

Romney Faces Selling Job in Move for Presidency

By WALTER MEARS
COLORADO SPRINGS, Colo.
(AP) — Michigan Gov. George Romney is making his move for the 1968 Republican presidential nomination — but there is a job of salesmanship ahead among

his moderate colleagues as well as GOP conservatives.
There is Californian Ronald Reagan, who said in an interview he is ruling out no potential candidate, is committed to none, and wants to see Romney

in national action before he makes any decisions.
Romney has had harsh words about Romney's refusal to endorse the 1964 GOP ticket headed by Barry Goldwater.
The Michigan governor is known to have talked with Reagan in an effort to smooth out their differences.
Reagan is likely to command California's 86 convention votes when Republicans gather to choose their next presidential nominee.
Some liberal to moderate

News Analysis
GOP governors indicated that they, too, remain to be convinced about Romney.
One of their number, saying that his name not be used, said he wants to make sure that Romney can provide the safest national leadership. "Until I see that," he said, "I'm remaining committed to no one."
Romney insists it will be six

months before he decides whether to seek the White House. But there was little doubt about his candidacy today among other Republican governors convened in this mountain resort.
Despite that widespread view, and general agreement among moderate GOP governors that they must rally around a single candidate well in advance of nominating time, there were no outright endorsements of Romney.
Romney said he was not seeking any.

Indeed, in a three-hour closed door meeting yesterday the governors steered clear of anything smacking of presidential politics.
They talked about states problems, they heard Romney urge a system of federal-state tax sharing, and they listened to a unity appeal from Gov.-elect Reagan.
Reagan suggested a national GOP agreement that no Republican will say a word which the Democrats could one day use against a party nominee.

Powell: Won't Fight for Seat

NEW YORK (AP) — Rep. Adam Clayton Powell, D-N.Y., says he will not contest the decision if the House of Representatives refuses to seat him in the January session of the 90th Congress.
"I am not going to fight," Powell said last night in an interview on the television program "Special Report." He was interviewed in the Bahamas Islands where he is vacationing.
"If they don't want me, I'm not going to fight them," he added.

Rep. Lionel Van Deerlin, D-Calif., has said he will seek to bar Powell from taking his seat in Congress unless the Harlem Democrat "can return to his home state of New York without going to jail" on a criminal contempt conviction and three other civil contempt convictions in connection with a \$164,000 libel judgment he owes a Harlem widow.
The state's Appellate Division last Thursday upheld a lower court ruling that makes Powell a target for immediate arrest if he enters the state.
Reps. Albert Quie, R-Minn., and Sam Gibbons, D-Fla., predicted yesterday that Powell will be denied his House seat when Congress reconvenes next month.

Other Killing Spotlighted by Strangling

CINCINNATI, Ohio (AP) — The sixth strangling in Cincinnati turned the spotlight today on the unsolved Aug. 14 slaying of a 31-year-old woman who was stabbed in the throat after an attempt was made to strangle her.
Police continued to question a 29-year-old man in connection with both cases, and also the five previous stranglings.
A shy, religious spinster, Lulu Kerrick, 31, became the sixth victim of a killer who has terrorized Cincinnati since Dec. 2, 1965.

Her body was found yesterday in an elevator of her apartment building.
"There's a definite tie-in of the Kerrick slaying with other stranglings in the city," said Jacob Schott, chief of detectives.
The stranglings have resulted in increased sales of guns and other weapons, such as tear gas guns, in the Cincinnati area.
Police arrested a laborer and former part-time taxi driver, shortly after Miss Kerrick's body was found.
They said he had been seen following another woman into Miss Kerrick's apartment building early Friday. That woman filed an assault charge against him.

Utica at Polls for School Vote

The fate of a \$15.5-million bond issue for construction of new schools in the Utica School District plus an additional 6 mills to operate them lies in the hands of the voters today.
The Board of Education has forecast a shortage of 112 classrooms in 1969 if the measure does not pass.

This is in addition to facilities now being readied by construction of the new Adlai Stevenson High School, they said. Four new elementary schools have gone into use this fall, some of them just this week.

The rapid growth of the large Utica district is cited as the main reason for the need of additional facilities, according to Schools Supt. Philip E. Runkel.

If the measure passes, officials say home owners can expect to pay approximately \$5.25 more each month — based on a \$20,000 home.

The Saturday date for election was chosen, school officials said, because of the probability for a greater turnout of voters on the weekend.

Contest for Junior Miss in Waterford Tonight

Even today's heavy snowstorm can't dampen the enthusiasm and excitement of 16 girls seeking the Waterford Township Junior Miss title tonight.
The new Junior Miss will be crowned at a pageant at Mason Junior High School, 3835 W. Walton.

Calm Teacher
Saves Class
From Disaster

SOUTH BEND, Ind. (AP) — An ominous noise overhead diverted Claudine Black's attention from her third-grade class at Linden School.

Looking up, the teacher saw the ceiling beginning to sag. Exhibiting the calmness she used in many routine fire drills, Mrs. Black quickly ushered her 25 pupils from the room.

The last child was barely through the door yesterday when more than a ton of plaster, acoustical tile and wire lath crashed onto the desks where the youngsters had been sitting.

Outside, Mrs. Black discovered 8-year-old Rhonda Bush was missing. The teacher's first thought was the child might be trapped in the rubble. Then she recalled the girl had been in a small room off the classroom, getting writing paper.

Shouting to Rhonda to remain where she was, Mrs. Black groped her way through unsettled dust, climbed over the rubble, and led the girl to safety.

Township Jaycees, the show will get under way at 7:30 p.m.

To the winner will go a \$250 college scholarship, a trophy and automatic qualification in the Michigan Junior Miss Pageant at Pontiac Northern High School Jan. 27-28.

Gayanne Mansfield, reigning Waterford Township Junior Miss, will surrender the crown she won last year during ceremonies tonight.

Out to capture the crown are nine senior girls from Waterford Kettering High School, four from Our Lady of the Lakes and three from Waterford Township High School.

The contestants are Mona Arseneau, Kathy Eudis, Lynn Hammond, Sharon Lilley, Pamela Mackavich, Rose A. Maricci, Karlie Mason, Dawn Mercer, Karen Meyers, Linda Pietrak, Wanda Quettermus, Monica Regan, Marcia Reinhardt, Carole Richardson, Jennifer Siegart and Sue Strohmeyer.

The girls are rated by a panel of three judges on scholastic achievement, poise and appearance, youth fitness and creative and performing arts.

'Johnson Is Facing Defeat in 1968'

WASHINGTON (AP) — President Johnson "can look forward to defeat in 1968" unless he changes his domestic and foreign policies, the national director of Americans for Democratic Action said today.

Leon Shull, in a speech prepared for a meeting of the liberal organization's national board, also cited Johnson's unpopularity as one reason for Republican gains in last month's elections.

"The administration should recognize that the 1966 election was a defeat and that if the President had been running he might well have lost," Shull said.

Ruby Termed Gravely Sick

DALLAS, Tex. (AP) — Jack Ruby, slayer of Lee Harvey Oswald but a month or so away from a new trial, was taken from the Dallas County jail to Parkland Hospital yesterday with what the hospital called a serious case of pneumonia.

Phyllis Burleson, one of Ruby's lawyers, said it was "too early to tell" how the illness might affect a new trial for his client.

Ruby, 35, was convicted and sentenced to death for Oswald's slaying, but the Texas Court of Criminal Appeals recently reversed the 1964 conviction and ordered a new trial outside of Dallas.

Dist. Judge Louis Holland who has presided over the case since the trial Judge Joe B. Brown bowed out, transferred the trial to Wichita Falls but set no date. He indicated it possibly would be in February.

Burleson saw Ruby soon after he arrived at the hos-

pital and described him as a very sick man.

"We are concerned," said the lawyer. "I think he's very sick."

Burleson said Ruby was being administered oxygen.

"The guy's dying," said Ruby's sister, Eva Grant.

Aid Viet Peace, Algeria Asked

Role in Negotiations
Urged by Harriman

ALGIERS, Algeria (AP) — W. Averell Harriman, President Johnson's roving ambassador, asked the Algerian government today to "do everything in its power to bring about negotiations for a settlement" in the Viet Nam war.

He told a news conference following a 90-minute meeting with Algerian President Col. Houari Boumedienne he has made similar requests to other, unnamed, governments.

He said he explained the American position on Viet Nam to Boumedienne, listened to the Algerian views and "entirely disagreed" with them.

He did not indicate what kind of Algerian mediation he had in mind. He said he did not suggest an active Algerian role in negotiations.

"The idea was not precluded," he added.

The Boumedienne regime regards the Viet Nam war as a "war of national liberation" similar to Algeria's own war against French rule.

The government-run press and radio hardly let a day pass without condemning American aggression in Viet Nam.

Harriman clearly made little headway in his efforts to gain Algerian acceptance of the American position.

But he said his meeting with Boumedienne, and a four-hour meeting yesterday with Foreign Minister Abdelaziz Bouteflika, convinced him that the Algerian leaders "believed in President Johnson's sincerity."

Yank Unit Bombed by Own Planes

SAIGON, South Viet Nam (AP) — Two 250-pound bombs dropped from a U.S. Marine Corps plane exploded in the midst of a Marine company today, killing 16 Marines and wounding 11, a Marine spokesman said.

The bombs were among six dropped to support a Marine battalion advancing along a razor-back ridge, known as the Rockpile, about five miles south of the demilitarized zone, he said. The other four fell on their intended targets ahead of the advancing Marines.

The spokesman said the two errant bombs may have ricocheted after striking the rocky terrain, or there may have been a malfunction in the bombing mechanism.

The bombing strike was aimed at a suspected concentration of North Vietnamese troops on the ridge.

In other war action, the Viet Cong mounted a series of attacks and ambushes within a 35-mile radius of Saigon last night and today and in one assault inflicted heavy casualties on Vietnamese troops.

UNIT ATTACKED

An estimated 500-man Viet Cong force attacked two companies of Vietnamese popular force soldiers at an army training center 34 miles southeast of Saigon and took a heavy toll before withdrawing, official spokesmen reported.

Goodfellow Sales Today

Goodfellow sales continue today in suburban areas.

Newspapers are being sold in Highland, West Bloomfield and Pontiac townships on a one-day basis. Sales in Lake Orion and Avon Township have been continued for another day in those areas.

Proceeds will provide Christmas baskets for needy families.

County Plans 8 Road Jobs

\$2,140,000 Is Slated for Work Next Year

Eight major highway improvement projects will be undertaken in 1967 by the Oakland County Road Commission. Board Chairman Robert O. Felt announced today.

The new construction is slated for Elizabeth Lake Road between Telegraph and Lynn; Fish Lake Road between Fenion and Academy; Greenfield between Eight and Nine Mile Roads; and Haggerty between 12 and 14 Mile Roads.

Improvements also are planned for Orchard Lake Road, between Eight Mile Road and I-495; Rochester Road, between 14 Mile Road and the Clawson city limits; Seymour Lake Road, between M-16 and Sashabaw; and Walton Road, between Squirrel and Adams.

Cost of the new construction will be \$2,140,000. The commission's share will be \$1,282,000 through federal, state and municipal funds.

In addition to the nearly 10 miles of new construction, the commission plans to improve the Twelve Mile-Evergreen intersection, construct a new bridge in Ortonville on M-111 Street; and build a maintenance garage on the Dixie Highway at Rattles Lake Road.

Rain and showers will fall along the South Atlantic Coast, the eastern Great Lakes, the Tennessee Valley, northern New England and the north Pacific Coast.

delegations are determined by an elaborate formula which gives added weight to states which support the Republican presidential nominee, elect a Republican governor or choose a Republican senator.

Under the formula, nine states stand to gain delegates in 1968. Seven of the nine had 1964 delegations which supported Goldwater. Of five states losing strength, three supported the former Arizona senator in the 1964 convention.

GAIN DELEGATES
The result is to give added weight in the 1968 convention to delegations likely to have conservative leanings.

States gaining six delegates each are Alabama, Georgia, Louisiana, South Carolina, Arkansas, Hawaii, Maryland and Nevada. The first four get their extra seats because Goldwater carried the states in the 1964 election. The other four get extra delegates for electing a GOP senator or governor.

Mississippi gains seven seats, six for Goldwater's 1964 victory and the other for casting 10,000 Republican votes in each congressional district.

Except for Arkansas, where Gov. elect Winthrop Rockefeller might prefer a moderate, the Southern delegations are likely to oppose Romney, Maryland and Hawaii are expected to support a moderate like Romney.

LOSE SEATS
Five states lose six seats each: Indiana, New Hampshire, North Dakota, Utah and Virginia. Delegations from Indiana, Utah and Virginia supported Goldwater's nomination in 1964 but Utah might back Romney, a Mormon, in 1968.

The 1968 GOP convention will have 1,333 delegates with 667 needed for the nomination. The 1964 meeting had 1,308 delegates.

Under the formula, each state gets four at-large delegates, two at-large congressmen, one district delegate for each district where the Republican presidential candidate or its congressional nominee polled 2,000 votes and an extra district delegate for each district which in 1964 voted Republican.

Survivors Cite Speed in Sinking

ATHENS, Greece (AP) — Three crewmen who survived the sinking of the Greek ferry and passenger liner Heraklion have testified from their hospital beds that excessive speed and hasty loading of vehicles were factors in the disaster, Piraeus Harbor authority sources said today.

The Typalides Brothers Line of Piraeus declined to comment. The company has made no statement since its ship sank early Thursday.

As a naval inquiry board began an investigation, Greek, American and British warships neared the end of a fruitless hunt for survivors in the Aegean Sea. A Merchant Marine Ministry official said the search would continue through today.

Forty-seven men — 37 passengers and 10 in the crew — were saved after the Heraklion went down in a storm during the overnight crossing from the island of Crete to Piraeus, the port of Athens. Sixty bodies were found and 234 persons are listed as dead or missing. The missing included the captain, Emmanuel Vemikos.

High Soviet Blasts China on Viet War

MOSCOW (AP) — A top Soviet leader accused China today of prolonging the war in Viet Nam and causing immeasurable more victims there than necessary.

Charging that Chinese obstruction slowed efforts toward "the goal of the victory of the Vietnamese people," Alexander N. Shelepin, a member of the Politburo and a Communist party secretary, said:

"This great goal would be achieved faster and with immeasurably fewer victims if the position of the Chinese leaders, known to everybody, would not have become a hindrance on the way toward this goal."

Shelepin is the last Kremlin leader known to have talked personally with Ho Chi Minh. He was in Hanoi in January arranging Soviet aid to North Viet Nam.

RED NEWSPAPER
His speech was delivered Friday in Kailin, an industrial city 100 miles northwest of Moscow, and published today in the Soviet military newspaper Red Star.

The speech contained what was perhaps the strongest personal attack by a Soviet leader on Mao Tse-tung since the ouster of Nikita S. Khrushchev. The fall of Khrushchev in October 1964 ended an earlier round of Soviet-Chinese name-calling.

Bureaucracy in Cuba Draws Fire of Castro

By ISAAC M. FLORES
HAVANA (AP) — Prime Minister Fidel Castro said Friday night a vast amount of bureaucracy is still entrenched in Cuba and many government officials are not doing their jobs in eradicating it.

He said there is a lot of "the petit bourgeois spirit left" that has to be rooted out.

He addressed the closing session of the Cuban Women's Federation. His two-hour speech was broadcast nationwide from Santa Clara, the capital of Las Villas Province, where the federation held its meeting. The organization is headed by Vilma Espin, Castro's sister-in-law and the wife of Armed Forces Minister Raul Castro.

News Briefs at a Glance

LANSING (AP) — Minimum hourly wage rates provided by the 1964 state minimum wage law will be boosted to \$1.25 an hour effective Jan. 1. Thomas Roumel, director of the Department of Labor, said yesterday. The present \$1.15 minimum wage went into effect last Jan. 1.

LAS VEGAS, Nev. (AP) — The Atomic Energy Commission announced it has reached major agreements with a gas company for using underground nuclear explosions to mine trapped gas in northwest New Mexico. An AEC spokesman said last night the agreement was with the El Paso Natural Gas Co.

WARREN (AP) — Agreement appeared near today on terms of a proposed new labor contract to end an eight-week-old strike at the General Electric Co. Carbonyl plant in Warren. Negotiators for the company and Local 771 of the United Workers union reported yesterday that "progress has been made" to resolve the dispute.

DETROIT (AP) — Two groups boosted a reward to \$400 on the head of the person who killed 41 dogs and cats and scattered the bodies throughout the Southfield-Royal Oak Township area this week. The Southeast Michigan Veterinary Medical Association and the Michigan Humane Society each put up \$10 yesterday.

TRAVERSE CITY (AP) — Teachers in the Traverse City Education Association yesterday asked the school board for salary increases of from \$400 to \$2,000 for the 1967-68 school year. The board had asked the association to submit its request so any anticipated expenses could be included in a forthcoming millage vote.

MANILA (AP) — One hundred and two whales have died on beaches on the central Philippine island of Palawan in the past two days, the Philippine News Service reported today. It said inhabitants of the island reported the last such suicide landing of whales took place in 1926.

DETROIT (AP) — A gunman's encore didn't work out nearly as well as the original here yesterday. He took \$700 and assaulted the jewelry store owner, Barney Lochman, 72, on the first trip. But two hours later, when he came back to rob a customer, the victim-to-be turned and fled. So did the thief.

DETROIT (AP) — The Ford Foundation has announced a series of grants to help Negroes play a larger part in the nation's economy. The University of Michigan received one grant for \$34,000 to hold a conference on race relations and minority group problems.

DETROIT (AP) — A 67-year-old former prizefighter was shot through the head as he thwarted a would-be robber. Dorsey T. Pearson, who fought under the name of Billy Pearson, was on a rent-collecting run when he was approached by a gunman. Pearson tried to wrestle the gun away and was shot. The thief escaped.

DETROIT (AP) — An attorney for the American Federation of State and Municipal Employees (AFSME) filed suit in Wayne County Circuit Court yesterday seeking back pay for 2,973 men for a period when the union was on strike in October. The suit alleges that the city had paid other men who lost work or took part in the strike, while only AFSME members were unpaid.

DETROIT (AP) — The Detroit Council of Parent-Teacher Associations has scheduled a statewide conference on "Fiscal Reform for Quality Education" at Detroit's Cobo Hall Dec. 14. Gov. George Romney is scheduled to be among the speakers.

Soviet Ships Watch B52s

WASHINGTON (UPI) — Military observers are taking a light view of reports that Russian trawlers off Guam and Vietnam may be warning the Communist Viet Cong when B52 bombers take off or approach the Vietnamese coast.

The Defense Department said officially that it had no comment on these reports.

Informed sources were unable to confirm or deny that the Soviet trawlers, which are well-equipped with electronic gear, are being used for this purpose.

Observers speculated, however, that if the reports are true, the warnings from the trawlers would be of little use to the Viet Cong, since the Soviet vessels presumably would have no way of knowing where the B52s were going to strike.

Such warnings might even be a negative morale factor for the Viet Cong, tending to produce jitters in many enemy encamp-

SHIPS PATROL

There are three Soviet trawlers on patrol in the Far East. One is constantly off Viet Nam. Another watches Guam, where the B52s take off.

The third shifts between these areas and the waters farther north around Okinawa.

The trawlers are careful to stay within their rights. It is assumed that U.S. vessels monitor their broadcasts, but these could be in untranslatable code.

If they reported the presence of bombers in the sky, it would not violate international law, officials said.

City Gets Pat on Back for Road Safety

Pontiac was commended for activities supporting statewide measures of traffic safety in the recently published annual Pontiac Traffic Safety Inventory.

The report, based on 1965 Pontiac data, also said the traffic safety committee of the Pontiac Area Chamber of Commerce was reported to be actively promoting traffic safety in the city and appeared to meet basic organizational standards recommended for a citizen's safety organization.

The inventory, compiled by the National Safety Council in Chicago, evaluates traffic

department functions and appraises traffic safety programs.

One paragraph points out that the report should be used in guiding and improving programs, not for evaluating official departments.

The report complemented the committee on action taken to secure broad public support for endorsed official programs.

BALANCED PROGRAM

Recommended was further utilization of a close relationship between officials and the committee, guided by the inventory, to promote a balanced traffic safety program.

Also suggested was that all traffic accident data gathered be used for public traffic safety education and preventive planning purposes.

The report also recommended that supervisors directing uniformed personnel be given at least two weeks of command or traffic administrative training.

Furthermore, the report urged that recruits attend at least 100 hours of traffic training and a refresher course every two years.

The number of accidents — nonfatal injury totaling 300 and fatalities totaling 13 in 1965 — suggests the need for stronger reinforcement programs with an

increase in arrests and convictions for hazardous traffic violations, according to the inventory.

This would include a higher proportion of violators arrested at the accident scene or when evidence is found so violators can be brought to court by police, the report adds.

Also, increased action was urged against hit-and-run cases through more intensive investigation, reevaluations of procedures and special training.

The report recommends that efforts be made to encourage civic, official and professional groups and organizations to unite in projects aimed at local traffic safety programs.

U.S. Asks Red Change on Talks

WASHINGTON (UPI) — The United States has asked North Viet Nam to reconsider its refusal to participate in Red Cross-sponsored talks on the possible exchange of prisoners of war.

The State Department said yesterday "We regret the unwillingness" of the Hanoi government to agree to the International Red Cross proposal for such a meeting. It added: "We urge Hanoi to reconsider her position."

73rd State Legislature Ends

LANSING (AP) — Members of the first Democratic Legislature since 1890s folded their tents yesterday and went home, some of them to stay.

But first the lawmakers wound up a three-day adjournment session by acting on a handful of measures left over

from their two busy years in office.

Democrats began the now-ended 73rd Legislature with majorities of 73-37 in the House and 23-15 in the Senate, thanks in part to the 1964 Lyndon Johnson landslide.

When the 74th legislature convenes next Jan. 11, they'll face a 55-55 split in the House and a 20-18 Republican majority in the Senate.

Before adjourning the three-hour session at noon, the lawmakers:

- Amended the State Fair Labor Practices Code to ban job discrimination according to sex.
- Rejected compulsory motor vehicle inspection.

- Shifted the expiration date of commercial license plates from Jan. 31 to Feb. 28.
- Attempted to attract to Michigan a planned \$300-million federal nuclear laboratory.

- Fixed a mistake they made earlier while amending a state bonding law.

They went home without approving a \$600,000 windfall for the Wayne County Welfare Department.

LICENSE DATE

Owners of large trucking fleets had protested an earlier bill setting the license plate expiration date back one month. They said they would get 11 months of use from their plates while paying the 12-month rate for them. The Legislature put the date back where it was and gave the change immediate effect.

Given immediate effect, too, was a measure handing added property condemnation power to authorized state agencies.

That one is designed to overcome any property-owner resistance to acquisition of a site in Washtenaw County if the Atomic Energy Commission decides to build its 200-billion-electron-volt atom smasher near Ann Arbor.

Leads Senate Dems

Dzendzel Retained

LANSING (AP) — Looking ahead to 1967, minority Senate Democrats chose yesterday to keep Ray Dzendzel as their leader and got together with majority Republicans to clear up other housekeeping chores.

Dzendzel of Detroit was named minority leader in a party caucus following adjournment of the 1966 Legislature, in which Senate Democrats held a 23-15 edge.

Republicans chose their leadership two days after the Nov. 8 election which gave them a 20-18 margin of control in the new Senate.

Sander Levin of Berkeley was picked as minority floor leader and John E. McCauley was named caucus chairman.

Both were elected to the Senate in 1964. Dzendzel, a former House member, has served in the Senate since 1958, and was majority leader in the previous Senate.

GOP MEETING

Majority Republicans held a meeting of their own and selected Beryl Kenyon as their candidate for Senate secretary to replace Eugene Farnum, who took over the post from Kenyon when the Democrats assumed leadership in 1964.

The secretary and sergeant-at-arms are elected by the Senate, although the party in power usually decides who will fill the two positions.

Majority Leader Emil Lockwood, R-St. Louis, said a candidate for sergeant has not been chosen although several applicants are under consideration.

Republicans and Democrats got together to talk over staff and agreed on a new distribution that will closely match the present majority-minority arrangement.

DIVISIONS

Lockwood said each Republican committee chairman will be a secretary as will each Republican not heading a committee. Lockwood, as leader, will be allowed two secretaries and the speaker pro tempore one.

Lockwood said the question of executive aides for Republicans had not been decided.

Under the arrangement, the minority leader would have two secretaries, with remaining Democrats allowed one each.

In addition, the minority leader would have an executive assistant and a legislative aide would be provided for the remainder of the Democratic membership.

Republicans appeared highly satisfied with the staff breakdown.

Hoosier State Lights 150 Candles

Indiana is perhaps the purest midwestern state. Its native sons include JAMES WHITCOMB RILEY, GEORGE ADE and GENE STRATTON PORTER, who celebrated in their various ways the homespun virtues of the Nation's heartland. "Middletown," the noted social study of a typical American small city, was based on Muncie, Ind.

Reflections on Indiana are in order because tomorrow will mark the 150th anniversary of its statehood, antedating Michigan's admittance to the Union by 21 years. Vincennes, founded in 1735, was the first permanent settlement in what is now Indiana.

The capture and recapture of Vincennes from the British by George Rogers Clark is consid-

ered the most important western military victory of the Revolutionary War. George Washington sent "Mad Anthony" Wayne to the Northwest Territory to fight the Indians in 1794. This expedition led to the founding of Fort Wayne.

Originally an overwhelming rural state, Indiana has become highly industrialized. The Calumet region in the northwest corner of the State is virtually an American Ruhr.

Indiana stands third among the states in steel output. It also ranks third, behind Iowa and Illinois, in production of corn and hogs.

We salute our neighboring state on its significant milestone and the contributions it has made to the greatness of America.

Calls State Control Brake on Medical Research

If the United States falls prey to the plague of too much government interference in fields of science and medicine, it can never be said that we have had insufficient warning. Eminent scientists and men of medicine from other lands, who have seen the tragic consequences of mixing politics in the fields of science and medical care, mince no words in telling what is in store if the same pattern is followed in this Country.

Dr. ERNEST B. CHAIN, the English biochemist who won the Nobel Prize for his work in developing penicillin, expressed the opinion that the great age of medical discoveries may be coming to an end: "The dazzling success of recent decades cannot be maintained 'unless a flow of new ideas based on the discovery of new biological phenomena occurs.' And this flow of new ideas cannot be obtained by

state subsidies or by bulldozer organizational methods."

On the surface, Dr. Chain's pessimism appears justified, and yet there are encouraging signs that the United States will not wholly succumb to the frustration of state control as has happened in England.

The future of scientific progress lies in basic research. In this field, the American Medical Association Research and Education Foundation's Institute for Biomedical Research promises to increase in importance to the American scientific community.

As the AMA points out: "The kind of basic laboratory studies under way at the Institute are based on the inner-directed creativity of gifted scientists and are what bring advances in science."

Hoodlums Strip Allure From "Sunset Strip"

Los Angeles has been having trouble with certain teen-agers and older youths who have virtually taken over the famed Sunset Strip, once the playground of celebrities and a gawking tourists. Attempts to crack down have led to recurring rioting.

A representative of this decidedly minority group, with the flowing long hair that represents the new conformity of "tuned in, turned on and dropped out" nonconformists, was interviewed by a reporter.

Where did he live: Oh, around

From "Sunset Strip"

— with friends, was the reply of the nonworking, nonstudying youth.

Where did he get his money? From his parents, mostly.

All of which led one observer to comment: "These people want the squares to keep the world going so they can nonconform to it."

It may also suggest a new slogan for parents who feel guilty about not having bequeathed an absolutely perfect world to their children:

"No subsidization without participation."

Romney Thin on National Ideas

By JAMES MARLOW
AP News Analyst

WASHINGTON — Michigan Gov. George Romney is a national figure but his national ideas look pretty thin.

Esteemed for high character and moral overtones, he is running ahead of President Johnson in public opinion polls. But what does he stand for?

Romney says he hasn't made up his mind on running for the presidency, but he is beginning to scamper around the country like a man taking the Republican pulse on his prospects for representing the party in 1968.

Because Johnson didn't put in a tax increase last year, Romney said, the economy is now teetering on the brink of a slowdown. But there is a lot of disagreement among economists on that and on whether one is needed at all.

And Romney, whose only experience in government has been on a state level and who has been against too much federal government, then offered what political scientists might call a kind of utopian concept of government:

- Voluntary associations for cooperation action centers. Whatever they mean.
- Private enterprises for competitive action centers. Whatever they mean.

- State and local governments for locally oriented action centers close to control by the people. Whatever they mean.

- The federal government as an action center to cope with tasks requiring unified national effort. Whatever that means.

SHOULD GET SPECIFIC
If he is going to revolutionize the running of government, it would seem he could at least get specific, particularly since he said dependence on the federal government is "dwarfing America's men."

But all this is in line with what appears to be Romney's inability to be specific or get down to cases generally.

For example: He is reluctant to open up on one of the most important issues of the time, the war in Viet Nam, saying he wants to give it more thought because "before a person raises questions he ought to be able to make specific proposals."

But he has already had years to give much thought since the war has been going on for years. Perhaps his performance at the governors' conference last July dented his self-confidence on this subject.

MADE HASH OF IT
When he tried to answer a question on Viet Nam he made hash of it.

He is considered a moderate Republican but says he can't follow the "gliblybook about conservatives, liberals and moderates." He is definitely on record against "extremists" and did not support the presidential candidacy of Sen. Barry Goldwater in 1964.

There are sound differences between conservatives, liberals and moderates which Romney misses when he considers any differences "gliblybook."

The POWER of FAITH

By WOODI ISHMAEL

The heralding angel comes . . . The shepherds follow the star.

THE CHRISTMAS STORY—II

The birth of Christ, which we celebrate this month, did not occur unheralded.

An Angel of the Lord appeared to some shepherds in the fields, filling them with fear and wonder. But the angel calmed them, saying,

"Fear not, for behold, I bring you good tidings of great joy, which shall be to all people. For unto you is born this day in the city of David a Savior which is Christ the Lord."

In great excitement, and with awe, the shepherds made their way to the manger where the Christ child lay.

Confident Living:

Quietness Brings Right Answers

By NORMAN VINCENT PEALE

"The quiet mind is neither frightened nor perplexed but marches on through fortune and misfortune at its own steady pace, like the ticking of a clock in a thunderstorm."

So said a wise man. Have you ever listened to the ticking of an old clock? Especially in the silence of night? Listen—Dr. PEALE

ing to the measured ticking of a clock, one becomes quiet and peaceful, and in quietness is the time to get answers to problems.

I attended a Quaker meeting. At a Quaker service few words are spoken: quietness prevails and the congregation sits motionless in meditation. I sat with the others "thinking spiritually" as the leader directed. At the time a problem was bothering me considerably. It was quiet and important and the answer just would not come, so this quiet time was used to drop the problem into the "pool of quietness."

As the leader directed. At the time a problem was bothering me considerably. It was quiet and important and the answer just would not come, so this quiet time was used to drop the problem into the "pool of quietness."

Slowly, like a steady light, came an answer—one which had previously been considered and rejected. But as this steady light continued it was evident this was the right answer.

There are people who have little patience with getting answers this way. But perhaps they are missing an important problem-solving technique. If you keep calm, remain imperturbable, right answers have a greater chance of coming through. Answers gained out of hectic and agitated minds should be regarded suspiciously.

Many practical people do practice this technique for getting answers to their problems. I visited a textile manufacturer and as we walked around his plant the deep bond of affection between him and the men was evident. The place was immaculately clean and beautifully lighted. He showed me an old unused machine in a corner, but even so it was polished and oiled. He put his hand lovingly on it.

"You seem to love that machine," I commented wonderingly.

"Yes," he answered, "we all do because it is the one with which we started business. We mortgaged everything to buy it. There are men working here today who joined me in putting money into this machine and they now own an interest in the business. In those days I used to stand here and visualize a long line of such machines—rooms filled with people operating them. And I used to talk with my partners every day about the great plant we would build in this community."

"Partners?" I interrupted. "I thought you had only one partner—Bill?"

"I've another," he replied, "and he is the one who really

supplies the ideas. We couldn't get along without him. His name isn't on our stationery, but would you like to meet him?" He ushered me into a small room containing two chairs, and a table laid with pencils, memo pad and Bible.

"It was in this room that this factory was born," he said. "Bill and I would come in here whenever we couldn't see our way clear, couldn't meet payrolls or loans at the bank. We would come in here, get quiet and talk to God about our troubles. We would talk to Him as our friend, partner and adviser. We would ask Him for insights and guidance."

I looked intently at this man. He was a two-footed individual, 6 feet 2, a big head with abundant shock of hair—tie a skew and sleeves rolled to elbows. It was both impressive and convincing to hear him say: "God is our third partner with whom we could never have built this business."

And do you know, there are many like him today? They don't go around talking about this practical faith but they have it just the same.

If you have a problem, get quiet and calm. Remember those Biblical words: "In quietness and in confidence shall be your strength." Out of quietness and strength right answers come.

Says County Needs Welfare Investigators

We have neighbors with able-bodied husbands and fathers who are on welfare. They have a telephone, nice car, and money to buy drinks. When my mother-in-law, who lives alone and is on Social Security, went to the township board to try to have her taxes reduced, the first question they asked was, "do you have a car?"

The people who work at the welfare department told me some people that come to get their checks drive Cadillacs. The County needs investigators—good ones.

FOR MORE INVESTIGATORS

Comments on Quality of American Cars

There is nothing more disappointing than to spend \$3,500 for a new American car and find one defect after another. Just about everybody I meet complains about major problems with their new cars. After sampling the attitudes of production and skilled workers in assembly plants, it is a wonder the car even gets a second coat of paint. The end result of this kind of unfortunate behavior is going to net the workers layoffs rather than higher wages.

The American automobile industry could produce the finest cars in the world for the money. The engineering and technology are there and materials are available. The answer must lie with the manner in which cars are assembled. Due to labor's demands every year for more money, the car manufacturers are forced to make cars faster, spend less time inspecting them and put less investment in materials per car in order to compete with foreign imports.

If lower car sales, higher foreign car sales, low quality automobiles and higher unemployment are union goals, I suggest they retain their present omnipotent philosophy.

Readers of The Pontiac Press, do you pay your paperboy every week? If not this concerns you. Your paperboy is billed every two weeks for his papers and if you have not paid he has to pay away.

How would you like it if payday came and your employer told you to wait until next week or the next? Remember, these young boys are businessmen and for the most part are giving you good service.

A recent letter told of a policeman who forgot to use his turn signals. You always hear the wrong things a policeman does, but never read about the kind deeds.

Monday, my husband and I witnessed a Pontiac policeman in Car 12 get out of his car on Perry to help a blind man across Wide Track and around curves on the icy sidewalk. They do help others when needed.

'Both Political Parties Suggest More Tax'

We voted the Republicans back into office because we are sick of the free and easy spending of the Democrats the last few years. If all the Republicans suggest to solve the financial problems is more tax, including a personal income tax, we aren't any better off. Soapy suggested a personal income tax in the middle 50s. Why doesn't one politician suggest cutting the spending? We have had enough and can't take more taxes.

AN OLD-FASHIONED REPUBLICAN

Question and Answer

Friday night, November 25, a jet flew over our house at 7:25 and he couldn't have been more than a few hundred feet above ground (I will guess 200). It was dark and he was low so we couldn't see him. About 15 minutes before that another (or the same) plane made the first pass. It was an airplane covering this? Can these dangerous flights be told by the airport control tower when the culprits land? Does radar show the height?

UNHAPPY CITIZEN

REPLY

The legal limit over business or residential districts is 1,000 feet (850 in approach pattern). However, in bad weather with a low cloud ceiling planes will sometimes fly lower to maintain contact with the ground. Operations Clerk John Doty tells us Pontiac airport has no radar and probably couldn't spot such flights, but radar at large airports can pick up planes for about 20 miles out. Tickets are issued for violations, but planes must be identified by type and a license. Complaints are handled by the General Aviation District Office at Willow Run, telephone 483-1226.

Weak-Willed Punster Must 'No' Better

By DICK WEST

United Press International
WASHINGTON — Some men are habitual punsters, including I fear your humble correspondent.

Medical science isn't sure what causes this condition. Certain doctors blame it on a hormone deficiency. Others say it is a metabolism imbalance. Still others suspect a psychiatric disturbance.

For years I wouldn't admit that I had become a problem punster. Not even to myself. I had fooled myself into believing I was only a social punster.

Whenever the subject came up I would say, "I may indulge in a pun or two before dinner to help me relax, or spring a few at parties. But I make it a rule never to pun on the job."

I figured that as long as I punned in moderation there was nothing to worry about. This, of course, was a snare and a delusion.

It is a well-documented fact that anyone who regularly resorts to puns, even in limited numbers, is already dependent upon them.

The notion that he can stop anytime he pleases is self-deception. In a typical case history, one pun leads to another until the temptation to play on words becomes overpowering.

ANOTHER MATTER

For someone in my line of work, this can be disastrous. Punning in the privacy of one's own home is one thing; punning in the public print is quite another.

It was my teen-age daughter who finally brought me to my senses and forced me to face reality. Through her, I came to see that it is a punster's family who suffers most from his weakness.

The awakening occurred one evening this week when I saw a newspaper report that a graduate student at the California Institute of Technology had found a way to make water run uphill.

I called my wife and children into the living room and read the item aloud.

Then I said, "There is a much simpler way to accomplish the same result. All you have to do is put a kosher pickle in the water."

"How could a pickle make

water run uphill?" my wife inquired.
"Well," I said, "everybody knows that dill water runs steep."
"Why so?"
"It reminds me that the punsters anonymous?"

There was an awkward silence, after which my daughter said, "I wish you wouldn't depend on your sense of humor," she said.

I knew then it was time I took the pledge. Can anyone tell me how you go about joining

Alcohol Study Results Told

By Science Service

WASHINGTON — A special five-year Stanford University study on alcoholism to be published next summer has established that:

• Alcoholism is the number one mental health problem in nine states, according to hospital diagnosis.

• Public drunkenness and drunken driving accounted for at least 40 per cent of a total five million arrests last year.

• Alcoholics constituted about 22 per cent of all the male first admissions to 300 mental hospitals throughout the nation.

Partly because of the magnitude of the problem, it is "not reasonable" to set up a vast separate network for treating alcoholics, said Dr. Thomas F. A. Platt, who represented the Stanford material to a national conference of state mental health authorities here.

Such a network would rob other agencies of their personnel, he said. Moreover, alcoholism cannot be divorced from other psychological, social and vocational problems, he said.

ELIZABETH LAKE CHURCH OF CHRIST
The Kingsmen Quartet of Pontiac will present a concert of sacred music at 7 p.m. tomorrow in the Elizabeth Lake Church of Christ, 183 S. Winding, Waterford Township.

The Christmas cantata entitled "A Wonderful Savior" will be presented at the same hour on Dec. 18. The public is invited to both musical evenings.

FIRST METHODIST
Rev. Hugh C. White, superintendent of the Flint district, will be guest speaker at the Methodist Men's breakfast in First Methodist Church at 8 tomorrow morning.

He will preach at the 9:45 a.m. worship service on "God Expressed Himself."

Senior Citizens Fellowship will get together for lunch at noon Friday. The West Bloomfield High School Singers directed by Merlin Asplin will provide the program.

PROVIDENCE
The Missionary Society and Sunday School of Providence Missionary Baptist Church will present Willie Morganfield, a national recording artist, of Cleveland, Ohio, in a musical program at 7:30 p.m. tomorrow.

Mrs. Vergil Chance is chairman of missions and Richard Reese is superintendent of the Sunday School. The Rev. Claude Goodwin said the public is invited.

MESSIAH
Pastor Lee A. Gragg and congregation of Trinity Baptist Church will be guests of Messiah Missionary Baptist Church, 575 E. Pike, at the 3:30 p.m. service tomorrow when the Senior Choir observes its eighth anniversary.

The Rev. Mr. Gragg will bring the message.

At 7:30 p.m. the Rev. Clinton LaVett will present his 32nd anniversary concert. The LaVett Sisters will also appear on the program. The public is invited.

UNITARIAN
The congregation of the New Temple will be guests at the cooperative dinner in Unitarian Church, Woodward at Lone Pine, Bloomfield Hills, Friday evening.

Rabbi Ernst Conrad, spiritual leader of the New Temple, will discuss the theme, "What Unites Liberal Religions" at 8 p.m. The temple will hold no service of its own that evening.

The congregation of the New Temple is presently holding worship service in the Unitarian Church.

Church School children and adults are asked to bring staple foods to services tomorrow or on Dec. 18. There will be boxes to receive the food in the coat room or in the foyer.

AUBURN HEIGHTS U.P.
Dorothy Churchill and Mrs. Frank Ayers will be ordained to the office of elder during the 11 a.m. worship hour tomorrow in Auburn Heights United Presbyterian Church.

Sidney Clark and Willis Jacobs will be installed in the session, and William Alstad, Harold Brumister and Walter Meyer will be installed as trustees during the same service.

Pastor F. William Palmer will speak on "God's Word for a New Age" as the congregation observes Universal Bible Sunday. At 7:30 p.m. the first in a series of 12 films covering the life of the Apostle Paul will be shown.

"Tomorrow night's movie 'The Stoning of Stephen,' will portray the future Apostle Paul as a persecutor of the church."

At 8 p.m., elders will meet with several people who will enter the communicant membership of the church.

A discussion of life in the community will follow the 7:30 p.m. Bible study Thursday evening.

Township class, Feliksa com-
peted with finalists of courses
held in Madison Heights, Fer-
nside, Southfield, Roseville, Har-
per Woods, Newport, Port Hur-
on, Jackson, Lansing and De-
troit.

The Waterford Township
winner said he believed teen-
agers should be guided at the
beginning of high school as to
what the world offers in all
fields.

"I hope to bring teen-agers out

of the valley of confusion and
despair to the light of hope," he
said.

Judging is based on the man-
ner of presentation, personality
of the speaker, and especially on
how well he or she has chan-
neled creative ideas, skills and
talents into forceful Christian
action.

"We conduct this course so
that more of a God-centered peo-
ple will respond to the innate desire
to fulfill a worthwhile mission in
life," the Rev. Thomas J. Bres-
nahan, national director, said.
"Each learns to do his part,
however small or insignificant,

to help transform Christianity
into the dynamic force Jesus
Christ intended it to be."

A CHRISTMAS PLAYHOUSE

—by Janet Henry and John Lane

LBJ Ripped on Added War Cost

WASHINGTON (AP) — Rep. Melvin R. Laird, R-Wis., said today President Johnson's requests for more money to finance the Viet Nam war will be "substantially more" than \$9 billion to \$10 billion.

Laird, chairman of the House GOP conference, said this amount — announced by Johnson earlier this week — was only what the administration planned to spend in this fiscal year which ends June 30.

According to Laird, the supplemental request Johnson will send to Congress next year would obligate the spending of much more money in the war effort.

Laird accused Johnson of playing "the old shell game" with the budget and said he would ask the Republican coordinating committee to denounce "White House budget-manship." The committee meets here Monday.

The Laird statement followed disclosures by officials yesterday that the Johnson request would indeed exceed the \$9-\$10 billion level he outlined last Tuesday.

AFL-CIO Off Hook; UAW Pays on Dues

WASHINGTON (AP) — The AFL-CIO was taken off an em- quarters of AFL-CIO President George Meany, ending speculation that the UAW might face Workers union came up with a automatic suspension from the partial payment on its delin- parent organization Dec. 15. quent dues.

On that date, the UAW would A check from some \$90,000 have been three months behind in its payment of the seven- cents-per-member-per-month as- sessment levied on all member unions. Under the AFL-CIO con- stitution, unions that are three months behind in payments are to be suspended.

Friday's one-month payment, stalled off any suspension for at least 30 more days.

Informed sources said, how- ever, that Meany had no plans to invoke the suspension rule against the 1.5-million-member UAW, biggest of the labor fed- eration's 129 unions.

Safety: A Mark to Shoot For

MELBOURNE (AP) — Farmers in Victoria are hanging targets beneath local road signs. The practice has discouraged marksmen from shooting at road signs. Australians travel- ing in the country often carry rifles to shoot rabbits and kangaroos.

Accords Halt British Rhine Force Cut

WASHINGTON (UPI) — The United States, Britain and West Germany have reached stopgap agreements that will keep English NATO forces on the Rhine at their present strength for six months. Officials said last night that the United States has agreed to in- crease its military purchases in

the next six months. At the same time, West Ger- many will buy a considerable amount of British bonds. Both moves will help the fi- nancially troubled English to keep their army of the Rhine at its present strength of 51,000 until a final determination can be made of what levels of troops each country should as- sign to the alliance. The measure of success is not whether you have a tough prob- lem to deal with, but whether it's the same problem you had last year — John Foster Dulles, former U.S. secretary of state.

GLENWOOD PLAZA CORNER NORTH PERRY AT GLENWOOD

Pressure on Enforcement of Rights Laws Rising

By WHITNEY M. YOUNG JR.
Executive Director
National Urban League

The civil rights bill passed by Congress in the past several years form the basis for ending

YOUNG

legal segregation and discrimination in many areas of American life—if they are enforced. But that's a very big "if," for there are disturbing indications that government administrators are under mounting pressure to "go slow" in enforcing them.

This especially applies to officials who are in charge of assigning federal funds to local governments and private agencies.

Title VI of the 1964 Civil Rights Act forbids such funds to any agency or company that discriminates. It is the prime weapon in the government's arsenal against segregation, especially in education, where local school districts are in dire need of federal funds.

This helps explain why U. S. Commissioner of Education Harold Howe has come under attack.

When Commissioner Howe set up guidelines to assist local school districts to desegregate, he was subjected to attacks of the most vulgar sort.

One Southern congressman called the distinguished commissioner, educated at Yale and Columbia, "an idiot" and "ignorant."

Even more serious were the resulting congressional attempts to weaken his office's efforts to enforce Title VI.

This has resulted in a growing feeling on the part of many Southern diehards that they can get away with their old patterns of segregation.

Some Southern educators who convinced their school boards to begin desegregation on the ground that it was inevitable, are now in deep trouble because their towns now feel that they moved too soon, and that no one will compel them to desegregate after all.

Many school boards have

been encouraged to ignore the guidelines.

One federal official said, "Now when we call on Southern school officials for compliance, they just laugh at us."

In the North, too, many local boards feel they can continue de facto segregation unhindered by the law.

To listen to some of the complaints made against Howe and his understaffed inspectors, one would imagine that they are ruthless tyrants. But only 32

school districts out of the 27,000 in the nation have been deprived of federal funds because they refused to begin to desegregate.

Smallest Mother Bears 2nd Child

By Science Service

SYDNEY, Australia—A woman who is only 3 feet 3 has given birth to her second child, and mother and baby are doing well. Doctors said they believed Mrs. Grace Cook, 28, of Riverstone, Sydney, was the world's smallest mother.

The medical superintendent of Sydney's Crown Street Women's Hospital, Dr. V. Panikote, said that Australian and overseas medical records has indicated that she was unique. "Previously the smallest mother recorded was 4 feet 7 inches," he said. Mrs. Cook's new baby, Lynda, weighed 4 pounds 9 ounces when she was born by caesarean section.

Pair Bound, Gagged in Court

Trial for 3 Convicts Is Riotous

PITTSBURGH (AP) — The judge ordered two hardened convicts gagged and bound in their trial jackets before letting their trial continue. A third convict threatened to kill him.

When the five-week trial in Allegheny County criminal court ended Friday night with the conviction of the trio for attempted prison break, one defendant called the judge a "creep."

"Incredible" is the way Asst. Dist. Atty. Robert X. Medonas summed up the proceedings. "I'm exhausted. I hope it never happens again."

The three Western State Penitentiary inmates — Richard Maberry, 28; Dominic Codispodi, 34; and Herbert F. Lagnes, 27 — acted as their own attorneys. Sentencing was set for Monday.

As Judge Albert A. Fiolek began charging the jury, Maberry and Codispodi threw the courtroom into an uproar by shouting at the jury and drowning out the judge.

Fiolek called a recess and ordered the pair removed. Twenty minutes later deputies marched them into the courtroom. The two prisoners were bound in

heavy canvas strait jackets and their mouths were taped shut.

Lagnes, still unbound, shook a fist at the judge and screamed: "I swear on my mother's name, I'll keep my threats to you. You understand that, you punk. I'll shake hands with you in hell. You're a dead man."

He added a respectful, "your honor."

Last week Lagnes told Fiolek: "If I can't get my rights legally, I'll get them illegally. If I have to blow your head off, that's what I'll do."

While Lagnes made his new threat, Maberry and Codispodi mumbled loudly through their gag. The situation completely out of control, Fiolek called another recess.

Because the accused must be present to hear the charge, the judge ordered them into an anteroom and broadcast the charge by loudspeaker.

Each man was charged with holding two prison guards hostage while attempting to escape with zip guns and prison-made bombs from Western State June 27, 1965.

Early in the trial last month, the three staged an escape from the Allegheny County jail.

With three other convicts they overpowered a guard, held a policeman hostage in his police car, commandeered another car and wounded an off-duty county workhouse guard before being recaptured a few hours later.

In his charge, Fiolek called the trio's conduct "utterly horrendous." But he admonished the jurors to "lock out of your minds the distasteful display by the defendants."

It took the jury nearly six hours to reach a verdict. As Fiolek thanked the jurors for their time and effort, Maberry screamed:

"Why don't you shut your mouth and get on with the business at hand, you creep." Twenty deputies surrounded him, and the judge continued his remarks.

SILENCE IN THE COURT—Richard Maberry, 28, a convict on trial in Pittsburgh, Pa., is taken to court gagged and in a strait jacket yesterday. He and another convict were ordered restrained after creating a disturbance at their trial for an attempted prison break.

Help Sent to Indians Stranded by Floods

PORTERVILLE, Calif. (AP) — Pack mules and helicopters hauled food and medicine today to a band of Indians stranded by high water on their reservation in the remote rocky Sierra foothills of central California.

About 200 Tule Indians, remnants of a once-powerful tribe, were isolated Tuesday when the Tule River, which winds through their reservation 12 miles southeast of Porterville, overflowed its banks in a series of heavy rains.

Floodwaters washed out roads, destroyed bridges and swept away telephone and power lines.

An Indian boy, Marcus Hunter Jr., 6, wandered off in a downpour and died of exposure. His body was found Thursday.

About 25 members of the tribe were ill with dysentery after

drinking polluted floodwater.

Tulare county health officer Lowell Chamberlain and nurse Dorothy Jones flew from Porterville to the reservation by helicopter Friday to help a woman reported in labor, and to aid tribesmen sick with dysentery.

"Most of the illness is mild," Chamberlain reported after a five-hour stay. "We got in there fast enough to issue medicine and prevent an epidemic."

There remained a need for typhoid vaccine and other medical supplies.

There was equal need for food. After the flood subsided the Indians built a footbridge over a narrow stretch of river.

so all could band together on high ground. Many had to leave their homes with what they could carry.

Bulldozing equipment was

flown to the reservation to begin construction of a makeshift road to civilization. Other equipment went to work from the Porterville end. Construction bosses said the crews should meet in three or four days.

Four years ago the reservation got its first piped water and sewer facilities, under a loan from the Bureau of Indian Affairs. Both systems were swept away this week by floodwaters. The few telephone lines on the reservation were washed away or blown down.

The Tule Indians are descendants of the Cunan people, ages ago one of the most powerful tribes in central part of America.

They have been primarily a farming people, weaving baskets of tule reeds from the river banks and tending a few head of cattle.

Christmas Greens Sold at Market

Pine cone wreaths line the back panel of the Waterford branch booth as Mrs. James Green of Maplecrest Drive adjusts one of these permanent yule decorations. In front of her are a number of the fresh greens arranged for table centerpieces.

Mrs. Burt Rockwell of Sylvan Lake is seriously considering the purchase of this fresh greens spray. A cluster of pine cones adds beauty to the holiday arrangement.

Three-year-old Susan Metzdorf of Ashburnham Road, Pontiac Township, tries out a bright yellow hand puppet as her mother, Mrs. Thomas Metzdorf, shops at Friday's "Greens Market." The market is the annual project of four Women's National Farm and Garden Association branches: Waterford, Lake Angelus, Holiday Farms and Sylvan Lake.

Three Wives Are Angry With Mates

By ELIZABETH L. POST
Dear Mrs. Post: A man in my husband's office is about to retire and the three men and three women who make up the staff plan to take him to a nightclub for a farewell party. The men are married, the women are not. I am writing for three furious wives: What do you think of this deal? Fran

★ ★ ★
Dear Fran: The party would get out of hand if you wives were included, necessitating the addition of three more men to keep it even. However, if you want to show this to your husband, a dinner at a restaurant, no more, would be in much better taste than an evening at a nightclub.

"HAPPY BIRTHDAY"
Dear Mrs. Post: We are going to celebrate my husband's birthday by taking a group of friends to a restaurant for dinner. I am ordering a birthday cake ahead of time and I would like to know if it is in good taste for me to start every one singing "Happy Birthday"? Mrs. Roth.

★ ★ ★
Dear Mrs. Roth: Depends on the restaurant. If there is an orchestra, they'll probably play it anyway, and some restaurants even have singing waiters who do the honors. Otherwise, in a quiet, luxury-type restaurant it would be too conspicuous to sing yourselves; in an informal steak house it would be fine.

★ ★ ★
"How to Plan and Budget Your Wedding" by Elizabeth L. Post, is now available to readers of this paper. Ideal for brides-to-be, their fiancés and parents, this brand new, sixteen page booklet will help in preparing for the "perfect" wedding. WOMEN'S SECTION

Traditional Symbols of Christmas Are Products of Many Countries

NEW YORK (UPI) — When pained feet make you retreat while Christmas shopping, you head for a quiet place and sip coffee or tea.

Even there, you're surrounded by Christmas symbols—ranging from figures of jolly Santa to stars and colored lights.

To take your mind off gift lists and bills, think about the meaning of Christmas symbols.

Take Santa. This kindly person started as Nicholas, bishop of Myra in Asia Minor around the year 300 A.D. He was so kind that people came to believe all surprise gifts came from St. Nick.

SANTA SPIRIT

In America, the spirit of Christmas comes in the guise of Santa Claus. In France, the kindly Yule spirit is known as Pere Noel; in Italy, La Befana; in Switzerland, Christkindli.

The notion Santa comes down the chimney is a hangover from a Norse legend. According to the tale, Hertha, a goddess, appeared in the fireplace and brought good luck around Christmas time.

★ ★ ★
Early Dutch settlers in New York called St. Nicholas Sinter Klaas. The years changed it to Santa Claus.

In 1823, Clement C. Moore, an American minister and poet, first described Santa's suit of red trimmed with fur, plus the sleigh with reindeer.

He did it in "A Visit From St. Nicholas." The story, a classic, today is called "The Night Before Christmas."

★ ★ ★
Germans are credited with being the first to decorate Christmas trees. Their trinkets included stars, angels, toys, candies and other goodies.

The star, a Christmas symbol

used in many lands, represents the Star in the East cited in the Bible — Matthew 2:12.

Lights of the season represent Christ as the light of the world. It is believed Martin Luther was the first to use lights on Christmas trees. To him, the lights represented the glory and beauty in the skies above Bethlehem the night of Christ's birth.

Christmas cards are believed to date from 1843 — the year a London firm printed and sold some. A Boston lithographer, Louis Prang, took up the practice in 1865.

Now, the printing of Yule

cards is a multi-million dollar business supporting a habit that warms hearts and strains the postman's back.

The post office folks at Santa Claus, Ind., by the way, are bracing for their usual Christmas good deeds.

Every year, several million letters addressed to "Dear Santa Claus" are dropped off at the town — postage stamp size itself.

★ ★ ★
The letters come from around the world. They are remailed with a "Santa Claus" postmark — reassuring millions of children.

New Fashion Twist

Hairdresser Becomes a Hatter

A hair hat may be good for morale in this jet age, especially during the holidays, says internationally known hairdresser, Aurelien Lintermans. He is introducing the hats of hair in his 17 salons in Paris, Belgium, the Riviera, California and New York.

"You can go anywhere day or night, no matter how your own hair looks under one of these hats," he explains. "And if you want to be really elegant, a diamond may be placed on it."

Lintermans is collaborating on designs with Paris milliner, Paulette.

It isn't the first time he has designed hair hats. He shelved the idea as premature a few years ago. Women are now ready for anything, he surmises, so hair hats can go into the

wardrobe with the wigs and hair pieces.

He has a new collection of hair forms — conical, rectangular, circles of hair, especially designed to dress straight hair in the evening.

You wear one or more, depending on your type — "little girls should wear little shapes, tall, heavy-set ladies can wear something larger. Everything must be balanced," he says.

Lintermans likes straight hair — loose, swinging, no pins or sprays or hair clips, he says. It's the style for American women to wear at golf, tennis or for swinging in a convertible car. At night when she wants elegance, she can dress it up in a jiffy.

A hair hat doesn't need to go to the hairdresser for frequent settings. The simple styles look as if they'd last indefinitely.

Lintermans is known for his hair cuts (at \$25 a clip). He deplores hair dressers who give the same hair cut to everyone from age 6 to 60, and he loathes teased and fussy sprayed hairs, but he'll do them if a woman insists. He doesn't know what she'll do though, when she faces her mirror alone.

"The average woman must take care of her hair 240 or more days a year when her hairdresser isn't at her elbow. She should always want a style that she can handle," he said.

Thursday Party of BPW Club

The Waterford-Clarkston Business and Professional Women's Club brought gifts for teen-age girls at the Oakland County Youth Home to a Christmas party, Thursday.

The hostess, Mrs. Basil Thompson of Shawnee Court, presented a musical program along with Mrs. Genevieve Van't Roer and Mrs. Elizabeth Ronk.

A reading of "How the Grinch Stole Christmas" by Dr. Seuss was given by Mrs. William Stamp.

Dessert was served by Mrs. C. E. Tooman and Mrs. Eldon Rosegart who were cochairmen.

Forget Witty Talk for the Boys and Concentrate on Yourself

By ABIGAIL VAN BUREN
DEAR ABBY: All the boys confide in me like I was their mother or something. I don't mind listening because in the future I know I will have to do that quite often. (I plan to be a social worker or a nurse or something of that sort.) The boys always ask my advice on how

ABBY

to get dates with girls they have a crush on and so forth.

Is there some witty or catchy phrase I can throw out to let them know I am available? Also, my folks are taking me on a trip, and I would like to lose 30 pounds in three weeks. I'd sure like to look cute for the trip. Hurry your answer.

OUT OF IT
DEAR OUT: One problem at a time, starting with the one that is probably responsible for the others. You can "slim down" by going on a serious diet under a doctor's supervision. But don't expect to shed 30 pounds in 21 days. It took you

longer than that to pile it on. Boys treat you like their mothers because you probably remind them of THEIRS. When you look more like a girl they want to date, they'll realize that you are "available," and you won't need a catchy phrase with which to catch them.

DEAR ABBY: I am a 19-year-old girl. When I was younger and still in school, my mother always said, "Make your bed." Sometimes I didn't have time, so I wouldn't. When my older sister married I got the room to myself and started taking more pride in it, so now I always make my bed. About two times a week I wake up to find my mother sleeping in the other twin bed.

She says she likes to have a break from my father's snoring so she comes in my room to sleep. I don't mind that, except she never makes her own bed so I'm stuck with it. She complains a lot about backaches and headaches, so if I don't do it, it doesn't get done. What do you suggest?

UNPAID MAID
DEAR UNPAID: I suggest you make her bed and don't look for any medals. Be grateful for the

chance to remove the wrinkles from your mother's bed. From the sound of your letter, you must have put a few in her brow.

DEAR ABBY: There is a certain lady in our neighborhood who calls me on the phone every afternoon and starts a nice long conversation. Now, Abby, I don't mind talking to this woman for a little while, but I can't spend two hours a day on the telephone with her.

When I say, "Well, dear, I better be going as I don't want to keep you from your work," she says, "Oh, that's okay, I don't have very much to do." And she goes right on talking. I hate to be rude, but how can I get off the phone without hurting her feelings?

NEEDS ADVICE
DEAR NEEDS: Instead of saying, "I'd better be going as I don't want to keep you from your work," say, "I'd better be going as I must get back to MY work." Then all she can say is good-bye.

REMEMBER THE MASTOID CASE?

You saw very few mastoid cases around today—and, under 20 years of age, they are almost nonexistent.

But, not so many years ago (1924) it was a different story.

Independent drug research has produced chemotherapeutic compounds which make the cure of mastoiditis practically a routine, not even a nightmare, procedure. True, the cost may be as high as \$15.00. Yet, not the man who paid \$1,000.00 for his mastoid case which he would have preferred—if he had had the choice.

Why Grow Old?

I just realized that I have been neglecting the men who read this column, bless them! While this is a woman's feature, many men read it because I write about many subjects which interest men as well as women, even weight control.

A few years back, men were loathe to express an interest in losing weight, because in their minds it carried the stigma of improving the figure, and such vanity was not to be tolerated by any real man.

I never understood why men thought they looked any better with a bay window than their wives did with a protruding abdomen. Anyhow things have changed.

Now men know that if they wish to take preventative measures against the number one threat to them, heart attack, losing that extra pound is essential. Women seem to have built-in protection against heart trouble until after menopause. The men

are about as susceptible because of the change in the production of female hormones. When a man wishes to lose weight he has to do just what a woman does, cut down on food intake, count calories. However, a man needs more calories when reducing than a woman because of his larger stature, about 600 calories more a day as a general rule.

He must curtail his intake of carbohydrates and fats and take smaller servings of everything. Skim milk instead of whole milk, broiled or baked foods instead of fried foods, herbs and lemon juice as seasoning instead of rich sauces, fruit for dessert instead of pie are the order of the day.

What is happening in the reducing world is reflected in the letters I receive from readers. Now men seem willing to admit that they are interested in regaining the lean torso as well as in protecting their health.

Novel Holiday Idea

A novel suggestion is a kissing ball made of florists' foam and covered with mistletoe, tiny bits of boxwood, or other foliage and fresh flowers.

The fresh flowers may be any of those that fit into a given color scheme. Possibly one of the most attractive choices is tiny, tiny, pale pink roses with an open, waxy-white gardenias for accent. The roses blend and point up the gray-green waxiness of the mistletoe. However, almost any small flower might be used effectively.

The preparation of a kissing ball is extremely simple. In the first place, any florist will prepare one on order, using any flowers specified. If it seems fun to make the kissing ball at home—and this can be a very happy family activity—the only materials required are the ball of florists' foam, thin wire, toothpicks, and flowers.

The flowers are wired to the picks and then the picks are inserted into the foam—each one close to the next so

that no foam shows. Intersperse the flowers with "twigs" of mistletoe and of small-leaved foliage.

A ribbon may be attached—also with the picks—to the top of the ball as a hanger.

'Finger of Fate' Cleaned Out Cong Stronghold

RACH GIA, South Viet Nam (AP) — More than 2,000 Viet-coname, heading government, please, have fled a Viet Cong stronghold at the southwest of Viet Nam. Allied authorities credit a combination of propaganda and bombs, but a Kansas major says a "finger of fate" pointed at the home of a guerrilla chieftain, did the job.

Guerrillas moved two years ago into three prosperous hamlets which lie in a mountain mass rising abruptly from the Mekong River delta's flatness. The mountains, overlooking the Gulf of Siam, were so isolated and easy to defend that government troops left the Viet Cong alone.

The guerrillas thrived. They bolstered their ranks with village youths, sent the men out to trench roads approaching their domain, and levied taxes. The

Prof Gives Lecture From His Sickbed

BOCA RATON, Fla. (AP) — Prof. Timothy Regan of Florida Atlantic University missed three class days because of a strep throat. On the fourth day, he felt well and wanted to return to class, but his doctor said no.

The Department of Learning Resources rigged up a loudspeaker and telephone amplifier at Regan's sickbed. He delivered his lecture from there to his classroom. The students were able to ask questions in return.

is described by Maj. Richard E. White, 38, of Salina, Kan., adviser to the district leader, Maj. Dao Vinh Thi.

FIRST AID

American planes made their first raid on the mountain re-doubt Oct. 16.

One of the bombs missed its target by 1,000 feet—and plunged through the roof of the Viet Cong village chieftain's house. He was entertaining some staff officers of the 512th Battalion, and casualties were carried away.

Viet Cong leaders, trying to support their previous claims that the hamlets would not be bombed, killed four villagers; they claimed were spies responsible for the attack.

The guerrillas' boast of invulnerability was cracked, however. Lt. Col. Sam Tan Phuoc,

province chieftain, and Maj. Thi decided to follow up with a massive—and lightning approach.

TOLD BY LEAFLETS

First, the villagers were told by leaflets of the benefits the government offered if they would leave the Viet Cong area and accept government protection. Then, they were warned, the planes would renew their attacks.

After the leaflet drops, fighter-bomber raids became almost a nightly event. The pilots aimed at guerrilla mountain forts rather than directly at the hamlets, Phuoc said.

By Tuesday, 2,300 inhabitants had left their home for refuge

villages in the delta and off-shore islands, and 67 Viet Cong had detected. The village chieftain was captured.

Phuoc said the civilians will be permitted to return to their homes when it is certain the last elderly women.

Chiefs Sparkle in Second Half

Special to The Press

BAY CITY — Pontiac Central's Chiefs remained unbeaten Friday night, utilizing a third-quarter spurt to coast past Bay City Central, 76-61.

Leading only 35-32 at the intermission, the Chiefs forged a five-point spread (48-43) midway through the third quarter, then romped with a 12-2 outburst in the closing 3:33.

They continued to pull away in the concluding session, upping their margin to 76-50 before Bay City Central hit 11 points in a row as the game finished.

The victory is PCH's third straight and gives it a 2-4 Saginaw Valley Conference

slate — good for a third of the loop lead.

Saginaw routed Arthur Hill, 71-47, and Midland swamped Bay City Handy, 85-40, to post their second wins in the SVC without a loss.

Flint cage action saw Flint Central edge Flint Southwest, 67-56, and Flint Northern drop a nonleague verdict to Flint Northwestern, 77-66.

BALANCE

Four players had at least six field goals as Pontiac Central hit BC Central's Wolfpack with a balanced attack. Prentice Hill led all scorers with 20 points, including nine baskets from the field.

Varsity newcomers Walter Causey and Ardell Shelton have had personal highs for the Chiefs with 16 and 12, respectively. Shelton entered the contest in the second period.

Junior Alton Wilson turned in his third straight twin figure effort with 15 and had seven field goals for second high in that department. The PCH quieted registered a 33-23 superiority from the floor.

The Chiefs only made 10 of 23 charity tosses.

Dave McDonald hit 31 points and Steve Morrison 21 as Midland's Chemics overpowered Handy's Wildcats.

Tom Thon tallied 15 for Arthur Hill but he was not match for invading Saginaw's J. H. Haines (39) and Charles Kelley (21).

Arthur Hill and Flint Central now are knotted at 1-1 for fourth place in the SVC while Northern, Southwestern, Handy and BC Central are looking for wins No. 1.

Mikemen Leading League

WOLL Edges St. Frederick

St. Mike Collects Third Victory

Although H's early, St. Michael's Shamrocks have arrived at a crucial point in their bid for the Macomb Parochial League basketball championship.

The Mikemen are sitting atop the loop with a 3-0 record following their 71-52 verdict over Detroit St. Rose last night, but how long they'll stay there should be settled within the next 10 days.

The Mikemen entertain Marine City Holy Cross (2-4) Tuesday, St. Augustine (1-3) comes to town next Friday and then the big game arrives — the trip to Waterford Our Lady of Lakes (2-4).

The Lakers of WOLL, favored to retain the loop title, displayed an aggressive rebounding game last night in knocking off St. Frederick (2-2), 69-50.

In a third league game, St. Augustine turned back Anchor Bay Catholic (1-1), 37-36.

STRONG ON BOARDS

Led by rugged forward Tom Sirbaugh, the Lakers piled up a 66-48 advantage on the backboards and outshot the St. Frederick quintet from the charity stripe to seal the victory.

Guard Dennis Brosseau led the Lakers with 16 points, while Don Fahlgren, hitting well from the outside, wound up with 15. Sirbaugh tossed in 11.

The Rams, hitting on only 22 of 79 shots, were paced by Sam Brady's 11 markers. Mike Murphy collected 16.

Center Bill French controlled the boards and scored from close range while teammate guard Greg Glynn popped away from outside in sparking the St. Michael victory.

French closed with 33 points, one of his best nights on the basketball courts. Glynn finished with 17. The Mikemen held a 35-22 lead at intermission.

Sharp Team Effort Sparks OLSM Win

A five-man effort carried Orchard Lake St. Mary to a 77-66 Northwest Parochial League conquest at Royal Oak St. Mary Friday night.

The win kept OLSM atop the

race with a perfect 3-0 mark

while Farmington Our Lady of Sorrows outlasted Ferndale St. James, 66-60.

St. Francis de Sales defeated St. Rita, 71-59, in the other league game.

Four players hit twin figures and the fifth had nine points for OL St. Mary. Terry Shaw led the winners with 25 points, 10 coming in the second quarter after Mike Kowalski and Tim Megge each notched nine in a big first period for the Eagles.

LEADS WAY

Mike Charette, ROSM's top gunner, had 26 for game laurels and teammate Mike Sherman pumped in 24, including 13 in the opening period.

At Ferndale, Sorrows' star Tim Doyle garnered 28 rebounds and 22 points but was outscored by teammate Frank Carrico, 29.

They outshone the St. James' Dan Palmer (22) and Bob Canfield (18). The winning Lakers connected on 46 per cent of their floor tries, but won the game with an 18-8 free throw edge.

Groves Pads Win Streak; North Farmington Rolls

Birmingham Groves stretched its winning streak to 22 regular season games and opened the defense of its Northwest Suburban AA basketball title with a 78-51 romp at Wayne John Glenn last night.

The Redskins hit just three field goals in the closing session but still crept within four points of a tie with 2:50 to play.

Knock wound up with 16 markers and McCoy had 15. Another key performer for North Farmington was Jim Rulapaugh, who had 12 points and several big steals.

A full court press enabled the Raiders to garner a 23-13 edge from the field.

Walled Lake Triumphs; Skippers Lose, 71-60

By JERE CRAIG

Farmington again has the upper hand on Pontiac Huskies in the Inter-Lakes League's basketball race but the Huskies may have gained a valuable boost nonetheless.

The Falcons nipped PNH, 53-52, last night, in a thrilling league opener on the Farmington court. Walled Lake shares first place with the Falcons by edging Livonia Stevenson, 61-58, in their I-L debut.

Waterford journeyed to Mount Clemens but didn't "arrive" soon enough to prevent a 71-60 tugging in a nonconference clash.

PNH long has ruled the I-L basketball races but lost its crown to Farmington last year. The Huskies lost twice to the champion last winter, but overcame adversity last night to give the Falcons a big scare.

TOUGH LUCK

Coach Dick Hall, after watching numerous seemingly good PNH shots fall off the rim, saw several close officials' decisions go against the visitors and have the Huskies rally from two five-point deficits in the last three minutes, promised a stronger effort in the return match at Pontiac.

The veteran PNH mentor could also point to a 7-14 field goal effort in the pressure-packed final quarter, an overall 63-56 edge from the floor and a 47-41 rebounding margin for encouragement.

Undoubtedly the Huskies can take heart in a gallant rally during which they went from five points down to one point ahead with 70 seconds to play.

But Fritz Simons calmly needed two free throws with 30 seconds to play for the final victory margin. However, PNH had three cracks at the winning basket in the final 10 seconds only to miss.

Northern betrayed its hopes with poor foul shooting and ineffective defensive rebounding in the opening half. The winners' Mike Ames had 17 rebounds, several key ones producing follow-up baskets in closing.

Walled Lake didn't win an I-L game all last season but the Vikings held off Stevenson in the league opener last night.

They built a 50-42 lead after three periods and had as much as an 18-point margin at one time, but foul trouble cost them three starters — enabling the Spartans to creep back.

Walled Lake won the game by outshooting its hosts, 24-18, from the field. The winners' Russ Herron took game honors with 17 points.

SLOW START

Waterford's Skippers didn't offer Mount Clemens much opposition until the second half and by then the Raiders had a 34-17 lead. WTHS made only seven of 23 field goal attempts in the initial 16 minutes.

The Skippers also had problems rebounding and keeping up with the quick, well-drilled Raiders for a full SEMA schedule.

Birmingham Seaholm won its fourth straight by thumping Hazel Park, 72-39, and Royal Oak Kimball posted its second triumph by beating Winnetka, 66-55.

Southfield made 17 of 30 field goal attempts while the Eagles earned 9 of only 14 attempts. Each team had 26 field goals.

The host Blues stayed exclusively with their starting line-up and were paced by Glenn Lenhoff's 19 points. Bill Davidson connected for 14. Game honors went to Charles Puckett of Ferndale who had 20.

Seaholm (4-1) notched a 31-17 field goal advantage with sophomore Dave Cook netting nine points in his 20-point night. He just edged Hazel Park's Ron Kujawa (18).

Cook, also, garnered 16 rebounds for the Maples. They hit 31 of 68 attempts from the field.

Kimball's Larry Lancaster tallied 21 points and Ed Stafford 12 to outpace all the Bears' shooters. The Knights opened a 34-25 halftime lead and coasted to their conquest of Berkley.

Clarkston Speeds Past Barons; Rochester, Avondale Suffer Setbacks

Slow-Breaking Offense Fails to Aid Hills

Wolves Remain Tied for W-O Lead After Posting 62-39 Win

By DON VOGEL
Bloomfield Hills tried to slow Clarkson's basketball express last night, but the Barons were left standing at the gate.

The Wolves, playing at home, had no trouble overcoming Bloomfield's slow-breaking offense as they raced to a 62-39 decision in what was expected to be a much closer game.

The victory was the second in Wayne-Oakland play and the third over-all for unbeaten Clarkson which is tied for first place with Northville and Holly. Bloomfield Hills dropped out of the first place dead-end and is 2-1 for the season.

Clarkson's Dan Pife had his troubles in the scoring department, but was highly effective in other phases of the game.

The 6-2 senior hit 17 points, his lowest total since the last game of the 1964-65 season. Only against Northville last season when he hit 18 did the sharpshooting All-Star drop below 20 points.

Pife was given the difficult assignment of guarding Bloomfield's 6-6 Bruce Hall who scored 39 points in his last outting. Hall made only two field goals in 11 tries. Free throws helped him to a 10-point total.

SURROUNDED
Pife received help checking the Hill's star from Randy Nicolson and Tom Allen. The trio would surround Hall when the big senior tried to setup a high post.

The Barons didn't have anyone who could hit from outside and this enabled Clarkson to defend the taller Barons' front line. Hall managed only four shots in the first half as the Wolves speed to an almost unbeatable 26-10 lead.

The Wolves were just too fast for the Barons. And they dominated the backboards. Clarkson allowed the Barons to take only 18 rebounds while picking off 35.

Pife led the rebounding with nine retrieves.

The Barons used a shuffle time offense as they tried to feed the ball to the tall players near the basket during the first half. Clarkson's defense kept the ball from getting in and the Barons were able to take only 14 shots in the first half.

Pife hit nine points in the first quarter to move the Wolves in front 13-7 and then Mark Richard hit three jumpers from the top of the key to pace the second period scoring.

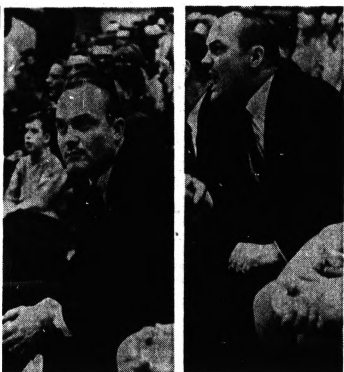

The Barons managed only three field goal tries in the first five minutes of the second quarter, but the Wolves didn't score until Kerry Hiedel made a layup with 2:32 remaining in the half.

Bloomfield changed its offense and speeded up play in the second half, but the Wolves had no trouble. Clarkson hit three jumpers from near the key in the third quarter and Allen contributed some good board work. Rich Bass and Mark Erickson, who divided playing time, controlled the boards and came up with timely baskets in the fourth period. Although he scored only five points, Steve Jones was a key player in the Hill's' second half bid with his ball-hawking and passing.

Hiedel was top scorer for the Barons with 11 points. The Barons finished with a 14-38 shooting mark while the Wolves made 26 of 55.

Holly, Northville Win

Wayne-Oakland League members at opposite ends of the county are bidding to challenge Clarkson for the circuit's cage laurels after Friday night's action.

Northwestern member Holly (2-0) dumped West Bloomfield, 56-51, while county southern-bound straddler Northville (2-0) slipped by Milford, 77-69. Clarencville entered the win column by ripping winning Brighton, 75-65.

A strong individual performance by Greg Avery-harced Holly's triumph. The Bruins' pivotman put in 21 points and grabbed 20 rebounds.

West Bloomfield's 5-10 forward Gary Hachefeld captured the game point honors, however.

Cowboys Eying Title

Dallas Wary of Redskins' Ace Passer

By the Associated Press
The Dallas Cowboys, with their first Eastern Division title in sight, stood wary today that Sonny Jurgensen could blot out the picture with a few well-thrown passes.

The Cowboys hold a one-game lead over St. Louis with two games remaining, and one of them is Sunday against Jurgensen and the Washington Redskins in the Cotton Bowl.

Captain Jim Zayntz notched 24 for the winning Mustangs. They opened a 42-30 lead by pressing Milford in the second quarter.

Hill posted 12 field goals, often breaking loose on driving maneuvers.

West Bloomfield's 5-10 forward Gary Hachefeld captured the game point honors, however.

Falcons Lose to Fitzgerald

The Warren Oakland A League entries showed their power last night with impressive victories over potential challengers.

Cousino knocked off host Avondale, 68-55, behind the Papak cousins, and Fitzgerald ripped Rochester, 61-45, with a balanced attack.

Clawson spilled Lake Orion 62-43, and Madison rallied past Troy, 46-45.

Rochester outbounced Fitzgerald but mistakes proved costly as the winners had a 67-49 advantage in field goal tries and a 25-15 margin in baskets.

The Falcons led by six points in the second quarter, but they slipped badly after the next session after Fitzgerald earned a 24-24 tie at the intermission.

But the Spartans then forged a 43-35 lead at the end of the third quarter and were never behind. John Pashoki led the winners with 19 tallies and three teammates were also in double figures.

Gary Campbell notched 15 to pace Rochester.

Rule on Eligibility Is Called Obsolete

CHICAGO (AP)—The case of a transfer athlete who flunked typing at his original school prompted the Big Ten Friday to reconsider an obsolete rule aimed at "tramp athletes."

Giants Give Sherman Vote of Confidence

NEW YORK (AP)—Coach Allie Sherman of the New York Giants was given a vote of confidence Friday by President Wellington Mara.

"Sherman is our coach," said Mara, a member of the family that owns the money-making National Football League club. "He will coach the Giants next year and I hope in the years remaining on his contract."

Sherman had eight more years to go on his latest contract, a 10-year pact signed before the 1965 season.

It came after the Giants had finished last with a 2-10-2 record in 1964.

New York fans were singing Goodbye Allie, late in the 1964 season, and they have been chanting it all of this season. The Giants are 1-0-1 going into their Sunday game with Pittsburgh at Yankee Stadium.

Asked if he had been considering a shift of Sherman to the front office, Mara said: "No. Where would I find a better coach? I don't feel coaching is the answer to what happened to the club this year."

Proposal Tabled Until March

Big 10 Studies Added Scholarships

CHICAGO (AP)—The Big Ten gave serious study Friday to a proposed increase of football scholarships from 20 to 32 per school and effect of National Hockey League expansion on college talent.

The policy-making faculty representatives, closing the Big Ten's winter meeting, tabled the football proposal until next March. Chairman Marcus Plant of Michigan said the action was "not a device for killing, or sweeping under the rug" the request for the scholarship increase.

Actually, the football coaches, who saw the Big Ten slump to its poorest record in history against outside competition last fall—11 wins and 17 defeats—asked for an increase to 35 football tenders within the all-sports limit of 70 per school.

The proposed increase from 30 to 32 tenders was made by the athletic directors, who acknowledged contention of coaches they had difficulties operating under the 30 limit effective since the 1964 season.

EXPRESS CONCERN

On the subject of Hockey, the faculty representatives expressed concern that the NHL's expansion from six to 12 teams for the 1967-68 season may jeopardize careers of college players.

The Big Ten has five schools with varsity hockey teams, Michigan, Michigan State, Minnesota, Wisconsin and Ohio State.

State, while two schools, Illinois and Northwestern, have club teams.

Said Chairman Plant: "At a time when we are trying to build up our conference hockey program, we are confronted by moves by the National Hockey League which have abolished so called A, B, and C agreements with amateurs and will set up support of Junior A clubs to develop talent."

"The NHL will support probably four Junior A clubs in Minnesota and some in New York. The question is how professionalized will these Junior A farm clubs be and to what extent will they affect college talent."

Plant said the hockey question again will be discussed at the next Big Ten meeting in March.

Commissioner Bill Reed said, judging by the faculty group's attitude Friday, the proposed increase in tenders probably would be approved next March affecting football recruiting for the 1967 season.

Reed said that attritions other than academic failures, "only down to an acceptable level," caused need of greater recruiting flexibility.

In other action, the faculty group:

Specified two calendar year attendance in junior college, before junior college transfers can become eligible for Big Ten athletics. Junior college transfers are immediately eligible in the Big Ten after four semesters or six quarters in junior college. Friday's conference action prevents utilizing summer junior

Wisconsin Selects Coach

MADISON, Wis. (AP)—John Coatta, named Friday as new head football coach at Wisconsin, said the fact that he had won the job had been kept secret even from him.

The curly-haired Coatta, 36, said the first official notification did not come until minutes after the university's board of regents had ratified his selection, made by the Athletic Board Tuesday night.

Coatta had been identified in widespread speculation as the frontrunner for the job but waited for three suspenseful days without any official word from Wisconsin.

"I'm no different than anyone else. I could think of a thousand reasons why it should or should not be. These things went back and forth in my mind," said Coatta.

"There had been no intimation from the university. I was sort of waiting it out. You could

call it a real pleasant surprise — one that had been anxiously awaited."

Coatta, a quarterback at Wisconsin for three years, did not enter college coaching until 1959, eight years after he was graduated. The former Madison businessman was an assistant at Florida State for six seasons before returning to his alma mater as a backfield coach in 1965.

Coatta added he could honestly say he returned to Wisconsin as an assistant without any assurance that he would be groomed as heir apparent to head coach Milt Bruhn, who stepped down near the end of a third straight losing season.

Dennis Ralston Rated No. 1 U.S. Net Player

NEW YORK (AP)—For the second year in a row, Dennis Ralston of Bakersfield, Calif., and Arthur Ashe of Richmond, Va., have been recommended for the 1-2 spots in the national tennis rankings.

The ranking committee submitted the list today for approval by the U.S. Lawn Tennis Association in February.

Clark Graebner of Beachwood, Ohio, made the greatest gain in the men's division, climbing from 13th to third. He advanced farther than any other American in the U.S. championships—the quarter-finals. He was the outstanding individual player in the Davis Cup victory over Mexico but later was suspended for an unexplained reason.

Ashe Leads Netters in Aussie Tourney

ADELAIDE, Australia (AP)—Arthur Ashe of Richmond, Va., the No. 1 foreign seed, led an unbroken five-man American contingent into the second round Friday of the South Australian Tennis Championships.

Ashe, outstanding player on the Australian circuit a year ago, had his big service working perfectly as he bombed Australian Ian Bidmead on the Memorial Drive courts 6-1, 6-2, 6-1.

His Davis Cup teammates also won. Second-seeded Cliff Richey of Dallas beat Tom Addison of Australia 6-3, 6-3, 7-5 and third-seeded Charlie Pasarell of Puerto Rico ousted Brian Fairlie of New Zealand 6-3, 6-2, 6-2.

Santa and the Giant Fighter

Synopsis: While Billy has breakfast in Santa Land, Tweedle discovers the magic words to free the moon from its sealed box.

CHAPTER SIX
The Harp Witch
By LUCRECE BEALE
Patrick Tweedlekins pointed

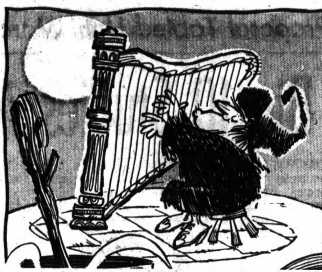

The Harp Witch is an ugly old crone. Day and night she plucks the strings of a rusty harp and croons songs of hate. Once she had been beautiful and young and madly in love with Goko the giant. Goko wooed her and promised to wed her but on the day of the wedding he changed his mind and never saw her again.

WITCH MAD

The witch was so mad she flew to Keewaypa Island and lived forever after on her hate for Goko the giant. She did not want to talk to Santa and Billy. She told them to leave. But when Santa told her that they were seeking a way to destroy Goko, the witch laid aside her harp and eagerly listened to their story.

"The boy must have some magic," said Santa, "or the giant will finish him before he even draws his wooden sword."

The Harp Witch thought and

Detroit Library Use Due Area

Pontiac and Oakland County area residents will have access to Detroit's main library after Feb. 1, according to terms of a two-year study program.

Financed jointly by state and federal funds, the study program will open the library to Wayne, Oakland, Macomb County residents, and later to residents of Monroe, St. Clair and Washtenaw Counties.

Known as the Detroit Metropolitan Project, the two-year program is an effort to measure how much use the Detroit library would have if open free to residents of the six-county area.

The \$500,000 project is sponsored jointly by Wayne State University and the State Board for Libraries.

By OSWALD & JAMES JACOBY
 Al Morehead points out that there are times when a sure thing double is going to misfire. West didn't have a sure thing double of six spades but he felt that it was sound enough for a bank to lend money at prime rates.

It was mighty sound but it

JACOBY

was expensive. South looked held a different sort of hand. For instance if North had held spade K Q 4 3; heart 10 3; diamond A 10 5 3 2; club J 2, he would have bid three spades over three clubs and South could have proceeded quickly to what would have been a cinch spade slam.

West doubled six no-trump also and made his best opening lead of the six of hearts. This set up a lot of heart tricks for East and West but it did them no good. South started the clubs and dropped the jack. That gave him six club tricks.

Then he went after diamonds and was lucky enough to drop another jack for four diamond tricks. The heart and spade aces accounted for two more tricks and South had made his six no-trump slam.

We sort of sympathize with West. South had never rebid clubs and it was extremely unlikely that he would show up with a solid six card suit. On the other hand West had a sure profit at six spades. He need not have been so greedy.

Morehead did not comment on South's bidding, but we will. We just don't like it. We would prefer a three-club rebid to one spade. This would have lost the 44 spade fit this time but would not have lost it had North

Family Home

Soon Outgrown

CRANSTON, R.I. (AP) — Mr. and Mrs. John J. Krupa purchased their nine-room house five months ago because they wanted room for their four children and an expected fifth.

Thursday, Mrs. Betty Krupa gave birth to triplets—two boys and a girl—and the father, a self-employed public accountant, wishes he bought a larger home.

City Readies War on Heating Frauds

The city may soon level its official guns at heating gyps and declare war on scarce tactics in the selling of heating equipment.

A new heating ordinance, pet project of City Heating Inspector Robert Hawkins, has been drafted and presented to the City Commission.

The ordinance is slated to be introduced Tuesday.

In addition to providing weapons to fight scarce selling, where-by residents are deluded into buying new furnaces because of alleged dangers in their old heating systems, the ordinance has one other far-reaching provision.

The proposed ordinance provides that all heating systems for future new homes be designed for the addition of air conditioning.

WOULD BE FIRST

Hawkins said such a requirement, if finally adopted, would be the first in the state, although many contractors already are meeting the provision.

He estimated the cost for the average home at \$50.

According to the heating inspector, the city's battle against "heating gyps" takes in two areas, namely, new installations and heating repairs.

He said the city receives about 20 complaints a year on repair services and about 50 complaints on the installation of new equipment.

2 Ordinances Will Be Aired

Waterford Board Meets on Monday

Two ordinances will be considered for introduction by the Waterford Township Board at 7 p.m. Monday meeting.

One of the proposed ordinances would give the township controls over abandoned refrigerators and ice boxes by imposing penalties on violators.

The abandoned appliances are considered detrimental to safety and health.

Township Attorney Paul Mandel was directed to draw up the ordinance by the board after complaints were voiced by residents.

The second ordinance is geared to establish traffic regulations at the Highland Lakes Campus of Oakland Community College.

AGREEMENT

Also slated for consideration at Monday's meeting is a review of the recreation department agreement between the Township Board and board of education.

In other business, first notices will be read on three rezoning requests to change from:

Single family residential (R-1A) to local business (C-1) property on Williams Lake Road between Norris and Ardeth for a beauty shop.

C-1 and commercial recreation (RA-2) to single family residential (R-1B) property on Cass Elizabeth Lake Road near Robinwood.

R-1A to C-1 property on Walton Boulevard near Clintonville Road for 10 retail shops.

Troubled Kim May Quit Films, Retire to Big Sur

LOS ANGELES (AP) — A tearful Kim Novak, who has been plagued with troubles, said she may abandon her acting career and retire to her home in Big Sur, about 200 miles north of Los Angeles.

The attractive blonde actress sobbed Friday as she surveyed her wrecked home in suburban Bel Air and moved out her belongings.

"I'm going to Big Sur" she said. "I don't think I will come back."

She was ordered from her mud-covered home Thursday when the structure was declared unsafe.

Rough Ride Ejects a Swallowed Coin

KINGMAN, Kan. (AP) — Robert Bayack of Kingman is one man who will not complain about the roughness of the roads between here and Wichita, Kan.

His son, Michael Bayack, 7, had a quarter lodged in his throat.

Since the dad was unable to dislodge the coin he put the lad in the car and started on the journey to see a physician in Wichita.

The car hit a hole in the road and jolted the quarter loose.

Killer Suspect's 'Club' Hunted

COLUMBUS, Ohio (AP) — Detectives say officers are searching the city dump in hopes of finding the weapon used in the bludgeon death of the Rev. Dr. Robert W. Spike.

Without it, their case against William R. Minor, 25, who they say confessed the Oct. 17 crime, carries at least one loose end.

Police so far have said only that Minor, a drifter, mental patient and admitted burglar of numerous churches, told of using a "club" which he threw in

a trash barrel several blocks away from the slaying scene. They wouldn't elaborate on any description.

Dr. Spike, nationally prominent theologian and civil rights leader, was killed in the United Christian Center which the 43-year-old University of Chicago educator had helped dedicate the day before.

SPECIAL SESSION

Prosecutor C. Howard Johnson ordered a special grand jury session Monday to consider

evidence against Minor, by-pinging the normal procedure of a preliminary hearing in Municipal Court.

Public Defender Otto Beatty Jr., who entered a plea of innocent in Municipal Court for Minor on a first-degree murder charge Friday, had asked a continuance until next Wednesday.

He said afterward he would like to see the preliminary hearing carried through so "some important legal points and facts surrounding the case could be brought out."

NOTICE OF TAXES CITY OF PONTIAC

The 1966 County taxes in the City of Pontiac will be due and payable at the office of the Pontiac City Treasurer, December 12, 1966, through February 14, 1967, without fees.

On February 15, 1967, a collection fee of 4% will be added to all County taxes paid through February 28, 1967.

On March 1, 1967, all unpaid County and 1966 City and School taxes will be returned to the Oakland County Treasurer's office, and must be paid there with additional fees.

Payments made by mail must be postmarked not later than February 14, 1967, to avoid penalties.

Viet War Gnawing on Soviet Nerves

PAST AND PRESENT — The splendid past and primitive present are symbolized in this scene from the Southeast Asian kingdom of Cambodia. Used to the sight, an unimpressed, poor farmer passes the imposing ruins of the 12th century temple of Angkor Wat, a global drawing card.

By WILLIAM L. RYAN
AP Special Correspondent
Soviet statements reflect a jittery mood, raising questions whether the Kremlin may move to deepen the cold war again unless some way is found to de-escalate the Viet Nam war.

There are signs the war is grating on Soviet Politburo nerves. Political problems are raised in Moscow by the combination of situation at the upsurge in China, the divisions and bickering in the world Communist camp and the rising tensions in other sensitive areas, such as the Arab East.

The Kremlin now has a special envoy at the United Nations in New York. His primary mission may be to reemphasize Soviet unwillingness to take any overt initiative toward ending the war. This may not preclude behind-the-scenes Soviet encourage-

ment to moves originating elsewhere, but the Kremlin leadership is in a difficult position.

There is reason to believe Soviet leaders communicated their uneasiness to U.N. Secretary General U Thant and others. There is always a possibility that political pressure generated in Moscow and the Communist world because of Viet Nam will bring about a situation endangering the leadership of Alexei N. Kosygin and Leonid I. Brezhnev.

NEO-STALINISTS

There have been signs that neo-Stalinists high in the Soviet bureaucracy speak now with increasing authority. An alliance between them and elements of the military could produce pressure on the leadership for more active Soviet involvement in Indochina on be-

half of Communist North Viet Nam.

Vassily V. Kuznetsov, Soviet first deputy foreign minister and a top troubleshooter, arrived in New York Nov. 27, and since then has met three times with Thant. A U.N. spokesman said that Viet Nam was among the matters they discussed.

Privately, Kuznetsov could discuss with Thant a possible role for the United Nations in finding a way to reduce the Viet Nam danger. Publicly he could not say much. Soviet representatives at the United Nations display a reluctance to talk about Viet Nam at all.

The Soviet official stand is that the United Nations has no role in Viet Nam. Moscow says it must be settled on the basis of the 1964 Geneva conference and also on the basis of Vietnamese Communist demands.

That is also the Red Chinese stand.

SEE U.N. ROLE

In private, however, the Russians may see a U.N. role in the impasse.

The Russians stress that the most important factor is an end to U.S. bombing of North Viet Nam. Thant stressed this point too, as if suggesting the move might lead to others.

The bombing seems to irk the Russians more than any other one factor. Kuznetsov, addressing a U.N. session this week, hammered at the point in one of the toughest Soviet attacks on the Americans in recent months.

Up to now, the Russians have been described by Americans in meetings on such matters as

nuclear proliferation and space affairs, as disinclined to revive cold war tactics. But U.S. Ambassador Arthur J. Goldberg characterized the Kuznetsov speech as "stale polemics of the cold war type."

All through 1966, the Soviet leadership has left little doubt it wanted to push ahead full speed with construction of the U.S.S.R. domestic economy. This would require slackened cold war tension. But Viet Nam and other world political situations continue threatening to get in the way.

Dutch Chest, Ancestors' Wedding Present Over 500 Years Ago, In Guest Room

Bilevel Home Of Mr. And Mrs. John A. Cooper Built By George Gould Ross

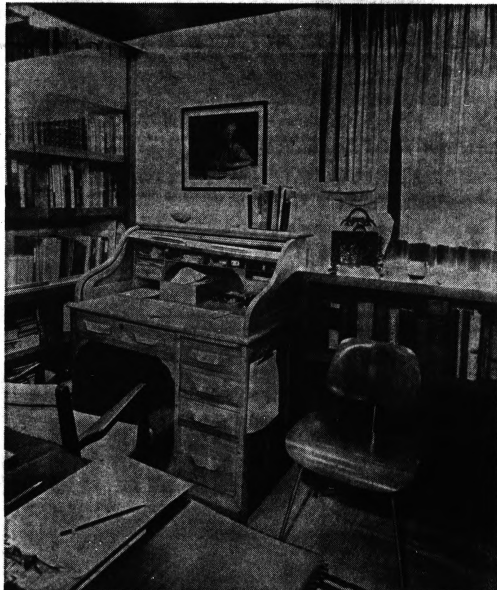

Drama of Nature Unfolds Before Window

By JODY HEADLEE
Home Editor, The Pontiac Press
A symphony of nature surrounds the Bloomfield Township home of the John A. Coopers as a blue jay shrieks at a chipmunk skittering past the patio feeder, his jowls puffed with corn; the signal interrupting briefly the demanding wheedle of the Canada geese and the brittle rustle of frost-dried leaves still clinging to the branches.
Winter birds of every de-

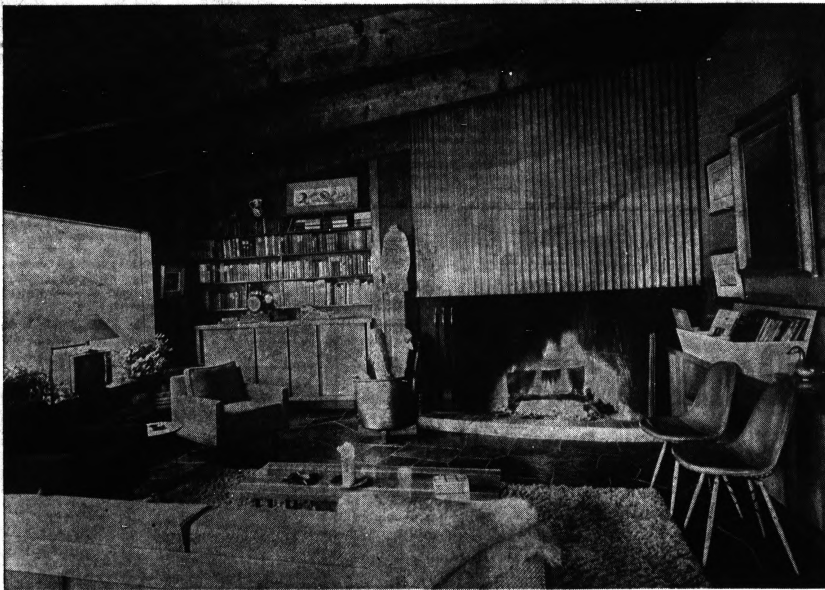

scription gravitate to the well-stocked feeder visible from the living room's broad picture windows.
"My husband says, that the birds 'come down like falling leaves,' one by one," said Mrs. Cooper.
"But when frightened or startled, they 'go up like a cloud.'"
"To protect them, we hang strings and place objects at the windows so they won't fly into the clear glass."

"And those smudges you see on the glass are from the noses of our night visitors, the raccoons."
To keep their wild friends in the manner to which they became accustomed quite effortlessly, the Coopers serve 500 pounds of grain each day.
Picture bands rim the two turquoise walls of the slate-floored living room.
"That way, I can keep moving them," said Mrs. Cooper.

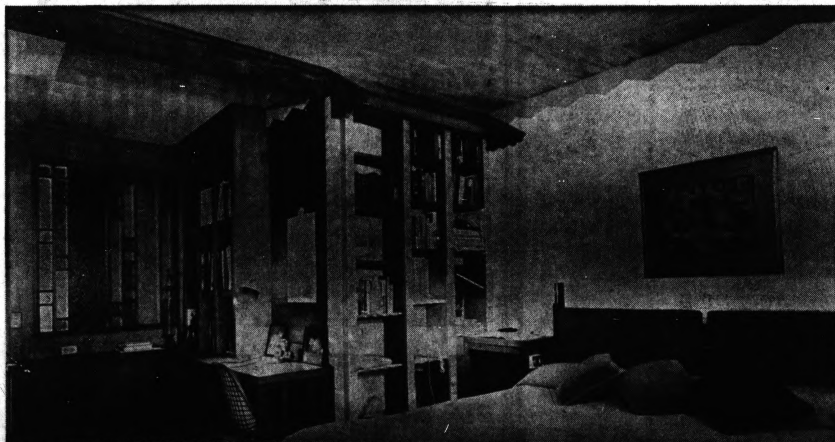

"I have a theory that after a picture hangs in one place for a while, you stop seeing it."
Bookshelves, chock-full of volumes, old and new, are found in every room of the house revealing the Coopers' interest in reading.
An author, Mrs. Cooper's latest published novel is "A Self-Made Man."
Four small plastic sailboats make up the eye of the fish on the fireplace's copper flashing.

Two-Story Colonial for Large Families

Simplicity is the dominant theme of this two-story colonial. It is meant for a large family, not only because of the four upstairs bedrooms, but because the dimensions of its rooms are suitable for comfortable living without a "hemmed in" atmosphere.

The living room is more than 24' long, running from the front to the rear of the house; the family room, also front-to-rear, is 20'2"; the combined kitchen-dinette (exclusive of the separate dining room) is 17'6"; and the front foyer is more than 14' wide.

These figures make it plain

G-66 STATISTICS

Design G-66 has a living room more than 24' long, a dining room, a kitchen-dinette, a family room, laundry, lavatory, large foyer and two-car garage on the first floor. There are four bedrooms and two baths on the second floor. Total habitable area, not including the garage, is 2415 square feet. Over-all dimensions are 57' by 24'2" without the garage; 80' by 24'2" with the garage.

The foyer also permits an immediate view of the handsome living-room fireplace, which is set off by flanking windows.

On the other side of the foyer is the dining room, accessible both to the kitchen-dinette and the family room.

The step-saving U-shaped kitchen work zone provides a maximum of countertops and cabinets.

Two-Story Colonial for Large Families

(Continued from Page D-2)
down over the kitchen sink as
sure plenty of light and air as
well as a clear view of the
backyard.

Only a few steps away is the
rear service entry, with a laun-
dry room, lavatory and utility
closet.

The lavatory is well-located
for the family and guests, but
even more, it allows children
to get to it from the outdoors
without tracking through the
house.

For informal entertaining, the
family room has all the necessary
family room has all the neces-
sary attributes: accessibility to
the kitchen, a fireplace, wood-
paneled sidewalls for a feeling
of warmth, and floor-to-ceiling
sliding glass doors that lead to
the outdoors.

SPACIOUS CLOSETS

Note, too, that unlike many

family rooms, it has a spacious
closet.

The oversized two-car gar-
age connects directly with
the family room.

Depending on the size of the
lot and personal preference, the
garage doors may be located at
the front or to the right side
rather than as shown in the
plans.

Space is available for garden
tools, lawn chairs, bikes, toys
and other equipment.

Upstairs, each of the four
bedrooms can be reached di-
rectly from the hall.

The entire rear wall of the
master bedroom is divided into
three closets, one of which is a
walk-in.

A private full bath is equip-
ped with a built-in mirrored vanity
and a tiled stall shower.

This and the other second-

floor bathroom are back-to-
back and directly over the
first-floor lavatory for eco-
nomical plumbing costs.

The exterior of this colonial,
one of the many variations of
Early American architecture,
has a homey look, with bevel-
siding at the front and red cedar
shingles at the sides and rear.

A dark, asphalt-shingled roof
provides contrast and adds to
the colonial motif. Since the up-
stairs rooms are not over the
family room or the garage, the

vertical look of the two-story
portion is offset by the one-story
section.

This is a house that makes
maximum use of every square
foot of space on the inside and
has old-fashioned enchantment
on the outside.

Pole Construction for Vacation Home

Wood pole frame construction — the most widely utilized system for farm buildings — is equally well adapted to ocean-shore or gulf-shore vacation homes.

With the latter, pressure treated poles are imbedded directly in sand or soil and the home is built around their upper extremities.

The structure is extremely rigid and the base of the house is safely elevated beyond the range of hurricane spawned tidal waves.

Southern Pine is used extensively in this form of construction because of its high strength and ease of treatment.

SCRAPS AND ODDS AND ENDS of things on hand may be used to furnish a dollhouse. Pattern 274 gives actual-size guides for chairs, tables, beds and other furniture and directions for rugs, curtains and a fireplace mantel. The price of this pattern is 35 cents. It is also in Packet 47 with three other patterns including a doll house built over storage shelves — all for \$1.
