Pontiac Area Drenched With 1.43 Inches of Rain

Ex-Convicts, Pal Are Captured; One Still Hiding

2 Bluff Way Into Pen, Tie Guards and Make Off With Friends

ROCHESTER, N. Y. (AP) —Two armed ex-convicts who bluffed their way into Monroe County Penitentiary early today were speedily captured, and one of two prisoners they freed also was caught.

Still at large but believed to be in Rochester was Anthony Mendolla, 45, who had been serving time on a theft charge.

The gunmen tied up two guards and made off in a guard's automobile, which they soon abandoned.

Police said James Compton, 30, of Du Bois, Pa., one of the prisoners; and Paul R. Freeman, 24, of Rochester, accused of being one of the gunmen, were captured after officers surrounded a house in the southwest section of the city.

An hour or two earlier, police had picked up George R. Bonner, 21, of Washington, Pa., and accused him of being one of the gunmen.

Police said Freeman and Bonner recently had been released from the penitentiary.

The gunmen used a ruse to get into the penitentiary, and after pulling out revolvers, tied up the two guards and plastered their mouths with adhesive tape.

Then they made off with Mendolla and Compton. Compton, whose address also was listed as Coshocton, Ohio, was serving a one-year team on a bad check charge. The gunmen also took a wallet from one of the guards.

The gunmen also took a wallet from one of the guards.

The gunmen entered the penitentiary about 12:30 a.m. after telling Clyde Jefferds, 63, chief night guard, that they had cigarettes and a newspaper for Compton. They gagged Jefferds and tied his hands, then walked him down a corridor and into the turnkey's office.

One of the men took the jail keys, opened a cell block door and confronted James Marshall, another guard. Marshall quoted the gunman as saying, "Okay, I'll take over now."

Marshall was forced to release Compton and Mendolla from their cells and then was taken to the turnkey's office, where he also was bound and gagged.

The four fled in Jefferd's auto before the two guards could free themselves and sound the alarm.

Gift Hound Pup Starts Boy's Business Career

LINCOLNTON, Ga. (UP) — A hound puppy received as a gift set 13-year-old Robert Matthews up in business.

He raised the hound, sold her puppies for $15, bought a sow and sold her pigs, bought two calves which he raised and sold, and bought two Herefords. He now owns four Herefords.

Toscanini Is 87

NEW YORK (AP)—Maestro Arturo Toscanini is 87 years old today.

One Hurt as Blast Starts Blaze

Pontiac Press Photo

BATTLE FLASH FIRE—Pontiac firemen battle the flash fire that followed an explosion today at the home of Arthur Austin, 102 W. Ruth St. Austin's son, James, 18, suffered face and hand burns.

Explosion, Fire Hit Home Here, Burn Youth, 18

James Austin Treated at Hospital Following Ruth Street Blast

A Pontiac youth was burned this morning when a lighted cigarette touched off an explosion and flash fire in his home at 102 W. Ruth St.

James Austin, 18, told Assistant Pontiac Fire Chief Max W. Wells that he was standing in the kitchen and lighted his cigarette.

"Suddenly everything went boom," the youth was quoted as saying. "Flames shot up and burned my face."

Austin was treated at Pontiac General Hospital for second and third degree burns.

The youth's great - aunt, Mrs. Florence McCain, 77, who resides with the Austins, was the only other person in the home. She escaped injury.

"I saw flames all around him (James)," said Mrs. McCain. "I rushed outside and saw fire shooting out of the roof."

Wells said the youth's father, Arthur, 58, told him he uncapped a pipe last night, thinking it was part of the plumbing. The pipe was a gas line, and saturated the frame house with gas, he added.

Damage was estimated at $7,000 by Fire Chief John F. Schroeder.

Firemen, summoned by Mrs. Alfr. W. Miller, 106 W. Ruth St., fought the fire about a half hour. The roof and walls suffered most of the damage.

Austin's father, Arthur, 58, was at work and his mother is away from home on a trip.

Egyptian Council to Yield to Assembly

CAIRO, Egypt (AP)—A tense meeting of Egypt's ruling Revolutionary Council ended today with a public announcement that the military regime would hand over all governmental powers to a freely elected constituent assembly on July 24.

The surprise announcement of the impending end to the military regime provoked speculation as to whether the army's secret "free officers" movement would carry out its threats to start a new revolution if the way were opened to the restoration of politicians of the old Farouk regime.

The council met amid growing reports of differences between President Mohamed Naguib and other members.

Gen. Hodes in Charge

HEIDELBERG, Germany (AP) — Maj. Gen. Henry I. Hodes has arrived in Germany to take command of the U.S. 7th Corps, U.S. Army European headquarters announced today.

Film Awards Take Place 10:30 Tonight

HOLLYWOOD, Calif. (UP) — Hollywood's most glamorous event of the year, the 26th Academy Awards presentation, takes place at the Pantages Theater tonight. Even the television cameramen will be dressed in white tie and tails.

Some 2,800 persons are expected to attend. The ceremonies will also be broadcast and televised.

Television coverage will begin at 10:30 p.m. EST on channel 4 (WWJ-TV), with portions of the show originating from New York and Philadelphia.

The triple-point telecast is necessary because many of the potential winners are in the East.

The cream of filmland society will mingle with officials of government and industry at the ceremonies.

Youthful actor Donald O'Connor will act as master of ceremonies here while film star Fredric March handles the New York cut-ins.

The Philadelphia telecast will come from backstage at a theater where Shirley Booth, last year's Oscar winner, will present an award to the best actor of 1953.

Row Chairman Plans Hearing

Sen. Mundt Hoping for Settlement Next Week of Army Inquiry

WASHINGTON (AP)—Sen. Mundt (R-SD) said today he still hopes to launch next week a public Senate investigation of the heated row between Sen. McCarthy (R-Wis) and top Army officials.

He outlined a quick-pace schedule he wants to follow as presiding officer of the inquiry.

It calls for swift selection of a special counsel and agreement on ground rules under which the Senate investigations subcommittee will look into:

1. An Army report backed by Secretary Stevens accusing McCarthy and his chief counsel, Roy M. Cohn, of trying to get favored treatment for Pvt. G. David Schine, an unpaid subcommittee aide until he was drafted last fall. McCarthy and Cohn have denied the charge.

2. Return accusations by McCarthy and Cohn that Stevens and his associates tried to "backmail" the committee into dropping its inquiry into alleged Communists in the Army by using Schine as a "hostage." Stevens replied that the charge was "fantastic."

Mundt told reporters he is thinking in terms of five busy days of taking testimony, declaring, "I can't see anything in the picture now that would take longer." But he said unexpected developments in the testimony itself could plunge the subcommittee into a much longer job.

Still awaiting decision in writing the ground rules is the exact role McCarthy may play when his subcommittee, under Mundt's temporary chairmanship, starts the inquiry.

Tornadoes Threatening Ohio Valley and South

Hundreds of Drivers Stalled on Flooded Local Streets; Storms Sweep Nation

Tornado warnings were issued today for portions of the Ohio Valley and Dixie as a cold front which spawned 14 small twisters in the Southwest marched eastward.

U. S. weather forecasters warned of possible tornadoes in a 60-mile-wide belt from Evansville, Ind., to Cleveland, Ohio.

Another tornado warning was issued for a 60-mile path between Greenwood, Miss., and Nashville, Tenn.

Widespread rain fell from east Texas to the Great Lakes and middle Atlantic states.

Heavy snow fell from the Sierra Nevada range to the northern Rockies, with Billings, Mont., reporting 9 inches, and snow and sleet fell from the northern Rockies to Minnesota.

An intense storm cutting through the Midwest was centered over eastern Iowa and caused high winds through much of the area.

Chicago was deluged by a spectacular thunderstorm which flooded basements and underpasses and totaled 2.30 inches. Streets and basements were flooded at Keokuk, Iowa, which had 1.27 inches.

Grand Rapids had 2.93 inches. Kansas City, Mo., 1.37 inches and Cleveland, 1.36 inches.

It rained so hard in Cleveland Heights, a Cleveland suburb, that a fish, apparently washed up from the lake, was seen swimming in a gutter.

Fourteen tornadoes in the Southwest left a scattered pattern of

(Continued on Page 2, Col. 6)

A series of thunderstorms last night and early today drenched Pontiac and surrounding areas with 1.43 inches of rain, flooding streets, causing washouts and stalling hundreds of work-bound motorists.

Water was reported floorboard deep on some county roads, and several Pontiac streets were flooded to curb depth.

Oscar Loomis of the Oakland County Road Commission reported that seven county arteries are flooded in spots and some are in danger of washout if rain continues.

Service station operators were deluged with calls as hundreds of motorists' rain-soaked cars failed to start.

U. S. Weather Bureau held out little hope for immediate relief as they predicted "considerably more rain" during the day.

Temperatures are expected to drop to a low of 35 to 38 tonight, with a slight rise to 39 to 43 Friday. In downtown Pontiac, the mercury rose from a 6 a.m. 37 to 66 at 2 p.m.

Danger from widespread storms, which caused at least 14 tornadoes in the southwest yesterday and last night, will continue in the Ohio-Indiana area until late this afternoon, weather forecasters warned.

At the Oakland County Road Commission office, Loomis said Greenfield road at Northwestern Highway, where **water was** reported above auto floorboards, is suffering the worst flood in several years.

He also said Berg road, north of Nine Mile is in danger of washout if rain continues. Overloaded drains have already caused flooding, he said.

Other flooded county roads include Square Lake, between Telegraph and Woodward avenue; M 150, north of Rochester; Haggerty road, north of Grand River; and Dixie Highway in Drayton Plains.

Arthur Hilliker of the Pontiac Dept. of Public Works said Pontiac Creek has overflowed its banks, flooding the Florence-Norton street intersection. He also reported that Perry street near Hotel Roosevelt, Howard and Belmont streets were flooded early today.

Another serious washout was reported at Featherstone road and East boulevard, where fast-flowing water washed away a large section of the road.

Although the Clinton River is on

(Continued on Page 2, Col. 3)

Blast Starts Fire That Razes Building

ATLANTA (AP) — A terrific explosion started a fire that destroyed a five-story midtown building early today.

Firemen and police expressed belief there were no casualties. No estimate of damage was available.

Witnesses said the explosion apparently took place on the second floor of the building which was occupied by the Baskette Piano Co., and a book store.

In less than 10 minutes after the blast, the flames had spread to the top floor.

The explosion blew most of the front part of the building into narrow Pryor street. Some debris was hurled across the street into the doorway of Fire Station No. 4, temporarily blocking the exit of firefighting equipment.

GOP Acts to Bar Further Excise Tax Cuts in Senate

WASHINGTON (AP) — Senate Republican leaders regrouped forces today against any further floor cuts in excise taxes after losing a test in which a 100-million-dollar reduction was voted on household appliances.

The GOP leadership lost control last night and, when that became apparent, agreed to accept the household appliance cut. The vote for it was 64-23.

There remains a good possibility the appliance tax cut, from 10 to 5 per cent, will be knocked out in conference with the House, which voted no such reduction.

Sen. Millikin (R-Colo), chairman of the Finance Committee, expressed belief the House would stand firm against going below the 10 per cent level on most excises this year.

Millikin predicted to newsmen today that other key amendments to the excise or sales tax bill sponsored by a group of Democrats would be beaten. He said the Senate may complete action on the measure today.

Sen. Douglas (D-Ill), chief sponsor of the reduction amendments, planned to ask first today

Soviets Accuse U.S. of Spying

Claim Americans Left Reports on Red Bases in Train Compartment

MOSCOW (AP) — The newspaper Trud charged four members of the U. S. Embassy's military staff today with spying on Soviet airfields and other important installations on a rail trip from Moscow to Vladivostok.

The embassy refused to comment on the charges.

Trud, the trade union newspaper claimed the alleged espionage was revealed in military intelligence reports the Americans left behind in their compartment on the Trans-Siberian Express. It said the chief conductor found the papers at the end of the run.

The documents, it continued, "constitute an intelligence report on the main towns and stations between Moscow and Khabarovsk," an industrial and transportation center of 300,000 persons north of Vladivostok on the Manchurian border.

"Special attention was paid to airfields, radio stations, industrial plants and the like," Trud said.

Police Pick Up Theft Suspects

South Oakland Patrols Fire at Speeding Car; Three Nabbed Later

Three gas station burglary suspects who eluded a hail of bullets fired by police of four Southern Oakland County communities in a 90-mile an hour chase early today were nabbed by Detroit police three hours later.

They are Billie Joe Bailey, 20, James Korthals, 18, and a 16-year-old juvenile, all of Detroit. Police said Bailey was seized in a stolen car and the other two were nabbed near Korthals' home.

Earlier today a rookie Royal Oak Township patrolman, Clarence Hill, surprised the trio after they had looted a gas station at 12 Mile road and Stephenson highway.

Police from Birmingham, Royal Oak and Clawson joined the chase, firing 15 shots. Three hit the getaway car.

Two of the bandits jumped from the car as it careened around a road block at 14 Mile and Main in Clawson.

The third, Bailey, drove through another road block at Main and 12 Mile in Royal Oak.

He finally was forced to abandon the car when he drove down a dead-end street in Royal Oak.

Bailey told police he then stole another car from Frank Cooper, a post office employe, who left his car to warm up in a driveway at 307 S. Wilson.

In the abandoned car police found petty cash from a gum machine and cigarettes. They also found cigars and cigarette lighters which Bailey said he took from another gas station, and a quantity of shot gun shells from a sporting goods store.

The three youths are being held on charges of breaking and entering.

Donkey Meat Salesmen Warned by Government

MEXICO CITY (AP)—The federal sanitary department is clamping down on markets selling donkey meat under another name.

Over 3,000 pounds of burro were confiscated yesterday. Officials said it was billed as goat meat, very popular here.

Sympathy Tieup Threatens Ports

Association Sanctions Outlaw Strike; Some Dockers Interested

NEW YORK (AP) — Possibility of a sympathy watertront tieup along the Atlantic Coast loomed today as leaders of the old International Longshoremen's Assn. gave official sanction to a three-week-old outlaw strike in the Port of New York.

Union endorsement of the walkout here did not bring an immediate shutdown in any harbor in the ILA district from Portland, Maine, to Hampton Roads, Va.

"No sympathy strike" was the word from Baltimore, whose dockers have handled the bulk of the ships diverted from New York. But reaction in most other ports still was to be seen.

ILA President William V. Bradley said he had been told that his union's men in the other ports "want to go out." He added that "we'll have a job keeping the other ports working."

Recently signed ILA work contracts in other ports were seen as a possible deterrent to spread of the strike. No contract is in force here.

November Ballot to Carry Conlin's School Aid Plan

LANSING (AP) — The Legislature has placed the Conlin Plan to revise the Sales Tax Diversion Amendment on the November ballot.

The proposal, a constitutional amendment which does not need the governor's signature, passed the Senate unanimously Wednesday after previous approval in the House.

A product of more than a year's study and conference, the Conlin Plan is designed to end the so-called "time bomb" effect of the diversion amendment by paying out the money on a current basis to school districts.

Under the present method, the public schools are paid their sales tax money in one year on the basis of collections two years earlier. State fiscal officials blame this for continual state deficits and express fear that the state will go broke if the sales tax collections ever slumped sharply in one year.

The plan, conceived by Rep. Rollo G. Conlin, (R-Tipton), would give the school districts two cents of the three cent sales tax, compared to their present 1.8431 cents, but the schools would be required to pay the cost of teacher pensions, now a state charge.

Sponsors estimate that the schools will received about 12 million dollars more, but will make a net gain for their own purposes of about one million after meeting the pension costs.

The Senate balked at House amendments to the Workmen's Compensation Increase Bill and the House rejected Senate amend-

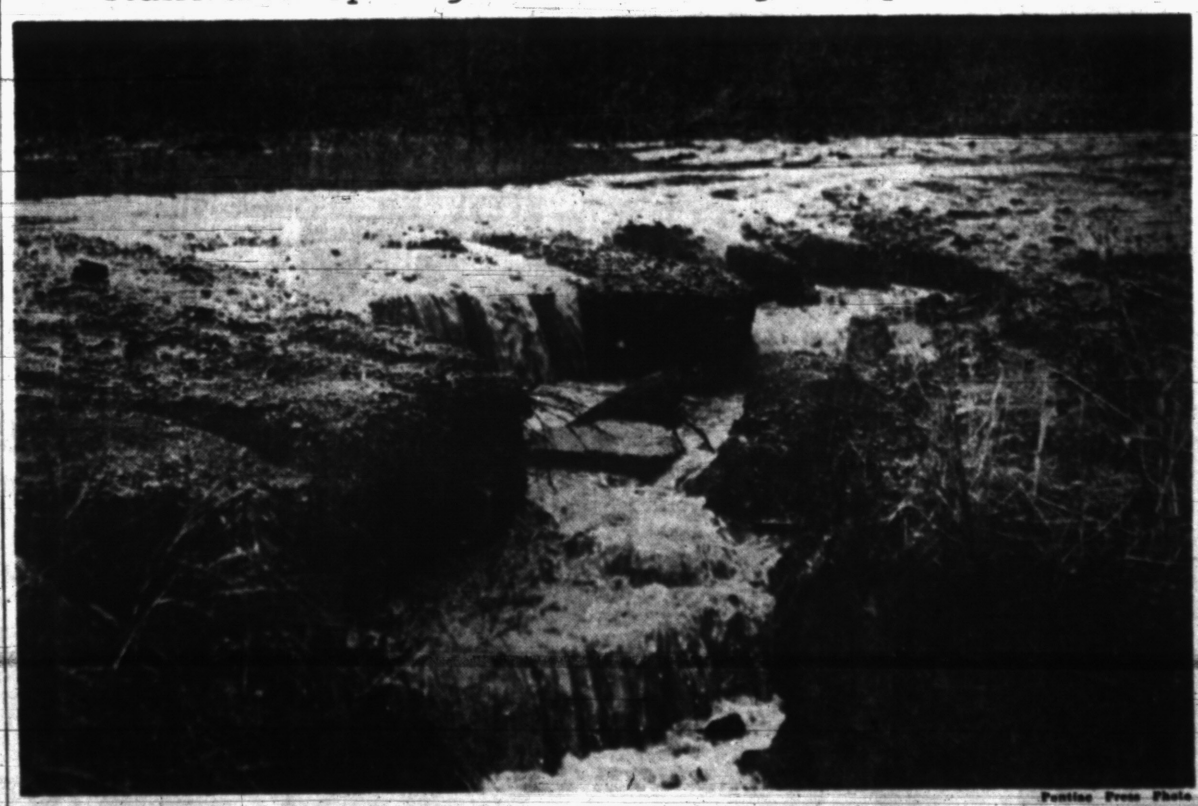
Rain and Spring Thaw Damage City Streets



Pontiac Press Photo

FEATHERSTONE WASHOUT—Heavy rains last night and early today, with temperature well above freezing, were inflicting heavy damage to streets and highways. Above is shown Featherstone road at East boulevard, where flowing water has virtually washed away a portion of the road. Other city streets were flooded at low points when drains were unable to carry away surface water fast enough.

Heavy Spring Rain Blocks 2 Railroad Underpasses, Overtaxes Storm Sewers

From Our Birmingham Bureau

BIRMINGHAM — A steady, all-night downpour of rain drowned the city hall switchboard under a tidal wave of flooded basement calls this morning.

Filling low streets from curb to curb, the first big spring rain brought citizens up sputtering complaints of plugged sewers and mains.

According to Bob Hurley, assistant DPW head, only one main in the city was plugged, but the others were taxed beyond their capacity for several hours.

"We've had more than 125 calls from all over town," Hurley said. He added that in many cases trouble did not originate in the sewer mains but in the inadequacy of conduits from homes to the mains.

Grand Trunk Western Railroad underpass on 14 and 15 Mile roads were floded, with thet 14 Mile underpass carrying 40 inches of water inside cars which tried to ford it.

City Clerk Irene Hanley said today that absentee ballots for the April 5 city election are now ready. Applications will be received at her office in the Municipal Building until 2 p.m. April 3.

Persons out of town or ill may apply in writing. Miss Hanley noted that there must be an application filed for each voter in a family.

* * *

"Mid-Lent: Relief from Tension" will be the subject presented by Dr. Harry O. Martin at tonight's First Methodist Church mid-week meeting, from 7:30 to 8:30.

* * *

Following a report from City Manager Donald C. Egbert, Planning Board members this week approved a change which would utilize Bowers street rather than Hazel street as a traffic artery onto Hunter. The recommendation will be submitted to the City Commission.

Egbert's report said part of the improvements necessary for the proposed fire station at Bowers and Adams will be new pavement on Bowers. The city would pay for the new crossover.

* * *

Second play-off games in the local YMCA Church Basketball League will be played at the First Baptist Church tonight with Redeemer Lutheran and First Presbyterian playing at 7 and St. James opposing Christ Church Cranbrook at 9. The public is invited.

Congregational Church defeated St. James in the first play-off game 39 to 28, putting it in the upper bracket for further play.

* * *

Faced with an order from the State Water Resources Commission to report at a May 27-28 meeting on what steps the city has taken or will take to abate Rouge River pollution, City Commissioners adopted a manager's recommendation this week.

The resolution provides that the city will meet obligations necessary to provide proper sewage treatment, and will consider participation in a proposed municipal interceptor project based on evaluation to the city.

Egbert also recommended consideration of the enlargement of the Birmingham sewage plant which could serve a portion of Bloomfield Township, provided the township pays a share of the costs.

* * *

Thirteenth annual book review tea of St. Agnes Guild of St. James Episcopal Church will be held at 1:30 p. m. tomorrow at the church. Mrs. Wilbur Sears will review "The Lady of Arlington," by Harnett Kane. It is about Mrs. Robert E. Lee.

* * *

The Board of Education decided this week to start interviewing architects in regard to a proposed addition to the present high school and a new junior high school.

Supt. of Schools Dwight B. Ireland said this week in discussing a possible seeking of additional millage to finance higher teachers pay, that a three or four million dollar building program is needed.

He has previously indicated that such a bond issue possibly might be financed by not cutting the millage levied for the 1950 bond issue, which is bringing in more money than anticipated due to increased evaluation of the school district.

* * *

First of the Lenten family nights at Embury Methodist Church will be held tomorrow night, with a potluck supper at 6:30. Following a program of community singing and devotions James Chavey, of Detroit, will show films of his recent trip to Mexico.

November Voters to Get Conlin Plan

(Continued From Page One)

ments to a measure permitting flood control and water management districts. Both were sent to conference committees.

The Senate defeated a bill forbidding the sale of merchandise on the rights-of-way of state and county roads.

Thirty-nine bills poured out of committees in both chambers as the deadline fell for all but tax and appropriation measures to be on the floor.

Opponents of state responsibility for the care of the aged fought bitterly but could not stop House passage of a bill to permit counties to levy one-tenth of a mill in taxes and apply to the state for financial aid in building homes for the aged.

The measure, which has passed the Senate, was approved 54-37 after opponents warned that future legislatures were going to be under "terrific pressure" to find money for the purpose.

An amendment was attached prohibiting the use of any money from the 65 million dollar mental hospital bond money.

The lower house crippled and then passed a bill intended to permit school boards to increase local tax support of the school system.

The measure would permit school boards to appeal the county equalized valuation to the state tax commission. It was amended, however, to require that a majority of the county board of supervisors approve the appeal.

Rep. Louis C. Cramton (R-Lapeer) served notice that this year's fight over fair employment practices legislation is not quite over.

He said he would move on Tuesday to force the bill out of the State Affairs Committee. The committee Tuesday killed the Senate-approved bill.

House Will Debate Water Survey Bill

Preliminary debate in the State House of Representatives was scheduled today on a bill seeking state funds to help finance a survey of water supplies in Oakland, Wayne and Macomb Counties.

The bill, introduced by Rep. William S. Broomfield (R-Royal Oak), was favorably reported yesterday by the Ways and Means Committee. The committee reduced the appropriation from $77,500 to $25,000.

Rep. Broomfield said the amount would be enough to start the survey. The sum would be matched by communities affected.

Pontiac Man Waives Hearing in Auto Theft

BIRMINGHAM — Appearing before Associate Justice of the Peace John Emery Jr. yestereay on auto theft charges, James J. Stovall, 26, of 192 Harrison, Pontiac, waived examination, and was bound over to Circuit Court for trial. Bond of $2,000 was furnished.

VFW Admits Role in Dick's Deportation

MANCHESTER, N.H. (AP)—Wayne E. Richards, national commander of the Veterans of Foreign Wars, said last night his organization had something to do with trying to get crooner Dick Haymes deported.

He told a banquet meeting that the VFW had asked U.S. Atty. Gen. Herbert Brownell to deport Haymes, and added:

"I read in some of the papers that Dick and his wife, Rita Hayworth, are charging 'pressure' in government for their departure. They don't identify the influence. I'll gladly take part of the influence."

He said also: "I say if any man like Haymes makes a lot of dough in this country and is afraid, or refuses to serve his country in time of need, he can go back to Argentina and take Rita with him."

Neither Haymes nor his attorney could be reached for comment.

Pontiac Press Photo

STREETS UNDER WATER—Flooded streets were common this morning when drains were unable to carry away surface water fast enough. This picture was made during the forenoon at Lafayette and Jacokes streets.

Mother Gets Notice of Sergeant's Death

Mrs. Eva Welch, of 77 LeGrande Ave., has been notified by the U.S. Army that her son, Sgt. 1 C. James L. Welch, 22, died in Korea.

SGT. WELCH

Sgt. Welch was reported missing in Korea Nov. 28, 1950, while fighting with the 38th Regiment, 24th Infantry Division.

He entered the Army July 17, 1947, and received basic training at Ft. Sheridan, Ill. He served overseas for two years before returning to the United States. In July, 1950, he volunteered for further overseas duty.

Welch attended Washington Junior High School.

Surviving besides his mother is his father Clifford Welch of Philadelphia, Pa., his wife Mrs. Lillian Welch of 87 Calvert St., and a daughter Juanita Elaine at home.

Also surviving are two brothers and a sister, Mrs. Virginia Bell, George and Harry, all of Pontiac.

Rains and Thaw Hit Streets and Highways

(Continued From Page One)

the rise, he said no flooding is imminent.

Early morning traffic on 14-Mile road was piled up when a 40-inch-deep pond formed under the Grand Trunk Railroad underpass east of Birmingham. DPW officials reported.

Hundreds of basements were reported flooded, as drains began backing up under the overload. A Berkley homeowner reported more than 40 inches of water had flooded her basement.

Oakland County school officials said classes were not interrupted and all buses are in operation.

Meanwhile Oakland County Road Commission and Pontiac DPW crews are working to clear drains, sewers, and making preliminary repairs.

Death Car Driver Released on Bond

Clarence F. Hicks, 21, of 1725 Beechmont Ave., Keego Harbor, was bound over to Oakland County Circuit Court Wednesday on a negligent homicide charge.

He appeared before Municipal Judge Maurice E. Finnegan and was released on $300 bond. The arraignment in Circuit Court is set for April 6.

Hicks is accused of hitting a pedestrian, Elton R. Powell, 41, of 377 Ditmar St., with his car Dec. 5. Witnesses said Hicks hit Powell at W. South boulevard near Duke street while driving at a high rate of speed.

New car dealers in the United States declined in number from 45,166 to 42,181 tween 1953 and 1954.

JOSEPH CYRANKIEWICZ

Having been elected by the Kremlin as Poland's premier, according to Polish News Agency broadcasts, Joseph Cyrankiewicz is now highest ranking Pole. He replaces demoted Boleslaw Bierut, who is now Chief of the Polish Communist Party.

Operating Room Attendant Took Bets on the Side

LOS ANGELES (AP) — Sheriff's officers said it wasn't exactly love for his work as an operating room attendant that brought James R. Newsom to Los Angeles County General Hospital an hour ahead of time each day.

Newsom, they explained, had an avocation, a rather profitable one. Bookmaking, to be exact. That's the charge they booked him on yesterday.

The officers said he readily admitted taking horse bets but maintained he didn't do it on county time. It was done, he insisted, in that free hour of his own before he officially reported for duty in the operating room.

An hour before his arrest, police vice squad officers had arrested his wife Troy. They said she was taking horse bets by telephone.

So Newsom is in the county jail and his wife in the city jail.

Graft Prober Bars Attorney for Police

DETROIT (AP)—Circuit Judge John P. O'Hara refused yesterday to permit a lawyer for a suspended policeman to be in his grand jury chambers during testimony.

The judge, who is conducting a one-man grand jury investigation of suspected police graft, said he interpreted the law to mean that a lawyer does not have the right to accompany his client in grand jury sessions.

Judge O'Hara's ruling prevailed over vigorous argument by attorneys Phillip J. Neudeck and Frank Neaton. Both represent the Detroit Police Officers Assn. and Neudeck is attorney for one of the suspended 13.

Pontiac Deaths

Frank (John) Woods

Funeral for Frank (John) Woods, 76, of 5615 Elizabeth Lake Rd., will be Friday at 2 p.m. from the Pursley Funeral Home. The Rev. Claude D. Friess of the Wesleyan Methodist Church will officiate and burial will be in Perry Mount Park Cemetery.

Born at Wolverine April 19, 1877, he was the son of Mr. and Mrs. George Woods. He married Effie Holiday at Petoskey in 1906 and came to Oakland County to live 40 years ago.

Mr. Woods was last employed as fireman at Pontiac General Hospital.

Besides his widow he is survived by a son and two daughters, Clarence, and Mrs. Evelyn Hart of Pontiac, Mrs. Leotia Cloft of Shingleton. Also surviving are a brother, Joseph of Pontiac and a sister, Mrs. Laura Sullivan of Harrisburg, Ore.

Mr. Woods died suddenly Tuesday evening at his home.

Sylvan Council to Meet

A special meeting of the Sylvan Lake City Council will be held tonight at 7:30 p.m. in the Whitfield School, 2000 Orchard Lake Ave., to consider the proposed construction of a municipal water system. City Manager Ernest Ethier urged all property owners to attend.

GOP Acts to Bar Further Tax Cuts

(Continued From Page One)

for a vote on a proposal to cut the excise tax on autos from the present 10 to 7 per cent. This would slice the tax by 275 million dollars a year.

Douglas says the cut would save about $50 on the price of a $2,000 car. The tax is levied on the manufacturer, but is passed on to car buyers.

The third amendment offered by Douglas would chop in half the present 10 per cent excise on television and radio sets and phonographs. This would be an 80-million-dollar annual cut.

With the appliance relief included, total cuts in the excise bill now have passed the billion-dollar mark.

The House originally voted a wide variety of reductions totaling 912 million a year. This brought down to a maximum 10 per cent level all excises except those on liquor and tobacco. Some are now as high as 25 per cent.

The Senate Finance Committee, chiefly by hiking the relief for movie theaters, boosted this total to 958 million before sending the bill to the floor.

The cuts are scheduled to take effect a week from today, April 1.

Senators Byrd (D-Va) and Williams (R-Del) put in an amendment to knock out all of the cuts except those on movie tickets and other admissions. But this appeared to be a forlorn gesture in the present mood of the Senate.

In arguing for the appliance cut, Democrats hammered at the theme that the bill already cut taxes on such luxuries as furs, jewelry and night club admissions. They said household necessities should get relief too.

On the vote, 35 Democrats, 28 Republicans and the 1 Independent said "aye." Fifteen Republicans and 8 Democrats voted "no."

Pontiac Man on Panel at University Meeting

ANN ARBOR—Automotive purchasing, the economic outlook and municipal insurance will help to set the theme for the fourth annual Municipal Purchasing Conference at the University of Michigan, scheduled for Tuesday, March 30, in the U-M Rackham Building.

Approximately 50 persons from throughout the state will gather for the one-day meeting, sponsored by the U-M Institute of Public Administration and Extension Service in cooperation with the Michigan Municipal League (MML) and the Municipal Purchasing Service.

Closing the conference will be a discussion of "Service to Other Municipal Departments." Frank A. Reed, Pontiac purchasing agent, will be a member of this panel.

Japanese Bill to Ban Teachers From Politics

TOKYO (AP)—Prime Minister Shigeru Yoshida today picked up sufficient Diet strength to assure passage of two bills banning political activity by school teachers.

If the bills become law all teachers in primary and junior high schools would be classed as government employes and as such would be banned even from talking politics.

Pontiac Drenched by 1.43 Inches of Rain

(Continued From Page One)

property damage and at least one dead.

Nine of the twisters Wednesday struck or were sighted in Oklahoma and the other five in north central Texas as high winds, hail and thunderstorms lashed those areas. No major injuries were reported from the twisters, some of which did not touch the ground. Scattered estimates of property damage did not appear extremely high.

One man, George D. Franklin, was killed south of Denton, Tex., but police said high winds, rather than a tornado, were responsible. He was crushed by a wooden fence that blew over as he tried to brace it against the wind.

Twisters were reported at or near Alfalfa, Sudan, Newkirk, Stillwater, Wellston, Shawnee and Oklahoma City in Oklahoma. Others appeared at Albany, Honey Grove, Frisco, McKinney and Throckmorton, Tex.

Tinker Air Force Base near Oklahoma City, headquarters of the Air Force national tornado warning service, reported sighting three tornado funnels in the air last night. None did any damage.

Meanwhile, much further south in Texas than the storms struck, Del Rio reported a high temperature of 101 degrees Wednesday, the state's first reading of the year over 100.

Thieves Use Ax to Crack Open Safe

Thieves Wednesday night hacked open the door of a six foot, 1,000 pound safe and stole an undetermined amount of money from the Lincoln-Mercury Sales Inc., at 40 W. Pike St., according to Pontiac Police.

Detective Sgt. John C. Wilson said the safe was rolled from the garage office into the bump shop where the thieves used an ax to crack it. Entry was gained through a rear window, he added.

Another breakin was reported at the Bailey School, at 81 Florence Ave., where records were found scrambled and offices ransacked. Nothing is reported stolen from the school, police said.

Last night's two breakins bring this month's total to 43.

Webster Parents, Teachers Finish Workshop Series

It was the teacher who answered the questions Wednesday night at Webster School when about 400 parents pinpointed their areas of concern for their childrens' educational program.

Concluding a series of pilot workshops at which the Webster School Parent Teachers Association hoped to weld a stronger bond between the home and the school, a panel of university and college education experts discussed everything from reporting to parents to progressive education.

Lay member of the panel was Rabbi Sanford Sapperstein of Pontiac.

Members of the education profession who have staffed all of the workshops were Dr. Arnold Meier, assistant director of education research for the Detroit Public Schools and associate professor at Wayne University; Dr. Troy Stearns, head of elementary education, for Michigan State College; Dr. Robert Fox, principal of the University of Michigan elementary school and Robert Martin, consultant in elementary education at Wayne University.

Dr. Edith Roach Snyder, principal of Webster school and Mrs. Marian Hinkley, Webster teacher, also participated in the discussion.

Parents had previously noted the topics they wished discussed. These included discipline, readiness in learning, the balanced education program, use of parents in community resources and the present university and college philosophy and teaching method procedures.

Dr. Stearns commended the Webster school block plan whereby children remain with the same teacher for longer than one year.

Mrs. Hinckley pointed out that during the sixth grade at Webster, pupils are acquainted with the report card system so they will be ready for the transition to junior high school.

Social Work Film Scheduled Tonight

Special showing of a new half-hour film, "The Social Worker," will start at 7:30 tonight in Pontiac YWCA, 22 Franklin Blvd.

Oakland County Chapter, American Association of Social Workers, will present the film. Anyone interested in social work is invited to attend.

Dwight S. Adams, executive director of Pontiac Area United Fund, will preside for a question-and-answer session after the movie. Oliva Viola is program chairman.

"This is a good chance for anyone to see what a social worker really does," Miss Viola commented.

The number of people who speak the major languages (in millions) is approximately: Chinese (all dialects) 450, English 250, Hindu-Urdu 160, Russian 140, Spanish 110, German 100, Japanese 80, French 75, Malay 60, Bengali 60, Portugese 55, Italian 55, and Arabic 50.

25 Groups Meet to Plan Memorial Day Parade

Representatives of some 25 civic and fraternal groups and churches met with the Memorial Day Joint Veterans Committee last night to map tentative plans for a Memorial Day parade in Pontiac.

The group, meeting at the hall of Cook-Nelson Post 20, American Legion, chose John Hirlinger, assistant director of the Pontiac Chamber of Commerce, as float division chairman. Two Pontiac school bands were pledged, but committee members said many more will be needed. The next meeting is April 7.

Install Big Cooler

PHILADELPHIA (AP)—What local dealers say is the largest air conditioning system ever installed in an existing building has been ordered for the 29-story Fidelity Philadelphia Trust Building here, equal to five million pounds of ice melting daily. It will have a cooling capacity ice melting daily.

Something NEW

- NO MIXING
- NO POURING
- NO SPRAY GUN
- ONE SQUEEZE TO FEED

THRIVE LIQUID PLANT FOOD

At last! "THRIVE," in the New Modern, Spring-green plastic Squeeze bottle is Science's latest discovery. Hundreds of tests on all types of house plants prove that THRIVE will out-grow, out-bloom, any ordinary plant food yet devised.

"ONE-SQUEEZE TO FEED"

No more diluting "this with that." THRIVE is READY to use! One simple squeeze of this beautiful plastic bottle on the soil of your house plant furnishes a complete, well-balanced plant food formula, plus all important minor plant nutrients, PLUS a Nationally known Soil Conditioner!

"INSTANT ACTION"

Micro-nutrients in THRIVE will show a magical improvement in your plants almost over-night. These all-important so-called "vitamin-like" elements prevent plant-starvation, help produce faster and earlier blooms, and healthier plants.

OVER 100 FEEDINGS—ONLY 39c

Yes, you can actually feed your house plants over 100 feedings from 1 bottle of amazing THRIVE. THRIVE was developed with the housewife in mind—to make feeding those tender plants a pleasure instead of a weekly burden.

MAKE 14-DAY TEST

NO RISK! After using New THRIVE only 14 days, you must be thrilled by new and healthier growth, more and larger blooms—or your money back! Remember, your handy plastic squeeze bottle of THRIVE can be refilled from quarts or gallons of THRIVE also available from your garden supply dealer. Larger sizes ideal for use on lawns, flowers, shrubs, etc.

Human Glands Being Replaced

Cancer Society Takes Writers on Tour, Tells About Research

NEW HAVEN, Conn. (AP)—If your hormone-producing glands wear out or are destroyed, can they be replaced?

A famous Yale University scientist says yes—they can be.

He already has replaced the glands of "nine or 10" people with the glands of babies who died in their mothers' wombs. And, so far as he can ascertain, these borrowed vital organs are healthy and functioning in the new hosts.

Dr. Harry S. N. Greene, professor of pathology, today reported this remarkable story to a group of science writers touring leading research centers at the invitation of the American Cancer Society.

The experimental transplants began more than two years ago; and these and the results of many years experience and many thousands of transplants between animals have persuaded the scientist that many grave human glandular deficiencies can be corrected by transplants.

* * *

"But we are not going into the transplant business," Greene emphasized. "This is basic research. Our job was to show that it can be done. We will leave it to others to apply our fundamental findings to their clinical problems."

He said he and his group would not accept patients for further transplant therapy.

Among the embryonic organs successfully transplanted to adult humans were:

1. A pituitary gland—the tiny organ at the base of the brain which controls almost all the hormone-producing organs of the body;

2. Thyroid gland — which controls nervous reactions;

3. Parathyroid glands — which govern the body's use of metals like calcium.

4. Adrenal glands — which enable humans to undergo such stresses as cold, hunger, fatigue, poisons, injury and various forms of shock.

Without any of these glands or the hormones they produce, one soon would die.

Flint Bus Drivers OK Contract, Won't Strike

FLINT (AP) — Threats of a bus strike that have prevailed for four months ended last night when bus operators and mechanics accepted a contract offer of the Flint Trolley Coach Co.

The members of Local 10, Transportation Workers (CIO), approved the contract proposal 100 to 21.

Notice of Intention to Construct Curb, Gutter, Drainage and Related Work on Hazel Avenue from Telegraph Road to Starr Avenue.

You are hereby notified that at a regular meeting of the Commissioin of the City of Pontiac, Michigan held on the 23rd day of March 1954 by resolution, it was declared to be the intention of the City Commission to construct curb, gutter drainage and related work on Hazel Avenue from Telegraph Road to Starr Avenue at an estimated cost of $9,664.88 and that the plan, profile and estimate of said improvement is on file for public examination.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Hazel avenue from Telegraph Road to Starr Avenue shall constitute the special assessment district to defray $4,710.82 of the estimated cost and expense thereof and that $4,954.06 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

NOTICE IS HEREBY GIVEN

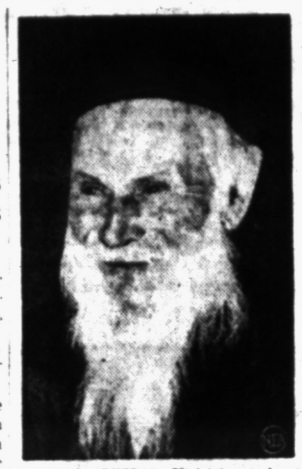
That the Commission of the City of Pontiac, Michigan will meet in the Municipal Court on the 30th day of March 1954 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

W.O. 6682

Dated: March 24, 1954

ADA R. EVANS
City Clerk

March 25, 1954



NEW CITIZEN—Enjoying robust health at 101, Herschel Bergman of New York City radiates his pleasure of becoming a U.S. citizen. A native of Minsk, Russia, he came to this country in 1930. He teaches wrestling at a boys' camp during the summer.

Raises Studied by Civil Service

Meets Monday Evening to Give Final Approval to Proposed Pay Hikes

LANSING (AP) — The State Civil Serice Commission will hold a special meeting Monday night to give final approval to proposed pay raises for state employes.

Arthur G. Rasch, civil service director, said that after the meeting he should be able to furnish the Legislature with the exact annual cost of the pay raises.

The special commission meeting was called after the legislative appropriating committees protested that the regularly scheduled April 8 meeting would not come until the day before the Legislature adjourns.

This would make it impossible to figure the pay raises into the budget, they said.

Rasch said that if the commission approves the rate schedule that is being drawn now, the pay boosts should amount to about six million dollars annually.

About one million of this will come from federal and restricted funds, he said.

"That will leave about five million dollars to be appropriated by the Legislature," Rasch said.

The Civil Service Commission has proposed salary increaes for state employes ranging from five to 10 cents an hour. In addition, it proposed that additional pay boosts be given certain "critical classes" such as attendant nurses at state mental hospitals and prison guards.

Rasch said the commission is working with the Department of Administration to give the Legislature a breakdown of how the salary increases will affect each state department.

"This should be ready for the Legislature by Tuesday or Wednesday," Rasch said, "assuming, of course, that the full commission approves the salary schedule as we are now drawing it."

Deaths Last Night

WASHINGTON (AP) — Junius Parker Fishburn, 58, for many years publisher of the Roanoke (Va.) Times and the Roanoke World-News.

LOS ANGELES—Alberto Carlo Columbo, 68, movie and television music conductor. Born in New York City.

PINEHURST, N. C.—Stuart Hoyt Patterson, 82, retired vice president and comptroller of the Guaranty Trust Co. of New York City.

INDIANAPOLIS—Raymond E. Brennan, 58, retired Portland, Ore. businessman, who formerly was secretary-treasurer of the Portland General Electric Co., and associated with the State Steamship Co. at Portland.

Rheumatism Victims Offered New Hopes

DETROIT (INS) — George C. Kenney, president of the National Arthritis and Rheumatism Foundation, today held out new hope for sufferers of the two crippling diseases.

The retired Air Force General said in Detroit that new drugs and modern medical treatment in many cases stop progress of the disease, relieve pain and prevent crippling effects.

He added there is hope that over 70 per cent of the 10 million sufferers in the U. S. can be returned to a useful life.

"The new drugs such as cortisone, ACTH and the most recent butazolydin are a few examples," he said, "of the efficient tools that ceaseless research is providing."

Medical authorities of Indonesia say its women tend to stay thin because they often eat very light snacks every couple of hours instead of regular meals.

Northern Editor Named

CHEBOYGAN (AP) — Robert Humphrey, editor of the Cheboygan Observer, is the latest member of the advisory committee of the National Rivers and Harbors Congress. He was recommended for the appointment by Rep. Knox (R-Mich).

Body Washes Ashore

SOUTH HAVEN (AP) — A decomposed body was washed ashore from Lake Michigan two miles north of Glenn Wednesday. Its condition did not permit identification.

OUTSTANDING—Dr. E. C. Beck (above), head of the English department at Central Michigan College, won the distinguished service award as the outstanding classroom teacher in Michigan this year. Award was made by classroom teachers at a Michigan Educational Association assembly in East Lansing. It marked the first time a college teacher was given the award.

Chemicals May Starve Cancer

Scientists Combine Diet and Chemotherapeutics to Fight Disease

KANSAS CITY (AP)—The possibility of starving out cancer through the combined attack of dietary control and chemicals harmful to the growth was reported today before the American Chemical Society.

The procedure was described as having a "promising possibility" by Dr. James B. Allison, who said studies now under way at the Rutgers University Bureau of Biological Research show that the life of a tumor-bearing animal may be prolonged through diet control.

• • •

This, he said in a paper prepared for the biological chemistry division of the society's annual convention, may make it possible to use chemotherapeutic agents—chemicals such as the "triethylenimines"—that are detrimental to cancer, to slow up, stop or even cause regression of the cancer.

Dr. Allison, professor of physiology and biochemistry at the university, said the administration of TEPA — triethylenimino phosphoramide — to laboratory rats reduces the utilization of food in both normal and cancerous animals.

• • •

The daily use of TEPA in rats with experimental cancer caused the tumors and all the other tissues to grow poorly, said. But when the diet was properly supplemented with methionine, the effect of TEPA on the normal tissues was reduced and the tumor was still retarded. Methionine is one of the amino acids making up protein. "Thus diet can protect, at least in part, the tissues of the body from the depleting effects of the cancer, thereby slowing the growth of the tumor and preparing the way for a more prolonged and drastic type of chemotherapy," he said.

"The possibility of combining chemotherapy with dietary therapy is promising."

Magsaysay Worried About Mambo Craze

MANILA (AP)—President Ramon Magsaysay told his Cabinet today the new mambo dance craze should be declared a national calamity.

It's tough enough to rouse government employes into working harder, the President quipped. Then he cited the case of an engineer who comes to Manila for mambo lessons:

"He dances for hours and hours and he's so tired when he goes back to his province he can't do any work at all."

British Debate Commercial TV

Church Groups, Labor Oppose Bill; Fear Ads of American Type

LONDON (AP)—Decisive debate began today in the British House of Commons on the Churchill government's proposal to authorize a commercial television network—with sponsors and advertising.

Most of the opposition came from the Labor party.

The bogeyman was American-style advertising, which many Britons regard as vulgar. The British Assn. of Chambers of Commerce suggested advertisers and educators draw up a code to keep such commercials off the air if the TV monopoly now held by the state-owned British Broadcasting Corp. is ended.

• • •

But the Free Church Federal Council, at its annual congress, charged that commercial TV would endanger public morals. The council represents most of Britain's Protestant churches, except the Church of England. The latter has also denounced commercial TV.

The debate today was on the second reading of the bill, following which the House was scheduled to vote. This is the key vote. If the measure is approved, the third reading and vote is a mere technicality.

Chiang Pledges Life to Regaining China

TAIPEH, Formosa (AP)—President Chiang Kai-shek today pledged his remaining years to the task of recovering mainland China from the Reds and establishing a "free, democratic and independent China."

Chiang, in a speech closing the National Assembly, which re-elected him to another six-year term, said his government would welcome criticism intended to further the cause of democracy in China.

But he said this "privilege" did not apply to Communists, fellow travelers or to "people shouting from sanctuaries abroad."

The latter apparently was a reference to K. C. Wu, former governor of Formosa now in Evanston, Ill., and such persons as Li Tsung-jen, who was sacked by the Assembly March 10 from the vice presidency. Li has lived in New York for several years.

Expert Engineer Dies in His Home, Aged 55

PHILADELPHIA (AP) — James W. Jenkins, 55-year-old mechanical and civil engineer, died yesterday at his home.

A native of Savannah, Ga., Jenkins was an expert on waterways and dams and in 1952 was chief engineer at an air base in Greenland for the Air Force.

He started his business in Chicago in 1920 and later had offices in Los Angeles, Detroit, Cleveland, New York City, Washington, Shanghai, China, and Bangkok, Thailand.

Brothers of the Brush Ruin Barber's Trade

CLEBURNE, Tex. (AP)—A master barber has filed suit against the Brothers of the Brush, a group advocating fancy beards, charging the organization has literally ruined his shaving business.

C. R. Brown, barber of Burleson, 12 miles north of here, said, "I haven't shaved a customer in weeks."

The Brothers of the Brush are backing the Johnson County centennial celebration by going Western and hairy. For weeks the men in Johnson County have been raising beards.

Most of the continental areas of the earth have a layer of granite beneath them, but rock under the sea usually is basalt.

Our Forests Coming Back

Michigan residents who are firm believers in conservation have a right to be proud of the 50 year progress made in restoring the forests of the State.

In the half century since the end of the lumbering era, reforestation has restored a million acres. Michigan, the Saginaw *News* points out, in 1953 became the first State to reach that goal.

★ ★ ★

One of the noteworthy features of this achievement is the increasing part played by private interests. Landowners are so enthusiastic about reforestation that they are pushing it at a rate beyond the capacity of Government nurseries to supply seedlings.

The major problems in Michigan reforestation now are said to be proper harvesting of mature timber and the healthy growth of young trees.

★ ★ ★

The new forests of evergreens which have grown up on cutover areas of the State truly are living monuments to Theodore Roosevelt, Gifford Pinchot and other ardent conservationists early in the century. To them belongs much of the credit for bringing home to the people the imperative need of conservation and reforestation.

Our debt to them is shown in U. S. Forest Service statistics. "Each year," the service says, "new wood growth of all sizes equals 98 per cent of the amount removed or destroyed. Only 25 years ago 4.5 times as much wood was removed as was grown."

Parking Trend in Cities

A recent discussion in Washington reveals that the effort of American cities to solve their parking problems is taking four principal directions.

★ ★ ★

Authority for this statement is J. Edward Johnston, head of the American Automobile Association's traffic engineering department. In commenting on the problem which besets virtually every city in the country, Mr. Johnston listed these trends as:

1. Business men are taking the initiative.
2. Thorough surveys are being made.
3. Financing and construction are being carried on under some sort of municipal parking authority which leases facilities to private operators.
4. Parking meter revenues are being pledged in full as security when revenue bonds are issued to finance projects.

★ ★ ★

In commenting on this, *Motor News*, a publication of Michigan AAA, cautioned against the inference that private parking lot operators are solving the parking problem. Refuting the claims of private operators that neither Washington nor Detroit needs more parking facilities, the magazine adds:

"City officials all over the United States cannot afford to listen any longer to such absurd claims when survey after survey shows what the truth is."

Fortunately for Pontiac this advice isn't needed by our City officials. They wisely are pressing their own off street parking program as rapidly as circumstances permit.

Sour Note at Caracas

Though Secretary Dulles got what he wanted from our Latin-American neighbors at the Caracas conference, everything wasn't clear sailing there for the United States.

This was emphasized by the fact that only the United States voted against the Argentine resolution calling for an end to colonialism and foreign occupation in the Western Hemisphere.

★ ★ ★

It seems probable that the resolution was born of resentment over what our Latin neighbors feel was the minimum attention given their economic problems at the conference.

While it ostensibly was directed at Britain, France and The Netherlands, all of which have colonies in South America, its effect was highly embarrassing to the U. S. delegation. Our spokesman, John Moors Cabot, argued, with logic on his side, that the question was outside the scope of the conference and belongs to the United Nations.

★ ★ ★

Actually this resolution will have no practical effect. But voting for it undoubtedly gave the other conference Nations an opportunity to let off steam.

Our delegation obviously could not have voted for the resolution. That would have antagonized Britain and France, our two chief allies in the cold war and in the struggle of the free world against Communists.

At the end of 1953 personal debts in the U. S. totaled $112,000,000,000, and during last year people saved $6,400,000,000. At this rate the public as a whole could get out of debt in 18 years, provided no further debts were incurred.

After quite some months of watching weather maps on TV and listening to announcers explain lows, highs, storm centers, squall lines, cold fronts, etc., we figure we know about as much about the weather as the average meterologist.

The Arkansas man who held a stick of dynamite in his mouth and lit the fuse lost all his teeth, but he hasn't missed them.

Voice of the People

Don't Go Back to System of Having Two Times, Urges Pontiac Press Reader

(Letters will be condensed when necessary because of lack of space. Full name, address and telephone number of the writer must accompany letters but these will not be published if the writer so requests unless the letter is critical in its nature.)

I think it would be poor business for Pontiac to go on daylight saving time. So many people depend on trains, industrial and business connections in Detroit and elsewhere. These would be complicated and confused if Pontiac changed and Detroit stayed on its present time, as it has done for several years.

Stores and schools can open earlier if they wish, without changing the clocks in the spring, and then changing them back in the fall. Changing the clocks is like changing the calendar. It upsets everyone.

Let's stay as we are. It has worked out well. I remember how many people missed trains and other connections when we had two times to go by, and changed back and forth twice a year.

E. A. B.

It would seem that if a vote was taken by the population of Pontiac daylight saving time would pass overwhelmingly. Why would the City Commission even hesitate to vote "yes" when thousands of sport enthusiasts and people who like working around their homes in the evenings would more than appreciate the extra hour of light?

The farmers, drive-in theater owners and tavern owners are a minority against daylight saving time.

If Detroit passed on this I do not think that Pontiac should wait a minute to go ahead and even if Detroit doesn't why shouldn't Pontiac show some initiative and go ahead with it anyway?

J. R. W.

Mother Protests Cab Driver's Attitude

What's wrong with some of these cab companies that they can't take you where you want to go, even if it is only three blocks with a sick child?

I had been to the doctor with my daughter who had an asthma attack. I stopped at a taxi stand and told the driver where I wanted to go. He told me that I could carry her, if it was no further than that. As she is nine years old and weighs 79 pounds, that would have been hard to do.

You can bet your life I will never call that cab company again.

Mrs. Geraldine Morse
A13 Arcadia Ct.

Sen. Potter Sits in Middle of Squabble as Committee Favoritism Rumors Fly

By DAVID LAWRENCE

WASHINGTON—The "left wing" has achieved a number of significant victories in Washington in the last two weeks — the most notable of which has been to bring influence to bear on President Eisenhower to use the headline power of his press conferences to carry on an open war with Sen. McCarthy of Wisconsin, chairman of the Senate subcommittee on permanent investigations.

Elated by this victory, the "left wing" is setting out now to get the scalps of Rep. Velde, Republican, chairman of the House Committee on Un-American Activities, and Sen. Jenner, Republican, chairman of the Senate subcommittee on internal security.

After that will come broadside attacks on the FBI in general and J. Edgar Hoover in particular.

Already articles are appearing in magazines of leftish tendency, written by well-known anti-McCarthy agitators, which are disparaging the work of the FBI and casting doubt on the validity of its system of reports.

The Senate subcommittee on permanent investigations has, of course, been stopped in its tracks. The Republicans — Sen. Mundt, Sen. Dirksen and Sen. Potter — have been stampeded into voting to suspend all investigations despite the fact that there still are 100 Communists in defense plants which the committee, by arrangement with companies doing defense work, has been weeding out concurrently as the committee exposed them.

What stimulates the "left wingers" to greater effort is the discovery that the Republicans in Congress can be easily driven to the defensive and will not work together in resisting attack.

The "left wingers" in the White House coterie — and they comprise some "world government" advocates who think they are fighting "isolationism" when they fight Sen. McCarthy, and some so-called "liberals" who have been egging the President on to come out into the open against the Wisconsin senator — are clumsy, however, in their tactics.

Thus the reporters were authorized to quote the President directly when he said on Wednesday that he doesn't think a senator should sit in judgment on his own case in the Senate, but the White House failed, in fairness to the Wisconsin senator, to point out in its authorized statement that he had already announced several days before that he didn't intend to vote on the issues before his committee.

The mixup in handling the report prepared by the office of the secretary of the Army on the dispute between legal counsel John G. Adams at the Pentagon and the staff of the McCarthy committee is another example of lack of team-play.

This correspondent said earlier this week that 14 Democrats and one Republican had clandestinely received this report from the Pentagon in advance of the chairman of the committee. This was not correct so far as the Democrats were concerned. The facts are these:

1. Only one Republican — Sen. Potter of Michigan — received the report ahead of his colleagues in the Senate, and that was one day in advance—namely, on Wednesday, March 10.

2. Sen. McCarthy had lunched that day with Secretary of Defense Wilson, who mentioned that Sen. Potter had the report. The Wisconsin senator promptly went to Sen. Potter and asked to see it. He was permitted to read it.

3. Sen. McCarthy then phoned Assistant Secretary of Defense Fred Seaton that the document was one-sided and that he had in his files a lot of data on the other side and that he thought the memoranda he had should be considered in the interest of fair play before anything was published.

Seaton is reported to have replied that the matter had gone beyond his hands. The report was "leaked" to the press the next day (Thursday) at about the same time copies were received by most of the senators.

Just why Sen. Potter was given the report in advance of all other senators was not explained to the chairman of the subcommittee, Sen. McCarthy.

The McCarthy people are saying that since Lewis Berry, one of Sen. Potter's campaign managers, was given, at the request of Potter, the post of assistant to John G. Adams, legal counsel of the Army, early in January at a salary of $12,000 a year, the Michigan senator has become a partisan of the office of the secretary of the Army in the course of the inquiry on Army affairs and an opponent of the chairman of the Senate subcommittee of which he is a member, Sen. Potter's friends deny it.

But this is the kind of thing that one hears on Capitol Hill these days. While the Republicans quarrel and bicker, the "left wing" rides triumphantly on towards its ultimate goal — the squelching hereafter of all anti-Communist crusading by the administration.

Aunt Het

I used to wonder how Sodom and Gomorrah were destroyed by fire from heaven, but it looks simple since we found out what atoms can do.

Case Records of a Psychologist

Scientific Facts Help to Stabilize Marriages

By DR. GEORGE W. CRANE

Case K-358: Leah A., aged 61, is a grandmother.

"Dr. Crane, I have followed your column for many years," she told me after I had addressed a PTA meeting in her city.

"I just wish I had been able to read this modern information about 35 years ago when I was first married.

"Why, I never even heard of the 'Ponce de Leon' complex in men till I saw it in your column a few years ago.

"Once my husband and I almost broke up, and for ten years afterwards I still carried a secret grudge against him.

"But now I have found out that I was all wrong. For your cases have given me the man's point of view, which I had never remotely dreamed of in my early marriage.

"My two married daughters also have had domestic trouble, but I have been sending them your bulletins and now they have straightened out their family troubles and are very happy.

"My newspaper has thus done more to stabilize my own marriage and that of my two daughters, than anything else in our community."

Your newspaper brings the latest scientific facts to your home, fresh

each day and right out of the college laboratories.

It gives you the current news stories on Page One which will be included in the history books a generation hence.

Contrast this enlightened modern age of freedom with the tyranny that existed in 1692, when people were actually burned to death as witches in New England.

Newspapers were not in existence then, which explains why such religious tyranny could get by in America.

Editors have joined hands with physicians, too, in abolishing the old "hush, hush" attitude concerning venereal diseases. As a result, we medics now are overcoming syphilis and gonorrhea.

But until the modern newspapers helped us, we were constantly stymied in our efforts to trace venereal disease to its original source in every community.

By way of this column I have distributed about 3,000,000 medico-psychological bulletins to teenagers and their parents.

Newspapers thus bring college instruction right into your own home. And instead of charging you the prevailing $500 per year college tuition, all they ask is 7 cents per day for your home delivered paper.

Newspapers also expose injustice and misappropriation of funds by political job holders. They reveal communistic activities and gangster alliances with government officials.

If you ever doubt the value of your newspaper, just think where you would go in your community to protest oppression by any political official.

And where do you telephone for the late sports results or other vital data?

Baering Down

By ARTHUR "BUGS" BAER

International News Service

Looks like Japan is in business like a cat on a fish wharf. We staking it to wheat, oats and 100,000,000 tokens.

We're letting it arm to the protruding teeth with the toys of oblivion. To slap a bonnet on the climax Japan is planting 500 acres of opium poppies.

All of which looks like the words and music for that old adage, "You have buttered your toast — you must lie on it."

That was about as fast a touch as you will ever find in history. It has been less than 15 years since Pearl Harbor and the barrel jugglers are again rubbing resin on their feet.

Japan says the opium is for medicinal purposes. Reminds me that is how we got our liquor during prohibition.

That was only 22 years ago. Seems like tomorrow night.

Truth is we are doing the smart caper with Japan. We need a strong enemy in the Pacific. And we're not forgetting that Nippon came closer to winning than a bulldog with a mustache of porcupine quills.

Germany is also arming again with the five-pointed blessings of the Pentagon. We forgive an enemy faster than Jack Robinson can say you.

We are not criticizing the sagacity of our state department's foreign policy. It's looking further ahead than a happy couple taking their lawyers along on their honeymoon.

It was the Mikado who gave the Tsar his come-uppance at Port Arthur in 1903. Time marches on for some people and does a clog waltz for others.

It took 50 years for the pendulum to tag all the bases.

But there it is. Might be a good idea for Douglas MacArthur to oil his wading boots again.

THOUGHTS FOR TODAY

Go and tell my servant David, Thus said the Lord, Shalt thou build me an house for me to dwell in?—II Samuel 7:5.

* * *

Persecution has not crushed the church; power has not beaten it back; time has not abated its forces; and what is most wonderful of all, the abuses of its friends have not shaken its stability—Horace Bushnell.

Whenever Clawed or Bitten by Animals, Dr. Brady Would Use Tetanus Antitoxin

By WILLIAM BRADY, M. D.

The proper treatment for wounds by the teeth or claws of animals, domestic or wild, healthy or not, or by beak or talon of bird or fowl, is immediate surgical sterilization.

The purpose is, of course, to make the wound as clean as an operative wound.

As in the operating room today absolute cleanliness, technically called asepsis, is the best possible insurance of uncomplicated healing, so in the treatment of wounds by animals or birds the doctor endeavors to make the wound surgically clean and keep it clean.

If the doctor applies some "strong" antiseptic or disinfectant or, worse, cauterizes the wound with fuming nitric acid or other destructive agent which some 19th century charlatan imagined powerful enough to kill the "virus," you may be sure he or she is incompetent.

The emergency treatment of wound by tooth or talon is adequate if it includes—

(1) Removal of every particle of foreign matter that may have been implanted by tooth or talon or by contact with the soil or any unclean object

(2) Excision of any dead or devitalized tissue

(3) Freely opening any puncture or deep tear

(4) Applying a suitable dressing to protect the wound from infection.

(5) Administering a dose of tetanus antitoxin or toxoid—and a second dose 5 to 7 days later.

This same routine first aid treatment applies to wounds by fireworks, toy pistols, nails (whether rusty or not), farm or garden implements and wounds sustained in street or highway accidents.

All of these latter wounds, as well as wounds by tooth, beak or talon, whether they appear to be mere scratches or breaks of skin or deep punctures or tears, involve the possibility of infection with tetanus (lockjaw), because the germ (now called Clostridium) of this dread disease is a natural or normal inhabitant of the intestinal tract of domestic and wild animals and sometimes the intestinal tract of man.

Thus the germ or its spore may be present in the soil, especially manured soil, wherever animals run, and the teeth of dogs and the talons of animals and birds are likely to implant Clostridium tetani in scratch or puncture.

The descriptions of tetanus in 19th century medical textbooks (written before the profession converted to a business) are virtually identical with the descriptions of "rabies." I don't know but I believe most instances of alleged human "rabies" are in fact undiagnosed tetanus.

And so, if I were wounded by animal or bird, I'd want the first aid treatment described above, and in no conceivable circumstance would I submit to Pasteur treatment.

As for you or your child, the only advice I'd give you in any conceivable circumstance is: Do as your doctor says—and if you don't like what your doctor says, change doctors.

Signed letters, not more than one page or 100 words long, pertaining to personal health and hygiene, not to disease, diagnosis or treatment, will be answered by Dr. Brady if a stamped, self addressed envelope is enclosed, etc.

Ludington Now Has Two Centenarians

LUDINGTON, Mich. (AP) — Ludington now has two centenarians.

Joseph Bunk attained his 100th birthday anniversary yesterday. It was celebrated with an open house at the home of a son-in-law where Bunk lives.

Ludington's other centenarian is James Gavan. Gavin will be 104 years old next June.

Bunk, bedridden for the last year, was born in Canada March 24, 1854. A son and two daughters live here. He has 47 grandchildren, 66 great-grandchildren and 14 great-great-grandchildren.

Airliner Noses Over

CHICAGO (AP)— Four passengers and a stewardess were shaken up early today when a Trans World Airlines Martin Skyliner landing at Midway Airport skidded off the runway during a rainstorm and nosed over. None suffered injuries.

SUPPORTS EDC—Paolo Emilio Taviani warned the Italian senate during a budget debate that the European Defense Community was a prerequisite to unity of Europe. He is Italy's defense minister and a long time foe of communism.

Takes Out Insurance, Needs It 1 Hour Later

KALAMAZOO (AP) — Ask Marilyn Walsh, Kalamazoo High School junior, if "a stitch in time, saves nine."

A school insurance policy was offered this week covering injuries to school children. Marilyn paid her dollar, the yearly cost. An hour later she dislocated her knee in a gymnasium accident.

The policy, which covers all her medical and hospital expenses, has been subscribed to by a third of the city's public school students in its first two days.

Urges Check of Luggage for Small Atomic Bombs

WASHINGTON (INS) — Sen. Alexander Wiley (R-Wis) proposed today that luggage be examined for small atomic bombs or other explosives before put aboard a plane or train.

He said he "is satisfied" it would be possible to run the luggage on a conveyor out in the open through some detecting device, perhaps including a Geige rcounter.

New York State Loses Oldest Mayor, Aged 91

NEW HARTFORD, N. Y. (AP)—Mayor A. D. Eldred, who at 91 was believed to be New York state's oldest living mayor, died yesterday at a hospital in nearby Utica.

He had suffered a fractured pelvis and other injuries in a fall at his home last Friday.

A Republican, he was elected in 1953 to his ninth consecutive two-year term. He had served as postmaster here from 1924 to 1935 and was a retired real estate salesman.

Doomed Doctor Offers Advice to Cancer Victims

SEATTLE (AP) — A Seattle doctor, dying with cancer, thinks other persons in his situation could well spend their final days in productive living rather than in inactive dread.

Aware for six months that he is hopelessly ill of cancer, Dr. Merrill Shaw, 50, vice president of the American Academy of General Practice, says he has had time for a "prepared exit."

Meanwhile, he said in an interview published yesterday, he has been able to do the things he always has wanted to do but never before had the time.

The period after a patient learns of his condition, he said, can be highly productive.

"The cancer victim who is head of a family, for instance, has the time to be an adviser to his survivors." He has a college-age son and daughter.

The fear of cancer is a friend of cancer, he warned, because it "shuts far too many people off from going to a doctor for early diagnosis lest he find they have cancer."

Reds Claim Saboteurs Caused Coal Mine Fire

LONDON (INS) —Warsaw Radio charged today that "diversionists and saboteurs" caused a Silesian coal mine fire which isolated dozens of miners and killed "many" of them.

The Communist broadcast said the mine was the Barbara pit at Chorzow in Silesia.

DOGGED BY MISFORTUNE—Mr. and Mrs. Harold Murphy, of Summit, Ky., are experiencing a streak of ill-fortune which would down the most stout-hearted. Murphy, showing his empty pockets, tells reporters that two days after he was laid off at work his two-room frame house was destroyed by fire. While searching for a place to live, he stalled his car on a railroad track, and it was demolished by a train. There's trouble in the family, too. The Murphys' seven children have chicken pox.

Thriving Las Vegas Gives Everybody a Good Time

LAS VEGAS (INS)—Las Vegas, the boom city of the west, believes in supplying everybody with a good time.

Whatever your taste you will find plenty of opportunity to pursue them in this vital, thriving metropolis which in a brief span of time has become the playground of the middle and far west.

Gambling sets the pace for the fast-moving crowds that dash through the town on their way to and from everywhere.

But there are more healthful pursuits as well — sun-bathing, swimming, horseback riding and lake fishing all year around.

The brightly-lighted "strip," center of activity for night clubbers, rivals Broadway for the brilliance of its act, the beauty of its chorus girls and the decor of its establishments.

Las Vegas and its dripping silver dollars have enticed names never before drawn to the night club circuit; names like Lauritz Melchior, James Melton and others usually found only in the confines of the Metropolitan Opera or the concert stage.

The "strip" itself is as full of neon signs as Times Square and some Las Vegans have actually expressed "disappointment" at seeing the Square for the first time after basking in the blinding lights of Vegas.

The city is a labyrinth of top-notch night spots and fine hotels. The hotels are the last syllable in comfort. They are low and sprawling, usually only two stories high, with excellent cuisines, rooms with terraces, and giant swimming pools.

Hotels like the Sands, the Sahara, the Desert Inn, the Last Frontier, El Rancho Vegas and the Thunderbird have all the answers to a perfect vacation in the sun.

These are the luxury spots where visitors not only see fine shows, eat fine food and enjoy real gambling — they also may rub elbows with numerous celebrities from Hollywood who spend much of their free time in this wonder spot.

It was the Sands Hotel which provided the marriage background for Rita Hayworth and Dick Haymes when they merged last fall.

There is excellent transportation by air into the fabulous city from all major points in the United States. Train service is fair. One airline offers a round trip service from New York for $316.94 and another offers a similar flight at $267.61.

Gambling in the biggest little city in the world is a round-the-clock operation.

There is a saying that one must be either extremely wealthy or slightly insane to go to Las Vegas. But hotels and food are reasonable and so far as gambling is concerned — let your pocketbook be your guide.

Explosion Kills 100 Polish Coal Miners

VIENNA, Austria (AP)—Warsaw radio said today that a large number of Polish coal miners—possibly as many as 100—had been killed in a major mine explosion at Chorzow, in Silesia.

The broadcast said that when fire broke out in the mine, "several score" of the miners were buried and could not be pulled out in time to save them.

"All signs indicate that the explosion was the sabotage act of an enemy," the radio said.

The male hardhead catfish carries eggs in his mouth until the little fish are hatched and then carries the fish until they are about three inches long.

New Market Terminal to Be 1 of World's Best

BOSTON (UP) — Boston's new $12,000,000 South Bay Market Terminal is expected to become one of the world's finest. Its eventual development may involve a total investment of $50,000,000 or more.

Situated on a 190-acre triangular plot of New Haven Railroad-owned land in South Boston, the new terminal had to be built because a new expressway cut through an important segment of Bostons' ancient market area in the Faneuil Hall district.

Navajos Angered by 'Indian Craft' Made in Japan

WINDOW ROCK, Ariz. (AP)—If the Indians got mad when the white man took their land, they're boiling now.

The Japanese are blamed this time—for making "genuine" Navajo handiwork and selling it at one fifth the Indians' price. And right here on the reservation, no less.

The activity was brought to light by Ned Hatathli, manager of the Navajo Arts and Crafts Guild, in a formal protest to Washington.

Hatathli said the local tourist market is being flooded by beaded Indian belts, Kachina dolls and bows and arrows, all made in Japan.

"It may only be a matter of time before Navajo rugs made in Japan are sold here," said Hatathli.

Sheriff Doesn't Mind

TUCSON, Ariz. (AP)—Ollie Biles was arrested for making telephone threats to a sheriff's deputy, but he was promptly released when he gave his reason.

"I thought I was talking to the city police," he explained.

Thief Takes 2 Suits to Examine Them

DENVER (AP)—Elmer J. Blakeley, 51, was sentenced to six months in county jail yesterday after a trial in which he admitted stealing two suits.

His explanation before pleading guilty:

He was taking the suits from a store so "I could examine them under natural light."

He ran from a woman store detective because she "resembled my estranged wife who had followed me here from Chicago."

Storms in New Mexico Sandblast License Plates

SANTA FE, N.M. (AP)—Motor Vehicle Commissioner Tony Luna says his office has received license plates from New Mexico motorists who complain that storms have sandblasted the plates, taking the paint off.

The results are shiny, metal sheets, the numerals almost unreadable.

Luna says replacements are free.

Teachers Strike in Second Day

Instructors Demanding Program of Counseling for Students

MADISON, Ill. (AP)—An unscheduled holiday was in its second day for 2,700 public school students today as their 75 teachers remained on strike in a dispute with the Board of Education.

A two-hour meeting between the five-man board and teachers' representatives ended in a deadlock last night.

The teachers, members of AFL Teachers Federation Local 763, refused to return to the classrooms unless the board reinstated a student counseling program. The board turned down that demand and then unsuccessfully offered to meet again with teacher representatives tomorrow night if the teachers would return to work today.

• • •

With the situation stalemated, Madison's public high school, junior high school and four grade schools apparently will remain closed indefinitely. No new meetings in the dispute have been scheduled.

Monday night the board voted to abolish the program headed by counselor Boris Bitcho, vice president of the Tri-Cities AFL Labor Council and an active participant in the Teachers' Union.

Tourists to See Castle

Want to see the castle where Snow White lived until the Wicked Queen sent her into the forest to meet the Seven Dwarfs? The castle of Sababurg in Reinhard's Forest, Germany, will soon be open to tourists. The 600-year-old castle set in a dense beech wood is the setting described in the famous fairy tale by Grimm. The area is north of Kessel, Germany.

United Press Photo

BLIND GIRL MAY SEE—Smiling Carole Jensen of Bridgman, (Mich) was born with cataracts behind her eyes and is unable to see. However, the eight-month-old tot has a good chance to see if an operation is performed soon, say doctors at University Hospital, Ann Arbor.

Many bears have a third eyelid which is transparent and can be used like sunglasses for protection against glare.

Avoid Causing Mishaps While Not in Your Car

NEW YORK (INS — You can cause an auto accident while you are miles away from your car.

Countless remote-control mishaps are the result of improper parking, according to Leonard M. Van Noppen, who supervises a fleet of cars driven 30 million miles a year by his company's field men. He offers these rules for safe parking:

1. Park your car where it can readily be seen by other drivers.

2. When you park parallel to the curb, be sure that neither the front nor the rear of your car projects into traffic.

3. If possible, do not park on heavily traveled streets when road conditions are slippery.

4. Leave enough space when you park for cars in front or back of you to get out easily. Failure to do this has resulted in many a crushed fender or torn bumper.

5. Don't park too near the corner.

6. Get out of the car at the curb side.

Do these things, says Van Noppen, and you'll return from your shopping trip to find an automobile and not an insurance claim.

Britons Cautioned About Hot Baths

LONDON (INS)—Better plumbing and hot baths can be dangerous.

This warning to Britain, where the plumbing is generally regarded as nearly the worst in the civilized world, is given in the London Medical magazine "Family Doctor."

Declaring that, "A bath before you go to bed and a cold shower in the morning is ideal," the magazine added the following warning:

'Baths that are too hot, taken too often, are a bad thing. They impair the general health, have an enervating effect, and do affect the sexual organs.

"It has been suggested quite seriously by certain authorities, that our declining fertility may be due partly to improved plumbing and heating and the ability and tendency of more people to take more hot baths. Therefore don't have your bath too hot and don't stay in longer than is necessary."

Lammergeyer Hits Bus

SALONIKA, Greece (INS) — A large lammergeyer (bearded vulture) with a 12 foot wingspread recently crashed into the windscreen of a bus on the Salonika-Katerina road, knocking out the driver and injuring two passengers before it was killed by the ticket-collector.

Hearty Firemen Prove Men of Their Word

AKRON, Ohio (AP) — Brave firemen of Minerva dedicated that village's new outdoor swimming pool in midwinter.

Before a cheering crowd, a dozen volunteer firemen discarded topcoats they had placed over their swim suits and took the icy plunge.

The thermometer read 32 degrees.

The volunteer fire fighters who built the 450,000 gallon circular pool during evenings and weekends had promised to dedicate the pool when it was completed.

First hard winter wheat to be planted in Kansas was brought from Russia by German Mennonites.

Most people find that their hearing is less keen immediately after meals.

Japan's Inland Sea has about 3,000 islands if the islets and jutting rocks are counted.

NERVE-GAS ARMOR — Jake Lehl of Derby, Colo., suited against deadly "G-gas," stands before a remote control panel in the Rocky Mountain Arsenal where the odorless, tasteless, and invisible 30-second killer is being manufactured. In a copyrighted article, the Rocky Mountain News quotes Maj. Gen. E. F. Bullene, chief of the Army Chemical Corps, as confirming its manufacture, and that it is the "most toxic chemical agent yet known."

Jail Visitor Allowed to Stay With Brother

PUEBLO, Colo. (AP)—Gilbert Garbiso of Camp Carson, Colo., serving a 90-day jail term on a traffic charge, had company yesterday—considerably more than either he or the company bargained for.

Garbiso's father Joe and brother Bernie appeared at Sheriff John Krutka's office and asked for a pass to visit the soldier. The pass was issued and then Krutka began thumbing through his files.

When father and son arrived at the jail, Bernie was particularly welcomed. He readily admitted he was Arthur Bernabe Garbiso—AWOL from Offutt Air Force Base, Omaha, Neb. He joined his brother behind bars to await military authorities.

Recent Births

Below are recent births reported to Pontiac City Health Department. The father's name is given for each child.

National Carpet Week

Materials in Modern Rugs Contain Variety of Fibers

Today's rug may include everything from coal and wood to flax, hemp and plain paper, as well as pure wool fiber.

Ten years ago, rugs were all wool and a room wide. Today wool shares the picture with chemical, cotton and other vegetable fibers. After heated efforts to prove that one fiber is better than another, everyone is now convinced that they are merely different from one another.

Used alone or blended with wool, the newcomers bring to carpeting clearer colors, new durability, unusual textures and greater soil resistance.

Chemical fibers made from coal and wood look and feel like wool. Rugs made from nylon, acetate or carpet rayon have the bright colors, unusual textures and moderate prices that are marks of the new fibers.

Blends of wool and chemical fibers are a variation of standard wool practice, share the qualities of both materials. To provide needed qualities, some synthetics are blended (like tobacco) with imported carpet wools.

Wool rugs have a high resilience and soil resistance, as well as their traditional soft luxury. Carved effects created by high and low pile have brought new richness to wool rugs—often create atmosphere for a room.

Cotton, an ambitious natural fiber, is a postwar newcomer in carpets. The modern look and moderate price of cotton rugs have made them popular favorites. Their shaggy surfaces give expensive decorator effects.

Daughter of Bus Driver Rides All Day With Dad

DALLAS (AP) — George Rose, whose wife works, has solved his baby sitting problem.

He takes his 5-year-old daughter Shirley Ann to work with him.

Rose drives a city bus. Shirley Ann loves it.

Forests are found 100 miles north of the Arctic circle.

Bible for Moslem People Is Coming Out in Dutch

THE HAGUE, Netherlands (AP) — For the first time in history the Koran, equivalent of the Bible for the Moslems, will be published in the Dutch language in the Netherlands. A prewar edition was published in the then Netherlands East Indies.

Jhulam Bashir, leader of the Moslem Mission in the Netherlands, says, "Dutch people like to question a great deal, but Islam gives the answers."

Dutch converts are allowed up to four wives, in principle, but it never occurs, Bashir says.

MRS. LUCILLE DENNISON

Birminghamite Joins UF Staff

Mrs. Lucille Dennison to Head Public Relations in Pontiac Area

Mrs. Lucille M. Dennison, of Birmingham, has joined the Pontiac Area United Fund's staff as public relations director, the United Fund announced today.

Dwight S. Adams, United Fund executive, said Mrs. Dennison will handle publicity and public relations for the United Fund and the Pontiac Community Chest.

She will handle releases for newspapers and radio, supervise live contacts such as films and speakers for clubs and organizations, and set up a central volunteer bureau.

Under the volunteer plan Mrs. Dennison will keep a file of the United Fund agencies' needs for volunteer help. Anyone who wants to serve as a volunteer can find out what help is needed by calling the United Fund offices in the National Building, at 10 W. Huron St.

A native of Toledo, Ohio, Mrs. Dennison was graduated from Smith College and the Cleveland School of Advertising. She has worked in advertising, promotion and the newspaper field.

A Birmingham resident for nine years, Mrs. Dennison makes her home at 1054 Forest with her husband, Calvin A., and two sons, Calvin Jr. (Andy), 19, and George, 16.

Actresses Employ Divorce Attorney

LOS ANGELES (AP)—Movie actresses Shelley Winters and Christiane Martel have asked lawyer Jerry Giesler to help them out of their respective domestic difficulties.

Miss Winters, who is making a movie in Rome with her estranged husband, actor Vittorio Gassman, cabled Geisler that Gassman has threatened to divorce her in Mexico before she can get a California decree.

Miss Martel, "Miss Universe" last year, was sued for annulment Monday in Stockton, Calif., by Ronnie Marengo, son of a wealthy family there, who said she deserted him to resume her screen career in Hollywood.

Miss Martel asked Giesler yesterday to file a cross-complaint, asking a divorce and that the case be transferred to Los Angeles. She has 30 days in which to reply to her husband's suit.

Ludwig van Beethoven, the composer was both nearsighted and very hard of hearing in his later years.

Notice of Intention to Construct Curb, Gutter, Drainage and Related Work on Rundell Street from Baldwin Avenue to Saginaw Street.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held on the 23rd day of March 1954 by resolution, it was declared to be the intention of the City Commission to construct curb gutter, drainage and related work on Rundell street from Baldwin Avenue to Saginaw Street at an estimated cost of $14,832.95 and that the plan, profile and estimate of said improvement is on file for public examination.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Rundell Street from Baldwin Avenue to Saginaw Street shall constitute the special assessment district to defray $7,121.09 of the estimated cost and expenses thereof and that $7,711.86 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

NOTICE IS HEREBY GIVEN

That the Commission of the City of Pontiac, Michigan will meet in the Municipal Court on the 30th day of March 1954 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

Happy Is The Day When Backache Goes Away . . . .

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

ARTHRITIS?

New ALPHA TABLETS with vitamin and mineral rich alfalfa provide same day relief for the pains and discomforts associated with arthritis and rheumatism as well as making for an improved condition. 100 ALPHA TABLETS for $2.49 at all Thrifty Drug Stores in Pontiac.

REHABILITATION FOR EDITOR — Rebecca Gross, editor of the Lock Haven, Pa., Express, who lost both legs in an auto accident, talks with Eddy Gilmore at the Kessler Institute for Rehabilitation at West Orange, N. J. Miss Gross is to be fitted with artificial legs and plans "to go back home and try to lead just as normal a life as possible."

Woman Loses Job, Starts Own Paper

STATESVILLE, N. C. (AP) — Mrs. Mary Hill Long, 60, worked for The Statesville Daily for 20 years. It was sold last spring, leaving Mrs. Long jobless. Using her savings only to buy stamps, she packed her typewriter in the back seat of her car and started publishing the weekly, four-page "County News."

The back seat serves as news room, office and mailing department. The paper is printed in nearby Mocksville.

"I'm not competing with anyone," she said, "I just felt there was a place for a newspaper of this type."

Her readers agreed. Now Mrs. Long, who has hired a business manager, plans to expand her newspaper on wheels.

Annual fur sales in the United States have reached half a billion dollars in some modern years, far larger than sales in the explorer-trader era.

Fights Jet Base Near Interlochen

Music Camp Director Protests to Ike About Air Force Plans

TRAVERSE CITY (UP) — Dr. Joseph E. Maddy, founder and director of National Music Camp at Interlochen near Traverse City, has sent a protest to President Eisenhower against the proposed establishment of an Air Force jet base here.

Dr. Maddy said in Amarillo, Tex., yesterday he will ask the government for $5,000,000 to finance removal of his music center if the Air Force sets up a jet base west of Long Lake on a site surveyed recently.

The site favored for the jet base is approximately four miles from Interlochen.

Sound of planes that would use the base "would ruin the music camp," Maddy said he told the President.

Chamber of Commerce officials here reported receipt of telegrams from Maddy about the jet base site. However, city, county and chamber officials said they consider the Long Lake site excellent both from the standpoint of national defense and welfare of the Grand Traverse area.

Maddy who recently met at Washington with members of Congress and Air Force officials, said he did not think Air Force generals were aware of the proximity of the music camp to the proposed jet base site.

Meantime, Frankfurt residents have invited Maddy to move the music camp to their locality.

Maddy, who is in Texas conducting music festivals for the University of Michigan, said he has not heard from the Frankfurt citizens but said, in case he has to move his camp, he would prefer a location in Benzie County, particularly the Crystal Lake area.

SMOOTH—Displaying a smooth white swimming suit, Thea Pagnello struts the form which won her the title as Italy's "Miss Fashion Model of 1954," in San Remo, Italy.

Petoskey Judge Waits for Williams on Senate

PETOSKEY (UP)—Circuit Judge Edward H. Fenlon said Wednesday that several Northern Michigan residents want him to run for U.S. senator on the Democratic ticket this fall.

The judge said that it all "depends on what Gov. Williams decides to do." Williams appointed the judge to his present post three years ago.

New Detroit School Named for Gompers

DETROIT (INS)—Detroit civic and labor dignitaries joined in ground-breaking ceremonies yesterday for the $675,000 Samuel Gompers School (at Patton and W. Davison) named after the founder of the American Federation of Labor.

The new elementary school, with a capacity of approximately 600 students, is expected to be open in time for the second semester in the next school year.

Guest speakers were Mayor Alfred E. Cobo, Detroit and Wayne County AFL President Frank X. Martel, Board of Education President Mrs. Jane Lovejoy and School Superintendent Arthur Dondineau.

State Lists Low Bids on County Paving Jobs

Low bids for two paving projects in Oakland County were announced today by the Michigan State Highway Department.

A low bid of $15,012 was submitted by A. & A. Asphalt Paving Co., Birmingham, for paving .8 of a mile on M59 from Elizabeth Lake road southeasterly and from Shoreview drive to Coleman street in Waterford Township.

Monroe Police to Use Radar Speed Device

MONROE (UP)—The Monroe Police Department has installed a radar net to trap speeding motorists.

Speed is electrically timed by a unit installed in a police car and it is capable of spotting speeds up to 250 feet away. The unit cost $690.

Williams Hopes TB Bill Passes

Measure Would Make Segregation Mandatory for Victims of Disease

ANN ARBOR (UP) — Gov. G. Mennen Williams told the third annual Conference of Public Officials and Health Officials Wednesday that he hopes the Michigan Senate will approve a once-defeated measure providing for compulsory segregation and treatment of tuberculosis victims.

The House-approved bill is scheduled for reconsideration in the Senate Monday night after the chamber split over the measure Tuesday.

Williams described the measure as a much-needed phase of an increased campaign to combat tuberculosis.

Williams told the conference that medical science has made great progress in treating victims of TB, but greater efforts are needed to locate cases and provide prompt care before inroads of the disease become fatal.

Auditor General John B. Martin also voiced support of the compulsory isolation measure and described as "absolutely essential" a program to bring active tuberculosis cases under treatment at the earliest possible moment.

Foresee Straits Opening

CLEVELAND (UP) — Coast Guard officers said today the ice-breaker Mackinaw would escort the tanker Comet through the Straits of Mackinac either tomorrow or Saturday, heralding the opening of the Great Lakes to shipping.

Pontiac's Streets in Bad Shape

Caracas Confab Nearing End

1 Committee Working on Diplomatic Asylum, Last on Agenda

CARACAS, Venezuela (AP) — The 20-nation Inter-American Conference, having hurdled thorny issues of communism, commerce and colonialism, moved today toward completion with a lone committee still trying to clear its agenda.

The Juridical-Political Committee began consideration of a revision and clarification of the principles of diplomatic and territorial asylum.

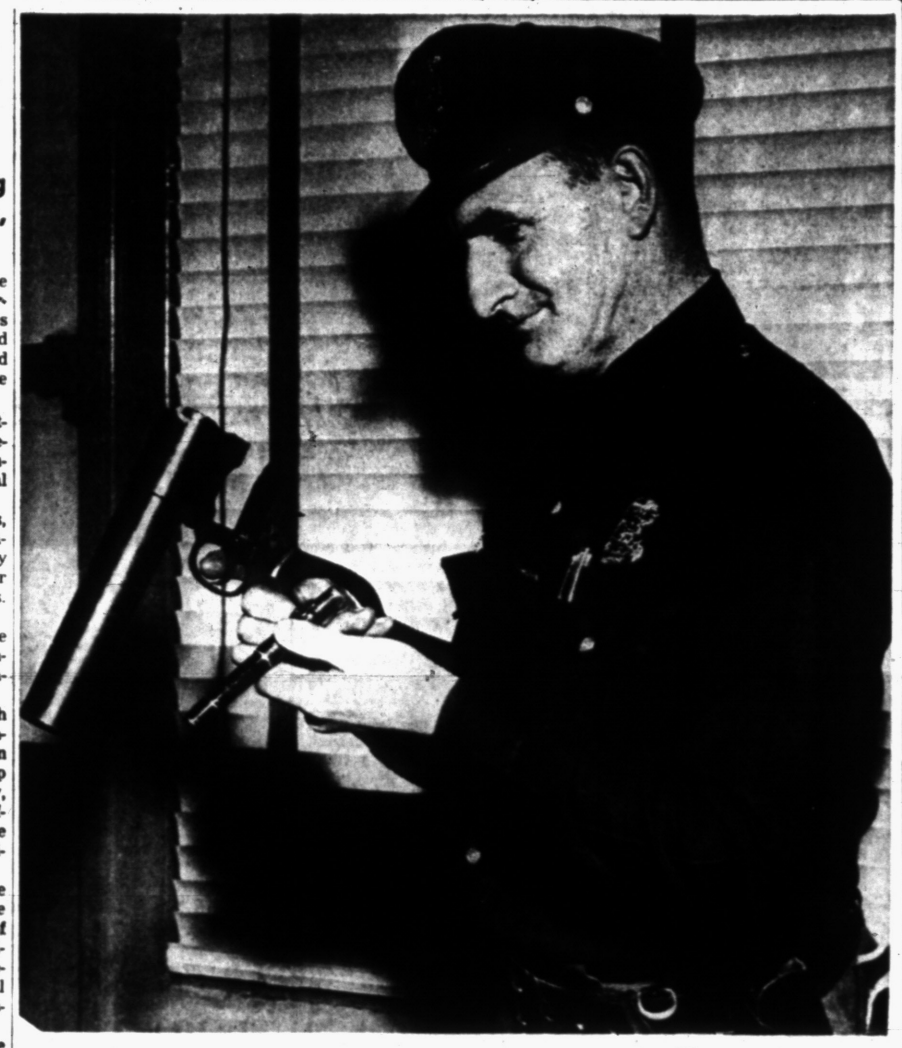
A declaration on human rights, expected to be called the Declaration of Caracas, was approved by the committee yesterday after lengthy and often stormy sessions. The resolution:

1. Reaffirmed adherence to the principle of human rights contained in American and United Nations declarations;

2. Reiterated the right of each state to "freely choose its own institutions . . . without intervention on the part of any state or group of states, directly or indirectly, in their domestic and external affairs and particularly without the intromission of any form of totalitarianism;" and

3. Renewed the conviction of the American states that "one of the most efficacious means of strengthening their domestic institutions consists in heightening respect for the individual and social rights of man, without any discrimination whatsoever."

Guatemala abstained from the otherwise unanimous vote after the committee rejected its amendment calling for guarantees for all "political or any other kinds of opinion."



PINT-SIZED TROUBLEMAKER—Holding a regular-sized tear gas gun for comparison, Patrolman Frank Stott, of the Sylvan Village Police Department, holds in his left hand a "fountain pen" tear gas gun which he always carries. While not capable of doing the job its bigger cousin can do, the little gun will clear people out of four adjoining rooms.

124 Miles Need Improvements

City Planner's Report Shows Only 77 Miles Listed as Adequate

Improvements are needed on 124 miles of Pontiac's streets, according to a report prepared by City Planner Henry C. Smith.

The report, assembled for the State Highway Department, says only 77 miles of city streets are all adequate.

According to Smith's report, the city has 54.06 miles of heavily traveled major streets. Of these, 26.28 miles are adequate.

The other 27.78 miles need various improvements, such as recapping, widening, or instiliation of curb, gutter and drainage.

Miles of different types of surfacing on major streets include: gravel, 2.47; oil, 2.40; blacktop, 3.83; concrete, 24.11, and recap, 21.25.

Only 50.76 miles of minor streets are adequate, Smith said, with 96.88 miles still needing improvements. Surfacing on minor streets by miles includes: gravel, 65.08; oil-mix, 33.94, blacktop, 39.25, concrete, 2.74 and recap, 5.63.

An additional 20 miles of road in Pontiac is federal and state trunkline and upkeep is paid for by these agencies.

Smith's report was requested by the Highway Department to allow determination of Pontiac's 1954 gas and weight tax return. The tax return is computed on the basis of miles of street and population.

Speech Fraternity Honors President

KALAMAZOO (AP) — President Eisenhower today was chosen by Tau Kappa Alpha, national honorary speech fraternity, as one of the top five speakers of 1953.

The President headed the list for speaking "most effectively, intelligently and responsibly" on significant questions in the field of national affairs.

Others slated for awards were George Meany, president of the American Federation of Labor, as speaker of the year for labor affairs; Bishop G. Bromley Oxnam, secretary of the council of bishops of the Methodist Church, religious affairs; Henry Ford II, Ford Motor Co. President, business and commerce; and Edward R. Murrow, Columbia Broadcasting System, educational, scientific and cultural affairs.

Dr. Wayne Eubank, University of New Mexico professor and national chairman of the fraternity who announced the choices, said the "Speaker of the Year" awards would be presented at a later date.

Homing Birds Count Off, Solve Big Pigeon Puzzle

ALAMEDA, Calif. (AP) — The purloined pigeons at first puzzled the police. One boy's 28 homing pigeons had been stolen. Another youth admitted the theft, but said his own 20 birds were all mixed with them.

Inspectors Jack Fink and Donald Hopper tossed them into the air, one at a time. Twenty-eight flew to one cote, 20 to the other.

City of Midland Meets Post-War Expansion Problems

(Editor's note: Reporter John Nauer of the Midland Daily News wrote the following story—seventh in an Associated Press series on accomplishments and problems of Michigan cities since the end of World War II.

By JOHN NAUER
Midland Daily News Reporter

MIDLAND (AP) — Midland, known for chemistry and churches, has expanded in both since 1945. Also, it is 15 square miles bigger—now the fifth largest city area in Michigan.

The Dow Chemical Co. has expanded more than six-fold, and seven new churches, each unique architecturally, have been built.

Another Midland industry, Dow Corning Corp., a sturdy youngster of 10 industrial years, is now the largest of its kind in the silicone field.

Midland's growth since World War II also is reflected in an expanding population, new school plans, 1,392 new homes, and a new water supply.

In 1945, Midland's population was about 16,500. Now it is 21,065.

Midland's second largest industry is the Dow Corning Corp., an associate company owned jointly by Dow and the Corning Glass Works of Corning, N. Y. Since 1945, the company has embarked on a $17 million expansion program. It is still continuing.

Most significant is construction of the world's largest plant for producing the head and cold resistant rubber, "Silastic." Dow Corning had 150 employes after the war. Today there are 950.

In an election last June 2, Midland stretched its corporate limits to 23.42 square miles. This is almost three times larger than the 8.62 before annexation. Detroit, Flint, Livonia and Dearborn, in that order, are the only four Michigan cities larger than Midland in area.

With an expanding school district population, Midlanders twice since the war's end have answered a challenge. In 1948, they approved a $1,500,000 school bond issue. This year a $4,700,000 issue won approval on Jan. 12. The bonds will be paid off on $10 per $1,000 assessment, covering a five-year period.

One of the most ambitious projects in the postwar period was the construction of the $12 million Saginaw-Midland water pipeline. This serves both cities from Whitestone Point, Lake Huron.

It marked the first instance where two Michigan cities developed a water supply system. A proposed $700,000 third pumping station is now in the offing.

Most every year since 1945 has been marked by a substantial increase in commercial and home building. In 1953, total construction costs hit an all-time high of $4,062,281.

Last year was the fourth consecutive year that home building topped the $2 million mark. Since 1945, Midland has built 1,392 new homes.

When the last chapter of postwar Midland is written, another title could be added—the "City of Tomorrow."

MIDLAND CHEMICAL PLANT—This is the Dow Chemical Company's recently completed vinyl-toluene plant at Midland. It is one of the many production units constructed in the more than 100 million dollar postwar expansion program of the Dow Midland division.

Radioactive Ash From Russian A-Tests Reported Falling on Japanese Islands

TOKYO (AP)—A Socialist Diet member said today atomic particles are falling on Japan from Russian A-bomb tests near the Arctic Circle.

Shigeyoshi Matsumae, an engineer, said his information was "gleaned from American military quarters." He refused to elaborate.

The U. S. Far East Command had no comment.

Matsumae's statement to newsmen followed release of a report yesterday by the right-wing Socialist party, of which he is a member. The Socialists are pushing a resolution in the Diet calling on the U. N. to ban atomic weapons and urging international control of atomic energy.

The report said small quantities of radioactive ash fall on Japan about three times every two weeks from Russian explosions in Siberia.

"The United States has confirmed through these ashes that Russia possesses atomic bombs," the report said. "The ashes take three days to reach Japan and take one week to circle the globe."

Government weather forecaster Hiroshi Ito told Kyodo news service Russian atomic particles could fall in Japan. He said prevailing winds are westerly throughout the year.

The report of Russian tests stirred anew the controversy over radiation burns suffered by 23 Japanese fishermen who were too close to a U. S. hydrogen blast at Bikini March 1.

Developments included:

1. A joint Japan-American group continued work on treatment of the fishermen, all of whom were reported better today by Dr. Masao Tsuzuki.

2. American Ambassador John M. Allison notified the Foreign Office the United States is ready to pay for medical care and relief of the families of the 23 fishermen. This follows a statement by Chairman W. Sterling Cole (R-NY) of the Joint Congressional Atomic Energy Committee that the United States will make no commitment to pay damages until responsibility is determined.

3. Japan asked the United States for an explosion timetable on future Marshall Island tests because the placing of danger signs around the zone is not enough, Kyodo declared.

4. Foreign Minister Okazaki said the police have been warned to be on the lookout for "certain persons"—Communists—trying to buy or steal radioactive samples from the Lucky Dragon—the fishing boat showered with radioactive ash near Bikini.

FIGHTS DEPORTATION—Singer Dick Haymes (left) is shown leaving a plane at Washington National Airport after a flight from New York. Haymes said he made the flight to press his fight against deportation to his native Argentina. With him is his lawyer, Bartley Crum.

AP Wirephoto

GAS TURBINE AUTO ENGINE—A gas turbine engine is being shown installed into a Plymouth passenger car under the direction of George J. Huebner Jr. (right), research engineer for Chrysler Corp. Company officials say the long-standing turbine problem of high fuel consumption has been solved in test runs showing economy comparable to piston engines. Chrysler says this engine is equivalent to a 160-horsepower piston engine.

Our Acts Must Be Judged by Amount of Love in 'em

By LORETTA YOUNG
Motion Picture Star

Every once in a while when you greet a friend casually, and expect a conventional reply, you catch the truth instead.

It happened to me recently when I recognized on my motion picture set a man I hadn't seen for a long time.

I said, "We've missed seeing you around. How've you been?"

Loretta Young

"Well, I'm fine now," he replied; then after a moment's hesitation he blurted out, "but last year I died."

Dick Williams meant to be believed. "You may think it's a fantastic story," he said. "But I can prove every word of it."

Up to a point it wasn't fantastic at all. If anything, too heartbreakingly usual. What had once been simply an enthusiastic taste for stong drink became an obsession with Dick. He also had a malicious contempt for anyone with a dark skin.

Frankly, he admitted he had done nothing to curb his intemperance nor his intolerance until, at last, as he put it: "My life deteriorated into common drunkenness. My wife left me. No dough. No job, and I was running out of friends . . . the way you do."

One couple who stuck by him, who realized how grim things had become, offered him their house as shelter while they were away on vacation. It was in that house that Dick "died."

When his friends returned, they found him cold on the floor, and a physician made the official pronouncement.

Dick had caught pneumonia there alone; his head too fuzzy, his body too weak, even to know it. So that seemed to be the end of his life story.

But at the mortuary a new undertaker was entrusted with the job of preparing him for a poor man's funeral. Dick laughed, "Lucky for me he was a beginner. When it came to the embalming fluid, he got scared and went to get a more experienced man to watch him. When they came back, my eyes were moving."

His next stop was the "dead room" of a large hospital, the place where hopeless cases await the end. But once again the end didn't come.

The doctors, convinced now that something might yet be done, decided on a complicated method of administering oxygen.

They made a frantic search for three nurses to undertake the constant care. Among the already overburdened staff there simply were not three available for that steady vigil. Now, at the twelfth hour, it looked as though Dick Williams' luck was out.

It was the Motion Picture Relief Assn., that finally located the nurses and, said Dick, "It was those three women who not only saved, but renewed, my life."

His first conscious impression was of an ebony face bending close to his own. For 50 long hours those Negro nurses worked tirelessly, patiently, lovingly, to give him back his life. And, in the end, Dick said, "If they were out of my sight, I felt lost, insecure, I cried for them.

"In my rebirth I didn't just learn tolerance. I learned real, honest, brotherly love."

Dick found a job, a very humble job, when he was well enough. He had an objective. He wanted to buy each of those women a watch, the fancy kind with second hands and things that nurses dote on.

Today they have their watches but, said Dick, "I doubt if they'll ever know what they really did for me."

Dick truly began to be "born again," as we are each told we must be.

"I don't drink anymore. I'm working. When I make a friend, any friend, I'm grateful. I think I'm the luckiest guy alive," he said.

"I find myself doing what, for the old me, would have been the oddest things. For example, wandering into churches, any church that's open, at odd hours of the day and night. Sometimes I pray. Sometimes I just sit quiet and feel the peace of it."

The glow of light that lingered with me was not beamed from the story of his remarkable physical recovery. It was, instead, the idea that love had set him free. Really free.

Suppose those nurses had done their work grudgingly? Or simply dutifully? Would that have wrought the "miracle?" Somehow Dick Williams didn't think so . . . and neither do I.

Probably they felt they had done a small thing, something in the line of duty. Yet here their goodness was, like a shining pebble dropped in a big pond, sending forth ever widening ripples.

It made me realize that our acts must be measured by how lovingly we do them.

Recently I realized, much to my surprise, for I have been doing it unconsciously, that every night just before I go to sleep I repeat the same little prayer of my childhood, with my same childhood faith and trust. Me, a grown-up woman, a Hollywood actress, a mother, a wife, saying just before I closed my eyes, "And please, dear God, make me a good girl."

Momentarily I was upset. One reads so much of complexes these days that simplicity is regarded as suspect. Could I be trying, subconsciously, to escape the responsibility for carrying an adult burden in an adult world? So I checked with my mother.

"Mother," I asked. "Is there any special prayer that you say every night before you go to sleep?"

My mother, a wise servant of God, serving Him so faithfully and well for so many years, thought a minute and then said, "Yes, there is. I say, 'Give me a happy death and please, dear God, make me a good girl.'"

In the simplicity of that prayer, in that childlike attitude of the heart, lie, I am convinced, some of our biggest answers.

Tomorrow—Faith Baldwin tells how she discovered she was too busy to live.

(Copyright, 1954)

Clerk at Least Knows Where to File Report

DENVER (AP)—Herbert H. Edwards, a clerk in the police auto theft bureau, phoned his supervisor last night to say he'd be late for work on the midnight shift.

The reason: Somebody stole his car.

Evangelist in Plane Delivers Sermons

MCKEESPORT, Pa. (AP)—Police Chief James Lizes says he is getting complaints that the Rev. Kirk Wetzel, an evangelist, is disturbing the peace by flying over town and broadcasting sermons and hymns every afternoon from his plane.

The chief doesn't know whether he has the right to charge the minister with disturbing the peace. "Maybe I'll ask him to cooperate," he says.

Wetzel, who has been a licensed pilot since 1931, said:

"I'll try to be reasonable but I can't stop my work. I really question if I disturb anyone at that hour anyhow."

Although the bountiful domesticated cow, Bos taurus' is the foremost source of milk in Western lands, she has strong competition in other regions from the camel, yak, water buffalo, ewe, goat and reindeer.

Transit Officials Boost Buses for Everyone Else

DETROIT (AP)—The nation's public transit officials agreed today that buses and streetcars are fine—for the other fellow.

An inquiring reporter at the American Transit Assn.'s convention sounded them out whether they rode their own public transportation regularly. Privately, they said no.

"Frankly," said one, "I just have to get around too fast."

The 300 delegates decided that an intensive selling campaign on the virtues of public transportation was needed to boost patronage.

Women Neglect Gloves

NEW YORK (UP)—Gloves are the most neglected item in the average woman's wardrobe, the Leather Industries of America reports. It says a survey shows 88 per cent of the women queried owned only one pair of good gloves seven single gloves—the mates lost—and three pairs in disrepair.

Hal Boyle Says:

Mom of Teen Youngsters Can Only Cry 'Oh Agony'

NEW YORK (AP)—If there is anything more puzzling than being a teen-ager, it is the problem of being a teen-ager's father.

You can't even solve this one by mail. The correspondence schools duck the subject, although they can teach you to understand a jet engine and other simple toys of the time.

But today we bring you a plain rule of thumb way to let Dad feel he at least dwells on the same planet as his teen-age kids:

* * *

"Since you can't whip 'em, why not join 'em?"

* * *

This advice comes from Lester Rand, at 28 a retired teen-ager himself, but one who has kept in touch with the field. He is president of the Youth Research Institute.

The organizaton makes business surveys for firms selling youth products. It has a staff of 1,800 youngsters scattered over the nation who trudge about asking other youngsters such questions as, "Junior, what are your buying habits? Why not give this new brand of bubble gum a 30-day test and see if you don't really find it easier on your jaws than the brand you are now using?"

* * *

Rand, a specialist in the 5-to-25 age bracket, said it takes a strong man to be the father of present-day teen-agers, and added, "even the strong will find it a trying period."

But he went on to say that it is a lot tougher to be a teen-ager now than it was when Dad was a boy, and the way for Dad to meet the situation is to climb out of his rut and "get into the groove" with his kids.

"Look ypung!" said Rand. "Anyone over 21 looks ancient to a teen-ager. Many fathers of teen-agers, of course, can't help looking older than they actually are, but they ought to keep a young attitude.

"Instead of acting shocked at the things your teen-age boy or girl may do, just play along as if you thought it were normal. In that way you're acceptable. You're one of the crowd. That can make up for a lot of your parental shortcomings.

"Dress youthful. Get out of that old business suit when you come home and slide into a pair of slacks and a sweater or sport shirt. Look like a high school kid yourself.

* * *

"Know the latest dances. Forget about the waltz. Don't even say the word out loud.

"Keep up a few teen-age fads and approve of them heartily, no matter how ridiculous they seem.

"Otherwise you'll be tabbed 'square,' and that means you're 'kind've not too goodish,' or bad. But don't try to learn too much teen-age talk. Kids resent your intruding on their privacy."

Everything clear now, Dad? To understand your teen-age boy you just become one yourself. This gets the problem off your shoulder, but leaves mother the task of dealing with two teen-agers in the family, one new and one second hand.

Her clue then is to cry, "Oh pain, oh agony." That's teen-talk for: "Things aren't going so good."

Bootleg Joke Backfires

MUSKOGEE, Okla. (UP)—City Manager Clay Harrell wasn't happy when four different bootleggers showed up at his home, each delivering a bottle of whisky. An anonymous joker had phoned in the orders, Harrell called the chief of police and started raids that netted $4,000 worth of contraband liquor.

Company Stops Tuna Imports From Japanese

SAN PEDRO, Calif. (AP)—The Van Camp Sea Food Co. says it will buy no more Japanese tuna until assured that it is radiation-free.

The company also announced yesterday that it has canceled an order for 200 tons of the fish from Japanese waters. Government officials are checking all shipments of tuna to American ports, and so far none of the tuna received is believed to have been near the area of the recent nuclear test explosions, said Gilbert Van Camp Sr.

The United States drinks about 115 billion cups of coffee a year.

Has Gem-Quality Titanite

BROKEN HILLS, Australia (UP)—Two good specimens of gem-quality titanite or "sphene" have been found here, center of Australia's lead mining industry. Although common as a mineral in many parts of the world, up to this time most gem-quality titanite has been found in the Swiss-Austrian Alps.

About 3½ million acres in Georgia are devoted to pasture.

Cash---Not Sense of Style Needed by 'Best Dressed'

By LAURA Z. HOBSON
By International News Service

Any woman on a budget who doesn't blow her top at the various lists of "best dressed women" should have that top examined.

For the lists always imply it's just an inborn sense of style or fashion instinct that sets the winners apart from the likes of you and me.

A bigger piece of nonsense never went unchallenged, and fellow females, I'm the one to challenge it right now.

For America's undisputed title of having "the best dressed women in the world" never was earned by any handful of women in custom-made evening dresses at $500 and up.

There's a little handful of such women in France, England, Italy, Spain, Brazil—just about every country on earth. And not one of those countries ever won the title.

Words like budget and homemade, of course, are little aliens in the vocabularies of the people who compile those lists of "best dresseds."

The newest such list, just announced by the Fashion Academy, named fifteen winners in fifteen separate "fields of women's endeavor."

For the most part, the "endeavor" was being a duchess or a queen of the silver screen, a theater or TV star, a millionaire's wife—and other such tough assignments.

It takes cash, cash and more cash to get the gowns and furs and jewels and accessories that put you in the running for these halls of fashion fame.

This was denied a year ago by a lovely lady who appeared on six different lists in one year.

"Gracious," she said. "All I ever wear are my two suits."

One suit was made in London by Norman Hartnell who dresses Queen Elizabeth and Princess Margaret Rose, the other was a little $900 number exclusively designed by Dior or Jacques Fath in Paris.

With one of the suits the lady wore a simple ruby and diamond clip worth four square blocks of Chicago lakefront property.

With the other she wore matched pearls and earrings worth the Taj Mahal.

What I'd like to see in this country is a brand new list of a few girls and women who knock you dead on main street in a dress for $29.50.

Such lists would be bigger than a telephone directory, but they'd sure give you the run-down of the real owners of that "inborn sense of style."

The duchesses and queens could be in there too — but in a special section called "inborn checkbooks."

Great Grandma Rides Alone Miles and Miles

SANTA BARBARA, Calif. (AP) — Great-grandma Pearl H. Doremus, 79-years-young, of Mountain Lakes, N. J., has finished another cross-country automobile trip. She said this jaunt, made solo from New Jersey to Santa Barbara raised her 40-year motoring log to 800,000 miles.

Petite and perky Mrs. Doremus came to visit her son at nearby Goleta. But this trip of 3,000 miles was just routine. In 1922, she drove from the Jersey coast to the Dakota Territory, got lost in the woods, drove on until she reached the West coast. Then she turned around and drove home.

Her 1929 "voyage" by car was 16,000 miles long—New York to Canada, west to the Pacific, south to Mexico, east to New York—via New Orleans and Miami.

A well remembered jaunt was the one from Laredo, Tex. to Mexico City. On that trip she said she forded rivers, navigated along "more imagined than real" mountain roads.

Her next excursion—back to New York via Florida. . . unless she first skips up to Juneau on the Alaska-Canada Highway.

Schools Ought to Play Larger Community Role

CHICAGO (UP)—Dr. John T. Rettaliata, president of Illinois Institute of Technology, says it is necessary for educational institutions to achieve more intimate contact with their communities.

"In this day," he said, "the fruits of the tremendous intellectual capacity present in our universities should no longer be limited to the classroom.

"They should be made available to society, because society's need for them is very great."

Rettaliata said "the ivory tower must become a hall in which the most practical problems are investigated."

WILLIAM W. DONALDSON

EARL J. SMITH

For City Commissioner

Candidates for District 3 State Beliefs on 4 Issues

Below are brief biographical sketches and statements of the two Pontiac City Commission candidates in District 3.

Each candidate was invited by the Pontiac Press to give his views on four questions. The questions were: (1) Should the city increase the number of liquor-by-the-glass licenses? (2) Should the city continue its program to provide municipal off-street parking lots? Is it desirable to expand the hospital and increase capital improvement funds as outlined in the two tax proposals facing voters in the April election? (4) Should the city change to voting machines in an effort to reduce costs and speed election returns?

Neither candidate now holds office, and the present commissioner, Paul A. Kern, is not seeking re-election.

Formerly a city commissioner from 1944-48, William W. Donaldson, 48, resides at 153 W. Lawrence St. He served as mayor protem both terms.

A native of Pontiac, Donaldson graduated from the University of Colorado. He has operated an insurance agency here for the past five years.

Donaldson is president of the Pontiac Foundation and a member of the Pontiac Assn. of Insurance Agents, Kiwanis Club, Masonic Lodge, Elks, Pontiac City Club, Chamber of Commerce and First Presbyterian Church. He is married, with two children.

A candidate for commission in District 3, his statement follows:

"1. To . . . my knowledge there are sufficient liquor-by-the-glass establishments in Pontiac. It should be the duty of the city commission to insist that each licensee maintain high standards . . . or forfeit his license to an applicant who will.

"2. A very important problem facing this city . . . is providing off-street parking areas . . . to fully utilize the streets themselves for . . . movement of traffic. Private parking lots have done part of the job, but it remains for the city to meet . . . needs of the short-term parker with convenient facilities at a reasonable fee.

"Municipal ownership of such lots is also necessary . . . to assure their continued use . . ., otherwise they may be purchased and built upon, which would further complicate the parking situation. Planned parking and traffic control has become a public utility. . .

"3. It is not only desirable but necessary that voters approve the two tax proposals. . .

"Expansion of our General Hospital through a hospital authority has been investigated and abandoned because, while it would force non-city participants to pay their share, our cost would increase and we would lose control of our hospital.

"The proposed plan allows us to retain control and yet force non-city patients to pay their share through a surcharge on services.

"The other proposal would allow a gradual and planned program of capital improvements . . . so that over a period of years we could have needed grade separations, a city library, improved fire and police facilities, and eventually a civic auditorium all on a pay-as-you-go basis, and without raising taxes. . .

"Unfortunately a few self-interested people are spreading rumors and half-truths in order to hinder the safe and sane progress. Pontiac is on the march and the motives of anyone who would throw up a road-block should be thoroughly questioned.

"Mr. Average Citizen has absolutely nothing to fear—Pontiac's present low tax rate is not going to go up.

"4. The purchase of voting machines would be very desirable providing the millage proposal is approved by the voters."

A Pontiac resident for over 25 years, Earl J. Smith, 31, lives at 138 W. Lawrence St. He is a co-owner of the Brace Funeral Home.

A World War II veteran, Smith graduated from Pontiac High School and Wayne University.

Smith is a member of the Pontiac Lions Club, Chamber of Commerce and Junior Chamber of Commerce. He is married and has four children.

A candidate for commission in District 3, his statement follows:

"1. I am strictly opposed to more hard liquor licenses. Ten more are available. I shall fight against any increase for all I'm worth.

"2. Pontiac shoppers need close-in, short-term parking. I favor preserving our downtown shopping centers. They pay a big tax return. If private enterprise fails to furnish this, I'll favor a self-liquidating, short-term parking program.

"3. A 2½-mill tax is unnecessary and positively dangerous with no time limit. I cannot approve a blank check proposal. Perhaps it's fine for politicians, but the start of another scavenger sale for the citizens.

"Our present 10-mill rate has given us surplus money. Our present cash surplus exceeds good tax policy. Over $1,179,500 in cash on hand is actual surplus, not counting a cent of city hall money. . .

"Two-and-a-half mills extra tax is reckless assessment on our properties and means another debt of over 14 million dollars in 30 years. Too much money breeds extravagance. Remember the Dawson Mill Pond?

"4. Voting machines may be all right — our present policy seems adequate. I would like to see a new library, fire and police buildings and other improvements first, however.

"I've tried to be frank and not evade the issues. . ."

Chick-Slaughter Charge

NEW LONDON, Conn. (AP) — An automobile knocked down a utility pole near Jack Freedman's farm, plunging his poultry house into darkness. Freedman has filed a $1,000 suit against the driver. He charged that when the lights went out, his chickens became so scared tthat they huddled together in a corner and suffocated.

Quarterly Lists Election Issues

Sees Farm Problems, Taxes, Foreign Policy Among Items

WASHINGTON — What are the "smash" issues in the 1954 election?

Republican leaders claim the campaign will revolve around the President's "progressive and dynamic" program.

The Democrats top command says the major issues will be pointed up by "failure of the GOP Congress" to enact the President's program, and by the current recession and unemployment.

The Democrats claim that the nation now is in the throes of a recession because of the administration's earlier "hard money" policy. They favor "pump-priming" methods such as a big public works program and more relief to small taxpayers. Republicans hold the nation is now in a readjustment period following the "phony prosperity" which attended the "Truman" (or Korean) war. The continued high cost of living pinpoints these issues for the average voter.

The farm issue is a big one with the Democrats. Nearly all oppose the flexible price support program of Secretary of Agriculture Ezra Taft Benson, favor the present rigid high support program now in effect. Among other farm problems in controversy are the anticipated drop in butter price supports, lower livestock prices, and farm surpluses.

Republicans say that they have fulfilled their campaign promises to cut taxes, cut government costs, and have made progress toward balancing the budget. Democrats say the Republicans are putting into practice a "trickle down theory" of granting tax concessions to industry so that some benefits will ultimately filter through to small taxpayers. Democrats favor more tax cuts for low incomes; the Eisenhower Administration opposes any further cuts.

Republicans feel that they have two very popular foreign policy issues in the end of the Korean war and the President's proposal to use atomic energy for peacetime purposes throughout the world. Democrats have attacked the Administration handling of the Indo-China conflict and other foreign policy problems.

Tied in with foreign policy is the "new look" in the nation's defense program. The GOP claims it will provide more defense for less money by building up the number of long-range bombers and being prepared to use atomic weapons while cutting down the size of the Army. Democrats claim the "new look" fails to provide the answer to border wars and that the 1953 cut in funds was an attempt to "wreck the Air Force."

Republicans claim that by conducting government in a business-like way they have gone a long way toward "cleaning up the mess in Washington." Democrats counter that the Administration is dedicated to the interests of "big business" at the expense of the small businessman.

Republicans have accused Democrats of "coddling Communists" while Democrats claim Republicans have condoned "McCarthyism."

Labor unions have been critical of the President's proposals to amend the Taft-Hartley labor law, particularly his plan to conduct strike ballots under federal auspices. They feel the Administration has a "pro-business bias" in its various stands on labor issues.

(Copyright 1954, Congressional Quarterly)

About 73 per cent of U. S. widows live in urban areas compared with about 70 per cent of single women and 66 per cent of married women.

GEN. PATRICK RYAN

Nominated to be Chief of Chaplains of the Army with the rank of major general is Chaplain Patrick James Ryan. In the Army 27 years, he saw action in the Mediterranean area during World War II. General Ryan will succeed Maj.-Gen. Ivan L. Bennett, retiring in April.

Classes Slated for Night School

Subjects Ranging From Dressmaking to Shop to Be Taught at PHS

Pontiac Public Schools will start a new series of night school classes in subjects ranging from dressmaking to machine shop next week.

Adults can register for the 10 sessions of any class at its first meeting. All classes meet in Pontiac High School.

Classes starting Wednesday at 7 p. m. are shorthand and tailoring and dressmaking. Classes in accounting, bookkeeping, comptometer work, office machines and typing will meet from 7 to 10 p. m. on Thursdays starting April 1.

Vocational classes starting April 1 include auto tune-up, shop math, blueprint reading, tool and die design, drafting, sheet metal layout, electrical maintenance, machine shop and welding. These classes will meet from 6 until 10 p. m. Thursdays for 10 weeks.

Clothing classes will meet Mondays from 7 until 10 p. m. starting April 5. Citizenship classes meet continuously Monday and Wednesday nights at 7:30; Americanization classes, Thursdays at 7:30; and driver training classes Mondays and Thursdays from 4 until 6 p. m.

Detroiter Found Guilty Here of Carrying Heroin

Flyd Hudson, 30, of 931 Alger, Detroit, yesterday was found guilty of possession of narcotics by an Oakland County Circuit Court jury.

Judge H. Russel Holland ordered Hudson returned to Oakland County Jail pending sentence April 5. First Assistant Prosecutor Robert D. Long said Hudson was arrested Dec. 8, 1953 in Pontiac and charged with carrying heroin.

Knowland Will Speak

GRAND RAPIDS (AP) — California's Sen. William F. Knowland, Republican Senate leader, will be chief speaker at a dinner in the civic auditorium here April 19 honoring Sen. Homer Ferguson, chairman of the Republican policy committee of the Senate.

Notice of Intention to Construct Curb, Gutter, Drainage and Related Work on Wisner Street from Cass Avenue to Short Street.

You are hereby notified that at a regular meeting of the Commission of the City of Pontiac, Michigan held on the 23rd day of March 1954 by resolution, it was declared to be the intention of the City Commission to construct curb, gutter, drainage and related work on Wisner street from Cass Avenue to Short Street at an estimated cost of $2,116.68 and that the plan, profile and estimate of said improvement is on file for public examination.

It is further intended to construct said improvement in accordance with the plan, profile and estimate, and that the cost thereof shall be defrayed by special assessment according to frontage and that all of the lots and parcels of land fronting upon either side of Wisner Street from Cass Avenue to Short Street shall constitute the special assessment district to defray $1,134.70 of the estimated cost and expenses thereof and that $981.90 of the estimated cost and expenses thereof shall be paid from the Capital Improvement Fund.

NOTICE IS HEREBY GIVEN

That the Commission of the City of Pontiac, Michigan, will meet in the Municipal Court on the 30th day of March 1954 at 8 o'clock p.m. to hear suggestions and objections that may be made by parties interested.

Jewelry Dept. — Main Floor

Oriel Endelman (right), executive secretary of the Michigan Children's Aid Society, helps Opti-Mrs. Club members Mrs. Roy Lewis of Elizabeth Lake road (left) and Mrs. C. M. Shelton of Third avenue with gifts for the society.

Opti-Mrs. Is Devoted to Service

For several years the Pontiac Opti-Mrs. Club has directed most of its attention to assisting the Michigan Children's Aid Society. The purchase of new clothing and the collection, laundering and mending of outgrown garments, is all a part of this project.

Opti-Mrs. Club was organized so that the wives of the Optimist Club members could become better acquainted with the service club program and with each other.

It all began when eight women, unknown to each other, met and organized. Soon more wives became interested and the group grew in size and enthusiasm.

The early programs were given over to learning more about the community. Directors of various social agencies spoke to the group, kindling its desire to become a second service group rather than just a social auxiliary.

Through the years the women have also contributed a great deal to the women's department of the Oakland County Infirmary, not only with gifts, but also with personal visits and rememberances.

Glamour Helper Is Discovered at Toy Counter

Glamor is where you find it and one very well-groomed woman we know found part of hers at a toy counter.

This woman, like so many of us, finds that she frequently has to catch a wisp of hair here and there with a bobby pin.

But bobby pins, everyone will agree, should not show for daytime wear. In some instances, barretts might solve the problem, provided one likes barretts.

With the advent of dolls with curable hair, our friend realized her problem was solved. We think her solution should work for a lot of you who have hair that needs bobby pins to keep it in place.

She uses dolls' bobby pins.

These little pins work as well as the regular size and they do their job behind the scenes, leaving the line of your hairdo undisturbed. No one can notice that your hair is pinned in place.

You'll probably find that they are just the thing you've been looking for at cosmetic counters.

Marks 6th Birthday

Timmie Brooks was entertained at his home in Highland Heights Saturday with a party celebrating his sixth birthday. Hosts for the party were his parents, the Lester Brooks.

Coming Events

Navy Mothers Club 386 will meet at the Naval Training Center Thursday evening at 7:30.

Pontiac Rebekah Lodge 480 Sewing Circle will gather with Mrs. Mary Kline, 3685 Woodbine Dr., Friday at 11 a.m. for a schoolgirl luncheon and meeting.

White Shrine Conducts Installation Ceremonies

Installed as worthy high priestess of Pontiac White Shrine Wednesday evening was Mrs. Victor Bodamer.

The installation ceremony was held at Roosevelt Temple, and distinguished guests present were Mrs. Arthur Reek of Flint, Mrs. Lawrence Larsen of Flint, Mrs. Jesse Looper of Highland Park, Mrs. Richard Streicker of Royal Oak, Mrs. May Cole of Flint, Mrs. Don Thompson of Royal Oak and Mrs. J. M. Lewis of Dearborn.

Others installed include Chris T. Jorgensen, watchman of shepherds; Mrs. Nita Payne, noble prophetess; Wayne Scott, associate watchman of shepherds; Mrs. Bessie Howell, worthy scribe; Mrs. Earle Hoskins, worthy treasurer; Mrs. Russell Marion, worthy chaplain, and Mrs. Kathryn Quick, worthy shepherdess.

Mrs. Scott is worthy guide; Mrs. Alfred Martini, worthy herald; Miles Frusher, first wiseman; Russell Marion, second wiseman; Clifford Mossey, third wiseman; William Cousins, king, and Mrs. William Isaacson, queen.

First, second and third handmaids are Mrs. Gladys Holliman, Mrs. Harley Bowers and Mrs. Lucille Gries. Mrs. Meta McIlroy is the worthy organist; Mrs. Pierre Shaver, worthy guardian, and Mrs. Myrtle Kath, worthy guard.

Mrs. Finley Fulkerson is matron of honor; Mrs. Robert Snyder, courier; Mrs. Loy White, flower girl; Mrs. Walter Rickens, Madonna; Arthur Sharp, Joseph, and Mrs. Floyd Nelsey and Mr. Frusher, soloists.

Attending the queen are Mrs. Howard Cooley, Mrs. Robert Jackson, Mrs. William Harrison, Mrs. A. Murray White, Mrs. Bert Denham, Mrs. Ernest Taylor, Mrs. Floyd Pickering and Mrs. Lloyd Ruple.

The king's guard consists of Mr. Shaver, Harry Taylor, Charles Jones, Wilford Fleming, Mr. Harrison, Mr. White, Roy Conrad, Mr. Nelsey, Edward Pritchard and Walter Rickens.

Installing the new officers were Mrs. Florence Wallace, Mrs. Howard George, Mrs. Davy Gilpin, Charles Jones, Mrs. Bernice Cover, Mrs. Jones, Mrs. Gay McInally, Mrs. Olive Burgess, Mrs. John Balch, William Hilderly and Sam Mahair.

Other distinguished guests present for the ceremony were Mrs. Charles Merrill of Detroit, Mrs. Clair Whitsitt of Port Huron, Mrs. George Lentz and Jack Brown, both of Saginaw; Mrs. George Coulter of Windsor, Mrs. Joseph Moody of Farmington, Mrs. Grace Welch of Highland Park, Mrs. Bryan Chester of Howell and Mrs. Arthur Augustine and Wallace Morgan.

MRS. VICTOR BODAMER

Moth Damage High in Winter Months

Many homemakers do not realize this, but moths are fully as active in the winter months as they are at all times. Heated homes supply ideal conditions for them. Most women do know, however, that the grub, or larva, is the harmful stage of the moth's evolution from egg to winged menace.

Both eggs and larvae can be sought out and removed by careful use of the proper vacuum cleaner attachments.

Women Over 40 Should Revamp Makeup Method

One reason that so many people list spring as their favorite season is that nature's rebirth instills a hope for a brighter future.

If you are past 40, you might respond to this feeling by revamping your makeup technique.

Teenagers, anxious to become proficient in applying cosmetics, are always on the lookout for new techniques.

But once a woman has her technique established, she is inclined to continue using it indefinitely.

While we would agree that the average woman would be frivolous to devote herself to a constant study of cosmetics and their application, we certainly do think that an occasional checkup is essential.

In the past 20 years there have been tremendous changes in both the cosmetics themselves and the theories of makeup artistry.

Pencil-thin eyebrows, bright patches of rouge, cupid's bow lips, for example, have long since been consigned to cosmetic history.

The importance of blending and of achieving color effects suited to the individual have been gaining widespread recognition only in recent years. The subtle use of eye makeup is also constantly being improved.

Recovering at Home

Mrs. Ingaber Barker of South Anderson street is convalescing in her home following surgery at Pontiac General Hospital.

Newly Engaged Dee Vann Returns South

Romantic News Highlights Visit Home

Dee Vann of South Shore drive has returned to Georgia after a visit with her family, the W. H. Vanns, at their Watkins Lake home. While she was visiting, the Vanns announced her engagement to Lt. Walter Mitchell, son of Mrs. James K. Glenron of Panama City, Fla., and the late Walter Mitchell.

Lt. Mitchell, who was also visiting here, was graduated last spring from Georgia Institute of Technology in Atlanta, where he was a member of Sigma Chi fraternity.

He is now stationed at Scott Field in Belleville, Ill. Dee is a junior at Agnes Scott College in Decatur, Ga.

• • •

Vacationing for two weeks in Florida are Mr. and Mrs. Edgar Schulz of Osceola drive. They are spending the time in various parts of the state.

• • •

Lewis F. Jilbert, son of Mrs. Hope M. Jilbert of Michigan avenue, has been admitted to the Chrysler Institute of Engineering.

Lewis, who is enrolled in a two-year course leading to a degree of master of automotive engineering, is a graduate of the University of Michigan with a B. S. degree in electrical engineering.

• • •

Association of Women Students officers were elected recently at Central Michigan College in Mount Pleasant. Barbara Heflin, a junior from Pontiac, was named treasurer at that time.

Mrs. Drohn Feted at Pink, Blue Party

A pink and blue shower honoring Mrs. Thomas Drohn was given by Mrs. Robert Vaden and Mrs. George Bickley at the latter's home on Mechanic street Monday evening.

Those attending included Mrs. Arthur Amsden, Mrs. Earl Barker, Mrs. Carl Lloyd, Mrs. William Lawrence, Betty Allison, Mrs. Earl LaLonde, Mrs. Thomas Bickley, Joyce Bickley, Mrs. Richard Thompkins, Mrs. Henry Milligan, Mrs. Kenneth Collins and Mrs. Russell Woodbury.

Guild Three Meets

Guild Three of All Saints Episcopal Church discussed annual spring projects at the recent meeting with Mrs. James Nye on Elsinore drive. Cohostesses were Mrs. Charles Allen and Mrs. Wesley Stewart.

Keloa, Amies and Trabajamas Combine Their Efforts for KAT Kick

Pontiac Press Photos

The annual KAT Kick dance of Keloa Klub, Amies and Trabajamas was the inspiration for a poster-making session held recently. Working on posters (upper left photo, left to right) were Sophie Cosmas of Ogemaw road, Marlene Crocker of Chippewa road, Alice Bego of Osceola drive and Marie Meyer of East Beverly avenue.

Publicity contacts for the dance, which will be held Saturday at Knights of Columbus Hall, are made by Marilyn Glennie of Montroyal avenue, Gail Lewis of Joslyn avenue and Nancy Welch of Silver Lake road (left to right, left photo).

Sandra Hodge (left, above) of Neome drive took a playful kick at an ornamental cat to illustrate KAT Kick, the title of the dance being given by the three high school clubs Saturday from 9 p.m. until midnight. Barbara Daniels of East Mansifeld avenue lent a helping hand.

Committees Are Named for Dance

Columbus Hall Will Be the Setting for Saturday Event

The KAT Kick dance will be presented Saturday at Knights of Columbus Hall, and members have been named to the various committees by the three clubs sponsoring the dance — Keloa Klub, Amies and Trabajamas.

General chairmen are Nancy Dickinson representing Amies, Carol Doyle of Trabajamas and Alice Weber of Keloa.

Cochairmen of the decorations committee are Marlene Crocker and Alice Bego. Committee members are Kathie Young, Phyllis Law, Kay Trager, Carol Messer, Joan Skelley, Marilyn Sherman, Carol Young, Barbara Hess, Barbara Schwalm and Carol Wortman.

Working on the ticket committee under the direction of Sara Hallock are Jo Osmun, Nancy Good, Barbara Hill, Nila Thompkins, Marianne Crosier, Brenda Wells, Mary Mount, Gayle Joyner and Patti Smith.

Sophia Cosmas, Jane Steinhelper and Barbara Magnus have charge of the music, and on the refreshment committee are Annalou Terry, Ann Skelley and Mary Ellen Waite.

Barbara Daniels has charge of publicity, and working with her are Marie Meyers, Leah Mae McNutt, Marilynn Glennie, Sandra Hodge, Gail Lewis and Nancy Welch.

Patrons for the dance are Mr. and Mrs. John Napley, Jo Palace, Judy Trager, Mrs. Ruth W. Parshall, Mrs. Wilma Dickinson, Mr. and Mrs. William Palace, Mr. and Mrs. Anton Bego, Mr. and Mrs. William Crocker, the Charles Webers, the Thomas Doyles, Mr. and Mrs. Runyon Hallock, the Claude Daniels, the Ernest Cosmas, the Max Hodges, Mr. and Mrs. Frank Lewis and Mr. and Mrs. Ernest Meyer.

Dance Club Welcomes Springtime

Spring Frolic was the theme for the Wednesday evening dance of the Promenaders Club held in Daniel Whitfield School.

In charge of decorations were the Roy Howards and the Russell Beams. Callers for the evening were Robert Earl, Warren Allen, George Chamberlain, Engel Groenberg and Dave Lyons.

April 14 was set by the club for Guest Night, and a dinner-dance will be held April 28 in the Waterford CAI Building.

Howard Bond was appointed chairman of the nominating committee. He will be assisted by Hardy Fair, Mrs. Beam and George Stout.

Shower-Party Held by Loyal Neighbors

Mrs. Homer Harless of Highland drive was hostess at a recent meeting of the Loyal Neighbors of Going Street.

The occasion was a combination pink and blue shower honoring Mrs. Louis Taylor and birthday party honoring Mrs. Louis Grappin.

Assisting Mrs. Harless were Mrs. Bristol Lucas, Mrs. Carl Peterson and Mrs. Charles Pritner.

Use only mild soap and water to clean the many plastic items in your home. Otherwise, you may mar or ruin them.

Scent for Spring

It won't be long before we are using light, floral scents that fairly sing of spring. If you have been using one scent faithfully for years, it might be a good idea to look around for something new. You may find a really special fragrance among the perfumes that have been introduced recently.

Officers Are Named by VFW Auxiliary

Members of VFW Auxiliary 1008 met Monday evening in the American Legion Home on Auburn avenue to elect officers for the coming year.

A donation was made to the Oakland County Society for Crippled Children.

Leath Mae MacNutt Entertains for Class

Leah Mae MacNutt entertained the Builders Fellowship Group of the Oakland Avenue United Presbyterian Church Tuesday evening in her home on Neome drive.

Peggy Levely, recreation chairman, served as cohostess and helped with the entertainment and refreshments.

Guests included Christine Lape, Doreen Hoyes, Beverly Deem, Sharon Bedford, Tom Robb, Gerald Barnhart, Phillip Marien, Jim North, Marion Reeder, Norma Koch, Allen Hackney and Larry Pilkinton.

Mr. and Mrs. William Coffing and Mr. and Mrs. Stanton Levely were also on the guest list.

Legs to Bloom in Pastel Hose

NEW YORK (INS) — Legs will soon be blooming in pastel pink, blue and yellow nylon hosiery.

Part of fashion emphasis on the one-color look for spring, these hose are designed to go with the newest plain colors and prints, or they can be worn to pick up an accent tone in a design.

These gay contributions to spring fashion are made in two types—66 guage, 12 denier with slight reinforcement in the foot, and a 60 gauge, 15 denier, with no reinforcement.

Since these stockings are delicate, wash them in a glass jar or plastic container half filled with warm soapsuds.

Mrs. Eleah Patten Addresses WCTU

Mrs. Eleah Patten was guest speaker before Emor L. Calkinis Group of the WCTU at Central Methodist Church Tuesday afternoon.

Speaking on "Our Government," she brought up a discussion of several state and national measures being debated at the present time.

At the business meeting, an 18th District all-day spring institute was announced for March 31. The national organizer will be guest speaker.

Mrs. John Veneman gave devotions and Mrs. Elva Ashley led group singing and also gave a solo accompanied by Mrs. Orla Mason. Mrs. Patten presented the closing prayer.

Newcomers Club Views Two Films

Films on deep freeze units and "Through the Years" were shown Wednesday when Newcomers Club met with Mrs. J. King Graham on Inverness avenue.

Cohostess was Mrs. C. B. Clark. The group planned a talent show for the end of April. Hostess for the April 14 meeting will be Mrs. Lucien Allison of Keego Harbor.

Look Yourself Over

There are times when looking at yourself very carefully in a mirror is a good idea. You cannot expect to groom appropriately unless you know your face and body completely. And it takes a lot of looking to decide the exact shape of your face and head, body proportions, posture characteristics, etc.

Prepare Now for Sandal Days

It won't be long before you will be slipping your feet into spring sandals, teenagers. So you'd best ready them for the occasion.

Most likely winter boots have taken their toll in the form of caloused heels. And that certainly won't do when you start wearing spring's delicately styled shoes and sheer nylons.

You can banish the bumps on your heels and any roughened spots caused by dryness by giving your feet a bit of special attention every night for a few weeks.

During your evening bath, scrub the feet carefully with a soft brush. Go over those heels again and again.

When drying, rub the feet gently with the towel. Take time to smooth the cuticles back. Apply a hand cream or baby oil lavisly. Massage the feet as you put on the lubricant.

Then slip into a pair of old cotton socks; secure them with a rubber band (not one so tight that it will inhibit circulation) so that your foot beauty treatment will continue through the night.

JOANNE SUSAN RICHARDSON

Mr. and Mrs. Charles G. Richardson of Parkdale avenue, Cass Lake, announce the engagement of their daughter, Joanne Susan, to Jack W. Quist, son of the Richard W. Quists of Detroit. The couple is planning a June 26 wedding.

Men Banish Somber Indoor Clothing to Seek Their Place in the Sun

Housewives' Dollar Is Goal

'Pillow Fight' Shapes Up

SAN FRANCISCO (INS) — Merchants this spring are better equipped to enter the "pillow fight" for the housewife's dollar than at any time since the prewar years, and, in fact, have some entirely new "ammunition" at their disposal.

Down pillows are back in good supply and at fair prices after being virtually priced off the market for several years.

In addition, pillows are now made of dacron and acrilan, and foam rubber continues to find favor with more and more sleepers.

Richard J. Coffy, president of the Western Linen and Domestic Association, said at the group's spring market week in San Francisco that pillow selection is now at an all-time high.

Coffy said that imports of down were sharply curtailed during World War II and the Korean War, with most of the available down going to the armed forces. The down pillows that trickled into the civilian market were expensive.

Now, however, imports are coming in from new foreign markets and prices are lower. Down has long been favored for its natural and permanent resilience, light weight and comfort.

But foam and the synthetics have one undeniable advantage — they are a boon to allergy sufferers.

Foam rubber entered the pillow picture several years ago when air was whipped into a latex solution to form millions of tiny pockets for "air-conditioned" slumber.

Foam pillows retain their original shape through years of use and need little care except airing in a shady spot.

These synthetic pillows are also dustless and non-allergic, and can be popped into the washer to dry in time for use the next night.

On the left is a white beach shirt in corded puckered cotton fabric which has modified bat wing sleeves and unconventional collar, both the Italian influence. On the right is a black print shirt with cotton trim sleeves and back which breaks away from standard beach shirts and offers sharp contrast to white trunks.

Vivid Colors, Novel Patterns Spark Beachwear

Beachwear provides men with an opportunity to break away from conventional somber tones of everyday clothing and wear a variety of vivid colors and unusual patterns.

This summer more men, from Maine to Florida and on the West Coast, will be wearing a variety of colorful cabana shirts on the beaches.

Patterns are easy on the eye. Famous American artists have contributed unusual patterns and colors which provide a bright new note.

Among the novelty patterns are modernistic fish in a cabana and shorts set. Another pattern shows a variety of deep sea fish against a jet black background.

Swim trunks have full side zippers for easy removal after slacks are on.

Black beach shirts are expected to achieve greater popularity. They offer sharp, dramatic contrast to white trunks.

Fish, shells, and anchors and wheels, native fruit in bright, bold colors are among the definite patterns expected to play an important role in beachwear.

Hugh patterns on shirt backs are repeated in small scale on chest pocket and trunks. Abstract prints are varied but not wild and are seen in bold color combinations.

Shorter shorts for swimming also make beachwear news. Trunks have a skimpier cut, narrower elastic waistband and are tight-fitting to create a slim appearance.

Fabrics Require Careful Washing

KNOXVILLE, Tenn. —(INS)— Clean-minded homemakers are warned against scrubbing out the crease-resistant finish on new fabrics.

Specialists in clothing at Tennessee University explained that very hot water will remove some of the finishes after a number of washings. Warm water was prescribed.

The experts added that chlorine bleaches may cause yellowing of the specially treated material. This can be avoided, they pointed out, by carefully reading the laundering directions that come with the garment.

Trunks Boast 2 Side Zippers

A new idea in swim trunks that is expected to catch on rapidly is the functional pair of shorts made with a full zipper on each side.

This permits the bather to remove his trunks after he has his slacks on, thus eliminating the discomfort of wearing a wet suit home when lockers are not available.

New Paris Fad: Cognac Makeup

PARIS (INS)—After introducing brandy-colored clothes, accessotators are now going in for "cogtators are now going in for "cognac" makeup.

This consists largely of a "luminous glow," but it's not the kind of glow that comes from real cognac.

Makeup expert Stendhal, who created the cognac makeup, puts his customers under a sunlamp for two minutes daily. Then he tells them to use a golden-tinted foundation cream, bright scarlet lipstick and rouge, and gray mascara and eye shadow.

The result: A cognac makeup. But that isn't all. Stendhal also thinks a woman should tint her hair to match.

Popularity of City Shorts to Zoom Up This Season

The zooming popularity of walking shorts will skyrocket further this warm weather season because shorts have been made into an integral part of the new three-piece summer suits.

While many men took this new summer way of dressing to their hearts last season, most did not wear the shorts into town. It was too much of a new idea and most men do not want to lead in establishing a new idea in dress.

And also, shorts created the problem of what jacket to wear with them so that the entire outfit could be properly coordinated.

Now this problem has been solved. Shorts are now offered as a basic component of the three-piece suit to provide the alternate way of dress so sensible for wear in town on hot, humid days.

Shorts, therefore, are available in almost as an extensive array of colors as prevail in summer suits. Also the idea of mix-and-match makes wearing these shorts extra fun.

Not only are shorts going to town this season, but they are also becoming more and more important for wear during leisure hours in the country. It was in this category that they enjoyed greatest popularity last year and it is also here that they expected to increase their hold.

There are styles for active sport lounging, town and resort wear. Each category has an array of colors, fabrics and designs guaranteed to put new zest in men's outlook on what to wear.

There are cottons, linens, suedes and wools, as well as a multitude of new synthetic fiber blends.

One fact is certain . . . wearing the new knee-high hose with the shorts adds immeasuuably to a more finished appearance.

Shorts for town wear will show an increase as they are part of the suit.

Treat Children to 'Space Eggs'

NEW YORK (INS)—Easter eggs this year can be from outer space! At least, they can be as "space-like" as your youngster's imagination.

To keep up with 1954 "Mars Rocket" games instead of "cops and robbers," let the children create "Martinas" or "space men" when they decorate Easter eggs.

Two starting suggestions are for antennae made out of paper clips and space helmets from cellophane.

Color the eggs as usual and paste on paper eyes or draw eyes. Then cover the eyes with a cellophane strip held in place by Scotch tape.

Use tape also to tack on an unbent paper clip for that necessary radio antenna. The egg can be stood on end in the bottom third of a conical paper cup, which will keep the "space egg" upright.

For a "Martian egg," anything goes. Use three eyes, stripes, triangles, multi-colored dye or anything else your youngster believes fits the Martian description.

Spring Shoes Tell Style Story

The importance of white and pastel shades in smooth and suede leathers, together with the new fluid line in footwear is pointed up in all spring and summer shoe desiging.

An interesting new story in spectator pumps is the use of white calf leather as well as suede leather and buckskin in combination with navy, brown and beige calfskins and patent leathers.

One dramatic spectator combines white suede leather with patent leather in a D'Orsay pump style on a slim and high heel. Another sling sandal is done in a pastel calf leather and irridescent kidskin with a shaped heel.

Still another is shiny white alligator-lizard in a slim tapered-toe pump highlighted in white piping and buttons of calf leather. A white on white theme.

The leathers you'll see throughout all the spring and summer lines include a full array of aniline calf in colors never before shown in this particular finish: pale tones of grey, pink, mauve, violet, turquoise, a soft tone of orange tinted with coral, red, blue and the entire beige to brown range for casuals and street wear.

PATRICIA ANNE McGRIFF

The engagement of Patricia McGriff of Prall street to the Rev. Ward H. Clabuesch is announced by her parents, Dr. and Mrs. J. Rollins McGriff of McLean, Va. The Rev. Mr. Clabuesch is the son of Mr. and Mrs. Ernest Clabuesch of Pigeon.

For Better Wear, Appearance

Clean Rugs on Schedule

The best way to keep your floor coverings clean is to follow a regular schedule with your cleaner. Then your rugs and carpets will not only look nicer but will last longer.

Your vacuum cleaner performs two all-important rug-cleaning functions, it penetrates beneath the surface of the nap and draws out invisible grit and grime, at the same time that it removes visible soil.

To keep your carpets at the peak of cleanliness, give them a going over every day. Two or three strokes of the sweeper over each area will freshen and brighten it.

Then once a week do a thorough job with the vacuum using slow even strokes. Ten or fifteen minutes is not too much time to spend on a 9x12 rug.

Although the weekly vacuuming is essential, you may find it easier to use that easy-to-handle tool, the carpet sweeper, for daily quick cleanings. It does a speedy, efficient job of picking up surface dirt, lint, crumbs and incidental litter and is less wearing on the rug.

Statements telling you not to vacuum your new rug for at least three months because the vacuum will take the nap out, are untrue. The fluff you find on new rugs is not a part of the nap. It is composed of a lot of loose fibers that cannot be taken out during manufacture.

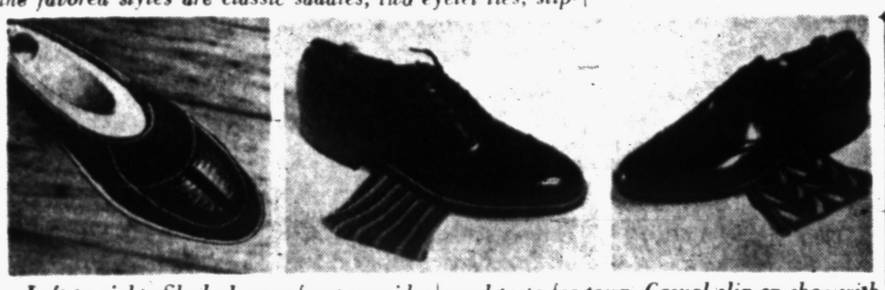
Suede leather and leather make happy combinations in lightweight casual shoes for spring and summer. Among the favored styles are classic saddles, two eyelet ties, slip-ons and moccasin types. Suede shoes are shown from light to dark shades in two and three eyelet ties.



Left to right: Slashed open front provides a new theme in lightweight footwear. Straight tip shoes with perforations are in good taste for town. Casual slip-on shoe with elasticized side gores follows the switch to lighter-weight apparel.

Lightweight Shoes Mean Cool Comfort

The ultimate in comfort is achieved by lightweight shoe models highlighting the spring and summer season.

The marked trend to lightweight shoes that are cooler and more comfortable in warmer weather is now definitely established, as it is in men's apparel. Spring shoes are also more colorful and better looking.

While new style ideas are abundant, the light switch in weights, colors and detailing underlies the spring theme.

Outstanding among the new styles are lightweight meshes, two-tone combinations, light-toned leisure types, reptile and reptile trim models.

Nylon mesh in lighter shades, dacron mesh, basket weaves and two-tone tweedy effects are outstanding.

Both smooth and grained leathers are employed to heighten texture interest.

Taste of Individual Creates True Style

Only the individual taste, in the end, can truly create style or fashion, since it is not concerned with following in the wake of others.

What an individual taste may choose, be it a stepladder or a wicker basket, will always be based on a deep personal choice, a spiritual need that truly assesses and gives value to that particular ladder or basket. The beauty of these things is somehow transmitted through the personality of the one who chooses.

IF wide-hipped figure—

Dresses and coats more becoming than suits. Get width above the bosom. Avoid tight skirts.

Mrs. H. F.—Carefully contrived width above the bosom does wise work to minimize the waist, hips and diaphragm. Cotton coats this year tie in with your street and cocktail dresses.

The famed ancient Colossus of Rhodes was a 105-foot bronze statue of Apollo.

Tile Surface Is Versatile in the Home

Cutting Ceramic or Clay Is the Biggest Problem

By HUBBARD COBB

You can do a lot of things with ceramic tiles besides using them for the walls in bathroom and kitchen.

They make nice decorative tops for tables and for kitchen work counters. They also do well around fireplaces.

The first problem you run across in working with tiles is how to cut the darn things. Professional tile people use specialized equipment, but for home installation common tools will do okay.

If you want to cut a tile to fit around a pipe or some fitting you need only a pair of nippers. Take small bits out of the tile with the nippers and eventually you'll get the shape you need.

To make a perfectly straight cut in the tile, cut through the glaze with an ordinary glass cutter. Now place the tile on two finishing nails so that the nails are directly under the cut. Stand on the tile—a good stomp on each side and she'll break right along the line.

Clay and ceramic tile used to be fastened in place with mortar but today you can use a liquid adhesive that is spread over the surface with a minimum of fuss and bother.

The tiles are then set into this adhesive and when the adhesive is dry, the tiles are securely held.

This special kind of tile adhesive is sold at hardware stores and lumber yards. The joints between the tile can be filled with a white adhesive or with a mixture of cement and water.

When the tiles are applied to a porous surface such as wood, the wood should first be given a coat of paint to seal the pores.

Book Guides Photography Novices

By ANNE HEYWOOD

Many readers were interested in the story we did some time ago on the husband and wife who started, as a retirement venture, a photography business specializing in animals.

"My husband and I would like to do that very thing," one woman writes. "We are both in our early 50s and we will be retiring before very long.

"Now, neither of us has ever owned a camera or taken a picture in our lives, but it sounds like a very interesting kind of business."

It ought to be reasonably evident that two people who have lived 50-odd years and have never been enough interested in photography to buy a small inexpensive camera are not going to move in and make a killing in a photography business!

by Laura Wheeler

Fashion loves the graceful look of the wide-flaring, crocheted skirt. Crochet your own—it's extra-easy in the graduated crazy shell.

Crochet skirt and stole of straw yarn or knitting worsted. Pattern 625: Directions for waist sizes 20-22; 24-26; 28-30 included.

Used Car Dealers Have Own 'Lingo'

Like every group, automobile men have their lingo for various things in the world of cars.

When they say "juice" they mean electric current; "rubber" in their language refers to the tires as a whole; a car is "clean" when its over-all condition is good, with undented fenders and unscraped paint.

It isn't a bad thing for a woman to know some of this shop talk. For instance, when you're shopping for a used car, if you ask for a "clean" car with good "rubber," you'll sound as if you know what you're talking about.

But many of the inquiries came from people who do love photography, but who have never had the money to take a course, nor the time to go into the subject thoroughly.

"How can I really learn to take good photographs, and develop them?" they asked. "Is there any good book that tells you everything you need to know?"

After reading dozens of books in this popular field, my suggestion is that you take a look at one called "Successful Photography," by Andreas Feininger.

If your local bookstore doesn't carry it, I'll be glad to tell you where you may get it. It is a complete home course in the mechanics, techniques and application of photography, and it is clearly written.

It begins with the general principles behind good photographs and has a large section of pointers for the rank beginner.

Then there is a good section on tools and materials you will need, beginning with the art of selecting your camera.

After that, the book works along to the more complex details of actually taking good photographs—everything from close-up focusing through getting good contrast, including how to use artificial light. After that, there is the section on how to develop and print your own pictures.

If you will study this book seriously—including the wonderful concluding section on "A Philosophy of Photography" — you should be able to take adequate photographs.

But that does not mean that you may not have what it takes to be a great photographer, or even a professional one.

But you'll never know until you try, and this book gives you everything you need for the attempt.

(Copyright 1954)

Wide Rings Win Favor Among Men

The 1954 bridegroom is not only a strong believer in double-ring wedding ceremonies, but now wants his nuptial band to be as fashion-smart as the bride's glittering platinum, palladium or gold ring.

This rather surprising masculine itch to be in the jewelry fashion swim hasn't as yet overpowered every American bridegroom and may never become a national trend.

But it is fast taking hold in many parts of the country, even the traditionally conservative East.

Matching marital rings have been highly popular since World War II. Generally, however, the rings have been plain hoops. Now that very wide rings are making such a big hit with brides, the men are sporting the same high-fashion designs on the third finger, left hand, often with diamonds or colored gems. Some of the rings measure one-half inch in width.

A new line of wide rings made in the white precious metal palladium is going over big. The width permits use of intricate engraved floral, leaf or heart designs that look and sparkle like diamonds, due to palladium's brilliant whiteness.

Bridegrooms-to-be are also having diamonds set in the rings, usually at the bride's urging.

Dry Bookshelves

When you wash down bookshelves, make sure they're thoroughly dry before you replace books. Otherwise, your books will mildew.

by Anne Adams

Just walk in—and wrap! No fuss, no muss getting into this airy halter dress with the gay heart pocket. On hot summer days, wear it to greet the grocer or guests—you'll look pretty, feel cool! Choose a tubbable cotton, accent it with bright rickrack.

Pattern 4827: Misses' sizes 12, 14, 16, 18, 20; 40. Size 16 takes 4 yards 35-inch fabric.

Send 35 cents in coins for this pattern—add 5 cents for each pattern for first-class mailing. Send to Anne Adams, care of 137 Pontiac Press Pattern Dept., 243 West 17th St., New York, N.Y. Print plainly name, address with zone, size and style number.

Spring Wardrobes Use Garden Colors

The old-fashioned garden has planted new fashion colors in our spring and summer wardrobe. Ceil Chapman, the glamour-girl's guide in such matters, takes a hint from contrary Mary by making some of her most ultra evening gowns in the simple flower tones associated with grandmother's garden patch. Wild rose, honeysuckle, forget-me-not and cornflower are used in ball gowns of sumptuous silks, often bejewelled.

Mollie Parnis calls her favorite bright, bright pink Spice Pink for the small fragrant border flowers. Claire McCardell makes a whole group of separates in a blazing new yellow called sunflower. Ben Zuckerman's favorite color for the new linen tailleaur is Iris, the soft yet vivid blue-purple.

Girl Resents Borrowing of Lipstick

She Would Like to Break Classmate's Bad Habit

By EMILY POST

A young girl writes me: "There is a girl in my class at school who is forever borrowing my lipstick. She puts some on when she leaves her house in the morning but never takes her lipstick with her.

"At the end of the day when it is worn off, she always asks me to lend her mine. Rather than appear cheap, I let her borrow my lipstick but I'm getting pretty tired of it. Will you please tell me how I can tactfully refuse?"

Answer: Since you have been lending her your lipstick right along, it would be difficult to say suddenly that you do not like to lend your lipstick.

You might buy an inexpensive lipstick to keep in your bag and offer to her whenever she asks to borrow yours. (Or you might be glad to buy yourself a new one and keep the one you now have for her.)

Dear Mrs. Post: My fiance's mother died a month ago. We had planned to be married two months from now. As I am an only child, mother wants me to have the nicest wedding possible—bridesmaids, ushers and a large reception at the country club for 200 guests.

Will you please tell me if this could be proper under the circumstances, or might I be thought heartless by his family?

Answer: A wedding such as you describe would, I am afraid, be thought inconsiderate of your fiance's feelings. You can, however, have a lovely wedding — even though limited to your families and your own best friends. Otherwise, you would have to postpone the date of a really big wedding for another three months.

Dear Mrs. Post: We are a group of teen-agers who would like you to answer the following question for us: When going out on a date, is it the girl's place to suggest where she would like to go, or does the boy make the plans for the evening?

Answer: Unless he invites her to something definite beforehand, he generally asks her where she would like to go.

Separates Are Girls' Standbys for Springtime

"Span season" is an important term in girls' and teens' sportswear for spring 1954. The lightweight separates costume with the look of a suit and cotton separates that mimic a dress are the two categories that comprise most of the spring offerings in sportswear.

Suit separates, usually designed with unlined jackets, are highlighted for spring as the most practical of all spring costumes. Alone or under a coat, they can meet weather changes with practicality.

Fabrics for these costumes are led by a family of crisp rayon suitings with the look of linen. Blends of rayon and cotton, rayon and silk or rayon plus nylon or orlon will be popular, too, in homespun textures.

Silhouette news for custume separates highlights the brief box jacket which can double for wear over dresses or other separates. Box jackets, featured in separates-suits, range from above-waist length jackets shown with high-rise skirts to hip-length above slim pleated or straight skirts for teen-agers. Skirts tend toward controlled fullness with the accent on gored skirts faring at the hem.

Dress-effect separates are designed in cottons for wear through the summer. Bright pastel tones on white or pale beige cotton grounds are featured in the prints that lead for dress-look separates.

Flower and fruit, gay vegetable motifs appear in tones of sky blue, watermelon pink, lemon yellow and moss green for these nature-inspired prints.

Choose Bright Day to Launder Extras

Choose a bright Saturday for laundering those miscellaneous items that must be washed separately because of their size, such as bedspreads and couch covers. Wash colored spreads or covers in rich lukewarm suds for no more than five minutes. If badly soiled, repeat. For white spreads, use very hot soapsuds and proceed as with regular white wash.

It's safe to leave everything in your clothes dryer overnight, though it's better to take out when fluff-dried, as they can be placed right back on the beds after a good shaking to bring out that just-like-new look.

Man Sails 2-Years on Mediterranean

TOULON, France (AP) — Piloting a 1908 fishing boat equipped only with sails 40-year-old Rene Chabas has just completed a two-year voyage of 14,500 miles alone in the Mediterranean.

Chabas sailed his tiny boat, the 19-foot "Papillon" from Algiers in September, 1951. He lost his rudder in a violent storm soon afterwards. He narrowly missed death on that occasion. Another time he rode out a storm which sank three cargo vessels nearby.

He was becalmed for 18 days and menaced with dying of thirst as his fresh water supply ran out. A passing vessel saved him.

A voyage from Algiers to Cannes took 32 days. Steamboats make it in two.

During the 13th Century a large whale swam under London Bridge and was killed up stream with bows and slings.

POLICE GUARD CAPITOL—Two members of the regular Capitol Police force stand at newly-assigned posts outside the Capitol, overlooking main steps leading to Senate floor of the building. They are Pvt. William Jennings, left, and Pvt. Wesley Wilson. Additional men are posted inside and outside the Capitol following the chamber shooting. AP Wirephoto

Traffic Violator Fled Road Camp in 1932

SACRAMENTO, Calif. (AP)—Traffic tickets led to the discovery that Moses Bryant, 47, escaped from the Alabama state road camp 21 years ago.

Bryant, married and the father of two, was taken into custody on four warrants charging eight traffic violations. Police learned, through a check of fingerprints, that Bryant, also known as Willie B. Brown, was wanted in Alabama.

He said he was sentenced to 24 to 30 months for a burglary he did not commit and that he fled the camp in 1932. Alabama authorities inquired by telegram yesterday whether he will waive extradition.

"I'm going to fight it," he said. "I don't want to go back."

Not Popcorn but Liquor

NILES (AP)—Ray B. Cutler, 57, of Benton Harbor, at first blamed his erratic driving on the popcorn he was chewing. But later he pleaded guilty to charges of drunk driving. He was ordered to pay a $75 fine and lost his driver's license for 90 days.

Medical Director Dies

DETROIT (AP) — Dr. Paul A. Klebba, Wayne County medical director, died Wednesday in Henry Ford Hospital. He had undergone surgery Tuesday. Dr. Klebba, 63, had been medical director since October 1951. He had been with the county medical service since 1922.

Fire Hits Holland Plant

HOLLAND (AP) — Fire destroyed a two-story frame building of the Holland Color and Chemical Co. north of the city Wednesday. C. R. Trueblood, president, said the loss was several thousand dollars.

Committee OKs Air Academy

Final Passage of Bill Depends on Approval by Both Houses

WASHINGTON (AP) — A Senate-House Conference Committee agreed Wednesday on legislation authorizing the creation of a U. S. Air Force academy.

The measure is still subject to approval by both branches of Congress.

House conferees accepted a Senate provision that 12½ per cent of the air academy graduates could transfer, if they desired, to either the Army or Navy.

It was further agreed that 12½ per cent of the graduates at the Army's academy at West Point and the Naval academy at Annapolis could transfer to either of the other branches of the armed services if they desired.

House conferees also agreed to provisions of the Senate-passed version providing that the Secretary of the Air Force, in designating a site for the air academy, shall follow the recommendation of a special advisory board if its five members are unanimous in their view.

If the five members are not in unanimous agreement, the secretary may designate any one of the top three sites the board recommends.

Competition for the academy's location has been keen, with numerous states seeking the prize.

The bill would direct the Air Force Secretary to name the site selection board immediately, and the board in turn would report as soon as "practicable." The conferees struck out a provision requiring the board to report within 45 days.

Almost too soft and sweet and clean to hide away --that's how ***all*** does your wash!

all's controlled suds are a real blessing in your automatic. The washer makers themselves prescribe _all_ so you will get the finest possible wash.

IF YOU'RE MODERN enough to own an automatic washer, then you'll know why suds are going out of style.

Suds are pure froth. They just loaf and get in the way. They don't help with the washing, and they won't rinse away. So the dirt can't rinse out either.

That's why so many makers of automatic washers urge you to forget your old ideas about suds . . . and use *all* instead.

Why *all* outwashes thick suds

Does it make any sense to have a heavy layer of suds riding around *on top* of the wash water? The job to be done is *down in the water where the dirty clothes are* . . . and that's where *all* goes to town!

The wonderful difference shows up in the whiteness of your linens, the softness of your towels and the clear true colors in your clothes.

You see, an automatic washer is designed to swirl and swish the clothes around freely, so the stubbornest dirt will come out.

The reason *all* gets clothes so much cleaner than ordinary detergents is that *all* does its work with almost no suds. This actually *helps* the washing action of your machine, instead of *hindering* it the way thick suds do.

This is the reason why so many modern homemakers have switched their allegiance from old-fashioned suds to *all*.

all guarantees cleaner rinsing

Thick suds are always a particular nuisance when it's time to drain and rinse. (You know how they cling to the sides of your sink!) But unless every trace of suds is removed, white clothes are bound to look grey—colored clothes are sure to look dingy.

That's another reason why *all*'s controlled suds are such a blessing in your automatic. They rinse out quickly and completely. There's no film of suds left to discolor fabrics—no stubborn suds deposit left that might irritate tender skins. (Imagine how important this is if there's a baby in your family!)

Washer makers asked for *all*

all was created when the pioneer automatic washer manufacturers found that old-fashioned soaps and detergents cut down the efficiency of their machines.

They placed their problem before one of America's greatest teams of research scientists at the laboratories of the Monsanto Chemical Company. And that's where *all* was born.

When the leading washer makers tested *all* they were so pleased that they began prescribing *all* for the cleanest possible washing in their machines. To get you started right, these manufacturers put a free gift package of *all* in their washers before they leave the factory.

all saves time and money

Every ounce of pure, fragrant *all* works for you down in the wash water—where your clothes are sloshing around. *all* doesn't foam up into a smothering, lazy top-collar of suds.

And *all* is all its name implies! It's all you need for the cleanest wash in the world. *all* contains its own water softener and a special whitening agent. So, when you wash with *all*, you don't need to add a bleach, bluing or extra water softener.

Money-back guarantee

Try *all* next time you wash. It's wonderful for the grimiest work and play clothes, for dainty lingerie, for baby's diapers. It's unconditionally recommended for the new miracle fabrics like acrilan, orlon, dynel, and nylon. If *all* isn't the finest detergent you've ever used, your dealer has been instructed to refund your money—Monsanto Chemical Company, St. Louis, Missouri.

Baked Potatoes Steal the Show

Flavorful Recipe Has Eye-Appeal

Add Only Vegetable, Fruit Salad for Fine Lenten Menu

Right now is the time to "do things" to vegetables to improve their flavor and eye appeal. It's an excellent way to add more savor to early spring menus.

Here's a suggestion for the ever popular and now so plentiful potato which would do justice to a duchess's table.

In fact, many of you will recognize that while it's a new twist for baking potatoes, the recipe is a variation of Duchess Potatoes, made from mashed, boiled potatoes with added seasonings.

And since green beans go so well with potatoes, why not dress them up as your "other" vegetable by tossing with melted butter or margarine and toasted slivered almonds.

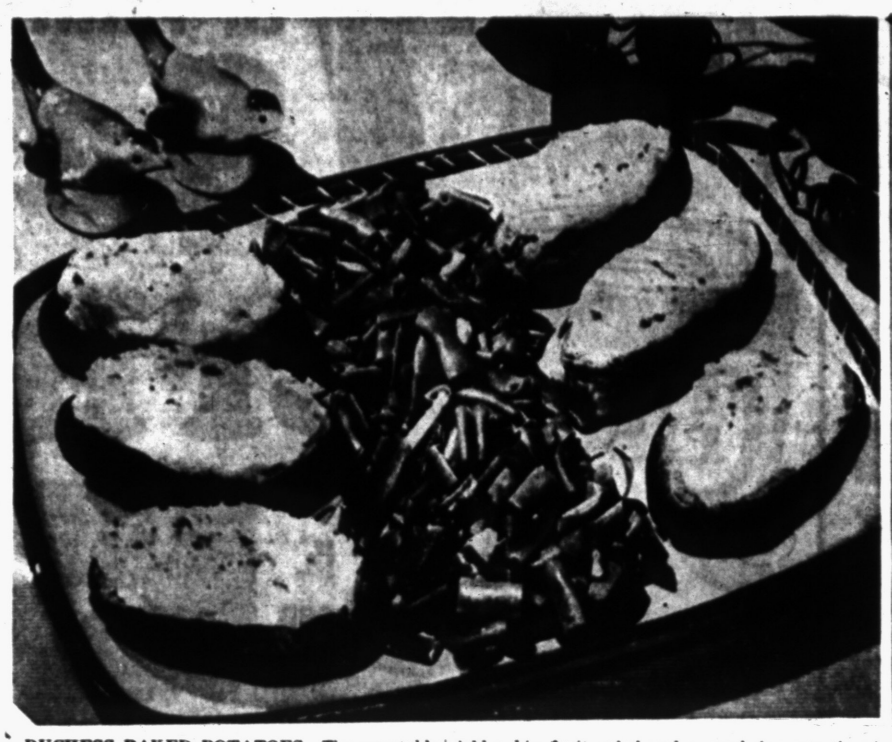
Duchess Baked Potatoes

6 baking potatoes
Vitaminized margarine or butter
2 teaspoons minced onion
1 teaspoon salt
Dash of pepper
1 egg, slightly beaten
⅓ cup hot milk
⅓ cup real mayonnaise

Wash and scrub potatoes. Rub skins with margarine and place on a baking sheet or oven rack. Bake in 325 oven 1-½ hours or until potatoes are soft when pressed between fingers. Remove from oven.

Immediately cut slice from top of each potato. Scoop out and mash. Add rest of ingredients and beat until fluffy.

Pile high in potato shells. Brush top of each with melted butter or margarine and place under broiler until peaks are browned. Yield: 6 servings.



DUCHESS BAKED POTATOES—The vegetable plate can be an excellent substitute for meat on those days when you have to plan "fasting" meals. Add a big fruit salad and a good dessert; there's an interesting meal for any family.

Peanut Butter Filling Is Unusual, Different

Here is a sandwich filling that is a little out of the ordinary. It was created for the peanut butter lovers.

Cream together ¾ cup peanut butter and 2 tablespoons honey until well blended. Add ½ chopped unpeeled apple and a dash of salt, mixing thoroughly.

Spread 6 slices enriched bread with butter or margarine and then peanut butter-apple mixture. Arrange lettuce leaves on peanut butter mixture. Top with remaining enriched bread slices. Makes 6 sandwiches.

Fry Long-Grain Rice With Bacon, Onions

Use long-grain or converted type rice for this good dish.

Bacon-Style Rice

4 strips bacon
½ cup finely diced onion (1 medium-size)
4 cups steamed rice
2 tablespoons soy sauce

Cook bacon in large skillet over low heat until crisp; drain on absorbent paper; crumble fine.

There should be about 2 tablespoons bacon fat in skillet; add onions to it and cook, stirring often, until yellowed. Add rice and soy sauce; stir constantly over moderate heat with a fork until very hot. Makes 4 servings.

Note: ¼ to 1/3 cup raw rice will yield about 1 cup steamed rice.

Novel Cake Topping

Combine crushed pineapple with cream cheese and spread between layers of fluffy spice cake. Top with well-drained crushed pineapple. Decorate with loops of softened cream cheese and dabs of red jelly.

Protocol Still Puts Caviar at Head of Delicacy List

Of all the delicacies in the world, probably no other enjoys the universal prestige of caviar. Even before Elizabethan times, the richly flavorous eggs of Caspian sturgeon were a synonym of all that was artistocratic.

In our democratized days caviar is becoming more and more a general market item.

Before Shakespeare and since, a great deal has been written on the subject of caviar, much of it nonsense. The truth of it is, of course, that caviar is fish eggs.

The finest and most expensive comes from sturgeon living in the Caspian Sea, captured as they ascend its tributaries to spawn.

Beluga and Ositra are among the most distinguished members of the sturgeon family. Neither size nor color denotes quality. The real test of caviar is its flavor.

There has been much talk about "fresh" vs. salted caviar. Actually, sturgeon roe does not become caviar until it has been salted. The mildly salted grades are labeled Malossol (Russian for little salt) and require constant refrigeration at 28-32 degrees F.

The form in which caviar is presented offers still another point for conflicting views — whole grain vs. pressed caviar.

While the whole grain offers more eye appeal, many real connoisseurs prefer the distinctively rich flavor of pressed caviar.

As for serving, the purists would be horrified at any accompaniment save a bit of fresh toast and a slight dab of butter—nothing but sweet butter and maybe a mist of lemon juice.

But some home economists feel that the fixings help to stretch the caviar which is no small consideration when you're planning a party.

One suggests that caviar be served iceberg cold, accompanied by hot blinis or toast, finely chopped Bermuda onion, and chopped hard-cooked eggs.

Tasty Salted Almonds Can Be Made at Home

You can make delicious salted almonds at home. First blanch the almonds and dry on a towel. Place the blanched almonds in a shallow pan, adding a teaspoon of butter or margarine for each cup of the nutmeats. Toast in a slow oven for 25 to 30 minutes, stirring occasionally.

Turn the almonds out on paper toweling, sprinkle lightly with salt at once, and allow to cool. Store in tightly covered container.

Serve Fruit Dessert in Grapefruit Shell

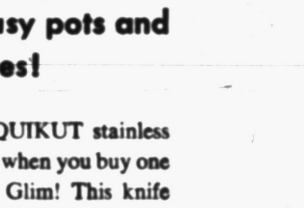
Use this delicious light fruit dessert to climax a hearty Sunday dinner. The end of the grapefruit season is in sight, so use the tangy fruit as much as possible now.

Grapefruit Dessert

2 large grapefruit
16 pitted dates
4 maraschino cherries

Halve grapefruit; remove any seeds. Cut fruit away in sections from membranes; scoop fruit into bowl. Lightly squeeze grapefruit halves, adding juice to fruit.

With kitchen scissors cut membranes out of empty grapefruit halves. Slice dates in long thin strips and add to grapefruit in bowl. Spoon grapefruit-date mixture back into grapefruit halves. Garnish with cherries. Makes 4 servings.



Good Dishes Taste Better With Crisp Fried Noodles

To our good Italian neighbors goes the credit for many of our favorite spaghetti and macaroni dishes. But we shouldn't overlook one special contribution from the famous oriental cooks. They introduced us to the popular chicken chow mein.

American cooks serve chicken chow mein—but in addition, they have created many new ways to use one well-liked ingredient — french-fried noodles. These crisp noodles form the foundation for a variety of tempting main dishes and desserts.

The browned noodles may be purchased or they may be prepared at home. To cook them yourself, choose fine noodles and place uncooked in a wire basket or strainer and fry in deep hot fat until brown—about 2 minutes.

Drain on absorbent paper and sprinkle with salt. The noodles may be stored in a tightly covered container and used as desired.

Use the plain salted noodles as the base for creamed chicken, meat, sea food or vegetables. Creamed dishes are excellent ways to serve small bits of left-overs. When served over crunchy noodles, the result is good enough for "planned-for" left-overs.

If you want a bit of a fancier dish, mix the crisp noodles with an egg - water mixture and form "nests." Allow 1 egg and 2 teaspoons of water for each four ounces of noodles. Beat the egg-water mixture until frothy and pour over noodles.

Shape into nests on greased baking sheet and bake in 250 oven about 20 minutes. These containers may be filled with creamed mixtures.

For more elaborate dessert "nests" mix the noodles with melted butter, brown sugar and chopped nuts. Form into nests or spread in a baking dish. Place in refrigerator to chill thoroughly—about one hour. Chiffon or custard filling, ice cream, or fresh fruit with whipped cream make suitable fillings.

Another increasingly popular way to serve salted french-fried noodles is as "nibblers." Place in small bowls for TV snacks.

Tiny Meat Balls Served in Soup

Maybe you are in the market for some new soup ideas.

We have told you about making up broth for poultry leavin's and freezing them in ice cube trays. (Store the frozen soup cubes in plastic bags.) You can turn a broth soup into a quick main meal with this recipe.

Meat-Balls in Soup

1 pound ground beef
1 egg
¼ cup finely chopped green pepper
1 finely chopped onion
1 cup cornmeal
1 tablespoon salt
¼ teaspoon oregano

Mix together thoroughly and roll into small balls about the size of marbles. Freeze the balls quickly on a baking sheet. Store in a plastic bag in your freezer.

When ready to use, heat either tomato or onion broth and drop the tiny frozen meat balls into the broth. The balls will swell during cooking, so allow for this in choosing the cooking utensil.

Use 4-5 meat balls per serving. Serve as soon as the meat balls are cooked through.

CHOPPED SPINACH VINAIGRETTE—For an unusual and different kind of salad serve spinach chopped fine and topped with grated egg. To make a delicate border use thin onion rings and tiny pickled beets. It's a colorful and appetizing salad.

Get Perfect White Sauce With Proportioned Recipe

When recipes call for white sauce, they usually specify thin, medium, or thick. It's the mark of a good cook to come up with the recommended texture every time.

For perfect white sauces—buttery-rich, velvety-smooth, seasoned just right, follow this recipe.

Use these proportions for 2 cups white sauce:

	Thin	Medium	Thick
Butter or Margarine	2 tablespoons	4 tablespoons	6 tablespoons
Flour	2 tablespoons	4 tablespoons	6 tablespoons
Milk	2 cups	2 cups	2 cups
Salt	1 teaspoon	1 teaspoon	1 teaspoon
Pepper	⅛ teaspoon	⅛ teaspoon	⅛ teaspoon

Measure butter or margarine very accurately into small saucepan. A just right amount is important for a smooth well blended sauce. (Chart above tells you amounts needed for 2 cups thin, medium, or thick white sauce.) Melt shortening over low heat; remove pan from heat before adding other ingredients.

Blend flour (measured carefully, salt, and pepper into melted shortening. (Now's the time, too, to add any extra seasonings like grated onion, curry powder, mustard, Worcestershire sauce).

When mixture is smooth, add about ½ cup cold milk; stir until no lumps remain; then blend in rest of measured milk.

Return saucepan to medium-low heat to cook: stir white sauce constantly until it thickens and then boil just 1 minute to cook the flour. Stir every second, being sure to scrape sides as well as bottom of pan.

Use this creamy sauce right away or remove from heat and cover pan to hold and reheat later.

Salade Nicoise Good in Any Language

NEW YORK (INS)—Want an unusual Lenten dish?

Try "Salade Nicoise," exactly as made in Nice, France, by the noted restaurant of Da Bouttau.

This 94-year-old restaurant, well known to some American travelers because it's used as a meal stop by Pan-American World Airways, which offers this translation for "Salade Nicoise":

Line a large bowl with cut lettuce and endive leaves. Cover the greens with sliced tomatoes, chopped celery and onions and sliced green peppers. Radishes may also be added.

Put in about four portions of canned tuna fish, plus a can of flat anchovies, and several Greek black olives (ripe olives packed in oil).

In a separate dish, make a sauce to taste, using olive oil, vinegar or lemon juice, mustard, salt and pepper and a bit of minced garlic clove. Add the sauce to the salad and mix before serving.

When Braising Meat, Brown Before Salting

When preparing meat to be braised, brown the meat before salting, advised Miss Reba Staggs, home economics director of the National Live Stock and Meat Board, Chicago.

This bit of advice was included in her hour-long lecture demonstration on meat cookery given earlier this month before a Farmers' Week audience at Michigan State College.

Read On! Learn Secrets About Homemade Breads

By JANET ODELL
Pontiac Press Food Editor

Man probably made bread before he wrote history. The story of bread is the story of civilization.

Historians can only guess from the still intact fragments of bread they have found in the ruins of Stone Age man what he made it from and how he stumbled upon its secret.

Some other day we'll talk further about the history of bread. Today I'd like to keep the discussion to home baking of bread. This is a plea for more of you to try making your own bread. It is such a satisfying process that I cannot recommend it too highly. And your family will love it.

Ida Bailey Allen says in one of her cookbooks, "Bread is made from life itself, for yeast is a living plant that literally grows in the dough.

"The warm feel of bread dough, as kneaded, is almost like the lovely warmth and feel of a baby's body. To be able to make good yeast bread is an accomplishment worthy of any woman."

Temperature is one of the important elements in any yeast-raised product. The liquid must be lukewarm when the yeast is added to it. The dough must rise in a temperature of 80-85 degrees.

Recipes vary when they state baking temperatures, from 375 to 425 degrees. I have found that 450 degrees for the first 10 minutes, then 350 degrees for the last 45 or 50 minutes makes a loaf that is just right.

What kind of liquid is best to use? Milk will make a loaf with the finest texture; potato water will make a loaf with the greatest volume; while water makes a loaf with a delicious wheaty flavor. Experiment with all three and choose the one you like best. I use milk in order to get more milk into my family's diet.

To shorten the time of bread making: Add 1 extra yeast cake. Extra yeast does not give the bread a yeasty taste. That results from being too warm while rising.

Unless it is raw milk, you need not scald it before using. I checked this in half a dozen cookbooks. Most of my older references say to scald; the newer ones say merely to heat to lukewarm.

Since our milk is already pasteurized, harmful bacteria have been killed. But if it makes you feel better, scald the milk. Just be sure to cool it to lukewarm before using it.

A second rising is optional. It makes a finer textured bread. When the imprint of your finger remains, the read has risen to "double." The last rising before baking should stop short of this: a slight indentation shows loaves are ready to bake.

Remove bread from the pan as soon as it is done. It will sound hollow if you thump it. Cool on a rack or across the pan.

Be sure to use all-purpose flour for bread, not pastry flour. The bread flour contains more gluten-forming proteins. This gluten gives the dough an elastic quality so that it can expand and hold within it the gas bubbles formed by the yeast.

Now, do try some homemade bread. It's a nice way to please your family. But let me warn you: They'll never be satisfied with store bread again. Would you like to try my favorite recipe

Cornell Bread

2 cups milk, heated to lukewarm
2 tablespoons shortening
2 teaspoons salt
2 packages yeast
¼ cup sugar or honey
⅓ cup wheat germ
¼ cup soy flour, stirred, not sifted
4-5 cups sifted enriched or unbleached flour

Add salt, sugar and shortening to milk and mix. Dissolve yeast in a small amount of this liquid. Mix with rest of liquid, add wheat germ, and flours.

Use enough flour to knead easily and to make a smooth dough that is not sticky. Let rise in a greased bowl in a warm place until double. Knead again for a few minutes.

Form into loaves, place in ungreased bread pans. Let rise 20-30 minutes. Bake 10 minutes at 450 degrees. Lower heat to 350 degrees and bake 50 minutes more. Remove from pans at once and let cool uncovered. Makes 2 loaves.

Spinach Salad Is Pretty Sight

As fresh and pretty as a new spring bonnet! Here's a special dish for that buffet supper you have been planning on to impress your favorite friends!

Chopped spinach topped with grated yolks and whites of eggs surrounded with delicate onion rings and small pickled beets. So colorful and tasty! Serve with a tart French dressing. Especially delicious with cold ham, tongue or chicken.

Chopped Spinach Vinaigrette

1 package frozen chopped spinach
½ teaspoon salt
1 hard boiled egg
2 white onions sliced thin
1 jar small pickled beets
French dressing

Drop solidly frozen chopped spinach into ½ cup boiling water with ½ teaspoon salt. Bring to boil, turning and breaking block with fork to hasten thawing. When water is bubbling rapidly in center as well as around edges of pan, cover and cook one minute, or until done. Drain thoroughly and chill.

Place spinach in a mound in the center of a plate or platter. Place a circle of grated egg yolk in the center, and grated egg white around the edges of the mound. Around the base place thinly sliced onion rings and small beets.

Serve with French dressing. Serves 3 to 4.

Apples Won't Discolor

When peeling apples for cooking, place the peeled ones in a basin of cold water to which a bit of salt has been added. This will prevent their turning brown.

NOODLE RING WITH SEAFOOD SAUCE—Here's a way in which you can use a can each of crabmeat, shrimp and lobster and have a dish that will serve 6 people. This would be an excellent recipe to use for a buffet party. It's as good to look at as it is good to eat.

Seafoods in Winy Sauce Top Cheese-Noodle Ring

High on almost everybody's list of favorite foods is that delicious trio—crab, lobster and shrimp. You'd probably schedule them more often except they tend to be expensive.

Well, here's a way to serve them and still balance the family budget—delicious Noodle-Cheese Ring with Seafood Sauce.

The noodle ring, rich and tangy with eggs, milk and cheese, is delicious enough itself, but the wine-flavored sauce strewn with chunks of crab, lobster and shrimp is an inspiration.

It takees only a dish of olives and crunchy raw corrots, tiny warm rolls and lots of piping hot coffee to make a meal fit for an epicure. And be sure that it's the best coffee you know how to make. If there's anything nicer than a compliment on your cooking, it's an added bouquet for your coffee-making.

Noodle-Cheese Ring

1 8-ounce package broad noodles
1 cup milk
3 eggs, well beaten
2 cups grated cheese
1 teaspoon salt
Dash pepper

Cook noodles as directed and drain. Scald milk and add to eggs slowly. Add to noodles with cheese, salt and pepper. Mix well.

Spoon into well-greased 10-inch ring mold. Set in pan of hot water. Bake in moderate oven, 325 degrees, 45 minutes. Unmold on serving platter.

Seafood Sauce

3 tablespoons butter
3 tablespoons flour
1 teaspoon salt
Dash pepper
Few drops tabasco
1 cup light cream
1 cup milk
1 egg, slightly beaten
1 6½ ounce can crabmeat
1 5-ounce can shrimp
1 5-ounce can lobster
2 tablespoons minced parsley
2 tablespoons dry Marsala wine (optional)

Melt butter. Blend in flour, salt, pepper and tabasco. Combine cream and milk and add. Stir over low heat until smooth and thickened. Pour a little hot mixture on egg, return to remaining hot mixture; cook 2 minutes longer, stirring constantly.

Flake crabmeat and lobster, reserving claw meat for garnish and remove black veins from shrimp. Add to sauce with parsley and wine. Heat thoroughly. Serve in Noodle Cheese Ring. Makes 6 average servings.

Broiled Grapefruit Grand First Course

Grapefruit, served hot, makes a delicious first course for dinner.

Prepare the grapefruit halves, loosening the sections, removing any seeds, and the core. For four grapefruit halves, cream two tablespoons of sugar with two tablespoons of butter or margarine and a dash each of cinnamon and nutmeg. Spread this mixture over the fruit, putting most of it near the core cavity.

Broil several inches from the heat until the grapefruit is partly heated through, usually from three to five minutes.

Fresh grapefruit also makes wonderful salads. We like it particularly with avocado, crisp greens and French dressing.

Sandwich Filling Recipe Offers Lunch Box Idea

By the time spring rolls around, mothers who pack school lunches every day are looking about for new ideas for the lunch box. Some food must be included each day in the lunch box that will perk up lagging appetites. A new sandwich filling may often be the solution.

Here is a good suggestion. Combine 2 cups ground table-ready meat, ½ cup crushed pineapple, 2 tablespoons brown sugar and 1 tablespoon lemon juice. Mix until well blended. Sandwich between slices of buttered enriched bread. Makes enough filling for 6 sandwiches.

THANK YOU Mr. & Mrs. PONTIAC

Dear Friends:

We thought you would like to know that last week Adler's Super Market enjoyed the greatest amount of business in our history!

On this our 4th Anniversary, we wish that we could thank each one of you personally and shake your hand, but since this is impossible, we are doing the next best thing by offering you a Thank You Sale.

This week-long sale will be packed with money-saving values that will be hard to beat! This is our way of showing our appreciation to you for your loyal support over the years.

Sincerely yours,
ADLER'S SUPER MARKET

Wonderful Buns Use Sticky Goo

This good hot bread calls for easy-to-use biscuit m. plus cream for super richness. Dot the dough with spoons of the iron-rich molasses filling, then spread evenly and lightly, so you get just enough of the wonderful sweet goo in each bun.

The even spreading helps when you come to roll and cut the dough.

I found the muffin pans whose wells each hold one-third cup a little small for these buns, because their filling tends to bubble over. So use a large-cup muffin pan.

Sticky Buns

3 tablespoons butter or margarine
½ cup sugar
½ cup dark molasses
½ cup currants (rinsed in hot water and drained and dried on a towel)
½ cup chopped walnuts
3 cups prepared biscuit mix
3 tablespoons sugar
½ cup heavy cream
½ cup milk

Melt butter in small saucepan; remove from heat and let pan cool. Mix in ½ cup sugar, molasses, currants and walnuts. Stir biscuit mix and 3 tablespoons sugar together in bowl.

Mix cream and milk; stir into mix thoroughly with fork. Knead 10 times on floured board. Roll out to rectangle 16 by 10 by ¼ inches.

Spoon molasses mixture over dough, spreading lightly and evenly. Roll up as for jelly roll, starting at longest edge. Cut into 12 equal slices. Place in 12 well buttered large muffin cups. Bake in 375 oven 20 minutes. Let cool in pans about 3 minutes; loosen with spatula and remove. Scrape up any sticky filling in bottom of cups and spread on bottom of buns. Serve hot with butter or margarine.

Try This Nutritious Liver Casserole

We should eat liver in some form once a week regularly, nutritionists tell us. This recipe requires 1½ pounds of low-cost beef liver as the basis of a delicious casserole dish:

Liver Casserole

Cook three slices bacon until crisp and remove from skillet. Dredge slices of beef liver in flour and brown in hot bacon fat. Line casserole with one cup diced celery, three or four small carrots cut across into thin rounds and one small onion, minced.

Place browned liver slices over vegetables and crumble crisp bacon over top. Add a half cup of boiling beef stock, leftover chicken broth or bouillon. Cover casserole.

Cook slowly in oven at 300 degrees for one hour. Bake potatoes right along with this, to get extra mileage out of the oven heat.

GLAZED CHERRIES IN MERINGUES—Meringue shells with dark sweet cherry sauce make a welcome dessert for spring entertaining. Use those extra egg whites to make the meringue "nests" and fill them with a sauce made with beautiful dark red Bing cherries.

Luscious Sweet Cherries Make Hit With Everyone

Canned sweet cherries are a versatile fruit. Both light and dark varieties provide the homemaker with around the clock good eating.

The dark variety, Bing, has an unusual history, as romantic as the glamorous dessert pictured here.

According to the story, a Chinese gardener found a seedling on a trash heap and planted it. He became attached to his little tree, tended it so carefully that it bore beautiful reddish-black cherries. The juicy little fruit now bears his name, Bing.

Serve this delightful dessert soon. It is simple to make and is bound to make a hit with everyone.

Glazed Bing Cherries in Shells

1½ cups canned dark sweet cherries
½ cup cherry juice
¼ cup sugar
2 tablespoons lemon juice
1 tablespoon cornstarch
½ teaspoon almond extract
Few grains salt
1 tablespoon butter

Mix cornstarch with a little cherry juice. Combine all ingredients. Bring to a boil and stir and boil for about 1 minute. Remove from heat. Add almond extract. Add cherries and chill before serving in meringue shells.

Meringue Shells

3 egg whites
1 cup sugar
1½ teaspoon vinegar
1 teaspoon vanilla

Have the egg whites at room temperature. Beat until they form very stiff peaks. Now add the sugar 1 tablespoon at a time beating continuously. Add vinegar when about ½ the sugar has been added. Prepare a cookie pan with 3 layers of brown paper. Grease the top sheet.

Divide the meringue into eight equal rounds on the greased paper and make an indentation in each with back of tablespoon. Bake in 275 oven for 40 minutes. Loosen with a spatula as soon as taken from the oven but allow to cool on the cookie sheet.

Pineapple, Gingerbread Flavors Go Together

Pineapple and ginger flavors just naturally go together — yes, nature grows them side by side under tropical skies. Enjoy their flavor and fragrance in Pineapple-Gingerbread Treat.

To make, add crushed pineapple to whipped cream and serve over squares of luscious gingerbread purchased from your baker.

Tomato Scallop Dish Good With Oven Meals

A good vegetable dish is good for a wide variety of meals. That can be said of tomato scallop which is a good running mate for either oven meals or top-of-the-stove cooking.

Start by browning soft bread cubes in butter or margarine. Use three cups of soft bread cubes to a No. 2 can of tomatoes. Season the tomatoes and bread cube mixture with grated onion, sugar to taste, salt, pepper and thyme.

New Salad Idea

Salad Note: Serve a crisp tangy cole slaw made from scooped out portion of a large head of cabbage. Refill and top with slices of pineapple. Fill the centers of pineapple with mayonnaise and grated carrot.

Delicious Soup Is Meal in Itself

In days gone by, when soup was prepared for the evening meal, it really was the meal. Today, too, a substantial soup especially if it's made with milk, makes a highly nutritious main course.

Add crackers and butter, a crispy salad and a fruit dessert with cheese, and you have a complete and satisfying meal.

When you make soup, use interesting seasonings and herbs, taking your family's taste into consideration, of course. The use of leftovers is often possible when making soup.

Always serve a main course soup in large bowls, piping hot. This will insure ample servings and pleasant eating.

Savoy Lima Bean Soup

1 cup dried lima beans
½ carrot, sliced
2 slices onion
¼ cup ground cooked ham
2 cups milk
2 tablespoons butter
1 tablespoon flour
¾ teaspoon salt
¼ teaspoon black pepper

Soak beans overnight in 1 quart lukewarm water; then simmer until very tender in the same water, adding the carrot about ½ hour before they are done. Press beans and carrot through a strainer or colander with 1 cup of the cooking water.

Heat onion and ham in the milk, over very low heat, for 15 to 20 minutes; remove onion slices. Make a cream sauce of the milk, butter and flour; add bean and carrot puree, and seasonings.

Serve piping hot, sprinkling with a few grains of cheese popcorn as a garnish. If desired, crisp broiled bacon may be substituted for the ham. Serves six.

The 4 Season Seasoning!

All sizes at your food market

THE FRANK TEA & SPICE CO.

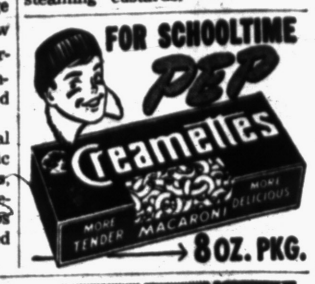
New Stuffings for Fish Dress Up Lenten Meals

Preparing meals for the Lenten season can be a pleasant challenge if you collect a number of new recipe ideas for dressing up favorite lenten dishes. Try some wonderful new stuffings for baked fish, for instance.

Cheese bread stuffing is ideal for perch fillets. To your basic stuffing, using soft bread cubes, add grated sharp cheese — one-half cup of cheese to three cups of bread cubes. Serve the stuffed fillets with tartar sauce.

Try using jelly glasses as extra molds for individual desserts and salads. And small jelly glasses with metal lids are perfect for steaming custards.



THIS CHART PROVES RIVAL DOG FOOD will feed your dog better than any food at any price

I use CLOROX for health protection as well as whiteness!

CLOROX makes linens more than white ... it makes them sanitary, too!

Yes, there are two big reasons why so many women always launder their cottons and linens with Clorox: For extra whiteness... Clorox removes dinginess, stains, even scorch and mildew; for extra health protection, too ... no other home laundering product equals Clorox in germ-killing efficiency!

And remember, Clorox deodorizes in laundering ... leaves linens fresh smelling whether dried indoors or out. Further, Clorox, a liquid, contains no gritty particles to damage wash and washer. It's extra gentle, free from caustic, made by an exclusive, patented formula.

CLOROX gives you a cleaner-looking, more sanitary bathroom, too!

In routine cleaning of tile, wash basin, tub, shower and toilet bowl, Clorox removes stains, deodorizes, disinfects! What's more, Clorox, which is non-poisonous, provides a type of disinfection recommended by hundreds of public health departments. Let the Clorox label be your guide to added health protection!

You get all these benefits in a Clorox-clean wash!
1. Snowy-white linens... Clorox removes gray and yellow dinginess.
2. Bright fast colors... Clorox removes dulling film.
3. Lovely-looking linens... Clorox removes ugly stains, even scorch and mildew.
4. Fresh, clean-smelling linens... Clorox deodorizes.
5. Sanitary linens... Clorox is the most efficient germ-killer of its kind.

When it's CLOROX-clean... it's SAFER for family health!

HAMBURGERS WITH ONION SAUCE—The next time you fix hamburgers, add delicious new beef and onion flavor interest using a famous make onion soup mix. It's an easy way to add an unusual sauce to the tried and true chopped beef patties. You can keep the sauce ingredients right on your pantry shelf.

Want Some Tricky Ways to Present King Salmon?

By JANET ODELL
Pontiac Press Food Editor

What can you do with a can of salmon? With Lent calling for more meatless meals, homemakers turn to the popular canned fish.

Salmon, the king of the canned fish, is a complete protein food containing all the essential amino acids, the same as meat, cheese, eggs or poultry. Calcium is also available in canned salmon, as is iodine.

Five varieties of salmon are canned commercially. They vary only in amount of oil present. All contain the same valuable food elements.

Chinook or King salmon contains the most oil and is especially good for salads. Red or Sockeye is delicious in both hot dishes and salads. Coho is a lighter red salmon that is good in all dishes. Pink salmon is the smallest of all the salmons and is useful in many ways.

The Chum or Keta is the salmon that dieters should use, as it contains less oil than the other varieties. It is best for casseroles and other cooked dishes where color is not of the first importance.

Consumer preference determines somewhat the price of canned salmon, with Chinook usually the most expensive and Chum the cheapest. Buy the kind that suits best the purpose for which it is to be used.

So much for salmon in general. Thinking that you might welcome some new ways of using canned salmon, I have looked through a number of recipe books for unusual recipes. I hope you find some you like.

Sour cream served over heated salmon makes a quick ready-made sauce, offering color contrast and a tartness of flavor that is menu-worthy.

Hot Salmon With Sour Cream Sauce

1 one-pound can salmon
2 tablespoons capers or chopped parsley
1 cup sour cream

Turn salmon into an 8-inch pie plate or shallow baking pan; break up salmon with a fork. Bake in a moderate oven at 350 degrees for 20 minutes. Spoon sour cream over salmon; bake 5 minutes longer. Sprinkle with capers or parsley. Makes 4 servings.

* * *

If you want to add piquancy to your salmon salad, first spice the fish.

Spiced Salmon

2 cups canned salmon
1 cup vinegar
1 teaspoon whole cloves
½ teaspoon whole allspice
8 peppercorns
¼ teaspoon salt

Rinse salmon, thoroughly with hot water. Remove skin and bones. Combine other ingredients. Bring to boiling point, pour on fish, cover, and let stand 2 hours. Drain and separate into flakes. Use in salad.

* * *

The next time you serve appetizers before dinner, spread some of the crackers or toast rounds with the following:

Salmon Spread

To 1 cup flaked salmon, add 1 tablespoon minced green onion, 2 tablespoons finely chopped black olives, ⅛ teaspoon garlic salt, and about ¼ cup French dressing to bind. Add a little salt if necessary.

Here's a new version of Salmon Salad Sandwiches. Use your electric grill for this one; lacking a grill, use a frying pan.

French-Style Salmonettes

7-ounce can salmon
⅓ cup finely diced celery
3 hard-cooked eggs, chopped
2 tablespoons pickle relish
2-3 tablespoons mayonnaise
12 slices day-old white bread
2 eggs
3 tablespoons milk

Drain, flake and remove skin from salmon. Add celery, chopped eggs, relish and just enough mayonnaise to moisten. Make 6 sandwiches with bread and salmon-egg filling, pressing slices firmly together. Beat eggs and milk together. Dip, do not soak, both sides of each sandwich in egg mixture. Fry on lightly greased griddles of preheated grill (or frying pan) about 4 to 5 minutes until brown on one side. Turn and brown other side. Serve hot.

An excellent molded salad combines salmon with tomato aspic.

Salmon-Tomato Aspic

2 envelopes unflavored gelatin
½ cup cold water
1 can (1 pint 2 fluid ounces) tomato juice
2 tablespoons vinegar or lemon juice
1 tablespoon grated onion
1 bay leaf
3 cloves
1 can (1-pound) or 2 cans (7¾ ounces each) salmon, drained and flaked
¼ cup chopped celery
2 hard-cooked eggs, sliced
6 stuffed olives, sliced

Sprinkle gelatin over cold water; let stand 5 minutes. Combine tomato juice, vinegar or lemon juice, onion, bay leaf and cloves; simmer 10 minutes. Add gelatin; stir until dissolved. Remove bay leaf and cloves; cool until partially thickened. Fold in salmon, celery, eggs and olives. Pour into oiled 1½-quart ring mold; chill until firm. Unmold on crisp salad greens; fill center with seasoned cottage cheese or coleslaw.

Oatmeal Thickens Soup

Try just a little oatmeal as thickener when you're making soup. You'll find it adds flavor.

Fruit Cup Salad to Serve With Ham

If your gang likes a sweet salad with ham, they'll enjoy this.

Fruit Cup Salad

1 3-ounce package cream cheese
½ cup seedless raisins (rinsed in hot water and drained)
½ cup coarsely grated carrot
1 teaspoon prepared horseradish
Salt
Mayonnaise
6 drained canned cling peach halves
Salad greens
Minced parsley

Have cheese at room temperature so it will be soft; mix with raisins, carrot, horseradish, salt and mayonnaise to taste. Arrange peaches on salad greens on salad plates. Fill with cheese mixture. Top with mayonnaise and sprinkle with parsley. Makes 6 servings.

Onion Soup Mix Flavors Hamburgers and Steaks

Spring fever? House cleaning blues? Weary of winter menus? If the never-ending task of getting "three squares" a day has you down to a new low, then it's time you tossed some fresh ideas into your menu hopper.

Here are two dandy suggestions that use a famous make onion soup mix that comes in an envelope. Gourmets say this soup is the best, because of its rich beef flavored broth and the high quality onions which are tender but crisp. Homemakers find the soup a convenient and delicious economy.

Now, the soup is delightful just as soup. Prepare it as directed on the envelope, then float toasted rounds of French bread on top and sprinkle generously with Parmesan cheese.

But, if you would like to serve your family something different, if you'd like to shake off those menu doldrums, then try these simple recipes.

The soup's distinctive beef and onion flavor adds delicious taste interest when used in preparing other dishes. This onion soup mix has a hearty kind of flavor that folks around your table will really enjoy.

Onion Sauce for Hamburgers

2½ cups water
1 package onion soup mix
1 tablespoon butter or margarine
2 tablespoons flour mixed with ¼ cup water

Bring water to a boil. Add onion soup mix and butter or margarine. Cover and cook 10 minutes. Stir in flour-water mixture and continue stirring until thickened. This sauce is well-flavored, so add little or no seasoning to your meat.

Swiss Steak

Combine:
1 package onion soup mix
2 cups boiling water

Take 2 pounds round steak 1 inch thick, dredge with flour and pound. Brown both sides in hot fat, add onion soup mixture, cover and cook 1 hour in 350 oven until tender.

Toss Crisp Lettuce With Tangy Dressing

For bright fruit and lettuce salads this new dressing is ideal:

Dressing for Appetizer Salads

1 3-ounce package cream cheese
1 teaspoon grated orange peel
3 tablespoons orange juice
1 teaspoon lemon juice
2 teaspoons sugar
¼ teaspoon salt

Blend orange peel into softened cream cheese. Add remaining ingredients. Serve with iceberg lettuce and fresh fruit combination. Makes 4 servings.

Pacific Appetizer Salad

Break a head of iceberg lettuce into large bite-sized pieces. Toss with dressing for appetizer salads. Serve the tossed lettuce on crisp lettuce cups. Top each serving with sections of peeled fresh winter pears.

Buttered Bread Cubes Top Casseroles, Salads

Buttered bread cubes make an attractive topping for bubbling casseroles. They also contribute interesting texture and taste appeal when added to a freshly tossed spring salad. Or, crispy bread cubes take their place served under a tangy cream sauce as a main part of a luncheon.

It is good to know that any way you serve enriched bread, it offers your family three important B-vitamins and food iron at a thrifty price.

The 4 Season Seasoning!

THE FRANK TEA & SPICE CO.
CINCINNATI 2, OHIO

Cracker-Burgers Have Extra Snap

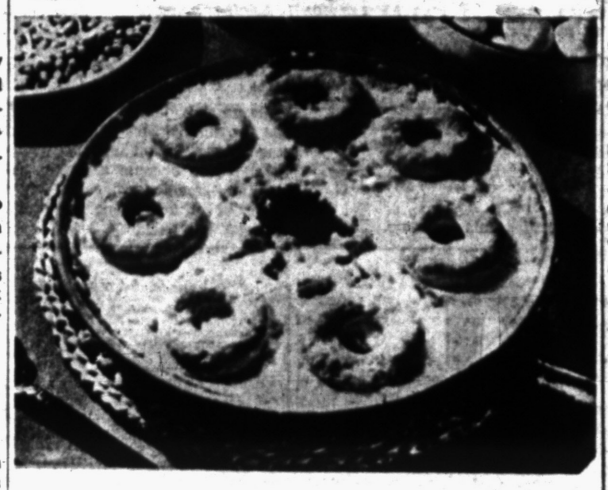
Here's a hamburger specialty which is sure to rate a special niche in your file of favorite recipes. It's a different tasting hamburger patty with rich, cheesy flavor and an accent of catsup.

The patties are so simple to make that you can feature them for the children's lunch, for midnight snacks and TV suppers, as well as for Saturday night guest gatherings. Here's the tested recipe:

Snappy Cheeseburgers

1 pound ground beef
½ teaspoon salt
½ cup cheese cracker crumbs
3 tablespoons catsup
3 tablespoons water

To make crumbs, finely crush about 12 round cheese crackers with a rolling pin. Combine all ingredients and shape into 6 patties. Broil or pan-fry until browned on both sides and cooked to the degree of doneness desired. Serve in toasted buns, if desired. 6 servings.



BAKED CREAMED COD—Served in the Gloucester, Mass., style, here is a real seafood treat. Canned salt codfish in a smooth cream sauce is topped with doughnut-shaped biscuits. This will be a different and unusual main course for this season of the year.

Light-as-Feather Biscuits Top Codfish Casserole

Straight from the home of the cod comes this recipe for creamed codfish. It's baked in a casserole with browned baking powder biscuits.

In the old fishing town of Gloucester, Mass., Fritz Bundy, president of National Fisheries Institute, has been in the fishing industry for years. He and his wife have developed many delicious fish dishes. We give two of them below.

Baked Creamed Cod

1 11½-ounce can salt codfish
2 tablespoons butter or margarine
2 tablespoons flour
1½ cups milk
⅛ teaspoon pepper
1 tablespoon chopped parsley
Few drops lemon juice

Open can salt codfish and drain. Melt butter, stir in flour and add milk. Cook while stirring until smooth and thickened.

Butter a baking dish and fill with alternate layers of codfish and white sauce. Season with pepper, chopped parsley and a few drops of lemon juice.

Top with baking powder biscuits cut with doughnut cutter. Bake at 425 degrees until biscuits are done, 12 to 15 minutes. Makes 4 servings.

Broiled Perch Fillets With Crumb Topping

Thaw and separate one pound ocean perch fillets. Place on lightly greased baking sheet, skin side down. Season with salt and pepper and sprinkle with fine bread crumbs.

Broil about 4 to 5 inches from heat, until crumbs are browned and fish is easily separated with a fork. Serve with lemon wedges. Makes 4 servings.

Stretch Meat Dollar by Storing Properly

Your meat dollar is an important item in the food budget. Protect your investment by proper care of the meats you buy. Here are some pointers to remember in storing pre-packaged (self-service) meats:

All meats should be stored in the coldest part of the refrigerator immediately upon your return from the store.

Pre-packaged smoked or cured meats and packaged sausage may be stored in the original wrapper. However, pre-packaged fresh meats should have the wrapper loosened at both ends before refrigeration.

If small cuts of fresh meats are not to be used within a few days, they may be frozen. Remove the self-service wrapper and rewrap in special freezer paper. Although zero storage is preferable, fresh meats may be frozen in the freezing section of the refrigerator if they are used within one week.

Dark Ring Inside Egg Can Be Easily Eliminated

WASHINGTON (INS) — What causes the dark ring that sometimes appears between the yolk and the white of a hard-boiled egg?

The Department of Agriculture gives this answer: When an egg is cooked too long or at too high a temperature, the iron in the yolk combines with the sulphur in the white to form ferrous sulphide. That's the dark layer, but it doesn't affect food value or flavor.

The dark ring can be prevented by cooking the eggs at simmering temperatures 25 to 30 minutes. Dip hard-boiled eggs into cold water to halt the cooking process.

Pineapple-Filled Biscuits Perk Up Budget Menu

Pineapple filled biscuits will take only a few minutes and will perk up a budget menu:

Spread the biscuit dough, rolled ¼ inch thick, with melted better, ½ cup crushed pineapple, 1-3 cup of sugar, 1 teaspoon cinnamon. Roll lengthwise and slice in 1½ inch slices. Bake in greased muffin tins for 15 to 20 minutes.

Fruit Cake Makes Hit Any Time or Season

CHICAGO (INS)—You can take the season out of fruit cake by giving it some new "accessories"—digestible, of course.

Thin slices of it go wonderfully with ice cream.

Try cutting it in bite-size squares and icing them together two or three at a time for some unusual petit fours to tempt the ladies after an intent bridge game.

Fingers of fruit cake made into sandwiches with a filling of nut butters or cream cheese can give a different accent to lunches of fruit salad and cottage cheese.

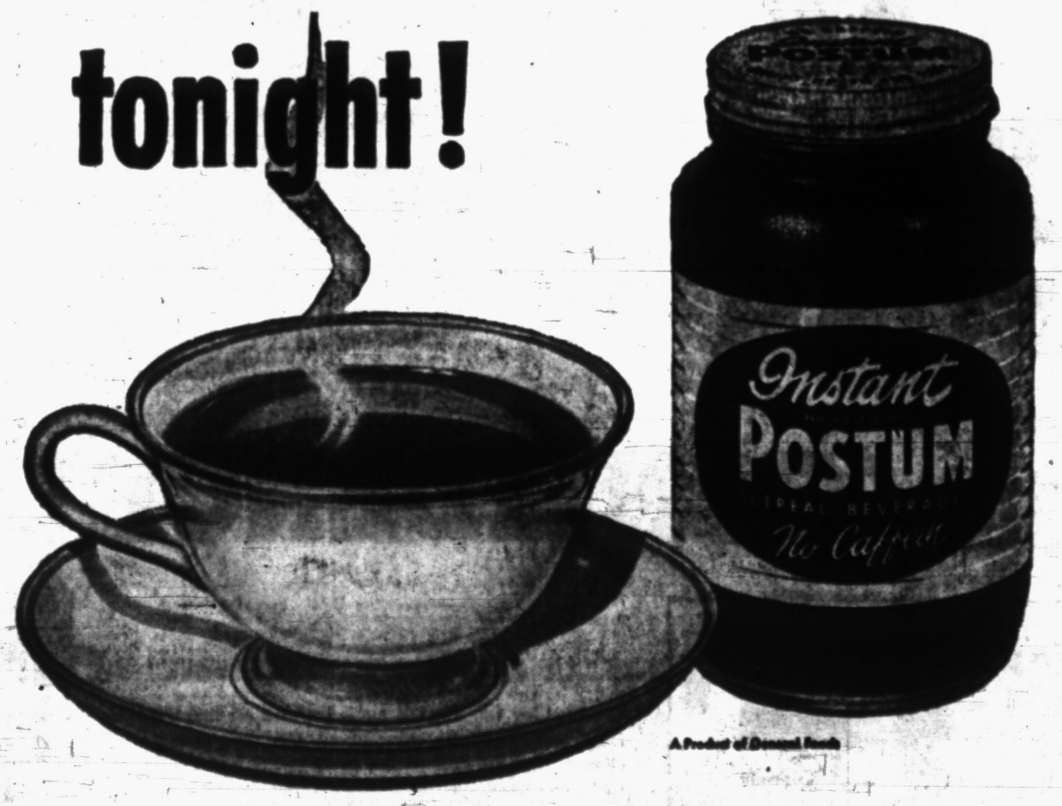
How to save money and SLEEP BETTER tonight!



A Product of General Foods

Cup for cup, INSTANT POSTUM costs less than ⅓ as much as coffee!

Every cup is caffein-free, it lets you sleep! Millions of folks praise Postum for bringing them relief from "Coffee Nerves." Lots of people can take the caffein in coffee . . . others suffer sleeplessness, nervousness, indigestion. Switch to Instant Postum . . . you'll save sleep, save money, too!

It's like getting every second and third cup free when you switch from coffee to Postum. The big 8 oz. jar of Postum makes up to 100 hearty cups . . . nearly three times more cups than you get from a pound of regular coffee, yet Instant Postum costs less, far less. So have a second cup—and save with Instant Postum!

Save 10¢ on the new Flavor-Blended DURKEE'S MARGARINE

All margarines are a *blend* of flavors—but there is a big difference in ordinary margarines. The flavors separate. In new Durkee's this *can't* happen . . . because Durkee scientists have found the secret of blending the flavors together so they will never separate.

This new process makes Durkee's Flavor-Blended Margarine equal to any spread at any price.

Next time you shop, be sure to get new Durkee's. Once you taste it, you'll never go back to the spread you're using now.

CLIP THIS COUPON
SAVE 10¢
on a pound of
DURKEE'S FLAVOR-BLENDED MARGARINE

TO THE DEALER: Durkee Famous Foods will redeem this coupon for 12¢ provided: (a) Dealer has accepted it in exchange for Durkee's Flavor-Blended Margarine; (b) Dealer presents coupon within 60 days to Durkee Famous Foods, either by (1) mailing it to Durkee Famous Foods himself, or (2) by handing it to a Durkee salesman. (Coupon will not be redeemed if presented through agencies, brokers, etc.) Customers must pay sales tax. Invoices showing dealer has purchased sufficient stock to cover coupons presented for payment must be shown upon request. The redeemable value of this coupon is 1/20 of 1 cent cash. This coupon is void if taxed, prohibited or restricted by law. This offer expires in 30 days.

Austria Ads to Woo India's Commerce

VIENNA (INS) — High officials of the Austrian Chamber of Commerce announced that Austria will step up its advertising in India to get a larger share of India's multi-million dollar market.

The Austrian chamber was smarting under the fact that Austria is practically unknown in India and that exports to the Far-Eastern nation have increased only slightly in past years.

The local officials said many European competitors of Austria, such as West Germany, managed to raise their exports to six times the 1951 amount while Austria climbed only from around three million dollars in 1951 to about four million in 1953.

Magsaysay Finds Need for Reforms in Manila to Draw Generous Tourists

PHILIPPINES' MAGSAYSAY: A happy nation of small farmers.

By FRED SPARKS

MANILA (NEA)—Tourists with soft white skin turn pink under the tropical sun around the swimming pool at the posh Hotel Manila. Peaceful as a travel poster.

Inside, at the entrance to the grand ballroom, a sign reads: "Check your weapons before entering."

Ramon Magsaysay, the new President with a Hollywood smile and wrestler's energy, is trying to eliminate reasons for the sign (which has nothing to do with the Huk rebellion). He wants to attract more tourists — with soft white skin and hard currency.

He's got a big job ahead, for personal pistols packed by high-spirited folk are an ancient habit. In a provincial courtroom the other day there was gunplay between opposing attorneys worthy of a western movie. The judge joined in with his pearl-handled Colt.

The President is trying to get the citizens to turn in their weapons—except in special cases including those who must motor through lonesome country stretches. Each morning the federal police ticker reports cars stopped by a few shots fired over the hood—then the riders relieved of their wallets.

A salesman who regularly drives through back-country told me: "I'm not afraid of losing my cash. But if the hoodlums are high on "tuba" (the local joy juice) they might not like your face and decide to improve it with a bullet hole."

I've been told that if you draped an American flag on your car you'd be safe from roadside Robin Hoods—and I believe it. I've never found another country where Yanks are more popular.

In fact, Filipinos from top industrialists to farmers who never owned a suit tell me: "The whole independence movement was silly. If we had a vote today it would be a landslide to rejoin the United States."

Even Communist-led Huks reject Moscow's syndicated cartoons showing Uncle Sam breakfasting on small children. With England booted and booed in her colonies this is a tribute to America's basic common sense—and to millions of GIs who made buddies in every barrio and barroom and married city-fulls of local dark-eyed lassies.

Of course, the Filipinos think we're wonderful suckers. It must be rough to be a U. S. bureaucrat here. The citizenry laughs and laughs at our assorted give-away programs.

I attended a Manila-made documentary depicting Vice President Nixon's visit to the Philippines—a four-star hit. The short played up the Vice President shaking hands with the average Joe; the audience loved it.

But when the camera recorded Nixon visiting some Foreign Aid Administration projects and the United States Information Service, one wag yelled: "USIS — useless." All hands were laid in the aisles.

Washington's bureaucratic alibi for spilling dollars on projects here is that "poverty breeds communism."

As any American resident here will testify, poverty as we understand it in a Harlem slum or land-tired Greek province doesn't exist.

Magsaysay indirectly slammed the project-peddlers when he said recently the Philippines must merely strive to become a happy nation of small farmers. There's plenty of soil for anyone who wants to bend his back.

Death Takes Man on Second Attempt

SEATTLE (AP)—Stanley J. Dec escaped with his life Tuesday when his car plunged from the end of a pier into the deep waters of Salmon Bay.

Yesterday he died by drowning in a bathtub.

Coroner John P Brill Jr. said Dec, 33, was admitted to a sanitarium Tuesday evening for treatment of "general depressiveness." Yesterday another patient found him in the bathtub.

Dec and his 5-year-old son Thomas were in the car when it rolled off the pier Tuesday while the father was trying to locate a boat belonging to clients. Dec was an insurance underwriter.

He managed to open a window of the car and escaped through it, pulling the boy with him.

Traffic accidents killed 38,300 people in the United States in 1953.

Bob Considine Says:

Carnegie Report to Help Us Learn About U.S.S.R.

NEW YORK (INS) — Slowly, surely, we learn the nature of the enemy. Some of that knowledge comes from the dregs of do-nothing meetings with him, as at Berlin and often in U.N. Some of it emerges from exhaustive government studies, sad-eyed refugees, and hit-and-run congressional hearings. But it all adds up toward a final mass comprehension without which we can never find victory.

Another contribution to that goal will be made, probably obscurely, in New York on April 3 and 4, at the Carnegie Endowment for International Peace Building, U.N. Plaza. That it will go unnoticed by most of the public appears almost certain. Its title appears likely to discourage be-boppers. It will be called "Academic Freedom in the U.S.S.R. as a Threat to Bolshevik Theory and Practice."

"There still remain some segments of American public opinion which have not yet shed all their illusions concerning the U.S.S.R., especially as regards the state of academic freedom there," reads the discreetly phrased prospectus.

"By having former Soviet scholars and American students of Soviet affairs expose the restrictions placed on academic research and activity in the U.S.S.R. and the reasons for them, the organizing committee feels that a great step will have been taken in the direction of demonstrating to the world the false pretensions of the Communist leaders in the sphere of academic freedom."

Sounds heavy. But it's mighty important when one considers that most of the audience will consist of teachers.

In his review of "Eight Bailed Out," an exciting account by Air Force Maj. James M. Inks of his ten months behind the lines in Yugoslavia during the war, Herbert Mitgang takes the author to task for the dedication of the book.

The dedication reads:

"To the memory of General Draja Mihailovich and to those of his followers, dead or alive, who aided us."

Mitgang, a member of the N. Y. Times Sunday staff who served with a bomber wing in the North African campaign, should know better than to rap a fellow flier for offering a little homage to the men who saved his life.

"The irony of the dedication, especially since the author and his crew mates saw with their own eyes that the Partisans and not the Chetniks fought the Nazis, is repeated in a number of places," he writes.

Which, of course, may put a finger on the reason for the strange rap Mihailovich was abandoned by the U. S. and Britain in our combined appeasement of Stalin, and Anglo-American aid thereafter was given to that grand old defender of democratic principles, Tito.

Most of our liberal writers abandoned Mihailovich simultaneously. Tito, in time, murdered Mihailovich after what was called a trial. Inks was one of the American airmen who were prohibited from testifying for Mihailovich at that trial.

In a burst of remorse the State Department declared on April 2, 1946:

"When, in 1941, the Germans overran Yugoslavia, it will be recalled that Gen. Mihailovich organized and led important forces against the occupiers . . . (he) remained in his native land, and without adequate supplies and fighting under the greatest hardships, contributed with his forces materially to the Allied cause . . ."

P. S. "Eight Bailed Out" (W. W. Norton and Co.) is quite a book, even if the dedication did offend Mr. Mitgang.

First broadcast of a political convention was the national Republican meet held in Cleveland in June, 1924.

British Rural Crafts Making Comeback

LONDON (INS) — Rural crafts are making a big comeback in Britain.

The ranks of country craftsmen, nearly wiped out by the industrial revolution, are on the increase again.

Dying arts and crafts are being revived and expanded in a new rural industrial revolution.

The Rural Industries Bureau is sparking the rural crafts revived by transforming the old-fashioned country craftsmen into a modern technician.

This government-sponsored organization is devoted to making craftsmanship pay by merging traditional skill with modern production and trade methods.

In South Africa's Kruger part there is no restriction on the movements of wild animals, but the people who visit the park are forbidden to leave their cars except at specified points.

Shark, Whales Stage Sea Battle, but Who Won?

LAGUNA BEACH, Calif. (AP) — There was a life and death battle in the surf off Aliso Beach, near here, yesterday, between two 30-foot whales and a 15-foot shark, but the outcome finally was shrouded by the deep water of the Pacific.

Two lifeguards who watched the marine giants flail the surf for several minutes said the whales chased the shark onto the sand and there was a deadly exchange that left a section of the strand blood red. Then the battlers plunged into deep water again and disappeared.

Pair Finds $132 in Bills Blowing on Sidewalk

ENDICOTT, N.Y. (AP) — James Iacovelli and Frank Longo thought they were over-feverish with spring when they saw greenbacks dancing on the sidewalk.

They collected $132 worth and took them to police headquarters. A little later Charles Greco walked in and reported he had lost $152. The bills had slipped through a hole in a pocket.

Rochester School Bonds Sell at 2.02 Pct. Interest

Evelyn Caron Becomes Bride of Joseph C. King

ROCHESTER — Evelyn Louise Caron became the bride of Joseph Clyde King Saturday evening in a candlelight ceremony in Detroit's Christ Methodist Church.

The bride is the daughter of Mr. and Mrs. Raoul C. Caron of Rochester. The bridegroom's parents are Mr. and Mrs. Joseph Creech, also of Rochester.

Over 300 guests attended the service for which Evelyn chose an imported chantilly lace gown over ivory tulle and satin. She also wore a single strand of pearls and her fingertip veil had a halo of orange blossoms.

MRS. JOSEPH C. KING

The bridal bouquet consisted of white roses, carnations and hyacinths.

Serving as matron of honor was Mrs. Burton Juengel, a sister of the bride. Dorothea and Bernice Caron, Barbara Allen and Carolyn Cowan, all of Rochester, were bridesmaids. Junior bridesmaids were Shirley Caron and Judith Taylor.

All attendants wore identical gowns in shell pink tulle over taffeta.

Serving as best man was Robert Furman. James Caron, William Price, Kenneth Burr, all of Rochester, and Tony Messinia of Hazel Park seated the guests.

Following a reception held in the church parlors, the bride dressed in a champagne wool dress with brown accessories for a honeymoon trip with her new husband through the eastern states.

The couple will live in Van Dyke on their return.

$1,800,000 Issue Sold This Week

Low Cost Will Permit Redemption in 10 Years, Education Board Says

ROCHESTER — Bonds in the amount of $1,800,000 for construction of schools in the Rochester Community School district were sold this week at a 2.02 per cent interest rate.

One of the lowest interest costs to be submitted in this area during the year, the Rochester Board of Education said this low rate would allow the district to pay off the bond issue within a period of eight to 10 years.

"While it doesn't cut the millage rate of 9.75, it does mean that this special tax will be eliminated at a much earlier date than the 20 years for which it was voted," siad Leonard Harding, president of the board.

Low bid for the bonds was submitted by a syndicate of bond houses headed by Harriman Ripley and Company.

When plans were made for the bond issue, it was decided that 4 per cent would be the interest ceiling. This rate means an actual saving to the district and the taxpayers of more than $300,000.

This week the board also awarded construction contracts for the additions to the Hamlin and Baldwin Schools to the Wallace Construction Company of Farmington.

Inasmuch as the original bids were 10 per cent higher than anticipated, a number of alternates were included and the amount of the contract reduced by more than $25,000 leaving the final net amount of the contract at $320,813.

Herman Wallace, the contractor told the board this week that construction could begin early next week. He said that these two additions (Hamlin and Goodison) could probably be ready for occupancy with the opening of school in September.

PREPARE FOR ANNUAL FESTIVAL—Parent Teacher Association of the Jayno Adams School on Clintonville road, Waterford Township, makes last-minute preparations for their annual chili supper and bazaar to be held Saturday night. Left to right: Mrs. Howard Fletcher, chairman of the festival; Mrs. Richard Carlson, president of the PTA; Sandra Sovereign and Joyce Birker, two students from the Jayno Adams School, inspect some of the objects which will be sold Saturday night. Mrs. Fletcher said that serving would be from 5 to 7 in the school cafeteria.

PTA Will Hold Annual Festival

Jayno Adams Group Sets Event Saturday From 5 to 7 P. M.

WATERFORD TOWNSHIP — Annual school festival sponsored by the Jayno Adams Parent Teacher Association will be held Saturday night from 5 to 7 in the school on Clintonville road.

A combination chili supper and bazaar in charge of Mrs. Howard Fletcher will precede a free movie hour for the children of the community.

In charge of the dining room will be Mrs. Leonard Methner and Mrs. Carl VanSchoick.

Other committee chairmen for the affair will be Mrs. Frank Pietrzak, Kitchen; Mrs. John A. Mangan, fancy work; Mrs. Jack Sovereign as chairman of the home room mothers will manage the white elephant booth.

Children to Go to Rally at Presbyterian Church

DRAYTON PLAINS — More than 60 children, members of the Junior Missionary Society of Community United Presbyterian Church, will attend a rally to be held Saturday at United Presbyterian Church on Oakland avenue.

Speaker will be Miss Mary Kyle, missionary from Pakistan. Sunbeam and Junior Choirs of the Drayton church will sing at the rally.

VFW Auxiliary Picks New Officers

DRAYTON PLAINS — New officers were named Tuesday at a meeting of VFW Auxiliary of Post 4102 here. They will be installed along with post officers in a joint ceremony April 26.

Mrs. O'Dell Stockton was re-elected as president. Others named were Mrs. F. W. Mackinder, senior vice president; Mrs. Ted Garneau, junior vice president; Mrs. Frank Koches, treasurer; Mrs. Earl Wood, chaplain; Mrs. A. B. Warner, guard; and Mrs. Gerald Urick, conductress.

A secretary will be appointed by the president at the installation.

The auxiliary recently presented four flags to Drayton Plains Schools and two to the Oakland County Children's Home.

4 Area Girls Win Citizenship Award

Four South Oakland County high school girls have been chosen by their classmates and faculty as winners of the Ezra Parker Chapter, Daughters of the American Revolution, Good Citizenship Award.

They are Beverly Reid of Royal Oak, Irene Colussi of Ferndale, Ann Schlagel of Hazel Park and Judy Dedoes of Huntington Woods.

The girls will be guests at an honorary luncheon at the close of the Michigan DAR conference Saturday at Battle Creek.

2 Dem Senators Urging Ike to Reveal More Facts on Atomic and H-Power

WASHINGTON (INS) — President Eisenhower was urged by two leading Democratic senators today to give the nation all the facts he can reveal about the full power of atomic and hydrogen weapons.

Sens. Mike Mansfield of Montana and John Stennis of Mississippi joined Sen. Alexander Wiley (R-Wis) in the demand following disclosure that super-weapon production schedules have been revised sharply upward.

Wiley, head of the Senate Foreign Relations Committee, had declared that the American people must have more information on the new hydrogen bomb to "secure our hous.."

Meanwhile, the Atomic Energy Commission notified Japan that the U. S. has "greatly increased" its precautions against possible injury resulting from atomic and hydrogen tests in the Pacific.

The AEC told the Japanese government that the test area has been enlarged, additional steps have been taken to warn any craft from accidentally entering the area, and monitoring stations to detect any radioactivity in fish are being set up at Pacific ports.

Eisenhower told his news conference yesterday that the recent Pacific explosion must have surprised and astonished the scientists and that the U. S. must take precautions which were never considered before.

He also said he would wait for the return of AEC Chairman Lewis L. Strauss from the Pacific tests to review the whole question of the limits of the problem which can be talked about.

Closed-door testimony released by the House Appropriations Committee showed that the administration has steeply increased the production schedules for atomic and hydrogen explosives and for the manufacture of weapons.

The testimony given by Strauss and AEC General Manager K. D. Nichols earlier this month also revealed that the government is planning still larger atomic and hydrogen tests to follow the present series, which may continue until June.

Stiles Members of Farm Assn. Hold Meeting

AVON TOWNSHIP — Thirty-five members and guests of the newly organized Stiles Branch of the Woman's National Farm and Garden Assn. recently met at the home of Mrs. Earl Webb on South Boulevard.

Mrs. Aaron Ball, president of the Brooklands branch of the association, gave the group pointers on the successful growing of iris blooms.

In the business session, Mrs. Daniel Bowers was elected vice president and Mrs. Orin L. Romigh was appointed publicity chairman.

The group plans to meet on the second Monday of each month. The next meeting will be held April 12 at the home of Mrs. Walter R. Riggle, 1060 W. Auburn Rd.

Red Official Asks Asylum

BERLIN (AP)—Max Janecke, public prosecutor in the Soviet zone town of Brandenburg, crossed into West Berlin yesterday and asked for political asylum.

Walled Lake Names Co-Valedictorians for 1st Time in High School's History

WALLED LAKE—Co-valedictorians were announced today for the senior class of Walled Lake High School for the first time in the school's history.

They are Phyllis Kopietz and Anne De Florio. Both have attained perfect 4.0 averages in scholarship.

Betty Lou Rocker with a 3.81 average was announced as the class salutatorian.

Phyllis is the daughter of Mrs. Eva Kopietz of 917 E. Lake Dr. A student council member for two years in junior high, she served as class secretary in the ninth grade and was awarded an American Legion medal that year as the outstanding girl of her class.

PHYLLIS

She also served as a council member in the tenth grade, as council secretary in the eleventh and as a debating team member in her sophomore year. At present she is a member of the National Honor Society, Latin and Math Clubs and works on the Viking, the student newspaper.

Anne, the daughter of Mr. and Mrs. Anton De Florio of 514 Huron, Commerce, is also a member of the National Honor Society, the Latin and Math Clubs and a staff member of the Viking.

ANNE

Also a former member of the debating team and a varsity cheerleader, she plans to enter the University of Michigan to study psychology next fall.

Betty Lou, the class salutatorian, is the daughter of Mr. and Mrs. Kenneth Rocker of 48201 Pontiac Trail, Wixom. She has been active in 4-H work since she was ten years old, is a member of the 4-H Service Club and last year won a trip to Chicago for her efforts.

BETTY LOU

Formerly a staff member of the Viking and secretary of the Library Club, Betty Lou is now a member of the National Honor Society and the Future Homemakers and Pep Clubs. She plans to attend Michigan State College after graduation.

Hold Ladies' Night

WATERFORD — Members of the Beacon Club will observe ladies' night at Waterford Community Church Saturday beginning at 6:30 p. m. Reservations may be made with Hugo Magnuson or Stephen Phetteplace.

THE INDEPENDENCE TOWNSHIP Board of Review will meet at the Township Hall, 90 North Main St., Clarkston, Friday the 26th day of March from 2-5 p.m. and from 6-9 p.m. for the purpose of reviewing the Assessment Roll of said Township, any person may appear and show cause why his assessment is not correct, and upon sufficient cause said Board may correct such assessment.

Bureau to Alter Weather Data

Says Farm Forecasts to Be More Informative Starting April 1

WASHINGTON (AP)—The weather bureau said today it will open a revised and more informative farm weather forecast program on April 1.

On that date, the bureau said, the agricultural weather forecast program for this year's crop growing season will begin over most of the country.

It is said the program has been redesigned to deliver weather information to farm homes earlier in the day. Main forecasts will be put on the air through local radio stations from 6 to 8 a.m., local time.

The weather bureau said it would try to provide more information on winds, drying conditions and the extent of cloudiness or clear skies.

Also, the bureau said, the early morning bulletin will forecast conditions for three days ahead. In most areas the three-day outlooks have heretofore not been available until about noon.

County Deaths

Grace Elliott

TROY TOWNSHIP—Service for Grace Elliott, 73, of 4610 Livernois Rd., will be at 10 a.m. Friday at Schwarzkoff-Milliken Funeral Home, Utica, with burial in Oakview Cemetery, Royal Oak. She died Tuesday at home.

She is survived by four cousins, Edna Oliver, Mrs. Josephine McMillan, George Gaston and Russell Gaston, all of Detroit.

Mrs. George Young

DAVISBURG — Service for Mrs. George (Vera Myrtle) Young, 52, of 10990 Bigelow Rd., will be at 2:30 p.m. Friday at Community Bible Church here, with burial in Lakeview Cemetery, Clarkston. Arrangements are by Pursley Funeral Home, Pontiac.

Mrs. Young died Tuesday at Pontiac general Hospital after a short illness.
short illness.

Surviving besides her husband are her mother, Mrs. Emily Vick; a daughter, Mary Lou at home; two sons, Leslie Richard in the Merchant Marine and Alfred D. of Clarkston; five brothers and one sister.

Mrs. Peter Terban

FERNDALE — Prayer service for Mrs. Peter (Emma) Terban, 33, of 1423 E. Bennett, will be at 9:15 a.m. Saturday at the Gilewski Funeral Home, Detroit. Requiem Mass will be sung at 10 a.m. Saturday at St. Rita's Church, Detroit, with burial in Mt. Olivet Cemetery.

Mrs. Terban died Tuesday in Mt. Carmel Hospital of burns suffered March 15 when her clothing caught fire as she burned rubbish in her back yard. Her husband survives.

County Calendar

Thomas Community Assn. will sponsor a dance Saturday night.

SIR PIERSON DIXON

The United Kingdom's new delegate to the U.N., replacing Sir Gladwyn Jebb, is Sir Pierson Dixon. He entered the government in 1929 and has been deputy undersecretary of state in the foreign office.

Auxiliary of VFW Has New President

KEEGO HARBOR—Luella Dale has been named as the new president of Heart of the Lakes Auxiliary of VFW Post 2706. Auxiliary officers and those of the post will be installed in a joint ceremony April 10 at Cook-Nelson Post in Pontiac.

Other officers are Margaret Terreault, senior vice president; Mrs. Harry Fitzpatrick, junior vice president; Mrs. Russell Wilson, secretary; Mrs. Grace Oerkfitz, chaplain; and Mrs. Harold Schingeck, treasurer.

Mrs. Charles Lattimer, conductress; Mrs. Maxine Digle, guard; and Mary Louise Cook and Mrs. Avery Parker, trustees for two and three years.

Prowler Search Spoils Raccoon's 3 A. M. Snack

SYLVAN LAKE—It could only happen at 3 o'clock in the morning!

Sylvan Lake Policeman Ted Robinson was peacefully patrolling his area yesterday morning when a call came over the radio that a prowler was on the roof of a home.

Robinson sped to the William Ferguson home, 2468 Pontiac Dr.

Flashlight in hand, he cautiously peered over the edge of the roof. The prowler: A large raccoon munching on a ham bone.

Robinson chased the coon up a tree and quietly returned to his patrolling.

Oxford Garden Club Has 1st Meeting on Monday

OXFORD—Mrs. George Tunstead opened her home for the first meeting of the Garden Club Monday.

Following a luncheon, Mrs. Arthur Selden of Pontiac showed pictures of her trip to Europe. The next meeting on April 5 at Mrs. Herman Weigold's home will be on soil conditioning.

County Births

Oxford

Mr. and Mrs. Arthur Curtis announce the birth of a son, Daniel Bruce, March 20 at Pontiac General Hospital.

Real Estate Class Reports on Advantages in Pontiac

Eleven students in W. Earl Taylor's real estate sales class painted Pontiac as a healthy city striving to make itself even better.

Students in all four classes, cosponsored by the University of Michigan Extension Service and Pontiac Real Estate Board, are digging up information on what Pontiac has to offer prospective homeowners, industrialists or businessmen.

Taylor, instructor of Thursday afternoon and evening classes in Hotel Waldron says, "We believe when you sell real estate in Pontiac you must sell your buyer on Pontiac itself."

All students have been assigned topics for reports.

Tuesday's 11 students reporting included Mrs. Yvonne Buddenbaum, Perry Griggs, B. D. Charles, Mrs. Edith Langworthy, Daniel J. McBain, Q. Robert Mahan, J. R. Hiltz, Mrs. Emma Hornblad, Emery M. Hayes, Mrs. Phyllis Dorris and Mrs. Elleen Steinhelper.

Mrs. Buddenbaum, speaking on police and fire services, said all city police cars now have three-way radios connecting them to police headquarters, Oakland County Sheriff's Department and other cars. Pontiac's traffic violations bureau takes in some $60,000 a year in fines.

Griggs gave Pontiac's history, starting with Col. Stephen Mack's founding of the city in 1819. The first house was built in 1818 by three Pontiac Company employes; the first church in 1821 by the Baptists. Pontiac became a village in 1835 and a city in 1861, he said.

Charles pointed out Pontiac has a large downtown shopping district, the new Tel-Huron project, and other shopping facilities. "The east side of Saginaw street," he said, "is known as one of the best business locations in the country."

Mrs. Langworthy said the nearness of Canada can be a great advantage to Pontiac. Canada has metals for our industries, workers for our payrolls and a market for products.

McBain discussed techniques of buying and selling farms near Pontiac.

Mahan said the Pontiac area has a great real estate future. Pontiac employed 29,000 workers in February and paid them $3,600,000, he said. He predicts the greatest growth will come in nearby townships.

Hiltz spoke on the problem of growing suburban populations. "We've 50 governments in the county," he said; "25 townships, 14 cities, 10 villages and the county itself. We should study some form of combining some of them—this is pretty expensive government."

Mrs. Hornblad outlined Pontiac's form of government, with a city commission making policy and a city manager as chief executive.

Reporting on Pontiac's sewage and garbage facilities, Hayes said the city's policy of dumping garbage in old gravel pits has already reclaimed a long stretch of land on Orchard Lake avenue.

Pontiac home owners now have garbage picked up once a week, trash collected once every two weeks and an expanded sewage plant that can handle the city's peak sewage output of 15,000,000 gallons a day.

Mrs. Dorris, speaking on financial institutions, said Pontiac's banks and loan companies have poured over $100,000,000 in mortgage money into the community to help home buyers.

Mrs. Steinhelper spoke on water supply, pointing out the city pumps an average of 13 million gallons a day, or about 178 gallons per person. More than half of this is used by industry and business, she said.

Grading Fees to Be Raised

Charges Also to Go Up for Inspecting Poultry, Eggs and Rabbits

WASHINGTON (INS) — The Agriculture Department has announced it will increase fees and charges for grading and inspection of eggs, poultry and domestic rabbits on April 1.

Beginning on that date, the hourly charge for grading and inspection will be four dollars, compared to the current rate of three dollars and 60 cents.

Fee schedules for grading on a package or lot basis also will be increased. For example, the fee for grading 600 cases of shell eggs will be hiked from 15 dollars to 17 dollars and 50 cents.

The current fee of 13 dollars for grading 25 thousand pounds of poultry will be raised to 17 dollars and 50 cents.

Gourmets to Make Tour

NEW YORK (INS) — Anybody in the restaurant business who wants an unusual vacation can sign up with the "Tour Gastronomique. This is a group tour, planned to include 150 persons, which will make a six-week eating-and-drinking tour of the most famous dining spots in France, Italy and Switzerland. The tour leaves New York May 17th via Pan American World Airways. It is sponsored by the American Society of Restaurateurs.

Mom Reads Son's Rite

PERTH, Australia (UP)—Mrs. Maud Mary McDonough, 71-year-old minister, recently performed an unusual marriage ceremony—that of her 40-year-old son, Rolf. She became a minister on 1925 with the Western Australian Spiritualistic Church. A few years later she was ordained and was registered to perform marriages in 1931.

The first wrought iron beams for building construction in the United States were made by Peter Cooper in 1854.

Some Things Just CAN'T WAIT

Pontiac Needs More Hospital Facilities NOW!

To care for the sick and injured in our fast growing area, Pontiac General Hospital must be expanded as quickly as possible.

Currently the medical people and hospital staff are doing everything possible to give aid and assistance to folks requiring hospitalization, **BUT** they are hampered by serious over-crowding of the present facilities. Many patients must occupy beds in halls and rooms not intended for sick. Others, whose treatment can be delayed, are ask to wait until conditions are such that beds and rooms are available. With the ever increasing growth in our population, more and more folks will need the services, equipment and facilities of the hospital.

***YOU* CAN PROVIDE AN EXPANDED PONTIAC GENERAL HOSPITAL AT NO INCREASE IN PRESENT TAXES WITH YOUR VOTE ON APRIL 5!**

At the coming City Election, when you vote to elect members to the City Commission, you will also be asked to vote on two proposals. Both proposals must be approved for Pontiac to provide this much needed hospital addition NOW!

ALL VOTING CITIZENS OF PONTIAC will be given a ballot for **CHARTER AMENDMENT No. 1.** Voting **"FOR"** it authorizes the City Commission to continue, not increase, **MERELY CONTINUE** the present rate of tax collection and use these funds for Public Improvements including the addition to Pontiac General Hospital.

ALL PONTIAC PROPERTY OWNERS will be given a separate ballot on the **HOSPITAL BOND ISSUE. Voting "YES"** authorizes the City Commission to make financial arrangements to build the hospital addition immediately.

VOTE "FOR"

X

CHARTER AMENDMENT No. 1

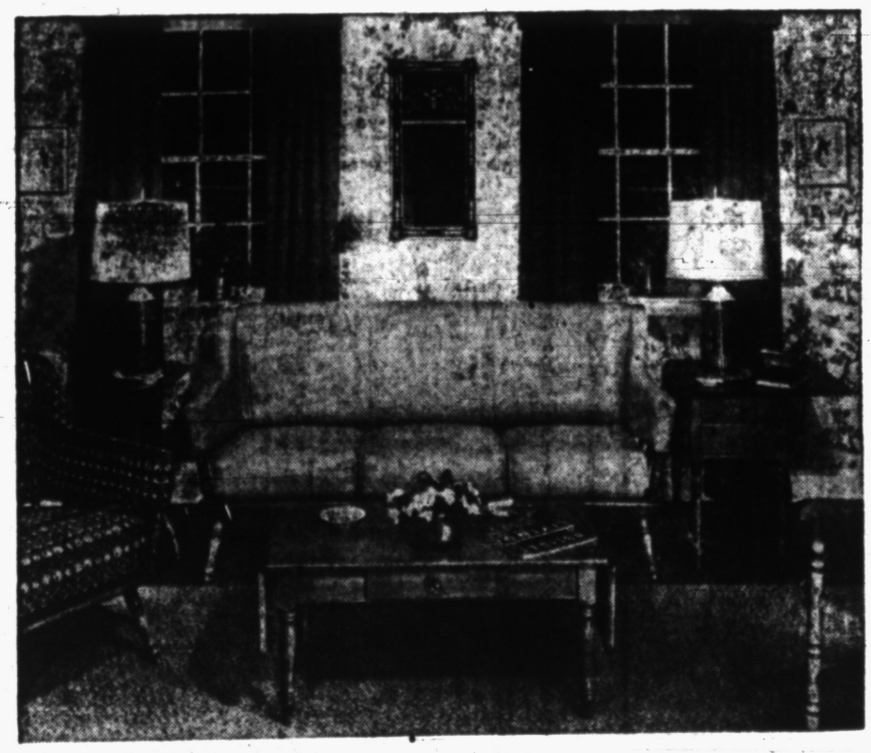
to continue present tax structure earmarking funds for hospital expansion and public improvements.

VOTE "YES"

X

On the HOSPITAL BOND ISSUE

to provide funds for building the additional hospital facilities right away.



Solid Maple by Sprague Carleton

Pixley HOME FURNISHINGS

330 - 332 Main Street Rochester, Mich.

OL 2-2121 — OL 1-9642

Peterboro offers American Homemakers the newest styling in Early American Maple. Named for the historic town of Peterboro in sight of Mt. Monadnock. This group has the airy beauty of old Hitchcock turnings, yet the thoroughly modern seating comfort of the Sprague & Carleton tradition — topped by 100% Goodyear Air Foam backs and arms.

There are more business firms in proportion to population in the United States today than in 1900—38 firms for every thousand people today compared with 21.

People who live on farms make up about 15 per cent of the population of the United States and have about 5 per cent of U. S. income.

Slums Fought by Chicagoans

Citizens' Group Pushes Move to Prevent Slum Growth

CHICAGO (INS) — A group of Chicagoans is waging a frontal attack on so-called blight, encroaching slums which creep like cancer across cities throughout the nation.

The group is the Back of the Yards Council which gained world-wide fame 10 years ago for cleaning up one of history's vilest slums in Chicago's meat packing district.

Now, as before, the man on the street is up at bat against "decentralization," the exodus to suburbs which abandons the city's costly facilities to erosion while swamping facilities of rural communities.

Backed by the council, the inhabitants of the area plan simply — to make the section more livable: to build $15,000 houses on neglected empty lots, convert out-of-use buildings into apartments, and generally to renovate dwellings already in use.

Joseph B. Meegan, executive secretary of the council, is convinced the program will work. To prove it, the council itself, located a lot and built a "model" house for display. It later will be sold at cost.

But success, as in the past, hinges on all persons working together. No federal or city funds will be used. The neighborhood within the nation's second largest city contains about 90,000 persons, nearly the population of Niagara Falls, N. Y.

Among them are packing house workers, merchants, clergymen, school teachers — people of rival politics, different religions and 18 nationalities. Yet they previously whipped a staggering crime rate, vandalism and almost daily violence in the streets, and cleaned up garbage strewn alleys and repaired "death trap" buildings.

Their battle plan against blight calls for a chain reaction: (1) a lot is found and its owner located for whatever title arrangement is acceptable; (2) availability of a building site encourages persons to make their homes in the city to halt decay instead of fleeing from it; (3) prospective customers persuade building contractors that there is a "market" in the city as well as outside of it.

And 1, 2, and 3 attract finance companies to invest.

Meegan, who helped found the council in 1939, declared: "We've got more parks, more churches, more schools, more recreation facilities and better police and fire protection than any other part of Chicago. We want people to stay in this neighborhood instead of treking out to the suburbs."

Commerce Fairs Help Build Up Europe's Trade

LONDON (INS) — The trade fair is emerging today as Europe's crack salesman.

No figures or even estimates are available on the amount of business promoted by trade fairs but their popularity with both sellers and buyers has noticeable increased since the end of the war.

The number of trade fairs of all kinds staged in Europe has been steadily mounting. More than 70 trade fairs are scheduled for Continental Europe during 1954 and Britain alone is holding some 45 trade fairs of her own.

These fairs cover an almost limitless field of consumer and capital goods. Many are specialty affairs, devoted to the products of a particular industry or group of industries, such as Milan's European Machine Tool Exhibition, Geneva's Motor Show and London's Leather Goods Industries Fair.

There are, however, a considerable number of big international events, like the British Industries Fair, the Paris, Brussels, Cologne, Frankfurt and Leipzig International Fairs, and the Royal Netherlands Industries Fair among many others.

Manufacturers throughout Europe are using trade fairs today to develop their trade not only with the countries in which the fairs are held but also with countries which regularly send buyers on tours of European fairs.

Tree Older Than City

WEST CAPE MAY, N. J. (AP) — 350-year-old holly tree, loaded with bright red berries and shiny green leaves, still stands beside a street in West Cape May. The huge holly tree — said to be New Jersey's oldest — measures over seven feet around the trunk.

THAT'S A HOUSE?—Yes, it is, and Monreglio Oreste, an Italian immigrant to Caracas, Venezuela, is mighty proud of it. The home has 13 rooms, several open-air sun porches and entire rooms framed in glass. Without the landscaping the modern home has already cost Oreste about $275,000.

Woodlawn Plantation Is Mt. Vernon Extra

MT. VERNON, Va. (INS)—Tourists visiting Mt. Vernon this year should also take a look at Woodlawn Plantation.

This is a historic mansion three miles from George Washington's home. It was Washington's gift to his adopted daughter, Nell Curtis, and many of the Washington possessions were used to furnish Woodlawn.

The plantation, which has a superb view of the Potomac, has been noted through the years for its late Georgian architecture: It is administered by the National Trust for Historic Preservation, but receives no government funds.

The trustees therefore charge 50 cents admission to adults, the funds to be used for restoration work. There is parking space, and guided tours. Woodlawn is open daily.

Wings Favored to Beat Leafs Again Tonight

By JOE FALLS

DETROIT (AP) — Detroit Red Wings are heavy favorites to whip Toronto in the second game of the Stanley Cup playoffs tonight because of the Maple Leafs' strange inability to score at Olympia Stadium.

Coach King Clancy's team has scored only four times in eight games at Olympia this season. That's an average of a half goal per game, and we've never heard of a hockey team winning with a half goal.

But it is no jesting matter to the serious-minded Maple Leafs, whose reputation as hockey's premier playoff club is squarely on the line. Toronto has won more playoff titles than any other team — nine — but it is rated an outsider to make it No. 10 this year.

Wings are near a peak at this time. All injuries are healed, the team is rested and goalie Terry Sawchuk and winger Gordie Howe are performing brilliantly.

Sawchuk helped to blank Toronto six times on Olympia ice this season. He appears to have regained his form of two seasons ago, when manager Frank Boucher of the New York Rangers called him "the best goalie in hockey history."

The man Sawchuk succeeded in the Detroit nets, Harry Lumley, is in the midst of a slump for Toronto. He has been shelled for 16 goals in the last three games — more than five per game.

Toronto, in fact, hasn't played a sound game in its last three starts. Last weekend it lost to fifth-place New York and to Detroit in the season's finale, blowing its chance to finish in second place. Then, Tuesday, Maple Leafs were easy victims of the Red Wings in the opening playoff game, 5-0.

Just what effect that one-sided whipping will have on the Tornonto players, especially newcomers to Stanley Cup play, of course is not known. It could hurt; but it could help.

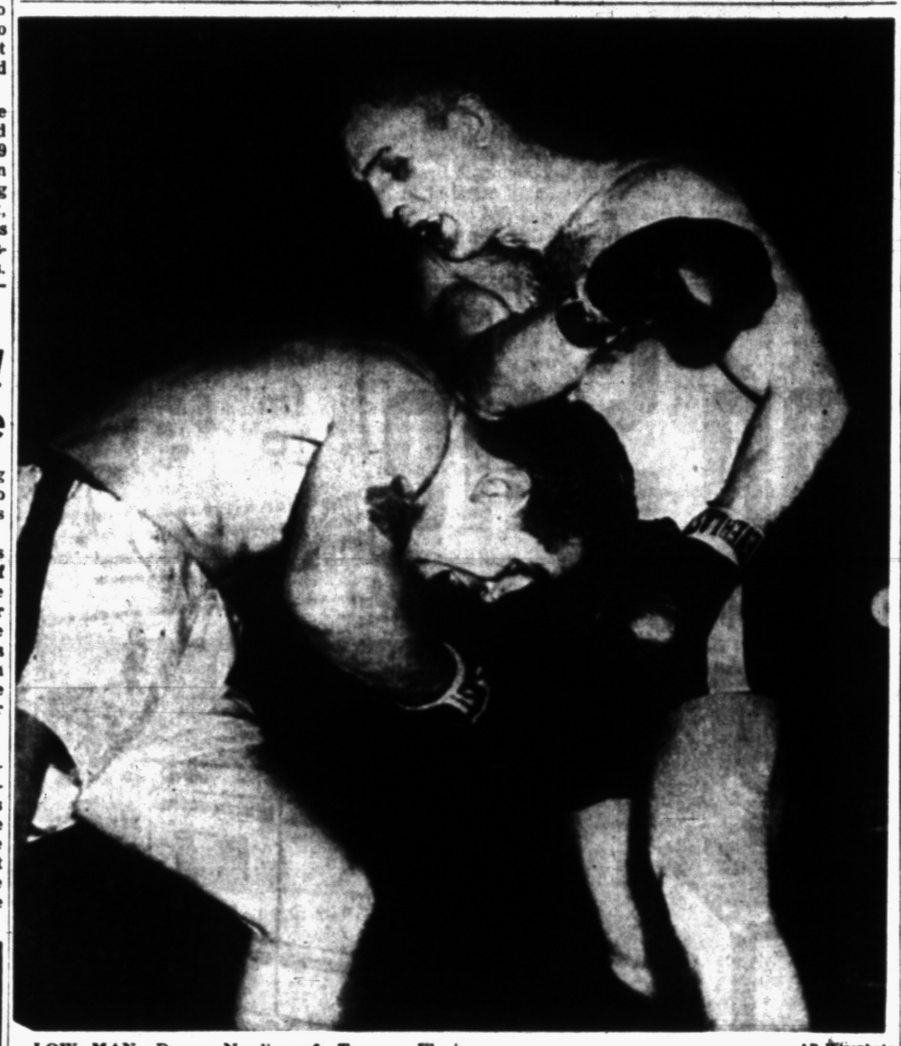
Last year Boston Bruins were the pet whipping boys of the Red Wings, who piled up 69 goals to 19 during the regular season and then trounced the Bostons in the opening playoff game, 7-0. But after that, both the Red Wings and Bruins had a complete about face and Boston eliminated Detroit in 6 games.

If the Maple Leafs are to move into the finals they'll have to win at east one game on Detroit ice. That's something they haven't done in their last 13 tries.

What makes their task all the more difficult is that Gordie Howe is playing his best hockey of the season, and that alone is enough to wreck the opposition. Howe not only is playmaking but his bullet shots, which were flying wide much of the season, are not hitting the target.

After tonight's game, teams will move to Toronto for games Saturday and Tuesday.

Boston-Montreal series resumes tonight in the Canadian city with game No. 3 slated for Boston Sunday night.



AP Wirephoto

LOW MAN—Danny Nardico of Tampa, Fla. (left) ducks low under a swinging right thrown by Charley Norkus of Bayonne, N. J., in their 10-round heavyweight bout in Miami Beach Wednesday night. This was in the 5th round, but Danny's ducking didn't do him any good. Norkus won a unanimous decision in the nationally-televised bout.

Howard Happy Over His Deal With Yankees

Negro Angered Over Baltimore Columnist's 'Trouble Making'

SARASOTA, Fla. (INS—Rookie catcher Elston Howard is satisfied with the Yankees and the Yanks apparently are satisfied with him, no matter what anybody is printing.

Howard angrily charged yesterday that a columnist for the Baltimore Afro-American newspaper for Negroes was "trying to stir up trouble and louse up my chances of eventually making the club."

Howard said that the article implied that the first Negro on the Yankee roster was getting a raw deal from the world champions. Howard said:

"I remember talking to the writer but I never said anything like the things he printed . . . I couldn't possibly get any better treatment than I'm getting here."

Said Stengel:

"Howard already is a big league hitter. He has one of the greatest arms for a catcher I ever saw, and as soon as he gets a little more experience behind the bat, he's in the big leagues to stay . . ."

Agencies May Join to Fight Evils in Sports

Cooperative Action by Accrediting Groups Is Seen

CHICAGO (AP)—Possibility of cooperative action by the nation's various academic accrediting groups in cracking down on college athletic evils was indicated yesterday by a spokesman of one.

Ralph W. Aigler, chairman of an athletic committee for the North Central Assn. of Colleges and Secondary Schools, said his group found "not a little evidence" other regional accrediting agencies were interested in joining forces for a common athletic code.

Aigler reported at a North Central Assn. meeting that his committee expected to vote on April 11 on a workable plan to curb the "twin evils" of recruiting and subsidization.

The committee was organized under Aigler, University of Michigan Big Ten faculty representative, after the North Central in 1953 jolted members with a decision to curb all athletic scholarships.

College presidents throughout the North Central's 17-state area protested vigorously, asserting the group's code was more stringent than that of the American Council on Education (ACE).

The ACE's so-called standard V permits athletes to hold scholarships or grants-in-aid if they meet the same standards of academic performance and economic need required of all other recipients.

Aigler's committee was delegated to study both codes for a possible restatement of North Central policy. At the same time, it was suggested other accerditing groups join in the study.

Aigler said cooperative action by other agencies could be "deeply significant."

"Every possibility along that line should be fully explored," Aigler said. "This, of course, means that any recommended set of criteria agreed upon by this committee must be looked upon as wholly tentative, pending such explorations."

Scribes Pressed for News

Injuries to Williams, Thomson Curbed Enthusiasm of Red Sox and Milwaukee

By GAYLE TALBOT

TAMPA, Fla. (AP)—Members of the working press covering baseball's spring training are moaning in a body that they never knew it so hard to find something to write about. They claim it is the deadest spring training in history and devote much of their time to interviewing one another.

• • •

As best we can figure it out, the explanation is the obvious one that the New York Yankees and Brooklyn Dodgers appear to overshadow their fields so thoroughly — or have for so long up to now — that most of the rival managers have gotten tired discussing the situation.

• • •

Injuries to two key players, Ted Williams of the Boston Red Sox and Bobby Thomson of Milwaukee, did much to stagnate the news front. From what we hear, the Boston players "died" visibly on the day their big man cracked his shoulder and no longer regard themselves as pennant contenders. Thomson's broken ankle affected the youthful Braves less, and Manager Charlie Grimm still is talking a fairly good fight, but the club no longer may be described as blazing.

Though he says little, our guess would be that Paul Richards of the Chicago White Sox has more real hope than any other manager of upsetting the Yankees. "The Editor," as Casey Stengel calls him, is working his club with an intense purpose, as though he means to bring them in by sheer will power.

• • •

If Steve O'Neill has any enthusiasm for his Phillies he isn't saying anything about it. One hears that Eddie Waitkus, recently gone to Baltimore, is not the only one of his players the portly pilot would like to ship elsewhere before the season opens. The Phils are being called "complacent."

Lew Worsham Breaks Record at Palm Beach

Clips 2 Strokes Off Old Mark at Seminole Pro-Amateur

PALM BEACH, Fla. (AP)—Professional golfers moved on to tournaments in Wilmington and Greensboro, N.C., today while officials of the Seminole Golf Club put a new record on their books.

• • •

Lew Worsham, chunky pro from Oakmont, Pa., clipped two strokes off the old mark in winning the annual Pro-Amateur Tournament yesterday with 68-68-136. The old record was held by several players at 138.

• • •

It was Worsham's first tournament victory since his spectacular wedge shot gave him the $25,000 first prize in the Tam O'Shanter at Chicago last August. He collected $1,800 for his Seminole victory.

Jim Ferrier of San Francisco was second with 140 and picked up $1,000. Earl Stewart Jr. of Dallas carded 141 to win $700 and Cary Middlecoff of Grossingers, N.Y., had 142, the same score turned in by Bo Winninger of Oklahoma City. Each collected $475.

• • •

Ted Kroll of New Hartford, N.Y., teamed with R. A. Raese, Morgantown, W.Va., steel executive, to win the pro-amateur division with a best ball of 123. Kroll won $1,000 for his team triumph.

• • •

Ben Hogan of Palm Springs, showed the effects of his long layoff and had 70-73--143 to tie with five others for sixth place, worth $315 each.

Orioles Are Hustling!

Arizona Trainees 'High' on Baltimore's Chances

PHOENIX, Ariz. (INS) — It may be only the balmy Arizona climate, but the Baltimore Orioles have managers whose teams have opposed them this spring going out on a limb in their behalf.

Leo Durocher of the New York Giants, Phil Cavaretta of the Chicago Cubs and Al Lopez of the Cleveland Indians — the Orioles' three Arizona training partners—predicted a much improved performance for the erstwhile St. Louis Browns.

Durocher and Cavaretta won't have to oppose the Orioles once the regular season begins but Lopez will, and he observed:

"The Orioles are playing hustling ball, making good plays and hustling plenty. There's nothing flukey or lucky about Baltimore's wins this spring. I won't predict a 1st division finish for Baltimore this season, but it certainly is not impossible."

Rival managers and Jimmy Dykes of the Orioles agree that trades which brought the club such players as Sam Mele, Gil Coan, Eddie Waitkus and Joe Coleman have helped greatly.

Dykes has been obviously disappointed by the mound showing of the two youngsters he expects to be the bellwethers of his staff, Bob Turley and Don Larsen.

But he has been pleased by the work of Athletics' castoff Joe Coleman and calls him a "real dark horse."

Some of Dykes' rookie hopefuls, such as Vachel Perkins and Jim Post, have begun to fade, but veteran Lou Kretlow, Duane Pillette and Howie Fox have held up well.

Olson Predicts Title Victory

Says He'll Beat Gavilan Because He Fights 'All the Time'

CHICAGO (UP)—Carl "Bo Bo" Olson figured today he would beat welterweight champion Kid Gavilan and retain his middleweight title April 2 simply because "I fight all the time."

"Gavilan," he said, "he's a now and then fighter. He fights for a while, then he backs away and rests for a while.

"But he won't do that against me. I won't let him. I like to fight all the time, and I'll make him fight all the time.

Olson, who has won 54 of his 60 fights since he turned pro at the age of 17 in Honolulu, will be making the first defense of the world 160 pound crown he won from Randy Turpin of England last Oct. 21.

The battle with Gavilan will be the 4th time Olson has been involved in a middleweight title scrap. He lost to Ray "Sugar" Robinson in San Francisco in 1952, then he won the American crown from Paddy Young in 1953, before he gained the world title against Turpin.

Softball Season Plans in Making

Men's League Again to Include Play in Classes A-B

Pontiac Parks and Recreation Department is now making plans for the 1954 men's softball program. Plans call for Class B and Class A Leagues, providing enough teams enter in each classification to justify league organization.

A meeting of managers of men's softball teams considering entry into City Leagues will be held Monday, April 5, 7:30 p.m., at the Pontiac Parks and Recreation Department office, 35 Hill Street.

Any manager or team representative who cannot attend this meeting should call FE 3-7131 and indicate his intentions of league entry.

Practice time and playing field preference, issuance of players contracts, and preliminary discussion of rule changes and regulations make up the meeting agenda.

Benton Harbor Five Wins JC Cage Crown

DETROIT (UP)—Benton Harbor JC won the Michigan Junior College Athletic Conference basketball title Wednesday night with a 68-57 triumph over Highland Park JC.

The Benton Harbor team and Highland Park squad are champions of the conference's two divisions. Benton Harbor tallied two straight victories in the best-of-three playoffs.

Nardico Absorbs Savage Licking at Norkus' Hands

By BEN FUNK

MIAMI BEACH, Fla. (AP)—Danny Nardico, the Tampa brawler who depends on raw courage to overcome his lack of boxing ability, retreated back to the light heavyweight ranks today after taking a second savage beating from Charley Norkus of Jersey City.

• • •

Norkus, the unranked 24-year-old heavyweight, had a 17-pound advantage as he hammered out a unanimous 10-round decision last night in the Miami Beach Auditorium. He weighed 197¼ to Nardico's 180¼.

They were rematched for a national television audience as a result of their bloody eight-knockdown battle in the same ring Jan. 20. Norkus flattened Nardico six times and hit the deck twice himself before the fight was stopped.

Neither man went down for a count last night, but it was the same kind of brawl they had staged before, and it was enough to convince a brutally beaten Nardico he doesn't belong in the heavyweight ranks.

"He's just too tough," Danny declared through puffed lips in his dressing room. "I had to give too much weight."

• • •

Nardico, always on the attack, got through Norkus' fumbling defense with dozens of smashing lefts and rights. By the eighth round, his white trunks were red with blood flowing from Norkus' nose.

• • •

But for every blow he landed, he took two and in the ninth and 10th, as Norkus chopped home one vicious punch after another, the crowd wondered why the wobbling Nardico didn't fall.

Gavilan Arrives in Windy City

New Father Scoffs at Odds Favoring Bobo in April 2 Match

CHICAGO (AP)—Kid Gavilan, welterweight champion and new father arrives in Chicago today for training for his April 7 shot at Carl (Bobo) Olson's middleweight crown.

After formally signing for the Chicago Stadium bout a week ago, Gavilan returned to his Summit, N. J. camp. Yesterday he received the good news: His wife gave birth to a 7 pound, 8 ounce daughter in Havana.

"We named her Victoria in honor of my victory over Olson," said the Cuban Kid, who also has another daughter and a son.

Gavilan, sneering at current 9-5 odds against him, will train at the Midwest gym where he sharpened up for his slaughters of Chuck Davey and Johnny Bratton.

Advance ticket sales are going along at a fair clip, according to the International Boxing Club. Latest figures are an advance of $145,000. The goal is a sellout gross gate of $360,000.

Lions Sign Pair of Collegian Linemen

DETROIT (UP)—Jim Durrant of Utah and Med Bertrand of Idaho, a pair of rookie linemen, have signed 1954 contracts with the Detroit Lions, the team announced today.

Durrant, an offensive guard and linebacker, led Utah to the Skyline Conference title last year. Bertrand, an offensive center, was a ranking player in the Pacific Coast League.

Pontiac Five Loses in Tourney Finals

Pontiac's Junior Elks Lodge No. 723, City Basketball League Class D champions, bowed to Perry's Bandits of Hamtramck 44-43 in the finals of the Intercity Basketball tournament in Detroit last night.

Willie DeWalt, who led scoring with 11 points, sank what would have been the winning basket in the last 10 seconds but a referee's decision that he walked nullified the goal.

Elks trailed 24-20 at halftime.

MSC Gridders Stay

Two members of Michigan State's 1952 National Collegiate football championship team were part-time Spartan assistants in 1953. All-American linebacker Dick Tamburo and tackle Gordon Serr.

Lofgran Is Freed; Checks to Be Paid

OAKLAND, Calif. (AP) — Don Lofgran, basketball star who admitted writing about $1,000 worth of bad checks, is free today because no one prosecuted him.

The former San Francisco U., Philadelphia Warrior and Milwaukee Hawk player was released yesterday to his parents. They said they would pay the bad checks and get psychiatric help for their son, who has a wife and three children.

Lofgran turned himself in to police Sunday.

Moore Closing Gap in Pocket Billiard Test

PHILADELPHIA (AP) — Albuquerque, N. M.'s Jim Moore was closing on leader Luther Lassiter today after setting a new tournament record in the pocket billiard championship matches here.

Moore ran 142 last night in the fifth inning of his 11-inning match with Irving Crane of Binghamton, N. Y. Score at the time was 74-7, Crane. Moore won the match, 150-126, to tie with Crane for second place, each with a 7-3 record.

Lassiter stayed in front with a 150-35 win over Erin Rudolph of Sayre, Pa., in 19 innings. Lassiter's record is 8-2.

Strong Field Is Entered in NCAA Mat Tourney

NORMAN, Okla. (AP) — The NCAA wrestling tournament will open a 2-day run tomorrow with the biggest and best balanced field in history.

Oklahoma Aggies are favorites along with Purdue, Michigan State, Penn State and Pittsburgh.

Aggies' undefeated one-two punch —defending champion Ned Blass, 177 pounds, and heavyweight Gene (90-second) Nicks, the 1952 king and runnerup last year—carry the main title hopes.

Annual Holly High Athletic Banquet Slated

Annual banquet honoring members of Holly High School's athletic teams will be held next Monday at 6:15 p.m. in the new Holly elementary school building.

Holly Kiwanis Club sponsors this annual event. Principal speaker will be Bob Reynolds, WJR sports director, who will do his 6:30 broadcast from the banquet.

Coaches Reese Protz (football and baseball), Chet Aubuchon (basketball and golf) and Don Harrower (track) will present their squads and most valuable player trophies will be awarded for football and basketball.

Fenton Kiwanis will present the Holly-Fenton football trophy to Holly. Toastmaster for the affair is Anthony Renne, Pontiac attorney.

Detroiter Faces Champ

CHICAGO (AP) — Top-seeded Bob Brady of San Francisco, defending champion, takes on Paul Stobbe of Detroit, seven times state titlist of Michigan, in today's feature quarter-final match of the U. S. Handball Assn. tournament.

Home-Room League Playoffs to Start

Playoffs for titles in the 7th, 8th and 9th grade divisions of the Home-Room Basketball League, sponsored by the Pontiac Parks & Recreation Department, will be held on this and next weekend.

Semifinal games this weekend at Washington Junior High match undefeated Eastern Hoboes and Lincoln Trojans in 7th-grade play at 9 a.m.; Eastern Wildcats and Washington Floortrotters in 8th-grade action at 10 a.m.; and Eastern Lady Killers and Washington Challengers, both unbeaten, in 9th-grade eliminations at 11 a.m.

Redlegs Need Right Handers

By JOE REICHLER

TAMPA, Fla. (AP) — Freshman manager Birdie Tebbets believes his Cincinnati Red Legs could win the pennant if they were in the American League instead of the National.

Birdie makes out a good case, too.

"We've got several real good pitchers," Tebbetts began. "Unfortunately, most of them are lefthanders. And in the National League you've got to have good righthanders, too.

"If I had to name my first five pitchers right now, I'd probably have to say Fred Baczewski, Harry Perkowski, Joe Nuxhall, Jackie Collum and Kenny Roffensberger. Every one of them is a lefthander.

"With a staff like that, I'd finish one-two in the American League. Why? Because lefthanders can beat the three top clubs — New York, Chicago and Cleveland — in that league.

"Let's take the Yankees first. Mel Parnell beat 'em five times last year and shut 'em out in four. Billy Pierce beat 'em four times and shut 'em out twice. Alex Kellner shut the Yankees out twice in succession, didn't he? Why do you think Cleveland can't beat the Yankees? Because the Indians' big four is all righthanded.

"Now Chicago. Correct me if I'm wrong but didn't the Yankees' two southpaws — Eddie Lopat and Whitey Ford — lick 'em nine times without a defeat last season? (They did.) And didn't Philadelphia's Bobby Shantz and Alex Kellner beat the Sox five times without a defeat?

Very interesting, Birdie, but the Redlegs are in the National League. Besides, Brooklyn and Milwaukee, generally conceded to be the top two clubs in the National, have shown they can murder lefthanded pitching.

"How unfortunate but true," chirped Birdie. "That means that we've got to come up with some righthanded pitching strength if we are to improve our 6th place standing of a year ago. We know it, that's why we brought 29 pitchers into camp.

Bob Rigolosi, freshman welterweight, is the third member of his family to compete on the Syracuse University boxing team.

Baltimore Has Had Little Chance to Prove Worth as Major Town With Poor Pro Representatives

By GRANTLAND RICE

NEW YORK—There is one sports-minded city that will probably resent any form of outside pity. That is Baltimore.

• • •

It is my claim that Baltimore is a far better city for pro sports than it has ever had a chance to prove. I don't think under similar circumstances New York or Chicago would have been any better.

Over 50 years ago Baltimore had the famous Orioles. They had John McGraw, Hughey Jennings, Willie Keeler and many other stars. Later Baltimore dropped out of the big-league scene. Baltimore remained a minor-league baseball town for half a century.

• • •

As a football city, Baltimore had Navy as the home team for its big stadium—and one must admit Navy has never been nationally too hot. The city began to grow and develop. It was always a good racing town, surrounded by Pimlico, Laurel and Bowie.

• • •

Baltimore finally began encroaching on the million population mark—one of the major cities in the country.

We have always figured Baltimore a big-league city. Suddenly, a number of other people began to figure the same way. Grid promoters marked Baltimore for football's big league. So they sent her a strictly bush-league team.

The Colts developed a fair following but far from enough to keep them out of the red. So Baltimore was dropped.

• • •

Then along came an enterprising promoter and decided Baltimore belonged in basketball's big league. They gave Baltimore everything except enough good basketball players.

• • •

This last season, according to the records, Baltimore finished last in this basketball division. Last fall they brought pro football back again. They gave Baltimore everything—except a good football team.

So now Baltimore is moved back into big-league baseball. Unless a miracle happens and the ex-Browns show they are still breathing, it may be the same story.

Time will correct this. It is no fault of Baltimore that this has happened. It was all thrown into their laps. For the 4th time Baltimore, in three different sports, has drawn all the worst of it. I'll say this—it is a dead-game city. The time is coming when Baltimore will have a big-league basketball team, a big-league football team, and a big-league baseball team. All Baltimore needs is patience.

Spartans' 9 Ready for Southern Training Trip

EAST LANSING (UP)—Michigan State's baseball team opens its 27th annual southern training trip against Duke University Friday at Durham, N. C.

Included in the traveling squad:

PITCHERS—Earnest Erickson, Charles Gorman, Edward Hobaugh, Richard Idzkowski, William Mansfield, William Saffran and Jack Wenner.

CATCHERS—Daniel Brown, Robert Reising and Tom Yewcic.

INFIELDERS — William Hopping, Charles Mathews, Earl Morrall, Jack Zettler, James Sack, Ronald Stead and Robert Williams.

OUTFIELDERS—Charles Bodary, Raymond Collard, Robert Powell and Jack Risch.

Kovacs Replaces Budge

JACKSON, Miss. (INS) — Frank Kovacs of Oakland, Calif., will replace former U. S. singles champion and Davis Cupper Don Budge in the Jack Kramer pro tennis troupe now touring the country.

Kramer announced last night that Kovacs, national men's indoor tennis champion in 1941, will join the group at El Paso, Tex., later this week.

No players were elected to baseball's Hall of Fame in 1940, 1941 and 1943.

Molinas Cleared, but His Chances in NBA Are Slim

NEW YORK (AP) — "He broke faith with us."

Thus Maurice Podoloff, president of the National Basketball Assn., all but squashed any chance Jack Molinas, suspended Fort Wayne star, had of being reinstated to his club.

The Pistons dropped Molinas when it was found that he had placed bets on the team to win. Yesterday, a Bronx County grand jury reported that no evidence of any crime had been found.

• • •

Molinas, overjoyed, immediately said he would like to get back into action.

"We are not concerned with whether Molinas committed a crime," Podoloff snapped. "To us, his betting means that he broke faith with us. It was a flagrant violation of a written contract."

He added that he could not personally outlaw Molinas because such authority rests with the Board of Governors of the NBA. However, he indicated he doubted if Molinas would be permitted to play again.

• • •

Podoloff said the league was out to maintain its record of avoiding scandal and anything that would reflect unfavorably on it.

• • •

"I was silly," said Molinas, "I'll never bet again."

He said he never bet against the Pistons.

It's Time Out!

"I don't know; I forgot to press my stopwatch, too!"

Newhouser Stops Cubs in 3-Inning Stint

By ED CORRIGAN
Associated Press Sports Writer

The date was July 22, 1953 — less than a year ago — Hal Newhouser who once had drawn $65,000 for pitching for the Detroit Tigers, was talking:

* * *

"This is the end. I'm finished as an active player. My arm just can't stand the strain any more."

The handsome fireballer had just been told that at the age of 32, he was all through. He couldn't even hold a job with the last-place Tigers. After almost 15 years with them, he had his unconditional release and memories.

* * *

But he couldn't stay out of the game, and today he's back trying to win a spot with the Cleveland Indians. He's on trial, of course, but what Manager Al Lopez has seen has been encouraging.

* * *

Newhouser got credit for his first victory of the spring training season yesterday when the Indians battered the Chicago Cubs 12-2. Despite the heavy bombing, the slim left-hander bore down all the way through his three-inning stint and didn't allow the Cubs a run.

Meanwhile, the Baltimore Orioles, the Cactus League leaders, won their 11th game against five defeats by turning back the New York Giants 4-3 at Phoenix. They jumped on Sal Maglie for three runs in the sixth after he had run up a scoreless skein of 13 innings.

The Phillies, who have scored just six runs in their last five games, dropped a 7-1 decision to the Washington Senators. Johnny Schmitz and Chuck Stobbs combined to harass the Phillies.

The Pittsburgh Pirates, who have been consigned to the National League cellar, have been hitting home runs all over the lot. They bashed five more in a 10-4 victory over the Philadelphia A's. Winning pitcher Max Surkont was impressive, yielding only one hit in his three innings.

* * *

Young Bill Skowron drove in six runs for the New York Yankees to lead the world champions to an 11-7 victory over the Boston Red Sox. Skowron is a first baseman and the Yanks already have three, but he might stick as a pinch hitter.

The St. Louis Cardinals scored four runs in the ninth inning to turn back the Brooklyn Dodgers 5-2. Stu Miller went five inners for the Cards, allowing the Brooks only one hit, a home run by Gil Hodges.

* * *

Bob Keegan and Mike Fornieles held the Cincinnati Redlegs to eight hits in tossing the Chicago White Sox to a 6-4 victory.

HAL NEWHOUSER

Talent-Starved Buc Nine Adds Players From Denver

FT. PIERCE, Fla. (INS) — The talent-starved Pittsburgh Pirates have turned to Denver in their search for some winning ball players.

Three youngsters who helped Denver finish 2nd in the Western League last season have been getting a thorough screening from manager Fred Haney and his staff of coaches.

Of the three, infielder Curt Roberts and pitcher Nelson King may stick with the club and make the big jump from Class A. Catcher Jack Shepard probably will be farmed out because the Pirates are overstocked with catchers and must keep two bonus rookies.

King, a 26-year-old right-handed pitcher who stands 6-foot, 6-inches, comes to the club with a tremendous reputation as a relief pitcher. In a recent 6-inning effort against the Washington Senators, he permitted only one run and two hits.

Last season with Denver, the Newark, N. J., resident started off by winning 11 straight. King finished with a 15-3 record and an earned run average of 2.00. In 99 innings he allowed 22 earned runs and 87 hits, struck out 87 and walked 22 batters.

The 24-year-old Roberts, the first Negro on the Pittsburg roster, came up with good-field-no-hit notices.

Roberts struck out only 43 times with Denver in 587 times at bat and drew 94 walks. His minor league record shows a .281 batting average in 1951, .280 in 1952 and .291 last season when he hit 12 homers and 32 doubles.

Detroiters Make New Effort for Olympics

DETROIT (UP) — Two Detroit industrialists made another pitch today in their efforts to bring the Olympic Games to Detroit in 1960.

The two men, Frederick C. Matthaei and Douglas Roby, went before Detroit's common council to sound out feelings on their proposal for an Olympic bid.

Detroit lost out in its efforts to get the 1952 and the 1956 games. Selection of the 1960 site will be made at Paris in May, 1955, by the International Olympic Committee.

Cage Banquet Tonight

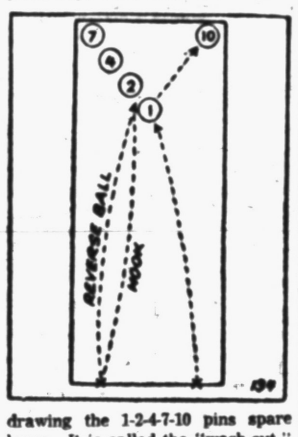
Banquet for players, managers and sponsors in the Waterford Township Recreaation department's men's basketball league will be held at 6:30 p. m. tonight in the Community Activities Building. Following dinner trophies will be presented and a Nat Holman basketball movie will be shown.

Bowling Clinic

By BILLY SIXTY

CASE—Two-Way Spares.

Optional Angles — In aiming to hold the ball to the right of the head pin on the first shot to overcome "riding high," as explained yesterday, there is good chance of



drawing the 1-2-4-7-10 pins spare leave. It is called the "wash-out."

How to convert it? As the sketch shows, it's a two-way deal. You can play it from your regular right-side angle. Shoot to cross the head pin lightly and send it over to knock down the 10, over in the right-hand corner.

Or, shift your position to the left side of the alley, and aim for the 1-2 pocket. That has been, generally, the more successful angle. But at best it's a tough spare and strictly a "bowler's choice" on how to shoot it.

Seixas Heavy Favorite in Good Neighbor Test

MIAMI BEACH, Fla. (INS)—Top seeded Vic Seixas of Philadelphia, who plays today in the quarter-finals of the sixth annual Good Neighbor Tennis Tournament, is expected to encounter little difficulty in the defense of his title.

He eliminated Robert Bedard of Sherbrook, Quebec, yesterday, 4-6, 6-4 and 6-3, while seven other top seeded players advanced with him into the quarter-finals.

Rocky Marciano includes table tennis as part of his training routine to help his timing and coordinaton.

Bolling, Bright in Battle for Tiger 2nd Base Job

Seniors' Champ, Ex-Publinx King in Tourney Match

ST. AUGUSTINE, Fla. (AP)—Tom Robbins, defending champion and medalist in the American Seniors Golf Assn. tournament, meets Bob Wingate, former National Public Links champion, in today's quarter-final round.

Robbins was one under par for 12 holes and that's as far as he had to go to beat Judge Lloyd Beatty of Glen Ridge, N. J. 7 and 6, yesterday.

Wingate beat Bill Diddle of Indianapolis 2 and 1.

Today's other quarter-finals are Edward Randall of Rochester, N. Y., vs Glen Norville of Oklahoma City; Lennox Haldeman of Chicago vs John Roberts of Columbus, Ohio; Judd Brumley of Greeneville, Tenn. vs George L. Hardy of Evanston, Ill.

Roberts had to shoot a par round to beat 69-year-old Fred L. Riggin of Port Huron, Mich. president of the Seniors Association. Riggin was on the verge of shooting his age when he bogied three of the last five holes and lost 1 up.

Boxer Had Fine Start

Hawaiian Choken Maekawa sophomore member of the Michigan State varsity boxing team, won his first two bouts of the 1954 season by first round TKO's.

Boys Club 'Gold Medal' Cage Test This Weekend

Pontiac boys Club is host this weekend to the 2nd annual Gold Medal Basketball tournament. Eight teams from the Michigan-Ohio Boys Club district will compete.

Seventy awards are given to players in the tourney, championship and consolation team members, all-tourney nominees, etc.

Tournament opens at 5 p.m. Friday with Pontiac's Wonders playing Dearborn Thayer Boys Club. Starters for Pontiac will be George Thrasher, Herb Butler, Joe Barron, Jim Blackshear and Bucky Pointer.

The 6:30 game Friday matches Dearborn Roulo club and Detroit Bloomer Branch. At 8 p.m., Dethe Eddie Guest Club of Detroit, and at 9:30, it will be Pontiac "B" team against Toledo.

Pontiac will floor the following starters: Fred Barger, Jessie Gayton, Dick Neaves, Jim Jeffries and Ed Covington.

Semifinal s are slated Saturday at 10:30 a.m. and 1:30 p.m. and finals are Saturday night at 7 p.m.

Semifinals Reached in Women's Tourney

ST. JOSEPH, Mo. (AP) — Defending champion Hanes Hosiery of Winston-Salem, N. C., and Wayland College of Plainview, Tex., apparently were headed today for a showdown in the finals of the Women's National AAU basketball tournament.

Hanes got into the semifinals by bumping the Davenport (Iowa) Brammerettes 50-40. Wayland did it by ousting Nashville (Tenn.) Business College 38-21.

In other quarterfinal games yesterday, Kansas City Dons defeated St. Joseph Goetz Girls 43-35, and Viner Chevrolet nipped Virginia Beach (Va.) Snow Whites 37-35.

State Billiardist Leads World's Champ

CHICAGO (AP)—Harold Worst of Grand Rapids, Mich., had built up a 97-point lead over Ray Kilgore, world's three-cushion billard king from San Francisco, as their 600-point exhibition match reached the halfway mark today.

Worst swept two blocks from Kilgore in yesterday's match. He now has won five out of the six blocks in the 12-block series and has a lead of 300 points to 203 for the champ.

DECEIVING—Sigi Engl appears ready to take an unprofessional flop on his rumble seat, but the Sun Valley, Ida., ski school instructor merely is performing a jump turn.

Rookies Provide Earned Runs as Detroiters Win

Milwaukee Is Beaten, 5-4; Work of Gromek Impressive

LAKELAND, Fla. (AP) — If there is anything hotter than the weather in Florida this spring it's the battle of the "B and B Boys" Frank Bolling and Harry Bright — over the regular second base spot for the Detroit Tigers.

When Bolling is in the game he looks like a cinch for the regular berth. But then Bright makes an appearance and seems to be the answer to manager Fred Hutchinson's second base problem.

But what do you do when you have two hot prospects? It's up to boss Hutch and the Tiger front office to make the final, tough decision.

Bolling and Bright teamed up yesterday to figure in the scoring of all three Detroit earned runs as the Tigers defeated the Milwaukee Braves 5-4 on a two-run ninth inning rally.

After Braves scored once in the first inning off starter Steve Gromek, who gave up only one run and four hits in the six innings he worked, Bolling led off the bottom half of the inning with a home run to tie the score.

Detroit took a 2-1 lead in the fourth on singles by Harvey Kuenn and Ray Boone and an infield error.

Bolling gave way to Bright who drove in Gromek in the fifth with a fence-rattling double.

That was all the scoring for Detroit off Lew Burdette, Milwaukee ace who worked the first six innings. Ernie Johnson, who relieved Burdette, also held Detroit in check.

Frank Lary took over for Detroit in the seventh and the Braves got one run back in that inning. They loaded the bases on two singles and a walk. Then Bill Bruton hit a line single to center sending one runner scampering over but a fine throw by Bill Tuttle cut a second runner down at the plate.

Lary got by the eighth with no damage but was tagged for two more runs that sent Milwaukee into a 4-3 lead in the top of the ninth.

Charley Gorin then came on the mound for the Braves and got by the first two Tigers. Tuttle then worked Gorin for a walk and went to third on Matt Batts' single.

Bonus baby Reno Bertoia followed with a slow tap that was muffed and Tuttle scampered home with the tying run. Batts' moved down to second and Milt Jordan was sent in to run for him. Bright came to bat and poked a single through the box, sending Jordan home with the winning run.

The Tigers try for their second straight victory today against the Cincinnati Red Legs.

Michigan Outdoors: Sports Shows Exhibit Variety of New Gear

By MORT NEFF

Recent sports and boat shows attracting crowds at several Michigan cities have been exhibiting a wide variety of new paraphernalia for the sportsmen — and the unfailing ingenuity of "gadget" inventors year after year is demonstrated again this season. Once more accent is on spinning, according to our personal observations, with all popular lure manufacturers offering new selections of quarter-ounce plugs made to order for the "spider-web" clan.

NEFF

One of the newest additions to the line is the weighted streamer — which will put the spinning rod and reel smack into the trout streams where flyrods have always been preferred.

Three important changes in outboard motor design will be good news to lots of people. First, several leading makers have shock-mounted the motors so that they're much quieter. Next, a starter is available in some larger motors—a starter designed to work on an ordinary light-weight car battery. And finally, one up-and-coming manufacturer includes a self-bailing device in the motor — one of the most sensible improvements we've seen for many years.

ANOTHER RECORD—Babe Zaharias totals her record-breaking 70 after the second round of the Augusta Women's Titleholders Tournament. Score was a mark for gal professionals.

Kite Tourney Preliminaries Set Wednesday

Finals In 7th Annual Event Scheduled for April 17

Registration is now being held at city grade schools for the Pontiac Parks & Recreation Department's 7th annual kite tournament. Preliminaries will be held next Wednesday at the schools.

Competition will be held in two divisions, midget (under 13 years) and junior (under 15 years). Both boys and girls may compete in the test.

One winner in each event at the grade school preliminaries will advance to the finals, scheduled for April 17 at 1 p.m. at Lincoln Junior High School's athletic field.

Medals for all winners will be provided by the Northside Community Club.

Events will include release and fly, 100 yards; release, fly and rewind, 100 yards; hand winding for time, 100 yards; and strong-pulling kite.

Women's Tennis Test Reaches Finals Stage

BROOKLINE, Mass. (AP) — Mrs. Dorothy Levine of Chicago and Miss Lois Felix of Meriden, Conn., meet today in the finals of the Women's National Indoor Singles Championship at the Longwood courts.

Top-seeded Mrs. Levine gained the final yesterday by beating Mrs. Barbara Ward of Moorestown, N. J., 6-3, 6-0, while second-seeded Miss Felix defeated Miss Kay Hubbell of North Conway, N. H., 8-6, 6-2.

Detroiters Roll in ABC

SEATTLE (AP) — Teams from Detroit, Kansas City, Wisconsin Rapids, Wis., and Anchorage, Alaska, make their first appearance in the American Bowling Congress today. Yesterday's action featured Booster teams.

Wildlife Week Centers on Cleaning Up Pollution

By JAMES A. O. CROWE
Associated Press Outdoor Writer

LANSING (AP)—This is National Wildlife Week, whose central theme this year is increased attention to cleaning up water pollution.

So this is a good time to have a look at what is happening on the front in Michigan.

Pres. Eisenhower and Gov. Williams have both proclaimed the week and urged that the public give attention to adequate pollution laws in the states and adequate appropriations to pollution control agencies.

On the first point, Michigan is in pretty good shape. The anti-pollution statute is good and it is being used.

But on the second point, the quiet legislative sabotage of the Michigan Water Resources Commission continues.

For the third straight year, the legislative appropriation committees propose to reduce the appropriation to the commission. This, in the face of rising salary and material costs, inevitably means a reduction in the commission's effectiveness.

The appropriation bill has not been reported out of the Senate finance committee, but as it stands it proposes to appropriate $187,300 for the next fiscal year to the commission. This compares with total allocations to the agency this year of $189,755 and will mean, if the bill is finally approved, that the 23-position staff will have to be cut by at least one.

So while Michigan's pollution problem grows and grows, the legislature continues to reduce the public's defense against it.

Lansing Represented

In a dual wrestling meet against Ohio State during the 1954 season, Michigan State had five Lansing high school graduates entered in the eight-event card.

Honor 2 for Efforts in Conservation Lines

DETROIT—First college professor to be honored by the Detroit Sportsmen's Congress will receive a plaque from the organization at Belle Isle on March 27. He is Dr. Paul A. Herbert, director of the division of conservation at Michigan State College.

At the same time, Elmer A. Pletz of Rogers City, member of the state legislature, will be honored for his conservation activities.

Motor City Plans Opening on May 2

Advent of spring annually brings announcement from Andy Barto that his famed Motor City Speedway—at Eight Mile and Schoenherr—will begin another year of operation, on May 2.

Barto's announcement included the fact that the quarter-mile oval—fastest dirt track—will be asphalt paved this year.

Barto plans to race hard tops, roadsters and AAA midgets at the track this year.

Army Handling of Ballplayers Is Probed

Norris Split Straightened Out Wierd Hockey Setup

NEW YORK (AP)—When James D. Norris and his half-brother and half-sister, Bruce and Marguerite, recently swapped some of their stocks in arenas and hockey clubs, they straightened out a peculiar situation that had its beginning back in the depression days of the 1930s.

It also was a situation which occasionally caused some eyebrow-lifting among sports fans and gave a few pained moments to National Hockey League officials, who considered possible charges of "syndicate" hockey.

* * *

There may have been some league pressure behind the move, but Norris tries to pass the whole thing off lightly and won't give any explanation. Hockey is a secondary activity for Norris, whose big sports job is president of the International Boxing Club.

Situation was that the three Norrises and Arthur Wirtz, who has been closely allied with them for years, owned:

1. Chicago Stadium and the Blackhawks hockey club.

2. Detroit Olympia and the Red Wings hockey club.

* * *

3. A "majority" interest, not full control of Madison Square Garden, which in turn owns the New York Rangers.

They resolved it last month to the satisfaction of hockey people. Jim Norris and Wirtz bought the one-third interest the Norris estate held in the Chicago Stadium and its subsidiaries.

They sold to the other heirs, Bruce and Marguerite, the one third each held in the Olympia and the Red Wings.

* * *

Then, emphasizing the split between Detroit and Chicago, the IBC gave up its Michigan license and ceased operating in Detroit.

* * *

According to reports in NHL circles, the two branches of the Norris family have developed a lively rivalry.

Sports Gear Demands Tax Manufacturers

NEW YORK—The demands of U. S. sportsmen and women are currently taxing the capacity and imagination of some 800 manufacturers of sports equipment to the tune of a billion dollars a year, Life says in its current issue.

This year sporting goods factories will produce 94 million pieces of fishing tackle, 36 million golf balls, 5 million baseball bats, 1½ million football, baseball and basketball suits, the article says.

Golfers will spend a record 80 million dollars on golf supplies. Fishermen and hunters, the biggest sporting group in the country, will spend $350 million on equipment.

Taking note of the postwar boom in water sports, both on the surface and beneath it, the story says that 310,000 craft, from dinghies to yachts, are expected to be sold this year. Boaters will spend $780 million on outboard motors alone, the article says.

Lion Stoned to Death

PRESCOTT, Ariz. (AP)—Wayland Potter of Prescott and his five hunting dogs chased a mountain lion up a tree. Then Potter discovered he had lost his pistol. He started up the tree after the lion but it leaped down. The dogs cornered the lion and Potter then stoned the 100-pound animal to death.

Aquatic Stars Eye New Marks in NCAA Meet

Bumpy Jones Is Among Defending Champions in 31st Annual Test

SYRACUSE, N. Y. (AP)—Swimmers from more than 50 schools will compete in the 31st National Collegiate Swimming Championships starting in the Syracuse University pool tonight, and six defending titleholders hope to set records.

Yoshi Oyakawa of Honolulu, representing Ohio State, leads the list of defenders. He won the 100 and 200-yard backstroke events last year and established new NCAA marks.

Oyakawa also is an Olympic champion. He won the 100-meter event in Helsinki in 1952. His teammate Ford Konno, also from Honolulu, won the 1,500-meter title at Helsinki and is expected to take that event here. He's also a heavy favorite to win the 220 and 440-yard free styles.

Finals in the 1,500 meters free style will take place tonight.

Tomorrow and Saturday, time trials and semi-finals will be raced in the morning and afternoon with finals both nights (8:30 p.m.).

Yale is the defending team champion. Individuals besides Oyakawa who will defend are:

Jerry Harrison, Ohio State, low-board diving; Burwell (Bumpy) Jones, Michigan, 150-yard individual medley; Don Hill, Michigan, 50-yard spring; Johnny Clemons, Illinois, 100-yard breaststroke and Reid Patterson, Georgia, 100-yard free style.

Teams 2, 10 Tied Atop Waterford Archery Loop

Teams number 2 and 10 are tied for the leadership of the Thursday Night Adult Archery League, sponsored at the Community Activities Building by the Waterford Township Recreation department.

Members of Team No. 2 include Bud and Del Hope, and Corby and Olive Hope. Team No. 10 members are Whimp Harvey, Ken Ross, Sid Stark and Joe Lavire.

Tonight's schedule: Team 1 vs 9, 8 vs 10, 7 vs 5, 6 vs 4 and 2 vs 3. Shooting starts at 7 p. m.

United Press Photo

BASKETBALL QUEEN—Eighteen-year-old Loueta Snodgrass, of Independence, Mo., has been chosen Miss International Basketball of 1954. A top scorer on the Ridge Runners team of Grain Valley, Mo., she will participate in the International Women's Basketball Tournament in Kansas City this weekend.

Grasso's Broken Ankle Is Tribe's 1st Major Injury

TUCSON, Ariz. (AP) — Cleveland Indians had only three catchers on the roster today following the team's first major injury—a fractured ankle suffered by Mickey Grasso.

Grasso, who will be sidelined at least three months, had been tentatively listed as Cleveland's No. 2 catcher behind Jim Hegan. Acquired from the Washington Nationsl two months ago in exchange for catcher Joe Tipton, the aggressive Grasso was expected to instill fire into his new teammates.

He was on first base on a fielder's choice in the 5th inning of yesterday's exhibition with the Chicago Cubs when Hal Newhouser hit a slow grounder to the left of the infield. Grasso, thinking he might be forced, slid into 2nd and caught his spikes in the dirt. No play was made at 2nd, but the damage was done. Grasso's left ankle was broken in six places.

Joe Ginsberg and Hal Naragon are the other two Cleveland catchers. Naragon, since he was discharged from the Marines since last season, can be carried above the 25-player limit as an ex-serviceman.

Geese on Way North Rest at Fennville

LANSING (AP)—Thousands of Canada geese have been reported this week in the Fennville State Game Area in the Kalamazoo river bottomlands, state conservation department said today.

Department game workers said up to 10,000 geese have stopped in the game area for a brief rest on their flight to northern nesting grounds.

Total shifts rapidly from day to day, game men said.

Trapping Conditions Bad

LANSING (AP)—Beaver and otter trapping conditions in the northern Lowering Peninsula were described as poor today by the state conservation department. Bad roads offered biggest obstacles.

The trapping season opened March 20 and will close March 31.

Continued low fur prices also discouraged trapper interest.

Wilson Asked About Special Duty for Pros

'Crispino,' Martin and Mays Cases Pointed Out by Solon

WASHINGTON (AP)—Secretary of Defense Wilson has a list of questions about alleged special treatment of baseball players drafted into the army. Rep. Hess (R-Ohio) has asked for the answers.

Basing his inquiries on what he said were a number of newspaper stories, Hess in a letter to Wilson yesterday asked why a number of "these professionals" spent their whole tour of duty at a single post, what their military assignments were and whether any favors were being sought.

Wilson's office said the request would be studied.

The Ohio congressman, chairman of a house armed services subcommittee on defense activities, singled out especially articles dealing with Billy Martin, Yankees' second baseman; Willie Mays, centerfielder for the Giants, and an airman he said was named Crispino and belonged to the Phillies. The Phillies said they had signed a Baltimore catcher named Carlo Crispin, who was now in the air force but expected to be discharged this fall.

Hess quoted passages from the stories to the effect that an army spokesman said Martin had been kept under 6th Army jurisdiction, instead of going to Ft. Ord, Calif., after a top officer said, "Hell, let's get him on our ball club."

Other press excerpts, Hess said, indicated Mays spent his whole 21 months of active duty at Ft. Eustis, Va., and Crispino was starting his third baseball season with the Patrick, Fla., Air Force Base Club.

5 Coaches on Bradley's List

Prospects for Cage Job Include 3 Former ND Players

PEORIA, Ill. (AP) — Five coaches, including three former Notre Dame players, were mentioned in speculation today as successor to Forrest Anderson as Bradley University basketball coach.

Ray Meyer of DePaul, Johnny Dee of Alabama and George Ireland of Loyola (Chicago) — former Irish Stars — were among those mentioned. Others were Dolph Stanley of Beloit and Paul McCall, Bradley star of a dozen years ago who now is coach at Klamath Falls, Ore., High School.

Meyer said he had not been approached by any Bradley official. Three weeks ago DePaul gave him a new five-year contract.

Anderson resigned to take the basketball coaching job at Michigan State.

Soltau Signs for '54

SAN FRANCISCO (AP) — Gordy Soltau, San Francisco 49er end, will be back again next fall to make life miserable for the defensive platoons of the National Football League.

Soltau, who has led NFL scoring the past two seasons, signed yesterday for his fifth season with the 49ers.

Leo's 'No Experiment' Plan May Be Altered by Rookie

PHOENIX, Ariz. (INS)—Foster Castleman, a rookier infielder with only meager minor league experience behind him, may cause manager Leo Durocher to change his "no experiment" campaign with the New York Giants.

The 23-year-old Castleman is the young man Leo is likely to turn to if 2nd-baseman Davey Williams continues to be plagued by a bad back. Durocher regards Williams highly and would like to have the plucky little Texan available for the 154-game grind.

Williams was able to appear in only 95 games last season and Durocher was forced to experiment, using Alvin Dark, Daryl Spencer and Bobby Hoffman at the 2nd-base post.

Along came Castleman this spring and coach Herman Franks claims:

"None of the fellows we tried last year looked as good as Castleman. And he hasn't had much of a chance to learn 2nd base."

Castleman was a shortstop in his two years at Ft. Smith and Knoxville and 20 games played with Minneapolis in the American Association. But the youngster from Jacksonville, Fla., was switched to 2nd base by Franks last winter when he played winter ball in Venezuela.

Castleman has been hitting big league pitching and his play at second base has been capable.

Reports From Majors' Camps

By THE ASSOCIATED PRESS

CLEARWATER, Fla. (AP)—Searching around for more infield strength, Washington Senators reportedly are negotiating with Boston for Ted Lepcio, second baseman-shortstop.

PHOENIX, Ariz. — Sal Maglie "the Old Barber" looks to be ready and if he is the New York Giants could become real threats in the National League. Maglie went six innings against the Baltimore Orioles yesterday, and ran his runless skein to 13 innings before the American Leaguers tapped him for three runs in the sixth.

TAMPA, Fla. — Pitcher Tom Hurd has been released unconditionally to Charleston of the American Assn. and the Chicago White Sox will cut off two more hurlers shortly. Expected to be on the move before the weekend are Gus Keriazakos and Dick Strahs.

TUCSON, Ariz.—Shortstop Roy Smalley's shipment to the Braves instead of the Phillies was defended today by Wid Matthews, Chicago Cubs personnel director.

In view of reports that the Phillies were charging collusion against them in the Cubs-Braves deal for Smalley, Matthews said:

"I had promised Bob Carpenter (Phils' president) first chance at Smalley if we decided to dispose of him. We conferred March 16 at Clearwater, Fla., and he said he would call me within 24 hours. I haven't heard from him yet."

BRADENTON, Fla. — Third baseman Eddie Mathews came up with a sore leg yesterday and was excused from making a trip to Lakeland where the Milwaukee Braves dropped an exhibition to Detroit.

WEST PALM BEACH, Fla. — Philadelphia Athletics have a lengthy disabled list.

When the A's traveled to Fort Pierce yesterday to play the Pirates, Gus Zernial, Don Bollweg, Bobby Shantz and Spook Jacobs remained behind for treatment of various ailments. Tommy Giordano, Billy Shantz, Harry Minor and Cookie Stemple were bedridden by grippe.

The poorest record ever compiled by a Duke University basketball team was in 1927 when the Blue Devils won only four of 14 games.

King Interested in State

LANSING, Mich. (AP) — Michigan residents long have known their hunting and fishing was fit for a king. Now a king has to find out some more about it. The ruler of Afghanistan has requested films on hunting and fishing from Michigan's Conservation Department.

Teamsters Start Drive to Enroll Car Salesmen

DETROIT (UP) — The AFL Teamsters Union has begun its second attempt to organize automobile salesmen. An original drive several years ago failed.

James R. Hoffa, Detroit Teamsters head and national vice president, announced the new drive Wednesday. He said it has begun with salesmen employed by Ford and Chevrolet dealers in the Detroit area. A new local has been chartered to enroll men who sell new and used cars.

Movie Oscars to Be Awarded on TV Tonight

By BOB THOMAS

HOLLYWOOD (UP) — Oscar will have his biggest audience tonight when the 26th annual Academy Awards are handed out before millions of lookers and listeners on TV and radio.

The biggest star splurge in television history will be seen tonight when Hollywood's top blowout is beamed over NBC.

It starts at 10:30 p.m., EST.

The hour-and-a-half show will be telecast over 106 stations and heard on 195 radio outlets. The armed forces radio service will send the broadcast to 75 stations from Point Barrow, Alaska, to Pago Pago, Samoa.

* * *

The Oscar winners will even be heard behind the Iron Curtain via the AFRS station at Bremerhaven and the Blue Danube network.

For the first time in the academy's long and stormy history, the Oscar event will be staged visually for the benefit of TV viewers. Director-designer Mitchell Leisen, whose films are noted for eye appeal, is putting on the affair. Among the innovations is a huge billboard which will appear at the start of the show. It is located on Hollywood and Vine, a few doors from the Pantages Theater, scene of the event.

Some of the lesser awards — editing, music, art director, costume design — will be illustrated with film clips or designs from the nominated pictures. These awards have long been a bugaboo to the program makers since they mean little to the general public.

* * *

The song nominations will be danced as well as sung. Among the performers are Ann Blyth, Mitzi Gaynor, Dean Martin, Vic Damone, Donald O'Connor and Connie Russell. The song race is considered a tight match between "That's Amore" and "Secret Love," both top current favorites.

How much will all this cost? The sponsor, Oldsmobile, is shelling out $275,000. The academy gets $115,000 to stage the event, and NBC gets the rest for time charges, etc.

Academy members have paid $12 for downstairs seats at the Pantages, and the public can sit in the balcony for $9.60 and $6.

* * *

They and the TV audience will see a parade of stars. Among those scheduled to present the awards are Elizabeth Taylor, Michael Wilding, Esther Williams, Marge and Gower Champion, Gene Tierney, Jack Webb, Kirk Douglas, Irene Dunne, Walter Brennan, Mercedes McCambridge and Cecil B. DeMille.

In keeping with tradition, the top winners of last year will present the best actor and actress of 1953. But this will be accomplished by long distance.

Gary Cooper, who won last year for "High Noon," will be featured on a film clip reading the nominees for the best actress award. Cooper is now in Mexico making a movie, just as he was when he won last year.

Shirley Booth, winner for "Come Back, Little Sheba" last year, will be seen on direct telecast from Philadelphia, where she is trying out a play. She will read the nominees, then appear on a split screen with emcee Donald O'Connor, who will announce the winner.

Part of the telecast will also be made from New York, where a number of the nominees will be gathered.

Rules Case Is Suicide

COLDWATER (UP) — Justice Dan Rogers of nearby Bronson held Wednesday that William Randall Milliman, a 55-year-old Bronson farmer, had committed suicide. Milliman's body was found at his home. He had been fatally wounded by a shotgun blast. Rogers, acting coroner, said Milliman had been despondent for several years.

U-M Teacher in Hospital

ANN ARBOR (UP) — Katherine Anne Porter, 60-year-old author-traveler, was taken to University Hospital Wednesday following a heart attack while teaching a writing class at the University of Michigan. Among her better known short stories are "Flowering Judas," and "Pale Horse, Pale Rider."

BURNING "DOLLARS"—Gas escaping from a well 10 miles southwest of Hobbs, N. M., is burning at the rate of $1.16 worth every second. That's an estimated 100,000,000 cubic feet a day, enough to supply a city the size of Ft. Worth, Tex., with all the fuel it needs. Gas was ignited when it was forced from the well by underground pressure, causing either a friction spark or an arc in a broken electric lamp. The steel drilling derrick over the well melted and toppled over within two hours. The charred mass at left (arrow) was a $38,000 well-cementing truck caught too close to the well when the gas "blew."

Christmas Now for Little Ginger

Girl Recovering After Months of Darkness, Silence, Stillness

BREMERTON, Wash. (UP)—Ginger Gray's first words on coming out of a world of darkness, silence and stillness were:

"What did I get for Christmas?"

To Mrs. Ernest Gray, the 11-year-old girl's mother, hearing those words is what she got for Christmas — even though belatedly. And now, Ginger is moving about, talking and seeing in a world she very nearly left last Dec. 25.

The plucky little girl was injured in an automobile accident that morning — so badly doctors gave her only a few hours to live. Somehow she held on but she never moved for two months.

Then she emerged slowly from the coma that had gripped her; but she was sightless and could not talk or move. Her mother, on constant attendance, detected little changes, saw that her eyes appeared to see and that she was trying to talk.

"One day," Mrs. Gray recalled yesterday, "I told her to close her eyes if she were trying to talk to me. She did, and I knew she knew me."

Then one day she asked the unforgettable words about Christmas and improvement became more noticeable every day.

Last week, the mother recalled, the doctor said "Ginger can go home tomorrow." The mother who had fought so long to control her emotions no longer could.

"I just fell across her bed and cried and cried," Mrs. Gray said, and "Ginger said, 'Don't cry, Mama — I'm well — now.' "

She almost is, too. She goes for little walks now, learning to use her legs again. And talking is coming back gradually, but surely.

Legislature Fails to Pass Bill to Rename Highway

LANSING (UP) — A House bill naming U.S.31 in Oceana and Mason Counties "Pere Marquette Highway" failed to win Senate approval Wednesday.

The measure, sponsored by Rep. Kenneth Trucks (R-Baldwin) and Rep. John Kruse (R-Manistee), received only 13 favorable votes, four short of passage.

Prior to passage, the bill was amended to eliminate Manistee County.

Detroit-Area Accidents Kill 2

53-Year-Old Woman Is Thrown From Car; Youth Dies in Headon Crash

DETROIT (INS)—Two persons were killed in separate traffic mishaps in the Detroit area, one an 18-year-old Nankin Township youth driving at high speed on the wrong side of the road early today.

The victims were 18-year-old Lovell A. Nunnery of Nankin Township and Mrs. Nancy Scarsella, 53, of Dearborn.

Nunnery died when his car plowed head-on into one driven by 33-year-old General H. Allen of Waltz.

A third motorist said Nunnery passed him at a high rate of speed at Wayne and Sheridan Roads in Nankin Township and failed to go back into the proper lane. Allen, a father of five children, was in critical condition.

Mrs. Scarsella was killed last night when she was thrown to the pavement in a collision in Dearborn. The cars involved were driven by Mrs. Scarsella's husband, Anthony, and 46-year-old Willard Brown of Allen Park. Both drivers, who required only first aid, claimed they were proceeding with the green light (at Michigan and Miller).

The number of franchised new car dealers in the United States who handled two or more makes of cars declined from 7,142 in 1953 to 6,950 in 1954.

Son's Absentee Ballot Swings Post for Pop

MINERSVILLE, Pa. (UP) — Norman Batheiser is Pine Grove Township's new tax collector because a soldier didn't forget to vote.

Unofficial returns in the balloting for the post showed Batheiser and his opponent deadlocked with 35 votes. The lone military ballot sent in gave Batheiser a one-vote margin. It was sent from an Army post in South Carolina by Batheiser's son.

U.S. Doesn't Yet Know How to Handle Red Trade

By FRANK O'BRIEN

WASHINGTON (AP)—Russia is often long on grandiose schemes in international affairs but a short and sharp trade in actual performance.

Just now Moscow is conjuring up a vision of 800 million customers, from Germany to Indochina, for Western production and has offered to buy a billion dollars' worth of goods from Britain from 1955 through 1957.

Officials of the U.S. Commerce Department see these feelers as part of a campaign they believe will soon wind up with a call for a return to normal trade relations.

* * *

These officials are among the men who will contribute to the final decision on the free world's reply to the expected Soviet offer. What it will be they will not say.

* * *

It is estimated in Washington that Russian imports from the West declined from 480 million dollars in 1952 to about 300 million in 1953, while Russian exports declined from around 460 million to about 280 million. The export decline was chiefly due to failure to deliver as much grain to Britain as the Soviet had promised.

But if Russia's 1953 trade performance was sour, its promises were sweeter than ever. Here is a roundup, from a previously confidential government report, of how the Soviet trade offensive developed:

Mikhail A. Menshikov, a former U.S.S.R. minister of foreign trade, was sent as ambassador to India "to negotiate a formal arrangement of trade." Another top Soviet trade official was sent to Argentina to arrange a bilateral trade agreement.

* * *

Bilateral agreements were signed with France, Greece and Iceland. These are barter agreements, providing an exchange of certain Soviet goods for certain Western goods.

* * *

Russia placed ship-building contracts with the United Kingdom, Italy, France, Finland, The Netherlands and Denmark and was negotiating at the end of 1953 with ship firms in Belgium and West Germany. Ships ordered included fishing trawlers, cargo ships, refrigerator ships, dredgers, floating cranes, tugboats, barges and tankers.

For the first time in Communist Russia's history, the Soviet Union in 1953 committed itself to send industrial equipment outside the Communist world.

India and Argentina were chosen for the experiment. Agreements with the two countries call for Soviet exports of machine tools, ball bearings, oil drilling equipment, mining equipment, excavators, bulldozers, electric power equipment, testing and measuring instruments and farm machinery. The Argentine agreement was reportedly for Russian exports of 30 million dollars.

* * *

But with all this, Russia's 1953 foreign trade with the non-Communist world amounted to only 10 per cent of its total six-billion-dollar foreign trade, it is estimated in Washington. The rest was trade with Communist allies and satellites.

* * *

Any threat of increased unemployment in Western Europe would have a powerful effect on governments there. Up to now that threat has been met by the great economic expansion of recent years in this country, and by large-scale foreign aid.

Political events here at home must also be taken into account. The feeling of Congress, which often runs at fever-pitch on the question of trade with the Reds, can hardly be ignored.

* * *

And what of the domestic political effects of refusing to sell huge agricultural surpluses while agricultural prices are falling? Or of turning away any genuine Soviet trade offers that would make jobs at a time when unemployment, though still small on a national scale, is rising?

These questions best illustrate the dilemma the West must solve in deciding whether a new tack must be taken in cold war trade with Soviet Russia. The answer could reverberate around the world for years to come.

Self-Treatment Perilous

INDIANAPOLIS (AP) — Self-treatment of skin rashes and itches can often make troubles worse, firing up allergic-type reactions to the remedies used, two Indian physicians report. By patch test, they found that one-fourth of a group of patients had skin troubles caused by one of a succession of remedies they'd used. The report is by Drs. L. E. Gaul and G. B. Underwood in the Indiana State Medical Association Journal.

Old Soybeans at '48-'54 High

CHICAGO (AP)—Old crop soybeans ran up into new high ground since 1948 in active dealings on the board of trade today.

May soybeans hit $3.71½, a new six-year peak, while July reached $3.71. They both backed down a little from that level but held above the previous close. New crop soybeans firmed early but then slipped back below the previous close.

Wheat started out strong but ran into opposition which wiped out early gains. Corn held quite firm.

Wheat near the end of the first hour was ⅝ to 1¼ lower, May $2.21⅞, corn ⅛ to ½ higher, May $1.54¼, oats ⅝ lower to ¼ higher, May 75, rye 1 to 1¾ lower, May $1.08¾, soybeans ½ lower to 3¼ higher, May $3.70 and lard 8 to 32 a hundred pounds higher, May $18.77.

Market Jumps Back and Forth

NEW YORK (AP)—Gains and losses were liberally mixed today in the stock market in early trading. Changes went to a point either way.

Pennsylvania Railroad held attention with a fall to a new low for the year. The stock opened on 10,000 shares off ⅜ at 16⅛. It was down ⅝ yesterday when directors failed to declare a dividend at their March meeting as they did a year ago.

Railroads as a group were slightly lower along with the steels, most chemicals, and oils. The remainder of the market was mixed or steady. Motors, however, displayed slightly higher tendency.

Among lower stocks were U. S. Steel, Douglas Aircraft, Dow Chemical, General Electric, Southern Pacific, and Texas Co.

Higher were General Motors, Boeing, Allied Chemical, American Woolen, Eastern Air Lines, and Paramount Pictures.

Yesterday's market was lower for the second straight session with selling pressure meeting only slight resistance.

Foreign Exchange

NEW YORK (AP)—Foreign exchange rates follow (Great Britain in dollars, others in cents):

Canadian dollar in New York open market 2 27/32 per cent premium or 102.84¾ U.S. cents, unchanged.

495,575 Own Shares in GM; Many Are New

DETROIT (AP) — Nearly half a million persons own General Motors Corp., biggest of the world's industrial corporations.

Figures by the corporation today listed 495,575 owners of GM common and preferred stock. The total contrasts with 494,372 in the fourth quarter of 1953 and with 488,827 in the first quarter of 1953.

The statement said nearly 70,000 persons have become GM shareholders since the end of World War II. Many others have owned an interest for 30 years or more.

The most recent total included 466,155 owners of common stock, 19,979 owners of the $5 series preferred and 9,441 owners of the $3.75 series preferred.

Business Briefs

Michigan construction contract awards for February zoomed to $118,563,000 or 132 per cent higher than January and 223 per cent higher than the previous February, Dodge Marketing Reports said Wednesday.

Pan American World Airways plan to introduce the installment buying principle to air transportation on a nationwide basis beginning May 1, Willis G. Lipscomb, vice president traffic and sales, announced today.

The Canadian National Railways' report for 1953 shows that a surplus of $244,017 was available for payment as a dividend on preferred stock held by the Canadian government. The report from Ottawa said higher freight rates helped boost operating revenues to a record level, but a decline in traffic and wage increases more than offset this gain.

President Alfred Epstein announces Michigan distributors of the Pfeiffer Brewing Co. will meet at the Sheraton Cadillac Hotel Saturday. Speakers will include Frank Hamilton, vice president and general superintendent; Herbert Epstein, vice president, and Jack Berno, general sales manager. Distributors and their wives will be guests at a banquet Saturday evening. Those in attendance from Pontiac will include Mr. and Mrs. Ted Bookmeyer and Mr. and Mrs. Mike Ware.

Negotiate Tomorrow in Chris Craft Row

DETROIT (AP) — Negotiations aimed at settling a week-long AFL strike against three Chris Craft Corp. plants begin here tomorrow under direction of federal and state mediators.

The mediators will meet with company representatives and a joint AFL committee representing carpenters, painters, upholsterers and machinists.

Some 2,000 members of the AFL Carpenters, Painters and Machinists Union walked out of the boat building firm's plants at Holland, Algonac and Cadillac. They struck in a dispute involving a wage increase and fringe benefits.

About 48 workers passed through the lines yesterday and reported for day shift jobs. A brief disturbance resulted in damage to a worker's car. There were no injuries.

1 Million New Cars to Be on Road by April

DETROIT (UP) — Registrations in February indicate there will be more than 1,000,000 new cars on the road by the end of this month, a statistical firm said today.

The firm, R. L. Polk & Co., estimated that 389,000 new cars were registered in the United States last month, compared with 396,588 in February, 1953. Polk's estimate was based on tabulations in 27 states.

Funeral service will be held Friday, March 26th at 2:30 p. m. at the Community Bible Church, Davisburg, Mich. with Rev. John Bell officiating. Interment in Lakeview Cemetery, Clarkston, Mich. Mrs. Young will lie in state at the Pursley Funeral Home until 12:30 p. m. Friday, then she will be taken to the church.

Card of Thanks 1

I WISH TO THANK THE NEIGHbors of Oak Street, all my friends of the Stone Baptist Church, also Rev. Dickens and the Dudley Funeral Home for their kindness and sympathy during the illness and death of my beloved husband, Andrew P. Pearson. Irene G. Pearson.

WE WISH TO THANK OUR RELAtives, friends and neighbors, Mr. Sharp's Funeral Home and Rev. Halk for their kind words and acts of kindness during the sickness and death of our Father, Charles Cline.
Mrs. Jessie Weber, Mrs. Clara Pruitt and Mrs. Bernice Schiel.

In Memoriam 2

IN LOVING MEMORY OF JAMES Walter Mabry, who passed away 1 yr. ago today, March 25, 1953.
Nothing can ever take away
The love a heart holds dear;
Fond memories linger every day,
Remembrance keeps him near.
Sadly missed by his wife, Mrs. Anna Mabry and all the children.

IN LOVING MEMORY OF PHYLIS Hallenbeck, who passed away 14 years ago March 23.
Today recalls sad memories,
Of a loved one gone to rest
And those who think of her today
Are the ones who loved her best.
Sadly missed by Robert Hallenbeck and Family.

IN LOVING MEMORY OF OUR dear mother, Christine Creger, who passed away 7 years ago March 25.
At home in the beautiful hills of God
By the valley of rest so fair,
Someday, sometime, when our task is done
We will meet you there.
You loving daughter Hazel, son in law, Alpheus Thompson.

IN REMEMBRANCE OF THE birthday today of our beloved wife and mother, Mrs. Clista Campbell who passed away Sept. 1, 1949 —Husband Earl, Children Junior, Mabel, Margaret and Grandson Ronnie.

IN LOVING MEMORY OF OUR beloved father and grandfather, Charles E. Canterburry, who passed away 2 years ago, March 25. Today recalls sad memories of a loved one gone to rest; and those who think of him today are the ones who loved him best. His daughter and son-in-law, Mr. and Mrs. James Fitzpatrick, His grandchildren, Barbara and Bob.

Plays Grayling in 'Brighter Day'

Pair Had Traveled Over 45 States Doing Shorts From Famous Dramas

NEW YORK—Hal Holbrook, who portrays Grayling, only son of the Rev. Richard Dennis in television's daytime serial, The Brighter Day, came to television only recently—after five years of trouping through 45 of the United States and throughout Canada in the husband-and-wife acting team of Hal and Ruby Holbrook.

The Holbrooks' peregrinations, via station wagon, began shortly after Hal's graduation, in June 1948, from Denison University in Granville, Ohio.

While students at Denison, he and Ruby worked up, under the tutelage of Prof. Edward A. Wright, head of the drama department, a repertoire of scenes from historical plays and original sketches.

Thus armed, they took to the road for a 30-week tour of high school auditoriums. As their acting reputation grew, they were booked into the field of colleges, women's clubs, and civic centers.

When daughter Victoria was born on April 22, 1952, Hal and Ruby decided to terminate their joint acting career. Giving up the small apartment they maintained in Granville, they headed for New York, where Hal began "making the rounds" on his own.

He rates the permanent role of Grayling in The Brighter Day as his big break.

Hal was born in Cleveland, Ohio, on Feb. 17, 1925. When he was 2, the family moved to South Weymouth, Mass.

In his prep school years, Hal attended Culver Military Academy in Indiana, then matriculated at Denison University. In 1943, he went into the Army.

It was while serving with the Engineers in Newfoundland that he met Ruby. In 1946, he returned to Denison University, where Mrs. Holbrook also registered as a student.

Holbrook has done eight years of summer stock—five of them in Ohio during and after his college years, and three with the Valley Players in Holyoke, Mass.

In his prep school and college years, he was a track star and excelled in boxing and skiing.

Hal is 6 feet; weighs 165.

City Man Pays $100 Fine in Drunk Driving Case

Gerald Gibson, 31, of 133 W. Brooklyn Ave., was fined $100 with costs for drunk driving yesterday by Waterford Township Justice Willis D. Lefurgy.

State Police said Gibson's auto struck another car Tuesday, pushing it into a third vehicle at M58 and Pontiac Lake road. Gibson's father, Charles, 73, is reported in good condition today at Pontiac General Hospital with face and neck injuries. Three others suffered minor injuries.

VIOLINISTS AT PIANO — World famous violinist Jascha Heifetz plays a piano duet with his son Jay, 5, in their Beverly Hills, Calif., home. With a fine musical background Jay may follow in his father's footsteps.

Former Leader Points Out Error in Political Moves of Social Action Groups

History of the Council for Social Action of the Congregational Church was reviewed by the Rev. Russell J. Clinchy at the parish dinner of the First Congregational Church Wednesday evening. Dr. Clinchy is a member of the representative board of the denomination and a former member of the board of the denomination's national Council for Social Action.

Although Dr. Clinchy was one of the leaders in the Social Action movement at its start, he later became critical of what he felt were its fundamental errors and has in later years been a leader in the movement to halt the council's efforts to exert political influence in the name of the church.

Establishment of the national Council and of the Social Action Committees in the various local churches was a natural outgrowth of widespread unemployment in the 1930's, Dr. Clinchy said.

The ministers and laymen wanted to help and to be of service. But they did not know just where they were going, and at times they were unfortunate in their choice of leaders.

They felt that they had the right to speak for all the membership of the church, although neither they nor anyone else had taken steps to learn the views of the membership. They set up a representative in Washington, who listed himself and the national council as lobbyists, appearing before Congressional committees in behalf of socialized medicine, an FEPC, federal aid to education, and other causes, and declaring that they spoke "for a million Congregationalists."

Later, in the 1940's, they developed the idea that the denomination as an organized and incorporated group must express its opinion on these political issues.

In taking this stand, said Dr. Clinchy, the council was denying the fundamental concept of Congregationalism, which holds that each individual is free to interpret the Bible as he understands it.

Dr. Clinchy paid tribute to the Rev. Malcolm Burton, pastor of the local church, for the important part he has played through his writings in influencing the denomination to hold fast to the fundamental principles of Congregationalism.

Mrs. Paul Taylor was chairman of the dinner program. David Wilson played two piano numbers.

Most greenhouses where commercial orchids are grown must be kept very warm, but for some species, the greenhouse must be refrigerated.

Unbelievers See Believable Ape in West Branch

WEST BRANCH (UP) — School children and a few unbelieving adults streamed through Dr. Robert Rea's animal hospital today to see a monkey that suddenly appeared in West Branch with an air of mystery and an appetite for bananas.

The monkey first made his appearance by crashing a bridge party at the home of Mrs. Margaret Hobohm.

Mrs. Hobohm heard a scratching at the door. She thought it was a cat. But she opened the door, and there he was—the monkey.

Police began a merry chase for the elusive creature. They were still chasing him at nightfall, but on the following morning he was discovered atop a garage.

A banana lured him to his capture. Authorities then turned him over to Dr. Rea and began an unsuccessful search for his owner.

Owosso Debater Wins State Forensic Award

ANN ARBOR (UP)—A 16-year-old Owosso boy is the winner of the 37th annual Michigan High School Forensic Assn. state-wide debating contest.

Howard Suber, a high school junior, was selected Wednesday by a panel of University of Michigan faculty members as the best of six finalists after competition here.

Recent Births

Below are recent births reported to Pontiac City Health Department. The father's name is given for each child.

Boys

John S. Fridrick, Waterford

Allan Smith, 171 Jefferson
Lois L. Spears, Pontiac Township

Fresh water clams are parasites of fish for the early part of their lives.

58 Head of Cattle Die in Cadillac Barn Fire

CADILLAC (UP) — Fifty-eight head of cattle died in a fire in the barn of Marshall Sweigert on the city's outskirts Wednesday.

City firemen, fighting the blaze for seven hours, stretched a hose nearly a quarter mile from the nearest water hydrant. Four head of cattle and a horse were saved.

Sweigert estimated the partly insured loss at $15,000.
