombing of North Viet Nam foreclose a possibility of the major talks you have said we ought to have with Communist China?

A. Well, I think that result is going to be difficult to accomplish at best, but I think there is no question that it is going to be

at least for the immediate future much more difficult.

Q. What about a Southeast Asia settlement?

A. That will involve China. I expect that the step Wednesday's bombing of oil facilities, is being taken in order to put greater pressure on them and on Hanoi. My feeling is that it is an escalation that is not going to bring about that result. It is a hardening of an attitude.

Cocktail cues: Make drinks fresh, seconds before sipping.

Bad Weather Moves to Gulf

Squalls Hit Florida; Showers Over South

By The Associated Press
A tropical depression swept rain squalls across Florida today, and thundershowers damped areas from the South Atlantic states to the Lower Mississippi Valley.

The tropical depression moved into the Gulf of Mexico Wednesday night after sweeping over the western tip of Cuba. Wind gusts of 40 m.p.h. struck areas about 35 miles west of Key West Wednesday night.

Heavy rain splashed southern Florida, with increasing amounts indicated during the day across most of the peninsula. Rain from the disturbance and from Hurricane Alma earlier this month brought the June rainfall at Miami to 19.51 inches compared to the normal June amount of 7.37 inches.

Rain amounts of about one inch were reported at Greenwood, Miss., Monroe, La., and Elizabeth City, N.C. Strong winds lashed the Monroe area and gusts of 50 m.p.h. hit Columbia, S.C.

SEVERE STORM
A severe thunderstorm Wednesday night struck Wainwright, Conn., near New Haven. More thundershowers were reported in the Rockies, the northern Plains and in parts of New England.

June's heat wave continued in wide areas in the nation. The mercury was 70 degrees and higher in sections from the desert region of the Southwest and the Dakotas to the Middle and South Atlantic states.

Temperatures soared above 100 degrees Wednesday in South Dakota and were in the high 80s and 90s in most areas east of the Rockies. The top mark in South Dakota was 106 at Pierre, with 105 at Philip and 102 at Rapid City.

Early morning temperatures ranged from 44 at Mullan, Idaho, to 93 at Needles, and Blythe, Calif.

Big Bats Silent as Tigers Fall, 6-2

ALL CHOKED UP — Detroit Tigers' left fielder Willie Horton chases a fly ball (top photo sequence) in the fifth inning against the California Angels last night at Anaheim, Calif. As he misses in a lunge for the ball, Willie hits the ground and the jar knocks a cough drop he is sucking into his windpipe (Willie clutches his throat in upper right). Both Tiger and Angel trainers rushed to Willie's aid (lower photo) along with several members of both teams. The trainers dislodged the cough drop and Willie returned to left field. Angels won, 6-2.

Pick Kaline on All-Star 9

NEW YORK (AP) — Five right fielders will start the 1966 All-Star baseball game July 12 at St. Louis.

Frank Robinson of Baltimore, Tony Oliva of Minnesota, Al Kaline of Detroit, Hank Aaron of Atlanta and Roberto Clemente of Pittsburgh all have been voted into the opening line-up.

The new rules established by Commissioner William D. Eckert provide for a general vote on outfielders instead of a ballot for specific positions as in the past.

Consequently, the entire American League outfield will be made up of men who normally play right field. Both Oliva and Kaline have played center for stretches.

The new rules established by Commissioner William D. Eckert provide for a general vote on outfielders instead of a ballot for specific positions as in the past.

Consequently, the entire American League outfield will be made up of men who normally play right field. Both Oliva and Kaline have played center for stretches.

13TH TIME

Willie Mays will be the National League center fielder for the 13th time. He will be flanked by Aaron and Clemente, who normally are right fielders although Aaron does shift to left in some parks.

Robinson, a star with Cincinnati in the National League before he was traded to Baltimore last winter, becomes the third man to make the grade in both leagues. The others were pitchers Jim Bunning and Schoolboy Rowe, both of whom were American League All-Star picks at Detroit and later at Philadelphia in the National.

As usual, the starters must play at least the first three innings with the exception of the pitchers. The catchers will be announced Sunday and the pitchers and remainder of the 25-man squads later next week.

The infielders, released Tuesday, had Willie McCovey of San Francisco at first, Joe Morgan of Houston at second, Leo Cardenas of Cincinnati at short and

ALL-STAR OUTFIELDERS — Gaining starting assignments in the All-Star baseball game set for July 12 in St. Louis are Frank Robinson, Al Kaline and Tony Oliva of the American League and Roberto Clemente, Willie Mays and Hank Aaron of the National League.

Early Outburst Carries Angels Past Bengals

Starter's Wildness Costly; California's Lefty Posts Win

ANAHEIM, Calif. (AP) — If you figured it by the series, the score would be Detroit 17, California 9.

Unfortunately for the Tigers, you don't.

All it really amounts to is that the Tigers, the American League's second-place team, split a series with the Angels—winning one, losing one.

Detroit wallowed on the host squad 15-3 Tuesday night, but bowed Wednesday night 6-2 to the fourth-place Angels.

The loss dropped Detroit three and a half games behind Baltimore, a 5-2 winner over Kansas City.

The Tigers, who had won 10 of their last 14 games before Wednesday, didn't have much of a chance after the second inning, when the Angels managed five runs on only two hits.

A single and a couple of walks loaded the bases. Then starter Dave Wickham walked starter George Brunet, scoring one. Another Angel crossed the plate on Jose Cardenal's sacrifice fly before Ed Kirkpatrick unloaded a three-run homer into the right field stands.

U.S. Net Star Not Favored

Dennis Ralston Reaches Finals

WIMBLEDON, England (AP) — Mrs. Billie Jean King of Long Beach, Calif., reached the final round of the Wimbledon women's singles with a 6-3, 6-1 victory over the defending champion, Margaret Smith of Australia, today.

WIMBLEDON, England (AP) — Dennis Ralston, America's No. 1 tennis player from Bakerville, Calif., won't win the coveted Wimbledon championship Friday in the opinion of Cliff Drysdale and Owen Davidson.

Drysdale and Davidson think Manuel Santana of Spain will beat Ralston in Friday's championship final.

"Santana is the finest player in the world today."

"Ralston comes in so strongly at the net, it needs a player with a lob to get the better of him. I don't have the lob among my strokes, but Santana has it. That's why I think Santana will win."

Davidson, an unseeded player from Australia who went down before Santana in the semis, 6-2, 4-6, 9-7, 3-6, 7-5, said:

"He has no weakness for an opponent to concentrate on."

Ralston, too, has plenty of respect for Santana's game, but asserted, "I think I can win."

"He's a very fine player," Ralston said of Santana. "I know I shall have to be at my best to win the title. But I am playing confidently and I think I can win."

Ralston fought back in fine (Continued on Page E-4, Col. 1)

Regional Skate Meet Opens at Rolladium

Competition in the Great Lakes Regional Roller Skating Championships gets under way tomorrow at Rolladium with the host club heavily favored to continue its domination of the team trophy.

Rolladium skaters gained 38 berths in the regional during last week's state meet.

The regional will officially start today with a skating show and welcome skaters session. The show will be at 9:30 p.m. Competition starts at 8 a.m. tomorrow and will continue to begin at that time through Monday.

The competition is expected to last well into the evening each day. Gold Medal proficiency tests starting at 8:30 a.m. Tuesday will end the regional.

In addition to skaters from Michigan, competitors will be in Pontiac from Ohio, Indiana, Illinois and Wisconsin.

Drysdale, the South African star who was defeated by Ralston in Wednesday's semifinals 6-3, 4-6, 9-7, 3-6, 7-5, declared: "Santana is the finest player in the world today."

"Ralston comes in so strongly at the net, it needs a player with a lob to get the better of him. I don't have the lob among my strokes, but Santana has it. That's why I think Santana will win."

"He's a very fine player," Ralston said of Santana. "I know I shall have to be at my best to win the title. But I am playing confidently and I think I can win."

Ralston fought back in fine (Continued on Page E-4, Col. 1)

Pontiac Driver 2nd in Stock Car Race

TORONTO (AP) — Bill Rafter of Niagara Falls, N.Y., driving a 1965 Chevrolet, won the International Stock Car Racing Championship Wednesday night.

Before the 100-lap race, Rafter also took the time trials with a lap mark of 17.42 seconds.

Joy Fair of Pontiac, in a 1968 Ford, followed a close second in both events, clocking 17.61 seconds in the time trials.

Bob James of Cleveland, came in third in the main event.

Bout Delayed for Flyweights

PHILADELPHIA (AP) — The Philadelphia Phillies said Wednesday that their season opener, first announced July 16 as the new date but changed it to July 15 because Japanese networks were unable to fit broadcasts into their July 15 schedules.

Lectoure said the fight was postponed because Accavola suffered a bad cold.

Philadelphia Shortstop Out With Sore Back

PHILADELPHIA (AP) — The Philadelphia Phillies said Wednesday that their season opener, first announced July 16 as the new date but changed it to July 15 because Japanese networks were unable to fit broadcasts into their July 15 schedules.

Lectoure said the fight was postponed because Accavola suffered a bad cold.

Women Begin Open Tourney

50 Pros Included in Field at Start

CHASKA, Minn. (UPI) — A field of 50 professionals and 53 amateurs were set to tee off in the \$20,000 U.S. Women's Open golf championship at Hazeltine National Golf Club.

The par 36-36-72 course should provide a strong challenge with its 6,355 yards which demand both distance and finesse.

Defending champion Carol Mann and Kathy Whitworth were established as the early favorites.

Miss Mann has won four Ladies Professional Golf Association tour events this year, including last week's Waterloo Women's Invitational.

Mickey Wright and Louise Suggs have each won four Open titles, but only Mickey Wright has won back-to-back championships.

The field will be cut after 36 holes and the low 40s will play 18 holes Saturday and Sunday.

Tackle, Fullback Sign 1966 Bears' Contracts

CHICAGO (AP) — Defensive tackle Bob Kilcullen and fullback Andy Livingston signed their 1966 contracts today with the Chicago Bears of the National Football League.

Kilcullen has been with the Bears since 1957. This will be Livingston's third season with the Bears, although he will be starting only his second full season since he broke in late in 1964.

Tiger Roster Has 25 MVPs

NEW YORK (NEA) — If the Detroit Tigers had to sit down some evening and name the most valuable player on the club, chances are the vote would end in a 25-way tie.

To Charley Dressen and Bob Swift, acting manager while Dressen convalesces from a heart attack, it is a perfect state of affairs.

"Get every guy thinking he's the most important ball player in the world," said Swift, "and the next thing you know you've got yourself a team."

The Tigers, to a man, like the feeling. Particularly esteemed by the shortstop Dick McAuliffe and third baseman Don Wert, Morgan and Santo may be replaced because of injuries.

The American League would had rookie George Scott of Boston at first, Bobby Knoop of the California Angels at second, Dick McAuliffe of Detroit at short and Brooks Robinson of Baltimore at third.

FOUR REPEATERS

The only repeaters of the eight named so far on each side are infielders Robinson and McAuliffe of the American and outfielders Aaron and Mays of the National.

Players, managers and coaches voted but they were not permitted to vote for teammates. There were 294 ballots in the National 287 in the American.

Commissioner Eckert's new rules probably avoided a serious ruckus for the vote was real (Continued on Page E-4, Col. 3)

Hydro Sets New Pro Grid League Challenges AFL, NFL

DETROIT (AP) — Miss Smirnoff, with Detroit's Chuck Thompson at the wheel, qualified Wednesday at 112,500 miles per hour for Sunday's Gold Cup powerboat race on the Detroit River.

Miss Smirnoff's average for three laps around the three-mile course was the highest posted by any of 10 boats which qualified thus far. An average of at least 100 m.p.h. for three laps is required.

Miss Budweiser, driven by Bill Brow of Seattle, Wash., averaged 108.542 in its qualifying runs Wednesday and also posted the previous qualifying leader, Gale's Rooterail at 108.223.

Tahoe Miss, driven by Mira Slovak of Seattle, qualified at 106.684 Wednesday.

Detroit's Joe Schoenit, an electrical contractor and restaurant owner, owns both Miss Smirnoff and Gale's Rooterail, the latter piloted by his son, Jerry. Miss Budweiser is owned by Bernie Little of Tampa, Fla.

At least half a dozen other boats are expected to make qualifying attempts before Sunday's deadline.

Leahy Reaching for Skyhook Says Chicago's Halas

CHICAGO (AP) — George Halas, owner-coach of the Chicago Bears, said Wednesday night that Frank Leahy "is just reaching for a skyhook" in announcing a new pro football league.

"I don't know whether Don has been for the last five years, but I guess he's just reaching for a skyhook."

Halas would not comment on whether the new United States Football League is a real threat to the established National and American leagues or if it were a gambit to gain a franchise in them.

"You will have to ask Leahy that one," he said.

State Net Squad Knocks Off Champ

CHARLESTON, W.Va. (AP) — The girls tennis team from Kalamazoo, Mich., today entered the fourth round of the All-Girl National City Tennis Tournament here, still in the lead after defeating the defending champion.

Kalamazoo held its lead with 25 points by winning five of nine matches Wednesday against defending champion, Middletown, Ohio.

But Kalamazoo faces a threat from the Chicago girls, who took second place from Middletown, by sweeping their nine matches Wednesday.

Leahy Reaching for Skyhook Says Chicago's Halas

CHICAGO (AP) — George Halas, owner-coach of the Chicago Bears, said Wednesday night that Frank Leahy "is just reaching for a skyhook" in announcing a new pro football league.

"I don't know whether Don has been for the last five years, but I guess he's just reaching for a skyhook."

Halas would not comment on whether the new United States Football League is a real threat to the established National and American leagues or if it were a gambit to gain a franchise in them.

"You will have to ask Leahy that one," he said.

Bob Bragan Locks Backing

Braves' Trip Boss' Last?

ATLANTA (AP) — The Atlanta Braves have started an 11-game road trip amid wide-spread speculation that Bobby Bragan might not be managing the club when it returns.

The fatal blow to Bragan's shaky hold on his job may have been a ninth-inning uprising Wednesday by the lowly Chicago Cubs.

The National League's last-place team wiped out a 4-2 deficit with seven runs and whipped the Braves 9-5, boosting Chicago's season record against Bragan's team to 6-4.

Atlanta fans, who have been booing Bragan every time he stepped out of the dugout recently, were particularly unhappy with the way the Braves lost after Tony Cloninger had allowed only three hits in the first seven innings.

Bragan replaced Cloninger with two on in the ninth, and the Cubs scored seven runs before the third relief pitcher got the final out.

The loss left Atlanta 14 games out of first place and only 9

game in front of the ninth-place Mets.

IN TROUBLE

Bragan has been in trouble with the fans — and reportedly with the front office — ever since the Braves dropped into the second division early in the season after they were picked as one of the National League contenders.

John McHale, general manager of the Braves, has passed up numerous chances to assure Bragan of his support, and the front office told Bragan Tuesday he was not needed at a booster club luncheon.

Last Saturday, McHale hired former big league manager Paul Richards to head up a new instruction department, and said Richards was available for any job in the organization.

Richards has since said flatly he would not manage the Braves, but some of the players say privately they think he might change his mind.

POSSIBLE CHOICES

There has been speculation that if Bragan is fired he would be replaced by Billy Hitchcock, a coach with the Braves who formerly managed the Baltimore Orioles.

Loop Leaders Nab Victories in Softball

MGM-Shalea Stays Unbeaten; Motorcar Has Lone Defeat

Three-hit pitching by Gary Schenck and the hitting of teammate Lester Smith sparked league-leading Motorcar Transport (10-1) to a 4-2 win over Timberlaine Lounge (5-5) last night in city National League recreational softball action.

In a pair of International Slow Pitch games, MGM-Shalea upped its record to 7-0 by routing Sport-O-Rama (5-2) 31-11, and Pontiac Press (1-4) made it into the win column for the first time by edging National Cash Register (3-5), 13-11.

Smith, Motorcar's right fielder, doubled in the second and checked in with singles in the third and sixth innings and scored each time.

MGM-Shalea kept the base paths hot by pounding out 32 hits in clubbing Sport-O-Rama.

Center fielder Ed Freeman collected three home runs to lead the attack and he knocked in nine runs.

Freeman wound up with four hits and matching that figure were teammates Tom Palmer, Ralph Pounds, Bob Priebe and Van Wickler.

A double by Howard McKenney and a single by pitcher Larry Price sent across the winning run for Pontiac Press in the last of the seventh inning against NCR.

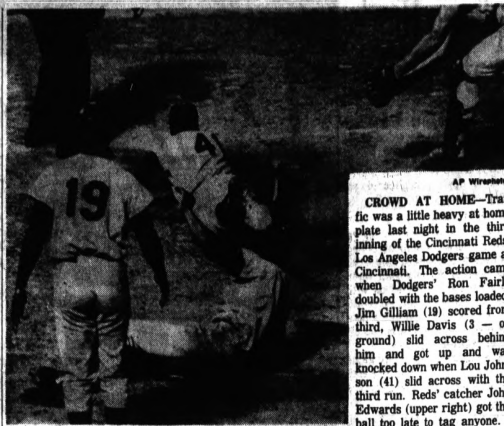

Down 11-9 going into the seventh, NCR rallied to tie the score and set the stage for Price's single.

Bill Monahan and Gary Page led The Press' attack with three safeties apiece. Page's third hit was a two-run homer in the sixth.

Californian Captures Jump Title in Finland
HELSINKI, Finland (AP) — Darrell Horn of Oakland, Calif., won the broad jump with a leap of 25 feet, 11 inches at an international track meet Wednesday night.

Jim Kent of Kentucky State led the 200 meters in 21.2 and John Perry of Oklahoma State took the 800 meters in 1:50.5.

Soccer Match Slated
NEW YORK (AP) — Torino of Italy takes on Bayern-Munich tonight in the first soccer match between international teams at Randall's Island this season.

AP Wirephoto

CROWD AT HOME—Traffic was a little heavy at home plate last night in the third inning of the Cincinnati Reds' Los Angeles Dodgers game at Cincinnati. The action came when Dodgers' Ron Fairly doubled with the bases loaded. Jim Gilliam (19) scored from third, Willie Davis (3 — on ground) slid across behind him and got up and was knocked down when Lou Johnson (41) slid across with the third run. Reds' catcher John Edwards (upper right) got the ball too late to tag anyone.

Allen, Rojas Lead Phillies Past Mets

NEW YORK (AP) — Richie Allen and Cookie Rojas led the Philadelphia Phillies to a 5-2 victory over the New York Mets

Wednesday despite fifth inning homers by Cleon Jones and Jerry Grote.

Allen's double drove in Rojas who opened the game with a double off loser Rod Gardner. A combination of Dick Groat's single, a walk, and singles by Allen and Jackie Brandt produced two more Phillies runs in the fifth.

After the Mets' homers had narrowed the gap in the fifth, the Phillies lashed out for two more off Dick Selma in the eighth on Tony Taylor's single.

Trick-Shot Artist Paul Hahn Here for 1-Hour Show

Golf's trick-shot artist Paul Hahn will present his one-hour routine at Carl's Golfland, 1976 Telegraph, Tuesday, July 12, at 8:30 p.m.

Hahn, also a comedian, instructor and expert golfer, is staging the show under the sponsorship of the Pontiac Optimist Club.

Golf fans on hand to watch Hahn will see a collection of zany clubs with rubber shafts made of garden hose. Some are swivel jointed and some weigh two pounds and have shafts six feet long. The average driver length is 42 inches.

Tickets for the show may be obtained from Optimist Club members or they may be purchased the night of the show.

Don Drysdale Becomes 5-10 With Conquest

LA Right-Hander 'Bats' Reds, 9-5, to End Dry Spell

CINCINNATI (AP) — Don Drysdale, half a million hold-out in the spring, finally has become a five and ten pitcher. The tall Los Angeles right-hander won his first game in a month and pulled his season's record to 5-10 Wednesday night when the Dodgers beat Cincinnati 9-5.

But his bat played a bigger role than his arm.

Drysdale smacked a pair of singles in an eight-run Dodgers third inning outburst that should have made his first victory since May 30 a breeze.

It was more like a hurricane for the veteran pitcher.

Drysdale lasted until the seventh inning, giving up three runs on nine hits before finally being relieved by Phil Regan. Tony Perez' two-run homer in the eighth closed the gap but it was too late to save it.

The victory ended a six-game losing streak for Drysdale, who finished with 23 victories last year. And if you think he's been in a pitching slump, his two hits lifted his batting average to .324. He hit .300 in 1965.

Brown U. Loses 8-Oared Henley Regatta Event

HENLEY-ON-THAMES, England (AP) — Britain's Tideway Scullers School defeated Brown University by about 1 1/2 lengths today in the Grand Challenge Cup for eight-oared crews in the Henley Royal Regatta.

The British crew took an early lead and held it to win in six minutes, 41 seconds over the mile and 550-yard course on the Thames.

Earlier East Germany's Turn United Sports Club of Berlin beat Britain's Thames Rowing Club in the first round of the Grand Challenge competition, premier event of the regatta. The East Germans won by four lengths in 6:56.

The East Germans will meet the Olympic champion Vesper Boat Club of Philadelphia in the semifinals Friday. Vesper drew a first round bye.

Sees Cassius Winning

Tribe Signs Infelder;

FREDERICK, Md. (AP) — The Cleveland Indians signed Ronald Hart, 18, Wednesday and dispatched him to their Class A Midwest League farm club at Dubuque.

The 1966 graduate of Frederick High School played shortstop and pitched for the American Legion Pony League team for two years.

Tigers' Al Kaline Joins All-Star Nine

(Continued from Page E-1)
close between Frank Robinson with 251 and Oliva with 250 in the American. Each had a maximum possibility of 258, their own teammates excluded.

If the vote had been for right field only, Oliva would have missed by one. Aaron received 255 of a possible 263 in the National.

The next three outfielders in each league who probably will be named to the squads by the respective managers, Walter Alston of the National and Sam Mele of the American were:

Willie Stargell of Pittsburgh, Curt Flood of St. Louis and Felipe Alou of Atlanta in the National; Carl Yastrzemski of Boston, Rick Reichardt of California and Mickey Mantle of New York in the American.

Both starting line-ups will be predominantly right-handed hitting regardless of the catcher. That would appear to indicate a right-handed pitcher as the starter on both sides.

Cepeda Clout Checks Giants

ST. LOUIS (AP) — Orlando Cepeda's towering home run — the first into the upper deck in New Busch Stadium — powered Nelson Briles and the St. Louis Cardinals to a 2-1 victory over the league-leading San Francisco Giants Wednesday.

Cepeda's solo blast in the sixth inning against his former teammates carried close to 500 feet down the left field line. It was his ninth of the season and gave the Cardinals a 2-0 lead against Juan Marichal, who lost his third game against 13 victories.

Willie McCovey closed the gap in the seventh with his 15th homer, a shot that landed in the center field more than 414 feet away. Cepeda was the only other player to hit one there.

The first St. Louis run came

LET'S DANCE — St. Louis catcher Tim McCarver (15) and Willie Mays of the San Francisco Giants appear to be starting a waltz in the fourth inning of their game yesterday in St. Louis, but it wasn't that way. McCarver is putting the tag on Willie, who tried to score from first base on Willie McCovey's single to right field. St. Louis won, 2-1.

AP Wirephoto

Stock Market Loss Deepens

NEW YORK (AP) — The stock market has deepened in active trading early this afternoon.

Some brokers saw a reaction growing to the increase in banks' prime rate to 5½ per cent from 5¼ per cent. Chemical Bank New York Trust Co., one of the best yesterday and still active today, Morgan Guaranty Trust Co., of New York raised its interest rate on loans to bro-

kers to 6 per cent from 5½ per cent.

Investors also were apprehensive about the effects of the escalated U.S. bombing in North Viet Nam.

After a delay in opening because of an influx of orders, Great Northern Paper opened up 2 at 4¼ on a block of 4,700 shares.

The Associated Press 60-stock average at noon had lost 1.4 to 313.1 with industrials off 1.8, rails off 1.1 and utilities off .5.

The Dow Jones average of 31 stocks at noon was off 1.1 to 483.47.

Clayton sold off a minor fraction on a block of 15,700 shares.

Steeles continued to ease with Republic and Jones & Laughlin down about half a point.

Motors also were easier with General Motors and Ford showing fractional losses.

Prices declined in active trading on the American Stock Exchange.

Romney Calls I-69 Meeting

15 Communities Seek to Settle Controversy

SOUTHFIELD (AP) — Gov. George Romney met today with officials of 15 communities that appeared likely to develop into an around-the-clock effort to settle the nine-year controversy over the location of a 1966 freeway through South Oakland and Macomb counties.

Romney called the meeting in the auditorium of Lawrence Institute of Technology, but moved it to the air-conditioned Southfield City Hall after taking a rain call.

★ ★ ★

"We're going to stay here until we get a decision," said a spokesman for the Southfield Citizens' Committee.

Romney suggested the move to city hall because "I don't want to use the hot weather to force a decision."

As the meeting began, about two dozen pickets from Oak Park paraded outside carrying signs which said: "Don't Take Our Homes."

The proposed 18.1-mile, \$150-million freeway would cut through several suburban Detroit communities, requiring condemnation of property along the way.

* * *

A sense of urgency underlined today's meeting. The federal government has indicated it might withdraw all support for the freeway if an agreement on the route is not reached shortly. The federal government pays 80 percent of all interstate highway construction costs.

NEW YORK—Some low-pressure economic areas could affect the business weather in the

pro. But high-
pressure areas
built up over
the last five and
half years are
still most likely
to set the econ-
omic climate
for some
months to come.
Depressed
areas the ex-
ports watch are housing, the
stock market, auto sales uncer-
tainty, credit squeeze on con-
sumers and business firms.
Higher interest rates, growing
wage demands, worsening bal-
ance of payments deficits and
above all, the spreading effects
of a costlier Viet Nam war
both in money and manpower
on the civilian economy.

These could moderate the pace of the economy the rest of this year. But the momentum

L. Z. MONROE

Retiree Ends 37 Years at

Pontiac Press

Pontiac Press Mechanical Superintendent L. Z. Monroe retired today after 37 years with The Press.

★ ★ ★

Monroe of 2591 Hathorn, Watford Township, joined The Press in October 1929 as a journeyman.

Fond of fishing, he and his wife leave on a two-week tour of Canada next week.

"When we get back," said Monroe, "we'll probably spend time at our summer home in Lewiston."

Monroe served his apprenticeship

WORKED AROUND
"I literally worked my w

perience," said Monroe.

He was honored by fellow employees at a brief retirement ceremony this morning.

Tire Section in Safety Bill

WASHINGTON (UPI) — The House Commerce Committee, overcoming near-paralyzing opposition, today added a tough section on tires to its auto safety bill.

Chairman Harley O. Staggers, D.-W.Va., termed undoubtedly the most controversial to con-

"I know of no committee that has had more pressure brought to bear on it," Staggers said. But he repeated his prediction the panel would end up with a good bill.

The tire section would provide that the secretary of commerce set tire safety standards under deadlines which Staggers said the committee would determine later.

It also would require that new cars be sold equipped with tires sufficiently to support the vehicle fully loaded. In addition, the bill would require the secretary of commerce develop a uniform quality grading system for tires.

built up in major segments is still so strong that most economists, in government or in business, see the general trend still upward with many new records

STRONG POINTS

The strong points are:

- Defense spending upturn which will be increasingly translated into new orders, better production and more jobs and paychecks.
- High and rising employment. This means larger total income of personal incomes and corporate revenues. This all but guarantees more consumer spending by year-end, and further ordering of materials and machinery.

LBJ Pays Tribute to Workers in Agency

day and M. Helms was sworn in to the post as director of the nation's most secret operation — the Central Intelligence Agency — at a wide open White House ceremony.

President Johnson paid high tribute to Helms and his predecessors and all those who have served almost unknown in the CIA.

* * *

"I have yet to meet an officer the President said with a grin.

But he went on to say that, "There has met dozens of men in the CIA who are devoted, dedicated and motivated by the highest purposes in innumerable fields where their analysis is vital. I said their greatest triumph comes without recognition in the patient reading, hour after hour

ROOM JAMMED
The East Room of the White House was jammed for the ceremony at which Helms, 53, took the oath as successor to Adm.

on hand. So was Allen Dulles, a former CIA director, FBI director J. Edgar Hoover, members of the cabinet a Congress and military brass dozens of people who might have been CIA agents but weren't identified - and, in the press corps, the Washington representative of the Soviet news agency, Tass.

* * *

Johnson lauded Helms' judgment, intelligence, and "great public integrity." The President said that the work of men like Raroban and Helms and their colleagues "is not often acknowledged publicly and is damned more often than praised. He said he is always reading something in the paper

But the men conducting them about their work, he said, without being able to speak up for themselves.

14 MONTHS AGO

the CIA command about months ago and at the same time made Helms his deputy. Helms said Helms had agreed to serve only until Johnson decided on a permanent successor, and now he and Raborn had decided they had found the best person possible. And he said Raborn will return to the White House at his convenience.

Rosen said in award for a job well done.

Raborn retired to private life after a long Navy career while Johnson said was capped by two major role he played in developing the Polaris missile system.

News in Brief

Bernard Schreier, owner of Royal Auto Parts at 1130 Mount Clemens, reported to Pontiac police yesterday the theft of several two-way radios and tools valued at \$120 in a break-in at the store.

Lloyd Hottmann of 5680 Crestview by Lake, Springfield Township, reported to Waterford Township police yesterday the theft of a Buick Wildcat coupe valued at \$150, from the car which was parked at the Pontiac Country Club on Ellettsville Lake Road.

Successful Investing

BY ROGER E. SPEAR

(Q) "We are on a good position, have \$5,000 cash and are inexperienced small investors. What is your opinion about our buying Sperry Rand? We own Jersey Standard, Sterling Drug, New York Telephone and Occidental Petroleum. We are mostly concerned about the last two stocks. We have gains in Sterling and Standard. Should we hold?"

A.H.R.

(A) Sperry Rand had a profit on its UNIVAC Division for the very first time in fiscal 1965-66. Earnings as a whole were up sharply for the period and the stock essentially is a speculation on the continued profitability of the UNIVAC Division.

No dividends are paid, and with your lack of experience and apparently no professional guidance, I believe a stronger stock is more suitable. I suggest, instead, Duquesne Light, which yields 5.25 per cent with moderate growth potential. According to my records, New York Telephone stock is all owned by American Telephone & Telegraph. I think you had better take another look at your stock certificate. Occidental Petroleum is a good stock, growing rapidly, particularly through its sulphur interests. The yield is very low and the shares are volatile. I would switch to Sinclair Oil. The remainder of your holdings are satisfactory, and should be retained.

(Copyright, 1966)

Business Notes

The Engineering Society of Detroit has elected Donald N. Frey of 1062 Waddington, Birmingham, vice president and Harry E. Chesbrough of 471 Dunston, Bloomfield Hills, treasurer.

Frey is vice president and general manager, Ford Division, Ford Motor Co., and Chesbrough is vice president, product planning and development, Chrysler Corp.

Retiree Ends 37 Years at Pontiac Press

Pontiac Press Mechanical Superintendent L. Z. Monroe retired today after 37 years with The Press.

Monroe of 2591 Hathorn, Waterford Township, joined The Press in October 1929 as a journeyman.

Fond of fishing, he and his wife leave on a two-week tour of Canada next week.

"When we get back," said Monroe, "we'll probably spend time at our summer home in Lewiston."

Monroe served his apprenticeship in Perth Amboy, N.J. and before coming to The Press worked on papers in the South and West.

WORKED AROUND

"I literally worked my way around the country to gain experience," said Monroe.

He was honored by fellow employees at a brief retirement ceremony this morning.

Tire Section in Safety Bill

WASHINGTON (UPI) — The House Commerce Committee, overcoming near-paralyzing dissension, today added a tough section on tires to its auto safety bill.

Then it disbanded for the 10-day congressional recess. On returning it will tackle key sections of the legislation, which Chairman Harley O. Staggers, D-W.Va., termed undoubtedly the most controversial to come before the committee, this session.

"I know of no committee that has had more pressures brought to bear on it," Staggers said. But he repeated his prediction the panel would end up with a good bill.

The tire section would provide that the secretary of commerce set tire safety standards under deadlines which Staggers said the committee would determine later.

It also would require that new cars be sold equipped with tires sufficient to support the vehicle fully loaded. In addition, it calls for development of a uniform quality grading system for tires.

ROOM JAMMED

The East Room of the White House was jammed for the ceremony at which Helms, 53, took the oath as successor to Adm. William F. Raborn. Raborn was on hand. So was Allen W. Dulles, a former CIA director, FBI director J. Edgar Hoover, members of the cabinet and Congress, and military brass, dozens of people who might have been CIA agents but were neither identified — and, in the press corps, the Washington representative of the Soviet news agency, Tass.

Johnson lauded Helms' judgment, intelligence, and "his great public integrity."

The President said that the work of men like Raborn and Helms and their colleagues is not often acknowledged publicly and is damned more often than praised. He said he is always reading something in the papers that distorts CIA operations. But the men conducting them go about their work, he said, without being able to speak up for themselves.

14 MONTHS AGO

Johnson appointed Raborn to the CIA command about 14 months ago and at the same time made Helms his deputy. He said Raborn had agreed to serve only until Johnson decided on a permanent successor, and now he and Raborn have decided they had found the best man possible. And he said Raborn will return to the White House at his convenience "to receive an award for a job well done."

Raborn retired to private life after a long Navy career which Johnson said was capped by the major role he played in developing the Polaris missile system.

News in Brief

Bernard Schneider, owner of Royal Auto Parts at 1130 Monticlemente, reported to Pontiac police yesterday the theft of several two-way radios and tools valued at \$120 in a break-in at the store.

Lloyd Hottmann of 8830 Crosby Lake, Springfield Township, reported to Waterford Township police yesterday the theft of a 1965 Chevrolet of \$150, from his car which was parked at the Pontiac Country Club on Elizabeth Lake Road.

State salary laws set rigid ceilings on what lenders may charge on consumer loans, and bankers said this would be the limiting factor.

Chemical New York was the first to announce the prime interest rate hike. Almost immediately, the First National Bank of Chicago announced a similar increase, and so did the Union Bank in Los Angeles, which specializes in corporate banking.

The announcements came to late in the day for other major banks to react formally.

Leading Bank Cuts Ups Interest Rate; 2 Follow

NEW YORK (AP) — The Chemical Bank New York Trust Co., fifth largest bank in the nation, and two other banks, Citizens and Los Angeles, have hiked their prime interest rate from 5 1/4 to 5 1/2 per cent, the minimum rate on loans to businesses.

If it becomes a general pattern, the one-quarter per cent increase announced Wednesday would be the third boost in its prime interest rate since last December by banks across the country.

There were indications other large banks would follow suit. The prime interest rate of December and March 10, each amounting to one-half per cent, were followed by boosts in lending rates to consumers.

RIGID CEILINGS

State salary laws set rigid ceilings on what lenders may charge on consumer loans, and bankers said this would be the limiting factor.

Chemical New York was the first to announce the prime interest rate hike. Almost immediately, the First National Bank of Chicago announced a similar increase, and so did the Union Bank in Los Angeles, which specializes in corporate banking.

The announcements came to late in the day for other major banks to react formally.

TAKES CONTROL — Lt. Gen. Juan Carlos Onganía spoke a few words at Government House yesterday in Buenos Aires after he was sworn in as head of the military regime that took control of Argentina in a bloodless coup. In the background are members of the junta, Air Force Commander Adolfo T. Alvarez (left) and Gen. Julio Alsogaray (right).

Long Reign by Military Expected in Argentina

BUENOS AIRES, Argentina (AP) — The Argentines today expected long and possibly lean years of military rule as their new government began trying to get a working arrangement with normally hostile labor unions.

Strongman Juan Carlos Onganía swore himself in as president Wednesday, assuming virtually dictatorial power, after a three-man military junta ousted civilian President Arturo Illia on Tuesday. The military's chief purpose was to prevent the Peronists — followers of ex-Dictator Juan D. Peron — from winning control at the polls of Buenos Aires and other major provinces.

Sources in high places said

Ill-Fated Ship in NY Harbor to Be Scuttled

NEW YORK (AP) — The ruined hulk of the tanker Alva Cape — twice raked by explosion and fire within two weeks — will be towed more than 100 miles from New York Harbor and scuttled.

Federal authorities ordered the unusual move Wednesday after it was decided that the ship is a serious menace to navigation in its present position. Its hold still contains some volatile naphtha.

But the ship's owners said Wednesday night they were having difficulty finding tugs to take the job. One towing company reportedly withdrew when it failed to get assurance that the U. S. Navy would sink the hulk.

LIES AT ANCHOR

The British tanker now lies at anchor in Gravesend Bay, off Brooklyn, where explosions and fire claimed four lives and injured eight other men Tuesday while crews were pumping out the remains of the dangerous naphtha.

The Alva Cape collided with an American tanker, the Texaco Massachusetts, in the Kill Van Kull between New Jersey and Staten Island on June 16. In the ensuing explosion and fire 33 men lost their lives.

Onganía plans to hold office for eight to 10 years and reshape Argentina's political and economic face with drastic reforms.

COUP ENDORSED

Local newspapers generally endorsed the bloodless coup with editorials full of hope for the future and dissatisfaction with Illia's administration. They said chronic deficits in the huge public services and gross inefficiency contributed greatly to his fall.

In the first hours following the coup Tuesday, many quarters feared that Peronist-led unions would stage massive protest strikes that would paralyze the nation and cause bloodshed. Even before Onganía, 52, took office, the former army chief made a bid for support from the unions but warned them to get out of politics.

"We are interested in improving the workers' lot," said a government spokesman, "but the unions will not be allowed to indulge in politics, as they have done up to now."

Chou Leaves for Home

After Visit in Pakistan

RAWALPINDI, Pakistan (AP) — Premier Chou En-lai of Communist China left for home today after a day and a half visit marked by indications that Pakistan's relations with Peking are becoming less close.

At a farewell banquet yesterday for Chou, President Ayub Khan said Pakistan desires friendly relations with "all countries of the world." This was an obvious reflection of recent Pakistani attempts to improve relations with the United States.

'Head Start' Training

Under Way at MSU

EAST LANSING (AP) — Nearly 100 teachers, psychologists, social workers and nurses are taking courses this week in how to give a head start on education to disadvantaged preschool children.

Michigan State University, supported by the Federal Office of Economic Opportunity, already has conducted one earlier training session for another 100 "Project Head Start" workers.

Fidel: Cuba Athletes Pressured at Games

HAVANA (AP) — Prime Minister Fidel Castro charged Tuesday night that Cuban athletes were subjected to pressure, threats and bribes at the Central American and Caribbean games in San Juan. He accused the United States of mixing politics and sports.

Making his first public appearance in several months at a reception for athletes who took part in the games, Castro charged that some American judges at the competition were "probably CIA agents."

Castro made no reference to

speculation abroad that he had been out of the country or ill.

Castro hailed Cuban victories at the games as "one more battle won by the Cuban revolution over imperialism." The Cuban revolution had transformed sports into "a cultural and educational activity from a mercantile activity or an instrument of business," he declared.

STRONG IN GYMNASTICS

He charged that the Olympic committee didn't permit a gymnastics competition because Cuba is strong in that field. The commission said it had made

the ruling because there weren't at least three countries with gymnastic teams, he said.

Castro also charged that the United States had engaged in "stupid, cynical blackmail" by refusing to allow Cuban athletes to fly directly to San Juan or be brought into the dock by the Cuban ship that transported them.

denounced the U.S. government

for proposing that such permission be traded for Cuban permission to route directly to Florida the airlift of U.S. cit-

izens from Cuba. He called the proposal "stupid, cynical blackmail."

The athletes were landed by barges and tugboats after the State Department refused permission for the Cuban freighter that brought them from Cuba to enter U.S. territorial waters.

Castro said three members of the Cuban contingent who defected to the United States were "miserable ones who sold themselves and don't belong to the spirit of his people."

AMA Has Medicare Rebellion

CHICAGO (UPI)—The American Medical Association wound up its dispute-riddled convention today with a Medicare policy more militant than AMA leaders had bargained for.

The association's House of Delegates today gathered up the loose ends of resolutions and was to decide whether the AMA should purchase radio and television time to explain to the public its Medicare policies.

The House of Delegates, in a shouting floor rebellion, yesterday overruled study committees and urged the nation's leaders to bill all their Medicare patients directly and to have nothing to do with forms that provide for doctor payments by government-designated insurance firms.

Doctors following the AMA policy are strictly voluntary. Patients will be up to their elderly patients to get reimbursed under the federal health care program.

Dr. John H. Budd of Cleveland, Ohio, led the spirited floor fight that strengthened the AMA's stand for direct billing of patients.

SHOUT APPROVAL

The 228 delegates representing 200,000 doctors shouted their approval.

The AMA Advisory Committee on Medicare reported yesterday it was "disturbed" at the Health, Education and Welfare Department's submission of a new government regulation involving Medicare just six days before the new program went into effect.

2 Area Women Are Hospitalized After Collision

Two Pontiac area women were hospitalized, one of them listed as critical, following a two-car collision late last night in Bloomfield Hills.

The two were identified as Mrs. Champ Honesight, 38, of 54 Dakota, reported critically, and Mrs. John Sabot, 54, of 277 Al, Co. Waterford Township, listed as fair at St. Joseph Mercy Hospital.

Bloomfield Hills police said the two were passengers in a car which collided with another at the intersection of Lahser and Quanton shortly past 11 p.m.

Both drivers, Robert N. Killenberger, 36, of Warren, who was alone, and Ollie W. Holmes, 53, of 1947 Allendale, West Bloomfield Township, were treated for injuries and released, as was a third passenger in Holmes's car.

City Man Hospitalized After Car Strikes Tree

Charles C. Manning, 22, of 362 Howard McNeill is in satisfactory condition at Pontiac General Hospital after the car he jumped a curb on a Pontiac street and ran into a tree yesterday.

Pontiac police said Manning was alone in the car when the accident occurred on Elm 150 feet west of Paddock shortly before noon.

Farmington Boy Scout Receives Eagle Award

FARMINGTON—Timothy Mahoney, a member of Boy Scout Troop 110, last night received his Eagle Award in a court of honor at Our Lady of Sorrows Church.

Timothy, 15, is the son of Mr. and Mrs. Thomas Mahoney, 22751 Lilac.

Other Faces Charge

Shooting Wounds City Man

A 24-year-old Pontiac man faces possible arraignment on a charge of attempted murder after the shotgun wounding last night of another man on the city's south side.

J. C. Chatmon of 40 Idaho surrendered to Pontiac police shortly before 11 last night after the victim, Johnny Jackson, 36, of 175 Lake, was hospitalized with pellet wounds in the back and neck.

Deaths in Pontiac, Nearby Areas

BLANCHE C. ALLCHIN

Service for former Pontiac resident Blanche C. Allchin of Webberville will be 11 a.m. Saturday at Calvary Baptist Church, Webberville, with burial in Webberville Cemetery by the Gorsline Funeral Home, Williamston.

Miss Allchin, a teacher in the Pontiac Public School System for 25 years, died yesterday after a long illness. She attended Michigan State University and was graduated from Eastern Michigan University.

Miss Allchin was a member of Calvary Church, Eastern Star Chapter 277 of Fowlerville, Michigan Education Association and the National Retired Teachers' Association.

Surviving are a sister and a brother.

MRS. JAMES A. AVERY

Service for former Pontiac resident Mrs. James A. (Lavonia) Avery, 91, of Brown City will be 2:30 p.m. tomorrow at the First United Methodist Church, Pontiac, with burial in White Chapel Memorial Cemetery, Troy, by Sparks-Griffin Funeral Home.

Mrs. Avery, whose husband had served the United Methodist Church 50 years and was a former pastor of the local church, died yesterday after a long illness.

She was a member of the Brown City United Methodist Church and Women's Missionary society of her church.

HELEN EIMERS

MARY EIMERS

Prayer service for Helen and Mary Eimers, infant daughters of Mr. and Mrs. Oliver Eimers 223 N. Paddock, was to be 2 p.m. today at Pixley Memorial Chapel, Rochester, with burial in Christian Memorial Estates, Rochester.

The babies were dead at birth. Surviving besides their parents are two brothers, John and Gary and two sisters, Mary Ann and Nancy, all at home, and grandparents Mr. and Mrs. Rose Ballard of Rochester, and Joseph Eimers of Saginaw.

ARTHUR G. KILLING

Service for Arthur G. Killing, 69, of 86 N. Shirley will be 2:30 p.m. Saturday at the C. J. Godhardt Funeral Home, Keego Harbor, with burial in Oakland Hills Memorial Cemetery, Novi. Mr. Killing, a retired employee Elm

of Community National Bank, died yesterday after a long illness. He was a member of First Presbyterian Church.

Surviving are three sons, Howard G. of Pontiac and Ralph L. and Edward J., both of Fort Lauderdale, Fla., and two daughters, Mrs. Ralph Oaks of Clio and Mrs. Thane C. Danby of Pontiac.

Also surviving are two sisters, Mrs. Roy Holsington of Milford and Mrs. Minnie Masters of Brantford, Ont.; two brothers, Walter of Farmington and Fred of Woodstock, Ont.; 12 grandchildren; and 25 great-grandchildren.

MRS. NORMA P. McNALLY

Requiem Mass for former Pontiac resident Mrs. Norma P. McNally, 71, of Indian Rocks Beach, Fla., was to be there this morning at St. Jerome Catholic Church with burial in the Calvary Cemetery by the Feaster Memorial Home, in Largo, Fla.

Mrs. McNally died Tuesday after a long illness. She was a member of St. Jerome Church.

Surviving are two sons, Joseph K. and William J., both of Indian Rocks; five grandchildren; a great-grandchild; and three sisters.

SGT. HONORIO RAMIREZ JR.

Service for Sgt. Honorio Ramirez Jr., 29, of 75 Bloomfield will be 11 a.m. Saturday at Christian Temple with burial in Ottawa Park Cemetery, Independence Township, by the D. E. Pursley Funeral Home.

Sgt. Ramirez was killed in action in Viet Nam June 23. The sergeant, a career soldier, was a paratrooper attached to the 7th Cavalry.

CHARLES W. CHILL

WHITE LAKE TOWNSHIP—Requiem Mass for Charles W. Chill, 50, of 6920 Cooley Lake will be sung 10 a.m. tomorrow at St. Patrick Catholic Church. Burial will be in Holy Sepulchre Cemetery, Southfield.

Rosary will be 8:30 tonight at the Richardson-Bird Funeral Home, Milford. Mr. Chill, an automotive engineer, died Tuesday.

Surviving are his wife, Mary, two sons, Thomas M. and Charles W., both at home; one daughter, Marlene M. at home; and two sisters.

HAZEL M. GRIFFITH

ROCHESTER—Service for Hazel M. Griffith, 66, of 391 Elm will be 11 a.m. Saturday

at St. Patrick Catholic Church. Burial will be in Holy Sepulchre Cemetery, Southfield.

Surviving are his wife, Mary, two sons, Thomas M. and Charles W., both at home; one daughter, Marlene M. at home; and two sisters.

Wartime Look in Dixie Town

Curfew, Arms, Tension in Race Strife Wake

CORDELE, Ga. (UPI)—This racially tense town in south Georgia had the appearance early today of a wartime occupation zone with deserted streets, a strict curfew and police patrols.

Travel in the town from dusk to dawn was restricted to motorists passing through on highways.

The 10,000 citizens of Cordelle were confined to their homes from 8 p.m. until 5 a.m. under an emergency curfew imposed yesterday by the city commission following three straight nights of racial violence.

The climax was a 90-minute bloodless shoot-out between whites and Negroes Tuesday night and yesterday morning.

Negro leader James Burch said the ban would be observed for the present, but he said demonstrations involving about 200 persons were planned for Sunday and Monday, Independence Day, at the nearby Veteran's State Park.

ASKS PROTECTION

He said he would request protection from city police and state troopers for the demonstrations.

A force of about 25 troopers moved into the town on orders of Georgia Public Safety Director Lowell Conner, who said he was ready to increase the contingent at a moment's notice.

Crisp County Sheriff Earlie Crisp also said his force was ready if needed to aid city police.

The unrest at Cordelle, which was the scene of rowdy civil rights demonstrations in March that culminated in the desecration of the American and Georgia flags, began last Sunday at an integrated swimming pool at Veteran's Park.

CUT ON HAND

Posey, restoring order among milling whites and Negroes at the pool, said he was cut on the hand by a knife-wielding Negro who was arrested.

There was rock throwing, vandalism and other violence Sunday, Monday and Tuesday night before the exchange of gunfire.

Area Jaycees Attend Detroit Conference

Representatives from both Pontiac and Waterford are among some 10,000 delegates at the national Jaycee convention ending today in Detroit.

Heading a Pontiac area delegation of some 20 Jaycee members and their wives is president Ronald H. Lockhart of 1212 Lynsue, Waterford Township. Also included in the Pontiac group are James Gallagher and Richard Fitzgerald, vice presidents; Joseph Pospischal, treasurer; and Richard Eldred, secretary.

Official delegates of the Waterford Township Jaycees are president Michael Patterson of 6329 Grace K. and past president Whitney Carnahan, 1323 Nancywood, both of Waterford Township. About 18 Waterford Jaycees and their wives are attending the convention, according to a chapter spokesman.

Agree to Airline Pact

PARIS (UPI)—France and New Zealand yesterday signed an agreement giving French airlines the right to use Auckland on around-the-world flights.

Fire at Waterford Motel

Causes \$7,500 in Damage

Fire erupted at the Edgewater Beach Motor Lodge, 3664 Dixie, Waterford Township, last night, causing an estimated \$7,500 in damages.

Township fire fighters, who responded to the alarm at 6:50 p.m., estimated damages at \$5,800 to the building and \$1,700 to the contents.

Cause of the blaze was attributed to an electrical short in an exhaust fan in a bathroom of one of the rooms, according to Fire Marshal Russell See.

Firemen, who remained at the scene for more than two hours, used four pieces of equipment to battle the fire.

Owned by Howard Bloch, the brick-constructed motel is valued at \$275,000.

The fire was first noticed by a man fishing from a seawall on Lion Lake. He notified motel attendants who, in turn, called the fire department.

ON THE HOUSE!—Mrs. Maurice Bowler holds her 17th child which was "on the house" at Southern Baptist Hospital in New Orleans. When Mrs. Bowler gave birth to her 16th child at the same hospital several years ago, hospital officials promised there would be no charge for a 17th. Mrs. Bowler collected on the promise when Camille Mathel Bowler arrived Monday night. The infant's father remarked that his wife "never could resist a bargain."

Powerful New ALLSTATE

Energy Cells

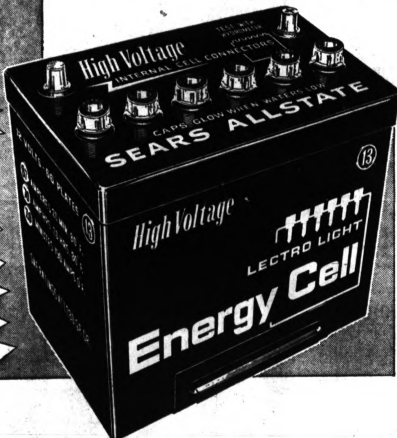

48-Month
Guarantee

Built to Start
Up to 50% Faster

Sears Low Price
With Trade-In **26⁹⁵**

Sears new Energy Cell fits 96% of all American cars now using a conventional 12-volt battery. Chances are that the car you're now driving, even if it's an import, is included!

Through-the-partition connectors provide the power you need for faster starts. Actual tests show the Energy Cell is capable of turning your starter up to 15% faster, 15% longer for up to 24% more turns. Enjoy this extra measure of starting power with the ALLSTATE Energy Cell sold only at Sears!

Compare These Features

Lectro Lights
Bright glow warns if fluid is low. No need to remove each cap. Fast glance avoids possible damage.

More Power
Through-the-partition connectors reduce resistance to current. More usable power is left for starting.

Stronger Case
100% epoxy bonded top and case seals in the power. Won't deteriorate as ordinary asphalt or soften as does tar.

NO MONEY DOWN on Sears Revolving Charge

Energy Cell Guarantee

Free replacement within 90 days of purchase, if battery proves defective. After 90 days, we replace the battery, if defective, and charge you only for the period of ownership, based on the regular price less trade-in at the time of return, prorated over number of months of guarantee.

Pentagon Study Urges Drafting of Young Men

WASHINGTON (AP) — A long-awaited Defense Department study concluded today that the draft should be redesigned to induce the youngest eligible men first and not men nearest 25. "Those who are the most settled in their careers."

emphasis to the 19-20 age bracket. "Combat commanders prefer the younger age group," the study said, "and about eight of 10 volunteers are in the age group under 25."

The study, presented to the House Armed Services Committee by Asst. Secretary of Defense Thomas D. Morris, made these other principal points:

• The United States cannot look forward to discontinuing the draft in the next decade unless changing world conditions reduce needs substantially below the force levels required since Korea.

• The present deferment system is "basically sound."

Morris, in charge of manpower for the Defense Department, testified as the committee wound up its hearings into the operations of the Selective Service System.

Turning to what he described as the "most undesirable feature" — the drafting of older men — Morris said the induction of younger men would cause less disruption of school plans "since it would permit men to fulfill their obligation after high school and before college" if they prefer.

U. S. Bombers Hit Hanoi Area 2nd Day in Row

SAIGON, South Viet Nam (AP)—American bombers attacked Communist fuel depots in the vicinity of Hanoi for the second straight day today, the U.S. command announced.

Both Navy and Air Force planes participated in the raids, which hit fuel dumps around the capital of Communist North Viet Nam.

Chevy to Add Sports Model

By HARRY J. REED
Managing Editor,
The Pontiac Press

Chevrolet will add a new line of "personal-size" cars this fall, named Camaro.

Division General Manager E. M. Estes made the announcement yesterday, saying the addition will be in the fast growing personal sports-type market pioneered by Chevrolet's Corvette in 1953.

ESTES continued the policy of naming Chevrolet lines with a C. Reports have been widespread in the auto industry for months that Chevrolet was coming out with a new sports car to battle the Mustang, which has bolstered Ford sales.

Most of the details of the new car were withheld pending the official preview and sales date of Sept. 29. Estes did say that it would be a front-engine auto, and termed it a "four-passenger package of excitement."

It will be offered in both a convertible and a coupe, and Chevy has earmarked 12 percent of its production, or 1,250 units a week for it.

COMPETITIVE PRICES

It will have a 108-inch wheelbase, and would be competitive with other sport car prices, Estes said.

Explaining the name, Estes said, "In French, it means 'comrade' or 'pal.' Thus, it suggests the real mission of our new automobile: to be a close companion of its owner."

Other Chevrolet models are the Corvair, Chevy II, Chevelle and Corvette.

U.S. Will Take N-Warheads From French

Yank Ambassador Says NATO Pullout Cancels Agreement

PARIS (UPI) — The United States told France today it is withdrawing the nuclear warheads with which French rockets are equipped because of President Charles de Gaulle's walkout from the North Atlantic Treaty Organization (NATO) military command.

A memo delivered to the Foreign Office by U.S. Ambassador Charles E. Bohlen said that, as a result of the NATO pullout, the bilateral agreements governing control of the warheads no longer apply, and the United States is withdrawing them.

France formally leaves NATO tomorrow.

Informed sources said the communique handed by Bohlen to Hervé Alphand was a reaffirmation of an earlier note of April 12.

That note warned the French that the "two-key" system now governing the nuclear warheads would no longer apply if France left NATO.

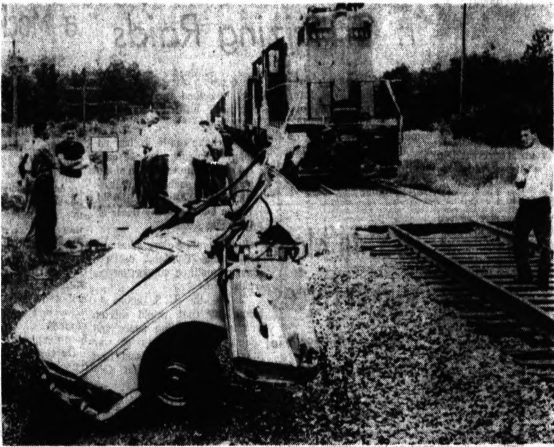

Under the system, the warheads can only be fired after both a French and an American officer have each turned a key to activate them.

French troops in West Germany are equipped with Honest John missiles which will now become virtually useless.

American sources said the warheads would now revert solely to U.S. control.

The U.S. decision was one of several related developments on the eve of France's formal withdrawal.

At Fontainebleau, south of Paris, French Gen. Jean Crepin handed over command of the organization's central European forces to German Gen. Johann Adolf von Kielmansegg.

WHERE FAMILY DIED—Six members of the Donald E. Johnston family of 2737 Peppermill, Lapeer Township, were killed here yesterday when their car was sheared in half by a freight train on Wilder, east of Lapeer, at a Grand Trunk Western dirt-road crossing. The accident occurred about 5:15 p.m.

Freight Cuts Auto in Half Near Lapeer

Victims Believed en Route to Home After Shopping Trip

A Lapeer Township family of six, including a pregnant mother, died in a car-train accident yesterday about three miles east of Lapeer.

Killed in the accident, which occurred about 5:15 p.m., were Donald E. Johnston, 28; his wife, Margaret, 23; and their four children — Donald Jr., 5; Mary Jo, 4; Tracy E., 2; and Richard, 1.

They lived at 2737 Peppermill, Lapeer Township.

Lapeer County Sheriff Kenneth Parks said the family apparently was on its way home after grocery shopping in Lapeer when the collision occurred east of town at a Grand Trunk Western dirt-road crossing on Wilder.

He said groceries were scattered along the track where the auto wreckage had been tumbled.

Parks said the car apparently was moving across the tracks when the freight struck it. He said the car may have been trying to beat the train across the intersection.

TRAIN IMPACT
The impact of the train ripped the car in two, carrying the front portion about 60 feet down the tracks, according to sheriff's deputies.

The freight train was en route from Battle Creek to Port Huron. The engineer was Clarence William Kilgore of Bellevue.

All members of the family except two were dead at the scene.

Tracey and Richard were taken to Lapeer County General Hospital and Hurley Hospital in Flint where they died a short time later.

Johnston who has apparently lived in the area most of his life was employed at the Corey and Hartwick Construction Co. in Hadley.

The family had reportedly lived for a while in Iowa until they moved to their present address about a year ago. The mother was eight months pregnant.

The bodies are at the Reigel Funeral Home in Flint.

'Be Alert Near Home'

Irons Warns Area Drivers

Pontiac area motorists should exercise special care in driving over the July 4 holiday weekend, especially if they're not going far from home, according to traffic experts and police.

Citing statistics from the Memorial Day weekend during which 40 persons were killed throughout the state, a spokesman for the Automobile Club of Michigan said all but six of the victims died within 25 miles of their homes.

"We have concentrated on drivers making long trips on major highways," commented Oakland County Sheriff Frank W. Irons.

"Maybe we were wrong. It is evident we must turn our attention closer to home."

The Auto Club analysis of the Memorial Day weekend showed that the drivers killed in accidents had an average of 6.1 moving violations and were involved in mishaps driving on roads or streets familiar to them.

"We can enforce the laws 24 hours a day," he said, "but it won't do any good unless motorists drive with caution and common sense."

As part of the holiday campaign, the Michigan State Safety Commission urges motorists to drive with headlights on even during daylight hours starting tomorrow, and continuing through noon Tuesday.

Other driver recommendations (Continued on Page 2, Col. 1)

Legislators Clear Last of Budget Bills

LANSING (AP) — The Legislature cleared the last of the \$974.4-million 1966-67 state budget yesterday — just 30 hours before the start of the new fiscal year.

Lawmakers then adjourned until Aug. 22, when they will put the finishing touches to a session described by Senate Majority leader Raymond Dzendzel, D-Detroit, as "standing out like the Washington Monument in comparison with legislatures of the past."

Two local issues, a road to an Upper Peninsula mine and a park on the shores of southern Lake Michigan, had snagged the last two spending bills for the coming year — the \$71-million capital outlay bill and the \$315-million restricted fund measure.

The restricted fund bill is not part of the \$974.4-million general fund spending plan, but the capital outlay appropriation is.

A four-hour House Democratic caucus had piled house votes to pass the capital outlay bill containing the park authorization and the restricted fund bill containing the road improvement.

Heavy Rains Delay U.S. Space Launch

CAPE KENNEDY, Fla. (AP) — Heavy rains from a tropical disturbance today forced the space agency to postpone an attempt to launch a Lunar Explorer satellite toward an orbit around the moon to investigate radiation and other potential dangers to astronauts.

The launching tentatively was rescheduled for 11:02 a.m. EST Friday.

Wind-driven rains from a tropical disturbance centered in the Gulf of Mexico fell on Cape Kennedy throughout the night. But the launch crew proceeded with the countdown on the Delta booster rocket, hoping for a break in the weather.

WASHINGTON HOUSE IS OUR SPECIALTY. Attention: House, Suite 1000. Call for free estimate. 332-9711 or 332-9600.

Sun Will Fry Area Bathers on All Sides

TODAY'S TEMPERATURES
4 a.m. 72 10 a.m. 85
6 a.m. 80 noon 88
8 a.m. 76 1 p.m. 91

Sunbathers sitting in the sun will swelter and sizzle in searing temperatures another two days.

Following a brief respite from last week's hot weather, the U.S. Weather Bureau says we're in for more 90-degree temperatures at least through Saturday.

The bureau shows little pity on area residents as it forecasts highs of 90 to 95 tomorrow, and sunny and continued hot Saturday.

Lows are expected to register a warm 64 to 70 tonight.

Today's east to southeast winds at 6 to 12 miles will become mostly southwest Friday.

STORY WORKABLE PLAN Deadline for Primary Vote Nears

Pontiac area residents are reminded that Tuesday is the final day for registering for the Aug. 3 primary election at village township and city clerk's offices.

Citizens who are 21 or older and who have not voted or registered in the last two years must do so to be eligible to cast ballots next month.

Persons who have recently moved from one governmental unit to another must also register in their new place of residence.

Persons who have moved to a new address in the same city, township or village should notify their clerk's office to be sure they are registered in the correct precinct.

Sheriff Warns Area Drivers

(Continued From Page One)

tions from the commission include a check on tires, brakes, and other equipment; keeping a pair of sunglasses handy, and wearing seat belts.

Readying themselves for the weekend along with the sheriff department's uniformed division are the county's water deputies, who patrol area lakes.

Their efforts are also likely to be crucial to a safe holiday, as evidenced by the fact that more persons drowned last weekend throughout the state than lost their lives in traffic accidents.

LBJ Speaks Today in Iowa, Nebraska

WASHINGTON (AP) — President Johnson is flying to Omaha, Neb., and Des Moines, Iowa, today for speeches expected to touch on both farm problems and the war in Vietnam.

Afterward, Johnson will fly to his Texas ranch and is expected to spend next week there.

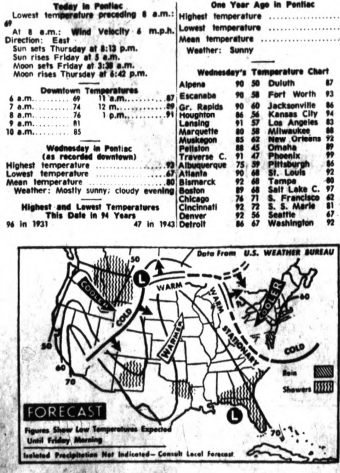

Man Killed by Train

ROYAL OAK (AP) — A Grand Trunk Western commuter train yesterday struck and killed Howard Book, 65, of Royal Oak, at a grade crossing. Police said the train crew reported Book crawled from a field onto the tracks.

Full U.S. Weather Bureau Report

PONTIAC AND VICINITY — Sunny and quiet warm today. Highs 87 to 92. Fair and mild with some clouds 64 to 76. Friday: Mostly sunny and hot, highs 90 to 95. East to southeast winds 5 to 15 miles today and tonight, mostly southwest Friday. Saturday's outlook: Sunny and continued hot. Precipitation probabilities 10 per cent today and less than 5 per cent both tonight and Friday.

DE GAULLE MEET COSMONAUTS — French President Charles de Gaulle and his wife (left) met Soviet cosmonauts Valentina Tereshkova Nikolayev and Col. V. M. Komarov in Moscow yesterday. De Gaulle is touring in Moscow and conferring with Soviet leaders.

Britain Joins Reds in Criticizing Raids

By United Press International

Russia, North Viet Nam and other communist countries today condemned "barbaric" U.S. bombing on the fringes of Hanoi and Haiphong. Britain, in more subdued voice, joined the critical chorus.

Many other U.S. allies viewed the doorstep attacks as necessary to retard mounting communist infiltration into the south.

U.S. to Move Saigon Forces

Hopes to Relieve Viet Capital Congestion

SAIGON, South Viet Nam (AP) — The U.S. military promised today to give Saigon back to the Vietnamese by the end of next year. The Vietnamese military will take longer to move out.

The American and Vietnamese commands held a news conference to announce a sweeping plan for removal of military personnel from the overcrowded capital. Most of the troops will go to a big new camp — 31 square miles in area — being built on the northern outskirts at Long Binh.

The evacuation is designed to relieve the city's acute housing shortage, ease congestion in port facilities and warehouses, reduce traffic congestion and accidents, and meet the problem of security for military installations and housing.

The military also hopes the departure of the troops will ease the inflation and other economic factors resulting from the presence of thousands of foreign troops in Saigon.

LARGE IMPACT

"We recognize the presence of American troops has had considerable impact on living conditions here," a U.S. spokesman said.

The plan calls for evacuation of nearly all U.S. and other foreign installations and personnel by the end of 1967. The Vietnamese removal is to be completed by the end of 1970.

Those units that don't go to Long Binh will be transferred to Cam Ranh Bay, Vung Tau, Da Nang and other major military bases.

Cong Regiment Cut to Pieces in Ambush Attempt

AN LOC, South Viet Nam (UPI) — A Viet Cong regiment was cut to pieces today when it tried to ambush an armor column of the U.S. 1st Infantry Division 15 miles from the Cambodian border.

By nightfall the American infantrymen of the Big Red One division had counted 130 Viet Cong bodies lying on the battlefield along Highway 13, some 90 miles north of Saigon.

Forward air controllers estimated as many as 200 were killed by air strikes.

U.S. losses were officially described as "light." A senior American officer at the scene of the day-long battle predicted the kill ratio would be at least 10 to 1.

The battle began when the Viet Cong, estimated at regiment strength of about 1,500 men, struck from ambush with a barrage of mortars, recoilless rifles and small arms.

Iraqi Rebels Ask Support

Army Officers Say
President Deposed

LONDON (AP) — Army officers in Iraq broadcast a proclamation today that they had taken over from President Abdel Rahman Arif and appealed for support from the rest of the military.

Their proclamation was broadcast by several transmitters in Baghdad about 1 p.m., but not by all. Several hours later, all transmitters went off the air in Iraq, suggesting the struggle was still under way.

The man who signed the proclamation was named in the broadcast as Arif Abdul Razzaq, a brigadier who tried to stage a coup last September and was exiled to Cairo.

Razzaq's statements were made in the name of the "Council of the Revolutionary Command."

The statements said that the Revolutionary Command will support the foreign policy of the United Arab Republic, for non-alignment and for peaceful co-existence.

De Gaulle Sees a Mock Battle

Soviet Event Includes
Simulated A-Blast

MOSCOW (AP) — French President Charles de Gaulle and the Kremlin leaders said tonight in a joint declaration that the war in Viet Nam represents a menace to world peace. They called for an end to all foreign intervention there.

MOSCOW (AP) — President Charles de Gaulle of France watched maneuvers of Soviet armored and military forces today in a mock battle that included a simulated atomic bomb explosion.

De Gaulle and the Soviet defense minister, Marshal Rodion Y. Malinovsky, stood on an observation platform, shielded from heavy rain by a canvas cover, to watch the mock battle three miles away on a vast plain at an army training center near Moscow.

De Gaulle was also shown some Soviet missiles at another part of the camp, but newsmen were not permitted to go with him.

The visit to the army camp was the first stop on the last full day of De Gaulle's 11-day visit to the Soviet Union.

His schedule also included an appearance on Soviet television and the signing of a joint declaration with Soviet leaders.

French Foreign Minister Maurice Couve de Murville and Soviet Foreign Minister Andrei A. Gromyko are also to sign agreements for Space-French cooperation in space research and a program of scientific exchanges.

French sources reported that De Gaulle and the Russians have agreed to establish a direct "hot line" for communication between the French and Soviet governments, in normal periods as well as during any crises that may arise. The line will be like that set up between Washington and Moscow in August 1963 as a guard against accidental war. The Moscow-Washington line reportedly has been used only for test messages.

The House agreed to the conference report (a House-Senate compromise) in the capital outlay bill, 64-31.

It was identical to the report rejected early Saturday morning, 40-30. That rejection coupled with adjournment until August technically killed the bill.

But lawmakers were called back into session and the vote was reconsidered yesterday.

Fifty-six "yes" votes were needed for passage in the House.

Birmingham Area News

Library Board to View Progress on Planning

BLOOMFIELD TOWNSHIP — Progress on site acquisition and the hiring of an architect to design a Bloomfield Township Library will be discussed at the library board's meeting tonight.

Various board members have been investigating potential sites for the \$1-million facility while interviewing prospective architects.

It is possible that the board will take action on the two matters at its 8 p.m. meeting, a spokesman said.

The project eventually will provide a permanent township library with at least 100,000 volumes.

Voters approved a \$1,100,000 bond issue to finance the project May 10.

TAX APPROVED

The facility was established in 1963 when a 1-mill operating tax was voted for it.

Now in temporary quarters, the library is located on the lower level of the Devon Chateau Building, 4036 Telegraph.

The library was opened in October 1964 with a collection of 14,000 volumes, which has been expanded to the current 26,000.

BIRMINGHAM — The citizens advisory committee of the Birmingham Board of Education currently is considering the need for a third high school in the district.

The group of 46 community and business leaders, appointed to study the building and operating needs of the district, held its second meeting Tuesday night.

Preliminary discussion involved immediate requirements to expand both elementary and secondary facilities to meet rapid enrollment growth.

The committee and school administrators will receive a report next week on enrollment and growth patterns in the district. The study has been prepared by planning consultants at Villcan-Leman and Associates of Southfield.

The committee tentatively has scheduled its next meeting for July 12.

Coed Editor Granted

Extra Time to Pay Fine

EUGENE, Ore. (UPI) — Coed editor Annette Buchanan has a report next week on enrollment and growth patterns in the district. The study has been prepared by planning consultants at Villcan-Leman and Associates of Southfield.

Mother Frets Concerning Daughter's Friends' 'De-scent'

By ABIGAIL VAN BUREN

DEAR ABBY: My daughter, a high school girl, has been having a lot of boys and girls over to the house lately. Among them are some boys of foreign extraction, and whether it's something they eat, or because they don't bathe or change their clothes regularly I do not know, but they smell to high heaven! I think it would be a kindness for someone to tell them.

My daughter says that she doesn't want to hurt their feelings, and after a while she does not even notice it.

Abby, when I open our front door I know whether those boys are here or not! Is there a nice way to solve this problem?

OFFENDED

DEAR OFFENDED: Apparently your daughter's odoriferous friends are not as offensive to her as they are to you. I know no "nice" way to tell people they "smell to high heaven." One of their best friends will surely pick up the scent some day and rescue them from social suicide.

DEAR ABBY: Where do you stand on this? An extremely well-to-do gentleman recently presented his bride with a VERY expensive diamond ring, and I mean EXPENSIVE!

She is his second wife and he is her second husband, both having "lost" their former mates in the divorce courts. The bride has confided to a few friends (I am one) that she has agreed in her will to leave her diamond to her husband should she die before he does, the idea being that he shall give it either to his next wife, or to his daughter by his first wife. How do you like that?

The bride also has a daughter by her first husband. It seems to me that when a man gives his wife a diamond ring, it is **HERS**. And she should have the privilege of leaving her ring to her own daughter if she so chooses. Isn't this a rather strange kind of deal?

CURIOUS

DEAR CURIOUS: There's nothing strange about it. The gentleman invested in a diamond, and he's letting his bride wear it as long as she lives. But it is **HIS** diamond and **THEIR** deal. And it's also **THEIR** business.

DEAR ABBY: There is this boy I like a lot, and everytime he sees me, he says, "Mary, I'll call you tonight!" But he never calls. I told him if he is going to call, to just call, but if he's not going to call not to tell me

he is. Can you give me some advice? I don't want to lose him.

THIRTEEN

DEAR THIRTEEN: LOSE him? If he promises to call and doesn't, you have yet to get him. Pay no attention to him when he says he'll call. And if he calls, it will be a delightful surprise.

CONFIDENTIAL TO 'QUESTIONS GALORE' IN PASA-

DENA: After he asks you to marry him you can discuss the plans for your wedding, honeymoon, housing, etc. Remember the recipe for making rabbit stew? It begins with, "First, catch the rabbit."

Problems? Write to Abby, in care of The Pontiac Press. For a personal reply, enclose a stamped, self-addressed envelope.

Mrs. James Clarkson (left), hostess for Wednesday's Pontiac General Hospital women's auxiliary membership tea, was assisted by Mrs. L. E. Howlett in carrying trays to the gay flower-bedecked refreshments table.

Five Inducted Into Society

Five area residents were among 270 Ferris State College alumni recently inducted into the society of the Golden Eagles at the annual alumni reunion.

Golden Eagles are graduates who attended the college at least 50 or more years ago.

Recognized were: Cecil F. Charlton, Birmingham, a 1913 graduate; Marie O. Christoffer-son Falor, Lakeville, 1915; Robert C. Moran, Tecumseh Street, 1909; Lula Boyer Moyes, Hira Street, 1915; and Bertha Sleppy Rudlaiff, Hammond Street, 1916.

Potpourri of Area Groups' Events

The Pontiac Lake home of Mrs. David DeShetler was opened Tuesday evening for the annual picnic of Lambda Chi Omega sorority, Beta Omega chapter.

Mrs. Robert Hutchings and Mrs. Ronald Milburn, delegates to the sorority's national convention in Detroit gave reports on the three-day meeting. Committees for the coming year were appointed and plans discussed for a husbands' night in July.

WEIGHT WATCHERS

Weight-Watching Jills will meet tonight at Pontiac Unity Center. By-laws are to be voted on at the 7 p.m. meeting.

CHAMBER MUSIC

Eugene Istomin, Isaac Stern and Leonard Rose will be presented in a special benefit cham-

Women's Section

ber music concert July 19 in Baldwin Pavilion.

The Detroit chapter, Brandeis University National Women's Committee, is sponsoring this concert. It will be the first chamber music concert on the Meadow Brook Music Festival grounds.

Further information about the concert and tickets may be had from Mrs. Milton Zussman, 8229 Hendrie Boulevard, Huntington Woods.

Brandeis University at Waltham, Mass. is the first Jewish sponsored non-sectarian university in the country. It was established in 1948.

SIGMA BETA

Mrs. James DeFlorio and Mrs. Ezio Bisogni installed new officers of Sigma Beta Sorority, Inc., Gamma Theta chapter, at

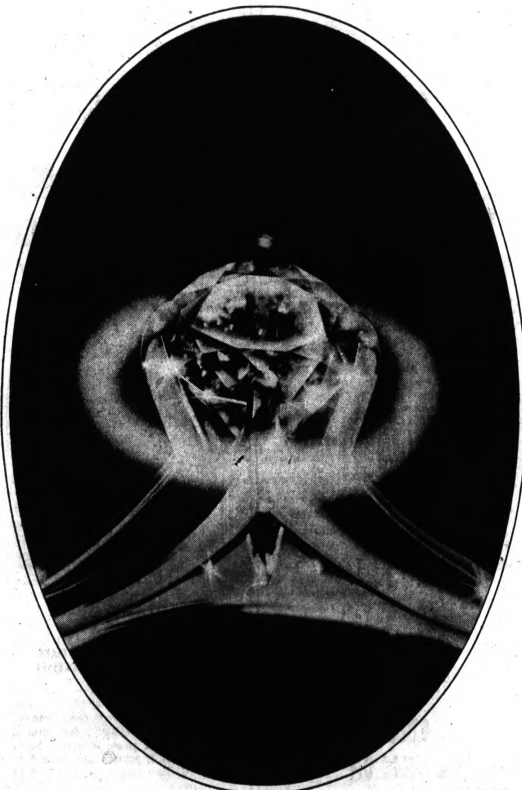

a dinner held at Ted's Restaurant Monday night.

Installed were Mrs. Gary Burnett, president; Joan Davis, vice president; Mrs. Louis Norberg, secretary; Mrs. Michael Marcum, treasurer; Mrs. Kenneth Hall, editor and Mrs. Dennis Hubble, parliamentarian. Two new pledges, Carolyn Cudnochufsky and Mrs. Donald Lemmert were initiated.

Mrs. Palmer Bundy, E. E. Barker Wed

Mrs. Palmer Bundy of Davisburg and Edward E. Barker Jr. of Cherokee Road were married recently in St. Rita's Catholic Church, Holly.

They will be at home on Cherokee Road after Aug. 1.

Comedian 'Caps' Career

Toothy Smile Wins Play Lead

By BOB THOMAS
AP Movie-TV Writer

HOLLYWOOD — "Enter Laughing," and with a brand-new smile: Reni Santoni.

Who is Reni Santoni? He is a young New York comedian who is playing the lead in "Enter Laughing," a fictionalized version of Carl Reiner's advent into show business.

THOMAS

What's this about the new smile?

"My teeth," he points out, "exposing them happily. They're new. Cost me thirty-five hundred dollars. Like them? You'd better."

I liked them. So does Reni—(short for Renaldo). He smiles often and the effect is beguiling.

SCREEN CREDIT DUE

"This is something new for me," he admitted. "I never used to smile much. Or if I did, I'd smile on one side of my mouth, because my teeth were crooked on the other side. Now it's different. I'm so happy about it that I think there should be screen credit: 'Mr. Santoni's teeth by'."

Orthodontistry's gift to Hollywood has reason to smile these days. He is starring in his first film with a cast that includes Jose Ferrer, Shelley Winters, Elaine May, Jack Gifford and Janet Margolin. All this because the producer's wife happened to be watching television.

The producer is Joseph Stein, who authored the play "Enter Laughing" from Reiner's novel.

"One night my wife was watching the Merv Griffin show on TV," Stein recalled. "She said, 'Come look at this kid — he might be just the one for "Enter Laughing." I was somewhat irritated because I was reading the newspaper, but I looked. She was right."

Stein was in northern California and when he got back, he saw Reni and "I could see the possibilities."

"But he needed some alterations," Stein said. "His hair was very dark and he wore it over his forehead. He had to lighten it and comb it back. And the teeth. Obviously he needed new teeth."

Like many a Hollywood star, Reni had his teeth capped. His new appearance, his natural ebullience and youthful appearance — he's 27 but can pass for 18, as required in the script — won him the role.

Reiner comes from the Bronx, as did Reiner. He studied journalism at Syracuse University and as a teen-ager handicapped the horses for a Perth Amboy newspaper.

He rattled around television, off-Broadway and nightclubs for a few years with unspectacular results.

Guardsmen Battle Forest Fire

CAMP GRAYLING (AP) — Four hundred Michigan National Guardsmen turned out Wednesday to help fight a forest fire which burned over 100 acres, threatening several cottages, four miles east of Grayling.

With the help of some 100 Conservation Department fire fighters, the guardsmen were able to stem the blaze's advance and extinguish it, despite bone-dry conditions prevailing in the area.

Moderate Trading

Stock Mart Declines Slightly

NEW YORK (AP)—The stock market declined slightly today in moderate trading.

It was the fourth consecutive session of falling prices.

The initial reaction to the 10 percent bank prime rate was not strong. The increase was announced after the close of trading Wednesday by Chemical Bank New York Trust Co.

and spread to other major banks today.

The New York Stock Exchange delayed the opening of trading in Great Northern Paper because of an influx of orders.

Electronics edged again with Zenith and Raytheon showing losses of about half a point.

AIRCRAFT MIXED

Aircraft were mixed, United Aircraft and Douglas gained nearly a point and Boeing and

General Dynamics losing more than half a point.

Opening blocks included Eastern Air Lines, off 1/4 at 101 1/4 on 10,000 shares; Sperry Rand, off 1/4 at 25 1/4 on 10,000; Chrysler, off 1/4 at 18 1/4 on 10,000; and SCM, off 1/4 at 7 1/4 on 10,000.

Wednesday the Associated Press 60-Stock Average declined 2.7 to 314.5.

Prices declined on the American Stock Exchange.

House Panel Turns to Tires

Progress Is Slow on Auto Safety Measures

WASHINGTON (AP)—The House Commerce Committee, making slow progress on auto safety legislation, tackled today a proposal to strengthen a Senate-passed bill requiring uniform tire standards.

Amendments before the committee would require manufacturers to show clearly on the tire how much weight it is expected to carry and how many miles it contains.

The committee also has to decide whether to incorporate the tire provision in its comprehensive auto safety measure or keep it in a separate bill as did the Senate. The Senate measure, approved in March, would direct the secretary of commerce to issue standards within two years.

Committee proponents of tough auto safety legislation continue to express confidence despite votes by the group this week against adopting the Senate bill and against specific language that would bring trucks under provisions calling for establishment of new car safety standards.

SENATE BILL

The proponents say a good deal of the Senate bill is expected to be incorporated into the House version through separate amendments.

And they dispute whether the 15-14 vote against including trucks will bar them from the bill completely.

By SAM DAWSON

AP Business News Analyst

NEW YORK—Some low-pressure economic areas could affect the business weather in the second half of 1966.

But high-pressure areas built up over the last five and a half years are still most likely to set the economic climate for some months to come.

Depressed areas are the experts watch are housing, the stock market, auto sales uncertainty, credit squeeze on consumers and business firms, higher interest rates, growing wage demands, worsening balance of payments deficits and, above all, the spreading effect of a costlier Viet Nam war—both in money and manpower on the civilian economy.

These could moderate the results of the economy the rest of this year. But the momentum built up in major segments is still so strong that most economists, in government or in business, see the general trend still

upward with many new records all but assured by year's end.

STRONG POINTS

The strong points are:

—Defense spending upturn which will be increasingly translated into new orders, better production and more jobs and paychecks.

—High and rising employment. This means larger totals of personal incomes and corporate revenues. This all but guarantees more consumer spending by year-end, and further ordering of materials and machinery.

—Thus all three props of the economy—consumer, business and government spending—should be sturdy.

Caution has come back into style, however, after the speculative exuberance of the early months of the year. Investors in the stock markets, aware of the attitude of many citizens who do not trading at all. Consumers also are worried by the chance of a rising cost of living, by the credit pinch which they engage in the great American pastime of buying on the cuff.

How the 1967 model auto will catch on also will have a wide psychological repercussion. Public confidence has close links to auto industry trends.

Some business leaders are fearful that the big climbs in profits may be over, or nearly so. Profits may be squeezed, both by the government's frowns on price increases and by growing labor demands that could raise production costs.

Other storm centers they watch are the government's attitude toward mergers, its stepped-up antitrust drive, and a possible tax increase.

CREDIT DEMAND

Whether consumer demand is reaching a saturation point in some fields is debatable. Can't or shaken confidence could delay some buying, but most consumers seem bent on raising their living standards still higher—they can get the necessary credit.

Monetary policies—tight credit, higher interest charges—will play a role in setting the course of the economy in coming months, or in affecting its rate of growth.

Fiscal policies—light credit, lower interest charges—will play a role in setting the course of the economy in coming months, or in affecting its rate of growth.

U. S. Attorney Floyd Buford, who said earlier he planned to prosecute the case for the prosecution today, was to continue introducing government witnesses.

So far 21 persons have testified for the government, including John R. Howard, a Negro Army Reserve officer who was with Penn when he was slain by night riders along a dark Georgia highway July 11, 1964.

Howard yesterday retold the story of how he was shot from a cream-colored car which had pulled up alongside the car carrying him, Penn, and Maj. Charles Brown, also a Negro.

Howard testified in 1964 during the State Court murder trial of Sims and Myers, in which both were acquitted.

HEARD A SHOT

He said they were returning to Washington, D. C., their home, from summer duty at Ft. Benning. Howard testified he was dozing in the back seat when he heard a shot and looked up.

"Colonel Penn slumped over. He fell over Major Brown," Howard said. Penn had been driving the car, and the frightened Negroes struggled to regain control of it after Penn "died instantly."

Howard said he had not been able to identify the men in the other car.

There were indications other large banks would follow suit.

The earlier increases of Dec. 6 and March 10, each amounting to one-half per cent, were followed by boosts in lending rates to consumers.

RIGID CEILINGS

State usury laws set rigid ceilings on what lenders may charge on one-quarter per cent, and bankers said this would be the limiting factor.

Chemical New York was the first to announce the prime interest rate hike. Almost immediately, the First National City Bank of Chicago announced a similar increase, and so did the Union Bank in Los Angeles, which specializes in corporate banking.

The announcements came too late in the day for other major banks to react formally.
